M. Piping. Piping in irrigation systems must be designed and installed so that the flow of water in the pipe will not exceed a velocity of five feet per second for polyvinyl chloride (PVC) pipe.

N. Irrigation zones. Irrigation systems shall have separate zones based on plant material type, microclimate factors, topographic features, soil conditions, and hydrological requirements.

O. Master valve. When provided, a master valve shall be installed on the discharge side of the backflow prevention device on all new installations.

P. PVC pipe primer solvent. All new irrigation systems that are installed using PVC pipe and fittings shall be primed with a colored primer prior to applying the PVC cement in accordance with the International Plumbing Code (Section 605).

Q. Isolation valve. All new irrigation systems must include an isolation valve between the water meter and the backflow prevention device.

R. Pipe installation standard.

1. If the manufacturer has not published specifications for depth coverage of piping, the piping must be installed to provide minimum depth coverage of six inches of select backfill, between the top of the pipe and the natural grade of the topsoil. All portions of the irrigation system that fail to meet this standard must be noted on the irrigation plan. If the area being irrigated has rock at a depth of six inches or less, select backfill may be mounded over the pipe. Mounding must be noted on the irrigation plan and discussed with the irrigation system owner or owner's representative to address any safety issues.

2. If a utility, man-made structure, or roots create an unavoidable obstacle, which makes the six-inch depth coverage requirement impractical, the piping shall be installed to provide a minimum of two inches of select backfill between the top of the pipe and the natural grade of the topsoil.

3. All trenches and holes created during installation of an irrigation system must be backfilled and compacted to the original grade.

S. Water contained within the piping of an irrigation system is deemed to be non- potable. No drinking or domestic water usage, such as, but not limited to, filling swimming pools or decorative fountains, shall be connected to an irrigation system. If a hose bib (an outdoor water faucet that has hose threads on the spout) is connected to an irrigation system for the purpose of providing supplemental water to an area, the hose bib must be installed using a quick coupler key on a quick coupler installed in a covered purple valve box and the hose bib any hoses connected to the bib must be labeled "non-potable, not safe for drinking." An isolation valve must be installed upstream of a quick coupler connecting a hose bib to an irrigation system.

T. Beginning January 1, 2010, either a licensed irrigator or a licensed irrigation technician shall be on-site at all times while the landscape irrigation system is being installed. When an irrigator is not onsite, the irrigator shall be responsible for ensuring that a licensed irrigation technician is on-site to supervise the installation of the irrigation system.

(Ord. No. 17900, § 4, 10-30-2012)

Editor's note—Ord. No. 17900, § 4, adopted October 30, 2012, amended § 18.47.090 in its entirety to read as herein set out. Former § 18.47.090, pertained to design and installation: minimum requirements, and derived from Ord. No. 17041, § 1, 12-23-2008.

18.47.100 Completion of Irrigation System Installation.

Upon completion of the irrigation system, the irrigator or irrigation technician who provided supervision for the on-site installation shall be required to complete four items:

(1) a final "walk through" with the irrigation system's owner or the owner's representative to explain the operation of the system;

(2) The maintenance checklist on which the irrigator or irrigation technician shall obtain the signature of the irrigation system's owner or owner's representative and shall sign, date, and seal the checklist. If the irrigation system's owner or owner's representative is unwilling or unable to sign the maintenance checklist, the irrigator shall note the time and date of the refusal on the irrigation system's owner or owner's representative's signature line. The irrigation system owner or owner's representative will be given the original maintenance checklist and a duplicate copy of the maintenance checklist shall be maintained by the irrigator. The items on the maintenance checklist shall include but are not limited to:

(A) the manufacturer's manual for the automatic controller, if the system is automatic;

(B) a seasonal (spring, summer, fall, winter) watering schedule based on either current/real time evapotranspiration or monthly historical reference evaportranspiration (historical ET) data, monthly effective rainfall estimates, plant landscape coefficient factors, and site factors;

(C) a list of components, such as the nozzle, or pump filters, and other such components; that require maintenance and the recommended frequency for the service; and

(D) the statement, "This irrigation system has been installed in accordance with all applicable state and local laws, ordinances, rules, regulations or orders. I have tested the system and determined that it has been installed according to the Irrigation Plan and is properly adjusted for the most efficient application of water at this time."

(3) A permanent sticker which contains the irrigator's name, license number, company name, telephone number and the dates of the warranty period shall be affixed to each automatic controller installed by the irrigator or irrigation technician. If the irrigation system is manual, the sticker shall be affixed to the original maintenance checklist. The information contained on the sticker must be printed with waterproof ink and include;

(4) The irrigation plan indicating the actual installation of the system must be provided to the irrigation system's owner or owner representative.
(Ord. 17041, § 1, 12-23-2008)

18.47.110 Maintenance, Alteration, Repair, or Service of Irrigation Systems.

(a) The licensed irrigator is responsible for all work that the irrigator performed during the maintenance, alteration, repair, or service of an irrigation system during the warranty period. The irrigator or business owner is not responsible for the professional negligence of any other irrigator who subsequently conducts any irrigation service on the same irrigation system.

(b) All trenches and holes created during the maintenance, alteration, repair, or service of an irrigation system must be returned to the original grade with compacted select backfill.

(c) Colored PVC pipe primer solvent must be used on all pipes and fittings used in the maintenance, alteration, repair, or service of an irrigation system in accordance with the International Plumbing Code (Section 605).

(d) When maintenance, alteration, repair or service of an irrigation system involves excavation work at the water meter or backflow prevention device, an isolation valve shall be installed, if an isolation valve is not present.
(Ord. 17041, § 1, 12-23-2008)

18.47.120 Reclaimed Water.

Reclaimed water may be utilized in landscape irrigation systems if:

(1) there is no direct contact with edible crops, unless the crop is pasteurized before consumption;

(2) the irrigation system does not spray water across property lines that do not belong to the irrigation system's owner;

(3) the irrigation system is installed using purple components;

(4) the domestic potable water line is connected using an air gap or a reduced pressure principle backflow prevention device, in accordance with Title 30, Texas Administrative Code, Section 290.47(i) (relating to Appendices);

(5) a minimum of an eight inch by eight inch sign, in English and Spanish, is prominently posted on/in the area that is being irrigated, that reads, "RECLAIMED WATER — DO NOT DRINK" and "AGUA DE RECUPERACION — NO BEBER"; and

(6) backflow prevention on the reclaimed water supply line shall be in accordance with the regulations of the city's water provider.

(7) shall be approved by the El Paso Water Utilities before calling for a final inspection.
(Ord. 17041, § 1, 12-23-2008)

18.47.130 Advertisement Requirements.

(a) All vehicles used in the performance of irrigation installation, maintenance, alteration, repair, or service must display the irrigator's license number in the form of "Ll _____" in a contrasting color of block letters at least two inches high, on both sides of the vehicle.

(b) All forms of written and electronic advertisements for irrigation services must display the irrigator's license number in the form of "Ll _____." Any form of advertisement, including business cards, and estimates which displays an entity's or individual's name other than that of the licensed irrigator must also display the name of the licensed irrigator and the licensed

irrigator's license number. Trailers that advertise irrigation services must display the irrigator's license number.

(c) The name, mailing address, and telephone number of the commission must be prominently displayed on a legible sign and displayed in plain view for the purpose of addressing complaints at the permanent structure where irrigation business is primarily conducted and irrigation records are kept.
(Ord. 17041, § 1, 12-23-2008)

18.47.140 Contracts.

(a) All contracts to install an irrigation system must be in writing and signed by each party and must specify the irrigator's name, license number, business address, current business telephone numbers, the date that each party signed the agreement, the total agreed price, and must contain the statement, "Irrigation in Texas is regulated by the Texas Commission on Environmental Quality (TCEQ), MC-178, P.O. Box 13087, Austin, Texas 78711-3087. TCEQ's website is: www.tceq.state.tx.us." All contracts must include the irrigator's seal, signature, and date.

(b) All written estimates, proposals, bids, and invoices relating to the installation or repair of an irrigation system(s) must include the irrigator's name, license number, business address, current business telephone number(s), and the statement: "Irrigation in Texas is regulated by the Texas Commission On Environmental Quality (TCEQ) (MC-178), P.O. Box 13087, Austin, Texas 78711-3087. TCEQ's web site is: www.tceq.state.tx.us."

(c) An individual who agrees by contract to provide irrigation services as defined in Title 30, Texas Administrative Code, Section 344.30 (relating to License Required) shall hold an irrigator license issued under Title 30, Texas Administrative Code, Chapter 30 (relating to Occupational Licenses and Registrations) unless the contract is a pass-through contract as defined in Title 30, Texas Administrative Code, Section 344.1(36) (relating to Definitions). If a pass-through contract includes irrigation services, then the irrigation portion of the contract can only be performed by a licensed irrigator. If an irrigator installs a system pursuant to a pass-through contract, the irrigator shall still be responsible for providing the irrigation system's owner or through contract, the irrigator shall still be responsible for providing the irrigation system's owner or owner's representative a copy of the warranty and all other documents required under this chapter. A pass-through contract must identify by name and license number the irrigator that will perform the work and must provide a mechanism for contacting the irrigator for irrigation system warranty work.

(d) The contract must include the dates that the warranty is valid.
(Ord. 17041, § 1, 12-23-2008)

18.47.150 Warranties for Systems.

(a) On all installations of new irrigation systems, an irrigator shall present the irrigation system's owner or owner's representative with a written warranty covering materials and labor furnished in the new installation of the irrigation system. The irrigator shall be responsible for adhering to terms of the warranty. If the irrigator's warranty is less than the manufacturer's warranty for the system components, then the irrigator shall provide the irrigation system's owner or the owner's representative with applicable information regarding the manufacturer's warranty period. The warranty must include the irrigator's seal, signature, and date. If the warranty is part of an irrigator's contract, a separate warranty document is not required.

(b) An irrigator's written warranty on new irrigation systems must specify the irrigator's name, business address, and business telephone number(s), must contain the signature of the irrigation system's owner or owner's representative confirming receipt of the warranty and must include the statement: "Irrigation in Texas is regulated by the Texas Commission on Environmental Quality (TCEQ), MC-178, P.O. Box 130897, Austin, Texas 78711-3087. TCEQ's website is: www.tceq.state.tx.us."

(c) On all maintenance, alterations, repairs, or service to existing irrigation systems, an irrigator shall present the irrigation system's owner or owner's representative a written document that identifies the materials furnished in the maintenance, alteration, repair, or service. If a warranty is provided, the irrigator shall abide by the terms. The warranty document must include the irrigator's name and business contact information.
(Ord. 17041, § 1, 12-23-2008)

18.47.160 Duties and Responsibilities of City Irrigation Inspectors.

A licensed irrigation inspector shall enforce the ordinance of the city, and shall be responsible for:

(1) verifying that the appropriate permits have been obtained for an irrigation system and that the irrigator and installer or irrigation technician, if applicable, are licensed;

(2) inspecting the irrigation system;

(3) determining that the irrigation system complies with the requirements of this chapter;

(4) determining that the appropriate backflow prevention device was installed, tested, and test results provided to the city;

(5) investigating complaints related to irrigation system installation, maintenance, alteration, repairs, or service of an irrigation system and advertisement of irrigation services; and

(6) maintaining records according to this chapter.
(Ord. 17041, § 1, 12-23-2008)

18.47.170 Items Not Covered By This Ordinance.

Any item not covered by their ordinance and required by law shall be governed by the Texas Occupations Code, the Texas Water Code, Title 30 of the Texas Administrative Code, and any other applicable state statute or Texas Commission on Environmental Quality rule.
(Ord. 17041, § 1, 12-23-2008)

18.47.180 Enforcement.

(a) The city shall have the power to administer and enforce the provisions of this chapter as may be required by governing law. Any person, firm, corporation or agent who shall violate a provision of this Code, or fails to comply therewith, or with any of the requirements thereof, is subject to suit for injunctive relief as well as prosecution for criminal violations. Any violation of the ordinance codified in this chapter is declared to be a nuisance.

(b) Any person violating any provision of chapter shall, upon conviction, be fined a sum not exceeding $2000.00. Each day that a provision of this chapter is violated shall constitute a separate offense. An offense under this chapter is a misdemeanor, punishable by a fine of up to $2000.00.

(c) Nothing in this chapter shall be construed as a waiver of the city's right to bring a civil action to enforce the provisions of this chapter and to seek remedies as allowed by law, including, but not limited to the following: Injunctive relief to prevent specific conduct that violates the ordinance or to require specific conduct that is necessary for compliance with the ordinance; and other available relief.
(Ord. 17041, § 1, 12-23-2008)

Chapter 18.48

RESERVED*

*__Editor's note__—Ord. No. 17390, § 36, adopted August 24, 2010, effective 9-1-2010, repealed chapter 18.48, which pertained to projection booths and derived from Ord. 16985 § 52, 2008; Ord. 13152 § 296, 1997; prior code §§ 6-57—6-59.1.

PROPERTY MAINTENANCE CODE*

Sections:

18.50.010 Short title.

18.50.020 Adoption.

18.50.025 Section 102.7 Applicability.

18.50.026 Section 103 - Code Compliance Agency, amended.

18.50.027 Section 111.2 Closing of vacant structures.

18.50.028 Section 111.2.1 Authority to disconnect service utilities, amended.

18.50.030 Section 202 General Definitions, amended.

18.50.040 Section 301.1 Scope, amended.

18.50.050 Section 302.2 Grading and drainage, amended.

18.50.055 Section 302.3 Sidewalks and Driveways, amended.

18.50.060 Section 302.4 Weeds, amended.

18.50.065 Section 302.8 Motor vehicles, amended.

18.50.070 Section 304.3 Premises identification, amended.

18.50.80 Section 304.14 Insect screens, amended.

18.50.81 Section 308.1 Accumulation of rubbish or garbage, amended.

18.50.82 Section 308.2 Disposal of rubbish, amended.

18.50.83 Section 308.2.1 Rubbish storage facilities, amended.

18.50.84 Section 308.2.2 Refrigerators, amended.

18.50.85 Section 308.3 Disposal of garbage, amended.

18.50.86 Section 308.3.1 Garbage facilities, amended.

18.50.87 Section 308.3.2 Containers, amended.

18.50.090 Section 310 Additional requirements for vacant structures/premises, added.

18.50.100 Section 501.1 Scope, amended.

18.50.120 Section 601.1 Scope, amended.

18.50.121 Section 602.2 Residential occupancies, amended.

18.50.122 Section 602.3 Heat Supply, amended.

18.50.123 Section 602.4 Occupiable work spaces, amended.

18.50.124 Section 602.5 Room temperature measurement, amended.

18.50.130 Section 605.2 Receptacles, added.

18.50.140 Section 605.3 Luminaires, amended.

18.50.150 Section 701.1 Scope, amended.

18.50.160 Appendix A, Boarding Standard, adopted.

18.50.170 Appendix A, Boarding Standard, Section A101.1 General, amended.

18.50.180 Conflicting ordinances.

18.50.010 Short title.

This chapter may be cited as the "Property Maintenance Code."

18.50.020 Adoption.

The book entitled "International Property Maintenance Code," 2021 Edition, a copy of which authenticated by the city clerk is on file in the city clerk's office, is adopted as the Property Maintenance Code of the city, as fully as if copied at length in this chapter, but with the amendments

*__Editor's note__—Ord. No. 019528, § 10, adopted Aug 1, 2023, amended Ch. 18.50 in its entirety to read as set out herein. The former Ch. 18.50, §§ 18.50.010—18.50.180, pertained to similar subject matter and derived from Ord. No. 18517, § 1, adopted May 31, 2016.

set forth in this chapter and Chapter 18.02, the Building and Administrative Code of the City of El Paso.
(Ord. No. 019528, § 1, 8-1-2023)

18.50.025 Section 102.7 Applicability.

102.7 Historic Buildings. Replaced:

The provisions of this code shall be mandatory for existing buildings or premises designated or determined to be of historic value by the Historic Preservation Office.
(Ord. No. 019528, § 1, 8-1-2023)

18.50.026 Section 103 - Code Compliance Agency, amended.

103 Code Compliance Agency. Replaced:

Section 103 Division of Property Maintenance & Zoning with Planning & Inspections Department.
(Ord. No. 019528, § 1, 8-1-2023)

18.50.027 Section 111.2 Closing of vacant structures.

If the structure is vacant and unfit for human habitation and occupancy, and is not in danger of structural collapse, the code official is authorized to post a placard of condemnation on the premises and order the structure closed up within reasonable time specified so as not to be an attractive nuisance. Upon failure of the owner or owner's authorized agent to close up the premises within the time specified in the order, the code official shall cause the premises to be closed and secured through any available public agency or by contract or arrangement by private persons and the cost thereof shall be charged against the real estate upon which the structure is located and shall be a lien upon such real estate and shall be collected by any other legal resource.
(Ord. No. 019528, § 1, 8-1-2023)

18.50.028 Section 111.2.1 Authority to disconnect service utilities, amended.

International Property Maintenance Code, 2021 Edition, Section 111.2.1 Authority to disconnect service utilities, is hereby amended to read as follows:

111.2.1 Authority to disconnect service utilities. Authority to disconnect service utilities shall be identified in accordance with the requirements of Chapter 18.02.111.10 of the City Code.
(Ord. No. 019528, § 1, 8-1-2023)

18.50.030 Section 202 General Definitions, amended.

International Property Maintenance Code, 2021 Edition, Section 202 General Definitions is hereby amended to add the following definitions to read as follows:

BOARD. The Building and Standards Commission for the City of El Paso.

HISTORIC BUILDING.

Item 4. A building, object, site or structure that is forty-five years or older and is determined by the Historic Landmark Commission to be of historical, cultural, architectural or archaeological importance, and where demolition or destruction would constitute a loss to the quality and character of El Paso.

OFFICIAL. The building official or any duly authorized representative or designee of the city manager.

OVERLAY ZONING DISTRICT. A district established by ordinance to prescribe special regulations to be applied to a site in combination with the underlying or base district.

REASONABLE TIME. The term "reasonable time" shall have a meaning of 14 calendar days

STREET FRONTAGE. The length of the elevation or façade of a structure facing a public street or parking area, including main and any secondary public access to the structure. Structures on corner lots will be considered to have two street frontages.

URBAN NUISANCE. A premises or structure that is dilapidated, substandard, or unfit for human habitation and a hazard to the public health, safety and welfare.

STREET FACADE. The elevation of the structure facing or abutting a public street including the main public access or entry to the structure.

VACANT. The term "vacant" shall have the meaning as defined in Chapter 18.40 of this title.

VACANT PREMISES. A structure having vacant or unoccupied floors, suites, and/or tenant spaces
(Ord. No. 019528, § 1, 8-1-2023)

18.50.040 Section 301.1 Scope, amended.

International Property Maintenance Code, 2021 Edition, Section 301.1 Scope is hereby amended to read as follows:

301.1 Scope. The provisions of this chapter shall govern the minimum conditions and the responsibilities of persons for maintenance of structures, equipment and exterior property and shall apply to both vacant and occupied structures and premises.
(Ord. No. 019528, § 1, 8-1-2023)

18.50.050 Section 302.2 Grading and drainage, amended.

International Property Maintenance Code, 2021 Edition, Section 302.2 Grading and Drainage, is hereby amended to read as follows:

302.2 Grading and drainage. All premises shall be graded and/or maintained to prevent the erosion of soil and to prevent the accumulation of stagnant water thereon, or within any structure located thereon.

Exception: Approved retention areas and reservoirs.
(Ord. No. 019528, § 1, 8-1-2023)

18.50.055 Section 302.3 Sidewalks and Driveways, amended.

International Property Maintenance Code, 2021 Edition, Section 302.3 Sidewalks and Driveways, is hereby amended to read as follows:

302.3 Sidewalks and Driveways shall be in accordance with the requirements of Chapter 13.04.050 & 13.12.220 of the City Code for maintenance of sidewalks and driveways
(Ord. No. 019528, § 1, 8-1-2023)

18.50.060 Section 302.4 Weeds, amended.

International Property Maintenance Code, 2021 Edition, Section 302.4 Weeds, is hereby amended to read as follows:

302.4 Weeds, Trash, Rubbish and other Matter. All premises and exterior property shall be maintained free from weeds or plant growth in accordance with Chapter 9.04 of the City Code.
(Ord. No. 019528, § 1, 8-1-2023)

18.50.065 Section 302.8 Motor vehicles, amended.

International Property Maintenance Code, 2021 Edition, Section 302.8 Motor vehicles, is hereby amended to read as follows:

302.8 Motor Vehicles shall be in accordance with the requirements of Chapter 9.08 of the City Code.
(Ord. No. 019528, § 1, 8-1-2023)

18.50.070 Section 304.3 Premises identification, amended.

International Property Maintenance Code, 2021 Edition, Section 304.3 Premises Identification, is hereby amended to read as follows:

304.3 Premises Identified. Premises shall be identified in accordance with the requirements of Chapter 18.08 or 18.10 of the City Code.
(Ord. No. 019528, § 1, 8-1-2023)

18.50.80 Section 304.14 Insect screens, amended.

International Property Maintenance Code, 2021 Edition, Section 304.14 Insect screens, is hereby amended to read as follows:

304.14 Insect Screens. Every door, window and other outside opening required for ventilation of habitable rooms, food preparation areas, food service areas or any areas where products to be included or utilized in food for human consumption are processed, manufactured, packaged or stored, shall be supplied with approved tightly fitting screens of not less than 16 mesh per inch (16 mesh per 25 mm) and every swinging door shall have a self-closing device in good working condition.

Exception: Screens shall not be required where other approved means, such as air curtains or insect repellent fans, are employed.
(Ord. No. 019528, § 1, 8-1-2023)

18.50.81 Section 308.1 Accumulation of rubbish or garbage, amended.

International Property Maintenance Code, 2021 Edition, Section 308.1 Accumulation of rubbish or garbage, is hereby amended to read as follows:

308.1 Accumulation of rubbish or garbage shall be in accordance with the requirements of Chapter 9.04 of the City Code.
(Ord. No. 019528, § 1, 8-1-2023)

18.50.82 Section 308.2 Disposal of rubbish, amended.

International Property Maintenance Code, 2021 Edition, Section 308.2 Disposal of rubbish, is hereby amended to read as follows:

308.2 Disposal of rubbish shall be in accordance with the requirements of Chapter 9.04 of the City Code
(Ord. No. 019528, § 1, 8-1-2023)

18.50.83 Section 308.2.1 Rubbish storage facilities, amended.

International Property Maintenance Code, 2021 Edition, Section 308.2.1 Rubbish storage facilities, is hereby amended to read as follows:

308.2.1 Rubbish storage facilities shall be in accordance with the requirements of Chapter 9.04 of the City Code.
(Ord. No. 019528, § 1, 8-1-2023)

18.50.84 Section 308.2.2 Refrigerators, amended.

International Property Maintenance Code, 2021 Edition, Section 308.2.2 Refrigerators, is hereby amended to read as follows:

308.2.2 Refrigerators shall be in accordance with the requirements of Chapter 10.24.030 of the City Code.
(Ord. No. 019528, § 1, 8-1-2023)

18.50.85 Section 308.3 Disposal of garbage, amended.

International Property Maintenance Code, 2021 Edition, Section 308.3 Disposal of garbage, is hereby amended to read as follows:

308.3 Disposal of garbage shall be in accordance with the requirements of Chapter 9.04 of the City Code.
(Ord. No. 019528, § 1, 8-1-2023)

18.50.86 Section 308.3.1 Garbage facilities, amended.

International Property Maintenance Code, 2021 Edition, Section 308.3.1 Garbage facilities, is hereby amended to read as follows:

308.3.1 Garbage facilities shall be in accordance with the requirements of Chapter 9.04 of the City Code
(Ord. No. 019528, § 1, 8-1-2023)

18.50.87 Section 308.3.2 Containers, amended.

International Property Maintenance Code, 2021 Edition, Section 308.3.2 Containers, is hereby amended to read as follows:

308.3.2 Containers shall be in accordance with the requirements of Chapter 9.04 of the City Code. (Ord. No. 019528, § 1, 8-1-2023)

18.50.090 Section 310 Additional requirements for vacant structures/premises, added.

International Property Maintenance Code, 2021 Edition, Section 310 Additional requirements for vacant structures/premises, is hereby added to read as follows:

310 Additional requirements for vacant structures/premises.

310.1 Street façade/frontage windows and doors. On the street façade/frontage, the exterior surface of any window shall not be covered by any substance or adhesive material sprayed, painted or otherwise applied to the windows. All street façade/frontage windows and doors having cracked, broken or missing glass or glazing material shall be repaired and replaced with glass and glazing material in a manner compatible with the original design of the structure.

Exceptions: The required glazing of street frontage windows and doors may be substituted with artistic panels under the following conditions.

1. The artistic panels and their installation are limited to the first floor, or must present an aesthetically unified façade/frontage design and must comply with the boarding standards represented in the International Property Maintenance Code Appendix A.

2. Artistic panels proposed as an alternate to the glazing requirements on a structure within an overlay district shall be subject to approval by the overlay district administrator.

3. Building owners desiring to install artistic panels on a structure in a historic district must first apply for and receive a certificate of appropriateness prior to installation.

4. Windows on all occupied floors shall be kept in sound condition, good repair and weather tight. All glazing materials shall be maintained free from cracks and holes. Artistic panels shall not be applied to windows or doors on occupied floors. All windows and doors shall be maintained and secured to prevent unauthorized entry.

310.3 Historic Buildings. Any restoration, rehabilitation, maintenance or demolition of a historic building and any building with a historic zoning overlay is subject to the requirements of this chapter and chapter 20.20 of this Code, and whichever being the more restrictive shall govern. (Ord. No. 019528, § 1, 8-1-2023)

18.50.100 Section 501.1 Scope, amended.

International Property Maintenance Code, 2021 Edition, Section 501.1 Scope, is hereby amended to read as follows:

501.1 Scope. The provisions of this chapter shall govern the minimum plumbing systems, facilities and plumbing fixtures to be provided for both vacant and occupied structures and premises.
(Ord. No. 019528, § 1, 8-1-2023)

18.50.120 Section 601.1 Scope, amended.

International Property Maintenance Code, 2021 Edition, Section 601.1 Scope, is hereby amended to read as follows:

601.1 Scope. The provisions of this chapter shall govern the minimum mechanical and electrical facilities and equipment to be provided for both vacant and occupied structures and premises.
(Ord. No. 019528, § 1, 8-1-2023)

18.50.121 Section 602.2 Residential occupancies, amended.

International Property Maintenance Code, 2021 Edition, Section 602.2 Residential occupancies, is hereby amended to read as follows:

602.2 Residential occupancies shall be identified in accordance with the requirements of Chapter 18.10.060-Section R303.9 Required heating of the City Code.

(Ord. No. 019528, § 1, 8-1-2023)

18.50.122 Section 602.3 Heat Supply, amended.

International Property Maintenance Code, 2021 Edition, Section 602.3 Heat Supply, is hereby amended to read as follows: **602.3** Heat Supply shall be in accordance with the requirements of Chapter 18.10.060 and 18.08.170 of the City Code.

(Ord. No. 019528, § 1, 8-1-2023)

18.50.123 Section 602.4 Occupiable work spaces, amended.

International Property Maintenance Code, 2021 Edition, Section 602.4 Occupiable work spaces, is hereby amended to read as follows: **602.4** Occupiable work spaces shall be in accordance with the requirements of Chapter 18.08.170 of the City Code.

(Ord. No. 019528, § 1, 8-1-2023)

18.50.124 Section 602.5 Room temperature measurement, amended.

International Property Maintenance Code, 2021 Edition, Section 602.5 Room temperature measurement, is hereby amended to read as follows: **602.5** Room temperature measurement shall be identified in accordance with the requirements of Chapter 18.10.060 and 18.08.170 of the City Code

(Ord. No. 019528, § 1, 8-1-2023)

18.50.130 Section 605.2 Receptacles, added.

International Property Maintenance Code, 2021 Edition, Section 605.2 Receptacles, is hereby amended to read as follows:

605.2 Receptacles. Added.

Every new countertop outlet within five feet of the flood rim of the kitchen sink shall be a ground fault circuit interrupter receptacle.

(Ord. No. 019528, § 1, 8-1-2023)

18.50.140 Section 605.3 Luminaires, amended.

International Property Maintenance Code, 2021 Edition, Section 605.3 Luminaires, is hereby amended to read as follows:

605.3 Lighting Fixtures. Every public hall, interior stairway, toilet room, kitchen, bathroom, laundry room, boiler room, furnace room, attached garage, and detached garage with electric power shall be provided with at least one wall switch controlled ceiling or wall type light fixture. Pool and spa luminaires over 15 volt shall have ground fault circuit interrupter protection.

(Ord. No. 019528, § 1, 8-1-2023)

18.50.150 Section 701.1 Scope, amended.

International Property Maintenance Code, 2021 Edition, Section 701.1 Scope, is hereby amended to read as follows:

701.1 Scope. The provisions of this chapter shall govern the minimum conditions and standards for fire safety relating to structures and exterior premises, including fire safety facilities and equipment to be provided, for both vacant and occupied structures and premises.

(Ord. No. 019528, § 1, 8-1-2023)

18.50.160 Appendix A, Boarding Standard, adopted.

International Property Maintenance Code, 2021 Edition, Appendix A, Boarding Standard, is hereby adopted in its entirety.

(Ord. No. 019528, § 1, 8-1-2023)

18.50.170 Appendix A, Boarding Standard, Section A101.1 General, amended.

International Property Maintenance Code, 2021 Edition, Appendix A, Boarding Standard, Section A101.1 General, is hereby amended to read as follows:

A101.1 General. Except as otherwise required by this chapter, all windows and doors shall be

boarded in an approved manner to prevent entry by unauthorized persons and shall be painted to correspond to the color of the existing structure.
(Ord. No. 019528, § 1, 8-1-2023)

18.50.180 Conflicting ordinances.

All ordinances and parts of ordinances in conflict with the provisions of this chapter are hereby repealed.
(Ord. No. 019528, § 1, 8-1-2023)

Chapter 18.60

FLOOD DAMAGE PREVENTION*

Sections:

Article I. Statutory Authorization—Findings of Fact—Purpose—Methods

18.60.010 Statutory authorization.

18.60.020 Findings of fact.

18.60.030 Statement of purpose.

18.60.040 Methods of reducing flood losses.

Article II. Definitions

18.60.050 Generally.

18.60.060 Flood control definitions.

Article III. General Provisions

18.60.070 Lands to which this chapter applies.

18.60.080 Basis for establishing the areas of special flood hazard.

18.60.090 Establishment of development permit.

18.60.100 Compliance.

18.60.110 Abrogation and greater restrictions.

18.60.120 Interpretation.

18.60.130 Warning and disclaimer of liability.

Article IV. Administration

18.60.140 Designation of the floodplain administrator.

18.60.150 Duties and responsibilities of the floodplain administrator.

18.60.160 Duties and responsibilities of the city manager or designee.

18.60.170 Duties and responsibilities of the director of the department of transportation.

18.60.180 Development permit procedures.

Article V. Provisions for Flood Hazard Reduction

18.60.190 General standards.

18.60.200 Specific standards.

18.60.210 Standards for proposed subdivision.

18.60.220 Standards for areas of shallow flooding (AO/AH zones).

18.60.230 Floodways.

18.60.240 Violation.

***Editor's note**—Ord. No. 019528, § 11, adopted Aug 1, 2023, amended Ch. 18.60 in its entirety to read as set out herein. The former Ch. 18.60, §§ 18.60.010—18.60.240, pertained to similar subject matter and derived from Ord. 16356 § 1 (part), adopted 2006;Ord. 16985 § 54, adopted 2008;Ord. No. 17390, §§ 37—40, adopted Aug. 24, 2010, effective Sept. 1, 2010; Ord. No. 18681, § 1, adopted May 16, 2017; Ord. No. 19079, § 2, adopted Aug. 4, 2020.

Article I. Statutory Authorization—Findings of Fact—Purpose—Methods

18.60.010 Statutory authorization.

The Legislature of the State of Texas has, in the Flood Control and Insurance Act (V.T.C.A., Water Code Art. 16.311), delegated the responsibility to local governmental units to adopt regulations designed to minimize flood losses. Therefore, the city council of the city does adopt this chapter. (Ord. No. 019528, § 1, 8-1-2023)

18.60.020 Findings of fact.

A. The flood hazard areas of El Paso are subject to periodic inundation which results in loss of life and property, health and safety hazards, disruption of commerce and governmental services, and extraordinary public expenditures for flood protection and relief, all of which adversely affect the public health, safety and general welfare.

B. These flood losses are created by the cumulative effect of obstructions in floodplains which cause an increase in flood heights and velocities, and by the occupancy of flood hazard areas by uses vulnerable to floods and hazardous to other

lands because they are inadequately elevated, floodproofed or otherwise protected from flood damage.
(Ord. No. 019528, § 1, 8-1-2023)

18.60.030 Statement of purpose.

It is the purpose of this chapter to promote the public health, safety and general welfare and to minimize public and private losses due to flood conditions in specific areas by provisions designed to:

A. Protect human life and health;

B. Minimize expenditure of public money for costly flood control projects;

C. Minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public;

D. Minimize damage to public facilities and utilities such as water and gas mains, electric, telephone and sewer lines, streets and bridges located in floodplains;

E. Help provide information regarding flood-prone areas to the public.
(Ord. No. 019528, § 1, 8-1-2023)

18.60.040 Methods of reducing flood losses.

In order to accomplish its purposes, this chapter uses the following methods:

A. Restrict or prohibit uses that are dangerous to health, safety or property in times of flood, or cause excessive increases in flood heights or velocities;

B. Require that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction;

C. Control the alteration of natural floodplains, stream channels, and natural protective barriers which are involved in the accommodation of floodwaters;

D. Control filling, grading, dredging and other development which may increase flood damage;

E. Prevent or regulate the construction of flood barriers which will unnaturally divert floodwaters or which may increase flood hazards to other lands.
(Ord. No. 019528, § 1, 8-1-2023)

Article II. Definitions

18.60.050 Generally.

Unless specifically defined below, words or phrases used in this chapter shall be interpreted to give them the meaning they have in common usage and to give this chapter its most reasonable application.
(Ord. No. 019528, § 1, 8-1-2023)

18.60.060 Flood control definitions.

As used in this chapter:

"Alluvial fan flooding" means flooding occurring on the surface of an alluvial fan or similar landform which originates at the apex and is characterized by high-velocity flows; active processes of erosion, sediment transport, and deposition and unpredictable flow paths.

"Apex" means a point on an alluvial fan or similar landform below which the flow path of the major stream that formed the fan becomes unpredictable and alluvial fan flooding can occur.

"Appeal" means a request for a review of the floodplain administrator's interpretation of any provisions of this chapter or a request for a variance in improved and unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations.

"Appurtenant structure" means a structure which is on the same parcel of property as the principal structure to be insured and the use of which is incidental to the use of the principal structure.

"Area of future conditions flood hazard" means the land area that would be inundated by the one-percent-annual chance (one hundred year) flood based on future conditions hydrology.

"Area of shallow flooding" means a designated AO, AH, AR/AO, AR/AH, or VO zone on a community's Flood Insurance Rate Map (FIRM) with a one percent or greater annual chance of flooding to an average depth of one to three feet where a clearly defined channel does not exist, where the path of flooding is unpredictable and where velocity flow may be evident. Such flooding is characterized by ponding or sheet flow.

"Area of special flood hazard" means the land in the floodplain within a community subject to a one percent or greater chance of flooding in any given year. The area may be designated as Zone A on the Flood Hazard Boundary Map (FHBM). After detailed rate making has been completed in preparation for publication of the FIRM, Zone A usually is refined into Zones A, AO, AH, A1-30, AE, A99, AR, AR/A1-30, AR/AE, AR/AO, AR/AH, AR/A, VO, V1-30, VE or V.

"Base flood" means the flood having a one-percent chance of being equaled or exceeded in any given year.

"Base flood elevation (BFE)" means the computed elevation to which floodwater is anticipated to rise during the base flood. Base flood elevations (BFEs) are shown on flood insurance rate maps (FIRMs) and on flood profile.

"Basement" means any area of the building having its floor subgrade (below ground level) on all sides.

"Breakaway wall" means a wall that is not part of the structural support of the building and is intended through its design and construction to collapse under specific lateral loading forces, without causing damage to the elevated portion of the building or supporting foundation system.

"Critical feature" means an integral and readily identifiable part of a flood protection system, without which the flood protection provided by the entire system would be compromised.

"Development" means any manmade change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations or storage of equipment or materials.

"Elevated building" means, for insurance purposes, a non-basement building, which has its lowest elevated floor, raised aboveground level by foundation walls, shear walls, posts, piers, pilings or columns.

"Existing construction" means for the purposes of determining rates, structures for which the "start of construction" commenced before the effective date of the FIRM or before January 1, 1975, for FIRMs effective before that date. "Existing construction" may also be referred to as "existing structures."

"Existing manufacture home park or subdivision" means a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including, at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed before the effective date of the floodplain management regulations adopted by a community.

"Expansion to an existing manufactured home park or subdivision" means the preparation of additional sites by the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).

"Flood" or "flooding" means a general and temporary condition of partial or complete inundation of normally dry land areas from:

1. The overflow of inland or tidal waters;

2. The unusual and rapid accumulation or runoff of surface waters from any source.

"Flood elevation study" means an examination, evaluation and determination of flood hazards and, if appropriate, corresponding water surface elevations, or an examination, evaluation and determination of mudslide (i.e., mudflow) and/or flood-related erosion hazards.

"Flood Insurance Rate Map (FIRM)" means an official map of a community, on which the Federal Emergency Management Agency has delineated both the areas of special flood hazards and the risk premium zones applicable to the community.

"Flood Insurance Study (FIS)" see "Flood elevation study" as the definition.

"Floodplain" or "flood-prone area" means any land area susceptible to being inundated by water from any source (see definition of flooding).

"Floodplain management" means the operation of an overall program of corrective and preventive measures for reducing flood damage, including but not limited to emergency preparedness plans, flood control works and floodplain management regulations.

"Floodplain management regulations" means zoning ordinances, subdivision regulations, building codes, health regulations, special purpose ordinances (such as a floodplain ordinance, grading ordinance and erosion control ordinance) and other applications of police power. The term describes such state or local regulations, in any combination thereof, which provide standards for the purpose of flood damage prevention and reduction.

"Floodproofing" means any combination of structural and nonstructural additions, changes, or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities, structures and their contents.

"Flood protection system" means those physical structural works for which funds have been authorized, appropriated, and expended and for which improvements have been constructed specifically to modify flooding in order to reduce the extent of the areas within a community subject to a "special flood hazard" and the extent of the depths of associated flooding. Such a system typically includes hurricane tidal barriers, dams, reservoirs, levees or dikes. These specialized flood modifying works are those constructed in conformance with sound engineering standards.

"Floodway (regulatory floodway)" means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than a designated height.

"Floodway" see "Regulatory floodway."

"Functionally dependent use" means a use which cannot perform its intended purpose unless it is located or carried out in close proximity to water. The term includes only docking facilities, port facilities that are necessary for the loading and unloading of cargo or passengers, and ship building and ship repair facilities, but does not include long-term storage or related manufacturing facilities.

"Habitable floor" means any floor usable for the following purposes which include working, sleeping, eating, cooking or recreation, or a combination thereof. A floor used for storage purposes only is not a "habitable floor."

"Highest adjacent grade" means the highest, natural elevation of the ground surface prior to construction next to the proposed walls of a structure.

"Historic structure" means any structure that is:

1. Listed individually in the national register of historic places (a listing maintained by the Department of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the national register;

2. Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the secretary to qualify as a registered historic district;

3. Individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the Secretary of the Interior; or

4. Individually listed on a local inventory or historic places in communities with historic preservation programs that have been certified either:

a. By an approved state program as determined by the Secretary of the Interior, or

b. Directly by the Secretary of the Interior in states without approved programs.

"Levee" means a manmade structure, usually an earthen embankment, designed and constructed in accordance with sound engineering practices to contain, control or divert the flow of water so as to provide protection from temporary flooding.

"Levee system" means a flood protection system which consists of a levee, or levees, and associated structures, such as closure and drainage devices, which are constructed and operated in accordance with sound engineering practices.

"Lowest floor" means the lowest floor of the lowest enclosed area (including basement). An unfinished or flood-resistant enclosure, usable solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor; provided that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirement of Section 60.3 of the National Flood Insurance Program regulations.

"Manufactured home" means a structure transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. For floodplain management purposes the term "manufactured home" also includes park trailers, travel trailers, and other similar vehicles placed on a site for greater than one hundred eighty consecutive days. For insurance purposes the term "manufactured home" does not include park trailers, travel trailers and other similar vehicles.

"Manufactured home park or subdivision" means a parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale.

"Mean sea level" means for purposes of the National Flood Insurance Program, the National Geodetic Vertical Datum (NGVD) of 1929 or other datum, to which base flood elevations shown on a community's Flood Insurance Rate Map are referenced.

"New construction" means, for the purposes of determining insurance rates, structures for which the "start of construction" commenced on or after the effective date of an initial FIRM or after December 31, 1974, whichever is later, and includes any subsequent improvements to such structures. For floodplain management purposes, new construction means structures for which the start of construction commenced on or after the effective date of floodplain management regulation adopted by community and includes any subsequent improvements to such structures.

"New manufactured home park or subdivision" means a manufactured home park or subdivision or which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of floodplain management regulations adopted by a community.

"Recreational vehicle" means a vehicle which is (i) built on a single chassis; (ii) four hundred square feet or less when measured at the largest horizontal projections; (iii) designed to be self-propelled or permanently towable by a light duty truck; and (iv) designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel, or seasonal use.

"Regulatory floodway" means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than a designated height.

"Riverine" means relating to, formed by, or resembling a river (including tributaries), stream, brook, etc.

"Special flood hazard area" see "Area of special flood hazard."

"Start of construction," (for other than new construction or substantial improvements under the Coastal Barrier Resources Act [Pub. L. 97-

348]), includes substantial improvement and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, additional placement, or other improvement was within one hundred eighty days of the permit date. The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for basement, footings, piers or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of a building, whether or not that alteration affects the external dimensions of building.

"Structure" means, for floodplain management purposes, a walled and roofed building including a gas or liquid storage tank, that is principally above ground, as well as a manufactured home.

"Substantial damage" means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would equal or exceed fifty percent of the market value of the structure before the damage occurred.

"Substantial improvement" means any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds fifty percent of the market value of the structure before "start of construction" of the improvement. This term includes structures, which have incurred "substantial damage," regardless of the actual repair work performed. The term does not, however, include either: (1) any project for improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions; or (2) any alteration of a "historic structure," provided that the alteration will not preclude the structure's continued designation as a "historic structure."

"Variance" means a grant of relief by a community from the terms of a floodplain management regulation. (For full requirements see Section 60.6 of the National Flood Insurance Program regulations.)

"Violation" means the failure of a structure or other development to be fully compliant with the community's floodplain management regulations. A structure or other development without the elevation certificate, other certifications, or other evidence of compliance required in Section 60.3(b)(5), (c)(4), (c)(10), (d)(3), (e)(2), (e)(4), or (e)(5) of the National Flood Insurance Program regulations is presumed to be in violation until such time as that documentation is provided.

"Water surface elevation" means the height, in relation to the National Geodetic Vertical Datum (NGVD) of 1929 (or other datum, where specified), of floods of various magnitudes and frequencies in the floodplains of coastal or riverine areas. (Ord. No. 019528, § 1, 8-1-2023)

Article III. General Provisions

18.60.070 Lands to which this chapter applies.

This chapter shall apply to all areas of special flood hazard within the jurisdiction of the city. (Ord. No. 019528, § 1, 8-1-2023)

18.60.080 Basis for establishing the areas of special flood hazard.

The areas of special flood hazard identified by the Federal Emergency Management Agency (FEMA) in a scientific and engineering report, entitled "The Flood Insurance Study for the City of El Paso," (FIS), with accompanying Flood In-

surance Rate Maps and Flood Boundary-Floodway Maps (FIRM and FBFM) utilizing the most current effective documents and any revisions thereto, are adopted by reference and declared to be a part of this chapter.
(Ord. No. 019528, § 1, 8-1-2023)

18.60.090 Establishment of development permit.

Development permits shall be used to ensure conformance with the provisions of this chapter.
(Ord. No. 019528, § 1, 8-1-2023)

18.60.100 Compliance.

No structure or land shall hereafter be located, altered, or have its use changed without full compliance with the terms of this chapter and other applicable regulations.
(Ord. No. 019528, § 1, 8-1-2023)

18.60.110 Abrogation and greater restrictions.

This chapter is not intended to repeal, abrogate or impair any existing easements, covenants or deed restrictions. However, where this chapter and another conflict or overlap, whichever imposes the more stringent restrictions shall prevail.
(Ord. No. 019528, § 1, 8-1-2023)

18.60.120 Interpretation.

In the interpretation and application of this chapter, all provisions shall be (1) considered as minimum requirements; (2) liberally construed in favor of the governing body; and (3) deemed neither to limit nor repeal any other powers granted under state statutes.
(Ord. No. 019528, § 1, 8-1-2023)

18.60.130 Warning and disclaimer of liability.

The degree of flood protection required by this chapter is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. On rare occasions, greater floods can and will occur and flood heights may be increased by manmade or natural causes. This chapter does not imply that land outside the areas of special flood hazard or uses permitted within such areas will be free from flooding or flood damages. This chapter shall not create liability on the part of the community or any official or employee thereof for any flood damages that result from reliance on this chapter or any administrative decision lawfully made thereunder.
(Ord. No. 019528, § 1, 8-1-2023)

Article IV. Administration

18.60.140 Designation of the floodplain administrator.

The city manager shall designate a Texas licensed professional engineer as the floodplain administrator to administer and implement the provisions of this chapter and other appropriate sections of 44 CFR (National Flood Insurance Program regulations) pertaining to floodplain management.
(Ord. No. 019528, § 1, 8-1-2023)

18.60.150 Duties and responsibilities of the floodplain administrator.

Duties and responsibilities of the floodplain administrator shall include, but not be limited to, the following:

A. Maintain and hold open for public inspection all records pertaining to the provisions of this chapter;

B. Review permit applications to determine whether proposed building sites will be reasonably safe from flooding;

C. Review, approve or deny all applications for development permits required by adoption of this chapter;

D. Review permits for proposed development to assure that all necessary permits have been obtained from those federal, state or local governmental agencies (including Section 404 of the Federal Water Pollution Control Act Amendments of 1972, 33 USC 1334) from which prior approval is required;

E. Where interpretation is needed as to the exact location of the boundaries of the areas of

special flood hazards (for example, where there appears to be a conflict between a mapped boundary and actual field conditions), the floodplain administrator shall make the necessary interpretation;

F. Notify, in riverine situations, adjacent communities and the state coordinating agency, which is the Texas Department of Water Resources, prior to any alteration or relocation of a watercourse, and submit evidence of such notification to the Federal Emergency Management Agency;

G. Assure that the flood-carrying capacity within the altered or relocated portion of any watercourse is maintained;

H. When base flood elevation data has not been provided in accordance with Section 18.60.080, the floodplain administrator shall obtain, review and reasonably utilize any base flood elevation data and floodway data available from a federal, state or other source, in order to administer the provisions of this chapter;

I. When a regulatory floodway has not been designated, the floodplain administrator must require that no new construction, substantial improvements or other development (including fill) shall be permitted within Zones A1-30 and AE on the community's FIRM, unless it is demonstrated that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will not increase the water surface elevation of the base flood more than one foot at any point within the community;

J. Maintain surveillance over the operational and maintenance condition of the flood control system to ensure its safe and effective functioning; notify the street director of any required maintenance and/or repair work;

K. Conduct an annual inspection of the flood control system and provide a written inspection report, including an assessment of the operational condition, safety, effectiveness and maintenance condition of the system, and a line item list of required special maintenance or repairs, to the city manager or his designee and the director of the department of transportation, or to such other person, agency, department or entity as may be appropriate pursuant to other ordinances adopted by the city;

L. Review the annual schedule of maintenance for flood control facilities prepared by the street director and forward the annual schedule to the city manager or designee, or to such other person, agency, department or entity as may be appropriate pursuant to other ordinances adopted by the city, with appropriate recommendations regarding any changes to frequency or nature of maintenance work proposed and/or requirements for special maintenance or repair;

M. Under the provisions of 44 CFR Chapter 1, Section 65.12, of the National Flood Insurance Program regulations, a community may approve certain development in Zones A1-30, AE, AH, on the community's FIRM which increases the water surface elevation of the base flood by more than one foot, provided that the community first completes all of the provisions required by Section 65.12.

(Ord. No. 019528, § 1, 8-1-2023)

18.60.160 Duties and responsibilities of the city manager or designee.

The city manager or his designee shall, to the extent that the following duties and responsibilities have not been delegated or assumed by another person, agency, department or entity pursuant to other ordinances adopted by the city:

A. Exercise overall management control of the construction, operation and maintenance of the flood control system;

B. Review, revise and approve the annual schedule of maintenance of the flood control system submitted by the street director;

C. Allocate resources as required to assure the timely execution of the annual maintenance schedule and the safe and effective operation of the flood control system.

(Ord. No. 019528, § 1, 8-1-2023)

18.60.170 Duties and responsibilities of the director of the department of transportation.

The director of the department of transportation shall, to the extent that the following duties and responsibilities have not been delegated or assumed by another person, agency, department or entity pursuant to other ordinances adopted by the city:

A. Be the custodian of the flood control system, including all dams, detention all retention basins, outlet works, channels, pumping stations and all other public drainage conveyance structures;

B. Maintain and repair the system to ensure its safety and operational capability;

C. Maintain full-time surveillance of the operational readiness of the system. Immediately notify the city manager or his designee and the floodplain administrator of any system component that is in a state of reduced operational readiness;

D. Direct the operation of the system during storms and flooding to maximize the effectiveness of the system in reducing damage to public and private property and danger to public safety;

E. Participate in the annual inspection of the flood control system conducted by the floodplain administrator;

F. Prepare and submit to the floodplain administrator an annual schedule of maintenance and repair to the flood control system;

G. Carry out the annual schedule of maintenance repair as approved by the city manager or his designee.

(Ord. No. 019528, § 1, 8-1-2023)

18.60.180 Development permit procedures.

A. Application for a floodplain development permit shall be presented to the floodplain administrator on forms furnished by him/her and may include, but not be limited to, plans in duplicate drawn to scale showing the location, dimensions, and elevation of proposed landscape alterations, existing and proposed structures, including the placement of manufactured homes, and the location of the foregoing in relation to areas of special flood hazard. Additionally, the following information is required:

1. Elevation (in relation to mean sea level) of the lowest floor (including basement) of all new and substantially improved structures;

2. Elevation in relation to mean sea level to which any nonresidential structure shall be flood proofed;

3. A certificate from a Texas licensed professional engineer that the nonresidential floodproofed structure shall meet the floodproofing criteria of Section 18.60.200(B) of this chapter;

4. Description of the extent to which any watercourse or natural drainage will be altered or relocated as a result of proposed development;

5. Maintain a record of all such information in accordance with Section 18.60.150(A) of this chapter.

B. Approval or denial of a building or grading permit by the floodplain administrator shall be based on all of the provisions of this chapter and the following relevant factors:

1. The danger to life and property due to flooding or erosion damage;

2. The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner;

3. The danger that materials may be swept onto other lands to the injury of others;

4. The compatibility of the proposed use with existing and anticipated development as determined by the planning official;

5. The safety of access to all buildings in the time of flood;

6. The expected heights, velocity, duration, rate of rise and sediment transport of the floodwaters and the effects of wave action, if applicable, expected at the site;

7. The justification of the proximity of the facility to the abutting floodway, where applicable;

8. The availability of alternate locations, not subject to flooding or erosion damage, for the proposed use;

9. The relationship of the proposed use to the comprehensive plan for that area.

C. Variance Procedures.

1. The appeals officer shall hear and render judgment on requests for variances from the requirements of this chapter.

2. The appeals officer shall hear and render judgment on an appeal only when it is alleged there is an error in any requirement, decision, or determination made by the floodplain administrator in the enforcement or administration of this chapter.

3. Any person or persons aggrieved by the decision of the appeals officer may appeal such decision in the courts of competent jurisdiction.

4. The floodplain administrator shall maintain a record of all actions involving an appeal and shall report variances to the Federal Emergency Management Agency upon request.

5. Variances may be issued for the reconstruction, rehabilitation or restoration of structures listed on the National Register of Historic Places or the State Inventory of Historic Places, without regard to the procedures set forth in the remainder of this chapter.

6. Variances may be issued for new construction and substantial improvements to be erected on a lot of one-half acre or less in size contiguous to and surrounded by lots with existing structures constructed below the base flood level, providing the relevant factors in subsection B of this section have been fully considered. As the lot size increases beyond the one-half acre, the technical justification required for issuing the variance increases.

7. Upon consideration of the factors noted above and the intent of this chapter, the appeals officer may attach such conditions to the granting of variances as it deems necessary to further the purpose and objectives of this chapter.

8. Variances shall not be issued within any designated floodway if any increase in flood levels during the base flood discharge would result.

9. Variances may be issued for the repair or rehabilitation of historic structures upon a determination that the proposed repair or rehabilitation will not preclude the structure's continued designation as a historic structure and the variance is the minimum necessary to preserve the historic character and design of the structure.

10. Prerequisites for granting variances:

a. Variances shall only be issued upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.

b. Variances shall only be issued upon: (i) showing a good and sufficient cause; (ii) a determination that failure to grant the variance would result in exceptional hardship to the applicant, and (iii) a determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public, or conflict with the El Paso City Code.

c. Any application to which a variance is granted shall be given written notice that the structure will be permitted to be built with the lowest floor elevation below the base flood elevation, and that the cost of flood insurance will be commensurate with the increased risk resulting from the reduced lowest floor elevation.

11. Variances may be issued by a community for new construction and substantial improvements and for other development necessary for the conduct of a functionally dependent use provided that (i) the criteria outlined in subsections (C)(1) through (9) of this section are met, and (ii) the structure or other development is protected by methods that minimize flood damages during the base flood and create no additional threats to public safety.

D. Development permit review fees for any Federal Emergency Management Agency (FEMA) applications shall be as established by city council in the annual budget resolution.

(Ord. No. 019528, § 1, 8-1-2023; Ord. No. 019762, § 8, 7-22-2025)

Article V. Provisions for Flood Hazard Reduction

18.60.190 General standards.

In all areas of special flood hazards, the following provisions are required for all new construction and substantial improvements:

A. All new construction or substantial improvements shall be designed or modified and adequately anchored to prevent flotation, collapse or lateral movement of the structure resulting from hydrostatic pressure and hydrostatic loads, including the effects of buoyancy;

B. All new construction or substantial improvements shall be constructed by methods and practices that minimize flood damage;

C. All new construction or substantial improvements shall be constructed with materials resistant to flood damage;

D. All new construction or substantial improvements shall be constructed with electrical, heating, ventilation, plumbing and air conditioning equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding, and be elevated a minimum of one foot above the BFE;

E. All new and replacement water supply systems shall be designed to minimize or eliminate infiltration of floodwaters into the system;

F. New and replacement sanitary, sewage systems shall be designed to minimize or eliminate infiltration of floodwaters into the system and discharge from the systems into floodwaters; and

G. On-site waste disposal systems shall be located to avoid impairment to them or contamination from them during flooding.

(Ord. No. 019528, § 1, 8-1-2023)

18.60.200 Specific standards.

In all areas of special flood hazards where base flood elevation data has been provided as set forth in (a) Section 18.60.080, (b) Section 18.60.150(H), or (c) Section 18.60.210(B) of this chapter, the following provisions are required:

A. Residential Construction. New construction and substantial improvement of any residential structure shall have the lowest floor (including basement) be elevated a minimum of one foot above the BFE. A Texas registered professional engineer, architect, or land surveyor shall submit a Federal Emergency Management Agency National Flood Insurance Program Elevation Certificate to the floodplain administrator that the standard of this subsection as proposed in Section 18.60.180(A)(1) of this chapter is satisfied.

B. Nonresidential Construction. New construction and substantial improvements of any commercial, industrial or other nonresidential structure shall have either the lowest floor (including basement) be elevated a minimum of one foot above the base flood elevation or, together with appurtenant utility and sanitary facilities, be designed so that at least one foot above the BFE the structure is watertight with walls substantially impermeable to the passage of water and with structural components having the capability, of resisting hydrostatic and hydrodynamic loads and effects of buoyancy. A Texas registered professional engineer or architect shall develop and/or review structural design, specifications and plans for the construction, and shall certify that the design and methods of construction are in accordance with accepted standards of practice as outlined in this subsection. A record of such certification, which includes the specific elevation (in relation to mean sea level) to which such structures are floodproofed, shall be maintained by the floodplain administrator.

C. Enclosures. New construction and substantial improvements, with fully enclosed areas below the lowest floor that are usable solely for parking of vehicles, building access or storage in an area other than a basement and which are subject to flooding shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either

be certified by a Texas registered professional engineer or architect or meet or exceed the following minimum criteria:

1. A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided.

2. The bottom of all openings shall be no higher than one foot above grade.

3. Openings may be equipped with screens, louvers, valves or other coverings or devices provided that they permit the automatic entry and exit of floodwaters.

D. Manufactured Homes.

1. Require that all manufactured homes to be placed within Zone A on a community's FHBM or FIRM shall be installed using methods and practices which minimize flood damage. For the purposes of this requirement, manufactured homes must be elevated and anchored to resist flotation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. This requirement is in addition to applicable state and local anchoring requirements for resisting wind forces.

2. Require that manufactured homes that are placed or substantially improved within Zones A1-30, AH, and AE on the community's FIRM on sites (i) outside of a manufactured home park or subdivision, (ii) in a new manufactured home park or subdivision, (iii) in an expansion to an existing manufactured home park or subdivision, or (iv) in an existing manufactured home park or subdivision on which a manufactured home has incurred "substantial damage" as a result of a flood, be elevated on a permanent foundation such that the lowest floor of the manufactured home is elevated a minimum of one foot above the BFE and be securely anchored to an adequately anchored foundation system to resist flotation, collapse, and lateral movement.

3. Require that manufactured homes be placed or substantially improved on sites in an existing manufactured home park or subdivision with Zones A1-30, AH and AE on the community's FIRM that are not subject to the provisions of this section be elevated so that either:

a. The lowest floor of the manufactured home is elevated a minimum of one foot above the base flood elevation; and

b. The manufactured home chassis is supported by reinforced piers or other foundation elements adequately anchored to foundation system to resist flotation, collapse, and lateral movement.

E. Recreational Vehicles. Require that recreational vehicles placed on sites within Zones A1-30, AH and AE on the community's FIRM either (i) be on the site for fewer than one hundred eighty consecutive days, or (ii) be fully licensed and ready for highway use, or (iii) meet the permit requirements of Section 18.60.180(A), and the elevation and anchoring requirements for "manufactured homes" in subsection A of this section. A recreational vehicle is ready for highway use if it is on its wheels or jacking system, is attached to the site only by quick disconnect type utilities and security devices, and has no permanently attached additions.

(Ord. No. 019528, § 1, 8-1-2023)

18.60.210 Standards for proposed subdivision.

A. All subdivision proposals, including manufactured home parks and subdivisions, shall be consistent with Sections 18.60.020, 18.60.030 and 18.60.040 of this chapter.

B. All proposals for the development of subdivisions, including manufactured home parks and subdivisions, shall meet building and grading permit requirements of Sections 18.60.090 and 18.60.180 and the provisions of this chapter.

C. Base flood elevation data shall be generated for subdivision proposals and other proposed developments, including manufactured home parks and subdivisions which are greater than fifty lots or five acres, whichever is lesser, if not otherwise provided pursuant to Section 18.60.080 or Section 18.60.150(H) of this chapter.

D. All subdivision proposals, including manufactured home parks and subdivisions, shall have adequate drainage provided to reduce exposure to flood hazards.

E. All subdivision proposals, including manufactured home parks and subdivisions, shall have public utilities and facilities such as sewer, gas, electrical and water systems located and constructed to minimize or eliminate flood damage.
(Ord. No. 019528, § 1, 8-1-2023)

18.60.220 Standards for areas of shallow flooding (AO/AH zones).

Located within the areas of special flood hazard established in Section 18.60.080 are areas designated as shallow flooding. These areas have special flood hazard associated with base flood depths of one to three feet where a clearly defined channel does not exist and where the path of flooding is unpredictable, and where velocity flow may be evident such flooding is characterized by ponding or sheet flow; therefore, the following provisions apply:

A. All new construction and substantial improvements of residential structures shall:

1. Have the lowest floor (including basement, machinery, and equipment servicing the building) elevated above the highest adjacent grade (HAG) to at least one foot above the depth number specified in feet on the community's FIRM, or at least three feet if no depth number is provided.

B. All new construction and substantial improvements of nonresidential structures shall:

1. Have the lowest floor (including basement, machinery, and equipment servicing the building) elevated above the highest adjacent grade (HAG) to at least one foot above the depth number specified in feet on the community's FIRM, or at least three feet if no depth number is provided; or

2. Together with attendant utility and sanitary facilities be designed so that below the base specified flood depth in an AO Zone, or below the base flood elevation in an AH zone, level the structure is watertight with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads of effects of buoyancy.

C. A Texas registered professional engineer or architect shall submit a certification to the floodplain administrator that the standards of this section, as proposed in Section 18.60.180(A)(3) of this chapter, are satisfied.

D. Within Zone AH or AO, adequate drainage paths shall be required around structures on slopes, to guide floodwaters around and away from proposed structures.
(Ord. No. 019528, § 1, 8-1-2023)

18.60.230 Floodways.

Located within areas of special flood hazard established in Section 18.60.080 of this chapter, are areas designated as floodways. Since the floodway is an extremely hazardous area due to the velocity of floodwaters which carry debris, potential projectiles and erosion potential, the following provisions shall apply:

A. Encroachments are prohibited, including fill, new construction, substantial improvements and other development within the adopted regulatory floodway unless it has been demonstrated through hydrologic and hydraulic analyses performed in accordance with standard engineering practice that the proposed encroachment would not result in any increase in flood levels within the community during the occurrence of the base flood discharge.

B. If subsection A of this section is satisfied, all new construction and substantial improvements shall comply with all applicable flood hazard reduction provisions of this chapter.

C. Under the provisions of 44 CFR Chapter 1, Section 65.12, of the National Flood Insurance Program Regulation, a community may permit encroachments within the adopted regulatory floodway that would result in an increase in base flood elevations, provided that the community first completes all of the provisions required by Section 65.12.
(Ord. No. 019528, § 1, 8-1-2023)

18.60.240 Violation.

A. It is unlawful for any person to violate any provision of this chapter.

B. Any person violating any provision of this chapter shall be deemed guilty of a misdemeanor and shall be punished as provided in Sections 1.08.010 through 1.08.030 of this Code.

(Ord. No. 019528, § 1, 8-1-2023)

Chapter 18.80

ALTERNATIVE ENERGY CONSERVATION CODE

Sections:

18.80.010 Short title.

18.80.020 Adoption.

18.80.030 Incentives.

18.80.010 Short title.

This chapter may be cited as the "Alternative Energy Conservation Code".
(Ord. No. 17840, § B, 7-31-2012, eff. 9-1-2012)

18.80.020 Adoption.

The book entitled "International Energy Conservation Code," 2012 Edition, a copy of which authenticated by the city clerk is on file in the city clerk's Office, is adopted as the Alternative Energy Conservation Code of the city, in its entirety as fully as if copied at length in this chapter.
(Ord. No. 17840, § B, 7-31-2012, eff. 9-1-2012)

18.80.030 Incentives.

For developers desiring to design new buildings, either commercial buildings or low-rise residential buildings (three stories or less in height above grade), pursuant to the minimum energy conservation requirements of the 2012 Edition of the International Energy Conservation Code, the following incentives shall be offered:

1. Eligibility requirements.

a. The incentives listed below shall apply only to new construction.

b. The incentives listed below are limited to ten projects per applicant.

c. Applicants who choose to design and build pursuant to the 2012 International Energy Conservation Code shall comply with all requirements of the 2012 International Energy Conservation Code.

2. Incentives.

a. Approved applicants shall receive expedited plan review.

b. Approved applicants shall receive a fifty percent reduction of the master permit fee associated with the project, on a first come first served basis, for the first one hundred approved projects. Thereafter, approved applicants shall receive a twenty percent reduction of the master permit fee associated with the project, on a first come first served basis, for the first one hundred approved projects.

c. Approved applicants shall receive advanced notice of stakeholder meetings prior to the mandatory adoption of a future Energy Conservation Code by the city.
(Ord. No. 17840, § B, 7-31-2012, eff. 9-1-2012)

Chapter 19.01

PROVISIONS APPLICABLE TO ALL PLATTING PROCEDURES

Sections:

19.01.010 Authority, purpose and applicability.

19.01.020 Types of plats required.

19.01.030 Exemptions.

19.01.040 Time for decision on plats and land studies.

19.01.050 Applications and procedures.

19.01.060 Stages of plat approval.

19.01.010 Authority, purpose and applicability.

A. Authority. The procedures of this article are authorized under the authority of Texas Local Government Code, Chapter 212 (including Subchapter B) and the city's Charter. The provisions of this article expressly extend to all areas inside the city limits and throughout the city's extraterritorial jurisdiction.

B. Purpose.

1. The provisions of this title are intended to implement standards and requirements provided for herein, and shall be minimum requirements for the subdivision and/or development of land within the City of El Paso and its extraterritorial jurisdiction, as authorized by state statute.

2. The subdivision and/or development of land, as it affects a community's quality of life, is an activity where regulation is a valid function of municipal government. Through the application of these regulations, the interests of public and private parties are protected by the granting of certain rights and privileges. By establishing a fair and rational procedure for developing land, the requirements in this title further the possibility that land will be developed in accordance with existing physical, social, economic and environmental conditions.

3. The provisions of this title are intended to implement the following objectives:

a. Promote the development and the utilization of land in a manner that assures an attractive and high quality community environment in accordance with the comprehensive plan and the zoning regulations (where applicable) of the City of El Paso;

b. Guide and assist property owners and applicants in the correct procedures to be followed, and to inform them of the standards which shall be required;

c. Protect the public interest by adopting standards for the location, design, class and type of streets, walkways (sidewalks), trails, alleys, utilities and essential public services;

d. Assist orderly, efficient and coordinated development within the city's limits and its extraterritorial jurisdiction;

e. Integrate the development of various tracts of land into the existing community, and coordinate the future development of adjoining tracts;

f. Ensure the most efficient and beneficial provision of public facilities and services for each tract being subdivided;

g. Provide for compatible relationships between land uses as allowed by the Zoning Code and buildings;

h. Provide for the circulation of traffic throughout the municipality;

i. Provide for pedestrian circulation that is appropriate for the various uses of land and buildings;

j. Prevent pollution of the air, streams, bodies of water, arroyos and aquifers; assure the adequacy of drainage facilities; safeguard both surface and groundwater supplies, as well as natural resources and endangered or threatened plant and animal life; and encourage the wise use and management of natural resources throughout the municipality in order to preserve the integrity, stability and beauty of the community and the value of the land;

k. Preserve the natural beauty and topography of the area regulated by this title, and ensure development that is appropriate with regard to these natural features;

l. Establish adequate and accurate records of land subdivision;

m. Ensure that public or private facilities are available and will have sufficient capacity to serve proposed and future developments and citizens within the city and its extraterritorial jurisdiction;

n. Provide for adequate light, air and privacy; secure safety from fire, flood and other danger; and prevent overcrowding of the land and undue congestion of population;

o. Ensure that each subdivision approved by the city is designed in such a way as to minimize stormwater runoff from the site in accordance with the Drainage Design Manual (DDM) and to minimize flooding potential upstream, downstream and within from such subdivision with the DDM.

C. Applicability.

1. The provisions of this title apply to any division of land, combination of separate land parcels, and/or development of land within the corporate boundaries of the city and within its extraterritorial jurisdiction.

2. No permit shall be issued for any development on a property until either a subdivision plat or a development plat has been approved, and if required by this title, filed for record, in accordance with Title 19, except that the following shall be exceptions to this requirement:

a. Permits for repair or remodeling of an existing structure or for site improvements (parking areas, driveways, etc.) which involve no increase in square footage; or

b. The replacement of an existing primary single-family or duplex structure, not to exceed the square footage, nor deviate from the original location, of the original structure, provided that the new structure is in conformance with all other provisions of the City Code; or

c. Building additions to single-family or duplex structures of not over one hundred percent of the existing structure's value, and of not over fifty percent of the gross floor area of the structure; provided that any increase in square footage of a structure, any additions to a structure, and/or any site improvements are in compliance with all other provisions of the City Code; or

d. Demolition permits, or permits for removal of a structure from a parcel or tract; or

e. Permits for accessory buildings (as defined in Title 20 of the Zoning Ordinance).

3. No owner or agent of the owner of any parcel of land located in a proposed subdivision shall transfer or sell any part of the parcel before a subdivision is duly recorded with the county clerk as provided within this title.

4. The subdivision of any lot or any parcel of land by the use of metes and bounds description, contract of sale, or any other legal instrument, for the purpose of sale, transfer, lease or development is prohibited except as otherwise provided for in this title.

D. Subdivision plat and development plat rules. The provisions of this title, the standards governing water and wastewater facilities applicable to plats, and the technical standards contained in the City of El Paso Street Design Manual (SDM), as developed by the city manager or designee and adopted by ordinance by the city council and as may be amended from time to time, constitute the subdivision and development rules of the City of El Paso, which apply to applications for plat approval inside city limits and within the city's extraterritorial jurisdiction. The SDM shall be maintained by and be available in the planning division of the planning and inspections department. Other ordinances of the city may also apply to land development and must be complied with. (Ord. 16882 § 2 (part), 2008)

(Ord. No. 17236, §§ 1, 27, 11-10-2009; Ord. No. 17251, § 1, 12-15-2009; Ord. No. 17396, § 1, 8-24-2010; Ord. No. 17561, § 3, 5-17-2011; Ord. No. 19243, § 1, 10-12-2021; Ord. No. 19327, § 2, 4-26-2022)

19.01.020 Types of plats required.

A. Subdivision Plats. A final plat shall be submitted approved and filed prior to any non-exempt land division.

B. Development plats. Any person who proposes the development of a tract of land or parcel located within the limits or within the city's extra-territorial jurisdiction of the municipality, to include tracts exempted from preparing a subdivision plat, must have a development plat of the tract or parcel prepared and approved in accordance with Chapter 19.05 prior to development on the tract or parcel. Tracts or parcels included within an approved subdivision plat meeting all the requirements of Title 19 are exempt from the requirements for submittal of a development plat.

C. Replats. A replat and the provisions of Chapter 19.07 shall be required any time a platted, recorded lot is further divided or expanded, thereby changing the boundary and dimensions of the property, except as allowed below in Section 19.01.030, Exemptions. In the case of revisions to recorded plats or lots, a minor or amending plat may also be utilized if allowed by state law in accordance with Chapter 19.06 and Section 19.07.040. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17561, § 4, 5-17-2011; Ord. No. 19243, § 2, 10-12-2021)

19.01.030 Exemptions.

Exemptions. The following land divisions are exempt from the requirements of this article that apply to plats, provided that the applicant has an approved exemption determination application in accordance with Section 19.37.100:

1. The combining of two or more legally recorded lots into one parcel will not be required to be replatted into one lot provided all lots are permanently joined by a structure or improvements built over the property line(s) are in accordance with the zoning ordinance;

2. The division of a legally recorded lot into two portions and the combining of the portions of the lots with the adjacent lots on each side shall be allowed without replatting, provided each new lot complies with the zoning ordinance. The parcel line dividing the middle lot shall become the new lot line and the side setbacks required by zoning shall be measured from that line;

3. The split by metes and bounds and subsequent issuance of a permit for improvements upon a portion of a platted lot within a commercial unit development;

4. Provided, however, that on those parcels described in subsections 1., 2. and 3. above, no additional right-of-way or public easements must be dedicated, or public utilities or roadways must be constructed;

5. Sale, inheritance, or gift of land by metes and bounds of tracts upon which no improvements, development, subdivision or alteration is intended, provided however, that prior to construction of improvements, a plat meeting the requirements of the ordinance codified in this title shall be completed and recorded;

6. Use of existing cemeteries complying with all state and local laws and regulations;

7. A division of land created by order of a court of competent jurisdiction, provided however, that prior to construction of improvements, a plat meeting the requirements of the ordinance codified in this title shall be completed and recorded prior to the issuance of permits;

8. Creation of a remainder tract in accordance with Section 19.02.060, provided such remainder tract is suitable for development in the future and does not make any other tracts undevelopable under current City of El Paso ordinances, and provided however, that prior to construction of improvements, a plat meeting the requirements of the ordinance codified in this title shall be completed and recorded prior to the issuance of permits;

9. Any development activity associated with a plat that conforms to the subdivision requirements set forth in this chapter;

10. Bona fide agricultural activities; and

11. Construction of agricultural accessory structures and related development activities.

12. The acquisition of land for the purpose of widening or extending public rights-of-way, stormwater drainage and water or wastewater infrastructure facilities.

13. The division of a legally subdivided and recorded lot in which a duplex is constructed, located in a district where duplexes are permitted may be resubdivided by metes and bounds into two separate lots, provided that the following requirements are met:

a. One dwelling unit of the duplex must remain on each separate lot at the time that the division is created;

b. The metes and bounds survey and survey map are prepared by a licensed surveyor of the State of Texas;

c. No panhandle lots or lots without access are created;

d. The metes and bounds survey and survey map shall be duly recorded and filed with the office of the El Paso County Clerk;

e. A copy of the recorded instrument shall be provided with all building permit applications; and

f. Any future building construction of dwelling units shall comply with all provisions of the zoning code.

14. Land to be used for electric company substations or minor utility facilities as defined in Title 20 of the City Code.

15. Construction of accessory buildings and additions of less than fifty percent of the total existing square footage of schools that were built at least thirty years prior to the date that the current submitted application is deemed complete. (Ord. 16882 § 2 (part), 2008)

(Ord. No. 17236, § 27, 11-10-2009; Ord. No. 17251, § 1, 12-15-2009; Ord. No. 17276, § 1, 2-16-2010; Ord. No. 18056, § 1, 7-16-2013; Ord. No. 18627, § 1, 2-7-2017; Ord. No. 19243, § 3, 10-12-2021)

19.01.040 Time for decision on plats and land studies.

A. Time Period for Action. All preliminary plat, final plat, minor plat, development plat, replat, and land study applications shall be acted upon within thirty days from the date a submitted application is deemed complete as provided for in Section 19.37.020, unless a written waiver request is submitted in accordance with subsection B. below. An applicant may request in writing an extension to the thirty-day approval period to allow additional time to comply with the requirements of this title and all other ordinances. The request may be for a period not to exceed thirty days.

B. Waiver of Right to Thirty-Day Action.

1. Responsible Official. The city manager or designee shall be the responsible official and the initial decision-maker for a waiver of right to thirty-day action or extension to the thirty-day action requirement for minor applications. The city plan commission shall be the responsible official and the initial decision-maker for a waiver of right to thirty-day action or extension to the thirty-day action requirement for all preliminary plat, final plat, development plat, replat, and land study applications.

2. Request. An applicant may request in writing a waiver of right to thirty-day action in relation to the decision time for preliminary plats, final plats, minor plats, development plats, replats, or land studies suitable for approving within thirty days as mandated by state law. The waiver request shall contain a statement of the time for which a waiver is sought. With the exception of a request for a minor plat application, no waiver shall be granted for a period less than the commission's next regularly scheduled meeting. All waivers and extension requests, to include those relating to minor plat applications, shall be for a period not to exceed thirty days.

3. Received. Waiver and extension requests for preliminary plats, final plats, development plats, replats, and land studies may be received by the city manager, or designee prior to the city plan commission meeting agenda posting deadline at which action would have to be taken (based on the thirty-day requirement in state law) on the plat application. Waiver requests that are not received

by that day shall not be considered properly submitted, and action shall be taken on the plat application at such meeting as scheduled.

4. Action. The city plan commission shall take action on the waiver of right to thirty-day action request within the thirty-day period for acting on the plat. If the waiver is granted, action on the plat application shall be waived for a certain period of time, consistent with the approved waiver.

5. Reserved.

6. Requirements Maintained. The granting of a waiver of right to thirty-day action request shall not be deemed in any way a waiver to any requirement within this title. A waiver from requirements herein is a separate and distinct process.

C. Preliminary, final, and development plat application within the extraterritorial jurisdiction. Where the land to be platted lies within the extraterritorial jurisdiction of the city in El Paso County, no preliminary, final or development plat application shall be accepted as complete in accordance with Section 19.37.020, unless the application also complies with Chapter 19.11 and its requirements regarding the ETJ. (Ord. 16882 § 2 (part), 2008) (Ord. No. 17236, § 27, 11-10-2009; Ord. No. 17561, § 5, 5-17-2011; Ord. No. 18056, § 2, 8-6-2013; Ord. No. 18971, § 1, 9-3-2019)

19.01.050 Applications and procedures.

Complete Application. Where a conflict exists between the procedures listed in this chapter and any other chapters of this title, the procedures of this chapter shall control.

A. An application must be complete in order to be accepted for review by the City of El Paso. All applications shall be made electronically or on forms available from the city. To be complete, it must comply with all the procedures and requirements of this title. Refer to Chapter 19.37 of this title and to the administrative submission requirements available in the planning division for complete application procedures and requirements.

B. Required documentation for the initial application to be considered complete for each review process is listed in subsections C through F below.

C. Preliminary Plat (See Chapter 19.03 for Substantive Requirements).

1. Application and related documents meeting the requirements in the preliminary plat submission checklist.

2. Application fee.

D. Final Plat (See Chapter 19.04 for Substantive Requirements).

1. Application and related documents meeting the requirements in the final plat submission checklist.

2. Application fee.

3. An electronic copy of the plat in a format acceptable to the city as specified in the DSC.

4. Field notes as specified in the DSC.

5. Title opinion or proof of ownership dated within thirty days of submission.

6. Final subdivision improvement plans with all accompanying documentation must be submitted prior to or at the time of submission of the final plat.

7. Drainage plans.

8. Utility plans, even though provided by another agency.

E. Minor Plat (See Chapter 19.06 for Substantive Requirements).

1. Application and related documents meeting the requirements in the final plat submission checklist.

2. Application fee.

3. An electronic copy of the plat in a format acceptable to the city tied to state plane coordinate system or city monuments as required.

4. Field notes as specified in the DSC.

5. Title opinion or proof of ownership dated within thirty days of submission.

6. Drainage plans.

F. Development plat (See Chapter 19.05 for substantive requirements).

1. Application and related documents meeting the requirements in the development plat submission checklist.

2. Application fee.

3. An electronic copy of the plat in a format acceptable to the city as specified in the DSC.

4. Field notes as specified in the DSC.

5. Title opinion or proof of ownership dated within thirty days of submission.

6. Final subdivision improvement plans with all accompanying documentation must be submitted prior to or at the time of submission of the development plat.

7. Drainage plans.

8. Utility plans, even though provided by another agency. (Ord. 16882 § 2 (part), 2008)

(Ord. No. 17236, §§ 2, 27, 11-10-2009; Ord. No. 17396, § 1, 8-24-2010; Ord. No. 17561, § 6, 5-17-2011; Ord. No. 19243, § 4, 10-12-2021)

19.01.060 Stages of plat approval.

A. Subdivision plats. A subdivision plat may be approved in three stages:

1. Land study (refer to Chapter 19.02); if required;

2. Preliminary plat (refer to Chapter 19.03); and

3. Final plat (refer to Chapter 19.04).

B. Development plats (refer to Chapter 19.05).

C. Combined applications. An applicant may submit applications for approval of a land study and a preliminary plat, or a preliminary plat and a final plat simultaneously. Such acceptance shall be on a form provided by the planning division. The combination plat must meet all requirements of a final plat prior to approval by the city plan commission. Engineering and subdivision improvement plans must also be submitted and approved in accordance with this title.

D. City manager or designee. The city manager, or designee shall be the responsible official for a plat, and the staff shall be the initial reviewing body for a plat application.

1. The city manager, or designee, and/or other city staff at the direction of the city manager, or designee, shall review all plat applications for completeness (refer to Section 19.37.020) based on a checklist and the administrative submission requirements supplied by the planning division.

2. The staff shall review all plat applications that are deemed complete for conformance with this chapter and any other applicable city regulations. (Ord. 16882 § 2(part), 2008)

(Ord. No. 17236, §§ 2, 10, 11-10-2009; Ord. No. 17396, § 2, 8-24-2010; Ord. No. 17561, § 7, 5-17-2011)

Chapter 19.02

LAND STUDIES

Sections:

19.02.010 Purpose, applicability and effect.
19.02.020 Application and procedures.
19.02.030 Decision.
19.02.040 Criteria for approval.
19.02.050 Expiration and extension.
19.02.060 Remainder tracts.
19.02.070 Revisions following approval of a land study.

19.02.010 Purpose, applicability and effect.

A. Purpose and Intent. The purpose of a land study shall be to delineate the sequence and timing of development within a proposed subdivision, where the tract to be developed is part of a larger parcel of land owned or controlled by the applicant, in order to determine compliance with the city's comprehensive plan and the availability and capacity of public improvements needed for the subdivision and the larger parcel. The purpose of the land study shall also be:

1. To elicit comment from the subdivider and the city technical staff regarding the proposed design of the land for the purpose of expediting subdivision application(s);

2. To reduce subdivision design and development costs when a subdivider proposes to phase the development or to develop various land uses;

3. To review and approve a general plan for the development of property including the layout of arterial streets, open areas, sites for public facilities, and utilities;

4. To determine the availability of existing services to the area, including street improvements, drainage, sewerage, fire protection, schools, parks and other such facilities within one mile abutting the proposed study area.

B. Applicability.

1. When Required. Prior to submission or concurrently with any subdivision application, the subdivider shall file an application for approval of a land study with the city manager, or designee. A land study application shall include all contiguous holdings of the subdivider, including land in common ownership, which is proposed to be developed or subdivided within the meaning of this title. For purposes of this title, a land study shall be required in all instances unless the city manager or designee finds that:

a. An approved detailed site development plan or generalized site plan incorporating the proposed development area provides sufficient information for the purposes outlined and the preparation of a plat;

b. A preliminary plat is submitted for the entire proposed development area, allowing review of the phasing for the whole property;

c. A finding made under this subsection shall be based on a determination by the city manager, or designee that the alternate plan or plat satisfies the purpose and intent of a land study submittal, and that the alternate plan or plat fully contains the information required for submission of a land study application. Where changes are made to an approved detailed site development plan, generalized site plan or preliminary plat that is used as a basis for a finding made by the city manager, or designee, the subdivider shall be required to submit a revised drawing of such approved plan or plat to the city manager or designee for proper recordkeeping. Failure to provide a revised drawing shall require that any subsequent subdivision application fully conform to the approved detailed site development plan, generalized site plan or preliminary plat on file; or

d. A referral by the city manager or their designee made to the city plan commission to determine the applicability of a land study submittal, or to appeal a negative finding pursuant to this subsection. The city plan commission shall review all reports and recommendations presented by the city manager or designee and shall make a determination as needed on the applicability provisions, or the appeal as necessary. An action taken by the city plan commission shall be binding on all parties.

2. A land study shall be required for any division of land where proposed development of the tract is to occur in phases and is not covered by a preliminary plat or other document listed in subsections (B)(1)(b), (B)(1)(c) and (B)(1)(d) above. Phasing for the land study shall not exceed a time period of five years plus 2 two-year extensions. Provided however, any extension of a land study beyond this period by the CPC shall automatically extend the phasing period as well. The applicant shall submit a schedule showing the proposed phasing of development that shall be approved along with the land study. If the land subject to the land study is part of a larger parcel, the remaining land shall be shown as a remainder tract, but shall not be included within the land study.

C. Effect.

1. Approval of a land study authorizes the subdivider to submit a preliminary plat application for each phase of development shown on the land study, subject to the phasing plan of development approved for the land.

2. Once a land study has been approved, all plats approved thereafter for the same land shall be consistent with the land study for so long as the land study remains in effect. Minor variations between the land study and the subsequent plat application(s) shall be permitted; in accordance with Section 19.02.070. (Ord. 16882 § 2 (part), 2008)

(Ord. No. 17236, § 27, 11-10-2009)

19.02.020 Application and procedures.

A. Responsible Official. The city manager or designee shall be the responsible official for a land study.

B. Submittal. All applications shall be submitted electronically or on a form supplied by the planning division with the required information as stated on the application form.

C. Prior Approved Applications. An application for a land study shall not be approved unless all zoning amendments, including a request for a zoning change or a comprehensive plan, thoroughfare plan or other adopted plan amendment, which are necessary to authorize the uses or layout proposed on the land study have been approved and remain in effect for the land included in the land study. An application may be conditionally approved subject to the other required zoning and plan amendment approvals being approved.

D. Accompanying Applications.

1. An application for a land study may be accompanied by an application for rezoning approval provided that the rezoning application shall be decided first.

2. An application for a land study may be accompanied by an application for approval of a preliminary plat for the first phase of the project, provided that the application for land study shall be decided first. The applicant may request simultaneous review. However, the applicant assumes all responsibility for any problems or issues created by simultaneous submission.

E. General Requirements. The subdivider shall submit the land study in accordance with the application form, requirements and checklist as adopted by the city. The land study shall be accompanied by a processing fee established by the city council. The land study must be prepared by an engineer and must provide all of the following information:

1. General arrangement of existing and proposed land uses, including, but not limited to, park and school sites, other public facilities, open space areas, floodplains and drainage ways. The land uses regulated by zoning must comply with both the location and layout as prescribed by the official adopted zoning map and zoning ordinance of the City of El Paso, unless a rezoning is proposed as part of the combined application;

2. The proposed density expressed in units per acre and population by land use. The proposed densities shown may not exceed those prescribed by the official adopted zoning map and zoning ordinance of the City of El Paso unless a rezoning is proposed as part of the combined application;

3. Proposed phasing of platting;

4. The proposed traffic circulation, layout, and width of all collector streets and arterial street

classifications. The proposed street layout must comply with the adopted thoroughfare plan for the City of El Paso as to location and size of roadways, unless an amendment to such plans is proposed as part of the combined application;

5. Traffic impact/capacity study to determine the capacity need, if any, for additional traffic lanes (e.g., acceleration, deceleration, or turning), signalization and other roadway or traffic mitigation improvements. The traffic impact/capacity study shall be prepared in accordance with standards provided by the city;

6. Conceptual drainage plan indicating existing and proposed major stormwater sewer facilities. The drainage plans shall indicate the phasing plans and approximate location of temporary and permanent easements and rights-of-way that will be needed to accommodate the phasing plan and to carry the storm drainage to its ultimate destination;

7. Layout and relationship of the proposed subdivision(s) to surrounding development, including the location, width, and names of all existing and platted streets, subdivisions, public ways, drainage channels, and other relevant features;

8. Existing and/or proposed zoning of the property and adjoining land;

9. Dimensions of the land study boundaries;

10. Existing contours of the tract in intervals appropriate to the topography as determined by the city manager, or designee, in accordance with the DSC and based on National Geodetic Vertical Datum (year to be specified on land study);

11. Existing major water and sanitary sewer facilities. (Ord. 16882 § 2 (part), 2008)

(Ord. No. 17396, § 3, 8-24-2010; Ord. No. 18971, § 2, 9-3-2019; Ord. No. 19243, §§ 5, 6, 10-12-2021)

19.02.030 Decision.

A. The city plan commission shall decide whether to approve, approve with conditions, or deny the land study application.

B. Prior to the decision, the city plan commission shall be provided with a full copy of the land study and all related documents that are needed to make a decision as to compliance with this title.

C. Where the city plan commission conditionally approves or disapproves a land study application, the city plan commission shall provide the applicant a written statement of the conditions for the conditional approval or reasons for disapproval that clearly articulates each specific condition for the conditional approval or reason for disapproval. Each condition or reason specified in the written statement must:

1. Be directly related to the requirements in Title 19 and specifications contained in the City of El Paso Street Design Manual (SDM); and

2. Include a citation to the law, including a statute or municipal ordinance, that is the basis for the conditional approval or disapproval; and

3. May not be arbitrary.

D. After the conditional approval or disapproval of the land study, the applicant may resubmit the land study along with a written response that clearly articulates how each condition for conditional approval or each reason for disapproval has been remedied.

E. The city plan commission shall determine whether to approve or disapprove the applicant's previously conditionally approved or disapproved land study within fifteen days of receipt of resubmission and written response.

F. It shall be the responsibility of the subdivider to ensure that the land study satisfies all the requirements of the city code, the SDM and any other regulatory requirement. (Ord. 16882 § 2 (part), 2008)

(Ord. No. 18971, § 3, 9-3-2019; Ord. No. 19327, § 3, 4-26-2022)

19.02.040 Criteria for approval.

A. Factors. The following criteria shall be used to determine whether an application for a land study shall be approved, approved with conditions, or denied:

1. The land study is consistent with all zoning requirements for the property, and any approved development agreement;

2. The proposed provision and configuration of arterial and collector roads, water, wastewater,

drainage and park and open space facilities are adequate to serve each phase of the subdivision and generally meet the standards of this title, the SDM and any other applicable standards or requirements of the city;

3. The schedule of development assures that the proposed development will progress to completion within the schedule proposed;

4. The proposed land study conforms to the district and is consistent with the incorporated concept plan, if any;

5. The location, size and sequence of the phases of development proposed assures orderly development of the land subject to the plat;

6. Where the proposed development is located in whole or in part in the extraterritorial jurisdiction of the city in El Paso County, the proposed land study meets any County of El Paso standards; and

7. The land study is consistent with the adopted comprehensive plan, except where application of the plan conflicts with state law.

B. Conditions. In addition to any other conditions required to conform the land study to the standards of this title, the city plan commission may condition approval on exclusion of land from the land study or adjustments in the proposed sequence or timing in the proposed phases of the development. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009; Ord. No. 18056, § 3, 8-6-2013; Ord. No. 19327, § 4, 4-26-2022)

19.02.050 Expiration and extension.

A. Time of Expiration.

1. Expiration of the land study shall be five years. Two extensions may be approved for a period of two years each by the CPC from the date a complete application is officially approved, unless otherwise governed by the schedule of development approved by the city plan commission. A land study for property of one thousand acres or more may be granted additional two-year extensions provided that a finding is made by the CPC that from the date that the prior two-year extension was granted, substantial progress has been made toward the completion of the development.

2. Expiration of a preliminary plat or final plat for any phase of the land study which has expired shall not change the approved phasing plan and all subsequent plats meet the approved plan unless otherwise approved by the CPC.

B. Extension. The expiration date for any phase of the development may be extended by the city plan commission under Chapter 19.41. Extension of the expiration date for the phase extends the expiration date for the land study for a like period. (Ord. 16882 § 2 (part), 2008)

19.02.060 Remainder tracts.

A. Definition. A remainder tract is that portion of a larger parcel that is not included within the boundaries of a land study or any type of plat. Remainder tracts shall not be considered lots or tracts of the subdivision. Approval of a plat shall not constitute approval of development on a remainder tract.

B. Information. Information accompanying a plat application for remainder tracts shall be deemed to be an aid to the city plan commission in taking action on the plat application and may be used to determine whether development of the land subject to the plat will be adequately served by public facilities and services and is otherwise in compliance with this title, taking into account the development of the property as a whole. Information concerning remainder tracts, including topography, drainage, and existing and planned public improvements, may be considered in formulating conditions to approve the plat application. Based upon such information, the city plan commission may require that additional or less land be included in the plat in order to satisfy the standards applicable to the plat application.

C. Approval. Approval of such remainder tract is conditioned on such remainder tract being suitable for development in the future and not making any other tracts undevelopable under current City of El Paso ordinances. (Ord. 16882 § 2 (part), 2008)

19.02.070 Revisions following approval of a land study.

A. Minor changes. The city manager or designee may deem a revision to be minor and may authorize the amendment administratively. An amendment shall be considered minor if the city manager or designee determines that it does not alter any of the following by more than ten percent: the arrangement of land use, acreage designated to land uses, density, open space areas, to include changes to any arroyos, relocate major circulation elements or alter the concept of the development.

B. Amendments.

1. At any time after approval of a land study and before submission of a final plat for any portion of the area contained within the approved land study, the subdivider may request that an amendment be made in the approval or approval with conditions of the land study.

2. An amendment not deemed minor by the city manager, or designee shall be reviewed and either approved, approved subject to conditions or disapproved by the city plan commission, following a staff recommendation, pursuant to the general procedures outlined in this chapter.

a. An amendment that alters the arrangement of land use, acreage designated to land uses, density, or open space areas, to include changes to any arroyos, by twenty-five percent or more is considered a new application.

b. An amendment that alters the arrangement of land use, acreage designated to land uses, density, or open space areas, to include changes to any arroyos, by more than ten percent but less than twenty-five percent is considered an amended application and has a reduced fee as determined by city council.

3. The amendment to the land study shall be submitted with the approved application form, required information and checklists and fees. It shall be processed in the same timeframe and manner as if it were a new land study application.

4. If a request for amendment to an approved land study occurs after submission of a final plat, the subdivider shall be required to file a new land study application for the entire area contained within the formerly approved land study. Amendments deemed minor by the city manager or designee, as defined in subsection A of this section, may be authorized administratively.

5. The revised land study application shall be subject to the subdivision regulations in effect at the time of resubmission, subject to the vesting provisions of Title 1, Section 1.04.070 of the City Code. (Ord. 16882 § 2 (part), 2008)

(Ord. No. 17251, § 2, 12-15-2009; Ord. No. 18056, § 4, 8-6-2013)

Chapter 19.03

PRELIMINARY PLATS

Sections:

19.03.010 Purpose, exceptions and effect.

19.03.020 Application and procedures.

19.03.030 Decision.

19.03.040 Criteria for approval.

19.03.050 Effect of approval of a preliminary plat.

19.03.060 Expiration and extension.

19.03.070 Revisions following approval of preliminary plat.

19.03.010 Purpose, exceptions and effect.

A. Purpose. The purpose of a preliminary plat shall be to determine the general layout of the subdivision, the adequacy of public facilities needed to serve the intended development and the overall compliance of the land division with applicable requirements of this title. The city will not require non-engineering related significant changes in the final subdivision improvement plans or final plat approval that contradict the preliminary plat approval, except it reserves the right to address life safety or other significant issues that the design engineer should have addressed in the preliminary plat.

B. Exceptions. A final plat in accordance with Chapter 19.04, along with final subdivision improvement plans in accordance with Chapter 19.08, may be submitted in lieu of a preliminary plat. The applicant, however, assumes all liability for costs and time delays created by the applicant not submitting a preliminary plat.

C. Effect. Approval of a preliminary plat shall authorize the subdivider to submit subdivision improvement plans for approval by the city manager, or designee under Chapter 19.08 and, upon approval of such plans, to construct public improvements to serve the subdivision in accordance therewith. Approval of a preliminary plat also shall authorize the subdivider to seek approval of a final plat for the land subject to the preliminary plat. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009; Ord. No. 17251, § 3, 12-15-2009)

19.03.020 Application and procedures.

A. Responsible Official and Initial Review. The city manager, or designee shall be the responsible official for a preliminary plat, and the staff shall be the initial reviewing body for a preliminary plat application.

B. Pre-Application Conference. Refer to Section 19.37.050 of Chapter 19.37.

C. Application Contents. All applications shall be submitted electronically or on a form supplied by the planning division with the required information as stated on the application form and the administrative submission requirements available in the planning division.

D. Preliminary engineering information in accordance with the SDM checklists meeting the submission requirements must also be submitted with the preliminary plat application.

E. Accompanying Applications. An application for a preliminary plat may be accompanied by an application for rezoning approval, including a request for a planned development district, or a land study application. The rezoning application and land study application shall be decided first, or the preliminary plat shall be approved subject to their approvals. Action in accordance with this title will be taken on the preliminary plat within thirty days.

F. Staff Review. The staff shall review each preliminary plat application to be placed on the agenda of the forthcoming meeting of the city plan commission. The staff shall recommend either:

1. Approval of the preliminary plat;
2. Denial of the preliminary plat;
3. Approval of the preliminary plat with conditions; or
4. Approval of the preliminary plat with recommendations regarding any exceptions provided for in this title.

G. Resubmittal Following Staff Review.

1. The applicant shall retain in his possession a copy of the original preliminary plat that was submitted for review by the staff.

2. At least eight days prior to the meeting of the city plan commission during which the preliminary plat is scheduled for action, the applicant shall provide to the city manager or designee copies of the preliminary plat meeting the submission requirements. The city manager or designee shall then review the preliminary plat for compliance with staff recommendations. (Ord. 16882 § 2 (part), 2008)

(Ord. No. 17236, §§ 2, 8, 11-10-2009; Ord. No. 17396, § 4, 8-24-2010; Ord. No. 18971, § 4, 9-3-2019; Ord. No. 19243, § 7, 10-12-2021; Ord. No. 19327, § 5, 4-26-2022)

19.03.030 Decision.

A. Review and Determination. The city plan commission shall review all preliminary plat applications, findings of the staff, findings of the city manager, or designee regarding compliance with staff recommendations, and any other information available. From all such information, the commission shall determine whether the preliminary plat as shown on the application meets the standards of this title.

B. Approval or Denial. The city plan commission shall decide whether to approve, approve with conditions, or deny the preliminary plat application within thirty days from determination that the application is complete in accordance with Section 19.37.020. The action of the commission shall be entered in the minutes of the commission and the applicant shall be notified of the results.

1. All changes or conditions required by the city plan commission as part of the preliminary plat approval shall be made a part of the record and any final plat or final subdivision improvement plans shall meet those required changes or conditions.

2. On a preliminary plat with significant changes, the city plan commission may at the time a preliminary plat is approved subject to conditions, require a revised preliminary plat to be resubmitted.

3. Where the city plan commission conditionally approves or disapproves a preliminary plat application, the city plan commission shall provide the applicant a written statement of the conditions for the conditional approval or reasons for disapproval that clearly articulates each specific condition for the conditional approval or reason for disapproval. Each condition or reason specified in the written statement must:

a. Be directly related to the requirements in Title 19 and specifications contained in the City of El Paso Street Design Manual (SDM); and

b. Include a citation to the law, including a statute or municipal ordinance, that is the basis for the conditional approval or disapproval; and

c. May not be arbitrary.

4. After the conditional approval or disapproval of the preliminary plat application, the applicant may resubmit the preliminary plat along with a written response that clearly articulates how each condition for conditional approval or each reason for disapproval has been remedied.

5. The city plan commission shall determine whether to approve or disapprove the applicant's previously conditionally approved or disapproved preliminary plat within fifteen days of receipt of resubmission and written response.

6. It shall be the responsibility of the subdivider to ensure that the preliminary plat satisfies all the requirements of the city code, the SDM and any other regulatory requirement. (Ord. 16882 § 2 (part), 2008)

(Ord. No. 17236, § 27, 11-10-2009; Ord. No. 18971, § 5, 9-3-2019; Ord. No. 19327, § 6, 4-26-2022)

19.03.040 Criteria for approval.

The following criteria shall be used to determine whether the application for a preliminary plat shall be approved, approved with conditions or denied:

A. The preliminary plat is consistent with any zoning requirements for the property, and any

approved development agreement, or is approved subject to any proposed zoning submitted concurrently;

B. The preliminary plat conforms to the general layout of the approved land study (with minor variations as described in Chapter 19.02), including any phasing plan approved therein;

C. The proposed provision and configuration of roads, drainage and other facilities generally conform to the city's adopted master plans for those facilities, including without limitation, transportation, drainage, and any other municipal plans, but are not required to exceed the development's proportional share;

D. The proposed provision and configuration of roads, drainage, park and open space facilities, easements, and rights-of-way are adequate to serve the subdivision and meet applicable standards of this chapter;

E. The preliminary plat meets any County of El Paso standards in accordance with Chapter 19.11, when the proposed development is located in whole or in part in the extraterritorial jurisdiction of the city and in the county;

F. The preliminary plat has been duly reviewed by applicable city staff, including the city manager or designee;

G. The preliminary plat conforms to the design requirements and construction standards as set forth in the City of El Paso Street Design Manual (SDM);

H. The preliminary plat is consistent with the adopted comprehensive plan, except where application of the plan conflicts with state law (e.g., land use); and

I. The preliminary plat is consistent with the parks and open space plan and the proposed provision of parks and open space and/or fees in lieu of dedication is in conformance to this and all other ordinances.

J. The preliminary plat complies with any exceptions approved by the CPC or any exceptions approved by the city council involving creating a future expenditure of money by the city.

K. An interim plat may be approved for property zoned SmartCode without reflecting the regulating plan, provided that the plat contains the following plat note: "This land is zoned SmartCode and a regulating plan has been approved. Prior to the issuance of any city permits, a plat reflecting the regulating plan must be approved and recorded." (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17905, § 1, 11-6-2012; Ord. No. 19327, § 7, 4-26-2022)

19.03.050 Effect of approval of a preliminary plat.

A. Right to proceed. The approval of a preliminary plat application shall allow the applicant to proceed with the development and platting process by submitting subdivision improvement plans and a final plat. The city will not require non-engineering related significant changes in the final subdivision improvement plans or final plat approval that contradict the preliminary plat approval, reserving the right to address life safety or other significant issues that the city, the design engineer or other consultants working on behalf of the developer should have addressed in the preliminary plat.

B. Installation of subdivision improvements.

1. Approval of the preliminary plat by the city plan commission shall be deemed an approval of the layout illustrated on the preliminary plat as a guide to the installation of streets, water, wastewater, parks, open space, drainage infrastructure and other improvements that are planned or required within the proposed subdivision.

2. Approval of the preliminary plat shall not constitute approval of the proposed subdivision, nor shall approval of the preliminary plat be construed to mean acceptance by the public of the dedication of any roads, utilities, parks, open space, drainage ways, or other such land and improvements.

3. Construction of all subdivision improvements shall be based upon approved subdivision improvement plans, and shall occur either:

a. Prior to final plat approval and recordation but after the preliminary plat and all subdivision improvement plans for public improvements have been approved;

b. Following final plat and subdivision improvement plan approval but prior to recordation. If improvements are delayed beyond three years of the date of final plat approval, the developer must file security required in Section 19.08.040; or

c. Following final plat approval and recordation and the release of building permits for up to fifty percent of the residential lots, provided that: 1) the lots have water and sanitary sewer service and a letter of Conditional Acceptance issued by the El Paso Water Utilities; and, 2) the lots are contiguous and form a complete block face or block faces within the subdivision; and, 3) no Certificate of Occupancy shall be issued until a letter of Final Acceptance has been issued by the El Paso Water Utilities. Prior to the issuance of permits for more than fifty percent of the residential lots or prior to a request for a certificate of occupancy, the developer must submit required security in lieu of completing construction, in accordance with Section 19.08.040 of this title. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 18056, § 5, 8-6-2013)

19.03.060 Expiration and extension.

The approval of a preliminary plat application shall remain in effect for a period of three years from the date of approval by the city plan commission, during which period the applicant shall submit and receive approval for subdivision improvement plans and a final plat for the land subject to the preliminary plat. If subdivision improvement plans and a final plat application have not been approved within the three-year period, the preliminary plat application, unless extended in accordance with Chapter 19.41, shall expire and the preliminary plat shall be null and void. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 18056, § 6, 8-6-2013)

19.03.070 Revisions following approval of preliminary plat.

A. Submission allowed. Following the approval of a preliminary plat application, the applicant may resubmit a revised preliminary plat along with a resubmission fee in accordance with the adopted fee schedule.

B. Minor changes. Minor changes in the design of the subdivision subject to a preliminary plat may be incorporated in an application for approval of a final plat without the necessity for submittal of a new application for approval of a preliminary plat. Minor changes may include minor adjustments in street or alley alignments, lengths, and paving details; addition or exception of utility easements; adjustment of lot lines and similar minor changes that do not result in creation of additional lots, provided that such changes are consistent with any approved prior applications.

C. Amendments. All other proposed changes to the design of the subdivision subject to an approved preliminary plat shall be deemed major amendments that require submittal and approval of a new application for approval of a preliminary plat before approval of a combination or final plat. Approval of major revisions to an approved preliminary plat shall occur prior to the date any approved land study would have expired for the same land.

D. Determination. The city manager or designee shall make a determination of whether changes are deemed to be minor within ten days or shall require new submittal of a preliminary plat. (Ord. 16882 § 2 (part), 2008)

Chapter 19.04

FINAL PLAT

Sections:

19.04.010 Purpose, applicability, exceptions and effect.

19.04.020 Application and procedures.

19.04.030 Decision.

19.04.040 Criteria for approval.

19.04.050 Revisions to final plat.

19.04.060 Expiration and extension.

19.04.070 Plat recordation.

19.04.010 Purpose, applicability, exceptions and effect.

A. Purpose. The purpose of a final plat is to assure that the subdivision of the land subject to the plat is consistent with all standards of this title pertaining to the adequacy of public facilities, that public improvements to serve the subdivision or development have been installed and accepted by the city or that provision for such installation has been made, that all other requirements and conditions have been satisfied or provided for to allow the plat to be recorded, to assure that the subdivision meets all other standards of this title and to enable initiation of site preparation activities for any lot or tract subject to the final plat. The city will not require non-engineering related significant changes in the final subdivision improvement plans or final plat approval that contradict the preliminary plat approval, reserving the right to address life safety or other significant issues that should have been addressed in the preliminary plat.

B. Applicability. Construction of public improvements may occur prior to final plat approval if the requirements in Chapter 19.08 are met. Prior to submission of the final plat application for approval, the final subdivision improvement plans, including water and wastewater plans, even though provided by another design agency, other public utilities and storm drainage, must be submitted to the planning division. In order to construct public improvements prior to approval of the final plat, such plans, except water and wastewater when part of the EPWU or other water or wastewater system, must be reviewed and approved by the city manager, or designee. The city manager or designee may recommend that a final plat be approved subject to corrections being made to the final subdivision improvement plans.

C. Effect. Approval of a final plat shall authorize the subdivider to install any improvements in public rights-of-way with approved subdivision improvement plans and to seek approval of site preparation, building and other permits for any lot in the subdivision, in accordance with section 19.08.020. Approval also authorizes the recordation of the final plat in accordance with this title. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009; Ord. No. 17251, § 4, 12-15-2009; Ord. No. 17396, § 5, 8-24-2010)

19.04.020 Application and procedures.

A. Responsible Official. The city manager, or designee shall be the responsible official for a final plat, and the staff shall be the initial reviewing body for a final plat application.

B. Pre-Application Conference. Refer to Section 19.37.050.

C. Prior Approved Preliminary Plat. The final plat and all accompanying data shall conform to the preliminary plat as approved by the city plan commission, incorporating all approved exceptions and conditions. The final plat shall be prepared by a registered professional land surveyor.

D. Proof of Ownership. The applicant shall furnish with the application to the city a current title commitment issued by a title insurance company authorized to do business in Texas policy, a title opinion letter from an attorney licensed to practice in Texas or some other acceptable proof of ownership, identifying all persons having an ownership interest in the property subject to the plat. The final plat shall be signed (on the face of the plat in plain view) by each owner, or by the

representative of the owners authorized to sign legal documents for the owners, effectively denoting that they are consenting to the platting of the property and to the dedications and covenants that may be contained in the plat. Such consent shall be subject to review and approval by the city attorney.

E. Application Contents. All applications shall be submitted electronically or on a form supplied by the planning division with the required information as stated on the application form and the administrative submission requirements available in the planning division.

F. Staff Review. The staff shall review each final plat application to be placed on the agenda of the city plan commission. Staff shall recommend either:

1. Approval of the final plat;

2. Denial of the final plat; or

3. Approval of the final plat with conditions.

G. Resubmittal Following Staff Review.

1. The applicant shall retain in his possession the original final plat that was submitted for review by the staff.

2. At least eight days prior to the meeting of the city plan commission during which the final plat is scheduled for review, the applicant shall provide to the city manager, or designee a copy meeting submission requirements of the final plat, with revisions made based on staff comments and recommendations. The city manager or designee shall then review the final plat for compliance with staff recommendations. (Ord. 16882 § 2 (part), 2008)

(Ord. No. 17236, §§ 2, 8, 27, 11-10-2009; Ord. No. 17396, § 6, 8-24-2010; Ord. No. 18971, § 6, 9-3-2019; Ord. No. 19243, §§ 8, 9, 10-12-2021)

19.04.030 Decision.

A. Review and Determination. The city plan commission shall review all final plat applications, findings of the staff, findings of the city manager, or designee regarding compliance with staff recommendations, and any other information available. From all such information, the commission shall determine whether the final plat as shown on the application meets the standards of this title.

B. Approval or Denial. The city plan commission shall decide whether to approve, approve with conditions, or deny the final plat application. Upon approval of the final plat, the applicant shall correct and submit final plat copies to the city manager or designee so that required signatures can be obtained and recording completed. The reasons for any action taken by the commission, whether a final plat is approved, denied, or approved with conditions, shall be entered in the minutes of the commission.

1. All changes or conditions required by the city plan commission as part of the final plat approval shall be made a part of the record.

2. On a final plat with significant changes, the city plan commission may at the time a final plat is approved subject to conditions, require a revised final plat to be resubmitted.

3. Where the city plan commission conditionally approves or disapproves a final plat application, the city plan commission shall provide the applicant a written statement of the conditions for the conditional approval or reasons for disapproval that clearly articulates each specific condition for the conditional approval or reason for disapproval. Each condition or reason specified in the written statement must:

a. Be directly related to the requirements in Title 19 and specifications contained in the City of El Paso Street Design Manual (SDM); and

b. Include a citation to the law, including a statute or municipal ordinance, that is the basis for the conditional approval or disapproval; and

c. May not be arbitrary.

4. After the conditional approval or disapproval of the final plat application, the applicant may resubmit the final plat along with a written response that clearly articulates how each condition for conditional approval or each reason for disapproval has been remedied.

5. The city plan commission shall determine whether to approve or disapprove the applicant's

previously conditionally approved or disapproved final plat within fifteen days of receipt of resubmission and written response.

6. It shall be the responsibility of the subdivider to ensure that the final plat satisfies all the requirements of the city code, the SDM and any other regulatory requirement. (Ord. 16882 § 2 (part), 2008)

(Ord. No. 17236, § 27, 11-10-2009; Ord. No. 18971, § 7, 9-3-2019; Ord. No. 19327, § 8, 4-26-2022)

19.04.040 Criteria for approval.

The following criteria shall be used to determine whether the application for a final plat shall be approved, approved with conditions or denied:

A. The final subdivision improvement plans have been submitted and reviewed by the city manager, or designee. The final plat approval shall note:

1. Subdivision improvement plans are complete and approved by staff;

2. Subdivision improvement plans are complete and approved by staff subject to revisions;

3. Subdivision improvement plans are still being reviewed by staff and revised by the subdivider and the final plat's approval is still subject to the city manager or their designee's determination of the subdivision improvement plan's compliance with this and all other city ordinances and the city manager, or designee's approval of the subdivision improvement plans prior to submission of the final plat or issuance of building permits. Questions of interpretation of the ordinance or resolution of significant engineering issues shall be decided and included in the CPC's conditions.

B. Prior Approved Preliminary Plat.

1. The final plat conforms to the approved preliminary plat except for minor changes authorized under Chapter 19.03 or 19.04 of this article and that may be approved without the necessity of revising the approved preliminary plat;

2. All conditions imposed at the time of approval of the preliminary plat have been satisfied;

3. Where public improvements have been installed, the improvements conform to the approved subdivision improvement plans and have been approved for acceptance by the city manager or designee;

4. Where the city manager or designee has authorized public improvements to be deferred, the final plat may be approved, recorded and foundation or building permits may be issued, in accordance with Section 19.08.040;

5. The final layout of the subdivision or development meets all standards for adequacy of public facilities contained in this title and all other applicable city ordinances;

6. The final plat where the proposed development is located in whole or in part in the extraterritorial jurisdiction of the city and in the county meets the requirements in Chapter 19.11. The subdivider or their authorized representative will be responsible for making sure the final plan meets the County of El Paso Standards and is approved by the county;

7. The plat conforms to design requirements and construction standards as set forth in the City of El Paso Street Design Manual (SDM); and

8. The plat conforms to the subdivision application checklist and has been determined to be a complete application.

C. No Prior Approved Preliminary Plat.

1. The final plat conforms to all criteria for approval of a preliminary plat;

2. The subdivision improvement plans conform to the requirements of this title and all other ordinances;

3. Where the city manager or designee has authorized public improvements to be deferred, the final plat may be approved, recorded and foundation or building permits may be issued, in accordance with Section 19.08.040;

4. The final layout of the subdivision or developments meets all standards for adequacy of public facilities contained in Article 2 of this title;

5. The final plat where the proposed development is located in whole or in part in the extraterritorial jurisdiction of the city and in the county meets the requirements in Chapter 19.11. The subdivider or their authorized representative will be

responsible for making sure the final plan meets the County of El Paso Standards and is approved by the county;

6. The final plat conforms to the application checklist. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009; Ord. No. 19327, § 9, 4-26-2022)

19.04.050 Revisions to final plat.

A. Following Approval or Conditional Approval. An applicant may apply for modification of an approved or conditionally approved final plat to reflect changes listed below, provided that the approved final plat has not been recorded and that approval of the modified final plat occurs prior to expiration of approval of the initial final plat application.

1. Minor changes arising from the installation of public improvements after plat approval including easement additions and adjustments may be approved by the city manager or designee.

2. Minor changes including street name and addressing changes, dimension changes that do not substantially affect the street or lot layout or other similar minor changes and meet the requirements of this title may be approved by the city manager or designee.

3. Major revisions on final plats prior to recordation including those that substantially affect the street or lot layout shall be resubmitted as an amended final plat and will require re-approval by the CPC within the timeframes prescribed by this title.

4. If the approved final plat has been recorded, revisions may only be approved under Chapter 19.07, Revisions to Recorded Plats (Replatting) or Amending Plats, of this article.

B. After Denial. Following denial of a final plat or amending plat application, the applicant may submit a revised final plat or amending plat application, together with any revised subdivision improvement plans with a resubmission fee in accordance with the adopted fee schedule, for consideration by the city plan commission, provided that the revised application is approved prior to the original expiration date of any approved preliminary plat for the same land. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009)

19.04.060 Expiration and extension.

The approval of a final plat shall remain in effect for a period of three years from the date of approval by the city plan commission, during which period the applicant shall submit any required revisions for approval and record the plat. If the final plat has not been recorded within the three-year period, the final plat approval, unless extended in accordance with Chapter 19.41, shall expire and the applicable plat shall be deemed null and void. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 18056, § 7, 8-6-2013)

19.04.070 Plat recordation.

A. Procedure.

1. Signatures. After approval of the final plat, the city manager, or designee shall procure the signature of the chairperson of the city plan commission on the final plat ready for recording, the signature of the secretary of the city plan commission who shall attest to the signature of the chairperson, and the signature of the planning and inspections director.

2. Recording Upon Performance. The city manager or designee shall cause the final plat to be recorded with the appropriate county clerk upon the subdivider's or developer's performance of one of the following:

a. Completion of the construction of required improvements prior to recordation;

b. Where the city manager or designee has authorized public improvements to be deferred, the final plat may be approved, recorded and foundation or building permits for up to fifty percent of the residential lots may be issued in accordance with Section 19.08.040 and 19.08.020, provided that: 1) the lots have water and sanitary sewer service and a letter of Conditional Acceptance issued by the El Paso Water Utilities; and, 2) the lots are contiguous and form a complete block

face or block faces within the subdivision; and, 3) no Certificate of Occupancy shall be issued until a letter of Final Acceptance has been issued by the El Paso Water Utilities, or

c. Regardless of which option above, is chosen, subdivision improvement plans must be approved or conditionally approved in accordance with this chapter and Section 19.08.010 prior to plat recordation.

B. Timing of Recordation. The final signed copies of the plats for recordation will be recorded within ten days of the date that staff:

1. Received the final, approved, corrected recordation plat;

2. Received all fees, certificates and required documents for recording;

3. Determines that all other recording requirements have been met; and

4. Provided that the plat may be held for recordation until a date agreed upon with the subdivider if the final signed copies of the plats for recordation meeting the requirements of this title have been delivered to the city and all other recording requirements have been met.

C. Submittal of Record Plat Where Improvements Have Been Installed. Where public improvements have been installed and approved for acceptance by the city prior to recording of the plat, the property owner, developer or contractor shall submit a maintenance bond in accordance with Chapter 19.08 of this article from each contractor, one sealed set of "as built" plans in accordance with the SDM or record drawings (submitted as mylars), and an electronic copy of all plans (in a format as determined by the city manager or designee), together with a letter stating the contractors' compliance with Chapter 19.08 of this article, and bearing sealed certification by an engineer that all public improvements have been constructed in compliance with all city construction standards. The property owner also shall submit copies of the approved final plat, revised to reflect the "as built" plans or record drawings, in the format and number as required by the city manager or designee.

D. Submittal of Record Plat Where Improvements Have Hot Been Installed. Where public improvements have yet to be completed in connection with an approved final plat, the property owner shall submit in the format and number as set forth in the SDM, the approved final plat, revised to reflect any changes required by the city plan commission.

E. Update of Owner Consents. If there has been any change in the ownership prior to recordation of the approved final plat, the applicant shall furnish to the city an updated title policy commitment issued by a title insurance company authorized to do business in Texas, a title opinion letter from an attorney licensed to practice in Texas or some other proof of ownership, identifying all persons having an interest in the property subject to the plat. If there has been any change in the owners since the time of the owner consent agreement provided under Section 19.04.020, the final plat shall be signed (on the face of the plat in plain view) by each owner as of the date of submission, effectively denoting that they are consenting to the platting of the property and to the dedications and covenants that may be contained in the plat. Such consent shall be subject to review and approval by the city attorney. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 18056, § 8, 8-6-2013; Ord. No. 19243, § 10, 10-12-2021; Ord. No. 19327, § 10, 4-26-2022)

Chapter 19.05

DEVELOPMENT PLATS

Sections:

19.05.010 Purpose and effect.
19.05.020 Application and procedures.
19.05.030 Decision.
19.05.040 Criteria for approval.
19.05.050 Expiration and extension.
19.05.060 Plat recordation.

19.05.010 Purpose and effect.

A. Authority. This section is adopted pursuant to Texas Local Government Code, Chapter 212, Subchapter B, Section 212.041 to 212.050.

B. Purpose. The purpose of a development plat is to ensure the adequacy of public facilities needed to serve the intended development and to promote the health, safety, morals, or general welfare of the city and the safe, orderly and healthful development of the city.

C. Applicability. For purposes of this chapter, the term "development" means new construction or the enlargement of any exterior dimension of any building, structure, or any improvement whether located within the city or within its extraterritorial jurisdiction. A development plat is required for:

1. The development of any tract or parcel of land which has not been platted or replatted prior to the effective date of this ordinance, unless expressly exempted under paragraph D. below; or

2. The development of any parcel or tract of land for which the only access is a private easement or street; or

3. The division of any tract or parcel of land resulting in parcels or lots each of which is greater than five acres in size, and where no public improvement is proposed to be dedicated or constructed and development of the land is proposed.

D. Exceptions. A development plat is not required:

1. If a person is required under this title to file a subdivision plat, a development plat is not required in addition to the subdivision plat; or

2. For bona fide agricultural activities; or

3. For construction of agricultural accessory structures and related agricultural development activities; or

4. When an exception is granted in accordance with Section 19.01.010 C.2. or 19.01.030.

5. For water and wastewater utility infrastructure and stormwater facilities constructed by the city.

E. Effect. Approval of a development plat shall authorize the subdivider to seek approval of installation of any improvements in public rights-of-way in accordance with approved subdivision improvement plans, seek approval to site preparation, building and other permits for any lot in the subdivision, in accordance with Section 19.08.020. Approval also authorizes the recordation of the development plat in accordance with this title.

F. Prohibition on development. No development shall commence, nor shall the city issue any building permit, utility connection permit, electrical connection permit or similar permit for any development until a development plat, or if applicable a subdivision plat, has been approved by the city plan commission and submitted to the city for filing and recorded with the County of El Paso. (Ord. No. 17561, § 8, 5-17-2011; Ord. No. 17905, § 2, 11-6-2012)

19.05.020 Application and procedures.

A. Responsible official. The city manager, or designee shall be the responsible official for a development plat, and the staff shall be the initial reviewing body for a development plat.

B. Application Contents. All applications shall be submitted electronically or on a form supplied by the planning division with the required information as stated on the application form and the administrative submission requirements available in the planning division. Information required shall be the same as required for a final plat. In addition to this information, a development plat shall:

1. Be prepared by a registered professional land surveyor as a boundary survey showing:

a. Each existing and/or proposed building, structure, or improvement or proposed modifica-

tion of the external configuration of the building, structure, or improvement involving a change of the building, structure, or improvement;

b. Each easement and right-of-way within or abutting the boundary of the surveyed property;

c. The dimensions of each street, sidewalk, alley, square, park, or other part of the property intended to be dedicated to public use or for the use of purchasers or owners of lots fronting on or adjacent to the street, sidewalk, alley, square, park, or other part; and

d. Be accompanied by the required number of copies of the development plat, a completed application form, the required submission fee (per the city's current fee schedule), and all related documents meeting the requirements in the development plat submission checklist. A copy of all the above application materials for a development plat shall be simultaneously submitted to the planning division for review in the same manner as for a final plat, or the application shall be deemed incomplete in accordance with Section 19.01.05.

C. Procedure. The application and review procedure for a development plat shall be submitted to the city in the same manner as a final plat (see Chapter 19.04).

(Ord. No. 17561, § 8, 5-17-2011; Ord. No. 19243, § 11, 10-12-2021)

19.05.030 Decision.

The city plan commission shall decide whether to approve, approve with conditions, or deny the development plat application in the same manner as a final plat. The action of the commission shall be entered in the minutes of the commission and the applicant shall be notified of the results. Upon approval of the development plat, the applicant shall correct and submit final development plat copies to the city manager or designee so that required signatures can be obtained and the development plat recorded. If any conditions are attached to the commission's approval, the final development plat copies shall be so corrected prior to signature by any city official.

(Ord. No. 17561, § 8, 5-17-2011)

19.05.040 Criteria for approval.

A. The following criteria shall be used to determine whether the application for a development plat shall be approved, approved with conditions, or denied:

1. The development plat is consistent with the city's comprehensive plan, any applicable zoning requirements for the property, and any approved development agreement;

2. The development plat conforms to the general layout of the approved land study, if any, and is consistent with the phasing plan approved therein;

3. The proposed provision and configuration of roads, water, wastewater, drainage and park and open space facilities are adequate to serve the development and meet the standards of this chapter;

4. Public and/or private (if approved) easements or rights-of-way for all public water, wastewater, roadway and drainage facilities or other public utilities have been designated;

5. The ownership, maintenance, and allowed uses of all designated easements have been stated on the development plat.

6. The development plat complies with the applicable provisions of Article 2 of this title.

7. The development plat where the proposed development is located in whole or in part in the extraterritorial jurisdiction of the city and in the county meets the requirements in Chapter 19.11 and any County of El Paso standards and is approved by the county.

(Ord. No. 17561, § 8, 5-17-2011)

19.05.050 Expiration and extension.

The approval of a development plat shall remain in effect for a period of two years from the date of approval by the city plan commission, during which period the applicant shall submit any required revisions required for the recordation of the development plat. If the development plat has not been recorded within the two-year period, the development plat approval, unless extended in

accordance with Chapter 19.41, shall expire and the applicable development plat shall be deemed null and void.
(Ord. No. 17561, § 8, 5-17-2011)

19.05.060 Plat recordation.

Procedure. The development plat shall be filed and recorded at the County of El Paso by the city in the same manner as prescribed for a final plat (see Chapter 19.04).
(Ord. No. 17561, § 8, 5-17-2011)

Chapter 19.06

MINOR PLATS

Sections:

19.06.010 Purpose, applicability and effect.

19.06.020 Application and procedures.

19.06.030 Decision.

19.06.040 Criteria for approval.

19.06.050 Expiration.

19.06.060 Recordation.

19.06.010 Purpose, applicability and effect.

A. Purpose. The purpose of a minor plat is to simplify divisions of land under certain circumstances outlined in state law.

B. Applicability. An application for approval of a minor plat may be filed only when all of the following conditions are met:

1. The proposed division results in four or fewer lots;

2. All lots in the proposed subdivision front onto an existing public street and the construction or extension of a street or alley is not required to meet the requirements of this title or any other ordinance; and

3. The plat does not require the extension of any municipal facilities to serve any lot within the subdivision, however, right-of-way widening and easements shall be permitted as part of a minor plat.

C. Effect. Approval of a minor plat authorizes the recordation of the final plat in accordance with this title. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009; Ord. No. 17251, § 5, 12-15-2009)

19.06.020 Application and procedures.

A. Responsible Official. The city manager, or designee, shall be the responsible official for a minor plat.

B. Application Contents. All applications shall be submitted electronically or on a form supplied by the planning division with the required information as stated on the application form and the administrative submission requirements available in the planning division. The minor plat document shall be prepared by a registered professional land surveyor. The applicant shall submit a combined plat (preliminary/final) of the minor subdivision application.

C. Pre-Application Conference. Prior to the official submission of a minor plat application, the applicant(s) may request a pre-application conference with the city manager, or designee and any other pertinent city official(s). Such conference is optional, and before it is convened a vested rights waiver shall be submitted in accordance with Section 19.37.050.

D. Accompanying Applications. An application for approval of a minor plat may be accompanied by an application for approval of a site preparation, building and other permits for the land subject to the plat, provided that the minor plat shall be decided prior to decision on any permit. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 2, 11-10-2009; Ord. No. 17251, § 5, 12-15-2009; Ord. No. 17396, § 7, 8-24-2010; Ord. No. 19243, § 12, 10-12-2021)

19.06.030 Decision.

A. Final Approval. The city manager, or designee, is authorized to approve a minor plat provided such plat meets all requirements of this chapter. Each minor plat must be approved, approved subject to conditions or denied within thirty days of a finding of completeness unless the owner of the property provides a waiver of right to thirty-day action. Review, approval, and recording of minor plats shall be in accordance with procedures set forth for final plats in Chapter 19.04 of this article. Appeal of the city manager or designee's decision shall be to the city plan commission at the next available meeting. The commission may approve, approve with conditions or deny such appeal based on its findings concerning meeting the requirements of this title.

B. Deemed Approved. If the city manager, or designee fails to act on a minor plat application within thirty days, the minor plat application shall

be deemed approved. (Ord. 16882 § 2 (part), 2008)

19.06.040 Criteria for approval.

The city manager, or designee, shall approve, conditionally approve or deny the minor plat application based upon the following criteria:

A. The minor plat is consistent with all zoning requirements for the property, all other requirements of this title that apply to the plat, all city ordinances and any approved development agreement;

B. All lots to be created by the plat already are adequately served by all required city utilities and services;

C. The ownership, maintenance, and allowed uses of all designated easements have been stated on the minor plat; and

D. The plat does not require the extension of any municipal facilities to serve any lot within the subdivision. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009)

19.06.050 Expiration.

The approval of a minor plat application shall remain in effect for a period of two years from the date of approval by the city manager or designee. If the minor plat has not been recorded within the two-year period, the minor plat approval, unless extended in accordance with Chapter 19.41, shall expire and the applicable plat shall be deemed null and void. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 18627, § 2, 2-7-2017)

19.06.060 Recordation.

The property owner shall submit the approved minor plat, incorporating any required revisions, to the city manager, or designee, who shall cause the minor plat to be recorded in the property records of the county. (Ord. 16882 § 2 (part), 2008)

Chapter 19.07

REVISIONS TO RECORDED PLATS

Sections:

19.07.010 General requirements for plat revisions.

19.07.020 Replats without vacation.

19.07.030 Special replat requirements.

19.07.040 Amending plats.

19.07.050 Plat vacation.

19.07.010 General requirements for plat revisions.

A. Applicability and Terminology.

1. The procedures in this chapter shall apply only if a property owner seeks to change any portion of a plat that has been filed of record with the county including a note or restriction on the face of the plat. If a property owner files an amending plat or a minor plat to make such changes, and does not violate the notice provisions for replats contained in Texas Statutes and in this chapter, a replat is not required.

2. The term "replat" includes changes to a recorded plat, restriction or covenant, whether the change is effected by vacating the recorded plat and approval of a new plat application, replatting without vacation, or approving an amended plat.

B. City Action Required for Replats. Except as expressly stated otherwise in this chapter, any change to a recorded plat or a portion of a plat that has been filed for record including a note or restriction shown on the face of a plat shall be subject to approval by the city plan commission. The requirements and procedures for approval of such changes to a recorded plat shall be in accordance with the requirements and procedures for a final plat application under Chapter 19.04 of this article. A replat of four or fewer lots may be administratively approved as if it were a minor plat, in accordance with Chapter 19.06 provided public hearings and notice are not required.

C. Construction Management. If a replat requires construction of additional improvements, the provisions of Chapter 19.08 of this article shall apply.

D. Responsible Official. The city manager, or designee shall be the responsible official for a replat, and the staff shall be the initial reviewing body for a replat application. (Ord. 16882 § 2 (part), 2008) (Ord. No. 18971, § 8, 9-3-2019)

19.07.020 Replats without vacation.

A. Applicability. A replat of all or a portion of a recorded plat may be approved without vacation of the recorded plat, if:

1. The replat is signed and acknowledged by only the owners of the property being replatted;

2. Is approved by the city plan commission; and

3. The replat does not propose to amend or remove any covenants or restrictions previously incorporated in the recorded plat.

B. Application. The application for a replat of a subdivision shall meet all application requirements of a final plat.

C. Partial Replat Application. Any replat which adds or reduces lots must include the original subdivision and lot boundaries. If a replat is submitted for only a portion of a previously platted subdivision, the replat must reference the previous subdivision name and recording information, and must state on the replat the specific lots which have changed along with a detailed "Purpose for Replat" statement.

D. Criteria for Approval. The replat of the subdivision shall meet all review and approval criteria for a final plat. The replat document shall be prepared by a registered professional land surveyor.

E. Effect. Upon approval of the application, the replat may be recorded and is controlling over the previously recorded plat for the portion replatted. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 18971, § 9, 9-3-2019)

19.07.030 Special replat requirements.

A. Applicability. In addition to compliance with the requirements of Section 19.07.020 above, a replat without vacation of the preceding plat must conform to the requirements of this chapter if:

1. During the preceding five years, any of the area to be replatted was limited by an interim or permanent zoning classification to residential use for not more than two residential units per lot; or

2. Any lot in the preceding plat was limited by deed restrictions to residential use for not more than two residential units per lot.

B. Procedure after approval. If a proposed replat described by subsection A above does not require a variance or exception, the responsible official, not later than the fifteenth day after the date the replat is approved, provide written notice by mail of the approval of the replat to each owner of a lot in the original subdivision that is within two hundred feet of the lots to be replatted according to the most recent municipality or county tax roll.

1. The notice of a replat approval must include the zoning designation of the property after the replat and a telephone number and the responsible official's e-mail address an owner of a lot may use to contact about the replat.

2. This requirement for written notice does not apply to a proposed replat if the city plan commission held a public hearing, in accordance with Chapter 19.39, and proper notice, in accordance with Section 19.38.020, was given.

C. Variance or Exception. If a proposed replat described by subsection A above requires a variance or exception, a public hearing must be held by a city plan commission, in accordance with Chapter 19.39, and published and personal notices in accordance with Chapter 19.38 must be provided. Personal notice shall be accompanied by a copy of the language of subsection D below.

D. Protest. If the replat application is accompanied by a variance petition and is protested in accordance with this subsection, approval of the replat shall require the affirmative vote of at least three-fourths of the members of the city plan commission present at the meeting. For a legal protest, written instruments signed by the owners of at least twenty percent of the area of the lots or land immediately adjoining the area covered by the replat application and extending two hundred feet from that area, but within the original subdivision, must be filed with the commission prior to the close of the public hearing. In computing the percentage of land area under this chapter, the area of streets and alleys shall be included.

E. Additional. The requirements of subsection D shall not apply to any approval of a replat application for a portion of a recorded plat if all of the proposed area sought to be replatted was designated or reserved for usage other than for single- or two-family residential usage. Such designation must be noted on the recorded plat or in the legally recorded restriction applicable to such plat. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 18971, § 10, 9-3-2019)

19.07.040 Amending plats.

A. Purpose. The purpose of an amending plat shall be to provide an expeditious means of making minor revisions to a recorded plat consistent with provisions of state law.

B. Applicability. The procedures for amending plats shall apply only if the sole purpose of the amending plat is to achieve the following:

1. Correct an error in a course or distance shown on the preceding plat;

2. Add a course or distance that was omitted on the preceding plat;

3. Correct an error in a real property description shown on the preceding plat;

4. Indicate monuments set after the death, disability, or retirement from practice of the engineer or surveyor responsible for setting monuments;

5. Show the location or character of a monument that has been changed in location or character or that is shown incorrectly as to location or character on the preceding plat;

6. Correct any other type of scrivener or clerical error or omission previously approved by the municipal authority responsible for approving plats, including lot numbers, acreage, street names, addresses and identification of adjacent recorded plats;

7. Correct an error in courses and distances of lot lines between two adjacent lots if:

a. Both lot owners join in the application for amending the plat,

b. Neither lot is abolished,

c. The amendment does not attempt to remove or modify recorded covenants or restrictions or easements, and

d. The amendment does not have a material adverse effect on the property rights of the owners in the plat;

8. Relocate a lot line to eliminate an inadvertent encroachment of a building or other improvement on a lot line or easement;

9. Relocate one or more lot lines between one or more adjacent lots if:

a. The owners of all those lots join in the application for amending the plat,

b. The amendment does not attempt to remove or modify recorded covenants or restrictions or easements, and

c. The amendment does not increase the number of lots;

10. Make necessary changes to the preceding plat to create six or fewer lots in the subdivision or a part of the subdivision covered by the preceding plat if:

a. The changes do not affect compliance with applicable zoning and other regulations of the city,

b. The amendment does not attempt to remove or modify recorded covenants or restrictions or easements, and

c. The area covered by the changes is located in an area that the city council has approved, after a public hearing, as a residential improvement area; or

11. Replat one or more lots fronting on an existing street if:

a. The owners of all those lots join in the application,

b. The amendment does not attempt to remove recorded covenants or restrictions,

c. The amendment does not increase the number of lots, and

d. The amendment does not create or require the creation of a new street or make necessary the extension of municipal facilities.

C. Effect. Upon approval by the city manager, or designee, an amending plat may be recorded and is controlling over the recorded plat without vacation of that plat.

D. Application Contents. All applications shall be submitted electronically or on a form supplied by the planning division with the required information as stated on the application form. The amending plat document shall be prepared by a registered professional land surveyor.

E. Decision. The city manager or designee shall either approve, approve with conditions, or deny the application for an amending plat within ten days.

F. Expiration. Approval of an amending plat shall expire if the plat is not submitted for recordation within the time period specified for recordation of a final plat.

G. Additional. Notice, a hearing, and the approval of other lot owners are not required for the approval and issuance of an amending plat. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 2, 11-10-2009; Ord. No. 17251, § 6, 12-15-2009; Ord. No. 17396, § 8, 8-24-2010; Ord. No. 18971, § 11, 9-3-2019; Ord. No. 19243, § 13, 10-12-2021)

19.07.050 Plat vacation.

A. Applicability. A plat vacation application must be approved by the city plan commission prior to vacation of any recorded plat or portion thereof. A plat may be vacated only in conjunction with approval of a new plat application.

B. Application. If no lot subject to the recorded plat has been sold, the property owner may apply for a plat vacation. If any lot in a subdivision has been sold, the recorded plat or any portion thereof may be vacated only upon application of all lot owners in the subdivision. A plat vacation application shall be accompanied by an application for a land study, preliminary plat, or final plat for the land subject to the recorded plat or portion thereof to be vacated, prepared in accordance with this article. A plat vacation application also shall be accompanied by an unconditional waiver of right to thirty-day action (mandated by the state for general approval of plats) for the plat vacation application, pending approval of a new final plat application for the same land.

C. Processing and Decision. The plat vacation application shall be decided by the city plan commission in conjunction with its decision on a new plat application for the same land. The application for plat vacation shall be processed together with the new plat application in accordance with the procedures applicable to the new plat application under this article. If the new plat application is for a land study or preliminary plat, decision on the plat vacation application shall be deferred or conditioned on approval of a final plat application for the land subject to the recorded plat or portion thereof to be vacated. The commission shall decide the plat vacation application after it decides the final plat application.

D. Criteria. The city plan commission shall approve the plat vacation application upon approving the final plat application for the same land, and shall deny the plat vacation application upon denial of such final plat application. The final plat application, as well as any preceding land study or preliminary plat application, shall be decided in accordance with the criteria applicable to such applications under this article.

E. Effective Date of Plat Vacation. The plat is vacated when a signed, acknowledged instrument declaring the plat vacated is approved and recorded in the manner prescribed for the original plat. On the execution and recording of the vacating instrument, the vacated plat shall have no further effect. (Ord. 16882 § 2 (part), 2008)

Chapter 19.08

CONSTRUCTION PLANS AND MANAGEMENT

Sections:

19.08.010 Subdivision improvement plans.

19.08.020 Timing of public improvements, permit issuance.

19.08.030 Completion of necessary public improvement extension.

19.08.040 Security for completion of improvements.

19.08.050 Inspection and acceptance of public improvements.

19.08.060 Maintenance and warranty of improvements.

19.08.010 Subdivision improvement plans.

A. Purpose. The purpose of subdivision improvement plans is to assure that public improvements required to be installed in order to serve a subdivision or a development are constructed in accordance with all standards of this title.

B. Application Contents. When required by this title either prior to or at the time of submission of an application for final plat approval by the city plan commission or by staff where administrative approval is authorized, the number of sets of subdivision improvement plans required by the SDM shall be submitted to the city manager or designee for review for code compliance. All applications shall be submitted on a form supplied by the planning official with the required information as stated on the application form. The subdivision improvement plans shall be submitted for the entire area covered by the subdivision application, and shall comply with all provisions of this title and the SDM. The final subdivision improvement plans including paving and stormwater engineering shall be submitted in one package and be approved or approved with conditions prior to the final plat recordation in accordance with this title. The subdivider shall provide and the subdivision improvement plans shall contain all applicable improvements required by this title and the SDM, including but not limited to the following details:

1. Grading and slope stabilization as regulated by Chapter 18.44:
2. Drainage facilities;
3. Water and wastewater plans, except water and wastewater plans in developments to be served by EPWU, which shall comply with subsection C below;
4. Streets and other rights-of-way (including sidewalks); on subdivisions within the city limits, sidewalks may be deferred until building permits are requested for a residential lot, except sidewalks at the rear of double frontage lots must be installed, inspected, approved and accepted by the city prior to building permits being issued;
5. Bikeway and transit improvements (where applicable);
6. Survey monuments;
7. Street lights;
8. Traffic control signs and traffic signalization; traffic calming devices (where applicable);
9. Landscaping; on subdivisions within the city limits, landscape (street trees) may be deferred until building permits are requested for a residential lot, except landscape at the rear of double frontage lots must be installed, inspected, approved and accepted by the city prior to building permits being issued;
10. Curb ramps; on subdivisions within the city limits, curb ramps may be deferred until building permits are requested for a residential lot, except curb ramps at the rear of double frontage lots must be installed, inspected, approved and accepted by the city prior to building permits being issued;
11. Street pavement markings;
12. Parkland and open space; and
13. Provisions for arroyo protection.

It is the developer and his engineer's responsibility to put the plans together into one package and follow-up on their review. Incomplete plans shall be returned to the applicant.

C. The subdivider shall provide complete EPWU approved water and wastewater design plans on or before the final plat is submitted to the CPC. The subdivider shall have the option of using one of two processes for completion of the plans:

1. EPWU prepares complete water and wastewater plans meeting EPWU requirements and standards.

2. The subdivider's engineer prepares water and wastewater plans meeting TCEQ and EPWU requirements and submitting those plans to EPWU for approval. Upon approval by EPWU the water and wastewater plans shall be provided to the city. The EPWU shall have fifteen business days to accept the plans or reject the plans with comments for corrections. Failure to act within this timeframe shall permit the subdivider to proceed in accordance with Section 19.08.010(E)(3). This option to the subdivider shall not apply if any off-site extension or capital improvement infrastructure, master plan land studies, or any on-site oversized facilities to serve any areas adjacent to the subdivision are required.

3. Plans will not be approved and the plat will not be recorded until water and wastewater designs meet TCEQ and EPWU/PSB design standards.

D. Phasing Plan. Where phasing is proposed for the construction and installation of the required subdivision improvements, approval of a phasing plan shall be required, provided, that all of the subdivision improvements are completed within the time period specified herein. The city manager or designee may approve, disapprove or conditionally approve the phasing proposed if the proposed phasing will provide for the orderly development of the subdivision with adequate access to all improvements. No phasing plan shall be approved unless each phase has a complete drainage system, or security for all improvements that are not completed in the initial phase is provided in accordance with the methods and amount in Section 19.08.040 A. 1., 2., or 3. No temporary drainage structures will be allowed. If the property contains an arroyo or flow path that requires improvements, security in accordance with the methods and amounts stated in Section 19.08.040 shall be provided regardless of the phasing, unless the improvements to the arroyo or flow path are completed in the initial phase. Where the city manager or designee disapproves a phasing plan, the subdivider may appeal the decision to the city plan commission upon a written request submitted to the city manager or designee. Whether or not the city manager or designee approves phasing at the time of the construction plan submission, a subdivider may request phasing and submit a phasing plan at any time prior to the expiration of the time period for completion of the subdivision improvements, or any authorized extension. A phasing plan submitted and approved by the city manager or designee after the approval of the construction plan submission, shall be considered an authorized amendment to the subdivision improvement plans and such approved phasing plan shall be attached to and incorporated as part of the approved subdivision improvement plans.

E. Responsible Official and Decision.

1. The city manager, or designee, shall be the responsible official for approval of subdivision improvement plans.

2. For subdivision improvement plans submitted following approval of a preliminary plat, the city manager, or designee shall provide the applicant or applicant's representative a determination of completeness as specified in Section 19.37.020.

3. The city manager, or designee shall decide whether to approve, approve with conditions, or deny the subdivision improvement plan application within thirty days from determination that the application is complete in accordance with Section 19.37.020.

4. Failure of the city manager or designee or EPWU, when applicable, to approve, approve with conditions, or deny the subdivision improvement plan application within the prescribed thirty days from the date that the submission is accepted for completeness, shall permit the subdivider to pro-

ceed with the construction of the subdivision improvements pursuant to the plans submitted; except that a subdivider may authorize in advance, or during the review, an extension to the prescribed time period for additional review by the city manager or designee or EPWU, when applicable. The request for a time extension may be for a period not to exceed thirty days and shall be provided in writing by a subdivider prior to the expiration of the prescribed review period. It shall be the responsibility of the subdivider to ensure that the subdivision improvement plans meet or exceed all the requirements of the city code, EPWU requirements and any other regulatory requirements.

5. Distribution and Review. Once the subdivision improvement plans are approved, the property owner shall provide additional sets of the approved plans to the city, as specified by the city manager, or designee, for use during construction. A full set of the city approved and stamped subdivision improvement plans must be available for inspection on the job site at all times.

F. Notification. The city manager, or designee, shall notify the applicant in accordance with Section 19.38.040 that the subdivision improvement plans are approved for construction. The city manager or designee shall also forward a written certification to all affected departments and agencies advising of the approval of the subdivision improvement plans. The certification shall identify the subdivision name, legal description, and acreage for which the approval was granted.

G. Revised Plan Submission. In cases of conditional approval or disapproval of the subdivision improvement plan application, the process is as follows:

1. The city manager or designee shall provide the applicant a written statement of the conditions for the conditional approval or reasons for disapproval that clearly articulates each specific condition. Each condition or reason specified in the written statement must;

a. Be directly related to the requirements in Title 19 and specifications contained in the City of El Paso Street Design Manual (SDM); and

b. Include a citation to the law, including a statute or municipal ordinance, that is the basis for the conditional approval or disapproval; and

c. May not be arbitrary.

2. If the conditions of approval or disapproval of the plans require revision(s) to the subdivision improvement plans, one set shall be marked with objections noted (on the plans themselves) and returned to the applicant for correction.

3. The applicant's engineer shall then correct the plans as requested and resubmit the appropriate number of sets required by the SDM of subdivision improvement plans to the city manager or designee for decision. The resubmission or the plans shall be accompanied by a written response that clearly articulates how each condition for conditional approval or each reason for disapproval has been remedied.

4. The city manager or designee shall determine whether to approve or disapprove the applicant's previously conditionally approved or disapproved subdivision improvement plans within fifteen days of receipt of resubmitted plans and written response. Failure of the city manager or designee to approve or disapprove within the prescribed period, shall permit the subdivider to proceed with the construction of the subdivision improvement plans pursuant to the plans submitted. It shall be the responsibility of the design engineer to certify and ensure that the subdivision improvement plans satisfy all the requirements of the city code, the SDM and any other regulatory requirement.

5. A copy of any subdivision improvement plans submitted within the extraterritorial jurisdiction, after approval by the city manager or designee, shall be forwarded to the county road and bridge administrator.

6. Additional copies may be requested by the city manager or designee for informational purposes and review by other agencies.

7. The city will not require non-engineering related significant changes in the final subdivision improvement plans or final plat approval that contradict the preliminary plat approval, reserving

the right to address life safety or other significant issues that should have been addressed in the preliminary plat.

H. Criteria for Approval. The city manager, or designee, shall render a decision on the subdivision improvement plans in accordance with the following criteria:

1. The plans are consistent with the approved preliminary plat, and the proposed final plat;

2. The plans conform to the development standards, and standards for adequate public facilities contained in this title; and

3. The plans conform to the specifications contained in the City of El Paso Street Design Manual (SDM).

I. Approval Required. Approval of subdivision improvement plans authorizes the property owner to install public improvements in rights-of-way and/or easements offered for dedication or previously dedicated to the public under an approved preliminary or final plat for which site preparation and other required permits have been approved.

J. Acceptance Required. Acceptance of the subdivision improvements shall authorize the recording plat submission pursuant to this title. Where the city manager or designee has authorized public improvements to be deferred, the final plat may be approved, recorded and foundation or building permits may be issued, in accordance with Section 19.08.040.

K. If the city is unable to comply with the time requirements specified in this chapter due to unforeseeable causes beyond the control and without the fault or negligence of the city, including, but not restricted to, acts of God, or of the public enemy, fires, floods, epidemics, quarantine restrictions, strikes, orders of any kind of the government of the United States or the State of Texas, operation of law, disturbances, explosions and severe weather, such time restrictions shall be suspended until such time that the inability to perform due to the unforeseeable cause no longer exists. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, §§ 11, 28, 11-10-2009; Ord. No. 17396, § 9, 8-24-2010; Ord. No. 17811, § 1, 6-5-2012, eff. 6-11-2012; Ord. No. 17905, § 4, 11-6-2012; Ord. No. 18056, § 9, 8-6-2013; Ord. No. 18971, § 12, 9-3-2019; Ord. No. 19327, § 11, 4-26-2022)

19.08.020 Timing of public improvements, permit issuance.

A. Completion Prior to Final Plat. Except as provided below, after approval of a preliminary plat and before an approved final plat is recorded, the installation of all public improvements required to serve the subdivision, whether to be located off-site or on-site, including water, wastewater, drainage, roadway, park and open space improvements, shall be finally completed and accepted in accordance with the approved subdivision improvement plans.

1. Park and open space improvements in this instance refer to public parks and public open space being constructed as part of the development by the developer.

2. If the development is being constructed in phases, and is platted in phases, park and open space improvements shall be completed as phases are constructed.

3. The installation of improvements required for proper drainage and prevention of soil erosion on individual residential lots, and improvements on any common areas shall be completed prior to final plat recordation in accordance with the approved subdivision improvement plans, except as provided below.

B. Installation After Final Plat Recordation. The city manager, or designee, upon request of the applicant, may defer the obligation to install one or more public improvements to serve the subdivision for a period of up to three years after final plat approval. Deferral of the obligation to install public improvements for more than three years after final plat approval shall be conditioned on sufficient security as required in Section 19.08.040.

C. Off-Site Easements. All off-site easements required for installation of off-site public improvements to serve the subdivision or development shall be acquired by the subdivider or developer and conveyed by an instrument in a form approved by the city attorney or the EPWU for water and wastewater easements.

D. Permit Issuance.

1. Grading Permits. Any grading within the corporate limits or within the extraterritorial jurisdiction shall conform to the applicable portions of Chapter 18.44 (Grading) of this Code. Properties not required to file a subdivision application pursuant to this title shall only be subject to the requirements of Chapter 18.44.

a. Borrow or waste permit. A borrow or waste permit shall be issued by the city manager or designee pursuant to the requirements of Chapter 18.44.

2. Building Permits.

a. Plat recordation prior to issuance of permits: Whenever a subdivision is required by this title, no building permit shall be issued for any lot until the subdivision has been recorded and the requirements of Title 18 (Building and Construction) of this Code have been satisfied, except on industrial, commercial and multi-family developments, foundation or building permits may be issued by the building official prior to the plat being filed if:

i. On lots with only one industrial or commercial building, improvement plans for the subdivision have been reviewed and approved by the City and the improvements are in process.

ii. On industrial, commercial and multi-family developments, lots with multiple buildings, or in subdivisions with multiple single family residential lots, permits for up to fifty percent of the buildings or fifty percent of the single family lots may be issued, provided improvement plans for the subdivision have been reviewed by the City and the improvements are in process. If the permits for more than fifty percent of the buildings or single family residential lots are requested, sufficient security as required by Section 19.08.040 must be provided in a form acceptable to the city manager, or designee, and accepted by the City prior to the issuance of foundation or building permits.

iii. The final signed copies of the plats for recordation have been delivered to the City to hold until the agreed upon recording date, along with all fees, certificates and until all other recording requirements have been met.

iv. Sidewalks, landscape, and curb ramps on subdivisions within City limits may be deferred until building permits are requested for residential lots; except sidewalks, landscape and curb ramps at the rear of double frontage lots must be installed, inspected, approved and accepted by the City prior to building permits being issued.

b. Subdivision improvements required prior to issuance of permits: No building or foundation permit shall be issued for any lot, or portion thereof, within the subdivision until such time that the required subdivision improvements serving that lot have been completely installed, inspected, approved and accepted by the city as required in Section 19.08.050 of this title, except as follows:

i. On lots with only one industrial or commercial building, improvement plans for the subdivision have been reviewed and approved by the city and the improvements are in process.

ii. On industrial, commercial and multi-family developments, lots with multiple buildings, or in subdivisions with multiple single family residential lots, permits for up to fifty percent of the buildings or fifty percent of the single family lots may be issued, provided improvement plans for the subdivision have been reviewed by the city and the improvements are in process. If the permits for more than fifty percent of the buildings or single family residential lots are requested, sufficient security as required by Section 19.08.040 must be provided in a form acceptable to the city manager, or designee, and accepted by the City prior to the issuance of foundation or building permits.

iii. Under no circumstance will construction be allowed beyond the foundation stage until such

time as fully charged fire hydrants and a drivable surface acceptable to the fire marshal have been provided to such site.

3. Occupancy Permits. Whenever a subdivision plat is required by this title, no occupancy permit shall be issued for any lot, or portion thereof, within the subdivision until such time that the required subdivision improvements serving that lot have been completely installed and inspected and approved by the city as required in Section 19.08.050 of this title or security has been provided in accordance with Section 19.08.040. For purposes of this subsection, required subdivision improvements serving a lot shall mean the improvements to the street abutting the lot and extending to the nearest intersecting street outside the subdivision, and any required water, wastewater, drainage, fire protection or other utilities as required by the building official, or designee.

E. Curb and gutter construction may be started prior to approval of all subdivision improvement plans provided the grading and paving plans have been approved and a permit has been issued by the city manager or designee. The risk for starting such construction prior to approval of all subdivision improvement plans shall be borne entirely by the subdivider. (Ord. 16882 § 2(part), 2008)

(Ord. No. 17236, §§ 12, 27, 11-10-2009; Ord. No. 17517, § 1, 3-29-2011; Ord. No. 18056, § 10, 8-6-2013; Ord. No. 18309, § 1, 1-20-2015; Ord. No. 18971, § 13, 9-3-2019)

19.08.030 Completion of necessary public improvement extension.

Extension of Time. Where good cause exists, the city manager, or designee may extend the period of time designated for completion of necessary improvements, specified within agreements required by this chapter. Such extension of time shall be reported to the city plan commission and recorded in the minutes. No such extension shall be granted beyond two years of final plat approval unless security has been provided to the city by the subdivider to cover the extended period of time in accordance with Section 19.08.040. (Ord. 16882 § 2 (part), 2008)

19.08.040 Security for completion of improvements.

A. Security. Whenever the obligation to install public improvements to serve a subdivision or development is deferred until after recordation of the final plat and (1) certificates of occupancy are requested for any buildings within the subdivision; or (2) the release of condition pursuant to Title 18 for more than fifty percent of the building permits is requested; or (3) the three-year prescribed period for completion after final plat approval of public improvements has lapsed, the subdivider shall guarantee proper construction of any remaining public subdivision improvements, in accordance with standards contained or referred to herein this title, by one of the methods described below:

1. Performance bond. A bond executed by a surety company holding a license to do business in the State of Texas, and acceptable to the City of El Paso, on the form provided by the City of El Paso in an amount equal to the cost of public improvements remaining to be installed as required by this title. The performance bond shall be approved as to form by the city attorney.

2. Trust agreement. A trust deposit in a bank, or trust company, for the benefit of the City of El Paso, of a sum of money equal to the estimated cost of all public improvements remaining to be installed as required by this title. Selection of trustee shall be executed on the form provided by the city and approved as to form by the city attorney.

3. Irrevocable letter of credit. A letter, on a form provided by the city, signed by the principal officer of a local bank, federally-insured savings and loan association, or other financial institution acceptable to the City of El Paso, agreeing to pay the City of El Paso on demand a stipulated sum of money to apply to the estimated cost of all public improvements remaining to be installed as required by this title. The guaranteed payment sum shall be the estimated costs approved by the city manager or designee.

B. Amount and Acceptability. The security shall be issued in the amount of one hundred twenty-five percent of the cost estimate approved by the city manager, or designee for all remaining public improvements associated with the subdivision in accordance with this section. The consulting engineer shall determine the percentage of total work called for by the subdivision approval which has already been performed and develop a cost estimate of the remaining public improvements acceptable to the city manager or designee. The security shall be subject to the approval of the city attorney.

C. Security for Construction in Extraterritorial Jurisdiction. Where the land to be platted lies within the extraterritorial jurisdiction of the city, any required security shall be in a form and contain such terms as are consistent with the city or the county, whichever is more stringent.

D. Partial Release.

1. Upon application of the subdivider, the city manager, or designee or his designee shall determine the percentage of total work called for by the subdivision approval which has already been performed. That portion of the total, less any prior amounts released and a retainage not to exceed ten percent of the total shall then be released.

2. The city manager, or designee and other necessary city officials shall execute any documents necessary to cause release of any portion of the security required by this section in accordance with this provision, provided that all such documents shall be subject to approval by the city attorney.

3. No partial release shall be granted where any substantial part of work performed prior to the date of application fails to meet city standards and specifications for any reason other than incompleteness.

E. Remedies. In addition to all other remedies authorized in Chapter 19.42, where security required in this section has been posted, but required public improvements have not been installed in accordance with the terms of this title, the city may:

1. Declare the subdivision project to be in default and require that all the public improvements be installed regardless of the extent of completion of the development at the time the subdivision project is declared to be in default;

2. Obtain funds under the security and complete the improvements itself or through a third party;

3. Assign its right to receive funds under the security to any third party, including a subsequent owner of the development in exchange for the subsequent owner's posting of security to complete the public improvements serving the tract; or

4. If no lots have been sold, the city may initiate proceedings to have the plat vacated. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009; Ord. No. 18056, § 11, 8-6-2013)

19.08.050 Inspection and acceptance of public improvements.

A. Entry and Inspections.

1. The city manager, or designee shall inspect the construction of improvements while in progress as well as upon completion. Construction shall be in accordance with the approved subdivision improvement plans. The city manager or designee shall have the right to enter upon the subdivision site for the purpose of conducting inspections. The city manager or designee shall provide for the inspection of required subdivision improvements during construction to insure general conformity with plans and specifications as approved. If the city manager or designee finds, upon inspection, that any of the required subdivision improvements have not been constructed in accordance with the subdivision improvement plans, this title or the SDM, then the subdivider shall be responsible for making the necessary changes to insure compliance. Any significant change in design required during construction shall be made by the subdivider's engineer, and shall be

subject to prior approval by the city manager or designee. If the city manager, or designee finds upon inspection that any of the required public improvements have not been constructed in accordance with the approved subdivision improvement plans, the property owner shall be responsible for completing and/or correcting the public improvements.

2. Upon completion of each approved phase of the subdivision construction, the subdivider shall notify the city manager or designee that the work is ready for a final inspection. The city manager or designee shall, within ten working days of a notification by the subdivider, arrange and conduct a joint inspection with the subdivider and the contractor to determine that each aspect of the subdivision has been installed per city standards, and in conformity with the approved subdivision improvement plans. Deficiencies requiring correction by a subdivider resulting from an inspection of the city manager or designee on any phase of the subdivision construction shall be made in writing, and such deficiencies shall be corrected within thirty days of the written correction notice unless otherwise agreed to by the city manager or designee in writing. A subsequent inspection of the subdivision construction in any phase requiring correction shall be made within five working days from a request of the subdivider, and the reinspection(s) shall be solely based on corrections requested at the initial inspection; provided, however, that corrections requested at any inspection and necessitated to comply with any statutory requirement shall be made by the subdivider. Failure of the city manager or designee to arrange and conduct the inspection(s) as herein provided shall permit the subdivider to request that the city accept the phase of subdivision construction for maintenance. It shall be the duty of the subdivider to document that the requirement has been met. Documentation that this inspection has been successfully performed shall be submitted to the city manager or designee prior to the acceptance of any approved phase of the subdivision improvements and the contractor's release from liability.

3. The subdivider shall pay all necessary inspection fees, and no permits shall be issued until the required fees have been paid.

B. Submission of As-Built Plans or Record Drawings. The city shall not accept dedication of required public improvements until the applicant's engineer has certified to the city manager, or designee, through submission of a detailed "as-built" or record drawing or survey plat of the property and any off-site easements, the location, dimensions, materials, and other information establishing that the public improvements have been built in accordance with the approved subdivision improvement plans. Each as-built or record drawing sheet shall show all changes made in the plans during construction and on each sheet there shall be an "as-built" or "record" stamp bearing the signature of the engineer and date. An electronic copy of such drawings in accordance with the city manager, or designee's submission requirements shall also be provided. The drawings shall contain:

1. A complete set of "as-built" film reproducible improvement plans for the subdivision. The "as-built" plans shall illustrate that all of the subdivision improvements are in accordance with the subdivision improvement plans and with this title, as approved for the subdivision; and that said subdivision improvements are ready for acceptance by the city, and are free and clear of any and all liens and encumbrances;

2. A monument certification letter for city monuments that meet the requirements of the DCC.

C. Acceptance or Rejection of Improvements.

1. The city manager, or designee, shall be responsible for certifying acceptance of completed subdivision improvements intended for dedication to the City of El Paso.

2. Within the Corporate Limits. Upon completion of the construction of the subdivision improvements, the subdivider shall request that the city accept the improvements for maintenance. Acceptance of the public improvements shall not be unreasonably delayed, withheld, or denied by the city. The public improvements may be accom-

plished in phases; provided, that the phasing is shown on the subdivision improvement plans approved by the city manager or designee pursuant to this title, and that all phases of the subdivision improvements are completed within the time period specified. Concurrently with the request for acceptance of the subdivision improvements for maintenance, the subdivider shall submit "as-built" subdivision improvement plans and surveys as required in subsection B. After final inspection, the city manager or designee shall notify the subdivider in writing as to the acceptance or rejection of such construction.

3. He shall reject such construction only if it fails to comply with standards and specifications of the City of El Paso. If he rejects such construction and the developer fails to make the corrections as requested, the city attorney shall, on direction of the city council, proceed to enforce the guarantee provided by security called for in this title.

4. If the city manager, or designee accepts such construction upon certification by the design engineer that the improvements have been constructed according to the authorized subdivision improvement plans and upon review of such inspections by city inspectors, the city shall execute all the necessary documents within thirty days to release the full amount of any security required in Section 19.08.040, including any retainage. The city manager, or designee, shall issue a certificate to the property owner stating that all required public improvements have been satisfactorily completed. Acceptance of the improvements shall mean that the property owner has transferred all rights to all the public improvements to the city for use and maintenance, upon acceptance of the required public improvements.

D. Disclaimer. Approval of a preliminary plat or final plat by the city plan commission shall not constitute acceptance of any of the public improvements required to serve the subdivision or development. No public improvements shall be accepted for dedication by the city except in accordance with this title.

E. Acceptance of Improvements for Land in Extraterritorial Jurisdiction. Where the facilities to be constructed are located within the city's extraterritorial jurisdiction, and are to be dedicated to El Paso County, the city manager, or designee shall coordinate with the county to ensure that the public improvements have been constructed in accordance with approved subdivision improvement plans, and are ready for acceptance by the county. Any public improvements or property to be dedicated to the city rather than the county shall be inspected and must be approved if all requirements have been met and accepted for dedication or future dedication upon annexation.
(Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, §§ 7, 27, 11-10-2009; Ord. No. 19327, § 12, 4-26-2022)

19.08.060 Maintenance and warranty of improvements.

A. Maintenance During Construction. The property owner shall maintain all required public improvements during construction of the development. Any damage to the public improvements incurred prior to acceptance of the city shall be the responsibility of the subdivider.

B. Bond. The owner shall covenant to warranty the required public improvements for a period of one year for defective material, construction or workmanship following acceptance by the city of all required public improvements and shall provide a maintenance bond in the amount of fifty percent of the costs of the improvements for such period. All improvements located within an easement or right-of-way shall be bonded.

C. Prior to issuance of the certificate of acceptance by the city manager or designee pursuant to this title, a one-year maintenance guarantee in favor of the city or county, shall be provided by the subdivider by means of a subdivision improvement agreement and guarantee acceptable to the city attorney or county attorney, whomever has jurisdiction.

D. In the event of the maintenance or repair of a defect in the roadway improvement for any

accepted street classification during the initial guarantee period, the subdivider shall provide a one-year extended maintenance guarantee in favor of the city or county for the entire station(s) of the defect area, such one-year period to commence upon completion of the subject maintenance or repair. Such extended maintenance guarantee procedure shall be repeated until the defect with the affected station(s) has been remedied. (Ord. 16882 § 2 (part), 2008)

Article 2. Subdivision Standards

Chapter 19.09

GENERAL REQUIREMENTS

Sections:

19.09.010 General policy.

19.09.020 Reserved.

19.09.030 Conformance to plans.

19.09.010 General policy.

A. Adequate Service for Areas Proposed for Development. Land proposed for development in the city and in the city's extraterritorial jurisdiction must be served adequately by essential public facilities and services, including water facilities, wastewater facilities, roadway and pedestrian facilities, drainage facilities and park and open space facilities. Land shall not be approved for platting or development unless and until adequate public facilities necessary to serve the development exist or provision has been made for the facilities, whether the facilities are to be located within the property being developed or off-site.

B. Responsibilities of the Developer. The subdivider shall pay all design, engineering, labor, and construction costs for facilities required by this title, except to the extent that this title specifically provides for full or partial payment by the City of El Paso, the El Paso Public Water Utilities or others. The provisions of this title shall apply to re-subdivisions as well as to subdivisions. Specifically, the developer shall be responsible for the following:

1. Phasing of development or improvements in order to ensure the provision of adequate public facilities;

2. Extensions of public facilities and roadways including any necessary on-site and off-site facilities to connect to existing public facilities;

3. Providing and/or procuring all necessary property interests, including rights-of-way and easements, for the facilities, whether on-site or off-site;

4. Demonstrating to the city that the public facilities are adequate;

5. Making provisions for future expansion of the public facilities as needed to serve future developments, subject to the city's oversize participation policies, if applicable;

6. Providing for all operations and maintenance of the public facilities until the city or other public entity accepts the improvements;

7. Providing all security, if required in Chapter 19.08, for the construction of the public facilities;

8. Obtaining approvals from the applicable utility providers other than the city; and

9. Complying with all requirements of the utility providers, including the city and applicable drainage districts. (Ord. 16882 § 2 (part), 2008) (Ord. No. 17236, § 27, 11-10-2009)

19.09.020 Reserved.

(Ord. 16882 § 2 (part), 2008)

19.09.030 Conformance to plans.

A. Conformance. Proposed capital improvements serving new development shall conform to and be properly related to the public facilities elements of the city's adopted comprehensive plan, other adopted master plans for public facilities and services including parks and open space, bikeway and transit, and applicable capital improvements plans, and shall meet the service levels specified in such plans.

B. Thoroughfare Plan (Map) Amendments. No final plat shall be approved for any subdivision within the city or its extraterritorial jurisdiction until the applicant has made adequate provision for thoroughfares as shown on the thoroughfare plan (Map) as approved by the city. The thoroughfare plan is a guide for the roadway connections and types that will be needed in the future. Subject to city manager, or designee approval, as long as the connection is made, whether or not it is close to the exact alignment shown on the thoroughfare plan, no thoroughfare plan amendment should be necessary. The design and construction of the pro-

posed thoroughfare shall be in conformance with the city's master plans for thoroughfares and with the City of El Paso Street Design Manual (SDM), and shall be subject to approval by the city manager or designee. If a different roadway type is found to be adequate or if the connection is not proposed to be made, then the thoroughfare plan shall be amended, upon provision of a traffic impact analysis of the proposed amendment in accordance with Chapter 19.18.

C. Water and Wastewater Plans. No final plat shall be approved for any subdivision within the city or its extraterritorial jurisdiction until the applicant has made adequate provision for a water system and a sanitary wastewater system of sufficient capacity to adequately provide service to all tracts and lots within the area to be subdivided. The design and construction of the water system and of the sanitary wastewater system to serve the subdivision shall be in conformance with the El Paso Water Utilities master plans and construction standards for water and wastewater facilities and with the rules and regulations of the Public Service Board/El Paso Water Utilities and with the City of El Paso Street Design Manual (SDM), and shall be subject to approval by the utility manager. Subdivisions either in the ETJ or recently annexed and that are not served by the EPWU but by other systems shall either meet the same EPWU requirements or the requirements of the other utility provider but also be subject to approval by the city manager or designee.

(Ord. 16882 § 2 (part), 2008; Ord. No. 19327, § 13, 4-26-2022)

Chapter 19.10

DEDICATION, CONSTRUCTION REQUIREMENTS AND CITY PARTICIPATION

Sections:

19.10.010 Findings on necessity for right-of-way dedication and construction as a condition of development approval.

19.10.020 In general.

19.10.030 Timing of dedication and construction.

19.10.040 Relief from obligations.

19.10.050 Roadway participation policies—Improvement of roads and utilities within and or abutting the subdivision.

19.10.010 Findings on necessity for right-of-way dedication and construction as a condition of development approval.

A. Support for new development.

1. New development must be supported by adequate public facilities and services as provided for in this title.

2. It is necessary and desirable to provide for dedication of rights-of-way and easements for capital improvements to support new development at the earliest stage of the development process.

3. Requirements for dedication and construction of capital improvements to serve a proposed new development shall be attached as conditions of approval of any development application that contains a specific layout of the development.

B. Essential Nexus. There is an essential nexus between the demand on public facilities systems created by a new development and the requirement to dedicate rights-of-way and easements and to construct capital improvements to offset such impacts.

C. Mitigation of development impacts; proportional share. The city desires to assure both that development impacts are mitigated through contributions of rights-of-way, easements and construction of capital improvements, and that a development project contributes not more than its proportional share of such costs in accordance with this title. (Ord. 16882 § 2 (part), 2008)

19.10.020 In general.

A. Dedication and construction of improvements. The property owner shall dedicate all rights-of-way and easements for and shall construct, capital improvements within the rights-of-way or easements for water, wastewater, road or drainage improvements needed to adequately serve a proposed development consistent with the applicable master facilities plans and construction design standards, whether the facilities are located on, adjacent to or outside the boundaries of the property being developed, subject to the rough proportionality requirements of this ordinance. Such dedication shall be made and shown on the plat, provided, however, the planning division may grant an exception and allow for a dedication to be completed by metes and bounds. The following procedures shall be followed:

1. Where a property owner requests that the city plan commission grant an exception and that approval be given for the metes and bounds dedication of a public easement or right-of-way, the property owner shall file an application for a metes and bounds dedication with the city manager or designee. The metes and bounds dedication application shall include:

a. Electronic submission or completed forms, available at the office of the planning division, signed by the property owner;

b. A metes and bounds description prepared by a surveyor of the property to be dedicated as a public easement or right-of-way, including calculations showing the area;

c. A survey map prepared by a surveyor, clearly and legibly drawn at a scale of one hundred feet to an inch on one or more twenty-four-inch by thirty-six-inch sheets having a minimum one-half-inch

border on all sides, except where the city manager or designee approves a modified scale or other acceptable format, showing all of the following:

i. Legal description stating approximate acreage;

ii. Date of preparation, map scale (both graphic and numeric), north direction and basis of north direction;

iii. Length, bearings and curve data for the survey map boundaries;

iv. Dimensions and identifications of parcel boundaries, adjacent or abutting easements, canals, drains and subdivisions; including at least one row of adjacent lots and parcels;

v. Width and location of proposed public easements or rights-of-way;

vi. A location map at a scale of one inch equals six hundred feet, except where the city manager or designee approves a modified scale, which provides identification of the proposed public easement or right-of-way in relation to features such as local streets, arterial streets, schools and other features;

vii. Identification of any release or other limitations of rights of access to and from the proposed public easement or right-of-way;

viii. Survey data, including:

(a) The survey map shall be tied by bearing and distance to either a section corner, survey line, grant line, or other known and accepted survey points. This tie shall be delineated on the plat,

(b) Any section line, survey line, or grant line crossing or adjoining the property shall be clearly designated and located on the survey map,

(c) The survey map shall show bearings and lengths of all lines, the radius, central angle, chord bearing and distance, length of curve and tangent of curve for all curved lines,

(d) All recognized survey monuments and other evidence of the survey map boundary location found, set, reset or replaced, describing their type and location shall be identified,

(e) All adjoining property shall be identified by legal description, i.e., lot, block and subdivision or tract name or by section, township or other proper identification,

(f) The centerlines of streets adjoining the property, indicating all permanent survey monuments found,

(g) All distances shall be to the nearest hundredth of a foot and shall be shown in feet and decimals thereof; all bearings shall be shown to the nearest degree, minute and second,

(h) A print-out of the mathematical closure of the exterior boundary of the property, which indicates the error of closure of the respective parcel,

(i) The survey map shall be tied to a horizontal control monument established by either the National Geodetic Survey (N.G.S.) or the city if the property is within three thousand feet of such horizontal control monument as determined by the city engineer or other designee of the city manager,

(j) A survey map tied to a horizontal control monument shall be tied to the monument by course and distance. The tie to the monument, including the reference angle to a published azimuth marker, shall be shown on the map. All N.G.S. reference information for the horizontal control monument, including the N.G.S. station designation, State Plane Coordinates grid factor, mapping angle, reference datum and the State Plane Coordinate zone shall also be shown on the plat. The tie to the horizontal control monument shall be made by the surveyor responsible for the boundary survey;

ix. Certification by the surveyor that the survey map represents a survey made on the ground under his supervision and is in compliance with the current Texas Board of Professional Land Surveying Professional and Technical Standards;

x. Certification from a title company qualified to do business in the state, showing the name(s) of the owner(s) of the property to be dedicated by metes and bounds;

d. A processing fee in the amount established by city council;

e. A detailed justification for the request for exception of the regulations contained under this title; and

f. Documentation to show proof of ownership.

g. A current tax certificate from the city tax assessor-collector indicating that all ad valorem taxes have been paid on the property included within the survey map.

2. Review for application completeness. The city manager or designee shall, upon receipt of a metes and bounds dedication application, determine whether or not the application meets all of the content requirements for submittal required in this section. An application not meeting all of the submission requirements of this title shall be returned to the property owner within five working days following the date of acceptance for review of application completeness, indicating the information which is lacking on the application. For purposes of this section, the date of acceptance of a metes and bounds dedication application for review of application completeness shall not be counted as the first day of the five working day review period. If an application accepted for review of application completeness is not returned to the property owner within the five working day review period, the metes and bounds dedication application shall be deemed accepted and the time period specified within paragraph 3 below shall commence on the sixth working day following the date the metes and bounds dedication application was accepted for review of application completeness.

3. Application procedure.

a. Distribution and review. Upon receipt of an application for metes and bounds dedication of a public easement or right-of-way, the city manager or designee shall distribute the application to affected departments. Written comments and recommendations on the application for metes and bounds dedication of a public easement or right-of-way shall be submitted to the city manager or designee within one week from the date of distribution. All objections to the application shall be submitted in writing. Comments and recommendations not submitted or received within the specified time period shall result in comments not being considered by the city manager or designee, and may require that the affected department's late comments and recommendations be presented directly to the city plan commission.

b. The recommendation of the city manager or designee, accompanied with an explanation of their recommendation and comments submitted by staff, shall be presented to the city plan commission in a written report.

c. A copy of this report shall be provided to the property owner and surveyor at least three working days prior to the commission hearing. The property owner shall be present at the commission hearing when the application is heard.

4. Appeal of city plan commission recommendation to disapprove granting the exception. In the event that the city plan commission recommends disapproval of granting the exception for a metes and bounds dedication of a public easement or right-of-way, no dedication instrument shall be prepared by the city attorney, nor shall the application be submitted to the city council for approval. The property owner may, in writing, request an appeal to the city council by filing an application and any required documentation to support the appeal with the city manager or designee and paying any required fee. The city manager or designee shall place an item on the agenda of a regularly scheduled city council meeting. The appeal must be made within fifteen days of the recommendation by the city plan commission.

The city manager or designee shall advise the property owner of the date of the city council meeting. The city council may deny the appeal for the metes and bounds dedication of a public easement or right-of-way or may approve the metes and bounds dedication application and direct the preparation of the dedication instrument for recording.

Where the city council approves a metes and bounds dedication application, the property owner shall be required to submit the necessary docu-

ments for recording. Failure of the property owner to submit the necessary documents for recording within six months following the date of the city council approval on appeal shall require the total resubmission of the metes and bounds dedication application which shall be subject to the then existing regulations.

5. Resubmission of a metes and bounds dedication application. No application for a metes and bounds dedication of a public easement or right-of-way shall be resubmitted within a twelve-month period from the date of final action by the city plan commission or the city council, whichever action occurs last.

B. Facilities impact studies. The city manager, or designee, may require that a property owner pay the costs including any consulting fees associated with the preparation of a comprehensive traffic impact analysis, drainage study or other public facilities study in accordance with this title in order to assist the city in determining whether a proposed development will be supported with adequate levels of public facilities and services concurrent with the demand for the facilities created by the development. The city manager or designee may also allow the developer to arrange for such studies in lieu of the city preparing such studies. If the study is to determine rough proportionality in accordance with this title, then the city shall provide such study. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17251, § 7, 12-15-2009; Ord. No. 17396, § 10, 8-24-2010; Ord. No. 17738, § 1, 3-6-2012; Ord. No. 17811, § 2, 6-5-2012, eff. 6-11-2012; Ord. No. 19243, §§ 14—16, 10-12-2021)

19.10.030 Timing of dedication and construction.

A. Initial provision for dedication or construction. The city shall require that the submitted documents for approval and any related studies demonstrate that a proposed development shall be adequately served by public facilities and services at the time of consideration by the city plan commission of the first development application that portrays a specific plan of development, including but not limited to, a petition for establishing a petition for an annexation agreement or a development agreement; an application for a land study, or an application for a preliminary plat or final plat. As a condition of approval of the development application, the city may require provision for dedication of rights-of-way or easements for, and construction of, capital improvements to serve the proposed development.

B. Deferral of obligation. The obligation to dedicate rights-of-way for or to construct one or more capital improvements to serve a new development may be deferred until approval of a subordinate development permit, or, in the case of a development proposed to be developed in phases, until a subsequent phase of the development, on the sole discretion of the city, upon written request of the property owner, or at the city's own initiative. The city must find that the deferral of the obligation to a later phase has no negative impact on the proposed development and that any additional costs are provided for. As a condition of deferring the obligation, the city may require that the developer enter into a capital improvements agreement pursuant to Chapter 19.08, specifying the time for dedication of rights-of-way for or provide security for construction of capital improvements serving the development. (Ord. 16882 § 2 (part), 2008)

19.10.040 Relief from obligations.

A. In order to achieve proportionality between the demands created on public facilities by a proposed development and the obligation to provide adequate public facilities, the city may participate in the costs of capital improvements in accordance with this article, credit or offset the obligations against payment of any city fees, or relieve the property owner of some or part of the obligations in response to a petition for relief from a dedication or construction requirement pursuant to Article 5 of this title. (Ord. 16882 § 2 (part), 2008)

19.10.050 Roadway participation policies—Improvement of roads and utilities within and or abutting the subdivision.

A. Improvement of the proportional share of a substandard road within or abutting the subdivision. When an area within a proposed plat, whether residential or nonresidential, abuts on one or both sides of an existing substandard road or utility facility, or a planned or future road, drainage or utility facility as shown on the city's thoroughfare plan and/or adopted plans related to water and wastewater, the developer shall be required to improve the development's proportional share of the road (including appurtenant sidewalks, bike lanes, barrier-free ramps, storm drainage facilities, screening and landscaping, medians and landscaping where required, median openings, left turn lanes, and water quality or erosion controls), the traffic mitigation (including signalization, medians, access and deceleration lanes) and utility facilities, to bring the facilities to city standards, or to replace them with standard city road, traffic mitigation or utility facilities as determined by a traffic or other public facilities impact study. The study, if required, shall be at no cost to the city unless it is used to determine rough proportionality in accordance with this title, in which case the study will be provided by the city.

1. The city plan commission may waive such requirements to provide rights-of-way or street improvements to adjacent substandard roads based on any of the following factors:

a. Fifty per cent of the lots within a quarter mile of the proposed development have already been developed and the existing street improvements are in character with the neighborhood; or,

b. The plat is located within the City of El Paso's Extraterritorial Jurisdiction area, is not within the city's annexation path and written documentation from the County of El Paso has been received stating that the substandard road meets all County requirements and the County is willing to accept the dedication of the substandard road;

c. For all plats located in the City of El Paso's extraterritorial jurisdiction area, written concurrence from the County of El Paso is required prior to the waiver of any dedication and/or improvements.

B. Calculation of minimum proportional share.

1. The developer's share of improvements to a substandard road abutting a subdivision is a minimum of twenty and a half feet of pavement in addition to the curbs, gutters, sidewalks and parkways abutting the subdivision, along the entire boundary of the subdivision, unless the traffic impact study determines that the proportional share of the development is more, in which case that shall become the minimum share of improvements.

2. The minimum developer's share of improvements to a roadway when a subdivision is to be located on both sides of a roadway is the full width of a local roadway, which is fifty-two feet of right-of-way and thirty-two feet of pavement, in addition to the curbs, gutters, sidewalks and parkways, unless the traffic impact study determines that the proportional share of the development is more, in which case that shall become the minimum share of improvements. The roadway shall be improved by the developer on each side of the road along the entire length of the subdivision.

3. The city shall participate in the costs of arterial roads within or abutting the subdivision in excess of the developer's proportional share obligations and where such costs are not borne by another public entity, and in cases where the application of the standards in this chapter result in a disproportional burden on the development, as determined in accordance by the city council in accordance with Chapter 19.46. If the city council determines that funds are not adequate, the city council may choose to do one of the following;

a. Defer the construction of the improvement, allowing the developer to provide for their share of the improvement at a later date in accordance with this title;

b. Allow the developer to install just their portion of the improvement, provided it is adequate for minimum traffic circulation and fire protection; or

c. Sign an agreement with the developer, if the developer proposes to construct the entire roadway improvements and be reimbursed the city's proportional share over time with interest at the rate set in the Texas Government Code Section 2251. (Ord. 16882 § 2 (part), 2008)

(Ord. No. 17765, § 1, 4-3-2012; Ord. No. 17905, § 5, 11-6-2012; Ord. No. 18056, § 12, 8-6-2013; Ord. No. 18192, § 1, 6-17-2014)

Chapter 19.11

EXTRATERRITORIAL JURISDICTION (ETJ) STANDARDS

Sections:

19.11.010 General provisions.

19.11.020 Water and wastewater service.

19.11.030 Lot requirements—Extraterritorial jurisdiction.

19.11.040 Other infrastructure requirements in the ETJ.

19.11.050 Deferred construction of improvements in the ETJ.

19.11.010 General provisions.

A. Owners of property within the extraterritorial jurisdiction who propose a subdivision of land shall be subject to the provisions of this chapter. The regulations contained within Chapter 19.01 and including the Street Design Manual (SDM), shall be applicable except as modified by this chapter.

B. Plat applications within the extraterritorial jurisdiction. Where the land to be platted lies within the extraterritorial jurisdiction of the City of El Paso, no minor plat, preliminary plat, final plat or replat application shall be accepted as complete in accordance with Section 19.37.020 for submission by the responsible official unless the application is accompanied by verification that a copy of such plat has been delivered to the County of El Paso. If the city has not received a decision from the County of El Paso on matters pertaining to the final plat application which are to be determined by the County of El Paso, the application for final plat approval shall be accepted for submission by the city, but shall either be approved subject to subsequent county approval or be denied, unless a waiver of right to thirty-day action is approved. No final plat shall be recorded with the county clerk until both the City of El Paso and El Paso County have approved and the appropriate officials have signed such final plat.

C. Ordinance conflicts. Since the area within the ETJ is subject to the subdivision platting rules and regulations of both the City of El Paso and the County of El Paso, and those regulations may be different, conflicts between the regulations will arise. The more stringent of those rules and regulations shall apply.

D. Connections to existing EPWU water or wastewater system outside the city limits. Applications for connection to existing portions of the EPWU water or wastewater system, pursuant to the EPWU rules and regulations, for uses located outside the city limits will be granted only with the approval of the utility manager.

(Ord. 16882 § 2 (part), 2008; Ord. No. 19327, § 14, 4-26-2022)

19.11.020 Water and wastewater service.

Subdivisions within the extraterritorial jurisdiction shall provide water and wastewater service in accordance with the provisions of this chapter, provided that nothing within this chapter is intended to conflict with state law or the rules and regulations of the Texas Commission on Environmental Quality, or to interfere with any permit, license or certificate, to include, but not limited to, a certificate of public convenience and necessity, granted by the state or TCEQ that establishes who is responsible for providing water and wastewater service to a specified area. The city plan commission shall not grant a subdivider final plat approval unless the subdivision application meets all of the following:

A. Water service. All subdivisions shall provide a complete water service and distribution system capable of delivering potable water to every lot in the subdivision in sufficient capacity to provide for the complete water use needs of the subdivision, and complying with the following:

1. Water service shall be provided by the El Paso Water Utilities in accordance with the EPWU rules and regulations.

2. In the event the El Paso Water Utilities does not agree to provide water service within the

time limits stated in this title, the subdivider shall provide water service in accordance with this title.

3. Where drinking water is to be supplied to a subdivision from a public water system, the water quality and system design, construction and operation shall meet the minimum criteria set forth in the Texas Administrative Code (TAC).

4. Retail utility agreements. Subdividers who propose to supply drinking water by connecting to an existing public water system must provide a written agreement with the retail public utility on the Retail Public Utility Agreement Form available at the city. The agreement must provide that the retail public utility has or will have prior to final plat approval the ability to supply the total flow anticipated from the ultimate development and occupancy of the proposed subdivision for a minimum of thirty years. The agreement must reflect that subdivider has paid, or provided financial guarantees for the payment of, the cost of water meters or other necessary connection equipment, membership fees, water rights acquisition costs, or other fees associated with connection to the public water system so that service will be available to each lot.

5. Design and construction. All water facilities within a subdivision within the ETJ of El Paso meeting Section 19.12.010 shall be designed and constructed to city and El Paso Water Utilities (EPWU) standards and to all state laws, policies, standards, rules and regulations for an approved public water system, including those covering the preparation, submittal and approval of plans and specifications for water systems and acceptable operating practices, and in conformance with all laws, policies, standards and rules and regulations for establishing the ISO rating of the city and current fire codes of the city, provided such service is to be provided by EPWU. If water is provided by a water district or other provider holding a permit of certificate of convenience and necessity (CCN), the water facilities shall be designed and constructed per the standards of that entity and the TCEQ. If an area is subsequently deannexed by the non-EPWU provider, then water facilities shall be designed and constructed to EPWU standards.

6. Non-EPWU systems. Within the extraterritorial jurisdiction, if the El Paso Water Utilities determines within sixty days of the filing of a complete application, as defined in EPWU rules and regulations, that public water service cannot be provided within twelve months from the date of its action on the water application, the subdivider shall be allowed to provide water service through a TCEQ approved water system.

7. Nonpublic water systems.

a. An exception may be granted by the city plan commission in unique situations for a subdivision to be supplied by a nonpublic water system.

b. The developer shall provide documentation that a financial mechanism such as a public improvement district to fund and operate such a nonpublic water system is or will be in place prior to development. Such systems must meet all requirements of this chapter and be approved by the city manager or designee.

8. Individual wells within the ETJ.

a. Individual wells within the ETJ shall be subject to approval by the appropriate health official and this approval shall be documented by the appropriate health official's signature on the water system statement on the plat. The developer must submit with the plat application a certificate from a professional engineer registered in Texas or a geoscientist licensed to practice in Texas verifying the adequacy of the proposed source of well supply prior to plat approval.

b. Compliance with other regulations. Installation, operations and maintenance of individual wells shall comply with city and EPWU standards, regulations of the TCEQ, any other applicable state rules and regulations. In the event of conflict among these regulations, whichever is the most stringent shall apply.

9. Testing. Where individual wells or other nonpublic water systems are proposed for the supply of drinking water to residential establishments, a test well or wells located so as to be representative of the quantity and quality of wa-

ter generally available from the supplying aquifer shall be drilled by the subdivider and the produced waters sampled and submitted to a private laboratory for a complete chemical and bacteriological analysis of the parameters on which there are drinking water standards. The subdivider shall have prepared and provide a copy of a groundwater availability study which shall include an analysis of the long-term (thirty years) quantity of the available groundwater supplies relative to the ultimate needs of the subdivision. The water quality of the water produced from the test well must meet the standards of water quality required for community water systems as set forth in 30 TAC.

a. Without any treatment to the water; or

b. With treatment by an identified and commercially available water treatment system.

10. Transportation of potable water. The conveyance of potable water by transport truck or other mobile device to supply the domestic needs of the subdivision is not an acceptable method, except on an emergency basis. Absence of a water system meeting the standards of these rules due to the negligence of the subdivider does not constitute an emergency.

B. Wastewater service. All subdivisions shall provide a complete wastewater collection system capable of properly removing wastewater from every lot in the subdivision in sufficient capacity to provide for the complete removal of all wastewater generated by the subdivision, and complying with the following:

1. Wastewater service shall be provided by the El Paso Water Utilities in accordance with EPWU rules and regulations.

2. The EPWU shall process an application and determine wastewater provision in the same manner as the water service determination in subsection (A)(6) of this section. If wastewater cannot be provided within said twelve months, the subdivider shall provide wastewater service in accordance with one of the following:

a. Public sewerage facilities (other than El Paso Water Utilities).

i. A subdivider who proposes the development of an organized wastewater collection and treatment system shall obtain a permit to dispose of wastes from the Texas Commission on Environmental Quality (TCEQ) and approval of engineering planning materials for such systems in accordance with the thirty Texas Administrative Code (TAC).

ii. A subdivision that proposes to dispose of wastewater by connecting to an existing permitted facility shall provide a copy of the written agreement with the permittee or retail public utility on the Retail Public Utility Agreement Form available at the city. The agreement shall indicate a willingness and capacity to serve the proposed development, the total occupancy of the proposed subdivision. Engineering plans for the proposed wastewater collection lines shall be approved by the TCEQ prior to construction.

b. On-site sewage facilities. Where the El Paso Water Utilities or other public wastewater system is not required or planned to be extended in the ETJ, in accordance with applicable standards of this title, the authorized health authority may grant an exception to provide wastewater service to a subdivision with on-site sewage disposal systems. Plans shall be prepared for installation of on-site sewage disposal systems designed to serve each lot in the subdivision. Where non-EPWU wastewater lines are planned to collect wastes for transport to private, self-contained sewage treatment facilities within the subdivision, both the sewage collection system as well as necessary treatment facilities shall be installed by and at the expense of the subdivider. Plans and installation of such improvements must be approved by the city manager or designee. The developer shall provide documentation that a financial mechanism such as a public improvement district to fund and operate such a wastewater system is or will be in place. Such systems must meet all requirements of this title and be approved by the city manager or designee.

i. A sewage disposal plan shall be designed by a registered professional engineer or registered sanitarian.

ii. On-site sewerage facilities for the on-site disposal of sewage in the amount of five thousand gallons per day or greater shall obtain a wastewater permit from the TCEQ.

iii. On-site sewerage facilities not required to obtain a wastewater permit from the TCEQ shall obtain a "permit to construct" from an authorized agent in accordance with the Texas Health and Safety Code, other applicable state codes and the sewage facility order of El Paso County, Texas.

iv. On-site sewerage facilities proposed near lakes, water retention ponds or rivers shall be licensed and installed in accordance with the requirements established by the TCEQ in the Texas Administrative Code (TAC).

v. On-site sewerage facilities proposed within aquifer recharge zones shall be licensed and installed in accordance with the requirements established by the TCEQ in the Texas Administrative Code (TAC).

vi. Proposals for on-site sewage disposal systems shall be subject to the review, approval and inspection of the TCEQ or its authorized agent to assure that the systems are in compliance with the Texas Health and Safety Code and the Texas Administrative Code (TAC).

vii. Plans for on-site sewage disposal, as well as actual installation of such facilities, shall be subject to approval by appropriate public health authorities in order to meet requirements of this chapter. Sewage disposal facilities requiring soil absorption systems may be prohibited where such systems will not function due to high ground water, flooding, or unsuitable soil characteristics. To this end, the city plan commission shall require that the subdivider note on the face of the plat that soil absorption fields are prohibited in designated areas.

c. Reclaimed water systems for reuse of treated wastewater.

i. Any proposal for sewage collection, treatment and disposal which includes reclaimed water reuse shall meet the minimum criteria of the Texas Administrative Code (TAC).

ii. Any proposal for on-site sewage facilities which includes provisions for reclaimed water reuse shall meet the minimum criteria of the Texas Administrative Code (TAC).

d. The disposal of sludge from water treatment and wastewater treatment facilities shall meet the criteria of the Texas Administrative Code (TAC).

e. The subdivider shall provide the following setbacks for all lots within a subdivision, notwithstanding the separation or setback distances required by rules governing public utilities, on-site sewerage facilities, or potable water supplies: a minimum of ten feet from streets and other public rights-of-way and a minimum of five feet from adjacent property lines.

C. Submission contents.

1. Final Engineering Report. The final plat shall be accompanied by an engineering report regarding the availability and methodology of providing wastewater treatment service prepared, meeting the requirements of the SDM, and bearing the signed and dated seal of a professional engineer registered in the State of Texas.

2. On-site sewerage facilities. Where private on-site sewerage facilities are proposed, the final engineering report shall include planning materials required by the TAC, including the site evaluation described by the TAC, requirements and all other information required by applicable OSSF regulations.

3. Public water systems. Where water supplies are to be provided by an existing public water system, the subdivider shall furnish an executed contractual agreement with the retail public utility on the Retail Public Utility Agreement Form available at the city. It must provide that the retail public utility has or will have prior to development the ability to supply the total flow anticipated from the ultimate development and occupancy of the proposed subdivision for a minimum of thirty years and that the subdivider has provided for the payment of costs or fees for the connection of each individual lot to the public water system, including water meters, water acquisition fees, or other necessary expenses required by the retail public utility. Before final plat approval, plans and specifications for the proposed water facilities shall have been approved by all entities having jurisdic-

tion over the proposed project, which may include the TCEQ and the health in addition to the responsible departments of the city. If groundwater is to be the source of the water supply, the final engineering report shall include a groundwater availability study which shall include comments regarding the long-term (thirty years) quantity and quality of the available groundwater supplies relative to the ultimate needs of the subdivision.

4. Where there is no existing retail public utility to construct and maintain the proposed water facilities, the subdivider shall establish a retail public utility and obtain a certificate of convenience and necessity ("CCN") from the TCEQ and include evidence of the CCN issuance with the plat. Before final plat submission, an acquisition or wholesale water supply agreement that will provide a sufficient supply to serve the needs of the subdivision for a term of not less than thirty years must be provided.

5. Nonpublic water systems. Where individual wells are proposed for the supply of drinking water to residences, the final engineering report shall include the quantitative and qualitative results of sampling the test wells in accordance with subsection (A)(3) of this section. The results of such analyses shall be made available to the prospective property owners. If the water quality of the test well required pursuant to subsection (A)(3) of this section does not meet the water quality standards as set forth in that section without treatment by an identified and commercially available water treatment system, then the final report must state the type of treatment system that will treat the water produced from the well to the specified water quality standards, the location of at least one commercial establishment within the county at which the system is available for purchase, and the cost of such system, the cost of installation of the system, and the estimated monthly maintenance cost of the treatment system. The engineer shall issue a statement confirming the availability of groundwater supplies to serve the fully developed subdivision over the next thirty years. Such statement may be based on information available from the Texas Water Development Board's Office of Planning. The description of the required sanitary control easement shall be included.

6. Organized sewerage facilities. Where wastewater treatment is to be provided by an existing retail public utility, the subdivider shall furnish a contractual agreement with the retail public utility on the Retail Public Utility Agreement Form available at the city. It must provide that the retail public utility has or will have prior to development the ability to treat the total flow anticipated from the ultimate development and that the subdivider has paid the cost of all fees associated with connection to the wastewater collection and treatment system have been paid so that service is immediately available to each lot. Before final plat approval, an appropriate permit to dispose of wastes shall have been obtained from the TCEQ and plans and specifications for the proposed wastewater collection and treatment facilities shall have been approved by all entities having jurisdiction over the proposed project.

7. Where there is no existing retail public utility to construct and maintain the proposed sewerage facilities, the subdivider shall establish a retail public utility, and obtain a CCN from the TCEQ. Before final plat approval, a wastewater treatment permit authorizing the treatment of the wastewater for the ultimate build-out population of the subdivision shall have been obtained from the TCEQ and plans and specifications for the proposed sewerage facilities shall have been approved by all entities having jurisdiction over the proposed project.

D. Prerequisites to approval.

1. Since state law requires action on a plat within thirty days of a determination of completeness, the city shall, in accordance with this title, approve, deny or approve subject to conditions a final plat in the ETJ unless a waiver of right to thirty-day action is provided by the developer. The conditions may include a requirement that county or utility approvals be obtained.

2. The subdivider shall provide evidence that the plans and specifications for construction in-

cluding any change orders filed with the appropriate authorities have been approved in accordance with the criteria established within this title and the approval from the TCEQ.

3. The subdivider shall provide evidence that the subdivision application has received approval from the El Paso authorized local health agent or department with jurisdiction in accordance with the Texas Administrative Code (TAC) regarding on-site sewage facilities, and the sewage facility order of El Paso County, Texas, as applicable.

4. Additional information. The city may, at its option, require additional information necessary to determine the adequacy of proposed water and wastewater improvements as part of the plat approval process. Such information may include, but not be limited to:

a. Layout of proposed street and drainage work;

b. Legal description of the property;

c. Existing area features;

d. Topography;

e. Floodplains;

f. Description of existing easements;

g. Layout of other utilities;

h. Notation of deed restrictions;

i. Public use areas; or

j. Proposed area features.

E. Scope of Standards. All plats for residential developments and manufactured home parks shall comply with the minimum standards of this chapter. Subdivisions are presumed to be residential developments unless the land is restricted to nonresidential uses on the final plat and on all deeds and contracts for deeds, or by restrictive covenants recorded in the office of the county clerk with the final plat. (Ord. 16882 § 2 (part), 2008)

(Ord. No. 17236, § 27, 11-10-2009; Ord. No. 19327, § 15, 4-26-2022)

19.11.030 Lot requirements—Extraterritorial jurisdiction.

A. Residential Subdivision Lot Sizes.

1. In a subdivision in the ETJ where public water and public sewers are provided and on-site ponding is not used, the minimum lot areas shall be six thousand square feet or as approved by the County of El Paso, provided a minimum lot width of fifty feet and a minimum lot depth of ninety feet shall be provided.

2. In a subdivision in the ETJ where public water and public sewers are provided, and on-site ponding is used, the minimum lot areas shall be ten thousand square feet with a minimum lot width of at least one-third the lot depth.

3. Subdivisions in the ETJ served by a public water system, but utilizing individual methods of sewage disposal shall provide for lots of at least one-half acre. In calculating lot or tract sizes, access easements or rights-of-way adjacent to or through such lots shall not be used to satisfy the one-half acre requirement.

4. Subdivisions in the ETJ utilizing individual water supply systems, individual methods of sewage disposal shall provide for lots of at least one acre. In calculating lot or tract sizes, access easements or rights-of-way adjacent to or through such lots shall not be used to satisfy the one-acre requirement.

5. An exception to the minimum lot size requirements in the ETJ of this chapter may be granted by the city plan commission, upon approval in advance by the TCEQ and the appropriate health official of a sewage disposal plan for on-site sewage disposal prepared by an engineer or sanitarian registered in the State of Texas.

6. No more than one single-family detached dwelling shall be located on each subdivision lot in the ETJ. A notation of this restriction shall be placed on the face of the recording plat. This restriction shall be placed in all deeds and contracts for deeds for real estate sold within the ETJ subdivision. Where otherwise authorized, proposals which include multifamily residential structures shall include adequate, detailed planning materials required by the city for determination of proper water and wastewater utility type and design.

B. Manufactured Home Park Space Sizes.

1. The minimum lot area for a manufactured home park where public water and public sewers are provided shall be thirty thousand square feet with a minimum lot width of one hundred feet and a minimum lot depth of three hundred feet. In a manufactured home park where individual manufactured spaces are for lease, the minimum manufactured home space area shall be four thousand five hundred square feet with an average space width of forty-five feet and a minimum space depth of one hundred feet.

2. The minimum lot requirements for manufactured homes on individually owned lots in subdivisions shall meet the requirements for a single-family lot in subsection A of this section.

3. Parks for manufactured homes served by a public water system, but utilizing individual methods of sewage disposal, shall provide a minimum one-half acre for each manufactured home space. In calculating the minimum manufactured home space area, access easements or rights-of-way adjacent to or through such manufactured home space shall not be used to satisfy the one-half acre requirement.

4. Parks serving manufactured homes utilizing individual water supply systems and individual methods of sewage disposal shall provide a minimum one acre for each manufactured home space. In calculating the minimum manufactured home space area, access easements or rights-of-way adjacent to or through such manufactured home space shall not be used to satisfy the one-acre requirement.

5. The space size requirements of this title may be modified by the city plan commission, upon approval in advance by the TCEQ and authorized local health agent or department with jurisdiction of a sewage disposal plan for on-site sewage disposal prepared by an engineer or sanitarian. The design shall show proposed well locations within a one hundred fifty-foot radius (sanitary control easement) around the well in which no subsurface sewage system may be constructed; except that a watertight sewage unit or lined evapotranspiration bed with leak detection capability may be placed closer to the water well than one hundred fifty feet. In no instance shall the area available for the on-site sewage system be less than two times the design area. The on-site sewage system shall be designed in accordance with the requirements of this title. A finding under this subsection shall only be made upon proof that the on-site sewage system can be operated without causing pollution, a nuisance, or a threat or harm to an existing or proposed water supply system. When a property abuts any public street or alley in which there is a public sewer within three hundred feet from the closest point of the property, and when the on-site sewage system causes pollution, a nuisance, or a threat or harm to an existing or proposed water supply system as determined by the TCEQ and/or the authorized local health agent or department with jurisdiction, the property shall be required to connect to the public sewer.

6. No more than one manufactured home shall be located on each manufactured home space in a manufactured home park. A notation of this restriction shall be placed on the face of the final plat of the subdivision.

C. Building Lines. Front building lines shall be shown for all lots on all plats submitted for land within the city's ETJ, and shall be as follows:

1. The minimum building setback from lot boundaries adjacent to street rights-of-way shall be as follows in subsection "a" below, except as specified in subsection "b."

a. Setback from boundary adjacent to freeway (without frontage road in place): forty feet.

Setback from boundary adjacent to freeway (with frontage road in place): thirty feet.

Setback from boundary adjacent to arterial or collector street: thirty feet.

Setback from boundary adjacent to a local street: twenty-five feet.

b. For new lots created by re-subdivision of land originally subdivided before 1985, the minimum building setback from street-side boundaries shall be the same as that indicated on the most previously recorded plat or replat of the particular

lot(s) under consideration. In all cases, however, there shall be required a front yard of not less than twenty feet and an exterior side yard of not less than fifteen feet, where no building setback lines are represented on a previously recorded plat or replat. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009)

19.11.040 Other infrastructure requirements in the ETJ.

A. Parks. Parks shall be required in designated areas within the ETJ that the City has identified as future areas for potential voluntary annexations. The areas of potential annexations are identified on an official map kept in the planning division and included as part of Section 19.11 Attachment A, as may be amended by City Council Subdivisions located in those designated areas within the ETJ of El Paso shall meet the park requirements of the city contained within Chapter 19.20. Any land conveyed to the city for future park purposes shall be identified on the plat as a legal lot with lot number. The developer shall provide to the city a warranty deed, approved by the city attorney's office, conveying the property to the city for park purposes. Land acquired by the city for park purposes under the provisions of this chapter will not be maintained or improved by the county. A sign containing city contact information shall be placed upon the site noting that the lot is owned and maintained by the City of El Paso. Upon acceptance by the city, the city shall have the responsibility to maintain the parkland, facilities and any improvements provided by the dedication or subsequently made to the park in accordance with Chapter 19.20.

B. Streetlighting. Subdivisions within the ETJ of El Paso shall make provisions for streetlighting in accordance with the requirements of the county. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17251, § 8, 12-15-2009; Ord. No. 17396, § 11, 8-24-2010)

19.11.050 Deferred construction of improvements in the ETJ.

In order to not create disincentives to development within the city limits of El Paso and to avoid future expenses for the taxpayers of the city to bring newly annexed, developed areas up to city standards, the city will require, where possible, the actual infrastructure required by this title to be installed or constructed. Where such improvements cannot be constructed at the time of plat approval, the city may require cash escrow to offset the future expense in accordance with Chapter 19.08. If the city manager or designee determines that an improvement may not be constructed within ten years, it may waive the requirement for cash escrow for such improvements. (Ord. 16882 § 2 (part), 2008)

Chapter 19.12

WATER

Sections:

19.12.010 Water extension and installation.

19.12.020 The El Paso Water Utilities System.

19.12.030 Location; performance guarantees.

19.12.040 Individual wells.

19.12.010 Water extension and installation.

A. Water Required for Public Safety. All lots, tracts or parcels on which development is proposed shall be connected to a public water system which has capacity to provide water for domestic use and emergency purposes, including adequate fire protection.

B. Responsibility.

1. Within the corporate limits and the extraterritorial jurisdiction (ETJ) the subdivider shall make application to the El Paso Water Utilities if within their designated service area for water service prior to submitting an application for subdivision approval. The El Paso Water Utilities shall act upon the water application within sixty days of the receipt of the completed application.

2. Within the corporate limits, if the El Paso Water Utilities determines that public water service can be provided to the subdivision within twelve months from the date of its action on the water application, the subdivider shall provide water service through the public water system. If the EPWU determines that service cannot be provided to the subdivision within twelve months, then the development shall be considered to not have adequate facilities under Section 19.09.010 until such time as service can be provided or the developer makes arrangement for such service.

3. The subdivider shall install and pay for all water extensions and associated facilities, including fire hydrants, in accordance with all standards required by this title, the El Paso Water Utilities (EPWU) and all other city ordinances, except to the extent that Section 19.14.010 and Chapter 19.10 provide for refunding the cost of certain water mains larger than eight inches in diameter.

4. All such extensions and facilities shall be installed within a public right-of-way or easement designated for utility access.

5. Upon certification that municipal water extensions and associated facilities have been completed in conformance with applicable standards and specifications, such extensions and facilities shall be dedicated to and accepted by EPWU.

C. Extension and Related Expense. Where the EPWU's water distribution system is not planned to be extended, all necessary water facilities shall be provided by and at the expense of the subdivider. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009)

19.12.020 The El Paso Water Utilities System.

A. Installation of Water Facilities. Where water is to be provided through the EPWU system, the developer shall install adequate water facilities, including fire hydrants, in accordance with the current rules and regulations for public water systems of the TCEQ, the rules and regulations of the El Paso Water Utilities/Public Service Board (EPWU/PSB) and the firefighting standards of the Texas Board of Insurance, and the standards and specifications of the city and EPWU.

B. Facilities for Health and Safety Emergencies; Alternative Water Sources. All water facilities connected to the EPWU water system shall be capable of providing water for health and emergency purposes, including fire protection. Water supply facilities shall be in accordance with city and EPWU. The design and construction of water system improvements and alternative water sources shall also comply with the following standards:

1. Design and construction of a water source on the site shall be in accordance with applicable regulations of the TCEQ.

2. Design and construction of water service from the EPWU shall be in accordance with the standards in the city's SDM and of EPWU.

3. Design and construction of a fire protection and suppression system shall be in accordance with the standards of the SDM, the EPWU, the city's adopted fire code, Chapter 9.52 of the code and be approved by the city manager, or designee, utility manager and fire department. (Ord. 16882 § 2 (part), 2008; Ord. No. 19327, § 16, 4-26-2022)

19.12.030 Location; performance guarantees.

A. Subdivision Improvement Plans. The location of all fire hydrants, all water supply improvements and the boundary lines of special districts, private systems and certified water service areas, indicating all improvements proposed to be served shall be shown on the subdivision improvement plans and shall be in accordance with the rules and regulations of the El Paso Water Utilities/public service board (EPWU/PSB) and the City of El Paso, if applicable.

B. Cost. The cost of installing all water supply improvements to be made by the developer, including off-site improvements, shall be included in the performance guarantees furnished by the developer.

C. Location of Lines. Extension of water and wastewater lines shall be made along the entire frontage of the plat adjacent to a street or thoroughfare.

1. If the subdivision is not adjacent to a thoroughfare, the extension of utilities shall be accomplished in such a manner as to allow future connections to said utilities by new subdivisions.

2. If new subdivisions will never be constructed beyond a developing subdivision due to physical constraints, the utility manager and city manager, or designee may waive the requirement for construction of utility lines adjacent to or extending utility lines to beyond the subdivision at the time of final plat approval and prior to construction of the subdivision.

D. Compliance with Other Regulations. Installation, operations and maintenance of utilities not specifically referenced herein shall comply with regulations of the TCEQ, and with any other applicable state rules and regulations, whichever is the most stringent requirement. (Ord. 16882 § 2 (part), 2008)

19.12.040 Individual wells.

A. Within the Corporate City Limits. Individual wells within the corporate city limits of El Paso shall be discouraged. If, in a unique case, an exception is granted to a single property that may not otherwise be served by the authorized local health agent or department with jurisdiction to utilize individual wells, such individual well shall meet all requirements for individual wells contained in Chapter 19.11. (Ord. 16882 § 2 (part), 2008)

Chapter 19.13

WASTEWATER

Sections:

19.13.010 Wastewater extension and installation.

19.13.020 The El Paso Water Utilities Wastewater System.

19.13.030 Location; performance guarantees.

19.13.010 Wastewater extension and installation.

A. Wastewater Collection and Treatment Required for Public Safety. All lots, tracts or parcels on which development is proposed shall be served by an approved means of wastewater collection and treatment. The El Paso Water Utilities (EPWU) utility manager shall be responsible for determining the approved means of wastewater collection and treatment. The utility manager may coordinate with the city to require the phasing of development and/or improvements in order to maintain adequate wastewater capacity. Subdivisions either in the ETJ or that have recently been annexed and are not served by the EPWU shall meet the same requirements but be subject to approval by the city manager or designee.

B. Responsibility.

1. Within the corporate limits and the extraterritorial jurisdiction (ETJ) the subdivider shall make application to the El Paso Water Utilities for wastewater collection service prior to submitting an application for subdivision approval. The El Paso Water Utilities shall act upon the wastewater application within sixty days of the receipt of the completed application.

2. Within the corporate limits, the subdivider shall provide wastewater service through the public wastewater system.

3. Within the corporate limits, if the EPWU determines that public wastewater service can be provided to the subdivision within twelve months from the date of its action on the wastewater application, the subdivider shall provide wastewater service through the public wastewater collection system. If the EPWU determines that service cannot be provided to the subdivision within twelve months, then the development shall be considered to not have adequate facilities under Section 19.09.010 until such time as service can be provided or the developer makes arrangement for such service.

4. The subdivider shall install and pay for all municipal wastewater extensions and associated facilities in accordance with all standards required by this title, the EPWU/PSB rules and regulations and all other city ordinances, except to the extent that Section 19.14.010 and Chapter 19.10 provides for refunding the cost of certain wastewater mains larger than twelve inches in diameter.

5. All such lines and facilities shall be installed within a public right-of-way or easement designated for utility access.

6. Upon certification that municipal wastewater extensions and associated facilities have been completed in accordance with applicable standards and specifications, such extensions and facilities shall be dedicated to the El Paso Water Utilities. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009)

19.13.020 The El Paso Water Utilities Wastewater System.

A. Extension. Extension of the EPWU wastewater system shall be required for any subdivision within city limits. Extension of municipal wastewater lines shall be done in accordance with adopted policies and rules and regulations of the EPWU/PSB.

B. Design Requirements. Where wastewater is to be provided through a centralized system, the developer shall install adequate facilities, subject to the standards and specifications of the EPWU and state design criteria for wastewater systems.

C. Existing System. Where insufficient capacity exists downstream of a proposed connection, the replacement and upsizing of the existing main is required of the developer. The installation of a

parallel main is prohibited, unless approved by the utility manager. Installation for lines in excess of twelve inches may be eligible for reimbursement in accordance with Chapter 19.10. (Ord. 16882 § 2 (part), 2008)

19.13.030 Location; performance guarantees.

A. Subdivision Improvement Plans. The location of all wastewater improvements and the boundary lines of special districts, private systems and certified areas, indicating all improvements proposed to be served, shall be shown on the subdivision improvement plans and be in accordance with the rules and regulations of the EPWU.

B. Cost. The cost of installing all wastewater improvements to be made by the developer, including off-site improvements, shall be included in the performance guarantees furnished by the developer. (Ord. 16882 § 2 (part), 2008)

Chapter 19.14

UTILITIES GENERALLY

Sections:

19.14.005 General provisions.

19.14.010 Utility connection.

19.14.020 Utility location policies.

19.14.030 Utility easements on platted lots.

19.14.005 General provisions.

A. General Provisions.

1. Utilities shall include water, wastewater, natural gas, electric, cable television, telephone and other public utilities.

2. All utilities shall be located underground in any new residential subdivision.

3. Within nonresidential subdivisions, utilities shall be located underground unless the adjacent property has overhead utility lines.

4. Underground utilities may be buried in dedicated easements or in rights-of-way.

5. In residential or nonresidential subdivisions and in those that are considered "infill" development or redevelopment, overhead electrical utilities may be utilized if the surrounding existing development has overhead electric utilities.

6. Electrical transmission lines over twenty-four KV shall not be required to be placed underground.

7. Overhead electrical distribution lines shall be permitted in industrial and/or commercial parks.

B. Placement.

1. The placement and separation of the various utilities within an easement or right-of-way shall conform to the Development Standards for Construction contained in the SDM. The placement and separation of water and wastewater utilities shall also conform to the requirements of the Texas Commission on Environmental Quality (TCEQ).

2. If a water or wastewater main is to be placed in a shared easement, the location of such main in relation to the other utilities shall be coordinated with the affected utility agencies.

(Ord. 16882 § 2 (part), 2008; Ord. No. 19327, § 17, 4-26-2022)

19.14.010 Utility connection.

A. Participation and Extension Policies. A property may not be served or connected with water, wastewater, electricity, gas or other utility service unless the owner of the property has been issued or otherwise holds a certificate of compliance applicable to the land to be served or connected as provided in Section 19.37.140. For purposes of this chapter, utility service and connection shall not include the laying of utility facilities, or the installation and use of meters or hook-ups required for construction of any required subdivision improvements or buildings. Provided, however, that a property may be served or connected with water, wastewater, electricity, gas or other utility service regardless of whether an entity is presented with or holds a certificate of compliance when:

1. The property, or any portion thereof, was first served or connected by a public utility that provides water, wastewater, electricity, gas or other utility service before September 1, 1987;

2. The property, or any portion thereof, was first served or connected by either a utility service corporation organized and operating under Article 1434a, Vernon's Texas Civil Statutes or a special district or authority created by or under state law that provides utility service, with water, wastewater, electricity, gas or other utility service before September 1, 1989; or

3. The city manager or designee issues a certificate stating that:

a. The land, before September 1, 1995, was sold or conveyed to the person requesting service by any means of conveyance, including a contract for deed or executory contract,

b. The land is located in a subdivision in which utility service has been previously provided,

c. The land is located within the extraterritorial jurisdiction,

d. Construction of a residence on any portion of the property, evidenced by at least the existence of a completed foundation, was begun on or before May 1, 1997,

e. The person requesting utility service provides either:

i. A copy of the means of conveyance or other documents that show that the land was sold or conveyed to the person requesting utility service before September 1, 1995, and a notarized affidavit by that person that states that construction of a residence on the property; evidenced by at least the existence of a completed foundation, was begun on or before May 1, 1997, or

ii. A notarized affidavit by the person requesting utility service that states that the property was sold or conveyed to that person before September 1, 1995, and that construction of a residence on the property, evidenced by at least the existence of a completed foundation, was begun on or before May 1, 1997, and

f. The utility service provider provides utility service to property described by subsection (A)(3) only if the person requesting service:

i. Is not the land's subdivider or the subdivider's agent, and

ii. Provides to the utility service provider a certificate from the city manager or designee as described by subsection (A)(3);

4. Applicability. This chapter shall apply to land that is first served or connected with water or wastewater service, or both, on or after July 11, 1995 (passage of Ordinance No. 012475).

5. Exception. An exception may be granted in accordance with Chapter 19.48 when the city plan commission determines, following a recommendation by the director of the authorized local health agent or department with jurisdiction, that a threat to public health and safety may result from an existing water supply system or on-site sewage system on property which has been privately developed without a subdivision as required by this title; and where the strict application of these regulations cannot be observed due to the existing conditions of the property. For purposes of this subsection, property which has been privately developed shall include any portion of a tract or parcel of land on which a structure has been permanently located on the ground, or has been attached to something having a permanent location on the ground, and which has been continuously occupied for any use. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009)

19.14.020 Utility location policies.

A. Placement. It is in the city's best interest to coordinate and regulate the placement of utilities within public rights-of-way or public or private easements. Such regulations and coordination shall be managed under the general standards of this chapter.

B. Standards.

1. Public street rights-of-way shall be the preferred location for all utility extensions to the extent reasonably possible.

2. In order to accommodate the multiple public and franchise utilities within the public street right-of-way, there shall be a minimum amount of unpaved right-of-way outside of and in addition to the right-of-way covered by street paving, sidewalk and curb-and-gutter in accordance with the SDM street cross sections and requirements. This unpaved area may be between the curb and sidewalk or on the outside of the sidewalk. The minimum roadway cross sections in Chapter 19.15 have been designed with a minimum area behind the curb, and sufficient right-of-way to meet this requirement in accordance with the SDM shall be dedicated to accommodate over-width sidewalks, bikeways, or any surface improvement.

3. Easements on private property may be used in the following instances and under conditions specified therein:

a. For pedestal, transformer and utility hut pads;

b. Where special developments (i.e., cluster subdivisions and planned development districts) occur;

c. Where public or private streets are platted lacking sufficient parkway to install required and franchise utilities and, even then, such easements as needed shall be provided adjacent and parallel to the street;

d. Where on-site ponding is proposed and the parkway is proposed to be removed to accommodate the on-site ponding, then the utilities must be located in an adjacent easement;

e. Where unusual circumstances prevent use of the public right-of-way or private street; and

f. Easements shall be a minimum of ten feet on private property, or as specified by the utility provider utilizing the easement.

4. Prior to the pavement installation, the subdivider shall obtain a written release from each utility provider indicating that required utility installation is complete. Subdividers shall provide such release to the city.

5. A joint trench for electric and communication utilities shall be provided, in accordance with the SDM. Separate trenching for electric and communication utilities will be allowed only:

a. In the mountain development area, in accordance with Chapter 19.24;

b. For individual street crossings;

c. For service drops;

d. Where existing service feeds or sources are coming from demonstrably different directions;

e. In replats where existing utilities are in separate trenches.

6. Conduit, to accommodate electric, telephone and cable television service lines at street crossings extending from closures on one side of the street, shall be provided. Utilities shall meet the locational criteria, if any, contained in the SDM.

(Ord. 16882 § 2 (part), 2008; Ord. No. 19327, § 18, 4-26-2022)

19.14.030 Utility easements on platted lots.

A. Side of Platted Lots. Side lot easements are discouraged and shall be allowed only where severe topographic constraints exist or the easements are necessary to serve the property or adjacent property. If one or more utilities must be located at the side of platted lots, an easement shall be designated as prescribed below:

1. The easement shall be a minimum of ten feet in width or as specified by the utility provider utilizing the easement and shall be located entirely within the boundaries of one lot.

2. The property owner whose property is subject to such easement shall be responsible for its maintenance and shall keep it free and clear of any permanent building or structure with the exception of fencing. No building permits shall be issued to place any building or other improvement on, over, or within such easement, in whole or part. (Ord. 16882 § 2 (part), 2008)

Chapter 19.15

ROADWAYS

Sections:

19.15.010 Adequacy of streets and thoroughfares.

19.15.020 Subdivider responsibility.

19.15.030 Street/thoroughfare escrow policies and procedures.

19.15.040 Public right-of-way, alley or public easement vacation.

19.15.050 General requirements.

19.15.060 Street standards.

19.15.070 Intersections, half-streets.

19.15.080 Street length.

19.15.090 Cul-de-sac streets.

19.15.100 Dead-end streets.

19.15.110 Street width and design.

19.15.120 Street offsets.

19.15.130 Curbs and gutters.

19.15.140 Street names and addresses.

19.15.150 Private streets.

19.15.160 Alleys.

19.15.010 Adequacy of streets and thoroughfares.

A. Responsibility for Adequacy of Streets and Thoroughfares. The property owner shall assure that the subdivision is served by adequate streets and thoroughfares, and shall be responsible for the costs of rights-of-way and street improvements, in accordance with the following policies and standards, and subject to the city's cost participation policies on oversized facilities. Additional right-of-way may be required at some street intersections to accommodate utilities, sidewalks, traffic control devices and/or sight distances.

B. General Adequacy Policy. Every subdivision shall be served by improved streets and thoroughfares adequate to accommodate the vehicular, bicycle and pedestrian traffic to be generated by the development. Adequacy as it relates to public improvements including roadways is attained by complying with the requirements and standards of this title, the SDM and all related city ordinances. Proposed streets shall provide a safe, convenient and functional system for traffic circulation; shall be related to the city's thoroughfare plan, road classification system, comprehensive plan and any amendments thereto; and shall be appropriate for the particular traffic characteristics of each development.

C. Road Network. New subdivisions shall be supported by a road network having adequate capacity, ingress/egress, safe and efficient traffic circulation and roadway network connectivity. The adequacy of the road network for developments that meet the requirements of Section 19.18.010(B), traffic impact studies (TIA), shall be demonstrated by preparation and submission, prior to or along with land study or the preliminary plat application, of a traffic impact analysis prepared in accordance with Chapter 19.18 (Traffic Impact Analysis). The study shall address accommodating traffic generated by the development, land to be developed in common ownership and other developed property.

1. In the event the property to be developed is intended as a phase in a larger development project, or constitutes a portion of the land to be ultimately developed, the city manager, or designee may require a demonstration of adequacy pursuant to this article for additional phases or portions of the property as a condition of approval for the proposed preliminary plat.

D. Major and minor arterials, collectors and other thoroughfares appearing on the city's adopted bike plan shall have bicycle facilities installed in accordance with the Street Design Manual. For major and minor arterials, collectors and other thoroughfares not appearing on the city's adopted bike plan, bicycle facilities may be constructed on one side or both sides of the street.

E. Traffic Calming. Traffic calming may be provided by the developer or may be required in

accordance with the adopted Neighborhood Management Policy and in accordance with the SDM by the city manager or designee.
(Ord. 16882 § 2 (part), 2008; Ord. No. 19327, § 19, 4-26-2022)

19.15.020 Subdivider responsibility.

A. Safety, Convenience, Functionality. Proposed roads serving new development shall provide a safe, convenient and functional system for vehicular, bicycle and pedestrian circulation and shall conform to the applicable master thoroughfare plan and any amendments thereto, and shall be appropriate for the particular traffic characteristics of each proposed subdivision or development. New developments shall be supported by a thoroughfare network having adequate capacity, and safe and efficient traffic circulation as determined by staff and/or a traffic impact analysis.

B. Streets, Generally. All streets, including curb and gutter improvements, sidewalks, and required infrastructure shall be provided by and at the expense of the subdivider, subject to the rough proportionality provisions of this title. The subdivider shall dedicate all rights-of-way in accordance with subsection C of this section. The subdivider shall install streets at all locations and in accordance with all standards required by this title.

1. The subdivider shall pay the cost of all such improvements, except as follows:

a. Arterial Streets and Collectors Within Subdivision Boundaries. If the right-of-way for any arterial or collector street lies entirely within the boundaries of any subdivision or portion thereof, the city shall have the option of designing the arterial or collector and/or of being responsible for awarding the contract for construction of required improvements, or allowing the subdivider to arrange for the construction of such arterial provided developer/city participation is in accordance with state bidding statutes. The subdivider shall deposit his share of construction costs with the city prior to award of the contract. The subdivider's share shall include the cost of pavement, curb and gutter, and sidewalks for a street thirty-six feet wide or the roughly proportional share as determined by a TIA.

b. Arterial and Collector Streets Bordering Subdivision Boundaries. If the right-of-way of any arterial or collector street forms part of the subdivision boundary, the subdivider shall dedicate the right-of-way and either improve the street in conformance with this title and Section 19.10.050 or contribute to the city an amount of money equal to that necessary to improve the street in conformance with this title and Section 19.10.050. All money received from subdividers for improving boundary streets shall be deposited in an appropriate fund(s) of the city. When the city council resolves to design and improve a bounding arterial or collector street to standards appropriate to its use, then the assessment fund or similar funds shall be utilized in payment of necessary construction costs.

c. Improving State or Federally Owned Right-of-Way. If the right-of-way for any thoroughfare owned by the state or federal government lies within or adjacent to the subdivision, the subdivider shall not be required to pave any portion of it. The subdivider shall, however, arrange to construct or contribute to the city an amount of money equal to that necessary to furnish curb and gutter and sidewalk improvements to any state- or federally-owned arterial lying within or adjacent to the subdivision, if adequate improvements do not already exist but are determined to be necessary within the next ten years and are not funded by others. The developer may also be required, based on the TIA, to contribute their rough proportional share of additional frontage road lanes, acceleration or deceleration lanes or bus turnouts. Funds shall be deposited and disposed of in a fashion similar to that described in the preceding paragraph (1)(b) of this subsection, concerning improvements to arterial streets bordering subdivision boundaries.

2. Existing Boundary Streets for Small Subdivisions. If the right-of-way of an existing street forms part of the boundary for a subdivision meet-

ing all of the following conditions, the subdivider shall have the option to make the contribution to the city for the cost of required street improvements, as determined by the city manager or designee.

3. Alleys. Where provided, alleys shall be installed and improved in accordance with all standards required by this title and the SDM. Alleys shall be provided by and at the expense of the subdivider. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009; Ord. No. 17251, § 9, 12-15-2009; Ord. No. 19327, § 20, 4-26-2022)

19.15.030 Street/thoroughfare escrow policies and procedures.

A. Request for escrow. Whenever this title requires a property owner to construct a street or thoroughfare, or other type of public improvement, the property owner may petition the city manager or designee to construct the improvement at a later time, in exchange for deposit of escrow as established in subsection B below, if unusual circumstances exist, such as a timing issue due to pending improvements by another agency such as TXDOT or the County of El Paso, that would present undue hardships demonstrated in the petition or that would impede public infrastructure coordination or timing. If more than one street or thoroughfare must be constructed in order to meet adequacy requirements for roadways, the city manager, or designee may prioritize roadways for which escrow is to be accepted and require the deposit of all funds attributable to the development in escrow accounts for one or more of the affected roadways. The city manager, or designee, shall review the particular circumstances involved and may require a traffic impact analysis with both roadway and traffic mitigation recommendations. The city manager, or designee, shall determine whether or not provision of escrow deposits will be acceptable in lieu of the property owner's obligation to construct the street or thoroughfare.

B. Escrow deposit with the city. Whenever the city manager or designee agrees to accept escrow deposits in lieu of construction by the property owner/developer, the property owner/developer shall deposit in escrow with the city an amount equal to the property owner's/developer's share of the costs of design, construction, permits, reviews and approvals, inspections, and any additional land acquisition, will be used to ensure that the actual "future dollar" costs will be covered when actual construction occurs in the future. This amount shall be reviewed and approved by the CPC upon recommendation by the city manager or designee, and shall be paid prior to recording of the final plat. The obligations and responsibilities of the property owner/developer shall become those of the property owner's transferees, successors and assigns; and the liability therefore shall be joint and several.

1. Determination of escrow amount. The amount of the escrow shall be determined by using comparable "turnkey" costs for construction of the improvements (including design, permits, reviews and approvals, inspections and any additional land acquisition that may be needed). The determination of the escrow amount shall be made as of the time the escrow is due hereunder, and shall be subject to the review and approval of the city manager or designee.

2. Termination of escrow. Escrows, or portions of escrowed amounts, which have been placed with the city under this chapter and which have been held for a period of five years from the date of such payment or agreement, in the event that the city has not committed or encumbered the funds, approved a contract or authorized the preparation of plans and specifications for construction of such roadway facilities for which the escrow was made, shall, upon written request, be returned to the original property owner/developer. Such return does not remove any obligations of the property owner/developer for construction of the required facilities if a building permit has not been issued on the subject lot(s) or if application for a new building permit(s) is made.

3. Refund. If any street or highway for which escrow is deposited is constructed by a party other

than the city, or is reconstructed by another governmental authority at no cost to the city, the escrowed funds shall be refunded to the property owner/developer that deposited funds into escrow after completion and acceptance of the public improvements. In the event that a portion of the cost is borne by the city and the other portion of the cost by another party or governmental authority, the difference between the property owner's actual proportionate cost and the escrowed funds, shall be refunded after completion and acceptance of the improvements. (Ord. 16882 § 2 (part), 2008) (Ord. No. 17236, § 27, 11-10-2009; Ord. No. 18056, § 13, 8-6-2013)

19.15.040 Public right-of-way, alley, or public easement vacation.

A. Public easements. The vacation of public easements shall be achieved by a Replat, a Vacation Plat, or a separate instrument. If such was originally dedicated to the City by a Plat, then a Replat or a Vacation Plat may be required for vacation. If such was dedicated by a separate instrument, then a Replat or Vacation Plat shall not be required, but such vacation shall be accomplished by separate instrument in accordance with the terms and conditions specified under the dedicatory instrument. Vacation of a temporary drainage easement, drainage area or other temporary dedication of land to the City shall be in accordance with the dedicatory language contained in the dedicatory instrument.

B. Alleys and public rights-of-way. A property owner whose property abuts an alley or right-of-way located within the corporate limits, may apply to the city for a vacation, in whole or in part, of the abutting alley or right-of-way. If no improvements have been made to the alley or right-of-way, such vacation may be obtained either by following the process for vacation of a recorded subdivision or resubdivision as described in Section 19.07 of this title or by complying with the requirements of this Section. If improvements have been made to the alley or right-of-way, such vacation may be obtained only by complying with the requirements of this Section.

C. Application required. An application for vacation of public easements, alleys and rights-of-way, a copy of which is on file with the office of the planning official, accompanied with the following submittal requirements shall be submitted to the city manager or designee:

1. A nonrefundable processing fee as approved by city council.

2. The written concurrence of all persons who own property abutting the public easement or right-of-way proposed to be vacated.

3. Copies of recorded deeds showing current ownership of all properties abutting the public easement or right-of-way proposed to be vacated.

4. Eighteen copies of a survey of the area requested for vacation, showing all abutting property boundaries, improvements (noting whether such improvements are to be removed or are to remain), drainage structures, dimensions and other easements or rights-of-way contained on the property. Such survey shall be prepared by a surveyor (must be sealed) and must contain the following information:

a. Illustrate the existing and proposed drainage patterns, conditions, and what will be modified. Provide drainage easement(s) for any existing active underground drainage pipe and drop inlet(s) located within the property, also for surface drainage flow of storm water crossing the subject property.

b. Provide flood zone designation and illustrate flood zone encroachments, if applicable.

c. A metes and bounds description of the property to be vacated and calculations showing the area in square feet.

d. A location map at a scale of one inch equals six hundred feet which provides identification of the proposed vacation in relation to features such as local streets, arterial streets, schools and other features, on a separate 8½ × 11 sheet.

e. One copy of the subdivision plat or instrument by which the public easement or right-of-way was dedicated, showing the recording information.

D. Review for application completeness. The city manager or designee, shall, upon receipt of an application for vacation of public easements, alleys and rights-of-way, review the application to determine whether or not the application meets all of the requirements for submittal required above. An application not meeting all of the submission requirements shall be returned to the property owner within five working days following the date of acceptance for review of application completeness, indicating the information which is lacking on the application. For purposes of this procedure, the date of acceptance of an application for review of application completeness shall not be counted as the first day of the five working day review period. If an application accepted for review of application completeness is not returned to the property owner within the five working day review period, the application shall be deemed accepted.

E. Procedure and notice.

1. Procedure.

a. Upon acceptance of an application for vacation of public easements, alleys and rights-of-way, the city manager or designee shall distribute the application to affected departments. Written comments and recommendations on the application shall be submitted to the city manager or designee within one week from the date of distribution. All objections to the application shall be submitted in writing. Comments and recommendations not submitted or received within the specified time period shall result in comments not being considered by the city manager or designee, and shall require that the affected member's late comments and recommendations be made directly to the city plan commission.

b. The city manager or designee shall present the application to the city plan commission with a recommendation of approval, approval with modifications or disapproval, subject to any written comments and recommendations.

c. The city manager or designee shall compile a report of the written comments and recommendations of city staff, which shall be submitted to the city plan commission. A copy of this report shall be provided to the property owners making the application at least three working days prior to the commission hearing.

d. Upon a favorable recommendation from the city plan commission on the application to vacate a public easement, the city manager or designee shall forward the information to the city attorney for preparation of the vacation ordinance. The city manager or designee shall forward the ordinance to the city council for approval.

e. Upon a favorable recommendation from the city plan commission on the vacation of alleys and rights-of-way, the city manager or designee shall forward the information to the city attorney for preparation of the vacation ordinance and for securing the necessary appraisal or alternate method to establish market value.

f. Upon completion of establishing the market value of the alley or rights-of-way, the city manager or designee shall forward the ordinance to the city council for approval.

2. Public hearing notice.

a. Public easement vacations. Notice to property owners regarding the city plan commission and the city council hearings shall not be required when the application is for vacation of public easement.

b. Alley and public right-of-way vacations. Notice for city plan commission and city council hearing shall be mailed by the city manager or designee to all property owners:

(a) Abutting an alley or public right-of-way proposed to be vacated;

(b) Within the block contiguous to the alley or public right-of-way proposed to be vacated; and

(c) Within a two hundred foot radius of the alley or public right-of-way proposed to be vacated.

Notice shall be given at least ten days prior to the public hearing. Property ownership shall be determined by reviewing the last approved ad valorem tax roll of the city available. In addition, the city manager or designee shall place a legal notice

in a newspaper of general circulation in the city or as otherwise provided by state law regarding information of the public hearing before the city plan commission on the public right-of-way proposed to be vacated. Notice shall appear in the newspaper ten days prior to the public hearing date.

F. Appeal of city plan commission denial. No vacation ordinance shall be prepared or submitted to the city council where the city plan commission recommends disapproval of an application for vacation of a public easement, alley or right-of-way. The applicant may, in writing, request an appeal to city council by placing an item on the agenda at a regularly scheduled city council meeting. The appeal must be made within fifteen days of the denial by the city plan commission in the office of the city clerk. The city council may deny the appeal or may direct the preparation of the vacation ordinance.

G. Appraisal required for vacation of an alley or public right-of-way.

1. General. Where required by state law, an appraisal shall be made for an application for vacation of an alley or public right-of-way. The applicant shall pay for all appraisal fees incurred by the city. The appraisal shall be requested to determine the market value of the city's interest in the alley or public right-of-way. The cost of the appraisal will be reimbursed to the city by the applicant whether or not the application is finally approved by the city council. The applicant shall submit a check payable to the city for all appraisal fees before the application is forwarded to the city council for finalization.

No appraisal shall be required for an application for vacation of a public easement. In all cases, the market value of the city interest in a public easement to be vacated shall be the equivalent value of twenty-five dollars.

2. Date of valuation. The date for establishing the market value of the alley or public right-of-way proposed to be vacated shall be the date the application is accepted by the city manager or designee.

3. Case of Disputed Value. If the first appraisal obtained by the city is disputed by the applicant, the applicant shall obtain a second independent appraisal at the applicant's expense. The city must agree on the qualification of the second independent appraiser before the appraisal is requested by the applicant. If the city attorney determines that there is a substantial difference between the two appraisals, the city will contact a third independent appraiser to perform a review appraisal, the cost of which shall be paid by the applicant. The city council shall then make a final determination of market value which shall be binding on all parties.

H. Fees to be paid by applicant.

1. Application Fee. Before the city council authorizes the vacation of all or part of a public easement, alley or right-of-way, the applicant shall pay a nonrefundable application fee as established by city council.

2. Vacation Fee for Alley or Public Right-of-Way. In addition to the application fee, the applicant shall pay the following:

a. The cost of the appraisal; and

b. The appraised market value of the city's interest in the alley or public right-of-way.

3. Publication Costs. The city shall bear the costs for publishing notices related to the application to vacate public easements, alleys and rights-of-way, when it is presented before the city council for finalization.

I. Resubmission of a vacation application. No application for vacation of a public easement, alley or right-of-way, shall be resubmitted within a twelve-month period from the date of final action by the city plan commission or the city council, whichever action occurs last.

J. Quit Claim Deed. A Quit Claim deed that eliminates any and all future claim for city responsibility for the vacated right-of-way, alley, or easement may be required by the city council as part of the approval of the document (i.e., Plat or separate instrument) that achieves the vacation. (Ord. 16882 § 2(part), 2008)

(Ord. No. 17251, § 9, 12-15-2009; Ord. No. 17396, § 12, 8-24-2010; Ord. No. 17738, § 2, 3-6-2012)

19.15.050 General requirements.

A. Approach roads and access shall comply with the SDM.

B. Roadway network connectivity shall comply with the SDM.

C. Off-site improvements shall comply with the SDM.

D. Street right-of-way dedication shall comply with the SDM.

E. Street construction shall comply with the SDM.

F. Intersection improvements and traffic control devices shall comply with the SDM.

G. Private streets shall comply the SDM.

H. Access Management. Roadway access management standards and requirements related to TXDOT roadways and city roadways shall be in accordance with the SDM.

I. Exceptions to these requirements shall comply with the SDM. The Street Design Manual allows for flexibility in street design in cases where the proposed subdivision is constrained by topographic features, existing development, or other impassable features, as determined by the city manager or designee. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17765, § 2, 4-3-2012; Ord. No. 19327, § 21, 4-26-2022)

19.15.060 Street standards.

A. SDM Standards Met. In addition to the requirements of the City of El Paso Street Design Manual (SDM), the requirements of the street standards in this chapter shall be met.

B. Projections and Related Requirements. Where adjoining un-subdivided areas exist, the subdivision street arrangement shall make provision for projection of streets into such areas. Dead-end streets shall otherwise be prohibited, except where projections into un-subdivided land are necessary or where turnarounds are provided in accordance with the SDM. Private streets shall not be allowed to project beyond the subdivision boundary, and therefore shall not be allowed to dead-end at the subdivision boundary.

C. Transitions of right-of-way width shall comply with Street Design Manual.

D. Lots accessing arterial streets shall comply with Street Design Manual.

E. Right-of-Way Widths. Street right-of-way widths shall be as shown in the SDM

F. Construction of Streets. All streets shall be constructed in accordance with paving widths and specifications as set forth in the SDM of the City of El Paso at the time at which any required application is officially submitted and deemed a complete application, in accordance with the vesting provisions of this title.

1. Intersections of major and minor arterials shall be constructed with concrete in accordance with the SDM, unless a specific exception is granted by the CPC and upon the affirmative recommendation of the city engineer or other designee of the city manager.

2. All other streets may be constructed with asphalt in accordance with the SDM.

G. Street Grades and Horizontal Curves. Minimum and maximum street grades and horizontal curves will conform to standards set forth in the SDM and the American Association of State Highway and Transportation Officials (AASHTO).

H. Street Signs. Street signs shall be installed by the developer at all intersections within and abutting the subdivision. These signs shall be of a type approved by the city, and shall be installed according to city standards and in conformance with the Texas Manual on Uniform Traffic Control Devices.

I. Streetlights. Streetlights shall be installed in accordance with the SDM.

J. Screening Along Roadways. Screening requirements for roadways shall be in accordance with the zoning districts and requirements outlined in the zoning ordinance.

K. Pedestrian Connectivity. Pedestrian connectivity and access shall be provided between subdivisions, schools (where access is allowed by the school district), cul-de-sac (i.e., bulb-to-bulb access) and park and open space areas. In cases where a subdivision is constructed in a location

that is adjacent to another subdivision, pedestrian access shall be provided such that adjacent development can connect to such access at a later date, when development occurs. Gated subdivisions, subdivisions with severe topography problems or subdivisions where such connectivity may interfere with arroyo or sensitive environmental protection may be exempt from this requirement upon approval by the city plan commission.

L. Conformance with the Comprehensive Plan. Streets and the layout of streets shall be consistent with the adopted comprehensive plan, and specifically the adopted Major Thoroughfare Plan.

M. Reserve Strips. Reserve strips controlling access to streets shall be prohibited except where their control is required by the city and approved by the city plan commission.

(Ord. 16882 § 2 (part), 2008; Ord. No. 17257, § 1, 12-22-2009; Ord. No. 17571, § 1, 5-24-2011; Ord. No. 17811, § 3, 6-5-2012, eff. 6-11-2012; Ord. No. 19327, § 22, 4-26-2022)

19.15.070 Intersections, half-streets.

Street intersections and half streets shall comply with the SDM.

(Ord. 16882 § 2 (part), 2008; Ord. No. 19327, § 23, 4-26-2022)

19.15.080 Street length.

The length of any block or street segment shall comply with the SDM.

(Ord. 16882 § 2 (part), 2008; Ord. No. 17571, § 2, 5-24-2011; Ord. No. 19327, § 24, 4-26-2022)

19.15.090 Cul-de-sac streets.

Cul-de-sac streets shall comply with the SDM.

(Ord. 16882 § 2 (part), 2008; Ord. No. 17257, § 1, 12-22-2009; Ord. No. 17570, § 3, 5-24-2011; Ord. No. 19327, § 25, 4-26-2022)

19.15.100 Dead-end streets.

Dead-end streets shall comply with the SDM.

(Ord. 16882 § 2 (part), 2008; Ord. No. 19327, § 26, 4-26-2022)

19.15.110 Street width and design.

Pavement widths and designs of right of way shall comply with the City of El Paso Street Design Manual.

(Ord. 16882 § 2 (part), 2008; Ord. No. 17257, § 1, 12-22-2009; Ord. No. 17270, § 1, 1-26-2010; Ord. No. 17570, § 1, 5-24-2011; Ord. No. 19327, § 27, 4-26-2022)

19.15.120 Street offsets.

Street offsets shall comply with the SDM.

(Ord. 16882 § 2 (part), 2008; Ord. No. 19327, § 28, 4-26-2022)

19.15.130 Curbs and gutters.

Curbs and Gutters. Curbs and gutters shall be installed according to the provisions of this chapter and to the SDM. Combination curb and gutter improvements shall be provided to mark the edge of pavement and carry off surface water, as set forth below:

A. Beside Freeways. The subdivider shall be required to install curbs along the outside lanes in rights-of-way designated for freeways, as per the TXDOT approval or construction plans.

B. Beside Arterial and Collector Streets. The subdivider shall install curbs on both sides of all arterial and collector streets within the subdivision, and on one side of all such streets at the subdivision boundary.

C. Beside Local Streets. The subdivider shall install curbs on both sides of all local streets within the subdivision and at subdivision boundaries, except for existing boundary streets, in which case curb and gutter installation shall be required on the subdivision side only.

D. At Street Intersections. The minimum curvature of curbs at street intersections shall be as prescribed in the SDM and shall maintain proper stopping sight distance as determined by the latest edition of AASHTO's "A policy on Geometric Design of Highways and Streets."

(Ord. 16882 § 2 (part), 2008; Ord. No. 19327, § 29, 4-26-2022)

19.15.140 Street names and addresses.

Street names and addresses shall comply with the SDM.

(Ord. 16882 § 2 (part), 2008; Ord. No. 17396, § 13, 8-24-2010; Ord. No. 19327, § 30, 4-26-2022)

19.15.150 Private streets.

A. Permitted Only as Local Street. Private streets shall require approval as an exception at the time of preliminary plat approval by the city plan commission in accordance with this title. No streets or thoroughfares shown on the adopted thoroughfare plan may be a nonpublic street. Construction and development of private streets shall meet the standards for right-of-way width and improvement as set forth in this chapter as applied to public streets.

B. Classification. At the time a private street is proposed, it shall be classified as either a local or sub-collector street, as described herein and made to conform in all respects with right-of-way paving, curb and gutter, construction, and design requirements as applicable to a public street.

C. Subdivision Boundary Streets. New subdivision boundary streets shall not be private.

D. Private Streets, General. In order to be considered for an exception to allow the construction of private streets, the developer shall meet the requirements set out in this section.

1. Construction: All private streets shall be designed, constructed, and maintained to meet city standards. The construction and improvement plans shall be reviewed by the city in the same manner as construction and improvement plans for public infrastructure. The city shall not participate in any portion of the cost of constructing a private street.

2. Inspection During Construction: All private streets shall be subject to inspections by city staff in the same manner, at the same intervals, as public streets, including the payment of applicable inspection fees. A construction schedule shall be submitted with the construction and improvement plans in order to assist in scheduling the inspections. Failure to pass an inspection and meet city construction standards shall require re-inspection, and re-construction, as necessary. No certificates of occupancy shall be released for structures along a private street until all inspections shall have been completed satisfactorily.

3. Traffic Control Devices: All private traffic control devices and regulatory signs shall conform to the "Texas Manual of Uniform Traffic Control Devices", as amended, and to city standards.

4. Restricted Access: The subdivision homeowners association shall clearly mark entrances to all private streets with a sign, in accordance with the DSC, placed in a prominent and visible location, indicating that the streets within the subdivision are private, and not maintained nor regularly patrolled by the city. All restricted access entrances shall be manned twenty-four (24) hours every day, or they shall provide a reliable, alternative means of ensuring access into the subdivision by the City, by emergency service providers, and by other utility or public service providers, such as postal carriers and utility companies, with appropriate identification. The method used to ensure city and emergency access into the subdivision shall be approved by the city's fire department and by any other applicable emergency service providers during the final platting process. Gates on private streets shall provide a traffic queue analysis and provide adequate on-street storage in advance of the gate. If the homeowners association fails to maintain reliable access as required by city codes, the city may enter the private street subdivision and remove any gate or device which is a barrier to access, and bill the expense to the association. If the bill is not paid, the city may file a lien for the expense against any property owned by the association.

5. Waiver of Services: Certain city services may not be provided for private street subdivisions, including street maintenance, routine law enforcement patrols, enforcement of traffic and parking regulations, preparation of accident reports, and payment of costs for street lighting. A note as to waiver of services may be required on the face of the plat.

6. Street Lighting: Street lighting as required by this title shall be entirely at the expense of the developer and subsequent property owners. Decorative poles or alternative spacing may be approved by the city manager or designee, following a recommendation by the DSC, who shall make such recommendation based on the lighting type, the lumens necessary to effectuate safe traffic and pedestrian travel, and a finding that the proposed lighting plan provides as well or better for the health, safety and welfare of the future residents of the private street subdivisions.

7. Maintenance: The developer shall provide for the establishment of a homeowners or property owners association, in covenants, conditions, and restrictions (CCRs), to assume the obligation of perpetual maintenance of private streets and other improvements held privately, including a mandatory assessment for such private streets and improvements to be placed on all property owners within the subdivision, allowance for city staff to inspect the streets to assure they are being maintained to city standards, hold harmless provisions as required in subsection 9, and providing for notice to the city attorney and city manager of any amendments to these relevant sections. The city shall be a necessary party for the amendment of any portions of the CCRs dealing with these requirements. The proposed CCRs shall be submitted for review by the city attorney at the time of filing the preliminary plat. The city attorney shall review the CCRs to ensure that the requirements of this section are met, and shall submit recommended changes to the developer, who shall incorporate such changes. Absence of city attorney approval of the CCRs shall require the denial of the exception for private streets.

8. Petition to Convert to Public Streets: A property owners association may petition the city to accept private streets and any associated property as public streets and right-of-way upon written notice to all association members, and the favorable vote of a majority of the membership, or as required in the CCRs. A dedication instrument shall also be submitted, and shall be reviewed and the final form approved by the city attorney prior to submission of this request to city council.

The city shall not be required to accept any private streets for public dedication and maintenance. The staff shall review the request and make a recommendation to CPC, who shall forward a recommendation to city council. City council shall make their decision based on the public health, safety and welfare considerations of the streets. As a condition of accepting the dedication and maintenance of private streets, the city may impose a requirement for repairs and improvements at private expense prior to acceptance, enter into an agreement for an assessment or pro-rata sharing of costs for repairs or improvements prior to acceptance, or other legal or equitable options to ensure that the streets being accepted are not a liability to the city. The city shall be the sole judge of the nature and extent of repairs or improvements needed. The city may also require, at the sole expense of the association's or property owner's expense, the removal of any guard houses, access control devices, landscaping or other amenities located within the streets or common areas prior to city acceptance.

9. Hold Harmless: The property owners association, as owner of the private streets and appurtenances, shall release, indemnify, defend and hold harmless the city, any other governmental entity, and any public utility entity for damages to the private streets that may be occasioned by the reasonable use of the private streets by same, and for damages and injury (including death) arising from the condition of the private streets, out of any use of access gates or cross arms, or out of any use of the subdivision by the city or governmental or utility entity.

(Ord. 16882 § 2(part), 2008; Ord. No. 17236, § 13, 11-10-2009)

19.15.160 Alleys.

Alleys shall comply with the SDM.

(Ord. 16882 § 2 (part), 2008; Ord. No. 19327, § 31, 4-26-2022)

Chapter 19.16

STREETLIGHTING*

Sections:

19.16.010 Streetlighting.

19.16.020 Custom lighting.

19.16.010 Streetlighting.

Streetlighting shall comply with SDM Chapter 7.

(Ord. 16882 § 2 (part), 2008; Ord. No. 17236, § 6, 11-10-2009; Ord. No. 19327, § 32, 4-26-2022)

19.16.020 Custom lighting.

A. The subdivider may elect to provide custom lighting in lieu of the required standard streetlighting, subject to the approval of such lighting by the city manager or designee. Custom lighting shall be furnished and installed to meet the approved standards of Title 18 of this city code and the SDM.

B. Where custom lighting is approved within the street right-of-way, the city or county shall be liable for the costs of electrical energy of the custom lighting provided that the following conditions are met:

1. A separate rate can be charged to the city by the electric utility for the custom lighting proposed; and

2. The total rate charged to the city is equal to or less than the rate for electrical energy for standard streetlighting.

C. If a subdivider elects to provide and install custom lighting, a public improvement district (or other such private entity) shall be created which will be perpetually liable for all costs associated with the maintenance of the lighting fixtures. Where the city is not liable for the costs of electrical energy from the custom lighting as provided in this subsection, the public improvement district shall also be liable for the electrical energy costs of the custom lighting.

D. An agreement between the city and the public improvement district shall be required which makes adequate provision to indemnify and hold the city harmless from any claims which may arise from the custom lighting, whether within or outside of the public right-of-way. The agreement shall provide that the city may require that any or all of the installed custom lights be removed, at the public improvement district expense, when a finding is made by the city council or county commissioners' court based on a recommendation of the city engineer or other designee of the city manager or county engineer that the custom lighting creates a nuisance or is unsafe. Upon such a finding, standard streetlighting pursuant to this chapter shall be required to be furnished and installed to replace the custom lighting.

E. The city shall reserve the right to review and approve all such provisions of the agreement. The agreement shall accompany the subdivision improvement plan submission. Restrictive covenants which include the provisions for continuous lighting and perpetual maintenance of the custom streetlights shall be recorded by the subdivider concurrently with the subdivision.

F. Where custom lighting is provided, the subdivider or public improvement district shall notify the electric utility before any work is commenced at any streetlight location.

G. Custom streetlighting placed within the public right-of-way shall meet the lumen level required in the DSC and provide roadway coverage meeting or exceeding that provided by standard streetlighting. Lighting outside the right-of-way shall meet the lumen level and coverage requirements of the DSC.

***Editor's note**—Ord. No. 19327, § 33, adopted April 26, 2022, amended Ch. 19.17 in its entirety, in effect repealing and replacing said chapter to read as herein set out. Former Ch. 19.17, §§ 19.17.010, 19.17.020, pertained to similar subject matter and derived from Ord. 16882 § 2 (part), adopted in 2008.

Chapter 19.18

TRAFFIC IMPACT ANALYSIS

Sections:

19.18.010 Purpose and applicability.

19.18.020 Standards for and timing of traffic impact analysis.

19.18.030 Criteria for determining traffic impact analysis requirements.

19.18.040 City evaluation and action.

19.18.010 Purpose and applicability.

A. Purposes and findings.

1. New development must be served and supported by an adequate network of streets and thoroughfares.

2. Streets and thoroughfares are an essential component of the city's street network and are necessary to accommodate the continuing growth and development of the city.

3. It is necessary and desirable to obtain rights-of-way for off-site, abutting and internal thoroughfares to support new development at the time of platting, rezoning or development of the land.

4. The purpose of the provisions within this chapter are to ensure that both development impacts on off-site and on-site thoroughfare rights-of-way are mitigated through contributions and/or improvements of thoroughfare rights-of-way and that new development does not contribute more than their proportionate share of costs or construction of thoroughfare rights-of-way and only contribute that which is necessary and attributable to their development.

5. It is the city's intent to assure that dedication of thoroughfare and street rights-of-way and their construction requirements are proportional to the traffic demands created by a new development.

6. It is the intent of the city that a road adequacy determination be made concurrent with consideration and approval of rezoning applications and development applications.

B. Applicability.

1. A traffic impact analysis (TIA), in adherence to standards contained within this title and City of El Paso approved guidelines, shall be required under the following criteria:

a. For all proposed developments within the city limits and within the city's extraterritorial jurisdiction where the development is expected to generate traffic in excess of one thousand average daily trips.

b. If a development project will generate more than one hundred peak hour trips.

2. The number of trips generated by the proposed development shall be based on land uses and intensities according to the latest edition of the Institute of Transportation Engineers (ITE) Trip Generation Manual or locally approved trip generation rates. The daily trip generation rate shall be computed based upon the maximum land use intensity allowed under the proposed new zoning.

3. Exceptions. An applicant may request that the city manager or designee waive the requirement for a TIA. The requirement for a TIA may be waived under the following criteria:

a. The city manager or designee determine that a TIA is not needed due to traffic analysis or traffic studies already completed; or

b. Improvements are already, constructed that will serve and support the new development; or

4. An applicant may request to the city manager or designee that the submittal of the traffic impact analysis be deferred to the subdivision stage of the development; the request shall be approved provided that the following requirements are met:

a. The property proposed for rezoning has not yet been platted; and

b. The proposed development generates less than five hundred peak hour trips.

5. Alternative method of calculating traffic impact.

a. In lieu of a traffic impact analysis, the developer or applicant may request that the city

accept an alternative method of calculating the impact that the new development will have on traffic and thoroughfare rights-of-way.

b. Factors to consider in determining whether to accept an alternate method of calculating the traffic impact are:

(1) The proposed development generates less than five hundred peak hour trips; and

(2) The existing roadway segments within ½-mile radius level of service is an A, B, C, or D, based on the latest version of the Highway Capacity Manual; and

(3) Existing intersections within ½-mile radius level of service is an A, B, C, or D based on the latest version of the Highway Capacity Manual; and

(4) There are no existing safety problems (sight distance, high crash incidence rate, etc.)

(5) Whether the data used in the calculation is no older than one year.

c. Upon review and analysis of the data and information provided by the applicant or developer, the city manager or designee may accept the calculation and base any mitigation required or proportionate share or contribution on the calculations submitted by the developer. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009; Ord. No. 17251, § 10, 12-15-2009; Ord. No. 17739, § 1, 3-6-2012; Ord. No. 18649, §§ 1, 2, 3-21-2017)

19.18.020 Standards for and timing of traffic impact analysis.

A. TIA and Update Required. A TIA shall be submitted with a zoning application, a preliminary plat or with the land study. If previously submitted, an updated TIA shall also be submitted with the final plat if substantial changes have been made from the preliminary plat, and shall be generally consistent with the TIA submitted with the preliminary plat. The initial TIA may also be updated whenever the plan for the proposed development is modified to authorize more intensive development.

B. Contents.

1. The TIA on a land study (or preliminary plat or zoning application if no land study is provided) shall identify or determine the following:

a. Trips to be generated by the proposed development trip generation shall be calculated using the latest edition of ITE's Trip Generation Manual or trip generation rates approved by the City of El Paso;

b. Distribution and assignment of such trips to the road network analyzed;

c. The capacity of affected thoroughfares before and after the proposed development. Capacity shall be quantified by level-of-service based on the latest version of the Highway Capacity Manual. The volume to capacity ratio (v/c) shall be included in the level-of-service tables. The capacity analysis shall include the AM and PM peak hours, twenty-four-hour, and special times or days of the week dependant of the land use's peak traffic generating time periods as determined from the latest version of ITE's Trip Generation Manual. Additional factors such as pedestrian trips, bicycles, and mass transit as possibly mitigating vehicle trip counts shall be considered where warranted;

d. Deficient thoroughfares or roadways shall be determined based upon the minimum acceptable level-of-service as put forth in the following table:

Table 19.18-1. Required Minimum Acceptable Level-of-Service (Roadways)

		Level-of-Service Without Proposed Development					
		A	**B**	**C**	**D**	**E**	**F**
Proposed Developed Projected Level-of-Service	**A**	A	-	-	-	-	-
	B	B	B	-	-	-	-
	C	B	C	C	-	-	-
	D	B	C	C	[A]D	-	-
	E	B	C	C	[A]D	[AB]E	-
	F	B	C	C	[A]D	[AB]E	[AB]F

[A] The city may choose to participate in roadway improvements to restore a minimum level-of-service C.

[B] In cases where the level-of-service of the roadway network without development is below a level-of-service D the proposed develop-

ment shall not increase roadway intersection delay. The city manager or designee may deem that the proposed development cannot be supported by the existing roadway network.

e. The development project's proportionate share of the costs of such thoroughfares and modifications including rights-of-way.

2. The TIA on a preliminary plat and a zoning application (or building permit if not submitted previously, or final plat if no preliminary is provided) shall identify or determine the following:

a. Turning movements at intersections, access points and median breaks;

b. Analysis of median breaks, ingress and egress and all intersections, including a queue analysis, for both AM and PM peak hours and special times or days of the week dependant of the land use's peak traffic generating time periods as determined from the latest version of ITE's Trip Generation Manual;

c. The capacity of affected intersections before and after the proposed development shall be reported, based on the latest version of the Highway Capacity Manual, adjusted to reflect existing signal timing plans. The volume to capacity ratio (v/c) shall be included in the intersection level-of-service tables;

d. Deficient intersections and capacity. Deficient intersections shall be determined based upon the minimum acceptable level-of-service as put forth in the following table:

Table 19.18-2. Required Minimum Acceptable Level-of-Service (Intersections)

		Level-of-Service Without Proposed Development					
		A	**B**	**C**	**D**	**E**	**F**
Proposed Developed Projected Level-of-Service	**A**	A	-	-	-	-	-
	B	B	B	-	-	-	-
	C	B	C	C	-	-	-
	D	B	C	C	[A]D	-	-
	E	B	C	C	[A]D	[AB]E	-
	F	B	C	C	[A]D	[AB]E	[AB]F

[A] The city may choose to participate in roadway improvements to restore a minimum level-of-service C.

[B] In cases where the level-of-service of the roadway network without development is below a level-of-service D the proposed development shall not increase roadway intersection delay. The city manager or designee may deem that the proposed development cannot be supported by the existing roadway network.

e. Specific recommendations for thoroughfare, intersection, and roadway improvements and traffic control modifications and other traffic improvements to mitigate the traffic from the proposed development (any proposed signal timing must include the entire coordinated system not just intersections within the TIA study area);

f. The development project's proportionate share of the costs of such improvements and modifications including rights-of-way; and

g. Specific recommendations including but not limited to bus turnouts, auxiliary lanes, traffic calming, location of access points, location of median cuts, parking lot layout and site distance.

3. The method of preparing the TIA shall be as approved by the city traffic engineer.

C. Capital Improvements Plan For Roads. The capacity of a thoroughfare may be considered adequate for purposes of a TIA if a needed improvement is included, funded, and approved in the city's, county's or state's two-year capital improvements plan for roads, or, if the improvement is included, funded, and approved in the city's, county's or state's three- to five-year capital improvements plan for roads, provided that the applicant agrees to phase development to conform to such scheduled improvement. This chapter shall not be construed to prevent the city from requiring dedication of rights-of-way for such roads, or from assigning trips to such roads in a TIA in order to determine a development project's proportionate costs of improvements.

D. Use Intensity Table. Where a proposed plat application does not designate the land use or intensity of use proposed for the development, for purposes of ascertaining the applicability of this chapter and the trips to be generated, the city may utilize typical uses and intensities of use. For land to be developed for nonresidential or multiple-family use in the city's extraterritorial jurisdiction, the city may utilize uses and intensities of use that are typical in the most intensive zoning district that authorizes the type of use proposed in the

development. (Ord. 16882 § 2 (part), 2008) (Ord. No. 17739, § 2, 3-6-2012)

19.18.030 Criteria for determining traffic impact analysis requirements.

Scope. The scope of a traffic impact analysis is an analysis of the area surrounding the development that will be impacted by the development to determine the range of area that must be included in the TIA. The scope of the traffic impact analysis shall be based on the peak hour trips projected to be generated by the proposed development, as set forth in the following table. Additionally, a scoping meeting shall be coordinated with the city manager or designee in order to determine the study intersections within the scope of the TIA.

Table 19.18-3: Criteria for Determining Traffic Impact Analysis

Peak Hour Trips	TIA Analysis Period	TIA Scope
99 or less	1. n/a	Not Required
100—500	1. Existing 2. Opening year	The frontage of the property, all access points (including common access), and all intersections within a ½ mile radius of the proposed development.
	3. Full build-out year	
501—1,000	1. Existing	The frontage of the property, all access points (including common access), and all intersections within a 1 mile radius of the proposed development.
	2. Opening year	
	3. Full build-out year	
	4. 5 years after opening year	
1,000 or more	1. Existing	The frontage of the property, all access points (including common access), and all intersections within a 1½ mile radius of the proposed development.
	2. Opening year	
	3. Full build-out year	
	4. 5 years after opening year	
	5. 10 years after opening year	
		NOTE: All measurements shall be made from property boundaries.

(Ord. 16882 § 2 (part), 2008; Ord. No. 17739, § 1, 3-6-2012)

19.18.040 City evaluation and action.

A. Criteria.

1. The city manager or designee shall evaluate the adequacy of the TIA prepared by the applicant. Based upon such evaluation, the city manager, or designee shall make recommendations concerning:

a. Whether the application may be approved in the absence of dedication of rights-of-way or construction of improvements to each affected thoroughfare; and

b. The extent of the applicant's obligations to make such dedications or improvements.

2. The city manager, or designee may recommend, and the decision-maker on the application may attach, conditions to the approval of the development application, based on one or more of the following performances by the applicant:

a. Delay or phasing of development until thoroughfares with adequate capacity or intersection improvements are constructed;

b. A reduction in the density or intensity of the proposed development sufficient to assure that the road network has adequate capacity to accommodate the additional traffic to be generated by the development;

c. The dedication or construction of thoroughfares or traffic control improvements needed to mitigate the traffic impacts generated by the proposed development; or

d. Any combination of techniques that assures that the traffic impacts of the development will be mitigated.

B. Deferral of obligation. Upon request of the applicant or property owner, the obligation to dedicate or improve thoroughfare rights-of-way or to make intersection improvements imposed on a development application may be deferred until the city's action on a subordinate (i.e., subsequent) development application. As a condition of deferring the obligation to dedicate rights-of-way for or to improve thoroughfares, the deferral shall be at the sole discretion of the city. The city shall require the developer to execute a subdivision improvement agreement (see Section 19.08.020) acceptable to the city attorney specifying the amount and timing of the rights-of-way dedication or improvements to thoroughfares. (Ord. 16882 § 2 (part), 2008)

(Ord. No. 17739, § 1, 3-6-2012)

Chapter 19.19

STORMWATER MANAGEMENT REQUIREMENTS

Sections:

19.19.010 General provisions.

19.19.020 Stormwater requirements for compliance with subdivision approval.

19.19.030 Stormwater management plan requirements.

19.19.040 Stormwater management inspection and maintenance agreements for private facilities.

19.19.050 Construction inspections of stormwater management system.

19.19.010 General provisions.

A. Purpose and Intent. The purpose of this stormwater management section is to protect, maintain and enhance the public health, safety, environment and general welfare of the citizens of El Paso, Texas and the ETJ, by establishing minimum requirements and procedures to control the adverse effects of increased stormwater runoff and non-point source pollution associated with new development and redevelopment. It has been determined that proper management of stormwater runoff will minimize damage to public and private property and infrastructure, safeguard the public health, safety, environment and general welfare of the public, and protect water resources. The ordinance codified in this title seeks to meet that purpose through the following objectives:

1. Establish decision-making processes surrounding private and public land development activities that protect the integrity of the watershed and preserve the health of water resources;

2. Require that new development and redevelopment maintain the pre-development hydrologic response in their post-development state as nearly as practicable in order to reduce flooding, non-point source pollution and maintain the integrity of natural and man-made channels;

3. Establish minimum post-development stormwater management standards and design criteria to be adopted via a Drainage Design Manual (DDM) as part of the Street Design Manual (SDM);

4. Establish design and application criteria for the construction and use of structural stormwater control facilities that can be used to meet the minimum stormwater management standards thru the DDM;

5. Encourage the use of nonstructural stormwater management such as the preservation of greenspace and other conservation areas, to the maximum extent practicable. Coordinate site design plans, which include greenspace, with the city's master open space plan;

6. Establish provisions for the long-term responsibility for and maintenance of structural stormwater control facilities and nonstructural stormwater management practices to ensure that they continue to function as designed, are maintained, and pose no threat to public safety;

7. Establish administrative procedures for the submission, review, and approval of stormwater management plans, and for the inspection of approved active projects, and their continued maintenance.

B. Applicability. This chapter shall be applicable to subdivision development. The DDM standards shall apply to all development.

C. Exemptions. The following activities are exempt from this chapter:

1. Individual single-family or duplex residential lots that are not part of a subdivision or phased development project;

2. Additions or modifications to existing single-family or duplex residential structures;

3. Agricultural activities within areas zoned for these activities and/or where agricultural activities are legally allowed;

4. Repairs to any stormwater management facility deemed necessary by the city manager (or designee); and

5. Subdivisions whose sole means of stormwater management is by individual lot, on-

site retention ponds, shall be exempt from the requirement for an inspection and maintenance agreement.

D. Designation and Role of Floodplain Administrator. The city manager or designee who is a professional engineer licensed in the State of Texas, is authorized and appointed to administer and implement the provisions of this chapter and related chapters of this title, as may be applicable.

E. Drainage Design Manual. The city will utilize, apply, and enforce design standards, methods, criteria, and administrative policies and procedures provided in the latest technical edition of the DDM incorporated by reference in its entirety. The DDM may be updated and periodically expanded as required.

F. Preservation of Natural Arroyos. If being used as part of stormwater management for the development, Arroyos shall be preserved in their natural state, except that an exception of such requirement may be granted by the city plan commission provided such exception both meets the requirements of Chapter 19.48 and is necessary to protect the public health, safety or welfare. If an exception is authorized to allow improvements, the design for such improvements shall be incorporated into the subdivision improvement plans and approved by the floodplain administrator. As part of initial review of a subdivision application prior to acceptance as complete, the floodplain administrator shall determine the area within which improvements will require an exception. The floodplain administrator's determination shall be forwarded to the applicant and city plan commission, which shall decide on any exception requested by the applicant.

(Ord. 16912 §§ 1, 2, 2008; Ord. 16882 § 2 (part), 2008; Ord. No. 19327, § 34, 4-26-2022)

19.19.020 Stormwater requirements for compliance with subdivision approval.

Within the current subdivision review and approval process, no owner or developer shall perform any land development activities without first meeting the requirements of this title prior to commencing the proposed activity. Unless specifically exempted by this title, any owner or developer proposing a land development activity shall submit to the city, with their subdivision the following items for consideration:

A. Stormwater management plan in accordance with Section 19.19.030;

B. Inspection and maintenance agreement for private facilities in accordance with Section 19.19.040, if applicable;

C. The city shall advise the developer or his representative whether the stormwater management plan and inspection and maintenance agreement are compliant;

D. If the stormwater management plan or inspection and maintenance agreement are deemed non-compliant, the city shall notify the developer or his representative of such fact in writing. The applicant may then revise any item not meeting the requirements hereof and resubmit the same;

E. Upon a finding by the city that the stormwater management plan and inspection and maintenance agreement, if applicable, meet the requirements of this title, the city shall approve the stormwater management component of the subdivision submittal provided all other legal requirements for the such approval have been met. (Ord. 16882 § 2 (part), 2008)

19.19.030 Stormwater management plan requirements.

A. The stormwater management plan shall detail how stormwater runoff will be controlled or managed and how the proposed project will meet the requirements of this chapter, including the performance criteria set forth in the DDM.

B. This plan shall be in accordance with the criteria established in this chapter and must be submitted signed and sealed by a professional engineer (PE) licensed in the State of Texas, who must verify that the design of all stormwater management facilities and practices meet the submittal requirements outlined in the submittal checklist(s) found in the DDM.

C. The stormwater management plan must ensure that the requirements in this title are being met. The plan shall include all of the information required in the stormwater management site plan checklist found in the DDM. (Ord. 16882 § 2 (part), 2008)

19.19.040 Stormwater management inspection and maintenance agreements for private facilities.

A. Prior to the approval of any land development activity requiring a stormwater management facility or practice hereunder and for which the city shall require ongoing maintenance, the applicant or owner of the site must, unless an on-site stormwater management facility is dedicated to and accepted by the city, execute an inspection and maintenance agreement, if applicable, that shall be binding on all subsequent owners of the site.

B. The inspection and maintenance agreement, if applicable, must be approved by the city prior to plan approval, and recorded in the deed records upon final plat approval.

C. The inspection and maintenance agreement shall identify by name or official title the person(s) responsible for carrying out the inspection and maintenance activities. Responsibility for the operation and maintenance of the stormwater management facility, unless assumed by a governmental agency, shall remain with the property owner and shall pass to any successor owner. If portions of the land are sold or otherwise transferred, legally binding arrangements shall be made to pass the inspection and maintenance responsibility to the appropriate successors in title. These arrangements shall designate for each portion of the site, the person to be permanently responsible for its inspection and maintenance.

D. As part of the inspection and maintenance agreement, a schedule shall be developed for when and how often routine inspection and maintenance will occur to ensure proper function of the stormwater management facility. The agreement shall also include plans for annual inspections to ensure proper performance of the facility between scheduled maintenance and shall also include remedies for the default thereof.

E. In addition to enforcing the terms of the inspection and maintenance agreement, the city may also enforce all of the following provisions for ongoing inspection and maintenance.

1. Maintenance and Inspection of Private Stormwater Facilities.

a. Stormwater management facilities included in a stormwater management plan which is private and therefore subject to an inspection and maintenance agreement must undergo ongoing inspections to document maintenance and repair needs and ensure compliance with the requirements of the agreement, the plan and this title.

b. A stormwater management facility or practice shall be inspected on a periodic basis by the responsible person in accordance with the approved inspection and maintenance agreement. In the event that the stormwater management facility has not been maintained and/or becomes a danger to public safety or public health, the city shall notify the person responsible for carrying out the maintenance plan by certified mail to the person specified in the inspection and maintenance agreement. The notice shall specify the measures needed to comply with the agreement and the plan and shall specify the time within which such measures shall be completed. If the responsible person fails or refuses to meet the requirements of the inspection and maintenance agreement, the city may correct one violation as provided in subsection (4) hereof.

2. Right-of-Entry for Inspection of Private Facilities. The terms of the inspection and maintenance agreement shall provide for the city to enter the property at reasonable times and in a reasonable manner for the purpose of inspection. This includes the right to enter a property when it has a reasonable basis to believe that a violation of this title is occurring or has occurred and to enter when necessary for abatement of a public nuisance or correction of a violation of this title.

3. Records of Maintenance Activities at Private Facilities. Parties responsible for the operation and maintenance of a stormwater management facility shall provide records of all maintenance and repairs to the city as required by the agreement.

4. Failure to Maintain Private Facilities. If a responsible person fails or refuses to meet the requirements of the inspection and maintenance agreement, the city, after thirty days written notice (except, that in the event the violation constitutes an immediate danger to public health or public safety, twenty-four hours notice shall be sufficient), may correct a violation of the design standards or maintenance requirements by performing the necessary work to place the facility or practice in proper working condition. The city may assess the owner(s) of the facility for the cost of repair work which shall be a lien on the property, and may be placed on the ad valorem tax bill for such property and collected in the ordinary manner for such taxes. (Ord. 16882 § 2 (part), 2008)

(Ord. No. 17236, § 27, 11-10-2009)

19.19.050 Construction inspections of stormwater management system.

A. Inspections to Ensure Plan Compliance During Construction. Periodic inspections of the stormwater management system construction shall be conducted by the city.

B. Final Inspection and Record Drawings and Documents. Upon completion of a project, and before a certificate of occupancy shall be granted, the applicant is responsible for certifying that the completed project is in accordance with the approved stormwater management plan. All applicants are required to submit as constructed record drawings and documents for any stormwater management facilities after final construction is completed. The record drawings must include the final design specifications for all stormwater management facilities and must be certified by a professional engineer licensed in the State of Texas. For those facilities that included mechanical systems, operations and maintenance manuals shall also be included. A final inspection to be conducted concurrent with other inspections by the city is required before the release of any performance bonds can occur. (Ord. 16882 § 2 (part), 2008)

Chapter 19.20

PARKS AND OPEN SPACE

Sections:

19.20.010 Policy plan and purpose.

19.20.020 Dedication required.

19.20.030 Parkland calculation.

19.20.040 Review by director of department of parks and recreation.

19.20.050 Standards for deeded parkland.

19.20.060 Exclusions from dedication requirement.

19.20.070 Deed conveyance.

19.20.080 Off-site dedication of parkland.

19.20.090 Providing private park facilities to satisfy required parkland dedication or fee requirements.

19.20.100 Provision for construction of additional facilities on new or existing public parklands in lieu of park fees.

19.20.110 Fee in lieu of parkland dedication.

19.20.120 Parkland fees special fund.

19.20.130 Applicability.

19.20.010 Policy plan and purpose.

A. Purpose. This chapter is adopted to provide recreational areas as a function of subdivision development in the City of El Paso. This article is enacted in accordance with the home rule powers of the City of El Paso granted under the Texas Constitution, and the statutes of the State of Texas, including, but not by way of limitation, V.T.C.A. Local Government Code, Chapter 212. It is declared by the city council that recreation areas in the form of neighborhood parks, community parks that serve several neighborhoods, linear parks, trails, and open space areas are necessary and in the public welfare, and that the only adequate procedure to provide for same is by integrating such a requirement into the procedure for planning and developing property or subdivisions in the city, whether such development consists of new construction on vacant land or the addition of new construction or redevelopment on existing developed lands.

B. Neighborhood parks, community parks, linear parks, trails and open space areas referred to in this chapter are those parks providing for a variety of outdoor recreational opportunities and within convenient distances from the majority of the residences to be served thereby. The primary cost of those parks should be borne by the ultimate property owners who, by reason of their proximity to such parks, shall be the primary beneficiaries of such facilities.

C. The requirements for parkland are based in part on the standards, needs and objectives set forth in the El Paso Parks and Recreation Master Plan, routinely amended and adopted by the city council, a copy of which shall be retained in the office of the director of parks and recreation and which shall be incorporated by reference herein for all purposes. Therefore, the requirements in this code and any requirements in the SDM are adopted to effect the purposes stated above and shall apply to any development within the City of El Paso, except as noted therein

(Ord. 16882 § 2 (part), 2008; Ord. No. 19327, § 35, 4-26-2022)

19.20.020 Dedication required.

A. Dedication Required. All subdivisions located within the corporate limits of the City of El Paso and within those areas designated in the city's extra territorial jurisdiction (ETJ), as identified on an official map kept in the office of the planning official.

1. The land conveyed and deeded to the city shall not be subject to reservations of record, encumbrances or easements which will interfere with the use of the land for park purposes.

2. Where a subsurface interest is severed from the surface estate, retention of the subsurface interest may not be considered an encumbrance for the purposes of this chapter.

B. In Residential Subdivisions. A residential subdivision shall provide for the parkland needs of the community pursuant to Section 19.20.030.

1. For purposes of this chapter, a residential subdivision shall include any subdivision application submitted on property where the zoning allows for single-family, two-family or multifamily development (apartments).

2. This provision may be waived by the city manager or designee where the city is provided a copy of deed restrictions or other legal instrument verifying that the property within the subdivision application or portion thereof, is restricted to nonresidential uses as defined in this chapter. The evidence shall be provided to the city manager or designee with the filing of the preliminary plat, and shall be reviewed by the city attorney prior to the city plan commission action on the preliminary plat. Failure of the subdivider to provide this information with the filing of the preliminary plat shall result in the subdivision application being considered as a residential subdivision.

C. In nonresidential subdivisions. After parkland fees have been calculated, a subdivision, not otherwise classified as a residential subdivision, that changes the use to include dwelling units or increases the density of dwelling units within the subdivision, shall trigger a recalculation of parkland fees or parkland dedication under Chapter 19.20. If additional fees are due or if the recalculation requires parkland to be dedicated, then such fees shall be paid, or dedication provided, prior to the issuance of any building permit.

D. The requirement to provide parkland to the city pursuant to this title shall not be satisfied using land required to be conveyed by the subdivider to the city as part of a separate legal instrument, condition, covenant, contract, agreement, sale or ordinance, except as specifically provided in Section 19.20.130. (Ord. 16882 § 2 (part), 2008) (Ord. No. 17236, § 27, 11-10-2009; Ord. No. 17251, § 11, 12-15-2009; Ord. No. 17396, § 14, 8-24-2010; Ord. No. 17561, § 9, 5-17-2011)

19.20.030 Parkland calculation.

A. Rate.

1. Where a residential subdivision application is filed, the amount of parkland required to be deeded to the city shall be as follows:

a. Single-Family and Two-Family Units. One acre of parkland for every one hundred dwelling units calculated as follows:

$$"x" = "y"/100$$

Where:

"x" is the amount of acres of parkland required to be deeded, and

"y" is the number of dwelling units in the subdivision.

b. Multifamily. One acre of parkland for every two hundred dwelling units calculated as follows:

$$"x" = \frac{"y" \times "z"}{200}$$

Where:

"x" is the amount of acres of parkland required to be dedicated;

"y" is the gross acres of the proposed multifamily subdivision; and

"z" is the density of the proposed multifamily subdivision.

c. Density Calculated. In calculating the parkland requirement for residential subdivision applications where more than one unit per lot may be allowed, density shall be determined by using the gross density permitted by the zoning classification on the property (Title 20).

d. The city manager or designee may waive the gross density used in the parkland calculation rate for subsection (A)(1)c. above when the subdivider verifies by means of deed restrictions or other legal instrument that the density permitted within the subdivision is less than the gross density required by subsection (A)(1)a. or (A)(1)b. of this section. The evidence shall be provided to the city manager or designee with the filing of the final plat, and shall be reviewed by the city attorney prior to city plan commission action on the final

plat. Failure of the subdivider to provide this information with the filing of the final plat shall result in the gross density rates of this chapter being applied to the parkland calculation.

e. Mixed-Use Developments. Subdivisions that provide a mixture of residential and nonresidential components shall meet the requirements of this chapter in the following fashion.

i. Horizontal Mixed-Use Developments. For mixed-use developments where residential and nonresidential components occur in separate buildings within the same development, the residential components will meet the requirements established in Section 19.20.030 above. Nonresidential components will meet the requirements of Section 19.20.110, fees for nonresidential subdivisions.

ii. Vertical Mixed-Use Developments. For mixed-use developments, where residential developments occur above or beside nonresidential development within the same building, the following requirements shall apply.

(A) If the nonresidential component equals or exceeds twenty percent of the gross square footage of the development, parkland fees for the entire development shall be based on the nonresidential fee requirements of Section 19.20.110.

(B) If the nonresidential component is less than twenty percent of the entire square footage of the development, parkland fees for the entire development shall be based on the number of residential units as per the requirements of subsection (A)(1)(b) above.

B. Types of Parkland That May Be Dedicated. The following park configurations of land may be proposed by the subdivider to meet the dedication requirements of this chapter. The lands to be dedicated and the type of dedication to be provided shall be based on the affirmative recommendation of the director of parks and recreation and the approval of the city plan commission.

If the parks director does not provide an affirmative recommendation, the developer may appeal the parks director's decision. The parks director shall provide to the developer, in writing, the reasons for the denial. The appeal will require the developer to file with the planning director an appeal within fifteen business days from receiving the parks director's decision. The appeal shall be accompanied by the following:

(a) A thirty-day waiver of the thirty-day statutory requirement for approval of the subdivision plat.

(b) The reasons for the appeal. Upon receipt of the appeal, the planning director shall place the appeal on the next available city plan commission meeting. The city plan commission may overturn the parks director's decision by a super majority, which shall be three-fourths of the city plan commission present and voting. In determining whether to overturn the parks director's decision, the city plan commission shall consider any evidence presented by the developer and parks director. In no instance can the city plan commission modify or vary any city code requirements.

An alternative type of dedication may be recommended by the director of parks and recreation, based on the specific nature of the subject property. Any dedication that is proposed shall meet the requirements of Section 19.20.050, Standards, except as noted in this chapter.

1. Neighborhood Parks. Lands for parks that serve a neighborhood shall be of the quantity determined by the density of the residential subdivision submitted pursuant to Section 19.20.030. The developer may satisfy Section 19.20.030 by providing multiple park sites that comply with Section 19.20.050, for a residential subdivision application.

2. Dual Park-Pond. Parks and drainage retention or detention ponds may be placed side by side or combined to provide for larger and more efficient park and open space lands for neighborhoods.

Conceptual cross-sections for park-pond areas are included in the subdivision standards. These conceptual drawings are intended to serve as a guideline to the designer, and modifications that meet or exceed the intent of this chapter are encouraged. All park-pond designs shall be ap-

proved by the director of parks and recreation and the city engineer or city floodplain administrator.

a. Park-ponds requirements. For purposes of this subsection, the ponding area proposed for use as a park-pond shall require an affirmative approval for park usage by the director of the parks and recreation department, subject to the provisions below being met. Where acceptable, the pond portion of the park may count towards the required parkland dedication amount at ratio of one acre of park-pond for every one acre of required parkland dedication, subject to the following requirements being met.

i. To be considered as a park-pond, the proposed facility must be located no further than one-half mile from all residences that it is intended to serve. The street frontage for the park-pond shall be continuous along one complete side of the park or thirty-five percent of the park perimeter whichever is greater.

ii. Flat perimeter areas on the rim of the ponding basin shall be provided. These shall be a minimum of ten feet in width from the edge of the pond slope to the nearest property line to allow for a trail, landscaping and pond maintenance requirements. If abutting a seven-foot sidewalk or trail the flat perimeter area shall be a minimum of five feet. Wider and variable width areas are preferred to create a more parklike appearance.

iii. A park-pond shall have a flat contiguous park area adjacent to the detention/retention basin that is not subject to periodic inundation (ten-year storm frequency). This area shall be a minimum of one-half acre in size or larger, including the area of the one closest adjacent perimeter flat zone. This area shall meet the minimum improvements requirements set forth in Section 19.20.050(B) as may be found to be warranted and applicable to a park-pond by the director of parks and recreation. For park-ponds where the pond portion is over two and one-half acres in size, the size of the upper area shall be at least twenty percent of the area of the pond. This area shall be shaped to accommodate the placement of permanent park structures such as play features, multipurpose courts and shade pavilions.

iv. Side slopes in park-ponds shall not exceed a maximum three to one horizontal to vertical slope. Flatter side slopes are recommended.

v. If a two-tier park-pond is designed, then the lower tier flat area shall not be less than twenty percent of the upper tier flat area.

vi. The maximum depth of the pond portion of a park-pond shall not exceed ten feet for a two-tier park-pond and six feet for a one-tier park-pond.

vii. Perimeter areas around the pond shall be planted to create an attractive buffer zone around the park-pond. Plant materials and required irrigation system(s) must be installed and operational at the time the city accepts the facility. All irrigation and planting shall meet the park facilities standards referenced in Section 19.20.050.

viii. Signs shall be provided to inform the public of the dual park-pond purpose and to notify them of the potential safety hazard from stormwater detention/retention.

ix. Percolation tests at the bottom of the park-pond basin shall be performed according to ASTM 5126. Stormwater shall percolate within seventy-two hours or as may be approved by the city engineer or other designee of the city manager.

x. A fully accessible route that meets Americans with Disabilities Act (ADA) standards to the lower park area in the basin of the pond shall be provided.

xi. Grading, irrigation and turf in accordance with Section 19.20.050)B)(3)(d).

xii. Credit may be provided for that portion of the park-pond that exceeds the amount of parkland required to be deeded to the city pursuant to this title if the credit to be derived is within the same park zone and upon the affirmative recommendation of the director of parks and recreation.

b. Other ponds not serving as park ponds. Shall meet minimum placement, setback and landscaping requirements as established by the City of El Paso Stormwater Drainage Manual.

3. Linear park corridors and trail development. Trail corridors may be dedicated and con-

structed by the subdivider, and may serve as credit against required parkland, subject to the following conditions being met:

a. Where adjacent to private property lines on either side of the corridor, the trail corridor shall be a minimum of thirty feet in width;

b. Where the trail corridor is adjacent to a permanently preserved corridor such as a drainage channel or natural open space, the additional trail corridor width may be reduced to fifteen feet. A minimum of ten feet from the nearest edge of the trail adjacent to a private property line shall be maintained except where separated from such private property by a wall;

c. If the trail corridor is located adjacent to a street right-of-way, the trial corridor shall be a minimum of fifteen feet in width as measured from the adjacent back of curb. The additional portion of the corridor that is outside of the street right-of-way and that is a minimum of five feet in width shall be credited as lands meeting the parkland dedication requirements of Section 19.20.030.

d. Trails shall be a minimum of eight feet in width. Narrower trails will not count as credit towards parkland requirements. Trail surface material shall follow the requirements of the City of El Paso Park Development Standards. The City of El Paso may elect to contribute to the cost of the trail if a width wider than eight feet is deemed appropriate for that specific location;

e. Public access points to the corridor shall be provided at regular intervals. The linear areas adjacent to the corridor shall have open space, street ROW, or other opportunities for immediate and safe ingress/egress along at least seventy-five percent of the corridor length on one side or the other;

f. A zone that is a minimum of five feet wide along each side of the trail shall be improved with a natural non-irrigated landscape treatment, following guidelines contained in the parks facility standards referenced in Section 19.20.050.

g. Trails may be built on power line or other utility corridors, but in cases with corridor lands whose ownership is not fully transferable to the City of El Paso, only the lands under built trails and those improved areas meeting the requirements of this subsection will count towards the parkland dedication requirements of this chapter. In such cases, the easement holder or right-of-way owner must provide legal acceptance allowing the trail to be built with free public access provided in perpetuity;

h. Trail standards in this title and in the SDM may be modified by the city plan commission based upon the recommendation of the director of parks and recreation;

i. Trail corridor lighting shall not be required where earthen trails are provided nor where corridors are located in public right-of-way and street lighting is provided. Otherwise lighting may be required by the director of parks and recreation or designee in accordance with the parks facilities standards, the SDM and the provisions of the Dark Skies section of Title 18.

4. Open space lands and arroyos—types of land that are noted as areas that should be preserved in the El Paso Open Space Master Plan, such as natural arroyos, may be used to meet the land dedication requirements of this chapter:

a. For purposes of this subsection, the area open space to be used in applying the reduction shall be the acreage that is deemed acceptable for preservation by the director of the parks and recreation department and approved by the city plan commission;

b. Open space lands will not be required to meet the minimum development standards of Section 19.20.050.

c. One acre of open space dedication will count as one-half of an acre of required parkland dedication;

d. Other open space lands, such as arroyos, that exceed the parkland requirements of this chapter, may be accepted by the City of El Paso. The City of El Paso will assume maintenance of these areas. (Ord. 16882 § 2 (part), 2008)

(Ord. No. 17236, §§ 4, 27, 11-10-2009; Ord. No. 17251, § 11, 12-15-2009; Ord. No. 17528, § 1,

4-12-2011; Ord. No. 17811, § 6, 6-5-2012, eff. 6-11-2012; Ord. No. 18153, § 1, 4-1-2014; Ord. No. 19327, § 36, 4-26-2022)

19.20.040 Review by director of department of parks and recreation.

The director of parks and recreation, or his designee, shall make recommendations based upon the requirements of this chapter to the planning division at the appropriate time within the plat review process. Recommendations received pursuant to this chapter shall be noted on the written report prepared by the city manager or designee for the subdivision application, and shall be forwarded to the subdivider and the city plan commission, where applicable. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, §§ 3, 8, 11-10-2009; Ord. No. 17396, § 15, 8-24-2010)

19.20.050 Standards for deeded parkland.

A. General Characteristics. Parkland deeded to the city as provided in this chapter shall meet the standards set forth below and in the SDM:

1. The parkland shall be placed in a location near the center of the subdivision or subdivisions that it serves, with the expressed goal that the park is no further than one-quarter mile measured by walking distance from any residence within the subdivision that it serves;

2. Where the subdivision is an initial phase of multiple phases, the park may be located so that it is accessible to the future phases, provided that the park meets the requirements of subsection (A)(1) above;

3. Parklands submitted for dedication shall be located so that users are not required to cross arterial roads to access the park site from within the subdivision, and shall not abut an arterial except in the following circumstances:

a. Parks over twelve acres may abut an arterial on one side; or

b. The arterial has no more than four lanes and has on-street parking; or

c. Parks permitted in subsection (B)(4)(a) (Alternate Park Type Table).

4. If the park is one acre or larger, the entire boundary of the parkland shall abut either a public or private street, dedicated open space or arroyo. Parks of less than one acre shall abut a public or private street, dedicated open space or arroyo on at least two sides. Buildings on lots that have frontage on streets that abut the park shall face the park. Residential lots may abut parkland provided that the subdivider incorporates the following standards:

a. Pedestrian connectivity between the parkland and adjacent lots is provided,

b. That a front build-to line, in accordance with the zoning ordinance, is delineated on the plat so that residential structures face the park, and

c. The park site shall share at least one boundary line with a public or private street;

5. The parkland should, when possible, be located adjacent to school sites, ponding areas, or public open space to facilitate shared facilities;

6. When parkland is deeded to the city as required by this title, the area of the park shall be calculated from the nearest property line or street right-of-way line, and not from the existing or proposed curb line of an adjacent street, unless park features are incorporated into the parkway, subject to an affirmative recommendation by the director of parks and recreation and approval by the city plan commission. Sidewalks and signs shall not count as park features that allow the inclusion of the parkway area as part of the park area calculation; and

7. Where possible, and as approved by the director of the parks and recreation department, parkland shall be designed and located within a subdivision to allow for an extension or connection to a public park or other public recreational facility within an abutting subdivision.

B. Minimum improvements for lands to be dedicated as parklands. Parkland deeded to the city shall meet the following minimum improvements described by this subsection.

1. The subdivider shall indicate the proposed parkland improvement(s) within the subdivision improvement plans as required in Section 19.08.010.

2. Construction of the required minimum parkland improvement(s) shall be in accordance with the approved subdivision improvement plans, and shall be completely installed and constructed by the subdivider within the time period specified for construction of subdivision improvements in this title.

3. An improved park shall, at a minimum, include the following:

a. Paving frontage, curbing, and gutter for all street frontages abutting the outside perimeter of the parkland;

b. Utility (water, sanitary sewer and electricity) extensions to the perimeter of the park at a location indicated by the director of parks and recreation and that are consistent with published EPWU rules;

c. An accessible route shall be installed per the Texas Accessibility Standards (TAS) on all street frontages abutting the outside perimeter of the parkland of a minimum width and construction to provide accessibility to individuals with disabilities as provided by the Texas Accessibility Standards (TAS). The sidewalk alignment and width shall be approved by the director of parks and recreation;

d. Grading, automatic irrigation and turf within the parkland boundaries shall be installed prior to the acceptance of the proposed parkland submittal. The design and installation shall be approved by the director of the parks and recreation department. The city plan commission may, upon an affirmative recommendation from the director of the parks and recreation department, allow parkland to remain undisturbed in its natural state;

e. One age appropriate play structure unit entirely covered by a metal shade canopy, for either ages two—five years or ages five—twelve years, with a minimum fifty-foot by fifty-foot user zone, from an approved park department list of acceptable alternatives, including an appropriate safety surface that meets industry requirements. If a play structure already exists within a dedicated park within one-fourth mile, other comparable amenities entirely covered by a metal shade canopy of comparable size may be provided such as basketball courts, outdoor exercise stations, splash pads, or picnic tables.

f. A minimum of two accessible shaded picnic tables, or four benches or a combination of benches and tables, per acre on concrete pads;

g. A minimum of one trash can per acre on a concrete pad;

h. Pedestrian-oriented perimeter lighting along adjacent public and private street rights-of-way and one light at the playground or focal point of the park;

i. Where open space lands to be left in an undisturbed state are accepted as required parklands, grading, automatic irrigation and turf establishment requirements shall be waived;

j. Standards.

i. Facilities and improvements provided by a subdivider on lands dedicated as parkland shall be designed and installed to meet the minimum standards of this chapter, the SDM and the parks and recreation department as established in the parks facilities standards, a copy of which is maintained by the director of the parks and recreation department. The parks facilities standards shall be approved by the city plan commission and the city council. The parks facilities standards may be changed from time to time, but each change shall be approved by the city plan commission and the city council.

ii. Facilities and improvements of a park developed for and owned by the city, regardless of whether the project is developed through City of El Paso Engineering and Capital Construction or the project is developer-generated, shall be designed and installed to meet the minimum standards of the following, or as otherwise approved

by the director of the parks and recreation department, in accordance with related federal, national, state, or local codes, including but not limited to the following:

1. International Play Equipment Manufacturer's Association (IPEMA);

2. Consumer Product Safety Commission (CPSC) Handbook for Public Safety;

3. American Society for Testing and Materials (ASTM);

4. Accessibility Standards for Play Areas through the ADA Accessibility Guidelines (ADAAG);

5. Illuminating Engineering Society of North America (IESNA RP-6-01);

6. Sports Turf Management Association (STMA); and

7. American Society for Testing and Materials (ASTM F08).

k. Street trees shall be provided in the parkway abutting the park at twenty-foot intervals. If the park does not abut street ROW on all sides, in addition to the street trees, shade trees shall be provided at a minimum of ten trees per one-fourth acre.

4. The subdivider may use one or more of the designs in the approved alternate park type table (a) and shall receive full credit towards parkland dedication requirements (unless otherwise stated in the table), provided all requirements listed in the table are met. In developments larger than thirty acres, at least two different park types are required.

Alternate Park Type Table:					
Park Type	**Tot. Lot**	**Pocket Park**	**Green**	**Plaza**	**Square**
Size	< ¼ acre	¼—½ acre	½—8 acres	¼—2 acres	½—5 acres
Location	Residential/Commercial/Mixed Use	Residential/Commercial/Mixed Use	Low-Medium Density Residential	Commercial/Mixed Use/ High Density Residential @ Intersection of roads on the City's MTP with street frontage on 4 sides; abutting buildings must face the plaza.	Mixed Use/High Density Residential @ Intersection roads on the City's MTP with street frontage on 4 sides; abutting buildings must face the square.
Requirements	B.3.a—k;	B.3.a—k; except that e. (play structure) is required in a residential area; but any of the following may be substituted in a commercial or mixed-use area: basketball court, outdoor exercise stations or gazebo with a combined structured shade area at least 900 sf & 4 picnic tables or benches or a combination.	B.3.a—k; except that the following may be substituted with approval of Parks Director for e. (play structure) when a play structure within a dedicated park already exists within ¼ mile of the green: basketball courts, outdoor exercise stations, splash pad, gazebo with a combined structured shade area at least 900 sf & 4 picnic tables or benches or a combination, trails, amphitheaters.	B.3.a—d, f—k: primarily hardscape surface; a focal point must be provided (such as a fountain or water feature or gazebo with a combined structured shade area at least 900 sf & 4 picnic tables or benches or a combination).	B.3.a—d, f—k; a focal point must be provided (such as a fountain, water feature, splash pad, outdoor exercise stations or gazebo with a combined structured shade area at least 900 sf & 4 picnic tables, benches or a combination).
Optional	N/A	Up to 10% of the dedicated acreage may be landscaped with shrubs, screenings or crushed rock.	Up to 10% of the dedicated acreage may be landscaped with shrubs, screenings or crushed rock.	Up to 10% of the dedicated acreage may be landscaped with shrubs, screenings or crushed rock.	Up to 10% of the dedicated acreage may be landscaped with shrubs, screenings or crushed rock.
Conditional	N/A	N/A	10—30% of the dedicated acreage may be open space left in an undisturbed state depending on topography, wildlife habitat, or aesthetic value; up to 50% credit for open space subject to approval of Parks Director.	N/A	N/A

5. The subdivider shall be required to submit development construction plans that conform to this title, the SDM and the parks and recreation department design, construction and specification standards. The parks and recreation department will review the construction documents for compliance with city park construction requirements. The developer must agree to standard city construction inspections of the park improvements.

C. Exceptions. For purposes of this chapter, off-site dedications accepted pursuant to Section 19.20.080 shall not be required to satisfy the requirements of subsection (B)(3) of this section at the time of acceptance of the deed by the city. The city shall require the approval of a development agreement as a condition of acceptance of an off-site dedication, requiring such improvements within two years of the recording of the first subdivision plat within the development by the property owner who deeded the parkland, or a subsequent purchaser.

(Ord. 16882 § 2 (part), 2008; Ord. No. 17236, § 27, 11-10-2009; Ord. No. 17251, § 11, 12-15-2009; Ord. No. 17528, § 1, 4-12-2011; Ord. No. 18153, § 2, 4-1-2014; Ord. No. 18806, § 1, 6-26-2018; Ord. No. 19327, § 37, 4-26-2022)

19.20.060 Exclusions from dedication requirement.

Exclusions. The following shall be excluded from the calculation for parkland dedication. In all instances, the burden of proof shall be on the subdivider to demonstrate that the plat meets the requirements of this chapter:

A. A residential replat of an area where the density has not been increased from the original subdivision, as evidenced by the original subdivision and replat. In the case of a replat where parkland was not originally provided, the parkland requirements shall prevail;

B. A replat or an amendment to a subdivision plat where the only change to the original subdivision plat is that easements or rights-of-way are eliminated, added or changed and there is no increase in density.

C. A nonresidential replat which changes the lot location or design, but where the acreage has not been increased, as evidenced by the original subdivision and replat;

D. A replat which changes the use of the original subdivision from residential to nonresidential, and the fees paid (or the equivalent fees which would have been paid based on parkland dedicated) on the original subdivision are more than or equal to the fees required on the replat;

E. A replat which changes the use of the original subdivision from nonresidential to residential, and the fees paid on the original subdivision are more than or equal to the fees required on the replat;

F. All property within a subdivision which is zoned planned mountain development district (PMD) whether for residential or nonresidential uses, as evidenced by the official zoning map;

G. Land shown within an amending subdivision where density is not increased, as evidenced by the original and amending subdivisions; or

H. Land shown within a subdivision, whether residential or nonresidential, which is designated for use as a public facility.

I. Land within a subdivision, whether residential or nonresidential, covered by an adaptive reuse overlay or designated as a transit oriented development (TOD) overlay, or other specially designated incentive district established by city council policy. (Ord. 16882 § 2 (part), 2008)

(Ord. No. 17576, § 1, 6-7-2011; Ord. No. 17753, § 1, 3-20-2012; Ord. No. 17905, § 6, 11-6-2012)

19.20.070 Deed conveyance.

Subdivision Dedication. Parkland to be conveyed as part of a residential subdivision application shall be designated as city property on both the preliminary and final plats. At the time the recording plat is submitted, the subdivider shall deliver to the planning official a warranty deed conveying fee simple title of all parkland shown on the final plat approved by the city plan commission. The city shall join as a signatory on the subdivision, but shall have no responsibility to

provide any public improvements shown within the approved final plat beyond the general responsibilities the city has to improve and maintain all of its parks. If the subdivider has deferred the obligation to install public improvements to serve a subdivision until after recordation of the final plat under this title, then the warranty deed as required in this section shall be submitted prior to final inspection of public improvements under this title. No acceptance of public improvements under this title shall be provided until the subdivider provides a warranty deed in accordance to this section. Delivery of a warranty deed does not constitute acceptance of any improvements by the city. The planning official will record the warranty deed following acceptance of the public improvements as provided in this title.

(Ord. 16882 § 2 (part), 2008; Ord. No. 17236, § 3, 11-10-2009; Ord. No. 17396, § 16, 8-24-2010; Ord. No. 18998, § 1, 10-29-2019)

19.20.080 Off-site dedication of parkland.

A. Application. Where a land study is submitted by a subdivider pursuant to Chapter 19.02, the city or the subdivider may request that an off-site dedication of parkland be accepted within the corporate limits or within the areas designated in the city's extra territorial jurisdiction (ETJ), as identified on an official map kept in the office of the planning official. An application for off-site dedication of parkland shall be filed by a subdivider with the city manager or designee.

B. Credit Applicability. Parkland to be deeded as part of an off-site dedication shall be entirely within the boundaries of the same park zone as the proposed subdivision. Park zone boundaries are designated by the El Paso Parks and Recreation Master Plan and are published by the City of El Paso Parks and Recreation Department.

C. An off-site parkland dedication shall be an option available to the subdivider where parkland credits derived are then used to reduce by an equivalent amount any subsequent parkland requirement generated by the submission of phased residential subdivisions. The credit shall be applied to residential subdivisions submitted from within the applicable park zone. Where a parkland dedication straddles two park zones, credits shall be allowed within either park zone if approved by the city plan commission, upon an affirmative recommendation of the director of the parks and recreation department.

D. Formula.

1. For purposes of determining the credit, the following procedure shall be used:

$$a - b = c$$

Where:

"a" is the amount of parkland dedicated or deeded to the city expressed in total acres (credit);

"b" is the amount of subsequent parkland acreage required to be deeded to the city pursuant to Section 19.20.030 for a residential subdivision, based on the parkland calculation rates in effect at the time of the submittal;

"c" is the amount of parkland credit available from the parkland dedicated or deeded. If a reduction exceeds the credit, the difference shall be the amount of required parkland to be dedicated or deeded to the city after reduction.

E. In no instance shall a parkland credit be from the value of the land dedicated or deeded in terms of fees it would have generated, or the market value of the land expressed in dollars. This parkland credit option may be exercised by the subdivider who dedicated or deeded the parkland to the city, or may be transferred to a subsequent purchaser of land within the applicable park zone(s), The subsequent purchaser must submit written proof of such a transfer to the city manager or designee. The city plan commission shall approve, upon recommendation by the director of the parks and recreation department, the residential subdivision(s) to which the credit shall be

applied. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17251, § 11, 12-15-2009; Ord. No. 17396, § 17, 8-24-2010)

19.20.090 Providing private park facilities to satisfy required parkland dedication or fee requirements.

A. Private Park Facilities. Where park areas and recreational facilities are to be provided in a proposed single family, duplex, or multifamily development, the required parkland may be satisfied provided that the following criteria are met:

1. Facilities shall be privately owned and maintained by the future residents of the subdivision or by the owner of a rental facility.

2. Private ownership and maintenance of such areas and facilities shall be adequately provided for by recorded written agreement, conveyance, or restrictions;

3. The use of such areas and facilities shall be restricted for park and recreational purposes by a recorded covenant, which runs with the land in favor of the future owners of property and cannot be amended or removed without the consent of the city council;

4. The areas, improvements and facilities wishing to receive credit shall be reasonably similar or comparable to what would be required to meet public park and recreational needs of this chapter.

B. Recreational Facilities. No credit shall be given for recreational facilities other than the land upon which those facilities are located as defined in this chapter.

C. Size of Park Areas. Open turf or play areas and/or park recreational areas may be of any size provided that a total of one quarter (¼) acre total functional park space to meet the recreational needs of residents is provided. Functional park space areas may include parks, child play areas, multi-purpose courts, and other similar facilities. However, swimming pools, community, recreational or exercise buildings, and similar facilities shall not be eligible for credit. Any open turf or play area used for parkland dedication credit shall be commonly accessible by all residents and not be used in calculating minimum landscaping requirements in Title 18, any required zoning condition such as a landscaped buffer, be part of any required set back, any yard (front, side, rear) for any single-family home requirement placed as a condition to detailed site plan approval, or any other building code requirement.

D. Credit Calculation.

1. One acre of private parkland shall count as credit for one-half acre of the required parkland dedication. The parkland requirement may be satisfied in its entirety by providing private parkland which meets the criteria in this section.

2. If the required parkland dedication cannot be completely satisfied by providing private parkland, any remaining requirement can be satisfied as follows:

a. Through the dedication of public parkland.

b. Through improvements to existing parkland in the same park zone, provided that if the improvement costs are above $50,000.00 a developer participation agreement is entered into and complies with the provisions of the state statute that governs developer participation agreements or if below $50,000.00, a developer's agreement is entered into.

c. Payment of fees.

E. All private parkland dedication and improvements, improvements to existing parkland, or fees in lieu of dedication, or in combination shall require the approval of the city plan commission upon the affirmative recommendation of the director of parks and recreation.

F. The director of the parks and recreation department in the annual report required in 19.20.120 G. shall report the amount of private park land accepted for credit by the city plan commission at the time of plat approval. (Ord. 16882 § 2(part), 2008)
(Ord. No. 17238, § 1, 11-17-2009)

19.20.100 Provision for construction of additional facilities on new or existing public parklands in lieu of park fees.

A. Applicability. The city plan commission, upon an affirmative recommendation of the director of the parks and recreation department, may reduce the fees in lieu of parkland to be paid to the city as part of a subdivision application where additional recreational facilities beyond the minimum required improvements are provided. Up to a one hundred percent reduction of fees in lieu of parkland from the initial parkland dedication requirement proposed for single-family, two-family or multifamily development may be reduced depending upon the need for additional recreational facilities on new or existing parks.

B. Park locations in which the additional recreational facilities beyond the minimum required improvements can be provided are as follows:

1. Parks within the park zone of the subdivision application that generates the required fees, provided that if the improvement costs are above $50,000.00 a developer participation agreement is entered into and complies with the provisions of the state statute that governs developer participation agreements and if below $50,000.00, a development agreement is entered into.

2. Park within adjacent park zones if there is no park within the park zone of the subdivision generating the fees, provided that if the improvement costs are above $50,000.00 a developer participation agreement is entered into and complies with the provisions of the state statute that governs developer participation agreements and if below $50,000.00, a development agreement is entered into.

C. Additional recreational improvements may include but are not limited to:

1. Play structures for children ages two to five from an approved parks and recreation department list of acceptable alternatives, including safety surface and perimeter rock wall;

2. Play structures for children ages five to twelve from an approved parks and recreation department list of acceptable alternatives, including safety surface and perimeter rock wall;

3. Multipurpose, basketball or volleyball courts;

4. Picnic areas with a minimum of three tables with metal shade covers on concrete pads and trash receptacles;

5. Swings with safety surface and perimeter rockwall;

6. Tree plantings and additional landscaping.

D. In no instance shall a reduction be approved for required improvements to parkland as provided in Section 19.20.5(C), nor shall a reduction be approved for recreational improvements to parkland which are required to be provided by the sub-divider as part of a separate legal instrument, condition, covenant, contract, agreement, sale, ordinance or annexation agreement.

E. Validation of Costs. The sub-divider shall provide documentation to the city manager or designee at the time of final plat application filing sufficient to establish the validity of the estimated cost(s) that will be used to determine the reduction in fees under this chapter. The documentation shall accompany the request for a reduction in fees. The director of the parks and recreation department shall evaluate the documentation submitted and shall approve the value and percentage of reduction prior to any reductions given under this chapter. In cases where the estimated cost(s) of the improvement(s) is disputed, the value shall be as finally determined by the director of the parks and recreation department.

F. Improvements Completion Schedule. The developer participation agreement or development agreement shall contain a completion schedule for improvements proposed by a sub-divider and shall be submitted to the city manager or designee at the time the final plat application is filed. Improvement(s) to be provided by a subdivider pursuant to this chapter shall be shown on the subdivision improvement plans as required in Chapter 19.20. Construction of the improve-

ment(s) shall be completed in accordance with the time periods specified in the developer participation agreement or development agreement. Failure to complete the improvement(s) within the approved schedule shall be a violation of this chapter.

G. As part of the developer participation agreement or development agreement, the developer shall provide a performance bond or irrevocable letter of credit and a payment bond if required by statute, to the planning official for the value of the proposed improvements at the final plat application for the plat receiving the credit. (Ord. 16882 § 2(part), 2008)
(Ord. No. 17236, § 6, 11-10-2009; Ord. No. 17238, § 2, 1-17-2009; Ord. No. 17396, § 18, 8-24-2010)

19.20.110 Fee in lieu of parkland dedication.

A. When Applicable.

1. Residential Subdivisions. The city may require a cash payment in lieu of parkland dedication under the following circumstances:

a. When an area of parkland less than one acre is required to be dedicated, or less than two acres if there is an existing park within one-half mile, and upon the recommendation of the director of parks and recreation and the city plan commission;

b. Where the director of parks and recreation determines that the park needs of the subdivision would be better served by developing other parks in the same park zone;

c. In instances where the parkland to be dedicated does not meet the standards set forth in this chapter;

d. In instances where the required parkland dedication meets or exceeds two acres, the city plan commission, upon the recommendation of the director of parks and recreation, may require a reduction in land dedication of up to twenty-five percent and payment of the balance of the required dedication in improvements to the site or in fees in lieu of land dedication.

e. When the city accepts a combination of the following: parkland dedication, cash payment in lieu of land dedication, or bonus reductions received pursuant to Section 19.20.090.

2. Nonresidential Subdivisions. The subdivider shall be required to pay fees in lieu of the dedication of parkland dedication for all nonresidential subdivisions applications. Where the director of parks and recreation recommends that the park needs of that park zone would be better served by preserving existing open space lands on the property or by developing other parks in that park zone, the following alternatives may be used.

a. Where open space lands that meet the types noted for preservation in the City of El Paso Open Space Master Plan occur in the nonresidential subdivision, the city may accept a dedication of open space lands in lieu of, or in combination with the payment of park fees. The value of the land to be dedicated shall be equivalent to the fee amount required for that subdivision, and the proposed dedication must be at least one acre in size.

b. An amount equal to the fee required for the nonresidential subdivision may be used by the subdivider to provide additional park facilities in an existing or proposed park within the existing park zone. The types of facilities to be provided and the proposed location for those facilities shall be subject to approval by the director of parks and recreation.

B. Fee Calculation. Where the city requires or accepts payment of cash in lieu of the dedication of parkland, such payment shall be equivalent to the following:

1. Residential Subdivisions.

a. Single-family and two-family: one thousand three hundred seventy dollars per dwelling unit;

b. Multifamily: six hundred eighty dollars per dwelling unit.

2. Nonresidential Subdivisions. One thousand dollars per gross acre multiplied by the number of acres rounded to two decimal places, with a minimum of three hundred and thirty-three dollars for a subdivision of less than one-third acre.

3. These fees shall be indexed to any increase in the National Consumer Price Index (CPI) and adjusted no less frequently than every three years.

C. Form Tendered. A cash payment made pursuant to this chapter shall be tendered in the form of a cashier's check, payable to the City of El Paso. The cashier's check shall be submitted to the city manager or designee and shall accompany the recording plat submission.

D. Refunds. Under no circumstance shall fees received in lieu of parkland dedication required by this chapter be refunded to a subdivider, except as provided in Section 19.20.120(D).

E. In a subdivision where the density calculation for parkland results in a park site of less than one acre and the developer has paid fees in lieu of dedicating parkland, should the developer, within a period of three years following the recording of the initial subdivision, submit a plat for development of land contiguous to the land in which parkland fees were paid, the city shall have the option of refunding to the developer an amount equivalent to those parkland fees paid for the previous development and calculating the parkland requirements for the new subdivision plat based on the density for both the previously submitted subdivision plat and the new subdivision plat. The calculation shall be based upon the parkland dedication requirements in effect at the time of each subdivision plat submittal. For purposes of this subsection, a refund shall be made from park fees collected and available from within the applicable park zone for each subdivision. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 18348, § 1, 4-28-2015)

19.20.120 Parkland fees special fund.

A. Fund Established. The city shall establish a special fund for the deposit of all sums paid in lieu of parkland dedication pursuant to this chapter. The city shall account for all sums paid in lieu of parkland dedication with reference to the individual subdivisions involved, and all sums received shall be committed by the city within three years from the subdivision recordation. If an extension is granted for the subdivision recordation or subdivision improvements, the same extension shall apply to the time for commitment of park fees.

B. When Funds are Considered to be Committed. For purposes of this chapter, funds shall be considered committed:

1. When funds are encumbered for expenditure on equipment and materials;

2. When funds are set aside under an earnest money agreement for the purchase of parkland;

3. When funds are to be awarded under a bid in process; (or)

4. When funds encumbered are not expended because of delays by reason of strikes, court action or any similar impediment which renders it impossible or illegal to spend the money.

C. Time Extensions. Where the sums cannot be committed within the initial three-year time period, the director of the parks and recreation department may request time extensions for expenditure of the sums from the city plan commission in one-year intervals; except that no more than two one-year time extensions may be granted by the city plan commission. The extension request(s) shall be submitted in writing to the city manager or designee sixty days prior to the expiration period for sums to be committed by the city, and shall include a detailed justification for the extension request(s). If an extension is granted for the subdivision recordation or subdivision improvements, the same extension shall apply to the time for commitment of park fees.

D. Refund. If a developer has proof of payment of fees in lieu of park dedication for an approved subdivision, but the developer subsequently abandons development of the property as shown on the approved subdivision and conveys the property to the City for the sole purpose of use as public open space, the developer is entitled to a full refund at the time of the conveyance. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 18153, § 3, 4-1-2014; Ord. No. 18348, § 2, 4-28-2015)

19.20.130 Applicability.

A. Subdivision Related Dedication.

1. Submittal received on or after June 11, 1996.

a. Subdivision. A subdivision application filed with the city manager or designee on or after June 11, 1996 shall be subject to the parkland dedication regulations as herein codified.

b. Off-Site Dedication. Parkland proposed as an off-site dedication which application is filed with the city manager or designee on or after June 11, 1996 shall be subject to the parkland dedication regulations as herein codified.

2. Submittal prior to June 11, 1996, pursuant to Ordinance No. 9645, enacted February 28, 1989.

a. Subdivision.

i. Application in Process. A subdivision application filed as a preliminary plat, preliminary/final plat, final plat, correction plat or replat with the city manager or designee before June 11, 1996 shall be subject to the parkland dedication regulations contained in Ordinance No. 9645 enacted on February 28, 1989, except that this provision shall not apply to any application which expires before the subdivider obtains final approval, disapproval or conditional approval of the plat or replat.

ii. Recorded Plat. Parkland deeded to the city as part of a recorded subdivision before June 11, 1996 shall be subject to the parkland dedication regulations contained in Ordinance No. 9645 enacted on February 28, 1989.

b. Off-Site Dedication.

i. Application in Process. Parkland proposed as an off-site dedication which application was filed with the city manager or designee before June 11, 1996, and where the city accepts the off-sitededication after the effective date of the ordinance codified in this chapter, shall be subject to the parkland dedication regulations contained in Ordinance No. 9645 enacted on February 28, 1989, except as follows:

(A) When a reduction option is exercised by the property owner to a subsequent parkland requirement within the same park zone, the reduction shall be based on the parkland calculation rates and densities in effect at the time a subdivision is filed with the city manager or designee. The reduction shall be on an acreage basis, and shall not be from the value of the land dedication in terms of fees it would have generated, nor the market value of the land expressed in dollars, unless otherwise provided in the agreement by which the city accepted the off-site dedication.

(B) The area of the parkland deeded to the city as an off-site dedication shall not include the area to the centerline of a proposed public accessway to be dedicated through a subsequent subdivision, unless otherwise provided in the agreement executed by the city accepting the off-site dedication, or unless a public accessway fronting the parkland is dedicated as part of the off-site dedication.

ii. Off-Site Dedication Accepted by City. Parkland accepted by the city as an off-site dedication before June 11, 1996 shall be subject to the parkland dedication regulations contained in Ordinance No. 9645 enacted on February 28, 1989, except as follows:

(A) When a reduction option is exercised by the property owner to a subsequent parkland requirement within the same park zone, the reduction shall be based on the parkland calculation rates and densities in effect at the time a subdivision is filed with the city manager or designee, and the reduction shall not be from the value of the land dedication in terms of fees it would have generated, nor the market value of the land expressed in dollars, unless otherwise provided in the agreement by which the city accepted the off-site dedication.

(B) The area of the parkland deeded to the city as an off-site dedication shall not include the area to the centerline of a proposed public accessway to be dedicated through a subsequent subdivision, unless otherwise provided in the agreement executed by the city accepting the off-site dedication, or unless a public accessway fronting the parkland is dedicated at the same time as the off-site dedication.

3. Dedication of Parkland Prior to Ordinance No. 9645, enacted February 28, 1989. Where a subdivider dedicated parkland through an approved and valid land study (concept plan) prior to Ordinance No. 9645, that dedication may be reduced from the amount of parkland required in this title for any subdivision application filed within the original land study (concept plan) boundaries of the then-approved park zone. Where a reduction option is applied by the property owner to a subsequent parkland requirement, the reduction shall be based on the parkland calculation rates and densities in effect at the time a subdivision application is filed with the city manager or designee, and shall be on an acreage basis. A reduction shall not be from the value of the land dedication in terms of fees it would have generated, nor the market value of the land expressed in dollars, unless otherwise provided in an agreement executed by the city accepting the parkland.

B. Dedication through Non-Subdivision. Where the city accepted or required parkland which was not part of a subdivision-related dedication, and which was executed through an approved development agreement or other legal instrument prior to the effective date of the ordinance codified in this chapter, that dedication shall not be subject to the reduction option for a subsequent parkland requirement generated within a subdivision as provided in this title, unless otherwise provided in the agreement or other legal instrument executed by the city, or unless the agreement in which the park committed was executed prior to February 28, 1989. Where authorized, a reduction shall be based on the parkland calculation rates and densities in effect at the time a subdivision is filed with the city manager or designee. The reduction shall not be based on the value of the land dedication in terms of fees it would have generated, nor the market value of the land expressed in dollars.

C. Documentation Required. Where a reduction in the parkland dedication requirement of this title is requested on the basis of parkland dedicated prior to June 11, 1996, the subdivider shall submit to the city manager or designee the proper evidence to demonstrate that the provisions of this title governing applicability are applicable. The evidence may include, but shall not be limited to, the following: a copy of the filed deed conveying fee simple title to the parkland to the city, or other legal documentation demonstrating that the parkland is required to be dedicated to the city; a copy of an approved and valid land study (concept plan), where applicable; and a copy of the park zone approved as part of an off-site parkland dedication, where applicable. If a subdivider fails to submit the proper evidence as herein required, the requirements of this title as enacted on June 11, 1996 shall apply to all land within the boundaries of the original land study (concept plan) or approved park zone not previously platted, and no credit shall be given for previously dedicated parkland. (Ord. 16882 § 2 (part), 2008) (Ord. No. 17236, § 27, 11-10-2009)

Chapter 19.21

SIDEWALKS

Sections:

19.21.010 Purpose and applicability.

19.21.020 General requirements.

19.21.030 Sidewalk requirements for new streets.

19.21.040 Sidewalk requirements for existing streets.

19.21.050 Waivers and deviations.

19.21.010 Purpose and applicability.

A. Purpose. Sidewalks are required as a part of subdivision plat approval as outlined within this chapter and in Title 13, Chapter 04 to help the City of El Paso achieve the following:

1. Promote the mobility, health, safety, and welfare of residents, property owners, and visitors to the City of El Paso and to implement objectives and strategies of the El Paso Comprehensive Plan;

2. Improve the safety of walking by providing separation from motorized transportation and improving travel surfaces for pedestrians;

3. Improve public welfare by providing an alternate means of access to transportation and social interaction, especially for children, other citizens without personal vehicles, or those with disabilities;

4. Facilitate walking as a means of physical activity recognized as an important provider of health benefits;

5. Establish minimum criteria for the development of sidewalks as a part of the pedestrian element of the transportation system within the city and its extraterritorial jurisdiction (ETJ).

B. Applicability. These requirements shall apply to all development within the city and its ETJ.

C. Exceptions. The city plan commission may approve an exception to the requirement for sidewalks on individual streets or within subdivisions:

1. In existing single-family residential neighborhoods where sidewalks are not present and have not historically been provided or comply;

2. On local streets within an approved subdivision where all the lots provide a minimum one-half acre lot area and the adjoining properties have no sidewalks;

3. On mountain residential and divided mountain residential streets within an approved mountain development subdivision;

4. On local streets within an approved planned unit development where pedestrian access is provided within the approved subdivision through an alternative sidewalk design not installed within the street right-of-way; provided, however, that an easement may be required by the city manager or designee to provide for the installation of traffic signage and signalization, utility services, neighborhood delivery and collection box units, or other similar facilities;

5. On local streets within an approved subdivision which meet all of the following criteria as determined by the city plan commission:

a. A characteristic of the neighborhood is that no sidewalks have been required to date,

b. The subdivision adjoins or lies within a neighborhood in which buildings or structures have been constructed on at least fifty percent of the lots within the neighborhood, and

c. The type of subdivision and intensity of land use is compatible with the character of the neighborhood;

6. On streets within neighborhoods that meet the criteria in Title 20 for infill development, where a street construction project, whether local, state or federal, has been awarded and the project includes construction of the sidewalks; and

7. In areas with severe topography or other natural constraints that will constrain proper implementation of this title. (Ord. 16882 § 2 (part), 2008)

(Ord. No. 17236, § 27, 11-10-2009; Ord. No. 17923, § 1, 1-2-2013)

Editor's note—Section 3 of Ord. No. 17923 states: "These requirements shall apply to both public and private streets."

Section 4 of Ord. No. 17923 states: "Where there is a conflict between the requirements of Title 13.04 and this chapter, the more restrictive shall generally apply and be required as part of the subdivision plat approval unless a waiver or exception is granted in accordance with Chapter 19.48."

19.21.020 General requirements.

General Requirements. The following general requirements and the requirements contained in the street design manual (SDM) apply to the provision of all sidewalks throughout the city and ETJ.

A. Standards Not Otherwise Specified. Where facility standards and requirements are not otherwise specified within this chapter, the design of pedestrian facilities shall follow the city's code, Chapter 13.04, the Street Design Manual (SDM) and other city Sidewalk Design Standards and applicable state and federal laws and regulations.

B. Maintenance. All sidewalks, sidewalk amenities, and landscaping in the right-of-way shall be maintained by the adjoining property owner unless otherwise specifically provided for by public policy.

C. Location and Width of Sidewalks. Unless noted otherwise:

1. Sidewalks shall have a minimum clear path width of a minimum of five feet on local streets in all zoning districts primarily intended for single-family residential development when located adjacent to the property line. Sidewalks located next to the curb along local streets shall be a minimum five feet in width. Sidewalks along arterials shall have a minimum of five feet in width;

2. Sidewalks shall have a minimum clear path width of a minimum of five feet in all other locations;

3. Sidewalks in areas determined to be high pedestrian traffic areas or pedestrian-oriented developments by the CPC may be required to be wider than the minimum widths listed herein by the CPC;

4. Sidewalks shall be located in existing areas to match the width and location of existing walks of the block in which they are located. Vacant blocks shall comply with the sidewalk requirements of this title;

5. Sidewalks shall not be located next to the curb on collectors or arterial streets except when an exception is approved by the CPC or designee at the time of subdivision plat approval. Such exception shall be in accordance with Chapter 19.48 and due to actual physical or topographic constraints. Sidewalks on TXDOT facilities shall be as approved by TXDOT;

6. Sidewalks may be required to improve connectivity between subdivisions, to schools, parks, bus stops and retail areas by the CPC at the time of plat approval;

7. The CPC may approve alternative sidewalk design and locations at the time of plat approval including meandering or curvilinear sidewalks provided such design and location meets the intent of this title.

D. Timing of Improvements. The timing of sidewalk construction shall be as required by this chapter and Chapter 13.04, unless a developer agreement between the property owner and the city provides for alternative timing for construction or security has been provided in accordance with this title.

E. Internal Pedestrian Circulation. In addition to sidewalks within the right-of-way, internal pedestrian circulation shall be provided in new development or redevelopment serving any non-residential and at any governmental facility, school, church, or other place of public assembly. Sidewalks shall be installed to connect all buildings to one another and to parking areas and to connect the development to the public street system. All such sidewalks shall be protected from encroachment by parked vehicles.

F. Curb ramps shall be provided within a street right-of-way wherever an accessible route for pedestrians (sidewalk or pedestrian way) is required. The design and construction of curb ramps shall be in accordance with the SDM and shall comply with the Texas Accessibility Standards.

G. Compliance with SDM. Sidewalks shall be constructed in compliance with the standards in the City of El Paso SDM and Chapter 13.04.

(Ord. 16882 § 2 (part), 2008; Ord. No. 19327, § 38, 4-26-2022)

19.21.030 Sidewalk requirements for new streets.

A. Sides of the Street. Sidewalks shall be required on both sides of all new streets except in accordance with Chapter 13.04.

B. Timing of improvements.

1. Sidewalks, landscape and curb ramps shall be provided by the developer at the time of road construction on all new freeway frontage roads unless disallowed by TXDOT, arterial streets, or collector streets, except on individual lots fronting on or siding up to such street. The developer may choose to provide security in accordance with this chapter and to delegate the requirement to construct such sidewalks, landscape and curb ramps to the purchaser of a lot or the purchaser's builder as a part of the building permit for a period of three years from the date of acceptance of the adjacent street. However, at the end of the three-year time period, the developer shall make arrangements to complete the missing sidewalks, landscape and curb ramps or in lieu of such arrangements, the city may utilize the security to complete the sidewalks, landscape and curb ramps. As sidewalks, landscape and curb ramps are completed during the three year period, the developer may request the partial release of security for the completed portions in accordance with this title.

C. Financial guarantee. A developer of a new subdivision may contribute the projected cost of the sidewalk construction into an escrow fund or through other form of financial guarantee to delay the time of construction of the sidewalk according to procedures within this title and Chapter 13.04. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009; Ord. No. 18056, § 14, 8-6-2013)

19.21.040 Sidewalk requirements for existing streets.

A. Sides of the Street. Sidewalks shall be required on both sides of existing collector streets, arterial streets, and the external sides of the frontage roads of freeways.

B. Location. Sidewalks shall be required along block faces of existing local streets where redevelopment is occurring in any of the following categories or combinations of categories:

1. The central business district designated by the El Paso comprehensive plan;

2. Designated pedestrian routes in a neighborhood plan, corridor plan, or other small area plan adopted by the City of El Paso;

3. Locations that would connect existing or otherwise required sidewalks by closing gaps of less than two hundred and fifty feet;

4. Locations in which an adjacent property has a public sidewalk along the same block face;

5. Street frontages in all developments except the following:

a. Developments intended primarily for single-family residential purposes and where sidewalks are not present,

b. Along local and collector streets in developments intended primarily for warehousing, manufacturing, and industrial uses,

c. Developments intended to preserve agricultural activities and open space.

C. Required with Street Improvement. Any land development or subdivision that triggers a requirement for any street improvements along an existing collector street, arterial street, or freeway frontage road shall include sidewalk improvements. The sidewalks shall be provided concurrently by the developer with other street improvements except as otherwise provided in this chapter and Chapter 13.04.

D. Site Plan. No new or amended site plan shall be approved for development on any property in a location wherein sidewalks are required unless applicable provisions for required sidewalks are included in the site plan.

E. Permits. A certificate of occupancy, or any other type of final approval for a residential development that does not require a certificate of occupancy, may not be issued until required sidewalks are installed or brought up to applicable standards when there is development activity requiring:

1. A permit for new construction of a structure other than an accessory structure,

2. A permit for a major addition to a structure other than an accessory structure, or

3. A permit for major alterations or repairs to a structure other than an accessory structure.

F. Removal Requires Replacement. An existing sidewalk may not be removed unless a replacement sidewalk is constructed to standards current at the time of removal. (Ord. 16882 § 2 (part), 2008)

19.21.050 Waivers and deviations.

A. Waivers. A complete waiver of the requirement for sidewalks should be rare and allowed only where there are extreme factors. The waiver shall be approved by the city plan commission at the time of plat approval upon a favorable recommendation of the city manager, or designee and shall be documented with supporting data that indicates the basis for the decision.

B. Deviations. Deviations from these requirements and the SDM and other city Sidewalk Design Standards may be allowed by the city manager or designee as part of site plan review when necessary due to the physical circumstance of the street or when necessary to accomplish adopted development goals of the city.

1. The specific nature and justification for any deviation must be documented and authorized in writing by the city manager or designee.

2. Deviations should be minimal and consist primarily of changes to required width of clear path or alignment within the right-of-way.

3. Deviations shall not allow a minimum clear path width of less than three feet.

(Ord. 16882 § 2 (part), 2008; Ord. No. 19327, § 39, 4-26-2022)

Chapter 19.22

FIRE LANES AND FIRE DEPARTMENT ACCESS

Sections:

See the city's adopted fire code. (Ord. 16882 § 2 (part), 2008)

Chapter 19.23

EASEMENTS, BLOCK AND LOT DESIGN AND IMPROVEMENT STANDARDS

Sections:

19.23.010 General.

19.23.020 Lot area.

19.23.030 Blocks—Determination and regulation of size.

19.23.040 Lots—Determination and regulation of size.

19.23.050 Monuments and markers.

19.23.010 General.

A. Easements for New Development.

1. For new development, all necessary on-site easements shall be established on the Final Plat and not by separate instrument, and they shall be labeled for the specific purpose and to the specific entity, if other than the city, for which they are being provided.

2. Exceptions. Such easements may be permitted to be established by separate instrument only in the following limited circumstances:

a. If requested by the entity providing services with the easement;

b. If permitted by the city manager, or designee or the EPWU; and

c. If temporary easements are needed for temporary road or drainage improvements.

3. The ownership, maintenance, and allowed uses of all designated easements shall be stated on the plat. Examples include the following: a water, wastewater or drainage easement, which is dedicated to the city for a water or wastewater line or for a drainage structure; an access easement, which is dedicated to the public for unrestricted access purposes; a fire lane easement, which is dedicated to the city and fire suppression and emergency medical service providers for access purposes; and an electrical, gas or communications easement, which is dedicated to the specific utility provider that requires the easement; and so on.

B. Fencing.

1. Utility Easement. A wall, fence or screen shall be permitted over any utility easement provided that the easement remains fully accessible to the city for maintenance and repair purposes.

2. Drainage Easement. A wall, fence or screen shall be permitted over any drainage easement if the water flow within the easement is not adversely affected by the wall, fence or screen.

3. Removal. In addition to all other remedies provided by this title, the city may summarily remove any wall, fence or screen erected in violation of this title, and the city shall not incur any liability or assume any duty to compensate the owner or replace the wall, fence or screen. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009)

19.23.020 Lot area.

Easements Included. Lot area shall be computed inclusive of all required public and utility easements. However, the area of required easements on a lot shall in no case exceed one-half of the lot size. If the property owner disputes the total easement area required for any lot, the owner shall submit a written computation of the percentage of the lot occupied by easements to the city manager, or designee. The city manager or designee, shall in coordination with affected entities, consider a reduction in the area of required easements for the lot. (Ord. 16882 § 2 (part), 2008)

19.23.030 Blocks—Determination and regulation of size.

A. Determination Criteria. The length, width, placement, and shape of blocks shall be determined with due regard to the following:

1. Provision of adequate building sites suitable to the particular needs of the type of use contemplated;

2. Zoning and development agreement requirements as to lot sizes, setbacks and dimensions; and

3. Convenient access, circulation, traffic control, mobility in general and safety of street traffic

and for pedestrians or bicyclists traveling to a public park, public open space or school site or other facility within or close to the neighborhood.

B. Streets. Intersecting streets, which determine the lengths and widths of blocks, shall be provided in accordance with Chapter 19.15 to serve cross-traffic adequately, to provide adequate fire protection, and to conform to customary subdivision practices.

C. Block Lengths. Block lengths shall be in accordance with Chapter 19.15. (Ord. 16882 § 2 (part), 2008)

19.23.040 Lots—Determination and regulation of size.

A. Zoning District Requirements, if Applicable. Lots shall conform to the minimum requirements of the established zoning district in which they are located, if located within the city's corporate limits.

B. Lot Frontage. All lots shall have at least one boundary abutting either a private or public street.

1. Each residential lot in the subdivision shall have a minimum frontage on a public or private street as required by the applicable zoning unless other provisions have been authorized through planned development approval.

2. Each nonresidential lot shall have a minimum frontage on a public or private street as required by the applicable zoning unless other provisions have been authorized through planned development approval.

3. No residential lot frontage shall be allowed on arterial streets, except in accordance with Section 19.15.060(F).

C. Flag or Panhandle Lots. Panhandle lots shall be discouraged in residential areas except when, due to unique parcel configuration it is the only way to develop the property, and it shall be considered an exception. It may be allowed as an alternative subdivision design in accordance with this title. It shall also be discouraged in commercial areas except when it is part of a master planned commercial center or commercial unit development with cross access easements allowing additional access. The maximum length of a commercial panhandle shall be one hundred feet. The city plan commission must authorize an exception allowing the flag or panhandle lots in accordance with Chapter 19.48 at the time of preliminary plat approval. Such lots shall otherwise conform to the development standards for construction, and shall be based on the following design requirements.

1. All lots and structures shall be arranged so the structures and their addresses are visible from the public street from which the lot takes access.

2. Residential Uses. The maximum length of the panhandle shall be one hundred feet. The minimum width of the panhandle shall be twelve feet to serve one dwelling unit. A maximum of two dwelling units may jointly use a panhandle, provided that the minimum cumulative width of the panhandle is twenty-four feet. Maintenance of the common driveway, in cases of joint use, shall be ensured by deed restrictions and a note of such deed restrictions shall be placed on the face of the plat. In the event that a property cannot be developed whatsoever without an exception being granted by the city plan commission to allow a panhandle exceeding one hundred feet, any buildings served by such panhandle will be required by the fire marshall to be sprinklered and have a hard wired alarm system. A note shall be added to the recording plat and the subdivision improvement plans indicating whether buildings are required to be sprinklered within the subdivision, and which lot numbers have such requirement.

D. Lot Depth. The minimum depth of each lot shall conform to requirements of the zoning district in which the lot is located, if applicable.

E. General Shape and Layout. The size, width, depth, shape and orientation of lots, and the minimum building setback lines shall conform to standards set forth herein or within the appropriate zoning district, as applicable. Lots shall be designed to assure the adequate provision of public facilities and the purpose of these subdivision regulations, taking into consideration the location and size of the subdivision and the nature of the proposed uses.

F. Irregularly-Shaped Lots. Irregularly-shaped lots shall have sufficient width and depth in accordance with the zoning ordinance to provide a reasonable building pad without encroachment into the required front, side or rear yard setbacks and to provide access including a driveway.

G. Side Lot Line Configuration. The subdivider shall make every effort to design the lots so that side lot lines are ninety degree angles or radial to street right-of-way lines.

H. Double Frontage Lots.

1. Single-family or duplex double frontage lots shall be prohibit, except where they may be essential to provide separation of single-family or duplex residential development from arterial streets, or to overcome a specific disadvantage or hardship imposed by topography or other factors. Such double frontage lots allowed within the city limits shall provide hardscape improvements to the parkway as set forth in the SDM, to be maintained by the city.

2. Where lots have double frontage, are not screened, and/or are provided access directly onto an arterial street, building setback lines shall be established for each street side.

3. Lots in single-family or duplex residential subdivisions and lots measuring less than one hundred feet wide and located within multifamily residential subdivisions may abut a street on both the front and rear boundaries, but only under the following conditions:

a. One lot boundary must abut an arterial street or freeway;

b. A reservation or easement at least ten feet wide, across which there shall be no right of access, shall be designated beside the abutting arterial street or freeway;

c. The city plan commission may require that a parkway at the rear of a double frontage lot be landscaped or other aesthetic treatment be provided by the subdivider, subject to the approval of the city plan commission to provide a visual and physical separation between the development and the street.

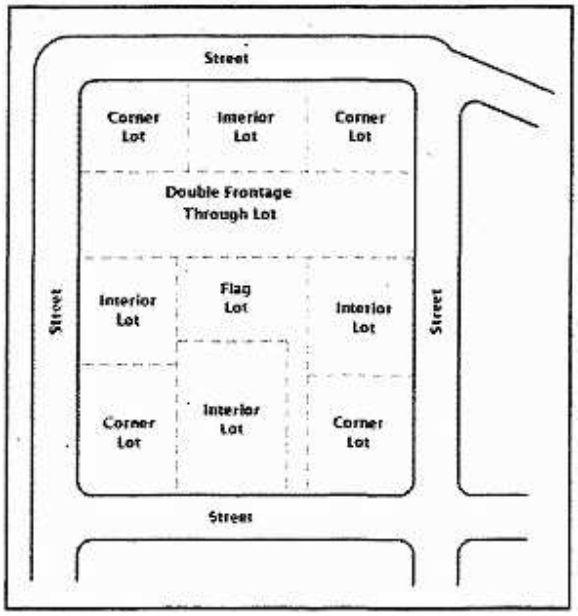

Figure 19.17-1: Types of Lots

I. Lots Adjacent to or in Floodplains. Subdivision of property in a designated floodplain must meet the requirements for floodplain management in the city's adopted flood hazard prevention ordinance and/or chapter of the city code, as applicable.

J. Remnants. No remnants of land shall be allowed in the subdivision which does not conform to the lot requirements of the El Paso Zoning Ordinance, except where proposed easements, rights-of-way or open space areas are approved by the city plan commission.

K. A lot shall not be divided by the corporate limits boundary, state line, or by another lot, street or alley or any other property. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17251, § 12, 12-15-2009; Ord. No. 19327, § 40, 4-26-2022)

19.23.050 Monuments and markers.

Requirements. The location of all monuments shall be in accordance with the SDM and is subject to approval by the city manager or designee. (Ord. 16882 § 2 (part), 2008; Ord. No. 19327, § 41, 4-26-2022)

Chapter 19.24

MOUNTAIN DEVELOPMENT AREA (MDA) STANDARDS

Sections:

19.24.010 Applicability.

19.24.020 Procedure and requirements.

19.24.030 Development standards.

19.24.040 Reports required.

19.24.010 Applicability.

A. General Provisions. A filed subdivision application, or any portion thereof, which incorporates land located within the mountain development area as described in Appendix 111 shall be subject to the regulations contained within this title except as modified by this chapter. To the extent that there is any conflict between any of the standards provided elsewhere in this title and the standards contained in this chapter, the standards contained in this chapter shall control with respect to the mountain development area.

B. Purpose and Intent. The mountain development area is characterized by slope, vegetation, drainage, rock features, geologic conditions and other physical factors. These regulations are intended to:

1. Preserve the scenic quality of the Franklin Mountains;

2. Reduce the physical impact of hillside development by allowing innovative site and architectural design, minimizing grading and requiring restoration of graded areas;

3. Reduce water runoff, soil erosion and rock slides by minimizing grading and by requiring re-vegetation;

4. Utilize appropriate engineering technology to eliminate unstable slope and soil erosion;

5. Permit reasonable development which is compatible with the characteristics of the mountain development area;

6. Provide vehicular and emergency access which is safe, convenient, and compatible with the terrain of the land. (Ord. 16882 § 2 (part), 2008)

19.24.020 Procedure and requirements.

A filed subdivision application or any portion thereof, for property within the mountain development area shall follow the general procedural requirements for plat review and approval as provided in Chapter 19.37 of this title. The city manager, or designee, shall make a report of the staff's written comments and recommendations in writing to the city plan commission, or city manager, or designee where administrative approval is authorized, prior to any action on the subdivision application. However, prior to city plan commission action, all subdivision applications within the Mountain Development Area shall be presented to the open space advisory board for advice and comments, provided, however, that failure of the open space advisory board to provide comments to the city plan commission prior to the city plan commission meeting in which the plat will be considered, shall not prevent the city plan commission from taking action on the plat and shall not be a basis for denial of the plat if the plat conforms all other provisions of Title 19. (Ord. 16882 § 2 (part), 2008)

(Ord. No. 17349, § 1, 7-13-2010)

19.24.030 Development standards.

The subdivider shall comply with the following development standards, in addition to those identified in Article 2, Subdivision Standards, and shall incorporate the requirements within the subdivision application.

A. Drainage and Erosion.

1. All necessary erosion control measures shall remain in place until effective stabilization occurs.

2. Erosion control shall utilize live native revegetation to the extent reasonably possible.

3. The existing natural drainage system on the property may be used to satisfy the stormwater drainage requirements of this title when recommended by the city manager or designee and approved by the city plan commission based on findings of hydrology and storm drainage report.

4. Ponding areas used as stormwater drainage facilities shall not be permitted, except where

recommended by the city manager or designee and approved by the city plan commission. Ponding areas shall remain undisturbed in their natural state to the extent reasonably possible.

5. No existing watercourse or other natural drainage system carrying more than five cubic feet per second in a one hundred year frequency storm, whether on-site or off-site, shall be disturbed by any building development or construction activity within the proposed subdivision unless no other reasonable drainage alternative exists as recommended by the city manager, or designee and approved by the city plan commission.

6. All floodways in floodplain areas shall be dedicated as drainage easements or rights-of-way.

B. Vegetation and Re-vegetation.

1. Vegetation and re-vegetation shall be required on all disturbed areas. If in the course of construction of buildable areas, non-buildable areas are disturbed, the subdivider shall restore the formerly undisturbed areas through the replanting of appropriate native, adaptive and drought tolerant re-vegetation to mitigate soil erosion. For purposes of this requirement, appearance features which are compatible with the area shall be allowed when approved by the city manager or designee.

2. Existing natural vegetation on the property shall be retained in its natural state, except where necessary for the construction of subdivision improvements and buildings or to replace or improve undesirable vegetation.

C. Fire Protection. All lots shall be supplied with adequate fire protection in the form of fire hydrants capable of sustaining a flow rate as follows (as evidenced by flow tests), and spaced at intervals of not more than five hundred feet:

Flow Rates (gallons per minute)	**Structures Sprinklered**
500 to 999	All buildings
1,000 to 1,499	All buildings exceeding three thousand square feet
1,500 or more	None required

A note shall be placed on the subdivision improvement plans which indicates whether or not buildings within the subdivision are required to be sprinklered based on the flow rate requirements of this subsection.

D. Grading, Cuts and Fills. Grading allowed within a subdivision shall be based on the concept of minimal disturbance, and not on maximum buildable footage.

1. Exposed slopes of surfaces of excavation or fill shall comply with the requirements of the geotechnical report, except as otherwise recommended by the city manager, or designee and approved by the city plan commission.

2. The maximum vertical height of a cut or fill shall be fifteen feet, except that the city manager, or designee may recommend and the city plan commission approve a greater vertical height when necessary.

E. Streets.

1. Streets shall not exceed eleven percent grades.

a. Under special site-specific circumstances the eleven percent grades can be exceeded for short distances with the approval of the city manager or designee.

b. Streets with grades in excess of eleven percent shall be permanently signed for no parking.

c. Where a street grade exceeds eleven percent, buildings on lots fronting and accessed by the street shall be required to be sprinklered by the city plan commission when recommended by the city manager, or designee and the fire chief.

d. If the only access to a subdivision is by a street with a grade exceeding eleven percent, then all structures in the subdivision are considered to be accessed by a street exceeding eleven percent and required to be sprinklered. A note shall be placed on the subdivision improvement plans which indicates whether or not buildings within the subdivision are required to be sprinklered based on the requirements of this subsection.

2. Mountain residential and divided mountain residential streets shall be designed to meet a design speed as follows:

a. Twenty miles per hour when the street is designed to carry an average daily traffic (ADT) volume of less than two hundred vehicle trips;

b. Twenty-five miles per hour when the street is designed to carry an average daily traffic (ADT) volume of two hundred or more vehicle trips;

c. Twenty-five miles per hour when the street is designed as a stub street.

3. Mountain Residential Street. A mountain residential street is intended to reduce roadway impact to environmentally sensitive areas and to protect landscape and topography, and shall only be used for development of property within the mountain development area.

a. The mountain residential street carries residential neighborhood traffic, and provides direct access to abutting properties. This street shall carry traffic from within the neighborhood and shall provide the safest environment.

b. Mountain residential streets shall be designed to discourage through traffic unless connection to streets outside the subdivision is recommended by the city manager or designee.

c. The total right-of-way width for a mountain residential street shall be twenty-three feet; which shall include the following:

i. Two ten-foot driving lanes;

ii. Header curbing;

iii. No sidewalks;

iv. No parkways;

v. Utility easements; as needed within the subdivision to accommodate utility service connections.

d. On-street parking shall be prohibited. Designated parking areas may be provided on property adjacent to the street right-of-way.

4. Divided Mountain Residential Street. A divided mountain residential street is intended to reduce roadway impact to environmentally sensitive areas and to protect landscape and topography, and shall only be used for development of property within the mountain development area.

a. The divided mountain residential street carries residential neighborhood traffic, and provides direct access to abutting properties. This street shall carry traffic from within the neighborhood and shall provide the safest environment.

b. Divided mountain residential streets shall be designed to discourage through traffic unless connection to streets outside the subdivision is recommended by the traffic engineer.

c. The total right-of-way width for a divided mountain residential street shall vary based on the width of the median, but shall include as a minimum of the following:

i. Two ten-foot driving lanes;

ii. Header curbing;

iii. One median of variable width with header curbing;

iv. No sidewalks;

v. No parkways;

vi. Utility easements; shall be provided as needed within the subdivision to accommodate utility service connections.

d. On-street parking shall be prohibited. Designated parking areas may be provided on property adjacent to the street right-of-way.

F. Streetlighting. The subdivider shall furnish and install one streetlight at each street intersection. The design and installation of streetlights shall be in accordance with the development standards for construction.

G. Panhandle Lots for Residential Uses. Panhandle lots for residential uses shall be permitted to reduce grading and cut and fill. The maximum length of the panhandle shall be seven hundred fifty feet. The minimum width of the panhandle shall be twelve feet to serve one dwelling unit. A maximum of four dwelling units may jointly use a panhandle, provided that the minimum cumulative width of the entire common driveway is twenty feet. Maintenance of the common driveway, in cases of joint use, shall be ensured by deed restrictions and a note of such deed restrictions shall be

placed on the face of the plat. Residential lots with panhandles in excess of one hundred feet will be required to provide residential sprinkler systems and hard wired alarm system on structures. A note shall be added to the recording plat and the subdivision improvement plans indicating whether buildings are required to be sprinklered and have hard wired alarm systems within the subdivision, and which lot numbers have such requirement.

H. Signage. Traffic control signs shall be permitted to be installed on shared sign posts to reduce visual clutter in the subdivision.

I. Driveway Access.

1. The city plan commission may approve a driveway length in excess of two hundred fifty feet, and up to a maximum of seven hundred fifty feet, when the subdivider provides evidence of all of the following:

a. A driveway grade at a maximum horizontal distance in feet is provided as follows:

Driveway Grade	Maximum Grade Length (horizontal distance in feet)
12—13	700
14—15	350
16—18	200

Where a driveway grade exceeds eleven percent, buildings on lots fronting the driveway shall be required to be sprinklered by the city plan commission when recommended by the city manager or designee and the fire chief. A note shall be placed on the subdivision improvement plans which indicates whether or not buildings within the subdivision are required to be sprinklered based on the requirements of this subsection; and

b. The driveway is of asphalt or concrete construction to support firefighting and other emergency apparatus.

2. For purposes of this subsection, the driveway length shall be calculated from the abutting street to the nearest face of the primary structure.

3. The city plan commission may grant an exception when it makes a finding pursuant to Chapter 19.48 and allow a greater driveway length than seven hundred fifty feet, the approval shall be subject to the building construction being sprinklered with a hard wired alarm system. A note shall be added to the recording plat and the subdivision improvement plans indicating whether buildings are required to be sprinklered and have hard wired alarm systems within the subdivision, and which lot numbers have such requirement. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009; Ord. No. 17396, § 19, 8-24-2010)

19.24.040 Reports required.

A filed subdivision application on property within the mountain development area, or portion thereof, shall be accompanied by five copies of the following:

A. Soils Report. A soils report containing all of the following information:

1. Soil conservation map of the property, delineating soil types;

2. An accurate topographic map;

3. Major soil hazard ratings in relation to the total area of development;

4. Percentage of area to be disturbed in relation to the total area of development.

B. Grading, Drainage and Erosion Plan. A grading, drainage and erosion plan containing all of the following information:

1. Grading plan showing the existing topography and proposed grades, including elevations, lines and grades;

2. A flood analysis for stream channels that occur on the property based on the following criteria:

a. One hundred year storm event,

b. The peak discharge of stormwater,

c. Provisions for storm drainage;

3. A map indicating the on-site and off-site drainage area contributory to the property;

4. Specific erosion control methods to be used on the disturbed areas;

5. Calculations and proposed details used for design and construction, including:

a. Rainfall intensity,

b. Soil stability,

c. Land slope and topography,

d. Condition of the soil surface and land management methods in use,

e. Surface cover, grass, shrubs and pavement;

6. A geotechnical report for all cuts and fills which addresses stability.

C. Vegetation Preservation and Protection Report. A vegetation preservation and protection report containing all of the following information:

1. General description of existing vegetation and proposed use of new vegetation;

2. The vegetation to be removed and method of disposal;

3. The vegetation to be planted;

4. Slope stabilization measures to be installed. (Ord. 16882 § 2 (part), 2008)

Chapter 19.25

ADDITIONAL REQUIREMENTS

Sections:

19.25.010 Postal delivery service.

19.25.020 Subdivision identification signs.

19.25.030 Community facilities.

19.25.010 Postal delivery service.

A. Every subdivision shall provide for appropriate mail receptacles for postal delivery service. The subdivider shall coordinate with the responsible entity in determining the type of delivery service for the proposed subdivision and the location and installation of any mail receptacles. A copy of an agreement between the subdivider and the responsible entity shall accompany the submission of the recording plat and shall serve as verification that coordination has occurred. The terms of the agreement are not subject to review by the city.

B. Location. Mail receptacles shall be placed in a location that is convenient, accessible, safe and efficient to all lots in the subdivision, and shall be subject to the following location standards:

1. Located in an area with a slope of no more than one-quarter inch per foot;

2. Located in an area that is illuminated by streetlighting;

3. Not be located on an arterial street;

4. Not be located in the area of the visibility triangle at an intersection. (Ord. 16882 § 2 (part), 2008)

19.25.020 Subdivision identification signs.

A. Where a subdivider proposes an identification sign within the subdivision, the following shall be required:

1. No more than two subdivision identification signs shall be permitted per subdivision entrance;

2. No portion of a subdivision identification sign shall be within a public right-of-way or public easement, except where authorized by special privilege license granted by city council;

3. The maximum area of subdivision identification signs shall be forty-eight square feet per subdivision entrance. The subdivision identification sign shall only include the name, logo or other identification of the subdivision or project;

4. The location of subdivision identification signs shall be subject to the approval of the city manager, or designee and shall be shown on the subdivision improvement plans;

5. The subdivider shall secure required city permits for the placement of the subdivision identification sign(s) on the property;

6. Where a subdivision identification sign is proposed, restrictive covenants shall be submitted with the subdivision which provide for the formation of a neighborhood association which shall provide for the perpetual maintenance of the sign. As an alternative, if an improvement district such as a public improvement district has been created to maintain public improvements and amenities, it can also maintain the sign. (Ord. 16882 § 2 (part), 2008)

19.25.030 Community facilities.

Where the location of a community facility, as defined, within a subdivision is needed based on The Plan for El Paso, and is recommended by the city plan commission, the subdivider shall coordinate with the city to locate and assist in the acquisition of land for the facility, in accordance with Chapter 19.46 on proportionality. (Ord. 16882 § 2 (part), 2008)

Chapter 19.26

ALTERNATIVE SUBDIVISION/SMART CODE DESIGNS

Sections:

19.26.010 Purpose.

19.26.020 Infill development.

19.26.030 Reduced roadway and lot frontage requirements.

19.26.040 Alternative subdivision improvement design.

19.26.050 Form based/smart code subdivisions.

19.26.060 Approval.

19.26.010 Purpose.

Purpose. It is the purpose of this title to provide for the consideration of alternative subdivision designs, smart growth and form based subdivisions, infill developments, mixed-use districts and alternative improvement designs and engineering which differ from the conventional design standards as outlined within this article of this title, but which are based upon sound engineering, planning and urban design practice. Infill development provisions would encourage the development of smaller, isolated tracts of land in the inner city or the area surrounding it that have been passed over by development and have remained vacant for years, and may include platted or unplatted land. "Alternative subdivision improvements" means alternative designs for physical improvements such as streets, water and wastewater, as well as any other infrastructure element of a proposed development. Smart code subdivisions are those adopted in accordance with the Smart Code provisions of the City of El Paso. (Ord. 16882 § 2 (part), 2008)

(Ord. No. 17236, § 27, 11-10-2009)

19.26.020 Infill development.

A. Intent and Purpose. The following guidelines are designed to meet the intent and purpose of the infill sections, requirements and references in Title 20, the zoning ordinance to reinvigorate existing communities and neighborhoods and support new compact, single or mixed-use development. This chapter is intended to reduce barriers to infill development, and to provide incentives such the use of flag lots and private drives, reduced drainage standards on smaller parcels, reduced fees and participation in or reduced requirements for infrastructure.

B. Application. An application for an infill development procedure shall be submitted at the time of preliminary plat application. The infill development subdivision design will be reviewed under the provisions outlined in the zoning ordinance under the alternative subdivision design provisions for infill development, as well as in Chapter 19.03, Preliminary Plat, of this title, as amended and provisions outlined in this title. The infill subdivision improvement plans and applicable incentives must be submitted, requested, reviewed and approved prior to final plat approval of an infill development and recordation. All applications shall be submitted on a form supplied by the planning division with the required information as stated on the application form and meeting the administrative submission requirements available in the planning division.

C. Designated Areas. The provisions of this chapter shall apply to areas designated for infill development in Title 20, the zoning ordinance.

D. Zoning Districts and Related Single-Family Lot Sizes. The applicable zoning districts in which the infill development procedure may be used and the infill development standards that may be permitted for single-family uses through the use of the procedure shall be as allowed by the infill development provisions of the zoning ordinance.

E. Incentives. In addition to the incentive of smaller lots and higher density in accordance with the zoning ordinance, the following incentives are available in developments meeting the requirements of this chapter:

1. Reduced Fees. The city manager or designee shall waive the development fees associated

with the subdivision review and approval process for qualified projects. The El Paso Water Utility may waive one or more fees associated with water and wastewater service, including hookup fees, for qualified projects;

2. Replat Fees and Approval. While replatting laws of the State of Texas must be observed, replats with less than four lots may be administratively approved in accordance with this chapter without a public hearing and the fees may be waived as described above;

3. Infrastructure Cost Participation. The city council may choose to pay for additional participation in public infrastructure beyond what is required by this chapter for a qualified infill development. The determination by the city council shall be made prior to the approval of the final plat and may include but is not limited to:

a. Construction, repair or replacement of public streets, curbs and gutters or alleys,

b. Construction, repair or replacement of sidewalks, streetlighting or other pedestrian improvements,

c. Construction, repair or replacement of storm drainage facilities;

4. Water and Wastewater. The El Paso Public Water Utility may choose to pay for additional participation in public infrastructure by this title for a qualified infill development;

5. Stormwater and erosion control. Infill projects that create less than ten thousand square feet of new impervious surface are exempt from the stormwater requirements, excluding stormwater utility fees.

6. Park fees for residential infill development occurring within the area identified in Appendix 112 shall be reduced by the reduction identified in Appendix 112.

7. Park dedication or fees are reduced by 50 percent for a non-residential subdivision up to five acres in size that satisfies the location criteria below for infill development, but that has not been designated by special permit overlay as infill development. At least two of the following factors must be present:

a. the property is wholly or partially located within a designated tax increment financing district;

b. the property is wholly or partially located within a designated state or federal enterprise zone;

c. the property is wholly or partially located within an empowerment zone;

d. the property is wholly or partially located within a designated redevelopment area pursuant to Chapter 20.14 of Title 20;

e. the property is located within a designated historic district;

f. the property is within an older neighborhood of the city, which is defined as a legally recorded and developed subdivision for at least thirty years. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, §§ 2, 27, 11-10-2009; Ord. No. 17396, § 20, 8-24-2010; Ord. No. 17576, § 2, 6-7-2011; Ord. No. 18191, § 1, 6-17-2014)

19.26.030 Reduced roadway and lot frontage requirements.

A. Flag Lots and Reduced Roadway and Lot Frontage Requirements. Public streets serving single-family residential lots may be replaced by private roadways (access lanes) twenty feet wide within a minimum thirty-foot easement used to serve up to eight lots.

B. Such roadways and access lanes shall be shown in an easement dedicated to the property owners and public agencies that is designated by a note on the recorded plat as a "perpetual reciprocal easement."

C. Such private access lane may be allowed with designation as an infill development or in other single-family residential zoning districts if the CPC finds:

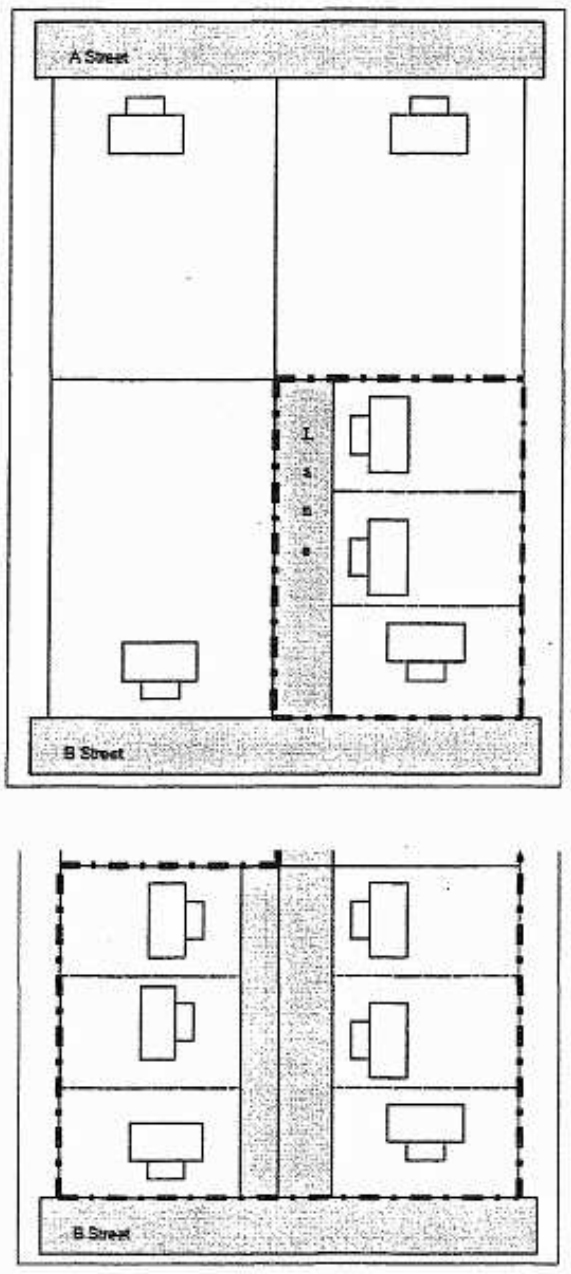
1. Physical conditions preclude development of the street, such conditions may include, but are not limited to, topography or likely impact to natural resource areas such as Arroyos, wetlands, ponds, streams, channels, rivers, lakes or upland

wildlife habitat area or are source on the National Wetland Inventory or under protection by state or federal law;

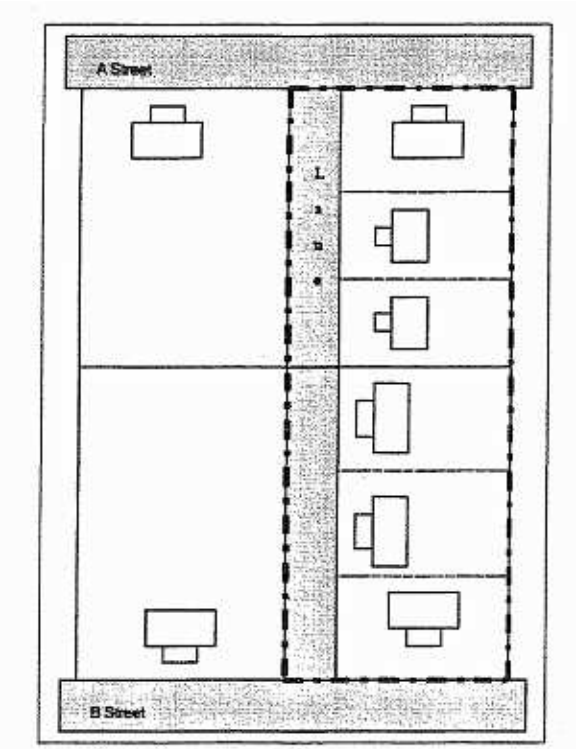
2. Buildings or other existing development on adjacent lands including previously subdivided but vacant lots or parcels physically preclude a public street now or in the future considering the potential for redevelopment;

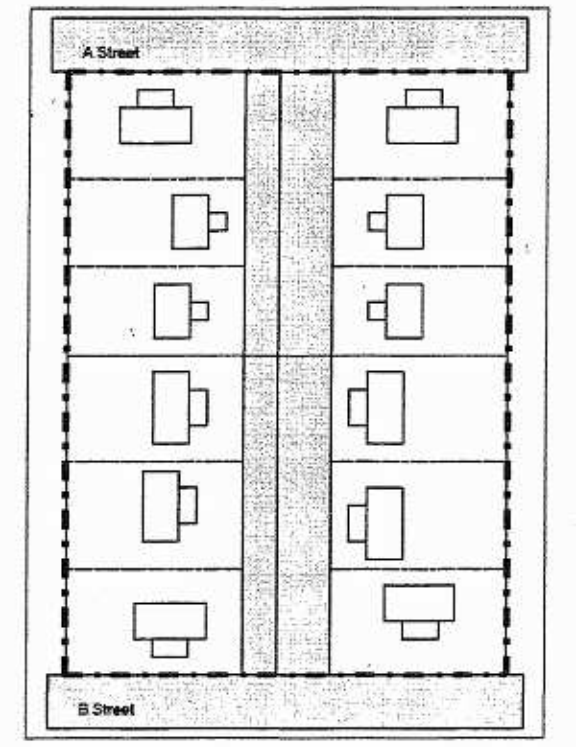
3. If the applicant can demonstrate that a future street cannot be made to serve the property, then the application for plat approval shall be processed subject to subdivision standards;

4. For lots or parcels that do not extend from one street to another, the following diagram indicates how up to four lots may be platted fronting on a twenty foot wide access lane that extends up to two hundred feet in depth. Lanes in excess of two hundred feet must be twenty-four feet wide with an additional four feet of easement and be designated as a fire lane;

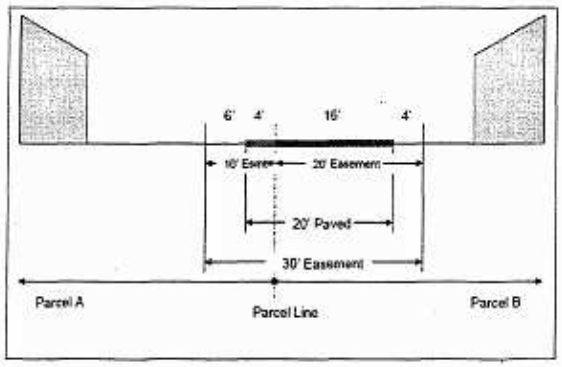


5. For lots or parcels that do extend from one street to another, the following diagram indicates how up to eight lots may be platted fronting on a twenty foot wide access lane that extends up to four hundred feet in depth;

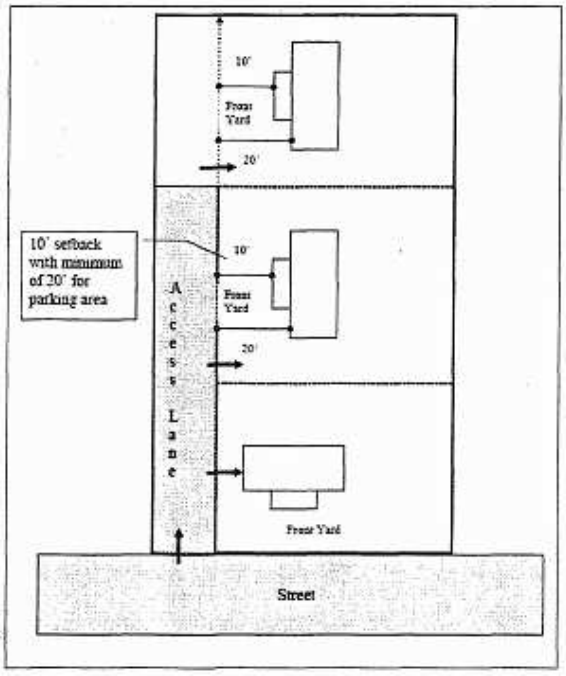




6. The following diagram indicates how two separately owned adjoining parcels or lots may provide or be sequenced to provide thirty feet of easement and twenty feet of access lane;



7. The following diagram indicates how lots will front on the access lane and where the front yard and parking setbacks are measured from. (Numbers are for example purposes only. The zoning ordinance has the actual dimension requirements.)



(Ord. 16882 § 2 (part), 2008)

19.26.040 Alternative subdivision improvement design.

A. Intent. This chapter contains the regulations for the alternative subdivision improvement design procedure. These regulations are supplemented and qualified by additional general regulations appearing elsewhere in this title, which are incorporated as part of this chapter by reference. It is in the intent of the alternative subdivision improvement design procedure to allow one or more alternative improvement designs to those required in this title and the SDM to be utilized in a comprehensive manner throughout a proposed development, provided the improvements meet the intent and have the same or higher level of service or adequacy of the original required improvement. It is not the intent of the alternative subdivision improvement design procedure to allow an inferior improvement to the original one required by this title for the purpose of reducing costs.

B. Application. An application for the alternative subdivision improvement design procedure shall be submitted at the time of preliminary plat application, along with a subdivision improvement plan showing the proposed changes. Subdivision improvement plans in accordance with this title with the proposed alternative subdivision improvement design clearly designated shall be provided in order for the designated staff to make an evaluation of the proposal. Engineering or other studies should be provided to establish that the proposal meets the intent of this title and provides the same level or greater of protection, service or adequacy of the original requirement. The alternative subdivision improvement design will be reviewed under the provisions outlined in Chapter 19.03, Preliminary Plats, of Section 19.08.010, subdivision improvement plans, as amended, as well as provisions outlined in this chapter. All applications shall be submitted on a form supplied by the planning official with the required information as stated on the application form and meeting the administrative submission requirements available in the office of the planning official.

C. Based on Engineering. Decisions regarding the design of various physical improvements in a subdivision should be based on engineering or other studies. Thus, while this code provides standards for design, the regulations are not a substitute for sound engineering judgment. Therefore, a licensed engineer may submit alternative designs to be reviewed and considered by the city manager or designee.

D. Relationship to Standards in Chapter 19.15, Roadways. If the proposed alternative design is approved by the city manager or designee, then the applicable provisions of Chapter 19.15 shall be deemed to have been met. If the proposed alternative design standards are not approved by the city manager or designee, then the standards contained within Chapter 19.15 shall apply.

E. Relationship to All Other Improvement Standards. If the proposed alternative subdivision improvement design is determined to meet or exceed the standard for such improvement contained in this title and the SDM and approved by the CPC upon recommendation of city manager or designee, then the applicable provisions of this title shall be deemed to have been met. If the proposed alternative design standards are determined not to be the equivalent of the standard contained in this title and not approved by the city manager or designee, then the standards contained within this chapter shall apply. (Ord. 16882 § 2 (part), 2008)

(Ord. No. 17236, § 2, 11-10-2009; Ord. No. 17396, § 21, 8-24-2010; Ord. No. 17811, § 7, 6-5-2012, eff. 6-11-2012; Ord. No. 19327, § 42, 4-26-2022)

19.26.050 Form based/smart code subdivisions.

A. Standards. In cases where the applicant for subdivision approval is currently zoned in a smart code district as set forth in Title 21 of the city code, the applicant must comply with the standards set forth in Section 19.26.050, the Street Design Manual (SDM) of Title 19 and the standards set forth in Title 21, smart code. Where the standards conflict, the standards set forth in the smart code provisions prevail. Applicants whose

property is zoned in a smart code district are required to utilize the following standards contained in Title 21, Smart Code, Tables:

Table 3A — Vehicular Lane Dimensions; 3B—Vehicular Lane and Parking Assemblies

Table 4A — Public Frontages—General

Table 4C — Thoroughfare Assemblies

Table 17 — Turning Radius

Table 13 — Civic Spaces

B. Applicability of Form Based and Smart Code Provision.

1. Subdivision with Smart Code Zoning In Place. In cases where the applicant for subdivision approval is currently zoned in a smart code district as set forth in Title 21 of the city code, then where such provisions conflict with provisions contained in Section 19.26.050 and the Street Design Manual, the smart code provisions shall prevail, otherwise, the standards set forth in Section 19.26.050 and the Street Design Manual shall apply.

2. Properties Seeking Zoning Approval. In unplatted properties in which the applicant is seeking zoning approval for districts set forth in the form based/smart code section of Title 21 of the city code, and is proposing to use form based code/smart code standards in their plat and subdivision improvement drawings, then the applicant shall utilize the form based code/smart code standards set forth in Title 21, Smart Code, Section 19.26.010, and the Street Design Manual (SDM). (Ord. 16882 § 2(part), 2008)
(Ord. No. 17236, § 14, 11-10-2009; Ord. No. 19327, § 43, 4-26-2022)

19.26.060 Approval.

A. Infill Development. The city plan commission, as part of the preliminary plat approval, may approve, approve with conditions or deny the proposed infill development, provided it meets all the requirements in this chapter. Since the applicant is assured of approval of a preliminary plat that meets the requirements of this title, the CPC is not obligated to approve an infill development. It is the applicant's obligation to document to the CPC that the infill development meets the intent of this chapter and is a better quality development than would otherwise be developed. Replats of existing lots shall meet the requirements of Texas State Statute. If the proposed infill development plat is approved, or approved with conditions by the city plan commission, upon recommendation by the manager or designee, then the applicable provisions of this title shall be deemed to have been met. If the proposed infill development is not approved by the city plan commission, then the standards contained within this title shall apply.

B. Alternative Subdivision Improvement Design.

1. Alternative subdivision improvement designs that either alter the road standards and applicable provisions in Chapter 19.15 or the various other physical improvement standards contained in this title or in the SDM, may be approved by the CPC upon recommendation of the city manager or designee as part of the preliminary and/or final plat approval, if the CPC and the city manager or designee agree with the engineering studies provided as part of the submission showing that the proposal meets the intent of the ordinance codified in this title and provides the same level or greater of protection, service or adequacy of the original requirement.

2. Since there are already acceptable standards for subdivision improvements and the applicant is assured of approval of a preliminary plat that meets the requirements of this title, the CPC is not obligated to approve an alternative subdivision improvement design. It is the applicant's obligation to document to the CPC that the alternative subdivision improvement design meets the intent of this chapter and is a better quality development than would otherwise be developed.

3. The city plan commission may approve alternative subdivision improvement designs as part of a land study if the land study contains sufficient detail and information, to include any necessary engineering studies, showing that the proposal meets the intent of this title and provides the same level or greater of protection, service or adequacy of the original requirement.

4. If the proposed alternative subdivision improvement design is approved, or approved with conditions by the city plan commission, upon recommendation by the manager or designee, then the applicable provisions of this title shall be deemed to have been met. If the proposed alternative subdivision improvement design is not approved by the city plan commission, then the standards contained within this title shall apply.

C. Form Based or Smart Code Subdivisions. The city plan commission, as part of the preliminary plat approval, may approve, approve with conditions or deny the proposed form based or smart code subdivision. If the form based or smart codes subdivision meets the requirements of El Paso code of ordinances for form based or smart codes, this title and the Street Design Manual, then the CPC shall approve the plat.

D. Misrepresentation of facts of any kind shall result in the denial or revocation of the approval or conditional approval of the preliminary plat and/or final plat. (Ord. 16882 § 2 (part), 2008) (Ord. No. 17236, § 27, 11-10-2009; Ord. No. 19327, § 44, 4-26-2022)

Chapter 19.27

HILLSIDE DEVELOPMENT AREA

Sections:

19.27.010 Establishment of Hillside Development Area.

19.27.020 Subdivision application.

19.27.010 Establishment of Hillside Development Area.

The Hillside Development Area is established and consists of the area bound by the Mountain Development Area (MDA) and the Texas-New Mexico State boundary line, Interstate Highway 10, Paisano Drive, Executive Center Boulevard, Mesa Street, Schuster Avenue, Murchison Drive, Arizona Avenue, Alabama Street, Magnetic Drive, Hondo Pass Avenue, U.S. Highway 54 and Martin Luther King, Jr. Boulevard and as more particularly described in the boundary map at Appendix 112.
(Ord. No. 17349, § 2, 7-13-2010)

19.27.020 Subdivision application.

A filed subdivision application or any portion thereof, for property within the Hillside Development Area shall follow the general procedural requirements for plat review and approval as provided in Chapter 19.37 of this title. The city manager, or designee, shall make a report of the staff's written comments and recommendations in writing to the city plan commission, or city manager, or designee where administrative approval is authorized, prior to any action on the subdivision application. However, prior to city plan commission action, all subdivision applications within the Hillside Development Area shall be presented to the open space advisory board for advice and comments, provided, however, that failure of the open space advisory board to provide comments to the city plan commission prior to the city plan commission meeting in which the plat will be considered, shall not prevent the city plan commission from taking action on the plat and shall not be a basis for denial of the plat if the plat conforms all other provisions of Title 19.
(Ord. No. 17349, § 2, 7-13-2010)

Article 3. Authority of Decision-Makers

Chapter 19.30

GENERAL PROVISIONS

Sections:

19.30.010 Source of authority.

19.30.020 Implied authority.

19.30.030 Effect of city approval.

19.30.040 Conflict in authority.

19.30.010 Source of authority.

Authority. Authority under this title shall be vested in and delegated to the officials and decision-makers designated in this title, under the city's Charter, the Constitution and laws of the State of Texas and the city code. This authority shall be deemed supplemental to any other authority lawfully conferred upon the officials and decision-makers. The omission of a citation in this title to any authority conferred upon the officials and decision-makers under the city's Charter, the constitution or laws of the State of Texas, or the city code, or the failure to identify in this article authority conferred by other provisions of this title, shall not be construed as limiting the actions of such officials and decision-makers taken in accordance with and in reliance upon such authority. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009)

19.30.020 Implied authority.

Authority. City officials and decision-makers shall have all implied authority necessary to carry out the duties and responsibilities expressly delegated by this title to the extent the implied authority is not in conflict with the expressly delegated authority. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009)

19.30.030 Effect of city approval.

A. Effect of City Approval. The city's approval of applications, plans, designs, plats or any other documents requiring city approval under the standards and procedures of the subdivision code does not guarantee or assure that the development of the property will prevent, minimize, or mitigate harm to adjoining properties. The city's approval does not permit the violation of any city, state or federal law. A developer who undertakes development activities shall not rely on the city's approval of an application as ensuring that the development activities will not result in harm to adjoining properties. Additionally, the city's approval does not excuse or release the developer from compliance with all applicable city ordinances. The regulations contained in the subdivision code constitute an exercise of the city's governmental authority, and approval of an application shall not give rise to any liability on the part of the city or its officers, agents, and employees. It is the developer's responsibility to ensure that any applications, plans, designs, plats or any other documents required to be submitted under the standards and procedures of the subdivision code comply with all provisions of the city ordinances and state laws, whether herein specified or not.

B. No Waivers. Except as expressly provided for in this title, no official, board, commission of the city, or the city council, shall have authority to waive any requirement or standard for an application. Any attempted waiver of a requirement or standard for an application in contravention of this subsection shall be deemed null and void, and, upon discovery, shall be grounds for revocation of a permit or approval, or reconsideration of a legislative decision. (Ord. 16882 § 2 (part), 2008)

19.30.040 Conflict in authority.

A. Internal Inconsistency. Whenever one or more provisions of this title are in apparent conflict, the provisions shall be construed, if possible, so that effect is given to each. If the conflict is between a general provision and a specific provision, and the conflict is irreconcilable, the specific provision shall prevail as an exception to the general provision, unless the general provision is the later enactment and the manifest intent is that the general provision should prevail.

B. Incomplete Provisions. Whenever a specific standard or procedure of this title is incomplete when applied in isolation to an application or development activity, such standard shall be supplemented by any general or specific provision of this code, the city code, or the city Charter in order to give effect to the incomplete provision.
(Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009)

Chapter 19.31

RESPONSIBLE OFFICIALS

Sections:

19.31.010 Responsible official designated.

19.31.020 Planning official.

19.31.030 Planning and inspections director.

19.31.040 Building official.

19.31.050 Parks director.

19.31.060 City manager or designee.

19.31.070 Stormwater administrator.

19.31.080 Floodplain administrator.

19.31.090 Other city officials.

19.31.010 Responsible official designated.

A. Responsible official. The responsible official shall be the planning official, who is assigned responsibility under this title for taking the following actions with regard to a particular type of application or relief petition authorized under this title unless otherwise specifically provided:

1. Accepting the application for submittal, filing and processing the application;

2. Reviewing and making recommendations concerning the application or petition;

3. Seeking advice of other city departments and coordinating any recommendations from such departments concerning the application or petition;

4. Initially deciding the application or petition, where so authorized;

5. Determining a request for exemption;

6. Preparing reports to and advising any board, commission or the city council that has responsibility for making recommendations on or deciding the application or petition;

7. Promulgating additional or modified policies, standards and administrative rules for adoption by the city council that apply to the application or petition;

8. Initiating enforcement actions concerning compliance with the standards applicable to the application or petition and the conditions imposed thereon; and

9. Taking all other actions necessary for administration of the provisions of this title with respect to the application or petition.

B. Specific duties. The specific duties of the responsible official shall include those authorized under the procedures applicable to all types of applications pursuant to this title, those authorized under the provisions governing procedures for deciding particular applications under Articles 3 and 4 of this title, and those authorized under relief procedures pursuant to Article 5 of this title.

C. Delegation. The responsible official may delegate the official's authority under this Code to subordinate officials, who shall thereupon be deemed the responsible official for purposes of carrying out the delegated duties. (Ord. 16882 § 2 (part), 2008)

(Ord. No. 17236, §§ 2, 27, 11-10-2009; Ord. No. 17396, § 22, 8-24-2010)

19.31.020 Planning official.

A. Responsible official. The planning official or other designee of the city manager is the responsible official for the following types of applications and relief petitions:

1. Petition for amending the comprehensive plan;

2. Application for a land study, preliminary plat, final plat, minor plat and replat;

3. Appeal of a decision on any application for which the planning official is the responsible official;

4. Alternative subdivision designs, exception or waiver petition for any application for which the planning official is the responsible official;

5. Vested rights petition for any decision where the planning official is the responsible official for the application for which the vested rights petition is submitted.

B. Initial decision-maker. The planning official or other designee of city manager is the initial

decision-maker for the following types of applications and relief petitions, subject to appeal as provided in this title:

1. Application for a minor plat or replat of four or less lots as authorized by state statute;

2. Application for an amending plat;

3. Vested rights petition for any decision for which the planning official or city manager designee is the initial decision-maker.

4. Any appeal for which a subordinate city staff person was the initial decision-maker, subject to further appeal as provided for in this title. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009; Ord. No. 17396, § 23, 8-24-2010)

19.31.030 Planning and inspections director.

A. Responsible Official. The director of the planning and inspections department or his designee ("director") is the responsible official for the following types of applications and relief petitions (except as provided):

1. Application for approval of construction and engineering plans, and all related construction management tasks, including without limitation, approval of contracts for public improvements;

2. Application for a site preparation permit;

3. Appeal of a decision on any application for which the director is the responsible official;

4. Alternative subdivision designs, exception or waiver petition for any application for which the director is the responsible official;

5. Vested rights petition for any decision where the director is the responsible official for the application for which the vested rights petition is submitted; and

6. Petition for relief from a dedication or construction requirement in accordance with Chapter 19.46 and other provisions of this title.

B. Initial Decision-maker. The director is the initial decision-maker for the following types of applications and relief petitions, subject to appeal as provided in this title:

1. Application for approval of construction plans, and all related construction management tasks, including without limitation approval of a contract for public improvements;

2. Application for a site preparation permit; and

3. Vested rights petition for any decision for which the director is the initial decision-maker.
(Ord. No. 17811, § 8, 6-5-2012, eff. 6-11-2012; Ord. No. 19243, § 17, 10-12-2021)

Editor's note—Ord. No. 17811, § 8, adopted June 5, 2012, effective June 11, 2012, amended 19.31.030 in its entirety to read as herein set out. Former 19.31.030 pertained to city engineer, and derived from Ord. 16882 § 2 (part), 2008; Ord. No. 17396, § 24, 8-24-2010.

Editor's note—Ord. No. 19243, § 17, adopted Oct. 12, 2021, amended the title of § 19.31.030 to read as herein set out. The former § 19.31.030 title pertained to City development director.

19.31.040 Building official.

Responsible Official and Initial Decision-Maker. The building official is the responsible official for and shall initially decide the following types of applications:

A. Application for a building permit; and

B. Application for a certificate of occupancy.
(Ord. No. 17236, § 15, 11-10-2009)

Editor's note—Ord. No. 17236, § 15, adopted November 10, 2009, amended § 19.31.040 in its entirety to read as herein set out. Former § 19.31.040, pertained to deputy director-building permits and inspections, and derived from Ord. 16882 § 2(part), 2008.

19.31.050 Parks director.

Responsible Official and Initial Decision-Maker. The parks director is the responsible official for and shall initially decide the following types of applications:

A. Accepting fees in lieu of parkland;

B. Acceptable parkland dedications;

C. All other decisions authorized in Chapter 19.20, Parks and Open Space, to be decided by the parks director. (Ord. 16882 § 2 (part), 2008)

19.31.060 City manager or designee.

Initial decision-maker. The city manager or his designee is the initial decision-maker for the following:

A. Appeal of a decision on any application for which a staff member is the responsible official;

B. Alternative subdivision designs, exception or waiver petition for any application for which the a staff member is the responsible official;

C. Vested rights petition for any decision where a staff member is the responsible official for the application for which the vested rights petition is submitted; and

D. Petition for relief from a dedication or construction requirement in accordance with chapter 19.46 and other provisions of this title.

(Ord. No. 17236, §§ 7, 16, 11-10-2009; Ord. No. 17396, § 25, 8-24-2010)

19.31.070 Stormwater administrator.

Responsible Official and Initial Decision-Maker. The stormwater administrator shall be the person designated by the city manager to be the responsible official and initial decision-maker for all stormwater management under Chapter 15.20 of this code. (Ord. 16921 § 1 (part), 2008: Ord. 16882 § 2 (part), 2008)

19.31.080 Floodplain administrator.

Responsible Official and Initial Decision-Maker. The city manager shall designate a Texas licensed professional engineer as the floodplain administrator to administer and implement the provisions of Chapter 18.60 and other appropriate sections of 44 CFR (National Flood Insurance Program regulations) pertaining to floodplain management and shall be the person designated by the city manager to be the responsible official and initial decision-maker for applications pertaining to drainage plans and other drainage decisions as may be required in Title 18 Building and Construction and Chapter 19.19 Stormwater Management Requirements. (Ord. 16921 § 1 (part), 2008: Ord. 16882 § 2 (part), 2008)

19.31.090 Other city officials.

The city manager, city attorney and any other official delegated or otherwise who has responsibilities under the requirements of this title are authorized to take all actions necessary to carry out their responsibilities in accordance with the requirements and limitations prescribed herein. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009)

Chapter 19.32

CITY PLAN COMMISSION

Sections:

19.32.010 Reference to city charter.

19.32.010 Reference to city charter.

Reference. The city plan commission shall have the powers and duties as provided for in Chapter 2.08 of this City Code, the Charter of the City of El Paso, Texas and as authorized by Chapters 211, 212 and 245 of the Texas Local Government Code.
(Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 6, 11-10-2009)

Chapter 19.33

CITY COUNCIL

Sections:

19.33.010 Authority for amendments to this title.

19.33.020 Authority for deciding appeals and relief petitions.

19.33.010. Authority for amendments to this title.

The city council shall have all powers and authority derived from the state constitution and laws, the city charter, and as specifically described in this section. In addition, they may from time to time amend, supplement, or change by ordinance the text of this title, on the city's initiative or upon a request for a text amendment, following review and recommendation by the city plan commission. (Ord. 16882 § 2(part), 2008)
(Ord. No. 17236, § 17, 11-10-2009)

19.33.020 Authority for deciding appeals and relief petitions.

A. Appellate Authority. The city council shall finally decide appeals on the following applications and relief petitions:

1. A vested rights petition submitted in conjunction with an application for which the city council is the final decision-maker;

2. A vested rights petition that has been previously denied by a city official, city board/commission or the El Paso Water Utility.

B. Petitions for Relief. The city council shall finally decide the following petitions for relief:

1. Petition for relief from a dedication or construction requirement in accordance with Chapter 19.10 and other provisions of this title, where such waiver or exception shall obligate the city to a future expense to either acquire such dedication or construct an improvement. (Ord. 16882 § 2 (part), 2008)

Chapter 19.34

DEVELOPMENT COORDINATING COMMITTEE (DCC)

Sections:

19.34.010 Structure of the development coordinating committee.

19.34.010 Structure of the development coordinating committee.

General. The city manager or his designee is authorized to establish whatever staff review committees or procedures they deem necessary to review development proposals, applications and plats under this title, to make necessary recommendations to the city plan commission, to ensure that certain applications are in compliance with this title and other codes of the city, and to coordinate preliminary examination of such applications to ensure that all city departmental requirements, established by resolution or ordinance, have been met without conflict. (Ord. 16882 § 2 (part), 2008) (Ord. No. 17236, § 8, 11-10-2009)

Article 4. Specific Application and Processing Requirements

Chapter 19.37

APPLICATION PROCESSING

Sections:

19.37.010 Initiation of application.

19.37.020 Application completeness and expiration.

19.37.030 Reserved.

19.37.040 Official application date.

19.37.050 Pre-application conference and vested rights waiver.

19.37.060 Application contents.

19.37.070 Application fees.

19.37.080 Modification of applications.

19.37.090 Action by responsible official.

19.37.100 Exemption determination.

19.37.110 Action by the city plan commission.

19.37.120 Decision.

19.37.130 Conditions.

19.37.140 Certification regarding compliance with plat requirements.

19.37.010 Initiation of application.

Initiation by Owner. An application for plat approval or a development permit may be initiated only by an owner of an interest in the land subject to the application, or the owner's designated agent. The application shall contain an affidavit of ownership to be signed by the owner of interest. If the applicant is a designated agent, the application shall include a notarized statement from the property owner authorizing the agent to file the application on the owner's behalf. (Ord. 16882 § 2 (part), 2008)

19.37.020 Application completeness and expiration.

A. Applicability. The following procedures shall apply to any application that is required by the city and is submitted in accordance with this title.

B. Determination of Completeness. Every required application shall be subject to a determination of completeness by the responsible official for processing the application.

1. No required application shall be accepted by the responsible official for processing unless it is accompanied by all documents required by and prepared in accordance with the requirements of this title.

2. A determination of completeness shall not constitute a determination of compliance with the substantive requirements of this title.

3. A determination of completeness shall be made by the responsible official in writing to the applicant no later than the fifth business day, unless otherwise specified, after the date that the required application is submitted to the responsible official.

a. The applicant shall be notified within five business days, unless otherwise specified, of the determination of completeness.

b. If the required application is determined to be complete, the application shall be determined to be submitted as of the date of the submission and processed as prescribed by this title.

c. If the required application is determined to be incomplete, the notification shall specify the documents or other information needed to complete the application and shall state the date the application will expire (see subsection (B)(3)(d) below) if the documents or other information are not provided by the applicant or their consultants.

d. A letter of notification of incompleteness shall be given to the applicant within five business days of receipt of initial submittal, and shall include a notice that the application must be completed within forty-five days of the date of the letter.

e. If no letter of notification of incompleteness is given to the applicant within five business days of receipt of initial submittal, the application shall be determined to be submitted as of the date of the submission and processed as prescribed by this title.

C. Resubmittal after Notification of Incompleteness. If the required application is resubmitted after a notification of incompleteness within the time allotted in subsection (B)(3)(d), the application shall be processed upon receipt of the resubmittal. No additional determination of completeness shall be made thereafter. However, to the extent that the information or documents submitted is not sufficient to enable the decision-maker to apply the criteria for approval, the application may be denied on such grounds.

D. Expiration of Application.

1. An application shall expire on the forty-fifth day after the date the application is submitted if:

a. The applicant fails to provide documents or other information necessary to comply with the city's requirements relating to the required application;

b. The city has provided to the applicant, not later than the fifth business day after the date the application is submitted, unless otherwise specified, written notice that specifies the necessary documents or other information, and the date the application will expire if the documents or other information is not provided; and

c. The applicant fails to provide the specified documents or other information within the time provided in the notification.

2. If the required application is not completed by the forty-fifth day after the application is submitted to the responsible official, the required application will be deemed to have expired and it will be returned to the applicant together with any accompanying information. (Ord. 16882 § 2 (part), 2008)

19.37.030 Reserved. (Ord. 16882 § 2 (part), 2008)

19.37.040 Official application date.

The time period established by state law or this title for a decision approving or denying a plat application shall commence on the date a complete application including the filing fee is accepted by the city. The official application date is the date an application is determined to be complete by the responsible official in the manner prescribed by Section 19.37.020. (Ord. 16882 § 2 (part), 2008)

19.37.050 Pre-application conference and vested rights waiver.

A. Request, Optional. Prior to the official filing of an application, the applicant(s) may request a pre-application conference with the responsible official in order to become familiar with the city's regulations and the processes.

B. Vested Rights Waiver, Required.

1. No pre-application conference shall commence or be held unless and until the property owner, or applicant as an authorized agent of the property owner, signs a waiver stating that no vested rights shall accrue from any discussion that occurs at the conference.

2. If the property owner does not sign such waiver, no such conference shall be held, and the property owner or his representatives may proceed with his application submittal as he so chooses.

3. A copy of the vested rights waiver form shall be available in the office of the responsible official. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, §§ 7, 8, 11-10-2009)

19.37.060 Application contents.

A. Application Forms Generally. The city is authorized to prepare application forms that include information requirements, checklists, drawing sizes, applicant contact information, and any other relevant information, which shall be available in the SDM.

B. Information for Subdivision Applications. All subdivision applications shall contain the following information:

1. Identification of property owner and authorized agent, if any;

2. Description of the property and the nature of the development that is the subject of the application;

3. Identification of all zoning classifications (inside the city only) or development agreements for the property;

4. Identification of all pending legislative applications for the property;

5. Identification of decisions on all quasi-judicial or administrative applications for the property that remain in effect;

6. Identification of all accompanying applications;

7. Identification of all pending or accompanying requests for relief;

8. Demonstration of compliance with prior approved permits on the subject property;

9. All requests for alternative subdivision design approval.

C. All application forms are available in the office of the planning official and on the city's website.
(Ord. 16882 § 2 (part), 2008; Ord. No. 17236, § 5, 11-10-2009; Ord. No. 17396, § 26, 8-24-2010; Ord. No. 19243, § 18, 10-12-2021; Ord. No. 19327, § 45, 4-26-2022)

19.37.070. Application fees.

A. Every application shall be accompanied by the prescribed fees in the amounts established and set forth in the annual budget resolution of the city or other appropriate fee schedule prepared and adopted by the city council. The prescribed fees shall not be refundable and shall be submitted no later than the date an application is determined to be complete. The fee schedule may be amended from time to time by resolution of the city council.

B. Reserved.
(Ord. 16882 § 2(part), 2008; Ord. No. 17236, § 18, 11-10-2009; Ord. No. 19243, § 19, 10-12-2021)

19.37.080 Modification of applications.

The applicant may modify any complete application following its filing and prior to the expiration of the period during which the city is required to act on the application.

A. If the modification is for revisions requested by the city, and the modification is received at least five business days prior to the time scheduled for decision on the application, the application shall be decided within the period for decision prescribed by this title.

B. In all other instances (e.g., when the applicant chooses to submit a revised application on his own accord), submittal of a modified application shall constitute a new application and any action extend the time for deciding the application for a period equal to the time specified in this title, commencing on the date the modified application is officially submitted. Provided, however, if a waiver of the time for decision is first required (the terms of the approved waiver shall govern the period within which the city must act on the application. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009)

19.37.090 Action by responsible official.

A. Circulate and Compile Comments. Following the determination that an application is complete (Section 19.37.020), the responsible official shall circulate the application to all other administrative officials and departments whose review is required for a decision on the application and shall compile the comments and recommendations of the officials.

B. Decision Rendered, If Applicable. The responsible official shall render a decision in the time prescribed for the applicable application, if the official is the decision-maker for the application.

C. Forward Application and Provide Notification. In cases where the responsible official is not the decision-maker, the responsible official shall forward the application for review to any advisory board/commission and the final decision-maker, and shall prepare a report to such board or

commission, or to the city council, as the case may be, including the compilation of any comments and recommendations by other administrative officials. The responsible official also shall prepare required notices and schedule the application for decision within the time and in the manner required by this title. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009)

19.37.100 Exemption determination.

A. For any application for a development permit for which exemptions are listed, an exemption from the requirement to apply for such permit or approval shall be determined in the following manner:

1. The application for exemption must be submitted on a form supplied by the responsible official, must be accompanied by the review fee set by the city council, and must include all of the following information:

a. Name, address, and telephone number of the property owner and the applicant;

b. A brief description of the activity or development for which exemption is sought;

c. A scale drawing depicting the boundaries of the site, the location of existing improvements on the site, and the location of the proposed development activities on the site;

d. Information establishing the basis for the exemption.

2. The responsible official shall notify the applicant of the decision. If the responsible official denies the application for exemption, the official shall require that an application for the development permit or approval be prepared in accordance with this code.

B. An exemption is a separate and distinct consideration that is differentiated from an alternative subdivision design plan, exception and/or a waiver or application.

C. The following sections within this title contain exemptions:

1. Section 19.01.030 — Exemptions;

2. Chapter 19.20 — Parkland Dedication, Exemptions;

3. Other chapters within this title contain exemptions and the criteria for approval. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009)

19.37.110 Action by the city plan commission.
(Ord. 16882 § 2 (part), 2008)

19.37.120 Decision.

The decision-maker for the application shall approve, approve with conditions or deny the application within the time prescribed by this title and applicable state laws regarding same. (Ord. 16882 § 2 (part), 2008)

19.37.130 Conditions.

A. The initial or final decision-maker may attach such conditions to the approval of an application as are reasonably necessary to assure compliance with applicable requirements of this title. (Ord. 16882 § 2 (part), 2008)

19.37.140 Certification regarding compliance with plat requirements.

A. Pursuant to this chapter, the certificate of compliance shall be issued by the deputy director-planning or city manager designee within five working days of the recording of the subdivision with the county clerk. The certificate of compliance shall be in the form approved and on file in the office of the planning official.

B. Platting Determination Application. On the application of an owner of land, a purchaser of real property under a contract for deed, executory contract, or other executory conveyance or an entity that provides utility service, the deputy

[The next page is 748.105]

director-planning shall make the following determinations regarding the owner's land or the land in which the entity or governing body is interested that is located within the corporate limits or extraterritorial jurisdiction: whether a subdivision is required under this title for the land; and if a plat is required, whether it has been prepared and whether it has been reviewed and approved by the city plan commission or deputy director-planning or city manager designee, as applicable.

C. Upon the final approval of a subdivision by the city plan commission, or the approval of a minor plat by the deputy director-planning or city manager designee, and the recording of the subdivision with the county clerk, the deputy director-planning or city manager designee shall endorse the approved final subdivision with a certificate of compliance stating that the subdivision has been reviewed and approved by the city.

D. In cases where the city plan commission or other final approving authority fails to act on a final subdivision application within the thirty-day time period as provided in this title, the deputy director-planning or city manager designee upon a written request by the subdivider, and after the recording of the subdivision with the county clerk, shall issue a certificate of compliance stating the date the subdivision was submitted and that the city plan commission failed to act on the final subdivision application within the specified time period.

E. A platting determination application shall be on a form available in the office of the planning official, and shall identify the land that is the subject of the request. All applications for a platting determination shall be made in person in the office of the deputy director-planning or city manager designee.

F. If the deputy director-planning or city manager designee determines that a subdivision is not required, a written certification of that determination shall be issued to the requesting party.

G. If the deputy director-planning or city manager designee determines that a subdivision is required and that the subdivision has been prepared and has been reviewed and approved by the city plan commission, or deputy director-planning or city manager designee where administrative approval is authorized, the deputy director-planning or city manager designee shall issue to the requesting party a written certification of that determination. Where the deputy director-planning or city manager designee determines that a subdivision is required and that a subdivision has not been prepared, reviewed and approved, a written certification of that determination shall be made.

H. The deputy director-planning or city manager designee shall make a determination within five working days after the date the application is received and shall issue the platting determination certificate, whether approval or disapproval, within five working days after the date the determination is made. A platting determination certificate shall be in the form approved and available in the office of the planning official.

I. Fee. A platting determination application shall be accompanied with the appropriate processing fee as established by the city council. A fee shall also required for requests for copies of certificates of compliance which have already been issued on a property. No fee shall be assessed on a certificate of compliance which has been issued to a subdivider as part of the recording of a subdivision plat as provided for in this chapter. (Ord. 16882 § 2 (part), 2008)

(Ord. No. 17236, § 2, 11-10-2009; Ord. No. 17396, § 27, 8-24-2010)

Chapter 19.38

NOTICE REQUIREMENTS

Sections:

19.38.010 Published notice for replats.

19.38.020 Personal notice for replats.

19.38.030 Reserved.

19.38.040 Notification following decision.

19.38.050 Notification of appeal or revocation.

19.38.010 Published notice for replats.

Whenever published notice of a public hearing for a replat approval before the city plan commission is required under state law, or this title, the responsible official shall cause notice to be published in a newspaper of general circulation in the city before the fifteenth calendar day before the date set for the required hearing. The notice shall set forth the date, time, place and purpose of the hearing, and identification of the subject property, where the decision concerns an individual tract or parcel of land. (Ord. 16882 § 2 (part), 2008)

19.38.020 Personal notice for replats.

A. Whenever personal notice of a replat public hearing is required by state law or this title before the City Plan Commission, the responsible official shall cause notice to be sent by regular mail before the fifteenth calendar day before the hearing date to the following:

1. Each owner of real property located within the original subdivision within two hundred feet of the exterior boundary of the property in question;

2. The applicant and/or property owner; and

3. If the matter to be considered is an appeal, to the appellant.

B. The notice shall set forth the name of the applicant, the time, place and purpose of the hearing, identification of the subject property, and if the matter to be considered is an appeal, the name of the appellant.

1. Notice shall be sent to each owner indicated on the most recently approved municipal tax roll for land inside the city limits, and, when required by state law, on the most recently approved El Paso County tax roll for land in the extraterritorial jurisdiction. For recently annexed land that is not included on the most recently approved municipal or El Paso County tax roll, notice may be given by publication.

2. Notice shall be considered served by depositing the notice, properly addressed and first class postage prepaid, in the United States mail. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 18971, § 14, 9-3-2019)

19.38.030 Reserved.

19.38.030 Reserved. (Ord. 16882 § 2 (part), 2008)

19.38.040 Notification following decision.

Within five business days of the date by a responsible official's or the city plan commission determination on an application, written notification of the action shall be mailed to the applicant, stating the action taken. Record of the CPC notification shall be filed with the executive secretary of the city plan commission on the date of notification. (Ord. 16882 § 2 (part), 2008)

19.38.050 Notification of appeal or revocation.

Whenever an appeal is taken from a final decision on a plat or a replat application following a public hearing, or whenever the city is to consider revocation of an approval of a plat, development permit or replat which was obtained following a public hearing, personal notice of the appeal or revocation proceeding shall be provided in the manner prescribed by Section 19.38.020. (Ord. 16882 § 2 (part), 2008)

Chapter 19.39

PUBLIC HEARINGS

Sections:

19.39.010 Setting of the hearing.

19.39.020 Conduct of hearing.

19.39.030 Record of proceedings.

19.39.040 Continuance of proceedings.

19.39.010 Setting of the hearing.

When the responsible official determines that an application is complete and that a public hearing is required by this title, the official shall schedule a public hearing with the city plan commission, select a place and a time certain for the hearing, and shall cause notice of such hearing to be prepared and made in accordance with this article. The time set for the hearing shall conform to the time periods required by this article. (Ord. 16882 § 2 (part), 2008)

19.39.020 Conduct of hearing.

Any person may appear at the public hearing and submit evidence, either individually or as a representative of an organization. Each person who appears at a public hearing shall state his name, address, and if appearing on behalf of an organization, state the name and mailing address of the organization for the record. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 8, 11-10-2009)

19.39.030 Record of proceedings.

The body conducting any required hearing under this title shall record the proceedings by any appropriate means. (Ord. 16882 § 2 (part), 2008)

19.39.040 Continuance of proceedings.

The body conducting any required hearing under this title may, on its own motion or at the request of any person, for good cause, continue the hearing to a reasonable fixed date, time and place. No additional notice shall be required if a hearing is held open and continued in this manner. If a public hearing is closed, no further public testimony shall be taken without a new public hearing to be noticed as required by law. (Ord. 16882 § 2 (part), 2008)

Chapter 19.40

POST-DECISION PROCEDURES

Sections:

19.40.010 Amendments and revisions to approval.

19.40.010 Amendments and revisions to approval.

Unless another method is expressly provided by this title, any request to amend or revise an approved application shall be considered a new application, which must be decided in accordance with the procedures governing the original application and the standards in effect at the time such new application is submitted to the city, unless the project has "vested" its rights in accordance with this title and state statute. (Ord. 16882 § 2 (part), 2008)

Chapter 19.41

EXPIRATION, EXTENSION AND REINSTATEMENT

Sections:

19.41.010 Time of expiration.

19.41.020 Effect of expiration.

19.41.030 Extension procedures.

19.41.040 Reinstatement.

19.41.050 Effect of decision on extension or reinstatement.

19.41.060 Expiration for projects commenced on or after September 1, 2005.

19.41.010 Time of expiration.

A. Unless otherwise expressly provided by this title, an approved plat application shall automatically expire on the third anniversary of the approval date of the application, and shall become null and void, and all activities under the permit thereafter shall be deemed in violation of this Code, if:

1. The applicant fails to satisfy any condition that was imposed by this Code or as part of the approval of the application or that was made under the terms of any development agreement, within the time limits established for satisfaction of such condition or term;

2. The applicant fails to submit a subsequent complete application required by this title within the time so required; or

3. If no time limit for satisfaction of conditions is specified in the decision on the application, the time shall be presumed to be three years from the date the application was approved, except as provided in Section 19.41.060.

B. Except as provided in Section 19.41.060, or unless a different date is determined pursuant to a vested rights petition under Article 5, an application approved prior to the effective date of this title shall expire in accordance with the terms of the regulations in effect at the time the application was submitted. (Ord. 16882 § 2 (part), 2008) (Ord. No. 18056, § 15, 8-6-2013)

19.41.020 Effect of expiration.

Upon the expiration of an approved application, all previously approved applications for the same project shall also expire on the expiration date prescribed in Section 19.41.010 above if the filing of an application was required to avoid expiration for the previously approved application(s), except as provided in Section 19.41.010. Thereafter, a new application for each application that has been deemed to have expired under this chapter must be approved subject to regulations in effect at the time the new application is submitted. (Ord. 16882 § 2 (part), 2008)

19.41.030 Extension procedures.

A. Unless a different time is expressly provided for a specific procedure by this title, the approving authority for the type of original application may grant an initial extension of the time for expiration of the application for a period not to exceed one year from the date of the expiration of the application, provided that a request for extension is made in writing at least thirty business days before the approved application expires. Every request for extension shall include a statement of the reasons why the expiration date should be extended.

B. A second extension of the expiration date of an officially submitted, complete application may be granted for a period not to exceed one additional year. The extension application must be in writing. Such an extension may be granted by the approving authority for the type of original application. The decision-maker may grant a request for a second extension upon demonstration that circumstances beyond the control of the applicant have resulted in the permit holder's inability to perform the tasks necessary to prevent the permit from expiring before the expiration date.

C. In granting a first extension, the approving authority may impose such conditions as are needed to assure that the land will be developed in

a timely fashion and that the public interest is served. In granting a subsequent extension request, the approving authority may require that one or more newly adopted development standards be applied to the proposed development, provided, however, that the project has not "vested" its rights in accordance with this title and state statute. (Ord. 16882 § 2 (part), 2008)

19.41.040 Reinstatement.

A. Unless otherwise provided by this title, an applicant may request reinstatement of an expired application by filing a written request with the approving authority within thirty business days of the date of expiration. The request for reinstatement shall include a statement of the reasons why the application should be reinstated and extended. A request for reinstatement shall be processed and decided in the manner provided for an extension of an expiration period for more than one year. The expiration date shall not be extended for more than two years from the date a complete application was officially submitted.

B. A reinstatement of an expired application is wholly discretionary, and the approving authority, in determining whether or not to grant reinstatement, shall consider any changes in development conditions in the area, new public health, safety and welfare concerns and regulations, and the application thereof to development of the land. (Ord. 16882 § 2 (part), 2008)

19.41.050 Effect of decision on extension or reinstatement.

The granting of an extension or reinstatement request for a permit also extends or reinstates any other permits otherwise deemed expired under Section 19.41.020. The denial of an extension or reinstatement results in the immediate lapse of the permit and any other permits deemed expired under Section 19.41.020. Thereafter, the applicant shall file a new application for a permit or permits before undertaking any activity authorized by the lapsed permit. (Ord. 16882 § 2 (part), 2008)

19.41.060 Expiration for projects commenced on or after September 1, 2005.

A. Notwithstanding any other provision of this title, for any approved application for which no expiration date was in effect on September 1, 2005, an expiration date two years following the date of approval of the permit shall apply, unless the holder of the permit files a petition before such date for a vested rights determination pursuant to Article 5 of this title, alleging that progress has been made toward completion of the project for which the application subject to expiration was submitted. If a vested rights petition is timely submitted, the city council shall determine the expiration date of the permit in deciding the petition.

B. Notwithstanding any other provision of this title, once a permit has expired under subsection A of this section, all previously approved applications for the same land also shall expire no later than five years from the date of filing of the first application for the project for which the expired application was submitted, unless the holder of such permit(s) files a petition before such date for a vested rights determination pursuant to Article 5 of this title, alleging that progress has been made toward completion of the project for which the applications subject to expiration were submitted. If a vested rights petition is timely submitted, the city council shall determine the expiration date of the previously approved permits in deciding the petition.

C. Progress toward completion of a project shall mean that any of the following events have occurred within relevant time periods:

1. An application for a final plat or plan has been submitted to the city, and remains in effect at the time the vested rights petition was submitted;

2. A good faith attempt is made to file an application with the city to continue the project;

3. Costs have been incurred by applicant for developing the project, including without limitation, costs associated with roadway, utility, and other infrastructure facilities designed to serve, in whole or in part, the project (but exclusive of land

acquisition) in the aggregate amount of five percent of the most recent appraised market value of the real property on which the project is located;

4. Fiscal security is posted with the city to ensure performance of an obligation, and remains in effect at the time the vested rights petition was submitted; or

5. Utility connection fees or other fees for the project have been paid and have not been refunded. (Ord. 16882 § 2 (part), 2008)

Chapter 19.42

ENFORCEMENT, PENALTY AND REVOCATION OF PERMITS

Sections:

19.42.010 Enforcement activities.

19.42.020 Right to enter.

19.42.030 General remedies.

19.42.040 Stop work orders.

19.42.050 Court actions.

19.42.060 Civil court actions.

19.42.070 Fines and penalties.

19.42.080 Review of prior plat approval.

19.42.090 Exemption.

19.42.010 Enforcement activities.

The building official, employees of the code enforcement division, and other enforcing officers as defined or designated by the city manager, constitute authorized officials under this title, and are authorized to issue municipal court citations for violations of this article and to bring to the attention of the city attorney, and any other appropriate authority, any violations or lack of compliance with these regulations. Any department, agency, employee or authorized official of the city having information regarding an alleged violation to this title, shall report that information to as directed by the city manager or his designee to assist in the enforcement of these requirements. (Ord. 16882 § 2(part), 2008)
(Ord. No. 17236, §§ 3, 19, 11-10-2009; Ord. No. 17396, § 28, 8-24-2010; Ord. No. 17811, § 9, 6-5-2012, eff. 6-11-2012)

19.42.020 Right to enter.

An authorized official with enforcement authority shall have the right to enter upon any premises at any reasonable time for the purpose of making inspections of buildings or premises that may be necessary to carry out the duties in the enforcement of this title. Submittal of any application that authorizes construction of structures or improvements shall be construed as a grant of authority to the responsible official to enter on land subject to the application for purposes of enforcing the approved permit. (Ord. 16882 § 2(part), 2008)
(Ord. No. 17236, § 20, 11-10-2009)

19.42.030 General remedies.

If the land is used or developed or if any building or structure is erected or constructed, in violation of this chapter or any application approved hereunder, in addition to other remedies, the city may institute any appropriate action or proceedings to prevent or abate such activity. Appropriate action or proceedings include termination of utility services (water, gas, electric); revocation of permits, licenses, or bonds; and institution of legal action in a court of competent jurisdiction. (Ord. 16882 § 2 (part), 2008)

19.42.040. Stop work orders.

A. Whenever any development or construction activity is being done contrary to any term, condition or requirements of an approved application and/or this title, the city manager or designee may order the work stopped by notice in writing, served on the property owner or authorized agent. Notice shall be given before the order shall be effective, except when the order states that it is effective immediately as being necessary to protect and preserve the public health, safety, or general welfare. Any person thereafter shall cease and desist from further development or construction material to the alleged noncompliance, until corrected by compliance and authorized by person issuing the stop work order to proceed with the work. This prohibition shall extend throughout any appeal period.

B. The owner or authorized agent may appeal the stop work order by giving written notice to the planning official and submitting a competed form as may be required by the city. The city plan commission shall meet to consider the appeal within fifteen calendar days after the date the completed application for appeal is received by the secretary of the commission.

C. The city plan commission shall reach a decision without unreasonable or unnecessary delay. A copy of the decision shall be delivered by certified mail or personal delivery to the applicant. The decision of the city plan commission shall be final, but as may be provided by law, be adjudicated in a court of competent jurisdiction.

D. The city manager or designee may require the placement of temporary erosion control, drainage protection or other measures by the owner or appellant in order to protect the site and the community resources during the appeal period or any subsequent litigation.

E. The application for each appeal must be signed and be accompanied by payment of a nonrefundable application fee in the amount established by appropriate resolution of the city council. (Ord. 16882 § 2(part), 2008)
(Ord. No. 17236, § 21, 11-10-2009; Ord. No. 17396, § 29, 8-24-2010; Ord. No. 17811, § 10, 6-5-2012, eff. 6-11-2012; Ord. No. 18627, § 3, 2-7-2017)

19.42.050 Court actions.

A. The city attorney is authorized to prosecute violations of this title in the appropriate court where jurisdiction lies for the action.

B. In prosecutions for violations of this title, it shall not be necessary to allege or prove a culpable mental state, as said requirement is hereby waived. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009)

19.42.060 Civil court actions.

The city attorney is authorized to file and prosecute an action at law or in equity, where permitted under the laws of Texas, in a court of competent jurisdiction to enforce the provisions of this title. The initiation of one form of enforcement action by the city attorney will not preclude the city attorney from initiating any other form of enforcement action. (Ord. 16882 § 2 (part), 2008)

19.42.070 Fines and penalties.

A. Violations of provisions of this title or failure to comply with any of its requirements shall constitute a misdemeanor and punished by a fine not to exceed two thousand dollars. Any person who violates this title or fails to comply with any of its requirements shall upon conviction thereof be fined in accordance the law and this Code.

B. Each calendar day such violation continues shall be considered a separate offense.

C. The owner or owners of any building or premises or part thereof, where anything in violation of this title shall be placed or shall exist, any architect, builder, contractor, agent, persons or corporation employed in connection therewith, and who may have assisted in the commission of any such violation, shall be guilty of a separate offense and upon conviction shall be fined as herein provided. This subsection does not apply to enforcement of a regulation in the city's extraterritorial jurisdiction.

D. Civil Enforcement. Nothing herein contained shall prevent the city from taking any other lawful action necessary to prevent or remedy any violation. Appropriate actions and proceedings may be taken by the city in law or in equity to prevent any violation of these regulations, to prevent unlawful construction, to recover damages, to restrain, correct or abate a violation and to prevent illegal occupancy of a building structure or premises. These remedies shall be in addition to the penalties described in this chapter.

E. It is further the intent and declared purpose of this title that no offense committed, and no liability, penalty, or forfeiture, either civil or criminal, incurred prior to the time that the previous regulations were repealed and this title adopted shall be discharged or affected by such repeal, but prosecutions and suits for such offenses, liabilities, penalties, or forfeitures may be instituted, and causes presently in process may be prosecuted in all respects as if such previous regulations had not been repealed. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 22, 11-10-2009)

19.42.080 Review of prior plat approval.

A. If an authorized official determines that there are reasonable grounds for revocation of an

approved preliminary or final plat application, which plat has not been filed of record the city may initiate a review and ask for corrections to the plat or revoke the approval of a preliminary or final plat. Circumstances that warrant review of an approved application shall include the following:

1. A material mistake was made in approving the application;

2. Approval of the application was procured on the basis of material misrepresentations or fraud on the part of the applicant;

3. Development activities being undertaken on the land subject to the development permit are not in conformity with terms of the approved application;

4. The use authorized by the permit is in violation of a condition of approval of the approved application.

B. All review and recommendations for changes or corrections, or actions seeking to revoke a preliminary or final plat which has not been filed of record shall be conducted at a public hearing before the city plan commission. The applicant and any interested parties shall be given notice of the hearing in the manner provided in this title, Chapter 19.38. The public hearing shall be conducted in accordance with the procedures described in this title, Chapter 19.39.

C. Action where plat has been filed of record. Where an authorized official determines that there are reasonable grounds for revocation of a plat which has been filed of record, staff shall consult on the matter with legal counsel for enforcement.

D. In rendering its decision whether to request revisions to or revoke the approved plat, the city plan commission shall determine whether the preliminary or final plat complies with the terms, conditions and requirements of this title. The commission may revoke the application, affirm it, or affirm it with attached conditions that assure that the terms; conditions and requirements of this title shall be met.

E. Following a decision to require corrections or changes to a previously approved plat, or a decision to revoke a plat, and pending any appeal, it is unlawful to undertake or perform any activity that was previously authorized by the approved application without applying for and obtaining approval of a new application. Appeal from a decision to require corrections or changes to an approved plat, or to revoke the approved plat application shall be to the city council. (Ord. 16882 § 2 (part), 2008)

19.42.090 Exemption.

This chapter does not apply to zoning applications or building permits issued under separate ordinance or provision of this code. (Ord. 16882 § 2 (part), 2008)

Chapter 19.43

RESERVED*

*Editor's note—Ord. No. 17236, § 23, adopted November 10, 2009, repealed Ch. 19.43, which pertained to text amendments and derived from Ord. No. 16882 § 2(part), 2008). The provisions contained in the sections thereunder are provided for in state law, the city charter and Chapter 2.08 of the City Code.

Article 5. Relief Procedures

Chapter 19.45

APPEALS

Sections:

19.45.010 Appeals, purpose, applicability and effect.

19.45.020 Appeal requirements.

19.45.030 Processing of appeal and decision.

19.45.040 Criteria.

19.45.050 Expiration and extension.

19.45.010 Appeals, purpose, applicability and effect.

A. Purpose. The purpose of an appeal is to contest most administrative any decision on an application based upon alleged misapplication of the criteria for approval of the application. An appeal shall not be used as a means of amending, varying or otherwise altering the standards of this title or the SDM that apply to the application.

B. Applicability. Unless otherwise provided by this title, any final administrative decision on an application by a city official including a determination by the responsible official that a proposed development is exempt from one or more applications, may be appealed in accordance with Section 19.45.020(A) to the city plan commission. Final decisions on an application by the city plan commission may be appealed to the city council only if expressly provided for in these regulations.

C. Effect. The granting of an appeal supersedes the previous decision and results in the approval, conditional approval or denial of the application for which approval was sought.

D. An appeal under this title does not constitute an appeal for a determination on vested rights, or the proportionality of infrastructure requirements. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009; Ord. No. 19327, § 46, 4-26-2022)

19.45.020 Appeal requirements.

A. Who May Appeal. The applicant may appeal a final decision on an application to the appellate authority designated by this article, if any.

B. Form of Appeal. The appeal shall contain a written statement of the reasons why the final decision is erroneous, and shall be accompanied by the fee established by the city council. An appeal by an applicant shall be accompanied by a copy of the application on which the initial decision was rendered. An appeal may include any other documents that support the position of the appellant.

C. Time for Filing Appeal. A written appeal must be submitted to the responsible official within ten business days from the date of notification of the final decision on the application. (Ord. 16882 § 2 (part), 2008)

19.45.030 Processing of appeal and decision.

A. Responsible Official. The responsible official for an appeal is the person designated by this title for processing of the application at issue in the appeal. Upon receipt of a written appeal, the responsible official shall compile all documents constituting the record of the decision on appeal and transmit the record to the appellate authority.

B. Stay of Proceedings. Receipt of a written appeal of a decision on an application stays all proceedings of the city in furtherance of the decision from which appeal is taken, including without limitation, acceptance, processing or issuance of any applications that are dependent on the application being appealed, and any development activities authorized by initial approval of the application.

1. The stay shall be lifted only if the responsible official certifies in writing to the appellate authority that a stay would cause imminent peril to life or property.

2. Thereafter, the stay may be reinstated only by order of the appellate authority or a court of record, on application, after notice to the responsible official, for due cause shown.

C. Hearing and Notice. Notification of the appeal and conduct of the hearing thereon shall be in accordance with Chapters 19.38 and 19.39 of this title. The initial hearing on the appeal shall be held within twenty-five business days after the filing of the appeal with the responsible official, unless a different time is prescribed by the provisions of this title.

D. Decision on Appeal. The appellate authority shall decide the appeal within thirty business days. The appellate authority shall affirm, reverse or modify the decision from which the appeal was taken.

E. Notification of Decision on Appeal. The appellant and the applicant for the development permit shall be notified of the decision on appeal in the manner provided in Section 19.38.040. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009)

19.45.040 Criteria.

In deciding the appeal, the appellate authority shall apply the same criteria that govern the initial decision on the application under the provisions of this title. (Ord. 16882 § 2 (part), 2008)

19.45.050 Expiration and extension.

For purposes of determining the expiration or extension periods under this title, the date of the appellate authority's granting of relief on an appeal is the date on which the application is deemed approved. (Ord. 16882 § 2 (part), 2008)

Chapter 19.46

PROPORTIONALITY APPEAL

Sections:

19.46.010 Policy established appeal requirements.

19.46.020 Purpose, applicability and effect.

19.46.030 Appeal requirements.

19.46.040 Processing of appeals and decision.

19.46.010 Policy established appeal requirements.

A. Adequate Public Facilities Policy.

1. Adequate Service for Areas Proposed for Development.

a. Land proposed for development in the city and the city's extraterritorial jurisdiction must be served adequately by essential public facilities and services, including parks, water and wastewater, roadway and drainage facilities.

b. Land shall not be approved for platting or development unless and until adequate public facilities necessary to serve the development exist or provision has been made for the facilities, whether the facilities are to be located within the property being developed or off-site.

2. Responsibilities of the Developer to Provide Adequate Facilities. The developer shall be responsible for the following to ensure the facilities provided are adequate:

a. Phasing of development or improvements in order to ensure the provision of adequate public facilities;

b. Extensions of public facilities and roadways (including any necessary on-site and off-site facilities) to connect to existing public facilities or roadways;

c. Providing and/or procuring all necessary property interests, including rights-of-way and easements, for the facilities (whether on-site or offsite);

d. Providing proof to the city of adequate public facilities;

e. Making provisions for future expansion of the public facilities as needed to serve future developments, subject to the city's oversize participation regulations (e.g., when the city will provide for the cost of oversizing facilities), if applicable;

f. Providing for all operations and maintenance of the public facilities, or if the city is not the provider, providing proof that a separate entity will be responsible for the operations and maintenance of the facilities;

g. Providing all fiscal security, if required, for the construction of the public facilities;

h. Obtaining approvals from any applicable utility providers other than the EPWU; and

i. Complying with all requirements of utility providers, including the city or other applicable providers.

3. Responsibilities of the Developer to Conform to Adopted Plans. The developer shall ensure that facilities provided are in conformance with the city's adopted plans, ordinances and regulations.

a. Proposed facilities serving new development shall conform to and be properly related to the public facility elements of the city's adopted comprehensive plan; other adopted master plans for public facilities and services, and applicable capital improvements plans, and shall meet the service levels specified in such plans.

b. The design and construction of all water and wastewater facilities to serve the subdivision shall be in conformance with the city's and EPWU's master plans for water and wastewater facilities and with the city's and EPWU's technical specifications. (Ord. 16882 § 2 (part), 2008)

19.46.020 Purpose, applicability and effect.

A. Purpose. The purpose of a proportionality appeal is to assure that the application of uniform dedication and construction standards to a proposed development projects does not result in a disproportionate burden on the property owner, taking into consideration the nature and extent of the demands created by the proposed development on the city's public facilities systems.

B. Applicability. An appeal under this title may be submitted by a property owner or applicant to contest any requirement to dedicate land or to construct public improvements for dedication to the public that is imposed to a plat application or to any related development application authorized by the city, whether the requirement is under uniform standards, or attached as a condition to approval of a permit. An appeal under this title shall not be used to waive standards on grounds applicable to any petition for an alternative subdivision designs, waiver, or exception as found in other chapters of this title.

C. Effect. If the relief requested under the appeal is granted in whole or in part by the city council, the dedication, fee or construction requirement initially imposed shall be modified accordingly. In the event the original application was denied by the decision-maker based upon the property owner's failure to incorporate the dedication or construction requirement in the proposed permit or plat, the application shall be remanded to the original decision-maker for a decision consistent with the relief granted by the council. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009)

19.46.030 Appeal requirements.

A. Who May Apply. A property owner or applicant may appeal when a dedication or construction requirement has been applied to development application, a plat, or is the basis for denying the plat application.

B. Form of Appeal. The appeal shall allege that application of the standard relating to the dedication, fee or construction requirement is not roughly proportional to the nature and extent of the impacts created by the proposed development on the city's water, wastewater, stormwater, parks, or roadway system, as the case may be, or does not reasonably benefit the proposed development.

C. Study required. The petitioner shall provide a copy of any studies submitted with the development application or plat that support the petition for relief including the following information:

1. Impact of the proposed development on the capacity of the city's water, wastewater, stormwater, parks, or roadway system to be utilized by the proposed development, employing standard measures of capacity and equivalency tables relating the type of development proposed to the quantity of system capacity to be consumed by the development. If the proposed development is to be developed in phases, such information also shall be provided for the entire development proposed, including any phases already developed.

2. Comparison of the capacity of the city's public facilities system(s) to be consumed by the proposed development with the capacity to be supplied to such system(s) by the proposed dedication of an interest in land or construction of capital improvements. In making this comparison, the impacts on the city's public facilities system(s) from the entire development shall be considered.

3. Any other information that shows the alleged disproportionality between the impacts created by the proposed development and the dedication or construction requirement imposed by the city.

D. Time for filing appeal and study. An appeal shall be filed with the responsible official within thirty business days from the date the requirement to dedicate land or to construct public improvements for dedication to the public is imposed on the applicant. The study in support of the petition shall be filed within sixty business days of the initial decision, unless the petitioner seeks an extension in writing. The responsible official may extend the time for submitting the study for a period not to exceed an additional thirty business days for good cause shown. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 18056, § 16, 8-6-2013)

19.46.040 Processing of appeals and decision.

A. Responsible official. The city manager or designee is the responsible official for processing a proportionality appeal.

B. Evaluation, recommendation. The city manager or designee shall evaluate the appeal and supporting study and shall make a recommendation to the city plan commission and city council based upon the information contained in the study, any comments received from El Paso County, and the engineer's analysis.

C. Decision-maker. The city council shall decide the appeal.

D. Hearing. The city council shall conduct a hearing in accordance with Chapter 19.39 of this title within sixty business days after the study supporting the petition is submitted to the director.

E. Burden of proof. The petitioner bears the burden of proof to demonstrate that the application of a dedication or construction requirement that is uniformly applied imposes a disproportionate burden on the petitioner.

F. Decision. The city council shall consider the petition for relief from a dedication, fee or construction requirement based upon the following criteria:

1. The city council shall determine whether the application of the standard or condition requiring dedication of an interest in land for public improvements or construction of capital improvements is roughly proportional to the nature and extent of the impacts created by the proposed development on such city's water, wastewater, stormwater, parks, or roadway system, and reasonably benefits the development.

2. In making such determination, the council shall consider the evidence submitted by the applicant, any testimony submitted by the applicant, the engineer's analysis and director's recommendation and, where the property is located within the city's extraterritorial jurisdiction, any recommendations from El Paso County.

G. Action. Based on the criteria in subsection E above, the city council shall, within thirty days following the hearing, take one of the following actions:

1. Deny the petition for relief, and impose the standard or condition in accordance with the initial decision; or

2. Grant the petition for relief, and waive any dedication or construction requirement to the extent necessary to achieve proportionality; or

H. Notification of decision on petition. The petitioner shall be notified of the decision on the petition for relief in the manner provided in Chapter 19.38 of the subdivision ordinance, within ten business days of the decision.

I. Effect. The relief granted on the petition shall remain in effect for the period the plat or related approved development application is in effect, and shall expire upon expiration of the plat or related application. (Ord. 16882 § 2 (part), 2008) (Ord. No. 17236, § 9, 11-10-2009; Ord. No. 17396, § 30, 8-24-2010; Ord. No. 17811, § 11, 6-5-2012, eff. 6-11-2012; Ord. No. 18627, § 4, 2-7-2017)

Chapter 19.47

RESERVED*

* **Editor's note**—Ord. No. 17539, § 1, adopted April 19, 2011, repealed Ch. 19.47, which pertained to vested rights and derived from Ord. 16882 § 2 (part), 2008; Ord. No. 1723, § 27, 11-10-2009; Ord. No. 17396, § 31, 8-24-2010.

Chapter 19.48

PETITION FOR WAIVERS OR EXCEPTIONS

Sections:

19.48.010 Purpose, applicability and effect.
19.48.020 Application and decision-maker.
19.48.030 Criteria for approval.
19.48.040 Effect of approval.

19.48.010 Purpose, applicability and effect.

A. Purpose. The purpose of a petition for a waiver or exception to the standards or requirements of this title is to determine whether one or more standards applicable to plats within this title should not be applied to an application.

B. Applicability. An applicant may file a petition for waiver or exception of one or more standards applicable to a preliminary plat, or where no preliminary plat application has been submitted for approval, to the standards applicable to a final plat in accordance with Chapters 19.04 and 19.08.

C. A petition for a waiver or exception shall not be accepted for a vested rights or proportionality determination under this chapter. (Ord. 16882 § 2 (part), 2008)

19.48.020 Application and decision-maker.

A. The waiver or exception petition shall be decided by the city plan commission in conjunction with the application for approval of the preliminary plat.

B. A request for a waiver or exception pursuant to this chapter shall be submitted in writing by the subdivider with the filing of a subdivision application. The request shall state fully the grounds for the waiver or exception request and all of the facts relied upon by the subdivider. No waiver or exception may be considered or granted by the city plan commission unless the subdivider has made written request for such request at the time of the subdivision application submittal, or an amended subdivision application submittal. (Ord. 16882 § 2 (part), 2008)

19.48.030 Criteria for approval.

A. The following criteria shall be applied in deciding a waiver or exception:

1. There are special circumstances or conditions arising from the physical surroundings, shape, topography or other feature affecting the land such that the strict application of the provisions of this title to the proposed use would create an unnecessary hardship or inequity upon or for the applicant, as distinguished from a mere inconvenience, in developing the land or deprive the applicant of the reasonable and beneficial use of the land;

2. The circumstances causing the hardship do not similarly affect all or most properties in the vicinity of the applicant's land;

3. The waiver or exception is necessary for the preservation and enjoyment of a substantial property right of the applicant;

4. Granting the waiver or exception will not be detrimental to the public health, safety or welfare, or injurious to other property within the area;

5. Granting the waiver or exception will not have the effect of preventing the orderly use and enjoyment of other land within the area in accordance with the provisions of this title, or adversely affect the rights of owners or residents of surrounding property;

6. The hardship or inequity is not caused wholly or in substantial part by the applicant;

7. The request for a waiver or exception is not based exclusively on the applicant's desire for increased financial gain from the property, or to reduce an existing financial hardship; and

8. The degree of variation requested is the minimum amount necessary to meet the needs of applicant and to satisfy the standards in this title.

B. Such findings by the city plan commission shall not have the effect of nullifying the intent and purpose of these regulations; the granting of the waiver or exception of conditions will not be

detrimental to the public safety, health or welfare or injurious to other property; the relief sought will not in any manner vary the provisions of any other city ordinance or regulation, the plan for El Paso, or the official zoning map of the city, except that those documents may be amended in the manner prescribed by law; and further provided, that the city plan commission shall not approve a waiver or exception unless it shall make findings based upon the evidence presented in each specific case.

C. Burden of Proof. The applicant bears the burden of proof to demonstrate that the application of a construction requirement that is uniformly applied imposes a disproportionate burden. The subdivider must also demonstrate an alternative method of development that will improve the aesthetic value of the subdivision while giving equal emphasis to safety, economy, tax yield, maintenance cost, response time, drainage, vehicular access and pedestrian passage.

D. Decision. The city plan commission shall consider the waiver or exception petition and, based upon the criteria set forth in subsection A above, shall take one of the following actions:

1. Deny the petition, and impose the standard or requirement as it is stated in this title; or

2. Grant the petition, and waive in whole or in part the standard or requirement as it is stated in this title. In approving a waiver or exception, the city plan commission may require such conditions as will, in its judgment, secure substantially the purposes described in this title.

E. Notification of Decision on Petition. The applicant shall be notified of the decision on the waiver or exception petition in the manner provided in Section 19.38.040. (Ord. 16882 § 2 (part), 2008)
(Ord. No. 17236, § 27, 11-10-2009)

19.48.040 Effect of approval.

Effect. The waiver or exception granted shall remain in effect for the period the plat or related approved application is in effect, and shall expire upon expiration of the plat or related application. Extension of the plat also shall result in extension of the relief granted on the petition. (Ord. 16882 § 2 (part), 2008)

Article 6. Definitions

Chapter 19.50

DEFINITIONS

Sections:

19.50.010 Usage and interpretation.

19.50.020 Definitions in other locations within this title.

19.50.030 Definitions.

19.50.010 Usage and interpretation.

A. Usage. The following definitions are intended to provide descriptions for words and terms used within this title. Absent any conflict, words and terms used in this title shall have the meanings ascribed thereto in this title.

B. Conflicts. When words and terms are defined herein, and are also defined in other ordinance(s) of the city, shall be read in harmony unless there exists an irreconcilable conflict, in which case the definition contained in this title shall control.

C. Present and Past Tenses. Words used in the present tense include the future; words in the singular number include the plural number, and words used in the plural number include the singular number.

D. Specific Word Usage. The word shall is mandatory and not directory. The word structure includes the word building.

E. Words Not Defined. For any definition not listed in this chapter of this title, the definition found within the latest edition of Webster's Dictionary shall be used. (Ord. 16882 § 2 (part), 2008)

19.50.020 Definitions in other locations within this title.

For the purpose of this title, certain terms and words are to be used and interpreted as defined within the articles or sections of this title wherein they apply to certain regulations. These sections include but are not limited to "subdivision ordinance, dormant projects," specifically within section 19.47.080. (Ord. 16882 § 2(part), 2008) (Ord. No. 17236, § 24, 11-10-2009)

19.50.030 Definitions.

As used in this title:

"Abutting" as defined in the zoning ordinance, also meaning "adjacent," "adjoining" and "contiguous to." It may also mean having a lot line in common with a right-of-way or easement, or with a physical improvement such as a street, waterline, park, Arroyo or open space.

Access or Accessway, Public or Private. "Public or private access or accessway" as defined in the zoning ordinance, a means of approaching or entering a property. Includes a right of passage to and from an adjacent street, alley or property.

"Accessory" means being secondary or subordinate to something else.

Acreage, Gross. "Gross acreage" as defined in the zoning ordinance, meaning the total area within a parcel of land.

Acreage, Net. "Net acreage" means the total area within a parcel of land, less any rights-of-way, open space or land dedicated to public use.

"Alley" as defined in the zoning ordinance, means a public way which is used primarily for vehicular access to the back or side of properties, and affords only secondary means of access to property abutting thereon.

Amending Plat. See "Plat, Amending."

"Amenity" means aesthetic or other physical improvements to a development that increase its quality, desirability, and/or marketability to the public. Amenities may vary according to the type and nature of development, and examples include a naturalized retention/detention pond (refer to definition herein), a recreational facility, landscaping or large trees.

Apartment. See "Dwelling - Multiple-Family."

"Appeal" means a request for review of and relief from any decision applying a provision of this code and which is authorized pursuant to this title, Article 5.

Application, Complete. See "Complete Application."

"Approval" means "approval" of any application, subdivision improvement plans, plat etc., constitutes a determination by the official, board, commission or city council responsible for such determination that the application or plans are in compliance with the minimum provisions of this title. Such approval is not an "approval" of the engineering or surveying contained in the plans as the design engineer or surveyor that sealed the plans is responsible for the adequacy of such plans.

Area of Lot. See "Lot Size."

"Area regulations" means the regulations controlling minimum lot area, minimum lot depth and width, maximum building area or coverage, as well as required front, side and rear yards, as contained in this title and in the zoning ordinance.

Arroyo. An "Arroyo," is a naturally occurring elongated depression in the earth, including the sloping sides from rim to rim, following an historic waterflow that may temporarily fill with water after a stormwater (see Stormwater) runoff event.

Arterial Thoroughfares. See "Street, Arterial."

"As-built/record drawings" means a group of drawings that depicts the final configuration of the installed or constructed improvements of a development, improvements which have been verified by the contractor as their installation or construction occurs during development. The as-built or record drawings should reflect the construction plans (or working drawings) used, corrected, and/or clarified in the field. For the purposes of this title, the terms "as-built drawing" and "record drawing" shall be interchangeable.

"Association" means usually a homeowners (HOA) or property owners association (POA). An incorporated or unincorporated nonprofit organization operating under recorded land agreements through which: (a) each lot owner in a planned unit or other described land area is automatically a member; (b) each lot is automatically subject to a charge for a proportionate share of expenses for the organization's activities such as maintaining common property; and (c) the charge, if unpaid, becomes a lien against the property.

"Bikelane" means a portion of a street that has been designated for exclusive use by bicycles, and which is distinguished from the rest of the roadway by a painted stripe, lane markings or other similar devices.

"Block" means an area enclosed by streets. If said word is used as a term of measurement, it shall mean the distance along a side of a street between two intersecting streets, or if the street is of a dead-end type, a block shall be considered to be measured between the nearest street and the end of such dead-end street.

"Block length" means the distance, as measured along the street centerline, from one end of a row or group of lots to the other end. A block is determined by the streets along its boundary which surround one or more lots. Such streets shall be through streets, not cul-de-sac streets. A block adjacent to a cul-de-sac shall not be counted as a block.

Bond. See "Security."

"Building" means any structure permanently affixed to a lot or lots and having a roof supported by columns or walls, for the housing or enclosure of persons, animals or property of any kind.

"Building" or "buildable area" means the portion of a lot or site, excluding required yard areas, setbacks or open space within which a structure may be built.

"Building code" means all regulations adopted by the city through the adoption of the various international building codes and titles 17 and 18 of the City Code.

"Building line" means a line at a specified distance from the street, marking the minimum distance from the street line that a building may be erected.

"Building official" means the building official shall be the person identified or designated pursuant to chapter 18.02 of this Code and is the individual who ensures compliance with the building codes of the City of El Paso, Texas, and with any applicable regulations within this title. This definition also includes any designee of the building official.

"Building permit" means an instrument in writing signed by the building official or other designated responsible official authorizing described construction on a particular lot.

"Build-to line" means an alignment that establishes a certain distance from the curb line to a line along which the building shall be built. The goal of a build-to line is to establish a uniformity of building frontages.

Centerline, streets or alleys. "Streets or alleys centerline" means an imaginary line erected midway between the bounding right-of-way lines of a street or alley. Where the bounding right-of-way lines are irregular, the centerline is to be determined by the subdivision improvement plan engineer. Where the street is private, the centerline shall be measured from the easement boundaries rather than right-of-way.

"Certificate of convenience and necessity (CCN)" means a permit issued by the Texas Commission on Environmental Quality (TCEQ) which authorizes and obligates a retail public utility to furnish, make available, render, or extend continuous and adequate retail water or sewer utility service to a specified geographic area.

"Certificate of occupancy" means a written instrument executed by the building official authorizing a described use of a lot or building as set forth in the building code and in this title.

"Certify" means whenever it is required that an agent or official attest to the existence of some fact or circumstance, the city by administrative rule may require that such declaration be made in any manner, oral or written, which provides reasonable assurance of the accuracy of the declaration.

"City" means the City of El Paso, Texas.

"City council" means the elected body that governs the City of El Paso under state law and charter and is authorized to adopt ordinances. It is responsible for the acceptance and maintenance of any offered dedications indicated on a plat by entry use or improvement within the city limits.

"City engineer" means the engineer appointed by the city manager to serve in this position, who shall furnish or cause to be furnished required assistance, approval of construction drawings as to compliance with City Codes, inspection and acceptance of public improvements in the administration of this title.

"City manager" means that person holding the office of city manager under the terms of the El Paso Charter.

"City plan commission" means the appointed board also known as the planning and zoning commission under state law which is responsible for subdivision approval within the corporate limits of El Paso and within the extraterritorial jurisdiction (ETJ).

"City planner." See "planning official."

"City standards" means all of the city's technical standards and specifications that apply to development, together with all tables, drawings, and other attachments. All city standards described or referred to in this title are adopted by reference and are a part of this title in the same way as if they were set out at length herein. See also the City of El Paso Street Design Manual (SDM).

"Clearing" means the removal of surface vegetation without modifying, impacting, or improving the drainage pattern(s).

Cluster Development. See "Subdivision, Cluster."

"Code" means the adopted Code of Ordinances of the City of El Paso titled "the El Paso City Code".

Collector Street. See "Street, Collector."

"Commence(ing) construction" means the initial disturbance of soils associated with clearing, grading, or excavating activities or other construction or development.

"Commercial unit development" means a platted lot, zoned for commercial, manufacturing or industrial uses, which is further divided into more than one lot and where all additional lots are provided access to a public or private street through a private easement. The access shall be a parcel of land over which a private easement for road purposes, having a minimum paved width of twenty

feet, is granted to all owners of property within the commercial unit development. In each instance the instrument creating such private easement, including the original agreement and any changes thereto resulting from the sale, lease or creation of additional lots, shall be held in perpetuity between all signatories, owners or lessees, to the agreement or their successors in interest, shall run with the land and be unseverable, and shall be duly recorded and filed with the office of the county clerk.

Commission. See "city plan commission."

"Complete application" means an application that meets the standards of this title and has been deemed complete by the city in accordance with Section 19.37.020 of this title and the Texas Local Government Code, Chapter 245, or successor statute.

"Comprehensive plan" means the official El Paso Comprehensive Plan titled "The Plan for El Paso" as defined in the zoning ordinance.

"Concept plan" means a component of the regulations for a planned development district that complies with the requirements of the zoning ordinance and the subdivision ordinance that illustrates elements of the proposed planned residential district, such as the location and arrangement of uses, the relationship of such uses to base zoning districts, development phasing, planned public improvements, open space, proposed amenities and the overall design of the development.

"Conservation covenant" means a voluntary declaration by a property owner of a covenant that is filed of record in the El Paso County Real Property Records on property and is intended to preserve permanently the conservation values of an area.

Construction. See "Development."

"Construction plans" means the drawings and technical specifications that conform to this title and all other applicable ordinances of the City of El Paso. Construction plans, including bid documents and contract conditions, where applicable, provide a graphic and written description of the character and scope of the work to be performed in construction of a development. See also Plans, Subdivision Improvement.

Corner Lot. See "Lot, Corner."

"Corporate limits" means the boundaries of the City of El Paso.

Council. See "City Council."

"County" means the County of El Paso, Texas.

"County commissioners' court" means the Court of the County of El Paso which is responsible for the maintenance of any offered dedications indicated on a plat by entry, use, or improvement within the extraterritorial jurisdiction.

Covenant, restrictive. "Restrictive covenant" also referred to as a "deed restriction," means a restriction on the use of land usually set forth or referred to in the deed. Such covenants shall run with the land and are binding upon present and subsequent owners of the property.

"Cul-de-sac" means a local street having one inlet/outlet to another street and terminated on the opposite end by a vehicular turnaround. A cul-de-sac has no intersections with other streets other than the one inlet/outlet.

Deed restriction. See "Covenant, Restrictive."

"Density" means the number of dwelling units that may be constructed per acre, calculated by dividing the site area by minimum required lot area in the underlying zoning district.

Depth of Lot. See "Lot Depth."

"Design standards for construction, El Paso (DSC)" means the detailed specifications, procedures and standards approved administratively for the purpose of regulating the design and construction of specified improvements. The DSC also includes checklists and application forms for approvals required by this title. The El Paso Design Standards for Construction are incorporated by reference to this title and are found in the Street Design Manual adopted as Appendix 113 to Title 19 of the El Paso City Code.

"Developer" means a person or governmental entity undertaking the division or improvement of land and other activities covered by this title, including the preparation of a plat showing the

layout of the land and the public improvements involved therein. The term "developer" is intended to include the terms "subdivider" and, when submitting platting documents, "applicant."

"Developer agreement" means an agreement, other than a "development agreement" or a "developer participation agreement," between the city and a property owner through which the city or property owner agrees to a schedule of improvements, a phasing of a project or any other agreement between the parties.

"Developer participation agreement" means an agreement between the city and a property owner through which the city or property owner agrees to pay a proportional percentage of a required public improvement or public amenity or for a portion of improvements in excess of those required under current ordinance.

"Development" means initiation of any activities related to the platting or subdivision of land or construction, reconstruction, conversion, or enlargement of buildings or structures, the construction of impervious surfaces (e.g., parking lots), the installation of utilities, roadways, drainage facilities or other infrastructure; or any disturbance of the surface or subsurface of the land in preparation for such construction activities, including without limitation removal of vegetation, grading, paving, clearing, filling, or removal of soil, and any mining, dredging, excavation or drilling operations.

"Development agreement" means an agreement authorized and in accordance with Section 212.172 of the Texas Local Government Code between the city and a property owner in the extra-territorial jurisdiction.

"Development application" either a petition for a legislative decision, such as a zoning amendment, or an application for a development permit, such as a plat or a building permit.

"Development coordinating committee" also known as the "DCC," means the committee of the city comprised of representatives of city departments and may include other agencies which are responsible for recommending implementation of subdivision ordinance requirements.

Development, Infill. "Infill development" means a new development on scattered or aggregated vacant parcels of land in a built up area.

"Development permit" means a decision by the commission, board or responsible official designated by this title, acting in an administrative or quasi-judicial capacity, that authorizes the holder of the permit to undertake one or more development activities or to file further applications needed to initiate or continue development activities authorized under this title. The filing of a complete application for a development permit may or may not stay the city from adopting new standards applicable to the permit or any subordinate permit, depending on the nature of the standards.

Development Plan. See "Land Study."

"Development standards" means all regulations, design standards, requirements and restrictions that apply to a development.

"Driveway" means an entranceway serving primarily vehicles that allows for access to a lot or facility, and is intended for vehicular movements between the roadway and any portion outside the street right-of-way.

"Dwelling" means a building, structure or portion thereof, designed or used primarily for residential occupancy with culinary and bathroom facilities. A dwelling does not include boats, trailers, motor homes, hotels, motels, motor lodges, boarding or lodging houses.

"Dwelling - multiple-family (apartment)" as defined in the zoning ordinance, means a building, or portion thereof, designed or used for occupancy by three or more families, all living independently of each other in separate dwelling units.

"Dwelling - single-family" as defined in the zoning ordinance, means a building designed for or occupied exclusively by one family.

"Dwelling - single-family detached" as defined in the zoning ordinance, means a dwelling unit for one family that is not attached to any other dwelling unit.

"Dwelling - town home" or "townhouse" as defined in the zoning ordinance, means a single-family dwelling designed to be sold as a unit, but forming one of a group or series of three or more attached single-family dwellings separated from one another by common property lines.

Easement, Emergency Access. "Emergency access easement" means an area created by plat or separate instrument filed with the office of the county clerk other than a dedicated street or place, or an alley, which is maintained free and clear of buildings, structures and other obstructions for the purpose of providing free passage of service and emergency vehicles.

"Easement private" means a right-of-way granted for the limited use of private land where general use and maintenance of such right-of-way is governed by an agreement which runs with the land. For the purposes of a commercial unit development, a private easement is in-severable therefrom, and is recorded with the office of the county clerk. A private easement may include certain improved portions of private land which are intended for the general use, enjoyment, convenience and benefit of all signatories, owners and lessees, and their permittees, including to, but not limited to, parking areas and spaces, roadways (including roads or lateral access drives), driveways, entrances to dedicated public or private streets, sidewalks, landscaped areas, and truck loading or delivery areas.

"Easement public" means an easement dedicated by subdivision plat or metes and bounds to and for use by the public, and which is included within the dimensions or area of lots or parcels.

Easement, utility. "Utility easement" means an easement dedicated by subdivision plat or metes and bounds to and for use by the public solely for utilities, either public or franchise, and which is included within the dimensions or area of lots or parcels.

"El Paso Water Utilities (EPWU)" means the public service board established May 22, 1952 by city Ordinance 752 to manage and operate the water and wastewater system for the City of El Paso.

"Enforcing officer" means the designated official of the City of El Paso or his designated representative that ensures that regulations are adhered to and standards required are met.

"Engineer" means a person who has been duly licensed by the Texas Board of Professional Engineers to engage in the practice of engineering in the State of Texas. (Also known as "engineer," "professional engineer," "registered engineer," "registered professional engineer," or "licensed engineer").

"Environmental protection agency (EPA)" means the U.S. Environmental Protection Agency, or, where appropriate, the administrator or other duly authorized official of that agency.

"Erect" means to construct, reconstruct, install or build.

"Erosion" means the wearing away of land surface by detachment and transport of soils by water and wind.

ETJ. See "Extraterritorial Jurisdiction."

"Excavation" means any digging, trenching, scraping or other activity that disturbs natural soil or rock to a depth of two feet or more, other than soil disturbance incidental to the removal of trees or vegetation.

"Exception" means a grant of relief to a person from the requirements of this title under certain conditions when specific enforcement would result in unnecessary hardship. An exception, therefore, permits construction or development in a manner otherwise prohibited by this title. Also, see "Waiver."

"Exemption" means a specified reason why a particular development is not subject to the requirements to plat or to a specific provision of this title.

"Extraterritorial jurisdiction (ETJ) means the unincorporated area, not a part of any other municipality, which is contiguous to the corporate limits of the City of El Paso, the outer limits of which are measured from the extremities of the

corporate limits of the city outward for the distance of five (5) miles as stipulated in Chapter 42 of the Texas Local Government Code and in which area the city may regulate subdivisions and enjoin violation of certain provisions of this title.

"Family" as defined in the zoning ordinance, means any individual or group of persons related by blood, adoption or marriage, or not more than five unrelated persons living as a single housekeeping unit or home.

Farm, Agricultural. "Agricultural farm" means an area used for the production thereon of farm crops such as vegetables, fruit trees, cotton, or grain, and the storage of such crops.

"Farm, ranching and livestock" means an area used for the raising thereon of the usual farm animals such as horses, chickens, cattle, and sheep and including the necessary accessory uses for raising, treating, and storing animals on the premises, but not including within the city limits the commercial feeding of offal or garbage to swine or other animals and not including any type of husbandry specifically prohibited by ordinance or law.

Filing. See "Submission."

Filing, Plat. See "Recording."

Final Plat. See "Plat, Final."

Freeway. See "Street, Freeway."

Frontage, Lot. "Lot frontage" as defined in the zoning ordinance, means the distance for which the front boundary line of the lot and the street line are coincident.

Frontage, Street. "Street frontage" as defined in the zoning ordinance, means all of the property on one side of a street between two intersecting streets (crossing or terminating), measured along the line of the street, or, if the street is dead-ended, then all the property abutting on one side between an intersecting street and dead-end of the street.

"Grade" means the horizontal elevation of any surface specified in percentage terms.

Grade, Building. "Building grade" means the average elevation of the highest and lowest elevation measured at the finished surface of the ground at any of the exterior corners of the building or structure.

"Grading" as used in this title shall have the same meaning as defined in Section 18.44.030.

"Green" means an open space, available for unstructured recreation. A green may be spatially defined by landscaping rather than by building frontages. Its landscape shall consist of lawns and trees, naturalistically disposed. The minimum size shall be one-half acre and the maximum shall be eight acres.

"Groundcover" means a spreading plant, including sods and grasses less than eighteen inches in height, used mainly for erosion control.

Impervious Cover. See "Coverage."

"Improved lot or tract" means a lot or tract that has a structure or other improvement on it that causes an impervious coverage of the soil under the structure or improvement.

"Improvement" means any man-made fixed item which becomes part of or placed upon real property.

Improvement, Public. "Public improvement" means any improvement, facility or service together with its associated public site, right-of-way or easement necessary to provide transportation, drainage, public or private utilities, parks or recreational, energy or similar essential public services and facilities, for which the city may ultimately assume the responsibility for maintenance and operation or ownership, or both.

Improvement, Temporary. "Temporary improvement" means improvements built and maintained by a subdivider during construction of the subdivision and removed prior to the acceptance of the improvements for maintenance or the release of any bond required if they are located within the subdivision. Temporary improvements built outside of the subdivision shall be removed when they are no longer necessary as approved by the subdivision improvement plan engineer.

"Interested person" means a person who is affected by a final decision of the city to the extent that such impact exceeds the impact of the deci-

sion on a member of the general public. An interested person may include any officer or agency of the city.

"Intersection" means the junction of any two public rights-of-way crossing at grade.

"Land study" means the initial plan for a subdivision to be developed in phases that delineates the sequence and timing of development within the proposed subdivision and that is reviewed and decided under Chapter 19.02 of this title. It is a plan submitted for the purpose of implementing an integrated development scheme for all phases of a proposed development and to foster general consensus regarding compliance with this title. For the purpose of vesting, a land study must meet all requirements of this title.

"Land use" means the purpose for which land, or the structure on the land, is being utilized.

"Landlock" means to prevent access to a lot or parcel of land, which has no other legal surface access to a public street.

"Landscaping" means an area devoted to and maintained predominantly with living plant material including lawn, groundcover, trees, shrubs, and other plant materials; and also including accessory decorative outdoor landscape elements such as fountains, paved or decorated surfaces (excluding driveways, parking, loading, or storage areas), and sculptural elements. Also may be referred to as landscaped area.

"Lot" means an undivided tract or parcel of land that is or may be offered for sale, conveyance, transfer or improvement and is designated as a distinct and separate tract, and which is identified by a tract, lot number, or symbol in a duly approved subdivision or development plat that has been properly filed of record. Such land is occupied or intended to be occupied by a main building or group of main buildings and accessory buildings, together with such yards, open spaces, lot width and lot areas as are required by as the zoning ordinance, and having frontage on a public accessway either shown on a plat of record or described by metes and bounds. Provided, however, that access may be provided through a private easement in a commercial unit development or in an alternative subdivision design in accordance with this ordinance.

"Lot area" means the square foot area or the acreage of a lot within the bounding property lines and exclusive of dedicated streets and alleys, but may include easements.

"Lot coverage." See "Coverage."

"Lot depth" as defined in the zoning ordinance, means the distance between the front and rear lot lines, measured as follows:

1. Where the lot lines are straight, from the midpoints thereof;

2. Where the lot line curves in or out, from the midpoint of the arc between the side property lines;

3. Where there is no rear lot line, the lot depth shall be the length of a straight line connecting the bisecting point of the front lot line and the intersection of the two sidelines.

"Lot line" means a property (ownership) boundary of a lot, as defined herein.

"Lot of record" means a lot shown upon a plan of subdivision or upon a plat attached or referred to in a deed described by metes and bounds in a deed recorded with the county clerk prior to the date of passage of the first El Paso subdivision ordinance or a tract specifically provided for in this title.

Lot width, average. "Average lot width" as defined in the zoning ordinance, means the lot area divided by the lot depth.

Lot, corner. "Corner lot" means a lot abutting upon two or more streets at their intersection(s), as defined in the zoning ordinance.

Lot, double frontage. "Double frontage lot" as defined in the zoning ordinance, means any lot having frontage on two streets which are nonintersecting or which intersect at an angle of less than or equal to seventy degrees with reference to the lot, as distinguished from a corner lot.

Lot, flag-shaped or panhandle. "Panhandle" or "flag-shaped lot" means an irregularly shaped

lot that takes its sole access via a long, narrow strip of land connecting the principal building site to a public street.

Lot, interior. "Interior lot" as defined in the zoning ordinance, means any lot having frontage on one street only.

Lot, key or keyed. "Key" or "keyed lot" means any lot having an essentially trapezoidal shape, with a rear boundary greater in width than the front boundary and located on a street curve having a centerline radius less than two hundred fifty feet.

Lot, substandard. "Substandard lot" means a lot that has less than the minimum area or minimum dimensions required in this title or in the zoning district in which it is located.

"Manufactured home" as defined in the zoning ordinance as a Dwelling - Manufactured Home (HUD-Code), means a structure constructed on or after June 15, 1976, according to the rules of the United States Department of Housing and Urban Development, transportable in one or more sections, which, in the traveling mode, is eight body feet or more in width or forty body feet or more in length, or, when erected on site, is three hundred twenty or more square feet, and which is built on a permanent chassis and designed to be used as a dwelling with or without a permanent foundation when connected to the required utilities, and includes the plumbing, heating, air-conditioning, and electrical systems. The term does not include a recreational vehicle as defined by 24 C.F.R. Section 3282.8(g).

"Manufactured/mobile home park" as defined in the zoning ordinance, means a parcel of ground, not a part of a manufactured home subdivision, providing sites for the parking or location of one or more occupied manufactured homes, travel trailers, recreation vehicles and similar units.

"Manufactured/mobile home subdivision" means a tract of land, laid out in accordance with this subdivision ordinance of the City of El Paso, intended for the specific purpose of providing individual lots for the placement of manufactured/mobile homes.

"Maximum" for the purposes of this title, "the maximum" means the amount that is required by this title of a developer, but a developer may choose to construct or provide less than the maximum unless otherwise specified.

"Median" means a strip of land that separates the opposing flows of traffic on a street, with level or depressed areas within it.

Median, flush. "Flush median" means a median which is level with the surface of the street and created by using header curbing, striping or other approved material.

Median, raised. "Raised median" means a median which is created by using standard curbing.

"Metes and bounds" means a method of describing the boundaries of land by directions and distances from a known point of reference.

"Minimum" for the purposes of this title, "the minimum" is the amount that is required of a developer, but a developer may choose to construct or provide additionally above the minimum required unless otherwise specified.

Minor Plat. See "Plat, Minor."

"Mobile home" as defined in the zoning ordinance, means a structure constructed before 1976 and regulated by the Texas Department of Housing and Community Affairs.

"Modification" means the making of a limited change, either required by ordinance or voluntary by the applicant, in a plat submission or set of subdivision improvement plans.

"Municipal utility district (MUD)" means a political subdivision of the State of Texas authorized by the Texas Commission of Environmental Quality (TCEQ) to provide water, sewage, drainage and other services within the MUD boundaries.

"Occupancy" means any utilization of real property.

"Official submittal date" means the date an applicant delivers the application or plan to the city or deposits the application or plan with the United States Postal Service by certified mail addressed to the city with all required fees and documents as stated on the application form, as de-

scribed by Section 19.37.040 of this subdivision ordinance. The official submittal date is also subject to complete application provisions within this title; see the definition of complete application as well as requirements within Section 19.37.020 of this title.

"Off-site" means any premises not located within the area of the property to be subdivided, whether or not in common ownership with the applicant for subdivision approval.

"Open space" as defined in the zoning ordinance and further defined as an area that is intended to provide light and air and is designed for either scenic or recreational purposes. Open space may mean and include, but is not limited to, lawns, decorative planting, desert areas, foothills, walkways, active and passive recreation areas, playgrounds, fountains, river banks, swimming pools, wooded areas and water courses. Open space shall not include driveways, parking lots or other surfaces designed or intended for vehicular travel or storage.

Open space, common. "Common open space" means a parcel or parcels of land, or an area of water in combination with land, within a site designed and intended for the use and enjoyment of residents and owners belonging to an association as defined herein. Common open space may contain such complementary structures and improvements as are necessary and appropriate for the benefit and enjoyment of residents and owners belonging to an association. Also may be referred to as common area. Also see the zoning ordinance.

Open space, private. "Private open space" as defined in the zoning ordinance, means an area that is intended to provide light and air and is designed for either scenic or recreational purposes. Open space may include, but is not limited to, lawns, decorative planting, desert areas, foothills, walkways, active and passive recreation areas, playgrounds, fountains, river banks, swimming pools, wooded areas and water courses. Open space shall not include driveways, parking lots or other surfaces designed or intended for vehicular travel or storage.

Open space, public. "Public open space" as defined in the zoning ordinance, means the land dedicated to and accepted by the City of El Paso that is specifically designated as open area to remain undisturbed in its natural state.

"Open space ratio/percentage" means the square foot amount of open space for each square foot of floor area within lot boundaries. This may be expressed as a percentage of open space within lot boundaries.

Open space, usable. "Usable open space" means an open area or recreational facility that is designed and intended to be used for outdoor, active or passive, recreation purposes. An area of usable open space has a slope that does not exceed ten percent, and no dimension of less than ten feet. An area of usable open space may also include landscaping elements (e.g., trees, ground cover), trails, recreational facilities, water features and decorative objects such as art or fountains.

"Owner" means the legal or beneficial owner of a site, including, but not limited to, a mortgagee or vendee in possession, receiver, executor, trustee, lessee or other person, firm or corporation in control of the site.

"Parcel" means a contiguous tract of land owned by or recorded as the property of the same person(s) or controlled by a single entity.

"Park and/or playground" means a publicly- or privately-operated recreation facility, including any land area, which is designed to serve the recreation needs of El Paso citizens and visitors. Such park or playground may be private, used for the exclusive use of private residents or neighborhood groups and their guests and not for use by the general public. Such park or playground may be public, used by the general public without membership or affiliation.

"Park zone" means the residential areas surrounding a proposed or existing park or other recreational facility that can reasonably derive benefit from that park or other recreational facility pursuant to the El Paso Comprehensive Park and Open Space Plan. The city has divided its corporate limits into one square mile park zones which

shall be used for acquisition or development of parkland or other recreational facilities; where credit may be applied as part of an off-site dedication of parkland or other recreational facilities; or where bonus reductions for recreational improvements to parkland or other recreational facilities may be given.

"Parking area" or "parking lot" as defined in the zoning ordinance, means an area, not including a street or alley right-of-way, containing one or more parking spaces for motor vehicles, designed in accordance with the requirements of Chapter 20.14, and intended as an accommodation for patrons, customers, and employees, either with or without a charge for such accommodation.

Parking space, off-street. "Off-street parking space" as defined in the zoning ordinance, means an area, not including a street or alley right-of-way, permanently reserved for the temporary storage of one motor vehicle, meeting all of the requirements of Chapter 20.14.

"Parkway" as defined in the zoning ordinance, means that area of street right-of-way between the property line and the curb or, in the absence of a curb, between the property line and the nearest edge of the street paving.

"Pedestrian way" means a specifically designated place, path, means, or way by which pedestrians shall be provided safe, adequate and usable circulation through the interior of a property or development and outside any portion of an accessway.

Performance guarantee. See "Security."

"Permit" means the written governmental permission required for undertaking any land development activity issued by an authorized official, empowering the holder thereof to do some act not forbidden by law, but not allowed without such permission.

Permit, borrow or waste. "Borrow or waste permit" as defined and governed in Title 18, Grading, of this code.

Permit, clearing and access. "Clearing and access permit" as defined and governed in Title 18, Grading, of this code.

Permit, final grading. "Final grading permit" as defined and governed in Title 18, Grading, of this code.

Permit, prefinal grading. "Prefinal grading permit" as defined and governed in Title 18, Grading, of this code.

Permit, site preparation. "Site preparation permit" means any permit or series of permits issued under Title 18 and/or this title, that authorizes site preparatory activities other than construction or placement of a structure on the land under one or more site plans and that, upon approval, authorizes the property owner to apply for a construction permit.

"Person" means a human being, his heirs, executors, administrators, or assigns and also includes a firm, partnership, corporation or other legal entity authorized by law, its or their successors or assigns, or the agent of any of the aforesaid.

"Petition for relief from dedication or construction requirement" means a request for relief from a requirement imposed under this title to dedicate or construct a public improvement based on constitutional standards, and that is reviewed and decided under this title, Chapter 19.46.

Plan, drainage shed control. "Drainage shed control plan" means a conceptual plan for the development of stormwater infrastructure as provided for in Chapter 19.19 of this title.

Plan, master grading. "Master grading plan" means a conceptual plan which shows the proposed phased grading and its effect on adjacent properties.

Plan, temporary and permanent erosion control. "Temporary and permanent erosion control plan" means a plan which shows erosion control measures proposed for the period before and after improvements are completed.

"Planning official" means the planning official as defined in Chapter 1.04 of this Code. He is responsible to coordinate the subdivision review process, gather all staff comments and recommendations and convey such recommendations to the

city plan commission and city council. The planning official is also authorized under this title to approve certain plats.

Plans, subdivision improvement. "Subdivision improvement plans" means the plans required by the city for the construction and installation of public improvements necessary to provide required services for proper development; including, but not limited to, plans for grading, drainage facilities, water and sewer, open space, parks or other recreational space, streets and illumination of streets. See also Construction Plans.

"Plat" means a map, drawing or plan showing the exact layout and proposed construction of a proposed development into one or more lots, blocks, streets, parks, school sites, commercial or industrial sites, easements, alleys and/or any other elements as required by this title and which a subdivider shall submit for approval in accordance with this title.

Plat, amending. "Amending plat" means a plat with minor changes to a recorded subdivision as itemized and authorized in Section 19.07.040 of this title.

Plat, development. "Development plat" means a plat required prior to development in accordance with Texas Local Government Code, Chapter 212.045 in lieu of other plats required by this title in accordance with Chapter 19.05.

Plat, final. "Final plat" means the plat of a subdivision for which platting is required which, when authorized, submitted and approved as regulated by this title, Chapter 19.04, will be recorded in the official public records. Such plat is a final plat submitted under state statute and is subject to the thirty-day approval limitation. A combination plat comprised of the preliminary and final plats, as authorized and approved under this title, shall also constitute a final plat.

Plat, minor. "Minor plat" means a plat dividing land into no more than four lots that meets the submission and approval requirements of Chapter 19.06 of this title. Such plat is considered the final plat submitted under state statute and is subject to the thirty-day approval limitation.

Plat, preliminary. "Preliminary plat" means a plat that illustrates and thereby assures the general layout of a proposed subdivision, the adequacy of public facilities needed to serve the proposed subdivision, and the overall compliance of the applicable requirements of this title and that is reviewed and decided prior to approval of a final plat. This type of plat is authorized under Chapter 19.03 of this title.

Plat, recorded. "Recorded plat" means a plat that has received all approvals required by this title and has been filed with the county clerk of the County of El Paso. Recording of a plat creates buildable lots with legal descriptions and dedicates rights-of-way and easements to the use of the public.

Plat, vacated. "Vacated plat" means a subdivision which is vacated through the procedures described in this title and is made legally void.

"Plaza" means an open space available for civic purposes and commercial activities. A plaza shall be spatially defined by building frontages. Its landscape shall consist primarily of hard surface, such as pavement, concrete, stamped concrete or brick pavers. Trees are optional. Plazas should be located at the intersection of important streets. The minimum size shall be one-fourth acre and the maximum shall be two acres.

"Pocket park" means an open space used for active or passive recreation, usually less than one acre.

Pond, amenitized detention/retention. "Amenitized detention/retention pond" means an area that is designed to capture, store and release stormwater and that is designed as a site amenity by being aesthetically pleasing, by providing recreational or aesthetic value, and by being constructed to seem natural (i.e., without visible concrete). Such areas have a natural edge and are designed to resemble a naturally created lake or pond. Also refer to the definition of amenity above.

Pond, detention. "Detention pond" means a man-made or natural reservoir, either public or private, designed to restrict the flow of stormwater to a prescribed maximum rate through a con-

trolled release by gravity, and to concurrently detain the excess waters that accumulate behind the control structure. Further defined within the City of El Paso Street Design Manual (SDM).

Pond, retention. "Retention pond" means a man-made or natural reservoir, either public or private, designed to completely retain a specified amount of stormwater runoff without gravity release. Further defined within the City of El Paso Street Design Manual (SDM).

Ponding, on-site. "On-site ponding" means the process of containing surface water runoff within individual lots.

Preliminary plat. See "Plat, Preliminary."

"Project" means a land development project.

"Property line" as defined in the zoning ordinance, means the official boundary of a parcel, lot, or tract of land as designated by either a metes and bounds description or recorded subdivision plat filed in the records and maps of the county clerk.

"Property owner" means the person(s) with legal title to the property, whether or not the person is in possession of the property.

"Proportional share" means the developer's portion of the costs of an exaction or public improvement as determined and in accordance with Texas Local Government Code 212.904 and considered to be the "roughly proportional share" of such exaction or public improvement that is created by a proposed development or subdivision.

"Public facility" means any public improvement providing required services for proper development, including, but not limited to, streets, bridges, public buildings, public works buildings or facilities, water systems, sanitary and storm sewerage systems, sanitary landfills, retention dams or basins and community facilities, such as parks, fire stations, libraries, schools, and health clinics.

"Public improvement district (PID)" means an assessment district set up under state law and the authority of the city to finance certain public improvements with assessments on property within the district, based on the benefit to the individual properties.

Public right-of-way. See "Right-of-way, Public."

"Public utility" as defined in the zoning ordinance, means a closely regulated enterprise existing under the provisions of chapter 402 of the Texas Local Government Code or of title 32, chapter 10 of the Texas Revised Civil Statutes, which provides to the public a utility service deemed necessary for the public health, safety and general welfare. For purposes of this title, a municipality owning or operating a public utility system or an entity with a franchise with the city or the state to provide a public utility system shall be considered a public utility.

"Public utility facility" as defined in the zoning ordinance, means the buildings, structures and facilities relating to the furnishing of public utility services to the public.

"Public utility service" as defined in the zoning ordinance, means a service essential to the health, safety and general welfare of the public, such as the generation, transmission and/or distribution of electricity, gas, steam, communications, and water; the collection and treatment of sewage and solid waste; the collection, storage or diversion of surface waters from land; and the provision of mass transportation.

Record drawings. See "As-Built/Record Drawings."

"Recording" means the act of processing a subdivision plat, which has been approved by the city as required by this title, as an official record in the deeds and records section of the office of the county clerk.

"Remainder tract" means land that is part of a larger parcel that is not subject to a subdivision plat affecting the parcel.

"Replat" means to resubdivide all or any part of a recorded subdivision, that is beyond the definition of an amending subdivision and which does not require the vacation of the entire preceding plat.

"Residential use" means the use of land by a dwelling unit or group of dwelling units.

"Responsible official" means the city staff person who has been designated by the city manager to accept a type of development application for filing, to review and make recommendations concerning such applications, and where authorized, to initially decide such applications, to initiate enforcement actions, and to take all other actions necessary for administration of the provisions of this title with respect to such development applications. Also includes any designee of the designated city staff person.

Resubdivision. See "Replat."

"Right-of-way" ("ROW") means property that is publicly owned or upon which a governmental entity has an express or implied property interest (e.g. fee title, easement, etc.) held for a public purpose. Examples of such public purpose include, by way of example and not limitation, highways, streets, sidewalks, drainage facilities, sewerage and water facilities.

"Roadway" means the paved area of a street between the face of the curb lines including the driving and parking lanes which is provided for the movement of vehicles.

Roadway, centerline. See "Centerline."

Route, accessible. "Accessible route" means a continuous unobstructed path connecting all accessible elements and spaces of a building, facility or site.

"Screening" as defined in the zoning ordinance, means a hedge, earth berm, wall or fence constructed in accordance with the requirements of the ordinance codified herein to provide a visual separator or physical barrier.

"Screening wall" means a solid vertical barrier constructed of masonry materials that is intended to separate and limit visibility between that which is on either side of the barrier, for example adjacent land uses or particular site elements.

"Security" means a surety instrument or other financial mechanism to guarantee performance of an act or construction of required improvements in accordance with Section 19.08.040, and in an amount and form satisfactory to the city plan commission, the city council or the county commissioner's court as applicable.

"Setback line" also referred to as "setback." As defined in the zoning ordinance, means the distance between a structure and the nearest lot line.

Sewage. See "Wastewater."

"Shopping center" as defined in the zoning ordinance and further defined as a commercial development such as a strip center, mall, or multitenant retail building, in which two or more separate retail businesses occupy a single or multiple structures which share on-site parking and common driveways.

"Sidewalk" means a hard surface area other than a roadway, used for the movement of pedestrians.

"Site" means a tract of property that is the subject of a development application.

"Site development plan" means the final step of the development process within a zoning district, if required by the zoning or this title.

"Site plan" means a scaled and detailed drawing that conforms to the requirements of this title, and that shows the roads, parking, footprints of all buildings, existing trees, proposed landscaping, parkland, open space, grading and drainage, and similar features needed to verify compliance with the city's approved comprehensive plan and development standards.

Site preparation permit. See "Permit, Site Preparation."

"Square" means an open space available for unstructured recreation and civic purposes. A square is spatially defined by building frontages. Its landscape shall consist of paths, lawns and trees, formally disposed. Squares shall be located at the intersection of important thoroughfares. The minimum size shall be one-half acre and the maximum shall be five acres.

"Stormwater" means the surface drainage runoff or flow created from any form of precipitation accumulation including rain, snow, sleet and/or hail that exceeds the interception by vegetation and infiltration into the soil. The following defini-

tions are applicable to the management of stormwater and apply to any stormwater requirement contained in this title, in Chapter 19.19, stormwater or in the SDM. All other definitions shall be in accordance with Article 6.

1. Applicant: A person submitting a post-development stormwater management application and plan for approval.

2. Channel: A natural or artificial watercourse with a definite bed and banks that conducts continuously or periodically flowing water.

3. Drainage design manual (DDS): The detailed specifications, procedures and standards approved by resolution of the city council for the purpose of regulating the design and construction of specified stormwater and drainage improvements.

4. Flooding: A general and temporary condition of partial or complete inundation of normally dry land areas from:

a. The overflow of inland or tidal waters;

b. The unusual and rapid accumulation or runoff of surface waters from any source.

5. Floodplain manager: The Texas licensed professional engineer designated by the city manager as the responsible official and initial decision-maker to administer and implement the provisions of Chapter 18.60 of this code and other appropriate Sections of 44 CFR (National Flood Insurance Program regulations) pertaining to floodplain management.

6. Inspection and maintenance agreement: A written agreement providing for the long-term inspection and maintenance of storm water management facilities and practices on a site or with respect to a land development project, which when properly recorded in the deed records constitutes a restriction to a site or other land involved in a land development project.

7. Non-point source pollution: A form of water pollution that does not originate from a discrete point such as a sewage treatment plant or industrial discharge, but involves the transport of pollutants such as sediment, fertilizers, pesticides, heavy metals, oil, grease, bacteria, organic materials and other contaminants from land to surface water and groundwater via mechanisms such as precipitation, stormwater runoff, and leaching. Non-point source pollution is a by-product of land use practices such as agricultural, mining, construction, subsurface disposal and urban runoff sources.

8. Nonstructural stormwater management practice or nonstructural practice: Any natural or planted vegetation or other nonstructural component of the stormwater management plan that provides for or enhances stormwater quantity and/or quality control or other stormwater management benefits, and includes, but is not limited to, riparian buffers, open and greenspace areas, overland flow filtration areas, natural depressions, and vegetated channels.

9. Post-development: The time period, or the conditions that may reasonably be expected or anticipated to exist, after completion of the land development activity on a site as the context may require.

10. Pre-development: The time period, or the conditions that exist, on a site prior to the commencement of a land development project and at the time that plans for the land development of a site are approved by the plan approving authority. Where phased development or plan approval occurs (preliminary grading, roads and utilities, etc.), the existing conditions at the time prior to the first item being approved or permitted shall establish pre-development conditions.

11. Redevelopment: A land development project on a previously developed site, but excludes ordinary maintenance activities, remodeling of existing buildings, resurfacing of paved areas, and exterior changes or improvements which do not materially increase or concentrate stormwater runoff, or cause additional non-point source pollution.

12. Runoff: Stormwater runoff.

13. Site: The parcel of land being developed, or the portion thereof on which the land development project is located.

14. Stormwater management: The collection, conveyance, storage, treatment and disposal of stormwater runoff in a manner intended to prevent increased flood damage, stream bank channel erosion, habitat degradation and water quality degradation, and to enhance and promote the public health, safety and general welfare.

15. Stormwater administrator: The person designated by the city manager to be the responsible official and initial decision maker for applications pertaining to drainage plans and other drainage decisions as may be required in Title 18, Building and Construction and Chapter 19.19, Storm Water Management Requirements.

16. Stormwater management facility: Any infrastructure that controls or conveys stormwater runoff.

17. Stormwater management measure: Any stormwater management facility or nonstructural stormwater practice.

18. Stormwater management plan: A document describing how existing runoff characteristics will be affected by a land development project and containing measures for complying with the provisions of this title.

19. Stormwater management system: The entire set of structural and nonstructural stormwater management facilities and practices that are used to capture, convey and control the quantity and quality of the stormwater runoff from a site.

20. Stormwater runoff: The flow of surface water resulting from precipitation.

21. Structural stormwater control: A structural stormwater management facility or device that controls stormwater runoff and changes the characteristics of that runoff including, but not limited to, the quantity and quality, the period of release or the velocity of flow of such runoff.

"Stormwater open space" means a natural open area to be used to help manage storm water, reduce flooding risk and improve water quality as its primary purposes, while still permitting passive recreational use of the open space as secondary purposes to the area. Water, waste water, and stormwater utility systems within areas designated for stormwater open space shall be designed with environmentally sensitive infrastructure and constructed with a low impact development (LID) approach to the extent permitted in the city's subdivision regulations. Any area designated as stormwater open space shall require the approval of the floodplain administrator, shall conform to the master stormwater management plan and open space master plan of the city, and shall be shown within the boundaries of any required land study, subdivision plat, detailed site development plan, master zoning plan, SmartCode regulating plan, or any other platting or zoning document as may be required by the city.

"Street" means the entire width between property lines when any part thereof is open to the use of the public, as a matter of right, for the purpose of vehicular traffic. This definition shall include public as well as private streets. An "Alley" is not considered to be a street, and is separately defined herein.

1. Street, Arterial. A street designed to accommodate cross-city traffic movement, distributing traffic to and from collector streets, as indicated by the El Paso Comprehensive Plan or any individual element thereof.

2. Street, boulevard. A street, similar to an arterial and designed to accommodate cross-city traffic movement, distributing traffic to and from collector streets, as indicated by the El Paso Comprehensive Plan or any individual element thereof. A boulevard, however, is designed with marginal access roads and medians and parkways which are landscaped to provide a more aesthetic streetscape.

3. Street, collector. A street designed to collect traffic from local streets (i.e., subcollector and local) and connect with arterial streets and freeways, as indicated by the El Paso Comprehensive Plan or any individual element thereof.

4. Street, freeway. An access controlled, high speed street designed to accommodate cross-country and/or limited cross-city traffic movement, with grade separation at major intersections, as indicated by the El Paso Comprehensive Plan or any individual element thereof.

5. Street, local. A street designed exclusively to provide direct access to abutting property.

6. Street, subcollector. A street designed, generally, to accommodate traffic movement from local streets to higher classifications of streets as well as provide direct access to activity on abutting lots. Specifically, a subcollector is any street or portion thereof designed exclusively to provide direct access to property within nonresidential zoning districts, any street or portion thereof providing the shortest direct route to a collector street for twenty-five or more dwelling units, or any street segment extending without offset and connecting two or more collector streets.

Street centerline. See "Centerline."

"Street Design Manual" and/or "(SDM)" means Appendix 113 of Title 19 of the El Paso City Code. The Street Design Manual is the detailed specifications, procedures and standards approved for the purpose of regulating the design and construction of specified improvements.

Street, private. "Private street" as defined in the zoning ordinance, means a privately owned accessway within an approved planned development for which the private owners assume full responsibility for maintenance and control and which has not been dedicated to the use of the public.

Street, public. "Public street" as defined in the zoning ordinance, means an accessway dedicated to the use of the public which has been accepted for maintenance and control by the city, county or state.

Street, stub. "Stub street" means a street that has been designed to allow for the future extension of the street through subsequent subdivisions.

Street, substandard. "Substandard street" means an existing street that does not meet the current minimum street standards of the city.

"Structure" as defined in the zoning ordinance, means that which is built or constructed, an edifice or building of any kind or other artificially built or constructed work.

"Subdivide" means when the owner of a tract of land within the limits or in the extraterritorial jurisdiction divides the tract into two or more parts to lay out a subdivision of the tract, including an addition to a municipality, to lay out suburban, building or other lots, or to lay out streets, alleys, squares, parks or other parts of the tract intended to be dedicated to public use or for the use of purchasers or owners of lots fronting on or adjacent to the streets, alleys, squares, parks or other parts. A division of a tract under this definition includes a division regardless of whether it is made by using a metes and bounds description in a deed of conveyance or in a contract for a deed, by using a contract of sale or other executory contract to convey or by using any other method.

1. This does not include a division of land into parts greater than five acres, where each part has access and no public improvement is being dedicated.

2. This does include the assembly of two or more tracts of land into one tract or lot, unless specifically authorized by this title.

3. It also includes the following changes to a recorded plat, unless specifically authorized by this title:

a. A resubdivision of all or part of the subdivision;

b. Any change of lot size or lot lines; or

c. The relocation of any street.

"Subdivider" means any person or any agent of the person, who either directly or indirectly, divides or proposes to divide land, so as to constitute a subdivision, as that term is defined in this title. In any event, the term "subdivider" is restricted to include only the owner, equitable owner or authorized agent of the owner or equitable owner of land to be subdivided. The term "developer" shall also mean subdivider when the context of such use relates to a subdivision or other division of land.

"Subdivision" pertaining to land for which a plat has been recorded, subdivision means an area of subdivided lots; pertaining to the act of subdividing land, see the definition of subdivide herein.

Subdivision, cluster. "Cluster subdivision" means a grouping of individual building lots or

sites in close proximity, each of which or the majority of which has less land area than required for isolated individual lots, with the additional area in the cluster subdivision being devoted to open space, recreation space, car spaces and access facilities in addition to required yards.

Subdivision Improvement Design Standards. See "Design Standards for Construction, El Paso (DSC)."

Subdivision improvement plans. See "Plans, Subdivision Improvement."

"Submission" means the process by which a person desiring approval of a subdivision plat or subdivision improvement plans makes application to the city manager, the planning official, or their designee, which application meets all of the submission requirements.

"Surveyor" means a registered professional land surveyor, as licensed by the State of Texas.

"TAC" means the acronym for the Texas Administrative Code.

"TCEQ" means the acronym for the Texas Commission on Environmental Quality.

Thoroughfare, Major. See "Street, Arterial."

"Thoroughfare Plan" means the thoroughfare plan element of the comprehensive plan including the "2025 Thoroughfare System Map" as amended, and all other adopted thoroughfare plans of the City of El Paso.

Traffic, average daily (ADT). "Average daily traffic (ADT)" means the average number of vehicles that pass a specified point during a twenty-four hour period.

"Traffic impact analysis or study (TIA)" means a report analyzing current and future traffic movements with and without a subdivision's impact and which includes an analysis of mitigation measures.

"Trips" means the total number of vehicles, bicycles and pedestrians that pass a specified point during a specified time period.

Trips, average daily. "Average daily trips" means the average number of trips that pass a specified point during a twenty-four hour period.

Trips, peak hour. "Peak hour trips" means the total number of trips passing a specified point during the peak hour. The peak hour is the hour during the specified AM or PM period with the highest recorded traffic volumes on the impacted roadway network.

"TXDOT" means the acronym for the Texas Department of Transportation.

"Utility" means a business that provides an essential commodity or service, such as electric, gas transmission, and local telephone, and that is generally under government regulations.

"Utility green space" means an area of protected or conserved land, larger than ten acres, where development is limited or controlled to preserve the area as undisturbed open space as its primary purpose, while still permitting passive recreational uses and necessary water, waste water and stormwater utility systems as secondary purposes to the area. Utility green space shall be shown within the boundaries of any required land study, subdivision plat, detailed site development plan, master zoning plan, SmartCode regulating plan, or any other platting or zoning document as may be required by the city.

"Utility manager" means the Public Service Board of the El Paso Water Utilities or their designated representative that will furnish engineering assistance, approval of utility construction drawings, inspection and acceptance of water and wastewater improvements in the administration of this title.

Utility, public. See "Public Utility."

"Variance" for the purposes of this title, a variance means a procedure defined under the replatting standards contained in Chapter 212 of the Texas Local Government Code.

"Vested right" means a right of an applicant in accordance with Chapter 245 of the Texas Local Government Code, as amended, requiring the city to review and decide the application under standards in effect prior to the effective date of the standards of this title and/or of any subsequent amendments.

"Vested rights petition" means a request for relief from one or more standards of this title based on an assertion that the petitioner has acquired a vested right requiring the city to review and decide the application under standards in effect prior to the effective date of the standards of this title. Such petition is regulated under Title 1, Section 1.04.070.

"Violation" means the failure of a development to fully comply with this article.

"Waiver" means authorization to deviate from or vary one or more standards applicable to a development application; such authorization is applied for, reviewed, and decided under this title, Chapter 19.48. Also, see Exception.

Waiver of rights. Still being defined by attorney.

"Wastewater" means water which has been used for domestic, commercial or industrial purposes and has acquired contaminants which must be removed by wastewater treatment processes prior to release in the environment or reuse as treated wastewater or effluent.

Wastewater disposal system, on-site. "On-site wastewater disposal system" means one or more systems of treatment devices and disposal facilities that are used only for disposal of wastewater produced on the site where the system is located.

"Wastewater facilities" means the devices and systems which transport domestic wastewater from any property, treat the wastewater, or dispose of the treated wastewater in accordance with the minimum state standards.

Wastewater facility, on-site. "On-site wastewater facility" means an on-site sewage disposal system.

Wastewater system, public. "Public wastewater system" means a facility owned and operated by a legal entity created under the State of Texas, with authority and responsibility to construct, operate and maintain a wastewater disposal system.

"Water department" means El Paso Water Utilities.

Water, drinking or potable. "Drinking or potable water" means all water distributed by any agency or individual, public or private, for the purpose of human consumption or which may be used in preparation of foods or beverages, or for the cleaning of any utensil or article used in the course of preparation or consumption of food for human beings.

Water system, nonpublic. "Nonpublic water system" means any water system supplying potable water which is not a public water system.

Water system, public. "Public water system" means a facility owned and operated by a legal entity created under the laws of the State of Texas, with authority and responsibility to construct, operate and maintain a potable water system. The system must provide piped water for human consumption and for all uses described under the definition for drinking water to the public. Such system must have a potential for at least fifteen service connections or serve at least twenty-five individuals at least sixty days out of the year. This term includes any collection, treatment, storage and distribution facilities under the control of the operator of such system and used primarily in connection with such system; and any collection or pretreatment storage facilities not under such control which are used primarily in connection with such system. Two or more systems with each having a potential to serve less than fifteen connections or less than twenty-five individuals but owned by the same person, firm, or corporation and located on adjacent land will be considered a public water system when the potential service connections in the combined systems are fifteen or greater of if the total number of individuals served by the combined systems total twenty-five or more at least sixty days out of the year.

"Water storage" means impounded surface water areas or surface tanks used for storage.

"Yard" including front, rear or side; as defined in the zoning ordinance, means that part of a lot at grade between a building and the adjoining lot lines, unoccupied and unobstructed by any portion of a structure from the ground upward to the sky, except for permitted projections from the ground such as landscaping, fencing or walls.

"Zero lot line" as defined in the zoning ordinance, means a property line on which a structure is constructed upon, resulting in no yard on that side.

"Zoning ordinance" means Title 20 of the city code. Definitions referred to in this ordinance are located in Chapter 20.02 of this Code.

(Ord. 16912 § 3, 2008; Ord. 16882 § 2(part), 2008; Ord. No. 17236, §§ 8, 25, 26, 27, 11-10-2009; Ord. No. 17251, § 13, 12-15-2009; Ord. No. 17396, §§ 32—34, 8-24-2010; Ord. No. 17517, § 2, 3-29-2011; Ord. No. 17528, § 2, 4-12-2011; Ord. No. 17539, § 2, 4-19-2011; Ord. No. 17905, § 3, 11-6-2012; Ord. No. 19327, §§ 47—52, 4-26-2022)

Article 7. Fees

Chapter 19.60

Fees for Services

Sections:

19.60.010 Authorized fees.

19.60.010 Authorized fees.

The city department charged with administering this Title 19 is authorized to charge fees for all services provided under this Title 19 including but not limited to fees for any review of plans, review of documents, inspections, application review, application processing, and permit issuance. All fees shall be in the amount authorized by city council in the annual budget resolution adopted by city council.

(Ord. No. 19078, § 1, 8-4-2020)

Article 8. Conflict of Laws

19.65

Conflict of Laws

Sections:

19.65.010 Conflict of laws.

19.65.010 Conflict of laws.

In the event that any portion of Title 19 (Subdivision and Development Plats) conflicts with V.T.C.A., Local Government Code Ch. 212, the conflicting portion of Title 19 shall be replaced with the prevailing portion of V.T.C.A., Local Government Code Ch. 212, as may be amended.

(Ord. No. 019535, § 1, 8-29-2023)

APPENDIX 111 MOUNTAIN AREA DEFINED

Property located within the area described as follows shall be within the mountain development area:

Beginning at a point common to Sections 3, 4 and 7, Block 81, Tsp. 2, T & P RR Co. Surveys, and the northwest corner of Park Foothills Unit Six Subdivision;

Thence, southerly along the east line of Section 7, Block 81, Tsp. 2, T & P RR Co. Surveys a distance of 3,330 more or less to the north right-of-way line of Zircon Drive;

Thence, west along the north right-of-way line of Zircon Drive a distance of 1,450 feet more or less to the west right-of-way line of Mountain View Drive;

Thence, south along the west right-of-way line of Mountain View Drive a distance of 1,170 more or less to the north line of High Point Unit One Subdivision;

Thence, westerly and southerly along the boundary of High Point Unit One to the North boundary of Lot 20, Block 3, Park North Unit Four;

Thence, westerly, northerly, westerly, southerly, westerly and southerly direction of Park North Unit Four, Unit Two and Unit Three to the southwest corner of Lot 2, Block 4, Park North Unit Three;

Thence, southeasterly along the westernmost survey line of Tracts 2H and 14L, Section 14, Block 81, Tsp. 2, T & P RR Co. Surveys to a point, said point being the northeast corner of Tract 6, Section 14, Block 81, Tsp. 2, T & P RR Co. Surveys;

Thence, southerly along the eastern boundary of Tract 6, Section 14, Block 81, Tsp. 2, T & P RR Co. Surveys to a point, said point being the southeast corner of Tract 6, Section 14, Block 81, Tsp. 2, T & P RR Co. Surveys;

Thence, westerly along the south line of Tract 6, Section 14, Block 81, Tsp. 2, T & P RR Co. Surveys to a point, said point being the westernmost corner of Tract 14M, Section 14, Block 81, Tsp. 2, T & P RR Co. Surveys;

Thence, southerly along the west boundary of Tract 14M, Section 14, Block 81, Tsp. 2, T & P RR Co. Surveys to a point, said point being the southwestern corner of said tract;

Thence, easterly along the southern boundary of Tract 14M, Section 14, Block 81, Tsp. 2, T & P RR Co. Surveys to a point, said point being the northwestern corner of tract 14M, Section 14, Block 81, Tsp. 2, T & P RR Co. Surveys;

Thence, southerly along the western tract line of Tract 14M, Section 14, Block 81, Tsp. 2, T & P RR Co. Surveys to a point, said point being the Southwestern corner of said tract;

Thence, in an easterly direction along the southern survey line of Tracts 14M and 14N, Section 14, Block 81, Tsp. 2, T & P RR Co. Surveys, respectively, to a point of intersection with the western boundary of Mountain Park Subdivision;

Thence, southeasterly along the west boundary line of Mountain Park Subdivision to a point on the south right-of-way line of Bandelier Drive;

Thence, easterly along the said right-of-way line to a point of intersection with the west right-of-way line of Big Bend Drive;

Thence, southeasterly along the aforementioned drive to a point marking the northwestern corner of Lot 10, Block 2, Replat "A," Unit One, Mountainside Subdivision;

Thence, southwesterly, northwesterly, southerly, southeasterly and southerly along Lot 10 and 11, Block 2, Mountainside Unit One, Replat "A" to the southerly right-of-way line of Stoney Hill Drive;

Thence, easterly along the south line of Lot 1, Block 3, of said Mountainside Unit One Replat "A" to the northwest corner of Lot 75, Block 1, Mountain Ridge Estates Subdivision;

Thence, southerly along the westerly line of Lot 75, 44 to 29 and Lot 76, Block 1, Mountain Ridge Estates Subdivision to the southwest corner of said aforementioned Lot 76;

Thence, easterly along the common boundary of Mountain Ridge Estates Subdivision and the north line of Section 15, Block 81, Tsp. 2, T & P RR Co. Surveys to a point of intersection with the west right-of-way line of Alabama Drive;
Thence, southerly along the westerly right-of-way line of Alabama Drive to the north line of Tract 8, Section 15, Block 81, Tsp. 2, Texas and Pacific Railway Surveys;
Thence, westerly, southerly, easterly, southeasterly and northeasterly along Tracts 8, 1B and 9, Section 15, Block 81, Tsp. 2, Texas and Pacific Railway Surveys, to the westerly boundary of Vista de los Huecos Subdivision;
Thence, south, east and north along the perimeter of Vista de los Huecos Subdivision to the westerly right-of-way line of Alabama Drive;
Thence, continuing southerly along the westerly right-of-way line of Alabama Drive to the southeast corner of Block 92A, Hollywood Heights Addition;
Thence, west, south and east along a common line to the following: the vacated portion of Thomason Avenue and Block 92A, Justus Avenue and Blocks 91B, 91A, 90B, 90A, and of McConnell Avenue and Block 90A, of Hollywood Heights Addition to the westerly right-of-way line of Alabama Drive;
Thence, southerly along the meandering westerly right-of-way line of Alabama Drive to a point, said point being the southeast corner of Tract 2D, Section 22, Block 81, Tsp. 2, T & P RR Co. Surveys;
Thence, northerly along the eastern tract line of Tract 2D, Section 22, Block 81, Tsp. 2, T & P RR Co. Surveys to a point of intersection with the north survey line of Section 22, Block 81, Tsp. 2, T & P RR Co. Surveys, said point also being the northeast corner of Tract 2D;
Thence, westerly along the northern tract line of said tract to a point, said point being the northwest corner of Tract 2D, Section 22, Block 81, Tsp. 2, T & P RR Co. Surveys;
Thence, southwesterly along the westerly tract line of Tract 2D, Section 22, Block 81, Tsp. 2, T & P RR Co. Surveys to the southwest corner of said tract;
Thence, continuing in a southwesterly direction, traversing Tract 2E4, Section 22, Block 81, Tsp. 2, T & P RR Co. Surveys and McKelligon Canyon Road to a point on the south right-of-way line of Davis-Seamon Road, said point also being the northernmost corner of Tract 1B1, Section 22, Block 81, Tsp. 2, T & P RR Co. Surveys;
Thence, northwesterly along the south right-of-way line of Davis-Seamon Road to a point of intersection with the west survey line of Section 22, Block 81, Tsp. 2, T & P RR Co. Surveys;
Thence, southerly along the west survey line of said section to a point, said point being the common corner of the southeast and northeast corners of Tracts 1 and 2, respectively, of the Eli Nations Survey No. 271;
Thence, westerly along a line common to Tracts 1 and 2, Eli Nations Survey No. 271; a distance of 814.40 feet more or less;
Thence, southerly through Tract 2, Eli Nations Survey No. 271, a distance of 3,709.40 to a common point to the southwest corner of Tract 2 and the northwest corner of Tract 3, Eli Nations Survey No. 271;
Thence, southeasterly a distance of 1,120.50 feet more or less to the southwest corner of Tract 11, Section 22, Block 81, Tsp. 2, T & P RR Co. Surveys;
Thence, easterly along the southern boundary line of Tract 11, Section 22, Block 81, Tsp. 2, T & P RR Co. Surveys to a point, said point being the southeast corner of said Tract;
Thence, southerly along the western boundary of Block 7, Rosemont Subdivision Replat to a point of intersection with the southern right-of-way line of McKinley Avenue;
Thence, southeasterly along the southern right-of-way line of McKinley Avenue to a point, said point being the northeastern corner of Block 11, Rosemont Subdivision, and the intersection of McKinley Avenue and the west right-of-way line of Branner Drive;

Thence, in a southerly direction along the western right-of-way line of Branner Drive to a point, said point being the southeast corner of Block 13, Rosemont Subdivision and the intersecting point with the northerly right-of-way line of Nations Avenue;

Thence, easterly along the north right-of-way line of Nations Avenue to the southeast corner of Lot 3, Block 12, Rosemont Addition;

Thence, southwesterly, southerly and easterly across Nations Avenue and the westerly line of lots 11 to 5, and a line common to Lots 46 and 4 to 1, Block 14, Rosemont Addition to the westerly right-of-way line of Nebraska Drive;

Thence, southerly along the western right-of-way line of Nebraska Drive to the north right-of-way line of Fort Boulevard;

Thence, easterly along the north right-of-way line of Fort Boulevard to the western right-of-way line of Oklahoma Street;

Thence, southerly along the west right-of-way line of Oklahoma Street to the southeast corner of Tract IA, Pierce, Allen & Savage Survey No. 64;

Thence, westerly along the southern boundary line of said Tract IA to a point, said point being the southwest corner of said Tract IA;

Thence, in a southern and eastern direction along the boundary lines of Red Rock Canyon Subdivision to a point, said point being the southeastern corner of said subdivision, and the northeast corner of Tract 5, Pierce, Allen & Savage Survey No. 64;

Thence, in a southerly direction along the eastern boundary line of Tract 5, Pierce, Allen and Savage Survey No. 64 to a point, said point being the northwesternmost corner of Mayfield Heights Subdivision;

Thence, southerly along the western boundary of said subdivision to a point common to the northwest and southwest corners of Lots 1 and 2, respectively, of Mayfield Heights Addition;

Thence, North 90º00º00º West a distance of 656.88 feet to a point on the westerly boundary of the Pierce, Allen & Salvage Survey No. 64;

Thence, southerly along the said westerly boundary a distance of 384.75 feet to a point;

Thence, South 90º00º00º East a distance of 553.61 feet to a point on the west on the west boundary line of High Rolls Subdivision;

Thence, southerly and meandering along the western boundary line of High Rolls Subdivision to a point of intersection with the northern right-of-way of Scenic Drive;

Thence, southwesterly along the northern right-of-way line of Scenic Drive to a point of intersection with the extension of the Idaho Street eastern right-of-way line;

Thence, in a southern direction along the Idaho Street eastern right-of-way line to a point, said point being the northwestern corner of Block 29, Highland Park Subdivision;

Thence, in a southwesterly direction to a point, said point being the northwesterly corner of Block 19, Highland Park Subdivision;

Thence, southerly along the east right-of-way line of Colorado Street to the southwest corner of Lot 32, Block 19, Highland Park Addition, same being the north right-of-way line of a 20 foot alley;

Thence, across Colorado Street to the east line of the H. F. Fisher Survey 293, said being 385 feet more or less north of the northeasterly right-of-way line of Murchison Avenue;

Thence, through a portion of Tract 34, H.F. Fisher Survey 293, same being a boundary of Zoning Ordinance No. 6368, southwesterly and southeasterly to the north right-of-way line of Murchison Drive;

Thence, southwesterly and westerly along the aforementioned northerly right-of-way line to the southeast corner of Lot 4, Block II, Unit 7, Richmar Subdivision;

Thence, generally north and northwesterly along Lots 4, 2, 1, Block 11 and a portion of Gurss Place, and the east line of a 10 foot drainage right-of-way to the southeast corner of Lot 16, Block 6, Unit 4, Richmar Subdivision;

Thence, northwesterly along the east line of Lot 16, Block 6, Unit 4, Richmar Subdivision and Tract 14 of H. F. Fisher Survey No. 293 to a point, said point being the northeast corner of Tract 14, H. F. Fisher Survey No. 293;

Thence, westerly along the northern line of Tract 14, H. F. Fisher Survey No. 293 to the northwest corner of same;

Thence, northeasterly along Lots 5 and 4, Block 1, Scenic View Estates Subdivision to the southerly right-of-way line of Scenic Drive;

Thence, northwesterly, meandering along the south right-of-way line of Scenic Drive to a point opposite the southeast corner of Lot 11, Block 1, La Campana Antigua Subdivision;

Thence, northerly across Scenic Drive and southwesterly along the eastern and northern boundary of La Campana Antigua Subdivision to a point, said point being the northwest corner of Lot 3, Block 1, La Campana Antigua Subdivision; same being the northeast right-of-way line of Robinson Avenue;

Thence, northwesterly and southwesterly along the northern right-of-way line of Robinson Avenue to the northerly right-of-way line of Kingery Drive (private street);

Thence, northwesterly along the northerly right-of-way line of Kingery Drive (private street) to a common line to the H.F. Fisher Survey 293 and Los Compadres Subdivision;

Thence, north, northwesterly, southwesterly, northwesterly and southwesterly to a common corner to Lot 4, Block 1, Los Compadres Subdivision; and Lot G, Block 1, Los Compadres Canyon Replat A (Correction Plat);

Thence, southwesterly and northwesterly along the eastline of Lot G, Block 1, Los Compadres Canyon Replat A (Correction Plat) to the southeasterly comer of Block C of open space, Sierra Crest Subdivision;

Thence, northerly and northwesterly along the east boundary of Sierra Crest Subdivision to a point marking the northeast corner of said subdivision and the southern survey boundary line of the Noyes Rand Survey No. 131;

Thence, westerly along the common line of the north line of Sierra Crest Subdivision and the south survey line of the Noyes Rand Survey No. 131 to a point being the northwest corner of Replat B, Sierra Crest Subdivision;

Thence, southeasterly along the zigzag west boundary line of Sierra Crest Subdivision to a point of intersection with the southwesternmost corner of Block F (common open space);

Thence, south 02º25º56º East, a distance of 299.06 feet, along a line extended from the said southwesternmost corner of Block F to the northwesterly corner of Block A (common open space);

Thence, continuing southeasterly along the zigzag west boundary line of Block A, Sierra Crest Subdivision, to a point of intersection with a line bearing south 5 8º 31º West, said line being the northcentral boundary line of the tract of land platted as "City Reservoir Site and Councilmen's Park" between Blocks 104 and 109, Kern Place Addition;

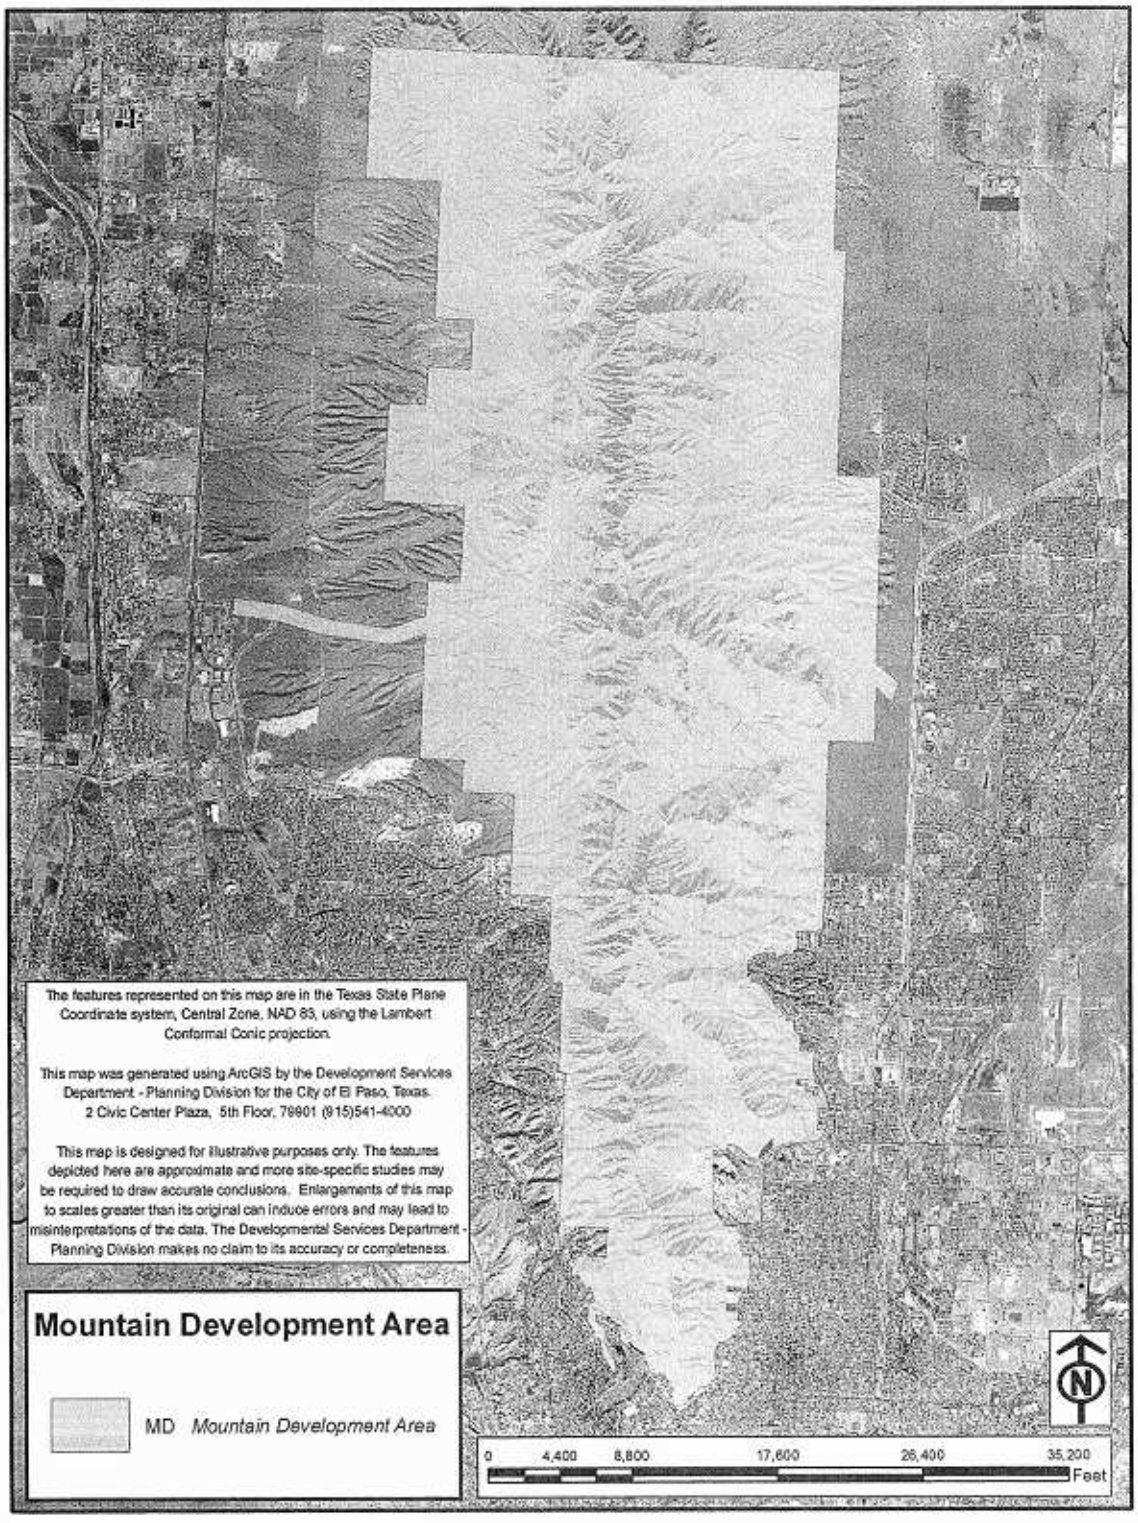
Thence, southwesterly along the said boundary line to a point of intersection with the easterly right-of-way line of the alley adjacent to Block 109, Kern Place Addition;

Thence, northwesterly along the eastern right-of-way of the said alley of Blocks 109 and 110 of said subdivision to a point, said point being the point of intersection with the southern boundary line of Piedmont Reservoir;

Thence, southwesterly along the southern boundary line of Piedmont Reservoir to a point of intersection with the easterly right-of-way line of Piedmont Drive; Thence, northerly on the easterly right-of-way line of Piedmont Drive to its termination;
Thence, northeasterly along the easterly boundary of Villa Roja Unit One and Unit Two Subdivisions to the southeast corner of Lot 2A, Block 23, Mission Hills Addition;
Thence, along the zigzag eastern and northern boundary lines of Mission Hills Addition to a point on the easterly right-of-way of Stanton Drive, said point also being the northwest corner of Block 29, Mission Hills Subdivision;
Thence, northeasterly along the easterly right-of-way line of Stanton Drive to the south line of Camelot Heights Addition;
Thence, southeasterly and northeasterly around Tract 8, Camelot Heights Subdivision to the south line of an El Paso Electric Company easement;
Thence, southeasterly along the said south line to a point of intersection with the east line of the F.W. Brown Survey No. 224;
Thence, in a northerly direction along the east line of F. W. Brown Survey No. 224 to its northwest corner;
Thence, in a westerly direction along the north line of the aforementioned survey to its northwest corner;
Thence, in a southerly direction along the west line of the F. W. Brown Survey No. 224 to the C.M. Newman Survey No. 219's northeast corner;
Thence, in a westerly direction along the north line of Survey No. 219 to its intersection with the southwest corner of the E. D. Strong Survey No. 217;
Thence, in a northerly direction along the survey line common to the E. D. Strong Survey No. 217, H. G. Foster Survey No. 261, and the A. F. Miller Survey No. 216 to the northeast corner of the A. F. Miller Survey No. 216;
Thence, in a westerly direction along the north line of said survey to a point that is the southeast corner of the H. G. Foster Survey No. 259;
Thence, in a northerly direction along the survey line that is common to the H. G. Foster Survey No. 259 and H. G. Foster Survey No. 260, to the northeast corner of the H. G. Foster Survey No. 259;
Thence, in a westerly direction along the north line of said survey to a point of intersection with the southeast corner of Unit 9, Coronado Country Club Estates Subdivision;
Thence, northerly, northwesterly and westerly along the eastern and northern boundary line of Unit 9, Coronado Club Estates to a point of intersection with the west line of the A.G. McMath Survey No. 298;
Thence, in a northerly direction along the said west boundary line to the northeast corner of the H.G. Foster Survey No. 258;
Thence, in a westerly direction along the north line of said survey to a point, said point also being the southeast corner of the H. G. Foster Survey No. 262;
Thence, in a northerly direction along the east line of the H. G. Foster Survey No. 262 to its northeast corner;
Thence, westerly along the north line of said survey to a point of intersection marking the southeast corner of the S. J. Larkin Survey No. 266;
Thence, northerly along the east line of said survey to its northeast corner;
Thence, westerly along the north line of S. J. Larkin Survey No. 266 to a point common to the southeast corner of the S. J. Larkin Survey No. 267, and the southwest corner of the S. J. Larkin Survey No. 268;
Thence, northerly along a line common to the S. J. Larkin Survey Nos. 267 and 268 a distance 5,269 feet more or less a common survey corner to S. J. Larkin Survey Nos. 267, 268, 269 and Nellie D. Mundy Survey No. 246;

Thence, northerly along a line common to the S. J. Larkin Survey No. 269 and the Nellie D. Mundy Survey No. 246, a distance of 2,217 feet more or less, said being 500 feet southerly and perpendicular to the centerline of Woodrow Bean Road (Loop 375);
Thence, meandering southwesterly, parallel and 500 feet from the centerline of Trans-Mountain Road (Loop 375) to P. 1. Station 174 + 48.85 right-of-way plans of said Trans-Mountain Road (Loop 375);
Thence, northwesterly, parallel and 500 feet from the centerline of Trans-Mountain Road (Loop 375), a distance of 2 miles more or less;
Thence, northerly at a perpendicular to Trans-Mountain Road (Loop 375), a distance of 500 feet to the centerline of same;
Thence, continuing northerly at a perpendicular to Trans-Mountain Road (Loop 375), a distance of 500 feet;
Thence, southeasterly, parallel and 500 feet from the centerline of Trans-Mountain Road (Loop 375), a distance of 2 miles more or less to P. 1. Station 174 + 48.85 right-of-way plans of said Trans-Mountain Road (Loop 375);
Thence, northeasterly, parallel and 500 feet from the centerline of Trans-Mountain Road (Loop 375) to a line common to the Nellie D. Mundy Survey No. 246 and S. J. Larkin Survey No. 269;
Thence, northerly along a line common to the Nellie D. Mundy Survey No. 246 and the S. J. Larkin Survey No. 269, a distance of 2,100 more or less to the northwest corner of said Survey No. 269, same being the south line of Section 9, Block 82, Tsp. 1, T & P RR Co. Surveys;
Thence, east along a line common to Section 9, Block 82, Tsp. 1, T & P RR Co. Surveys and S. J. Larkin Survey No. 269 to a corner to Sections 8 and 9, Block 82, Tsp. 1, T & P RR Co. Surveys;
Thence, northerly along a line common to Sections 8 and 9, Block 82, Tsp. 1, T & P RR Co. Surveys to a corner common to Sections 6, 7, 8 and 9 of same;
Thence, westerly along a line common to Sections 6 and 9, Block 82, Tsp. 1, T & P RR Co. Surveys to a corner common to said Sections 6, 9, 10 and Laura E. Mundy Survey No. 236;
Thence, northerly along a line common to Section 6, Block 82, Tsp. 1, T & P RR Co. Surveys and Laura E. Mundy Survey No. 236 to a corner common to Sections 5 and 6, Block 82, Tsp. 1, T & P RR Co. Surveys and Laura E. Mundy Surveys Nos. 235 and 236;
Thence, easterly along a line common to Sections 5 and 6, Block 82, Tsp. 1, T & P RR Co. Surveys a distance of 2,600 feet more or less;
Thence, northerly through Section 5, Block 82, Tsp. 1, T & P RR Co. Surveys a distance of 2,600 feet more or less;
Thence, easterly continuing through Section 5, Block 82, Tsp. 1, T & P RR Co. Surveys to a line common to Section 5 and 4 of same;
Thence, northerly along a line common to Sections 4 and 5, Block 82, Tsp. 1, T & P RR Co. Surveys to a corner common to Sections 3, 4 and 5, Block 82, Tsp. 1, T & P RR Co. Surveys and Clara A. Mundy Survey No. 253;
Thence, westerly along a line common to Section 5, Block 82, Tsp. 1, T & P RR Co. Surveys and Clara A. Mundy Survey No. 253 to a corner common to the Clara A. Mundy Surveys Nos. 250 and 253;
Thence, northerly along a line common to Clara A. Mundy Survey Nos. 250, 253, 249 and 252, a distance of 8,800 feet more or less;
Thence, westerly through Clara A. Mundy Survey No. 249 to a common boundary to said Survey No. 249 and the Maria Rodriguez Survey No. 35;
Thence, northerly along a line common to the Maria Rodriguez Survey No. 35 and Clara A. Mundy Survey Nos. 248 and 249 to the northwest corner of said Survey No. 249;

Thence, northerly through the Clara L. Mundy Survey No. 248, to the Texas-New Mexico state boundary line;
Thence, easterly along the said state boundary line along the northern survey lines of the C. A. Mundy Survey No. 251; Section 1, Block 82, Tsp. 1; Sections 6, 5 and 4, Block 81, Tsp. 1, T & P RR Co. Surveys, respectively, to a point being the northeast corner of Section 4, Block 81, Tsp. 1, T & P RR Co. Surveys;
Thence, southerly along the east survey line of Sections 4 and 9, Block 81, Tsp. 1, T & P RR Co. Surveys, respectively, to a point marking the southeast corner of Section 9, Block 81, Tsp. 1, T & P RR Co. Surveys;
Thence, easterly along the north line of Section 16, Block 81, Tsp. 1, T & P RR Co. Surveys to its northeast corner;
Thence, southerly along a line common to Sections 15, 16, 17 and 18, Block 81, Tsp. 1, T & P RR Co. Surveys to a common corner to said Sections 17 and 18, Block 81;
Thence, continuing southerly along a line common to Sections 23 and 24, Block 81, Tsp. 1, T & P RR Co. Surveys, a distance of 2,600 feet more or less;
Thence, easterly through Section 23, Block 81, Tsp. 1, T & P RR Co. Surveys a distance of 2,600 feet more or less;
Thence, southerly through Sections 23, 26 and 31, Block 81, Tsp. 1, T & P RR Co. Surveys to P. T. Station 603 + 26.36 of the right-of-way plans of Trans-Mountain Road (Loop 375) being at a perpendicular and 500 feet from the centerline of same;
Thence, southeasterly, parallel and 500 feet from the centerline of Trans-Mountain Road (Loop 375) to P. C. Station 627 + 0.46 of the right-of-way plans of Trans-Mountain Road (Loop 375);
Thence, southwesterly at a perpendicular to Trans-Mountain Road (Loop 375), a distance of 500 feet to the centerline of same;
Thence, continuing southwesterly at a perpendicular to Trans-Mountain Road (Loop 375) a distance of 500 feet;
Thence, northwesterly, parallel and 500 feet from the centerline of Trans-Mountain Road (Loop 375) to a point 2,600 feet more or less from the west line of Section 31, Block 81, Tsp. 1;
Thence, southerly through Sections 31 and 36, Block 81, Tsp. 1, T & P RR Co. Surveys and parallel to the west line of said Sections 31 and 36, of same to a point, said point being 2,600 feet more or less south from the north line of said Section 36, Block 81, Tsp. 1;
Thence, westerly through Section 36, Block 81, Tsp. 1, T & P RR Co. Surveys, a distance of 2,600 feet more or less to a common boundary to Sections 35 and 36 of same;
Thence, southerly along a line common to a portion of Sections 35 and 36, Block 81, Tsp. 1 and Sections 2 and 3, Block 81, Tsp. 2, T & P RR Co. Surveys to the point of beginning.



The features represented on this map are in the Texas State Plane Coordinate system, Central Zone, NAD 83, using the Lambert Conformal Conic projection.
This map was generated using ArcGIS by the Development Services Department - Planning Division for the City of El Paso, Texas. 2 Civic Center Plaza, 5th Floor, 79901 (915)541-4000
This map is designed for illustrative purposes only. The features depicted here are approximate and more site-specific studies may be required to draw accurate conclusions. Enlargements of this map to scales greater than its original can induce errors and may lead to misinterpretations of the data. GENERAL PROVISIONS AND DEFINITIONS

Sections:

Article I. General Provisions

20.02.004 Title.

20.02.008 Applicability.

20.02.012 Purpose.

20.02.016 Interpretation.

Article II. Definitions

20.02.020 Rules of construction.

20.02.022 Generally.

20.02.024 Abutting.

20.02.026 Access or accessway.

20.02.028 Accessory building.

20.02.029 Accessory dwelling unit.

20.02.030 Accessory use.

20.02.032 Acreage, gross.

20.02.032.5 Active recreation.

20.02.033 Adaptive reuse.

20.02.034 Reserved.

20.02.036 Adult bookstore.

20.02.038 Adult day care center.

20.02.040 Adult foster care home.

20.02.042 Adult motion picture theater.

20.02.044 Airpad.

20.02.046 Airport.

20.02.048 Alley.

20.02.050 Alteration.

20.02.052 Amusement game complex.

20.02.054 Amusement game machine.

20.02.056 Amusement park.

20.02.058 Amusement rides (commercial).

20.02.060 Animal.

20.02.062 Animal crematory.

20.02.064 Animal food manufacturing.

20.02.066 Animal kennel.

20.02.068 Animal slaughtery and processing.

20.02.070 Animals, keeping for enjoyment purposes.

20.02.072 Apartment.

20.02.074 Apartment building (five or more units).

20.02.076 Area of intersection.

20.02.078 Areas of special control.

20.02.080 Arterial thoroughfare.

20.02.082 Assisted living facility.

20.02.084 Athletic facility (indoor).

20.02.086 Athletic facility (outdoor).

20.02.088 Atrium house.

20.02.090 Automobile (sales, service, storage and rental).

20.02.092 Automobile rental location (satellite).

20.02.094 Automobile and light truck lubrication service.

20.02.096 Automotive service station.

20.02.098 Automobile wrecking yard.

20.02.100 Automotive repair garage.

20.02.102 Automotive tune-up service.

20.02.104 Auxiliary rail facilities.

20.02.106 Auxiliary tracks.

20.02.108 Awning.

20.02.109 Aquarium.

20.02.110 Ballroom.

20.02.112 Bank.

20.02.114 Barn.

20.02.116 Basement.

20.02.118 Base zoning district.

20.02.120 Batching plant.

20.02.122 Bed and breakfast establishment.

20.02.124 Bed and breakfast inn.

20.02.126 Bed and breakfast (residence).

20.02.128 Billboard.

20.02.130 Billiard and pool hall.

20.02.132 Block.

20.02.134 Board.

20.02.135 Boarding home facility.

20.02.136 Reserved.

20.02.138 Borrow pit (commercial).

20.02.140 Borrow pit (related to construction operations).

20.02.142 Bottling works.

20.02.144 Boutique.

20.02.146 Boutique bottling.

20.02.148 Bread and bakery product manufacturing.

20.02.148.1 Brewery.

20.02.148.2 Brewpub.

20.02.149 Brownfield development.

20.02.150 Buildable area.

20.02.152 Building.

20.02.154 Building coverage (lot coverage).

20.02.156 Building, height of.

20.02.158 Building official.

20.02.160 Building, main.

20.02.162 Building, principal.

20.02.164 Building site.

20.02.166 Bulletin.

20.02.168 Bus.

20.02.170 Cafeteria.

20.02.171 Campground.

20.02.171.5 Camping unit.

20.02.171.7 Campsite.

20.02.172 Canal.

20.02.174 Canopy.

20.02.176 Caregiver.

20.02.178 Caretaker, property.

20.02.180 Carrier.

20.02.182 Car wash, full-service.

20.02.184 Car wash, self-service.

20.02.186 Cellular telecommunication antenna, facility-mounted.

20.02.188 Cemetery.

20.02.190 Centerline.

20.02.192 Child care facility (home or commercial).

20.02.194 Child care facility, Type 3.

20.02.196 Child care facility, Type 4.

20.02.198 Child care facility, Type 5.

20.02.200 Child care facility, Type 6.

20.02.202 Child care facility, Type 7.

20.02.204 Child care institution.

20.02.206 Christmas tree stand.

20.02.208 Church.

20.02.210 Circus.

20.02.212 City council.

20.02.214 Clinic.

20.02.216 Club, private.

20.02.218 Coliseum.

20.02.220 Collection facility.

20.02.222 Collector street.

20.02.224 College or university.

20.02.226 Commercial day care center.

20.02.228 Commercial equipment repair.

20.02.230 Commercial fueling station.

20.02.232 Commercial unit development.

20.02.234 Commercial vehicle.

20.02.236 Communication utility facility.

20.02.240 Community recreational facility.

20.02.242 Composting facility.

20.02.244 Comprehensive plan.

20.02.246 Computer electronic product assembly.

20.02.248 Computer product manufacturing.

20.02.250 Concrete or cement mixing plant.

20.02.252 Condominium.

20.02.1152 Window, bay.

20.02.1154 Wind-driven electrical generator.

20.02.1156 Wind-driven electrical pump.

20.02.1158 Wind-driven pump.

20.02.1160 Yard.

20.02.1162 Yard, required front.

20.02.1164 Yard, required rear.

20.02.1166 Yard, required side.

20.02.1168 Yard, side street.

20.02.1170 Youth organization (with/without living facility).

20.02.1172 Zero lot line.

20.02.1174 Zoning administrator.

Article I. General Provisions

20.02.004 Title.

The ordinance codified in this title shall be known as the "Zoning Ordinance for the City of El Paso, Texas." (Ord. 16653 § 2 (part), 2007)

20.02.008 Applicability.

This title shall apply to the incorporated area of El Paso, Texas. (Ord. 16653 § 2 (part), 2007)

20.02.012 Purpose.

The zoning regulations and districts as established in this title have been made in accordance with a comprehensive plan for the purpose of promoting health, safety, morals and the general welfare of the city. They have been designed to lessen the congestion in the streets; to secure safety from fire, panic and other dangers; to provide adequate light and air; to prevent the overcrowding of land; to avoid undue concentration of population; to facilitate the adequate provision of transportation, water, sewerage, schools, parks and other public requirements. They have been made with reasonable consideration, among other things, for the character of the district and its peculiar suitability for particular uses, and with a view to conserving the value of buildings and encouraging the most appropriate use of the land throughout the city. (Ord. 16653 § 2 (part), 2007)

20.02.016 Interpretation.

In interpreting and applying the provisions of this title, they shall be held to be the minimum requirements for the promotion of the public safety, health, convenience, comfort, prosperity or general welfare. It is not intended by this title to interfere with, or abrogate or annul any easements, covenants, or other agreement between parties;

provided, however, that where this title imposes a greater restriction upon the use of buildings or premises or upon height of buildings, or requires larger open spaces or lot dimensions than are imposed or required by other resolutions, ordinances, rules, regulations or by easements, covenants or agreements, the provisions of this title shall govern. (Ord. 16653 § 2 (part), 2007)

Article II. Definitions

20.02.020 Rules of construction.

The following general rules of construction shall apply to the regulations of this title:

A. The singular number includes the plural and the plural the singular, unless the context clearly indicates the contrary.

B. Words used in the present tense include the past and future tenses, and the future the present.

C. The word "shall" is always mandatory. The word "may" is permissive.

D. The word "building" or "structure" includes any part thereof, and the word "structure" includes the word "building."

E. Words and terms not defined herein shall be interpreted in accord with Merriam-Webster's Collegiate Dictionary, Tenth Edition. (Ord. 16653 § 2 (part), 2007)

20.02.022 Generally.

For the purpose of this title, certain terms and words are defined as set forth in this chapter. (Ord. 16653 § 2 (part), 2007)

20.02.024 Abutting.

"Abutting" when referring to zoning, means having zoning district boundaries in common. When referring to lots or parcels of land, abutting shall mean having lot lines in common. Lots or parcels of land, which touch at corners only, shall not be deemed abutting. "Abut," "adjacent," "adjoining" and "contiguous" means the same as "abutting." (Ord. 16653 § 2 (part), 2007)

20.02.026 Access or accessway.

"Access or accessway" means the public or private street by which pedestrians and vehicles shall have lawful and usable ingress and egress to a property line. Provided, however, that access may be provided through a private easement that is filed of record. (Ord. 16653 § 2 (part), 2007)

20.02.028 Accessory building.

"Accessory building" means a detached subordinate building or other structure, the use of which is clearly incidental to or customarily found in connection with and located on the same lot as the main building or principal use of the land. (Ord. 16653 § 2 (part), 2007)

20.02.029 Accessory dwelling unit.

"Accessory dwelling unit" means an accessory building that is intended to be used as a dwelling unit.
(Ord. No. 17532, § 1, 4-19-2011)

20.02.030 Accessory use.

"Accessory use" means a use, which is clearly incidental to or customarily found in connection with, and subordinate in area, extent and purpose to the principal use and is located on the same lot as the principal use of the premises. (Ord. 16653 § 2 (part), 2007)

20.02.032 Acreage, gross.

"Gross acreage" means the total area within a parcel of land. (Ord. 16653 § 2 (part), 2007)

20.02.032.5 Active recreation.

"Active recreation" means recreational activities that are primarily designed with structured improvements and that require modification of natural landforms and can include the provision of service facilities, playing fields, or equipment. Examples of structured improvements may include playground equipment, sports fields, surfaced courts, swimming pools, skate parks, multipurpose centers and open play areas. Ancillary to these highly structured uses, active recreational facilities may include areas for informal recreational uses such as open playing fields and passive recreational activities such as sightseeing, hiking and picnicking.
(Ord. No. 18531, § 2, 6-28-2016)

20.02.033 Adaptive reuse.

"Adaptive reuse" means the conversion or change of use of all or any part of an existing building to a residential use, a mixed-use or any use allowed in the underlying district or any construction to expand or modify an existing building located in an area designated with an adaptive reuse overlay that meets the development guidelines adopted in the city's comprehensive plan for the area.
(Ord. No. 17754, § 1, 3-20-2012)

20.02.034 Reserved.

Editor's note—Ord. No. 17442, § 1, adopted October 26, 2010, repealed § 20.02.034, which pertained to administrator and derived from Ord. 16653 § 2 (part), 2007.

20.02.036 Adult bookstore.

"Adult bookstore" means an establishment having a majority of its stock in trade, books, maga-

zines and other periodicals, "peep shows," film strips, video, electronic or digital recordings which are distinguished or characterized by their emphasis on pictorial, photographic, or cinematic representation of "specified sexual activities" or "specified anatomical areas" (as defined in this chapter), or an establishment with a section or segment devoted to the sale, rental or display of such material, where such section or segment comprises twenty percent or more of such establishment's stock in trade, sales or rentals. (Ord. 16653 § 2 (part), 2007)

20.02.038 Adult day care center.

"Adult day care center" means a facility that provides care for adults for less than twenty-four hours a day. (Ord. 16653 § 2 (part), 2007)

20.02.040 Adult foster care.

"Adult foster care" means a personal care facility operated in accordance with the regulations of the Texas Administrative Code, Chapter 48, Subchapter K. (Ord. 16653 § 2 (part), 2007) (Ord. No. 17577, § 1, 7-7-2011)

20.02.042 Adult motion picture theater.

"Adult motion picture theater" means a facility in which material is presented that is distinguished or characterized by an emphasis on matter depicting, describing or relating to "specified sexual activities" or "specified anatomical areas" (as defined in this chapter) for observation by patrons of such establishments, and which presents such materials for at least any one hundred twenty days in any twelve-month period. (Ord. 16653 § 2 (part), 2007)

20.02.044 Airpad.

"Airpad" means a type of passenger terminal used for the storing, landing or takeoff of a small single-engine or light twin-engine aircraft for the purpose of loading or unloading passengers, but does not afford refueling, maintenance, repair or other facilities. (Ord. 16653 § 2 (part), 2007)

20.02.046 Airport.

"Airport" means a type of freight or passenger terminal that is used to accommodate all phases of operation of aircraft, whether private or commercial. (Ord. 16653 § 2 (part), 2007)

20.02.048 Alley.

"Alley" means a dedicated public right-of-way affording secondary means of access to abutting property and service to the rear or side of property whose principal frontage is on another street. (Ord. 16653 § 2 (part), 2007)

20.02.050 Alteration.

"Alteration" means any construction or renovation to an existing structure other than repair or addition. (Ord. 16653 § 2 (part), 2007)

20.02.052 Amusement game complex.

"Amusement game complex" means a group of more than four amusement game machines in the same place, location or premises. (Ord. 16653 § 2 (part), 2007)

20.02.054 Amusement game machine.

"Amusement game machine" means a coin-operated machine or device which whether mechanical, electrical, electronic, digital or video, shall be ready for play by the insertion of a coin, metal slug or token, and may be operated by the public for use as a game, entertainment or amusement, the object of which is to achieve either a high or low score, which by comparison to the score of other players, whether playing concurrently or not, demonstrates relative skill or competence or indicates in any other way competitive advantage of one player or team over another, regardless of skill or competence, or for any other purpose other than the dispensing or vending of merchandise, music or service exclusively. (Ord. 16653 § 2 (part), 2007)

20.02.056 Amusement park.

"Amusement park" means a commercially operated park with various devices for entertainment

and booths for the sale of food and drink. (Ord. 16653 § 2 (part), 2007)

20.02.058 Amusement rides (commercial).

"Amusement rides (commercial)" means a temporary commercial use of land with various rides for entertainment and booths for the sale of food and drink. (Ord. 16653 § 2 (part), 2007)

20.02.060 Animal.

"Animal" means any living animal except human beings and includes (without limiting the generality thereof) mammals, birds, reptiles and fish. (Ord. 16653 § 2 (part), 2007)

20.02.062 Animal crematory.

"Animal crematory" means a structure containing a furnace used or intended to be used for the cremation, or reducing to ashes, of animal remains. (Ord. 16653 § 2 (part), 2007)

20.02.064 Animal food manufacturing.

"Animal food manufacturing" means a facility for the work or processing necessary for the production of animal food. (Ord. 16653 § 2 (part), 2007)

20.02.066 Animal kennel.

See "Kennel." (Ord. 16653 § 2 (part), 2007)

20.02.068 Animal slaughtery and processing.

"Animal slaughtery and processing" means a facility where animals are slaughtered and processed. (Ord. 16653 § 2 (part), 2007)

20.02.070 Animals, keeping for enjoyment purposes.

"Animals, keeping for enjoyment purposes" means animals that are customarily kept for personal use or enjoyment, not raised for commercial purposes. (Ord. 16653 § 2 (part), 2007)

20.02.072 Apartment.

"Apartment" means a part of a building or building complex containing culinary and bathroom facilities, consisting of a room or suite of rooms intended, designed and used as a dwelling unit by an individual or a single-family. (Ord. 16653 § 2 (part), 2007)

20.02.074 Apartment building (five or more units).

"Apartment building (five or more units)" means a building or part of a building containing five or more attached dwelling units. (Ord. 16653 § 2 (part), 2007)

20.02.076 Area of intersection.

"Area of intersection" means that area bounded by the converging of all congruent right-of-way lines. (Ord. 16653 § 2 (part), 2007)

20.02.078 Areas of special control.

"Areas of special control" means those areas designated in this title as worthy of protection from off-premises advertising because of inherent environmental, scenic or significant historical qualities. (Ord. 16653 § 2 (part), 2007)

20.02.080 Arterial thoroughfare.

"Arterial thoroughfare" means a street designed as an interstate, major arterial or minor arterial on the adopted major thoroughfare plan of the city. (Ord. 16653 § 2 (part), 2007)

20.02.082 Assisted living facility.

"Assisted living facility" means an establishment that furnishes food and shelter and provides personal care services to four or more persons who are unrelated to the proprietor of the establishment. (Ord. 16653 § 2 (part), 2007)

20.02.084 Athletic facility (indoor).

See "Exercise facility (indoor)." (Ord. 16653 § 2 (part), 2007)

20.02.086 Athletic facility (outdoor).

"Athletic facility (outdoor)" means a developed recreation area that may contain a playground as well as fields for competitive sports such

as baseball, football or soccer. (Ord. 16653 § 2 (part), 2007)

20.02.088 Atrium house.

"Atrium house" means an attached single-family dwelling, shaped to surround or partly surround a private covered space called an atrium which is a principal source of natural light for the interior of the house. (Ord. 16653 § 2 (part), 2007)

20.02.090 Automobile (sales, service, storage and rental).

"Automobile (sales, service, storage and rental)" means a facility that sells or leases new or used automobiles, light trucks or other similar motorized transportation vehicles. The facility may maintain an inventory of the vehicles for sale or lease on site and may provide on-site facilities for the repair and service of the vehicles. (Ord. 16653 § 2 (part), 2007)

20.02.092 Automobile rental location (satellite).

"Automobile rental location (satellite)" means an office where customers may contract for rental use, for the pick up and delivery of automobiles and light trucks. There shall be no maintenance of vehicles on this site. (Ord. 16653 § 2 (part), 2007)

20.02.094 Automobile and light truck lubrication service.

"Automobile and light truck lubrication service" means a service that performs lubrication of automobiles and light trucks. (Ord. 16653 § 2 (part), 2007)

20.02.096 Automotive service station.

"Automotive service station" means any place of business with pumps and underground storage tanks, having as its purpose the retail servicing of motor vehicles with fuels or lubricants, including incidental minor repairs and inspections but not including a general repair shop, paint or body shop, machine shop, vulcanizing shop or any operation requiring the removal or installation of radiator, engine, cylinder heads, crankcase, CV joints, transmission, differential, fenders, doors, bumpers, grills, glass or other body parts, or any body repairing or painting. (Ord. 16653 § 2 (part), 2007)

20.02.098 Automobile wrecking yard.

"Automobile wrecking yard" means a yard consisting of that part of a lot not enclosed by a building, which is used for the wrecking or dismantling of used, damaged or obsolete motor vehicles or trailers or the storage, sale, or dumping of such vehicles or of the salvaged parts therefrom. (Ord. 16653 § 2 (part), 2007)

20.02.100 Automotive repair garage.

"Automotive repair garage" means an area or building which provides for the repair, rebuilding or reconditioning of engines, motor vehicles or trailers, body frame or fender repair, or painting of vehicles. (Ord. 16653 § 2 (part), 2007)

20.02.102 Automotive tune-up service.

"Automotive tune-up service" means a service that does minor engine or motor tune-ups on automobiles or light trucks. (Ord. 16653 § 2 (part), 2007)

20.02.104 Auxiliary rail facilities.

"Auxiliary rail facilities" are accessory to and customarily found in connection with the operation of a railyard. These facilities include a freight station, energy conversion plant, power plant, police station, office, storage facility, fueling station, water station, sanding station, maintenance shop, utility and transmission plant, passenger station, diesel maintenance facility, interlocking tower, railroad repair shop, crew station for temporary lodging of railroad personnel, as well as all equipment and facilities utilized to accomplish the foregoing accessory uses. (Ord. 16653 § 2 (part), 2007)

20.02.106 Auxiliary tracks.

"Auxiliary tracks" are types of tracks commonly found within a railyard that facilitate the

movement of cars, locomotives and trains. (Ord. 16653 § 2 (part), 2007)

20.02.108 Awning.

"Awning" means a detachable, roof-like cover, supported from the walls of a building for protection from sun or weather. (Ord. 16653 § 2 (part), 2007)

20.02.109 Aquarium.

"Aquarium" means an establishment primarily engaged in the preservation and exhibition of live plant and aquatic animal life displays for the benefit of the public.

20.02.110 Ballroom.

See "Dancehall." (Ord. 16653 § 2 (part), 2007)

20.02.112 Bank.

See "Financial institution." (Ord. 16653 § 2 (part), 2007)

20.02.114 Barn.

"Barn" means a building used for the storage of grain, hay, and other farm products, and/or the sheltering of livestock or farm equipment. (Ord. 16653 § 2 (part), 2007)

20.02.116 Basement.

"Basement" means a space wholly or partly underground, and having more than one-half of its height, measured from its floor to its ceiling, below the average of the four sides of the adjoining grade. (Ord. 16653 § 2 (part), 2007)

20.02.118 Base zoning district.

"Base zoning district" means the underlying zoning district that is affected by an overlay designation. (Ord. 16653 § 2 (part), 2007)

20.02.120 Batching plant.

"Batching plant" means a manufacturing facility for the production of concrete or asphalt. (Ord. 16653 § 2 (part), 2007)

20.02.122 Bed and breakfast establishment.

"Bed and breakfast establishment" means a building or portion thereof, other than a hotel, motel or boardinghouse, where, for compensation, eight or fewer rooms are offered as temporary lodging and only breakfast is offered to the registered guest(s). (Ord. 16653 § 2 (part), 2007)

20.02.124 Bed and breakfast inn.

"Bed and breakfast inn" means an owner-occupied or manager-occupied residential structure providing nine or more rooms for temporary, overnight lodging, with or without meals, for paying guests. (Ord. 16653 § 2 (part), 2007)

20.02.126 Bed and breakfast (residence).

"Bed and breakfast (residence)" means an owner-occupied or manager-occupied residential structure providing eight or fewer rooms for temporary, overnight lodging, with or without meals, for paying guests. (Ord. 16653 § 2 (part), 2007)

20.02.128 Billboard.

See "Sign, billboard." (Ord. 16653 § 2 (part), 2007)

20.02.130 Billiard and pool hall.

"Billiard and pool hall" means a place where three or more billiard or pool tables are provided. (Ord. 16653 § 2 (part), 2007)

20.02.132 Block.

"Block" means a unit of land bounded by streets or by a combination of streets and public land, railroad rights-of-way, waterways, or any other barrier to the continuity of development. (Ord. 16653 § 2 (part), 2007)

20.02.134 Board.

"Board" means the zoning board of adjustment of the City of El Paso, Texas. (Ord. 16653 § 2 (part), 2007)

20.02.135 Boarding home facility.

"Boarding home facility" means an establishment that:

a. Furnishes, in one or more buildings, lodging to three or more persons with disabilities or elderly persons who are unrelated to the owner of the establishment by blood or marriage; and

b. Provides community meals, light housework, meal preparation, transportation, grocery shopping, money management, laundry services, or assistance with self-administration of medication but does not provide personal care services to those persons.
(Ord. No. 17577, § 2, 7-7-2011)

20.02.136 Reserved.

Editor's note—Ord. No. 18241, § 1, adopted September 9, 2014, repealed § 10.02.136, which pertained to boardinghouses (rooming or lodging house) and derived from Ord. 16653 § 2 (part), 2007.

20.02.138 Borrow pit (commercial).

"Borrow pit (commercial)" means a location from which earth is extracted for the commercial purpose of being used as fill at a location outside the pit. (Ord. 16653 § 2 (part), 2007)

20.02.140 Borrow pit (related to construction operations).

"Borrow pit (related to construction operations)" means a temporary location from which earth is extracted for the purpose of being used as fill at a location outside the pit. This use is incidental to construction operations during development being conducted on the same tract or subdivision. (Ord. 16653 § 2 (part), 2007)

20.02.142 Bottling works.

"Bottling works" means a facility used for the bottling of liquids. (Ord. 16653 § 2 (part), 2007)

20.02.144 Boutique.

"Boutique" means a small specialty shop or business. (Ord. 16653 § 2 (part), 2007)

20.02.146 Boutique bottling.

"Boutique bottling" means an establishment that contains a restaurant and a beverage bottling facility. In addition to serving food, this establishment manufactures, bottles, cans, packages, and labels alcoholic and/or nonalcoholic beverages for consumption on or off the premises. The total annual production of beverages may not exceed one hundred fifty-five thousand gallons. (Ord. 16653 § 2 (part), 2007)

20.02.148 Bread and bakery product manufacturing.

"Bread and bakery product manufacturing" means a business that produces baked goods primarily for the wholesale market. (Ord. 16653 § 2 (part), 2007)

20.02.148.1 Brewpub.

"Brewpub" (also taproom) sells twenty-five percent or more of its beer on-site and may include significant food services and assembly uses. The beer is brewed primarily for sale in the restaurant and bar, and is often dispensed directly from the brewery's storage tanks. Where allowed by law, brewpubs often sell beer to-go and/or distribute to off-site accounts.
(Ord. No. 019517, § 1, 6-20-2023)

20.02.148.2 Brewery.

"Brewery" or "microbrewery" means an operator that sells seventy-five percent or more of its beer off-site. Microbreweries sell to the public by one or more of the following methods: the traditional three-tier system (brewer to wholesaler to retailer to consumer); the two-tier system (brewer acting as wholesaler to retailer to consumer); and directly to the consumer through carry-outs and/or on-site taproom or restaurant sales.
(Ord. No. 019517, § 1, 6-20-2023)

20.02.149 Brownfield development.

"Brownfield development" means the redevelopment of abandoned or obsolete parcels in which demonstrable environmental remediation or mitigation is undertaken.
(Ord. No. 18688, § 1, 5-30-2017)

20.02.150 Buildable area.

"Buildable area" means the portion of a lot or site, excluding required yard areas, setbacks or open space within which a structure may be built. (Ord. 16653 § 2 (part), 2007)

20.02.152 Building.

"Building" means any structure permanently affixed to a lot or lots and having a roof supported by columns or walls, for the housing or enclosure of persons, animals or property of any kind. (Ord. 16653 § 2 (part), 2007)

20.02.154 Building coverage (lot coverage).

"Building coverage (lot coverage)" means the percentage of a lot that can be covered by a structure or structures or any part thereof, excluding roof overhang. (Ord. 16653 § 2 (part), 2007)

20.02.156 Building, height of.

"Height of building" means the vertical distance measured from the mean elevation of the top of the street curb, within the lot limits, to the highest point of the structure, exclusive of chimneys, ventilators, air conditioners and ducts, elevator equipment, flagpoles, communication antennas, church spires, belfries, water towers, or other

similar vertical projections. (Ord. 16653 § 2 (part), 2007)

20.02.158 Building official.

"Building official" means the person identified and designated in Section 18.02.101.4 of this Code. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17235, § 1, 11-10-2009)

20.02.160 Building, main.

"Main building" means the principal building or one of the principal buildings on a lot, or the building or one of the principal buildings housing the principal use on the lot. (Ord. 16653 § 2 (part), 2007)

20.02.162 Building, principal.

"Principal building" means a building on a lot intended for occupancy by the principal use. (Ord. 16653 § 2 (part), 2007)

20.02.164 Building site.

"Building site" means a lot for a building or structure together with all yards and open space. (Ord. 16653 § 2 (part), 2007)

20.02.166 Bulletin.

See "Sign, bulletin." (Ord. 16653 § 2 (part), 2007)

20.02.168 Bus.

"Bus" means a motor vehicle designed for carrying more than ten passengers and used for the transportation of persons. (Ord. 16653 § 2 (part), 2007)

20.02.170 Cafeteria.

"Cafeteria" means a restaurant where customers serve themselves or are served at a counter. (Ord. 16653 § 2 (part), 2007)

20.02.171 Campground.

"Campground" means any area, place, parcel or tract of land on which three or more campsites are occupied or intended for occupancy, or facilities are established or maintained for the accommodation of camping units for one or more overnight periods, as granted gratuitously or by permission.
(Ord. No. 18531, § 2, 6-28-2016)

20.02.171.5 Camping unit.

"Camping unit" means tents, tent trailers, travel trailers, camping trailers, pick-up campers, motor homes, or any other device or vehicular-type structure intended for use as temporary living quarters or shelter during periods of recreation, vacation, leisure time, or travel.
(Ord. No. 18531, § 2, 6-28-2016)

20.02.171.7 Campsite.

"Campsite" means any plot of ground within a campground used or intended for occupation by a camping unit or units under the control of the camper.
(Ord. No. 18531, § 2, 6-28-2016)

20.02.172 Canal.

"Canal" means an artificial channel for conveyance of water, including laterals. (Ord. 16653 § 2 (part), 2007)

20.02.174 Canopy.

"Canopy" means a detachable, roof-like cover, supported from the ground or deck, floor or walls of a building, for protection from sun and weather. Does not include carport. (Ord. 16653 § 2 (part), 2007)

20.02.176 Caregiver.

"Caregiver" means a person whose duties include the supervision, guidance, and protection of a child or children. (Ord. 16653 § 2 (part), 2007)

20.02.178 Caretaker, property.

"Property caretaker" means one who is employed to maintain, repair and protect a facility or property. (Ord. 16653 § 2 (part), 2007)

20.02.180 Carrier.

"Carrier" means any person, partnership, corporation or organization that undertakes the carrying of freight or persons and offers its transportation services by rail, motor vehicle or aircraft. (Ord. 16653 § 2 (part), 2007)

20.02.182 Car wash, full-service.

"Full-service car wash" means an establishment where washing, drying, polishing or vacuuming of an automobile is done by an employee or owner of the establishment and/or by machinery; and where the driver remains in the automobile or in a designated waiting area. (Ord. 16653 § 2 (part), 2007)

20.02.184 Car wash, self-service.

"Self-service car wash" means an establishment where washing, drying, polishing or vacuuming of an automobile is done by the customer; or where the driver remains in the automobile while the washing, drying and polishing are done by machinery; or a combination thereof. (Ord. 16653 § 2 (part), 2007)

20.02.186 Cellular telecommunication antenna, facility-mounted.

See "Personal Wireless Service Facility, facility-mounted." (Ord. 16653 § 2 (part), 2007)

20.02.188 Cemetery.

"Cemetery" means a place for interment of the dead, above or below ground. (Ord. 16653 § 2 (part), 2007)

20.02.190 Centerline.

See "Street centerline." (Ord. 16653 § 2 (part), 2007)

20.02.192 Child care facility (home or commercial).

"Child care facility (home or commercial)" means an establishment licensed by the government and subject to government regulations, which provides assessment, care, training, education, custody, treatment, or supervision for a child who is not related by blood, marriage, or adoption to the owner or operator of the facility, for all or part of the twenty-four hour day, whether or not the establishment operates for profit or charges for its services. A child care facility includes the people, administration, governing body, activities on or off the premises, operations, buildings, grounds, equipment, furnishings, and materials. A child care facility does not include child placing agencies, family homes, or maternity homes. (Ord. 16653 § 2 (part), 2007)

20.02.194 Child care facility, Type 3.

"Type 3 child care facility" means a type of facility that provides care for from seven to twelve children for up to twenty-four hours per day. These types of facilities are provided in the caregiver's home, require a special permit from the city council, and include, but are not limited to: residential treatment center, therapeutic foster care facilities and treatment training residences. (Ord. 16653 § 2 (part), 2007)

20.02.196 Child care facility, Type 4.

"Type 4 child care facility" means a type of facility that provides care for from seven to twelve children for either less than or up to twenty-four hours per day. These types of facilities are not provided in the caregiver's home, and include, but are not limited to: agency group homes, group day-care homes, residential treatment center, therapeutic foster care facilities and treatment training residences. (Ord. 16653 § 2 (part), 2007)

20.02.198 Child care facility, Type 5.

"Type 5 child care facility" means a type of facility that provides care for more than twelve children for either less than or up to twenty-four hours per day. These types of facilities include, but are not limited to: commercial day-care centers, drop-in day-care centers, residential treatment center, therapeutic foster care facilities and treatment training residences. (Ord. 16653 § 2 (part), 2007)

20.02.200 Child care facility, Type 6.

"Type 6 child care facility" means a facility that is primarily an education facility but also cares for more than twelve children, ages five through thirteen, for less than twenty-four hours per day. This type of facility includes, but is not limited to: schools (grades K through 9) and nursery schools and kindergartens. (Ord. 16653 § 2 (part), 2007)

20.02.202 Child care facility, Type 7.

"Type 7 child care facility" means a facility that provides care for more than twelve children for up to twenty-four hours per day. These types of facilities include, but are not limited to: child care institutions, children's homes, halfway houses, residential treatment camps, emergency shelters, training schools and correctional schools. (Ord. 16653 § 2 (part), 2007)

20.02.204 Child care institution.

"Child care institution" means a child-care facility that provides care for more than twelve children for twenty-four hours a day, including facilities known as children's homes, halfway houses, residential treatment camps, emergency shelters and training or correctional schools for children. (Ord. 16653 § 2 (part), 2007)

20.02.206 Christmas tree stand.

"Christmas tree stand" means a temporary location from which Christmas trees are sold. (Ord. 16653 § 2 (part), 2007)

20.02.208 Church.

"Church" means a building, together with its accessory buildings and uses, where persons regularly assemble for religious worship, and which building together with its accessory buildings and uses (which may include a columbarium), is maintained and controlled by a religious body organized to sustain public worship. (Ord. 16653 § 2 (part), 2007)

20.02.210 Circus.

"Circus" means the temporary use of land for performances by persons and/or animals under temporary cover or similar structure, with or without other sideshows. (Ord. 16653 § 2 (part), 2007)

20.02.212 City council.

"City council" means the City Council of the City of El Paso. (Ord. 16653 § 2 (part), 2007)

20.02.214 Clinic.

"Clinic" means a facility for examining and treating patients with medical conditions on an outpatient basis, including ambulatory care or similar medical services that generally require a stay of less than twenty-four hours. (Ord. 16653 § 2 (part), 2007)

20.02.216 Club, private.

"Private club" means buildings and facilities owned or operated by a corporation, association, person or persons for a social, educational or recreational purpose, but not primarily for profit and not primarily to render a service which is customarily carried on as a business. The definition includes civic community and noncommercial private clubs, but does not include a church. (Ord. 16653 § 2 (part), 2007)

20.02.218 Coliseum.

See "Sports arena." (Ord. 16653 § 2 (part), 2007)

20.02.220 Collection facility.

See "Recycling collection facility, large (greater than two thousand square feet)" or "Recycling collection facility, small (less than or equal to two thousand square feet)." (Ord. 16653 § 2 (part), 2007)

20.02.222 Collector street.

"Collector street" means a street designated as a collector on the adopted major thoroughfare plan of the city. (Ord. 16653 § 2 (part), 2007)

20.02.224 College or university.

"College or university" means an institution of higher learning accredited by the state of Texas

and offering a course of studies leading to a degree. (Ord. 16653 § 2 (part), 2007)

20.02.226 Commercial day care center.

"Commercial day care center" means a commercial child care facility that cares for children who are less than fourteen years of age. (Ord. 16653 § 2 (part), 2007)

20.02.228 Commercial equipment repair.

"Commercial equipment repair" means facilities engaged in the repair and maintenance of commercial, industrial or agricultural machinery and equipment. (Ord. 16653 § 2 (part), 2007)

20.02.230 Commercial fueling station.

"Commercial fueling station" means a facility with unattended gasoline, diesel, or other fuel pumps or dispensers, typically operated by the driver of the vehicle being fueled, with automatic billing through a credit card or debit card system. (Ord. 16653 § 2 (part), 2007)

20.02.232 Commercial unit development.

"Commercial unit development" means a platted lot, zoned for commercial, manufacturing or industrial uses, which is further divided into more than one lot and where all additional lots are provided access to a public or private street through a private easement. The access shall be a parcel of land over which a private easement for road purposes, having a minimum paved width of twenty feet, is granted to all owners of property within the commercial unit development. In each instance the instrument creating such private easement, including the original agreement and any changes thereto resulting from the sale, lease or creation of additional lots, shall be held in perpetuity between all signatories, owners or lessees, to the agreement or their successors in interest, shall run with the land and be unseverable, and shall be duly recorded and filed with the office of the county clerk. (Ord. 16653 § 2 (part), 2007)

20.02.234 Commercial vehicle.

"Commercial vehicle" means every vehicle designed, maintained or used primarily for the transportation of property for commercial purposes. (Ord. 16653 § 2 (part), 2007)

20.02.236 Communication utility facility.

See "Public utility facility." (Ord. 16653 § 2 (part), 2007)

20.02.240 Community recreational facility.

"Community recreational facility" means open or enclosed facilities such as swimming pools, tennis courts, other playing surfaces, picnic areas, or other recreational areas, including necessary accessory facilities such as bathhouses, sun or rain shelters, storage buildings, and parking areas, for the exclusive use of members of and to be operated and managed by a private organization or a nonprofit neighborhood organization, association or similar type of neighborhood group. (Ord. 16653 § 2 (part), 2007)

20.02.242 Composting facility.

"Composting facility" means a facility where organic matter derived primarily from off-site is processed by composting or by other means for commercial purposes. Activities of a composting facility may include management, collection, transportation, staging, composting, curing, storage, marketing, or use of compost. (Ord. 16653 § 2 (part), 2007)

20.02.244 Comprehensive plan.

"Comprehensive plan" means the long range plan for the development of the City of El Paso, Texas, reviewed by the city plan commission and adopted by the city council. The comprehensive plan includes the land use plan, major thoroughfare plan, planning area plans, maps and other documents that have been adopted as a part of the comprehensive plan. (Ord. 16653 § 2 (part), 2007)

20.02.246 Computer electronic product assembly.

"Computer electronic product assembly" means establishments primarily engaged in assembling

electronic computers, such as mainframes, personal computers, workstations, laptops, and computer servers; and computer peripheral equipment, such as storage devices, printers, monitors, input/output devices and terminals. (Ord. 16653 § 2 (part), 2007)

20.02.248 Computer product manufacturing.

"Computer product manufacturing" means establishments primarily engaged in manufacturing and/or assembling electronic computers, such as mainframes, personal computers, workstations, laptops, and computer servers; and computer peripheral equipment, such as storage devices, printers, monitors, input/output devices and terminals. (Ord. 16653 § 2 (part), 2007)

20.02.250 Concrete or cement mixing plant.

"Concrete or cement mixing plant" means a temporary use of property for the mixing of concrete. This use is incidental to construction operations during development being conducted on the same tract or subdivision. (Ord. 16653 § 2 (part), 2007)

20.02.252 Condominium.

"Condominium" means a single dwelling unit in a multi-unit dwelling or structure, which is separately owned and which may be combined with an undivided interest in the common areas and facilities of the property. (Ord. 16653 § 2 (part), 2007)

20.02.254 Conservation covenant.

"Conservation covenant" means a voluntary declaration by a property owner of a covenant that is filed of record in the El Paso County Real Property Records on property and is intended to preserve permanently the conservation values of an area.
(Ord. No. 17904, § 1, 11-6-2012)

20.02.256 Contractor equipment (sales, storage, repair and rental).

See "Heavy equipment (sales, storage, repair and rental)." (Ord. 16653 § 2 (part), 2007)

20.02.258 Contractor yard, large (greater than .50 acre).

"Large contractor yard (greater than .50 acre)" means property used to park or store construction materials, vehicles, or equipment used by a building or construction trades contractor. The contractor's business office may be an accessory use to a contractor's yard. Vehicles and equipment used by that contractor may be repaired or maintained in a contractor's yard provided such work is done in an enclosed building or structure. (Ord. 16653 § 2 (part), 2007)

20.02.260 Contractor yard, small (less than or equal to .50 acre).

"Small contractor yard (less than or equal to .50 acre)" means property used to park or store construction materials, vehicles or equipment used by a building or construction trades contractor. The contractor's business office may be an accessory use to a contractor's yard. Vehicles and equipment used by that contractor may be repaired or maintained in a contractor's yard provided such work is done in an enclosed building or structure. (Ord. 16653 § 2 (part), 2007)

20.02.262 Convalescent, nursing or rest home.

"Convalescent, nursing or rest home" means a personal care facility that provides nursing and convalescent care under the direction and supervision of licensed medical personnel for four or more unrelated recipients. (Ord. 16653 § 2 (part), 2007)

20.02.264 Convenience store.

"Convenience store" means a store offering for sale foodstuffs and some household supplies whose gross floor area is no greater than four thousand square feet. (Ord. 16653 § 2 (part), 2007)

20.02.266 Convenience store with gas pumps.

"Convenience store with gas pumps" means a store offering for sale gasoline, foodstuffs and some household supplies whose gross floor area is no

greater than four thousand square feet. (Ord. 16653 § 2 (part), 2007)

20.02.268 Convent.

"Convent" means the dwelling units of a religious order or congregation. (Ord. 16653 § 2 (part), 2007)

20.02.270 Convention center.

"Convention center" means a facility used for service organizations, business and professional conferences, and seminars. (Ord. 16653 § 2 (part), 2007)

20.02.272 Copy shop.

"Copy shop" means a business engaging in the reproduction or photographic impressions through mimeographic, electronic, digital, electrostatic or thermal copy process, whether wet or dry. (Ord. 16653 § 2 (part), 2007)

20.02.273 Corner store.

"Corner store" means a retail, general service, arts design and creation, or eating and drinking establishment. It can include general retail, a food store, or an establishment with an art focus. Cooking on-site is not allowed for corner grocery stores. (Ord. No. 019734, § 1, 5-28-2025)

20.02.274 Correctional facility.

"Correctional facility" means a publicly or privately operated facility housing persons awaiting trial or persons serving a sentence imposed by a court of law. (Ord. 16653 § 2 (part), 2007)

20.02.276 Courier and message service.

"Courier and message service" mean an establishment that provides air, surface, or combined courier delivery services of parcels and messages within or between metropolitan areas or urban centers. (Ord. 16653 § 2 (part), 2007)

20.02.278 Court.

"Court" means an open space that may or may not have direct street access and around which is arranged a single building or a group of related buildings. (Ord. 16653 § 2 (part), 2007)

20.02.279 Credit access business.

"Credit access business" means a credit services organization that obtains for a consumer or assists a consumer in obtaining an extension of consumer credit in the form of a deferred presentment transaction, as defined in Section 393.601 of the Texas Finance Code, or a motor vehicle title loan.
(Ord. No. 18244, § 1, 9-16-2014)

20.02.280 Credit union.

See "Financial institution." (Ord. 16653 § 2 (part), 2007)

20.02.282 Crematorium.

"Crematorium" means a facility with cremation chambers used for the reduction of the human body to ashes by heat. (Ord. 16653 § 2 (part), 2007)

20.02.284 Dairy product processing.

"Dairy product processing" means a facility for the work or processing necessary for the production of dairy products. (Ord. 16653 § 2 (part), 2007)

20.02.286 Dancehall.

"Dancehall" means any place the principal purpose of which is the furnishing of facilities for dancing. (Ord. 16653 § 2 (part), 2007)

20.02.288 Data processing center.

"Data processing center" means a facility where electronic data is processed by employees, including, without limitation, data entry, storage, conversion or analysis, subscription and credit card transaction processing. (Ord. 16653 § 2 (part), 2007)

20.02.288.1 Data processing center (hyperscale).

"Data processing center (hyperscale)" or "data center (hyperscale)" means one or more data cen-

ters and/or other facilities used to house, and in which are operated, maintained and replaced from time to time, computer systems and associated components, such as telecommunications and storage systems, cooling systems, power supplies and systems for managing property performance (including generators and mechanical and electrical yards), and equipment used for the transformation, transmission, distribution and management of electricity (including private substations), internet-related equipment, data communications connections, private communication towers, environmental controls and security devices, structures and site features, as well as certain accessory uses or buildings located on the land and other related or associated uses, buildings or structures such as utility buildings; private utility facilities; office; buildings for support staff; warehousing for logistics, storage and/or other similar uses; cafeteria; guardhouse; diesel storage tanks; fuel storage for emergency generators; water storage tanks; security fencing; and other structures, improvements and appurtenants.
(Ord. No. 019517, § 1, 6-20-2023)

20.02.290 Density.

"Density" means the number of dwelling units that may be constructed per acre, calculated by dividing the site area by minimum required lot area in the underlying zoning district. (Ord. 16653 § 2 (part), 2007)

20.02.292 Detention basin (public/private).

"Detention basin (public/private)" means a facility for the temporary storage of stormwater runoff. (Ord. 16653 § 2 (part), 2007)

20.02.294 Development standard.

"Development standard" means regulations that limit the size, bulk or siting conditions of particular types of buildings or uses located within any designated district. (Ord. 16653 § 2 (part), 2007)

20.02.295 Disabled group dwelling.

"Disabled group dwelling" means a single family dwelling designed and used as a residence by no more than six (6) persons with disabilities and two (2) supervisors, and who are living together as a single housekeeping unit. "Disabled person" has the meaning defined by the Federal Fair Housing Act of 1988, as amended. This use does not include a homeless shelter or halfway house as defined in this Title.
(Ord. No. 18241, § 1, 9-9-2014)

20.02.296 Diesel maintenance facility.

"Diesel maintenance facility" means a facility where locomotives and switch engines are housed, tested, repaired, maintained, inspected, serviced and fueled, as well as all equipment and facilities utilized to accomplish the foregoing activities; also commonly referred to as a roundhouse. (Ord. 16653 § 2 (part), 2007)

20.02.298 Reserved.

Editor's note—Ord. No. 17442, § 2, adopted October 26, 2010, repealed § 20.02.298, which pertained to director and derived from Ord. 16653 § 2 (part), 2007.

20.02.300 Disabled person.

"Disabled person" means a person who has a physical or mental impairment, or both, that substantially limits one or more major life activities. (Ord. 16653 § 2 (part), 2007)

20.02.302 Domestic garden house, toolhouse, playhouse.

"Domestic garden house, toolhouse, playhouse" means a detached accessory structure used as a garden house, tool house, playhouse, or other suitable uses otherwise conforming to zoning district requirements. (Ord. 16653 § 2 (part), 2007)

20.02.304 Domestic storage.

"Domestic Storage" means the storage of any domestic materials, furnishings, appliances, or similar items. Storage that is an accessory use or incidental to the primary use shall only be permitted inside a main building or inside an accessory building. Domestic Storage does not include materials used in an ongoing construction or remodeling project, provided that the project has a valid city permit. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17070, § 1, 2-10-2009)

20.02.306 Drugstore.

See "Pharmacy." (Ord. 16653 § 2 (part), 2007)

20.02.308 Dry cleaning shop (less than or equal to two thousand five hundred square feet).

"Dry cleaning shop (less than or equal to two thousand five hundred square feet)" means a facility with less than or equal to two thousand five hundred square feet of floor area, maintained for the pickup and delivery of dry cleaning and laundry, where the cleaning and laundering is performed at another site. (Ord. 16653 § 2 (part), 2007)

20.02.310 Dry cleaning shop (greater than two thousand five hundred square feet).

"Dry cleaning shop (greater than two thousand five hundred square feet)" means a facility with more than two thousand five hundred square feet of floor area, maintained for the pickup and delivery of dry cleaning and laundry, where the cleaning and laundering is performed at the site. (Ord. 16653 § 2 (part), 2007)

20.02.312 Dry-cleaners (commercial).

"Dry-cleaners (commercial)" means a facility used for cleaning fabrics, textiles, wearing apparel, or articles of any sort. Typical uses include, but are not limited to, laundries, diaper services and linen supply services. (Ord. 16653 § 2 (part), 2007)

20.02.314 Dude ranch.

"Dude ranch" means a resort patterned after a western ranch, featuring camping, horseback riding and other outdoor activities. (Ord. 16653 § 2 (part), 2007)

20.02.316 Duplex (two-family dwelling).

"Duplex (two-family dwelling)" means a building designed or occupied as two dwelling units. (Ord. 16653 § 2 (part), 2007)

20.02.318 Dwelling.

"Dwelling" means a building, structure or portion thereof, designed or used primarily for residential occupancy with culinary and bathroom facilities. A dwelling does not include boats, trailers, motor homes, hotels, motels, motor lodges, boarding or lodging houses. (Ord. 16653 § 2 (part), 2007)

20.02.320 Dwelling, attached single-family.

See "Single-family attached dwelling (atrium, patio, townhouse, condominium)." (Ord. 16653 § 2 (part), 2007)

20.02.322 Dwelling, detached single-family.

See "Single-family detached dwelling." (Ord. 16653 § 2 (part), 2007)

20.02.324 Dwelling, multifamily.

"Multifamily dwelling" means a building, or portion thereof, designed or used for occupancy by three or more families, all living independently of each other in separate dwelling units. (Ord. 16653 § 2 (part), 2007)

20.02.326 Dwelling, resident watchman or property caretaker.

"Resident watchman or property caretaker dwelling" means a residence located on a premises with a principal use and occupied by a caretaker or guard employed on the premises. (Ord. 16653 § 2 (part), 2007)

20.02.328 Dwelling, single-family.

"Single-family dwelling" means a building designed for or occupied exclusively by one family. (Ord. 16653 § 2 (part), 2007)

20.02.330 Dwelling, two-family (duplex).

"Two-family (duplex) dwelling" means a building designed for or occupied exclusively by two families living independently of each other. (Ord. 16653 § 2 (part), 2007)

20.02.332 Dwelling unit.

"Dwelling unit" means a room or group of rooms occupied or designed to be occupied as separate living quarters by a single-family or other group of persons living together as a household or by a person living alone, and having its own permanently installed cooking and sanitary facilities. (Ord. 16653 § 2 (part), 2007)

20.02.334 Easement, private.

"Private easement" means a right-of-use over property of another granted but not dedicated to the city, for the limited use of private land where general use and maintenance of such easement is governed by an agreement which runs with the land and is recorded with the office of the county clerk. A private easement may include certain improved portions of private land which are intended for the general use, enjoyment, convenience and benefit of all signatories, owners or lessees, and their permittees, including, but not limited to, parking areas and spaces, roadways (including roads or lateral access drives), driveways, entrances to dedicated public or private streets, sidewalks, landscaped areas, and truck loading or delivery areas. (Ord. 16653 § 2 (part), 2007)

20.02.336 Electronic product manufacturing or assembly.

"Electronic product manufacturing or assembly" means a facility where electronic devices and systems are manufactured and/or assembled. (Ord. 16653 § 2 (part), 2007)

20.02.337 Emergency shelter.

"Emergency shelter" means a facility that provides temporary housing and appropriate supportive services to more than five persons, exclusive of the support staff, whom have been victims of a crime, and are seeking shelter on an emergency basis. The persons seeking shelter could for example, be victims of domestic violence, sexual assault, or human trafficking. This use does not include a homeless shelter or halfway house as defined in this Title.
(Ord. No. 18241, § 1, 9-9-2014)

20.02.338 Engineering department.

"Engineering department" means the engineering department of the City of El Paso, Texas. (Ord. 16653 § 2 (part), 2007)

20.02.340 Establishment.

"Establishment" means a place of business, including the possessions and employees. (Ord. 16653 § 2 (part), 2007)

20.02.342 Executive secretary of the city plan commission.

"Executive secretary of the city plan commission" means an individual who is selected in accordance with the CPC bylaws and is responsible for the maintenance of all records and research activities undertaken by the commission. (Ord. 16653 § 2 (part), 2007)

20.02.344 Exercise facility (indoor).

"Exercise facility (indoor)" means a facility where members use equipment or space for the purpose of physical exercise, physical training or team sports. (Ord. 16653 § 2 (part), 2007)

20.02.346 Exhibition hall.

See "Convention center." (Ord. 16653 § 2 (part), 2007)

20.02.348 Explosives storage.

"Explosives storage" means a facility where legally approved explosives are stored as mandated by and in conformance with all applicable law. (Ord. 16653 § 2 (part), 2007)

20.02.350 Extermination service.

"Extermination service" means a business with the primary purpose of the eradication or control of rodents, insects, or other pests with incidental storage of pesticides on site. (Ord. 16653 § 2 (part), 2007)

20.02.352 Fabricated metal product manufacturing.

"Fabricated metal product manufacturing" means a facility that transforms metal into intermediate or end products through forging, stamping, bending, forming, and machining, such processes used to shape individual pieces of metal; and other processes, such as welding and assembling, used to join separate parts together. (Ord. 16653 § 2 (part), 2007)

20.02.354 Facility-mount.

See "Personal Wireless Service Facility, facility-mounted." (Ord. 16653 § 2 (part), 2007)

20.02.356 Facility-structure.

"Facility-structure" means a functioning light standard, recreational facility light pole, flag pole or other approved structure. (Ord. 16653 § 2 (part), 2007)

20.02.358 Fairground.

"Fairground" means an open space of land where fairs, exhibitions, or other public events are held. (Ord. 16653 § 2 (part), 2007)

20.02.360 Family.

"Family" means any individual or group of persons related by blood, adoption or marriage, or not more than five unrelated persons living as a single housekeeping unit or home. (Ord. 16653 § 2 (part), 2007)

20.02.362 Farm.

"Farm" means an area that is used for the production of farm crops, such as vegetables, fruit

trees, cotton, dairy products, grain or similar crops and their storage, and the raising of farm animals. Farming does not include the commercial raising of animals or feed yards. (Ord. 16653 § 2 (part), 2007)

20.02.364 Farmer's market.

"Farmer's market" means the offering for sale of primarily fresh agricultural or food products directly to the consumer at an open-air market. (Ord. 16653 § 2 (part), 2007)

20.02.366 Feed dealer.

"Feed dealer" means a facility engaged in the retail sale of animal feeds, fertilizers, agricultural chemicals, pesticides, seeds and other such farm supplies. (Ord. 16653 § 2 (part), 2007)

20.02.368 Feed yard.

"Feed yard" means a lot, yard, corral or other area in which livestock are confined, primarily for the commercial purposes of feeding and growth prior to slaughter. The term does not include areas that are used for raising crops or other vegetation or upon which livestock are allowed to graze. (Ord. 16653 § 2 (part), 2007)

20.02.370 Fence.

"Fence" means a physical barrier of any type of construction used as a boundary or means of protection. (Ord. 16653 § 2 (part), 2007)

20.02.372 Firewood sales.

"Firewood sales" means a location from which firewood is sold. (Ord. 16653 § 2 (part), 2007)

20.02.374 Flea market (swap meet).

"Flea market (swap meet)" means a commercial activity, conducted by multiple retail operators, which is open to the general public and composed of semi-enclosed or outdoor stalls, rooms, stands or spaces used for the purpose of display and sale, exchange or barter of merchandise does not include shopping centers, individual retail operations or sales conducted by a nonprofit or charitable organization. (Ord. 16653 § 2 (part), 2007)

20.02.376 Flea market, indoor.

"Indoor flea market" means a flea market that is located within an enclosed building or buildings, which shall also be subject to the provisions of Section 20.10.430 of this title. (Ord. 16653 § 2 (part), 2007)

20.02.378 Flea market, outdoor.

"Outdoor flea market" means a flea market that is located partially or totally within an unenclosed parcel of land, which shall be subject to the provisions of Section 20.10.430 of this title. (Ord. 16653 § 2 (part), 2007)

20.02.380 Floor area.

"Floor area" means:

1. For nonresidential buildings or buildings containing mixed uses: the sum of the gross horizontal areas of the floors of a building measured from the exterior faces of the exterior walls or from the centerline of walls separating two buildings.

2. For residential buildings: the sum of the gross horizontal areas of the floors of a dwelling, exclusive of garages, atriums, stairwells, open porches and unoccupied basements, cellars, and attics, measured from the exterior faces of the exterior walls. (Ord. 16653 § 2 (part), 2007)

20.02.382 Floor area, gross.

"Gross floor area" means the sum of the gross horizontal areas of the floors of a building measured from the exterior faces of the exterior walls or from the centerline of common walls separating two buildings, but not including unoccupied attics, basements, cellars, stairwells or atriums (above ground level), and exclusive of areas open and unobstructed to the sky. (Ord. 16653 § 2 (part), 2007)

20.02.384 Floor area, gross leasable.

"Gross leasable floor area" means that area utilized for sales, service and warehousing pur-

poses, and excluding public restrooms, enclosed trash storage areas, equipment room areas, and parking areas. (Ord. 16653 § 2 (part), 2007)

20.02.386 Floor area ratio.

"Floor area ratio" means the numerical value obtained by dividing the gross floor area of a building or buildings on any lot by the area of the lot. (Ord. 16653 § 2 (part), 2007)

20.02.388 Food manufacturing, other.

"Other food manufacturing" means a facility not otherwise defined as an animal food manufacturing facility, beverage product manufacturing facility, bread and bakery product manufacturing facility, brewery, dairy product processing facility, seafood product preparation facility, or a sugar and confectionary product manufacturing facility. (Ord. 16653 § 2 (part), 2007)

20.02.390 Food storage locker.

"Food storage locker" means a food locker plant renting only individual lockers for home customer storage of food, and/or sale at retail, delivery of individual home orders and the cutting and packaging of meats or game, but not including slaughtering or eviscerating thereof. (Ord. 16653 § 2 (part), 2007)

20.02.391 Fraternal organization.

"Fraternal organization" means 501(c)3 charitable organization under IRS regulations.
(Ord. No. 17557, § 1, 5-17-2011)

20.02.392 Freeway.

"Freeway" means all U.S. interstate highways and other roadways designated as freeways in the master thoroughfare plan. (Ord. 16653 § 2 (part), 2007)

20.02.394 Freight.

"Freight" means and includes goods, merchandise, substances, materials and commodities of any kind that may be transported or transferred from one place to another by air, rail or motor-carrier. (Ord. 16653 § 2 (part), 2007)

20.02.396 Freight terminal.

"Freight terminal" means a facility or location where the principal use is the loading, unloading, storing, receiving, assembling, dispatching, weighing, consolidating, classifying, switching, distribution, movement or transfer of freight, as well as all equipment and facilities utilized to accomplish the foregoing activities. For purposes of this definition, a railroad right-of-way shall not be considered to be a freight terminal. (Ord. 16653 § 2 (part), 2007)

20.02.398 Frontage.

"Frontage" means:

1. Street Frontage. All of the property on one side of a street between two intersecting streets (crossing or terminating), measured along the line of the street, or, if the street is dead-ended, then all the property abutting on one side between an intersecting street and dead-end of the street;

2. Lot Frontage. The distance for which the front boundary line of the lot and the street line are coincident. (Ord. 16653 § 2 (part), 2007)

20.02.400 Funeral home.

"Funeral home" means a facility for the arrangement of funerals and the preparation of the dead for burial or cremation. (Ord. 16653 § 2 (part), 2007)

20.02.402 Gambling casino.

"Gambling casino" means a facility where legal gambling is conducted. (Ord. 16653 § 2 (part), 2007)

20.02.404 Game court (noncommercial).

"Game court (noncommercial)" means a marked playing area for playing games such as tennis and basketball intended for the exclusive use of the residents and their private guests. (Ord. 16653 § 2 (part), 2007)

20.02.406 Garage, automotive repair.

See "Automotive repair garage." (Ord. 16653 § 2 (part), 2007)

20.02.408 Garage, community.

"Community garage" means an area that provides for parking and refueling of passenger cars only; does not include automotive repair garage. (Ord. 16653 § 2 (part), 2007)

20.02.410 Garage, parking.

"Parking garage" means a building or portion thereof designed or used for the temporary storage of motor-driven vehicles, with or without the retail dispensing, sale or offering for sale of motor fuels, lubricants and tires, or indoor car washing, minor motor adjustment, and flat tire repair when such operations are incidental to the storage of motor-driven vehicles; does not include automotive repair garage or any outside storage. (Ord. 16653 § 2 (part), 2007)

20.02.412 Garage, private.

"Private garage" means a detached accessory building or a portion of a main building on the same lot as a dwelling for the storage of private motor vehicles, boats or trailers of the occupants of the dwellings; includes carport. (Ord. 16653 § 2 (part), 2007)

20.02.414 Garage sale.

"Garage sale (yard, rummage sale)" means the selling of used articles on the premises of a single-family or two-family dwelling, and on the premises of a place of public assembly and at city parks and recreational areas managed by the parks and recreation department. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17360, § 1, 7-20-2010)

20.02.416 Governmental use, building.

"Governmental use, building" means a building or structure owned, operated, or occupied by a governmental agency. (Ord. 16653 § 2 (part), 2007)

20.02.418 Grade.

"Grade" means the slope of any surface specified in percentage terms. (Ord. 16653 § 2 (part), 2007)

20.02.420 Grain and oil seed milling.

"Grain and oil seed milling" means facilities engaged in flour milling and malt manufacturing; starch and vegetable fats and oil manufacturing; and breakfast cereal manufacturing. (Ord. 16653 § 2 (part), 2007)

20.02.421 Greenfield development.

"Greenfield development" means the development of an area that consists of open or wooded land or farmland that has not been previously developed.
(Ord. No. 18688, § 1, 5-30-2017)

20.02.422 Greenhouse (industrial scale).

"Greenhouse (industrial scale)" means a structure partially or wholly enclosed used for the cultivation or protection of plants for commercial production. (Ord. 16653 § 2 (part), 2007)

20.02.423 Greyfield development.

"Greyfield development" means the redevelopment of abandoned or obsolete or underutilized parcels surrounded by substantial existing development.
(Ord. No. 18688, § 1, 5-30-2017)

20.02.424 Grocery.

"Grocery" means a store offering for sale foodstuffs and some household supplies, where the gross floor area is greater than four thousand but less than or equal to twelve thousand square feet. (Ord. 16653 § 2 (part), 2007)

20.02.426 Group residential facility.

"Group residential facility" means an interim or permanent residential facility (as opposed to a lodging or medical treatment facility) that provides room and board to seven or more disabled persons, and who live together as a single housing

unit. "Disabled person" has the meaning defined by the Federal Fair Housing Act of 1988, as amended. This use does not include a homeless shelter or halfway house defined in this title.
(Ord. 16653 § 2 (part), 2007; Ord. No. 18241, § 1, 9-9-2014; Ord. No. 18589, § 1, 11-1-2016)

20.02.428 Guest and/or employee quarters.

"Guest and/or employee quarters" means living quarters within a detached accessory building located on the same premises with the principal building, for use by employees or guests of the occupants of the premises; such quarters having no separate utility meters, and not rented or otherwise used as a separate dwelling. (Ord. 16653 § 2 (part), 2007)

20.02.429 Halfway house.

"Halfway house" means a facility for the housing, rehabilitation, and training of persons on probation, parole, or early release from correctional institutions, or other persons found guilty of criminal offenses.
(Ord. No. 18218, § 1, 7-29-2014)

20.02.430 Harvesting crops.

"Harvesting crops" means the act or process of gathering in a crop. (Ord. 16653 § 2 (part), 2007)

20.02.432 Heavy equipment.

"Heavy equipment" means all motor-driven equipment with a manufacturer's rated carrying capacity exceeding two tons, not otherwise herein defined. (Ord. 16653 § 2 (part), 2007)

20.02.434 Heavy equipment (sales, storage, repair and rental).

"Heavy equipment (sales, storage, repair and rental)" means a facility where heavy equipment is sold, stored, repaired or rented. (Ord. 16653 § 2 (part), 2007)

20.02.436 Heavy truck.

"Heavy truck" means every truck with a manufacturer's rated carrying capacity exceeding two tons. (Ord. 16653 § 2 (part), 2007)

20.02.438 Heavy truck (sales, storage, repair and rental).

"Heavy truck (sales, storage, repair and rental)" means a facility for the display, sale, storage, service, repair, or rental of heavy trucks. (Ord. 16653 § 2 (part), 2007)

20.02.440 Hedge.

"Hedge" means a natural shrubbery planted in a compact line serving as a fence, wall or boundary. (Ord. 16653 § 2 (part), 2007)

20.02.442 Heliport.

"Heliport" means a type of passenger terminal that is used to accommodate all phases of operation of helicopters, either at ground level or elevated on a structure. (Ord. 16653 § 2 (part), 2007)

20.02.444 Helistop.

"Helistop" means a type of passenger terminal used, either at ground level or elevated on a structure, for the storing, landing and takeoff of a single helicopter for the purpose of loading and unloading passengers, but does not afford refueling, maintenance, repair or other facilities. (Ord. 16653 § 2 (part), 2007)

20.02.446 Historic landmark.

"Historic landmark" means a building, structure, site district, area or land of architectural, historical, archaeological or cultural importance or value, which the city council determines shall be protected, enhanced and preserved in the interest of the culture, prosperity, education and general welfare of the people. (Ord. 16653 § 2 (part), 2007)

20.02.448 Historic landmark commission (HLC).

"Historic landmark commission" means the historic landmark commission of the City of El Paso, Texas. (Ord. 16653 § 2 (part), 2007)

20.02.450 Home child care facility.

"Home child care facility" means a facility which at any time provides care for no more than a total of twelve children who are less than fourteen years of age, of which the caretaker's own children shall also be counted in the total number allowed. (Ord. 16653 § 2 (part), 2007)

20.02.452 Home improvement center.

"Home improvement center" means a facility for the sale of home, lawn, and garden supplies, brick, lumber, and other similar building materials. (Ord. 16653 § 2 (part), 2007)

20.02.454 Home occupation.

"Home occupation" means a permitted occupation carried on primarily within a home where such use is clearly incidental and secondary to the principal use of the property as a dwelling, and meeting the additional requirements of Section 20.10.270. (Ord. 16653 § 2 (part), 2007)

20.02.455 Homeless shelter.

"Homeless shelter" means a lodging facility that provides lodging with or without meals, or lodging and meals, on a temporary basis to more than five persons, who are homeless, and are not related by blood, marriage, or adoption to the head of the household or the owner or operator of the facility; whether or not the facility is operated for profit or charges for the services it offers. (Ord. No. 18241, § 1, 9-9-2014)

20.02.456 Hospital.

"Hospital" means an institution providing health services, primarily for in-patients, and medical or surgical care of the sick or injured, including as an integral part of the institution, such related facilities as laboratories, out-patient departments, training facilities, central service facilities and staff offices. (Ord. 16653 § 2 (part), 2007)

20.02.458 Hotel, motel.

"Hotel, motel" means a building in which lodging or boarding and lodging are provided for persons, primarily transient, and offered to the public for compensation and in which room assignments are made through a lobby or office supervised by a person in charge at all hours. As such, it is open to the public in contrast to a boarding, rooming or lodging house, or multiple-family dwelling, which are herein separately defined. A hotel or motel may include restaurants, taverns or club rooms, public banquet halls, ballrooms and meeting rooms. (Ord. 16653 § 2 (part), 2007)

20.02.460 Household goods repair.

"Household goods repair" means a facility for the repair of household and home equipment, including appliances, lawnmowers, power tools, and similar items. (Ord. 16653 § 2 (part), 2007)

20.02.462 Household product manufacturing.

"Household product manufacturing" means an establishment engaged in the production of household products. (Ord. 16653 § 2 (part), 2007)

20.02.464 HUD-code manufactured home (manufactured home).

"HUD-code manufactured home (manufactured home)" means a structure constructed on or after June 15, 1976, according to the rules of the United States Department of Housing and Urban Development, transportable in one or more sections, which, in the traveling mode, is eight body feet or more in width or forty body feet or more in length, or, when erected on site, is three hundred twenty or more square feet, and which is built on a permanent chassis and designed to be used as a dwelling with or without a permanent foundation when connected to the required utilities, and includes the plumbing, heating, air-conditioning, and electrical systems. The term does not include a recreational vehicle as defined by 24 C.F.R. Section 3282.8(g). (Ord. 16653 § 2 (part), 2007)

20.02.466 HUD-code manufactured home park (manufactured home park).

"HUD-code manufactured home park (manufactured home park)" means a parcel of ground,

not a part of a manufactured home subdivision, providing sites for the parking or location of one or more occupied manufactured homes, travel trailers, recreation vehicles and similar units. (Ord. 16653 § 2 (part), 2007)

20.02.468 Indoor entertainment and recreational uses.

"Indoor entertainment and recreational uses" means an establishment or place of business primarily engaged in the provision of entertainment or recreation for participants or spectators. Permitted uses include meeting halls, bingo parlors, motion picture theaters, bowling alleys, billiard halls, dance studios, skating rinks, indoor tennis and racquetball courts, and health and physical fitness studios. (Ord. 16653 § 2 (part), 2007)

20.02.470 Industrialized home.

"Industrialized home" means a residential structure:

1. Designed for the occupancy of one or more families;

2. Constructed in one or more modules or constructed using one or more modular components built at a location other than the permanent site;

3. Designed to be used as a permanent residential structure when the module or the modular component is transported to the permanent site and erected or installed on a permanent foundation system; and

4. Outfitted with plumbing, heating, air conditioning, and electrical systems.

"Industrialized home" does not mean:

1. A residential structure that exceeds three stories or forty-nine feet in height as measured from the finished grade elevation at the building entrance to the peak of the roof;

2. Housing constructed of a sectional or panelized system that does not use a modular component; or

3. A ready-built home constructed in a manner in which the entire living area is contained in a single unit or section at a temporary location for the purpose of selling and moving the home to another location. (Ord. 16653 § 2 (part), 2007)

20.02.471 Infill development.

"Infill development" means any development activity, including but not limited to new construction, renovation, addition, rehabilitation or redevelopment, associated with vacant or underutilized parcels within existing, largely developed urban areas.
(Ord. No. 18688, § 1, 5-30-2017)

20.02.472 Institution, educational.

"Educational institution" means a school offering graded academic or vocational instruction meeting the requirements of state compulsory education laws, or a college or university giving general instruction equivalent to the standards prescribed by local and state public educational authorities. May be public or private. Does not include trade schools, dance schools, karate schools, riding academies, nursery schools and similar commercial operations. (Ord. 16653 § 2 (part), 2007)

20.02.474 Institution, philanthropic.

"Philanthropic institution" means a nonprofit institution existing for the sole purpose of promoting the welfare of mankind by works of charity, including orphanages, homes for unwed mothers, and similar institutions of this general nature. Does not include secret societies, fraternal organizations, social or private clubs, which may be incidentally engaged in charitable or philanthropic work. (Ord. 16653 § 2 (part), 2007)

20.02.476 Interchange.

"Interchange" means the intersection of two public rights-of-way not on the same grade (measured along the interstate or freeway from the nearest point of the beginning or ending of pavement widening at the exit from or entrance to the main traveled way). (Ord. 16653 § 2 (part), 2007)

20.02.478 Interlocking tower.

"Interlocking tower" means the building, equipment or facilities used in the operation of the arrangement of signals and signal appliances for

the movement of rail locomotives and rolling stock. (Ord. 16653 § 2 (part), 2007)

20.02.480 Intermediate care facility.

See "Group home." ["Group residential facility."] (Ord. 16653 § 2 (part), 2007)

20.02.482 Intermodal facility.

"Intermodal facility" means a freight terminal where freight is moved by two or more different modes of transport within the same facility. (Ord. 16653 § 2 (part), 2007)

20.02.484 Intersection.

"Intersection" means the junction of any two public rights-of-way crossing at grade. (Ord. 16653 § 2 (part), 2007)

20.02.486 Junk motor vehicle.

"Junk motor vehicle" means any motor vehicle without current registration (license) or safety inspection sticker and/or unable to travel on public streets or highways legally under its own power. (Ord. 16653 § 2 (part), 2007)

20.02.488 Kennel.

"Kennel" means any premises on which animals are kept or housed for conducting the business of buying, selling, breeding, grooming, training or boarding of animals for compensation. The adoption of animals may be permitted as a part of a kennel operation. However, for the purpose of setbacks and other specific restrictions, a retail pet shop shall not be classified as a kennel. (Ord. 16653 § 2 (part), 2007)

20.02.490 Kitchen.

"Kitchen" means any room or facility designed to be used or maintained for the cooking or preparation of food. (Ord. 16653 § 2 (part), 2007)

20.02.492 Landmark.

"Landmark" means all buildings, structures or sites so identified by a national, state or local historic register, or located within any national, state or local historic district. (Ord. 16653 § 2 (part), 2007)

20.02.494 Landscape planting area.

"Landscape planting area" means an area that is devoted and maintained to the growing of grass and other plant material or by the use of organic or inorganic mulch. (Ord. 16653 § 2 (part), 2007)

20.02.496 Laundromat (less than or equal to five thousand square feet).

"Laundromat (less than or equal to five thousand square feet)" means a building or part thereof with less than or equal to five thousand square feet where customer's clothes or other household articles are washed and dried in self-service machines, and may also be ironed but no dry cleaning services are offered. (Ord. 16653 § 2 (part), 2007)

20.02.498 Laundromat (greater than five thousand square feet).

"Laundromat (greater than five thousand square feet)" means a building or part thereof with more than five thousand square feet where customer's clothes or other household articles are washed and dried in self-service machines, and may also be ironed but no delivery service is offered. (Ord. 16653 § 2 (part), 2007)

20.02.500 Laundry.

"Laundry" means a building or part thereof, other than a laundromat, where clothes and other articles are washed, dried and ironed. (Ord. 16653 § 2 (part), 2007)

20.02.502 Laundry (commercial).

"Laundry (commercial)" means a facility engaged in the business of providing laundry services for institutions, businesses or other such establishments. (Ord. 16653 § 2 (part), 2007)

20.02.504 Legal description.

"Legal description" means a description of a parcel of land indicating the lot or tract number, block number, and name of officially approved

subdivision which has been recorded with the county clerk; or a metes and bounds description of a parcel of land and amount of land included, certified as a complete and proper legal description by an architect, or a professional engineer with a civil engineering degree, or a surveyor. (Ord. 16653 § 2 (part), 2007)

20.02.506 Light truck.

"Light truck" means every truck or van with a manufacturer's rated carrying capacity not to exceed two tons. (Ord. 16653 § 2 (part), 2007)

20.02.508 Light truck (sales, service, storage and rental).

See "Automobile (sales, service, storage and rental)." (Ord. 16653 § 2 (part), 2007)

20.02.510 Liquified petroleum gas (storage and dispensing).

"Liquified petroleum gas (storage and dispensing)" means a facility or person that engages in activities where liquified petroleum gas is stored and/or sold for which a license is required from the railroad commission of Texas in accordance with state law. (Ord. 16653 § 2 (part), 2007)

20.02.512 Livestock auction.

"Livestock auction" means a facility where livestock are received and sold to buyers on an auction basis. (Ord. 16653 § 2 (part), 2007)

20.02.514 Livestock grazing.

See "Pasturage (small or large animals)." (Ord. 16653 § 2 (part), 2007)

20.02.516 Live-work flex unit.

"Live-work flex unit" means a building with one or more dwelling units and one principal commercial use that is owned and/or operated by one of the residents. (Ord. 16653 § 2 (part), 2007)

20.02.518 Loading berth.

"Loading berth" means a space within a building or on the premises providing for the standing, loading or unloading, and together with apron space for maneuvering of vehicles, trucks and semi-tractor trailers. (Ord. 16653 § 2 (part), 2007)

20.02.520 Loading space.

"Loading space" means an off-street space on the same lot with a principal building, or contiguous to a group of buildings, for the temporary parking of commercial vehicles while loading or unloading. (Ord. 16653 § 2 (part), 2007)

20.02.522 Loading spaces (serving another property).

"Loading spaces (serving another property)" means loading spaces on property that is located on a separate site from the property requiring the loading spaces. (Ord. 16653 § 2 (part), 2007)

20.02.524 Lodge.

"Lodge" means a facility used as the meeting place of a fraternal organization. A lodge may also be used for various temporary fund-raising activities to support charitable or philanthropic works incidental to, and carried out by, the organization, to include the rental of the lodge for temporary events, provided that if such use is no longer incidental to the primary use as a meeting place, then a special permit shall be required for such temporary use. (Ord. 16653 § 2 (part), 2007) (Ord. No. 17557, § 2, 5-17-2011)

20.02.526 Lodging house.

"Lodging house" means a dwelling other than a hotel, motel or tourist home, where, for compensation and by prearrangement, lodging, meals, or lodging and meals, are provided to more than five persons unrelated by blood or marriage to the owner or operator; including residential fraternity and sorority houses. (Ord. 16653 § 2 (part), 2007) (Ord. No. 18241, § 1, 9-9-2014)

20.02.528 Lot.

"Lot" means a parcel of land having frontage upon an accessway and shown either on a plat of record or described by metes and bounds; pro-

vided, however, that access may be provided through a private easement. (Ord. 16653 § 2 (part), 2007)

20.02.530 Lot, corner.

"Corner lot" means a lot located at the intersection of two or more streets. (Ord. 16653 § 2 (part), 2007)

20.02.532 Lot depth.

"Lot depth" means the distance between the front and rear lot lines, measured as follows:

1. Where the lot lines are straight, from the midpoints thereof;

2. Where the lot line curves in or out, from the midpoint of the arc between the side property lines;

3. Where there is no rear lot line, the lot depth shall be the length of a straight line connecting the bisecting point of the front lot line and the intersection of the two sidelines. (Ord. 16653 § 2 (part), 2007)

20.02.534 Lot, double frontage.

"Double frontage lot" means any lot having frontage on two streets which are nonintersecting or which intersect at an angle of less than or equal to seventy degrees with reference to the lot, as distinguished from a corner lot. (Ord. 16653 § 2 (part), 2007)

20.02.536 Lot, interior.

"Interior lot" means any lot having frontage on one street only. (Ord. 16653 § 2 (part), 2007)

20.02.538 Lot, panhandle.

"Panhandle lot" means a lot with frontage and access provided by way of a narrow projection of the lot to the street. (Ord. 16653 § 2 (part), 2007)

20.02.540 Lot, triple frontage.

"Triple frontage lot" means a corner lot having frontage on three streets. (Ord. 16653 § 2 (part), 2007)

20.02.542 Lot of record.

"Lot of record" means a lot that is a part of a subdivision or plat that has been recorded in the real property records of the county clerk, or a lot described by metes and bounds, the description of which has been recorded in the real property records of the county clerk. (Ord. 16653 § 2 (part), 2007)

20.02.544 Lot width, average.

"Average lot width" means the lot area divided by the lot depth. (Ord. 16653 § 2 (part), 2007)

20.02.546 Machinery manufacturing.

"Machinery manufacturing" means a facility where heavy equipment is manufactured, produced or assembled. (Ord. 16653 § 2 (part), 2007)

20.02.548 Main track.

"Main track" means a track, other than an auxiliary track, within railroad right-of-way which extends through railyards and between stations, upon which trains are operated by timetable or track warrant, or both, or the use of which is governed by a signal system. (Ord. 16653 § 2 (part), 2007)

20.02.550 Major utility facility.

See "Public utility facility." (Ord. 16653 § 2 (part), 2007)

20.02.552 Manufactured home (single-family dwelling).

See "HUD-code manufactured home." (Ord. 16653 § 2 (part), 2007)

20.02.554 Manufacturer's rated carrying capacity.

"Manufacturer's rated carrying capacity" means the nominal or commonly used carrying capacity in tons assigned by the manufacturer to a truck or piece of equipment, as distinguished from the actual load carrying capacity. (Ord. 16653 § 2 (part), 2007)

20.02.556 Manufactured home (sales, display and repair).

"Manufactured home (sales display and repair)" means a facility for the sales, display and repair of manufactured housing. (Ord. 16653 § 2 (part), 2007)

20.02.558 Marquee.

"Marquee" means a canopy-type or covered structure projecting from and supported by a building, when such canopy or covered structure extends beyond the building, building line or property line. (Ord. 16653 § 2 (part), 2007)

20.02.559 Masonry wall.

"Masonry wall" means a vertical barrier intended to provide visual screening and privacy constructed primarily of any combination of durable rock, brick or concrete. For purposes of this Title, a masonry wall may include decorative elements of wrought-iron.
(Ord. No. 18461, § 1, 1-12-2016)

20.02.560 Massage establishment.

"Massage establishment" means a place of business that advertises massage therapy or offers massage therapy as a service. "Massage therapy" means the manipulation of soft tissue by hand or through a mechanical or electrical apparatus for the purpose of body massage and includes effleurage (stroking), petrissage (kneading), tapotement (percussion), compression, vibration, friction, nerve strokes, and Swedish gymnastics. The terms "massage," "therapeutic massage," "massage technology," "myotherapy," "body massage," "body rub," or any derivation of those terms are synonyms for "massage therapy." (Ord. 16653 § 2 (part), 2007)

20.02.562 Master zoning plan.

"Master zoning plan" means the conceptual site plan and narrative proposal submitted with an application for a mixed-use zoning district (RMU, GMU or IMU), that, if approved by city council, sets out the zoning regulations for the mixed-use district. The master zoning plan must show the proposed uses, lot sizes, setbacks, height of buildings and design standards for the entire development. (Ord. 16653 § 2 (part), 2007)

20.02.564 Mausoleum.

"Mausoleum" means a structure for the entombment of the dead above ground. (Ord. 16653 § 2 (part), 2007)

20.02.566 Medical lab.

"Medical lab" means a facility equipped for medical testing and analysis. (Ord. 16653 § 2 (part), 2007)

20.02.568 Medical treatment facility.

See "Clinic." (Ord. 16653 § 2 (part), 2007)

20.02.570 Miniature golf course.

"Miniature golf course" means a theme-oriented recreational facility where the principal activity is golf played on a miniature course, and which may provide auxiliary uses such as food service and amusement game machines. (Ord. 16653 § 2 (part), 2007)

20.02.572 Minor utility facility.

See "Public utility facility." (Ord. 16653 § 2 (part), 2007)

20.02.574 Mobile home.

"Mobile home" is defined by the Texas Manufactured Housing Standards Act as a structure constructed before 1976 and regulated by the Texas Department of Housing and Community Affairs. (Ord. 16653 § 2 (part), 2007)

20.02.576 Mobile home park.

See "HUD-code manufactured home park." (Ord. 16653 § 2 (part), 2007)

20.02.578 Mobile home (sales, display and repair).

See "Manufactured home (sales, display and repair)." (Ord. 16653 § 2 (part), 2007)

20.02.580 Mobile home space.

"Mobile home space" means a lot or site within an approved mobile home park designed for the accommodation of a mobile home unit. (Ord. 16653 § 2 (part), 2007)

20.02.582 Mobile office/storage unit (related to construction operations).

"Mobile office/storage unit (related to construction operations)" means a temporary mobile or relocatable office or storage unit located on a site incidental to construction operations during development being conducted on the same tract or subdivision, and which is removed upon completion of construction. (Ord. 16653 § 2 (part), 2007)

20.02.584 Mobile office/storage unit (related to sales or rental).

"Mobile office/storage unit (related to sales or rental)" means a temporary mobile or relocatable office unit for use as sales or rental office for an approved real estate development or subdivision. (Ord. 16653 § 2 (part), 2007)

20.02.586 Mobile service unit.

"Mobile service unit" means a self-contained and self-powered vehicle that is equipped to operate as an extension of a licensed fixed base automobile and light truck lubrication business or as a mobile refueling station, in zoning districts where the fixed base business equivalent is a permitted use. All mobile service units must obtain an operator permit from the city. Mobile service units are additionally subject to all city code provisions including development standards in Section 20.10.365 and other applicable federal, state or local regulations. (Ord. 16653 § 2 (part), 2007)

20.02.588 Mobile recycling unit.

"Mobile recycling unit" means an automobile, truck, trailer, van or other commercial vehicle, which is used for the collection of recyclable material. A mobile recycling unit also means the bins, boxes or containers transported by trucks, vans or trailers and used for the collection of recyclable material. (Ord. 16653 § 2 (part), 2007)

20.02.590 Model dwelling.

"Model dwelling" means a completed unoccupied housing unit located in a subdivision and used for the sole purpose of displaying and selling similar units within the same subdivision and used for this purpose only until the units within said area are sold. (Ord. 16653 § 2 (part), 2007)

20.02.592 Mortuary.

See "Funeral home." (Ord. 16653 § 2 (part), 2007)

20.02.594 Motel.

See "Hotel." (Ord. 16653 § 2 (part), 2007)

20.02.596 Motor-carrier.

"Motor-carrier" means a carrier engaged in transporting, by motor vehicles on public/private streets and highways, freight or passengers through local, intrastate or interstate transportation. (Ord. 16653 § 2 (part), 2007)

20.02.598 Motor-carrier terminal.

"Motor-carrier terminal" means an area and buildings where cargo is stored and where trucks, including tractors and trailer units, load and unload cargo for transshipment or distribution on a regular basis, and which may include facilities for the temporary storage of loads prior to shipment and facilities for the maintenance of transport vehicles. (Ord. 16653 § 2 (part), 2007)

20.02.600 Motorcycle.

"Motorcycle" means every motor vehicle having a saddle for the use of the rider and designed to travel on not more than three wheels in contact with the ground, but excluding a tractor. (Ord. 16653 § 2 (part), 2007)

20.02.602 Motor vehicle.

"Motor vehicle" means every vehicle that is self-propelled. (Ord. 16653 § 2 (part), 2007)

20.02.604 Motor vehicle repair, major.

"Major motor vehicle repair" means an area or building which may provide services of major automotive repair, automotive tune-up or lubrication service; and allows the repair, rebuilding or reconditioning of engines, motor vehicles and trailers; including painting of vehicles. (Ord. 16653 § 2 (part), 2007)

20.02.606 Motor vehicle repair, minor.

"Minor motor vehicle repair" means an area or building that may provide the services of minor automotive repair, tune-up or lubrication service and/or an automotive service station and may include the following activities:

1. Wheel alignments and mounting;
2. Tire sales, service, mounting and balancing;
3. Maintenance on brake system;
4. Emergency road service;
5. Inspections. (Ord. 16653 § 2 (part), 2007)

20.02.608 Motor vehicle storage yard.

"Motor vehicle storage yard" means an area located on the property of a "motor vehicle repair, major" facility that has a storage area for temporary storage of motor vehicles that are inoperative and waiting for parts or unsafe to operate. This area is in addition to the parking spaces required for customers and employees. (Ord. 16653 § 2 (part), 2007)

20.02.610 Motor vehicle wrecking yard.

See "Automobile wrecking yard." (Ord. 16653 § 2 (part), 2007)

20.02.612 Moving and storage facility.

"Moving and storage facility" means a facility that provides specialized local or long-distance trucking of household, institutional, or commercial furniture and equipment. Incidental packing and storage activities are often provided. (Ord. 16653 § 2 (part), 2007)

20.02.614 Music store.

"Music store" means an establishment that engages in retailing prerecorded audio and video tapes, compact discs (CDs), digital video discs (DVDs), phonograph records, musical instruments, sheet music and related supplies. (Ord. 16653 § 2 (part), 2007)

20.02.616 Neighborhood fair, carnival.

"Carnival neighborhood fair" means the temporary use of land with various rides for entertainment and booths for the sale of food and drink. (Ord. 16653 § 2 (part), 2007)

20.02.618 Nonconforming lot.

"Nonconforming lot" means an otherwise legally platted lot that does not conform to the minimum area or dimensional requirements of this title for the zoning district in which it is located either at the effective date of the ordinance codified herein or as a result of subsequent amendments to such ordinance. (Ord. 16653 § 2 (part), 2007)

20.02.620 Nonconforming structure.

"Nonconforming structure" means an otherwise legal building or structure that does not conform with the lot area, yard, height, fence or screening wall, lot coverage, or other area regulations of this title, for the zoning district in which it is located, either at the effective date of the ordinance codified herein or as a result of subsequent amendments to such ordinance. (Ord. 16653 § 2 (part), 2007)

20.02.622 Nonconforming use.

"Nonconforming use" means the otherwise legal use of a building or structure or of a tract of land that does not conform to the use regulations of this title for the zoning district in which it is located, either at the effective date of the ordinance codified herein or as a result of subsequent amendments to such ordinance. (Ord. 16653 § 2 (part), 2007)

20.02.624 Nonionizing electromagnetic radiation (NIER) report.

"Nonionizing electromagnetic radiation (NIER) report" means a technical report containing information about the amount of electromagnetic radiation emissions generated by radio broadcast or telecommunication antenna installation. The report shall be in a format acceptable to the Federal Communications Commission (FCC) and shall include:

1. Name and address of the owner of the transmitter and antenna;

2. Location of the antenna, including address, geographic coordinates and height above the ground;

3. Manufacturer, type and model of antenna and antenna radiation patterns, to the extent they are available;

4. Frequency and output of transmitter and direction of transmission;

5. Power input to antenna;

6. Type of modulation and class of service. (Ord. 16653 § 2 (part), 2007)

20.02.626 Nonmetallic mineral product manufacturing.

"Nonmetallic mineral product manufacturing" means a facility that transforms mined or quarried nonmetallic minerals, such as sand, gravel, stone, clay, and refractory materials, into products for intermediate or final consumption. Processes used include grinding, mixing, cutting, shaping, and honing. (Ord. 16653 § 2 (part), 2007)

20.02.628 Nude live entertainment club.

"Nude live entertainment club" means any establishment that offers nude live entertainment. "Nude live entertainment" means live human dancers, models, actors, actresses, players, waitresses or waiters exposing "specified anatomical areas," as that term is defined in this Code, to the view of patrons. (Ord. 16653 § 2 (part), 2007)

20.02.630 Nursing home.

See "Convalescent home." (Ord. 16653 § 2 (part), 2007)

20.02.632 Nursery, greenhouse.

"Greenhouse nursery" means a facility for the storage of live trees, shrubs, or plants offered for retail sale on the premises. (Ord. 16653 § 2 (part), 2007)

20.02.634 Nursery (industrial-scale).

"Nursery (industrial-scale)" means a wholesale business whose principal activity is the growing and selling of plants. (Ord. 16653 § 2 (part), 2007)

20.02.636 Office, administrative and manager's.

See "Office, business." (Ord. 16653 § 2 (part), 2007)

20.02.638 Office, business.

"Business office" means a facility or portion of a building in which the administrative activities, record keeping, clerical work and other similar affairs of a business, professional service, industry, or government are conducted. A business office shall include a psychologist's or psychiatrist's office. (Ord. 16653 § 2 (part), 2007)

20.02.640 Office, medical.

"Medical office" means a facility or portion of a building designed and used for the diagnosis and treatment of human patients that does not include overnight care facilities; includes physician's and other medical offices. For a psychologist's or psychiatrist's office, see "Office, business." (Ord. 16653 § 2 (part), 2007)

20.02.642 Office, professional.

See "Office, business." (Ord. 16653 § 2 (part), 2007)

20.02.644 Office warehouse.

"Office warehouse" means a facility that has the combined uses of office/showroom and warehouse for the primary purpose of retail and wholesale trade, display, and distribution of products. (Ord. 16653 § 2 (part), 2007)

20.02.646 Open pit mining.

"Open pit mining" is essentially the same as strip mining, except that open pit mining is typically deeper with less horizontal area than strip mining. (Ord. 16653 § 2 (part), 2007)

20.02.648 Open space.

"Open space" means an area that is intended to provide light and air and is designed for either scenic or recreational purposes. Open space may include, but is not limited to, lawns, decorative planting, desert areas, foothills, walkways, active and passive recreation areas, hike and bike trails, equestrian trail nodes, picnic benches and shelters, scenic lookouts, viewing shelters, shade structures, playgrounds, fountains, river banks, swimming pools, wooded areas and water courses, and restrooms. The calculation of required open space shall not include driveways, parking lots or other surfaces designed or intended for vehicular travel or storage. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17490, § 1, 1-25-2011)

20.02.650 Open space, common.

"Common open space" means private land in a subdivision in which the owners have an undivided interest and which is specifically developed for common recreational areas, or designated for the general use and enjoyment of the occupants of the development. (Ord. 16653 § 2 (part), 2007)

20.02.651 Natural open space.

"Natural open space" (NOS) means a zoning district that includes areas consisting of primarily natural and undisturbed landscape set aside for the purpose of preservation or conservation of natural resources, habitats, wildlife and/or features or scenic/aesthetic values. This zoning district is appropriate for areas consisting of, but not limited to, natural vegetation, arroyos, mountains and other geologic landforms, historic/cultural sites, water bodies/wetlands/riparian areas, wildlife habitats, hillside slopes, desert flatlands, ridgelines, scenic buffer areas, trailheads and trails. In addition to the preservation and conservation of land, the NOS zoning district is intended, but not required to allow for passive recreational uses, including such activities as mountain and recreational biking, hiking, jogging, walking, horseback riding, nature study or observation, and photography, as well as other activities that do not adversely affect the environmental characteristics of the district. Activities shall not include motorized activity except for maintenance, emergency services or legal access agreements or as allowed on streets, parking lots, or railroad right-of-way.
(Ord. No. 17306, § 1, 4-6-2010; Ord. No. 17490, § 2, 1-25-2011; Ord. No. 18531, § 1, 6-28-2016)

20.02.652 Open space, private.

"Private open space" means the part of a lot owned by a person or entity in a planned mountain development specifically designated as open area to remain undisturbed in its natural state. (Ord. 16653 § 2 (part), 2007)

20.02.654 Open space, public.

"Public open space" means the land dedicated to and accepted by the City of El Paso that is specifically designated as open area to remain undisturbed in its natural state. (Ord. 16653 § 2 (part), 2007)

20.02.656 Operator, flea market.

"Flea market operator" means the property owner or his agent/representative who engages in the business of a flea market by renting, leasing or otherwise securing spaces, stalls, rooms or stands from which merchandise may be sold, offered or exhibited for sale by vendors. (Ord. 16653 § 2 (part), 2007)

20.02.658 Optical dispensary.

"Optical dispensary" means a facility that retails prescription or nonprescription eyeglasses and contact lenses. This category also includes establishments that provide customer fitting or lens grinding in addition to eyeglasses. (Ord. 16653 § 2 (part), 2007)

20.02.660 Orphanage, shelter.

"Shelter orphanage" means an institution for the care of orphans. (Ord. 16653 § 2 (part), 2007)

20.02.662 Other retail establishment (high-volume).

"Other retail establishment (high-volume)" means establishments engaged in high volume selling of goods or merchandise to the general public for personal or household consumption and rendering services incidental to the sale of such goods. Characteristics of a retail trade establishment are:

1. The establishment is usually a place of business and is engaged in activity to attract the general public to buy;

2. The establishment buys, receives and sells merchandise;

3. The establishment may process some of the products, but such processing is incidental or subordinate to the selling activities;

4. The establishment sells to customers for their own personal or household use.

This definition does not include other uses that are specifically listed in this title. (Ord. 16653 § 2 (part), 2007)

20.02.664 Other retail establishment (low-volume).

"Other retail establishment (low-volume)" means establishments engaged in low volume selling of goods or merchandise to the general public for personal or household consumption and rendering services incidental to the sale of such goods. Characteristics of retail trade establishments are:

1. The establishment is usually a place of business and is engaged in activity to attract the general public to buy;

2. The establishment buys, receives and sells merchandise;

3. The establishment may process some of the products, but such processing is incidental or subordinate to the selling activities;

4. The establishment sells to customers for their own personal or household use.

This definition does not include other uses that are specifically listed in this title. (Ord. 16653 § 2 (part), 2007)

20.02.666 Other wholesale establishment (high-volume).

"Other wholesale establishment (high-volume)" means establishments engaged in high volume selling of merchandise to retailers, to industrial, commercial, institutional or professional business users or to other wholesalers. This definition does not include other uses that are specifically listed in this title. (Ord. 16653 § 2 (part), 2007)

20.02.668 Other wholesale establishment (low-volume).

"Other wholesale establishment (low-volume)" means establishments engaged in low volume selling of merchandise to retailers, to industrial, commercial, institutional or professional business users or to other wholesalers. This definition does not include other uses that are specifically listed in this title. (Ord. 16653 § 2 (part), 2007)

20.02.670 Package liquor store.

"Package liquor store" means a store that sells bottled or canned alcoholic beverages for consumption off the premises. (Ord. 16653 § 2 (part), 2007)

20.02.672 Paint ball center (indoor).

"Paint ball center (indoor)" means a facility used for the discharging of paint ball guns, and which is completely enclosed within a building or structure. (Ord. 16653 § 2 (part), 2007)

20.02.674 Paint ball center (outdoor).

"Paint ball center (outdoor)" means land used for the discharging of paint ball guns. (Ord. 16653 § 2 (part), 2007)

20.02.676 Parking lot.

"Parking lot" means an area, not including a street or alley right-of-way, containing one or more parking spaces for motor vehicles, designed in accordance with the requirements of Chapter 20.14,

and intended as an accommodation for patrons, customers, and employees, either with or without a charge for such accommodation. (Ord. 16653 § 2 (part), 2007)

20.02.678 Parking reduction.

"Parking reduction" means the reduction of the amount of off-street parking required for a specific use or use category, as approved by city council. (Ord. 16653 § 2 (part), 2007)

20.02.680 Parking space, off-street.

"Off-street parking space" means an area, not including a street or alley right-of-way, permanently reserved for the temporary storage of one motor vehicle, meeting all of the requirements of Chapter 20.14. (Ord. 16653 § 2 (part), 2007)

20.02.682 Parking spaces (serving another property).

"Parking spaces (serving another property)" means parking spaces on property which is located on a separate site from the property requiring the off-street parking spaces. (Ord. 16653 § 2 (part), 2007)

20.02.684 Parkway.

"Parkway" means that area of street right-of-way between the property line and the curb or, in the absence of a curb, between the property line and the nearest edge of the street paving. (Ord. 16653 § 2 (part), 2007)

20.02.686 Passenger car.

"Passenger car" means every vehicle, except motorcycles, designed for carrying ten passengers or less and used for the transportation of persons. (Ord. 16653 § 2 (part), 2007)

20.02.688 Passenger station.

"Passenger station" means a type of passenger terminal that receives and discharges passengers by rail. (Ord. 16653 § 2 (part), 2007)

20.02.690 Passenger terminal.

"Passenger terminal" means a facility or location where the principal use is the handling, receiving and transfer of passenger traffic, and may include as an accessory use the loading, unloading, storing, receiving, assembling, dispatching, weighing, consolidating, classifying, switching, distribution, movement or transfer of freight, as well as all equipment and facilities utilized to accomplish the foregoing activities. For purposes of this definition, a facility that handles the transport of passengers, by any vehicle type, for any public, private or parochial school shall not be considered to be a passenger terminal. (Ord. 16653 § 2 (part), 2007)

20.02.691 Passive recreation.

"Passive recreation" means recreational activities requiring minimal development or facilities and providing areas for informal, self-directed activities that place minimal stress on a site's resources and are highly compatible with natural resource protection. Such activities include, but are not limited to, backpacking, hiking, wildlife viewing, observing and photographing nature, picnicking, walking, bird watching, mountain and recreational bicycling, running/jogging, horseback riding and climbing. Passive recreational activities do not require highly structured facilities like sports fields or pavilions, but may include minor facilities ancillary to passive recreational activities including, but not limited to interpretive signage and kiosks for educational purposes, picnic areas, parking areas, restrooms and shade structures with preference given to natural sources of protection such as trees.
(Ord. No. 18531, § 2, 6-28-2016)

20.02.692 Passive solar energy system.

"Passive solar energy system" means any space or structural components that are specifically designed to retain heat derived from solar energy, including ponds for evaporative cooling, and any moving parts that increase heat retention by the system. (Ord. 16653 § 2 (part), 2007)

20.02.694 Pasturage (small or large animals).

"Pasturage (small or large animals)" means land used for grazing. (Ord. 16653 § 2 (part), 2007)

20.02.696 Patio house.

"Patio house" means a single-family dwelling, attached or semidetached, which together with an enclosed private court or patio may occupy up to one hundred percent of a subdivided lot or assigned land area. The courtyard or patio of such a house serves as the principal open space for the occupants and a major source of natural light for the interior of the house. (Ord. 16653 § 2 (part), 2007)

20.02.697 Pawn shop.

"Pawn shop" means an establishment engaged in the business of lending money of the security of pledged goods; or purchasing goods on condition that the goods may be redeemed or repurchased by the seller for a fixed priced within a fixed period.
(Ord. No. 18244, § 1, 9-16-2014)

20.02.698 Performing arts center.

"Performing arts center" means a structure or structures, used for dramatic, operatic, or other performance as the principal use of the space, although incidental use for private meetings, exhibits and presentations shall be permitted. Such establishments may include related services such as food and beverage sales and other concessions. (Ord. 16653 § 2 (part), 2007)

20.02.700 Performance standard.

"Performance standard" means regulations that allow uses based on specific criteria limiting noise, air pollution, emissions, odors, vibration, dust, dirt, glare, heat, fire hazards, wastes, traffic impacts, and visual impact of uses of land or structures. (Ord. 16653 § 2 (part), 2007)

20.02.702 Person.

"Person" means any individual, partnership, corporation or other entity of any kind authorized to transact business in the state. (Ord. 16653 § 2 (part), 2007)

20.02.704 Personal care facility.

"Personal care facility" means a facility where personal care services are furnished for twenty-four hours a day to any person who is unable to provide for his own personal needs without such assistance. (See adult foster care, assisted living facility, convalescent, nursing or rest home.) (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17577, § 1, 7-7-2011)

20.02.706 Personal care services.

"Personal care services" means:

a. Assistance with meals, dressing, movement, bathing, or other personal needs or maintenance;

b. The administration of medication by a person licensed to administer medication or the assistance with or supervision of medication; or

c. General supervision or oversight of the physical and mental well-being of a person who needs assistance to maintain a private and independent residence in an assisted living facility or who needs assistance to manage the person's personal life, regardless of whether a guardian has been appointed for the person. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17577, § 1, 7-7-2011)

20.02.708 Personal goods repair.

"Personal goods repair" means a facility engaged in the repair of watches, jewelry, musical instruments, bicycles or similar items. (Ord. 16653 § 2 (part), 2007)

20.02.710 Personal wireless service facility.

"Personal wireless service facility (PWSF)" is an umbrella term encompassing a broad range of wireless communications technologies that transmit information, primarily cellular telephones (which use analog technology) and the newer personal communication services (PCS, which use digital technology). For both cellular and PCS

facilities, there are three types of hardware to be considered: the antennas themselves, the mounting structures upon which the antennas are placed, and the equipment shelters in which the controls for the antennas are located.

1. "Ground-mounted PWSF" means an antenna that is mounted on a freestanding support structure, such as a monopole or tower.

2. "Roof-mounted PWSF" means an antenna that is mounted on a structure that is located on the roof of a building.

3. "Facility-mounted PWSF" means an antenna that is mounted on a functioning light pole or other structure whose primary purpose is and will continue to be a use other than as an antenna support structure. (Ord. 16653 § 2 (part), 2007)

20.02.712 Petroleum products manufacturing.

"Petroleum products manufacturing" means a facility for the work or processing necessary for the production of petroleum products. (Ord. 16653 § 2 (part), 2007)

20.02.714 Pharmacy.

"Pharmacy" means a place where drugs and medicines are prepared and dispensed. (Ord. 16653 § 2 (part), 2007)

20.02.716 Phasing plan.

"Phasing plan" means a general proposal for development of property containing the proposed sequence of development, open space, the layout of land uses, density expressed in units per acre, a circulation plan, and any similar information determined necessary for the review of the proposed development. (Ord. 16653 § 2 (part), 2007)

20.02.718 Photo finishing lab.

"Photo finishing lab" means a business where the primary function is to develop and print photographic film. (Ord. 16653 § 2 (part), 2007)

20.02.719 Place of public assembly.

"Place of public assembly" shall mean any public or private college, university, school, library, museum, religious institution, community recreational facility, public recreational facility, or other similar public facility.
(Ord. No. 17360, § 3, 7-20-2010)

20.02.720 Plan commission.

"Plan commission" means the city plan commission of El Paso, Texas. (Ord. 16653 § 2 (part), 2007)

20.02.722 Planned development.

"Planned development" means a development on property which is planned and built to achieve a cohesive relationship between uses and facilities; which has been platted in accordance with this Code; and which has received approval from city council. (Ord. 16653 § 2 (part), 2007)

20.02.724 Planned residential development.

"Planned residential development" means a residential development within which are permitted a diversity of dwelling types and uses, observing the design requirements of the zoning district and requiring approval of the city council before the start of development. (Ord. 16653 § 2 (part), 2007)

20.02.724.1 Plastics products finishing.

"Plastics products finishing" includes the production of plastics or rubbers from an intermediate product into a final product, often characterized by a process of additive manufacturing, 3D printing, thermoforming, stamping, polishing, or final assembly.
(Ord. No. 019517, § 1, 6-20-2023)

20.02.724.2 Plastics products manufacturing.

"Plastics products manufacturing" means the processing of bulk synthetic or organic polymers, rubbers and urethanes into an intermediate or final form but excludes the recycling or remanufacturing of such products.
(Ord. No. 019517, § 1, 6-20-2023)

20.02.726 Poultry hatchery.

"Poultry hatchery" means a facility used for hatching, rearing or keeping of poultry for either egg or meat production. (Ord. 16653 § 2 (part), 2007)

20.02.728 Precision equipment repair.

"Precision equipment repair" means establishments primarily engaged in repairing and maintaining electronic and precision equipment, such as medical diagnostic imaging equipment, measuring and surveying instruments, laboratory instruments, and radar and sonar equipment. (Ord. 16653 § 2 (part), 2007)

20.02.730 Primary metal manufacturing.

"Primary metal manufacturing" means a facility that smelts and/or refines ferrous and nonfer-

rous metals from ore, pig iron or scrap, using electrometallurgical and other metallurgical techniques. These facilities also manufacture metal alloys and superalloys by introducing other chemical elements to pure metals. (Ord. 16653 § 2 (part), 2007)

20.02.732 Primary system.

"Primary system" means that portion of connected main highways located within the state which now or hereafter may be designated officially by the state highway and public transportation commission. (Ord. 16653 § 2 (part), 2007)

20.02.734 Principal use.

"Principal use" means a use that is the predominant activity or operation of the facility, building or premises. (Ord. 16653 § 2 (part), 2007)

20.02.736 Produce stand.

"Produce stand" means a facility used primarily for the sale of fruits, vegetables and other farm products, not to include meat and dairy products. (Ord. 16653 § 2 (part), 2007)

20.02.738 Provider.

"Provider" means a person residing or working in a personal care facility, whose duties include, but are not limited to, direct care, supervision and guidance of personal care recipients. (Ord. 16653 § 2 (part), 2007)

20.02.740 Premises.

"Premises" means a lot, together with all buildings and structures thereon. (Ord. 16653 § 2 (part), 2007)

20.02.742 Processing facility, heavy.

"Heavy processing facility" means any processing facility other than a light or a waste processing facility.
(Ord. 16653 § 2 (part), 2007; Ord. No. 19019, § 2, 1-7-2020)

20.02.744 Processing facility, light.

"Light processing facility" means a facility with less than forty-five thousand square feet of gross collection, processing and storage area. Light processing facilities are limited to baling, briquetting, crushing, compacting, grinding, shredding and sorting of source-separate recyclable material and repairing of reusable material. A light processing facility shall not shred, compact or bale ferrous metals other than food and beverage containers. (Ord. 16653 § 2 (part), 2007)

20.02.745 Processing facility, waste.

"Waste processing facility" means a facility where solid waste or wastewater is processed for eventual disposal or reclamation. Waste types can include recyclable materials, putrescible materials, regulated medical waste, and wastewater or septage. Waste processing facilities owned by, or operated for, federal, state, or local government entities are excluded from this definition of waste processing facility.
(Ord. No. 19019, § 1, 1-7-2020)

20.02.746 Property line.

"Property line" means the official boundary of a parcel, lot, or tract of land as designated by either a metes and bounds description or recorded subdivision plat filed in the records and maps of the county clerk. (Ord. 16653 § 2 (part), 2007)

20.02.748 Public building.

"Public building" means a building, or part thereof, owned and occupied and used by an agency or political subdivision of the United States of America, the state of Texas, El Paso County or the City of El Paso, Texas. (Ord. 16653 § 2 (part), 2007)

20.02.750 Public entryway.

"Public entryway" means street frontage or building entries open to the public, but shall not include loading docks, delivery entries, curb cuts or required exits to buildings. (Ord. 16653 § 2 (part), 2007)

20.02.752 Public utility.

"Public utility" means a closely regulated enterprise existing under the provisions of Chapter 402 of the Texas Local Government Code or of Title 32, Chapter 10 of the Texas Revised Civil Statutes, which provides to the public a utility service deemed necessary for the public health, safety, and general welfare. For purposes of this section, a municipality owning or operating a public utility system or an entity with a franchise with the municipality to provide a public utility system shall be considered a public utility. (Ord. 16653 § 2 (part), 2007)

20.02.754 Public utility facility.

"Public utility facility" means the buildings, structures and facilities relating to the furnishing of public utility services to the public. Public utility facilities shall be categorized as follows:

A. Minor Utility Facilities. Minor utility facilities shall include facilities which are necessary to support principal development including, but not limited to, lines, poles, pipes, drains, conduits, wires, meters, valves, hydrants, cross-connection control devices, transformers, gauges and other similar facilities which serve to distribute and transmit electrical power, gas, water and other essential public utilities; bus shelters, terminals and other similar facilities necessary for mass transportation service; bridges, catch basins, channels, culverts, detention ponds, ditches, flumes, pipes and other similar facilities which serve to carry, store, divert or collect storm drainage from land; and which minor utility facilities are customarily placed within a public right-of-way or public easement.

B. Water and Wastewater Utility Facilities. Water and wastewater utility facilities shall include facilities providing service, maintenance or repair of essential public utilities to one or more developments including, but not limited to, wells, pumping stations, boosters, reservoirs, repeaters, water storage tanks, lift stations, regulators and other similar facilities; and which are not a minor or major utility facility.

C. Communication Utility Facilities. Communication utility facilities are not minor or major utility facilities and shall include facilities that provide for the transmission, transfer and distribution of telephone service and related activities. Facilities include, but shall not be limited to, communications exchanges, mini-huts, maxi-huts and other similar facilities.

D. Major Utility Facilities. Major utility facilities shall include facilities which are used primarily for the storage, treatment, distribution or collection of an essential public utility service including, but not limited to, facilities for generation of energy, water and wastewater treatment plants, storage yards, switching facilities, primary substations and similar facilities. (Ord. 16653 § 2 (part), 2007)

20.02.756 Public utility service.

"Public utility service" means a service essential to the health, safety and general welfare of the public, such as the generation, transmission and/or distribution of electricity, gas, steam, communications, and water; the collection and treatment of sewage and solid waste; the collection, storage or diversion of surface waters from land; and the provision of mass transportation. (Ord. 16653 § 2 (part), 2007)

20.02.758 Pumpkin patch.

"Pumpkin patch" means a temporary location from which pumpkins are sold. (Ord. 16653 § 2 (part), 2007)

20.02.760 Quadraplex.

"Quadraplex" means a building designed or occupied as four dwelling units. (Ord. 16653 § 2 (part), 2007)

20.02.762 Quarry.

"Quarry" means an open pit from which building stone, sand, gravel, mineral or fill is taken to be processed for commercial purposes. (Ord. 16653 § 2 (part), 2007)

20.02.764 Racetrack, auto or truck.

See "Stadium." (Ord. 16653 § 2 (part), 2007)

20.02.766 Racetrack, motorcycle.

See "Stadium." (Ord. 16653 § 2 (part), 2007)

20.02.768 Racquetball club, indoor (with/without restaurant and bar).

"Indoor racquetball club (with/without restaurant and bar)" means a commercial or noncommercial establishment that provides facilities for playing racquetball. (Ord. 16653 § 2 (part), 2007)

20.02.770 Racquetball club, outdoor (with/without restaurant and bar).

"Outdoor racquetball club (with/without restaurant and bar)" means a commercial or noncommercial establishment that provides facilities for playing racquetball. (Ord. 16653 § 2 (part), 2007)

20.02.772 Radio transmitting and receiving facility.

"Radio transmitting and receiving facility" means a site containing radio transmitting and receiving apparatus and appurtenant equipment and including unipole or dipole antennas, array antennas or microwave parabolic (dish) antennas which radiate, and may receive, audio, video, digital or encoded radio frequency signals from station-to-station or on a broadcast basis. Such facilities shall include, but shall not be limited to, commercial AM or FM radio station transmitter sites, commercial television station transmitter sites, telephone cellular stations and mobile type radio communication fixed transmitter sites. The antennas may be wall, roof or tower mounted. This definition shall not apply to federally licensed amateur radio stations complying with the Federal Communications Commission (FCC) regulations. (Ord. 16653 § 2 (part), 2007)

20.02.774 Railroad repair shop.

"Railroad repair shop" is a repair facility consisting of tracks and shop buildings for the purpose of repairing, inspecting, testing, painting, maintaining, servicing and storing cars, engines, trucks, locomotives, switch engines, rolling stock and equipment as well as all equipment and facilities utilized to accomplish the foregoing activities. (Ord. 16653 § 2 (part), 2007)

20.02.776 Railroad right-of-way (R.O.W.).

"Railroad right-of-way (R.O.W.)" is a roadway not exceeding two hundred feet in width occupied by a main track or other trackage including, but not limited to, land as may be reasonably needed for the purpose of cuttings and embankments necessary for the proper construction and security of its tracks, and any and all rights and appurtenances authorized by state or federal law. (Ord. 16653 § 2 (part), 2007)

20.02.778 Railroad spur track.

"Railroad spur track" is a track which facilitates service by a carrier to one or more warehousing, manufacturing or industrial enterprises, for the purpose of receiving materials needed for the operation of that enterprise and the loading or unloading of freight onto trailers, containers or railcars. (Ord. 16653 § 2 (part), 2007)

20.02.780 Railyard.

"Railyard" is an area of land, a portion of which is covered by a system of tracks that provide for the making up of trains by one or more railroads or private industry concerns. Necessary functions of a railyard include, but are not limited to, the classifying, switching, storing, assembling, distributing, consolidating, moving, repairing, weighing or transferring of cars, trains, engines, locomotives and rolling stock. (Ord. 16653 § 2 (part), 2007)

20.02.782 Raising (small or large animals).

"Raising (small or large animals)" means the use of land for the raising of animals for agricultural or commercial purposes. (Ord. 16653 § 2 (part), 2007)

20.02.784 Raising crops.

"Raising crops" means the use of land for the raising of crops for agricultural or commercial purposes. (Ord. 16653 § 2 (part), 2007)

20.02.786 Ranchette (greater than one acre and less than five acres).

"Ranchette" means a single dwelling unit occupied by a non-farming household on a parcel greater than one acre but less than five acres that has been subdivided from agricultural land. (Ord. 16653 § 2 (part), 2007)

20.02.788 Raw material processing.

"Raw material processing" means the processing of extracted materials from a site, as related to a quarry operation. (Ord. 16653 § 2 (part), 2007)

20.02.790 Recreation vehicle.

"Recreation vehicle" means a vehicle that is:

1. Built on a single chassis;
2. Four hundred square feet or less when measured at the largest horizontal projections;
3. Self-propelled or permanently towable by motor vehicle or light duty truck;
4. Designed primarily not for use as permanent dwelling but as temporary living quarters for recreational, camping, travel, or seasonal use; and
5. Required by Texas law to have a valid vehicle registration when traveling upon public streets.

"Recreational vehicle" shall not include a manufactured home. (Ord. 16653 § 2 (part), 2007)

20.02.792 Recreation vehicle park.

"Recreation vehicle park" means a unified development on a tract of land under common ownership designed primarily for transient service, on which recreational vehicles of the general public are parked or situated. (Ord. 16653 § 2 (part), 2007)

20.02.794 Recyclable material.

"Recyclable material" means reusable material including, but not limited to, metals, glass, plastic and paper which are intended for reuse, remanufacture or reconstitution for the purpose of using the altered form. Recyclable material does not include refuse or hazardous waste, unless such refuse or hazardous waste is mandated to be recycled under federal, state or local law. Recyclable material may include used motor oil collected and transported in accordance with federal, state and local laws. (Ord. 16653 § 2 (part), 2007)

20.02.796 Recycling facility.

"Recycling facility" means a center for the collection and/or processing of recyclable material. A recycling facility does not include storage containers or processing facilities located on the premises of a residential, commercial or manufacturing use and used solely for the recycling of material generated by that residential property, business or manufacturer. Recycling facilities may include collection facilities and processing facilities. (Ord. 16653 § 2 (part), 2007)

20.02.798 Recycling collection facility, large (greater than two thousand square feet).

"Recycling collection facility, large (greater than two thousand square feet)" means a center with more than two thousand square feet of recycling area for the collection or processing of recyclable materials including glass, paper, plastic, cans, motor oil, chemicals, household appliances, tires, automobiles, automobile parts, or other source-separated nonputrescible materials. (Ord. 16653 § 2 (part), 2007)

20.02.800 Recycling collection facility, small (less than or equal to two thousand square feet).

"Recycling collection facility, small (less than or equal to two thousand square feet)" means a center with two thousand square feet or less of recycling area for the collection or processing of recyclable materials including glass, paper, plastic, cans or other source-separated nonputrescible materials, but excluding motor oil, chemicals, household appliances, tires, automobiles, automobile

parts and putrescible materials. (Ord. 16653 § 2 (part), 2007)

20.02.802 Recycling collection facility, temporary.

"Temporary recycling collection facility" means a temporary facility designed to be a collection point where only recyclable materials are sorted and/or temporarily stored prior to delivery to a permanent disposal site, or shipment to others for reuse, and/or processing into new products. This facility can be mobile. (Ord. 16653 § 2 (part), 2007)

20.02.804 Regulations.

"Regulations" means the whole body of regulations, text, charts, tables, diagrams, maps, notations, references and symbols, contained or referred to in the El Paso City Code. (Ord. 16653 § 2 (part), 2007)

20.02.805 Environmental and wildlife research.

"Environmental and wildlife research" means scholarly or scientific investigation, or study related to environmental, cultural, nature, habitat, or wildlife.
(Ord. No. 17776, § 1, 5-1-2012)

20.02.806 Research laboratory.

"Research laboratory" means a facility where administrative, engineering, scientific research, design, or experimentation, including research on electronic components, optical equipment, etc., is conducted with minimal noxious impacts. (Ord. 16653 § 2 (part), 2007)

20.02.808 Resource recovery plant.

"Resource recovery plant" means a facility for the processing of municipal solid waste or wastewater treatment byproducts into energy or other useful products. (Ord. 16653 § 2 (part), 2007)

20.02.810 Restaurant, drive-in.

"Drive-in restaurant" means a restaurant that may or may not provide seating inside and its principal character is to provide parking spaces for motor vehicles and to provide service to patrons who remain in the motor vehicles. (Ord. 16653 § 2 (part), 2007)

20.02.812 Rest home.

See "Convalescent, nursing or rest home." (Ord. 16653 § 2 (part), 2007)

20.02.814 Retail shipping center.

"Retail shipping center" means a type of freight terminal where the principal activity is shipping, mailing and drop-off services, and may include as an accessory use the retailing of products associated with product shipping and mailing. (Ord. 16653 § 2 (part), 2007)

20.02.816 Reverse vending machine.

"Reverse vending machine" is an automated mechanical device which accepts and mechanically processes at least one or more types of materials including, but not limited to, aluminum cans, glass and plastic bottles and issues a cash refund or a redeemable credit slip or other form of benefit; and the entire process is enclosed within the machine. In order to accept and temporarily store all container types in a proportion commensurate with their relative redemption rates, multiple grouping of reverse vending machines may be necessary. (Ord. 16653 § 2 (part), 2007)

20.02.818 Riding academy.

"Riding academy" means an establishment where horses are boarded and cared for, and where instruction in riding, jumping, and showing is offered, and where horses may be rented for riding. (Ord. 16653 § 2 (part), 2007)

20.02.820 Reserved.

Editor's note—Ord. No. 18241, § 1, adopted September 9, 2014, repealed § 20.02.820, which pertained to rooming house and derived from Ord. 16653 § 2 (part), 2007.

20.02.822 Sales stands (ranch and farm products).

"Sales stands (ranch and farm products)" means the temporary use of land for the sale of agricul-

tural produce or merchandise produced by the owner or the owner's family on their farm. (Ord. 16653 § 2 (part), 2007)

20.02.824 Salvage yard (scrap materials).

"Salvage yard (scrap materials)" means a facility or area for storing, keeping, selling, dismantling, shredding, compressing, or salvaging scrap or discarded material or equipment. Scrap or discarded material includes, but is not limited to, metal, paper, rags, tires, bottles, motor vehicle parts, machinery, structural steel, equipment and appliances. (Ord. 16653 § 2 (part), 2007)

20.02.826 Sand and gravel pit.

"Sand and gravel pit" means a type of open pit mine, or strip mine, from which sand and gravel are removed. (Ord. 16653 § 2 (part), 2007)

20.02.828 Sand or gravel, extraction of.

"Extraction of sand or gravel" means the separation and removal of sand or gravel from a quarry for commercial or other purposes. (Ord. 16653 § 2 (part), 2007)

20.02.830 Sanitarium.

"Sanitarium" means a facility where two or more sick, injured or infirm persons are regularly housed, and are provided therapy, treatment or rehabilitation, with no surgical care provided. (Ord. 16653 § 2 (part), 2007)

20.02.832 Sanitary landfill.

"Sanitary landfill" means a publicly or privately owned area of land used for the disposal of solid waste in accordance with applicable statutes, ordinances, standards, rules or orders pertaining to the disposal of solid waste where the landfill is located. (Ord. 16653 § 2 (part), 2007)

20.02.834 Sauna, exercise room.

"Exercise room sauna" means a building or portion of a building used for providing a steam bath or heated bathing room using steam or hot air. (Ord. 16653 § 2 (part), 2007)

20.02.836 Scenic area.

"Scenic area" means any area of particular scenic beauty or historical significance as determined by the United States of America, the state, or the city, including any interests in land which have been acquired for the restoration, preservation and enhancement of scenic beauty. (Ord. 16653 § 2 (part), 2007)

20.02.838 Scenic corridor.

"Scenic corridor" means an area of land generally adjacent to and visible from a roadway that requires protective measures to ensure perpetuation of its scenic qualities. (Ord. 16653 § 2 (part), 2007)

20.02.840 School—Elementary.

"Elementary school" means any public, private or parochial institution that offers a course of instruction for grades pre-kindergarten through sixth grade. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 18104, § 1, 12-17-2013)

20.02.841 School—Secondary.

"Secondary school" means any public, private or parochial institution that offers a course of instruction for grades seventh through twelfth grade. A single building including a combination of pre-kindergarten through twelfth grade shall be considered a secondary school.
(Ord. No. 18104, § 1, 12-17-2013)

20.02.842 School, arts and crafts.

"School, arts and crafts" means a facility for instruction in arts and crafts. (Ord. 16653 § 2 (part), 2007)

20.02.844 School, trade, business or vocational.

"Trade, business or vocational school" means a facility where training is provided in a particular trade, craft or skill. (Ord. 16653 § 2 (part), 2007)

20.02.846 Screening.

"Screening" means a hedge, earth berm, wall or fence constructed in accordance with the re-

with convenience goods. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 18687, § 1, 5-30-2017)

20.02.868 Shopping center, neighborhood.

"Neighborhood shopping center" means a small to moderate shopping center, generally utilizing a site of three to ten acres, with leading tenants being a supermarket and/or drugstore, and serving a trade area of three miles. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 18687, § 1, 5-30-2017)

20.02.870 Shopping center, regional.

"Regional shopping center" means a large shopping center, generally utilizing a site of forty to one hundred acres with gross leasable area (GLA) of four hundred thousand to eight hundred thousand square feet having as leading tenants two or more large anchor stores and serving a trade area of five to fifteen miles. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 18687, § 1, 5-30-2017)

20.02.871 Superregional shopping center.

"Superregional Shopping Center" means a shopping center consisting of three or more anchors and only a minimum amount of small specialty tenants. Compared to traditional regional shopping centers, superregional shopping centers include more anchor stores, offer a deeper selection of merchandise, and draw from a larger population base. To qualify as a superregional, a shopping center must have a total site acreage that exceeds forty acres in size under the control of a single owner, have a gross leasable area (GLA) that exceeds eight hundred thousand square feet, and have a primary trade area in excess of fifteen miles.
(Ord. No. 17960, § 1, 2-19-2013; Ord. No. 18687, § 1, 5-30-2017)

20.02.872 Shrub.

"Shrub" means a woody plant, deciduous or evergreen, generally multi-stemmed with small branches near the ground, and smaller growing than a tree. (Ord. 16653 § 2 (part), 2007)

20.02.874 Sign.

"Sign" means any outdoor display surface, structure, search light, banner, pennant, inflatable and airborne device, whether mounted on land, air, or water, which is visible from any portion of the public right-of-way to vehicular or pedestrian traffic, a principal purpose of which is to attract attention to a communicative visual or graphic image. The term "sign" includes any moving part, lighting, sound equipment, framework, background material, structural support, or other part

thereof. A display, device, or thing need not contain lettering to be a sign. Notwithstanding the generality of the foregoing, the following are not within this definition:

- Aerial signs or banners towed behind aircraft.
- Automated Teller Machines (ATMs) not used for general advertising for hire.
- Architectural features. Decorative or architectural features of buildings (not including lettering, trademarks or moving parts), which do not perform a communicative function.
- Barber poles displayed outside establishments providing hair cutting and styling services.
- Fireworks.
- Foundation stones and cornerstones which are permanent in nature and incapable of modification once installed.
- Grave markers, grave stones, headstones, mausoleums, shrines, and other markers of the deceased.
- Holiday and cultural observance decorations on private residential property which are on display for not more than 45 calendar days per year (cumulative, per parcel or use).
- Inflatable games and gymnasiums. Inflatable, temporary, moveable, gymnasium devices commonly used for children's birthday parties, and similar devices. Also called "party jumps."
- Manufacturers' marks. Marks on tangible products, which identify the maker, seller, provider or product, and which customarily remain attached to the product even after sale.
- Mass transit graphics. Graphic images mounted on duly licensed and authorized mass transit vehicles that legally pass through the city merchandise on public, display and presently available for purchase on-site.
- News racks and newsstands.
- Personal appearance. Items or devices of personal apparel, decoration or appearance, including tattoos, makeup, wigs, costumes, masks, etc. (but not including commercial mascots or hand-held signs);
- Public art located on city property.
- Search lights and klieg lights when used as part of a search and rescue or other emergency service operation; this exclusion does not apply to search lights or klieg lights used as attention attracting devices for commercial or special events.
- Shopping carts, golf carts, horse drawn carriages, and similar devices; any motorized vehicle which may be legally operated upon a public road is not within this exclusion.
- Symbols of noncommercial organizations or concepts including, but not limited to, religious or political symbols, when such are permanently integrated into the structure of a permanent building which is otherwise legal; by way of example and not limitation, such symbols include stained glass windows on churches, carved or bas relief doors or walls, bells, religious statuary, etc.
- Vehicle and Vessel Insignia On street legal vehicles and properly licensed watercraft or aircraft: License plates, license plate frames, registration insignia, noncommercial messages, messages relating to the establishment of which the vehicle or vessel is an instrument or tool (not including general advertising) and messages relating to the proposed sale, lease or exchange of the vehicle or vessel.
- Vending machines, product dispensing devices and automated product intake devices which do not display offsite commercial messages or general advertising messages; by way of example and not limitation, "automated product intake devices" means ma-

chines which accept recycle materials, or "book return" slots at libraries, or "leave your clothes here" boxes at laundry places.

- Window displays. The display of merchandise in a store window. (Ord. 16653 § 2 (part), 2007)

(Ord. No. 17318, § 1, 5-4-2010)

20.02.876 Sign, inflatable advertising device.

Inflatable advertising device means a device .which is inflated with air or another gas, or which is activated by wind, air, or propelled gas, and used for outdoor advertising purposes. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.878 Sign, add-ons.

Add-ons, in the context of billboards, means a design element that extends outside the structural display face on a billboard. Also called "extensions." (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.880 Sign, adopt-a-median.

Adopt-a-median sign means a freestanding sign located in the median of a street right-of-way identifying the entity or organization that is responsible for maintaining the median where the sign is located. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.882 Sign area.

Sign area means the entire area of a sign on which copy could be placed within a continuous perimeter composed of a geometric configuration which encloses the extreme limits of the advertising, excluding the sign pole(s), base(s) or other support(s). Where a sign has two or more faces, the area of all faces shall be considered in determining the sign area, except that only one face of a double-faced sign shall be considered in determining the sign area when both faces are parallel or the faces are in a V configuration and the interior angle between the faces does not exceed forty-five degrees. Where a sign consists only of individual components (letters, numerals, symbols or other similar components), which are painted on or attached flat against the wall of a building, are without integrated background definition and are not within a circumscribed frame area, the total area of the sign shall be the area of the square, rectangle or other straight line geometric configuration which circumscribes the entire message. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.884 Sign, auxiliary.

Auxiliary sign means a sign with no commercial advertising, except for the name or logo of the business, that pertains to the safe and efficient movement of pedestrians and vehicular traffic into and out of a building or premises and that has a directional purpose secondary to the use of the lot on which it is located, such as "no parking," "entrance," "loading only," "telephone," "emergency entrance," and other similar directives. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.886 Sign, awning.

Awning sign means a wall sign suspended from, mounted on or otherwise supported by an awning (a wall mounted, frame structure with flexible, reinforced fabric covering). (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.888 Sign, banner.

See "sign, temporary banner." (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.890 Sign, billboard.

Billboard means a permanent structure sign which meets any one or more of the fol1owing criteria: a) it is used for the display of off-site commercial messages; b) it is used for general advertising for hire; c) it functions as a principal or separate principal use of the land on which it is located, in contrast to functioning as an accessory

or auxiliary to a principal use which is not a sign. The term "billboard" applies to all physical parts of the sign, including display faces, structure, support poles, attached ladders, attached catwalks, and appurtenant lighting systems, and visual display systems. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.892 Sign, building marker.

Building marker sign means a sign indicating the name of a building, date of construction, or other incidental information about its construction and/or history. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.894 Sign, bulletin.

Bulletin means a billboard with a sign face area greater than three hundred seventy-eight square feet, but not greater than six hundred seventy-two square feet. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.896 Sign, canopy.

Canopy sign means a wall sign suspended from, mounted on or otherwise supported by a canopy, arcade or portal. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.897 Sign, changeable electronic variable message.

Changeable electronic variable message sign, also referred to by the acronym CEVM, means a sign which uses electronic means to display changeable or intermittent images, such as by turning on or off various lighting elements including any illuminated sign on which such illumination is not kept stationary or constant in intensity and color at all times when such sign is in use. The term includes display technology such as LED (light emitting diode) or digital displays which can vary in color or intensity, or any system which is functionally equivalent. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.898 Reserved.

Editor's note—Ord. No. 17318, § 1, adopted May 4, 2010, repealed § 20.02.898, which pertained to city pride sign and derived from Ord. 16653 § 2 (part), 2007.

20.02.900 Sign, construction sign.

Construction sign means a sign displayed on a construction site during the time that actual construction is continuing. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.902 Reserved.

Editor's note—Ord. No. 17318, § 1, adopted May 4, 2010, repealed § 20.02.902, which pertained to sign cut-outs and derived from Ord. 16653 § 2 (part), 2007.

20.02.904 Sign, directory.

Directory sign means a wall or monument sign that provides a listing of names of the tenants and space numbers for a multi-tenant building, lot or park. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.906 Reserved.

Editor's note—Ord. No. 17318, § 1, adopted May 4, 2010, repealed § 20.02.906, which pertained to educational sign and derived from Ord. 16653 § 2 (part), 2007.

20.02.908 Sign, externally illuminated.

Externally illuminated sign means the illumination of a surface of a sign from an external source of light intentionally directed upon the sign. Also known as "indirectly illuminated sign." (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.910 Sign height.

Sign height means the following:

1. For freestanding signs, the vertical measurement between the highest part of the sign, excluding all billboard add-ons, and the ground level upon which the sign is located;

2. For wall and all other signs, the vertical

measurement of the sign area. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.912 Sign, home occupation.

Home occupation sign means a wall sign indicating the name, address or business, in any combination, of a code-compliant home occupation operated by the occupant at that residence. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.914 Sign, indirectly illuminated.

See "Sign, externally illuminated." (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.916 Sign, internally illuminated.

Internally illuminated sign means the illumination of an electric sign with a source of light entirely enclosed within the sign. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.918 Sign, junior.

Junior means a billboard with a sign face area not greater than seventy-two square feet. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.920 Sign, marquee.

Marquee sign means a wall or projecting sign suspended from, mounted on or otherwise supported by a marquee, such as a canopy entrance. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.921 Sign, mobile billboard.

Mobile billboard sign means a vehicle or trailer which is used for the display of general advertising for hire. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.922 Sign, monument.

Monument sign means a freestanding sign with a one hundred percent width base; however, the sign may be supported by an internal pipe structure. Base materials may include unpainted brick, stone, cast or cultured stone, or other natural material such as adobe or rammed earth (or similar veneer). Skirts shall also be constructed of minimum three millimeter aluminum, excluding sheet metal. The sign base width may be reduced below one hundred percent, but not less than thirty-three percent, in instances where the proposed sign includes the same architectural features and aesthetics of the buildings on site. Paint colors alone shall not meet this standard. Also known as "ground sign." (Ord. 16653 § 2 (part), 2007; Ord. No. 18245, § 1, 9-16-2014)
(Ord. No. 17318, § 1, 5-4-2010; Ord. No. 17585, § 1, 6-14-2011)

20.02.924 Sign, multi-tenant.

Multi-tenant sign means a sign displaying three or more or establishments, each with a separate certificate of occupancy, located on the same lot or premises. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.926 Sign, noncommercial message.

Noncommercial message is one that visually displays speech or images not pertaining to commercial matters. Noncommercial messages commonly concern religion, politics, social commentary and other matters of public debate. Contrast: Commercial message. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.928 Sign, nonconforming.

Nonconforming sign means a sign legally erected prior to enactment or amendment of this Code and maintained in compliance with the El Paso City Codes, but which does not conform to the current provisions of the sign code or other applicable city ordinances. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.930 Sign, off-premise.

Off-premises sign means a sign displaying a commercial message that pertains to a business,

person, organization, activity, event, place, service or product not principally located, or primarily manufactured, or sold on the premises on which the sign is located. Also known as "off-site sign. "The on-premise/off-premises distinction applies only to commercial messages. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.932 Reserved.

Editor's note—Ord. No. 17318, § 1, adopted May 4, 2010, repealed § 20.02.932, which pertained to off-premises historic wall sign and derived from Ord. 16653, § 2 (part), 2007).

20.02.934 Reserved.

Editor's note—Ord. No. 17318, § 1, adopted May 4, 2010, repealed § 20.02.932, which pertained to off-premises temporary parkway sign and derived from Ord. 16653, § 2 (part), 2007).

20.02.936 Sign, special event directional.

Special event directional sign means a temporary sign providing direction information to a properly authorized special event that is open to the public. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.938 Reserved.

Editor's note—Ord. No. 18134, § 1, adopted March 4, 2014, repealed § 20.02.938, which pertained to sign, off-premises temporary subdivision directional and derived from Ord. 16653 § 2 (part), adopted 2007; Ord. No. 17318, § 1, adopted May 4, 2010.

20.02.940 Sign, on-premise.

On-premises sign, also called "on-site sign" means a sign advertising an establishment, business, person, activity, good, product or service located on the premises where the sign is installed and maintained. In the context of construction signs, all establishments involved in the construction are considered on-premises during the time of construction. In the cases of a redevelopment project or shopping center or business center, any sign located within the project is considered on-premises as to any establishment located in the same project or center. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.941 Sign, perpendicular.

Perpendicular sign means a wall sign that is attached to and projects from the face of a building at a 90-degree angle.
(Ord. No. 17546, § 1, 5-3-2011)

20.02.942 Sign, pole.

Pole sign means a freestanding sign that is supported from the ground by pole(s) or a three-dimensional support structure that is not attached to a building and does not fit the definition of a monument sign. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010; Ord. No. 17585, § 1, 6-14-2011)

20.02.944 Sign, portable.

See "Sign, temporary portable." (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.946 Sign, poster.

Poster means a billboard with a display face area greater than seventy-two square feet but less than three hundred square feet. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.948 Sign, real estate.

Real estate sign means a temporary sign whose message pertains to a proposed economic transaction (sale, lease, rent, etc.) of real estate. Signs related to transient occupancy, such as rates and vacancies at hotels, motels, inns, and bed and breakfast facilities, are not within this definition. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.950 Sign, roof.

Roof sign means a sign that is mounted on a roof or projects above the highest point of the roof line, parapet, or fascia of a building. A sign mounted on a mansard roof is a wall sign, not a roof sign. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.952 Sign, secondary advertising.

Secondary advertising sign means an on-premises sign placed on private property, which is not the primary sign intended for advertising. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.954 Sign, shingle.

Shingle sign means a wall sign that projects from the face of a building and is suspended from a metal structure, awning, canopy or marquee. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.956 Sign, structure area.

Structure area applies to monument signs and means the entire area of the sign structure, as computed by multiplying the sign height by the sign structure width. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.958 Sign, structure support width.

Structure support width sign applies to free-standing signs, and means the width of the three-dimensional support structure(s) that extends from the top of the sign structure to the ground.

20.02.960 Sign, subdivision identification sign.

Subdivision identification sign means a monument or wall sign located at a main entrance of a subdivision. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.962 Sign, temporary.

Temporary sign means a sign which, by virtue of its construction from lightweight or flimsy materials, and construction or installation by hand or with ordinary hand tools, is not suitable for long term display. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.964 Sign, temporary inflatable.

Temporary inflatable sign means an inflatable advertising device greater than two cubic feet in volume, used for advertising purposes. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.966 Sign, temporary active motion inflatable.

Temporary active motion inflatable means a temporary type of inflatable sign utilizing wind baffles and fabric combined with vortex of air created by a mechanical air system to allow the inflatable to dance and move, and which does not contain any words, numerals, trademarks, pictures, designs, or objects. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.968 Sign, temporary banner.

Temporary banner means a temporary sign composed of lightweight fabric or similar material used to attract visual attention. Flags are not within this definition. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.970 Sign, temporary construction.

Temporary construction sign means a temporary sign located on a construction site, typically used to display messages concerning the owner, occupant, contractor, architect, engineer, financial institution, real estate company or similar entities involved with the construction at that site. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.974 Sign, temporary portable.

Temporary portable sign means a temporary sign intended to be displayed for a limited period of time that is not permanently affixed to a building or structure on a site or is not mounted on a permanent foundation. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.976 Reserved.

Editor's note—Ord. No. 17318, § 1, adopted May 4, 2010, repealed § 20.02.976, which pertained to temporary real estate sign and derived from Ord. 16553, § 2 (part), 2007.

20.02.978 Sign, temporary real estate banner.

"Sign, temporary real estate banner" means an on-premise sign composed of lightweight fabric or similar material that is secured and maintained in a safe condition at all times without rips or tears, and that is placed upon a premises advertising that property for sale, rent or lease. The sign may display the identification of a real estate agency, broker or owner of the property.
(Ord. No. 17686, § 1, 12-6-2011)

20.02.980 Sign, temporary seasonal display.

"Temporary seasonal display sign" means a temporary display constructed of banner or sign materials that are mounted on light standards, containing no advertising message and displaying a design, graphic or other pictorial appropriate to the season. (Ord. 16653 § 2 (part), 2007)

20.02.982 Sign, temporary special event.

Temporary special event sign means a temporary sign advertising a properly authorized special event and located at the site of the event. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.984 Sign, temporary subdivision kiosk signs.

"Temporary subdivision kiosk signs" means a sign that shall include any or all of the following: the name of the subdivision(s), the name of the developer or subdivider of record, the name of the homebuilder(s) and a descriptive statement describing the development (e.g. single-family homes, condominiums, etc.) and directional information including arrows or other similar symbols for the purpose of direction only. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010; Ord. No. 18134, § 1, 3-4-2014)

20.02.986 Sign, wall.

Wall sign means a sign permanently affixed to any wall or vertical portion of a building not extending beyond the elevation of the building. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17318, § 1, 5-4-2010)

20.02.987 Sign, wayfinding.

"Wayfinding sign" means a sign, map, or marker designed, constructed, installed and managed by the city located on city property or right-of-way placed by the city that guides the traveling public to key civic, cultural, visitor, and recreational destinations; educational, scholastic or artistic events; community or public interest activities or destinations; designated or recognized civic routes or trails; areas of historical or archaeological significance; or trade shows, events and festivals. Any sponsorship information contained on a wayfinding sign shall be limited to twenty percent of the sign and shall only contain the name of the sponsor.
(Ord. No. 17854, § 1, 8-2-2012)

20.02.988 Single-family attached dwelling (atrium, patio, townhouse, condominium).

See "Atrium house, patio house, townhouse, condominium." (Ord. 16653 § 2 (part), 2007)

20.02.990 Single-family detached dwelling.

"Single-family detached dwelling" means a dwelling unit for one family that is not attached to any other dwelling unit. (Ord. 16653 § 2 (part), 2007)

20.02.992 Site development plan, detailed (DSD).

"Detailed site development plan (DSD)" means a site plan showing the boundaries of the tract proposed for development; location and arrangement, size, use and architectural design of all structures; utility rights-of-way and easements; stormwater drainage; vehicular and pedestrian way; on-site parking areas; open spaces; landscape planted areas; size and design of exterior signs. (Ord. 16653 § 2 (part), 2007)

20.02.994 Site plan, generalized.

"Generalized site plan" means a site plan showing general features or concept of a development. (Ord. 16653 § 2 (part), 2007)

20.02.996 Skateboarding facility (indoor).

"Skateboarding facility (indoor)" means an enclosed facility used for skateboarding purposes. (Ord. 16653 § 2 (part), 2007)

20.02.998 Skateboarding facility (outdoor).

"Skateboarding facility (outdoor)" means an outdoor facility designed for skateboarding purposes. (Ord. 16653 § 2 (part), 2007)

20.02.1000 Slope.

"Slope" means the degree of rise or descent of a parcel of land in relation to a horizontal plane. (Ord. 16653 § 2 (part), 2007)

20.02.1002 Slope, percent average.

"Percent average slope" means the percent average slope calculated for property within the planned mountain development district, and within the boundaries of a subdivision plat, which is determined using the following equation:

S = .0023 IL/A

S = percent average slope

I = contour interval in feet

L = contour length in feet

A = parcel area in acres (Ord. 16653 § 2 (part), 2007)

20.02.1004 Social, fraternal club.

See "Lodge." (Ord. 16653 § 2 (part), 2007)

20.02.1006 Solar conversion system.

"Solar conversion system" means a complete design or assembly consisting of a solar energy collector, an energy storage facility (where used), and components for the distribution of transformed energy. (Ord. 16653 § 2 (part), 2007)

20.02.1008 Solar energy.

"Solar energy" means radiant energy, either direct, diffused, or reflected, received from the sun at wavelengths suitable for conversion into thermal, chemical, or electrical energy. (Ord. 16653 § 2 (part), 2007)

20.02.1010 Solar energy collector.

"Solar energy collector" means a device, structure, or part of a device or structure that is used primarily to transform solar energy into thermal, chemical, or electrical energy. It includes any space or structural component specifically designed to retain heat derived from solar energy, any mechanism that converts wind energy into electrical energy, and any photosynthetic process specially maintained to produce photosynthetic products. (Ord. 16653 § 2 (part), 2007)

20.02.1012 Solar energy conversion system.

"Solar energy conversion system" means a complete design or assembly consisting of a solar energy collector, an energy storage facility when used, and components for the distribution of transformed energy to the extent that they cannot be used jointly with a conventional energy system. Passive solar energy systems are included in this definition, but not to the extent that they fulfill other functions such as structural or recreational. (Ord. 16653 § 2 (part), 2007)

20.02.1014 Specialty shop.

"Specialty shop" means retail operations that specialize in one type or line of merchandise. Such stores may include, but are not limited to, apparel stores, jewelry stores, bookstores, shoe stores, stationery stores, antique stores and similar establishments. (Ord. 16653 § 2 (part), 2007)

20.02.1016 Special exception.

"Special exception" means a use listed as such in the ordinance codified herein and which may be permitted in a specified district, under certain conditions, to be determined in each case by the terms of the ordinance codified herein and by the zoning

board of adjustment after public hearing in accordance with the procedures specified by Title 2 of this Code and applicable state law. (Ord. 16653 § 2 (part), 2007)

20.02.1018 Special permit use.

"Special permit use" means a use, listed in Chapter 20.08 (Permissible Uses) of this title, which may be permitted in a specified district under certain conditions, to be determined in each case by the terms of the ordinance codified herein and by the City Council of the City of El Paso after public hearing and report by the city plan commission in accordance with the procedures specified in Chapter 20.04 (Administrative Provisions) of this title. (Ord. 16653 § 2 (part), 2007)

20.02.1020 Specified anatomical areas.

"Specified anatomical areas" means less than completely and opaquely covered human genitals, pubic region, buttock and female breast below a point immediately above the areola. (Ord. 16653 § 2 (part), 2007)

20.02.1022 Specified sexual activities.

"Specified sexual activities" means:

1. Human genitals in a state of actual or simulated sexual stimulation or arousal;

2. Acts of human masturbation, sexual intercourse or sodomy;

3. Fondling or other erotic touching of human genitals, pubic region, buttock or female breast;

4. "Sexual intercourse," "sexual contact" or "deviate sexual intercourse" as defined in Section 21.01, Texas Penal Code. (Ord. 16653 § 2 (part), 2007)

20.02.1024 Sports arena (multipurpose).

"Sports arena (multipurpose)" means a facility, which is completely enclosed within a building or structure, for indoor exhibitions, conventions or spectator events. (Ord. 16653 § 2 (part), 2007)

20.02.1026 Stable (including breeding).

"Stable (including breeding)" means a structure and/or land use where horses are kept for sale or hire to the public. (Ord. 16653 § 2 (part), 2007)

20.02.1028 Stacking.

"Stacking" means the placing of one sign above another at the same location. (Ord. 16653 § 2 (part), 2007)

20.02.1030 Stadium.

"Stadium" means a facility for outdoor exhibitions and spectator events. (Ord. 16653 § 2 (part), 2007)

20.02.1031 Stormwater open space.

"Stormwater open space" means a natural open area to be used to help manage storm water, reduce flooding risk and improve water quality as its primary purposes, while still permitting passive recreational use of the open space as secondary purposes to the area. Water, waste water, and stormwater utility systems within areas designated for stormwater open space shall be designed with environmentally sensitive infrastructure and constructed with a low impact development (LID) approach to the extent permitted in the city's subdivision regulations. Any area designated as stormwater open space shall require the approval of the floodplain administrator, shall conform to the master stormwater management plan and open space master plan of the city, and shall be shown within the boundaries of any required land study, subdivision plat, detailed site development plan, master zoning plan, SmartCode regulating plan, or any other platting or zoning document as may be required by the city.
(Ord. No. 17904, § 1, 11-6-2012)

20.02.1032 Stormwater retention pond (public/private).

"Stormwater retention pond (public/private)" means a pond, pool, or basin used for the permanent storage of water runoff. (Ord. 16653 § 2 (part), 2007)

20.02.1034 Story.

"Story" means that portion of a building included between the surface of a floor and the surface of the floor above it, or if there is no floor above it, then the space between such floor and the ceiling above it. (Ord. 16653 § 2 (part), 2007)

20.02.1036 Story, half.

"Half story" means a partial story under a gable, hip or gambrel roof, the wall plates of which on at least two opposite exterior sides are not more than two feet above the floor of such story. (Ord. 16653 § 2 (part), 2007)

20.02.1038 Street centerline.

"Street centerline" means the midline of the width of the street. (Ord. 16653 § 2 (part), 2007)

20.02.1040 Street line.

"Street line" means the line between a lot, tract or parcel of land and a contiguous street. (Ord. 16653 § 2 (part), 2007)

20.02.1042 Street, private.

"Private street" means a privately owned accessway within an approved planned development for which the private owners assume full responsibility for maintenance and control and which has not been dedicated to the use of the public. (Ord. 16653 § 2 (part), 2007)

20.02.1044 Street, public.

"Public street" means an accessway dedicated to the use of the public which has been accepted for maintenance and control by the city, county or state. (Ord. 16653 § 2 (part), 2007)

20.02.1046 Structural alteration.

"Structural alteration" means any change or modification in construction. (Ord. 16653 § 2 (part), 2007)

20.02.1048 Structure.

"Structure" means that which is built or constructed, an edifice or building of any kind, or other artificially built or constructed work. (Ord. 16653 § 2 (part), 2007)

20.02.1050 Studio, dance.

"Dance studio" means a facility for instruction in dance. (Ord. 16653 § 2 (part), 2007)

20.02.1052 Studio, music.

"Music studio" means a facility for instruction in music. (Ord. 16653 § 2 (part), 2007)

20.02.1054 Studio, photography.

"Photography studio" means a business where photographs are taken and developed for retail sale to the public. (Ord. 16653 § 2 (part), 2007)

20.02.1056 Subdivision ordinance.

"Subdivision ordinance" means the subdivision ordinance of the City of El Paso, Texas. (Ord. 16653 § 2 (part), 2007)

20.02.1058 Substantial conformity.

A plan shall be determined to be in "substantial conformity" with an approved plan if it does not significantly alter the arrangement of land use, and does not increase the density or relocate major circulation elements or decrease the landscaped area or open space or materially alter the plan or concept for the planned development. (Ord. 16653 § 2 (part), 2007)

20.02.1060 Supermarket.

"Supermarket" means a store offering for sale foodstuffs and some household supplies whose gross floor area is greater than twelve thousand but less than or equal to forty thousand square feet. (Ord. 16653 § 2 (part), 2007)

20.02.1062 Superstore.

"Superstore" means a store offering for sale foodstuffs and some household supplies whose gross floor area is greater than forty thousand but less than or equal to two hundred fifty thousand square feet. A superstore may also include a bank, deli, fast food outlet, eye care facility, minor auto-

motive repair facility and/or other appropriate retail uses all located within the same building structure. (Ord. 16653 § 2 (part), 2007)

20.02.1064 Swimming pool (commercial).

"Swimming pool (commercial)" means any portable or permanent structure containing a body of water twenty-four inches or more in depth and containing one hundred fifty cubic feet (one thousand one hundred twenty-two gallons) or more of water and intended for recreational purposes and open to the public upon payment of a fee. (Ord. 16653 § 2 (part), 2007)

20.02.1066 Swimming pool (noncommercial).

"Swimming pool (noncommercial)" means any portable or permanent structure containing a body of water twenty-four inches or more in depth and containing one hundred fifty cubic feet (one thousand one hundred twenty-two gallons) or more of water and intended for recreational purposes and for the exclusive use of the residents of a residential use and their private guests. (Ord. 16653 § 2 (part), 2007)

20.02.1068 Synagogue.

See "Church." (Ord. 16653 § 2 (part), 2007)

20.02.1070 Tattoo parlor.

"Tattoo parlor" means a business where the primary activity is tattooing and/or body piercing but does not include establishments performing only ear piercing. (Ord. 16653 § 2 (part), 2007)

20.02.1072 Telemarketing agency.

"Telemarketing agency" means a facility where telephone sales, order collection, mail order or catalog sales, or mailing list preparation is conducted. (Ord. 16653 § 2 (part), 2007)

20.02.1074 Temple.

See "Church." (Ord. 16653 § 2 (part), 2007)

20.02.1076 Temporary events on public rights-of-way.

"Temporary events on public-rights-of-way" means any bazaar, block party, sidewalk sale, show, exhibition, local special event, festival, celebration or any similar occurrence to last twenty-four hours or less that will be conducted on a street within an area not exceeding one city block or one intersection. At least two-thirds of the area shall be residentially zoned and said event shall be sponsored solely by the owners, residents or tenants in the area, or their organization. (Ord. 16653 § 2 (part), 2007)

20.02.1078 Temporary use.

"Temporary use" means a use permitted for a fixed time period with the intent to discontinue such use upon the expiration of the time period. Such uses do not involve the construction or alteration of any permanent structure. (Ord. 16653 § 2 (part), 2007)

20.02.1080 Tennis club.

"Tennis club" means a commercial or noncommercial establishment that provides facilities for playing tennis on a membership basis only. "Membership basis" means that the establishment sells memberships making its facilities available to members and their guests for periods of not less than one month at a time, and that such facilities are not open to use by the general public. (Ord. 16653 § 2 (part), 2007)

20.02.1082 Tennis club, indoor (with/without restaurant and bar).

"Indoor tennis club (with/without restaurant and bar)" means a commercial or noncommercial establishment that provides facilities for playing tennis indoors. (Ord. 16653 § 2 (part), 2007)

20.02.1084 Tennis club, outdoor (with/without restaurant and bar).

"Outdoor tennis club (with/without restaurant and bar)" means a commercial or noncommercial establishment that provides facilities for playing tennis outdoors. (Ord. 16653 § 2 (part), 2007)

20.02.1086 Tents (special events).

"Tents (special events)" means any temporary structure composed wholly or partly of canvas or similar materials to be used as a place of amusement or for any religious, educational, charitable or recreational purpose, or any other public assemblages. (Ord. 16653 § 2 (part), 2007)

20.02.1088 Testing laboratory.

"Testing laboratory" means a facility where administrative, engineering, scientific research, design, or experimentation is conducted. (Ord. 16653 § 2 (part), 2007)

20.02.1090 Theater, performing.

"Performing theater" means a structure used for dramatic, operatic, or other live performance. (Ord. 16653 § 2 (part), 2007)

20.02.1091 Theater, movie theater drive-in (outdoor).

"Movie theater drive-in (outdoor)" means a place of public entertainment for the purpose of exhibition of motion picture or live performance of cultural programming. "Drive-in theater, motion picture" means a theater that may or may not provide seating inside and its principal character is to provide parking spaces for motor vehicles. (Ord. No. 019734, § 1, 5-28-2025)

20.02.1092 Townhouse.

"Townhouse" means a single-family dwelling designed to be sold as a unit, but forming one of a group or series of three or more attached single-family dwellings separated from one another by common property lines. (Ord. 16653 § 2 (part), 2007)

20.02.1094 Tractor.

"Tractor" means a motor vehicle designed and used primarily for drawing other vehicles, equipment or implements of husbandry, and not so constructed as to carry any load thereon other than part of the weight of the load being drawn. (Ord. 16653 § 2 (part), 2007)

20.02.1096 Traffic division.

"Traffic division" means the traffic division of the City of El Paso Engineering Department. (Ord. 16653 § 2 (part), 2007)

20.02.1098 Traffic engineer.

"Traffic engineer" means the city engineer, or his designee. (Ord. 16653 § 2 (part), 2007)

20.02.1100 Trailer, eighteen-wheeler (sales, display and repair).

See "Heavy truck (sales storage, repair and rental)." (Ord. 16653 § 2 (part), 2007)

20.02.1102 Tramway.

"Tramway" means a carrier that travels on an overhead cable. (Ord. 16653 § 2 (part), 2007)

20.02.1104 Transfer station.

"Transfer station" means a fixed facility used for transferring solid waste from collection vehicles to long-haul vehicles. It is not a storage facility where individual residents can dispose of their waste. (Ord. 16653 § 2 (part), 2007)

20.02.1105 Reserved.

Editor's note—Ord. No. 18241, § 1, adopted September 9, 2014, repealed § 20.02.1105, which pertained to transitional housing and derived from Ord. No. 17567, § 1, 5-24-2011; Ord. No. 18020, § 1, 6-4-2013.

20.02.1106 Transportation equipment manufacturing.

"Transportation equipment manufacturing" means facilities engaged in producing equipment for transporting people and goods such as, but not limited to, automobiles, light trucks, heavy duty trucks, truck trailers, buses, motor homes, travel trailers, boats, railroad rolling stock and aircraft. (Ord. 16653 § 2 (part), 2007)

20.02.1108 Transportation terminal, Type A.

"Type A transportation terminal" means a type of passenger terminal where passengers are loaded and unloaded from or onto a motor-carrier. A Type A transportation terminal is a facility having

a total land area of no more than four thousand square feet and any building proposed within the land area is no larger than two thousand square feet in gross floor area. (Ord. 16653 § 2 (part), 2007)

20.02.1110 Transportation terminal, Type B.

"Transportation terminal, Type B" means a type of passenger terminal at which passengers are loaded and unloaded from or onto a motor-carrier. A Type B transportation terminal is a facility having a total land area greater than four thousand square feet or where a building proposed within the land area exceeds a gross floor area of two thousand square feet. (Ord. 16653 § 2 (part), 2007)

20.02.1112 Travel trailer.

"Travel trailer" means a portable vehicular structure built on a chassis, designed as a temporary dwelling for travel, recreational and vacation use. (Ord. 16653 § 2 (part), 2007)

20.02.1114 Travel trailer park.

See "Recreation vehicle park." (Ord. 16653 § 2 (part), 2007)

20.02.1116 Tree, parking lot.

"Parking lot tree" means a deciduous or evergreen tree, which is capable of obtaining a minimum canopy, spread of twenty feet at maturity. Branching structure shall be maintained at a minimum height of seven feet above the sidewalk area ground, three feet from the trunk; which is installed and located in a parking lot. (Ord. 16653 § 2 (part), 2007)

20.02.1118 Tree, project.

"Project tree" means a deciduous or evergreen tree having a minimum of two inches cal. ten feet in height, which is capable of obtaining a minimum canopy spread of twenty feet at maturity that is required based on calculations determined by the provisions of this chapter. Branching structure shall be maintained at a minimum height of seven feet above the sidewalk area ground, three feet from the trunk. Such trees shall be healthy and vigorous at time of planting. (Ord. 16653 § 2 (part), 2007)

20.02.1120 Triplex.

"Triplex (three-family dwelling)" means a building designed or occupied as three dwelling units. (Ord. 16653 § 2 (part), 2007)

20.02.1122 Truck stop.

"Truck stop" means a facility that provides services to the trucking industry, including, but not limited to, dispensing of fuel, repair shops, automated washes, restaurants or motels. (Ord. 16653 § 2 (part), 2007)

20.02.1124 Unit.

See "Dwelling unit." (Ord. 16653 § 2 (part), 2007)

20.02.1126 University, college.

"College university" means an institution of higher learning accredited by the state of Texas and offering a course of studies leading to a degree. (Ord. 16653 § 2 (part), 2007)

20.02.1128 Unnecessary hardship.

"Unnecessary hardship" means a hardship by reason of exceptional shape of a lot, exceptional topographic conditions, or other exceptional physical conditions of a parcel of land. Unnecessary hardship shall not include personal or financial hardship or any other hardship that is self-imposed. (Ord. 16653 § 2 (part), 2007)

20.02.1129 Utility green space.

"Utility green space" means an area of protected or conserved land, larger than ten acres, where development is limited or controlled to preserve large areas of undisturbed open space as its primary purpose, while still permitting passive recreational uses and necessary water, wastewater and stormwater utility systems as secondary purposes to the area. Utility green space shall be shown within the boundaries of any required land study, subdivision plat, detailed site development plan, master zoning plan, SmartCode regulating plan, or any other platting or zoning document as may be required by the city.
(Ord. No. 17904, § 1, 11-6-2012; Ord. No. 17967, § 1, 3-5-2013)

20.02.1130 Utility storage yard.

"Utility storage yard" means any storage yard for public utility equipment, materials or vehicles. (Ord. 16653 § 2 (part), 2007)

20.02.1132 Vehicle.

"Vehicle" means every device in, upon or by which any person or property is, or may be, transported upon a roadway, except devices moved exclusively by human power or used exclusively upon stationary rails or tracks. (Ord. 16653 § 2 (part), 2007)

20.02.1134 Vending machines (inside a building).

"Vending machines (inside a building)" means any unattended self-service device that, upon insertion of a coin, coins, or token, or by similar means, dispenses anything of value, including but

not limited to food, beverage, tobacco and sundries. (Ord. 16653 § 2 (part), 2007)

20.02.1136 Vendor, flea market.

"Flea market vendor" means any person who rents, leases or occupies any room, stall, stand or space in any building, structure, enclosure or any other property used as a flea market from which merchandise or food is exhibited and offered for sale. (Ord. 16653 § 2 (part), 2007)

20.02.1138 Veterinary treatment center (large animals).

"Veterinary treatment center (large animals)" means a facility where farm animals, to include, but not limited to, horses, cattle, sheep, goats and pigs, are given medical or surgical treatment and are cared for during the time of such treatment. (Ord. 16653 § 2 (part), 2007)

20.02.1140 Veterinary treatment center (small animals).

"Veterinary treatment center (small animals)" means a facility where small animals such as domesticated dogs and cats and common household pets are given medical or surgical treatment and are cared for during the time of such treatment. (Ord. 16653 § 2 (part), 2007)

20.02.1142 Wall, screening.

"Screening wall" means any structure or device forming a physical barrier which is constructed so that the vertical surface is solid, thus preventing the passage of light, air and vision. The material of which a wall is constructed may be masonry, brick, concrete, metal, wood or other similar materials. Measurement of height shall be from the high ground. (Ord. 16653 § 2 (part), 2007)

20.02.1144 Warehouse club.

"Warehouse club" means a store with fifty thousand square feet or more of gross floor area that offers foodstuffs and household supplies for sale. (Ord. 16653 § 2 (part), 2007)

20.02.1146 Warehouses, self-storage.

See "Self storage warehouse." (Ord. 16653 § 2 (part), 2007)

20.02.1148 Watchman.

"Watchman" means one who is employed to protect a facility or property. (Ord. 16653 § 2 (part), 2007)

20.02.1150 Water and wastewater utility facility.

See "Public utility facility." (Ord. 16653 § 2 (part), 2007)

20.02.1151 Wildlife sanctuary.

"Wildlife sanctuary" means as an area of land, water, and the air space above which is managed to protect wildlife species, their habitat, and the ecosystem(s) these wildlife species depend upon. For the purpose of this ordinance, the term "wildlife sanctuary" is synonymous with "wildlife refuge", "wildlife preserve", and "nature preserve". This designation shall only apply to property that is zoned natural open space.
(Ord. No. 17306, § 1, 4-6-2010)

20.02.1152 Window, bay.

"Bay window" means a window or set of windows extending out from a wall of a building and forming an alcove within; the overall width of such alcove not to exceed one-half of the width of the wall from which it protrudes. The bay window may rise from the ground level or from some point above ground level. (Ord. 16653 § 2 (part), 2007)

20.02.1154 Wind-driven electrical generator.

"Wind-driven electrical generator" means a machine by which mechanical energy supplied by the wind is converted to electric energy. (Ord. 16653 § 2 (part), 2007)

20.02.1156 Wind-driven electrical pump.

See "Wind-driven pump." (Ord. 16653 § 2 (part), 2007)

20.02.1158 Wind-driven pump.

"Wind-driven pump" means a wind operated device that raises or transfers water from one place to another. (Ord. 16653 § 2 (part), 2007)

20.02.1160 Yard.

"Yard" means that part of a lot at grade between a building and the adjoining lot lines, unoccupied and unobstructed by any portion of a structure from the ground upward to the sky, except for permitted projections from the ground such as landscaping, fencing or walls. (Ord. 16761 § 1 (part), 2007: Ord. 16653 § 2 (part), 2007)

20.02.1162 Yard, required front.

"Required front yard" means that part of a lot between the front lot line and the required front setback line, and extended to both side lot lines. (Ord. 16653 § 2 (part), 2007)

20.02.1164 Yard, required rear.

"Required rear yard" means that part of a lot between the rear lot line and the required rear yard setback line, and extended to both side lot lines. (Ord. 16653 § 2 (part), 2007)

20.02.1166 Yard, required side.

"Required side yard" means that part of a lot that is between the side property line and the required side yard setback line and is not a rear yard. (Ord. 16653 § 2 (part), 2007)

20.02.1168 Yard, side street.

"Side street yard" means a side yard whose property line abuts a street. (Ord. 16653 § 2 (part), 2007)

20.02.1170 Youth organization (with/without living facility).

"Youth organization (with/without living facility) means an organization for five or more children under eighteen years of age, operated by a person, partnership, corporation, association, state or city for recreational or educational purposes, that may also conduct resident camps and/or day camps. (Ord. 16653 § 2 (part), 2007)

20.02.1172 Zero lot line.

"Zero lot line" means a property line on which a structure is constructed upon, resulting in no yard on that side. (Ord. 16653 § 2 (part), 2007)

20.02.1174 Zoning administrator.

"Zoning administrator" means the city employee who plans, directs and coordinates the application of the zoning ordinance and related duties as required under the direction of the planning official. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17442, § 3, 10-26-2010)

Chapter 20.04

ADMINISTRATIVE PROVISIONS

Sections:

Article I. Administrative Bodies and Related Agencies Authority

20.04.010 Responsibility for administration of provisions.

20.04.020 Principals.

20.04.030 City council.

20.04.040 City plan commission.

20.04.050 Zoning board of adjustment.

20.04.060 Planning division.

20.04.070 Building official.

20.04.080 Department of transportation.

20.04.090 Fire department.

20.04.100 Department of public health.

Article II. Planning Documents

20.04.120 General authority.

20.04.130 Effect of comprehensive plan.

Article III. Detailed Site Development Plan Approval Process

20.04.140 When required.

20.04.150 Procedure.

20.04.160 Content of application.

20.04.170 Modification of detailed site development plan.

Article IV. Master Zoning Plan Approval Process

20.04.200 Master zoning plan.

Article V. Special Permit Approval Process

20.04.260 Special permits generally.

20.04.270 Special permits for planned residential developments.

20.04.280 Special permits for planned residential developments—Maximum dwelling units.

20.04.290 Special permits for planned residential developments—Public uses.

20.04.300 Special permits for planned residential developments—Commercial and industrial uses.

20.04.310 Compliance with special permits.

20.04.320 Special permit approvals.

Article VI. Changes and Amendments

20.04.340 City council authority.

20.04.350 Public proposals.

20.04.360 Private requests.

20.04.370 Application form.

20.04.380 Application requirements.

20.04.390 Referral to city plan commission.

20.04.400 Notice of public hearing before city plan commission.

20.04.410 Fees.

20.04.420 Withdrawal of application.

20.04.430 Recommendation by commission.

20.04.440 Additional information from applicant.

20.04.450 Council action.

20.04.460 Protest procedure.

20.04.470 Resubmission of application.

20.04.480 Dismissal for want of prosecution.

Article VII. Public Hearings

20.04.500 Generally.

20.04.510 Scheduling.

20.04.520 Notice.

20.04.530 Conduct.

Article VIII. Private Streets, Common Open Space and Other Similar Properties

20.04.550 Maintenance.

20.04.560 Private streets.

20.04.570 Right-of-way and pavement widths.

Article IX. Permits and Licenses

20.04.600 Building permits.

20.04.610 Building permit application.

20.04.620 Manufactured home or trailer placement.

20.04.630 Historic landmark alterations—Certificate of appropriateness required.

20.04.640 Temporary permits.

20.04.650 Storage of explosives.

20.04.660 Signs in public rights-of-way.

Article X. Certificate of Occupancy and Compliance

20.04.700 Generally.

Article XI. Agreements and Bonds

20.04.750 Authority to require.

Article XII. Fees

20.04.800 Adoption and display.

20.04.810 Zoning verification requests.

20.04.820 Home occupation license.

20.04.830 Request for increased height of screening wall.

20.04.840 Request to waive or amend mandatory wall requirement.

20.04.850 Classification of use.

Article XIII. Enforcement

20.04.900 Administrative and enforcement activities.

Article I. Administrative Bodies and Related Agencies Authority

20.04.010 Responsibility for administration of provisions.

Responsibility for the administration of the provisions of this title shall be vested in the city council, the city plan commission, the planning and inspections department, the zoning board of adjustments, the fire department, the environmental services department, the streets and maintenance department, and the department of public health, in accordance with the provisions of this Code, including the provisions of this title. (Ord. 16817 § 1, 2008: Ord. 16653 § 2 (part), 2007)
(Ord. No. 17442, § 4, 10-26-2010; Ord. No. 17801, § 1, 6-5-2012, eff. 6-11-2012; Ord. No. 19244, § 1, 10-12-2021)

20.04.020 Principals.

Sections 20.04.030 through 20.04.100 identify the principal authorities relative to this title of the bodies and agencies identified in this chapter. (Ord. 16653 § 2 (part), 2007)

20.04.030 City council.

Pursuant to this Code, the city council, in addition to the powers and duties identified in this section, shall have final authority, following recommendation by the city plan commission, to approve or disapprove the comprehensive plan, planning area plans, neighborhood plans and designation of historic landmarks. The city council shall also have authority to approve or disapprove changes, amendments development permits and special permits under this title, and to decide upon appeals from actions of the historic landmark commission. (Ord. 16653 § 2 (part), 2007)

20.04.040 City plan commission.

Pursuant to this Code, the city plan commission, in addition to the powers and duties identified herein, shall have authority to make recommendations to the city council on the comprehensive plan, planning area plans, neighborhood plans, historic landmark designations and on changes and amendments, development permits and special permits under this title. (Ord. 16653 § 2 (part), 2007)

20.04.050 Zoning board of adjustment.

In accordance with Chapter 2.16, the zoning board of adjustment has authority to hear and

finally decide appeals and applications for variances and special exceptions. Appeals from the zoning board of adjustment lie directly to the district court. (Ord. 16653 § 2 (part), 2007)

20.04.060 Planning division.

A. Pursuant to this Code, the planning division, as provided for by ordinance of the city, serves as an administrative and staff agency responsible to the mayor and city council, to the city plan commission and to the zoning board of adjustment. The planning division and the planning official have authority for processing proposals to change the text and map of this title and for processing master zoning plan applications, site plan approval applications, applications for special permits and zoning board of adjustment applications.

B. All applications for zoning change or amendment, approval of a master zoning plan or detailed site plan, or for special permit shall be first filed with the executive secretary of the city plan commission, who shall have responsibility for coordination of the staff review process to include, if applicable, submission to the open space advisory board. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17358, § 1, 7-20-2010; Ord. No. 17442, § 5, 10-26-2010)

20.04.070 Building official.

A. Pursuant to this Code, the building official and other designees of the city manager serve as the administrative staff responsible for the provision of services and the performance of duties as set forth under this title.

B. The building official and any other permit official designated by the city manager have authority under this title for all aspects of development applications or permit applications, except traffic and transportation engineering aspects.

C. All applications for building permits, placement permits, temporary permits, licenses, certificates of occupancy and compliance and certificates of appropriateness shall be filed with the building official or with such other permit official as designated by the city manager.

D. Applications for building permits, placement permits, temporary permits, licenses and certificates of occupancy and compliance shall require approval of the building official or other permit official as designated by the city manager prior to issuance.

E. Applications for certificates of appropriateness shall require approval of the historic landmark commission prior to issuance. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17442, § 6, 10-26-2010)

20.04.080 Department of transportation.

Pursuant to this Code, the department of transportation has authority, under the city council, for all traffic and transportation aspects of development applications or permit applications. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17442, § 7, 10-26-2010)

20.04.090 Fire department.

Pursuant to this Code, the fire department has authority, under the city council, for all aspects of fire protection. (Ord. 16653 § 2 (part), 2007)

20.04.100 Department of public health.

Pursuant to this Code, the department of public health has authority, under the city council, for all animal regulations and public health aspects of this title. (Ord. 16817 § 2, 2008: Ord. 16653 § 2 (part), 2007)

Article II. Planning Documents

20.04.120 General authority.

Pursuant to this Code, and as herein stated, the city plan commission shall have the authority to formulate and recommend, and the city council shall have the authority to approve a comprehensive plan, including a plan for land use, thoroughfares and other appropriate elements of a plan and providing furthermore that the city plan commis-

sion shall have the authority to recommend and the city council shall have authority to approve, detailed plans for planning areas as a guide for public and private land development in the city. (Ord. 16653 § 2 (part), 2007)

20.04.130 Effect of comprehensive plan.

The regulations in this title shall be in accordance with the comprehensive plan for the city and plans for planning areas and shall be implemented in accordance with the comprehensive plan for the city and the plans for planning areas. (Ord. 16653 § 2 (part), 2007)

Article III. Detailed Site Development Plan Approval Process

20.04.140 When required.

Except as stated herein, a detailed site development plan is required prior to development in a special purpose district or with a special permit application and may be required if a zoning condition exists on a particular piece of property. Detailed site development plans are not required for any projects for development in the Mixed Use District (RMU, GMU and IMU) or for any other projects other than those located in special purpose districts or as otherwise required herein. (Ord. 16915 § 1, 2008: Ord. 16653 § 2 (part), 2007)

20.04.150 Procedure.

A. An application for detailed site development plan shall be prepared in accordance with the specifications outlined in Section 20.04.160

B. The application shall be reviewed by the planning division for completeness and shall not be processed until any missing information is supplied by the applicant and the fee has been received.

C. Administrative approval. Detailed site development plans meeting the following conditions shall be reviewed and approved by the zoning administrator:

1. The site is two acres or less in size, and

2. The site plan contains no more than two buildings, and

3. The site plan complies with any zoning conditions and all city code provisions, to include the tables for uses and density and dimensional standards and;

4. The city's department of transportation has no concerns with access or restriction of access to the site; and,

5. The site plan complies with staff recommendations concerning the location of stormwater drainage structures and easements to include on-site ponding areas; the location and arrangement of structures, vehicular and pedestrian ways; open spaces and landscape planted areas. Staff recommendations shall not require that the site plan have landscaping in excess of what is required under the city code or any zoning condition, or

6. Any site within the "U-P" Union Plaza District.

If the zoning administrator does not approve an applicant's detailed sited development plan, the applicant may appeal the decision to the city plan commission. The applicant must file the appeal with the zoning administrator within fifteen business days from the date of the zoning administrator's decision. The zoning administrator shall place the appeal on the city plan commission agenda to be heard by the commission within thirty business days from the date the appeal was received. The zoning administrator shall include the detailed site plan, the appeal, and a summary of the zoning administrator's reasons for disapproving the detailed site plan.

D. City plan commission approval. Pursuant to this Code, the city plan commission, in addition to the powers and duties identified in this chapter, shall have final authority on approval of all other detailed site development plans, unless a zoning condition, contract provision, other city code provision or state law require the detailed site development plan to be approved by city council.

1. The planning division shall make its recommendations to the city plan commission within thirty days after a complete application is submitted.

2. The city plan commission shall hold a public hearing at its regular meeting that is within thirty days from receipt of department recommendations.

3. The commission shall consider the following information when approving a proposed detailed site development plan: the boundaries of the tract proposed for development; location and arrangement of structures; determine if the use conforms to applicable zoning regulations, determine if historic landmark commission approval has been granted for architectural design of all structures if located in a historic district and the design conforms to such approval; location of utility rights-of-way and easements and stormwater drainage; vehicular and pedestrian ways; on-site parking areas; location of open spaces and landscape planted areas.

4. In no instance shall the city plan commission have authority to vary the yard standards applicable to the district.

5. The city plan commission shall approve the plan if it complies with all applicable code provisions.

E. In the event of approval, applicant shall sign an agreement to develop the area in accordance with the approved detailed site development plan.

F. The approved detailed site development plan and agreement shall be filed with the zoning administrator and the executive secretary to the city plan commission.

G. Building permits may be issued in conformance with the approved detailed site development plan.

H. Detailed site development plan approval shall expire if construction is not started within four years from the date of approval. (Ord. 16653 § 2 (part), 2007)

(Ord. No. 17640, § 1, 8-30-2011; Ord. No. 17755, § 1, 3-20-2012; Ord. No. 019578, § 2, 12-12-2023)

20.04.160 Content of application.

Detailed site development plan applications shall be submitted in a digital form compatible with the city's system. Paper submittals of application documents shall be assessed the established fee for conversion of paper documents to digital format. The fee for conversion of paper documents to digital format shall be in the amount established by city council in the annual budget resolution, amendments to the budget resolution, or other appropriately adopted resolution or ordinance of the city council. Applications shall at a minimum include the following:

A. Legal description of area proposed to be developed or metes and bounds description and amount of land included certified by a professional engineer (P.E.) or a registered land surveyor;

B. The detailed site development plan showing the boundaries of the tract proposed for development; elevations or perspective of the building; location and arrangement, use, dimensions, square footage and height of all structures, including, where applicable; number of dwelling units in multifamily structures and number of bedrooms in each unit; yards, setbacks (number of feet); sidewalks and curb cuts; driveways; stormwater drainage; on-site parking spaces, to include loading and unloading berths; open spaces; landscape planted areas; size, design and location of exterior signs; screening walls; screening of on-site parking facilities;

C. Stamp or seal and signature of a professional engineer or architect preparing plans;

D. Proof of ownership (warranty deed, title commitment, etc.);

E. Tax certificate;

F. Fee as adopted by city council. (Ord. 16877 § 1, 2008; Ord. 16653 § 2 (part), 2007)

(Ord. No. 18817, § 1, 7-24-2018; Ord. No. 19244, § 2, 10-12-2021)

20.04.170 Modification of detailed site development plan.

A. Minor modifications to an approved detailed site development plan may be requested in

writing by the property owner and approved in writing by the zoning administrator if any of the following apply:

1. The minor modifications are in substantial conformity (see definition of "substantial conformity") to the approved detailed site development;

2. The minor modifications represent an improvement in the approved site plan; or

3. The minor modification is required by a governmental entity.

B. Changes other than minor modifications shall require new hearings and new approvals in the same manner as for review of the original site development plan. (Ord. 16653 § 2 (part), 2007)

Article IV. Master Zoning Plan Approval Process

20.04.200 Master zoning plan.

A. Master Zoning Plan (MZP).

1. As part of any zoning application for a mixed use district, a master zoning plan shall be required and shall accompany the application. The MZP shall provide sufficient details necessary about the proposed land uses and proposed development so that the El Paso City Council may determine their compatibility within the proposed district and the impact on the adjacent properties.

As part of the MZP, an application may propose and delineate subdistricts. A subdistrict is a geographic subcomponent of a larger mixed use district. Its purpose is to enable the incremental measurement and reconciliation of maximum dwelling units, density and other data required in the MZP to subsequent development. Where practical, a subdistrict's boundary should be consistent with natural geographic features, reflect manmade transitional barriers (such as roadways), or separate sharp changes in proposed land uses.

2. While the submittal requirements below reflect the use of subdistricts, their use is not required. Applications not using subdistricts shall be required to submit the same information but aggregated for the entire mixed use district. The MZP shall, at a minimum, include the proposed land uses and locations, as well as the information required below.

3. Submittal Requirements.

a. General Data Required for the Mixed Use District.

i. Legal description of area proposed to be developed or metes and bounds description of district;

ii. Total acreage as depicted on a survey certified by a registered land surveyor;

iii. Maximum proposed total number of dwelling units for all residential land uses combined;

iv. Maximum proposed total floor area for all nonresidential land uses combined, expressed in square feet.

b. General Data Required for Each Proposed Subdistrict.

i. Total acreage;

ii. Maximum proposed total number of dwelling units for all residential land uses combined;

iii. Maximum proposed floor area for all nonresidential land uses combined, expressed in square feet.

c. Property Development Regulations Required per Subdistrict by Land Use Type.

i. Proposed acreages for each proposed land use, including parks, open space, buffer zones, trails and school sites (as applicable);

ii. Minimum and maximum lot coverages;

iii. Minimum lot width;

iv. Minimum lot depth;

v. Minimum building setbacks:

a) Front,

b) Rear,

c) Cumulative front and rear,

d) Side-interior,

e) Side-street,

f) Cumulative side setbacks,

g) Garage;

vi. Maximum building height:

a) Primary structure(s),

b) Accessory structure(s);

vii. Maximum proposed density for each residential land use type expressed in dwelling units pre gross acre of developable land;

viii. Maximum proposed intensity for each nonresidential land use type expressed in floor area ratio (FAR).

d. Development Plan Map Requirements.

i. Overall development boundary, labeled with bearings and distances;

ii. General arrangement and acreages of existing and proposed land uses including open space;

iii. Proposed phasing boundaries;

iv. Layout and relationship of proposed development where adjacent to existing development;

v. General location and acreages for each proposed park, open space, buffer zone, trails and school site (as applicable), provided that any change in location may be approved administratively by the parks director.

4. A table or list depicting the proposed acreage for each land use type, park, open space, trail and school site (as applicable) shall accompany the MZP.

5. A written report shall accompany the MZP that describes the purpose, characteristics, components and timing of the proposed mix of land uses within the development, and includes a general statement of how the development relates to the city's comprehensive plan. A detailed description shall be required for each proposed land use, identifying the permissible uses for any subdistrict within the mixed-use district to determine the compatibility of such uses within the mixed use district.

6. A phasing schedule shall be submitted with the rezoning application that indicates the proposed phasing of the development, the approximate time frame in which construction and development is expected to begin and the duration of time required for completion of the development.

7. The application for mixed use zoning, to include the MZP shall be reviewed by the city plan commission (CPC) for recommendation to city council. The CPC may recommend any amendments or conditions to the MZP necessary to minimize incompatibilities between land uses within the development or between land uses and adjacent properties or with the stated purposes of zoning in this title.

8. As part of the approval and adoption of a mixed use district, the city council shall find that the development will promote compatible buildings and uses, and that such development will be appropriate in area, location and overall planning for the purpose intended, in accordance with the city's comprehensive plan and stated purposes of zoning in this title. The city council, in approving any mixed use district, will also be approving the MZP establishing the required zoning standards within the district. Approval of a mixed use district by city council designates the zoning for the property as stated in the ordinance approving such zoning and as depicted on the MZP. All development of the property, regardless of whether the property changes ownership, shall be in accordance with the master zoning plan.

B. Amendments to an Approved Master Zoning Plan. An applicant may request amendments to an approved MZP. These amendments shall be delineated as minor or major amendments according to the criteria set forth herein.

1. Major Amendments.

a. Any amendment meeting one or more of the criteria listed below or any other proposed change not considered a minor amendment as described below shall require resubmittal, review and approval of a new zoning application to amend the MZP by the CPC and city council. Major amendments shall follow the same procedural and notice requirements required for the initial approval of the MZP, except that the mixed use zoning district designation shall not be revised unless requested by the applicant. If a change within a subdistrict constitutes a major amendment, as defined herein, requiring an amendment to the MZP, the CPC and city council shall review the proposed change for compatibility within the subdistrict and the adjacent subdistricts.

i. Any change to the overall mixed use district boundary.

ii. Any change to the approved mix of land use types within a designated subdistrict that increases the nonresidential intensity of development within that subdistrict by ten percent or more of the relevant characteristic(s) of development intensity, provided that the total projected nonresidential development intensity within the entire MZP shall not increase by ten percent of such characteristic(s). For purposes of this section, intensity may be measured by a single characteristic or by multiple characteristics as appropriate to the land use type, including, but not limited to, FAR, parking, and vehicular trips generated.

iii. Any change to the boundary of a land use within a subdistrict that results in the relocation of ten percent or more of the area of that land use.

iv. Any change to the boundary of a subdistrict that results in the relocation of ten percent or more of the area of the subdistrict.

v. An increase of ten percent or more of the originally approved number of projected dwelling units within a designated subdistrict, provided that the total projected dwelling units within the entire MZP shall not increase by ten percent.

vi. An increase of ten percent or more of the originally approved floor area for nonresidential uses within a designated subdistrict.

vii. Any reduction to the public or private open space components within a designated subdistrict.

viii. A twenty percent or greater increase in the height of structures by land use type within a designated subdistrict.

ix. A ten percent or greater reduction in the originally approved setbacks by land use type within a designated subdistrict.

x. A five percent or greater increase in lot coverage by structures by land use type within a designated subdistrict.

xi. Any changes within and/or between subdistricts that, when aggregated result in an increase to one or more of the aforementioned variances for the mixed use districts as a whole.

xii. Any change which would result in the juxtaposition of incompatible land uses.

b. Approval of a major amendment may be granted upon a finding that:

i. The requested amendment is in general conformity with the stated purposes of this section and the purposes of the specific zoning district to which the property is subject to;

ii. The requested amendment meets all other applicable zoning, building, drainage, water quality, and safety code requirements, and any other applicable law or regulation; and

iii. The requested amendment will have no significant adverse impact on the health, safety, or general welfare of surrounding property owners or the general public, or such impact will be substantially mitigated.

2. Minor Amendments. An amendment will be deemed minor if it is a change to the timing or phasing of the proposed development or if it does not involve any one of the foregoing provisions of a major amendment. The minor amendment process is limited in nature and may not be used by the applicant to exceed the numeric variance permitted by subsection (B)(1) above.

a. Minor amendments shall be submitted in writing to the planning division and accompanied with three copies of the revised MZP. Minor amendments may be acted upon administratively by the planning official, only upon the finding that the amendment meets all of the following requirements:

i. The requested amendment is in general conformity with the stated purposes of this section and the purposes of the specific zoning district to which the property is subject to;

ii. The requested amendment meets all other applicable zoning, building, drainage, water quality, and safety code requirements, and any other applicable law or regulation; and

iii. The requested amendment will have no significant adverse impact on the health, safety, or general welfare of surrounding property owners or the general public, or such impacts will be substantially mitigated.

b. A decision of the planning official to deny a minor amendment shall be binding. Requests for minor amendments shall be acted upon within fifteen days of the receipt of the written request for amendments.

c. In no instance shall the planning official approve a minor amendment that results in a change in conditions imposed as part of the zoning ordinance approval, or any subdivision plan, site plan, contract condition or other condition applicable to the property.

d. Any change in location of parks and trails maybe approved administratively by the parks director.

C. Reserved.

D. Incentives.

1. An applicant with an approved MZP may utilize the alternative subdivision design standards (Title 19, Section 19.26.050), so long as the development is in accordance with the MZP.

2. Applications under this section shall be processed with priority on a "fast-track" basis, defined as follows:

a. Processing for mixed use development plans: thirty days;

b. Processing for an MZP or other application that requires city council approval: approximately sixty days (minimum) for final approval.

3. The city shall waive application fees for rezoning, mixed use development plans, and any major or minor amendment applications.

E. Applicability. While ownership of a project may subsequently be transferred, in whole or in part, a MZP shall continue to be implemented and maintained on the total acreage of the mixed use district. (Ord. 16915 § 2, 2008: Ord. 16653 § 2 (part), 2007)
(Ord. No. 17442, § 8, 10-26-2010; Ord. No. 19244, § 3, 10-12-2021)

Article V. Special Permit Approval Process

20.04.260 Special permits generally.

A. The city council may by special permit after hearing and report by the city plan commission authorize the location of the uses subject to special permits identified in the district regulations.

B. In addition to the development standards identified in this title, city council shall impose such additional conditions and safeguards including those related to architecture, site plan, landscape planting and screening as required to protect the public welfare and to conserve and protect property and property values in the immediate vicinity of the special permit.

C. Applications for special permits shall be filed with the executive secretary of the city plan commission. The application shall be reviewed by the planning division for completeness and shall not be processed until any missing information is supplied by the applicant and the fee has been received. A complete application shall be scheduled for action by the city plan commission, which shall have forty-five days in which to recommend approval, disapproval or approval with conditions or amendments.

D. Where disapproval is recommended the procedure shall be concluded unless the applicant within fifteen days of disapproval appeals the recommendation to city council. In the event of such a request the executive secretary of the city plan commission shall forward to the city council a statement of the reasons for disapproval.

E. Applications for special permits shall include a detailed site development plan that complies with Article III.

F. Special permits are automatically terminated whenever conditions made a part of them are not complied with, and construction shall stop or occupancy be discontinued until the violation ceases. (Ord. 16877 § 2, 2008; Ord. 16653 § 2 (part), 2007; Ord. No. 19244, § 4, 10-12-2021)

20.04.270 Special permits for planned residential developments.

A. A planned residential development shall occupy at least the minimum site area established in the district regulations. City council may approve a special permit for a planned residential development with general lot sizes and setbacks below the minimum of the underlying zoning district when Section 20.04.320(D) requirements have been met. The proposed development shall additionally meet the following requirements necessary to protect the public health, safety and general welfare of the community.

B. Where permitted in a district, and in order to foster the attractiveness of a residential development and its surrounding neighborhoods, a planned residential development may be established based on the following criteria:

1. Evaluation Criteria.

a. Proposed buildings shall be sited harmoniously to the terrain and to other buildings in the vicinity that have a visual relationship to the proposed buildings. For purposes of this subsection, harmoniously shall not be deemed to require that the same architecture or same type of building materials be uniformly used.

b. With respect to vehicular and pedestrian circulation and parking, special attention shall be given to the location and number of access points to public streets, width of interior drives and access points, relationship of vehicular and pedestrian traffic, and the arrangement of parking areas that are safe and convenient.

2. General Requirements.

a. Private streets and gates shall be permitted within a planned residential development and shall conform to the design standards enumerated in Title 19 (Subdivisions) of the El Paso City Code.

b. The minimum site area for a planned residential development shall be one acre, within which only residential uses of the base-zoning district shall be permitted. Extensions to a planned residential development from a common boundary shall be permitted in increments of less than one acre.

c. The minimum area requirement of the base-zoning district may be reduced by no more than twenty-five percent for lots within a planned residential development; provided, however, that the maximum density permitted by the base-zoning district shall apply in all cases except as otherwise approved by any applicable special permit granted pursuant to Section 20.12.040(B).

d. The setback requirements of the base-zoning district shall not apply to a planned residential development, except as follows:

1. The distance between buildings shall be a minimum of ten feet except as otherwise permitted in this title;

2. The length of the driveway shall not be less than twenty feet as measured from the face of the garage or carport to the dwelling side of the sidewalk, or to the property line where there is no sidewalk.

e. The perimeter of the planned residential development shall be designed to insure compatibility with adjacent existing or potential development by provision of compatible uses and structures.

f. No building shall exceed the height requirements of the base-zoning district.

g. Consideration in the site plan review and evaluation process shall include the following:

1. The nature and character of the development and adequacy of the buffer between proposed improvements on the site and adjacent property;

2. The adequacy of utilities, access, drainage and other necessary supporting facilities that have been or will be provided;

3. The adequacy of the design, location and arrangement of driveways and parking spaces so as to provide for the safe and convenient movement of vehicular and pedestrian traffic without adversely affecting the general public or adjacent developments.

h. A planned residential development shall be an architecturally integrated subdivision, whether unified by similar use and density, design, building materials, or open space and streetscape

elements. (Ord. 16653 § 2 (part), 2007)

20.04.280 Special permits for planned residential developments—Maximum dwelling units.

The maximum number of dwelling units that may be permitted shall be obtained by dividing the site area by the minimum lot area required in the underlying district per dwelling unit. The minimum lot area is used only as a factor for calculating density and is not intended to require minimum lot size standards. This number may be increased by application of the density incentives found in Chapter 20.12 of this title. (Ord. 16653 § 2 (part), 2007)

20.04.290 Special permits for planned residential developments—Public uses.

Lands reserved for parks, recreation and permanent open space may be included in the site area for the purpose of density calculations as may one-half of any area dedicated for public school purposes. Other permitted nonresidential uses may be incorporated in the plan, but may not be a part of the site area for the purpose of density calculations. (Ord. 16653 § 2 (part), 2007)

20.04.300 Special permits for planned residential developments—Commercial and industrial uses.

A. Where a planned residential development includes more than one hundred acres, a maximum five percent of the total site area may be used for those commercial uses that would serve the planned development.

B. Where a planned residential development includes more than one thousand acres, a maximum five percent of the total site area may be used for commercial purposes and a maximum of ten percent of the total area may be used for industrial purposes.

C. Where commercial or industrial uses are incorporated in the planned residential development, council approval shall include appropriate amendments to the zoning map and may require that construction of commercial and industrial uses not be started until twenty-five percent of all of the residential units are occupied. (Ord. 16653 § 2 (part), 2007)

20.04.310 Compliance with special permits.

Special permits shall be valid only when all conditions of the permit are complied with. Failure to comply with all conditions under which a special permit has been issued shall constitute an offense which shall be punishable as provided in Chapter 20.24 of this title. Failure to comply with all conditions under which a special permit has been issued shall also constitute grounds for suspension of building and occupancy permits upon written notice from the building official. (Ord. 16653 § 2 (part), 2007)

20.04.320 Special permit approvals.

A. Building and occupancy permits shall not be issued to any building or use identified in this title as requiring a special permit until after approval of such special permit by the city council.

B. Building and occupancy permits shall not be issued for any building or use identified in this title as requiring an approved detailed site development plan as required by Article III, until such approval has been granted.

C. No building or occupancy permit may be granted for the erection, rehabilitation, enlargement or demolition of any building in a designated historic area or for any building that is a designated historic landmark until prior approval has been granted by the historic landmark commission.

D. The city council, after hearing and report by the city plan commission, may approve a special permit upon find that the proposed development meets the following minimum requirements necessary to protect the public health, safety and general welfare of the community:

1. The proposed development complies, except to the extent waived, varied or modified pursuant to the provisions of this title, with all of the

standards and conditions applicable in the zoning district in which it is proposed to be located; complies with any special standard applicable to the particular type of development being proposed, or to the particular area in which the development is proposed; complies with any special approvals required in connection with such development or area;

2. The proposed development is in accordance with and in furtherance of the comprehensive plan, any special neighborhood plans or policies adopted by the city regarding the development area, or any approved concept plan;

3. The proposed development is adequately served by and will not impose an undue burden upon the public improvements and rights-of-way by which it will be served or benefited, or which exist or are planned for installation within its boundaries or their immediate vicinity. A traffic impact study may be required to determine the effects of the proposed development on the public rights-of-way;

4. Any impacts of the proposed development on adjacent property are adequately mitigated with the design, proposed construction and phasing of the site development;

5. The design of the proposed development mitigates substantial environmental problems;

6. The proposed development provides adequate landscaping and/or screening where needed to reduce visibility to adjacent uses;

7. The proposed development is compatible with adjacent structures and uses;

8. The proposed development is not materially detrimental to the enjoyment or valuation of the property adjacent to the site.

E. The applicant may request that the city plan commission waive one or more of the criteria based on its nonapplicability to the proposed development. The city plan commission, upon a recommendation of the planning official, shall make a determination on the nonapplicability of the criteria and shall render a finding based on such determination, and shall forward their recommendation to city council for final review and approval.

(Ord. 16653 § 2 (part), 2007; Ord. No. 17442, § 9, 10-26-2010; Ord. No. 19244, § 5, 10-12-2021)

Article VI. Changes and Amendments

20.04.340 City council authority.

The city council on its own motion or on request may amend, supplement or change by ordinance, the boundaries of the districts or the regulations herein established. (Ord. 16653 § 2 (part), 2007)

20.04.350 Public proposals.

Public proposals for amendment of the zoning regulations may be made by the city plan commission, board of adjustment or any other public agency or official. (Ord. 16653 § 2 (part), 2007)

20.04.360 Private requests.

Private requests for amendments to the zoning map may be made by an owner of property. A contract to purchase real estate shall not enable a person to request an amendment. (Ord. 16653 § 2 (part), 2007)

20.04.370 Application form.

A. Application forms for proposals and requests shall be provided by the planning official and, when completed, shall be filed with the executive secretary of the city plan commission. The application shall be reviewed by the planning division for completeness and shall not be processed until any missing information is supplied by the applicant and the fee has been received.

B. Reserved.

C. The fee required by this section and Section 20.04.410 of this chapter, and established by the city council in accordance with Section 20.04.800 of this chapter, shall not be required for an application submitted by a property owner for the sole purpose of designating the property with

a historic "H" overlay. (Ord. 16877 § 3, 2008: Ord. 16653 § 2 (part), 2007)
(Ord. No. 17442, § 10, 10-26-2010; Ord. No. 19244, § 6, 10-12-2021)

20.04.380 Application requirements.

Application documents shall be submitted in a digital form compatible with the city's system. Paper submittals of application documents shall be assessed the established fee for conversion of paper documents to digital format. The fee for conversion of paper documents to digital format shall be in the amount established by city council in the annual budget resolution, amendments to the budget resolution, or other appropriately adopted resolution or ordinance of the city council. The application shall at a minimum contain the following:

A. One copy of the zoning map, outlining in red the area proposed for change of zoning.

B. Where land proposed for rezoning is vacant or unused land, a generalized site plan showing the general features or concept of development.

C. Where land proposed for rezoning is occupied by a building(s), or use(s), a detailed site development plan shall be required in accordance with Section 20.04.160(B).

D. The lettering shall be so placed on the plans so as to be read from the bottom or from the right-hand side of the sheet, and the north point shall be directed away from the reader.

E. Proof of notice of proposed application to any recognized neighborhood association required to receive notice pursuant to Chapter 2.102 of this Code.

F. A traffic impact analysis may be required, at the rezoning stage of the development, if the property is being rezoned to a more intense use or to a use that has the potential to increase the traffic impact on the adjacent traffic infrastructure. A traffic impact analysis shall be required at the rezoning phase, if such increase in intensity of use meets the applicability standards as set forth in Section 19.18.010(B) of this Code. (Ord. 16906 § 1, 2008; Ord. 16653 § 2 (part), 2007)
(Ord. No. 18652, § 1, 3-21-2017; Ord. No. 18817, § 2, 7-24-2018)

20.04.390 Referral to city plan commission.

A. All proposals and requests for changes and amendments shall be referred to the city plan commission for report and recommendation. Upon receipt of a proposal or request for change and amendment, the executive secretary shall notify the property owner or the applicant of whether or not the proposal or application is complete and whether or not it conforms with the comprehensive plan.

B. Failure to complete an application in satisfactory form within three months shall result in dismissal of such application. (Ord. 16653 § 2 (part), 2007)

20.04.400 Notice of public hearing before city plan commission.

A. The planning official shall schedule a public hearing before the city plan commission not less than fifteen days and not more than forty-five days from receipt of complete proposal or application with payment of fee. Notice shall be sent by mail to owners of all property within three hundred feet of the property to be rezoned, not less than ten days nor more than thirty days in advance of the hearing. Notice shall include the time, place and purpose of such a hearing.

B. Where the change does not amend the district map and is a general change in the text of the regulations, or the comprehensive plan, notice shall be posted as required by state law.
(Ord. 16653 § 2 (part), 2007; Ord. No. 17442, § 11, 10-26-2010; Ord. No. 19244, § 7, 10-12-2021)

20.04.410 Fees.

Applications for public hearing shall be accompanied by a filing fee to defray the costs of publication, the giving of notices, and the general expenses in connection with processing of the application. (Ord. 16653 § 2 (part), 2007)

20.04.420 Withdrawal of application.

Once notices for a public hearing have been sent and/or posted, the hearing shall be held unless the applicant withdraws his application in which event no request for the same or similar change shall be accepted for one year at which time a new application including payment of new fees may be filed. No fees are to be refunded in the event of a withdrawal. (Ord. 16653 § 2 (part), 2007)

20.04.430 Recommendation by commission.

A. A report on the commission's recommendation and merits of the proposal and requested change shall be forwarded for introduction to city council within sixty days from the date of the commission's final consideration.

1. Extension. An applicant may request the city manager or designee to extend the sixty day introduction period requirement for an additional sixty days. The request must be in writing and must be submitted prior to expiration of the initial sixty day prescribed period. In the event the application is not forwarded to city council by the end of the extended prescribed period, the application shall expire and a new application and fee shall be required in order to re-submit the application to the city plan commission.

B. The commission may recommend approval, approval with modification, or disapproval.

C. The report of the commission shall include the relation of the proposed change to the city's comprehensive plan, and the effect upon the natural environment, and upon its surrounding neighborhood and the city as a whole.

D. In the event of recommendation for disapproval by the city plan commission, the procedure shall be concluded unless the applicant within fifteen days of the city plan commission recommendation appeals the recommendation to the city council. In the event of such an appeal, the executive secretary shall forward the application and appeal to the city council for introduction within thirty days of the request for appeal along with a statement giving the city plan commission's reasons for recommending disapproval.

1. Extension. At the request of the applicant, the thirty day prescribed period to forward the appeal to city council for introduction may be extended by the city manager or designee for an additional thirty days. The request shall be in writing and shall be submitted prior to expiration of the initial thirty-day prescribed period. In the event the appeal is not forwarded to city council for introduction by the end of the extended prescribed period, the procedure shall be concluded. (Ord. 16653 § 2 (part), 2007; Ord. No. 18817, § 3, 7-24-2018; Ord. No. 19244, § 8, 10-12-2021)

20.04.440 Additional information from applicant.

Where the commission recommends a modification of the request, transmission of the report of the commission to the city council shall not take place until accompanied by a letter from the applicant indicating his acceptance of, or refusal to accept, the modifications recommended by the commission. (Ord. 16653 § 2 (part), 2007)

20.04.450 Council action.

A. The city council after public hearing notice as required by state law may enact the change or amendment with or without modification and may follow the recommendations of the city plan commission by majority vote.

B. A majority vote of all members of the city council is required to overrule a recommendation of the city plan commission that an application for amendment of the ordinance be denied. Any decisions by the city council shall set forth the reasons for their action. (Ord. 16653 § 2 (part), 2007)

20.04.460 Protest procedure.

In case of a protest, the procedure outlined in and the law set out in Section 211.006(d) of the Texas Local Government Code, 2006 Edition and

as amended, shall be applicable. (Ord. 16653 § 2 (part), 2007)

20.04.470 Resubmission of application.

No application for change of zoning for a given property may be resubmitted within twelve months from date of action by the commission or council, whichever is later, unless the commission finds that a substantial change in conditions has occurred. (Ord. 16653 § 2 (part), 2007)

20.04.480 Dismissal for want of prosecution.

A. If an applicant fails to appear or be represented at the time his case is scheduled for hearing before the commission or the council, as the case may, in the discretion of the body holding the hearing, be postponed to a definite date, or may be heard without the applicant's presence or representation. If the applicant fails to appear or be represented at the postponed hearing his case may be automatically dismissed for want of prosecution. Before the date of the postponed hearing the applicant may ask for an extension of time, and the body before which the postponed hearing is to be held, may, if convinced that the delay requested is unavoidable and not due to the applicant's fault, extend the date of the postponed hearing by not more than sixty days.

B. After a case is dismissed for want of prosecution the applicant cannot again apply for rezoning of the same property or any part thereof without filing a new application. All the procedures (including fees, notices and hearings) will apply as in the case of an original application; and the new application cannot be filed in less than twelve months from the date of dismissal, unless the commission finds that a substantial change in conditions has occurred since that date. (Ord. 16653 § 2 (part), 2007)

Article VII. Public Hearings

20.04.500 Generally.

All public hearings required by this chapter shall be conducted in accordance with the requirements of this article. (Ord. 16653 § 2 (part), 2007)

20.04.510 Scheduling.

All applications requiring a public hearing before the city plan commission or zoning board of adjustment shall be scheduled on a first-come, first-served basis, unless otherwise authorized by the chairman of the commission or majority vote of the board, as applicable. (Ord. 16653 § 2 (part), 2007)

20.04.520 Notice.

Where a public hearing is required by State law, notice shall be given in the manner specified below:

A. Content of Notice. Required mailed notices and notices by publication shall include the date, time, and place of the hearing, a description of the subject matter of the hearing and the body holding the hearing. The mailed notices shall be in the form of a standard letter or a postcard and shall include the information in both English and Spanish. The postcard shall be a minimum size of 5.5 inches by 8.5 inches. Required on-site posting of notice shall be as specified in subsection B.2.d. of this section.

B. Provision of Notice. Notice will be given in the following manner and as per Chapter 2.102 of this Code, as applicable:

1. In all cases, by mail to the applicant, or owner of the property that is subject of the application, if different;

2. On applications for special permits, amendments to zoning conditions and amendments to the district map, additional notice shall be given as follows:

a. Notice of hearing before the city plan commission shall be given to all owners of real prop-

erty by mail, as indicated by the most recently approved municipal tax roll within three hundred feet of the lot line of the subject property.

i. In addition to notice given to the owners of the real property within three hundred feet of the lot line of the subject property, if a multifamily dwelling is located on any parcel of real property within the three hundred feet of the lot line of the subject property, notice shall be provided to the property manager of the multifamily dwelling.

b. When applications for special permits, amendments to zoning conditions, and amendments to the district map involve a personal wireless service facility (PWSF) or public utility facility, notice of hearing before the city plan commission shall be given by mail to all owners of real property, as indicated by the most recently approved municipal tax roll within five hundred feet of the lot line of the subject property.

i. In addition to notice given to the owners of the real property within five hundred feet of the lot line of the subject property, if a multifamily dwelling unit is located on any parcel of real property within the five hundred feet of the lot line of the subject property, notice shall be provided to the property manager of the multifamily dwelling.

ii. The applicant for a special permit, an amendment to zoning conditions, or an amendment to the district map involving a public utility facility is responsible for providing the required notice and for all costs of providing the required notice. The applicant shall provide written documentation to the city that the required notices have been provided unless the applicant has requested that the city provide the notices of the hearing and reimburses the city for all its expenses upon receipt of a city invoice.

c. Notice of hearing before the city council shall be given as follows:

i. On first reading—by publication in a newspaper of general circulation in the city not less than fifteen days prior to the day of the public hearing and posted in accordance with provisions of Chapter 551 of the Texas Government Code (the Texas Open Meetings Act).

ii. The published notice shall contain:

1. The name of the property owner(s) requesting the special permits, amendments to zoning conditions, or amendments to the district map;

2. The legal description of the property or the physical address assigned to the property; if no address has been assigned, the notice shall contain the name and block number of the street(s), if any, abutting the property for which the special permit, amendment to zoning conditions, or amendment to the district map has been requested, and

3. An electronic link on the city's website containing the city council agendas at which the application will be introduced and the identified public hearing date at which the application will be considered.

d. On-site posting of notice by an applicant is required for parcels of one acre or more in size. The on-site posting of notice shall comply with the following:

i. Location. The notice should be placed on the proposed site so that it is clearly visible and legible from each right-of-way abutting the property.

1. The sign(s) shall be placed perpendicular to the street frontage and be double sided.

2. One sign per right-of-way shall be required. However, if a property identified in an application is separated by a right-of-way, on-site postings shall be required on each side of the property divided by the right-of-way.

3. Required signage shall be made of durable material. Signage shall be properly anchored to the ground with at least two posts, a building, a fence, or a wall. The top of the text portion of such signage shall be a minimum of five feet above ground.

ii. Duration of Posting. On-site posting shall be continuous until final city council action on the application. Posting shall commence at least fifteen days prior to the date of the first public hearing at the city plan commission. The applicant shall provide a digital or printed photograph to the city showing that all required signage has been properly placed on the property. Failure to

provide such photograph proving compliance with signage requirements shall result in postponement of the application until such time as a photograph is received. Any sign required by this provision shall be removed no later than ten days after final action on the application. Posting is continuous so long as lost, stolen, or vandalized signage is replaced within five days following the mailing of a letter to the applicant by the city notifying the applicant that the sign has been lost, stolen, or vandalized.

iii. Size and Content. A sign area with a minimum width of eight feet and a minimum height of four feet shall be required. The sign shall provide a caption stating "Location of Proposed Rezoning (or other type of application). Public Hearings are Scheduled. Please Call (telephone number provided by the planning official." The caption shall also be provided in Spanish. The caption shall be a minimum of four inch bolded block in black lettering and appear on a light green background.

iv. Zoning Validity. Any otherwise properly enacted zoning classification shall not be invalidated by failure to comply with these on-site posting requirements.

3. On applications for amendments to the text of this chapter, notice of hearing before the city plan commission shall be posted in accordance with provisions of Chapter 551 of the Texas Government Code (the Texas Open Meetings Act).

4. Notice of hearing before the city council shall be as follows:

On first reading—by publication in a newspaper of general circulation in the city not less than fifteen days prior to the day of the public hearing and posted in accordance with provisions of Chapter 551 of the Texas Government Code (the Texas Open Meetings Act);

5. On appeals or applications to the zoning board of adjustment, notice of time, place and purpose of hearing before the board shall be given by letter or postcard not less than ten days prior to the date of hearing to the owners of real property, as indicated by the most recently approved municipal tax roll within two hundred feet of the area to be considered. (Ord. 16653 § 2 (part), 2007) (Ord. No. 17442, § 12, 10-26-2010; Ord. No. 18105, § 1, 12-17-2013; Ord. No. 19016, § 1, 1-7-2020)

20.04.530 Conduct.

Conduct of the hearing shall be in accordance with this Code and the bylaws and regulations of the appropriate hearing body. (Ord. 16653 § 2 (part), 2007)

Article VIII. Private Streets, Common Open Space and Other Similar Properties

20.04.550 Maintenance.

A. Where private streets, common open space or other similar types of property are included as part of a planned development, the applicant shall submit documentation, subject to plan commission approval, for assuring continued retention and perpetual maintenance of common open space and perpetual maintenance and repair of private streets by restrictive covenants, deed restrictions or other methods.

B. The documentation shall be submitted with the appropriate subdivision plat to the executive secretary of the city plan commission, who shall coordinate the review with the appropriate city agencies and other agencies, advise the applicant of findings, and submit, with the overall application to the city plan commission for their review and approval.

C. The approved documents, embodying restrictive covenants, deed restrictions, or other methods of giving such assurance shall be filed for record as a part of the approved subdivision plat or approved development permit.

D. All private streets and shall meet the standards and requirements set forth in Section 19.15.150 of this Code. (Ord. 16907 § 1, 2008; Ord. 16653 § 2 (part), 2007)

20.04.560 Private streets.

Where authorized by the commission in approving a subdivision plat, streets may be permitted to remain in private ownership provided they

meet standards contained in the subdivision ordinance for design and construction of streets, taking into consideration the needs of the project and adjacent uses, and are approved by the director of the city development department or other designee of the city manager. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17442, § 13, 10-26-2010; Ord. No. 17801, § 2, 6-5-2012, eff. 6-11-2012)

20.04.570 Right-of-way and pavement widths.

The right-of-way and pavement widths for internal ways, streets and alleys serving the development shall be determined from standards contained in the subdivision ordinance and in conformity with the estimated needs of the full development proposed and the traffic to be generated thereby, and shall be adequate and sufficient in size, location and design to accommodate the maximum traffic, parking and loading needs and the access of firefighting equipment and police vehicles. (Ord. 16653 § 2 (part), 2007)

Article IX. Permits and Licenses

20.04.600 Building permits.

A. All applications for a building permit shall require conformity with all relevant provisions of this Code.

B. The city engineer or the building official may require construction or reconstruction of sidewalks, curbs and gutters or street surfacing prior to issuance of a building permit or as a part of the issuance of the permit.

C. No building permit lawfully issued prior to the effective date of the ordinance codified herein, or of any amendment hereto, and which permit is in full force and effect at said date, shall be invalidated by the passage of the ordinance codified herein, or any such amendment, but shall remain a valid permit, subject only to its own terms and provisions and ordinances, rules and regulations pertaining thereto, and in effect at the time of the issuance of such permit; provided, that all such permits shall expire on the effective date of the ordinance codified herein, unless actual construction shall have heretofore begun and continued pursuant to the terms of the permit.

D. Whenever application for a building permit or certificate of occupancy is made for a use other than those specifically named as permitted uses, but being of a similar type of operation as those named, the zoning administrator shall have the authority, pursuant to Section 20.04.555, to make a determination as to whether or not the proposed use shall be permitted in the district. (Ord. 16653 § 2 (part), 2007)

20.04.610 Building permit application.

A. All applications for building permits shall comply with provisions of Title 18 of this Code.

B. The drawings shall contain suitable notations indicating the proposed use of all land and buildings, including the number of families or dwelling units or rental units proposed.

C. A record of the original copy of such applications and plans shall be kept as provided in Title 18 of this Code. In a particular case, the building official may waive the requirement for plans when such plan is clearly unnecessary to a decision or the record on the case. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17235, § 2, 11-10-2009; Ord. No. 17442, § 14, 10-26-2010)

20.04.620 Manufactured home or trailer placement.

Permits for placement of manufactured homes or trailers shall comply with Section 18.02.103.4 of the Building Code. (Ord. 16653 § 2 (part), 2007)

20.04.630 Historic landmark alterations—Certificate of appropriateness required.

No alterations or changes shall be made to any designated historic landmark without the owner or owners first having obtained a certificate of appropriateness; nor shall any designated historic landmark be removed or demolished without a

certificate of removal or demolition. (Ord. 16653 § 2 (part), 2007)

20.04.640 Temporary permits.

A temporary permit shall be required for temporary signs, construction operating facilities and machinery, for real estate offices that are accessory to a land development project, for accessory and nonaccessory tents and temporary structures, amusement facilities and for any other temporary use. (Ord. 16653 § 2 (part), 2007)

20.04.650 Storage of explosives.

A temporary special permit shall be required for storage of explosives. (Ord. 16653 § 2 (part), 2007)

20.04.660 Signs in public rights-of-way.

Except as permitted in this title, a special privilege license shall be required for all signs located in public rights-of-way. (Ord. 16653 § 2 (part), 2007)

Article X. Certificate of Occupancy and Compliance

20.04.700 Generally.

A. No vacant land shall be occupied or used, other than as authorized by a temporary permit, except for agricultural uses associated with the conduct of a farm, until a certificate of occupancy shall have been issued by the building official.

B. Certificates of occupancy and compliance shall be issued pursuant to provisions of Title 18 of this Code. The building official shall keep a record of all certificates.

C. A certificate of occupancy may be issued for a part of a proposed building or development or section thereof completed in accord with the terms of this Code even though the entire building or development or section thereof has not been completed.

D. A certificate of occupancy shall be required for all nonconforming uses or structures in accordance with provisions in Section 20.22.070 of this title.

1. In cases where the city officially notifies an owner or owners that a nonconforming condition exists, an application shall be required to be filed within twelve months of the date on which the official notice was received. Notification of a nonconforming use or structure shall be made by the zoning administrator or a duly appointed representative. Failure to apply for a certificate of occupancy within such twelve-month period shall terminate the right to operate such nonconforming use or structure. The requirement for submittal of affidavits and plans as previously described shall also apply.

2. Upon issuance of a certificate of occupancy for a nonconforming use or structure, the use or structure shall be deemed as legal nonconforming.

E. The building official may issue a temporary and contingent certificate of occupancy and compliance for a period not to exceed six months where, because of the unusual nature of the use, a trial period of operation is in his opinion the most appropriate way to determine actual compliance with the terms of the ordinance codified herein. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17235, § 2, 11-10-2009; Ord. No. 17442, § 15, 10-26-2010)

Article XI. Agreements and Bonds

20.04.750 Authority to require.

When provisions of the ordinance codified herein require an agreement to construct certain improvements in order to obtain a building permit, the city council may require a bond in a form acceptable to the city attorney and in an amount approved by the building official enabling the city to construct the improvement or complete the construction in the event the project or part of the project is abandoned by an applicant. (Ord. 16653 § 2 (part), 2007)

Article XII. Fees

20.04.800 Adoption and display.

A. Fees required under this title shall be as adopted from time to time by the city council. Such fees shall be to defray the costs of review by appropriate city departments of such requests and applications, and for other administration and processing costs.

B. Copies of all fees adopted by city council under this title shall be displayed at the offices of the zoning administrator, the executive secretary of the zoning board of adjustment, and the executive secretary of the city plan commission. (Ord. 16653 § 2 (part), 2007)

20.04.810 Zoning verification requests.

A. The fees for processing of zoning verification requests shall be as adopted by city council.

B. The applicant for a zoning verification shall submit a written request to the zoning administrator giving an accurate legal description of the property, an address of the property, if known, and the proposed use of the property. The applicant shall pay the required fee to the city cashier at the time of submission of such request. Such fees shall be to defray the costs of administrating and processing such requests. (Ord. 16653 § 2 (part), 2007)

20.04.820 Home occupation license.

A. The city council shall adopt a fee for processing applications for home occupation licenses and annual renewals.

B. The applicant for a home occupation license shall, at the time of submission of the application, pay the required fee to the city cashier. A penalty for late submittal of the home occupation license renewal shall result in a late fee of twenty percent of the renewal fee to be paid in addition to the renewal fee as provided in this section. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17235, § 2, 11-10-2009; Ord. No. 17442, § 16, 10-26-2010)

20.04.830 Request for increased height of screening wall.

A. Pursuant to Chapter 20.16, the city council shall adopt a processing fee for requests to erect screening walls above six feet in height, and no greater than eight feet in height, on private property abutting any city property, including public accessways and drainage channels.

B. The applicant shall submit to the zoning administrator a written request for approval of such a screening wall. The request shall specify the address and legal description of the affected property, and shall be accompanied with three copies of an accurately drawn site plan showing the location of the proposed wall. The fee shall be paid to the city cashier through the office of the zoning administrator when such request is submitted. (Ord. 16653 § 2 (part), 2007)

20.04.840 Request to waive or amend mandatory wall requirement.

A. Pursuant to Chapter 20.16, the city council shall adopt a processing fee for requests to waive or amend the requirement for a mandatory six-foot high masonry wall when topographic conditions or common recreational areas negate the visual screening effect of the wall.

B. The applicant shall submit to the zoning administrator a written request that the requirement be waived or amended stating the reasons for such request. The request shall specify the address and legal description of the affected property, and shall be accompanied with three copies of an accurately drawn site plan showing the location of the request. The fee shall be paid to the city cashier through the office of the zoning administrator when such request is submitted. (Ord. 16653 § 2 (part), 2007)

20.04.850 Classification of use.

A. Prior to applying for a building permit or certificate of occupancy, the applicant may request a classification of use from the zoning administrator. The request shall be submitted in writing and shall accurately describe the intended use

including, but not limited to, identifying all structures, facilities and equipment needed to carry out the activities of the intended use. The zoning administrator may request additional information from the applicant to appropriately classify the use. (See Section 20.08.040 for classification of new or unlisted uses.)

B. The request for classification of a use shall be accompanied by a processing fee as adopted by city council and shall be paid to the city cashier at the time of submission of such request. Such fees shall be to defray the costs of researching, processing and maintaining records of such requests. (Ord. 16653 § 2 (part), 2007)

Article XIII. Enforcement

20.04.900 Administrative and enforcement activities.

A. It shall be the duty of the planning official and such other employees as are appointed by the city manager to interpret the provisions of this title.

B. The director of the planning and inspections department, the building official, employees of the code enforcement division, and other enforcing officers as defined or designated by the city manager, constitute authorized city officials and are authorized to enforce the provisions of this title, issue citations for violations of this title, and take all other actions authorized by this Code relating to the matters regulated under this title.

C. The employees designated in this section are authorized to make inspections of any property necessary to enforce the provisions of this title, as further provided in this Code.

(Ord. 16653 § 2 (part), 2007; Ord. No. 17442, § 17, 10-26-2010; Ord. No. 17801, § 3, 6-5-2012, eff. 6-11-2012; Ord. No. 19244, § 9, 10-12-2021)

Chapter 20.06

ZONING DISTRICTS AND MAP

Sections:

20.06.010 Districts established and enumerated.

20.06.020 Purpose of districts.

20.06.030 Official zoning map.

20.06.040 District boundaries.

20.06.050 Amendment to official zoning map.

20.06.060 Omitted land.

20.06.070 Annexed properties.

20.06.075 Annexation procedures.

20.06.080 Compliance with district standards and use regulations.

20.06.010 Districts established and enumerated.

In order to classify, regulate and restrict the location of businesses, trades, industries, residences and other land uses in accordance with the objectives of "The Plan for El Paso"; to regulate and restrict the location of buildings erected, reconstructed, altered or enlarged for specified uses; to regulate and limit the height and bulk of buildings hereafter erected, reconstructed, altered or enlarged; to regulate and limit the intensity of the use of lot areas; to protect and preserve places and areas of historical and cultural importance and significance; to regulate and determine the area of yards and other open spaces; and to regulate and limit the density of population, all property within the Corporate Limits is divided into zoning districts that are grouped in classes for convenience of reference as follows:

A. Residential Districts.

Light Density Residential Districts	
"R-1, R-2, R-2A, R-3 and R-3A"	Residential Districts
"R-4, R-5"	Residential Districts
"RMH"	Residential Mobile Home District
Medium Density Residential Districts	
"A-1"	Apartment District
"A-2"	Apartment District
"A-3"	Apartment District
"A-O"	Apartment/Office District
High Density Residential Districts	
"A-4"	Planned Apartment District
"A-3/O"	Apartment/Office High Density District
"A-M"	Apartment/Mobile Home Park District

B. Commercial Districts.

Neighborhood Commercial Districts	
"C-OP"	Office Park District
"C-1"	Commercial District
Community Commercial Districts	
"C-2"	Commercial District
"C-3"	Commercial District
Regional Commercial Districts	
"C-4"	Commercial District
"C-5"	Central Business District

C. Industrial and Manufacturing Districts.

Light Industrial Districts	
"M-1"	Light Manufacturing District
Heavy Industrial Districts	
"Q"	Quarry District
"M-2"	Heavy Manufacturing District
"M-3"	Unrestricted Manufacturing District

D. Special Purpose Districts.

"R-F"	Ranch and Farm District
"PMD"	Planned Mountain Development District
"S-D"	Special Development District
"U-P"	Union Plaza District
"P-R I"	Planned Residential District I
"P-R II"	Planned Residential District II
"P-C"	Planned Commercial District
"P-I"	Planned Industrial District
"SRR"	Special Residential Revitalization District
"R-MU"	Residential Mixed Use District
"G-MU"	General Mixed Use District
"I-MU"	Industrial Mixed Use District
"NOS"	Natural Open Space District
"URD"	Urban Reserve District

(Ord. 16653 § 2 (part), 2007)
(Ord. No. 17306, § 2, 4-6-2010; Ord. No. 17547, § 1, 5-3-2011)

20.06.020 Purpose of districts.

A. Residential Districts.

1. Light Residential Districts. The purpose of these districts is to promote and preserve residential development within the city to create basic neighborhood units. It is intended that the district regulations maintain a low density of dwelling units supporting a suburban-urban interface that permits developments utilizing varying lot configurations. The regulations of the districts will permit primarily single-family and two-family residential areas, and recreational and institutional uses incidental to and serving the neighborhood.

2. Medium Residential Districts. The purpose of these districts is to promote and preserve residential development within the city associated with a landscape more urban in appearance and permitting a mixture of housing types. It is intended that the district regulations allow for medium densities of dwelling units supported by higher intensity land uses located at the periphery of single-family neighborhoods providing that the overall character and architectural integrity of the neighborhood is preserved. The regulations of the districts will permit building types designed for transition from areas of low density residential neighborhoods to other residential areas, and certain nonresidential uses and support facilities.

3. High Residential Districts. The purpose of these districts is to promote and preserve a diversity of residential dwelling types at the highest densities within the city and to provide for the integration of compatible business and professional office uses to complement the areas. It is intended that the district regulations allow for concentrations of population through the use of multi-story facilities. The regulations of the districts will permit site diversification for high-density residential development in which adequate public facilities are available for present and future needs.

B. Commercial Districts.

1. Neighborhood Commercial Districts. The purpose of these districts is to serve the needs of surrounding residential neighborhoods by providing compatible neighborhood convenience goods and services that serve day-to-day needs. The regulations of the districts will permit location of business and professional offices and retail category uses within adjacent residential areas of medium and high densities.

2. Community Commercial Districts. The purpose of these districts is to accommodate establishments providing goods or rendering services which are used in support of the community's

trade and service establishments and serving multi-neighborhoods within a planning area of the city. The regulations of the districts will permit intensities designed to be compatible with each other and to provide for a wide range of types of commercial activity, including light automobile related uses.

3. Regional Commercial Districts. The purpose of these districts is to provide for locations for the most intensive commercial uses intended to serve the entire city. It is intended that the district regulations permit heavy commercial uses characterized by automotive and light warehousing. The regulations of the districts are intended to provide a transition from general business areas to industrial and manufacturing uses, and to accommodate major locations of commerce, service and employment activities. Within the central business district, more intensive commercial uses are allowed, the predominant of which are retail trade and service uses, providing less restrictive height and area regulations.

C. Industrial Districts.

1. Light Industrial Districts. The purpose of these districts is to provide locations for light-intensity industries involving manufacturing, assembling, distribution and warehousing. It is intended that the districts will serve the entire city and will permit supporting commercial uses. The regulations of the districts are intended to preserve a light industrial nature particularly with regard to noise, smoke, odors, dust, vibrations and other noxious conditions.

2. Heavy Industrial Districts. The purpose of these districts is to provide for the most intensive of industrial uses which may be characteristic of nuisance or hazardous conditions. It is intended that the districts will serve the entire city. The regulations of the districts will require reasonable standards for the protection and preservation of the compatibility of such uses and adjacent areas.

D. Special Purpose Districts.

1. "R-F" Ranch-Farm District. The purpose of this district is to provide for primarily fallow or agricultural areas within the city and to protect and conserve these areas within and adjacent to urban development. It is intended that this district afford areas where semi-rural (very-low density) residential and agricultural uses can be maintained without impairment from higher density residential, commercial or industrial development. The regulations of this district are designed to protect, stabilize and enhance the development of agricultural resources and to prohibit those activities that would adversely affect the urban-rural characteristics of this district.

2. "PMD" Planned Mountain Development District. The purpose of this district is to preserve and protect the significant natural features of the mountain development and hillside area within the city. It is intended that the regulations of the district provide design alternatives which help to minimize disturbances to the natural character of the area and which enhance the open space and aesthetic qualities of the land. The regulations of this district are designed to protect, stabilize and enhance the development of these environmentally sensitive lands and to preserve them from the encroachment of more intensive forms of development.

3. "S-D" Special Development District. The purpose of this district is to provide an opportunity for mixed-use projects, integrated in design, in certain older residential areas where there is a desire to permit a variety of nonresidential uses while maintaining the established residential appearance and landscaping of the area. The regulations of this district are designed to ensure compatibility with existing uses in the district; to permit the production, exhibit or sale of goods and the providing of services to the public in such older residential areas; to protect the traffic capacity of streets serving such older residential areas; to encourage flexibility by prescribing general performance standards for such older residential areas; and to protect the environment of adjacent areas. For the purpose of this district, older areas of the city shall be deemed those areas where development has existed for at least twenty-five years.

4. "U-P" Union Plaza District. The purposes of the Union Plaza District are: (1) to create a unique mixed-use environment with the provision of standards and guidelines designed to encourage the preservation of existing building architecture; (2) to ensure that reconstruction of existing buildings or new construction projects is consistent with the architectural and design guidelines adopted for the Union Plaza District; and (3) to encourage a variety of commercial and residential uses that coexist in a mixed-use area.

5. "P-R I" Planned Residential District I. The purpose of this district is to encourage planned developments as a means of creating a superior living environment through unified planning and building operations at lower residential densities. The regulations of the district are designed to encourage variety in housing needed to meet changing housing demands and to provide adequate community facilities well-located with respect to needs; to protect the natural beauty of the landscape; to encourage preservation and more efficient use of open space; and to offer an opportunity for design flexibility and encourage innovations which may result in improved relationships between uses of different types and between land uses and transportation facilities.

6. "P-R II" Planned Residential District II. The purpose of this district is to encourage planned developments as a means of creating a superior living environment through unified planning and building operations at higher residential densities. The regulations of the district are designed to encourage variety in housing needed to meet changing housing demands and to provide adequate community facilities well-located with respect to needs; to protect the natural beauty of the landscape; to encourage preservation and more efficient use of open space; to offer an opportunity for design flexibility; and encourage innovations which may result in improved relationships between uses of different types and between land uses and transportation facilities.

7. "P-C" Planned Commercial District. The purpose of this district is to provide for attractive and efficient retail shopping and personal service facilities of integrated design in appropriate locations to serve residential neighborhoods. It is intended that the district shall be laid out and developed as a unit according to an approved plan so that the purpose of the district may be accomplished. The district is adaptable to shopping centers of various sizes, as well as development of general business properties where the use of shared parking and access, together with careful site planning, will produce a stronger commercial area.

8. "P-I" Planned Industrial District. The purpose of this district is to establish an industrial environment for certain types of manufacturing, business or industrial uses which are compatible with any adjacent land use by performance, appearance, and general operating characteristics. The regulations of the district are designed so that all operations and activities, specifically including but not limited to, the storage of materials of all kinds are conducted within a building or appropriately screened.

9. "SRR" Special Residential Revitalization District. The special residential revitalization district (SRR) is established in recognition that developments containing both residential and commercial uses can create an appealing and vital urban environment when carefully designed. Developments approved for this district shall be designed to eliminate potential use conflicts through creative design methods. The SRR district allows for mixing residential environments with workplaces and services. Development in the SRR district must accommodate transportation systems, surrounding environments and pedestrian movements.

10. "R-MU" Mixed Use Residential District. The purpose of this district is to accommodate, encourage and promote innovatively designed developments involving neighborhood-serving residential and commercial land uses, which together form an attractive and harmonious unit of the city. The regulations of this district are intended to allow for developments that are intended by their size and nature of operation to provide service to a

neighborhood. It is intended that the district regulations permit uses that are compatible with the residential areas that the uses serve, and allow flexibility and encourage more creative, efficient and aesthetically desirable design and placement of land uses.

11. "G-MU" General Mixed Use District. The purpose of this district is to accommodate, encourage and promote innovatively designed developments involving the combining and mixing of uses allowed in various zoning districts with appropriate regulations, which together form an attractive and harmonious unit of the city. The regulations of this district are intended to allow for large-scale developments that are able to function as individual neighborhoods or an integrated collection (two or more) of individual neighborhoods supported by civic, commercial and recreational uses; as small-scale developments requiring flexibility because of unique design characteristics; or as transitional areas between dissimilar land uses. It is intended that the district regulations permit flexibility and encourage more creative, efficient and aesthetically desirable design and placement of land uses.

12. "I-MU" Mixed Use Industrial District. The purpose of this district is to accommodate, encourage and promote innovatively designed developments involving diverse commercial and industrial land uses, which together form an attractive and harmonious unit of the city. The regulations of this district are intended to allow for developments with good access and high visibility that are designed to create compatibility between diverse uses and adjacent zoning districts. It is intended that the district regulations permit uses serving the entire community, and allow flexibility and encourage more creative, efficient and aesthetically desirable design and placement of land uses.

13. "NOS" Natural Open Space District.

A. The purpose of this district is to preserve and protect natural resources and features including, but not limited to the mountain, hillside, arroyo, bosque and desert flatland areas within the city and to promote the conservation and restoration of these areas within and adjacent to urban and suburban development.

B. The regulations of this district are designed to protect ecologically sensitive lands and to prohibit those activities that would adversely affect the environmental characteristics of the district, while still permitting passive recreational use of the land. This district is also intended to preserve land that, if disturbed, may be susceptible to flooding and soil erosion due to steep slopes and runoff.

C. Property located within this district shall remain undeveloped, except as allowed in accordance with this title.

14. "URD" Urban Reserve District.

A. Urban Reserve District means an area that has development value with open space opportunities. The land may not be available for development either due to a lack of necessary infrastructure to support development or because the land is owned by the city.

B. Land may be zoned URD as a means of preserving the land for sustainable, transit served, form based code development and redevelopment when such land becomes necessary to serve growth in the region. Portions of URD zoned land may have intrinsic value as open space and may contain such features as scenic corridors, view sheds, arroyos, steep slopes, or protected habitat that should remain in its natural state once development occurs. (Ord. 16915 § 3, 2008; Ord. 16653 § 2 (part), 2007)

(Ord. No. 17306, § 3, 4-6-2010; Ord. No. 17490, § 3, 1-25-2011; Ord. No. 17547, § 2, 5-3-2011; Ord. No. 18531, § 3, 6-28-2016)

20.06.030 Official zoning map.

A. The boundaries of the zoning districts herein established are shown on a set of maps known and designated as the "Official Zoning Map Series, City of El Paso, Texas." These maps shall be kept and maintained on a geographical information system ("GIS") or other digital cartography system by the planning division. It shall

be the duty of the planning official to keep the official zoning map series up to date, clearly indicating all changes as soon as practicable after said changes occur. These maps shall be available to the public for inspection. Copies of superseded prints of the official zoning map series shall be kept for historical reference.

B. The boundaries of the districts are as shown on the original "Official Zoning Map Series, City of El Paso, Texas," dated June 5, 2007, and which are adopted and made a part of this chapter by reference as if the districts, notations and information shown thereon were fully contained and described within this title; and any amendments made thereto after the effective date of these regulations. Copies of any ordinances, plans or other documents effecting amendments to the official zoning map shall also be maintained by the planning division and shall be available to the public for inspection. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17442, § 18, 10-26-2010)

20.06.040 District boundaries.

Where uncertainty exists with respect to the boundaries of the various zoning districts as shown on the official zoning map series, the following rules shall apply:

A. A letter and/or number combination shown on the official zoning map series shall indicate that the regulations pertaining to the zoning district of that letter and/or number combination extend throughout the whole area within those zoning district boundary lines, except as otherwise provided by this section.

B. Zoning district boundaries approximately following (adjacent to or within) an alley, canal, lateral, drainage right-of-way, railroad right-of-way, railroad easement or street right-of-way, shall be construed to follow the centerline of the alley, canal, lateral, drainage right-of-way, railroad right-of-way, railroad easement or street right-of-way, and shall be so designated on the official zoning map series.

C. Zoning district boundaries approximately following (adjacent to) a platted lot line, tract line, survey line, or other jurisdictional boundary line, shall be construed to follow the platted lot line, tract line, survey line, or other jurisdictional boundary line, and shall be so designated on the official zoning map series.

D. Where the actual location of an alley, canal, lateral, drainage right-of-way, railroad right-of-way, railroad easement, street right-of-way, platted lot line, tract line, survey line, or other jurisdictional boundary line varies slightly from its location as shown on the official zoning map series, the actual location of the alley, canal, lateral, drainage right-of-way, railroad right-of-way, railroad easement, street right-of-way, platted lot line, tract line, survey line, or other jurisdictional boundary line shall control.

E. Zoning district boundaries dividing a platted lot or tract shall be construed as being located as shown on the official zoning map series, and distances shall be determined by the scale of the map.

F. Where a property has been or may hereafter be divided into platted blocks and lots, the zoning district boundaries approximately following (adjacent to) a platted lot line shall be construed to follow the platted lot line and shall be so designated on the official zoning map series. (Ord. 16653 § 2 (part), 2007)

20.06.050 Amendment to official zoning map.

Amendments to the official zoning map series shall be accomplished using the procedures that apply to map amendments in this title, as set forth in Chapter 20.04 (Administrative Provisions). (Ord. 16653 § 2 (part), 2007)

20.06.060 Omitted land.

If, because of error or omission in the official zoning map series, any property in the corporate limits is not shown as being in a zoning district, or if for any other reason the zoning cannot be properly determined on any property in the corporate limits by the zoning administrator, such property shall be classified as R-F (Ranch and Farm) zoning district until changed by amendment pursuant

to Chapter 20.04 (Administrative Provisions) of this title. (Ord. 16653 § 2 (part), 2007)

20.06.070 Annexed properties.

A. Any property hereafter annexed to the corporate limits shall be zoned in accordance with state law and this title. The city council and city plan commission may jointly consider, recommend and act, designating the zoning classification for the proposed annexed parcels proposal, at the same time of the public hearings required for annexation; provided, that all procedures required for amendments pursuant to Chapter 20.04 (Administrative Provisions) of this title and state law are complied with. If the property is annexed into the corporate limits without city council action designating a zoning classification for the property, the property shall be automatically zoned as R-F (Ranch and Farm) zoning district, and the zoning map revised accordingly, until changed by amendment pursuant to Chapter 20.04 (Administrative Provisions) of this title.

B. The establishment of any nonconforming situations for any development or use of land existing on any parcel on or before initiation of annexation proceedings by the city shall be subject to the requirements of Chapter 20.22 (Nonconforming Situations) of this title. (Ord. 16653 § 2 (part), 2007)

20.06.075 Annexation procedures.

A. Annexation of property shall follow the procedures stated in Chapter 43 of the Local Government Code.

1. Application. The owner(s) of a tract of land, or the owner's agent if authorized in writing, who desires that the tract be annexed into the corporate limits of the city, shall submit an annexation application, using the application form prescribed by the planning and inspections department to the planning and inspections department. However, if the proposed annexation is a result of an annexation petition granted by city council, no application shall be required, but the petitioners shall submit all other information and documentation required in this subsection.

a. The applicant shall also submit along with the application, the following:

(1) Legal description of the property.

(2) A survey and metes and bounds description of the property, sealed by a registered public surveyor licensed in the State of Texas.

(3) A digital copy of a general development plan drawn at a scale of at least 1″ = 50′ showing:

(a) The boundaries of the property.

(b) Location of existing buildings and structures.

(c) General arrangement of existing and proposed land uses, including any zoning proposed, and including but not limited to, parks, schools, public facilities and civic places sites; open space, trails, streets, bikeways, major drainage ways and transit corridors.

(d) The proposed density expressed in units per acre and population by land use projected for the next ten years.

(e) Layout and relationship of the proposed development to surrounding land uses, including zoning.

(f) Other submittal requirements as specified in state law and municipal ordinances or regulations.

(4) A certification from a title company authorized to do business in the State of Texas that the applicant is the owner of the property.

(5) Application fee as adopted by city council. Annexations as a result of a petition shall also be required to file a processing fee.

b. The planning and inspections department shall review the application and determine whether the application is complete. If the application is not complete, the application will be returned to the applicant with a statement of what information is missing.

2. Annexation policy. The completed application shall be reviewed to determine whether the proposed annexation complies with the requirements of the City's annexation policy. If the pro-

posed annexation complies with the annexation policy, then the application shall be processed in accordance with the provisions of Chapter 43 of the Local Government Code. If the proposed annexation does not comply the with annexation policy, then the applicant shall be advised of the reasons why and the application process shall end. An applicant may appeal to the city council a determination that an application does not comply with the annexation policy. If an applicant wishes to appeal a determination that the application does not meet the requirements of the annexation policy, then the applicant shall submit to the director of the planning and inspections department a notice of appeal. Upon receipt of notice of appeal and as soon as possible under the circumstances, the director of the planning and inspections department shall place the appeal on the city council agenda. City council shall review the proposed annexation to determine whether it is in compliance with the policy, or if there are extraordinary circumstances which merit that the property be annexed. If city council determines that the property should be annexed, then the director for the planning and inspections department shall continue with processing the application in accordance to state law.

3. Service agreement. Each annexation shall include a service agreement which shall establish the terms and conditions under which the land shall be annexed into the city. The service agreement will include a service plan in accordance with Chapter 43 of the Local Government Code. Once the terms and conditions of the service agreement have been determined, the service agreement shall be forwarded to city council for approval. If approved, the service agreement shall be attached to the ordinance annexing the area. Upon city council approval of the service agreement, city council shall direct the deputy director for the planning and inspections department to prepare an ordinance annexing the area in accordance with Chapter 43 of the Texas Local Government Code.

4. Public hearings. All public hearings shall be conducted in accordance with the procedures of Chapter 43 of the Texas Local Government Code, or any successor statute. The proposed service agreement prepared by the director for the planning and inspections department must be made available for public inspection and explained to the inhabitants of the area at the public hearing. The plan may be amended through negotiation at the hearing, but the provision of any service may not be deleted.

5. Procedures after annexation. If city council approves the annexation ordinance, the director of the planning and inspections department shall prepare for the mayor's signature a letter, including as attachments certified copies of documents showing the change in boundaries of the city in addition to the change in boundaries to the city's ETJ, which shall be sent to the county clerk within thirty days of annexation.

6. The city clerk shall send certified copies of the annexation ordinance to the Texas Comptroller of Public Accounts, Sales Tax Division notifying the comptroller of the change in city boundaries. The director of the planning and inspections department shall send certified letters notifying the entities listed here of the change in city boundaries:

a. United States Bureau of the Census, Boundary and Annexation Survey.

b. Texas Department of Transportation, Planning and Program Division.

c. Texas Commission on Fire Protection.

d. Texas Department of Insurance.

e. El Paso County Tax Assessor.

f. El Paso County Commission.

g. El Paso Central Appraisal District.

h. Any effected school district, as described in Section 43.905, Effect of Annexation on Operation of School District, of the Local Government Code.

i. Any other effected public entity, as defined in Section 43.9051, Notification of Public Entities, of the Local Government Code.

(Ord. No. 18972, § 1, 9-3-2019)

Editor's note—Ord. No. 18972, § 1, adopted Sept. 3, 2019, repealed the former § 20.06.075, and enacted a new § 20.06.075 as set out herein. The former § 20.06.075 pertained to similar subject matter and derived from Ord. No. 17195, § 1, adopted Sept. 15, 2009.

20.06.080 Compliance with district standards and use regulations.

All property within the corporate limits shall be located within one of the zoning districts described herein, and shall meet and conform to all requirements of those districts and shall meet any applicable performance standards (supplemental use regulations) set forth in this title. These performance standards shall apply whether or not a reference to such standards is identified in the Table of Permissible Uses under Chapter 20.08 (Permissible Uses) of this title. Except where indicated otherwise, the uses permitted in each zoning district shall be limited to those specifically enumerated. Unless the contrary is clear from the context of the lists or other regulations of this title, uses not specifically listed are prohibited. (Ord. 16653 § 2 (part), 2007)

Chapter 20.08

PERMISSIBLE USES

Sections:

20.08.010 Uses permitted by district.

20.08.020 Interpretative provisions.

20.08.030 Permissible uses.

20.08.040 Classification of new or unlisted uses.

20.08.050 Change in use.

20.08.060 Combination uses.

20.08.010 Uses permitted by district.

No land shall hereafter be used, and no building or structure shall hereafter be erected, altered, or converted, which is arranged or designed or used for other than those uses specified as permitted uses in the zoning district in which it is located, according to the Table of Permissible Uses found in Appendix A, as adopted in its entirety, incorporated herein by reference, and in accordance with the provisions of this title.
(Ord. 16653 § 2 (part), 2007; Ord. No. 19244, § 10, 10-12-2021)

20.08.020 Interpretative provisions.

A. When used in connection with a particular use in the Table of Permissible Uses, the designations shall have the following connotations.

1. Permitted Use. A "P" in a cell shall indicate that a use is allowed by right in the respective zoning district, and shall be subject to the general restrictions and performance standards found in Chapter 20.10 (Supplemental Use Regulations) and other applicable regulations of this title.

2. Accessory Use. An "A" in a cell shall indicate that a use is allowed by right when it is incidental to a permitted use in the respective zoning district, and shall be subject to the general restrictions and performance standards found in Chapter 20.10 (Supplemental Use Regulations) and other applicable regulations of this title.

3. Special Permit Use. An "S" in a cell shall indicate that a use is only allowed by special permit with a detailed site development plan approval in the respective zoning district obtained from the city council in accordance with Chapter 20.04 (Administrative Provisions), and shall be subject to the general restrictions and performance standards found in Chapter 20.10 (Supplemental Use Regulations) and other applicable regulations of this title.

4. Restricted Use. A "D" in a cell shall indicate that a use is allowed in a special purpose district, excluding the R-F Ranch and Farm District, following detailed site development plan approval in accordance with Chapter 20.04 (Administrative Provisions), and shall be subject to the general restrictions and performance standards found in Chapter 20.10 (Supplemental Use Regulations) and other applicable regulations in this title.

5. Mixed Use. A "Z" in a cell shall indicate that a use is allowed in a mixed use district (RMU, GMU, or IMU) as authorized by the City Council with specific use limitations and development standards, following approval of a master zoning plan in accordance with Chapter 20.04 (Administrative Provisions), and shall be subject to the general restrictions and performance standards found in Chapter 20.10 (Supplemental Use Regulations) and other applicable regulations of this title.

6. Special Exception Use. An "E" in a cell shall indicate that a use is only allowed by special exception in the respective zoning district obtained from the Zoning Board of Adjustment in accordance with Chapter 20.04 (Administrative Provisions), and shall be subject to the general restrictions and performance standards found in Chapter 20.10 (Supplemental Use Regulations) and other applicable regulations of this title.

7. Uses Not Allowed. An "X" in a cell shall indicate that a use is not allowed in the respective zoning district.

8. Supplemental Use Regulations. The reference to a supplemental standard in any cell shall mean that the use in a respective zoning district is subject to additional standards and requirements found in Chapter 20.10 (Supplemental Use Regu-

lations) of this title. The specific section number of the standard shall be noted in the column titled "Supplemental Standards." Provided, however, that any applicable performance or supplemental standard within Chapter 20.10 (Supplemental Use Regulations) of this title applying to a use shall be required whether or not references incorrectly or omitted from the Table of Permissible Uses.

B. A use that may be interpreted to be permitted under more than one categorical or use description in the Table of Permissible Uses shall be required to satisfy the requirements of the most restrictive zoning district in which the use is allowed.

C. A use particularly identified, whether or not the use may be interpreted to be permitted under more than one categorical or use description in the Table of Permissible Uses due to function or type, shall satisfy the requirements of the zoning district in which the use is particularly identified.

(Ord. 16653 § 2 (part), 2007; Ord. No. 19244, § 11, 10-12-2021)

20.08.030 Permissible uses.

A. The zoning districts described in this chapter group together those uses that are reasonably compatible with one another according to their normal characteristics of operation in order to achieve the following:

1. To permit, in connection with these uses, those customary and necessary accessory activities that are incidental to the principal use;

2. To permit certain other uses that may be established in some situations and subject to specific conditions so that such special uses will also be compatible with the uses allowed;

3. To promote orderly, timely, economical growth and to recognize current land use conditions;

4. To provide sufficient space in appropriate locations for development to meet the present and future growth needs of the city, with allowance for diversity of sites;

5. To protect use areas, as far as possible, against heavy and unnecessary through traffic;

6. To protect use areas against pollution, environmental hazards and other objectionable influences;

7. To protect use areas against congestion, as far as possible, by managing the density of population in and around them;

8. To provide for privacy and access of light and air, as far as possible, through controls over the spacing and height of buildings and other structures;

9. To promote the most appropriate use of land to achieve stability of development, to protect the character of the districts, to conserve the value of land and buildings, and to protect the tax base;

10. To promote the most efficient use of public facilities and services;

11. To protect against fire and explosions and other safety hazards;

12. To provide for fire and other emergency access;

13. To accommodate use activities and operations whose external physical effects are restricted to the area of the zoning district, and in no manner affect in a detrimental way any of the surrounding zoning districts.

B. The Table of Permissible Uses shall be used in conjunction with the terms and definitions as set forth in Chapter 20.02 (General Provisions and Definitions) of this title. The uses are assigned different categorical descriptions in the table for illustrative purposes only, as shown below.

1.0	Agricultural and related operations
2.0	Commercial, storage and processing
3.0	Educational, institutional and social uses
4.0	Office and research services
5.0	Manufacturing, processing and assembling
6.0	Medical and related uses
7.0	Mining and quarrying operations

8.0	Motor vehicle sale and service operations
9.0	Parking and loading
10.0	Personal services
11.0	Recreation, amusement and entertainment
12.0	Repair services
13.0	Residential
14.0	Sales, retail and wholesale
15.0	Signs
16.0	Temporary uses
17.0	Towers and related structures
18.0	Transportation related uses
19.0	Utility and miscellaneous governmental uses
20.0	Overlay designations

C. Table of Permissible Uses. Appendix A. (Ord. 16761 § 1 (part), 2007; Ord. 16653 § 2 (part), 2007)
(Ord. No. 18134, § 2, 3-4-2014; Ord. No. 18218, § 2, 7-29-2014; Ord. No. 18241, § 2, 9-9-2014)

20.08.040 Classification of new or unlisted uses.

It is recognized that new types of land use will develop and forms of land use not listed in any respective zoning district within the Table of Permissible Uses (Appendix A) may seek to locate and operate in the city. In order to provide for such changes and contingencies, a determination as to the appropriate classification of any new or unlisted form of land use shall be made as follows:

A. The zoning administrator shall upon a written request for interpretation of any interested party and pursuant to the procedures set forth in Chapter 20.04 (Administrative Review Procedures), make a determination within which zoning district the new or unlisted use should be allowed. Any request for an interpretation shall be accompanied by a fee in the amount paid for a zoning determination, and shall include a written statement of facts listing the nature of the use and whether it involves dwelling activity, sales, processing, type of product, storage, and amount or nature thereof, enclosed or open storage, anticipated employment, transportation requirements, the amount of noise, odor, fumes, toxic material and vibration likely to be generated and the general requirements for public utilities such as water and sanitary sewer.

B. The zoning administrator shall review the request determine if the new or unlisted use is sufficiently similar to a use already allowed within the Table of Permissible Uses and shall determine within which zoning district the new or unlisted use should be allowed. A new or unlisted use shall be classified with other similar listed uses and shall be permitted in the same zoning district(s). The nature of the new or unlisted use and its compatibility with the uses permitted in the various zoning districts shall be considered with many factors in determining the zoning district or districts within which such new or unlisted use shall be permitted.

C. If the zoning administrator determines that the new or unlisted use is not similar to any use allowed within the Table of Permissible Uses, or the requestor does not agree with the determination of the zoning administrator, then the initial request and the zoning administrator's determination shall be forwarded to the city plan commission requesting an interpretation as to the zoning classification into which such use should be placed.

D. The city plan commission shall consider the nature and described performance of the proposed use and compatibility with the uses permitted in the various districts and after public hearing determine the zoning district or districts within which such use should be permitted.

E. The city plan commission shall transmit its findings and recommendations to the city council as to the classification proposed for any new or unlisted use. The city council may approve the recommendation of the city plan commission or make such determination concerning the classification of such use as is determined appropriate after giving consideration to the facts and recommendations; and shall direct that an ordinance be drafted to amend the zoning code in order to allow

such use. (Ord. 16653 § 2 (part), 2007)

20.08.050 Change in use.

A change in use occurs whenever the essential character or nature of the activity conducted on a property, or portion thereof, substantially changes from one principal use category to another, requiring that new permits be obtained pursuant to Chapter 20.04 (Administrative Provision) of this title. For purposes of this section, substantial change occurs when the relative proportion of space devoted to the principal use changes to such an extent that the parking requirement for the use is altered or when the type of individual principal use or combination of uses changes. A change in the status of the property from unoccupied to occupied or vice versa, or a change in ownership or business name, shall not be regarded as a change in use. (Ord. 16653 § 2 (part), 2007)

20.08.060 Combination uses.

When a property comprises two or more principal uses that require different types of permits, then the permit authorizing the combination use shall be:

A. A special permit if any of the principal uses combined is permitted only as a special permit use;

B. A detailed site development plan approval if any of the principal uses combined is permitted only following a detailed site development plan approval; or

C. A building permit in all other cases.

(Ord. 16653 § 2 (part), 2007; Ord. No. 19244, § 12, 10-12-2021)

Chapter 20.10

SUPPLEMENTAL USE REGULATIONS

Sections:

20.10.010 General restrictions.

20.10.020 General performance standards.

20.10.030 Accessory buildings and structures.

20.10.035 Accessory dwelling unit (ADU).

20.10.040 Accessory uses, medical.

20.10.050 Accessory uses, residential development.

20.10.055 Adaptive reuse overlay.

20.10.060 Alcoholic beverages.

20.10.070 Amateur and CB radios.

20.10.080 Animal facilities (animal kennel, animal training facility, veterinary treatment center, clinic or hospital).

20.10.090 Automotive uses.

20.10.100 Reserved.

20.10.110 Banks and financial institutions.

20.10.115 Boarding home facilities.

20.10.120 Carwash facilities.

20.10.140 Child care facilities.

20.10.145 Civic buildings, public spaces, and educational facilities.

20.10.146 Civic and cultural district.

20.10.150 Reserved.

20.10.160 Contractor yards.

20.10.165 Credit access business.

20.10.170 Reserved.

20.10.175 Disabled group dwelling.

20.10.180 Drilling facilities.

20.10.185 Drive-thru facilities.

20.10.190 Dry cleaning shops.

20.10.200 Energy conversion systems.

20.10.210 Explosives, storage.

20.10.220 Farming.

20.10.230 Feed yards.

20.10.240 Freight and passenger terminals.

20.10.250 General warehousing.

20.10.260 Governmental uses and buildings.

20.10.265 Group residential facilities.

20.10.266 Halfway house.

20.10.270 Home occupation uses.

20.10.275 Homeless shelter.

20.10.280 Infill development.

20.10.290 Keeping of animals for personal use or enjoyment.

20.10.300 Reserved.

20.10.310 Liquefied petroleum storage and dispensing.

20.10.320 Live-work flex units.

20.10.330 Loading spaces (serving another property).

20.10.340 Manufactured home parks.

20.10.350 Manufacturing uses (not listed) in M-Districts.

20.10.360 Mixed-use development.

20.10.365 Mobile service units.

20.10.370 Mountain development.

20.10.380 Reserved.

20.10.390 Reserved.

20.10.400 Neighborhood conservancy overlay.

20.10.405 Environmental and wildlife research conservancy overlay.

20.10.410 Off-street parking (serving another property).

20.10.420 Office warehouse.

20.10.430 Outdoor flea markets.

20.10.440 Pasturage.

20.10.450 Personal care facilities.

20.10.455 Personal wireless service facilities.

20.10.460 Pet shops.

20.10.470 Planned residential development.

20.10.480 Poultry hatchery.
20.10.490 Processing facilities.
20.10.500 Quarries.
20.10.510 Recreational vehicle parks.
20.10.520 Recycling collection facilities.
20.10.530 Resident watchmen facilities.
20.10.540 Residential manufactured home subdivision.
20.10.550 Restricted residential mixed-use development.
20.10.555 Urban reserve district (URD).
20.10.557 Utility green space.
20.10.560 Restaurants, drive-in.
20.10.570 Retail and service facilities.
20.10.580 Reverse vending machines.
20.10.590 Satellite receiving dishes and antennas.
20.10.600 Secondary manufactured homes (ranch-farm district only).
20.10.610 Self-storage warehousing.
20.10.620 Sexually oriented businesses.
20.10.630 Storage of supplies (in connection with a permitted use).
20.10.640 Swimming pools and spas.
20.10.650 Temporary buildings or structures (incidental to construction).
20.10.660 Temporary buildings or structures (incidental to sales or rental).
20.10.670 Temporary sales stands.
20.10.680 Temporary uses.
20.10.690 Tennis clubs.
20.10.695 Transfer of development rights.
20.10.700 TV and radio broadcasting antennae.
20.10.710 TV and radio receiving antennae.
20.10.720 Unenclosed parking space shelters.
20.10.730 Utility facilities.
20.10.740 Vehicles.
20.10.750 Yard, garage or rummage sales.

20.10.010 General restrictions.

A. Conformance with Regulations. Any use hereafter placed on land and any building or part thereof hereafter erected, altered, expanded, placed, converted, or otherwise located in the city shall comply with the requirements set forth in this title and otherwise as required by this City Code.

B. Lot Required. Every building hereafter erected, altered, expanded, placed, converted, or otherwise located shall be on a lot or lots, and in no case shall there be more than one main building on one lot unless otherwise provided in this title. Where more than one building is allowed for a principal use within a zoning district, all buildings shall be subject to the provisions of this title. All buildings shall be so located on a lot or lots as to provide for safe and convenient vehicular access.

C. Legal Access Required. No lot or portion thereof shall be used or occupied unless such lot has frontage upon an accessway, except for agricultural uses associated with the conduct of a farm or ranch.

D. Reference to Other Legislation.

1. Any condominium project and any declaration or restriction to be filed in connection therewith shall comply in all respects with the provisions of the Texas Condominium Act and with the requirements of the ordinance codified herein to the extent not in direct conflict.

2. No building or land shall hereafter be used and no building or part thereof shall be erected, altered, expanded, placed, converted, or otherwise located on a lot or lots unless in conformity with the regulations of this Code and any applicable state or federal regulations. (Ord. 16653 § 2 (part), 2007)

20.10.020 General performance standards.

The general performance standards set forth below are intended to reduce the impacts that development may have on adjacent properties. Satisfactory compliance with the performance stan-

dards shall be required to be demonstrated for a particular use at the time of issuance of a building permit or certificate of occupancy, and continued compliance with the performance standards shall be enforced by the city against any use if there are reasonable grounds to believe that the performance standards are being violated by such use. The determination of the existence of any dangerous and objectionable elements shall be made at the location of the use creating the same and at any point where the existence of such elements may be more apparent.

A. Noise. No use permissible in any zoning district may generate noise that tends to have an annoying or disruptive effect upon uses located outside the immediate space occupied by the use if that use is one of several located on a lot, or uses located on adjacent lots. The maximum permissible noise levels are set forth in Chapter 9.40 (Noise) of this Code. Maximum permissible noise levels shall vary according to the use and zoning of the lot(s). Decibel level measurements shall be taken at the boundary line of the lot where the use is located.

B. Vibration. No use permissible in any zoning district may generate any ground-transmitted vibration that is perceptible to the human sense of touch measured at the outside boundary of the immediate space occupied by the use generating the vibration if the use is one of several located on a lot, or the lot line if the use generating the vibration is the only use located on a lot. Ground-transmitted vibration shall not be permitted in excess of the maximum limits set forth in Chapter 9.16 (Nuisances) of this Code. Vibration shall be measured at any adjacent lot line with suitable instrumentation or computed on the basis of displacement and frequency.

C. Odors. No use permissible in any zoning district may generate any odor that reaches the odor threshold measured at the outside boundary of the immediate space occupied by the use generating the odor, or the lot line if the use generating the odor is the only use located on a lot. For purposes of this section, the odor threshold shall be defined as the minimum concentration in air of a gas, vapor, or particulate matter that can be detected by the olfactory system as set forth in Chapter 9.16 (Nuisances) of this Code.

D. Air Pollution. Any use permissible in any zoning district that emits any air contaminant shall comply with applicable standards of Chapter 9.36 (Air Pollution) of this Code, 30 TAC (Texas Administrative Code), and any state or federal standards concerning air pollution. No permit may be issued for a use emitting an "air contaminant" until the state or federal agency with jurisdiction has certified to the city that the appropriate permits have been received or that the development is otherwise in compliance with applicable laws.

E. Disposal of Liquid Wastes. No use permissible in any zoning district may:

1. Discharge any waste contrary to the provisions of Title 19 (Subdivisions) of this Code, and any state or federal law governing discharges of radiological, chemical, or biological wastes into surface or subsurface waters; or

2. Discharge into the city sewage treatment facilities any waste that cannot be adequately treated by biological means, or without the permission of the El Paso Water Utility.

F. Electrical Disturbance or Interference. No use permissible in any zoning district may:

1. Create any electrical disturbance that adversely affects any operations or equipment other than those of the creator of such disturbance; or

2. Otherwise cause, create, or contribute to the interference with electronic signals (including, but not limited to, television, telephone and radio broadcasting transmissions) to the extent that the operation of any equipment not owned by the creator of such disturbance is adversely affected.

G. Fire and Explosion Hazards. All activities involving and all storage of flammable and explosive materials shall ensure there are adequate safety devices against the hazard of fire and explosion, and adequate firefighting and fire suppression equipment and devices standard in the industry

pursuant to applicable sections of Chapter 9.52 (Fire Prevention Code) of this Code, and any relevant state or federal standards.

H. Glare. No direct or sky-reflected glare from high-temperature processes, such as but not limited to combustion, welding or otherwise, so as to be visible at the property line shall be permitted.

I. Lighting. All entrances, exits, parking lots, and other common areas and facilities within a lot shall be sufficiently illuminated to ensure the security of property and the safety of persons using such areas and facilities, provided, however, that lighting within a lot shall be adequately shielded or directed so that illumination is provided in a manner that would not substantially interfere with the use or enjoyment of neighboring properties, and is in compliance with Title 18. (Ord. 16653 § 2 (part), 2007)

20.10.030 Accessory buildings and structures.

A. Residential.

1. Residential accessory buildings shall not exceed one story or fifteen feet in height and must be located in a rear yard, or in a side yard if minimum required side setbacks are maintained, except as permitted in Section 20.10.035 (Accessory Dwelling Units). Condensing units for central air conditioning systems shall be no closer than five feet to a lot line.

2. Any residential accessory building closer than five feet to a main building shall be considered as part of the main building, shall be located within the buildable area required for a main building, and shall be subject to all applicable restrictions for the main building.

3. Detached residential accessory buildings shall be located not less than sixty feet from the front lot line, a minimum of five feet from the main building, and shall comply with the side and side street yard requirements. No rear yard setback shall be required, except for accessory dwelling units as permitted in Section 20.10.035.

4. The gross floor area of all combined detached residential accessory buildings on a lot shall not exceed the more restrictive of the following, except that one building with up to four hundred square feet shall be permitted:

a. Fifty percent of the gross floor area of the main building; or

b. Forty percent of the area of the rear yard.

5. A residential private garage or other accessory building may be connected to the main building by a breezeway or connected by a fence or wall up to six feet in height, provided that the breezeway shall not exceed an overall width of five feet and shall be a minimum of seventy-five percent open to the outside on both sides.

6. Residential accessory buildings shall be built concurrently with or after the construction of the main building and shall be used only as permitted by this Code.

7. Where a residential garage entrance is from an alley, the structure must be located at least five feet from the property line.

8. In residential, apartment and special districts where community refuse containers are provided, these shall be completely screened from view by fences or walls and have a gate which can be latched open.

B. Ranch and Farm District.

1. A maximum of two single-family dwelling units shall be permitted for farm and ranch properties of not less than six acres nor more than twenty-five acres, without regard to street frontage, provided both dwelling units shall be for year-round farm and ranch operators, or farm and ranch workers and their families.

2. One additional dwelling unit for additional farm and ranch workers and their families shall be permitted for each additional twenty-five acres.

C. Placement of Portable Storage Containers.

1. On any lot located in zoning district C2, C3, C4, M1, M2, M3, PI, GMU or IMU one or more portable storage containers may be permitted as accessory storage to the principal use(s) provided the following conditions are met:

2. The floor area contained in the portable storage container shall be limited to no more than

ten percent of the floor area of the principal use except that for principal buildings less than one thousand six hundred (1,600) square feet in size, the container may be up to one hundred sixty square feet in size. In buildings with multiple tenants, no single user shall be permitted more than ten percent of the floor area of its use.

3. Portable storage containers shall be located at least five feet behind the front wall line of the principal building.

4. Portable storage containers shall be required to meet side and rear setback requirements for buildings and shall be located at least twenty feet from any abutting apartment or residential zoning district.

5. Signage on portable storage containers shall be limited to one sign per container, not exceeding two square feet. The signage shall not be visible from any abutting street or any adjacent property in an apartment or residential zoning district.

6. Vertical stacking of portable storage container and stacking of any other materials or merchandise on top of any portable storage container shall be prohibited. No running gear shall be left underneath any portable storage container.

7. No portable storage container shall be placed or located on a required parking space, circulation aisle/lane, fire access lane, required landscape area, required open space, retention or detention basins, loading zone, or any other location that may cause hazardous conditions or constitute a threat to public safety.

8. A building permit shall be required for the installation of portable storage containers and the design and installation of any such portable storage containers shall comply with Title 18.

9. Exceptions:

a. Portable storage containers temporarily placed on lots during a period of ongoing permitted construction on the same lots are exempt from the above requirements.

b. The temporary placement of a portable storage container on a lot for the purpose of loading and unloading household contents shall be permitted for a period of time not exceeding seven days in a calendar year. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17532, §§ 2—4, 4-19-2011)

20.10.035 Accessory dwelling unit (ADU).

A. In addition to the regulations in Section 20.10.030, detached accessory dwelling units in residential zoning districts shall comply with the following:

1. The property owner must occupy either the principal unit or the accessory dwelling unit as their permanent residence. An owner of a property containing an accessory dwelling unit who is absent for a period of one year or less may rent the owner's unit as well as the second unit during the temporary absence.

2. Only one ADU is permitted on a lot with a detached single-family dwelling. ADUs are not permitted on lots with a duplex or multi-family units.

3. The minimum lot area is five thousand five hundred square feet.

4. If the lot is designated for on-site ponding, the maximum lot coverage, including all buildings and impervious surfaces, is fifty percent.

5. The ADU shall not exceed eight hundred square feet of gross floor area, except that for lots containing eight thousand square feet or more, the ADU shall not exceed one thousand two hundred square feet gfa.

6. The ADU shall not contain more than one bedroom.

7. The ADU shall comply with all building code requirements for a dwelling unit, including but not limited to, heating and cooling, cooking and bathroom facilities.

8. The ADU shall be located a minimum of ten feet from any property line, except that when the rear property line abuts an alley with a minimum ROW of twenty feet, the rear setback for an ADU may be reduced to zero feet; and when the rear property line abuts an alley with ROW less than twenty feet, the rear setback for an ADU may be reduced to five feet, or less if approved by the traffic engineer.

9. Vehicular access to the ADU is permitted from an abutting alley if on-site parking is provided for the ADU.

10. The height of the ADU shall not exceed the height of the principal unit.

11. Windows shall not be permitted on the wall of an ADU that is within ten feet of the property line abutting a residential use, if the ADU is taller than one story or fifteen feet, unless a minimum fifteen feet buffer of privacy trees (see approved tree list) are planted at fifteen feet on center along the side and/or rear property lines adjacent to the ADU.

12. ADUs shall resemble the principal unit in scale and character.

13. Windows shall be similar to the principal unit in the following ways: Type of window, trim style, proportions.

B. Attached accessory dwelling units are permitted when they comply with the following:

1. Only one ADU is permitted on a lot with a single-family dwelling. ADUs are not permitted on lots with a duplex or multi-family units.

2. The minimum lot area is five thousand five hundred square feet.

3. The ADU shall not exceed eight hundred square feet of gross floor area except that for lots containing eight thousand square feet or more, the ADU shall not exceed one thousand two hundred square feet gfa.

4. The ADU shall not contain more than one bedroom.

5. The ADU shall comply with all building code requirements for a dwelling unit, including but not limited to, heating and cooling, cooking and bathroom facilities.

6. The ADU shall comply with all yard standards of the zoning district.

7. A separate entrance shall be provided for the ADU.

8. Vehicular access to the ADU is permitted from an abutting alley if on-site parking is provided for the ADU.

9. The height of the ADU shall not exceed the height of the principal unit.

10. ADUs shall resemble the principal unit in scale, material and color. Roof pitch, siding material and color shall match the principal unit.

11. Windows shall be similar to the principal unit in the following ways: type of window, trim style, proportions.

(Ord. No. 17532, § 5, 4-19-2011; Ord. No. 18973, § 1, 9-3-2019)

20.10.040 Accessory uses, medical.

Permitted accessory uses for hospitals, medical and dental offices may include florist shops, gift shops and pharmacies, with the following restrictions:

A. No display of goods or merchandise shall be visible from any public street;

B. No sign advertising the accessory use or service shall be visible from any public street; and

C. All access to the accessory use or service shall be from within a completely enclosed building and no outside entrance shall be visible from any public street. (Ord. 16653 § 2 (part), 2007)

20.10.050 Accessory uses, residential development.

The following are permitted accessory uses in attached single-family developments or multifamily developments:

A. An office located in a main building for administration of a development containing ten or more dwelling units;

B. A laundry room for use of occupants of a development;

C. A sauna, exercise room, clubhouse or similar facility for use of occupants of a development;

D. Vending machines for candy, ice, soft drinks and sundries, located inside a building. (Ord. 16653 § 2 (part), 2007)

20.10.055 Adaptive reuse overlay.

A. Purpose. The purpose of an adaptive reuse overlay (ARO) is to revitalize neighborhoods and increase new housing opportunities within the

El Paso Downtown 2015 Plan area by allowing more flexible development standards for certain residential and/or mixed uses within the area.

B. Applicability. An adaptive reuse overlay (ARO) may be placed on property located in El Paso Downtown 2015 Plan area and can only be used for the conversion of all or any portion of an existing building to any of the following new residential and/or mixed uses:

1. Dwelling units (single family, duplex, triplex, quadraplex, townhomes, apartments, condominiums).

2. Single room occupancy (SRO).

3. Live-work units.

4. Mixed-use buildings.

5. Other uses permitted in the underlying zoning district.

C. Designation. An application for an ARO designation may be initiated either by city council, a property owner or group of property owners.

D. Application. An application for an ARO designation shall be subject to the notice and public hearing requirements and procedures of Chapter 20.04, and shall also be accompanied with all of the following:

1. A list of all the properties and property owners in the area described in the application; and

2. A map of the area.

E. Development standards.

1. The ARO standards are optional and provide for greater density and flexible standards. A property owner within the ARO may use the standards identified in this section or may use the underlying zoning district standards for their property. All of the permitted uses in the underlying zoning district are permitted in the ARO. Additionally, within the ARO, a property owner may convert all or any portion of an existing building to any of the uses in Section 20.10.455 B.

2. The following modified development standards apply for adaptive reuse projects in the El Paso Downtown 2015 Plan area for properties zoned UP, C-5, C-4, C-1, S-D, SRR, and M-1:

a. Minimum front, rear and side setbacks: Zero feet.

b. Maximum height: Five stories or as permitted in the underlying zoning district.

c. Minimum lot area, width, and depth: None.

d. Minimum square footage for multi-family dwelling units: Four hundred fifty; except that the total units within a development shall have a minimum average square footage of six hundred fifty.

e. Adaptive reuse projects are exempt from detailed site development plan requirements in Title 20.

f. Adaptive reuse projects are exempt from landscape requirements in Title 18, except that where there is minimum of ten feet of existing parkway (including sidewalk), street trees shall be provided in accordance with Article IV — Street Trees, of Section 18.46.

g. Unless specifically modified in Subsection E. above, all other dimensional and density standards and parking standards of the underlying zoning district standards in Title 20 shall apply to any property with an ARO overlay.

h. All properties within an ARO will carry the suffix "ARO," indicating that such property may be developed under the land use and design standards of the ARO.

(Ord. No. 17754, § 2, 3-20-2012)

20.10.060 Alcoholic beverages.

A. Requirements. The sale, storage, or handling of alcoholic beverages for the purpose of sale is permitted only where the use is authorized by and complies with all applicable provisions of this title and the Texas Alcoholic Beverage Code.

1. The sale, storage or handling of alcoholic beverages for the purpose of sale is permitted only where licensed in accordance with Chapter 5.08 of the city code and the Texas Alcoholic Beverage Code.

2. The sale, storage or handling of alcoholic beverages for the purpose of sale is permitted only in approved locations within the interior of buildings or structures that have a valid certificate of occupancy allowing such use.

3. The sale, storage or handling of alcoholic beverages for the purpose of sale is permitted in specific uses in the following zoning districts, subject to the requirements of this chapter:

a. C-1, C-2, C-3, C-4, and C-5 commercial districts;

b. P-C planned commercial district;

c. GMU general mixed use district;

d. S-D special development district;

e. U-P union plaza district;

f. M-1, M-2 and M-3 manufacturing districts;

g. IMU industrial mixed use district.

4. The sale, storage or handling of alcoholic beverages for the purpose of sale is permitted as an accessory use to specific permitted uses in the following zoning districts, subject to the requirements of this chapter:

a. R-F ranch and farm district;

b. R-1, R-2, R-2A, R-3, R-3A, R-4 and R-5 residential districts;

c. PMD planned mountain development district;

d. A-1, A-2, A-3 and A-4 apartment districts;

e. A-O and A-3/O apartment/office districts;

f. COP commercial office park district;

g. A-M apartment and manufactured home park district;

h. RMU residential mixed use district;

i. PR-1 and PR-II planned residential districts.

j. NOS natural open space district.

5. The sale, storage or handling of alcoholic beverages for the purpose of sale is permitted as an accessory use to specific uses allowed by special permit in the following zoning districts, subject to the requirements of this chapter:

a. PMD planned mountain development district;

b. A-1, A-2, A-3 and A-4 apartment districts;

c. A-O and A-3/O apartment/office districts;

d. A-M apartment and manufactured home park district.

B. Restrictions.

1. The sale, storage or handling of alcoholic beverages for the purpose of sale is not permitted in any zoning district where the place of business is located within three hundred feet of a church, public or private school, or public hospital; however, this section shall not apply where the applicant has approval from the affected church, public or private school, or public hospital in writing.

2. The sale, storage or handling of alcoholic beverages for the purpose of sale is not permitted in any zoning district where the place of business is located within three hundred feet of a day-care center or a child-care facility as defined in the Texas Human Resources Code § 42.002 and the permit or license holder does not hold a food and beverage certificate issued by the Texas Alcoholic Beverage Commission, unless expressly varied pursuant to the requirements of this section, except that this provision shall not apply:

a. If the permit or license holder and the day-care center or child-care facility are located on different stories of a multistory building; or

b. If the permit or license holder and the day-care center or child-care facility are located in separate buildings and either the permit or license holder or the day-care center or child-care facility is located on the second story or higher of a multistory building; or

c. Neither section a. or b. within this subsection, is applicable if the applicant has approval from the affected day-care center or child-care facility in writing.

3. The distance between the place of business where alcoholic beverages are sold and a church or public hospital shall be measured along the property lines of the street fronts and from front door to front door, and in direct line across intersections.

4. The distance between the place of business where alcoholic beverages are sold and a school, day-care center or child-care facility shall be measured in direct line from the property line of the school, day-care center or child-care facility to the property line of the place of business, and in a direct line across intersections.

5. The prohibition of the sale of alcoholic beverages within three hundred feet of a church, school or public hospital shall not apply to the sale of alcoholic beverages by any business that held a valid license on August 31, 1983, and has remained established and engaged in the sale of alcoholic beverages within three hundred feet of any church, school or public hospital; nor shall the provisions of this section prevent any business legally engaged in the sale of alcoholic beverages on August 31, 1983, and continuing to be so engaged within three hundred feet of any church, school or public hospital from securing a renewal of their license, nor from a new license being issued for such location to any other applicant.

6. The prohibition of the sale of alcoholic beverages within three hundred feet of a commercial day care shall not apply to the sale of alcoholic beverages by any business that held a valid license on June 5, 2007, and has remained established and engaged in the sale of alcoholic beverages within three hundred feet of any commercial day care; nor shall the provisions of this section prevent any business legally engaged in the sale of alcoholic beverages on June 5, 2007, and continuing to be so engaged within three hundred feet of any commercial day care from securing a renewal of their license, nor from a new license being issued for such location to any other applicant.

7. The city council may grant an exception from prohibition of the sale of alcoholic beverages within three hundred feet of a church, school, commercial day care or public hospital after notice and public hearing if the council determines that the enforcement of the prohibition in a particular instance:

a. Is not in the best interest of the public;

b. Constitutes waste or the inefficient use of land or other resources;

c. Creates an undue hardship on an applicant;

d. Does not serve its intended purpose;

e. Is not effective or necessary; or

f. For any other reason the city council, after consideration of the health, safety, and welfare of the public and the equities of the situation, determines is in the best interest of the community. (Ord. 16653 § 2 (part), 2007)

(Ord. No. 17306, § 4, 4-6-2010; Ord. No. 18458, §§ 1, 2, 1-12-2016)

20.10.070 Amateur and CB radios.

Federally licensed amateur and CB radio stations must comply with FCC regulations. Installation of radio towers and masts shall comply with the building code requirements of the city. (Ord. 16653 § 2 (part), 2007)

20.10.080 Animal facilities (animal kennel, animal training facility, veterinary treatment center, clinic or hospital).

A. Kennels and animal training establishments are permitted when in compliance with Title 7 of this Code and the following conditions:

1. In the Ranch-Farm zoning district, provided,

a. The site has a minimum of six acres, and

b. Any building relating to this use is not closer than three hundred feet from the nearest residential or apartment district or use;

2. In C-2, C-3, C-4 and M-1 zoning districts:

a. All animals are housed inside a permitted structure,

b. No open pens are provided or used,

c. No building, structure or open area (except space for parking of employee and customer automobiles) shall be used for this use unless it is at least three hundred feet from the nearest residential or apartment district or use,

d. A means of mechanical air exchange is provided for all permitted structures, and

e. No outside runs are permitted.

B. Small animal veterinary hospitals or clinics are permitted when in compliance with Title 7 of this Code and the following conditions:

1. In the R-1 and C-1 zoning districts (with a special permit approved by city council):

a. All animals are housed inside a permitted structure that is completely enclosed and soundproof,

b. No open pens are provided or used,

c. The distance between a building, structure or open area (except for parking of employee and customer automobiles) used for any hospital or clinic purpose to the property line of any residential or apartment use existing at the time the hospital or clinic is established shall not be less than one hundred fifty feet. This restriction does not apply to a residential structure located on the same site and used as a part of the hospital or clinic operation,

d. A means of mechanical air exchange is provided for all permitted structures, and

e. No outside runs are permitted;

2. In C-2, C-3, C-4 and M-1 zoning districts:

a. All animals are housed inside a permitted structure,

b. No open pens are provided or used,

c. No building, structure or open area (except space for parking of employee and customer automobiles) shall be used for any hospital or clinic purpose unless it is at least one hundred fifty feet from the property line of any residential or apartment use at the time the hospital or clinic use is established,

d. A means of mechanical air exchange is provided for all permitted hospital or clinic structures, and

e. No outside runs are permitted.

C. Small or large animal veterinary hospitals or clinics in the R-F zoning district, and large animal hospitals or clinics in the C-4 and M-1 zoning districts with a special permit approved by city council, must comply with Title 7 of this Code, and the following conditions:

1. Lot area shall be a minimum of one acre with a minimum average lot width of two hundred feet,

2. No building, structure, open pen or corral (except open space for parking of employee and customer automobiles) shall be used for any hospital or clinic purpose unless it is at least one hundred fifty feet from the nearest residential or apartment district or use at the time the hospital or clinic use is established, and

3. A means of mechanical air exchange is provided for all hospital or clinic structures. (Ord. 16653 § 2 (part), 2007)

(Ord. No. 17325, §§ 1, 2, 5-25-2010; Ord. No. 17792, § 1, 5-29-2012)

20.10.090 Automotive uses.

A. Motor Vehicle Repair, Minor. When located in S-D, C-1, C-2 and P-C zoning districts, facilities are subject to the following standards:

1. The property has frontage on a collector arterial or larger street;

2. A maximum building square footage of four thousand square feet is permitted;

3. A minimum twenty-five foot setback is required from any abutting residential or apartment use or district;

4. All services must be performed within an enclosed building;

5. No service bay doors may open facing a residential use or district;

6. No overnight outside storage of inoperative vehicles is allowed; and

7. No outside display of stock or inventory sold at retail shall be permitted.

B. Motor Vehicle Repair, Major. Facilities shall comply with the following standards:

1. The property has frontage on a collector arterial or larger street;

2. A minimum twenty-five foot setback is required from any abutting residential or apartment use or district;

3. No service bay doors may open facing a residential use or district; and

4. No outside display of stock or inventory sold at retail shall be permitted.

C. Motor Vehicle Storage Yard (accessory use to motor vehicle repair). Facilities shall comply with the following standards:

1. These yards shall be paved and enclosed by a six-foot screening wall except for necessary ingress and egress or where prohibited by this Code, to prevent visibility from adjacent properties or rights-of-way;

2. For the purposes of this use, temporary storage of a vehicle means for a maximum of ten consecutive calendar days;

3. The maximum number of vehicles authorized in temporary storage at any one time shall be the greater of three vehicles per bay or ten vehicles; and

4. A vehicle must be inoperative and waiting for parts, or unsafe to operate, to be temporarily stored in this manner.

D. Rental Satellite Location. In the S-D, C-1, C-2 and P-C zoning districts, a maximum of ten vehicles are permitted. (Ord. 16653 § 2 (part), 2007)

20.10.100. Reserved.

Editor's note—Ord. No. 019734, § 3, 5-28-2025, repealed § 20.10.100, which pertained to bakeries and tortilla factories and derived from Ord. 16653 § 2 (part), adopted 2007.

20.10.110 Banks and financial institutions.

Drive in facilities must have a stacking lane or deceleration lane as approved by the traffic engineer. (Ord. 16653 § 2 (part), 2007)

20.10.115 Boarding home facilities.

All boarding home facilities must be licensed in accordance with the provisions of Title 5 of this Code.
(Ord. No. 17577, § 4, 7-7-2011; Ord. No. 18241, § 3, 9-9-2014)

20.10.120 Carwash facilities.

A forty-foot minimum front yard setback and thirty-foot minimum rear yard setback shall be required, except that the main building shall be a minimum of one hundred feet from any residential or apartment use or district. (Ord. 16653 § 2 (part), 2007)

20.10.140 Child care facilities.

A. Home occupation - child care facilities shall comply with the following:

1. A license shall be maintained at all times as required by law or ordinance;

2. The home child care facility shall be clearly incidental and secondary to the principal use of the property;

3. A caregiver shall be required;

4. The front, side and side street yards shall be maintained as open space and all play activity shall be confined to the rear yard;

5. An indoor area of thirty square feet, excluding single purpose areas as defined in the Texas Human Resources Code, and a rear yard area of eighty square feet shall be provided per child;

6. Permitted signs shall be limited to a one square foot nameplate attached to and not projecting more than one inch beyond the face of the building;

7. The exterior of the building or grounds shall not be altered, decorated or painted in any way to distract from the residential character of the neighborhood;

8. Annual certification shall be required from the fire chief, building official, director of the department of environmental services, and licensing supervisor for the Texas Department of Family and Protective Services that the use and structure comply with the requirements of their respective codes. Provisions of Section 20.10.270 shall also apply to home child care facilities;

9. The play area shall be separated from adjacent properties by a solid masonry wall, not less than four feet high. The solid masonry wall may be along any or all rear lot lines or surrounding the play area, so long as a solid masonry wall exists between the play area and all adjacent property;

10. A minimum of one off-street parking space shall be provided plus one additional off-street parking space for every six children. For this use, the off-street parking requirement shall include garage or carport spaces, and paved driveways which may or may not afford ingress and egress for an automobile. Any passenger loading or unloading at curbside shall be subject to approval by the traffic engineer.

B. Commercial day care centers shall comply with the following:

1. License or registration is maintained at all times when required by law or ordinance;

2. A solid wall, not less than four feet high, is maintained along all interior lot lines with separate play areas for adjacent properties. If the play area abuts open, undeveloped land, a four-foot fence may be substituted, provided that a solid wall is built when the abutting land is developed;

3. The required front yard, and side street yard if one exists, shall be maintained as open space and shall not be used for child care;

4. There shall be at least thirty square feet of indoor activity space for each child in the day care center, measured wall-to-wall on the inside, not including single-use areas;

5. The day care center shall have at least eighty square feet of outdoor play area for each child using the area at one time. All outdoor play areas used by the children shall be accessible by a safe route and enclosed by a building or fence at least four feet high with at least two exits. (Ord. 16817 § 3, 2008; Ord. 16653 § 2 (part), 2007)

20.10.145 Civic buildings, public spaces, and educational facilities.

Any civic building, public space, and/or educational facilities as defined in this title shall conform to, in addition to all other applicable code provisions, the development standards set forth herein.

A. For purposes of this ordinance, a civic building and/or public space shall be categorized and defined as one of the following, which shall be declared by the applicant on the application form for the detailed site development plan:

Neighborhood Facility. A civic building and/or public space designed for and which serves the residents of a neighborhood, which is defined for purposes of this section as an area of one-half square mile. Minimum standards for a neighborhood facility shall include:

Maximum Lot Area:	Fifteen contiguous acres
Location:	Allowed on collectors and residential streets
Front yard setback:	Fifty feet maximum
Frontage Build-out:	Sixty percent of the building façade (including the main entrance) must remain unobstructed.

Community Facility. A civic building and/or public space designed for and which serves the residents of several neighborhood areas, but within the same approximate geographic area, defined for purposes of this section as an area of one square mile.

Maximum Lot Area:	Twenty-five contiguous acres
Location:	Allowed on minor arterials, collectors, and residential streets
Front yard setback:	Eighty feet maximum
Frontage Build-out:	Sixty percent of the building façade (including the main entrance) must remain unobstructed

Regional Facility. A civic building and/or public space designed for and which serves the residents of the entire city, nearby communities, and unincorporated areas.

Maximum Lot Area:	Forty contiguous acres
Location:	Allowed in major and minor arterials
Front setback:	One hundred feet maximum
Frontage Build-out:	Sixty percent the building façade (including the main entrance) must remain unobstructed

B. Minimum Standards for Educational Facilities. For the purpose of this ordinance, an educational facility is defined as a school serving prekindergarten through sixth grade (PK-6th).

Maximum Developed	
Lot Area:	Twenty-five acres
Front yard setback:	One hundred feet maximum
Frontage Build-Out:	Sixty percent of unobstructed building façade to include the main entrance

C. Additional Requirements. The application process for a civic building and/or public space will require a detailed site development plan illustrating integration of the facility within the neighborhood through building design, placement of buildings, pedestrian walkways within the site, landscaping, and parking areas. Administrative review and approval of the detailed site development plan must be completed no more than thirty days after submission of a completed application. An application for a detailed site development plan under this subsection is exempt from Sections 20.04.150 C.1. and 2. Administrative approval and 20.04.150 D. City plan commission approval. If no comments are provided by the city on the detailed site development plan within thirty days of submission, the detailed site development plan, listed in subsection 2(a) through (j) below, may be granted by the city manager or designee. In the event that the city and the applicant cannot agree on the contents of a proposed detailed site development plan, the applicant can appeal to the city plan commission within fifteen business days from the denial of the application. An application for a detailed site development plan must include the following:

1. Proof of outreach and consultation with stakeholders such as residents, parents, facility-end users, elected officials, and neighborhood associations in planning the development of the civic building and/or public space. Examples of outreach and consultation include but are not limited to notice of meetings, flyers of the event, sign-in sheets, and/or newspaper clippings.

2. A detailed site plan must depict the following:

a. Designation of a system of A and B streets serving the facility. An A street is defined as a street that includes a main principle entrance and the architectural and design focal points of the building and/or buildings. Parking is restricted along the A street as outlined in Section 20.10.145 A. Frontage build-out. A B street is defined as a secondary street where the emphasis should be on driveways, drop-off zones, parking lots, and auxiliary entrances.

b. Minimum five-foot sidewalks with minimum five-foot parkway along all street frontages shall be required.

c. In no instance shall parking be placed between the principal entrance and the street. Parking may be placed beyond the sixty percent unobstructed frontage build-out.

d. The number of access points shall not exceed three along any B street and two along any A street.

e. The width of driveway apron shall not exceed twenty-eight feet.

f. The building design may strive to serve as a community landmark. Factors to be considered may include: the principal entrance of the building should serve as a terminating vista and other architectural design elements should be compatible with the surrounding area and/or districts.

g. Plazas, courtyards, and/or other passive open space components may be incorporated within the site.

h. Landscaping shall conform to current city regulations.

i. Civic buildings may be located adjacent to a public park.

j. Principle frontage screening may be constructed and be limited to a four-foot maximum combination masonry material and decorative wrought iron screening fence beyond the unobstructed sixty percent frontage build-out as outlined in Section 20.10.140 C.2.c.

k. Illustrate the quarter-mile pedestrian shed in which at a maximum, the following may be illustrated:

i. For neighborhood facility: Seventy-five percent of surrounding residential land uses should be included within this shed.

ii. For community facility: Fifty percent of surrounding residential land uses should be included within this shed.

iii. For regional facility: Twenty-five percent of surrounding residential land uses should be included within this shed.

3. An intergovernmental agreement for the shared use of facilities is encouraged.

D. Educational Facilities. The application process for an educational facility will require a detailed site development plan illustrating the integration of the facility within the neighborhood through building design, placement of buildings, pedestrian walkways within the site, landscaping, and parking areas. Administrative review and approval of the detailed site development plan must be completed no more than thirty days after submission of a completed application. An application for a detailed site development plan under this subsection is exempt from Sections 20.04.150 C.1. and 2. Administrative approval and 20.04.150 D. City plan commission approval. If no comments are provided by the city on the detailed site development plan within thirty days of submission, the detailed site development plan is deemed approved. Exceptions to the requirements of a detailed site development plan, listed in subsection 2.(a) through (j) below, may be granted by the city manager. In the event that the city and the applicant cannot agree on the contents of a proposed detailed site development plan, the applicant can appeal to the city plan commission within fifteen business days from the denial of the application. An application for a detailed site development plan must include the following:

1. Proof of outreach and consultation with stakeholders such as residents, parents, facility-end users, elected officials, and neighborhood associations in planning the development of the civic building and/or public space. Examples of outreach and consultation include but are not limited to notice of meetings, flyers of the event, sign-in sheets, and/or newspaper clippings.

2. A detailed site development plan must depict the following:

a. Designation of a system of A and B streets serving the facility. An A street is defined as a street that includes a main principle entrance and the architectural and design focal points of the building and/or buildings. Parking is restricted along the A street as outlined in Section 20.10.145 A. Frontage build-out. A B street is defined as a secondary street where the emphasis should be on driveways, drop-off zones, parking lots, and auxiliary entrances.

b. Minimum five-foot sidewalks with minimum five-foot parkway along all street frontages shall be required.

c. In no instance shall parking be placed between the principal entrance and the street. Parking may be placed beyond the sixty percent unobstructed frontage build-out.

d. The number of access points shall not exceed three along any B street and two along any A street.

e. The width of driveway apron shall not exceed twenty-eight feet.

f. The building design may strive to serve as a community landmark. Factors to be considered may include: the principal entrance of the building should serve as a terminating vista and other architectural design elements should be compatible with the surrounding area and/or districts.

g. Plazas, courtyards, and/or other passive open space components may be incorporated within the site.

h. Landscaping shall conform to current city regulations. Exceptions to reduce requirements may be granted as per Section 18.46.90 of the El Paso City Code.

i. When possible, educational facilities may be located adjacent to a public park.

j. Principle frontage screening may be constructed and be limited to a four-foot maximum combination masonry material and decorative wrought iron screening fence beyond the unobstructed sixty percent frontage build-out as outlined in Section 10.20.145 D.2.c.

3. Schools are encouraged to enter into intergovernmental agreements for the shared use of school facilities.

(Ord. No. 18104, § 4, 12-17-2013; Ord. No. 19244, § 13, 10-12-2021)

20.10.146 Civic and cultural district.

A. Regulations should allow for a variety of sign sizes, types, and technologies associated with professional sports, cultural events, festivals, outdoor markets and other entertainment events where large numbers of people congregate, and where street closures may regularly be required. The advertising and messaging allowed within the district should be as varied as the events that take place within it.

B. District boundaries: Beginning at the intersection of the north ROW boundary of West Missouri Avenue and the east ROW boundary of North Oregon Street,

Thence southeast along the east ROW boundary of North Oregon Street to its intersection with the south ROW boundary of West Franklin Avenue,

Thence southwest along the south ROW boundary of West Franklin Avenue to its intersection with the east ROW boundary of North Santa Fe Street,

Thence in a southern direction along the east ROW boundary of North Santa Fe Street to its intersection with the south ROW boundary of West San Antonio Avenue,

Thence southwest along the south ROW boundary of West San Antonio Avenue to its intersection with the west ROW boundary of South Durango Street,

Thence in a northerly direction along the west ROW boundary of South Durango Street to its intersection with the south ROW boundary of West San Francisco Avenue,

Thence in a westerly direction along the south ROW boundary of West San Francisco Avenue to its intersection with the east ROW boundary of South Coldwell Street,

Thence in a south direction along the east ROW boundary of South Coldwell Street to its intersection with the north ROW boundary of West Paisano Drive,

Thence in a northwesterly direction along the north ROW boundary of West Paisano Drive to its intersection with the south ROW boundary of the Union Pacific Railroad Company,

Thence in a southeasterly direction along the south ROW boundary of the Union Pacific Railroad Company to its intersection with the west ROW boundary of South Durango Street,

Thence in a northerly direction along the west ROW boundary of South Durango Street to its intersection with the north ROW boundary of West Missouri Avenue,

Thence northeast along the north ROW boundary of West Missouri Avenue to the point of beginning.

(Ord. No. 18135, § 1, 3-4-2014; Ord. No. 019578, § 3, 12-12-2023)

20.10.150 Reserved.

Editor's note—Ord. No. 18241, § 3, adopted September 9, 2014, repealed § 20.10.150, which pertained to congregate home and derived from Ord. 16817 § 4, 2008; Ord. 16653 § 2 (part), 2007.

20.10.160 Contractor yards.

A. The contractor's business office may be an accessory use to a contractor's yard.

B. Vehicles and equipment used by that contractor may be repaired or maintained in a contractor's yard provided such work is done in an enclosed building or structure.

C. A six-foot high screening wall shall be required at the rear property line and at interior side property lines, and a forty-two inch high screening wall shall be required at the front property line and side street property lines (except where otherwise prohibited by this Code) to minimize visual impacts on adjacent properties and public rights-of-way. (Ord. 16653 § 2 (part), 2007)

20.10.165 Credit access business.

The provisions of this section apply to any property with a use designation of "credit access business" as defined by this Title in Section 20.02.279.

A. No credit access businesses may be located within one thousand feet, measured from property line to property line, of any other credit access business.

B. No credit access businesses may be located within three hundred feet, measured from property line to property line, of a lot in a residential district, SmartCode zone or special control area as defined by Chapter 20.18.250.

C. No credit access business may be located within five hundred feet of an existing freeway or new freeway as defined in Section 20.02.392, measured from the property line of the credit access business to the nearest freeway or new freeway travel lane.

D. A credit access business may only operate within a freestanding building.

E. Credit access businesses are prohibited as accessory uses and may not operate in the same freestanding structure as any other use.

F. In zoning districts where credit access businesses are permitted, a special permit shall be required, subject to the requirements of Chapter 20.04 Article V., Special Permit Approval Process.

G. All credit access businesses shall comply with the provisions set forth in Chapter 5.17 (Credit Access Businesses) of the El Paso City Code. Failure to comply with the provisions of this chapter or those contained within this Title shall subject the property to forfeiture of the special permit, per Chapter 20.04.310, Compliance with Special Permits.

H. Any credit access business not in conformance with the provisions of this Chapter at the time of the effective date of this ordinance shall be deemed nonconforming and subject to the provisions of Chapter 20.22, Nonconforming Situations.

(Ord. No. 18244, § 2, 9-16-2014)

20.10.170 Reserved.

Editor's note—Ord. No. 019734, § 3, 5-28-2025, repealed § 20.10.170, which pertained to custom shops and derived from Ord. 16653 § 2 (part), adopted 2007.

20.10.175 Disabled group dwelling.

A. Occupancy: Not more than six persons with disabilities and two supervisors may reside in a community home at the same time.

B. An on-site resident staff person must be present at all times, whenever any residents of the facility are present.

C. The establishment shall be operated and maintained in the character of a residential dwelling in harmony with and appropriate in appearance to the character of the general vicinity in which it is to be located.

D. Districts Permitted: when located at least 1,000 feet from all other licensed disabled group dwellings and licensed group residential facilities, by right in the following districts: R-1, R-2, R-3, R-4 and R-5, RMH, A-1, A-2, A-3, A-4, A-0 A-3/0, A-M; C-1, C-2, C-3, C-4, C-5; and in special purpose districts R-F; by Detailed Site Plan in the following special purpose districts PMD, S-D, P-R I, P-R II, and SRR; by Master Zoning Plan in special purpose district R-MU. The spacing component of these use regulations is based, not on the disabled status of the residents, but on the non-family status of the groups.

E. Exception to the Distance Requirements: The owner and applicant may request an excep-

tion to the distance requirement from City Council. Chapter 20.04 Administrative Provisions, Article VI Changes and Amendments shall be followed to request this exception. The application fee for the public hearing shall be waived. A determination must be made by city council that the enforcement of the distance prohibition in the particular instance:

1. Is not in the best interest of the public;

2. Constitutes waste or the inefficient use of land or other resources;

3. Creates an undue hardship on an applicant;

4. Does not serve its intended purpose;

5. Is not effective or necessary; or

6. After consideration of the health, safety, and welfare of the public and the equities of the situation, determines is in the best interest of the community.

F. In accordance with the Federal Fair Housing Act, this use as defined does not extend to the following people:

1. Persons who claim to be disabled solely on the basis of having been adjudicated a juvenile delinquent;

2. Persons who claim to be disabled solely on the basis of having a criminal record;

3. Persons who claim to be disabled solely on the basis of being registered as a sex offender;

4. Persons who currently use illegal drugs;

5. Persons who have been convicted of the manufacture or sale of illegal drugs; or

6. Persons with or without disabilities who present a direct threat to the persons or property of others.

G. Measurements of distance in this section are taken from property line to property line.

H. In the event a conflict arises regarding the distance requirement, the owner or operator of a disabled group dwelling will have the burden of establishing "first in time" rights for purposes of complying with the distance requirement.
(Ord. No. 18241, § 3, 9-9-2014)

20.10.180 Drilling facilities.

Drilling of oil or gas wells or other similar types of shaft mining shall meet the following minimum requirements:

A. Minimum site of five acres, with minimum lot width of two hundred feet, minimum lot depth of two hundred feet and minimum front, side, side street and rear yard of fifty feet;

B. Any structure exceeding fifty feet in height shall maintain setbacks from all property boundaries on streets equal to the height of the structure;

C. A plan is submitted and approved by city council as part of the special permit application, showing the reclamation of the site and its future use after the extraction has been completed. Approval of the fire chief, building official and the director of the department of environmental services or his designee shall be required and the use shall comply with all appropriate regulations. A bond or other guarantee satisfactory to the city attorney and in an amount approved by the building official may be required by city council as a guarantee that the reclamation plan will be carried out. (Ord. 16817 § 5, 2008; Ord. 16653 § 2 (part), 2007)

20.10.185 Drive-thru facilities.

A principal use shall not be permitted to have a drive-thru facility under the following conditions:

A. The property is located within the C-5 (Commercial) zoning district.
(Ord. No. 019734, § 3, 5-28-2025)

20.10.190 Dry cleaning shops.

No cleaning fluid with a base of petroleum or one of its derivatives shall be used. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 019734, § 3, 5-28-2025)

20.10.200 Energy conversion systems.

A. Solar energy conversion systems components, including, but not limited to, absorption cooling units, collectors, heat exchangers, photovoltaic cell arrays, solar power concentrat-

ing arrays, solar reflectors, including solar dishes and storage water tank units may be permitted as accessory uses and/or buildings in any district in accordance with building permit requirements where applicable and in compliance with the following conditions:

1. If mounted on the main building, it shall not exceed the maximum height limit as provided for such buildings by more than ten feet;

2. If mounted on any accessory structures, it shall not exceed more than ten feet above the top of the structure;

3. No portion of the system shall project over any property line or required front, side, or side street setback.

B. Wind-driven generators or wind-driven pumps, where permitted, are subject to the following conditions:

1. Must be located in the rear yard for all residential Zoning Districts R-1, R-2, R-2A, R-3, R-3A, R-4, R-5, A-1, A-2, A-3, A-4, A-O and residential special districts P-R I, P-R II, SRR, and P-MD;

2. Shall be in compliance with the guidelines of the Federal Aviation Administration and shall not exceed eighty feet in height in commercial C-1, C-2, C-3, C-4 and manufacturing M-1, M-2, M-3 zoning districts and not to exceed thirty five feet in height in residential R-1, R-2, R-2A, R-3, R-3A, R-4, R-5, A-1, A-2, A-3, A-4, A-O and residential special districts P-R I, P-R II, SRR, and P-MD;

3. Any propeller blades or similar devices shall come no closer than ten feet to the ground or to any structure, and shall have clearance from any overhead wires in accordance with electric utility company requirements;

4. No portion of the system shall project over any property line or required front, side, or side street setback;

5. The structural integrity of every wind-driven generator and pump, regardless of height, shall be designed and sealed by a registered professional engineer in the state of Texas;

6. The construction of wind-driven generator and pump foundations must comply with the building code of the city;

7. Noise and vibration levels must be in compliance with Title 9 (Health and Safety) of this Code. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 18454, § 1, 1-12-2016)

20.10.210 Explosives, storage.

Storage of explosives is permitted by special permit where the location and the safeguards imposed to regulate the possession, transportation and use are approved by the fire chief, and in compliance with all applicable state and federal regulations. City council must find that the location and safeguards are reasonable to protect the public safety. Special permits for storage of explosives shall not be granted for more than one year, but may be renewed by following the same procedure as required for original issuance. (Ord. 16653 § 2 (part), 2007)

20.10.220 Farming.

Notwithstanding any other provisions of this title, in all zoning districts except for the PMD (Planned Mountain Development) or the NOS (Natural Open Space), a property may be used wholly or partially for farming and harvesting of field, tree and bush crops as an interim use in any zoning district until a change in use or development occurs on the property. The change in use or development of the property shall be for a use legally permissible within the base-zoning district or as permitted by special permit approved by City Council. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17306, § 4, 4-6-2010)

20.10.230 Feed yards.

A. A minimum site of twenty acres is required.

B. Buildings or feeder lots for five or more cattle shall not be closer than five hundred feet from the nearest property line.

C. Written evidence of approval from the Texas Commission on Environmental Quality

(TCEQ) to determine any additional environmental protection requirements must be submitted with the building permit application. A feed yard may not be located within certain sensitive systems, including, but not limited to: federally-designated wetlands, designated flood plains, and state-designated areas of "Special Sensitivity" to environmental impacts due to topography, soil type (i.e., sand, karst, etc.), water quality, natural habitat significance, or public health and welfare protection.

D. Shall comply with Title 7 of this Code. (Ord. 16653 § 2 (part), 2007)

20.10.240 Freight and passenger terminals.

The following uses are considered freight and passenger terminals: transportation terminal type A, transportation terminal type B, passenger station, motor-carrier terminal, railyard, auxiliary rail facilities, airport, intermodal facility, heliport, airpad, helistop, interlocking tower, diesel maintenance facility, and railroad repair shop; and

The proposed development shall comply with the development standards specified below which shall be required on the building permit application:

A. Lighting shall comply with Title 18 of this Code.

B. Screening. A screening wall complying with Chapter 20.16 shall be provided along the property lines abutting an existing residential use or an existing R, A, PR, SRR, PMD or NOS zoning district, and adjacent to any right-of-way or easement which separates the property from a residential use or an R, A, PR, SRR, PMD or NOS zoning district, except for necessary ingress and egress and where otherwise prohibited by this Code

C. Perimeter Treatment. A minimum perimeter setback shall be provided along the property lines abutting an existing residential use or an existing R, A, PR, SRR, PMD or NOS zoning district, and adjacent to any right-of-way or easement which separates the property from a residential use or an R, A, PR, SRR, PMD or NOS zoning district, to minimize potential negative impacts created by any activity within the site as follows:

Use	Setback (in feet)
Passenger station	100
Transportation terminal type A or B	100
Railyard, auxiliary rail facilities	100
Railroad repair shop	100
Diesel maintenance facility	100
Intermodal facility	100
Airport	1500
Heliport	500
Airpad	150
Helistop	150
Motor-carrier terminal	050
Other uses	050

1. Within the minimum perimeter setback, employee and visitor off-street parking and necessary walks and drives shall be allowed. The use of the property within the designated perimeter setback for storage of containers, truck chassis, equipment, trailers or truck parking areas is expressly prohibited. This perimeter setback shall replace the required yard standard of the district where it abuts the residential use or residential zoning district.

2. Where a right-of-way or easement separates the property from a residential use or residential zoning district, the width of such right-of-way or easement shall be included in meeting the perimeter setback requirement, provided, however, that the setback from the property line shall never be less than that required in the district.

3. The minimum perimeter setback may be reduced by the zoning administrator when topographic conditions negate the buffering effect of the additional setback, provided, that the setback from the property line shall never be less than that required in the district. A fee for processing requests to reduce the minimum perimeter setback requirement shall be as provided in Chapter 20.04.

D. Additional requirements for passenger terminals (except an airpad or helistop).

1. A lobby or waiting room with a floor area of not less than two hundred square feet must be provided.

2. Seating in the lobby or waiting room must be provided at a minimum of one seat for every twenty-five square feet of floor area in the lobby or waiting room.

3. The outdoor sale of general merchandise or food is prohibited, except for vending machines.

4. No loading or unloading of passengers is permitted on public right-of-way.

5. Analysis Required. Traffic and parking demand studies must be submitted with an application for a special use permit.

6. Outside Speaker Restrictions. Outside speakers are not permitted within fifty feet of a property line abutting a residential district or use. Outside speakers, when permitted, must face away from adjacent properties. (Ord. 16653 § 2 (part), 2007)

(Ord. No. 17306, § 4, 4-6-2010)

20.10.250 General warehousing.

A. Screening. A screening wall complying with Chapter 20.16 (Screening and Fencing) shall be provided along the property lines abutting an existing residential use or an existing R, A, PR, SRR, PMD or NOS zoning district, and adjacent to any right-of-way or easement which separates the property from a residential use or an R, A, PR, SRR, PMD or NOS zoning district, except for necessary ingress and egress where otherwise prohibited by this Code.

B. Perimeter Treatment. A minimum perimeter setback of fifty feet shall be provided along the property lines abutting an existing residential use or an existing R, A, PR, SRR, PMD or NOS zoning district, and adjacent to any right-of-way or easement which separates the property from a residential use or an R, A, PR, SRR, PMD or NOS zoning district, to minimize potential negative impacts created by activity within the site.

1. Within the minimum perimeter setback, employee and visitor off-street parking and loading and necessary walks and drives shall be allowed. This perimeter setback shall replace the required yard standard of the district where it abuts the residential use or residential zoning district.

2. In the case where a right-of-way or easement separates the property from a residential use or residential zoning district, the width of such right-of-way or easement shall be included in meeting the perimeter setback requirement, provided that the setback from the property line shall never be less than that required in the district.

3. The minimum perimeter setback may be reduced by the zoning administrator when topographic conditions negate the buffering effect of the additional setback, provided, that the setback from the property line shall never be less than that required in the district. A fee for processing requests to reduce the minimum perimeter setback requirement shall be as provided in Chapter 20.04.

C. Retail sales are permitted as part of the warehouse use provided the retail sales floor area does not exceed ten percent of the total warehouse floor area.

1. Up to one hundred percent of the total warehouse floor area may be devoted to retail sales activities during an occasional warehouse sale.

2. No more than four occasional warehouse sales may be permitted in any twelve-month period and each occasional warehouse sale must be limited in duration to no more than three consecutive calendar days. (Ord. 16653 § 2 (part), 2007)

(Ord. No. 17306, § 4, 4-6-2010)

20.10.260 Governmental uses and buildings.

Where permitted in a district, public or governmental buildings and uses, public, private or parochial schools, libraries, churches and philanthropic institutions shall be allowed to operate a collection facility subject to the standards in Section 20.10.520. When a special permit is required for heavy governmental uses in or abutting residentially zoned property, a screening wall shall be required at any lot line abutting residentially zoned

property. (Ord. 16761 § 1 (part), 2007: Ord. 16653 § 2 (part), 2007)

20.10.265 Group residential facilities.

A. Occupancy: Seven or more disabled persons.

B. An on-site resident staff person must be present at all times, whenever any residents of the facility are present.

C. The establishment shall be operated and maintained in the character of a residential dwelling in harmony with and appropriate in appearance to the character of the general vicinity in which it is to be located.

D. Districts Permitted: when located at least 1,000 feet from all other licensed disabled group dwellings and licensed group residential facilities, by special permit in the following districts: R-1, R-2, R-3, R-4 and R-5, RMH, and in special purpose districts R-F; and by right in the following districts A-1, A-2, A-3, A-4, A-0 A-3/0, A-M; C-1, C-2, C-3, C-4, C-5; by Detailed Site Plan in the following special purpose districts PMD, S-D, P-R I, P-R II, and SRR; by Master Zoning Plan in special purpose district R-MU. The spacing component of these use regulations is based, not on the disabled status of the residents, but on the non-family status of the groups.

E. Exception to the Distance Requirements: The owner and applicant may request an exception to the distance requirement from city council. Chapter 20.04 Administrative Provisions, Article VI Changes and Amendments shall be followed to request this exception. The application fee for the public hearing shall be waived. A determination must be made by city council that the enforcement of the distance prohibition in the particular instance:

1. Is not in the best interest of the public;

2. Constitutes waste or the inefficient use of land or other resources;

3. Creates an undue hardship on an applicant;

4. Does not serve its intended purpose;

5. Is not effective or necessary; or

6. After consideration of the health, safety, and welfare of the public and the equities of the situation, determines is in the best interest of the community.

F. In accordance with the Federal Fair Housing Act, this use as defined does not extend to the following people:

1. Persons who claim to be disabled solely on the basis of having been adjudicated a juvenile delinquent;

2. Persons who claim to be disabled solely on the basis of having a criminal record;

3. Persons who claim to be disabled solely on the basis of being registered as a sex offender;

4. Persons who currently use illegal drugs;

5. Persons who have been convicted of the manufacture or sale of illegal drugs; or

6. Persons with or without disabilities who present a direct threat to the persons or property of others.

G. Measurements of distance in this section will be taken from property line to property line.

H. In the event a conflict arises regarding the distance requirement, the owner or operator of the group residential facility will have the burden of establishing "first in time" rights for purposes of complying with the distance requirement.

(Ord. No. 18241, § 3, 9-9-2014; Ord. No. 18589, § 2, 11-1-2016)

20.10.266 Halfway house.

A. A special permit for a halfway house shall be issued for a two year time period. Periodic review periods may be established as part of the special permit.

B. The treatment of alcoholic, narcotic, or psychiatric problems is allowed under this use if expressly permitted by the special permit.

C. A halfway house may not be permitted within one thousand (1,000) feet of another halfway house or a homeless shelter.

D. Additionally, a halfway house may not be permitted within one thousand (1,000) feet of the following:

1. A church;

2. A public or private elementary or secondary school;

3. A nursery school, kindergarten, child care center, day nursery or day care center;

4. A university, college, vocational or business school;

5. A boundary of any residential district;

6. A public park; or

7. The property line of a lot devoted to any residential use.

E. A security plan must be submitted with an application for a special permit for a halfway house. The security plan must demonstrate compliance with the security requirements of state law. The director shall furnish a copy of security plans for halfway houses to appropriate city, county, state, and Federal (if applicable) agencies for their review and approval before the city plan commission and the city council consider the application. Provisions addressing security must be included in any ordinance granting a special permit for a halfway house. A compliance report must be submitted to the director every two years after the date of passage of an ordinance granting a special permit and with each application for renewal of a special permit for a halfway house.

F. Measurements of distance under this paragraph are taken radially. "Radial" measurement means a measurement taken along the shortest distance between the nearest point of the building site of the halfway house and the nearest point of the property line of another use, or of a protected zoning district boundary.

G. Within ninety (90) days of the passage of this ordinance the owner or operator of an existing halfway house must comply with the registration provisions of Section 20.22.070 and comply with the provisions of Chapter 20.22 Nonconforming Situations.

(Ord. No. 18218, § 3, 7-29-2014)

20.10.270 Home occupation uses.

A. Where permitted as an accessory use in a district, a home occupation shall meet the following requirements:

1. Home occupations shall be secondary and incidental to the use of the premises as a dwelling, and may only be conducted by the owner or tenant of the residence, or a family member of the owner or tenant;

2. A home occupation may not produce noise, vibration, smoke, dust, odor, heat, glare, fumes, electrical interference, or waste run-off outside the dwelling unit or garage;

3. Shall typically operate during the hours of seven a.m. to seven p.m. for outdoor activities and seven a.m. to ten p.m. for indoor activities; except that certain residential uses may be operated on a 24-hour basis;

4. Instructional classes may be held outside of the main building, a maximum of six students shall be allowed in each session;

5. Shall not conduct outdoor activities unless the activities are screened from the neighboring property by a solid fence of at least six feet in height;

6. Home occupation uses shall minimize negative impacts on adjoining properties and the residential character of the lot and dwelling shall be maintained. A home occupation that requires a structural alteration of the dwelling to comply with the nonresidential construction code is prohibited, except for modifications to comply with accessibility requirements;

7. No more than normal household vehicular traffic shall be generated by the home occupation;

8. No home occupation shall generate delivery or pick-up by commercial vehicles more frequently than normal household traffic;

9. No more than two persons who are not residents may be employed on the site at any one time per home occupation; provided, however, the number of employees permitted for child and adult care facilities may exceed two when required by license or state law;

10. No more than twenty-five percent of the gross floor area of the dwelling shall be used in accommodation of the home occupation, except for licensed boarding home, child and adult personal care facilities;

11. No equipment, materials, or merchandise associated with the home occupation shall be displayed or stored where visible from any street or public right-of-way;

12. One sign, not exceeding one square foot in sign area and not internally illuminated shall be permitted for a home occupation. A sign permit shall not be required for a sign complying with this section;

13. Only products made on the premises or incidental to the permitted home occupation may be sold on the premises.

B. Uses permitted as home occupations that do not require a license include:

1. Consultation office, to preclude physical treatment, of a physician, dentist, licensed massage therapist, or other similar licensed medical practitioner;

2. Office of a lawyer, legal assistant, psychologist, psychiatrist, accountant, business management, professional member associations, bookkeeper, auditor, broker, tax consultant, financial consultant, travel agent, appraiser, architect, landscape architect, interior designer, draftsman, engineer, urban planner, builder, contractor, designer, desktop publisher, advertising professional, biologist, botanist, geologist, archeologist, paleontologist, secretarial and clerical services;

3. Office of a private investigator, body guard, personal trainer, nutritionist, clown to include magician entertainment, disc jockey;

4. Office of computer software and hardware consultant to include hardware repair, Web master, data processor, Internet entrepreneur;

5. Office of plumber, electrician, landscape services, locksmith, carpet cleaner, HVAC contractor, painter, janitorial services;

6. Shop of dressmaker, seamstress, tailor;

7. Office of salesperson, sales representative, real estate agent, insurance agent, caterer, event planner;

8. Studio of author, composer, artist, painter (fine art), sculptor, photographer;

9. Studio of music or dance instructor, martial arts instructor, personal trainer, tutor;

10. Shop for arts and crafts such as making of stained glass, ceramics, jewelry, lapidary work, rug weaving, floral work;

11. Shop for making and repair of portable musical instruments, bicycle repair;

12. Office of telemarketing service, shuttle service, limousine service;

13. Occupations similar to those listed above.

14. Reserved.

C. Reserved.

D. Application for a home occupation license shall be made pursuant to the requirements of Title 5 (Business taxes, licenses and regulations) of this Code.

E. A home occupation shall not include the following uses:

1. Physical or medical treatment of persons or animals, animal hospitals or animal breeding;

2. Beauty shops or barber shops;

3. Carpenter shops;

4. Electrical shops;

5. Massage establishments, other than those employing massage therapists licensed by the state;

6. Plumber shops;

7. Heating and air conditioning shops;

8. Radio shops;

9. Auto repairing or painting;

10. Furniture repairing;

11. Sign painting;

12. Contractors yards;

13. Scrap and salvage services;

14. Restaurants;

15. Cocktail lounges;

16. Rental outlets;

17. Equipment sales;

18. Adult oriented businesses;

19. Recycling centers;

20. Drop-off recycling collection facilities;

21. Businesses involving the repair of any type of internal combustion engine, including equipment repair services.

(Ord. 16653 § 2 (part), 2007; Ord. No. 17442, § 19, 10-26-2010; Ord. No. 17577, §§ 5—7, 7-7-2011; Ord. No. 18589, § 3, 11-1-2016)

20.10.275 Homeless shelter.

A. Special permits issued for a homeless shelter shall expire without any further action by the city council when: the use for which the permit was issued changes to another use; the facility ceases to operate for one hundred twenty days or more; or the occupancy changes.

B. An application for this shelter shall include an operational plan of the homeless shelter. The operational plan shall provide a description of the intended use and sufficient details to adequately describe the intended operations of the center.

C. The operational plan may include the following:

1. An organizational tree including an estimated total number of professional staff and volunteers that will work at the shelter;

2. The estimated number of beds to be provided;

3. The estimated average population per month;

4. A description of the services to be provided, such as job placement, drug and alcohol treatment, and other rehabilitative or training services;

5. A description of the population expected to be served, for example women, women and children, single men, families, etc.;

6. Expected length of stay per person;

7. Any other information the applicant believes could be helpful to explain the operation and compatibility of the proposed shelter with the proposed location.

D. A homeless shelter may not be permitted within one thousand (1,000) feet of another homeless shelter or halfway house.

E. A homeless shelter may not be permitted within one thousand (1,000) feet of a school or daycare.

F. Measurements of distance under this section are taken radially. "Radial" measurement means a measurement taken along the shortest distance between the nearest point of the building site of the halfway house and the nearest point of the building site of another use, or of a protected zoning district boundary.

G. Within ninety (90) days of the passage of this ordinance the owner or operator of an existing homeless shelter must comply with the registration provisions of Section 20.22.070 and comply with the provisions of Chapter 20.22 Nonconforming Situations.

H. Homeless shelters are subject to the provisions of the City's Nuisance Ordinance codified in Section 9.16. It is unlawful and constitutes a nuisance for any person in the city to carry on any trade, business or occupation injurious to the health of those who reside in the vicinity, or to suffer any substance which shall have that effect to remain on the premises in his possession.
(Ord. No. 18241, § 3, 9-9-2014)

20.10.280 Infill development.

A. Purpose. The purpose of these regulations is to encourage infill development by simplifying procedures for plan approval, provide a more flexible approach to design and development of infill development, permit the conversion or adaptive reuse of buildings and properties, encourage planning and design flexibility and innovations, create a community environment that is enhanced by a mix of residential, commercial, recreational, open space, employment and institutional uses, and assure community compatibility and an efficient use of land and public services. Additionally, the regulations herein serve to supplement the city's tax base by addressing the issue of urban blight and providing relief mechanisms for developing historically underutilized and vacant parcels within the city's urban core which is in keeping with the city's adopted goals and policies.

B. Location Criteria. An infill development may be located on any parcel of land which meets at least one of the following criteria:

1. Any parcel of land designated within a historic district and developed in compliance with Section 20.20.080.

2. Any parcel of land within the downtown plan area.

3. Any parcel of land annexed prior to 1955.

4. Parcels of land within or that share a common property line to an existing subdivision platted for no less than twenty-five years.

5. Any brownfield or greyfield development.

6. Parcels of land within areas identified by the city's comprehensive plan as G-2 traditional neighborhood and G-7 industrial and/or railyards.

7. Redevelopment of sites previously or currently occupied by civic buildings, public spaces or educational facilities as defined in Section 20.10.145.

C. Design. Applications for infill development shall be designed in a manner that is consistent and compatible to the massing and character of the surrounding properties and the general design policies and guidelines included in the adopted comprehensive plan. Consistency of massing and character shall be determined as shown on the site plan with typical elevations and proposed construction materials, that the proposed construction is compatible with the overall design features and building development of the neighborhood within which the proposed infill development is located. Design features include, but shall not be limited to, building height, architectural style, building materials, landscape and setbacks. Additionally, applications for infill development must meet all of the following mandatory design requirements and no less than three of the selective design guidelines:

1. Mandatory Design Requirements: Applications for infill development shall comply with all of the following requirements.

i. Where on-site surface parking is proposed, it shall be located at the rear of the property and when possible accessed via alleyway; or at the side of the property and screened in accordance with Section 21.50.070(F)(5). On-site surface parking shall not be located in the front yard.

1. The zoning administrator may grant an exception to this requirement when the following site conditions exist:

a. Exceptional topographical conditions exist that result in an access driveway with a percent grade greater than fourteen percent.

b. Existing development that shares a common property line at the rear of the property.

c. Lots with less than fifty feet of street frontage.

d. Alley right-of-way is unimproved or unpaved.

e. Redevelopment of single family residential parcels in which parking in the rear would not be consistent with existing development along the block face.

2. When on-street parking directly abutting the property is not present, the applicant may request the installation of on-street parking. The application fee may be subject to reimbursement.

3. Applicants shall have the opportunity to appeal the zoning administrator's decision in the event of a denial any such determination by the zoning administrator in accordance with Section 2.16.040.

ii. Buildings shall be placed on the parcel such that the principal orientation is toward the main street and the principal entrance is from the sidewalk.

1. For purposes of this section, main street shall be defined as the street of higher classification within the city's adopted thoroughfare plan. In cases where adjacent streets are of the same classification the zoning administrator shall determine the main street based on the orientation of adjacent buildings along the same block face.

iii. For proposals abutting existing residential development the front building setback shall not deviate from the average front setback of lots within the same block as the proposed development by more than fifteen percent.

2. Selective Design Guidelines: Applications for infill development shall comply with no less than three of the following requirements.

i. Any new structure with a ground floor commercial use shall demonstrate that building facades facing public rights-of-way have a majority (fifty percent or more) transparent surface on the ground floor. Transparent surface elements include, but are not limited to, doors and non-opaque windows.

ii. The percentage of gross floor area divided by the total lot area for infill development projects shall be no less than eighty percent.

iii. The project shall propose a mix of land use categories as classified in Section 20.08.030 (e.g., residential and commercial).

iv. The project shall propose commercial activity within or directly abutting an adjacent street sidewalk. Examples of qualifying commercial activity include, but are not limited to, the placement of outdoor seating and tables or other sidewalk furniture, and stands for the sale of goods and services.

v. The total width of the primary structure shall be greater than or equal to 80 percent of the total lot width along the main street. For the purposes of this calculation, any necessary vehicular access driveway shall be subtracted from the total lot width.

vi. The project shall demonstrate compliance with one of the architectural styles defined in the Community Design Manual of Plan El Paso.

vii. The height of any proposed infill development shall be equal to at least half the width of the widest abutting street.

viii. The project includes low impact storm water management including, but not limited to depressed landscaped areas, bioswales, vegetated roofs, pervious pavements, capture and reuse systems.

ix. One of the following is demonstrated:

1. The project is certified by the United States Green Building Council LEED-BD+C, LEED HOMES, LEED-ND certification system or any equivalent, nationally recognized alternative; or

2. The architect or engineer of record is LEED accredited; or

3. The project qualifies for and participates in the City of El Paso Green Building Grant Program.

x. For projects in residential districts the applicant shall demonstrate that the parcel has been vacant or underdeveloped for no less than fifteen years. For purposes of this guideline only, underdeveloped shall be defined as parcels which do not meet the maximum density permitted in the base zoning district.

xi. For projects in residential districts the applicant shall demonstrate that a private frontage as describe in Chapter 21.80, Table 7a through 7e is proposed.

D. Setback Provisions. The side, front and rear setback requirements of the base zoning district for the property on which the infill development is proposed may be reduced up to one hundred percent by city council.

E. Parking.

1. The minimum parking requirements enumerated in Chapter 20.14 (Off-Street Parking and Loading Requirements) shall be automatically reduced by fifty percent for any use within a designated infill development where on-street parking is available, or, after coordination with the streets and maintenance department, is agreed to be installed at the applicant's own cost. If on-street parking is not available along the block face of the proposed development, proof of parking mitigation in the form of a parking reduction impact study indicating that a reduction in the off-street parking requirement will not create a safety hazard or other condition inconsistent with the objectives of Chapter 20.14, or shared parking agreement shall be required for any requests for parking reduction.

2. The minimum parking requirements enumerated in Chapter 20.14 (Off-Street Parking and Loading Requirements) may be reduced up to one hundred percent for any use within a designated infill development upon submission of a parking reduction impact study indicating that a reduction

in the off-street parking requirement greater than fifty percent will not create a safety hazard or other condition inconsistent with the objectives of Chapter 20.14.

3. Where on-street parking directly abutting the property is not available, the applicant may request the installation of on-street parking. The application fee may be subject to reimbursement.

F. Building Height. The maximum building height permitted in the base zoning district may be increased to meet a maximum building height-to-street width ratio of 1:1 for parcels abutting collector and arterial streets.

G. Landscaping. All applications shall comply with Chapter 18.46. Some applications may be eligible for a reduction in the required landscaping in accordance with Chapter 18.46.090(A)(3).

H. Density. The maximum number of dwelling units per gross acre permitted in the base zoning district may be increased up to fifty percent for an infill development, or as approved by city council.

I. Lots. There shall be no minimum area requirement for lots within an infill development unless otherwise provided in the ordinance designating the infill development overlay.

J. Use Regulations. Unless the ordinance designating the infill development overlay provides otherwise, a proposed infill development may be approved for any use permitted in the base zoning district in which it is located. However, the ordinance designating an infill development overlay may provide a list of principal uses, accessory uses and prohibited uses pursuant to a specific area plan adopted by the city council.

K. Exclusions. The provision of this section shall not be utilized to legalize any existing development which does not conform to the dimensional standards of the underlying zoning district. Additionally, the following development shall be excluded from the provisions of this section:

1. Any greenfield development.

2. Additions to existing structures on lots restricted to single family residential use which do not increase the density.

3. Structures that encroach into required setbacks built without permits.

(Ord. No. 18688, § 2, 5-30-2017)

Editor's note—Ord. No. 18688, § 2, adopted May 30, 2017, amended Section 20.10.280 in its entirety to read as herein set out. Former Section 20.10.280, pertained to similar subject matter, and derived from Ord. No. 16653 § 2(part), 2007.

20.10.290 Keeping of animals for personal use or enjoyment.

Permitted as an accessory use and not as a business, in all districts, when in compliance with Title 7 of this Code. (Ord. 16653 § 2 (part), 2007)

20.10.300 Reserved.

Editor's note—Ord. No. 019734, § 3, 5-28-2025, repealed § 20.10.100, which pertained to laundromats and derived from Ord. 16653 § 2 (part), adopted 2007.

20.10.310 Liquefied petroleum storage and dispensing.

Liquefied petroleum gas, storage and dispensing as a commercial operation. Special permits for such may be issued only upon recommendation of the fire chief and are subject to revocation at any time upon recommendation of the fire chief or upon finding by the city council that the operation is no longer in the public interest. (Ord. 16653 § 2 (part), 2007)

20.10.320 Live-work flex units.

Where permitted in a zoning district, live-work flex units encourage design solutions for compatible mixed uses and are subject to the following restrictions and provisions:

A. Restricted Category.

1. A live-work flex unit under this category shall be permitted within the apartment, commercial, manufacturing and special purpose zoning districts enumerated in the Table of Permissible Uses, Chapter 20.08 (Permissible Uses) of this title.

2. This category permits a mix of single-family residential and office usage and is only for artisans or professionals with no more than one employee and two customers at any time.

3. Building requirements are the same as for single-family residential uses, commercial signage is disallowed, and no separation is required within the flex unit. It is a wide-open unit, where the workplace and living area are fully integrated, and generally built on their own lots or stacked as in a loft building. These units do not permit walk-in trade of retail or food service.

4. Off-street parking shall satisfy the requirements for a single-family residential unit pursuant to Chapter 20.14 (Off-Street Parking and Loading Requirements).

5. The area of the office usage shall be limited to no more than five hundred square feet of gross floor area of the flex unit.

B. Open Category.

1. A live-work flex unit under this category shall only be permitted within the commercial, manufacturing and special purpose districts enumerated in the Table of Permissible Uses, Appendix A of this title.

2. This category allows a single-family residential unit with any permitted office or commercial use allowed in the base-zoning district.

3. There is no minimum or maximum gross floor area requirement.

4. Building, off-street parking and signage requirements shall satisfy commercial standards for the entire area of the flex unit.

5. There is no limitation on the number of employees or customers at any time at the live-work flex unit. (Ord. 16653 § 2 (part), 2007)

20.10.330 Loading spaces (serving another property).

A. Any otherwise permitted use for which the loading requirements of Chapter 20.14 are to be satisfied by loading spaces on property which is located within two hundred fifty feet of the property requiring the loading spaces.

B. Loading spaces serving another property which are located partially or totally within two hundred fifty feet of the property requiring the loading spaces. (Ord. 16653 § 2 (part), 2007)

20.10.340 Manufactured home parks.

A. Each manufactured home space shall have a minimum area of at least three thousand square feet, with a minimum width of thirty feet and minimum depth of ninety feet.

B. Minimum distance between structures:

1. The minimum distance between manufactured home structures, including a garage or carport, shall be ten feet;

2. The minimum distance between manufactured home structures, including a garage or carport, and manufactured home park community buildings shall be ten feet;

3. The minimum distance between a structure and interior access roads shall be ten feet.

C. Open space consisting of at least fifty percent of the lot area of an interior lot or forty percent of the lot area for a corner lot shall be provided.

D. A minimum of five percent of the gross site area of the park shall be devoted to recreational facilities and located in a central location. Community buildings and community use facilities, including adult recreation and child play areas, swimming pools, may be included in computing the area of recreational facilities. However, vehicle-parking areas shall not be used in such computation.

E. Screening. There shall be a screening wall complying with Chapter 20.16 at the perimeter of the manufactured home park. This wall shall be six feet in height at the rear property line and any interior side property lines, and forty-two inches in height at the front property line and any side property lines abutting a side street, except for necessary ingress and egress and except within twenty feet of an intersection, where the maximum height is thirty-six inches.

F. There shall be a minimum of two hundred cubic feet of storage space per manufactured home unit located either in community accessory buildings accessible to all manufactured home park units or in individual accessory buildings at each manufactured home stand.

G. Accessory buildings may be attached to the manufactured home or if separate shall be not less than five feet away from the manufactured home. All additions to manufactured homes shall be engineered and built to comply with currently applicable manufactured home construction standards and must be of such design that the structural components could be disassembled upon removal of the manufactured home unit.

H. One off-street parking space for each manufactured home unit and one off-street parking space for guest parking for each three manufactured home units shall be provided within the manufactured home park in accordance with the standards provided in Chapter 20.14 (Off-Street Parking and Loading).

I. The height limit for any structure intended for occupancy in the manufactured home park shall be thirty-five feet.

J. Internal streets and all traffic control devices and street name signs within a manufactured home park shall be privately owned, built, and maintained. Internal streets shall be designed for safe and convenient access to all spaces and to common facilities.

1. Internal streets shall be kept open and free of obstruction to allow emergency vehicles to have access to all spaces and to common facilities;

2. Internal streets in a manufactured home park shall be constructed and maintained to city standards. They shall be kept free of cracks, holes, and other hazards;

3. An internal street roadway shall have a minimum width of thirty-five feet;

4. All internal streets shall be named and all manufactured homes shall be numbered to conform to block numbers on adjacent public streets. Street name signs shall be of a color and size contrasting with those used for public streets. Street name signs and address numbers shall comply with city code requirements;

5. Each internal street shall be provided with street lighting.

K. Tenant Responsibilities. Each park tenant shall maintain the tenant's manufactured home and lot in compliance with the following:

1. The manufactured home shall be properly placed on its stand and anchored in a manner approved by the city and state. All utilities shall be properly installed in accordance with the instructions of the park's owner or operator, and in accordance with the city code. The building official has the right to refuse to issue permits to connect a manufactured home up to utilities until the tenant or owner or operator of the park shows proof that the manufactured home has been anchored in accordance with city and state regulations;

2. A noncombustible skirting shall be installed around the manufactured home. Such skirting may include any vents, screens, and/or openings necessary for utility and mechanical system hookups;

3. The skirting, and any porches, stairways, awnings and other additions shall be constructed and installed per city code requirements, and maintained in good repair. All requirements of the building code pertaining to single-family dwellings for like structures or additions shall be applicable;

4. The space beneath a mobile shall not be used for storage of flammable or combustible items;

5. A person commits an offense if the person is a park tenant and knowingly fails to maintain the person's manufactured home and lot in compliance with this section;

6. A person commits an offense if the person owns or operates a park and knowingly allows a violation of this section by a tenant.

L. Utilities. All utilities shall be installed in compliance with applicable code requirements.

M. Recreational Vehicles in Parks.

1. A maximum of five percent of the gross area of a park may be dedicated to overnight or short-term use (no longer than fourteen consecutive days) by recreational vehicles.

2. Such portion of the park shall be clearly delineated and shall comply with all requirements of Title 20 for recreational vehicle parks except the requirement for a minimum number of spaces.

3. A person commits an offense if the person owns or operates a park knowingly allows a violation of this section by another person. (Ord. 16653 § 2 (part), 2007)

20.10.350 Manufacturing uses (not listed) in M-Districts.

A. Light manufacturing uses similar to those listed in Chapter 20.08 (Permissible Uses) which do not create any more danger to health and safety in surrounding areas and which do not create any more offensive noise, vibration, smoke, dust, lint, odor, heat, glare or electrical impulse than that which is generally associated with these uses, may also be permitted in the zoning district, subject to a determination by the zoning administrator in accordance with the provisions of Section 20.08.040.

B. The administrator may require an engineering report describing the nature of a process or use and probable impact at property lines. (Ord. 16653 § 2 (part), 2007)

20.10.360 Mixed-use development.

A. Special Development (S-D).

1. Design Requirements—Open Space and Recreation Area. The amount and arrangement of

open space and recreation area should be in accord with standards of the comprehensive plan and the purposes of the design of the development, including preservation of natural landscape, active recreation, passive recreation, and improvement of view as may be appropriate to a particular case. Both private and common use open space are to be encouraged. Open space proposed for common or general public access shall be so designated on the development permit and subdivision plat. Satisfactory provision for the maintenance of common open space shall be provided in accordance with the procedure in Chapter 20.04.

2. Design Requirements—Reservation of Environment. In all S-D development, the elements of natural environment including existing vegetation, arroyos, flood-prone areas, mountains, steep slopes and other features shall be considered in planning the design and layout of buildings, location of streets and preservation of open spaces, in order to further the preservation of the natural environment.

3. The provisions of Chapter 20.20 (Historic Designations) where applicable, shall continue to apply in addition to the provisions of this section.

4. Perimeter Treatment. The perimeter of the planned development shall be designed to ensure compatibility with adjacent existing or proposed development, if known, by provision of compatible uses and structures, setbacks, masonry walls, landscaping or other treatment.

5. Height Regulations. No building shall exceed three stories or forty-five feet in height, except as follows:

a. As provided in Chapter 20.12;

b. Where the development would consist of twenty-five acres or more; or

c. Where, after city plan commission recommendation, city council approves an exception to these height restrictions under the following conditions:

i. The authorized height is compatible with the uses, appearance and environment of adjacent areas,

ii. The applicant submits a traffic study describing traffic volumes and impact of proposed development on adjacent streets,

iii. The council finds that the proposed development mitigates those traffic impacts and provides for an acceptable level of service,

iv. The site is located on an arterial street (collector, minor or major) that is served by a regularly scheduled mass transit line, and

v. Any other condition reasonably necessary to protect the health, safety and welfare of the general public.

6. Review Standards for Establishment of S-D District.

a. The city plan commission and the city council shall review the conformity of the proposed development or redevelopment with the comprehensive plan. The commission and the city council shall study the relationship between uses of high intensity permitted in the S-D district and uses of low intensity, existing or future, outside the proposed S-D district to ascertain compatibility, but shall not reduce the amount of such uses below the maximum established by the section unless such uses create immediate land use conflicts along project boundary lines.

b. Where the development is for single-family detached dwellings that meet all minimum requirements set forth in Chapter 20.12 (Density and Dimensional Standards) a detailed site development plan shall not be required.

c. Where the development is for single-family detached dwellings but does not meet the requirements set forth in Chapter 20.12 (Density and Dimensional Standards); or where the development proposes permitted uses other than single-family detached dwellings, a detailed site development plan shall be submitted in accordance with Chapter 20.04. Additional reasonable conditions may be recommended by the city plan commission and approved by the city council in order to protect the public health, safety and welfare.

B. Union Plaza (U-P).

1. Applicability. The provisions of this section will apply to all parcels of land within the "U-P" Union Plaza District.

2. Development Standards.

a. For mixed-use developments over 1 story in height, where residential and other uses are combined in a single building, residential uses may not occupy the ground floor, except where they comply with the design standards in the "2023 Union Plaza Architectural and Design Guidelines." In other multifamily dwelling buildings, not including commercial uses, residential uses may occupy the ground floor.

b. Off-Street Parking. Off-street parking requirements of Chapter 20.14 shall not apply to properties in the district. Additionally, surface parking lots shall be prohibited in the district.

c. Drive-thru facilities are prohibited in the district.

d. In the district, height limits of buildings or structures within a seven-hundred-foot radius of any part of the facade of the Union Depot shall not exceed forty feet.

3. Plans and Permits Required. Prior to the issuance of any building or related permits for any new construction or renovation of the exterior of existing building(s), drawings and applications shall be reviewed for approval by the city manager or designee, to ensure that the proposed construction complies with the architectural and design guidelines described in this section. Application shall be reviewed within ten business days upon receipt of a complete application. The city manager or designee may request assistance of other departments to review drawings and applications.

4. Architectural and Design Guidelines. The purpose of these guidelines is to protect the district from unsightly construction that would ultimately diminish the appeal of the district. All applications for redevelopment of existing buildings or structures or new construction must comply with the Union Plaza Architectural and Design Guidelines. Copies of the Union Plaza Architectural and Design Guidelines are on file in the planning and inspections department.

5. Application Requirements. In addition to those items required for the application for a building permit, a detailed site development plan is required prior to development within the district. The process for application and approval shall be in accordance with Title 20, Article III - Detailed Site Development Plan Approval Process. The requirement for a detailed site development plan shall only apply to new construction or additions to existing structures.

C. Planned Residential (PR-1 and PR-2).

1. Open Space and Recreation Area. The amount and arrangement of open space and recreation area should be in accord with the comprehensive plan and the purposes of the design of the development, including preservation of natural landscape, active recreation, passive recreation, and improvement of view as may be appropriate to a particular case. Both private and common use open space are to be encouraged. Open space proposed for common or general public access shall be so designated on the detailed site development plan and subdivision plat. Satisfactory provision shall be made for the maintenance of common open space in accordance with the procedure in Chapter 20.04.

2. Preservation of the Environment. In all P-R developments, the elements of natural environment, including existing vegetation, arroyos, flood-prone areas, mountains, steep slopes and other features, shall be considered in planning and design and layout of buildings, location of streets and preservation of open spaces, in order to further the preservation of the natural environment.

3. Perimeter Treatment.

a. The perimeter of the planned development shall be designed to insure compatibility with adjacent existing or potential development by provision of compatible uses and structures; masonry walls; and landscaping or other treatment.

b. A minimum setback of ten feet plus two additional feet of separation for each story above two shall be maintained between any structure and the outside boundary line of the planned residential development.

4. Review Standards for Establishment of P-R District.

a. The city plan commission and the city council shall review the conformity of the proposed

development or redevelopment with the comprehensive plan. The commission and the city council shall study the relationship between uses of high intensity permitted in the P-R district and uses of low intensity, existing or future, outside the proposed P-R district to ascertain compatibility, but shall not reduce the amount of such uses below the maximum established by this section unless such uses create immediate land use conflicts along project boundary lines.

b. Where the development is for single-family detached dwellings that meet all minimum requirements set forth in Chapter 20.12 (Density and Dimensional Standards) a detailed site development plan shall not be required.

c. Where the development is for single-family detached dwellings but does not meet the requirements set forth in Chapter 20.12 (Density and Dimensional Standards); or where the development proposes permitted uses other than single-family detached dwellings, a detailed site development shall be submitted in accordance with Chapter 20.04. Additional reasonable conditions may be recommended by the city plan commission and approved by the city council in order to protect the public health, safety and welfare.

D. Planned Commercial (P-C).

1. Ownership Control.

a. The land in a P-C district shall be developed as a unified whole. All owners shall be included as joint applicants and all approvals shall bind all owners.

b. A building or land shall be used only in accordance with an approved detailed site development plan conforming with Chapter 20.04 and only for the uses permitted in Chapter 20.08, provided that the district shall be planned and developed as a unit, subject to the additional requirements and provisions of this section.

2. General Procedures—Plans Required.

a. Establishment of a P-C planned commercial district shall follow the procedures for changes and amendments of Chapter 20.04, including notice and hearings, recommendations by the city plan commission and action by the city council. A detailed site development plan complying with the requirements of Chapter 20.04 shall be required.

b. If the project is to be accomplished as a series of development units, a detailed site development plan of a proposed unit shall be submitted with a general concept plan and a schedule of phasing provided.

c. The proposed development shall follow all applicable procedures, standards, and requirements of this chapter and other regulations governing the subdivision of land. Where a plat is required, no building permit shall be issued until a final plat of the proposed development, or part thereof, is approved by the city plan commission, filed and recorded.

3. Supplemental Height and Bulk Standards.

a. When a community or regional shopping center is a part of a planned development of one hundred fifty acres or more, or where there are unique features of topography, access, and location with respect to existing and future development to justify such action, the city plan commission may recommend and the city council may approve height limits for community and regional shopping centers in excess of those specified in Chapter 20.12.

b. The floor area ratio for a neighborhood shopping center or area shall not exceed 0.30. A maximum floor area ratio may be specified for community and regional shopping centers or general commercial areas as a condition of development permit approval.

4. Compatibility with Nearby Properties. The development shall be designed to promote harmonious relationships with surrounding adjacent and nearby properties, developed and undeveloped, particularly in larger centers or where tall buildings are to be located in the vicinity of buildings of low height, and to this end may employ such design techniques as may be appropriate to a particular site, including location of building, orientation, spacing and setback of buildings, location

of access points, size and location of signs, open spaces and parking areas, grading, landscaping and screening.

5. Access. The principal means of access shall be from arterial or collector streets. For a major shopping center, principal access shall be from at least one major arterial street. In no case shall the principal means of access be from a minor residential street. Access points shall be designed to minimize traffic hazard and congestion and shall be approved by the city engineer.

6. Internal Circulation. The design for internal circulation shall be appropriately related to access points and provide for safe and efficient movement of vehicles and pedestrians with special attention to reduction of crossing conflicts, improvement of visibility, convenience of pickup areas, traffic signs and speed controls.

7. Paved Areas. Service drives or other areas shall be provided for off-street loading and in such a way that in the process of loading or unloading, no truck will block the passage of other vehicles on the service drive or extend into any fire lane or other public or private drive or street used for traffic circulation. The drives, parking areas, loading areas, and walks shall be paved with hard, all-weather surface material meeting applicable specifications of Chapter 20.14.

8. Refuse. Refuse containers or refuse storage areas shall be hidden from general public view, either from within or outside the center, by means of fences, walls, or landscape planting.

9. Findings Required of City Plan Commission. Before recommending approval of a P-C planned commercial district, the plan commission shall make specific findings as follows:

a. That the location and design of the commercial areas are appropriate and are in compliance with the requirements and purpose of the P-C district, and specifically that there is adequate provision for traffic to and from the center, without undue congestion, on existing streets or on streets schedules to be completed by the time the center is to be opened;

b. That a proposed construction timing schedule has been approved by the commission and is recommended for adoption by the city council;

c. Specific conditions, if any, which should be imposed, including recommendations to insure construction of improvements.

10. Abandonment After Final Approval.

a. In the event that the detailed site development plan is approve by the city council and thereafter the applicant or his successor abandons said plan, or in the event the applicant or his successor fails to commence the development of a specific unit within four years after final approval has been granted, then such approval of the detailed site plan shall terminate and be deemed null and void unless such time period is extended by the city council upon recommendation by the city plan commission upon written application by the applicant or his successor.

b. Once terminated, a new detailed site development plan must be approved following the procedures of Chapter 20.04, including public hearing, prior to issuance of a building permit or permits for the project.

E. Planned Industrial (P-I).

1. Compatibility with Nearby Properties. The industrial development shall be designed to promote harmonious relationships with surrounding adjacent and nearby properties, developed and undeveloped, and to this end may employ such design techniques as may be appropriate to a particular case, including location of permitted elements, orientation, spacing and setback of buildings, maintenance of natural vegetation, location of access points, size and location of signs, open spaces and parking areas, grading, landscaping and services.

2. Enclosed Buildings. All uses shall be conducted within a completely enclosed building of permanent and durable construction, with no open storage of raw, in process, or finished material and supplies or waste material. Finished or semi-finished products manufactured on the premises may be stored in the open if screened from the street or other abutting property by a solid ma-

sonry wall not less than six feet or more than eight feet in height. This screening must be located behind any required landscaping. Screening may be waived by the city council where it is found the screening will not service the purpose of blocking the view from a street or from a more restrictive zoning district.

3. Parking. Adequate parking space shall be provided off the street for all employees and visitors to the building, if necessary, in excess of the minimum requirements of Chapter 20.14. No parking shall be permitted in the required front yard or within ten feet of the boundary of any residential district and no storage of materials, equipment, or products shall be permitted in any part of a required front yard.

4. Loading.

a. Off-street loading space for individual uses shall be provided in accord with the provisions of Chapter 20.14. Loading operations shall be conducted within a building or screened from general public view from a front street where possible, but may be conducted at the side or rear of buildings whether or not facing a street.

b. Where an industrial tract abuts railroad property containing a spur track on the rear or side property line, railroad loading docks or the building itself may extend to the property line for the purpose of receiving service from the railroad spur tracks.

5. Paved Areas. Service drives or other areas shall be provided for off-street loading and in such a way that in the process of loading or unloading, no truck will block the passage of other vehicles on the service drive or extend into any fire lane or other public or private drive or street used for traffic circulation. The drives, parking areas, loading areas, and walks shall be paved with hard, all-weather surface material meeting applicable specifications of Chapter 20.14.

F. Special Residential Revitalization (SRR).

1. This district is established in recognition that developments containing both residential and commercial uses can create an appealing and vital urban environment when carefully designed. Developments approved for this district shall be designed to eliminate potential use conflicts through creative design methods. The SRR district allows for mixing residential environments with workplaces and services. Development in the SRR district must accommodate transportation systems, surrounding environments and pedestrian movements.

2. District Boundaries. This district is created to maintain a compatible mix of residential and neighborhood commercial uses within the area known as South El Paso. For purposes of this section, South El Paso is defined as the area south of Paisano Drive, and lying between Santa Fe Street and Cotton Street. No applications for SRR zoning may be requested outside of South El Paso.

3. Off-street parking requirements found in Chapter 20.14 shall not apply in this district; loading spaces, however, shall be required to comply.

G. Residential, General and Industrial Mixed Use Districts (RMU, GMU and IMU). Uses permitted in a mixed-use development are as approved by city council through a master zoning plan. A mixed-use development may be authorized to encourage use schemes such as but not limited to, residential, entertainment, medical, and employment centers. The following principles and requirements shall apply to a mixed-use development and shall serve as the basis for approval of a master zoning plan.

1. General Design Principles. These design principles shall serve as guidelines only, and compliance with any guideline within a mixed-use development shall be determined on a case by case basis as part of the master zoning plan and mixed use development plan approval. It is not intended that every mixed-use development conform to all or any set number of the enumerated design guidelines.

a. Development Perspective.

i. That the natural infrastructure and visual character of the development area be retained as derived from existing topography, riparian corridors and other environmentally sensitive areas.

ii. That the development strategy utilized encourages infill and redevelopment in parity with new and existing neighborhoods.

iii. That proposed development contiguous to urban areas be organized as town centers and neighborhoods, and be integrated with the existing urban pattern.

iv. That proposed development noncontiguous to urban areas be organized in the pattern of an isolated community consisting of a complete town center serving the neighborhood(s).

v. That a mixture of housing types and densities be distributed throughout the mixed-use development.

vi. That transportation corridors be planned and reserved in coordination with land use patterns.

vii. That natural or man-made green corridors and open space areas be used to define and connect neighborhoods to other facilities within the development, and that these areas allow for connectivity outside of the development where feasible.

viii. That the development include a framework of transit, pedestrian and bicycle systems that provide alternatives to the automobile.

ix. That neighborhoods with town centers be the preferred pattern of development and that developments specializing in single use be discouraged.

x. That neighborhoods be compact, pedestrian-friendly, and mixed use.

xi. That ordinary activity of daily living occurs within walking distance of most dwellings.

xii. That interconnected networks of streets be designed to disperse and reduce the length of vehicle trips.

xiii. That within neighborhoods, a range of housing types and price levels be provided to accommodate people of diverse ages and incomes.

xiv. That appropriate building densities and land use be provided within walking distance of transit stops.

xv. That civic, institutional and commercial activity be embedded, and not isolated, in the development.

xvi. That a range of open space including parks, squares, and playgrounds be distributed within the development.

xvii. That a development have sufficient size to accommodate the mixed-use concentration of uses.

b. Building Perspective.

i. That buildings and landscaping contribute to the physical definition of streets as civic places.

ii. That the design of streets and buildings reinforce safe environments.

iii. That architecture and landscape design grow from local climate, topography, history and building practice.

iv. That public gathering spaces be provided in locations that reinforce community identity.

v. That the preservation and renewal of historic buildings be facilitated.

vi. That principal buildings and facades, where possible, be located parallel to the frontage line to encourage a community-friendly environment.

2. General Design Elements. A mixed-use development is characterized by any combination of the design elements described below. These design elements shall serve as guidelines only, and compliance with any design element within a mixed-use development shall be determined on a case-by-case basis as part of the master zoning plan and mixed-use development plan approval. It is not intended that every mixed-use development conform to all or any set number of the enumerated design elements.

a. Neighborhoods limited in size and oriented toward pedestrian activity.

b. A variety of housing types, jobs, shopping, services, and public facilities.

c. Residences, shops, workplaces, and other buildings interwoven within the neighborhood, all within close proximity.

d. A network of interconnecting streets and blocks that maintain respect for the natural landscape.

e. Natural features and undisturbed areas that are incorporated into the open space of the neighborhood.

f. A coordinated transportation system with a hierarchy of appropriately designed facilities for pedestrians, bicycles, public transit and automotive vehicles.

g. Well-configured squares, plazas, greens, landscaped streets, preserves, greenbelts, or parks dedicated to the collective social activity, recreation, and visual enjoyment of the neighborhood.

h. Buildings, spaces, and other features that act as landmarks, symbols, and focal points for community identity.

i. Compatibility of buildings and other improvements as determined by their arrangement, bulk, form, character and landscaping to establish a livable and harmonious environment.

j. Classification of uses deploying a range from rural-to-urban to arrange in useful order the typical context groupings of natural and urban areas to ensure compatibility of land uses.

3. Architectural Objectives. As part of the review of the mixed-use development plan the architectural design shall achieve the following objectives:

a. Architectural compatibility;

b. Human scale design;

c. Integration of uses;

d. Encouragement of pedestrian activity;

e. Buildings that relate to and are oriented toward the street and surrounding buildings;

f. Residential scale buildings in any mixed residential area;

g. Buildings that contain special architectural features to signify entrances to the mixed-use development; and

h. Buildings that focus activity on a neighborhood open space, square or plaza.

4. Roadway Design. The roadway designs, whether public or private, used within a mixed-use development may vary depending on the proposed function of the roadway, the anticipated land uses, and the anticipated traffic load. A variety of designs to lend character to the neighborhood are encouraged. The requirements of Title 19 (Subdivisions) of this Code shall apply in all instances.

5. Parking. The off-street parking requirements in Chapter 20.14 (Off-Street Parking and Loading Requirements) of this title shall apply for purposes of calculating required spaces.

Community-parking facilities or shared parking shall be encouraged in lieu of traditional off-street parking design. This concept would permit the collocation of required parking for individual uses in order to promote pedestrian activity within the neighborhood. In instances where shared parking is proposed, a shared parking study shall be reviewed by the city along with any traffic engineering and planning data that are appropriate to the establishment of parking requirements for the uses proposed. A shared parking study shall include, but not be limited to, estimates of parking requirements based on recommendations in studies such as those from the Urban Land Institute, the Institute of Traffic Engineers, or the Traffic Institute, and based on data collected from uses or combinations of uses that are the same or comparable to the proposed uses. The shared parking analysis shall be based on the mixture of uses and corresponding peak demand for all uses. The study shall document the source of data used to develop recommendations.

6. Setbacks. Properties within a mixed-use development shall be allowed zero setbacks for all uses, unless otherwise required by the city council as part of the review of the master zoning plan.

7. Landscaping. Uses within a mixed-use development shall not be required to conform to the landscaping requirements of Title 18 (Building and Construction) of the El Paso City Code. Landscaping, streetscape, and other green areas proposed within the mixed-use development shall be shown and considered as part of the master zoning plan and mixed-use development plan approval process. (Ord. 16915 § 4, 2008; Ord. 16653 § 2 (part), 2007)

(Ord. No. 17442, § 20, 10-26-2010; Ord. No. 17801, § 4, 6-5-2012, eff. 6-11-2012; Ord. No. 19244, § 14, 10-12-2021; Ord. No. 019578, § 4, 12-12-2023)

20.10.365 Mobile service units.

A. Mobile service activities may be conducted only on approved parking surfaces, in zoning districts where the defined use is permitted.

B. An operator permit shall be required for each company providing mobile services. The permit shall be for a period of one year and the fee shall be as established by city council. A renewal application must be filed with the permit official thirty days prior to the expiration of the current permit. All operator permit applications meeting code requirements shall be approved within fifteen days of receipt.

C. The permit application shall include submittal of specifications of the mobile unit and a written authorization form signed by the property owner for each proposed location.

D. No part of the mobile service unit shall be located nearer than seventy-five feet from a residentially-zoned district.

E. The mobile service unit shall not operate in a manner which:

1. Obstructs on-site circulation, visibility or convenient ingress and egress;

2. Subjects the occupants of adjacent buildings to unacceptable noise levels; or

3. Deposits on the parking lot surface any toxic, hazardous and/or nonbiodegradable materials of any type.

F. All fluids collected from any vehicle must be disposed of in compliance with federal, state and local laws.

G. All equipment utilized by the mobile unit shall be mounted on, carried or transported by a self-powered vehicle.

H. No mobile service activities shall be conducted on city streets or rights-of-way.

I. In addition to other penalties imposed by the city code, any violation of the ordinance codified in this section or other applicable laws, codes or regulations shall subject the holder to suspension or revocation of their permit.

J. Sales and service shall only be permitted on private parking lots, occupied by a single owner. Sales to the general public and sales other than to fleets of vehicles are expressly prohibited. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17235, § 3, 11-10-2009; Ord. No. 17442, § 21, 10-26-2010)

20.10.370 Mountain development.

A. Purpose. The purpose of these regulations is to promote the following city objectives within mountain development areas:

1. To protect significant natural features of the mountain development area and preserve the city's unique visual setting as part of the comprehensive plan;

2. To provide an alternative approach to conventional flat land development by allowing transfer of residential densities through clustering of dwellings in order to preserve larger areas of open space;

3. To minimize scarring and disturbances of the natural character of the mountain development area through control of grading and cut/fill operations as defined in the grading ordinance;

4. To control water runoff and soil erosion;

5. To provide a safe means of ingress and egress for vehicular and pedestrian traffic to and within the mountain development area;

6. To encourage sound engineering practices related to mountain development.

B. Minimum District Area. The minimum area for a mountain development district where common or public open space is to be provided shall be one acre. Extensions to the original district, from a common boundary, may be considered in increments of less than one acre, provided, however, that all other requirements are observed.

C. Ownership Control. Where required, the common open space shall be owned by an incorporated or unincorporated association to assure that it will be permanently maintained in its natural state. Open space may be made public if dedicated or transferred in trust to the city and the city council accepts such dedication or transfer without affecting any other provision of this title.

D. Density Permitted. The maximum dwelling units per gross acre shall be calculated based on the percentage average slope of the property as follows:

Percent Average Slope	Maximum Density per Gross Acre
0 to 5	7.0
5.1 to 10	6.0
10.1 to 15	5.0
15.1 to 20	4.0
20.1 to 25	3.0
25.1 to 30	2.5
30.1 to 35	2.0
35.1 to 40	1.5
40.1 or more	1.0

E. Open Space Required. To retain the significant natural features of the mountain development area, common, public or private open space, or a combination thereof, shall be provided as part of a proposed development. The minimum amount of open space to be provided shall be based on the percent average slope of the property as shown below. The required open space within a mountain development district shall be shown on the subdivision plat and detailed site plan.

Percent Average Slope	Open Space Required/Percent of Total Gross Acreage to Remain Percent Average Slope Undisturbed
0 to 5	20
5.1 to 10	25
10.1 to 15	30
15.1 to 20	35
20.1 to 25	40
25.1 to 30	45
30.1 to 35	50
35.1 to 40	55
40.1 or more	60

F. Architectural Design Standards. Building and construction materials within a mountain development district shall meet the following architectural design standards:

1. Mirrored surfaces or any treatments that change ordinary glass into a mirrored surface shall be prohibited;

2. Bright untarnished copper or other metallic surfaces shall be treated to reduce reflections;

3. Materials used for exterior surfaces of all structures shall blend in color, hue, and tone with the surrounding natural desert setting to avoid high contrast;

4. Development design and construction techniques shall blend scale, form and visual character into the natural landform, and shall minimize exposed scars;

5. Exterior lighting shall be low scale and directed downward, recessed, or shielded so that the light source is not visible from the adjacent developments;

6. Reflective building materials shall be prohibited;

7. No exterior paint colors shall be used which have a light-reflecting value (LRV) greater than forty percent. (The LRV of a paint is available from paint manufacturers and it measures the amount of light reflected by a certain color.)

G. Property Development Standards. The following property development standards shall apply to all land, buildings and structures within a mountain development district:

1. Subdivision Plat. Buildings and structures in a mountain development district shall be erected only on land where a plat or replat approved by the city plan commission, has been filed of record, and indicates compliance with the provisions of this section. Each attached or detached single-family dwelling must be platted on an individual lot prior to issuance of occupancy permits;

2. Site Plan. A detailed site development plan complying with all of the requirements of Chapter 20.04 (Administrative Review Procedures) shall be required for all property within a mountain development district, except where a development is for single-family detached dwellings meeting the minimum yard requirements of Chapter 20.12 (Density and Dimensional Regulations) and where common or public open space is provided to satisfy the open space requirements of this section. If a development is to be undertaken in a series of phases, a development schedule indicating the proposed phasing shall accompany the required detailed site plan;

3. Common or Public Open Space. Where required, the total amount and distribution of common or public open space shall be shown on the detailed site development plan and subdivision plat and shall be expressed as the percent of the site which will remain in its natural state. Satisfactory provisions for assuring continued retention of the common or public open space shall be provided;

4. Percent Slope. The percent slope of a proposed mountain development used to determine

the common open space shall be shown on the required detailed site development plan and subdivision plat;

5. Perimeter Treatment. The perimeter treatment of the proposed mountain development shall be designed to insure compatibility with adjacent existing or potential development by provision of compatible land uses and structures. A minimum setback of ten feet of separation for each story or fraction thereof shall be maintained between any structure and the outside boundary of the proposed mountain development.

H. Private Streets. Where authorized by the city plan commission in approving a subdivision plat, streets may be privately owned.

I. Preservation of the Environment. In all mountain developments, existing vegetation, animal life, arroyos, floodprone areas, steep slopes, and other natural features shall be considered in the planning, design and layout of buildings, service areas and location of streets in the allocation of open spaces reserve the natural environment.

J. Right-of-Way and Pavement Widths. The right-of-way and pavement widths for internal ways, streets and alleys within and adjacent to the proposed mountain development shall be:

1. Determined from the standards contained in the city's current subdivision regulations and any applicable ordinance governing streets;

2. In conformity with the estimated needs of the entire mountain development and the traffic to be generated thereby;

3. Adequate and sufficient in size, location and design to accommodate the maximum traffic, parking, loading needs and the access for firefighting equipment vehicles while preventing undue scarring and grading.

K. Off-Street Parking and Loading. The minimum requirements for off-street parking and loading shall be satisfied as set forth in Chapter 20.14 (Off-Street Parking and Loading Regulations).

L. Utilities and Public Services. Every mountain development shall be adequately served by essential utilities and public services such as water, sanitary sewer, storm drainage, police, fire and other similar services.

M. Property Grading Standards. Grading in a mountain development shall be in accordance with Chapter 18.44 (Grading) of this Code. (Ord. 16905 § 1, 2008; Ord. 16653 § 2 (part), 2007)
(Ord. No. 19244, § 15, 10-12-2021)

20.10.380 Reserved.

Editor's note—Ord. No. 019734, § 3, 5-28-2025, repealed § 20.10.380, which pertained to multifamily dwellings and derived from Ord. 16653 § 2 (part), adopted 2007.

20.10.385 Natural open space.

A. Purpose. The purpose of these regulations is to promote the following city objectives within the mountain, hillside, arroyo, bosque, and desert flatland areas, as well as other natural open space areas:

1. To protect and promote ecologically sensitive areas in conformance with the goals and policies of the city's comprehensive plan and open space master plan;

2. To minimize scarring and disturbance of the natural environment, plant and wildlife habitat and visual character of the mountain, hillside, arroyo, bosque, and desert flatland areas through prohibition of development;

3. To control water runoff and soil erosion and to assure continuation of the existing natural drainage system;

4. To preserve land that, if disturbed, may be susceptible to flooding and soil erosion due to steep slopes and runoff;

5. To provide a safe means of ingress and egress for non-motorized traffic to and within the mountain, hillside, arroyo, bosque, and desert flatland areas;

6. To create a separate district that may be used as a buffer from military land and other land uses;

7. To assure the permanent use of such areas for their primary natural function, as well as for enjoyment by the general public.

B. Property development standards. The following land uses and property development standards shall apply to land zoned as NOS.

1. Before land owned by the city and managed and controlled by the public service board is rezoned to NOS, the city and the public service board shall enter into a joint use agreement specifying the duties and responsibilities for the maintenance of the open space and the management of the passive recreational uses permitted within the area rezoned to NOS.

2. Refer to Section 20.08 for uses permitted within the NOS zoning district. The uses specified below shall have additional restrictions:

a. Stormwater retention ponds are permitted but shall be restricted to public facilities only and shall be built in compliance with best practices in low impact design. Additionally, the following standards shall apply:

i. Grading shall not result in excessive erosion or degrade natural drainage paths or create irreparable scarring and shall be limited to the minimum possible disturbance of terrain and natural land features that are necessary to construct the drainage infrastructure.

ii. Upon completion of the drainage infrastructure, the area surrounding the infrastructure shall be revegetated through the replanting of appropriate native, non-invasive, adaptive and drought tolerant vegetation.

iii. Road access, work areas and grading for such access shall be constructed in compliance with best practices in low impact design.

b. Campgrounds shall be restricted as follows:

i. Permitted camping units shall be restricted to tents only;

ii. Access to campsites shall be limited to walking, hiking or other non-motorized means, except that such campgrounds may contain service roads for maintenance of campground facilities.

3. Walls. Refer to Chapter 20.16 (Screening and Fencing) for applicable standards pertaining to walls and fencing.

4. Parking. Off-street parking surfaces shall be constructed of pervious surfaces that may include dirt or gravel. Parking shall be provided in accordance with the approved generalized or detailed site development plan.

5. Site plan. At a minimum, approval of a generalized site plan shall be required for all proposed uses permitted in an NOS district; refer to Section 20.08 for additional site plan requirements by use. In addition to compliance with applicable requirements of this Title, the site plan shall include the following:

a. General features or concept of the proposed use;

b. Location of all impervious surfaces, structures, utilities and associated parking, as well as all areas that will be disturbed by the construction of a permitted use;

c. All areas that shall remain in their natural state;

d. For applications requiring the submittal of a detailed site development plan, only areas being improved shall require illustration of stormwater drainage elements.

6. Signs.

a. On-premises signs shall be permitted; these signs shall comply with all regulations and permitting procedures as codified in Section 20.18 (Signs).

b. Wayfinding signs including, but not limited to, trailhead kiosks, interpretive signs and trail markers may be permitted after review and approval by the city manager or designee.

7. Wildlife sanctuary. For purposes of this section, wildlife sanctuaries shall include areas designated as such by local, state or federal documentation. If governmental documentation cannot be produced with an environmentally sensitive designation that meets the following criteria, then the city manager or designee may evaluate the property and determine if it meets one or more of the following characteristics. If the city manager or designee determines it is not an environmentally sensitive area as defined herein a special permit application may not be processed.

a. Areas with significant natural features;

b. Areas which enhance the open space and aesthetic qualities of the land;

c. Areas that protect agricultural resources;

d. Areas necessary for the preservation of natural resources;

e. Areas containing habitats for breeding, wintering, migratory, threatened, or endangered species;

f. Wetlands and wetland transition areas;

g. Aquifer recharge and discharge areas;

h. Archaeological sites;

i. Waters of the state, which includes arroyos; or

j. Other areas or features that have been designated for protection due to ecological integrity, balance or character.

8. Landscape treatments.

a. Permitted uses within this district shall not be required to conform to the landscaping requirements of Title 18 (Building and Construction) of the El Paso City Code. Landscaping, streetscape, and other green areas proposed within the development shall be shown and considered as part of the site plan approval process.

b. Impervious surfaces, structures, utilities and associated parking constructed as shown on the approved generalized site plan or other site plan, as required by Section 20.08, shall be exempt from re-vegetation requirements.

C. Incentives.

1. Applications under this section shall be expedited as follows:

a. Processing for NOS development plans not requiring city council approval: thirty days;

b. Processing for an NOS rezoning application, detailed site development plan or other application that requires city council approval: approximately sixty days (minimum) for final approval.

2. The city shall waive application fees for rezoning, detailed site development plans, and any major or minor amendment applications.

(Ord. No. 17306, § 4, 4-6-2010; Ord. No. 17442, § 22, 10-26-2010; Ord. No. 17490, 1-25-2011; Ord. No. 18531, § 5, 6-28-2016)

20.10.390 Reserved.

Editor's note—Ord. No. 019734, § 3, 5-28-2025, repealed § 20.10.390, which pertained to neighborhood commercial uses (SRR district) and derived from Ord. 16653 § 2 (part), adopted 2007.

20.10.400 Neighborhood conservancy overlay.

A. Purpose. The purpose of a neighborhood conservancy overlay (NCO) is to regulate the construction, reconstruction, renovation and alteration of buildings and other structures in designated places and areas of historic, cultural, or architectural importance and significance within the city. These designated places and areas have a distinctive atmosphere or character and should be conserved through regulations that protect and enhance their significant attributes. The designation has the effect of modifying the existing development standards of the district by requiring owners of property to comply with additional reasonable design standards as part of building construction within a neighborhood. The design standards are intended to promote the conservation of the neighborhood attributes and thereby contributing to the stability or stabilization of the neighborhood. All properties within an NCO will carry the suffix "NCO," indicating that such property is subject to the design standards of both the designated zoning district and the NCO. An NCO designation shall not prohibit the use of a property that is otherwise permitted by the existing zoning.

B. Designation.

1. An application for an NCO designation may be initiated either by a property owner or group of property owners, or by the city plan commission, or by the El Paso City Council. No NCO shall be designated and approved by the El Paso City Council if owners of more than fifty-one percent of the total land area within a neighborhood described in the application object in writing to the designation. Signatures of the property owners evidencing their dissent must be submitted prior to approval by the El Paso City Council of an ordinance designating an NCO.

2. The area described in the application shall include at least one block face. For purposes of

this section, a block face shall be defined as a parcel of land entirely surrounded by public highways, streets, or alleys.

C. Application. An application for an NCO designation shall be subject to the requirements and procedures of Chapter 20.04, and shall also be accompanied with all of the following:

1. A list of all neighborhood associations and/or other organizations representing the interests of the property owners in the area described in the application;

2. A written justification which supports the requested NCO designation. The justification must contain a detailed statement of why such a designation would be in the best interest of the city as a whole, and a description of the attributes of the area which merit conservation.

D. Study area plan formulation and adoption. Prior to application for an NCO, the city shall have adopted a specific study area plan, as required by "The Plan for El Paso," for property within a neighborhood wholly or partially to be designated for mixed-use. The study area plan shall, at a minimum, include a written and graphic description of the concerns, policy objectives, guidelines and design standards for regulating the development of the area. The city development department shall, upon authorization and prioritization by the El Paso City Council, assist area residents and other interested parties to prepare a study area plan, and when completed shall be on file in the department. Any NCO designation approved by the city shall incorporate the study area plan by express reference.

E. City review committee.

1. A city review committee (CRC) shall be created to oversee the functions within each area designated an NCO. The CRC shall have the power and authority to review and authorize the release of building permits for any new construction, reconstruction or renovation of the exterior of existing buildings or structures within a designated NCO. The building official shall forward all applicable building permit applications to the CRC.

2. Members of the CRC shall consist of the planning official, the building official and the historic preservation officer (or their respective designees). The planning official shall act as secretary

of the committee. For quorum purposes, presence of all members of the CRC shall be required to convene a meeting and vote on any permit. Meetings shall be scheduled, with notice duly posted according to the Texas Open Meetings Law, by the secretary as necessary to review and act on permit applications. Written notice of any permit application received and pending action before the CRC shall be given, as a minimum, to any area neighborhood associations and to the immediate abutting property owners within the NCO area. The notice shall state the date and time of the scheduled meeting before the CRC.

3. The secretary shall make and maintain a detailed record of all proceedings and procedures of the CRC, setting forth the reasons for each decision, the vote of each member participating therein, and any failure of a member to vote. Action taken at a CRC meeting shall require the affirmative vote of a majority of the members present at the meeting. The CRC shall, in every case, reach a decision without unreasonable delay.

4. All decisions of the CRC shall be reasonable under the circumstances and shall not be arbitrary or capricious. If the CRC has not disapproved an application for a building permit within twenty days after it has been properly submitted then such application shall be deemed to have been approved without further action of the CRC. All decisions shall be in writing and shall be served on the applicant by the United States Mail, postage prepaid, return receipt requested, and shall be deemed given when deposited in the United States Mail.

F. Contents of application, scope of review, waivers, and fees.

1. Prior to the issuance of any building permits for any new construction, reconstruction or renovation of the exterior of existing buildings on property (or any portion thereof) with an NCO designation, drawings and applications shall be reviewed by the CRC to determine if the proposed new construction, reconstruction or renovation complies with the design standards of the specific study area plan.

2. The CRC shall establish and publish a detailed list of the documents and information that must be submitted by an applicant together with the application for a building permit, copies of which shall be maintained as directed by the city manager or designee. All applications for building permits on property with an NCO designation shall comply with the required design standards for the applicable study area plan. Approval of a permit shall indicate that the proposed construction complies with the requirements of this section and the design standards of the specific study area plan. The CRC may request assistance of other city departments to review drawings and applications. In the event that the design standards of the applicable study area plan are more restrictive or impose higher (or different) standards than the requirements of this title, the design standards of the applicable study area plan shall govern.

3. The standard fee for an application which requires review by the city review committee (CRC) shall be as established in the annual budget resolution approved by city council.

G. Appeals of CRC Actions. Decisions of the CRC on any building permit application may be appealed to the city plan commission within fifteen calendar days after the decision is rendered by the CRC. The applicant, or an owner of a building or structure located within the designated NCO, and aggrieved by the decision of the CRC may file an appeal. The appeal shall be filed in writing with the secretary and shall be accompanied by the fee approved by city council in the annual budget resolution and a reasonably detailed statement of which design standard is not met in the application for a building permit with sufficient evidence to warrant the appeal. Evidence may include, but is not limited to:

1. A demonstration that the intent of a design standard has been misconstrued or incorrectly interpreted;

2. Relevant evidence was not considered by the CRC in making its decision;

3. The alternate design is at least equivalent of that prescribed in terms of quality, effectiveness and aesthetics;

4. Written notice of any appeal filed shall be given, as a minimum, to any area neighborhood associations and to the immediate abutting property owners within the NCO area. The notice shall state the date and time of the scheduled meeting before the city plan commission;

5. In exercising its powers, the city plan commission may reverse or affirm, in whole or in part, or may modify the requirement, decision or determination appealed from a decision of the CRC. The city plan commission shall be authorized to impose any necessary conditions or safeguards to ensure that the purpose and intent of these regulations is satisfied. The grant of an appeal to a requirement pursuant to this section shall not be construed as a waiver of any other requirement of this section. Modifications concerning use shall never be permitted under any circumstances. Any decision of the city plan commission on an appeal as provided in this section shall be final;

6. An application for appeal shall be on forms prescribed by the planning division, and shall be accompanied by a fee set by resolution or ordinance of the El Paso City Council to help defray the cost of publication and general expenses in connection with the appeal. All decisions shall be in writing and shall be served on the applicant by the United States Mail, postage prepaid, return receipt requested, and shall be deemed given when deposited in the United States Mail.

H. Plan Review Not Required. For purposes of this section, review and authorization to release building permit applications for the new construction, reconstruction, or renovation of the exterior of buildings within an approved NCO shall not be required for ordinary minor nonstructural repair work having a value of two thousand dollars or less. (Ord. 16761 § 1 (part), 2007; Ord. 16653 § 2 (part), 2007)

(Ord. No. 17442, § 23, 10-26-2010; Ord. No. 17801, § 5, 6-5-2012, eff. 6-11-2012; Ord. No. 19085, §§ 1, 2, 8-18-2020)

20.10.405 Environmental and wildlife research conservancy overlay.

A. Purpose.

1. The purpose of an Environmental and Wildlife Research Conservancy Overlay (EWRCO) is to conserve, protect, manage, restore, or enhance areas that have a distinctive environmental, cultural, natural or wildlife character or attributes through the application of regulatory standards that protect and enhance those specified character and attributes. The designation has the effect of modifying the existing land use and development standards of the base zoning district of the land within the overlay by requiring owners of property to comply with additional reasonable land use and design standards. The adopted land use and development standards are intended to contribute towards the stability or stabilization of the property while allowing compatible research, educational and recreational activity within the property.

2. Development standards such as height, setbacks, and allowed land uses shall be specified by the study area plan of the managing entity adopting the EWRCO overlay. All properties within an EWRCO will carry the suffix "EWRCO," indicating that such property is subject to the land use and design standards of the EWRCO. Any land uses specified under the underlying base zoning districts will not be allowed unless specified in the ordinance adopting the overlay.

B. Designation.

1. An application for an EWRCO designation may be initiated either by a property owner or group of property owners. No EWRCO shall be designated and approved by the El Paso City Council unless all property owners of the total land area proposed for the overlay agree to the designation.

C. Application. An application for an EWRCO designation shall be subject to the requirements and procedures of Chapter 20.04, and shall also be accompanied with all of the following:

1. A list of all the property owners in the area described in the application;

2. A written justification which supports the requested EWRCO designation. The justification must contain a detailed statement of why such a designation would be in the best interest of the city as a whole, and a description of the attributes of the area which merit conservation.

D. Study area plan formulation and adoption. Prior to approval for an EWRCO, the city shall have adopted a specific study area plan, as required by "The Plan for El Paso," for property within the proposed EWRCO. The study area plan shall, at a minimum, include a written and graphic description of the concerns, policy objectives, guidelines and design standards for regulating the development of the area. The planning and economic development department may, upon authorization of the city manager, assist the property owners and other interested parties to prepare a study area plan, and when completed shall be on file in the department. Any EWRCO designation approved by the city shall incorporate the study area plan by express reference.

E. Contents of application, scope of review, waivers.

1. Prior to the issuance of any building permits for any new construction, reconstruction or renovation of the exterior of existing buildings on property (or any portion thereof) with an EWRCO designation, drawings and applications shall be reviewed by the planning division to determine if the proposed new construction, reconstruction or renovation complies with the design standards of the specific study area plan.

2. All applications for building permits on property with an EWRCO designation shall comply with the required design standards for the applicable study area plan. Approval of a permit shall indicate that the proposed construction complies with the requirements of this section and the design standards of the specific study area plan. (Ord. No. 17776, § 2, 5-1-2012)

20.10.410 Off-street parking (serving another property).

A. Any otherwise permitted use for which the off-street parking requirements of Chapter 20.14 are to be satisfied by off-street parking spaces on property which is located on a separate site from the property requiring the off-street parking spaces, and for which the following can be demonstrated:

1. The parking area is compatible with the general development of the neighborhood and does not adversely affect the use of adjacent properties;

2. The parking area is so arranged as to permit sufficient space for parking spaces and turning maneuvers, as well as adequate ingress and egress to the site;

3. Lighting shall comply with Chapter 18.18 (Dark Sky Ordinance) of this Code;

4. The parking area is located in such a manner from the site generating the parking requirement to assure that such parking facility will adequately serve the use;

5. Access to be provided to the parking area shall not be through private property that is not zoned to permit the use generating the off-street parking;

6. Adequate provisions shall be made to assure that the parking area is reasonably identifiable as to the patronage it serves, the location, points of access, hours of operation and other appropriate matters made as a condition of the special permit approval;

7. The parking spaces required to be provided for the use shall be restricted to that use;

8. Any off-street parking spaces to be provided on the site generating the off-street parking requirement shall be used to accommodate required handicapped accessible spaces and patron parking;

9. The parking area shall be owned or leased by the same property owner who operates the use generating the off-street parking requirement, and any leasehold interest in the parking area shall be validly held for the duration of the use.

B. Off-street parking spaces serving another property which are located partially or totally on a separate site from the property requiring the off-street parking spaces. (Ord. 16653 § 2 (part), 2007)

20.10.420 Office warehouse.

Where permitted in a zoning district, an office warehouse shall be subject to the following:

A. The facility shall include a combined use of either an office or office showroom and a warehouse for the distribution of products;

B. The office showroom component shall mean that portion of this use that provides area for the regular transaction of business and for the display of open merchandise in a finished building setting;

C. An office component of this use must comprise at least ten percent of the total floor area of the use, and an office showroom component of this use must comprise at least fifteen percent of the total floor area of the use;

D. Retail sales of products which are sold at wholesale on the premises is permitted as a part of this use. (Ord. 16653 § 2 (part), 2007)

20.10.430 Outdoor flea markets.

A. Compliance Required. Where permitted in a district, outdoor flea markets shall comply with the following:

1. One vendor off-street parking space and one customer off-street parking space shall be provided per stall/space. Each off-street parking space shall meet the minimum requirements of Chapter 20.14 (Off-Street Parking and Loading Regulations) of this title;

2. Site area to be paved with asphalt, cement or other dust-free surface;

3. A six-foot high wall or fence, consisting of three-feet in masonry material and three-feet in wrought iron material, shall be required around the perimeter of that portion of the site being used for the operation and use of an outdoor flea market. A waiver of this requirement may be requested pursuant to the provisions of Chapter 20.04 (Administrative Procedures) of this title;

4. Each vendor stall/space shall provide at least one covered garbage container, a minimum five-gallon garbage container shall be required for each food vendor;

5. One sanitary portable facility shall be provided for every twenty-five vendor stalls/spaces, or portion thereof, or the number of fixed sanitary facilities required by the Plumbing Code for the city based on the site area;

6. The operator shall be responsible for maintaining the site area to insure compliance with applicable portions of this Code;

7. A ten-foot pedestrian walkway shall be provided between each row of vendor stalls/spaces;

8. A twenty-foot fire accessway shall be provided within the site area where required by the fire chief;

9. A minimum clear area of all sides (distance) of five feet shall be provided between a food vendor (utilizing cooking or heating facilities) stall/space and any other adjoining nonfood vendor stall/space, unless otherwise approved by the fire chief;

10. Only natural gas or liquefied petroleum gas shall be allowed for food cooking units, unless otherwise approved by the fire chief, on a case by case inspection, other cooking appliances that meet code may be approved;

11. A nonflammable shelter shall be required for all food cooking units;

12. At least one 2A10BC fire extinguisher shall be required for all food cooking units;

13. No parking or structures shall be allowed within the required setback, pedestrian walkways or fire accessway;

14. Signage for the flea market activity shall be restricted to that allowed in the applicable zoning district;

15. The noise levels of the flea market activity shall not exceed those specified in Chapter 9.40 of this Code. No outside amplification devices shall be permitted in conjunction with the flea market operation when the site is adjacent to any property that is used for residential purposes;

16. The operator shall be responsible for maintaining the property and abutting sidewalks, parkways and street gutters from accumulations of waste, and shall be subject to all applicable health and safety provisions of this Code.

B. Operator license. An operator license or the operation of an outdoor flea market shall be required and be subject to the requirements of Title 5 (Business taxes, licenses and regulations), of this Code. Application for a license shall be made pursuant to the requirements of Title 5. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17442, § 24, 10-26-2010)

20.10.440 Pasturage.

Where permitted in a district, pasturage of horses, cattle, goats and sheep, including breeding, must additionally comply with Title 7 of this Code. (Ord. 16653 § 2 (part), 2007)

20.10.450 Personal care facilities.

Personal care facilities operated in a residential zoning district shall comply with the following:

1. Be licensed in accordance with state and/or city regulations;

2. Permitted signs shall be limited to a one square foot nameplate attached to and not projecting more than one inch beyond the face of the building. The nameplate shall contain only the name and occupation of the provider;

3. The exterior of the building or grounds shall not be altered, decorated or painted in any way to distract from the residential character of the neighborhood;

4. A minimum of one off-street parking space shall be provided for every two bedrooms or portion thereof, and for every two employees or portion thereof. (Ord. 16817 § 6, 2008; Ord. 16653 § 2 (part), 2007)
(Ord. No. 17577, § 8, 7-7-2011)

20.10.455 Personal wireless service facilities.

A. All PWSF permitted in accordance with this chapter, may be constructed within the corporate limits of the city and shall be constructed and operated in accordance with industry standards and subject to the restrictions and limitations set forth in this chapter and in the adopted PWSF policy guide. The director of planning and inspections department, or other person designated by the city manager, is authorized to adopt and amend the PWSF policy guide to provide clarifications to requirements established under this title regarding the placement and construction of PWSFs. The policy guide shall control the interpretation of the provisions of this title regarding the placement and construction of PWSFs over any other interpretation. The director shall make the PWSF policy guide available to the public.

B. Certification. All owners of PWSF currently in existence as of the date of the passage of the ordinance codified in this chapter shall certify in writing, no later than thirty days after the passage of the ordinance codified in this chapter, to the building official that the PWSF in existence are not a safety hazard to the public, and are in operable condition, as well as provide an address of the location of each PWSF and any other pertinent information, excluding proprietary information, required on the form prescribed by the development services department.

Thereafter, for all such PWSF and additionally for all new PWSF installed and constructed after the date of passage by the ordinance codified and permitted in accordance with this chapter, the owner shall certify in writing, annually no later than January 31, beginning in 2008, to the building official that the PWSF in existence are not a safety hazard to the public, and are in operable condition, as well as provide an address of the location of the PWSF, and any other pertinent information, excluding proprietary information, required on the form prescribed by the building official.

The person who constructed the PWSF, the person who operated the PWSF or the owner of record must notify the zoning administrator of any change in the information or status of the PWSF as stated in the certification within thirty days after such change.

C. Removal. For any PWSF constructed after the date of this chapter, if the PWSF is not used to transmit, receive or relay voice and data signals to or from wireless communication devices

for a period of six months, then the owner of record must notify the building official and apply for a permit to remove the structure. All PWSF towers and antennas shall be restored to service or removed by the person who constructed the facility, by the person who operated the facility or by the property owner within eighteen months from the time the PWSF ceased being used to transmit, receive or relay voice and data signals to or from wireless communication devices.

If the use of the PWSF has not been restored within an eighteen-month period from the time the PWSF have ceased being used to transmit, receive or relay voice and data signals to or from wireless communication devices, the PWSF must be removed and the PWSF site restored to its original or better condition, at the property owner's expense.

For any PWSF in existence but not listed as operable on the certification form as of the date of the passage of the ordinance codified in this chapter, the owner shall have eighteen months from the date of certification in which the PWSF must be made operable. If the PWSF is not operable within eighteen months, then the owner of record must notify the building official and apply for a permit to remove the structure. All PWSF towers and antennas shall be removed by the person who constructed the facility, by the person who operated the facility or by the property owner within six months after the aforementioned time period expires. The PWSF site must be restored to its original or better condition, at the property owner's expense.

D. Proposed PWSF Facility Site Location and Zoning District Location Hierarchy Preferences.

1. The following list indicates the city's preferences for facility site locations, in descending order of preference. Subject to all other requirements of the El Paso City Code and provided the City Code allows for such location, applicants are not prohibited from applying for any type of facility site location listed below. If applicant is seeking a permit for a facility site location listed under Sections 20.10.455(D)(1)(a)(ii) to 20.10.455(D)(1)(e) below, then the applicant will submit with the application a due diligence analysis. At a minimum, the due diligence analysis must contain the following: a map showing all facility site locations considered within five hundred feet of the proposed location that are higher on the preference list and a narrative explaining why the other facility site locations higher on the preference list are not feasible. City staff shall accept a due diligence analysis for facility site locations if such complies with the requirements above. Applications submitted by an applicant must still comply with all other requirements under the El Paso City Code. The following is the list of facility site location preferences:

a. Antennae co-location on existing camouflaged PWSF:

i. Facility;

ii. Roof;

iii. Ground-mounted;

b. Antennae co-location on existing PWSF:

i. Facility;

ii. Roof;

iii. Ground-mounted;

c. New facility-mounted PWSF, meeting applicable camouflaging and screening requirements;

d. New roof-mounted PWSF, meeting applicable camouflaging and screening requirements;

e. New ground-mounted PWSF, meeting applicable camouflaging and screening requirements.

2. The following list indicates the city's preferences for zoning district locations, in descending order of preference. Subject to all other requirements of the El Paso City Code and provided the City Code allows for such location, applicants are not prohibited from applying to locate any facility in any zoning district location listed below. If applicant is seeking a permit to locate a facility on a zoning district listed under Sections 20.10.455(D)(2)(b) to 20.10.455(D)(2)(c) below, then the applicant will submit with the application a due diligence analysis. At a minimum, the due diligence analysis must contain the following: a map showing all zoning districts considered within five hundred feet of the proposed location that are

higher on the preference list and a narrative explaining why the other zoning district locations higher on the preference list are not feasible. City staff shall accept a due diligence analysis for zoning district locations if such complies with the requirements above. Applications submitted by an applicant must still comply with all other requirements under the El Paso City Code. The following is the list of zoning district location preferences:

a. Heavy commercial and manufacturing zoning districts.

b. Light commercial and special purpose zoning districts.

c. Residential and apartment zoning districts.

E. PWSF located in the NOS zoning district is prohibited.

F. All PWSF shall comply with the requirements under this subsection listed on the PWSF Table below. Meeting the special permit requirements under this subsection and PWSF Table is not a guarantee of approval of a special permit. All special permit applications must meet the requirements of Chapter 20.04 (Administrative Provisions), Article V (Special Permit Approval Process) of the El Paso City Code. The requirements for all PWSF are as listed in the following PWSF Table:

0.0	Zoning Districts	A. Residential and Apartment Districts (including RF, SRR, PR-I, PR-II, & PMD)	B. C-1, C-2, P-C and C-OP Commercial Districts, S-D Special Development, and Special Purpose Districts (excluding RF, SRR, PR-I, PR-II, PMD, and P-I)	C. C-3, C-4 and C-5 Commercial Districts	D. M-I, M-2, M-3, P-I, & Q (Manufacturing, Industrial and Quarry Districts)
1.0	Ground Mounted PWSF				
	1.1 Permitted	Special Permit Required	Permitted by right in C-1 and C-2 zoning districts only. Special Permit approval required in all other zoning districts in Section F.0.0.B. Special permit approval required also if exceptions or modifications are requested, or unless otherwise indicated.	Permitted by right. Special Permit approval required if exceptions or modifications are requested	Permitted by right. Special Permit approval required if exceptions or modifications are requested
	1.2 Setbacks	3' from any abutting property line for every 1' of structure height abutting Residential and Apartment zoning districts (including RF, SRR, PR-I, PR-II, & PMD); 2' from any property line for every 1' of structure height abutting Residential and Apartment zoning districts (including RF, SRR, PR-I, PR-II, & PMD) for facilities camouflaged as a Low Visibility Facility only; 1' from any abutting property line for every 1' of tower height abutting all other zoning districts in Section F.0.0.B, Section F.0.0.C., and Section F.0.0.D. For a property line that abuts right-of-way. The base zoning setback standard applies provided however that if the right-of-way separates the property from a Residential or Apartment zoning district (including RF, SRR, PR-1, PR-II, & PMD), the following minimum setbacks must be maintained measured from the base of the antenna support structure to the property line of the Residential or Apartment zoning district (including RF, SRR, PR-1, PR-II, & PMD) across the right-of-way: 3' setback for every 1' of tower height for facilities that are not camouflaged as a Low Visibility Facility. The width of the right-of-way may be included in the setback measurement in accordance to Section F.1.2.1 below; 2' setback for every 1' of tower height for facilities camouflaged as a Low Visibility Facility. The width of the right-of-way may be included in the setback measurement in accordance to Section F.1.2.1 below. For a property line that abuts right-of-way. The base zoning setback standard applies provided however that if the right-of-way separates the property from any zoning district other than a Residential or Apartment zoning district (including RF, SRR, PR-1, PR-II, & PMD), then a minimum 1' setback for every 1' of tower height must be maintained measured from the base of the antenna support structure to the property line of the zoning district across the right-of-way. The width of the right-of-way may be included in the setback measurement in accordance to Section F.1.2.1 below.	3' from any abutting property line for every 1' of structure height abutting Residential and Apartment zoning districts (including RF, SRR, PR-I, PR-II, & PMD); 2' from any property line for every 1' of structure height abutting Residential and Apartment zoning districts (including RF, SRR, PR-I, PR-II, & PMD) for facilities camouflaged as a Low Visibility Facility only; 1' from any abutting property line for every 1' of tower height abutting all other zoning districts in Section F.0.0.B, Section F.0.0.C., and Section F.0.0.D. For a property line that abuts right-of-way. The base zoning setback standard applies provided however that if the right-of-way separates the property from a Residential or Apartment zoning district (including RF, SRR, PR-1, PR-II, & PMD), the following minimum setbacks must be maintained measured from the base of the antenna support structure to the property line of the Residential or Apartment zoning district (including RF, SRR, PR-1, PR-II, & PMD) across the right-of-way: 3' setback for every 1' of tower height for facilities that are not camouflaged as a Low Visibility Facility. The width of the right-of-way may be included in the setback measurement in accordance to Section F.1.2.1 below; 2' setback for every 1' of tower height for facilities camouflaged as a Low Visibility Facility. The width of the right-of-way may be included in the setback measurement in accordance to Section F.1.2.1 below. For a property line that abuts right-of-way. The base zoning setback standard applies provided however that if the right-of-way separates the property from any zoning district other than a Residential or Apartment zoning district (including RF, SRR, PR-1, PR-II, & PMD), then a minimum 1' setback for every 1' of tower height must be maintained measured from the base of the antenna support structure to the property line of the zoning district across the right-of-way. The width of the right-of-way may be included in the setback measurement in accordance to Section F.1.2.1 below.	1' from any abutting property line for every 1' of tower height abutting Residential and Apartment zoning districts (including RF, SRR, PR-I, PR-II, & PMD); All other zoning districts in Section F.0.0.B, Section F.0.0.C., and Section F.0.0.D. subject to base zoning setback standards. For a property line that is abutting right-of-way, the base zoning setback standard applies provided however that if right-of-way separates the property from a Residential or Apartment zoning district (including RF, SRR, PR-1, PR-II, & PMD), a minimum 1' setback for every 1' of tower height must be maintained from the base of the antenna support structure to the property line of the Residential or Apartment zoning district (including RF, SRR, PR-1, PR-II, & PMD) across the right-of-way. Applicant may include the width of the right-of-way in the setback measurement in accordance to Section F.1.2.1 below.	1' from any abutting property line for every 1' of tower height abutting Residential and Apartment zoning districts (including RF, SRR, PR-I, PR-II, & PMD); All other zoning districts in Section F.0.0.B, Section F.0.0.C., and Section F.0.0.D. subject to base zoning setback standards. For a property line that is abutting right-of-way, the base zoning setback standard applies provided however that if right-of-way separates the property from a Residential or Apartment zoning district (including RF, SRR, PR-1, PR-II, & PMD), a minimum 1' setback for every 1' of tower height must be maintained from the base of the antenna support structure to the property line of the Residential or Apartment zoning district (including RF, SRR, PR-1, PR-II, & PMD) across the right-of-way. Applicant may include the width of the right-of-way in the setback measurement in accordance to Section F.1.2.1 below.
	1.2.1 Additional Setback Standards for Ground Mounted PWSF	If abutting ROW or easement, the width of the ROW or easement may [be] included in the setback measurement			

0.0	Zoning Districts	A. Residential and Apartment Districts (including RF, SRR, PR-I, PR-II, & PMD)	B. C-1, C-2, P-C and C-OP Commercial Districts, S-D Special Development, and Special Purpose Districts (excluding RF, SRR, PR-I, PR-II, PMD, and P-I)	C. C-3, C-4 and C-5 Commercial Districts	D. M-I, M-2, M-3, P-I, & Q (Manufacturing, Industrial and Quarry Districts)
	1.3 Reductions in minimum setback requirements	For facilities that abut Residential and Apartment zoning districts (including RF, SRR, PR-I, PR-II, & PMD) and that are camouflaged as a Low Visibility Facility, setbacks may be reduced with a special permit provided that setback may not be reduced below 1' from any abutting property line for every 1' of tower height (see Section F.1.3.1 below)	For facilities that abut Residential and Apartment zoning districts (including RF, SRR, PR-I, PR-II, & PMD) and that are camouflaged as a Low Visibility Facility, setbacks may be reduced with a special permit provided that setback may not be reduced below 1' from any abutting property line for every 1' of tower height (see Section F.1.3.1 below)	N/A	N/A
	1.3.1 Additional Standards for Special Permits Applicable to Reductions in required minimum setbacks for Ground Mounted PWSF	Modifications to Required Setbacks must meet the following criteria: i. The property on which the PWSF antenna support structure is to be located is the only property reasonably available for use by the applicant that will enable the applicant to reasonably serve the area designated in a manner that is technically feasible and commercially reasonable; ii. The applicant is unable to collocate its antennas on an existing PWSF antenna support structure that is used by a third person or entity and located such that the applicant is able to reasonably serve the area designated in a manner that is technically feasible and commercially reasonable; iii. The applicant cannot use another PWSF antenna support structure that is located such that the applicant is able to reasonable serve the area designated in a manner that is technically feasible and commercially reasonable or that the other PWSF antenna support structures used by the applicant will not safely support additional antennas; and iv. Facility is camouflaged as a Low Visibility Facility.			
	1.4 Minimum separation (measured base of existing to base of proposed)	One-half mile	One-half mile	2,000'	' 1,760
	1.5 Reductions in minimum separation requirements for Ground Mounted PWSF	Minimum separation may be reduced for facilities camouflaged as a Low Visibility Facility only with a special permit, but not below 2,000' (see Section F.1.5.1)	Minimum separation may be reduced for facilities camouflaged as a Low Visibility Facility only with a special permit, but not below 1,760' (see Section F.1.5.1)	Minimum separation may be reduced for facilities camouflaged as a Low Visibility Facility only with a special permit (see Section F.1.5.1)	Minimum separation may be reduced for facilities camouflaged as a Low Visibility Facility only with a special permit (see Section F.1.5.1)
	1.5.1 Additional Standards for Special Permits Applicable to Reductions in required minimum separation for Ground Mounted PWSF	Modifications to Required Minimum Separation must meet the following criteria: i. The applicant is reasonably unable to use property that meets the minimum separation distance in Section F.1.4 from another PWSF antenna support structure and be able to reasonably serve the area designated in a manner that is technically feasible and commercially reasonable; ii. The property on which the PWSF antenna support structure is to be located is the only reasonably available property for use within the minimum separation distance in Section F.1.4 of another PWSF antenna support structure that will enable the applicant to reasonably serve the area designated in a manner that is technically feasible and commercially reasonable; iii. The area designated by the applicant cannot be reasonably served in a manner that is technically feasible and commercially reasonable by locating additional antennas on the applicant's existing PWSF antenna support structures because such existing PWSF antenna support structures cannot safely support additional antennas; iv. The applicant is unable to collocate its antennas on an existing PWSF antenna support structure that is owned or operated by a third person or entity and located such that the applicant is able to reasonably serve the area designated in a manner that is technically feasible and commercially reasonable; v. The applicant shall submit a list of addresses/locations showing all existing PWSF within the radius of the minimum separation distance in Section F.1.4 of the proposed site and a map depicting such locations with the special permit application; and vi. Facility is camouflaged as a Low Visibility Facility.			
	1.6 Maximum Height Permitted (measured to top of steel)	35'	C-1 and C-2 zoning districts only: 35'. For all other zoning districts in Section F.0.0.B, height shall be limited to 45'.	60'	60'
	1.7 Allowable Increases in Maximum Height Permitted	N/A	C-1 and C-2 zoning districts only: Height shall be permitted up to 45' if facility is camouflaged as a Low Visibility Facility.	N/A	N/A
	1.8 Special Permit for Additional Height	Height shall be permitted up to 45' with a special permit provided the applicant meets the requirements of Section F.1.8.1.A.1 below. Height shall be permitted up to 60' with a special permit provided the applicant meets the requirements of Section F.1.8.1.A.2 below.	C-1 and C-2 zoning districts only: Height shall be permitted up to 60' with a special permit provided the applicant meets the requirements of Section F.1.8.1.B.1 below.	Height shall be permitted up to 75' with a special permit provided applicant meets the requirements of Section F.1.8.1.C.1 below. Height shall be permitted up to 90' with a special permit provided the applicant meets the requirements of Section F.1.8.1.C.2 below.	Height shall be permitted up to 75' with a special permit provided applicant meets the requirements of Section F.1.8.1.D.1 below. Height shall be permitted up to 90' with a special permit provided the applicant meets the requirements of Section F.1.8.1.D.2 below.

0.0	Zoning Districts			A. Residential and Apartment Districts (including RF, SRR, PR-I, PR-II, & PMD)	B. C-1, C-2, P-C and C-OP Commercial Districts, S-D Special Development, and Special Purpose Districts (excluding RF, SRR, PR-I, PR-II, PMD, and P-I)	C. C-3, C-4 and C-5 Commercial Districts	D. M-I, M-2, M-3, P-I, & Q (Manufacturing, Industrial and Quarry Districts)
		1.8.1	Additional Standards for Special Permits for Additional Height for Ground Mounted PWSF	A. Residential and Apartment zoning districts (including RF, SRR, PR-I, PR-II, & PMD). 1. Must meet the following criteria for height to be permitted up to 45': i. Facility is camouflaged as a Low Visibility Facility. 2. Must meet the following criteria for height to be permitted up to 60': i. Facility is camouflaged as a Low Visibility Facility; and ii. Located on a property whose principal use is a church, school, or other permitted non-residential use.	B. C-1 and C-2 zoning districts only. 1. Must meet the following criteria for height to be permitted up to 60': i. Facility is camouflaged as a Low Visibility Facility.	C. C-3, C-4 and C-5 Commercial Districts. 1. Must meet the following criteria for height to be permitted up to 75': i. Facility has been designed and structurally engineered to accommodate for colocation of a second carrier or agency; and ii. If facility is proposed within 500' of a Residential or Apartment zoning district (including RF, SRR, PR-I, PR-II, & PMD), facility must be camouflaged as a Low Visibility Facility. 2. Must meet the following criteria for height to be permitted up to 90': i. Facility has been designed and structurally engineered to accommodate for colocation of two additional carriers or agencies for a total of three carriers or agencies; ii. Facility is camouflaged as a Low Visibility Facility; iii. The property on which the PWSF antenna support structure is to be located is the only property reasonably available for use by the applicant for a PWSF antenna support structure of the height being proposed by the applicant that will enable the applicant to reasonably serve the area designated in a manner that is technically feasible and commercially reasonable; iv. The applicant is unable to collocate its antennas on an existing PWSF antenna support structure that is owned or operated by a third person or entity and located such that the applicant is able to reasonably serve the area designated in a manner that is technically feasible and commercially reasonable; v. The applicant cannot use another PWSF antenna support structure that is located such that will enable the applicant to reasonably serve the area designated in a manner that is technically feasible and commercially reasonable or that the other PWSF antenna support structures used by the applicant will not safely support additional antennas; and vi. Due to topographical conditions, the proposed height of the PWSF antenna support structure is reasonably necessary to enable the applicant to reasonably serve the area designated in a manner that is technically feasible and commercially reasonable.	D. M-I, M-2, M-3, P-I, & Q (Manufacturing, Industrial and Quarry Districts) 1. Must meet the following criteria for height to be permitted up to 75': i. Facility has been designed and structurally engineered to accommodate for colocation of a second carrier or agency; and ii. If facility is proposed within 500' of a Residential or Apartment zoning district (including RF, SRR, PR-I, PR-II, & PMD), facility must be camouflaged as a Low Visibility Facility. 2. Must meet the following criteria for height to be permitted up to 90': i. Facility has been designed and structurally engineered to accommodate for colocation of two additional carriers or agencies for a total of three carriers or agencies; ii. Facility is camouflaged as a Low Visibility Facility; iii. The property on which the PWSF antenna support structure is to be located is the only property reasonably available for use by the applicant for a PWSF antenna support structure of the height being proposed by the applicant that will enable the applicant to reasonably serve the area designated in a manner that is technically feasible and commercially reasonable; iv. The applicant is unable to collocate its antennas on an existing PWSF antenna support structure that is owned or operated by a third person or entity and located such that the applicant is able to reasonably serve the area designated in a manner that is technically feasible and commercially reasonable; v. The applicant cannot use another PWSF antenna support structure that is located such that will enable the applicant to reasonably serve the area designated in a manner that is technically feasible and commercially reasonable or that the other PWSF antenna support structures used by the applicant will not safely support additional antennas; and vi. Due to topographical conditions, the proposed height of the PWSF antenna support structure is reasonably necessary to enable the applicant to reasonably serve the area designated in a manner that is technically feasible and commercially reasonable.

0.0	Zoning Districts		A. Residential and Apartment Districts (including RF, SRR, PR-I, PR-II, & PMD)	B. C-1, C-2, P-C and C-OP Commercial Districts, S-D Special Development, and Special Purpose Districts (excluding RF, SRR, PR-I, PR-II, PMD, and P-I)	C. C-3, C-4 and C-5 Commercial Districts	D. M-I, M-2, M-3, P-I, & Q (Manufacturing, Industrial and Quarry Districts)
	1.9	Camouflage and Screening	i. All ground-mounted PWSF shall be camouflaged. Camouflaging is a method of disguising or concealing the appearance of an object by changing its usual color, modifying its shape, or locating it in a structure that complements the natural setting, existing and surrounding structures. Color cannot be the used as the only method of camouflaging. In the context of this section, camouflaging includes, but is not limited to, making PWSF antenna support structures resemble manmade trees, locating PWSF antenna support structures in bell steeples or clock towers, or on similar alternative-design mounting structures. ii. All ground-mounted PWSF shall be located to blend in with surrounding area and located in areas where the existing topography, vegetation, buildings, and other structures provide the greatest amount of screening, and sited so as to not stand out of the landscape as a wireless telecommunications facility. Considerations such as architectural designs, adjacent land uses, scale, color, and texture should be reviewed to make facility as compatible as possible to the surrounding area, including views from public areas as well as from private residences. A visual analysis, which may include renderings, photos, and design mockups, shall be submitted showing the proposed facility from adjacent properties, nearby residences, and public rights-of-way (at least one from 1,000 feet away on nearby roadways) to assess the visual impact. The applicant will need to demonstrate how the proposed camouflaging blends in with the surrounding area and why the design is compatible. Multiple design options may need to be submitted to ensure other options have been explored. Staff shall review the visual analysis to ensure a compatible design has been submitted and provide comments if the design is not appropriate for the area. iii. All ground-mounted PWSF will be categorized as High Visibility and Low Visibility based on the context of the proposed facility. High Visibility facilities shall include designs such as man-made trees and are encouraged for existing open space or parkland areas where they may blend more easily. A "Low Visibility Facility" is a facility that is designed and constructed in a manner in which (1) the antennas, cables, and fixtures are completely enclosed so that such antennas, cables, and fixtures are not visible from any angle, (2) the facility resembles the material, color, and texture of buildings or structures located within the subject property and, (3) the facility serves or performs a function that is associated with the current use of the subject property. Without limiting the types of designs, the following are examples of Low Visibility Facilities: a bell steeple located on a church property, a clock tower on a school campus, a flag pole (with flag) on a government building, windmill on a rural district lot, or an operational light pole on a parking lot. The Zoning Administrator is the person responsible for determining whether a proposed facility meets the criteria to be classified as a Low Visibility Facility. iv. Metallic surfaces shall be painted to reduce glare and reflections. No exterior paint colors shall be used which have a light reflecting value (LRV) greater than forty percent. The LRV of a paint is available from paint manufacturers and it measures the amount of light reflected by a certain color. v. Screening of antennas on PWSF antenna support structures may include the use of existing parapets, walls, or similar architectural elements provided that it is painted and texturized to integrate with the architecture of the surrounding structure. vi. Landscaping shall comply with all code requirements for landscaping.		
	1.10	Screening Fence	A six-foot high screening wall or fence of other than chain-link shall be constructed around the base of a PWSF antenna support structure to provide for security. The gate which provides access to the PWSF antenna support structure shall remain locked at all times except when being used for access by maintenance personnel.			
	1.11	Access Driveway	The access driveway and off-street parking space for use by maintenance vehicles shall be paved as approved by the building official.			
	1.12	Increase in Elevation on Existing Ground Mounted PWSF Antenna Support Structure	An increase in elevation, not to exceed height found in Section F.1.6 and Section F.1.7 plus allowed modifications and Section F.1.8 above, of an existing permitted PWSF antenna support structure may be permitted only to allow for collocation of additional antennas, unless otherwise permitted by FCC provisions of Section 6409(a) and Section 332(c)(7). A structural recertification report prepared and sealed by a licensed professional engineer shall be required, and such report shall be reviewed and approved by the building official prior to issuance of a building permit.			
	1.13	Other Requirements Applicable to Ground Mounted PWSF	The following must accompany a request for a special permit or building permit: i. All towers located within two hundred feet of a recognized federal, state or local historic district are subject to review and approval by the Historic Preservation Officer. ii. A detailed site development plan showing the PWSF antenna support structure, antennas, and equipment in relation to the existing surroundings including screening, fencing, camouflage, off-street parking, and access from the PWSF antenna support structure to the nearest public street; iii. Evidence of satisfactory completion of a certification of compliance for personal wireless service providers issued by the public safety technology office prior to actual use of the proposed facility, such certification to include a verification letter that all required Federal Aviation Administration (FAA) and Federal Communications Commission (FCC) approvals have been requested and that site-specific structural engineering and nonionizing electromagnetic radiation (NIER) reports are available on request from the applicant; and iv. The design of related support structures for new PWSF antenna support structures and appurtenant equipment storage facilities shall incorporate materials, colors, textures, screening, or camouflaging techniques that will blend them to the extent reasonably possible into the natural setting, existing and surrounding structures. The applicant will be required to provide photographs of predevelopment views versus post-development illustrations, at ninety-degree angles for a full three hundred sixty-degree radius, shown to scale. The building official shall review and consider any of the five items above to mitigate negative visual impacts created by the proposed PWSF antenna support structure and may require reasonable revisions necessary to bring the application into compliance with one or more of the five items above.			
	1.14	Collocation or installation of additional antennas	Permitted as per FCC provisions of Section 6409(a) and Section 332(c)(7). A structural recertification report prepared and sealed by a licensed professional engineer shall be required, and such report shall be reviewed and approved by the building official prior to issuance of a building permit.			
	1.15	Existing non-conforming ground-mounted PWSF	An existing ground-mounted PWSF shall be allowed to be modified under the FCC provisions of Section 6409(a) and Section 332(c)(7). All non-conforming ground-mounted PWSFs may continue in existence as a nonconforming structure and are allowed to be modified or rebuilt on the same property as permitted in Section 20.22.100.			

0.0	Zoning Districts	A. Residential and Apartment Districts (including RF, SRR, PR-I, PR-II, & PMD)	B. C-1, C-2, P-C and C-OP Commercial Districts, S-D Special Development, and Special Purpose Districts (excluding RF, SRR, PR-I, PR-II, PMD, and P-I)	C. C-3, C-4 and C-5 Commercial Districts	D. M-I, M-2, M-3, P-I, & Q (Manufacturing, Industrial and Quarry Districts)
2.0	Roof-Mounted PWSF				
2.1	Permitted	Only on residential structures consisting of five or more units or on nonresidential structures	Only on Commercial or Mixed Use structures or those residential structures consisting of five or more units	Only on Commercial or Mixed Use structures or those residential structures consisting of five or more units	Only on Commercial or Mixed Use structures or those residential structures consisting of five or more units
2.2	Maximum Height Permitted (measured to top of steel or antennae, whichever is greater)	15' in height above the existing roofline			
2.3	Allowable Increases in Maximum Height Permitted	N/A	Up to 15' above the Maximum Height Permitted in Section F.2.2 above allowed by approval of a Special Permit (see Section F.2.3.1 below)	Up to 15' above the Maximum Height Permitted in Section F.2.2 above allowed by approval of a Special Permit (see Section F.2.3.1 below)	Up to 15' above the Maximum Height Permitted in Section F.2.2 above allowed by approval of a Special Permit (see Section F.2.3.1 below)
2.3.1	Additional Standards Applicable to permitted increases in Height for Roof-mounted PWSF	i. The property on which the PWSF antenna support structure is to be located is the only property reasonably available for use by the applicant for a PWSF antenna support structure of the height being proposed by the applicant that will enable the applicant to reasonably serve the area designated in a manner that is technically feasible and commercially reasonable; ii. The applicant is unable to collocate its antennas on an existing PWSF antenna support structure that is owned or operated by a third person or entity and located such that the applicant is able to reasonably serve the area designated in a manner that is technically feasible and commercially reasonable; iii. The applicant cannot use the roof on the same structure on which it is located such that will enable the applicant to reasonably serve the area designated in a manner that is technically feasible and commercially reasonable or that the other PWSF antenna support structures used by the applicant will not safely support additional antennas; and iv. Due to topographical conditions, the proposed height of the PWSF antenna support structure is reasonably necessary to enable the applicant to reasonably serve the area designated in a manner that is technically feasible and commercially reasonable.			
2.4	Camouflage and Screening	i. Camouflaging is a method of disguising or concealing the appearance of an object by changing its usual color, modifying its shape, or locating it in a structure that complements the natural setting, existing and surrounding structures. In the context of this section, camouflaging includes, but is not limited to, making PWSF antenna support structures resemble man-made trees, locating PWSF antenna support structures such as in bell steeples or clock towers, or on similar alternative-design mounting structures. ii. Metallic surfaces shall be painted to reduce glare and reflections. No exterior paint colors shall be used which have a light reflecting value (LRV) greater than forty percent. The LRV of a paint is available from paint manufacturers and it measures the amount of light reflected by a certain color. iii. Screening of antennas on roof-mounted PWSF antenna support structures may include the use of existing parapets, walls, or similar architectural elements provided that it is painted and texturized to integrate with the architecture of the surrounding structure. Screening is not required when the height of the roofline exceeds thirty-five feet. Screening may be waived by the building official on buildings where the height of the roofline is thirty-five feet or less based on evidence provided by the applicant that the roof cannot structurally support the screen.			
2.5	Other Requirements	The following must accompany a request for a special permit or building permit: i. A detailed site development plan showing the PWSF antenna support structure, antennas, and equipment in relation to the existing surroundings including screening, fencing, camouflage, off-street parking, and access from the PWSF antenna support structure to the nearest public street; ii. Evidence of satisfactory completion of a certification of compliance for personal wireless service providers issued by the public safety technology office prior to actual use of the proposed facility, such certification to include a verification letter that all required Federal Aviation Administration (FAA) and Federal Communications Commission (FCC) approvals have been requested and that site-specific structural engineering and nonionizing electromagnetic radiation (NIER) reports are available on request from the applicant; and iii. Satisfactory completion of a certification of compliance for personal wireless service providers issued by the public safety technology office prior to actual use of the proposed facility, such certification to include a verification letter that all required FAA and FCC approvals have been requested and that site-specific structural and the roof and a nonionizing electromagnetic radiation (NIER) reports are available on request from the applicant.			
2.6	Collocation	Collocation or installation of additional antennas on an existing PWSF antenna support structure is permitted. A structural recertification report for both the structure and the roof, prepared and sealed by a licensed professional engineer, shall be required, and such report shall be reviewed and approved by the building official prior to issuance of a building permit.			

0.0	Zoning Districts	A. Residential and Apartment Districts (including RF, SRR, PR-I, PR-II, & PMD)	B. C-1, C-2, P-C and C-OP Commercial Districts, S-D Special Development, and Special Purpose Districts (excluding RF, SRR, PR-I, PR-II, PMD, and P-I)	C. C-3, C-4 and C-5 Commercial Districts	D. M-I, M-2, M-3, P-I, & Q (Manufacturing, Industrial and Quarry Districts)
3.0	Facility-mounted PWSF				
	3.1 Permitted	Must be attached to a structure used for something other than a PWSF antenna support structure			
	3.2 Maximum Height Permitted (measured to top of steel or antennae, whichever is greater)	Limited to maximum height permitted in base zoning district in which the facility is located as indicated in Appendix B, Density and Dimensional Standards of Title 20			
	3.3 Allowable increases in Maximum Permitted Height	As per Section 20.12.030.C, 15 additional feet on an existing facility to accommodate collocation of additional antennas			
	3.4 Camouflage and Screening	i. Camouflaging is a method of disguising or concealing the appearance of an object by changing its usual color, modifying its shape, or locating it in a structure that complements the natural setting, existing and surrounding structures. In the context of this section, camouflaging includes, but is not limited to, making PWSF antenna support structures resemble man-made trees, locating PWSF antenna support structures such as in bell steeples or clock towers, or on similar alternative-design mounting structures. Facility-mounted PWSF shall be painted to integrate and blend with the facility-structure. ii. Metallic surfaces shall be painted to reduce glare and reflections. No exterior paint colors shall be used which have a light reflecting value (LRV) greater than forty percent. The LRV of a paint is available from paint manufacturers and it measures the amount of light reflected by a certain color. ii. Screening of antennas on facility-mounted PWSF antenna support structures may include the use of existing parapets, walls, or similar architectural elements provided that it is painted and texturized to integrate with the architecture of the surrounding structure. Screening is not required when the height of the roofline exceeds thirty-five feet. Screening may be waived by the building official on buildings where the height of the roofline is thirty-five feet or less based on evidence provided by the applicant that the roof cannot structurally support the screen.			
	3.5 Other Requirements	The following must accompany a request for a building permit: i. A detailed plan showing the facility structure, antenna structures and equipment in relation to the existing surroundings, including screening, fencing, camouflage, off-street parking and access from the facility structures site to the nearest public street; ii. Satisfactory completion of a certification of compliance for personal wireless service providers issued by the public safety technology office prior to actual use of the proposed facility accompanied by a verification letter that all required Federal Aviation Administration (FAA) and Federal Communications Commission (FCC) approvals have been requested and that site-specific structural engineering and nonionizing electromagnetic radiation (NIER) reports are available on request from the applicant; and iii. The applicant shall provide documentation to the building official that the applicant has the permission from the structure owner to install the antenna(s) on the structure.			
	3.6 Collocation	Collocation of additional PWSF antennas on an existing facility structure is permitted. A structural recertification report prepared and sealed by a licensed professional engineer shall be required, and such report shall be reviewed and approved by the building official prior to issuance of a building permit.			

(Ord. 16826 § 1, 2008; Ord. 16653 § 2 (part), 2007; Ord. No. 17235, § 3, 11-10-2009; Ord. No. 17306, § 4, 4-6-2010; Ord. No. 17442, § 25, 10-26-2010; Ord. No. 19016, §§ 3—7(Exh. B), 1-7-2020; Ord. No. 19059, §§ 2, 3(Att. B), 5-12-2020)

20.10.460 Pet shops.

Pet shops for retail sale of animals, including grooming services, must comply with Title 7 of this Code, and any workrooms and cages shall be maintained within a completely enclosed, soundproof building and that such shop be operated in a manner so as to produce no objectionable noise or odors. (Ord. 16653 § 2 (part), 2007)

20.10.470 Planned residential development.

A. A planned residential development shall occupy at least the minimum site area established in the district regulations. City council may approve a special permit for a planned residential development with general lot sizes and setbacks below the minimum of the underlying zoning district. The proposed development shall additionally meet the following requirements necessary to protect the public health, safety and general welfare of the community and in order to foster the attractiveness of a residential development and its surrounding neighborhoods:

1. Evaluation Criteria.

a. Proposed buildings shall be sited harmoniously to the terrain and to other buildings in the vicinity that have a visual relationship to the proposed buildings. For purposes of this subsection, harmoniously shall not be deemed to require that the same architecture or same type of building materials be uniformly used.

b. With respect to vehicular and pedestrian circulation and parking, special attention shall be given to the location and number of access points to public streets, width of interior drives and access points, relationship of vehicular and pedestrian traffic, and the arrangement of parking areas that are safe and convenient.

2. General Requirements.

a. Private streets and gates shall be permitted within a planned residential development and shall conform to the design standards enumerated in Title 19 (Subdivisions) of this Code.

b. The minimum site area for a planned residential development shall be one acre, within which only residential uses of the base-zoning district shall be permitted. Extensions to a planned residential development from a common boundary shall be permitted in increments of less than one acre, provided that the owners of at least seventy-five percent of the land within the original planned residential development are in agreement and are included as joint applicants to the request for special permit.

c. The minimum area requirement of the base-zoning district may be reduced by no more than twenty-five percent for lots within a planned residential development, provided, however, that the maximum density permitted by the base-zoning district shall apply in all cases except as otherwise approved by any applicable special permit granted pursuant to Chapter 20.04 (Administrative Provisions).

d. The setback requirements of the base-zoning district shall not apply to a planned residential development, except as follows:

i. The distance between buildings shall be a minimum of ten feet except as otherwise permitted in this title;

ii. The length of the driveway shall not be less than twenty feet as measured from the face of the garage or carport to the dwelling side of the sidewalk, or to the property line where there is no sidewalk.

e. The perimeter of the planned residential development shall be designed to insure compatibility with adjacent existing or potential development by provision of compatible uses and structures.

f. No building shall exceed the height requirements of the base-zoning district.

g. Consideration in the site plan review and evaluation process shall include the following:

i. The nature and character of the development and adequacy of the buffer between proposed improvements on the site and adjacent property;

ii. The adequacy of utilities, access, drainage and other necessary supporting facilities that have been or will be provided;

iii. The adequacy of the design, location and arrangement of driveways and parking spaces so as to provide for the safe and convenient movement of vehicular and pedestrian traffic without adversely affecting the general public or adjacent developments.

h. A planned residential development shall be an architecturally integrated subdivision, whether unified by similar use and density, design, building materials, or open space and streetscape elements. (Ord. 16653 § 2 (part), 2007)

20.10.480 Poultry hatchery.

Hatching, raising and marketing of poultry must comply with Title 7 of this Code, and are subject to the following requirements:

A. In a Ranch-Farm District - no building pertaining to this use shall be closer than fifty feet from the nearest adjoining property line;

B. In an R-1 (Residential) District - no building pertaining to this use shall be closer than one hundred feet from the nearest adjoining property line. A minimum lot size of forty thousand square feet shall be required. (Ord. 16653 § 2 (part), 2007)

20.10.490 Processing facilities.

A. Light Processing Facilities. Light processing facilities are limited to baling, briqueting, crushing, compacting, grinding, shredding and sorting of source-separated recyclable materials and repairing of reusable materials. Where permitted in a district, by special permit, light processing facilities shall comply with the following standards:

1. Facility does not abut a bridge or overpass;

2. Light processors will operate in an enclosed building except for incidental storage, or:

a. Shall be located within an area enclosed on all sides by a screening fence or wall not less than six feet in height and landscaped on all street frontages, and

b. Located at least one hundred fifty feet from the property lines of an existing residential use or existing R, A, PR, SRR, RMU, PMD or NOS zoning district;

3. A light processing facility shall be no larger than forty-five thousand square feet and may not shred, compact or bale ferrous metals other than food and beverage containers;

4. A light processing facility may accept used motor oil for recycling from the generator in accordance with federal, state and local regulations;

5. Setbacks and landscaping requirements shall be as provided for in the zoning district in which the facility is located or required by the city at the time of approval of the special permit;

6. Oil storage must be in containers approved by the Texas Water Commission. No storage, excluding truck trailers and overseas containers, will be visible above the height of the fencing;

7. Site shall be maintained free of litter and any other undesirable materials, will be cleaned of loose debris on a daily basis and secured from unauthorized entry and removal of materials when attendants are not present;

8. Space shall be provided on site for the anticipated peak load of customers to circulate, park and deposit recyclable materials. If the facility is open to the public, space will be provided for a minimum of ten customers or the peak load, whichever is higher;

9. One parking space will be provided for each commercial vehicle operated by the processing center. Parking requirements will otherwise be as mandated in Chapter 20.14 of this Code;

10. Noise levels shall be in compliance with Chapter 9.40 of this Code;

11. Any containers provided for after-hours donation of recyclable materials will be at least fifty feet from any property line of an existing residential use or existing R, A, PR, SRR, RMU, PMD or NOS zoning district, shall be of sturdy, rustproof construction, shall have sufficient capacity to accommodate materials collected, and shall be secure from unauthorized entry or removal of materials;

12. Donation areas shall be kept free of litter and any other undesirable material. The containers shall be clearly marked to identify the type of

material that may be deposited. Facility shall display a notice stating that no material shall be left outside the recycling containers;

13. Sign requirements shall be those provided for in the zoning district in which the facility is located. In addition, facility will be clearly marked with the name and phone number of the facility operator and the hours of operation;

14. No dust, fumes, smoke, vibration or odor may be detectable on neighboring properties.

B. Heavy/Light Processing Facilities. Where permitted in an M-2 or M-3 district, heavy and light processing facilities shall comply with the following standards:

1. Facility does not abut a bridge or overpass and shall be located at least one hundred fifty feet from the property lines of an existing residential use or existing R, A, PR, SRR, PMD or NOS zoning district;

2. Shall be located within an enclosed building or enclosed on all sides by a screening fence or wall not less than six feet in height and landscaped on all street frontages;

3. Noise levels shall be in compliance with Chapter 9.40 of this Code;

4. Heavy processing facilities may accept used motor oil for recycling from the generator in accordance with federal, state and local regulations;

5. Setbacks shall be those required for in the zoning district in which the facility is located;

6. Oil storage must be in containers approved by the Texas Water Commission.

C. Waste Processing Facilities. Where permitted by special permit in an M-1 district and where permitted in an M-2 or M-3 district, waste processing facilities shall comply with the following standards:

1. Facility does not abut a bridge or overpass;

2. No waste processing facility may be located within five hundred feet, measured from property line of the waste processing facility to property line of the following:

a. A church;

b. A public or private elementary or secondary school;

c. A nursery school, kindergarten, child care center, day nursery or day care center;

d. A university, college, vocational or business school;

e. A boundary of any R, A, PR, SRR, PMD, RMU or NOS zoning district;

f. A park;

g. The property line of a lot devoted to any residential use;

3. Facility shall be entirely operating in an enclosed building or:

a. Within an area enclosed by a screening fence having a minimum height of six feet; and

b. Landscaped on all street frontages; and

c. At least one thousand feet from the property line of the waste processing facility to the property line of existing residential use or existing R, A, PR, SRR, PMD, RMU or NOS zoning district;

4. Any exterior storage of material shall be in sturdy containers or enclosures which are covered, secured and maintained in good condition;

5. Site shall be maintained free of litter and any other undesirable materials, and will be cleaned of loose debris on a daily basis;

6. Noise levels shall be in compliance with Chapter 9.40 of this Code. (Ord. 16817 § 8, 2008; Ord. 16653 § 2 (part), 2007)
(Ord. No. 17306, § 4, 4-6-2010; Ord. No. 19019, § 4, 1-7-2020)

20.10.500 Quarries.

A. This district is established in order to reasonably and uniformly limit, safeguard and control future mining, quarrying, excavating, processing and stockpiling of rock, sand, gravel, clay and aggregate, for commercial or retail sales in a manner and location which is in the public interest and which is consistent with the comprehensive plan and any supplemental land use and developmental policies which are adopted by the city plan commission and city council.

Includes accessory buildings, equipment, supplies and land which are used solely for the processing, storage, maintenance and sale of materi-

als, operating and security personnel offices, and other uses associated with quarrying, landfill and transfer station operations, also the sale, within a building, of supplies or merchandise normally used or produced in direct connection with a permitted use, or supplies normally used in direct connection with operations and products derived from permitted uses, including, but not limited to, supplies such as cement, rebar, mesh, wooden forms and other concrete finish equipment.

B. Application for a Q quarry district shall require submittal of the following with the rezoning application:

1. A metes and bounds description of the proposed district certified by a professional engineer or a registered land surveyor;

2. One copy of the zoning map at a scale of three hundred feet to the inch, outlining in red the area proposed for change of zoning;

3. Eight copies of a site plan drawn to a scale of not less than one hundred feet to the inch, unless a modification as to scale is authorized by the planning official. This site plan shall show the following:

a. The boundaries of the proposed district;

b. The location, arrangement and use of all existing structures or properties, utility rights-of-way and easements, local and arterial streets, schools, parks and other such features for the proposed district;

c. Existing contours at not more than twenty-foot intervals where the natural slope is greater than five percent, and not more than two-foot intervals where the natural slope is less than five percent;

d. Proposed use(s);

e. Areas of excavation;

f. Proposed contours to which the district is to be excavated.

4. Two copies of a master drainage plan showing the following:

a. Impact on the water table;

b. All watershed tributaries to the proposed district;

c. Amount of storm runoff;

d. Proposed method of controlling the expected runoff.

This drainage plan must be accompanied by hydraulic calculations based on the city's one hundred-year storm prediction and must be signed and sealed by a registered professional engineer.

5. For the purpose of erosion control and soil stabilization, a plan showing the method of stabilization. The city engineer may waive this requirement if it is determined to be impossible or impractical.

C. Responsibilities of the Owner and Operator. The landowner or his authorized agent will bear responsibility for:

1. Obtaining, when required, the services of an engineer or architect authorized to practice in Texas;

2. All of the legal duties, obligations or liabilities incidental to ownership of the property while the work is in progress or after its completion. The provisions of this chapter will not relieve any person or owner from any responsibility for damages to persons or property otherwise imposed by law, nor impose any liability upon the city or any official of the city for such damages;

3. Installing the appropriate devices, structures, landscaping and facilities and executing soil stabilization, erosion control, handling of materials and other proper measures to fulfill the intent and purpose of this chapter;

4. Providing continued maintenance and repair of all retaining walls, cribbing, drainage facilities, slopes, landscaping, soil stabilization and erosion control measures and any other protective devices located within the property;

5. Obtaining clearance from all utilities within the boundaries of the district. Failure to clear with any such utility may result in an immediate suspension of the work at the discretion of the building official.

D. Authority of the City Engineer and Building Official. The building official, under authority of this chapter, has the authority to impose any of the following requirements to protect the interest of the property owner, the adjacent property owner

and the general public during or after the extraction operation as may be reasonably necessary to cause the work to fulfill the purpose of this chapter:

1. Interim and permanent soil erosion control requirements;

[The next page is 893]

2. Slope stabilization requirements;

3. Work procedures and safety requirements related to transportation of materials on public ways;

4. Fencing or other screening as may be required to protect surrounding properties.

E. Operating Standards.

1. Any permitted quarry operation shall meet all applicable local, state and federal regulations.

2. Any blasting shall be done in accordance with the requirements of this code, except that no grading permit shall be required as a part of those requirements.

3. A perimeter setback of one hundred feet shall be observed from any site property line for extraction operations and a perimeter setback of twenty-five feet shall be observed from any site property line for any accessory uses.

4. If materials are washed or deposited upon streets, alleys or other public property as a result of improperly controlled activities, the building official shall notify the landowner or operator to remove such materials and restore the streets, alleys or other public property to their original condition. Excessive dirt which is carried from this site onto adjoining streets shall be removed by the operator the same day in which it is deposited.

5. Where the building official finds that a quarry operation is creating an imminent danger of death, personal injury or property damage, he may order that such quarry operation be immediately suspended until the hazardous condition is removed. Notice given under this chapter shall be in writing to the owner, operator, person or agent in charge of such operation.

6. A quarry operation as permitted in this chapter does not require a grading permit as specified in Chapter 18.44 of this code;

7. The city council may adopt by resolution a schedule of fees for inspection by city departments and staff called for by this chapter.

F. Authority to Issue Citations.

1. In addition to those authorized to issue citations under this title, the following public officials shall be authorized to enforce the provisions of this chapter and shall have the power to issue Class C misdemeanor citations to any persons violating the provisions of this chapter:

a. The city engineer;

b. The assistant city engineer;

c. The subdivision and grading supervisor;

d. The construction engineer;

e. The assistant construction engineer;

f. All construction inspectors; and

g. The investigative engineer.

2. The public officials designated in subsection (G)(1) of this section are authorized to make inspections of any property necessary to enforce the provisions of this chapter.

G. Penalty. Any person violating this chapter is deemed guilty of a misdemeanor and shall be punishable by a fine not to exceed one thousand dollars. In the case of a continuing violation, each day's violation shall be deemed a separate offense.
(Ord. 16653 § 2 (part), 2007)
(Ord. No. 17442, § 26, 10-26-2010)

20.10.510 Recreational vehicle parks.

All recreational vehicle parks shall be constructed and maintained in accordance with all applicable provisions of the city code.

A. All recreational vehicle parks and extensions and additions to recreational vehicle parks shall be constructed and maintained in compliance with the following requirements:

1. A recreational vehicle park shall have a minimum of thirty recreational vehicle spaces;

2. A recreational vehicle park shall not exceed a density of twenty-five lots per acre of gross site area;

3. Each lot shall have a minimum of one thousand square feet;

4. Recreational vehicles shall be separated from each other and from all other structures by at least ten feet. For the purposes of such measurement, any accessory to a recreational vehicle, such as an awning or individual storage facility, shall be considered as part of the recreational vehicle;

5. No recreational vehicle shall be closer than twenty feet to the property line adjoining a public

street, nor closer than fifteen feet to any property line on which the abutting property residential or apartment zoning;

6. Each lot shall provide adequate support and drainage for the placement of the recreational vehicle;

7. Exposed ground surfaces in all parts of a recreational vehicle park shall be paved, covered with stone screening or other solid material, or protected with a vegetative growth that is capable of preventing soil erosion and elimination of dust;

8. The ground surface in all parts of a recreational vehicle park shall be graded and equipped to drain all surface water in a safe and efficient manner.

B. Permanent Residential Structure Requirements.

1. At each recreational vehicle park, no more than one existing residential structure may be retained or one new residential structure constructed or installed for occupancy by the owner or operator of the park.

2. An existing structure located on a recreational vehicle park may be converted to an administrative, office or community building for use by the guests of the park. A structure so converted shall meet all city code standards for public occupancy applicable to the proposed use.

C. Internal Street and Parking Requirements.

1. Internal streets and/or driveways, all traffic control devices and street name signs within a recreational vehicle park shall be privately owned, built, and maintained. Internal streets and/or driveways shall be designed for safe and convenient access to all lots and to common facilities. If any portion of the recreational vehicle park is intended for overnight occupancy only, the internal streets and/or driveways should be arranged to accommodate drive-through lots.

2. Internal streets shall be kept open and free of obstruction to allow emergency vehicles to have access to all areas of the recreational vehicle park.

3. Internal streets and/or driveways shall be constructed and maintained to specifications established by city code. They shall be kept free of cracks, holes, and other hazards. Internal streets shall be designed by a professional engineer in accordance with good engineering practices, and shall be approved by the fire chief before a construction permit is issued for the park.

4. Internal streets and/or driveways must meet requirements of the city code.

5. Dead-end streets and/or driveway lengths shall comply with fire code requirements.

6. Entrances and exits to a recreational vehicle park shall be designed for safe and convenient traffic movement from adjacent public streets onto internal streets or driveways. Entrances and exits from a recreational vehicle park shall not be through a residentially zoned district, nor require traffic movement to or from the park through a residentially zoned district.

7. On all sections of an internal street where parking is prohibited under this section, the owner or operator of the recreational vehicle park shall erect and maintain traffic control signs and street markings prohibiting parking.

8. Each internal street and/or driveway shall be provided with street lighting. Light standards shall have a height and spacing to ensure an average illumination level of not less than 0.2 foot candles.

D. Recreational Vehicle Lot Requirements. Recreational vehicle park lots shall be occupied only by recreational vehicles.

E. Utilities. Utilities shall be installed in compliance with all applicable code requirements.

F. Service and Auxiliary Building Requirements. This section shall apply to all service buildings, recreation buildings, management offices, repair shops, storage areas, sanitary facilities, laundry facilities, indoor recreation areas, commercial buildings supplying essential goods or services for park tenants, and other similar buildings in recreational vehicle parks.

1. All service and auxiliary buildings shall be located to be convenient to the recreational vehicle lots they service and shall be kept clean.

2. Each park shall contain one or more service buildings providing separate sanitary facilities for men and women.

3. No lot space shall be located farther than five hundred feet from such a service building.

4. The entrances to such buildings shall be clearly marked to show which gender the facilities serve.

5. Fixtures shall be provided in accordance with the plumbing code.

6. Each recreational vehicle park shall contain waste disposal stations for the sole purpose of removing and disposing of wastes from recreational vehicle holding tanks in a clean, efficient and convenient manner.

G. Fire Code Safety Instruction Requirements.

1. Each recreational vehicle park owner or operator shall ensure that its park staff is instructed in the use of park fire protection equipment and in their specific duties in the event of a fire.

2. The fire chief may make printed safety instructions available to all recreational vehicle park owners or operators for distribution to their guests.

H. Construction plan requirements. A construction plan shall be submitted for review and approval by the building official prior to issuance of a building permit that identifies the following:

1. The area and dimensions of the tract of land, identifying its location and boundaries;

2. The number, location, and size of all recreational vehicle lots;

3. The location, width, and specifications of driveways, roadways and walkways;

4. The location and details of lighting, public telephones, and electrical and gas systems;

5. The location and specifications of water and sewer lines and sewer service riser pipes;

6. The location and specifications of all buildings constructed or to be constructed within the park;

7. Existing and proposed topography of the park;

8. The location of fire mains including the size of the main, fire hydrants, and fire extinguishment equipment, and available fire flow; and

9. Such other information as may be reasonably required by the building official in the review of the construction plan. (Ord. 16653 § 2 (part), 2007)

(Ord. No. 17442, § 27, 10-26-2010)

20.10.520 Recycling collection facilities.

A. Small Collection Facilities. Small collection facilities may be located in commercial, manufacturing and industrial zones provided they comply with the following standards:

1. Shall be established as an accessory use to a permitted commercial, manufacturing or industrial use which is in compliance with the zoning, building and fire codes of the city;

2. Shall be no larger than two thousand square feet and occupy no more than ten parking spaces, not including space that will be periodically needed for removal of materials or exchange of containers. For mobile facilities the size of the trailer shall not exceed five hundred square feet;

3. Shall be set at least ten feet from any property line and not obstruct pedestrian or vehicular circulation. However, this setback requirement may be modified by the zoning administrator following a report by the traffic engineer that a reduced setback will not obstruct visibility or create a traffic safety problem;

4. Shall accept those items defined as recyclable materials in Section 9.04.030 of this code. Used oil may be accepted as permitted by and in accordance with Chapter 15.20, which must be recycled in compliance with state and federal law;

5. Power-driven processing equipment shall be permitted, provided the equipment does not exceed the noise standards contained in Chapter 9.40 of this code;

6. Shall use containers that are constructed of durable material, covered when site is not attended, secured from unauthorized entry or re-

moval of material, and shall be of a capacity sufficient to accommodate materials collected during collection hours;

7. Shall store all recyclable material in containers or in the mobile unit vehicle, and shall not leave materials outside of containers when attendant is not present;

8. Shall be maintained free of litter and any other undesirable materials, and mobile facilities, at which truck or containers are removed at the end of each collection day, shall be swept at the end of each collection day;

9. Attended facilities located within fifty feet of a property line of an existing residential use or existing R, A, PR, SRR, RMU, PMD or NOS zoning district shall operate only during the hours between nine a.m. and seven p.m.;

10. Containers for the twenty-four-hour donation of materials shall be at least thirty feet from any property line abutting an existing residential use or an existing R, A, PR, SRR, RMU, PMD or NOS zoning district;

11. Containers shall be clearly marked to identify the type of material which may be deposited; the facility shall be clearly marked to identify the name and telephone number of the facility operator and the hours of operation, and display a notice stating that no material shall be left outside the recycling enclosure or containers;

12. Small collection facilities may have identification signs with a maximum of forty percent per side, in addition to informational signs and shall be restricted to on-premises advertising;

13. No additional parking spaces will be required for customers of a small collection facility located at the established parking lot of a primary use. However, one space will be provided for the attendant;

14. Mobile units shall have an area clearly marked to prohibit other vehicular parking during hours when the mobile unit is scheduled to be present;

15. Occupation of parking spaces by the facility and by the attendant may not reduce available parking spaces below the minimum number required for the primary use; and

16. Small collection facilities shall not be located in an area that obstructs the visibility of oncoming traffic exiting from adjacent driveways.

B. Large Collection Facilities. Where permitted in a district, large collection facilities shall comply with the following standards:

1. Facility does not abut a bridge or overpass or the property lines of an existing residential use or an existing R, A, PR, SRR, RMU, PMD or NOS zoning district;

2. Facility will be screened from the public right-of-way by operating in an enclosed building or:

a. Within an area enclosed by a screening fence having a minimum height of six feet,

b. At least one hundred fifty feet from the property line of existing residential use or existing R, A, PR, SRR, RMU or PMD zoning district, and

c. Meets all applicable noise standards required by city code;

3. Setbacks and landscape requirements shall be those provided for the zoning district in which the facility is located, or the setbacks and landscaping imposed by the city at the time of rezoning or special permit approval;

4. All exterior storage of material shall be in study containers or enclosures which are covered, secured and maintained in good condition, or shall be baled or palletized. Oil storage must be in containers complying with state and federal regulations. No storage, excluding truck trailers and overseas containers, will be visible above the height of the fencing;

5. Site shall be maintained free of litter and any other undesirable materials, and will be cleaned of loose debris on a daily basis;

6. Space will be provided on site for six vehicles or the anticipated peak customer load, whichever is higher, to circulate and to deposit recyclable materials, except where the traffic engineer determines that allowing overflow traffic above six vehicles is compatible with surrounding businesses and public safety;

7. One parking space will be provided for each commercial vehicle operated by the large recycling facility. Otherwise, parking requirements will be as provided for in Chapter 20.14 of this code;

8. Noise levels shall be in conformance with Chapter 9.40 of this code;

9. If the proposed facility is located within five hundred feet of existing residential use or existing R, A, PR, SRR, RMU, PMD or NOS zoning district, it shall not be in operation between seven p.m. and seven a.m.;

10. Any containers provided for after-hours donation or recyclable materials will be at least fifty feet from any property line of an existing residential use or existing R, A, PR, SRR, RMU, PMD or NOS zoning district, shall be of sturdy, rustproof construction, shall have sufficient capacity to accommodate materials collected, and shall be secure from unauthorized entry or removal of materials;

11. Donation areas will be kept free of litter and any other undesirable material, and the containers will be clearly marked to identify the type of material that may be deposited; facility shall display a notice stating that no material shall be left outside the recycling containers;

12. Facility will be clearly marked with the name and phone number of the facility operator and the hours of operation; identification and informational signs will meet the standards of the zone; and directional signs, bearing no advertising message, may be installed with the approval of the traffic engineer, if necessary, to facilitate traffic circulation or if the facility is not visible from the public right-of-way;

13. Power-driven processing, including aluminum foil and can compacting, baling, plastic shredding, or other light processing activities necessary for efficient temporary storage and shipment may be approved at the discretion of the director of the department of environmental services if noise and other conditions are met; and

14. The owner/operator shall obtain a permit in compliance with all applicable regulations. (Ord. 16817 §§ 7, 9, 2008; Ord. 16653 § 2 (part), 2007)
(Ord. No. 17306, § 4, 4-6-2010)

20.10.530 Resident watchmen facilities.

Dwellings for resident watchmen or property caretakers employed on the premises are permitted accessory uses, not to exceed one dwelling per site. (Ord. 16653 § 2 (part), 2007)

20.10.540 Residential manufactured home subdivision.

The purpose of this district is to provide for needed, properly planned and well-designed manufactured home subdivisions in areas where public utilities are available and to establish basic standards for the character of the use and to mitigate any adverse effect on surrounding properties.

A. In manufactured home subdivisions in the RMH district, the minimum dimension of lots and yards and the height of buildings shall be as shown in the accompanying table, and the following standards:

1. No more than one manufactured home shall be located on any one subdivisions lot;

2. Skirting shall be required on all manufactured homes;

3. All manufactured homes shall be anchored to a permanent foundation; and

4. No manufactured home shall be placed for occupancy at any location without the owner or owners first having obtained a placement permit from the building official.

Table Inset:

Land area	4 acre minimum
Lot area	4,000 square feet minimum per unit
Lot depth	90 feet minimum
Lot width	40 feet minimum
Lot coverage	50 percent maximum
Front yard	20 feet minimum

Rear yard	5 feet minimum
Side-interior lot	5 feet minimum
Side abutting street	10 feet minimum
Height	35 feet maximum

B. All areas not covered by structures or paved surfaces shall be landscaped and maintained by the owner.

C. Prior to the sale of any lots in a manufactured home subdivision, a screening fence or wall forty-two inches in height shall be installed along all boundaries of the subdivision which abut a public right-of-way (lots fronting on a public right-of-way abutting the subdivision and driveways excepted) and a screening fence or wall no less than forty-two inches in height and no more than six feet in height shall be installed along boundaries of the subdivision which abut property not included in the subdivision.

D. Fire protection facilities shall be provided in accordance with requirements of the city fire department.

E. At least one off-street parking space shall be provided on each manufactured home site. (Ord. 16653 § 2 (part), 2007)

20.10.550 Restricted residential mixed-use development.

A. Purpose. The purpose of a restricted residential mixed-use development is to create a unique environment for a hub of activity and a focal point for a given area, reflecting the identity of the area by providing a variety of land uses that coexist in a multi-use residential setting. The mix of land uses are functionally connected to create a cohesive development which facilitates new development, but also provides for the retention and integration of existing residential types and intensities. The mixed-use area shall provide for a group of land uses that meet the daily needs of the area.

B. Designation.

1. An application for a residential mixed-use development may be initiated by a property owner or group of property owners of land within the area of request, by the city plan commission, or by the El Paso city council.

2. The area of request shall be designated for mixed-use within the city's projected land use element of the adopted comprehensive plan, "The Plan for El Paso."

3. The area of request shall be wholly included in a city adopted specific study area plan for the area, which sets the written and graphic description of the concerns, objectives, guidelines, and design standards for guiding the development of the area.

The area of request shall be wholly designated as a neighborhood conservancy overlay as provided in Section 20.10.400 of this title.

There shall be no minimum site requirement for a restricted residential mixed-use development, provided, however, that it is the intent of these regulations that an area of sufficient size be developed or redeveloped symbiotically with adjacent land. Extensions to a restricted residential mixed-use development from a common boundary may be considered and shall not require a minimum site area.

C. Use Regulations. In addition to the uses permitted by the underlying zoning district, buildings, structures, or premises may be used, erected, altered or enlarged for the following uses. A special permit granted by the city should specifically enumerate which of the following uses are permitted as part of the restricted residential mixed-use development.

1. Residential dwellings, including detached single-family, two-family, attached single-family and multi-family;

2. Business and professional offices, including doctor's offices, clinics and other medical practitioners;

3. Studio for professional work or teaching of any form of commercial or fine arts;

4. Bakery;

5. Drugstore;

6. Ice cream parlor;

7. Restaurant or cafe, excluding drive-in types;

8. Grocery or convenience store;

9. Variety store;

10. Barber or beauty shop;

11. Dry-cleaning shop or laundromat;

12. Health or fitness studio;

13. Travel agency;

14. Specialty retail uses such as an antique store, art gallery, bookstore, florist, gift shop, or hobby store;

15. Community buildings and recreational facilities (publicly or privately owned);

16. Bed and breakfast establishment;

17. Boardinghouse (rooming or lodging house);

18. Commercial day care center or nursery;

19. Accessory uses customarily found in connection with any of the enumerated permitted uses.

D. Property Development Standards. Where permitted in a district, a restricted residential mixed-use development shall comply with the development standards of the underlying zoning district and as otherwise provided in this title, except as herein modified. These provisions shall apply to and be enforceable upon any new construction, reconstruction or renovation of buildings, structures, or premises made to accommodate uses permitted as part of a restricted residential mixed-use development.

1. Residential dwellings physically integrated with offices and commercial establishments within a site are permitted, and are deemed most in keeping with the objectives of this section for the development of a balanced community.

2. All permanent storage and display operations shall be conducted within a completely enclosed building or structure.

3. Off-street parking requirements contained in Chapter 20.14 (Off-Street Parking and Loading Requirements) of this title shall not be required of uses permitted in a restricted residential mixed-use development; provided, however, that where adequate area within a site is available to accommodate required off-street parking (whether wholly or partially) within a rear area of a site, such off-street parking may be provided.

4. On-premises advertising for strictly nonresidential uses within a restricted residential mixed-use development shall be restricted to wall or monument signs. One sign not exceeding thirty square feet in size shall be permitted per street frontage. The height of a monument sign shall not exceed six feet in height. Signs shall be pedestrian-oriented and shall not detract from the character of the area. On-premises advertising for a residential mixed-use development consisting of residential uses physically integrated with office and commercial uses, whether wholly or partially, shall be restricted in the same manner as described above except that the maximum sign area permitted per street frontage shall be twenty square feet.

5. No building shall exceed the height limitations of the underlying zoning district, except where it can be demonstrated that the additional height will not have a detrimental effect on the surrounding land uses or the visual pattern of the area.

6. Existing or proposed multi-story buildings that are intended for retail sales or variety stores shall be designed to allow for commercial usage on the ground floor level only, and a mix of residential types and intensities on the upper floors.

7. Uses shall be innovatively designed by means of emphasizing pedestrian orientation.

8. In addition to the landscape requirements contained in Title 18 (Buildings and Construction) of this Code, any part of the total site area not required for buildings, structures, loading and vehicular access ways, parking and utility areas, pedestrian walks, and hard surfaced activity areas shall be landscaped.

9. A minimum of one-fourth of the total site area shall be provided as open space to provide visual continuity within the area, and a variety of spaces in the streetscape. Of the open space area, no more than one-half of the area may be used for non-permeable surfaces such as parking areas or driveways.

10. The residential appearance of any portion of an existing residential building or structure within the site that is converted wholly or partially to a permitted mixed-use shall be maintained.

E. Additional requirements. In approving a restricted residential mixed-use development, the city plan commission may recommend and the city council may impose additional reasonable requirements necessary to protect the public interest and welfare of the community. In the event that the design standards of the applicable study area plan are more restrictive or impose higher (or different) standards than the requirements of this title, the design standards of the applicable study area plan shall govern. Copies of adopted study area plans are on file in the office of the planning official. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17442, § 28, 10-26-2010)

20.10.555 Urban reserve district (URD).

A. When development is proposed on land zoned URD, the land shall be developed in accordance with provisions of Title 21 — SmartCode. Prior to development URD property will be rezoned SmartCode.

B. Utility Facilities and Thoroughfares within an URD Zone. Land zoned URD may be used as necessary for utility facilities and thoroughfare construction projects. Permissible uses and uses allowed by special permit are identified in Appendix A. Any thoroughfare construction projects shall comply with the Institute for Transportation Engineers (ITE) Designing Walkable Urban Thoroughfares: A Context Sensitive Approach, An ITE Recommended Practice as amended.
(Ord. No. 17547, § 3, 5-3-2011)

20.10.557 Utility green space.

A. The purpose of these regulations is to protect and conserve lands designated as utility green space while still allowing certain necessary water, wastewater and stormwater utility systems as secondary purposes to the area. Utility green space serves to:

1. Add to the existing open space system and enhance the ecological, hydrological, and recreational vitality of the existing Franklin Mountains State Park and foothill areas;

2. Promote planning and growth that emphasizes sustainability in our built and natural environments;

3. Promote careful management to reduce environmental impacts to the water, waste water and stormwater systems in the community;

4. Protect healthy ecosystems through environmental management and measurement by:

a. Reducing impervious cover that contributes to degradation of water resources;

b. Reducing rainfall pollutant loads to streams and other water resources;

c. Reducing potential pressure to encroach on utility resource buffer areas;

d. Reducing soil erosion potential by reducing the amount of clearing and grading required;

e. Promoting erosion and sediment control;

f. Reducing capital cost of utility infrastructure;

g. Reducing cost of stormwater management by concentrating runoff and reducing volumes;

h. Promote a high quality, sustainable utility system that conserves and protects land, watershed, wastewater, reclaimed water and water resources;

i. Optimize best practices in planning, engineering and management that will protect the environment; and

j. Protect the ecological and geological health and function of green space.

B. Where utility green space is designated, a conservation covenant may be required to provide further protections to the area. Any conveyance of the utility green space to the Texas Parks and Wildlife Department shall incorporate the requirements of this section as a condition of donation and acceptance of the land.

C. In addition to allowing use of the land for water, waste water, and stormwater utility systems, other passive recreational uses and activities customarily found in conserved natural areas are also permitted (such as trail corridors and trailheads, scenic outlooks, and pedestrian walking and jogging paths). Notwithstanding the allowable uses and activities described in this section, the mandating restriction of uses and activities permitted on land within a utility green space designated property shall be as set forth in the conservation covenant, where applicable. The conservation covenant shall enumerate the use(s) permitted and prohibited, shall detail how use of the land shall be authorized pursuant to this section, and shall include a management plan for maintenance, monitoring and enforcement of these use provisions. In no case shall a use not satisfying the general intent of these regulations be permitted as a provision of the conservation covenant.

D. Any property designated as utility green space shall be subject to the development standards of the El Paso City Code as part of construction, reconstruction, or alteration of any permitted use, and any additional development standards as may be enumerated in the conservation covenant.

E. For purposes of this section, water, waste water, and stormwater utility systems shall mean the systems of the city as they may be constructed or now exist and may be improved, added to, or extended hereafter, there being included in such term all water, sewer and stormwater facilities now or hereafter owned or operated by the El Paso Water Utilities - Public Service Board, and including all real and personal property comprising any part of or used or useful in the operation of the water, waste water, and stormwater facilities of the city. Specific facilities shall include, but not be limited to, any facility or structure that stores, pumps, conveys, treats, or disposes of potable water, reclaimed water, wastewater, and/or stormwater and the associated residuals with the appropriate resource buffer zone. In addition, other public utility facilities which serve to distribute and transmit electrical power, gas and other essential service necessary to the water, waste water, and stormwater utility systems are also authorized.

F. Utility green space designated within a development shall not be considered a park under any circumstances, nor shall acceptance of a dedication and maintenance by the city be required. (Ord. No. 17904, § 2, 11-6-2012)

20.10.560 Restaurants, drive-in.

Drive-in restaurants are not permitted in a C-l or mixed use zoning district within two hundred feet of a residential use or an R-l, R-2, R-2A, R-3, R-3A, R-4, R-5, PR-I, PR-II, PMD or NOS zoning district. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17306, § 4, 4-6-2010)

20.10.570 Retail and service facilities.

Retail and service uses such as newsstands, cafeterias and retail stores are permitted inside an office building when primarily for the use of occupants thereof and occupants or other buildings in the development. (Ord. 16653 § 2 (part), 2007)

20.10.580 Reverse vending machines.

A. Reverse Vending Machine(s). Reverse vending machine(s) may be permitted in all commercial, manufacturing and industrial zones; provided, that they comply with the following standards:

1. Shall be established as an accessory use to a permitted commercial, manufacturing or industrial use and is in compliance with the zoning, building and fire codes of the city;

2. Shall not occupy required parking spaces for the primary use;

3. Shall occupy no more than one hundred fifty square feet of floor space per installation, including any protective enclosure, and shall be no more than eleven feet in height;

4. Shall be constructed and maintained with durable material;

5. Shall be clearly marked to identify the type of material to be deposited, operating instruc-

tions, and the identity and phone numbers of the operator or responsible person to call if the machine is inoperative;

6. Shall have a cumulative sign area not exceeding fifty square feet per machine, exclusive of operating instructions and shall be restricted to on-premises advertising;

7. Shall be maintained in a clean, litter-free condition on a daily basis;

8. Shall be illuminated to ensure comfortable and safe operation if the facility operates during nighttime hours;

9. Reverse vending machines shall not be located in an area that obstructs the visibility of traffic entering or exiting adjacent driveways. (Ord. 16817 § 10, 2008; Ord. 16653 § 2 (part), 2007)

20.10.590 Satellite receiving dishes and antennas.

Satellite receiving dishes measuring more than one meter in diameter and other satellite receiving antennas shall comply with the following:

A. In residential and apartment districts:

1. The following setbacks shall be observed:

a. Four feet from interior lot lines,

b. If on a corner lot: the side street yard requirement for buildings in the district in which it is located,

c. If in the rear yard: five feet from the rear lot line,

d. If in the front yard: sixty feet from the front lot line,

e. If in side yard: sixty feet from the front lot line and the side yard requirement for buildings in the district in which it is located;

2. The following standards shall be observed:

a. Any such antennas plus other permitted accessory structures shall not occupy more than forty percent of the yard in which located,

b. When detached structurally from the main building the maximum overall height of any such antennas from ground level shall not exceed twenty-four feet,

c. When roof-mounted or attached to the main building, any such antennas shall conform to the height standard of the district in which located. The installation of any roof-mounted dish or antenna and those attached to the main building exceeding twenty-four feet in height shall be designed or checked and approved by a registered professional engineer or a registered professional architect.

B. In commercial, manufacturing and industrial districts:

1. The following standards shall be observed:

a. The antenna may be located anywhere within the buildable area of the lot, with no part of the antenna projecting beyond such buildable area or onto the twenty-foot visibility triangle,

b. When installed in conjunction with commercial or public radio and television broadcasting and microwave receiving facilities, a special permit shall be required except where the commercial or public radio and television broadcasting and microwave receiving facility is a permitted use by special permit or otherwise.

C. All design, installation and construction of any such antennas shall comply with the building code of the city.

D. No form of advertising or other identification is allowed on the dish or framework other than manufacturer's identification plates or stamps not exceeding one square foot in area.

E. In historic districts, must additionally comply with Chapter 20.20 (Historic Preservation). (Ord. 16653 § 2 (part), 2007)

20.10.600 Secondary manufactured homes (ranch-farm district only).

Secondary manufactured home units are permitted in the ranch and farm zoning district on a site of at least one acre, provided the following conditions are met:

A. A placement permit is obtained from the building official;

B. Manufactured home meets requirements of National Manufactured Home Construction and Safety Standards;

C. All additions to the manufactured home shall be engineered and built to comply with currently applicable manufactured home construction standards;

D. Manufactured home does not exceed a height of sixteen feet;

E. Manufactured home shall have nonflammable skirting around its perimeter to screen its wheels and undercarriage from view;

F. Fire protection facilities shall be provided as required by the fire department;

G. A setback of twenty feet shall be maintained from any building or accessory structure;

H. A setback of twenty-five feet shall be maintained from any property line;

I. Such manufactured home shall be used only as a residence, and in no case shall be used for rental or commercial purposes; and

J. A special permit granted pursuant to this section shall be for a period of two years. The city council may, upon application of the owner, approve a one-year extension of this time period, but in no case shall the total time period exceed a maximum of three years. The zoning board of adjustment shall not have jurisdiction to grant any variance or exception from the requirements of this subsection. (Ord. 16653 § 2 (part), 2007) (Ord. No. 17235, § 3, 11-10-2009; Ord. No. 17442, §§ 21, 30, 10-26-2010)

20.10.610 Self-storage warehousing.

In A-1, A-2 and A-3 (Apartment), A-M (Apartment-Manufactured home), A-O (Apartment/Office), A/3-0 (Apartment/Office High Density), RMU (Residential Mixed Use), GMU (General Mixed Use), C-1 and C-2 (Commercial) Districts the following conditions apply:

A. A minimum site area of two acres shall be required, unless adjacent to and abutting a minimum of four acres zoned C-1, C-2, C-3 or C-4, then the minimum site area shall be one acre with an average lot width of not less than two hundred feet and an average lot depth of not less than two hundred feet.

B. Individual storage spaces shall not exceed four hundred square feet in area and fourteen feet in height, except in the case of storage spaces for RVs and motor homes, which shall not exceed twenty feet in width and sixty feet in length.

C. A six foot high screening wall shall be required along all property lines abutting residential or apartment uses or districts.

Additionally, the following conditions shall apply in the C-5 (Commercial) Districts:

A. A self-storage warehouse shall not occupy the first floor of a building. Permitted activities for the first floor shall be limited to the retail portion of the operation where customer transactions occur and/or in combination with another permitted use in the zoning district.

B. The portion of the building containing the self-storage warehouse shall be limited to no more than eighty percent of the total gross floor area.

C. Self-storage warehouses shall only be permitted in existing structures. If no structure exists, then self-storage warehouses shall conform with the design requirements of Section 20.10.280.C, infill development. (Ord. 16653 § 2 (part), 2007) (Ord. No. 019734, § 3, 5-28-2025)

20.10.620 Sexually oriented businesses.

A. No person shall own, operate or conduct any business in an adult bookstore, adult motion picture theater or nude live entertainment club within one thousand feet of the following:

1. A church;

2. A public or private elementary or secondary school;

3. A nursery school, kindergarten, child care center, day nursery or day care center;

4. A university, college, vocational or business school;

5. A boundary of any residential district;

6. A public park adjacent to a residential district;

7. The property line of a lot devoted to any residential use;

8. Another adult bookstore, adult motion picture theater or nude live entertainment club.

B. For the purposes of this section, the following definitions shall apply:

1. Conduct Any Business. Any person who does any one or more of the following shall be deemed to be conducting business:

a. Operates a cash register, cash drawer or other depository on the adult business premises where cash funds or records of credit card or other credit transactions generated in any manner by the operation of the establishment or the activities conducted therein are kept;

b. Displays or takes orders from any customer for any merchandise, goods, entertainment or other services offered on the adult business premises;

c. Delivers or provides to any customer any merchandise, goods, entertainment or other services offered on the adult business premises;

d. Acts as a door attendant to regulate the entry of customers or other persons into the business premises; and

e. Supervises or manages other persons in the performance of any of the foregoing activities on the business premises.

2. "Entertainment" means any act or performance, such as a play, skit, reading, revue, pantomime, scene, song, dance, musical rendition or striptease, whether performed by employees, agents, contractors or customers. The term "entertainment" shall also mean bartenders, waiters, waitresses or other employees exposing "specified anatomical areas" or engaging in "specified sexual activities" in the presence of customers.

3. "Operator" means the manager or other natural person principally in charge of an adult business regulated in this section.

4. "Owner" or "owners" means the proprietor if a sole proprietorship, all partners (general and limited) if a partnership, or all officers, directors and persons holding ten percent of the outstanding shares if a corporation.

C. For the purposes of this section, measurements shall be made in a straight line, from the nearest portion of the building or structure used as a part of the premises of a regulated use to the nearest property line of any uses listed in subsection A of this section.

D. Any adult bookstore, adult motion picture theater or nude live entertainment club lawfully in existence on February 10, 1987, and not in compliance with the zoning provisions of the city code, shall be deemed a nonconforming use and shall comply with all of the provisions of the zoning code regulating such uses by February 10, 1988. In the case of any such uses being located within one thousand feet of each other, the use first established and continually operating shall be allowed to continue to operate at its location, provided such use complies with all other provisions of the zoning code.

E. The subsequent establishment of any use set forth in subsection A of this section within one thousand feet of a previously existing use regulated by this section shall not render such use a nonconforming or unlawful use.

F. The regulations in this zoning code of adult bookstores, adult motion picture theaters and nude live entertainment clubs are intended to be land use controls meant to regulate the harmful secondary effects of such uses only, and shall not be construed as being intended to limit access by adults to sexually oriented material, activity or expression, protected by the First Amendment of the United States Constitution.

G. Signage. The owner or operator of an adult entertainment use may erect, construct and maintain signs allowed by and conforming with Chapter 20.18 of this Code.

H. If any section, subsection, clause or any portion of the regulations in this zoning code regulating adult bookstores, adult motion picture theaters and nude live entertainment clubs is held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this Code regulating such uses. (Ord. 16653 § 2 (part), 2007)

20.10.630 Storage of supplies (in connection with a permitted use).

Storage of supplies, merchandise, equipment or goods normally carried in stock, used or produced in connection with a permitted use is allowed within a building, or shall be screened from any abutting public street or other abutting property by a solid masonry wall or chain link fence with slats not less than six feet in height. (Ord. 16653 § 2 (part), 2007)

20.10.640 Swimming pools and spas.

A. In any district where permitted as an accessory use, unenclosed swimming pools and spas may occupy a required rear or side yard, provided they are not located closer than five feet to a rear or side lot line. A walk space at least four feet wide

shall be provided between pool walls and protective fences and building or other walls. A deck surrounding at least sixty-five percent or more of the swimming pool or spa shall be provided, however, in no case shall other structures restrict emergency access or create above deck structures that may be used as diving platforms or create other safety or sanitary hazards.

B. Swimming pools and spas listed under permitted uses in any district shall comply with the yard and other standards of the district in which located.

C. Every residential outdoor swimming pool and spa shall comply with the requirements of the Residential Code, Chapter 18.10.

D. Every public swimming pool and spa shall comply with the requirements of Chapter 9.48 of this Code. (Ord. 16653 § 2 (part), 2007)

20.10.650 Temporary buildings or structures (incidental to construction).

Temporary buildings, or structures, including mobile or relocatable home office or storage units, the uses of which are incidental to construction operations during development being conducted on the same tract or subdivision are permitted and shall be removed upon completion or abandonment of such construction, or upon the expiration of a period of four years of (from) the time of erection of such temporary buildings, whichever is sooner. (Ord. 16653 § 2 (part), 2007)

20.10.660 Temporary buildings or structures (incidental to sales or rental).

Temporary buildings or structures, including a mobile or relocatable office unit for use as sales or rental office for an approved real estate development or subdivision, located on the same tract as the real estate development or subdivision are permitted and shall be removed upon completion or abandonment of the project or upon the expiration of a period of four years, whichever is sooner. (Ord. 16653 § 2 (part), 2007)

20.10.670 Temporary sales stands.

Temporary sales standards for the sale of farm or ranch products produced on the premises, provided only one such stand may be used on each farm or ranch, and the stand shall contain not more than six hundred square feet of floor space and shall be located not less than thirty feet from the adjoining property and not less than forty feet from the roadway, and temporary off-street parking for at least five vehicles is provided, the parking area to meet the requirements of Chapter 20.14 of this Code. (Ord. 16653 § 2 (part), 2007)

20.10.680 Temporary uses.

A. Intent and purpose. The intent of this section is to accommodate reasonable requests for interim or temporary uses when such activities are desirable for the community, or are temporarily required in the process of establishing a permitted use or constructing a public facility. Temporary uses allowed under this section shall be consistent with the health, safety and general welfare of persons residing and working in the community, shall be conducted so as not to cause any detrimental effects on surrounding properties and the community, and shall not violate any other ordinance or state and federal regulations.

B. Application requirements for a temporary use permit.

1. The application and supporting documents for a temporary use permit shall be prepared in accordance with the specifications outlined below.

a. Submit a complete building permit application.

b. Submit a complete site plan to include the following items:

(1) The location of all temporary structures proposed property and permanent structures on the property shall be shown on the site plan.

(2) The location of any tie downs or guy wires within the property.

(3) The internal parking layout to include all driveways within the property.

(4) If structures are proposed to be located within a parking lot, include the parking calcula-

tions showing that the proposed temporary use will not reduce the minimum required parking for all primary permanent existing uses located on the site.

(5) Location of sign(s), screening walls, fencing and electric meter locations or temporary power sources if applicable.

(6) The setbacks from property lines shall be shown on the site plan.

2. All temporary use permits are valid for the period and location specified in the permit issued for the temporary use, however for no longer than six months within the same calendar year at which time it is deemed expired.

3. Individual temporary structures as part of the permit shall not exceed a total of one hundred square feet in size and shall be accessory to the primary use on the lot.

4. Applicant shall have the approval of the plan review building official.

5. If use is conducted on property that is owned by a separate owner, a notarized letter from the property owner or an authorized agent, granting permission to the applicant to use the property for the temporary use and permission to use any restroom facilities located on the property.

6. Restroom facilities are required. If restroom facilities are unavailable on the site, a portable facility may be used.

7. Any tents, membrane structures or canopies used in conjunction with a temporary use permit shall comply with all other provisions of the city code.

8. Payment of established fee for a temporary use permit.

9. The site shall be cleaned up and returned to its original state as found by the applicant. Clean up shall begin within a twenty-four-hour period after the applicant has stopped using the site for the permitted temporary use.

10. The use shall not be conducted between the hours of 10:00 p.m. and 8:00 a.m. except where specifically allowed under the permit issued.

11. Temporary structures shall be setback a minimum of ten feet from the front property line and shall not hinder the visibility sight triangle.

C. Temporary uses allowed.

1. Seasonal sales of food items. Applicant shall obtain the approval of the director of public health. This use is only allowed in a ranch and farm or a developed lot located in C-1 to C-5 (Commercial), M-1 (Manufacturing) and GMU General Mixed Use zone districts. This use includes:

a. Seasonal sales of food items.

b. Farmers markets.

c. Mobile structures for seasonal sales of food items.

2. Seasonal sales of non-food items. This use is only allowed in a developed lot located in C-1 to C-5 (Commercial), M-1 (Manufacturing) and GMU General Mixed Use zone districts. This use includes:

a. Christmas Tree lots.

b. Pumpkin sales lots.

c. Sales from mobile structures.

d. Temporary mobile structures.

e. Mobile structures for temporary sales.

3. Temporary places of assembly. This use is allowed on a developed lot and only on an undeveloped lot that complies with parking regulations for temporary lots in Chapter 20.14 (Off-Street Parking, Loading and Storage) and Title 30 of the Texas Administrative Code Chapters 101 and 111. These uses shall be permitted in the following zoning districts: R-F (Ranch and Farm), C-1 to C-5 (Commercial), M-1 (Manufacturing), GMU (General Mixed Use) and P-I (Planned Industrial). Applications for temporary places of assembly will be required to obtain all necessary permits. Temporary places of assembly include the following uses:

a. Haunted house.

b. Fair, circus, rodeo, festival, carnival or concert operated at a location other than a stadium,

auditorium or other public assembly facility designed to accommodate such an event. These uses must meet all of the following requirements:

(1) The property in which the temporary use will operate is at least three acres or more in size.

(2) There shall be at least a buffer zone of one thousand five hundred feet between the area, in which the use will operate, and any residential zoning district or use. This measurement will be measured from the outermost footprint of the event including all required parking.

(3) The temporary event shall comply with all of the parking requirements of Title 20.

(4) Additional requirements:

(a) Any property zoned R-F is limited to hosting these uses to three times per calendar year.

(b) Events held on property zoned R-F where an applicant estimates that the event will have more than five hundred people in attendance at peak hours will require approval from city council prior to the issuance of a temporary use permit.

4. Temporary real estate offices or rental offices. This use requires the placement of a Texas Industrialized building. The use may include a sales/rental office for an approved real estate development or subdivision. The use must be located on the same property as the development or subdivision. The use must be removed after completion or abandonment of the project or after a four-year period, whichever is sooner.

5. Temporary tents, membrane structures or canopies. The applicant must provide proof that the structure is of flame resistant material or is treated with a flame retardant which meets the requirements of NFPA 701. Tents in excess of two hundred square feet, or a canopy in excess of four hundred square feet will require review and approval from the fire department and an operational permit will be required from the fire marshal's office, except that the following temporary uses will not require an operational permit:

a. Tents used exclusively for recreational camping purposes.

b. Fabric canopies and awnings open on all sides which comply with all of the following:

(1) Individual canopies shall have a maximum size of seven hundred square feet (65 m2).

(2) The aggregate area of multiple canopies placed side by side without a fire break clearance of twelve feet (3.7 m) shall not exceed seven hundred square feet (65 m2) total.

(3) A minimum clearance of twelve feet (3.7 m) to structures and other tents shall be provided.

D. The following temporary uses may be permitted without the issuance of a temporary permit:

1. Temporary structures such as construction sheds, canopies, tents and fences used in construction work in conjunction with a building or grading permit. Such structure shall be allowed for a limited amount of time and shall be completely removed upon the completion of the work authorized by the building or grading permit.

2. Temporary structures such as construction sheds, canopies, tents and fences used in construction work in conjunction with a public works or city, county, state or federal project. Such structure shall be allowed for a limited amount of time and shall be completely removed upon the completion of the work authorized by the building or grading permit. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17235, § 3, 11-10-2009; Ord. No. 17314, § 1, 5-4-2010; Ord. No. 17442, §§ 21, 31, 10-26-2010; Ord. No. 17557, § 3, 5-17-2011; Ord. No. 17757, § 1, 3-20-2012; Ord. No. 17927, § 1, 1-15-2013; Ord. No. 18371, § 2, 6-16-2015; Ord. No. 18506, § 1, 5-24-2016; Ord. No. 18663, § 1, 4-18-2017)

20.10.690 Tennis clubs.

Where permitted in a district, tennis clubs shall comply with the following requirements:

A. Dimensional Standards. At any tennis club developed pursuant to the provisions of this section, buildings hereafter erected or structurally altered shall have:

1. A front yard on any street equal to that required in underlying zoning district. Such front yard shall not be used for the parking of vehicles,

2. A rear yard equal to that required in underlying zoning district, or twenty-five feet in depth, whichever is greater,

3. Side yards equal to that required in underlying zoning district, or fifteen feet in depth, whichever is greater,

4. A building height not in excess of two and one-half stories,

5. An average lot width of not less than two hundred feet,

6. A lot or site area of not less than two acres,

7. Off-street parking as required in Chapter 20.14;

B. Permitted accessory uses:

1. Pro shop,

2. Handball courts,

3. Restaurant or bar or restaurant or combination thereof,

4. Locker room,

5. Sauna bath,

6. Swimming pool. (Ord. 16653 § 2 (part), 2007)

20.10.695 Transfer of development rights.

A. Purpose.

1. In order to provide regulatory incentives to permanently restrict urbanization of certain environmentally sensitive areas, or to allow certain vested projects to be relocated to another appropriate location, this section establishes two types of transfer of development rights. In all cases, the transfer of development rights from sending to receiving parcels shall be at the voluntary request and requires a special permit application of the landowners of both parcels.

a. Environmentally sensitive areas. A special permit for transfer of development rights (TDR) shall be permitted when approved by the El Paso City Council pursuant to the provisions of this section.

b. Vested projects. When a determination as to project vesting has been made pursuant to Section 1.04.070 of this Code, a property owner may be allowed to relocate that project to another appropriate parcel of land, when approved by the El Paso City Council pursuant to the provisions of this section.

2. For purposes of this section, environmentally sensitive areas shall include areas designated as such by local, state or federal documentation. If governmental documentation cannot be produced with an environmentally sensitive designation that meets the following criteria, then the city engineer and director of environmental services may evaluate the property and determine if it meets one or more of the following characteristics. If the city engineer and director of environmental services determine it is not an environmentally sensitive area as defined herein a special permit application may not be processed.

a. Areas with significant natural features;

b. Areas which enhance the open space and aesthetic qualities of the land;

c. Areas that protect agricultural resources;

d. Areas necessary for the preservation of natural resources;

e. Areas containing habitats for threatened or endangered species;

f. Wetlands and wetland transition areas;

g. Aquifer recharge and discharge areas;

h. Archaeological sites;

i. Waters of the state, which includes arroyos; or

j. Other areas or features that have been designated for protection due to ecological integrity, balance or character.

3. This section establishes procedures for transferring development rights from sending to receiving parcels, to allow for increased densities in the receiving parcels and reduced densities in the sending parcels, for environmentally sensitive lands, and to allow for the transfer and development of vested projects on land appropriate for such uses.

4. The TDR system for environmentally sensitive lands is based on the theory of carrying capacity. In other words, a finite amount of development is permitted in the areas within the sending and receiving parcels. A transfer of develop-

ment rights does not increase the cumulative density possible in the sending and receiving parcels. The TDR for vested projects is based on the theory that certain projects may have become vested in their development plans, but may be more appropriately located on different property than that for which the initial permit was received.

5. A special permit application for transfer of development rights shall be subject to the requirements of Chapter 20.04, Article V of this title.

B. Sending Parcels.

1. Environmentally sensitive lands: Property proposed as a sending parcel may be located in any zoning district within the El Paso city limits and shall meet all of the following criteria:

a. The property proposed as a sending parcel is within an area designated as environmentally sensitive as described in subsection (A)(2);

b. One hundred percent of the development potential of the sending parcel shall be transferred. For purposes of this subsection, "development potential" means the density permitted by the underlying zoning district of the sending parcel;

c. The property is physically and legally developable at the potential of the underlying zoning district, as certified by a registered professional engineer;

d. All of the property in the proposed sending parcel is protected through recording of a conservation easement or otherwise restricted from any future development;

e. Documentation of compliance with the requirements for eligibility as a sending parcel shall be submitted with the application for a special permit requesting a transfer of development right from the sending parcel and an increase in density in the receiving parcel.

2. Vested Projects. Property proposed as a sending parcel may be located in any zoning district within the El Paso city limits and shall meet all of the following criteria:

a. The project has requested and received a letter of vested rights determination;

b. The vested project is an allowed use within the zoning district on which the receiving parcel is located, or would have been allowed under the ordinances in effect at the time of issuance of the vested determination letter;

c. The vested project as planned, developed, and depicted on applications for all permits, for the receiving parcel substantially conforms to the project for which the vested rights determination letter was granted. Consideration will be given for changes in plans necessitated by the topography or other features of the receiving parcel;

d. Documentation of compliance with the requirements for eligibility as sending and receiving parcels shall be submitted with the application for a special permit.

e. Exemption from special permit. A Vested Project will not be required to secure approval of a special permit in accordance with this Section, under the following conditions:

(1) The requestor holds a valid determination of project vesting under Section 1.04.070 of this Code; and

(2) The City has a real property interest in the sending or receiving parcel; and

(3) Council has determined the following as part of the real property transaction:

(a) That the proposed use being transferred from the sending parcel to the receiving parcel, is identified as the Project in the determination of project vesting; and

(b) That the proposed use is an appropriate land use on the receiving parcel and is in conformance with the Plan for El Paso; and

(c) That the transfer of land and proposed use of the land is in the best interests of the public health, safety and welfare.

(d) The findings as to the receiving parcel listed above, and the identification of the sending parcel, removing the vested project status, shall be memorialized in a document, approved by the City Attorney and signed by the City Manager, that may be recorded in the county deed records.

Further, a determination of project vesting includes an exemption from special permit require-

ments if the zoning in place at the time of the first permit application, which resulted in a determination of project vesting, did not require a special permit.

C. Receiving Parcel Designation.

1. A parcel of land which receives a special permit for development rights to allow increased density pursuant to this section shall be referred to as a "receiving parcel."

2. No development rights shall be transferred to any parcel of land that is not located in a receiving district and so designated in the ordinance approving the special permit, or unless the receiving parcel is exempt under Section B.2.e.

3. Environmentally sensitive land: Only property zoned S-D (Special Development), U-P (Union Plaza), PR-I Planned Residential I), PR-II (Planned Residential II), RMU (Residential Mixed Use), and GMU (General Mixed Use) may be designated as receiving districts for purposes of transferring severable development rights from environmentally sensitive lands.

4. Vested Projects: Property in any commercial or the M-1 manufacturing districts may be designated as receiving parcels for transferring development rights and standards in vested projects, subject to City Council review of the special permit, or unless the receiving parcel is exempt under Section B.2.e.

5. The development rights attach to the receiving parcel upon approval of the special permit, if required, or upon the date of closing of the sale or transfer of property if the receiving parcel is exempt under B.2.e., and upon recordation of a conservation easement or other documentation restricting the development of the sending parcel for environmentally sensitive lands, and the inclusion of site plans and other documentation required for vested projects, if required for a special permit, and shall not be subsequently transferred to another property.

D. Special Permit Required.

1. No development rights shall be used on the receiving parcel until a special permit has been submitted by the property owners of both the sending and receiving parcel and approved as provided herein, and in accordance with the notice and hearing requirements of this title.

2. The special permit shall include a finding by the city council that the transfer of development rights will promote the purposes of this section and title.

E. Evidence of Restriction Required for Development Approval for Environmentally Sensitive TDRs.

F. Restrictions for Development Approval for Vested Projects. As of the effective date of the ordinance for TDR for a vested project, the project at the receiving parcel may be completed in accordance with the regulations that were in effect as of the date of the vested rights determination. Any rights to such regulatory applicability in the sending parcel will terminate as of the effective date. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 18349, §§ 1—5, 4-28-2015)

20.10.700 TV and radio broadcasting antennae.

A. In Residential, Apartment and Commercial Zoning Districts. Ground-mounted radio or television broadcasting antenna support structures with antennas and equipment storage facilities shall comply with the following standards:

1. The antenna support base shall be set back one foot for each one foot of height from abutting residential districts, measured from the antenna support base to the property line;

2. The radio or television broadcasting antenna support structure shall conform with FCC and FAA height regulations within a residential zone;

3. The following must accompany a request for a special permit:

a. A nonionizing electromagnetic radiation (NIER) report, in a format acceptable to the FCC,

b. A structural engineering report for the antenna support,

c. A detailed site development plan showing the antenna, supporting structures and appurtenant equipment in relation to the existing surroundings,

d. Verification letters that an FCC application has been submitted and FAA approval has been obtained;

4. Collocation or installation of additional antennas on an existing antenna support structure shall be permitted after review and approval by the building official of a structural recertification report, prepared and sealed by a licensed professional engineer, and an updated NIER emissions report;

5. Increase in elevation of an existing antenna support structure shall be permitted, so long as the setback and maximum height limitations are complied with, after review and approval by the building official of updated structural and NIER emissions reports;

6. Existing nonconforming antenna support structures, unable to comply with current setback limitations shall be prohibited from any increase in elevation.

B. In manufacturing and Industrial Zoning Districts. Ground-mounted radio or television broadcasting antenna support structures, with appurtenant antennas and equipment storage facilities shall comply with the following standards:

1. The antenna support base shall be set back from any residential district or residential use one foot for each one foot of height, measured from the antenna support base to the property line. The maximum height limits shall be set by the Federal Communication Commission (FCC) and Federal Aviation Administration (FAA) license requirements;

2. The following must accompany a request for a building permit:

a. A detailed plan showing the antenna, support structures, and appurtenant equipment in relation to the existing surroundings including fencing, off-street parking, and access from the antenna support to the nearest public access,

b. A nonionizing electromagnetic radiation (NIER) report, in a format acceptable to the FCC,

c. A structural engineering report for the antenna support,

d. Verification letters that an FCC application has been submitted and FAA approval has been obtained;

3. Collocation or installation of additional antennas on an existing antenna support structure shall be permitted after review and approval by the building official of a structural recertification report prepared and sealed by a licensed, professional engineer;

4. Increase in elevation of an existing antenna support structure shall be permitted, only when the setback limitations are complied with, after review and approval by the building official of updated structural and NIER emissions reports. Existing nonconforming antenna support structures, unable to comply with current setback limitations shall be prohibited from any increase in elevation.

5. The applicant shall provide a six-foot high fence or screening wall around the wall around the base of a self-supporting or guyed mast antenna support, and appurtenant equipment storage facilities, to provide for security. The gate providing access to the antenna support shall remain locked at all times, except when being used for access by maintenance personnel;

6. The access driveway and one off-street parking space, for use by maintenance vehicles, must be paved covered with an alternative all-weather material to provide for a dust-free driving surface as approved by the director of the city development department or other designee of the city manager. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17442, § 29, 10-26-2010; Ord. No. 17801, § 6, 6-5-2012, eff. 6-11-2012)

20.10.710 TV and radio receiving antennae.

A permitted accessory use in all districts, residential-type television or radio receiving antennae, roof-mounted, shall not exceed twenty feet in height above the highest point of the roof. (Ord. 16653 § 2 (part), 2007)

20.10.720 Unenclosed parking space shelters.

Where specifically listed as a permitted accessory use in a district, unenclosed parking space shelters may be erected as shelters for motor vehicles in conformance with the following:

A. The structure shall not encroach into the required front yard or side street yard;

B. No part of the structure shall be closer than one foot from an adjacent property line within a required side yard or rear yard, except that when the property abuts an R-1, R-2, R-2A, R-3, R-3A, R-4 and R-5 zoned property or a single-family attached dwelling in any other zone existing at the time of erection of the parking space shelter, the structure shall not be closer than ten feet from the adjacent property line;

C. The height, measured from the floor of the parking space to the ceiling or lowest clearance, shall not exceed ten feet, and provided that the overall height shall not exceed eleven feet;

D. The structure shall cover only the affected parking space or spaces. It shall not encroach onto the parking lot access driveways and shall not exceed a depth of twenty feet over each parking space;

E. All water runoff shall be controlled to drain into the property on which the structure is located. (Ord. 16653 § 2 (part), 2007)

20.10.730 Utility facilities.

Utility facilities shall comply with the following:

A. Minor Utility Facilities. Minor utility facilities shall be exempt from all requirements of this title and shall be a permitted use in any zoning district of the city, except the natural open space zoning district, where such facilities shall be permitted by special permit in accordance with Section 20.08.

B. Communication Utility Facilities and Water and Wastewater Utility Facilities. Communication utility facilities and water and wastewater utility facilities shall be permitted uses in any zoning district of the city and shall be exempt from all requirements of this title, except as follows:

1. Facilities with less than or equal to three hundred square feet of floor area:

a. No off-premises advertising shall be permitted;

b. A minimum setback of ten feet from any property line abutting a public or private street right-of-way shall be provided;

2. Facilities with a floor area greater than three hundred square feet:

a. No off-premises advertising shall be permitted;

b. The communication utility facility or water and wastewater utility facility shall be required to meet all requirements of the base zoning district.

3. Communication utility facilities are not permitted in the natural open space zoning district.

C. Major Utility Facilities. Major utility facilities shall be permitted by special permit in any zone, and shall be required to meet all requirements of the base zoning district.

D. The requirements of this section shall apply to a public utility or a privately owned and operated utility facility, as otherwise herein defined and regulated, and any other applicable standards contained within this Code. (Ord. 16653 § 2 (part), 2007; Ord. No. 18531, § 6, 6-28-2016)

20.10.740 Vehicles.

A. Not more than one commercial vehicle shall be allowed as accessory to a dwelling. Such commercial vehicle shall not have a manufacturer's rated carrying capacity exceeding two tons, shall not exceed twenty-six feet in length, or seven feet eight inches in width or nine feet in height. Except for minor emergency repairs, maintenance and repair of such commercial vehicle on premises, such as would constitute the use of premises for an automotive repair garage, shall not be permitted.

B. No person shall dismantle, repair or otherwise perform any work upon any vehicle, ma-

chine, motor, or other similar device, other than to effect minor emergency repairs to a motor vehicle, on any property in an apartment or residential zoning district unless such activity is incidental to a permitted or conditionally permitted use and is conducted within a building.

C. No vehicle (except those upon which minor emergency repairs are being effected), machine, motor, appliance or other similar device from which any part has been removed, or which is inoperable for any reason, including junked or wrecked motor vehicles, shall be stored, maintained or kept on any property in an apartment or residential zoning district as an activity incidental to a permitted or a conditionally permitted use except within a building. (Ord. 16653 § 2 (part), 2007)

20.10.750 Yard, garage or rummage sales.

A. Yard sale, garage sale or rummage sale shall be allowed outdoors for disposal of used household items during the daylight hours, provided that such sales are not held more frequently than three times a calendar year on the same lot of a single-family or two family dwelling, or not held more frequently than six times a calendar year at places of public assembly or at city parks and recreational areas managed by the parks and recreation department, and each time is conducted for no more than two days at a time.

B. Outdoor rummage sales at places of public assembly and at city parks and recreational areas managed by the parks and recreation department may also include items created and sold by or on behalf of an artist, artisan or crafter.

C. Outdoor rummage sales at places of public assembly and at facilities managed by the parks and recreation department shall comply with the following:

1. Provide off-street parking consisting of one vendor off-street parking space and one customer off-street parking space per table/space. Each off-street parking space shall meet the minimum requirements of Chapter 20.14 (Off-Street Parking and Loading Regulations) of this title;

2. Provide access to the facilities on the property for the disposal of garbage and use of sanitary facilities by all vendors and customers;

3. Provide a ten-foot pedestrian walkway between each row of vendor tables/spaces; and

4. Provide a ten-foot wide access route for emergency services to and within the site area.

D. No person shall conduct or be a vendor at a yard, garage or rummage sale on the property of a place of public assembly, or at city parks and recreational areas managed by the parks and recreation department, without first obtaining the authorization, permission or a permit from the property owner or managing entity. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17360, § 2, 7-20-2010)

Chapter 20.12

DENSITY AND DIMENSIONAL STANDARDS

Sections:

20.12.010 Purpose.

20.12.020 Table of density and dimensional standards.

20.12.030 Supplemental height regulations.

20.12.040 Yards.

20.12.050 Supplemental density regulations.

20.12.060 Vision clearance at intersections.

20.12.010 Purpose.

This chapter is adopted to regulate and restrict the location, height, and size of buildings hereafter erected or structurally altered, the size of yards and open spaces, and the density of population. (Ord. 16653 § 2 (part), 2007)

20.12.020 Table of density and dimensional standards.

The Table of Density and Dimensional Standards found in Appendix B, adopted in its entirety and incorporated herein by reference, sets forth the regulations for minimum zoning district areas, minimum lot sizes, densities and heights, required setbacks, and other general standards as applicable to specific zoning districts. Where calculation of cumulative yard setbacks is permitted, all the individual minimum yard requirements (front, rear and side) as well as the minimum cumulative requirements must be satisfied. The minimum yards, height limits and open spaces, including lot areas required by this chapter, shall not be encroached upon or considered as required yard or open space for any other building, nor shall any lot area or lot dimension be reduced below the requirements of this ordinance, except as hereinafter provided. Additional development standards for specific uses and special purpose districts are also found in Chapter 20.10 of this title. In case of a conflict, the more restrictive standard shall apply. (Ord. 16761 § 1 (part), 2007; Ord. 16653 § 2 (part), 2007)

20.12.030 Supplemental height regulations.

Height regulations as set forth in the Table of Density and Dimensional Standards — Appendix B, may be modified as follows:

A. No new building may be erected or existing building increased in height in such a manner as to shade a solar heating or power facility licensed in the following manner:

1. Where any building installs a heating, cooling or power system using sunlight as a power source sufficient to supply ten percent or more of the building's total energy requirement, the owner of the building may apply to the building official for a license for the system which the building official shall issue once satisfied that the system does supply the above minimum energy requirements.

2. After issuance of the license, no building in adjacent areas may be erected to a height that will cast a shadow on the solar receiver components so licensed. In determining the permitted heights, the December 22nd arc and declination of the sun shall be used. Location of licensed solar power systems shall be shown on the zoning district maps.

B. Public, semipublic or public service buildings, hospitals, institutions, or schools when permitted in a district, may be erected to a height not exceeding one hundred feet, and churches and temples may be erected to a height not exceeding seventy-five feet if the building is set back from each yard line at least one foot for each foot of additional building height above the height limit otherwise provided in the zoning district in which the building is located.

C. Church spires, belfries, monuments, tanks, water and fire towers, windmills, stage towers or scenery lofts, cooling towers, ornamental towers and spires, chimneys, elevator bulkheads, stacks, conveyors and flagpoles may exceed height limits if approved by the building official. (Ord. 16653 § 2 (part), 2007)

20.12.040 Yards.

A. Yards Generally. More than one principal building may be located on a lot in the following instances, however, the provision of these exceptions shall not be construed to allow any building to be constructed outside the buildable area of the lot:

1. Institutional buildings;
2. Public or semipublic buildings;
3. Multifamily dwellings or groups of single-family attached buildings;
4. Commercial or industrial buildings;
5. Homes for the elderly.

B. Front yard regulations may be modified as follows:

1. Where the frontage of a parcel of land is divided among districts with different front yards, the deepest front yard requirement shall apply to the entire frontage;

2. Where forty percent or more of the lot frontage is occupied by two or more buildings, then the required front yard for a new structure is established in the following manner, except that a front yard in excess of district regulations shall not be required:

a. Where the building farthermost from the street provides a front yard not more than ten feet deeper than the building closest to the street, then the front yard for the frontage is and remains an average of the then existing front yards.

b. Where subsection a does not apply and a lot is within one hundred feet of a building on each side, then the front yard is a line drawn from the closest front corners of these two adjacent buildings.

c. Where neither subsection a or b apply and the lot is within one hundred feet of an existing building on one side only, then the front yard is the same as that of the existing adjacent building.

d. The above calculations shall only apply to those buildings providing the required rear yard;

3. Gasoline and diesel or other fueling pump and pump islands may occupy required yards; provided, however, that they are not less than twelve feet from all lot lines. A freestanding canopy with support columns centered on the pump or pump island may encroach up to fifteen feet into the required front yard; provided, that it shall not extend closer than two feet to any lot line;

4. On a dwelling or apartment site an unenclosed porch, carport or entranceway patio with a wall up to six feet high, each not more than one hundred fifty square feet in floor area may extend not more than ten feet into a required front yard. Chimney backs, bay windows, eaves and cornices may extend not more than thirty inches into the required front yard except that cornices and eaves of the main building may extend not more than four feet into the front yard;

5. For apartment houses and other nonresidential structures only, a canopy or other sunshade over a walkway shall be permitted in the front yard or any yard abutting a street, even if wholly supported by attachment to the main structure, providing such canopy or sunshade is not otherwise enclosed. Columns or tiedown struts, if used, shall not be greater than three inches in diameter, and shall not be spaced closer than six feet apart on either side of the walkway. The canopy or sunshade may extend to within two feet of the property line.

D. Right-of-Way Dedication Requirements. Whenever a new nonresidential building is erected or an existing residential building converted to a nonresidential use, no building or occupancy permit is to be issued until a determination is made by the traffic engineer as to the need for dedication of additional right-of-way in accordance with state law. If it is determined that additional right-of-way is needed, such shall be dedicated to public use prior to issuance of any building or occupancy permit.

E. Side and rear yard regulations may be modified as follows:

1. For residential buildings existing on or before August 1, 1979, carports may extend up to three feet into a required side yard, but only when screened by a masonry wall not less than five feet

in height erected along the lot line. Carports that extend into the required side yard shall not be enclosed;

2. Sills, eaves, belt courses, wing-walls at heights above six feet, window air conditioning units, chimney backs, bay windows, cornices and ornamental features may project a distance not to exceed twenty-four inches into a required side yard, and thirty inches into a required rear yard;

3. Open fire escapes, fireproof outside stairways and balconies opening from fire towers, and the ordinary projections of chimneys and flues into a rear yard may project into a required yard for a distance of not more than three and one-half feet, when placed so as to not obstruct light and ventilation;

4. Open, unenclosed porches that do not exceed one hundred eighty square feet in area may extend twelve feet into a required rear yard;

5. Terraces which do not extend above the ground level and that do not exceed one hundred fifty square feet of floor area, with a wall up to six feet in height may project five feet into a required yard, provided these projections be located at least two feet from the adjacent lot line;

6. Where an industrial tract abuts railroad property containing a spur track on the rear or side property line, a railroad loading dock, or the building itself, may extend to the property line for the purpose of receiving service from the railroad spur track;

7. In the R-1, R-2 or R-2A districts where a residential property abuts a dedicated public right-of-way, other than a street right-of-way, owned by the city, the building may extend into the side yard to within five feet of the property line.

F. Side street yard regulations may be modified as follows:

1. For residential buildings existing on or before August 1, 1979, carports may extend to five feet into a required side street yard. Carports that extend into the required side street yard shall not be enclosed;

2. Sills, eaves, belt courses, wing-walls at heights above six feet, window air conditioning units, chimney backs, bay windows, cornices and ornamental features may project a distance not to exceed twenty-four inches into a required side street yard;

3. Accessory structures may extend up to five feet into a required side street yard. (Ord. 16653 § 2 (part), 2007)

20.12.050 Supplemental density regulations.

Density regulations may be modified in the following instances:

A. Lot area per unit requirements shall not apply to dormitories, fraternities, sororities, nursing homes or other similar group quarters where no cooking facilities are provided in individual rooms or apartments;

B. In any special use permit for a planned residential development, and in any instance where site plan approval is required in an RMH, PMD, SD, PR-I, PR-II or A-4 district for residential use, density regulations may be modified as follows:

The maximum number of permitted dwelling units as required in the district regulations may be increased:

1. By five percent if twenty-five percent or more of the site is used for common open space;

2. By five percent if one square foot or more of recreation area is provided for every five square feet of residential floor space; balconies, patios, atriums and clubrooms may be counted as recreation area;

3. By five percent if one-half or more of the required parking is enclosed;

4. By five percent if a panoramic view is provided for the living room of seventy-five percent or more of the dwelling units;

5. By five percent if ten percent or more of the energy use is to be from solar power;

6. By five percent if individual units are soundproofed in accordance with an impact noise rating (I.N.R.) of five or more as described in the publication "A Guide to Airborne, Impact, and Structure Borne Noise-Control in Multifamily Dwell-

ings" by Berendt, Winzer, and Burroughs, US Department of Housing and Urban Development, US Printing Office 1967;

7. By five percent if the area devoted to landscape planting is in excess of thirty-five percent of the site area.

The increase in permitted density resulting from application of the provisions of this subsection shall be limited to a total of thirty-five percent;

C. Where the total floor area of a building is limited by a floor area ratio, the maximum floor area may be increased by four square feet of additional floor area for each square foot of landscaped open space on the lot above the minimum required by this Code. The maximum floor area may be increased by an additional one percent for each ten percent of the building's energy requirement that is provided by solar power. (Ord. 16653 § 2 (part), 2007)

20.12.060 Vision clearance at intersections.

On any corner lot, within that area of a triangle (twenty-foot triangle) formed by the intersecting property lines and a diagonal line joining the property lines at points twenty feet from their intersection, the following conditions shall apply in any front yard, rear yard or both yards:

A. It is unlawful for any person to place, construct or reconstruct any building or structure, including a fence or wall, on a corner lot if the top of such building or structure is more than three feet above the level of the centerline of the nearest abutting street, and such building or structure is within the above twenty-foot triangle; provided, this subsection shall not apply to a retaining wall necessary for the support of the lot, nor to a wall of a building when the building legally extends into such triangle;

B. It is unlawful for any person to locate motor vehicles or motor vehicle parking spaces on a corner lot if the top of any motor vehicle parked there is more than three feet above the level of the centerline of the nearest abutting street, and such motor vehicles or motor vehicle parking space is within the above twenty-foot triangle;

C. Where special conditions exist, or where practical difficulties in the development and adequate use of land would result from the literal enforcement of the terms of this section, the traffic engineer is authorized to grant a modification of the requirements set forth in this section; provided, that any such modifications so granted shall be in harmony with the general intent of this section, and consistent with the public interest, safety and general welfare. Approval of such modifications shall be in writing and shall set forth the specific details, special circumstances and/or conditions of the approval. (Ord. 16653 § 2 (part), 2007)

Chapter 20.14

OFF-STREET PARKING, LOADING AND STORAGE STANDARDS

Sections:

Article I. Vehicular Parking

20.14.010 Purpose.

20.14.020 Scope.

20.14.030 Definitions.

20.14.040 Design and construction.

20.14.050 Parking requirements and standards.

20.14.060 Shared parking.

20.14.070 Parking reductions.

20.14.080 Gravel/screening surface parking.

Article II. Bicycle Parking

20.14.090 Bicycle parking required.

20.14.100 Number of bicycle spaces.

20.14.110 Standards.

20.14.120 Bicycle parking on city right-of-way.

20.14.130 Substitution of bicycle parking.

20.14.140 Shared bicycle parking.

Article III. Loading Standards

20.14.150 Loading berths/spaces required.

20.14.160 Truck trailer parking.

20.14.170 Standards.

20.14.180 Design and construction.

Article IV. Storage Standards

20.14.190 Purpose.

20.14.200 Applicability.

20.14.210 Standards.

Article I. Vehicular Parking

20.14.010 Purpose.

The requirements in this chapter are intended to provide reasonable standards for the provision of off-street parking of motor vehicles, not including bicycles, trucks with three axles or more, semi-trailer trucks and cabs, and the storage of vehicles for sale. These standards are designed to provide compliance with the El Paso comprehensive plan and to achieve the following objectives:

A. Regulate off-street parking requirements according to the use of the facility;

B. Expand tabular display of uses and parking needs;

C. Clarify and simplify required parking calculations;

D. Provide for shared parking (non-simultaneous) arrangements. (Ord. 16653 § 2 (part), 2007)

20.14.020 Scope.

A. Applicability. The off-street parking requirements of this chapter shall be applicable to all uses, except as modified herein, including:

1. New development, including new buildings or facilities;

2. Addition to or enlargement of an existing building or facility which exceeds fifty percent of the original square footage;

3. Change of use of an existing facility;

4. Change of use and hours of operation of the property generating the parking need or the shared parking property of a shared parking arrangement.

B. Location of Spaces. The location, design and number of required off-street parking spaces shall conform to the provisions of this chapter. Except as authorized by administrative review in certain districts or as permitted under the shared parking provisions of this chapter, off-street parking required by this chapter shall be located on the same lot as the use generating the parking need. Parking spaces provided in excess of the required parking spaces shall also comply with the requirements of this chapter.

C. Responsibility for and Use of Spaces. The provision and maintenance of off-street parking shall be the responsibility of the owner of the use, building, structure and/or property on which the use generating the parking need is located. Re-

quired parking spaces shall be utilized only for the parking of motor vehicles, and shall not be utilized for another use or purpose for the duration of the use requiring such off-street parking. Required parking spaces shall not be utilized for repair, storage, dismantling or servicing of vehicles, equipment, materials or supplies. Required parking spaces shall not be rented or leased to persons other than those for whom the parking is intended. The number, design or function of required off-street parking spaces shall not be altered or reduced in a manner that violates the requirements of this chapter.

D. Use of excess spaces. Where the number of off-street parking spaces provided at a site exceeds the maximum number of off-street parking spaces allowed under the Table of Parking Requirements and Standards, the excess parking spaces may be utilized for another permitted use or purpose in accordance with this chapter, including shared parking arrangements, or agreed to off-street parking for another use. Excess parking spaces for new development shall be constructed and landscaped in accordance with the standards of this chapter.

E. Failure to maintain required number of spaces. Failure to maintain the minimum required number of off-street parking spaces may, after written notice to the owner or operator, result in the revocation of the certificate of occupancy for the building or facility in addition to other penalties as described in Chapter 20.04.

F. Storage of Other Types of Vehicles. The parking requirements in this chapter are in addition to required space for storage of trucks, campers, recreation vehicles, or other similar vehicles used in connection with any use. (Ord. 16653 § 2 (part), 2007)

(Ord. No. 17560, § 1, 5-17-2011; Ord. No. 17869, § 1, 9-18-2012)

20.14.030 Definitions.

The following definitions are specific to this chapter and control if in conflict with other provisions of this Code:

A. Base Course/Sub-Grade. A minimum four-inch thick layer of chosen and compacted soil below the wearing surface layer of the parking area whether asphalt, concrete, screenings, gravel, or other approved material. The base course layer should be a course mixture with aggregate no larger than three inches in diameter unless otherwise designed by a professional engineer. A gravel/screening-leveling course may be used atop a rocky compacted and/or semi-cemented conglomerate base course/sub-grade;

B. Desilting Area. Where on-site ponding is not provided, for the purposes of gravel/screening surfaces desilting areas are defined as depressions incorporated into the parking or landscaping upstream of any discharge onto public streets for the purpose of desilting and stilling runoff. Desilting basins shall have a minimum capacity of 0.05 cubic feet per square foot of gravel parking surface (five CF of desilting per one hundred SF parking) unless otherwise designed by a professional engineer and approved by the city engineer.

Example: 1 parking space 9' x 20' = 180 SF x 0.05 = 9 CF desilting basin

Use: 2 FT x 3 FT x 1.5 FT deep or triangular swale

(Entire site may have other requirements)

C. Gravel/Screenings. A coarse aggregate mixture of pebbles and/or rock fragments coarser than sand with fifty percent volume greater than or equal to one-half inch;

D. Hard Surface. For the purposes of gravel/screenings surfaces, hard surfaced areas are defined as any rigid durable surface such as concrete, asphalt, pavers, or composite surface which may include the incorporating of strip drains, drain fields, spacers between pavers, etc., for permeable qualities (porous, allowing in this case for water to pass through) and stormwater harvesting;

E. Motor Vehicle. For the purposes of this chapter, a motor vehicle is defined as a passenger vehicle or light truck with a carrying capacity rated at one ton or less intended for highway use;

F. On-Site Ponding. On-site ponding is defined as privately maintained ponding areas or as storm drainage retained on-site as inherent in low lying areas such as but not limited to valley areas of the city. For the purposes of gravel/screening surfaces, for nonresidential sites, the defined pond

shall be designed for a fifty-year storm, however the rest of the unoccupied area (excluding enclosed buildings) shall be designed to contain a one hundred year storm, with no additional capacity for emergency, silt, or freeboard storage required, and fencing requirements if any are to be determined by a professional engineer based on the conditions and design of the ponding area;

G. Utility Facility. Equipment, mains, lines, and required infrastructure and appurtenances for the transmission of power, fuel, water, sanitary sewer, or communication not including office and administrative building uses. (Ord. 16653 § 2 (part), 2007)

20.14.040 Design and construction.

Required parking spaces shall conform to the following:

A. Minimum Dimensions and Arrangement. Except for compact vehicle spaces, all spaces shall have minimum dimensions of nine feet in width, eighteen feet in length, and six feet and eight inches of unobstructed height, exclusive of access or maneuvering area, ramps, and other appurtenances, except parking spaces reserved for the use of persons with disabilities shall comply with the building code, Chapter 18.08. Parking spaces arranged in tandem and including not more than two spaces in a row shall be permitted for single or two-family detached or single or two-family attached dwelling units. No portion of an off-street parking space shall encroach onto a public right-of-way.

B. Compact Vehicle Spaces Permitted. Where the number of required off-street parking spaces for permitted uses and accessory uses, if any, exceeds thirty spaces, no more than twenty percent of the required spaces may be reserved for compact vehicle parking. Compact vehicle parking spaces shall be a minimum of eight feet in width, sixteen feet in length and six feet and eight inches of unobstructed height for each space and shall be designated for the exclusive use by compact cars only. Spaces reserved for compact vehicles shall be so indicated by appropriate signage with a minimum of six-inch high letters provided by the owner or operator. The owner and operator shall be responsible for preventing the unauthorized use of compact vehicle parking spaces by vehicles other than compact vehicles that extend beyond the dimension of the space thereby creating a safety hazard.

C. Angle Parking Dimensions. Minimum aisle widths and space depths shall be per table, Section 20.14.040(F) and shall be based upon the degree of the angle of the parking. (Space length is the length of the parking space measured parallel with the parking space. Space depth is the projected depth of the parking space measured perpendicular to the aisle providing access to that space.)

D. Access to lots. Access to off-street parking spaces shall be provided by aisles or driveways complying with Title 19 (Subdivisions), Title 13 (Streets, Sidewalks and Public Places), and this chapter. An aisle is the traveled path providing vehicular access to two or more parking spaces. Access shall be subject to approval by the traffic engineer and shall be arranged to minimize turning movements onto and from the public right-of-way. Aisles and driveways providing access to off-street parking spaces shall connect to a dedicated public or private street or easement. Property zoned R, A, or RMU may not be used for access to a parking area on a separate site for a use that is not permitted in the R, A or RMU zone.

E. Acceptable surfaces. Surfacing of required off-street parking spaces shall be with asphalt paving, brick, brick pavers, concrete, concrete pavers or other comparable dust-free surfacing subject to the approval of the director of the city development department or other designee of the city manager. Gravel screening may be an acceptable surface for required parking spaces provided that it complies with provisions of Section 20.14.080 and Appendix C. Surfaces shall be maintained in good condition, free of weeds, dust, trash and debris.

F. Table.

Parking Space Dimensions
[Regular Size Autos and Light Trucks]

Angle	Stall Depth	Aisle Width	Interlock Reduction	Overhang
45 degrees	19' — 1"	13' — 0"	2' — 4"	2' — 1"
60 degrees	19' — 6"	16' — 0"	1' — 8"	2' — 7"
75 degrees	19' — 9"	20' — 0"	1'	2' — 11"
90 degrees	18' — 0"	24' — 0"	0' - 0"	3' — 0"

Parking Space Dimensions
[Compact Size Vehicles]

Angle	Stall Depth	Aisle Width	Interlock Reduction	Overhang
45 degrees	15' — 3"	11' — 6"	2' — 0"	1' — 5"
60 degrees	16' — 4"	13' — 4"	1' — 5"	1' — 9"
75 degrees	16' — 6"	16' — 0"	.9'	1' — 11"
90 degrees	16' — 0"	20' — 0"	0' - 0"	2' — 0"

G. Stormwater drainage. Drainage of stormwater from required off-street parking spaces and parking lots shall conform to good engineering practices and shall be subject to the approval of the city engineer or other designee of the city manager.

H. Lighting. Required off-street parking spaces or parking lots used during hours of darkness shall be provided with adequate lighting. Lighting shall comply with Title 18.

I. Signage. Signs complying with the requirements of Chapter 20.18 (Sign Regulations) may be provided at a parking lot describing the ownership of the lot, its permitted use(s) and the charges or rates for the use of the parking lot, ingress and egress drives, etc.

J. Barriers to Encroachment. Barriers shall be provided to prevent a motor vehicle using a parking space or parking lot from encroaching upon the public right-of-way, including sidewalks. Barriers shall be a minimum of six inches in height, of sufficient length, and located to prevent any portion of the motor vehicle from encroaching. Barriers shall be of an approved design, anchored properly, and fabricated of concrete, asphalt or other approved material.

K. Landscaping and Screening. Parking areas shall be screened in accordance with the requirements of Chapter 20.16 (Screening and Fencing Regulations). Parking areas shall be landscaped in accordance with the requirements of this Code.
(Ord. 16653 § 2 (part), 2007)
(Ord. No. 17442, § 32, 10-26-2010; Ord. No. 17801, § 7, 6-5-2012, eff. 6-11-2012)

20.14.050 Parking requirements and standards.

A. Parking. Table of Parking Requirements and Standards, subsection C. of this title establishes the minimum and maximum number of motor vehicle parking spaces unless otherwise stated, and minimum bicycle parking spaces required for the uses indicated. The city manager or designee shall be authorized to interpret and establish the minimum and maximum parking regulations for uses not shown in the Table of Parking Requirements and Standards, subsection C.

B. Method of computation. Calculations to compute the maximum number of required parking spaces shall be based upon the following formulae:

1. Where the calculation of the required parking results in fractions of spaces, the number of spaces shall be rounded to the next highest whole number for fractions of 0.5 or greater.

2. For new building(s) or development with more than one use, the parking maximum shall be determined by the sum of the number of parking spaces allowed for each individual use computed separately. A shared parking arrangement may be approved for a mixed use building, shopping center, or facility where the uses have different hours of operation or parking usage, in which case the parking requirement shall be based upon the calculation for the individual use or group of simultaneous uses that result in the largest number of off-street parking spaces required.

3. For new building(s) or development with both permitted uses and accessory uses, the parking maximum shall be determined by the sum of the maximum number of parking spaces allowed

for each individual use, permitted or accessory, computed separately. A shared parking arrangement may be approved for a site where the permitted uses have different hours of operation or parking usage from those of the accessory uses, in which case the parking requirement shall be based upon the calculation for the individual permitted use or group of simultaneous permitted uses that results in the largest number of off-street parking spaces required.

4. Parking maximums for an addition to or enlargement of an existing building or facility shall be calculated on the basis of the addition or enlargement and shall be added to the parking maximum for the existing building or facility prior to the expansion. In the event the existing parking provided for the existing building or facility is nonconforming with the requirements of this chapter, refer to Chapter 20.22 (Nonconforming Situations).

5. For a change of use(s) of an existing building or facility, or a portion thereof, the parking requirements shall be calculated on the basis of the sum of the current code required parking as applied to the changed use(s), plus the prior code requirements applied to the unchanged portion(s) of the existing building or facility; or on the basis of the current code for the entire building or facility, whichever is less.

6. Where the parking calculation is determined by the gross floor area (GFA) of the building or facility, the GFA shall be measured to the exterior of the walls for every occupied floor. GFA of a building or facility shall not include areas used solely for off-street parking of motor vehicles or bicycles and associated driveways, and shall not include areas reserved for off-street loading berths.

7. Where the parking calculation is determined by the number of seats or the number of occupants of a building or facility, the occupant load shall be per Title 18, Building and Construction, Chapter 18.08.

8. The GFA of a restaurant, nightclub, bar or cocktail lounge with an outdoor seating area shall also include the gross floor area of such outdoor seating area.

9. The GFA of a shopping center or other similar uses shall be based upon the entire shopping center, including the gross floor area of covered atrium and mall areas. The GFA of a shopping center shall not include the open well areas of the upper levels of a multi-story atrium or mall.

10. Up to five percent of the minimum required vehicular parking spaces may be substituted with motorcycle parking spaces at the rate of one vehicular parking space for each three-motorcycle parking spaces provided. Motorcycle parking spaces shall be a minimum of seventy-five inches by thirty inches each exclusive of access aisles.

C. Table of Parking Requirements and Standards. The parking standards and requirements are established in the Parking Requirements and Standards Table, located in Appendix C, adopted in its entirety and incorporated herein by reference, and unless otherwise provided for herein, all parking shall comply with the parking table.

D. Off-street parking. Off-street parking regulations shall not apply to properties in the Improvement District No. 3, established by Ordinance 736 and dated April 3, 1952. The boundaries of Improvement District No. 3 shall also include all property designated under the Downtown 2015 Plan.

E. Excess parking. Excess parking shall be subject to the following requirement:

1. In addition to the landscape requirements of Title 18.46 (Landscape), one tree for every five spaces in excess of the maximum parking requirement shall be required and shall be placed within the entire parking area to provide for even canopy coverage or along the parkway to create a visual buffer between the parking area and the street.

(Ord. 16761 § 1 (part) Exh. B, 2007; Ord. 16653 § 2 (part), 2007)

(Ord. No. 17262, § 1, 1-5-2010; Ord. No. 17442, § 33, 10-26-2010; Ord. No. 17560, § 2, 5-17-2011)

20.14.060 Shared parking.

A. Submission of request. Whenever a shared parking arrangement is proposed to comply with

the requirements of this chapter, the shared parking arrangement shall be subject to the prior approval of the city manager or designee and shall not require a special permit for off-site, off-street parking. To obtain approval of a shared parking arrangement, the owner or operator of the property on which the parking need is generated shall submit an application containing the following information to the city manager or designee. The fee for processing the application shall be as set by city council resolution.

1. The maximum number of parking spaces, in accordance with this chapter, for the use(s) at the property generating the parking need, the number of parking spaces provided, and the hours of operation of the use(s).

2. The maximum number of parking spaces, in accordance with this chapter, for the use(s) at the shared parking property, the number of parking spaces provided, and the hours of operation of the use(s).

B. Conditions for approval. A shared parking arrangement shall be approved only when the arrangement meets all of the following conditions:

1. The parking arrangement complies with this chapter;

2. The owner or operator demonstrates that the use(s) of the property generating the parking need and the use(s) of the shared parking property are non-simultaneous or that the proposed shared parking spaces are in excess of the parking required for the use(s) of the shared parking property, or a combination of each option;

3. The shared parking property is within three hundred feet of the property generating the parking need and the access is provided between the two properties;

4. The parking area is compatible with the general development of the neighborhood and does not adversely affect the use of adjacent properties; and

5. The required information has been satisfactorily submitted.

C. Modification of arrangement. A modification of a shared parking arrangement shall be subject to the same standards for review and approval by the city manager or designee as the original arrangement.

D. Termination of arrangement. The termination of a shared parking arrangement agreement may, after written notice to the owner or operator, result in the revocation of the certificate of occupancy for the building or facility of the property generating the parking need and which does not meet the minimum parking regulations, in addition to other penalties as described in this title.

E. Sharing with city owned property. A shared parking arrangement in which the city is the owner of the shared parking property shall be permitted provided the owner complies with all of the requirements of this section, and additionally obtains a lease from the city for such use of city property. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17442, § 34, 10-26-2010; Ord. No. 17560, § 3, 5-17-2011)

20.14.070 Parking reductions.

The amount of off-street parking required for a specific use may be reduced below the minimum required in Section 20.14.050 C., if a special permit is approved by city council, as provided in this section:

A. Existing development. Up to a one hundred percent reduction for a use involving an existing structure(s) located within an older neighborhood of the city that is proposed through the rehabilitation, alteration or expansion of the existing structure(s). The applicant shall satisfactorily demonstrate compliance with all of the following conditions:

1. That the structure(s) is located in an older neighborhood of the city that has been legally subdivided and developed for at least thirty years;

2. That the structure(s) does not extend into an area within the property which was previously used to accommodate off-street parking;

3. That the off-street parking required for the proposed use of the structure(s) cannot be reasonably accommodated on the property due to the building coverage, whether due to the existing structure or due to a proposed expansion of the existing structure; and

4. That no vacant areas exist within three hundred feet of the property where the proposed use is to be located that can be reasonably developed to accommodate the off-street parking requirements.

B. New Development in Redevelopment Areas. Up to a one hundred percent reduction for a use involving the new construction of a structure(s) that is proposed as a redevelopment project located within a redevelopment area or transit oriented development corridor of the city. The applicant shall satisfactorily demonstrate compliance with all of the following conditions:

1. That the structure(s) is located within one of the following redevelopment areas: the downtown area (defined as the area between the Union Depot, Paisano Drive, St. Vrain Street, Olive Street, St. Vrain Street, the southern boundary of the Southern Pacific RR Reservation, Campbell Street and Interstate 10), the South El Paso area (defined as the area south of Paisano Drive, and lying between Santa Fe Street and Cotton Street), and any other redevelopment area or transit oriented development corridor as may be recommended by the city plan commission and approved by the city council;

2. That the proposed building coverage on the lot is necessary for the proposed use, both in design and function necessitating the reduction; and

3. That no vacant areas exist within three hundred feet of the property where the proposed use is to be located that can be reasonably developed to accommodate the off-street parking requirements.

C. Parking Reduction Application Procedures. An applicant requesting consideration of a parking reduction shall comply with all of the following:

1. A special permit application for an off-street parking reduction shall not be construed as an automatic approval by the city and shall require the review and approval of the city council as set forth herein;

2. The applicant shall submit adequate documentation to ensure compliance with the provisions of this section. City council shall make the final determination following a recommendation of the city plan commission and may impose conditions and safeguards necessary to protect the public welfare and to conserve and protect property;

3. A completed special permit application for an off-street parking reduction shall be submitted to the planning official, and shall be accompanied with all of the following:

a. One copy of a completed application signed by the property owner(s), and

b. Eight copies of a detailed site plan of the subject property and all properties within three hundred feet adjoining the subject property, drawn to scale and showing the following:

i. Legal description,

ii. Property lines with dimensions,

iii. Location and arrangement of existing and proposed structures,

iv. Location and arrangement of existing and proposed off-street parking areas,

v. Location and arrangement of existing and proposed on-street parking areas within a three hundred radius from the perimeter of the lot of the facility requesting the reduction,

vi. Calculation of the number of minimum off-street parking spaces for the existing and proposed use(s) of the property.

vii. Off-street loading and unloading berths, where applicable,

viii. Off-street parking spaces and driveways not subject to reduction, if applicable,

ix. Streets abutting the property, including the location and dimensions of sidewalks, and

x. Areas within the property where landscaping is provided, if any,

c. One copy of a parking reduction impact study or of the letter from the city engineer waiving the parking reduction impact study, and

d. One copy of a letter from the Director of Sun Metro indicating that the main entrance to the property is within one thousand feet of a mass transit system route,

e. One copy of a proof of ownership document, and

f. One copy of a current tax certificate sealed and having the signature of the city tax assessor/collector, for each parcel of property described in the application for an off-street parking reduction;

4. An off-street parking reduction granted pursuant to this section shall be particular to the use for which it was granted. A change in use that results in a change of parking requirements or hours of operation shall automatically terminate the off-street parking reduction;

5. Structure(s) for which an off-street parking reduction has been granted shall be in accordance with all other applicable codes;

6. An application for an off-street parking reduction shall demonstrate that all of the following circumstances apply:

a. That a reduction in the off-street parking requirement will not result in the unreasonable parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic on the streets, as demonstrated by findings of a parking reduction impact study where required by the city engineer. A parking reduction impact study, where required, shall be prepared in accordance with the standards required by the city engineer,

b. That a reduction in the off-street parking requirement will not create a safety hazard or other condition inconsistent with the objectives of this title,

c. That the property where the proposed use is to be located has sidewalks and the main entrance is within one thousand feet of a mass transit system route, as determined by the director of Sun Metro, and

d. That off-street parking not subject to a reduction shall comply with all other city ordinances governing off-street parking, including accessibility for the disabled.

D. Administrative parking reductions.

1. The zoning administrator may approve up to a ten percent parking reduction below the minimum required for a use involving an existing building(s) or structure(s) for applicants meeting the requirements specified in this section. The zoning administrator must be satisfied that the approval of a reduction will substantially serve the public convenience and welfare and will not substantially injure the neighboring property.

2. An applicant requesting a reduction under this section must submit a written application and shall satisfactorily demonstrate compliance with all of the following conditions:

a. That the required minimum number of off-street parking spaces cannot be reasonably accommodated on the property involved; and

b. That the request for the reduction is due to a change in use; and,

c. That the reduction of the required minimum parking spaces is for an existing building(s) or structure(s); and

d. That the reduction of the required minimum parking spaces is not for a new structure(s) or building(s) or due to the expansion of an existing structure(s) or building(s); and

e. That the applicant provides letters from the abutting property owners stating that the abutting property owners do not object to the parking reduction;

3. As part of the review process, the traffic engineer shall review the request to determine the impact on the surrounding properties and shall recommend approval or denial of the request. If the city traffic engineer recommends denial, the applicant shall be provided with the reasons for denial.

4. Upon a recommendation for approval from the city traffic engineer, the zoning administrator shall determine if all other provisions of this section have been satisfied and approve or deny the request for a parking reduction. If necessary to reduce the impact to neighboring property, the zoning administrator may impose additional requirements, such as landscaping or screening, as a condition of approval.

5. If the zoning administrator denies the request, the property owner may appeal the decision to the zoning board of adjustment. (Ord. 16653 § 2 (part), 2007)

(Ord. No. 17261, § 1, 1-5-2010; Ord. No. 17442, § 35, 10-26-2010; Ord. No. 17560, §§ 4—9, 5-17-2011)

20.14.080 Gravel/screening surface parking.

A. Allowed uses.

1. Office, educational or institutional (less than or equal to five thousand sf building).

a. Gravel/screenings surfaced parking areas may be incorporated for the required parking reserved for use by employees and staff of in-store retail or professional offices, and for required parking where on-site ponding (see Section 20.14.080 C.4.) or permanent desilting basins are provided. In no case shall gravel/screening parking exceed fifty percent of the total required parking.

b. The perimeter of any gravel or screenings parking and drives areas shall be delineated by edging, curbing, abutting hard surfaces or other method as approved by the director of the city development department or other designee of the city manager; and signage shall be installed indicating "Parking For Employees, Staff, and/or Overflow Parking Only."

2. Office, educational or institutional (greater than five thousand sf building).

a. Gravel or screenings surfaced parking may be incorporated for parking in excess of the required parking only.

b. The perimeter of any gravel or screenings parking and drives areas shall be delineated by edging, curbing, abutting hard surfaces or other method as approved by the director of the city development department or other designee of the city manager; and signage shall be installed indicating "Overflow Parking Only."

c. All access drives to required parking shall be hard surfaced.

3. Commercial/manufacturing/warehousing/storage/construction yards/ high traffic uses.

a. Gravel/screenings surfaces may be incorporated for parking in excess of the required parking, for employee parking, for the storage users of truck trailers, storage containers, equipment, supplies, materials, motor vehicles or recreational vehicles which are part of the business function of the facility or site; including transport drop-offs and stock-in-trade.

b. All required parking for visitors, customers, employees, or patrons shall be hard surfaced.

c. The perimeter of any gravel or screenings parking and drives areas shall be delineated by edging, curbing, abutting hard surfaces or other method as approved by the director of the city development department or other designee of the city manager; and signage shall be installed indicating "Overflow Parking Only" or as appropriate.

d. All access drives to required parking shall be hard surfaced.

e. All loading docks and all other loading areas shall be hard surfaced.

4. Recreation, amusement and entertainment.

a. For outdoor facilities, gravel/screenings surfaces may be incorporated for required parking in accordance with the attached table (Parking Table, Appendix C). For indoor facilities, gravel surface parking areas may be incorporated for parking in excess of the required parking, and for required parking where on-site ponding or permanent desilting basins are provided.

b. Gravel/screenings surfaces may be incorporated for parking in excess of the required parking and for the storage of truck trailers, storage containers, equipment, supplies, materials, recreational vehicles that are part of the function of the facility.

c. The perimeter of any gravel or screenings parking and drives areas shall be delineated by

edging, curbing, abutting hard surface or other method as approved by the director of the city development department or other designee of the city manager.

d. All access drives to required hard surfaced parking shall be hard surfaced.

5. Temporary Uses.

a. Gravel/screenings surfaces may be incorporated for all required parking subject to review, approval, and conditions by the director of the city development department or other designee of the city manager.

b. Temporary uses with no parking requirements (i.e., construction areas, etc.) are exempt from parking surface requirements.

c. The perimeter of any gravel or screenings parking and drive areas shall be delineated by edging, curbing, or abutting hard surface or other method as approved by the director of the city development department or other designee of the city manager.

6. Utility, miscellaneous and governmental facilities.

a. Gravel/screenings surfaces may be incorporated for required and/or excess parking subject to review, approval, and conditions by the director of the city development department or other designee of the city manager.

b. Temporary uses with no parking requirements (construction areas, etc.) are exempt from parking surface requirements.

c. Any gravel or screenings parking areas shall be delineated by edging, curbing, or abutting hard surface or other method as approved by the director of the city development department or other designee of the city manager.

7. Agricultural and related uses. Gravel/screenings surfaces may be incorporated for all required parking including truck trailers, storage containers, equipment, supplies, materials, recreational vehicles which is part of the business function of the facility as well as personal vehicles of the living quarters on the premises, and for parking in excess of the required parking.

8. Residential.

a. Gravel/screenings surfaces may be incorporated for:

i. Required parking located at a distance no less than twenty feet from the front property line;

ii. For required parking where on-site ponding (see Section 20.14.080(C)(4)) or permanent desilting basins are provided for the surface area of the gravel/screening parking area; and

iii. For all parking in excess of the required parking within side and rear yards.

b. The perimeter of any gravel or screenings parking areas shall be delineated by edging, curbing, abutting hard surfaces or other method as approved by the director of the city development department or other designee of the city manager.

B. Non-allowed uses and restrictions.

1. Gravel/screenings surfaces shall not be incorporated for either required or excess parking for motor vehicle sales except as allowed in other sections of this chapter, for repair or dismantling uses, for storage of used drive train components other than tires, wheels or drive shafts, or for fueling or lubricating bays.

2. Gravel/screenings surfaces shall not be incorporated for either required or excess parking for hospital or medical treatment uses with buildings greater than or equal to five thousand square feet.

3. Gravel/screenings surfaces may be not be incorporated for either required or excess parking in excess of ninety-nine spaces.

4. No authorizations herein shall supersede state or federal requirements, restrictions, rules, or regulations.

5. No parking is allowed on top of landscaping or areas not specifically designated for parking.

6. Parking surfaces with more than five parking spaces shall be paved or uniformly covered with gravel. This provision shall not apply to temporary parking lots defined as lots used for less than one month, after which access is prohibited. Such temporary lots shall be required to apply water or suitable oil or chemical.

C. General requirements for all allowed uses.

1. All driveway aprons from public streets to any gravel/screenings surfaced areas shall be concrete, asphalt (where applicable), or composite thereof. Driveway apron shall extend a minimum of twenty feet from the property line.

2. Where possible, gravel/screenings surfaced parking areas shall be graded at slopes from zero percent to two percent. Gravel surfaced parking areas exceeding two percent slope shall provide for appropriate gradation to be designed by a professional engineer. All gravel/screening shall be a minimum thickness on top of the base course/sub-grade as defined in subsection (D)(2). Alternatively, as otherwise allowed or required by base course/sub-grade conditions and as evaluated by a professional engineer and geotechnical engineering evaluation. In all cases, unless otherwise approved by the director of the city development department or other designee of the city manager, surface drainage of that parking should be directed either to an on-site ponding area or to a permanent desilting/stilling area (planter, landscaping etc.) prior to any discharge to a public street.

3. Site drainage should be directed away from gravel/screenings surfaced parking areas.

4. On-site ponding shall be provided for the surface area of any gravel/screening parking area if ponding for both the pre-existing undeveloped and the difference (if any) to the developed stormwater runoff from that site has not been previously provided for that site whether on-site or off-site.

5. All TAS parking shall be hard surfaced and comply with TAS requirements; gravel/screenings surfaces may be incorporated for driveways and areas not utilized for accessible routes.

6. The perimeter of all gravel/screening parking and drives shall be delineated by edging, curbing, abutting hard surface or other method as approved by the director of the city development department or other designee of the city manager.

7. The property owner shall maintain all gravel/screening surfaced parking and drive areas, on-site ponding, and/or desilting basins in clean and good condition. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17442, § 36, 10-26-2010; Ord. No. 17560, § 10, 5-17-2011; Ord. No. 17801, § 8, 6-5-2012, eff. 6-11-2012)

Article II. Bicycle Parking

20.14.090 Bicycle parking required.

Bicycle parking facilities shall be provided for new buildings or facilities, additions to or enlargements of existing buildings, or for changes in the use of buildings or facilities that result in the need for additional auto parking facilities in accordance with the parking requirements in Article I of this chapter and where required in table, Section 20.14.050(C). The planning official is authorized to approve modifications to these standards when the applicant successfully demonstrates that the proposed alternative layout, location, design or type of racking meets the intent of these standards. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17442, § 37, 10-26-2010)

20.14.100 Number of bicycle spaces.

The number of required bicycle parking spaces shall be calculated as shown in table, Section 20.14.050(C) of this chapter. Where the calculation of the required bicycle parking results in fractions of spaces, the number of spaces shall be rounded to the next highest whole number for fractions of 0.5 or greater. (Ord. 16653 § 2 (part), 2007)

20.14.110 Standards.

A. Individual bicycle parking spaces shall be a minimum of seventy-five inches long by twenty-four inches wide for each space. Where double-sided multi-racks are utilized resulting in overlapping of bicycle parking spaces, the minimum bicycle parking space for two bicycles shall be one hundred inches long by thirty-six inches wide.

B. Bicycle parking racks shall be located in areas visible from public ROW and, shall be provided with adequate lighting if intended for use after dark. Lighting shall comply with Title 18. A

minimum of fifty percent of the required number of bicycle parking spaces shall be located within fifty feet of a public entrance to the building requiring bicycle parking spaces.

C. Bicycle parking racks shall support the bikes in a stable, upright position, without damage to wheels, frame or other components.

D. Bicycle parking racks shall support the frame of the bicycle and at least one wheel. Racks shall allow the frame and one wheel to be locked to the rack, regardless of whether the front wheel is removed or not. Racks shall be securely anchored. Racks shall accommodate a wide variety of sizes and types of bicycles, including those with water bottles or without kick stands.

E. Bicycle parking racks shall be permanently mounted/installed within private property on solid surfaces. Racks placed adjacent to sidewalks shall not encroach upon required pedestrian access ways, accessible routes or accessible passing space areas.

F. Access shall be provided to each required bicycle parking space. Aisles shall have a width of at least three feet to the front, rear or side of the bicycle parking spaces.

G. Racks shall be placed a minimum of twenty-four inches away from walls and other elements that may create an obstacle to accessing the bike parking spaces. (Ord. 16653 § 2 (part), 2007)

20.14.120 Bicycle parking on city right-of-way.

Where the required bicycle parking spaces cannot be properly located upon the lot generating the need for bicycle parking, the owner or applicant of the property generating the need for bicycle parking may apply for shared parking per Section 20.14.060 or a special privilege from the city for permission to locate the bicycle parking on city right-of-way. (Ord. 16653 § 2 (part), 2007)

20.14.130 Substitution of bicycle parking.

New and existing building and facilities may substitute up to ten percent of the required vehicular spaces for additional bike parking. Substitutions shall be made based on one vehicular parking space for at least six bicycle parking spaces. Substitutions shall be subject to the requirements of Section 20.14.100 and shall be in addition to the number of bicycle parking spaces required by this chapter. (Ord. 16653 § 2 (part), 2007)

20.14.140 Shared bicycle parking.

Whenever a shared bicycle parking arrangement is proposed to comply with the requirements of this chapter, the shared bicycle parking arrangement shall be subject to the prior approval of the planning official. To obtain approval of a shared bicycle parking arrangement, the owner or operator of the property on which the parking need is generated shall comply with the requirements of Section 20.14.060. (Ord. 16653 § 2 (part), 2007) (Ord. No. 17442, § 38, 10-26-2010)

Article III. Loading Standards

20.14.150 Loading berths/spaces required.

Loading berths and loading spaces for truck trailers shall be provided for new buildings or facilities, additions to or enlargements of existing buildings, or for changes in the use of buildings or facilities that result in the need for additional loading berths or spaces where required in Section 20.14.050. (Ord. 16653 § 2 (part), 2007)

20.14.160 Truck trailer parking.

The owner or operator of a building or facility shall be responsible for providing adequate parking and maneuvering areas for truck trailers as required for the proper operation of the use(s) present in the building or facility, in addition to the spaces required under Section 20.14.150. Such parking and maneuvering areas shall be designed in accordance with sound engineering practices. Areas designated for the parking of truck trailers are not required to be marked or striped. (Ord. 16653 § 2 (part), 2007)

20.14.170 Standards.

A. Location of Spaces. The location, design and number of required off-street parking spaces

shall conform to the provisions of this chapter. Off-street truck trailer loading or parking required by this chapter shall be located on the same parcel as the use generating the loading or parking need. Parking spaces provided in excess of the required parking spaces shall also comply with the requirements of this chapter, except this subsection.

B. Responsibility for and Use of Spaces. The provision and maintenance of off-street truck trailer loading and parking shall be the responsibility of the owner of the use, building, structure and/or property on which the use generating the loading or parking need is located. Required loading or parking spaces shall be utilized only for the loading, unloading or parking of truck trailers, as appropriate, and shall not be utilized for another use or purpose for the duration of the use requiring such off-street loading or parking. The number, design or function of required off-street loading or parking spaces shall not be altered or reduced in a manner that violates the requirements of this chapter.

C. Failure to maintain required number of spaces. Failure to maintain the required number of off-street truck trailer loading or parking spaces may, after written notice to the owner or operator, result in the revocation of the certificate of occupancy for the building or facility in addition to other penalties as described in Chapter 20.24. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17560, § 11, 5-17-2011)

20.14.180 Design and construction.

A. Minimum Dimensions and Arrangement.

1. Required off-street truck trailer loading spaces shall comply with the following minimum dimensional requirements: for truck trailer and cab combinations equal to or less than sixty feet in length, truck trailer parking spaces and berths shall be a minimum of twelve feet wide by sixty feet long with a minimum of fifty feet maneuvering area (total area = twelve feet by one hundred ten feet); for truck trailer and cab combinations greater than sixty feet in length, truck trailer parking spaces and berths shall be a minimum of twelve feet wide by seventy-five feet long with a minimum of fifty feet maneuvering area (total area = twelve feet by one hundred twenty-five feet).

2. Layouts utilizing shared maneuvering area between two or more rows of truck trailer loading spaces shall be acceptable. Alternate maneuvering area sizes may be accepted by the building official where an appropriate layout providing adequate truck trailer maneuvering can be demonstrated. Loading berths, loading spaces and the maneuvering areas to enter and exit from each berth or space shall have a minimum of fourteen feet unobstructed height. No portion of an off-street truck trailer loading or parking space shall encroach onto a public right-of-way.

B. Reductions. No reductions shall be permitted to the number of truck trailer loading and parking spaces and facilities required in Section 20.14.050.

C. Access to Lots. Access to off-street truck trailer loading and parking spaces shall be provided by aisles or driveways complying with Title 19 (Subdivisions), Title 13 (Streets, Sidewalks and Public Places), and this chapter. An aisle is the traveled path providing vehicular access to two or more parking spaces. Access shall be subject to approval by the director of the city development department or other designee of the city manager and shall be arranged to minimize turning movements onto and from the public right-of-way. Aisles and driveways providing access to off-street parking spaces shall connect to a dedicated public or private street or easement. Property zoned R, A, or RMU shall not be used for access to a parking area on a separate site for a use that is not permitted in the R, A or RMU zone. The maneuvering of truck trailers into and out of loading, parking and associated maneuvering areas shall not encroach upon public right-of-way or restrict, reduce, or obstruct traffic flow by vehicles or pedestrians. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17442, § 39, 10-26-2010; Ord. No. 17801, § 9, 6-5-2012, eff. 6-11-2012)

Article IV. Storage Standards

20.14.190 Purpose.

The requirements of this article are intended to provide reasonable standards for the keeping of outdoor, off-street, on-site storage. (Ord. 16653 § 2 (part), 2007)

20.14.200 Applicability.

A. This article shall apply to the outdoor storage of motor vehicles and wheeled portable units, including, but not limited to: automobiles, noncommercial trucks, light trucks, storage containers, bicycles, motorcycles, semi-trailer trucks and cabs, recreational vehicles, motor-homes, trailers, boats, buses, mobile homes, industrial housing units, etc. These requirements shall also apply to the outdoor storage of materials, products, junk, equipment or merchandise, regardless of screening from view from a public right-of-way or alley.

B. Exceptions:

1. Incidental outdoor storage of materials related to construction sites with a valid building permit;

2. Outdoor storage of live plants on lots of not less than one acre;

3. Outdoor storage of landscaping gravel, rocks, etc., for wholesale or retail sales;

4. Outdoor storage of goods incidental to agricultural uses;

5. Outdoor storage for sale of monuments for graves, including headstones, markers, statues, etc.;

6. Outdoor storage of junked vehicles and vehicle parts, junk yards or wrecking yards, when located on property with a valid certificate of occupancy for that use at that address;

7. Outdoors storage of wheeled units that are construction or heavy equipment designed primarily to be utilized off-road, such as earth moving equipment, road graders, etc.

C. Outdoor storage shall only be located where permitted as a principal use or an accessory use in accordance with the table of permitted uses in Chapter 20.08. (Ord. 16653 § 2 (part), 2007)

20.14.210 Standards.

A. General. Outdoor storage of all types shall comply with the following:

1. The maintenance of outdoor storage areas shall be the responsibility of the owner of the use, building, structure and/or property on which the storage is located;

2. Outdoor storage areas shall not be utilized for repair, dismantling or servicing of the stored items;

3. Outdoors storage shall not utilize areas designated or required for off-street parking, off-street truck trailer loading, maneuvering areas, landscaping, accessible routes or similar required elements;

4. Outdoor storage areas shall be adequately sized to ensure that all outdoor storage is located on approved surfacing.

B. Motor Vehicles and Wheeled Units—For Sale.

1. Outdoor storage areas for the following items offered for sale at the same premises - motor vehicles, storage containers, mobile homes, industrialized housing units and other wheeled units shall comply with the surfacing requirements of Section 20.14.030(E).

2. Such outdoor storage areas shall be landscaped where required in accordance with the landscaping ordinance, including the provision of canopy trees and landscape irrigation systems.

3. Such outdoor storage of motor vehicles, not including junked or wrecked vehicles or vehicles parts, shall not be required to be screened unless required by Chapter 20.16 or other provisions of Title 20.

C. Motor Vehicles and Wheeled Units—Not For Sale.

1. Outdoor storage areas for the following items not offered for sale at the same premises - motor vehicles, storage containers, mobile homes, industrialized housing units and other wheeled units shall comply with the surfacing requirements of Section 20.14.210(D).

2. Such outdoor storage areas shall be landscaped where required in accordance with the landscaping ordinance, including the provision of canopy trees and landscape irrigation systems.

3. Such outdoor storage of motor vehicles, not including junked or wrecked vehicles or vehicles parts, shall not be required to be screened unless required by Chapter 20.16 or other provisions of Title 20.

D. Outdoor Storage Standards.

1. Outdoor storage areas for materials, products, junk, merchandise, equipment that is not a motor vehicle offered for sale and not another wheeled unit offered for sale, shall comply with the following requirements:

a. Ingress and egress aprons shall comply with Title 19;

b. Storage spaces or areas, drives and aisles shall be constructed of a minimum of six inches of sub-grade material uniformly compacted to a minimum of ninety percent of maximum density in accordance with ASTM D-1557 and a minimum of two inches of gravel/screenings;

c. The gravel/screenings shall be maintained by the owner or operator to the satisfaction of the director of the city development department or other designee of the city manager, including regrading or restoration as needed due to traffic use, or storm related degradation.

2. Such outdoor storage areas are not required to be landscaped.

3. Such outdoor storage areas shall be required to be screened from view from adjacent properties and public streets by screening walls or fences in accordance with Chapter 20.16 or other provisions of Title 20.

4. Outdoor storage of materials, products, merchandise, etc., that is offered for sale at a licensed flea market shall comply with the surfacing requirements of Section 20.14.030(E). (Ord. 16653 § 2 (part), 2007)

(Ord. No. 17442, § 40, 10-26-2010; Ord. No. 17801, § 10, 6-5-2012, eff. 6-11-2012)

Chapter 20.16

SCREENING AND FENCING

Sections:

20.16.010 Applicability.

20.16.020 Mandatory walls.

20.16.030 Permitted walls.

20.16.040 Masonry walls.

20.16.050 Maintenance.

20.16.060 Vision clearance at intersections.

20.16.010 Applicability.

Fences and walls shall be constructed and maintained in accordance with the requirements set forth in this chapter. (Ord. 16653 § 2 (part), 2007)

20.16.020 Mandatory walls.

A. Where both properties are vacant, a six-foot high masonry wall (measurement of height is from the high ground) shall be erected by the owner of whichever property first builds upon it:

1. Between all R (including Ranch-Farm and NOS) and A districts;

2. Between all R (including Ranch-Farm and NOS) and C districts;

3. Between all R (including Ranch-Farm and NOS) and manufacturing or industrial districts;

4. Between all A and C districts;

5. Between all A and manufacturing or industrial districts by the owner of whichever property that first builds upon it or uses it for outside storage;

6. Between all R (including Ranch-Farm and NOS) or A districts and all special purpose districts as part of the approved site plan for the special purpose district;

7. In R districts (including Ranch-Farm and NOS), between residential uses and those nonresidential uses permitted in R districts by the owner of the property having the nonresidential use when he builds upon it;

B. In existing developments, a six-foot high masonry wall (measurement of height is from the high ground) shall be erected:

1. Between all R (including Ranch-Farm and NOS) and A districts by the owner of the A property when he builds upon it;

2. Between all R (including Ranch-Farm and NOS) and C districts by the owner of the C property when he builds upon it;

3. Between all R (including Ranch-Farm) and manufacturing or industrial districts by the owner of the M or I property when he builds upon it;

4. Between all A and C districts by the owner of the C property when he builds upon it;

5. Between all A and manufacturing or industrial districts by the owner of whichever property first builds upon it or uses it for outside storage;

6. Between all R (including Ranch-Farm and NOS) or A districts and all special purpose districts as part of the approved site plan for the special purpose district;

7. In R districts (including Ranch-Farm and NOS), between residential uses and those nonresidential uses permitted in R districts by the owner of the property having the nonresidential use;

C. A six-foot-high tubular or wrought iron fence or a six-foot-high masonry wall or a combination thereof shall be erected along any property line adjacent to drainage structures or irrigation canals when buildings are erected on such properties or before the property is used for other than agricultural uses, or if the property on which the drainage structures are located on is utilized as a park/pond approved by the city; except that this requirement may be waived by the director of the city development department or other designee of the city manager if the property owner provides an alternative design to ensure the public health and safety. Such alternative design shall not include a chain link fence and shall be prepared and sealed by a professional engineer in accordance with the following conditions:

1. The side slope is equal to or less than three is to one;

2. The flow depth is equal to or less than three feet at the deepest point;

3. The velocity of the runoff is equal to or less than four feet per second.

Fencing requirements for natural drainage paths are set forth in Section 18.44.200. Property abutting non-city owned drains, canals and laterals that are used or were formally used for irrigation purposes do not need to meet the mandatory wall requirement specified in this subsection.

D. Walls and fences as required in subsections A, B, C and G of this section shall be installed before the issuance of certificates of occupancy and compliance for any building constructed on the property or before any use is made of such property.

E. Any property used for off-street parking by special permit shall be screened from any adjacent property by a six-foot-high screening wall, if such adjacent property is R-zoned. "Adjacent" means the nearest or closest to, whether or not separated by an intervening street or alley. The screening wall shall be built in accordance to all applicable code requirements including those for visibility triangles. No openings for vehicular or pedestrian ingress or egress shall be allowed unless specifically authorized and designated on the approved site plan. The six feet height requirement may be reduced only upon a determination by the traffic engineer that a reduction is needed for safety or visibility purposes, and the reduction in wall height shall be so designated on the approved site development plan.

F. A six-foot-high screening wall shall be required for a transportation terminal type A or B, passenger station, freight station, motor-carrier terminal, warehouse, railyard, airport, intermodal facility, heliport, airpad, helistop, interlocking tower, diesel maintenance facility and railroad repair shop as provided in Section 20.10.240.

G. Where both properties are vacant or in existing developments, an eight-foot high masonry wall (measurement of height is from the high ground) shall be erected between all NOS zoning districts with a designation of a Wildlife Sanctuary and any other zoning districts. The purpose of these standards is to minimize pollution, prevent erosion, preserve wildlife habitats, and protect natural views and passive recreational opportunities.

H. Exceptions.

1. Topographic Conditions. Upon receipt of a written application from the property owner, the zoning administrator, when topographic conditions negate the visual screening effect of the wall, may approve a revised location or may waive the mandatory wall requirement or for a mandatory wall within the same property to achieve an equal or improved use of the screen.

2. Nonresidential Uses Adjacent to Open Space. Upon receipt of a written application from the property owner, the zoning administrator, when the property is adjacent to nonresidential uses or common recreational areas, such as golf courses, parks or other areas designated as open space under the provisions of this title, may approve a revised location or may waive the mandatory wall requirement.

3. Uses Adjacent to Property Zoned NOS. A mandatory wall along the property line of a natural open space zoning district and abutting properties cannot be waived unless the Zoning Administrator makes a determination that the deviation is in harmony with the general intent of this section and consistent with the public interest, safety and general welfare. Such determinations shall be in writing and shall be maintained by the Zoning Administrator.

4. Where Streets Separate Zoning Districts. No mandatory wall shall be required where a street is the boundary line between districts except that this does not apply to properties used for outside storage.

5. Alternative Designs. In instances whereby a masonry wall is mandatory in accordance with Sections 20.16.020 A and B, the City Plan Commission may consider and make a recommendation to City Council for an alternative screening and fencing design.

6. Fee. An applicant will pay the established fee for processing requests to amend the mandatory wall requirement. (Ord. 16653 § 2 (part), 2007)

(Ord. No. 17306, § 5, 4-6-2010; Ord. No. 17442, § 41, 10-26-2010; Ord. No. 17518, § 1, 3-29-2011; Ord. No. 17801, § 11, 6-5-2012, eff. 6-11-2012; Ord. No. 18461, §§ 2, 3, 1-12-2016; Ord. No. 18531, § 7, 6-28-2016)

20.16.030 Permitted walls.

A. In residential or apartment districts or for residential or apartment uses in other districts, a screening wall or fence not in excess of eight feet high may be erected around that part of the lot behind the front wall of the main building or behind the front yard line whenever the main building is located further back. A screening wall or fence not in excess of forty-two inches high may be erected in that part of a lot in front of the front line of the main building, except that no screening wall or fence may be more than thirty-six inches high within twenty feet of a street intersection or where visibility of vehicle or pedestrian traffic might be impeded as specified in Section 20.16.060 of this chapter.

For the purposes of this regulation, a wall or fence may exceed the heights set forth in this subsection up to a total height of ten feet, except within twenty feet of a street intersection or where vehicle or pedestrian traffic might be impeded as specified in Section 20.16.060 of this chapter. This provision applies when the vertical surface of the wall or fence above the eight feet or forty-two inches, whichever applies, is not less than seventy-five percent open, and which does not otherwise impede the vision clearance for motor vehicle or pedestrian traffic at intersections or driveway exits. The wall or fence may include wrought-iron fences with or without masonry columns, chain link, picket, split rail and other similar type fences not otherwise prohibited.

B. In commercial, manufacturing and industrial districts.

1. Where storage is a permitted accessory use with screening, and where not otherwise prohibited, a screening wall or fence not in excess of eight feet high may be erected along or behind any lot line; provided, that the following conditions are met:

a. Where any access driveway is located, the height of such wall or fence shall not exceed forty-two inches in height within ten feet of the street lot line;

b. The wall or fence shall not exceed forty-two inches in height for visual clearance at other locations as determined by the traffic engineer; and,

c. No screening wall or fence shall be more than thirty-six inches high within twenty feet of a street intersection as specified in Section 20.16.060 of this chapter.

2. Upon written application from the property owner, the zoning administrator may approve an additional four feet of fencing to the above eight foot screening wall or fence provided that the following conditions are met

a. The fence does not exceed twelve feet in height;

b. The property is located in a manufacturing or industrial zoning district;

c. The fence is only utilized as screening for outside storage where fifty percent or more of the property is used for outside storage;

d. Any screening wall or fence greater than forty-two inches in height along any street frontage shall be located ten feet behind the street lot line;

e. Where a wall is located ten feet behind the street lot line, the property owner shall provide landscaping within the ten feet, between the wall and the street lot line, based on the requirements of Title 18; and,

f. The request is reviewed and approved by the traffic engineer for visual clearance at driveways and intersections.

g. Upon site plan review, the zoning administrator may require additional landscaping as part of the approval. If the zoning administrator denies the request, the property owner may appeal the decision to the city council.

3. Notwithstanding subsection B.1, security fences not in excess of twelve feet in height may be erected along or behind any lot line.

C. If a wall is proposed to be constructed on a common property line, the written approval of the adjoining property owner must be submitted with the application for a building permit. If the city is the adjoining property owner, written approval of the zoning administrator must be requested and submitted with the application for a building permit. (Ord. 16653 § 2 (part), 2007) (Ord. 17191, § 1, 9-15-2009; Ord. No. 019517, § 2, 6-20-2023)

20.16.040 Masonry walls.

A. A masonry wall may exceed the height standard up to a maximum of eight inches for the purpose of rounding off the wall.

B. Masonry walls over six feet in height must be designed by a professional engineer. (Ord. 16653 § 2 (part), 2007)

20.16.050 Maintenance.

Fences and walls shall be maintained in good repair and shall be kept vertical, uniform and structurally sound. (Ord. 16653 § 2 (part), 2007)

20.16.060 Vision clearance at intersections.

On any corner lot, within that area of a triangle (twenty-foot triangle) formed by the intersecting property lines and a diagonal line joining the property lines at points twenty feet from their intersection, the following conditions shall apply in any front yard, rear yard or both yards:

A. It is unlawful for any person to place, construct or reconstruct any building or structure, including a fence or wall, on a corner lot if the top of such building or structure is more than three feet above the level of the centerline of the nearest abutting street, and such building or structure is within the above twenty-foot triangle; provided, this subsection shall not apply to a retaining wall necessary for the support of the lot, nor to a wall of a building when the building legally extends into such triangle.

B. It is unlawful for any person to locate motor vehicles or motor vehicle parking spaces on a corner lot if the top of any motor vehicle parked there is more than three feet above the level of the centerline of the nearest abutting street, and such motor vehicles or motor vehicle parking space is within the above twenty-foot triangle.

C. Where special conditions exist, or where practical difficulties in the development and adequate use of land would result from the literal enforcement of the terms of this section, the property owner may be authorized to deviate from the requirements set forth in this section by the traffic engineer upon a determination that the deviation is in harmony with the general intent of this section, and consistent with the public interest, safety and general welfare. Such determinations shall be in writing and shall be maintained by the traffic engineer. (Ord. 16653 § 2 (part), 2007)

Chapter 20.18

SIGN REGULATIONS

Sections:

Article I. General Provisions

20.18.010 Title and authority.

20.18.020 Applicability.

20.18.030 Purposes.

20.18.035 Onsite and offsite distinction.

20.18.040 Findings.

20.18.050 Definitions.

Article II. Administration

20.18.100 Sign permit.

20.18.110 Application procedure.

20.18.115 Appeals.

20.18.120 Maintenance.

20.18.130 Removal of signs.

20.18.140 Prohibited signs.

Article III. Billboard Regulations

20.18.200 Zoning districts.

20.18.210 Time for construction.

20.18.220 Size and height.

20.18.230 Setback requirements for new static and CEVM billboards.

20.18.240 Spacing for billboards.

20.18.250 Special control areas.

20.18.260 Construction of billboards.

20.18.270 Relocation of billboards.

20.18.280 Lighting.

20.18.290 Cleanliness of billboard site.

20.18.300 Registration of existing billboards.

20.18.310 Temporary subdivision kiosk signs.

20.18.320 Mobile billboards.

Article IV. On-Premises Sign Regulations

20.18.400 General.

20.18.405 CEVM standards for superregional shopping centers.

20.18.410 R-F, R-1, R-2, R-2A, R-3, R-3A, R-4, R-5, RMH, PMD, and NOS districts.

20.18.420 A-1, A-2, A-3, A-4, A-M, PR-I, PR-II and SRR districts.

20.18.430 A-O, A-3/O and S-D districts.

20.18.440 C-OP, C-1, P-C, P-I, R-MU, G-MU and I-MU.

20.18.445 C-1 districts with special circumstances.

20.18.450 C-2, C-3, C-4, Q, M-1, M-2 and M-3 districts.

20.18.455 Shopping Center comprehensive sign plans for C-2, C-3, C-4, Q, M-1, M-2 and M-3 districts.

20.18.460 C-5 district.

20.18.465 Civic and cultural district signs.

20.18.470 U-P district.

20.18.480 Historic overlay zones, historic districts and designated significant landmarks.

20.18.490 Additional on-premises signs.

20.18.500 Temporary on-premises signs.

Article V. Noncommercial Sign Regulations

20.18.510 Noncommercial messages and message substitution.

Article I. General Provisions*

20.18.010 Title and authority.

This chapter shall be known as the "Sign Ordinance for the City of El Paso, Texas." This chapter is authorized by the Texas Local Government Code Chapters 211 and 216, the city's zoning powers, and the city's inherent police powers.
(Ord. No. 17317, § 1, 5-4-2010)

20.18.020 Applicability.

A. This chapter shall apply to the incorporated area of the City of El Paso, Texas, and as to off-premises signs (as defined herein), to the extraterritorial jurisdiction area of the City of El Paso.

B. Compliance required. No person shall hereafter erect, construct, reconstruct, alter, repair, locate or relocate a sign, or remove or demolish an off-premises or on-premises sign except in accordance with the provisions of this chapter, and failure to comply with this chapter shall constitute a violation of the Code. Signs subject to this chapter may be subject to other requirements stated elsewhere within the Code, and if in conflict, the stricter provision shall control. Nothing in this chapter shall be interpreted or construed to conflict with Texas Local Government Code Section 216.903 (Regulation of Political Signs by Municipality).

C. Regulatory scope. This chapter applies to all signs, as defined herein, which are located on private property within the jurisdictional area of this chapter. This chapter also applies to land owned by a public entity, to include the city, when the city has land use regulatory authority over such land owned or occupied by such public entity. This chapter applies to signs on city property or the public right-of- way except as modified by Title 13 and/or Chapter 15.08. Nothing herein waives the proprietary rights the city has as a property owner. This chapter does not apply to advertising on the city's bus benches that were authorized under the city's franchise agreement, approved prior to February 19, 2013, however, beginning February 19, 2013, new bus benches with advertising may go into operation only when an existing advertising bus bench is removed from operation, on a one-to- one exchange rate; the total number of bus benches displaying advertising may not increase. This chapter does not apply to advertising on waste containers located on sidewalks or other city property authorized under the city's franchise agreement; however, new waste containers with advertising may be put into service only when an advertising waste container appearing on a franchisee's original franchise agreement with the city is removed from operation, on a one-to-one exchange rate, so that the total number of waste containers displaying advertising may not increase for each franchisee from the number described in each franchisee's original waste container franchise with the city.

D. Additional Regulations. Signs which are outside the regulatory scope of this chapter or the jurisdiction of the city may be subject to other laws, rules, regulations and policies. A permit issued under the provisions of this chapter does not constitute compliance with county, state or federal laws, rules, regulations and policies and it is the applicant's responsibility to comply with those laws.
(Ord. No. 17317, § 1, 5-4-2010; Ord. No. 17854, § 2, 8-21-2012; Ord. No. 17960, § 2, 2-19-2013; Ord. No. 18238, § 1, 9-2-2014)

20.18.030 Purposes.

This chapter provides a comprehensive system for the regulation of signs within the city and its extraterritorial jurisdiction area, to serve the following purposes:

A. To allow adequate opportunity for the exercise of free speech by the display of a message or an image on a sign, while balancing that opportunity against the community and public interests affected by signs.

*__Editor's note__—Ord. No. 17317, § 1, adopted May 4, 2010, repealed the former Art. I, §§ 20.18.010—20.18.050, and enacted a new Art. I as set out herein. The former Art. I pertained to similar subject matter and derived from Ord. 16761 § 1 (Exh. A)(part), 2007; Ord. No. 17013, § 2, 10-14-2008; Ord. No. 17185, §§ 1—6, 9-1-2009.

B. To protect the health, safety, and general welfare of the City, its residents and to execute the policies of the City's Comprehensive Plan.

C. To enhance the aesthetic value of the city's landscape by reducing visual clutter that is potentially harmful to property values and economic development;

D. To protect adjacent and nearby properties from the impact of excessive or inappropriate signage;

E. To protect the safety and efficiency of the City's transportation network by reducing confusion and distractions to pedestrians and motorists while enhancing motorists' ability to see pedestrians, obstacles, other vehicles, and traffic signs; and

F. To preserve, protect and enhance areas of designated historical, architectural and scenic value.
(Ord. No. 17317, § 1, 5-4-2010)

20.18.035 Onsite and offsite distinction.

Within this chapter, the onsite/offsite distinction applies only to commercial messages. Onsite has the same meaning as "on-premise" and "point-of-sale" and "point-of-purchase."
(Ord. No. 17317, § 1, 5-4-2010)

20.18.040 Findings.

In adopting this chapter, the city council makes the following findings:

A. That the number, sizes and height of signs in the city, both off-premises and on-premise, is unduly distracting and confusing to motorists and pedestrians, creates traffic hazards, and reduces the effectiveness of signs needed to direct the public;

B. That the appearance of the city, particularly that of its residential and light commercial districts, is marred by the excessive number of signs;

C. That the aforementioned effects detract from the pleasure, safety and economic well-being of the community, and that the number of distracting signs ought to be reduced in order to lessen the detrimental effects;

D. That the use of signs in the exercise of First Amendment freedoms must be balanced against the community, neighborhood, and social impacts of such signs; and

E. That the regulations contained in this chapter are the minimum amount of regulation necessary to achieve its purposes.
(Ord. No. 17317, § 1, 5-4-2010)

20.18.050 Definitions.

Definitions. For purposes of this chapter, the following terms have these specially defined meanings. If a term is not defined hereunder, the definition contained in chapter 20.02 shall apply, provided, however, where there is conflict the definition contained in this chapter shall apply.

"Add-ons," in the context of billboards, means a design element that extends outside the structural display face on a billboard. Also called "extensions."

"Adopt-a-median sign" means a freestanding sign located in the median of a street right-of-way identifying the entity or organization that is responsible for maintaining the median where the sign is located.

"Aerial sign." See "overhead sign."

"Auxiliary sign." A sign with no commercial advertising, except for the name or logo of the business or establishment, that pertains to the safe and efficient movement of pedestrians and vehicular traffic into and out of a building or premises and that has a directional purpose secondary to the use of the lot on which it is located, such as "no parking," "entrance," "loading only," "telephone," "emergency entrance," and other similar directives.

"Billboard" means a permanent structure sign which meets any one or more of the following criteria: a) it is used for the display of off-site commercial messages; b) it is used for general advertising for hire; c) it functions as a principal or separate principal use of the land on which it is located, in contrast to functioning as an accessory or auxiliary to a principal use which is not a sign. The term "billboard" applies to all physical parts

of the sign, including display faces, structure, support poles, attached ladders, attached catwalks, and appurtenant lighting systems, and visual display systems.

"Bulletin" means a billboard with a sign face area equal to or greater than three hundred square feet of image display area, but less than six hundred seventy-two square feet of image display area.

"Building; marker sign." A sign indicating the name of a building, date of construction, or other incidental information about its construction and/or history. Includes cornerstones, foundation stones, and similar devices.

"Business day" means a day on which City Hall is open to the public for regular business.

"Canopy sign" means a wall sign suspended from, mounted on or otherwise supported by a canopy, arcade or portal.

"CEVMS." See "changeable electronic variable message sign."

"Changeable electronic variable message sign," also referred to by the acronym CEVM, means a sign which uses electronic technology that is capable of displaying changeable or intermittent images, such as by turning on or off various lighting elements. The term includes any illuminated sign on which such illumination is not kept stationary or constant in intensity and color at all times when such sign is in use, or which changes the visual image more than one time per twenty-four-hour period. The term includes display technology such as LED (light emitting diode) or digital displays which can vary in color or intensity, or any system which is functionally equivalent even if the message is static. The term also includes any display, or device, which changes the "static" message or copy on the sign, in "slide show" fashion, by electronic means.

"Commercial message" means an image or message which proposes or promotes a commercial transaction, or concerns the economic interests of the advertiser and/or the audience. Contrast: noncommercial message.

"Commercial mascot" means a person or live animal decorated or attired with commercial advertising insignia and displayed to the public for commercial advertising purposes. Includes sign clowns, sign twirlers, and "human sandwich board" type signs.

"Community service sign." A sign displaying a non-commercial message relating to an event or activity sponsored by a governmental organization.

"Construction sign" means a sign displayed on a construction site during the time that actual construction is continuing.

"Copy" means the visually communicative elements of a sign.

"Directory sign" means a wall or monument sign that provides a listing of names of the tenants and space numbers for a multi-tenant building, lot or park.

"Display face" or "display area" means that portion of a physical structure which can be used for the display of copy.

"Establishment" means any legal use of land, other than long-term residential, which involves the use of structures subject to the Building Code and the presence of human beings on the premises more than 20 hours per week. By way of example and not limitation, this definition includes businesses, factories, farms, schools, hospitals, hotels and motels, offices and libraries but does not include single-family homes, mobile homes, residential apartments, residential care facilities, or residential condominiums. The term does not include automated facilities, such as electrical power transformer stations, broadcast towers, vending machines, etc.

"Externally illuminated sign" means the illumination of a surface of a sign from an external source of light intentionally directed upon the sign. Also known as "indirectly illuminated sign." Contrast: internally illuminated sign.

"Extraterritorial jurisdiction" has the meaning stated in Texas Local Government Code 42.021.

"Flag" means any fabric, banner, or bunting containing distinctive colors, patterns, or design

that displays the symbol(s) of a nation, state, local government, company, organization, belief system, idea, or other meaning.

"Garage sale" means the irregular selling of used and/or hand made articles on the premises of a dwelling unit. Events commonly known as estate sales, yard sales, moving sales, and their functional equivalents, are within this definition.

"General advertising" means the business of advertising other businesses, establishments or

causes, typically for a fee or other consideration. Also known as general advertising for hire. The term applies regardless of whether a given message is commercial, noncommercial, or "public service" in nature.

"Home occupation sign" means a wall sign indicating the name, address or business, in any combination, of a code-compliant home occupation operated by the occupant at that residence.

"Inflatable advertising device" means a device which is inflated with air or another gas, or which is activated by wind, air, or propelled gas, and used for outdoor advertising purposes.

"Internally illuminated sign" means the illumination of an electric sign with a source of light within the sign.

"Junior" means a billboard with a sign face area not greater than seventy-two square feet.

"LED or light emitting diode" means a semiconductor diode that emits light when conducting current; as used in this chapter, the term also includes functionally equivalent technologies.

"Marquee sign" means a wall or projecting sign suspended from, mounted on or otherwise supported by a marquee, such as a canopy entrance.

"Mobile billboard sign" means a motor vehicle or trailer which is used for the display of general advertising for hire.

"Monument sign" means a freestanding sign with a one hundred percent width base; however, the sign may be supported by an internal pipe structure. Base materials may include unpainted brick, stone, or other natural material such as adobe or rammed earth (or similar veneer). Skirts shall also be constructed of a minimum three millimeter aluminum, excluding sheet metal. Also known as "ground sign."

"Multi-tenant sign" means a sign displaying messages sponsored by three or more or establishments, each of which holds a separate certificate of occupancy, located on the same lot or premises.

"Noncommercial message" means a communicative visual image not pertaining to commercial matters. Noncommercial messages commonly concern religion, politics, social commentary and other matters of public debate. Contrast: commercial message.

"Nonconforming sign" means a sign which was legally erected prior to enactment or amendment of this Code and which has been maintained in compliance with the El Paso City Codes in effect at the time of installation, but which does not conform to the current provisions of the sign code or other applicable city ordinances. Also referred to as a legal nonconforming sign.

"Off-premises sign," also called offsite or non-point-of-sale sign means a sign displaying a commercial message that pertains to a business, person, organization, activity, event, place, service or product not principally located, or primarily manufactured, or sold on the premises on which the sign is located. Also known as "off-site sign." The on-premise/off-premises distinction applies only to commercial messages.

"On-premises sign," also called an onsite or point-of-sale sign, means a sign advertising an establishment, business, person, activity, good, product or service located on the premises where the sign is installed and maintained. In the context of construction signs, all establishments involved in the construction are considered on-premises during the time of construction. Products or services which are expected to be offered at the same location in the near future also qualify as "on-premise."

"Overhead sign" means a sign which is visible only from above, as from an airplane or helicopter, and is generally not visible to, or oriented for viewing by, persons on the ground.

"Planning official" shall be as defined in Section 1.04.030 of this Code.

"Planning division" means the planning division of the city development department.

"Pole sign" means a freestanding sign that is supported from the ground by pole(s) or a three-dimensional support structure that is not attached to a building and does not fit the definition of a monument sign.

"Portable sign" means an inanimate sign which, by virtue of its physical structure, is easily moved from one location to another. Common examples include signs on vehicles, trailers, or wheels.

"Poster" means a billboard with a display face area equal to or greater than seventy-two square feet but less than three hundred square feet.

"Primary or principal sign" means the monument or pole sign along a street frontage selected by the establishment as defined in 20.18.450.

"Real estate sign" means a temporary sign whose message pertains to a proposed economic transaction (sale, lease, rent, etc.) of real estate. Signs related to transient occupancy, such as rates and vacancies at hotels, motels, inns, and bed and breakfast facilities, are not within this definition.

"Roof sign" means a sign that is mounted on a roof or projects above the highest point of the roof line, parapet, or fascia of a building. A sign mounted on a mansard roof is a wall sign, not a roof sign.

"Secondary advertising sign" means an on-premises sign placed on private property, which is not the primary sign intended for advertising.

"Shingle sign" means a wall sign that projects from the face of a building and is suspended from a metal structure, awning, canopy or marquee, or wall.

"Sign" means any outdoor display surface, structure, search light, banner, pennant, inflatable and airborne device, whether mounted on land, air, or water, which is visible from any portion of the public right-of-way to vehicular or pedestrian traffic, a principal purpose of which is to attract attention to a communicative visual or graphic image. The term "sign" is inclusive of both on- and off-premises signs, including billboards, and any moving part, lighting, sound equipment, framework, background material, structural support, or other part thereof. A display, device, or thing need not contain lettering to be a sign. Notwithstanding the generality of the foregoing, the following are not within this definition:

- Overhead signs or banners towed behind aircraft.
- Architectural features. Decorative or architectural features of buildings (not including lettering, trademarks or moving parts), which do not perform a communicative function.
- Fireworks.
- Foundation stones and cornerstones which are permanent in nature and incapable or not intended for modification once installed.
- Grave markers, grave stones, headstones, mausoleums, shrines, and other markers of the deceased.
- Holiday and cultural observance decorations on private residential property which are on display for not more than 45 calendar days per year (cumulative, per parcel or use or dwelling unit).
- Inflatable games and gymnasiums. Inflatable, temporary, moveable, gymnasium devices commonly used for children's birthday parties, and similar devices. Also called "party jumps."
- Manufacturers' marks. Marks on tangible products, which identify the maker, seller, provider or product, and which customarily remain attached to the product even after sale.
- Mass transit graphics. Graphic images mounted on duly licensed and authorized mass transit vehicles that legally pass through the City Merchandise on public display and presently available for purchase on-site;
- News racks and newsstands;
- Personal appearance. Items or devices of personal apparel, decoration or appearance, including tattoos, makeup, wigs, costumes, masks, etc. (but not including commercial mascots or hand-held signs or appliances worn for the principal purpose of holding a sign);
- Search lights and klieg lights when used as part of a search and rescue or other emergency service operation; this exclusion does

not apply to search lights or klieg lights used as attention attracting devices for commercial or special events;

- Shopping carts, golf carts, horse drawn carriages, and similar devices; any motorized or self-propelled vehicle which may be legally operated upon a public road is not within this exclusion;
- Symbols of non-commercial organizations or concepts including, but not limited to, religious or political symbols, when such are permanently integrated into the structure of a permanent building which is otherwise legal; by way of example and not limitation, such symbols include stained glass windows on churches, carved or bas relief doors or walls, bells, religious statuary, etc.
- Vehicle and vessel insignia on street legal vehicles and properly licensed watercraft or aircraft: license plates, license plate frames, registration insignia, non-commercial messages, messages relating to the establishment of which the vehicle or vessel is an instrument or tool (not including general advertising) and messages relating to the proposed sale, lease or exchange of the vehicle or vessel;
- Vending machines, product dispensing devices and automated product intake devices which do not display offsite commercial messages or general advertising messages; by way of example and not limitation, "automated product intake devices" means machines which accept recycle materials, or "book return" slots at libraries, or "leave your clothes here" boxes at laundry places;
- Window displays. The display of merchandise in a store window and offered for sale.

"Sign cut-outs" means the following:

A. The area of sign face extension available to complete the artwork on a billboard.

B. The portion of the sign structure area of a monument sign that is completely open or void.

"Sign height" means the following:

1. For freestanding signs, the vertical measurement between the highest part of the sign, excluding all billboard add-ons, and the ground level upon which the sign is located;

2. For wall and all other signs, the vertical measurement of the sign area.

3. Small format billboard means a billboard which has a display face of less than 72 square feet.

"Special event directional sign" means a temporary sign providing direction information to a properly authorized special event that is open to the public.

"Static billboard" means a billboard which displays a single visual image that does not change more frequently than once per 24-hour period and does not include LED or CEVM or functionally equivalent technology.

"Structure area" means the entire area of a monument sign structure, which is computed by multiplying the sign height by the sign structure width.

"Structure support width" applies to freestanding signs and means the width of the three-dimensional support structure(s) that extends from the top of the sign structure to the ground.

"Subdivision identification sign" means a monument or wall sign located at a main entrance of a housing subdivision.

"Temporary banner" means a temporary sign composed of lightweight fabric or similar material used to attract visual attention. Flags are not within this definition.

"Temporary active motion inflatable" means a temporary type of inflatable sign utilizing wind baffles and fabric combined with a vortex of air created by a mechanical air system to allow the inflatable to dance and move, and which does not contain any words, numerals, trademarks, pictures, designs, or objects. Such devices are also known as "aircrows," "wind dancers" and "air dancers."

"Temporary construction sign" means a temporary sign located on a construction site, typically used to display messages concerning the owner, occupant, contractor, architect, engineer, financial institution, real estate company or similar entities involved with the construction at that site.

"Temporary sign" means a sign which, by virtue of its construction from lightweight or flimsy materials, and construction or installation by hand or with ordinary hand tools, is not suitable for long term display.

"Temporary inflatable sign" means an inflatable advertising device greater than two cubic feet in volume, used for advertising purposes.

"Temporary special event sign" means a temporary sign advertising a properly authorized special event and located at the site of the event.

"Temporary subdivision kiosk signs" means a sign that shall include any or all of the following: the name of the subdivision(s), the name of the developer or subdivider of record, the name of the homebuilder(s) and a descriptive statement describing the development (e.g. single-family homes, condominiums, etc.) and directional information including arrows or other similar symbols for the purpose of direction only.

"Tri-vision sign" means a rotating slat sign whose rotation is completed within one second and the message is stationary for at least 8 seconds following a rotation.

"Wall sign" means a sign permanently affixed to any wall or vertical portion of a building not extending beyond the elevation of the building.

"Warning and notice signs" are signs containing information or symbols about regulatory violations, hazardous conditions, or other educational messages; examples include "beware of dog," "high voltage," "no trespassing," "eviction notice," etc.

"Wayfinding sign" means a sign, map, or marker designed, constructed, installed and managed by the city located on city property or right-of-way placed by the city that guides the traveling public to key civic, cultural, visitor, and recreational destinations; educational, scholastic or artistic events; community or public interest activities or destinations; designated or recognized civic routes or trails; areas of historical or archaeological significance; or trade shows, events and festivals. Any sponsorship information contained on a wayfinding sign shall be limited to twenty percent of the sign and shall only contain the name of the sponsor.
(Ord. No. 17317, § 1, 5-4-2010; Ord. No. 17442, §§ 42—44, 10-26-2010; Ord. No. 17585, § 2, 6-14-2011; Ord. No. 17801, § 12, 6-5-2012, eff. 6-11-2012; Ord. No. 17854, § 3, 8-21-2012; Ord. No. 18134, § 3, 3-4-2014)

Article II. Administration*

20.18.100 Sign permit.

A. Sign permit required. The purpose of a permit is to ensure compliance with the provisions of this chapter. A sign permit shall be required prior to the placing, erecting, constructing, moving, installing, displaying, mounting, reconstructing, repairing, relocating, or demolishing of any sign, unless the subject sign or activity is expressly exempted from the permit requirement by this chapter or other applicable law. Signs requiring a permit shall comply with the provisions of this chapter and all other applicable laws and ordinances.

B. All new billboards erected within the city shall have the permit number affixed to the structure below the sign face. The number must be visible for a distance of fifty feet from the pole supporting the billboard.

C. Decision time. As to all signs which require a permit, the decision on the application for such permit shall be made within thirty business days of submission of a complete application. Decisions on appeals to the zoning board of adjustment shall be made by the zoning board of adjustment within 30 business days from the date

*__Editor's note__—Ord. No. 17317, § 2, adopted May 4, 2010, repealed the former Art. II, §§ 20.18.100—20.18.140, and enacted a new Art. II as set out herein. The former Art. II pertained to similar subject matter and derived from Ord. 16761 § 1 (Exh. A)(part), 2007; Ord. No. 17001, § 2, 2008; Ord. No. 17013, § 2, 10-14-2008; Ord. No. 17185, §§ 5—7, 9-1-2009.

the board hears the appeal. This time limit shall apply anew to each stage of review or appeal. After receipt of a complete sign application, the planning official shall render a decision to approve, approve with modifications or conditions, or deny the sign request. Unless the applicant waives time, failure of the planning official to issue a written decision within thirty business days shall constitute denial of the application. During the application and appeal procedures, the status quo shall be maintained, unless an existing sign, by virtue of its physical condition, presents an immediate and significant threat to the public safety, in which case it may be removed or repaired pending the outcome of the appeal.

D. Review criteria. When reviewing a sign permit application, no consideration shall be given to the proposed message or the proposed graphic design, so long as the intended message is within the protections of the First Amendment to the U.S. Constitution and/or corollary provisions of the Texas Constitution. This provision does not prevent consideration of whether a sign will or will not be used to display offsite commercial messages. Such a review shall ensure that any sign proposal is in conformance with the requirements of this chapter and other applicable law, regulation and policy.

E. Any existing moratorium imposed by ordinance of city council regarding the acceptance and issuance of permits shall not apply to the application for and the issuance of permits required under this Code when the purpose is to achieve Code compliance, or applications or permits for the repair and maintenance of existing legal signs, provided that such maintenance and repair does not structurally alter the sign.

F. Where the building official determines that a permit was issued in accordance with the law in effect at the time the sign was erected and that such permit was lost or destroyed, the building official shall provide a replacement permit when the sign permit is still valid under such law.

G. Sign permit applications must be accompanied by all applicable fees, as established by formal action of city council.

H. After a permit application has been submitted, if additional information is requested in order to process the application, then the applicant has ninety days to provide the information or the sign permit application shall be deemed to have been abandoned. One extension of time for a period not to exceed ninety days may be allowed by the permit official if the extension is requested in writing.

(Ord. No. 17317, § 1, 5-4-2010; Ord. No. 17442, § 45, 10-26-2010; Ord. No. 17686, § 2, 12-6-2011; Ord. No. 17960, § 3, 2-19-2013)

20.18.110 Application procedure.

A. Permit—Method of application. An application for a sign permit shall be made on forms as prescribed by the planning official. Such an application shall be filed with the planning division. The application shall be accompanied by any fees or bonds as specified by city council resolution. In addition to all the information required by Title 18 (Building and Construction), the application for a sign permit shall include the following:

1. Permit application—Contents. A sign permit application shall contain the location by street and number of the proposed sign structure, the PID for the property, as well as the name and address of the owner and the sign contractor or installer. One electronic copy, in a format authorized by the planning official, and three copies of the plans, fully dimensioned, shall be filed with the application, including:

a. Plot plan, fully dimensioned, showing location and dimensions of all buildings and improvements and the location of each proposed sign together with the location, setback, size and height of all existing signs on the premises/site. The street frontage shall be clearly indicated on the plan as well as the property line;

b. Elevation plan, fully dimensioned, showing height and size of each proposed sign, method of illumination and materials of construction, and if a wall sign, the exact location on the face of the building;

c. Nearest street intersections and abutting arterials;

d. Legal description of the property;

e. Zoning;

f. Written evidence that the property owner has authorized the placing of the sign(s) on the property;

g. Structural and wind load calculations;

h. Name, address and city or state sign electrical contractor license number of applicant;

i. If the proposed sign is over twenty-four feet high, the certification of an engineer licensed or registered in Texas; and

j. Structural details and circulations prepared and signed by an engineer or architect registered in the State. Such details shall be required when the area of the sign exceeds five square feet and the height of the sign exceeds six feet. Structural details shall include all attachments such as satellite dishes, sign cabinets, etc. These plans shall also be submitted electronically in a format authorized by the planning official.

2. A statement by the owner of the proposed sign as to whether the display face will be permanent, changeable, or a permanent structure with changeable elements. If the proposed sign is to be used to display commercial messages, then the applicant shall also state whether the message is to be onsite or offsite, and whether it is proposed to be used to display general advertising for hire.

B. For billboard sign demolitions and/or relocations and/or replacements.

1. Size and location of all sign(s) to be removed or relocated;

2. Photograph or digital image of all sign(s) to be removed;

3. A copy of the original permit for the sign(s) to be removed or a copy of the registration list provided to the city manager or designee, provided that the sign to be demolished, relocated or replaced must be on the registration list;

4. For billboard replacement or relocation permits for billboards removed after July 2, 2002:

a. Completed application with site plan and structural calculations;

b. Size(s), location(s) and type(s) of sign(s) removed; and

c. Copy of the demolition permit(s) for the sign(s) removed;

5. Issuance of building permits and revocation of permits shall be done in accordance with provisions of Title 18.

C. Multiple sign applications. When an application proposes two or more signs, the application may be granted either in whole or in part, with separate decisions as to each proposed sign.

D. Grounds for denial. When an application is denied in whole or in part, the planning official's written notice of determination shall specify the grounds for such denial.

E. Portable sign permits shall not be issued for a period of more than three hundred sixty-five days.

F. Revocation or cancellation. The planning official shall revoke any approval or permit upon refusal or failure of the holder thereof to comply with the provisions of this chapter and/or the terms or conditions of any permit, after written notice of noncompliance and at least ten (10) days opportunity to cure.

G. Permits issued in error. Any approval or permit issued in error may be summarily revoked at any time by the city upon written notice to the holder of the reason for the revocation.

(Ord. No. 17317, § 1, 5-4-2010; Ord. No. 17442, § 46, 10-26-2010; Ord. No. 17960, § 4, 2-19-2013)

20.18.115 Appeals.

All sign permit applications shall be initially reviewed by the director. When the director issues a decision on a sign permit application, or when the time for doing so has expired without a written decision, then the applicant or any concerned person may appeal to the zoning board of adjustment under the provisions of 2.16.040 of the El Paso City Code. The appeal shall be processed under the same procedures specified for appeals to the zoning board of adjustment. The zoning board of adjustment shall hold a duly noticed public hearing thereon, and issue a written decision thereon,

within 30 business days. Failure of the board to render a decision within the time specified hereunder shall deem the appeal denied. The written decision shall make findings and state reasons, supported by evidence in the record, for the decision. In determining the appeal, the zoning board of adjustment shall not consider message content or graphical design of the sign, unless the message or image has no protection under the First Amendment to the U.S. Constitution.
(Ord. No. 17317, § 1, 5-4-2010)

20.18.120 Maintenance.

A. Every sign, including those specifically exempt from this Code in respect to permits and permit fees, shall be maintained in good structural condition at all times. All signs shall be kept neatly painted, including all metal parts and supports thereof, except those portions that are galvanized or of rust-resistant material. The building official shall inspect all signs and shall have the authority to order the painting, repair, alteration or removal of any sign which constitutes a hazard to safety, health or public welfare by reason of inadequate maintenance or dilapidation. The owner of the property on which a sign is located and the owner of the sign shall be jointly and severally responsible for the conditions of the area occupied by the sign and shall be required to keep the area clean, sanitary and free from rubbish; and failure to comply with this section shall constitute a violation of this Code. For purposes of responsibility, the owner of the property refers, jointly and severally, to the legal owner of the property, as well as to all parties holding the present right of possession and control.

B. Billboard maintenance and repair. The following are considered to be routine maintenance activities that do not require a permit:

1. The replacement of nuts and bolts;
2. Nailing, riveting, or welding;
3. Cleaning and painting;
4. Changing of the advertising message;
5. The replacement of minor parts if the materials of the minor parts are the same type as those being replaced and the basic design or structure of the sign is not altered;
6. Changing all or part of the sign face structure but only if like materials are used.

C. The following are customary maintenance activities that require a permit before initiation:

1. Replacement of poles, but only if not more than one-half of the total number of poles of the sign structure are replaced in any twelve-month period and the same material is used for the replacement poles; and
2. Adding a catwalk to the sign structure.

D. The following are examples of substantial changes that require a permit application before the initiation of such an activity; however, legal nonconforming signs may not engage in such maintenance activities and will lose their legal nonconforming status if they engage in such maintenance, regardless of whether or not a permit was issued:

1. Adding lights to an unilluminated sign or adding more intense lighting to an illuminated sign whether or not the lights are attached to the sign structure;
2. Changing the number of poles in the sign structure;
3. Adding permanent bracing wires, guy wires, or other reinforcing devices, except if the structure is modified to convert a static sign to a CEVM sign to conform with the current IBC Code;
4. Changing the material used in the construction of the sign structure, such as replacing wooden material with metal material;
5. Adding faces to a sign or changing the sign configuration;
6. Increasing the height of the sign;
7. Changing the configuration of the sign structure, such as changing a "V" sign to a stacked or back-to-back sign, or a single face sign to a back-to-back sign; and
8. Moving the sign structure or sign face in any way unless the movement is made in accordance with a relocation or replacement.

E. An added catwalk must meet occupational safety and health administration guidelines. (Ord. No. 17317, § 1, 5-4-2010; Ord. No. 17960, § 5, 2-19-2013)

20.18.130 Removal of signs.

A. After inspection by the building official, the following signs may be subject to removal by the city, in accordance with the procedure enumerated herein; however, the city may at any time under its police powers immediately remove signs which constitute and immediate danger to persons or property without going through the procedures identified herein:

1. Signs or their supporting structures which appear to the building official to have become abandoned, neglected or made unattractive by missing letters, panels, lights, faded or peeling paint or graffiti;

2. Any sign which constitutes a hazard to safety, health or public welfare by reason of inadequate maintenance or dilapidation;

3. Any sign erected without permit that cannot be registered under the provisions in this chapter.

B. Procedure. Except as provided herein, prior to the removal of a sign by the city, the building official shall follow the following procedure:

1. The building official shall inform the permit holder, if a permit has been issued; if no permit has been issued, the building official shall send a written notice, via certified mail, to the owner, if the owner is known, by mailing a written notice to the last known address of the owner, or lessee of the sign if that person is identified on the sign or is otherwise known to the building official, to remove such sign and structure or to cure the defect resulting from its neglect within a period of ten days after receipt of notification of violation of this chapter.

2. If the permit holder, owner, or lessee is unknown or cannot be reached, the building official shall publish a legal notice identifying the sign, its location and the corrective action required. The legal notice shall be given by any contemporary means of information sharing, including, but not limited to, publication in a newspaper of general circulation in the city and placement on the city's official website.

3. If no response is received by the building official within ten working days from the date of receipt of notification, or five working days after the date of publication, the building official shall refer the case to the building and standards commission and the case shall be processed under the procedures of Chapter 2.38 of the El Paso City Code.

C. An on-premises sign shall be removed in compliance with the Local Government Code Title 7 Subtitle A. Sec. 216.003.
(Ord. No. 17317, § 1, 5-4-2010)

20.18.140 Prohibited signs.

In addition to the list of prohibited signs stated below, any sign erected in violation of the city's building, electrical, lighting, or other applicable local, state or federal regulations, not expressly authorized by the code, a sign not specifically authorized by action of city council or specifically exempted from the provisions hereof, is prohibited within the corporate limits of the city and, as to billboards only, the city's extraterritorial jurisdiction. The following sign types are prohibited:

A. New static or CEVM billboards except as provided herein.

B. Off-premises commercial wall signs, except as provided herein.

C. Off-premises portable signs or any portable sign that is electrical or is more than seven feet in height including the support structure.

D. Wall signs that extend beyond the elevation of the building more than three feet.

E. Any sign which resembles an official traffic sign or signal or that bears the words "Stop," "Go," "Slow," "Caution," "Danger," "Warning" or similar words, or that bears symbols communicating similar meanings in a manner which is likely to be confused with official traffic signs.

F. Signs which, by reason of their size, location, movement, content, coloring or manner of

illumination, may be confused with or construed to be a traffic control sign, signal or device, or the light of an emergency or road equipment vehicle, or which hide from view any street or traffic sign, signal or device.

G. Any banner, handbill whether commercial or noncommercial, advertisement, notice, circular poster, piece of paper, figure, word, or letter, or any other kind of sign printed, painted, cut, branded, stamped, marked, written, posted, pasted, installed, or affixed in any way upon any utility post or stand, upon traffic control signs or signals, or upon any public property or public right-of-way, including, but not limited to, public buildings, sidewalks, parkways, easements and curbs; unless such sign is installed or affixed pursuant to authorization granted a special privilege license or by a city ordinance, resolution, or other valid official city authorization, or is otherwise permitted or regulated in the code.

H. Signs on vehicles or trailers that are parked or located for the primary purpose of displaying a commercial message. It shall be prima facie evidence that the primary purpose of a vehicle or trailer is to display a sign if the vehicle or trailer is parked on a site, or in the same general location, for a continuous period exceeding seventy-two hours per month. This prohibition does not apply to a vehicle displaying a commercial message which pertains to the establishment of which the vehicle is an instrument, and the parking is short term and incidental to the performance of the establishment's customary activities.

I. Reserved.

J. Festoons, including tinsel, strings of ribbon, streamers and pinwheels.

K. Signs erected or maintained upon trees, painted or drawn upon rocks or other natural features.

L. Satellite dishes, cell phone, microwave or broadcast towers, operable or inoperable, used as signs.

M. Signs, any portion of which revolves or rotates at a speed greater than three revolutions per minute.

N. Animated, flashing, running light or twinkle signs, excluding CEVM signs that are permitted pursuant to the provisions of Article III of this chapter.

O. Signs projecting or displaying three-dimensional or holographic images.

P. "V" type signs with a face that protrudes from the opposite face at an interior angle greater than twenty-five degrees. This restriction shall not be construed to prohibit oval, cylindrical or box type signs.

Q. Signs located on or attached in any manner to fences or between or on the poles of another sign or light fixture, except as may be permitted herein.

R. Signs projected (from a light source) onto the sides of buildings.

S. CEVM billboards and on premise signs, except that CEVM billboards and CEVM on-premises signs which conform to the provisions of this chapter are allowed.

T. Static or CEVM billboards, except that static or CEVM billboards and CEVM on-premises signs which conform to the provisions of this chapter are allowed.

(Ord. No. 17317, § 2, 5-4-2010; Ord. No. 17960, § 6, 2-19-2013; Ord. No. 18245, § 2, 9-16-2014; Ord. No. 19300, § 1, 2-15-2022)

Article III. Billboard Regulations*

20.18.200 Zoning districts.

A. From and after the effective date of this ordinance, no new billboards may be constructed, erected, installed or modified within the corporate limits of the city, or within its extraterritorial jurisdiction, and no building permit shall be issued for the construction, erection, or modification of a new billboard or an existing billboard in the city and the city's extraterritorial jurisdiction, except as authorized by this article.

B. Static billboards or non-CEVM billboards.

***Editor's note**—Ord. No. 17317, § 2, adopted May 4, 2010, repealed the former Art. II, §§ 20.18.200—20.18.280, and enacted a new Art. III as set out herein. The former Art. III pertained to similar subject matter and derived from Ord. 16761 § 1 (Exh. A)(part), 2007.

1. Construction of new static billboard or non-CEVM billboards are prohibited unless the owner or applicant complies with the following provisions and shall only be constructed in C-2, C-3, C4, MI, M2, and M3 districts:

a. Non-transit corridors. In order to construct one new static non-CEVM billboard, the applicant must demolish and permanently remove at least one legally permitted and erected existing billboard structure of the same size.

b. Transit corridors. Interstate Highway 10, Alarneda Avenue, Dyer Street, Mesa Street, and Montana Avenue are defined as transit corridors for the purposes of this chapter. In order to construct one new static non-CEVM billboard, the applicant must demolish and permanently remove at least two legally permitted and erected existing billboard structures of the same size from any of the five transit corridors.

c. The applicant requesting the permit for a new static non-CEVM billboard shall identify the locations and total display face area of the existing billboard sign structures to be demolished, and obtain a demolition permit for each billboard sign structure to be removed prior to issuance of the permit for the new billboard. Each of the billboard structures identified to be demolished must be demolished and the entire structure completely removed prior to the construction and operation of the new static billboard.

d. The application for the replacement permit for the new static non-CEVM billboard sign shall be submitted to the planning division within nine months of the issuance of the demolition permit(s) for the removed billboard(s). If an application permit is not submitted within that time, then the replacement permit shall not be issued for the removed billboards signs and no credit shall be given for the removal of such billboard(s).

e. The size of the new static non-CEVM billboard shall be the same as the size of those billboard structures removed, except that the following shall be allowed:

1. One bulletin billboard structure shall be permitted for two existing legally permitted and erected poster billboard structures removed,

2. One poster billboard structure shall be permitted for four existing legally permitted and erected junior billboard structures removed,

3. One bulletin billboard structure shall be permitted for eight existing legally permitted and erected junior billboard structures removed;

f. If the new billboard structure is double-faced, then all structures removed shall be double-faced.

g. The new static non-CEVM billboard sign must comply with all of the provisions of this chapter and the City Code, including but not limited to electrical, plumbing, grading, etc.

C. CEVM billboards. From and after the effective date of this ordinance, no new CEVM billboards may be constructed, erected, installed or modified within the corporate limits of the city, or within its extraterritorial jurisdiction, and no building permit shall be issued for the construction, erection, or modification of a new CEVM billboard or an existing billboard in the city and the city's extraterritorial jurisdiction, except as authorized by this article.

1. Construction of new CEVM billboards is prohibited unless the owner or applicant complies with all of the following provisions and shall only be constructed in C-3, C-4, M-1, M-2, and M-3 districts:

a. For every one square foot of CEVM billboard display area converted from a static billboard, at least five square feet of static display area must be permanently and completely removed. Of the signs removed to fund this conversion exchange, at least one billboard shall be of a like size as the CEVM display installed or erected.

b. For a period of one hundred eighty days from the date this ordinance is adopted [February 19, 2013], existing static signs may be converted to CEVM signs provided that the following criteria are met:

(1) Except for setback requirements specified in Section 20.18.230, all other requirements, to include the conversion rate, of the sign code are be complied with.

(2) If a static sign is converted to a CEVM sign and does not comply with the provisions of Section 20.18.230, the converted sign shall be considered legal nonconforming and shall comply with all of the following conditions:

a. The display face shall face away at a forty-five degree angle from any R-F, R-1, R-2, R-2A, R-3, R-3A, R-4, R-5, P-RI, P-RII, RMH, PMD, A-1, A-2, A-3, A-4, A-M, A-3/O, A-O, R-MU, G-MU, I-MU, or SmartCode Zone.

b. A buffer (interstate highway, streets classified as major arterials, or a C-4 commercial district or manufacturing district) existing between the converted sign and any R-F, R-1, R-2, R-2A, R-3, R-3A, R-4, R-5, P-RI, P-RII, RMH, PMD, A-1, A-2, A-3, A-4, A-M, A-3/O, A-O, R-MU, G-MU, I-MU, or SmartCode Zone (a buffer of a minor arterial may be allowed provided that there is a setback of four hundred twenty feet from the sign and the above districts).

c. The applicant requesting the permit for a new CEVM billboard shall identify the locations and total display face area of the existing static billboard sign structures to be removed or existing demolition credits to be utilized, and obtain a demolition permit for each static billboard sign structure to be removed prior to issuance of the permit for the new CEVM billboard. Each of the static billboard structures identified to be removed must be demolished and the entire structure completely removed to grade level prior to the construction or installation of the new CEVM billboard, including the support structure, electrical connections, catwalk (if any), and special grading and post holes completely covered.

d. The new CEVM billboard sign must comply with all of the provisions of this chapter and the City Code, including but not limited to electrical, structural, and grading requirements.

2. Owner or operator responsibilities.

a. The face of the CEVM sign permit application must identify contact information for an emergency contact available to turn off the CEVM sign within twelve hours after a malfunction occurs.

b. A CEVM display shall contain a default mechanism to show a "full black" image or turn the sign off in case of malfunction, or shall be manually turned off within twelve hours of a reported malfunction. Provided, however, if after twelve hours the sign has not defaulted to "full black" or turned off, the city shall have the right to power off the sign.

c. CEVM signs shall display the permit number issued by the city for the sign on the billboard structure.

(Ord. No. 17317, § 3, 5-4-2010; Ord. No. 17442, § 47, 10-26-2010; Ord. No. 17960, § 7, 2-19-2013)

20.18.210 Time for construction.

Construction of new and converted billboards must be completed within six months after issuance of a permit. One six-month extension may be granted by the planning division upon a showing that the permittee has diligently attempted to complete the installation.

(Ord. No. 17317, § 3, 5-4-2010; Ord. No. 17442, § 48, 10-26-2010; Ord. No. 17960, § 8, 2-19-2013)

20.18.220 Size and height.

A. In zoning districts C-3, C-4, M-1, M-2, and M-3 districts on Interstate Highway 10, new static and new-CEVM may have operational display faces up to six hundred seventy-two square feet in display area, with the new static or new-CEVM being no higher than sixty feet, excluding a cutout that extends above the rectangular border of the sign, measured:

1. From the grade level of the centerline of the main-traveled way, not including a frontage road of a controlled access highway, closest to the sign at a point perpendicular to the sign location; or

2. If the main-traveled way is below grade, from the base of the sign structure.

B. In zoning districts C-3, C4, M1, M2, and M3 districts on major arterials, super arterials, or higher category arterials, new static and new-CEVM billboards may have display faces up to three hundred square feet in display area, with the

top of the sign face not more than thirty-five feet above the grade of the freeway, expressway, or interstate regulated highway.

C. Not more than eight bulletin billboards, spaced a minimum of six thousand feet apart, are permitted on Loop 375 from Interstate Highway 10 to Montana.

(Ord. No. 17317, § 3, 5-4-2010; Ord. No. 17686, § 2, 12-6-2011; Ord. No. 17960, § 9, 2-19-2013; Ord. No. 18974, § 1, 9-3-2019)

20.18.230 Setback requirements for new static and CEVM billboards.

A. New static billboards must be at least 350 feet from the property line of any residential use or the following zoning districts: R-F, R-1, R-2, R-2A, R-3, R-3A, R-4, R-5, P-RI, P-RII, RMH, PMD, A-1, A-2, A-3, A-4, A-M, A-3/O, A-O, R-MU, G-MU, I-MU, or SmartCode Zone. These setback provisions do not apply to a sign abutting a SmartCode Zone where residential use is prohibited by law.

B. New CEVM billboards must be at least 500 feet from the property line of any residential use or the following zoning districts: R-F, R-1, R-2, R-2A, R-3, R-3A, R-4, R-5, P-RI, P-RII, RMH, PMD, A-1, A-2, A-3, A-4, A-M, A-3/O, A-O, R-MU, G-MU, I-MU, or SmartCode Zone. These setback provisions do not apply to a sign abutting a SmartCode Zone where residential use is prohibited by law.

C. New static and new CEVM billboards up to seventy-two square feet in area must be thirty-five feet from the property line, as that term is defined in 20.02.746, of the following zoning districts when located on the same side of the street: C-1 and C-5. In no case shall the property line extend into the parkway or right-of-way.

D. New static and new CEVM billboards larger than seventy-two square feet must be fifty feet from the property line as that term is defined in 20.02.746, of the following zoning districts when located on the same side of the street: C-1, C-2, C-3, C-4, and C-5. In no case shall the property line extend into the parkway or right-of-way.

E. No new static or CEVM billboards will be allowed within 35 feet of a freestanding on- premises sign on the same side of the street.

(Ord. No. 17317, § 3, 5-4-2010; Ord. No. 17960, § 10, 2-19-2013)

20.18.240 Spacing for billboards.

A. New Static, Non-CEVM billboards, and new CEVM billboards shall be spaced 1,500 feet apart from other static and CEVM billboards on the same side of the street or road

B. All measurements made under this subsection are in feet and measured linearly perpendicular from a point on the outside edge of the display face of the sign along the roadway from which it is to be viewed, except that the measurements between a CEVM billboard and another CEVM billboard shall also wrap (continue around) the corner of any block face along the same block, but shall not cross the ROW.

C. Spacing requirements for any signs shall not be diminished by an arterial, structure, or natural feature, except as provided in Section 20.18.200 C

(Ord. No. 17317, § 3, 5-4-2010; Ord. No. 17960, § 11, 2-19-2013)

20.18.250 Special control areas.

New static, non-CEVM billboards and new CEVM billboards are prohibited in the following special control areas:

A. Significant Landmarks Designated by the United States, the State of Texas, or the City of E1 Paso.	Within 500 feet of any designated historical landmark, site or building property line.
B. All Historic Districts	Within the boundaries of the district and or within 500 feet of the center line of streets forming the boundaries of the district.
C. Designated Special Districts, Central Business District	The area bounded by Interstate Highway 10 on the north, St. Vrain/Virginia Streets on the east, Paisano Drive on the south, and by a line tangent to the west facade of Union Depot, running north to south from Interstate Highway 10 to Paisano Drive.
South El Paso	The area bounded by Paisano Drive on the north, Rio Grande International Boundary on the south, Park Street on the east, and Santa Fe Street on the west.
Ysleta Mission Area (includes the Tigua Indian Reservation)	Within a 1,200 feet radius from Mission steeple.
Mountain Development Area (MDA)	Such lands as defined by the Zoning, Grading, and Subdivision Ordinances of the City of E1 Paso for the protection of the Franklin Mountains.
D. Freeway Interchanges	Areas Restricted From Signage
I-10 at U.S. 54	Within 1,000 feet from right-of-way line from Raynolds on the east, Yandell on the north, Gramma on the west, and junction with the Paisano/Juarez exits on the south.
U.S. 54 at Loop 375 (Cesar Chavez Border Highway)	Within 1,000 feet from right-of-way line from junction of I-10 and U.S. 54 to junction with Loop 375, including the Cordova Port of Entry.
I-10 at Loop 375 (Transmountain Road)	Within 1,500 feet of this intersection.
I-10 at Loop 375 (Americas Avenue)	Within 1,500 feet of this intersection.
E. Designated Scenic Corridors	Within 1,000 feet from either right-of-way line of an arterial within the following scenic corridors:
	Loop 375 (Cesar Chavez Border Highway and Americas Avenue) from Santa Fe Street to I-10
	Zaragoza Road from Zaragoza Port of Entry to Alameda Avenue
	I-10 from Schuster Drive to the Central Business District
	Mesa Street from Sun Bowl Drive to the Central Business District

	Rim Road
	Scenic Drive
	Schuster Drive/Murchison Drive
	McKelligon Canyon Road
	Alabama Drive/Magnetic Drive
	Airport Drive
	Fred Wilson Avenue
	U.S. 54 from Hondo Pass Avenue to the Texas/New Mexico State line
	Alameda Avenue from Loop 375 (Americas Avenue) to Zaragoza Road
	Old Gary-Artcraft Road/Paseo del Norte Road
	Country Club Road/Westside Drive
	Diana Drive from U.S. 54 to Dyer Street
	Doniphan Drive
	Resler Drive
	E1 Paso Street
	Hondo Pass Avenue
	Martin Luther King Jr. Boulevard
	McCombs Street from U.S. 54 to the Texas/New Mexico state line
	McKinley Avenue
	Northeast Parkway
	Paisano Drive from Sunland Park Drive to Alameda Avenue
	Santa Fe Street
	Airway Boulevard
	Loop 375 from I-10 to Railroad Drive
	Stanton Street
	Spur 601
	Woodrow Bean-Transmountain Road
F. Park/open space	Within 1,500 feet of the property line.
G. School, Church or Hospital	Within 500 feet of the property line.
H. Ports of Entry	

Santa Fe/Stanton	The following area at the Santa Fe Port of Entry: Bounded by the alley in Block 43, Campbell Addition, running north-south from Paisano to the International Border, the centerline of Paisano Drive, running east-west; the centerline of the alley in Block 139, Campbell Addition, running north-south from Paisano to the centerline of Sixth Street, running east to the centerline of Block 74 thence said line running south to the International Border, the International Border being the southern boundary.
Stanton	Within the following area at the Stanton Street Port of Entry: Bounded by the centerline of the alley of Block 47, Campbell Addition, running north-south from the International Border to the centerline of Paisano Drive, the east-west to the centerline of the alley of Block 137 Campbell Addition, running north-south to the border line being the southern boundary.
Zaragoza	Within 500 feet of the centerline of Zaragoza Road, running from the bridge abutment to Socorro Road.
Cordova (including I-10/U.S. 54 and U.S. 54/ Loop 375 freeway interchanges)	Within 500 feet from the state right-of-way from Raynolds on the east, Yandell on the north, Gramma on the west, and junction with the Paisano/ Juarez exits on the south.
	Within 500 feet from the state right-of-way line from junction of I-10 and U.S. 54 to junction with Loop 375, including the Cordova Port of Entry.
New Ports-of-Entry	Within 1,500 feet from the property line of a port-of-entry.

(Ord. No. 17317, § 3, 5-4-2010; Ord. No. 17960, § 12, 2-19-2013)

20.18.260 Construction of billboards.

The following shall govern the construction of any billboard sign:

A. Stacked billboards are prohibited;

B. V-shape billboards with an angle of construction greater than forty-five degrees are prohibited. Where two structures are used for the construction of a V-shape sign, such structures shall not be separated, at their closest point, by more than two feet.

C. New CEVM displays shall not be permitted to be erected back-to-back.

(Ord. No. 17317, § 3, 5-4-2010; Ord. No. 17960, § 13, 2-19-2013)

20.18.270 Relocation of billboards.

A. Relocation of certain billboard for a city public works project or city or state roadway improvement project.

1. Legal and legal non-conforming billboards located on or overhanging a parcel of land acquired by the State of Texas for roadway expansion projects may be relocated subject to the restrictions in this section.

2. The owner of the billboard must submit a billboard relocation application, along with supporting documentation from the state requiring the relocation, within one year after the billboard is actually removed from the parcel of land. The

applicant shall pay the established fee. The relocation must be completed within one year after approval of the relocation application.

3. Except as provided in this section, relocated billboards must fully comply with the size, height, spacing, setback, and other restrictions in this title.

4. Relocation to remainder.

a. All relocated billboards must be relocated to the remainder of the tract on which the billboard is located, unless it is not possible for the following reasons:

b. There is no remainder;

c. The owner of the billboard is unable to obtain an agreement from the property owner of the remainder; or

d. The remainder is not of sufficient size or suitable configuration to allow the relocated billboard to be as visible as the original billboard from the nearest main traveled thoroughfare.

e. Billboards relocated to a remainder must comply with Section 20.22.090, and must be placed no less than five hundred feet from an existing billboard.

5. Restrictions on relocations.

a. A billboard shall not be relocated to a scenic corridor or special control area.

b. A billboard not located on a road on the state highway system must be relocated at least five hundred feet from another off-premises billboard.

c. A billboard located on a road on the state highway system must be relocated at least five hundred feet from another off-premises billboard on the same side of the freeway.

d. A relocated billboard may not have a greater sign face area than it had at its original location, except that the sign face area of multiple relocated billboards may be combined, provided that:

i. The overall number of billboards within the city is reduced;

ii. The sign face area of the combined billboard shall not exceed six hundred seventy-two square feet, the maximum size of a bulletin sign;

iii. Stacked billboards are prohibited.

e. Two one-sided billboards may be relocated to create one two-faced billboard, provided that the two faces are oriented within sixty degrees of one another.

f. All relocated billboards must be built to comply with the building code.

g. A billboard may not be relocated until demolition and other required permits have been applied for and approved by the city.

h. A billboard may not be relocated within five hundred feet of a historic district or a public park.

i. A billboard not located on a road on the state highway system may not be relocated within three hundred fifty feet of a zoning district listed in 20.18.230.A.

j. A billboard located on a road on the state highway system may not be relocated within one hundred fifty feet of a zoning district listed in Section 20.18.230.A.

k. No new properties, such as electrical, mechanical, or LED, may be added to a relocated billboard. (For example, a non-illuminated billboard may not be converted to an illuminated billboard, and a static billboard may not be converted to a digital or tri-vision billboard.)

l. The height of a relocated billboard may not exceed forty-two and one-half feet above grade of the center point of the main-traveled way. For the purposes of this section, height is measured from the centerline of the main-traveled way closest to the sign face, at a point perpendicular to the sign location. A frontage road of a controlled access highway or freeway is not considered the main-traveled way for purposes of this subsection. In the event that the main-traveled way that is perpendicular to the sign structure is below grade, sign height will be measured from the base of the sign structure.

B. Relocation of certain static billboards unrelated to a city public works project or city or state roadway improvement project.

1. Relocated static billboards which are unable to meet the provisions of this chapter upon relocation may be granted an exception and the

receiving parcel's dimensional and spacing requirements varied subject to a special permit granted by city council in conformance with Chapter 20.04 if the council determines that the enforcement of the prohibition in a particular instance:

a. Is not in the best interest of the public;

b. Constitutes waste or the inefficient use of land or other resources;

c. Does not serve its intended purpose;

d. Is not effective or necessary; or

e. For any other reason the city council, after consideration of the health, safety, and welfare of the public and the equities of the situation, determines is in the best interest of the community.

2. Relocations allowed by special permit must also comply with the following additional standards:

a. The owner of the sign and receiving parcel property owner must sign and submit a special permit application.

b. The sending site shall be used as a landscaped median, preserved open space, or park capital improvement project by the City of El Paso.

c. The detailed site development plan required as a provision of the special permit shall include:

i. Sign elevations, including size and height of structure and square footage of all sign faces.

ii. Labeled distances to all surrounding residential zones.

iii. Labeled distances to the closest on and off-premises signs.

d. The relocation must be completed within one year from special permit approval.

C. Restrictions on relocations.

1. No billboard may be relocated into any of the special control areas identified in Section 20.18.250.

2. A billboard must be relocated at least five hundred feet from another off-premises billboard on the same side of the roadway or highway.

3. A relocated billboard shall not have a greater sign face area than it had at its original location, except that the sign face area of multiple relocated billboards may be combined at the new location, provided that:

a. One bulletin billboard structure shall be permitted for two existing legally permitted and erected poster billboard structures removed,

b. One poster billboard structure shall be permitted for four existing legally permitted and erected junior billboard structures removed,

c. One bulletin billboard structure shall be permitted for eight existing legally permitted and erected junior billboard structures removed;

4. A billboard may not be relocated until demolition and other required permits have been applied for and approved by the city.

5. A billboard may not be relocated within five hundred feet of a historic district or a public park.

6. No new properties, such as electrical, mechanical, or LED, may be added to a relocated billboard. (For example, a non-illuminated billboard may not be converted to an illuminated billboard, and a static billboard may not be converted to a digital or tri-vision billboard.)

7. The relocated billboard shall have the necessary demolition credits and those credits shall be used to allow for relocation at the time of application to the city.

8. The height of a relocated billboard may not exceed forty-two and one-half feet above grade of the center point of the main-traveled way. For the purposes of this section, height is measured from the centerline of the main-traveled way closest to the sign face, at a point perpendicular to the sign location. A frontage road of a controlled access highway or freeway is not considered the main-traveled way for purposes of this subsection. In the event that the main-traveled way that is perpendicular to the sign structure is below grade, sign height will be measured from the base of the sign structure.

(Ord. No. 17317, § 3, 5-4-2010; Ord. No. 18248, § 1, 9-23-2014; Ord. No. 18362, § 1, 6-2-2015; Ord. No. 18590, § 1, 11-1-2016)

20.18.280 Lighting.

A. Intensity:

1. All CEVM displays shall be illuminated at a level no greater than 0.3 foot-candles over ambient light levels for the location and time and shall employ light cutoff devices such as, but not limited to, louvers in order to minimize light escaping above the horizontal plane. Foot-candle readings shall be measured at ground level at the following distances:

a. Signs between zero to one hundred square feet shall be measured at one hundred feet from the source;

b. Signs between one hundred one to three hundred square feet shall be measured at one hundred fifty feet from the source;

c. Signs between three hundred one to six hundred fifty square feet shall be measured at two hundred feet from the source;

d. Signs in excess of six hundred fifty-one square feet shall be measured at two hundred fifty from the source.

2. As measured from the nearest residential property line, the maximum light emanation from an adjacent digital sign display shall be 0.3 foot-candles or less.

3. A CEVM display shall be equipped with both a dimmer control and a photocell which automatically adjusts the display's intensity according to natural ambient light conditions.

4. The CEVM display shall contain a default mechanism to show a "full black" image or turn the sign off in case of malfunction or shall be turned off within twelve hours of a reported malfunction.

B. Operational requirements for CEVM billboards: A CEVM billboard display shall comply with the following standards:

1. The changeable images must be only a series of still images; moving images or images which create the appearance of motion during the static display period are prohibited;

2. The dwell time, defined as the interval of change between each individual message, shall be eight seconds, and a change of message must be accomplished within one second or less; The dwell time shall not include the one second or less required to change a message;

3. A CEVM billboard display shall not resemble or simulate any traffic control or other official signage;

4. A CEVM billboard display must be equipped with a light sensing device which automatically adjusts the display's intensity according to natural ambient light conditions; and

5. No CEVM billboard display shall be erected, installed or altered to include animation such as parts which move, blinking lights, sound, or smoke or fumes issuing from the sign.

6. Use of flashing, strobing, or scrolling line-travel test such as, but not limited to, "ticker- tape" is prohibited.

7. No CEVM billboard shall have a cabinet that extends beyond two inches from the operational face of the sign.

C. Existing signs. All CEVM displays, as defined, in existence prior to the effective date of this Ordinance shall conform to the provisions of this subsection within one year of the adoption date of this ordinance [February 19, 2013]; provided however, that incandescent or monochrome LED signs using a single display color and which are used exclusively to display text, including time and temperature signs, shall be excluded from this requirement.

(Ord. No. 17317, § 3, 5-4-2010; Ord. No. 17960, § 14, 2-19-2013)

20.18.290 Cleanliness of billboard site.

Billboard sites shall be kept free from the accumulation of filth, weeds, graffiti, trash and all other debris.

(Ord. No. 17317, § 3, 5-4-2010; Ord. No. 17960, § 15, 2-19-2013)

20.18.300 Registration of existing billboards.

Not later than seventy calendar days after the effective date of this ordinance, the owner and, if different, operator of each billboard shall submit to the city manager or designee a complete and

accurate inventory of signs erected and operational as of the effective date of this ordinance. The inventory shall identify each sign, in accordance with industry standards, and at a minimum should identify the sign by location description, latitude/longitude, type of sign (i.e. poster, junior, etc.), dimensions of the display face, orientation of the display face, current photograph of the sign, and to the extent possible Traffic Audit Bureau ("TAB") identifier. Supporting documentation for each sign, such as permits, should be provided if reasonably available. Once the inventory has been submitted in accordance with this paragraph, then the billboard signs listed in the inventory shall be considered to be legally in compliance with the Sign Code. Any billboard sign not listed on the inventory shall be in violation of this Chapter and shall be removed, unless the billboard was legally erected after the effective date of this ordinance, and complies with all provisions of this ordinance, the sign code and the E1 Paso City Code, except as otherwise provided herein. A sign properly registered under this provision need not comply with the registration requirements in Section 20.22.090.

It is the responsibility of the owner and operator to ensure that the signs submitted as part of the inventory comply with the registration provisions. However, the city will provide an opportunity for the correction of deficiencies provided that:

1. The sign inventory is submitted in a timely manner to allow the city at least thirty days to review what has been submitted.

2. If the city finds deficiencies in any submittals, the city shall notify the owner or operator and shall provide five days for the owner or operator to correct the deficiencies.

(Ord. No. 17317, § 3, 5-4-2010; Ord. No. 17442, § 49, 10-26-2010; Ord. No. 17960, § 16, 2-19-2013)

20.18.310 Temporary subdivision kiosk signs.

A. Temporary subdivision kiosk signs shall comply with the following requirements:

1. Permit required: Yes, as per Section 20.18.100, application requirements.

2. The owner or developer of the subdivision as platted must be the applicant for a subdivision kiosk sign. A maximum of four temporary subdivision kiosk signs will be permitted for approved and recorded subdivisions with twenty-five units or less. A maximum of six temporary subdivision kiosk signs will be permitted for approved and recorded subdivisions with fifty units or less. A maximum of eight temporary subdivision kiosk signs will be permitted for approved and recorded subdivisions with fifty units or more. All temporary subdivision kiosk signs must be spaced a minimum of two hundred feet from one another.

3. Maximum sign area: Subdivision kiosk sign structures shall be ladder type with individual sign panels of one foot (H) x four feet (W) on local and collector streets and one foot (H) x eight feet (W) on major and minor arterials and freeways and shall consist of uniform background color. Temporary subdivision kiosk signs can be double-sided. The panels may be divided in half vertically.

Dimensions of the ladder sign structure shall be as follows:

a. Six feet (H) × four feet (W) when the sign is located adjacent to local streets and defined by Title 19 Subdivisions.

b. Eight feet (H) × four feet (W) when the sign is located adjacent to collector streets as defined by Title 19 Subdivisions.

c. Twelve feet (H)× eight feet (W) when the sign is located adjacent to major and minor arterials and freeway as defined by Title 19 Subdivisions.

4. Location: Temporary subdivision kiosk signs are allowed in all zoning districts but are prohibited in the special control areas listed in 20.18.250 and shall not be located on public rights of way. Temporary subdivision kiosk signs shall not obstruct city rights of way or the use of sidewalks and walkways, and shall not obstruct visibility triangles.

5. Illumination: Is permitted on major and minor arterials or freeway only as specified below:

a. Externally illuminated and must meet the dark sky ordinance.

b. Solar generated illumination is permitted.

6. Additional standards:

a. Temporary subdivision kiosk signs shall not be displayed prior to the recording of the plat.

b. All temporary subdivision kiosk signs must be removed within thirty days of the sale of the last lot to the end user in the subdivision.

c. A permit for a temporary subdivision kiosk sign may be reissued every twelve months until the last lot in the subdivision is sold to the end user.

d. The provisions of this section shall extend and apply to the City of El Paso's ETJ as per Section 20.18.020 Applicability.

7. Design standards: Signage shall be made of plywood, metal material, or other durable material, and may consist of reflective material.

8. Maintenance standards: The applicant shall comply with the maintenance standards, per Section 20.18.120, Maintenance.
(Ord. No. 18134, § 4, 3-4-2014)

20.18.320 Mobile billboards.

A. This section shall apply to mobile billboards operated within the corporate limits of the city and no permit shall be issued for a mobile billboard in the city, except as authorized by this section.

B. A person shall not operate a mobile billboard on the public right-of-way without obtaining a special privilege permit in accordance with Section 15.08.160 mobile billboards. A mobile billboard operator who obtains a special privilege permit shall abide by all requirements prescribed under the applicable standards in Section 15.08.160 mobile billboards.
(Ord. No. 19300, § 2, 2-15-2022)

Article IV. On-Premises Sign Regulations

20.18.400 General.

A. Freestanding signs (pole signs and monument signs), shall comply with the following requirements in addition to specific requirements of the zoning district in which the sign is located, provided that the most restrictive regulation shall apply:

1. Where permitted, either pole signs or monument signs, in accordance with this chapter, shall be permitted at a premise, but not both;

2. Signs shall be located at least fifteen feet measured from the curbline and shall be contained entirely within private property lines, with no encroachment over public rights-of-way;

3. Spacing from other signs: at least fifty feet from any pole or monument sign; except that a property owner may not be denied a permit for an on-premises sign solely because the sign cannot be placed to have fifty feet between it and a freestanding sign on adjacent property;

4. Spacing from billboards: at least fifty feet from any billboard located on the same property; except that a property owner may not be denied a permit for an on-premises sign solely because the sign cannot be placed to have fifty feet between it and a freestanding sign on adjacent property;

5. A minimum street frontage of twenty feet is required to permit a freestanding sign;

6. Signs shall be located a minimum of thirty feet from any residential district or apartment zoning districts;

7. If the base of a sign is located within fifty feet of a residential or apartment zoning district, monument or pole sign area shall not exceed forty square feet;

8. If the total sign area of a monument sign is eighty square feet or less, the sign structure width cannot exceed three times the height of the sign. The sign structure width for all other monument signs shall not be greater than the height of that sign.

9. A changeable electronic variable message sign is permitted on a primary monument sign or a primary pole sign in a C-1, C-2, C-3, C-4, M-1, M-2 and M-3 zoning district on a minor arterial, major arterial or higher category arterial subject to the following conditions:

a. Changeable electronic variable message signs shall be in conformance with the maximum sign area requirements of Section 20.18.400.

b. A maximum of one primary sign per premise may contain a changeable electronic variable message sign. For purposes of this section, primary sign is the sign belonging to the major or primary tenant of the commercial development. For a shopping center, the changeable electronic variable message sign shall be located on the shopping center primary monument sign only.

c. Only one changeable electronic variable message sign is permitted on each side of the primary sign with a maximum of two changeable electronic variable message signs on the primary sign.

d. Except for scrolling, rolling and animated messages, each message on a changeable electronic variable message sign shall be displayed for at least eight seconds and a change of message shall be accomplished within one second.

e. Except for scrolling rolling and animated messages, change of message on a changeable electronic variable message sign shall occur simultaneously on the entire sign face.

f. Changeable electronic variable message signs shall not contain flashing lights as part of the display. Scrolling letters are permitted, provided that they do not exceed two lines. Animated messages are allowed, provided that the image is displayed for five seconds and if the image is changed, the change of the image is accomplished within one second.

g. Changeable electronic variable message signs may be located on either side of the roadway; however, each sign must only be visible from one direction of travel.

h. A changeable electronic variable message sign must be located at least one hundred fifty feet from the property line of any adjacent residential or apartment use.

i. A changeable electronic variable message sign is not permitted if the lot or premises has a changeable electronic variable message billboard.

j. A changeable electronic variable message sign shall not be used to display commercial messages relating to products or services that are not offered on the premises. However, the sign may display any variety or combination of non-commercial messages, including but not limited to public interest items not taking place on premises such as events for schools, amber alerts, and religious institutions.

k. A changeable electronic variable message sign shall have an automatic dimmer control to produce distinct illumination change from a higher illumination level to a lower level meeting the above illumination standards for the time period between one half-hour before sunset and one half-hour after sunrise.

l. Owner responsibilities.

1) The sign owner shall provide on the sign permit contact information for a person who is

available to be contacted at any time and who is able to turn off the changeable electronic variable message sign promptly after a malfunction occurs.

2) If the development services department finds that a changeable electronic variable message has malfunctioned, the owner of the sign, within 24 hours of a written notification by the department, shall correct the malfunction or power off the sign.

3) Changeable electronic variable message signs shall display on the sign, the permit number issued by the city for the sign.

m. Maximum total sign area for signs with a changeable electronic variable message sign:

	0—29.9%	**30—34.9%**	**35—39.9%**	**40—44.9%**	**45—50%**
Primary Pole Sign and Primary Monument Sign—Freeway					
All	180	160	150	140	120
Primary Pole Sign and Primary Monument Sign—Arterial					
All	135	120	112	105	90
Shopping Center Primary Monument Sign—Freeway					
5 acres and up	405	360	337	315	270
>5 acres	315	280	262	245	210
Shopping Center Primary Monument Sign—Arterial					
1 acre and up	225	200	187	175	150
>1 acre	180	160	150	140	120

10. Changeable electronic variable message signs prior to the enactment of this ordinance. An on-premises changeable electronic variable message sign meeting the criteria below is specifically authorized by city council and specifically exempted from the provisions of this section and shall be treated as though the sign is legal nonconforming and is subject to the provisions applicable to legal nonconforming signs.

a. A city application was submitted for the sign and the sign was constructed or will be constructed in conformance with the application submitted; and

b. A city permit was issued for the sign if constructed;

c. The burden is on the sign owner to prove all of the above requirements have been met.

11. A static changeable electronic price sign is permitted on a primary monument sign or primary pole sign in a C-1, C-2, C-3, C-4, M-1, M-2 and M-3 zoning district on a minor arterial, major arterial or higher category arterial subject to the following conditions:

a. Each price digit may not exceed eighteen inches in either height or width unless the parcel is adjacent to Interstate Highway 10, U.S. Highway 54, Joe Battle Blvd. or Americas Ave. where forty-eight inch maximum height and width digits are allowed; and

b. Characters for the product being sold shall not exceed the size of the associated price digit and shall also remain static; and

c. Each separate visual image shall remain in place for a minimum of thirty seconds.

B. Exceptions for Sign Standards Due to Unique Circumstances.

1. Where topography, the unique characteristics of a particular lot (i.e. road alignment, curvature of the road, utility structures), or where the location or relationship of the lot to surrounding properties are such that the signage permitted on

the property is not adequate the Director of the City Development Department or designee may vary the limitations as to height, size, or both for proposed signs up to twenty percent of the standards in commercial (C-1, C-2, C-3, C-4), mixed use (C-OP, C-1, P-C, P-I, R-MU, G-MU and I-MU), or apartment zone (A-I, A-2, A-3, A-4, A-M, PR-I, PR-II, SRR, A-0, A-3/0 and S-D), except that variances shall not be granted for obstructions from any other off-premise or on-premise signs.

2. Procedure Requirements: Applicants seeking an exception for sign standards shall provide the following information:

a. Completed sign application and fee receipt.

b. Written request with justification for exception request.

c. Site and aerial photos documenting the unique characteristics of the lot requiring the request for this exception.

d. A three dimensional rendering of both the permitted and proposed signs from ground level from both directions of the abutting right(s)-of-way.

3. In cases where the property owner disagrees with the determination of the Director of the city development department or designee. the decision may be appealed to the city plan commission.

4. Only four signs will be granted an exception at any time on any lot or shopping center. (Ord. 17001 §§ 3, 4, 2008; Ord. 16761 § 1 (Exh. A) (part), 2007)

(Ord. 17013, §§ 3, 4, 10-14-2008; Ord. 17185, § 8, 9-1-2009; Ord. No. 17585, § 4, 6-14-2011; Ord. No. 17686, § 2, 12-6-2011; Ord. No. 18245, § 3, 9-16-2014; Ord. No. 18389, § 1, 7-21-2015; Ord. No. 18698, § 1, 6-27-2017)

20.18.405 CEVM standards for superregional shopping centers.

A. A superregional shopping center CEVMS sign is permitted as a monument sign or pole sign subject to the following conditions:

1. The property shall be zoned C-4 and located on Interstate Highway 10.

2. A maximum display face area is six hundred square feet.

3. A superregional shopping center changeable electronic variable message sign may not exceed forty-five feet in height as measured from the ground at the base of the sign.

4. A superregional shopping center CEVM sign shall be mounted on a pole that shall be encased in a structure containing architectural detail consistent with other on-site development with a base at least twenty percent of the sign width.

5. A superregional shopping center changeable electronic variable message sign is permitted only on lots that are forty acres or greater in size.

6. Only one changeable electronic variable message display is permitted on each side of the sign with a maximum of two changeable electronic variable message displays per sign.

7. Superregional shopping center changeable electronic variable message signs may be located on either side of the roadway; however, each sign must only be visible from only one direction of travel.

8. A superregional shopping center changeable electronic variable message sign shall display a static message for at least eight seconds and a change of message shall be accomplished within one second and shall occur simultaneously on the entire sign face.

9. A superregional shopping center changeable electronic variable message sign is not permitted if the lot or premises already has a changeable electronic variable message billboard or static billboard.

10. A superregional shopping center changeable electronic variable message sign shall not be used to display commercial messages relating to products or services that are not offered on the premises. However, the sign may display any variety or combination of noncommercial messages, including but not limited to public interest items not taking place on premises such as events for schools, amber alerts, and religious institutions.

11. A superregional shopping center changeable electronic variable message sign shall have an automatic dimmer control to produce distinct illumination change from a higher illumination level to a lower level meeting the above illumination standards for the time period between one half-hour before sunset and one half-hour after sunrise.

12. A superregional shopping center changeable electronic variable message sign is not permitted within 500 feet from R-F, R-1, R-2, R-2A, R-3, R-3A, R-4, R-5, P-RI, P-RII, RMH, PMD, A-1, A-2, A-3, A-4, A-M, A-3/O, A-O, R-MU, G-MU, I-MU, and SCZ zoning districts.

13. A maximum of two superregional shopping center changeable electronic variable message signs per premise shall be permitted on I-10 so long as the two signs are spaced at a distance of at least one thousand five hundred feet.

14. A superregional shopping center changeable electronic variable message sign is not permitted within a special area as defined in Section 20.18.250.

15. The Superregional shopping center changeable electronic variable message signs must be under single ownership and located on one contiguous parcel at the time of sign permit issuance.

16. If a superregional shopping center has a changeable electronic variable message sign, all monument signs shall be eight feet or less in height or less; this limit does not apply to primary or principal shopping center signs.

17. Superregional shopping centers with changeable variable message signs shall submit a comprehensive sign plan.

18. Owner responsibilities:

a. The sign owner shall provide on the sign permit contact information for a person who is available to be contacted at any time and who is able to turn off the changeable electronic variable message sign promptly after a malfunction occurs.

b. If the development services department finds that a changeable electronic variable message has malfunctioned, the owner of the sign, within twelve hours of a written notification by the department, shall correct the malfunction, cause a "full black" image to be displayed, or power off the sign.

c. Changeable electronic variable message signs shall display on the sign structure the number of the permit issued by the city for the sign. (Ord. No. 17960, § 17, 2-19-2013)

20.18.410 R-F, R-1, R-2, R-2A, R-3, R-3A, R-4, R-5, RMH, PMD, and NOS districts.

A. Home occupation signs shall comply with the following requirements:

1. Permit required: no;
2. Maximum number: one per dwelling;
3. Maximum sign area: one square foot;
4. Placement: not projecting more than two inches beyond the face of the building;
5. Illumination: not permitted;
6. Additional standards: the sign may display only onsite commercial information related to the permitted home occupation, and/or any variety or combination of non-commercial messages.

B. Identification signs shall comply with the following requirements:

1. Permit required: yes;
2. Maximum number: one wall sign or one monument sign;
3. Maximum sign area: twenty square feet;
4. Maximum sign height: five feet for a monument sign;
5. Location:

a. Minimum of three feet from top of building and sides of building for wall signs,

b. Monument signs shall be in the front yard and shall have a minimum setback of five feet from any property line, except that such setback shall be fifteen feet where the property line is located at the curbline;

6. Illumination: internal or indirect; may not be flashing or intermittent;
7. Additional standards: shall only be permitted for nonresidential uses, and are not permitted for a home occupation.

C. Monument signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number:

a. Properties less than four acres in size: one sign per street frontage, not to exceed two signs per premise;

b. Properties greater than four acres in size: two signs per street frontage;

3. Maximum sign area: one hundred square feet per sign;

4. Maximum sign height: ten feet;

5. Location: regardless of where the property line is located, no portion of the sign shall be closer than twenty feet from any driveway entrance or from the back of the curb line, and in all cases the entire sign must be erected within the property, and no portion of a sign shall extend beyond the property line;

6. Illumination: internal or indirect; may not be flashing or intermittent;

7. CEVM signs:

a. CEVM not permitted:

1) Properties zoned NOS;

2) Properties less than four acres in size;

b. Properties over four acres in size and not zoned NOS: CEVM limited to no more than fifty percent of sign area; held static for no less than one minute; CEVM shall be turned off from 9:00 p.m. to 6:00 a.m.; the sign face must be located at least one hundred fifty feet from the property line of any adjacent residential or apartment use.

8. Additional standards: shall comply with Section 20.18.400 of the El Paso City Code. (Ord. 16761 § 1 (Exh. A) (part), 2007)

(Ord. 17185, § 9, 9-1-2009; Ord. No. 17686, § 2, 12-6-2011; Ord. No. 17767, § 1, 4-17-2012; Ord. No. 18152, § 1, 4-1-2014; Ord. No. 18531, § 8, 6-28-2016; Ord. No. 18698, § 2, 6-27-2017)

20.18.420 A-1, A-2, A-3, A-4, A-M, PR-I, PR-II and SRR districts.

A. Home occupation signs shall comply with the following requirements:

1. Permit required: no;

2. Maximum number: one per dwelling;

3. Maximum sign area: one square foot;

4. Placement: not projecting more than two inches beyond the face of the building;

5. Illumination: not permitted;

6. Additional standards: shall only indicate the name and address of the occupant or a permitted home occupation.

B. Identification signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number: one wall sign or one monument sign;

3. Maximum sign area: twenty square feet;

4. Maximum height: five feet for a monument sign;

5. Location:

a. Minimum of three feet from top of building and sides of building for wall signs,

b. Monument signs shall be in the front yard and shall have a minimum setback of five feet from any property line, except that such setback shall be fifteen feet where the property line is located at the curbline;

6. Illumination: internal or indirect; may not be flashing or intermittent;

7. Additional standards: shall only be permitted for nonresidential uses or a mobile home park, and are not permitted for a home occupation.

C. Monument signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number:

a. Properties less than four acres in size: one sign per street frontage, not to exceed two signs per premise;

b. Properties greater than four acres in size: two signs per street frontage;

3. Maximum sign area: one hundred square feet per sign;

4. Maximum sign height: ten feet;

5. Location: no portion of the sign shall be closer than fifteen feet from the back of the curbline; if the property line is located more than fifteen feet

from the curbline, signs shall be erected within the property line, and no portion of a sign shall extend beyond the property line;

6. Illumination: internal or indirect; may not be flashing or intermittent;

7. Changeable electronic variable message sign:

a. Properties less than four acres in size: CEVM not permitted;

b. Properties greater than four acres in size: CEVM limited to no more than fifty percent of sign area; held static for no less than one minute; CEVM shall be turned off from 9:00 p.m. to 6:00 a.m.; and the sign face must be located at least one hundred fifty feet from the property line of any adjacent residential or apartment use;

8. Additional standards: shall comply with Section 20.18.400 of the El Paso City Code.

D. Wall signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number: one sign for each apartment complex per street frontage and public entryway, not to exceed four signs per complex;

3. Maximum sign area: eighty square feet per sign, including any canopies or awnings;

4. Location: shall not project more than eighteen inches from the face of the wall or the surface of the canopy or awning; shall be erected in such a manner that building fenestration is not obscured and the architectural integrity of the building is not altered; shall not extend beyond the edges of the structure;

5. Illumination: internal or indirect; may not be flashing or intermittent;

6. Additional standards: only permitted for apartments in A-1, A-2, A-3, A-4, A-M, PR-I, PR-II and SRR districts. (Ord. 16761 § 1 (Exh. A) (part), 2007)

(Ord. No. 18698, § 3, 6-27-2017)

20.18.430 A-O, A-3/O and S-D districts.

A. Home occupation signs shall comply with the following requirements:

1. Permit required: no;

2. Maximum number: one per dwelling;

3. Maximum sign area: one square foot;

4. Placement: not projecting more than two inches beyond the face of the building;

5. Illumination: not permitted;

6. Additional standards: shall only indicate the name and address of the occupant or a permitted home occupation.

B. Monument signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number:

a. Properties less than four acres in size: one sign per street frontage, not to exceed two signs per premise;

b. Properties greater than four acres in size: two signs per street frontage;

3. Maximum sign area: one hundred square feet per sign;

4. Maximum sign height: ten feet;

5. Location: no portion of the sign shall be closer than fifteen feet from the back of the curbline; if the property line is located more than fifteen feet from the curbline, signs shall be erected within the property line, and no portion of a sign shall extend beyond the property line;

6. Illumination: internal or indirect; may not be flashing or intermittent;

7. CEVM signs shall be allowed by right for principal uses in these zoning districts but are not permitted for home occupations; however uses other than residential shall be subject to the following:

a. Properties less than four acres in size: CEVM not permitted;

b. Properties greater than four acres in size: CEVM limited to no more than fifty percent of sign area; held static for no less than one minute; CEVM shall be turned off from 9:00 p.m. to 6:00 a.m.; and the sign face must be located at least one hundred fifty feet from the property line of any adjacent residential or apartment use.

8. Additional standards: shall comply with Section 20.18.400 of the El Paso City Code.

C. Office directory signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number: one wall sign per office building entry not to exceed two signs per building; monument sign or other freestanding sign is not permitted;

3. Maximum sign area: two and one-half square feet per tenant not to exceed twenty-five square feet per building entry;

4. Location: shall not project more than eighteen inches from the face of the wall; shall be erected in such a manner that building fenestration is not obscured and the architectural integrity of the building is not altered; shall not extend beyond the edges of the structure;

5. Illumination: internal or indirect; may not be flashing or intermittent.

D. Wall signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number: for nonresidential uses, one sign for each tenant in a single or multi-tenant facility per street frontage; for apartments, one sign for each apartment complex per street frontage and public entryway, not to exceed four signs per complex;

3. Maximum sign area: eighty square feet per sign, including any canopies or awnings;

4. Location: shall not project more than eighteen inches from the face of the wall or the surface of the canopy or awning; shall be erected in such a manner that building fenestration is not obscured and the architectural integrity of the building is not altered; shall not extend beyond the edges of the structure;

5. Illumination: internal or indirect; may not be flashing or intermittent;

6. Additional standards: only permitted for apartments and nonresidential uses in the A-O, A-3/O, and S-D districts, and are not permitted for a home occupation. (Ord. 16761 § 1 (Exh. A) (part), 2007)

(Ord. No. 17686, § 2, 12-6-2011; Ord. No. 18698, § 4, 6-27-2017)

20.18.440 C-OP, C-1, P-C, P-I, R-MU, G-MU and I-MU.

A. Monument signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number: one monument sign per street frontage, not to exceed three signs per premise;

3. Maximum sign area: eighty square feet per sign;

4. Maximum sign height: ten feet;

5. Location: no portion of the sign shall be closer than fifteen feet from the back of the curbline; if the property line is located more than fifteen feet from the curbline, signs shall be erected within the property line, and no portion of a sign shall extend beyond the property line;

6. Illumination: internal or indirect; may not be flashing or intermittent;

7. Additional standards: shall comply with Section 20.18.400 of the El Paso City Code.

B. Office directory signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number: one wall sign per office building entry not to exceed two signs per building; monument sign or other freestanding sign is not permitted;

3. Maximum sign area: two and one-half square feet per tenant not to exceed twenty-five square feet per building entry;

4. Location: shall not project more than eighteen inches from the face of the wall; shall be erected in such a manner that building fenestration is not obscured and the architectural integrity of the building is not altered; shall not extend beyond the edges of the structure;

5. Illumination: internal or indirect; may not be flashing or intermittent.

C. Wall signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number: one wall sign for each tenant in a single or multi-tenant facility per street

frontage; for apartments, one wall sign for each apartment complex per street frontage and public entryway not to exceed four signs per complex;

3. Maximum sign area: forty percent of the building facade on each elevation, including any canopies or awnings;

4. Location: shall not project more than eighteen inches from the face of the wall or the surface of the canopy or awning; shall be erected in such a manner that building fenestration is not obscured and the architectural integrity of the building is not altered;

5. Illumination: internal or indirect; may not be flashing or intermittent.

D. Perpendicular signs shall comply with the following requirements:

1. Permit required: Yes.

2. Maximum number: Two per street frontage or pedestrian right-of-way per building.

3. Buildings must have at least one-hundred feet of continuous street frontage or pedestrian right-of-way;

4. Maximum sign area: Thirty square feet;

5. Location: A nine-foot clearance shall be maintained between the bottom edge of the perpendicular sign and the ground; shall be placed perpendicular to the wall of the building and not project more than forty-six inches;

6. Shall require a special privilege license to be obtained in conjunction with sign application where the sign projects into the right-of-way.

7. Illumination: Sign may be illuminated but digital/CEVM technology is not permitted;

8. Signs shall not project into Texas Department of Transportation Right-of-Way. (Ord. 16761 § 1 (Exh. A) (part), 2007)
(Ord. No. 18245, § 4, 9-16-2014)

20.18.445 C-1 districts with special circumstances.

Properties in the C-1 zoning district that meet the following criteria shall comply with the requirements of Section 20.18.450 (C-2, C-3, C-4, Q, M-1, M-2 or M-3):

A. The property has frontage and access on a public right-of-way that is classified in the city's major thoroughfare plan (MTP) as a minor arterial or higher; and either B or C (below);

B. The property is adjacent to and abuts property zoned C-1, C-2, C-3, C-4, Q, M-1, M-2 or M-3; or

C. The property is at least one-half acre in size. (Ord. 16761 § 1 (Exh. A) (part), 2007)

20.18.450 C-2, C-3, C-4, Q, M-1, M-2 and M-3 districts.

A. Monument signs shall comply with the following requirements:

Districts	Permit Required	Maximum Number	Maximum Height	Maximum Sign Area
Primary signs in C-2, C-3, C-4, Q, M-1, M-2 and M-3 with major or super arterial frontage (See A.1-7 after Table for additional information).	Yes	One per street frontage for premises less than six acres, but not to exceed three signs per premise; Two per street frontage for premises of six acres or more, but not to exceed four signs per premise.	25 feet	150 square feet
Primary signs in C-2, C-3, C-4, Q, M-1, M-2 and M-3 with interstate or freeway frontage (See A.1-7 after Table for additional information).	Yes	One per street frontage for premises less than six acres, but not to exceed three signs per premise; Two per street frontage for premises of six acres or more, but not to exceed four signs per premise.	35 feet above ground at the sign or the pavement grade of the freeway, whichever is greater	250 square feet

Districts	Permit Required	Maximum Number	Maximum Height	Maximum Sign Area
Shopping Center primary monument signs in C-2, C-3, C-4, Q, M-1, M-2 and M-3 with arterial frontage (See A.1-7 after Table for additional information).	Yes	One per street frontage for premises less than three acres, but not to exceed three signs per premise; Two per street frontage for premises that are between three acres and ten acres, not to exceed four signs per premise; Three per street frontage for premises that are between ten acres and 20 acres, not to exceed six signs per premise; No more than six signs for premises between 20 acres and 40 acres; No more than eight signs for premises over 40 acres.	45 feet	Less than one acre 200 square feet, More than one acre 250 square feet
Shopping Center primary monument signs in C-2, C-3, C-4, Q, M-1, M-2, and M-3 with interstate or freeway frontage (See A.1-7 after Table for additional information).	Yes	One per street frontage for premises less than three acres, not to exceed three signs per premise; Two per street frontage for premises between three acres and ten acres, not to exceed four signs per premise; Three per street frontage for premises between ten acres and 20 acres, not to exceed six signs per premise; No more than six signs per premise for premises between 20 acres and 40 acres; No more than eight signs per premise for premises over 40 acres.	45 feet above ground at the sign or the pavement grade of the freeway, whichever is greater	Less than three acres, 350 square feet; More than three acres, 450 square feet
Detached buildings in shopping centers in C-2, C-3, C-4, M-1, M-2 and M-3 (See A.1-7 after Table for additional information).	Yes	One per detached building	25 feet	80 square feet
Manufacturer identification signs in C-3 and C-4, where business inventory consists of motorized vehicles for sale, some in an outdoor location that is accessible to customers.	Yes	One per licensed manufacturer	25 feet	Combined square footage of all manufacturer signs shall not exceed 300 square feet

1. Location: No portion of the sign shall be closer than fifteen feet from the back of the curbline; if the property line is located more than fifteen feet from the curbline, signs shall be erected within the property line, and no portion of a sign shall extend beyond the property line.

2. For the purposes of this section, interstate or freeway frontage is defined as Interstate Highway 10, US Highway 54, Joe Battle Boulevard, Americas Avenue, Zaragoza Road from Joe Battle Boulevard to Sun Fire Boulevard and Montana east of Geronimo. In no case shall a freeway primary monument sign exceed fifty feet in height or a shopping center primary monument sign exceed sixty feet in height.

3. For minor and collector arterials, a primary monument sign shall not exceed eighty square feet in sign area and eight feet in height.

4. For minor and collector arterials, a shopping center monument sign shall not exceed eighty square feet in sign area and twelve feet in height.

5. For detached buildings in shopping center signs, the height shall not exceed fifteen feet along major arterials and eight feet along a minor or collector arterial.

6. Illumination: Internal or indirect; may not be flashing or intermittent.

7. Additional standards: Shall comply with Section 20.18.400 of the El Paso City Code.

B. Pole signs shall comply with the following requirements:

Districts	Permit Required	Maximum Number	Maximum Height	Maximum Sign Area
Primary signs in C-2, C-3, C-4, Q, M-1, M-2 and M-3 with arterial frontage	Yes	Premises up to one acre, not more than one per premise; premises greater than one acre up to six acres, not more than one per street frontage not to exceed two per premise; premises greater than six acres, not more than two per street frontage not to exceed four per premise	25 feet	150 square feet
Primary signs in C-2, C-3, C-4, Q, M-1, M-2 and M-3 with interstate or freeway frontage	Yes	Premises up to one acre, not more than one per premise; premises greater than one acre up to six acres, not more than one per street frontage not to exceed two per premise; premises greater than six acres, not more than two per street frontage not to exceed four per premise	35 feet above ground at the sign or the pavement grade of the freeway, whichever is greater	200 square feet
Detached buildings in shopping centers in C-2, C-3, C-4, M-1, M-2 and M-3	Yes	One per detached building	25 feet	80 square feet
Manufacturer identification signs in C-3 and C-4, where business inventory consists of motorized vehicles for sale, some in an outdoor location that is accessible to customers.	Yes	One per licensed manufacturer	25 feet	Combined square footage of all manufacturer signs shall not exceed 300 square feet

1. Location: No portion of the sign shall be if the property line is located more than fifteen feet closer than fifteen feet from the back of the curbline;

from the curbline, signs shall be erected within the property line, and no portion of a sign shall extend beyond the property line.

2. For the purposes of this section, interstate or freeway frontage is defined as Interstate Highway 10, US Highway 54, Joe Battle Boulevard, and Americas Avenue only. In no case shall a freeway primary pole sign exceed fifty feet or the height.

3. For minor and collector arterials, a primary pole sign is not permitted. Only a primary monument sign is permitted and shall not exceed eighty square feet in sign area and eight feet in height.

4. For minor and collector arterials, a shopping center pole sign is not permitted. Only a shopping center monument sign is permitted and shall not exceed eighty square feet in sign area and twelve feet in height.

5. For detached buildings in shopping center signs, the sign height shall not exceed fifteen feet along major arterial. For detached buildings in shopping center signs along minor or collector arterials, a pole sign is not permitted. Only a monument sign is permitted and shall not exceed eighty square feet in sign area and eight feet in height.

6. Illumination: Internal or indirect; may not be flashing or intermittent;

7. Additional standards: Shall comply with Section 20.18.400 of the El Paso City Code.

C. Office directory signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number: one wall sign per office building entry not to exceed two signs per building; monument sign or other freestanding sign is not permitted;

3. Maximum sign area: two and one-half square feet per tenant not to exceed twenty-five square feet per building entry;

4. Location: shall not project more than eighteen inches from the face of the wall; shall be erected in such a manner that building fenestration is not obscured and the architectural integrity of the building is not altered; shall not extend beyond the edges of the structure;

5. Illumination: internal or indirect; may not be flashing or intermittent.

D. Wall signs shall comply with the following requirements:

1. Permit required: Yes;

2. Maximum number: For single-tenant facility and multi-tenant facilities, any number of wall signs are permitted, provided that the combined sign area does not exceed the maximum sign area per street frontage; for apartments, one wall sign for each apartment complex per street frontage and public entryway, not to exceed four signs per complex;

3. Maximum sign area: Forty percent of the building facade on one elevation with street frontage; twenty percent of the building facade on other elevations, except where the elevation or wall is within one hundred feet of and facing a residential, apartment zoning district, or special purpose district. The sign area shall include signage on any canopies or awnings;

4. Location: Shall not project more than eighteen inches from the face of the wall or the surface of the canopy or awning; shall be erected in such a manner that building fenestration is not obscured and the architectural integrity of the building is not altered.

5. Illumination: Internal or indirect; may not be flashing or intermittent.

E. Secondary Advertising Signs. Secondary advertising signs shall be freestanding or attached to light fixtures on private property, and shall not extend over the public right-of-way. Secondary advertising signs shall not be calculated as part of the total permitted sign area.

1. Sign Area.

a. Each secondary advertising sign shall maintain a minimum eight feet of clearance between the bottom of the sign and ground level.

b. No single secondary advertising sign shall exceed a maximum height of eight feet and width of three feet on each side of the pole.

2. Permit Required.

a. Secondary advertising signs may be used continuously so long as a valid permit has been issued and not revoked.

b. Permits shall be issued subject to installation in a manner that sign stability is ensured while in use and subject to approved engineering principles to withstand the minimum wind load requirements of the city as defined in the El Paso building code.

c. Changes in location of secondary advertising signs, even if relocated on the same property, but not including a change of the sign face, shall require a new permit.

d. Property owner's written authorization is required as part of a completed application.

3. Spacing. A secondary advertising sign must have a minimum of twenty-nine feet spacing from any other secondary advertising sign without regard to whether another secondary advertising sign has been properly permitted by the same or another business, and whether the signs are located on the same property.

4. Illumination. No additional illumination of any kind shall be permitted for the purpose of illuminating secondary advertising signs.

5. A maximum of two signs will be allowed per acre.

6. Secondary advertising sign will be allowed only in commercial zoning districts, and if seventy percent or more of the business inventory for sale is in outdoor locations that are accessible to customers.

F. Roof signs and roof-mounted signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number: one sign per street frontage for single-tenant buildings, and one sign per tenant for multi-tenant buildings;

3. Minimum building height: roof signs and roof-mounted signs shall be permitted on buildings a minimum of thirty feet in height;

4. Maximum sign area: two hundred square feet;

5. Maximum height: permitted at building height-to-sign height ratio of 3:I, with the sign not to exceed ten feet in height.

6. Location: the sign shall not extend beyond the edges of the structure;

7. Illumination: internal or indirect; may not be flashing or intermittent;

G. Perpendicular signs shall comply with the following requirements:

1. Permit required: Yes.

2. Maximum number: Two per street frontage or pedestrian right-of-way per building.

3. Buildings must have at least one-hundred feet of continuous street frontage or pedestrian right-of-way;

4. Maximum sign area: Forty square feet;

5. Location: A nine-foot clearance shall be maintained between the bottom edge of the perpendicular sign and the ground; shall be placed perpendicular to the wall of the building and not project more than forty-six inches;

6. Shall require a special privilege license to be obtained in conjunction with sign application where the sign projects into the right-of-way.

7. Illumination: Sign may be illuminated but digital/CEVM technology is not permitted;

8. Signs shall not project into Texas Department of Transportation Right-of-Way. (Ord. 16761 § 1 (Exh. A) (part), 2007)
(Ord. No. 17585, §§ 5—7, 6-14-2011; Ord. No. 17721, § 1, 2-7-2012; Ord. No. 18245, §§ 5, 6, 9-16-2014; Ord. No. 18687, § 2, 5-30-2017)

20.18.455 Shopping Center comprehensive sign plans for C-2, C-3, C-4, Q, M-1, M-2 and M-3 districts.

A. Shopping Center Comprehensive Sign Plans:

1. Shopping centers may allocate the total available square footage for all primary monument, pole, and out parcel signs permitted under this chapter according to a submitted and approved Comprehensive Sign Plan (CSP).

2. The CSP shall be reviewed by the planning division for completeness and shall not be pro-

cessed until any missing information is supplied and the applicant pays the established fee. Amendments to the sign plan shall be assessed the same fee as an original CSP.

3. Administrative approval. Comprehensive sign plans shall be reviewed and approved by the zoning administrator.

4. Comprehensive sign plans shall include the following:

a. Legal description of area proposed to be developed or metes and bounds description and amount of land included certified by a professional engineer (P.E.) or registered architect;

b. Three copies of the comprehensive sign plan, showing the boundaries of the tract proposed for development; elevations or perspective of the building; location and arrangement, use, dimensions, square footage and height of all structures; yards, setbacks (number of feet); sidewalks and curb cuts; driveways; on-site parking spaces, to include loading and unloading berths; open spaces; landscape planted areas; size, screening walls; screening of on-site parking facilities;

c. Stamp or seal and signature of a professional engineer or architect preparing plans;

d. Proof of ownership, (warranty deed, title commitment, etc.);

e. The applicant shall pay the established fee;

f. The locations, dimensions, and elevations of each sign to be located within the site.

g. A table listing each sign, its permitted size under existing zoning and standard review, and the square footage allocated to the specific sign under the comprehensive sign plan.

5. Shopping centers submitting a comprehensive sign plan shall be eligible for one additional primary monument sign to be used for no more than two anchor tenants to be identified by the property owner.

6. All signs covered by the comprehensive sign plan shall be monument signs.

7. Signs covered by the comprehensive sign plan shall not be eligible for the exceptions under 20.18.400.B.

8. If the zoning administrator does not approve an applicant's CSP, the applicant may appeal the decision to the city plan commission. The applicant must file the appeal with the zoning administrator within fifteen business days from the date of the zoning administrator's decision. The zoning administrator shall place the appeal on the city plan commission agenda to be heard by within forty-five business days from the date the appeal was received.

9. Architecturally unique primary signs not also meeting the definition of monument sign may reduce the sign base below thirty-three percent when the CSP and sign elevations demonstrate a consistent theme across all shopping center signage and where the design of the primary signs is tied to the architecture of the primary building(s) within the shopping center.

(Ord. No. 18245, § 7, 9-16-2014)

20.18.460 C-5 district.

A. Monument signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number: one monument sign per street frontage, not to exceed three signs per premise;

3. Maximum sign area: seventy-two square feet per sign; vertical dimension of the sign face shall not exceed eight feet;

4. Maximum sign height: twenty feet; except that thirty-five feet is permitted on property with arterial frontage;

5. Location: no portion of the sign shall be closer than fifteen feet from the back of the curbline; if the property line is located more than fifteen feet from the curbline, signs shall be erected within the property line, and no portion of a sign shall extend beyond the property line;

6. Illumination: internal or indirect; may not be flashing or intermittent;

7. Additional standards: shall comply with Section 20.18.400 of the El Paso City Code.

B. Office directory signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number: one wall sign per office building entry not to exceed two signs per building; monument sign or other freestanding sign is not permitted;

3. Maximum sign area: two and one-half square feet per tenant not to exceed twenty-five square feet per building entry;

4. Location: shall not project more than eighteen inches from the face of the wall; shall be erected in such a manner that building fenestration is not obscured and the architectural integrity of the building is not altered; shall not extend beyond the edges of the structure;

5. Illumination: internal or indirect; may not be flashing or intermittent.

C. Shingle signs shall comply with the following requirements:

1. Permit required: Yes.

2. Maximum number: Four per building.

3. Maximum sign area: Six square feet.

4. Location: No portion of the bottom edge of the shingle sign shall be more than two feet below the edge of the canopy; no portion of the shingle sign shall not extend beyond the edge of the canopy; shall maintain an eight-foot clearance shall be maintained between the bottom edge of the shingle sign and the ground; shall be placed perpendicular to the front wall of the building and not project more than twenty-four inches over public rights-of-way.

5. Illumination: Not permitted.

6. Additional standards: Only permitted for business identification.

7. Shingle signs are not permitted along any building face where a perpendicular sign is also present.

D. Store front signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number: one per ground floor tenant within a multi-tenant building;

3. Maximum sign area: thirty-two square feet;

4. Location: shall not project more than eighteen inches from the face of the wall; shall be erected in such a manner that building fenestration is not obscured and the architectural integrity of the building is not altered; shall not extend beyond the edges of the structure and shall only be located no higher than the ground floor level;

5. Illumination: internal or indirect; may not be flashing or intermittent;

6. Additional standards: shall be included as part of the calculation for the maximum wall sign area permitted for the building.

E. Wall signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number: no maximum;

3. Maximum sign area: no maximum;

4. Location: shall not project more than eighteen inches from the face of the wall or the surface of the canopy or awning; shall be erected in such a manner that building fenestration is not obscured and the architectural integrity of the building is not altered; shall not extend beyond the vertical edges of the structure; sign may extend beyond the roof line or parapet up to fifty percent of the total square footage of the sign. Any sign extending beyond the roof line or parapet is permitted to do so only in the case of single channel letters or logos. Rectangular traditional cases, back lit or not, may not extend beyond the roof line or parapet.

5. Illumination: internal or indirect; may not be flashing or intermittent.

F. Perpendicular signs shall comply with the following requirements:

1. Permit required: Yes;

2. Maximum number: For buildings with less than fifty feet of continuous street frontage or pedestrian right-of-way, one per street frontage. Buildings with greater than fifty feet of continuous frontage or pedestrian right-of-way may receive one additional sign per ground floor tenant.

3. Shall be permitted only on building facades fronting a public street, where no parking shall be located between the building facade and the right-of-way.

4. Maximum sign area: Twenty-five square feet.

5. Location: A ten-foot clearance shall be maintained between the bottom edge of the perpendicular sign and the ground; the sign shall not be above the second story; shall be placed perpendicular to the wall of the building and not project more than forty-six inches over public rights-of-way.

6. Sign may be illuminated but digital/CEVM technology is not permitted.

7. Additional standards: Only permitted for business identification on buildings two-stories in height or greater.

8. Shall require a special privilege license to be obtained in conjunction with sign application where the sign projects into the right-of-way.

9. The sign shall be erected or mounted in such a manner that building fenestration is not obscured, the architectural integrity of the building is not altered, and that no architectural features, shall be obscured or destroyed.

10. Signs shall not project into Texas Department of Transportation ROW.

G. Roof Signs shall comply with the following requirements:

1. Permit required: Yes.

2. Maximum number: Two per street frontage or pedestrian right-of-way per building, except that additional signs up to one per tenant may be approved by the director of city development where multiple tenants occupy the required one hundred feet of required street frontage.

3. Buildings must be street oriented and have at least one hundred feet of continuous street frontage or pedestrian right-of-way;

4. Maximum sign area: One hundred square feet per sign;

5. Illumination: Sign may be illuminated but digital/CEVM technology is not permitted;

6. Shall require a special privilege license to be obtained in conjunction with sign application where the sign encroaches into the right-of-way.

7. Signs shall not project into Texas Department of Transportation Right-of-Way. (Ord. 16761 § 1 (Exh. A) (part), 2007)

(Ord. No. 17546, §§ 2, 3, 5-3-2011; Ord. No. 18043, § 1, 7-16-2013; Ord. No. 18245, § 8, 9-16-2014; Ord. No. 18460, § 1, 1-12-2016)

20.18.465 Civic and cultural district signs.

Civic and cultural district signs are not subject to the sign regulations of the base zoning district.

1. Permit required: yes.

2. Location: these signs should be located within the boundaries of the civic and cultural district boundary as defined in Section 20.10.146.

3. Off-premises advertising shall be prohibited.

4. All CEVM displays shall be illuminated at a level no greater than 0.3 foot-candles over ambient light levels for the location and time.

5. A CEVM display shall be equipped with both a dimmer control and a photocell which automatically adjusts the display's intensity according to natural ambient light conditions.

6. The CEVM display shall contain a default mechanism to show a "full black" image, or turn the sign off in case of malfunction, or be repaired, within twelve hours of receiving a written notification from the city of a malfunction.

7. The CEVM shall not resemble or simulate any traffic control or other official signage.

8. The use of flashing, strobing lights on the CEVM or any portion of the frame or mounting structure is prohibited.

9. The sign owner shall provide on the sign permit the contact information of a person who is available at all times and who is able to turn off any changeable electronic variable message sign promptly after a malfunction occurs.

(Ord. No. 18135, § 2, 3-4-2014; Ord. No. 019578, § 5, 12-12-2023)

20.18.470 U-P district.

A. Monument signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number: one monument sign per street frontage, not to exceed two signs per premise;

3. Maximum sign area: eighty square feet;

4. Maximum sign height: ten feet;

5. Location: no portion of the sign shall be closer than fifteen feet from the back of the curbline; if the property line is located more than fifteen feet from the curbline, signs shall be erected within the property line, and no portion of a sign shall extend beyond the property line;

6. Illumination: may be directly or internally illuminated with the light source not visible from the adjacent street or public right-of-way. No flashing or intermittent illumination shall be permitted;

7. Additional standards: shall comply with the Union Plaza architectural and design guidelines; shall apply only to new construction in the U-P district.

B. Office directory signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number: one wall sign per office building entry not to exceed two signs per building;

3. Maximum sign area: two and one-half square feet per tenant not to exceed twenty-five square feet per building entry;

4. Location: shall not project more than eighteen inches from the face of the wall; shall be erected in such a manner that building fenestration is not obscured and the architectural integrity of the building is not altered; shall not extend beyond the edges of the structure;

5. Illumination: internal or indirect; may not be flashing or intermittent;

6. Additional standards: shall only be permitted as a wall sign; shall comply with the Union Plaza architectural and design guidelines; shall apply only to new construction in the U-P district.

C. Shingle signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number: four per building;

3. Maximum sign area: six square feet;

4. Location: no portion of the bottom edge of the shingle sign shall be more than two feet below the edge of the canopy; no portion of the shingle sign shall extend beyond the edge of the canopy; an eight-foot clearance shall be maintained between the bottom edge of the shingle and the ground; shall be placed perpendicular to the front wall of the building and not project more than twenty-four inches over public rights-of-way;

5. Illumination: not permitted;

6. Additional standards: shall comply with the Union Plaza Architectural and Design Guidelines.

D. Wall signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number: one sign per street frontage for single-tenant buildings, and one sign per tenant for multi-tenant buildings;

3. Maximum sign area: ten percent of the building facade for single-tenant buildings on each elevation, including any canopies or awnings. For multi-tenant buildings, the sum total area of all signs shall not exceed ten percent of the building facade on each elevation, including any canopies or awnings.

4. Location: shall not project more than eighteen inches from the face of the wall or the surface of the canopy or awning; shall be erected in such a manner that building fenestration is not obscured and the architectural integrity of the building is not altered; shall not extend beyond the vertical edges of the structure; sign may extend beyond the roof line or parapet up to 50 percent of the total square footage of the sign. Any sign extending beyond the roof line or parapet is permitted to do so only in the case of single channel letters or logos. Rectangular traditional cases back lit or not, may not extend beyond the roof line or parapet.

5. Illumination: internal or indirect; may not be flashing or intermittent;

6. Additional standards: shall comply with the Union Plaza Architectural and Design Guidelines; shall apply only to new construction in the U-P district.

E. Perpendicular signs shall comply with the following requirements:

1. Permit required: Yes;

2. Maximum number: One per street frontage or pedestrian right-of-way per building. Buildings must have at least ninety feet of continuous street frontage or pedestrian right-of-way and must be at least two stories in height;

3. Shall be permitted only on building facades fronting public rights-of-way, where no parking shall be located between the building facade and the right-of-way;

4. Maximum sign area: Twenty-five square feet;

5. Location: A ten-foot clearance shall be maintained between the bottom edge of the perpendicular sign and the ground; the sign shall not be above the second story; shall be placed perpendicular to the wall of the building and not project more than forty-six inches over public rights-of-way;

6. Illumination: Sign may be illuminated but digital/CEVM technology is not permitted;

7. Additional standards: Only permitted for business identification.

8. Shall require a special privilege license to be obtained in conjunction with sign application where the sign projects into the right-of-way.

9. The sign shall be erected or mounted in such a manner that building fenestration is not obscured, the architectural integrity of the building is not altered, and that no architectural features, historic fabric, fine ornaments, or distinctive or unique carvings shall be obscured, damaged, altered or destroyed, unless otherwise approved by the El Paso Historic Landmark Commission.

10. Signs shall not project into Texas Department of Transportation Right-of-Way. (Ord. 16909 § 1 (part), 2008; Ord. 16761 § 1 (Exh. A) (part), 2007)

(Ord. No. 18043, §§ 2, 3, 7-16-2013)

20.18.480 Historic overlay zones, historic districts and designated significant landmarks.

A. Home occupation signs shall comply with the following requirements:

1. Permit required: no;

2. Maximum number: one per dwelling;

3. Maximum sign area: one square foot;

4. Placement: no portion of the sign shall project more than two inches beyond the face of the building;

5. Illumination: not permitted;

6. Additional standards: shall only indicate the name and address of the occupant or a permitted home occupation.

B. Monument signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number: one monument sign per premise;

3. Maximum sign area: thirty square feet in C-1, C-2, C-3, C-4, C-5, Q, M-1, M-2, M-3, G-MU and I-MU districts; ten square feet in all other districts;

4. Maximum sign height: three feet in all districts, except six feet in C-1, C-2, C-3, C-4, C-5, Q, M-1, M-2, M-3, G-MU and I-MU districts;

5. Location: no portion of the sign shall be closer than fifteen feet from the back of the curbline; if the property line is located more than fifteen feet from the curbline, signs shall be erected within the property line, and no portion of a sign shall extend beyond the property line;

6. Illumination: indirect only; may not be flashing or intermittent;

7. Additional standards: the sign may display only onsite commercial information related to the permitted home occupation, and/or any variety or combination of non-commercial messages.

C. Wall signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number: one sign for each street frontage per landmark structure or site for single-tenant buildings and one sign for each storefront for multi-tenant buildings;

3. Maximum sign area: thirty square feet in C-1, C-2, C-3, C-4, C-5, Q, M-1, M-2, M-3, G-MU and I-MU districts; ten square feet in all other districts.

4. Location: shall not project more than eighteen inches from the face of the wall or the surface of the canopy or awning; shall be erected in such a manner that building fenestration is not obscured and the architectural integrity of the building is not altered; shall not extend beyond the edges of the structure; shall not be higher than the window sill of the second story, shall be a minimum of three feet from the top and sides of the building; shall not cover any character defining architectural features or elements;

5. Illumination: indirect only; may not be flashing or intermittent;

6. Additional standards: shall only be for a nonresidential use, and are not permitted for a home occupation; administrative review approval is required from the development services department in accordance with Chapter 20.20 (Historic Landmark Preservation) prior to the issuance of a permit.

D. Perpendicular signs shall comply with the following requirements:

1. Permit required: Yes.

2. Maximum number: One per street frontage or pedestrian right-of-way per building. Buildings must have at least ninety feet of continuous street frontage or pedestrian right-of-way and must be at least two stories in height.

3. Shall be permitted only on building facades fronting a public street, where no parking shall be located between the building facade and the right-of-way.

4. Maximum sign area: Twenty-five square feet.

5. Location: A ten-foot clearance shall be maintained between the bottom edge of the perpendicular sign and the ground; the sign shall not be above the second story; shall be placed perpendicular to the wall of the building and not project more than forty-six inches over public rights-of-way.

6. Sign may be illuminated but digital/CEVM technology is not permitted.

7. Additional standards: Only permitted for business identification.

8. Shall require a special privilege license to be obtained in conjunction with sign application where the sign projects into the right-of-way.

9. The sign shall be erected or mounted in such a manner that building fenestration is not obscured, the architectural integrity of the building is not altered, and that no architectural features, historic fabric, fine ornaments, or distinctive or unique carvings shall be obscured, damaged, altered or destroyed, unless otherwise approved by the El Paso Historic Landmark Commission.

10. Signs shall not project into Texas Department of Transportation ROW.

E. All signs are subject to review by the El Paso Historic Landmark Commission for a certificate of appropriateness.

F. For performing arts centers and related buildings located in the C-5/H district (Central Business District/Historic):

The historic landmark commission shall have the authority to issue a certificate of appropriateness for signage, including, but not limited to, marquees, wall signs, perpendicular signs, and poster boxes exceeding thirty square feet and made of materials that complement the style of the structure and attributed to the era in which the building was constructed based on the historic character and architectural significance of the building.

G. For buildings within the C-5/H district (Central Business District/Historic) and within the boundary of the El Paso Downtown 2015 Plan where the purpose will serve a greater public good, further specific redevelopment goals outlined in the 2015 Plan and contribute to the economic redevelopment of the downtown area:

The historic landmark commission shall have authority to issue a certificate of appropriateness

for wall signs exceeding thirty square feet, to a maximum of five percent of the face area of the elevation of the building on which the sign is to be placed, and for location of wall signs higher than the window sill of the second story. Any such sign shall be made of materials that complement the style of the structure and attributed to the era in which the building was constructed based on the historic character and architectural significance of the building. (Ord. 16909 § 1 (part), 2008; Ord. 16761 § 1 (Exh. A) (part), 2007)
(Ord. 17185, § 10, 9-1-2009; Ord. No. 17546, § 4, 5-3-2011)

20.18.490 Additional on-premises signs.

A. Auxiliary signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number: four;

3. Maximum sign area: ten square feet per sign;

4. Maximum sign height: three feet for freestanding auxiliary signs;

5. Location:

a. Freestanding auxiliary signs, no portion of the sign shall be closer than fifteen feet from the back of the curbline; if the property line is located more than fifteen feet from the curbline, signs shall be erected within the property line, and no portion of a sign shall extend beyond the property line,

b. Wall auxiliary signs, no portion shall not project more than eighteen inches from the face of the wall or the surface of the canopy or awning; shall be erected in such a manner that building fenestration is not obscured and the architectural integrity of the building is not altered; shall not extend beyond the edges of the structure;

6. Illumination: not permitted.

B. Awning and canopy signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number: one per awning or canopy per premise;

3. Maximum sign area: shall be included in the maximum wall sign area calculation permitted for all wall signs, thirty-six square feet or fifty percent of the awning face area, whichever is less;

4. Maximum height: not higher than the roofline of the building to which the awning or canopy is attached;

5. Location: sign shall be mounted upon or atop the associated canopy or awning;

6. Illumination: internal or indirect; may not be flashing or intermittent;

7. Permitted districts: only permitted in U-P or C-5 districts and for gasoline stations where permitted; tenants in the C-5 district are permitted a storefront sign or awning and canopy sign, but not both.

C. Building marker signs shall comply with the following requirements:

1. Permit required: no;

2. Maximum number: one per building;

3. Maximum sign area: two square feet;

4. Maximum sign height: two feet;

5. Location: no portion of the sign shall project more than two inches beyond the face of the building;

6. Illumination: indirect;

7. Permitted districts: all.

D. Community service signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number: two per street frontage, not to exceed four per premise;

3. Maximum sign area: thirty-two square feet;

4. Maximum sign height: eight feet;

5. Location: on walls, fences or freestanding signs, and no portion of the sign shall extend beyond the property line;

6. Illumination: not permitted;

7. Permitted districts: all;

8. Additional standards: not more than twenty percent of sign area may include advertising of the name, logo, phone number or address of the sponsoring company; a minimum of twenty feet spacing from any other monument or freestanding sign.

E. Marquee signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number: one per street frontage;

3. Maximum sign area: shall be included in the maximum wall sign area calculation permitted for all wall signs;

4. Location: attached to the building, and if extends onto city property or city rights-of-way as authorized by a special privilege license or as otherwise authorized by the city;

5. Illumination: internal or indirect; may not be flashing or intermittent;

6. Permitted districts: commercial districts.

F. Subdivision identification signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number: two per subdivision entrance;

3. Maximum sign area: fifty square feet per sign;

4. Maximum sign height: five feet;

5. Location: the location of subdivision identification signs shall be subject to the approval of the building official; no portion of a subdivision identification sign shall be within a public right-of-way or public easement, except where authorized by special privilege license granted by city council; a copy of the restrictive covenants or other documentation, recorded in the El Paso County real property records, shall be submitted with the sign application which creates a neighborhood association or other entity which shall provide for the perpetual maintenance of the sign if proposed to be located within a public right-of-way or public easement, or imposes a duty of maintenance of the sign on the property owner on which the sign is located;

6. Illumination: internal or indirect, may not be flashing or intermittent;

7. Additional standards: shall only be a monument sign and only include the name, logo or other identification of the subdivision.

G. Menu signs shall comply with the following requirements:

1. Permit required: no, if installed and inspected with the installation of additional signage on the property. A permit is required if the only signed installed on the property is the menu sign;

2. Maximum number: two;

3. Maximum sign area: thirty-two square feet per sign;

4. Maximum sign height: eight feet;

5. Location: The location of the menu sign shall be subject to the approval of the building official based on building code requirements, safety and traffic flow considerations; however, the sign is strictly for on-site informational purposes and, therefore, shall be oriented so as to not be readable from the fronting public street. (Ord. 16761 § 1 (Exh. A) (part), 2007)
(Ord. 17185, § 11, 9-1-2009; Ord. No. 18698, § 5, 6-27-2017)

20.18.500 Temporary on-premises signs.

A. Temporary real estate signs shall comply with the following requirements:

1. Permit required: no;

2. Maximum number: no maximum, a minimum of fifty feet is required between each sign;

3. Maximum sign area: thirty-two square feet for C-1, C-2, C-3, C-4, C-5, Q, M-1, M-2 and M-3 districts; six square feet for all other districts, exclusive of two riders not in excess of an area of six inches by thirty inches each;

4. Maximum sign height: ten feet for C-1, C-2, C-3, C-4, C-5, Q, M-1, M-2 and M-3 districts; six feet for all other districts;

5. Location: not less than three feet from public property and not less than thirteen feet from the curb;

6. Illumination: not permitted;

7. Permitted districts: all;

8. Additional standards: shall only be for the purposes of sale, lease or rent of the property; shall be removed within fourteen days of sale or lease.

B. Temporary construction signs shall comply with the following requirements:

1. Permit required: no;

2. Maximum number: one sign per street frontage, not to exceed two signs per premise;

3. Maximum sign area: sixty-four square feet for C-1, C-2, C-3, C-4, C-5, Q, M-1, M-2 and M-3 districts; thirty-two square feet for all other districts;

4. Maximum sign height: sixteen feet for C-1, C-2, C-3, C-4, C-5, Q, M-1, M-2 and M-3 districts; eight feet for all other districts;

5. Location: not less than three feet from public property and not less than thirteen feet from the curb;

6. Illumination: not permitted;

7. Permitted districts: all;

8. Additional standards: only permitted at construction sites and must be removed within thirty days after the issuance of a certificate of occupancy for the last permit of the project on the same property.

C. Temporary portable signs shall comply with the following requirements:

1. Permit required: yes;

2. Maximum number: one per premises for property less that one acre; two per premises for property one acre to five acres; three signs per premises for property greater than five acres;

3. Maximum sign height: seven feet for C-1, C-2, C-3, C-4, Q, M-1, M-2 and M-3 districts;

4. Location: no portion of the sign shall be closer than fifteen feet from the back of the curbline; if the property line is located more than fifteen feet from the curbline, signs shall be erected within the property line, and no portion of a sign shall extend beyond the property line; on corner lots, portable signs shall not be located in the area of a triangle formed by the intersecting property lines and a diagonal line joining the property lines at points twenty feet from their intersection;

5. Illumination: not permitted;

6. Permitted districts: C-1, C-2, C-3, C-4, Q, M-1, M-2 and M-3 districts; not permitted on property within historic overlay zones, historic districts or with designated significant landmarks;

7. Additional standards: portable signs shall comply with the following:

a. Maximum duration of a display at any one time shall be limited to three hundred sixty-five consecutive days,

b. Minimum of thirty days between permitted displays,

c. Portable signs shall be placed a minimum of fifteen feet from any driveway,

d. Portable signs shall be placed a minimum of three hundred feet spacing from any other portable sign,

e. Portable signs may be placed immediately adjacent to or not closer than fifty feet away from any freestanding sign,

f. Property owner's name and written evidence that the property owner has authorized the placing of the sign(s) on his property.

D. Temporary banner signs shall comply with the following requirements:

1. Permit required: no;

2. Maximum number: one sign for each tenant in a single- or multi-tenant facility per street frontage; for apartments, one sign for each apartment complex per street frontage and public entryway not to exceed four signs per complex;

3. Maximum sign area: one hundred square feet which is included in the maximum wall sign area calculation permitted for all wall signs;

4. Location: shall be securely attached to a building facade, masonry wall, or fence; shall be erected in such a manner that building fenestration is not obscured and the architectural integrity of the building is not altered; shall not extend beyond the edges of the structure no portion shall extend beyond the roof plane or outside the building envelope when attached to a building;

5. Illumination: not permitted;

6. Permitted districts: C-1, C-2, C-3, C-4, C-5, Q, M-1, M-2 and M-3; only for apartments in A-1, A-2, A-3, A-4, A-O, A-3/O, A-M, PR-I, PR-II and

SRR districts; not permitted on property within historic overlay zones, historic districts or with designated significant landmarks;

7. Additional standards: limited to thirty days only with a minimum of thirty days between displays; shall only be for the purposes of grand openings or other types of special events on the property;

E. Temporary inflatable signs:

1. Shall be installed by a licensed business as provided under Title 5 (Business, Taxes, Licenses and Regulations);

2. Shall require business to apply, obtain and pay for a sign permit for each display;

3. A display shall be for a prescribed time period using the same device at a designated location on a lot;

4. Maximum of one sign per lot at any one time;

5. Limited to property zoned C-1 (commercial), C-2 (commercial), C-3 (commercial), C-4 (commercial), M-1 (light manufacturing), M-2 (heavy manufacturing) and M-3 (unrestricted manufacturing);

6. Height of sign shall be limited to no more than the height permitted for freestanding signs on the lot;

7. Sign to be displayed for a cumulative total of no more than one hundred twenty days during any one calendar year;

8. Maximum duration of a display at any one time shall be limited to thirty consecutive days;

9. Minimum of seven days between permitted displays;

10. Location of sign shall not restrict traffic visibility onto any portion of the street frontage;

11. No sign shall be located within twenty-five feet of any high voltage electrical overhead conductor (power line);

12. Sign shall be properly secured to its moorings and other anchoring devices in accordance with applicable provisions of the Recommended Industry Minimum Standards outlined by the Inflatable Advertising Dealers Association as determined by the building official;

13. Sign shall not block any interior trapdoor or scuttle cover that leads to the roof of a building, block any ingress into the building, obstruct any fire lane or fire protection apparatus, including but not limited to, fire hydrants and other fire protection connections.

F. Temporary active motion inflatable signs:

1. Permit: no;

2. Maximum of four signs per lot at any one time;

3. Signs shall be properly maintained in a safe condition at all times without ripping, tearing or other holes;

4. Sign shall be properly secured to its moorings and other anchoring devices in accordance with applicable provisions of the Recommended Industry Minimum Standards outlined by the Inflatable Advertising Dealers Association as determined by the building official; and

5. Sign shall not block any interior trapdoor or scuttle cover that leads to the roof of a building, block any ingress into the building, obstruct any fire lane or fire protection apparatus, including, but not limited to, fire hydrants and other fire protection connections.

G. Temporary real estate banner signs. Temporary real estate banner signs shall comply with the following requirements:

1. Permit required: No;

2. Maximum number: One sign per street frontage:

3. Maximum sign area: One hundred square feet which is included in the maximum wall sign area calculation permitted for all wall signs;

4. Location: Shall be securely attached to a building facade, shall be erected in such a manner that building fenestration is not obscured and the architectural integrity of the building is not altered; shall not extend beyond the edges of the structure no portion shall extend beyond the roof plane or outside the building envelope;

5. Illumination: Not permitted;

6. Permitted districts: C-1, C-2, C-3, C-4, C-5, Q, M-1, M-2 and M-3; only for apartments in A-1, A-2, A-3, A-4, A-O, A-3/O, A-M, PR-I, PR-II and

SRR districts; not permitted on property within historic overlay zones, historic districts or with designated significant landmarks. (Ord. 16761 § 1 (Exh. A) (part), 2007)
(Ord. No. 17686, § 2, 12-6-2011; Ord. No. 18134, § 5, 3-4-2014)

Article V. Noncommercial Sign Regulations

20.18.510 Noncommercial messages and message substitution.

A. Message substitution. A noncommercial message which is within the protection of the First Amendment to the U.S. Constitution may be substituted, in whole or in part, for any message on any sign authorized by this chapter. Message substitution is a continuing right which may be exercised any number of times. No permit is required for such message substitution, unless there is a change in the physical structure of the sign displaying the message. This provision does not authorize the substitution of an offsite commercial message in place of an onsite commercial message.

B. Noncommercial messages. In addition to the noncommercial messages which may be displayed by message substitution, any noncommercial message within the protection of the First Amendment to the U.S. Constitution may be displayed on any parcel and at any time, subject to the following:

a. Maximum area cannot be greater than thirty-six square feet; and

b. Cannot be more than eight feet high; and,

c. Cannot be illuminated or have moving elements; and,

d. Are not prohibited by Section 20.18.140.

e. Permit required only when the sign qualifies as a "structure" under the building code.
(Ord. 17185, § 12, 9-1-2009; Ord. No. 17686, § 2, 12-6-2011)

Chapter 20.20

HISTORIC LANDMARK PRESERVATION

Sections:

20.20.010 Declaration of policy.

20.20.020 Definitions.

20.20.030 Administration of the historic preservation program.

20.20.040 Procedure for designation of historic landmarks and districts.

20.20.050 Historic landmarks designation criteria.

20.20.060 Acquisition of historic landmarks.

20.20.070 Historic landmark recognition.

20.20.080 Alterations and changes to landmarks and H-overlay properties.

20.20.090 Modification of certificate of appropriateness.

20.20.100 Economic hardship application procedure.

20.20.110 Enforcement.

20.20.120 Historic landmark demolition or removal.

20.20.130 Prevention of demolition by neglect.

20.20.140 Penalty for demolition or alteration without a permit.

20.20.150 Ad valorem tax incentives for historic properties.

20.20.160 Notice.

20.20.170 Severability.

20.20.180 Zoning board of adjustment.

20.20.190 Appeal to the city council.

20.20.010 Declaration of policy.

A. The city council finds and declares as a matter of public policy that the protection, enhancement, preservation and use of historic landmarks is a public necessity and is required in the interest of the culture, prosperity, education, safety and general welfare of the people. The purposes of this chapter include the following but are not limited to:

B. To protect, enhance and perpetuate historic landmarks which represent or reflect distinctive and important elements of the city's, region's, state's or nation's architectural, archaeological, cultural, social, economic, ethnic and political history and to develop appropriate settings for such places;

C. To safeguard the city's historic and cultural heritage, as embodied and reflected in such historic landmarks by appropriate regulations;

D. To stabilize and improve property values in such locations;

E. To foster civic pride in the beauty and accomplishments of the past;

F. To protect and enhance the city's attractions to tourists and visitors and provide incidental support and stimulus to business and industry;

G. To strengthen the economy of the city;

H. To promote the use of historic landmarks for the culture, prosperity, education and general welfare of the people of the city and visitors to the city;

I. To prevent the uprooting of architectural products of distinct periods, which may occur without regard to the feasibility of preserving and continuing the use of such landmarks, and without consideration of the irreplaceable loss to the people of the city of the cultural, historic and aesthetic values represented by such landmarks. (Ord. 16653 § 2 (part), 2007)

20.20.020 Definitions.

A. In addition to the definitions of Chapter 20.02, the following definitions apply only to this chapter of the code, and control if in conflict with Chapter 20.02.

1. "Addition" means a completely new structure or new component to an existing structure.

2. "Administrative review" means the approval process by which the historic preservation officer (HPO) or his designee administratively ap-

proves or denies submitted applications in accordance with the Administrative Review Design Guidelines.

3. "Alteration" means any construction or change of the exterior of a building, site or structure including, but not limited to, the erection, construction, reconstruction or removal of any structure or of an interior space designated as a landmark. Alteration shall include, but not be limited to, the changing of roofing or siding materials; changing, eliminating or adding doors, door frames, windows, window frames, shutters, fences, railings, porches, balconies, signs or other ornamentation; the changing of paint color; re-grading; fill; imploding or other use of dynamite. Alteration shall not include ordinary repair and maintenance.

a. "Alteration, major" an alteration shall be deemed to be major if it is the kind of work, which is customarily done with the aid of plans or specifications.

b. "Alteration, minor" an alteration shall be deemed to be "minor" if it is the kind of work which is customarily done without the aid of plans and which would not substantially change the external appearance of the building, site, or structure, and if new material added does not exceed one hundred square feet of floor area.

4. "Appurtenance" means any accessory or subordinate building, object or structure, fence, street furniture, fixture, vending machine, fountain or artwork, located on the grounds of an historic landmark or in an historic district.

5. "Archaeology" means the science or study of the material remains of past life or activities and the physical site or context in which they are found.

6. "Architectural style" means the architectural character and general composition of a structure, including but not limited to, the kind, color and texture of the building material and the type, design and character of all windows, door, light fixtures, signs and appurtenant elements.

7. "Area" means a specific geographic division of the City of El Paso.

8. "Building" means a structure created to shelter people or things, such as a house, barn, church, hotel, warehouse or similar structure, including a historically related complex, such as a courthouse and jail or a house and barn.

9. "Cemetery" means any site, as defined by Texas statute, which contains at least one burial, marked or previously marked, dedicated to and used or intended to be used for the permanent interment of the human dead, to include perpetual care and non-perpetual care cemeteries.

10. "Certificate of appropriateness" means the certificate issued by the historic landmark commission after review of a submitted application, and it is determined that the proposed project is appropriate for the historic district for which it is requested. It is not considered or defined as a building permit.

11. "Character-defining architectural element" means a distinctive architectural feature, quality, or combination thereof, that distinguishes one structure from another or which is unique to that structure.

12. "Cluster" means a group of cultural resources with compatible buildings, objects or structures geographically or thematically relating to and reinforcing one another through design, setting, materials, workmanship, congruency and association.

13. "Construction" means the act of adding new material to an existing building, structure or site.

14. "Contributing property" means a building, object, site or structure, in an historic district or "cluster" that contributes to the district's or cluster's historical significance through location, design, setting, materials, workmanship, and/or association.

15. "Cultural" means the quality in a society that arises from an interest in or an acquaintance with what is generally regarded as excellence in arts, literature, architecture, manners, or scholarly pursuits and/or the socially transmitted behavior patterns, arts, beliefs, institutions, and all other

products of human work that are considered as the expression of a particular period, class, community or population.

16. "Cultural resources" means districts, sites, or structures that possess integrity of location, design, setting, materials, workmanship, congruency, and association in such a way that they are symbolic of excellence in North American, Texas, or El Paso history, architecture, archeology or culture.

17. "Demolition" means any act or process that destroys, razes, or permanently impairs the structural integrity, in whole or in part, of any mobile or immobile structure governed by this chapter.

18. "Design guidelines" means the written standards adopted by the city council which are intended to provide guidelines to the historic landmark commission and historic preservation officer to govern construction to preserve the historic, cultural and architectural character of an area or of a building, object, site or structure.

19. "Economic return" means a financial profit or capital appreciation from use or ownership of a building, object, site or structure.

20. "Effect" means a change in the quality of the historical, architectural, archaeological, or cultural significance of a resource, or in the characteristics that qualify the resource as historically important.

21. "Effect, adverse" means a negative change in the quality of the historical, architectural, archaeological or cultural significance of a resource, or in the characteristics that qualify the resource as historically important.

22. "Enclosure" refers to fences, walls or other physical features used to contain open space or provide privacy.

23. "Historic district" means an area designated by city council, state or federal authority and which contains within definable geographic boundaries one or more "H-overlay" properties or clusters, including their accessory buildings, fences and other appurtenances, and natural resources having historical, cultural and archaeological significance, and which may have within its boundaries other noncontributing buildings or structures.

24. "Historic interiors" means an architecturally or historically significant interior space which remains substantially intact in terms of: (1) original configuration, (2) original volume, and/or (3) original architectural ornamentation and decoration; which exhibit surviving original historical finishes or has the potential for accurate restoration of such finishes; and which is open, to be used by, or may be used by the public.

25. "Historic landmark" also referred to as an "H-overlay" property, means those buildings, objects, sites or structures of historical, cultural, architectural or archaeological importance and whose demolition or destruction would constitute an irreplaceable loss to the quality and character of El Paso; certain inventoried interior spaces which are accessible to the public; such buildings, objects, sites or structures, their appurtenances, and the property which they are located, having been so designated by city council.

26. "Historic landmark commission ("HLC")" the commission appointed by the mayor and city council to assist in the preparation of the city's historic preservation plan, to create and review guidelines for historic districts, to review and approve, approve with conditions or deny applications relating to historic properties and to perform other functions as delineated in Title 2.

27. "Historic preservation program" city program under the direction of the city manager's office to encourage historic preservation through education, advocacy and incentives, and to oversee the application and enforcement process for historic properties.

28. "Historic preservation officer ("HPO")" means the person or persons designated by the city manager for the City of El Paso to coordinate the historic preservation program; to review and administratively approve applications, refer violations as appropriate to the enforcement authorities and provide administrative staff support to the historic landmark commission. The HPO will

coordinate the development and implementation of the historic preservation plan and the city's efforts to encourage participation in the plan.

29. "Historic preservation plan" is a supplement to the plan for El Paso relating to the preservation of historic properties.

30. "Intrusion" means a building, object, site or structure which detracts from a district's or cluster's historical significance because of its incompatibility with the district's or cluster's sense of time, place, and historical development; or its incompatibility of scale, materials, texture or color, whose integrity has been irretrievably lost; or whose physical deterioration or damage makes it infeasible to rehabilitate.

31. "Inventory" means a systematic listing of cultural, historical, architectural or archaeological resources prepared by a city, state or federal government, following standards set forth by federal, state and city regulations for evaluation of cultural properties.

32. "Landscape architectural feature" means the general arrangement of grounds including, but not limited to, the topographic grade water pooling and runoff, types and sites of plant materials, type and sites of surface materials such as decorative bark, rock, stone, gravel, concrete asphalt, brick, and the types and sites of constructions not otherwise deemed to be structures per se, such as fences, retaining walls, decks and other miscellaneous fixtures.

33. "Minor modification" means a change or changes to an approved application that is in substantial conformity with the approved plans and application.

34. "National register" means the national register of historic places maintained by the secretary of the interior.

35. "National historic landmark" means a historic property that the Secretary of the Interior has designated a national historic landmark.

36. "Noncontributing property" means a building, object, site or structure in an historic district which does not contribute to the district's or cluster's historical significance through location, design, setting, material, workmanship, feeling and association, but due to its proximity to historic landmarks and contributing properties, has the potential to affect the character of the historic district or cluster that it is located within.

37. "Object" means a material thing of functional, aesthetic, cultural, historical, archaeological or scientific value that may be, by nature or design, movable yet related to a specific setting or environment.

38. "Ordinary repair and maintenance" means any work, the purpose and effect of which is to correct or prevent any deterioration or decay of or damage to a building, object or structure or any part thereof and to restore same, as nearly as may be practicable, to its condition prior to such deterioration, decay or damage, using the same materials or those materials which are, in appearance, as close as possible to the original.

39. "Reconstruction" means the act or process of reassembling, reproducing or replacing by new construction, the form, detail and appearance of a destroyed or vanished property and its setting as it appeared at a particular period of time by means of the removal of later workmanship, or by the replacement of missing earlier work, or by reuse of original materials.

40. "Rehabilitation" means the act or process of returning a building, object, site or structure to a state of utility through repair, remodeling or alteration that makes possible an efficient contemporary use while preserving those portions or features of the building, object, site or structure that are significant to its historical, architectural and cultural values.

41. "Relocation" means any change of the location of a building, object or structure in its present setting to another setting.

42. "Resource" means a source or collection of buildings, objects, sites, structures or areas that exemplify the cultural, social, economic, political, archaeological or architectural history of the nation, state or city.

43. "Restoration" means the act or process of accurately recovering the form and details of a

building, object, site or structure and its setting as it appeared at a particular period of time by means of the removal of later work or by the repair or replacement of missing earlier work.

44. "Significant historic landmark" means:

a. Those buildings, objects, sites, site improvements, appurtenances or structures of the highest and most unique historical, cultural, architectural or archaeological importance whose demolition or destruction would constitute an irreplaceable loss to the quality and character of El Paso;

b. Inventoried interior spaces designed or intended to be occupied as part of the structure and which are accessible to the public; and

c. Significant historic landmarks are also referred to as landmarks in this chapter.

45. "Site" means the location of a significant event, a prehistoric or historic occupation or activity, or a building, structure or cluster, whether standing, ruined or vanished, where the location itself maintains historical or archaeological value regardless of the value of any existing structure.

46. "Stabilization" means the act or process of applying measures designed to reestablish a weather-resistant enclosure or the structural stability of an unsafe or deteriorated building, object, site or structure while maintaining the essential form as it exists at present.

47. "Substantial conformity" means the revisions to approved applications that do not significantly alter the historic character or alter additional physical elements of the structure as approved in the original application.

48. "Thematic group" means a finite group of resources related to one another in a clearly distinguishable way, by association with a single historic person, event or developmental force, as one building type, design or use, as designed by a single architect, as a single archaeological site form, or as a particular set of archaeological research.

49. "Unreasonable economic hardship" means an economic burden imposed upon the owner which is unduly excessive and prevents a realization of a reasonable rate of return upon the value of his property.

50. "Vista" means a view through or along a right-of-way opening, including those along the river's banks, which, as a view corridor, frames, highlights or accentuates a prominent building, object, site, structure, scene or panorama, or patterns or rhythms of buildings, objects, site or structures; to include views of areas at a distance, such as a remote view of the downtown or the mountains.

51. "Zone" means a designated area, within an historic district, which is unique in character, tone, theme, architecture, and/or culture. A district may be divided into zones, to assist property owners and the HLC in structuring design guidelines and further evaluating applications for certificates of appropriateness. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17442, § 50, 10-26-2010)

20.20.030 Administration of the historic preservation program.

The historic preservation program will be administered under the direction of the city manager's office including appropriate staffing and administrative support of the program subject to budget appropriations approved and authorized by the city council. (Ord. 16653 § 2 (part), 2007)

20.20.040 Procedure for designation of historic landmarks and districts.

A. The city council may designate buildings, structures, sites, districts, areas and lands in the city as historic landmarks and define, amend and delineate the boundaries thereof. Requests for designation may be made by the city council, HLC or by the public on a form or zoning application obtained from the city. Completed request forms shall be returned to the city for processing. All designations must meet all requirements under Section 211.0165 of the Texas Local Government Code, as amended from time to time, or subsequent Texas statute replacing Section 211.0165 of the Texas Local Government Code.

B. The HLC shall review and forward any recommendations to the city plan commission

within forty-five days, to be forwarded to the city council for final action. In the event the HLC does not recommend an applicant's request for designation of a resource the applicant may petition the city plan commission for a hearing, following procedures set forth in Chapter 2.08 of this Code.

C. The HLC shall hold a public hearing on all proposed ordinances relating to historic properties. Notice shall be given as required by Section 211.007, Texas Local Government Code.

D. The designation of an historic landmark or historic district may be amended or removed using the same procedure provided in this section for the original designation.

E. The suffix "H" shall appear after the zoning designation of those buildings, structures, sites, districts, areas and lands which the city council designates as historical landmarks, and shall be reflected on the zoning map. Such designation shall be in addition to any other designation established under this title. Use of classifications as to all property which may be included by a historic landmark designation shall continue to be governed by the comprehensive zoning ordinance of the city and the procedures established therein.

F. Council may use the following designations for individual buildings, objects, sites or property and which are in an historic district or designated with an "H" overlay:

1. Significant historic landmark;

2. Contributing property; and

3. Noncontributing property as those terms are defined in Section 20.20.020.

G. Upon passage of an historic landmark designation ordinance, the city clerk shall file a copy of the ordinance with the city and county tax assessors and in the official records of real property of El Paso County together with a notice verifying H-overlay designation of the subject property. The city clerk shall also send a copy of such notice to the owner or owners of the subject property. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 18975, § 1, 9-3-2019)

20.20.050 Historic landmarks designation criteria.

In making designations set forth in this chapter, the HLC, the city plan commission, and city council shall consider, but shall not be limited to, one or more of the following criteria:

A. Character, interest or value as part of the development, heritage or cultural characteristics of the city, state or the United States;

B. Recognition as a Recorded Texas Historic Landmark, a National Historic Landmark, or entry into the National Register of Historic Places;

C. Embodiment of distinguished characteristics of an architectural type or specimen;

D. Identification as the work of an architect or master builder whose individual work has influenced the development of the city;

E. Embodiment of distinguished elements of architectural design, detail, materials or craftsmanship which represent a significant architectural innovation;

F. Relationship to other distinctive buildings, sites or areas which are eligible for preservation according to a plan based on architectural, historic or cultural motif;

G. Portrayal of the environment of a group of people in an area of history characterized by a distinctive architectural style;

H. Archaeological value, in that it has produced or can be expected to produce data affecting theories of historic or prehistoric interest;

I. Exemplification of the cultural, economic, social, ethnic or historical heritage of the city, state or the United States;

J. Location as the site of a significant historic event;

K. Identification with a person or persons who significantly contributed to the culture and development of the city, region, state or the United States. (Ord. 16653 § 2 (part), 2007)

20.20.060 Acquisition of historic landmarks.

The following options shall be available to the HLC, for recommendation to the city council of El Paso, for acquisition of historic landmarks:

A. If the HLC finds that buildings, structures, sites, districts, land or areas cannot be pre-

served without acquisition, the HLC shall recommend to city council that the fee simple or lesser property interest of the historic landmark in question be acquired by gift, devise, purchase, eminent domain, or otherwise pursuant to the city charter and state and federal law;

B. The HLC may recommend to city council, within ten days of the hearing before the HLC, or at the council's next regular meeting, that the historic landmark or site be acquired. Council will have thirty days to state an affirmative intent to negotiate with the property owner and, if successful, the council shall complete such a purchase within a reasonable time thereafter;

C. Formulate a program for private and public action which will state the role of various city departments in acquisition of historic landmarks or sites;

D. Suggest sources of funds for preservation and restoration activities and acquisitions, to include federal sources, state sources private and foundation sources, as well as municipal sources;

E. Recommend, to the proper agencies, incentives designed to encourage historical preservation. (Ord. 16653 § 2 (part), 2007)

20.20.070 Historic landmark recognition.

A. When approved by city council resolution, the HLC may honor property owners with an Historic Building Plaque Award. The award will be based on the following:

1. Nominations will be open to the public sector, private sector, and general public each calendar year that funding for the plaques is available. The deadline for submission of nominations will be September 1st. Nomination forms will be made available by the historic preservation officer. An HLC subcommittee may recommend not more than five structures to the HLC. Final decision, by the HLC, will be made at a regularly scheduled meeting;

2. The HLC shall award a maximum of five plaques each calendar year;

3. Criteria for awarding an Historic Building Plaque Award are as follows:

a. The building must be at least fifty years old,

b. The building must have an H-overlay, be a recorded Texas Historic Landmark, or listed on the National Register of Historic Places,

c. The building must have been rehabilitated and/or maintained in good condition, and plans prepared for the work approved by the HLC, evidenced by issuance of a certificate of appropriateness,

d. If the building was rehabilitated using state, federal, or community development block grant funding, plans must have been reviewed and approved by the state historic preservation officer (SHPO),

e. At the time of the award, the building must be in compliance with all municipal codes and ordinances,

f. Award winners may be honored at a subsequent city council meeting,

g. Recipients are required to display the award in a publicly visible location on the facade of the structure. Any replacement plaques will be acquired at the owner's expense. (Ord. 16653 § 2 (part), 2007)

20.20.080 Alterations and changes to landmarks and H-overlay properties.

A. No person or entity shall construct, reconstruct, alter, change, remove, demolish, or fail to maintain, any of the following, unless a certificate of appropriateness or a certificate of demolition has been approved by the HLC or approval granted through administrative review:

1. Any building, object, site, landscape architectural feature, or group of such designated with an H-Overlay or as a historic landmark as defined by this chapter and designated by the city council.

B. No building permit shall be issued for such proposed work until a certificate of appropriateness has first been issued by the historic landmark commission or approval granted through admin-

istrative review. The certificate of appropriateness or administrative review approval shall be in addition to and not in lieu of any building permit that may otherwise be required.

C. Certificates of appropriateness, certificates of demolition and applications for administrative review shall be granted, granted with modifications, or denied based on the following criteria:

1. When city council has adopted architectural and design guidelines for a particular district, those guidelines shall control provided they are not in conflict with other requirements of the city code, except that the HLC may approve exceptions to the guidelines in an effort to maintain the historic integrity of an H-overlay property, in which case the exception shall control in that particular case;

2. When no guidelines have been adopted for a particular district, the guidelines from the district most similar in character, design, materials, workmanship, time of construction shall apply; or as identified in the "Guide to the Identification and Preservation of El Paso's Cultural, Historic and Architectural Resources";

3. When the preceding does not provide guidelines applicable to the project, then the secretary of the interior's standards for rehabilitation and guidelines for rehabilitating historic buildings shall apply (36 CFR Part 68) (U.S. Department of the Interior, National Park Service, Preservation Assistance Division. U.S. Government Printing Office Document Number: 19940 - 160-280 QL 3, Washington, D.C., or most current revision).

4. The guidelines and use thereof by the HPO for use in granting an administratively issued certificate of appropriateness for a site located in an area of potential effect shall be as provided by the resolution of the City Council adopting such guidelines.

D. Application Content.

l. For the exterior of a designated historic landmark, a site located in an area of potential effect, or a designated historic interior, the applicant shall submit the following:

a. One copy of completed application for administrative review, certificate of appropriateness or certificate of demolition form. Applications must be typewritten, printed in ink, or electronically submitted in legible form. Completed applications shall be accepted and reviewed administratively or scheduled for HLC hearing, as applicable, on a first-come, first-serve basis. Incomplete applications shall not be processed and shall be returned to the applicant;

b. One copy of a detailed site development plan and construction documents drawn to scale, as applicable, showing the following:

i. Legal description of the property,

ii. Lots lines with dimensions of the areas,

iii. Location and arrangement of structures and fencing,

iv. Location, type, and arrangement of windows, doors, and other openings where applicable; (Include sample of each type of window or door from brochure, catalog or manufacturer),

v. Square footage of structure(s), including number of dwelling units,

vi. Required yards and setbacks,

vii. Proposed building materials (i.e., concrete, stucco, wood, metal),

viii. Sample of proposed color(s) and texture (i.e., color swatch with name, manufacturer, and number),

ix. Material and product samples from brochure, catalog or manufacturer,

x. Open spaces, where applicable,

xi. Landscaped planted areas including square footage,

xii. Architectural design of buildings, modification, addition, or new construction (floor plan(s) and elevations),

xiii. Construction details for roof, walls, floor and foundation;

c. Photographs showing current conditions of the site and/or structures;

d. One copy of a proof of ownership or other legal document demonstrating that the individual(s) or corporation submitting the application is the current property owner such as a certificate from a title company or warranty deed. An individual or entity who has a contract to purchase

property may also submit an application with the owner's written authorization. This requirement shall not apply to administrative review applications;

e. A copy of any deed restrictions, existing or proposed, on the property shall also be submitted. This requirement shall not apply to administrative review applications;

f. One eight and one-half inch by eleven inch copy of the detailed site development plan and scaled construction drawings. The copy must contain the address and legal description of the property. This requirement shall not apply to administrative review applications;

g. A plan showing restoration or rehabilitation of the interior and the exterior unless the applicant provides an inspection report that shows that the interior fully complies with all applicable code requirements and is not in need of restoration or rehabilitation, in which case the plans need only address the exterior of the site.

E. Administrative Review and Approval.

1. The historic preservation officer shall review and approve, approve with modifications or deny all administrative review applications in accordance with the administrative review design guidelines, for the following types of requests:

a. Landscape materials including vegetation, irrigation, and xeriscaping, in the front, rear, side yards and parkways; to include the following:

i. Open spaces, where applicable, including square footage,

ii. Landscaped planted areas, where applicable, including square footage,

iii. Type of landscape or surface material to be replaced; to include a sample of the proposed surface material;

b. New fencing on the front, rear and side yards; to include the following:

i. Location and type of proposed fencing,

ii. Type of proposed fencing including material and color,

iii. Chain-link fence is not an acceptable material for approval under administrative review;

c. Wrought iron security coverings for windows and doors; to include photographs and showing the following:

i. Location of proposed security grills,

ii. Type of proposed security grill including material and color;

d. Exterior accessibility ramps when placed in non-character-defining facades; to include the following:

i. Location of proposed accessibility ramp,

ii. List of materials and colors;

e. Skylights and air-conditioner units when placed in non-character-defining facades or visible from the front facade; to include the following:

i. Location of proposed skylight or air-conditioner unit,

ii. List of materials and colors,

iii. Sample of skylight or air-conditioner unit. (Include sample from brochure, catalog or manufacturer);

f. Off-premises and on-premises commercial and residential signs within historic districts in accordance with Chapter 20.18 as applicable; to include the following:

i. Location of proposed signage,

ii. List of materials and colors,

iii. Sketch of signage including total square footage;

g. Replacement of garage or household exterior doors that match the original doors; to include sample of door from brochure, catalog or manufacturer;

h. Walkways, driveways, and aprons; include location and materials;

i. Swimming pools and tennis courts where permitted by sufficient area in the side and rear yard;

j. Routine maintenance, including but not be limited to: painting, re-roofing, repair of walks, driveways, fences;

k. Placement of fire escapes when placed in non-character-defining facades and where allowed by other city ordinances;

l. Installation of windows similar to the original in appearance and purpose, regardless of construction materials include sample of window from brochure, catalog or manufacturer;

m. Installation of an accessory structure when placed in non-character-defining facades, not in the front or side yards, and when no other accessory buildings exist on the site. Accessory structure shall not exceed one hundred twenty square feet in size. Colors shall complement the existing historic structure;

n. Installation of outdoor playground equipment when placed in non-character-defining facades and not in the front or side yards;

o. Painting of previously painted surfaces other than brick or any type of stone with colors compatible with the historic district;

p. Installation of outdoor lighting fixtures and security fixtures when such elements complement the design context of the structure;

q. Minor alterations in a non-character-defining facade and not visible from the street. Any alteration found to have a detrimental impact on the historic character of the structure or historic district shall be subject to the requirements for approval for a certificate of appropriateness as outlined in Section 20.20.130(C).

3. Photographs showing current conditions of the property may be required to be furnished by the applicant for all administrative review requests.

4. The applicant may appeal decisions of the HPO to the HLC, through the application process.

F. Certificate of Appropriateness and Certificate of Demolition. Any and all changes or alterations to landmarks and H-overlay properties, as described in Section 20.20.140(A), that are not eligible for administrative review shall require an application for certificate of appropriateness or certificate of demolition to be reviewed and approved by the HLC.

G. Historic Landmark Commission Review.

1. The historic landmark commission, upon ten days' written notice to the applicant, shall hold a hearing on the application. Upon review, if the HLC finds the proposed work of a nature which will not adversely affect any significant architectural or historical feature of a designated historic landmark, and is appropriate and consistent with the spirit and purposes of this section, it shall forward a certificate of appropriateness to the applicant within ten days after the public hearing.

2. If the historic landmark commission finds that the proposed work will adversely affect or destroy any significant architectural or historical feature of the designated historic landmark or historic interior, or is inappropriate or inconsistent with the spirit and purposes of this section, it shall render a denial of the request and forward the disapproved application to the applicant within ten days after the public hearing. The HLC shall state the reason(s) for its disapproval.

3. If no action has been taken by the historic landmark commission within forty-five days of the receipt of a completed application, the application shall be approved as submitted, and a certificate of appropriateness shall be issued by the HLC. However, a certificate of demolition shall never be issued before the expiration of sixty days of receipt of a completed application.

4. No change shall be made in the application, issuance, or execution of any building permit after the issuance of a certificate of appropriateness, without submittal of a request for minor modification as provided for in Section 20.20.150, otherwise, a new application to the historic landmark commission and approval thereof in the same manner as previously provided shall be submitted.

5. After a decision is reached by the historic landmark commission denying an application for certificate of appropriateness, no application for a certificate of appropriateness for a given property may be resubmitted within twelve months from date of action by the HLC unless the HLC finds that a substantial change in conditions has occurred, or that applicant has resubmitted in conformance with subsection 3.

6. Applicants aggrieved by a decision of the historic landmark commission may appeal to city council, using the procedure identified in Section 20.20.190.

H. Area of Potential Effect. A certificate of appropriateness may also be issued administratively by the HPO using the same criteria and standards as the HLC under subsection G of this section, or administrative approval may be granted under this chapter for the construction, reconstruction, alteration or changes proposed to be made to a site located in an area of potential effect as designated by the city council, upon the request of a person or entity intending to make application for the ad valorem tax incentive program provided in Section 3.04.035 of this Code. In making a decision to administratively issue a certificate of appropriateness under this section, the HPO shall perform every duty and undertake every obligation imposed on the HLC in this section for the situations when the HLC is authorized to issue a certificate of appropriateness. (Ord. 16879 (part), 2008; Ord. 16653 § 2(part), 2007)
(Ord. No. 17233, §§ 1, 2, 11-3-2009; Ord. No. 019568, § 1, 11-21-2023)

20.20.090 Modification of certificate of appropriateness.

A. If an applicant desires to make minor modifications to the certificate of appropriateness when they prepare final working drawings, they may apply to the historic preservation officer for a minor modification of the approved certificate of appropriateness.

B. If the historic preservation officer finds the minor modifications are in substantial conformity with the approved certificate of appropriateness, the historic preservation officer shall approve the minor modifications and amend the certificate of appropriateness.

C. Changes other than such minor modification shall require a new hearing and new approval in the same manner as for review of the original certificate of appropriateness. (Ord. 16653 § 2 (part), 2007)

20.20.100 Economic hardship application procedure.

A. After receiving written notification from the HLC of the denial of any application, an applicant may commence the economic hardship application process discussed herein at no additional cost. No building permit or demolition permit shall be issued through this procedure unless the HLC makes a finding that, through no fault of his own, the owner cannot otherwise realize a reasonable rate of return on, or sell his property at a reasonable price to an individual or entity interested in preserving it.

B. The applicant and the HLC shall consult in good faith in a diligent effort to seek an alternative that will result in preservation of the property.

C. The HLC shall hold a public hearing on the application within thirty days from the date the complete application is received by the HLC.

D. If the HLC approves the application it shall forward a certificate of appropriateness to the applicant within ten days after the public hearing. However, a certificate of demolition shall not be provided to the applicant until at least sixty days following the date of submittal of a completed application.

E. If the HLC denies the application, it shall forward the disapproved application to the applicant within ten days after the public hearing. The HLC shall state the reasons for its disapproval.

F. If no action has been taken by the HLC within sixty days of the original receipt of the economic hardship application by the HLC, a certificate of appropriateness or certificate of demolition shall be deemed to have been issued by the HLC, and the historic preservation officer shall so advise the applicant.

G. No change shall be made in the application for any building permit after the issuance of a certificate of appropriateness without submittal of a new application to the HLC and approval thereof as previously provided.

H. After a decision is reached by the HLC denying an application, a re-submittal of application shall not be accepted for additional hearing within a twelve-month period from the date of the final decision, unless the HLC determines, after

reviewing a written request of the applicant, that there has been a change in conditions sufficient to warrant an earlier rehearing.

I. Applicants aggrieved by a decision of the HLC may appeal to city council, using the procedure identified in Section 20.20.190. (Ord. 16653 § 2 (part), 2007)

20.20.110 Enforcement.

A. All work performed pursuant to a certificate of appropriateness or administrative review shall conform to any requirements included therein. It shall be the duty of the historic preservation officer to inspect any such work to assure compliance. In the event work is found that is not in accordance with the certificate of appropriateness or administrative review, the historic preservation officer shall notify the building official, who may issue a stop work order, a citation, or pursue other prosecution in accordance with this Code or any other applicable statute or law. All further work by the applicant shall be subject to the requirements of the city code or other governing statute or law.

B. If a certificate of appropriateness is issued, a project is completed, and if the property qualifies for a tax abatement per Title 3 of this Code, then the historic preservation officer shall inspect the premises on an annual basis to ensure compliance with the certificate of appropriateness for the duration of the tax abatement. If the historic preservation officer determines that conditions have changed to make the project noncompliant with the certificate of appropriateness, they shall notify the owner in writing and submit a report to the HLC providing details of the alleged noncompliance.

C. The HLC shall hold a hearing and notify the property of the date, time and place of the hearing so that the property owner may attend and present evidence of compliance with the certificate of appropriateness. The HLC shall make a finding, based upon the evidence presented by the historic preservation officer and the property owner, whether or not the project is or is not in compliance with the original certificate of appropriateness. If the HLC finds that the project is not in compliance, the historic preservation officer shall notify the taxing authority, and the tax abatement for the project shall cease immediately. The property owner may present an alternate plan in order to comply with the certificate of appropriateness, and the HLC may amend and approve the modifications. The property owner may appeal the HLC's decision to the city council as provided for herein. (Ord. 16653 § 2 (part), 2007)

20.20.120 Historic landmark demolition or removal.

A. An application for demolition or removal of any portion of a designated historic landmark or H-overlay property shall be filed with the historic preservation officer who shall forward it to the HLC within five days of receipt. The HLC shall then hold a public hearing on the application after at least ten days written notice to the applicant. The HLC shall consider the historic value, state of repair, reasonableness of the cost of restoration or repair, the existing and potential usefulness, including economic usefulness of the building, purposes behind preserving the structure as a historic landmark, neighborhood character, and all other factors it finds appropriate. The HLC shall delay the proposed demolition for a period of at least sixty days from the date of submission of a completed application. After such time period, the HLC may approve or deny the application in whole or in part, or suspend action on it for a period not to exceed six months.

B. If the HLC determines, based on the evidence presented, that the cost of restoration or repair would render the property incapable of earning a reasonable return, the HLC may recommend to city council, within ten days of the hearing before the HLC, or at the council's next regular meeting, that the property be acquired pursuant to Section 20.20.120(A). Council will have thirty days to state an affirmative intent to negotiate with the property owner and to act on such a purchase within a reasonable time thereafter. If council does not act affirmatively, or the HLC

determines that the interest of preserving historical values will not be adversely affected by such demolition or removal or that the interest of preserving historical values can best be served by the removal of the structure to another specified location, it shall issue a certificate of demolition or a certificate of removal to the applicant within ten days therefrom, or sixty days of receipt of a completed application, whichever comes later.

C. If no action has been taken by the HLC within ninety days of original receipt by the HLC of the application, it shall be deemed approved as submitted and a certificate of demolition or a certificate of removal shall be issued by the HLC and the HPO shall so advise the applicant.

D. After a decision is reached by the HLC denying an application for a certificate of demolition or a certificate of removal, a re-submittal of an application for such certificate will not be accepted for a twelve-month period from the date of final decision, except upon written request of the applicant indicating that there has been a change in conditions sufficient to warrant an earlier rehearing.

E. Subsections A through D of this section shall not apply whenever the building official or the fire chief or their designee proceeds under Chapter 18.50. In such case, the building and standards commission after the appropriate notice and hearing, may order the building or structure or part thereof secured, repaired, removed or demolished without regard to the "H" designation on the building or structure or part thereof; but in no event may the building and standards commission take such action unless it determines that the building or structure or part thereof is unsafe and dangerous so as to endanger persons or property or is a fire hazard, and that such danger or hazard is so great and so immediate that subsections A through D of this section should be circumvented to prevent immediate and substantial harm to persons or property. Such a determination by the building and standards commission shall be final except as provided for by state law.

F. Prior to submitting an application for demolition or removal, the applicant shall send written notice of the proposed application via certified mail, facsimile transmission or personal delivery to the mayor and city council, the county historical commission, and if the property is located within a recognized neighborhood association ("RNA") boundary, the applicant shall provide written notice to any such RNA. Such notice shall contain the following information:

1. A detailed description of what is being applied for;

2. A method by which the applicant can be contacted; and

3. A statement as to the application's projected impact on the land comprising the geographic boundary of the RNA.

As part of the submitted application, the applicant shall provide a copy of the written notice sent to each individual or entity and proof of delivery. Failure to provide written notice, or an affidavit attesting hand delivery shall result in the application not being accepted as complete. (Ord. 16830 §§ 1, 2, 2008; Ord. 16653 § 2 (part), 2007) (Ord. No. 17442, § 51, 10-26-2010)

20.20.130 Prevention of demolition by neglect.

A. Applicability. All historic landmarks and properties with an "H" overlay shall be preserved against detrimental deterioration and kept free from certain structural defects by the owner or legal custodian who shall repair such building, object, site, or structure if it is found to have any of the following defects:

1. Deterioration of roofs or other horizontal members;

2. Deterioration of chimneys;

3. Deterioration or crumbling of stucco or mortar;

4. Ineffective waterproofing of exterior walls, roof or foundations, including broken windows or doors; or

5. Deterioration of any feature so as to create a hazardous condition which could lead to the claim that demolition is necessary for the public safety.

B. Upon the HLC's receipt of a claim of detrimental deterioration of a landmark, it shall notify the owner in writing, informing the owner of the complaint and specifics of the alleged detrimental deterioration, requesting that the owner appear before the HLC for a fuller and more accurate determination of the existence of detrimental deterioration.

C. If the HLC determines after public hearing that there is detrimental deterioration as described in subsection A, the owner or legal custodian shall be given a reasonable time and opportunity to cure. The owner or legal custodian must comply with all requirements of requesting a certificate of appropriateness from the HLC. (Ord. 16653 § 2 (part), 2007)

20.20.140 Penalty for demolition or alteration without a permit.

A. It is unlawful to construct, reconstruct, structurally alter, remodel, renovate, restore, demolish or raze any historic landmark in violation of this chapter. The city, in addition to other remedies, may institute any appropriate action or proceedings to prevent such unlawful violation and to restrain, correct or abate such violation, to prevent any illegal act, business or maintenance in and about such premises.

B. In addition to any remedies allowed pursuant to Chapter 20.24 or other law and exercised under subsection A, a person, corporation or entity is liable to the city if the person demolishes, or causes to be demolished, or otherwise adversely affects the structural, physical or visual integrity of an historic landmark without first obtaining a permit from the building services department and a certificate of demolition from the HLC as required by this chapter. The structure or property must have a designated "H" overlay, individually or as part of an historic district.

C. If the structural, physical or visual integrity of the historic landmark is adversely affected to the extent that it may not feasibly be substantially restored to its original level of historic significance, damages are equal to the cost of constructing, using as many of the original materials as possible, a new structure that is a reasonable facsimile of the historic landmark as well as the cost of attorney's, architect's and appraiser's fees and other costs related to the enforcement of this section. If it is feasible to restore the structural, physical or visual integrity of the historic landmark substantially to its former level, the damages are equal to the cost of the restoration, using as many of the original materials as possible and the cost of attorney's, architect's and appraiser's fees and other costs related to the enforcement of this section.

D. Instead of accepting monetary damages, the city council may permit the liable person to construct, within a reasonable time and using as many of the original materials as possible, a structure or property that is a reasonable facsimile of the demolished historic landmark or to restore, using as many of the original materials as possible, the historic landmark and to pay the cost of attorney's, architect's and appraiser's fees and other costs related to the enforcement of this section. (Ord. 16653 § 2 (part), 2007)

20.20.150 Ad valorem tax incentives for historic properties.

A. The city will provide applications for the ad valorem tax incentives program provided in Section 3.04.035 of this Code to promote preservation and restoration of historic properties.

B. The city council may identify by resolution one or more areas of the city that abut historic landmarks and districts and include one or more historically significant sites in need of tax relief to encourage their historic preservation, and shall designate and declare those areas as areas of potential effect. Those sites meeting the criteria set forth in Section 3.04.035 of this Code and located in designated areas of potential effect shall be eligible to make application for and receive the tax incentives described in this section and as provided in Section 3.04.035 of this Code. (Ord. 16879 (part), 2008)

20.20.160 Notice.

Any notice required to be given under this chapter shall be by deposit in the U.S. Postal Service, postage prepaid, to the addressee at his last known mailing address. (Ord. 16653 § 2 (part), 2007)

20.20.170 Severability.

The terms and provisions of this chapter are severable and shall be governed by Section 1.04.060. (Ord. 16653 § 2 (part), 2007)

20.20.180 Zoning board of adjustment.

This chapter is not to be construed as conferring any jurisdiction on the zoning board of adjustment in matters pertaining to historic landmark preservation. (Ord. 16653 § 2 (part), 2007)

20.20.190 Appeal to the city council.

Any applicant or the owner of any property located within three hundred feet of any landmark, or the owner of any property within the same historic district as the subject of the appeal, who is aggrieved by a ruling of the HLC concerning that landmark under the provisions of this section, may within fifteen days after the ruling of the HLC, appeal to the city council by filing written notice of such appeal with the city clerk. Following a public hearing to be held within sixty days of the filing of such notice of appeal, the city council may, by a simple majority vote, uphold or overturn any ruling of the HLC made pursuant to this chapter. (Ord. 16653 § 2 (part), 2007)

Chapter 20.22

NONCONFORMING SITUATIONS

Sections:

20.22.010 Policy.

20.22.020 Nonconforming lots.

20.22.030 Nonconforming uses.

20.22.040 Nonconforming structures.

20.22.050 Nonconforming dwellings in commercial and manufacturing districts.

20.22.060 Newly annexed areas.

20.22.070 Registration required.

20.22.080 Property affected by right-of-way acquisition.

20.22.090 Nonconforming signs.

20.22.100 Nonconforming PWSF.

20.22.010 Policy.

Nonconforming situations may continue, so long as the conditions within this chapter and all other applicable sections of the code are met; however, the city encourages the eventual replacement of nonconforming uses which are potentially undesirable and incompatible with surrounding conforming uses and require compliance with the regulations of this Code, having due regard for the property rights of the persons affected, the public welfare, compatibility, and the character of the surrounding area. This chapter does not require the removal of or destruction of property in existence at the time when any zoning regulation first became effective and is actually and necessarily used in a public service business. (Ord. 16653 § 2 (part), 2007)

20.22.020 Nonconforming lots.

A single-family dwelling may be erected on a lot recorded in the real property records, even though of less width, depth, or area than required by the regulations for the district in which it is located, if such lot was separately owned at the time when any zoning restrictions as to its required width or area (whether under this title or any other ordinance or amendment) first became effective, if the owner of such lot does not own any other lot, parcel or tract immediately adjacent thereto, and so long as the lot is registered and verified by the zoning administrator as a nonconforming lot. (Ord. 16653 § 2 (part), 2007)

20.22.030 Nonconforming uses.

A. Any use of a building, structure, or property or if a valid building permit has been issued for the use of the structure in that district, legally in existence at the time when any zoning restrictions as to use, area, yards, setbacks, or off-street parking (whether under this or any other ordinance or amendment) first became effective as to such use, and which does not conform to the regulations described in this title may continue the use so long as the use is registered in accordance with the provisions of Section 20.22.070 and verified by the zoning administrator as legal nonconforming and is subject to the following limitations:

1. A nonconforming use of a structure may not be enlarged or increased, except a nonconforming use may be extended to any portion of a building which portion was arranged or designed for such nonconforming use on or prior to the date on which the use became nonconforming, or if required by law to meet minimum health and safety requirements required by a governmental entity. Written documentation establishing the date of the original design or arrangement of use, or requirement by a governmental entity shall be required at the time of submittal for a building permit, and the mere intent of the owner or occupant shall not satisfy this requirement; and,

2. A nonconforming use shall not be changed unless changed to a conforming use. A nonconforming use if changed to a conforming use may not thereafter be changed back to any nonconforming use. A nonconforming use may not be changed to any other nonconforming use.

B. Abandonment and Termination of a Nonconforming Use.

1. A nonconforming use is deemed abandoned and the right to operate a nonconforming use shall terminate immediately if any of the following occur:

a. The use of property is changed from a nonconforming use to a conforming use, or to another nonconforming use;

b. The non-use or non-operation of the nonconforming use, or the vacancy of a portion or all of the structure used for the nonconforming use of the property for a continuous period of one hundred twenty days or more;

c. A portion or all of the structure used for the nonconforming use is damaged or destroyed by the intentional act of the owner or his agent;

d. Discontinuance or abandonment shall be conclusively deemed to have occurred irrespective of the intent of the property owner if any portion of the structure in which the nonconforming use is located is dilapidated, substandard, or is not maintained in a suitable condition for occupancy during a continuous period of one hundred twenty days.

2. A seasonal discontinuance of a nonconforming use, or a temporary discontinuance of a nonconforming use for maintenance or repair, is excluded from a calculation of the one hundred twenty-day period described in subsection (B)(1)(b) of this section.

3. A person may not resume an abandoned or otherwise terminated nonconforming use.

4. Destruction of Nonconforming Use. The right to operate and maintain any nonconforming use, except a single-family dwelling unit is not subject to this subsection and may reconstruct up to one hundred percent of the prior existing building footprint, shall terminate and shall cease to exist whenever the structure or any portion of the structure in which the nonconforming use is operated and maintained is damaged or destroyed by fire, the elements or other than the intentional acts of the owner or operator, if the destruction amounts to fifty percent or more of its fair market value as determined by the tax appraisal roll, not including the value of the land, on the date of such damage or destruction. If the owner of a nonconforming use fails to begin reconstruction of the destroyed building, when permitted to do so by the terms of this section within one hundred twenty days of the date of destruction, the nonconforming use shall be deemed to be discontinued or abandoned, and shall no longer be authorized to continue.

C. No nonconforming accessory use shall continue after the principal use or structure shall have ceased or terminated unless the accessory use shall thereafter conform to the provisions of the zoning district in which it is located. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17777, § 1, 5-1-2012)

20.22.040 Nonconforming structures.

A. Any nonconforming structure legally in existence at the time when any zoning restrictions as to use, area, yards, setbacks, or off-street parking (whether under this or any other ordinance or amendment) first became effective as to such use, and which does not conform to the regulations described in this title may continue in use and operation so long as the structure is registered in accordance with the provisions of Section 20.22.070 with the zoning administrator as legal nonconforming and is subject to the following limitations.

1. Unless otherwise provided, a nonconforming building or structure shall not be added to or enlarged in any manner unless the addition or extension meets the requirements of the district in which it is located.

2. If a nonconforming structure is nonconforming as to off-street parking requirements, a change of occupancy to another use permitted in the zoning district is allowed provided that the parking requirements are the same as the original nonconforming use. If a change of occupancy to a use that requires additional parking is requested, the additional off-street parking required for the new use must be provided.

B. Abandonment and Termination of a Nonconforming Structure.

1. A nonconforming structure is deemed abandoned and the right to operate a nonconforming building shall terminate immediately if any of the following occur:

a. The non-use or non-operation of a use, or the vacancy of a portion or all of the structure for a continuous period of one hundred twenty days or more;

b. A portion or all of the structure used for the nonconforming use is damaged or destroyed by the intentional act of the owner or his agent;

c. Discontinuance or abandonment shall be conclusively deemed to have occurred irrespective of the intent of the property owner if the nonconforming building is dilapidated, substandard, or is not maintained in a suitable condition for occupancy during a continuous period of one hundred twenty days.

2. A seasonal discontinuance of a nonconforming building, or a temporary discontinuance of a nonconforming building for maintenance or repair, is excluded from a calculation of the one hundred twenty-day period described in subsection (B)(1)(b) of this section.

3. A person may not resume an abandoned or otherwise terminated nonconforming use.

4. Destruction of Nonconforming Structure. The right to operate and maintain any nonconforming structure, except a single-family dwelling unit is not subject to this subsection and may reconstruct up to one hundred percent of the prior existing building footprint, shall terminate and shall cease to exist whenever the structure or any portion of the structure is damaged or destroyed from any cause whatsoever, except if caused by the intentional act of the owner or operator, if the destruction amounts to fifty percent or more of its fair market value as determined by the tax appraisal rolls, not including the value of the land, on the date of such damage or destruction. If the owner of a nonconforming use fails to begin reconstruction of the destroyed building, when permitted to do so by the terms of this section within one hundred twenty days of the date of destruction, the nonconforming building shall be deemed to be discontinued or abandoned, and shall no longer be authorized to continue.

C. Normal repairs and maintenance may be made to a nonconforming building or structure; provided that no structural alterations shall be made except those required by law or ordinance due to health or safety concerns and as required by a governmental entity.

D. A nonconforming building or structure shall not be moved in whole or in part from the property or within the lot in which it is located, unless every portion of such building or structure is made to conform to all regulations of the district in which it is located.

E. No nonconforming accessory structure shall continue after the principal use or structure shall have been damaged or destroyed unless the accessory structure shall thereafter conform to the provisions of the zoning district in which it is located.

F. A cemetery, sewage disposal or treatment plant, hospital, sanatorium, correctional institution, or municipal or state building or institution existing in any district on November 23, 1955, or any M-1 district use so existing in a C-4 or C-5 district, shall be deemed a conforming use upon the plot devoted to such use on the effective date of Ordinance No. 1448, adopted on November 23, 1955. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17777, § 2, 5-1-2012)

20.22.050 Nonconforming dwellings in commercial and manufacturing districts.

A dwelling nonconforming as to use in a commercial or manufacturing district shall be permitted; provided, that the yard standards and the off-street parking requirements at the time the structure became nonconforming as to use are maintained. (Ord. 16653 § 2 (part), 2007)

20.22.060 Newly annexed areas.

A. Nonconforming rights may be granted to uses or structures located within newly annexed

areas in accordance with the following provisions. An application for registration and certificate of occupancy for the nonconforming use or structure must be filed with the building official.

B. Incomplete Construction. Construction may be completed on any structure legally under construction upon annexation provided:

1. The owner or his designated representative applies to the city for a building permit to authorize further work on the structure stating the proposed use of the structure and attaching thereto the plans and specifications relating to the construction; and

2. The construction is completed within one hundred twenty days of the effective date of the issuance of the building permit unless an extension is granted. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17442, § 52, 10-26-2010)

20.22.070 Registration required.

A. Nonconforming uses and structures shall be registered with the zoning administrator by providing the following information:

1. File an application with the city and pay a nonrefundable fee established by the city council stating that such building or land occupied by the nonconforming building or use was, to the best of the owner or occupant's knowledge, in lawful use and lawfully existing as of the date of adoption of the applicable code in effect at the time that the building or use became nonconforming.

2. Provide supporting documentation that may include, but is not limited to, building permits or certificates of occupancy that show or describe the nonconforming condition, aerial photography, central appraisal district records, affidavits of surrounding property owners or residents who are knowledgeable of the existence and use of the building or property, or any other information deemed necessary to determine the nonconforming status of the building or use by the zoning administrator.

a. Registration of a nonconforming structure. The preferred documentation is an aerial photo or building permit that shows the nonconformity, and is dated prior to annexation of the property or adoption of the code regulation that rendered the structure nonconforming. If such a permit or photo is submitted it shall be sufficient to register the nonconforming structure. If the nonconforming structure is not shown in the permit or aerial photo, two supporting documents shall be required.

b. Registration of a nonconforming use. Two supporting documents shall be required.

B. Upon proper application and review and verification of the documents submitted establishing that the nonconforming building or use was legally in existence at the time when any zoning restrictions as to use, area, yards, setbacks, or off-street parking (whether under this or any other ordinance or amendment) first became effective as to such use, the city may register the building or use as legal nonconforming and maintain a record of all registrations. (Ord. 16653 § 2 (part), 2007)
(Ord. No. 17442, § 53, 10-26-2010; Ord. No. 17777, § 3, 5-1-2012)

20.22.080 Property affected by right-of-way acquisition.

A. Definitions.

1. "Governmental agency." United States of America, State of Texas, County of El Paso, City of El Paso, or any other agency having jurisdiction within the City of El Paso limits, with the ability to exercise eminent domain powers.

2. "Right-of-way acquisition." The securing of right-of-way through negotiation, purchase, bargain, trade, donation, condemnation or other means, but not including the dedication of right-of-way through the platting or zoning processes.

B. In the event that a right-of-way acquisition by a governmental agency causes a property or the improvements thereon to be in violation of Appendix B (Table of density and dimensional standards) and Appendix C (Table of parking requirements and standards) of Title 20 (Zoning) and/or Chapter 18.46 (Landscape), said property shall be exempt from said provisions to the extent said

violation is caused by the right-of-way acquisition and shall be eligible for registration as a legal nonconformity, subject to the following:

1. Property which undergoes a zoning change initiated by the property owner subsequent to right-of-way acquisition shall no longer be subject to this exemption and shall instead have a nonconforming status to the extent that any nonconformance with city ordinances resulted from a right-of-way acquisition by a governmental agency prior to the rezoning and shall therefore be treated as a nonconforming use pursuant to the provisions of this chapter rather than exempt as provided above. However, a city-initiated rezoning shall not cause a property to lose the exemption provided by this section for properties affected by right-of-way acquisitions.

2. Nothing provided in this provision shall be construed to permit any obstruction which may create a traffic safety hazard or any other safety hazard.

3. Improvements required by special permit or zoning condition and located in the area acquired for right-of-way shall no longer apply subsequent to the acquisition, except that required screening per Chapter 20.16 (Screening and fencing) originally located within the area of the acquired property shall be relocated to the remainder of the tract as close as practicable inside the new property line.

4. Any alteration resulting in an increase in building square footage to the registered legal nonconformity shall require that the increased square footage area of the building comply with all applicable provisions in Title 20 (Zoning) and Chapter 18.46 (Landscape).

C. In the event that a right-of-way acquisition by a governmental agency causes an on-premises sign to be in violation of Chapter 20.18, Article IV (On-premises sign regulations), said sign shall be exempt from said provisions to the extent said violation is caused by the right-of-way acquisition, subject to the following:

1. The sign must have been legally permitted at the time of the initial placement; and

2. Must be relocated to the remainder or remain in its existing location; and

3. Cannot be altered or enlarged; and

4. Must be registered as legal nonconforming and be subject to the provisions of Section 20.22.090 (Nonconforming signs).

D. The provisions of Section 20.22.040 B. are not applicable to properties that register legal nonconforming under these provisions.

(Ord. No. 18771, § 1, 3-20-2018)

Editor's note—Ord. No. 18771, § 1, adopted March 20, 2018, repealed the former § 20.22.080 and enacted a new § 20.22.080 as set out herein. The former § 20.22.080 pertained to similar subject matter and derived from Ord. 16653 § 2(part), adopted in 2007.

20.22.090 Nonconforming signs.

A. Signs Which Are Nonconforming. Signs which were lawfully erected prior to the adoption of the ordinance herein codified which do not conform to this ordinance, as well as signs existing at the time the area wherein the sign is located is annexed, are deemed to be nonconforming, and may continue in existence provided that no nonconforming sign shall be:

1. Changed to or replaced with another sign, unless in compliance with then current city code. Upon application to the city, the face of the sign on an existing sign that is structurally safe and for which a valid permit or nonconforming registration is on file may be changed to indicate a new owner or business provided that the change or alteration shall not result in the following:

a. A change in the method or technology used to convey the message;

b. An increase in the illumination of the sign;

c. An increase in the sign face area;

d. Structural alteration to extend its useful life;

e. Expansion in any dimension;

f. reestablishment of the sign after damage or destruction if the cost of repairing the sign is more than fifty percent of its replacement value at the time of such damage or destruction;

g. Modification or relocation in any way that would increase the degree of nonconformity of such sign;

h. Modification or additional lighting or any other enhancement.

i. Poles may be replaced, subject to a building permit, but only if not more than one-half of the total number of poles of the sign structure are replaced in any twelve-month period and the same material is used for the replacement poles.

j. Addition of a catwalk to the sign structure;

k. Addition of lighting to an unilluminated sign or addition of more intense lighting to an illuminated sign, whether or not the lights are attached to the sign structure;

l. Changing the number of poles in the sign structure;

m. Addition of permanent bracing wires, guy wires, or other reinforcing devices;

n. Changing the material used in the construction of the sign, such as replacing wooden material with metal material;

o. Addition of faces to a sign or changing the sign configurations;

p. Increase in the height of the sign;

q. Changing the configuration of the sign structure, such as changing a "V" sign to a stacked or back-to-back sign, or a single face sign to a back-to-back sign;

r. Moving the sign structure or sign face in any way;

2. This provision shall not prevent repairing or maintenance of any part of a sign structure to a safe condition or performing normal maintenance operations on a sign or sign structure. The following actions are considered maintenance and are allowed without losing the legal nonconforming status of the sign:

a. Replacement of nuts and bolts;

b. Nailing, riveting or welding;

c. Cleaning and painting;

d. Manipulation of sign structure to level or plumb it;

e. Changing the advertising message;

f. Replacement of minor parts if the material of the minor parts are the same type as those being replaced and the basic design or structure of the sign is not altered;

g. Changing all or part of the sign face with materials similar to those being replaced.

B. Registration of Nonconforming Signs. Each nonconforming sign shall be registered by the owner or owners of the sign by filing a registration form with the zoning administrator. Signs without permits which were registered properly pursuant to any prior city code provision are deemed to be nonconforming.

C. Abandonment and Termination of a Nonconforming Sign.

1. A nonconforming sign is deemed abandoned and the right to operate a nonconforming sign shall terminate immediately if any of the following occur:

a. The nonuse of the sign for a continuous period of one hundred twenty days or more;

b. A portion or all of the sign is damaged or destroyed by the intentional act of the owner or his agent.

c. Discontinuance or abandonment shall be conclusively deemed to have occurred irrespective of the intent of the property owner if the nonconforming sign is dilapidated, substandard, or is not maintained in a suitable condition during a continuous period of one hundred twenty days.

D. A nonconforming sign shall not be moved in whole or in part from the property or within the lot in which it is located, unless every portion of such building or structure is made to conform to all regulations of the district in which it is located.
(Ord. 16653 § 2 (part), 2007)
(Ord. No. 17960, § 18, 2-19-2013)

20.22.100 Nonconforming PWSF.

A. A personal wireless service facility (PWSF) that was built in compliance with the city's zoning regulations and was issued a certificate of completion, or if a certificate of completion was not issued, there was a valid building permit and an approved final inspection; and has been registered as a legal nonconforming structure, may continue in existence as a nonconforming structure. Such nonconforming structures may be modified or demolished and rebuilt on the same property as

described in the certificate of completion or building permit, provided that the modified or rebuilt PWSF complies with all of the following:

1. A modified or rebuilt PWSF must propose to have at least one additional antenna than that of the existing or pre-existing facility. If the PWSF is to be rebuilt, the ground surface area shall not exceed one hundred twenty-five percent of the existing facility, including all appurtenant equipment storage facilities;

2. The height of a modified or rebuilt PWSF and the appurtenant antennas attached thereto shall not exceed the height of the existing facility by more than ten percent or the height limitation of Section 20.10.455 (Personal wireless service facilities), whichever is greater;

3. A rebuilt PWSF may be relocated on the original property, but must have setbacks that are no more nonconforming than that of the pre-existing facility and must meet the minimum setback standards for the zoning district in which it is located;

4. A modified or rebuilt PWSF shall be painted to reduce glare and reflections. No exterior paint colors shall be used which have a light reflecting value (LRV) greater than forty percent. The LRV of a paint is available from paint manufacturers and it measures the amount of light reflected by a certain color;

5. All rebuilt ground-mounted PWSF shall be a like for like replacement with regards to camouflaging (i.e., non-camouflage for non-camouflage). Camouflaging is a method of disguising or concealing the appearance of an object by changing its usual color, modifying its shape, or locating it in a structure that complements the natural setting, existing and surrounding structures. In the context of this section, camouflaging includes, but is not limited to, making PWSF antenna support structures resemble man-made trees, locating PWSF antenna support structures in bell steeples or clock towers, or on similar alternative-design mounting structures;

6. A modified or rebuilt PWSF shall maintain the same screening and landscaping as the existing facility; provided, however, that this section shall not prevent additions or improvements to the landscaping in accordance with the landscaping ordinance;

7. A rebuilt PWSF may be constructed prior to the demolition of the existing nonconforming PWSF, so long as the rebuilt PWSF is constructed in accordance with the provisions of this section, and the existing nonconforming PWSF shall be completely demolished within thirty days from the date that the rebuilt PWSF is issued a certificate of completion. A temporary cell-on-wheels (COW) may be permitted on the property for a period not to exceed twelve months during construction of the new facility. The COW must be removed within thirty days from the date the new PWSF is issued a certificate of completion; and

8. If two or more nonconforming ground-mounted PWSF within a one-half mile radius are demolished in a coordinated effort to collocate the existing antennas onto one structure, a new PWSF may be rebuilt on any of the sites. The height of the rebuilt PWSF and the appurtenant antennas attached thereto shall not exceed the height of the tallest of the pre-existing facilities, or the height limitation of Section 20.10.455 (Personal wireless service facilities), whichever is greater. The setbacks of the rebuilt PWSF shall be no more nonconforming than the most nonconforming of the pre-existing facilities.

B. The issuance of a permit pursuant to this section allowing the modification or demolition and rebuilding of an existing nonconforming PWSF shall not be considered a determination that the modified or rebuilt PWSF is conforming.

C. Except as provided in this section or permitted by federal regulations, a nonconforming PWSF may not be enlarged, increased in size, or modified without being brought into compliance with the regulations of Section 20.10.455 (Personal wireless service facilities).

D. Abandonment and Termination of a Nonconforming PWSF.

1. A nonconforming PWSF is deemed abandoned and the right to operate a nonconforming PWSF shall terminate immediately if any of the following occur:

a. The nonuse of the PWSF for a continuous period of one hundred twenty days or more;

b. A portion or all of the PWSF is damaged or destroyed by the intentional act of the owner or his agent;

c. Discontinuance or abandonment shall be conclusively deemed to have occurred irrespective of the intent of the property owner if the nonconforming PWSF is dilapidated, substandard, or is not maintained in a suitable condition during a continuous period of one hundred twenty days.

2. The owner of a ground-mounted personal wireless service facility shall notify the city in writing within one hundred twenty days of nonuse of the PWSF that a facility is no longer needed or is not in an operable condition. After which time, the regulations of Section 20.10.455(C) shall be followed.

E. Property Affected by Right-of-Way Acquisition.

1. In the event that a right-of-way acquisition by a governmental agency causes a PWSF to be in violation of Section 20.10.455, said PWSF shall be exempt from said provision to the extent said violation is caused by the right-of-way acquisition, subject to the following:

a. The PWSF must have been legally permitted at the time of the initial placement; and

b. Must be located to the remainder of the property or remain in its existing location; and

c. Cannot be altered or enlarged; and

d. Must be registered as legal nonconforming and be subject to the provisions of Section 20.22.100 (Nonconforming PWSF). (Ord. 16653 § 2 (part), 2007)

(Ord. No. 19016, § 8, 1-7-2020)

Chapter 20.24

ENFORCEMENT—PENALTY

Sections:

20.24.010 Civil and criminal penalties.

20.24.020 Criminal prosecution.

20.24.030 Civil remedies.

20.24.010 Civil and criminal penalties.

The city shall have the power to administer and enforce the provisions of this title as may be allowed by governing law. Any person violating any provision of this title is subject to suit for injunctive relief as well as prosecution for criminal violations. Any violation of this title is declared to be a nuisance. (Ord. 16653 § 2 (part), 2007)

20.24.020 Criminal prosecution.

Any person violating any provision of this title shall be guilty of a misdemeanor and upon conviction, be fined a sum not exceeding two thousand dollars. Each day that a provision of this title is violated shall constitute a separate offense. (Ord. 16653 § 2(part), 2007)
(Ord. No. 17235, § 4, 11-10-2009)

20.24.030 Civil remedies.

Nothing in this title shall be construed as a waiver of the city's right to bring a civil action to enforce the provisions of this title and to seek remedies as allowed by law, including, but not limited to, the following:

1. Injunctive relief to prevent specific conduct that violates this title or to require specific conduct that is necessary for compliance with this title;

2. A civil penalty up to five hundred dollars a day when it is shown that the defendant was actually notified of the provisions of this title and after receiving notice committed acts in violation of this title or failed to take action necessary for compliance with this title; and

3. Any other available relief. (Ord. 16653 § 2 (part), 2007)

NOTE 1: TO BE DETERMINED BY THE ZONING ADMINISTRATOR

NOTE 2: FOR SPECIFIC REQUIREMENTS BASED ON USE/ZONE CRITERIA FOR SECTION 20.14.080:

A. Office, Educational or Institutional less than or equal to 5000 SF building:

Gravel/screenings surfaced parking areas may be incorporated for the required parking reserved for use by employees and staff of in-store retail or Professional offices and for required parking where on-site ponding (see Section 20.14.080.C.4) or permanent desilting basins are provided. In no case shall gravel/screening parking exceed 50% of the total required parking.

The perimeter of any gravel or screenings parking and drives areas shall be delineated by edging, curbing, abutting hard surfaces or other method as approved by the city manager or designee; and signage shall be installed indicating "Parking For Employees, Staff, and/or Overflow Parking Only".

B. Commercial/Manufacturing/Warehousing/Storage/Construction Yards/and High Traffic Uses:

Gravel/screenings surfaces may be incorporated for employee parking, for the storage users of truck trailers, storage containers, equipment, supplies, materials, motor vehicles or recreational vehicles which are part of the business function of the facility or site; including transport drop-offs and stock-in-trade.

All required parking for visitors, customers, employees, or patrons shall be hard surfaced.

The perimeter of any gravel or screenings parking and drives areas shall be delineated by edging, curbing, abutting hard surfaces or other method as approved by the city manager or designee; and signage shall be installed indicating "Overflow Parking Only" or as appropriate.

All access drives to required parking shall be hard surfaced.

All Loading Docks and all other loading areas shall be hard surfaced.

C. Recreation, Amusement, and Entertainment:

For outdoor facilities, gravel/screenings surfaces may be incorporated for required parking in accordance with the attached table (Section 20.14.080.C). For indoor facilities, gravel surface parking areas may be incorporated for required parking where on-site ponding or permanent desilting basins are provided.

Gravel/screenings surfaces may be incorporated for the storage of truck trailers, storage containers, equipment, supplies, materials, recreational vehicles that are part of the function of the facility.

The perimeter of any gravel or screenings parking and drives areas shall be delineated by edging, curbing, abutting hard surface or other method as approved by the city manager or designee.

All access drives to required hard surfaced parking shall be hard surfaced.

D. Temporary Uses:

Gravel/screenings surfaces may be incorporated for all required parking subject to review, approval, and conditions by the city manager or designee.

Temporary uses with no parking requirements (i.e. construction areas, etc.) are exempt from parking surface requirements.

The perimeter of any gravel or screenings parking and drive areas shall be delineated by edging, curbing, or abutting hard surface or other method as approved by the city manager or designee.

E. Utility, Miscellaneous and Governmental Facilities:

Gravel/screenings surfaces may be incorporated for required and/or excess parking subject to review, approval, and conditions by the city manager or designee.

Temporary uses with no parking requirements (construction areas, etc) are exempt from parking surface requirements.

Any gravel or screenings parking areas shall be delineated by edging, curbing, or abutting hard surface or other method as approved by the city manager or designee.

F. Agricultural and related uses:

Gravel/screenings surfaces may be incorporated for all required parking including truck trailers, storage containers, equipment, supplies, materials, recreational vehicles which is part of the business function of the facility as well as personal vehicles of the living quarters on the premises.

G. Residential:

Gravel/screening surfaces may be incorporated for:

1. Required parking located at a distance no less than 20 feet from the front property line.
2. For required parking where on-site ponding (see Section 20.14.080.C.4) or permanent desilting basins are provided for the surface area of the gravel/screening parking area, and

The perimeter of any gravel or screenings parking areas shall be delineated by edging, curbing, abutting hard surfaces or other method as approved by the city manager or designee.

H. Non-Allowed Uses and Restrictions:

Gravel/screenings surfaces shall not be incorporated for either required or excess parking for motor vehicle sales except as allowed in other sections of this ordinance, for repair or dismantling uses, for storage of used drive train components other than tires, wheels or drive shafts, or for fueling or lubricating bays.

Gravel/screenings surfaces shall not be incorporated for required parking for hospital or medical treatment uses with buildings greater than or equal to five thousand square feet (5000 SF).

Gravel/screenings surfaces may be not be incorporated for required parking in excess of ninety-nine (99) spaces.

No authorizations herein shall supersede state or federal requirements, restrictions, rules, or regulations.

No parking is allowed on top of landscaping or areas not specifically designated for parking.

Note 3: When the minimum required automobile parking exceeds 60 spaces, 5% of the number required over 60 shall be added as required bicycle parking. This calculation shall be rounded up to the next whole number. The minimum number of bicycle spaces required regardless of the calculation shall be 3 and the maximum number of bicycle spaces required regardless of the calculation shall be 40.

Note 4: For accessory buildings, the minimum required spaces for warehouse use shall be 1/7,200 sf GFA and the maximum shall be 1/5,000 sf GFA; the minimum required spaces for office use shall be 1/250 sf GFA and the maximum shall be 1/125 sf GFA.

Chapter 21.10

GENERAL TO ALL PLANS

Sections:

21.10.010 Authority.

21.10.020 Applicability.

21.10.030 Intent.

21.10.040 Process.

21.10.050 Warrants and variances.

21.10.060 Incentives.

21.10.010 Authority.

A. The adoption of this Title is authorized under Chapter 211 and Chapter 212 of the Texas Local Government Code.

B. The zoning regulations as established in this title have been made in accordance with a comprehensive plan for the purpose of promoting health, safety, morals and the general welfare of the city. They have been designed to lessen the congestion in the streets; to secure safety from fire, panic and other dangers; to provide adequate light and air; to prevent the overcrowding of land; to avoid undue concentration of population; to facilitate the adequate provision of transportation, water, sewerage, schools, parks and other public requirements. They have been made with reasonable consideration, among other things, for the character of the district and its peculiar suitability for particular uses, and with a view to conserving the value of buildings and encouraging the most appropriate use of the land throughout the city.

C. The city council on its own motion or on request may amend, supplement or change by ordinance, the regulations herein established. (Ord. 16945 § 2 (part), 2008)
(Ord. No. 17542, § 1, 4-26-2011)

21.10.020 Applicability.

A. The following general rules of construction shall apply to the regulations of this title.

1. The singular number includes the plural and the plural the singular, unless the context clearly indicates the contrary.

2. Words used in the present tense include the past and future tenses, and the future the present.

3. The word "shall" is always mandatory. The word "may" is permissive.

4. The word "building" or "structure" includes any part thereof, and the word "structure" includes the word "building."

5. Words and terms not defined herein shall be interpreted in accord with Merriam-Webster's Collegiate Dictionary, Tenth Edition.

6. Terms used throughout this title may be defined in Chapter 21.70, Definitions of Terms. Chapter 21.70 contains regulatory language that is integral to this title. In the event of conflicts between these definitions and those of the existing local land development codes, those of this title shall take precedence.

B. Title 19 (Subdivision) and Title 20 (Zoning) of the El Paso City Code ("Existing Local Land Development Codes") shall continue to be applicable to issues not covered by this title. The requirement for land studies are superseded by the regulating plan, as approved by city council, for new community plans and infill community plans. The landscaping provisions of this title shall take precedence over similar provisions in Title 18, Sections 18.46.060, 18.46.080, 18.46.090, 18.46.140 and 18.46.150, Alternative Compliance. (Ord. 16945 § 2 (part), 2008)
(Ord. No. 17542, § 2, 4-26-2011)

21.10.030 Intent.

The intent and purpose of this title is to enable, encourage and qualify the implementation of the following policies:

A. The region.

1. The region should retain its natural infrastructure and visual character derived from topography, Chihuahuan Desert habitat, farmlands, riparian corridors, arroyos and mountains.

2. New development should be organized in the patterns of Clustered Land Development (CLD), Traditional Neighborhood Development (TND), or Regional Center Development (RCD) as defined in this title.

3. Affordable housing should be distributed throughout the region to match job opportunities and to avoid concentrations of poverty.

4. Transportation corridors should be planned and reserved in coordination with land use.

5. Green corridors should be used to define and connect the urbanized areas.

6. The region should include a framework of transit, pedestrian, and bicycle systems that provide alternatives to the automobile.

7. Chapter 21.40 of this title is most appropriate for application in the areas including downtown, transit corridors, future TODs and previously urbanized mixed use centers.

B. The community.

1. TNDs and regional centers should be compact, pedestrian-oriented and mixed use.

2. TNDs and regional centers should be the preferred pattern of development and that districts specializing in a single use should be the exception.

3. Ordinary activities of daily living should occur within walking distance of most dwellings, allowing independence to those who do not drive.

4. Interconnected networks of thoroughfares should be designed to disperse and reduce the length of automobile trips.

5. Within neighborhoods, a range of housing types and price levels should be provided to accommodate diverse ages and incomes.

6. Appropriate building densities and land uses should be provided within walking distance of transit stops.

7. Civic, institutional, and commercial activity should be embedded in downtowns, not isolated in remote single-use complexes.

8. Schools should be sized and located to enable children to walk or bicycle to them.

9. A range of open spaces including parks, plazas, and playgrounds should be distributed within neighborhoods and downtowns.

C. The transect.

1. Communities should provide meaningful choices in living arrangements as manifested by distinct physical environments.

2. The transect zone descriptions on Table 1 shall constitute the intent of this title with regard to the general character of each of these environments.

3. The transect zones' characteristics, as set forth in this title, were determined through a process of public hearing with approval by the city council. Therefore, since these transect zones have been properly incorporated into this title, projects within SmartCode Zoning districts that require no variances shall be processed administratively without further council approval.

D. The block and the building.

1. Buildings and landscaping should contribute to the physical definition of thoroughfares as civic places.

2. Development should adequately accommodate automobiles while respecting the pedestrian and the spatial form of public areas.

3. The design of streets and buildings should reinforce safe environments, but not at the expense of accessibility.

4. Architecture and landscape design should grow from local climate, topography, history, and building practice.

5. Buildings should provide their inhabitants with a clear sense of geography and climate through energy efficient methods.

6. Civic buildings and public gathering places should be provided as locations that reinforce community identity and support self-government.

7. Civic buildings should be distinctive and appropriate to a role more important than the other buildings that constitute the fabric of the city.

8. The preservation and renewal of historic buildings should be facilitated, to affirm the continuity and evolution of society.

9. The harmonious and orderly evolution of urban areas should be secured through form-based codes. (Ord. 16945 § 2 (part), 2008)
(Ord. No. 17542, § 3, 4-26-2011)

21.10.040 Process.

A. Any property to be developed under this title must be part of an approved new community

plan or an infill community plan as defined and set forth in Chapter 21.30 or Chapter 21.40 of this title respectively.

B. Any property to be developed under this title must be first zoned "SmartCode Zone". The rezoning application shall include the following:

1. A site plan drawn to scale in black and white, and not less than eight and one-half inches by eleven inches and not more than twenty-four inches by thirty-six inches, showing the boundaries of the property proposed for rezoning, names of streets immediately adjacent to the property proposed for rezoning, the north point, the legal description of the property proposed for rezoning and the amount of land included. When over eight and one-half inches by eleven inches, the drawing shall be on paper suitable for reproduction;

2. A proposed regulating plan for the land being rezoned that complies with this title, consisting of one or more maps showing the following:

a. For new community plans, regulating plans designate the precise location of

(1) transect zones (Section 21.30.040);

(2) Civic Zones, including civic spaces and Civic Buildings (Section 21.30.050);

(3) Special Districts, if any (Section 21.30.060);

(4) Thoroughfare network and block layout (Section 21.30.070);

(5) Special requirements, if any (Section 21.30.090).

b. For infill community plans, regulating plans designate the precise location of:

(1) transect zones (Section 21.40.030);

(2) Civic Zones, including civic spaces and Civic Buildings (Section 21.40.040);

(3) Special Districts, if any (Section 21.40.050);

(4) thoroughfare network, existing or planned (Table 3A, Table 3B);

(5) Special Requirements, if any (Section 21.40.070).

3. Submittals of new community plans and infill community plans shall also include additional information required by this title, such as:

a. Identification of pedestrian sheds and community types;

b. Requests for warrants or variances, if any (Section 21.10.050);

c. Proof of notice of proposed application to any recognized neighborhood association required to receive notice pursuant to Chapter 2.102 of the City Code.

4. The process and procedure once an application is submitted shall be in accordance with the provisions of Article VI of Title 20, Zoning, Chapter 20.04, of the City Code, except that the application requirements specified in Section 21.10.040 B. shall supersede the application requirements stated in Article VI of Section 20.04.380, Zoning.

C. Once the property is rezoned to SmartCode Zone (SCZ), the property owner is authorized to proceed under Chapters 21.30 and 21.40, whichever is applicable, and Chapter 21.50 under this title. El Paso City Council, hereby creates a Consolidated Review Committee (CRC) comprised of a designated member or designated alternate member from each city department or other agency represented by the development coordinating committee. The CRC shall be responsible for approving adjustments to new community plans as defined in Chapter 21.30 or infill community plans as defined in Chapter 21.40 of this title and approving building scale plans as defined in Chapter 21.50 of this title. Building scale plans shall not be approved unless a new community plan or an infill community plan for the property has been approved. An owner may appeal a decision of the CRC to the city council.

D. Once the property owner receives approval of a preliminary building scale plan from the CRC (see Section 21.50.010), the property owner must comply with the provisions of Title 19 Subdivisions to receive plat approval, provided that any provisions concerning platting requirements that are specifically addressed in this title, shall take precedence over similar requirements in Title 19. Prior to the submission of any plat, the property to be developed under this title must be part of an approved preliminary building scale plan. When reviewing a plat submitted in compliance with the provisions of this title, to include approval of the

building scale plan, the city plan commission shall determine whether the preliminary building scale plans were approved by the CRC and whether the plat provisions contained in Title 19 which are not addressed in this title have been complied with. The city plan commission shall have no authority over the building scale plans other than to determine whether such preliminary plans comply with both Title 21 and Title 19, provided that where Title 19 conflicts with a specific provision under this title, addressing the same issue, the standard or requirement of this title shall prevail.

1. Applications for plat approval under this title may request to reduce the scope of, or eliminate, the Traffic Impact Analysis requirement of Title 19. The city manager or designee, upon review of such request, may modify this requirement if the applicant can adequately demonstrate that the new community plan or infill community plan will not necessitate street infrastructure improvements to the adjacent street network or neighborhoods.

E. An interim plat may be approved without reflecting the regulating plan provided that the plat contains the following plat note: "This land is zoned SmartCode and a regulating plan has been approved. Prior to the issuance of any city permits, a plat reflecting the regulating plan must be approved and recorded.

F. Should a violation of an approved new community regulating plan, infill regulating plan or building scale plan occur during construction, or should any construction, site work, or development be commenced without such an approved plan, the city engineer or designee shall require the owner to stop, remove, and/or mitigate the violation. (Ord. 16945 § 2 (part), 2008)
(Ord. No. 17542, § 4, 4-26-2011; Ord. No. 17903, § 1, 11-6-2012)

21.10.050 Warrants, variances, and adjustments.

A. There shall be three types of modifications from the requirements of this title: Warrants, and variances, and adjustments.

B. A warrant is a modification of a standard that may be granted administratively by the CRC only where specifically stated within Title 21 as allowable and may be approved only if the applicant has complied with criteria contained in Title 21 for granting of the modification. Where no specific criteria for granting of the modification is specified, a warrant may be granted only for a dimensional deviation of less than ten percent of the specified standard.

C. A variance allows a modification of a requirement under this title, provided that the modification is not contrary to the public interest and, due to special conditions, a literal enforcement of the ordinance would result in unnecessary hardship, and so that the spirit of the ordinance is observed and substantial justice is done. "Unnecessary hardship" means a hardship by reason of exceptional shape of a lot, exceptional topographic conditions, or other exceptional physical conditions of a parcel of land. Unnecessary hardship shall not include personal or financial hardship or any other hardship that is self-imposed. Requests for variances shall be heard by the zoning board of adjustment in accordance with the provisions of Chapter 2.16 of the City Code.

D. Adjustments to regulating plans within approved SmartCode Zones will be authorized administratively by the CRC if the adjusted regulating plan complies with this title, its tables, and all the following criteria are met:

1. Community types may not be changed through the adjustment process;

2. Within each community type, revisions to transect zone boundaries are permitted provided the adjusted regulating plan:

a. Does not conflict with standards for allocation of transect zones in Table 14a;

b. Does not increase the percentage of land designated as a special district above the twenty percent maximum allowed under this title;

c. Does not reduce the percentage of land designated on the approved regulating plan as civic spaces below the five percent minimum required under this title;

d. Does not create increased conflicts with adjoining land uses outside the SmartCode Zone. (Ord. 16945 § 2 (part), 2008)
(Ord. No. 17542, § 5, 4-26-2011)

21.10.060 Incentives.

A. Applications under this title shall receive highest priority review status by the CRC, zoning board of adjustment, city plan commission, and city council ahead of other applications that were eligible to use this title but elected not to do so;

B. All application or filing fees shall be waived for applications under this title;

C. City shall accept dedication and maintenance of civic space (See Table 13) as parks and open space. (Ord. 16945 § 2 (part), 2008)
(Ord. No. 17542, § 6, 4-26-2011)

Chapter 21.20

RESERVED

Chapter 21.30

NEW COMMUNITY PLANS

Sections:

21.30.010 Instructions.
21.30.020 Sequence of community design.
21.30.030 Community types.
21.30.040 Transect zones.
21.30.050 Civic zones.
21.30.060 Special districts.
21.30.070 Thoroughfare standards.
21.30.080 Density calculations.
21.30.090 Special requirements.
21.30.100 Environmental standards.

21.30.010 Instructions.

A. For land areas containing a minimum of forty contiguous acres. the provisions of this chapter and this title in general shall be available upon request for rezoning to a SmartCode Zone by the applicant and approval by city council. This rezoning shall be subject to the same requirements of any rezoning within the city plus the application applicant requirements in Section 21.10.040 A. of this title.

B. New community plans must conform to the comprehensive plan, which may be amended by approval of the city council.

C. Upon rezoning of an area as a SmartCode Zone, all parcels within the zone shall be marked as such on the zoning map of El Paso. Within the SmartCode Zone. the approved regulating plan and this title shall become the exclusive and mandatory zoning regulation, and its provisions, as altered by approved warrants, variances, and adjustments, and those of the subsequently approved building scale plans, shall be applied in their entirety.

D. New community plans may be prepared by an owner or by the planning division.

E. New community plans shall include a regulating plan consisting of one or more maps showing the following, and demonstrating their compliance with the standards described in this chapter.

1. transect zones;
2. Civic Zones, including civic spaces and Civic Buildings;
3. Special Districts, if any;
4. thoroughfare network and block layout;
5. Special requirements, if any

F. New community plan submittals shall also include additional information required by this chapter, such as:

1. Identification of pedestrian sheds and community types;
2. Density calculations;
3. Requests for warrants or variances, if any.

(Ord. 16945 § 2 (part), 2008)
(Ord. No. 17378, § 1, 8-24-2010; Ord. No. 17441, § 1, 10-26-2010; Ord. No. 17542, § 7, 4-26-2011)

21.30.020 Sequence of community design.

A. The site shall be overlaid with one or several pedestrian sheds, responding to existing conditions, adjacent developments, connecting thoroughfares, and natural features. The pedestrian sheds shall overlap to the minimum extent possible and cover the maximum reasonable portion of the site. The site may be smaller than its pedestrian shed.

B. Each pedestrian shed shall be designated with a community type in accordance with Section 21.30.030. The pedestrian sheds shall determine the approximate boundaries and centers of the communities.

C. Transect zones shall be allocated by pedestrian shed according to the applicable community type and in accordance with Table 14a.

D. Civic zones shall be assigned according to Section 21.30.050.

E. The thoroughfare network shall be laid out according to Section 21.30.070.

F. Density shall be calculated according to Section 21.30.080.

G. Any remnants of the site outside the pedestrian sheds shall be assigned to Transect Zones T1 through T3, civic space or special districts.

H. Airport new community plans shall include all of the above requirements in accordance with Table 16.

I. Airport new community plans shall include a combination of airport special districts and T1. (Ord. 16945 § 2 (part), 2008)
(Ord. No. 17378, § 1, 8-24-2010)

21.30.030 Community types.

A. Clustered land development (CLD).

1. A clustered land development (CLD) shall be structured by one standard pedestrian shed and shall consist of no fewer than thirty acres and no more than eighty acres.

2. A CLD shall include transect zones as allocated on Table 14a. A minimum of fifty percent of the community shall be permanently allocated to a T1 Natural Zone and/or T2 Rural Zone.

B. Traditional neighborhood development (TND).

1. A traditional neighborhood development (TND) shall be structured by one standard or linear pedestrian shed and shall be no fewer than eighty acres and no more than one hundred sixty acres.

2. A TND shall include transect zones as allocated on Table 14a.

3. Larger sites shall be designed and developed as multiple communities, each subject to the individual transect zone requirements for its type as allocated on Table 14a. The simultaneous planning of adjacent parcels is encouraged.

4. In the T-4 and T4-O General Urban Zones, a minimum residential mix of three building disposition types (none less than twenty percent) shall be required, selected from Table 9.

C. Regional center development (RCD).

1. A regional center development (RCD) shall be structured by one long pedestrian shed or linear pedestrian shed and shall consist of no fewer than eighty acres and no more than six hundred forty acres.

2. An RCD shall include transect zones as allocated on Table 14a.

3. For larger sites, an RCD may be adjoined without buffer by one or more TNDs, each subject to the individual transect zone requirements for TND as allocated on Table 14a. The simultaneous planning of adjacent parcels is encouraged.

D. Transit-oriented development (TOD) overlay.

1. Any TND or RCD on an existing or projected rail or bus rapid transit (BRT) network may be designated in whole or in part with a TOD overlay and may include, at a maximum in a general urban setting, an allocation of transect zones per pedestrian shed, building height, and density as follows: T3 (sub-urban zone) sixty percent, two and one-half stories, twenty dwelling units per acre; T4 (general urban zone) fifty percent, three stories, thirty-five dwelling units per acre maximum; T4-O (general urban zone-open) forty percent, four stories, fifty dwelling units per acre maximum; T5 (urban center zone) thirty percent, five stories, 70 dwelling units per acre maximum; T5O *urban center zone-open) thirty percent, eight stories, one hundred dwelling units per acre maximum.

2. A proposed TOD overlay shall be clearly indicated on a new community regulating plan and shall be subject to approval by the city council concurrently with approval of, or amendment to, a SmartCode Zone.

E. Airport resort development (ARD).

1. An airport resort development (ARD) shall be structured by one standard or linear pedestrian shed and shall be no fewer than forty acres and no more than one hundred sixty acres.

2. An ARD shall include special districts as allocated on Table 16a.

3. Larger sites shall be designed and developed as multiple communities, each subject to the individual special district requirements for its type as allocated on Table 16a. The simultaneous planning of adjacent parcels is encouraged.

F. Airport employment development (AED).

1. An airport employment development (AED) shall be structured by one standard or

linear pedestrian shed and shall be no fewer than forty acres and no more than one hundred eighty acres.

2. An AED shall include special districts as allocated on Table 16a.

3. Larger sites shall be designed and developed as multiple communities, each subject to the individual special district requirements for its type as allocated on Table 16a. The simultaneous planning of adjacent parcels is encouraged. (Ord. 16945 § 2 (part), 2008)
(Ord. No. 17378, § 1, 8-24-2010; Ord. No. 17542, § 8, 4-26-2011; Ord. No. 17787, § 1, 5-15-2012)

21.30.040 Transect zones.

A. transect zones shall be assigned and mapped on each proposed new community regulating plan according to the percentages allocated on Table 14a for the proposed community type.

B. After approval into a SmartCode Zone by the city council, land in each transect zone may include any of the elements indicated for its T-Zone number throughout this title, in accordance with intent described in Table 1 and the metric standards summarized in Table 14. If transect zone boundaries are adjusted by the CRC in accordance with Section 21.10.050, the standards in this title will then apply to each transect zone as shown on the adjusted regulating plan. (Ord. 16945 § 2 (part), 2008)
(Ord. No. 17542, § 9, 4-26-2011)

21.30.050 Civic zones.

A. General.

1. Civic zones dedicated for public use shall be required for each new community plan and designated on the new community regulating plan as civic space (CS) or civic building (CB). Property designated as a civic zone must also be assigned to a transect zone.

2. Civic space zones are public sites permanently dedicated to open space.

3. Civic building zones are sites dedicated for buildings generally operated by not-for-profit organizations dedicated to culture. education, religion, government, transit and municipal parking, or for a use approved by the city council.

4. When a warrant is required by Table 14e, a civic zone may be permitted by warrant if it does not occupy more than twenty percent of a pedestrian shed, otherwise it is subject to the creation of a special district. See Section 21.30.060.

B. Civic zones specific to T1 and T2 zones.

1. Civic buildings and civic spaces within T1 natural and T2 rural zones shall be permitted only when approved by city council when the regulating plan is approved.

C. Civic space (CS) specific to T3—T6 zones.

1. Each pedestrian shed shall assign at least five percent of its urbanized area to civic space.

2. Civic spaces shall be designed as generally described in Table 13, and distributed throughout transect zones as described in Table 14e.

3. Those portions of the T1 natural zone that occur within a development parcel shall be part of the civic space allocation and shall conform to the civic space types specified in Table 13a or 13b.

4. Each pedestrian shed shall contain at least one main civic space. The main civic space shall be within eight hundred feet of the geographic center of each pedestrian shed, unless topographic conditions, pre-existing thoroughfare alignments or other circumstances prevent such location. A main civic space shall conform to one of the types specified in Table 13b, 13c, or 13d.

5. Within eight hundred feet of every lot in residential use, a civic space designed and equipped as a playground shall be provided. A playground shall conform to Table 13e.

6. Each civic space shall have a minimum of fifty percent of its perimeter enfronting a thoroughfare, except for playgrounds.

7. Parks may be permitted in transect zones T4, T4-O, T5, TSO, and T6 by warrant, provided that they meet the following criteria:

a. That the parks and recreation director approves such request; and

b. That the edges of the park be completely bounded by building frontages, like with squares.

D. Civic buildings (CB) specific to T3—T6 zones.

1. The owner shall covenant to construct a meeting hall or a third place in proximity to the main civic space of each pedestrian shed. Its corresponding public frontage shall be equipped with a shelter and bench for a transit stop.

2. One civic building lot shall be reserved for an elementary school. The school site may be within any transect zone. Any playing fields should be outside the pedestrian shed.

3. Reserved.

4. Civic building sites shall not occupy more than twenty percent of the area of each pedestrian shed.

5. Civic building sites should be located within or adjacent to a civic space, or at the axial termination of a significant thoroughfare.

6. Civic buildings shall be subject to the standards of Chapter 21.50.

7. Civic buildings may also be permitted within special districts.

E. Civic space (CS) specific to SD1—SD7 special districts.

1. Civic Spaces shall be designed as generally described in Table 13, and distributed throughout special districts as described in Table 16e.

2. Civic spaces may be permitted within special districts by right, but may not exceed fifty percent of the special district.

3. Playgrounds are not required in SD3—SD5 because of FAA limitations on residential.

4. AED pedestrian sheds shall assign at least two and one-half percent of their urbanized area to civic space.

5. ARD pedestrian sheds shall assign at least five percent of their urbanized area to civic space. Butterfield Trail Golf Club may contribute to the civic space requirement in an ARD. (Ord. 16945 § 2 (part), 2008)

(Ord. No. 17378, § 1, 8-24-2010; Ord. No. 17542, § 10, 4-26-2011; Ord. No. 17787, § 2, 5-15-2012; Ord. No. 17962, § 1, 3-5-2013)

21.30.060 Special districts.

A. Special district designations shall be assigned to areas that, by their intrinsic size, function, or configuration, cannot conform to the requirements of any transect zone, or combination of zones and shall be assigned transect zones, in accordance with the standard in Table 14, as an underlay.

B. Special districts that do not have provisions within this title (see Section 21.80.220, Table 16) shall be excluded from the SmartCode Zone and governed by the standards of the existing zoning.

C. Special districts shall not exceed twenty percent of the total net site area for each community type. Airport Special Districts and the Northwest Park Special District shall be excluded from this requirement.

D. Airport special districts shall only be available for new communities on El Paso International Airport properties.

E. Airport special districts shall be assigned and mapped on each airport community plan according to the percentages allocated on Table 16a.

F. An airport special district may include any of the elements indicated for its special district number throughout this title, in accordance with the metric standards summarized in Table 16.

G. Twenty years after the approval of a regulating plan, each special district, except the airport special districts, shall be automatically rezoned to the underlay transect zones. (Ord. 16945 § 2 (part), 2008)

(Ord. No. 17378, § 1, 8-24-2010; Ord. No. 17542, § 11, 4-26-2011; Ord. No. 17962, § 2, 3-5-2013)

21.30.070 Thoroughfare standards.

A. General.

1. Thoroughfares are intended for use by vehicular and pedestrian traffic and to provide access to lots and open spaces.

2. Thoroughfares shall generally consist of two parts: vehicular lanes and public frontages.

3. Thoroughfares shall be designed in context with the urban form and desired design speed

of the transect zones through which they pass. The public frontages of thoroughfares that pass from one transect zone to another shall be adjusted accordingly or, alternatively, the transect zone may follow the alignment of the thoroughfare to the depth of one lot, retaining a single public frontage throughout its trajectory.

4. Within the most rural zones (T1 and T2) pedestrian comfort shall be a secondary consideration of the thoroughfare. Design conflict between vehicular and pedestrian generally shall be decided in favor of the vehicle. Within the more urban transect zones (T3 through T6) pedestrian comfort shall be a primary consideration of the thoroughfare. Design conflict between vehicular and pedestrian movement generally shall be decided in favor of the pedestrian.

5. The thoroughfare network shall be designed to define blocks not exceeding the size prescribed in Table 14c and Table 16c. The perimeter shall be measured as the sum of lot frontage lines. Block perimeter at the edge of the development parcel shall be subject to approval by warrant, if the deviation allowed by the warrant is no more than twenty percent from the standard specified in Table 14c and Table 16c.

6. All thoroughfares shall terminate at other thoroughfares, forming a network. Internal thoroughfares shall connect wherever possible to those on adjacent sites. Culs-de-sac are explicitly discouraged and shall be subject to approval in T2 and T3 by warrant only where there are exceptional topographic conditions that do not allow through connections.

7. Each lot shall enfront a vehicular thoroughfare, except that twenty percent of the lots within each transect zone may enfront a passage. By warrant, lots within each transect zone that enfront both a passage and an *Ephemeral Stream* shall not be counted towards the twenty percent maximum.

8. Thoroughfares along a designated B-grid may be exempted by warrant from one or more of the specified public frontage or private frontage requirements, if at least one of the requirements specified in Tables 4A, 4B and 7 are met. See Table 4A and Table 7.

9. Reserved.

10. The standards for thoroughfares within special districts shall be determined by city council when the regulating plan is approved, except the airport special districts thoroughfare standards may be determined from Tables 3A, 3B, 4A, 4B and 4C.

B. Vehicular lanes.

1. Thoroughfares may include vehicular lanes in a variety of widths for parked and for moving vehicles, including bicycles. The standards for vehicular lanes shall be as shown in Table 3A.

2. A bicycle network consisting of bicycle trails, bicycle routes and bicycle lanes should be provided throughout as defined in Chapter 21.70, Definitions of Terms and allocated as specified in Table 14d. The community bicycle network shall be connected to existing or proposed regional networks wherever possible.

C. Public frontages.

1. General to all zones T1, T2, T3, T4, T4-0, T5, T50, T6 and special districts SDI, SD2, SD3, SD4, SD5, SD6, SD7.

a. The public frontage contributes to the character of the transect zone, and includes the types of sidewalk, curb, planter, bike lanes and street trees.

b. Public frontages shall be designed as shown in Table 4A and Table 4B and allocated within transect zones as specified in Table 14d and special districts as specified in Table 16d.

c. Within the public frontages, the prescribed types of public planting and public lighting shall be as shown in Table 4A, Table 4B, Table 5 and Table 6. The spacing may be adjusted by warrant to accommodate specific site conditions, if it is within a twenty percent deviation.

2. Specific to zones T1, T2, T3.

a. The public frontage shall include native trees of various species, naturalistically clustered, as well as understory.

b. The introduced landscape shall consist primarily of native species requiring minimal irrigation, fertilization and maintenance.

3. Specific to zones T4, T4-O, T5, T5O, T6.

a. The introduced landscape shall consist primarily of durable species tolerant of soil compaction.

4. Specific to zone T4.

a. The public frontage shall include trees planted in a regularly-spaced allee pattern of single or alternated species with shade canopies of a height that, at maturity, clears at least one story.

5. Specific to zones T4-O, T5, T5O, T6.

a. The public frontage shall include trees planted in a regularly-spaced allee pattern of single species with shade canopies of a height that, at maturity, clears at least one story. At retail frontages, the spacing of the trees may be irregular, to avoid visually obscuring the shopfronts. (Ord. 16945 § 2 (part), 2008)

(Ord. No. 17378, § 1, 8-24-2010; Ord. No. 17542, § 12, 4-26-2011; Ord. No. 17787, § 3, 5-15-2012; Ord. No. 17962, § 3, 3-5-2013)

21.30.080 Density calculations.

A. All areas of the new community plan regulating plan site that are not part of the T-1 Zone shall be considered cumulatively the net site area. The net site area shall be allocated to the various transect zones according to the parameters specified in Table 14a and the special districts according to the parameters specified in Table 16a.

B. Density shall be expressed in terms of housing units per acre as specified for the area of each transect zone by Table 14b. For purposes of density calculation, the transect zones include the thoroughfares but not land assigned to civic zones.

C. Reserved.

D. Within the percentage range shown on Table 14b for other functions, the housing units specified on Table 14b shall be exchanged at the following rates:

1. For lodging: Two bedrooms for each unit of net site area density;

2. For office or retail: One thousand square feet for each unit of net site area density.

3. Special districts are not required to exchange base residential density for other functions. Other functions within a special district is controlled by form metrics on Table 16.

E. The housing and other functions for each transect zone shall be subject to further adjustment at the building scale as limited by Table 10 and Table 11 and Section 21.50.090. (Ord. 16945 § 2 (part), 2008)

(Ord. No. 17378, § 1, 8-24-2010; Ord. No. 17542, § 13, 4-26-2011)

21.30.090 Special requirements.

A. A new community regulating plan may designate and upon designation shall enforce any of the following special requirements which, if approved, shall then be enforced at the building scale plan stage:

1. A differentiation of the thoroughfares as A-grid and B-grid. Buildings along the A-grid shall be held to the highest standard of this title in support of pedestrian activity. The frontages assigned to the B-grid shall not exceed thirty percent of the total length of frontages within a pedestrian shed. There is no limitation on the B-grid within SD5.

2. Designations for mandatory and/or recommended retail frontage requiring or advising that a building provide a shopfront at sidewalk level along the entire length of its private frontage. The shopfront shall be no less than seventy percent glazed in clear glass and shaded by an awning overlapping the sidewalk as generally illustrated in Table 7 and specified in Chapter 21.50. The first floor shall be confined to retail use through the depth of the second layer (Table 17d). Special districts that require retail frontage do not require retail use.

3. Designations for mandatory and/or recommended gallery frontage, requiring or advising that a building provide a permanent cover over the sidewalk, either cantilevered or supported by columns. The gallery frontage designation may be combined with a retail frontage designation.

4. Designations for mandatory and/or recommended arcade frontage, requiring or advising that a building overlap the sidewalk such that the first floor facade is a colonnade. The arcade frontage designation may be combined with a retail frontage designation.

5. A designation for coordinated frontage, requiring that the public frontage (Table 4A) and private frontage (Table 7) be coordinated as a single, coherent landscape and paving design.

6. Designations for mandatory and/or recommended terminated vista locations, requiring or advising that the building be provided with architectural articulation of a type and character that responds visually to the location, as approved by the CRC.

7. A designation for cross block passages, requiring that a minimum eight-foot-wide pedestrian access be reserved between buildings. (Ord. 16945 § 2 (part), 2008)
(Ord. No. 17378, § 1, 8-24-2010; Ord. No. 17542, § 14, 4-26-2011)

21.30.100 Environmental standards.

A. General.

1. Transect zones manifest a range of natural and urban conditions. In case of conflict, the natural environment shall have priority in the more rural zones (T1—T3) and the built environment shall have priority in the more urban zones (T4—T6).

a. Trees should be planted below the grade of the sidewalk and the street in structural cells with sufficient root space.

b. Rain gardens and bioswales should be installed to infiltrate runoff from parking lots, thoroughfares, plazas and other impervious surfaces.

c. Where vegetative solutions are not feasible, porous concrete or porous asphalt should be specified for sidewalks, parking lots, and plazas to infiltrate stormwater.

2. There shall be designated ephemeral streams, generating a stream buffer subject to a standard for crossing and protection of its riparian condition as specified below for each transect zone.

3. There shall be designated wetlands subject to a standard of restoration, retention, and mitigation as specified below for each transect zone.

B. Environmental contamination.

1. The level of contamination on Brownfield sites may impact and limit the ability to comply with all standards established under this title, although the form of a particular set of transects may still be appropriate. If the Texas Commission on Environmental Quality (TCEQ) or the Environmental Protection Agency (EPA) has placed environmental restrictions on a designated Brownfield site, then by warrant, the following modifications may be granted provided that such modifications are necessary and attributable solely to the environmental restrictions and would still allow for the Brownfield site to be developed under the remaining requirements of this title.

a. The acreage requirements of Section 21.30.030.

b. Removal of certain uses in Table 12.

c. Allocation of zones in Table 14a.

d. Block size requirements of Table 14c, specifically where contamination is contained.

C. Specific to zone T1, utility green space designation.

1. Within a T1 zone, the area shown as open space may be designated as utility green space for the purpose of protecting and conserving lands to:

a. Add to the existing open space system and enhance the ecological, hydrological, and recreational vitality of the existing Franklin Mountains and foothill areas;

b. Promote planning and growth that emphasizes sustainability in our built and natural environments;

c. Promote careful management to reduce environmental impacts to the water, waste water and stormwater systems in the community;

d. Protect healthy ecosystems through environmental management and measurement by:

(1) Reducing impervious cover that contributes to degradation of water resources;

(2) Reducing rainfall pollutant loads to streams and other water resources;

(3) Reducing potential pressure to encroach on utility resource buffer areas;

(4) Reducing soil erosion potential by reducing the amount of clearing and grading required;

(5) Promoting erosion and sediment control;

(6) Reducing capital cost of utility infrastructure;

(7) Reducing cost of stormwater management by concentrating runoff and reducing volumes;

e. Promote a high quality, sustainable utility system that conserves and protects land, watershed, wastewater, reclaimed water and water resources;

f. Optimize best practices in planning, engineering and management that will protect the environment; and

g. Protect the ecological and geological health and function of green space.

2. Where a utility green space is designated within a T1 zone, a conservation covenant may be required to provided further protection to the area.

3. In addition to allowing use of the land for water, wastewater, and stormwater utility systems, other passive recreational uses and activities customarily found in conserved natural areas are also permitted (such as, but not limited to, trail corridors and trailheads, scenic outlooks, and pedestrian walking and jogging paths). Notwithstanding the allowable uses and activities described in this section, the mandating restriction of uses and activities permitted on land within a utility green space designated within a T1 zone shall be as set forth in the regulating plan. Should the land also be covered by a conservation covenant, the conservation covenant shall enumerate the use(s) permitted and prohibited, shall detail how use of the land shall be authorized pursuant to this section, and shall include a management plan for maintenance, monitoring and enforcement of these use provisions. In no case shall a use not satisfying the general intent of these regulations be permitted as a provision of the conservation covenant.

4. Any property designated as utility green space within a T1 zone shall be subject to the development standards of the El Paso City Code as part of construction, reconstruction, or alteration of any permitted use, and any additional development standards as may be enumerated in the regulating plan.

5. Water, wastewater, and stormwater utility systems, for purposes of this section, shall mean the systems of the city as they may be constructed or now exist and may be improved, added to, or extended hereafter, there being included in such term all water, sewer and stormwater facilities now or hereafter owned or operated by the El Paso Water Utilities - Public Service Board, and including all real and personal property comprising any part of or used or useful in the operation of the water, waste water, and stormwater facilities of the city. Specific facilities shall include, but not be limited to, any facility or structure that stores, pumps, conveys, treats, or disposes of potable water, reclaimed water, wastewater, and/or stormwater and the associated residuals with the appropriate resource buffer zone. In addition, other public utility facilities which serve to distribute and transmit electrical power, gas and other essential service necessary to the water, waste water, and stormwater utility systems are also authorized.

6. Utility green space designated within a T1 zone shall not be considered a park or civic space, nor shall acceptance of a dedication and maintenance by the city be required.

D. Specific to zone T1, stormwater open space designation. Within a T1 zone, the areas shown as open space may be designated as stormwater open space where natural drainage is to be permitted to the extent reasonably possible to preserve the city's open spaces, greenways, arroyos, and wilderness areas. Stormwater open space may allow for passive recreational use, and may be considered a park or park/pond with dedication and mainte-

nance by the city. Notwithstanding any other provision of this section, stormwater open space shall permit necessary water, waste water, and stormwater utility systems.

E. Specific to zones T1, T2.

1. Within T1 zones and T2 zones, the encroachment and modification of natural conditions listed in Section 21.30.100 F.1. shall be limited according to applicable local, state and federal law.

2. The stream buffers for streams shall extend one hundred feet from each side of the centerline of the watercourse or the limits of the one-hundred-year floodplain, whichever is greater. Stream buffers shall be maintained free of structures or other modifications to the natural landscape, including agriculture. Thoroughfare crossings shall be permitted when approved by city council as part of the regulating plan.

3. Wetlands shall be retained and restored if in a degraded condition. Additional buffers shall be maintained at one hundred feet. Wetland buffers shall be maintained free of structures or other modifications to the natural landscape, including agriculture. Thoroughfare crossings shall be permitted only when approved by city council as part of the regulating plan.

F. Specific to zones T1, T2, T3.

1. Stormwater management on thoroughfares shall be primarily through retention and percolation, channeled by curbside swales.

G. Specific to zones T3, T4, T4-O. Native plant perennial landscapes should replace turf grass where possible and be very diverse. They should be placed lower than walkways, not mounded up.

H. Specific to zone T3.

1. Within T3 zones, the continuity of the urbanized areas shall be subject to the precedence of the natural environmental conditions in the categories below. The alteration of such conditions shall be limited according to local, state and federal law.

a. Surface waterbodies;

b. Protected wetlands;

c. Protected habitat;

d. Riparian corridors;

e. Purchased open space;

f. Conservation easements;

g Transportation corridors;

h. Areas residual to clustered land development (CLD);

i. Floodplain, including special flood hazard areas;

j. Steep slopes.

2. The stream buffer shall extend one hundred feet from each side of the centerline of the watercourse or the limits of the one-hundred-year floodplain, whichever is greater. Stream buffers shall be maintained free of structures, except that thoroughfare crossings may be permitted.

3. Wetlands shall be retained and restored if in degraded condition. Additional buffers shall be maintained at fifty feet. Buffers shall be free of structures or other modifications to the natural landscape. Thoroughfare crossings shall be permitted only when approved by city council as part of the regulating plan.

I. Specific to zone T4.

1. Within T4 zones, the continuity of the urbanized areas shall take precedence over the natural environmental conditions listed in Section 21.30.100 F.1. The alteration of such conditions shall be mitigated off-site.

2. The stream buffers shall extend fifty feet from each side of the centerline of the watercourse or the limits of the one-hundred-year floodplain, whichever is greater. Stream buffers and streams of all classes may be crossed by thoroughfares as required by the thoroughfare network.

3. Wetlands shall be retained and maintained free of structures or other modifications to the natural landscape. Thoroughfare crossings may be permitted.

J. Specific to zones T4-O, T5.

1. Within T4-O and T5 zones, the continuity of the urbanized areas shall take precedence over the natural environmental conditions listed in Section 21.30.100 F.1. The alteration of such conditions should be mitigated off-site.

2. The stream buffers shall extend twenty-five feet from each side of the centerline of the watercourse or the limits of the one-hundred year floodplain, whichever is greater, with the exception that stream buffers and streams of all classes may be embanked and crossed by thoroughfares as required by the thoroughfare network.

3. Wetlands may be modified if mitigated off-site at a two to one ratio. Thoroughfare crossings shall be permitted by right.

K. Specific to zones T5O, T6.

1. Within T5), T6 Zones, the continuity of the urbanized areas shall take precedence over the natural environmental conditions listed in Section 21.30.100 F.1. The alteration of such conditions shall not require off-site mitigation.

2. The stream buffers shall extend twenty-five feet from each side of the centerline of the watercourse or the limits of the one-hundred-year floodplain, whichever is greater, with the exception that stream buffers and streams of all classes may be embanked and crossed or enclosed by thoroughfares as required by the thoroughfare network.

3. Wetlands may be modified, not requiring off-site mitigation. Thoroughfare crossings shall be permitted by right.

L. Specific to zones T4, T4-O, T5, T5O, T6 and special districts SD3, SD4, SD5, SD7.

1. Stormwater management on thoroughfares and lots shall be primarily through underground storm drainage channeled by raised curbs, and there shall be no retention or detention required on the individual lot. (Ord. 16945 § 2 (part), 2008)

(Ord. No. 17542, § 15, 4-26-2011; Ord. No. 17787, § 4, 5-15-2012; Ord. No. 17903, § 2, 11-6-2012; Ord. No. 17962, § 4, 3-5-2013)

Chapter 21.40

INFILL COMMUNITY PLANS

Sections:

21.40.010 Instructions.
21.40.020 Infill community types.
21.40.030 Transect zones.
21.40.040 Civic zones.
21.40.050 Special districts.
21.40.060 Pre-existing conditions.
21.40.070 Special requirements.

21.40.010 Instructions.

A. Upon direction by city council, and in conformance with the comprehensive plan, the planning division may prepare, or have prepared on its behalf, infill community plans to guide further development infill community plans shall be prepared in a process of public consultation.

B. Infill community plans are intended to regulate, at minimum, at least five acres. The community type shall be based on existing conditions and intended evolution in the plan area.

C. Infill community plans shall include a regulating plan consisting of one or more maps showing the following, and demonstrating their compliance with the standards described in this chapter.

1. transect zones (Section 21.40.030);

2. Civic Zones, including civic spaces and Civic Buildings (Section 21.40.040);

3. Special districts, if any (Section 21.40.050);

4. A thoroughfare network, existing or planned (Table 3A, Table 3B);

5. Special requirements, if any (Section 21.40.070);

6. A landscape plan, if any;

7. A signage plan, if any;

8. A lighting plan, if any;

D. Infill community plan submittals shall also include additional information required by this chapter, such as:

1. Identification of pedestrian sheds and community types;

2. Requests for warrants or variances, if any.

E. Upon rezoning of an area as a SmartCode Zone, all parcels within the zone shall be marked as such on the zoning map of El Paso. Within the SmartCode Zone, the approved infill regulating plan and this title shall become the exclusive and mandatory zoning regulation, and its provisions, as altered by approved warrants, variances, and adjustments, shall be applied in their entirety property owners within the plan area may submit building scale plans under Chapter 21.50 in accordance with the provisions of this title. Building scale plans requiring no variances shall be approved administratively by the CRC. (Ord. 16945 § 2 (part), 2008)

(Ord. No. 17441, § 12, 4-26-2011; Ord. No. 17542, § 17, 4-26-2011)

21.40.020 Infill community types.

A. Infill regulating plans shall encompass one or more of the following infill community types. The allocation percentages of Table 14a do not apply.

B. Infill TND (traditional neighborhood development).

1. An infill TND shall be assigned to neighborhood areas that are predominantly residential with one or more mixed use corridors or centers. An infill TND shall be mapped as at least one complete standard pedestrian shed, which may be adjusted as a network pedestrian shed, oriented around one or more existing or planned common destinations.

2. The edges of an infill TND should blend into adjacent neighborhoods and/or a downtown without buffers.

C. Infill RCD (regional center development).

1. An infill RCD should be assigned to urban core areas that include significant office and retail uses as well as government and other civic institutions of regional importance. An infill RCD shall be mapped as at least one complete long or linear pedestrian shed, which may be adjusted as a network pedestrian shed, oriented around and important mixed use corridor or center.

2. The edges of an infill RCD should blend into adjacent neighborhoods without buffers.

D. Infill TOD (transit-oriented development) overlay.

1. Any infill TND or infill RCD on an existing or projected rail or bus rapid transit (BRT) network may be re-designated in whole or in part as with a TOD overlay and permitted the higher density represented by the effective parking allowance in Section 21.50.090 B.4.

2. A proposed TOD overlay shall be clearly indicated on an Infill regulating Plan and shall be subject to approval by the City Council concurrently with approval of, or amendment to, a SmartCode Zone.

E. Infill RCD-airport (regional center development).

1. An infill RCD-airport should be assigned to urban core areas that are within one mile of the airport terminal, or along the Montana BRT route. An infill RCD-airport shall be mapped as at least one complete long or linear pedestrian shed, which may be adjusted as a network pedestrian shed, oriented around an important mixed use corridor or center. The RCD-airport may contain one or more standard pedestrian sheds in combination with a long or linear pedestrian shed.

2. The edges of an infill RCD-airport should blend into adjacent neighborhoods without buffers. (Ord. 16945 § 2 (part), 2008)
(Ord. No. 17542, § 18, 4-26-2011; Ord. No. 17787, § 5, 5-15-2012; Ord. No. 17898, § 1, 10-30-2012)

21.40.030 Transect zones.

A. Transect zone standards for infill regulating plans have been calibrated by means of a survey of exemplary existing and intended conditions, as identified in a process of public consultation and were later adopted into this title by city council.

B. After approval into a SmartCode Zone by the city council, landowners in each transect zone may obtain building scale plans that include any of the elements indicated by Chapters 21.40 and 21.50. (Ord. 16945 § 2 (part), 2008)
(Ord. No. 17542, § 19, 4-26-2011)

21.40.040 Civic zones.

A. General.

1. Infill regulating plans should designate civic space zones (CS) and civic building zones (CB). Civic spaces are public sites permanently dedicated to open space. Civic zones are designated on infill community regulating plans; property designated as a civic zone must also be assigned to a transect zone.

2. A civic zone may be permitted if it does not occupy more than twenty percent of a pedestrian shed, otherwise it is subject to the creation of a special district. See Section 21.40.050.

B. Civic space zones (CS).

1. Civic spaces shall be generally designed as described in Table 13, their type determined by their transect zone.

C. Civic building zones (CB).

1. Civic buildings shall be permitted on civic building zones reserved in the infill regulating plan.

2. Civic buildings shall be subject to the requirements of Chapter 21.50. (Ord. 16945 § 2 (part), 2008)
(Ord. No. 17542, § 20, 4-26-2011)

21.40.050 Special districts.

A. Areas that, by their intrinsic size, function, or configuration, cannot conform to the requirements of any transect zone or combination of zones shall be designated as special districts by the planning division in the process of preparing an infill community plan.

B. Special districts that do not have provisions within this title (see Section 21.80.220, Table 16) shall be excluded from the SmartCode Zone and governed by the standards of the existing zoning. (Ord. 16945 § 2 (part), 2008)
(Ord. No. 17441, § 3, 10-26-2010; Ord. No. 17542. § 21, 4-26-2011)

21.40.060 Pre-existing conditions.

A. Existing buildings and appurtenances that do not conform to the provisions of this title may continue in the same use and form until a substantial modification occurs or is requested, at which time the consolidated review committee (CRC) shall determine the provisions of this section that shall apply.

B. Reserved.

C. The modification of existing buildings or the improvement of thoroughfares is permitted by right if such changes result in greater conformance with the specifications of this title.

D. Where buildings exist on adjacent lots, the CRC may require that a proposed building match one or the other of the adjacent setbacks and heights rather than the provisions of this title.

E. Reserved.

F. The restoration or rehabilitation of an existing building shall not require the provision of: (a) parking in addition to that existing, or (b) on-site stormwater retention/detention in addition to that existing. Existing parking requirements that exceed those for this title may be reduced as provided by Tables 10 and 11. (Ord. 16945 § 2 (part), 2008)

(Ord. No. 17542, § 22, 4-26-2011; Ord. No. 17787, § 6, 5-15-2012)

21.40.070 Special requirements.

A. An infill regulating plan may designate any of the following special requirements, which if approved shall then be enforced at the building scale plan stage:

1. A differentiation of the thoroughfares as A-grid and B-grid. Buildings along the A-grid shall be held to the highest standard of this title in support of pedestrian activity. Buildings along the B-grid may allow automobile-oriented standards. The Frontages assigned to the B-grid shall not exceed thirty percent of the total length of frontages within a pedestrian shed. There is no limitation on the B-grid within SD5.

2. Designations for mandatory and/or recommended retail frontage requiring or advising that a building provide a shopfront at sidewalk level along the entire length of its private frontage. The shopfront shall be no less than seventy percent glazed in clear glass and shaded by an awning overlapping the sidewalk as generally illustrated in Table 7 and specified in Chapter 21.50. The first floor shall be confined to retail use through the depth of the second layer. (Table 17d.)

3. Designations for mandatory and/or recommended gallery frontage, requiring or advising that a building provide a permanent cover over the sidewalk, either cantilevered or supported by columns. The gallery frontage designation may be combined with a retail frontage designation.

4. Designations for mandatory and/or recommended arcade frontage, requiring or advising that a building overlap the sidewalk such that the first floor façade is a colonnade. The arcade frontage designation may be combined with a retail frontage designation.

5. A designation for coordinated frontage, requiring that the public frontage (Table 4A) and private frontage (Table 7) be coordinated as a single, coherent landscape and paving design.

6. Designations for mandatory and/or recommended terminated vista locations, requiring or advising that the building be provided with architectural articulation of a type and character that responds visually to the location, as approved by the CRC.

7. A designation for cross block passages, requiring that a minimum eight-foot-wide pedestrian access be reserved between buildings.

8. Designations for mandatory and/or recommended forecourt frontage, requiring or advising that a portion of the façade is close to the frontage line and the central portion is set back for cafes or vehicular drop-offs. The forecourt frontage designation may be combined with a retail frontage designation. (Ord. 16945 § 2 (part), 2008)

(Ord. No. 17542, § 23, 4-26-2011; Ord. No. 17898, § 2, 10-30-2012)

Chapter 21.50

BUILDING SCALE PLANS

Sections:

21.50.010 Instructions.

21.50.020 Reserved.

21.50.030 Special requirements.

21.50.040 Civic zones.

21.50.050 Specific to T1 Natural Zone.

21.50.060 Building disposition.

21.50.070 Building configuration.

21.50.080 Building function.

21.50.090 Parking and density calculations.

21.50.100 Parking location standards.

21.50.110 Landscape standards.

21.50.120 Signage Standards

21.50.120.010 Purposes.

21.50.120.020 Applicability.

21.50.120.030 Findings.

21.50.120.040 Nonconforming signs.

21.50.120.050 Prohibited signs.

21.50.120.060 Exempt signs.

21.50.120.070 General requirements.

21.50.120.080 Alternative sign hardware requirements.

21.50.120.090 Permit required.

21.50.120.100 Appeals.

21.50.120.110 Removal of signs.

21.50.120.120 Temporary sign standards.

21.50.120.130 Sign measurement.

21.50.120.140 Definitions.

21.50.130 Natural drainage standards.

21.50.140 Architectural standards.

21.50.010 Instructions.

A. Lots and buildings that have been zoned to a SmartCode Zone are subject to the requirements of this chapter and to the new community or infill regulating plans that were approved by the city council when the SmartCode Zone was established, or as those plans were subsequently adjusted by the CRC (see Section 21.10.050).

B. Owners and developers may have the design plans required under this chapter prepared on their behalf. Such plans require administrative approval by the CRC.

C. Building and site plans shall show the following, in compliance with the standards described in this chapter:

1. Prior to submittal of a plat for approval, the applicant must receive CRC approval of a preliminary building scale plan showing the following:

a. Building disposition.

b. Building configuration.

c. Building function.

d. Parking location standards.

e. Lot lines.

2. Prior to receiving any building permits, and after receiving plat approval, the property owner must receive CRC approval of a final building scale plan showing the following:

a. Landscape standards.

b. Signage standards.

c. Special requirements.

3. If platting is not required by this title, one building scale plan may be submitted that shows all the information listed above for preliminary and final building scale plans. (Ord. 16945 § 2 (part), 2008)

(Ord. No. 17542, § 24, 4-26-2011)

21.50.020 Reserved.

21.50.030 Special requirements.

A. A new community regulating plan or an infill regulating plan may designate any of the following special requirements to be applied according to the standards of this chapter:

1. A differentiation of the thoroughfares as A-grid and B-grid. Buildings along the A-grid shall be held to the highest standard of this title in support of pedestrian activity. Buildings along the B-grid may allow automobile-oriented standards.

The frontages assigned to the B-grid shall not exceed thirty percent of the total length of frontages within a pedestrian shed. There is no limitation on the B-grid within SD5.

2. Designations for mandatory and/or recommended retail frontage requiring or advising that a building provide a shopfront at sidewalk level along the entire length of its private frontage. The shopfront shall be no less than seventy percent glazed in clear glass and shaded by an awning overlapping the sidewalk as generally illustrated in Table 7 and specified in Chapter 21.50. The first floor shall be confined to retail use through the depth of the second layer (Table 17d). Special districts that require retail frontage do not require retail use.

3. Designations for mandatory and/or recommended gallery frontage, requiring or advising that a building provide a permanent cover over the sidewalk, either cantilevered or supported by columns. The gallery frontage designation may be combined with a retail frontage designation;

4. Designations for mandatory and/or recommended arcade frontage, requiring or advising that a building overlap the sidewalk such that the first floor facade is a colonnade. The arcade frontage designation may be combined with a retail frontage designation;

5. A designation for coordinated frontage, requiring that the public frontage (Table 4A) and private frontage (Table 7) be coordinated as a single, coherent landscape and paving design;

6. Designations for mandatory and/or recommended terminated vista locations, requiring or advising that the building be provided with architectural articulation of a type and character that responds visually to the location, as approved by the CRC;

7. A designation for cross block passages, requiring that a minimum eight-foot wide pedestrian access be reserved between buildings.

8. Designations for mandatory and/or recommended forecourt frontage, requiring or advising that a portion of the facade is close to the frontage line and the central portion is set back for cafes or vehicular drop-offs. The forecourt frontage designation may be combined with a retail frontage designation.

B. If any of these special requirements have been designated on a new community or infill community regulating plan, approval of building scale plans is contingent on compliance with all applicable special requirements.

(Ord. 16945 § 2 (part), 2008; Ord. No. 17378, § 2, 8-24-2010; Ord. No. 17542, § 25, 4-26-2011)

21.50.040 Civic zones.

A. General.

1. Civic zones are designated on new community and infill community regulating plans as civic space (CS) or civic building (CB). Land so designated may be developed and used only in accordance with this title's requirements for civic zones.

2. Parking for civic zones shall be calculated per the standards of Chapter 20.14 and Appendix C of this title. On street parking available along the frontage lines that correspond to each lot shall be counted toward the parking requirement of the building on the lot The required parking may also be provided within one-quarter mile of the site that it serves. In new communities, civic parking lots may remain unpaved if graded, compacted and landscaped.

B. Civic space zones (CS).

1. Civic spaces shall be generally designed as described in Table 13.

C. Civic building zones (CB).

1. Civic buildings shall be subject to the requirements of this chapter.

(Ord. 16945 § 2 (part), 2008; Ord. No. 17542, § 26, 4-26-2011)

21.50.050 Specific to T1 Natural Zone.

A. Buildings in the T1 Natural Zone are permitted only by variance. Permission to build in T1 and the standards for this chapter shall be determined concurrently as variances, in public hearing of the zoning board of adjustment. Once the zoning board of adjustment has made a decision on this request, that decision shall be subject to re-

view by the city council in a public hearing. (Ord. 16945 § 2 (part), 2008)

21.50.060 Building disposition.

A. Specific to zones T3 and T4.

1. One principle building at the frontage, and one outbuilding to the rear of the principle building, may be built on each lot as shown in Table 17c.

B. Specific to zones T3, T4, T4-O, T5, T5-O, T6 and special districts SD3, SD4, SD5, SD6, and SD7.

1. Newly platted lots shall be dimensioned according to Table 14f, Table 16f and Table 15.

2. Building disposition types shall be as shown in Table 9.

3. Buildings shall be disposed in relation to the boundaries of their lots according to Table 14g, Table 16g and Table 15.

4. Reserved.

5. Lot coverage by building shall not exceed that recorded in Table 14f, Table 16f and Table 15.

6. Façades shall be built parallel to a rectilinear principal frontage line or to the tangent of a curved principal frontage line, and along a minimum percentage of the frontage length at the setback, as specified on Table 14g, Table 16g and Table 15.

7. Setback for principal buildings shall be as shown in Table 14g, Table 16g and Table 15. In the case of an infill lot, setbacks shall match one of the existing adjacent setbacks. Setbacks may otherwise be adjusted by warrant provided it does not exceed a ten percent deviation.

8. Rear setbacks for outbuildings shall be a minimum of twelve feet measured from the centerline of the rear alley of rear lane easement. In the absence of rear ally or rear lane, the rear setback shall be as shown in Table 14h, Table 16h and Table 15.9.

9. To accommodate building on slopes over ten percent, relief from front setback requirements is available by warrant provided it does not exceed a twenty percent deviation.

C. Specific to zones T5, T5-O, T6 and special districts SD3 and SD4.

1. The principal entrance shall be on a frontage line.

(Ord. 16945 § 2 (part), 2008; Ord. No. 17378, § 2, 8-24-2010; Ord. No. 17542, § 27, 4-26-2011; Ord. No. 17787, § 7, 5-15-2012; Ord. No. 17962, § 5, 3-5-2013; Ord. No. 19245, § 1, 10-12-2021)

21.50.070 Building configuration.

A. General to zones T2, T3, T4, T4-O, T5, T5O, T6 and special districts SD3, SD4, SD5, SD6, SD7.

1. The private frontage of buildings shall conform to and be allocated in accordance with Table 7, Table 14j and Table 16i.

2. Buildings on comer lots shall have two private frontages as shown in Table 17. Prescriptions for the parking layers pertain only to the Principal Frontage. Prescriptions for the first layer pertain to both frontages.

3. Building heights and Setbacks shall conform to Table 8, Table 14k, and Table 16j.

4. Stories may not exceed fourteen feet in height from finished floor to finished floor, except for a first floor commercial function, which shall be a minimum of eleven feet and may be a maximum of twenty-five feet. A single floor level exceeding fourteen feet, or twenty-five feet at ground level, shall be counted as two stories. Mezzanines extending beyond thirty-three percent of the floor area shall be counted as an additional floor.

5. In a parking structure or garage, each level counts as a single story regardless of its relationship to habitable stories.

6. Height limits do not apply to attics or raised basements, masts, belfries, clock towers, chimney flues, water tanks, or elevator bulkheads.

B. Specific to zones T2, T3, T4, T4-O, T5, T5O.

1. The minimum size of a dwelling within a principal building shall be three hundred square

feet in interior space. Outbuildings may be any size, not to exceed four hundred forty square feet.

C. Specific to zone T3.

1. No portion of the private frontage may encroach the sidewalk.

2. Open porches may encroach the first layer fifty percent of its depth. (Table 17d)

3. Balconies and bay windows may encroach the first layer twenty-five percent of its depth.

D. Specific to zone T4.

1. Balconies, open porches and bay windows may encroach the first layer fifty percent of its depth. (Table 17d).

2. Awnings and galleries may encroach the sidewalk to within two feet of the curb but must clear the sidewalk vertically by at least eight feet.

E. Specific to zone T4-O.

1. Building heights shall be a minimum of twenty feet at the frontage line.

F. Specific to zones T4-O, T5, T5O, T6 and special districts SD3, SD4, SD5, SD6.

1. Awnings, arcades, and galleries may encroach the sidewalk to within two feet of the curb but must clear the sidewalk vertically by at least eight feet.

2. Stoops, lightwells, balconies, bay windows, and terraces may encroach the first layer one hundred percent of its depth. Balconies and bay windows may encroach the sidewalk twenty-five percent of its depth. (Table 17d).

3. Reserved.

4. In the absence of a building facade along any part of a frontage line, a streetscreen shall be built coplanar with the facade.

5. Streetscreens should be between 3.5 and eight feet in height. The streetscreen may be replaced by a hedge or fence, provided they are not transparent. Streetscreens shall have openings no larger than necessary to allow automobile and pedestrian access.

G. Specific to special districts SD3, SD4, SD5.

1. Building heights shall be limited to the height requirements established in Federal Aviation Regulations Part 77 or successor regulations for the airport. Exclusions to this rule may be permitted by the department of aviation.

2. Building heights may further be limited by the EPIA Regulating Plan.

H. Specific to special district SD5.

1. Building heights shall be limited to seventy feet (Ord. 16945 § 2 (part), 2008)

(Ord. No. 17378, § 2, 8-24-2010; Ord. No. 17542, § 28, 4-26-2011; Ord. No. 17787, § 8, 5-15-2012; Ord. No.17962, § 6, 3-5-2013)

21.50.080 Building function.

A. General to zones T2, T3, T4, T4-O, T5, T5O, T6 and special districts SD3, SD4, SD5, SD6, SD7.

1. Buildings in each transect zone and special district shall conform to the functions on Table 10, Table 12, Table 141 and Table 16k.

B. Specific to zones T2, T3.

1. Accessory functions of restricted lodging or restricted office shall be permitted within an outbuilding. See Table 10.

C. Specific to zones T4, T4-O, T5, T5O.

1. Accessory functions of limited lodging or limited office shall be permitted within an outbuilding. See Table 10.

D. Specific to zones T5, T5O, T6 and special districts SD3, SD4, SD6.

1. First story commercial functions shall be permitted.

2. Manufacturing functions within the first story may be permitted by variance. (Ord. 16945 § 2 (part), 2008)

(Ord. No. 17378, § 2, 8-24-2010; Ord. No. 17542, § 29, 4-26-2011; Ord. No. 17787, § 9, 5-15-2012; Ord. No. 17962, § 7, 3-5-2013)

21.50.090 Parking and density calculations.

A. Specific to zones T2, T3.

1. Buildable density on a lot shall be determined by the actual parking provided within the lot as applied to the functions permitted in Table 10.

B. Specific to zones T4, T4-O, T5, T5O, T6 and special district SD6.

1. Buildable density on a lot shall be determined by the sum of the actual parking calculated as that provided (1) within the lot, (2) along the parking lane corresponding to the lot frontage, and (3) by purchase or lease from a civic parking reserve within the pedestrian shed, if available.

2. The actual parking may be adjusted upward according to the shared parking factor of Table 11 to determine the effective parking. The shared parking factor is available for any two functions within any pair of adjacent blocks.

3. Based on the effective parking available, the density of the projected function may be determined according to Table 10.

4. The total density within each transect zone or special district shall not exceed that specified by an approved new community regulating plan based on Chapter 21.30 or infill regulating plan based on Chapter 21.40.

5. Accessory units do not count toward density calculations.

6. Liner buildings less than thirty feet deep and no more than two stories shall be exempt from parking requirements. (Ord. 16945 § 2 (part), 2008) (Ord. No. 17378, § 2, 8-24-2010; Ord. No. 17542, § 30, 4-26-2011; Ord. No. 17787, § 10, 5-15-2012)

21.50.100 Parking location standards.

A. General to zones T2, T3, T4, T4-O, T5, T5O, T6 and special districts SD3, SD4, SD5, SD6, SD7.

1. Parking shall be accessed by rear alleys or rear lanes, when such are available or are indicated on the regulating plan.

2. Open parking areas shall be masked from the frontage by a building or streetscreen.

3. For buildings on B-grids, open parking areas may be allowed unmasked on the frontage.

B. Specific to zones T2, T3.

1. Open parking areas shall be located at the second and third lot layers, except that driveways, drop-offs and unpaved parking areas may be located at the first lot layer. (Table 17d)

2. Garages shall be located at the third lot layer except that side- or rear-entry types may be allowed in the first or second lot layer.

C. Specific to zones T3, T4.

1. Driveways at frontages shall be no wider than ten feet in the first layer. (Table 3B f.)

D. Specific to zone T4.

1. All parking areas and garages shall be located at the third layer.

E. Specific to zones T4-O, T5, T5O, T6 and special districts SD3, SD4, SD6, SD7.

1. All parking lots, garages, and parking structures shall be located at the second or third lot layer. (Table 17d)

2. Vehicular entrances to parking lots, garages, and parking structures shall be no wider than twenty-four feet at the frontage.

3. Pedestrian exits from all parking lots, garages, and parking structures shall be directly to a frontage line (i.e., not directly into a building) except underground garage levels which may be exited by pedestrians directly into a building.

4. Parking structures on A-grids shall have liner buildings lining the first and second stories.

5. A minimum of one bicycle rack place shall be provided within the public or private frontage for every ten vehicular parking spaces (Ord. 16945 § 2 (part), 2008)
(Ord. No. 17378, § 2, 8-24-2010; Ord. No. 17542, § 31, 4-26-2011; Ord. No. 17787, § 11, 5-15-2012; Ord. No. 17962, § 8, 3-5-2013)

21.50.110 Landscape standards.

A. General to zones T2, T3, T4, T4-0, T5, T50, T6 and special districts SD3, SD4, SD5, SD6, SD7.

1. Impermeable surface shall be confined to the ratio of lot coverage specified in Tables 14f and 16f.

B. Specific to zones T2, T3, T4.

1. The first layer may not be paved, with the exception of driveways as specified in Section 21.50.100 B. and Section 21.50.100 C. (Table 17d)

C. Specific to zone T3.

1. A minimum of one tree shall be planted within the first layer for each forty feet of frontage line or portion thereof. (Table 17d)

2. Trees may be of single or multiple species as shown on Table 6.

3. Trees shall be naturalistically clustered.

4. Lawns may be permitted provided they are composed of native or non-native adapted species.

D. Specific to zone T4.

1. A minimum of one tree shall be planted within the first layer or each forty feet of frontage line or portion thereof. (Table 17d)

2. The species shall be a single species to match the species of street trees on the public frontage, or as shown on Table 6.

3. Lawns may be permitted provided they are composed of native or non-native adapted species.

E. Specific to zones T4-O, T5, T5O, T6 and special district SD6.

1. Trees shall not be required in the first layer.

2. The first layer may be paved to match the pavement of the public frontage.

F. General to special districts SD3, SD4, SD5, SD6, SD7.

1. Site and landscape design standards.

a. The spacing and placement of plants shall be adequate and appropriate for species size at maturity and/or for the grouping of a single plant species.

b. All proposed street trees shall be centered a minimum of five feet clear of underground utilities, utility meters, and service lines.

c. Proposed trees shall be a minimum height of ten feet.

d. Proposed street tree height and type shall be appropriate for the frontage conditions.

e. Trees with existing or potential canopy covering sidewalks, driveways, paths, plazas, alleys, lanes, parking space or street pavements shall be of a type that, at maturity or with minor pruning at installation, provide a clear height of eight feet for sidewalks and paths, twelve feet for driveways, parking spaces and streets, and fifteen feet for loading areas, exclusive of tree grates or planting areas with gravel mulch.

f. Vegetation with spines, thorns or needles that may present hazards to pedestrians, bicyclists or vehicles are prohibited in the first layer.

g. Bare and exposed ground on the site and/or in landscaped areas shall be covered with live plant materials and/or mulch, with the following exceptions:

i. Naturally occurring arroyos, rock outcroppings or similar landscape features typically lacking in vegetation.

ii. Hiking trails and/or traces in T1.

iii. Clay or sand surfaces associated with recreation fields and facilities.

h. All required landscape areas shall be irrigated by an automatic underground irrigation system, drip irrigation or soaker hose.

i. Where possible and practical, bubbler and drip irrigation systems shall be utilized.

j. Stormwater detention and retention ponds shall be integrated landscape features, rather than singlepurpose flood control and stormwater management ponds.

k. Stormwater detention and retention ponds shall be planted with appropriate trees, shrubs and grasses. Hydrophilic plants are required in basin areas prone to submersion.

l. Constructed water features such as fountains, streams and ponds that operate with water recirculation systems shall be designed to prevent seepage and leaks.

2. Landscape construction standards.

a. Open spaces and civic space shall be protected with a temporary construction fence during all site work and construction activities unless alterations to them are otherwise specified by landscape grading plans.

b. The soil structure of wide planting strips shall be protected from compaction with a temporary construction fence. Standards of access, excavation, movement, storage and backfilling of

soils in relation to the construction and maintenance of deep utilities and manholes shall be specified.

c. The topsoil within the construction area's limits of disturbance shall be removed, stored and amended as recommended by a landscape soils test.

d. Wind erosion shall be mitigated and controlled though dust abatement and similar practices during the period of site work and construction.

e. Landscape soils that have been compacted during construction activities shall be loosened and aerated to a depth of at least six inches before planting.

f. Plants shall have normal, well-developed branches and vigorous root systems.

g. Temporary spray irrigation systems may be used to establish seeded areas for grass and groundcover.

3. Landscape maintenance.

a. All grass and vegetation shall be lightly fertilized to avoid fertilizer pollution to groundwater, streams and ponds.

b. No disturbed ground shall be left exposed. Turfgrass and other approved and appropriate groundcovers or mulch shall cover all non-paved and non-built developed areas.

c. It shall be the responsibility of the property owner(s) or his assigned agent(s) to:

i. Maintain and keep all screening and fencing in good condition at all times; and

ii. Maintain landscaping by keeping lawns properly mowed and edged, plants properly pruned and disease-free, and planting beds mulched, groomed and weeded, except in T1, and areas of naturally occurring vegetation and undergrowth; and

iii. Replace any required planting(s) which are significantly damaged, altogether removed, infested, disease ridden, or dead within one year or the next planting season, whichever occurs first, except in T1, and areas of naturally occurring vegetation and undergrowth.

G. Specific to special districts SD3 airport T5.1 and SD4 airport T5.2.

1. Trees shall not be required in the first layer.

2. The first layer may be paved to match the pavement of the public frontage.

3. Landscape islands in interior parking lots shall only occur at the end of drive aisles.

4. Islands should be the minimum size for healthy growth for the specific species of tree.

5. Porous paving materials are encouraged in order to increase stormwater infiltration on site.

H. Specific to special district SD5 airport science and technology.

1. Buffers and screening elements shall be used to screen parking areas from public view, to screen service yards and other places that are unsightly along B streets, and to buffer between the special district and the adjacent airport special districts.

2. A street landscape border may include the sidewalk and shall be a minimum of ten feet in width, running the full length of the street property line bounding the site except for points of ingress and egress. The measurement starts at the right-of-way.

3. A minimum of one tree shall be planted within the first layer for each forty feet of frontage line or portion thereof.

4. Fifty percent or more of the street landscape border area must have shrubs and vegetative cover.

5. An interior landscape border is located along common property lines and is required between SD5 airport science and technology and an airport special district.

6. Plants shall be five-gallon minimum and of a type that will maintain a screen at least thirty-six inches high. The plant chosen to provide screening must have a mature width that will provide an opaque screen.

7. Fifty percent of the interior landscape border shall be equally covered with vegetation.

I. Specific to Northwest Park, Airport and MCA SD Parks. Parks shall be managed with

appropriate low care and drought tolerant grasses cut high or uncut. Parks may be left with native vegetation only.

J. Specific to Northwest Park, Airport and MCA SD Greens. Greens shall be planted or managed with appropriate low care and drought tolerant turf grasses cut high.

K. Specific to Northwest Park, Airport and MCA SD Squares. Squares shall be carefully graded, leveled, and planted with sod. (Ord. 16945 § 2 (part), 2008)
(Ord. No. 17378, § 2, 8-24-2010; Ord. No. 17542, § 32, 4-26-2011; Ord. No. 17787, § 12, 5-15-2012; Ord. No. 17962, § 9, 3-5-2013)

21.50.120 Signage standards*

21.50.120.010 Purposes.

This chapter provides a comprehensive system for the regulation of signs, to serve the following purposes:

A. To allow adequate opportunity for the exercise of free speech by the display of a message or an image on a sign, while balancing that opportunity against the community and public interests affected by signs;

B. To protect the health, safety, and general welfare of the city and its residents and to execute the policies of the city's comprehensive plan;

C. To enhance the aesthetic value of the city's landscape by reducing visual clutter that is potentially harmful to property values and economic development;

D. To protect adjacent and nearby properties from the impact of excessive or inappropriate signage;

E. To protect the safety and efficiency of the city's transportation network by reducing confusion and distractions to pedestrians and motorists while enhancing motorists' ability to see pedestrians, obstacles, other vehicles, and traffic signs; and

F. To preserve, protect and enhance areas of designated historical, architectural and scenic value.
(Ord. No. 18505, § 1, 5-17-2016)

21.50.120.020 Applicability.

A. The regulations of Title 20 Zoning shall be applicable for issues not addressed by this chapter.

B. This chapter shall apply to all areas of the city classified as SmartCode Zone.
(Ord. No. 18505, § 1, 5-17-2016)

21.50.120.030 Findings.

In adopting this chapter, El Paso City Council makes the following findings:

A. That the excessive number, size and height of signs, both off-premises and on-premises, is unduly distracting and confusing to motorists and pedestrians, creates traffic hazards, and reduces the effectiveness of signs needed to direct the public;

B. That the appearance of the city, particularly that of its residential and light commercial districts, is marred by excessive signs;

C. That the aforementioned effects detract from the pleasure, safety and economic well-being of the community, and that the number of distracting signs ought to be reduced in order to lessen the detrimental effects; and

D. That the use of signs in the exercise of First Amendment freedoms must be balanced against the community, neighborhood, and social impacts of such signs.

E. That the regulations contained in this chapter are the minimum amount of regulation necessary to achieve its purposes.
(Ord. No. 18505, § 1, 5-17-2016)

21.50.120.040 Nonconforming signs.

A. The provisions of Title 20.22.090 shall be applicable.
(Ord. No. 18505, § 1, 5-17-2016)

***Editor's note**—Ord. No. 18505, § 1, adopted May 17, 2016, amended Section 21.50.120 in its entirety to read as herein set out. Former Section 21.50.120 pertained to similar subject matter, and derived from Ord. 16945 § 2 (part), 2008; Ord. No. 17378, § 2, 8-24-2010; Ord. No. 17542, § 33, 4-26-2011; Ord. No. 17787, § 13, 5-15-2012; Ord. No. 17962, § 10, 3-5-2013.

21.50.120.050 Prohibited signs.

A. Except as herein modified, the provisions of Title 20.18.140 (Prohibited signs), shall apply.

B. In addition, the following signs are prohibited:

1. Sign walkers.

2. Temporary signs, except as specifically allowed in Section 21.50.120.120

3. Signage with internal lighting except as otherwise provided for herein.

4. Signage with animated illumination, except as provided for herein.

5. Off-premises signs, except as provided herein.

6. Signs that emit audible sound, odor, or matter.

7. Inflatable advertising devices.

8. Temporary active motion inflatables.

9. Temporary inflatable signs.

(Ord. No. 18505, § 1, 5-17-2016)

21.50.120.060 Exempt signs.

A. Message substitution. A noncommercial message which is within the protection of the First Amendment to the U.S. Constitution may be substituted, in whole or in part, for any message on any sign authorized by this chapter. Message substitution is a continuing right which may be exercised any number of times. No permit is required for such message substitution, unless there is a change in the physical structure of the sign displaying the message. This provision does not authorize the substitution of an offsite commercial message in place of an onsite commercial message.

B. Noncommercial messages. In addition to the noncommercial messages which may be displayed by message substitution, any noncommercial message within the protection of the First Amendment to the U.S. Constitution may be displayed on any parcel and at any time, subject to the following:

1. No greater than 36 square feet in area.

2. No more than eight feet in height.

3. No illumination or moving elements.

4. Not prohibited by Section 21.50.120.050.

5. Permit required only when the sign qualifies as a "structure" under the building code.

C. Signs that do not exceed four square feet in surface area are exempt from the provisions of this title, provided that this size limitation shall not apply to signs providing directions, warnings, or information when established and maintained by a public agency.

(Ord. No. 18505, § 1, 5-17-2016)

21.50.120.070 General requirements.

A. The following standards are applicable to all signs, regardless of hardware type or orientation, unless specifically exempted.

1. All signs shall be constructed of nonreflective materials.

2. Building-mounted signs shall be compatible in size, shape, character, and quality of design with the exterior architecture of the premises and other structures in the immediate area.

3. Ground level signs: Any sign with any portion of sign hardware encroaching into the lowest 14 feet of a building face shall be designated a Ground Level sign, and subject to the requirements thereof. Total area of signs associated with uses occupying the ground level of a building shall not exceed 50 percent of the ground level building façade associated with the signage; provided that no single sign shall exceed an area of 48 square feet. This restriction shall not apply to auxiliary signs, incidental signs, alternative hardware signs, or mural, or sidewalk oriented signs.

4. Upper level signs: Total area of signs associated with uses occupying upper levels of a building shall not exceed ten percent of the associated façade. These restrictions shall not apply to mural or roof oriented signs.

5. Signage shall be permitted on all building faces.

6. Illuminated signs shall conform to the regulations of Section 18.18 of this Code.

7. Signs shall be placed with consideration for existing and future growth of trees and other landscaping.

8. The design, illumination, and location of a sign shall not impair the visibility or the design quality of existing, conforming signs, adjacent buildings, or adjacent uses.

9. No sign shall encroach on the vision clearance triangle.

10. No sign shall block any required access way. No sign or sign structure shall be erected in such a manner that any portion of its surface or supports will interfere in any way with the free use of any fire escape, exit, or standpipe.

11. No sign shall obstruct any window in a manner that violates the applicable requirements of the International Building Code.

12. Directional signs shall not count toward the total allowable area of signs associated with a use on the same property. Directional signs shall comply with all other applicable standards in this section, and all applicable sign orientation type standards. No more than one directional sign shall be permitted per lot.
(Ord. No. 18505, § 1, 5-17-2016)

21.50.120.080 Alternative sign hardware requirements.

A. Signs that do not conform to any of the sign hardware types defined in this section, but nevertheless meet the design standards and intent of the SmartCode, may utilize the alternative sign hardware type.

B. Other requirements.

1. Signs permitted under this section shall conform to the prohibitions defined in Section 21.50.120.050.

2. Except as herein exempted, signs permitted under this section shall conform with the general sign requirements defined in Section 21.50.120.070.

3. No more than two signs utilizing the alternative hardware type shall be permitted on any parcel.
(Ord. No. 18505, § 1, 5-17-2016)

21.50.120.090 Permit required.

A. A sign permit is required for any sign proposed for installation at the premises of a business, except the following signs are exempt from this requirement:

1. Exempt signs as listed in Section 21.50.120.060, exempt signs.

2. Auxiliary signs.

3. Incidental signs.

B. It shall be unlawful for any person to construct, install, place, relocate, maintain, attach, or modify the dimensions or illumination characteristics of any sign without a valid sign permit. All signs must be constructed, installed, placed, relocated, maintained, modified, or attached in compliance with the terms and conditions of the applicable sign permit.

C. Sign contractor. No permanent sign requiring a sign permit shall be installed, constructed, relocated, modified or expanded, except by a licensed sign contractor.

D. Sign permit issuance and inspection. No sign permit shall be issued unless a complete application and sign permit fee has been submitted to the city, and the proposed sign or signs comply with this title and all other applicable city codes, ordinances, and regulations.

E. As a condition of the issuance of the sign permit, the city manager or designee shall have the authority to inspect any sign for compliance with its sign permit, this article, and other applicable city codes, ordinances, and regulations.

F. Expiration. A sign permit shall expire if:

1. The sign has not been completely constructed, installed, placed, changed, relocated, or attached within 180 days of the date of issuance of the sign permit; or,

2. The sign is removed or abandoned.

G. Denial or revocation. The city manager or designee may deny or revoke a sign permit for any of the following reasons:

1. Failure to submit a complete application and/or the sign permit fee;

2. Fraud, misrepresentation, or a false statement in the sign application;

3. Failure to permit the city access to the sign to inspect for compliance with this title, the sign permit or applicable city codes, ordinances, and regulations; or,

4. Failure of the sign to comply with this article, the sign permit, or applicable city codes, ordinances, and regulations.

H. Sign permit fee refund. The sign permit fee shall not be refunded if a sign permit expires, is denied or revoked.
(Ord. No. 18505, § 1, 5-17-2016)

21.50.120.100 Appeals.

A. All sign permit applications shall be initially reviewed by the director. When the director issues a decision on a sign permit application, or when the time for doing so has expired without a written decision, the applicant or any concerned person may appeal to the zoning board of adjustment under the provisions of Section 2.16.040 of this Code. The appeal shall be processed under the same procedures specified for appeals to the zoning board of adjustment. The zoning board of adjustment shall hold a duly noticed public hearing thereon, and issue a written decision thereon, within 30 business days. Failure of the board to render a decision within the time specified hereunder shall deem the appeal denied. The written decision shall make findings and state reasons, supported by evidence in the record, for the decision. In determining the appeal, the zoning board of adjustment shall not consider message content or graphical design of the sign, unless the message or image has no protection under the First Amendment to the U.S. Constitution.
(Ord. No. 18505, § 1, 5-17-2016)

21.50.120.110 Removal of signs.

A. After inspection by the building official, the following signs may be subject to removal by the city, in accordance with the procedure enumerated herein; however, the city may at any time under its police powers immediately remove signs which constitute an immediate danger to persons or property without going through the procedures identified herein:

1. Signs or their supporting structures which appear to the building official to have become abandoned, neglected or made unattractive by missing letters, panels, lights, faded or peeling paint or graffiti;

2. Any sign which constitutes a hazard to safety, health or public welfare by reason of inadequate maintenance or dilapidation;

3. Any sign erected without permit that cannot be registered under the provisions in this chapter.

B. Procedure. Except as provided herein, prior to the removal of a sign by the city, the building official shall follow the following procedure:

1. The building official shall inform the permit holder, if a permit has been issued; if no permit has been issued, the building official shall send a written notice, via certified mail, to the owner, if the owner is known, by mailing a written notice to the last known address of the owner, or lessee of the sign if that person is identified on the sign or is otherwise known to the building official, to remove such sign and structure or to cure the defect resulting from its neglect within a period of ten days after receipt of notification of violation of this chapter.

2. If the permit holder, owner, or lessee is unknown or cannot be reached, the building official shall publish a legal notice identifying the sign, its location and the corrective action required. The legal notice shall be given by any contemporary means of information sharing, including, but not limited to, publication in a newspaper of general circulation in the city and placement on the city's official website.

3. In no response is received by the building official within ten working days from the date of receipt of notification, or five working days after the date of publication, the building official shall refer the case to the building and standards commission and the case shall be processed under the procedures of Chapter 2.38 of this Code.

C. An on-premises sign shall be removed in compliance with the Local Government Code Title 7 Subtitle A. Sec. 216.003.
(Ord. No. 18505, § 1, 5-17-2016)

21.50.120.120 Temporary sign standards.

A. A temporary sign shall utilize the banner, stake, or standing sign hardware types exclusively.

B. A maximum of two temporary signs may be permitted on a property simultaneously.

C. A sign permit is not required.

D. Temporary signs may not be illuminated.

E. Off-premises signs are not permitted.

F. Reserved.

G. Temporary signs must comply with the provisions of this chapter.
(Ord. No. 18505, § 1, 5-17-2016)

21.50.120.130 Sign measurement.

A. Computation of sign area. Formulas for calculating sign area in the shape of a rectangle, square, triangle, ellipse, circle or similar common geometric shapes shall use commonly accepted mathematical methods. Signs of other shapes shall be measured using the standards herein.

B. Measure of the area of a sign.

1. Banner, cabinet, plaque, programmable, projected, stake and standing sign hardware types.

a. The area of a sign shall be determined on the basis of the outer dimensions of the frame or cabinet surrounding the sign face(s).

b. The area and dimensions of the sign shall encompass a regular geometric shape (rectangle, circle, trapezoid, triangle, etc.), or a combination of regular geometric shapes, which form, or approximate, the perimeter of all elements in the display, and any applied background that is not part of the architecture of the building or structure.

c. When separate elements are organized to form a single message, but are separated by open space, the sign area and dimensions shall be calculated by determining the geometric form, or combination of forms, which encompass all of the display areas, including the space between different elements.

d. For signs with mixed case lettering, a rectangle shall be drawn around either the upper-case or lower-case letters, but not both.

e. For signs utilizing the monument orientation type, the area of a sign shall be calculated to exclude the base of the structure on which the sign is mounted or within which the sign is integrated.

2. Painted and printed sign hardware types.

a. The sign area shall be determined by the regular geometric shape (rectangle, circle, trapezoid, triangle, etc.), or a combination of regular geometric shapes that encompass the perimeter of the sign display or message and all portions of a background surface that differentiate the message display area from the overall monument structure.

3. Three-dimensional signs.

a. The sign face area shall be determined on the basis of the maximum surface area visible from any one perspective.

4. Double-faced signs.

a. When two identical sign faces are placed back-to-back so that both faces cannot be viewed from any single perspective at the same time, and are part of the same sign structure, the sign area shall be computed by measurement of one of the two faces.

b. When a sign has more than two display surfaces, the area of the sign shall be the area of the largest of the display surfaces that are visible from any single perspective.

c. When a double-faced sign has non-parallel faces, such that the angle between the faces exceeds 24 degrees, the sign area shall be calculated as the total of both sign faces.
(Ord. No. 18505, § 1, 5-17-2016)

21.50.120.140 Definitions.

This section provides definitions for terms in this chapter exclusively. If a term is not defined in this chapter, the definitions and terms in Title 20 will govern.

"Alternative sign" means a sign that does not conform to any of the sign hardware types defined in this section, but nevertheless meets the design standards and intent of the SmartCode, as defined in Section 21.50.120.080.

"Auxiliary sign" means a sign with no commercial advertising, except for the name or logo of the business or establishment, that pertains to the safe and efficient movement of pedestrians and vehicular traffic into or out of a building or premises and that has a directional purpose secondary to the use of the lot on which it is located, such as "no parking," "entrance," "loading only," "telephone," "emergency entrance," and other similar directives.

"Awning" means a roof-like sidewalk cover that is permanently mounted on a building face. An awning provides pedestrians with shade and protection from inclement weather. An awning may be of rigid or non-rigid construction, and may be retractable or non-retractable.

"Awning (orientation type)" means an orientation type in which sign hardware is placed atop or upon an awning, canopy, or sidewalk arcade above a storefront. Signage can be printed directly onto a fabric awning, or, if the awning is of a rigid construction, a sign may be mounted upon it.

"Banner (hardware type)" means a sign hardware type in which sign copy is printed onto a flexible material and fastened to a building or pole.

"Blade (orientation type)" means an orientation type in which sign hardware is mounted perpendicular to, and is fully supported by, a building face.

"Cabinet (hardware type)" means a sign hardware type composed of a molded box with all elements of sign copy permanently molded into the physical structure of the sign.

"Directional sign" means a sign placed on private property that guides the traveling public to a use or assortment of uses located on a property or properties, such as a sign displaying the name of a shopping center, apartment complex, or residential development.

"External illumination" means the illumination of a surface of a sign from an external source of light intentionally directed upon the sign. Also known as "indirectly illuminated sign."

"Ground level sign" means any sign mounted on the ground or on any portion of the first floor of a building.

"Halo lighting" means a sign illumination method utilizing diffuse light from sources placed behind opaque sign copy. The source of light is not visible from the public right-of-way.

"Hanging (orientation type)" means a sign orientation type in which sign hardware is attached to and located below any permanent eave, roof, awning, or bracket.

"Incidental sign" means a sign, emblem, or decal the content of which is designed to inform the public of goods, facilities, or services available on the premises, and may include, but shall not be limited to, signs with the following types of content:

1. Hours of business operation.
2. "Open" or "Closed" signs.
3. Logos of credit cards accepted by a business.
4. Property ownership or management information.

"Individual exposed bulb" means a sign illumination method utilizing individual light bulbs to highlight certain aspects of sign copy. The source of illumination is visible from the public right-of-way.

"Inflatable advertising device" means a device which is inflated with air or another gas, or which is activated by wind, air, or propelled gas, and used for outdoor advertising purposes.

"Marquee" means a cantilevered roof-like structure that overhangs the sidewalk in front of a building entrance and has a face parallel to the building face.

"Marquee (orientation type)" means an orientation type in which sign hardware is mounted upon a marquee.

"Monument (orientation type)" means an orientation type in which sign hardware sits on a

dedicated wall or pedestal in front of a building. A sign utilizing this orientation type may have multiple faces with sign copy.

"Mural (orientation type)" means an orientation type in which sign copy is painted directly upon a building face, typically along a side street or alley. This definition does not apply to a mural that is installed for artistic or aesthetic purposes, unless said mural contains elements that advertise an existing business on the adjoining parcel.

"Neon tube" means a sign illumination method utilizing sculpted neon tubes to highlight certain aspects of sign copy. The source of light is visible from the public right-of-way.

"Plaque (hardware type)" means a sign hardware type that features copy that is carved, molded, painted or affixed to a framing surface. A plaque appears from the public right-of-way as one contiguous piece of sign hardware.

"Programmable (hardware type)" means a sign hardware type that features an area for changeable copy. Programmable signs include programmable digital displays, video boards, track letter signs and bulletin boards.

"Projecting (hardware type)" means a sign hardware type with copy that projects in a three-dimensional manner. Channel letters are considered a projecting hardware type.

"Roof (orientation type)" means an orientation type in which a sign is erected upon, over, or above the roof of a building.

"Sandwich board (hardware type)" means a sign hardware type consisting of a freestanding A-frame design that may be placed on a sidewalk to attract pedestrians to a business. Sandwich board sign hardware is portable and freestanding.

"Sidewalk (orientation type)" means an orientation type in which sign hardware that is freestanding and portable is placed on a sidewalk to attract pedestrians to a business.

"Sign" means any outdoor display surface, structure, banner, pennant, inflatable and/or airborne device, whether mounted on land, air, or water, which is visible from any portion of the public right-of-way to vehicular or pedestrian traffic, a principal purpose of which is to attract attention to a communicative visual or graphic image. The term "sign" is inclusive of both on- and off-premises signs, including billboards, and any moving part, lighting sound equipment, framework, background material, structural support, or other part thereof. A display, device or thing need not contain lettering to be a sign. Notwithstanding the generality of the foregoing, the following are not within this definition:

1. Overhead signs or banners towed behind aircraft.

2. Architectural features. Decorative or architectural features of buildings (not including lettering, trademarks or moving parts), which do not perform a communicative function.

3. Fireworks.

4. Foundation stones and cornerstones which are permanent in nature and incapable or not intended for modification once installed.

5. Grave markers, grave stones, headstones, mausoleums, shrines, and other markers of the deceased.

6. Holiday and cultural observance decorations on private residential property which are on display for not more than 45 calendar days per year (cumulative, per parcel or use or dwelling unit).

7. Inflatable games and gymnasiums. Inflatable, temporary, moveable, gymnasium devices commonly used for children's birthday parties, and similar devices. Also called "bounce houses."

8. Manufacturers' marks. Marks on tangible products, which identify the maker, seller, provider or product, and which customarily remain attached to the product even after sale.

9. Mass transit graphics. Graphic images mounted on duly licensed and authorized mass transit vehicles that legally pass through the city.

10. Merchandise on public display and presently available for purchase on-site.

11. News racks and newsstands.

12. Personal appearance. Items or devices of personal apparel, decoration or appearance, including tattoos, makeup, wigs, costumes, masks,

etc. (but not including commercial mascots or hand-held signs or appliances worn for the principal purpose of holding a sign).

13. Search lights and klieg lights when used as part of a search and rescue or other emergency service operations; this exclusion does not apply to search lights or klieg lights used as attention attracting devices for commercial or special events.

14. Shopping carts, golf carts, horse drawn carriages, and similar devices; any motorized or self-propelled vehicle which may be legally operated upon a public road is not within this exclusion.

15. Symbols of non-commercial organizations or concepts including, but not limited to, religious or political symbols, when such are permanently integrated into the structure of a permanent building which is otherwise legal; by way of example and not limitation, such symbols include stained glass windows on churches, carved or bas relief doors or walls, bells, religious statuary, et cetera.

16. Vehicle and vessel insignia on street legal vehicles and properly licensed watercraft or aircraft: license places, license plate frames, registration insignia, non-commercial messages, messages relating to the establishment of which the vehicle or vessel is an instrument or tool (not including general advertising) and messages relating to the proposed sale, lease or exchange of the vehicle or vessel.

17. Vending machines, product dispensing devices and automated product intake devices which do not display offsite commercial messages or general advertising messages; by way of example and not limitation, "automated product intake devices" means machines which accept recycle materials, or "book return" slots at libraries, or "leave your clothes here" boxes at laundry places.

18. Window displays. The display of merchandise in a store window and offered for sale.

19. Incidental signs.

"Sign hardware type" means the classification of a sign based on the physical construction or method of manufacture of the sign. All signs permitted by this code shall conform to one of the sign hardware types described in Section 21.80.020 Table 2A.

"Sign illumination type" means the classification of a sign based on how it is lit. All signs permitted by this code shall conform to one of the sign illumination types described in Section 21.80.020 Table 2C, or shall not be illuminated.

"Sign orientation type" means the classification of a sign based on its location on a parcel. All signs permitted by this code shall conform to one of the sign orientation types described in Section 21.80.020 Table 2D.

"Sign walker" means an individual employed or otherwise induced to carry a sign promoting a particular business.

"Suspended (orientation type)" means an orientation type in which sign hardware is fastened to buildings and/or permanent poles on either end, and suspended across a span.

"Stake (hardware type)" means a sign hardware type that is planted in a front yard. Signs utilizing the stake hardware type are portable, freestanding, and impermanent by design.

"Storefront" means the width of a building frontage that contains a single business establishment. A business establishment may have more than one storefront; for example, a corner store with an entrance on both building faces.

"Standing (hardware type)" means a sign hardware type that may be placed on a sidewalk to attract passers-by to a business. Standing sign hardware is freestanding and portable.

"Temporary active motion inflatable" means a temporary type of inflatable sign utilizing wind baffles and fabric combined with a vortex of air created by a mechanical air system to allow the inflatable to dance and move. Such devices are also known as "aircrows," "wind dancers" and "air dancers."

"Temporary inflatable sign" means an inflatable advertising device greater than two cubic feet in volume, used for advertising purposes.

"Temporary sign" means a sign which, by virtue of its construction from lightweight or flimsy

materials, and construction or installation by hand or with ordinary hand tools, is not suitable for long term display.

"Upper level sign" means any sign mounted on the second floor of a building or above.

"Vision clearance triangle" means an area formed by two intersecting property lines and a third line joining the property lines at points twenty feet from their intersection.

"Wall (orientation type)" means an orientation type in which sign hardware is permanently affixed upon a building face, masonry wall, fence or gate, or individual cut letters are applied directly to a building face.

"Window (orientation type)" means an orientation type in which sign hardware is mounted, or otherwise placed immediately behind a windowpane, or sign copy is painted, or permanently affixed, to a windowpane, and is visible from the public right-of-way.

"Yard (orientation type)" means an orientation type in which freestanding sign hardware is mounted to one or more poles or posts anchored to the ground, and is located in the front of a building.
(Ord. No. 18505, § 1, 5-17-2016)

21.50.130 Natural drainage standards.

A. General to zones T3, T4, T4-O, T5, T5O, T6, SD6, SD7.

1. Buildings should be equipped with roofs of shallow four-inch soils and drought-tolerant plants. Buildings approved for intensive green roofs may hold soils deeper than four inches and larger plants and trees.

2. Balconies should be equipped with planter boxes designed to capture runoff from the balcony.

3. Green walls, if provided, shall be restricted to non-invasive species.

4. Cisterns may be used to capture and recirculate stormwater from buildings.

B. Specific to zone T3.

1. The landscape installed shall consist primarily of native species requiring minimal irrigation, fertilization and maintenance.

C. Specific to zones T3, T4, T4-O.

1. Native plant perennial landscapes should replace turf grass wherever possible and be highly diverse. These should be placed lower than walkways, not mounded up.

D. Specific to zones T4, T4-O, T5, T5O, T6, SD6, SD7.

1. The landscape installed shall consist primarily of durable species tolerant of soil compaction.

2. Planter boxes should be bottomless, flow-through boxes with native plants, placed next to buildings and designed to capture building runoff. They may be placed in courtyards or adjacent sidewalks with runoff sent to them via French drains or hidden pipes. (Ord. 16945 § 2 (part), 2008)
(Ord. No. 17542, § 34, 4-26-2011; Ord. No. 17787, § 14, 5-15-2012; Ord. No. 17962, § 11, 3-5-2013)

21.50.140 Architectural standards.

A. General to zones T3, T4, T4-O, T5, T5-O, T6.

1. Reserved.

2. Street screens should be constructed of a material matching the adjacent building façade.

3. All openings, including porches, galleries, arcades and windows, with the exception of shop fronts, shall be square or vertical in proportion.

4. Openings above the first story shall not exceed fifty percent of the total building wall area, with each façade being calculated independently.

5. Reserved.

6. Gable roofs, if provided, shall be sloped with a grade no less than twenty-five percent, or no less than three inches of rise for every foot of run. Roofs for porches, dormers, and attached sheds may be no less than two inches of rise for every foot of run.

7. Reserved.

8. Flat roofs shall be enclosed by parapets a minimum of forty-two inches high, or as required to conceal mechanical equipment to the satisfaction of the CRC.

9. Reserved.

10. Accessory buildings, enclosures, and fences shall be compatible with the style of the buildings they serve. Chain-link fencing is specifically prohibited.

B. General to Special Districts SD3, SD4, SD5.

1. Reserved.

2. Street screens should be constructed of a material matching the adjacent building façade.

3. Openings above the first story shall no exceed fifty percent of the total building wall area, with each façade being calculated independently.

4. Reserved.

5. Gable roofs, if provided, shall be sloped with a grade no less than twenty-five percent, or no less than three inches of rise for every foot of run. Roofs for porches, dormers, and attached sheds may be no less than two inches of rise for every foot of run.

6. Flat and low-slope roofs shall be enclosed by parapets a minimum of forty-two inches high, or as required to conceal mechanical equipment. All roof screening of equipment shall be architecturally compatible with the building.

7. Reserved.

8. Reserved.

9. Stucco, masonry, and cementitious siding shall be kept neatly painted, if used.

10. Accessory buildings, enclosures, and fence shall be compatible with the style of the buildings they serve. Chain-link fencing is specifically prohibited.

11. Approval by director of aviation: The type of building construction proposed shall be subject to written prior approval of the director of aviation as authorized agent of declarant. Tenant is encouraged to use natural material and native rock in the exterior elevations of improvements.

C. Reserved.

D. Specific to Special District SD6.

1. Reserved.

2. Reserved.

3. Reserved.

4. Reserved.

5. Street screens should be constructed of a material matching the adjacent building façade.

6. Reserved.

7. Gable roofs, if provided, shall be sloped with a grade no less than twenty-five percent, or no less than three inches of rise for every foot of run. Roofs for porches, dormers, and attached sheds may be no less than two inches of rise for every foot of run.

8. Flat and low-slope roofs shall be enclosed by parapets a minimum of forty-two inches high, or as required to conceal mechanical equipment. All roof screening of equipment shall be architecturally compatible with the building.

9. Reserved.

10. Stucco, masonry, and cementitious siding shall be kept neatly painted, if used.

11. Accessory buildings, enclosures, and fences shall be compatible with the style of the buildings they serve. Chain-link fencing is specifically prohibited.

12. All south facing windows shall be shaded. (Ord. 16945 § 2 (part), 2008; Ord. No. 17378, § 2, 8-24-2010; Ord. No. 17542, §§ 35, 36, 4-26-2011; Ord. No. 17787, § 15, 5-15-2012; Ord. No. 18597, §§ 1—3, 11-15-2016; Ord. No. 18976, § 1, 9-3-2019)

Chapter 21.60

ENFORCEMENT AND PENALTY

Sections:

21.60.010 Civil and criminal penalties.

21.60.020 Criminal prosecution.

21.60.030 Civil remedies.

21.60.010 Civil and criminal penalties.

A. The city shall have the power to administer and enforce the provisions of this title as may be allowed by governing law. Any person violating any provision of this title is subject to suit for injunctive relief as well as prosecution for criminal violations. Any violation of this title is declared to be a nuisance. (Ord. 16945 § 2 (part), 2008)

21.60.020 Criminal prosecution.

A. Any person violating any provision of this title shall be guilty of a misdemeanor and upon conviction, be fined a sum not exceeding two thousand dollars. Each day that a provision of this title is violated shall constitute a separate offense. An offense under this title is a Class C misdemeanor. (Ord. 16945 § 2 (part), 2008)

21.60.030 Civil remedies.

A. Nothing in this title shall be construed as a waiver of the city's right to bring a civil action to enforce the provisions of this title and to seek remedies as allowed by law, including, but not limited to, the following:

1. Injunctive relief to prevent specific conduct that violates this title or to require specific conduct that is necessary for compliance with this title;

2. A civil penalty up to five hundred dollars a day when it is shown that the defendant was actually notified of the provisions of this title and after receiving notice committed acts in violation of this title or failed to take action necessary for compliance with this title; and

3. Any other available relief. (Ord. 16945 § 2 (part), 2008)

Chapter 21.70

DEFINITIONS OF TERMS

Sections:

21.70.010 Definitions.

21.70.010 Definitions.

This chapter provides definitions for terms in this title that are technical in nature or that otherwise may not reflect a common usage of the term. If a term is not defined in this chapter, then the CRC shall determine the correct definition. Items in italics refer to chapter, sections, or tables in the SmartCode.

"Accessory building" means an outbuilding with an accessory unit.

"Accessory unit" means an apartment not greater than four hundred forty square feet sharing ownership and utility connections with a principal building; it may or may not be within an outbuilding. See Table 10 and Table 17. (Syn: ancillary unit)

"Adjustments" mean a modification to the regulating plan which can be approved administratively by the CRC if the adjusted regulating plan complies with the standards and limits established in this title, falls with the parameters established under the tables contained in this title, and complies with the criteria established under Section 21.10.050.

"A-grid" means cumulatively, those thoroughfares that by virtue of their pre-existing pedestrian-supportive qualities, or their future importance to pedestrian connectivity, are held to the highest standards prescribed by this title. See B-grid. (Syn: primary grid.)

"Allée" means a regularly spaced and aligned row of trees usually planted along a thoroughfare or path.

"Apartment" means a residential unit sharing a building and a lot with other units and/or uses; may be for rent, or for sale as a condominium.

"Arcade" means a private frontage conventional for retail use wherein the facade is a colonnade that overlaps the sidewalk, while the facade at sidewalk level remains at the frontage line.

"Attic" means the interior part of a building contained within its roof structure.

"Avenue (AV)" means a thoroughfare of high vehicular capacity and low to moderate speed, acting as a short distance connector between urban centers, and usually equipped with a landscaped median.

"Backbuilding" means a single-story structure connecting a principal building to an outbuilding. See Table 17.

"Base density" means the number of dwelling units per acre before adjustment for other functions and/or TOR. See Density.

"Bed and breakfast" means an owner-occupied lodging type offering one to six bedrooms, permitted to serve breakfast in the mornings to guests.

"B-grid" means cumulatively, those thoroughfares that by virtue of their use, location, or absence of pre-existing pedestrian-supportive qualities, may meet a standard lower than that of the A-grid. See A-grid. (Syn: secondary grid.)

"Bicycle lane (BL)" means a dedicated lane for cycling within a moderate-speed vehicular thoroughfare, demarcated by striping.

"Bicycle route (BR)" means a thoroughfare suitable for the shared use of bicycles and automobiles moving at low speeds.

Bicycle trail (BT)" means a bicycle way running independently of a vehicular thoroughfare.

"Block" means the aggregate of private lots, passages, rear alleys and rear lanes, circumscribed by thoroughfares. "Block face" means the aggregate of all the building facades on one side of a block.

"Boulevard (BV)" means a thoroughfare designed for high vehicular capacity and moderate speed, traversing an urbanized area. Boulevards are usually equipped with slip roads buffering sidewalks and buildings.

"Brownfield" means an area previously used primarily as an industrial site. "BRT" See Bus Rapid Transit.

"Buffer" means a vegetated area, including trees, shrubs, and herbaceous vegetation, that exists or is established to protect a stream system, lake, reservoir, or coastal estuarine area. Alteration of this natural area is strictly limited.

"Bus rapid transit" means a rubber tire system with its own right-of-way or dedicated lane along at least seventy percent of its route, providing transit service that is faster than a regular bus.

"By right" means characterizing a proposal or component of a proposal for a building scale plan (Chapter 21.50) that complies with the SmartCode and is permitted and processed administratively, without public hearing. See Warrant and Variance.

"Civic" means the term defining not-for-profit organizations dedicated to arts, culture, education, recreation, government, transit and municipal parking.

"Civic building" means a building operated by not-for-profit organizations dedicated to arts, culture, education, recreation, government, transit, and municipal parking, or for use approved by the legislative body.

"Civic parking reserve" means parking structure or parking lot within a quarter-mile of the site that it serves. See Section 21.50.090 B.

"Civic space" means an outdoor area dedicated for public use. civic space types are defined by the combination of certain physical constants including the relationships among their intended use, their size, their landscaping and their enfronting buildings. See Table 13.

"Civic zone" means designation for public sites dedicated for Civic Buildings and civic space.

"CLD" or "clustered land development" means a community type structured by a standard pedestrian shed oriented toward a common destination such as a general store, meeting hall, schoolhouse, or church. CLD takes the form of a small settlement standing free in the countryside. See Table 2 and Table 14a. (Syn: Hamlet, conservation land development, cluster)

"Commercial" means the term collectively defining workplace, office, retail and lodging functions.

"Common destination" means an area of focused community activity, usually defining the approximate center of a pedestrian shed. It may include without limitation one or more of the following: a civic space, a Civic Building, a commercial center, or a transit station, and may act as the social center of a neighborhood.

"Common yard" means a planted private frontage wherein the facade is set back from the frontage line. It is visually continuous with adjacent yards. See Table 7.

"Community" means a regulatory category defining the physical form, density, and extent of a settlement. The three community types addressed in this title are CLD, TND, and RCD. Variants of TND and RCD for infill (Chapter 21.40) are called infill TND and infill RCD. The TOD community type may be created by an overlay on TND or RCD.

"Configuration" means the form of a building, based on its massing, private frontage and height.

"Conservation covenant" means a voluntary declaration by a property owner of a covenant that is filed of record in the El Paso County Real Property Records on property and is intended to preserve permanently the conservation values of an area.

"Consolidated review committee (CRC)" means an administrative committee overseen by the planning division comprised of employees from various city department having purview over matters encompassed by a project, as designated by the city manager or designee.

"Corridor" means a lineal geographic system incorporating transportation and/or greenway trajectories. A transportation corridor may be a lineal transect zone.

"Cottage" means an edgeyard building type A single-family dwelling, on a regular lot, often shared with an accessory building in the backyard.

"Courtyard building" means a building that occupies the boundaries of its lot while internally defining one or more private patios. See Table 9.

"CRC" means consolidated review committee.

"Curb" means the edge of the vehicular pavement that may be raised or flush to a swale. It usually incorporates the drainage system See Table 4A and Table 48.

"Density" means the number of dwelling units within a standard measure of land area.

"Design speed" means the velocity at which a thoroughfare tends to be driven without the constraints of signage or enforcement. There are four ranges of speed very low (below twenty MPH); low (twenty to twenty-five MPH); moderate (twenty-five to thirty-five MPH); high (above thirty-five MPH). Lane width is determined by desired design speed. See Table 3A.

"Developable areas" means lands other than those in the T-1 Natural.

"Disposition" means the placement of a building on its lot. See Table 9 and Table 17.

"Dooryard" means a private frontage type with a shallow setback and front garden or patio, usually with a low wall at the frontage line. See Table 7. (Variant lightwell, light court.)

"Drive" means a thoroughfare along the boundary between an urbanized and a natural condition, usually along a waterfront, park or promontory one side has the urban character of a thoroughfare, with sidewalk and building, while the other has the qualities of a road or parkway, with naturalistic planting and rural details.

"Driveway" means a vehicular lane within a lot, often leading to a garage. See Section 21.50.100 and Table 3B-f.

"Edgeyard building" means a building that occupies the center of its lot with setbacks on all sides. See Table 9.

"Effective parking" means the amount of parking required for mixed use after adjustment by the shared parking factor. See Table 11.

"Effective turning radius" means the measurement of the inside turning radius taking parked cars into account. See Table 17.

"Elevation" means an exterior wall of a building not along a frontage line. See Table 17. See facade.

"Encroachment" means any structural element that breaks the plane of a vertical or horizontal regulatory limit, extending into a setback, into the public frontage, or above a height limit.

"Enfront" means to place an element along a Frontage, as in "porches enfront the street".

"Ephemeral stream" means a stream that flows only during and immediately after precipitation events.

"Estate house" means an edgeyard building type A single-family dwelling on a very large lot of rural character, often shared by one or more accessory buildings. (Syn: country house, villa)

"Expression line" means a line prescribed at a certain level of a building for the major part of the width of a facade, expressed by a variation in material or by a limited projection such as a molding or balcony. See Table 8. (Syn: transition line.)

"Facade" means the exterior wall of a building that is set along a frontage line. See Elevation.

"Forecourt" means a private frontage wherein a portion of the facade is close to the frontage line and the central portion is set back. See Table 7.

"Frontage" means the area between a building facade and the vehicular lanes, inclusive of its built and planted components. Frontage is divided into private frontage and public frontage. See Table 4A and Table 7.

"Frontage line" means a lot line bordering a public frontage. Facades facing Frontage lines define the public realm and are therefore more regulated than the elevations facing other lot lines. See Table 17.

"Function" means the use or uses accommodated by a building and its lot, categorized as restricted, limited, or open, according to the intensity of the use. See Table 10 and Table 12.

"Gallery" means a private frontage conventional for retail use wherein the facade is aligned

close to the frontage line with an attached cantilevered shed or lightweight colonnade overlapping the sidewalk. See Table 7.

"Green" means a civic space type for unstructured recreation, spatially defined by landscaping rather than building frontages. See Table 13.

"Greenfield" means an area that consists of open or wooded land or farmland that has not been previously developed. "Greenway" means an open space corridor in largely natural conditions which may include trails for bicycles and pedestrians.

"Greenway" means an open space corridor in largely natural conditions which may include trails for bicycles and pedestrians. The trajectory of a greenway should lead through natural as well as urban areas, connecting residential areas to the bikeway and pedestrian network and with community areas such as schools and parks. Recreational opportunities and the landscaping pattern along greenways should be appropriate to its location: naturalistic within natural and rural zones, and formal within neighborhoods. A greenway may be independent of building frontages and may occur outside of an adjusted pedestrian shed.

"Hamlet." See CLD. (Syn: cluster, settlement.)

"Highway" means a rural and suburban thoroughfare of high vehicular speed and capacity. This type is allocated to the more rural transect zones (T-1, T-2, and T-3).

"Home occupation" means non-retail commercial enterprises. The work quarters should be invisible from the frontage, located either within the house or in an outbuilding. Permitted activities are defined by the restricted office category. See Table 10.

"House" means an edgeyard building type, usually a single-family dwelling on a large lot, often shared with an accessory building in the backyard. (Syn: single.)

"Infill" means new development on land that had been previously developed, including most Greyfield and Brownfield sites and cleared land within urbanized areas.

"Infill community plan" means an urban design plan for infill and revitalization that meets the intent of this title and the standards in Chapter 21.40.

"Infill regulating plan" means the map or maps that codify the essential elements of an infill community plan and which may be submitted to and approved by the city council to serve as the exclusive and mandatory zoning regulations for that land.

"Infill RCD" means a community type within most Urbanized, Greyfield, or Brownfield areas based on a long or linear pedestrian shed and consisting of T-4, T-5, and/or T-6 Zones. An infill RCD regulated by Chapter 21.40. See Section 21.40.020(C). (Var.: downtown)

"Infill TND" means a community type within most urbanized, Greyfield, or Brownfield areas based on a standard pedestrian shed and consisting of T-3, T-4, and/or T-5 Zones. An infill TND is regulated by Chapter 21.40. See Section 21.40.020(B). (Var: neighborhood.)

"Inn" means a lodging type, offering six to twelve bedrooms, permitted to serve breakfast in the mornings to guests. See Table 10.

"Layer" means a range of depth of a lot within which certain elements are permitted. See Table 17.

"Lightwell" means a private frontage type that is a below-grade entrance or recess designed to allow light into basements. See Table 7. (Syn: light court.)

"Linear pedestrian shed" means a pedestrian shed that is elongated along an important mixed use corridor such as a main street A linear pedestrian shed extends approximately one-fourth mile from each side of the corridor for the length of its mixed use portion. The resulting area is shaped like a lozenge. It may be used to structure a TND, RCD, infill TND, or infill RCD. (Syn: elongated pedestrian shed.)

"Liner building" means a building specifically designed to mask a parking lot or a parking structure from a frontage.

"Live-work" means a mixed use unit consisting of a commercial and residential function. The commercial function may be anywhere in the unit. It is intended to be occupied by a business operator who lives in the same structure that contains the commercial activity or industry. See Work-Live. (Syn: flexhouse.)

"Lodging" means premises available for daily and weekly renting of bedrooms. See Table 10 and Table 12.

"Long pedestrian shed" means a pedestrian shed that is an average one-half mile radius or two thousand six hundred forty feet, used when a transit stop (bus or rail) is present or proposed as the common destination. A long pedestrian shed represents approximately a ten-minute walk at a leisurely pace. It is applied to structure an RCD community type See Pedestrian shed.

"Lot" means a parcel of land accommodating a building or buildings of unified design. The size of a lot is controlled by its width in order to determine the grain (i.e., fine grain or coarse grain) of the urban fabric.

"Lot line" means the boundary that legally and geometrically demarcates a lot.

"Lot width" means the length of the principal frontage line of a lot.

"Main civic space" means the primary outdoor gathering place for a community. The main civic space is often, but not always, associated with an important Civic Building.

"Manufacturing" means premises available for the creation, assemblage and/or repair of artifacts, using table-mounted electrical machinery or artisanal equipment, and including their retail sale.

"Meeting hall" means a building available for gatherings, including conferences, that accommodates at least one room equivalent to a minimum of ten square feet per projected dwelling unit within the pedestrian shed in which it is located. adjacency, or in multiple buildings within the same area by adjacency

"Net site area" means all developable land within a site including thoroughfares but excluding land allocated as civic zones.

"Network pedestrian shed" means a pedestrian shed adjusted for average walk times along thoroughfares. This type may be used to structure infill community plans. See Table 17.

"New community plan" means an urban design plan for new development or redevelopment that meets the intent of this title and the standards in Chapter 21.30.

"New community regulating plan" means the map or maps that codify the essential elements of a new community plan and which may be submitted to and approved by the city council to serve as the exclusive and mandatory zoning regulations for that land.

"Office" means premises available for the transaction of general business but excluding retail, artisanal and manufacturing uses. See Table 10.

"Open space" means land intended to remain undeveloped; it may be reserved for civic space.

"Outbuilding" means an accessory building, usually located toward the rear of the same lot as a principal building, and sometimes connected to the principal building by a backbuilding. See Table 17.

"Park" means a civic space type that is a natural preserve available for unstructured recreation. See Table 13.

"Parking structure" means a building containing one or more stories of parking above grade.

"Parkway" means the element of the public frontage which accommodates street trees, whether continuous or individual.

"Passage (PS)" means a pedestrian connector, open or roofed, that passes between buildings to provide shortcuts through long blocks and connect rear parking areas to frontages.

"Path (PT)" means a pedestrian way traversing a park or rural area, with landscape matching the contiguous open space, ideally connecting directly with the urban sidewalk network.

"Pedestrian shed" means an area that is centered on a common destination. Its size is related to average walking distances for the applicable community type. Pedestrian sheds are applied to

structure communities. See Standard, Long, Linear or Network pedestrian shed. (Syn: walkshed, walkable catchment.)

"Planning division" means the planning division of the planning and economic development department.

"Plaza" means a civic space type designed for civic purposes and commercial activities in the more urban transect zones, generally paved and spatially defined by building frontages.

"Principal building" means the main building on a lot, usually located toward the frontage. See Table 17.

"Principal entrance" means the main point of access for pedestrians into a building.

"Principal frontage" means on corner lots, the private frontage designated to bear the address and principal entrance to the building, and the measure of minimum lot width. Prescriptions for the parking layers pertain only to the principal frontage. Prescriptions for the first layer pertain to both frontages of a corner lot. See Frontage.

"Private frontage" means the privately held layer between the frontage line and the principal building facade. See Tables 7 and 17.

"Promontory" means a small open space located at the edge of a bluff or cliff primarily for viewing the natural landscape.

"Public frontage" means the area between the curb of the vehicular lanes and the frontage line. See Tables 4A and 4B. RCD. See Regional Center Development.

"Rambla" means a linear open space between one-way streets that extends for at least three successive blocks.

"Rear alley (RA)" means a vehicular way located to the rear of lots providing access to service areas, parking, and outbuildings and containing utility easements. Rear alleys should be paved from building face to building face, with drainage by inverted crown at the center or with roll curbs at the edges.

"Rear lane (RL)" means a vehicular way located to the rear of lots providing access to service areas, parking, and outbuildings and containing utility easements. Rear lanes may be paved lightly to driveway standards. The streetscape consists of gravel or landscaped edges, has no raised curb, and is drained by percolation.

"Rearyard building" means a building that occupies the full Frontage line, leaving the rear of the lot as the sole yard. See Table 9. (Var: Rowhouse, Townhouse, Apartment House)

"Recess line" means a line prescribed for the full width of a facade, above which there is a stepback of a minimum distance, such that the height to this line (not the overall building height) effectively defines the enclosure of the enfronting public space. See Table 8.

"Regional center" means regional center development or RCD.

"Regional center development (RCD)" means a community type structured by a long pedestrian shed or linear pedestrian shed, which may be adjoined without buffers by one or several standard pedestrian sheds, each with the individual transect zone requirements of a TND. RCD takes the form of a high-density mixed use center connected to other centers by transit. See infill RCD, Tables 2 and 14a. (Var: town center, downtown. Syn: Regional Center)

"Regulating plan" means a map or set of maps that shows the transect zones, civic zones, special districts (if any), thoroughfare network, and special requirements (if any), of areas subject to, or potentially subject to, regulation by the SmartCode.

"Residential" means characterizing premises available for long-term human dwelling.

"Retail" means characterizing premises available for the sale of merchandise and food service. See Tables 10 and 12.

"Retail frontage" means Frontage designated on a regulating plan that requires or recommends the provision of a shopfront, encouraging the ground level to be available for retail use. See special requirements.

"Road (RD)" means a local, rural and suburban thoroughfare of low-to-moderate vehicular speed and capacity This type is allocated to the more rural transect zones (T1—T3). See Table 3A.

"Rowhouse" means a single-family dwelling that shares a party wall with another of the same type and occupies the full frontage line. See Rearyard Building. (Syn: Townhouse)

"Secondary frontage" means on corner lots, the private frontage that is not the principal frontage. As it affects the public realm, its first layer is regulated. See Table 17.

"Setback" means the area of a lot measured from the lot line to a building facade or elevation that is maintained clear of permanent structures, with the exception of encroachments listed in Section 21.50.070. See Table 14g (Var: build-to-line.)

"Shared parking factor" means an accounting for parking spaces that are available to more than one function See Table 11.

"Shopfront" means a private frontage conventional for retail use, with substantial glazing and an awning, wherein the facade is aligned close to the frontage line with the building entrance at sidewalk grade. See Table 7.

"Sidewalk" means the paved section of the public frontage dedicated exclusively to pedestrian activity.

"Sideyard building" means a building that occupies one side of the lot with a setback on the other side. This type can be a single or twin depending on whether it abuts the neighboring house. See Table 9.

"Slip road" means an outer vehicular lane or lanes of a thoroughfare, designed for slow speeds while inner lanes carry higher speed traffic, and separated from them by a planted median. (Syn: access lane, service lane)

"SmartCode planning area" means parcel on a zoning map where the SmartCode is the exclusive and mandatory zoning regulation.

"Special district (SD)" means an area that, by its intrinsic function, disposition, or configuration, cannot or should not conform to one or more of the normative community types or transect zones specified by the SmartCode.

"Special requirements" means provisions of Sections 21.30.090, 21.40.070 and 21.50.030 of this title and/or the associated designations on a regulating plan or other map for those provisions.

"Specialized building" means a building that is not subject to residential, commercial, or lodging classification. See Table 9.

"Square" means a civic space type designed for unstructured recreation and civic purposes, spatially defined by building frontages and consisting of paths, lawns and trees, formally disposed. See Table 13.

"Standard pedestrian shed" means a pedestrian shed that is an average one-fourth mile radius or one thousand three hundred twenty feet, about the distance of a five-minute walk at a leisurely pace. See Pedestrian Shed.

"Stepback" means a building setback of a specified distance that occurs at a prescribed number of stories above the ground. See Table 8.

"Stoop" means a private frontage wherein the facade is aligned close to the frontage line with the first story elevated from the sidewalk or privacy, with an exterior stair and landing at the entrance. See Table 7.

"Stormwater open space" means a natural open area to be used to help manage storm water, reduce flooding risk and improve water quality as its primary purposes, while still permitting passive recreational use of the open space as secondary purposes to the area. Water, waste water, and stormwater utility systems within areas designated for stormwater open space shall be designed with environmentally sensitive infrastructure and constructed with a low impact development (LID) approach to the extent permitted in the city's subdivision regulations. Any area designated as stormwater open space shall require the approval of the Floodplain Administrator, shall conform to the master stormwater management plan and open space master plan of the city, and shall be shown within the boundaries of any required land study, subdivision plat, detailed site development plan, master zoning plan, SmartCode regulating plan, or any other platting or zoning document as may be required by the city.

"Story" means a habitable level within a building, excluding an attic or raised basement. See Section 21.50.070 A. and Table 8.

"Streams" means perennial and intermittent watercourses identified through site inspection and US Geological Survey (USGS) maps. Perennial streams are those depicted on a USGS map with a solid blue line. Intermittent streams are those depicted on a USGS map with a dotted blue line. Street (ST): A local urban thoroughfare of low speed and capacity. See Tables 3B and 48.

"Streetscreen" means a freestanding wall built along the frontage line, or coplanar with the facade. It may mask a parking lot from the thoroughfare, provide privacy to a side yard, and/or strengthen the spatial definition of the public realm. (Syn: streetwall.) See Section 21.50.070 F.5.

"Substantial modification" means alteration to a building that is valued at more than fifty percent of the replacement cost of the entire building, if new.

"Swale" means a low or slightly depressed natural area for drainage.

"Terminated vista" means a location at the axial conclusion of a thoroughfare. A building located at a terminated vista designated on a regulating plan is required or recommended to be designed in response to the axis.

"Third place" means a term used in the concept of community building to refer to social surroundings separate from the two usual social environments of home and workplace. Criteria for a third place include the following: highly accessible, proximate for many within walking distance, involve regulars, and inexpensive food and drink are important. Coffee shops and cafes are often used as a neighborhood's third place.

"Thoroughfare" means a way for use by vehicular and pedestrian traffic and to provide access to lots and open spaces, consisting of vehicular lanes and the public frontage. See Tables 3A, 3B and 17a.

TND. "Traditional neighborhood development" means a community type structured by a standard pedestrian shed oriented toward a common destination consisting of a mixed use center or corridor, and in the form of a medium-sized settlement near a transportation route. See Tables 2 and 14a. (Syn: village. Variant: Infill TND, neighborhood.)

TOD: "Transit-Oriented Development." TOD is created by an overlay on all or part of a TND or RCD, permitting increased density to support rail or bus rapid transit (BRT) as set forth in Section 21.50.090 B.4.

Townhouse. See Rearyard Building. (Syn: Rowhouse)

"Transect" means a cross-section of the environment showing a range of different habitats. The rural-urban transect of the human environment used in the SmartCode template is divided into six transect zones. These zones describe the physical form and character of a place, according to the density and intensity of its land use and urbanism.

"transect zone (T-Zone)" means one of several areas on a zoning map regulated by the SmartCode. transect zones are administratively similar to the land use zones in conventional codes, except that in addition to the usual building use, density, height, and setback requirements, other elements of the intended habitat are integrated, including those of the private lot and building and public frontage. See Table 1.

"Turning radius" means the curved edge of a thoroughfare at an intersection, measured at the inside edge of the vehicular tracking, The smaller the turning radius, the smaller the pedestrian crossing distance and the more slowly the vehicle is forced to make the turn. See Tables 3B and 17.

"T-Zone" means transect zone.

"Urbanism" means collective term for the condition of a compact, mixed use settlement, including the physical form of its development and its environmental, functional economic, and sociocultural aspects.

"Urbanized" means generally, developed, Specific to the SmartCode, developed at T-3 (Sub-Urban) density or higher.

"Utility green space" means an area of protected or conserved land, larger than ten acres, where development is limited or controlled to preserve large areas of undisturbed open space as its primary purpose, while still permitting passive recreational uses and necessary water, waste water and stormwater utility systems as secondary purposes to the area. Utility green space shall be shown within the boundaries of any required land study, subdivision plat, detailed site development plan, master zoning plan, SmartCode regulating plan, or any other platting or zoning document as may be required by the city.

"Variance" means a ruling that would permit a practice that is not consistent with either a specific provision or the intent of this title (Section 21.10.030), Variances are usually granted by the zoning board of adjustment in a public hearing, See Section 21.10.050.

'Warrant" means a ruling that would permit a practice that is not consistent with a specific provision of this title code, but that is justified by its intent (Section 21.10.030), warrants are usually granted administratively by the CRC. See Section 21.10.050.

"Work-live" means a mixed use unit consisting of a commercial and residential function. It typically has a substantial commercial component that may accommodate employees and walk-in trade. The unit is intended to function predominantly as work space with incidental residential accommodations that meet basic habitability requirements. See Live-Work, (Syn: Live-With)

"Yield" means characterizing a thoroughfare that has two-way traffic but only one effective travel lane because of parted cars, necessitating slow movement and driver negotiation.

"Zoning map" means the Official Zoning Map Series, City of El Paso, Texas that delineates the boundaries of individual zoning districts. See Section 20.06.030. (Ord. 16945 § 2 (part), 2008)
(Ord. No. 17441, §§ 4, 5, 10-26-2010; Ord. No. 17542, § 37, 4-26-2011; Ord. No. 17787, § 16, 5-15-2012; Ord. No. 17802, § 1, 6-5-2012; Ord. No. 17903, § 3, 11-6-2012; Ord. No. 17962, § 12, 3-5-2013; Ord. No. 18976, § 2, 9-3-2019)

21.80.010 Table 1: Transect Zone Descriptions.

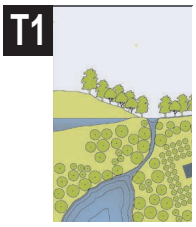
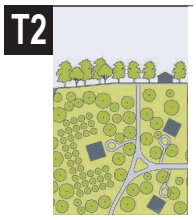
This table describes of the intent of each Transect Zone.



T-1 Natural

General Character:	Natural landscape with some agricultural use
Building Placement:	Not applicable
Frontage Types:	Not applicable
Typical Building Height:	Not applicable
Type of Civic Space:	Parks, Greenways

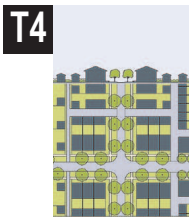


T-2 RURAL

General Character:	Primarily agricultural with woodland & wetland and scattered building
Building Placement:	Variable Setbacks
Frontage Types:	Not applicable
Typical Building Height:	1- to 2-Story
Type of Civic Space:	Parks, Greenways

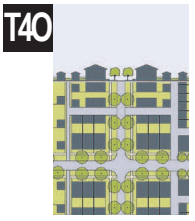
T-3 SUB-URBAN

General Character:	Lawns, and landscaped yards surrounding detached single-family houses; pedestrians occasionally
Building Placement:	Large and variable front and side yard Setbacks
Frontage Types:	Porches, fences, naturalistic tree planting
Typical Building Height:	1- to 2-Story
Type of Civic Space:	Parks, Greenways



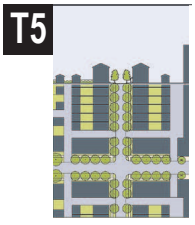
T-4 GENERAL URBAN

General Character:	Mix of Houses, Townhouses & small Apartment buildings, with scattered Commercial activity; balance between landscape and buildings; presence of pedestrians
Building Placement:	Shallow to medium front and side yard Setbacks
Frontage Types:	Porches, fences, Stoops, Dooryards
Typical Building Height:	2- to 3-Story
Type of Civic Space:	Squares, Greens



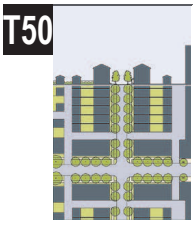
T-4O GENERAL URBAN-OPEN

General Character:	Mix of Houses, Townhouses & small Apartment buildings, with open Commercial activity; predominantly attached buildings; trees within the public right-of-way; substantial pedestrian activity
Building Placement:	Shallow Setbacks or none; buildings oriented to street defining a street wall
Frontage Types:	Shopfronts, Porches, fences, Stoops, Dooryards
Typical Building Height:	2- to 3-Story
Type of Civic Space:	Plazas, Squares, Greens, median landscaping



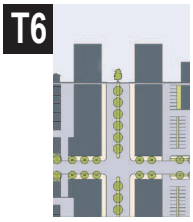
T-5 URBAN CENTER

General Character:	Shops mixed with Townhouses, larger Apartment houses, Offices, workplace, and Civic Buildings; predominantly attached buildings; trees within the public right-of-way; substantial pedestrian activity
Building Placement:	Shallow Setbacks or none; buildings oriented to street defining a street wall
Frontage Types:	Stoops, Shopfronts, Galleries
Typical Building Height:	2- to 5-Story with some variation
Type of Civic Space:	Parks, Plazas and Squares, median landscaping



T-5O URBAN CENTER-OPEN

General Character:	Shops mixed with Townhouses, larger Apartment houses, Offices, workplace, and Civic Buildings; predominantly attached buildings; trees within the public right-of-way; substnatial pedestrian activity
Building Placement:	Shallow Setbacks or none; buildings oriented to street, defining a street wall
Frontage Types:	Stoops, Shopfronts, Galleries, and Arcades
Typical Building Height:	2- to 6-Story with some variation
Type of Civic Space:	Parks, Plazas and Squares; median landscaping



T-6 URBAN CORE

General Character:	Medium to high-Density Mixed Use buildings, entertainment, Civic and cultural uses. Attached buildings forming a continuous street wall; trees within the public right-of-way; highest pedestrian and transit activity
Building Placement:	Shallow Setbacks or none; buildings oriented to street, defining a street wall
Frontage Types:	Stoops, Dooryards, Forecourts, Shopfronts, Galleries, and Arcades
Typical Building Height:	4-plus Story with a few shorter buildings
Type of Civic Space:	Parks, Plazas and Squares; median landscaping

(Ord. 16945 § 2 (part, 2008)
(Ord. No. 17542, § 38(Exh. A), 4-26-2011; Ord. No. 17787, § 17(Exh. A), 5-15-2012)

21.80.020 Table 2: Smart Code Signage Module.

TABLE 2A: SIGN HARDWARE TYPE OVERVIEW*		
* The photographs and renderings depicted herein are for illustrative purposes only and are not intended to be regulatory in nature.	**Sign Style Permitted** Sign Style Not Permitted	
 **Banner:** A Banner is any type of sign copy placed on a flexible material other than an awning.	Awning **Blade** Hanging Marquee Monument Mural	Roof Sidewalk **Suspended** **Wall** **Window** Yard
Cabinet: Copy on a Cabinet is fabricated into the box, so that the hardware of the sign and copy appear to be one piece. Cabinet signs may not be internally illuminated.	Awning **Blade** **Hanging** **Marquee** Monument Mural	**Roof** Sidewalk Suspended **Wall** **Window** **Yard**
Painted: Sign copy may be painted directly onto the face of a building, awning or business window.	**Awning** Blade Hanging Marquee Monument **Mural**	Roof Sidewalk Suspended Wall **Window** Yard
Plaque: A Plaque consists of copy that is carved, molded, or printed onto a framing surface. A Plaque appears from the public right-of-way as one contiguous piece of hardware.	Awning **Blade** **Hanging** Marquee **Monument** Mural	Roof Sidewalk **Suspended** **Wall** **Window** **Yard**
Printed: The Printed hardware type specifically refers to sign copy that is printed onto a permanent awning.	**Awning** Blade Hanging Marquee Monument Mural	Roof Sidewalk Suspended Wall Window Yard
Programmable: A sign utilizing the Programmable hardware type has changeable copy area; either electronic (called CEVM in Title 20) or analog (track letter). Signs with changeable copy used in a Sidewalk orientation are not included.	Awning Blade **Hanging** **Marquee** **Monument** Mural	Roof Sidewalk Suspended **Wall** **Window** **Yard**

TABLE 2A: SIGN HARDWARE TYPE OVERVIEW*		
* The photographs and renderings depicted herein are for illustrative purposes only and are not intended to be regulatory in nature.	**Sign Style Permitted** Sign Style Not Permitted	
Projected: A sign utilizing the Projected hardware type consists of copy that projects from the flat surface to which it is affixed. Unlike a Plaque hardware type, the copy elements of a sign using the Projected hardware type may be affixed directly to a face, and may project to a greater degree.	**Awning** Blade Hanging **Marquee** **Monument** Mural	**Roof** Sidewalk Suspended **Wall** Window **Yard**
Stake: A sign planted in a front yard that is placed for a limited amount of time. Signs utilizing the Stake hardware type are portable, freestanding, and impermanent by design. This hardware type may only be utilized for Temporary signs.	Awning Blade Hanging Marquee Monument Mural	Roof Sidewalk Suspended Wall Window **Yard**
 **Standing:** A sign utilizing the Standing hardware type may be placed on a sidewalk to show, for example, a restaurant menu, daily specials or sales, or special event notifications, to pedestrians. Signs utilizing the Standing hardware type are portable and freestanding.	Awning Blade Hanging Marquee Monument Mural	Roof **Sidewalk** Suspended Wall Window Yard
Alternative: Signs utilizing an Alternative hardware type do not conform to any of the hardware types defined in this module, but nevertheless meet the design standards and intent of the SmartCode, as regulated by section 21.50.120.080.	**Awning** **Blade** **Hanging** **Marquee** **Monument** Mural	**Roof** **Sidewalk** **Suspended** **Wall** **Window** **Yard**

TABLE 2B: SPECIFIC HARDWARE TYPE STANDARDS

HARDWARE TYPE	PERMITTED MATERIALS
Banner	Vinyl
Cabinet	Any combination of wood, metal, acrylic or plastic
Painted	If applied to exterior, any paint designed for exterior applications
Plaque	Any combination of wood, metal, stone, acrylic or plastic
Printed	N/A
Programmable	Any combination of wood, metal, stone, acrylic or plastic
Projected	Any combination of wood, metal, stone, acrylic or plastic
Stake	Wood, metal, acrylic, plastic or vinyl
Standing	Wood, metal, plastic or hardboard
Alternative	N/A

SIGN ILLUMINATION STANDARDS					
HARDWARE TYPE	HALO LIGHTING	EXTERNAL	INDIVIDUAL BULB	NEON TUBE	ALTERNATIVE
Banner	X	X	X	X	X
Cabinet	O	O	X	X	X
Painted	X	O	X	X	X
Plaque	O	O	O	O	O
Printed	X	O	X	X	X
Programmable	X	O	X	X	O

Stake	X	X	X	X	X
Standing	X	X	X	X	X
Alternative	O	O	O	O	O

O = Permitted

X = Not Permitted

TABLE 2C: ILLUMINATION TYPES OVERVIEW*	
	Halo Lighting: Opaque sign copy can be illuminated by diffuse light from sources mounted behind copy, creating a 'halo' effect around the copy elements. Light sources should not be visible from the public right-of-way.
	External: Signage can be illuminated with spotlights aimed upward at copy, or hooded lamps that shine downward upon it. Each light source is fully independent of the sign itself.
	Individual Exposed Bulb: Individual exposed bulbs can be used to highlight particular elements of sign copy, or to animate a sign to make it more eye-catching. Individual bulbs may project from a flat sign or be embedded within a Projected sign, but the light source is always visible from the public right-of-way.
	Neon Tube: Sculpted neon tubes can be used to highlight particular elements of sign copy, or to animate a sign to make it more eye-catching. The light source should always be visible from the public right-of-way.
	Alternative: Upon submittal of an Alternative sign style proposal, an applicant may propose the use of another illumination method not listed in the module.

TABLE 2D: SIGN ORIENTATION TYPE OVERVIEW*

		Sign Hardware Permitted / Sign Hardware Not Permitted
	Awning: This orientation type includes signs placed atop or upon an awning, canopy, or sidewalk arcade above a storefront. Signage can be printed directly onto a fabric awning, or, if the awning is of a rigid construction, may be mounted upon it.	Banner, Cabinet, **Painted**, Plaque, **Printed**; Programmable, **Projected**, Stake, Standing, **Alternative** **GROUND LEVEL** UPPER LEVEL
	Blade: Signs utilizing the Blade orientation type are mounted perpendicular to, and are fully supported by, a building face.	**Banner**, **Cabinet**, Painted, **Plaque**, Printed; Programmable, Projected, Stake, Standing, **Alternative** **GROUND LEVEL** **UPPER LEVEL**
	Hanging: Signs utilizing the Hanging orientation type are fastened to and hang below any permanent eave, roof, awning, or bracket.	Banner, **Cabinet**, Painted, **Plaque**, Printed; **Programmable**, Projected, Stake, Standing, **Alternative** **GROUND LEVEL** UPPER LEVEL
	Marquee: This orientation type is applicable to signs that are mounted upon a marquee; a cantilevered roof-like structure that hangs over the building entrance and has a face parallel to the building face. Signs utilizing this orientation typically adorn performing arts venues.	Banner, **Cabinet**, Painted, Plaque, Printed; **Programmable**, **Projected**, Stake, Standing, **Alternative** **GROUND LEVEL** UPPER LEVEL
	Monument: This orientation type is applicable to freestanding signs that sit on a wall or pedestal in front of a building. A sign utilizing this orientation type may be used as a directory for multiple businesses, or just one.	Banner, Cabinet, Painted, **Plaque**, Printed; **Programmable**, **Projected**, Stake, Standing, **Alternative** **GROUND LEVEL** UPPER LEVEL
	**Mural:** This orientation type is applicable to advertising that is painted directly onto a building face, typically along a side street or alley. Any sign copy painted onto a wall is classified as a Mural sign.	Banner, Cabinet, **Painted**, Plaque, Printed; Programmable, Projected, Stake, Standing, Alternative **GROUND LEVEL** UPPER LEVEL

TABLE 2D: SIGN ORIENTATION TYPE OVERVIEW*		
		Sign Hardware Permitted Sign Hardware Not Permitted
	Roof: A sign utilizing the Roof orientation type is erected upon, over, or above a roof.	Banner Programmable **Cabinet** **Projected** **Painted** Stake Plaque Standing Printed **Alternative** GROUND LEVEL **UPPER LEVEL**
	Sidewalk: This orientation type includes any portable sign placed on sidewalks or medians. They are typically used to advertise daily specials or otherwise entice pedestrians to patronize a business.	Banner Programmable Cabinet Projected Painted Stake Plaque **Standing** Printed **Alternative** **GROUND LEVEL** UPPER LEVEL
	Suspended: A sign utilizing this orientation type is suspended above a driveway, entrance, or the sidewalk, and is fastened to a building, pole, or other permanent feature on both ends.	**Banner** Programmable Cabinet Projected Painted Stake **Plaque** Standing Printed **Alternative** **GROUND LEVEL** **UPPER LEVEL**
	Wall: This orientation type includes signs that are permanently affixed against a building face. Signage affixed to masonry walls, fences or gates, and individual cut letters affixed directly to a building face utilize the Wall orientation type.	**Banner** **Programmable** **Cabinet** **Projected** Painted Stake **Plaque** Standing Printed **Alternative** **GROUND LEVEL** **UPPER LEVEL**
	Window: Signs utilizing the Window orientation type consist of copy that is painted onto a window face, or sign hardware that is displayed through the window from inside the storefront.	**Banner** **Programmable** **Cabinet** Projected **Painted** Stake **Plaque** Standing Printed **Alternative** **GROUND LEVEL** **UPPER LEVEL**
	Yard: This orientation type applies to free-standing signs that sit in the front yard of a business, typically in a residential type building. The Yard orientation type is distinct from the Monument orientation type in that its copy area is raised off of the ground and supported with posts or poles.	Banner **Programmable** **Cabinet** **Projected** Painted **Stake** **Plaque** Standing Printed **Alternative** **GROUND LEVEL** UPPER LEVEL

TABLE 2E: SPECIFIC SIGN ORIENTATION TYPE STANDARDS—AWNING*

AWNING

This orientation type includes sign hardware placed atop or upon an awning, canopy, or sidewalk arcade above a storefront. Sign copy can be printed or painted directly onto an awning, or, if the awning is of a rigid construction, sign hardware may be mounted upon it.

SIGN FREQUENCY

One per frontage

LOCATION RESTRICTIONS

An Awning sign shall not obscure more than 20% of the total area of the second floor windows

DIMENSIONAL STANDARDS

Sign Area: No more than 75% of the surface of the awning face Ⓐ

OTHER RESTRICTIONS

Arcades, awnings, canopies and galleries shall comply with the standards described in Title 15

HARDWARE

Banner
Cabinet
Painted
Plaque

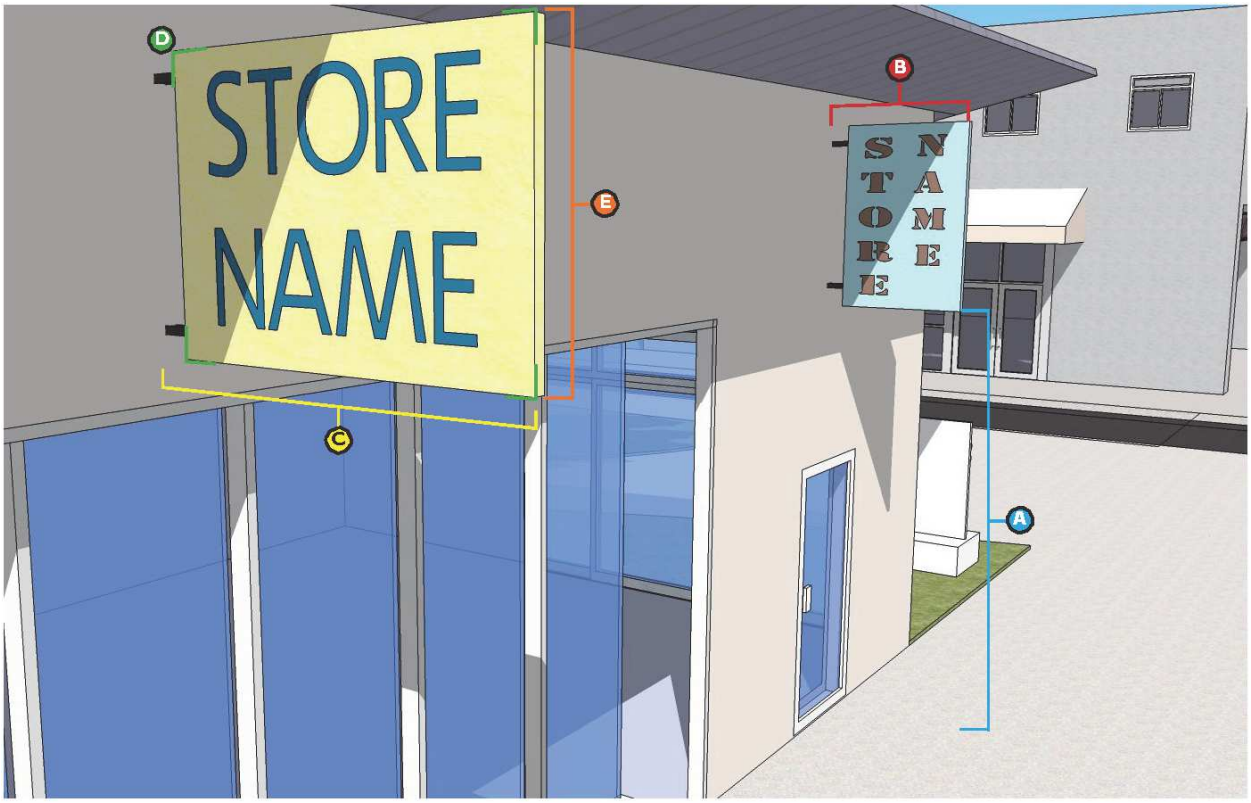
TABLE 2F: SPECIFIC SIGN ORIENTATION TYPE STANDARDS—BLADE*



BLADE

Signs utilizing the Blade orientation type are mounted perpendicular to, and are fully supported by, a building face.

SIGN FREQUENCY

One sign with a maximum of two faces per storefront

LOCATION RESTRICTIONS

Minimum sidewalk clearance of 8 feet Ⓐ / 16 feet over driveways

Signs with vertically oriented copy shall not project more than 5 feet from building face Ⓑ

Signs with horizontally oriented copy shall not project more than 6 feet from building face Ⓒ

Signs shall not extend above the roofline of the associated building

DIMENSIONAL STANDARDS

Sign Area:	No more than 8 square feet per every 10 lineal feet of associated frontage Ⓓ
Height:	No more than 40% the height of associated building Ⓔ, except signs above a marquee, then no more than 60% the height of associated building

OTHER RESTRICTIONS

Signs encroaching into the public right-of-way shall be subject to the special privilege license and permit requirements of Title 15

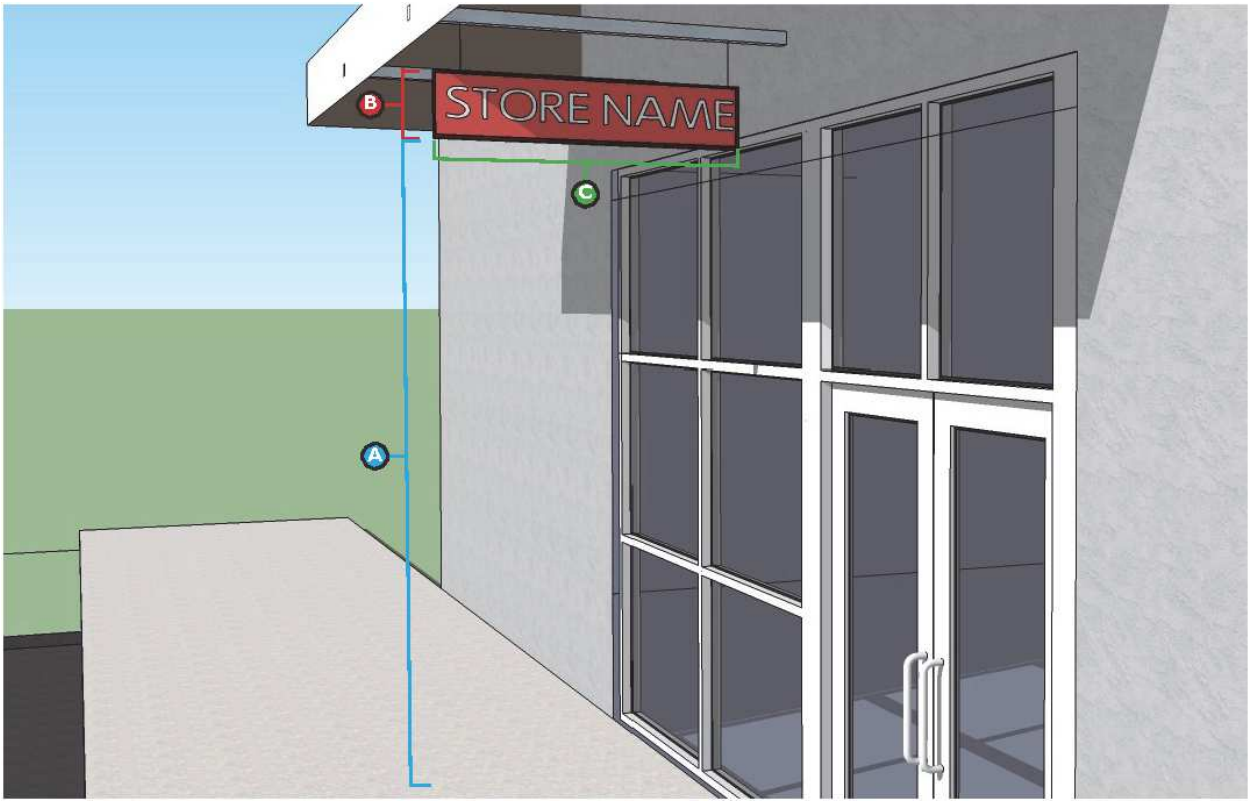
TABLE 2G: SPECIFIC SIGN ORIENTATION TYPE STANDARDS—HANGING*



HANGING

Signs utilizing the Hanging orientation type are fastened to and hang below any permanent eave, roof, awning, or bracket.

SIGN FREQUENCY

One sign with a maximum of two faces per business entrance

LOCATION RESTRICTIONS

Minimum sidewalk clearance of 8 feet Ⓐ

Minimum sidewalk clearance of 16 feet over driveways or alleys

DIMENSIONAL STANDARDS

Height:	Maximum 5 feet Ⓑ
Width:	No more than 80% the width of the associated permanent eave, roof, awning, or bracket Ⓒ

OTHER RESTRICTIONS

Signs with Cabinet hardware shall have sign copy on no more than two faces

All sign copy shall be oriented perpendicular to the building face
