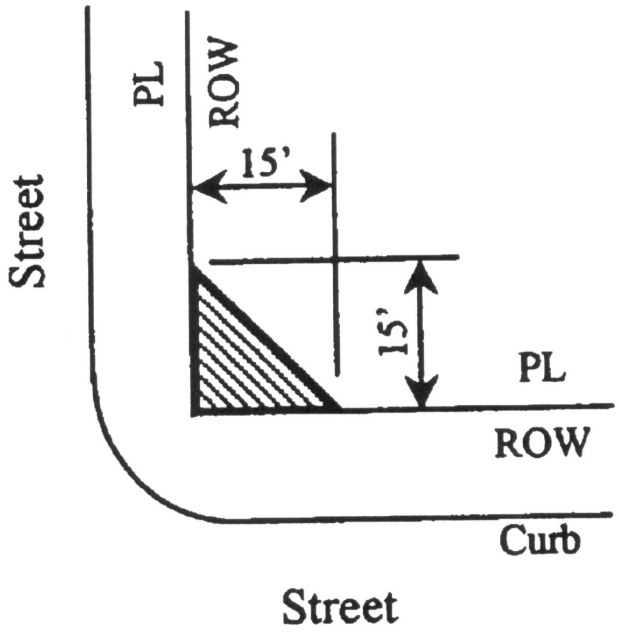
each of the intersecting streets and connecting the ends of each measured distance, to assure adequate visibility sight lines for vehicular traffic approaching the intersection. The maximum height of the visibility triangle shall be 20 feet as measured vertically from the ground.

For lots and multi-unit residential sites located on collector or local streets that take rear or side access in accordance with section 42-188 and qualify for a reduced building line of 5 feet, an encroachment into the visibility triangle is allowed above 10 feet as measured vertically from the ground.



(Ord. No. 2013-343, § 3(Exhs. A, B), 4-24-2013; Ord. No. 2015-639, § 24, 6-24-2015, eff. 7-24-2015; Ord. No. 2023-801, § 3(Exh. A), 9-27-2023, eff. 11-27-2023)

Sec. 42-162. Reconstruction after casualty.

(a) Reconstruction of a building after fire, damage or other casualty not intentionally caused by the owner of the building or the owner's agent shall comply with the requirements of this division if the estimated cost to rebuild the damaged portion of the building exceeds 75 percent of the estimated replacement cost of the entire building, exclusive of the replacement cost of the building foundation.

(b) Reconstruction of a building after fire, damage or other casualty not intentionally caused by the owner of the building or the owner's agent shall not require compliance with the provisions of this division if:

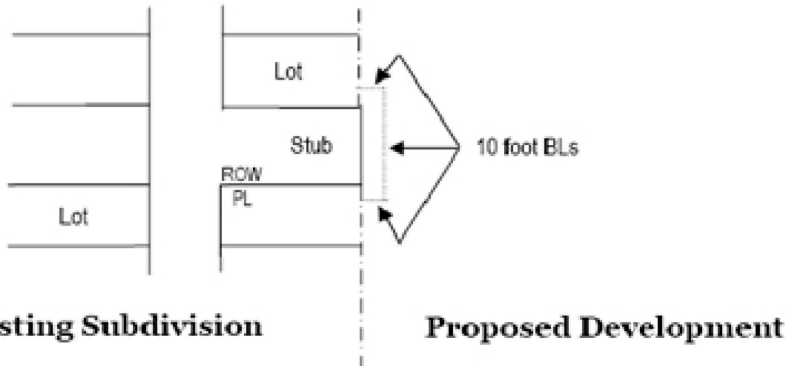
(1) The estimated cost to rebuild is 75 percent or less of the estimated replacement cost of the entire building, after subtracting the estimated replacement cost of the building foundation; and

(2) The reconstruction would not result in an increase in the floor area of the building or a change in the use of the property.

(c) For purposes of this section, the determination of the estimated cost to rebuild and the estimated replacement cost of a building shall be based on a certified cost estimate provided by an architect or contractor and approved by the building official.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013)

Sec. 42-163. Stub street.

The building line adjacent to the end of a stub street that is not required to be extended pursuant to subsection (a) of section 42-134 of this Code shall be ten feet from the end of the stub street and ten feet on either side of a ten foot projection of the stub street into the adjacent property.



(Ord. No. 2013-343, § 3(Exhs. A, B), 4-24-2013; Ord. No. 2015-639, § 19, 6-24-2015)

Sec. 42-164. Transit-oriented development streets and walkable places streets

(a) This section shall apply to any improvement requiring a building permit or development within a lot on a walkable places street or transit-oriented development street.

(b) The portion of a lot or development that is adjacent to a primary street shall have a building line requirement of zero feet and the lot or development must comply with the requirements of article IV of this chapter.

(c) A building line of zero feet is authorized for the portion of a lot or development that is adjacent to a secondary street if the lot or development complies with the requirements of article IV of this chapter. Any lot or development that does not meet the standards of this subsection must be in compliance with the standard building line requirement otherwise required by this article for the corresponding type of street and tract description.

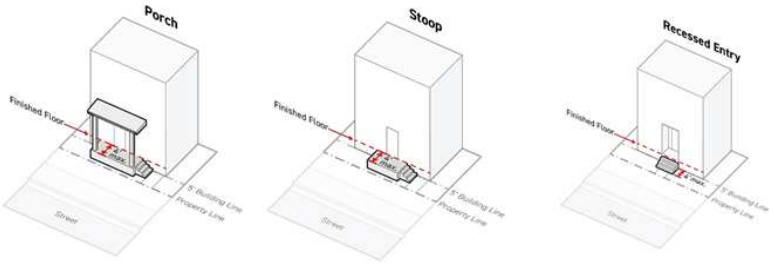
(d) Except when a special minimum building line requirement is applicable, this section shall prevail over the building line requirement otherwise required or authorized by this chapter.
(Ord. No. 2020-684, § 2(Exh. A), 8-5-2020; Ord. No. 2023-801, § 3(Exh. A), 9-27-2023, eff. 11-27-2023)

Sec. 42-165. Entry feature performance standards for units fronting the street

A reduced building line within the city boundary will be allowed for single family and multi unit residential developments having rear or side access to the units, if units fronting the street meet the following entry feature criteria:

1. Each structure with frontage on a street, not including an alley, must provide at least one entry feature;

2. To be considered street-facing, an entry feature must face the street it is intended to serve. An entrance directly accessed from a porch, stoop or recessed entry on the street-facing side, counts as a street-facing entrance, regardless of if it faces the street;
3. The required entrance must provide both pedestrian ingress and egress to the first story of a building;
4. The required entrance must provide access to occupiable space within the first story of a building;
5. The required entrance must have a separate pedestrian access gate if a fence is provided, and a minimum 3-foot wide pedestrian connection to the nearest public sidewalk or public street;
6. The required entrance must include a porch, a stoop, or a recessed entry. A porch or stoop may encroach up to 4 feet into a required building line, provided there is adequate room for required sidewalks and all utilities; and
7. A porch or stoop may encroach up to 4 feet into the required building line, but may not have occupiable space above the first floor.



(Ord. No. 2023-801, § 3(Exh. A), 9-27-2023, eff. 11-27-2023)

Secs. 42-166—42-169. Reserved.

Subdivision B. Special Minimum Building Line Requirements.

Sec. 42-170. In general.

(a) The city council may designate a special minimum building line block within the city to preserve the building line character of a single-family residential neighborhood that does not have a minimum building line requirement established by deed restrictions. A minimum building line requirement established pursuant to this subdivision shall prevail over any lesser minimum building line established by this article. The department shall maintain a list of current special minimum building line blocks on its website.

(b) An area is eligible for designation of a special minimum building line block if it:

(1) Contains not less than one blockface and no more than two opposing blockfaces;

(2) Contains every lot on each blockface within the proposed area;

(3) Forms a contiguous area;

(4) Contains lots, at least 60 percent of which are developed for or restricted to single-family residential use, exclusive of land used for a park, utility, drainage or detention, public recreation or community center, library, place of religious assembly or an elementary, junior

high, or high school. For purposes of this item, a vacant lot that contained a structure or was used for any lawful purpose within the five years prior to the date the application was accepted by the director shall be considered to be in use for the most recent lawful use of that lot; and

(5) Contains at least one lot that does not have a building line established by deed restrictions.

(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2015-639, § 25, 6-24-2015, eff. 7-24-2015)

Sec. 42-171. Application.

(a) An application for designation of a special minimum building line block shall be filed with the department by an applicant who shall be the primary contact person regarding the application. The applicant shall be an owner of a lot within the proposed special minimum building line block or a representative of a home owner's association, civic association, or other entity representing the interests of individual owners of lots within the proposed area. The application shall be in the form prescribed by the director and shall:

(1) Be signed by the owner of a lot within the proposed special minimum building line block. The signature of one owner of a lot shall be presumed to represent the consent of all owners of a lot with more than one owner;

(2) Include evidence of support from the owners of lots within the proposed special minimum building line block;

(3) Include an inventory of the lots in the proposed special minimum building line block identifying the address, land use at the time of the filing of the application, the building line of existing buildings on each lot, and which lots, if any, have a building line established by deed restrictions;

(4) Include a survey of at least one lot on each blockface within the proposed special minimum building line block that includes the location and dimensions of all buildings on the lot; and

(5) Include a map depicting boundaries of the proposed special minimum building line block.

(b) Prior to the filing of an application with the department, the applicant shall meet with the director. The director shall conduct a preliminary review of the application during the pre-submittal meeting and advise the applicant of any deficiencies that would cause the application to be considered incomplete.

(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2015-639, § 26, 6-24-2015, eff. 7-24-2015)

Sec. 42-172. Application review.

(a) Upon receipt of an application, the director shall evaluate the application to determine whether the application meets the requirements of section 42-171 of this Code. The director shall inform the applicant of whether the application is accepted or rejected within two business days of receipt of the application and if the application is rejected, the director shall give written notice to the applicant of the specific deficiencies of the application.

(b) If an application is accepted pursuant to subsection (a) of this section, the director shall:

(1) Within two business days, update the list of special building line applications and designations on the department website to include:

a. The reference number for the application;

b. A description of the location of the minimum lot size block proposed by the application;

c. The date when a complete, valid, subdivision plat, development plat, or building permit application filed with the department shall be subject to the special minimum building line requirement pursuant to section 42-179 of this Code; and

d. The status of the application.

(2) Within 30 business days, review each application for completeness and shall determine the effective building line requirement pursuant to section 42-173 of this Code. If an application satisfies the eligibility requirements of section 42-170 of this Code, the director shall consider the application to be complete. If an application does not satisfy the eligibility requirements of section 42-170 of this Code, the director shall either:

a. Consider the application incomplete, return the application to the applicant for revision, and advise the applicant of the specific deficiencies within the application; or

b. For an application with two blockfaces, the director may modify the boundaries of the proposed special minimum building line block by removing a blockface so that the boundaries as amended satisfy the requirements, after which the director shall consider the application to be complete.

(c) The director shall, within 15 business days of receipt of a complete application, give notice by first class mail to the owners of lots within the proposed special minimum building line block as shown on the current appraisal district records. The notice shall inform the owners of lots of the application and the procedure for review and consideration of the application. The notice shall also inform the owners of lots of their prerogative to file a written protest of the application with the department within 30 days of the date of the notice.

(d) The director shall give notice by electronic mail to each district city council member in whose district any lot within the proposed special minimum building line block is located.

(e) The applicant shall place two signs on each blockface within the proposed area that shall conform to the specifications prescribed by the director. The director shall approve an alternative to the number and location of signs required by this subsection upon determining that the alternative will provide sufficient visibility of the signs and accomplish the objectives of this section without unduly burdening the applicant. The applicant shall use reasonable efforts to maintain each required sign on each blockface until either the director refers an approved application to city council or the commission takes final action on an application.

(f) For an application signed by the owners of 51 percent or more of the land within the proposed special minimum building line block, if no timely written protest by an owner of a lot within the proposed special minimum building line block is received by the department, and the director finds that the application meets the approval criteria of section 42-175 of this chapter, the director shall approve the application and refer the application directly to city council for consideration.

(g) If the director is not able to approve the application, the director shall refer the application to the commission for review and consideration pursuant to section 42-175 of this Code.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2015-639, § 27, 6-24-2015)

Sec. 42-173. Determination of special minimum building line requirement.

(a) The following formula shall be used to determine the special minimum building line requirement:

(1) List all of the lots within the proposed special minimum building line block that have an existing building constructed in descending order of building lines.

(2) Express each lot's building line as a percentage of the total sum of the building lines within the proposed special minimum building line block by dividing the building line of each lot by the sum of the combined building lines of all lots within the entire special minimum building line block.

(3) Add the areas expressed as a percentage in the order of the list until the cumulative sum of the percentages reaches 70 percent or greater, or in the case of a special minimum building line block within a historic district designated by city council, 60 percent or greater.

(4) The building line of the lot at which the cumulative sum reaches the percentage required by item (3) of this section is the special minimum building line requirement.

(b) The constructed building line shall be measured from the property line adjacent to the blockface to the nearest point of the building footprint excluding uninhabitable porches.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2015-639, § 28, 6-24-2015, eff. 7-24-2015)

Sec. 42-174. Notice of a public hearing before the commission.

(a) The director shall give notice by first class mail of the date, time, and location of the public hearing on the application before the commission to the owners of a lot within the proposed area as shown on the current appraisal district records not later than 15 days before the date of the public hearing.

(b) The director shall give notice of the public hearing by electronic mail to each district city council member in whose district any portion of the proposed area is located.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013)

Sec. 42-175. Commission review and consideration.

(a) The commission shall consider each complete application referred by the director and shall hold a public hearing on the application. After the close of the public hearing, the commission shall consider the application and recommend designation of a proposed special minimum building line block that meets the following standards:

(1) The proposed area has an identifiable building line character, taking into account the age of the neighborhood, the age of structures in the neighborhood, existing evidence of a common plan and scheme of development, and other relevant factors;

(2) The establishment of the proposed special minimum building line requirement will further the goal of preserving the building line character of the proposed special minimum building line block;

(3) The applicant has demonstrated sufficient support for the application to warrant the designation of the special minimum building line block; and

(4) The application complies with the application requirements of section 42-171 of this Code and the eligibility requirements of section 42-170 of this Code.

(b) If the commission is unable to recommend designation of the special minimum building line block, the commission shall:

(1) Defer the application to a later commission date;

(2) Deny the application; or

(3) Modify the boundaries of the proposed special minimum building line block for an application with two blockfaces by removing a blockface if the modification will result in boundaries of a special minimum building line block that the commission finds will satisfy the criteria of subsection (a) of this section.

(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013)

Sec. 42-176. City council review and consideration.

(a) The director shall submit an affirmative recommendation of the commission to designate the proposed special minimum building line block to city council, which shall decide whether to designate the special minimum building line block based on the criteria of subsection (a) of section 42-175 of this Code.

(b) After designation by city council, the director shall file for recordation in the real property records of the county or counties in which the designated special minimum building line block is located, a notice of the city council action for each lot within the designated special minimum building line block.

(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013)

Sec. 42-177. Ineligibility for inclusion after denial.

(a) If the commission votes not to recommend the application or the city council votes to deny the application, any lot included in the boundaries of the application at its final consideration is ineligible for inclusion in a new application for a period of one year from the date of the final action.

(b) The director may allow an ineligible lot to be included in a new application upon receipt of new information not known to the applicant at the time of the prior application regarding changed circumstances that the director determines warrants the inclusion of the lot in a new application.

(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013)

Sec. 42-178. Term and expiration; application to rescind; application to renew.

(a) A special minimum building line requirement established pursuant to an application that the director determines to be complete after July 24, 2015 shall terminate 40 years after the effective date of the ordinance establishing the requirement, unless terminated earlier by an ordinance adopted by the city council. A special minimum building line requirement established pursuant to an application that the director determines to be complete before July 24, 2015 shall terminate 20 years after the effective date of the ordinance establishing the special minimum building line requirement unless terminated earlier by an ordinance adopted by city council.

(b) An application to rescind a special minimum building line requirement shall comply with the application requirements of section 42-171 of this Code except that items (3), (4), and (5) of subsection (a) of section 42-171 of this Code shall not be required. The application to rescind shall be accepted by the director no earlier than five years after the effective date of the ordinance establishing the special minimum building line requirement, and no earlier than five years after the final action on the most recent application to rescind the special minimum building line requirement. Notwithstanding the foregoing, an application may be accepted by the director if the applicant provides new information regarding changed circumstances that the director determines warrants the acceptance of the application. The application shall be reviewed in accordance with the provisions of this subdivision for a new application for designation of a special minimum building line requirement, as applicable, except as provided by subsection (c) of this section.

(c) In addition to the criteria for reviewing an application to establish a special minimum building line requirement in this subdivision, an application to rescind a special minimum building line requirement shall be evaluated in accordance with the following:

(1) If the application is not signed by the property owners of 67 percent of the area within the special minimum building line block, the application fails and no further action shall be taken;

(2) If the application is signed by the property owners of 67 percent of the area within the special minimum building line block and no timely written protest is received by the department, the director shall approve the application and refer the application directly to city council for consideration; and

(3) If the application is signed by property owners of 67 percent of the area within the special minimum building line block and a timely written protest is received by the department, the director shall refer the application to the commission. The commission shall approve the application and refer the application to city council for consideration if the special minimum building line block no longer satisfies the criteria of section 42-175 of this Code.

(d) An application to renew a special minimum building line requirement shall comply with the application requirements of section 42-171 of this Code except that items (2), (3), (4), and (5) of subsection (a) of section 42-171 shall not be required. The application to renew shall be accepted by the director no earlier than two years before the expiration of the ordinance establishing the special minimum building line requirement. The application shall be reviewed in accordance with the provisions of this subdivision for a new application for designation of a special minimum building line requirement, as applicable, except as provided by subsection (e) of this section.

(e) For an application to renew a special minimum building line requirement that does not receive a timely protest by an owner of a lot within the proposed special minimum building line block, and the director finds that the application meets the approval criteria of 42-175 of this chapter, the director shall approve the application and refer the application directly to city council for consideration.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2015-639, § 29, 6-24-2015, eff. 7-24-2015)

Sec. 42-179. Rules governing subdivision plats, development plats, and building permits.

(a) A complete, valid, subdivision plat, development plat, or building permit application filed with the department shall be subject to the special minimum building line requirement only if it is filed after the seventh day following the date an application for a special minimum building line block is published online by the director in accordance with subsection (b) of section 42-172 of this Code.

(b) A subdivision plat, development plat, or building permit that is filed with the department shall not be approved if it provides for a building line that is less than or equal to the special minimum building line requirement established by the director pursuant to section 42-173 of this Code.

(c) Notwithstanding the provisions of this section, if the city council has not completed action on the special minimum building line block application 180 business days after the earlier of the date the application is determined by the director to be complete or the date after the end of a time period during which that the director fails to timely perform an action required by the application review requirements of section 42-172 of this Code, a subdivision plat, development plat, or building permit application shall not be subject to the special minimum building line requirement.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2015-639, § 30, 6-24-2015, eff. 7-24-2015)

DIVISION 4. LOTS AND RESERVES

Subdivision A. General Requirements for Lots and Reserves

Sec. 42-180. General lot design standards.

(a) Each lot in a subdivision plat shall be of sufficient size and shape to:

(1) Allow for the construction of a single-family residential building that meets the requirements of this Code, the Construction Code, and the design manual;

(2) Accommodate an easement for all public and private utilities necessary to serve the single-family residential building constructed thereon;

(3) Ensure that direct vehicular access is provided from a street, shared driveway, or alley.

(4) When proposing a narrow lot, no more than 1 vehicular access from a street is allowed.

(5) No vehicular access is required for lots within a courtyard style development.

(6) Provide for the number of parking spaces required by section 42-186 and article VIII of chapter 26 of this Code, as applicable. The size and dimensions of a parking space shall be in conformance with the requirements of the Construction Code.

(b) A lot that will not be served by a wastewater collection system shall meet the minimum requirements of the Texas Commission on Environmental Quality. The applicant shall provide a letter from the Texas Commission on Environmental Quality evidencing compliance with the minimum requirements. In addition, a lot without wastewater collection service that is platted in a special flood hazard area, as determined under the National Flood Insurance Program, shall meet the applicable requirements of the Texas Commission on Environmental Quality, the city, and the county engineer of the county in which the lot is located with respect to the location of the onsite sewage system.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2023-801, § 3(Exh. A), 9-27-2023, eff. 11-27-2023)

Sec. 42-181. Single-family residential lot size.

(a) The minimum lot size for a single-family residential lot with wastewater collection service shall be as shown below, except for lots within courtyard style development meeting the requirements of section 42-194:

(1) 5,000 square feet for a lot within the extraterritorial jurisdiction; or

(2) 3,500 square feet for a lot within the city.

(b) The lot size for a single-family residential lot with wastewater collection service may be less than the minimum lot size provided by subsection (a) if the subdivision plat meets the performance standards of either:

(1) The compensating open space performance standards of section 42-182 of this Code; or

(2) For a subdivision plat within the city, the performance standards of section 42-184 of this Code.

(c) A subdivision plat shall not include a lot that is less than 1,400 square feet unless the plat meets the following performance standards:

(1) The property to be platted is located within the city and all lots within the subdivision take vehicular access from the shared driveway or permanent access easement;

(2) The average lot size within the subdivision plat is greater than or equal to 1,400 square feet. A lot that is larger than 3,500 square feet shall be counted as 3,500 square feet for purposes of the average lot size calculation of this subsection;

(3) For the purposes of this subsection, blockface has the meaning in 42-1 and shall include the distances measured from and to shared driveways, intersecting or terminating with shared driveways.

(4) If the subdivision plat contains one or more blockfaces in their entirety, the average lot size of each blockface within the subdivision plat is greater than or equal to 1,400 square feet; and

(5) If a subdivision plat includes a lot with a lot size less than 3,500 square feet, any subsequent replat of a lot within the subdivision plat shall maintain an average lot size that is greater than or equal to 1,400 square feet. The average lot size for each subsequent replat shall be based on all lots within the original subdivision plat containing a lot with a lot size less than 3,500 feet. The subdivision plat and all subsequent replats of lots within the subdivision plat shall contain a plat notation stating the requirements of this item.

(d) The minimum lot size for lots without wastewater collection service shall be in accordance with the requirements of subsection (b) of section 42-180 of this Code;

(e) A special minimum lot size requirement established pursuant to subdivision B of this division shall control over all other provisions of this section.

(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2023-801, § 3(Exh. A), 9-27-2023, eff. 11-27-2023)

Editor's note—Section 5 of Ord. No. 2013-343, adopted April 24, 2013, established certain time limitations affecting the application of the preceding section, as well as the following section and Sections 42-184 and 42-185 of this Subdivision. The user's attention is directed to Section 5 of Ord. No. 2013-343 to ensure that the effect of such time limitations is fully understood as they may apply to an affected subdivision or redevelopment plat.

Sec. 42-182. Optional performance standards for the reduction in lot size—Compensating open space.

A subdivision plat may contain a lot of less than minimum lot size required by subsection (a) of section 42-181 of this Code if compensating open space is provided within the boundaries of the subdivision plat in accordance with the following schedule and in conformance with the design standards of section 42-183 of this Code:

Average lot size may be reduced to this square footage	*Upon providing this amount of compensating open space per lot (square feet)*	
	City	*Extraterritorial Jurisdiction*
4,999—4,500	None	100
4,499—4,000	None	200
3,999—3,500	None	300
3,499—3,000	240	400
2,999—2,500	360	500
2,449—2,000	480	600
1,999—1,400	600	720

(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013)

Sec. 42-183. Standards for compensating open space.

(a) Compensating open space may be used to reduce the minimum lot size requirement only to the extent that the area proposed to be dedicated to compensating open space meets the standards of this section.

(b) The following areas shall not be used for or considered compensating open space:

(1) Areas designated or used as lots or building sites for dwelling units, utility or storage purposes, carports or garages;

(2) Driveways, private roadways, or streets;

(3) Private medians less than 12 feet wide; or

(4) Except as provided by section 42-192 of this Code, detention ponds, drainageways, water areas including floodplains and floodways, or ravines.

(c) Compensating open space shall be reasonably dry and flat, unless the area is within an open space amenities plan approved by the commission pursuant to section 42-192 of this Code.

(d) The ground floor square footage of a building used for recreational purposes, at the option of the applicant, may be included in calculating compensating open space provided that the recreational use of the building is shown as a plat restriction on the face of the subdivision plat.

(e) The minimum size of any area used for compensating open space shall be 240 square feet, with dimensions of 20 feet by 12 feet.

(f) Any area used for compensating open space:

(1) Shall be restricted for the use of owners of property in and residents of the subdivision;

(2) Shall be owned, managed and maintained under a binding agreement among the owners of property in the subdivision; and

(3) Shall be accessible to all of the residents of the subdivision.

(g) Compensating open space can be used to provide courtyard access from groups or clusters of lots adjacent to one or more streets provided that the minimum distance between the opposing faces of the buildings forming the courtyard is 20 feet.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013)

Sec. 42-184. Optional performance standards for the reduction in lot size within the city.

A subdivision plat for property located within the city may provide for a single-family residential lot size of less than 3,500 square feet, but not less than an average of 1,400 square feet, for lots with adequate wastewater collection service, if the subdivision plat meets the following performance standards and includes plat notations requiring compliance with the following performance standards:

(1) More than 60% of the area of each lot that is less than 3,500 square feet is not covered by buildings, or for a subdivision plat that is solely a replat of a lot on a corner at the intersection of two public streets, more than 75% of the area of the lot is not covered by buildings;

(2) The subdivision plat provides for at least 150 square feet of permeable area on each lot that is less than 3,500 square feet;

(3) The number of single-family residential dwelling units that can be constructed within the proposed subdivision plat does not exceed an equivalent density of 27 units to the gross acre of all land within the boundaries of the subdivision plat; and

(4) An equivalent density of 35 units to the gross acre of all land within the boundaries of the subdivision plat is allowed if all lots within the subdivision take vehicular access from the rear or side via an alley, flag staff, shared driveway or permanent access easement.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2023-801, § 3(Exh. A), 9-27-2023, eff. 11-27-2023)

Sec. 42-185. Minimum width of a lot.

(a) The minimum width of any lot along a street or shared driveway shall be 20 feet unless otherwise allowed by this ordinance.

(b) The minimum width of any lot in a subdivision within the city may be 15 feet if all lots within the subdivision plat take vehicular access from the shared driveway or permanent access easement and the subdivision plat conforms to the following performance standards:

(1) The average width of all lots within the subdivision plat is greater than or equal to 18 feet. A lot with a width greater than 30 feet shall be counted as 30 feet for purposes of the average lot width calculation of this subsection;

(2) For the purposes of this subsection, blockface shall have the meaning of 42-1 and further shall include the distances measured from and to shared driveways, intersecting or terminating with shared driveways.

(3) If the subdivision plat contains one or more blockfaces in their entirety, the average lot width of each blockface within the subdivision plat is greater than or equal to 18 feet; and

(4) If a subdivision plat includes a lot with a width of less than 20 feet, any subsequent replat of a lot within the subdivision plat shall maintain an average lot width that is greater than or equal to 18 feet. The average lot width for each subsequent replat shall be based on all lots within the original subdivision plat containing a lot with a width less than 20 feet. The subdivision plat and all subsequent replats of lots within the subdivision plat shall contain a plat notation stating the requirements of this item.

(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2023-801, § 3(Exh. A), 9-27-2023, eff. 11-27-2023)

Sec. 42-186. Parking for single-family residential uses.

(a) Each subdivision plat or development plat providing for a single-family residential use shall provide at least two off-street parking spaces per dwelling unit on each lot with the following exceptions:

(1) for a dwelling unit that is not more than 1500 square feet, only one space shall be required per dwelling unit; or

(2) for a dwelling unit that is less than or equal to 1000 square feet, no off-street parking is required when all of the following criteria are met:

a. the lot has less than 33 feet of public street frontage,

b. 100 percent of the unit has occupiable space fronting the street, and

c. driveway access from the public street is not permitted, and shall be reflected on the plat and building permit.

(b) If the first unit meets the off-street parking requirements:

(1) When a second dwelling unit of not more than 1000 gross square feet is provided, no additional off-street parking spaces shall be required.

(2) When a second dwelling unit is greater than 1000 square feet but less than or equal to 1500 square feet, only one additional off-street parking space shall be required.

(c) Each courtyard style development plat completed in accordance with section 42-194, providing for single-family residential use, shall provide one off-street parking space for every dwelling unit less than or equal to 1000 square feet and 2 off-street parking spaces per dwelling unit if the units are between 1001-1800 square feet.

(d) For lots within a courtyard style development in accordance with section 42-194 parking may be located in a reserve within the subdivision provided there is a shared access and maintenance agreement among lot owners.

(e) Each subdivision plat providing for a single-family residential use on property located within the city that includes a courtyard access drive, a shared driveway, or a type 2 permanent access easement with six or more dwelling units shall provide one additional parking space for every six dwelling units. Dwelling units on a lot that includes a parking space in excess of the parking requirements of subsection (a) of this section shall not be counted in determining the required number of additional parking spaces required by this subsection. Each additional parking space shall conform to the following requirements:

(1) The size and dimensions of the parking space shall be in conformance with the requirements of the Construction Code;

(2) The parking space shall be placed within the boundaries of the subdivision plat;

(3) For a subdivision plat where the lots abut a type 2 permanent access easement and take vehicular access only from a private alley, a parking space may be included within the type 2 permanent access easement;

(4) The parking space shall not be placed within a shared driveway or within a lot;

(5) The parking space shall not be placed where parking is prohibited by law, and the parking space shall be placed a minimum of 20 feet away from the right-of-way of a major thoroughfare, major collector, or existing protected bike lanes;

(6) The parking space shall be accessible to all residents of each dwelling unit of the subdivision plat via an internal path of either the shared driveway, type 2 permanent access easement or an improved walkway surface in an access easement within the subdivision meeting accessibility requirements in accordance with IDM standards with a minimum width of 3 feet in accordance with Chapter 40 sidewalk regulations.

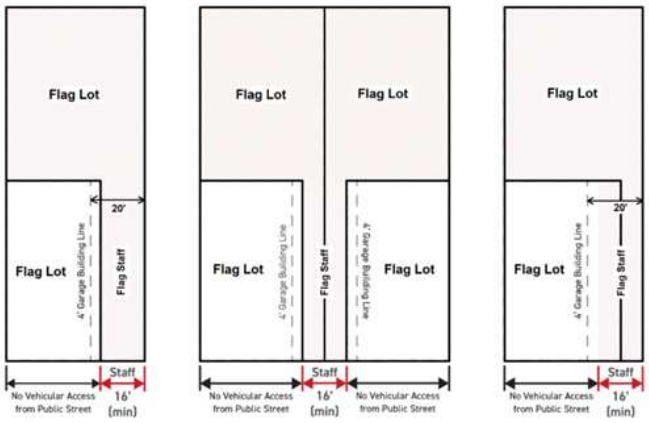
(f) A variance granted by the commission to parking requirements contained in this chapter is also a variance to the same parking requirement in Chapter 26.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2023-801, § 3(Exh. A), 9-27-2023, eff. 11-27-2023)

Sec. 42-187. Flag lots.

(a) Each flag lot shall provide for a combined vehicular access to the principal portion of all lots that are less than 44 feet wide through the flag staff. The maximum number of lots that may take access from a flag staff is 4.

(b) The minimum width of the flag staff shall be 16 feet. The entire width of the flag staff need not be paved.

(c) If the garage is parallel to the length of the flag staff, the distance between the face of the garage and the farthest edge of the flag staff shall be 20 feet.



(d) The total length of the flag staff and driveway cannot be longer than 200 feet from the street that contains a roadway.

(e) Any area required to be used for vehicular access purposes shall be depicted by a note on the subdivision plat that restricts the portions of the lots for ingress and egress only and that precludes construction of any building, structure, wall or fence within those portions. The plat note shall clearly indicate the joint or shared nature of the access.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2023-801, § 3(Exh. A), 9-27-2023, eff. 11-27-2023)

Sec. 42-188. Lot access.

This section sets forth requirements for lot access. Subsections (b)(2) and (d) through (h) apply only in the city boundary.

(a) Each lot shall have access to a street or shared driveway that meets the requirements of this chapter and the design manual, subject to the limitations of this section except for lots within courtyard style development in accordance with section 42-194.

(b) A single-family residential lot shall not have direct vehicular access to a major thoroughfare unless:

(1) The lot takes vehicular access to a major thoroughfare through a shared driveway that meets the requirements of subdivision B of division II of this article;

(2) The lot takes vehicular access to a major thoroughfare through a flag staff that meets the requirements of section 42-187 and a turnaround is provided that prohibits vehicles from backing onto the major thoroughfare; or

(3) The lot is greater than one acre in size and the subdivision plat contains a notation adjacent to the lot requiring a turnaround on the lot that prohibits vehicles from backing onto the major thoroughfare.

(c) Lots that front on or take access from a permanent access easement must be a part of a unified development scheme where the owners of all lots within the subdivision are legally bound together by deed restriction, contract or any other constituted and binding homeowners association, corporation, or other organization with, as one of its purposes, the continued care and maintenance of all commonly owned properties within the subdivision, particularly the

areas established as permanent access easements, and the authority and means to impose binding assessments upon the lot owners for that purpose. Each subdivision plat that contains a permanent access easement shall contain the following notation on the face of the plat:

"THIS SUBDIVISION CONTAINS ONE OR MORE PERMANENT ACCESS EASEMENTS THAT HAVE NOT BEEN DEDICATED TO THE PUBLIC OR ACCEPTED BY THE CITY OF HOUSTON OR ANY OTHER LOCAL GOVERNMENT AGENCY AS PUBLIC RIGHTS-OF-WAY. THE CITY OF HOUSTON HAS NO OBLIGATION, NOR DOES ANY OTHER LOCAL GOVERNMENT AGENCY HAVE ANY OBLIGATION, TO MAINTAIN OR IMPROVE ANY PERMANENT ACCESS EASEMENT WITHIN THE SUBDIVISION, WHICH OBLIGATION SHALL BE THE SOLE RESPONSIBILITY OF THE OWNERS OF PROPERTY IN THIS SUBDIVISION."

(d) Lots within a courtyard style development must be a part of a unified development plan where the owners of all lots within the subdivision are legally bound by deed restriction, contract or any other legal and binding homeowners association, corporation, or other organization with, as one of its purposes, the continued care and maintenance of all commonly owned properties within the subdivision, particularly the areas established as courtyards, parking, pedestrian pathways and courtyard access drives, and the authority and means to impose binding assessments upon the lot owners for that purpose. Each subdivision plat for a courtyard style development shall contain the following notation on the face of the plat:

"THIS SUBDIVISION CONTAINS ONE OR MORE COURTYARD ACCESS DRIVES THAT HAVE NOT BEEN DEDICATED TO THE PUBLIC OR ACCEPTED BY THE CITY OF HOUSTON OR ANY OTHER LOCAL GOVERNMENT AGENCY AS PUBLIC RIGHTS-OF-WAY. THE CITY OF HOUSTON HAS NO OBLIGATION, NOR DOES ANY OTHER LOCAL GOVERNMENT AGENCY HAVE ANY OBLIGATION, TO MAINTAIN OR IMPROVE ANY COURTYARD ACCESS DRIVES WITHIN THE SUBDIVISION, WHICH OBLIGATION SHALL BE THE SOLE RESPONSIBILITY OF THE OWNERS OF PROPERTY IN THIS SUBDIVISION."

(e) Properties being subdivided that abut an alley that is maintained by the city or a homeowners association must take vehicular access from the alley, unless determined by the director to be undevelopable or inaccessible, including the blockage or partial blockage of the alley by obstructions not allowing vehicular use.

(f) Corner properties being subdivided shall provide vehicular access:

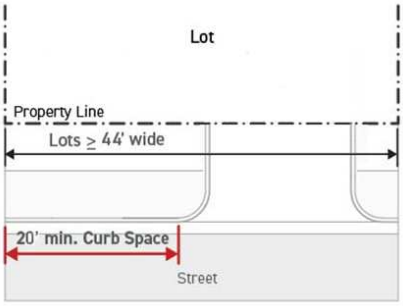
1. from an existing alley that is maintained by the city or a homeowners association;

2. if there is no alley or the alley is determined by the director to be undevelopable or inaccessible, the access must be provided from the side street unless the side street is a major thoroughfare through a flag staff, shared driveway, courtyard access drive or permanent access easement; or

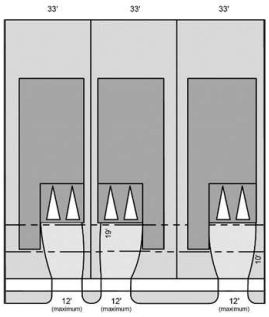
3. for a sole corner lot, access must be from the side street.

(g) Mid-block property being subdivided is adjacent to an undevelopable or inaccessible alley as determined by the director, or is not abutting an alley, access must be provided as follows:

1. For a lot that is 44 feet wide or more, at least 20 feet of frontage must be left as unobstructed curb space, and a minimum of ⅓ of the width of the structure façade facing the street must be occupiable space.



2. When proposing one or more narrow lots on a public street, the following shall apply:
   a. Vehicular access must be provided through a flag-staff, a shared driveway or permanent access easement; or
   b. For property less than or equal to 15,000 square feet, direct vehicular access from a street may be allowed for lots 33 feet or wider but less than 44 feet wide, through a driveway of maximum 12 feet in width.



(h) When a tract along a transit-oriented development street or walkable places street is subdivided, a single-family residential lot within this new subdivision shall not be designed to have direct vehicular access to the TOD street or WP street unless opting-into TOD or walkable places standards, and:
   (1) The lot takes vehicular access to the TOD street or WP street through a shared driveway that meets the requirements of subdivision B of division II of this article; or
   (2) The lot is greater than one acre in size and the subdivision plat contains a note prohibiting vehicles from backing onto the transit-oriented development street or walkable places street and requiring the turnaround to be located wholly outside the pedestrian realm.

(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2020-684, § 2(Exh. A), 8-5-2020; Ord. No. 2023-801, § 3(Exh. A), 9-27-2023, eff. 11-27-2023)

Sec. 42-188.5. Optional performance standards for direct driveway access.

Direct driveway access to a street or type 1 permanent access easement for existing lots narrower than 33 feet is permitted if all the following standards are met:

(a) The existing lot was platted with less than 33 feet width, or the property is of an insufficient width to subdivide into multiple equal-sized lots of 33 feet or more prior to September 27, 2023;

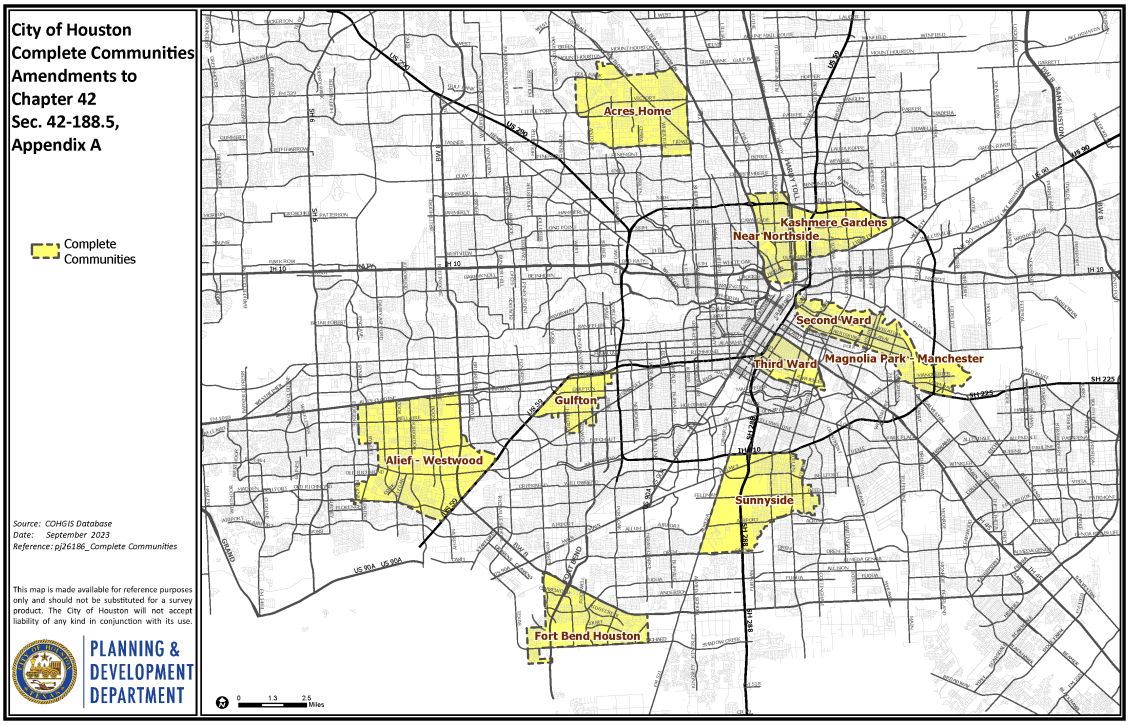
(b) The existing property does not have usable side or rear access to a public street or a type 1 permanent access easement or an alley maintained by the city or a homeowners association;

(c) Each proposed lot will have only one driveway approach of no more than 12 feet in width;

(d) The garage building line on each proposed lot must be a minimum of 20 feet;

(e) The property proposed to be subdivided is not within 1,400 feet walking distance, measured by walking on sidewalks or other paved surface, from the primary entrance of a primary or secondary school; and

(f) The property is not located in an area shown as a Complete Community on the map attached as Appendix A to this chapter and also available on the department's website.



(Ord. No. 2023-801, § 3(Exh. A), 9-27-2023, eff. 11-27-2023)

Sec. 42-189. Points of access.

Any subdivision that includes more than 150 lots shall have at least two points of access separated from each other by a distance of at least 250 feet to a public street outside the boundaries of the subdivision.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013)

Sec. 42-190. Tracts for non-single-family use—Reserves.

(a) A tract of land that is not restricted to single-family residential use shall not be designated on a subdivision plat as a lot but shall be designated as a reserve and shall be subject to those provisions of this chapter pertaining to reserves.

(b) A subdivision plat shall identify each reserve by alphabetical letter and shall show the total acreage of the reserve within the delineated reserve boundaries. The applicant may note on the plat the use intended for each reserve. The applicant shall identify a reserve tract for which it has not determined a use as an unrestricted reserve.

(c) Each reserve shall meet the following requirements for minimum size, the type and width of street or shared driveway on which it may be located, and the minimum frontage, as applicable to the type of reserve:

TYPE OF RESERVE	*MINIMUM SIZE*	*TYPE OF STREET OR SHARED DRIVEWAY*	*MINIMUM STREET OR SHARED DRIVEWAY WIDTH*	*MINIMUM STREET OR SHARED DRIVEWAY FRONTAGE*
Unrestricted reserve	5,000 sq. ft.	public street	60 feet (50 feet in a street width exception area)	60 feet
MUR Reserve per Sec. 42-237	3500 sq ft	public street or type 1 permanent access easement	50 feet	50 feet
Restricted reserve - Courtyard per Sec. 42-194	480 sq ft for the main courtyard	None required	None required	None required
Restricted reserve—Lift station	Minimum size required by the design manual	public street or type 1 permanent access easement	50 feet	20 feet
		Temporary access easement if the reserve meets the standards of section 42-190(d)	Temporary access easement if the reserve meets the standards of section 42-190(d)	
Restricted reserve—Compensating open space	240 sq. ft.	public street or type 1 permanent access easement	50 feet	12 feet
		type 2 permanent access easement	28 feet	
		shared driveway	16 feet	
Restricted reserve—Landscape or open space	None required	None required	None required	None required
Restricted reserve—Recreation	5,000 sq. ft.	public street or type 1 permanent access easement	50 feet	50 feet
		Type 2 permanent access easement	28 feet	50 feet
		Shared driveway	16 feet	50 feet

TYPE OF RESERVE	*MINIMUM SIZE*	*TYPE OF STREET OR SHARED DRIVEWAY*	*MINIMUM STREET OR SHARED DRIVEWAY WIDTH*	*MINIMUM STREET OR SHARED DRIVEWAY FRONTAGE*
Restricted reserve—Drainage or detention	None required	public street	50 feet	20 feet
		permanent access easement	28 feet	
		shared driveway owned by homeowners association	16 feet	16 feet
		None if adjoining existing reserve restricted to drainage or detention	None if adjoining existing reserve restricted to drainage or detention	None if adjoining existing reserve restricted to drainage or detention
Restricted reserve—Wastewater treatment, water production, or water repressurization	5,000 sq. ft.	public street or type 1 permanent access easement	50 feet	50 feet
		Temporary access easement if the reserve meets the standards of section 42-190(d)	Temporary access easement if the reserve meets the standards of section 42-190(d)	
		None if adjoining existing reserve restricted to wastewater treatment, water production, or water repressurization	None if adjoining existing reserve restricted to wastewater treatment, water production, or water repressurization	None if adjoining existing reserve restricted to wastewater treatment, water production, or water repressurization
Restricted reserve—Parking	Minimum size requirement for a parking space specified in the Construction Code	public street or type 1 permanent access easement	50 feet	Minimum width of a parking space required by the Construction Code
		type 2 permanent access easement	28 feet	
		shared driveway	16 feet	
Restricted reserve—All other	5,000 sq. ft.	public street	60 feet (50 feet in a street width exception area)	60 feet

(d) A reserve may take access via an access easement temporarily until the adjacent public streets within the general plan are platted with abutting sections if all of the following conditions are met:

(1) The reserve is specifically restricted to lift station, wastewater treatment, water production, or water repressurization;

(2) The access easement is temporary and non-exclusive that must be recorded prior to the recordation of the plat in a form approved by the city attorney;

(3) The access easement aligns with the public street pattern identified in the current approved general plan;

(4) The minimum width of the access easement must be 30 feet with all-weather road surface and shall comply with all applicable Design Manual, Fire Code, city, county, and Texas Commission of Environmental Quality (TCEQ) requirements; and

(5) The minimum street width and minimum frontage requirements otherwise required by this section must be met as other sections abutting the reserve are recorded.

(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2022-391, §§ 14, 15, 5-18-2022; Ord. No. 2023-801, § 3(Exh. A), 9-27-2023, eff. 11-27-2023)

Sec. 42-191. One foot reserves.

Subdivision plats shall provide a one-foot reserve within the street right-of-way as a buffer strip dedicated to the public to prevent access to public streets when a proposed public street stub ends into adjacent acreage or where the proposed public street is adjacent to the plat boundary and abutting acreage.

The following notation shall be placed upon the face of the subdivision plat:

> "ONE-FOOT RESERVE DEDICATED TO THE PUBLIC IN FEE AS A BUFFER SEPARATION BETWEEN THE SIDE OR END OF STREETS WHERE SUCH STREETS ABUT ADJACENT PROPERTY, THE CONDITION OF THIS DEDICATION BEING THAT WHEN THE ADJACENT PROPERTY IS SUBDIVIDED OR RE-SUBDIVIDED IN A RECORDED SUBDIVISION PLAT, THE ONE-FOOT RESERVE SHALL THEREUPON BECOME VESTED IN THE PUBLIC FOR STREET RIGHT-OF-WAY PURPOSES AND THE FEE TITLE THERETO SHALL REVERT TO AND REVEST IN THE DEDICATOR, HIS HEIRS, ASSIGNS OR SUCCESSORS."

(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013)

Sec. 42-192. Open space amenities plan.

(a) All or part of an area included in an open space amenities plan may qualify as compensating open space by complying with the applicable provisions of this section.

(b) Fifty percent of the area in the open space amenities plan qualifies as compensating open space if:

(1) The open space amenities plan contains less than three acres and provides each of the following:

a. Detention facility, if any, provides a stormceptor if the facility will not be a permanently wet lake or pond;

b. Detention facility, if any, has a bank slope ratio of 4:1 or flatter;

c. One 2.5-inch caliper tree from the street tree list, as defined in article V of chapter 33 of this Code, for each 30 feet of the boundary of the area included in the open space amenities plan:

[1] Planted at least 20 feet apart without extreme variation in spacing along pathways;

[2] Planted in one or more groupings within the area included in the open space amenities plan in a manner consistent with the growth characteristics of the trees; or

[3] A combination of both;

d. One or more pathways that provide access to and through the area included in the open space amenities plan and that are a minimum of five feet wide to be constructed of decomposed granite, asphalt or concrete;

e. One bench installed for each 500 feet of pathway, with a minimum of one bench;

f. Amenities are accessible to person with disabilities pursuant to standards of the Americans with Disabilities Act; and

g. An irrigation system that will irrigate all of the area included in the open space amenities plan other than a permanently wet lake or pond; or

(2) The open space amenities plan contains three acres or more and provides:

a. All of the amenities listed in item (b)(1); plus:

b. Parking required by chapter 26 of this Code for a class 6 park occupancy.

(c) All of the area within an open space amenities plan qualifies as compensating open space if:

(1) The open space amenities plan contains less than one acre and provides:

a. All of the amenities listed in item (b)(1); plus

b. At least two of the following:

[1] Additional landscaping, which may be;

[a] Additional trees from the street tree list, as defined in article V of chapter 33 of this Code;

[b] Shrubs from the approved shrub list contained in appendix D of article V of chapter 33 of this Code;

[c] 4.0-inch caliper trees in lieu of the same number of 2.5-inch caliper trees; or

[d] A combination of the above;

[2] Use of decorative stone or pavers in lieu of decomposed granite, asphalt or concrete;

[3] Use of decorative fencing;

[4] Pedestrian scale lighting with a minimum of 0.25 foot-candles at any point along the trail;

[5] Bicycle racks sufficient to store five bicycles per acre or portion thereof;

[6] At least one drinking fountain;

[7] A decorative fountain; or

[8] Connectivity with other community amenities;

(2) The open space amenities plan contains at least one acre but less than three acres and provides:

a. All of the amenities listed in item (b)(2); plus

b. At least four of the amenities listed in paragraph (c)(1)b; or

(3) The open space amenities plan contains three or more acres and provides:

a. All of the amenities listed in item (b)(1); plus

b. At least six of the amenities listed in paragraph (c)(1)b; plus

c. Parking required by chapter 26 of this Code for a class 6 park occupancy.

(d) An open space amenities plan shall be submitted in the form and contain the information prescribed by the director. Any area included in an open space amenities plan shall be clearly identified on the corresponding subdivision plat and shall include a table showing the type and quantities of amenities to be provided. The open space amenities plan approved by the commission shall be recorded simultaneously with the subdivision plat.

(e) Failure to provide or maintain any amenity included in an approved open space amenities plan shall be a violation of this chapter.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013)

Sec. 42-193. Rules governing partial replats of certain property.

(a) The rules in this section govern partial replats of subdivision plats recorded in the real property records and shall apply to each subsequent replat as though it were the first replat of the original subdivision plat. These rules do not apply to a replat of all the property in the original subdivision plat by all of the current owners thereof. For purposes of this section, "original subdivision plat" means the first recorded subdivision plat in which a plat restriction was included, and a "partial replat" means a replat of part of a recorded subdivision plat.

(b) Property within a subdivision plat that does not contain lots restricted to single-family residential or residential use may be replatted to amend any plat restriction contained on the preceding subdivision plat.

(c) Property within a subdivision plat that contains lots restricted to single-family residential or residential use may be replatted to amend a plat restriction only as provided below:

(1) A plat restriction limiting the use of property to residential or single-family residential use may be amended to permit the use of that property only for landscape, park, recreation, drainage, or open space uses.

(2) A plat restriction limiting the use of property specifically to 'nonresidential':

a. May not be amended to permit multi-family residential use of that property unless the applicant demonstrates that the property was actually improved and used for multi-family residential purposes prior to April 3, 1999;

b. May be amended to permit single-family residential use of that property only if:

[1] The typical lot size in the replat is not less than the typical lot size of lots in the preceding plat; or

[2] The property abuts a major thoroughfare.

c. May be amended to any more specific "nonresidential" use of that property.

(3) A plat restriction limiting the use of property specifically to 'commercial' use:

a. May not be amended to permit multi-family residential use of that property unless the applicant demonstrates that the property was actually improved and used for multifamily residential purposes prior to April 3, 1999;

b. May be amended to permit single-family residential use of that property only if:

[1] The typical lot size in the replat is not less than the typical lot size of lots in the preceding plat; or

[2] The property abuts a major thoroughfare.

c. May be amended to any more specific "commercial" use of that property.

(4) A plat restriction limiting the use of property to drainage, water plant, wastewater treatment, lift station or similar public utility use may be amended only to permit:

a. Landscape, park, recreation, drainage, open space or similar amenity uses of that property, or

b. Single-family residential use of that property only if the typical lot size in the replat is not less than the typical lot size of lots in the preceding plat.

(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2022-391, § 16, 5-18-2022)

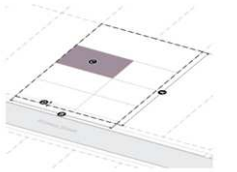
Sec. 42-194. Courtyard style development performance standards

(a) The intent of the courtyard style development is to allow design of a group of small single-family residential lots arranged around a shared open space, to incentivize a greater range of naturally occurring affordable housing options, smaller single-family residential homes with functioning open space in a compact development pattern. It will also promote access and proximity to mobility options and better utilize land closer to existing infrastructure.

(b) The courtyard style development performance standards applicable to developments are shown in the table, and summarized, with depictions below. The full text of standards is contained in subsection (c). The following chart is a summary of certain requirements of this section and is intended for illustrative purposes only. In case of any conflict between the chart, drawings or this section, the text controls. These standards can only be used on property submitted on a site plan showing compliance with this section, and platted as a unified courtyard style development with single-family restricted lots, reserves and courtyard access drive. For purposes of courtyard style developments, the word courtyard does not include roof top courtyards.

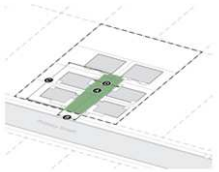
SUMMARY OF PERFORMANCE STANDARDS

SITE



Site Requirements		
	Site frontage	Street
A	Depth (max)	150'
B	Width (min)	50'
	Unit size (max)	1,800 SF
C	Lot area (max)	3,500 SF
	Lot frontage	Street Alley Courtyard Pedestrian Path Courtyard Access Drive
Building Lines		
D	Local/Collector Street (min)	5'
	Major thoroughare with ROW 80' or less	15'
	Courtyard (min)	0'

COURTYARD



Courtyard Dimensions		
	Courtyard area per lot (min)	150 SF
A	Courtyard size for main courtyard (min)	480 SF
	% of lots that must front a courtyard (min)	50%
B	Courtyard width (min)	12'
C	Courtyard depth (min)	12'
D	Distance between buildings across courtyard (min)	20'
Courtyard Activation		
	Fence height facing courtyard (max)	4'
	Courtyard-facing entrance	Required
	Pedestrian connection to courtyard	Required

PARKING / VEHICLE ACCESS

Vehicle Access		
	Access from alley (where existing)	Required
	Distance between drives (min)	75'
A	Courtyard Access Drive width (min/max)	12'/18'
Parking Ratios		
	Spaces per unit (min)	
	Up to 1,000 SF	1
	More than 1,000 SF	2
	Guest spaces (min)	1 per 6 units
	Spaces required within Market-based parking area	0
Parking Location		
	On-site	Required
	Off-site	Not allowed
	Consolidated parking (detached from individual lot)	Allowed
	Between building and street	Not allowed
	Between building courtyard	Not allowed

BUILDINGS/STREET ACTIVATION

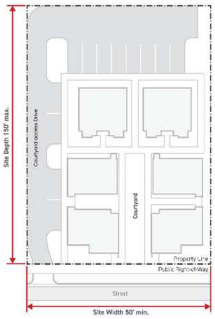
Massing		
A	Building height (max)	30'
Pedestrian Access		
C	Street-facing entrance	Required
D	Pedestrian connection to public sidewalk	Required

(c) The common areas and courtyards within the development cannot be replatted into any other use and are subject to section 42-193. Each subdivision plat that contains a courtyard style development shall contain a notation to that effect on the face of the plat. Any area used for common space or a courtyard:

(1) Shall be restricted for the use and access of owners of property in and residents of the subdivision; and

(2) Shall be owned, managed, and maintained under a binding agreement among the owners of property in the subdivision.

(d) A Courtyard style development site must have a minimum width of 50-foot frontage on a 50 feet street. No portion of a site can be more than 150 feet from a street containing a roadway.

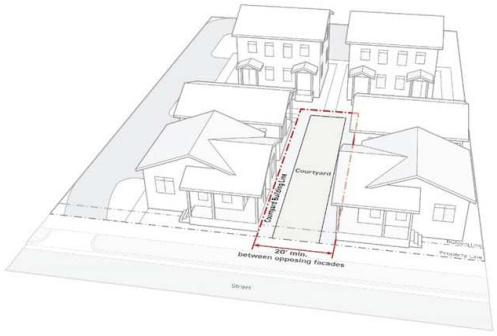


(e) No individual lot can be more than 3,500 square feet in area, and no unit on a site can exceed 1800 square feet in floor area.

(f) Each lot on the site must have frontage on a public street or alley that meets the requirements of section 42-122, a courtyard, a courtyard access drive that meets the requirements of this section, or a pedestrian pathway that is at least 3 feet wide and connects the dwelling units to courtyard space, parking, and public street.

(g) The building line requirement for a structure along a public street right-of-way other than major thoroughfare and not including an alley, is 5 feet. A reduced building line of 15 feet is authorized for a structure along major thoroughfares with a right-of-way 80 feet or less. All units along the public street must face the street with an entry feature, and provide a pedestrian connection to the sidewalk in accordance with section 42-165.

(h) The minimum building line for a structure along a courtyard edge is 0 feet, provided there is at least 20 feet between opposing building facades across the courtyard, measured from edge to edge of the courtyard, including any pedestrian walkways.

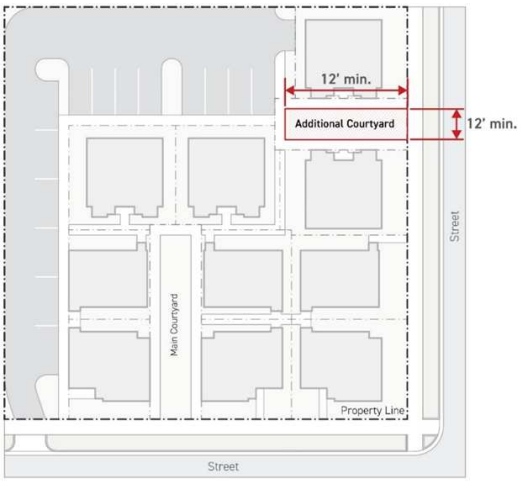


(i) A courtyard style development may have more than one courtyard area. One must be designated as the main courtyard area, and at least one must be provided within each courtyard style development. A main courtyard must be a minimum of 480 square feet in area. A minimum area of 150 square feet of courtyard space per lot must be provided within the boundaries of the subdivision plat. Courtyards must have minimum dimensions of 12 feet by 12 feet, measured from edge to edge of the area designated, including any pedestrian walkways.

(j) At least half of all lots must front the main courtyard or a street. To be considered fronting, at least 50% of the width or depth of each residence lot must front the main courtyard or a street. Each lot with frontage on the main courtyard must provide an entrance that faces the courtyard unless an entrance is provided along the street, provide pedestrian ingress and egress to a first floor occupiable space, and must provide a minimum 3-foot-wide pedestrian connection to the main courtyard.

(1) Additional courtyards are allowed in order to meet the 150 square foot per lot requirement.

(2) Additional courtyards are not required to meet the minimum area of 480 square feet, but must meet the minimum width and depth standards below to receive credit for the courtyard requirement.

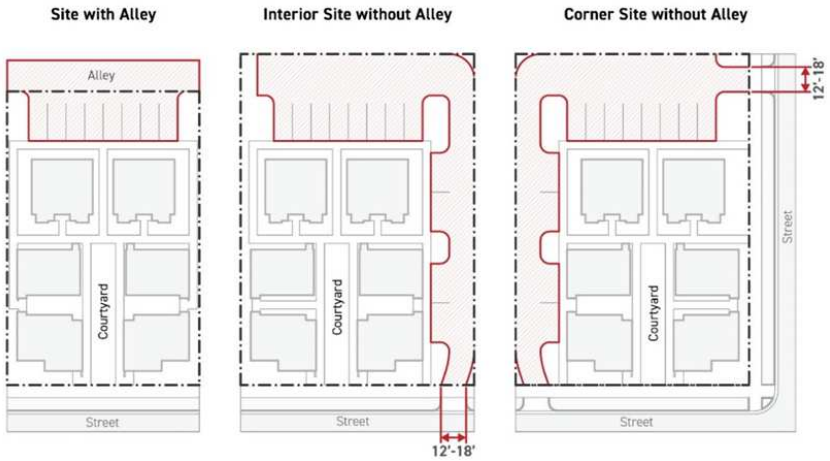


(k) Courtyards must be located at grade and may be a mix of impervious or pervious material and may contain elements such as patios, seating areas, landscaping, lighting, and pedestrian walkways. Fences along the edge of the main courtyard may not exceed 4 feet in height. If a fence is installed, a pedestrian access gate must be provided for access to the main courtyard for each lot or building fronting on the main courtyard.

(l) Where the property abuts an alley meeting the requirements of section 42-188, all vehicular access is provided from that alley.

(m) On a site without alley access, or abutting an undeveloped alley midblock, a driveway is allowed every 75 feet along each street frontage, measured along the property line from edge to edge of the pavement from all existing and proposed driveways located on-site. Measurement does not apply to abutting properties. On a corner site without alley access, vehicular access must be provided from the side street if not a major thoroughfare.

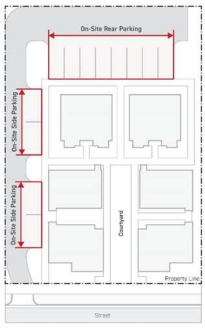
(n) A driveway to or from a street must be at least 12 feet wide but can be no wider than 18 feet, measured from edge to edge of driveway along the property line. One-way driveways are permitted for corner property and must meet the design manual.



(o) Parking requirements for courtyard style developments must meet section 42-186. In addition, the following parking requirements apply:

(1) Parking spaces may be consolidated in one or more locations to the side or rear of the site. Pedestrian access must be provided from consolidated parking areas to each lot or structure the parking area is intended to serve.

(2) No required parking space may be located between a street or courtyard and a building that faces a street or courtyard.



(p) No building on the site may exceed 30 feet in height, as measured from average grade to the highest roof surface. Roof surface is defined, in accordance with Section D of the International Fire Code, as the measurement to the eave of a pitched roof, the intersection of the roof to the exterior wall, or the top of a parapet wall, whichever is greater.

(Ord. No. 2023-801, § 3(Exh. A), 9-27-2023, eff. 11-27-2023)

Secs. 42-195—42-196. Reserved.

Subdivision B. Special Minimum Lot Size Requirements

Sec. 42-197. In general.

(a) The city council may designate a special minimum lot size block or a special minimum lot size area within the city to preserve the lot size character of a single-family residential neighborhood that does not have a minimum lot size established by deed restrictions. A minimum lot size requirement

established pursuant to this division shall prevail over any lesser minimum lot size established by this article. The department shall maintain a list of current special minimum lot size blocks and special minimum lot size areas on its website.

(b) An area is eligible for designation as a special minimum lot size block if it:

(1) Contains not less than one blockface and no more than two opposing blockfaces;

(2) Contains all lots on each blockface within the proposed area;

(3) Forms a contiguous area without containing any out tracts;

(4) Contains lots, at least 60 percent of which are developed for or restricted to single-family use, exclusive of land used for a park, utility, drainage or detention, public recreation or community center, library, place of religious assembly or an elementary school, junior high school, or high school. For purposes of this item, a vacant lot that contained a structure or was used for any lawful purpose within the five years prior to the date the application was accepted by the director shall be considered to be in use for the most recent lawful use of that lot; and

(5) Contains at least one lot that does not have a minimum lot size established by deed restrictions.

(c) An area is eligible for designation as a special minimum lot size area if it:

(1) Contains not less than five blockfaces composed of 5 lots or more on each blockface;

(2) Contains not more than 500 lots within the same subdivision plat or not more than 400 lots within different subdivision plats;

(3) Contains all lots on each blockface within the proposed area;

(4) Forms a contiguous area without containing any out tracts;

(5) Contains lots, at least 80 percent of which are developed for or restricted to single-family use, exclusive of land used for a park, library, place of religious assembly or an elementary school, junior high school, or high school; and

(6) Contains lots, at least 10 percent of which do not have a minimum lot size established by deed restrictions;

(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2015-639, § 31, 6-24-2015, eff. 7-24-2015)

Sec. 42-198. Application.

(a) An application for designation of a special minimum lot size block or a special minimum lot size area shall be filed with the department by an applicant who shall be the primary contact person regarding the application. The applicant shall be an owner of a lot within the proposed block or area or a representative of a home owner's association, civic association, or other entity representing the interests of individual owners of lots within the proposed block or area. The application shall be in the form prescribed by the director and shall:

(1) Be signed by the owner of a lot within the proposed special minimum lot size block or the owners of ten percent of the lots in a proposed special minimum lot size area. The signature of one owner of a lot shall be presumed to represent the consent of all owners of a lot with more than one owner;

(2) Include an inventory of the lots in the proposed area identifying the address, land use at the time of the filing of the application, area of each lot, and which lots, if any, have a minimum lot size established by deed restrictions;

(3) For a special minimum lot size block, the applicant shall provide evidence of support from the owners of lots within the proposed area;

(4) For a special minimum lot size area, the applicant shall provide suggestions for suitable and freely available venues in or near the proposed special minimum lot size area for the location of a community meeting at which evidence of support for the application can be determined;

(5) For a special minimum lot size area, the applicant shall provide a brief description of how the application meets the criteria of subsection (a) of section 42-204 of this Code; and

(6) Include a map depicting boundaries of the proposed block or area.

(b) Prior to the filing of an application with the department, the applicant shall meet with the director. The director shall conduct a preliminary review of the application during the pre-submittal meeting and advise the applicant of the procedures for applications as well the criteria used by the commission and city council to evaluate an application. The director shall also advise the applicant of any deficiencies that would cause the application to be considered incomplete or that would cause the application to not conform to the criteria.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2015-639, § 32, 6-24-2015, eff. 7-24-2015)

Sec. 42-199. Application review.

(a) Upon receipt of an application, the director shall evaluate the application to determine whether the application meets the requirements of section 42-198 of this Code. The director shall inform the applicant of whether the application is accepted or rejected within two business days of receipt of the application and if the application is rejected, the director shall give written notice to the applicant of the specific deficiencies of the application.

(b) If an application is accepted pursuant to subsection (a) of this section, the director shall:

(1) Within two business days, update the list of special building lot size applications and designations on the department website to include:

a. The reference number for the application;

b. A description of the location of the minimum lot size block or area proposed by the application;

c. The date when a complete, valid, subdivision plat, development plat, or building permit application filed with the department shall be subject to the special minimum lot size requirement pursuant to section 42-208 of this Code; and

d. The status of the application.

(2) Review each application for completeness and shall determine the effective minimum lot size requirement pursuant to section 42-202 of this Code. The director shall determine if an application satisfies the eligibility requirements of section 42-197 of this Code and shall consider the application to be complete within 30 business days of receipt of an application for a special minimum lot size block or initially complete within 60 business days of receipt of an application for a special minimum lot size area.

(c) If an application does not satisfy the eligibility requirements of section 42-197 of this Code, the director shall either:

(1) Consider the application incomplete, return the application to the applicant for revision, and advise the applicant of the specific deficiencies within the application; or

(2) Modify the boundaries of the proposed area by removing a blockface from a special minimum lot size block or one or more blockfaces from a special minimum lot size area so that the boundaries as amended satisfy the requirements, or modify the boundaries in accordance with subsection

42-204(c) of this Code, after which the director shall consider the application for a minimum lot size block to be complete or an application for a minimum lot size area to be initially complete.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2015-639, § 33, 6-24-2015)

Sec. 42-200. Additional procedures for a special minimum lot size block application.

(a) For an application for a special minimum lot size block, the director shall, within 15 business days of the receipt of a complete application, give notice of the application by first class mail to the owners of lots included in the application as shown on the current appraisal district records.

(b) The director shall give notice by electronic mail to each district city council member in whose district any lot within the proposed special minimum lot size block is located.

(c) The notice shall inform the owners of lots of the application and the procedure for review and consideration of the application. The notice shall also inform the owners of lots of their prerogative to file a written protest of the application with the department within 30 days of the date of the notice.

(d) The applicant shall place two signs on each blockface included in the application which shall conform to the specifications prescribed by the director. The director shall approve an alternative to the number and location of signs required by this subsection upon determining that the alternative will provide sufficient visibility of the signs and accomplish the objectives of this section without unduly burdening the applicant. The applicant shall use reasonable efforts to maintain each required sign on each blockface until either the director refers an approved application to city council or the commission takes final action on an application.

(e) For an application signed by the owners of 51 percent or more of the area within the proposed block, if no timely written protest by an owner of a lot within the proposed block is received by the department, and the director finds that the application meets the approval criteria of section 42-204 of this chapter, the director shall approve the application and refer the application directly to city council for consideration.

(f) If the director is not able to approve the application, the director shall refer the application to the commission for review and consideration pursuant to section 42-204 of this Code.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2015-639, §§ 34, 35, 6-24-2015, eff. 7-24-2015)

Sec. 42-201. Additional procedures for a special minimum lot size area application.

(a) For an application for a special minimum lot size area, the director, within 60 business days of receipt of an initially complete application, shall establish a date for a community meeting on the application which shall not take place later than 90 business days after determination that the application is initially complete. The director shall give notice of the meeting by first class mail to all owners of lots within the proposed area as indicated on the current appraisal district records not later than 15 business days prior to the date of the community meeting. The notice shall include the date, time, and location of the community meeting, and the procedures for consideration of an application.

(b) The director shall give notice by electronic mail to each district city council member in whose district any portion of the proposed area is located.

(c) The applicant shall place two signs on each blockface within the proposed area that conforms to the specifications prescribed by the director. The director shall approve an alternative to the number and location of signs required by this subsection upon determining that the alternative will provide sufficient visibility of the signs and accomplish the objectives of this section without unduly burdening the applicant. The applicant shall use reasonable efforts to maintain each required sign on each blockface until commission takes final action on an application.

(d) The director shall establish rules for the conduct of the community meeting, and will hold the community meeting within or near the proposed area, subject to the availability of an appropriate venue. At the community meeting, the director shall inform the owners of lots of the application for designation of the proposed special minimum lot size area and the process for review and consideration by the department, commission, and city council.

(e) Not later than 60 days after the community meeting, the director shall mail a response form by first class mail to the owners of all lots within the proposed area for the purpose of gathering evidence of support for the application. The response form shall be completed and returned by the lot owner and shall indicate whether the lot owner does or does not support designation of the proposed special minimum lot size area. The response form must be signed by the lot owner, delivered or mailed to the director, and if mailed, postmarked not later than 30 days after the date of notice indicated on the response form. The signature of one owner of a lot is presumed to represent the consent of all owners of a lot with more than one owner.

(f) Within 60 business days after the deadline for returning response forms mailed in accordance with subsection (e) has passed, the director shall determine if owners of 55 percent of the proposed area support the designation of the special minimum lot size area. For purposes of determining whether 55 percent of the proposed area supports the designation, the director shall not count land that is owned by a governmental entity or a utility that does not return a response form. If the director finds that 55 percent of the proposed area supports the designation, the application will be considered complete. If the director is unable to make the determination, the director shall:

(1) Modify the boundaries of the proposed area by removing one or more blockfaces or modify the boundaries in accordance with subsection 42-204(c) of this Code if the modification will result in boundaries where the owners of 55 percent of the lots support designation of the proposed area. If the director modifies the boundaries in a way that achieves 55 percent support, the application will be considered complete; or

(2) Determine that the application fails and that no further action will be taken by the department or the commission. The director shall give notice by first class mail to the owners of all lots within the proposed area as shown on the current appraisal district records that the application has failed to meet the criteria of this subdivision and that there will be no public hearing before the commission.

(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2015-639, §§ 36, 37, 6-24-2015)

Sec. 42-202. Determination of special minimum lot size requirement.

The following formula shall be used to determine the special minimum lot size requirement:

(1) List all of the lots within the proposed special minimum lot size block or area that are not owned by a governmental entity or utility in descending order of lot sizes.

(2) Express each lot's area as a percentage of the total area of all lots within the proposed special minimum lot size block or area by dividing the square footage of each lot with the sum of the square footage of all lots within the entire special minimum lot size block or area.

(3) Add the areas expressed as a percentage in the order of the list until the cumulative sum of the percentages reaches 70 percent or greater, or in the case of a special minimum lot size block or area within a historic district designated by city council, 60 percent or greater.

(4) The square footage of the lot at which the cumulative sum reaches the percentage required by item (3) of this section is the special minimum lot size requirement.

(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2015-639, § 38, 6-24-2015, eff. 7-24-2015)

Sec. 42-203. Notice of a public hearing before the commission.

(a) The director shall establish a date for a public hearing on the application before the commission, and give notice by first class mail of the date, time, and location of the public hearing to the applicant and the owners of all lots within the proposed block or area as shown on the current appraisal district records not later than 15 days before the date of the public hearing.

(b) The director shall give notice by electronic mail to each district city council member in whose district any portion of the proposed area is located.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013)

Sec. 42-204. Commission review and consideration.

(a) The commission shall consider each complete application referred by the director and shall hold a public hearing on the application. After the close of the public hearing, the commission shall consider the application and recommend designation of a proposed special minimum lot size block or a special minimum lot size area that complies with the following criteria:

(1) The proposed area has an identifiable lot size character, taking into account the age of the neighborhood, existing evidence of a common plan and scheme of development, and other factors that the commission reasonably determines to be relevant to an individual application;

(2) The establishment of the proposed special minimum lot size requirement will further the goal of preserving the identifiable lot size character of the proposed area;

(3) The applicant has demonstrated sufficient support for the application to warrant the designation of the special minimum lot size requirement;

(4) The application complies with the application requirements of section 42-198 of this Code and the eligibility requirements of section 42-197 of this Code;

(5) For a proposed special minimum lot size area, no blockface within the boundaries includes a significant area developed as or restricted to a use that is not single-family residential use; and

(6) For a proposed special minimum lot size area, no blockface within the boundaries includes a significant area that does not share a lot size character with the rest of the proposed area.

(b) If the commission is unable to recommend designation of the proposed block or area, the commission shall:

(1) Defer the consideration of the application to a later commission date and request additional information needed to consider the application be provided;

(2) Deny the application;

(3) Modify the boundaries of the proposed block or area by removing one or more blockfaces if the modification will result in boundaries of a block or area that the commission determines to satisfy the criteria of subsection (a) of this section; or

(4) Modify the boundaries of the proposed special minimum lot size area in accordance with subsection (c) of this section.

(c) When provided for by this chapter, the boundary of a proposed special minimum lot size block or area may terminate at the location of existing major physical features that create a distinct and identifiable boundary. The modified boundary must satisfy the requirements of subsection (a) of this section, except for item 42-197(c)(3) of this Code. For the purposes of this subsection, major physical features include, but are not limited to, the following:

(1) A public street that:

a. Does not have a roadway;

b. Has a right-of-way width of 100 feet or more; or

c. Is a major thoroughfare;

(2) Property owned in fee by an electric utility and used or intended for use for electric transmission facilities;

(3) A drainage channel required by a governmental entity with flood control jurisdiction, or other creeks, bayous, or other waterways; and

(4) A railroad track;

(5) An existing neighborhood perimeter wall or sound barrier wall; and

(6) A lot on the perimeter of the proposed area that is:

a. More than ten times the size of the proposed special minimum lot size requirement calculated in accordance with section 42-202 of this Code; or

b. Not in use for or restricted to single-family residential use that is abutting a major thoroughfare.

(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2015-639, § 39, 6-24-2015)

Sec. 42-205. City council review and consideration.

(a) The director shall submit an affirmative recommendation of the commission to designate the proposed special minimum lot size block or special minimum lot size area to city council, which shall decide whether to designate the block or area based on the criteria of subsection (a) of section 42-204 of this Code.

(b) After designation by city council, the director shall file for recordation in the real property records of the county or counties in which the designated block or area is located, a notice of the city council action for each lot within the designated block or area.

(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013)

Sec. 42-206. Ineligibility for inclusion after denial.

(a) If the commission votes not to recommend the application or the city council votes to deny the application, any lot included within the boundaries of the application at its final consideration is ineligible for inclusion in a new application for a period of one year from the date of the final action.

(b) The director may allow an ineligible lot to be included in a new application upon receipt of new information not known to the applicant at the time of the prior application regarding changed circumstances that the director determines warrants the inclusion of the lot in a new application.

(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013)

Sec. 42-207. Term and expiration; application to rescind; application to renew.

(a) A special minimum lot size requirement established pursuant to an application that the director determines to be complete after May 24, 2013 shall be effective for 40 years after the effective date of the ordinance establishing the requirement unless terminated earlier by an ordinance adopted by city council. A special minimum lot size requirement established pursuant to an application that the director determines to be complete before May 24, 2013 shall be effective for 20 years after the effective date of the ordinance establishing the minimum lot size requirement unless terminated earlier by an ordinance adopted by city council.

(b) An application to rescind a special minimum lot size requirement shall comply with the application requirements of section 42-198 of this Code for establishing a special minimum lot size requirement except that items (2) and (5) of subsection (a) of section 42-198 of this Code shall not be required. The application to rescind shall be accepted by the director no earlier than five years after the effective date of the ordinance establishing the special minimum lot size requirement and no earlier than five years after the final action on the most recent application to rescind the special minimum lot size requirement. Notwithstanding the foregoing, an application may be accepted by the director if the applicant provides new information regarding changed circumstances that the director determines warrants the acceptance of the application The application shall be reviewed in accordance with the provisions of this subdivision for a new application for designation of a special minimum lot size block or special minimum lot size area, as applicable, except as provided by subsection (c) of this section.

(c) In addition to the criteria for reviewing an application to establish a special minimum lot size requirement in this subdivision, an application to rescind a special minimum lot size requirement shall be evaluated in accordance with the following:

(1) For an application to rescind a special minimum lot size block:

a. If the application is not signed by the property owners of 67 percent of the area within the special minimum lot size block, the application fails and no further action shall be taken;

b. If the application is signed by the property owners of 67 percent of the area within the special minimum lot size block and no timely written protest is received by the department, the director shall approve the application and refer the application directly to city council for consideration; and

c. If the application is signed by property owners of 67 percent of the area within the special minimum lot size block and a timely written protest is received by the department, the director shall refer the application to the commission. The commission shall approve the application and refer the application to city council for consideration if the special minimum lot size block no longer satisfies the criteria of section 42-204 of this Code.

(2) For an application to rescind a special minimum lot size area:

a. If the application does not receive the support of the property owners of 67 percent of the area after return of the response forms required by section 42-201 of this Code, the application fails and no further action shall be taken; and

b. If the application receives the support of the property owners of 67 percent of the area within the special minimum lot size area after return of the response forms required by section 42-201 of this Code, the commission shall approve the application and refer the application to city council if it finds the special minimum lot size area no longer satisfies the requirements of section 42-204 of this Code.

(d) An application to renew a special minimum lot size requirement shall comply with the application requirements of section 42-198 of this Code except that items (2), (3), and (5) of subsection (a) of section 42-198 shall not be required. The application to renew shall be accepted by the director no earlier than two years before the expiration of the ordinance establishing the special minimum lot size requirement. The application shall be reviewed in accordance with the provisions of this subdivision for a new application for designation of a special minimum lot size block or special minimum lot size area, as applicable, except as provided by subsection (e) of this section.

(e) In addition to the criteria for reviewing an application to establish a special minimum lot size requirement in this subdivision, an application to renew a special minimum lot size requirement shall be evaluated in accordance with the following:

(1) For an application to renew a special minimum lot size block that does not receive a timely protest by an owner of a lot within the proposed special minimum lot size block, and the director finds that the application meets the approval criteria of 42-204 of this chapter, the director shall approve the application and refer the application directly to city council for consideration;

(2) For a special minimum lot size area, the application to renew shall be administratively approved by the director and forwarded to city council for consideration if the owners of less than 10 percent of the special minimum lot size area oppose the renewal of the special minimum lot size requirement after return of the response forms required by section 42-201 of this Code, and the director finds that the application meets the approval criteria of 42-204 of this chapter; and

(3) Applications that cannot be administratively approved by the director shall be evaluated in accordance with the procedures for applications to establish a special minimum lot size requirement.

(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2015-639, § 40, 6-24-2015, eff. 7-24-2015)

Sec. 42-208. Rules governing subdivision plats, development plats, and building permits.

(a) A complete, valid subdivision plat or development plat application filed with the department shall be subject to the special minimum lot size requirement only if it is filed after the seventh day following the date an application for a special minimum lot size block or special minimum lot size area is published online by the director pursuant to subsection (b) of section 42-199 of this Code.

(b) A subdivision plat that is subject to the minimum lot size requirement shall not be approved if it provides for the creation of a lot that is smaller than or equal to the special minimum lot size established by the director pursuant to section 42-202 of this Code.

(c) If a lot is lawfully developed for or is lawfully in use for other than single family residential use at the time the application for establishment of a special minimum lot size block was filed with the department, a subdivision plat or development plat for that lot may provide for any use permitted by law.

(d) If a lot that was in use for or restricted to single-family residential use or a vacant lot that was not restricted to a use other than to single-family residential use at the time the application for establishment of a special minimum lot size block was determined by the director to be complete or the application for establishment of a special minimum lot size area was determined by the director to be initially complete, a subdivision plat, development plat, or building permit for that lot shall provide only for single-family residential use.

(e) If a vacant lot was restricted by deed restrictions to any use other than single-family residential use at the time the application for establishment of a special minimum lot size block was determined by the director to be complete or the application for establishment of a special minimum lot size area was determined by the director to be initially complete, a subdivision plat or development plat for the vacant lot may provide for any use permitted by law.

(f) Notwithstanding the provisions of this section, if the city council has not completed action on the special minimum lot size block or special minimum lot size area application 180 business days after the earlier of the date the application is determined by the director to be complete or the date the director fails to timely perform an action required by this subdivision, the subdivision plat or development plat application shall not be subject to the special minimum lot size.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2015-639, § 41, 6-24-2015, eff. 7-24-2015)

Sec. 42-209. Reserved.

DIVISION 5. EASEMENTS

Sec. 42-210. Public utility easements.

(a) An easement for one or more public utilities shall meet the standards of this section and the location, design and width requirements of the design manual and of the respective utility companies.

(b) A public utility easement located along the boundary of a subdivision plat or a development plat shall contain the full width required for the easement, except that one-half of the required width may be shown and dedicated when one of the following conditions is satisfied:

(1) The property adjacent to the proposed public utility easement is within a recorded subdivision plat as the property that is the subject of the application and which provided for the dedication of a public utility easement contiguous to the proposed easement; or

(2) The additional public utility easement width is or was previously dedicated by the owner of the adjacent property by separate instrument.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013)

Sec. 42-211. Drainage easements.

Each drainage easement shall be located in conformity with the requirements of the design manual and all other governmental agencies with jurisdiction over surface water drainage or flood control within the area in which the proposed subdivision or development is located. Each subdivision plat or development plat that contains a drainage easement shall contain a restriction on the plat that:

(1) Prohibits all properties abutting the easement from the construction of fences or buildings, whether temporary or permanent, and the installation or maintenance of plantings or other obstructions to the operation and maintenance of the drainage facility within the drainage easement; and

(2) Prohibits any property abutting the drainage easement from draining directly into the drainage easement except by means of a drainage structure approved by the Director of Houston Public Works or the authorized public drainage or flood control official.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2018-11, § 49, 1-10-2018)

Sec. 42-212. Private easements; fee strips.

All easements or fee strips created prior to the subdivision or development of any tract of land shall be shown on the subdivision plat or development plat with appropriate notations indicating the name of the holder of the easement or fee strip, the purpose of the easement, the dimensions of the easement or fee strip tied to all adjacent lot lines, street rights-of-way and plat boundary lines and the recording reference of the instruments creating and establishing the easement or fee strip. If an easement has not been defined by accurate survey dimensions, such as an "over and across" easement, the subdivider shall request the owner of the easement to define the limits and location of the easement through the property within the plat boundaries. If the holder of an undefined easement does not define the easement involved and the applicant certifies to the director the owner's refusal to define the easement, the subdivision plat or the development plat shall provide accurate information about the centerline location of all existing pipelines or other utility facilities placed in conformance with the easement owners' rights.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013)

Secs. 42-213—42-229. Reserved.

DIVISION 6. MULTI-FAMILY RESIDENTIAL DEVELOPMENTS

Sec. 42-230. Application requirements.

(a) In addition to the information otherwise required to be submitted for a development plat in accordance with section 42-46, a development plat that provides for the development of one or more multi-family or multi-unit residential buildings shall provide the following information:

(1) The number of separate buildings that will contain residential dwelling units;

(2) The location of the principal entrance to each residential building;

(3) The total number of dwelling units;

(4) An itemized listing of residential dwelling units existing and proposed within the property indicating the number of bedrooms in and square footage of each dwelling unit; and

(5) The number, location and dimensions of off-street parking spaces required to serve the dwelling units pursuant to section 42-234 of this Code or section 26-492.

(b) When property is replatted to remove a one-foot restricted reserve, the subdivision plat shall additionally provide all of the information required for a development plat and required by subsection (a) of this section and shall be deemed a development plat for the purposes of this division.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2023-801, § 3(Exh. A), 9-27-2023, eff. 11-27-2023)

Sec. 42-231. Private streets—General standards.

(a) A development plat that contains a multi-family residential building shall provide at least one private street. The private street shall remain clear at all times for emergency vehicle access. No parking shall be allowed within the private street. Except as provided in section 42-235 of this Code, a private street shall comply with the requirements of this section.

(b) Width:

(1) The minimum right-of-way width for a private street shall be 28 feet, which is coterminous with the pavement width measured from edge-to-edge across the surface of the pavement.

(2) At the option of an applicant, for a distance of not more than 100 feet from the intersection of the private street and the right-of-way of a public street, the right-of-way width of the private street may be comprised of two paving sections of not less than 20 feet each, separated by a curbed section of not less than five feet and not more than 20 feet in width.

(c) Intersections:

(1) Intersections along private streets shall be a minimum of 65 feet apart.

(2) When a private street intersects with another private street at a 90-degree angle, the private street shall provide a 20-foot radius at the intersection.

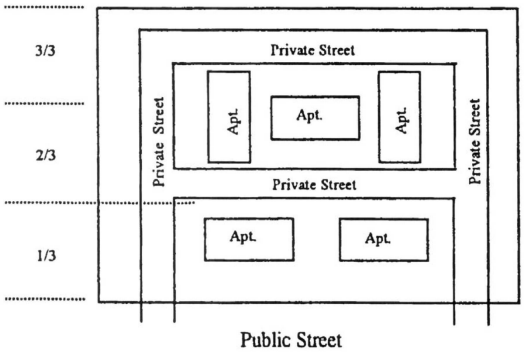
(3) When a private street intersects with another private street at an angle less than 90 degrees, but more than 80 degrees, the private street shall provide a 25-foot radius at the intersection.

(d) The centerline radius of a reverse curve on a private street shall not be less 65 feet. Reverse curves shall be separated by a tangent of not less than 25 feet.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013)

Sec. 42-232. Points of access; termination.

(a) Except as otherwise provided in this section, the private street system serving each multi-family residential development shall form a loop that provides more than one point of access to the development from the public streets adjacent to the boundaries of the development. A divided entrance shall not constitute two separate points of access.

(b) When two points of access are provided from the same public street, the private street shall not be deemed to have a second point of access unless the private street connecting the two points of access extends into the property ⅓ of the depth of the property.

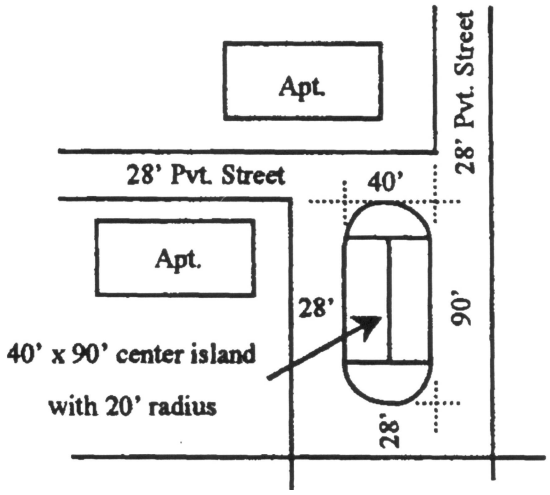


(c) Notwithstanding the foregoing, a multi-family residential development on a tract of land of one acre or less shall not be required to provide more than one point of access to a public street.

(d) A dead-end private street intersecting with a public street or with a private street may be extended up to 200 feet without a turnaround provided that a fire hydrant is located not more than 100 feet from the intersection of the dead end private street with the public street or looped private street.

(e) A private street is exempt from complying with the provisions of subsections (a) and (b) if it terminates in a "P" turnaround configuration that is comprised of a center island that is 40 feet wide and 90 feet long surrounded on four sides by a 28 foot wide paved private street. The center island shall

be established by a raised portion that has a radius of 20 degrees on each 40-foot wide end of the island. The interior of the center island may be used for parking, providing that no parking is allowed within the 28-foot private street.



(Ord. No. 2013-343, § 3(Exhs. A, B), 4-24-2013)

Sec. 42-233. Fire protection.

(a) Fire hydrants shall be located along each private street in a manner that will allow fire fighting apparatus to park and connect by hose to a hydrant not more than 300 feet away and reach any part of any building within the development with a 200-foot long hose extending from the equipment. The hose distance shall be measured as laid on the ground, around buildings, fences and other obstacles, and not as an aerial radius from a hydrant or parked equipment. Notwithstanding the foregoing, fire hydrants shall be located not more than 600 feet apart, unless the fire chief approves a different configuration where, in his professional judgement, fire protection needs can be adequately provided.

(b) If a multi-family residential building will be constructed over and across a private street, the unobstructed overhead clearance of the multi-family residential building shall be not less than 14 feet measured between the highest point of the private street paving under the building and the lowest part of the building or associated parts thereof.

(c) The fire chief shall review and approve each development plat that provides for one or more multi-family residential buildings and shall provide the director with recommendations regarding the adequacy of the design of the development to provide sufficient emergency access to all buildings by firefighters and fire fighting equipment, considering the kinds of equipment and methods of fire-fighting in use by the fire department of the city, the location of buildings in the proposed development and their relationship to existing and proposed fire hydrants and any other factors that may affect the safety and general welfare of the public and the occupants of the buildings to be constructed.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013)

Sec. 42-234. Parking.

(a) Each development plat containing a multi-family residential development shall provide off-street parking spaces in accordance with the following schedule:

Unit Size	*Parking Spaces Required Per Unit*
Efficiency	1.25
One bedroom	1.333
Two bedrooms	1.666
Three or more bedrooms	2

In determining the total number of spaces required, any fraction of one-half or less shall be counted as the next smaller whole number and any fraction in excess of one-half shall be counted as the next higher whole number.

(b) Parking space arrangements, sizes of spaces and driveway openings shall be in conformance with the *Building Code*. A parking space shall not be in tandem unless the tandem parking space is reserved for use by occupants of the same residential unit to which the space is in tandem.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2021-1037, § 20(Exh. I.47), 12-1-2021, eff. 4-1-2022)

Sec. 42-235. Performance standards.

A multifamily residential development with a density of 30 dwelling units or more per acre that meets each of the performance standards of this section shall be exempt from the requirements of sections 42-231, 42-232(a), 42-232(b), 42-233(a), and 42-233(b) of this Code:

(1) The development provides fire truck access to all fire hydrants by a 20-foot wide fire lane along which no parking is allowed, a 28-foot wide private street or a public street. The fire lane or private street may loop through the development or may terminate at a dead end if the dead end is less than 500 feet. A dead end longer than 150 feet but less than 500 feet must have an "L", "T" or 90-foot diameter circular turnaround, as depicted in figures 1, 2, and 3. No dead end may be greater than 500 feet;

(2) Fire hydrants are located no further than 20 feet, measured perpendicularly, from the edge of the pavement of the fire lane, private street or public street. Access to the fire hydrants through any fence is provided by gates with 911 access;

(3) One fire hydrant is located within 100 feet of the property line on any fire lane or private street, as shown in figure 4.

(4) Fire hydrants are located so that a fire truck can drive a maximum of 200 feet from a fire hydrant and then use a maximum 300 feet hose length from the edge of pavement at the fire truck around all buildings, as the hose lays on the ground around all obstacles, including but not limited to fences, walls, buildings, structures and trees, as shown in figure 5; and

(5) The maximum distance between fire hydrants is 600 feet, as shown in figure 6.

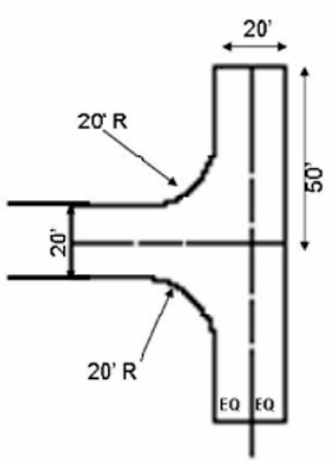


Figure 1. "L" Turn Around

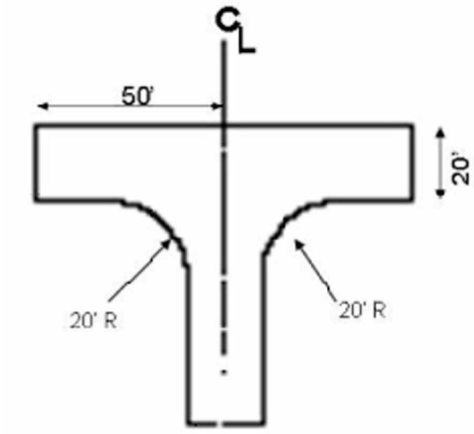

Figure 2. "T" Turn Around

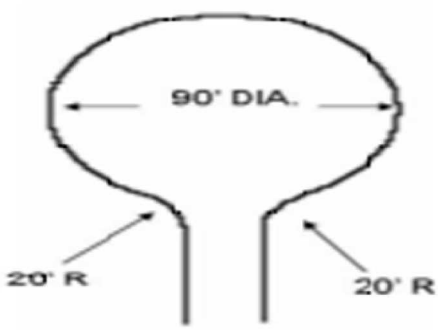

Figure 3. 90' Diameter Turn Around

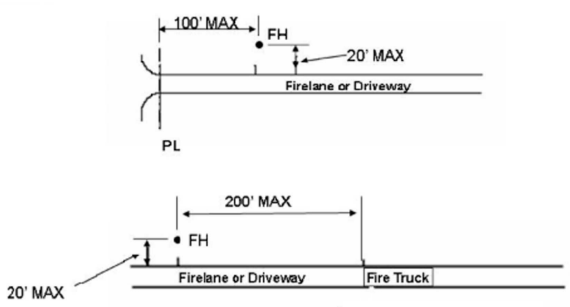

Figure 4

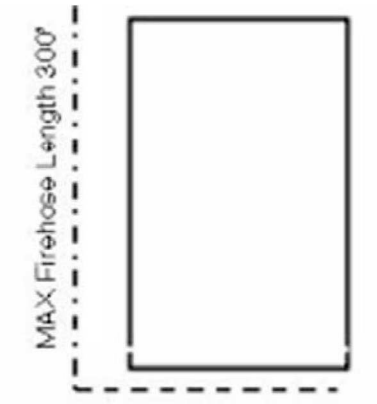

Figure 5

Figure 6

(Ord. No. 2013-343, § 3(Exhs. A, B), 4-24-2013)

Sec. 42-236. Open space.

(a) Except as otherwise provided in this section, each multi-family residential development in the extraterritorial jurisdiction shall provide open space in accordance with the following schedule:

Dwelling Unit Size	*Square Feet Of Open Space Required Per Dwelling Unit*
Efficiency	200
1 Bedroom	240
2 Bedrooms	320
3 Bedrooms	440
4 Bedrooms	500

For purposes of this section, *"open space"* shall mean land within the multi-family residential development that is not covered by buildings, covered walkways, parking spaces, private streets or driveways.

(b) In lieu of the requirements of subsection (a) of this section, a multi-family residential development in the extraterritorial jurisdiction may provide for open space by complying with each of the following conditions:

(1) At least ten percent of the total land area in the multi-family residential development, exclusive of land within the building line requirement area, shall be provided as open space;

(2) Enclosed amenities, such as an exercise or game room, shall constitute no more than ten percent of the open space provided;

(3) Each area provided as open space is at least 20 feet wide by 60 feet long;

(4) Any street trees required to be planted to comply with this Code are located in the street right-of-way; and

(5) The development plat or subdivision plat provides for the construction of sidewalks that are a minimum of five feet in width within the right-of-way of each street that is adjacent to the development.

(c) The aggregate open space requirement of subsection (a) of this section may be reduced by 15 percent if the development meets each of the following conditions:

(1) At least 25 percent of the dwelling units have individual enclosed garages within the buildings where the dwelling units are located; and

(2) Areas within the building line requirement are not used for parking.

(d) The aggregate open space requirement of subsection (a) of this section may be reduced according to the following schedule if the development meets each of the following conditions:

(1) Any street trees required to be planted to comply with city ordinance are located in the street right-of-way; and

(2) The development plat or subdivision plat provides for the construction of sidewalks that are a minimum of five feet in width within the right-of-way of each street that is adjacent to the development.

Development Density	*Reduction in Aggregate Open Space*
30—39 units per acre	15%
40—49 units per acre	30%
50—59 units per acre	45%
60 units per acre or more	60%

(e) A multi-family residential development in the extraterritorial jurisdiction with five or more stories shall not be required to provide open space.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013)

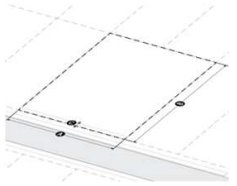
Sec. 42-237. Multi-unit residential (MUR) performance standards

(a) The intent of the multi-unit residential (MUR) development standards is to incentivize a greater range of naturally occurring affordable housing options, encourage more small-scale multi-unit housing options, to promote more compact development patterns and encourage residential units to face the street. It is also designed to promote access and proximity to mobility options and better utilize land closer to existing infrastructure.

(b) The multi-unit residential performance standards applicable to developments are shown in the table, and summarized, with depictions below. The full text of performance standards is contained in subsection (c). The following chart is a summary of certain performance standards contained in this section and is intended for illustrative purposes only. In case of any conflict between the charts, drawings, or text, the text shall control.

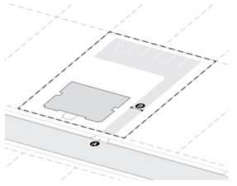
SUMMARY OF PERFORMANCE STANDARDS

SITE



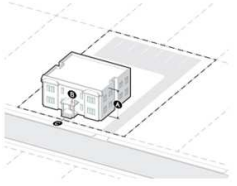
Site Dimensions		
	Site size (min)	3500 SF
A	Site frontage (min)	50'
B	Depth (max)	150'
Dwelling Units		
	Per site (min/max)	3/8
	Along local street (max)	4
Building Lines		
C	Local/Collector Street (min)	5'
	Major thoroughfare with ROW 80 feet or less	15'
Front Yard Fencing		
	Height (max)	4'

PARKING / VEHICLE ACCESS



Vehicle Access		
	Access from alley (where existing)	Required
A	Curb cuts per street front (max)	1
B	Drive width (min/max)	12'/16'
Parking Ratios		
	Spaces per unit (min)	
	Less than or equal to 1,000 SF	1
	More than 1,000 SF	2
	Guest spaces (min)	1 per 6 units
	Spaces required within Market-based parking area	0
Parking Location		
	On-site	Required
	Off-site	Not allowed
	Between building and street	Not allowed

BUILDINGS/STREET ACTIVATION



Massing		
A	Building height (max)	30'
Pedestrian Access		
B	Street-facing entrance	Required
C	Pedestrian connection to public sidewalk	Required

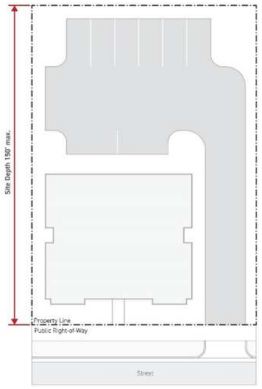
(c) Multi-unit residential performance standards are as follows:

(1) Site Dimensions

a. A site must have a minimum of 50' frontage on a 50 feet street.

b. A site can be no more than 150' deep from the street containing a roadway.

c. The minimum size of a site required is 3500 square feet.



(2) A site must contain at least 3 dwelling units but no more than 8 dwelling units. No more than 4 units may be located within a site on a local street.

(3) The building line requirement along a public street right-of-way, not including an alley is 5 feet except along major thoroughfares. A reduced building line of 15 feet is authorized along major thoroughfares with a right-of-way of 80 feet or less. All structures along the public street must face the street with an entry feature, and provide a pedestrian connection to the sidewalk in accordance with section 42-165.

(4) A fence, if installed in a front yard must be constructed of a non-opaque, decorative material and may be no more than 4' in height.

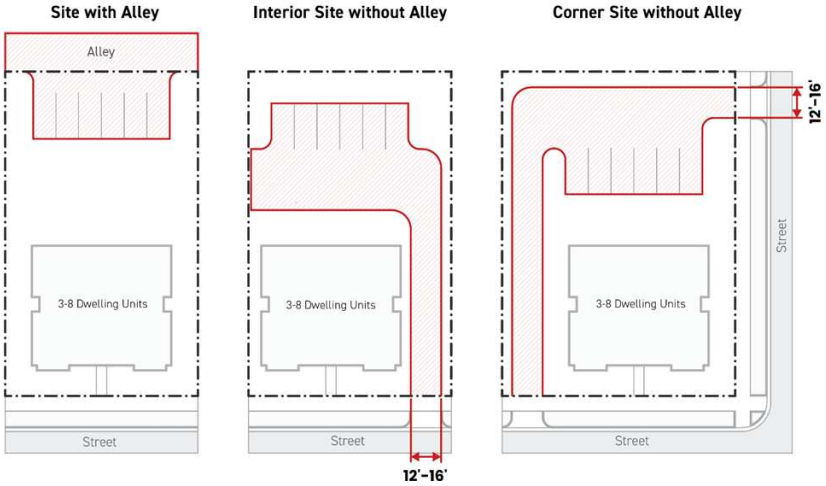
(5) Vehicular Access

a. Where the property abuts an alley, vehicular access is provided from that alley.

b. On an interior site without alley access, or along an undeveloped alley, one driveway to or from a street is allowed.

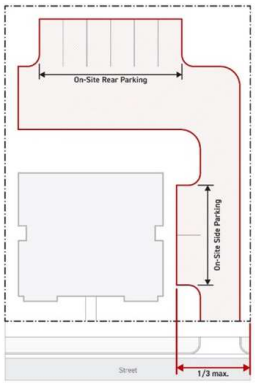
c. On a corner site without alley access, vehicular access is provided from the side street if not a major thoroughfare. No more than two driveways, one per street frontage, are allowed per site.

d. A driveway to or from a street may be no wider than 16 feet. One-way driveways are permitted for corner property and must meet the design manual.



(6) Parking requirements for multi-unit residential developments must meet section 26-492. In addition, one guest parking space must be provided for every 6 dwelling units.

(7) All required parking spaces must be provided on-site and must be located to the side or rear of any improvements on the property; see the example below.



(8) Building height may not exceed 30 feet as measured from average grade to the highest roof surface. Roof surface is defined, in accordance with Section D of the International Fire Code, as the measurement to the eave of a pitched roof, the intersection of the roof to the exterior wall, or the top of a parapet wall, whichever is greater.

(Ord. No. 2023-801, § 3(Exh. A), 9-27-2023, eff. 11-27-2023)

Secs. 42-238—42-250. Reserved.

DIVISION 7. PARKS AND PRIVATE PARKS

Sec. 42-251. Applicability.

(a) The regulations contained in this division shall be applicable to all property within the city limits of the city proposed to be developed in whole or in part for single family residential, multi-unit residential or multifamily residential purposes for which a subdivision plat or development plat is required, unless otherwise noted herein.

(b) These regulations do not apply to replats of land owned by a governmental unit.

(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2023-801, § 3(Exh. A), 9-27-2023, eff. 11-27-2023)

Sec. 42-252. Park dedication required.

(a) Each single-family residential subdivision, multi-unit residential development, and multifamily residential development shall provide one or a combination of the following for park or open space purposes:

(1) Fee simple dedication of land suitable in type and location for development of parks within the park sector in which the subdivision or development is located, which land may be, but is not required to be, located within the subdivision or development creating the dedication requirement; or

(2) Payment of fees in lieu of the dedication of land for parks in the amount established in section 42-253 of this Code.

(b) The amount of land required to be dedicated for parks shall be proportionate to the development calculated on the basis of the following formula:

$$\frac{10 \text{ ac.} \times \text{No. of DU} \times \text{PPDU}}{1000}$$

Where:

DU = the number of dwelling units in the development;

PPDU = 1.8, the number of persons per dwelling unit for each dwelling unit; and

1000 = the number of residents per 10 acres of park land.

(c) Recordation of a subdivision plat subject to the requirements of this section shall require one or a combination of the following necessary to satisfy the requirements of subsection (a) of this section taking into account any credits authorized pursuant to section 42-254 of this Code:

(1) For land dedicated to parks within the subdivision, a fee simple dedication on the subdivision plat of the required park land as approved by the parks director;

(2) For land dedicated to parks outside the subdivision, evidence of recording in the appropriate real property records of a deed of the required park land as approved by the parks director;

(3) For land established as private park, identification of the required amount of private park as one or more restricted reserves with the following notation on each private park reserve within the subdivision:

'RESERVE RESTRICTED TO PRIVATE PARK PURSUANT TO CHAPTER 42 OF THE CODE OF ORDINANCES, CITY OF HOUSTON, TEXAS. THIS PRIVATE

PARK DESIGNATION MAY NOT BE CHANGED WITHOUT APPROVAL OF THE PLANNING COMMISSION OF THE CITY OF HOUSTON, TEXAS.'

Land established as a private park for the purposes of this section may not be replatted to change this designation pursuant to section 212.0146 of Chapter 212 without the approval of the commission. The commission shall not approve a replat that would change the private park designation unless it determines that alternative private park space that satisfies the requirements of this subsection is available within the original subdivision generating the dedication requirement.

(4) Confirmation of deposit into the park and recreation dedication fund of the fee in lieu of dedication in the amount established pursuant to section 42-253 of this Code; or

(5) A statement on the plat that payment of a required fee in lieu of dedication has been deferred and shall be paid at the then-current fee prior to the issuance of a building permit for each single family dwelling unit within the subdivision.

(d) Issuance of a building permit for a single family dwelling unit in a subdivision subject to the requirements of this section for which the payment of fees in lieu of dedication has been deferred pursuant to item (5) above shall require confirmation of deposit into the park and recreation dedication fund of the fee in lieu of dedication in the amount per dwelling unit then required by section 42-253 of this Code.

(e) Issuance of a building permit for a multi-unit residential or multifamily residential development subject to the requirements of this section shall require one or a combination of the following necessary to satisfy the requirements of subsection (a) of this section taking into account any credits authorized pursuant to section 42-254:

(1) For land dedicated for park purposes, evidence of recording in the appropriate real property records of a general warranty deed of the required park land as approved by the parks director;

(2) Identification of the required amount of private park on an approved development plat; or

(3) Confirmation of deposit into the park and recreation dedication fund of the fee in lieu of dedication in the amount established pursuant to section 42-253 of this Code.

(f) If the calculation in subsection (b) of this section results in a requirement of less than one-half acre for property located in the area within and bounded by Interstate Highway 610 or one acre for property located in the area outside of Interstate Highway 610, the parks director may require the developer to pay the fee in lieu of land dedication as provided in section 42-253 of this Code. The parks director may approve the dedication of less than one-half acre of property in the area within and bounded by Interstate Highway 610 or one acre of property in the area outside of Interstate Highway 610 if the proposed park is a pocket park the need for which is identified in the Parks Master Plan, is adjacent to an existing park or other public space, provides access to a park, or otherwise presents an opportunity to enhance the city parks system consistent with the Parks Master Plan. This limitation, however, shall not apply to limit the size of compensating open space, which shall be governed by section 42-182 of this Code.

(g) Notwithstanding any other provision of this section, the owner of property for which dedication is required may pay a fee in lieu of dedication in the amount determined pursuant to section 42-253 of this Code, and the parks director shall not refuse any payment of a fee in lieu of dedication.

(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2023-801, § 3(Exh. A), 9-27-2023, eff. 11-27-2023)

Sec. 42-253. Fees in lieu of land dedication.

(a) In some instances, the parks director may require the developer to pay fees in lieu of dedicating land. In making this determination, the parks director shall consider the following factors:

(1) Whether sufficient parkland and open space exists in the area of the proposed development; and

(2) Whether recreation potential for an area would be better served by expanding or improving existing parks, by adding land or additional recreational amenities.

The parks director shall notify the developer in writing of the park director's decision to require a fee in lieu of dedication and the reason for the decision. The developer shall be entitled to appeal the park director's decision to the commission.

(b) The dedication requirement shall be met by a payment in lieu of land dedication at a specified dollar amount per dwelling unit determined annually pursuant to this section. Cash payments may be used only for acquisition or improvement of park land and facilities located within the same park sector as the development. Fees may be applied to any type of park site or improvement within the sector in accordance with park department prioritization.

(c) The initial fee in lieu of dedication shall be $700.00 per dwelling unit. Each year following certification of the city's tax roll, the director and the parks director shall report to the commission on the amount of fees in lieu of dedication received, expended or encumbered during the preceding 12 months. The report shall also include an analysis of changes in the taxable value of land within the city as certified by each respective county appraisal district. The director and the parks director may recommend an increase in the fee in lieu of dedication based on increases in appraised value. The commission shall review the report, conduct a public hearing on any recommended increase in the fee in lieu of dedication, and issue a final report. The commission shall file its report, which shall advise of any need to increase the fee in lieu of dedication, with the city council. The fee in lieu of dedication shall thereafter, upon approval by the city council, be the amount stated for this provision in the city fee schedule.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013)

Sec. 42-254. Calculations; deductions and credits.

(a) *Initial calculations.* The parks director shall determine the amount of land required to be dedicated or fees in lieu of dedication to be paid in accordance with sections 42-252 and 42-253 of this Code and as further provided in this section.

(1) The parks director shall first calculate the amount of park dedication required using the formula contained in subsection (b) of section 42-252 of this Code;

(2) If the owner of the subdivision or development elects to pay a fee in lieu of dedication, or the parks director requires the payment of a fee in lieu of dedication pursuant to section 42-253 of this Code, the parks director shall calculate the fee by multiplying the number of dwelling units in the subdivision or development by the then-current fee established pursuant to section 42-253 of this Code;

(3) If the owner of the subdivision or development elects to satisfy the requirements of this division by a combination of dedication of land and payment of a fee in lieu of dedication, the parks director shall:

a. First, calculate the total park dedication requirement;

b. Second, subtract from the total park dedication requirement the amount of land for parks to be dedicated;

c. Third, calculate a percentage as follows: (remaining park dedication requirement (total park dedication requirement) × 100; and

d. Fourth, apply the resulting percentage to the total fee in lieu of dedication to determine the amount of fee

in lieu of dedication that has to be paid. This percentage shall be applied to the then-current fee in lieu of dedication per lot when payment of the fee in lieu of dedication is deferred pursuant to subsection (c) of section 52-252 of this Code to determine the fee per dwelling unit.

(b) *Deductions and credits.*

(1) The number of dwelling units shall be based on an incremental increase in dwelling units. The parks director shall deduct from the initial calculation pursuant to subsection (b) of section 42-252 of this Code the number of dwelling units that the applicant demonstrates to the satisfaction of the parks director existed prior to the application for the subdivision plat or development plat generating the dedication requirement;

(2) The parks director shall reduce the dedication requirement of section 42-254(a)(1) or the fee in lieu of dedication of section 42-254(a)(2), as applicable, by one or more of the following credits:

a. Up to a maximum of 100 percent of the total requirement credit shall be given for each acre or portion thereof of private park land provided within the subdivision or development generating the dedication requirement that meets the requirement of this part. For example, if the total dedication requirement is 5 acres and the applicant proposes to include 2.1 acres of private park within the subdivision, 2.1 acres will be deducted from the total requirement. Private park land eligible for credit must be centrally located within the development, designed so that it cannot easily be joined into one or more adjacent lots with a fence, legally and practically accessible to all residents of the development, and of a size, shape and configuration so that it is likely to be used by residents of the development as determined in comparison to city park standards. Equipment in a private park shall comply with city standards applicable to the type of equipment. When private park land is also compensating open space, these requirements prevail over any contrary requirements of section 42-182 of this Code.

b. Up to a maximum of 100 percent of the total requirement credit shall be given for each acre or portion thereof of private park land provided within the subdivision generating the dedication requirement attributable to lots that are for the provision of low and moderate income single family housing as determined pursuant to section 47-319(2) of this Code. If credit is given on a subdivision plat for low and moderate income single family housing, the property owner shall certify prior to the issuance of a building permit for the house that the initial purchase price does not exceed the latest available 12-month listing for median price single family housing in the city as published by the Real Estate Center at Texas A&M University. In the event the initial purchase price exceeds this amount, the property owner making the certification shall pay to the city the then-current fee in lieu of dedication for a single family dwelling unit. If publication of the median price for single family housing is discontinued by the Real Estate Center at the Texas A&M University, the mayor is authorized to select another publication that lists the median price of single family houses in the city.

c. Up to a maximum of 100 percent of the total requirement credit shall be given for each acre or portion thereof of park land provided as a

greenbelt along a creek bed or around the perimeter of the subdivision or development generating the dedication requirement, including improvements to a hike or bike trail that meet city standards.

d. Up to a maximum of 100 percent of the total requirement credit shall be given for each acre or portion thereof of park land that links one or more parks.

(c) Credits are cumulative, but in no case other than as provided in subitems b and d above shall credits given under this section exceed 100 percent.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013)

Sec. 42-255. Park and recreation dedication fund.

(a) There is hereby established a special fund for the deposit of all sums paid in lieu of land dedication under this division, which fund shall be known as the "Park and Recreation Dedication Fund." Funds shall only be released from the Park and Recreation Dedication Fund upon approval by the city council of a plan to utilize the funds to build or enhance a park within the park sector from which the funds originated.

(b) The city shall account for all sums paid in lieu of land dedication under this division with reference to the individual subdivisions or developments that generate the dedication requirement. Any funds paid for such purpose must be obligated by the city within three years after the completion of the contributing subdivision or development, or the completion of the final phase or section of the respective subdivision or development. If the funds cannot be encumbered within the initial three year time period, the parks director may request from the city council a time extension for a period not to exceed an additional one year for the expenditure of the funds. If the extension request is granted and the funds cannot be expended within the one-year extension, the parks director may request from the city council an additional one year extension. Each extension request shall be submitted in writing by the parks director 60 days prior to the expiration period for the funds to be committed by the city, and shall include a detailed justification for the extension request. The owners of the property on the last day of the initial three year period, or any extension thereof, shall be entitled to a pro rata refund of the sum, computed on a dwelling unit basis. The city shall give notice to the owner of the property as shown on the most recent certified tax roll of the county in which the property is located of the right to a refund and the procedure to claim a refund. Notice shall be given by letter deposited into the United States Postal Service, postage paid, and shall be deemed given on the date of deposit into the United States Postal Service. The owners of the property must request a refund within one year of notice entitlement. Such request must be made in writing to the parks director, or such right shall be barred.

(c) Where funds have been paid or a dedication for a phased development has been made in accordance with section 42-254 of this Code, and the original developer does not complete all phases of the entire development, credit for any prior dedication or payment shall be applied to subsequent subdivision plats or development plats for the same land on a pro-rata basis by dwelling unit. Increased density shall require the dedication of additional parkland or payment of additional fees.

(d) Moneys in the park dedication fund shall be used for the acquisition and improvement of parks and shall not be used for park maintenance or city staff overhead expenses. Indirect costs reasonably incurred in connection with park acquisition and improvement, such as appraisal fees, environmental assessment costs, legal expenses, engineering and design costs, shall be limited to not more than five percent of total acquisition or improvement cost.

(e) For purposes of this section only, a park is defined as either of the following: (i) park as defined in section 42-1 of this Code, or (ii) an area open to the public that may be used for passive or active recreational use or otherwise left in an unimproved state, and on which the city may construct or place improvements pursuant to a written agreement.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2019-1028, § 3, 12-11-2019)

Sec. 42-256. Park location standards.

A goal of this article is to ensure that parks are easy to access, can be linked with nearby park and recreational facilities, and are generally open to public view or accessible by easement so as to benefit area development, enhance the visual character of the city, protect public safety and minimize conflict with adjacent land uses. Land proposed to be dedicated for parks shall meet the following location standards:

(1) Where physically feasible, parks should be bound by streets or by other public uses (e.g., school, library, recreation center) to facilitate access and possible joint use.

(2) Where residential lots directly abut a park, consideration should be given to future owners' access to the facility and protection from future park uses, such as lighting and noise.

(3) Street or pedestrian connections to existing and future adjoining subdivisions, private parks or park amenities are desirable to provide reasonable access to parks and private parks.

(4) Where a proposed subdivision would block or limit access to a park, access ways of not less than ten feet in width may be required through the private development to provide public access to the park. Any easement or private park provided for this purpose will be credited toward any land dedication requirement.

(5) The land must comply with the Parks Master Plan.

(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013)

Sec. 42-257. Park land acceptance standards.

(a) The city council reserves the right to accept or reject an offer of dedication, after consideration of the recommendation of the parks director, and to require the payment of fees in lieu of dedication as provided herein in section 42-254 of this Code.

(b) Land dedicated for park and recreational areas shall be of such size, dimensions, topography and general character as is reasonably required by the city for the type of use necessary to meet the requirements of park facilities as identified for that geographic sector in the city's most current Parks Master Plan.

(c) Land proposed to be dedicated for parks generally shall meet the following requirements. The parks director may recommend the acceptance of the dedication of property that does not meet these criteria if the property is adjacent to an existing park or other public space, provides access to a park, or otherwise presents an opportunity to enhance the city parks system consistent with the Parks Master Plan.

(1) *Minimum size and configuration standards.*

a. Unless determined otherwise by the parks director pursuant to subsection (f) of section 42-252 of this Code, the minimum size of land dedicated for a park in the area within and bounded by Interstate Highway 610 shall be one acre.

b. Unless determined otherwise by the parks director pursuant to subsection (f) of section 42-252 of this Code, the minimum size of land dedicated for a park in the area outside of Interstate Highway 610 shall be two acres.

c. Land dedicated for a park shall constitute a contiguous piece of property of such dimensions that it can physically accommodate the types of improvements associated with the park type in the Parks Master Plan.

(2) *Location and access standards.*

a. The land shall meet the applicable location requirements of section 42-256 of this Code.

b. The land shall have connectivity to a public street appropriate for the size and use of the park.

(3) *Physical characteristics standards.*

a. The land shall be vacant and cleared of nonvegetative material and shall contain no conditions that could constitute a violation of chapter 10 of this Code.

b. The land shall not have severe slopes or unusual topography that would not allow the park to be used for its intended purpose without recontouring the property.

(4) *Minimum environmental conditions standards.* Unless provided otherwise in rules promulgated by the parks director, the land shall be reasonably free of recognized environmental conditions. If land is proposed to be dedicated by subdivision plat, prior to submittal of an application for final subdivision plat approval the applicant shall submit either a phase I environmental assessment that shows no environmental conditions exist on the property or a phase II environmental assessment that shows no remediation is required.

(d) Land in a federally designated floodplain or floodway may be dedicated as park land if the land otherwise meets the acceptance standards for park land of this section and any rules promulgated by the parks director.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013)

Sec. 42-258. Minimum park improvement standards.

Prior to acceptance by the city and prior to the filing of the final subdivision plat, any park land dedicated to the city or developed as a private park for credit against park land dedication under this division shall meet the standards developed by the parks department. Any improvements provided by the developer to park land shall comply with applicable regulations and codes set forth for such improvements.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013)

Sec. 42-259. Administration.

(a) This article shall be administered by the planning department as part of the subdivision process within the city limits, in cooperation with the parks department. The parks board shall have the authority to manage and expend funds in accordance with the city's adopted parks master plan, the capital improvements plan for parks, and related official documents to the extent authorized by the city council for that purpose.

(b) The parks director is authorized to promulgate guidelines for the administration of this article that are consistent with the requirements of this article.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013)

Secs. 42-260—42-270. Reserved.

DIVISION 8. RESIDENTIAL BUFFERING STANDARDS

Sec. 42-271. Applicability.

(a) The requirements of this division shall apply to all abutting developments within the city except as provided below. An addition to an existing abutting development shall be treated as though only the addition is a new development. The provisions of section 42-162 relating to reconstruction after casualty shall apply to this division.

(b) The requirements of this division shall not apply to any of the following:

(1) An abutting development that is contiguous to or takes access from a major thoroughfare or transit corridor street;

(2) An abutting development that is contiguous to or takes access from both a local or collector street and a major thoroughfare or transit corridor street; or

(3) An abutting development located within a major activity center.
(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2023-64, § 3, 1-25-2023, eff. 2-25-2023)

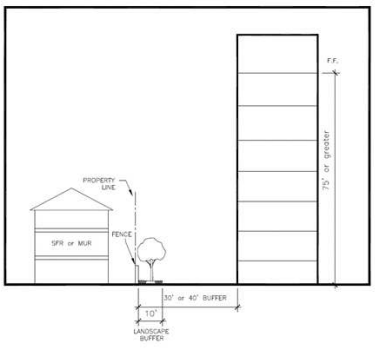
Sec. 42-272. Abutting development standards.

(a) The following standards shall apply to a high-rise or mid-rise structure located on an abutting development that is contiguous to or

takes access from a public street, except as provided in section 42-271(b). For purposes of this section, a private roadway shall be treated as: (i) a major thoroughfare if it intersects a major thoroughfare; (ii) a collector street if it intersects a collector street and not a major thoroughfare, or (iii) a local street if it does not intersect a major thoroughfare or a collector street.

(1) An abutting development shall provide a buffer area from any side of a property line that abuts lots or tracts in use for or restricted to single-family residential use or multi-unit residential use if the majority of the lots or tracts abutting the shared side property line are in use for or restricted to single family residential or multi-unit residential use, and 60% or more of the length of the shared property line is in use for or restricted to single family residential or multi-unit residential use. No structure or covered parking may be located within the buffer area. The buffer area may be used for vehicular access and surface parking.

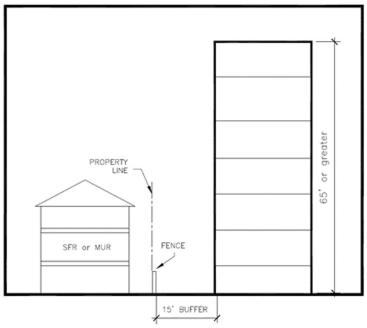
a. For an abutting development with a high-rise structure that is required to provide a buffer area, and is contiguous to or takes access from a collector street, the buffer area shall be 30 feet from the property line of the abutting property in use for or restricted to single-family residential or multi-unit residential uses.



BUFFER FOR HIGH-RISE

b. For an abutting development with a high-rise structure that is required to provide a buffer area and is contiguous to or takes access from only local streets, the buffer area shall be 40 feet from the property line of the abutting property in use for or restricted to single-family residential or multi-unit residential uses.

c. For an abutting development with a mid-rise residential structure that is required to provide a buffer area and is contiguous to or takes access from a local street only, the buffer area shall be 15 feet from the property line of an abutting property in use for or restricted to single family residential or multi-unit residential uses.



BUFFER FOR MID-RISE

d. No buffer area is required for buildings less than 65 feet in height.

(2) The buffer area required for high-rise structures shall include a ten-foot landscape buffer from the property line of the abutting development. The landscape buffer shall include:

a. An eight-foot tall solid masonry wall along the property line or an eight-foot tall wooden fence if a utility easement runs along the property line;

b. Grass, shrubs, other vegetation, or non-vegetative permeable cover with no paving or other impervious cover within the landscape buffer;

c. No mechanical equipment; and

d. At least one tree, planted or preserved, for every 20 feet of the length of the side of the property line. The trees shall be arranged throughout the landscape buffer to provide additional screening to adjacent single-family or multi-unit residential uses and avoid damage to existing plant material. Possible arrangements include planting in parallel, serpentine, or broken rows. Each tree shall have a minimum caliper of 1.5 inches, and be a species listed on the street tree list or parking lot tree list issued and revised by the director of parks and recreation pursuant to article V of Chapter 33. Compliance with this subsection is not required where a utility easement runs along, over or on the shared property line.

Compliance with this subsection shall satisfy the requirements of section 33-128 of this Code.

(b) The commission is authorized to grant a variance or special exception to the requirements of this section in accordance with the provisions of sections 42-81, 42-82, and 42-83. (Ord. No. 2013-343, § 3(Exh. A), 4-24-2013; Ord. No. 2023-64, § 4, 1-25-2023, eff. 2-25-2023)

Sec. 42-273. Major activity center designation.

(a) The city council may designate any area within the city as a Major Activity Center that meets each of the following criteria:

(1) The area contains two or more major thoroughfares or abuts a freeway, tollway, or transit corridor street;

(2) The area is comprised of at least 400 acres of land;

(3) The area is comprised of at least 10,000,000 square feet of gross floor area developed for uses other than single-family residential use;

(4) Not more than three percent of the area is in use for or restricted to single-family residential use;

(5) The area contains properties used for two or more of the following uses: office, commercial, institutional, or multi-family.

(6) The area is comprised of contiguous tracts and contains no out tracts as determined by the director in his sole professional judgment.

(b) The city council may expand the boundaries of a MAC to include any area abutting the MAC if the boundaries of the MAC as expanded continue to satisfy the criteria of subsection (a) of this section.

(c) An application for the designation or expansion of a MAC shall be filed with the department by one or more owners of property within an area that meets the criteria of subsection (a) of this section, and shall be made on an application form provided by the department. The director shall forward applications that meet the criteria of subsection (a) of this section to the commission which shall hold a public hearing on the application.

(d) The director shall cause notice to be given of a public hearing before the commission to each owner of property within the proposed MAC or area proposed to be added to a MAC and each owner of property in use for or restricted to single-family residential use within 250 feet of the proposed area as shown on the current appraisal district records. Notice shall be given by United States mail no later than 30 days before the date of the public hearing. The applicant shall give notice of the public hearing before the commission by posting at least two signs within the boundaries of the proposed MAC no later than 30 days before the date of the public hearing. The signs shall be placed at locations selected by the director as reasonably calculated to be seen by occupants of property within the proposed MAC and facing at least one public right-of-way. Each sign shall be a minimum of four by eight feet in size, and shall contain at a minimum the following items of information:

(1) That the area is being considered for designation as a MAC;

(2) A general description of the area being considered for designation;

(3) The date of the public hearing on the designation; and

(4) The name and telephone number of a person within the department who can be contacted for additional information.

If the director, in his sole discretion, determines that the size, configuration, traffic patterns or other characteristics of the proposed area warrant the placement of additional signs, the director shall cause an appropriate number of additional signs to be posted. All costs associated with the notice provisions of this section are to be paid by the applicant.

(e) After the close of the public hearing, the commission shall vote on whether to recommend to the city council the designation of the proposed area that meets the criteria of subsection (a). If the commission votes to recommend the designation of the proposed area, by majority vote of those members present and voting, the director shall forward the recommendation to city council for consideration. If the commission does not vote to recommend the designation of the proposed area, the action of the commission with respect to the application is final. If the commission does not recommend designation of an area as a MAC or as an addition to a MAC, the department shall not accept an application for designation of the same or substantially the same area for one year following the date of the commission action.

(f) Upon receipt of the recommendation of the commission, the city council shall hold a public hearing on the recommendation. After the close of the public hearing the city council shall consider the recommendation of the commission and, consistent with the criteria of subsection (a), approve or deny the proposed designation. The decision of the city council with respect to a designation shall be final. If the city council does not designate an area proposed as a MAC, the department shall not accept an application for designation of the same or substantially the same area for one year following the date of the city council action.

(Ord. No. 2013-343, § 3(Exh. A), 4-24-2013)

Secs. 42-275—42-600. Reserved.

ARTICLE IV. ENHANCED PEDESTRIAN REALM STANDARDS*

DIVISION 1. IN GENERAL

Sec. 42-601. Purpose and applicability.

(a) This article applies to any person or entity seeking approval for a building permit, certificate of occupancy, or other construction permit or approval required by this Code along a walkable places street or transit-oriented development street when one or more of the following is filed:

(1) A development plat;

(2) A building permit subject to the code compliance review in section 10-2 of this Code;

(3) A sidewalk plan required under article XXII of Chapter 40 of this Code;

(4) A landscape plan required under section 33-122 of this Code;

(5) A site plan required under section 26-473 of this Code; or

(6) A driveway permit.

(b) This article establishes standards to facilitate how people interact with the built environment and to implement successful context-sensitive, pedestrian- and bike-friendly development that also accommodates automobiles.

(c) This article establishes standards to encourage the development of safe pedestrian and multi-modal transportation routes for new development and certain redevelopment or alterations to structures fronting on all transit-oriented development and walkable places streets.

(d) These standards are to establish consistent public realm design and reinforce safe, pleasant walking experiences for pedestrians of all ages

*__Editor's note—__Ord. No. 2020-684, § 2(Exh. A), adopted August 5, 2020, removed and replace ch. 42, Art. IV, in its entirety to read as herein set out. Former Art. IV pertained to Transit Corridor Development and derived from Ord. No. 2013-343, § 3(Exh. A), 4-24-2013.

and abilities. At a minimum, these standards provide a pedestrian-scale buffer area from vertical surfaces or walls and allows people to interact with or enter/exit buildings with minimal interference with vehicular traffic.
(Ord. No. 2020-684, § 2(Exh. A), 8-5-2020)

Sec. 42-602. Cumulative effect.

Except as expressly provided, the provisions of this article are cumulative of all other provisions of this Code, and other regulations of the city, including without limitation, the Construction Code, the Fire Code and the design manual, and all applicable state and federal laws and regulations.
(Ord. No. 2020-684, § 2(Exh. A), 8-5-2020)

Sec. 42-603. Pedestrian realm plan.

(a) An applicant shall submit a pedestrian realm plan to the department prior to obtaining a certificate of occupancy or a building permit, or in conjunction with a development plat required by chapter 42 of this Code. This plan shall:

(1) Be accompanied by the non-refundable fee set forth for this provision in the city fee schedule when the plan is not submitted in conjunction with a development plat;

(2) Be in the form prescribed by the planning official; and

(3) Describe the proposed pedestrian realm, including the locations of existing and proposed sidewalks, pedestrian amenities and improvements, obstructions, utility lines (both above and below ground), roadways, street lights, required street trees, landscape elements, hardscape, softscape, construction details, and other

information required by the planning official or the city engineer to determine compliance with this article.

(b) Upon receipt of a complete pedestrian realm plan, the planning official shall review the plan to verify compliance with this article. The planning official shall deny in writing any plan that does not comply with the requirements of this article.

(c) The building official shall not issue a building permit for the construction of a building or alteration to a building or tract within the city unless the planning official approves the pedestrian realm plan verifying compliance with this article.
(Ord. No. 2020-684, § 2(Exh. A), 8-5-2020)

Sec. 42-604. Modification of standards, process.

(a) The planning official, in collaboration with the city engineer, may approve a modification to the standards of section 42-621, 42-651, or 42-653 of this Code.

(b) To request approval for a modification, an applicant shall:

(1) File an application in the form prescribed by the planning official;

(2) Pay the non-refundable fee set forth for this provision in the city fee schedule and all costs associated with the notice provisions of this section; and

(3) Provide documentation to support the required findings in subsection (c) of this section.

(c) In collaboration with the city engineer, the planning official shall approve the application, with or without conditions, if the following conditions exist:

(1) Either:

a. The characteristics of existing permitted development, land uses, or other physical conditions within the immediate vicinity of the pedestrian realm create unsafe conditions related to the practical use of the property; or

b. The standard creates an impractical design or a development that is otherwise contrary to sound public policy. A modification to the standard would, in the sole professional judgement of the planning official and city engineer, create a more practical or technically feasible alternative.

(2) The circumstances supporting the approval are not the result of hardship created or imposed by the applicant; and

(3) Approval creates an alternative that furthers the intent and purposes of this article.

(d) The planning official shall conduct their review and advise the applicant of a decision or request more information within 30 days from the date a complete application is submitted to the planning official.
(Ord. No. 2020-684, § 2(Exh. A), 8-5-2020)

Secs. 42-605—42-620. Reserved.

DIVISION 2. PEDESTRIAN REALM

Sec. 42-621. Pedestrian realm standards.

(a) The pedestrian realm shall comply with all the following standards, unless a modification is granted under section 42-604 of this Code:

(1) Meet the minimum width standards shown below:

Classification	*Street Type*	*Minimum Width of the Pedestrian Realm*
WP Street	All	As established by the walkable places plan
Transit Corridor Street	Only one vehicular through traffic lane in each direction	15 feet
	All others	20 feet

Classification	*Street Type*	*Minimum Width of the Pedestrian Realm*
TOD Street	Major thoroughfare with a right-of-way width of 80 feet or less as designated by the MTFP	15 feet
	All other major thoroughfares	20 feet
	Any street that is not curb and gutter	10 feet measured from the functional edge furthest from the roadway of an adequate drainage facility, as approved by the city engineer
	All others	15 feet

(2) Any building constructed within the pedestrian realm above-grade shall be prohibited from having support columns within the minimum width requirement of the pedestrian realm and must maintain an unobstructed vertical clearance of at least:

a. 8 feet for any uninhabitable shade structure or unenclosed balcony; and

b. 10 feet for all other buildings or structural elements built over the pedestrian realm.

This vertical clearance is measured from the top of the highest point of the ground or sidewalk of the pedestrian realm under the building or structure to the lowest point of the building or structure over the pedestrian realm;

(3) Meet the landscaping requirements of articles V and VI of chapter 33 of this Code, except that the minimum caliper of each required street tree, as the terms are defined in section 33-101 of this Code, shall be:

a. Three inches along each transit corridor street or major thoroughfare; and

b. Two inches along all other streets.

(4) The maximum softscape area in the pedestrian realm shall be 35% of the surface area of the pedestrian realm excluding any driveways. This requirement shall not apply to single-family residential uses; and

(b) Any fence, wall, or barrier within the pedestrian realm shall be 48 inches or less in height and non-opaque.

(c) Any sidewalk and safety buffer within the pedestrian realm shall conform with the requirements of article XXII of chapter 40 of this Code.

(d) Any bulk container, as the term is section 39-1 of this Code, and related screening for compliance with article VI of chapter 39 of this Code shall be located outside of the pedestrian realm.

(e) The area in the pedestrian realm outside the unobstructed sidewalk may accommodate activities such as outdoor seating or merchant displays associated with adjacent uses provided, however, that such activities within the public right-of-way shall comply with the applicable requirements of this Code.
(Ord. No. 2020-684, § 2(Exh. A), 8-5-2020)

Sec. 42-622. Automobile-related uses.

Automobile-related uses are prohibited within the pedestrian realm, except for:

(1) A driveway through the pedestrian realm that is perpendicular to the street;

(2) A pedestrian drop-off and loading area along a secondary street that is beyond the minimum pedestrian realm width required by this division and approved by the traffic engineer;

(3) A pedestrian drop-off and loading area along a primary street that is beyond the minimum pedestrian realm width required by this division when, in the professional judgement of the planning official made in coordination with the traffic engineer, unique traffic circulation conditions exist in the area that

make it impractical to have a pedestrian drop-off and loading area along a secondary street;

(4) On-street cutback parking or on-street pedestrian drop-off and loading area approved by the traffic engineer where a minimum pedestrian realm width of ten feet is maintained behind the back-of-curb adjacent to the cutback parking or pedestrian drop-off and loading area; and

(5) Parking or other related uses constructed below-grade or sidewalk of the pedestrian realm.

(Ord. No. 2020-684, § 2(Exh. A), 8-5-2020)

Secs. 42-623—42-650. Reserved.

DIVISION 3. ADDITIONAL BUILDING AND SITE DESIGN STANDARDS

Sec. 42-651. Ground floor façade.

The ground floor façade of buildings used for other than single family residential occupancy shall comply with the following standards, unless a modification is granted under section 42-604 of this Code:

(1) A minimum of 50% of the ground floor façade of a building with linear street frontage along a primary street shall be transparent openings such as windows or doors into occupiable space.

(2) A minimum of 40% of the ground floor façade along a secondary street shall be transparent openings such as windows or doors into occupiable space.

(3) When a building has facades on three or more streets designated as a transit-oriented development street or walkable places street, the applicant may designate, in writing to the planning official, one secondary street frontage to be exempted from the requirements of this section.

(Ord. No. 2020-684, § 2(Exh. A), 8-5-2020)

Sec. 42-652. Public entrances and doors.

(a) A non-single-family residential building constructed adjacent to the pedestrian realm of a walkable places street or transit-oriented development street subject to this article shall provide and maintain at least one public entrance to the pedestrian realm.

(b) No door to a building or structure, other than a door used only for emergency access, shall swing into the minimum unobstructed sidewalk within the pedestrian realm.

(Ord. No. 2020-684, § 2(Exh. A), 8-5-2020)

Sec. 42-653. Driveway locations and dimensions.

The following standards apply to driveway locations and dimensions unless a modification is granted under section 42-604 of this Code:

(1) The minimum distance between driveways along a walkable places street or transit-oriented development street shall be 300 feet where one or more lots on the same street are under one ownership, legal interest, or common control, except that:

a. When a lot has linear street frontage along more than one street, no new driveway shall be permitted along a primary street. If two or more streets are designated as a primary walkable places or transit-oriented street, then the applicant may select one street where the driveway standards otherwise required by the section may apply; and

b. A lot that has linear street frontage along three or more walkable places streets or transit-oriented development streets may have one non-primary street that is exempt for the driveway standards of this section.

(2) The maximum width of a driveway shall be 30 feet for a two-way driveway or 15 feet wide for two one-way driveways.

(3) When there is an existing driveway along a primary street, the applicant may modify

or relocate the driveway(s) and have one driveway from the primary street in accordance with the distance and width requirements of this section.

(Ord. No. 2020-684, § 2(Exh. A), 8-5-2020)

Sec. 42-654. Bicycle parking.

(a) For all classifications listed under classes 1 - office, 6 - recreation and entertainment, 7 - food and beverage, and 8 - retail services in section 26-492 of this Code, two bicycle spaces shall be required for each 10,000 square feet of gross floor area up to 150,000 square feet of GFA.

(b) One bicycle space shall be required for every 20 dwelling units in an apartment, as those terms are defined in section 26-472 of this Code.

(c) Bicycle spaces required by this section shall conform to the design criteria of section 26-583 of this Code.

(d) This section shall prevail over the minimum number of bicycle spaces otherwise required by this Code.

(Ord. No. 2020-684, § 2(Exh. A), 8-5-2020)

Secs. 42-655—42-700. Reserved.

Chapter 43

POOL AND SPA SAFETY*

Art. I. **Generally, §§ 43-1—43-30**
Art. II. **Permits, Inspections, Enforcement, Etc., §§ 43-31—43-39**

ARTICLE I. GENERALLY

Sec. 43-1. General policy.

It shall be the general policy of the City of Houston Health Department to enforce the most stringent pool safety standards permitted by law. The health officer may refer those matters involving state or federal laws, rules or regulations that the city is not authorized to enforce to the state or federal office or agency having jurisdiction.
(Ord. No. 2010-908, § 2(Exh. A), 11-17-2010, eff. 1-1-2011; Ord. No. 2015-820, § 34, 8-26-2015)

Sec. 43-2. Definitions.

The following words and terms when used in this chapter shall have the following meanings unless the context clearly indicates otherwise.

Abate means to remove or demolish and shall include filling an aquatic structure to the surface with earth, bank sand or other similar material approved by the health officer.

Approved drain cover means a suction outlet drain cover that meets the requirements of the VGBA.

Aquatic structure means a pool, spa, PIWF or residential pool or spa.

Department means the Houston Health Department.

Facility means a pool, spa or PIWF and the restrooms, dressing rooms, equipment rooms, deck, enclosure, and other appurtenances directly serving the pool, spa or PIWF.

Inactive aquatic structure means an aquatic structure that is not functioning, operating, or in use, or that has been abandoned but not abated.

Operator means the owner of the property upon which an aquatic structure is located, or any business manager, complex manager, manager of a property owners association, rental agent or other individual who is in charge of the day-to-day operation or maintenance of an aquatic structure or the property on which it is located.

Permit means an operating permit for a facility issued by the department pursuant to this chapter.

Person in charge means an individual who is i) actually present or available at a facility at a given moment and is in immediate charge of the day-to-day operation or maintenance of the facility, ii) the supervisor of the facility at the time, or iii) the operator.

Pool means any man-made permanently installed or non-portable structure, basin, chamber, or tank containing or designed to contain a body of water to be used for human swimming, diving, aquatic sports, or other aquatic activity, including any pool that is categorized as a Class A, Class B, or Class C public pool pursuant to Section 265.182(76) of Title 25 of the Texas Administrative Code, regardless of whether a fee is charged for use, and regardless of whether its use has been abandoned or discontinued; provided, however, that this term does not include a residential pool or spa or a pool that has been abated.

***Editor's note—**Ord. No. 2010-908, § 2(Exh. A), adopted November 17, 2010, effective January 1, 2011, amended Ch. 43 in its entirety to read as herein set out. Formerly said Chapter was entitled swimming pools and derived from Code 1968, §§ 36-144—36-150; Ord. No. 85-1326, § 1, 7-31-85; Ord. No. 90-635, §§ 144, 145, 5-23-90; Ord. No. 92-184, § 1, 2-19-92; Ord. No. 94-1268, § 4, 11-22-94; Ord. No. 96-732, § 1, 7-17-96; Ord. No. 02-399, § 89, 5-15-02; Ord. No. 02-528, § 13e., 6-19-02. See the Code Comparative Table.

Cross references—Buildings generally, Ch. 10; health generally, Ch. 21; fencing or filling of abandoned swimming pools, § 28-12.

PIWF (public interactive water feature and fountain) means any indoor or outdoor water installation maintained for public recreational use, including but not limited to water sprays, dancing water jets, waterfalls, dumping buckets, or shooting water cannons in various arrays.

Property owners association means an association of property owners as defined in Section 204.004 of the Texas Property Code.

Remodeled or remodeling means modification of the design, configuration, capacity or components of an aquatic structure, including, but not limited to, reconfiguration of a pool or the addition of new plumbing and filtration pipes to an aquatic structure; provided, however, that this term does not include minor alterations, such as removal of a pool lip, replacing a pump, or replastering the inside of such structure.

Residential pool or *spa* means a pool or spa that is located on private property under the control of the property owner or the owner's tenant and that is intended for use by not more than two resident families and their guests, including a pool or a spa serving only a single-family home or duplex.

Spa means a body of water intended for the immersion of persons in either hot or cold water, circulated in a closed system, and not intended to be drained and refilled after each use. A spa can include a filter, a heater, a pump, a blower and water sanitizing equipment. The term includes a swim spa or exercise spa, including any spa that is categorized as a Class A, Class B or Class C spa pursuant to Section 265.182(94) of Title 25 of the Texas Administrative Code.

VGBA means the Virginia Graeme Baker Pool and Spa Safety Act, 15 U.S.C. Section 8001 et seq.

(Ord. No. 2010-908, § 2(Exh. A), 11-17-2010, eff. 1-1-2011; Ord. No. 2015-820, §§ 29, 34, 8-26-2015; Ord. No. 2021-1037, § 20(Exh. I.48), 12-1-2021, eff. 4-1-2022)

Sec. 43-3. Responsibilities of operator.

(a) It shall be the responsibility of an operator to ensure that an aquatic structure is in full compliance with the applicable provisions of this chapter and the terms and conditions of any permit issued under this chapter.

(b) Each operator of a facility shall ensure that a person in charge is available during all hours of operation. The responsibilities of the operator under this subsection shall also apply to any other person having possession or control of the operation of the facility.

(Ord. No. 2010-908, § 2(Exh. A), 11-17-2010, eff. 1-1-2011)

Sec. 43-4. Applicability of chapter; inspection and compliance; penalty for violation.

(a) Unless a variance is granted pursuant to section 43-7 of this Code, all provisions of this chapter shall apply to aquatic structures. No aquatic structure shall be operated within the city unless it conforms to the requirements of this chapter.

(b) The operator of a facility shall maintain on site a water quality testing device or kit capable of accurately testing for and measuring pH and disinfectant levels within certain chemical ranges in accordance with section 43-6 of this Code. Operational records of testing results and maintenance activities, including documentation of approved drain covers, shall be retained on site at a facility for not less than two years. However, to the extent that state or federal law requires a more lengthy record retention period, the records shall be retained for the entirety of the state or federally-mandated period.

(c) The health officer may inspect all aquatic structures to protect the public health and to ensure compliance with the provisions of this chapter; provided that in any case in which permission to inspect is denied, the health officer shall obtain an administrative search warrant.

(d) Except as provided in subsection (e), any person who violates any provision of this chapter, any rule or regulation promulgated by the health officer or any applicable state law, rule or regulation regarding pool safety shall be guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not less than $250.00 nor more than $2,000.00 for the first conviction. For any succeeding conviction, such person shall

be fined not less than $500.00 nor more than $2,000.00. Each day that a violation continues shall constitute a separate offense.

(e) Notwithstanding any other provision of this chapter, the penalty for a violation of section 43-33(b) of this Code shall not exceed $1,000.00. (Ord. No. 2010-908, § 2(Exh. A), 11-17-2010, eff. 1-1-2011)

Sec. 43-5. Residential pool or spa: minimum standards.

No permit is required to operate a residential pool or spa. Notwithstanding the foregoing, the operator of a residential pool or spa shall:

(1) Maintain the water clarity standards so that an eight-inch black disk on the residential pool or spa floor at its deepest point can be clearly seen by an observer standing on the deck at a point closest to the disk;

(2) Maintain the water so as to prevent the breeding or harborage of insects;

(3) Maintain the water free of any odor that is foul or offensive to a person of reasonable sensibilities;

(4) Keep the water free of algae; and

(5) Maintain and operate the residential pool or spa in a manner that ensures no danger to human health or welfare or hazard to the public health.

(Ord. No. 2010-908, § 2(Exh. A), 11-17-2010, eff. 1-1-2011)

Sec. 43-6. Aquatic structures: Minimum standards.

(a) Except as provided in subsection (b) of this section, the city adopts minimum standards for aquatic structures that are identical to or stricter than those pool safety standards contained in the following state and federal laws, all of which are incorporated herein:

(1) The VGBA;

(2) Chapter 757 of the Texas Health and Safety Code, as it relates to facilities;

(3) Subchapters L and M of Chapter 265 of Title 25 of the Texas Administrative Code, as it relates to facilities; and

(4) That volume of the *Construction Code* known as the *Swimming Pool and Spa Code*.

(b) The provisions of Section 265.211 of Title 25 of the Texas Administrative Code shall not apply to enforcement of this chapter.

(c) The operator of an aquatic structure shall maintain the aquatic structure in accordance with the pool safety standards adopted by the city pursuant to subsection (a) of this section. Any inconsistency between the requirements of this article and subsection (a) shall be resolved in favor of the more restrictive requirement. (Ord. No. 2010-908, § 2(Exh. A), 11-17-2010, eff. 1-1-2011; Ord. No. 2021-1037, § 20(Exh. I.49), 12-1-2021, eff. 4-1-2022)

Sec. 43-7. Variances.

(a) A person may request a variance from one or more requirements of this chapter by submitting to the health officer documentation of the proposed variance, including citations to the applicable chapter provisions and an explanation of how the potential public health hazard will be alternatively addressed by the proposal.

(b) The health officer may consider and grant variances from the provisions of this chapter when the health officer determines that the following conditions exist:

(1) The imposition of the terms or standards of this chapter would deprive the applicant of the reasonable use of the aquatic structure;

(2) The circumstances cited in support of the variance are not the result of a hardship imposed or created by the applicant;

(3) The alterations proposed in the variance request will ensure that the general purposes of this chapter are observed and maintained; and

(4) The granting of a variance will not be injurious to the public health, safety or welfare.

(c) Any variance granted under this section will apply only to the specific property and use requested by the applicant. All variances shall i) be in writing, ii) contain the findings upon which the variance was approved, iii) be signed by the health officer and iv) be maintained as a permanent record of the department.

(d) This section shall not be construed in any way to excuse any operator from compliance with state or federal laws, rules or regulations regarding pool safety or to limit the enforcement authority of state or federal officials with respect to state or federal laws, rules or regulations regarding pool safety or protection of the public health, safety or welfare.
(Ord. No. 2010-908, § 2(Exh. A), 11-17-2010, eff. 1-1-2011)

Sec. 43-8. Rules and regulations.

The health officer shall promulgate rules and regulations necessary to protect the health, safety and welfare of the public relating to the design, construction and installation of all aquatic structures. The rules and regulations shall conform to the applicable provisions of this Code and the Construction Code. In the event of a conflict between this Code and the Construction Code, the most restrictive provision shall control. A copy of the rules and regulations shall be provided to any person upon request.
(Ord. No. 2010-908, § 2(Exh. A), 11-17-2010, eff. 1-1-2011)

Sec. 43-9. Approval of plans and specifications.

(a) No aquatic structure shall be constructed, remodeled, or altered except in accordance with plans and specifications approved by the health officer. An applicant shall submit two sets of properly prepared plans and specifications for the construction, remodeling, or alteration of an aquatic structure, along with a nonrefundable plan review fee, to the health officer for approval before the construction, remodeling, or alteration is begun. The health officer shall approve the plans and specifications if they meet the applicable requirements. If the plans and specifications do not meet all applicable requirements, the health officer shall reject the plans and provide the applicant a written explanation of the discrepancies between the applicable requirements and the existing plans and specifications. An applicant whose plans and specifications have been rejected may resubmit a revised set of plans and specifications for review.

(b) The plans and specifications shall comply with this chapter and all other applicable laws, rules and regulations, including the Construction Code. The plans and specifications shall include, at a minimum, such elements as the proposed layout, arrangement, and construction materials of an aquatic structure and its components. One set of the approved plans and specifications shall be given to the owner or contractor responsible for the construction of the aquatic structure. A second set of approved plans and specifications shall remain on file with the health officer.

(c) Any proposed change to the proposed layout, arrangement, and construction materials of an aquatic structure and its components after the first set of plans and specifications have been approved by the health officer shall be shown on revised plans and specifications which shall be submitted to and reviewed by the health officer. Upon approval prior to any work related to such elements, the approved changes shall be added to the original plans and specifications.

(d) An aquatic structure may not be constructed so as to discharge its wastes into a sanitary sewer or other public drainage system unless such discharge is approved in writing by the health officer and the utility official.

(e) All portions of the water distribution system of an aquatic structure shall be protected against backflow from the water into the city's water supply system. The fill line used to introduce water to the aquatic structure shall have a backflow device on the discharge side of the last gate valve or a six-inch air gap at the end of the fill line. The fill line shall not be connected directly to any of the piping or equipment of the circulation system. A fill line from the water supply to prime the pump shall not be allowed.

(f) A pool or spa shall be equipped with approved drain covers.

(g) The health officer shall inspect an aquatic structure that has been constructed, remodeled or altered prior to its operation to determine compliance with the approved plans and specifications and with all other applicable requirements. A preoperational inspection fee will be assessed in conjunction with the inspection of an aquatic structure. An aquatic structure that fails to pass this inspection may not be operated or used.

(h) No permit shall be issued to or renewed for any aquatic structure for which outstanding fees are owed to the city.
(Ord. No. 2010-908, § 2(Exh. A), 11-17-2010, eff. 1-1-2011; Ord. No. 2021-1037, § 20(Exh. I.50), 12-1-2021, eff. 4-1-2022)

Sec. 43-10. Landlord/tenant.

The terms of this chapter shall not be construed to alter the terms of any lease or other agreement between landlord and tenant relating to property that is subject to this chapter; provided, however, that no lease or other agreement between landlord and tenant relating to property that is subject to this chapter shall be construed to excuse compliance by any person with this chapter or any applicable state or federal law, rule or regulation regarding pool safety.
(Ord. No. 2010-908, § 2(Exh. A), 11-17-2010, eff. 1-1-2011)

Secs. 43-11—43-30. Reserved.

ARTICLE II. PERMITS, INSPECTIONS, ENFORCEMENT, ETC.

Sec. 43-31. Permitting requirement.

(a) No person shall operate a facility without a permit issued by the health officer. An application for a permit shall be made on forms provided by the health officer and shall be accompanied by payment of the applicable permit fee. The information provided in the application shall include, at a minimum: i) the applicant's full name and post office address; ii) whether the applicant is an individual, firm, corporation or other type of entity, and, if a partnership, the names of the partners, together with their addresses; and iii) the location and type of proposed facility. If the health officer determines that the requirements of this chapter have been satisfied, a permit shall be issued to the applicant.

A permit shall be valid only for the location specified and may not be transferred to another location or to another owner of the property on which the facility is located. A copy of the permit shall be posted in view of the public, shall be valid for one year from the date of issuance and shall be renewed on or before the date of its expiration. A fee shall be imposed for reissuing a lost permit.

(b) If a permit renewal application is not received in the offices of the department in completed form and accompanied by the permit fee on or before the next business day after the date of expiration of the permit to be renewed, no renewal permit shall be issued prior to payment of a fee to defray the additional administrative costs associated with the permit renewal.

(c) The holder of a permit shall have a continuing duty to apply for an amended permit within thirty days after the occurrence of an event that causes a change in any information for which a representation or response was made in the original permit application. Failure to timely submit an application for an amendment shall cause the permit to become void. Applications for permit amendments shall be processed and amended permits shall be issued in accordance with the same criteria as original applications.
(Ord. No. 2010-908, § 2(Exh. A), 11-17-2010, eff. 1-1-2011)

Sec. 43-32. Compliance, inspections and investigations.

(a) The health officer shall inspect each facility within the city at least once every 12 months and shall make as many additional inspections as are necessary for the enforcement of this chapter, taking into consideration all public health risks posed by the facility, consumer complaints, reports of illness outbreaks or the facility's past compliance history. Upon request, the operator

shall provide the health officer with all records pertaining to the servicing, maintenance, and operation of the facility.

(b) The findings related to a facility inspection shall be recorded on an inspection report form, a copy of which report shall be provided for the person in charge of the facility. A copy of the inspection report shall be kept at the facility and may not be removed by any person except the health officer. The health officer shall maintain a copy of the inspection report in the departmental records.

(c) The inspection report form shall specify a specific time by which each violation must be corrected. The operator may be subject to criminal or civil penalties for a violation.

(d) Upon request of the operator of a facility, the health officer may allow an extension of the time in which to correct a violation. In determining whether to allow an extension and the length of the extension, the health officer shall consider the degree of risk, if any, posed by the violation and the time reasonably required to correct it. No extension shall be granted if the health officer determines that a significant risk is posed to the public.

(e) If the health officer determines that a reinspection is necessary to ascertain that the conditions responsible for a violation no longer exist, the operator shall be assessed a reinspection fee in conjunction with that reinspection.

(f) A facility that is required to or agrees to cease operations under the provisions of this section shall not resume operations until a reinspection by the health officer determines that the conditions responsible for the requirement to cease operations no longer exist.

(g) The health officer shall conduct all reinspections required under this section within a reasonable period of time. A permit shall not be renewed until all outstanding fees assessed under this chapter have been paid.
(Ord. No. 2010-908, § 2(Exh. A), 11-17-2010, eff. 1-1-2011)

Sec. 43-33. Enclosure of aquatic structures.

(a) The operator of a residential pool or spa shall at all times maintain an enclosure that consists of a man-made, permanently installed fence, wall or barrier completely surrounding and enclosing the residential pool or spa. A building or existing wall may be used as part of an enclosure constructed as required herein. The enclosure shall:

(1) Measure not less than four feet in height, with no openings, holes, or gaps larger than four inches as measured in any direction, except that such openings for a picket fence or a picket-type fence (one composed primarily of vertical members) shall be measured in a horizontal direction between members; and

(2) Include self-closing and self-latching devices on the upper quarter of all gates and doors opening directly into the enclosure, so that the doors or gates remain securely closed at all times when not in actual use, except that the door of any residential dwelling that forms any part of the enclosure need not be so equipped.

(b) The operator of an aquatic structure that is regulated by Chapter 757 of the Texas Health and Safety Code shall at all times maintain an enclosure that complies with those provisions of that chapter adopted by reference in section 43-6(a) of this Code, and the city may remedy violations of this subsection in accordance with the provisions of Section 214.101 of the Local Government Code, including the placement of a lien against the property to recover expenses incurred pursuant to remediation.

(c) The operator of an aquatic structure that is regulated by Subchapter L of Chapter 265 of Title 25 of the Texas Administrative Code shall at all times maintain upon such property an enclosure that complies with the requirements of Section 265.203 of that subchapter adopted by reference in section 43-6(a) of this Code.

(d) It shall be unlawful for the operator of an aquatic structure to fail to comply with this section. Each day that a violation continues shall constitute a separate offense. A violation of this section is also a violation of article IX of chapter 10 of this Code.

(e) Any person may advise the appropriate enforcement officer regarding an enclosure that is damaged, deteriorated, substandard, dilapidated or otherwise in a state that poses a hazard to the public health, safety and welfare.
(Ord. No. 2010-908, § 2(Exh. A), 11-17-2010, eff. 1-1-2011; Ord. No. 2021-1037, § 20(Exh. I.51), 12-1-2021, eff. 4-1-2022)

Sec. 43-34. Violation of minimum standards for aquatic structures.

(a) In the event of a violation of the minimum standards established by this chapter, the health officer shall provide written notice to the operator to abate, remove or otherwise remedy the violation immediately. The notice shall be given:

(1) By personal hand delivery to the operator;

(2) By letter addressed to the operator at the operator's post office address and sent by certified mail, return receipt requested; or

(3) If personal service cannot be obtained or the operator's post office address is unknown:

a. By posting the notice on or near the front door of each building on the property to which the violation relates; or

b. By posting the notice on a placard attached to a stake driven into the ground on the property to which the violation relates, if the property contains no buildings.

(b) If the operator does not abate, remove or remedy the violation within ten days of service or posting of a notice under this section, the health officer may enter the property where the violation is occurring and perform any work necessary to protect the public health, safety and welfare.

(c) Notwithstanding the notice provisions of this section, upon any determination that the immediate abatement of a violation is necessary to protect the public health, safety or welfare, the health officer may enter the property where the violation is occurring and perform or cause to be performed any work necessary to protect the public health, safety and welfare.

(d) Pursuant to the authority granted by Chapter 342 of the Texas Health and Safety Code, the city may charge all costs incurred by the city under this section in remediating water quality issues, including the cost of providing notice as required, to the owner of the property. The city may assess the expenses against the property where the work was performed and obtain a lien against the property in accordance with the procedure established in Chapter 342 of the Texas Health and Safety Code.

(e) The remedy provided by this section is in addition to all other remedies available under this chapter or as otherwise provided by the Code or state or federal law.
(Ord. No. 2010-908, § 2(Exh. A), 11-17-2010, eff. 1-1-2011)

Sec. 43-35. Enforcement and closures.

(a) The health officer is authorized to issue citations charging the violation of any of the provisions of this chapter, the *Swimming Pool and Spa Code,* and, to the extent authorized or permitted by law, any applicable state laws, rules or regulations regarding pool safety. In addition, the health officer may order an aquatic structure closed if the health officer determines:

(1) That it is being operated without a valid permit; or

(2) That the continued operation of the aquatic structure will constitute a hazard to the health or safety of persons using the aquatic structure or those in close proximity to the aquatic structure.

(b) Written notice of a closure order shall be provided to the operator of an aquatic structure. The notice shall:

(1) Set forth the specific conditions at the aquatic structure that constitute a hazard to public health; or

(2) Set forth the specific conditions at the aquatic structure that are in violation of this chapter, the *Swimming Pool and Spa Code,* federal or state laws, or rules or regulations regarding pool safety.

(3) Be sent by personal hand delivery, certified mail, or private delivery service, return receipt requested. If there is documented proof that these methods are not successful, the written notice of a closure order may be sent to the operator by email.

(c) Upon closure of an aquatic structure pursuant to this section, the person in charge of the aquatic structure shall immediately:

(1) Properly post and maintain signs at all entrances to the aquatic structure that state: "CLOSED UNTIL FURTHER NOTICE"; and

(2) Lock all doorways and gates that form a part of the aquatic structure enclosure, so that the aquatic structure is only accessible to maintenance or authorized personnel for repairs.

Signs required to be posted under this section shall be a minimum size of 8½ inches by 11 inches. The lettering shall be of a contrasting color to the background and not less than one inch in height. Signs shall be positioned so that they are readily visible to a person seeking entry to the aquatic structure.

(d) If the person in charge of the aquatic structure is absent or fails or refuses to comply with the requirements of subsection (b), the health officer may post signs and secure the premises in accordance with this section.

(e) A person commits an offense under this section if the person:

(1) Removes, defaces, alters, covers or renders unreadable a closure sign posted by the health officer; or

(2) Uses an aquatic structure subject to a closure order for swimming, diving or bathing; or

(3) Is a person in charge of an aquatic structure subject to a closure order and knowingly allows persons to use the aquatic structure for swimming, diving or bathing; or

(4) Is a person in charge of an aquatic structure subject to a closure order and fails to comply with the requirements of this section.

(f) The health officer shall notify the operator of a timeframe for reinspection after the health officer issues the closure order. If, upon reinspection any time before the end of the timeframe provided, it is found that the violations have been corrected, the health officer will lift the closure order. If the violations have not been corrected within the timeframe, and the operator has not received an approved extension, the closure order shall remain in place and the health officer may issue additional citations.

(g) An operator may appeal a closure order within ten days after receipt of notice of the closure order by filing a written statement with the health officer setting forth the reasons why the closure order should be rescinded. The filing of an appeal does not postpone or halt the closure order.

(h) If an appeal is not timely filed, the closure order shall remain in place pending the results of the reinspection scheduled pursuant to subsection (f) of this section. If the appeal is timely filed, a hearing shall be scheduled with written notice provided to the operator by personal hand delivery, certified mail, or private delivery service within five days after receipt of the appeal. If there is documented proof that these methods

are not successful, the written notice may be sent to the operator by email. The notice shall set forth:

(1) That a hearing will be held before a hearing officer;

(2) The date, time, and place of the hearing; and

(3) That the operator may appear in person or virtually, may be represented by counsel, and may present testimony and cross-examine all witnesses. The hearing shall be held not later than ten days after receipt of the appeal.

(i) All hearings shall be conducted by a person designated by the director of the department, who shall be referred to as the hearing officer. The director of the department shall not designate any person to perform the duties of hearing officer under this section who has participated in the inspection of the aquatic structure, or has prior knowledge of the allegations or circumstances discovered in the inspection or inspections, except that the person designated as hearing officer may, prior to the hearing, receive a copy of the closure order given to the operator.

(j) All hearings shall be conducted under rules consistent with the informal nature of the proceedings; provided, however, the following rules shall apply:

(1) Each party shall have the right to representation by a licensed attorney, although an attorney is not required.

(2) Each party may present witnesses on his own behalf.

(3) Each party has the right to cross-examine all witnesses.

(4) The hearing officer may consider only the evidence presented at the hearing in rendering the order.

(k) If the operator fails to appear at the hearing at the time, place, and date specified, the health officer shall present sufficient evidence to establish a prima facie case showing violation of this chapter or the *Swimming Pool and Spa Code,* or conditions constituting a hazard to public health that formed the basis of the closure order.

(l) If the hearing officer determines that the aquatic structure was operated in violation of this chapter, the Swimming Pool and Spa Code, federal or state laws, rules or regulations regarding pool safety, or constituted a hazard to public health, the hearing officer shall make written findings of fact and shall affirm the closure order. If the hearing officer finds that the public interest will be adequately protected by a warning or other penalties authorized under this chapter, he may rescind the closure order and impose such penalties. A copy of the findings and order of the hearing officer shall be sent by personal hand delivery, certified mail, or private delivery service, return receipt requested, to the operator. If there is documented proof that these methods are not successful, the findings and order may be sent to the operator by email.
(Ord. No. 2010-908, § 2(Exh. A), 11-17-2010, eff. 1-1-2011; Ord. No. 2021-1037, § 20(Exh. I.52), 12-1-2021, eff. 4-1-2022)

Sec. 43-36. Permit suspension.

(a) The health officer may, upon notice to the permit holder, suspend a permit if the operator of an aquatic structure does not comply with the requirements of this chapter or the *Swimming Pool and Spa Code,* or if the operation of the aquatic structure otherwise constitutes a hazard to public health. Suspension is effective upon service of the notice required by subsection (b) below. Upon issuance of a permit suspension, active pool operations shall immediately cease, and the permit shall be removed from the aquatic structure by the health officer and retained at the department until the suspension has terminated.

(b) Written notice of a permit suspension shall be provided to the operator of an aquatic structure by personal hand delivery, certified mail, or private delivery service, return receipt requested. If there is documented proof that these methods are not successful, the written notice may be sent to the operator by email. The notice shall set forth:

(1) The specific conditions at the aquatic structure that are in violation of this

chapter, the *Swimming Pool and Spa Code,* or federal or state laws, rules or regulations regarding pool safety, or that constitute a hazard to public health;

(2) That a hearing will be held before a hearing officer;

(3) The date, time and place of the hearing; and

(4) That the operator may appear in person or virtually, may be represented by counsel, and may present testimony and cross-examine all witnesses. The hearing shall be held not later than ten days after the date the permit is suspended.

(c) A permit suspension hearing under this section shall be held in accordance with the procedures set forth in section 43-35 of this Code.

(d) If the operator fails to appear at the hearing at the time, place, and date specified, the health officer shall present sufficient evidence to establish a prima facie case showing violation of this chapter or the *Swimming Pool and Spa Code,* or conditions constituting a hazard to public health that formed the basis of the suspension of the permit.

(e) If the hearing officer determines that the aquatic structure was operated in violation of this chapter or the Swimming Pool and Spa Code, or constituted a hazard to public health, the hearing officer shall make written findings of fact and shall affirm the permit suspension until all violations of this chapter are corrected and any conditions constituting a hazard to public health are eliminated. If the hearing officer finds that the public interest will be adequately protected by a warning or other penalties authorized under this chapter, he may order the permit to be reinstated and impose such penalties. A copy of the findings and order of the hearing officer shall be sent by personal hand delivery, certified mail, or private delivery service, return receipt requested, to the operator. If there is documented proof that these methods are not successful, the findings and order may be sent to the operator by email.

(f) Whenever the reason for a suspension no longer exists, the operator shall notify the health officer that the conditions under which the permit was suspended have been corrected and request a reinspection. The reinspection shall be conducted as soon as possible after the request is received and, in any event, no later than three regular working days after the receipt of the request.
(Ord. No. 2010-908, § 2(Exh. A), 11-17-2010, eff. 1-1-2011; Ord. No. 2021-1037, § 20(Exh. I.52), 12-1-2021, eff. 4-1-2022)

Sec. 43-37. Permit revocation.

(a) A permit may be revoked for up to 180 days if:

(1) The person in charge or his agents or employees fail or refuse to permit an inspection of the aquatic structure by a health officer; or

(2) The department has found three or more violations of the applicable portions of this chapter, the *Swimming Pool and Spa Code,* or federal or state laws, rules or regulations regarding pool safety within the preceding 12-month period.

(b) Prior to the revocation of a permit, written notice shall be provided to the operator by personal hand delivery, certified mail, or private delivery service, return receipt requested. If there is documented proof that these methods are not successful, the written notice may be sent to the operator by email. The notice shall set forth:

(1) The grounds on which the city will seek revocation of the permit, including the specific violations of this chapter, the *Swimming Pool and Spa Code,* or federal or state laws regulating pool safety on which the city will rely in seeking revocation of the permit;

(2) That a hearing will be held before a hearing officer;

(3) The date, time and location of the hearing; and

(4) That the operator may appear in person or virtually, may be represented by counsel

and may present testimony and cross-examine all witnesses. The hearing shall be held not later than ten days after the date the permit revocation notice is received.

(c) A permit revocation hearing under this section shall be held in accordance with the procedures set forth in section 43-35 of this Code.

(d) If the hearing officer determines that there are grounds for revocation of the permit, the hearing officer shall make written findings of fact and shall order the revocation of the permit for a period of not more than 180 days. A copy of the findings and order of the hearing officer shall be sent by personal hand delivery, certified mail, or private delivery service, return receipt requested, to the operator. If there is documented proof that these methods are not successful, the findings and order may be sent to the operator by email.

(e) All operation of an aquatic structure shall cease immediately upon receipt of service of written notice that the permit for that aquatic structure has been revoked pursuant to subsection (d), and the health officer shall physically remove the permit from the premises.

(f) Reinstatement of a permit that has been revoked shall require the operator to resubmit an application and repay the permit fee as if it were an initial application. No new permit application shall be considered for an aquatic structure where the hearing officer has revoked the permit until the expiration of the revocation period.
(Ord. No. 2010-908, § 2(Exh. A), 11-17-2010, eff. 1-1-2011; Ord. No. 2021-1037, § 20(Exh. I.52), 12-1-2021, eff. 4-1-2022)

Sec. 43-38. Fees.

(a) The fees to be assessed under this chapter are stated for this provision in the city fee schedule.

(b) All fees collected pursuant to this chapter shall be deposited in the swimming pool safety fund and may be expended for the costs of activities related to this chapter and other permitting, inspection, monitoring, abating, controlling, education and enforcement activities pertaining to environmental health services of the health department. By 60 days following the end of each fiscal year, any amount of money from the fund's current fiscal year- end fund balance that is in excess of four months of the average of the previous three fiscal years' audited expenditures less debt from the current fiscal year's ending fund balance, may be appropriated by city council and transferred to the general fund for general city expenditures, as needed, to the extent the transferred funds are not committed funds under any federal and state law, regulation, or grant.
(Ord. No. 2010-908, § 2(Exh. A), 11-17-2010, eff. 1-1-2011; Ord. No. 2010-1016, § 5, 12-15-2010; Ord. No. 2011-1168, § 13, 12-14-2011; Ord. No. 2013-617, § 16, 6-19-2013; Ord. No. 2015-820, § 34, 8-26-2015; Ord. No. 2019-447, § 6, 6-12-2019)

Sec. 43-39. Additional legal remedies.

(a) The city, acting through the city attorney or any other attorney representing the city, is hereby authorized to file an action in a court of competent jurisdiction to:

(1) Enjoin any person from violating or threatening to violate the terms, conditions and restrictions of any permit issued under this chapter;

(2) Enjoin the violation or threatened violation of the provisions of this chapter or of applicable state laws, rules or regulations regarding pool safety, to the extent permitted by law;

(3) Recover civil penalties for violation of the terms, conditions and restrictions of any permit authorized under this chapter; or

(4) Recover damages from the owner of property on which a violation has occurred in an amount adequate for the city to undertake any construction or other activity necessary to bring about compliance with this chapter.

(b) The city, acting through the city attorney or any other attorney representing the city, is hereby authorized to enter into agreements in

lieu of litigation to achieve compliance with the terms, conditions and restrictions of any permit authorized under the provisions of this chapter. (Ord. No. 2010-908, § 2(Exh. A), 11-17-2010, eff. 1-1-2011)

Chapter 44

TAXATION*

Art. I.	**In General, §§ 44-1—44-74**
Art. II.	**Specific Occupation Taxes, §§ 44-75—44-100**
	Div. 1. Generally, §§ 44-75—44-81
	Div. 2. Coin-Operated Machines, §§ 44-82—44-100
Art. III.	**Hotel Occupancy Tax, §§ 44-101—44-119**
Art. IV.	**Tax Abatement, §§ 44-120—44-138**

ARTICLE I. IN GENERAL

Sec. 44-1. Prior provisions saved.

In the compilation of this Code various provisions of chapter 44 (taxation) of the prior (1968) edition of the Code of Ordinances, as amended were deleted by virtue of their having been superseded by the Texas Property Tax Code; the said provisions which were deleted are expressly saved from repeal, not withstanding the adoption of this Code or any provision contained in the ordinance adopting this Code, to the extent that they remain applicable to any delinquent taxes which have not been collected or to any cause of action relating thereto.

Sec. 44-2. Annual levy; effect of failure to levy.

It shall be the duty of the city council, at its first meeting in January of each and every year, to levy such ad valorem and occupation taxes as may be necessary to cover the expenses of the city government for the current year; provided, the failure to levy such taxes at such meeting shall not prevent the same being levied at any such subsequent meeting of the council, and if the council should fail or neglect to pass a tax ordinance for any year, levying the taxes for that year, the tax ordinance last passed will be considered in force, and the failure to pass such ordinance shall in no wise invalidate the collection of the tax for that year.
(Code 1968, § 44-2)

Sec. 44-3. Property subject to taxation; applicability of state law.

All real, personal or mixed property held, owned or situated in the city, except such as may be expressly exempted in or pursuant to this article, is subject to taxation, and the same shall be rendered and listed in the manner prescribed by the general laws in regard to general state taxation, when applicable. The definition of property and terms, as defined by the general state laws under the head of taxation, and what is subject to taxation, as prescribed by the general laws of this state, shall apply to the taxation of this city.
(Code 1968, § 44-3)

Sec. 44-4. Tax exemption for resident homesteads.

(a) There is hereby exempted from all ad valorem taxes hereafter levied by the city a portion of the appraised value of residence homesteads of persons, married or unmarried, including those living alone, who are under a disability for purposes of payment of disability insurance benefits under Federal Old-Age, Survivors, and Disability Insurance, or its successor, or of married or unmarried persons 65 years of age or older, including those living alone. Effective January 1, 2022, the amount of the aforesaid exemption shall be $260,000.00 for the tax year 2022 and for each year thereafter.

(b) An owner of a residence homestead is hereby granted an exemption of 40 percent of the market value of such residence homestead for the years 1982 through 1984, 30 percent for the years 1985 through 1987, and 20 percent in 1988 and each subsequent year. Any exemption granted under this subsection shall be administered in a manner consistent with the applicable provisions of the state Property Tax Code.
(Code 1968, § 44-4; Ord. No. 72-2298, § 1, 12-13-72; Ord. No. 73-1783, § 1, 9-5-73; Ord. No.

*__Cross reference—__Payment of ad valorem taxes as prerequisite to putting taxicabs in operation, § 46-19.

74-1433, § 1, 8-14-74; Ord. No. 75-584, § 1, 4-15-75; Ord. No. 77-502, § 1, 3-15-77; Ord. No. 77-900, § 1, 5-10-77; Ord. No. 78-1294, § 1, 6-28-78; Ord. No. 80-675, § 1, 3-26-80; Ord. No. 82-481, § 1, 3-23-82; Ord. No. 88-1700, § 1, 10-26-88; Ord. No. 94-673, § 1, 7-6-94; Ord. No. 02-647, § 1, 7-10-02; Ord. No. 2013-630, § 2, 6-26-2013; Ord. No. 2015-554, § 2, 6-10-2015; Ord. No. 2022-454, § 2, 6-8-2022)

Sec. 44-5. Tax relief for the restoration or preservation of historical sites.

(a) *Scope.* The city council may, by ordinance, grant tax relief in the form of an exemption from ad valorem taxation to any "historic site," which for purposes of this section means a structure that has been designated as a landmark, protected landmark, or as a contributing structure in a historic district pursuant to article VII of chapter 33 of this Code ("Historic Preservation Ordinance").

(b) *Eligibility.* A property is eligible for tax exemption under this section in accordance with the following:

(1) The tax exemption is only being sought for eligible work under subsection (e) of this section;

(2) The eligible work performed must be at a cost of at least 25 percent of the "base value," which for purposes of this section means the assessed value of the historic structure or improvements, not including the value of any land associated with the historic site;

(3) The eligible work is performed not earlier than five years before the application for tax exemption; and

(4) The eligible work is performed pursuant to a certificate of appropriateness granted by the Houston Archaeological and Historical Commission ("HAHC").

(c) *Application.* An application for tax exemption under this section shall be filed with the director of the Finance Department, or his designee ("director of finance") in the form prescribed by the director of finance, and shall contain documentary evidence, including photographs and other documentation, of:

(1) All completed work for which a tax exemption is sought;

(2) Itemized accounting of eligible costs, shown as distinct from any ineligible costs, associated with any interior and exterior construction for which a tax exemption is sought; and

(3) Compliance with the requirements of any certificates of appropriateness issued pursuant to the Historic Preservation Ordinance.

Any application that does not contain sufficient documentary evidence under this section, including insufficiently itemized accounting of eligible costs as show distinctly from ineligible costs, shall be rejected by the director of finance and considered incomplete.

(d) *Procedure.* The director of finance shall establish and promulgate procedures for the implementation of the exemption granted under this section, the review of applications for tax exemption pursuant to this section, including deadlines for submission and consideration of applications required for a tax exemption to be effective for the next tax year. The director of finance shall calculate the projected tax exemption in accordance with this section, and forward the recommendation and projected tax exemption to city council. The city council shall approve an application for tax exemption upon receipt of a recommendation and a projected tax exemption from the director of finance.

(e) *Eligible work.* The following work qualifies for tax exemption under this section:

(1) Restoration performed pursuant to a certificate of appropriateness granted under the Historic Preservation Ordinance;

(2) Repair or reconstruction of the historic portion of the structural components, which includes parts of a building such as walls, partitions, floors, ceilings; windows and doors; all components of a

[The next page is 2991]

central air conditioning or heating system, whether within or adjacent to a building, including motors, compressors, pipes and ducts; plumbing and plumbing fixtures, such as sinks and bathtubs; electric wiring and lighting fixtures; chimneys; stairs, escalators, and elevators; interior sprinkler systems; fire escapes; and other components relating to the operation or maintenance of a building;

(3) Interior remodeling of the historic portion of the structure's paint, flooring, permanent coverings such as paneling or tiling;

(4) Professional services such as architectural, engineering, and other development fees; and

(5) Construction management and labor, materials, and reasonable overhead.

(f) *Ineligible work.* The following work does not qualify for tax exemption under this section:

(1) Appliances, consumer and industrial machinery, including machinery needed for the preparation and storage of food;

(2) Furniture, including cabinetry and countertops;

(3) Decks, fencing, retaining walls, swimming pools, and any exterior work such as sidewalks, driveways, and landscaping;

(4) Acquisition costs;

(5) Demolition and relocation costs;

(6) All costs, both exterior and interior, associated with the construction of a new addition or new construction, as those terms are defined in the Historic Preservation Ordinance;

(7) Work done outside the scope of a certificate of appropriateness required by the Historic Preservation Ordinance; and

(8) Work done pursuant to a certificate of remediation issued by the HAHC.

(g) *Annual review of tax exemption.* The director of finance shall conduct an annual review of each property granted an exemption under this section and may recommend revocation of the tax exemption granted under this section to city council if:

(1) The historic site is or has been the subject of a certificate of appropriateness issued pursuant to sections 33-247 or 33-250 of this Code;

(2) The owner of a historic site exceeds the scope of a certificate of appropriateness or takes any action without a certificate of appropriateness required by article VII of chapter 33 of this Code;

(3) The owner causes the property to be demolished by neglect under section 33-254 of this Code or as a dangerous building under chapter 10 of this Code; or

(4) City taxes assessed against the property are delinquent, as confirmed by the director of finance.

(h) *Calculation of tax exemption.* An exemption granted hereunder by the city council shall exempt the historic structure or improvements not including the value of any land associated with this historic site from ad valorem taxation and shall be computed on the following basis:

(1) If the said qualifying expenditures are at least 25 percent but less than 100 percent of the base value, then the exemption for each tax year on the assessed value of the structure shall be equal to the amount of the qualifying expenditures; or

(2) If the said qualifying expenditures are 100 percent or more of the base value of the improvements, then for each tax year:

a. For single-family residential properties that are not within a qualifying census tract, the exemption shall be equal to the qualifying expenditures; or

b. For properties other than single-family residential properties and all

properties within a qualifying census tract, as that term is defined below, the exemption shall be equal to 100 percent of the assessed value of the historic structure or improvements not including the value of any land associated with this historic site.

In any event, however, the exemption granted to any historic site pursuant to this section shall be subject to a limitation in the form of a maximum dollar amount. The maximum dollar amount shall be the assessed value of the historic structure in the year following demonstration of completion of the restoration or preservation work and demonstration of the qualifying expenditures to the director of finance. The amount of the exemption allowed on a historic structure shall not exceed the aforesaid maximum dollar amount in any tax year for the duration of the exemption period.

For purposes of this subsection qualifying census tract means any population census tract if either:

(1) The poverty rate for such tract is at least 20 percent; or

(2) The median family income for such tract does not exceed 80 percent of the metropolitan area median family income.

(i) *Term.* An exemption granted under this section shall begin on January 1 of the year following the date that the director of finance makes the determination that the owner of the historic site has met all of the requirements of this section for an exemption. The duration of the exemption shall be for a period of 15 years if the restoration project receives no financial incentive from the city funded by municipal hotel occupancy taxes, or ten years if the restoration project receives a financial incentive from the city funded by municipal hotel occupancy taxes. The exemption shall be automatically continued as of January 1 of each year succeeding the year the exemption was first granted for the duration of the ten- or 15-year period. The exemption shall be continued in the event of a transfer of an ownership interest or a portion of an ownership interest in the historic structure during such ten or 15-year period.

(j) *Recordation.* A person who has an ownership interest in property that has been granted a historic site exemption from ad valorem taxation shall record a copy of the ordinance providing for such exemption in the form prescribed by the city attorney in the real property records of the county in which the property is located. Failure on the part of the applicant to deliver a copy of such recorded ordinance, showing the date of recordation in the appropriate real property records, to the director of finance within 90 days of the date of passage of the ordinance providing for a tax exemption shall cause the expiration of the exemption at the end of such 90-day period.

(k) *Recapture.* Tax receipts and tax certificates issued for any historic site receiving tax relief pursuant to this section shall be clearly marked: "Historic site—Subject to recapture of additional taxes under Code of Ordinances." Each year during which the property is granted tax relief, the director of finance shall note on his records the valuation which would have been made and the taxes that would have been due had the historic site not qualified for tax relief under this section. If the historic site is subsequently damaged, demolished, or destroyed, or if the tax exemption is revoked under this section, then the property shall be subject to a recapture of taxes and subject to penalties and interest calculated under pertinent provisions of the Texas Tax Code. The additional tax shall be equal to the total amount of tax relief granted under this section over the life of the structure. Such additional taxes shall be deposited in the Historic Preservation Fund. Until paid, there shall be a lien for additional taxes, penalty, and interest on the property granted tax relief under the provisions of this section. An obligation to pay recaptured taxes is extinguished by operation of force majeure. Force majeure means: fires, floods, hurricanes, tornadoes, ice storms and other natural disasters, explosions, war, terrorist acts, riots, and the acts of superior governmental or military authority, and which the affected party is unable to prevent by the exercise of reasonable diligence. The term does not include any changes in general economic conditions such as inflation, interest rates, economic downturn or other factors of general

application, bankruptcy or an event that merely makes performance more difficult, expensive or impractical.

(l) A historic site for which an exemption has expired or has been withdrawn, revoked, or terminated may not requalify for a tax exemption under this section. Only one tax exemption at a time under this section may apply to a property.

(m) Notwithstanding any other provision of this Code, a structure that has been designated as a landmark or as a contributing structure in a historic district pursuant to the Historic Preservation Ordinance and that is owned by the State of Texas or a political subdivision thereof is entitled to an exemption equal to 100 percent of the assessed value of the historic structure and the land necessary for access and use of such structure. If an application for an exemption pursuant to this subsection is granted prior to the adoption of the ad valorem tax rate for the tax year in which the application is granted, the exemption shall be effective as of January 1 of that tax year. If such an application is granted after the adoption of the ad valorem tax rate for the tax year in which the application is granted, the exemption shall be effective as of January 1 of the tax year following the date the application was granted. An exemption granted pursuant to this subsection shall remain effective until the property is sold.
(Code 1968, § 44-4.1; Ord. No. 81-625, § 1, 4-1-81; Ord. No. 95-227, § 2, 3-1-95; Ord. No. 01-212, § 2, 3-7-01; Ord. No. 02-399, § 91, 5-15-02; Ord. No. 02-838, § 2, 9-4-02; Ord. No. 03-159, § 10, 2-12-03; Ord. No. 04-955, § 1, 9-15-04; Ord. No. 07-658, § 2, 6-6-07; Ord. No. 08-52, § 76, 1-16-08, eff. 1-26-08; Ord. No. 2015-967, § 41, 10-7-2015; Ord. No. 2019-143, § 1, 3-20-2019)

Sec. 44-6. Property liable for taxes due by owners.

All real, personal and mixed property held, owned or situated in the city shall be liable for all taxes due by the owners thereof, including taxes on real estate, franchises, personal and mixed property.
(Code 1968, § 44-5)

Sec. 44-7. Power of tax assessor-collector to enter premises and inspect property.

In the performance of his duties, the tax assessor-collector, or any of his deputies or duly and legally authorized representatives, shall have the power and authority to enter upon and into the premises, after having demanded entrance, of any person for the purpose of ascertaining what property such person has on hand that is subject to taxation. The tax assessor-collector, or any of his deputies or duly and legally authorized representatives, shall have the power and authority to inspect all property located on the premises for the purpose of obtaining an inventory to be filed for the purpose of taxation of the property included in such inventory and for the purpose of fixing the taxable value of the property found thereon. It shall be unlawful for any person to refuse to allow the tax assessor-collector for the city, or any of his deputies or duly and legally authorized representatives, to enter upon and into the premises as above provided after demand has been made by such person for admittance.
(Code 1968, § 44-11)

Sec. 44-8. Invalid city tax assessments.

(a) The tax assessor-collector shall notify the city council of any city tax assessments on real or personal property that he shall discover to be invalid, as defined and provided herein.

(b) An invalid assessment, within the meaning of this subsection is one that is:

(1) On property outside the taxing jurisdiction, hereinafter referred to as "outside jurisdiction";

(2) On property that is exempt from taxation, hereinafter referred to as "exempt";

(3) A second or double assessment on property properly assessable, hereinafter referred to as "double".

In notifying the council of such invalid city tax assessments under this subsection, the tax assessor-collector shall prepare lists and on each list show the name and address of the property owner, the account number, the property description, the amount of the assessment, the taxes,

and the reason that the assessment is invalid. The reasons, above, for an assessment being invalid may be indicated on each list by the words "outside jurisdiction," "exempt," "double." Each list shall be certified to by the tax assessor-collector as follows:

"This is a correct list of invalid assessments as provided for by the ordinances of the City of Houston."

One or more lists shall be forwarded to the city council attached to a form of ordinance which contains in its caption the reasons that the assessments are invalid and which provides for the city council:

(i) To find the city tax assessment invalid, and

(ii) To order such assessments and the city taxes based thereon cancelled.

(c) An invalid assessment, within the meaning of this subsection, is one that is:

(1) Grossly excessive, for example, the assessment of property at 100 percent or more above its fair market value, hereinafter referred to as "grossly excessive";

(2) Discriminatory, for example, the use of a different appraisal standard than used for similar property, hereinafter referred to as "discriminatory"; and

(3) An assessment that is illegal for any other reason, hereinafter referred to as "illegal";

In notifying the council of such invalid city tax assessments under this subsection, the tax assessor-collector shall prepare lists and on each list show the name and address of the property owner, the account number, the property description, the amount of the assessment, the taxes, and the reason that the assessment is invalid. The reasons, above, for an assessment being invalid may be indicated on each list by the words "grossly excessive," "discriminatory," and "illegal," respectively. Each list shall be certified to by the tax assessor-collector as follows:

"This is a correct list of invalid assessments as provided for by the ordinances of the City of Houston."

Every such invalid assessment shall be accompanied by affidavits and an opinion from the city attorney, based upon the facts set out in such affidavits, stating it to be his opinion that the assessment could properly be found invalid by the council. One or more lists shall be forwarded to the city council attached to a form of ordinance which contains in its caption the reasons that the assessments are invalid and which provides for the city council:

(i) To find the city tax assessment invalid; and

(ii) To order such assessments and the city taxes based thereon cancelled.

(d) The tax assessor-collector shall immediately reassess all taxable property on which the assessment has been cancelled under the terms hereof and place the same on the supplemental roll to be equalized prior to the next time the tax roll is approved by the board of appraisement.
(Code 1968, § 44-16.1; Ord. No. 68-1163, §§ 1—3, 7-17-68; Ord. No. 81-690, § 1, 4-14-81)

Sec. 44-9. Partial payment of current taxes based on a proposed reassessment.

(a) The tax assessor-collector is hereby authorized to accept a partial payment of current taxes on property if:

(1) It appears that the tax assessment for the current year on the property is invalid, and the tax assessor-collector has affidavits or other documents proving that the assessment for the current year is invalid as provided by the section on invalid assessments; and

(2) The tax assessor-collector has recommended that the assessment be cancelled by the city council; and

(3) The tax assessor-collector has also received full, true and complete information upon which a valid reassessment can be made; and

(4) The payment is equal to what a payment in full on the reassessment would be.

After the partial payment in the amount aforesaid has been made, the tax assessor-collector shall issue a tax receipt clearly marked "partial payment receipt." It shall also contain the following notation:

> "This receipt represents a partial payment of taxes originally assessed for the year shown and the amount thereof is tendered by the taxpayer and accepted by the City of Houston and/or Houston Independent School District with the express understanding that it will not in any way impair the balance of the taxes due for the year nor the lien securing same."

(b) In the event that a prior assessment is cancelled, a reassessment made and the assessment roll has been changed to show the new value, a copy of the portion of the roll showing the new amount and the "partial payment receipt" shall constitute a receipt in full for the tax for that year.
(Code 1968, § 44-17; Ord. No. 79-1809, § 1, 10-23-79)

Sec. 44-10. Tax assessor-collector to be charged with total amount of taxes due.

After the certificates of the board of appraisement and the tax assessor-collector have been entered in the minutes of the meeting of the city council, it shall be the duty of the city controller to charge to the account of the tax assessor-collector the total amount of taxes due the city for the current year, as shown on such assessment roll

and by his certificates, which amount shall be a valid claim against such tax assessor-collector and the sureties on his official bond, until the same shall be properly accounted for.
(Code 1968, § 44-28)

Sec. 44-11. When taxes due and payable; penalty and interest on delinquent taxes.

(a) All taxes, except occupation and license taxes, are hereby declared to become due and payable on the first day of each and every year, and if not paid by the thirty-first day of December following, shall be deemed delinquent, and beginning with the delinquent taxes for the year 1933 and every year thereafter, a penalty of two percent upon the amount of the taxes due shall be added and paid, if paid during the month of January following such delinquency; four percent if paid during the month of February following such delinquency; six percent if paid during the month of March following such delinquency; eight percent if paid during the month of April following such delinquency; nine percent if paid during the month of May following such delinquency; and ten percent if paid thereafter; and interest shall be charged upon the gross amount of the tax and penalty due until paid, at the rate of six percent per annum.

(b) On all assessments made after the year of the tax, the six percent per annum interest shall be calculated the same as if the assessment had been made during the year of the tax and the ten percent penalty shall be calculated as if the tax did not occur until the year in which the assessment was made. All assessments for prior years made during the month of December shall be considered for purposes of calculating penalty to have been made during the calendar year next succeeding.

(c) The provisions of the foregoing subsections (a) and (b) shall not apply to the calculation of penalty and interest from and after January 1, 1982, being the effective date of Chapter 33 of the Texas Property Tax Code.
(Code 1968, § 44-30; Ord. No. 70-1813, § 1, 1-14-70)

Sec. 44-12. Where taxes payable.

All city taxes shall be payable at the office of the tax assessor-collector.
(Code 1968, § 44-31)

Sec. 44-13. Extension of time for payment, remitting, etc., of taxes and holding city position while owing taxes prohibited.

In no case shall the city council or any member of the city council, or any other officer of the city, extend the time for the payment of the taxes; nor shall any officer of the city remit, discount or compromise any taxes legally due the city; nor shall any person be elected mayor or councilman of the city, or hold any position, office or employment thereunder who is in arrears, or due and owing to the city any sum of money for taxes or otherwise.
(Code 1968, § 44-34)

Sec. 44-14. Payment of taxes to be credited on property; receipt for payment.

All sums of money received by the tax assessor-collector in payment of taxes, other than occupation or license taxes, shall be credited on the particular tract of land or parcel of property, or the specific item of personal property, upon which the tax is due, and a proper receipt shall be given therefor.
(Code 1968, § 44-35)

Sec. 44-15. Partial payment of current taxes on homestead.

(a) The tax assessor-collector is hereby authorized to accept a partial payment of current taxes on a homestead or veteran's property if:

(1) The taxpayer claims a partial homestead or veteran's exemption after the assessment roll has been approved; and

(2) The tax assessor-collector has been furnished a proper claim document proving that the taxpayer is entitled to the exemption.

After the partial payment has been made based on the proposed net taxable value of the property

the tax assessor shall issue a tax receipt clearly marked: "partial payment receipt." It shall also contain the following notation:

> "This receipt represents a partial payment of taxes originally assessed for the year shown and the amount thereof is tendered by the taxpayer and accepted by the City of Houston and/or Houston Independent School District with the express understanding that it will not in any way impair the balance of the taxes due for the year nor the lien securing same."

(b) In every event where the tax assessor-collector has been furnished the foregoing document providing the taxpayer's right to a partial tax exemption and as provided by the constitution and laws of this state, the tax assessor-collector shall correct the roll to show the correct net taxable value. As soon as practicable after the close of the tax year, the tax assessor-collector shall report in writing to the city council the total dollar amount of such corrections to the assessment roll.

(c) In the event that the assessment roll has been corrected to show the correct taxable value, a copy of the portion of the roll showing the corrected amount and the "partial payment receipt" shall constitute a receipt in full for the tax for that year.
(Code 1968, § 44-35.1; Ord. No. 79-1810, § 1, 10-23-79)

Sec. 44-16. Partial payment of delinquent taxes, penalty and interest.

The tax assessor-collector of the city is hereby authorized to accept partial payment on delinquent taxes and the penalty and interest due thereon, subject to the conditions set out herein; provided, each partial payment shall be credited against the oldest delinquent tax year or years, and provided further, that each payment shall be divided into the part of the tax actually paid and the penalty and interest due on such part to the date of the partial payment. The tax assessor-collector shall issue a "partial payment receipt" to the taxpayer showing the actual amount paid broken down into tax, penalty and interest. Such partial payments shall be apportioned ratably to the city and school taxes due for the year or years to which they are applied and they shall be in amounts which will clear the delinquency within a reasonable time.
(Code 1968, § 44-40.1; Ord. No. 69-966, § 1, 5-28-69)

Sec. 44-17. Assignment of tax judgments.

Upon the payment of any person of all taxes, penalties, interest and costs due to the city in any judgment recovered by the city against delinquent taxpayers for city taxes to the tax assessor-collector, the mayor and city secretary are hereby authorized to transfer and assign such judgment to the person so paying; provided, such transfer shall not be made except by consent of the delinquent taxpayer.
(Code 1968, § 44-48)

Sec. 44-18. Purchase of property sold to city for taxes.

(a) Any person who desires to buy any property which has been sold to the city for city taxes at an execution sale, shall except as heretofore provided, first pay to the tax assessor-collector the entire amount of taxes, penalties, interest and costs that may be due on such property.

(b) After such payment by such person the tax assessor-collector shall certify to the delinquent tax attorney that such payment has been made; and the city delinquent tax attorney, upon receipt of such certificate or statement, shall prepare a quitclaim deed to such property to the person making the payment, reciting in the deed as consideration the payment shown by the certificate of the tax assessor-collector and shall endorse on such deed his approval thereof.

(c) The delinquent tax attorney shall transmit the quitclaim deed, together with the certificate of the city tax assessor-collector, to the city secretary, who shall retain possession of such certificate as a permanent record of the office of the city secretary, and it shall thereupon be the duty of the mayor and city secretary to execute such deed in behalf of the city.
(Code 1968, § 44-52)

Sec. 44-19. Claims for refunds of ad valorem taxes.

(a) If a taxpayer applies to the tax assessor-collector of the city for a refund of an overpayment or erroneous payment of city ad valorem taxes and the city treasurer determines that the payment was erroneous or excessive, the tax assessor-collector shall refund the amount of the excessive or erroneous payment from available current city tax collections or from funds appropriated by the city council for making refunds.

(b) Each claim shall be in the form of an affidavit by the claimant describing in full the circumstances of the payment. Each claim shall be accompanied by a valid tax receipt or other acceptable proof of payment.

(c) No refund shall be made to a taxpayer who is delinquent in the payment of any tax collected by the city tax assessor-collector or who otherwise owes any sum of money whatsoever to the city.

(d) No refund of any tax shall be made under any circumstances unless and until the same has been approved in writing by the legal department.

(e) If the amount of the refund exceeds $500.00, the tax assessor-collector shall not make the refund unless the city council also determines that the tax payment was erroneous or excessive and approves the refund.

(f) A written application for a refund must be received by the tax assessor-collector within three years after the date of the payment or the refund shall not be allowed.

(g) No warrant shall be issued in payment of any claim unless and until all the above requirements have been complied with.
(Code 1968, § 44-52.1; Ord. No. 68-1162, §§ 1, 2, 7-17-68; Ord. No. 71-93, § 1, 1-13-71; Ord. No. 77-1068, § 1, 5-13-77; Ord. No. 80-144, § 1, 1-29-80)

Sec. 44-20. Paving assessment lien releases—Authority to execute.

(a) In any instance in which the record in the office of the city's tax assessor-collector reflects the fact that an assessment against a particular parcel of property in connection with any particular paving project has been paid in full, he is hereby authorized to execute in the name of the city and to acknowledge and deliver to any person requesting the same, a due and proper release reciting the fact of such payment and releasing the particular parcel of property involved from the assessment lien; and in any instance in which he is assured, either by the city controller, the city engineer, or the city attorney or a responsible assistant to him, that any paving assessment, the detailed record in connection with which is not being kept in his office, has been paid in full, he is also hereby authorized to execute, acknowledge and deliver such due and proper release. A request in writing to the tax assessor-collector, by the city controller, the city engineer, or the city attorney or any of his responsible assistants, shall constitute and have the effect of a certificate to him that the assessment in question has in fact been paid in full and that a release is in order.

(b) In any instance in which it is made to appear to the finance director of the city or to the mayor that any paving assessment owned or held by the city has been paid in full, they and either of them are hereby also authorized to execute, acknowledge and deliver such a release, being also entitled to rely for their assurance that the assessment has been paid in full, upon a written request therefor by the city controller, the city engineer, the city attorney or a responsible assistant to him, or a responsible assistant to the tax assessor-collector.

(c) In any instance in which the ordinance levying assessments with respect to a particular project indicates that no assessment was levied against a particular parcel of property included within the originally initiated limits of such project, the director of treasury is hereby authorized, upon approval by the city attorney or one of his assistants, to execute, acknowledge and deliver a due and proper release of the apparent lien against such property arising by virtue of the recording of the notice prescribed by article 1220a, Revised Civil Statutes of Texas.

(d) In any instance in which it is made to appear to the satisfaction of the city attorney, by affidavits or otherwise, that a particular parcel

of property included within the originally initiated limits of an assessment street-improvement project was, on the effective date, the exempt homestead of the owner or owners of such parcel, then the director of treasury is hereby authorized, upon approval by the city attorney or one of his assistants, to execute, acknowledge and deliver a due and proper release of the apparent lien against such property arising by virtue of the recording of the notice prescribed by article 1220a, Revised Civil Statutes of Texas. Any such release shall include a provision that the execution and delivery thereof shall not affect the personal liability of the true owners of the property with respect to the assessment.

(e) A fee shall be imposed for each release of lien provided hereunder as specified in section 2-125 of this Code.
(Code 1968, § 44-53; Ord. No. 74-831, §§ 1, 4, 5-21-74; Ord. No. 90-635, § 147, 5-23-90; Ord. No. 08-52, § 77, 1-16-08, eff. 1-26-08)

Cross reference—Paving assessments, § 40-250 et seq.

Sec. 44-21. Same—Attestation under city seal.

None of the releases authorized by section 44-20 of this Code shall require for their validity that they be attested by the city secretary or be under the seal of the city; provided, in any instance in which a particular person may desire and express a request that a release be furnished which is so attested under the city's seal, the city secretary is hereby authorized, upon there being presented to him duly signed by any of the foregoing authorized persons, a release releasing any such paving assessment, to attest the same under the city's seal.
(Code 1968, § 44-54)

Sec. 44-22. Residence homestead exemption.

(a) An owner of a residence homestead is hereby granted an exemption of 30 percent of the market value of such residence homestead for the year 1987.

(b) Any exemption granted hereunder shall be administered in a manner consistent with the applicable provisions of the state Property Tax Code.
(Code 1968, § 44-55; Ord. No. 83-1945, § 1, 12-1-83; Ord. No. 84-1839, § 1, 11-27-84; Ord. No. 85-1828, § 1, 10-15-85; Ord. No. 86-605, § 1, 4-29-86; Ord. No. 87-598, § 1, 4-28-87)

Sec. 44-23. Reserved.

Editor's note—Former § 44-23 was repealed by § 3 of Ord. No. 88-104, enacted Jan. 20, 1988. The repealed provisions pertained to a tax abatement program and derived from Ord. No. 85-55, § 1, enacted Jan. 15, 1985 and Ord. No. 87-1304, § 1, enacted July 29, 1987.

Sec. 44-24. Definition.

As used in this chapter, the term ad valorem property tax revenues means all revenues collected as a result of the taxation of real and personal property in the city, both current and delinquent.
(Ord. No. 03-737, § 1, 8-6-03)

Sec. 44-25. Tax rate limitation.

The city council shall not, except by ordinance approved by two-thirds of the full city council, levy ad valorem taxes at a rate expected to increase the city's ad valorem property tax revenues for the then current fiscal year in an amount greater than five percent more than the ad valorem property tax revenues collected during the immediately preceding fiscal year.
(Ord. No. 03-737, § 1, 8-6-03)

Sec. 44-26. Verification.

Each year before the adoption of an ordinance levying ad valorem taxes in the city, the city controller must furnish written verification as to whether the ad valorem tax rate proposed is expected to produce ad valorem property tax revenue collections during the then current fiscal year of no more than five percent more than the ad valorem property tax revenues collected in the immediately preceding fiscal year.
(Ord. No. 03-737, § 1, 8-6-03)

Sec. 44-27. Notice.

Before the passage of any ordinance required under section 44-25 of this Code, city council shall:

(1) Have published in the major Houston newspaper an analysis of anticipated increased revenues in any form required by the Texas Tax Code, if applicable; and

(2) Hold a public hearing thereon not earlier than seven days before the date of passage. The public hearing may be combined with a hearing required by the Texas Tax Code.

(Ord. No. 03-737, § 1, 8-6-03; Ord. No. 2020-629, § 2, 7-15-2020)

Sec. 44-28. Effect of annexation.

Ad valorem property tax revenues collected from any properties annexed after calendar year 2002 will be excluded from the calculation described in section 44-25 of this Code for the fiscal year in which the property is annexed.
(Ord. No. 03-737, § 1, 8-6-03)

Sec. 44-29. Tax relief for significant historic structures

(a) The city council may, by ordinance, grant tax relief in the form of an exemption from ad valorem taxation to any significant historic structure, that:

(1) Is at least 50 years old;

(2) If a residence, the structure:

A. Was originally built and used for non-residential purposes and

B. Now contains more than four residential units;

(3) Has received a city protected landmark designation under article VII of chapter 33 of this Code; and

(4) Has been designated as a Recorded Texas Historical Landmark, or is individually listed in the National Register of Historic Places, or has been mentioned as having historic significance in an authoritative survey conducted by a non-profit or government agency.

(b) For purposes of this section, any property that meets the criteria in subsection (a) is a significant historic structure. Each significant historic structure must obtain a 75 percent approval of the members of the Houston Archeological and Historical Commission present at a regularly scheduled meeting. The Houston Archeological and Historical Commission shall review the applications for tax relief for significant historic structures on an annual basis to determine whether the eligibility standards of subsection (a) are met. Each owner desiring the tax exemption must make sworn application to the director of finance of the city. The application shall be in a form approved by the director of finance and shall set forth facts sufficient to show that the significant historic structure is eligible for tax relief as described in this section.

(c) An exemption granted by city council upon recommendation of the Houston Archeological and Historical Commission shall exempt from ad valorem taxation the significant historic structure, improvements and land associated with this significant historic structure from ad valorem taxation. The exemption shall be computed on the following basis:

100 percent of the appraised value of the structure, improvements and the land necessary for access to and use of the significant historic structure per year may be exempt from ad valorem taxation. If the significant historic structure is owned by more than one owner, then the total tax reduction shall be pro-rated among the various multiple owners, in proportion to the appraised value of each owner's respective ownership interest in the structure to the total appraised value of all the owners' ownership interests in the structure. Under no circumstances may the exemption for any one structure result in a tax reduction of greater than $30,000.00 for any tax year.

City council from time to time may, by ordinance, exempt properties from the maximum limit established above so long as

the properties meet the criteria required for this exemption. The duration of the aforesaid exemption shall be for the duration of compliance with subsection (a) of this section. The exemption shall begin on January 1 of the year following the date that the exemption is granted by city council.

The director of finance, in consultation with the planning official, shall establish and promulgate written procedures for the implementation of the exemption and the annual review of applications, and these officials shall jointly make a recommendation and submit the recommendation of the Houston Archeological and Historical Commission to the city council regarding each application that is duly submitted for consideration.

(e) The director of finance shall conduct an annual review of each property granted an exemption as a significant historic structure, and, if he finds that:

(1) Any city taxes assessed on the subject property are delinquent;

(2) The owner or, in the case of multiple owners, any of the multiple owners is delinquent on city taxes on any other property;

(3) The significant historic structure has deteriorated, has been relocated, demolished or destroyed; or

(4) The site no longer meets the requirements of section (a) of this ordinance;

then the changed condition shall constitute grounds for revocation of the exemption.

The director of finance shall give a 90-day notice to the owner of a significant historic structure prior to any revocation of the exemption granted pursuant to this section. The purpose of such notice shall be to allow the owner an opportunity to correct the changed condition.

(f) Tax certificates issued for any significant historic structure receiving tax relief pursuant to this section shall be clearly marked: Significant Historic Structure—Subject to recapture of taxes under Code of Ordinances.(Each year during which the property is granted tax relief, the director of finance shall note on his or her records the valuation that would have been made and the taxes that would have been due had the significant historic structure not qualified for tax relief under this section. If the property has a changed condition described under subsection (e) of this section or no longer meets the requirements of subsection (a) of this section, then the property shall be subject to a recapture of taxes and subject to penalties and interest calculated under pertinent provisions of the Texas Tax Code. The additional tax shall be equal to the amount of the tax payable for the preceding fifteen years had the property not been granted tax relief. Such additional taxes shall be deposited in a segregated account, the use of which shall be established by city council by a subsequent ordinance. Until paid, there shall be a lien for additional taxes, penalty, and interest on the property granted tax relief under the provisions of this section. An obligation to pay recaptured taxes is extinguished by operation of force majeure. Force Majeure means: fires, floods, hurricanes, tornadoes, ice storms and other natural disasters, explosions, war, terrorist acts, riots, and the acts of superior governmental or military authority, and which the affected party is unable to prevent by the exercise of reasonable diligence. The term does not include any changes in general economic conditions such as inflation, interest rates, economic downturn or other factors of general application, bankruptcy or an event that merely makes performance more difficult, expensive or impractical.

(g) This exemption is not available to any qualifying significant historic structure that has been acquired or improved in whole or in part by a city funded economic development grant or loan, tax increment reinvestment zone financing or funding, tax abatement agreement, or acquired or improved as the subrecipient of a federally funded economic development grant or loan agreement.

(h) The owner of a historic site that receives an exemption under section 44-5 of this code may apply for and receive an exemption as a significant historic structure if it meets the requirements under this section.

(Ord. No. 07-658, § 3, 6-6-07; Ord. No. 08-52, § 78, 1-16-08, eff. 1-26-08)

Sec. 44-30. Tax exemption for child-care facilities.

There is hereby exempted from all ad valorem taxes hereafter levied by the city a portion of the appraised value of qualifying child-care facilities, as defined under Chapter 11 of the Texas Tax Code, as periodically amended. Effective January 1, 2024, the amount of the aforesaid exemption shall be equal to 100 percent of the appraised value of qualifying child-care facilities for the tax year 2024 and for each year thereafter." (Ord. No. 2024-146, § 2, 3-20-2024)

Secs. 44-31—44-74. Reserved.

ARTICLE II. SPECIFIC OCCUPATION TAXES

DIVISION 1. GENERALLY

Secs. 44-75—44-81. Reserved.

DIVISION 2. COIN-OPERATED MACHINES

Sec. 44-82. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Coin-operated machines means and includes every machine or device of any kind or character operated by or with coins, metal slugs, tokens, credit, debit or other electronic cards, checks or similar objects. A machine designed and manufactured to be so operated, but which is operated by payment of a fee for its use is included in this definition. Music coin-operated machines and skill and pleasure coin-operated machines, as those terms are hereafter defined, shall be included in such term.

Director means the director of the department of administration and regulatory affairs or his designee.

Merchandise coin-operated machine means and includes every coin-operated machine of any kind which dispenses or vends, or which is used or operated for dispensing or vending merchandise, commodities, or confections. The following are expressly included within such term: candy machines, gum machines, sandwich machines, handkerchief machines and sanitary drink cup machines.

Music coin-operated machine means and includes every coin-operated machine of any kind or character which dispenses or vends, or which is used or operated for dispensing or vending music. The following are expressly included within such term: coin-operated phonographs, pianos, gramophones, radios and all other coin-operated machines which dispense or vend music.

Operator means and includes any person who exhibits, displays or permits to be exhibited or displayed, in his or its place of business or upon premises under his or its control, any coin-operated machine in the city.

Owner means and includes any person owning or having the care, control, management or possession of any coin-operated machine in the city. The owner is solely responsible for paying to the city the occupation tax on each coin-operated machine exhibited or displayed within the city and for securing the city decal evidencing payment of such tax on each coin-operated machine.

Properly displayed means that the decal required by section 44-83 of this Code is affixed to a machine subject to this article in the manner required by section 44-85 of this Code.

Property owner means any person that owns, controls, leases or manages a building or location where coin-operated machines are displayed or exhibited and includes any agent of the property owner.

Service coin-operated machine means and includes pay toilets, pay telephones and all other machines or devices which dispense service only and not merchandise, music, skill or pleasure.

Skill or *pleasure coin-operated machine* means and includes every coin-operated machine of any kind or character whatsoever,

when such machine dispenses or is capable of being used or operated for amusement or pleasure, or when such machine is operated for the purpose of dispensing or affording skill or pleasure or for any other purpose other than the dispensing or vending of merchandise, music or service exclusively, as those terms are defined herein. The following are expressly included within such term: marble machines, marble table machines, marble-shooting machines, miniature race track machines, miniature football machines, miniature golf machines, miniature bowling machines, billiard tables and all other coin-operated machines which dispense or afford skill or pleasure. Every machine or device of any kind or character which dispenses or vends merchandise, commodities or confections or plays music in connection with or in addition to such games or dispensing of skill or pleasure shall be considered a skill or pleasure coin-operated machine.

(Code 1968, § 44-72; Ord. No. 75-1800, § 1, 10-7-75; Ord. No. 08-188, § 1, 3-5-08; Ord. No. 09-867, § 2, 9-23-09)

Sec. 44-83. Tax imposed; amount; registration.

(a) Every owner who exhibits or displays, or who permits to be exhibited or displayed in the city any coin-operated machine shall pay, and there is hereby levied on each coin-operated machine, except those that are exempt under section 44-89 of this Code, an annual occupation tax in the amount equal to one-fourth of the current state occupation tax. All occupation taxes for coin-operated machines are payable annually in advance. Upon payment of the tax every owner shall register each machine by make, model, serial number, and street address location with the director.

(b) Whenever an owner shall exhibit or display, or permit to be exhibited or displayed, any coin-operated machine for commercial use, there shall be securely attached thereto a decal issued by the director evidencing payment of the tax applicable thereto. Each coin-operated machine is subject to the occupation tax when exhibited or displayed for commercial use within the city. Since the tax is payable in advance on an annual calendar year basis, the following pro rata tax rate schedule will be applicable to a coin-operated machine which is first exhibited or displayed for commercial use within the city during any quarter of the calendar year:

(1) *First quarter: January 1 to March 31*—An amount equal to the applicable annual occupation tax;

(2) *Second quarter: April 1 to June 30*—An amount equal to three-quarters of the applicable annual occupation tax;

(3) *Third quarter: July 1 to September 30*—An amount equal to one-half of the applicable annual occupation tax; and

(4) *Fourth quarter: October 1 to December 31*—An amount equal to one-quarter of the applicable annual occupation tax.

In computing any tax payable under the aforesaid pro rata tax rate schedule, amounts calculated thereunder shall be rounded to the next higher full cent amount as required.

(Code 1968, § 44-73; Ord. No. 75-1800, § 1, 10-7-75; Ord. No. 81-2477, § 1, 12-15-81; Ord. No. 82-26, § 1, 1-5-82; Ord. No. 91-1649, § 1, 11-26-91; Ord. No. 07-1113, § 4, 10-3-07; Ord. No. 08-188, § 1, 3-5-08)

Sec. 44-84. To whom tax payable.

All occupation taxes provided for in this division shall be paid to the director.

(Code 1968, § 44-74; Ord. No. 75-1800, § 1, 10-7-75; Ord. No. 08-188, § 1, 3-5-08)

Sec. 44-85. Display and issuance of decal evidencing payment; penalties for noncompliance.

(a) The decal issued by the director to evidence payment of the tax levied herein shall be securely attached with its own adhesive to be a fixed, noninterchangeable part of the coin-operated machine so as to be easily seen by the public. This decal shall be of such a nature that the word "void" will appear if one attempts to remove it.

(b) During the period commencing on October 1 and ending on December 31 of each year, owners shall pay the occupation tax, register the machines taxed, and thereby receive a decal for each coin-operated machine to be within the city on January 1. For random generator machines as defined in section 5-161 of this Code, no more than five decals may be issued for such machines at one location unless the building, facility, or other place where the machines are located meets the requirements of this article and has a game room permit issued under this article. Prior to moving a registered machine to a new location, the owner shall personally submit to the director a change of street address location form.

(c) If, during each calendar year, an owner desires to register machines in addition to the machines registered during the period from October 1 through December 31, decals for such machines shall be issued upon registration of the machines and payment of the tax applicable to the calendar quarter in which such decals are obtained.

(d) It shall be unlawful for an owner or operator to exhibit or display, or to permit to be exhibited or displayed for commercial use any coin-operated machine which:

(1) Does not have properly attached thereto a decal evidencing payment of the applicable occupation tax;

(2) Is located at any address or location other than the location listed for such machine as shown in the records of the city; or

(3) Has affixed to it a decal other than the decal issued for such machine as shown in the records of the city.

Any violation of this subsection shall also subject the owner of a machine to the imposition of the civil penalty prescribed by subsection (e) of this section.

(e) The owner of a coin-operated machine on which the tax has not been paid shall forfeit to the city as a penalty the sum of $100. The penalty, if not paid, shall be recovered in a suit by the city attorney in a court of competent jurisdiction. A penalty assessed under this subsection is in addition to any other remedy authorized under this division.

(Code 1968, § 44-75; Ord. No. 75-1800, § 1, 10-7-75; Ord. No. 81-2326, § 1, 11-24-81; Ord. No. 07-1113, § 3, 10-3-07; Ord. No. 08-188, § 1, 3-5-08; Ord. No. 08-1145, § 5, 12-10-08; Ord. No. 09-867, § 3, 9-23-09; Ord. No. 2010-86, § 2, 2-3-10; Ord. No. 2010-754, § 9, 9-29-2010; Ord. No. 2014-674, §§ 5, 6, 6-25-2014)

Sec. 44-86. Sealing machine for nonpayment; hearings.

After January 1 of each year, the director or any officer of the police department shall seal, in a manner that will prevent further operation, any coin-operated machine upon which the tax required by this division has not been paid or upon which the decal is not properly displayed. The owner of any machine subject to this division shall be required to pay a fee equal to the maximum amount permitted under § 2153.453 of the Texas Occupations Code for the release of any machine sealed as provided herein for nonpayment of the tax or for failure to properly display the decal evidencing the payment of the tax. The current fee amount shall be stated for this provision in the city fee schedule. Upon proof of payment of the occupation tax provided for in this division, the penalty provided for in section 44-85 of this Code, and the release fee, the director will remove the seal.

Any owner desiring to contest the tax, fee, or penalty owed to the city to secure the release of a sealed machine may request a hearing before a hearing officer designated by the director in accordance with the following procedures:

(1) A request for hearing must be in writing and delivered to the director within ten days of the sealing of the machine. The owner waives the right to hearing if the request is not timely received by the director.

(2) The only issue before the hearing officer shall be whether or not a decal evidencing payment of the occupation tax was

purchased and properly displayed for the particular machine(s) made the subject of the appeal.

(3) If the hearing officer determines that a decal was not purchased or properly displayed, the machine shall remain sealed until any tax, fee, or penalty owed to the city has been paid or until the decal issued for a particular machine is properly displayed on that machine.

(4) The decision of the hearing officer shall be final.

(Code 1968, § 44-76; Ord. No. 75-1800, § 1, 10-7-75; Ord. No. 08-188, § 1, 3-5-08; Ord. No. 09-867, § 4, 9-23-09; Ord. No. 2011-1168, § 13, 12-14-2011)

Sec. 44-87. Penalty for removal of sealed machine.

It shall be unlawful to remove from the premises any machine that has been sealed pursuant to section 44-86 of this Code. Whoever shall remove a machine that is sealed shall be guilty of a misdemeanor and, upon conviction, shall be punished by a fine of not less than $100.00 nor more than $500.00.

(Code 1968, § 44-77; Ord. No. 75-1800, § 1, 10-7-75; Ord. No. 92-1449, § 61, 11-4-92; Ord. No. 08-188, § 1, 3-5-08)

Charter reference—Penalty for ordinance violation, Art. II, § 12.

Cross references—Assessment of fines against corporations, § 16-76; payment of fines, § 16-78; credit against fines for incarceration, § 35-6 et seq.

Sec. 44-88. Penalty for breaking seal.

Whoever shall break the seal affixed pursuant to section 44-86 of this Code, or exhibit, display or remove any machine on which such seal has been broken, shall be guilty of a misdemeanor, and upon conviction, shall be punished by a fine of not less than $100.00 nor more than $500.00.

(Code 1968, § 44-78; Ord. No. 75-1800, § 1, 10-7-75; Ord. No. 92-1449, § 62, 11-4-92; Ord. No. 08-188, § 1, 3-5-08)

Charter reference—Penalty for ordinance violation, Art. II, § 12.

Cross references—Assessment of fines against corporations, § 16-76; payment of fines, § 16-78; credit against fines for incarceration, § 35-6 et seq.

Sec. 44-89. Offense by property owner; notice.

(a) It shall be unlawful for a property owner to knowingly permit the exhibition or display for commercial use any coin-operated machine that does not comply with this division.

(b) It shall be unlawful for a property owner to lease any property for the display or exhibition of any coin-operated machine in violation of this article.

(c) A property owner is presumed to have knowledge of a violation of this division upon notification to the property owner in writing by any law enforcement officer that a violation has occurred on his property.

(Code 1968, § 44-79; Ord. No. 75-1800, § 1, 10-7-75; Ord. No. 08-188, § 1, 3-5-08)

Sec. 44-90. Exemptions.

(a) Service coin-operated machines, merchandise coin-operated machines, gas meters, and cigarette vending machines which are now subject to an occupation or gross receipts tax, and coin-operated machines designed for and utilized exclusively by children are expressly exempt from the tax levied in this division.

(b) Coin-operated machines that have been remanufactured or altered not to accept coins are expressly exempt from the tax levied in this division unless they are operated by payment of a fee, as described in the definition of *coin-operated machine* set forth in section 44-82 of this Code.

(c) Coin-operated machines operated solely in a private residence and not available to the general public are expressly exempt from the tax levied in this division.

(Code 1968, § 44-80; Ord. No. 08-188, § 1, 3-5-08)

Sec. 44-91. No authorization for illegal machines.

Nothing contained in this division shall be construed or have the effect to license, permit, authorize or legalize any machine, device, table or coin-operated machine, the keeping, exhibition, operation, displaying or maintenance of

which is illegal or in violation of any article of the Penal Code of this state, or the constitution of this state.
(Ord. No. 08-188, § 1, 3-5-08)

Secs. 44-92—44-100. Reserved.

ARTICLE III. HOTEL OCCUPANCY TAX

Sec. 44-101. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Consideration means the cost of the room in a hotel only if the room is one ordinarily used for sleeping, and shall not include the cost of any food served or personal services rendered to the occupant of such room not related to the cleaning and readying of such room for occupancy.

Director means the director of the finance.

Hotel means any building or buildings in which the public may, for a consideration, obtain sleeping accommodations. The term shall include hotels, motels, tourist homes, houses, or courts, inns, rooming houses, or other buildings where rooms are furnished for a consideration, but shall not include hospitals, sanitariums, or nursing homes. Hotel does not include a boarding home, as defined in section 28-451 of this Code or a lodging facility, as defined in section 28-601 of this Code.

Occupancy means the use or possession, or the right to the use or possession, of any room in a hotel if the room is one ordinarily used for sleeping and if the occupant's use, possession, or right to use or possession extends for a period of less than 30 days.

Occupant means anyone, who, for a consideration uses, possesses, or has a right to use or possess any room in a hotel if the room is one ordinarily used for sleeping.

Person means any individual, company, corporation, or association owning, operating, managing or controlling any hotel.

Quarterly period means any one of the regular calendar quarters of the year, the first quarter being composed of the months of January, February and March, the second quarter being the months of April, May and June, the third quarter being the months of July, August and September, and the fourth quarter being the months of October, November and December.
(Code 1968, § 44-91; Ord. No. 69-637, § 1, 4-23-69; Ord. No. 72-300, § 1, 2-16-72; Ord. No. 06-946, § 2, 9-13-06; Ord. No. 08-52, § 79, 1-16-08, eff. 1-26-08Ord. No. 2018-225, § 12, 3-22-2018)

Sec. 44-102. Tax levied; amount.

There is hereby levied within the corporate limits of the city a tax upon the cost of occupancy of any room furnished by any hotel where such cost of occupancy is at the rate of $2.00 or more per day, such tax to be equal to seven percent of the consideration paid by the occupant of such room to such hotel.
(Code 1968, § 44-92; Ord. No. 69-637, § 2, 4-23-69; Ord. No. 72-300, § 2, 2-16-72; Ord. No. 77-1876, § 1, 9-21-77; Ord. No. 83-2054, § 1, 12-21-83; Ord. No. 84-65, § 1, 1-17-84; Ord. No. 91-89, § 1, 1-16-91)

Sec. 44-103. Collection of tax.

Every person owning, operating, managing or controlling any hotel shall collect the tax imposed by section 44-102 hereof for the city.
(Code 1968, § 44-93; Ord. No. 69-637, § 3, 4-23-69)

Sec. 44-103.1 Records; receipts; retention and inspection.

(a) Every person required to collect the tax imposed in this article shall keep the following information:

(1) For each room rental, the check-in and check-out dates, the consideration paid (including the state and local hotel occupancy taxes collected) on a per sleeping room rental basis, and the method of payment;

(2) Supporting documentation and certificates of exemption for guests who are exempt from the tax imposed in this article;

(3) Banking records that identify all room rental revenue collected; and

(4) Credit card records reflecting payments of room rentals.

(b) For room rentals paid by cash, every person required to collect the tax imposed in this article shall:

(1) Issue a customer an electronic or handwritten receipt that provides the date and time of the rental transaction, the room number, and the charges for room rental; and

(2) For handwritten receipts:

a. Issue the receipts in sequential, numeric order;

b. Retain a duplicate copy of the receipts; and

c. Mark spoiled receipts as void and retain such receipts as evidence of spoilage.

(c) A person subject to the requirements of this section shall retain all records provided for in this section in written or electronic form for a minimum of four years from the date of transaction.
(Ord. No. 06-946, § 3, 9-13-06)

Sec. 44-104. Quarterly reports to director.

On the last day of the month following each quarterly period, every person required in section 44-103 of this Code to collect the tax imposed by this article, shall file a report with the showing the consideration paid for all room occupancies in the preceding quarter, the amount of the tax collected on such occupancies, and any other information the director may reasonably require. Such person shall pay to the city the tax due on such occupancies at the time of filing such report.
(Code 1968, § 44-94; Ord. No. 69-637, § 4, 4-23-69; Ord. No. 06-946, §§ 1, 4, 9-13-06)

Sec. 44-105. Rules and regulations of director; access to books and records.

The director shall have the power to make such rules and regulations as are reasonable and necessary to effectively collect the tax levied hereby, and shall upon reasonable notice have access to books and records necessary to enable him to determine the correctness of any report filed as required by this article and the amount of taxes due under the provisions of this article.
(Code 1968, § 44-95; Ord. No. 69-637, § 5, 4-23-69; Ord. No. 06-946, § 1, 9-13-06)

Sec. 44-106. Penalties, interest and attorneys fees for delinquent reports and payments.

(a) Any person who fails to file a report as required herein or fails to pay to the director the tax imposed herein when said report or payment is due, shall be liable, in addition to the amount of tax owed under this article, for interest on the principal amount due at the rate of ten percent per annum, and a civil penalty equal to 15 percent of the total amount of the tax owed. In the event that a suit is instituted for the recovery of the taxes, the person shall also be liable for the city's reasonable attorney fees and costs incurred for the recovery of the tax, penalties and interest.

(b) Any person who fails to timely file a report or maintain a record or information as required by this article shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not less than $100.00 nor more than $500.00. Each day that any violation continues shall constitute and be punishable as a separate offense.

(c) The provisions of subsections (a) and (b) of this section are cumulative. However, no testimony or other evidence provided by a person in a civil prosecution under subsection (a) may be used against that person in a criminal prosecution under subsection (b).
(Code 1968, § 44-96; Ord. No. 69-637, § 6, 4-23-69; Ord. No. 69-925, § 1, 5-21-69; Ord. No. 82-2005, § 1, 12-21-82; Ord. No. 94-808, § 1, 8-17-94; Ord. No. 06-946, §§ 1, 5, 9-13-06)

Sec. 44-107. Use of funds derived from tax.

The revenue derived from the hotel occupancy tax shall be used for the following purposes and none other:

(1) The acquisition of sites for and the construction, improvement, enlarging, equipping, repairing, operation, and maintenance of convention center facilities, including, but not limited to, convention and entertainment facilities convention buildings, auditoriums, coliseums, civic theaters, museums, and parking areas or facilities for the parking or storage of motor vehicles or other conveyances located at or in the immediate vicinity of the convention center facilities;

(2) The furnishing of facilities, personnel and materials for the registration of convention delegates or registrants;

(3) For advertising for general promotional and tourist advertising of the city and its vicinity and conducting a solicitation and operating program to attract conventions and visitors either by the city or through contracts with persons or organizations selected by the city;

(4) The encouragement, promotion, improvement, and application of the arts, including music (instrumental and vocal), dance, drama, folk art, creative writing, architecture, design and allied fields, painting, sculpture, photography, graphic and craft arts, motion pictures, television, radio, tape and sound recording, and the arts related to the presentation, performance, execution, and exhibition of these major art forms;

(5) Historical preservation and restoration.

Provided that a portion of the said tax revenue equal to at least one percent of the cost of occupancy of hotel rooms shall be reserved for the purpose of advertising and conducting solicitation programs to acquaint potential users with public meeting and convention facilities, and for promotion of tourism and advertising of the city and its vicinity either by the city or through contract with organizations or persons selected by the city.

(Code 1968, § 44-97; Ord. No. 72-300, § 3, 2-16-72; Ord. No. 77-1876, § 2, 9-21-77; Ord. No. 96-50, § 2, 1-17-96)

Secs. 44-108—44-119. Reserved.

ARTICLE IV. TAX ABATEMENT*

Sec. 44-120. Preamble—General policy and program requirements.

(a) The City of Houston Tax Abatement Program is created to encourage new development and the growth of existing development and to stimulate new job growth and investment in the city. The tax abatement program and other forms of economic development incentives are available to many types of businesses to address the city's economic development needs and objectives stated in this general policy and pursuant to the provisions of this article.

The city's principal economic development tools should be maintenance of the city's natural competitive advantages and provision of detailed information concerning the city's advantages compared to those of other cities for potential relocation of all or substantial portions of various businesses. For a wide variety of businesses and professional firms, Houston rarely should be at a cost disadvantage relative to large urban centers, particularly those outside of Texas.

The city and its metropolitan area offer significant competitive advantages and cost savings to businesses seeking to locate or expand in our region. These advantages include:

(1) A large, growing workforce with abundant skills appropriate for all levels of an organization;

---

*__Editor's note—__The City Council adopts and ratifies revised guidelines and criteria for tax abatement to be codified as Article IV of Chapter 44, which shall replace the expired version of same article which was Ord. No. 2022-344, § 4, adopted May 4, 2022 as amended by Ord. No. 2024-624, § 2, adopted August 28, 2024.

(2) An affordable cost of living, which makes Houston attractive to workers and makes our personnel costs more competitive than most major urban areas;

(3) An abundance of buildable sites and relatively low cost of occupancy compared to other major urban centers in the United States, especially those outside of Texas; and

(4) A superb transportation infrastructure, including the Port of Houston, the Houston Airport System, and central locations for distribution by truck, rail, and water.

The city, however, will from time to time consider appropriate economic incentives for the relocation, expansion or retention of businesses, whether intellectual capital or fixed asset-based, to the extent these incentives would be the critical element that would govern a decision to relocate or expand a business here. Incentives might include tax abatements, as described in these guidelines and criteria, or another appropriate form of incentive, such as expedited permitting for a development project or investment in infrastructure that would be useful in developing a particular site, which could include investments enhancing transportation, water and sewer services or other public infrastructure. Such improvements benefit not only the affected business but also the larger community.

Incentives other than tax abatement might be funded through accelerated capital improvements plan action or special district financing such as tax increment financing, special assessment financing, or in-city municipal utility districts. The city could also consider beneficial land exchanges, right-of-way abandonment, or below-market financing or leases on public property that could provide mutual benefit to the city and the proposed development. Any offer of such an incentive would be reviewed case-by-case to determine eligibility and compliance with all applicable laws.

To assist the city in obtaining an equitable portion of state economic development funds, the city will consider applications for tax abatements that trigger some level of state economic development assistance. The Houston region contributes about one-quarter of the funds to the State of Texas' general revenues. In turn, a proportionate share of the state's economic development budget is attributable to the Houston region. If allocated over time equitably among the regions of the state in proportion to the employment and financial contributions to state revenues, these funds should provide funding for economic incentives for corporate relocations and expansions in our region, when combined with the other substantial advantages for economic growth in our region.

It is the goal of the city that local taxing jurisdictions in our region should not use ad valorem tax abatement to compete against each other for business relocations or expansions. It should be recognized that the attraction of new businesses to any part of our region strengthens our overall region and the people in it.

Officials at the city, at the most senior level, will meet at any time with the person who is ultimately responsible for making a decision to relocate or to expand to address specific economic or other issues that would be decisive in corporate location. The city would negotiate in a business-like manner on a case-by-case basis. There is no "standard" tax abatement, and no entity or individual other than a designated city official is authorized to negotiate with respect to any tax abatement proposal or incentive that might be available on a case-by-case basis.

Typically, city officials would want to see pro forma financial information to assist in making judgments concerning the role of property tax costs in the economics of the relocation. The city understands that for many businesses some incremental amount of ad valorem taxes would not represent a substantial percentage of the cost of goods sold. Other incentives, as referenced above, may be discussed with city officials.

(b) Tax abatements may be used in special situations, subject to the guidelines and criteria described herein. Examples of special situations include:

(1) The location of a high-employment facility in a particularly distressed or neglected part of the city, where increased job opportunities could contribute significantly to a reduction in crime or cascading redevelopment of other sites, which would more than offset the loss of the tax benefit;

(2) A substantial equity investment in real estate development serving an important public purpose, such as providing affordable housing that could lead to redevelopment of a blighted area or attracting additional development;

(3) A case in which a company could not and would not remain, expand or locate in Houston, because of another viable option that took into account all significant costs. Any representation by the company would need to be supported by credible economic analysis in a direct communication between the mayor or other appropriate senior official and the private sector decision maker; or

(4) The property, if abated, will be reasonably likely to contribute to the retention or expansion of primary employment or to attract major investment that would be a benefit to the property and the larger community and that would contribute to the economic development of the city.

(c) Subject to this general policy, when tax abatements are available, they would be offered as described in the guidelines and criteria set forth in this article, with the following general limits and guidelines:

(1) For typical commercial and industrial tax abatements, the city would negotiate an abatement scale and duration based primarily on investment level, rather than jobs. Each project would be evaluated and the incentive tailored to an analysis based on factors such as industry competitive disadvantages, quantifiable economic impacts, and furthering other public purposes in unique ways. An applicant would be required to submit an economic impact analysis from reliable modeling tools. Depending on an analysis of such factors and data, the city would evaluate the appropriate level and duration of abatement;

(2) Reduced investment requirements and flexible abatement scales could be available for tax abatements within state enterprise zones, or eligible new markets tax credits census tracts, bank finance districts, and other non-city incentives that require local matching. This aspect of the program would emphasize encouraging access to other local, state and federal incentives to leverage the city abatement incentive;

(3) The city will require applicants to commit to providing enhanced community benefits as a condition to tax abatement incentive benefit. The enhanced community benefit may include employment and development of programs that strengthen local communities, such as the city's Minority and Women-Owned and Disadvantaged Business Enterprise Programs, local purchasing, construction and redevelopment within underserved communities or other identified areas that would see a greater benefit or return on investment in the area, the creation of permanent employment and full-time job opportunities within those defined areas, jobs that include employee health care benefits, and other endeavors that can be shown to bring a wider reaching, long-term economic benefit to the communities where the activity or enterprise will be located, and to the city overall. Table 44-1 below includes the types of activities and benefits the city will give the most weight to, though others not on the list may be considered by the Mayor's Office of Economic Development. Applica-

tions for tax abatement must include one or more of the items listed in Table 44-1.

Table 44-1

1	Job Training and Certification Grants to Non Profit Workforce Training Agencies for Residents of Qualifying Census Tracts
2	On-Site Retail Space and Pop-Up Opportunities for Businesses Located in Qualifying Census Tracts
3	First Source Hiring Focused on Residents of Qualifying Census Tracts (e.g., utilizing good faith efforts toward employing residents of qualifying census tracts for entry-level positions on applicable projects)
4	Affordable Housing
5	Workforce Housing
6	Job Training for Entry or Mid-Skill Level Jobs
7	Participation in Job Reentry Programs (other than the City of Houston's Community Re-Entry Network Program)
8	Paid Internships for Low Income Students

(4) In addition, the city will require applicants to provide evidence they will:

a. Advertise new job postings with the City of Houston's Community Re-Entry Network Program;

b. Provide construction workers with a minimum of ten hours of OSHA-approved safety training;

c. Require general contractors to employ a safety representative with a minimum of 30 hours of OSHA-approved supervisor safety training on each construction site;

d. Make good faith efforts to ensure that a minimum of 25 percent of the total labor force for construction and non-construction job requirements is obtained by hiring individuals who live in a census tract with an average income lower than that of the city average, based on the most recent five-year American Community Survey estimate;

e. Make good faith efforts to ensure that a minimum of 25 percent of the total labor force for construction and non-construction job requirements is obtained by hiring individuals who live in the same census tract as the project, or who live in an adjacent census tract, for a tax abatement agreement described in subsection (c)(8) of this section where the project is located in, or adjacent to, a census tract described in subsection (c)(4)d above; and

f. Make good faith efforts to hire and employ a minimum of 30 percent of its construction workforce from local Department of Labor-certified apprenticeship programs.

(5) All contracts and subcontracts for public infrastructure, or for other public improvements that are to be conveyed to the city upon completion, shall contain requirements for compliance with governing statutes and local requirements on labor classification of wage scales for each craft or type of laborer, worker, or mechanic.

(6) Contractors and subcontractors will be subject to audits and inspections of payroll records to ensure compliance with the requirements of this chapter.

(7) Qualifying residential projects or projects with a qualifying residential component will be required to develop and commit 20% or more of the project residential units for residents with income levels between 30% and 120% of area median income for the duration of the tax abatement agreement.

(8) An enhanced abatement for no more than ten years and up to 90% may be considered for:

a. Targeted industry clusters specifically targeted for future growth, for

example, aviation, biotechnology, information technology, aerospace, energy, or other industries that the city from time to time determines to have a particular beneficial impact on the regional economy;

b. New or expanding businesses (for example, retail, industrial, commercial) in neighborhood areas targeted for revitalization (for example, Houston Hope areas or other distressed or neglected parts of the city); and

c. Transit-oriented development within 1,500 feet of transportation corridors, such as existing and planned Metro rail stops, multi-modal centers, and bus transfer stations.

(Ord. No. 2018-391, § 2(Exh. A), 5-16-2018; Ord. No. 2020-424, § 2(Exh. A), 5-13-2020; Ord. No. 2022-344, § 4, 5-4-2022; Ord. No. 2024-624, § 2, 8-28-2024)

Sec. 44-121. Definitions.

As used in this article, the following terms shall have the meanings ascribed in this section unless the context of their usage clearly indicates another meaning:

Abatement means the full or partial exemption from ad valorem taxes of certain real and/or personal property in a reinvestment zone.

Abatement recipient means the owner of real or tangible personal property located on the real property, the lessee of real or personal property, or both, as applicable, who receive an abatement pursuant to this article.

Agreement means a contractual agreement authorized by the city council between an abatement recipient and the city for the purpose of a tax abatement.

Base year value means the assessed value of eligible property on January 1 preceding the execution of the agreement plus the agreed upon value of eligible property improvements made after January 1, but before the execution of the agreement.

Brownfield facility means real property or tangible personal property located on the real property used as an authorized facility as provided in sections 44-129 and 44-130 of this Code.

Competitive siting means evidence that the applicant has studied competing locations for expansion, relocation, or new operations to evaluate operating cost differentials and incentives available, excluding, however, locations in taxing jurisdictions with which the city has an agreement not to compete for projects by offering financial incentives.

Complete community means an area designated as such by the city or the mayor in order to focus civic, business, and philanthropic resources on community needs as identified by the residents and larger community, such as housing, parks and environmental, economic, health, educational, mobility and infrastructure, and other social services, projects, or programs.

Contract employee means an individual who is not a permanent employee or an affiliate of the abatement recipient but who does work for the abatement recipient in the reinvestment zone on a contract basis, either on a full- or part-time basis.

Conventional stormwater detention means stormwater detention that does not meet the applicable design criteria for a low impact development design approach described in chapter 9 of the design manual.

Deferred maintenance means improvements necessary for continued operations that do not improve productivity or alter the process technology.

Design manual has the meaning ascribed in section 42-1 of this Code.

Deteriorated/demolished property means any real property located in a reinvestment zone designated pursuant to item (1), (2), or (3) of section 44-122(d) of this Code, and on which improvements subject to an order and any extensions granted by the department of neighborhoods were declared dangerous or were demolished not more than one year before the date that a complete application for

tax abatement is filed, and pursuant to a permit for demolition issued by the city with which the owner complied, and on which the owner has filed with the city an application for a building permit to construct new improvements no later than one year after the date that a complete application for tax abatement was filed.

Deteriorated / demolished property redevelopment means a residential facility with structures containing four or fewer dwelling units per structure constructed as part of a unified plan on contiguous property comprising at least one existing block.

Director means the mayor, or the person designated by the mayor to administer these guidelines and criteria.

Dwelling unit means a structure, or a portion of a structure, that has independent living facilities including provisions for non-transient sleeping, cooking and sanitation.

Economic life means the number of years a property improvement is expected to be in service in a facility.

Eligible jurisdiction means any county, municipality or college district that levies ad valorem taxes upon and provides services to property located within a proposed or existing reinvestment zone.

Expansion means the addition of buildings, structures, fixed machinery or equipment for purposes of increasing production capacity.

Facility means property improvements, completed or in the process of construction or expansion, that together comprise an integral whole.

Full-time equivalent means a job that is equivalent to 1,750 hours of work annually performed in the reinvestment zone by one or more contract employees or part-time employees.

Green stormwater infrastructure means infrastructure designed and constructed for stormwater management to minimize the downstream impacts of development while providing additional environmental, social, or ecosystem benefits or services, which may include mitigating risk of flooding, reducing heat island effect or other climate-related hazards, improving water quality, sequestering carbon, encouraging water conservation, restoring native ecosystems, creating economic growth, or addressing quality of life challenges.

LEED means Leadership in Energy and Environmental Design, a green building rating system developed by the USGBC that provides a framework and standard for green building design, construction, operations, and performance.

LEED certification means a Silver, Gold, or Platinum rating level certification obtained from USGBC.

Manufacturing facility means buildings and structures, including fixed machinery and equipment, the primary purpose of which is or will be the manufacture of tangible goods or materials or the processing of such goods or materials by physical or chemical change.

Mixed-use facility means a facility used or to be used for more than one of the types of facilities defined in this section.

Modernization means the replacement and upgrading of existing facilities that increase the productive input or output, extend the economic life of a facility, update the technology or substantially lower the unit cost of the operation of a facility. Modernization may result from the construction, alteration or installation of buildings, structures or fixed machinery or equipment, but construction, alteration or installation for the purpose of reconditioning, refurbishing or repairing to meet local, state, or federal regulations shall not be considered modernization.

New commercial facility means a new facility, other than a residential facility that consists of one structure containing four or fewer dwelling units, that is an authorized facility described in section 44-127(a) of this Code.

New facility means improvements on property previously undeveloped that is placed into service by means other than or in conjunction with expansion or modernization.

Order means an order issued by the city pursuant to article IX of chapter 10 of this Code requiring the improvements on property to be demolished.

Other basic industry facility means buildings and structures, including fixed machinery and equipment not elsewhere described, that meet the economic development objectives of the general policy stated in section 44-120 of this Code.

Owner means the person or entity responsible for paying property taxes on taxable real property or tangible personal property located on the real property or an interest therein including one or more leasehold interests.

Part-time employee means an individual who works for, and is an employee of, the abatement recipient in the reinvestment zone, but is not a permanent employee.

Permanent employee means an individual who is an employee of the abatement recipient or an affiliate of the abatement recipient, works a minimum of 35 hours in a seven-day period, and reports to work in the reinvestment zone, excluding any contract employee, seasonal employee or part-time employee.

Qualifying census tract means any population census tract where (1) the poverty rate for such tract is at least 20 percent; or (2) the median family income for such tract does not exceed 80 percent of the metropolitan area median family income for the Houston-The Woodlands-Sugar Land Metropolitan Statistical Area as defined by the Office of Management and Budget in the Executive Office of the President of the United States.

Regional distribution center facility means buildings and structures, including fixed machinery and equipment, used or to be used primarily to receive, store, service or distribute goods or materials owned by the facility operator, where a majority of the goods or services are distributed to points at least 100 miles from any part of Harris County, unless there is no facility in Harris County that receives, services or distributes such goods and services to businesses and residents of Harris County.

Regional entertainment facility means buildings and structures, including fixed machinery and equipment, used or to be used to provide entertainment through the admission of the general public, where the majority of users reside at least 100 miles from any part of Harris County, unless there is no facility providing the same or similar entertainment in Harris County.

Regional service facility means buildings and structures, including fixed machinery and equipment, used or to be used to service goods, where a majority of the goods being serviced originate at least 100 miles from any part of Harris County, unless there is no facility in Harris County where businesses and residents of the county can obtain such service.

Research and development facility means buildings and structures, including machinery and equipment, used or to be used primarily for research or experimentation to improve or develop current technology, including but not limited to bio-medicine, electronics or pre-commercial emerging industries.

Research facility means buildings and structures, including fixed machinery and equipment, used or to be used primarily for research or experimentation.

Residential facility means one or more buildings and structures, including machinery and equipment, used or to be used primarily for living, sleeping, cooking and eating, that are intended to be used or occupied as dwelling places whether or not attached.

Retail facility means buildings and structures, including machinery and equipment, used or to be used primarily for the sale or service of goods or foods to consumers.

TCEQ means the Texas Commission on Environmental Quality or other agency of the

state of Texas that administers the voluntary cleanup program authorized in Subchapter S, Chapter 361, Texas Health & Safety Code.

Target area means an area that qualifies for Texas Enterprise Zone designation pursuant to the Texas Enterprise Zone Act.

Texas Enterprise Zone Act means Chapter 2303 of the Texas Government Code, as amended from time to time.

Total green stormwater infrastructure cost means, with respect to a facility that is eligible for a green stormwater infrastructure tax abatement, the total cost to the owner for the construction of green stormwater infrastructure, including soft costs such as planning and design costs and interest incurred in financing the construction of green stormwater infrastructure, and, for green stormwater infrastructure described in subsection (c)(ii) of section 44-132, five years of maintenance costs, but excluding the costs associated with construction of conventional stormwater detention.

Total project cost means, with respect to a facility that is eligible for a LEED tax abatement or a green stormwater infrastructure tax abatement, the total cost of construction to the owner, including soft costs such as planning and design, but excluding the costs of the acquisition of land.

USGBC means the U.S. Green Building Council.

(Ord. No. 2018-391, § 2(Exh. A), 5-16-2018; Ord. No. 2020-424, § 2(Exh. A), 5-13-2020; Ord. No. 2020-1091, § 2, 12-16-2020; Ord. No. 2022-344, § 4, 5-4-2022; Ord. No. 2024-624, §§ 3, 8-28-2024)

Sec. 44-122. Reinvestment zones.

(a) Tax abatement shall only be allowed in a reinvestment zone.

(b) Reinvestment zones in the city for the purpose of tax abatement shall be considered for designation by city council upon the recommendation of the director subject to the criteria of this section. The city council may approve the creation of reinvestment zones on a zone-by-zone basis after a public hearing before the city council.

(c) The city council shall not adopt an ordinance designating a reinvestment zone until it has held a public hearing at which interested persons are entitled to speak and present evidence for or against the designation. Notice of the hearing shall be given not later than the seventh day before the date of the hearing by:

(1) Publication in a newspaper of general circulation in the city; and

(2) Delivery in writing to the presiding officer of each eligible jurisdiction.

The notice shall contain the location, time, and place of the public hearing and a description of the proposed boundaries of the reinvestment zone.

(d) To be designated as a reinvestment zone an area must:

(1) Substantially impair or arrest the sound growth of the city, retard the provision of housing accommodations or constitute an economic or social liability and be a menace to the public health, safety, morals, or welfare in its present condition and use by reasons of the presence of:

a. A substantial number of substandard, slum, deteriorated, or deteriorating structures;

b. The predominance of defective or inadequate sidewalks or streets;

c. Faulty size, adequacy, accessibility or usefulness of lots;

d. Unsanitary or unsafe conditions;

e. The deterioration of site or other improvements;

f. Tax or special assessment delinquency exceeding the fair value of the land;

g. Defective or unusual conditions of title;

h. Conditions that endanger life or property by fire or other cause; or

i. Any combination of these factors or conditions;

(2) Be predominantly open or undeveloped and, because of obsolete platting, deterioration of structures or site improvements or other factors, substantially impair or arrest the sound growth of the city;

(3) Be designated a local or state-federal enterprise zone under the Texas Enterprise Zone Act;

(4) Be located wholly within an eligible area under Section 119 of the Housing and Community Development Act of 1974, as identified from time to time by city council; or

(5) Be reasonably likely as a result of the designation to contribute to the retention or expansion of primary employment or to attract major investment in the zone that would be a benefit to the property and the larger community and that would contribute to the economic development of the city.

(e) The goals and objectives expressed above and the standards and restrictions expressed in Chapter 312 of the Texas Tax Code, as amended, are not exhaustive and shall be supplemented by such further and additional goals, objectives, rules, standards and restrictions as the city council may from time to time impose.

(f) The designation of a reinvestment zone hereunder shall expire five years after the date of its designation and may be renewed for periods not to exceed five years. The expiration of a designation, however, shall not affect any existing agreement entered into pursuant to this article.
(Ord. No. 2018-391, § 2(Exh. A), 5-16-2018; Ord. No. 2020-424, § 2(Exh. A), 5-13-2020; Ord. No. 2020-1091, § 3, 12-16-2020; Ord. No. 2022-344, § 4, 5-4-2022; Ord. No. 2024-624, § 2, 8-28-2024)

Sec. 44-123. Abatement application.

(a) Any present or potential owner in the city may request tax abatement by filing a written request with the director.

(b) The application shall consist of a complete application form accompanied by a nonrefundable application fee in the amount stated for the applicable provision in the city fee schedule, subject to subsection (k) of this section, and, unless otherwise provided herein:

(1) A general description of the new improvements to be undertaken;

(2) A descriptive list of the improvements for which abatement is requested;

(3) A list of the kind, number and location of all proposed improvements of the property;

(4) A map and legal description of the property;

(5) A time schedule for undertaking and completing the proposed improvements;

(6) Financial information including but not limited to items (i) demonstrating the role of property tax costs in the economics of the proposed improvements; (ii) stating concisely the amounts and sources of financing for the proposed improvements, including all sources and terms of debt and equity financing; and (iii) demonstrating the overall financial impact of the proposed improvements on the local and regional economy, using reliable economic forecast modeling tools in such form as approved by the director;

(7) If the applicant is considering a location outside the city for the proposed improvements, evidence of abatement or other financial incentive from other local, state, or federal governmental entities; and

(8) A statement describing how the proposed improvements are consistent with the general policy stated in section 44-120 of this Code.

(c) The complete application for an economic development abatement shall consist of a complete application form accompanied by a nonrefundable application fee in the amount stated for this provision in the city fee schedule and:

(1) A certification of the current number of permanent, part-time, and contract employees of the applicant, by category, at the time of the application;

(2) If the applicant is considering a location outside the city for the project, information regarding the project's competitive siting, including written evaluation of competing locations for expansion, relocation, or new operations, including identification of specific sites in those locations;

(3) For a project located in a leased facility, the name and address of the lessor and, if executed, a copy of the lease; and

(4) For modernization, a statement of the assessed value of the existing facility for the tax year immediately preceding the application year, separately stated for real and tangible personal property.

(d) The complete application for a brownfield development abatement shall consist of a complete application form accompanied by a nonrefundable application fee in the amount stated for this provision in the city fee schedule and:

(1) A description of the intended use of the proposed brownfield facility; and

(2) A copy of a voluntary cleanup agreement with the TCEQ for the proposed brownfield facility or a certificate of completion for the property issued by TCEQ for the proposed brownfield facility.

(e) The complete application for a deteriorated/demolished property abatement shall consist of a complete application form accompanied by a nonrefundable application fee in the amount stated for this provision in the city fee schedule and

(1) The information required by items (1) through (5) of subsection (b) of this section;

(2) A copy of the order;

(3) A copy of the demolition permit issued by the city for the demolition of the improvements subject to the order; and

(4) Photographs showing the current conditions of the deteriorated/demolished property.

(f) The complete application for a LEED tax abatement shall consist of a complete application form accompanied by a nonrefundable application fee in the amount stated for this provision in the city fee schedule and:

(1) The information required by items (1) through (5) of subsection (b) of this section;

(2) The total project cost; and

(3) Documentation that the applicant has registered with USGBC seeking LEED certification for the new commercial facility for which it is seeking a tax abatement.

(g) The complete application for a green stormwater infrastructure tax abatement shall consist of a complete application form accompanied by a nonrefundable application fee in the amount stated for this provision in the city fee schedule and:

(1) The information required by items (1) through (5) of subsection (b) of this section;

(2) Proposed strategy to obtain all required plans and approvals to construct the green stormwater infrastructure;

(3) Proposed strategy to maintain, during the abatement period, the green stormwater infrastructure in accordance with the applicable detention volume or stormwater quality design criteria from the design manual;

(4) The total project cost;

(5) The total green stormwater infrastructure cost; and

(6) An analysis that indicates that the green stormwater infrastructure will mitigate risk of flooding, reduce heat island effect or other climate-related hazards, improve water quality, sequester carbon, encourage water conservation, or restore native ecosystems through green stormwater infrastructure. The analysis must demonstrate how the green stormwater infrastructure of the facility for which the applicant is seeking a tax abatement

provides (i) hazard mitigation and additional environmental, social, or ecosystem benefits or services, and (ii) a net public benefit. The analysis must use a methodology that (i) is promoted or utilized by federal agencies, or (ii) has otherwise been peer-reviewed and is academically-accepted in the field of green infrastructure and stormwater management.

(h) The application form may require such financial and other information as the director deems appropriate for evaluation of the financial capacity and other factors of the applicant.

(i) The city shall not enter into an agreement if it finds that the request for the abatement was filed after the commencement of construction, alteration, or installation of improvements related to a proposed modernization, expansion or new facility. An applicant is ineligible for abatement if a decision to commence a modernization, expansion or new facility in the city has been formally announced on or before an application for abatement has been filed with the city.

(j) Upon receipt of a complete application for abatement, the director shall notify in writing the presiding officer of the governing body of each eligible jurisdiction of the abatement application, which notice shall include a copy of the application.

(k) An applicant who submits an application for more than one type of tax abatement shall only be required to submit one nonrefundable application fee, which, if applicable, shall be in the amount stated for the type of tax abatement with the highest application fee.

(l) The application fees established in this section shall not be subject to the annual adjustment provided for in section 1-13 of this Code.
(Ord. No. 2018-391, § 2(Exh. A), 5-16-2018; Ord. No. 2020-424, § 2(Exh. A), 5-13-2020; Ord. No. 2020-1091, § 4, 12-16-2020; Ord. No. 2022-344, § 4, 5-4-2022; Ord. No. 2024-624, § 2, 8-28-2024)

Sec. 44-124. Cost/benefit analysis.

After receipt of a complete application for abatement, the director shall prepare a cost/benefit impact analysis setting out the impact of the proposed tax abatement. the cost/benefit impact analysis shall include, but need not be limited to, an estimate of the economic effect of the abatement of taxes, the benefit to the city and the property to be included in the zone, and any other pertinent measures of the project's overall projected effects on the city's revenue stream both during and after the abatement period.
(Ord. No. 2018-391, § 2(Exh. A), 5-16-2018; Ord. No. 2020-424, § 2(Exh. A), 5-13-2020; Ord. No. 2022-344, § 4, 5-4-2022; Ord. No. 2024-624, § 2, 8-28-2024)

Sec. 44-125. Variances.

Requests for a variance from any of the provisions of these guidelines and criteria shall be made in writing to the director; provided however, the total duration of an abatement shall in no instance exceed ten years, or such other limitation on duration as provided by applicable law. A request for a variance shall include a complete description of the circumstances explaining why the applicant should be granted a variance and how the grant of abatement is consistent with the general policy of section 44-120 of this Code. If the city council finds that the application meets the economic development objectives of these guidelines, then the city council may approve a request for variance by a three-fourths vote of the city council members present.
(Ord. No. 2018-391, § 2(Exh. A), 5-16-2018; Ord. No. 2020-424, § 2(Exh. A), 5-13-2020; Ord. No. 2022-344, § 4, 5-4-2022; Ord. No. 2024-624, § 2, 8-28-2024)

Sec. 44-126. Public hearing and approval; notice requirements.

(a) Prior to entering into an agreement, the city council shall hold a public hearing at which interested persons shall be entitled to speak and present written materials for or against the approval of the agreement. Notice of the public hearing shall be published in a newspaper of general circulation and posted on the city's website not later than the seventh day before the date of the hearing. Notice of the public hearing may be given, posted or published in other places or by

other means as the director deems appropriate, including giving notice to civic associations in the area surrounding the proposed zone.

(b) In order to enter into an agreement, the city council must find that the terms of the proposed agreement meet the applicable criteria of this article and that:

(1) There will be no substantial potential adverse effect on the provision of city services or the tax base; and

(2) The planned use of the property will not constitute a hazard to public safety, health or morals.

(c) Not later than the seventh day before the day on which the city enters into an agreement, the city shall deliver to the presiding officer of the governing body of each eligible jurisdiction a written notice that the city intends to enter into the agreement, together with a copy of the proposed agreement.

(d) In addition to any other requirement of law, the public notice of the meeting at which city council will consider the approval of an agreement must be provided in the manner required by Chapter 551 of the Texas Government Code at least 30 days before the scheduled time of the meeting and must contain:

(1) The name of the owner and the name of the applicant for the agreement;

(2) The name and location of the reinvestment zone in which the property subject to the agreement is located;

(3) A general description of the nature of the improvements or repairs included in the agreement; and

(4) The estimated cost of the improvements or repairs.

(Ord. No. 2018-391, § 2(Exh. A), 5-16-2018; Ord. No. 2020-424, § 2(Exh. A), 5-13-2020; Ord. No. 2022-344, § 4, 5-4-2022; Ord. No. 2024-624, §§ 2, 4, 8-28-2024)

Sec. 44-127. Economic development abatement authorized.

(a) *Authorized facility.* A facility is eligible for economic development abatement if it is a manufacturing facility, mixed-use facility, regional distribution center facility, regional service facility, regional entertainment facility, research facility, research and development facility, residential facility, retail facility, or other basic industry facility.

(b) *Creation of new value.* Abatement shall only be granted for the additional value of eligible property improvements made subsequent to and listed in an agreement, subject to such limitations as the city council may require.

(c) *New and existing facilities.* Abatement may be granted for new facilities or the expansion of existing facilities. Improvements to existing facilities for purposes of modernization may receive abatement if proven to be essential to the entity's or the facility's economic survival.

(d) *Eligible property.* The following types of property shall be eligible for abatement:

(1) Buildings;

(2) Structures;

(3) Fixed machinery and equipment;

(4) Site improvements;

(5) Office space and related fixed improvements necessary to the operation and administration of the facility; and

(6) Tangible personal property, including inventory purchased after the effective date of a tax abatement agreement under this article, for logistics, distribution, or manufacturing facility, with the exception of inventory of natural gas, fluids or gases, or crude petroleum products that are not integral to the operation of the facility.

(e) *Ineligible property.* The following types of property shall be ineligible for abatement:

(1) Land;

(2) Supplies;

(3) Tools;

(4) Vehicles, vessels and aircraft;

(5) Property receiving a historic site exemption as provided in section 44-29 of this Code;

(6) Deferred maintenance investments;

(7) Improvements for the generation or transmission of electrical energy not wholly consumed by a new facility or expansion;

(8) Any improvements, including those to produce, store or distribute natural gas, fluids or gases, that are not integral to the operation of the facility;

(9) Any improvements that are not integral to the operation of the facility;

(10) Property owned or used by the State of Texas or its political subdivisions or by an organization owned, operated or directed by a political subdivision of the State of Texas; and

(11) Property that is owned or leased at any time during the term of an abatement agreement by a member of city council or by a member of the city planning commission.

(f) *Value and term of the abatement.* Abatement may be granted effective upon the January 1 valuation date immediately following the effective date of the agreement or such later date upon which the parties may agree. On or before reaching the agreed date, the parties may agree, by mutual consent, to terminate the agreement, subject to approval by the city council. Projects (other than modernizations) that meet these guidelines and criteria are eligible for abatement on the value of the new properties in an amount and for a duration based on an analysis of factors such as industry competitive disadvantages, quantifiable economic impacts, and furthering other public purposes in unique ways. Depending on an analysis of such factors and data, the director will evaluate and make a recommendation for approval by the city council of the appropriate amount and duration of abatement. In no case, however, shall the period of abatement exceed ten years.

If a modernization project includes facility replacement, the value upon which abatement shall be determined shall be the value of the new unit less the value of the old unit(s).

(g) Economic qualifications. Except as provided in subsections (h), (i), (j). and (k) of this section, to be eligible for abatement, the planned improvement shall:

(1) Provide an economic benefit to the city, taking all relevant factors into consideration, including:

a. Size of the abatement;

b. Income from sales tax and franchise fees generated by the planned improvement; and

c. Any additional expense to the city in providing city services as a result of the improvement;

(2) Be necessary because capacity cannot be provided efficiently utilizing existing improved property when reasonable allowance is made for necessary improvements;

(3) Be reasonably expected to increase the value of the real or tangible personal property in the amount of $1,000,000 for deteriorated/demolished property redevelopment or $5,000,000 for other development, including commercial, upon completion of construction; and

(4) Be expected to either:

a. Prevent the loss of permanent employment, retain or create permanent employment for at least 25 people on a permanent basis in the designated zone beginning three years after the effective date of abatement and continuing through the remaining term of the agreement; or

b. Result in an abatement equivalent to a maximum investment of $500,000.00 per job created or retained.

(h) *Economic qualifications in enterprise zone.* If the property includes property described under the provisions of this section and (i) is located in an area designated as an enterprise zone and the city has not created a reinvestment zone or (ii) is an authorized facility that meets the criteria established for a qualified business pursuant to the Texas Enterprise Zone Act, to be eligible for tax abatement, the planned improvement shall:

(1) Be reasonably expected to increase the value of the property by a minimum amount of $500,000.00 upon completion of construction;

(2) Be expected to create additional permanent employment for at least five people on a permanent basis who are residents of the enterprise zone or who are economically disadvantaged as that term is defined in the Texas Enterprise Zone Act;

(3) Not be expected to solely or primarily have the effect of transferring employment from one part of the city to another; and

(4) Be necessary because capacity cannot be provided efficiently utilizing existing improved property when reasonable allowance is made for necessary improvements.

(i) *Economic qualifications in a complete community.* If the property includes property described under the provisions of this section and is located in an area designated as a complete community, to be eligible for tax abatement, the planned improvement shall:

(1) Be reasonably expected to increase the value of the real or tangible personal property in the amount of $500,000.00 for deteriorated/demolished property redevelopment or $1,000,000.00 for other development, including commercial, upon completion of construction; and

(2) Be expected to create permanent employment for at least five people on a permanent basis beginning three years after the effective date of abatement and continuing through the remaining term of the agreement.

(j) *Economic qualifications in a qualifying census tract.* If the property includes property described under the provisions of this section and is located in a qualifying census tract, to be eligible for tax abatement, the planned improvement shall:

(1) Be reasonably expected to increase the value of the real or tangible personal property in the amount of $500,000.00 for deteriorated/demolished property redevelopment or $1,000,000.00 for other development, including commercial, upon completion of construction; and

(2) Be expected to create permanent employment for at least five people on a permanent basis beginning three years after the effective date of abatement and continuing through the remaining term of the agreement.

(k) *Research and development projects.* If the planned improvement is for a research and development facility, to be eligible for tax abatement, the planned improvement shall:

(1) Be reasonably expected to increase the value of the property by a minimum amount of $1,000,000.00 upon the completion of construction; and

(2) Be expected to create permanent employment for at least five people on a permanent basis in the designated zone, provided that this employment qualification shall take effect two years after the effective date of abatement and continue through the term of the agreement. The abatement period shall not exceed five years from the effective date of abatement, and the percentage of value to be abated shall be 100 percent throughout the abatement period.

(l) *Taxability.* From the date of execution of the abatement agreement to the end of the abatement period, taxes shall be payable as follows:

(1) The value of ineligible property as provided in subsection (e) of this section shall be fully taxable;

(2) The base year value of existing eligible property as determined each year shall be fully taxable; and

(3) The additional value of new eligible property shall be taxable in the manner described in subsection (f) of this section.

(Ord. No. 2018-391, § 2(Exh. A), 5-16-2018; Ord. No. 2020-424, § 2(Exh. A), 5-13-2020; Ord. No. 2022-344, § 4, 5-4-2022; Ord. No. 2024-624, § 2, 8-28-2024)

Sec. 44-128. Agreement for economic development abatement.

Upon designation of a reinvestment zone, the city may enter into an agreement that shall include:

(1) Estimated value to be abated and the base year value;

(2) Percent of value to be abated each year as provided in this article;

(3) The commencement date and the termination date of abatement;

(4) The proposed use of the facility, nature of construction, time schedule, map, property description and improvement list as provided in this article;

(5) Contractual obligations regarding the event of default, violation of terms or conditions, delinquent taxes, recapture of all previously abated taxes, administration, and assignment as provided in this article and other provisions that may be required for uniformity or by state law;

(6) Amount of investment and total permanent employees to be retained or created and total full-time equivalent jobs to be retained or created;

(7) A requirement that the abatement recipient, on or before February 1 of each year the tax abatement agreement is in effect, provide the director an affidavit that includes a delineation of the number of permanent employees, contract employees and part-time employees of the abatement recipient as of the immediately preceding December 1, who report to work in the reinvestment zone at each site covered by the agreement;

(8) A requirement that the abatement recipient annually file the appropriate form with the appropriate county appraisal district to qualify for the abatement;

(9) A provision that contract employees and part-time employees may be used to comply with the abatement recipient's contractual obligation to create/retain jobs on a full-time equivalency basis for any number of jobs; provided that full-time equivalent jobs shall only be used to satisfy the abatement recipient's contractual obligation if the abatement recipient maintains a minimum of 25 permanent employees who work on the project within the reinvestment zone;

(10) A requirement that property in a reinvestment zone that is owned or leased at any time during the term of an abatement agreement by a member of the city council or by a member of the city planning commission is ineligible for and excluded from tax abatement;

(11) A requirement that the abatement recipient's chief financial officer, or the officer's designee, on or before January 1 of each year that the agreement is in effect, provide the director an affidavit that the recipient is and has been in compliance in the prior year with all agreement provisions;

(12) A requirement that the abatement recipient's chief financial officer, or the officer's designee, who cannot make the affidavit required by item (11) of this section on any January 1 shall provide the director with a written statement identifying any provision of the agreement with which the abatement recipient is or has not been in full compliance;

(13) A provision that failure by the abatement recipient's chief financial officer, or the officer's designee, to timely provide the director with either the affidavit

required by item (11) of this section or the statement required by item (12) of this section will result in automatic default under the agreement for which no notice of default or opportunity to cure shall be required; and

(14) A provision that the city may amend the agreement in lieu of termination pursuant to section 44-135(d) of this Code.

(Ord. No. 2018-391, § 2(Exh. A), 5-16-2018; Ord. No. 2020-424, § 2(Exh. A), 5-13-2020; Ord. No. 2020-1091, § 5, 12-16-2020; Ord. No. 2022-344, § 4, 5-4-2022; Ord. No. 2024-624, § 2, 8-28-2024)

Sec. 44-129. Brownfield development abatement authorized.

(a) *Creation.* A property tax abatement program is hereby created for brownfield development abatements to be administered in accordance with Chapter 312 of the Texas Tax Code.

(b) *Authorized facility.* A facility shall be eligible for brownfield development abatement if it is real property or tangible personal property located on real property that is:

(1) Located in a reinvestment zone;

(2) Not an improvement project financed by tax increment bonds; and

(3) The subject of a voluntary cleanup agreement under Section 361.606 of the Texas Health & Safety Code.

(c) *Eligible property.* The following types of property are eligible for brownfield development abatement:

(1) Land;

(2) Buildings;

(3) Structures;

(4) Fixed machinery and equipment;

(5) Site improvements; and

(6) Tangible personal property located on the real property.

(d) *Ineligible property.* The following types of property are ineligible for brownfield development abatement:

(1) Property that is owned or used by the State of Texas or its political subdivisions or by an organization owned, operated or directed by a political subdivision of the State of Texas; and

(2) Property that is owned or leased at any time during the term of an abatement agreement by a member of city council or by a member of the city planning commission.

(e) *Value and term of the abatement.* Abatement shall be granted effective upon the January 1 valuation date immediately following the date the owner of the brownfield facility receives a certificate of completion for the property under Section 361.609 of the Texas Health and Safety Code. A brownfield facility is eligible for abatement according to the following sliding scale:

Year Abated	*Percentage of Value Abated*
1	100%
2	75%
3	50%
4	25%

Provided, however that no abatement shall be given in a year in which the use of the brownfield facility is changed from the use specified in the certificate of completion and the city council determines that the new use may result in an increased risk to human health or the environment.

(f) *Taxability.* From the date of execution of the abatement agreement to the end of the abatement period, the value of eligible property shall be taxable in the manner described in subsection (e) of this section.

(Ord. No. 2018-391, § 2(Exh. A), 5-16-2018; Ord. No. 2020-424, § 2(Exh. A), 5-13-2020; Ord. No. 2022-344, § 4, 5-4-2022; Ord. No. 2024-624, § 2, 8-28-2024)

Sec. 44-130. Agreement for brownfield development abatement.

Upon designation of a reinvestment zone, the city may enter into an agreement with the owner of the brownfield facility. The agreement shall include:

(1) The estimated value to be abated;

(2) The percent of value to be abated each year as provided in this article;

(3) The commencement date and the termination date of abatement;

(4) The proposed use of the facility as indicated on the certificate of completion issued pursuant to Section 361.609 of the Texas Health and Safety Code, a map showing the location of the brownfield facility, and a property description of eligible improvements;

(5) Contractual obligations regarding the event of default, violation of terms or conditions, delinquent taxes, recapture, administration, and assignment as provided in this article and other provisions that may be required for uniformity or by state law;

(6) A requirement that the owner of the eligible property subject to abatement annually file with the appraisal district the appropriate form for qualifying for the abatement;

(7) A requirement that property in a reinvestment zone that is owned or leased at any time during the term of an abatement agreement by a member of the city council or by a member of the city planning commission is ineligible for and excluded from tax abatement;

(8) A requirement that the abatement recipient's chief financial officer, or his or her designee, on or before January 1 of each year that the agreement is in effect, provide the director an affidavit that the recipient is and has been in full compliance with all agreement provisions;

(9) A requirement that the abatement recipient's chief financial officer who cannot make the affidavit required by item (8) of this section on any January 1 shall provide the director with a written statement identifying any provision of the agreement with which the abatement recipient is or has not been in compliance;

(10) A provision that failure by the abatement recipient's chief financial officer, or the officer's designee, of an abatement recipient to timely provide the director with either the affidavit required by item (8) of this section or the affidavit required by item (9) of this section will result in automatic default under the agreement for which no notice of default or opportunity to cure shall be required; and

(11) A provision that the city may amend the agreement in the event of default or in lieu of termination pursuant to section 44-135(d) of this Code.

(Ord. No. 2018-391, § 2(Exh. A), 5-16-2018; Ord. No. 2020-424, § 2(Exh. A), 5-13-2020; Ord. No. 2020-1091, § 6, 12-16-2020; Ord. No. 2022-344, § 4, 5-4-2022; Ord. No. 2024-624, § 2, 8-28-2024)

Sec. 44-131. LEED tax abatement.

(a) *Authorized facility.* A facility is eligible for a LEED tax abatement if:

(1) It is a new commercial facility whose owner has registered with USGBC to apply for LEED certification for the facility;

(2) Construction of the facility has not commenced prior to the application for abatement; and

(3) The total project cost is reasonably expected by the applicant to be at least $3,000,000.

This type of tax abatement may be a standalone abatement or part of a standard economic development abatement.

(b) *Value and term of abatement.* Abatement shall be granted effective upon the January 1 valuation date immediately following the date

that both of the following events have occurred: (i) construction of the facility has been completed in accordance with the terms of the agreement, and (ii) a LEED certification has been obtained for the facility. The abatement may remain in effect for up to ten years. A facility described in subsection (a) of this section is eligible for abatement for the percentage of the increase in the facility's value over the base year value that corresponds to the applicable LEED certification level obtained for the facility according to the following sliding scale:

	LEED Certification Level	*Percentage of Increase Over Base Year Value Abated*
(1)	Silver	5%
(2)	Gold	10%
(3)	Platinum	15%

(c) *Agreement.* Upon designation of a reinvestment zone, the city may enter into an abatement agreement that shall include:

(1) The items listed in items (3)—(5), (7), (8), and (10)—(14) of section 44-128 of this Code;

(2) The estimated value to be abated and the base year value;

(3) The percentage of value abated based upon the applicable LEED certification level;

(4) The total project cost; and

(5) A requirement that the facility be constructed pursuant to and in compliance with all applicable permitting requirements.

(d) *Taxability.* From the date of the city's execution of the abatement agreement to the end of the abatement period, the value of a facility described by subsection (a) of this section shall be taxable in the manner described in subsection (b) of this section.

(Ord. No. 2018-391, § 2(Exh. A), 5-16-2018; Ord. No. 2020-424, § 2(Exh. A), 5-13-2020; Ord. No. 2020-1091, § 7, 12-16-2020; Ord. No. 2022-344, § 4, 5-4-2022; Ord. No. 2024-624, § 2, 8-28-2024)

Sec. 44-132. Green stormwater infrastructure tax abatement.

(a) *Authorized facility.* A facility is eligible for a green stormwater infrastructure tax abatement if:

(1) It is either an authorized facility as described in section 44-127(a) of this Code or a brownfield facility;

(2) Construction or alteration of the facility has not commenced prior to the application for abatement; and

(3) The total project cost is reasonably expected to be at least $735,000, with a minimum total green stormwater infrastructure cost of $35,000.

This type of tax abatement may be a standalone abatement or part of a standard economic development abatement.

(b) *Value and term of abatement.* Abatement shall be granted effective upon the January 1 valuation date immediately following the date that both of the following events have occurred: (i) all permits required by the design manual for the green stormwater infrastructure have been obtained, and (ii) the construction or alteration of the facility has been completed under the terms of the agreement. The abatement may remain in effect for up to ten years. A facility described in subsection (a) of this section is eligible for abatement for 100 percent of the increase in facility's value over the base year value; provided, however, that the amount of abatement shall not exceed the total green stormwater infrastructure cost.

(c) *Eligible green stormwater infrastructure.* To be eligible for abatement, a facility described in subsection (a) of this section must include at least one type of green stormwater infrastructure that either (i) meets the applicable design criteria for a low impact development design approach described in chapter 9 of the design manual; or (ii) involves urban forestry and native ecosystem restoration through the planting of trees or shrubs listed in appendices A-1, A-2 and D of chapter 33 of this Code.

(d) *Qualifications.* To be eligible for abatement, a facility described in subsection (a) of this section must:

(1) Include green stormwater infrastructure that is (i) expected to mitigate risk of flooding, reduce heat island effect or other climate-related hazards, improve water quality, sequester carbon, encourage water conservation, or restore native ecosystems, and (ii) designed in accordance with the design manual and the applicable water quantity and stormwater quality design criteria from the design manual;

(2) Provide an economic benefit to the city, taking into consideration all relevant factors, including the size of the abatement, income from sales tax and franchise fees generated by the planned improvement, and any additional expense to the city in providing city services as a result of the improvement; and

(3) Be reasonably expected to increase the value of the real or tangible personal property within the reinvestment zone.

(e) *Agreement.* Upon designation of a reinvestment zone, the city may enter into an abatement agreement that shall include:

(1) The items listed in items (3)—(5), (7), (8), and (10)—(14) of section 44-128 of this Code;

(2) The estimated value to be abated and the base year value, provided that the amount of the abatement may not exceed the total green stormwater infrastructure cost;

(3) The total project cost and the total green stormwater infrastructure cost;

(4) A requirement that the facility and the green stormwater infrastructure be constructed pursuant to and in compliance with all applicable permitting requirements;

(5) A requirement that the green stormwater infrastructure is maintained in compliance with the applicable design manual requirements, including annual stormwater quality permits and annual certification requirements;

(6) A requirement that the owner maintain, and provide to the city for inspection, records with respect to the stormwater quality and water quantity benefits of the green stormwater infrastructure, such as mitigating risk of flooding, reducing heat island effect or other climate-related hazards, improving water quality, sequestering carbon, encouraging water conservation, or restoring native ecosystems; and

(7) A requirement that the green stormwater infrastructure be made accessible to others for purposes of study and education regarding best practices for design, construction and maintenance of green stormwater infrastructure.

(f) *Taxability.* From the date of execution of the abatement agreement to the end of the abatement period, the value of a facility described by subsection (a) of this section shall be taxable in the manner described in subsection (b) of this section.

(Ord. No. 2020-1091, § 8, 12-16-2020; Ord. No. 2022-344, § 4, 5-4-2022; Ord. No. 2024-624, §§ 2, 5, 8-28-2024)

Sec. 44-133. Deteriorated/demolished property abatement authorized.

(a) *Creation.* A property tax abatement program may be granted for deteriorated/demolished properties that meet the requirements of this section.

(b) *Authorized facility.* A facility shall be eligible for abatement if:

(1) It is a deteriorated/demolished property;

(2) It is not an improvement project financed by tax increment bonds;

(3) It is constructed pursuant to and in compliance with a valid building permit issued by the city;

(4) Construction has not commenced prior to the application for abatement; and

(5) It is not a facility eligible for economic development abatement pursuant to section 44-127 of this Code.

(c) *Eligible property.* The following types of property are eligible for deteriorated/demolished property abatement:

(1) Buildings;

(2) Structures;

(3) Fixed machinery and equipment; and

(4) Site improvements.

(d) *Ineligible property.* The following types of property are ineligible for deteriorated/demolished property abatement:

(1) Land;

(2) The value of improvements on deteriorated/demolished properties prior to demolition;

(3) Residential facilities containing four or fewer dwelling units per structure other than a deteriorated/demolished property redevelopment;

(4) Modernization;

(5) Inventory;

(6) Supplies;

(7) Tools;

(8) Vehicles, vessels and aircraft;

(9) Deferred maintenance investments;

(10) Property that is owned or used by the State of Texas or its political subdivisions or by an organization owned, operated or directed by a political subdivision of the State of Texas;

(11) Property that is owned or leased at any time during the term of an abatement agreement by a member of city council or by a member of the city planning commission; and

(12) Property receiving a historic site exemption as provided in section 44-29 of this Code.

(e) *Value and term of the abatement.* Abatement shall be granted effective upon the January 1 valuation date following the year in which the owner receives a final certificate of occupancy for the improvements constructed on the property. Absent extraordinary conditions as determined by the director in the exercise of his or her professional judgment, the amount of abatement shall not exceed 90% for properties located in a target area and shall not exceed 50% for properties not located in a target area.

(f) *Economic qualifications.* To be eligible for abatement, the planned new improvement shall:

(1) Provide an economic benefit to the city, taking into consideration all relevant factors, including the impact of the new improvements on the neighborhood in which the property is located; and

(2) Be reasonably expected to increase the value of the real deteriorated/demolished property by the lesser of $1,000,000.00 or 1.5 × the value of the demolished improvements on the deteriorated/demolished property.

(g) *Taxability.* From the date of execution of the abatement agreement to the end of the abatement period, the value of eligible property shall be taxable in the manner described in subsection (l) of section 44-127 of this Code.
(Ord. No. 2018-391, § 2(Exh. A), 5-16-2018; Ord. No. 2020-424, § 2(Exh. A), 5-13-2020; Ord. No. 2020-1091, § 8, 12-16-2020; Ord. No. 2022-344, § 4, 5-4-2022; Ord. No. 2024-624, § 2, 8-28-2024)

Sec. 44-134. Agreement for deteriorated/demolished property abatement.

Upon designation of a reinvestment zone, the city may enter into an agreement with the owner of the facility to be constructed on the deteriorated/demolished property. The agreement shall include:

(1) The estimated value to be abated;

(2) The percent of value to be abated each year as provided in this article;

(3) The commencement date and the termination date of abatement;

(4) Contractual obligations regarding the event of default, violation of terms or conditions, delinquent taxes, recapture, administration, and assignment as provided in this article and other provisions that may be required for uniformity or by state law;

(5) A requirement that the owner of the eligible property subject to abatement annually file with the appropriate county appraisal district the appropriate form for qualifying for the abatement;

(6) A requirement that property that is owned or leased at any time during the term of an abatement agreement by a member of the city council or by a member of the city planning commission is ineligible for and excluded from tax abatement; and

(7) A provision that the city may amend the agreement in the event of default or in lieu of termination pursuant to section 44-134(d) of this article.

(Ord. No. 2018-391, § 2(Exh. A), 5-16-2018; Ord. No. 2020-424, § 2(Exh. A), 5-13-2020; Ord. No. 2020-1091, § 8, 12-16-2020; Ord. No. 2022-344, § 4, 5-4-2022; Ord. No. 2024-624, § 2, 8-28-2024)

Sec. 44-135. Default; recapture.

(a) *Event of default.* The abatement recipient shall be in default under the agreement if any of the following occur at any time during the term of the agreement:

(1) A facility is completed and begins producing or providing the product or service delineated in the agreement, but subsequently discontinues producing or providing the product or service for any reason other than fire, explosion, or other casualty or accident or natural disaster;

(2) The abatement recipient fails to comply timely with job creation or investment requirements pursuant to the agreement;

(3) The abatement recipient fails to comply timely with any material term of the agreement;

(4) The abatement recipient fails to timely file any required report or statement or to timely give any required notice pursuant to the agreement; or

(5) Employees or designated representatives of the city determine pursuant to an inspection under section 44-135 of this Code that the abatement recipient has not complied with the agreement.

(b) *Notice.*

(1) If the director determines that an event of default has occurred, the director shall notify the abatement recipient in writing at the address stated in the agreement, and if the condition of default is not cured within 30 days after the date of the notice, then the city may take any one or more of the actions set forth in subsection (d) of this section. Provided, however, that the city shall only be required to give a 30-day notice of default for failure to comply with job creation or investment requirements. The abatement recipient's failure to comply with job creation or investment requirements is an "incurable default." Within the 30-day notice period, the abatement recipient shall be entitled to question the accuracy of the city's determination of the incurable default but shall not be entitled to cure the default. After the 30-day notice period, if the city concludes that its determination of the incurable default is correct ("noticed incurable default"), then the city shall be entitled to pursue any one or more of the remedies set forth in subsection (d) of this section.

(2) If the abatement recipient is in default under subsection (a) of this section, the abatement recipient shall notify the city within 30 days after the default and if the default is one that can be cured hereunder (and is not an incurable default), such default shall be cured within 30 days following the date of the notice of default. If the abatement recipient fails to cure such curable default within the

30-day period, then the city may pursue any one or more of the remedies listed in subsection (d) hereof.

(c) *Cure.* In curing an event of default based on any of the items set forth in subsection (a) of this section, and assuming such event of default is curable and is not an incurable default, the abatement recipient shall provide sufficient evidence to the director that the default has been cured within 30 days following the date of the notice of default. Sufficient evidence shall include the providing of the information not timely provided and/or providing evidence of the completion of the act(s) not timely performed. The city shall have the right to ask for additional information to confirm the adequate cure of any default.

(d) *City remedies for default.*

(1) In the event of a noticed incurable default or a curable default that has not been cured after notice and an opportunity to cure, no tax abatement shall be allowed for the calendar year in which the default occurs (and thereafter), and the city shall have the right to pursue any one or more of the following remedies: terminate the agreement; terminate the abatement recipient's right to any future abatement under the agreement without terminating the agreement; pursue any and all remedies allowed under the abatement agreement; and pursue any and all remedies allowed under Texas law;

(2) In addition to the foregoing, in the event of a noticed incurable default or a curable default that has not been cured after notice and an opportunity to cure, the city, in its sole discretion, may recover all or any part of the taxes abated at any time under the agreement. The abatement recipient shall pay all taxes to the city within 30 days after the city's written demand therefore. Any taxes not paid timely shall bear interest at the rate of 12% annually;

(3) Notwithstanding the foregoing, the director and the city attorney are hereby authorized to negotiate and enter into amendments and revisions to agreements under which there are noticed incurable defaults or curable defaults that have not been cured after notice and opportunity to cure. In the foregoing circumstances, the parties are also authorized to negotiate and enter into any other and further agreements they determine best protect the city's interests; and

(4) The city's right and authority to pursue any default and to recover abated taxes under this section shall survive the amendment, revision, expiration, or termination of any tax abatement agreement.

(Ord. No. 2018-391, § 2(Exh. A), 5-16-2018; Ord. No. 2020-424, § 2(Exh. A), 5-13-2020; Ord. No. 2020-1091, § 8, 12-16-2020; Ord. No. 2022-344, § 4, 5-4-2022; Ord. No. 2024-624, § 2, 8-28-2024)

Sec. 44-136. Administration.

(a) The chief appraiser of the county appraisal district shall annually determine the value of the real and personal property comprising the reinvestment zone. Each year, the abatement recipient shall furnish the city with any additional information applicable to the tax abatement that may be necessary for the administration of the abatement. Once the value of the real and personal property has been established, the chief appraiser shall notify the eligible jurisdictions of the amount of the assessment.

(b) The agreement shall stipulate that employees of the city and/or designated representatives will have full access to the reinvestment zone both during and after the expiration or termination of the term of the abatement agreement in order to inspect the facility and shall have full access to any and all abatement recipient records related to the agreement to determine, by audit or otherwise, that the abatement recipient is (or has been) in full compliance with the agreement. All inspections will be made only after the giving of 24 hours' notice and will only be conducted in such a manner as to not unreasonably interfere with the construction and/or operation of the facility.

All inspections will be made with one or more representatives of the company or individual and in accordance with safety standards.
(Ord. No. 2018-391, § 2(Exh. A), 5-16-2018; Ord. No. 2020-424, § 2(Exh. A), 5-13-2020; Ord. No. 2020-1091, § 8, 12-16-2020; Ord. No. 2022-344, § 4, 5-4-2022; Ord. No. 2024-624, § 2, 8-28-2024)

Sec. 44-137. Assignment.

An agreement may be assigned to a new owner or lessee of the facility with the written consent of the director, which consent shall not be unreasonably withheld. If the proposed assignee is an affiliated entity of the assignor, then the director may consent to an assignment if the assignor is in compliance with all terms of the agreement. Any assignment of the agreement shall not relieve the assignor of continuing liability under the agreement unless specifically agreed to in a writing signed by both the director and the city attorney. Any assignment shall provide that the assignee shall irrevocably and unconditionally assume all the duties and obligations of the assignor upon the same terms and conditions as set out in the agreement. Any assignment of an agreement shall be to an entity that contemplates the same improvements or repairs to the property, except to the extent such improvements or repairs have been completed. No assignment shall be approved if either the assignor or the assignee is indebted to the city for ad valorem taxes or other obligations.
(Ord. No. 2018-391, § 2(Exh. A), 5-16-2018; Ord. No. 2020-424, § 2(Exh. A), 5-13-2020; Ord. No. 2020-1091, § 8, 12-16-2020; Ord. No. 2022-344, § 4, 5-4-2022; Ord. No. 2024-624, § 2, 8-28-2024)

Sec. 44-138. Sunset provision.

These guidelines and criteria for tax abatement are readopted and will expire at 12:00 a.m. on August 28th, 2026. These guidelines and criteria shall apply to all applications subsequently considered by city council prior to the expiration date. At the expiration of these guidelines and criteria, all reinvestment zones and agreements created and entered into pursuant to these provisions shall be reviewed to determine whether the goals have been achieved. Based on that review, the guidelines and criteria may be readopted, amended, repealed or reauthorized, after city council has held a public hearing regarding the proposed readopting, amendment, repeal or reauthorization at which members of the public are given the opportunity to be heard. Notice of the public hearing shall be given, posted or published in the same manner provided in section 44-126(a) of this Code. The expiration of these guidelines shall not affect the validity or enforceability (for the full term thereof) of any agreement entered into when these guidelines were in effect.
(Ord. No. 2018-391, § 2(Exh. A), 5-16-2018; Ord. No. 2020-424, § 2(Exh. A), 5-13-2020; Ord. No. 2020-1091, § 8, 12-16-2020; Ord. No. 2022-344, § 3, 5-4-2022; Ord. No. 2022-344, § 3, 5-4-2022; Ord. No. 2024-624, §§ 2, 6, 8-28-2024)

ARTICLE I. IN GENERAL

Sec. 45-1. Short title.

This chapter may be known and cited as the Traffic Ordinance.
(Code 1968, § 46-1)

Sec. 45-2. Definitions.

The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Alley means any street, as herein defined, of 20 feet or less in width having no legal or official name other than "alley."

Animal has the meaning ascribed in Texas Agricultural Code section 141.001 which states an animated being that is not human and has the power of voluntary action.

Authorized emergency vehicle means any vehicle of the fire department (fire patrol), any

*__Cross references—__Use of signs or flashing lights by ambulances, § 4-11; driving livestock through streets, § 6-9; house moving, § 10-48 et seq.; noisy vehicles, § 30-3; driving vehicles in parks, § 32-29; use of police academy driving track by private persons, § 34-36; obstructing railroad crossings, § 38-9 et seq.; streets and sidewalks generally, Ch. 40; moving vehicles that throw or dump mud or clay on streets, § 40-22; street dances, § 40-27; transportation of earth materials on streets and alleys, § 40-168; vehicles for hire, Ch. 46.

police vehicle, any public or private ambulance for which a permit has been issued by the state board of health, any emergency vehicles of a municipal department or public service corporation as may be designated or authorized by the city council, any private vehicle operated by volunteer fire fighter or certified emergency medical services volunteer while answering a fire alarm or responding to a medical emergency, and any vehicle operated by a blood bank or tissue bank, accredited or approved under the laws of this state or the United States, while making emergency deliveries of blood, drugs or medicines, or organs.

Bicycle means every device propelled by human power upon which any person may ride, having two tandem wheels either of which is 14 inches or over in diameter.

Bus means every motor vehicle designed for carrying more than ten passengers and used for the transportation of persons, and every motor vehicle, other than a taxicab or limousine, designed and used for the transportation of persons for compensation.

Bus zone means the area or space officially set apart within a roadway by appropriate signs or markings for the exclusive use of buses operating under franchise granted by the city, for loading and unloading passengers.

Business district means the territory contiguous to and including a roadway when, within any 600 feet along such roadway, there are buildings in use for business or industrial purposes which occupy 300 feet of frontage on one side or 300 feet collectively on both sides of the roadway.

Crosswalk means that part of a roadway at an intersection included within the connections of the lateral lines of the sidewalks on opposite sides of the street measured from the curbs, or in the absence of curbs, from the edges of the traversable roadway. The word "crosswalk" also includes any portion of a roadway at an intersection or elsewhere distinctly indicated for pedestrian crossing by lines or other markings on the surfaces.

Department means Houston Public Works.

Director means the Director of Houston Public Works or his designee.

Driver means every person who drives or is in actual physical control of a vehicle.

Driveway means entrances to and exits from private premises where it is possible to park completely off the street, and which are not open for vehicle traffic except by permission of the owner of such private premises.

Esplanade has the meaning ascribed in section 33-101 of this Code.

House trailer means a trailer or semitrailer:

a. That is designed, constructed and equipped as a dwelling place, living abode or sleeping place (either permanently or temporarily) and is equipped for use as a conveyance on streets and highways; or

b. Whose chassis and exterior shell is designed and constructed for use as a house trailer, as defined in subsection a., but is used instead permanently or temporarily for the advertising, sales, display or promotion of merchandise or services, or for any other commercial purpose except the transportation of property for hire or the transportation of property for distribution by a private carrier.

Intersection means the area embraced within the prolongation or connection of the lateral curb lines, or if none, then the lateral boundary line of the roadways of two streets which join one another at, or approximately at, right angles, or the area within which vehicles traveling upon different highways joining at any other angle may come in conflict. Where a street includes two roadways, 30 feet or more apart, then every crossing of each roadway of such divided street by an intersecting street shall be regarded as a separate intersection. In the event such intersecting street also includes two roadways 30 feet or more apart, then every crossing of two roadways of such

streets shall be regarded as a separate intersection. The junction of an alley with a street or highway shall not constitute an intersection.

Legal holidays means the term "legal holidays" shall include only such holidays as are officially designated by the city council.

Limited-access or controlled-access highway means any highway, street or roadway in respect to which owners or occupants of abutting lands and other persons have no legal right of access to or from the same except at such points only and in such manner as may be determined by the public authority having jurisdiction over such highway, street or roadway.

Livestock has the meaning ascribed in Texas Agricultural Code Section 1.003.

Median strip means the dividing area, either landscaped or paved, between opposing highway traffic lanes.

Meter has the meaning ascribed in section 26-181 of this Code.

Micromobility device means a self-propelled transportation device designed primarily for individual use for short-distance travel with: (1) a deck designed to allow a person to stand or sit while operating the device; (2) a braking system capable of stopping the device under typical operating conditions; and (3) is capable of propulsion by an electric motor, by human power, or by a combination thereof. The term includes electric scooters, hoverboards, electric skateboards, and electric roller skates. The term does not include all-terrain vehicles, mopeds, motorcycles, electric bicycles, motorized mobility devices, electronic personal assistive mobility devices, or a neighborhood electric vehicle, all of which are defined and subject to regulations pursuant to the Texas Transportation Code.

Minor has the meaning ascribed in section 28-17 of this Code.

Motor vehicle means every vehicle which is self-propelled and every vehicle which is propelled by electric power obtained from overhead trolley wires, but not operated upon rails.

Motorcycle means every motor vehicle having a saddle for the use of the rider and designed to travel on not more than three wheels in contact with the ground, but excluding a tractor.

Neighborhood electric vehicle means a vehicle subject to Federal Motor Vehicle Safety Standard 500 (49 C.F.R. Section 571.500).

Off-highway vehicle means a vehicle as defined in Chapter 551A.001 of the Texas Transportation Code, as amended.

Owner means a person, other than a lienholder, having the property in or title to a vehicle. The term includes a person entitled to the use and possession of a vehicle subject to a security interest in another person, but excludes a lessee under a lease not intended as security.

Park or parking means the standing of a vehicle, whether occupied or not, otherwise than temporarily for the purpose of and while actually engaged in loading or unloading passengers or merchandise except an involuntary stopping of such vehicle by reason of mechanical failure or direction of a police officer.

Pedestrian means any person afoot.

Pole trailer means every vehicle without motive power designed to be drawn by another vehicle and attached to the towing vehicle by means of a reach, or pole, or by being boomed or otherwise secured to the towing vehicle, and ordinarily used for transporting long or irregularly shaped loads such as poles, pipes, or structural members, capable, generally, of sustaining themselves as beams between the supporting connections.

Police officer means every officer authorized to direct or regulate traffic or to make arrests for violations of traffic regulations.

Private driveway means every way or place in private ownership and used for vehicular travel by the owner and those having express or implied permission from the owner but not by other persons.

Rent means the payment of any money, fee, charge, consideration, thing of value, reward, tip, donation, or gratuity, whether on a recur-

ring or one-time basis, by a person for the right to possess or use a micromobility device or off-highway vehicle, including but not limited to possession and use of the micromobility device or off-highway vehicle pursuant to a lease, sublease, license, timeshare agreement, or other agreement.

Right-of-way means the right of one vehicle or pedestrian to proceed in a lawful manner in preference to another vehicle or pedestrian approaching under such circumstances of direction, speed and proximity as to give rise to danger of collision unless one grants precedence to the other.

Roadway means that portion of a street or highway improved, designed, or ordinarily used for vehicular travel. In the event a street or highway includes two or more separate roadways, the term "roadway" shall refer to any such roadway separately but not to all such roadways collectively.

Semitrailer means every vehicle with or without motive power, other than a pole trailer, designed for carrying persons or property and for being drawn by a motor vehicle and so constructed that some part of its weight and that of its load rests upon or is carried by another vehicle.

Sidewalk means that portion of a street between the curb lines, or the lateral lines of a roadway, and the adjacent property lines intended for the use of pedestrians.

Stop, when required, means complete cessation of movement.

Stop, stopping, standing, when prohibited, means any stopping or standing of a vehicle, whether occupied or not, except when necessary to avoid conflict with other traffic or in compliance with the directions of a police officer or traffic-control sign or signal.

Street or highway means the entire width between the boundary lines of every way publicly maintained when any part thereof is open to the use of the public for purposes of vehicular travel.

Taxi zone means the area or space officially set apart within a roadway by appropriate signs or markings for the exclusive use of taxicabs licensed as such by the city.

Temporary structure means any structure or vehicle which is designed to be easily transported or dismantled after its function has been fulfilled, and which is used for the purposes of renting or facilitating the rental of a micromobility device.

Through street or express street means every highway or portion thereof on which vehicular traffic is given preferential right-of-way, and at the entrances to which vehicular traffic from intersecting highways is required by law to yield right-of-way to vehicles on such through highway in obedience to a stop sign, yield sign or other official traffic-control device, when such signs or devices are erected as provided by law.

Traffic means pedestrians, ridden or herded animals, vehicles, and other conveyances, either singly or together, while using any street or highway for purposes of travel.

Traffic island means a raised area over which vehicles may not pass, placed at a junction of streets or between opposing traffic lanes.

Traffic-control devices means all signs, signals, markings, and devices not inconsistent with this chapter placed or erected by authority of a public body or official having jurisdiction, for the purpose of regulating, warning, or guiding traffic.

Traffic-control signal means any device, whether manually, electrically, or mechanically operated, by which traffic is alternately directed to stop and to proceed.

Trailer means every vehicle with or without motive power, other than a pole trailer, designed for carrying persons or property and for being drawn by a motor vehicle and so constructed that no part of its weight rests upon the towing vehicle.

Truck or *commercial vehicle* means every motor vehicle designed, used, or maintained primarily for the transportation of property.

Vehicle means every device in, upon, or by which any person or property is or may be transported or drawn upon a street or highway, excepting devices used exclusively upon stationary rails or tracks.

(Code 1968, § 46-2; Ord. No. 80-3073, § 1, 10-22-80; Ord. No. 90-635, § 148, 5-23-90; Ord. No. 91-62, §§ 1, 2, 1-9-91; Ord. No. 93-514, § 102, 5-5-93; Ord. No. 03-703, § 6, 7-30-03; Ord. No. 04-679, § 2, 6-23-04; Ord. No. 05-935, § 2, 8-3-05; Ord. No. 05-1315, § 1, 11-30-05; Ord. No. 07-464, § 9(Exh. C), 4-11-07; Ord. No. 07-1111, § 5, 10-3-07; Ord. No. 09-2, § 21, 1-7-09; Ord. No. 2018-11, §§ 49, 50, 1-10-2018; Ord. No. 2021-205, § 5, 3-24-2021; Ord. No. 2025-971, §§ 3, 4, 11-19-2025)

Sec. 45-3. Compliance.

It is unlawful and, unless otherwise declared in this chapter with respect to particular offenses, it is a misdemeanor for any person to do any act forbidden or fail to perform any act required in this chapter.

(Code 1968, § 46-3)

Sec. 45-4. Houston Public Works.

The city's former department of traffic and transportation has been merged into Houston Public Works. Any reference in this Code or other ordinances or documents of the city to the department of traffic and transportation shall be construed to mean Houston Public Works. Similarly, any reference to the director of traffic and transportation or to the director of the traffic and transportation department shall be construed to mean the Director of Houston Public Works.

(Code 1968, § 46-4; Ord. No. 90-635, § 149, 5-23-90; Ord. No. 93-514, § 103, 5-5-93; Ord. No. 2018-11, § 30, 1-10-2018)

Charter reference—Appointment of heads of administrative departments, Art. VI, § 7a.

Cross reference—Officers and employees generally, § 2-21 et seq.

Sec. 45-5. General powers and duties of traffic engineer.

(a) The Director of Houston Public Works or such other person as the director may from time to time designate in writing to perform such function shall be the traffic engineer of the city. The traffic engineer shall exercise the powers and duties as provided in this Code and the other traffic ordinances of the city.

(b) The city traffic engineer shall have the responsibility and authority to determine the installation and proper timing and maintenance of traffic-control devices, to conduct engineering analyses of traffic accidents and to devise remedial measures, to conduct engineering investigation of traffic conditions, to plan the operation of traffic on the streets and highways of this city, and to cooperate with other city officials in the development of ways and means to improve traffic conditions, and to carry out the additional powers and duties imposed by ordinances of this city.

(Code 1968, § 46-5; Ord. No. 90-635, § 150, 5-23-90; Ord. No. 93-514, § 104, 5-5-93; Ord. No. 2018-11, § 49, 1-10-2018)

Sec. 45-6. Authority of traffic engineer to make regulations.

(a) The traffic engineer is hereby empowered to make regulations necessary to make effective the provisions of this chapter and other traffic ordinances of the city.

(b) The city traffic engineer is hereby empowered to make temporary or experimental traffic regulations to cover emergencies or special conditions. No such temporary or experimental regulations shall remain in effect for more than 90 days; provided however, the traffic engineer shall have no authority to eliminate established school zone speed limits without city council authorization.

(Code 1968, § 46-6; Ord. No. 87-2025, § 1, 12-16-87)

Sec. 45-7. Traffic engineer's regulations, designations, etc., to be recorded and kept on file.

Every regulation, designation, delineation or determination promulgated by the traffic engineer pursuant to the authority granted in this chapter shall, unless otherwise provided herein, be described and recorded, and a true record thereof shall be maintained on file and available for

public inspection in the offices of the traffic engineer. The original records may be maintained in the data base of a data processing system, provided that the system has the capability to generate printed copies upon request therefor. Each such record shall constitute public record, and all persons shall be charged with notice of the contents of the same.
(Code 1968, § 46-7; Ord. No. 88-726, § 1, 5-4-88)

Sec. 45-8. Enforcement generally.

It shall be the duty of the officers of the police department or such officers as are assigned by the chief of police to enforce all street traffic laws of this city and all of the state vehicle laws applicable to street traffic in this city. Additionally, parking compliance officers are authorized to enforce the provisions of this chapter relating to stopping, standing or parking by issuance of a parking citation on the official form prescribed by the city for such notices.
(Code 1968, § 46-8; Ord. No. 77-1069, § 1, 5-31-77; Ord. No. 07-464, § 10, 4-11-07; Ord. No. 2019-1015, § 37, 12-11-2019)

Sec. 45-9. Authority of police officers to direct traffic.

Officers of the police department or such officers as are assigned by the chief of police are hereby authorized to direct all traffic by voice, hand, or signal in conformance with this chapter and other traffic laws, provided that, in the event of a fire or other emergency or to expedite traffic or to safeguard pedestrians, officers of the police department may direct traffic as conditions may require notwithstanding the provisions of this chapter or other traffic laws.
(Code 1968, § 46-9)

Sec. 45-10. Authority of officers of fire department to direct traffic.

Officers of the fire department, when at the scene of a fire, may direct or assist the police in directing traffic thereat or in the immediate vicinity.
(Code 1968, § 46-10)

Sec. 45-11. Obedience to traffic officers generally.

No person shall willfully fail or refuse to comply with any lawful order, direction or signal, visual or audible, of any police officer or officer of the fire department vested by law with authority to direct, control or regulate traffic. No police officer shall be directed or required to have a quota on the minimum amount of traffic stops during a normal working shift.
(Code 1968, § 46-11; Ord. No. 2025-457, § 2, 5-28-2025)

Sec. 45-12. Reserved.

Editor's note—Ord. No. 07-464, § 11, adopted April 11, 2007, repealed § 45-12 in its entirety. Formerly said section pertained to using vehicle for primary purpose of advertising and derived from Code 1968, § 46-13.

Sec. 45-13. Pedestrians, bicycles, etc., upon limited or controlled-access highways.

(a) No pedestrian shall go upon, walk along, or cross over any limited-access or controlled-access highway within the corporate limits of the city, except upon the portions along the outer margins thereof, which are designed for and known as "service roadways."

(b) No person shall ride any bicycle or take any bicycle upon any limited-access or controlled-access highway within the corporate limits of the city, except upon the portions along the outer margins thereof, which are designed for and known as "service roadways."

(c) No person shall drive or operate any wheeled vehicle which is not motor-propelled upon any limited-access or controlled-access highway within the corporate limits of the city, except upon the portions along the outer margins thereof which are designed for and known as "service roadways."

(d) To avoid any doubt, if any doubt might otherwise exist, it is the purpose of the city council by this section to prohibit, within the center or middle portions of limited-access or controlled-access highways which are designed to accommodate through traffic, and to and from

which connecting roadways lead to and from the service roadways, any use except for the operation thereupon of motor vehicles.

(e) Any person violating any of the terms of this section shall be guilty of an offense and shall be fined not less than $25.00 and not more than $200.00.
(Code 1968, § 46-16)

Charter reference—Penalty for ordinance violation, Art. II, § 12.

Cross references—Assessment of fines against corporations, § 16-76; payment of fines, § 16-78; credit against fines for incarceration, § 35-6 et seq.

Sec. 45-14. Riding on portion of vehicle not intended for passengers.

No person shall ride on any vehicle upon any portion thereof not designed or intended for the use of passengers. This provision shall not apply to an employee engaged in the necessary discharge of a duty, or to persons riding within truck bodies in space intended for merchandise.
(Code 1968, § 46-17)

Sec. 45-15. Boarding or alighting from moving vehicles.

No person shall board or alight from any vehicle while such vehicle is in motion.
(Code 1968, § 46-20)

Sec. 45-16. Use of coasters, toy vehicles and similar devices on roadway.

No person riding in or by means of any coaster, toy vehicle or similar vehicle, shall go upon any roadway, except while crossing such roadway in accordance with the pedestrian crossing regulations. The provisions of this section shall not apply to persons on roller skates.
(Code 1968, § 46-22; Ord. No. 90-1182, § 1, 10-3-90)

Sec. 45-17. Removal of foliage restricting vision.

(a) Whenever the traffic engineer shall find a tree, shrub, hedge, or other natural growth of any sort or description located and growing within the boundaries of any public street in the city, which interferes with the vision of automobile drivers driving upon such street, therefore constituting a traffic hazard, he is authorized and directed to cause the traffic hazard to be abated by trimming or removing any such obstruction. If deemed advisable and without materially increasing the danger to the public, the traffic engineer is authorized to give notice to the owner of the abutting property and afford such owner an opportunity to do the work of abating the hazard himself, but the traffic engineer shall never be compelled to await the owner's action in any case where he shall find that the public safety requires the immediate abatement of the hazard.

(b) The mayor is authorized to detail skilled employees of the parks and recreation department or other employees of the city other than classified police officers and fire fighters to assist the traffic engineer in the actual work of abating and removing such traffic hazards and such employees shall perform the work under the direction and supervision of the traffic engineer.
(Code 1968, § 46-24; Ord. No. 07-464, § 12, 4-11-07)

Cross reference—Authority of director of park and recreation relative to trimming of trees, etc., § 32-6.

Sec. 45-18. Operation of neighborhood electric vehicles and off-highway vehicles by minors prohibited.

(a) It shall be unlawful for a minor to operate a neighborhood electric vehicle or off-highway vehicle on a public roadway, street, alley, sidewalk, trails, or city park within city limits.

(b) It shall be unlawful for the parent or guardian of a minor to allow or permit the minor to operate a neighborhood electric vehicle or an off-highway vehicle on any public roadway, street, alley, sidewalk, trail, or city park within the city limits.

(c) It is a defense to prosecution under this section if a minor presents evidence of being a qualified individual with a disability pursuant to the Americans with Disabilities Act of 1990 (42 U.S.C. Sections 12131 and 12132).
(Ord. No. 05-935, § 3, 8-3-05; Ord. No. 2025-971, § 5, 11-19-2025)

Sec. 45-19. Application of chapter to drivers of government vehicles.

The provisions of this chapter shall apply to the driver of any vehicle owned by or used in the service of the United States government, this state, county or city, and it shall be unlawful for any such driver to violate any of the provisions of this chapter, except as otherwise permitted in this chapter or by state statute.
(Code 1968, § 46-26)

Sec. 45-20. Application of chapter to persons propelling push carts, riding animals, etc.

Every person propelling any push cart or riding an animal upon a roadway, and every person driving any animal-drawn vehicle, shall be subject to the provisions of this chapter applicable to the driver of any vehicle, except those provisions of this chapter which, by their very nature, can have no application.
(Code 1968, § 46-27)

Sec. 45-21. Removing materials from highway.

Any person who drops or permits to be dropped or thrown, upon any street or highway any destructive or injurious material, or other material such as dirt, shell, oil, etc., which would be detrimental to the use or appearance of such street or highway, shall immediately remove the same or cause it to be removed.
(Code 1968, § 46-23(b))

Sec. 45-22. Penalty for violation of chapter.

(a) It is a misdemeanor for any person to violate any of the provisions of this chapter. Every person convicted of a misdemeanor for a violation of those provisions of this chapter for which another penalty is not specifically provided shall be punished by a fine of not less than $1.00 nor more than $200.00; provided however that no penalty shall be greater or less than the penalty for the same offense under the laws of this state.

(b) For violations under this chapter that are of a continuing nature, each day that the violation shall continue shall constitute a separate offense.
(Ord. No. 95-81, § 2, 1-25-95; Ord. No. 01-759, §§ 4, 5, 8-15-01; Ord. No. 04-679, § 3, 6-23-04; Ord. No. 04-799, § 3, 7-28-04; Ord. No. 07-464, § 13, 4-11-07)

Secs. 45-23—45-35. Reserved.

ARTICLE II. OPERATION OF VEHICLES GENERALLY

Sec. 45-36. Markers, buttons, or signs indicating course to be travelled in turning at intersections.

(a) The traffic engineer is authorized to place markers, buttons, or signs within or adjacent to intersections indicating the course to be travelled by vehicles turning at such intersections, and such course to be travelled as so indicated may conform to or be other than as prescribed by this article.

(b) When authorized markers, buttons, signs, or other indications are placed within an intersection indicating the course to be travelled by vehicles turning thereat, no driver of a vehicle shall disobey the directions of such indications.
(Code 1968, § 46-48)

Sec. 45-37. Prohibited turns at intersections; U-turns.

(a) The traffic engineer is hereby authorized to determine those intersections at which drivers of vehicles shall not make a right, left, or U-turn, and shall place proper signs at such intersections. The making of such turns may be prohibited between certain hours of any day and permitted at other hours, in which event the same shall be plainly indicated on the signs, or they may be removed when such turns are permitted. Whenever authorized signs are erected indicating that no right or left or U-turn is permitted, no driver of a vehicle shall disobey the directions of any such sign.

(b) The driver of any vehicle shall not turn such vehicle so as to proceed in the opposite direction (U-turn) at any intersection where such turns are prohibited by official signs or markings. The driver of any vehicle shall not so turn a vehicle unless such movement can be made in safety and without interfering with other traffic, and then only where a roadway is crossed or makes intersection with another roadway, or on a divided highway, where an official opening in the physical barrier or dividing section has been established by public authority.
(Code 1968, § 46-49; Ord. No. 99-500, § 1, 5-26-99)

Sec. 45-38. Turning from or into alley or private driveway.

(a) Any vehicle emerging from an alley or private driveway onto a two-way street or turning into an alley or private driveway from a two-way street in a business district shall proceed straight ahead or make a right turn and it shall be unlawful to turn left or into such alley or driveway.

(b) Any vehicle emerging from an alley or private driveway onto a one-way street shall proceed straight ahead or turn only in the direction of the designated flow of traffic on the one-way street being entered.
(Code 1968, § 46-51)

Sec. 45-39. Through streets and stop intersections.

(a) Those streets or parts of streets forming the express street plan as designated by the city traffic engineer are hereby declared to be through or express streets for the purpose of this chapter. Whenever a street is designated and described as a through or express street, the traffic engineer may place and maintain a stop sign on each and every street intersecting such through street or intersecting that portion thereof described and designated as such, unless traffic at any such intersection is controlled at all times by traffic-control signals; provided, however, that at the intersection of two such through streets or at the intersection of a through street and a heavy traffic street not so designated, stop signs shall be erected at the approaches of either or both of such streets as may be determined by the traffic engineer upon the basis of an engineering and traffic study.

(b) The traffic engineer is hereby authorized to determine and designate intersections where a particular hazard exists upon other than through streets and to determine whether vehicles shall stop at one or more entrances to any such stop intersection, and shall erect a stop sign at every such place where a stop is required.
(Code 1968, § 46-56)

Sec. 45-40. Yield intersections.

The traffic engineer is hereby authorized to determine and designate intersections where a particular hazard exists and to determine whether vehicles on one of the intersecting streets shall yield the right-of-way to vehicles on the other street or streets and to erect a "yield right-of-way" sign at every place where such a sign is needed.
(Code 1968, § 46-57)

Sec. 45-41. One-way streets and alleys.

(a) The traffic engineer is hereby authorized to designate streets or portions of streets and alleys upon which vehicles shall proceed and move in one direction only and to designate the direction in which movement is permitted, and to install official signs and markings designating such one-way movement. Upon those streets and parts of streets and in those alleys designated as one-way under the provisions of this subsection, vehicular traffic shall move only in the indicated direction when signs indicating the direction of traffic are erected and maintained at every intersection where movement in the opposite direction is prohibited, and it shall be unlawful for any person to operate any vehicle in violation of such signs so placed in accordance with this subsection.

(b) The traffic engineer is hereby authorized to determine and designate streets, parts of streets, or specific lanes thereon upon which vehicular traffic shall proceed in one direction during one period and the opposite direction

during another period of the day and he shall place and maintain appropriate markings, signs, barriers or other devices to give notice thereof. The traffic engineer may erect signs temporarily designating lanes to be used by traffic moving in a particular direction, regardless of the centerline of the roadway. It shall be unlawful for any person to operate any vehicle in violation of such markings, signs, barriers, or other devices so placed in accordance with this subsection.
(Code 1968, § 46-59)

Sec. 45-42. Driving or riding on fresh pavement.

It shall be unlawful for any person to drive any vehicle or ride any horse or other animal upon any portion of the streets in the city that has been freshly paved, unless all barriers or signal lights have been lawfully removed therefrom indicating that such street is ready for travel.
(Code 1968, § 46-69)

Sec. 45-43. Obstructing crosswalks and intersections.

The operator of a vehicle shall not cause the vehicle to enter a street intersection or a marked pedestrian crosswalk unless there is sufficient space for the operator's vehicle to pass through the intersection or crosswalk without obstructing other vehicular or pedestrian use of and passage through the intersection or crosswalk. The provisions of this section shall apply notwithstanding any traffic control signal indication to proceed into the intersection or crosswalk.
(Ord. No. 00-885, § 1, 10-4-00)

Sec. 45-44. Vulnerable road users.

(a) *Definitions.* The following words, terms and phrases, when used in this section will have the meanings set forth in this subsection, except when the context clearly indicates a different meaning:

Safe distance means:

(1) While passing, a separation between a motor vehicle and a vulnerable road user that, when all road, traffic and weather conditions are considered, provides the motorist sufficient space and time to avoid a collision with a vulnerable road user but, in any event, not less than 3 feet if the operator's vehicle is a passenger car or light truck and not less than 6 feet if the operator's vehicle is a truck (other than a light truck) or a commercial vehicle as defined by Texas Transportation Code Section 522.003; or

(2) While trailing, a separation between a motor vehicle and a vulnerable road user that, when all road, traffic and weather conditions are considered, provides the motorist sufficient space and time to avoid a collision with a vulnerable road user.

Vulnerable road user means:

(1) A pedestrian (including a runner), physically disabled person (including a person in a wheelchair), stranded motorist or passenger, highway construction or maintenance worker, tow truck operator, or utility worker in the roadway;

(2) A person on horseback or operating a horse-driven conveyance, in the roadway;

(3) A person operating a bicycle (including an electric bicycle), hand cycle, or other human-powered wheeled vehicle in the roadway; or

(4) A person operating a moped, motor-driven cycle, or motor-assisted scooter, as those terms are defined in sections 541.201 and 551.351 of the Texas Transportation Code, as applicable.

(b) *Action required.* An operator of a motor vehicle or motorcycle shall:

(1) When passing a vulnerable road user on a highway or street;

a. Vacate the lane in which the vulnerable road user is located if the highway or street has two or more

marked lanes running in the same direction if such action can be taken safely; or

b. Pass the vulnerable road user at a safe distance; or

(2) When making a turn at an intersection (including an intersection with an alley or private road or driveway), yield the right-of-way to a vulnerable road user who is approaching from the opposite direction and is in the intersection, or is in such proximity to the intersection as to be an immediate hazard.

(c) *Prohibited action.* An occupant of a motor vehicle may not:

(1) Knowingly throw or project any object or substance at or against a vulnerable road user, or the user's animal, equipment, vehicle or conveyance;

(2) Overtake a vulnerable road user traveling in the same direction and subsequently make a turn in front of the vulnerable road user unless the operator is safely clear of the vulnerable road user, taking into account the speed at which the vulnerable road user is traveling and the braking requirements of the motor vehicle making the right-hand turn; or

(3) Maneuver the vehicle in a manner that is intended to cause intimidation or harassment to a vulnerable road user or threatens a vulnerable road user.

(d) *Affirmative defense.* It is an affirmative defense to prosecution under this section that, at the time of the offense, the vulnerable road user was acting in violation of any applicable traffic law.

(e) *Offenses.* The penalty for any violation of this section shall be a fine not to exceed $500.00. (Ord. No. 2013-429, § 2, 5-8-2013)

Secs. 45-45—45-55. Reserved.

ARTICLE III. TRANSPORTATION OF HAZARDOUS MATERIALS

Sec. 45-56. "Hazardous materials" defined.

For the purposes of this article "hazardous materials" are defined as including the following:

(1) *Acids and other corrosive liquids.* Corrosive liquids are those acids, alkaline caustic liquids and other corrosive liquids which, when in contact with living tissue, will cause severe damage of such tissue by chemical action; or in case of leakage, will materially damage or destroy other freight by chemical action; or are liable to cause fire when in contact with organic matter or with certain chemicals.

(2) *Class "A" poisons.* Class "A" poisons are poisonous gases or liquids of such nature that a very small amount of the gas or vapor of the liquid, mixed with air is dangerous to life. This class includes, not by way of limitation, but by way of example only, the following:

a. Bromacetone.

b. Cyanogen.

c. Cyanogen chloride containing less than 0.9 percent water.

d. Diphosgene.

e. Ethyldichlorarsine.

f. Hydrocyanic acid; provided, however, that diluted solutions of hydrocyanic acid of not exceeding five percent strength are not class "A" poisons.

g. Lewisite.

h. Methyldichlorarsine.

i. Mustard gas.

j. Nitrogen peroxide (tetroxide).

k. Phenylcarbylamine chloride.

l. Phosgene (diphosgene).

n. Nitrogen tetroxide-nitric oxide mixtures containing up to 33.2 percent weight nitric oxide.

(3) *Class "B" poisons.* Class "B" poisons are those substances, liquid or solid (including pastes and semi-solids) other than class "A" poisons, which are known to be so toxic to man as to afford a hazard to health during transportation, or which, in the absence of adequate data on human toxicity, are presumed to be toxic to man.

(4) *Explosive.* An explosive is defined as any chemical compound, mixture, or device, the primary or common purpose of which is to function by explosion, *i.e.,* with substantially instantaneous release of gas and heat, unless such compound, mixture, or device is otherwise specifically classified.

(5) *Flammable compressed gas.* A flammable compressed gas is any compressed gas that is so classified by section 173.300 of the Regulations of the Department of Transportation Governing the Transportation of Dangerous Articles in Tank Motor Vehicles, dated September, 1967.

(6) *Flammable liquid.* A flammable liquid is any liquid which gives off flammable vapors (as determined by flash point from Tagliabue's open-cup tester, as used for test of burning oils) at or below a temperature of 140 degrees Fahrenheit. Pyroforic liquids that become self-igniting when exposed to air are flammable liquids.

(7) *Flammable solid.* A flammable solid is any solid material, other than one classified as an explosive, which, under conditions incident to transportation, is liable to cause fires through friction, absorption of moisture, spontaneous chemical changes, retained heat from manufacturing or processing, or which can be ignited readily and when ignited burns so vigorously and persistently as to create a serious transportation hazard; such as, not by way of limitation, but by way of example only, certain metallic hydrides, metallic sodium and potassium, and certain oily fabrics, processed meals, and nitrocellulose product.

(8) *Non-flammable compressed gas.* A nonflammable compressed gas is any compressed gas which is poisonous to human beings or which has asphyxiating or toxic effect to human beings.

(9) *Oxidizing material.* An oxidizing material is a substance such as a chlorate, permanganate, peroxide, nitro carbo nitrate, or a nitrate that yields oxygen readily to stimulate the combustion of organic matter.

(10) *Radioactive materials.* Radioactive materials include any nuclear or fissionable material, radioactive or waste that have external radiation requiring critical safety control.

(Code 1968, § 46-77; Ord. No. 70-280, § 1, 3-4-70)

Sec. 45-57. Transportation upon freeways within boundaries of fire zones 1 and 2.

It shall be unlawful for any truck transporting a cargo of over 100 gallons or over 1,000 pounds of hazardous materials, as herein defined, to travel upon any of the elevated freeways of the city within the boundaries of fire zones 1 and 2 as such boundaries existed on December 1, 1969; provided, however, explosives, as herein defined, shall be strictly prohibited in any quantity, upon such elevated freeways within the boundaries of fire zones 1 and 2, and provided, further, however, the prohibition herein contained shall not apply to trucks operated by the fire department of the city carrying supplies of gasoline or other fuels to the scene of fire alarms.

(Code 1968, § 46-78; Ord. No. 70-280, § 1, 3-4-70)

Sec. 45-58. Transportation on routes encompassed by Loop 610.

(a) No truck transporting hazardous materials shall use any route or be driven on any street within that portion of the city encompassed by Loop 610-North, West, South and East unless:

(1) Such truck is being driven to or from a place within that portion of the city encompassed by Loop 610 where the cargo of such truck is intended to be loaded or unloaded; or

(2) Such truck is being driven to or from the property of the motor carrier owning such truck or under whose contract the truck is being driven and such property is located within that portion of the city encompassed by Loop 610; or

(3) Such truck is being driven to or from a place within that portion of the city encompassed by Loop 610 designated as a safe haven in accordance with federal law and supporting regulations where such truck is to be parked or was parked for a period of not less than four hours.

Provided, however, trucks transporting hazardous materials may travel on Loop 610-North, West, South and East.

(b) Proof that a truck transporting hazardous materials was within that portion of the city that is encompassed by Loop 610-North, West, South and East shall constitute prima facie evidence of a violation of this section; but the owner or operator of such truck shall have the right to introduce evidence to show that the truck was being driven to or from a place within that portion of the city encompassed by Loop 610 as authorized by subsection (a).
(Code 1968, § 46-79; Ord. No. 76-2098, § 1, 12-7-76)

Secs. 45-59—45-70. Reserved.

ARTICLE IV. TRAFFIC-CONTROL DEVICES*

Sec. 45-71. Conformity with state specifications; uniformity.

All traffic-control signs, signals, and devices shall conform to the manual and specifications approved by the state department of highways and public transportation. All signs and signals required under this chapter for a particular purpose shall, so far as practicable, be uniform as to type and location throughout the city. All traffic-control devices so erected and not inconsistent with the provisions of state law or this chapter shall be official traffic-control devices.
(Code 1968, § 46-81)

Sec. 45-72. General powers and duties of traffic engineer.

The traffic engineer shall place and maintain traffic-control signs, signals, and devices when and as required under this chapter and other traffic ordinances of this city to make effective the provisions of this chapter and such ordinances, and may place and maintain such additional traffic-control devices as he may deem necessary to regulate traffic under the traffic ordinances of this city or under state law, or to guide or warn traffic.
(Code 1968, § 46-82)

Sec. 45-73. Designation of crosswalks and safety zones.

The city traffic engineer is hereby authorized:

(1) To designate and maintain, by appropriate devices, marks, or lines upon the surface of the roadway, crosswalks at intersections where, in his opinion, there is particular danger to pedestrians crossing the roadway, and at such other places as he may deem necessary.

(2) To establish safety zones of such kind and character and at such places as he may deem necessary.
(Code 1968, § 46-83)

Sec. 45-74. Marking of traffic lanes.

The traffic engineer is hereby authorized to mark traffic lanes upon the roadway of any street or highway where a regular alignment of traffic is necessary.
(Code 1968, § 46-84)

Sec. 45-75. Testing devices.

The traffic engineer may test traffic-control devices under actual conditions of traffic.
(Code 1968, § 46-85)

*__Cross reference—__Posting advertising matter on traffic signs, etc., § 28-39.

Sec. 45-76. Unauthorized installation of signs; prima facie evidence that devices were installed by traffic engineer.

It shall be unlawful for any person other than the traffic engineer to install or cause to be installed any sign purporting to direct the use of streets or the activities on the streets of pedestrians or vehicles, and proof in any prosecution that any traffic-control device, sign, signal or marking was actually in place on any street in the city shall constitute prima facie evidence that the same was installed by the traffic engineer pursuant to the authority granted in this chapter. (Code 1968, § 46-92)

Secs. 45-77—45-90. Reserved.

ARTICLE V. SPEED REGULATIONS*

Sec. 45-91. Maximum limits generally.

(a) No person shall drive a vehicle on any street or highway in the city at a speed greater than is reasonable and prudent under the circumstances then existing. Except when a special hazard exists that requires lower speeds for compliance with subsection (d), the following limits shall be lawful, but any speed in excess of such limits shall be prima facie evidence that the speed is not reasonable or prudent and that it is unlawful:

(1) Where no other speed limit has been posted with appropriate signs giving notice thereof, 30 miles per hour on any street or highway other than an alley and 15 miles per hour on an alley within the city limits.

(2) Seventy miles per hour during the daytime and 65 miles per hour during the nighttime for any passenger car on any state or federal numbered highway outside any urban district, including farm and/or ranch-to-market roads, and 60 miles per hour during the daytime and 55 miles per hour during the nighttime for any passenger car on all streets or highways outside any urban district.

(3) Sixty miles per hour for all other vehicles on any streets or highway outside any urban district.

(4) The speed limits for any bus or other vehicle engaged in the business of transporting passengers for compensation or hire, for any commercial vehicle which is in authorized use as a "Highway Post Office" vehicle furnishing Highway Post Office service in the transportation of the United States mail, and for any light truck, shall be the same as prescribed for passenger cars at the same location.

(b) The above limitations notwithstanding, the following prima facie maximum limits are declared, for any streets or highway outside any urban district:

(1) Forty-five miles per hour for any vehicle towing any house trailer of actual or registered gross weight exceeding 4,500 pounds or with an overall length exceeding 32 feet, excluding the tow bar.

(2) Sixty miles per hour in daytime and 55 miles per hour during nighttime for any truck, except light trucks, truck tractor, trailer or semi-trailer, or for any vehicle towing any trailer, semi-trailer, another motor vehicle, or any house trailer of actual or registered gross weight less than 4,500 pounds and overall length of 32 feet or less, excluding the tow bar.

(3) Fifty miles per hour for any school bus.

(c) For the purposes of this section, the following definitions shall apply:

(1) *Daytime* means from one-half hour before sunrise to one-half hour after sunset, and "nighttime" means at any other hour.

(2) *Urban district* means the territory contiguous to and including any highway or street which is built up with structures devoted to business, industry, or dwelling

*__Cross reference—__Speed limits at airport, § 9-103.

houses, situated at intervals of less than 100 feet for a distance of one-fourth of a mile or more on either side.

(3) *Light truck* means any truck with a manufacturer's rated carrying capacity not to exceed 2,000 pounds and includes those trucks commonly known as pickup trucks, panel delivery trucks and carry-all trucks.

(4) *Passenger car* means any motor vehicle, except motorcycles and motor-driven cycles, designed for carrying ten passengers or less and used for the transportation of persons.

(5) *Alley* means a street that:

(1) Is not used primarily for through traffic; and

(2) Gives access to rear entrances of buildings or lots along the street.

(d) Notwithstanding any other provisions of this article, no person shall drive a vehicle on a street at a speed greater than is reasonable and prudent under the conditions and having regard to the actual and potential hazards then existing. In every event, speed shall be so controlled as may be necessary to avoid colliding with any person, vehicle or other conveyance on or entering the street in compliance with legal requirements and the duty of all persons to use due care.

(e) The driver of every vehicle shall, consistent with the requirements of subsection (d), drive at an appropriate reduced speed when approaching or crossing an intersection or railway grade crossing, when approaching or going around a curve, when approaching a hill crest, when traveling upon any narrow or winding roadway, and when a special hazard exists with respect to pedestrians or other traffic or by reason of weather or street or highway conditions.
(Code 1968, § 46-104; Ord. No. 72-1223, § 1, 7-18-72; Ord. No. 93-1624, §§ 1, 2, 12-22-93)

Sec. 45-92. Maximum limits on specific streets.

The city council may alter the maximum speed limits established by section 45-91 of this Code, on any street or portion thereof within the city in accordance with the provisions of Article 6701d, Section 169, of Vernon's Annotated Civil Statutes. Whenever signs are posted giving notice of the maximum legal speed limit so established for a particular street or portion thereof, it shall be unlawful for any person to drive or operate any vehicle at a rate of speed in excess of such limit.
(Code 1968, § 46-105)

Sec. 45-93. Speed limits in certain public parks.

(a) The maximum prima facie speed limits shall be as set forth below on and within those certain named and designated streets, drives, roads or public ways, or parts thereof, located in Hermann Park, MacGregor Park and Memorial Park, in the city limits of the city:

(1) A maximum speed limit of 30 miles per hour shall apply to and prevail on and within the following named and designated streets, drives, roads or public ways, or parts thereof, located in Hermann Park, MacGregor Park and Memorial Park:

a. Golf Course Drive from the centerline of Hermann Loop Drive to the centerline of Zoo Circle Drive.

b. Hermann Loop Drive from the centerline of Fannin to the centerline of North MacGregor.

c. Hermann Loop Drive from the centerline of Zoo Circle Drive to the centerline of Golf Course Drive.

d. North MacGregor from the centerline of Almeda to a point approximately 1,000 feet north of Holcombe.

e. MacGregor Loop Drive from the centerline of Calhoun to the centerline of South MacGregor Way.

f. South MacGregor Way from the centerline of Calhoun to the dead end of South MacGregor Way approximately 1,500 feet east of South Park.

g. Memorial Loop Drive from the centerline of Memorial (west intersection) to the centerline of Memorial (east intersection).

h. North Entrance Drive from the centerline of Washington to the centerline of Memorial Loop Drive.

i. North MacGregor from the centerline of Fannin to the centerline of Hermann Loop Drive.

j. South Picnic Drive from the centerline of Memorial south 0.4 mile.

(2) A speed limit of 20 miles per hour shall apply to and prevail on the following streets or drives, or parts thereof, within Hermann Park:

Zoo Circle Drive from the centerline of North MacGregor to the centerline of Golf Course Drive.

(b) Such maximum speed limits shall be effective in, to and on the respective streets, drives, roads or public ways, or parts thereof, set forth in this section when appropriate signs giving notice thereof shall have been erected by the department.
(Code 1968, § 46-109; Ord. No. 68-433, §§ 1—3, 3-20-68; Ord. No. 07-464, §§ 14—16, 4-11-07)

Secs. 45-94—45-110. Reserved.

ARTICLE VI. STOPPING, STANDING AND PARKING GENERALLY

Sec. 45-111. Sitting, standing, and walking in certain areas prohibited.

(a) Except as otherwise permitted by law, a person commits an offense if the person sits, stands or walks on a median strip that measures six feet or less in width or in areas between divided roadways where no median strip exists.

(b) This section does not apply if the person:

(1) is crossing a divided roadway in the most direct route possible;

(2) is the victim of or rendering aid in an emergency situation or in compliance with the directions of a peace officer;

(3) is performing work in the right-of-way in accordance with a permit issued under another section of this Code; or

(4) has prior authorization from the city or is otherwise in compliance with applicable laws and regulations.
(Ord. No. 2025-755, § 2, 8-27-2025)

Sec. 45-112. Reserved.

Editor's note—Ord. No. 07-464, § 17(Exh. D), adopted April 11, 2007, repealed § 45-112 in its entirety. Formerly said section pertained to blocking roadways and derived from Code 1968, § 46-123. The user's attention is directed to Ch. 26 for similar provisions.

Sec. 45-113. Parking or standing on left side of one-way roadway.

If a street or highway includes two or more separate roadways and traffic is restricted to one direction upon any such roadway, the traffic engineer is authorized to determine when standing or parking may be permitted upon the left-hand side of any such one-way roadway and to direct that signs be erected giving notice thereof.
(Code 1968, § 46-125; Ord. No. 07-464, § 17(Exh. D), 4-11-07)

Sec. 45-114. Cut-back curb sections for parking—Consent required to cut curb.

(a) It shall be unlawful for any person to cut back any curb in front of any place or establishment for the purpose of providing individual parking space or parking space for the use of customers of such person without the consent of the director.

(b) The director shall notify the appropriate district council members and all at large council members in writing of such requests to cut back a curb within their districts within 14 days of application
(Code 1968, § 46-126; Ord. No. 07-464, § 17(Exh. D), 4-11-07; Ord. No. 2013-110, § 2, 2-6-2013)

Sec. 45-115. Same—Method of parking.

(a) As approved by the traffic engineer, parking may be at an angle to the curb.

(b) The traffic engineer is authorized to prohibit angle parking when, upon the basis of an engineering and traffic investigation, it is determined that such practice is hazardous or dangerous to vehicular or pedestrian traffic.

(c) The traffic engineer shall notify the appropriate district council members and all at large council members in writing of such requests for angle parking within their districts within 14 days of application.
(Code 1968, § 46-127; Ord. No. 07-464, § 17(Exh. D), 4-11-07; Ord. No. 2013-110, § 2, 2-6-2013)

Sec. 45-116. Reserved.

Editor's note—Ord. No. 07-464, § 17(Exh. D), adopted April 11, 2007, repealed § 45-116 in its entirety. Formerly said section pertained to parking prohibitions and restrictions on specific streets generally and derived from Code 1968, § 46-128. The user's attention is directed to Ch. 26 for similar provisions.

Sec. 45-117. Parking on narrow streets.

The traffic engineer is hereby authorized to designate a no parking zone upon any street when the width of the roadway does not exceed 20 feet, or upon one side of a street as indicated by appropriate signs, when the width of the roadway does not exceed 30 feet. The traffic engineer and the parking official, as authorized by the traffic engineer, are hereby authorized to erect and maintain signs indicating no parking upon any street within a no parking zone designated by the traffic engineer.
(Code 1968, § 46-129; Ord. No. 07-464, § 17(Exh. D), 4-11-07)

Sec. 45-118. Parking adjacent to schools.

The traffic engineer is hereby authorized to designate a no parking zone upon either or both sides of any street adjacent to any school property when such parking would, in his opinion, interfere with traffic or create a hazardous situation. The traffic engineer and the parking official, as authorized by the traffic engineer, are hereby authorized to erect and maintain signs indicating no parking upon any street within a no parking zone designated by the traffic engineer.
(Code 1968, § 46-130; Ord. No. 07-464, § 17(Exh. D), 4-11-07)

[The next page is 3069]

Sec. 45-119. Stopping, standing or parking near hazardous or congested places.

The traffic engineer is hereby authorized to designate a no parking zone upon any street where the stopping, standing or parking of vehicles would create an especially hazardous condition or would cause unusual delay to traffic. The traffic engineer and the parking official, as authorized by the traffic engineer, are hereby authorized to erect and maintain signs indicating no parking upon any street within a no parking zone designated by the traffic engineer.
(Code 1968, § 46-131; Ord. No. 07-464, § 17(Exh. D), 4-11-07)

Secs. 45-120—45-124. Reserved.

Editor's note—Ord. No. 07-464, § 17(Exh. D), adopted April 11, 2007, repealed §§ 45-120—45-124 in their entirety. Former said sections pertained to parking in excess of 24 hours; parking on restricted city property; vehicles on parking lots not to protrude over property line; time limit for trailer parking; parking of commercial vehicles prohibited between certain hours and derived from Code 1968, § 46-133; Code 1968, §§ 46-134—46-137. The user's attention is directed to Ch. 26 for similar provisions.

Sec. 45-125. Designation of curb loading zones.

The traffic engineer is hereby authorized to determine the location of curb loading zones and traffic engineer shall place and maintain appropriate signs indicating the same and stating the hours during which the provisions of this section are applicable.
(Code 1968, § 46-138; Ord. No. 07-464, § 17(Exh. D), 4-11-07)

Secs. 45-126, 45-127. Reserved.

Editor's note—Ord. No. 07-464, § 17((Exh. D), adopted April 11, 2007, repealed §§ 45-126, 45-127 in their entirety. Formerly said sections pertained to parking in truck loading zones; vehicles driven by disabled veterans [parking in truck loading zones] and derived from Code 1968, §§ 46-139, 46-140. The user's attention is directed to Ch. 26 for similar provisions.

Sec. 45-128. Parking areas for persons with disabilities.

(a) The traffic engineer is hereby authorized and directed, pursuant to the provisions and procedures of sections 45-5 through 45-7 of this Code and Chapter 681 of the Texas Transportation Code, to designate and establish spaces on the streets of the city and on any property owned or controlled by the city, and the owner or person in control of any other private or public property may similarly designate and establish spaces thereon, for the exclusive use as parking spaces or parking areas for vehicles transporting persons with disabilities. Such spaces shall be marked with signs in the manner provided by law.

(b) The traffic engineer shall cause the various parking spaces for the exclusive use of vehicles transporting persons with disabilities that are established on the public streets to additionally be marked and designated as tow-away zones. Any vehicle parked in such a marked tow-away zone parking space that does not display a placard or plate with the international symbol of access issued in a form prescribed by the Texas Department of Transportation (or an equivalent symbol issued by another state if the vehicle is not registered in Texas) shall be subject to towing and impoundment by authority of any police officer of the city in the manner provided in this Code.
(Code 1968, § 46-140.1; Ord. No. 80-3073, § 2, 10-22-80; Ord. No. 89-669, §§ 1, 2, 5-10-89; Ord. No. 07-464, § 17(Exh. D), 4-11-07)

Sec. 45-129. Public carrier stops and zones generally.

(a) The traffic engineer is hereby authorized and required to establish bus stops, bus zones, and zones for other passenger common-carrier motor vehicles on such public streets in such places and in such number as he shall determine to be of the greatest benefit and convenience to the public, and every such bus stop, bus zone, or other zone shall be designated by appropriate signs.

(b) The traffic engineer is hereby authorized and directed, pursuant to the procedures of sections 45-5 and 45-7 of this Code, to establish traffic lanes for the exclusive use of passenger buses during specified hours and days. When such lanes are designated by traffic markings and signs, such lanes shall be deemed to have been established in accordance with this subsection

and any person operating a motor vehicle, motorcycle or bicycle therein during prohibited times, other than crossing said lanes at intersections, shall be guilty of a misdemeanor, and upon conviction, shall be fined as provided in section 1-6 of this Code.
(Code 1968, § 46-141; Ord. No. 75-825, § 1, 5-20-75; Ord. No. 07-464, § 17(Exh. D), 4-11-07)

Cross reference—Use of designated loading points by suburban buses, § 46-151.

Sec. 45-130. Taxi zones.

(a) The traffic engineer and his authorized assistants, in consultation with the parking official, are authorized and directed to designate spaces on the streets of the city for the exclusive use as taxi zones and to mark the same with appropriate signs and to install standard signs to indicate the location of such zones, such locations to be determined after traffic engineering surveys, studies and conclusions.

(b) Taxi zones shall be designated at or near entrances to principal hotels and passenger depots, such as bus depots, passenger train depots, and airports. Such zones shall be designated by the traffic engineer.

(c) No portion of any street in the city shall be used as a taxi zone other than the ones prescribed as such by ordinance, unless such taxi zone is approved as such by the traffic engineer in consultation with the parking official. Any person establishing a taxi zone in violation of this provision and any person driving a taxicab who uses any such taxi zone established in violation of this provision shall be deemed guilty of a misdemeanor.
(Code 1968, § 46-142; Ord. No. 07-464, § 17(Exh. D), 4-11-07)

Cross references—Taxicab stands at George Bush Intercontinental Airport/Houston (IAH), § 46-26; designation of taxicab stands at William P. Hobby Airport (HOU), § 46-27.

Sec. 45-131. Standing and parking of buses.

(a) The operator of a bus shall not stand or park such vehicle upon any street at any place other than a bus stop or bus zone designated as provided in this article.

(b) The operator of a bus shall not stop such vehicle upon any street at any place for the purpose of loading or unloading passengers or their baggage, other than at a bus stop or bus zone designated as provided in this article, except in case of an emergency.

(c) The operator of a bus shall enter a bus stop or bus zone on a public street in such a manner that the bus, when stopped to load or unload passengers or baggage, shall be in a position with the right front wheel of such vehicle not further than 18 inches from the curb, with the bus approximately parallel to the curb so as not to unduly impede the movement of other vehicular traffic.
(Code 1968, § 46-143; Ord. No. 07-464, § 17(Exh. D), 4-11-07)

Sec. 45-132. Standing or parking of taxicabs.

(a) The operator of a taxicab which is in-service shall not stand or park such vehicle upon any street at any place other than in a taxi zone designated as provided in this article, and in no case shall the operator of an in-service taxicab leave his vehicle while it is parked at a taxi zone. This provision shall not prevent the operator of a taxicab from temporarily stopping at any place in accordance with other stopping or parking regulations for the purpose of and while engaged in the expeditious loading or unloading of passengers.

(b) The operator of any taxicab which is out-of-service shall park his vehicle in conformity with the provisions of this article and article II of chapter 26 of this Code relating to the parking and standing of motor vehicles generally. In no case shall the operator of a taxicab which is out-of-service park at a taxi zone.

(c) No driver shall load or unload passengers while his vehicle is out-of-service.

(d) The number of taxicabs occupying a taxi zone shall not exceed the number designated on the official sign establishing such zone.

(e) As used in this section, a taxicab is "out-of-service" whenever a sign reading "taxi is out-of-service" is affixed to the visor of such taxicab so as

to be visible from the outside of the taxicab. Lettering for such a sign shall be at least one-and-a half inches high. A taxicab is "in-service" whenever it is not "out-of-service" in accordance with the foregoing definition.
(Code 1968, § 46-144; Ord. No. 83-894, § 1, 6-14-83; Ord. No. 07-464, § 17(Exh. D), 4-11-07; Ord. No. 09-2, § 22, 1-7-09)

Cross references—Standing, etc., of taxicabs at George Bush Intercontinental Airport/Houston (IAH), § 46-26; loading zones, etc., at William P. Hobby Airport (HOU), § 46-27.

Secs. 45-133—45-135. Reserved.

Editor's note—Ord. No. 07-464, § 17(Exh. D), adopted April 11, 2007, repealed §§ 45-133—45-135 in their entirety. Formerly said sections pertained to restricted use of bus zones and taxicab stands; owner and operator responsible for illegal parking; use of esplanade, median strip or traffic island and derived from Code 1968 §§ 46-145, 46-147; Ord. No. 05-1315, § 2, 11-30-05. The user's attention is directed to Ch. 26 for similar provisions.

Sec. 45-136. Establishment of "tow-away" zones.

The traffic engineer is hereby authorized to establish "tow-away zones" in conjunction with no-parking regulations upon any street of the city, and for whatever times his study of such streets shows that an illegally parked vehicle would cause an undue hazard or delay to moving traffic. The traffic engineer and the parking official, as authorized by the traffic engineer, are hereby authorized to erect and maintain signs indicating a tow-away zones upon any street within a tow-away zone established by the traffic engineer.
(Code 1968, § 46-149; Ord. No. 68-1965, § 1, 12-11-68; Ord. No. 79-1339, § 1, 7-5-78; Ord. No. 79-1214, § 3, 7-25-79; Ord. No. 07-464, § 17(Exh. D), 4-11-07)

Sec. 45-137. Reserved.

Editor's note—Ord. No. 07-464, § 17(Exh. D), adopted April 11, 2007, repealed § 45-137 in its entirety. Formerly said section pertained to large vehicle restrictions and derived from Ord. No. 91-62, § 3, 1-9-91. The user's attention is directed to Ch. 26 for similar provisions.

Sec. 45-138. Assimilated offenses.

The elements of those various offenses that are set forth in Subtitles C and H of Title 7 of the Texas Transportation Code that relate to the parking and stopping of vehicles, including any amendments thereto, are adopted as a part of this article by reference. Violations of any of the aforesaid provisions that are adopted by reference shall also constitute city ordinance violations and may be adjudicated as provided in article IV of chapter 16 of this Code.
(Ord. No. 95-186, § 2, 2-22-95; Ord. No. 07-464, § 17(Exh. D), 4-11-07)

Secs. 45-139—45-160. Reserved.

ARTICLE VII. SPEED FEEDBACK SIGN PROGRAM

Sec. 45-161. Program created.

There is hereby created within Houston Public Works the Speed Feedback Sign Program.
(Ord. No. 08-614, § 2, 7-1-08; Ord. No. 2018-11, § 50, 1-10-2018)

Sec. 45-162. Purpose.

The purpose of this article shall be to create a program to set criteria for the use of speed feedback devices in public street rights-of-way. The speed feedback signs authorized herein shall be used to provide to the driver of a vehicle real-time feedback by radar of the vehicle's speed and to bring attention to posted speed limits. Such devices are not approved as traffic control devices in the Texas Manual of Uniform Control Devices and are thus not designed to hinder, prevent, or aid in any police function.
(Ord. No. 08-614, § 2, 7-1-08)

Sec. 45-163. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Applicant means property owners' associations and public or private school districts which express an interest in participating in the program by completing an application and by taking all other steps as required herein to participate in the program.

Department means Houston Public Works.

Property owners' association means that entity as defined in Section 204.004 of the Texas Property Code.

Program means the Speed Feedback Sign Program.

Public way or *public street right-of-way* shall have the definition ascribed to the term public way(in section 40-121 of this Code.

Site means the location where the speed feedback sign will be placed.

Speed feedback sign or *sign* means each sign used in the program that gives real-time feedback of a vehicle's actual speed to the driver of the vehicle by the use of radar.

(Ord. No. 08-614, § 2, 7-1-08; Ord. No. 2018-11, § 50, 1-10-2018)

Sec. 45-164. Application for participation.

(a) The traffic engineer is hereby authorized to prepare an application in such form as shall be consistent with the requirements of this article for the participation of qualified members of the public and private sector in the program.

(b) As a minimum, the application shall require the following:

(1) Applicant's name, telephone number, and email address;

(2) Applicant's type of entity "property owners" association or school district);

(3) Applicant's mailing address and street address of main office;

(4) A description of the public street right-of-way where the speed feedback sign will be located and the applicant's interest therein;

(5) The estimated length of time necessary to acquire the required equipment; and

(6) Any other information the traffic engineer deems appropriate.

(c) The applicant shall also be required to make the following representations and accept the following obligations as part of the application:

(1) That the individual preparing the application is authorized to do so and to legally bind the applicant to the representations made in the application.

(2) That the applicant agrees at its sole cost and expense to purchase, install, and maintain (and, if deemed necessary by the traffic engineer, dismantle and remove) signs conforming with the technical standards and requirements of the department subject to the supervision, direction and control of the department.

(3) That the applicant will, at its sole cost and expense, comply with all city codes, rules, regulations, and other requirements and will obtain all necessary permits as part of the process of installation of the sign.

(4) That the applicant will, at its sole cost and expense, pay all monthly charges associated with the operation of the sign, transmission system, monitors, and other peripherals, including the cost of power, maintenance, parts replacement, etc.

(5) That the applicant will, in accordance with the department's technical standards and requirements, and at its sole cost and expense, pay any and all costs associated with the installation and maintenance of the sign.

(6) That the applicant recognizes and agrees that the department reserves the right at any time to change or modify the program as the department deems appropriate, or to terminate applicant's participation in the program at any time and for any reason, without recourse by applicant.

(7) That if the applicant is terminated from participation in the program by the department, or if the applicant voluntarily withdraws from the program, the applicant shall as soon as possible and at applicant's sole cost and expense remove

any equipment encroaching into the city's public way and repair any damage to the public way associated with said removal.

(d) The individual preparing the application shall sign the application as the applicant's representative agreeing to the terms, conditions, and representations contained in the application.
(Ord. No. 08-614, § 2, 7-1-08)

Sec. 45-165. Review and approval of application.

(a) In reviewing each application the department shall determine if the proposed applicant is appropriate for inclusion in the program. In doing so, the department may consider the following:

(1) The completeness of the application;

(2) The appropriateness of the proposed site;

(3) The availability of departmental staffing for performing related activities;

(4) The promptness with which the applicant can meet the department's deadlines for installation and availability of the sign;

(5) Any other criteria related to the efficacy of the program that the department deems appropriate.

(b) The traffic engineer is authorized, based on his review of the application and the representations and promises made therein, the results of consultations with the city legal department, and any other information he deems relevant or appropriate, to accept and approve the applicant for participation in the program; to deny the application; or to accept and approve the applicant subject to such conditions as the traffic engineer shall specify. The traffic engineer is not required to approve any application which the traffic engineer determines is not in the best interest of the program or the city.
(Ord. No. 08-614, § 2, 7-1-08)

Sec. 45-166. Technical requirements.

The department shall establish technical specifications and standards for all equipment, apparatus, and software used in the program.
(Ord. No. 08-614, § 2, 7-1-08)

Sec. 45-167. Use of city public street right-of-way authorized.

The department is hereby authorized to utilize those portions of the city's public street right-of-way where such use is necessary to accommodate the placement of a feedback sign as part of the program. Before any public way may be used, the traffic engineer and the legal department shall consult to determine if the proposed use of the public way will impair the city's primary use of said public way or pose any legal issues with regard to the city's right to so use said public way. Any installation of any program equipment in the public way must be approved in advance by the traffic engineer.
(Ord. No. 08-614, § 2, 7-1-08)

Sec. 45-168. Operation.

(a) The traffic engineer may establish rules and regulations for the implementation of the program.

(b) The feedback sign is to be installed as a matter of public safety. Its primary use will be to reduce overall vehicle speed and improve the safety of city streets. It is to be installed at the direction of the department and it is to be installed and operated in a manner such that it will not hinder or interfere with the police department's enforcement of all traffic laws of this city and all of the state vehicle laws applicable to traffic in this city.
(Ord. No. 08-614, § 2, 7-1-08)

Secs. 45-169—45-200. Reserved

ARTICLE VIII. REMOVAL AND IMPOUNDMENT OF VEHICLES*

Sec. 45-201. Motor vehicle compounds.

The city council shall establish and maintain one or more vehicle compounds to which all motor vehicles removed from the public streets, alleys, sidewalks and public ways, as provided in this article, shall be immediately taken and stored for protective custody. The motor vehicle compounds so established shall remain open seven days a

*__Cross reference—__Automobile wreckers, § 8-101 et seq.

week, 24 hours a day and an attendant shall be on duty at the compound at all times. Such attendants and such compounds shall be under the supervision and direction of the chief of police. (Code 1968, § 46-182; Ord. No. 79-1681, § 1, 10-2-79)

Sec. 45-202. General authority of police.

(a) Any police officer is hereby authorized to provide for the removal of a vehicle from a street or a public place to the nearest garage or other place of safety, or to a garage designated or maintained by the city, under the circumstances hereafter enumerated:

(1) When any vehicle is left unattended upon any bridge, viaduct, or causeway, or in any tube or tunnel where such vehicle constitutes an obstruction to traffic.

(2) When any vehicle is illegally parked so as to block the entrance to any private driveway and it is impracticable to move such vehicle from in front of the driveway to another point on the street or highway.

(3) When any vehicle is found upon a street and report has previously been made that such vehicle has been stolen or complaint has been filed and a warrant thereon issued charging that such vehicle has been embezzled.

(4) When any such officer has reasonable grounds to believe that such vehicle has been abandoned.

(5) When a vehicle upon a street is so disabled that its normal operation is impossible or impractical and the person in charge of the vehicle is incapacitated by reason of physical injury or other reason to such an extent as to be unable to provide for its removal or custody, or is not in the immediate vicinity of the disabled vehicle.

(6) When an officer arrests any person driving or in control of a vehicle for an alleged offense and such officer is by this Code or other law required to take the person arrested immediately before a magistrate.

[The next page is 3077]

(7) When any vehicle is illegally parked in violation of any ordinance of the city and of the laws of the state not provided for in this section.

(8) When any vehicle has remained illegally overparked at any parking meter for a period of time in excess of five times the minimum time limit which may be purchased from the parking meter where such motor vehicle is illegally overparked.

(b) When any motor vehicle has been parked or left standing on the "prisoners' parking lot" located on the grounds of the Police Administration Building, 61 Riesner Street, a public place, for a period of five days, it shall be the duty of the police officer in charge of said "prisoners' parking lot" to give written notice to the owner or claimant, at his last known address, that if said motor vehicle is not removed, or caused to be removed from such parking lot within five days from the date of notice, the vehicle will be removed under the conditions and in the manner provided by this section.

(c) Any police officer is hereby authorized to provide for the removal of any vehicle parked or standing in or on any portion of a street or highway when, in his opinion, the vehicle constitutes a hazard, or interferes with a normal function of a governmental agency, or by reason of any catastrophe, emergency or unusual circumstance, the safety of the vehicle is imperiled.

(d) To provide for the public safety and protection of motorists, a law enforcement officer is hereby specifically authorized to provide for the immediate removal of any vehicle:

(1) Parked or standing in or on any portion of any freeway within the city limits; or

(2) Parked or standing in or on any portion of a "restricted access lane," as that term is defined and used in section 45-336 of this Code, during the hours that access to such lane is so restricted.

As used in this subsection, "freeway" means the entire public right-of-way of a limited-access or controlled-access highway, including controlled access roadway lanes, ramps, shoulders and unimproved areas, but excluding frontage or service roads.

(e) A vehicle removed pursuant to subsection (d) may be taken:

(1) As directed by the owner if the owner is present;

(2) To a nearby site designated by the police chief for such purpose; or

(3) To a vehicle storage facility.

(Code 1968, § 46-183; Ord. No. 68-340, § 1, 3-5-68; Ord. No. 79-1214, § 2, 7-25-79; Ord. No. 93-514, § 106, 5-5-93; Ord. No. 04-497, § 4, 5-26-04)

Sec. 45-203. When removal required.

(a) The police department shall remove from the public streets, alleys, sidewalks, and public ways of the city:

(1) Any abandoned motor vehicle, as that term is herein defined;

(2) Any motor vehicle which has remained unlawfully overparked at any parking meter for a period of time in excess of five times the minimum time limit which may be purchased from the parking meter where the motor vehicle is unlawfully overparked;

(3) All other motor vehicles which are illegally parked in violation of any ordinance of the city or of the laws of the state not otherwise provided for.

(b) An "abandoned motor vehicle," within the meaning of this article, shall be any motor vehicle standing, parked or remaining unattended on the public streets, alleys, sidewalks and public ways of the city for 48 or more continuous hours.

(c) Any abandoned motor vehicle, any motor vehicle which shall remain overparked at a parking meter as provided in subsection (a)(2) above, and any other motor vehicle which is illegally parked, is hereby declared to be a detriment and a menace to traffic and shall be a nuisance per se.

(Code 1968, § 46-184; Ord. No. 76-185, § 1, 2-10-76)

Sec. 45-204. Notice of removal.

(a) Whenever an officer removes a vehicle from a street as authorized in this article, and the officer knows or is able to ascertain the name and address of the owner thereof, such officer shall immediately give or cause to be given notice in writing to such owner of the fact of such removal, and the reasons therefor, and of the place to which such vehicle has been removed. In the event any such vehicle is stored in an authorized garage, a copy of such notice shall be given to the proprietor of such garage.

(b) Whenever an officer removes a vehicle from a street under this article, and does not know and is not able to ascertain the name of the owner, or for any other reason is unable to give the notice to the owner as hereinbefore provided, and in the event the vehicle is not returned to the owner within a period of three days, then and in that event the officer shall immediately send or cause to be sent written report of such removal by mail to the state department of highways and public transportation in Austin, Texas, and shall file a copy of such notice with the proprietor of any authorized garage in which the vehicle may be stored. Such notice shall include a complete description of the vehicle, the date, time, and place from which removed, the reasons for such removal, and the name of the garage or place where the vehicle is stored.
(Code 1968, § 46-185)

Sec. 45-205. Fees to be paid.

No vehicle being stored at a city compound shall be released until all fees payable under this article have been paid or security therefor has been posted.
(Ord. No. 91-1170, § 1, 8-14-91)

Sec. 45-206. Towing and storage charges when removed to city compound; redemption from compound.

(a) There shall be a towing charge for the removal of each motor vehicle to a motor vehicle compound operated by the city. The amount of the towing charge shall be equal to the actual cost to the city of having the vehicle towed to the city compound. The actual charge shall be determined by reference to the contract between the city and the contractor providing the towing service for which the charge is incurred.

In addition to the foregoing towing charge there shall be storage, preservation, notice, and related fees as authorized by section 8-193 of this Code to be imposed by privately operated storage lots. The chief of police shall cause the amount of the fees to be computed on the basis of actual costs of operation incurred or expected to be incurred in the operation of the compound; provided that no fee shall exceed the maximum amount authorized to be imposed by a privately operated storage lot for the same service under section 8-193 of this Code.

The police chief or his authorized agent shall post a conspicuous notice at each city compound, which notice shall contain a listing of the current schedule of towing and storage charges. The city shall have a lien in the total amount of the towing charge and storage charge on all motor vehicles at the compound, which lien shall be prior and superior to any and all other liens and claims except those for ad valorem taxes.

(b) Whenever the owner or the authorized agent of the owner of any motor vehicle, which has been removed from any public street, alley, sidewalk and public way of the city and which is stored at a city compound shall present himself at the compound and shall demand that motor vehicle, the attendant in charge shall satisfy himself that the person so claiming the motor vehicle is the true and lawful owner thereof or the authorized agent of the true and lawful owner thereof and is entitled to possession thereof. The attendant shall demand of the person proper identification and may require the display of a certificate of title to the motor vehicle and, upon being so satisfied and upon the owner's or his authorized agent's compliance with the provisions of subsection (c), below, the attendant shall deliver the motor vehicle to the owner thereof or the owner's authorized agent. The owner thereof or his authorized agent shall execute a receipt therefor, which receipt shall be made on a form prepared and furnished

by the chief of police and the attendant shall issue to the owner or his authorized agent a receipt for the towing fee and the storage fee so collected.

(c) In order to obtain release of his motor vehicle an owner or the authorized agent of an owner must:

(1) Provide adequate proof to the attendant that he is the owner or the authorized agent of the owner of the vehicle which release he is seeking;

(2) Post security in the amount of the towing charge and the accrued storage charge in the manner set out in subsection (d);

(3) Post an appearance bond, in the manner prescribed in article V of chapter 16 of this Code, for the parking violation, if any, for which the motor vehicle was towed; and

(4) Where the attendant has notice that the impounded vehicle was the subject of other citations for parking violations that have remained outstanding, where the current owner was the owner of record at the time of those violations, and where the attendant notifies the owner as to these outstanding violations, post an appearance bond for each and every one of those parking violations.

(d) The security provided for in (c)(2) above may be in the form of cash, cashier's check, certified check, or money order. The receipt for the security, to be signed by the owner and chief of police or his agent, shall authorize the chief of police or his duly authorized agent to apply the security in satisfaction of the impounding charges specified above in the event the owner or operator or person charged with the violation leading to the impounding of the vehicle is found guilty of the charge, or enters a plea of guilty or nolo contendere to the charge, or shall forfeit any cash bail which may have been posted, or where a warrant for the arrest of the person has been issued because of his failure to appear in the municipal courts. In the event that trial results in a finding of not guilty, or the charge is dismissed, the security tendered for the release of the motor vehicle shall be refunded by the clerk of the municipal courts and the city shall assume the obligation to pay the towing fee.

(Code 1968, § 46-187; Ord. No. 79-1681, § 2, 10-2-79; Ord. No. 91-1170, § 2, 8-14-91; Ord. No. 01-1079, § 6, 12-5-01; Ord. No. 04-497, § 4, 5-26-04; Ord. No. 2010-846, § 18, 11-3-2010)

Sec. 45-207. Payment of fine to compound attendant.

(a) If the owner of a motor vehicle removed to a city compound under this article so desires, he may pay the minimum fine for such unlawful parking at the compound by leaving the amount shown for such unlawful parking on the reverse side of the ticket with the compound attendant. The attendant shall issue a receipt to the owner of such vehicle on a form of receipt furnished to him by the clerk of the municipal court, showing thereon that such fine is paid. All such fines so collected by the compound attendant shall be delivered to the clerk of the municipal court when called for by such clerk.

(b) In the event that the owner of such motor vehicle does not desire to pay the amount of the fine at the compound, such owner may demand that such charge be heard before the municipal court of the city.

(Code 1968, § 46-188)

Cross reference—Courts, Ch. 16.

Sec. 45-208. Compound records.

It shall be the duty of the attendant at the city compound to keep a permanent and accurate up-to-date record of all motor vehicles brought to and stored at such compound. The record shall contain the type, make, license number, engine number, color and general description of all the motor vehicles brought to and stored at the compound and the month, date, year and hour each motor vehicle was delivered to the compound and such other information as directed by the chief of police. The disposition of each motor vehicle shall also be noted on such record.

(Code 1968, § 46-189)

Sec. 45-209. Sale of unredeemed vehicles at compound—Generally.

(a) Any motor vehicle stored at a city compound for a period of 60 days, the owner of which, whether known or not known, having failed or refused within such time to claim or reclaim such motor vehicle, shall be sold at public auction, as herein provided, to satisfy the towage and storage lien.

(b) After a motor vehicle has been stored at a city compound for a period of 60 days, the chief of police shall prepare a list of all such motor vehicles so stored, giving the make, model, type, body style and other details and shall deliver such list to the director of the treasury department. All auctions of such motor vehicles shall be conducted under the supervision and direction of the director of the treasury department.

(c) The director of the treasury department shall give 30 days' notice of the time and the place of the sale of such motor vehicles and a descriptive list of same to be offered for sale by posting such notice of sale at the courthouse door of Harris County, and at two other public places in the city, and a copy of such notice shall be sent by certified mail to the last known address of the owner of each vehicle so listed on the notice of sale, in the event the name of the owner is known to the director of the treasury department, or such name can be ascertained by him by the exercise of reasonable diligence. At the time and place so stated in such notice, each motor vehicle shall be offered for sale for cash at public auction and the director of the treasury department shall accept the highest bid for the motor vehicle. Each motor vehicle shall be sold separately.

(d) The public auction for the sale of such motor vehicles shall be conducted at the compound or at any other place so designated by the director of the treasury department in such notice and shall be at the time designated in such notice, and all sales shall be final.
(Code 1968, § 46-190)

Sec. 45-210. Same—Delivery of vehicle, bill of sale, etc., to purchaser; purchaser to pay fees necessary to secure title certificate.

Upon payment by the highest bidder to the director of the treasury department of the amount so bid for a motor vehicle sold pursuant to section 45-209 of this Code, such director shall deliver to such highest bidder such motor vehicle, together with a bill of sale therefor executed by such director in the name of the city. In addition thereto, such director shall furnish to the highest bidder all of the necessary documents required by the laws of the state in order that such bidder may secure a certificate of title therefor. All fees, transfer taxes and other charges for securing a certificate of title shall be paid by the purchaser.
(Code 1968, § 46-191)

Sec. 45-211. Same—Records and reports.

The director of the treasury department shall keep an accurate record of each motor vehicle sold under this article, the name and address of the purchaser, the price paid therefor, the date of sale and other information deemed necessary by the director. The director shall make a complete report in writing to the city controller of the time, place and manner of conducting such sale.
(Code 1968, § 46-192)

Sec. 45-212. Same—Disposition of proceeds.

(a) All funds received by the director of the treasury department from the sale of a motor vehicle under this article shall be delivered to the city controller who shall give his receipt therefor.

(b) Out of the proceeds from the sale of a motor vehicle under this article, the city controller shall first apply such proceeds to the towage and storage lien of the city, which sum shall be placed to the credit of the general fund and shall thereafter be disbursed as the city council shall determine and direct. In the event the proceeds of such sale are in excess of the towage and storage lien, then the excess sum shall be deposited by the city controller in a separate fund and, upon demand being made by the true owner of such motor vehicle, the controller shall deliver such excess sum to such owner. If no demand is made by the true owner of such motor vehicle for such excess sum within two years from the date of the sale of such motor vehicle, such sum shall become the

property of the city and the controller shall transfer such sum to the general fund to be used as the city council shall determine and direct.
(Code 1968, § 46-193)

Sec. 45-213. Same—Disposition of vehicle not bid upon.

Any motor vehicle which has been offered for sale at public auction under this article, and for which no bid is received, shall be disposed of by the director of the treasury department in such a manner as he deems advisable and all such motor vehicles so disposed of in such manner shall be reported to the city controller in writing, together with amount received therefor and the date and manner of such disposition.
(Code 1968, § 46-194)

ARTICLE IX. PARADES AND PROCESSIONS*

DIVISION 1. RESERVED†

Secs. 45-231—45-45-250. Reserved.

DIVISION 2. FUNERAL PROCESSIONS

Sec. 45-251. Identification of vehicles.

A funeral composed of a procession of vehicles shall be identified as such by the display, upon the outside of each vehicle, of a pennant or other identifying insignia or by such other method as may be determined and designated by the police department.
(Code 1968, § 46-214)

Sec. 45-252. Use of streets during certain hours.

It shall be unlawful for a funeral procession to travel on the streets of the city, including freeways and expressways, between the hours of 7:00 a.m. and 9:00 a.m. and between the hours of 4:00 p.m. and 6:00 p.m., Monday through Friday, inclusive. Funeral processions may use the streets at any hour on a legal holiday.
(Code 1968, § 46-215)

Sec. 45-253. Police escort.

Each funeral procession shall be accompanied by a police motorcycle escort which shall be a part of the funeral procession and the police officer's motorcycle shall constitute an emergency vehicle when the siren and red lights are in operation. There shall be not less than one police motorcycle escort when the vehicles in the funeral procession, including the mortuary vehicles, do not exceed ten and there shall be not less than two police motorcycle escorts when such vehicles exceed ten.
(Code 1968, § 46-216)

Sec. 45-254. Drivers to use right-hand edge of roadway and follow vehicle ahead as close as practical.

Each driver in a funeral or other procession shall drive as near to the right-hand edge of the roadway as practical and shall follow the vehicle ahead as close as is practical and safe.
(Code 1968, § 46-217)

Sec. 45-255. Speed.

The drivers of motor vehicles participating in a funeral procession shall obey the applicable speed limit; provided, however, if, in the opinion of the police escort, conditions require that the funeral procession proceed at a speed less than the minimum speed limit or if conditions require that the

*__Cross references—__Carrying clubs in certain demonstrations, picket lines, etc., § 28-33; use of radios, etc., for advertising, § 30-4; public gatherings in parks, § 32-61 et seq.; street dances, § 40-27.

†__Editor's note—__Ord. No. 2010-911, § 4, adopted December 1, 2010, repealed Ch. 45, Art. IX, Div. 1, §§ 45-231—45-236 in its entirety. Formerly said division pertained to parades and processions generally and derived from Ord. No. 99-1352, § 1, 12-21-99; Ord. No. 05-1347, § 2, 12-7-2005; Ord. No. 07-657, § 2, 6-6-07; Ord. No. 08-50, § 3, 1-16-08; Ord. No. 09-167, § 2, 3-4-09. The users' attention is directed to Ch. 25, § 25-1 et seq. for similar provisions.

procession be brought to a complete stop, such direction shall be obeyed by the participants in the funeral procession.
(Code 1968, § 46-218)

Sec. 45-256. Obedience to traffic signals.

It shall be unlawful for the driver of a vehicle being the leader of a funeral procession to enter into an intersection in violation of a traffic signal, stop sign or direction of a police officer; however, as soon as the procession has started through an intersection, the whole procession may continue through without stopping or observing the direction of such stop sign or traffic signal, provided such vehicles are conspicuously designated as required by this division.
(Code 1968, § 46-219)

Sec. 45-257. Right-of-way rules as between two or more processions.

The right-of-way rules provided by law shall be applicable as between two or more funeral processions, subject to the authority of the police motorcycle escort to direct, control and regulate such funeral processions.
(Code 1968, § 46-220)

Sec. 45-258. Driving between vehicles in procession.

No driver of a vehicle shall drive between the vehicles comprising a funeral or other authorized procession while they are in motion and when such vehicles are conspicuously designated as required in this division.
(Code 1968, § 46-221)

Secs. 45-259—45-270. Reserved.

ARTICLE X. VEHICLE WEIGHT LIMITS

Sec. 45-271. Generally.

(a) Except as otherwise provided by law, no commercial motor vehicle, truck-trailer, trailer or semitrailer, nor combination of such vehicles, shall be operated over, on, or upon the public streets and highways within the corporate limits of the city, having a weight in excess of one or more of the following limitations:

(1) No such vehicle nor combination of vehicles shall have a greater weight than 20,000 pounds carried on any one axle, including all enforcement tolerances; or within a tandem axle weight in excess of 34,000 pounds, including all enforcement tolerances; or with an overall gross weight on a group of two or more consecutive axles produced by application of the following formula:

$$W = 500 \frac{LN}{N-1} + 12N \div 36$$

Where:

W = Overall gross weight on any group of 2 or more consecutive axles to the nearest 500 pounds;
L = Distance in feet between the extreme of any group of 2 or more axles; and
N = The number of axles in the group under consideration.

Notwithstanding the above, two consecutive sets of tandem axles may carry a gross load of 34,000 pounds each providing the overall distance between the first and last axles of such consecutive sets of tandem axles is 36 feet or more; provided, that such overall gross weight may not exceed 80,000 pounds, including all enforcement tolerances.

(2) No such vehicles nor combination of vehicles shall have a greater weight than 600 pounds per inch width of tire upon any wheel concentrated upon the surface of the highway and using high-pressure tires, and a greater weight than 650 pounds per inch width of tire upon any wheel concentrated upon the surface of the highway and using low-pressure tires, and no wheel shall carry a load in excess of 8,000 pounds on high-pressure tires and 10,000 pounds

on low-pressure tires, nor any axle a load in excess of 16,000 pounds on high pressure tires, and 20,000 pounds on low-pressure tires.

(3) Nothing in this section shall be construed as permitting size or weight limits on the national system of interstate and defense highways within the corporate limits of the city in excess of those permitted under 23 U.S.C. section 127. If the federal government prescribes or adopts vehicle size or weight limits greater than those prescribed by 23 U.S.C. section 127 for the national system of interstate and defense highways, the increased limits shall become effective on the national system of interstate and defense highways within the corporate limits of the city.

(4) Nothing in this section shall be construed to deny the operation of any vehicle or combination of vehicles that could be lawfully operated upon the highways and roads within the corporate limits of the city on December 16, 1974.

(5) In this section, an axle load is defined as the total load transmitted to the road by all wheels whose centers may be included between two parallel transverse vertical planes 40 inches apart, extending across the full width of the vehicle. Tandem axle group is defined as two or more axles spaced 40 inches or more apart from center to center having at least one common point of weight suspension.

(b) Any police officer having reason to believe that the gross weight or axle load of a loaded motor vehicle is unlawful, is authorized to weigh the same by means of portable or stationary scales approved by the police department of the city for such use, or the police officer may cause the loaded motor vehicle to be weighed by any public weigher and may require such vehicle to be driven to the nearest available scales for the purpose of weighing.

If the gross weight of a motor vehicle or an axle load exceeds the maximum permitted by law plus a tolerance allowance of five percent of the gross weight authorized by law, such police officer may require the operator to unload or rearrange the load to conform to law without proceeding if the police officer determines that such work may be safely accomplished at the site where the vehicle was weighed or may require the operator to proceed to a location where the cargo can be unloaded or rearranged safely without causing disruption to traffic. Such location shall be the nearest such place on authorized city property, on property under the control of the driver or his principal, or on property where consent has been given for such loading and where it is feasible to unload or rearrange such cargo.

If the load of a motor vehicle consists of livestock, the operator shall be permitted to proceed to destination without unloading providing the destination is within the state.

(c) Any person desiring to operate a vehicle on city streets in excess of the load limit set out herein shall first obtain a special permit from the Director of Houston Public Works and such permit shall not be issued unless reasonably necessary.

(d) The limitation as to weight prescribed by this section shall not apply to road rollers or other road making or road repairing machinery being moved or used on a street by the United States, the state, the city, or any contractor moving or using such road machinery in the performance of or preparatory to the performance of a contract with any one of the United States, the state or the city, but in the event of any such road making or road repairing machinery of a weight in excess of the limit set out herein being moved over the streets or bridges in the city, the person in charge thereof shall first obtain from the city engineer a permit for such movement, which permit shall designate the route or streets and also the bridges over which such movement shall take place, and such machinery may then be moved, but not elsewhere than over such designated routes.

(e) Any person moving or causing to be moved a load which, together with the weight of the vehicle, exceeds the limit as set out herein, shall be liable to the city for any damage done by any such excessively loaded vehicle to the streets,

bridges or culverts in the city and the acceptance of either of the permits provided for in this section shall be conclusive evidence that the person to whom such permit is issued agrees to make good and pay all such damages upon demand thereof made by the city.

(f) The driver, owner, operator, or other person operating or driving any commercial motor vehicle, truck, tractor, trailer or semitrailer or combination of such vehicles, over, on, or upon city streets or public highways within the limits of the city, shall comply with the provisions of article 6701d-11, section 5(a), of the Revised Civil Statutes of Texas.

(g) The driver, owner, operator, or other person operating or driving any commercial motor vehicle, truck, tractor, trailer or semitrailer or combination of such vehicles, over, on, or upon city streets or public highways within the limits of the city, who fails to comply with the provisions of this section, shall be guilty of a misdemeanor which shall be punishable, upon conviction, by a fine of not less than $100.00 and not more than $200.00.

(h) All persons have the affirmative duty to comply with all provisions of this article, and it shall not be a defense to prosecution of such persons that they were acting without a culpable mental state.
(Code 1968, § 46-251; Ord. No. 73-405, § 1, 2-28-73; Ord. No. 75-1220, § 1, 7-15-75; Ord. No. 76-284, § 1, 2-24-76; Ord. No. 78-1702, § 1, 8-29-78; Ord. No. 85-2065, § 1, 11-27-85; Ord. No. 86-3, § 1, 1-7-86; Ord. No. 93-514, § 106, 5-5-93; Ord. No. 02-449, § 2, 5-29-02; Ord. No. 2018-11, § 49, 1-10-2018)

Cross reference—General penalty for Code violations, § 1-6.

Sec. 45-272. Weight limits on specific streets.

(a) When signs are erected giving notice thereof, no person shall operate any vehicle with a gross weight in excess of the amounts specified on such signs at any time upon any of the streets or parts of streets so signed. Under this section, as vehicle weight is indicated by the number of axles supporting such vehicles, signs limiting the number of axles on through vehicles shall be official.

(b) When signs are erected stating "No Through Trucks," no person shall operate any commercial vehicle exceeding 3,000 pounds gross weight at any time upon any of the streets or parts of streets so signed, except that such vehicles may be operated thereon for the purpose of delivering or picking up materials or merchandise or for vehicle storage and then only by entering such street at the intersection nearest the destination of the vehicle and proceeding thereon no farther than the nearest intersection thereafter.
(Code 1968, § 46-252)

Secs. 45-273—45-285. Reserved.

ARTICLE XI. ACCIDENTS*

Sec. 45-286. Report required.

(a) The driver of a vehicle involved in an accident within the city limits resulting in property damage in excess of $1,000.00 shall report such accident either to the investigating police officer or in person to the police department, within 24 hours of its occurrence.

(b) Whenever the driver of a vehicle is physically incapable of making a required accident report and there was another occupant in the vehicle at the time of the accident capable of making a report, such occupant or representative shall make or cause to be made such report.
(Code 1968, § 46-268; Ord. No. 09-748, § 2, 8-12-09)

Cross references—Requests for accident reports, § 2-96; charge for records furnished by police department, § 2-97.

Sec. 45-287. Garage keeper to report damaged vehicle.

The person in charge of any garage or repair shop to which is brought any motor vehicle which shows evidence of having been involved in an accident or struck by any bullet shall file a

*__Cross reference—__Automobile wreckers, § 8-101 et seq.

written report of same with the police department within 24 hours after such vehicle is received and before any repairs have been made, giving the make of the vehicle and its engine number and the name and address of the person representing himself as being in charge of such vehicle.
(Code 1968, § 46-269)

Sec. 45-288. Parking or loitering near scene of collision.

(a) It shall be unlawful for the driver of any motor vehicle to park or stand the same on a public street within 25 feet of any place where a collision has occurred between two or more other vehicles or one or more vehicles and a pedestrian, until such time as the vehicles involved in such collision and any persons injured or killed have been removed from such place. It shall be unlawful for any person to loiter in the vicinity of any such collision, or to stand in the street within 200 feet of the place where the same occurred until such time as the vehicles involved, and any person injured or killed, have been removed therefrom.

(b) The provisions of subsection (a) shall not apply to peace officers, state, county or city officials in the discharge of their official duties, justices of the peace, members of the Harris County Emergency Corps, authorized representatives of daily newspapers, drivers of ambulances, passengers of any vehicle involved in any such collision, persons requested by a police officer to remain at the scene for the purpose of giving information to such officer, or to the driver of any automobile wrecker, after such driver has received specific authorization from a police officer to remove any vehicle involved in such collision.
(Code 1968, § 46-271)

Secs. 45-289—45-300. Reserved.

ARTICLE XII. BICYCLES*

DIVISION 1. GENERALLY

Sec. 45-301. Authority to prohibit riding on roadways.

The traffic engineer is authorized to erect signs on any roadway prohibiting the riding of bicycles thereon and, when such signs are in place, no person shall disobey the same.
(Code 1968, § 46-284)

Sec. 45-302. Riding on sidewalks.

(a) No person shall ride a bicycle upon a sidewalk within the central business district.

(b) The traffic engineer is authorized to erect signs on any sidewalk outside the central business district prohibiting the riding of bicycles thereon by any person, and when such signs are in place, no person shall disobey the same.

(c) Whenever any person is riding a bicycle upon a sidewalk, such person shall yield the right-of-way to any pedestrian and shall give audible signal before overtaking and passing any pedestrian.
(Code 1968, § 46-285; Ord. No. 2021-205, § 6, 3-24-2021; Ord. No. 2025-971, § 6, 11-19-2025)

Secs. 45-303—45-310. Reserved.

DIVISION 2. RESERVED†

Secs. 45-311—45-324. Reserved.

*__Cross reference—__Riding bicycles in restricted airport areas, § 9-66.

†__Editor's note—__Ord. No. 2008-968, § 2, adopted October 29, 2008, repealed Division 2, §§ 45-311—45-319 in its entirety. Formerly said division pertained to registration and derived from Code 1968, § 46-289; Ord. No. 72-1598, §§ 1(1)—1(9), 9-6-72; Ord. No. 72-2309, § 1, 12-20-72; Ord. No. 74-1732, § 1, 10-1-74; Ord. No. 92-1449, § 64, 11-4-92.

DIVISION 3. BICYCLE HELMETS

Sec. 45-325. Definitions.

In this division the following words and terms shall have the meanings ascribed to them in this section, unless the context of their usage clearly indicates another meaning:

Child means any person under 18 years of age.

Dealer means any commercial establishment that sells or leases new or used bicycles, whether as its principal business activity or in connection with the selling or leasing of other merchandise, from a place of business within the city.

Fund means the bicycle helmet fund created under section 45-329 of this Code.

Helmet means a properly fitted bicycle helmet that is not structurally damaged and that conformed to the standards of the American National Standards Institute, the American Society for Testing and Materials, the Snell Memorial Foundation or any federal agency having regulatory jurisdiction over bicycle helmets, as applicable, at the time of the manufacture of the helmet.

Parent means the natural or adoptive parent or court-appointed guardian or conservator of a child.

Public way means any property that is publicly owned or maintained, including, but not limited to, a "street or highway" as defined in section 45-2 of this Code, a publicly maintained trail, and any public parks facility.

Wearing a helmet means that the person has a helmet fastened securely to his head with the straps of the helmet securely tightened.
(Ord. No. 95-813, § 1, 7-12-95)

Sec. 45-326. Helmet required.

(a) It is unlawful for any child to operate or ride upon a bicycle or any side car, trailer, child carrier, seat or other device attached to a bicycle unless the child is wearing a helmet.

(b) It is unlawful for a parent to suffer or permit a child under 14 years of age to operate or ride upon a bicycle or any side car, trailer, carrier, seat or other device attached to a bicycle unless the child is wearing a helmet.

(c) It is a defense to prosecution that the bicycle was not being operated upon a public way at the time of the alleged offense.

(d) It is an affirmative defense to prosecution under this section, upon first offense only, that the person owns or has acquired a helmet prior to the court hearing and promises the court that the helmet will be used in the future.

(e) This section shall not be applicable to the operation of a pedicab pursuant to Article III of chapter 46 of this Code.
(Ord. No. 95-813, § 1, 7-12-95; Ord. No. 2010-834, § 5, 10-27-2010)

Sec. 45-327. Sale or lease of bicycles by dealers.

(a) It shall be unlawful for any dealer to sell a bicycle, bicycle side car, trailer or child carrier without providing a written statement to the purchaser advising of the terms of this division. The statement shall be in a form promulgated by the chief of police. Upon request, the chief of police shall provide a sample of the required form to a dealer. However, printing of distribution copies shall be at the dealer's expense.

(b) It shall be unlawful for any dealer to lease a bicycle to any person without providing a helmet for the use of each child who will operate or ride upon the bicycle or determining that each child who will operate or ride upon the bicycle has a helmet available. The dealer may impose an additional fee for use of the helmet if the dealer sells or leases a helmet to the bicycle lessee.
(Ord. No. 95-813, § 1, 7-12-95)

Sec. 45-328. Penalty.

(a) Any person who violates any provision of this division shall be guilty of a misdemeanor and upon conviction shall be fined an amount not

exceeding $50.00 upon first conviction and an amount not exceeding $100.00 upon the second and each subsequent conviction.

(b) The purpose of this division is to encourage the use of helmets. In keeping with that purpose, the municipal courts are urged to consider deferred dispositions under article 45.54 of the Texas Code of Criminal Procedure whenever the circumstances warrant deferred dispositions. Conditions of the deferral may include that the defendant, if financially able, has obtained a helmet and has agreed to make a contribution in support of the fund.
(Ord. No. 95-813, § 1, 7-12-95)

Sec. 45-329. Bicycle helmet fund.

(a) The bicycle helmet fund is hereby created. The fund shall accept donations of helmets and money to be used for the purchase of helmets. All monetary gifts to the fund shall constitute a trust that shall be deposited in the city's trust and agency account, which may be invested as provided in chapter 104 of the Texas Local Government Code.

(b) The fund shall be used exclusively for the purpose of providing bicycle helmets for the use of members of "very low income families" as defined in 24 Code of Federal Regulations, section 813.102, as computed for the city for purposes of section 8 of the United States Housing Act of 1937. The directors of the parks and recreation department and the Houston Health Department shall jointly administer the fund and shall promulgate rules and procedures for the distribution of helmets. Helmets shall be provided on a first-come-first-served basis to the extent of available supply.
(Ord. No. 95-813, § 1, 7-12-95; Ord. No. 2015-820, § 34, 8-26-2015)

Secs. 45-330—45-335. Reserved.

ARTICLE XIII. RESTRICTED ACCESS LANES

Sec. 45-336. Definitions.

As used in this article, the following terms shall have meanings as set out below:

(1) *Authorized vehicle* shall mean a vehicle authorized by the commission to enter and to use a restricted access lane, which vehicle has affixed to it, in the place prescribed by the commission, a valid and unexpired identifying sticker or emblem issued by the commission, or by the authority of the commission, specifically for such vehicle.

(2) *Commission* shall mean the Texas Transportation Commission.

(3) *Restricted access lane* shall mean that portion of any highway facilities located in, upon or over a controlled access highway:

a. Which is restricted to one-way operation by the commission;

b. To which access is allowed only for certain vehicles providing mass transportation services, as prescribed by the commission;

c. To which access is allowed only at certain points designated by the commission; and

d. Which is marked and regulated by official signs and traffic-control devices erected by the commission or by its authority.

(Code 1968, § 46-401; Ord. No. 79-1214, § 1, 7-25-79; Memorandum of 10-15-2015, § 2)

Sec. 45-337. Use.

It shall be unlawful for any person, other than a driver or passenger within an authorized vehicle, to operate any vehicle in or upon a restricted access lane, or to enter a restricted access lane otherwise, during the hours that access to such lane is restricted by the commission.
(Code 1968, § 46-402; Ord. No. 79-1214, § 1, 7-25-79)

Secs. 45-338—45-340. Reserved.

ARTICLE XIV. MICROMOBILITY DEVICES AND OFF-HIGHWAY VEHICLES

Sec. 45-341. Operation of micromobility devices; off-highway vehicles prohibited at certain times.

(a) It shall be unlawful for any person to operate a micromobility device or off-highway vehicle on any public roadway, street, alley, sidewalk, trail, or city park within the city limits between the hours of 8:00 p.m. and 4:00 a.m. the following day, unless expressly authorized by state law.

(b) It shall be unlawful for the parent or guardian of a minor to allow or permit the minor to operate a micromobility device on any public roadway, street, alley, sidewalk, trail, or city park within the city limits between the hours of 8:00 p.m. and 4:00 a.m. the following day.

(c) It shall be unlawful for any person to place, erect, operate, or maintain a temporary structure for the purpose of renting or facilitating the rental of a micromobility device within the city limits.

(d) It shall be unlawful for any person to rent or offer to rent a micromobility device or an off-highway vehicle within the city limits between the hours of 8:00 p.m. and 4:00 a.m. the following day.

(e) It is a defense to prosecution under this section if a person presents evidence of being a qualified individual with a disability pursuant to the Americans with Disabilities Act of 1990 (42 U.S.C. Sections 12131 and 12132).

(f) The traffic engineer is authorized to install signage in high-traffic areas to provide public notice of the curfew and prohibition on micromobility devices and off-highway vehicles.

(g) It is an affirmative defense to prosecution under this section that between the hours of 8:00 p.m. and 4:00 a.m., the person was:

(1) Operating a micromobility device as a direct means of transportation to or from the individual's school or place of employment;

(2) Operating a micromobility device when reasonably necessary to respond to a personal or family emergency, or to obtain emergency medical care or other urgent assistance;

(3) Operating a micromobility device as law enforcement, fire, or emergency medical personnel, or as a city employee in the performance of official duties; or

(4) Operating a micromobility device during a special event or activity expressly permitted or authorized by the city, provided such use complies with all conditions of permit authorization. The provisions of this section do not restrict a person operating or parking a micromobility devices as part of a parade or special event permitted under chapter 25 of this Code provided such use is expressly authorized in the special event or parade permit and complies with all conditions established by the director of the Mayor's Office of Special Events to ensure public safety and minimize disruption to pedestrian and vehicular traffic.

(Ord. No. 2025-971, § 8, 11-19-2025)

Sec. 45-342. Offense; penalty.

(a) Any person who violates any provision of this article shall be guilty of an offense and, upon conviction thereof, shall be punished as provided in section 1-6 of this Code.

(b) Each violation of this article shall constitute and be punishable as a separate offense.

(Ord. No. 2025-971, § 9, 11-19-2025)

Sec. 45-343. Micromobility device impoundment and removal.

(a) The city may impound all micromobility devices that are operated or parked in violation of state law, city ordinances, the motorized device curfew established in this chapter, or any other applicable provisions of this Code.

(b) Every micromobility device that is impounded may be redeemed and released only upon payment of a fee as set forth in the city's fee schedule. Every micromobility device that is

impounded may be redeemed and released only upon payment of removal, storage, and redemption fees established in the city's fee schedule. Such fees may be adjusted periodically by the finance department and approved by city council in accordance with applicable administrative procedures.

(c) If an impounded micromobility device remains in the possession of the city for 30 calendar days following notice of impoundment, it shall become and remain the property of the city.

(d) The police department may remove any micromobility devices from a public street, sidewalk, or public place when probable cause exists to believe that the micromobility device is being operated or used in violation of this chapter, including curfew violations. The administration and regulatory affairs department shall assist the police department with coordinating the removal of micromobility devices operated or used in violation of this chapter.

(e) Any person whose micromobility device has been removed without the consent of the owner or operator may request a hearing to determine whether probable cause existed for the removal. Hearings under this section shall be before a municipal court judge.

(f) A person who wishes to request a hearing hereunder shall deliver a written request for the hearing to the clerk of the municipal courts not later than the 14th day after the date the micromobility device was placed in a secured facility. A person who fails to deliver the request within the specified time period waives the right to the hearing.

(g) The written request must contain the following information:

(1) The name, address, and telephone number of the owner and operator of the micromobility devices;

(2) The date and location from which the micromobility devices was removed;

(3) The name of the police officer who authorized the removal of the micromobility device; and

(4) The name, address, and telephone number of the secured facility to which the micromobility device was removed.

(h) Upon receipt of a complete and timely filed hearing request, the clerk of the municipal courts shall schedule a hearing to occur as soon as practicable; provided, however, all hearings conducted pursuant to this section shall be held within 21 days after the date the hearing request was received.

(i) The court shall notify the owner or operator of the micromobility device and the police officer who authorized the removal of the micromobility device of the date, time, and place of the hearing. The sole issue to be determined in a hearing under this section is whether probable cause existed for the removal of the vehicle.

(j) The court shall make written findings of facts and conclusions of law regarding the issues in the hearing. If the court determines that probable cause existed for the removal of the micromobility devices, the owner or operator shall pay the costs of removing and storing the device prior to the release of the micromobility device.

(k) If the court determines that probable cause did not exist for the removal of the micromobility devices, the vehicle shall be ordered released without the payment of any costs for removing and storing the micromobility devices. If the owner or operator paid removal and storage costs before the hearing and the court determines that probable cause did not exist for the removal and storing of the micromobility devices, the city shall fully reimburse the owner or operator.

(l) The provisions of this section shall be cumulative of all other enforcement powers granted by this chapter and available to the city. (Ord. No. 2025-971, § 10, 11-19-2025)

Secs. 45-344—45-360. Reserved.

ARTICLE XV. NEIGHBORHOOD TRAFFIC MANAGEMENT PROGRAM*

DIVISION 1. GENERALLY

Sec. 45-361. Definitions.

As used in this article, the following words and terms shall have the meanings ascribed to them in this section unless the context of their usage clearly indicates a different meaning:

Applicant means one or more property owners or residents within a neighborhood area, a duly authorized representative of a neighborhood association or the director who makes a request for the construction of a project.

Applicant's priority area means the specific location(s) or street(s) within the neighborhood area designated by the applicant.

Designated street means that portion of a particular street within the right-of-way of which a device is proposed to be constructed under this article. Designated streets may include the rights-of-way of local or minor collector streets, but may not include any portion of a major collector street or a major thoroughfare.

Device means a traffic calming device, consisting of the physical structure or other improvement constructed, placed or located, whether on a temporary or a permanent basis, upon a designated street pursuant to this article.

Director means the Director of Houston Public Works or the traffic engineer or any other person designated by the said director to perform the director's duties under this article.

Interdepartmental review committee means a committee consisting of one representative each of the fire department, police department, department of planning and development, solid waste management department, and Houston Public Works.

Install or *installation* means the permanent placement of a device following approval by final action of city council as required pursuant to section 45-377 or 45-396 of this Code. Install or installation does not include the temporary placement of a device for test or evaluation purposes.

Local street has the meaning ascribed in section 42-1 of this Code.

Major collector street means a public street that accumulates traffic from local streets and minor collector streets for distribution to a major thoroughfare.

Major thoroughfare has the meaning ascribed in section 42-1 of this Code.

Minor collector street means a public street that accumulates traffic from local streets for distribution into a major thoroughfare or a major collector street.

Neighborhood area means any contiguous area within the city that generally has as its boundaries: (i) the interior right-of-way line of any major thoroughfare or major collector street; (ii) the interior boundary or right-of-way line of any railroad line, utility or pipeline corridor, river or waterway (not including drainage or flood control ditches not being traversed by other streets within the general locale); (iii) the corporate limits of the city; or (iv) any combination of one or more of the foregoing boundaries. A neighborhood area

*__Editor's note__—Ord. No. 2015-587, § 2(Exh. A), adopted June 17, 2015, amended Ch. 45, Article XV, in its entirety to read as herein set out. Formerly said article pertained to similar subject matter and Ord. No. 95-1070, § 1, 10-4-95; Ord. No. 98-334, § 11, 4-29-98; Ord. No. 98-1162, § 1, 12-9-98; Ord. No. 07-464, § 19, 4-11-07; Ord. No. 2010-394, §§ 2—19, 5-19-2010; Ord. No. 2011-1168, § 13, 12-14-2011.

[The next page is 3089]

may consist of one or more subdivisions and shall include only those properties within and fronting on or taking their only access from a street within the bounded area.

Neighborhood association means any homeowners' association, property owners' group or civic association, whether incorporated or not, whose membership includes property owners and/or residents of a neighborhood area.

Neighborhood traffic committee means a committee, consisting of not more than five members drawn from the residents or property owners within a neighborhood area, selected as provided in section 45-371 of this Code, to assist in the processing of a request for a project.

Neighborhood traffic management program means the entirety of the processes and procedures as described in this article whereby one or more devices may be placed upon a designated street in a neighborhood area.

Project means the construction of one or more devices upon a designated street(s) in the neighborhood area, as may be amended.

Property owner means the owner(s) of any tract or parcel of real property within a neighborhood area.

Resident means any person who resides in or owns or operates a home or business upon any tract or parcel of real property within a neighborhood area.

Speed control program means one or more projects intended to address speeding problems by installation of speed cushions within a neighborhood area.

Volume control program means one or more projects intended to address cut-through traffic and speeding problems within a neighborhood area.

(Ord. No. 2015-587, § 2(Exh. A), 6-17-2015; Ord. No. 2018-11, §§ 31, 49, 1-10-2018; Ord. No. 2024-420, § 2, 6-5-2024)

Sec. 45-362. Purpose; regulations.

(a) The purpose of this article is to establish the procedures governing the application for and review, approval, financing and construction of projects to minimize or eliminate traffic congestion, cut-through traffic, speeding or other traffic-related problems in a neighborhood area. In accordance with the provisions of this article, the director shall prepare and make available to the public appropriate forms to request a project.

(b) Consistent with the other provisions of this article and state law, the director may promulgate request forms and may promulgate rules and regulations for the implementation of this article, including without limitation rules, policies, procedures and regulations establishing the criteria for the modification and partial approval/denial of projects, the neighborhood area and concept plans, resubmittal of projects, phased implementation of concept plans that the director approved but were not implemented in their entirety due to funding availability, and notice requirements for amended concept plans and projects completed in phases due to funding availability. A copy of the rules and regulations shall be maintained for public inspection in the offices of the said director, and published on the city web site.

(Ord. No. 2015-587, § 2(Exh. A), 6-17-2015; Ord. No. 2024-420, § 3, 6-5-2024)

Sec. 45-363. Construction.

The director shall be responsible for the construction, or shall direct and oversee the construction by a private contractor or contractors, of approved projects. Approval under this article shall not excuse the applicant from obtaining any other permit or authorization required by law to perform the work.

(Ord. No. 2015-587, § 2(Exh. A), 6-17-2015)

Sec. 45-364. Removal.

(a) Nothing contained in this article shall be construed to prohibit the city from removing any device or portion thereof. If, and only if, the device to be removed is a gate, then the removal must first be authorized by the city council.

(b) The director shall maintain an accurate record of each approved project.
(Ord. No. 2015-587, § 2(Exh. A), 6-17-2015)

Sec. 45-365. Limitation on action of city.

The approval, installation and maintenance of a project and associated devices, as provided for by this article, shall never be construed to cause an abandonment or relinquishment of any street or public property or to authorize the installation of a device upon any right-of-way not under the control of the city. The installation of a project and associated devices that involves the closure of a street to vehicular traffic shall require a public hearing by city council and approval by a majority vote.
(Ord. No. 2015-587, § 2(Exh. A), 6-17-2015)

Sec. 45-366. Coordination with city council offices.

Notice of the progress of the request under this article shall be given to each district council member whose district includes any part of the neighborhood area and to any other city council member who so requests, including, but not limited to, notice of each public meeting, the concept plan, the traffic study and the proposed placement of any device.
(Ord. No. 2015-587, § 2(Exh. A), 6-17-2015)

Sec. 45-367. Request for projects.

(a) A request for a project must be initiated by an applicant. Multiple requests from the same or similar neighborhood areas may be consolidated into and considered as a single request, at the director's option.

(b) The director may, from time to time, prepare and submit for approval by motion of the city council revisions to the schedule of fees that shall be paid by an applicant for a project. Payment of any applicable fees stated for this provision in the city fee schedule when due is a condition of the processing of a request under this article.

(c) The director may adjust the boundaries of a neighborhood area at any stage of the neighborhood traffic management process upon the consideration of information including, but not limited to, public input from residents or property owners in the neighborhood area, amount and availability of public assistance or funding (including Council District Service Funds) or funding from private funding sources, or findings made by the director as a result of the presence of special conditions affecting the neighborhood area.
(Ord. No. 2015-587, § 2(Exh. A), 6-17-2015; Ord. No. 2024-420, § 4, 6-5-2024)

Sec. 45-368. Preliminary review process.

(a) Each request for a project shall be made or forwarded by the applicant to the director upon a form promulgated for that purpose by the director and shall include, at a minimum, the following:

(1) A description or definition of the proposed neighborhood area;

(2) A list containing the names, addresses and telephone numbers of the individuals comprising the applicant or, in the case of a request from a neighborhood association, the name, address and telephone number of the duly authorized representative of the neighborhood association.

(3) A general description of the traffic problem or condition to be remedied;

(4) The type of program, speed control or volume control, being sought;

(5) The applicant's priority area where the speed control or volume control is being sought;

(6) Special conditions concerning the proposed neighborhood area, including, but not limited to, such factors as the location and nature of businesses, schools, parks, churches or other non-residential traffic generators within or in close proximity to the neighborhood area;

(7) Written evidence of neighborhood or community support for the project from residents and property owners within the affected neighborhood area;

(8) Whether public funding or assistance is requested for the project; and

(9) Any other information reasonably required by rule or regulation of the director in order to make any determination specified under this article.

(b) Each request shall initially be reviewed for completeness. If determined to be complete, the request shall be considered to have been filed when received in the director's offices and shall be acted upon as further provided in this article. If determined to be incomplete, the request shall be returned to the applicant with written notice of the deficiencies.

(c) Each request that is properly filed shall be reviewed and evaluated in accordance with section 45-369 of this Code. If the director determines that the request does not merit further consideration, based upon the criteria set forth in section 45-369(1) through (5) of this Code, then the director shall so notify the applicant in writing and, wherever practicable to do so, shall provide any suggested modifications to the request that might cause it to receive more favorable consideration if resubmitted. For requests that the director determines merit further consideration under the criteria of section 45-369(1) through (5) of this Code, the applicant shall be so advised in writing and shall also be advised:

(1) If no public funding or assistance has been requested, that the project is eligible to proceed under division 2 or division 3 of this article, as applicable; or

(2) If public funding or assistance has been requested, whether or not the director has given preliminary approval for consideration of the project on a publicly funded basis under the criteria of section 45-369(6) of this Code, and:

a. If so, that the project is eligible to proceed under division 2 or division 3 of this article, as applicable; or

b. If not, that the project will not be further considered under division 2 or division 3 of this article, as applicable, unless the applicant withdraws the request for public assistance or funding.

(Ord. No. 2015-587, § 2(Exh. A), 6-17-2015; Ord. No. 2024-420, § 5, 6-5-2024)

Sec. 45-369. Review criteria.

The director shall evaluate and prioritize all requests pursuant to the following criteria:

(1) Whether the request identifies a problem that could be remedied under this article;

(2) Whether the request identifies a problem that could readily be addressed through the installation of a type of traffic control device that may be installed without approval under this article;

(3) Whether special conditions concerning the neighborhood area, including, but not limited to, the location and nature of businesses, schools, parks, churches or other non-residential traffic generators within or in close proximity to the neighborhood area, may support approval of the project;

(4) Whether there is public support for the project as evidencing that the project will enhance and promote the public health, safety and welfare;

(5) Whether existing evidence, studies, data or reports regarding the severity of the existing problem, if any, merit the project;

(6) For requests that include a public funding component, the amount of public funds available for planning of projects, the number of outstanding requests for publicly funded projects, the amount of public funds available for the project, and the apparent merit of the request as compared to that of other requests and established city priorities; and

(7) For requests that include a private funding component, the amount of private funds available for the planning of the project and the project.

(Ord. No. 2015-587, § 2(Exh. A), 6-17-2015; Ord. No. 2024-420, § 6, 6-5-2024)

Sec. 45-370. Reserved.

DIVISION 2. VOLUME CONTROL PROGRAM

Sec. 45-371. Initial public meeting; neighborhood traffic committee; citizen comments.

(a) Not later than 180 days following the receipt of notification by the director that a project has received preliminary approval for further consideration, the applicant shall notify the director of a suitable location for the holding of a public meeting within the neighborhood area for the purpose of receiving public comments on the project. If the applicant fails to provide notice of a suitable location for the holding of a public meeting within the prescribed time, the applicant shall be notified that the request for a project has been closed. Any applicant who desires to renew a request for a project that has been closed due to the applicant's failure to notify the director of a suitable location for the holding of an initial public meeting shall be required to provide the director with a new application containing the minimum requisites pursuant to section 45-368(a) of this Code.

(b) Following receipt by the director of the information required by subsection (a) above, a written notice, in a form approved by the director, shall be mailed to all property owners and residents within one-half mile of the proposed device setting forth the date, time and location of a public meeting to receive public input on a proposed project. The notice shall specify the location and general nature of the proposed project and shall solicit public comments on the project. The director shall select the method(s) utilized to identify the property owners and residents to be notified, with due regard to the cost, time and accuracy of the method(s) to be utilized.

(c) Each notice shall be effective when deposited in the U.S. mail, postage prepaid, addressed to the property owner, resident or representative of a neighborhood association. Failure of any person to receive actual notice of the hearing required by this section shall not affect the validity of any action taken by the city in connection with the project.

(d) At the initial public meeting:

(1) A neighborhood traffic committee shall be selected by those present;

(2) Public comments shall be received on the proposed project; and

(3) The director shall ensure that necessary provisions are made for the receipt of written comments and public input on the proposed project. Written comments concerning the project shall not be considered in evaluating any project unless received in the offices of the director or such other place as the director may specify within 14 days after the meeting.

(e) Persons in attendance may register, and the names and addresses of those who do register shall be delivered to the director and added to the notification list for any future meetings held in connection with a project.

(f) The initial public meeting shall be conducted by the director, and all requirements and expenses relating to its being conducted shall be borne by the city for requests that receive preliminary approval for further consideration as a publicly funded project pursuant to section 45-368(c)(2) of this Code. For all other requests, the initial public meeting shall be conducted in all respects at the expense of the applicant, and the director may delegate to the applicant the accomplishment of any one or more of the requirements of this section in accordance with rules and regulations promulgated for that purpose by the director. The applicant shall provide to the director evidence that any requirements so delegated have been fully and properly carried out.
(Ord. No. 2015-587, § 2(Exh. A), 6-17-2015)

Sec. 45-372. Traffic studies.

Upon receipt of all public comments and information required by section 45-371, the director shall cause or authorize to be conducted a traffic study to complete the preliminary eligibility review of a proposed project. Unless the

director has given preliminary approval for consideration of the project on a publicly funded basis, the director shall determine, and notify the applicant concerning, the scope and type of traffic study to be conducted by the applicant and indicate any additional information required by the director to facilitate review of the proposed project.
(Ord. No. 2015-587, § 2(Exh. A), 6-17-2015)

Sec. 45-373. Completion of staff review.

The director shall determine, based upon all available information regarding a project, including, without limitation, any traffic study prepared in accordance with section 45-372 of this Code, whether the project is eligible for further consideration and processing in accordance with section 45-374 of this Code. The director shall consider the impact of the following on selected streets within the neighborhood area in making a determination whether a project is eligible for further consideration and processing in accordance with section 45-374 of this Code:

(1) Whether the estimated percentage of cut-through traffic on a street is equal to or greater than 20% of the observed daily traffic volume, or the observed daily volume is equal to or greater than 750 vehicles per day;

(2) Whether at least 15% of observed vehicle speeds on a street are equal to or in excess of the posted speed limit plus three miles per hour or, where there is no posted speed limit, the authorized speed limit pursuant to section 45-91(a)(1) of this Code plus three miles per hour;

(3) Whether at least 8% of the total daily traffic volume on a street consists of trucks having more than two axles; and

(4) The presence of any additional special conditions or safety concerns within the approved neighborhood area as determined by the director.

Written notice of the director's determination shall be given to the applicant. Absent demonstrable evidence of a significant change in traffic volume or traffic patterns in the intervening period which would in the director's reasonable professional judgment prompt an earlier review, any project declared ineligible for further consideration pursuant to this section shall not be eligible for reconsideration for the same or a similar project for a period of three years.
(Ord. No. 2015-587, § 2(Exh. A), 6-17-2015)

Sec. 45-374. Concept plan.

The director shall prepare a concept plan for each project approved pursuant to section 45-373, taking into account all traffic studies, public comments, and other data and factors developed in accordance with the requirements of this article. Each concept plan shall be reviewed by the neighborhood traffic committee and approved by the interdepartmental review committee and the city attorney before being submitted for public comments, as hereinafter provided. No concept plan or project shall be approved by the interdepartmental review committee if it is found that:

(1) Pedestrian traffic or access to a neighborhood area would be denied or materially impeded;

(2) General mobility of traffic in the neighborhood area, the surrounding community, or both, as determined by the city's traffic engineer, would be unreasonably adversely affected to a material extent;

(3) Based upon review of any reasonably suitable alternative methods identified by the interdepartmental review committee to resolve the problem, that the proposed resolution is not the least restrictive device that could reasonably be expected to substantially mitigate or resolve the problem;

(4) The project would prevent any owner of property from having direct vehicular access to at least one abutting street in the city; or

(5) The project would be likely to significantly delay ingress to or egress from neighborhoods by emergency service vehicles.

The city attorney shall approve the concept plan unless he determines that its implementa-

tion would be contrary to local, state or federal laws or regulations. Written notice of the interdepartmental review committee and the city attorney's determination shall be given to the applicant. If either the city attorney or interdepartmental review committee deny the concept plan, the director may, in the director's reasonable professional judgment, develop a new concept plan(s), and the provisions of this section 45-374 shall be applicable to the new concept plan(s). Written notice of the interdepartmental review committee and the city attorney's determination regarding the subsequent concept plan(s) shall be given to the applicant. Absent demonstrable evidence of a significant change in traffic volume or traffic patterns in the intervening period which would in the director's reasonable professional judgment prompt an earlier review, the same or a similar project that was denied by the city attorney or interdepartmental review committee shall not be eligible for reconsideration for a period of three years.
(Ord. No. 2015-587, § 2(Exh. A), 6-17-2015; Ord. No. 2024-420, § 7, 6-5-2024)

Sec. 45-375. Second public meeting.

(a) Upon approval of the concept plan, a second public meeting shall be held to gather public comments. Notice of the meeting shall be given in the same manner and to the same parties notified of the initial public meeting, plus those persons who registered their names and addresses at the initial public meeting, and shall contain a description of the concept plan and a comment card for use by members of the public to address public safety, convenience and traffic issues and to express either support for or opposition to the concept plan. Unless the director has given preliminary approval for consideration of the project on a publicly funded basis, the director shall require that all expenses of conducting the second public meeting shall be borne by the applicant, and the provisions of section 45-371(f) shall also be applicable to the second public meeting.

(b) At the second public meeting, comments regarding the concept plan may be made by any interested party. Written comments concerning the plan shall not be considered unless received in the offices of the director or such other place as the director may specify within 14 days after the meeting.
(Ord. No. 2015-587, § 2(Exh. A), 6-17-2015)

Sec. 45-376. Final review and ranking; recommendation by director.

(a) Following the close of the public comment period provided in section 45-375(b) above, the director shall evaluate each concept plan, and shall compare it to all other unimplemented concept plans that have reached the same level in the approval process. The director shall either (i) disapprove the concept plan and its underlying request and so notify the applicant in writing; or (ii) approve the concept plan, as may have been modified by the director, in whole or in part, for further consideration and so notify the applicant in writing. The director shall give those concept plans receiving approval a priority ranking that shall be used to establish the order in which the various approved projects will be considered for implementation. If the director disapproves the concept plan, and absent demonstrable evidence of a significant change in traffic volume or traffic patterns in the intervening period which would in the director's reasonable professional judgment prompt an earlier review, the same or a similar project shall not be eligible for reconsideration for a period of three years.

(b) Each concept plan must be tested with a temporary device and receive a recommendation of approval from the director before being submitted to city council for final approval. Unless the project has been approved by the director for public funding assistance, the temporary device shall be placed at the applicant's sole expense. Each concept plan whose priority ranking is sufficient to indicate that public funding will be available to complete the project, if approved, during the current or next succeeding fiscal year and each concept plan for a project to be financed from private funding sources shall receive approval from the director for the construction of a temporary device, in accordance with its priority ranking, provided that the director may approve a temporary device for any ranked project without regard to its priority ranking in

order to reflect special or changed circumstances, availability of Council District Service Funds, or in order to avoid delay in implementing worthy projects that have not been approved for public funding. No temporary device may be placed without the approval of the director. Temporary devices shall be in place for a testing period of not less than 90 days, provided that the director shall immediately remove a temporary device that is determined to be a threat to public health, safety or welfare.

(c) Upon authorization of placement of a temporary device:

(1) The device, with appropriate signs, shall be constructed within the neighborhood area in accordance with the concept plan;

(2) City staff, the neighborhood traffic committee and the interdepartmental review committee shall monitor and review traffic impact and any comments received regarding the temporary device during the testing period; and

(3) At least 90 but no more than 210 days following the placement of the temporary device, to receive public comments regarding the temporary device, a third public meeting shall be called and conducted, in the same manner as for the second public meeting with written notice to: the same parties notified as for the second public meeting, those additional persons who registered their names and addresses at the second public meeting, and all property owners and residents within one-half mile of the location where the temporary device was placed. The provisions of section 45-371(f) of this Code shall also be applicable to the third public meeting. Written notice shall also specify how public comments may be received by city council prior to its consideration of the project and materially modified the concept plan since the second public meeting or if the temporary device was placed at a location materially different from the location described in the concept plan published with the notice for the second public meeting.

(d) Upon the conclusion of the public meeting and expiration of the 14 day comment period following the third public meeting, the director shall review all of the available information regarding the temporary device, including timely received public comments, and either (i) remove or cause to be removed the temporary device and deny all or part of the concept plan or (ii) forward his recommendation for final approval of all or part of the concept plan to city council, during which time the temporary device may remain in place. Written notice of the director's action shall be given to the applicant. If the director disapproves the concept plan, in whole or in part, and absent demonstrable evidence of a significant change in traffic volume or traffic patterns in the intervening period which would in the director's reasonable professional judgment prompt an earlier review, the concept plan or disapproved portions thereof may not be resubmitted as any part of a new request for the same or a similar project for a period of three years. Notwithstanding anything to the contrary herein, the three-year prohibition on resubmitting a new request for the same or similar project shall not apply to a project or concept plan, including any portion thereof, for which the director modified, approved (in whole or in part), or disapproved solely due to funding availability.

(e) If a project is proposed to be constructed by the city or a city contractor, the director shall prepare and present to city council as part of his recommendation under subsection (d) above a preliminary cost estimate and time line for the project, which shall identify the source of funds to be used to finance the project and the time and priority in which the city would construct the project if the project is approved by city council. (Ord. No. 2015-587, § 2(Exh. A), 6-17-2015; Ord. No. 2024-420, § 8, 6-5-2024)

Sec. 45-377. Final action by city council.

(a) All projects recommended for approval by the director as provided in section 45-376(d) of this Code shall be forwarded to city council accompanied by a summary setting forth in relevant detail the information relied upon in

formulating the recommendation, including copies of all timely received written public comments provided as a result of a request for a project.

On the request of affected residents and property owners within one-half mile of the proposed device, city council shall hold a public meeting to consider the implementation of a device.

(b) The city council shall, by motion, approve or deny the request for the project.

(c) A decision by city council to approve or deny a request shall be final and shall not be subject to further appeal or rehearing. If the city council denies the request, the applicant shall not be permitted to file a new request for the same or a similar project for a period of three years.
(Ord. No. 2015-587, § 2(Exh. A), 6-17-2015)

Secs. 45-378—45-390. Reserved.

DIVISION 3. SPEED CONTROL PROGRAM

Sec. 45-391. Traffic studies.

The director shall cause or authorize to be conducted a traffic study to complete the preliminary eligibility review of a proposed project on a minor collector street. Unless the director has given preliminary approval for consideration of the project on a publicly funded basis, the director shall determine, and notify the applicant concerning, the scope and type of traffic study to be conducted by the applicant and indicate any additional information required by the director to facilitate review of the proposed project.
(Ord. No. 2015-587, § 2(Exh. A), 6-17-2015; Ord. No. 2016-408, § 2, 5-25-2016)

Sec. 45-392. Completion of staff review.

(a) All proposed projects on local streets shall be eligible for further consideration and processing in accordance with section 45-393 of this Code.

(b) The director shall determine, based upon all available information regarding a project on a minor collector street, including, without limitation, any traffic study prepared in accordance with section 45-391 of this Code, whether the project is eligible for further consideration and processing in accordance with section 45-393 of this Code. The director shall consider the impact of the following on selected minor collector streets within the neighborhood area in making a determination whether a project is eligible for further consideration and processing in accordance with section 45-393 of this Code:

(1) Whether at least 15% of observed vehicle speeds on a street are equal to or in excess of the posted speed limit plus three miles per hour or, where there is no posted speed limit, the authorized speed limit pursuant to section 45-91(a)(1) of this Code plus three miles per hour; and

(2) The presence of any additional special conditions or safety concerns within the approved neighborhood area as determined by the director.

Written notice of the director's determination shall be given to the applicant. Absent demonstrable evidence of a significant change in traffic speeds in the intervening period which would in the director's reasonable professional judgment prompt an earlier review, any project declared ineligible for further consideration pursuant to this section shall not be eligible for reconsideration for the same or a similar project for a period of three years.
(Ord. No. 2015-587, § 2(Exh. A), 6-17-2015; Ord. No. 2016-408, § 2, 5-25-2016)

Sec. 45-393. Concept plan.

The director shall prepare a concept plan for each project deemed eligible pursuant to section 45-392 of this Code, taking into account all traffic studies and other data and factors developed in accordance with the requirements of this article. Each concept plan shall be reviewed and approved by the fire department before being submitted for public comments.

In the director's reasonable professional judgment or due to the availability of funding, the director may modify a concept plan or project at any stage of the neighborhood traffic management process prior to the submission of an

agenda item for the project to City Council provided: (i) the fire department reviews and approves the materially modified concept plan, (ii)?residents within one-half mile of the proposed device as described in the materially modified concept plan receive sufficient notice to enable City Council to receive and consider public comments, and (iii) the materially modified plan is tested with a temporary device in accordance with section 45-395(b).
(Ord. No. 2015-587, § 2(Exh. A), 6-17-2015; Ord. No. 2016-408, § 2, 5-25-2016; Ord. No. 2024-420, § 9, 6-5-2024)

Sec. 45-394. Public notice.

(a) Upon approval of the concept plan, written notice, in a form approved by the director, shall be mailed to all property owners and residents within one-half mile of the proposed device. Written notice shall contain a description of the concept plan and a comment card for use by members of the public to address public safety, convenience and traffic issues and to express either support for or opposition to the concept plan. Written notice shall also specify how public comments may be received by city council prior to its consideration of the project.

(b) Each notice shall be effective when deposited in the U.S. mail, postage prepaid, addressed to the property owner, resident or representative of a neighborhood association. Failure of any person to receive actual notice of the concept plan shall not affect the validity of any action taken by the city in connection with the project.

(c) On the request of affected residents and property owners within one-half mile of the proposed device, the director shall hold a public meeting to consider implementation of a device.

(d) Each district council member whose district includes any part of the neighborhood area and any other city council member who so requests shall be notified pursuant to section 45-366 of this Code upon approval of the concept plan.
(Ord. No. 2015-587, § 2(Exh. A), 6-17-2015; Ord. No. 2016-408, § 2, 5-25-2016)

Sec. 45-395. Final review and ranking; recommendation by director.

(a) The director shall evaluate the comments received and modify the concept plan as needed. The director shall have the discretion to approve the concept plan in part, in the director's reasonable professional judgment, such as approving only the portion of the concept plan for which funding, whether public funding (including Council District Service Funds) or private funding, is available. The director shall either (i) disapprove the concept plan and its underlying request and so notify the applicant in writing; or (ii) approve the concept plan, as may have been modified by the director, in whole or in part, for implementation and so notify the applicant in writing. The director shall give the approved concept plan a priority ranking that shall be used to establish the order in which the various approved projects will be considered for implementation. If the director disapproves the concept plan, and absent demonstrable evidence of a significant change in traffic speeds in the intervening period which would in the director's reasonable professional judgment prompt an earlier review, the same or a similar project shall not be eligible for reconsideration for a period of three years.

(b) Each concept plan must be tested with a temporary device and receive a recommendation of approval from the director before being submitted to city council for final approval. Unless the project has been approved by the director for public funding assistance, the temporary device shall be placed at the applicant's sole expense. Each concept plan whose priority ranking is sufficient to indicate that public funding will be available to complete the project, if approved, during the current or next succeeding fiscal year and each concept plan for a project to be financed from private funding sources shall receive approval from the director for the construction of a temporary device, in accordance with its priority ranking, provided that the director may approve a temporary device for any ranked project without regard to its priority ranking in order to reflect special or changed circumstances, availability of Council District Service Funds, or in order to avoid delay in implementing worthy

projects that have not been approved for public funding. No temporary device may be placed without the approval of the director. Temporary devices shall be in place for a testing period of not less than 90 days, provided that the director shall immediately remove a temporary device that is determined to be a threat to public health, safety or welfare. Upon authorization of placement of a temporary device, the device, with appropriate signs, shall be constructed within the neighborhood area in accordance with the approved concept plan.

The director shall review all of the available information regarding the temporary device, including public comments, and either (i) remove or cause to be removed the temporary device and deny all or part of the concept plan or (ii) forward his recommendation for final approval of all or part of the concept plan to city council, during which time the temporary device may remain in place. Written notice of the director's action shall be given to the applicant. If the director disapproves the concept plan, in whole or in part, and absent demonstrable evidence of a significant change in traffic volume or traffic patterns in the intervening period which would in the director's reasonable professional judgment prompt an earlier review, the concept plan or disapproved portions thereof may not be resubmitted as any part of a new request for the same or a similar project for a period of three years. Notwithstanding anything to the contrary herein, the three-year prohibition on resubmitting a new request for the same or similar project shall not apply to a project or concept plan, including any portion thereof, for which the director modified, approved (in whole or in part), or disapproved solely due to funding availability.
(Ord. No. 2015-587, § 2(Exh. A), 6-17-2015; Ord. No. 2016-408, § 2, 5-25-2016; Ord. No. 2024-420, § 10, 6-5-2024)

Sec. 45-396. Final action by city council.

(a) All projects recommended for approval by the director as provided in section 45-395 of this Code shall be forwarded to city council accompanied by a summary setting forth in relevant detail the information relied upon in formulating the recommendation, including copies of all timely received written public comments provided as a result of a request for a project.

(b) The city council shall, by motion, approve or deny the request for the project.

(c) A decision by city council to approve or deny a request shall be final and shall not be subject to further appeal or rehearing. If the city council denies the request, the applicant shall not be permitted to file a new request for the same or a similar project for a period of three years.
(Ord. No. 2015-587, § 2(Exh. A), 6-17-2015; Ord. No. 2016-408, § 2, 5-25-2016)

ARTICLE XVII. RESERVED†

Secs. 45-401—45-450. Reserved.

ARTICLE XVIII. CERTAIN TRAFFIC CONTROL DUTIES

DIVISION 1. GENERAL

Sec. 45-451. Definitions.

As used in this article, the following words and terms shall have the meanings ascribed to them in this section:

Off-duty, with respect to a peace officer, means any time other than while the officer is on-duty, as defined herein.

***Editor's note—**Ord. No. 07-464, § 18, adopted April 11, 2007, repealed Ch. 45, Art. XVI in its entirety. Formerly, said article pertained to adjudication of parking citations and derived from Ord. No. 95-81, § 1, 1-25-95 and subsequent amendatory ordinances. See the Code Comparative Table for a complete derivation. The user's attention is also directed to Ch. 26 for similar provisions.

†**Editor's note—**Ord. No. 07-464, § 18, adopted April 11, 2007, repealed Ch. 45, Art. XVII, §§ 45-401—45-435 in its entirety. Formerly, said article pertained to residential parking permits and derived from Ord. No. 01-759, § 2, 8-15-01 and subsequent amendatory ordinances. See the Code Comparative Table for a complete derivation. The user's attention is also directed to Ch. 26 for similar provisions.

On-duty, with respect to a peace officer, means while performing functions or activities during work hours assigned by the jurisdiction through which the officer holds his commission and for which the officer receives wages that are paid by that jurisdiction.

Peace officer shall mean a person holding a permanent peace officer license issued under chapter 1701, Texas Occupations Code.

Police chief means the Chief of the Houston Police Department.

Traffic control permit means a current and valid permit issued by the police chief pursuant to division 2 of this article to conduct traffic direction.

Traffic direction means any activity by which a peace officer directs vehicular or pedestrian traffic upon a street or upon other property situated in such proximity to a street that the activity affects the flow of vehicular or pedestrian traffic upon a street for the purpose of facilitating ingress or egress to a street in the city from another street, a private street, parking lot, parking garage or other private property. The activity includes, but is not limited to control of traffic by hand signals, whistle or verbal directions, or the assumption of control of the functions of an otherwise automated traffic signal light or control device. The term shall not include the direction of traffic in connection with any construction occurring within or upon a street by personnel employed for that purpose, as authorized by chapter 472, Texas Transportation Code.

(Ord. No. 04-798, § 2, 7-28-04)

Sec. 45-452. Prohibited conduct; defenses.

(a) During the hours between 6:00 a.m. and 7:00 p.m. on any Monday, Tuesday, Wednesday, Thursday, or Friday, other than a holiday observed by the closure of city offices, it shall be unlawful within the city:

(1) For any person other than a peace officer to conduct or engage in traffic direction; or

(2) For any off-duty peace officer to conduct or engage in traffic direction unless a traffic control permit for that activity has been issued pursuant to this article; or

(3) For any person to hire, employ or otherwise cause, suffer or permit any person to conduct or engage in traffic direction for or on behalf of such person, unless a traffic control permit has been issued pursuant to this article; or

(4) For any person to conduct or engage in, or hire, employ or otherwise cause, suffer or permit another to conduct or engage in, traffic direction in violation of the terms of a traffic control permit.

(b) It is an affirmative defense to prosecution under this section that:

(1) The actor is an on-duty peace officer of a jurisdiction other than the city and is conducting or engaging in traffic direction within the legally authorized territory of that jurisdiction;

(2) The actor is a peace officer of the city or another jurisdiction of this state and conducts or engages in traffic direction in an emergency situation, provided that the actor does not receive any additional compensation for conducting or engaging in the traffic direction; or

(3) The actor is a school crossing guard acting pursuant to chapter 541 of the Texas Transportation Code and is conducting or engaging in traffic direction for the protection of children going to or leaving school within a school crossing zone.

(4) The actor is otherwise expressly authorized by law to conduct or engage in traffic direction.

(Ord. No. 04-798, § 2, 7-28-04)

Sec. 45-453. Rules; forms; fees.

(a) The police chief, in consultation with the Director of Houston Public Works or his designee, may issue rules and regulations for the operation of this article and shall promulgate application and permit forms, which shall be approved by the city attorney prior to use.

(b) The fee for the issuance of a traffic control permit is stated for this provision in the city fee schedule. The director of administration and regulatory affairs may, from time to time, review the fee to determine whether it allows for full recovery of the city's costs, taking into account permit issuance and renewal costs, inspection and oversight services that may be required, and equipment and resource utilization, and if deemed necessary may prepare and submit for approval by motion of the city council a revision to the fee.

(c) The Director of Houston Public Works or his designee may also establish a fee for traffic engineer reviews required under this article, which fees may be reviewed and adjusted in the manner established in the preceding subsection. The current fee amounts shall be stated for this provision in the city fee schedule.

(d) Applicants must represent that only off-duty peace officers with appropriate training will perform traffic direction under the permit.
(Ord. No. 04-798, § 2, 7-28-04; Ord. No. 08-52, § 81, 1-16-08, eff. 1-26-08; Ord. No. 2011-1168, § 13, 12-14-2011; Ord. No. 2018-11, § 49, 1-10-2018)

Sec. 45-454. Disposition of fees.

All fees generated under this article, except those for traffic engineering reviews, shall be allocated to the police special services fund administered by the police department.
(Ord. No. 04-798, § 2, 7-28-04)

Sec. 45-455. Hearings.

Any person who is aggrieved by the action of the police chief in failing to approve an application or in terminating a traffic control permit under this article shall be entitled to a hearing on the matter. The hearing shall be conducted by a hearing officer designated for that purpose by the police chief and shall be conducted informally but in a manner consistent with principles of due process. The hearing officer's decision on the matter shall be final.
(Ord. No. 04-798, § 2, 7-28-04)

Secs. 45-456—45-460. Reserved.

DIVISION 2. TRAFFIC CONTROL PERMITS

Sec. 45-461. Application for traffic control permit.

Any person who desires a traffic control permit may make application for the permit to the police department upon forms promulgated for that purpose as provided in section 45-453.
(Ord. No. 04-798, § 2, 7-28-04)

Sec. 45-462. Traffic engineering review.

All applications for a traffic control permit shall be reviewed by the traffic engineer. The rules established pursuant to section 45-453 of this Code for the consideration of applications for traffic control permits shall ensure that the provision of traffic direction requested by an applicant is consistent with sound principles of traffic engineering and public mobility. Consistent with those criteria, the traffic engineer may require that certain applications also include the traffic engineer's approval of a traffic engineering study to be provided by the applicant and prepared by a professional engineer acceptable to the traffic engineer.
(Ord. No. 04-798, § 2, 7-28-04)

Sec. 45-463. Action on application.

Following receipt of a complete application and any required fee, the police department shall cause the application to be reviewed for compliance with this article and any applicable rules, including review by the traffic engineer. The police department shall notify the applicant whether the application has been approved or denied. If it is denied, then the grounds for denial shall be articulated in the notice.
(Ord. No. 04-798, § 2, 7-28-04)

Sec. 45-464. Issuance of permit.

(a) Traffic control permits shall be issued on the basis of standard forms that are promulgated under section 45-453 of this Code.

(b) Without limitation of any other requirements, the permit form shall provide that no traffic direction shall be implemented until the permit holder has prepaid the city for all applicable fees.

(c) Traffic control permits shall contain a provision that allows the police chief or his designee to terminate a permit for failure of the permit holder to comply with any applicable term of the permit upon ten days' prior written notice.
(Ord. No. 04-798, § 2, 7-28-04)

Sec. 45-465. Services under permit.

(a) Services under traffic control permits shall be limited to traffic direction at the times and places described in the permit. Off-duty peace officers operating under a permit issued under this article shall at all times remain subject to the full supervision and control of the police chief or his designee but shall not function in any manner as employees or agents of the department or the city.

(b) All traffic control permits are subject to the continuing supervision of the police department to ensure public safety and efficient mobility on the streets and highways of the city. The police chief or his designee may suspend all services under a traffic control permit at any time if in the opinion of the police chief such action is required to ensure the safe and efficient movement of traffic on the streets and highways of the city. A determination by the police chief to suspend a traffic control permit shall be final.
(Ord. No. 04-798, § 2, 7-28-04)

ARTICLE XIX. RESERVED*

Secs. 45-481—45-500. Reserved.

*__Editor's note—__Ord. No. 2011-748, § 1, adopted August 24, 2011, repealed Article XIX, §§ 45-481—45-487 in their entirety. Formerly said article pertained to photographic traffic signal enforcement systems and derived from Ord. No. 07-985, § 1, 8-29-04; Ord. No. 2010-846, §§ 19, 20, 11-3-2010.

ARTICLE XX. MINIMOTORBIKES

Sec. 45-501. Definitions.

As used in this article, the following terms shall have the meanings ascribed to them in this section, unless the context of their usage clearly indicates another meaning:

Alley is defined in section 39-1 of this Code.

Minimotorbike means a self-propelled vehicle that is equipped with an electric motor or internal combustion engine having a piston displacement of less than 50 cubic centimeters, is designed to propel itself with not more than two wheels in contact with the ground, has a seat or saddle for the use of the operator, is not designed for use on a highway, and is ineligible for a certificate of title under Chapter 501 of the Transportation Code. The term does not include:

(1) A golf cart, moped, motorcycle, or tractor;

(2) An electric bicycle or motor-driven cycle, as defined by Section 541.201 of the Transportation Code;

(3) A motorized mobility device, as defined by Section 542.009 of the Transportation Code;

(4) An electric personal assistive mobility device, as defined by Section 551.201 of the Transportation Code; or

(5) A neighborhood electric vehicle or a motor assisted scooter, as defined by Section 551.301of the Transportation Code.

Park means any portion of the city's park system, including any park owned by another entity and managed by the city.

Roadway is defined in section 32-222 of this Code.

Sidewalk is defined in section 32-222 of this Code.

Street is defined in section 10-48 (4) of this Code.
(Ord. No. 05-664, § 2, 5-24-05)

Sec. 45-502. Offense involving the operation of minimotorbikes on roadways and parks within the city.

(a) A person commits an offense if the person rides or operates, or as the parent or guardian of a child younger than 18 years of age permits the child to ride or operate, a minimotorbike on any roadway, street, alley, sidewalk or park within the city limits.

(b) An offense under this section is a misdemeanor punishable by a fine of not more than $500.00.
(Ord. No. 05-664, § 2, 5-24-05)

Chapter 46

VEHICLES FOR HIRE*

Article I. In General

Division 1. Vehicles For Hire Generally

Sec. 46-1. Definitions.
Sec. 46-2. Refusal to convey.
Sec. 46-2.1. Inequity of service prohibited.
Sec. 46-3. Audit and evaluation.
Sec. 46-4. Failure to pay taxes and permit and license fees; failure to maintain insurance; authorization to operate a vehicle for hire.
Sec. 46-4.1. Reserved
Sec. 46-5. Revocations, suspensions, and refusals to renew.
Sec. 46-6. Drug screening.
Sec. 46-7. Criminal history check.
Sec. 46-8. Change of information.
Sec. 46-9. Accident reports.
Sec. 46-9.1. Passenger comfort; courtesy.
Sec. 46-9.2. Vehicle for hire condition.
Sec. 46-9.3. Duty to inspect vehicle; procedure when passenger leaves article in vehicle for hire.
Sec. 46-9.4. Appearance of licensee.
Sec. 46-9.5. Blocking traffic prohibited.
Sec. 46-10. Deficient service or operation; action by director.
Sec. 46-11. Records to be kept by permittees and registrants.
Sec. 46-11.1. Tracking information and access to identifying information.
Sec. 46-11.2. Use of cellular telephones and electronic communication devices prohibited.
Sec. 46-11.3. Vehicle for hire title classification.
Sec. 46-11.4. Vehicle removal.
Sec. 46-11.5. Waiting period before becoming eligible to reapply.
Sec. 46-11.6. Operation and inspection of wheelchair accessible vehicles for hire.
Sec. 46-11.7. Preferences and soliciting of business prohibited.
Sec. 46-12. Penalty.
Sec. 46-13. Rules and regulations.
Sec. 46-13.1. Suspension of requirements during declared disaster.

Division 2. Vehicle For Hire Driver Licenses

Sec. 46-14. Vehicle for hire driver's license required.
Sec. 46-15. License application.
Sec. 46-15.1. Qualifications of license applicant.
Sec. 46-15.2. License issuance or denial.
Sec. 46-15.3. License term; renewal.
Sec. 46-15.4. License fee.
Sec. 46-15.5. Appeal from denial of license.
Sec. 46-15.6. State driver license status.

***Editor's note—**Ord. No. 2014-754, § 2(Exh. A), adopted August 6, 2014, amended Ch. 46 in its entirety to read as herein set out. Formerly, said chapter pertained to similar subject matter and derived from Ord. No. 2012-112, § 2(Exh. A), December 19, 2012.

Cross references—Ambulances, Ch. 4; ground transportation, § 9-51 et seq.; valet parking services, § 26-371 et seq.; conduct in buses generally, § 28-30; shelters for users of public transportation, § 40-200 et seq.; traffic, Ch. 45.

Article II. Taxicabs

Division 1. Generally

Sec. 46-16. Definitions.
Sec. 46-17. Authorized operators.
Sec. 46-18. General prerequisites to putting vehicle into service.
Sec. 46-19. Accessibility training.
Sec. 46-20. Age and mechanical condition of taxicabs.
Sec. 46-21. Identification of vehicles generally.
Sec. 46-22. Vehicle color scheme.
Sec. 46-23. Certification decals and taxicab permits.
Sec. 46-24. Stool light.
Sec. 46-25. Passenger's right of selection.
Sec. 46-26. Taxicabs at George Bush Intercontinental Airport/Houston.
Sec. 46-27. Operation at William P. Hobby Airport.
Sec. 46-28. Reserved.
Sec. 46-29. Carrying additional passengers.
Sec. 46-30. Taximeter.
Sec. 46-31. Rates prescribed.
Sec. 46-32. Posting of license and other information.
Sec. 46-33. Payment method.
Sec. 46-34. Receipt for payment of fare.
Sec. 46-35. Required operation; placing taxicab vehicles into service.
Sec. 46-36. Removal of identification marks when vehicle retired from service.
Sec. 46-37. Inspection by city—Generally.
Secs. 46-38, 46-39. Reserved.
Sec. 46-40. Reserved.
Secs. 46-41—46-60. Reserved.

Division 2. Vehicle Permit

Sec. 46-61. Definitions.
Sec. 46-62. Required.
Sec. 46-63. Reserved.
Sec. 46-64. Application for permit—Form.
Sec. 46-65. Permit issuance procedure.
Sec. 46-66. Transfer of permit.
Sec. 46-69. Reserved.
Sec. 46-70. Term; renewal; temporary vehicles.
Sec. 46-71. Reserved.
Sec. 46-72. Transfer of permits.
Secs. 46-73—46-85. Reserved.

Division 3. Reserved

Secs. 46-86—46-110. Reserved.

Division 4. Miscellaneous Licensee Requirements

Sec. 46-111. Reserved.
Sec. 46-112. Reserved.
Sec. 46-113. Limitation on hours of work.
Sec. 46-114. Duty to transport passengers by shortest route.
Sec. 46-115. Duty to pull to curb to load or unload.
Sec. 46-116. Refusal to discharge passenger at designated place.
Sec. 46-117. Leaving taxicab while waiting at depot, airport, hotel, etc.
Sec. 46-118. Reserved.
Sec. 46-119. Duty to transport within the corporate limits.

Secs. 46-120—46-140. Reserved.

Article III. Pedicabs

Division 1. Generally

Sec. 46-141. Definitions.
Sec. 46-142. Reserved.
Sec. 46-143. Article cumulative.
Secs. 46-144—46-150. Reserved.

Division 2. Permits

Sec. 46-151. Permit required.
Sec. 46-152. License required.
Sec. 46-153. Fees.
Sec. 46-154. Application.
Sec. 46-155. Review.
Sec. 46-156. Transfer; nonexclusive; fee.
Sec. 46-157. Permit term.
Secs. 46-158—46-160. Reserved.

Division 3. Pedicab Operating Requirements

Sec. 46-161. Pedicab inspection; fee.
Sec. 46-162. Authorized operators.
Sec. 46-163. Rate structure and fares.
Sec. 46-164. Receipt for payment of fare.
Sec. 46-165. Posting of pedicab driver's license, fares, and other information.
Sec. 46-166. Carrying additional passengers.
Sec. 46-167. Operation of pedicabs on roadways.
Sec. 46-168. Pedicab condition.
Sec. 46-169. Reserved.
Sec. 46-170. Pedicab lighting and reflectors.
Sec. 46-171. Pedicab brakes.
Sec. 46-172. Pedicab seat belts.
Sec. 46-173. Pedicab trailer; limitation on number.
Sec. 46-174. Pedicab width.
Sec. 46-175. Pedicab operation; conduct.
Sec. 46-176. Pedicab insurance.
Secs. 46-177—46-190. Reserved.

Article IV. Sightseeing, Charter and Chauffeured Limousine Services

Division 1. Generally

Sec. 46-191. Definitions.
Secs. 46-192—46-199. Reserved.

Division 2. Sightseeing and Charter Services

Sec. 46-200. Scope.
Sec. 46-201. Permit and license required.
Sec. 46-202. Permit term; operations authorized.
Sec. 46-203. Reserved.
Sec. 46-204. Permit application; issuance procedure.
Sec. 46-205. Vehicle certification decals.
Sec. 46-206. Reserved.

Sec. 46-207. Insurance requirements.
Sec. 46-208. Maintenance and operation of vehicles; qualifications of licensees.
Sec. 46-209. Schedule of fares.
Sec. 46-210. Routes and schedules.
Sec. 46-211. Annual permit fee.
Sec. 46-212. Statements, reports, records.
Secs. 46-213—46-215. Reserved.
Sec. 46-216. Transfer of permit.
Sec. 46-217. Reserved.
Sec. 46-218. Temporary certification decals.
Secs. 46-219—46-229. Reserved.

Division 3. Chauffeured Limousine Service

Sec. 46-230. Scope.
Sec. 46-231. Permit required.
Sec. 46-232. Annual permit fee; other fees and taxes to be paid.
Sec. 46-233. Application for permit—Form.
Sec. 46-234. Permit issuance procedure.
Sec. 46-235. Permit—Term; renewal; temporary vehicles.
Sec. 46-236. Inspection fee; maintenance equipment.
Sec. 46-237. Tests and inspections of limousine vehicles.
Sec. 46-238. Insurance requirements.
Sec. 46-239. License; other driver requirements.
Sec. 46-240. Written or electronic vehicle rental agreements.
Sec. 46-241. Operation from permittee's usual place of business, etc.
Sec. 46-242. Operation upon city airport property.
Sec. 46-243. Schedule of fares.
Sec. 46-244. Reserved.
Sec. 46-245. Transfer of permit.

Sec. 46-338. Insurance.
Sec. 46-339. Authorized operators.
Sec. 46-340. Rates; zones.
Sec. 46-341. Transfer; nonexclusive.
Sec. 46-342. Permit terms; suspension.
Secs. 46-343—46-350. Reserved.

Division 3. Operating Requirements

Sec. 46-351. Licensee conduct.
Sec. 46-352. Jitney equipment.
Sec. 46-353. Age of vehicle.
Sec. 46-354. Operating requirements.
Sec. 46-355. Inspection.
Secs. 46-356—46-370. Reserved.

Article VII. Low-Speed Shuttles

Division 1. Generally

Sec. 46-371. Definitions.
Sec. 46-372. Reserved.
Sec. 46-373. Article cumulative.
Secs. 46-374—46-390. Reserved.

Division 2. Permits and Licenses

Sec. 46-391. Permit required.
Sec. 46-392. License required.
Sec. 46-393. Fees.
Sec. 46-394. Annual permit fee.
Sec. 46-395. Application.
Sec. 46-396. Review.
Sec. 46-397. Vehicle inspection; fee.
Sec. 46-398. Insurance.
Sec. 46-399. Authorized operators.

Sec. 46-400. Rate structure and fares; zones.
Sec. 46-401. Receipt for payment of fare.
Sec. 46-402. Transfer; nonexclusive.
Sec. 46-403. Permit terms.
Secs. 46-404—46-420. Reserved.

Division 3. Low-Speed Shuttle Operating Requirements

Sec. 46-421. Operating restrictions.
Sec. 46-422. Licensee conduct.
Sec. 46-423. Low-speed shuttle equipment.
Sec. 46-424. Age of vehicle.
Sec. 46-425. Carrying additional passengers.
Sec. 46-426. Operating requirements.
Sec. 46-427—46-450. Reserved.

Article VIII. Mobile Dispatch Services

Sec. 46-451. Definitions.
Sec. 46-452. Registration required.
Sec. 46-453. Use of valid permittees and licensees required.
Sec. 46-454. Registration—Form.
Sec. 46-455. Certificate of registration issuance procedure.
Sec. 46-456. Expiration and renewal of certificate of registration.
Sec. 46-457. Display of fare rates.
Sec. 46-458. Certificate of registration; non-transferability.
Sec. 46-459. Violations; penalty.
Sec. 46-460—46-500. Reserved.

Article IX. Reserved

Secs. 46-501—46-540. Reserved.

Article X. Wheelchair Accessible Service Providers

Sec. 46-541. Scope.
Sec. 46-542. Definitions.
Sec. 46-543. Permit required.
Sec. 46-544. Wheelchair accessible service provider permit—Application and qualifications.
Sec. 46-545. Review.
Sec. 46-546. License required.
Sec. 46-547. Annual permit fee.
Sec. 46-548. Vehicle inspection.
Sec. 46-549. Insurance.
Sec. 46-550. Authorized operators.
Sec. 46-551. Receipt for payment of fare.
Sec. 46-552. Permit amendment; nonexclusive.
Sec. 46-553. Permit terms.
Sec. 46-554. Street hails prohibited.
Sec. 46-555. Rates.
Sec. 46-556. Vehicle age and standards.

ARTICLE I. IN GENERAL

DIVISION 1. VEHICLES FOR HIRE GENERALLY

Sec. 46-1. Definitions.

The following words, terms, and phrases, when used in this chapter, shall have the meanings assigned to them in this section, except where the context clearly indicates a different meaning:

Central business district means the area beginning at the intersection of the centerline of U.S. 59 and the centerline of I.H. 45; thence in a northwesterly and northerly direction along the centerline of I.H. 45 to its intersection with the centerline of I.H. 10; thence in an easterly direction along the centerline of I.H. 10 to its intersection with the centerline of U.S. 59; thence in a southwesterly direction along the centerline of U.S. 59 to its intersection with I.H. 45, the point of beginning.

Certificate of registration has the meaning assigned in section 46-451 of this Code.

Certification decal means and refers to a metal tag, decal, or placard for attachment on a vehicle for hire and is evidence that a permit or certificate of registration has been issued and an inspection performed by the director.

Compensation means any money, thing of value, payment, consideration, reward, tip, donation, gratuity, or profit paid to, accepted, or received by the driver or owner of any vehicle providing transportation for a person; whether paid upon solicitation, demand or contract, or voluntarily, or intended as a gratuity or donation. Reimbursement for the following is not compensation:

(1) Tolls;

(2) Vehicle operating costs in an amount that is equal to or less than the most current privately-owned vehicle mileage reimbursement rates established by the U.S. General Services Administration; and

(3) Parking costs at the shared destination.

Curb means the raised edge of the street, driveway, or other public or private way upon which a vehicle for hire is operating, provided that if no raised edge curbing exists, then it means the edge of the area that is paved for vehicular operation.

Customer service liaison refers to a representative made available to the city by the permittee for the purpose of coordinating with the city to resolve any passenger complaints concerning transportation services rendered by the permittee or registrant.

Director means the director of the department of administration and regulatory affairs or the director's designee.

Disability has the meaning assigned in section 17-2 of this Code.

Dispatch means the operation of a scheduling service by which prospective passengers request, by phone, by the internet or by any other voice, data or electronic communication, pre-arranged transportation services offered or provided for compensation from vehicles for hire and vehicles for hire are scheduled or routed via the relay of information from the scheduling service to the vehicle for hire by radio or data device, including but not limited to a device capable of any voice, data, or electronic communication.

Electric-drive vehicle means a vehicle having an electric motor that uses electricity as its primary or secondary source of propulsion.

For hire means providing, or offering to provide, a transportation service in exchange for compensation. The term expressly excludes ride sharing.

Licensee means any person who is the holder of a current and valid license issued pursuant to division 2 of this article authorizing that person to drive a specific class of vehicle for hire.

Metropolitan area means the metropolitan statistical area that includes the City of Houston, as defined by the United States Office of Management and Budget within the Executive Office of the President of the United States, as amended.

Mobile dispatch service has the meaning assigned in section 46-451 of this Code.

Permittee means any person, partnership, corporation, firm, joint venture, limited liability company, association, organization, and any other entity holding a permit issued pursuant to this chapter.

Place of business means a location where the city may send and the permittee shall accept all notices from the city.

Pre-arranged transportation service means scheduled vehicle for hire transportation services involving the issuance of a trip confirmation in advance of a vehicle for hire rendering transportation services to a prospective passenger.

Registrant has the meaning assigned in section 46-451 of this Code.

Ridesharing, when describing conduct, means the travelling of two or more persons by any mode of private passenger vehicle, including, but not limited to, carpooling, vanpooling, buspooling, to any location incidental to another purpose of the driver, for which compensation is not accepted, collected, encouraged, promoted, or requested.

Service animal has the meaning assigned in section 20-18 of this Code.

Vehicle for hire, when describing a class of vehicles, means a taxicab, pedicab, sightseeing and charter vehicle, chauffeured limousine, school vehicle, jitney, or low-speed shuttle used for the provision of transportation services for hire to the general public. The term expressly excludes vehicles operated or regulated by other government entities.

Wheelchair accessible vehicle means any wheelchair accessible motor vehicle that is equipped with a ramp or lift or has been constructed and designed or redesigned, modified, or equipped to provide wheelchair accessible service to persons with disabilities who require the use of a wheelchair as a means of movement or ability to move from one place to another.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 2, 10-14-2015; Ord. No. 2015-998, § 2, 10-14-2015; Ord. No. 2019-669, § 5, 9-4-2019)

Sec. 46-2. Refusal to convey.

(a) It shall be unlawful for any permittee, registrant, or licensee to refuse to transport a passenger on the basis of a passenger's race, color, ethnicity, religion, sex, national origin, age, familial status, marital status, military status, sexual orientation, genetic information, gender identity, pregnancy or disability, including a driver's refusal to transport any service animal or medical equipment utilized in conjunction with a passenger's disability. All permittees, registrants, and licensees shall be required to provide safe, reliable, consistent and equivalent transportation services to the general public, including but not limited to persons with disabilities requesting transportation services from a specific class of vehicle for hire operating pursuant to this chapter.

(b) It shall be unlawful for any permittee, registrant, or licensee to refuse to transport a passenger at the rates authorized by this chapter or to demand or receive an amount in excess of the rates authorized by this chapter. It is an affirmative defense to prosecution under this subsection that the permittee, registrant, or licensee advised the passenger of the fare or estimated fare to the passenger's destination, and the passenger advised that he did not have the means to pay the fare.

(c) Upon receipt of a written substantiated complaint from a passenger or a dispatcher, the department of administration and regulatory affairs may issue a citation to a permittee, registrant or licensee who fails to comply with this section.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2019-669, § 6, 9-4-2019)

Sec. 46-2.1. Inequity of service prohibited.

(a) When a wheelchair accessible vehicle is requested, the permittee or registrant must provide a wheelchair accessible vehicle, or cause one to be provided, without unreasonable delay.

(b) Options for arranging wheelchair accessible vehicle service by phone, by the internet or by any other voice, data or electronic communication shall not be segregated from options made

available to prospective passengers seeking general transportation service. The pricing for accessible service shall be equivalent to the pricing for service provided for non-accessible services.
(Ord. No. 2015-998, § 3, 10-14-2015; Ord. No. 2019-669, § 6, 9-4-2019)

Sec. 46-3. Audit and evaluation.

Upon request of the director or designee, each permittee or registrant shall submit the information necessary for audit and evaluation of compliance with sections 46-2 and 46-2.1 of this Code, including but not limited to the following:

(1) The number of wheelchair accessible vehicle trips requested.

(2) The number of trips completed by wheelchair accessible vehicles.

(3) The average wait time for trips where a wheelchair accessible vehicle was required.

The director shall analyze the relevant data and inform the permittee or registrant of any failure to comply with this section within 30 days of receipt of the requested data. Subsequently, the permittee or registrant must within 30 days either cure the failure or demonstrate to the director that the finding of non-compliance was incorrect. Within three weeks of the end of the 30-day cure period, the director shall analyze any additional data provided by the permittee or registrant. If the director determines that the permittee or registrant remains out of compliance, a hearing for permit/registration revocation will be held in accordance with section 46-5 of this Code.
(Ord. No. 2019-669, § 6, 9-4-2019)

Sec. 46-4. Failure to pay taxes and permit and license fees; failure to maintain insurance; authorization to operate a vehicle for hire.

(a) A license or permit issued for the operation of a vehicle for hire may be terminated at any time for failure to pay any applicable tax, fee, or installment payments imposed pursuant to this chapter or the Texas Tax Code or failure to maintain the requisite insurance. No license or permit issued for the operation of a vehicle for hire shall be terminated if a tax protest or value-related tax litigation is underway or prior to the date on which the tax becomes past due as specified in the Texas Tax Code.

(b) No permittee shall allow a licensee to operate a vehicle for hire in connection with the permittee, unless such licensee is either:

(1) A citizen of the Unites States of America;

(2) A lawful permanent resident of the United States of America; or

(3) An individual who has the legal right to work as a driver of a vehicle for hire in the United States of America.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2016-986, § 3, 12-14-2016)

Sec. 46-4.1. Reserved

Editor's note—Ordinance No. 2025-1050, § 2, adopted December 17, 2025, repealed § 46-4.1 in its entirety. Former said section pertained to Consolidated vehicle for hire electronic dispatch applications and derived from Ordinance No. 2016-736, § 2, adopted Oct. 5, 2016.

Sec. 46-5. Revocations, suspensions, and refusals to renew.

(a) Permits, certificates of registration, and licenses issued pursuant to this chapter may be denied, revoked, suspended, or refused for renewal based upon the applicable grounds specified in section 1-10 of this Code by following procedures specified in section 1-9 of this Code.

(b) Additionally, permits, certificates of registration, and licenses may be revoked, suspended, or refused for renewal following notice and a hearing conducted by an impartial hearing officer appointed by the director if:

(1) The permit, certificate of registration, or license was issued through error;

(2) The applicant provided materially false or incomplete information on the permit, certificate of registration, or license application; or

(3) The permittee or registrant or the permittee's or registrant's employee or licensee violates any provision of this chapter or regulation issued by the director hereunder. Consistent with sections 1-9 and 1-10 of this Code and applicable state laws, the director shall promulgate regulations for any required hearings and procedures.

(c) The director shall not designate a person to act as hearing officer who participated in the review of the application. Hearings shall be conducted in a manner that is consistent with principles of due process. The applicant may be represented by legal counsel, may present evidence and cross examine witnesses presented by the city. The hearing officer shall have the discretion to exclude from hearings any person who is not the applicant, the director, their legal representatives, and such other persons not entitled to attend and participate as a matter of law and any persons whose presence the hearing officer deems unnecessary to the complete resolution of the matter. The decision of the hearing officer, which shall be based upon the preponderance of credible evidence presented, shall be final, subject to the applicant's right to appeal pursuant to state law if the denial is based upon section 1-10 of this Code.

(d) In the event the director confirms a licensee's criminal record has been updated to reflect a conviction, the director shall require the licensee to submit to a hearing, wherein a hearing officer will determine if the licensee's license should be suspended or revoked as a result of the conviction.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2016-736, § 3, 10-5-2016)

Sec. 46-6. Drug screening.

(a) The director shall have the authority to require a licensee to submit to a drug screening test when reasonable suspicion to test exists.

(1) For purposes of this section, reasonable suspicion means an articulable belief based on specific facts and reasonable inferences drawn from those facts that a licensee is under the influence of drugs or alcohol when operating as a vehicle for hire. Circumstances which can constitute a basis for determining reasonable suspicion may include, but are not limited to:

a. Complaint of, or information provided regarding, abnormal or erratic behavior on the part of the licensee by a passenger or other reliable and credible source;

b. Complaint of, or information provided regarding, direct observation of drug or alcohol use by the licensee by a passenger or other reliable or credible source;

c. Complaint of, or information provided regarding, the presence of physical symptoms of drug use in the licensee's appearance and demeanor (i.e., glassy or bloodshot eyes, slurred speech, poor coordination or reflexes) by a passenger or other reliable or credible source; or

d. Violent or threatening behavior.

(2) A license issued pursuant to this chapter shall be subject to revocation pursuant to the procedures set forth in section 46-5 of this Code if a licensee:

a. Obtains a positive test result pursuant to a drug screening test required under this section;

b. Fails to submit to a drug screening test required under this section within 24 hours of being notified by the director or permittee that reasonable suspicion to test exists; or

c. Fails to provide the results of a drug screening test required under this section to the director within five business days of submitting to the test.

(b) The director shall promulgate rules and regulations relating to the drug screening test required under this section. The drug screening test procedure shall be similar to that prescribed by the mayor for drug screenings for city contractors. The director shall authorize laboratories

and facilities that meet nationally recognized standards to obtain samples and perform the tests. The responsibility for obtaining the test and all costs associated therewith shall rest with the licensees.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Memorandum of 1-28-2015; Ord. No. 2015-997, § 3, 10-14-2015; Ord. No. 2016-736, § 3, 10-5-2016; Ord. No. 2016-986, § 4, 12-14-2016)

Sec. 46-7. Criminal history check.

(a) Upon initial application for any license and at license renewal intervals stated in this chapter, the director shall cause the criminal history of each person designated as a driver in an application for a license to be researched. In accordance with the provisions of subsections (c) and (d) of this section, each person designated as a driver in an application shall complete any forms required for the director to obtain the report, and the applicant shall present the required completed forms to the director and shall bear the cost to cover any fees imposed by state or federal agencies for the report. This provision shall not be construed to preclude the director from obtaining interim reports at the expense of the city. Results of the criminal history check shall be valid for two years from the date the fingerprints are submitted to the state or federal agency researching the criminal history.

(b) An applicant who has met the other requirements of this chapter may be provisionally authorized to drive for a permittee if the permittee has caused the criminal history of the applicant to be researched by a company approved by the director, and such search discloses that the applicant has no convictions of any applicable offense listed in section 1-10 of this Code. Such a search shall include a national criminal history database and a national sex offender database. Drivers provisionally authorized pursuant to this subsection shall be required to comply with the requirements of subsection (c) of this section within 30 days of being provisionally authorized by the permittee.

(c) Each applicant for any permit, certificate of registration, or license issued pursuant to this chapter shall be fingerprinted at the location indicated by the director to determine if the applicant has been convicted of any applicable offense listed in section 1-10 of this Code. Upon authorization of the mayor and city council, an applicant may undergo a national background screening administered by a third party in lieu of fingerprint screening to determine whether the applicant has been convicted of any applicable offense listed in section 1-10 of this Code. If applicable, the applicant shall complete any forms required for the director to obtain the report and shall bear the cost to cover any fees imposed by state or federal agencies for the report. This provision shall not be construed to preclude the director from obtaining interim reports at the expense of the city.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2016-736, § 6, 10-5-2016; Ord. No. 2016-986, § 5, 12-14-2016)

Sec. 46-8. Change of information.

It shall be the duty of each registrant, permittee, licensee, and all applicants for a permit, certificate of registration, or license issued pursuant to this chapter to advise the director immediately of any change of mailing address or any other information required to be submitted pursuant to this chapter. Any change in information shall be submitted within ten calendar days of the change on the form prescribed by the director. Notices under this article shall be effective if mailed to the last address provided to the director. The failure of a permittee, registrant, or licensee, applicant for a permit, certificate of registration, or license to receive any notice that is properly addressed and mailed to the last known address shall not affect any action authorized or taken under this article, and the only obligation of the director with respect to returned notices shall be to publicly post them as provided herein or by regulation of the director.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-9. Accident reports.

(a) When any vehicle for hire is involved in an accident or collision that results in any injury or damage to any person or property, including, but not limited to, damage to the vehicle for hire or injury of the licensee or a passenger, the licensee

shall report the accident or collision to the permittee without delay. The permittee shall keep on the permittee's premises records of all accidents and collisions upon forms to be promulgated by the director, which shall include the following information:

(1) The permittee's and the licensee's names;

(2) The licensee's driver license number;

(3) The time and location of the accident or collision; and

(4) A detailed description of any injury or damage to any person or property involved in the accident or collision.

(b) A permittee shall report any accident or collision to the director not later than five business days after the accident or collision. Upon one hour's prior request by the director during normal business hours, the permittee shall make the records available to the director for inspection and copying.

(c) A vehicle for hire involved in an accident shall not thereafter be placed in service and used in operation as a vehicle for hire until it has been inspected by the director. If the director's inspection reveals that the vehicle for hire has been damaged to an extent that it is not in a reasonably good operating condition from the standpoint of the safety, health and comfort of passengers, the director shall order the vehicle for hire out of service until the director has authorized the return of the vehicle for hire to operations, which authorization shall not be given until proper repairs or corrections have been made and the vehicle for hire is inspected and meets all applicable minimum operation requirements prescribed by this chapter.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-9.1. Passenger comfort; courtesy.

(a) It shall be unlawful for the permittee or licensee to suffer, allow or cause the vehicle for hire to be in service at any time during which the vehicle's heating, ventilating, and air conditioning system, if applicable, is not in good repair and capable of functioning within the tolerances of the vehicle manufacturer's specifications.

(b) It shall be the duty of the licensee to ensure that the vehicle for hire is operated for the comfort of the passengers and that the vehicle's heating, ventilating, and air conditioning system, if applicable, is in operation at all times while one or more passengers are present in the vehicle and is functioning in accordance with a passenger's reasonable request for heating, ventilating, or cooling, unless the passenger(s) specifically request that the system be turned off.

(c) No licensee while operating a vehicle for hire shall:

(1) Use abusive, indecent, profane or vulgar language that by its very utterance tends to incite an immediate breach of the peace;

(2) Make any offensive gesture or display that by its very nature tends to incite an immediate breach of the peace;

(3) Create by chemical means any noxious and unreasonable odor;

(4) Threaten another person in an obviously offensive manner;

(5) Fight with another person; or

(6) Engage in any other conduct that is a violation of law.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2019-669, § 7, 9-4-2019)

Sec. 46-9.2. Vehicle for hire condition.

It shall be unlawful for the permittee or licensee of any vehicle for hire to allow or cause the vehicle for hire to be in service at any time that the cleanliness and condition of the vehicle for hire do not meet any one or more of the following standards:

(1) The passenger compartment of the vehicle is free of litter and debris.

(2) The passenger compartment of the vehicle is free of any personal items of the licensee or other objects that would restrict the seating comfort of the passengers.

(3) The vehicle is free of noxious or offensive odors.

(4) The carpet, seating surfaces and head liner, if applicable, have no tears, exposed springs or underparts and are free of any spots or stains that are removable with a reasonable cleaning effort.

(5) The exterior of the vehicle is free from debris and dirt, commensurate with ambient weather conditions and free of any paint or body work damage, excepting "door dings," minor scratches, and similar defects that are not significantly visible.

(6) The vehicle has no broken windows or windows with cracks, except for cracks in places that do not interfere with licensee's vision.

(7) The vehicle has hubcaps or wheel covers on all four wheels if it was so equipped by the manufacturer.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-9.3. Duty to inspect vehicle; procedure when passenger leaves article in vehicle for hire.

(a) Each licensee shall inspect his vehicle for hire before going on duty and after discharging each passenger to see that the vehicle is free of cigars, cigarettes, papers, bottles, and anything that could cause offensive or objectionable odors. He shall check the interior of the vehicle and the trunk, if applicable, to see that no articles have been left in the vehicle after each passenger reaches his destination. In the event a passenger should leave any article in the vehicle, the licensee shall immediately notify the permittee or registrant and shall immediately return the article to the owner, the permittee, the registrant, a company representative, or a customer service liaison before making another trip.

(b) The permittee, registrant, company representative, or customer service liaison shall keep the article for a period of not more than ten days and, if the owner of the article has not called for it within that period of time, shall then deliver the lost article to the office of the chief of police. The chief of police shall give the permittee, registrant, company representative, or customer service liaison a receipt for the article and, following any holding period required for the redemption, shall cause the item to be disposed of in accordance with applicable law.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-9.4. Appearance of licensee.

(a) It shall be the duty of every licensee to be hygienically clean, well groomed, neat, and suitably dressed in compliance with all applicable requirements of this section at all times while operating or in custody of a vehicle for hire.

(b) The term suitably dressed means the licensee shall wear slacks, trousers, dress or cargo shorts, a shirt or blouse, a dress or suit, shoes, and, if desired, appropriate outer garments.

(c) Clothing that is not considered appropriate and is not permitted when the licensee is operating a vehicle for hire includes: underwear (as an outer garment), swimwear, or similar types of attire when worn as an outer garment, or cut off shorts or trunks (jogging or bathing).

(d) Additionally, each licensee shall be authorized to wear other appropriate attire prescribed by the director.

(Ord. No. 2014-914, § 2, 10-8-2014; Ord. No. 2015-997, § 4, 10-14-2015; Ord. No. 2016-986, § 6, 12-14-2016; Ord. No. 2025-1050, § 3, 12-17-2025)

Sec. 46-9.5. Blocking traffic prohibited.

No licensee shall be authorized to remain at a curb or otherwise block traffic for the purpose of waiting to acquire a passenger, whether by dispatch or hail, unless the vehicle for hire is operating in compliance with Chapter 45 of this Code.

(Ord. No. 2016-736, § 7, 10-5-2016; Ord. No. 2019-669, § 8, 9-4-2019)

Sec. 46-10. Deficient service or operation; action by director.

Should the director determine upon his own initiative or upon complaint of any person that the service authorized to be provided by any permittee or registrant is not being operated so as to provide safe, reliable, equivalent and

consistent for hire transportation services to the general public, including but not limited to the operation of unsuitable or unsafe equipment or any other matter incident to the operation or the unsafe or unlawful operation of the vehicle for hire in violation of any provision of this chapter or applicable state or federal law, the director shall notify the permittee or registrant by clearly delineating the respects in which the service is deficient or the specific incident of the alleged unsafe or unlawful operation of a vehicle for hire operated by the permittee or registrant and require that the conditions complained of be remedied within such time as the director may designate. In the event the conditions are not remedied within the time specified, the director may either suspend the permit or certificate of registration for a period not to exceed 15 days or revoke the permit after providing a hearing in a manner consistent with section 1-9 of this Code. (Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-11. Records to be kept by permittees and registrants.

(a) Permittees and registrants shall maintain business and operations records in a manner that demonstrates compliance with this chapter as provided by regulation of the director.

(b) Permittees and registrants, other than wheelchair accessible service providers, who operate wheelchair accessible vehicles shall collect, maintain, and provide to the director on a quarterly basis and on demand, operations data pertaining to the performance or facilitation of transportation services, including service provided by wheelchair accessible service providers on behalf of the permittee or registrant, as follows:

(1) The total number of trips provided by the permittee or registrant in the city, specifying the number of trips provided by all authorized methodologies used to connect prospective passengers with the permittee's or registrant's vehicle for hire transportation service, including but not limited to the number of trips provided as pre-arranged transportation services and the number of trips provided as a result of the direct, in-person solicitation of the licensee by a prospective passenger (i.e. street hailing), when direct, in-person solicitation of the licensee by a prospective passenger is an appropriate means of requesting vehicle for hire transportation services;

(2) The total number of wheelchair accessible trips provided to passengers traveling to and from George Bush Intercontinental Airport and William P. Hobby Airport, if applicable;

(3) The total number of vehicles available and in use by the permittee or registrant that are wheelchair accessible vehicles or are vehicles constructed and designed or redesigned, modified, or equipped to provide vehicle for hire transportation services to persons with disabilities who require the use of a wheelchair as a means of movement or ability to move from one place to another;

(4) The total number of wheelchair accessible trips requested of the permittee or registrant;

(5) The total number of wheelchair accessible trips completed by the permittee or registrant; and

(6) The average amount of time a passenger in need of a wheelchair accessible vehicle had to wait before pick up.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 5, 10-14-2015; Ord. No. 2015-998, § 4, 10-14-2015; Ord. No. 2019-669, § 9, 9-4-2019)

Sec. 46-11.1. Tracking information and access to identifying information.

For purposes of law enforcement, emergency response, and complaint resolution, all permittees and registrants shall collect, maintain, and provide to the director, on demand, all tracking information concerning the permittee's or registrant's licensees and vehicles, including access to the licensee's identifying information. The provisions of this subsection shall only apply to permittees and registrants operating vehicles for hire equipped with global positioning satel-

lite equipment or permittees and registrants using internet-enabled applications or digital platforms to send or transmit electronic, radio or telephonic communication through the use of a portable or handheld device, monitor, smartphone, or other electronic device or unit indicating the location of the passenger which information is then relayed to a vehicle for hire by radio or data communication of any type.
(Ord. No. 2019-669, § 9, 9-4-2019)

Sec. 46-11.2. Use of cellular telephones and electronic communication devices prohibited.

(a) It shall be unlawful for any permittee, registrant or licensee to use or cause to be used any cellular telephone or any other electronic communication device to place or receive a phone call or write, send, or read a text-based communication during the active provision of transportation services while the passenger is in the vehicle for hire unless the cellular telephone or electronic communication device is specifically designed and configured to allow voice-operated and hands-free operation to listen and talk or dictate, send, or listen to text-based communication and is used in that manner during the active provision of transportation services while the passenger is in the vehicle for hire.

(b) The provisions of this section shall not prohibit the use of an electronic communication device designed, configured and used to provide voice-operated and hands-free navigation assistance to the licensee during the active provision of transportation services while the passenger is in the vehicle for hire.

(c) Permittees, registrants and licensees may use or cause to be used cellular telephones or other electronic communication devices while the vehicle for hire is lawfully standing or parked.

(d) It is an affirmative defense to prosecution under this section that the permittee, registrant or licensee used or caused to be used a cellular telephone or other electronic communication device during the active provision of transportation services while the passenger is in the vehicle for hire to contact 9-1-1 to report an imminent threat to life or property; and

(1) The licensee could not safely stop the vehicle for hire to initiate contact with 9-1-1; and

(2) The licensee provides documentary proof of communication with 9-1-1.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-11.3. Vehicle for hire title classification.

(a) No vehicle for hire authorized to operate as such pursuant to the terms of this chapter shall have a title classification of "salvage," "junk," "rebuilt-salvage," "total loss," "non-repairable," or any equivalent or comparable classification in any other jurisdiction.

(b) The provisions of this section shall not be applicable to the renewal or amendment of permits for vehicles for hire operating with vehicle title classifications prescribed in subsection (a) that were originally issued on the basis of applications that were filed and permits issued on or before August 6, 2014, the date this section was adopted; provided however, the revocation of a permit for a vehicle operated pursuant to this special exemption or any transfer, lease, sale, rental, assignment or any other conveyance of a vehicle operated pursuant to this special exemption from a licensee or permittee shall result in the forfeiture of the privilege of operating pursuant thereto and shall require the submission of a new application and compliance with the vehicle for hire title classifications prescribed in this section.

(c) The provisions of subsection (b) of this section shall not prohibit a licensee from transferring a vehicle operated pursuant to this special exception from one permittee to another permittee.

(d) A licensee or permittee may operate a vehicle pursuant to the special exemption in subsection (b) provided the licensee or permittee submits the vehicle for annual inspection at a location authorized and identified by the director and the vehicle is determined to be in compliance

with the provisions of this chapter and any other conditions of operation prescribed by the director.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-23, § 2, 1-7-2015; Ord. No. 2015-997, § 6, 10-14-2015; Ord. No. 2019-669, § 10, 9-4-2019)

Sec. 46-11.4. Vehicle removal.

(a) The police department may remove any vehicle from a public street or public place when probable cause exists to believe that the vehicle is being operated as a vehicle for hire without the required permit, certificate of registration, certification decal, or other authorization issued by the director and required pursuant to this chapter. A vehicle removed pursuant to this section shall be placed in a secured facility designated by the city.

(b) If a vehicle has been removed from a public street or public place without the consent of the owner or operator, he may request a hearing to determine whether or not probable cause existed for the removal of the vehicle. Hearings under this section shall be before a municipal court judge.

(c) A person who wishes to request a hearing hereunder shall deliver a written request for the hearing to the clerk of the municipal courts not later than the 14th business day after the date the vehicle was placed in a secured facility. A person who fails to deliver the request within the specified time period waives the right to the hearing.

(d) A written hearing request under this section must contain the following information:

(1) The name, address, and telephone number of the owner and operator of the vehicle;

(2) The date and the location from which the vehicle was removed;

(3) The name of the police officer who authorized the removal of the vehicle; and

(4) The name, address, and telephone number of the secured facility to which the vehicle was removed.

(e) Upon receipt of a complete and timely filed hearing request, the clerk of the municipal courts shall schedule a hearing to occur as soon as practicable; provided, however, all hearings conducted pursuant to this section shall be held within ten business days after the date the hearing request was received.

(f) The court shall notify the vehicle owner or operator and the police officer who authorized the removal of the vehicle of the date, time and place of the hearing. The sole issue to be determined in a hearing under this section is whether probable cause existed for the removal of the vehicle.

(g) The court shall make written findings of fact and conclusions of law regarding the issues in the hearing. If the court determines that probable cause existed for the removal of the vehicle, the owner or operator of the vehicle shall pay the costs of removing and storing the vehicle prior to release of the vehicle.

(h) If the court determines that probable cause did not exist for the removal and of the vehicle, the vehicle shall be ordered released without the payment of any costs for removing and storing the vehicle. If the vehicle's owner or operator paid removal and storage costs before the hearing and the court determines that probable cause did not exist for the removal and storing of the vehicle, the city shall fully reimburse the owner or operator.

(i) The provisions of this section shall be cumulative of all other enforcement powers granted by this chapter and available to the city.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2014-914, § 3, 10-8-2014)

Sec. 46-11.5. Waiting period before becoming eligible to reapply.

A person whose application for a license has been denied or whose current license has been revoked or refused for renewal and such action has become final shall be required to wait a period of one year from the date the denial, revocation, or refusal became final before becoming eligible to reapply for a license.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2021-804, § 2, 9-15-2021)

Sec. 46-11.6. Operation and inspection of wheelchair accessible vehicles for hire.

A permittee operating a wheelchair accessible vehicle pursuant to a valid permit may operate the wheelchair accessible vehicle beyond any applicable vehicle for hire age and mileage limitations prescribed in this chapter, provided the permittee submits the vehicle for inspection at a location authorized and identified by the director prior to the expiration of the permit, and the director determines that the wheelchair accessible vehicle for hire is in compliance with all applicable vehicle inspection provisions and any other conditions of operation prescribed by the director.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-11.7. Preferences and soliciting of business prohibited.

(a) It shall be unlawful for any person to seek or solicit a passenger or passengers for any vehicle for hire, other than a pedicab, whether or not the vehicle is identified as a vehicle for hire, at, in or near any passenger depot, hotel, airport, ship or ferry landing, bus stop or station, or upon any sidewalk or street or any other place in the city. It shall be unlawful for any person to call out "taxicab," "limousine," "auto for hire," "carriage," "bus," "baggage," "hotel," or any other words or gestures or signage that could be construed as soliciting a passenger for hire. Violators of this section, upon conviction, shall be fined not less than $50.00 nor more than $500.00.

(b) It shall be unlawful for any cab starter, bell person, maitre d', or other person having the ability or authority to control the selection of vehicles for hire available for hire at any business premises to solicit a fee or other compensation or favor for the purpose of granting preference or priority rights to any vehicle for hire. The provisions of this section shall not be construed to prohibit the owner of a business premises that maintains a private off-street cabstand or limo stand area for the convenience of its patrons from entering into a written contract by which the owner receives compensation from one or more permittees in exchange for access to the premises' off-street cabstand or limo stand area. Violators of this section, upon conviction, shall be fined not less than $50.00 nor more than $500.00.
(Ord. No. 2014-914, § 4, 10-8-2014; Ord. No. 2016-736, § 8, 10-5-2016)

Sec. 46-12. Penalty.

Any person who fails or refuses to comply with the terms and provisions of this chapter shall be deemed guilty of an offense and, upon conviction thereof, shall be punished as provided by section 1-6 of this Code. Each violation shall constitute and be punishable as a separate offense.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-13. Rules and regulations.

The director is hereby authorized to adopt rules and regulations consistent with the intent and purposes of the provisions of this chapter. A copy of all rules and regulations shall be maintained in the director's office and the office of the city secretary for inspection by the public, and copies shall be made available for purchase consistent with the fees prescribed by law.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-13.1. Suspension of requirements during declared disaster.

(a) Upon the issuance of a proclamation of a local state of emergency issued by the mayor pursuant to Chapter 418, Texas Government Code, the mayor may by executive order, suspend any provision of this chapter the mayor reasonably deems necessary due directly to the circumstances that are the subject of the proclamation.

(b) Factors to be used to determine whether suspension of a provision is reasonably necessary include:

(1) An industry regulated under this chapter is unable to operate, due directly to the circumstances that are the subject of the proclamation;

(2) The requirements of a provision of this chapter impose an undue hardship on a

vehicle for hire platform regulated under this chapter, due directly to the circumstances that are the subject of the proclamation;

(3) Changes in city operations due to the circumstances that are the subject of the proclamation prevent compliance with a provision of this chapter;

(4) The requirements of a provision of this chapter would endanger the health or safety of city employees, due directly to the circumstances that are the subject of the proclamation.

(c) Any suspension of insurance requirements pursuant to this section may only apply to vehicles for hire that are not in operation. No executive order issued pursuant to subsection (a) of this section shall be construed to conflict with the provisions of the Texas Motor Vehicle Safety Responsibility Act.

(d) An executive order issued pursuant to subsection (a) of this section shall remain in force and effect until:

(1) The executive order is rescinded by the mayor; or

(2) The executive order is terminated by an ordinance passed and approved by the city council.

(Ord. No. 2020-440, § 4, 5-20-2020)

DIVISION 2. VEHICLE FOR HIRE DRIVER LICENSES

Sec. 46-14. Vehicle for hire driver's license required.

(a) It shall be unlawful for any person who does not hold a current and valid license issued pursuant to this division to operate a vehicle for hire on the streets of the city. A duly authorized licensee shall have a current and valid license in his possession at all times when operating a vehicle for hire and shall display the license to any peace officer or city inspector upon request.

(b) No permittee shall suffer or allow any vehicle for hire to be driven by anyone who does not possess a current and valid license issued pursuant to the terms of this division.

(c) The provisions of this division shall be cumulative of all other additional license requirements contained in this chapter applicable to the license for the operation of a specific vehicle for hire.

(d) All licenses issued pursuant to the provisions of this article and applicable to this chapter shall be specific to the vehicle for hire indicated in the license application.

(e) The requirements of this section do not apply to the driver of a sightseeing or charter vehicle.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2019-669, § 11, 9-4-2019)

Sec. 46-15. License application.

Applications for licenses or renewal of licenses shall be submitted to the director on a form promulgated by the director. The applicant shall provide the following information with each application, which shall be sworn before a notary public or conform to minimum state law requirements for unsworn declarations:

(1) The applicant's full name, residence, places of residence for five years previous to moving to his present address, age, race, height, weight, color of eyes and hair, place of birth, and length of time he has resided in the city;

(2) The specific type of vehicle for hire license for which the applicant is applying;

(3) Whether the applicant is a citizen of the United States, and his record of employment for the five years prior to the date of the application, and social security number;

(4) Whether the applicant has ever been convicted of a felony or misdemeanor;

(5) Whether the applicant has previously been a licensee;

(6) Whether the applicant has ever had a license issued pursuant to this chapter denied, revoked, or suspended;

(7) Whether the applicant has ever had a state issued private passenger vehicle driver license or commercial vehicle driver license denied, revoked, or suspended;

(8) The permittee with whom the applicant intends to work; and

(9) Evidence of compliance with all qualifications established in this article; and

(10) Any other information that may be reasonably requested by the director.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2016-986, § 8, 12-14-2016)

Sec. 46-15.1. Qualifications of license applicant.

Each applicant for a license required by this chapter pursuant to this division must:

(1) Except as provided by section 46-151(b)(4) of this Code, have a valid state class A, B or C Texas driver license.

(2) Be 18 years of age or older.

(3) Have no criminal history that is disallowed under section 1-10 of this Code.

(4) Be classified as either:

a. A citizen of the United States of America;

b. A lawful permanent resident of the United States of America; or

c. An individual who has the legal right to work as a driver of a vehicle for hire in the United States of America.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 7, 10-14-2015; Ord. No. 2016-736, § 9, 10-5-2016; Ord. No. 2016-986, § 9, 12-14-2016; Ord. No. 2025-1050, § 4, 12-17-2025)

Sec. 46-15.2. License issuance or denial.

(a) The director, upon consideration of the application and reports submitted under this division shall, subject to applicable requirements of this article, issue the license or deny the application. If the director denies the application, he shall notify the applicant in writing within five days after the date of the decision that the application has been denied and the grounds therefor.

(b) If the reason for the denial of a license is curable, the director shall allow the applicant, upon written request, to submit an amendment within the time allowed in section 46-15.5 of this Code to cure the defect in lieu of filing an appeal of the denial of the license. If the director denies the license again, the applicant shall still be entitled to file an appeal in the manner prescribed in section 46-15.5 of this Code.

(c) Additionally, the director may delay any decision on an application until final adjudication when the applicant is under indictment for or has charges pending for an offense listed in subsection (c) of section 1-10 of this Code pertaining to vehicle for hire driver licenses and shall promptly inform the applicant of the reason for the delay. Upon receiving notice of the reason for the delay, the applicant shall be entitled to an appeal of the director's delay in the same manner as provided in section 1-9 of this Code.

(d) If the criminal background check reveals that the applicant has been convicted of any applicable offense listed in subsection (a) of section 1-10 of this Code, the director shall follow the procedures set forth in section 1-9 of this Code and conduct a hearing if timely requested.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-15.3. License term; renewal.

All licenses issued for the operation of vehicles for hire pursuant to this chapter shall be valid for two years from the date of issuance; provided however, licenses for school vehicles operated pursuant to article V of this chapter shall be valid for the period provided in section 46-291 of this Code. All licenses may be renewed by making application to the director upon forms provided by the director.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-15.4. License fee.

The fee for issuance of a license pursuant to this article is stated in the city fee schedule.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-15.5. Appeal from denial of license.

An applicant aggrieved with the decision of the director denying an application for a license under any provision of this article may appeal the decision to an independent hearing examiner designated by the director. Each appeal must be perfected by a letter addressed to the director and delivered to the director's office within 15 business days after the date that notice of the director's decision, addressed to the party with the right of appeal, is placed in the United States Mail. The letter of appeal must state that an appeal from the decision of the director is desired. The director may grant the applicant a hearing only if the applicant's notice of appeal is in writing and timely given. The hearing shall be conducted in accordance with section 1-9 of this Code and applicable state laws if the denial was based in whole or in part upon section 1-10 of this Code. Subject to any further appeal authorized by state law, the hearing examiner's decision shall be final.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-15.6. State driver license status.

Except as provided by section 46-151(b)(4) of this Code, the issuance of a license is subject to the holder's maintenance of a current and valid Class A, B, or C Texas Driver License and the expiration, suspension, or revocation of the state license shall automatically render the license invalid until the applicant again holds a current and valid state license.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2025-1050, § 5, 12-17-2025)

ARTICLE II. TAXICABS

DIVISION 1. GENERALLY

Sec. 46-16. Definitions.

The following words, terms, and phrases, when used in this article, shall have the meanings assigned to them in this section, except where the context clearly indicates a different meaning:

Daytime trip means a taxicab trip originating between the hours of 6:00 a.m. and 8:00 p.m.

License means a taxicab driver's license issued pursuant to division 2 of article I of this chapter.

Licensee means any person in physical control of a taxicab who is the holder of a current and valid license.

Nighttime trip means a taxicab trip originating between the hours of 8:01 p.m. and 5:59 a.m. of the following day.

Permit means a current and valid permit issued by the director under this article for the operation of a taxicab.

Permittee means the person to whom a permit has been duly issued by the director. Any permittee who operates two or more taxicab companies under separate assumed names or different subsidiary firms or by any other means shall nevertheless be regarded as one and the same permittee for permit applications, disciplinary actions, and all other purposes relating to the administration of this article.

Stool light means an instrument or an accessory which is attached to a vehicle and indicates to the public that a vehicle is a taxicab.

Street means any public street, road, boulevard, alley, lane, highway, sidewalk, park roadway, railroad station, ship landing, ferry landing roadway, viaduct or other place under control of the city or other public authority and established by it for the use of vehicles not otherwise controlled by law or ordinance. It also means any vehicular road, driveway, or area outside of and adjacent to, or in any railroad station, ferry landing, or bus station owned by the city or other public authority that is used regularly by taxicabs for pickup and discharge of passengers, which places shall hereafter remain open to and be used by all duly permitted taxicabs without charge, except as authorized by city council, and

without discrimination as to the identity of the permittee. The properties constituting the William P. Hobby Airport (HOU), the George Bush Intercontinental Airport/Houston (IAH), and the Ellington Airport (EFD) are not designated as streets under this definition.

Taxicab means every automobile or motor-propelled vehicle, whether the vehicle is identified or not as a taxicab as set forth herein, used for the transportation of passengers for hire over the public streets of the city, whether or not the operation extends beyond the city limits. Provided, the term taxicab shall not apply to limousines, school vehicles, emergency vehicles, jitneys, sightseeing or charter vehicles, or low-speed shuttles that operate under a permit issued by the city or any other governmental regulatory authority, and, provided further, the term shall not apply to limousines that are chartered, hired or provided in connection with funeral services or any vehicles operating under a contract with the city.

Taxicab cost index (TCI) means a weighted combination of selected consumer price indexes and employment statistics as published by the United States Department of Labor used to measure the change in the costs of operating a taxicab.

Taximeter means a mechanical and/or electrical instrument that records miles or distances traveled or time consumed, or both, during the period of engagement of taxicab service and is so constructed as to visibly record the cumulative charges to the person engaging the service.

Virtual taximeter means a device that utilizes software designed to record the miles or distance traveled or time consumed, or both, during the period of engagement of taxicab service and is so constructed and mounted as to visibly record and display the cumulative charges to the person engaging the service.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2016-736, §§ 10, 11, 10-5-2016; Ord. No. 2019-669, § 12, 9-4-2019)

Sec. 46-17. Authorized operators.

No taxicab for which a permit has been issued under this article shall be operated by anyone except the permittee or an employee of the permittee or other person who may be operating the vehicle under a written agreement specifically incorporating therein any rules, regulations, and conditions as may be reasonably required by the director to ensure compliance with applicable laws and regulations. The permittee shall be responsible for anyone operating under his permit whether as an employee or contractor. Any person driving or operating a taxicab upon the streets or other public property of the city is presumed to be an employee of the taxicab's permittee or to have entered into a written agreement with the taxicab's permittee. (Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-18. General prerequisites to putting vehicle into service.

(a) Before any permittee may put a taxicab into service or replace a taxicab, he shall submit, for the director's approval, the vehicle, the certificate of title showing the current true ownership of the vehicle, his public liability insurance policy, insurance endorsement or evidence of self-insurance and, in the case of a leased vehicle, the written lease contract. In addition, before a permittee may replace a taxicab that is an electric-drive vehicle or a wheelchair accessible vehicle with a vehicle that is not an electric-drive vehicle or a wheelchair accessible vehicle, the permittee shall be required to pay, in full, the difference between the permit fee amount he paid for the electric-drive vehicle or the wheelchair accessible vehicle and the permit fee amount for the replacement vehicle.

(b) The director shall not authorize a vehicle to initially be placed into service unless it is equipped with an air conditioning system that was factory-installed by the vehicle manufacturer. (Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2016-736, § 12, 10-5-2016; Ord. No. 2016-986, § 10, 12-14-2016; Ord. No. 2019-669, § 13, 9-4-2019; Ord. No. 2021-804, § 3, 9-15-2021)

Sec. 46-19. Accessibility training.

Each permittee who first receives a permit and each licensee who receives a license after

September 4, 2019, shall attend an accessibility training course designated by regulation of the director.
(Ord. No. 2019-669, § 14, 9-4-2019)

Sec. 46-20. Age and mechanical condition of taxicabs.

A licensee or permittee shall not drive or cause to be driven upon the streets of the city any taxicab vehicle that is more than 15 years old. For purposes of this requirement, a taxicab will be considered to be 15 years old on March 31st of the 15th year following the manufacturer's model year of the vehicle, regardless of the purchase date or the date it was originally placed into service.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 41, 10-14-2015; Ord. No. 2016-736, § 13, 10-5-2016; Ord. No. 2016-986, § 11, 12-14-2016; Ord. No. 2021-804, § 4, 9-15-2021)

Sec. 46-21. Identification of vehicles generally.

(a) A permittee or licensee shall not drive or cause or suffer to be driven or operate or cause to be operated a taxicab in the city unless the taxicab has signs on each side of the taxicab stating the telephone number and the name or the assumed name under which the owner operates or the name of the partnership, copartnership, association, society or corporation under which the owner operates the taxicab, as is on file with the director. The name and numbers of the taxicab shall be placed in a location and in a size as provided by regulation of the director.

(b) A permittee shall not operate or cause or suffer or allow to be operated a taxicab in the city unless and until a permit number has been assigned by the director at the time the permit is issued under this article. The number shall remain in full force and effect for each permit so long as the permit remains valid. The number shall be displayed on the taxicab in four separate and plainly visible locations and in a size as provided by regulation of the director.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2014-914, § 5, 10-8-2014; Ord. No. 2015-997, § 8, 10-14-2015; Ord. No. 2019-669, § 15, 9-4-2019)

Sec. 46-22. Vehicle color scheme.

(a) A permittee or licensee shall not drive or cause to be driven any taxicab in the city until the permittee has filed with the director the color scheme that he proposes to use under his ownership or dispatch service.

(b) The color scheme shall be of contrasting colors that are visible from a distance of 50 feet.

(c) Upon vehicle inspection, if the director determines the color scheme displayed on the vehicle does not contrast, the director may require the permittee or licensee to change the color scheme.

(d) Replacement vehicles must be operated in compliance with this subsection. The director shall determine whether the colors submitted by the permittee comply with the requirements articulated within this section.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2016-736, § 14, 10-5-2016; Ord. No. 2016-986, § 12, 12-14-2016; Ord. No. 2019-669, § 16, 9-4-2019; Ord. No. 2021-804, § 5, 9-15-2021)

Sec. 46-23. Certification decals and taxicab permits.

At the time a permit is issued or renewed under this article, the director shall issue one certification decal to the permittee for the taxicab covered by the permit. The certification decal and permit shall be attached to the taxicab for which it is issued, at the place on the taxicab designated by the director and shall be affixed by the director or designee. It shall further be unlawful for any person to drive a taxicab without the certification decal and permit being so attached. The reissuance of any certification decal that is lost, mutilated or otherwise rendered unusable shall be provided only upon reinspection of the taxicab.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 9, 10-14-2015; Ord. No. 2019-669, § 17, 9-4-2019)

Sec. 46-24. Stool light.

No permittee or licensee shall operate or cause to be operated any taxicab within the city unless it is equipped with a stool light that is

illuminated when the taxicab is vacant and available for hire or illuminated at all times. The stool light may be magnetic or permanently affixed to:

(1) The top of the vehicle; or

(2) The front and rear windshields; or

(3) The front dashboard and rear windshield.

If the stool light is connected to taximeter, the stool light shall illuminate a 'vacant' or 'taxi' sign. If the stool light is not connected to the taximeter then it must illuminate a 'taxi' sign. Permittees and licensees shall be authorized to display and illuminate either the taxicab permittee name or permit number on the stool light when the taximeter is not recording.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2016-736, § 15, 10-5-2016; Ord. No. 2021-804, § 6, 9-15-2021)

Sec. 46-25. Passenger's right of selection.

Every person shall be allowed to select a taxicab of his choice at any place in the city.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-26. Taxicabs at George Bush Intercontinental Airport/ Houston.

(a) The provisions of this section shall apply to all taxicab service at any place upon the grounds of George Bush Intercontinental Airport/ Houston (IAH).

(b) The Director of the Houston Airport System shall establish one or more locations at or near the various terminal buildings at IAH as taxicab arrival and departure loading zones for the loading and discharge of passengers and baggage by taxicabs. It shall be unlawful for any licensee to load or discharge passengers or baggage at any location within the airline terminal areas of IAH other than in a zone so established.

(c) The Director of the Houston Airport System shall establish taxicab standing lines to service the departure loading zones designated under subsection (b) above. It shall be unlawful for any licensee to cause his vehicle to stand upon any area of IAH other than in a designated standing line. It is a defense to prosecution under this subsection that the operator has lawfully stopped his vehicle in order to comply with a traffic control device or that the operator is actually and lawfully engaged in the loading or unloading of passengers or baggage.

(d) Except where the passenger may request the service of a particular taxicab, departing passengers at IAH terminals will be assigned to taxicabs waiting in the standing lines by starters who have been designated by the Director of the Houston Airport System to operate the various departure zones and standing lines. Taxicabs will be assigned from the standing lines on a first-in-line-first-to-depart basis, provided that the Director of the Houston Airport System shall administratively provide by rule for the priority reassignment of any taxicab operating from a standing line that receives a short trip. For purposes of this provision, short trip means a trip within an area immediately adjacent to IAH as defined on a map promulgated for that purpose by the Director of the Houston Airport System.

(e) A licensee carrying a passenger or passengers from IAH shall pay to the city the airport use fee established from time to time by division 3 of article II of chapter 9 of this Code. The licensee shall deposit the fee in the manner prescribed by the Director of the Houston Airport System, and the fee may be added by the licensee to metered fares and flat rate fares for trips originating from IAH. Where passengers are being carried to two or more destinations, the airport use fee shall be prorated among them on a per destination basis.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2019-669, § 18, 9-4-2019)

Sec. 46-27. Operation at William P. Hobby Airport.

(a) The Director of the Houston Airport System is hereby authorized to designate one or more locations on the airport adjacent to the airline terminal building at the William P. Hobby Airport (HOU) as standing and loading zones for the loading and discharge of passengers and baggage by taxicabs. It shall be unlawful for a

licensee to load or discharge passengers or baggage at any other location within the airline terminal building area of the airport.

(b) A licensee carrying a passenger or passengers from the airline terminal building at the HOU shall pay to the city the airport use fee established from time to time by division 3 of article II of chapter 9 of this Code. The licensee shall deposit the fee in the manner prescribed by the Director of the Houston Airport System, and the fee may be added by the licensee to metered fares and flat rate fares for trips originating from HOU. Where passengers are being carried to two or more destinations, the airport use fee shall be prorated among them on a per destination basis.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2019-669, § 18, 9-4-2019)

Sec. 46-28. Reserved.

Sec. 46-29. Carrying additional passengers.

Any passenger who engages the services of a taxicab shall have the exclusive right to the passenger compartment of the taxicab. Except as provided in item (3) of subsection 46-30(a) of this Code, it shall be unlawful for a licensee to carry additional passengers unless specific permission is obtained from the passenger who originally engaged the taxicab.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-30. Taximeter.

(a) A licensee or permittee shall not drive or cause or suffer or allow to be driven a taxicab in the city, unless the taxicab is equipped with a properly functioning taximeter. A licensee shall not carry a passenger, whether for hire or not, unless the taximeter is in the recording position. Provided, however, it shall be an affirmative defense to prosecution under this subsection that the only passenger in the taxicab at the time the taximeter was not in recording position was a person riding for training purposes only, and:

(1) The passenger had a valid license issued by the city at the time he was riding as a passenger;

(2) The passenger had not driven a taxicab within the city for 30 days or more prior to the date the defendant was charged for violation of this subsection; and

(3) At the time the person was riding as a passenger, there was a sign indicating that a passenger was riding for purposes of training as a licensee. The sign must be located so that it would be visible to any person who might ride in the vehicle as a passenger for hire.

(b) A licensee may utilize a virtual taximeter, provided the virtual taximeter meets the applicable standards as established and updated or amended in the National Institutes of Standards and Technology's Handbook 44 and enforced by federal or state Departments of Weights and Measures or comparable agency or program. The virtual meter must be visible to a passenger seated in the rear of the vehicle, and the virtual taximeter must have been submitted to the city and approved by the director prior to use.

(c) Except for any deposit or scheduling fee required for taxicab vehicle for hire services provided as pre-arranged transportation services or as otherwise provided in this article, all charges and collections for hire shall be based upon the taximeter reading. The dial showing the fare shall be in full view and readily visible and readable by the passenger or passengers at all times taxi service is being rendered.

(d) Upon receipt of a complaint or information that a permittee or licensee is operating or has operated a taxicab vehicle in violation of this section, the director shall require the subject permittee's or licensee's records and the subject taxicab vehicle's taximeter to be inspected by the director at a time and location designated by the director.

(e) A permittee shall not drive or cause or suffer or allow to be driven and a licensee shall not drive any taxicab on which any modification has been made to the taximeter or virtual taximeter or to any mechanical or electrical parts of the taxicab activating the taximeter or virtual taximeter that causes rates higher than

those authorized in this division to be recorded and shown on the taximeter or virtual taximeter. (Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2016-736, § 16, 10-5-2016; Ord. No. 2019-669, § 19, 9-4-2019)

Sec. 46-31. Rates prescribed.

(a) Except for taxicabs dispatched through a mobile dispatch service, all permittees and licensees shall comply with and abide by the rates established in this section:

(1) Daytime metered travel. For daytime trips, the maximum metered travel fee shall be $3.72 for the first 1/11 of a mile or less plus $0.27 for each additional 1/11 of a mile or less.

(2) Nighttime metered travel. For nighttime trips, the maximum metered travel fee shall be $4.72 for the first 1/11 of a mile or less plus $0.27 for each additional 1/11 of a mile or less.

(3) *IAH flat rates.* Alternative maximum flat rates shall be imposed for trips between George Bush Intercontinental Airport/ Houston (IAH) and its geographic zones I through X. Current maximum rates shall be posted on the website maintained by the department of administration and regulatory affairs and kept on file in the office of the city secretary, where, upon request, such rates shall be made available for viewing during normal business hours. Provided that the lesser of the applicable flat rate or the actual metered rate shall be charged. A copy of the zone map for IAH taxicab rates shall remain on file for public inspection in the office of the city secretary. The centers of the streets and geographic features noted thereon as boundary lines shall determine boundaries between adjacent zones. The foregoing zone rates exclude the airport use fees, which may be additionally imposed on metered or flat fares.

(4) *HOU flat rates.* Alternative maximum flat rates shall be imposed for trips between William P. Hobby Airport (HOU) and its geographic zones I through XI. Current maximum rates shall be posted on the website maintained by the department of administration and regulatory affairs and kept on file in the office of the city secretary, where, upon request, such rates shall be made available for viewing during normal business hours. Provided that the lesser of the applicable flat rate or the actual metered rate shall be charged. A copy of the zone map for HOU taxicab rates shall remain on file for public inspection in the office of the city secretary. The centers of the streets and geographic features noted thereon as boundary lines shall determine boundaries between adjacent zones. The foregoing zone rates exclude the airport use fees, which may be additionally imposed on metered or flat fares.

(5) *Waiting time.* An amount not to exceed $24.00 per hour may be charged for waiting time, provided the clock on the taximeter is set and regulated at a rate not to exceed $24.00 per hour.

(6) *Hand luggage.* No charge will be made for hand luggage.

(7) *Reservation and billing service fee:*

a. A reservation and billing service fee may be added to the total trip charges authorized in this section, provided:

1. The trip originates with an advance reservation; and

2. At the request of the account holder or his authorized agent the fare and other charges are billed on account by the permittee, rather than being paid at the end of the trip.

The reservation and billing service fee shall not exceed ten percent of the total trip charges imposed, including the tip, if any.

b. Notwithstanding the foregoing, this item (7) shall not be construed to authorize the operation of a taxicab service in such manner as to

constitute a chauffeured limousine service. In the event of conflict, the provisions of article IV of this chapter shall prevail.

(8) *Toll road fee.* In addition to the fees prescribed in this section, the permittees and licensees may impose a toll road fee in an amount exactly equal to any fees imposed by the Harris County Toll Road Authority for use of its facilities during the trip, provided that the imposition of the fee is noted on the posted rate card, and further provided that the passenger(s) are notified of the fee before the taxicab enters the toll road. Where passengers are being carried to two or more destinations, the toll road fees shall be prorated among them, per destination.

(9) *Alternate central business district flat rate.* An alternate maximum flat rate of $6.00 shall be imposed for trips entirely within the central business district. All forms of payment shall be accepted for these trips.

(10) *TCI review and rate adjustment.* The director shall promulgate regulations regarding review of the TCI and its factors and weighting, which shall be used to determine whether taxicab rates need to be adjusted, and regarding the review of rates and the implementation of new rates, should they be deemed necessary. Current rates as adjusted by the TCI shall be posted on the website maintained by the department of administration and regulatory affairs and kept on file in the office of the city secretary and, upon request, made available for viewing during normal business hours.

(11) Fuel cost recovery fee and fuel surcharge:

a. When the average price per gallon of regular unleaded gasoline exceeds $3.00, the per trip fuel surcharge shall be as follows:

Gasoline Price Per Gallon	*Surcharge Per Trip*
$3.00 or less	None
$3.01 to $3.50	$0.50
$3.51 to $4.00	$1.00
Each additional increment of $0.50	$0.50 per additional increment of $0.50

b. When required, a fuel surcharge shall become effective on the first day of the first month of each calendar quarter, and shall remain in effect for the duration of the quarter.

c. The average price per gallon of regular unleaded gasoline shall be based on the American Automobile Association (AAA) Daily Fuel Gauge Report for Houston, Texas.

d. The average price per gallon shall be calculated for a three-month period ending not more than 14 days prior to the beginning of a calendar quarter.

e. It shall be the duty of the permittee to post signage in each permitted vehicle that fuel surcharge is in effect. The signage shall be posted in plain view of the customer.

(b) The director shall establish a taxicab passenger capacity rating (exclusive of children in arms), which will constitute the maximum number of passengers that may be carried simultaneously.

(c) In the event two or more taxicab passengers are going to the same destination, the licensee shall collect only one fare as recorded on the taximeter. If the passengers are going to different destinations, the licensee shall clear his taximeter at the first destination and charge the first passenger the amount recorded on the taximeter, and then proceed to the next destination as though it were a completely new trip. Other destinations shall be treated likewise.

(d) Where any permittee has contracted with any department, agency or subdivision of the state, the United States or any foreign government or any nonprofit charitable organization for the transportation of passengers for the

entity on a regular basis within the corporate limits of the city, the permittee is authorized, in lieu of the fares prescribed in subsection (a) above, to make other charges as are agreed to in writing by the contracting parties and filed with the director, prior to the transportation of passengers under the contract. A permittee or licensee transporting contract passengers under this subsection must fully comply with all other applicable provisions of this article.

(e) Senior citizens' discount:

(1) *Rate; restrictions.* Any taxicab passenger 60 years old or older who provides to the licensee proof of age as specified in this subsection at the time the fare is collected shall be charged a reduced fare equal to 90 percent of the fee otherwise applicable as set out in items (a)(1) through (a)(5) of this section; provided, however, the reduced fare set out in this subsection shall not be applicable in any of the following situations:

a. In the event the passenger has ridden in the taxicab to the same destination with another passenger who is not an attendant but is 13 years of age or older but less than 60 years of age;

b. The passenger is a person with disabilities who is riding in the taxicab pursuant to the terms of a contract between the permittee and the Metropolitan Transit Authority; or

c. The fare is being charged to any account other than the passenger's personal account.

For purposes of this item, an attendant is a person who is accompanying a passenger because the passenger is physically or mentally unable to travel alone.

(2) *Proof of age.* To provide proof of age for the purposes of this subsection, the taxicab passenger must allow the licensee to examine one of the following identification documents that has been issued to the passenger and that has a picture of the passenger thereon:

a. A driver license or identification card issued by a state of the United States;

b. A military identification card;

c. A passport; or

d. An alien registration receipt card (Form I-551 or I-151) or border crossing card issued by the United States Immigration Service.

(3) *Posting of notice in taxicab.* A person shall not operate a taxicab unless a notice regarding the discount set out in this subsection is posted in the passenger area of the taxicab. The director shall specify the information to be set out on the notice, the size of the print, the colors, and the location where the notice shall be placed.

(f) A permittee may charge rates that are lower than the maximum rates approved in this section, provided the permittee must file its schedule of rates or any revisions to its schedule with the director at least ten days before the rates become effective.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2014-914, § 6, 10-8-2014; Ord. No. 2015-997, §§ 10, 11, 10-14-2015; Ord. No. 2019-669, §§ 20—22, 9-4-2019; Ord. No. 2022-387, § 2, 5-18-2022; Ord. No. 2025-1050, § 6, 12-17-2025)

Sec. 46-32. Posting of license and other information.

(a) Each permitted taxicab shall be equipped with a license and rate card holder approved by the director. The holder shall be mounted on the taximeter or dashboard of the taxicab in a conspicuous location where the contents thereof may be seen by the passengers. It shall be the duty of the permittee and licensee to place in the holder the city-issued license containing a picture of the licensee, the licensee's name and description, and a rate card showing the name of the permittee and the approved maximum taxicab rates specified in section 46-31 of this Code and

the rates that will be charged by the permittee or licensee, if the rates are lower. The size and contents of the license and the rate cards shall be approved by the director.

(b) It shall be the duty of the permittee and licensee of each taxicab to ensure that the taxicab has cards posted showing the rates for travel to and from IAH and to and from HOU for each zone as specified in section 46-31 of this Code and the taxicab zone rates that will be charged by the permittee or licensee, if the rates are lower, as well as a map depicting the zones. One card shall be posted in a location conspicuous to a passenger in the front seat and the other card shall be posted in a location in the back seats so that the contents thereof can be seen by passengers riding in the back seats.

(c) It shall be the duty of each permittee and licensee to post a card with the telephone numbers of the director and the permittee for complaint purposes regarding taxicab services or charges. This card shall be mounted adjacent to the rate cards required by this section and shall instruct the passenger that if he wishes to file a complaint, he should obtain the taxicab number as posted on the taxicab, date, time, destination, and fare charged.

(d) It shall be the duty of each permittee and licensee to post a card that indicates whether smoking is permitted or prohibited in the taxicab.

(e) In lieu of placement of the information cards required in this section, the director may authorize the information to be displayed on the passenger information module in the rear of the vehicle.

(f) Each permittee and licensee shall ensure that the fare rates charged for travel in a taxicab are displayed as provided in subsection (b) of this section. Each permittee and licensee whose taxicab is dispatched through a mobile dispatch service shall ensure that the fare rates charged for travel in his taxicab are displayed along with a fare rate estimator, on the website, internet-enabled application, or digital platform used by the permittee to connect drivers and passengers.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 12, 10-14-2015; Ord. No. 2016-736, § 17, 10-5-2016; Ord. No. 2019-669, § 23, 9-4-2019)

Sec. 46-33. Payment method.

A permittee or licensee shall not drive or cause or suffer or allow to be driven a taxicab in the city, unless it is equipped with a properly functioning credit card payment device that either is mounted in a location that is within reach of a customer in a rear seat or can be passed to a passenger in a front seat or back seat. Additionally, it shall be unlawful for any permittee or licensee to refuse to accept a passenger's payment of posted rates by credit card. The use of other credit card payment devices that do not allow the passenger to maintain control of his credit card is expressly prohibited.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014 eff. 2-2-2015; Ord. No. 2015-997, § 13, 10-14-2015; Ord. No. 2019-669, § 23, 9-4-2019)

Sec. 46-34. Receipt for payment of fare.

No licensee of any taxicab, upon receiving full payment for a fare as authorized by this article, shall refuse to give a receipt upon the request of any passenger making the payment. A receipt provided to the passenger via the passenger's e-mail address shall be sufficient for purposes of providing a receipt for payment upon the request of any passenger. Additionally, the permittee shall make available to each licensee a receipt book or other electronic instrument capable of creating a payment record required by this section.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-35. Required operation; placing taxicab vehicles into service.

(a) Permittees shall pick up or accept delivery of any permit initially granted under this article and place the taxicab into service as follows:

(1) A permit initially applied for on or after the effective date of this ordinance shall not be issued unless the permittee has a vehicle to place into service;

(2) The permittee shall present the taxicab for initial placement into service and for inspection at a location authorized and identified by the director within 180 days subsequent to the date of the granting of the permits; and

(3) If any permit is not obtained or any taxicab is not placed into service as provided herein, the permit shall be automatically revoked, and the director shall cause the permittee to surrender any certification decals or other permit indicia that have been issued.

(b) Permittees shall operate or cause their taxicabs to be operated whenever public convenience requires that the taxicabs be in operation. The director may order any or all permittees to put into operation any taxicab not then in operation whenever public convenience requires that all permitted taxicabs be in operation.

(c) If a vehicle is removed from any permit initially applied for and issued on or after the effective date of this ordinance and not replaced with another vehicle, the vacant permit shall be returned to the director without a refund. Permittee may reapply for a permit as stated in this article.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 14, 10-14-2015; Ord. No. 2019-669, § 24, 9-4-2019; Ord. No. 2021-804, §§ 7, 8, 9-15-2021)

Sec. 46-36. Removal of identification marks when vehicle retired from service.

No permittee shall dispose of a taxicab that is being retired from service until all marks of taxicab identification have been removed therefrom.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-37. Inspection by city—Generally.

(a) The director shall cause each taxicab for which a permit has been issued to be inspected at the time that it is initially placed into service and thereafter at least once each year. The inspection shall be made to determine that the taxicab is in a reasonably good state of repair, clean, and equipped and being operated in compliance with all requirements of this article. The inspection shall be made at a place designated by the director. The director shall create a permanent record, in paper or electronic format, of all inspections, which shall be maintained for a period of at least two years.

(b) If the inspection reveals that a vehicle is not in a reasonably good operating condition, from the standpoint of the safety, health, and comfort of passengers, the director shall order the taxicab out of service until remedial repairs and corrections have been made. When the repairs and corrections have been made, the vehicle shall be reinspected to determine whether or not proper repairs and corrections have been made, and in no case shall the taxicab be permitted to resume its operation until the repairs and corrections have been made. It shall be unlawful for a permittee to utilize any taxicab that has been ordered out of service until the vehicle has been reinspected and the director authorizes resumption of its use.

(c) Inspections shall include, but not be limited to, the following items: vehicle identification number; taxicab number; date of purchase; foot brakes; parking brake; head lamps; tail lamps; license plate lights; stool light; dome light; horn; windshield wipers; heating, ventilating, and air conditioning systems; rearview mirror; all glasses; cleanliness; safety; condition of paint; color scheme; certification decals; taximeter seals and readings; credit card payment device integrated with global positioning satellite system; rate card; signs; fumes; state license plates and registration sticker; speedometer readings; mileage; steering; tires; muffler and tail pipe; accuracy of taximeter; and condition of the body of the vehicle and fenders.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014, eff. 2-2-2015; Ord. No. 2016-736, § 18, 10-5-2016; Ord. No. 2025-1050, § 7, 12-17-2025)

Secs. 46-38, 46-39. Reserved.

Sec. 46-40. Reserved.

Editor's note—Ord. No. 2014-914, § 7, adopted October 8, 2014, repealed § 46-40 in its entirety. Formerly said section pertained to preferences and soliciting of businesses prohibited and derived from Ord. No. 2014-754, § 2(Exh. A), adopted August 6, 2014.

Secs. 46-41—46-60. Reserved.

DIVISION 2. VEHICLE PERMIT

Sec. 46-61. Definitions.

As used in this division, the following words and terms shall have the meanings assigned to them in this section:

Operator means the person who is or will be principally in charge of the day-to-day operations of a permittee or applicant for a permit.

Principal means the operator and also includes in the case of a proprietorship the proprietor and proprietor's spouse, in the case of a partnership each partner, and in the case of a corporation each corporate officer or director. For any other form of entity, the term shall include the equivalent persons as determined by the director.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2019-669, § 25, 9-4-2019)

Sec. 46-62. Required.

(a) It shall be unlawful for any person to operate or drive or cause to be operated or driven any taxicab upon and over the streets of the city unless a current permit has been issued for the taxicab by the director in accordance with this article.

(b) It is an affirmative defense to prosecution under this section that the taxicab is not being operated for the purpose of serving any passenger in exchange for consideration unless the trip originated in a jurisdiction outside the city in which the taxicab is operated in compliance with all applicable laws. The provisions of this section shall not be construed to authorize a taxicab from another jurisdiction to originate any passenger service trip within the city.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-63. Reserved.

Editor's note—Ord. No. 2019-669, § 26, adopted September 4, 2019, repealed § 46-63 in its entirety. Formerly said section pertained to computation of permits to be distributed, if any and derived from Ord. No. 2014-754, § 2(Exh. A), 8-6-2014.

Sec. 46-64. Application for permit—Form.

(a) An application for a permit shall be submitted on forms to be furnished by the director and the applicant shall furnish the following information with each application, which shall be sworn to before a notary public or conform to minimum state law requirements for unsworn declarations:

(1) The applicant's name, mailing address (and street address if different), and telephone number (which information a permittee shall keep current);

(2) The name and form of business under which the service will be operated (if a partnership or corporation, a copy of the partnership agreement or articles of incorporation must be attached).

(3) Criminal history information for every principal as required by the director to determine compliance with section 1-10 of this Code.

(4) Evidence that the applicant has a place of business within the metropolitan area from which the applicant's taxicab business is or will be operated and that use of the proposed location is in compliance with any applicable deed restrictions.

(5) Evidence that the operator is either a United States citizen or an alien legally residing in the United States with the legal right to engage in employment in the United States.

(6) Any additional information that may be reasonably requested by the director.

Each application shall be accompanied by an application filing fee. The filing fee established by city council is stated in the city fee schedule and is not subject to the annual fee increase established in section 1-13 of this Code. The application filing fee is non-refundable.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2019-669, § 27, 9-4-2019; Ord. No. 2021-804, § 9, 9-15-2021)

Sec. 46-65. Permit issuance procedure.

(a) The director shall initially review each application for issuance or amendment of a permit to determine whether the application is complete and all required information has been provided. If not, the director shall return the application and advise the applicant of the deficiencies.

(b) The director shall review complete applications to determine whether the applicant has met all applicable requirements of this article and of other applicable provisions, including section 1-10 of this Code. If so, the director shall issue the permit without conducting a hearing. If, based upon the review, the director determines that one or more requirements may not have been met, the director shall afford the applicant the right to a hearing before acting on the application.

(c) Prior to the denial of an application, the director shall afford the applicant notice of the proposed grounds for denial and that the applicant may, within 15 business days following the date of deposit of the notice in the mail request a hearing. Where the grounds are based in whole or in part upon section 1-10 of this Code, the hearing shall conform to the requirements of section 1-9 of this Code with respect to those grounds.

(d) In the event that the director approves the permit, issuance shall be subject to compliance with this article, including, but not limited to, payment of any required fees, inspection of vehicles to be utilized, and submission of proof of insurance.

(e) A permit does not entitle the permittee to act as the driver of covered vehicles. A separate license is required for that purpose pursuant to sections 46-14 and 46-15 of this Code.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2016-736, § 19, 10-5-2016; Ord. No. 2019-669, § 28, 9-4-2019; Ord. No. 2021-804, § 9, 9-15-2021)

Sec. 46-66. Transfer of permit.

A permit initially applied for on or after the effective date of this ordinance may not be transferred.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2016-736, § 20, 10-5-2016; Ord. No. 2019-669, § 29, 9-4-2019; Ord. No. 2021-804, § 10, 9-15-2021)

Sec. 46-67. Insurance as prerequisite.

(a) Before any taxicab permit shall be issued to any person, or before renewal of any permit shall be granted, the applicant shall file an insurance policy evidencing insurance coverage complying with the requirements contained in subsection (b) below or give proof that he has qualified as a self-insurer, as the term is defined in the Texas Motor Vehicle Safety Responsibility Act as now in force or hereafter amended.

(b) The insurance required in subsection (a) shall be in the form of commercial auto liability coverage in no less than the minimum coverage amounts specified in the Texas Motor Vehicle Safety Responsibility Act issued by either a company listed as an authorized auto liability lines carrier on the Texas Department of Insurance's List of Authorized Insurance Companies or a surplus lines insurer listed on the Texas Department of Insurance's list of Eligible Surplus Lines Insurance Companies. The eligible surplus lines insurance company is required to have a Best's Rating of at least B+ and a Best's Financial Size Category of Class VI or better according to the most current edition of Best's Key Rating Guide, Property-Casualty, United States. Additionally, the insurance policy must include an endorsement requiring 30 days' written notice of termination or cancellation to the director and an endorsement requiring ten days' written notice of non-payment to the director. In the event that a policy terminates or is cancelled without replacement, then each permit to which it pertains shall be suspended, and those taxicabs may not be operated. If a proper replacement policy is not provided to the director on or before the 10th business day after the date of termination or cancellation of the policy, the permit shall automatically terminate. Proof of

insurance coverage shall be maintained at all times and shall be accepted only in the authorized form approved by the Texas Department of Insurance for that purpose.

(c) A permittee will be in compliance with subsection (b) if a licensee with whom the permittee contracts obtains insurance that fulfills the standards articulated in subsection (b); however, it shall be the duty of the permittee to ensure that the licensee maintains the aforementioned valid insurance policy at all times. Additionally, upon no fewer than five days' notice, the director may require the permittee to provide access to records that demonstrate proof of financial responsibility and compliance with the insurance requirements articulated in this section.

(d) If an insurance policy maintained by a licensee under subsection (c) has lapsed or does not provide the coverage required by this section, the permittee shall provide the coverage required by this section, regardless of whether the licensee maintains insurance adequate to cover any portion of the claim.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2016-736, § 21, 10-5-2016; Ord. No. 2025-1050, § 8, 12-17-2025)

Sec. 46-68. Fee.

(a) The annual fee for each permit under this division is stated for this provision in the city fee schedule. After payment of the initial annual permit fee, the annual permit fee shall be paid to the department on or before April 1 of each calendar year. The annual permit fee may be paid in advance to the department in three installments on or before April 1, May 1, and June 1 of each calendar year in amounts prescribed in the city fee schedule. To be eligible for installment payments, the first installment payment must be paid on or before April 1. In the event the permit is issued for a period of time less than one year, the fee shall be prorated, payable at the rate stated for this provision in the city fee schedule for each month or fraction thereof remaining in the calendar year, not to exceed the full amount of the annual fee.

(b) There shall be no fee for replacement of a vehicle with another vehicle of equivalent capacity, except as provided by section 46-18 of this Code, if applicable.

(c) The permit fee is non-refundable.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2016-736, § 38, 10-5-2016; Ord. No. 2019-669, § 30, 9-4-2019; Ord. No. 2021-804, § 11, 9-15-2021)

Sec. 46-69. Reserved.
Ord. No. 2021-804, § 12, adopted September 5, 2021, repealed § 46-69 in its entirety. Formerly said section pertained to permit is privilege, not property right and derived from Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 15, 10-14-2015; Ord. No. 2019-669, § 3, 9-4-2019.

Sec. 46-70. Term; renewal; temporary vehicles.

(a) A taxicab permit issued under this division shall be valid for a one-year permit term commencing April 1 and extending through the succeeding March 31. A permit may be renewed each year on forms promulgated by the director and by payment of the annual fee as provided in section 46-68 of this Code.

(b) In addition to the vehicles regularly operated by a permittee, the permittee may place one or more vehicles into use on a temporary basis from time to time to meet seasonal or unexpected needs in accordance with this subsection. The director shall issue temporary certification decals for a term of 30 consecutive calendar days to commence on the date of issuance at the fee stated for this provision in the city fee schedule per vehicle, per certification decal, upon the permittee's provision to the director of proof of the identity of the vehicle to be used. Proof of identity shall include verification that the vehicle is in compliance with all requirements of this division and proof that it is insured as required in section 46-67 of this Code and has been inspected and approved for use as provided in section 46-23 of this Code within six months preceding the date the temporary certification decal is issued. If the permittee's insurance

policy on file with the director pursuant to section 46-67 of this Code also covers the vehicles that will be placed in service on a temporary basis, no additional proof of insurance is required.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2019-669, § 32, 9-4-2019; Ord. No. 2021-804, § 13, 9-15-2021)

Sec. 46-71. Reserved.

Editor's note—Ord. No. 2021-804, § 14, adopted September 15, 2021, repealed § 46-71 in its entirety. Formerly said section pertained to changes in principals after issuance and derived from Ord. No. 2014-754, § 2(Exh. A), 8-6-2014.

Sec. 46-72. Transfer of permits.

(a) When used in this section, the following words and terms shall have the meanings assigned to them in this subsection:

Transfer means any sale, lease, lease assignment, or other arrangement by contract or otherwise whereby a permittee allows another person on a temporary or permanent basis to make use of one or more permits that are held by the permittee except an arrangement in the nature excepted in subsection (b).

(b) The terms of this section do not apply to a license, lease, or subcontractor arrangement in conformity with section 46-17 of this Code between a permittee and an individual driver-operator that allows the driver-operator to operate a taxicab under one of the permittee's permits, provided that the permittee remains fully responsible to the city for the driver's compliance with this chapter.

(c) A permit may only be transferred to:

(1) A person who is an existing permittee; or

(2) A qualified applicant under section 46-65 of this Code.

(d) Any transfer to a person who is not an existing permittee shall be subject to an application to be filed in the same manner as under section 46-65 of this Code for a permit application and shall only be allowed to the extent that the applicant is determined to be qualified thereunder. Every transfer must be approved in advance by the director.

A nonrefundable transfer fee shall be paid by the transferee at the time of application or upon transfer of the permit by the director. Any permit issued in conjunction with a permit computation conducted in 2017 or later is subject to the nonrefundable transfer fee. The transfer fee shall be five percent of the purchase price.

(e) A permit that is subject to a suspension or revocation proceeding may not be transferred, nor may a suspended permit be transferred during the period of suspension.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, §§ 16, 17, 39, 10-14-2015; Ord. No. 2016-736, §§ 22, 23, 10-5-2016; Ord. No. 2019-669, § 33, 9-4-2019)

Secs. 46-73—46-85. Reserved.

DIVISION 3. RESERVED

Secs. 46-86—46-110. Reserved.

DIVISION 4. MISCELLANEOUS LICENSEE REQUIREMENTS

Sec. 46-111. Reserved.

Editor's note—Ord. No. 2014-914, § 7, adopted October 8, 2014, repealed § 46-111 in its entirety. Formerly said section pertained to licensee appearance and derived from Ord. No. 2014-754, § 2(Exh. A), adopted August 6, 2014. The users' attention is directed to § 46-9.4 for similar provisions.

Sec. 46-112. Reserved.

Sec. 46-113. Limitation on hours of work.

(a) A licensee shall not drive more than 12 hours in any consecutive 24 hour period.

(b) A permittee shall not suffer or allow any licensee to drive more than 12 hours in any consecutive 24 hour period.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-114. Duty to transport passengers by shortest route.

Each licensee shall transport his passengers to definite points designated by the passengers,

and he shall take the most direct and shortest route to deliver the passengers safely and expeditiously to their destination.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-115. Duty to pull to curb to load or unload.

It shall be the duty of each licensee to pull his vehicle to the curb when loading or unloading passengers.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-116. Refusal to discharge passenger at designated place.

(a) A licensee shall not refuse to discharge a passenger at any place designated by the passenger upon the streets of the city, except when the place so designated is at a point not easily accessible by reason of an obstruction, a no parking zone, or conditions rendering the designated place or access to the designated place unreasonably hazardous.

(b) The provisions of this section shall not be deemed to excuse compliance with section 46-115 of this Code, which requires passengers to be unloaded at the curb.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-117. Leaving taxicab while waiting at depot, airport, hotel, etc.

No licensee shall leave his taxicab for any purpose, except in emergencies, while he is waiting at a depot, airport or hotel. This section does not prohibit a licensee from assisting passengers in loading and unloading.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-118. Reserved.

Sec. 46-119. Duty to transport within the corporate limits.

It shall be unlawful for a licensee to refuse to transport a person to a requested destination located within the corporate limits of the city.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Secs. 46-120—46-140. Reserved.

ARTICLE III. PEDICABS

DIVISION 1. GENERALLY

Sec. 46-141. Definitions.

When used in this article, the following words and terms shall have the meanings provided in this section, unless the context of their usage clearly indicates another meaning:

Bicycle means a belt-, chain-, or gear-driven device propelled by human power and on which a person may ride and that has two tandem wheels, either of which is more than 14 inches in diameter.

Daytime means the period between sunrise and sunset.

License means a pedicab driver's license issued pursuant to division 2 of article I of this chapter.

Licensee means any person in physical control of a pedicab who is the holder of a current and valid pedicab driver's license.

Nighttime means the period between sunset and sunrise.

Pedicab means a bicycle or tricycle used to transport passengers for hire, including a bicycle to which is attached a trailer, sidecar, or similar device.

Pedicab service means the business of transporting passengers for hire by means of a pedicab. Specifically excluded from this definition are:

(1) Vehicles used in connection with any phase of a funeral or funeral service;

(2) Taxicabs, jitneys, sightseeing and charter vehicles, chauffeured limousines, school vehicles, and low speed shuttles permitted and licensed by the city; and

(3) Vehicles operating under a contract with the city.

Permit means a permit to operate a pedicab service pursuant to this article.

Permittee means any person, partnership, corporation, firm, joint venture, limited liability company, association, organization and any other entity holding a permit issued pursuant to this article.

Tricycle means a belt-, chain-, or gear-driven device that is propelled by human power and on which a person may ride and that has three wheels in contact with the ground, any of which is more than 14 inches in diameter.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2019-669, § 34, 9-4-2019)

Sec. 46-142. Reserved.

Sec. 46-143. Article cumulative.

This article is cumulative of all other applicable laws and ordinances. Without limitation, this article is expressly made cumulative of division 3 of article II of chapter 9 of this Code. The director shall not approve the operation of a pedicab upon any airport terminal complex unless the permittee has first obtained an airport use permit for use of pedicabs.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Secs. 46-144—46-150. Reserved.

DIVISION 2. PERMITS

Sec. 46-151. Permit required.

(a) It shall be unlawful for any person to operate a pedicab service without first obtaining a permit pursuant to the terms of this division.

(b) Each applicant for a permit required by this division must:

(1) Have no conviction of an offense listed in subsection (c) of section 1-10 of this Code;

(2) Identify each pedicab the applicant desires to receive a certification decal for, including trade name, if any, serial or identification number and body style of the pedicab;

(3) Provide proof of insurance pursuant to the requirements of this article;

(4) If a natural person:

a. Be 18 years of age or older; and

b. Hold a current and valid driver's license issued by a state of the United States, the District of Columbia, or a territory of the United States.

(5) Provide evidence that the applicant has a place of business within the metropolitan area from which the applicant's pedicab service will be operated and that the use of the location is in compliance with any applicable deed restrictions enforceable by the city; and

(6) Provide any other information reasonably requested by the director for administration of this article.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2022-387, § 3, 5-18-2022; Ord. No. 2025-1050, § 9, 12-17-2025)

Sec. 46-152. License required.

It shall be unlawful for any person to operate a pedicab without a license issued pursuant to this chapter.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-153. Fees.

(a) There shall be a nonrefundable application processing fee in the amount stated for this provision in the city fee schedule payable upon the filing of an application for a permit.

(b) In addition to the application processing fee provided in subsection (a) of this section, an annual permit fee in the amount stated for this provision in the city fee schedule shall be paid in advance to the department of administration and regulatory affairs for each pedicab before it is placed into service and annually thereafter on or before February 1 of each year.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 18, 10-14-2015; Ord. No. 2022-387, § 4, 5-18-2022)

Sec. 46-154. Application.

(a) Each person desiring to obtain a permit shall apply on forms provided by the director and shall include all information required by this article.

(b) Each permit applicant (including the proprietor if a proprietorship, each partner if a partnership, or each corporate officer if a corporation) shall appear at a location specified by the director for identification and fingerprinting to determine the existence of any conviction of any applicable offense(s) set forth in subsection (c) of section 1-10 of this Code. If any conviction exists, the director shall follow the procedures set forth in section 1-9 of this Code and conduct a hearing if timely requested.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 19, 10-14-2015)

Sec. 46-155. Review.

(a) Following review of the application, the director shall provide the applicant with written notification of the approval or denial of the requested permit. The director shall initially review each application for issuance or amendment of a permit to determine whether the application is complete and all required information has been provided. If not, the director shall return the application with a statement of deficiencies.

(b) The submission of any false information or a materially incomplete application, including but not limited to an applicant's failure to provide any information reasonably requested by the director, shall be grounds for denial of the application. In the event of denial, the director shall give the applicant written notice of the basis for the denial. The applicant shall be entitled to appeal a decision based, in whole or in part, upon section 1-10 of this Code. Notice of any denial shall comply with section 1-9 of this Code and applicable state laws.

(c) If the application is denied on the basis of the applicant's failure to satisfy any other requisites stated in this division, the applicant may request a hearing by submitting a written notice of appeal to the director within 15 business days following the date notice of the director's decision is deposited in the United States Mail. A hearing official shall conduct an informal hearing and shall render a decision within 30 business days from the date of the filing of the appeal. At the hearing, the burden shall be upon the applicant to demonstrate that he is entitled to the permit.

(d) If the reason for the denial of an application is curable, the director shall allow the applicant, upon a written request, to submit an amendment within the time allowed in subsections (b) and (c) for an appeal, in lieu of filing an appeal. If the director denies the application again, the applicant shall still be entitled to file an appeal within 15 business days following the date notice of the director's decision regarding the amended application is deposited in the United States Mail.

(e) The director shall not issue a permit until the applicant has identified each pedicab, if not provided with the application, and has also obtained a satisfactory inspection and certification decal, provided proof of insurance, and provided proof of ownership or lease of each pedicab.

(f) The director shall promulgate regulations and procedures for any required hearings which shall be consistent with sections 1-9 and 1-10 of this Code and applicable state laws.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-156. Transfer; nonexclusive; fee.

(a) A permit is personal to the permittee to whom it is issued and may not be transferred or otherwise assigned. Any change of ownership, partnership interests, corporate officer or director on the permit application shall render a permit void, unless an application for transfer is filed within ten days following the effective date of the change. The director shall promulgate procedures for the processing of amendments and may suspend the permit pending the completion of the processing if any additional person who has acquired an interest in the business is determined to have been convicted of an offense

listed in section 1-10(c) of this Code. The fee for filing an application amendment is stated for this provision in the city fee schedule.

(b) Each permit is nonexclusive, and no limits or restrictions shall exist upon the number of pedicabs that may be approved, provided that each must be operated pursuant to a permit and in accordance with all applicable requirements of this article.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-157. Permit term.

(a) A permit shall be valid for five years from the date of issuance.

(b) In accordance with regulations promulgated by the director, a permit may be amended, without charge, for the limited purpose of adding, deleting or substituting any number of pedicabs; provided however, the addition, deletion, or substitution of any pedicabs pursuant to a current and valid permit shall require an inspection as provided for in section 46-161 of this Code, including the payment of the inspection fee.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Secs. 46-158—46-160. Reserved.

DIVISION 3. PEDICAB OPERATING REQUIREMENTS

Sec. 46-161. Pedicab inspection; fee.

(a) It shall be unlawful for any person to operate or cause to be operated any pedicab unless the pedicab has been inspected as required in this section and has a current and valid certification decal affixed in a manner and location prescribed by the director. There shall be a non-refundable inspection fee stated for this provision in the city fee schedule for each pedicab. All pedicabs shall be maintained in a safe and sanitary condition and shall be thoroughly cleaned and disinfected at least once in each 24-hour period.

(b) The director shall inspect each pedicab before it is initially placed into service and thereafter before February 1 of each year at such location as the director may specify. The director shall approve the pedicab if he determines that:

(1) The pedicab is of the approved color scheme and is marked as provided in this article;

(2) The pedicab is in generally good working condition with no safety-related defects, including inspection or testing of the wheels, brake system, pedicab frame, passenger compartment, audible signaling device, steering mechanism, tires, front lamp, rear lamp, and all reflectors; and

(3) The pedicab complies with all other requirements of this article.

(c) Upon satisfactory completion of the inspection, the director shall issue and permanently affix a certification decal to the pedicab. In any prosecution under this section, it shall be presumed that a pedicab has not been inspected as required in this section unless it has a current and valid certification decal affixed thereto.

(d) The director shall provide replacement certification decals only upon reinspection of the pedicab.

(e) It shall be unlawful to:

(1) Remove, move, alter, or deface a certification decal;

(2) Transfer a certification decal from the pedicab for which it was issued to another pedicab;

(3) Operate a pedicab with a certification decal that was not issued for that pedicab; or

(4) Operate a pedicab with a fictitious or fraudulent certification decal.

(f) The director may inspect any pedicab and any records or documents required to be carried in or on the pedicab at any time upon presentation of identification to the licensee in order to

determine compliance with the provisions of this article and the regulations adopted by the director.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 20, 10-14-2015; Ord. No. 2022-387, § 5, 5-18-2022)

Sec. 46-162. Authorized operators.

No pedicab shall be operated by anyone except the permittee or an employee of the permittee or other person who may be operating the pedicab under a written agreement specifically incorporating therein any rules, regulations, and conditions as may be reasonably required by the director to ensure compliance with applicable laws and regulations. The permittee shall be responsible for any person operating under his permit whether the person is an employee or is a person operating under a written agreement. Any person operating a pedicab on the streets or other public property of the city is presumed to be an employee of the permittee or to have entered into a written agreement with the permittee. Any person operating a pedicab on the streets or other public property of the city shall be required to secure a license pursuant to this chapter.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-163. Rate structure and fares.

A permittee shall file all rate structure and fare information with the director. It shall be unlawful for a permittee or licensee to charge a passenger a fare that was not agreed upon with the passenger in advance or to demand a fare from a passenger after agreeing to provide the service for a gratuity only.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-164. Receipt for payment of fare.

No licensee, upon receiving full payment for a fare as authorized by this article, shall refuse to provide a receipt upon the request of any passenger. The permittee of the pedicab shall make available to each licensee a receipt book or other electronic instrument capable of creating a payment record for this purpose.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-165. Posting of pedicab driver's license, fares, and other information.

(a) Each permitted pedicab shall be equipped with a holder mounted in a conspicuous location on the pedicab to ensure that its contents are visible by the passengers. It shall be the duty of the permittee and licensee to post in this holder a photograph of the licensee, the licensee's name, and a copy of the licensee's pedicab license. Each permitted pedicab shall also display the name, trademark, logo, or other identifying information of the permittee and the specific fares charged for services rendered. The size and content of the permittee's information and the posted fares shall be affixed to the pedicab in a manner approved by the director.

(b) It shall be the duty of each permittee and licensee to post a card with the telephone numbers of the director and the permittee for complaint purposes regarding pedicab services or charges. The card shall be mounted adjacent to licensee's pedicab license information and shall inform any passenger that wishes to file a complaint to obtain the pedicab certification decal number as posted on the pedicab, and the date, time, destination, and fare charged. The director shall approve the size of the print, the colors, and the information to be provided so that the information may be easily read by passengers.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-166. Carrying additional passengers.

Any passenger who engages the services of a pedicab shall have the exclusive right to the passenger compartment of the pedicab. It shall be unlawful for a licensee to carry additional passengers unless specific permission is obtained from the passenger who originally engaged the pedicab.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-167. Operation of pedicabs on roadways.

(a) All pedicabs operating on a roadway shall comply with all traffic laws of the state and applicable provisions of this Code.

(b) All pedicabs operating on a roadway and moving slower than the other traffic on the roadway shall ride as near as practicable to the right curb or edge of the roadway, unless:

(1) The pedicab is passing another vehicle moving in the same direction;

(2) The pedicab is preparing to turn left at an intersection or onto a private road or driveway;

(3) A condition on or off the roadway, including a fixed or moving object, parked or moving vehicle, pedestrian, animal, or surface hazard prevents the pedicab from safely riding next to the right curb or edge of the roadway; or

(4) The person is operating a pedicab in an outside lane that is:

a. Less than 14 feet in width and does not have a designated bicycle lane adjacent to that lane; or

b. Too narrow for a bicycle and a motor vehicle to safely travel side by side.

(c) A licensee operating a pedicab on a one-way roadway with two or more marked traffic lanes may ride as near as practicable to the left curb or edge of the roadway.

(d) Licensees operating pedicabs on a roadway may ride two abreast. Licensees riding two abreast on a laned roadway shall ride in a single lane. Licensees riding two abreast may not impede the normal and reasonable flow of traffic on the roadway. Licensees may not ride more than two abreast unless they are riding on a part of a roadway set aside for the exclusive operation of bicycles, tricycles, or other similar forms of non-motorized transportation.

(e) Each licensee shall pull his or her pedicab to the curb when loading or unloading passengers.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-168. Pedicab condition.

It shall be unlawful for a permittee or licensee to operate, or cause to be operated, a pedicab that is not in good working order, including, but not limited to, the operation of a pedicab that has:

(1) Exposed rust;

(2) Ripped upholstery or fabric;

(3) Visible chips or scratches on any painted surface;

(4) Exposed wood that is not painted and in good condition;

(5) Exposed sharp edges; or

(6) Dirt or debris on any surface accessible to patrons.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-169. Reserved.

Editor's note—Ord. No. 2014-914, § 7, adopted October 8, 2014, repealed § 46-169 in its entirety. Formerly said section pertained to licensee appearance and derived from Ord. No. 2014-754, § 2(Exh. A), adopted August 6, 2014. The users' attention is directed to § 46-9.4 for similar provisions.

Sec. 46-170. Pedicab lighting and reflectors.

It shall be unlawful for any permittee or licensee to operate, or cause to be operated, a pedicab that does not have the following:

(1) A lamp on the front that emits a white light visible from a distance of at least 100 feet to the front during daytime;

(2) A lamp on the front that emits a white light visible from a distance of at least 500 feet to the front during nighttime;

(3) A red reflector on the rear of a type approved by the Texas Department of Transportation that is visible from 50 feet to 300 feet to the rear when the reflector is directly in front of lawful upper beams of head lamps on a motor vehicle during nighttime; and

(4) One lamp that emits a red light visible from a distance of 500 feet to the rear during nighttime.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-171. Pedicab brakes.

It shall be unlawful for a permittee or licensee to operate, or cause to be operated, a pedicab that is not equipped with a braking system capable of being manipulated by the licensee from his normal position of operation and is capable of causing a pedicab with a loaded passenger compartment to come to a complete stop in a linear path of motion when each wheel of the pedicab is in contact with the ground on dry, level, clean pavement.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-172. Pedicab seat belts.

It shall be unlawful for a permittee or licensee to operate, or cause to be operated, a pedicab that is not equipped with a lap seat belt for each passenger, or a continuous lap seat belt that extends across the full width of the pedicab passenger seat and is designed to accommodate and secure all passengers in the pedicab.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2025-1050, § 10, 12-17-2025)

Sec. 46-173. Pedicab trailer; limitation on number.

It shall be unlawful to operate a pedicab with more than one attached trailer, sidecar, or similar device.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-174. Pedicab width.

It shall be unlawful to operate a pedicab that is wider than 54 inches at its widest point.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-175. Pedicab operation; conduct.

(a) It shall be unlawful for a licensee operating a pedicab, or a permittee operating a pedicab service, to cause, suffer, or permit a licensee to:

(1) Operate the pedicab other than on or astride a permanent and regular seat attached to the pedicab;

(2) Carry at any one time a number of persons in excess of the number of seats available, provided that a passenger under five years of age shall not be considered a person for purposes of this subsection;

(3) Operate a pedicab in a manner that results in damage to public or private property;

(4) Fail to exercise due care to avoid colliding with a pedestrian on any roadway or sidewalk;

(5) Operate a pedicab that is not equipped with an audible signaling device approved by the director and a radio, mobile telephone, or other means of two-way communication that may be used to request assistance in the event of an emergency;

(6) Permit a person riding on a bicycle, coaster, sled, toy vehicle or roller skates to attach to the pedicab;

(7) Operate a pedicab while carrying a package, bundle or article if the package, bundle or article prevents the operator from keeping at least one hand on the handlebars;

(8) Operate a pedicab on any street or adjoining sidewalk that has been closed to vehicular traffic by barricade or similar barrier;

(9) Permit or allow passengers to ride in or on a pedicab in such a position that the licensee's vision forward or to the side is blocked;

(10) Stop or stand to pick up or discharge any passenger in a taxicab zone or any other area designated for other categories of vehicles.

(b) It shall be unlawful for any person to operate a pedicab on a street where the posted speed limit exceeds 35 miles per hour, except for the purpose of crossing that street.

(c) It shall be unlawful for any person, while operating a pedicab, to pick up or drop off passengers on a street where the posted speed limit exceeds 35 miles per hour.

(d) It shall be unlawful for any person to operate a pedicab upon any portion of a public sidewalk except as necessary to access locations immediately adjacent to roadways through the use of points of ingress and egress made available for use by motor vehicles operating in compliance with all applicable traffic laws.

(e) It shall be unlawful for any person, while operating a pedicab, to obstruct the flow of pedestrian or vehicular traffic by remaining stopped by a sidewalk, except for the time period necessary to load or unload passengers.

(f) It shall be unlawful to operate a pedicab that does not have a clearly visible manufacturer's serial or identification number. In the case of a pedicab that is not of unibody design, it is sufficient for purposes of this subsection that either the operator's portion or the passenger's portion of the pedicab contain the manufacturer's serial or identification number.

(g) It shall be unlawful to remove, deface, alter or destroy the manufacturer's serial or identification number on a pedicab.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-176. Pedicab insurance.

(a) Before any permit shall be issued to any person, or before renewal of any permit shall be granted, the applicant shall file with the director a commercial general liability insurance policy evidencing insurance coverage complying with the requirements contained in subsection (b) of this section.

(b) The insurance required in subsection (a) shall be in the form of commercial general liability policy. The required policy shall name the city as an additional insured and be issued by either a company listed as an authorized general liability lines carrier on the Texas Department of Insurance's List of Authorized Insurance Companies or a surplus lines insurer listed on the Texas Department of Insurance's list of Eligible Surplus Lines Insurance Companies. The eligible surplus lines insurance company is required to have a Best's Rating of at least B+ and a Best's Financial Size Category of Class VI or better according to the most current edition of Best's Key Rating Guide, Property-Casualty, United States. The insurance shall be a policy of commercial general liability insurance, including broad form coverage, products and completed operations, and personal injury and advertising injury in an amount not less than $1,000,000.00 12-month aggregate, and $1,000,000.00 per occurrence.

(c) Additionally, the policy must include an endorsement requiring 30 days' written notice of termination or cancellation to the director and an endorsement requiring ten days' written notice of non-payment to the director. In the event that a policy terminates or is cancelled without replacement, then each permit to which it pertains shall be suspended, and all pedicabs within such coverage may not be operated. If a proper replacement policy is not provided to the director on or before the tenth business day after the date of termination or cancellation of the policy, the permit shall automatically terminate. Proof of insurance required in subsection (b) shall be carried by licensees at all times while operating a pedicab and shall be accepted only in the authorized form approved by the Texas Department of Insurance for that purpose.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Secs. 46-177—46-190. Reserved.

ARTICLE IV. SIGHTSEEING, CHARTER AND CHAUFFEURED LIMOUSINE SERVICES

DIVISION 1. GENERALLY

Sec. 46-191. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings assigned to them in this section, except where the context clearly indicates a different meaning.

Charter service means the transporting of passengers by charter from the same or various points of origin to specific destination(s).

Chauffeured limousine means:

a. A sedan-type luxury motor vehicle with a passenger capacity of five or

six persons (including the driver), which vehicle is either less than or equal to 15 years of age;

b. An extended-body type motor vehicle with a passenger capacity of no more than 15 persons (including the driver), which vehicle is either less than or equal to ten years of age and modified to extend its original factory wheelbase by 40 inches or more in conformity with Federal Motor Vehicle Safety Standard requirements;

c. A luxury motor vehicle that is classified in the United States Environmental Protection Agency's annual Fuel Economy Guide as a sport utility vehicle that has a passenger capacity of not less than five persons nor more than nine persons, including the driver, which shall be less than or equal to 15 years of age;

d. A passenger van, as designated by the director as such, with a passenger capacity of eight to 15 persons (including the driver), which vehicle is less than or equal to ten years of age and has a manufacturer's suggested base retail selling price of not less than $32,500.00, adjusted annually on November 1st each year based upon Consumer Price Index (CPI-U), All Urban Consumers, U.S. City Average, New Trucks, as published by the U.S. Department of Labor, excluding the cost of any manufacturer installed options or of any modifications or conversions that were made by other persons following the original assembly of the vehicle by the manufacturer, with the adjustment based upon the not seasonally adjusted data for the month of August; or

e. An antique, classic, or special interest vehicle.

For the purposes of this article, antique means a vehicle that is 25 years old or older; classic means a vehicle recognized by the Classic Car Club of America; and special interest means a vehicle that, due to limited production, outstanding design, and/or technical achievement, is of special interest. The age of the vehicle will be measured from the manufacturer model year date. The model year shall always count as the first full year. It shall be the duty of the director to make a determination as to whether or not a given vehicle is less than or equal to 15 years of age or is an antique, classic or special interest vehicle within the meaning of this article.

Chauffeured limousine service means the business of renting or leasing a chauffeured limousine, as defined in this section, including the services of a driver, to a person, solely upon his request or one acting for or on his behalf, to be used by the person or persons hiring the vehicle or under their direction and authority for the period of time the vehicle is rented or leased. Specifically excluded from this definition are the following:

a. Vehicles, and the drivers thereof, provided for use in connection with, or attending, or participating in any phase of a funeral or funeral service;

b. Taxicabs, pedicabs, jitneys, sightseeing and charter vehicles, school vehicles, and low speed shuttles permitted and licensed by the city; and

c. All vehicles operating under a contract with the city.

Extended body means that a vehicle has been modified to extend its original factory wheelbase by 40 inches or more in conformity with any applicable state or federal safety laws, standards, and regulations.

License means a sightseeing or charter service or chauffeured limousine service driver's license issued pursuant to division 2 of article I of this chapter.

Licensee means the person in physical control of a motor vehicle operated as a sightseeing or charter vehicle or a chauffeured limousine

who is the holder of a current and valid sightseeing or charter service or chauffeured limousine service license.

Livery edition vehicle means a vehicle manufactured for being used primarily to provide chauffeured limousine transportation services for hire to the general public.

Luxury motor vehicle means:

a. Any livery edition vehicle;

b. A vehicle that has a manufacturer's suggested base retail selling price of not less than $38,644.57, adjusted annually based upon Consumer Price Index (CPI-U), All Urban Consumers, U.S. City Average, New Cars, as published by the U.S. Department of Labor, excluding the cost of any manufacturer installed options or of any modifications or conversions that were made by other persons following the original assembly of the vehicle by the manufacturer. The adjustment shall be based upon the not seasonally adjusted data for the month of August and shall be effective November 1st; or

c. A vehicle designated by the director as a luxury motor vehicle.

Passenger van means a motor vehicle built on a small truck chassis that is constructed or adapted to provide a passenger seating capacity of not less than nine but not more than 15 persons, including the driver.

Permit means authorization to operate a sightseeing or charter service or a chauffeured limousine service pursuant to this article.

Permittee means any person, partnership, corporation, firm, joint venture, limited liability company, association, organization, and any other entity holding a permit issued pursuant to this article.

Sightseeing service means the transporting of passengers between points within the city and between such points and points without the city upon a route including stops at various points of public interest and providing for eventual discharge at the place at which such passengers are picked up. From such definition is specifically excluded the discharge of passengers from points other than those at which they are picked up.

Sightseeing or *charter service* means the transporting of passengers by charter between points within the city and between such points and points without the city upon a route including stops at various points of public interest and providing for eventual discharge at the place at which such passengers are picked up. From such definition is specifically excluded the discharge of passengers from points other than those at which they are picked up.

Sightseeing or *charter vehicle* means a motor vehicle with a manufacturer's seating capacity of 16 persons or more, including the driver, manufactured, certified, and operated in compliance with the minimum requirements of the Federal Motor Vehicle Safety Standards and Regulations, as amended.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 39, 10-14-2015; Ord. No. 2016-736, § 24, 10-5-2016; Ord. No. 2016-986, §§ 13, 14, 12-14-2016; Ord. No. 2019-669, § 35, 9-4-2019; Ord. No. 2021-804, § 15, 9-15-2021; Ord. No. 2023-856, §§ 2, 3, 10-18-2023; Ord. No. 2025-1050, § 11, 12-17-2025)

Secs. 46-192—46-199. Reserved.

DIVISION 2. SIGHTSEEING AND CHARTER SERVICES

Sec. 46-200. Scope.

The provisions of this division shall apply to charter and sightseeing services and permittees thereof.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-201. Permit and license required.

It shall be unlawful for any person to operate a sightseeing or charter service, or to drive or cause to be operated or driven any sightseeing motor vehicle or charter service motor vehicle

upon and over the streets of the city, until such time as the director has approved and issued a permit for such service and a license.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-202. Permit term; operations authorized.

(a) A permit for sightseeing shall be issued for a term of five years and shall authorize the permittee to operate in a manner under which persons picked up. Proof that persons carried by a permittee are discharged and leave the motor vehicle at points other than those at which they are picked up shall constitute grounds for termination of the permit under the provisions hereinafter stated for notice and hearing; A sightseeing service permittee shall wait for the passengers and return them to the point of origin.

(b) A permit for a charter service shall be issued for a term of five years and shall authorize the permittee to operate in a manner under which persons picked up at the same or various points are taken to specific destination(s). A charter service permittee may operate between points within the city and between such points and points outside the city.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 21, 10-14-2015; Ord. No. 2025-1050, § 12, 12-17-2025)

Sec. 46-203. Reserved.

Sec. 46-204. Permit application; issuance procedure.

(a) An application for a permit shall be submitted on forms to be furnished by the director and the applicant shall furnish the following information with each application, which shall be sworn to before a notary public or conform to minimum state law requirements for unsworn declarations:

(1) The name and form of business under which the service will be operated. (If a partnership or corporation, a copy of the partnership agreement or articles of incorporation must be attached.)

(2) The name, mailing address, and street address, if different, of the applicant's agent for service of legal process (which information a permittee shall keep current).

(3) A schedule showing the model, manufacturer model year date, type, make, vehicle identification number, license plate number, and mileage of each motor vehicle that the applicant proposes to place into operation and a statement as to the legal ownership of each vehicle.

(4) For a sightseeing service, a description of the sightseeing tours that the applicant proposes to furnish and a schedule of the routes proposed to be followed.

(b) An applicant for a permit under this division must:

(1) Be not less than 18 years of age.

(2) Not have been convicted of an applicable offense specified in section 1-10 of this Code unless the license is granted notwithstanding the conviction pursuant to section 1-9 of this Code.

(c) If the applicant is a partnership or association, the partners or associates, or if the applicant is a corporation, each person who is either an officer or director, shall be required to join in filing the application and all of the provisions and requirements of this chapter applicable to individual applicants shall apply to and be required of each partner, associate, officer or director. Failure of any of these persons to meet the requirements shall be grounds to deny the application of the partnership, association or corporation.

(d) Any change in associates, partners, officers, or directors of the business entity holding a permit shall require a permit amendment and must be reported to the director within ten days after the change. The new associates, partners, officers, or directors shall complete and file the forms and supply the information required of applicants for permits. The director shall consider the information supplied regarding the new or proposed associate, partner, officer, or director of the permittee, and if this examination discloses that the new or proposed person possesses the

qualifications of a person to whom a permit would be issued under the terms of this article, he shall change his records to reflect the new associate, partner, officer, or director of the permittee.

(e) Except as provided in section 46-218 of this Code, the addition, removal or substitution of any vehicle with a replacement vehicle operated pursuant to a permit shall require a permit amendment.

(f) The director shall initially review each application for issuance or amendment of a permit to determine whether the application is complete and all required information has been provided. If not, the director shall return the application to the applicant with a statement of deficiencies.

(g) The director shall review complete applications to determine whether the applicant has met all applicable requirements of this article and of other applicable provisions, including section 1-10 of this Code. If so, the director shall issue the permit without conducting a hearing. If, based upon the review, the director determines that one or more requirements may not have been met, the director shall afford the applicant the right to a hearing before acting on the application.

(h) Prior to the denial of an application, the director shall notify the applicant of the proposed grounds for denial and that the applicant may, within 15 business days following the date of deposit of the notice in the mail, request a hearing. Where the grounds are based in whole or in part upon section 1-10 of this Code, the hearing shall conform to the requirements of section 1-9 of this Code with respect to those grounds.

(i) In the event that the director approves the permit, issuance shall be subject to compliance with this article, including, but not limited to, payment of any required fees, and submission of proof of insurance.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2021-804, § 16, 9-15-2021; Ord. No. 2025-1050, § 13, 12-17-2025)

Sec. 46-205. Vehicle certification decals.

The director shall devise a system of identification for authorized vehicles and prescribe and issue a certification decal identifying each vehicle as one lawfully operated under the permit.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 22, 10-14-2015; Ord. No. 2015-997, § 22, 10-14-2015; Ord. No. 2025-1050, § 14, 12-17-2025)

Sec. 46-206. Reserved.

Sec. 46-207. Insurance requirements.

(a) Every vehicle operated under a permit issued pursuant to the provisions of this division shall at all times be covered by commercial automobile liability insurance meeting all requirements of Chapter 643 of the Texas Transportation Code.

(b) Policies issued under this section shall contain provisions for a continuing liability thereon up to the full amount thereof, notwithstanding any recovery thereon, and include an endorsement requiring 30 days' written notice of termination or cancellation to the director and an endorsement requiring ten days' written notice of non-payment to the director. In the event that a policy terminates or is cancelled without replacement, then each permit to which it pertains shall be suspended, and all sightseeing and charter service vehicles within such coverage may not be operated. If a proper replacement policy is not provided to the director on or before the tenth business day after the date of termination or cancellation of the policy, the permit shall automatically terminate.

(c) The insurance required in subsection (a) shall be issued by either a company listed as an authorized auto liability lines carrier on the Texas Department of Insurance's List of Authorized Insurance Companies or a surplus lines insurer listed on the Texas Department of Insurance's list of Eligible Surplus Lines Insurance Companies. The eligible surplus lines insurance company is required to have a Best's Rating of at least B+ and a Best's Financial Size Category of Class VI or better according to the most current edition of Best's Key Rating Guide,

Property-Casualty, United States. Proof of coverage shall be accepted only in the authorized form approved by the Texas Department of Insurance for that purpose.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2025-1050, § 15, 12-17-2025)

Sec. 46-208. Maintenance and operation of vehicles; qualifications of licensees.

(a) A permittee shall not permit or cause to be driven, and shall not drive on any street of the city any vehicle which does not comply with all of the provisions of this article. It shall be a violation of this article on the part of any permittee and licensee to fail to comply or to fail to require compliance with any of the provisions of this article.

(b) All vehicles operating as a sightseeing or charter service shall be maintained in a safe and sanitary condition and shall be thoroughly cleaned and disinfected at least once in each 24-hour period.

(c) If applicable, all vehicles operating as a sightseeing or charter service shall be equipped with rear vision mirrors, a double windshield wiper, a partition or other guard to keep passengers from standing to the left of the driver, proper headlights and taillights in good working condition, which shall be lit from one-half hour after sunset to one-half hour before sunrise, and four-wheel hydraulic or air brakes in good working condition.

(d) Every vehicle operating as a sightseeing service shall have posted in a conspicuous place in the vehicle the route to be traveled thereby and a schedule of the rates of fares.

(e) The director may at any time make tests and inspections of all vehicles operating as a sightseeing or charter service, and if the director finds any vehicle to be in an unsatisfactory condition, he shall notify the owner or operator thereof of the defects observed. The owner or operator shall immediately correct all defects to the satisfaction of the director. If the director finds any sightseeing or charter service vehicle to be unfit or unsafe for the carriage of passengers, he shall forthwith notify the operator of the sightseeing or charter service and the operator shall not thereafter cause or permit the vehicle to be operated on any street of the city until it has been made safe for the carriage of passengers. The director and any employee whom he may designate to the duty of inspection of sightseeing or charter service vehicles shall be given free and ready access to all sightseeing or charter service vehicles. Proof of a valid state inspection in the last twelve months will suffice for the purposes of this subsection in determining that the sightseeing and charter vehicle is fit and safe for the carriage of passengers.

(f) Licensees shall not smoke or use tobacco during the time they are driving vehicles that are operating as a sightseeing or charter service.

(g) A licensee shall not drive for more than 12 hours in any consecutive 24-hour period and a permittee shall not permit or cause a licensee to drive a vehicle operating as a sightseeing or charter service more than 12 hours in any consecutive 24-hour period.

(h) The doors of a vehicle operated as a sightseeing or charter service shall be securely closed at all times while the vehicle is in motion.

(i) Passengers of a sightseeing or charter service shall not be picked up or discharged in the traveled portion of any street. Licensees shall pull the vehicle to the curb and pick up and discharge the passengers on the side of the vehicle immediately against the curb.

(j) A licensee shall not permit or allow passengers or employees to stand or ride on the running board, dash board, fender or any outside portion of the vehicle, or permit any passenger to stand in such a position that the driver's vision forward or to the right front or left is blocked.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 23, 10-14-2015; Ord. No. 2025-1050, § 16, 12-17-2025)

Sec. 46-209. Schedule of fares.

Upon being issued a permit, a permittee shall file with the director a complete schedule of fares to be charged. In the event any changes are

made in the fares, the permittee shall file the changes with the director not later than 30 days before the effective date of the changes.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-210. Routes and schedules.

A permittee operating a sightseeing service shall operate its motor vehicles only over and along routes and schedules filed with and approved by the director. The permittee shall submit all proposed routes and schedules for review and approval by the director. Routes and schedules may be amended from time to time. Routes shall not be exclusive.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2025-1050, § 17, 12-17-2025)

Sec. 46-211. Annual permit fee.

(a) *Fees.* The annual fee for a permit under this division for each sightseeing or charter vehicle is stated for this provision in the city fee schedule and shall be paid in advance to the department of administration and regulatory affairs in two installments on or before January 1 and March 1 of each calendar year in amounts prescribed in the city fee schedule. In the event the permit is issued for a period of time less than one year, the fee shall be prorated, payable at the rate stated for this provision in the city fee schedule for each month or fraction thereof remaining in the calendar year, not to exceed the full annual fee. The reissuance of each certification decal that is lost, mutilated, or otherwise rendered unusable shall be provided only upon reinspection of the sightseeing or charter service vehicle.

(b) *Additional to other required fees.* The fees established in this section shall be payable in addition to any other applicable fees imposed by this Code or other ordinances of the city.

(c) In addition, before a permittee may replace a sightseeing or charter vehicle that is an electric-drive vehicle or a wheelchair accessible vehicle with a vehicle that is not an electric-drive vehicle or a wheelchair accessible vehicle, the permittee shall be required to pay, in full, the difference between the permit fee amount he paid for the electric-drive vehicle or the wheelchair accessible vehicle and the permit fee amount for the replacement vehicle.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 24, 10-14-2015; Ord. No. 2019-669, § 36, 9-4-2019; Ord. No. 2021-804, § 17, 9-15-2021)

Sec. 46-212. Statements, reports, records.

Permittees shall furnish and render to the director statements and reports incident to the operation of a sightseeing or charter service required by the director, including but not limited to records of the operation sufficient to show the amount of gross receipts during any and every monthly period.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Secs. 46-213—46-215. Reserved.

Sec. 46-216. Transfer of permit.

A permit may not be transferred.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-217. Reserved.

Sec. 46-218. Temporary certification decals.

In addition to the vehicles regularly operated by a permittee, the permittee may place one or more vehicles into use on a temporary basis from time to time to meet seasonal or unexpected needs in accordance with this subsection. Temporary certification decals shall be issued for a term of 30 consecutive calendar days to commence on the date of issuance at the fee stated for this provision in the city fee schedule per vehicle, per certification decal, upon provision to the director of proof of the identity of the vehicle to be used including verification that the vehicle is in compliance with all requirements of this division including proof that it is insured as required in section 46-207 of this Code and has been inspected and approved for use as provided in section 46-208 of this Code within twelve months preceding the date the certification decal is issued. For vehicles placed in service on a temporary basis that are less than or equal to

two years of age (manufacturer's model year date counted as first full year), proof of a valid state inspection will suffice for the requirement of section 46-208 of this Code. If the permittee's insurance policy on file with the director pursuant to section 46-207 of this Code also covers the vehicles that will be placed in service on a temporary basis, no additional proof of insurance is required.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2025-1050, § 18, 12-17-2025)

Secs. 46-219—46-229. Reserved.

DIVISION 3. CHAUFFEURED LIMOUSINE SERVICE

Sec. 46-230. Scope.

The provisions of this division shall apply to chauffeured limousine services and permittees thereof.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-231. Permit required.

(a) It shall be unlawful for any person to operate a chauffeured limousine service or to offer or agree to provide chauffeured limousine service, or to rent or lease motor vehicles, including the service of a driver, for chauffeured limousine service in the City of Houston, unless the person holds a current and valid chauffeured limousine service permit that has been issued under this division.

(b) It is an affirmative defense to prosecution under this section that the chauffeured limousine is not being operated for the purpose of serving any passenger in exchange for consideration or the trip originated in a jurisdiction outside the city in which the chauffeured limousine is operated in compliance with all applicable laws. The provisions of this section shall not be construed to authorize a chauffeured limousine from another jurisdiction to originate any passenger service trip within the city.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-232. Annual permit fee; other fees and taxes to be paid.

(a) *Required.* The annual fee for a permit under this division for each limousine is stated for this provision in the city fee schedule shall be paid in advance to the department of administration and regulatory affairs in two installments on or before January 1 and March 1 of each calendar year in amounts prescribed in the city fee schedule. In the event the permit is issued for a period of time less than one year, the fee shall be prorated, payable at the rate stated for this provision in the city fee schedule for each month or fraction thereof remaining in the calendar year, not to exceed the full amount of the annual fee. The reissuance of any certification decal that is lost, mutilated, or otherwise rendered unusable shall be provided only upon reinspection of the limousine.

(b) *Additional fees.* The fees established in this section shall be payable in addition to any other applicable fees imposed by this Code or other ordinances of the city.

(c) In addition, before a permittee may replace a limousine that is an electric-drive vehicle or a wheelchair accessible vehicle with a vehicle that is not an electric-drive vehicle or a wheelchair accessible vehicle, the permittee shall be required to pay, in full, the difference between the permit fee amount he paid for the electric-drive vehicle or the wheelchair accessible vehicle and the permit fee amount for the replacement vehicle.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 25, 10-14-2015; Ord. No. 2019-669, § 37, 9-4-2019; Ord. No. 2021-804, § 18, 9-15-2021; Ord. No. 2025-1050, § 19, 12-17-2025)

Sec. 46-233. Application for permit—Form.

(a) An application for a permit shall be submitted on forms to be furnished by the director and the applicant shall furnish the following information with each application, which shall be sworn to before a notary public or conform to minimum state law requirements for unsworn declarations:

(1) The name and form of business under which the service will be operated (If a

partnership or corporation, a copy of the partnership agreement or articles of incorporation must be attached.);

(2) The name, mailing address, and street address, if different, of the applicant's agent for service of legal process (which information a permittee shall keep current);

(3) A schedule showing the model, manufacturer model year date, type, make, vehicle identification number, license plate number, and mileage of each motor vehicle, and a statement as to the legal ownership of each vehicle proposed to be placed into operation as a chauffeured limousine;

(4) Documentary evidence from an insurance company indicating a willingness to provide insurance or proof of current coverage of insurance as required in section 46-238 of this Code; and

(5) Any additional information as requested by the director for the administration of this division.

(b) If the applicant is a partnership or association, the partners or associates, or if the applicant is a corporation, each person who is either an officer or a director, shall be required to join in filing the application and all of the provisions and requirements of this chapter applicable to individual applicants shall apply to and be required of each partner, associate, officer, or director. Failure of any of these persons to meet the requirements shall be grounds to deny the application of the partnership, association or corporation.

(c) Any change in associates, partners, officers, directors, or shareholders of the business entity holding a permit shall require a permit amendment and must be reported to the director within ten days after the change. The new associates, partners, officers, directors, or shareholders shall complete and file the forms and supply the information required of applicants for permits. The director shall consider the information supplied regarding the new or proposed associate, partner, officer, or director of the permittee, and if this examination discloses that the new or proposed person possesses the qualifications of a person to whom a permit would be issued under the terms of this article, the director shall change his records to reflect the new associate, partner, officer, or director of the permittee.

(d) Except as provided in section 46-235(b) of this Code, the addition, removal, or substitution of any vehicle with a replacement vehicle pursuant to a permit shall require a permit amendment.

(e) In addition to any other information required to be provided under this section, each applicant for issuance, renewal, or amendment of a permit shall be required to advise the director in writing upon the application form whether the applicant desires privileges to operate the limousine(s) covered by the permit upon the property of city airports.

(f) The director shall cause each permit that is issued, renewed, or amended and any certification decals or other evidence of authorization to operate a chauffeured limousine to indicate whether or not the permittee and vehicles have city airport privileges under this subsection.

(g) It shall be unlawful for any person to operate or cause to be operated any chauffeured limousine that does not have city airport privileges under this subsection upon any city owned or operated airport. Additionally, violation of this subsection shall be grounds for revocation or suspension of the offender's permit and license. (Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-234. Permit issuance procedure.

(a) The director shall initially review each application for issuance or amendment of a permit to determine whether the application is complete and all required information has been provided. If not, the director shall return the application to the applicant with a statement of deficiencies.

(b) The director shall review complete applications to determine whether the applicant has met all applicable requirements of this article and of other applicable provisions, including section 1-10 of this Code. If so, the director shall

issue the permit without conducting a hearing. If, based upon the review, the director determines that one or more requirements may not have been met, the director shall afford the applicant the right to a hearing before acting on the application.

(c) Prior to the denial of an application, the director shall afford the applicant notice of the proposed grounds for denial and that the applicant may, within 15 business days following the date of deposit of the notice in the mail request a hearing. Where the grounds are based in whole or in part upon section 1-10 of this Code, the hearing shall conform to the requirements of section 1-9 of this Code with respect to those grounds.

(d) In the event that the director approves the permit, issuance shall be subject to compliance with this article, including, but not limited to, payment of any required fees, inspection of vehicles to be utilized, and submission of proof of insurance.

(e) A permit does not entitle the permittee to act as the driver of covered vehicles. A separate license is required for that purpose pursuant to the applicable provisions concerning the issuance of vehicle for hire driver's licenses contained in this chapter.

(f) No chauffeured limousine for which a permit has been issued under this article shall be operated by anyone except the permittee or an employee of the permittee or other person who may be operating the vehicle under a written agreement specifically incorporating therein any rules, regulations, and conditions as may be reasonably required by the director to ensure compliance with applicable laws and regulations. The permittee shall be responsible for anyone operating under his permit whether the operator is an employee or other person operating under a written agreement. Any person driving or operating a chauffeured limousine upon the streets or other public property of the city is presumed to be an employee of the permittee or to have entered into a written agreement with the permittee.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-235. Permit—Term; renewal; temporary vehicles.

(a) Permits shall be issued for a term of five years. Permittees desiring to have reissuance of their permit shall, at least 60 days prior to the expiration of the permit, file with the director a written application for a renewal of their permit. Except as otherwise expressly stated, renewals shall be subject to the same requirements set forth in this article for issuance of new permits. A permit shall be valid only for the vehicles listed thereon and any vehicles reported under an amendment to the application filed pursuant to section 46-233 of the Code, which vehicles must also pass inspection under section 46-236 of the Code.

(b) In addition to the vehicles regularly operated by a permittee, the permittee may place one or more vehicles into use on a temporary basis from time to time to meet seasonal or unexpected needs in accordance with this subsection. The director shall issue temporary certification decals for a term of 30 consecutive calendar days to commence on the date of issuance at the fee stated for this provision in the city fee schedule per vehicle, per certification decal, upon the permittee's provision to the director of proof of the identity of the vehicle to be used. Proof of identity shall include verification that the vehicle is in compliance with all requirements of this division and proof that it is insured as required in section 46-238 of this Code and has been inspected and approved for use as provided in section 46-236 of this Code within six months preceding the date the temporary certification decal is issued. If the permittee's insurance policy on file with the director pursuant to section 46-238 of this Code also covers the vehicles that will be placed in service on a temporary basis, no additional proof of insurance is required.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 26, 10-14-2015)

Sec. 46-236. Inspection fee; maintenance equipment.

(a) Each permittee shall cause each limousine operated under his permit to be submitted for inspection by the director from time to time at

intervals not exceeding 12 months as more particularly provided in section 46-237 of this Code. The director shall inspect each limousine before the permittee initially places the limousine into service and thereafter before January 1st of each year. The inspection compliance decal shall be affixed by the director to the windshield of the vehicle. It shall be unlawful to drive or to cause to be driven any limousine permitted under this division that does not have a current inspection compliance decal affixed by the director.

Each permittee shall pay to the director an inspection fee stated for this provision in the city fee schedule for the inspection services described in this section for each limousine operated pursuant to this division.

(b) All vehicles shall be maintained in a safe and sanitary condition at all times and shall always be maintained in good working condition.

(c) All vehicles shall be air-conditioned and equipped with interior and exterior rearview mirrors, windshield washers and two-speed windshield wipers, proper headlights and taillights that shall be in operation from one-half hour before sunset to one-half hour after sunrise when the limousine is in operation. The inspection shall include, but not be limited to, the following items: Vehicle identification number; date of purchase; foot brakes; parking brake, headlights; taillights; brake lights; turn signal lights; license plate lights; horn; two-speed windshield wipers; interior and exterior rear vision mirrors; air conditioner; tires; muffler and tail pipe; condition of the body; condition of the fenders; condition of the paint; condition of the interior; state license plates; speedometer readings; mileage; and steering. Brakes, seat belts, and all other safety, noise and antipollution requirements specified by the United States Government and the state shall be complied with at all times. The brakes shall always be kept in good working condition.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 27, 10-14-2015; Ord. No. 2025-1050, § 20, 12-17-2025)

Sec. 46-237. Tests and inspections of limousine vehicles.

The director may at any time, and shall at least once each year, make tests and inspections of all limousine vehicles then in operation to assure that they are in compliance with the terms of section 46-236 of this Code. If upon inspection the director finds a limousine vehicle is not in compliance with any of the requirements therein set out, he shall notify the permittee of the defects observed. The permittee shall immediately correct the defects. Any vehicle that is the subject of the notification shall not be operated on any street of the city until it has been reinspected and determined to be in compliance with the requirements of inspection. The director shall be given access to the vehicles at all reasonable times. Failure to submit a vehicle requested for inspection by the director shall be cause for suspension of the operation of the vehicle until such time the vehicle is submitted for inspection and it is determined that the vehicle is in compliance with the terms of section 46-236 of this Code.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 42, 10-14-2015; Ord. No. 2016-986, § 15, 12-14-2016)

Sec. 46-238. Insurance requirements.

(a) Notwithstanding any other provision of this article to the contrary, no permit shall become effective nor shall chauffeured limousine services be provided until the person to whom the permit is granted has filed with the director the requisite proof of insurance insuring the general public against any loss or damage that may result to any person or property from the operation of chauffeured limousine vehicles covered by his permit.

(b) The insurance required in subsection (a) shall be in a form of commercial automobile liability coverage with limits of not less than $500,000.00 combined single limit per accident issued by either a company listed as an authorized auto liability lines carrier on the Texas Department of Insurance's List of Authorized Insurance Companies or a surplus lines insurer listed on the Texas Department of Insurance's List of Eligible Surplus Lines Insurance Companies. The eligible surplus lines insurance company is required to have a Best's Rating of at least B+ and a Best's Financial Size Category of Class VI

or better according to the most current edition of Best's Key Rating Guide, Property-Casualty, United States.

(c) The insurance shall be for the protection of the passengers of limousine vehicles as well as for the general public. The required insurance shall name the city as an additional insured. The policies issued under this section shall contain a provision for a continuing liability thereon up to the full amount thereof, notwithstanding any recovery thereon, and include an endorsement requiring 30 days' written notice of termination or cancellation to the director and an endorsement requiring ten days' written notice of nonpayment to the director.

(d) If any insurer desires to be released from any insurance policy filed under this section, he may do so by giving written notice to the director at least 30 days before he desires to be released from liability. The director shall thereupon give written notice to the permittee and demand that such permittee furnish evidence of new insurance obtained before the expiration of the policy.

(e) If any policy is cancelled as herein provided, or expires, and no new policy is filed by the permittee before the cancellation or expiration of the original insurance, the permit shall automatically be suspended, and the permittee shall discontinue the operation of the affected vehicles within the city. If a proper replacement policy is not provided to the director on or before the tenth business day after the date of termination or cancellation of the policy, the license shall automatically terminate.

(f) Proof of coverage shall be accepted only in the authorized form approved by the Texas Department of Insurance for that purpose.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2019-962-1, § 2, 12-4-2019; Ord. No. 2025-1050, § 21, 12-17-2025)

Sec. 46-239. License; other driver requirements.

(a) A person shall not operate a limousine upon the streets of the city unless he holds a current and valid license.

(b) At all times while in service, whether physically operating a limousine, assisting passengers, or performing other duties attendant to the provision of limousine service, it shall be the duty of the licensee to conspicuously display his license upon his upper chest. The license may be attached to the driver's outer shirt or jacket pocket or lapel, suspended from a necklace or displayed in an equivalent manner on the driver's outer garments. In any prosecution under this subsection, it shall be presumed that the driver was not in possession of a current and valid license if the license card was not conspicuously displayed as aforesaid.

(c) A licensee shall not drive for more than 12 hours in any consecutive 24-hour period and a permittee shall not permit or cause a licensee to drive a chauffeured limousine more than 12 hours in any consecutive 24-hour period.

(d) Each licensee shall, while operating a permittee's limousine, wear business attire (a dress shirt and matching slacks, dress, or skirt or a chauffeur's uniform with a company-issued polo or dress shirt or blouse. Additionally, each licensee shall be authorized to wear other appropriate attire prescribed by the director.

(e) It is an affirmative defense to prosecution under this section that the person driving a limousine had been engaged by the permittee to perform repairs or servicing of the vehicle, and that the vehicle was not in service at the time of the alleged offense.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2014-914, § 8, 10-8-2014; Ord. No. 2023-856, § 4, 10-18-2023; Ord. No. 2025-1050, § 22, 12-17-2025)

Sec. 46-240. Written or electronic vehicle rental agreements.

(a) A written or electronic vehicle rental agreement shall be entered into by the permittee and any person renting or leasing any chauffeured limousine. All vehicle rental agreements shall include, among other things: the name(s) of the permittee and the name of the assigned licensee; the name(s) of the passenger(s); the date and time of hiring; the scheduled pickup address or location; the date and time of release of the

vehicle; and the rates applicable to the vehicle. In addition to the foregoing information, all vehicle rental agreements for service originating at city airports shall also include the airline name, flight number, and scheduled date and time of arrival. The permittee shall deliver a copy of the vehicle rental agreement to the renting or leasing party at the time the vehicle is released or, if a monthly statement is submitted, at that time. A completed copy of the bill submitted showing the total fare charged and received shall be retained by permittee for a period of two years from the date of contract. Upon request, the permittee shall make available to the director completed copies of the vehicle rental agreements retained within the two-year period.

(b) A copy of the vehicle rental agreement form shall be filed with the director who shall approve the form before the permittee may operate his vehicles under this article.

(c) The licensee shall maintain a vehicle rental agreement at all times while operating and providing services and shall further upon request, present the vehicle rental agreement to the director or other person authorized to enforce this chapter.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2016-736, § 24, 10-5-2016)

Sec. 46-241. Operation from permittee's usual place of business, etc.

(a) A permittee shall operate only from his usual place of business; provided, however, if any permittee has a written agreement authorizing the permittee to operate from a hotel or motel, that place shall be considered a usual place of business when a copy of the agreement is filed with the director.

(b) The permittee shall not operate out of a house or store or maintain any of his vehicles at any place of public accommodation unless the limousine is at that time hired. It shall be the duty of each licensee to present a copy of the rental agreement required under section 46-240 of this Code to any administration and regulatory affairs department employee or police officer upon request to evidence compliance with this section. If the licensee fails to produce a rental agreement evidencing compliance it shall be presumed in any prosecution under this subsection that the licensee's presence at the public place of accommodation was unlawful.

(c) The licensee shall not approach potential customers in any public place for the purpose of soliciting their business, and a chauffeured limousine shall only display the permittee's company name on the exterior of the vehicle; provided however, a passenger van may display the company name, company logo, and company telephone number on the outside of the van.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2022-387, § 6, 5-18-2022; Ord. No. 2025-1050, § 23, 12-17-2025)

Sec. 46-242. Operation upon city airport property.

No licensee shall operate a limousine upon the property of any city airport except for the purpose of discharging passengers whose trips originated elsewhere or for the purpose of rendering service to deplaning passengers who wish to be transported from the airports. No licensee shall park or stand his limousine upon airport property except for the purpose of actually loading or unloading passengers in accordance with a rental agreement executed under section 46-240 of this Code, nor shall any licensee enter or remain upon airport property unless his limousine has permanently affixed on the windshield an automatic vehicle identification tag in accordance with policies and procedures promulgated by the Director of the Houston Airport System. It shall be the duty of each licensee to present a copy of the rental agreement instrument required under section 46-240 of this Code to any Houston Airport System employee, administration and regulatory affairs department employee, or peace officer upon request to evidence compliance with this section. If the licensee fails to produce the rental agreement evidencing compliance, it shall be presumed in any prosecution under this subsection that the licensee's presence upon the airport property was unlawful.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2019-669, § 38, 9-4-2019)

Sec. 46-243. Schedule of fares.

Permittees shall file with the director a schedule of fares or rates to be charged. Permittees shall advise the director of any change in its schedule of fares or rates within five calendar days of the change on a form prescribed by the director.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-244. Reserved.

Sec. 46-245. Transfer of permit.

A permit may not be transferred.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Secs. 46-246—46-275. Reserved.

ARTICLE V. SCHOOL VEHICLES

DIVISION 1. GENERALLY

Sec. 46-276. Definitions.

When used in this article, the following words and terms shall have the meanings assigned to them in this section, unless the context of their usage clearly indicates another meaning:

License means a school vehicle driver's license issued pursuant to division 2 of article I of this chapter.

Licensee means any person in physical control of a school vehicle who is the holder of a current and valid school vehicle driver's license.

Permit means authorization to operate a school vehicle service pursuant to this article.

Permittee means any person, partnership, corporation, firm, joint venture, Limited Liability Company, association, organization and any other entity holding a permit issued pursuant to this article.

School means a public or private facility offering any one or more of: (i) day care or preschool programs, (ii) kindergarten, (iii) regular grades 1 through 12 or (iv) alternative programs for students under 21 years of age who have physical or learning disabilities or other special needs. The term also includes governmentally-sponsored job training centers, regardless of the age of persons attending the centers.

School vehicle means any motorized vehicle, whether a conventional sedan, station wagon, van, bus or other type, with a manufacturer's rated seating capacity of not more than 15 passengers, including the driver, that is used for hire to transport students to or from any school that is situated in the city or that is used under the sponsorship of the school to transport students to or from any school-sponsored activity of a school that is situated in the city. The term excludes any vehicle owned or leased by the person who operates the school and operated by that person's employees for the primary purpose of providing transportation to students of the school, and any intrastate or interstate motor bus operating under Texas Department of Transportation or federal licensing jurisdiction.

School vehicle service means the business of transporting passengers for hire by means of a school vehicle. Specifically excluded from this definition are:

(1) Vehicles used in connection with any phase of a funeral or funeral service;

(2) Taxicabs, pedicabs, jitneys, sightseeing and charter vehicles, chauffeured limousines, and low speed shuttles permitted and licensed by the city; and

(3) Vehicles operating under a contract with the city.

State certificate means a current and valid certificate pursuant to Chapter 14, Part 1, Title 37 of the Texas Administrative Code evidencing that the holder is enrolled in or has completed a driver training course in school bus safety education that has been approved jointly by the Texas Board of Education and the Texas Department of Public Safety. The term additionally means and includes a current and valid driver's license of a class that

authorizes the operation of a school vehicle of the largest capacity that the driver will be assigned to drive.

Student means a person who is enrolled in a school.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 39, 10-14-2015; Ord. No. 2019-669, § 39, 9-4-2019)

Sec. 46-277. Reserved.

Sec. 46-278. Article is cumulative.

This article is cumulative of all other applicable laws and ordinances. Without limitation, this article is expressly made cumulative of the other articles of this chapter. No vehicle operated under a license or permit issued under another article of this chapter may be utilized as a school vehicle except by additionally complying with this article.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Secs. 46-279—46-285. Reserved.

DIVISION 2. PERMITS AND LICENSES

Sec. 46-286. Permit and license required.

(a) It shall be unlawful for any person to operate or cause to be operated any school vehicle service unless a permit has been issued for the operation of the school vehicle service under this article.

(b) It shall be unlawful for any person to act as a licensee unless the person receives a license and is designated as a licensee on the permit that pertains to that school vehicle. It is a defense to prosecution under this subsection that the vehicle was not being used for the transport of any student at the time of the alleged offense.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-287. Permit applications.

(a) Each person desiring to obtain a permit shall make application on forms provided by the director and shall include the information requested by the director for implementation of this article. The director shall initially review each application for issuance or amendment of a permit to determine whether the application is complete and all required information has been provided. If not, the application shall be returned, and the applicant shall be so advised. The application shall be completed by and, if granted, issued in the name of the person who owns the entity that will operate the school vehicles. A nonrefundable application process fee in an amount stated for this provision in the city fee schedule shall be payable upon the filing of each application. Each application shall be accompanied by:

(1) A list of vehicles proposed to be utilized;

(2) A list of the licensees proposed to operate pursuant to the permit;

(3) A copy of each licensee's state certificate;

(4) Evidence of compliance with any qualifications established in this article and any other relevant information that may be requested by the director; and

(5) Evidence that the applicant has a place of business within the metropolitan area from which the applicant's school vehicle service will be operated and that such use of the location is in compliance with any applicable deed restrictions.

(b) Except where otherwise provided in this article, licenses for school vehicles shall be issued in a manner consistent with the requirements established in division 2 of article I of this chapter.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-288. Review.

(a) Following review of the application, the director shall notify the applicant of intent to issue the permit unless:

(1) The applicant or any proposed licensee is determined to be unfit in accordance with the criteria of section 1-10 of this Code following a hearing under section 1-9 of this Code;

(2) The applicant fails to demonstrate that each proposed licensee has a state certificate;

(3) The applicant, if a natural person, is not yet 18 years old; or

(4) Any information provided in the application was materially incomplete or false.

(b) In the event that the application is denied, the applicant shall be given written notice of each reason for the denial. If the application is denied in whole or in part upon the basis of first criterion specified above, the applicant shall be entitled to appeal the decision regarding the first criterion in the manner provided by the applicable state law. If the application is denied in whole or in part on the basis of any of criteria (2) through (6), above, then the applicant may request a hearing regarding the denial under those criteria by submitting a written notice of appeal to the director within 15 business days following the date that notice of the director's decision is deposited in the United States Mail, addressed to the applicant. The director shall cause an informal hearing to be conducted on the matter by a disinterested hearing officer who shall render a decision within 30 business days from the date of the filing of the appeal. In the hearing, the burden shall be upon the applicant to demonstrate that he is entitled to the issuance of the permit.

(c) If the application is approved, the actual permit shall not be issued until the applicant has provided proof of vehicle ownership for each school vehicle, caused each school vehicle to be inspected, and provided proof of insurance for each school vehicle as required under sections 46-290, 46-292 and 46-293 of this Code, and has made payment of the annual permit fee prescribed in section 46-289 of this Code.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2021-804, § 19, 9-15-2021; Ord. No. 2025-1050, § 24, 12-17-2025)

Sec. 46-289. Annual permit fee.

(a) There is hereby assessed an annual fee which shall be paid by each permittee in advance to the department of administration and regulatory affairs in two installments on or before November 1 and February 1 of each calendar year.

(b) The amount of the fee is stated for this provision in the city fee schedule. There shall be no fee for replacement of a vehicle with another vehicle of equivalent capacity. In the event that a permit is issued after March 1, or in the event that an additional vehicle is placed into service after March 1, then an amount equal to ½ of the foregoing fees shall be payable for the balance of the annual fee period
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 28, 10-14-2015; Ord. No. 2019-669, § 40, 9-4-2019)

Sec. 46-290. Vehicle inspection.

(a) It shall be unlawful for any licensee or permittee to drive or cause to be driven any school vehicle while in service for the transportation of any student, unless the vehicle has been inspected as required in this section or inspected and permitted by the Texas Department of Transportation.

(b) Each vehicle shall be inspected before it is initially placed into service and thereafter during October of each year by the director at such location as the director may specify. The director shall approve the vehicle if he determines that:

(1) The vehicle has a current Texas registration and required stickers for both safety and air quality, if applicable;

(2) That the vehicle is marked as provided in section 46-301 of this Code;

(3) The vehicle is in generally sound working condition with no apparent safety-related defects and has a functioning speedometer and odometer;

(4) The vehicle has a lap or lap/shoulder seat belt for the driver and for each passenger seating space to the extent required by state law; and

(5) The vehicle has no seats that have been added in excess of the manufacturer's specifications.

(c) Upon the satisfactory completion of the inspection, the director shall issue and permanently affix a certification decal to the windshield of the vehicle. In any prosecution under this section, it shall be presumed that a vehicle has not been inspected as required in this section unless it has a current and valid certification decal affixed thereto.

(d) Replacement certification decals shall only be provided upon reinspection of the vehicle.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2025-1050, § 25, 12-17-2025)

Sec. 46-291. Permit and license terms; licensees and vehicles.

(a) A permit shall be valid for five years from the date of its issuance. A license shall be valid for three years from the date of its issuance. A permit shall be valid only for the operation of the school vehicles designated thereon and operated by the licensees designated in the application, provided that each licensee designated continues to maintain a current and valid state certificate. No permittee shall suffer or permit the driving of any school vehicle while in service for the transportation of any student by a person not designated as a licensee on the application. It shall also be the duty of each permittee to ensure that no licensee continues to operate any school vehicle in the event that the licensee's state certificate expires without renewal or is revoked or suspended by the state.

(b) School vehicles may be added to or deleted from a permit by filing an amended application listing the vehicles to be added or deleted and providing proof of insurance and ownership for vehicles to be added as specified in sections 46-292 and 46-293 of this Code. Added vehicles may not be placed into service until they have been inspected and certified in accordance with section 46-290 of this Code. It shall be the duty of the permittee to return the certification decal or remnants thereof for any vehicle that is removed from the permittee's authorized fleet.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2019-669, § 41, 9-4-2019; Ord. No. 2025-1050, § 26, 12-17-2025)

Sec. 46-292. Insurance.

(a) Each school vehicle operated by a permittee shall be covered by liability insurance meeting all requirements of Chapter 643 of the Texas Transportation Code.

(b) The policy must be issued by either a company listed as an authorized auto liability lines carrier on the Texas Department of Insurance's List of Authorized Insurance Companies or a surplus lines insurer listed on the Texas Department of Insurance's List of Eligible Surplus Lines Insurance Companies. The eligible surplus lines insurance company is required to have a Best's Rating of at least B+ and a Best's Financial Size Category of Class VI or better according to the most current edition of Best's Key Rating Guide, Property-Casualty, United States. Additionally, the policy must include an endorsement requiring 30 days' written notice of termination or cancellation to the director and an endorsement requiring ten days' written notice of non-payment to the director. In the event that a policy terminates or is cancelled without replacement, then the permit to which it pertains shall be suspended, and no school vehicle may be operated under the permit. If a proper replacement policy is not provided to the director on or before the tenth business day after the date of termination or cancellation of the policy, the permit shall automatically terminate.

(c) Proof of the insurance required in this section shall be accepted only in the authorized form approved by the Texas Department of Insurance for that purpose.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 29, 10-14-2015; Ord. No. 2025-1050, § 27, 12-17-2025)

Sec. 46-293. Ownership of vehicles, use of permits.

(a) Each school vehicle must be registered to or leased on a long-term basis of at least a year to the permittee who operates the vehicle, a copy of which title or lease shall be provided to the director.

(b) It is the express intent of the city council in establishing the requirements of this section to ensure that permittees are fully responsible

for the maintenance and operation of their school vehicles and to avoid any sort of scheme or artifice in which school vehicles are operated by persons who "lease" permits or drive vehicles as "independent contractors." The director shall promulgate any regulations that are necessary to carry out this section. Without limitation, the regulations may require that each permittee make his drivers' payroll records available for inspection and copying by the director to verify compliance.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-294. Transfer, non-exclusive.

(a) A permit is personal to the permittee to whom it is issued and may not be sold, transferred or conveyed by operation of law or otherwise.

(b) Each permit is non-exclusive, and no limits or restrictions shall exist upon the number of school vehicles that may be authorized to operate pursuant to a permit in accordance with all applicable requirements of this article.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Secs. 46-295—46-300. Reserved.

DIVISION 3. OPERATING RULES

Sec. 46-301. Marking of vehicles.

Each school vehicle shall be conspicuously marked on the right and left sides and upon the rear with the name of the permittee and the permittee's local telephone number. The information shall be in characters at least three inches high and having a brush stroke width of at least ⅜ of an inch.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-302. Contracts required.

Each permittee under this article shall have a contract in writing authorizing the carriage of each student who is transported.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-303. Picking up and delivering students.

Each licensee shall ensure that students are loaded and offloaded in a safe manner that does not invite hazardous exposure to traffic or other hazards.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2025-1050, § 28, 12-17-2025)

Sec. 46-304. Standees, seat belts.

(a) To the extent required by state law, each school vehicle shall be equipped with a functioning seat belt for each passenger seating space.

(b) It shall be unlawful for a licensee to allow any greater number of persons to be on board the vehicle than the seating capacity of spaces.

(c) It shall be the duty of a licensee to exercise reasonable caution to ensure that the vehicle is not in motion at any time when any person is not seated and does not have his seat belt attached, if seatbelts are required by state law.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Secs. 46-305—46-320. Reserved.

ARTICLE VI. JITNEYS

DIVISION 1. GENERALLY

Sec. 46-321. Definitions.

When used in this article, the following words and terms shall have the meanings assigned to them in this section, unless the context of their usage clearly indicates another meaning:

Jitney means a motorized passenger vehicle having a manufacturer's rated seating capacity of not less than nine nor more than 15 persons including the driver, that is operated in a zone carrying passengers from place to place in exchange for a fee.

Jitney service means the business of renting, leasing, or owning a "jitney," as defined in this section, including the services of a driver,

for the use and convenience of the general public. Specifically excluded from this definition are the following:

(1) Vehicles, and the drivers thereof, provided for use in connection with, or attending, or participating in any phase of a funeral or funeral service;

(2) Taxicabs, pedicabs, sightseeing and charter vehicles, chauffeured limousines, and low speed shuttles permitted and licensed by the city; and

(3) All vehicles operating under a contract with the city.

License means a current and valid jitney driver's license issued pursuant to division 2 of article I of this chapter.

Licensee means any person who is the holder of a current and valid jitney driver's license.

Permit means a current and valid jitney permit issued under division 2 of this article.

Permittee means any person, entity, business, partnership, joint venture, or corporation that holds a current and valid permit to operate a jitney service issued under division 2 of this article.

Zone means the zone for a jitney, as filed with the director in accordance with section 46-340 of this Code.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 39, 10-14-2015; Ord. No. 2016-736, §§ 26, 27, 10-5-2016; Ord. No. 2019-669, § 42, 9-4-2019)

Sec. 46-322. Reserved.

Sec. 46-323. Article is cumulative.

This article is cumulative of all other applicable laws and ordinances. Without limitation, this article is expressly made cumulative of division 3 of article II of chapter 9 of this Code. The director shall not approve a zone that involves the operation of a jitney upon any airport terminal complex unless the permittee has first obtained an airport use permit for use of that jitney within that zone.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2016-736, § 28, 10-5-2016)

Sec. 46-324. Reserved.

Editor's note—Ord. No. 2015-997, § 30, adopted October 14, 2015, repealed § 46-324 in its entirety. Formerly said section pertained to Exception for existing permits and derived from Ord. No. 2014-754, § 2(Exh. A), 8-6-2014.

Secs. 46-325—46-330. Reserved.

DIVISION 2. LICENSES AND PERMITS

Sec. 46-331. Permit required.

(a) It shall be unlawful for any person to operate a jitney service unless a permit has been issued for the operation of the jitney service under this article.

(b) Each applicant for a permit required by this division must:

(1) Have no conviction of an offense stated in subsection (c) of section 1-10 of this Code;

(2) Identify the make, model, manufacturer's rated seating capacity and vehicle identification number for each vehicle the applicant desires to receive a permit for and operate as a jitney;

(3) Be 18 years of age or older, if a natural person;

(4) Provide evidence that the applicant has a place of business within the metropolitan area from which the applicant's jitney service will be operated and that such use of the location is in compliance with any applicable deed restrictions;

(5) Hold a current and valid class A, B, or C Texas driver license; and

(6) Provide any other information reasonably requested by the director for administration of this article.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2014-914, § 9, 10-8-2014; Memorandum of 1-28-2015; Ord. No. 2021-804, § 20, 9-15-2021; Ord. No. 2025-1050, § 29, 12-17-2025)

Sec. 46-332. License required.

It shall be unlawful for any person to drive a jitney unless the person holds a license issued pursuant to under this chapter.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-333. Fees.

(a) There shall be a nonrefundable application processing fee in the amount stated for this provision in the city fee schedule payable upon the filing of each application for one or more permits, regardless of the number of permits requested.

(b) In addition to the application processing fee provided in subsection (a) of this section, an annual permit fee shall be payable in the amount stated for this provision in the city fee schedule for each jitney before it is placed into service and annually thereafter as provided in section 46-336 of this Code.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-334. Permit application.

(a) Each person desiring to obtain one or more permits shall make application on forms provided by the director and shall include the information requested by the director for implementation of this article. The director shall initially review each application for issuance or amendment of a permit to determine whether the application is complete and all required information has been provided. If not, the application shall be returned, and the applicant shall be so advised.

(b) Upon notification by the director, each permit applicant (including the proprietor if a proprietorship, each partner if a partnership, or each corporate officer or director if a corporation) shall present himself at the location identified by the director for identification and fingerprinting to determine if he has been convicted of any applicable offense(s) as set forth in subsection (c) of section 1-10 of this Code. If so, the director shall follow the procedures set forth in section 1-9 of this Code and conduct a hearing if timely requested.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-335. Review.

(a) Following review of the application, the director shall provide the applicant with written notification of the approval or denial of the requested permit(s).

(b) The submission of any false information or a materially incomplete application, including but not limited to an applicant's failure to provide any other information reasonably requested by the director, shall be immediate grounds for denial of the application. In the event that the application is denied, the applicant shall be given written notice of each reason for the denial. The applicant shall be entitled to appeal the decision if the application is denied in whole or in part upon section 1-10 of this Code. Notice of denial in whole or in part upon section 1-10 of this Code shall comply with section 1-9 of this Code and applicable state laws. If the application is denied in whole or in part on the basis of any other criteria stated in sections 46-331 and 46-332 of this Code, the applicant may request a hearing regarding the denial by submitting a written notice of appeal to the director within 15 business days following the date that notice of the director's decision is deposited in the United States Mail, addressed to the applicant. The director shall cause an informal hearing to be conducted on the matter by a disinterested hearing officer who shall render a decision within 30 business days from the date of the filing of the appeal. In the hearing, the burden shall be upon the applicant to demonstrate that he is entitled to the issuance of the permit.

(c) If the reason for the denial of an application is curable, the director shall allow the applicant, upon the applicant's request, to submit an amendment within the time allowed in subsection (b) for an appeal, in lieu of filing of an

appeal. If the application is again denied, the applicant shall still be entitled to file an appeal within 15 days following the date that notice of the director's decision regarding the amended application is deposited in the United States Mail, addressed to the applicant.

(d) Following approval of an application for one or more permits, the actual permits shall not be issued until the applicant has provided the make, model, manufacturer's seating capacity and vehicle identification number of each jitney, if not provided with the application, and also has paid the annual fee, obtained a certification decal, provided proof of insurance, provided proof of ownership or lease and filed zone and rate data for each jitney in a manner consistent with sections 46-336 through 46-340 of this Code.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2016-736, § 29, 10-5-2016)

Sec. 46-336. Annual permit fee.

(a) There is hereby assessed the annual permit fee stated for this provision in the city fee schedule per jitney, which shall be paid in advance to the department of administration and regulatory affairs on or before June 1 and September 1 each year. In the event that a permit is issued after December, then an amount equal to ½ of the foregoing fees shall be payable for the balance of the annual fee period.

(b) Except for the vehicle inspection fee provided in section 46-337 of this Code, there shall be no additional fee for replacement of a jitney with another jitney.

(c) Reserved.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 40, 10-14-2015; Ord. No. 2019-669, § 43, 9-4-2019; Ord. No. 2025-1050, § 30, 12-17-2025)

Sec. 46-337. Vehicle inspection; fee.

(a) It shall be unlawful for any person to drive or operate or cause to be driven or operated any jitney, unless the jitney has been inspected as required in this section and has a current and valid certification decal affixed thereto. There shall hereby be a non-refundable vehicle inspection fee stated for this provision in the city fee schedule per jitney. All jitneys shall be maintained in a safe and sanitary condition and shall be thoroughly cleaned and disinfected at least once in each 24-hour period.

(b) Each jitney shall be inspected before it is initially placed into service and thereafter before June 1 of each year by the director at such location as the director may specify. The director shall approve the jitney if he determines that:

(1) The jitney has a current Texas registration for both safety and air quality, if applicable;

(2) The jitney is of the approved color scheme and is marked as provided in this article;

(3) The jitney is in generally sound working condition with no apparent safety-related defects, including inspection or testing of the speedometer, odometer, horn, windshield wipers, mirrors, steering, service brake, parking brake, tires, exhaust system, high beam indicator, tail lamp, stop lamps, license plate lamp, rear reflectors, turn signal lamps and headlamps;

(4) The jitney has a lap or lap/shoulder seat belt for the driver and for each passenger seating space to the extent that the vehicle was so equipped by the manufacturer;

(5) The jitney has no seats that have been added in excess of the manufacturer's specifications; and

(6) The jitney complies with all other applicable requirements of this article.

(c) Upon the satisfactory completion of the inspection, the director shall issue and permanently affix a certification decal to the lower right portion of the windshield of the jitney. In any prosecution under this section, it shall be presumed that a jitney has not been inspected as required in this section unless it has a current and valid certification decal affixed thereto.

(d) Replacement certification decals shall only be provided upon reinspection of the jitney.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2025-1050, § 31, 12-17-2025)

Sec. 46-338. Insurance.

(a) Before any permit shall be issued to any person, or before renewal of any permit shall be granted, the applicant shall file an insurance policy evidencing insurance coverage complying with the requirements contained in subsection (b) below or give proof that he is qualified as self-insured, including the provision of a certificate of self-insurance issued pursuant to the Texas Motor Vehicle Safety Responsibility Act as now in force or hereafter amended.

(b) The insurance required in subsection (a) shall be in the form of commercial auto liability coverage in no less than $1,000,000.00 combined single limit per accident. The insurance required shall be issued by either a company listed as an authorized auto liability lines carrier on the Texas Department of Insurance's List of Authorized Insurance Companies or a surplus lines insurer listed on the Texas Department of Insurance's List of Eligible Surplus Lines Insurance Companies. The eligible surplus lines insurance company is required to have a Best's Rating of at least B+ and a Best's Financial Size Category of Class VI or better according to the most current edition of Best's Key Rating Guide, Property-Casualty, United States. Additionally, the policy must include an endorsement requiring 30 days' written notice of termination or cancellation and an endorsement requiring ten days' written notice of non-payment to the director. In the event that a policy terminates or is cancelled without replacement, then each permit to which it pertains shall be suspended, and those jitneys may not be operated. If a proper replacement policy is not provided to the director on or before the tenth business day after the date of termination or cancellation of the policy, the permit shall automatically terminate.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 31, 10-14-2015; Ord. No. 2019-669, § 44, 9-4-2019; Ord. No. 2025-1050, § 32, 12-17-2025)

Sec. 46-339. Authorized operators.

No jitney for which a permit has been issued under this article shall be operated by anyone except the permittee or an employee of the permittee or other person who may be operating the jitney under a written agreement specifically incorporating therein any rules, regulations, and conditions as may be reasonably required by the director to ensure compliance with applicable laws and regulations. The permittee shall be responsible for anyone operating under his permit whether he be an employee or other person operating under a written agreement. Any person driving or operating a jitney upon the streets or other public property of the city is presumed to be an employee of the permittee or to have entered into a written agreement with the permittee. Any person driving or operating a jitney upon the streets or other public property of the city shall be required to secure a license pursuant to the applicable provisions of this chapter.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-340. Rates; zones.

(a) Each jitney shall be operated within a zone that has been filed by the permittee with the director. Except for jitneys dispatched through a mobile dispatch service, the rate for transportation of passengers within a zone shall be a fixed amount, per person. Rates may either be constant or may be differentiated between peak and off-peak hours, provided that the hours during which each rate will be imposed are specified.

(b) All jitneys dispatched through a mobile dispatch service shall display their fare rate and provide a fare rate estimator on their website, internet-enabled application, or digital platform used by the permittee to connect drivers and passengers.

(c) The permittee shall submit all proposed rates and zone cards for review and approval by the director. Rates and zones may be amended from time to time. Zones shall not be exclusive. A fee stated for this provision in the city fee schedule shall be imposed for each zone filing, per jitney. Each zone application that involves

use of airport facilities shall be accompanied by the proof required under section 46-323 of this Code.

(d) Approved rate and zone cards for each jitney shall be conspicuously posted in the manner specified by regulation of the director. The zone card shall state the zone and the rate. The information shall also be posted on each side of the vehicle in a manner and location approved by the director. The director may assign zone numbers and may assign different colors of zone cards to signify fare amounts.

(e) It shall be unlawful for a licensee or permittee to provide transportation services to passengers for hire outside of the zone that has been filed with the director for that jitney; unless the jitney must operate outside of its zone due to a road closure or construction present within such zone.

(f) It shall be unlawful for a licensee or permittee to impose a fare other than as filed with the director, except for jitneys dispatched through a mobile dispatch service.

(g) It shall be unlawful to drive or operate or cause to be driven or operated any jitney without the current rate cards posted as provided by the director for the jitney.

(h) Following notice and a hearing, the director may cancel any zone that was authorized in error.

(i) Upon request a licensee shall display to the director, or other person authorized to enforce this chapter, a physical or electronic record of a ride in progress sufficient to establish that it was a prearranged transportation service through a mobile dispatch application. To the extent that trip records are contained on an electronic device, a licensee is not required to relinquish custody of the device in order to make the required display but must demonstrate to the director or other person authorized to enforce this chapter that the licensee has in his possession proof that the ride in progress is the result of a prearranged transportation service through the mobile dispatch application.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, §§ 32, 32a, 10-14-2015; Ord. No. 2016-736, § 30, 10-5-2016)

Sec. 46-341. Transfer; nonexclusive.

(a) A permit is personal to the permittee to whom it is issued and may not be leased, rented, sold, transferred or conveyed by operation of law or otherwise. Provided, any change of proprietor, change of partnership interests or change of corporate officer or director as shown on the permit application shall render a permit void, unless an application for transfer is filed within ten days following the effective date of the change. The director shall promulgate procedures for the processing of amendments and may suspend the permit(s) pending the completion of the processing if any additional person who has acquired an interest in the business is determined to have been convicted of an applicable offense as provided in subsection (c) of section 1-10 of this Code. The fee for filing an application amendment is stated for this provision in the city fee schedule.

(b) Each permit is nonexclusive, and no limits or restrictions shall exist upon the number of jitneys that may be permitted, provided that each must be operated pursuant to a permit and in accordance with all applicable requirements of this article.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-342. Permit terms; suspension.

(a) A permit shall be valid for five years from the date of its issuance.

(b) In accordance with regulations promulgated by the director, a permit may be amended, without charge, for the limited purpose of adding, deleting or substituting jitney vehicles.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Secs. 46-343—46-350. Reserved.

DIVISION 3. OPERATING REQUIREMENTS

Sec. 46-351. Licensee conduct.

No licensee shall permit or allow passengers or employees to stand or ride on the running board, dash board, fender or any outside portion of the vehicle, nor shall a licensee permit any

passenger to stand in such a position that the licensee's vision forward or to the right front or left is blocked.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2014-914, § 10, 10-8-2014)

Sec. 46-352. Jitney equipment.

(a) It shall be unlawful for any person to drive or operate or cause to be driven or operated any jitney that is not marked in a manner and location approved by the director and equipped as provided in this section.

(b) No licensee or permittee shall drive or cause to be driven any jitney in the city until the permittee has filed with the director, for approval, the color scheme that he proposes to use in conjunction with the provision of the jitney service. In approving or disapproving the color scheme submitted, the director shall consider:

(1) The color scheme presently in use by the permittee, if any;

(2) The color schemes of other permittees; and

(3) Which permittee first used or requested approval of the color scheme.

(c) If the color scheme is approved, the permittee shall, within 15 days, deliver to the director a color photograph, of a size and kind to be approved by the director, of a jitney of his color scheme, and he shall not change the color scheme without approval of the director.

(d) Additionally, each jitney shall:

(1) Have no taximeter;

(2) Have the word "jitney" painted on each side of the vehicle in black in letters at least six inches tall with a brush stroke width of at least one inch;

(3) Have the following signage in letters not less than three inches in length nor less than 5/16 of an inch in brush stroke and of contrasting color to the background:

a. The name and telephone number of the permittee on both front doors;

b. The telephone number of the permittee on the rear deck or trunk lid;

c. The permit number on the right side of the trunk or rear deck and the right side of the hood; and

d. The current zone and rate structure for each shall be posted in a conspicuous manner in the interior of the vehicle so as to be clearly visible and understood by all passengers. In the event one jitney services multiple zones, a changeable electronic or analog sign may indicate the zone the vehicle is currently servicing.

(4) Have a dashboard-mounted holder of a type approved by the director in which shall be mounted the operator's license, a photograph of the operator and one set of rate and zone cards approved by the director under section 46-340 of this Code; and

(5) Have a radio, mobile telephone or other means of two-way communication that may be used to request assistance in the event of an emergency.

The information required in items (2) and (3) above shall be painted upon the vehicle, provided that the director may allow the street name or zone name information only to be posted upon a magnetic sign or other removable sign of durable materials.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2014-914, § 11, 10-8-2014; Ord. No. 2016-736, § 31, 10-5-2016)

Sec. 46-353. Age of vehicle.

(a) No licensee or permittee shall drive or operate or cause to be driven or operated any jitney that is more than 15 years old. For purposes of this requirement, a jitney is considered to be 15 years old on the 31st day of May of the 15th year following the manufacturer's model year of the jitney, regardless of the date of its original purchase or the date it was first placed into service.

(b) A permittee or licensee may drive or cause to be driven a jitney beyond the age limitations prescribed in subsection (a) of this section provided:

(1) The licensee or permittee submits the jitney for inspection at a location authorized and identified by the director

prior to the expiration of the permit issued authorizing the operation of the jitney; and

(2) The vehicle is determined to be in compliance with the provisions of section 46-337 of this Code and any other conditions of operation prescribed by the director.

(c) A permittee or licensee may initially submit a vehicle into service beyond the age limitations prescribed in subsections (a) and (b) of this section, provided:

(1) The licensee or permittee submits the jitney for inspection at a location authorized and identified by the director; and

(2) The vehicle is determined to be in compliance with the provisions of section 46-337 of this Code and any other conditions of operation prescribed by the director.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 43a, 10-14-2015; Ord. No. 2021-804, § 21, 9-15-2021)

Sec. 46-354. Operating requirements.

(a) It shall be the duty of the licensee to ensure that his jitney is operated in accordance with this section.

(b) Solicitation of passengers is unlawful. However, a licensee may indicate available space by gesture from within the jitney and may stop when flagged or hailed by a potential passenger.

(c) No jitney shall stop or stand to pick up or discharge any passenger in a taxicab zone.

(d) No jitney shall stop or stand to pick up or discharge any passenger at any place that is not upon the streets and highways designated upon the zone.

(e) No jitney shall stop or stand upon the public streets or other public property, except as required to comply with lawful traffic control devices and to discharge and pick up passengers.

(f) Additional passengers shall have the right to utilize the jitney up to the manufacturer's rated seating capacity.

(g) A log shall be maintained within each jitney in a form prescribed by the director setting forth the hours of work of each licensee. A licensee shall not operate a jitney for more than 12 hours in any consecutive 24-hour period and a permittee shall not allow or cause any licensee to drive a vehicle in operation as a jitney more than 12 hours in any consecutive 24-hour period. Each permittee shall maintain the log for a period of six months and shall make the same available for inspection or copying upon request at the offices of the director.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2016-736, § 32, 10-5-2016)

Sec. 46-355. Inspection.

The director may inspect any jitney and any records or documents required to be carried in or upon the jitney at any time upon presentation of identification to the driver in order to determine operation in compliance with the provisions of this article and the regulations adopted hereunder by the director.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Secs. 46-356—46-370. Reserved.

ARTICLE VII. LOW-SPEED SHUTTLES

DIVISION 1. GENERALLY

Sec. 46-371. Definitions.

When used in this article, the following words and terms shall have the meanings provided in this section, unless the context of their usage clearly indicates another meaning:

License means a current and valid low-speed shuttle driver's license issued pursuant to division 2 of article I of this chapter.

Licensee means any person in engaged in the act of driving a low-speed shuttle who is the holder of a current and valid low-speed shuttle driver's license.

Low-speed shuttle means a motorized non-fossil fuel powered vehicle with a seating capacity of four to eight passengers, including the driver, that has an attainable speed of more than 20 miles per hour and not more than 25 miles per hour on a paved level surface, conforms to Federal Motor Vehicle Safety Standard 500 (49 C.F.R. Section 571.500), and is used to transport passengers for hire. The term does not include:

(1) A vehicle modified after its original manufacture to meet the speed requirements or safety equipment requirements contained in 49 C.F.R. Section 571.500;

(2) A moped, motorcycle, or tractor;

(3) An electric bicycle or motor-driven cycle, as defined by § 541.201 of the Transportation Code;

(4) A motorized mobility device, as defined by § 542.009 of the Transportation Code;

(5) An electric personal assistive mobility device, as defined by § 551.201 of the Transportation Code; or

(6) A motor-assisted scooter, as defined in § 551.351 of the Transportation Code.

Low-speed shuttle service means the business of transporting passengers for hire by means of a low-speed shuttle. Specifically excluded from this definition are:

(1) Vehicles used in connection with any phase of a funeral or funeral service;

(2) Taxicabs, pedicabs, jitneys, sightseeing and charter vehicles, and chauffeured limousines permitted and licensed by the city; and

(3) Vehicles operating under a contract with the city.

Permit means a permit to operate a low-speed shuttle service pursuant to this article.

Permittee means any person, partnership, corporation, firm, joint venture, limited liability company, association, organization and any other entity holding a permit issued pursuant to this article.

Zone means the geographic area in which the low-speed shuttle will generally operate, as filed with the director in accordance with section 46-400 of this Code.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2019-669, § 45, 9-4-2019; Ord. No. 2022-387, § 7, 5-18-2022)

Sec. 46-372. Reserved.

Sec. 46-373. Article cumulative.

This article is cumulative of all other applicable laws and ordinances. Without limitation, this article is expressly made cumulative of division 3 of article II of chapter 9 of this Code. The director shall not approve a zone that involves the operation of a low-speed shuttle upon any airport terminal complex unless the permittee has first obtained an airport use permit for use of low-speed shuttles within that zone.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Secs. 46-374—46-390. Reserved.

DIVISION 2. PERMITS AND LICENSES

Sec. 46-391. Permit required.

(a) It shall be unlawful for any person to operate a low-speed shuttle service without first obtaining a permit pursuant to the terms of this division.

(b) Each applicant for a permit required by this division must:

(1) Have no conviction of an offense stated in subsection (c) of section 1-10 of this Code;

(2) Identify the make, model, manufacturer's rated seating capacity and vehicle identification number for each vehicle to be used as a low-speed shuttle;

(3) Identify the proposed zone(s) where the applicant desires to operate the low-speed shuttle service;

(4) Provide proof of insurance pursuant to the requirements of this article;

(5) If a natural person:

a. Be 18 years of age or older; and

b. Hold a current and valid class A, B, or C Texas driver license; and

(6) Provide evidence that the applicant has a place of business within the metropolitan area from which the applicant's low-speed shuttle service will be operated and that such use of the location is in compliance with any applicable deed restrictions; and

(7) Provide any other information reasonably requested by the director for administration of this article.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2021-804, § 22, 9-15-2021; Ord. No. 2025-1050, § 33, 12-17-2025)

Sec. 46-392. License required.

It shall be unlawful for any person to operate low-speed shuttle without a license issued pursuant to this chapter.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-393. Fees.

There shall be a nonrefundable application processing fee in the amount stated for this provision in the city fee schedule payable upon the filing of an application for a permit.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-394. Annual permit fee.

(a) The annual permit fee in the amount stated for this provision in the city fee schedule per low-speed shuttle shall be paid in advance to the department of administration and regulatory affairs on or before June 1 of each year.

(b) There shall be no fee for the replacement of a low-speed shuttle with another low-speed shuttle.

(c) Reserved.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 33, 10-14-2015; Ord. No. 2019-669, § 46, 9-4-2019)

Sec. 46-395. Application.

(a) Each person desiring to obtain a permit shall apply on forms provided by the director and shall include all information required by this article.

(b) Each permit applicant (including the proprietor if a proprietorship, each partner if a partnership, or each corporate officer or director if a corporation) shall appear at a location specified by the director for identification and fingerprinting to determine the existence of any conviction of any applicable offense(s) set forth in subsection (c) of section 1-10 of this Code. If any conviction exists, the director shall follow the procedures set forth in section 1-9 of this Code and conduct a hearing if timely requested.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 34, 10-14-2015)

Sec. 46-396. Review.

(a) Following review of the application, the director shall provide the applicant with written notification of the approval or denial of the requested permit. The director shall initially review each application for issuance or amendment of a permit to determine whether the application is complete and all required information has been provided. If not, the application shall be returned, and the applicant shall be so advised.

(b) The submission of any false information or a materially incomplete application, including but not limited to an applicant's failure to provide any information reasonably requested by the director, shall be grounds for denial of the application. In the event of denial, the applicant shall be given written notice of the basis for such action. The applicant shall be entitled to appeal a decision based, in whole or in part, upon section 1-10 of this Code. Notice of any denial shall comply with section 1-9 of this Code and applicable state laws.

(c) If the application is denied on the basis of the applicant's failure to satisfy any other requisites stated in this division, the applicant may request a hearing by submitting a written notice of appeal to the director within 15 business days following the date the director's decision is deposited in the United States Mail. An informal hearing shall be conducted by an impartial hearing officer who shall render a decision within 30 business days from the date of the filing of the appeal. At the hearing, the burden shall be upon the applicant to demonstrate that he is entitled to the permit.

(d) If the reason for the denial of an application is curable, the director shall allow the applicant, upon a written request, to submit an amendment within the time allowed in subsections (b) and (c) for an appeal, in lieu of filing of an appeal. If the application is again denied, the applicant shall still be entitled to file an appeal within 15 business days following the date the director's decision regarding the amended application is deposited in the United States Mail.

(e) Following approval of an application for a permit, the actual permit shall not be issued until the applicant has provided the make, model, manufacturer's seating capacity and vehicle identification number of each low-speed shuttle, if not provided with the application, and has paid the annual permit fee, obtained a certification decal, provided proof of insurance, provided proof of ownership or lease of each low-speed shuttle, and filed and received approval of all requested zones and rate data for each low-speed shuttle with the director.

(f) The director shall promulgate regulations and procedures for any required hearings which shall be consistent with sections 1-9 and 1-10 of this Code and applicable state laws.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-397. Vehicle inspection; fee.

(a) It shall be unlawful for any person to operate or cause to be operated any low-speed shuttle, unless the low-speed shuttle has been inspected as required in this section and has a current and valid certification decal affixed thereto. There shall be a non-refundable vehicle inspection fee stated for this provision in the city fee schedule per low-speed shuttle. All low-speed shuttles shall be maintained in a safe and sanitary condition and shall be thoroughly cleaned and disinfected at least once in each 24-hour period.

(b) Each low-speed shuttle shall be inspected before it is initially placed into service and thereafter before June 1 of each year at such location as the director may specify. The director shall approve the low-speed shuttle if he determines that:

(1) The low-speed shuttle has current Texas registration stickers for both safety and air quality, if applicable;

(2) The low-speed shuttle is of the approved color scheme and is marked as provided in section 46-423 of this Code;

(3) The low-speed shuttle is in generally sound working condition with no apparent safety-related defects, including inspection or testing of the speedometer, odometer, horn, windshield wipers, mirrors, steering, service brake, parking brake, tires, high beam indicator, tail lamp, stop lamps, license plate lamp, rear reflectors, turn signal lamps and headlamps;

(4) The low-speed shuttle has a lap or lap/shoulder seat belt for the driver and for each passenger seating space to the extent the vehicle is so equipped by the manufacturer;

(5) The low-speed shuttle has no seats that have been added in excess of the manufacturer's specifications; and

(6) The low-speed shuttle complies with all other requirements of this article.

(c) Upon the satisfactory completion of the inspection, the director shall issue and permanently affix a certification decal to the lower right portion of the windshield of the low-speed shuttle. In any prosecution under this section, it shall be presumed that a low-speed

shuttle has not been inspected as required in this section unless it has a current and valid certification decal affixed thereto.

(d) Replacement certification decals shall be provided only upon reinspection of the low-speed shuttle.

(e) The director may inspect any low-speed shuttle and any records or documents required to be carried in or upon the low-speed shuttle at any time upon presentation of identification to the driver in order to determine operation in compliance with the provisions of this article and the regulations adopted hereunder by the director.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2025-1050, § 34, 12-17-2025)

Sec. 46-398. Insurance.

(a) Before any permit shall be issued, or before renewal of any permit shall be granted, the applicant shall file proof of insurance coverage evidencing insurance coverage complying with the requirements contained in subsection (b) below or give proof that he is qualified as self-insured, including a certificate of self-insurance issued pursuant to the Texas Motor Vehicle Safety Responsibility Act as now in force or hereafter amended.

(b) The insurance required in subsection (a) shall be in the form of commercial auto liability coverage in an amount not less than $500,000.00 combined single limit per occurrence issued by either a company listed as an authorized auto liability lines carrier on the Texas Department of Insurance's List of Authorized Insurance Companies or a surplus lines insurer listed on the Texas Department of Insurance's List of Eligible Surplus Lines Insurance Companies. The eligible surplus lines insurance company is required to have a Best's Rating of at least B+ and a Best's Financial Size Category of Class VI or better according to the most current edition of Best's Key Rating Guide, Property-Casualty, United States. Additionally, the policy must include an endorsement requiring 30 days' written notice of termination or cancellation to the director and an endorsement requiring ten days' written notice of non-payment to the director. In the event that a policy terminates or is cancelled without replacement, then each permit to which it pertains shall be suspended, and those low-speed shuttles may not be operated. If a proper replacement policy is not provided to the director on or before the tenth business day after the date of termination or cancellation of the policy, the permit shall automatically terminate. Proof of the insurance required in this subsection shall be carried by licensees at all times while operating a low-speed shuttle and shall be accepted only in the authorized form approved by the Texas Department of Insurance for that purpose.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 35, 10-14-2015)

Sec. 46-399. Authorized operators.

No low-speed shuttle shall be operated by anyone except the permittee or an employee of the permittee or other person who may be operating the low-speed shuttle under a written agreement specifically incorporating therein any rules, regulations, and conditions as may be reasonably required by the director to ensure compliance with applicable laws and regulations. The permittee shall be responsible for any person operating under his permit whether the person is an employee or is a person operating under a written agreement. Any person operating a low-speed shuttle on the streets or other public property of the city is presumed to be an employee of the permittee or to have entered into a written agreement with the permittee. Any person operating a low-speed shuttle on the streets or other public property of the city shall be required to secure a license pursuant to this article.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-400. Rate structure and fares; zones.

(a) Each low-speed shuttle shall be operated within a zone that has been filed with the director. The permittee shall also file with the director the rate structure or fares to be in effect for each zone. The permittee may file two or more operating zones for the same low-speed shuttle.

(b) The permittee shall submit all proposed zones for review and approval by the director. Rates and zones may be amended periodically. Zones shall not be exclusive. The applicable fees stated for this provision in the city fee schedule shall be imposed for each zone, per low-speed shuttle and for the amendment of all zone information submitted to the director. Each zone application that involves use of airport facilities shall be accompanied by the proof required under section 46-373 of this Code.

(c) Approved zones and all rate information, including compensation by gratuity only, for each low-speed shuttle shall be conspicuously posted on each side of the vehicle in a manner and location approved by the director. The director may assign zone numbers and may assign different colors to signify rate amounts.

(d) It shall be unlawful for a licensee or permittee while in service with any passenger for hire on board to deviate from the zone as filed with the director for that low-speed shuttle.

(e) It shall be unlawful for a licensee or permittee to impose a rate structure or collect a fare other than as filed with the director.

(f) It shall be unlawful to drive or operate or cause to be driven or operated any low-speed shuttle without the current structure or fare posted as provided by the director.

(g) Following notice and a hearing, the director may cancel, alter, or amend any zone authorized in error.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-997, § 36, 10-14-2015)

Sec. 46-401. Receipt for payment of fare.

No licensee, upon receiving full payment for a fare as authorized by this article, shall refuse to provide a receipt upon the request of any passenger making a payment. The permittee of the low-speed shuttle shall make available to each licensee a receipt book or other electronic instrument capable of creating a record to be used for this purpose.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-402. Transfer; nonexclusive.

(a) A permit is personal to the permittee to whom it is issued and may not be leased, rented, sold, transferred or conveyed by operation of law or otherwise. Provided, any change of proprietor, change of partnership interests or change of corporate officer or director as shown on the permit application shall render a permit void, unless an application for transfer is filed within ten days following the effective date of the change. The director shall promulgate procedures for the processing of amendments and may suspend the permit(s) pending the completion of the processing if any additional person who has acquired an interest in the business is determined to have been convicted of an applicable offense as provided in subsection (c) of section 1-10 of this Code. The fee for filing an amended application shall is stated for this provision in the city fee schedule.

(b) Each permit is nonexclusive, and no limits or restrictions shall exist upon the number of low-speed shuttles that may be permitted, provided that each must be operated pursuant to a permit and in accordance with all applicable requirements of this article.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-403. Permit terms.

(a) A permit shall be valid for five years from the date of issuance.

(b) In accordance with regulations promulgated by the director, a permit may be amended, without charge, for the limited purpose of adding, deleting or substituting any number of low-speed shuttle vehicles; provided however, the addition, deletion, or substitution of any low-speed shuttles pursuant to a current and valid permit shall require an inspection as provided for in section 46-397 of this Code, including the payment of the inspection fee.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Secs. 46-404—46-420. Reserved.

DIVISION 3. LOW-SPEED SHUTTLE OPERATING REQUIREMENTS

Sec. 46-421. Operating restrictions.

(a) It shall be unlawful for a licensee or permittee to operate or cause to be operated any low-speed shuttle in a zone that has not approved by the director or on any roadway in the city where the posted speed limit exceeds 35 miles per hour, except for the purpose of crossing that roadway. It shall be unlawful for a low-speed shuttle to be operated on a roadway at a speed that exceeds the lesser of the posted speed limit or 25 miles per hour.

(b) It shall be unlawful for a licensee or permittee to operate or cause to be operated any low-speed shuttle upon any portion of a public sidewalk except as necessary to access locations immediately adjacent to a roadway through the use of points of ingress and egress made available for use by motor vehicles operating in compliance with all applicable traffic laws.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-422. Licensee conduct.

No licensee shall permit or allow passengers or employees to stand or ride on the running board, dash board, fender or any outside portion of the vehicle, nor shall a licensee permit any passenger to stand in such a position that the licensee's vision forward or to the side is blocked.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2014-914, § 12, 10-8-2014)

Sec. 46-423. Low-speed shuttle equipment.

(a) It shall be unlawful for any person to drive or operate or cause to be driven or operated any low-speed shuttle that is not marked in a manner and location approved by the director and equipped as provided in this division.

(b) No licensee or permittee shall drive or cause to be driven any low-speed shuttle in the city until the permittee has filed with the director, for approval, the color scheme that he proposes to use in conjunction with the provision of the low-speed shuttle service. In approving or disapproving the color scheme submitted, the director shall consider:

(1) The color scheme presently in use by the permittee, if any;

(2) The color schemes of other permittees; and

(3) Which permittee first used or requested approval of the color scheme.

(c) If the color scheme is approved, the permittee shall, within 15 days, deliver to the director a color photograph, of a size and kind to be approved by the director, of a low-speed shuttle of his color scheme, and the permittee shall not change the color scheme without approval of the director.

(d) Additionally, each low-speed shuttle shall:

(1) Have no taximeter;

(2) Have the following signage in letters not less than three inches in length nor less than 5/16 of an inch in brush stroke and of contrasting color to the background:

a. The name and telephone number of the permittee and rate structure on its exterior;

b. The telephone number of the permittee on the rear deck or trunk lid;

c. The permit number on the right side of the trunk or rear deck, the right side of the hood, and on each side of the vehicle; and

d. The zone name below the permit number on each side of the vehicle. In the event one low-speed shuttle serves multiple zones, a changeable electronic or analog sign shall indicate the zone the vehicle is currently serving. The current zone and rate structure or fare for each low-speed shuttle must be posted in a conspicuous manner in the interior of the vehicle so as to be clearly visible and understood by all passengers;

(3) Have a dashboard-mounted holder of a type approved by the director in which

shall be mounted the operator's license, a photograph of the operator, and the telephone numbers of the director and the permittee for complaint purposes regarding low-speed shuttle services or charges, including instructions that if the passenger wishes to file a complaint, he should obtain the low-speed shuttle permit number as posted on the low-speed shuttle, date, time, destination, and fare charged. The director shall approve the size of the print, the colors, and the information to be provided so that the information may be easily read by passengers; and

(4) Have a radio, mobile telephone or other means of two-way communication that may be used to request assistance in the event of an emergency.

The information required in item (2) above shall be painted upon the vehicle, provided that the director may allow the zone information only to be posted upon a magnetic sign or other removable sign of durable materials.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-424. Age of vehicle.

No person shall drive or operate or cause to be driven or operated any low-speed shuttle that is more than 15 years old. For purposes of this requirement, a low-speed shuttle is considered to be 15 years old on the 31st of May of the 15th year following the manufacturer's model year of the low-speed shuttle, regardless of the date of its original purchase or the date it was first placed into service.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2019-669, § 47, 9-4-2019; Ord. No. 2021-804, § 23, 9-15-2021)

Sec. 46-425. Carrying additional passengers.

Any passenger who engages the services of a low-speed shuttle shall have the exclusive right to the passenger compartment of the low-speed shuttle, and it shall be unlawful for a licensee to carry additional passengers unless specific permission is obtained from the passenger who originally engaged the low-speed shuttle.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-426. Operating requirements.

(a) It shall be the duty of the licensee to ensure that his low-speed shuttle is operated in accordance with this section.

(b) It shall be unlawful for a licensee to seek or solicit a passenger or passengers in an attempt to engage the services of a low-speed shuttle.

(c) It shall be unlawful for a low-speed shuttle to stop or stand to pick up or discharge any passenger in a taxicab zone or any other area designated for other categories of vehicles. It shall be the duty of each licensee when loading or unloading passengers to pull the low-speed shuttle to the curb and ensure that the low-speed shuttle does not impede normal vehicular and pedestrian movement.

(d) It shall be unlawful for a low-speed shuttle to stop or stand to pick up or discharge any passenger at any place that is not on a street or roadway with a zone submitted to and approved by the director.

(e) It shall be unlawful for a low-speed shuttle to stop or stand upon the public streets or other public property, except as required to comply with lawful traffic control devices and to discharge and pick up passengers.

(f) A log shall be maintained for each low-speed shuttle in a form prescribed by the director setting forth the hours of work of each licensee. A licensee shall not operate a low-speed shuttle for more than 12 hours in any consecutive 24-hour period and a permittee shall not allow or cause any licensee to drive a vehicle in operation as a low-speed shuttle more than 12 hours in any consecutive 24-hour period. Each permittee shall maintain the log for a period of six months and shall make the same available for inspection or copying upon request at the offices of the director.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-427—46-450. Reserved.

ARTICLE VIII. MOBILE DISPATCH SERVICES

Sec. 46-451. Definitions.

When used in this article, the following words and terms shall have the meanings provided in this section, unless the context of their usage clearly indicates another meaning:

Certificate of registration means a current and valid certificate of registration issued by the director under this article to the owner or operator of a mobile dispatch service.

Mobile dispatch service means the operation of a scheduling service that enables prospective passengers to request pre-arranged transportation services offered or provided for compensation from qualified vehicles for hire using an internet-enabled application or digital platform to send or transmit an electronic, radio or telephonic communication through the use of a portable or handheld device, monitor, smartphone, or other electronic device or unit that indicates the location of the passenger which information is then relayed to a qualified vehicle for hire by radio or data communication of any type.

Qualified vehicles for hire means vehicles for hire authorized to provide such transportation services pursuant to all articles of this chapter except article V.

Registrant means a person holding a current and valid certificate of registration for a mobile dispatch service under this article and includes all owners and operators of the mobile dispatch service identified in the registration application filed under this article.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2015-998, § 5, 10-14-2015; Ord. No. 2016-736, § 33, 10-5-2016; Ord. No. 2019-669, § 48, 9-4-2019)

Sec. 46-452. Registration required.

(a) Each mobile dispatch service shall register with the city on a form prescribed by the director and shall maintain and provide to the director current and accurate records of all qualified vehicles for hire providing vehicle for hire transportation services through the use of the mobile dispatch service.

(b) A person commits an offense if the person operates a mobile dispatch service without a current and valid certificate of registration.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-453. Use of valid permittees and licensees required.

(a) Each mobile dispatch service shall be responsible for ensuring that any driver assigned to provide vehicle for hire transportation services and any vehicle used in the rendition of the transportation services are duly licensed and permitted, respectively, to provide the transportation service pursuant to the applicable provisions of this chapter.

(b) Upon request, a mobile dispatch service shall make available to the director its records of all qualified vehicles for hire and drivers assigned to provide vehicle for hire transportation services. The provisions of this article applicable to the submission of information to the director shall be cumulative of the provisions of section 46-11 of this Code.

(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-454. Registration—Form.

(a) To obtain a certificate of registration, a mobile dispatch service shall furnish the following information on a form provided for that purpose by the director, which shall be sworn to before a notary public or conform to minimum state law requirements for unsworn declarations:

(1) The name and form of business under which the service will be operated (If a partnership or corporation, a copy of the partnership agreement or articles of incorporation must be attached.);

(2) The name, phone number, street address, and mailing address (if different from the street address) of the applicant's agent for service of legal process (which information the registrant shall always keep current);

(3) A list of all current licensees and permittees providing vehicle for hire transportation services through the use of the mobile dispatch service and updated to the director on a quarterly basis;

(4) The name, phone number, street address, mailing address (if different from the street address), and e-mail address of the applicant's customer service liaison;

(5) The proposed schedule of fares, rates, or other compensation to be charged by the applicant; and

(6) Any additional information as requested by the director for the administration of this division.

(b) The following shall join in the filing of the application for a certificate of registration:

(1) Each partner if the applicant is a partnership;

(2) Each associate if the applicant is an association; or

(3) Each person who is either an officer or director if the applicant is a corporation.

(c) An applicant or registrant shall notify the director within ten days of any change in associates, partners, officers, or directors of the business applying for or holding a certificate of registration issued pursuant to this article.

(d) An applicant shall have no criminal history that is disallowed under section 1-10 of this Code. Upon initial application for a certificate of registration and upon the request for the renewal thereof, the director shall cause each applicant's criminal history to be researched. The applicant shall complete any forms required for the director to obtain the applicant's criminal history and shall bear the cost of any fees imposed by state or federal agencies providing the criminal history information. This requirement shall not be construed to preclude the director from obtaining interim criminal history information at the expense of the city.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2025-1050, § 35, 12-17-2025)

Sec. 46-455. Certificate of registration issuance procedure.

(a) The director shall initially review each application for issuance of a certificate of registration to determine whether the application is complete and all required information has been provided. If not, the director shall return the application to the applicant with a statement of deficiencies.

(b) The director shall review completed applications to determine whether the applicant has met all applicable requirements of this article and section 1-10 of this Code. If so, the director shall issue to the applicant a certificate of registration. If, based upon the review, the director determines that one or more requirements may not have been met, the director shall afford the applicant the right to a hearing before acting on the application.

(c) Prior to the denial of an application for a certificate of registration, the director shall give the applicant written notice of the grounds for denial. If the reason for the denial of an application is curable, the director shall allow the applicant, upon the applicant's request, to submit an amendment within the time allowed for an appeal, in lieu of filing of an appeal. If the application is again denied, the applicant shall still be entitled to file an appeal within 15 business days following the date that notice of the director's decision regarding the amended application is deposited in the United States Mail, addressed to the applicant. Where the grounds for denial are based in whole or in part upon section 1-10 of this Code, the hearing shall conform to the requirements of section 1-9 of this Code with respect to those grounds.

(d) A certificate of registration does not entitle the permittee to act as the driver of covered vehicles. A separate license is required for that purpose.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-456. Expiration and renewal of certificate of registration.

(a) A certificate of registration issued pursuant to this article shall be valid for five years from the date of issuance.

(b) Except as provided in subsection (c) of this section, a licensee or permittee shall not drive or cause to be driven upon the streets of the city any wheelchair accessible vehicle that is more than 15 years old. For the purposes of this requirement, a wheelchair accessible vehicle will be considered to be 15 years old on September 30th of the 15th year following the manufacturer's

model year of the vehicle, regardless of the purchase date or the date it was originally placed into service.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014; Ord. No. 2016-736, § 34, 10-5-2016; Ord. No. 2021-804, § 25, 9-15-2021)

Sec. 46-457. Display of fare rates.

All registrants shall display their fare rates and provide a fare rate estimator on the website, internet-enabled application, or digital platform used by the registrant to connect passengers to qualified vehicles for hire.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-458. Certificate of registration; non-transferability.

(a) A certificate of registration is specific to the registrant to whom it is issued and may not be transferred or otherwise assigned.

(b) Each certificate of registration is nonexclusive, and no limits or restrictions shall exist upon the number of qualified vehicles for hire that may provide vehicle for hire transportation services through a mobile dispatch service provided that each vehicle must be operated pursuant to a permit and in accordance with all applicable requirements of this article. The director shall promulgate procedures for the processing of amendments and may suspend the certificate of registration pending the completion of the processing if any additional person who has acquired an interest in the business is determined to have been convicted of an offense listed in section 1-10(c) of this Code.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-459. Violations; penalty.

(a) A person who violates a provision of this article, or who fails to perform an act required of the person by this article, commits an offense. A person commits a separate offense for each and every violation relating to the operation of a mobile dispatch service, and for each day during which a violation is committed, permitted, or continued.

(b) An offense under this article is punishable as provided in section 1-6 of this Code and the city may enforce the provisions of this article through any other means prescribed in this chapter.
(Ord. No. 2014-754, § 2(Exh. A), 8-6-2014)

Sec. 46-460—46-500. Reserved.

ARTICLE IX. RESERVED*

Secs. 46-501—46-540. Reserved.

ARTICLE X. WHEELCHAIR ACCESSIBLE SERVICE PROVIDERS

Sec. 46-541. Scope.

The provisions of this article shall not apply to wheelchair accessible vehicles for hire operated in accordance with a permit issued pursuant to another article of this chapter.
(Ord. No. 2015-998, § 6(Exh. A), 10-14-2015)

Sec. 46-542. Definitions.

When used in this article, the following words and terms shall have the meanings provided in this section, unless the context of their usage clearly indicates another meaning:

Wheelchair accessible service means a transportation service offered or provided to individuals with disabilities who require the use of a wheelchair on behalf of an entity that holds a valid permit or registration issued in accordance with another article of this chapter through a contractual relationship.

Wheelchair accessible service provider means an entity that contracts with another entity that holds a valid permit or registration in accordance with another article of this chapter to provide accessible service to the riding public.

*__Editor's note—__Ord. No. 2019-669, § 49, adopted September 4, 2019, repealed Ch. 46, Art. IX, §§ 46-501—46-516 in its entirety. Formerly said article pertained to transportation network companies and derived from Ord. No. 2014-754, § 2(Exh. A), 8-6-2014.

Wheelchair accessible vehicle driver means an individual affiliated with a wheelchair accessible service provider transporting passengers for compensation using a wheelchair accessible vehicle.

Wheelchair accessible vehicle means any wheelchair accessible motor vehicle that is equipped with a ramp or lift or has been constructed and designed or redesigned, modified, or equipped to provide wheelchair accessible service to persons with disabilities who require the use of a wheelchair as a means of movement or ability to move from one place to another. Specifically excluded from this definition are wheelchair accessible vehicles permitted and operated in compliance with articles II through IX of this chapter.

(Ord. No. 2015-998, § 6(Exh. A), 10-14-2015)

Sec. 46-543. Permit required.

(a) No person shall operate a wheelchair accessible service provider in the city without a permit issued pursuant to this article.

(b) It shall be unlawful for any wheelchair accessible service provider permitted, licensed or authorized by another jurisdiction to initiate wheelchair accessible service provider service within the corporate boundaries of the city without a permit issued pursuant to this article; provided however, a wheelchair accessible vehicle operated by a driver affiliated with a wheelchair accessible service provider permitted, licensed, or authorized by or in another jurisdiction may come into the city to discharge a passenger whose trip originated outside of the city.

(Ord. No. 2015-998, § 6(Exh. A), 10-14-2015)

Sec. 46-544. Wheelchair accessible service provider permit—Application and qualifications.

(a) Each person desiring to obtain a permit shall apply on forms provided by the director and shall include all information required by this article.

(b) Each permit applicant (including the proprietor if a proprietorship, each partner if a partnership, or each corporate officer or director if a corporation) shall appear at a location specified by the director for identification and fingerprinting to determine the existence of any conviction of any applicable offense set forth in subsection (c) of section 1-10 of this Code. If any conviction exists, the director shall follow the procedures set forth in section 1-9 of this Code and conduct a hearing if timely requested.

(c) Each applicant for a permit required by this article must:

(1) Have no conviction of an offense stated in subsection (c) of section 1-10 of this Code;

(2) Identify the make, model, manufacturer's rated seating capacity, current rated seating capacity, and vehicle identification number for each wheelchair accessible vehicle to be used as a vehicle for hire;

(3) Provide proof of insurance pursuant to the requirements of this article;

(4) Provide evidence that the applicant has a place of business within the metropolitan area from which the applicant's wheelchair accessible service will be operated and that such use of the location is in compliance with any applicable deed restrictions; and

(5) Provide any other information reasonably requested by the director for administration of this article.

(Ord. No. 2015-998, § 6(Exh. A), 10-14-2015; Ord. No. 2019-669, § 50, 9-4-2019; Ord. No. 2021-804, § 24, 9-15-2021)

Sec. 46-545. Review.

(a) Following review of the application, the director shall provide the applicant with written notification of the approval or denial of the requested permit. The director shall initially review each application for issuance or amendment of a permit to determine whether the application is complete and all required information has been provided. If not, the application shall be returned, and the applicant shall be so advised.

(b) The submission of any false information or a materially incomplete application, including but not limited to an applicant's failure to provide

any information reasonably requested by the director, shall be grounds for denial of the application. In the event of denial, the applicant shall be given written notice of the basis for such action. The applicant shall be entitled to appeal a decision based, in whole or in part, upon section 1-10 of this Code. Notice of any denial shall comply with section 1-9 of this Code and applicable state laws.

(c) If the application is denied on the basis of the applicant's failure to satisfy any other requisites stated in this division, the applicant may request a hearing by submitting a written notice of appeal to the director within 15 business days following the date the director's decision is deposited in the United States Mail. An informal hearing shall be conducted by an impartial hearing officer who shall render a decision within 30 business days from the date of the filing of the appeal. At the hearing, the burden shall be upon the applicant to demonstrate that he is entitled to the permit.

(d) If the reason for the denial of an application is curable, the director shall allow the applicant, upon a written request, to submit an amendment within the time allowed in subsections (b) and (c) for an appeal, in lieu of filing of an appeal. If the application is again denied, the applicant shall still be entitled to file an appeal within 15 business days following the date the director's decision regarding the amended application is deposited in the United States Mail.

(e) Following approval of an application for a permit, the actual permit shall not be issued until the applicant has provided the make, model, manufacturer's seating capacity and vehicle identification number of each wheelchair accessible vehicle, if not provided with the application, and has paid the annual permit fee, obtained a certification decal, provided proof of insurance, provided proof of ownership or lease of each wheelchair accessible vehicle.

(f) The director shall promulgate regulations and procedures for any required hearings which shall be consistent with sections 1-9 and 1-10 of this Code and applicable state laws.
(Ord. No. 2015-998, § 6(Exh. A), 10-14-2015)

Sec. 46-546. License required.

It shall be unlawful for any person to operate wheelchair accessible vehicle as a vehicle for hire without a license issued pursuant to division 2 of article I of this chapter.
(Ord. No. 2015-998, § 6(Exh. A), 10-14-2015)

Sec. 46-547. Annual permit fee.

(a) The fee for a permit under this article is stated for this provision in the city fee schedule and is payable per wheelchair accessible vehicle used as a vehicle for hire. Fees shall be paid in advance to the department of administration and regulatory affairs on or before October 1st of each year.

(b) There shall be no fee for replacement of a vehicle with another vehicle of equivalent capacity.

(c) In the event that a permit is issued after March 1, or in the event that an additional vehicle is placed into service after March 1, then an amount equal to ½ of the annual fee shall be payable for the balance of the annual fee period.
(Ord. No. 2015-998, § 6(Exh. A), 10-14-2015; Ord. No. 2016-736, § 36, 10-5-2016)

Sec. 46-548. Vehicle inspection.

(a) It shall be unlawful for any person to operate or cause to be operated any wheelchair accessible vehicle used as a vehicle for hire, unless such vehicle has been inspected as required in this section and has a current and valid certification decal affixed thereto. Each wheelchair accessible vehicle used as a vehicle for hire shall be maintained in a safe and sanitary condition and shall be thoroughly cleaned and disinfected at least once in each 24-hour period.

(b) Each wheelchair accessible vehicle used as a vehicle for hire shall be inspected before it is initially placed into service and thereafter before October 1 of each year at such location as the director may specify. The director shall approve the wheelchair accessible vehicle used as a vehicle for hire if he determines that:

(1) The wheelchair accessible vehicle used as a vehicle for hire has current Texas

registration sticker and the required Texas vehicle inspection documents for both safety and air quality, if applicable;

(2) The wheelchair accessible vehicle used as a vehicle for hire is in generally sound working condition with no apparent safety-related defects, including but not limited to, inspection or testing of the speedometer, odometer, horn, windshield wipers, mirrors, steering, service brake, parking brake, tires, high beam indicator, tail lamp, stop lamps, license plate lamp, rear reflectors, turn signal lamps and headlamps and any installed safety devices to assist with wheelchairs;

(3) The wheelchair accessible vehicle used as a vehicle for hire has a lap or lap/shoulder seat belt for the driver and for each passenger seating space to the extent the vehicle is so equipped by the manufacturer;

(4) The wheelchair accessible vehicle used as a vehicle for hire has no seats that have been added in excess of the manufacturer's specifications; the vehicle may have fewer seats than in the specifications to accommodate one or more wheelchairs, provided appropriate safety devices, including but not limited to tie-downs, a ramp, or a lift, are installed; and

(5) The wheelchair accessible vehicle used as a vehicle for hire complies with all other requirements of this article.

(c) Upon the satisfactory completion of the inspection, the director shall issue and permanently affix a certification decal to the lower right portion of the windshield of the wheelchair accessible vehicle used as a vehicle for hire. In any prosecution under this section, it shall be presumed that wheelchair accessible vehicle used as a vehicle for hire has not been inspected as required in this section unless it has a current and valid certification decal affixed thereto.

(d) Replacement certification decals shall be provided only upon reinspection of the wheelchair accessible vehicle used as a vehicle for hire.

(e) The director may inspect any wheelchair accessible vehicle used as a vehicle for hire and any records or documents required to be carried in or upon the wheelchair accessible vehicle used as a vehicle for hire at any time upon presentation of identification to the driver in order to determine operation in compliance with the provisions of this article and the regulations adopted hereunder by the director.
(Ord. No. 2015-998, § 6(Exh. A), 10-14-2015)

Sec. 46-549. Insurance.

(a) Notwithstanding any other provision of this article to the contrary, no permit shall become effective nor shall wheelchair accessible service be provided until the permittee has filed with the director the requisite proof of insurance insuring the general public against any loss or damage that may result to any person or property from the operation of a wheelchair accessible vehicle used as a vehicle for hire covered by the permit.

(b) The insurance required in subsection (a) shall be in a form of automobile liability coverage with limits of not less than $1,000,000.00 combined single limit per accident issued by either a company listed as an authorized auto liability lines carrier on the Texas Department of Insurance's List of Authorized Insurance Companies or a surplus lines insurer listed on the Texas Department of Insurance's List of Eligible Surplus Lines Insurance Companies. The eligible surplus lines insurance company is required to have a Best's Rating of at least B+ and a Best's Financial Size Category of Class VI or better according to the most current edition of Best's Key Rating Guide, Property-Casualty, United States.

(c) The insurance shall be for the protection of the passengers of wheelchair accessible vehicle used as a vehicle for hire as well as for the general public. The required insurance shall name the city as an additional insured. The policies issued under this section shall contain a provision for a continuing liability thereon up to

the full amount thereof, notwithstanding any recovery thereon, and a provision requiring that 30 days written notice shall be given the city before cancellation of the policy is effective.

(d) If any insurer desires to be released from any insurance policy filed under this section, he may do so by giving written notice to the director at least 30 days before he desires to be released from liability. The director shall thereupon give written notice to the permittee and demand that the permittee furnish evidence of new insurance obtained before the expiration of the policy.

(e) If any policy is cancelled as herein provided, or expires and no new policy is filed by the permittee before the cancellation or expiration of the original insurance, the permit shall automatically be suspended, and the permittee shall discontinue the operation of the affected vehicles within the city. If a proper replacement policy is not provided to the director on or before the tenth business day after the date of termination or cancellation of the policy, the license shall automatically terminate.

(f) Proof of coverage shall be accepted only in the authorized form approved by the Texas Department of Insurance for that purpose.
(Ord. No. 2015-998, § 6(Exh. A), 10-14-2015)

Sec. 46-550. Authorized operators.

No wheelchair accessible vehicle used as a vehicle for hire shall be operated by anyone other than the permittee or an employee of the permittee or other person who may be operating the wheelchair accessible vehicle under a written agreement specifically incorporating therein any rules, regulations, and conditions as may be reasonably required by the director to ensure compliance with applicable laws and regulations. The permittee shall be responsible for any person operating under his permit whether the person is an employee or is a person operating under a written agreement. Any person operating a wheelchair accessible vehicle as a vehicle for hire on the streets or other public property of the city is presumed to be an employee of the permittee or to have entered into a written agreement with the permittee. Any person operating a wheelchair accessible vehicle as a vehicle for hire on the streets or other public property of the city shall be required to secure a license pursuant to article I of this chapter
(Ord. No. 2015-998, § 6(Exh. A), 10-14-2015)

Sec. 46-551. Receipt for payment of fare.

No licensee, upon receiving full payment for a fare as authorized by this article, shall refuse to provide a receipt upon the request of any passenger making a payment. The permittee shall make available to each licensee a receipt book or other electronic instrument capable of creating a record to be used for this purpose.
(Ord. No. 2015-998, § 6(Exh. A), 10-14-2015)

Sec. 46-552. Permit amendment; nonexclusive.

(a) A permit is personal to the permittee to whom it is issued and may not be leased, rented, sold, transferred or conveyed by operation of law or otherwise. Provided, any change of proprietor, change of partnership interests or change of corporate officer or director as shown on the permit application shall render a permit void, unless an application for amendment is filed within ten days following the effective date of the change. The director shall promulgate procedures for the processing of amendments and may suspend the permit(s) pending the completion of the processing if any additional person who has acquired an interest in the business is determined to have been convicted of an applicable offense as provided in subsection (c) of section 1-10 of this Code.

(b) Each permit is nonexclusive, and no limits or restrictions shall exist upon the number of wheelchair accessible vehicles used as a vehicle for hire that may be permitted, provided that each must be operated pursuant to a permit and in accordance with all applicable requirements of this article.
(Ord. No. 2015-998, § 6(Exh. A), 10-14-2015)

Sec. 46-553. Permit terms.

(a) A permit shall be valid for five years from the date of issuance.

(b) In accordance with regulations promulgated by the director, a permit may be amended, without charge, for the limited purpose of deleting or substituting any number of wheelchair accessible vehicles used as a vehicle for hire; provided however, the deletion or substitution of any wheelchair accessible vehicle used as a vehicle for hire pursuant to a current and valid permit shall require an inspection as provided for in section 46-548 of this Code.
(Ord. No. 2015-998, § 6(Exh. A), 10-14-2015; Ord. No. 2016-736, § 37, 10-5-2016)

Sec. 46-554. Street hails prohibited.

It shall be unlawful for a wheelchair accessible vehicle driver to accept or respond to a passenger's or potential passenger's request for service via traditional street hail, including hand gestures and verbal statements. A wheelchair accessible service provider shall immediately notify the department of administration and regulatory affairs and provide any evidence in its possession if it obtains actual knowledge of any violation of this subsection.
(Ord. No. 2015-998, § 6(Exh. A), 10-14-2015; Ord. No. 2019-669, § 51, 9-4-2019)

Sec. 46-555. Rates.

A wheelchair accessible service provider may not charge rates that differ from rates approved for like service under another article of this chapter. The pricing established for wheelchair accessible service must be equivalent to the pricing for non-accessible service provided to the general public by the entity that holds the current and valid permit or registration issued in accordance with another article of this chapter.
(Ord. No. 2015-998, § 6(Exh. A), 10-14-2015; Ord. No. 2019-669, § 51, 9-4-2019)

Sec. 46-556. Vehicle age and standards.

(a) Each wheelchair accessible vehicle must be a ramp- or lift-equipped wheelchair accessible vehicle or a vehicle constructed and designed or redesigned, modified, or equipped to provide vehicle for hire transportation services to persons with disabilities who require the use of a wheelchair as a means of movement or ability to move from one place to another.

(b) Except as provided in subsection (c) of this section, a licensee or permittee shall not drive or cause to be driven upon the streets of the city any wheelchair accessible vehicle that is more than 15 years old. For the purposes of this requirement, a wheelchair accessible vehicle will be considered to be 15 years old on September 30th of the 15th year following the manufacturer's model year of the vehicle, regardless of the purchase date or the date it was originally placed into service.

(c) A licensee or permittee may drive or cause to be a driven a wheelchair accessible vehicle indefinitely beyond the age limitation prescribed in subsection (b) of this section provided the licensee or permittee submits the wheelchair accessible vehicle for inspection each year, at a location authorized and identified by the director prior to the expiration of the permit and the director determines that the wheelchair accessible vehicle is in compliance with the provisions of section 46-548 of this Code and any other conditions of operation prescribed by the director.
(Ord. No. 2015-998, § 6(Exh. A), 10-14-2015; Ord. No. 2016-986, § 17, 12-14-2016; Ord. No. 2021-804, § 25, 9-15-2021)

Art. XXI. Tables, Charts and Diagrams, §§ 47-1001, 47-1002

ARTICLE I. IN GENERAL

Sec. 47-1. Definitions.

The term "department" when used in this chapter shall mean Houston Public Works and the term "director" shall mean the Director of Houston Public Works except where the context requires otherwise.
(Code 1968, § 49-1; Ord. No. 83-19, § 22, 1-11-83; Ord. No. 90-635, § 152, 5-23-90; Ord. No. 91-1076, § 11, 7-17-91; Ord. No. 93-514, § 111, 5-5-93; Ord. No. 2018-11, § 32, 1-10-2018)

Sec. 47-2. Applicability of chapter to water systems of former water control and improvement and fresh water supply districts.

The provisions of this chapter applicable to water service and rates and charges therefor shall be applicable not only to the city water distribution system proper but also to the water systems of those certain former water control and improvement and fresh water supply districts, and all other water distribution systems, which have been taken over for operation and are being operated by the city as the result of annexations made of areas which included the entire areas of such districts.
(Code 1968, § 49-2)

Sec. 47-3. Responsibility to repair, replace, etc., facilities installed by former water control and improvement or fresh water supply district.

In those instances where a water control and improvement or fresh water supply district has installed water and sanitary sewer and drainage facilities in undeveloped areas and such district is thereafter annexed by the city and abolished as provided by law, any person desiring to subdivide, develop or build in any such area shall bear the cost and expense of repairing, replacing, testing and placing such facilities in operational condition acceptable to the director,

as and until such time as any such person desiring to use any such facilities has, at his own

cost and expense, placed such facilities in such proper operational condition, no building permits within such area shall be issued by the city, and no connections for services from any such facilities will be allowed by the city.
(Code 1968, § 49-3)

Sec. 47-4. Use of water meter required; exception for fire sprinkler systems previously installed.

(a) Metered water service requirements.

(1) *Definitions.* The following terms, when used in this subsection, shall have the meanings ascribed to them in this item, except where the context clearly indicates a different meaning:

Closed type sprinkler system is a sprinkler system in which no water can be drawn off except through a sprinkler head, main drain, or inspector's test connection.

Open type sprinkler system is any sprinkler system other than a closed type sprinkler system, including those using a tank or hose valves.

(2) Water will be furnished and delivered through the water distribution system of the city only through meters. Meters must be listed on the City of Houston Public Works product approval list.

(3) Open type automatic fire sprinkler systems will be metered by a fire rated meter as specified by the utility official.

(4) Closed type automatic fire sprinkler systems either will be metered by a fire rated mater or will have a city approved backflow prevention device with a bypass meter. When a property owner elects to use a backflow prevention device, the backflow prevention device will be located on private property in a location that may be inside or outside of the structure as approved by the utility official and will be owned and maintained by the property owner, provided that the bypass meter will be owned and maintained by the city.

(b) The provisions of subsection (a) shall not apply to the continuation of unmetered water service for fire sprinkler systems installed prior to October 2, 2002, unless:

(1) Testing by the utility official determines that there is an unauthorized flow of water through the fire line;

(2) An illegal connection to a fire line is found through which water for domestic purposes can flow without being metered; or

(3) The building owner or manager fails to provide access upon request to the utility official to inspect and/or test the system.

(Code 1968, § 49-4; Ord. No. 02-926, § 1, 10-2-02; Ord. No. 03-332, § 1, 4-2-03; Ord. No. 2018-11, § 50, 1-10-2018)

Sec. 47-5. Connections generally.

It shall be unlawful for any person other than the authorized employees of the department, persons authorized in writing by the utility official pursuant to the regulations promulgated pursuant to subsection (b) of section 47-18 of this Code, and persons authorized pursuant to a written contract or agreement therefor executed by the city, to make any tap, or connection with, or repair or attachment to the water mains or water distribution pipes of the city, or to pipes belonging to the water customers of the city situated on any city property, or to any pipes or mains not metered, or to any fixture connected to said pipes or mains.
(Code 1968, § 49-5; Ord. No. 90-635, § 153, 5-23-90; Ord. No. 2013-320, § 2, 4-10-2013, eff. 6-1-2013)

Sec. 47-6. Drinking water.

The utility official shall conduct an effective program to insure that all drinking water used by the residents of the city is safe and free from any deleterious matter and that it complies with all laws, rules, regulations and standards for drinking water of the state and the United States. Such program shall include, but not be limited to, the duty to:

(1) Conduct drinking water quality monitoring and evaluation and maintain records thereof.

(2) Investigate complaints of violation of Article 4477-1 of the Revised Civil Statutes of Texas and other state and federal laws applicable to drinking water standards and rules, regulations and standards issued thereunder by obtaining samples of drinking water, performing analysis and testing thereof and maintain records of such complaints, sampling, testing and analysis.

(3) Cooperate with the city attorney and with county, state and federal officers, offices, departments and agencies in the filing and prosecution of legal actions for the enforcement of civil and criminal sanctions relating to the provision, use, sale or supply of unsafe drinking water.

(4) Collect and disseminate information to the general public regarding drinking water quality and safety.

(Ord. No. 2015-820, § 30, 8-26-2015)

Sec. 47-7. Control of water service connection.

The department shall own and maintain that part of the water service connection extending from the main to the meter, including the service line, meter, meter box, vault enclosure, and attached electronic devices. No person may remove, repair or tamper with any of the elements of the water service connection except with the consent of the utility official. Violation of this section shall be punishable by a fine not to exceed $500.00. Provided, however, this section does not prohibit the resident or custodian of the property from shutting off the water at the meter if necessary to prevent water loss due to frozen water pipes and other emergencies.

(Code 1968, § 49-7; Ord. No. 87-538, § 1, 4-21-87; Ord. No. 93-514, § 112, 5-5-93; Ord. No. 07-599, § 2, 5-16-07)

Sec. 47-8. Application for installation of water meter.

Any person desiring the installation of a water meter must complete an application for installation of the meter. The application shall include the name and address of applicant, the billing address, the type of service requested, and any other information required by the utility official.

(Code 1968, § 49-8; Ord. No. 07-599, § 3, 5-16-07)

Sec. 47-9. Enforcement.

The department shall have the authority to issue citations for unlawful acts as described in this chapter including, but not limited to, furnishing the city false or fraudulent information. Each offense shall be punishable by a fine of not less than $50.00 and no more than $500.00 unless otherwise specified. Each day the violation continues shall constitute a separate offense. The city reserves the right to seek civil remedies for any such offenses as well as penal sanctions.

(Ord. No. 07-599, § 4, 5-16-07)

Sec. 47-10. Installations for supplying boilers or hot water tanks.

Installations for supplying boilers or hot water tanks shall be made in such manner as will prevent the hot water from backing into the meter. The owner of the premises will be held responsible for all damages to meters resulting from hot water backing up into them.

(Code 1968, § 49-10)

Sec. 47-11. Required connections to public sewers.

All owners of real property having a building or structure thereon shall ascertain the availability of city sewer service for the owner's property. If such property is situated within 300 feet of a city sewer main, the owner shall within 60 days of notice from the department apply for a sewer tap permit and pay any fee due the city for the permit including sewer impact fees if applicable. The connection must be completed six months after the date of the application for the permit, unless the utility official, because of extraordinary circumstances, grants additional time. After expiration of the six-month period, the department shall charge the owner's account for sewer service unless the utility official grants additional time.

During the same six-month time period the owner must also remove all septic tanks from the property, or in the alternative, may leave any

tanks in place and fill them with sand or dirt after the waste has been removed. The owner must ensure all remediation is in accordance with requirements established by the department.

In addition to other remedies available to the department, in the event the owner fails to comply with this section, the department may terminate water service to the property. Provided, however, in the event the department terminates water service, it must provide notice to the owner and the opportunity for an administrative hearing as provided in section 47-70 of the Code.

Any person owning such property, who after notice from the department fails the comply with these requirements within the time period specified herein, shall be guilty of an offense punishable by a fine not to exceed $2,000.00. Each day the violation continues shall constitute a separate offense.
(Code 1968, § 49-10.1; Ord. No. 69-1637, §§ 1—3, 9-3-69; Ord. No. 87-2064, § 1, 12-22-87; Ord. No. 07-599, § 5, 5-16-07)

Sec. 47-12. Application and permit for sewer service generally.

Any person desiring sewer service from the city who is not currently a water customer of the city shall make application therefor to the utility official on forms furnished by such official. Upon obtaining a permit from the utility official authorizing such service, and upon making the deposit required by section 47-126 of this Code, and executing a form of agreement provided for by the city for sewer service, such person shall, subject to the provisions of this chapter and other city ordinances governing same, be entitled to receive from the city sanitary sewer service.
(Code 1968, § 49-11; Ord. No. 90-635, § 153, 5-23-90)

Sec. 47-13. Sewer lines and facilities for industrial, institutional, commercial and other developments.

For industrial, institutional, commercial and other developments (including among others, by way of example but not by limitation, apartment projects, shopping centers, medical centers, condominiums, et cetera), where it is intended that title to all of the land to be developed will remain as a unit in the developer or his assigns, and the improvements to be constructed thereon may or may not be leased, rented or sold to others, sanitary sewer lines and facilities to provide service to such land and the improvements thereon shall be installed, repaired and maintained at no cost or expense to the city and title to such sanitary sewer lines and facilities shall remain vested in the owners of the land and be such owners' sole responsibility. No permit will be issued by the city authorizing such sanitary sewer lines and facilities to be constructed or to be connected to the city's sewer system until the city has approved the plans for such lines and facilities and the applicable connection charge has been paid to the city in cash in full. All such sewer lines shall be inspected during their construction by the city and, upon completion, tested to insure compliance with the latest adopted standard specifications of the city.
(Code 1968, § 49-12)

Sec. 47-14. Retail water or sewer service outside city limits.

(a) This section applies to any retail water or sewer service requested to be provided by the city at premises which are located, in whole or in part, outside of the corporate limits of the city. As used in this section, "retail water or sewer service" means service provided by the city directly to the ultimate retail consumer (to one customer per connection) at premises under common ownership. "Retail water or sewer service" does not include:

(1) Service provided by the city on a wholesale basis under contract whereby the buyer intends to resell such service to the ultimate retail consumers of such service;

(2) Service provided in bulk under contract authorized by the city council; or

(3) Untreated water service.

(b) No such retail utility service shall be provided for consumption at premises located in whole or in part outside of the corporate limits of the city unless the customer desiring such service

has filed an application with the director and such application has been effectively approved as required by this section. An application may be made for water service or sewer service, or both.

(c) The application for such service shall be made upon a form supplied by the director which is substantially similar to the forms used for applications for service to premises inside the corporate limits, except that each application must contain a conspicuous statement in substantially the following form:

THE APPLICANT UNDERSTANDS THAT ALL ORDINANCES OF THE CITY (AS NOW WRITTEN AND AS HEREAFTER AMENDED) WHICH RELATE TO WATER OR SEWER SERVICE OR TO PLUMBING MATTERS, INCLUDING THOSE ORDINANCES WHICH IMPOSE CRIMINAL SANCTIONS, APPLY TO WATER AND SEWER SERVICES PROVIDED BY THE CITY TO PREMISES OUTSIDE OF THE CORPORATE LIMITS. THE APPLICANT ALSO UNDERSTANDS THAT THE CITY MAY SUSPEND OR DISCONNECT SUCH SERVICES IN THE EVENT THAT THE APPLICANT OR ANY OTHER PERSON AT THE PREMISES TO BE SERVED FAILS TO COMPLY WITH SUCH ORDINANCES, WITHOUT REGARD TO WHETHER OR NOT CRIMINAL SANCTIONS ARE ENFORCEABLE AGAINST ANY SUCH PERSON.

(d) No such application shall be accepted by the director unless the application is completed and properly signed by the applicant. No such application shall be approved by the director unless:

(1) The applicant has paid all applicable charges prescribed by the ordinances of the city, including the provisions of this chapter and the ordinances listed in section 47-42 of this Code;

(2) The applicant has paid all other applicable tapping and meter charges and has made any necessary deposit to secure payment of monthly charges;

(3) In the case of sewer service, the applicant has paid the prescribed *Plumbing Code* inspection fees and the director has received written evidence from the appropriate plumbing official that the plumbing system at the premises to be served has been inspected by the city and is in compliance with the *Plumbing Code;* and

(4) The applicant has submitted proof to the director that the premises to be served are outside of the corporate limits of the city and are under common ownership and that the applicant is the proposed ultimate retail consumer of the requested service and the sole customer to be served by the connection to be established pursuant to the application.

Notwithstanding the foregoing, in the case of a plumbing system which is not in existence at the time the application is considered for approval, the director may approve such application upon the express condition that the plumbing system at the premises to be served be inspected by the city and found to be in compliance with the Plumbing Code before any connection to city water or sewer facilities is made. Any such conditional approval which may be given shall be ineffective unless and until such inspection and finding have occurred.

(e) No application shall be approved unless the director determines that the requested service is engineeringly feasible and that sufficient capacity exists to provide such service.

(f) This section shall not authorize the extension of any utility facilities (other than the installation of a tap or meter, as the case may be). This section shall not affect any other requirements of the city's ordinances relating to extensions of utility facilities.

(g) All ordinances of the city as now written or hereafter amended which relate to water or sewer service or to plumbing matters, including those ordinances which impose criminal sanctions, shall hereafter apply to retail water and sewer utility services provided by the city to premises located outside of the corporate limits. Any such services may be suspended or disconnected in the event that a customer of the city or any other person at the premises so served fails

to comply with such ordinances, without regard to whether or not criminal sanctions are enforceable against any such persons.
(Code 1968, § 49-13; Ord. No. 81-488, § 1, 3-17-81; Ord. No. 2021-1037, § 20(Exh. I.53, 54), 12-1-2021, eff. 4-1-2022)

Sec. 47-15. Responsibility of the department.

It shall be the responsibility of the department to provide each city customer an accurate bill. If the bill is inaccurate, the department shall correct the bill in a timely manner and correct the customer's account in accordance with the provisions of this chapter.
(Ord. No. 07-599, § 6, 5-16-07)

Sec. 47-16. Right of city to use, close or disconnect private sewers.

(a) The city shall have the right at all times, through the utility official, chief plumbing inspector or health officer, to connect with and use any private sewer built upon any public street or to reconstruct or close up or disconnect any private sewer which, from any cause, may have become a nuisance.

(b) The utility official shall have the power to stop and prevent the discharging into any public, private or house sewer or drain substances that are liable to obstruct or clog the public sewer, or in any manner injure it, or to disconnect any sewer or house drain that may have been installed contrary to the provisions of this chapter or other ordinances of the city, or that receives the drainage from a plumbing installation not in accor-

dance with this chapter or other ordinances, and to this end may, after five days' notice to the owner thereof, disconnect any such private sewer or drain, and it is made his duty to do so.
(Code 1968, § 49-15; Ord. No. 90-635, § 153, 5-23-90)

Sec. 47-17. Reserved.

Editor's note—Ord. No. 07-599, § 7, adopted May 16, 2007, repealed § 47-17 in its entirety. Formerly said section pertained to water tap charges and derived from Code 1968, § 49-16; Ord. No. 73-836, § 1, 5-8-73; Ord. No. 78-631, § 1, 3-29-78; Ord. No. 83-19, § 1, 1-11-83; Ord. No. 90-635, § 153, 5-23-90.

Sec. 47-18. Installation of water meters.

(a) Subject to the provisions of section 47-18.1 of this Code, the department shall not accept an application for the purchase of a water meter unless the application includes payment in full for the meter and appurtenances as well as the inspection fee. Provided, however, if a meter has already been installed, the applicant may exchange the meter for a larger meter and pay the city the difference between the cost of the original meter and the new larger meter plus the inspection fee.

(b) The utility official shall prescribe regulations for the furnishing and installation of meters by private contractors. Any person turning on the water without written approval of the department shall be guilty of an offense.

(c) The department shall charge for meters at the actual cost to the city, including cost for the meter, meter box and the required electronic devices. The department shall also charge for its inspection of the meters at the rates stated for this provision in the city fee schedule. The department shall not furnish water service until the applicant pays all charges required by the city.

(d) The applicant or his designated agent may request that the department set a time for the inspection of the water meter tap. If the applicant or its agent fails to keep the appointment and does not provide at least one hour's notice to the department, the department shall charge the agent an additional fee stated for this provision in the city fee schedule.
(Code 1968, § 49-17; Ord. No. 73-836, § 2, 5-8-73; Ord. No. 78-631, § 2, 3-29-78; Ord. No. 83-19, § 2, 1-11-83; Ord. No. 90-635, § 153, 5-23-90; Ord. No. 07-599, § 8, 5-16-07; Ord. No. 2011-1168, § 13, 12-14-2011)

Sec. 47-18.1. Tap and meter charges for certain acquired customers.

(a) *Definition.* In this section, "*acquired customer*" means:

(1) Any customer occupying the same building or structure to which water service was actually provided by a private utility company at one time, but which utility has since been acquired by the city by purchase, condemnation or gift; or

(2) Any applicant for water service occupying the same building or structure to which water service was actually provided at one time by a private utility company holding a certificate of convenience and necessity issued by the Public Utility Commission of the State of Texas (or other state agency) to serve the area in which the premises are located, but which utility's certificate of convenience and necessity has been revoked or amended to exclude the area in which the premises are located.

(b) Applicability; conflicting provisions. Water taps and water meters installed to serve acquired customers shall be governed by section 47-18 of this Code, except as provided below. This section controls over any conflicting provision of section 47-18.

(c) *Existing meters.* Any acquired customer whose premises in the six months preceding acquisition or decertification of the private utility company were served by a meter formerly owned by a private utility company shall be entitled to a $50.00 reduction in the amount of any meter charge otherwise applicable. An acquired customer occupying the same building or structure to which water service was actually provided at one time by a private utility company which has been

acquired by the city, and whose premises are currently served by a meter formerly owned by a private utility company, may exchange such meter for a meter of like size with no meter charge.

(d) *Installment payments—When due.* When an acquired customer is required to pay a meter charge or tap charge, or both, such payment may be made either in cash or in equal installments. Each such installment shall be 1/18 of the total payment. The first installment is due at the time that application for the work is made, and the remaining 17 installments come due on the last day of each even-numbered month thereafter.

(e) *Same—Delinquent; subsequent customers.* When an acquired customer begins making any such installment payments but fails to pay all installments, and if another acquired customer desires to make application for water service to the same premises, then the subsequent acquired customer shall be required to pay the full tap and meter charges applicable to the acquired customer who first elected to pay in installments, less any payments or installments made by the first customer and any intervening customers. The subsequent customer may pay such charges in cash or in installments, each of which shall be equal to the installments begun by the first customer. The first such installment shall be due when the subsequent customer makes application, and the installments come due on the last day of each even-numbered month thereafter until the full charges applicable to the subsequent customer are paid.

(Code 1968, § 49-17.1; Ord. No. 83-19, § 3, 1-11-83; Ord. No. 83-907, §§ 1, 2, 6-14-83; Ord. No. 2011-1168, § 13, 12-14-2011; Ord. No. 2013-320, § 3, 4-10-2013, eff. 6-1-2013)

Sec. 47-19. Reserved.

Editor's note—Ord. No. 07-599, § 9, adopted May 16, 2007, repealed § 47-19 in its entirety. Formerly said section pertained to title to water meters and appurtenances; unauthorized opening, etc., of meter box; maintenance of meters and derived from Code 1968, § 49-18; Ord. No. 87-538, § 2, 4-21-87.

Sec. 47-20. Setting of meters.

It shall be an offense for any person to install, repair, or perform any work or adjustment to a city water meter (including meter boxes and electronic devices) without authorization by the department.

(Code 1968, § 49-19; Ord. No. 07-599, § 10, 5-16-07)

Sec. 47-21. Water meter and box to be free from rubbish and obstructions.

Wherever a water meter is set, whether in an easement or in the basement of a building, the customer shall keep the space occupied by the meter and the meter box or vault free from rubbish, animals or obstructions of any kind. In the event the water meter box or vault is buried or obstructed, the department may give written notice to the customer requiring such person to uncover or remove obstructions from the meter box or vault within 30 days of the notice. If the customer does not remove the obstruction, the city may remove the obstruction and charge the customer or property owner the city's cost for such work. If the customer fails to make payment, the city may file a lien against the property as provided in section 47-44 of this Code. If the meter is obstructed by persons not controlled by the customer or owner, or by conditions beyond control of the customer, the city may remove the obstructions or uncover the meter and bring appropriate legal action against the person responsible for the obstructions."

(Code 1968, § 49-20; Ord. No. 07-599, § 11, 5-16-07)

Cross reference—Solid waste and litter control, Ch. 39.

Sec. 47-22. Transient water meters.

(a) Persons desiring to use a transient water meter shall make such application as may be required by the department and make a cash deposit in accordance with the following schedule to secure the city against any loss, damage or water charges:

Transient Water Meter Size (Inches)	*Deposit*
1	$500.00
2	$1,000.00
3	$1,500.00

(b) Such meter and appurtenances will be installed by authorized city personnel and shall be made available for reading and inspection at all reasonable hours. The director shall establish procedures for installation, repairs, maintenance, disconnection and relocation of said meters, and said procedures will be made available to the applicant at the time of initial application.

(c) Any transient meter moved from its original location by unauthorized personnel shall authorize the city to forfeit the entire amount of the customer's deposit. In the event that the applicant wishes to have the transient water meter relocated after installation, it shall be the duty of the applicant to request that authorized city personnel relocate said meter. The charge stated for this provision in the city fee schedule shall be assessed for the relocation of a transient water meter.

(d) Rates for water usage through a transient water meter shall be as specified in section 47-61 of this Code. In addition to a charge for water usage, a rental rate shall be charged for each month or portion of a month the meter is held by the transient meter customer according to the city fee schedule.
(Code 1968, § 49-21; Ord. No. 73-836, § 3, 5-8-73; Ord. No. 83-19, § 4, 1-11-83; Ord. No. 07-599, § 12, 5-16-07; Ord. No. 2011-1168, § 13, 12-14-2011)

Sec. 47-23. Furnishing water where only available fixture is hydrant or spigot placed in parking section of street; location of hydrant or spigot in yard or common area; etc.

With the exception of temporary service for building construction purposes and similar circumstances, water will not be furnished where the only fixture available is a hydrant or spigot placed in the parking section of the street, and all such water service lines shall be metered. No hydrant or spigot will be placed in any yard, or common area in any premises so situated as to be accessible to persons living in or occupying adjoining premises. No branch shall be taken off a service pipe until after it enters the property of the applicant and then only for providing services to the property of applicant.
(Code 1968, § 49-22)

Sec. 47-24. Warranties; contracts; liability.

(a) The city makes no warranties, either express or implied, with respect to any water or water service. No industrial customer, commercial customer or any other customer, consumer or person is guaranteed any specific quantity, quality, pressure or other characteristic of water or water service. No officer, agent or employee of the city is authorized to make any warranty or guarantee with respect to water or water service, unless such warranty or guarantee is contained in a written contract duly authorized by motion, resolution or ordinance duly adopted by the city council and duly signed by the mayor. Should any express or implied warranty ever be applicable to water or water service provided by the city, the city disclaims any and all implied warranties of merchantability or fitness for a particular purpose, except to the extent contained in a written contract described in this subsection.

(b) Inasmuch as the city is not operated for profit and water charges are computed to cover only the costs of service, the city shall never be liable for any direct, indirect, special, incidental or consequential damages arising out of or relating to water or water services, whether based on contract, tort or other legal theory. The provisions of this Code relating to reductions of water charges in certain circumstances are sole and exclusive remedies.
(Code 1968, § 49-23; Ord. No. 83-19, § 23, 1-11-83)

Sec. 47-25. Reserved.

Editor's note—Ord. No. 01-753, § 2, adopted Aug. 8, 2001, repealed § 47-25 in its entirety. Formerly, said section pertained to water emergencies. See the Code Comparative Table.

Sec. 47-26. Access to premises supplied with water.

The utility official and other employees in the department shall have free access at all reasonable hours of the day to all parts of any premises to which water is supplied.
(Code 1968, § 49-24; Ord. No. 90-635, § 153, 5-23-90)

Sec. 47-27. Maximum size of water service connection for fire protection or hydraulic motors.

No water service connection for fire protection or hydraulic motors shall be made larger than eight inches unless approved by the utility official in conformance with the Construction Code.
(Code 1968, § 49-25; Ord. No. 02-926, § 2, 10-2-02)

Sec. 47-28. Right of fire department to use water facilities supplied for fire protection.

In case of fire, the fire department shall have the right to use any hydrant, cistern, hose, pipe or other fixtures supplied wholly or in part from any service pipe used for fire protection.
(Code 1968, § 49-26)

Sec. 47-29. Reserved.

Editor's note—Former § 47-29, which pertained to restrictions on the provision of water service for fire protection purposes, was repealed by § 1 of Ord. No. 86-2109, enacted Dec. 3, 1986. The repealed provisions derived from § 49-27 of the 1968 Code.

Sec. 47-30. Interference with fire hydrants, cisterns, etc.

(a) Every hydrant placed by the city for the purpose of extinguishing fires is hereby declared to be a public hydrant, and no person other than members of the fire department, the Houston Health Department, and those authorized by the utility official, shall open any of such hydrants, or draw or attempt to draw water from the same, or in any manner interfere with such hydrants.

(b) No person, unless authorized by the department, shall except in time of fire, take water from any public cistern or fire plug, or other means of supply, or place or remove the cover from any such public cistern or fire plug, or place or deposit any dirt or material in any such fire plug, or in the box or appendage connected therewith, or turn any public or private stopcock, or remove the cover from any private stopcock, or permit any act tending to obstruct the use thereof.
(Code 1968, § 49-28; Ord. No. 90-635, § 153, 5-23-90; Ord. No. 2015-820, § 34, 8-26-2015)

Sec. 47-31. Obstructing access to hydrants.

No person shall in any manner obstruct the access to any hydrant connected with any water pipe in any street, alley or common in the city, by means of any lumber, brick, building material or other article, or by any hindrance whatsoever.
(Code 1968, § 49-29)

Sec. 47-32. Pollution of reservoirs.

It shall be unlawful for any person to put any filth, animal matter, chips, shavings or any other substance into or to bathe in any city water reservoir, tank or other portion of the city water system. This section shall not be construed to prohibit swimming, fishing and other recreational activities in and upon Lake Houston in those portions of Lake Houston where such activities are authorized pursuant to this Code. A violation of this section shall be punishable by a fine of not more than $4,000.00.
(Code 1968, § 49-31; Ord. No. 2021-431, § 8, 5-26-2021)

Cross reference—Lake Houston, Ch. 23.

Secs. 47-33, 47-34. Reserved.

Editor's note—Ord. No. 01-800, § 4, repealed §§ 47-33 and 47-34 in their entirety. Formerly said sections pertained to prohibited deposits in storm sewers and watercourses generally and placing cuttings, clippings, other trash into storm sewers, gutters draining into storm sewers and derived from Code 1968, §§ 49-32 and 49-32.1.

Sec. 47-35. Waste of percolating water.

It shall be unlawful for any person to commit waste of percolating waters within the city limits by pumping the same into streets, storm sewers, drainage ditches, or natural waterways, except

as a temporary measure where required as an incident to the bona fide excavation for the construction of a building or structure, or any public work or public construction.
(Code 1968, § 49-35)

Sec. 47-36. Construction of surface water drains.

(a) It shall be unlawful for any person to construct or maintain any drain into a public street from private property, where the same has been laid for the purpose of draining surface

water from such private property, or for the purpose of taking care of rainwater and water from the roofs of buildings on private property, unless such drain shall be laid from the property line to the street, curb or ditch, and be constructed entirely of durable and substantial material as approved by the Director of Houston Public Works or his designee, and be laid entirely underneath the surface of the ground in the sidewalk, and be covered at all points where the same crosses under such sidewalk, and in the event such drain shall cross under a cement or concrete sidewalk, there shall be not less than two inches of concrete on top of such drain or pipe, and the surface of the sidewalk where such pipe shall cross the same shall be made to conform in height and level to the balance of such sidewalk. All existing drains heretofore laid from property line to the gutter or ditch in any public street shall be made to conform to the provisions of this section. Where tops of drain leaders do not exceed 25 feet above top of curb or ground at property line, drains may be taken through curb or into ditch. Where drain leaders do exceed 25 feet above top of curb or ground at property line, drains must be taken into a catch basin or curb inlet.

(b) The owner of any property in the city, or his lessee, who is maintaining any drain pipe across any sidewalk in the city, or any downspout not in conformity with the provisions of this section, shall upon notice in writing from the Director of Houston Public Works or the chief of police, remove such drain or pipe and make the same conform in every respect to the requirements of this section, and failure for five days on the part of such owner, agent or lessee to make such pipe or drain conform to the provisions of this section, after receiving such notice, shall constitute an offense, and each day such owner, agent or lessee shall neglect to correct or repair such drain pipe, after receiving the notice above mentioned, shall constitute a separate offense.
(Code 1968, § 49-35.1; Ord. No. 67-2032, § 1, 10-24-67; Ord. No. 90-635, § 154, 5-23-90; Ord. No. 93-514, § 113, 5-5-93; Ord. No. 2018-11, § 49, 1-10-2018)

Sec. 47-37. Misuse of water; altering plumbing system.

(a) No person shall apply water furnished by the city to any use different from that named in the application or contract for water service, nor shall any customer supply water to other persons or to other families or permit them to take water, nor shall any person, after the water is introduced to any building or upon any property make any tap or connection upon such property for the purpose of altering, repairing, or making extensions or attachments to furnish water to other families on such property. Misuse of water also includes theft of water service, making an unauthorized connection, construction of a bypass of the water meter or use of any other device or arrangement that would prevent the water meter from correctly measuring the customer's water supply from the city. Any waste or misuse of water shall be an offense.

It is prima facie evidence that a person has misused water or tampered with the meter if the person is the customer or owner of the property and:

(1) Water is prevented from passing through the city's meter;

(2) The city's meter is prevented from correctly registering the quantity of water supplied to the property unless the faulty measurement is due to age, normal wear and tear or natural causes;

(3) Water is diverted or bypassed around the meter;

(4) The city's meter or service connection to the property is removed; or

(5) Wastewater is prevented or diverted from flowing from the property into the city's wastewater system.

(b) It shall be an offense for any person to use water (i) from a connection to a city water main except through meter properly measuring the flow, (ii) for any property that does not have a separate meter to measure water for the family or business receiving the water, or (iii) for any purpose not specified in the application, contract or permit with the city.

(c) Unmetered fire sprinkler lines installed prior to October 2, 2002, and fire sprinkler lines with city approved backflow prevention devices with a bypass meter may be used only for fire protection. If there is any other usage of the fire sprinkler lines in excess of 1,000 gallons per month for each fire system, except for permitted construction, remodeling or expansion of existing systems, the department shall require that line be metered with a fire rated meter as specified in subsection (b) of section 47-38 of this Code.
(Code 1968, § 49-36; Ord. No. 02-926, § 3, 10-2-02; Ord. No. 03-332, § 2, 4-2-03; Ord. No. 07-599, § 13, 5-16-07)

Sec. 47-38. Discontinuing service for waste or misuse of water.

(a) If any customer causes or permits any waste or misuse of city water contrary to the provisions of this chapter or other ordinances of the city, the department may upon notice to the customer terminate the customer's water connection, excluding any independently served fire service, and restore regular service only at such time as the objectionable conditions have been corrected to the satisfaction of the utility official. Provided, however, the customer shall have the right to request an administrative hearing as provided in section 47-70.1 of this Code. Violation of this subsection shall be an offense.

(b) If unauthorized usage or an illegal connection is found on any unmetered fire line or on an unmetered fire line with a city approved backflow prevention device and a bypass meter, or if the utility official is refused reasonable access upon request to test any unmetered fire line, the utility official shall notify the property owner or manager that the line must be metered with a fire rated meter within 120 days. The new meter must meet the specifications outlined in section 47-4 of this Code, and be installed on private property in the city easement. The property owner will take whatever steps are required to assure that the fire protection system meets all requirements of the Construction Code and the Fire Code, and shall provide appropriate documentation to city code enforcement official that the installation of a full flow meter has not compromised the integrity of the existing fire sprinkler system. If the property owner or manager fails to timely install the meter, service to all other service accounts except fire service accounts at the property location shall be terminated. During the interim period, usage through the unmetered fire line will be estimated and billed based on usage found during the test or based upon the utility official's estimation of usage if testing is refused.

A person who receives a notice to install a meter under this subsection shall upon request be entitled to a hearing regarding the matter, which shall be afforded in the same manner provided in section 47-70 of this Code. In the event that the hearing official finds that the notice has been issued in error and that there has in fact been no unauthorized, illegal connection or failure to allow access for inspection, then the hearing official shall order the notice withdrawn. Additionally, the hearing official shall be authorized to suspend the notice upon request of the customer and demonstration by the customer that: (1) the customer has not committed any other violation of section 47-4 of this Code within the preceding period of five years, (2) the violation giving rise to the notice was not intentionally committed, (3) the customer has taken effective steps to prevent future violations, and (4) the customer has agreed to reimburse the city for any unauthorized water use and all administrative expenses of the investigation and hearing proceedings in an amount established by the hearing official.

(c) When water is turned off under this section, the reconnection fees prescribed by section 47-70 of this Code shall apply and the service shall not be resumed until such fees have been paid. In addition, the provisions of subsection (f) of section 47-70 of this Code shall apply to such cases where the water is turned on by any unauthorized person or where the utility official deems it necessary to take the steps authorized by subsection (f) of section 47-70 of this Code to protect the city against waste or misuse of water.
(Code 1968, § 49-37; Ord. No. 90-635, § 153, 5-23-90; Ord. No. 02-926, § 3, 10-2-02; Ord. No. 03-332, § 2, 4-2-03; Ord. No. 07-599, § 14, 5-16-07)

Sec. 47-39. Notice of consumer's desire to disconnect premises from water service.

Whenever a consumer of city water does not desire to be furnished with water any longer, he shall notify the department at least two days prior to the time he desires his premises to be disconnected.
(Code 1968, § 49-38)

Secs. 47-40—47-42. Reserved.

Editor's note—Ord. No. 96-1248, § 2, adopted Nov. 26, 1996, repealed former §§ 47-40—47-42, which pertained to provisions relating to the release of liens for water and sewer extensions. Regarding references to section 47-42, see section 47-325.

Sec. 47-43. Acceptance of esplanade irrigation systems by the city.

(a) The city shall accept donations of privately constructed irrigation systems located in roadway esplanades in accordance with the following conditions and procedures:

(1) The requesting party shall apply in writing to the department of parks and recreation of the city.

The application shall include:

a. An inventory of irrigation facilities;

b. The date of construction of the facilities;

c. A diagram showing all piping, connections, sprinkler heads and other appurtenances; and

d. A signed deed of gift transferring the irrigation facilities to the city.

(2) If the application is complete, the director of parks and recreation department ("director of parks") shall sign his approval to the deed of gift and forward the application to Houston Public Works for review. If the Director of Houston Public Works finds that the system is acceptable in accordance with the criteria established in accordance with subsection (b) and that the applicant has paid all outstanding water bills for the system transferred, the Director of Houston Public Works shall sign the deed of gift indicating the city's acceptance of the system.

(3) In no event shall the Director of Houston Public Works be authorized to excuse or authorize the cancellation of outstanding water bill(s) for the applicant's irrigation system in exchange for the transfer of the irrigation system.

(b) The Director of Houston Public Works and the director of parks shall jointly promulgate rules and regulations regarding the transfer of irrigation systems, including criteria for city acceptance, and forms for the application and the deed of gift. Such rules and regulations shall be available:

(1) At the office of the city secretary;

(2) At the office of the director of parks; and

(3) At the office of the Director of Houston Public Works.

The rules and regulations established hereunder may be amended or supplemented from time to time as mutually agreeable to the Director of Houston Public Works and the director of parks.

(c) The department of parks and recreation shall be responsible for maintenance of all esplanade irrigation systems donated to the city.

(d) After the date of acceptance of an irrigation system by the city (execution by the Director of Houston Public Works of the deed of gift), billing for water usage by such system shall be transferred to the city.
(Ord. No. 86-1991, § 1, 11-18-86; Ord. No. 90-635, §§ 156, 157, 5-23-90; Ord. No. 93-514, §§ 115, 116, 5-5-93; Ord. No. 2018-11, §§ 33, 49, 50, 1-10-2018)

Sec. 47-44. Delinquent water and wastewater charges—Lien authorized*.

(a) The city is authorized pursuant to the state constitution and the Texas Local Government Code to impose liens on property incurred as a result of nonpayment for water or wastewater service to such property.

(b) The city council has determined that water and sewer services benefit:

(1) The occupants of property served;

(2) The owners of property served; and

(3) The property served.

(Ord. No. 89-24, § 1, 1-4-89; Ord. No. 90-635, § 153, 5-23-90; Ord. No. 03-925, § 3, 10-8-03; Ord. No. 03-1196, § 2, 12-23-03; Ord. No. 07-599, §§ 15, 16, 5-16-07)

*__Note—__On October 8, 2003, City Council adopted Ordinance 2003-925, establishing drainage utility service charges for property in the City. The City received a referendum petition under Article VII-b of the Charter regarding Ordinance 2003-925. On December 23, 2003, rather than calling an election, City Council adopted Ordinance No. 2003-1196, which completely repealed Ordinance No. 2003-925.

Sec. 47-45. Same—Procedures relating to filing of liens; release of liens*.

(a) A lien for delinquent water and wastewater service charges may be filed any time after the conditions specified in section 47-44 obtain.

(b) The form of lien shall be promulgated by the Director of Houston Public Works and approved by the city legal department. The form shall contain:

(1) A statement indicating the purpose of the lien;

(2) The address of the property which is the subject of the lien;

(3) A complete legal description of the property which is the subject of the lien; and

(4) The amount of delinquent charges incurred upon the property as of the date of execution of the lien.

(c) Each lien that is filed shall be:

(1) Executed by the utility official and acknowledged by a notary public of the state; and

(2) Filed in the deed or lien records of the county in which the property is located.

(d) Should additional delinquent charges be incurred subsequent to the date of the original lien, additional liens may be executed and filed, in the form provided above, fixing the additional delinquent charges.

(e) The city attorney may file suit to judicially foreclose the lien in a state court of competent jurisdiction.

(f) When all delinquent charges which existed against the property have been fully paid, the utility official is authorized to execute a release of the lien. The release shall be prepared and approved as to form by the city attorney and shall be duly acknowledged. After execution, the utility official must immediately file the release in the deed or lien records of the county in which the property is located.

(g) No water or sewer services shall be provided to property encumbered by a lien filed pursuant to this division. Provided, however, the utility official shall be authorized to reconnect water and wastewater services if the customer agrees in writing to pay the accrued water and wastewater charges for such property in accordance with a payment schedule acceptable to the utility official.

(h) This section is cumulative of any other remedies, methods of collection or security available to the city under the charter and ordinances of the city or under state law. This section does not affect the department's authority to refuse or to furnish service when delinquent charges exist.

(Ord. No. 89-24, § 2, 1-4-89; Ord. No. 90-635, §§ 153, 158, 5-23-90; Ord. No. 93-514, § 117, 5-5-93; Ord. No. 03-925, § 3, 10-8-03; Ord. No. 03-1196, § 2, 12-23-03; Ord. No. 2018-11, § 49, 1-10-2018)

*__Note—__On October 8, 2003, City Council adopted Ordinance 2003-925, establishing drainage utility service charges for property in the City. The City received a referendum petition under Article VII-b of the Charter regarding Ordinance 2003-925. On December 23, 2003, rather than calling an election, City Council adopted Ordinance No. 2003-1196, which completely repealed Ordinance No. 2003-925.

Sec. 47-46. Same—Notice of lien*.

(a) At least seven days prior to recording of a lien for delinquent water and wastewater charges, the utility official shall send notice, by certified

mail, return receipt requested, that a lien will be recorded on the property in accordance with law. The notice shall provide a means by which the charges constituting the lien may be paid or disputed. The notice must be sent to:

(1) The customer in whose name the account for service at the property exists; and

(2) The last known record owner of the property according to the tax rolls of the city.

(b) The customer or owner may file a written protest concerning the lien for any of the following reasons:

(1) The charges assessed are not owed to the city;

(2) The charges assessed are for water and wastewater service at a site other than the property described in the notice; or

(3) That the property to be subject to the lien is exempt as a homestead under the Texas Constitution.

In the event of any such protest, the utility official shall conduct a hearing in accordance with the provisions of subsection 47-70(a).

(c) Absence of receipt of notice required hereunder does not affect the enforceability of the lien.
(Ord. No. 89-24, § 3, 1-4-89; Ord. No. 90-635, § 153, 5-23-90; Ord. No. 03-925, § 3, 10-8-03; Ord. No. 03-1196, § 2, 12-23-03)

***Note—**On October 8, 2003, City Council adopted Ordinance 2003-925, establishing drainage utility service charges for property in the City. The City received a referendum petition under Article VII-b of the Charter regarding Ordinance 2003-925. On December 23, 2003, rather than calling an election, City Council adopted Ordinance No. 2003-1196, which completely repealed Ordinance No. 2003-925.

Sec. 47-47. Posting notice of termination for commercial customers.

Prior to terminating water service for a commercial customer with tenants, the department shall post notice of termination at a prominent location on the property. After placement of the notice, the department shall allow an additional six calendar days for payment before terminating service. The department shall charge the commercial customer the fee stated for this provision in the city fee schedule for the cost of posting such notice.
(Ord. No. 07-599, § 17, 5-16-07; Ord. No. 2011-1168, § 13, 12-14-2011)

Sec. 47-48. Notice of water termination of multifamily residential customer.

Prior to terminating water service to a multifamily residence with five or more units for failure to make an application for service, make a payment or pay a required deposit when required, the department shall post notice of water termination either by hanging tenant notices or by posting notice at a prominent location on the property. The manager or customer shall allow city personnel access to the premises to post or hang notices. After placement of the notices, the department shall allow an additional six calendar days for payment or application for service before the department terminates service.

It shall be unlawful for any person to remove a notice of water termination posted by the department until the earliest of the following:

(1) The multifamily residential customer pays its arrearage for water and sewer service;

(2) The date of termination specified on the notice has passed; or

(3) The termination is cancelled by the utility official or prohibited by a court of competent jurisdiction.

Provided, however, a tenant of the multifamily residential customer may remove the termination notice from his or her door. Violation of this section shall be an offense.

The department shall charge the multifamily residential customer the fees stated for this provision in the city fee schedule for hanging notices.
(Ord. No. 07-599, § 18, 5-16-07; Ord. No. 2011-1168, § 13, 12-14-2011)

Sec. 47-49. Refund of fees charged for permits, taps or meters.

The following provisions shall govern refunds of fees charged for permits issued under this chapter by Houston Public Works as well as refunds of charges for taps and meters for water or wastewater service:

(1) No refund will be made after the stated effective period of the permit has expired.

(2) No refund will be made for a fee of $25.00 or less.

(3) When a fee is in excess of $25.00, the city will retain the first $25.00 and ten percent thereof and refund the balance to the applicant.

(Code 1968, § 2-181; Ord. No. 82-1011, § 1, 6-2-82; Ord. No. 87-1326, § 9, 8-5-87; Ord. No. 90-635, § 159, 5-23-90; Ord. No. 93-514, § 118, 5-5-93; Ord. No. 2018-11, § 50, 1-10-2018)

Editor's note—Section 159 of Ord. No. 90-635, adopted May 23, 1990 and effective July 1, 1990, renumbered former § 2-285 as § 47-49 and amended § 47-49 to read as herein set forth.

Sec. 47-50. Wellhead protection.

(a) The following requirements have been adopted to prevent pollution of water pumped from the wellheads of city-owned wells, as set out below:

(1) It shall be unlawful for any person to construct a tile or concrete sanitary sewer, sewer appurtenance, septic tank, storm sewer, or cemetery within 50 feet of a city water well. With respect to sanitary or storm sewers, it is an affirmative defense to prosecution under this item (1) that the sanitary or storm sewer is located ten feet or more from the city water well, is constructed of ductile iron or PVC pipe that meets American Water Works Association standards, has a minimum working pressure of 150 psi or greater, and is equipped with pressure type joints.

(2) It shall be unlawful for any person to allow livestock in pastures within 50 feet of a city water well.

(3) It shall be unlawful for any person to construct an on-site sewage facility tank perforated drain field, tank absorption bed, or tank evapotranspiration bed, or to construct a petroleum or chemical storage tank or liquid transmission pipeline within 150 feet of a city water well.

(4) It shall be unlawful for any person to irrigate an area within 150 feet of a city water well with spray from an on-site sewage facility.

(5) It shall be unlawful for any person to construct a water well within 150 feet of a city water well unless the well complies with all applicable state regulations.

(6) It shall be unlawful for any person to construct a sewage wet well or sewage pumping station within 300 feet of a city water well.

(7) It shall be unlawful for any person to construct a drainage ditch for industrial waste or sewage treatment waste within 300 feet of a city water well.

(8) It shall be unlawful for any person to construct a sewage treatment plant, animal feed lot, or solid waste disposal site within 500 feet of a city water well.

(9) It shall be unlawful for any person to apply sludge or effluent from a septic tank or sewage treatment plant on land with 500 feet of a city water well.

(10) It shall be unlawful for any person to drill an oil or gas well, including an injection well for recovery of oil or gas, within 500 feet of a city water well.

(b) The department shall investigate existing facilities whether located within or without the distance requirements of subsection (a) and determine if those facilities are a pollution hazard to city well water. The department shall recommend acquisition of such facilities in the event the department determines that the facilities are a pollution hazard to city well water and the owner refuses to take action necessary to abate the pollution hazard.

(c) Any person who violates any provision of this section shall be guilty of an offense and upon conviction thereof shall be subject to a fine of not less than $500.00 nor more than $2,000.00 for each violation. Each day in which a violation occurs shall constitute a separate offense. In addition to criminal prosecution, the legal department may seek appropriate judicial remedies to protect city ground water from contamination. (Ord. No. 04-844, § 1, 8-11-04; Ord. No. 2016-504, § 2, 6-22-2016)

Secs. 47-51—47-60. Reserved.

ARTICLE II. CITY WATER SERVICE CHARGES

DIVISION 1. GENERALLY

Sec. 47-61. Charges for treated water service generally.

(a) *Generally.* Except as otherwise specifically provided for in this chapter and as further defined below, the charge for treated water service furnished by the city in any given month to any given customer shall include all water that passes through the customer's meter and shall be the monthly water charge applicable to such customer, plus any applicable miscellaneous charges accruing in accordance with this chapter or the appendices of this Code, provided, however, single-family residential customers may be charged the conservation rate as defined in subsection (b) of this section. Single-family residential customers using more than 3,000 gallons in a month will be charged at the incremental rate for all their water usage and are not eligible for the conservation rate in that month. Additionally, compliance with all applicable laws is a condition of continued utility service.

(b) *Definitions.* As used in articles I and II of this chapter, the following terms shall have the meanings set out below, unless the context clearly indicates that another meaning is intended:

Additional quantity means the customer's monthly water usage over a gross quantity with a defined charge. The charge for additional quantity shall be computed for each month using the applicable incremental rate.

Applicable laws means, but is not limited to limitations, restrictions, conditions, standards, prohibitions and requirements established in this Code, and any law, statute, ordinance, rule, regulation, order or determination of any government authority with jurisdiction, such as, for example, the Texas Commission on Environmental Quality. Applicable laws include, without limitation, all applicable provisions of the Texas Water Code, zoning ordinances, building codes, flood rules and regulations, health laws and regulations and environmental laws.

Average usage means the customer's average monthly water usage as determined by the utility official on the basis of historical usage and other relevant factors.

Basic service means fire protection, metering, administrative, billing, and other services related to water service that the customer receives and pays for regardless of the customer's consumption or lack of consumption of treated water furnished by the city. Fire protection included in basic service does not include metered or unmetered fire lines.

City-caused leak means a defect in the customer's line caused by a city employee or city contractor during and within the scope of their authorized work on city projects which led directly to a loss of water that registered as consumption on the customer's water meter.

Commercial fire line service means service to a water supply system that has been installed for the sole purpose of fire protection and does not register any usage except as needed for fire protection or standard maintenance and testing as required by NFPA 25 Standards.

Conservation rate means the reduced volume rate charged to single-family residential users for water usage of 3,000 gallons or less in a month.

Contract treated water customer means a customer who has contracted with the city to receive treated water under subsection 47-61(f) below.

Customer means any person who has applied for or contracted with the city for water service, the owner of a property with a meter connected for water service, or any person who resides at the address where the city provides the water service at the time the monthly charges are incurred. A customer may have more than one meter and more than one property with water service.

Defined charge means the monthly charge for basic service.

Disabled veteran means a veteran of the armed forces entitled to receive compensation for service connected disability under the laws of the United States.

Emergency means a mechanical, electrical, or systemic failure of the waterworks system of an EBS customer, such that the failure significantly affects the EBS customer's ability to supply water to its own water customers. An emergency shall not mean a water shortage or a greater than expected water use by the EBS customer's own water customers, nor shall it mean a circumstance or condition caused by ordinary wear and tear of the EBS customer's facilities.

Emergency backup service customer or *EBS customer* means any customer who (i) would otherwise be a resale customer or contract treated water customer, (ii) has submitted an application for emergency backup service approved by the utility official, (iii) has installed and conveyed an EBS system to the city in accordance with this Code; and (iv) has not had the EBS terminated by the utility official.

Excess usage means and refers to the difference between the total water consumption shown on the customer's bill and the customer's average usage.

Excusable defect means a rupture or leakage of the customer's water lines caused by city personnel, a city contractor, freezing weather, settlement, corrosion, or accidental occurrence not caused by customer negligence or disregard of waterline or fixture maintenance. The term does not apply to any defective or out-of-repair plumbing fixtures that are exchangeable devices or components attached to the plumbing system to deliver and drain water.

Exempt senior customer means any customer who (i) is at least 60 years old; (ii) is a residential customer occupying the entire premises for which exempt senior customer status is requested; (iii) has filed with the department a request for exempt senior customer status; and (iv) provides all necessary information as requested by the utility official.

Gross quantity means the total quantity of water actually delivered to a customer's meter during a month.

Incremental rate means the rate charged to a customer for monthly water usage that is not included in a defined charge.

Industrial customer or *commercial customer* means any non-residential customer with retail water service that the utility official determines is not a transient customer, EBS customer, or an outdoor customer.

Month means the billing period for each customer and consists of approximately 30 days. A billing period begins on the date that a customer's measuring equipment is read (or the date as of which the customer's gross quantity is estimated) and ends when the next such reading (or estimation) occurs. There shall be 12 such readings (or estimations) per customer per calendar year, and the date of the most recent reading (or estimation) is usually shown on each water bill.

Monthly water charge means charges to a customer in a given month for water services that include defined charges and charges for additional quantities.

Monthly water usage means services a customer receives including the total gross quantity in increments of 1,000 gallons of treated water attributable to a customer's meter for a given month. Monthly water

usage includes basic service and all gross quantity not previously included in the customer's monthly water charge.

Multifamily residential customer means a residential customer whose meter is connected to, or serves exclusively, a residential establishment with more than one unit.

Non-residential customer means a retail customer who (i) has a meter that does not serve a residential establishment and (ii) is not a contract water customer.

Outdoor customer means a customer whose meter is connected to and serves only one of the following:

(1) A device or system for irrigation or distributing water to any area not enclosed within a permanent roofed structure; or

(2) One or more spigots, hydrants or outlets for water wholly located outside of a permanent, roofed structure.

No connection or water flow to a city or private sewer is permitted for outdoor customers. If a connection or flow into the sewer is found, the customer's account shall be changed to include water and sewer charges and the department shall bill the customer for all wastewater usage, including any arrearage.

Per-unit gross quantity means the gross quantity for a multifamily residential customer divided by the number of units in the residential establishment of that customer. In the event a person owning a multifamily residential establishment served by more than one meter has established an umbrella account, the gross quantity shall be the total amount of water as measured by all meters serving the establishment during the billing period. Otherwise, a person owning a multifamily residential establishment served by more than one meter shall be considered a separate customer for each meter for the purpose of determining the per-unit gross quantity. If a multifamily residential customer that has not established an umbrella account maintains a water distribution system in which a unit is served by more than one meter, such unit shall be prorated between or among such meters for the purpose of determining the per-unit gross quantity in accordance with the following formula:

$$\text{Per unit gross quantity per meter} = \frac{W}{U}$$

Where:

W =is the total water delivered through such meter during a bill period.

U =is the sum of the units served by the meter, except where a unit is served by x meters such unit shall be counted only as 1/x unit.

In no event shall the sum of units used for the calculation of the "per-unit gross quantities" exceed the actual number of units located at the multifamily residential establishment.

Person means any legally competent individual, business entity, governmental entity, or any combination of individuals or entities legally bound together.

Person with disability has the meaning ascribed in section 36-62 of this Code.

Resale customer means any customer (other than a contract treated water customer, an EBS customer or a transient meter customer) owning or operating for compensation equipment or facilities for transmitting, storing, distributing, selling or furnishing potable water to the public or for resale to the public for any use; provided that the term shall not include any customer that furnishes water only to itself, its employees or tenants as an incident of such employee service or tenants when such water is not resold to or used by others.

Residential customer means any customer whose meter exclusively serves a residential establishment. Residential customers do not include commercial customers, contract treated water customers, EBS customers, industrial customers, outdoor customers, resale customers, or transient customers.

Residential establishment means any structure or group of structures within which at least 75 percent of the floor space (exclud-

ing corridors) is occupied or intended for occupancy as living quarters. Residential establishment does not include hotels, motels, inns, lodging houses or any similar establishment in which lodging is furnished for consideration and in which permanent residents occupy less than 80 percent of the accommodations. Residential establishment does not include group quarters. Group quarters are living arrangements for other than ordinary household life, such as dormitories, military barracks, hospitals, assisted care facilities and prisons.

Single-family residential customer means a residential customer whose meter is connected to, or serves exclusively, a residential establishment with one unit.

TCEQ public health service fee means the fee per connection for public water systems pursuant to 30 Texas Administrative Code (TAC) § 290.51(a)(3)—(6). The fee is included in each customer's bill for treated water connections and pays for services provided by the Texas Commission on Environmental Quality, including: scheduling of analysis of drinking water for chemical content; collection of samples of drinking water for chemical analyses; review of system data for evaluation of sampling waivers; inspection of public water systems; review of plans for new systems and major improvements to existing systems; and, provision of technical assistance as needed.

Transient meter customer means a nonresidential customer that has obtained a transient meter from the department for purposes approved by and in accordance with procedures adopted by the utility official.

Umbrella account means a customer account established under section 47-71 of this Code.

Unit means a house, an apartment, a town house, a manufactured home, a group of rooms, or a single room occupied or intended for occupancy as separate living quarters. Separate living quarters are those in which the occupants do not live and eat with any other persons in the structure and which quarters have either:

(1) Direct access from the outside of the structure or through a common hall: or

(2) Complete kitchen facilities for the exclusive use of the occupants.

The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or nonrelated persons who share living arrangements.

(c) *Residential water service.* Each residential customer shall incur monthly charges for water for each meter serving the customer's premises. Multifamily residential customer meters under umbrella accounts may be exempt from certain basic service charges

(1) *Single-family residential customers.* Each single-family residential customer's monthly water charge shall be calculated using the total of the applicable defined charge, the charge for additional quantities, and the TCEQ public health service fee set forth below:

a. *Defined charge.* The customer's defined charge shall be calculated using the chart set forth for this provision in the city fee schedule, referencing the customer's monthly water usage and meter size, measured by diameter in inches.

b. *Charge for additional quantities.* The customer's charge for additional quantities shall be calculated using customer's monthly water usage multiplied by the applicable incremental rates set forth for this provision in the city fee schedule.

c. *TCEQ public health service fee.*

(2) *Multifamily residential customers.* Each multifamily residential customer's monthly water charge shall be the total of the defined charge and the charge for additional quantities as set forth below.

a. *Defined charge.* The customer's defined charge shall be calculated using the chart set forth for this provision in the city fee schedule, referencing the customer's meter size, measured by diameter in inches.

b. *Charge for additional quantities.* The customer's charge for additional quantities shall be calculated using customer's monthly water usage multiplied by the incremental rate set forth for this provision in the city fee schedule.

c. *TCEQ public health service fee.*

(d) *Non-residential water service.* Non-residential customers shall incur monthly water charges for each meter based upon the customer's meter size, measured by diameter in inches, the charge for additional quantities, plus the TCEQ public health service fee, if applicable, in accordance with the applicable rates set out in the city fee schedule.

(1) *Resale customers.* Each resale customer's monthly water charge shall be the total of the defined charge and the charge for additional quantities, and the TCEQ public health service fee, if applicable, as set forth below.

a. *Defined charge.* The customer's defined charge shall be calculated using the chart set forth for this provision in the city fee schedule, referencing the customer's meter size, measured by diameter in inches.

b. *Charge for additional quantities.* The customer's charge for additional quantities shall be calculated using customer's monthly water usage multiplied by the applicable rates set forth for this provision in the city fee schedule.

c. *TCEQ public health service fee* for treated water connections only.

(2) *Outdoor customers.* Each outdoor customer's monthly water charge shall be the total of the defined charge and the charge for additional quantities, and the TCEQ public health service fee, if applicable, as set forth below:

a. *Defined charge.* The customer's defined charge shall be calculated using the charts set forth for this provision in the city fee schedule, referencing the customer's monthly water usage and meter size, measured by diameter in inches.

b. *Charge for additional quantities.* The customer's charge for additional quantities shall be calculated using customer's monthly water usage multiplied by the applicable rates set forth for this provision in the city fee schedule.

c. *TCEQ public health service fee* for treated water connections only.

(3) *Commercial and industrial customers.* With the exception of a customer with a metered fire connection, which shall be billed as provided in section 47-64(a) of this Code, each commercial customer's monthly water charge and each industrial customer's monthly water charge shall be the total of the defined charge and the charge for additional quantities, and the TCEQ public health service fee, if applicable, as set forth below:

a. *Defined charge.* The customer's defined charge shall be calculated using the charts set forth for this provision in the city fee schedule, referencing the customer's monthly water usage and meter size, measured by diameter in inches.

b. *Charge for additional quantities.* The customer's charge for additional quantities shall be calculated using customer's monthly water usage multiplied by the applicable rates set forth for this provision in the city fee schedule.

c. *TCEQ public health service fee* for treated water connections only.

(4) *Emergency backup service customer.* Each EBS customer's monthly water charge shall be the total of the defined charge and the charge for additional quantities, and the TCEQ public health service fee, if applicable, as set forth below:

a. *Defined charge.* The customer's defined charge shall be calculated

using the charts set forth for this provision in the city fee schedule, referencing the customer's monthly water usage and meter size, measured by diameter in inches.

b. *Charge for additional quantities.* The customer's charge for additional quantities shall be calculated using customer's monthly water usage multiplied by the applicable rates set forth for this provision in the city fee schedule.

c. *TCEQ public health service fee* for treated water connections only.

(5) *Reserved.*

(6) *Transient meter customers.* Each transient meter customer's monthly water charge shall be the total of the defined charge and the charge for additional quantities, and the TCEQ public health service fee, if applicable, as set forth below:

a. *Defined charge.* The customer's defined charge shall be calculated using the charts set forth for this provision in the city fee schedule, referencing the customer's monthly water usage and meter size, measured by diameter in inches.

b. *Charge for additional quantities.* The customer's charge for additional quantities shall be calculated using customer's monthly water usage multiplied by the applicable rates set forth for this provision in the city fee schedule.

c. *TCEQ public health service fee* for treated water connections only.

(e) *Emergency backup service (EBS) customer.*

(1) *Eligibility and applications.* Any person desiring to become an EBS customer must apply to the director. Each EBS application must:

a. Be made in a form prescribed by the director; and

b. Include engineering drawings and detailed specifications of the applicant's proposed installation of EBS equipment.

(2) Action upon applications. The director shall examine each EBS application. An application shall be approved if the director determines that:

a. The applicant can qualify as an EBS customer;

b. The requested EBS service is practical and sound from an engineering point of view;

c. The proposed installation of EBS equipment meets city standards; and

d. The application otherwise complies with this Code.

The director shall allow an applicant to modify its application or its proposed installation of EBS equipment so as to meet any requirements for approval.

(3) *EBS equipment.*

a. All installations of EBS equipment shall include measuring equipment, valves, backflow prevention devices, a locking mechanism, a proper vault and such other items as are necessary in the judgment of the director. All such installations shall conform to city standards as to location, materials and workmanship.

b. When the director has approved an application, the applicant shall furnish, deliver and install the EBS equipment at its own expense in strict compliance with this Code and the plans and specifications approved by the director. The applicant shall provide reasonable opportunities for the director to inspect the work as it progresses and shall so notify the director at appropriate times. When the completed installation has been inspected and approved by the director, the applicant shall:

1. Convey to the city the complete installation (excluding back

flow prevention devices) free and clear of liens and encumbrances by written documents approved by the director.

2. Deliver all keys to the locking mechanism to the director. To the extent an existing, city-owned installation is to be used for the applicant's EBS installation, the foregoing provisions may be modified by the director.

(4) *Monthly billing and charges.* Each EBS customer's monthly water charge shall be the total of the defined charge and the charge for additional quantities as set forth below:

a. *Defined charge.* The customer's defined charge shall be calculated using the charts set forth for this provision in the city fee schedule, referencing the customer's monthly water usage and meter size, measured by diameter in inches.

b. *Charge for additional quantities.* The customer's charge for additional quantities shall be calculated using customer's monthly water usage multiplied by the applicable rates set forth for this provision in the city fee schedule.

c. *Rates and charges.* Rates and charges for each EBS customer begin to accrue on the day its installation is conveyed to the city.

(5) *Opening and closing connections.* In the event of an emergency, the EBS customer may notify the director of the emergency and request that the EBS connection be unlocked and opened. If the director determines that an emergency exists, the city shall unlock and open the EBS connection. Under no circumstances shall the EBS customer unlock or open the connection or otherwise operate or tamper with the installation. When the emergency has ceased or is deemed to have ceased, the city shall close and lock the EBS connection. The emergency shall be deemed to have ceased when the EBS customer so notifies the director or when 30 days have elapsed after the date of EBS customer notified the director of the emergency, whichever first occurs. If the director determines that an extension of time will not cause undue hardship to the other customers of the city, the director may extend the time the EBS connection is open upon written request of the EBS customer and a showing by that customer that an emergency still exists and that all practicable steps are being taken to correct the circumstances causing the emergency. However, if at any time the director determines that an emergency has actually ceased and consults with the EBS customer, the director may close and lock the connection.

(6) *Termination of service.* Service to an EBS customer shall be terminated, after reasonable notice to the customer and an opportunity to be heard, if the customer fails to pay any rates or charges within the time allowed or if the customer fails to comply with the other terms of service applicable to such customer. Upon such termination, the connection shall be permanently closed, locked and disconnected, and the rates and charges shall cease accruing.

(f) *Contract treated water service.*

(1) *Eligibility and applications.* Applications for contract treated water service shall be made on forms prescribed by the director. Each application shall include the nonrefundable processing fee stated for this provision in the city fee schedule. Any customer or potential customer is eligible for contract treated water service under this subsection if:

a. The customer is a municipality or conservation and reclamation district organized under article XVI, section

59 of the Texas Constitution that proposes to resell water purchased from the city;

b. The customer would otherwise be a commercial customer and has minimum water consumption equal to at least 150,000,000 gallons per month;

c. The customer is a private utility company holding a certificate of convenience and necessity from the state that (i) resells water to single family or multi-family dwellings only and (ii) maintains a water distribution system in public rights-of-way or public easements; or

d. The customer would otherwise be a commercial customer and is in compliance with a conservation plan pursuant to chapters 288 and 295 of title 30 Texas Administrative Code to reduce its minimum water consumption from 150,000,000 or more gallons per month while continuing to provide the same or higher levels of production or services.

(2) *Contract requirements.* Upon receipt of a completed application, the department shall determine water availability and, if sufficient water is available for the customer, shall secure a written agreement from the applicant, which shall include:

a. The term of the agreement;

b. The minimum monthly quantity of water to be taken by the customer. This minimum for customers other than those described under items (1)a, (1)c and (1)d of this subsection shall be 150,000,000 gallons per month. Customers defined under items (1)a, (1)c and (1)d of this subsection shall be permitted to change the minimum monthly quantity only in accordance with the terms of their contracts;

c. The designation of the point or points of delivery;

d. Rates as described in subsection (f)(3) of this section; and

e. Any special requirements regarding metering or facilities desired by the parties.

No agreement for contract treated water service shall be valid unless approved by the city council.

(3) *Rates and charges.* Treated water supply contract customers shall incur monthly water charges for each meter including a defined charge based on the customer's meter size, measured by diameter in inches, and the volume charge for metered water usage. The contract rate for all water supplied under an untreated water supply contract is as stated in the city fee schedule for the volume of water, including minimum monthly amount and amounts in excess of the minimum monthly amount, as specified in the contract for each customer type as set out below, for treated water supply with airgap or treated water supply without airgap.

For contract treated water customers, the monthly charge shall equal:

$$P \times R$$

plus

$$(P\text{-}M) \times F$$

Where:

P = The total water delivery to such customer during the month expressed in units of 1,000 gallons, except if the minimum monthly amount of water specified in the customer's contract is greater than P, P shall equal M;

M = The minimum monthly amount of water specified in the customer's contract expressed in units of 1,000 gallons; and

R = The applicable rate stated for this provision in the city fee schedule contract treated water service with or without airgap. An airgap shall be required of every customer unless the director determines that this requirement be waived because of prior conditions, excessive pressure, or health and safety concerns.

F = The contract treated water service monthly charge factor stated for this provision in the city fee schedule.

A contract treated water service charge premium per thousand gallons shall apply to amounts taken in excess of the minimum monthly amount.

In the event a billing period is longer or shorter than 30 days, a daily charge shall be determined using the formula specified above, but with P defined as average daily amount of water delivered during the billing period and M defined as the monthly minimum divided by 30. Such daily charge shall then be multiplied by the number of days in the billing period.

(g) *Paperless billing rebate.* The director is authorized to offer customers a paperless billing rebate for switching from paper billing to paperless billing. The initial rebate is set at $0.50, the director may adjust the rate once per year based on changes in costs.

Sec. 47-62 Groundwater reduction plan agreements.

(a) The Harris-Galveston Subsidence District ("subsidence district") has established requirements for the reduction of groundwater production in Harris and Galveston counties. Groundwater producers within the subsidence district are required to formulate ground water reduction plans ("GRP") to reduce their production of groundwater as provided in their GRP in order to abate land subsidence. According to the district regulatory plan, two or more groundwater producers may enter into agreements to share costs and cooperate to reduce groundwater production and jointly produce a GRP to attain the percentage reduction of groundwater production required by the subsidence district ("GRP agreement"). The city has acquired sufficient surface water rights and constructed facilities for the treatment and transmission of surface water to become the manager of a GRP for itself and other groundwater producers ("GRP participants") such that they jointly comply with the subsidence district's regulatory plan.

(b) The monthly charge for GRP participants not purchasing water from the city is:

$R \times P \times Q$, where

R is the base rate for contract treated water customers receiving water through an airgap.

P is the percentage reduction for groundwater production required for the GRP participant under the subsidence district regulatory plan, or the percentage required under the GRP agreement, whichever percentage is the greater.

Q is the quantity of groundwater produced by the GRP participant during the month.

(c) GRP participants purchasing treated water from the city are subject to the minimum purchase requirements of their contracts in accordance with their location in Regulatory Areas 1 and 2, or Regulatory Area 3, all defined in the subsidence district regulations, as set forth in the city fee schedule. Standard contract treated water rates, rate classifications, and premiums apply to GRP participants that purchase treated water from the city.

(d) The city council has approved standard contract forms for wholesale and retail GRP agreements for groundwater producers in area three of the subsidence district. All other GRP agreements are subject to individual approval by the city council.

(e) Each application for a GRP agreement shall include the nonrefundable processing fee stated for this provision in the city fee schedule.

(f) The department shall provide application forms for GRP agreements and administer the GRP program on behalf of the city. Prior to transmittal of the GRP agreement to the mayor for signature, the department shall review the application to ensure that the GRP agreement is consistent with both the city's GRP and with the department's projection for future surface water availability and surface water demand. Money collected under the GRP agreements shall be considered gross revenue of the water and sewer utility system.

(Ord. No. 08-630, §§ 1, 6, 7-9-08, eff. 9-1-08; Ord. No. 2011-1168, § 13, 12-14-2011; Ord. No. 2021-515, § 3(Exh. B), 6-23-2021, eff. 7-1-2021)

Sec. 47-63. Minimum monthly charges generally.

(a) Wherever meters are connected to the city's water distribution system, the minimum monthly charges called for in section 47-61 of this Code shall apply (except as otherwise specifically provided in this chapter), regardless of whether or not any water is actually used or consumed and regardless of whether or not the premises to which connection is made have water service from another source. Where more than one meter is used to serve the premises, the total charge for water service shall be computed as if each were connected to separate premises, except a multifamily residential customer that has established an umbrella account shall pay the minimum monthly charge based on the size of its largest meter only.

(b) The department shall create a meter lock fee and place such a fee on the city fee schedule.

(c) If a meter lock can be placed on the meter, a customer may request that the department place a lock on the meter. Once the department determines that a lock can be placed, the department will place a lock on the meter after the customer pays a one-time fee. Once the meter is locked, then the defined charge described in section 47-61 shall be suspended from their account until service is restored.

(d) During the suspension of service through this section, if the department determines that the meter lock has been tampered with but the meter did not register water usage, then the one-time replacement fee will be re-assessed and there will be no other penalty.

(e) During the suspension of service through this section, if the department determines that the meter lock has been tampered with and the meter registered water usage, a fine as described under Section 47.7 may be assessed and all defined charges will be reapplied and reassessed going back to the placement of the meter lock. All defined charges shall be assessed and the owner will be ineligible for a new meter lock.

(f) When service is reactivated by the customer, if there has been no change to the service unit calculation of the property, then the customer can petition the director to have any impact fees associated with reactivating the account waived. This petition may be rejected if the director finds there has been a change in the service unit calculation to the property.

(g) The minimum charges called for in section 47-61 of this Code shall be in addition to and not credited against the charges made for installation of the meter and making connections as provided elsewhere in this Code.

(Code 1968, § 49-54; Ord. No. 76-1847, § 3, 10-20-76; Ord. No. 79-2336, § 1, 12-26-79; Ord. No. 93-314, § 7, 3-24-93; Ord. No. 2023-1127, § 8, 12-13-2023)

Sec. 47-64. Service charges for metered fire connection or unmetered connection for fire sprinkling systems and other fire suppression systems.

(a) *Metered fire connection.* Each metered fire connection customer's monthly water charge shall be the total of the defined charge and the charge for additional quantities using the rates for industrial customers without surcharge as stated in the city fee schedule, and the TCEQ public health service fee, if applicable, as set forth below:

(1) *Defined charge.* The customer's defined charge shall be calculated using the charts set forth for this provision in the city fee schedule, referencing the customer's monthly water usage and meter size, measured by diameter in inches.

(2) *Charge for additional quantities.* The customer's charge for additional quantities shall be calculated using customer's monthly water usage multiplied by the applicable rates set forth for this provision in the city fee schedule for industrial water use.

(3) *TCEQ public health service fee* for treated water connections only.

(b) *Unmetered fire connection.* Each person with an unmetered connection serving a fire sprinkler system under the provisions of subsection (b) of section 47-4 of this Code shall pay the monthly service charge stated for this provision in the city fee schedule for the corresponding size of the diameter of each unmetered sprinkler service line connected to the city's water main. The charge for a fire line with a city approved backflow prevention device with a bypass meter will be the same as for unmetered fire lines.

(c) *Billing and enforcement.* Billing for charges made under this section shall be made on a monthly basis. Payment shall be due and made in accordance with the provisions of this Code, and payment of such charges shall be enforced by any and all means available to the city under other provisions of this Code, including termination of service.

(d) *Water supply for private fire suppression.* The department may supply water for private fire suppression systems if in the opinion of the utility official the connection will not cause appreciable reduction in the pressure of the city's water system. The director shall determine all conditions necessary for connecting such private fire protection to the city's water system to ensure the safety of the public water system. The cost for a city employee to participate in or witness any test of a fire suppression system as required by this Code or any other ordinance of the city is stated for this provision in the city fee schedule.

(Code 1968, § 49-55; Ord. No. 83-19, § 7, 1-11-83; Ord. No. 86-1663, § 5, 9-17-86; Ord. No. 88-1194, § 3, 7-6-88; Ord. No. 89-1048, § 3, 7-5-89; Ord. No. 90-861, § 10, 7-11-90; Ord. No. 92-113, § 3, 2-5-92; Ord. No. 02-926, § 6, 10-2-02; Ord. No. 03-332, § 5, 4-2-03; Ord. No. 04-297, eff. 4-1-07; Ord. No. 04-299, § 5.2, 4-21-04; Ord. No. 07-599, § 21, 5-16-07; Ord. No. 09-206, § 3, 3-11-09, eff. 4-1-09; Ord. No. 2010-305, § 3, 4-21-2010, eff. 6-1-2010; Ord. No. 2011-1086, § 2, 12-7-2011; Ord. No. 2011-1168, § 13, 12-14-2011; Ord. No. 2021-515, § 3(Exh. B), 6-23-2021, eff. 7-1-2021)

Sec. 47-65. Billing errors—In general.

Subject to the provisions of this article, the department shall charge for all water that passes through the water meter.

If the department commits a billing error, it shall correct the customer's bill as soon as it discovers the incorrect billing. If the incorrect billing is an overcharge that is more than six times the customer's average bill, the department shall refund the overcharge to the customer at the request of the customer. Provided, however, if the customer can show extreme economic hardship to the utility official, the department shall refund the overcharge to the customer notwithstanding the amount of the overcharge. The utility official shall determine whether extreme economic hardship exists. In cases where the overcharge is not refunded, the department shall credit the customer's account the amount of the overcharge to be applied to the charges thereafter accruing.

Subject to the provisions of this article, for non-residential customers, contract treated water customers, or contract untreated water customers, the department may not correct any billing error that occurred more than two years prior to the date the department learns of the error. For residential customers, if the correction results in a credit for the customer, the department shall correct the error that occurred up to two years prior to the date the department learns of the error. If the correction results in the residential customer owing the department money, the department shall correct the error that occurred up to three months prior to the date the department learns of the error. However, in the case of fraud or theft of city water or sewer service, the city reserves the right to recover the amount owed by the customer back to the date of the fraud or theft.
(Code 1968, § 49-56; Ord. No. 06-502, § 1, 5-17-06; Ord. No. 2023-1127, § 2, 12-13-2023)

Sec. 47-66. Reserved.

Editor's note—Ord. No. 07-599, § 22, adopted May 16, 2007, repealed § 47-66 in its entirety. Formerly, said section pertained to charge when meter out of order and derived from Code 1968, § 49-57; Ord. No. 87-1326, § 10, 8-5-87.

Sec. 47-67. Charge for change of customer at same address.

Each time that a request for change of customer, for water service to an address or property is made, the fee stated for this provision in the city fee schedule shall be charged, and shall be added to the first bill sent to the new customer for water service.
(Code 1968, § 49-58; Ord. No. 83-19, § 8, 1-11-83; Ord. No. 2011-1168, § 13, 12-14-2011)

Sec. 47-68. Deposit to assure payment.

(a) Every person requesting water service from the city shall furnish the information required by the utility official, including information necessary to investigate the credit stability of the applicant. The utility official may require that an applicant provide the name and address of the owner of the service address, and the full legal description of the service address.

(1) A customer who uses service without making application shall pay for all water used from the date of the last meter reading previous to that customer's use of service.

If the customer fails to make an application or to provide information that the department requests, the department may disconnect the premises without further notice.

(2) By making an application for water service, the applicant agrees to timely pay for all furnished services.

(3) The department may review multi-family, light commercial, commercial, and industrial customer accounts at any time to determine financial stability.

(b) The city may disconnect service for failure to make an application or provide information requested by the department.

(c) If a deposit is required, water service will not be commenced until the applicant has made the required deposit with the city.

(d) Each time a termination of service is made to a customer for failure to make timely payment of charges for water or sanitary sewer service, a recheck of the customer's credit stability will be made and a deposit will be required before water service is restored, if the utility official determines that it is necessary in order to protect the interests of the city.

(e) Deposits will be retained by the city until a satisfactory credit rating has been established by the customer making the deposit, or termination of services requested, or application for services to the same property or address is made by a new applicant.

(f) After a customer's water service has been discontinued at his request, and all water charges and fees have been fully satisfied, if he has a deposit with the department, he shall be entitled to have refunded to him the deposit or the

remaining portion thereof after all charges due the city by the customer have been deducted from such deposit.

(g) In order to collect past due payments, the utility official may transfer account balances from one account to another for customers with more than one account (including accounts for different properties), but the utility official must give written notice to the customer.

(Code 1968, § 49-59; Ord. No. 89-24, § 4, 1-4-89; Ord. No. 90-635, §§ 153, 160, 5-23-90; Ord. No. 93-514, § 119, 5-5-93; Ord. No. 07-599, §§ 23, 24, 5-16-07)

Sec. 47-69. Potable water bills; charge for late payment.

(a) All potable water bills shall be payable in full based upon the rates and schedules provided in this division, on or before the due date stated on the customer's bill, unless the customer notifies the department in writing that he or she desires to challenge the correctness of the bill in an administrative hearing as described in section 47-70.1. If payment in full is not received by the department or an authorized agent by the due date and the customer has not requested an administrative hearing, the department shall bill such customer ten percent of the past due amount as a charge for late payment. Provided, that any bill attempted to be paid by a check or money order drawn on or issued by a financial institution which has had it funds frozen by involuntary, or voluntary action after the attempt to pay the bill in such manner, shall not be charged in late fee if the bill is paid within 30 days from the date the customer has been notified that payment on the check or money order has not been honored. The director shall prescribe the form for the customer's bills.

(b) Notwithstanding the provisions of subsection (a), late charges shall not apply to governmental customers (unless provided by contract), exempt senior customers, persons with a disability or disabled veterans.

As used in this subsection, the term *"governmental customer"* means the United States, the city, and the state including its agencies and political subdivisions.

(Code 1968, § 49-60; Ord. No. 71-204, § 1, 1-27-71; Ord. No. 82-37, § 6, 1-12-82; Ord. No. 83-19, § 9, 1-11-83; Ord. No. 84-1279, § 1, 8-14-84; Ord. No. 87-1326, § 11, 8-5-87; Ord. No. 89-51, § 1, 1-11-89; Ord. No. 06-502, § 2, 5-17-06; Ord. No. 07-599, § 25, 5-16-07)

Sec. 47-70. Termination of service for failure to pay.

(a) If any customer fails to pay charges for water service furnished by the city when due, the department shall notify such customer about the delinquent bill, the amount the customer owes, and the right of the customer to an administrative review or hearing as provided by section 47-70.1 of this Code. The department shall give notice to single family residential customers concerning the availability of the W.A.T.E.R. Fund established pursuant to chapter 36 of this Code for assistance in paying water and sewer charges. Provided, an application for assistance from the W.A.T.E.R. Fund shall not delay or otherwise affect the responsibilities of the customer or the city under this chapter.

(b) If a customer does not choose to challenge a charge for water service, then, at the end of the ten-day period following notice to the customer, the water shall be immediately turned off and not turned on again, except by authorized representatives of the department.

(c) When the water supply to any property or premises of a customer has been disconnected or otherwise terminated by the department for failure of the customer to pay any water charges due and owing to the city, the water service to that customer at the affected property or premises shall not be resumed until and after all delinquent charges have been fully paid and satisfied, or satisfactory arrangements have been made with the director to pay such delinquent bills, and the delinquent customer has made any required deposit with the department. Whenever an umbrella account established under section 47-71 of this Code is delinquent, water service to each meter under that account may be terminated by the department in accordance with this subsection.

(d) The department shall charge the customer the fee stated for this provision in the city fee schedule as the cost to restore water service after

termination for nonpayment or, in case where there is a new tenant at the service address, the failure to make an application.

(e) If the department has closed the water meter pursuant to the provisions of this chapter, and the customer, without the department's authorization, restores water service, the department shall charge the customer for water usage plus the reclosing fee stated for this provision in the city fee schedule for each occurrence, plus the following penalties:

(1) No penalty for first occurrence;

(2) $75.00 for second occurrence; and

(3) $230.00 for third and subsequent occurrences.

In the event the department requires a penalty, it must provide notice to the customer and allow the customer to contest the penalty at an administrative hearing as provided in section 47-70.1 of this Code.

If the meter has been damaged in the attempt to unlawfully restore water services, the department shall charge the customer the actual cost to repair or replace the meter. If it is necessary for the department to place a locking device on the meter to prevent theft of water, the department shall charge the customer not only the cost to repair or replace the meter, but also the cost of the locking device.

(f) The foregoing procedures shall also apply to sewer service charges. An informal administrative hearing as to the correctness of a charge for sewer service may be combined with a similar hearing on water charges for the same customer. (Code 1968, § 49-61; Ord. No. 83-19, § 10, 1-11-83; Ord. No. 84-1919, § 2, 12-18-84; Ord. No. 86-435, § 3, 4-1-86; Ord. No. 89-1493, §§ 1, 2, 10-18-89; Ord. No. 93-314, § 6, 3-24-93; Ord. No. 00-791, § 1, 9-6-00; Ord. No. 03-925, § 4, 10-8-03; Ord. No. 03-1196, § 2, 12-23-03; Ord. No. 04-460, § 3, 5-12-04; Ord. No. 07-599, § 26, 5-16-07; Ord. No. 2011-1168, § 13, 12-14-2011)

Sec. 47-70.1. Disputing water bills; administrative review and hearing.

(a) Customers have the right to request an administrative review and/or administrative hearing. The policies governing such review and hearing are prescribed by the utility official and will be available to any person upon request; provided, however, the field investigator for the city shall be authorized to conduct such inquiry or investigation as the investigator or reviewing official shall deem appropriate, including, but not limited to, personal inspection of the customer location and water connection. The reviewing official may also receive and consider information submitted by the customer, to include: Reports from plumbers, engineers, or other relevant sources; and relevant photographs and other tangible information, whether provided by the city or the customer. The customer has 90 days from the date of the first bill that is disputed to request an administrative review or hearing.

(b) An administrative review is an investigation by the department of the customer's account and relevant facts in order to resolve the dispute.

(c) A customer may request an administrative hearing within ten days of the date of the customer's notification of the administrative review outcome, to review disputes related to article I, division 1 of article II, and article III of this chapter. Before the customer may request the administrative hearing, the department must complete an administrative review of the disputed charges that are the subject of the administrative hearing. The hearing shall be set at a reasonable time and place and shall be held before a hearing officer independent of the operation of the city's water and sewer system, designated by the utility official, with the power to correct or adjust water bills in accordance with applicable laws; provided, however, the department shall not provide hearings for the following:

(1) The terms or denial of a deferred pay agreement;

(2) The amount, terms or denial of assistance from the W.A.T.E.R. Fund;

(3) The customer's financial inability to pay for water services;

(4) The rate schedule;

(5) The amount of deposit;

(6) The amount or application of late penalties;

(7) Requests that are inconsistent with city ordinances;

(8) The cost of administrative fees;

(9) A matter where the complainant is not the customer for the account; or

(10) A decision by the utility official under subsection 47-73(c) of this Code as to whether or not a payment plan should be extended.

(d) The customer has the right to be represented by counsel or any other agent at said hearing and shall notify the city at least ten business days prior to the hearing of such representation. In the event the customer is represented by legal counsel, the city may likewise be represented by legal counsel. Failure of the customer to give advance notice of representation by legal counsel will result in the hearing being postponed unless the city fails to object to such lack of notice. In addition to the evidence presented by the customer and the department, the hearing officer may, at the hearing officer's discretion, request additional evidence from either party and may conduct such additional inquiry or investigation as the hearing officer deems appropriate. The hearing officer shall consider all credible evidence presented and shall, based on a preponderance of the evidence, render a written ruling upholding the decision of the department, modifying the decision of the department, or reversing the decision of the department in accordance with applicable laws. The hearing officer's written ruling shall specify the applicable provision of this Code and shall direct the actions to be taken by the department to implement the ruling. The department shall ensure that a record is made of the hearing.

(e) Termination of service is suspended by a request for an administrative hearing unless the service was terminated prior to the customer's request for the hearing, the customer closes or transfers his account to a new address, the customer fails to pay charges not in dispute or the customer has prevented the city from obtaining meter readings within the last 60 days.
(Ord. No. 84-1919, § 3, 12-18-84; Ord. No. 86-435, § 2, 4-1-86; Ord. No. 92-23, § 5, 1-15-92; Ord. No. 03-925, § 5, 10-8-03; Ord. No. 03-1196, § 2, 12-23-03; Ord. No. 07-599, § 28, 5-16-07; Ord. No. 2013-320, § 4, 4-10-2013, eff. 6-1-2013; Ord. No. 2021-583, § 4, 6-30-2021)

Sec. 47-70.2. Acceptance and disposition of donations to the W.A.T.E.R. Fund.

(a) The utility official is authorized to accept donations to the W.A.T.E.R. Fund, as established by section 36-61 of this Code, The utility official shall place such funds in the city's trust and agency account in trust for the W.A.T.E.R. Fund.

The utility official shall include the following statement on all water and sanitary sewer bills:

'Check if $1 added as gift to W.A.T.E.R.'

Whenever a customer's water or sanitary sewer payment shall exceed the amount then due by the exact sum of $1.00 and such customer has checked the box provided on the bill for contributions to the W.A.T.E.R. Fund, the utility official shall deem the excess a contribution in the amount of $1.00 to the W.A.T.E.R. Fund.

(b) Upon the written approval of the utility official, the department shall apply W.A.T.E.R. funds as a credit to a customer's water and sanitary sewer bill in the same proportion, which the water and sanitary sewer charges bear to the customer's total bill. Such donated and transferred W.A.T.E.R. funds shall be under the general direction and control of the utility official for all purposes and shall under no circumstances be commingled with water, sanitary sewer or other public funds.
(Ord. No. 07-599, § 28, 5-16-07)

Sec. 47-71. Meter reading not to be combined for billing purposes; exception for umbrella account.

(a) As used in this section, the following terms shall have the meanings set out below, unless the context clearly indicates another meaning is intended:

Contiguous: An establishment is contiguous if all included buildings lie on a continuous tract of land, except for division by a street, alley, sidewalk, right-of-way, natural or man-made waterway, or preserved green area.

Umbrella account shall mean a multifamily residential customer account established pursuant to this section.

(b) Except as provided in this section for umbrella accounts, the meter readings of two or more water meters, even though serving a single building or establishment, shall not be combined for billing purposes, but separate billing shall be made for the water metered through each individual meter based on the sliding scale of charges provided by this division, with the charge computed the same as if there were only one meter serving such customer building or establishment.

(c) A multifamily residential customer whose establishment is served by more than one meter may elect to establish an umbrella account under which all meter readings from its establishment are combined for billing purposes. In order to be eligible to establish an umbrella account the following criteria must be met:

(1) The establishment must be contiguous, and all included buildings must be under the same ownership; and

(2) The owner of the establishment must complete the application for the umbrella account and agree to the conditions required by this article.

(d) The following types of meters may not be included in an umbrella account:

(1) Submeters maintained by the customer;

(2) Meters for which the city bills for water service only, such as outdoor customer meters;

(3) Meters that measure wastewater discharge only; and

(4) Meters that determine the usage for a single unit only of the establishment.

(e) The utility official shall promulgate the application form for establishment of the umbrella account. The application shall include information regarding the address or addresses of the multifamily residential establishment, the nature of any factor that may determine whether the buildings or structures are contiguous, the name of the owner, the number of units in the establishment, the number of meters covered by the proposed account, and any other information deemed relevant by the utility official. The application must be signed by the owner or duly authorized agent thereof, and must be notarized.

(f) The utility official shall grant the owner an umbrella account if the utility official is satisfied that all criteria of this section are met, and the owner or his agent has completed the application for an umbrella account. The umbrella account shall be effective for the next billing period after approval by the utility official.

(g) The following events will terminate the umbrella account:

(1) a transfer of ownership of the establishment in whole or in part; or

(2) an election in writing by the owner of the establishment to terminate the umbrella account. Any such election to terminate shall not be effective until the end of the billing period during which the owner's notice is received by the department. An umbrella account that is delinquent may not be terminated by owner election.

(Code 1968, § 49-62; Ord. No. 93-314, § 7, 3-24-93; Ord. No. 2013-320, §§ 4, 5, 4-10-2013, eff. 6-1-2013)

Sec. 47-72. Scaling or reduction of bill generally.

Any scaling or reduction of a water bill as shown by a meter is unlawful and is prohibited,

unless such reduction is made in accordance with specific provisions of this division. Any officer or employee of the city scaling or reducing any meter bill, except in accordance with such provisions, shall be personally responsible for the reduction in the bill, and shall be dismissed from the city's service therefor.
(Code 1968, § 49-63)

Sec. 47-73. Testing meters.

(a) In case any consumer of water questions the accuracy of a city water meter, he may obtain a test thereof upon written request therefor to the department. The customer may additionally request that he be permitted to be present at the removal and testing of the meter in person or by agent, and the customer may also invite an independent expert, at the customer's expense, to observe the removal and testing, provided the customer identifies in the written request the name of the expert and the expert's area of expertise.

(b) Upon the receipt of a written request therefor, the city shall cause the meter to be thoroughly and accurately tested. If the party complaining of the meter has requested that he be present for the removal and testing of the meter, he shall be afforded the opportunity to be present and participate therein.

(c) All meters must meet the accuracy test guidelines of the American Water Works Association. The department shall adjust customer bills for up to 24 months on the basis of results of tests performed by the department. If the meter or register is defective, the department shall repair or replace it. If a meter is damaged so that it cannot be tested, the customer's account may be adjusted for up to 24 months based on the average usage. Any adjustment in the bill to the city's advantage associated with a water meter shall be payable by the customer prorated over future billings equal to the number of past billings for which the adjustment was accrued; provided, however, in an instance where the utility official finds that such a payment plan would constitute extreme economic hardship, based on a determination that the customer's monthly household income meets the criteria established in section 36-62(2)b of this Code, the utility official may extend the payment plan over additional billings as the official may deem appropriate. A decision by the utility official under this subsection as to whether or not a payment plan should be extended shall be final and not subject to appeal.

(d) When the department retests the meter at the request of the customer, the department shall bill the customer for the cost as follows:

(1) If a customer requests that a meter be tested that is within the manufacturer's warranty period, and such meter when tested is accurate under the American Water Works Association guidelines; or

(2) If the department has tested the meter within the previous 12 months, and such meter when retested at the request of the customer is accurate under the American Water Works Association guidelines, then the department shall charge the customer the fee stated for this provision in the city fee schedule for the following:

a. Field testing of meters less than three inches.

b. Bench testing of meters less than three inches, plus cost of the new meter and related electronic devices.

c. Bench testing three-inch and larger meters, plus cost of the new meter,

(e) If the department re-reads a meter at the customer's request, and the reading verifies that the department's original reading was correct (equal to or greater than the prior reading), the department shall charge the customer the fee stated for in this provision in the city fee schedule. Provided, however, that exempt senior customers, disabled veterans and persons with disability are exempt from this fee.
(Code 1968, § 49-64; Ord. No. 87-1326, § 12, 8-5-87; Ord. No. 07-599, §§ 29—32, 5-16-07; Ord. No. 2011-1168, § 13, 12-14-2011; Ord. No. 2013-320, § 7, 4-10-2013, eff. 6-1-2013)

Sec. 47-74. Adjustment of bill as result of defect in customer's line.

(a) Any residential, commercial, multifamily or outdoor customer of the city may request an adjustment of any water bill showing excess

usage due to a loss of water through an excusable defect in the customer's water line for a period not to exceed three consecutive months. To apply for the adjustment the customer must file a sworn written application or an application that conforms to minimum state law requirements for unsworn declarations with the director within six months of the repair of the excusable defect. There are no limit to the number of times customers may apply for and receive adjustments under this section. The director shall promulgate all necessary adjustment application forms. The adjustment application shall contain the following information and any other information as the director may require:

(1) The name of the applicant, the address or description of the property or premises furnished water, the bills which are sought to be adjusted, the date of the bill and the period of water usage covered thereby.

(2) A statement of the date on which the excusable defect in the applicant's water line was discovered and the date on which it was repaired; and a statement that water was lost through the city water meter serving such property and that such water was not used in any manner by anyone.

(3) A written acknowledgment that the applicant makes the statements shown on the application and swears to their veracity for the purpose of inducing the city to grant a reduction in the amount of the water bill for which an adjustment is requested.

(4) An indication of any additional water consuming devices placed in use on the applicant's premises during the period covered by such bill.

(5) Documentation shall be submitted detailing the exact nature and date of repairs to the applicant's water line.

(6) A statement that the applicant is personally familiar with all the matters of facts stated in the application and sworn to therein, that they are made on his personal knowledge and that they are each true and correct.

(7) A statement executed by the applicant setting forth an understanding that the application is a government record subject to criminal prosecution for false statements under chapter 37 of the Texas Penal Code and the applicant's certification that the application contains no false statements.

(b) Upon receipt of a properly completed application, the director shall review the application for completeness and to determine if the applicant has been a customer for a sufficient length of time to make an adjustment determination. If the applicant has not been a customer for a sufficient length of time needed to determine normal consumption as determined by the director, then the department shall defer the adjustment for a sufficient period of time needed to calculate the customer's average water usage. If the applicant qualifies for an adjustment, by meeting the requirements set out in subsection 47-74(a) of this Code, then the applicant's bill shall be adjusted as follows:

(1) For an excusable defect in a customer's line that is not a city-caused leak, if the customer repairs the leak within 30 days of receipt of a bill that first reflects the leak, the customer shall be billed only at their established rate for customers in the applicant's rate classification applied to the average usage and this is the only amount that will be charged. There will be no additional charge for excess usage.

Provided, however, for multifamily residential customers that have established umbrella accounts, average usage and excess usage under this section shall be determined with reference to each customer meter rather than the entire account as billed by the department.

(2) For an excusable defect in a customer's line that is not a city-caused leak that is repaired between 30 and 60 days of receipt of a bill that first reflects the

leak, a rate of charge equal to one-fourth of the established rate of such water usage by a customer in the applicant's classification shall be applied to the excess usage to determine the amount the applicant must pay for excess usage.

The established rate for customers in the applicant's rate classification will be applied to the average usage and this amount will be added to the amount due for the excess usage and the total of those two amounts will be the amount that the applicant must pay for water usage during the period covered by the adjusted bill.

Provided, however, for multifamily residential customers that have established umbrella accounts, average usage and excess usage under this section shall be determined with reference to each customer meter rather than the entire account as billed by the department.

(3) For an excusable defect in a customer's line that is not a city-caused leak that is repaired after 60 days of receipt of a bill that first reflects the leak, a rate of charge equal to one-half of the established rate of such water usage by a customer in the applicant's classification shall be applied to the excess usage to determine the amount the applicant must pay for excess usage.

The established rate for customers in the applicant's rate classification will be applied to the average usage and this amount will be added to the amount due for the excess usage and the total of those two amounts will be the amount that the applicant must pay for water usage during the period covered by the adjusted bill.

Provided, however, for multifamily residential customers that have established umbrella accounts, average usage and excess usage under this section shall be determined with reference to each customer meter rather than the entire account as billed by the department.

(4) For leak adjustments calculated under subsection (b)(2) or subsection (b)(3) there will not be any associated sanitary charges as calculated under Section 47, Article III related to the one-fourth or one-half excess usage charge.

(5) For an excusable defect in a customer's line that is documented and verified by the city as a city-caused leak, a rate of charge equal to the established rate of such water usage by a customer in the applicant's classification shall be applied to the applicant's average water usage derived in the leak calculation, which determines the customer's normal usage and excludes charges for the customer's excess usage to determine the amount the applicant must pay for water usage during the period specified in the customer's application.

(c) If the applicant has already paid the bill for which an adjustment is authorized under this section and the adjustment is no more than six times the applicant's average bill, the department shall credit the applicant's account the amount of the adjustment to be applied to the charges thereafter accruing. However, if the adjustment is more than six times the customer's average bill and the customer requests a refund, or the applicant can show extreme economic hardship to the director, the department shall refund the amount of the adjustment as specified in section 47-74.1 of this Code. The director shall determine whether extreme economic hardship exists.

If an applicant discontinues water service before subsequent charges have depleted the credit, the department shall refund to the applicant at the time of discontinuance the remaining credit balance minus any overdue debt the applicant owes the city.

(d) Except as provided by section 47-75.2 of this Code, a determination by the director of the amount of an adjustment to be made in an applicant's water bill in accordance with the provisions of this section shall be final.
(Code 1968, § 49-65; Ord. No. 83-19, § 11, 1-11-83; Ord. No. 87-1326, § 13, 8-5-87; Ord. No. 88-128, § 1, 1-27-88; Ord. No. 90-635, §§ 153, 161, 5-23-90; Ord. No. 93-314, § 8, 3-24-93; Ord. No. 93-514, § 120, 5-5-93; Ord. No. 97-497, §§ 1, 2, 5-7-97; Ord. No. 06-502, § 3, 5-17-06; Ord. No. 07-599, §§ 33, 34, 5-16-07; Ord. No. 2013-320, §§ 8, 9, 4-1-2013, eff. 6-1-2013; Ord. No. 2018-11, § 49, 1-10-2018; Ord. No. 2021-583, § 5, 6-30-2021; Ord. No. 2023-1127, § 3, 12-13-2023)

Sec. 47-74.1. Leak balance remaining adjustment.

(a) Any single-family residential customer with a leak balance remaining (LBR) may request a leak balance remaining adjustment. As used in this section the term leak balance remaining means a water bill amount due that is derived from excess usage that remains after the director's approval of a billing adjustment under section 47-74 of this Code. The LBR includes only water and sewer service charges on the customer's account and may include usage billed in consecutive months prior to or after the months adjusted under section 47-74 of this Code.

(b) To qualify for an LBR adjustment, the LBR must be greater than $1,000.00. For elderly customers who meet the eligibility criteria for elderly residents in section 36-62 (1) of this Code, the LBR must be greater than $100.00. Customers requesting an LBR adjustment shall submit an LBR adjustment application on a form prescribed by the director. The application form shall contain a statement requiring the applicant to affirm its understanding that the application is a government record subject to criminal prosecution for false statements under chapter 37 of the Texas Penal Code, and a statement that the application contains no false statements.

(c) A customer requesting an LBR must demonstrate that he:

(1) Is the named account holder of record at the time that the excusable defect occurred;

(2) Qualified for and received an adjustment under section 47-74 of this Code;

(3) Had an excusable defect in the line that was not a city-caused leak;

(4) Worked with the customer account services' (CAS) collections team and exhausted the CAS recommended assistance options prior to submitting the LBR adjustment application;

(5) Submitted the LBR adjustment application within 30 days after the date on which an approved adjustment for the defect in the customer's line appeared on the bill; and

(6) Had not received an LBR adjustment on the account during the past 12-month period.

(d) Upon receipt of a completed LBR adjustment application, the director shall review the application and if the director approves the application as being eligible for an adjustment under this section, the customer's bill shall be adjusted as follows:

(1) For customers with a leak balance remaining greater than $1,000.00, the leak balance remaining shall be adjusted to $1,000.00.

(2) Notwithstanding item (1) of this subsection, for eligible elderly customers with a leak balance remaining greater than $100.00, the leak balance remaining shall be adjusted to $100.00.

(e) The LBR billing adjustment will be applied to the customer's account upon full payment of the amount owed after the LBR adjustment.

(f) The director shall offer a customer who receives a LBR adjustment a payment agreement to pay any remaining balance on the account in monthly installments.

(g) In the event of extraordinary circumstances and when reasonable effort was made by customer to remedy the defect in the water line in a timely manner, the director may consider additional qualifying conditions as prescribed in departmental procedures.

(h) Within ten days of the customer notification of the LBR decision, the customer may request an internal review by the department; however, the decision of the director or the director's designee following the internal review is final. There are no rights for further administrative review, an administrative hearing, or any further proceedings or appeals regarding the LBR Adjustment Application and/or the LBR Adjustment under this section.

(i) Customers may receive no more than one LBR adjustment in any 12-month period for any one account.

(Ord. No. 2021-583, § 5, 6-30-2021; Ord. No. 2023-1127, § 4, 12-13-2023)

Sec. 47-75. Adjustment of unusually large bill.

(a) Any single-family residential customer who receives a water bill for any given month that is greater than 200 percent of the average usage of the customer, the customer may request an adjustment of the bill in the manner provided in this section. Provided, that the customer must make an application within six months of receipt of such bill and only one such monthly bill out of any 12 consecutive monthly bills may be adjusted under this section. If the applicant has not been a customer for a sufficient length of time for the department to determine average usage, the department shall delay the adjustment until it can calculate the average usage. In order to request such an adjustment, the customer must file an application for the adjustment on a form furnished by the utility official. The application form shall contain a statement setting forth an understanding that the application is a government record subject to criminal prosecution for false statements under chapter 37 of the Texas Penal Code, and the customer must state that the application contains no false statements. The application shall identify the bill and briefly state:

(1) The reasons for the request for the adjustment;

(2) A description of the additional water consuming devices or fixtures, if any, that have been placed in use by the customer during the current month or the preceding 12 months;

(3) That there have been no plumbing repairs or necessity therefor during the month for which an adjustment is sought or that the nature of any plumbing defects was not such as would explain the additional usage; and

(4) Such other information as the utility official may require.

(b) Upon receiving such application, the utility official shall make an investigation to determine if an error was made, which investigation shall include inspection of the customer's water meter for accuracy and review of the customer's billing record. If the initial investigation reveals a billing or meter error, the utility official shall correct the error. If the investigation does not reveal an error, the utility official may make such further investigation as the utility official deems advisable and shall give full consideration to the statements contained in the customer's application. If the utility official concludes that, in all reasonable probability, the customer consumed and was charged for more water during the month in question but is unable to actually account for such unusual quantity, the utility official shall recompute the bill using as the gross quantity 125 percent of the average monthly gross quantity applicable to the customer. Except as provided by section 47-75.2 of this Code, a determination by the utility official made in accordance with the provisions of this section shall be final.

(c) If the customer has already paid the bill for which an adjustment is authorized under this section and the adjustment is no more than six times the customer's average bill, the department shall credit the customer's account the amount of the adjustment to be applied to the charges thereafter accruing. However, if the adjustment is more than six times the customer's average bill and the customer requests a refund, or the customer can show extreme economic hardship, the department shall refund the amount

of the adjustment. The utility official shall determine whether extreme economic hardship exists.

If a customer discontinues water service before subsequent charges have depleted the credit, the department shall refund to the customer at the time of discontinuance the remaining credit balance minus any overdue debt the customer owes the city.
(Code 1968, § 49-66; Ord. No. 83-19, § 12, 1-11-83; Ord. No. 87-1326, § 14, 8-5-87; Ord. No. 88-128, § 2, 1-27-88; Ord. No. 90-635, § 153, 5-23-90; Ord. No. 93-314, § 9, 3-24-93; Ord. No. 97-497, §§ 3, 4, 5-7-97; Ord. No. 06-502, § 4, 5-17-06; Ord. No. 07-599, § 35, 5-16-07; Ord. No. 2013-320, §§ 10, 11, 4-10-2013, eff. 6-1-2013; Ord. No. 2023-1127, § 5, 12-13-2023)

Sec 47-75.1. Exceptional circumstances adjustment.

(a) Under exceptional circumstances as identified in this section, any billed amount in excess of two times the average monthly bill of a commercial, residential or not-for-profit account may be reduced by up to $10,000.00 for one occurrence that does not exceed a timeframe of two billing cycles. To receive this credit, the following criteria will be used:

(1) The usage must exceed the customer's average monthly usage by at least two times; and

(2) Based on an investigation conducted by the department as described in section 47-75 of this Code, the evidence clearly establishes that such increased usage was not the result of the customer's failure to take action reasonably calculated to address the problem.

(b) A customer may receive no more than one exceptional circumstances adjustment in a 24 month period.

(c) The adjustment may not be combined with any other adjustment granted pursuant to this chapter for a single incident.

(d) In order to request such an adjustment, the customer must file an application for the adjustment on a form furnished by the utility official. The application form shall contain a statement setting forth an understanding that the application is a government record subject to criminal prosecution for false statements under Chapter 37 of the Texas Penal Code, and the customer must state that the application contains no false statements. The application shall identify the bill(s) and briefly state:

(1) The reasons for the request for the adjustment;

(2) A description of the additional water consuming devices or fixtures, if any, that have been placed in use by the customer during the current month or the preceding 12 months;

(3) Information on any plumbing repairs or necessity therefor during the month(s) for which an adjustment is sought; and

(4) Such other information as the utility official may require.

(e) A customer may request a hearing regarding this section following the process set forth in section 47-70.1 of this Code.

(f) Except as provided by section 47-75.2 of this Code, a determination by the utility official made in accordance with the provisions of this section shall be final.
(Ord. No. 2013-320, § 12, 4-10-2013, eff. 6-1-2013; Ord. No. 2023-1127, § 6, 12-13-2023)

Sec. 47-75.2. Water adjustment board.

(a) There is hereby created a water adjustment board. The water adjustment board shall consist of three members appointed by the mayor and approved by city council, each to serve a term of three years unless removed earlier by the mayor. At least one member of the board shall hold or have held a journeyman plumber's license and shall have been eligible in the past five years to take the Texas State Board of Plumbing Examiners' master plumber examination.

(b) The board's jurisdiction shall be limited to reviewing decisions of hearing officers relating to matters arising under sections 47-73, 47-74, 47-75, and 47-75.1 of this Code.

(c) Not later than ten days following the decision of the hearing officer under section 47-70.1 of this Code the customer may request that the decision be reviewed by the water adjustment board. The review will be based exclusively on the record of the hearing; no additional evidence or information shall be considered. The board may uphold, reverse or modify the decision of the hearing officer in conformance with the provisions of this Code but may not make any adjustment greater than allowed by section 47-73, 47-74, 47-75, or 47-75.1, as applicable, of this Code. The board may be assisted by a member of the legal department in order to ensure proper interpretation of this Code.
(Ord. No. 2013-320, § 12, 4-10-2013, eff. 6-1-2013; Ord. No. 2014-207, § 1, 3-12-2014)

Sec. 47-76. Charge for collecting in the field.

If a city collection representative makes a field call on a customer and a water or sewer bill is paid to the representative, the collection charge stated for this provision in the city fee schedule shall be added to the amount of such bill.
(Code 1968, § 49-68; Ord. No. 83-19, § 20, 1-11-83; Ord. No. 2011-1168, § 13, 12-14-2011)

Sec. 47-77. Charges for disinfection of potable water mains by city employees.

(a) This section shall be applicable on all construction contracts for potable water mains constructed or renewed under city specifications where the mains are disinfected (chlorinated) by employees of the department.

(b) The director shall prescribe policies, procedures, and rates to be paid by contractors for the disinfection of newly constructed or renewed water mains. Such policies, procedures, and rates will be made available to the contractor prior to the completion of the construction.

(c) The rates for disinfection shall be established yearly by the director and shall be subject to approval by the city council by motion duly adopted.
(Code 1968, § 49-69; Ord. No. 83-19, § 21, 1-11-83)

Sec. 47-78. Delinquent customers to provide certain information to utility official.

The utility official may require any delinquent customer to provide the city:

(1) The name and address of the owner of the service address of such customer; and

(2) The full legal description of the service address of such customer.

(Ord. No. 89-24, § 5, 1-4-89; Ord. No. 90-635, § 153, 5-23-90)

Sec. 47-79. Charge for billing information.

Any customer may request an itemized summary of the department's billing records in accordance with procedures and forms promulgated by the Director of Houston Public Works. Each such request shall include payment to the city of the copying fees stated for this provision in the city fee schedule.
(Ord. No. 87-1326, § 15, 8-5-87; Ord. No. 90-635, § 162, 5-23-90; Ord. No. 93-514, § 121, 5-5-93; Ord. No. 2011-1168, § 13, 12-14-2011; Ord. No. 2018-11, § 49, 1-10-2018)

Secs. 47-80—47-83. Reserved.

DIVISION 2. UNTREATED WATER

Sec. 47-84. Statement of policy; standard untreated water rates.

(a) *Application.* This division applies to all sales of untreated water by the city.

(b) *Contracts.* All contracts for untreated water supply shall be in the form approved by the city council. In the event any untreated water customer requests terms, conditions or amendments not included in the approved form, the director shall follow appropriate procedures for review of the proposed changes and consideration of the proposed contract by the city council. The policy of the city is that the provisions of this division shall be deemed a part of every city contract for sale of untreated water for industrial, municipal, or agricultural use.

(c) *No warranty.* It is the city's policy that no guarantees or warranties of any sort shall be made with respect to continued service, water quality, prices, quantity, pressure or any other matter relating to the furnishing of untreated water, unless such guarantee or warranty is contained in a written contract approved by city council.

(d) *Standard rates.* When no contract is in effect, there are no warranties or guarantees of any sort, nor shall there be any minimum monthly quantity, and any water taken by any such customer in the absence of a water supply contract shall be paid for at the rates stated for this provision in the city fee schedule per month.

(Code 1968, § 49-72; Ord. No. 83-19, § 13, 1-11-83; Ord. No. 84-484, § 1, 3-27-84; Ord. No. 86-1663, § 6, 9-17-86; Ord. No. 87-1326, § 5, 8-5-87; Ord. No. 88-1194, § 4, 7-6-88; Ord. No. 89-1048, § 4, 7-5-89; Ord. No. 90-861, § 11, 7-11-90; Ord. No. 92-113, § 4, 2-5-92; Ord. No. 93-314, § 10, 3-24-93; Ord. No. 94-1012, § 1, 9-28-94; Ord. No. 04-297, § 4, 4-21-04; Ord. No. 04-299, § 5.2, 4-21-04; Ord. No. 09-206, § 4, 3-11-09, eff. 4-1-09; Ord. No. 2010-305, § 4, 4-21-2010, eff. 6-1-2010; Ord. No. 2011-1168, § 13, 12-14-2011; Ord. No. 2021-515, § 3(Exh. B), 6-23-2021, eff. 7-1-2021)

Sec. 47-85. Contract rates and terms of service.

Subject to variations as provided in section 47-86 of this Code, sales of untreated water under written contracts for industrial and municipal use shall be made in consideration of the requirement that the buyer agrees to purchase at least ninety percent of all its untreated water requirements from the city; however, the buyer shall not be required to purchase a minimum quantity during each month. Untreated water contracts shall include provisions limiting the city's obligation to deliver water to a stated contract quantity, and the buyer shall be required to pay a surcharge equal to five percent of the otherwise applicable cost for the portion of the water delivered to the buyer which exceeds the contract quantity whenever the amount actually delivered exceeds the contract quantity by ten percent or more. The rate for untreated water sold pursuant to this subsection is stated for this provision in the city fee schedule per 1,000 gallons.

(Code 1968, § 49-73; Ord. No. 71-598, § 3, 3-24-71; Ord. No. 72-662, § 3, 4-18-72; Ord. No. 73-1753, §§ 1, 2, 8-29-73; Ord. No. 73-2471, § 1(1), (2), 12-19-73; Ord. No. 76-1847, § 4, 10-20-76; Ord. No. 78-631, § 5, 3-29-78; Ord. No. 79-2336, § 2, 12-26-79; Ord. No. 83-19, § 14, 1-11-83; Ord. No. 86-1663, § 7, 8-17-86; Ord. No. 87-1326, § 6, 8-5-87; Ord. No. 88-1194, § 5, 7-6-88; Ord. No. 89-1048, § 5, 7-5-89; Ord. No. 90-861, § 12, 7-11-90; Ord. No. 92-113, § 5, 2-5-92; Ord. No. 93-314, § 11, 3-24-93; Ord. No. 94-1012, § 2, 9-28-94; Ord. No. 96-764, § 1, 7-31-96; Ord. No. 04-297, § 5, 4-21-04; Ord. No. 04-299, § 5.2, 4-21-04; Ord. No.

[The next page is 3267]

09-206, § 5, 3-11-09, eff. 4-1-09; Ord. No. 2010-305, § 4, 4-21-2010, eff. 6-1-2010; Ord. No. 2011-1168, § 13, 12-14-2011)

Editor's note—Ordinance No. 2010-305, passed April 21, 2010, requires the annual adjustment of water and sewer rates each year on the first of April. The adjustment is usually based on the change in the U.S. Producers Price Index for all commodities as reported annually by the Bureau of Labor Statistics. In years when an increase based on the Producers Price Index would exceed the amount allowed by Article IX Section 20 of the City Charter, the adjustment will be based on the changes in the Annual U.S. Census Houston Population Index and the U.S. Consumer Price Index for all Urban Consumers for the Houston-Galveston-Brazoria Texas Metropolitan Area. The city's published rates for each year are rounded down to the nearest cent but the annual adjustment for each year is calculated to the nearest one-thousandth of a cent ($0.00001). A fractional portion of the rate adjustment (less than one cent) may not appear in one year's published rates but may appear in the next year's published rates because the rate calculation retains more decimals than the published rates.

Sec. 47-86. Same—Variations.

(a) If a contract under this division provides for delivery of water by the city at some point away from the main San Jacinto River conveyance systems and the Trinity River conveyance systems of the city and the Coastal Industrial Water Authority, the rate of the otherwise applicable schedule will be increased by agreed amounts so as to allow for the additional cost of service factors, including amortization of the cost of additional facilities and interest.

(b) A customer taking untreated water under this division will be relieved from its obligation to take, or pay for, its minimum quantity of water for a single annual period of time, not to exceed 14 days in any calendar year, if such customer's plant or facility substantially ceases operations during such period and if the conditions of this subsection (b) are met. The customer must apply to the utility official at least 30 days prior to the beginning of the cessation of operations. The application, on a form provided by the city, shall be made under oath by the customer, or its duly authorized agent, and shall contain the following:

(1) The beginning and ending dates of the cessation of operations and a request that minimum payments be suspended between such dates;

(2) The dates of the last preceding cessation of operations and suspension period, if any;

(3) The reason that such cessation of operations is necessary;

(4) A statement that the cessation of operations cannot reasonably be avoided. If the reason for cessation is maintenance of the customer's plant or facility, the application must state that such maintenance cannot practicably be performed without a cessation of operations.

Upon approval of the application by the utility official, the customer's monthly bill or statement shall be adjusted prorata so as to relieve the customer of that portion of its minimum monthly payment corresponding to the cessation period. The provisions of this subsection shall not apply to any circumstances defined as force majeure in any water supply contract or to any other suspension of payments provided for in such contracts.
(Code 1968, § 49-74; Ord. No. 73-2471, § 2, 12-19-73; Ord. No. 77-182, § 1, 2-1-77; Ord. No. 90-635, § 153, 5-23-90)

Sec. 47-87. Bills; penalty for late payment.

The water division will read the meter of each customer of untreated water for industrial and municipal uses on the first day of each calendar month and will render to each customer, on or before the tenth day of each month, a statement showing the quantity of water delivered, the payment which is due for water during the preceding month, and the time when payment is due. The statement will be mailed to such address as customers, from time to time, furnish the water division. If a customer fails to pay any amount when due, interest thereof shall accrue at the rate of ten percent per annum from the date when due until paid. The statements will refer to the penalty for late payment.
(Code 1968, § 49-75)

Sec. 47-88. Provisions of long-term contracts.

Long-term contracts authorized pursuant to the provisions of section 402.021 of the Texas Local Government Code may contain special provisions not inconsistent with the provisions of this

division regarding options for additional water, stand-by charges, and other provisions in consideration for contractual commitments from customers to purchase their surface water requirements from the city over long periods of time.
(Code 1968, § 49-76; Ord. No. 77-183, § 1, 2-1-77; Ord. No. 94-1012, § 3, 9-28-94)

Sec. 47-89. Rates and terms for sale of untreated water for agricultural use.

(a) *Definitions.* The words, terms, and phrases used but not defined in this section shall have their plain meaning or the same meaning as attributed elsewhere in this chapter, unless such meaning is clearly inconsistent with the intent of passage:

Agricultural customer shall mean a customer with a contract (i) with the city for untreated water supply for agricultural use and (ii) that is subject to the this Code.

Agricultural use means a lawful and intentional diversion of water for use on land or in tanks dedicated to production of crops or live stock. The utility official may apply the definition in Texas Tax Code to further limit "agricultural use."

Contracted land means a certain area of land described in a contract between the customer and the city. Contracted land shall generally be described in acres and apply to rice production only.

(b) *Rates for agricultural use.*

(1) *General agricultural use rate.* Unless entitled to a different rate authorized under this Code, each agricultural customer shall pay for water according to usage recorded by a meter at the rate stated for this provision in the city fee schedule per million gallons.

(2) *Rice irrigation rate.* Each agricultural customer that diverts water onto contracted land for rice production shall pay rates as described below:

a. The customer shall pay for the first watering at the rate stated for this provision in the city fee schedule per acre of contracted land or, if diverted through a meter on the canal or conveyance system, per million gallons actually used; and

b. The customer shall pay for each additional watering during the annual term of the contract at the rate stated for this provision in the city fee schedule per acre of contracted land or, if diverted through a meter on the canal or conveyance system, per million gallons actually used.

(c) *Agricultural use application.* All persons desiring to purchase untreated water for agricultural use purposes shall apply to the director for such purchases.

(1) Each application must:

a. Be in a form specified by the director;

b. Be filed with the director on or before April 1 of a year for a purchase during that year (the director may extend the deadline at his discretion);

c. Contain the complete legal name of the person applying for purchase of untreated water for agricultural use (the "applicant") and the applicant's business address and telephone number;

d. Contain a description of the property on which the water shall be used, such that the property may be located with ease and certainty;

e. Contain the number of acres to be irrigated to the nearest tenth of an acre;

f. State whether the applicant will use gravity or a pump to convey untreated water to the land described in the application, and if one or more pumps are used, state the make, model, age, size, condition and location of all pumps and self-reading (or self-recording) meters;

g. Contain an agreement by the applicant to be bound and abide by the provisions set out in this section; and

h. Be signed by the applicant, or by a person authorized to bind the applicant to contracts and agreements.

(2) The director shall examine each application for purchase of untreated water for agricultural use. An application shall be approved if the director determines that:

a. The city reasonably anticipates a surplus of untreated water after filling the needs of its domestic, commercial and industrial customers such that it may serve irrigation customers;

b. The applicant's pumps, meters and other facilities are satisfactory;

c. The applicant is not in arrears for water previously taken for irrigation purposes; and

d. The application complies with this Code.

(d) *Irrigation requirements.* The following provisions shall apply to all sales of untreated water sold for irrigation purposes:

(1) Water shall be taken only from a point approved by the director.

(2) Water may be taken only when the director determines that a surplus of water remains after the needs of domestic, commercial and industrial customers are fully met.

(3) If water is to be taken through a self-reading or self-recording meter, the applicant shall have the obligation to install and maintain the meter at the applicant's own expense and shall have the meter tested for accuracy whenever requested by the director. If any test results indicate that the meter is inaccurately measuring the water by two percent or more, the applicant shall recalibrate the meter or replace it.

(4) The applicant shall have full responsibility with respect to any damages to persons or property caused by the water after it leaves the canal and shall indemnify the city for any such damages.

(5) The city shall not be liable for any damages caused by failure to furnish water to the applicant for any reason.

(6) The applicant shall construct all canals, levees, banks, ditches and other improvements reasonably deemed necessary by the director to receive water and to prevent the waste thereof.

(7) The applicant shall not sell or otherwise make available to other parties any water delivered for irrigation purposes.

(8) The city shall have a lien on crops produced on the irrigated land until all sums owing are paid in full or until the director releases said lien in whole or part.

(9) No warranties or representations are made by the city with respect to the quality of water sold, or its suitability for crop irrigation purposes, and it shall be the applicant's responsibility to determine whether the water is suitable for irrigation purposes.

(e) *Agricultural customer payment.* Each agricultural customer shall pay for the applicable amount for water on a monthly basis or, for rice irrigation only on before November 1 of that year, and before December 1 of that year for any additional amount of watering. Payment shall be made to the city water division at such place as the director may specify. Interest shall accrue on any unpaid balance at the rate of ten percent per annum until paid.

(Code 1968, § 49-77; Ord. No. 83-19, § 15, 1-11-83; Ord. No. 84-484, § 2, 3-27-84; Ord. No. 86-1663, § 8, 9-17-86; Ord. No. 87-1326, § 7, 8-5-87; Ord. No. 88-1194, § 6, 7-6-88; Ord. No. 89-1048, § 6, 7-5-89; Ord. No. 90-861, § 13, 7-11-90; Ord. No. 92-113, § 6, 2-5-92; Ord. No. 93-314, § 12, 3-24-93; Ord. No. 04-297, § 6, 4-21-04; Ord. No. 04-299, § 5.2, 4-21-04; Ord. No. 09-206, § 6, 3-11-09, eff. 4-1-09; Ord. No. 2010-305, § 5, 4-21-2010, eff. 6-1-2010; Ord. No. 2011-1168, § 13, 12-14-2011)

Editor's note—Ordinance No. 2010-305, passed April 21, 2010, requires the annual adjustment of water and sewer

rates each year on the first of April. The adjustment is usually based on the change in the U.S. Producers Price Index for all commodities as reported annually by the Bureau of Labor Statistics. In years when an increase based on the Producers Price Index would exceed the amount allowed by Article IX Section 20 of the City Charter, the adjustment will be based on the changes in the Annual U.S. Census Houston Population Index and the U.S. Consumer Price Index for all Urban Consumers for the Houston-Galveston-Brazoria Texas Metropolitan Area. The city's published rates for each year are rounded down to the nearest cent but the annual adjustment for each year is calculated to the nearest one-thousandth of a cent ($0.00001). A fractional portion of the rate adjustment (less than one cent) may not appear in one year's published rates but may appear in the next year's published rates because the rate calculation retains more decimals than the published rates.

Sec. 47-90. Sale of groundwater pumping certificates.

The director is hereby authorized to sell city groundwater pumping certificates issued by the Harris-Galveston Coastal Subsidence District ("certificates"). Transfer of any such certificate may be made only upon tender of payment to the director.

Rates for certificates are as follows: participants in the city's southeast water treatment plant will be charged the current operations and maintenance rate for the southeast water treatment plant or the latest price charged for certificates by the Harris-Galveston Coastal Subsidence District, whichever rate is higher. All other buyers will be charged the base rate for contract treated water service for customers that receive surface water only from the city.

Certificates may be sold only if the director determines use of the certificates is not required by the city. Documents evidencing sale of certificates must be approved by the legal department as to form.
(Ord. No. 99-13, § 1, 1-13-99)

Secs. 47-91—47-100. Reserved.

DIVISION 3. WATER USED BY CITY

Sec. 47-101. Generally.

(a) Other departments or divisions of the city shall be deemed a customer of the water division with respect to each meter or connection which serves areas or structures which:

(1) Are used primarily for or in connection with activities for which fees, charges or other nontax revenues are paid to the city; and

(2) Are under the control of a department or division of the city which is shown as a revenue-supported, "enterprise" operation in the most recently published annual financial report of the city.

(b) The director shall bill each such department or division monthly, and each such department or division shall pay for water used by it upon receipt of the bill.
(Code 1968, § 49-82; Ord. No. 83-19, § 16, 1-11-83)

Sec. 47-102. Sale to state.

The sale of unmetered water to the state department of highways and public transportation for use in its street sweepers and herbicide trucks and other similar purposes is hereby authorized provided that the utility official requires that adequate reporting procedures by such department to the city are established in order to insure that water furnished by the city to such department is paid for.
(Code 1968, § 49-82.1; Ord. No. 73-2515, § 1, 12-26-73; Ord. No. 90-635, § 153, 5-23-90)

Secs. 47-103—47-120. Reserved.

ARTICLE III. CITY SEWER SERVICE CHARGES

Sec. 47-121. Definitions.

(a) The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Average usage means the user's average monthly sanitary usage as determined by the utility official on the basis of historical usage and other relevant factors.

Basic service means metering, administrative, billing, and other services related to sanitary service that the user receives and pays for regardless of the user's usage.

City sanitary sewer system means the sanitary sewer and waste disposal system owned, maintained and operated by or on behalf of the city in order to furnish sanitary sewer and waste disposal services, including, but not limited to waste treatment facilities, such as fertilizer plants, plants, disposal fields, lagoons and areas devoted to sanitary landfills for purposes of treating, neutralizing, stabilizing or disposing of waste, and sewer systems including pipelines, conduits, canals, pumping stations, force mains, and all other constructions, devices and appurtenant appliances used to transport waste, as such system may be now constituted or as it may be hereafter improved, enlarged or extended by construction, reconstruction, acquisition, annexation or otherwise.

Commercial user means any business or establishment that is not an industrial user as identified in the 1987 Edition of the Standard Industrial Classification Manual.

Duplex residence means a residential establishment equipped for sanitary service for two users.

Effluent means the raw sewage actually passing through a user's sanitary sewer meter during a month. When an effluent meter is used, charges shall be based on the usage registering on the meter when the meter is operating within manufacturers' standards.

Industrial user means any business or establishment that discharges industrial waste as defined in Article V of this chapter.

Monthly volume means the total effluent in increments of 1,000 gallons attributable to a user's meter for a given month. Monthly volume includes all effluent not previously included in the user's monthly sanitary charge.

Monthly sanitary charge means the charge in a given month for city sanitary sewer services that includes applicable charges for basic service and volume charges.

Multiple-dwelling units means one or more buildings, each equipped for occupancy by three or more families and used as a permanent residence by those families.

Person with disability has the meaning ascribed in section 36-62 of this Code.

Residential user means any user whose meter exclusively serves a residential establishment. Residential users do not include commercial users, contract treated water users, EBS users, industrial users, outdoor users, resale users, or transient users.

Single-family residence means a residential establishment serving a single family, or household, which may not include separate living quarters. In those instances where there is no meter on the water supply to the principal household, separate living quarters shall be considered as a separate residence and a separate sewer service charge shall be applied.

User means any person who has applied for or contracted with the city for sanitary sewer service, including any person who resides at the address to which sanitary sewer service is provided under that application or contract at the time monthly charges are incurred. A user may have more than one meter and more than one property with sewer service, but each meter will have a separate account number.

(b) The following words, terms, and phrases used but not defined in this section shall have the same meaning as defined in section 47-61 of this Code: *month, monthly water usage, person, residential establishment,* and *unit.* Words, terms, and phrases in this section shall be generally construed to have the same meaning as other words, terms, or phrases used in other parts of this chapter, unless the context clearly indicates another meaning.

(Code 1968, § 49-94; Ord. No. 74-221, § 1, 2-6-74; Ord. No. 77-499, § 1, 3-15-77; Ord. No. 90-861, § 15, 7-11-90; Ord. No. 92-113, § 8, 2-5-92; Ord. No. 93-314, § 14, 3-24-93; Ord. No. 07-599, § 36, 5-16-07; Ord. No. 2010-305, § 6, 4-21-2010, eff. 6-1-2010)

Sec. 47-122. Rates for users taking city water.

(a) *Residential users.* Each residential user shall incur monthly sanitary charges for each meter serving the user's premises, except certain multifamily residential users with umbrella accounts authorized to receive different basic service charges as set forth in section 47-71 of this Code.

(1) *Single-family residential user.* Each single-family residential user's monthly sanitary charge shall be calculated using the total of the applicable basic service charge and the volume charge set forth below:

a. *Basic service charge.* The user's basic service charge shall be based on meter size, measured by meter diameter in inches, as set forth in the chart stated for this provision in the city fee schedule.

b. *Volume charge.* The user's volume charge, regardless of meter size, shall be calculated using the user's monthly water usage as set forth in the chart stated for this provision in the city fee schedule.

(2) *Multifamily residential user.* Each multifamily residential user's monthly sanitary charge shall be calculated using the total of the applicable basic service charge and the volume charge set forth below:

a. *Basic service charge.* The user's basic service charge shall be based on meter size, measured by meter diameter in inches, as set forth in the chart stated for this provision in the city fee schedule.

b. *Volume charge.* The user's volume charge, regardless of meter size, shall be the user's monthly water usage multiplied by the wastewater volume rate stated for this provision in the city fee schedule for each 1,000 gallon increment.

(b) *Non-residential users.* Each non-residential user shall incur monthly sanitary charges for each meter serving the user's premises.

(1) *Commercial user.* Each commercial user's monthly sanitary charge shall be calculated using the total of the applicable basic service charge and volume charge set forth below:

a. *Basic service charge.* The user's basic service charge shall be based on meter size, measured by diameter in inches, as set forth in the chart stated for this provision in the city fee schedule.

b. *Volume charge.* The user's volume charge, regardless of meter size, shall be the user's monthly water usage multiplied by the wastewater volume rate stated for this provision in the city fee schedule.

(2) *Industrial user.* In additional to any applicable charges under section 47-143 of this Code, each industrial user's monthly sanitary charge shall be calculated using the total of the applicable basic service charge and volume charge set forth below:

a. *Basic service charge.* The user's basic service charge shall be based on meter size as set forth in the chart stated for this provision in the city fee schedule.

b. *Volume charge.* The user's volume charge, regardless of meter size, shall be the user's monthly water usage multiplied by the wastewater volume rate, and the flow rate, if applicable, plus the industrial waste program charge, all as stated for this provision in the city fee schedule and as described further below:

[1] *Industrial users without industrial waste surcharge.* The user's volume charge shall be the user's monthly usage multiplied by the wastewater volume rate stated for this provision in the city fee

schedule, plus the user's monthly usage multiplied by the wastewater volume rate stated for this provision in the city fee schedule for all flow to the city's public water system.

[2] *Industrial users with an industrial waste surcharge.* The user's volume charge shall be the user's monthly usage multiplied by the wastewater volume rate for BOD per pound, TSS per pound, and Ammonia per pound, as stated for this provision in the city fee schedule.

[3] *All industrial waste permittees* shall pay the industrial waste program charge.

(Code 1968, § 49-95; Ord. No. 74-221, § 1, 2-6-74; Ord. No. 77-499, § 2, 3-15-77; Ord. No. 83-37, § 1, 1-12-82; Ord. No. 83-1138, § 1, 7-26-83; Ord. No. 85-1094, § 1, 7-2-85; Ord. No. 86-1664, § 1, 9-17-86; Ord. No. 87-494, § 1, 4-14-87; Ord. No. 87-581, § 1, 4-21-87; Ord. No. 87-1906, § 1, 11-10-87; Ord. No. 88-1194, § 8, 7-6-88; Ord. No. 89-1048, § 8, 7-5-89; Ord. No. 90-861, § 16, 7-11-90; Ord. No. 92-113, § 9, 2-5-92; Ord. No. 93-314, § 15, 3-24-93; Ord. No. 04-297, § 7, 4-21-04; Ord. No. 04-299, § 5.2, 4-21-04; Ord. No. 09-206, § 7, 3-11-09, eff. 4-1-09; Ord. No. 2010-305, § 6, 4-21-2010, eff. 6-1-2010; Ord. No. 2011-1168, § 13, 12-14-2011; Ord. No. 2021-515, § 3(Exh. B), 6-23-2021, eff. 7-1-2021)

Sec. 47-123. Rates for users not receiving water from city.

The monthly sanitary sewer service charge for each user who has a private water supply or receives water from a source other than the city's water system and whose water supply is not self-metered and billed as provided in section 47-128 of this Code shall be as stated for this provision in the city fee schedule, according to the following categories and customer types:

(1) Single family residence.

(2) Duplex residence.

(3) Multiple dwelling units, per single family unit.

(4) Commercial user rate, per commercial equivalent. Each commercial user shall pay each month the cost of a single commercial equivalent unless such commercial user requires additional commercial equivalents of service as determined by the table in section 47-1002 of this Code.

(5) Industrial user rate, per commercial equivalent. Each industrial user shall pay the cost of a single commercial equivalent unless such industrial user requires additional commercial equivalents of service as determined by the table in section 47-1002 of this Code.

(Code 1968, § 49-96; Ord. No. 74-221, § 1, 2-6-74; Ord. No. 77-499, § 3, 3-15-77; Ord. No. 82-37, § 2, 1-12-82; Ord. No. 83-1138, § 2, 7-26-83; Ord. No. 85-1094, § 2, 7-2-85; Ord. No. 86-1664, § 2, 9-17-86; Ord. No. 87-494, § 2, 4-14-87; Ord. No. 87-1906, § 2, 11-10-87; Ord. No. 88-1194, § 9, 7-6-88; Ord. No. 89-1048, § 9, 7-5-89; Ord. No. 90-861, § 17, 7-11-90; Ord. No. 92-113, § 10, 2-5-92; Ord. No. 93-314, § 16, 3-24-93; Ord. No. 04-297, § 8, 4-21-04; Ord. No. 04-299, § 5.2, 4-21-04; Ord. No. 09-206, § 8, 3-11-09, eff. 4-1-09; Ord. No. 2010-305, § 6, 4-21-2010, eff. 6-1-2010; Ord. No. 2011-1168, § 13, 12-14-2011; Ord. No. 2021-515, § 3(Exh. B), 6-23-2021, eff. 7-1-2021)

Sec. 47-124. Reserved.

Editor's note—Ord. No. 07-599, § 37, adopted May 16, 2007, repealed § 47-124 in its entirety. Formerly, said section pertained to property located outside the city and derived from Code 1968, § 49-9-1407; Ord. No. 74-221, § 1, 2-6-74; Ord. No. 89-1048, § 13, 7-5-89.

Sec. 47-125. Reduced rates or free service.

All persons owning, renting, leasing or having management or control of property or premises that produce waste that is discharged into the sanitary sewers of the city, including domestic waste, and subject to the provisions of this article, shall be charged the rates established in

this division, and no reduced rates or free sanitary sewer service shall be furnished to any such person, property or premises.
(Code 1968, § 49-98; Ord. No. 74-221, § 1, 2-6-74)

Sec. 47-126. Deposit to secure payment.

Applicants for sewer service only shall post a deposit with the department in the amount determined by the utility official as provided in section 47-68 of this Code.
(Code 1968, § 49-99; Ord. No. 74-221, § 1, 2-6-74; Ord. No. 90-635, § 153, 5-23-90; Ord. No. 07-599, § 38, 5-16-07)

Sec. 47-127. Determination of charges generally.

In those instances where water meters are provided on the sources of water providing water to the facilities discharging into the sanitary sewer system of the city, water usage will be determined from the water meter readings, for the purpose of determining the sewer service charge. As to such water sources that are not metered, estimates of water usage will be made by the city and sewer service charges based upon such estimates will be in addition to those determined from water meter readings.
(Code 1968, § 49-100; Ord. No. 74-221, § 1, 2-6-74)

Sec. 47-128. Metering water not furnished by city to determine charge.

Any person discharging waste from any property or premises into the sanitary sewers of the city who has a private source of water supply or who receives his water supply from a source other than the city may choose to install a water meter of the type and standard approved by the department for the purpose of measuring the amount of water taken into such facilities. Such meter shall be installed in a location approved by the department and accessible to the water meter readers of the city at all times during the hours from 4:00 a.m. to 5:00 p.m., Monday through Saturday of each week of each year. The water consumption indicated by such meter shall be the basis of determining the sewer charge provided for in this article, to be billed at the applicable rate as stated in section 47-122 of this Code.
(Code 1968, § 49-101; Ord. No. 74-221, § 1, 2-6-74; Ord. No. 77-499, § 4, 3-15-77)

Sec. 47-129. Metering water not discharged into sewer system to determine charge.

(a) Any customer discharging wastewater into the sewer system, except a single-family residential user, who takes water for the manufacture of a product or as cooling water, may receive credit for that portion of the water provided to his or her facilities that is not discharged into the sanitary sewers of the city under the city's submeter credit program.

(b) In order to apply for the submeter credit program, the customer must submit to the department an application together with the nonrefundable fee stated for this provision in the city fee schedule.. The customer must meet all guidelines specified herein to qualify and remain in the submeter credit program.

(c) The customer shall, at his or her own expense, install water submeter(s) of a type, design and location approved by the utility official. The department shall inspect and approve the submeter installations to ensure that the department's standards are met.

(d) The customer shall take monthly readings from these submeters within two days of the date specified by the utility official. The department shall not accept readings taken outside this time frame. The customer shall provide the readings as required by the utility official. The department shall charge the monthly administrative processing fee stated for this provision in the city fee schedule for participation in the submeter credit program. This fee will be deducted from the monthly credit given to the customer.

(e) The customer shall test all submeters at least once every twelve months and provide the department a certificate reporting the results of the tests. The test must include:

(1) A determination of the accuracy of the submeters, and

(2) A determination that no water is discharged into the sanitary sewers of the city except water that is measured by the blow-down submeter.

Such testing must be conducted by a technician certified to perform the testing and employed by a company approved by the utility official for such testing. It shall be the customer's responsibility to notify the department within a reasonable time in advance of the test so that the department may, if it chooses, have a witness present during such test. If test results show the percentage of accuracy is not within the accuracy tolerance specified by the manufacturer, then the customer shall repair or replace and retest the meter. The department shall bill the customer by (1) adjusting the sewer bill back to the time when the inaccuracy began, if such time is ascertainable, or (2) adjusting the sewer bill for a period extending back one-half of the time elapsed since the date of the last test of the meter.

(f) Under the submeter credit program, the department shall determine the quantity of wastewater for billing purposes by subtracting the monthly reading of the customer's submeter from the monthly reading of the city's meter. In the event the property is not supplied water by the city, the department shall deduct the submeter readings from the total water usage furnished to the property as estimated by the utility official.

(g) A customer taking water for cooling purposes under the submeter credit program must also maintain an acceptable range of cycles of concentration as indicated by the ratio of make-up water to blow-down water from the submeter readings in order to receive credit. The utility official will determine the acceptable range of system cycles of concentration based on industry standards.

(h) If the submeter readings are not within range compliance, the department shall notify the customer and allow the customer a 30-day period to make corrections. During this 30-day period, the department shall give the customer a credit based on the credit for the same period of the prior year, subject to prior year compliance as defined in subsection (g) of this section. After the 30-day correction period, the department shall not give credits to the customer until submeter readings fall within range compliance.

(i) The department shall remove any customer from the submeter credit program if such customer fails to submit submeter readings for six consecutive months or more. The customer may reapply for the program by meeting all herein specified requirements. No credits shall be given to a customer for the period during which program participation was terminated.

(j) No facility for which a submeter is installed under the provisions of this section may be connected to the sanitary sewer system of the city, unless the customer secures the written approval of the utility official for the proposed connection.

(k) The department shall have the right during regular business hours to inspect the submeters installed to measure the amount of water provided to the facility and not discharged into the city's sanitary sewer system. The department may also require submeter calibration tests to be performed at any time to ensure accuracy of the submeters.

(l) Any person who has approval from the department for a submeter credit program and who knowingly submits false information to the city for the submeter credit program or who connects his or her facilities to the city's sanitary sewer system without notifying the utility official shall be guilty of an offense. In addition, the department shall remove the customer from the submeter program for a period of one year.

(m) If a facility does not discharge into the city's sewer system but does take water from the city, all applicable rates and requirements of this chapter for water service shall apply to the customer responsible for such facility.

(Code 1968, § 49-102; Ord. No. 74-221, § 1, 2-6-74; Ord. No. 89-1048, § 14, 7-5-89; Ord. No. 90-15, § 4, 1-10-90; Ord. No. 90-635, § 153, 4-23-90; Ord. No. 07-599, § 39, 5-16-07; Ord. No. 2011-1168, § 13, 12-14-2011)

Sec. 47-130. Reserved.

Editor's note—Ord. No. 07-599, § 40, adopted May 16, 2007, repealed § 47-130 in its entirety. Formerly said section pertained to engineering study to determine charge where portion of water not discharged into sewer and derived from Code 1968, § 49-103; Ord. No. 74-221, § 1, 2-6-74; Ord. No. 77-499, § 5, 3-15-77; Ord. No. 90-15, § 5, 1-10-90; Ord. No. 90-635, § 153, 5-23-90; Ord. No. 90-861, § 18, 7-11-90.

Sec. 47-131. Determination of charge where user maintains more than one source of water supply.

(a) Where a sewer system user maintains more than one source of water supply, and only one source produces sewage flow discharging into the sanitary sewer system of the city, the sewer service charge shall be determined by metering only that source of water supply. Failure of the owner or operator to install the necessary approved meter will constitute an agreement and consent by such owner or operator that the city's estimate of the total water usage, irrespective of actual discharge, will be the basis upon which the sewer charge will be based.

(b) The city's estimate of water usage may be made by whatever means and calculations the utility official determines to be fair and equitable, and which will reasonably reflect the approximate water usage of such premises.
(Code 1968, § 49-104; Ord. No. 74-221, § 1, 2-6-74; Ord. No. 90-635, § 153, 5-23-90)

Sec. 47-132. Responsibility for charges for multiple living units.

Where the city does not supply the source of water for all multiple living unit connections, the owner of the premises will be held responsible for the sewer service charge, where individual water meters are not provided for each living unit.
(Code 1968, § 49-105; Ord. No. 74-221, § 1, 2-6-74)

Sec. 47-133. No deductions for vacancies in apartments or duplex residences; removal of apartment or duplex unit from service.

No deductions will be made for vacancies in the application of the minimum sewer service charge to apartments or duplex residences in any classification. An apartment unit or duplex unit removed from such service by remodeling or abandonment will be relieved of payment of a sewer service charge, but correction of the city's records must be requested by the owner in writing or by signing the proper forms provided by the city.
(Code 1968, § 49-106; Ord. No. 74-221, § 1, 2-6-74)

Sec. 47-134. Billing.

(a) Billing for sewer service charges shall be made to the water customers of the city concurrently with the monthly or bimonthly water bills issued by the city to such customers. Those customers without water meters or with a source of water supply other than the city will be billed on those same dates. As to those persons discharging into the sewer of the city who are not water customers of the city, bimonthly bills shall be sent to them for the charges incurred during the preceding two months.

(b) All sewer bills shall be payable in full based upon the rates and schedules provided in this division. The provisions of section 47-69 of the Code shall be applicable to the date of payment and charges for late payments.
(Code 1968, § 49-107; Ord. No. 74-221, § 1, 2-6-74; Ord. No. 82-37, § 7, 1-12-82; Ord. No. 83-19, § 18, 1-11-83; Ord. No. 84-1279, § 2, 8-14-84; Ord. No. 89-51, § 2, 1-11-89; Ord. No. 06-502, §§ 5, 6, 5-17-06; Ord. No. 07-599, § 41, 5-16-07)

Sec. 47-135. Adjustment of bill.

(a) If the department makes an adjustment in customer's water bill under the provisions of this chapter, the department shall make an appropriate adjustment to the customer's sewer charge for the same period to the extent that the sewer charge is calculated using the customer's water bill.

(b) A single-family residential customer may apply for an adjustment for credit on sewer charges associated with the customer's initial filling of a newly constructed and permitted pool within six months of the day the pool passes the

city's final inspection. The department shall make applications for initial pool filling credit available on the department's website and at any city location designated by the director. The department shall apply credit to the customer's bill for sewer charges proportional to the number of gallons required to fill the pool, as documented in the city building permit, after

(1) The department receives the customer's completed application for a pool that has passed the city's final inspection; and

(2) Based on the customer's meter reading, the department determines that the customer has received city water documented on the permit in addition to the customer's normal usage.

(Code 1968, § 49-108; Ord. No. 74-221, § 1, 2-6-74; Ord. No. 2011-1086, § 3*, 12-7-2011)

***Editors note—**Ord. No. 2011-1086, adopted December 7, 2011, section 4, has been renumbered to section 3, pursuant to the adoption of Ord. No. 2011-797, Section 1-16 of this Code of Ordinances. A Memorandum of February 22, 2012, corrected the numbering of this ordinance. The users' attention is directed to the Memorandum History Table, following the Code Comparative Table.

Sec. 47-136. Discontinuance of service for failure to pay.

The city shall have the right to discontinue either or both water and sanitary sewer service to any customer discharging into the sanitary sewers of the city, who fails or refuses to make timely payment of the sewer charges for which he is billed; provided, however, in the event of a dispute as to the amount of charges made, service shall not be terminated if the customer follows procedures prescribed in section 47-70.1 of this Code and a hearing official determines that the disputed charges are incorrect.

The city shall have the right to discontinue water and sanitary sewer service to any other property owned by the customer if that customer fails to make application or fails to make timely payment of the sewer charges. The cost to restore water service after termination for nonpayment shall be the same as provided in sections 47-70(e) and 47-70(f) of this Code.

(Code 1968, § 49-109; Ord. No. 74-221, § 1, 2-6-74; Ord. No. 83-19, § 19, 1-11-83; Ord. No. 07-599, § 42, 5-16-07)

Sec. 47-137. Continued use of sewer after refusal to pay.

Any person failing or refusing to pay the charges provided for in this article, or to deposit the proper sum in the event of a dispute as to the amount of such charges, in the time and manner provided, and who continues to discharge waste from his property into the sanitary sewer systems of the city shall be guilty of an offense and upon continuance thereof shall be fined as provided in section 1-6 of this Code. Each and every day that such violation continues shall constitute a separate offense and shall be punishable as such. The conviction of a person for such an offense shall not be a bar to the institution by the city of a suit for the collection of the delinquent charges and for an injunction to enjoin such person from discharging waste into the sanitary sewer systems of the city without complying with the provisions of this division and paying the charges established hereby.

(Code 1968, § 49-110; Ord. No. 74-221, § 1, 2-6-74; Ord. No. 77-499, § 6, 3-15-77)

Sec. 47-138. Violations of article; furnishing city false information.

Any person violating any of the provisions of this article or knowingly furnishing the city with false or fraudulent information, or failing to comply with the provisions hereof, shall be guilty of an offense and, upon conviction thereof, shall be fined as provided in section 1-6 of this Code. Each and every day that such violation continues shall constitute a separate offense and be punishable as such. This penalty shall be in addition to any other remedy, penalty or sanction provided for herein.

(Code 1968, § 49-112; Ord. No. 74-221, § 1, 2-6-74)

Sec. 47-139. Charges for collection and disposal of refuse from sewage holding tanks and septic tanks in the Lake Houston vicinity.

(a) The utility official shall prescribe rules and regulations for the collection and disposal by the department of domestic sewage from any

on-site sanitary facility located in the Lake Houston vicinity. As used herein, the term "Lake Houston vicinity" includes the lake itself and all territory, which is either within 200 feet of the lakeshore or within the watershed of the lake, and the term "on-site sanitary facility" includes holding tank, aerobic, and anaerobic systems for domestic sewage treatment.

(b) The department shall charge the fee stated for this provision in the city fee schedule for each collection and disposal of up to 500 gallons of domestic sewage from any on-site facility.
(Code 1968, § 49-113; Ord. No. 83-19, § 25, 1-11-83; Ord. No. 07-599, § 43, 5-16-07; Ord. No. 07-741, § 1, 6-27-07; Ord. No. 2011-1086, §§ 4*, 5*, 12-7-2011; Ord. No. 2011-1168, § 13, 12-14-2011)

***Editors note—**Ord. No. 2011-1086, adopted December 7, 2011, sections 5 and 6, have been renumbered to sections 4 and 5, pursuant to the adoption of Ord. No. 2011-797, Section 1-16 of this Code of Ordinances. A Memorandum of February 22, 2012, corrected the numbering of this ordinance. The users' attention is directed to the Memorandum History Table, following the Code Comparative Table.

Sec. 47-140. Wholesale wastewater service rates for municipalities and conservation and reclamation districts.

(a) *Wholesale contracts.* Municipalities and conservation and reclamation districts ('municipalities') may purchase wholesale wastewater service from the city at rates established herein or as set forth in the city fee schedule for the applicable customer type, including specified per connection rates. In case of conflict between this section and a wholesale contract entered into before the effective date hereof, the provisions of the wholesale contract prevail.

(b) *Rate for municipalities that have made capital contributions and that discharge directly into a city treatment plant.* The rate established in this subsection is applicable only for wholesale wastewater services the city provides to municipalities that meet the following requirements:

(1) The municipality discharges directly into a city treatment plant;

(2) The municipality has purchased permanent treatment capacity in the city's wastewater treatment system; and

(3) The municipality has executed a contract with the city for wholesale wastewater treatment services.

The wholesale wastewater rate for municipalities meeting these criteria is stated for this provision in the city fee schedule, per 1,000 gallons for municipalities without a collection system. If the contract does not require that charges be based on metered quantities, monthly quantities (in 1,000 gallon units) shall be determined by the formula:

$$0.250 \times A \times B$$

Where:

A = The number of calendar days in the particular month; and

B = The number of residential equivalent units connected to the municipality's collection system. (Conversion factors for residential equivalent units are provided in the wholesale wastewater service contracts.)

(c) *Rate for municipalities that have made capital contributions and that discharge into the city wastewater collection system.* The rate established in this subsection is applicable only for wholesale wastewater services the city provides to municipalities that meet the following requirements:

(1) The municipality discharges directly into the city wastewater collection system;

(2) The municipality has purchased permanent sewage treatment capacity in the city's wastewater treatment system; and

(3) The municipality has executed a contract with the city for wholesale wastewater treatment services.

The wholesale wastewater rate for municipalities meeting these criteria is stated for this provision in the city fee schedule, per 1,000 gallons for municipalities with a capital contribution. If the contract does not require

that charges be based on metered quantities, monthly quantities (in 1,000 gallon units) shall be determined by the formula:

$$0.250 \times A \times B$$

Where:

A = the number of calendar days in the particular month; and

B = the number of residential equivalent units connected to the municipality's collection system. (Conversion factors for residential equivalent units are provided in the wholesale wastewater service contracts.)

(d) *Rate for other municipalities.* The wholesale rate for wastewater service for municipalities not eligible for the rate specified in any other subsection of this section shall be the rate per 1,000 gallons stated for this provision in the city fee schedule.
(Ord. No. 84-1257, § 1, 8-14-84; Ord. No. 85-1094, § 5, 7-2-85; Ord. No. 86-1664, § 5, 9-17-86; Ord. No. 87-494, § 5, 4-14-87; Ord. No. 88-1194, § 10, 7-6-88; Ord. No. 89-1048, § 10, 7-5-89; Ord. No. 90-861, § 19, 7-11-90; Ord. No. 93-314, § 17, 3-24-93; Ord. No. 01-637, § 1, 7-3-01; Ord. No. 04-297, § 9, 4-21-04; Ord. No. 04-299, § 5.2, 4-21-04; Ord. No. 09-206, § 9, 3-11-09, eff. 4-1-09; Ord. No. 2010-305, § 7, 4-21-2010, eff. 6-1-2010; Ord. No. 2011-1168, § 13, 12-14-2011; Ord. No. 2021-515, § 3(Exh. B), 6-23-2021, eff. 7-1-2021)

Sec. 47-141. Established user charges.

(a) The user charges established herein shall be in lieu of any other city sanitary sewer service charges.

(b) The user charges are to provide for the reimbursement of costs to the city and the control necessary by the city to provide treatment for those wastes of quantity and strength produced by industrial processes, including wastes of characteristics difficult to treat for final disposal, but economically amenable to the city system when pretreated or accepted without pretreatment.

(c) These user charges are not in lieu of any sanitary sewer connection charges and/or industrial cost recovery charges established by this or any other city ordinance.

(d) All user charges established herein shall be an obligation of the permittee as a condition of keeping his permit valid.
(Code 1968, § 49-159; Ord. No. 74-222, § 1, 2-6-74; Ord. No. 92-1309, § 1, 9-30-92)

Sec. 47-142. City's allocated unit costs.

(a) The following items shall be used to compute allocated unit costs but shall not be deemed to be exclusive of other pertinent factors:

(1) The total proposed sewer division budget for the current year will be used as a basis for figuring operation and maintenance expenditures plus the following:

a. An appropriate percentage for old age benefits and pension payments based on salaries.

b. Vehicular replacements based on an appropriate replacement plan.

c. An approved percentage for indirect costs to other departments based on the proposed sewer division budget for the current year.

d. An appropriate percentage of the actual water/sewer billing costs.

e. The annual debt service for retirement of sanitary sewer bonds.

(2) The city's allocated unit costs will be computed annually for processing each of the following operational-functions of the system: Volume of flow, removal of BOD, removal of suspended solids, removal of ammonia.

(b) The allocated unit costs shall be evaluated annually to examine increases or decreases in operation and maintenance costs and annual debt service.
(Code 1968, § 49-160; Ord. No. 74-222, § 1, 2-6-74; Ord. No. 77-499, § 16, 3-15-77; Ord. No. 92-1309, § 1, 9-30-92; Ord. No. 2021-515, § 3(Exh. B), 6-23-2021, eff. 7-1-2021)

Sec. 47-143. Computation of user charge.

(a) The user charges to be determined to each establishment that produces industrial waste shall be computed by use of the following formula:

UC = BC + Q × R

Formula values are as follows:

UC = User charge (in dollars).

BC = Basic Service Charge defined in 47-122(b)(2)(a) (in dollars)

Q = Billable quantity of wastewater in thousand gallon units

R = [X + (BOD × 8.337 × Y/1000) + (SS × 8.337 × Z/1000) + (NH3 x 8.337 x W/1000)] per thousand gallons OR the rate per thousand gallons specified in section 47-122(b)(2)b, whichever is greater

W = The fee stated for this provision in the city fee schedule, per pound of NH3

X = The fee stated for this provision in the city fee schedule, per thousand gallons

Y = The fee stated for this provision in the city fee schedule, per pound of BOD

Z = The fee stated for this provision in the city fee schedule, per pound of SS

BOD = Biochemical Oxygen Demand in milligrams per liter based on the results of a five-day analytical test for BOD at 20 degrees Centigrade

SS = Suspended solid content of the waste delivered, measured in milligrams per liter

NH3 = Ammonia nitrogen (ammonia) content of the waste delivered, measured in milligrams per liter

(b) When an industry produces both domestic and process waste with one connection to the sewer system, the waste so delivered shall be considered as industrial waste with uniform rate; or by user charge computations, in compliance with the above, based on the combined volume, BOD, suspended solids, and ammonia content.

(c) A permittee may reduce his user charge rate by obtaining greater removals in pretreatment or plant operation procedure, but once the pretreatment or plant procedure is established to obtain uniform or lower rate, written consent from the director to increase the delivered strength shall be required, and charges for a higher rate based on tests by the city may be made without other notice to the industry.

(d) Establishments that produce industrial waste shall be billed monthly or bimonthly for industrial waste disposal, according to the established procedures.

(e) During periods while the city is sampling the content of the industrial waste discharge or attempting to obtain information from the industrial user regarding the quality of water the industrial user is discharging to the city system, the industrial user shall not alter its discharge practices, increase the use of process water, dilute or attempt to dilute its industrial waste discharge or otherwise alter the quality and content of the discharge in a manner which reduces the industrial waste surcharge or attempts to achieve compliance with discharge limitations. The city will exclude the results of samples that may have been impacted by dilution from the averages used for establishment of the user charge.

(Code 1968, § 49-161; Ord. No. 74-222, § 1, 2-6-74; Ord. No. 77-499, §§ 17, 18, 3-15-77; Ord. No. 82-37, §§ 3—5, 1-12-82; Ord. No. 83-1138, §§ 3, 4, 7-26-83; Ord. No. 85-1094, §§ 3, 4, 7-2-85; Ord. No. 86-1664, §§ 3, 4, 9-17-86; Ord. No. 87-494, §§ 3, 4, 4-14-87; Ord. No. 87-1906, §§ 3, 4, 11-10-87; Ord. No. 88-1194, §§ 11, 12, 7-6-88; Ord. No. 89-1048, §§ 11, 12, 7-5-89; Ord. No. 90-861, §§ 20, 21, 7-11-90; Ord. No. 92-113, § 12, 2-5-92; Ord. No. 92-1309, § 1, 9-30-92; Ord. No. 93-314, § 18, 3-24-93; Ord. No. 04-297, § 10, 4-21-04; Ord. No. 04-299, § 5.2, 4-21-04; Ord. No. 09-206, § 10, 3-11-09, eff. 4-1-09; Ord. No. 2010-305, § 8, 4-21-2010, eff. 6-1-2010; Ord. No. 2011-1086, § 6*, 12-7-2011; Ord. No. 2011-1168, § 13, 12-14-2011; Ord. No. 2021-515, § 3(Exh. B), 6-23-2021, eff. 7-1-2021)

***Editors note—**Ord. No. 2011-1086, adopted December 7, 2011, section 7, has been renumbered to section 6, pursuant to the adoption of Ord. No. 2011-797, Section 1-16 of this

Code of Ordinances. A Memorandum of February 22, 2012, corrected the numbering of this ordinance. The users' attention is directed to the Memorandum History Table, following the Code Comparative Table.

Sec. 47-144. User charges with installed water meters.

(a) For producers with installed water meters, the charges established herein shall become effective from and after each producer's first regular meter reading date after the issuance of the industrial waste permit. Producers who are required under the provisions of this article to install water meters for the purpose of determining the charges established by this article shall have 30 days from the date of issuance of the industrial waste permit to install such meters as are required herein, and the installation will be at the producer's expense. Such meters will be of a type and standard and in a location approved by the utility official.

(b) Any person required to install a water meter under the provisions hereof and who fails or refuses to do so in the time and manner required shall be charged as provided herein based on water usage estimated by the utility official.
(Code 1968, § 49-162; Ord. No. 74-222, § 1, 2-6-74; Ord. No. 90-635, § 153, 5-23-90; Ord. No. 92-1309, § 1, 9-30-92)

Sec. 47-145. Industrial waste program charge.

In addition to the charges set out above, each industrial waste customer with an industrial waste discharge permit must pay a monthly industrial waste program charge in the amount set out in the city fee schedule. The industrial waste program charge funds the city's management of the industrial waste program.
(Ord. No. 2021-515, § 3(Exh. B), 6-23-2021, eff. 7-1-2021)

Secs. 47-146—47-160. Reserved.

ARTICLE IV. DEVELOPMENT AND UTILITY SYSTEM EXTENSIONS*

Sec. 47-161. Definitions.

As used in this article, the following terms shall have the meanings ascribed to them in this section, unless the context of their usage clearly indicates another meaning:

Construction cost means the full cost for materials and labor for construction of main, excluding the cost for surveys, easements and engineering and inspection services.

Developer means the owner or agent of the owner developing lots or tracts of property for further sale, lease, development or redevelopment for residential, commercial or industrial use.

Developer contract means a contract between a developer and the city for construction of main pursuant to section 47-164 of this Code.

Main, unless otherwise designated, includes water, wastewater and storm sewer main and includes off-site main.

Nonrevenue producing water main means water main supplying fire sprinkling systems and other water services for which the city receives no water revenue.

Off-site main means water, wastewater and storm sewer main lying outside the tract of land that is developed or redeveloped.

Permittee means a person granted a permit to construct main pursuant to section 47-165 of this Code.

Pro-rata charges means the charges established by city council for connection to off-site main as may be established under section 47-168 of this Code.

Public easement means an easement or right-of-way dedicated to the city or to the public, either by a recorded plat or recorded

*__Editor's note—__Ord. No. 96-1248, § 1, adopted Nov. 26, 1996, did not specifically repeal former art. IV, §§ 47-161—47-171; hence, the provisions of said ordinance have been treated as superseding the provisions of former art. IV.

instrument of conveyance, or acquired by condemnation, within which main may be constructed, maintained and operated.

Subdivision means a tract or parcel of land subdivided into lots or tracts by a subdivision or development plat and to be sold or leased for residential, commercial or industrial purposes.

Utility construction permit or *permit* means a permit issued pursuant to section 47-165 of this Code allowing the developer to construct main.

(Ord. No. 96-1248, § 1, 11-26-96; Ord. No. 05-992, § 2, 8-24-05)

Sec. 47-162. Construction by the city; cost sharing agreements between city and developer.

The department shall install main under the provisions hereof only in public easements. The department shall construct main for the unserved areas of the city as required by state law and may construct other main identified in the city's capital improvements plan, except as otherwise required by city council.

Subject to the availability of city funds for capital improvements as determined by city council, a developer has the option of having the city construct the necessary main for the proposed development pursuant to a cost-sharing contract approved by the city council. Under any such contract, the developer must provide the engineering design and pay one-half of the construction cost. The city will pay one-half the cost of construction and provide construction inspection services. In addition, the city will pay the entire cost of oversizing the main if required by the department.

In the event the developer is required under the contract to pay the city $5,000.00 or more, the developer cost shall be subject to pro-rata reimbursement as provided in sections 47-162 through 47-170.

(Ord. No. 96-1248, § 1, 11-26-96; Ord. No. 00-171, § 1, 3-8-00)

Sec. 47-163. Developer construction—In general.

Except for main constructed by the city under section 47-162 of this Code, all main dedicated to the city for public use must be constructed by the developer as required by this article. As a condition for acceptance by the city, main must be constructed in accordance with the following requirements:

(1) The developer must obtain water or wastewater capacity sufficient to serve its development as provided in articles IX and X of this chapter.

(2) An engineer registered in the state must design main. The design of main must conform to the design standards promulgated by the director. All main must be constructed in public easements, and the minimum diameter size for off-site main shall be eight inches, unless otherwise permitted by the department. Plans and profiles shall be approved by the department prior to commencement of construction.

(3) The developer must obtain all required subdivision or development plat approvals required under this Code.

(4) Construction of main estimated by the department to cost more than $25,000.00 must be guaranteed by payment and performance bonds in the form approved by the legal department. Bonds must be in the amount of the construction contract, and the city shall be an obligee for the performance bonds. The performance bond must guarantee materials and workmanship, including surface restoration, for a period of one year after acceptance by the department on behalf of the city.

(5) The developer must provide the department original record drawings in the form prescribed by the director.

(6) The department must inspect and approve the construction when completed.

(Ord. No. 96-1248, § 1, 11-26-96; Ord. No. 00-171, § 2, 3-8-00; Ord. No. 05-992, § 3, 8-24-05)

Sec. 47-164. Construction by developers under developer contract.

Subject to the availability of funds allocated for that purpose by city council, the city may share in the expense of construction of the main and other eligible costs by any of the following methods, as applicable, at the option of the developer:

(1) *50 percent reimbursement:* Reimbursement to the developer is the sum of 50 percent of the construction cost for water and wastewater main, the balance of oversizing costs, plus design costs for a total reimbursement that does not exceed the maximum contract amount not requiring council approval under the Houston City Charter; or

(2) *30 percent reimbursement:* Reimbursement to the developer for 30 percent of the construction cost for water and wastewater main plus the balance of oversizing costs; or

(3) *70 percent reimbursement:*

a. For new low or moderate cost single family homes sold to home owners by fee simple deed (single family residences located within the city limits having initial purchase prices as certified by the developer that do not exceed the latest available 12-month listing for median price single family housing in the city as published by the Real Estate Center at Texas A&M University), reimbursement to the developer for the following eligible costs:

(i) 70 percent of water and wastewater main construction costs plus the costs of inspection and construction management,

(ii) 100 percent of related design cost,

(iii) All oversizing costs not reimbursed under provision (i) above,

(iv) Up to a $3,000.00 per lot reimbursement of storm sewer drainage cost, and

(v) The developer's interest cost up to the market interest rate the city's financial advisor determines the city would pay if it issued bonds on the city's water and sewer system on the date the developer contract is countersigned by the city controller.

b. For all other new single-family homes sold to home owners by fee simple deed, reimbursement to the developer for the following eligible costs:

(i) 70 percent of water and sanitary sewer main construction costs,

(ii) 100 percent of related design costs,

(iii) All oversizing construction costs not reimbursed under provision (i) above, and

(iv) The developer's interest cost up to the market interest rate the city's financial advisor determines the city would pay if it issued bonds on the city's water and sewer system on the date the developer contract is countersigned by the city controller.

Reimbursement under this item is not available for off-site main. In addition, the developer must give notice to the department of the commencement of construction of the project and award the construction contract in a manner consistent with the procedures of Chapter 252 of the Texas Local Government Code.

The city shall reimburse the developer for eligible costs upon the completion of at least 25 percent of the total number of housing units required under the terms of the developer contract.

(4) a. A developer shall not be reimbursed for any eligible costs, including interest, and shall waive any right to claim such reimbursement if the developer fails to:

(i) Obtain a fully executed developer contract prior to beginning construction of the facilities;

(ii) Begin actual construction of the facilities described in the developer contract within 18 months after the date of countersignature of the developer contract by the city controller; or

(iii) Complete construction of 100 percent of the facilities described in the developer contract (and 25 percent of the number of housing units required by a 70 percent developer reimbursement contract) within three years of the date the developer commences construction.

b. The director may extend the contract term, including the time limits set out in subitems a(ii) and (iii) of this item (4) if the developer can show good cause for its delay. The director may extend the developer participation contract term, including the time limits set out in subitems a(ii) and (iii) of this item (4) for a period of three years ("initial extension") for the following reasons:

(i) Serious illness or death of developer or developer's immediate family.

(ii) Local, state, or federally recognized housing sales slowdown caused by economic conditions, such as a depression or recession that affects housing sales in the Houston metropolitan area.

Thereafter, the director may authorize one subsequent extension for up to one more year if, in the director's reasonable judgment, the economic conditions described in subitem b(ii) of this item (4) continue to exist, and the developer has completed construction of the project and at least 25 percent of the housing units, but has been unable to sell the housing units according to subsection 3(a) above. Provided however, the total contract term extension shall not exceed four years, unless approved by city council.

c. In no case shall the city's total combined payments under the original developer participation contract and the development assistance contract exceed the total amount set out in the original developer participation contract. In no case shall the city pay for anything under the development assistance contract that it has already paid for under the original developer participation contract. Funds appropriated for a development assistance contract shall not exceed the remaining funds under the original developer participation contract for the same development.

d. In no case shall the city reimburse the contractor for an amount in excess of the amount set out in the developer contract, which must not ever exceed $1,000,000.00 per contract.

(5) Contingent upon city council's having appropriated sufficient funds to pay for such contracts, the city council delegates to the director the authority to approve and execute the following, using standard forms approved by city council:

a. Developer participation contracts, and

b. Development assistance contracts with a successor developer for a project described in an original developer participation contract upon which the original developer has defaulted, or with the original developer when its default on the original developer participation contract is solely due to its failure to meet the construction or home sales deadlines set out herein.

When a developer participation contract application or a request for extension thereto or a development assistance contract application is administratively complete, but at least ten days prior to approval by director, the department shall provide the members of the city council notice of the scope and location of the proposed project as well as contact information for the developer.

(6) The department shall charge each developer requesting a developer contract application fees stated for this provision in the city fee schedule. Provided, however, the department shall refund the application fee if the developer has submitted a complete application as required by the department and funds are not available

within 30 days of the developer's application. No refund shall be given for any other reason.

These application fees shall be adjusted by the department each year effective on the first of April. The adjustment shall be based on the percentage change in the U.S. Consumer Price Index for all Urban Consumers for the Houston-Galveston-Brazoria Texas Metropolitan Area rounded up to the next ten dollar increment.

(7) In the event construction costs not reimbursed by the city are $5,000.00 or more, such unreimbursed cost shall be subject to pro-rata reimbursement as provided in sections 47-168 through 47-170.

(8) In the case of construction of water main, the department shall be responsible for chlorination required by state law prior to use by the city.

(9) Except as provided in subsection (5) above, in the event a developer defaults under a developer participation or assistance contract, the developer shall be barred from any additional developer contract for a period of a year following the default.

(Ord. No. 96-1248, § 1, 11-26-96; Ord. No. 00-171, § 3, 3-8-00; 01-76, § 1, 1-17-01; Ord. No. 05-992, § 4, 8-24-05; Ord. No. 08-307, § 2, 4-9-08; Ord. No. 08-741, § 2, 8-20-08; Ord. No. 2010-184, §§ 2—5, 3-3-2010; Ord. No. 2010-760, §§ 2, 3, 9-29-2010; Ord. No. 2011-1168, § 13, 12-14-2011)

Sec. 47-165. Construction by developers under permit.

(a) No developer may construct main unless the developer secures a permit issued by the department. In the event there are not sufficient funds allocated or materials available for execution of the developer contract, or the developer chooses not to execute a developer contract, the developer may proceed to construct the main under a permit issued by the department.

(b) The department shall promulgate a permit application form. The permit application shall include the following items:

(1) The name and address of the developer;

(2) The location of main;

(3) A copy of the approved subdivision or development plat showing the proposed development;

(4) Evidence that the developer has obtained sufficient water and wastewater capacity for its development;

(5) Evidence of ownership of the proposed development;

(6) An original copy of the plans and specifications prepared by an engineer registered in the state (if not already approved when the subdivision or development plat was approved by the department); and

(7) Any additional information as may be required by the department to determine compliance under this article.

(c) Upon submittal of a complete application (including plans and specifications already approved by the department), valid performance and payment bonds as required under section 47-163 of this Code, and evidence that the developer has obtained required water and wastewater capacity for the development, the director shall grant the permit.

(Ord. No. 96-1248, § 1, 11-26-96; Ord. No. 05-992, § 5, 8-24-05)

Sec. 47-166. Requirements for construction under permit.

A developer constructing main under a utility construction permit must comply with each requirement described in section 47-163 of this Code, including the furnishing of performance and payment bonds executed by the contractor and its surety in the full amount of the construction contract.

(Ord. No. 96-1248, § 1, 11-26-96)

Sec. 47-167. Management and control.

All main constructed under a permit shall, upon acceptance by the city, be managed, controlled and regulated by the city, and connections therewith shall be governed and regulated in the same manner as connections with any city utility lines, except that for off-site main constructed

under a permit the right is hereby reserved to the permittee to receive, for private service connections, the compensation fixed by the city council under section 47-168 of this Code. It is distinctly understood that such main shall be placed so as not to interfere with the construction in the streets of the city of any other underground pipes, ducts, conduits or other structures laid on the part of the city, and the city shall have the right to take the same up, or disconnect, or destroy or abandon the same when in the best interest of the city in the discretion of the director; and the city shall be in no wise responsible for any cost or damage on account thereof. The city shall have the right to lay any main down the streets where permittee-constructed main runs even though it may render such main useless without being in any manner required to compensate the permittee. It is intended by these provisions merely to furnish to the permittee a means of reimbursing himself from other private persons similarly situated under the rules and regulations that may be established by the city council, and not in any manner to obligate the city to pay or cause to be paid any sum of money on account thereof or to vest in any persons constructing such main any private right against the city or the public use.
(Ord. No. 96-1248, § 1, 11-26-96)

Sec. 47-168. Statement of costs; pro-rata charges.

If the construction cost of the main not paid or reimbursed by the city is $5,000.00 or more, the permittee or developer may apply to the department for pro-rata reimbursement of its costs by each successive person who connects to the off-site main built by the permittee or developer. Within 90 days of the date the main is accepted and approved by the department, the permittee or developer must file with the department: (i) an accurate and verified statement showing the cost of such construction; and (ii) all documents and certificates required under section 47-163 of this Code. Upon determination that the documents are complete and in proper form, the director shall forward them to the city secretary for consideration by city council together with the director's recommendation. When documents have been filed with the city secretary, the city council will, as soon thereafter as practicable, determine and fix the amount that shall be paid per lot, per connection, or per acre by each successive person making a service connection with the off-site main. The schedule of such amount shall be filed in the office of the director, and no person shall be allowed to make service connections with such off-site main for a period of 15 years after city acceptance of the main, unless the person deposits with the department, for the use and benefit of the permittee or developer, the amount required under the schedule approved by city council.

No permittee or developer shall be entitled to pro-rata reimbursement on account of extensions made by others to main previously constructed by such permittee or developer.
(Ord. No. 96-1248, § 1, 11-26-96; Ord. No. 00-171, § 4, 3-8-00)

Sec. 47-169. Pro-rata fee account.

A pro-rata fee account is hereby established. The city shall deposit all pro-rata charges collected into such account. Expenditures from such account shall be reserved solely for reimbursement of permittees for the reasonable costs of installing off-site main as approved by city council pursuant to section 47-168 of this Code.
(Ord. No. 96-1248, § 1, 11-26-96)

Sec. 47-170. Reimbursement for construction of approved main.

For a period of 15 years after acceptance by the department of the completed off-site main, the permittee shall be entitled to reimbursement for connections from the proceeds of the pro-rata charges established herein. Payment shall be from the pro-rata fee account. The city shall make reimbursements for main extensions semi-annually on May 1 and November 1 of each calendar year. Following expiration of the 15 year period, the city shall cease to collect pro-rata charges for the off-site main.
(Ord. No. 96-1248, § 1, 11-26-96)

Sec. 47-171. Violations.

Any person who shall lay or connect into main without a utility construction permit or contract from the city shall be guilty of a misdemeanor,

which shall be punishable by a fine not to exceed $500.00. Each day that the connection is suffered or allowed to exist shall constitute a separate offense. In addition, the department shall discon nect any such unpermitted connection from the city main or otherwise terminate utility services. (Ord. No. 96-1248, § 1, 11-26-96)

Secs. 47-172—47-185. Reserved.

ARTICLE V. INDUSTRIAL WASTEWATER*

Sec. 47-186. Purpose and policy.

(a) This article sets forth uniform requirements for users of the wastewater system, to enable the city of Houston to comply with all applicable state and federal laws, including the Federal Water Pollution Control Act, as amended by the Clean Water Act, as amended (33 USC §§ 1251 et seq.) and the general pretreatment regulations (Title 40, Code of Federal Regulations, Part 403). The purposes and objectives of this article are:

(1) to prevent the introduction of pollutants into the wastewater system that will interfere with its operation;

(2) to prevent the introduction of pollutants into the wastewater system that will pass, inadequately treated, through the wastewater system and into receiving waters, or that will otherwise be incompatible with the wastewater system;

(3) to protect the health and safety of both the wastewater system's personnel and the general public;

(4) to promote the reuse and recycling of industrial wastewater and sludge within the wastewater system;

(5) to provide for wastewater contracts between the city and other municipalities or extra-jurisdictional users who discharge to the wastewater system; and

(6) to enable the city to comply with its Texas Pollutant Discharge Elimination System permit conditions, sludge use and disposal requirements, and any other federal or state laws to which the wastewater system is subject.

(b) Incorporation of EPA or TCEQ standards. All categorical pretreatment standards, sewage pretreatment rules, lists of toxic pollutants, industrial categories, and other applicable standards, laws, rules, and regulations promulgated by the EPA or TCEQ, including all future amendments of those standards, laws, rules, and regulations, are incorporated into this article.
(Ord. No. 2020-1024, § 2(Exh. A), 12-2-2020)

Sec. 47-187. General provisions.

(a) *[Generally.]* This article shall apply to all users of the publicly owned treatment works (POTW). This article authorizes the issuance of individual and general wastewater discharge permits; provides for monitoring, compliance, and enforcement activities; establishes administrative review procedures; requires user reporting; and provides for the setting of fees for the equitable distribution of costs resulting from the program established herein.

The discharge of industrial waste to the sanitary sewer system shall be done in strict conformance to this article and this article shall be construed to strictly prohibit the unauthorized discharge of any wastewater stream to the sanitary sewer system, and to grant all powers the control authority needs to fulfill the purposes and objectives of this article, the Clean Water Act (33 U.S.C. § 1251 et seq.), and the General Pretreatment Regulations (Title 40 of the Code of Federal Regulations [C.F.R.] Part 403), including disconnecting wastewater services.

(b) *Administration.* Except as otherwise provided herein, the director shall administer, implement, and enforce the provisions of this article. Any powers granted to or duties imposed upon the director may be delegated by the director to a city employee.

*__Editor's note—__Ord. No. 2020-1024, § 2(Exh. A), adopted December 2, 2020, amended Ch. 47, Article V, in its entirety to read as herein set out. Former Article V was entitled Disposal of Industrial Wastes Through City Sewer System and derived from Code 1968, §§ 49-145-49—49-167 and subsequent amendatory ordinances. See the Code Comparative Table for a complete derivation.

The director shall be authorized to act for the city as control authority of the POTW. The city shall have the legal authority to enforce any and all pretreatment standards as well as pretreatment requirements specified by regulations promulgated by the EPA, including but not limited to the powers enumerated in 40 C.F.R. § 403.8(f)(1), as amended, and same are hereby incorporated herein by this reference. Any industrial user that is subject to pretreatment standards shall file with the director such reports as may be required by pretreatment standards or requirements promulgated by the EPA or the TCEQ. In case of any conflict between a pretreatment standard or requirement promulgated by the EPA or the TCEQ and any standard or requirement imposed elsewhere by this article, the standard or requirement that is more protective of human health and the environment shall apply.

(c) *Abbreviations.* The following abbreviations, when used in this article and in permits issued or agreements entered into pursuant to this article, shall have the designated meanings:

BOD	—	Biochemical oxygen demand.
BMP	—	Best management practice.
BMR	—	Baseline monitoring report.
C.F.R.	—	Code of Federal Regulations.
CIU	—	Categorical industrial user.
COD	—	Chemical oxygen demand.
EPA	—	U.S. Environmental Protection Agency.
IU	—	Industrial user.
mg/L	—	Milligrams per liter.
POTW	—	Publicly owned treatment works.
RCRA	—	Resource Conservation and Recovery Act, 42 U.S.C. § 6922, et seq., and its implementing regulations.
SIU	—	Significant industrial user.
SNC	—	Significant non-compliance.
TBLL	—	Technically based local limit.
TCEQ	—	Texas Commission on Environmental Quality or its successor agency.
TexTox	—	Texas Toxicity Modeling Program.
TPDES	—	Texas Pollutant Discharge Elimination System.
TSS	—	Total suspended solids.
TTO	—	Total toxic organics.
U.S.C.	—	United States Code.

(d) *Definitions.* Unless a provision explicitly states otherwise, the following terms and phrases, as used in this article and in permits issued or agreements entered into pursuant to this article, shall have the meanings hereinafter designated.

Act or *the Act.* The Federal Water Pollution Control Act, also known as the Clean Water Act, as amended, 33 U.S.C. § 1251 et seq.

Approval authority. The State of Texas and the TCEQ.

Authorized or *duly authorized representative of the user.*

(1) If the user is a corporation:

a. The president, secretary, treasurer, or a vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision-making functions for the corporation; or

b. The manager of one or more manufacturing, production, or operating facilities, provided the manager is authorized to make management decisions that govern the operation of the regulated facility including having the explicit or implicit duty of making major capital investment recom-

mendations, and initiating and directing other comprehensive measures to assure long-term environmental compliance with environmental laws and regulations; can ensure that the necessary systems are established or actions taken to gather complete and accurate information for individual or general wastewater discharge permit requirements; and has been assigned or delegated authority to sign documents in accordance with corporate procedures.

(2) If the user is a partnership, limited liability company, or sole proprietorship: a general partner, limited liability company individual member, or proprietor, respectively.

(3) If the user is a federal, state, or local governmental facility: a director or highest official appointed or designated to oversee the operation and performance of the activities of the government facility, or their designee.

(4) The individuals described in items (1) through (3) of this definition, may designate a duly authorized representative if the authorization is in writing, the authorization specifies the individual or position responsible for the overall operation of the facility from which the discharge originates or having overall responsibility for environmental matters for the company, and the written authorization is submitted to the director.

Best management practices or *BMPs* means schedules of activities, prohibitions of practices, maintenance procedures, and other management practices to implement the general and specific prohibitions listed in section 47-188(a) of this article and 40 C.F.R. § 403.5(a)(1) and (b). BMPs include, but are not limited to, treatment requirements, operating procedures, and practices to control plant site runoff, spillage or leaks, sludge or waste disposal, or drainage from raw material storage. BMPs shall be considered local limits and pretreatment standards for the purposes and objectives of this article and Section 307(d) of the Act.

Biochemical oxygen demand or *BOD.* The quantity of oxygen utilized in the biochemical oxidation of organic matter under standard laboratory procedures for five days at a temperature of 20° Celsius ("C"), usually expressed as a concentration (e.g., mg/L).

Categorical pretreatment standard or *categorical standard.* Any regulation containing pollutant discharge limits promulgated by the EPA in accordance with sections 307(b) and (c) of the Act (33 U.S.C. § 1317) that apply to a specific category of users and that appear in 40 C.F.R. § Chapter I, Subchapter N, Parts 405-471.

Categorical industrial user. An industrial user subject to a categorical pretreatment standard or categorical standard, excluding dental dischargers subject to 40 C.F.R. Part 441.

Chemical oxygen demand or *COD.* A measure of the oxygen required to oxidize all compounds, both organic and inorganic, in water.

City. The City of Houston in the State of Texas.

Composite sample. A representative flow- or time-proportioned sample generally collected within a 24-hour period or the operating day of the user and combined according to flow or time, respectively.

Control authority. The City of Houston.

Control manhole. A manhole located outside the property of a user which receives wastewater discharged by a user where that wastewater can be sampled by the city prior to combination with wastewater from other sources.

Daily maximum. The arithmetic average of all effluent samples for a pollutant collected during a 24-hour period.

Daily maximum limit. The maximum allowable discharge limit of a pollutant during a

24-hour period. Where a daily maximum limit is expressed in units of mass, the daily discharge is the total mass discharged over the course of the sampling period. Where a daily maximum limit is expressed in terms of a concentration, the daily discharge is the arithmetic average measurement of the pollutant concentration derived from all measurements taken during that 24-hour period. If only one measurement is taken during the 24-hour period, that measurement is the daily discharge.

Dental discharger. A source of wastewater to a POTW from a facility where the practice of dentistry is performed as described in 40 C.F.R. Part 441.

Department. Houston Public Works.

Director. The Director of Houston Public Works or the director's authorized representative.

Domestic wastewater. Wastewater that does not contain industrial waste.

Environmental Protection Agency or *EPA.* The U.S. Environmental Protection Agency or, where appropriate, the Regional Water Management Division Director, the Regional Administrator, or other duly authorized official of said agency.

Establishment, plant. Any establishment or plant producing industrial waste that is discharged into the sewer system.

Existing source. Any source of discharge that is not a new source.

Facility. A place, building, or equipment used for a particular purpose or activity. When used in reference to an industrial user, it means all equipment, buildings, and operations contained within the property boundary of the source of an indirect discharge.

General permit. A general permit is an authorization to discharge that covers a group of dischargers with similar qualities. The director may issue a general permit to a category of users if the discharges of a group of users meets any one or more of the following conditions:

a. Involve the same or substantially similar types of operations;

b. Discharge the same types of wastes;

c. Require the same effluent limitations; or

d. Require the same or similar monitoring."

Grab sample. A sample that is taken from a wastestream without regard to the flow in the wastestream and over a period of time not to exceed 15 minutes.

Indirect discharge or *discharge.* The introduction of pollutants into the POTW from any non-domestic source.

Industrial waste. Any waterborne solid, liquid or gaseous waste resulting from any production, industrial, manufacturing, service, or food processing operation or from the development, recovery, or processing of any natural resource including waste that is required to be pretreated by this article or the city's *Plumbing Code.* Included in this definition is any wastewater stream subject to pretreatment standards or requirements at 40 C.F.R. Parts 405—471.

Instantaneous limit. The maximum concentration of a pollutant allowed to be discharged at any time, determined from the analysis of any discrete or composited sample collected, independent of the industrial flow rate and the duration of the sampling event.

Interference. A discharge that, alone or in conjunction with a discharge or discharges from other sources, both (1) inhibits or disrupts the POTW, its treatment processes or operations, or its sludge processes, use or disposal; and (2) is a cause of a violation of the city's TPDES permit (including an increase in the magnitude or duration of a violation) or of the prevention of sewage sludge use or disposal in compliance with any of the following statutory/regulatory provisions or permits issued thereunder, or any more stringent state or local regulations: Section 405 of the Act; the

Solid Waste Disposal Act, including Title II commonly referred to as the Resource Conservation and Recovery Act (RCRA); any state regulations contained in any state sludge management plan prepared pursuant to Subtitle D of the Solid Waste Disposal Act; the Clean Air Act; the Toxic Substances Control Act; and the Marine Protection, Research, and Sanctuaries Act.

Local limit. Specific discharge limits developed and enforced by the city upon industrial or commercial facilities to implement the general and specific discharge prohibitions listed in 40 C.F.R. § 403.5(a)(1) and (b).

Medical waste. Isolation wastes, infectious agents, human blood and blood products, pathological wastes, sharps, body parts, contaminated bedding, surgical wastes, potentially contaminated laboratory wastes, and dialysis wastes.

Monthly average. The sum of all "daily discharges" measured during a calendar month divided by the number of "daily discharges" measured during that month.

Monthly average limit or *standard.* The highest allowable average of "daily discharges" over a calendar month, calculated as the sum of all "daily discharges" measured during a calendar month divided by the number of "daily discharges" measured during that month.

New source.

(1) Any building, structure, facility, or installation from which there is (or may be) a discharge of pollutants, the construction of which commenced after the publication of proposed pretreatment standards under section 307(c) of the Act that is applicable to such source if such standards are thereafter promulgated in accordance with that section, provided that:

a. The building, structure, facility, or installation is constructed at a site at which no other source is located; or

b. The building, structure, facility, or installation totally replaces the process or production equipment that causes the discharge of pollutants at an existing source; or

c. The production or wastewater generating processes of the building, structure, facility, or installation are substantially independent of an existing source at the same site. In determining whether these sources are substantially independent, factors such as the extent to which the new facility is integrated with the existing plant, and the extent to which the new facility is engaged in the same general type of activity as the existing source, will be considered.

(2) Construction on a site at which an existing source is located results in a modification rather than a new source if the construction does not create a new building, structure, facility, or installation meeting the criteria of item 1a or 1b above but otherwise alters, replaces, or adds to existing process or production equipment.

(3) Construction of a new source as defined under this paragraph has commenced if the owner or operator has:

a. Begun, or caused to begin, as part of a continuous onsite construction program:

1. Any placement, assembly, or installation of facilities or equipment; or

2. Significant site preparation work including clearing, excavation, or removal of existing buildings, structures, or facilities which is necessary for the

placement, assembly, or installation of new source facilities or equipment; or

b. Entered into a binding contractual obligation for the purchase of facilities or equipment which are intended to be used in its operation within a reasonable time. Options to purchase or contracts which can be terminated or modified without substantial loss, and contracts for feasibility, engineering, and design studies do not constitute a contractual obligation under this definition.

Noncontact cooling water. Water used for cooling that does not come into direct contact with any raw material, intermediate product, waste product, or finished product.

Pass through. A discharge which exits the POTW into waters of the United States in quantities or concentrations which, alone or in conjunction with a discharge or discharges from other sources, is a cause of a violation of any requirement of the city's TPDES permit or a TexTox Limit, including an increase in the magnitude or duration of a violation.

Permit. A written document issued by the director which, by its conditions, may authorize the permittee to construct, install, modify, or operate in accordance with stated limitations a specified facility for industrial waste discharge to the POTW.

Permittee, permit holder. Any person who owns, operates, possesses or controls an establishment, plant, or property being operated in accordance with a valid individual or general permit.

Person. Any individual, partnership, copartnership, firm, company, corporation, association, joint stock company, trust, estate, governmental entity, or any other legal entity; or their legal representatives, agents, or assigns. This definition includes all federal, state, and local governmental entities.

pH. A measure of the acidity or alkalinity of a solution, expressed in standard units.

Pollutant. Dredged spoil, solid waste, incinerator residue, filter backwash, sewage, garbage, septic waste, sewage sludge, munitions, medical wastes, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand, cellar dirt, municipal, agricultural and industrial wastes, and certain characteristics of wastewater (e.g., pH, temperature, TSS, turbidity, color, BOD, COD, toxicity, or odor).

Pretreatment. The reduction of the amount of pollutants, the elimination of pollutants, or the alteration of the nature of pollutant properties in wastewater prior to, or in lieu of, introducing such pollutants into the POTW. This reduction or alteration can be obtained by physical, chemical, or biological processes; by process changes; or by other means, except as prohibited by 40 C.F.R. § 403.6(d).

Pretreatment facility. Any device, structure or method that will remove specified pollutants from the wastewater prior to its discharge into the POTW.

Pretreatment requirements. Any substantive or procedural requirement related to pretreatment imposed on a user, other than a pretreatment standard.

Pretreatment standards or *standards.* Any regulation containing pollutant discharge limits promulgated by the EPA in accordance with Section 307(b) and (c) of the Act, which applies to industrial users. The term includes prohibited discharge standards, categorical pretreatment standards, and local limits. In cases of differing standards or regulations, the most stringent standard shall apply.

Process wastewater means any water which, during manufacturing or processing, comes into direct contact with or results from the production or use of any raw material, intermediate product, finished product, by-product, or waste product.

Prohibited discharge standards or *prohibited discharges.* Absolute prohibitions against the discharge of certain substances; these prohibitions appear in section 47-188 of this article.

Publicly owned treatment works or *POTW.* A treatment works, as defined by section 212 of the Act (33 U.S.C. § 1292), which is owned by the city. This definition includes any devices or systems used in the collection, storage, treatment, recycling, and reclamation of sewage or industrial wastes of a liquid nature and any conveyances, which convey wastewater to a treatment plant.

Regulated entity. A permittee or a user that does not hold a permit under this article but that is authorized by the director to discharge into the POTW.

Sample well or *sampling facility.* A physical connection on an industrial user's discharge pipe that is constructed to allow access for sampling and inspection.

Septic tank waste. Any sewage from holding tanks such as vessels, chemical toilets, campers, trailers, and septic tanks.

Sewage. Human excrement and gray water (household showers, dishwashing operations, etc.).

Significant industrial user or *SIU.* Except as provided in item (3) of this definition, a significant industrial user is:

(1) A categorical industrial user; or

(2) An industrial user that:

a. Discharges an average of 25,000 gallons per day or more of process wastewater to the POTW (excluding sanitary, noncontact cooling and boiler blowdown wastewater);

b. Contributes a process wastestream which makes up five percent or more of the average dry weather hydraulic or organic capacity of the POTW treatment plant; or

c. Is designated as such by the city on the basis that it has a reasonable potential for adversely affecting the POTW's operation or for violating any pretreatment standard or requirement.

(3) Upon a finding that a user meeting the criteria in item (2) of this definition has no reasonable potential for adversely affecting the POTW's operation or for violating any pretreatment standard or requirement, the city may at any time, on its own initiative or in response to a petition received from an industrial user, and in accordance with procedures in 40 C.F.R. § 403.8(f)(6), determine that such user should not be considered a significant industrial user.

Slug load or *slug discharge.* Any discharge at a flow rate or concentration that could cause a violation of the prohibited discharge standards in section 47-187 of this article. A slug discharge is any discharge of a nonroutine, episodic nature, including but not limited to an accidental spill or a noncustomary batch discharge, which has a reasonable potential to cause interference or pass through, or in any other way violate the POTW's regulations, local limits or permit conditions.

Source. Any building, structure, facility, or installation from which there is (or may be) a discharge of pollutants.

Storm water. Any flow occurring during or following any form of natural precipitation, and resulting from such precipitation, including snowmelt.

Total suspended solids. The total suspended matter that floats on the surface of, or is suspended in, water, wastewater, or other liquid, and that is removable by laboratory filtering.

User or *industrial user.* Any discharger or potential source of indirect discharge, including but not limited to any categorical industrial user, significant industrial user, dental

discharger or a non-domestic user that has a sewer connection for domestic wastewater discharge only.

Wastewater. Liquid and water-carried industrial wastes and sewage from residential dwellings, commercial buildings, industrial and manufacturing facilities, and institutions, whether treated or untreated, which are contributed to the POTW.

Wastewater treatment plant or *treatment plant*. That portion of the POTW which is designed to provide treatment of municipal sewage and industrial waste.

(Ord. No. 2020-1024, § 2(Exh. A), 12-2-2020; Ord. No. 2021-1037, § 20(Exh. I.55), 12-1-2021, eff. 4-1-2022)

Sec. 47-188. General sewer use requirements.

(a) *Prohibited discharge standards.*

(1) *General prohibitions.* No user shall introduce or cause to be introduced into the POTW any pollutant or wastewater which causes pass through or interference. These general prohibitions and the specific prohibitions in item (2) of this subsection apply to all users of the POTW whether or not they are subject to categorical pretreatment standards or any other National, state, or local pretreatment standards or requirements.

(2) *Specific prohibitions.* No user shall introduce or cause to be introduced into the POTW the following pollutants, substances, or wastewater:

a. Pollutants which create a fire hazard or explosion hazard in the POTW, including, but not limited to, any wastestreams with a closed-cup flashpoint of less than 140° F (60° C) using the test methods specified in 40 C.F.R. § 261.21;

b. Wastewater having a pH less than 5.0 or more than 11.0, or otherwise having the potential to cause corrosive structural damage to the POTW or POTW equipment;

c. Any liquid or solid that contains wax, grease, oil, plastics, or other substances that can solidify or become discernibly viscous at temperatures between 15° to 65.5° C (60° to 150° F);

d. Solid or viscous substances in amounts which could cause obstruction of the flow in the POTW resulting in interference, but in no case solids greater than 3/16 inch in any dimension;

e. Wastes from garbage grinders, except waste generated in the preparation of foods that are generally consumed on the premises, and not unless it has been properly comminuted or shredded to reduce all food scraps and like particles to 3/16 inch or less in greatest dimensions. Garbage grinders shall not be used for grinding plastics, paper products, linens, garden refuse, hospital or veterinarian refuse, or similar refuse for disposal into a city sewer;

f. Substances that exert or cause:

1. Unusual BOD or an immediate oxygen demand;

2. Unusual concentrations of solids or composition, as an example, in TSS of an inert nature (such as Fuller's earth) or in total dissolved solids (such as sodium chloride or sodium sulfate); or

3. Unusual flow or concentration such that, either alone or by interaction with other substances, may cause interference with the POTW;

g. Wastewater having a temperature greater than 113° F (45° C), or which will inhibit biological activity in the treatment plant resulting in interference, but in no case wastewater which causes the

temperature at the introduction into the treatment plant to exceed 104° F (40° C);

[The next page is 3293]

h. Petroleum oil, nonbiodegradable cutting oil, or products of mineral oil origin;

i. Pollutants which result in the presence of toxic gases, vapors, or fumes within the POTW in a quantity that may cause acute worker health and safety problems;

j. Trucked or hauled pollutants, except at discharge points designated by the director in accordance with section 47-189 of this article;

k. Noxious or malodorous liquids, gases, solids, or other wastewater which, either singly or by interaction with other wastes, are capable of causing a

1. Public nuisance or objectionable odor;

2. Hazard to life or property; or

3. Risk to worker health or safety;

l. Wastewater which imparts color, such as, but not limited to, dye wastes and vegetable tanning solutions, which may impart color to the treatment plant's effluent, thereby violating the city's NPDES or TPDES permit;

m. Wastewater containing any radioactive wastes or isotopes except in compliance with applicable state or federal regulations;

n. Storm water; surface water; ground water; artesian well water; downspout or roof runoff; subsurface drainage; water from irrigation sprinklers, fountains, or ponds; and unpolluted water, unless specifically authorized by the director;

o. Sludge, screenings, or other residues from the pretreatment of industrial wastes;

p. Medical wastes, except as specifically authorized by the director in an individual or general wastewater discharge permit;

q. Wastewater causing, alone or in conjunction with other sources, the treatment plant's effluent to fail a toxicity test;

r. Detergents, surface-active agents, aircraft fire fighting foam, or other substances that may cause excessive foaming in the POTW;

s. Free or emulsified oil and grease, if such materials:

1. Exceed a concentration of 200 milligrams per liter of free or emulsified oil and grease, provided that a user eligible for a compliance schedule as set forth in subsections 47-188(d)(2)b and 47-188(d)(2)e must not exceed a concentration authorized by an applicable schedule of compliance;

2. Form a discernible floating layer on the surface of the discharge waters;

3. Overload the industrial user's skimming and grease handling equipment;

4. Are not amenable to biological treatment and therefore may pass through to the receiving waters without being affected by normal sewage treatment processes;

5. Have adverse effects on the treatment process due to the excessive quantities; or

6. Deposit oil or grease in the sewer lines in such a manner as to obstruct the sewer;

t. Any substance which is not amenable to treatment or reduction by the wastewater treatment process employed by a user, or is amenable to treatment only to such degree that the sanitary sewer system cannot meet the requirements of its permits;

u. Any discharge which fails to meet applicable pretreatment standards or requirements;

v. Flammable or explosive liquids, solids or gases, including, but not limited to gasoline, kerosene, benzene, naphtha, or wastewater causing two readings on an explosion hazard meter at the point of discharge into the POTW, or at any point in the POTW, of more than ten percent (10%) of the lower explosive limit of the meter;

w. Substances in such concentrations as to produce odor or taste in the effluent as to affect the taste and odor of the receiving waters;

x. Any substance that:

1. Forms solids in concentrations exceeding limits established in this article;

2. Causes any other condition that adversely impacts POTW processes, structures, or treatment processes, or increases other costs or expenses of the POTW, provided that the director has provided advance notice to the user of such condition.

y. Any pollutant discharged directly into a manhole or other opening in the POTW unless specifically authorized by the city or as otherwise permitted under this article; or

z. Pollutants, including oxygen-demanding pollutants (BOD, etc.), released in a discharge at a flow rate and/or pollutant concentration which, either singly or by interaction with other pollutants, will cause interference with the POTW.

Pollutants, substances, or wastewater prohibited by this subsection shall not be processed or stored in such a manner that they could be discharged to the POTW.

(3) No person shall open a city manhole for the purpose of discharging waste without specific authorization in accordance with this article.

(b) *National categorical pretreatment standards.* Users must comply with the categorical pretreatment standards found at 40 C.F.R. Chapter I, Subchapter N, Parts 405—471, including BMPs or pollution prevention alternatives and reporting requirements.

(1) Where a categorical pretreatment standard is expressed only in terms of either the mass or the concentration of a pollutant in wastewater, the director may impose equivalent concentration or mass limits in accordance with subsections 47-188(b)(4) and(b)(5) of this article.

(2) When the limits in a categorical pretreatment standard are expressed only in terms of mass of pollutant per unit of production, the director may convert the limits to equivalent limitations expressed either as mass of pollutant discharged per day or effluent concentration for purposes of calculating effluent limitations applicable to individual industrial users.

(3) When wastewater subject to a categorical pretreatment standard is mixed with wastewater not regulated by the same standard, the director shall impose an alternate limit in accordance with the combined wastestream formula promulgated in 40 C.F.R. § 403.6(e).

(4) When a categorical pretreatment standard is expressed only in terms of pollutant concentrations, an industrial user may request that the city convert the limits to equivalent mass limits. A determination to convert concentration limits to mass limits is within the discretion of the director. The city may establish equivalent mass limits only if the industrial user

meets all the conditions set forth in subsections 47-188(b)(4) a.1 through 47-188(b)(4) a.5 below.

a. To be eligible for equivalent mass limits, the industrial user must:

1. Employ, or demonstrate that it will employ, water conservation methods and technologies that substantially reduce water use during the term of its individual wastewater discharge permit;

2. Use control and treatment technologies adequate, at the time of the request, to achieve compliance with the applicable categorical pretreatment standard; in addition, the industrial user must certify that it is not using, and has not in the past used, dilution as a substitute for treatment under its then current permit or authorization;

3. Provide sufficient information to establish the facility's actual average daily flow rate for all wastewater streams, based on data from a continuous effluent flow monitoring device, as well as the facility's long-term average production rate. Both the actual average daily flow rate and the long-term average production rate must be representative of operating conditions at the time of the request to use equivalent mass limits;

4. Not have daily flow rates, production levels, or pollutant levels that vary so significantly that equivalent mass limits are not appropriate to control the discharge; and

5. Have complied with all applicable categorical pretreatment standards prior to the industrial user's request for equivalent mass limits under its then current permit or authorization.

b. An industrial user subject to equivalent mass limits must:

1. Maintain and effectively operate control and treatment technologies adequate to achieve compliance with the equivalent mass limits;

2. Continue to record the facility's flow rates through the use of a continuous effluent flow monitoring device;

3. Continue to record the facility's production rates and notify the director whenever production rates are expected to vary by more than 20 percent from its baseline production rates determined in subsection (b)(4) a.3 of this section. Upon notification of a revised production rate, the director will reassess the equivalent mass limit and revise the limit as necessary to reflect changed conditions at the facility; and

4. Continue to employ the same or comparable water conservation methods and technologies as those implemented pursuant to subsection (b)(4)a1 of this section so long as it discharges under an equivalent mass limit.

c. When developing equivalent mass limits, the director:

1. Will calculate the equivalent mass limit by multiplying the actual average daily flow rate of the regulated process of the industrial user by the concentration-based daily maximum and monthly average standard for the applicable

categorical pretreatment standard and the appropriate unit conversion factor;

2. Upon notification of a revised production rate, will reassess the equivalent mass limit and recalculate the limit as necessary to reflect changed conditions at the facility; and

3. May retain the same equivalent mass limit in subsequent individual wastewater discharge permit terms if the industrial user's actual average daily flow rate was reduced solely as a result of the implementation of water conservation methods and technologies, and the actual average daily flow rates used in the original calculation of the equivalent mass limit were not based on the use of dilution as a substitute for treatment pursuant to section 47-188(f) of this article. The industrial user must also be in compliance with section 47-199(b) of this article regarding the prohibition of bypass.

(5) The director may convert the mass limits of the categorical pretreatment standards of 40 C.F.R. Parts 414, 419, and 455 to concentration limits for purposes of calculating limitations applicable to individual industrial users. The conversion is at the discretion of the director.

(6) Once included in its permit, the industrial user must comply with the equivalent limitations developed in this section 47-188(b) in lieu of the promulgated categorical standards from which the equivalent limitations were derived.

(7) Many categorical pretreatment standards specify one limit for calculating maximum daily discharge limitations and a second limit for calculating monthly average, or 4-day average limitations. Where such standards are being applied, the same production or flow figure shall be used in calculating both the average and the maximum equivalent limitation.

(8) Any industrial user operating under a permit incorporating equivalent mass or concentration limits calculated from a production-based standard shall notify the director within two business days after the user has a reasonable basis to know that the production level will change by 20 percent or more from its baseline production rates, as determined in subsection (b)(4) a.3 of this section, within the next calendar month. Any user who does not notify the director in the timeframe prescribed by this subsection of such anticipated change will be required to meet the mass or concentration limits in its permit that were based on the original estimate of the long-term average production rate.

(c) *State pretreatment standards.* Users must comply with state pretreatment standards.

(d) *Local limits.*

(1) The director is authorized to establish local limits pursuant to 40 C.F.R. § 403.5(c).

(2) The following pollutant limits are established to protect against pass through and interference:

a. No person shall discharge wastewater containing more than the following daily maximum limits:

Pollutant Parameter	*Local Limit, mg/L (Industrial Discharge Flow)*
Arsenic*	**1.5** (Flow <1 MGD)
	0.08 (Flow ≥1 MGD)
Cadmium	**0.2**
Chromium	**1.0**
Copper	**2.0**
Cyanide*	**1.4** (Flow <1 MGD)
	0.5 (Flow ≥1 MGD)
Lead	**1.0**
Mercury	**0.01**
Molybdenum*	**3.7** (Flow <1 MGD)
	0.9 (Flow ≥1 MGD)
Nickel*	**2.0** (Flow <1 MGD)

Pollutant Parameter	*Local Limit, mg/L (Industrial Discharge Flow)*
	0.08 (Flow ≥1 MGD)
Silver	**1.0**
Zinc	**3.3**

*The limits for Arsenic, Cyanide, Molybdenum, and Nickel are tiered based on the discharge flow rate of the IU; specifically, discharges of 1 MGD or greater are subject to a lower concentration-based limit.

b. No person shall discharge wastewater containing more than the following instantaneous limits:

200 mg/L oil and/or grease, except that existing permittees are eligible for a 3-year schedule to comply subject to paragraph e.

c. Limitations on discharges of the following pollutants are established in the TBLLs portion of the approved program, to be applied on an as-needed basis:

Ammonia

BTEX

Total toxic organics (TTOs)

d. The limits in subsections 47-188(d)(2)a and 47-188(d)(2)b apply where the wastewater is discharged to the POTW and compliance may be determined at any sample point that captures all or a portion of the process wastewater flow as determined by the director. All concentrations for metallic substances are for total metal unless indicated otherwise. The director may impose mass limitations in addition to the concentration-based limitations set out in subsections 47-188(d)(2)a and 47-188(d)(2)b.

e. Existing sources that have an industrial waste permit on December 2, 2020 are eligible for a 3-year schedule to comply with the 200 mg/L oil and grease limit. No later than two years from December 2, 2023, an existing source, as identified above, must achieve compliance with a limit of 300 mg/L oil and grease. No later than three years from December 2, 2020, an existing source must meet the discharge limit set forth in 47-188(d)(2)b.

(3) The director may develop BMPs, by ordinance approved by city council or in individual wastewater discharge permits or general permits, to implement local limits and the requirements of sections 47-188(a) of this article. BMPs may not be implemented in lieu of local limits.

(4) The director may impose additional or more stringent limitations or pretreatment requirements in a permit as necessary to fulfill the purposes and objectives of this article.

(5) Appropriate pretreatment technology includes control equipment, such as equalization tanks or facilities, for protection against surges or slug loadings that might interfere with or otherwise be incompatible with the POTW. However, where wastewater from a regulated process is mixed in an equalization facility with unregulated wastewater or with wastewater from another regulated process, the effluent from the equalization facility must meet an adjusted pretreatment limit calculated in accordance with 40 CFR Section 403.6(e).

(6) The director may determine user's compliance with the local limits or any other applicable limit using grab or composite sampling techniques. Composite samples may be taken by the director or user over a 24-hour period, or over a longer or shorter time span, as determined by the director to meet specific circumstances.

(e) *City's right of revision.* The city reserves the right to establish, by ordinance or in individual wastewater discharge permits or general permits, more stringent standards or requirements on discharges to the POTW consistent with the purposes and objectives of this article.

(f) *Dilution.* No user shall increase the use of process water, or in any way attempt to dilute a discharge, as a partial or complete substitute for adequate treatment to achieve compliance with a discharge limitation unless expressly authorized by an applicable pretreatment standard or requirement. The director may impose mass limitations on users who are using dilution to meet applicable pretreatment standards or requirements, or in other cases when the imposition of mass limitations is appropriate.

(g) *Responsibility to inform.* The industrial user shall make available to the user's employees copies of this article, together with such other wastewater information and notices which may be furnished by the department from time to time for the purpose of improving and making more effective water pollution control.
(Ord. No. 2020-1024, § 2(Exh. A), 12-2-2020)

Sec. 47-189. Pretreatment and monitoring facilities.

(a) *Pretreatment facilities.* Users shall provide wastewater treatment as necessary to comply with this article and shall achieve compliance with all categorical pretreatment standards, local limits, and the prohibitions set out in sections 47-188(a) of this article within the time limitations specified by the EPA, the state, or the director, whichever is more stringent. Any facilities necessary for compliance shall be provided, operated, and maintained at the user's expense. Users shall submit detailed plans describing such facilities and operating procedures to the director for review. Users shall not commence or cause to be commenced construction of facilities until the director has approved the submitted detailed plans.

The user shall submit detailed plans showing any proposed new construction, modifications, and significant changes in pretreatment facilities or method of operation to the director for review and approval prior to implementation. The user shall obtain any necessary construction permits before new construction or modifications of an existing facility may commence.

The review of such plans and operating procedures shall in no way relieve the user from the responsibility of modifying such facilities as necessary to produce a discharge acceptable to the city under the provisions of this article.

Within 90 days after the completion of the wastewater pretreatment facility, the permittee shall submit as-built drawings and its procedures for operations and maintenance to the director.

(b) *Additional pretreatment measures.*

(1) Whenever deemed necessary, the director may require users to restrict their discharge during peak flow periods, designate that certain wastewater be discharged only into specific sewers, relocate and/or consolidate points of discharge, separate sewage wastewater streams from industrial wastestreams, and such other conditions as may be necessary to protect the POTW and determine the user's compliance with the requirements of this article.

(2) The director may require any person discharging into the POTW to install and maintain, on their property and at their expense, a suitable storage and flow-control facility to ensure equalization of flow. An individual wastewater discharge permit or general permit may be issued solely for flow equalization.

(3) The director may require users with potential flammable discharge substances to install and maintain an approved combustible gas detection meter.

(c) *Accidental discharge/slug discharge control plans.* The director shall evaluate, within one year after a user is designated as a SIU, whether the SIU needs an accidental discharge/slug discharge control plan or other action to control slug discharges. The director may require any user to develop, submit for approval, and implement such a plan or take such other action that may be necessary to control slug discharges. Alternatively, the director may develop such a plan for any user. An accidental discharge/slug discharge control plan shall address, at a minimum, the following:

(1) Description of discharge practices, including nonroutine batch discharges;

(2) Description of stored chemicals;

(3) Procedures for immediately notifying the director of any accidental or slug discharge, as required by section 47-192(f) of this article; and

(4) Procedures to prevent adverse impact from any accidental or slug discharge. Such procedures include, but are not limited to, inspection and maintenance of storage areas, handling and transfer of materials, loading and unloading operations, control of plant site runoff, worker training, building of containment structures or equipment, measures for containing toxic organic pollutants, including solvents, and/or measures and equipment for emergency response.

Every user shall provide protection from accidental discharge into the POTW of prohibited materials. Such protection shall be provided and maintained at the user's cost and expense.

Users shall control the production of all discharges to the extent necessary to maintain compliance with all applicable regulations upon reduction, loss, or failure of its treatment facility until the facility is restored or an alternative method of treatment is provided. This requirement applies in the situation where, among other things, the primary source of power to the treatment facility is reduced, lost, or fails.

Users shall provide records of the activities associated with slug control evaluation and results available to the director upon director's request.

(d) The director may require a user to install, at the user's expense, suitable monitoring facilities, instrumentation or equipment that allows for the representative sampling and accurate observation of wastewater discharges. At all times and at its own expense, the user shall maintain the sampling and monitoring equipment in a safe and proper operating condition and accessible to city personnel. The user shall ensure all devices used to measure wastewater flow and quality are calibrated at least annually to ensure their accuracy.

(e) The location of the monitoring facility shall provide ample room in or near the monitoring facility to allow accurate sampling and preparation of samples and analysis. The monitoring facilities must be provided in accordance with the director's requirements and all applicable local construction standards and specifications whether constructed on public or private property. The user shall construct and maintain monitoring facilities in such manner so as to enable the director to perform independent and unscheduled monitoring activities.

(f) *Multitenant buildings.* When more than one user is able to discharge into a common service line, the director may require installation of separate monitoring equipment for each user.

(g) *Flow, pH, lower explosive limit, and other appropriate meters and instrumentation.* If the director determines that an industrial user needs to measure and report: wastewater flow, discharge process wastewaters necessitating continuous pH measurement, or discharge wastewater that may contain flammable substances, the director may require the user, at the user's expense, to install and maintain approved meters, structures, and equipment.

(h) *Hauled wastewater.* Only domestic septic tank waste generated within the city may be introduced into the POTW and only at locations designated by the director, and at the times established by the director. Users must comply with section 47-188 of this article and any other requirements established by the city. The director may require waste haulers to obtain individual wastewater discharge permits or general permits. (Ord. No. 2020-1024, § 2(Exh. A), 12-2-2020)

Sec. 47-190. Individual wastewater discharge permits and general permits.

(a) *Wastewater analysis.* When requested by the director, a user must submit information on the nature and characteristics of its wastewater

within 30 days of the request. This information shall include, but is not limited to, the items listed in section 47-190(e) of this article. The director is authorized to prepare a form for this purpose and may periodically require a user to update information on the nature and characteristics of the user's wastewater.

(b) *Individual wastewater discharge permit and general permit requirement.*

(1) A user meeting any of the following criteria shall not discharge wastewater into the POTW without first obtaining an individual wastewater discharge permit or a general permit from the director:

a. SIUs;

b. Industrial users that discharge concentrations of BOD or TSS greater than those levels established for the imposition of the user surcharge under article III of this chapter; or

c. Industrial users that contribute or have the potential to contribute industrial waste having concentrations of pollutants that would interfere with or pass through the sewer system or contaminate the city's sewage sludge.

(2) The director may require a user who does not meet any of the criteria in subsection 47-190(b)(1) of this article to obtain individual wastewater discharge permits or general permits as necessary to carry out the purposes and objectives of this article.

(3) Any violation of the terms and conditions of an individual wastewater discharge permit or general permit shall be deemed a violation of this article and subjects the wastewater discharge permittee to the sanctions set out in sections 47-196 through 47-198 of this article. Obtaining an individual wastewater discharge permit or general permit does not relieve a permittee of its obligation to comply with all federal and state pretreatment standards or requirements or with any other requirements of federal, state, and local law.

(c) *Individual wastewater discharge and general permitting—Existing connections.* Any user required to obtain an individual wastewater discharge permit or general permit who was discharging wastewater into the POTW prior to December 2, 2020 and who wishes to continue such discharges, shall, within 45 days after December 2, 2020, apply to the director for an individual wastewater discharge permit or general permit in accordance with section 47-190(e) of this article, and shall not cause or allow discharges to the POTW to continue after 90 days after December 2, 2020 except in accordance with an individual wastewater discharge permit or general permit issued by the director. A user with an expiring industrial waste permit must apply for a new permit by submitting a complete permit application at least forty-five (45) days prior to the expiration of the user's existing permit. A user that has filed a complete and timely application may continue to discharge as approved in writing by the city through an administrative extension of the existing permit if the delay in permit issuance is not due to any act or failure to act on the user's part.

(d) *Individual wastewater discharge and general permitting—New connections.* Any user required to obtain an individual wastewater discharge permit or general permit who proposes to begin discharging into the POTW must obtain such permit, if the user does not have an applicable permit, prior to the beginning or recommencing of such discharge. An application for an individual wastewater discharge permit or general permit pursuant to section 47-190(e) of this article must be filed at least 90 days prior to the date upon which any discharge will begin. The user shall provide a tour of the facilities for department inspectors prior to commencing or recommencing discharge.

(e) *Individual wastewater discharge and general permit application contents.*

(1) All users required to obtain an individual wastewater discharge permit or general permit must submit a permit applica-

tion. Users that are eligible may request a general permit under section 47-190(f) of this article. The director may require users to submit all or some of the following information as part of an individual or general permit application:

a. *Identifying information.*

1. The name and address of the facility, including the name of the operator and owner.
2. Contact information, types of products or services, description of activities, facilities, and plant production processes on the premises.

b. *Environmental permits.* A list of any environmental control permits held by or for the facility.

c. *Description of operations.*

1. A brief description of the nature, average rate of production (including each product produced by type, amount, processes, and rate of production), and standard industrial classifications of the operation(s) carried out by such user.
2. A schematic process diagram, which indicates all process tanks, process lines, treatment systems, drains, and points of discharge to the POTW.
3. Types of wastes generated, and a list of all raw materials and chemicals used or stored at the facility which are, or could accidentally or intentionally be, discharged to the POTW.
4. Number and type of employees, hours of operation, and proposed or actual hours of operation.
5. Type and amount of raw materials processed (average and maximum per day).
6. Site plans, floor plans, mechanical and plumbing plans, and details to show all sewers, floor drains, sampling points, city sewer connections, pretreatment facilities, and appurtenances by size, location, and elevation, and all points of discharge.

d. Time and duration of discharges including the date the user first began discharge or plans to discharge to the POTW.

e. The location for monitoring all wastewater discharges from the user.

f. *Flow measurement.* Information showing the measured average daily and maximum daily flow, in gallons per day, to the POTW from regulated process streams and other streams, as necessary, to allow use of the combined wastestream formula in accordance with subsection 47-188(b)(3) of this article and 40 C.F.R. § 403.6(e). For new sources and new permittees not currently discharging, an estimate of flows may be used for meeting the requirements of the BMR.

g. *Measurement of pollutants.*

1. The categorical pretreatment standards applicable to each regulated process and any new categorically regulated processes.
2. The results of sampling and analysis identifying the nature and concentration, and/or mass, where required by the standard or by the director, of regulated pollutants in the discharge from each regulated process.
3. Instantaneous, daily maximum, and long-term average concentrations, or mass, where required, shall be reported.
4. The sample shall be representative of daily operations and shall be analyzed in accordance with procedures set out in sec-

tion 47-192(k) of this article. Where the standard requires compliance with a BMP or pollution prevention alternative, the user shall submit documentation as required by the director or the applicable standards to determine compliance with the standard.

5. Sampling must be performed in accordance with procedures set out in section 47-192(l) of this article.

h. Any request to be covered by a general permit based on section 47-190(f) of this article.

i. Any other information as may be deemed necessary by the director to evaluate the permit application.

(2) Incomplete or inaccurate applications will not be processed and will be returned to the user for revision.

(3) The director shall charge and collect applicable fees for each industrial waste permit or regulated entity if a permit is not required. Fees shall be as stated for this provision in the city fee schedule. Payment of any applicable fees when due is a condition of the processing of any application or authorization request under this article.

(f) *Wastewater discharge permitting: general permits.*

(1) At the discretion of the director, the director may use general permits to control user discharges to the POTW if the facilities to be covered by a general permit meet the following conditions:

a. Involve the same or substantially similar types of operations;

b. Discharge the same types of wastes;

c. Require the same effluent limitations;

d. Require the same or similar monitoring; and

e. In the opinion of the director, are more appropriately controlled under a general permit than under individual wastewater discharge permits.

(2) To be covered by the general permit, the user must file a written request for coverage that identifies its contact information, production processes, the types of wastes generated, the location for monitoring all wastes covered by the general permit, and any other information the director deems appropriate.

(3) The director will retain a copy of the general permit, documentation to support the director's determination that a specific user meets all the criteria in subsection 47-190(f)(1) of this article and applicable state regulations, and a copy of the user's written request for coverage for three years after the expiration of the general permit.

(4) The director may not control a SIU through a general permit where the facility is subject to production-based categorical pretreatment standards or categorical pretreatment standards expressed as mass of pollutant discharged per day or for IUs whose limits are based on the combined wastestream formula in accordance with subsection 47-188(b)(3) of this article and 40 C.F.R. § 403.6(e).

(5) The director shall charge and collect fees for each industrial waste permit or regulated entity if a permit is not required. Fees shall be as stated for this provision in the city fee schedule. Payment of any applicable fees when due is a condition of the processing of any application under this article.

(g) *Application signatories and certifications.*

(1) All wastewater discharge permit applications, user reports and certification statements must be signed by an authorized representative of the user and contain the certification statement in section 47-192(o) of this article.

(2) If the designation of an authorized representative of the user is no longer accurate because a different individual or position has responsibility for the overall operation of the facility or overall responsibility for environmental matters for the company, the user must submit a new written authorization satisfying the requirements of this section to the director prior to or together with any reports to be signed by the new authorized representative.

(h) *Individual wastewater discharge and general permit decisions.* The director will evaluate the data furnished by the user and may require additional information. Within 90 days of receipt of a complete permit application from a new user, and within 45 days of receipt of a complete permit application from an existing user, the director will determine whether to issue an individual wastewater discharge permit or a general permit. The director may deny any application for an individual wastewater discharge permit or a general permit based on the following reasons:

A permit shall be denied if the applicant:

(1) Cannot demonstrate compliance with sampling and operating standards of this article;

(2) Fails to provide any requested information as provided in section 47-190(e) of this article;

(3) Fails to provide and operate treatment and sampling facilities as provided in sections 47-189 and 47-193(1) of this article;

(4) Fails to pay all fees or charges required by this chapter or other applicable fees,

(5) Cannot demonstrate to the satisfaction of the director that the facility has been designed or will be operated in a manner that will produce a discharge that is acceptable to the POTW.

A permit may be denied if the applicant:

(1) Is an existing user or a previously unpermitted user that is at the time of the application violating or has previously violated the provisions of this article or any other city ordinance pertaining to the sanitary sewer system;

(2) Is an existing user or prior user and has had, during the term of its current or previously issued permit, recurring noncompliance with any provisions of this article or its previously issued permit;

(3) Has not complied with all applicable building and plumbing codes.

If the permit is denied, the director shall notify the applicant of the denial and the basis for permit denial. Recurring non-compliance may result in an interim renewal that requires increased self-monitoring or other requirements deemed necessary to demonstrate compliance. A permit shall not be renewed to an applicant that has had its sanitary sewer service disconnected as the result of termination of utility service or to an applicant that is in arrears on its sewer bill.

(i) *Discharge flow meter.* A user shall be required to install and maintain a wastewater discharge meter if:

(1) The user accepts material from off-site that causes or contributes a wastewater discharge to the sanitary sewer system, including material received on trucks, trains, ships, or via pipeline;

(2) The user discharges wastewater to the sanitary sewer system that is from a source other than city-provided water and is not billed for city sewer usage, such as well water or storm water;

(3) The user has a chemical or physical process that produces water that will be discharged to the sanitary sewer system;

(4) The user is subject to flow- or mass-based pretreatment standards; or

(5) The director determines that a wastewater discharge meter is required.

The discharge meter shall be purchased and installed by the user in accordance with the requirements of the department.

User shall establish a discharge meter billing account with the department for each discharge meter prior to the issuance of a new industrial waste permit or prior to starting any new process that will discharge unmetered wastewater to the sanitary sewer system.

User's failure to install a required discharge meter or establish a discharge meter billing account shall be grounds for the director to deny issuance of a new permit or revoke any existing permit.

Failure to maintain a required discharge meter in good working order, to calibrate the meter as required by the department, or to maintain an active discharge meter billing account will result in the revocation of the user's permit in accordance with section 47-191(f) of this article. Diverting wastewater to avoid measurement in a discharge meter will also result in the revocation of the user's permit or disconnection of water/wastewater service.

(j) *Additional guidelines.* The director is authorized to promulgate guidelines for administration of this article that are consistent with its requirements and applicable state and federal laws and regulations.
(Ord. No. 2020-1024, § 2(Exh. A), 12-2-2020)

Sec. 47-191. Individual wastewater discharge and general permit issuance.

(a) *Individual wastewater discharge and general permit duration.* An individual wastewater discharge permit or a general permit shall be issued for a specified time period, not to exceed five years from the effective date of the permit. An individual wastewater discharge permit or a general permit may be issued for a period less than five years, at the discretion of the director. Each individual wastewater discharge permit or a general permit will indicate a specific date upon which it will expire.

(b) *Individual wastewater discharge permit and general permit contents.* An individual wastewater discharge permit or a general permit shall include such conditions as are deemed reasonably necessary by the director to prevent pass through or interference, protect the quality of the water body receiving the treatment plant's effluent, protect worker health and safety, facilitate sludge management and disposal, and protect against damage to the POTW.

(1) Individual wastewater discharge permits and general permits must contain:

a. The wastewater discharge permit issuance date, expiration date and effective date;

b. A statement that the wastewater discharge permit is nontransferable without prior notification to the city in accordance with section 47-191(e) of this article, and provisions for furnishing the new owner or operator with a copy of the existing wastewater discharge permit;

c. Effluent limits, including best management practices, based on applicable pretreatment standards;

d. Self-monitoring, sampling, reporting, notification, and record-keeping requirements. These requirements shall include an identification of pollutants (or best management practice) to be monitored, sampling location, sampling frequency, and sample type based on federal, state, and local law, including the site-specific circumstances and alternate sampling (when applicable);

e. A statement of applicable civil and criminal penalties for violation of pretreatment standards and requirements, and any applicable compliance schedule. Such schedule may not extend the time for compliance beyond that required by applicable federal, state, or local law;

f. Requirements to control and report slug discharge, if determined by the director to be necessary;

g. Requirements to provide facility access for sampling and inspection purposes; and

h. A statement of the user's responsibility to give advance notice to the director of any operational change that increases the volume or character of the user's wastewater discharge as represented in user's application for a permit or other authorization, including the addition of any hazardous waste.

(2) Individual wastewater discharge permits and general permits may contain, but need not be limited to, the following conditions:

a. Limits on the average and/or maximum rate of discharge, time of discharge, and/or requirements for flow regulation and equalization;

b. Requirements for the installation of pretreatment technology, pollution control, or construction of appropriate containment devices, designed to reduce, eliminate, or prevent the introduction of pollutants into the treatment works;

c. Requirements for the development and implementation of spill control plans or other special conditions including management practices necessary to adequately prevent accidental, unanticipated, or nonroutine discharges;

d. Development and implementation of waste minimization plans to reduce the amount of pollutants discharged to the POTW;

e. The unit charge or schedule of user charges and fees for the management of the wastewater discharged to the POTW;

f. Requirements for installation and maintenance of inspection and sampling facilities and equipment, including flow measurement devices;

g. Notification requirements prior to the release of batch discharges into the sanitary sewer system;

h. A statement that compliance with the individual wastewater discharge permit or the general permit does not relieve the permittee of responsibility for compliance with all applicable federal and state pretreatment standards, including those which become effective during the term of the individual wastewater discharge permit or the general permit; and

i. Other conditions as deemed appropriate by the director to ensure compliance with this article, and state and federal laws, rules, and regulations.

(c) *Permit issuance process.*

(1) *Public notification.* If determined to be necessary, the director will publish in an official government publication and/or newspaper(s) of general circulation that provides meaningful public notice within the jurisdiction(s) served by the POTW, or on a web page, a notice to issue a pretreatment permit, at least 30 days prior to issuance. The notice will indicate a location where the draft permit may be reviewed and an address where comments may be submitted by electronic and/or written communication.

(2) *Permit appeals.* Any person, including the user, may petition the director to reconsider the terms of an individual wastewater discharge permit or a general permit within 15 days of notice of its issuance.

a. Failure to submit a timely petition for review shall be deemed to be a waiver of the administrative appeal.

b. In its petition, the appealing party must indicate the individual wastewater discharge permit or general permit provisions objected to, the reasons for this objection, and the alternative condition, if any, it seeks to place in the individual wastewater discharge permit or general permit.

c. The effectiveness of the individual wastewater discharge permit or general permit shall not be stayed pending the appeal.

d. If the director fails to act within 30 days, a request for reconsideration shall be deemed to be denied. Decisions not to reconsider an individual wastewater discharge permit or general permit, not to issue an individual wastewater discharge permit or general permit, or not to modify an individual wastewater discharge permit or general permit shall be considered final administrative actions.

(d) *Permit modification.*

(1) The director may modify an individual wastewater discharge permit for good cause, including, but not limited to, the following reasons:

a. To incorporate any new or revised federal, state, or local pretreatment standards or requirements;

b. To address significant alterations or additions to the user's operation, processes, or wastewater volume or character since the time of the individual wastewater discharge permit issuance;

c. To address a change in the POTW that requires either a temporary or permanent reduction or elimination of the authorized discharge;

d. To address information indicating that the permitted discharge poses a threat to the city's POTW, city personnel, sludge use or disposal, or the receiving waters;

e. User's violation of any terms or conditions of the individual wastewater discharge permit;

f. To address user's misrepresentations or failure to fully disclose all relevant facts in the wastewater discharge permit application or in any required reporting;

g. To address a revision to a variance previously approved by the director or a request to the director for a new variance from categorical pretreatment standards pursuant to 40 C.F.R. § 403.13;

h. To prevent interference or pass through, contamination of sewage sludge, or violation by the city of laws or regulations enacted by the state or federal government;

i. To correct, abate, or prevent a recurrence of a violation of a term or condition of a permit;

j. To incorporate revised conditions, standards, or requirements as consistent with the purposes and objectives of this article;

k. To correct typographical or other errors in the individual wastewater discharge permit; or

l. To reflect a transfer of the facility ownership or operation to a new owner or operator where requested in accordance with section 47-191(e) of this article.

(2) The director may modify a general permit for good cause, including, but not limited to, the following reasons:

a. To incorporate any new or revised federal, state, or local pretreatment standards or requirements;

b. A change in the POTW that requires either a temporary or permanent reduction or elimination of the authorized discharge;

c. To correct typographical or other errors in the individual wastewater discharge permit; or

d. To reflect a transfer of the facility ownership or operation to a new owner or operator where requested in accordance with section 47-191(e) of this article.

(e) *Individual wastewater discharge permit and general permit transfer.* Individual wastewater discharge permits or coverage under general permits may be transferred to a new owner or operator only if the permittee gives at least 30 days advance notice to the director and the director approves the individual wastewater discharge permit or the general permit coverage transfer. The notice to the director must include a written certification by the new owner or operator that:

(1) States that the new owner and/or operator has no immediate intent to change the facility's operations and processes;

(2) Identifies the specific date on which the transfer is to occur; and

(3) Acknowledges full responsibility for complying with the existing individual wastewater discharge permit or general permit.

User's failure to provide advance notice of a transfer renders the individual wastewater discharge permit or coverage under the general permit void as of the date of facility transfer.

(f) *Individual wastewater discharge permit and general permit revocation.* The director may revoke an individual wastewater discharge permit or coverage under a general permit for good cause, including, but not limited to, the following reasons that are based on a user's or permittee's failure of performance as identified below:

(1) Failure to notify the director of any operational change that increases the volume or character of the user's wastewater discharge as represented in user's application for a permit or other authorization, including the addition of any hazardous waste;

(2) Failure to provide prior notification to the director of changed conditions pursuant to section 47-192(e) of this article;

(3) Misrepresentation or failure to fully disclose all relevant facts in the wastewater discharge permit application;

(4) Submission of false information on self-monitoring reports and certification statements;

(5) Tampering with monitoring equipment;

(6) Refusal to allow the director timely access to the facility premises and records;

(7) Failure to meet effluent limitations;

(8) Failure to pay fines or fees;

(9) Failure to meet compliance schedules;

(10) Failure to complete a wastewater survey or the wastewater discharge permit application;

(11) Failure to provide advance notice of the transfer of business ownership of a permitted facility;

(12) Violation of any pretreatment standard or requirement, or any terms of the wastewater discharge permit or the general permit or this article;

(13) Failure to accurately disclose or report the wastewater constituents and characteristics of any discharge; or

(14) Denial of timely access to the user's premises for the purpose of inspection or sampling.

Individual wastewater discharge permits or coverage under general permits shall be voidable upon cessation of operations or transfer of business ownership. All individual wastewater discharge permits, or general permits issued to a user, are void upon the issuance of a new individual wastewater discharge permit or a general permit to that user.

(g) *Individual wastewater discharge permit and general permit reissuance.* A user with an expiring individual wastewater discharge permit or general permit shall apply for individual wastewater discharge permit or general permit reissuance by submitting a complete permit application, in accordance with section 47-190(e) of this article, a minimum of 45 days prior to the expiration of the user's existing individual wastewater discharge permit or general permit.

(h) *Regulation of waste received from other jurisdictions.*

(1) Prior to accepting wastewater from a contributing municipality, the director shall execute an intermunicipal agreement between the City and the contributing municipality that seeks to contribute wastewater to the POTW.

(2) Prior to entering into an agreement required by item (1) above, the director may request the following information from the contributing municipality:

a. A description of the quality and volume of wastewater discharged to the POTW by the contributing municipality;

b. An inventory of all users located within the contributing municipality that are discharging to the POTW; and

c. Such other information as the director may deem necessary.

(3) An intermunicipal agreement, as required by item (1) above, shall contain the following conditions if industrial waste may be discharged in the service area of the contributing jurisdiction:

a. A requirement for the contributing municipality to adopt a sewer use ordinance which is at least as stringent as this article and local limits, including required BMPs which are at least as stringent as those set out in section 47-188(d) of this article. The requirement shall specify that such ordinance and limits must be revised as necessary to reflect changes made to this article or local limits;

b. A requirement for the contributing municipality to submit to the director a revised user inventory on at least an annual basis;

c. A provision specifying which pretreatment implementation activities, including individual wastewater discharge permit or general permit issuance, inspection and sampling, and enforcement, will be conducted by the contributing municipality; which of these activities will be conducted by the director; and which of these activities will be conducted jointly by the contributing municipality and the director;

d. A requirement for the contributing municipality to provide the director with access to all information that the contributing municipality obtains as part of its pretreatment activities;

e. Limits on the nature, quality, and volume of the contributing municipality's wastewater at the point where it discharges to the POTW;

f. Requirements for monitoring the contributing municipality's discharge;

g. A provision ensuring the director access to the facilities of users located within the contributing municipality's jurisdictional boundaries for the purpose of inspection, sampling, and any other duties deemed necessary by the director; and

h. A provision specifying remedies available for breach of the terms of the intermunicipal agreement.

(Ord. No. 2020-1024, § 2(Exh. A), 12-2-2020)

Sec. 47-192. Reporting requirements.

(a) *Baseline monitoring reports (BMR).*

(1) Within either 180 days after the effective date of a categorical pretreatment standard, or the final administrative decision on a category determination under 40 C.F.R. § 403.6(a)(4), whichever is later, existing categorical industrial users discharging to or scheduled to discharge to the POTW shall submit to the director a report which contains the information listed in subsection 47-192(a)(2) of this

subsection. At least 90 days prior to commencement of discharge, new sources, and existing sources that become categorical industrial users after the promulgation of an applicable categorical standard, shall submit to the director a report which contains the information listed in subsection 47-192(a)(2)a, b and e, below. A new source shall report the method of pretreatment it proposes to use in order to meet applicable categorical standards. A new source also shall give estimates of its anticipated flow and quantity of pollutants to be discharged.

(2) Users described in 47-192(a)(1) shall submit the information set forth below to the director.

a. All information required in subsections 47-190(e)(1)a1, 47-190(e)(1)b, 47-190(e)(1)c1, and 47-190(e)(1)f of this article.

b. *Measurement of pollutants.*

1. The user shall provide the information required in subsections 47-190(e)(1)g of this article to the director.

2. The user shall take a minimum of one representative sample to compile the data necessary to comply with the requirements of this item (2).

3. User shall collect samples immediately downstream from pretreatment facilities if they exist or immediately downstream from the regulated process if no pretreatment facility exists. If other wastewaters are mixed with the regulated wastewater prior to pretreatment, the user is required to measure the flows and concentrations necessary to allow use of the combined wastestream formula in 40 C.F.R. § 403.6(e) to evaluate compliance with the pretreatment standards. Where an alternate concentration or mass limit has been calculated in accordance with 40 C.F.R. § 403.6(e), the user shall submit this adjusted limit along with supporting data shall to the director.

4. Sampling and analysis shall be performed in accordance with sections 47-192(k) and (l) of this article.

5. The director may allow the submission of a BMR which utilizes only historical data so long as the data provides information sufficient to determine the need for industrial pretreatment measures.

6. The BMR shall indicate the time, date and place of sampling and methods of analysis, and shall contain a certification indicating that such sampling and analysis is representative of normal work cycles and expected pollutant discharges to the POTW.

c. *Compliance certification.* User shall submit a statement, reviewed by the user's authorized representative as defined in section 47-187(d) of this article, and certified by a qualified professional, indicating whether pretreatment standards are being met on a consistent basis, and, if not, whether additional operation and maintenance (O&M) and/or additional pretreatment is required to meet the pretreatment standards and requirements.

d. *Compliance schedule.* If additional pretreatment and/or O&M will be required to meet the pretreatment standards, the shortest schedule by which the user will provide such additional pretreatment and/or O&M must be provided. The completion date in this schedule shall not be later than the compliance date

established for the applicable pretreatment standard. A compliance schedule pursuant to this section must meet the requirements set out in section 47-192(b) of this article.

e. *Signature and report certification.* All BMRs must be certified in accordance with section 47-192(o) of this article and signed by an authorized representative of the user as defined in section 47-187(d) of this article.

(b) *Compliance schedule progress reports.* The following conditions shall apply to the compliance schedule required by subsection 47-192(a)(2)d of this article:

(1) The schedule shall contain progress increments in the form of dates for the commencement and completion of major events leading to the construction and operation of additional pretreatment required for the user to meet the applicable pretreatment standards (such events include, but are not limited to, hiring an engineer, completing preliminary and final plans, executing contracts for major components, commencing and completing construction, and beginning and conducting routine operation);

(2) No progress increment referred to in subsection 47-192(b)(1) above shall exceed nine months;

(3) The user shall submit a progress report to the director no later than 14 days following each date in the schedule and the final date of compliance including, at a minimum, whether or not the user complied with the increment of progress, the reason for any delay, and, if appropriate, the steps being taken by the user to return to the established schedule; and

(4) In no event shall more than nine months elapse between such progress reports to the director.

(c) *Reports on compliance with categorical pretreatment standard deadline.* Within 90 days following the date for final compliance with applicable categorical pretreatment standards, or in the case of a new source following commencement of the introduction of wastewater into the POTW, any user subject to such pretreatment standards and requirements shall submit to the director a report containing, the information described in subsections 47-190(e)(1)f, 47-190(e)(1)g, 47-192(a)(2)b, and 47-192(a)(2)c of this article. For a user subject to equivalent mass or concentration limits established in accordance with the procedures in section 47-188(b) of this article, this report shall contain a reasonable measure of the user's long-term production rate. For all other users subject to categorical pretreatment standards expressed in terms of allowable pollutant discharge per unit of production (or other measure of operation), this report shall include the user's actual production during the appropriate sampling period. All compliance reports must be signed and certified in accordance with section 47-192(o) of this article, and all sampling will be done in conformance with section 47-192(l) of this article.

(d) *Periodic compliance reports.*

(1) All SIUs or other users required by the director must, at a frequency determined by the director, submit no less than twice per year reports indicating the nature, concentration of pollutants in the discharge which are limited by pretreatment standards and the measured or estimated average and maximum daily flows for the reporting period. In cases where the pretreatment standard requires compliance with a BMP or pollution prevention alternative, the user must submit documentation required by the director or the pretreatment standard necessary to determine the compliance status of the user.

(2) All periodic compliance reports must be signed and certified in accordance with section 47-192(o) of this article.

(3) All wastewater samples must be representative of the user's discharge.

Wastewater monitoring and flow measurement facilities shall be properly operated, kept clean, and maintained in good working order at all times. The failure of a user to maintain its monitoring facility shall not be grounds for the user to claim that sample results are unrepresentative of its discharge.

(4) If a user subject to the reporting requirement in this section monitors any regulated pollutant at the appropriate sampling location more frequently than required by the director, using the procedures prescribed in sections 47-192(k) and (l) of this article, the results of the monitoring shall be included in the report.

(5) Users that send electronic (digital) documents to the city to satisfy the requirements of this section must meet the requirements of section 47-203 of this article.

(e) *Reports of changed conditions.* Each user must notify the director of any significant changes to the user's operations or system which might alter the nature, quality, or volume of its wastewater at least 14 days before the change. A significant change shall be equal to or greater than 20 percent in the mass or concentration of a pollutant or volume of flow discharged to the POTW.

(1) The notification shall include changes relating to:

a. The addition or removal of processing, manufacturing, or other production operations,

b. New pollutants which may be discharged, and

c. Changes in the listed or characteristic hazardous waste for which the user has submitted or is required to submit information to the city under this article.

(2) The director may require the user to submit information that the director deems necessary to evaluate the changed condition, including the submission of a wastewater discharge permit application under section 47-190(e) of this article.

(3) The director may issue an individual wastewater discharge permit or a general permit under section 47-191(g) of this article or modify an existing wastewater discharge permit or a general permit under section 47-191(d) of this article in response to changed conditions or anticipated changed conditions.

(f) *Reports of potential problems.*

(1) In the case of any discharge, including, but not limited to, accidental discharges, discharges of a nonroutine, episodic nature, a noncustomary batch discharge, a slug discharge, or slug load, that might cause potential problems for the POTW, the user shall immediately call and email the director to provide notice of the incident. This notification shall include the location of the discharge, type of waste, concentration and volume, if known, and corrective actions taken by the user.

(2) Within five days following such discharge, the user shall, unless waived by the director, submit a detailed written report describing the cause(s) of the discharge and the measures to be taken by the user to prevent similar future occurrences. Such notification shall not relieve the user of any expense, loss, damage, or other liability which might be incurred as a result of damage to the POTW, natural resources, or any other damage to person or property; nor shall such notification relieve the user of any fines, penalties, or other liability which may be imposed pursuant to this article. Failure to report slug discharges may, in addition to any other remedies available to the director, result in the disconnection of utility service.

(3) Users shall ensure that all employees who could cause such a discharge to occur are advised of the emergency notification procedure of this section.

(4) SIUs are required to notify the director immediately of any changes at its facility that affect the potential for a slug discharge.

(g) *Dental discharger compliance reports.* Within three years and 90 days after the effective date of the applicable categorical pretreatment standard, existing dental dischargers that are discharging to or scheduled to discharge to the POTW shall submit to the director a report which contains the information as required at 40 C.F.R. § 441.50. At least 90 days after commencement of their discharge, new sources, and existing sources that become dental dischargers subsequent to the promulgation of the applicable categorical standard, shall submit to the director a report which contains the information as required at 40 C.F.R. § 441.50. If the dental discharger transfers ownership of the facility, the new owner must submit a new one-time compliance report no later than 90 days after the transfer. The director may require the submittal of additional information or more frequent reports to assess and assure compliance with 40 C.F.R. Part 441.

(h) *Other reports.* All users not required to obtain an individual wastewater discharge permit or general permit shall provide appropriate reports to the director as the director may require.

(i) *Notice of violation/repeat sampling and reporting.* If sampling performed by a user indicates a violation, the user shall notify the director within 24 hours of becoming aware of the violation. The user shall also repeat the sampling and analysis and submit the results of the repeat analysis to the director within 30 days after becoming aware of the violation. Resampling by the user is not required if the city performs sampling at the user's facility at least once a month, or if the city performs sampling at the user's facility between the time the initial sampling was conducted and the time when the user or the city receives the results of this sampling, or if the city has performed the sampling and analysis in lieu of the user.

If the city performed the sampling and analysis in lieu of the user, the city will perform the repeat sampling and analysis unless it notifies the user of the violation and requires the user to perform the repeat sampling and analysis.

(j) *Notification of the discharge of hazardous waste.*

(1) Any user who commences the discharge of hazardous waste shall notify the director pursuant to the notification procedures within the permit, the EPA Regional Waste Management Division Director, and state hazardous waste authorities, in writing, of any discharge into the POTW of a substance which, if otherwise disposed of, would be a hazardous waste under 40 C.F.R. Part 261. Such notification must include the name of the hazardous waste as set forth in 40 C.F.R. Part 261, the EPA hazardous waste number, and the type of discharge (continuous, batch, or other). If the user discharges more than 100 kilograms of such waste per calendar month to the POTW, the notification also shall contain the following information to the extent such information is known and readily available to the user: an identification of the hazardous constituents contained in the wastes, an estimation of the mass and concentration of such constituents in the wastestream discharged during that calendar month, and an estimation of the mass of constituents in the wastestream expected to be discharged during the following 12 months. All notifications shall take place no later than 180 days after the discharge commences. Any notification under this item (1) need be submitted only once for each hazardous waste discharged. The user shall submit notifications of changed conditions under or pursuant to section 47-192(e) of this article. The notification requirement in this section does not apply to any pollutant already reported by a user subject to categorical pretreatment standards under the self-monitoring requirements of sections 47-192(a), (c) and (d) of this article.

(2) Dischargers are exempt from the requirements of item (1) above, during a calendar

month in which they discharge no more than 15 kilograms of hazardous wastes, unless the wastes are acute hazardous wastes as specified in 40 C.F.R. § 261.30(d) and 261.33(e). Users shall submit to the director a one-time notification of a discharge of more than 15 kilograms of nonacute hazardous wastes in a calendar month, or of any quantity of acute hazardous wastes as specified in 40 C.F.R. § 261.30(d) and 261.33(e). A user is not required to make additional notifications in subsequent months during which the user discharges more than previously identified quantities of any hazardous waste.

(3) In the case of any new regulations under section 3001 of RCRA identifying additional characteristics of hazardous waste or listing any additional substance as a hazardous waste, the user must notify the director, the EPA Regional Waste Management Division Director, and state hazardous waste authorities of the discharge of such substance within 90 days of the effective date of such regulations.

(4) In the case of any notification made under this section, the user shall certify that it has a program in place to reduce the volume and toxicity of hazardous wastes generated to the degree it has determined to be economically practical.

(5) This provision does not create a right to discharge any substance not otherwise permitted to be discharged by this article, a permit issued thereunder, or any applicable federal or state law. This provision does not waive any other notification that may apply to discharges subject to other provisions of this article.

(k) *Analytical requirements.* User shall perform all pollutant analyses, including sampling techniques, to be submitted as part of a wastewater discharge permit application or report in accordance with the techniques prescribed in 40 C.F.R. Part 136 and amendments thereto, unless otherwise specified in an applicable categorical pretreatment standard. If 40 C.F.R. Part 136 does not contain sampling or analytical techniques for the pollutant in question, or where the EPA determines that the Part 136 sampling and analytical techniques are inappropriate for the pollutant in question, sampling and analyses shall be performed by using validated analytical methods or any other applicable sampling and analytical procedures, including procedures suggested by the director or other parties approved by the EPA.

(l) *Sample collection.* Samples collected to satisfy reporting requirements must be based on data obtained through appropriate sampling and analysis performed during the period covered by the report, based on data that is representative of conditions occurring during the reporting period. The director will prescribe a sampling protocol that produces representative results and takes into consideration all of the operation conditions and the physical configuration of the IU facility.

(1) Except as indicated in items 2 and 3 below, the user must collect wastewater samples using 24-hour flow-proportional composite sampling techniques, unless time-proportional composite sampling or grab sampling is authorized by the director. Where time-proportional composite sampling or grab sampling is authorized by the director, the samples must be representative of the discharge and collected during the portion of the 24-hour period that the IU is discharging from the regulated process(es) and or pretreatment unit. Using protocols (including appropriate preservation) specified in 40 C.F.R. Part 136 and appropriate EPA guidance, multiple grab samples collected during a 24-hour period may be composited prior to the analysis as follows: for cyanide, total phenols, and sulfides, the samples may be composited in the laboratory or in the field; for volatile organics, the samples may be composited in the laboratory. Composite samples for parameters unaffected by the compositing procedures as documented in approved EPA methodologies may be authorized by the director, as appropri-

ate. In addition, the director may require grab samples to demonstrate compliance with instantaneous limits.

(2) Samples for oil and grease, total residual chlorine, temperature, pH, cyanide, total phenols, sulfides, and volatile organic compounds must be obtained using grab collection techniques. Samples for total residual chlorine, pH, and temperature cannot be composited under any circumstances.

(3) For sampling required in support of baseline monitoring and 90-day compliance reports required in sections 47-192(a) and 47-192(c) of this article, a minimum of four grab samples must be used for pH, cyanide, total phenols, oil and grease, sulfide and volatile organic compounds for facilities for which historical sampling data do not exist; for facilities for which historical sampling data are available, the director may authorize a lower minimum. Where there has been a change to existing IUs, for example, the addition of treatment, historic data that does not represent the current discharge may not be used to justify a lower minimum number of grab samples. For the reports required by section 47-192(d) of this article, the user is required to collect the number of grab samples necessary to assess and assure compliance with applicable pretreatment standards and requirements.

(m) *Date of receipt of reports.* Written reports will be deemed to have been submitted on the date postmarked. For reports that are not mailed, the date of receipt of the report shall govern. If the user's industrial waste permit authorizes electronic reporting, the date of receipt shall be as established in the electronic reporting provision of the permit.

(n) *Recordkeeping.* Users subject to the reporting requirements of this article shall retain, and make available to the director for inspection and copying, all records of information obtained pursuant to any monitoring activities required by this article, any additional records of information obtained pursuant to monitoring activities undertaken by the user independent of such requirements, and documentation associated with best management practices established under subsection 47-188(d)(3) of this article. Records shall include the date, exact place, method, and time of sampling, and the name of the person taking the samples; the dates analyses were performed; who performed the analyses; the analytical techniques or methods used; and the results of such analyses. These records shall remain available for a period of at least three years. This period shall be automatically extended for the duration of any litigation concerning the user or the city, or where the user has been specifically notified of a longer retention period by the director.

Dental dischargers must maintain the one-time compliance report required by section 47-192(g) of this article and make it available for inspection by the director in either physical or electronic form as long as the dental discharger is in operation or until ownership is transferred. Dental dischargers must maintain on site and make available for inspection (in either physical or electronic form) for a period of three years:

(1) Documentation of the date, person conducting the inspection, and results of each inspection of the amalgam separator or equivalent device and a summary of follow-up actions, if needed, as specified in 40 C.F.R. § 441.30 or 40 C.F.R. § 441.40, including records of visual inspections of the amalgam separator to ensure that the device is not in bypass mode;

(2) Documentation of amalgam retaining container or equivalent container replacement including the date;

(3) Documentation of all dates that collected dental amalgam is picked up or shipped for proper disposal in accordance with 40 C.F.R. § 261.5(g)(3), and the name of the permitted or licensed treatment, storage, or disposal facility receiving the amalgam retaining containers;

(4) Documentation of any repair or replacement of an amalgam separator or

equivalent device, including the date, person making the repair or replacement, and a description of the repair or replacement (including make and model); and

(5) The manufacturer's operating manual for the amalgam separator or equivalent device.

The city shall maintain records of all information resulting from any monitoring activities required by this article, including documentation associated with BMPs. These records shall be available for a period of at least three years. This period shall be automatically extended for the duration of any litigation concerning the user or the city.

(o) *Certification statements—Certification of permit applications and user reports.* The following certification statement is required to be signed and submitted by users submitting permit applications in accordance with section 47-190(g) of this article; users submitting baseline monitoring reports under subsection 47-192(a)(2)e of this article; users submitting reports on compliance with the categorical pretreatment standard deadlines under section 47-192(c) of this article; users submitting periodic compliance reports required by section 47-192(d) of this article; and dental dischargers submitting compliance reports required by section 47-192(g) of this article. The following certification statement must be signed by an authorized representative of the user as defined in section 47-187(d) of this article:

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

(Ord. No. 2020-1024, § 2(Exh. A), 12-2-2020)

Sec. 47-193. Compliance monitoring.

The director shall have the right to enter the premises of any user to determine whether the user is complying with all requirements of this article and any individual wastewater discharge permit or general permit or order issued hereunder. Users shall allow the director ready access to all parts of the premises for the purposes of inspection, sampling, records examination and copying, and the performance of any additional duties.

(1) *Right of entry: inspection and sampling.*

a. Whenever it is necessary for the purposes and objectives of this article, the director may enter upon any user's facility, property, or premises subject to this article for the purpose of:

1. Performing all inspection, surveillance, and monitoring procedures necessary to determine, independent of information supplied by users, compliance or noncompliance with applicable pretreatment standards and requirements by a user. Compliance monitoring and inspection shall be conducted at a frequency as determined by the director and may be announced or unannounced;

2. Examining and copying any records required to be kept under the provisions of this article or of any other local, state or federal regulation;

3. Inspecting any monitoring equipment or method, pretreatment system equipment and/or operation;

4. Sampling any discharge of wastewater into POTW; and/or

5. Inspecting any production, manufacturing, fabricating or storage area where pollutants, regulated under this article, could originate, be stored, or be discharged to the POTW.

b. The occupant of such property or premises shall render all proper assistance in such activities. Where a user has security measures which require proper identification and clearance before entry into its premises, the user shall make necessary arrangements with its security guards so that, upon presentation of suitable identification, the director shall be permitted to enter without delay for the purposes of performing specific responsibilities.

c. The director shall have the right to set up on the user's property, or require installation of, devices necessary to conduct sampling and/or metering of the user's operations. The director may require the user to provide multiple sampling facilities at the end of each industrial process and at a final, end-of-pipe, combined flow location to determine compliance with the user's permit and this article.

d. The city may use a camera to photograph or video record any areas of the facility as deemed necessary for carrying out the duties of the pretreatment program including, but not limited to, documentation of the user's compliance status and for reinforcement of required written reports. The user shall be allowed to review copies of photographs for confidentiality claims.

e. Any temporary or permanent obstruction to safe and easy access to the facility to be inspected and/or sampled shall be promptly removed by the user at the written or verbal request of the director and shall not be replaced. The costs of clearing such access shall be borne by the user.

f. Failure to allow entry or unreasonable delays in allowing the director access to the user's premises shall be a violation of this article. Any delay exceeding 10 minutes shall be considered unreasonable. Obstructions to the safe and easy access to any portion of the facility including sampling locations shall be a violation of this article and warrant revocation of the user's permit.

g. The director shall assess the strength and concentration of the waste discharged to the sanitary sewer system unless an alternate sampling method or criteria is required by a permit, permit application, enforcement action, or other directive of the director. Tests made on representative samples collected by the director shall be made at such intervals as the director may designate.

h. For evaluating compliance with any pretreatment standard or requirement, the director may use any sampling location from which samples will either directly or indirectly represent a user's discharge. If a sampling location includes dilution, such as domestic wastewater, infiltration, inflow, or storm water, and if samples at this location violate an applicable limit, then the director may conclude that process wastewater discharged at an upstream location was the cause of the violation. The director may use sample collection techniques or analytical methods that bias sample results low as a basis for enforcement action, such as composite samples for pollutants for which grab samples are normally used. The director may use sampling locations, sample collection techniques,

or analytical methods other than those established in an industrial waste permit for compliance determination. In particular, the director may perform monitoring at the control manhole to determine compliance with local discharge limits.

(2) *Search warrants.* If the director has been refused access to a building, structure, or property, or any part thereof, and is able to demonstrate probable cause to believe that there may be a violation of this article, or that there is a need to inspect and/or sample as part of a routine inspection and sampling program of the city designed to verify compliance with this article or any permit or order issued hereunder, or to protect the overall public health, safety and welfare of the community, the director may seek issuance of a search warrant from a magistrate through the Environmental Crimes Division of the Harris County District Attorney's Office.

In the event the city has reason to believe a situation represents an imminent threat to public health and safety or the environment, and where entry has been denied or the area is inaccessible, an agent of the city may enter in the company of a uniformed peace officer, before a requested warrant has been produced, in order to determine if the suspected situation exists, and if so, to take such actions necessary to protect the public.
(Ord. No. 2020-1024, § 2(Exh. A), 12-2-2020)

Sec. 47-194. Confidential information.

(a) *Confidential information.* An industrial user who asserts the trade secret exception to public disclosure under Chapter 552 of the Texas Government Code (the Public Information Act) for any document they submit to the city must clearly mark or stamp the words "confidential business information" on each page that contains information the industrial user considers proprietary. The city shall make all information in a submission by an industrial user that is not so marked available to the public upon request without further notice. If an industrial user asserts that any portion of their submission may be excepted from public disclosure, the information will be treated in accordance with the procedures described in section 552.305 of the Texas Government Code.

(b) *Effluent data.* Information and data provided to the city under Subsection (a) of this section that is effluent data will be available to the public without restriction.

(c) *Other information.* All other information submitted to the city shall be available to the public at least to the extent provided by 40 C.F.R. § 2.302.
(Ord. No. 2020-1024, § 2(Exh. A), 12-2-2020)

Sec. 47-195. Publication of users in significant noncompliance (SNC).

The director shall publish annually, in a newspaper that provides meaningful public notice within the jurisdictions served by the city, a list of the users which, at any time during the previous 12 months, were in SNC with applicable pretreatment standards and requirements. A SIU (or any user which violates items (3), (4), or (8) of this section) is in significant noncompliance if its violation meets one or more of the following criteria:

(1) Chronic violations of wastewater discharge limits, defined here as those in which 66 percent or more of all the measurements taken for the same pollutant parameter taken during a six month period exceed (by any magnitude) a numeric pretreatment standard or requirement, including instantaneous limits as defined in section 47-188 of this article;

(2) Technical review criteria (TRC) violations, defined here as those in which 33 percent or more of wastewater measurements taken for each pollutant parameter during a six month period equals or exceeds the product of the numeric pretreatment standard or requirement including instantaneous limits, as defined by section 47-188 of this article multiplied by the applicable criteria (1.4 for BOD,

TSS, fats, oils and grease, and 1.2 for all other pollutants except pH, TRC criteria do not apply to pH);

(3) Any other violation of a pretreatment standard or requirement as defined by section 47-188 of this article (daily maximum, long-term average, instantaneous limit, or narrative standard) that the director determines has caused, alone or in combination with other discharges, interference or pass through, including endangering the health of POTW personnel or the general public;

(4) Any discharge of a pollutant that has caused imminent endangerment to the public or to the environment, or has resulted in the director's exercise of its emergency authority to halt or prevent such a discharge;

(5) Failure to meet, within 90 days of the scheduled date, a compliance schedule milestone contained in an individual wastewater discharge permit or a general permit or enforcement order for starting construction, completing construction, or attaining final compliance;

(6) Failure to provide within 45 days after the due date, any required reports, including baseline monitoring reports, reports on compliance with categorical pretreatment standard deadlines, periodic self-monitoring reports, and reports on compliance with compliance schedules;

(7) Failure to accurately report noncompliance; or

(8) Any other violation(s), which may include a violation of best management practices, which the director determines will adversely affect the operation or implementation of the local pretreatment program.

(Ord. No. 2020-1024, § 2(Exh. A), 12-2-2020)

Sec. 47-196. Administrative enforcement remedies.

(a) *Notification of violation.* When the director finds that a user has violated, or continues to violate, any provision of this article, an individual wastewater discharge permit, or a general permit or order issued hereunder, or any other pretreatment standard or requirement, the director may serve upon that user a written notice of violation. Within the timeframe specified in such notice, an explanation of the cause of the violation and a plan for the satisfactory correction and prevention thereof, to include specific required actions, shall be submitted by the user to the director. Submission of such a plan in no way relieves the user of liability for any violations occurring before or after receipt of the notice of violation. Failure to comply with a notice of violation will result in escalated enforcement, including but not limited to termination of utility service in accordance with the remedies provided in this article. Nothing in this section shall limit the authority of the director to take any action, including emergency actions or any other enforcement action, without first issuing a notice of violation.

(b) *Consent/agreed orders.* The director may enter into consent orders, assurances of compliance, or other similar documents establishing an agreement with any user responsible for noncompliance. Such documents shall include specific action to be taken by the user to correct the noncompliance within a time period specified by the document. Such documents shall have the same force and effect as the administrative orders issued pursuant to sections 47-196(d) and (e) of this article and shall be judicially enforceable.

(c) *Show cause hearing.* The director may order a user who has violated, or continues to violate, any provision of this article, an individual wastewater discharge permit, or a general permit or order issued hereunder, or any other pretreatment standard or requirement, to appear before the director and show cause why a termination of water/wastewater service notice should not be issued. Notice shall be served on the user specifying the time and place for the meeting, the reasons for such action, and a request that the user show cause why a termination of water/wastewater service notice should not be issued. Such notice may be served on any authorized representative of the user or designated facility

contact person. A show cause hearing shall not be a bar against, or prerequisite for, taking any other action against the user.

(d) *Administrative compliance orders.* When the director finds that a user has violated, or continues to violate, any provision of this article, an individual wastewater discharge permit, or a general permit or order issued hereunder, or any other pretreatment standard or requirement, the director may issue an order to the user responsible for the discharge directing that the user come into compliance within a specified time. If the user does not come into compliance within the time provided, sewer service may be discontinued unless adequate treatment facilities, devices, or other related appurtenances are installed and properly operated. Compliance orders also may contain other requirements to address the noncompliance, including the installation of pretreatment facilities and additional self-monitoring and management practices designed to minimize the amount of pollutants discharged to the sanitary sewer system. A compliance order may not extend the deadline for compliance established for a pretreatment standard or requirement, nor does a compliance order relieve the user of liability for any violation, including any continuing violation. Issuance of a compliance order shall not be a bar against, or a prerequisite for, taking any other action against the user. Failure to comply with any terms or requirements of a compliance order by the user shall be a basis for termination of wastewater services.

(e) *Cease and desist orders.* When the director finds that a user has violated, or continues to violate, any provision of this article, an individual wastewater discharge permit, or a general permit or order issued hereunder, or any other pretreatment standard or requirement, or that the user's past violations are likely to recur, the director may issue an order to the user directing it to cease and desist all such violations and directing the user to:

(1) Immediately comply with all requirements; and

(2) Take such appropriate remedial or preventive action as may be needed to properly address a continuing or threatened violation, including halting operations and/or terminating the discharge. Issuance of a cease and desist order shall not be a bar against, or a prerequisite for, taking any other action against the user.

(f) *Administrative fines.*

(1) When the director finds that a user has violated, or continues to violate, any provision of this article, an individual wastewater discharge permit, or a general permit or order issued hereunder, or any other pretreatment standard or requirement, the director may fine such user in an amount not to exceed $2,000 including the costs of preparing administrative enforcement actions, such as notices and orders. Such fines shall be assessed on a per-violation, per-day basis. Each day of violation shall constitute a separate offense. In the case of monthly or other long-term average discharge limits, fines shall be assessed for each day during the period of violation.

(2) When the director finds that a user has introduced or continues to introduce any substance into the POTW which causes personal injury or property damage shall, upon conviction, be guilty of a misdemeanor and be subject to a penalty of not more than $4,000.00. Each day that said violation shall continue shall constitute a separate offense. This penalty shall be in addition to any other cause of action for personal injury or property damage available under state law.

(3) Unpaid charges, fines, and penalties shall, after 30 calendar days, be assessed an additional penalty of ten percent of the unpaid balance, and interest shall accrue thereafter at a rate of five percent per month. Disconnection of water and/or wastewater service may result if the city does not receive full payment of the fines and penalties within 90 calendar days of the due date.

(4) Issuance of an administrative fine shall not be a bar against, or a prerequisite for, taking any other action against the user.

(g) *Emergency suspensions.* The director may immediately suspend a user's discharge, after informal (e.g., verbal) notice to the user, whenever such suspension is necessary to stop an actual or threatened discharge, which reasonably appears to present, or cause a potential imminent or substantial endangerment to the health or welfare of persons, the environment, or the POTW.

(1) Any user notified of a suspension of its discharge shall immediately stop or eliminate its contribution. In the event of a user's failure to immediately comply voluntarily with the suspension order, the director may take such steps as deemed necessary, including immediate severance of the sewer connection, to prevent or minimize damage to the POTW, its receiving stream, or endangerment to any individuals. The director may allow the user to recommence its discharge when the user has demonstrated to the satisfaction of the director that the period of endangerment has passed unless the termination proceedings in sections 47-196(h) of this article are initiated against the user.

(2) A user that is responsible, in whole or in part, for any discharge presenting imminent endangerment shall submit a detailed written statement describing the causes of the harmful contribution and the measures taken to prevent any future occurrence to the director prior to the date of any show cause or termination hearing under section 47-196(c) or 47-196(h) of this article.

Nothing in subsection (g) of this section shall be interpreted as requiring a hearing prior to any emergency suspension under this section.

(h) *Termination of discharge.* In addition to the provisions in section 47-191(f) of this article, any user who violates the following conditions is subject to discharge termination:

(1) Violation of any individual wastewater discharge permit or general permit conditions;

(2) Failure to accurately report the wastewater constituents and characteristics of its discharge;

(3) Failure to report significant changes in operations or wastewater volume, constituents, and characteristics prior to discharge;

(4) Refusal to provide the director with reasonable access to the user's premises for the purpose of inspection, monitoring, or sampling in accordance with subsections 47-191(b)(1)g and 47-191(f)(6); or

(5) Violation of the pretreatment standards in section 47-188 of this article.

The director shall notify a user of the proposed termination of its discharge. A user who is subject to a termination order shall be offered an opportunity to appeal the termination notice. An appeal request shall be received by the industrial wastewater service within ten calendar days of the termination notice. Exercise of discharge termination by the director shall not be a bar to, or a prerequisite for, taking any other action against the user.

(i) *Compliance conference.* When the director finds that a user has violated, or continues to violate, any provision of this article, an individual wastewater discharge permit, or a general permit or order issued hereunder, or any other pretreatment standard or requirement, the director may serve upon that user a written notice to attend a compliance conference. At the date and time specified in such notice, the user shall appear at the offices of the industrial wastewater service to discuss the cause of the noncompliance and corrective actions. Failure to attend a compliance conference may result in escalated enforcement, including but not limited to termination of utility service in accordance with the remedies provided in this article. Issuance of a compliance conference notice shall not be a bar against, or a prerequisite for, taking any other action against the user.

(Ord. No. 2020-1024, § 2(Exh. A), 12-2-2020; Ord. No. 2021-431, § 9, 5-26-2021)

Sec. 47-197. Judicial enforcement remedies.

(a) *Injunctive relief.* When the director finds that a user has violated, or continues to violate, any provision of this article, an individual

wastewater discharge permit, or a general permit or order issued hereunder, or any other pretreatment standard or requirement, the director may request that the city attorney file a civil suit in a court of competent jurisdiction to enjoin, temporarily or permanently, as appropriate, the violation of any of the provisions of this article, the individual wastewater discharge permit, the general permit, the order, or other requirement imposed by this article on activities of the user. The director may also seek such other action as is appropriate for legal and/or equitable relief, including a requirement for the user to conduct environmental remediation. A petition for injunctive relief shall not be a bar against, or a prerequisite for, taking any other action against a user.

(b) *Civil penalties.*

(1) A user who has violated, or continues to violate, any provision of this article, an individual wastewater discharge permit, or a general permit or order issued hereunder, or any other pretreatment standard or requirement shall be liable to the city for a maximum civil penalty of $2,000.00 per violation. Each day that said violation shall continue shall constitute a separate offense. In the case of a monthly or other long-term average discharge limit, penalties shall accrue for each day during the period of the violation.

(2) A user who knowingly introduces any substance into the POTW which causes personal injury or property damage shall, upon conviction, be guilty of a misdemeanor and be subject to a penalty of not more than $4,000.00. Each day that said violation shall continue shall constitute a separate offense. This penalty shall be in addition to any other cause of action for personal injury or property damage available under state law.

(3) The city may recover reasonable attorneys' fees, court costs, and other expenses associated with enforcement activities, including sampling and monitoring expenses, the cost of any actual damages incurred by the city, or any other costs incurred by the city in association with the enforcement activities.

(4) In determining the amount of civil liability, the judge or jury shall take into account all relevant circumstances, including, but not limited to, the extent of harm caused by the violation, the magnitude and duration of the violation, any economic benefit gained through the user's violation, corrective actions by the user, the compliance history of the user, and any other factor as justice requires.

(5) Filing a suit for civil penalties shall not be a bar against, or a prerequisite for, taking any other action against a user.

(c) *Criminal prosecution.*

(1) A user who knowingly or criminally violates any provision of this article, an individual wastewater discharge permit, or a general permit or order issued hereunder, or any other pretreatment standard or requirement shall, upon conviction, be guilty of a misdemeanor, punishable by a fine of not less than $300.00, nor more than $2,000.00 per violation. Each day that said violation shall continue shall constitute a separate offense.

(2) A user who introduced or continues to introduce any substance into the POTW which causes personal injury or property damage shall, be liable to the city for a maximum civil penalty of $4,000.00. Each day that said violation shall continue shall constitute a separate offense. This penalty shall be in addition to any other cause of action for personal injury or property damage available under state law.

(3) A user who knowingly or criminally introduces any substance into the POTW which causes personal injury or property damage shall, upon conviction, be guilty of a misdemeanor and be subject to a penalty of not more than $2,000.00. Each day that said violation shall continue

shall constitute a separate offense. This penalty shall be in addition to any other cause of action for personal injury or property damage available under state law.

(4) A user who knowingly makes any false statements, representations, or certifications in any application, record, report, plan, or other documentation filed, or required to be maintained, pursuant to this article, individual wastewater discharge permit, or general permit or order issued hereunder, shall, upon conviction, be punished by a fine of not less than $500.00, nor more than $2,000.00 per violation. Each day that said violation shall continue shall constitute a separate offense.

(5) A user who knowingly falsifies, tampers with, or knowingly renders inaccurate any monitoring device or method required under this article shall, upon conviction, be punished by a fine of not less than $500.00, nor more than $2,000.00 per violation. Each day that said violation shall continue shall constitute a separate offense.

(6) In the event of a second conviction, a user shall be punished by a fine of not more than $2,000 per violation. Each day that said violation shall continue shall constitute a separate offense.

(d) *Remedies nonexclusive.* The remedies provided for in this article are not exclusive. The director may take any, all, or any combination of these actions against a noncompliant user. Enforcement of pretreatment violations will be in accordance with the city's enforcement response plan. However, the director may take a more stringent action against any user when the circumstances warrant.

(Ord. No. 2020-1024, § 2(Exh. A), 12-2-2020; Ord. No. 2021-431, §§ 10, 11, 5-26-2021)

Sec. 47-198. Supplemental enforcement action.

(a) *Performance bonds.* The director may decline to issue or reissue an individual wastewater discharge permit or a general permit to any user who has failed to comply with any provision of this article, a previous individual wastewater discharge permit, or a previous general permit or order issued hereunder, or any other pretreatment standard or requirement, unless such user first files a satisfactory bond, payable to the city, in a sum not to exceed a value determined by the director to be necessary to achieve consistent compliance.

(b) *Liability insurance.* The director may decline to issue or reissue an individual wastewater discharge or a general permit to any user who has failed to comply with any provision of this article, a previous individual wastewater discharge permit, or a previous general permit or order issued hereunder, or any other pretreatment standard or requirement, unless the user first submits proof that it has obtained and provided financial assurances acceptable to the director, such as liability insurance, for the restoration or repair of damage to the POTW caused by the user's discharge.

(c) *Payment of outstanding fees and penalties.* The director may decline to issue or reissue an individual wastewater discharge permit or a general permit to any user who has failed to pay any outstanding fees, fines or penalties incurred as a result of any provision of this article, a previous individual wastewater discharge permit, or a previous general permit or order issued hereunder.

(d) *Water supply severance.* Whenever a user has violated or continues to violate any provision of this article, an individual wastewater discharge permit, a general permit, or order issued hereunder, or any other pretreatment standard or requirement, water service to the user may be severed. Service will recommence, at the user's expense, only after the user has satisfactorily demonstrated to the director its ability to comply.

(e) *Public nuisances.* A violation of any provision of this article, an individual wastewater discharge permit, a general permit, or order issued hereunder, or any other pretreatment standard or requirement is hereby declared a public nuisance and shall be corrected or abated as directed by the director. Any person creating a public nuisance shall be subject to the provisions

of the chapter 10 of this article governing such nuisances, including, but not limited to, reimbursing the city for any costs incurred in removing, abating, or remedying said nuisance.
(Ord. No. 2020-1024, § 2(Exh. A), 12-2-2020)

Sec. 47-199. Affirmative defenses to discharge violations.

(a) *Act of God defense.*

(1) The Act of God defense constitutes a statutory affirmative defense [Texas Water Code § 7.251] in an action brought in municipal or state court. If a person can establish that an event that would otherwise be a violation of a pretreatment ordinance, or a permit issued under the ordinance, was caused solely by an act of God, war, strike, riot, or other catastrophe, the event is not a violation of the ordinance or permit.

(2) A user who wishes to establish the Act of God affirmative defense shall demonstrate, through relevant evidence that:

a. An event that would otherwise be a violation of a pretreatment ordinance

or a permit issued under the ordinance occurred, and the sole cause of the event was an act of God, war, strike, riot, or another catastrophe; and

b. The user has submitted the following information to the POTW and the city within 24 hours of becoming aware of the event that would otherwise be a violation of a pretreatment ordinance or a permit issued under the ordinance (if this information is provided orally, a written submission must be provided within five days):

1. A description of the event, and the nature and cause of the event;

2. The time period of the event, including exact dates and times or, if still continuing, the anticipated time the event is expected to continue; and

3. Steps being taken or planned to reduce, eliminate and prevent recurrence of the event.

(3) Burden of proof. In any enforcement proceeding, the user seeking to establish the Act of God affirmative defense shall have the burden of proving by a preponderance of the evidence that an event that would otherwise be a violation of a pretreatment ordinance, or a permit issued under the ordinance, was caused solely by an act of God, war, strike, riot or other catastrophe.

(b) *Bypass.*

(1) *Definitions.* For the purposes of this section:

Bypass means the intentional diversion of wastestreams from any portion of a user's treatment facility.

Severe property damage means substantial physical damage to property, damage to the treatment facilities which causes them to become inoperable, or substantial and permanent loss of natural resources which can reasonably be expected to occur in the absence of a bypass. Severe property damage does not mean economic loss caused by delays in production.

(2) A user may allow any bypass to occur which does not cause pretreatment standards or requirements to be violated, but only if it is also for essential maintenance to assure efficient operation. The user seeking to establish that the discharge does not violate pretreatment standards and requirements shall have the burden of proof. These bypasses are not subject to the provisions of item (4) of this subsection.

(3) *Bypass notifications.*

a. If a user knows in advance of the need for a bypass, it shall submit prior notice to the director, at least ten days before the date of the bypass, if possible.

b. A user shall submit verbal notice to the director of an unanticipated bypass within 24 hours from the time it becomes aware of the bypass. User shall submit a written notice within five days of the time the user becomes aware of the bypass. The written submission shall contain a description of the bypass and its cause; the duration of the bypass, including exact dates and times, and, if the bypass has not been corrected, the anticipated time it is expected to continue; and steps taken or planned to reduce, eliminate, and prevent reoccurrence of the bypass. The director may waive the written report on a case-by-case basis if the verbal report has been received within 24 hours.

(4) *Bypass.*

a. Bypass is prohibited, and the director may take an enforcement action against a user for a bypass, unless the user can demonstrate that

1. Bypass was unavoidable to prevent loss of life, personal injury, or severe property damage;

2. There were no feasible alternatives to the bypass, such as the use of auxiliary treatment facilities, retention of untreated wastes, or maintenance during normal periods of equipment downtime. This condition is not satisfied if adequate back-up equipment should have been installed in the exercise of reasonable engineering judgment to prevent a bypass which occurred during normal periods of equipment downtime or preventive maintenance; and

3. The user submitted notices as required under item (3) of this subsection.

b. The director may approve an anticipated bypass, after considering its adverse effects, if the director determines that it will meet the three conditions listed in item (4)a of this subsection.

(Ord. No. 2020-1024, § 2(Exh. A), 12-2-2020)

Sec. 47-200. Wastewater treatment rates.

User charges for sanitary sewer service shall be calculated and applied in accordance with the provisions of article III of this chapter, as amended.

(1) The director, without prior notice, may take samples and perform tests, and the results of the tests shall be used to calculate the applicable user charge established in article III of this chapter. Provided, however, a user may request in writing permission to conduct self-monitoring through an independent laboratory to be used in combination with the city's sample results to determine the user charge. The director may grant such a request and accept the results of the user's self-monitoring if the user provides documentation in the format required by the director showing that proper chain of custody was followed, and that sampling and analysis were conducted in accordance with item (2) of this section. All costs of such sampling and analyses for self-monitoring shall be borne by the user. Approval of sampling and analysis performed by an independent laboratory does not restrict the director from collecting additional samples without prior notice to the user. Submission of any self-monitoring analyses that are not representative of the process wastewater discharge shall be the basis for termination of utility service.

(2) Sampling and analysis shall be conducted in accordance with the requirements of 40 C.F.R. Part 136, as amended.

(3) The director may make periodic tests of waste being discharged into the city sewer from the premises of a user under the provisions of this section.

(4) The director may develop other unit charges and calculate a surcharge for wastewater using flow rates and strengths or concentrations for other pollutants discharged to recover wastewater treatment and other applicable costs as deemed necessary and appropriate.

(Ord. No. 2020-1024, § 2(Exh. A), 12-2-2020)

Sec. 47-201. Quantity determination.

Except as may otherwise be provided in article III of this chapter, the quantity of waste delivered to the sanitary sewer system will be presumed to be substantially the same as the quantity of water delivered to the user or user's facility by the city water system.

(Ord. No. 2020-1024, § 2(Exh. A), 12-2-2020)

Sec. 47-202. Miscellaneous provisions.

(a) *Pretreatment charges and fees.* The city may adopt reasonable fees for reimbursement of costs of setting up and operating the city's pretreatment program, which may include:

(1) Fees for wastewater discharge permit applications including the cost of processing such applications;

(2) Fees for monitoring, inspection, and surveillance procedures including the cost of collection and analyzing a user's

discharge, and reviewing monitoring reports and certification statements submitted by users;

(3) Fees for reviewing and responding to accidental discharge procedures and construction;

(4) Fees for filing appeals;

(5) Fees to recover administrative and legal costs associated with the enforcement activity taken by the director to address IU noncompliance; and

(6) Other fees as the city may deem necessary to carry out the requirements contained herein. These fees relate solely to the matters covered by this article and are separate from all other fees, fines, and penalties chargeable by the city.

(b) *Indemnification.* Each user shall indemnify and hold harmless the city from any liability, claims of loss of business, property damage to city facilities, extra costs for wastewater treatment, and civil, criminal, or administrative penalties due to or caused by a discharge of wastewater in violation of this article. The city attorney or his designee shall prescribe the form of the indemnity agreement to be included in the permit application.

(c) *Compliance with Construction Code.* Any person who proposes to construct, effect, maintain, modify or use a sewer system extension or connection must do so in accordance with all applicable construction codes including building permits and the purchase of water and wastewater capacity.
(Ord. No. 2020-1024, § 2(Exh. A), 12-2-2020)

Sec. 47-203. Electronic reporting.

Users that send electronic documents to the director to satisfy the requirements of this article must certify and submit each report in compliance with:

(1) An electronic signature agreement (as defined in 40 C.F.R. § 3.3 as amended) on file with the director; and

(2) All other procedures and requirements of an electronic document receiving system authorized to accept such records in accordance with 40 C.F.R. Part 3.
(Ord. No. 2020-1024, § 2(Exh. A), 12-2-2020)

Secs. 47-204—47-220. Reserved.

ARTICLE VI. SEWER AND DRAIN CONTRACTORS

Sec. 47-221. License required; fee.

It shall be unlawful for any person to perform the work or supervise the laying of privately constructed sanitary or storm sewers in the city without first obtaining a license to do so from the utility official; provided, that no license for drain laying shall be required for anyone holding a master plumbers license. The person obtaining such license pursuant to the provisions of this division shall pay to the utility official the sum stated for this provision in the city fee schedule for such annual license; provided, that if said license is issued after January of any year, the license fee shall be for such proportionate part of the year, computed from the first day of the month from which the same is issued.
(Code 1968, § 49-201; Ord. No. 72-793, § 1, 5-10-72; Ord. No. 90-635, § 153, 5-23-90; Ord. No. 2011-1168, § 13, 12-14-2011)

Sec. 47-222. Transfer of license; use by another.

It shall be unlawful for any person holding a drain layer's license issued hereunder to transfer it or allow its use, directly or indirectly, by any person for the purpose of obtaining a permit to do any work specified in this article.
(Code 1968, § 49-202; Ord. No. 72-793, § 1, 5-10-72)

Sec. 47-223. Application for license; persons eligible.

The utility official shall issue a drain layer's license to any person who makes application and satisfies such official:

(1) That he is thoroughly familiar with the ordinances of the city related to sewer

construction and with the current "City of Houston Specifications for Sewer Construction" together with the current amendments thereto; and

(2) That he agrees to carry out all sewer construction in accordance therewith; and

(3) That he agrees to secure a permit from the city for each job before starting construction thereof; and

(4) That he agrees to personally supervise all work constructed under permits issued to him; and

(5) That he is experienced in the work of drain laying by submitting a summary of his working experience in this area together with at least three references as to his qualifications.

(Code 1968, § 49-203; Ord. No. 72-793, § 1, 5-10-72; Ord. No. 90-635, § 153, 5-23-90)

Sec. 47-224. Suspension of license.

Bad faith or unreasonable delay in the performance of drain laying work shall be deemed sufficient reason for suspending the license of a drain layer and each licensee is held responsible for the violation of regulations governing such work by laborers and helpers employed by him.
(Code 1968, § 49-204; Ord. No. 72-793, § 1, 5-10-72)

Sec. 47-225. Compliance with engineered plan, etc.

In laying storm or sanitary sewers within street rights-of-way and easements, the drain layer shall perform all work in accordance with an engineered plan approved by the city engineer. Work on private property shall be limited to storm sewers, which shall be performed as shown on an approved storm water drainage plan. The drain layer shall be authorized to clean out and repair storm or sanitary sewers provided that the herein stated property limitations are met.
(Code 1968, § 49-205; Ord. No. 72-793, § 1, 5-10-72; Ord. No. 90-635, § 165, 5-23-90; Ord. No. 93-514, § 125, 5-5-93)

Secs. 47-226—47-248. Reserved.

ARTICLE VII. WATER SHORTAGES*

DIVISION 1. GENERAL

Sec. 47-249. Definitions.

As used in this article, the following words, terms, and phrases shall have the meanings ascribed to them in this section, unless the context clearly indicates another meaning:

Agricultural use has the same meaning as provided in section 47-89 of this Code.

Authorized governmental use means the use of city water by a governmental entity to flush any water line for public health and safety purposes, wet any surface for the purpose of testing for leaks in buildings or structures, or alleviate any conditions threatening the life, safety, or welfare of the public, including fire suppression.

Available treatment capacity means a calculation of how much city water can be produced and distributed by the city's functioning operations.

Baseline usage means the average of the highest city water usage by non-residential customers during three consecutive months within the 12-month period immediately preceding the declaration of:

(1) A stage two, three, or four water shortage period, whichever occurs first; or

(2) An emergency water shortage period.

City treated water distribution system includes, but is not limited to, any and all infrastructure used to convey, store, or deliver city water that has been processed to make it fit for its desired end use.

City water means water obtained directly or indirectly from infrastructure owned or operated by the city.

City water supply system includes, but is not limited to, any and all infrastructure used to convey, treat, store, or deliver city water.

Current water production means the city's daily combined surface water and groundwater production averaged over the most recent three-day period.

Combined total storage of surface water supply means the aggregate volume of water available to the city from reservoirs as calculated from the current elevations that are measured by the United States Geological Survey.

Customer has the same meaning as provided in section 47-61 of this Code.

Even-numbered street address means water service addresses ending in 0, 2, 4, 6, or 8 or ending in a fraction, letter, unit or suite number and 0, 2, 4, 6, or 8. For purposes of this definition, locations without addresses shall be deemed to have an even-numbered street address.

Multifamily residential customer has the same meaning as provided in section 47-61 of this Code.

Non-residential customer has the same meaning as provided in section 47-61 of this Code.

Odd-numbered street address means water service addresses ending in 1, 3, 5, 7, or 9 or in a fraction, letter, unit or suite number and 1, 3, 5, 7, or 9.

Outdoor use means the use of city water for:

(1) Aesthetic purposes, including ornamental, decorative, or scenic devices located outside a structure, including but not limited to fountains, reflecting pools, and water gardens;

(2) Irrigation, including the wetting and maintaining of planted areas, whether publicly or privately owned, including but not limited to lawns, gardens, golf courses, parks, athletic fields, public rights-of-way, and esplanades; notwithstanding the foregoing, for purposes of section 47-252 of this Code only, outdoor use for irrigation shall not include water

*__Editor's note__—Ord. No. 2012-997, § 2(Exh. A), adopted November 14, 2012, amended Ch. 47, Art. VII, in its entirety, to read as hereing set out. Formerly said article pertained to similar subject matter and derived from Ord. No. 01-753, § 3, 8-8-01. See also the Code Comparative Table.

administered by an individual human holding a hose with a diameter of one inch or less, a bucket, watering can or other similar device; or

(3) Other purposes that occur outside a structure, including but not limited to washing motor vehicles and other self-propelled vehicles and trailers; washing any impervious surface, including but not limited to sidewalks, driveways, parking lots, playing surfaces, buildings or structures; foundation watering; and filling or adding to any swimming pool, spa, or whirlpool.

(4) Outdoor use shall not include the required use of city water to *(i)* alleviate conditions threatening life, safety, or welfare of the public, including without limitation, fire suppression and emergency response; or *(ii)* comply with federal, state, or local laws or regulations.

Residential customer has the same meaning as provided in section 47-61 of this Code.

Single-family residential customer has the same meaning as provided in section 47-61 of this Code.

Water shortage period means the time during which any water shortage declaration is in effect.

(Ord. No. 2012-997, § 2(Exh. A), 11-14-2012)

Sec. 47-250. Administrative procedures.

The director may establish administrative procedures relating to the implementation of this article. A copy of the procedures shall be available for inspection in the offices of the utility official and on the department's website.

(1) The director shall establish a water information management plan that includes provisions to be implemented during each water shortage period. The director may use water billing statements, news and social media, and other sources to disseminate information regarding voluntary or mandatory water use measures to be imposed during each water shortage period for all customers and to advise customers that additional restriction measures may be imposed should water shortage periods escalate as provided by this article.

(2) The directors of each department in the city shall prepare department-specific water use reduction plans that will achieve the same or greater level of reduction in water use for each declared water shortage period and shall submit the plans to the director on January 1 of each year. The water use reduction plans shall be implemented immediately upon the declaration of any water shortage period and shall remain in effect until the conclusion of the water shortage period.

(Ord. No. 2012-997, § 2(Exh. A), 11-14-2012)

DIVISION 2. SHORTAGES AND EMERGENCIES

Sec. 47-251. Stage one water shortage; abnormal conditions; voluntary restrictions targeted to reduce overall water use by five percent.

(a) A stage one water shortage is a period of time that begins when the director finds that the city's water supply system is under stress because of lower than average annual rainfall, temperatures that are higher or lower than normal, or other circumstances.

(b) The director's declaration, which may cover all or a portion of the city's water supply system, shall be in writing and filed with the city secretary. The declaration shall state that the city's overall water use reduction goal during a stage one water shortage is five percent. A stage one water shortage ends when the director finds that the abnormal conditions leading to the declaration either no longer exist, have been mitigated, or have been escalated, and the director files a written declaration to that effect with the city secretary.

(c) City departments' water use reduction plans shall be implemented immediately upon the declaration of a stage one water shortage period and shall remain in effect until the conclusion of the water shortage period.

(d) During a stage one water shortage, unless otherwise stated in the declaration, all customers are requested to take the following voluntary water use restriction measures:

(1) Check for and repair all leaks, dripping faucets, and running toilets;

(2) Check for and correct excessive irrigation or uncorrected leaks that result in city water leaving the customer's property by drainage onto adjacent properties or public or private roadways or streets or gutters; and

(3) Irrigate between 7:00 p.m. and 5:00 a.m. of the following day on no more than two days per week in conformity with the following schedule:

a. Sundays and Thursdays for single-family residential customers with even-numbered street addresses; and

b. Saturdays and Wednesdays for single-family residential customers with odd-numbered street addresses; and

c. Tuesdays and Fridays for all other customers.

(Ord. No. 2012-997, § 2(Exh. A), 11-14-2012)

Sec. 47-252. Stage two water shortage; severe conditions; certain mandatory restrictions targeted to reduce overall water use by ten percent.

(a) A stage two water shortage is a period of time that begins when, upon the recommendation of the director, the mayor declares a stage two water shortage upon finding that one or more of the following conditions exist that may impact all or a portion of the city's water supply system:

(1) Combined total storage of surface water supply is less than 24 months based on a calculated projection of monthly production of city water that includes historic production and information provided by customers;

(2) Combined total storage of surface water supply is less than 16 months, based on a calculated projection of current water production for the most recent 24-hour period;

(3) Current water production is 80 percent of the available treatment capacity;

(4) Loss of approximately 20 percent of available treatment capacity; or

(5) Water pressure readings of 45 pounds per square inch or less throughout all or material portions of the city's treated water distribution system.

(b) The declaration may cover all or a portion of the city's water supply system and shall be in writing and filed with the city secretary. The declaration shall state that the city's overall water use reduction goal during a stage two water shortage is ten percent. A stage two water shortage ends when the mayor declares, based on the recommendation from the director, that the severe conditions leading to the declaration either no longer exist, have been mitigated, or have been escalated, and the director files a written declaration to that effect with the city secretary.

(c) City departments' water use reduction plans shall be implemented immediately upon the declaration of a stage two water shortage period and shall remain in effect until the conclusion of the water shortage period.

(d) During a stage two water shortage, unless otherwise stated in the declaration, all classes of customers are subject to mandatory restrictions of outdoor use. During a stage two water shortage, outdoor use shall be unlawful with the exception of the following time periods as specified in the declaration:

(1) Between 7:00 p.m. and 5:00 a.m. of the following day on no more than two days per week in conformity with the following schedule:

a. Sundays and Thursdays for single-family residential customers with even-numbered street addresses; and

b. Saturdays and Wednesdays for single-family residential customers with odd-numbered street addresses; and

c. Tuesdays and Fridays for all other customers; or

(2) Between 7:00 p.m. and 5:00 a.m. of the following day on no more than one day per week in conformity with the following schedule:

a. Saturdays for single-family residential customers with odd-numbered addresses;

b. Sundays for single-family residential customers with even-numbered addresses; and

c. Tuesdays for all other customers.

(e) Any outdoor water use that results in city water leaving the customer's property by drainage onto adjacent properties or public or private roadways or streets or gutters shall be unlawful.
(Ord. No. 2012-997, § 2(Exh. A), 11-14-2012)

Sec. 47-253. Stage three water shortage; extreme conditions; mandatory reductions targeted to reduce overall water use by 20 percent.

(a) A stage three water shortage is a period of time that begins when, upon the finding of the director of an extreme shortage and the recommendation of the mayor, the city council declares a stage three water shortage upon finding that one or more of the following conditions exist that may impact all or a portion of the city's water supply system:

(1) Combined total storage of surface water supply is less than 18 monthsbased on a calculated projection of monthly production of city water that includes historic production and information provided by customers;

(2) Combined total storage of surface water supply is less than 12 months, based on a calculated projection of current water production for the most recent 24-hour period;

(3) Current water production is 85 percent of the available treatment capacity;

(4) Loss of approximately 25 percent of available treatment capacity; or

(5) Water pressure readings of 40 pounds per square inch or less throughout all or material portions of the city's treated water distribution system.

(b) The declaration may cover all or a portion of the city's water supply system and shall be in writing and filed with the city secretary. The declaration shall state that the city's overall water use reduction goal during a stage three water shortage is 20 percent. A stage three water shortage ends when, upon the recommendations of the director and the mayor, the city council finds that the extreme conditions leading to the declaration either no longer exist, have been mitigated, or have been escalated, and the city council files a written declaration to that effect with the city secretary.

(c) City departments' water use reduction plans shall be implemented immediately upon the declaration of a stage three water shortage period and shall remain in effect until the conclusion of the water shortage period.

(d) During a stage three water shortage, all outdoor use shall be unlawful except that customers may use city water to continue production and protect inventory of their primary business products.

(e) Immediately upon the declaration of a stage three water shortage, the city may claim force majeure to all of its existing water service contracts consistent with the terms of such water service contracts and in accordance with applicable state law.
(Ord. No. 2012-997, § 2(Exh. A), 11-14-2012)

Sec. 47-254. Stage four water shortage; exceptional conditions; mandatory rationing of city water targeted to reduce overall water use by 35 percent.

(a) A stage four water shortage is a period of time that begins when, upon the finding of the director of an exceptional shortage, and the rec-

ommendation of the mayor, the city council declares a stage four water shortage upon finding that one or more of the following conditions exist that may impact all or a portion of the city's water supply system:

(1) Combined total storage of surface water supply is less than 12 months, based on a calculated projection of monthly production of city water that includes historic production and information provided by customers;

(2) Combined total storage of surface water supply is less than six months, based on a calculated projection of current water production for the most recent 24-hour period;

(3) Current water production is 90 percent of the available treatment capacity; or

(4) Water pressure readings of 35 pounds per square inch or less throughout all or material portions of the city's treated water distribution system.

(b) The declaration may cover all or a portion of the city's water supply system and shall be in writing and filed with the city secretary. The declaration shall state that the city's overall water use reduction goal during a stage four water shortage is 35 percent. A stage four water shortage ends when, upon the recommendations of the director and the mayor, the city council finds that the exceptional conditions leading to the declaration either no longer exist or have been mitigated, and the city council files a written declaration to that effect with the city secretary.

(c) City departments' water use reduction plans shall be implemented immediately upon the declaration of a stage four water shortage period and shall remain in effect until the conclusion of the water shortage period.

(d) During a stage four water shortage, the following acts or omissions shall be unlawful:

(1) All outdoor use;

(2) Use of more than 4,000 gallons of city water per month by single-family residential customers;

(3) Use of more than 4,000 gallons of city water per month (used per unit, as provided in section 47-71 of this Code) by multifamily residential customers; and

(4) For all customers other than residential customers, failure to reduce use of city water by 15 percent of baseline usage, or any other percentage if recommended by the director and adopted by city council in the stage four water shortage declaration.

(e) During a stage four water shortage, the director may authorize a ten percent rate reduction for water usage to customers for reductions of city water use by 20 percent or more than those restrictions set forth in subsection (d) , except that the ten percent rate reduction shall not be available to customers whose average monthly usage during the preceding 12-month period was less than 4,000 gallons. The rate reduction for water usage shall be effective for the duration of the existing water shortage period.

(f) Immediately upon the declaration of a stage four water shortage, the city may claim force majeure to all of its existing water service contracts consistent with the terms of such water service contracts and in accordance with applicable state law.
(Ord. No. 2012-997, § 2(Exh. A), 11-14-2012)

Sec. 47-255. Emergency water shortage.

(a) An emergency water shortage is a period of time that begins when the director finds that there is an imminent threat to the capability of the city's water supply system to provide adequate service to assure the health or safety of the public, such as may result from a natural disaster, act of war or terrorism, or catastrophic system accident or failure. The declaration of a water emergency must be subsequently ratified within ten days following its declaration by the city council. An emergency water shortage ends when, upon the recommendation of the director, the city council finds that the conditions leading to the declaration no longer exist.

(b) During an emergency water shortage all provisions of sections 47-252, 47-253, and 47-254 shall apply.
(Ord. No. 2012-997, § 2(Exh. A), 11-14-2012)

DIVISION 3. ENFORCEMENT

Sec. 47-256. Variances.

(a) The utility official may grant in writing a temporary variance for an otherwise prohibited water use if the utility official determines that:

(1) Failure to grant the variance would cause an emergency condition immediately threatening the life, safety, welfare, or fire protection of the public, the person requesting the variance, or the environment; or

(2) The applicant cannot comply with the prohibition for technical reasons; or

(3) The applicant agrees to implement alternative methods that will achieve the same or a greater level of reduction in water use.

(b) An application for a variance shall be made in writing with the utility official and shall include the following:

(1) Name and address of the applicant;

(2) Purpose of water use;

(3) Specific provision(s) of this article from which the applicant is requesting relief;

(4) A detailed statement as to how the specific provision(s) of this article adversely affects the applicant or what damage or harm will occur to the applicant or others if the applicant complies with this article;

(5) Description of the relief requested;

(6) Period of time for which the variance is sought;

(7) Alternative water use restrictions or other measures the applicant is taking or proposes to take to conform to the provisions of this article and the compliance date; and

(8) Other pertinent information reasonably required by the utility official to determine whether the criteria of subsection (a) have been met.

(c) No variance shall be retroactive or otherwise justify any violation of the prohibitions hereunder occurring prior to the issuance of the variance. A variance is valid for only the declared water shortage period in existence at the time of issuance and shall expire at the conclusion of the existing water shortage period. If the conclusion of the existing water shortage period is immediately followed by a newly declared water shortage period, consisting of either more or less threatening conditions, a new application for a variance must be filed in accordance with subsection (b) of this section. Notwithstanding the foregoing, a variance may be applied retroactively if issued to a residential customer who is a member of a family consisting of five or more persons living in a single residential unit served by a single water meter.
(Ord. No. 2012-997, § 2(Exh. A), 11-14-2012)

Sec. 47-257. Penalties

(a) With the exception of customers with water service contracts, in accordance with section 54.001 of the Texas Local Government Code, any person who violates any provision of this article shall be guilty of an offense and upon conviction thereof, shall be punished by a fine of not less than $100.00 nor more than $2,000.00 for each violation. Each act of city water use in violation of this article shall constitute and be punishable as a separate offense. Each day that any violation continues shall constitute and be punishable as a separate offense. Unless another penalty is specifically provided by this Code or by state law, the penalty for violation of any provision of this article shall be as follows:

(1) *For violations of section 47-252 (stage two water shortage),* the department may issue a written warning to a customer for a first-time violation. Any subsequent violations are subject to a fine of $100.00 to $2,000.00.

(2) *For violations of section 47-253 (stage three water shortage),* the department may issue a written warning to a customer for a first-time violation. Any subsequent violations are subject to a fine of $500.00 to $2,000.00. Additionally, the director may monitor the water account of any cus-

tomer who has been convicted of a violation of section 47-253. Daily monitoring may continue through the end of the existing water shortage period. The director may turn off city water if a customer has violated the authorized water use during a stage three water shortage on three separate instances within a 30-day period. Water service may be reinstated to a customer after a termination only upon a) payment of all applicable fines and any outstanding water service charges; and b) agreeing to the maximum rate in existence, regardless of the customer's billing rate class, for all future water service provided during the 12 months immediately following the termination and filing such agreement in writing with the department.

(3) *Violations of section 47-254 (stage four water shortage)* are subject to fines of $1,000.00 to $2,000.00. Additionally, all customers exceeding the allowed water usage during a stage four water shortage by ten percent or more shall pay a 20 percent surcharge for the current and two subsequent billing periods. The director may also turn off city water if a customer has exceeded the authorized water use during a stage four water shortage on three separate instances within a 30-day period. Water service may be reinstated to a customer after termination only upon a) payment of all applicable fines and any outstanding water service charges; and b) agreeing to the maximum rate in existence, regardless of the customer's billing rate class, for all future water service provided during the 12 months immediately following the termination and filing such agreement in writing with the department.

(b) In the event that a customer with a water service contract engages in the unauthorized use of city water, the city shall have the right to pursue any and all rights and remedies allowed under existing contracts with customers, and any and all remedies allowed under Texas law.
(Ord. No. 2012-997, § 2(Exh. A), 11-14-2012)

Sec. 47-258. Affirmative defenses

(a) It is an affirmative defense to prosecution under sections 47-252, 47-253, and 47-254 that the water use was:

(1) Authorized by a variance issued under section 47-256; or

(2) An authorized governmental use.

(b) Additionally, it is an affirmative defense to prosecution under sections 47-252 and 47-253 that the water use was:

(1) For maintaining public gardens and arboretums of national, state, or regional significance when necessary to preserve specimens; or

(2) For agricultural use.

(c) It is an affirmative defense to prosecution under section 47-254 that the water use was:

(1) For the operation of a health care facility as defined in section 21-236 of this Code; however, no outdoor use by a health care facility is permitted during stage three and stage four water shortages; or

(2) For a multifamily residential customer that participates in an annual education program, approved by the utility official, that addresses at minimum water shortages.
(Ord. No. 2012-997, § 2(Exh. A), 11-14-2012)

Secs. 47-259—47-265. Reserved.

ARTICLE VIII. ABANDONMENT OF CITY-OWNED UTILITY FACILITIES

Sec. 47-266. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

(1) *Customer* means any person who (or which) has applied to or contracted with the city for utility service from a facility and for whom (or for which) a tap or a connection has been installed.

(2) *Facility* means any line, pipe, valve, tank or similar facility which is owned by the city and used to provide water, sewer or gas service to any premises neither owned nor controlled by the city.

(3) *Substitute service line* means a new, replaced or relocated service line connecting the customer's premises to a city-owned meter, sewer line or other utility facility.

(Code 1968, § 49-601; Ord. No. 81-494, § 1, 3-17-81)

Sec. 47-267. Effect generally.

(a) No facility may be abandoned if the effect of such abandonment is to terminate utility service to any customer, except in compliance with this article.

(b) Abandonment shall not affect the city's ownership of any such facility, but instead shall only affect the then current use of such facility. Nor shall any such abandonment preclude or limit the right of the city to use such facility or any property where such a facility may be located for utility purposes at some time thereafter, either after repair or reconstruction or after replacement of the facility so abandoned.

(Code 1968, § 49-602; Ord. No. 81-494, § 1, 3-17-81)

Sec. 47-268. When authorized.

(a) A facility shall not be abandoned unless:

(1) The utility official first proposes such abandonment; and

(2) The facility is determined by the utility official to be surplus or is determined by a hearing examiner and the city council to be seriously substandard.

(b) A facility is surplus if no customer receives utility service directly from the facility.

(c) A facility is seriously substandard if:

(1) Because of age, wear or defects in materials or workmanship, the facility is subject to excessive leaks or sudden failure, or both;

(2) The facility lacks sufficient capacity to provide adequate service meeting general city standards for similarly situated facilities;

(3) The location of the facility aggravates problems of contamination of the facility or of adjacent areas; or

(4) The location of the facility prevents or hinders access for repairs, replacements or maintenance.

(Code 1968, § 49-603; Ord. No. 81-494, § 1, 3-17-81; Ord. No. 90-635, § 153, 5-23-90)

Sec. 47-269. Procedure after utility official's determination.

(a) If any facility which the utility official has proposed for abandonment is surplus, the utility official may authorize abandonment of the facility.

(b) If any facility which the utility official has proposed for abandonment is not surplus, it shall not be abandoned without the approval of the city council, and such approval shall not be given unless and until each customer served directly by the facility at the time of the utility official's abandonment proposal has been offered the opportunity to be heard at a hearing held pursuant to this article. The utility official shall refuse to allow new connections to such facility while the abandonment proposal is pending.

(Code 1968, § 49-604; Ord. No. 81-494, § 1, 3-17-81; Ord. No. 90-635, § 153, 5-23-90)

Sec. 47-270. Purpose of hearing.

(a) The purpose of the hearing shall be to determine the following questions:

(1) Whether or not the facility is seriously substandard; and

(2) Whether or not the public convenience and necessity require the abandonment of the facility as proposed by the utility official.

(b) In determining whether or not the public convenience and necessity require the abandonment as proposed by the utility official, the hearing examiner shall take into account all relevant facts and circumstances, including:

(1) Any adverse effects the abandonment would have upon customers;

(2) The tangible and intangible costs, if any, such abandonment would cause to be borne by the customers;

(3) The measures, if any, which may be imposed to mitigate such adverse effects;

(4) The cost of such mitigatory measures; and

(5) The tangible and intangible costs, if any, which would be borne by all other ratepayers of the utility system if the abandonment is not allowed, such costs including the costs of excessive leaks and sudden failures, the costs of maintaining any facility which lacks sufficient capacity to provide adequate service, the costs which the location of the facility may cause in terms of contamination and lack of access, and other costs directly caused by continued operation of the facility.

(Code 1968, § 49-605; Ord. No. 81-494, § 1, 3-17-81; Ord. No. 90-635, § 153, 5-23-90)

Sec. 47-271. Notice of hearing.

Notice of the time and place fixed for the hearing shall be sent by certified mail to each customer receiving service directly from the facility and to all other persons who own property located in whole or in part within 50 feet of any part of the facility (as such ownership is shown on the ad valorem tax rolls of the city or, if not within the city, the county in which the property is situated). In addition, notice of the hearing shall be published once a week for two consecutive weeks in some newspaper of general circulation in the area in which the facility is located, the first publication to be at least 15 days prior to the date fixed for the hearing.

(Code 1968, § 49-606; Ord. No. 81-494, § 1, 3-17-81)

Sec. 47-272. Conduct of hearing.

A hearing examiner shall be appointed by the director. The hearing shall be conducted in an open and public manner and in accordance with sections 37-88, 37-90, 37-93, 37-95 and 37-96 through 37-99 of this Code. Each customer served directly by the facility proposed to be abandoned who files a written request with the hearing examiner and any other person who demon

[The next page is 3301]

strates a justiciable interest shall be designated as a party at interest. Any party at interest may be represented by counsel. The hearing examiner shall determine whether the record of the hearing shall be made by narrative summary, by tape recording or by stenographic transcription.
(Code 1968, § 49-607; Ord. No. 81-494, § 1, 3-17-81; Ord. No. 81-1649, § 1, 8-25-81; Ord. No. 94-1099, § 1, 10-12-94)

Sec. 47-273. Burden of proof.

At any hearing conducted under this article, the utility official shall carry the burden of proving by clear and convincing evidence that:

(1) The facility proposed for abandonment is seriously substandard; and

(2) The public convenience and necessity require such abandonment.

(Code 1968, § 49-608; Ord. No. 81-494, § 1, 3-17-81; Ord. No. 90-635, § 153, 5-23-90)

Sec. 47-274. Findings and report.

(a) After the close of the hearing, the required hearing examiner shall determine:

(1) Whether or not the facility proposed to be abandoned is seriously substandard; and

(2) Whether or not the public convenience and necessity require the abandonment as proposed (or as modified so as to include measures to mitigate any adverse effect). Such findings shall be expressed in the examiner's report which, together with the record of the hearing, shall be certified to the city council by the hearing examiner.

(b) If the hearing examiner finds that measures are necessary and appropriate to mitigate any adverse effects of the abandonment, such measures shall be expressed in the report as terms and conditions of the abandonment. Such measures may include, but are not limited to:

(1) The provision of a substitute service line upon reasonable terms and conditions.

(2) Abandonment of only a part of the facility.

(3) Converting the facility to a private facility with the responsibility for maintenance, repair and replacement being assumed by one or more customers.

(4) Other similar measures.

(Code 1968, § 49-609; Ord. No. 81-494, § 1, 3-17-81)

Sec. 47-275. Action by city council.

The city council may adopt, reject or modify the report of the hearing examiner made pursuant to the provisions of this article. The city council may remand the matter to the hearing examiner for further proceedings as to certain specified issues. The decision of the city council shall be made by motion, a copy of which shall be delivered to the utility official. The decision of the city council, unless otherwise qualified, shall be final.
(Code 1968, § 49-610; Ord. No. 81-494, § 1, 3-17-81; Ord. No. 90-635, § 153, 5-23-90)

Sec. 47-276. Mitigatory measures.

If the city council prescribes that the city should undertake mitigatory measures prior to abandonment of a facility, the utility official shall take all steps necessary to cause such mitigatory measures to be implemented. The utility official shall not allow any work necessary to provide such mitigatory measures to be conducted upon private property unless the person in control of such private property consents to the performance of such work and the entry upon such property.
(Code 1968, § 49-611; Ord. No. 81-494, § 1, 3-17-81; Ord. No. 90-635, § 153, 5-23-90)

Sec. 47-277. Termination of service.

No utility service to a customer may be terminated because of abandonment of a facility unless:

(1) The utility official has determined that all terms and provisions of the council motion authorizing such abandonment have been satisfied or, if all terms and conditions have not been satisfied, that the customer (or some person who owns or

controls the premises of the customer) has failed or refused to allow such terms and conditions to be satisfied; and

(2) The customer has received 90 days' written notice of such termination by certified mail or by hand delivery to the premises of the customer.

When the foregoing conditions have been satisfied, the utility official is authorized to abandon the facility and to terminate all utility service provided through such facility.
(Code 1968, § 49-612; Ord. No. 81-494, § 1, 3-17-81; Ord. No. 90-635, § 153, 5-23-90)

Secs. 47-278—47-300. Reserved.

ARTICLE IX. WASTEWATER IMPACT FEES AND CAPACITY RESERVATIONS*

DIVISION 1. GENERALLY

Sec. 47-301. Definitions.

As used in this article, the following terms and phrases shall have the following meanings:

(1) *Accelerated projects* means projects calling for the construction of specifically identified wastewater treatment or transportation facilities or both, with funds acquired in part from prepayments of capital recovery charges made by persons desiring new or additional service from the system in an area where such service would not otherwise be available.

(2) *Assessment* means the determination of the amount of the maximum impact fee per service unit which can be imposed on new development pursuant to this article, which determination occurs at the time specified in section 47-317.

(3) *Buffer zone* means an area of land which is owned or controlled by the owner of the private interim wastewater treatment plant or which is burdened by a public or private easement which renders it unsuitable for the location of habitable structures.

(4) *Building permit* means:

a. With respect to buildings or premises within the corporate limits of the city, the general permit required under the Construction Code; or

b. With respect to buildings or premises outside the corporate limits of the city or for which a general permit under the Construction Code is not required, a plumbing permit issued under the Construction Code or under section 47-14 of this chapter.

(5) *Capital recovery charge* means the fees imposed by the city on developments to provide financing for the costs of acquiring and constructing capital improvements to the system. These fees were established by the city pursuant to City of Houston Ordinances Nos. 83-650 and 84-1964.

(6) *City constructed wastewater facility* means a wastewater facility paid for wholly or partially by the city, a wastewater facility that has been acquired by the city upon assumption of obligations or debts for the construction costs thereof or by operation of law, a wastewater facility paid for by any other person, firm, corporation or governmental subdivision that has been purchased or otherwise acquired by the city, and a wastewater facility paid for partly by the city and partly by others when connection thereto is to be made from property to be served thereby and the owners of such property did not contribute their proportionate share of the cost for the intended land use.

(7) *Connection charge* means a charge on a property owner imposed pursuant to city ordinances referenced in section 47-42 for connection to the city's wastewater system.

*Editor's note—Section 4 of Ord. No. 90-675, adopted June 6, 1990, amended the title of Art. IX by adding the words "impact fees and" thereto.

(8) *Contractual reservation* means a reservation of wastewater capacity recognized in a legally enforceable written contract with the city where, either:

a. The contract was countersigned by the city controller prior to May 3, 1983; or

b. The city council, acting by motion, resolution or ordinance passed prior to May 3, 1983, authorized the director to negotiate the contract and identified the wastewater treatment facilities concerned, the contract negotiations were completed, and a final contract was approved by city council and countersigned by the city controller prior to October 24, 1985. The term "contractual reservation" also includes assignments of all or a portion of the original reservation when permitted under the terms of the contract; or

c. The contract was approved by a conservation and reclamation district that has been annexed by the city, where such contract provided wastewater capacity for property inside the city limits pursuant to consent of the city council.

(9) *Credit* means the amount determined under this article by which an impact fee for wastewater facilities is reduced as a result of a payment of connection charges for city constructed wastewater facilities imposed pursuant to city ordinances referenced in section 47-42, or payment of equivalent charges to a district providing such facilities within the city's wastewater benefit area, prior to June 20, 1990. Credit shall not include payment of a connection fee prior to June 20, 1990, or payment of charges under article IV of this chapter 47, which are imposed to reimburse a property owner for the costs of extending a wastewater main or lateral sewer.

(10) *Reserved.*

(11) *District reservation* means a written reservation of wastewater capacity which was:

a. Issued by a conservation and reclamation district which has been annexed to and abolished by the city and which has, prior to its abolition by the city, acquired or fully financed the acquisition of wastewater facilities which, when constructed and placed in operation, will have an aggregate wastewater capacity at least equal to the total of all wastewater capacity represented by the district's existing sanitary sewer system customers and its written reservations; and

b. Presented to the director, within three years after the latter of the date of abolition of the district or May 3, 1983, for written verification of its validity.

In the event that a district has issued written reservations of wastewater capacity in excess of the wastewater capacity the district has acquired or fully financed, then the director shall allocate the acquired or fully financed wastewater capacity of the district, first to the district's existing sanitary sewer system customers to the extent of their connections to the district's system, next to those persons who, within the 90 days immediately following the date of the district's abolition, present valid written reservations to the director for verification and finally, on a first-come-first-served basis, to those persons who present valid written reservations to the director for verification during the remainder of the three-year verification period.

(12) *Final plat recordation* means the filing of the final plat with the county clerk in the county in which the property platted is located, following compliance with all conditions of approval pursuant to chapter 42 of the Code.

(13) *Health-care facilities* means health-care facilities as defined in article 4418h, section 1.039(9), of the Texas Revised Civil Statutes Annotated.

(14) *Land use equivalency table* means the table approved by city council converting utilization of wastewater capacity required by various land uses to numbers of service units. Such table must be adopted by the city council as an element of its wastewater capital improvements plan.

(15) *New development* or *proposed development* means a project involving the construction, reconstruction, redevelopment, conversion, structural alteration, relocation or enlargement of any structure; or any use of extension of the use of land; any of which has the effect of increasing the requirements for wastewater capital improvements measured by the number of service units to be generated by such activity, and which requires either the approval of a plat pursuant to the city's subdivision regulations, the issuance of a building permit, or connection to the city's water or wastewater system, and which has not been exempted from these regulations by provisions herein.

(16) *Offset* means the amount of the reduction of an impact fee, determined under this article or pursuant to administrative guidelines, that is equal to the value of a wastewater facility or portion thereof included in the wastewater capital improvements plan, that is constructed or financed by a property owner.

(17) *Plat* means the plan or map for the subdivision to be filed for record in Harris County. Plat includes replat, but excludes development plat.

(18) *Property owner* means the owner in fee of a tract or parcel of land upon which new development is to be located, or his authorized representative.

(19) *Public education facilities* means buildings and other structures which are used by independent school districts or public or private junior or senior colleges or universities for the purpose of providing or supporting educational services.

(20) *Reservation application* means an application submitted to the director requesting a determination of the availability of adequate wastewater facilities and, if available, requesting a wastewater capacity reservation, subject to the provisions of this article.

(21) *Reservation for wastewater capacity* means either a contractual reservation, a district reservation, a restricted wastewater capacity reservation, or a wastewater capacity reservation acquired prior to June 20, 1990.

(22) *Restricted wastewater capacity reservation* means a reservation of wastewater capacity issued under authority of subsection 47-334(c) of this article.

(23) *Service area* means, for a particular wastewater facility or combination of wastewater facilities, a geographically defined area in which proposed developments can best be provided service by that wastewater facility or combination of wastewater facilities. The director shall determine the appropriate service area for each wastewater facility or combination of wastewater facilities by application of sound principles of civil engineering and in such a manner as to promote the safe and efficient operation of the system.

(24) *Service unit* means a standardized measure of consumption of wastewater system capacity which is equal to the average flow rate for a single-family dwelling unit in the Houston area.

(25) *Standard base level* means, for each acre of land, a level of utility service sufficient to receive, transport, treat and dispose of an average of 1,575 gallons per day of wastewater of the strength and character produced by typical residential customers of the city's system.

(26) *System* means the sanitary sewer system owned, maintained and operated by or on

behalf of the city in order to furnish sanitary sewer service, including but not limited to waste treatment facilities including fertilizer plants, plants, disposal fields and lagoons for the purpose of treating, neutralizing, stabilizing or disposing of wastewater, and sewer systems including pipelines, conduits, canals, pumping stations, force mains, and all other constructions, devices and related appliances used to transport wastewater, as such system may be now constituted or as it may be hereafter improved, enlarged or extended by construction, reconstruction, acquisition, annexation or otherwise.

(27) *Temporary reservation* means:

a. A reservation by a utility commitment letter issued by the city prior to May 3, 1983; or

b. A reservation of wastewater capacity which was not in the form of a utility commitment letter but which was:

1. Of a type customarily recognized by the city prior to May 3, 1983; and

2. For which the property owner had made a capital contribution which was accepted by motion, resolution or ordinance of city council.

(28) *Wastewater benefit area* means the area within the city and the city's extraterritorial jurisdiction, within which impact fees for wastewater capital improvements will be collected for new development occurring within such area and within which fees so collected will be expended for those improvements identified in the wastewater capital improvements plan applicable to the benefit area.

(29) *Wastewater capacity* means the capacity of the wastewater facilities, measured in units of volume per unit of time, to receive, transport, treat and dispose of wastewater produced by customers of the system.

(30) *Wastewater capacity reservation* means a commitment of the city, subject to the regulatory actions of the state and federal government, the applicable rules and regulations of the city and the terms and conditions contained in this article and in the wastewater capacity reservation itself, to permanently reserve capacity in wastewater facilities to serve a proposed development so that utility service will be available upon completion of the buildings or other structures contained in the proposed development. The phrase "wastewater capacity reservation" shall also include the written document evidencing its existence.

(31) *Wastewater capital improvement* means a wastewater facility, with a life expectancy of three or more years, to be owned and operated by or on behalf of the city.

(32) *Wastewater capital improvements plan* means the plan adopted by city council, as may be amended from time to time, which identifies the wastewater facilities and their associated costs which are necessitated by and which are attributable to new development, for a period not to exceed ten years, and which are to be financed in whole or in part through the imposition of wastewater impact fees pursuant to this article.

(33) *Wastewater connection* means authorization to connect a new development to the city's wastewater system.

(34) *Wastewater facility* means a facility designed or utilized for the purpose of collecting, conveying, pumping, treating or disposing of wastewater and byproducts of wastewater treatment, including an existing facility, the capacity of which has been expanded to serve new development. Wastewater facility includes land, easements or structures associated with such facilities. Wastewater facility excludes those wastewater lines or mains or portions thereof which are constructed by property owners, the costs of which are

reimbursed from charges paid by subsequent users of such wastewater lines or mains.

(35) *Wastewater impact fee* means a fee for wastewater facilities imposed on new development pursuant to this article in order to generate revenue to fund or recoup the costs of capital improvements necessitated by and attributable to such new development. Wastewater impact fees do not include requirements for the dedication of rights-of-way or easements for such facilities, or for the construction of such improvements. Wastewater impact fees also do not include payment of connection charges by persons receiving service from a wastewater main, which charges are imposed to reimburse a property owner for the costs of extending such main.

(Code 1968, § 49-701; Ord. No. 83-650, § 1, 5-3-83; Ord. No. 84-1673, §§ 1—3, 10-24-84; Ord. No. 90-635, § 167, 5-23-90; Ord. No. 90-675, § 1, 6-6-90; Ord. No. 91-64, § 1, 1-9-91; Ord. No. 93-514, § 127, 5-5-93; Ord. No. 02-399, § 92, 5-15-02)

Secs. 47-302—47-310. Reserved.

DIVISION 2. STATEMENT OF POLICY ON FINANCING OF SANITARY SEWERS SYSTEM CAPITAL IMPROVEMENTS

Sec. 47-311. Statement of city policy.

The following is established as the policy of the city for financing system:

(1) The city desires to finance the cost of acquiring and constructing capital improvements to the system necessary to maintain the level of wastewater capacity in the system so as to provide continued service at existing levels and new service to the holders of certain valid and unexpired commitments issued prior to May 3, 1983 in accordance with all applicable state and federal regulatory requirements which financing may be provided from the sale of revenue bonds, from state or federal grant funds or from any other funds available to the city other than from the proceeds of wastewater impact fees.

(2) The city intends to provide or cause to be provided financing for the cost of constructing special improvements to the system necessary to expand the level of wastewater capacity in order to provide service to new development through the establishment and collection of wastewater impact fees.

(3) Subject to the approval of the city council, special purpose conservation and reclamation districts organized under authority of article XVI, section 59 of the Constitution of the state may be utilized within the city to provide all or part of the funding for construction or enlargement of the system's wastewater treatment plants and capital facilities related to those plants.

(Code 1968, § 49-711; Ord. No. 83-650, § 1, 5-3-83; Ord. No. 90-675, § 2, 6-6-90)

Sec. 47-312. Authority.

This article is adopted pursuant to chapter 395 of the Texas Local Government Code, section 26.176 of the Texas Water Code, and the Houston Charter. The provisions of this article shall not be construed to limit the power of the city to utilize other methods authorized under state law or pursuant to other city powers to accomplish the purposes set forth herein, either in substitution for or in conjunction with this article.

(Ord. No. 90-675, § 2, 6-6-90)

Sec. 47-313. Reservations and capital recovery charges.

(a) Except as provided in subsection (b) below, no building permit shall be issued with respect to any building or new development in the wastewater benefit area, which will require additional wastewater capacity from the system unless both of the following are provided to the director:

(1) A wastewater capacity reservation, a restricted wastewater capacity reservation, a district reservation or a contractual

reservation, a district reservation or a contractual reservation which has not expired, with respect to which all required conditions have been met and which includes:

a. A description of such building or new development; and

b. Reference to an amount of wastewater capacity at least as great as the additional amount required; and

(2) Satisfactory proof that any applicable wastewater impact fees have been paid with respect to such reservation.

(b) Subsection (a) of this section does not apply to any wholesale sewage treatment services supplied by the city to any conservation and reclamation district pursuant to a valid written contract. (Code 1968, § 49-712; Ord. No. 83-650, § 1, 5-3-83; Ord. No. 90-675, § 2, 6-6-90)

Secs. 47-314, 47-315. Reserved.

DIVISION 3. WASTEWATER IMPACT FEES*

Sec. 47-316. Wastewater impact fees, in general.

(a) Except as otherwise provided herein, each new development within the city's wastewater benefit area shall pay an impact fee for wastewater facilities necessitated by and attributable to that development as provided in this division. Wastewater impact fees shall be assessed against and collected from new development on the basis of service units. The wastewater benefit area is established by the city council and may be amended from time to time.

(b) The maximum wastewater impact fee per service unit that is assessed against new developments is established for this provision in the city fee schedule, per service unit, and the wastewater impact fee per service unit that shall be collected from new development is stated for this provision in the city fee schedule, per service unit. Beginning in 2011, the wastewater impact fee shall remain unchanged until the water impact fee equals or exceeds wastewater impact fee in dollar value. On July 1 of each year after the water impact fee equals or exceeds the wastewater impact fee established pursuant to section 47-384 of this Code, wastewater impact fees shall be adjusted by an amount equal to the percentage increase (if any) in the designated index for the preceding calendar year multiplied by the amount of the wastewater impact fee for the then-current year, but shall never exceed the maximum wastewater impact fee established herein. The director shall annually calculate the effective wastewater impact fee on or before June 1 of each year and make it available in his office upon request for public inspection.

For purposes of this subsection, the term designated index shall mean the United States Producers Price Index for All Commodities (1982=100), as published by the Bureau of Labor Statistics, U.S. Department of Labor. If such index is subject to adjustment later, then the city shall use the adjusted index, together with any correlation factor necessary to relate the later adjusted index to the earlier index, as published by the entity publishing the index, or if such publication is discontinued, the designated index shall then refer to comparable statistics on changes in the cost of living for urban consumers as the same may be computed and published by an agency of the United States or by a responsible financial periodical of recognized authority, which agency or periodical shall be selected by the city.

(c) The city council may amend wastewater impact fees to be collected from new developments without amending the wastewater capital improvements plan adopted herein, as long as the impact fees to be collected do not exceed the maximum impact fees per service unit that may be assessed for such facilities.
(Ord. No. 02-517, § 4, 6-26-02; Ord. No. 05-958, § 3, 8-24-05; Ord. No. 2010-482, § 4, 6-30-2010; Ord. No. 2010-583, § 3, 7-28-2010; Ord. No. 2011-1168, § 13, 12-14-2011)

*__Editor's note—__Section 3 of Ord. No. 90-675, adopted June 6, 1990, amended Ch. 47, Art. IX, Div. 3 to read as herein set forth. Prior to such amendment, Div. 3, §§ 47-321—47-324, pertained to capital recovery charges and derived from §§ 49-271—49-274 of the 1968 Code; Ord. No. 83-650, § 1, adopted May 3, 1983; and Ord. No. 84-1964, §§ 1, 2, adopted Dec. 27, 1984.

Sec. 47-317. Assessment of fees.

Assessment of wastewater impact fees against new development shall be based on the maximum wastewater impact fee per service unit established by the city council. The time of assessment depends upon the time the development was platted pursuant to Chapter 42 of the Code and when the development obtains a reservation for wastewater capacity. Assessment shall take place as follows:

(1) For new developments which have received final plat recordation and which have acquired a reservation for wastewater capacity prior to June 20, 1990, assessment shall occur at the time of application for a building permit or at the time of payment of the capital recovery charge specified in the reservation, whichever occurs first. If capital recovery charges for the new development have been paid prior to June 20, 1990, assessment for additional service units shall occur at the time of application for a building permit.

(2) For new developments which have received final plat recordation prior to June 20, 1990, but which have not acquired a wastewater capacity reservation by such date, assessment shall occur on the date a wastewater capacity reservation is obtained for the development.

(3) For new developments which have not received final plat recordation prior to June 20, 1990, but which have acquired a reservation for wastewater capacity prior to such date, assessment shall occur at the time of final plat recordation or the time at which the capital recovery charge specified in the reservation is paid, whichever occurs first. In the event that the capital recovery charge has been paid prior to June 20, 1990, assessment for additional service units shall occur at the time of final plat recordation, or if no final platting is required prior to development, at the time of application for a building permit.

(4) For new developments which have not received final plat recordation and which have not acquired a reservation for wastewater capacity prior to June 20, 1990, assessment shall occur at the time of final plat approval or at the time a wastewater capacity reservation is obtained, whichever occurs first.

(Ord. No. 90-675, § 3, 6-6-90)

Sec. 47-318. Time of fee collection.

Wastewater impact fees shall be collected at the time of issuance of building permits. In the event that a building permit is not required prior to development, collection shall be at the time of wastewater service connection. Provided, however, the developer and the department may agree to an earlier date for payment to reserve wastewater capacity for future development.

(Ord. No. 90-675, § 3, 6-6-90; Ord. No. 02-517, § 5, 6-26-02)

Sec. 47-319. Computation of fees.

The department shall compute the wastewater impact fees due for a new development in the following manner:

(1) Except as otherwise provided in this section, the amount of the impact fee due shall be determined by multiplying the number of service units generated by the new development by the wastewater impact fee per service unit then in effect.

(2) Development of low and moderate cost single family housing is exempt from payment of impact fees. In order to qualify for this exemption, the house must be a single family residence located within city limits having an initial purchase price as certified by the property owner that does not exceed the latest available 12-month listing for median price single family housing in the city as published by the Real Estate Center at Texas A&M University. In the event the initial purchase price exceeds this amount, the property owner making the certification shall pay to the city the full amount of the impact fee as calculated under this section. If publication of the median price for single family housing is discontinued by the Real Es-

tate Center at the Texas A&M University, the mayor is authorized to select another publication that lists the median price of single family houses in the city.

(3) In the event that the new development has paid a capital recovery charge prior to computation of the impact fee, or in the event that the new development has a valid district or contractual reservation, the capacity reserved by payment of such charge or such reservation shall be converted to service units using the land use equivalency table. If the wastewater service required for the new development exceeds such reserved capacity, the service units equivalent to the previously reserved capacity shall be subtracted from the total number of service units attributable to the new development, and the amount of the wastewater impact fee due shall be the number of additional service units multiplied by the wastewater impact fee per service unit then in effect.

(4) In the event that the new development involves razing or removing existing structures, the wastewater capacity utilized by such use or structure shall be converted into service units using the land use equivalency table. If the wastewater service required for the new development exceeds such utilized capacity, the service units equivalent to the previously reserved capacity shall be subtracted from the total number of service units attributable to the new development, and the amount of the wastewater impact fee due shall be the number of additional service units multiplied by the wastewater impact fee per service unit then in effect.

(5) The amount of each impact fee due shall be reduced by any allowable credits in the manner provided in section 47-321 of this Code.

(6) The amount of each impact fee due for a new development shall not exceed an amount computed by multiplying the maximum wastewater impact fee per service unit in effect at the time the new development was assessed by the number of service units generated by the development.

(7) If the property owner proposes to increase the number of service units for a development following payment of the wastewater impact fee, the additional wastewater impact fees collected for such new service units shall be determined in the same manner as provided in this section.

(Ord. No. 90-675, § 3, 6-6-90; Ord. No. 97-442, § 1, 4-23-97)

Sec. 47-320. Determination of service units.

The number of service units attributable to a new development shall be determined by using the land use equivalency table established by the city council, which may be amended from time to time.

(Ord. No. 90-675, § 3, 6-6-90)

Sec. 47-321. Credits against wastewater impact fees.

(a) A property owner who has paid a connection charge prior to June 20, 1990 for a city-constructed wastewater facility, or who has paid an equivalent charge for a facility included in the wastewater capital improvements plan to a district created under authority of article III, section 52, or article XVI, section 59 of the Texas Constitution, for which no reimbursement was received, may reduce the wastewater impact fee due for the lot or tract for which the fee was paid by a like amount.

(b) A property owner who constructs or finances a wastewater facility included in the wastewater capital improvements plan pursuant to a development agreement approved by the city on or after June 20, 1990 may offset the value of such improvement against the wastewater impact fees due for the development. The offset shall be associated with the plat of the property that is to be served by the wastewater facility constructed or financed. The amount of the offset shall be determined pursuant to rules established in this section and administrative guidelines promulgated by the director. The city may also agree to offset against wastewater impact fees the value of

a wastewater facility to be constructed or financed by the property owner, which has not been included in the wastewater capital improvements plan, if it is reasonably anticipated that the facility shall be included within the next revision to such plan. In no event shall the offset allowable under this subsection exceed the amount of the impact fees due, and no property owner shall be entitled to reimbursement for such excess amount unless the city otherwise agrees.

(c) The development agreement required by subsection (b) may provide for participation by the city in the costs of oversizing the wastewater facility to be constructed or financed by the property owner, or may provide for reimbursement according to the terms of the agreement. The amount of any offset shall be reduced by the amount of the city's participation.

(d) A credit or an offset associated with a plat shall be applied against a wastewater impact fee due at the time that the first fee for the new development is collected, and thereafter to all subsequently collected fees, until the credit or offset is exhausted.
(Ord. No. 90-675, § 3, 6-6-90)

Sec. 47-322. Accounting and refunds.

(a) All wastewater impact fees collected within the wastewater benefit area shall be deposited in a dedicated fund to which interest is allocated. All such amounts, together with all interest earned thereon, shall be used solely for the purposes set forth in subsection (b).

(b) The wastewater impact fees collected pursuant to this division may be used to finance or to recoup the costs of any capital improvements or facility expansions identified in the applicable wastewater capital improvements plan for the wastewater benefit area, including but not limited to the construction contract price, surveying and engineering fees, land acquisition costs (including land purchases, court awards and costs, attorneys' fees, and expert witness fees), and fees paid to an independent qualified engineer or financial consultant preparing or updating the wastewater capital improvements plan. Wastewater impact fees may also be used to pay the principal sum, interest and other finance costs on bonds, notes or other obligations issued by or on behalf of the city to finance such capital improvements.

(c) Disbursement of funds shall be authorized by the department at such times as are reasonably necessary to carry out the purposes and intent of this article; provided, however, that funds shall be expended within a reasonable period of time, but not to exceed ten years from the date wastewater impact fees are deposited into the fund.

(d) An owner of property for which a wastewater impact fee has been paid is entitled to a refund of all or a portion of the fee in the following circumstances:

(1) Upon application, any wastewater impact fee or portion thereof collected pursuant to this division, which has not been expended within the wastewater benefit area within ten years from the date of payment, shall be refunded to the record owner of the property for which the impact fee was paid together with interest calculated from the date of collection to the date of refund at the statutory rate as set forth in article 5069-1.03, Texas Revised Civil Statutes Annotated, or its successor statute. A wastewater impact fee shall be considered expended on a first-in, first-out basis. A wastewater impact fee shall also be considered expended if the total expenditures for wastewater facilities included in the wastewater improvements plan, as may be amended from time to time, within the wastewater benefit area within ten years following the date of payment exceeds the total wastewater impact fees collected within the benefit area during such period.

(2) If a refund is due pursuant to paragraph (1), the department shall divide the difference between the amount of expenditures and the amount of the fees collected by the total number of service units for which wastewater impact fees have been paid within the benefit area for the period to

determine the refund due per service unit. The refund to the record owner shall be calculated by:

a. Multiplying the refund due per service unit by the number of service units for the development for which the fee was paid; and

b. Determining interest due based on the amount calculated under subsection (d)(2)a.

(3) Upon completion of all the wastewater facilities identified in the wastewater improvements plan for the wastewater benefit area, the department shall recalculate the maximum impact fee per service unit using the actual costs for the improvements or expansions. If the maximum impact fee per service unit based on actual cost is less than the impact fee per service unit paid, the city shall refund the difference if such difference exceeds the wastewater impact fee paid by more than ten percent. If the difference is less than ten percent, no refund shall be due. The refund to the record owner shall be calculated by:

a. Multiplying such difference by the number of service units of the development for which the fee was paid; and

b. Determining interest due based on the amount calculated under subsection (d)(3)a.

(4) In no event shall a refund be due under this division for payment of any capital recovery charge.

(e) The department shall establish adequate financial and accounting controls to ensure that wastewater impact fees disbursed from the fund are utilized solely for the purposes authorized. The department shall maintain and keep financial records for wastewater impact fees, which shall show the source and disbursement of all fees collected in or expended within the wastewater benefit area. The records of the fund into which wastewater impact fees are deposited shall be open for public inspection and copying during ordinary business hours.

(f) Nothing in these regulations shall prevent the city from paying all or part of the wastewater impact fees due for a new development pursuant to criteria adopted by the city council.
(Ord. No. 90-675, § 3, 6-6-90)

Sec. 47-323. Impact fee appeals.

(a) The property owner or applicant for new development may appeal the following administrative decisions to an administrative hearings official appointed by the director:

(1) The applicability of an impact fee to the development;

(2) The amount of the impact fee due;

(3) Classification of the development under the land use equivalency table;

(4) The applicability of a credit or an offset to the development;

(5) The amount of a credit or of an offset; or

(6) The amount of a refund due, if any.

(b) The burden of proof shall be on the applicant to demonstrate that the administrative decision was not made in accordance with this division or applicable state law.

(c) The applicant must file a written notice of appeal with the director within 30 days following the decision from which an appeal is made. If the notice of appeal is accompanied by a payment or other sufficient security satisfactory to the department in an amount equal to the original determination of the impact fee due, the development application may be processed while the appeal is pending. Each appeal must include the fee stated for this provision in the city fee schedule.
(Ord. No. 90-675, § 3, 6-6-90; Ord. No. 2011-1168, § 13, 12-14-2011)

Sec. 47-324. Relief procedures.

(a) Any person who has paid an impact fee or an owner of land for which an impact fee has been paid may petition the city council to determine whether any duty required by this article or by

chapter 395 of the Texas Local Government Code has not been performed within the time so prescribed. The petition shall be in writing and shall state the nature of the unperformed duty and request that the duty be performed within 60 days of the request. If the city council determines that the duty is required pursuant to the ordinance and is late in being performed, it shall cause the duty to commence within 60 days of the date of the request and to continue until completion. This subsection shall not apply to matters subject to appeal pursuant to section 47-323.

(b) The city council may grant a variance from any requirement of this article, upon written request by a property owner subject to this article, following a public hearing, and only upon finding that a strict application of such requirement would, when regarded as a whole, result in confiscation of the property.

(c) If the city council grants a variance to the amount of the impact fee due for a new development under this section, it shall cause to be appropriated from other city funds the amount of the reduction in the impact fee to the fund for the service area in which the property is located.
(Ord. No. 90-675, § 3, 6-6-90)

Sec. 47-325. Replacement of existing charges.

On and after June 20, 1990, the provisions of this division 3 relating to the assessment and collection of wastewater impact fees replace and supersede those provisions for payment capital recovery charges as well as the payment of connection charges for city-constructed wastewater facilities pursuant to city ordinances referenced in section 47-42. On and after such date, the city shall neither impose on or collect from a new development any capital recovery charges or connection charges for city-constructed wastewater facilities.
(Ord. No. 90-675, § 3, 6-6-90)

Sec. 47-326. Connection of existing development.

If an owner of existing development within the wastewater benefit area requests connection to the city's wastewater system, and the department agrees to extend a wastewater main to serve the development, the owner shall pay a fee equivalent to that prescribed by and computed according to section 47-319 prior to connection to such system; provided, however, that an existing development so connected is entitled to a credit against the fee equal to the charge for one service unit.
(Ord. No. 90-675, § 3, 6-6-90)

Secs. 47-327—47-330. Reserved.

DIVISION 4. RESERVATIONS

Sec. 47-331. Generally.

(a) The director is authorized and directed to establish and administer a system for determining whether wastewater facilities are available to serve proposed developments, for communicating the results of such determination to the property owner initiating the reservation request and, where necessary facilities are available, for reserving capacity in wastewater facilities to serve the proposed development.

(b) Any property owner who is contemplating a specific use of his property within the corporate limits of the city or within an area receiving utility services provided by the city which will require a change in the amount or character of utility service received from the city due to development, redevelopment or a change in occupancy must submit a reservation application to the director on the forms prescribed by the director. The application must be accompanied by the prescribed fee and must contain substantially the following information:

(1) An adequate legal description of the property.

(2) The number of existing buildings.

(3) The number of square feet within each of the existing buildings.

(4) The usage of each existing building (i.e., multifamily residence, office building, shop building, retail center, etc.).

(5) An explanation of the proposed construction projects and type of occupancies contemplated (*i.e.,* number of square feet and types of lease-occupancies, etc.).

(6) A map or sketch detailing the geographical location of the property.

(7) Copies of all wastewater capacity reservations associated with the property.

(8) Any other information reasonably requested by the director and necessary or useful to the director in performing a utility availability determination.

(Code 1968, § 49-731; Ord. No. 83-650, § 1, 5-3-83)

Sec. 47-332. Issuance of wastewater capacity reservations.

(a) Upon receipt of a completed application and the prescribed fee, the director shall determine whether the proposed development meets the requirements for issuance of a wastewater capacity reservation. In order for a proposed development to qualify for issuance of a wastewater capacity reservation the director must determine that there is sufficient unused and unreserved capacity in available wastewater facilities to meet the utility service requirements of the proposed development or that such capacity will be available before the proposed development will require it, that the proposed development will comply with applicable state and federal laws and regulations (including specifically regulations which restrict certain types of development in areas near the city's airports), written city policies which apply to city utility service and city ordinances, that utility service at the level required by the proposed development would not be in excess of any existing restrictions imposed under authority of section 47-333, and that any proposed private wastewater facilities are capable of providing safe and effective utility service.

If, upon completion of the determination, the director concludes that the proposed development meets all the requirements for issuance of a wastewater capacity reservation, he shall then calculate the capital recovery charge for the proposed development and issue a wastewater capacity reservation to the applicant conditioned upon payment of those charges within six months of the date of issuance. If, upon completion of the determination, the director concludes that the proposed development does not meet one or more of the requirements for issuance of a wastewater capacity reservation, then the director shall prepare and deliver to the applicant a denial notice which shall describe the results of the determination and specifically detail the reasons for the denial.

(b) Provided, however, that the director may issue a wastewater capacity reservation subject to special conditions for an application not otherwise acceptable under subsection (a) as follows:

(1) The reservation is expressly conditioned upon the occurrence of some future event if the director determines that after the occurrence of that event the proposed development would be qualified for issuance of a wastewater capacity reservation. Events upon the occurrence of which a wastewater capacity reservation may be conditioned include, without limitation, the completion and acceptance of an accelerated project in which the property owner is a subscriber, the construction of a sewer main extension, or the construction of private wastewater facilities.

(2) The director determines that the wastewater capacity reservation is necessary for the immediate development or redevelopment of property, but will not overload the city's sanitary sewer system. A wastewater capacity reservation issued under this paragraph shall be subject to express conditions required by the director to assure that the proposed development requiring the wastewater capacity reservation is constructed within the time schedule specified by the director.

(c) Notwithstanding the other provisions of this section, the director shall issue a wastewater capacity reservation whenever the director determines that:

(1) A particular proposed development would qualify for issuance of a wastewater capacity reservation, if one or more of the wastewater facilities available to serve the proposed development were not already fully reserved.

(2) All of the fully reserved wastewater facilities available to serve the proposed de-

velopment are consistently operating at a level below their design and legally permitted capacities.

(3) The proposed development is to be composed solely of one or more residential structures which would require utility service from the system at a level equal to or below the standard base level.

(4) The property owner has not obtained a wastewater capacity reservation under this subsection (c) during the preceding 12 months.

A wastewater capacity reservation issued under authority of this subsection (c) can not be transferred to another lot, tract or subdivision and can not be used for any proposed development other than that for which it is issued.

(Code 1968, § 49-732; Ord. No. 83-650, § 1, 5-3-83; Ord. No. 84-1673, § 6, 10-24-84; Ord. No. 88-646, § 1, 4-27-88)

Sec. 47-333. Service area restrictions.

(a) Whenever the director determines that particular existing wastewater facilities are operating at 85 percent of their legally permitted capacity and that to allow additional reservations of capacity in such facilities at a level above the standard base level would result in an overloading of such facilities, then the director shall impose restrictions upon utility connections in that service area. The restrictions imposed under authority of this subsection shall provide that the director will not issue wastewater capacity reservations (other than ones conditioned upon the acquisition or construction of wastewater facilities) within the restricted service area for so long as the restrictions remain in effect, except in response to applications for proposed development which will require service at a level equal to or less than the standard base level. Notwithstanding the imposition of restrictions the director shall, where the provision of utility service is physically possible and where the proposed development otherwise complies with the requirements of this article, issue wastewater capacity reservations for proposed developments which provide for:

(1) Construction of fire and police facilities, public education facilities, and health-care facilities.

(2) Redevelopment which will not increase the amount of utility service required within the restricted service area.

(3) Extension of the system to areas presently served by septic tanks.

(4) Development which will require additional wastewater utility service at a level equal to or below the level authorized in a valid and unexpired previous commitment by the city.

(5) Other types of development or redevelopment, which, as of the effective date, were permitted by the provisions of the city's wasteload control plan imposed under the requirements of Texas Water Quality Board Order No. 74-0122-1.

(b) Whenever the director determines that particular existing wastewater facilities are regularly operating at a level which substantially exceeds their design or legally permitted capacity, the director shall impose restrictions upon utility connections in that service area. The restrictions imposed under authority of this subsection shall provide that the director will not issue wastewater capacity reservations (other than ones conditioned upon the acquisition or construction of wastewater facilities) within the restricted service area for so long as the restrictions remain in effect. Notwithstanding the imposition of restrictions the director shall, where the provision of utility service is physically possible and where the proposed development otherwise complies with the requirements of this article, issue wastewater capacity reservations for proposed developments which provide for:

(1) Construction of fire and police facilities, public education facilities and health-care facilities, but only where the director finds that the provision of utility service to those facilities will have only a minimal effect on overloaded wastewater facilities.

(2) Redevelopment which will not increase the amount of utility service required within the restricted service area.

(3) Development which will require additional utility service at a level equal to or

below the level authorized in a valid and unexpired previous commitment by the city.

(4) Other types of development or redevelopment, which, as of the effective date, were permitted by the provisions of the city's wasteload control plan imposed under the requirements of Texas Water Quality Board Order No. 74-0122-1.

(c) The director shall remove or modify service area restrictions whenever he determines that a change in state or federal regulatory requirements or a change in the service area or its wastewater facilities has increased or decreased the wastewater capacity available in that service area.

(d) In order to impose, remove or modify restrictions on a service area, the director shall prepare a written notice which briefly describes the service area affected, the wastewater facility which serves the service area, the terms of the restrictions and the date upon which the imposition, removal or modification of restrictions is to take effect. The written notice shall be filed with the city secretary on or before the date the imposition, removal or modification is to take effect. The city secretary shall post a copy of the notice in a public place for a period of ten days, promptly publish a copy in a newspaper of general circulation in the city and shall thereafter maintain the notice in a file which shall be open to inspection by the public. The change in restrictions shall take effect on the date shown in the notice.
(Code 1968, § 49-733; Ord. No. 83-650, § 1, 5-3-83)

Sec. 47-334. Terms and conditions of reservations.

(a) A wastewater capacity reservation shall represent a commitment of the city subject to the regulatory actions of the state and federal governments, the applicable rules and regulations of the city and the terms and conditions contained in this article and in the wastewater capacity reservation itself, to permanently reserve capacity in wastewater facilities to serve a proposed development so that utility service will be available upon completion of the buildings or other structures contained in the proposed development. A wastewater capacity reservation is applicable only to the tracts, lots or subdivisions listed therein unless a transfer is approved as provided in section 47-335. A wastewater capacity reservation which is issued on the basis of an application which contains materially false information shall be void.

(b) A temporary reservation shall expire on its stated expiration date and may, upon application in writing to the director, be converted on or before its expiration date to a wastewater capacity reservation by paying the capital recovery charge.

(c) A temporary reservation which was originally issued before April 2, 1983, shall, notwithstanding its stated expiration date, expire at 5 p.m. on April 2, 1984, and may, upon application in writing to the director, on or before its date of expiration, be converted to a restricted wastewater capacity reservation if, prior to the conversion of the temporary reservation, one or more of the following conditions have been met:

(1) All connection charges have been paid for the proposed development; or,

(2) The temporary reservation required the property owner to construct a public wastewater utility line extension and the extension has been constructed or is under construction; or,

(3) The temporary reservation required a contribution of funds or the construction by the property owner of particular wastewater facilities and the conveyance of such facilities to the city, the city council has approved the transaction if it required a contribution of funds, and the property owner has paid the funds to the city or conveyed the ownership of the particular wastewater facilities to the city.

(d) A restricted wastewater capacity reservation may, upon application in writing to the director, be converted to a wastewater capacity reservation by paying the capital recovery charge at the time of application.

(e) A property owner whose temporary reservation expires may make a new reservation application under the terms of this article.
(Code 1968, § 49-734; Ord. No. 83-650, § 1, 5-3-83)

Sec. 47-335. Transfers of reserved wastewater capacity.

(a) A wastewater capacity reservation may be transferred, in whole or in part, to another proposed development in the same service area. Any person desiring to transfer a wastewater capacity reservation must file with the director a written application for transfer and, if the transfer is approved, must pay the prescribed transfer fee. Upon receipt of a transfer application, the director shall determine whether the wastewater facilities in which capacity has been reserved are available to serve the proposed development to which the wastewater capacity reservation is to be transferred. If he determines the wastewater facilities are available, he shall so notify the applicant and, upon receipt of the transfer fee, approve the transfer. If he determines that the wastewater facilities are not available, he shall notify the applicant in writing.

(b) An existing customer of the system may transfer the wastewater capacity which has been allocated to that customer's connection in the same manner as a transfer of a wastewater capacity reservation if the customer:

(1) Removes any physical connection between his building or premises and the system; and

(2) Pays, in addition to the transfer fee, a sum equal to the capital recovery charge for issuance of a wastewater capacity reservation for the amount of wastewater capacity to be transferred.

(c) Whenever a transfer of wastewater capacity within a restricted service area reduces the amount of wastewater capacity available to the tract, lot or subdivision from which it is transferred to an amount less than the standard base level, the director shall, immediately upon approval of the transfer, file in the real property records of the county in which that tract, lot or subdivision is located a notice that all or a portion of the standard base level of wastewater capacity has been transferred and that service from the system at a level above the untransferred amount will not be available until such time as existing service area restrictions are removed or modified.

(d) Wastewater capacity reserved by district reservation may be transferred in whole or in part to other properties of the same owner in the annexed area, provided (i) the conditions in subsection (a) are met, (ii) the transfer is made within three years of abolition of the annexed conservation and reclamation district, (iii) the properties receiving the transfer have district reservations independent of the transfer and (iv) the application for a transfer is submitted with the request for the director's written verification of the validity of the district reservations for both the transferring and receiving properties. No transfers may be made for wastewater capacity reserved by district reservations subsequent to the director's verification of the validity of the district reservation for the properties.

(e) Wastewater capacity reserved by temporary reservations, contractual reservations, restricted wastewater capacity reservations, or reservations specially conditioned pursuant to section 47-332(b)(2) of this Code cannot be transferred to another property. In addition, wastewater capacity reservations for low and moderate cost housing under subsection 47-319(2), for which no impact fee has been paid, cannot be transferred to another property.
(Code 1968, § 49-735; Ord. No. 83-650, § 1, 5-3-83; Ord. No. 88-646, § 2, 4-27-88; Ord. No. 97-442, § 2, 4-23-97; Ord. No. 97-910, § 1, 7-23-97)

Sec. 47-336. Private interim wastewater treatment plants.

In the event a reservation application is or would be denied because existing wastewater facilities are not adequate to serve the proposed development or because the proposed development requires utility service at a level in excess of the level available under existing service area restrictions, the property owner may, subject to the provisions of this section, construct and operate a private interim wastewater treatment plant to serve the proposed development and receive a wastewater capacity reservation conditioned upon

the construction and operation of the private interim treatment plant, participation in the next accelerated project in the same service area and payment of the applicable capital recovery charges at the time of subscribing to the accelerated project or, where there is no accelerated project, at the time adequate system wastewater facilities become available. In order to construct and operate a private interim wastewater treatment plant, the property owner must:

(a) Make written application to the director.

(b) Apply for and obtain waste discharge permits required by state and federal law and provide copies of the permit applications to the director and the Houston Health Department on the date of filing or, where the date of filing was prior to the effective date, within 30 days after such effective date.

(c) Provide for a three hundred-foot buffer zone between the treatment plant and adjoining land uses or provide for complete enclosure of the treatment plant within a building with odor control facilities for the exhaust air from the building.

(d) Provide for the discharge from the treatment plant directly into, or conveyed through a private conduit into, an open natural river, bayou or creek or open constructed storm drainage facilities.

(e) Secure a franchise from the city permitting the operation of a private utility line within designated public rights-of-way if any such lines are necessary to the operation of the treatment plant.

(f) If the use of public utility easements is necessary in order to provide service to the proposed development, enter into a waste treatment service contract with the city in which contract the director, in consultation with the Houston Health Department, may specify operating criteria.

(g) Obtain approvals for the treatment plant design from the Texas Department of State Health Servives and the director.

(h) Agree that, in the event that an accelerated project is proposed for the construction or expansion of the system's wastewater facilities which, when completed or expanded, would be adequate to serve the proposed development, the property owner will subscribe to that accelerated project in an amount adequate to acquire sufficient wastewater capacity in the system to serve the proposed development.

(i) Agree that, within six months of the date upon which adequate system wastewater facilities become available, the property owner, or his successors or assigns, will make proper application to the city for connection to the system and will discontinue operation of the treatment plant.

(j) Agree to provide to the Houston Health Department a copy of any and all reports on construction or operation of the treatment plant, including specifically all reports submitted to state or federal authorities, to provide any special reports reasonably required in writing by the director of the city health department and to maintain the treatment plant open to inspection by health department officials at all times.

(k) If the plant is not to be operated pursuant to a waste treatment service contract with the city, post with the director a "private sewage treatment plant operator's bond," in the form prescribed by the director, in a penal sum equal to 150 percent of the estimated annual cost of operating the plant (including rental costs or an amount equivalent to the fair market rental value of the plant site and of any equipment or necessary facilities owned by the property owner) and executed by the property owner and a corporate surety company licensed to do business in the state and shown on the most recent edition of the United States Treasury Circular 570 as having an "underwriting limitation" of at least the penal sum of the bond.

(l) Agree to provide for off-site disposal of all sludge produced by the treatment plant in the manner provided by applicable regulations, statutes and ordinances.

(m) Agree to have the treatment plant checked by a licensed sewage treatment plant operator at least once a day to insure that the plant is operating properly.

(Code 1968, § 49-736; Ord. No. 83-650, § 1, 5-3-83; Ord. No. 2015-820, §§ 34, 36, 8-26-2015)

Sec. 47-337. Review board.

There is hereby created and established a wastewater capacity reservation review board to consider appeals of certain decisions of the director under this article.

(a) The board shall consist of five members, three of whom shall be appointed by the mayor and confirmed by the city council and two of whom shall be appointed by the city council. Each member shall be appointed to one of five numbered positions and shall hold the qualifications and serve the two-year term prescribed for that position. The board shall select its own chairman.

(b) The terms of office for Positions 1, 3 and 5 shall expire on March 1st of odd-numbered years and the terms of office for Positions 2 and 4 shall expire on March 1st of even-numbered years. A member whose term has expired shall continue to serve until a successor is appointed and confirmed.

(c) The persons appointed to Positions 1 and 4 shall be registered as professional engineers with the State of Texas and shall be actively engaged in the practice of civil engineering. The members holding Positions 1, 2 and 3 shall be appointed by the mayor, subject to confirmation by the city council, and the members holding Positions 4 and 5 shall be appointed by the city council. No employee of the city may serve on the board; provided, however, that the director, though not a member, shall have the right to receive notice of and attend all meetings of the board. Positions on the board which become vacant due to death, resignation or removal shall be filled in the manner provided for original appointments to that position and the person so appointed shall serve for the remainder of the unexpired term. Three members of the board shall constitute a quorum.

(d) The board shall adopt reasonable rules of procedure for the conduct of its business.

(e) The board shall meet at such times and at such public places as may be required for the conduct of its business. The members shall serve without compensation.

(Code 1968, § 49-737; Ord. No. 83-650, § 1, 5-3-83)

Sec. 47-338. Appeals.

(a) A property owner who has made proper application under the terms of this article and is dissatisfied with a decision of the director on the application concerning:

(1) The issuance or recognition of a reservation of wastewater capacity;

(2) The applicability, amount or time of payment of capital recovery charges;

(3) The conversion of one type of reservation of wastewater capacity into another type; or

(4) The transfer of reserved wastewater capacity from one tract to another;

may appeal to the board in accordance with the provisions of this section.

(b) In order to appeal to the board a property owner must, within 15 days after receiving written notice of the director's decision, pay the applicable fee and file with the director a notice of appeal containing the following:

(1) A clear reference to the decision from which the property owner wishes to appeal.

(2) A short statement of the grounds for the appeal.

(3) A specific description of the action the property owner desires the board to take.

(4) The signature of the property owner.

(c) The director shall forward the notice of appeal to the board. During the ten days immediately following receipt of the notice of appeal, the director shall be authorized to modify the

[The next page is 3319]

decision in question. If, pursuant to this authority, the director modifies his initial decision in such a manner as to grant to the property owner the relief requested, then in that event the board shall dismiss the appeal without action thereon.

(d) The board shall, upon receipt of a substantially complete notice of appeal, schedule a hearing on the matter and give reasonable notice of the time and location of the hearing. The hearing shall be held no earlier than ten days and no later than 40 days after receipt of the notice of appeal. A decision must be rendered within days after the hearing. The final decision of the board shall be in writing and shall either sustain the director's decision or grant all or a portion of the relief requested by the property owner.

(e) The board, in considering an appeal, may ascertain the relevant facts and may interpret the applicable provisions of this article, but may not grant exceptions to or variances from the provisions of this article except as provided in (f), below.

(f) (1) The board may order the director to issue a wastewater capacity reservation or restricted wastewater capacity reservation for a proposed development which would not otherwise qualify under the provision of this article, if the applicant files an application with the board prior to October 24, 1985, and can demonstrate that, prior to the effective date:

a. City officials represented to the applicant or his agents that wastewater capacity was reserved to serve the applicant's proposed development or that certain expenditures by the applicant would be credited against, or accepted in lieu of, any applicable charges for connecting to the system;

b. The applicant, in reasonable reliance upon such representation, incurred substantial expense in going forward with the proposed development and did not apply for issuance or renewal of a utility commitment letter for which the applicant's proposed development would have qualified; and

c. In view of the nature and extent of the city officials' representation and the actions taken by the property owner in reliance thereon it would be inequitable to require the property owner to comply with the provisions of this article.

(2) A reservation of wastewater capacity issued under authority of this subsection (f) may be conditioned in accordance with the circumstances under which it is issued and may provide for:

a. Restrictions against transfer;

b. Reduction or elimination of the capital recovery charge;

c. A change in the time at which the capital recovery charge is payable;

d. An amount of reserved wastewater capacity less than that applied for;

e. Such other restrictions, conditions or exceptions as may be appropriate.

(3) In no event shall the board order the director to issue a wastewater capacity reservation or restricted wastewater capacity reservation in wastewater facilities which are already fully loaded or reserved. In such circumstances the board may order the director to grant the appellant priority in the reservation of capacity in any new or expanded wastewater facilities which may be constructed in the future.

(g) The time limits prescribed for actions of the board are directory in nature and the board's failure to act within such limits shall not effect the validity of its actions. The time limit prescribed for the filing of a notice of appeal and

payment of the applicable fee is mandatory and the failure of the property owner to act within such time limits shall extinguish the right of appeal. All notices required or authorized by this article must be in writing and must either be hand delivered or mailed by United States mail. A notice delivered by mail shall be deemed to be received on the earlier of the date it is actually received, or the third day following the date upon which the notice was deposited, properly addressed and with proper postage attached, in custody of the U.S. Postal Service.
(Code 1968, § 49-738; Ord. No. 83-650, § 1, 5-3-83; Ord. No. 84-1673, § 4, 10-24-84)

Sec. 47-339. Fees.

(a) The fee for processing a reservation application shall be the lesser of:

(1) The fee determined according to the city fee schedule; or

(2) The maximum application processing fee stated in the city fee schedule.

The city and all of its departments and divisions shall be exempt from the processing fee.

(b) The fees for transfer of reserved wastewater capacity to a tract, lot or subdivision for the first tract from which capacity is transferred and for each additional tract (included in the same transfer application) from which capacity is transferred is stated for this provision in the city fee schedule.

(c) The fee for transfer of a wastewater capacity reservation from one person to another without changing the proposed development is stated for this provision in the city fee schedule.

(d) The fee for filing an appeal with the wastewater capacity reservation board is stated for this provision in the city fee schedule.

(e) All fees collected under this section shall be deposited to the same accounts as are revenues received from the sanitary sewer service charges imposed by this chapter and shall be used to pay the administrative costs incurred in processing applications.
(Code 1968, § 49-739; Ord. No. 83-650, § 1, 5-3-83; Ord. No. 84-1673, § 5, 10-24-84; Ord. No. 2011-1168, § 13, 12-14-2011)

Secs. 47-340—47-350. Reserved.

DIVISION 5. ACCELERATED PROJECTS

Sec. 47-351. Accelerated projects authorized.

(a) In areas served by the system where existing wastewater capacity is insufficient to meet current demand for additional service and such demand is sufficient to support the immediate acquisition or construction of improvements to increase the wastewater capacity of the system, the director is authorized and directed to define accelerated projects, and to provide for the financing thereof by soliciting prepaid capital recovery charges.

(b) In each such case the director shall determine, and publish a notice which states:

(1) A description of the area which will be served by the accelerated project.

(2) The total estimated cost of the accelerated project.

(3) The estimated minimum amount (the "city's minimum share"), in dollars, of the total cost of the accelerated project which will be financed by funds other than those received as prepaid capital recovery charges.

(4) The minimum amount (the "minimum subscription amount"), in dollars, of subscriptions which must be received before the city will commit to proceed with the accelerated project (such minimum amount shall not exceed a sum equal to 85 percent of the excess of the total estimated cost of the accelerated project over the city's minimum share).

(5) The maximum amount, in dollars, of subscriptions which will be accepted with regard to the accelerated project.

(6) The time period during which subscriptions will be accepted for the accelerated project (the "subscription period").

(7) The estimated date on which the accelerated project will become operational.

(Code 1968, § 49-751; Ord. No. 83-650, § 1, 5-3-83)

Sec. 47-352. Subscriptions to accelerated projects.

(a) In order to subscribe to an accelerated project a subscriber must file a reservation application for a proposed development located within the service area of the facilities constituting the accelerated project and, if the application is approved, must, within the time period prescribed, pay or provide

security for the payment of the capital recovery charges applicable to the proposed development. The director shall accept subscriptions on a first-come first-served basis in accordance with the date upon which each reservation application is received; provided, however, that subscriptions received for proposed developments which are currently served by private interim wastewater treatment plants will be given precedence over all other subscriptions regardless of the date of application. The director shall accept reservation applications which do not specify a proposed development. The aggregate total of such non-site specific reservation applications may not exceed 15 percent of the minimum subscription amount for the accelerated project.

(b) At the close of the subscription period, the director shall calculate the total dollar amount of subscriptions received and:

(1) If such amount equals or exceeds the minimum subscription amount; or

(2) If the director otherwise determines that the accelerated project should proceed and receives the approval of the city council;

then the director shall issue to each subscriber a wastewater capacity reservation in the amount of wastewater capacity for which application was made, conditioned upon the completion and acceptance of the accelerated project (or conditioned upon the occurrence of such other event in connection with the accelerated project as the director determines will reasonably assure that adequate facilities will be available prior to the initiation of utility service to the proposed developments).

(c) If, at the close of the subscription period, the director determines that less than the minimum subscription amount was received from subscribers and that the accelerated project should be cancelled, then the director shall notify each subscriber to the accelerated project of such cancellation and shall, within 60 days of the close of the subscription period, refund to each subscriber the amount of the capital recovery charges that subscriber has paid, plus interest earned by the city on such fund, if any, or release any security provided by that subscriber in connection with the subscription.

(d) The director shall accept as security for the payment of capital recovery charges, under this section, letters of credit which are:

(1) In the form or forms prescribed by the city attorney;

(2) Issued by a financial institution which meets the qualifications prescribed by the director of the department of finance; and

(3) For the full amount of the applicable capital recovery charges.

In addition to letters of credit, the director may accept other forms of security for the payment of capital recovery charges under this section if the city determines that such forms of security will adequately protect the interests of the city and if such forms of security are specifically identified in the published notice for the accelerated project for which they are to be accepted.

(Code 1968, § 49-752; Ord. No. 83-650, § 1, 5-3-83; Ord. No. 08-52, § 93, 1-16-08, eff. 1-26-08)

Sec. 47-353. Establishment of project priorities.

Before proceeding with the design and initiation of accelerated projects, the director shall review the current status of the system and its individual facilities, formulate a recommended priority list to be followed in the selection of

accelerated projects and submit that list to city council for its approval. In formulating the list the director shall consider:

(a) The current unfulfilled demand for service in each area.

(b) The amenability of existing facilities to expansion and the feasibility of constructing or otherwise acquiring new facilities.

(c) The time required to prepare necessary engineering plans.

(d) The availability of funds to finance the portion of the project which must be financed by revenue bonds, state or federal grant funds or other available funds.

(Code 1968, § 49-753; Ord. No. 83-650, § 1, 5-3-83)

Secs. 47-354—47-380. Reserved.

ARTICLE X. WATER IMPACT FEES

DIVISION 1. GENERAL PROVISIONS

Sec. 47-381. Purpose.

This article is intended to ensure the provision of adequate public facilities to serve new development in the city by requiring each such development to pay its pro rata share of the costs of water capital improvements necessitated by and attributable to such new development.

(Ord. No. 90-676, § 1, 6-6-90)

Sec. 47-382. Authority.

This article is adopted pursuant to chapter 395 of the Texas Local Government Code and pursuant to the Houston City Charter. The provisions of this article shall not be construed to limit the power of the city to utilize other methods authorized under state law or pursuant to other city powers to accomplish the purposes set forth herein, either in substitution for or in conjunction with this article.

(Ord. No. 90-676, § 1, 6-6-90)

Sec. 47-383. Definitions.

As used in this article, the following terms and phrases shall have the following meanings:

(1) *Assessment* means the determination of the amount of the maximum water impact fee per service unit that may be imposed on new development pursuant to this article, which determination occurs at the time specified in section 47-391.

(2) *Building permit* means:

a. With respect to buildings or premises within the corporate limits of the city, the general permit required by the Construction Code; or

b. With respect to buildings or premises outside the corporate limits of the city or for which a general permit under the Construction Code is not required, a plumbing permit under the Construction Code or under section 47-14 of this chapter.

(3) *City-constructed water facility* means a water facility paid for wholly or partially by the city, a water facility that has been acquired by the city upon assumption of obligations or debts for the construction costs thereof or by operation of law, a water facility paid for by any other person, firm, corporation or governmental subdivision that has been purchased or otherwise acquired by the city and water facilities paid for partly by the city and partly by others when connection thereto is to be made from property to be served thereby and the owners of such property did not contribute their proportionate share of the cost for the intended land use.

(4) *Credit* means the amount determined under this article by which a water impact fee is reduced as the result of a payment of a connection charge for city-constructed water facilities imposed pursuant city ordinances referenced in section 47-42 or payment of equivalent charges to a district providing such facilities within the city's water benefit area, prior to June 20, 1990. Credit shall not include payment of

a connection fee prior to June 20, 1990, or a payment of charges that are imposed to reimburse a property owner for the cost of extending a water main.

(5) *Reserved.*

(6) *Final plat recordation* means the filing of the final plat with the county clerk in the county in which the property platted is located, following compliance with all conditions for plat approval pursuant to chapter 42 of this Code.

(7) *Improved lot* means a lot on a tract of land on which there is located a complete permanent building capable of being occupied as a dwelling place or place of business.

(8) *Land use equivalency table* means the table approved by city council converting utilization of water capacity required by various land uses to numbers of service units.

(9) *New development* means a project involving the construction, reconstruction, redevelopment, conversion, structural alteration, relocation or enlargement of any structure; or any use or extension of the use of land; any of which has the effect of increasing the requirement for water capital improvements, measured by the number of service units to be generated by such activity, and that requires either the approval of a plat pursuant to the city's subdivision regulations, the issuance of a building permit, or connection to the city's water system and which has not been exempted from compliance with these regulations by provisions herein.

(10) *Offset* means the amount of the reduction of a water impact fee, determined under this article or pursuant to administrative guidelines, that is equal to the value of a water facility or portion thereof included in the water capital improvements plan, that is constructed or financed by a property owner.

(11) *Plat* means the plan or map for the subdivision to be filed for record with the county clerk in the county in which the property is located. Plat includes replat, but excludes development plat.

(12) *Property owner* means the owner in fee of a tract or parcel of land upon which new development is to be located, or his authorized representative.

(13) *Service unit* means a standardized measure of consumption of treated water system capacity which is equal to the average flow rate for a single-family dwelling unit in the Houston area.

(14) *Water benefit area* means the area within the city and the city's extraterritorial jurisdiction within which water impact fees for water capital improvements will be collected for new development occurring within such area and within which fees so collected will be expended for those improvements identified in the water capital improvements plan applicable to the benefit area.

(15) *Water capital improvement* means a water facility with a life expectancy of three or more years, to be owned or operated by or on behalf of the city.

(16) *Water capital improvements plan* means the plan adopted by city council, as may be amended from time to time, that identifies the water facilities and their associated costs which are necessitated by and which are attributable to new development, for a period not to exceed ten years, and which are to be financed in whole or in part through the imposition of water impact fees pursuant to this article.

(17) *Water connection* means authorization to connect a new development to the city's treated water system.

(18) *Water facility* means a facility designed or utilized for the purpose of producing, collecting, supplying, storing, pumping or conveying water, including an existing facility, the capacity of which has been

expanded to service new development. "Water facility" includes land, easements or structures and all appurtenances associated with such facilities. "Water facility" excludes those water lines or mains or portions thereof that are constructed by property owners, the costs of which are reimbursed from charges paid by subsequent users of the facilities.

(19) *Water impact fee* means a fee established by the city council for water facilities imposed on new development pursuant to this article in order to generate revenue to fund or recoup the costs of capital improvements necessitated by and attributable to such new development. Water impact fees do not include requirements for the dedication of rights-of-way or easements for such facilities, or for the construction of such improvements. Water impact fees also do not include payment of connection charges by persons receiving service from a water main, which charges are imposed to reimburse a property owner for the costs of extending such main.

(Ord. No. 90-676, § 1, 6-6-90; Ord. No. 93-514, § 128, 5-5-93; Ord. No. 02-399, § 93, 5-15-02)

Sec. 47-384. Water impact fees, in general.

(a) Except as otherwise provided herein, each new development within the city's water benefit area shall pay a water impact fee for water facilities necessitated by and attributable to that development as provided in division 2 of this article. Water impact fees shall be assessed against and collected from new development on the basis of service units. The water benefit area is established by the city council and may be amended from time to time.

(b) The maximum water impact fee per service unit that is assessed against new developments is established for this provision in the city fee schedule, per service unit, and the water impact fee that shall be collected from new development is is stated for this provision in the city fee schedule, per service unit. On July 1 of each year beginning in 2011, the water impact fee shall be adjusted by an amount equal to the percentage increase (if any) in the designated index for the preceding calendar year multiplied by the sum of water impact fees and wastewater impact fees, as established pursuant to section 47-316 of this Code, for the then-current year until the water impact fee equals or exceeds wastewater impact fee in dollar value. In each year after the water impact fee equals or exceeds wastewater impact fee in dollar value, water impact fees shall be adjusted by an amount equal to the percentage increase (if any) in the designated index for the preceding calendar year multiplied by the water impact fee only for the then current year, but shall never exceed the maximum water impact fee established herein. The director shall annually calculate the effective water impact fee on or before June 1 of each year, and make it available in his office upon request for public inspection.

For purposes of this subsection, the term designated index shall mean the United States Producers Price Index for All Commodities (1982=100), as published by the Bureau of Labor Statistics, U.S. Department of Labor. If such index is subject to adjustment later, then the city shall use the adjusted index, together with any correlation factor necessary to relate the later adjusted index to the earlier index, as published by the entity publishing the index, or if such publication is discontinued, the designated index shall then refer to comparable statistics on changes in the cost of living for urban consumers as the same may be computed and published by an agency of the United States or by a responsible financial periodical of recognized authority, which agency or periodical shall be selected by the city.

(c) This city council may amend water impact fees to be collected from new developments without amending the water capital improvements plan adopted herein, as long as the impact fees to be collected do not exceed the maximum water impact fees per service unit that may be assessed for such facilities.

(d) Effective May 19, 2021, the provisions of subsection (b) of this section, establishing requirements for the calculation and adjustment of the water impact fee related to the designated index, as defined therein, are hereby suspended. No later than June 1, 2026, the director shall calculate

the water impact fee per service unit that will take effect on July 1, 2026. The annual adjustment of the water impact fee shall resume, and water impact fees shall be adjusted, effective July 1, 2026, pursuant to the methodology established in subsection (b) of this section.
(Ord. No. 90-676, § 1, 6-6-90; Ord. No. 00-497, § 5, 6-14-00; Ord. No. 02-517, § 3, 6-26-02; Ord. No. 05-958, § 2, 8-24-05; Ord. No. 2010-482, § 5, 6-30-2010; Ord. No. 2010-583, § 4, 7-28-2010; Ord. No. 2011-1168, § 13, 12-14-2011; Ord. No. 2021-388, § 6, 5-19-2021)

Editor's note—Ord. No. 2021-512, §§ 2(a)—(d), adopted June 16, 2021, amended Ord. No. 2021-388 to correct inadvertent errors in spelling, legal citations, cross-references and column headers.

Sec. 47-385. Replacement of existing charges.

On and after June 20, 1990, the provisions of this article relating to the assessment and collec-

tion of water impact fees, replace and supersede those provisions for payment of connection charges for city-constructed water facilities which had been established pursuant to city ordinances referenced in section 47-42.
(Ord. No. 90-676, § 1, 6-6-90)

Sec. 47-386. Connection of existing development.

If any owner of existing development within the water benefit area requests to be connected to the city's water system, and the department agrees to extend a water main to serve the development, the property owner shall pay a fee equivalent to that prescribed by and computed according to section 47-393 prior to connection to such system; provided, however, that an existing development so connected is entitled to a credit against the fee equal to the charge for one service unit.
(Ord. No. 90-676, § 1, 6-6-90)

Secs. 47-387—47-390. Reserved.

DIVISION 2. ASSESSMENT, COLLECTION AND COMPUTATION OF WATER IMPACT FEES

Sec. 47-391. Assessment of fees.

Assessment of water impact fees against new development shall be based on the maximum water impact fee per service unit, established by the city council. The time of assessment depends upon the time the development was platted pursuant to the city's subdivision regulations. Assessment shall take place as follows:

(1) For new developments that require platting prior to development and that have not received final plat recordation prior to June 20, 1990, assessment shall occur at the time of recordation of the final plat.

(2) For all other new development, assessment shall occur at the time of application for a building permit or at the time of water connection, whichever occurs first.

(Ord. No. 90-676, § 1, 6-6-90)

Sec. 47-392. Time of fee collection.

Water impact fees shall be collected at the time of issuance of building permits. In the event that a building permit is not required prior to development, collection shall be at the time of water connection.
(Ord. No. 90-676, § 1, 6-6-90)

Sec. 47-393. Computation of fees.

The department shall compute the water impact fees in the following manner:

(1) Except as otherwise provided in this section, the amount of the water impact fee due shall be determined by multiplying the number of service units generated by the new development by the water impact fee per service unit then in effect.

(2) Development of low and moderate cost single family housing is exempt from payment of impact fees. In order to qualify for this exemption, the house must be a single family residence located within city limits having an initial purchase price as certified by the property owner that does not exceed the latest available 12-month listing for median price single family housing in the city as published by the Real Estate Center at Texas A&M University. In the event the initial purchase price exceeds this amount, the property owner making the certification shall pay to the city the full amount of the impact fee as calculated under this section. If publication of the median price for single family housing is discontinued by the Real Estate Center at the Texas A & M University, the mayor is authorized to select another publication that lists the median price of single family houses in the city.

(3) In the event that the new development involves the razing or removing of existing structures, the water capacity utilized by such use or structure shall be converted to service units using the land use equivalency table. If the water service required for the new development exceeds such reserved capacity, the service units equivalent to the previously utilized ca-

pacity shall be subtracted from the total number of service units attributable to the new development, and the amount of the water impact fee due shall be the number of additional service units multiplied by the water impact fee per service unit then in effect.

(4) The amount of each water impact fee due shall be reduced by any allowable credits in the manner provided in section 47-394 of this Code.

(5) The amount of each water impact fee due for a new development shall not exceed an amount computed by multiplying the maximum water impact fee per service unit in effect at the time the new development was assessed by the number of service units generated by the development.

(6) If the property owner proposes to increase the number of service units for development following payment of the water impact fee, the additional water impact fees collected for such new service units shall be determined in the same manner as provided in this section.

(Ord. No. 90-676, § 1, 6-6-90; Ord. No. 90-717, § 1, 6-20-90; Ord. No. 97-442, § 3, 4-23-97)

Sec. 47-394. Determination of service units.

The number of service units attributable to a new development shall be determined by using the land use equivalency table established by the city council, which may be amended from time to time.

(Ord. No. 90-676, § 1, 6-6-90; Ord. No. 90-717, § 1, 6-20-90)

Sec. 47-395. Credits and/or offsets against water impact fees.

(a) A property owner who has paid a connection charge pursuant to city ordinances referenced in section 47-42 prior to June 20, 1990 for a city-constructed water facility, or who has paid an equivalent charge for a facility included in the water capital improvements plan to a district created under authority of article III, section 52, or article XVI, section 59 of the Texas Constitution, for which no reimbursement was received, may reduce the water impact fee due for the lot or tract for which the fee was paid by a like amount.

(b) A property owner who constructs or finances a water facility included in the water capital improvements plan pursuant to a development agreement approved by the city on or after June 20, 1990 may offset the value of such improvement against the water impact fee due from the development. The offset shall be associated with the plat of the property that is to be served by the water facility constructed or financed. The amount of the offset shall be determined pursuant to rules established in this section and administrative guidelines promulgated by the director. The city may also agree to offset the value of a water facility to be constructed or financed by the property owner, which has not been included in the water capital improvements plan, against water impact fees if it is reasonably anticipated that the facility shall be included within the next revision to such plan. In no event shall the offset allowable under this subsection exceed the amount of the water impact fees due, and no property owner shall be entitled to reimbursement for such excess amount unless the city otherwise agrees.

(c) The development agreement required by subsection (b) may provide for participation by the city in the costs of oversizing the water facility to be constructed or financed by the property owner, or may provide for reimbursement according to the terms of the agreement. The amount of any offset shall be reduced by the amount of the city's participation, or provision for reimbursement.

(d) A credit or offset associated with a plat shall be applied against a water impact fee due at the time that the first fee for the new development is collected, and thereafter to all subsequently collected fees, until the credit or offset is exhausted.

(Ord. No. 90-676, § 1, 6-6-90; Ord. No. 90-717, § 1, 6-20-90)

Secs. 47-396—47-400. Reserved.

DIVISION 3. ADMINISTRATION

Sec. 47-401. Accounting.

(a) All water impact fees collected within the water benefit area shall be deposited in a dedicated fund to which interest is allocated. All such amounts, together with all interest earned thereon, shall be used solely for the purposes set forth in subsection (b).

(b) The water impact fees collected pursuant to this article shall be used to finance or recoup the costs of any capital improvements identified in the water capital improvements plan for the water benefit area, including but not limited to the construction contract price, surveying and engineering fees, land acquisition costs (including land purchases, court awards and costs, attorneys' fees, and expert witness fees) and fees paid to an independent qualified engineer or financial consultant preparing or updating the water capital improvements plan. Water impact fees may also be used to pay the principal sum and interest and other finance costs on bonds, notes or other obligations issued by or on behalf of the city to finance such capital improvements.

(c) Disbursement of funds shall be authorized by the department at such times as are reasonably necessary to carry out the purposes intended by this article; provided, however, that funds shall be expended within a reasonable period of time, but not to exceed then ten years from the date water impact fees are deposited in the fund.

(d) An owner of property for which a water impact fee has been paid is entitled to a refund for all or a portion of the fee in the following circumstances:

(1) Upon application, any water impact fee or portion thereof collected pursuant to this article, that has not been expended within the water benefit area within ten years from the date of payment, shall be refunded to the record owner of the property for which the water impact fee was paid together with interest calculated from the date of collection to the date of refund at the statutory rate as set forth in article 5069-1.03, of the Texas Revised Civil Statutes Annotated, or its successor statute. A water impact fee shall be considered expended on a first-in, first-out basis. A water impact fee shall also be considered expended if the total expenditure for water facilities included in the water capital improvements plan, as may be amended from time to time, within the water benefit area within ten years following the date of payment, exceeds the water impact fees collected within the benefit area during such period.

(2) If a refund is due pursuant to paragraph (1), the department shall divide the difference between the amount of expenditures and the amount of the fees collected by the total number of service units for which water impact fees have been paid within the benefit area for the period to determine the refund due per service unit. The refund to the owner shall be calculated by:

a. Multiplying the refund due per service unit by the number of service units of the development for which the fee was paid; and

b. Determining interest due based on the amount calculated under subsection (d)(2)a.

(3) Upon completion of all the water facilities identified in the water capital improvements plan for the water benefit area, the department shall recalculate the maximum water impact fee per service unit using the actual costs for the water facilities. If the maximum water impact fee per service unit based upon actual cost is less than the water impact fee per service unit paid, the city shall refund the difference if such difference exceeds the water impact fee paid by more than ten percent. If the difference is less than ten percent, no refund shall be due. Refund to the record owner shall be calculated by:

a. Multiplying such difference by the number of service units of the development for which the water impact fee was paid; and

b. Determining interest due based on the amount calculated under subsection (d)(3)a.

(e) The department shall establish adequate financial and accounting controls to ensure that water impact fees disbursed from the fund are utilized solely for the purposes authorized. The department shall maintain and keep financial records for water impact fees, that shall show the source and disbursement of all fees collected in or expended within the water benefit area. The records of the fund into which water impact fees are deposited shall be open for public inspection and copying during ordinary business hours.

(f) Nothing in this article shall prevent the city from paying all or part of the water impact fees due for a new development pursuant to criteria adopted by the city council.
(Ord. No. 90-676, § 1, 6-6-90)

Sec. 47-402. Impact fee appeals.

(a) The property owner or applicant for a new development may appeal the following administrative decisions to an administrative hearing official appointed by the director:

(1) The applicability of a water impact fee to the development;

(2) The amount of the water impact fee due;

(3) Classification of the development under the land use equivalency table;

(4) The applicability of the credit or an offset to the development;

(5) The amount of a credit or of an offset; or

(6) The amount of a refund due, if any.

(b) The burden of proof shall be upon the applicant to demonstrate that the administrative decision was not made in accordance with this article or applicable state law.

(c) The applicant shall file a written notice of appeal with the director within 30 days following the date of the decision from which an appeal is made. If the notice of appeal is accompanied by a payment or other sufficient security satisfactory to the department in an amount equal to the original determination of the water impact fee due, the development application may be processed while the appeal is pending. Each appeal must include the processing fee stated for this provision in the city fee schedule.
(Ord. No. 90-676, § 1, 6-6-90; Ord. No. 2011-1168, § 13, 12-14-2011)

Sec. 47-403. Relief procedures.

(a) Any person who has paid a water impact fee, or an owner of land for which a water impact fee has been paid, may petition the city council to determine whether any duty required by this article or by chapter 395 of the Texas Local Government Code has not been performed within the time so prescribed. The petition shall be in writing and shall state the nature of the unperformed duties and request that the duties be performed within 60 days of the request. If the city council determines that the duty is required pursuant to this article and is late in being performed, it shall cause the duty to commence within 60 days of the date of the request and to continue until completion. This subsection shall not apply to matters subject to appeal pursuant to section 47-402.

(b) The city council may grant a variance from any requirement of this article, upon written request by the property owner subject to the article, following a public hearing, and only upon finding that a strict application of such requirement would, when regarded as a whole, result in confiscation of the property.

(c) If the city council grants a variance to the amount of the water impact fee due for a new development under this section, it shall cause to be appropriated from other city funds the amount of the reduction in the water impact fee to the fund for the water benefit area in which the property is located.
(Ord. No. 90-676, § 1, 6-6-90)

Secs. 47-404—47-410. Reserved.

ARTICLE XI. TRANSPORTATION AND TREATMENT OF CERTAIN WASTES

DIVISION 1. GENERALLY

Sec. 47-411. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Applicant means a person applying for a permit required by this article.

Biological pretreatment service means the application of any additive or enzyme, including approved bioremediation media, or the use of any other biological means to digest waste in a grit trap/lint trap or grease trap that discharges into a public sewer system within the city.

Biological pretreatment service permit means a current and valid permit issued pursuant to this article authorizing the performance of biological pretreatment service.

Bioremediation media means enzymes or microbes injected into an interceptor for the purpose of biodegrading fat, oil, and grease. This term does not include any additives that will saponify or emulsify fat, oil and grease.

City official means the director of public health or the Director of Houston Public Works or their designees.

City-regulated waste means liquid, semi-liquid and solid wastes and wastewater removed from septic tanks used by single-family or multiple residential units, institutions or commercial establishments that primarily generate waste of a type associated with domestic use. It includes oily water, FOG, grease trap waste, sewage sludge, and portable toilet waste; as well as any materials collected in a septic tank, grit trap, lint trap, retention pond, utility service vault or any similar device, which materials result from or are incidental to any process of industrial, manufacturing, institutional or commercial operations including, but not limited to, mobile or stationary car or truck washing, pavement washing, environmental testing facilities and commercial laundries or laundromats.

Container means any portable device in which material is stored, transported, processed, disposed of or otherwise handled.

Department or *HHD* means the Houston Health Department.

Discharge or *indirect discharge* means the introduction of pollutants into the sanitary sewer system.

Disposal means the act of disposing.

Disposal site means a state-permitted or state-registered fixed facility to which waste is delivered for disposal.

Dispose means deposit, release, inject, dump, spill, leak or place any waste (whether or not contained) into or on any land or water so that the waste or any constituent thereof may enter the environment, including disposal into the air or discharge into any waters, including groundwater or sanitary or storm sewer systems.

Disposer means a person who operates a disposal site.

Drying bed means a structure intended for the drying of grit trap waste.

EPA means the United States Environmental Protection Agency.

Fats, oils and greases (FOG) means petroleum-based or mineral-based oils and greases or animal and vegetable-based fats. All are sometimes referred to herein as "grease" or "greases." These substances are detectable and measurable using analytical procedures established in 40 CFR 136, as may be amended from time to time.

Food service establishment has the meaning ascribed in section 20-18 of this Code, but shall not include mobile food units.

Generator means any person whose activities or process generate city-regulated waste within the city or who stores city-regulated waste within the city.

Generator permit means a current and valid permit issued pursuant to this article.

Generator permit number means the unique identification number on the generator permit.

Generator registration certificate means a current and valid certificate issued to a food service establishment pursuant to division 2 of this article.

Grease trap waste means that material accumulated in an interceptor in the sewer system at a food service establishment or any operation requiring a food dealer's permit pursuant to section 20-36 of this Code.

Grit trap/lint trap waste means waste collected in an interceptor at any maintenance and repair shop, automobile service station, car wash, laundry, beauty salon or other similar establishment.

Incompatible wastes means wastes that have different processing, storage or disposal requirements, or wastes that if mixed may cause a dangerous chemical or physical reaction.

Interceptor means a device designed to use differences in specific gravities to separate and retain FOG and settleable solids prior to the wastewater entering the sanitary sewer system. Interceptors may also be referred to as "grease traps".

Interference means a discharge that alone or in conjunction with a discharge or discharges from other sources inhibits or disrupts the sanitary sewer system, its treatment processes or operations or its sludge processes, use or disposal, or is a cause of a violation of any city TPDES permit, as defined in Article XII.

Lift station means a plumbing device used for pumping wastewater or sewage from a lower to higher elevation, particularly where the elevation of the source is not sufficient for gravity flow.

Manifest means a form approved by the health officer to document the collection, transportation and disposal of city-regulated waste.

Permit year means a permit period which runs from the 1st of February through the 31st of January of the following year.

Registered vehicle means a vehicle that is in compliance with all the requirements of division 4 of this article.

Sample well means a physical connection on a generator's sewer that is constructed to allow access for sampling and inspection of its interceptor.

Sanitary sewer system means the city's devices and systems used in the storage, recycling, and reclamation of municipal sewage or industrial wastes of a liquid or semi-liquid nature, including all sewers, pipes and other conveyances that convey wastewater to a sewage treatment plant. For purposes of this article, the terms public sewer system, *"sewer system"* and *"POTW"* as defined in Article XII, may be construed to have the same meaning as *"sanitary sewer system"*.

Sewage sludge means the residual material generated from the treatment of wastewater by a sewage treatment plant or pretreatment plant or material resulting from the cleaning of sanitary sewer lines.

Site means a contiguous tract or parcel of land under common ownership.

Spill means the loss or unauthorized release of waste.

Temporary transporter permit means a one month permit issued pursuant to division 3 of this article.

Transporter (primary or secondary) means a person who accepts waste that originates from a location within the city and who uses public rights-of-way for transportation of the waste. A generator or disposer who transfers its own waste over city streets for off-site disposal is also a transporter.

Transporter's manager means the individual having the primary responsibility for compliance with this article as identified on the transporter permit application form.

Transporter permit means a permit other than a temporary transporter permit issued pursuant to division 3 of this article.

Vehicle registration certificate means a certificate issued pursuant to division 4 of this article.

Waste means any type of city-regulated waste or any mixture thereof.

Waste load means the volume of waste that is transported from any specific site.

(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 04-1089, § 2, 10-20-04; Ord. No. 07-544, §§ 2—4, 5-9-07; Ord. No. 08-1229, §§ 2—4, 12-30-08; Ord. No. 2015-820, § 31, 8-26-2015; Ord. No. 2018-11, § 49, 1-10-2018; Ord. No. 2020-1024, §§ 3—5, 12-2-2020)

Sec. 47-412. Scope; interceptor or lift station requirement.

The purpose of this article is to protect the citizens and the environment from the potential hazard that may result from unauthorized waste releases and to deter illegal introduction of pollutants into the sanitary sewer system, storm sewers, street rights-of-way and other unauthorized places. It is not the intent of this article to address transportation of hazardous material in commerce or to regulate hazardous wastes that are subject to federal manifest requirements.

(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, § 5, 5-9-07; Ord. No. 2020-1024, § 6, 12-2-2020)

Sec. 47-413. Defenses.

(a) It is a defense to prosecution under this article that:

(1) The act or action complained of was the subject of regulation by the United States Secretary of Transportation under Chapter 51 of Title 49 of the United States Code; or

(2) The act or action complained of related to the generation, transportation, or disposal of waste that was subject to federal manifest requirements.

(b) With respect to sewage sludge, it is an affirmative defense to prosecution under this article that the sewage sludge meets the requirements of state regulations for land application for beneficial use.

(Ord. No. 07-544, § 6, 5-9-07)

Sec. 47-414. Mixing of wastes prohibited.

(a) No person shall mix incompatible wastes in the same container. It is a defense to prosecution under this section that a transporter mixed wastes as authorized in section 47-544 of this Code.

(b) No city-regulated waste may be directly disposed into the sanitary sewer.

(c) A violation of subsection (b) of this section shall be punishable by a fine of not more than $4,000.00.

(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, §§ 6, 7, 5-9-07; Ord. No. 08-1229, § 5, 12-30-08; Ord. No. 2021-431, § 12, 5-26-2021)

Note—Formerly § 47-413.

Sec. 47-415. Penalty.

Except as may otherwise be provided, whenever in this article an act is prohibited or is made or declared to be unlawful or an offense or misdemeanor, or whenever in this article the doing of anything or act is required or the failure to do anything or act is prohibited, the violation of the provision shall be and constitute a misdemeanor punishable, upon conviction, by a fine of not less than $250.00 nor more than $2,000.00. Each day that any violation continues shall constitute and be punishable as a separate offense. Any offense under this article that also constitutes a violation of any state penal law shall be punishable as provided in the applicable state law.

(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, §§ 6, 8, 5-9-07)

Note—Formerly § 47-414.

Sec. 47-416. Enforcement; legal actions.

(a) Any or all of the following remedies may be employed by the city to abate and prevent further violations of the provisions of this article:

(1) The department may discontinue city water service.

(2) The department may disconnect and seal the sanitary sewer connection.

(b) The city official is authorized to issue citations charging the violation of any of the provisions of this article.

(c) Consistent with applicable provisions of state and federal laws and regulations, the city attorney is hereby authorized to file and maintain civil legal actions to:

(1) Enjoin any violations of this article; and

(2) Enforce the state solid waste and water quality laws relating to matters addressed by this article.

(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, §§ 6, 9, 5-9-07)

Note—Formerly § 47-415.

Sec. 47-417. Responsibilities of agents and employees.

The responsibilities created under this article for biological pretreatment service providers, disposers, generators and transporters shall extend to the owners and other persons having possession and control of the site, facilities or equipment as well as to their officers, agents and employees having responsibilities for their operations.

(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, § 6, 5-9-07; Ord. No. 08-1229, § 6, 12-30-08)

Note—Formerly § 47-416.

Sec. 47-418. Hearings.

Applicants for permits or registrations under this article who are denied original or renewal permits or registrations or who are subject to revocation or suspension proceedings shall be afforded a right to a hearing. The hearings shall be conducted by a person designated by the director of the department in accordance with regulations issued for that purpose by the director. The regulations shall be submitted to the city attorney for approval prior to promulgation. If any of the grounds relate to section 1-10 of this Code, then a hearing shall be conducted under section 1-9 of this Code regarding those grounds.

(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, § 6, 5-9-07)

Note—Formerly § 47-417.

Sec. 47-419. Regulations.

The health officer is authorized to promulgate such regulations as are necessary to implement the provisions of this article. a copy of the regulations shall be maintained in the HHD offices for inspection by the public, and copies shall be made available for purchase at the fees prescribed by law.

(Ord. No. 07-544, § 10, 5-9-07; Ord. No. 2015-820, § 35, 8-26-2015)

Sec. 47-420. Reserved.

DIVISION 2. PERMITTING AND REGISTRATION OF GENERATORS*

Sec. 47-421. Permit or registration required.

(a) It shall be unlawful for any person, other than one operating a food service establishment, to act as a generator at any site for which a current and valid generator permit has not been issued under this division.

(b) It shall be unlawful for any person operating a food service establishment to act as a generator at any site for which a current and valid generator registration certificate has not been issued under this division.

(c) It is an affirmative defense to prosecution under this section that the waste generated at the site contains no city-regulated waste.

(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, § 12, 5-9-07; Ord. No. 08-1229, § 7, 12-30-08)

Sec. 47-422. Application.

In order to obtain a generator permit, a person shall complete a form provided by the health officer and pay the applicable fee. The applicant shall certify the holding capacity of the interceptor or lift station and provide evidence of any waste permits issued by the state to the applicant.

***Editor's note—**Ord. No. 07-544, § 11, adopted May 9, 2007, amended the title of Division 2 to read as herein set out. Formerly said division was entitled registration of generators.

If a site has more than one interceptor or lift station, a separate application must be completed for each interceptor or lift station.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, § 13, 5-9-07; Ord. No. 2020-1024, § 7, 12-2-2020)

Sec. 47-423. Fees; issuance of permit or registration certificate.

(a) The applicant shall submit a nonrefundable annual fee for each interceptor or lift station with each original and renewal application for a generator permit or registration certificate. The fee shall be payable in the form prescribed in the application. There shall be no fee to amend a generator permit or registration certificate; provided, however, that a fee shall be required to reissue a lost generator permit or registration certificate.

(b) The health officer shall either issue or deny the generator permit or registration certificate within 30 days after receipt of a completed application. If the generator permit or registration certificate is denied, the health officer shall provide written notice of the reasons to applicant, and the applicant shall be afforded opportunity to respond. The health officer shall issue the generator permit or registration certificate unless:

(1) The applicant provided incomplete or inaccurate information; or

(2) The applicant did not file an affidavit certifying the holding capacity of the interceptor; or

(3) The applicant did not pay any required fee.

(c) The fees for this division are set forth in the city fee schedule. Payment of any applicable fees when due is a condition of the processing of any application under this article.

(d) All fees collected pursuant to this division shall be deposited in the special waste transportation and inspection fund account established by the city council. Funds from this account may be expended for the costs relating to management and disposal of city regulated waste and other permitting, inspection, monitoring, controlling, education, and enforcement activities pertaining to environmental health services of the health department. By 60 days following the end of each fiscal year, any amount of money in the fund's current fiscal year-end fund balance that is in excess of four months of the average of the previous three fiscal years' audited expenditures less debt from the current fiscal year's ending fund balance, may be appropriated by city council and transferred to the general fund for general city expenditures, as needed, to the extent the transferred funds are not committed funds under any federal and state law, regulation, or grant.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, § 14, 5-9-07; Ord. No. 08-1229, §§ 8, 9, 12-30-08; Ord. No. 2011-1168, § 13, 12-14-2011; Ord. No. 2013-617, § 17, 6-19-2013; Ord. No. 2015-820, § 34, 8-26-2015; Ord. No. 2019-447, § 5, 6-12-2019; Ord. No. 2020-1024, § 8, 12-2-2020)

Sec. 47-424. Term; revocation.

(a) Subject to continuing compliance with applicable provisions of this article, a generator permit or registration certificate shall be valid for a period of 12 months from the date it is issued.

(b) Following notice of the grounds and an opportunity for a hearing, the health officer may revoke a generator permit or registration certificate.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, § 15, 5-9-07)

Sec. 47-425. Amendment.

A holder of a generator permit or registration certificate shall have a continuing duty to apply for an amended permit or registration certificate within 15 days after the occurrence of an event that causes a change in any information for which a representation was made in its application. Failure to timely submit an application for an amendment shall cause the generator permit or registration certificate to become void. Applications for amendments shall be processed, and amended permits and registration certificates shall be issued, subject to the same criteria as

original applications, no later than 15 days following the occurrence of the event making the amendment necessary.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, § 16, 5-9-07)

Sec. 47-426. Assignment or transfer prohibited.

A generator permit or registration certificate is personal to the holder to whom it is issued and is valid only for the site and interceptor or lift station specified on the permit or certificate. A generator permit or registration certificate, including those issued for interceptors or lift stations, may not be conveyed or assigned to another person.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, §§ 17, 18, 5-9-07; Ord. No. 2020-1024, § 9, 12-2-2020)

Note—Formerly § 47-427.

Sec. 47-427. Posting required; fee for lost permit or certificate.

Each generator shall cause its generator permit or registration certificate to be conspicuously posted at the site for which it is issued. Upon request of a transporter or the health officer, the generator shall specify the location at which the generator permit or registration certificate is posted and shall make the generator permit or registration certificate available for inspection. If upon inspection the health officer cannot readily determine that the generator permit or registration certificate is available for inspection, the permit or certificate will be deemed lost. A fee shall be imposed for reissuing a lost generator permit or registration certificate.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, §§ 17, 19, 5-9-07; Ord. No. 08-1229, § 10, 12-30-08)

Note—Formerly § 47-428.

Secs. 47-428—47-430. Reserved.

DIVISION 3. PERMITTING OF TRANSPORTERS*

Sec. 47-431. Permit required.

It shall be unlawful for any person to act as a transporter unless the person holds a current and valid transporter permit or temporary transporter permit or is acting as the agent or employee of a person who holds a current and valid transporter permit or temporary transporter permit.
(Ord. No. 04-1089, § 3, 10-20-04)

Sec. 47-432. Types of waste covered.

Each transporter permit or temporary transporter permit shall specify the type or types of waste for which it is applicable. A transporter permit or temporary transporter permit is valid only for the classification or classifications of waste specified thereon.
(Ord. No. 04-1089, § 3, 10-20-04)

Sec. 47-433. Application.

The health officer shall promulgate forms for original and renewal transporter permit or temporary transporter permit applications, which shall request the following information:

(1) Name, street address, mailing address and telephone number of the applicant. The "applicant" shall be deemed to include the proprietorship, each partner if a partnership and each officer, director or holder of ten percent or more of the outstanding shares if a corporation.

(2) Name, street address and mailing address of the applicant's manager.

(3) A photocopy of the driver's license of each person, including the applicant's transporter manager, who will be authorized to operate any of the applicant's vehicles for the transportation of wastes under the permit.

*__Editor's note—__Ord. No. 04-1089, § 3, amended Ch. 47, Art. XI, Div. 3, in its entirety to read as herein set out. Formerly, said division pertained to similar subject matter and derived from Ord. No. 97-196, § 4, 2-19-97.

(4) The nature and classification of any waste that originates within the city that the applicant intends to transport.

(5) For each motor vehicle and motor vehicle trailer that the applicant desires to register under division 4 of this article, the following information:

a. The make, model and year of manufacture.

b. The current state vehicle license plate number.

c. The vehicle identification number.

d. The vehicle's waste hauling capacity certification.

e. A photocopy of the vehicle's registration papers.

(6) Whether the applicant or the applicant's manager or any vehicle driver has been convicted of any violation for which a transporter permit or temporary transporter permit is subject to denial, refusal to renew, or revocation under section 1-10 of this Code.

(7) The address of the physical location where each vehicle will be parked or garaged when not in use, if different from the addresses identified in items (1) and (2).

(8) Evidence of financial assurance for each vehicle and trailer not inconsistent with that described in Title 30 Texas Administrative Code Chapter 37, subchapter U. If the proof of financial assurances is in the form of an insurance policy, then the insurance policy must contain an endorsement requiring 30 days' advance written notice of cancellation to the health officer.

(9) Texas Commission on Environmental Quality transportation registration number.

(Ord. No. 04-1089, § 3, 10-20-04; Ord. No. 2011-194, § 2, 3-23-2011)

Sec. 47-434. Fee.

A nonrefundable permit application review fee shall be submitted with each original and renewal application for a transporter permit. A nonrefundable permit application fee shall be submitted with each original and renewal application for a temporary transporter permit. The fee shall be payable in such form as specified by the health officer on the application. There shall be no application review fee payable for the filing of an application for an amendment.

(Ord. No. 04-1089, § 3, 10-20-04; Ord. No. 07-544, § 20, 5-9-07; Ord. No. 08-1229, § 11, 12-30-08)

Sec. 47-435. Review.

(a) Unless a hearing is required under section 1-9 of this Code, the health officer shall either grant or deny the permit within five days following the receipt of a completed application for a temporary transporter permit or within 30 days following the receipt of a completed application for a transporter permit. If the transporter permit or temporary transporter permit is denied, written notice of the reasons shall be provided to applicant, and the applicant shall be afforded an opportunity for a hearing. The health officer shall grant the transporter permit or temporary transporter permit unless one or more of the following applies:

(1) The applicant provided incomplete or inaccurate information in the application.

(2) The applicant did not provide any required financial assurance or pay any required fee.

(3) A transporter permit or temporary transporter permit held by the applicant is currently under suspension.

(4) A transporter permit or temporary transporter permit held by the applicant has been revoked or refused for renewal for cause within one calendar year of the date of filing of an application form.

(5) The applicant failed to submit any required information or documents regarding any vehicle to be registered under the permit.

(6) The applicant failed to submit proof that it holds any required state registration, license or permit for the services to be provided.

(b) If it appears that the applicant, the applicant's manager, or any vehicle driver has been convicted of any violation for which a transporter permit or temporary transporter permit is subject to denial, refusal to renew, or revocation under section 1-10 of this Code, then the permit application may also be denied on that grounds, provided that the applicant shall be given notice and an opportunity for a hearing under section 1-9 of this Code.
(Ord. No. 04-1089, § 3, 10-20-04; Ord. No. 2011-194, § 3, 3-23-2011)

Sec. 47-436. Reserved.

Editor's note—Ord. No. 2011-194, § 4, adopted March 23, 2011, repealed § 47-436 in its entirety. Formerly, said section pertained to permit bond and derived from Ord. No. 04-1089, § 3, 10-20-04; Ord. No. 08-1229, § 12, 12-30-08.

Sec. 47-437. Term; renewal.

A transporter permit shall expire on January 31 of the year following the calendar year during which it was issued. A temporary transporter permit shall expire on the date specified on the registration certificate. A transporter may not be issued more than three one-month permits during any permit year.
(Ord. No. 04-1089, § 3, 10-20-04)

Sec. 47-438. Assignment or transfer prohibited.

(a) A transporter permit or temporary transporter permit is personal to the holder to whom it is issued and is valid only for the transporter named on the permit. A transporter permit or temporary transporter permit may not be conveyed or assigned to another person.

(b) Each transporter permit or temporary transporter permit shall specify the names of the transporter's manager and each vehicle driver authorized thereunder. The permit shall not authorize any person not designated as the transporter's manager thereon to act as the transporter's manager, nor shall it authorize any person not designated as a driver thereon to operate any vehicle for the transportation of waste under the permit.
(Ord. No. 04-1089, § 3, 10-20-04; Ord. No. 07-544, § 21, 5-9-07)

Sec. 47-439. Amendment.

(a) The holder of a transporter permit or temporary transporter permit shall have a continuing duty to apply for an amended permit within 15 days after the occurrence of an event that causes a change in any information for which a representation or response was made in its permit application. Failure to timely submit an application for an amendment shall cause the transporter permit or temporary transporter permit to become void. Applications for permit amendments shall be processed and amended permits shall be issued subject to the same criteria as original applications.

(b) The 15-day period allowed in subsection (a) for the filing of an application for a permit amendment shall not apply to the addition of drivers or vehicles or to the changing of the transporter's manager. A person may not act as the transporter's manager or operate a vehicle for the transportation of waste under the transporter permit or temporary transporter permit unless and until so designated on such permit or an amendment thereto. Nor may a vehicle not designated on the transporter permit or temporary transporter permit be utilized under such permit unless and until so designated on such permit or an amendment thereto.
(Ord. No. 04-1089, § 3, 10-20-04; Ord. No. 07-544, § 22, 5-9-07)

Sec. 47-440. Revocation or suspension.

(a) The health officer may revoke or suspend a transporter permit or temporary transporter permit following written notice and an opportunity for a hearing, if one or more of the following apply:

(1) The applicant provided incomplete or inaccurate information in the application;

(2) The permit was issued in error;

(3) The transporter or the transporter's manager or any of the transporter's drivers has been convicted of any offense or offenses that constitute grounds for denial, refusal to renew or revocation under section 1-10 of this Code;

(4) The transporter has failed to timely pay a bill for disposal or clean-up services rendered by or for the city under this article or a claim against the transporter's financial assurance has been dishonored;

(5) The transporter or the transporter's manager or any of the transporter's drivers has committed any violation of this article or of any city, state or federal law or regulation that applies to the rendition of services hereunder;

(6) The transporter has failed to maintain evidence of financial responsibility required hereunder and provide the required proof to the health officer; or

(7) The transporter or its manager or any of its drivers has failed to timely, completely and accurately provide any notice, report or other document that is required to be filed with the city under this article.

(b) The health officer shall consider the seriousness of the matter involved, whether the violation was intentional, whether effective measures have been taken to prevent recurrence of the violation and the likelihood of repeated violations of this article or any solid waste, hazardous waste, or water quality law by the transporter, the transporter's manager and/or the transporter's drivers when deciding whether to suspend or revoke a transporter permit or temporary transporter permit; however, revocation shall be mandatory and continue until the end of the permit term whenever the transporter permit or temporary transporter permit has already been suspended once during the transporter permit or temporary transporter permit term.

(c) Within seven days following the effective date of any revocation of a transporter permit or temporary transporter permit as authorized under this section, the transporter shall surrender all of its manifests and registration forms to the health officer. A holder of a transporter permit shall also produce its registered vehicles at a location designated by the health officer and allow the health officer to remove the registration decals, and a holder of a temporary transporter permit shall surrender all registration certificates to the health officer. Additionally, the transporter shall provide the health officer with an accounting of all manifests in its possession.

(Ord. No. 04-1089, § 3, 10-20-04; Ord. No. 08-1229, § 13, 12-30-08; Ord. No. 2011-194, § 5, 3-23-2011)

Secs. 47-441—47-450. Reserved.

DIVISION 4. TRANSPORTER VEHICLE REGISTRATION*

Sec. 47-451. Registration required.

It shall be unlawful for any person to utilize a motor vehicle or motor vehicle trailer for the transportation of waste originating within the city unless the driver of the vehicle has been designated on a current and valid transporter permit or temporary transporter permit and the vehicle or trailer has been designated on that permit.

(Ord. No. 04-1089, § 3, 10-20-04)

Sec. 47-452. Decals and certificates.

(a) It shall be unlawful for any person to utilize a motor vehicle or motor vehicle trailer for the transportation of waste originating within the city unless the vehicle or trailer has a registration decal affixed as provided in this division or a vehicle registration certificate issued as provided in this division.

(b) The health officer shall place a registration decal on each registered vehicle operated by a holder of a transporter permit. In the case of tractor-trailer combinations, either component may be the registered vehicle for registration

*__Editor's note—__Ord. No. 04-1089, § 3, adopted October 20, 2004, amended Ch. 47, Art. XI, Div. 4, in its entirety to read as herein set out. Formerly, said division pertained to similar subject matter and derived from Ord. No. 97-196, § 4, 2-19-97.

decal placement. The design and form of the registration decal shall be as promulgated by the health officer and shall include the date of expiration, which shall be coterminus with the transporter permit expiration.

(c) The health officer shall issue a registration certificate for each registered vehicle operated by a holder of a temporary transporter permit.
(Ord. No. 04-1089, § 3, 10-20-04; Ord. No. 08-1229, §14, 12-30-08)

Sec. 47-453. Conditions for issuance.

(a) The health officer shall issue registration decals for a given vehicle only if each of the following conditions exists:

(1) The transporter holds a current and valid transporter permit and the information contained on the vehicle's registration or title corresponds to the information given on the transporter's permit application or an amendment thereto.

(2) The transporter has paid the applicable vehicle registration fee. Vehicle registration fees shall not be refundable and cannot be prorated.

(3) The transporter makes the vehicle available to the health officer at a reasonable time for verification of vehicle identification and placement of registration decals.

(4) The transporter is identified by placing the transporter's name or logo and telephone numbers on each side of either the tractor, trailer, or tank in letters that are at least three inches high having a brush stroke width of at least 3/8-inch. The information shall be affixed by painting, attaching a decal or using other permanent means.

(5) The vehicle has a current state inspection sticker.

(6) The vehicle has a current state license registration.

(7) The vehicle is equipped with discharge valve markings as required by applicable state regulations.

(8) The vehicle is equipped with site gauges or alternative measurement devices that comply with state requirements.

(b) The health officer shall issue registration certificates for a given vehicle only if each of the following conditions exists:

(1) The transporter holds a current and valid temporary transporter permit and the information contained on the vehicle's registration or title corresponds to the information given on the transporter's permit application or an amendment thereto.

(2) The transporter has paid the applicable vehicle registration fee. Vehicle registration fees shall not be refundable and cannot be prorated.

(3) The transporter makes the vehicle available to the health officer at a reasonable time for verification of vehicle identification and placement of registration decals.

(c) Notwithstanding subsection (a), the health officer shall have the authority to withhold the issuance of a registration decal to any transporter who is a commercial solid waste operator and has not paid the annual franchise fee required by section 39-116 of this Code.
(Ord. No. 04-1089, § 3, 10-20-04; Ord. No. 08-1229, §§ 15—17, 12-30-08; Ord. No. 2011-194, § 6, 3-23-2011)

Sec. 47-454. Placement; visibility.

(a) The health officer shall determine the number of registration decals to be attached and their location on each vehicle based upon the configuration of the vehicle.

(b) It shall be the duty of the transporter permit holder and the driver of the vehicle to ensure that each registration decal is kept free of mud, dirt or any other obscuring material.

(c) It shall be the duty of the temporary transporter permit holder and the driver of the vehicle to ensure that each vehicle registration certificate is maintained in the vehicle while the vehicle is being operated under the permit. The

driver of the vehicle shall display the registration certificate issued for the vehicle upon the demand of a health officer or peace officer.
(Ord. No. 04-1089, § 3, 10-20-04)

Sec. 47-455. Reserved.

Editor's note—Ord. No. 08-1229, § 18, adopted December 20, 2008, effective January 1, 2009, repealed § 47-455 in its entirety. Formerly said section pertained to change of waste classification and derived from Ord. No. 04-1089, § 3, 10-20-04; Ord. No. 07-544, § 23, 5-9-07.

Sec. 47-456. Replacement; transfer.

(a) It shall be unlawful to remove any registration decal from a vehicle and place it on another vehicle. A registration decal shall automatically become void if it is attached to a vehicle other than the specific vehicle for which it was provided by the health officer.

(b) In the event a transporter desires replacement registration decals (as may be necessary if the vehicle is painted or repaired) or wishes to transfer waste decals to a replacement vehicle, the transporter shall surrender all registration decals for the vehicle and shall pay a registration decal replacement charge per vehicle. No registration decal shall be provided for a replacement vehicle until the transporter permit has been amended to include that vehicle. No replacement registration decal shall be provided unless the transporter surrenders the decals to be replaced or provides conclusive evidence that they have been destroyed. If the decals are not surrendered and the required proof is not provided, then the full vehicle registration fee applicable under this division shall be payable.
(Ord. No. 04-1089, § 3, 10-20-04; Ord. No. 08-1229, § 19, 12-30-08)

Secs. 47-457—47-460. Reserved.

DIVISION 5. DISPOSAL OF WASTE AT CITY FACILITIES

Secs. 47-461—47-463. Reserved.

Editor's note—Ord. No. 08-1229, § 20, adopted December 30, 2008, effective January 1, 2009, repealed §§ 47-461—47-463 in their entirety. Formerly said sections pertained to discharge at city sewage treatment facilities; grab samples; prohibited discharges and derived from Ord. No. 97-196, § 4, 2-19-97.

Sec. 47-464. Emergency disposal of portable toilet waste at city facilities.

(a) Upon the health officer's findings that conditions of force majeure exist, that there exist insufficient permitted disposal facilities within the area contiguous to the city for the disposal of portable toilet wastes and that a public health emergency exists or may exist, the utility official is authorized to declare a public health emergency and allow transporters to discharge portable toilet wastes into designated city sewage treatment facilities in accordance with the provisions of this division. To initiate emergency disposals, the health officer must file a declaration of public health emergency with the city secretary. The health officer shall specify the conditions or circumstances that cause or threaten to cause the public health emergency. A declaration of public health emergency shall end when the health officer files with the city secretary a written declaration finding that the conditions requiring the original certification of a public health emergency no longer exist.

(b) Transporters allowed to discharge portable toilet waste into designated city sewage treatment facilities shall:

(1) Discharge portable toilet wastes only;

(2) Discharge only from vehicles displaying registration decals authorizing transportation of city-regulated waste; and

(3) Comply with all other applicable provision of this article and environmental laws.

(c) A violation of this section shall be punishable by a fine of not more than $4,000.00.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 08-1229, § 21, 12-30-08; Ord. No. 2021-431, § 13, 5-26-2021)

Sec. 47-465. Discharge fees.

The discharge of waste at a city sewage treatment facility shall be in accordance with the

terms of section 47-464 of this Code and shall require payment of the discharge fee established by city council. The utility official is authorized to establish the method of payment for the discharge fee, as well as any additional regulations and procedures for the documentation of waste transfer and the orderly collection of fees required by this section. Without limitation, the regulations and procedures may provide for immediate suspension of discharge privileges following notice to any transporter who is delinquent in payment of fees or has otherwise violated city regulations in the discharge of waste at city sewage treatment facilities. Upon request, a suspended transporter shall be given a prompt hearing by the utility official or his designee.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 08-1229, § 22, 12-30-08)

Secs. 47-466—47-470. Reserved.

DIVISION 6. BIOLOGICAL PRETREATMENT

Sec. 47-471. Permit required.

(a) It shall be unlawful to perform any biological pretreatment service except pursuant to a current and valid permit issued pursuant to this division.

(b) It shall be unlawful for any person whose name is not listed on a permit as provided in section 47-473(d) of this Code and acting on behalf of that permit holder to perform any biological pretreatment service function.

(c) It shall be unlawful for a generator or Class A site operator to suffer or permit the performance of any biological pretreatment service on any site under his possession or control by any person who does not hold a current and valid permit issued under this division.

(d) It shall be unlawful for any person to cause or allow bioremediation to be performed on an interceptor or lift station by a person that does not possess a current permit for biological pretreatment or approved bioremediation media.

(e) It shall be unlawful for any person to cause or allow the introduction of any surfactant, solvent or emulsifier into an interceptor, lift station, or similar device.

(f) It is a defense to prosecution under this section that the use of surfactants, solvents or emulsifiers is incidental to normal personal hygiene.

(g) It is a defense to prosecution under this section that the person is the owner or operator of the site where the interceptor or lift station is situated, or an employee or agent of the owner or operator, and that the biological pretreatment service is being performed under the direction of a biological pretreatment service permit holder, provided that all notices and reports provided for under this article have been timely filed. It is also a defense to prosecution under this section that the site is used exclusively for residential purposes.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, § 24, 5-9-07; Ord. No. 2020-1024, § 10, 12-2-2020)

Sec. 47-472. Application; fees.

(a) The health officer shall promulgate forms for original and renewal biological pretreatment service permit applications, which shall request the following information:

(1) Name, street address, mailing address and telephone number of the applicant. The "applicant" shall be deemed to include the proprietorship, each partner if a partnership and each officer, director or holder of ten percent or more of the outstanding shares if a corporation.

(2) A copy of the material safety data sheet for each product that will be utilized to render the biological pretreatment service.

(3) A photocopy of the driver's license or Texas personal identification card of each person who will be authorized to perform biological pretreatment service functions on behalf of the applicant.

(4) Whether the applicant or any employee designated under item (3) of this subsection has been convicted of any violation

for which a biological pretreatment service permit is subject to denial, refusal to renew or revocation under section 1-10 of this Code.

[The next page is 3341]

(5) Evidence of a comprehensive general liability insurance policy as required in section 47-475 of this Code.

(b) A non-refundable biological permit and registration fee shall be submitted with each original and renewal application.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 02-528, § 13h., 6-19-02; Ord. No. 08-1229, § 23, 12-30-08)

Sec. 47-473. Issuance; transfer; assignment.

(a) The health officer shall either grant or deny the biological pretreatment service permit within 30 days following the receipt of a completed application, unless a hearing is required under section 1-9 of this Code. If the biological pretreatment service permit is denied, written notice of the reasons shall be provided to applicant, and the applicant shall be afforded an opportunity for a hearing. The health officer shall grant the biological pretreatment service permit unless one or more of the following applies:

(1) The applicant provided incomplete or inaccurate information in the application.

(2) The applicant did not pay the required application processing fee.

(3) A biological pretreatment service permit held by the applicant is currently under suspension.

(4) A biological pretreatment service permit held by the applicant has been revoked or refused for renewal for cause within one calendar year from the date of filing of the application form.

(5) The applicant failed to provide proof of the liability insurance coverage required in section 47-475 of this Code. If it appears that the applicant or any employee designated under item (3) of section 47-472(a) has been convicted of any violation for which a biological pretreatment service permit is subject to denial, refusal to renew, or revocation under section 1-10 of this Code, then the permit application may also be denied on that grounds, provided that the applicant shall be given notice and an opportunity for a hearing under section 1-9 of this Code.

(b) *Reserved.*

(c) A biological pretreatment service permit is personal and is valid only for sites for which notice has been given as provided in section 47-478(a) of this Code. Any attempt to assign or transfer a biological pretreatment service permit to another person shall render it void.

(d) Each biological pretreatment service permit shall list the names of the persons authorized to perform biological pretreatment service functions under the permit. The permit shall not be valid for the performance of biological pretreatment service functions by any person not listed thereon.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 02-528, § 13i., 6-19-02)

Sec. 47-474. Term.

A biological pretreatment service permit shall expire on January 31 of the year following the calendar year during which it was issued.
(Ord. No. 97-196, § 4, 2-19-97)

Sec. 47-475. Liability insurance.

A biological pretreatment service permit holder shall at all times keep a policy of comprehensive general liability insurance in full force and effect. The policy shall insure the public against any loss or damage to any person or property resulting from the conduct of the biological pretreatment service. The policy shall provide a minimum coverage of $250,000.00 per occurrence, with $500,000.00 aggregate. The policy must be written by a carrier that holds a current and valid certificate of authority from the state of Texas for the type of policy issued. Additionally, each policy must contain an endorsement requiring 30 days' advance written notice of termination or cancellation to the health officer. Failure to maintain proof of the required with the health officer shall cause the permit to become void.
(Ord. No. 97-196, § 4, 2-19-97)

Sec. 47-476. Amendment.

(a) A biological pretreatment service permit holder shall have a continuing duty to amend its permit application whenever there is a change in any item for which a representation or response was made in its permit application. The biological pretreatment service permit holder shall submit the amendment in writing within 15 days following the occurrence of the event making the amendment necessary. Failure to timely submit an application for an amendment shall cause the permit to become void. Applications for permit amendments shall be processed and amended permits shall be issued subject to the same criteria as original applications.

(b) The 15-day period allowed in subsection (a) for the filing of an application for a permit amendment shall not apply to the addition of persons authorized to perform biological pretreatment service functions under the permit. A person may not perform biological pretreatment service functions under the permit unless and until so listed on the permit or an amendment thereto.
(Ord. No. 97-196, § 4, 2-19-97)

Sec. 47-477. Revocation; suspension.

A biological pretreatment service permit may be revoked or suspended in the same manner and for the same reasons as for a permit issued to a transporter under this article.
(Ord. No. 97-196, § 4, 2-19-97)

Sec. 47-478. Reports.

(a) Prior to the commencement of service at any site, a biological pretreatment service permit holder shall provide written notice to the health officer in a form prescribed by the health officer. Any such notice shall remain in effect until withdrawn in writing by the biological pretreatment service permit holder.

(b) On or before the fifteenth day of each calendar month, each biological pretreatment service permit holder shall provide a monthly report, accompanied by a processing fee, to the health officer, setting forth the name, address and telephone number of each site at which biological pretreatment service was performed, the dates on which the service was rendered during the preceding calendar month.

(c) Reports and notices under this section shall be made in or on a form promulgated by the health officer, shall be filed in such manner as the health officer may prescribe by regulations and shall be kept on site for at least five years after the date the biological pretreatment service was performed. The records shall be made available to the city official upon request. A copy of the regulations shall be maintained for inspection in the offices of the health officer, and copies shall be provided at the fees prescribed by law.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, § 25, 5-9-07; Ord. No. 08-1229, § 24, 12-30-08)

Secs. 47-479—47-480. Reserved.

DIVISION 7. CAR WASH DRYING BEDS

Sec. 47-481. Permit required.

It shall be unlawful for any person to operate or cause to be operated a drying bed for grit trap waste at any car wash premises for which a current and valid generator permit has not been issued under this article.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, § 26, 5-9-07)

Sec. 47-482. Application; standards.

In order to obtain a drying bed generator permit, a car wash operator shall make application on a form provided for that purpose by the health officer and shall demonstrate that the facility will, at a minimum, meet the following requirements:

(1) The base of the drying bed shall be made of impervious material sufficient to prevent the release of any leachate;

(2) The drying bed shall be surrounded by a berm made of impervious material sufficient to prevent the release of any leachate, be not less than two feet in height and provide at least one foot of freeboard at all times;

(3) The drying bed shall be covered. The cover shall not be more than eight inches nor less than four inches in height above the wall of the drying bed and shall extend at least one foot beyond the outside of the berm;

(4) The drying bed shall be adequately ventilated to prevent the accumulation of emissions;

(5) All construction must comply with the Construction Code;

(6) All discharges from the drying bed shall be returned to a grit trap or back to the structure itself; and

(7) The drying bed must be at least ten feet from any property boundary.

(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 02-399, § 94, 5-15-02; Ord. No. 07-544, § 27, 5-9-07)

Sec. 47-483. Issuance; acceptance.

(a) Following receipt of a properly completed application, the health officer shall issue a generator permit to the applicant for the site designated on the application, unless it is determined that the facility will not comply with the criteria established in section 47-482 of this Code. If the application is denied, then the applicant shall be given written notice of the grounds and shall be afforded an opportunity for a hearing.

(b) Following receipt, the applicant shall review the generator permit for accuracy and sign it if it is correct. If the generator permit contains any inaccuracies, the applicant shall notify the department and return the generator permit for correction. The generator permit shall be valid only when signed by the car wash operator.

(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, § 28, 5-9-07)

Sec. 47-484. Term; cancellation.

(a) Subject to continuing compliance with applicable provisions of this article, a registration certificate shall be of perpetual duration.

(b) Following notice of the grounds and an opportunity for a hearing, the health officer may cancel a registration certificate.

(Ord. No. 97-196, § 4, 2-19-97)

Sec. 47-485. Amendment.

A generator permit holder shall have a continuing duty to request amendment of its generator permit whenever there is a change in any item for which a representation or response was made in its application. The generator permit holder shall submit an application for the amendment in writing within 15 days following the occurrence of the event making the amendment necessary. Failure to timely submit an application for amendment shall cause the generator permit to become void.

(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, § 29, 5-9-07)

Sec. 47-486. Fees; lost generator permits.

There shall be no fee for the filing of an original application or amendment application under this division or for the issuance of an original generator permit or an amendment thereto. However, a fee shall be imposed for reissuance of a lost or missing generator permit.

(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, § 30, 5-9-07; Ord. No. 08-1229, § 25, 12-30-08)

Sec. 47-487. Assignment or transfer prohibited.

A generator permit is personal to the holder to whom it is issued and is valid only for the site specified thereon. Any attempt to assign or transfer a generator permit to another person or site shall render it void.

(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, § 31, 5-9-07)

Sec. 47-488. Posting required.

Each generator permit holder shall cause its generator permit to be conspicuously posted at the site to which it pertains. Upon request of a transporter or the health officer, the generator permit holder shall specify the location at which

the generator permit is posted and shall make the generator permit available for verification and inspection.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, § 32, 5-9-07)

Sec. 47-489. Reserved.

Editor's note—Ord. No. 08-1229, § 26, adopted December 20, 2008, effective January 1, 2009, repealed § 47-489 in its entirety. Formerly said section pertained to transportation of grit trap waste and derived from Ord. No. 97-196, § 4, 2-19-97.

Secs. 47-490—47-500. Reserved.

DIVISION 8. DOCUMENTS*

Sec. 47-501. Manifests.

(a) The department shall promulgate a multiple-copy form for manifests to be used by generators, transporters and disposers to document the transfer of waste.

(b) The manifest copies shall be designated as follows:

(1) Generator copy (white).

(2) Generator return copy (yellow).

(3) HHD copy/transporter copy.

(4) HHD copy/secondary transporter copy. If a secondary transporter is not used, this copy may be retained by the primary transporter.

(5) Disposal site copy.

(c) Reserved.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, § 33, 5-9-07; Ord. No. 08-1229, §§ 28, 29, 12-30-08; Ord. No. 2015-820, § 35, 8-26-2015)

*Editor's note—Ord. No. 08-1229, § 27, adopted December 30, 2008, effective January 1, 2009, amended the title of Ch. 47, Art. XI, Div. 8, to read as herein set out. Formerly Division 8 was entitled Manifest/Septic Tank Control Ticket Documents.

Sec. 47-502. Manifest requirements.

(a) It shall be unlawful for any reason to allow waste to be removed from a septic tank, trap, interceptor, lift station, or other device without first obtaining a completed manifest.

(b) The generator's portion of the manifest shall be completed with the following information:

(1) Name of generator;

(2) Generator address, including zip code;

(3) Generator permit or registration certificate number;

(4) Generator telephone number, including cellular phone number, if available, of generator's contact person;

(5) Holding capacity of trap or interceptor, lift station, or similar device;

(6) Date waste was collected;

(7) Name of transporter and its permit number;

(8) Transporter vehicle registration number, decal or certificate information, vehicle license plate number and tank capacity;

(9) Name and signature of transporter vehicle operator;

(10) Transporter mailing address and telephone number;

(11) Type and quantity (in gallons or pounds) of waste removed; and

(12) Name and address of intended disposal site.

(c) The transporter shall detach the generator's copy of the manifest and leave it with the generator.

(d) The remainder of the manifest shall be completed with the following information:

(1) Secondary transporter's name, address, telephone number and permit number, if a secondary transporter is used;

(2) Name and signature of secondary transporter's vehicle operator, if a secondary transporter is used;

(3) Location at which the waste was transferred to the secondary transporter, if applicable;

(4) Name, address and telephone number of disposer;

(5) Quantity (in gallons or pounds) of waste received and date;

(6) Name of manager/operator of disposer;

(7) Dated signature of disposer's manager/operator; and

(8) Any other relevant information reasonably required by the health officer.

(e) The transporter shall return the generator return copy to the generator within 15 days after the interceptor, lift station, or similar device has been cleaned.

(f) The generator shall retain all white and yellow copies of manifests on the site where the waste originated for at least five years after the waste was removed.

(g) Upon request by a health officer, the generator shall produce all originals of manifests for inspection and verification.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, § 34, 5-9-07; Ord. No. 08-1229, § 30, 12-30-08; Ord. No. 2020-1024, §§ 11—13, 12-2-2020)

Sec. 47-503. Reserved.

Editor's note—Ord. No. 08-1229, § 31, adopted December 30, 2008, effective January 1, 2009, repealed § 47-503 in its entirety. Formerly said section pertained to septic tank control tickets for Class A waste and derived from Ord. No. 97-196, § 4, 2-19-97.

Sec. 47-504. Forms supplied to transporters.

(a) The health officer shall supply manifests and other forms to transporters for their use under this article. The health officer may impose a fee that is based upon the city's production cost for the forms.

(b) It shall be the duty of each transporter to maintain a supply of manifests and other forms in each vehicle that is being utilized for the transportation of waste in the city and to make the forms available to generators whose sites are serviced by its vehicles in order to timely and properly complete the documentation requirements of this article.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 08-1229, § 32, 12-30-08)

Secs. 47-505—47-510. Reserved.

DIVISION 9. GENERATION, TRANSFER AND DISPOSAL OF WASTE

*Subdivision 1. Generator Responsibilities**

Sec. 47-511. Verification of transporter registration.

No generator shall allow a transporter to remove waste from a site under the person's control unless the transporter's vehicle displays current and valid registration decals.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 08-1229, § 34, 12-30-08)

Sec. 47-512. Cleaning and maintenance requirements.

(a) Except as specifically provided herein, generators shall clean, or cause to be cleaned, each interceptor and holding tank as often as necessary to comply with the effluent discharge parameters in this article to ensure that sediment and floating materials do not impair the efficiency of the interceptor, and to ensure that no visible fat, oil or grease (FOG) is observed in the sample well. The requirements of this section shall not apply to generators whose city-regulated waste consists solely of residential septic tank waste.

(b) Each interceptor or holding tank shall be fully evacuated at least once every 90 days.

(c) Each interceptor or holding tank shall be fully evacuated more frequently than once every 90 days when:

(1) Twenty-five percent or more of the wetted height of the grease trap or interceptor,

*__Editor's note—__Ord. No. 08-1229, § 33, adopted December 30, 2008, effective January 1, 2009, amended Ch. 47, Art. XI, Div. 9, Subdiv. 1 title to read as herein set out. Formerly said subdivision was entitled Generator and Class A Site Operator Responsibilities.

as measured from the bottom of the device to the invert of the outlet pipe, contains floating materials, sediment, oils or greases; or

(2) The discharge exceeds the discharge parameter set in this article; or

(3) There is history of non-compliance.

(d) If the volume of the interceptor is greater than the tank capacity of the transporter's vehicle, then the generator or transporter shall arrange for additional transportation capacity so that the interceptor is fully evacuated within 24 hours after the time the generator notifies the transporter, or the transporter becomes aware, that the tank capacity of the transporter vehicle is insufficient.

(e) The health officer shall waive compliance with the requirements of subsection (b) of this section if the generator submits to the health officer a completed Notice of Waiver (NOW) (form as provided by the health officer, which may be in an electronic format, unless the NOW is denied within 30 days of receipt by the health officer. If the health officer denies the notice of waiver of the requirements of subsection (b) of this section, the NOW shall be returned to the generator and the health officer shall state the reasons for the denial, which shall be consistent with this article. An approved NOW shall remain in effect until revoked by the health officer. Revocation of the NOW must be based on violation of this article. A generator may not resubmit a NOW form until six months from the date of revocation. The NOW form shall recite the elements of this subsection (e) and will include the following certifications:

(1) The generator section of the form shall require the generator to certify that it has not had any overflow or discharge at the site during the previous 12-month period; and

(2) The generator's transporter section of the form shall require the transporter to certify that, based on the transporter's judgment, at the generator's site, the frequency of cleaning is sufficient to:

a. Produce an effluent in consistent compliance with the discharge parameters in this article, or

b. Demonstrate that less than 25 percent of the wetted height of the entire grease trap or interceptor, as measured from the bottom of the device to the invert of the outlet pipe, contains floating materials, sediment, oils or greases.

(f) In any event, a grease trap or holding tank shall be fully evacuated, cleaned, inspected, and, if needed, repaired or otherwise maintained, at least once every 180 days.

(g) All grease trap, lift station, or interceptor waste shall be properly disposed of in accordance with federal, state or local regulation.

(h) No generator shall remove or cause or allow any person to remove waste from an interceptor or lift station on the site, unless the entire contents of the interceptor or lift station are removed from the site. It is the express intent of this section to prohibit the use of mobile processors and other devices that purport to separate waste or de-water the contents of an interceptor or lift station and leave a portion of the materials at the site.

(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, § 35, 5-9-07; Ord. No. 08-1229, §§ 35, 36, 12-30-08; Ord. No. 2020-1024, § 14, 12-2-2020)

Sec. 47-513. Interceptor requirement.

(a) Commercial, institutional, and industrial facilities, including, but not limited to, restaurants, cafeterias, bars, hotels and motels, hospitals, sanitariums, manufacturing facilities, nursing homes, prisons, private and public schools, car washes, truck washes or other establishments where FOG, grit, silt or clay may be generated for which an application for a building permit is submitted after August 31, 2006, shall be required to design, install, operate and maintain an interceptor complying with the *Plumbing Code* and install a sample well to allow access for inspection and sampling by the health officer.

(b) Each interceptor must be operated and maintained in accordance with this article, and must provide a sample well to allow access for inspection and sampling by the health officer.

(c) Except as may otherwise be provided, an interceptor shall not be required for single family or multi-family residential units.

(d) Interceptors or lift stations shall be operated and maintained in accordance with the manufacturer's recommendations and this article including, but not limited to, periodic removal of the accumulated waste.
(Ord. No. 07-544, § 36, 5-9-07; Ord. No. 08-1229, § 37, 12-30-08; Ord. No. 2020-1024, § 15, 12-2-2020; Ord. No. 2021-1037, § 20(Exh. I.56), 12-1-2021, eff. 4-1-2022)

Sec. 47-514. Discharge parameters.

(a) Except as may otherwise be provided, it shall be unlawful for a generator to discharge into the sanitary sewer:

(1) FOG, if such materials:

a. Exceed on analysis an average of 200 milligrams per liter (mg/L) of free or emulsified fats, oils or grease, except that a generator may request a three-year schedule to comply with this requirement if the generator meets the following criteria:

1. The generator has a valid generator permit or generator registration certificate;

2. No later than December 2, 2023, the generator must achieve compliance with the final limit of 200 mg/L oil and grease.

b. Form a discernible floating layer on the surface of the receiving waters;

c. Overload the generator's interceptor; or

d. Deposit FOG in the lines of the sanitary sewer in such a manner as to obstruct it.

(2) City-regulated waste that exerts or causes:

a. Unusual biological oxygen demand or an immediate oxygen demand; or

b. Unusual concentrations or composition of solids in total suspended solids or total dissolved solids; or

c. Unusual flow or concentration in the sanitary sewer.

(3) City-regulated waste in such amounts as to cause interference with the sanitary sewer system, or as to cause pollutants to pass through the sewer system into the environment.

(b) A violation of this section shall be punishable by a fine of not more than $4,000.00.
(Ord. No. 07-544, § 36, 5-9-07; Ord. No. 08-1229, §§ 38, 39, 12-30-08; Ord. No. 2020-1024, § 16, 12-2-2020; Ord. No. 2021-431, § 14, 5-26-2021)

Sec. 47-515. Penalty.

(a) It shall be unlawful for:

(1) Any generator who is required by this article to obtain a generator permit or registration certificate to connect or to be connected to the sewer system, unless that generator has obtained a generator permit or registration certificate for that connection.

(2) Any generator to violate any provision of this article that applies to generators.

(3) Any person to violate any condition of a permit or registration certificate required by this article.

(b) If the health officer determines that a generator is responsible for a blockage of a sanitary sewer system line, the health officer may issue a citation with a minimum fine of $1,000.00 for the first violation and $1,500.00 for a second violation that occurs within the same 12-month period. Each subsequent violation within a 12-month period shall result in a fine of not more than $2,000.00 for each violation, and the city may take other enforcement action as provided in section 47-416 of this Code. Each day that any violation continues shall constitute a separate offense. Violation of any provision of this division shall be a Class C misdemeanor.
(Ord. No. 07-544, § 36, 5-9-07)

Secs. 47-516—47-520. Reserved.

Subdivision 2. Documentation Responsibilities

Sec. 47-521. Signature and accuracy.

Each generator shall complete and sign the generator's portion of the manifest prior to allowing removal of waste from the generator's site. The generator shall ensure that the generator's portion of the manifest is complete and accurate.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 08-1229, § 40, 12-30-08)

Sec. 47-522. Retention.

Each generator shall retain, on site, the completed generator copy until it receives the completed generator return copy from the transporter. The generator shall retain the generator return copy of the manifest on site for a period of five years from the date the waste is transported from the generator site as specified on the manifest. The documents shall be retained at a location that is situated within the county and shall be made available for inspection and copying by the health officer at the generator's place of business during regular working hours, immediately upon request. It is a defense to prosecution under this section that the waste removed consisted exclusively of portable toilet waste from portable toilets provided by the transporter.
(Ord. No. 97-196, § 4, 2-19-97)

Sec. 47-523. Report to health officer.

If the generator return copy is not received from the transporter within 15 days after the date the waste was picked up from the generator's site as shown on the manifest, the generator shall file with the department a copy of the generator copy of the manifest together with a signed affidavit in a form specified by the health officer stating that the generator return copy was not received within the 15-day period required. The generator copy and affidavit shall be filed at an office specified by the health officer within ten business days after the expiration of 15 days after the waste was transported from the generator's site as specified on the manifest.
(Ord. No. 97-196, § 4, 2-19-97)

Secs. 47-524—47-530. Reserved.

Subdivision 3. Transporters' Duties

Sec. 47-531. Manifest completion.

It shall be unlawful for a transporter to:

(1) Remove or receive city-regulated waste from the site of a generator unless the generator's portion of the manifest has been completed, the transporter has signed the manifest and the generator's copy of the manifest has been left with the generator.

(2) Remove or receive waste from another transporter unless both transporters complete and sign the manifest.

(3) Transport a waste load without having, at all times in the vehicle transporting the waste, a copy of the manifest(s) for all waste being carried.

(4) Discharge any waste at a lawful disposal site without entering the name of the disposal site and the date the waste is delivered to the disposal site for final disposal, obtaining the signature of the disposer and tendering to the disposer the disposal site copy of the manifest signed and completed by both the generator and the transporter(s).

(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 08-1229, § 41, 12-30-08)

Sec. 47-532. Verification of registration.

It shall be unlawful for any transporter to remove or receive city-regulated waste from any site that has never been issued an original permit or registration certificate to the current generator as provided in Division 2 of this article. It is an affirmative defense to prosecution under this section that the waste consists exclusively of portable toilet waste.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, § 37, 5-9-07; Ord. No. 08-1229, § 42, 12-30-08)

Sec. 47-533. Return of manifests.

Each transporter of city-regulated waste shall ensure that the completed generator return copy

[The next page is 3345]

of the manifest is delivered to the generator within 15 calendar days after the date the waste was picked up from the generator's site. If the waste load is transferred to another transporter, the secondary transporter shall send the completed generator return copy to the generator within 15 days after the date the waste was picked up from the generator's site.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 08-1229, § 43, 12-30-08)

Sec. 47-534. Monthly report; review; retention.

(a) On or before the 15th day of each calendar month, each transporter shall submit to the health officer the documents specified to be submitted below which shall document all of its waste transportation originating within the city during the preceding calendar month. Delivery shall be made in person, by courier, or by certified mail, return receipt requested. Transporters shall obtain from the health officer a receipt for all hand-delivered documents. All manifests and other documents submitted under this section shall be true, accurate and complete. The documents to be submitted are:

(1) All HHD/transporter copies or HHD/secondary transporter copies of the manifests except manifests for portable toilet waste;

(2) Monthly fee;

(3) A monthly waste summary for portable toilet waste in the form prescribed by the health officer; or

(4) A written statement signed by the transporter's manager stating that the transporter did not transport any waste from a site within the city during the preceding calendar month.

(b) The health officer shall review the reports submitted under subsection (a) and return any manifests submitted therewith to the submitting transporter within 60 days following receipt of the report. Following receipt of the returned documents, the transporter shall retain them for a period of five years from the date of disposal as reflected on the manifest. The documents shall be retained at a location that is situated within the county and shall be made available for inspection and copying by the health officer at the transporter's place of business during regular working hours, immediately upon request.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 08-1229, § 45, 12-30-08; Ord. No. 2015-820, § 35, 8-26-2015)

Secs. 47-535—47-540. Reserved.

Subdivision 4. Transportation Requirements

Sec. 47-541. Vehicle maintenance.

(a) Each transporter shall maintain each vehicle used by him for the transportation of waste in good working order. Without limitation, the transporter shall ensure that all hoses, tanks, pumps, pipes, valves and gauges shall be in good repair and free of any leaks that could cause a spill or discharge of waste from the vehicle.

(b) Each transporter shall ensure that the name and telephone numbers that are required to be affixed under item (4) of subsection (a) of section 47-453 are maintained and are legible at all times and that the discharge valves are marked as required by state regulation.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, § 38, 5-9-07)

Sec. 47-542. Spill remediation.

(a) Each transporter shall be responsible for the clean-up of any spills from its registered vehicles. In the event the city or the city's contractor provides the service of cleaning up the transporter's spill, the transporter shall pay the city's or its contractor's reasonable costs for clean-up as determined by the city official and as provided by the terms of the transporter's financial assurance. Payment shall be made within 30 days after the date of written notice from the city official.

(b) In the event of any spill of waste, the transporter shall take appropriate remedial action, including removing or causing removal of the spill in compliance with all applicable

environmental laws and regulations and issuing any notices to regulatory agencies as required under state or federal law or regulations.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 2011-194, § 7, 3-23-2011)

Sec. 47-543. Storage of waste.

A transporter shall store waste only in a mobile closed container (container on wheels) and shall not store waste for more than four days. A transporter who temporarily stores waste at a fixed or permanent site shall comply with all applicable state regulations.
(Ord. No. 97-196, § 4, 2-19-97)

Sec. 47-544. Mixing wastes.

(a) A transporter shall not collect or transport incompatible wastes in the same container. Nor shall a transporter utilize the same pumping equipment for incompatible wastes without first cleaning the equipment between batches to prevent the mixing of incompatible wastes.

(b) It is an affirmative defense to prosecution under subsection (a) that each of the following requirements was met:

(1) The mixing of the wastes did not cause a dangerous chemical or physical reaction;

(2) The facility to which the mixed wastes were being transported was then authorized to store, process, or dispose of the mixed wastes;

(3) The transporter was then authorized to transport each of the wastes being mixed; and

(4) The vehicle in which the wastes were being transported then met the requirements to transport each of the wastes being carried therein.

(Ord. No. 97-196, § 4, 2-19-97)

Sec. 47-545. Complete removal required.

No transporter shall remove waste from any interceptor, lift station, utility vault, septic tank, or similar device unless its entire contents are removed from the site. It is the express intent of this section to prohibit the use of 'mobile processors' and other devices that purport to separate waste or de-water the contents of an interceptor or lift station and leave a portion of the materials at the site.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 08-1229, § 45, 12-30-08; Ord. No. 2020-1024, § 17, 12-2-2020)

Secs. 47-546—47-550. Reserved.

Subdivision 5. Responsibilities of Disposers

Sec. 47-551. Compliance.

It shall be unlawful for a disposer to accept waste originating within the city from a transporter unless:

(1) The transporter's manifest accurately identifies the amount and type of waste contained in the vehicle at the time of disposal;

(2) The transporter's vehicle displays current and valid registration decals or complies with appropriate state and federal identification and placarding requirements for the wastes being carried; and

(3) The transporter tenders to the disposer the manifest that has been completed and signed by both the generator and the transporter(s).

(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 08-1229, § 46, 12-30-08)

Sec. 47-552. Handling of documentation.

(a) After acceptance of a waste load originating within the city from a transporter, a disposer shall sign and date the manifest tendered by the transporter and shall return all copies of the manifest, except the disposal site copy, to the transporter.

(b) The disposer shall maintain the disposal site copy of each manifest delivered to him for five years after the date of receipt of waste as reflected on the manifest.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 08-1229, § 47, 12-30-08)

Sec. 47-553—47-560. Reserved.

Subdivision 6. Inspections

Sec. 47-561. Generator inspections.

(a) The health officer shall conduct inspections of generators as often as needed but not less than once a year to assure compliance with the requirements of this article and other rules and regulations relating to the handling and disposal of city-regulated waste.

(b) Inspections shall include, but are not limited to, verification of cleaning frequency and compliance with this article and other applicable laws regarding generation, transportation and disposal of waste. City officials shall observe the establishment's rules and regulations concerning safety, internal security and fire protection. If the establishment has management in residence, the city official shall notify management or the person in charge of the city official's presence and shall exhibit proper credentials; provided, however, if refused entry onto the premises, the city official shall procure a search warrant to inspect the facilities or records.
(Ord. No. 97-196, § 4, 2-19-97; Ord. No. 07-544, § 39, 5-9-07; Ord. No. 08-1229, § 48, 12-30-08)

Sec. 47-562. Vehicle inspection at designated place.

Upon notice by the health officer, each transporter shall deliver one or more registered vehicles as designated by the health officer to the location designated by the health officer for inspection and/or compliance testing by the health officer. The notice shall designate the time and place for delivery of the vehicle(s) and shall give the transporter reasonable notice for the delivery. The health officer shall release each vehicle no later than the close of business on the same day on which it is received, unless retention of the vehicle for a longer period is agreed upon in writing between the health officer and the transporter. Delivery for inspection and testing of a registered vehicle shall be demanded pursuant to an administrative procedure established by the health officer.
(Ord. No. 97-196, § 4, 2-19-97)

Sec. 47-563. Vehicle spot inspection.

Transporters' registered vehicles traveling city streets are subject to stops and inspections by peace officers as provided by law. A peace officer may call upon a health officer for technical assistance in conducting the inspection. Transporters shall so advise their drivers. Unless a truck is out of compliance, it shall not be detained longer than one hour by the peace officer.
(Ord. No. 97-196, § 4, 2-19-97)

Sec. 47-564. Inspections of vehicles.

The health officer shall conduct inspections of transporters' vehicles and required documentation when observed to be in the receipt or disposal of waste.
(Ord. No. 97-196, § 4, 2-19-97)

Sec. 47-565. Vehicle inspections.

Vehicle inspections that are conducted on a spot basis shall include:

(1) Identification check of the driver.

(2) Registration and title check of the vehicle.

(3) Review of manifests as required by local, state or federal law.

(4) Sampling of the contents of the registered vehicle if the health officer or police officer has the ability to properly sample the contents. Samples shall be taken by trained personnel. Split samples may be taken if the driver supplies a sample bottle for the driver's portion.

(Ord. No. 97-196, § 4, 2-19-97)

Sec. 47-566. Procedures.

The director of the department shall establish procedures for inspections to be conducted by health officers under this subdivision. Copies of the procedure shall be available for public inspection in the offices of the director of the department and may be purchased at the fees prescribed by law. To the extent practicable, the health officer shall notify affected persons of the adoption or amendment of the procedures.
(Ord. No. 97-196, § 4, 2-19-97)

Secs. 47-567—47-600. Reserved.

ARTICLE XII. STORM WATER DISCHARGES*

DIVISION 1. IN GENERAL

Sec. 47-601. Definitions.

As used in this article, the following terms shall have the meanings ascribed in this section unless the context of their usage clearly indicates another meaning:

Accessory structure shall mean a non-commercial structure of the type typically associated with a single-family residential dwelling unit, including, but not limited to, a garage, carport or barn.

Applicant shall mean the owner of the land on which new development or significant redevelopment will occur or his authorized agent.

Authorized city official shall mean the Director or a Deputy Director of Houston Public Works, the city engineer, or the engineer in charge of the stormwater quality permitting.

CFR shall mean the Code of Federal Regulations, as it may be amended from time to time.

Clean Water Act shall mean the federal Water Pollution Control Act, 33 U.S.C. § 1251, et seq., as amended from time to time.

Commercial activity shall mean any profit or not-for-profit activity involved in the manufacture, storage, transportation, distribution, exchange or sale of goods or commodities, or the sale or lease of real property in the provision of professional or nonprofessional services, or in the use of property for residential purposes other than single-family residential purposes.

Construction permit shall mean an official document or certification issued by either the building official or the city engineer authorizing performance of a specified construction activity, including, but not limited to, building permits, plumbing permits, electrical permits, HVAC permits, lateral storm sewer permits, excavation permits, utility construction permits, paving permits, demolition permits, and development permits required by section 19-17 of this Code.

Design manual shall mean the Houston Public Works Infrastructure Design Manual, as it may be amended from time to time.

Developed parcel shall mean a parcel that is not undeveloped.

Development shall mean (i) any activity that requires a development plat pursuant to Chapter 42 of this Code; or (ii) any activity that requires a construction permit.

Discharge shall mean the introduction or addition of any pollutant, storm water or other substance into the MS4, or to allow, permit or suffer any such introduction or addition.

Discharger shall mean a person who causes or threatens to cause a discharge.

Dwelling unit shall mean a structure, or a portion of a structure, that has independent living facilities including provisions for non-transient sleeping, cooking and sanitation.

EPA shall mean the Federal Environmental Protection Agency and any successor agency thereto.

High-risk facility shall mean any industrial or commercial facility the Director of Houston Public Works, or city engineer believes is contributing a pollutant to the MS4.

Home occupation shall mean a commercial activity conducted entirely in a dwelling unit or accessory structure by a resident thereof that is incidental and secondary to the use of the dwelling unit for residential purposes and does not change the character thereof.

Homeowners' association shall mean an incorporated or unincorporated association owned by or whose members consist primarily of the owners of the property covered by a dedicatory instrument and through which the

*__Editor's note__—Section 27 of Ord. No. 06-892 states that amendments passed by this ordinance shall take effect at 12:01 a.m. on September 1, 2006.

owners, or the board of directors or similar governing body, manage or regulate the single-family residential subdivision that has as one of its purposes the continued care and maintenance of all commonly-owned properties within the subdivision, particularly the areas established for storm water quality controls, and the authority and means to impose binding assessments upon the lot owners for that purpose.

Impervious surface shall mean any area that does not readily absorb water including, but not limited to, building roofs, parking and driveway areas, compacted or rolled areas that are not revegetated, sidewalks, and paved recreation areas.

Industrial activity certification or *IAC* shall mean a certification filed with the city pursuant to section 47-633 of this Code.

Lot shall mean an undivided tract of land intended for single-family residential use contained within a block and designated on a subdivision plat by alphabetical or numerical designation.

Municipal separate storm sewer system or *MS4* shall mean the system of conveyances owned or operated by the city or any co-permittee of the city that is designed or used for collecting or conveying storm water.

New development shall mean development of an undeveloped parcel of land one acre or larger without regard to the amount of land that will actually be disturbed. The term does not include development on an undeveloped and undivided parcel of one acre or more of one dwelling unit and one or more accessory structures. The term also does not include a stormwater detention basin that includes a water quality feature.

Non-structural control shall mean a maintenance or operational practice designed to prevent or reduce the potential of storm water runoff contact with pollution-causing activities.

Notice of Change or *NOC* shall mean a notice of change that is required by the TPDES General Permit No. TXR050000, the EPA NPDES General Permit for Storm Water Discharges From Construction Activities in Region 6, or any similar general permit to discharge storm water associated with industrial or construction activity that is issued by the EPA or TCEQ.

Notice of intent or *NOI* shall mean a notice of intent that is required by the TPDES General Permit No. TXR050000, the EPA NPDES General Permit for Storm Water Discharges From Construction Activities in Region 6, or any similar general permit to discharge storm water associated with industrial or construction activity that is issued by the EPA or TCEQ.

Notice of termination or *NOT* shall mean the notice of termination that is required by the TPDES General Permit No. TXR050000, the EPA NPDES General Permit for Storm Water Discharges From Construction Activities in Region 6, or any similar general permit to discharge storm water associated with industrial or construction activity that is issued by the EPA or TCEQ.

NPDES shall mean National Pollutant Discharge Elimination System.

NPDES permit shall mean a permit issued by the EPA (or by the state under authority assumed pursuant to Section 1342(b) of Title 33 of the United States Code) that authorizes the discharge of pollutants to waters of the United States, whether the permit is applicable on an individual, group, or general basis.

Parcel shall mean a contiguous piece of land that is under common ownership or control or that is part of a larger common plan of development or sale.

Person shall mean an individual, corporation, organization, governmental entity, business trust, partnership, association, or other legal entity, or an agent or an employee thereof.

Pollutant shall mean, but shall not be limited to, dredged soil, solid waste, incinerator residue, sewage, garbage, sewage sludge, filter backwash, munitions, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand,

cellar dirt, concrete saw slurry, and other material discharged into the MS4 or any waters of the United States.

Pollution shall mean the alteration of the physical, thermal, chemical or biological quality of, or the contamination of, any waters of the United States that renders the water harmful, detrimental or injurious to humans, animal life, vegetation or property or to public health, safety or welfare, or impairs the usefulness or public enjoyment of the water for any lawful or reasonable purpose.

Public utility shall mean a water line, sanitary sewer, storm sewer, pump station or lift station in a public right-of-way that is or will be owned and operated by the city or other political subdivision of the state for public purposes.

Publicly owned treatment works or *POTW* shall mean any device or system used in the treatment (including recycling and reclamation) of municipal sewage or industrial wastes of a liquid nature that is owned by the state or a municipality, and includes sewers, pipes, or other conveyances only if they convey wastewater to a POTW.

Reinspection shall mean revisiting a site to insure that a violation noted on the previous inspection report has been resolved. Reinspections are subject to the reinspection fee.

Representative storm event shall mean a storm event that is greater than one-tenth of an inch in magnitude and that occurs at least 72 hours after the previously measurable (greater than one-tenth of an inch rainfall) storm event.

Significant redevelopment shall mean increase of 0.2 acre or more to the impervious surface on a one acre or larger developed parcel, but does not include a stormwater detention basin that includes a water quality feature.

Single-family residential shall mean the use of a lot with one building designed for and containing not more than two dwelling units.

Storm water discharges associated with construction activity shall mean storm water discharges from construction activity, including clearing, grading, excavation and demolition activities. The term does not include discharges from facilities or activities excluded from the NPDES program under 40 CFR Part 122.

Storm water discharges associated with industrial activity shall have the meaning provided in Section 122.26(b)(14) of Title 40 of the CFR, other than subsection (x) of that Section.

Storm Water Management Handbook for Construction Activities shall mean the Storm Water Management Handbook for Construction Activities promulgated by the city, Harris County and Harris County Flood Control District, as it may be amended from time to time.

Storm water pollution prevention plan or *SWPPP* shall be a required element of approved construction plans. The SWPPP can be as simple as the Stormwater Pollution Prevention Plan Detail (DWG NO 01571-01).

Storm water quality management plan or *SWQMP* shall mean a plan prepared pursuant to the requirements of division 2 of this article and the design manual.

Storm water quality permit or *SWQ permit* shall mean a current, valid permit issued pursuant to division 2 of this article.

Structural control shall mean a structure or vegetative practice that is generally designed to reduce pollutant levels in storm water runoff.

Structure shall mean that which is built or constructed, an edifice or building of any kind, or any piece of work, including, but not limited to, a paved surface, that is artificially built up or composed of parts joined together in some definite manner. The term does not include a street or a public utility.

Substantial deviation shall mean a deviation that:

(1) Increases the designed flow rate by more than five percent;

(2) Increases or decreases the designed storage volume by more than five percent;

(3) Increases or decreases the designed water surface elevation by more than six inches; or

(4) Increases the risk of flooding caused by a 100-year storm event as that term is defined in chapter 19 of this Code.

SWQ permittee shall mean the holder of a SWQ permit.

TCEQ shall mean the Texas Commission on Environmental Quality and any successor agency thereto.

TPDES means the Texas Pollutant Discharge Elimination System that was assumed by the state from the EPA pursuant to Section 1342(b) of Title 33 of the United States Code.

Third-party agreement shall mean an agreement that satisfies the requirements of section 47-673(b) of this Code.

TPDES permit shall mean a permit issued by the TCEQ that authorizes the discharge of pollutants to water in the state, whether the permit is applicable on an individual, group, or general basis.

Undeveloped parcel shall mean a parcel on which there are no structures at the time that a construction permit or development plat is applied for or required.

Waters of the United States shall mean all waters that are currently used, were used in the past, or may be susceptible to use in interstate or foreign commerce; all interstate waters, including interstate wetlands; all other waters the use, degradation or destruction of which would affect or could affect interstate or foreign commerce; all impoundments of waters otherwise defined as "waters of the United States" under this definition; all tributaries of water identified in this definition; all wetlands adjacent to waters identified in this definition; and any other waters within the federal definition of "waters of the United States" in Section 122.2 of Title 40 of the CFR; but not including any waste treatment systems, treatment ponds, or lagoons designed to meet the requirements of the Federal Clean Water Act.

Wetlands shall mean an area that is inundated or saturated by surface or ground water at a frequency and duration sufficient to support and that under normal circumstances does support, a prevalence of vegetation typically adapted for life in saturated soil conditions. Wetlands generally include swamps, marshes, bogs and similar areas.

(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 02-399, § 95, 5-15-02; Ord. No. 06-892, §§ 2—5, 8-23-06; Ord. No. 2016-864, §§ 2, 3, 11-9-2016; Ord. No. 2018-11, §§ 34, 49, 1-10-2018)

Sec. 47-602. Penal provisions applicable.

(a) With the exception of section 47-741 of this Code, any person who violates any provision of this article shall be guilty of an offense and upon conviction thereof, shall be punished by a fine of not less than $250.00 nor more than $2,000.00 for each violation. A violation of section 47-741 of this Code shall be punishable by a fine of not more than $4,000.00. Each day in which any violation shall occur shall constitute a separate offense. Prosecution or conviction under this section shall not preclude any civil remedy or relief for a violation of this article.

(b) In addition to criminal prosecution, where applicable, the city shall have the right to seek the judicial remedies provided in section 47-603 of this Code for any violation of this article.

(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 2021-431, § 15, 5-26-2021)

Sec. 47-603. Judicial provisions applicable.

(a) The city, acting through the city attorney or any other attorney representing the city, is hereby authorized to file an action in a court of competent jurisdiction to:

(1) Enjoin any person from violating or threatening to violate the terms, conditions and restrictions of any permit issued under this article;

(2) Enjoin the violation or threatened violation of the provisions of this article; or

(3) Recover civil penalties for violation of the terms, conditions and restrictions of any permit authorized under this article;

(4) Recover civil penalties for violation of the provisions of this article; or

(5) Recover damages from the owner of a parcel in an amount adequate for the city to undertake any construction or other activity necessary to bring about compliance with this chapter.

(b) The city, acting through the city attorney or any other attorney representing the city, is hereby authorized to enter into agreements in lieu of litigation to achieve compliance with the terms, conditions and restrictions of any stormwater permit authorized under this article or the provisions of this article.

The city's authority in subsections (a) and (b) is in addition to all provisions of this Code relative to the definition of offenses and the provision of penalties for violations of such offenses.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 06-892, § 6, 8-23-06)

Sec. 47-604. Stop orders.

(a) Whenever any work authorized by a construction permit is being performed contrary to the provisions of divisions 2 or 3 of this article, or other pertinent laws or ordinances implemented through the enforcement of this article, the building official or the city engineer may order the work (other than work to cure a violation) stopped by notice in writing served on any persons performing the work or causing the work to be performed, and any such persons shall forthwith stop the work until authorized by the building official or the city engineer to proceed with the work.

(b) At the time a stop work order is issued, the person performing the work and the permit holder shall be given notice of a right to a hearing on the matter pursuant to Section 117.2 of the *Building Code* for permits authorized by that code or pursuant to section 47-608 of this Code for all other construction permits. Upon request, such a hearing shall be held within three business days unless the permit holder or person who was performing the work requests an extension of time. Any stop work order that has been issued shall remain in effect pending any hearing that has been requested unless the stop work order is withdrawn by the building official or the city engineer.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 02-399, § 96, 5-15-02; Ord. No. 2021-1037, § 20(Exh. I.57), 12-1-2021, eff. 4-1-2022)

Sec. 47-605. Nuisances.

An actual or threatened discharge to the MS4 that violates or would violate this article is hereby declared to be a nuisance and shall be subject to enforcement pursuant to this Code.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 06-892, § 7, 8-23-06)

Sec. 47-606. Emergency suspension of utility service and MS4 access.

(a) When the Director or a Deputy Director of the Houston Public Works, or the city engineer, determines that a person is causing or threatening to cause a discharge to the MS4 or a publicly owned treatment work in violation of this article that:

(1) Presents or may present an imminent and substantial danger to the environment or to the health or welfare of persons; or

(2) Presents or may present an imminent and substantial danger to the MS4 or waters of the United States;

the director or deputy director may, without prior notice, suspend city water service, sanitary sewer service, and MS4 discharge access to the person causing or threatening to cause the discharge when the Director or a Deputy Director of the Houston Public Works determines that the service or access is an instrumentality of or contributes to the unlawful discharge and suspension is necessary to stop the actual or threatened discharge.

(b) As soon as practicable after the suspension of service or MS4 discharge access, the city engineer shall notify the discharger of the suspension of service or access by delivering notice by hand to the person in charge of the premises for which service is terminated or access denied if such person is present on the premises. The city engineer shall send a notice by certified mail, return receipt requested, to the person and address identified in the city's water service records for the account at the property for which service is suspended or access denied. If there is no water service account, the city engineer shall send notice to the address of the owner of the property as shown on the Harris County Appraisal District's appraisal roll. The notice shall specify the basis for the suspension of service or access and shall order the discharger to cease the discharge or threatened discharge immediately.

(c) If the discharger fails to comply with an order issued under subsection (b), the city engineer may take such steps as the city engineer deems necessary to prevent or minimize damage to the MS4 or waters of the United States or to minimize the danger to persons.

(d) The city shall not reinstate suspended services or MS4 access to the discharger until:

(1) The discharger presents proof that the noncomplying discharge or threatened discharge has been eliminated and its cause determined and corrected;

(2) The discharger pays the city for all costs the city incurred in responding to, abating, and remediating the discharge or threatened discharge or otherwise provides financial assurance to cover such expenses; and

(3) The discharger pays the city for all costs the city will incur in reinstating service or access or otherwise provides financial assurance to cover such expenses.

(e) A discharger whose service or access has been suspended or disconnected may appeal such enforcement action pursuant to section 47-608 by filing a written request with the city engineer not later than the tenth day after the day the service is suspended or the access denied.

(f) If the discharger does not pay the costs as provided by this section, the city shall be entitled to a lien against the property that is the subject of the suspension of service or access to recover its response costs pursuant to the procedures set out in section 10-457 of this Code.

(g) The remedies provided in this section are in addition to any other remedies set out in this article. Exercise of this remedy shall not be a bar against, nor a prerequisite for, taking other action against a discharger.

(h) A person commits an offense if the person reinstates water service, sanitary sewer service or MS4 access that has been terminated pursuant to this section without the prior written approval of the city engineer.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 2016-864, § 4, 11-9-2016; Ord. No. 2018-11, § 49, 1-10-2018)

Sec. 47-607. Non-emergency suspension of utility service and MS4 access.

(a) When the city engineer determines that a person is discharging or threatening to discharge to the MS4 in violation of this article, the city engineer may terminate city water supply, sanitary sewer connection and MS4 access to the person discharging or threatening to discharge to the MS4 if the city engineer determines that:

(1) The service or access is an instrumentality of or contributes to the unlawful discharge or threatened discharge; and

(2) Termination would prevent, abate or reduce:

a. The discharge of a pollutant; or

b. The commission of any other act or activity which in itself or in conjunction with any other discharge or activity causes, continues to cause, or may cause pollution of any of the waters of the United States.

(b) The city engineer shall notify a discharger of the proposed suspension of its water supply, sanitary sewer connection or MS4 access pursuant to this section before the service is suspended

or access denied. Notice shall be mailed, certified mail, return receipt requested, to the name and address on the city water service records for the account of the property where service is proposed to be suspended or access denied. If there is no water service account, the city engineer shall send notice to the address of the owner of the property as shown on the Harris County Appraisal District's appraisal roll. The notice shall specify the basis for the proposed suspension of service or access and shall order the discharger to cease the discharge or threatened discharge immediately. The discharger may request a hearing prior to termination pursuant to section 47-608 by filing a written request with the city engineer not later than the tenth day after the day the notice is deposited in the mail. Upon timely receipt of a request for a hearing, the city shall not suspend service or deny access until after the hearing officer renders a decision authorizing the suspension of service or denial of access. If the discharger does not request a hearing within the time specified, the city shall suspend the service or deny the access as described in the notice.

(c) The city shall not reinstate suspended services or MS4 access to the discharger until:

(1) The discharger presents proof that the unlawful discharge or threatened discharge has been eliminated and its cause determined and corrected; and

(2) The discharger pays the city for all costs the city will incur in reinstating service or MS4 access or otherwise provides financial assurance to cover such expenses.

(3) The remedies provided by this section are in addition to any other remedies set out in this chapter. Exercise of this remedy shall not be a bar against, nor a prerequisite for, taking other action against a discharger.

(d) A person commits an offense if the person reinstates water service, sanitary sewer service or MS4 access suspended pursuant to this section without the prior approval of the city engineer. (Ord. No. 01-800, § 3, 8-29-01; Ord. No. 06-892, § 8, 8-23-06)

Sec. 47-608. Appeals; hearing.

Any person whose permit is denied or revoked, whose water supply, sanitary sewer connection or MS4 access has been terminated or may be terminated, or who is otherwise aggrieved by a notice, action or decision by the city engineer or building official undertaken pursuant to this article shall, upon written request, be entitled to a hearing to be conducted by a hearing officer designated by the city engineer, who shall promulgate rules for hearings. The decision of the hearing officer shall be final. For an appeal filed pursuant to section 47-607, the hearing officer shall render a decision within five days after the close of the hearing. Where time is of the essence, the aggrieved person may so advise and state the reason therefore in the request and, to the extent reasonably warranted and allowed by the circumstances, an expedited hearing of and decision on the issue shall be afforded. (Ord. No. 01-800, § 3, 8-29-01; Ord. No. 06-892, § 9, 8-23-06)

Sec. 47-609. Compliance monitoring; methods.

(a) The city engineer shall have the right to install at a facility that discharges storm water to the MS4, or to require the installation of, such devices as are necessary to conduct sampling or metering of the discharger's operations.

(b) The city engineer may require any facility that the city engineer determines has discharged or is discharging a pollutant or any substance that causes, continues to cause, or will cause pollution, to conduct specified sampling, testing, analysis and other monitoring of its storm water discharges. The city engineer may specify the frequency and parameters of any required sampling or monitoring.

(c) The city engineer may require any facility that the city engineer determines has discharged or is discharging a pollutant or any substance that causes, continues to cause, or will cause pollution, to install monitoring equipment as necessary at the discharger's expense. The discharger, at its own expense, shall at all times maintain the facility's sampling and monitoring equipment in a safe and operating condition.

Each device used to measure storm water flow and quality must be calibrated to ensure accuracy. The city engineer may also require monitoring of non-storm water discharges if the city engineer reasonably believes that such discharges violate the city's MS4 permit requirements.

(d) Upon written request of the city engineer, the facility shall submit in writing the results of any sampling or monitoring undertaken pursuant to the requirements of this article.

(e) The facility shall maintain for three years the results of any monitoring undertaken pursuant to this article as well as any supporting documentation.

(f) All monitoring required by this article shall be performed in accordance with the methodologies and protocols established in Chapter 319 of Title 30 of the Texas Administrative Code, as amended from time to time.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 06-892, § 10, 8-23-06)

Sec. 47-610. Regulations and forms authorized.

The city engineer and building official shall jointly promulgate regulations and forms regarding compliance with the requirements of this article. Such regulations and forms shall be available:

(1) At the office of the city engineer; and

(2) At the office of the building official.

The regulations and forms established hereunder may be amended or supplemented from time to time as is mutually agreeable to the city engineer and the building official.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 06-892, § 11, 8-23-06)

Sec. 47-611. Cumulative effect.

(a) This article is cumulative of other requirements imposed by ordinances and regulations of the city. To the extent of any inconsistency, the more restrictive provision shall govern.

(b) Any authorization granted by or any affirmative defense to a violation allowed pursuant to this article does not excuse compliance with federal or state law or any other provisions of this Code or any other city ordinance relating to the activities regulated by this article.
(Ord. No. 01-800, § 3, 8-29-01)

Sec. 47-612. Remedies not exclusive.

The remedies listed in this article are not exclusive of any other remedies available under any applicable federal, state or local law, and it is within the discretion of the city to seek cumulative remedies. The suspension, revocation, cancellation, or denial of any permit issued under this article shall not prohibit imposition of any civil or criminal penalty. The imposition of a civil or criminal penalty shall not prohibit any other remedy and shall not prohibit the suspension, revocation, or denial of any permit issued under this article.
(Ord. No. 01-800, § 3, 8-29-01)

Sec. 47-613. Compliance, inspections and investigations.

(a) When it is necessary to make an inspection to enforce the provisions of this chapter or to inspect or investigate conditions related to water quality, an authorized city official may enter a building or premises at reasonable times to inspect or to perform the duties imposed by this article or to inspect or review records, reports, data, plans, or other documents relating to compliance with this chapter, the site's SWPPP, or with any TPDES or NPDES storm water permit. If the building or premises is occupied, credentials must be presented to the occupant and entry requested. If the building or premises is unoccupied, the authorized city official shall first make a reasonable effort to locate the owner or other person having charge or control of the building or premises and request entry. If refused, the authorized city official shall have recourse to the remedies provided by law to secure entry.

(b) The findings related to a site inspection shall be recorded on an inspection report form, a copy of which report shall be provided for the person in charge of the site. The authorized city official shall maintain a copy of the inspection report in the departmental records.

(c) Upon request of the operator of a site, the authorized city official may allow an extension of the time in which to correct a violation. In determining whether to allow an extension and the length of the extension, the authorized city official shall consider the degree of risk, if any, posed by the violation and the time reasonably required to correct it. No extension shall be granted if the authorized city official determines that a significant risk is posed to the public or environment.

(d) If the authorized city official determines that a reinspection is necessary to ascertain that the conditions responsible for a violation no longer exist, the operator shall be assessed the reinspection fee established in Section 118.1.5 of the *Building Code* in conjunction with that reinspection, and a hold will be placed on all permits and inspections on the site.

(e) A facility that is required to or agrees to cease operations under the provisions of this section shall not resume operations until an authorized city official does a reinspection and determines that the conditions responsible for the requirement to cease operations no longer exist.

(f) The authorized city official shall conduct all reinspections required under this section within a reasonable period of time. Other inspections and permits shall not be renewed or approved until all outstanding fees assessed under this chapter have been paid.

(g) When, due to emergency, immediate entry is necessary to protect life or property, or when the authorized city official shall have first obtained a proper inspection warrant or other remedy provided by law to secure entry, no owner, occupant or any other person having charge, care or control of any building or premises shall fail or neglect, after proper request is made as herein provided, to promptly permit entry therein by the authorized city official for the purpose of inspection and investigation pursuant to this article or other laws relating to water quality.

(h) Any temporary or permanent obstruction to safe and easy access to a facility that is to be inspected or sampled must be promptly removed by the discharger at the written or verbal request of the city engineer and may not be replaced. The cost of clearing access to the facility shall be borne by the discharger.

(i) The city engineer, utility official, building official, health officer or any city peace officer is hereby authorized to undertake the activities authorized by this section.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 06-892, §§ 12, 13, 8-23-06; Ord. No. 2016-864, § 5, 11-9-2016; Ord. No. 2021-1037, § 20(Exh. I.58), 12-1-2021, eff. 4-1-2022)

Secs. 47-614—47-630. Reserved.

DIVISION 2. POST-CONSTRUCTION CONTROLS ON NEW DEVELOPMENT AND SIGNIFICANT REDEVELOPMENT

Subdivision A. In General

Sec. 47-631. Applicability.

(a) This division shall apply to new development and significant redevelopment within the city (i) of any kind by a private individual or entity, except for the construction of major thoroughfares and major collector streets designated on the City's Major Thoroughfare and Freeway Plan and any public utilities in the rights-of-way for such thoroughfares and streets, or (ii) of a structure, parking or storage area, or park or recreational facility by a governmental entity.

(b) If the use of a parcel that was previously excluded from the definition of new development because it was development on an existing undeveloped and undivided parcel of five acres or more of one dwelling unit and one or more accessory structures changes to a commercial activity that is not a home occupation, or the property is further subdivided, the owner of the parcel shall at that time comply with all requirements of this article.

(c) This division shall not apply to demolition authorized by action of the neighborhood protection official pursuant to chapter 10 of this Code.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 02-528, § 14n., 6-19-02)

Sec. 47-632. General requirements.

(a) Subject to the limitation in subsection (c) of this section, all new development and significant redevelopment subject to this article shall either obtain and continuously maintain a storm water quality permit or file an industrial activity certification. If a parcel subject to the requirements of this section is located partially in the city and partially in the unincorporated area of Harris County and storm water from any portion of the parcel drains into the MS4, a SWQ permit or IAC shall be required for the parcel. If a parcel subject to the requirements of this subsection is located partially in the city and partially in the unincorporated area of a county other than Harris County, a SWQ permit or IAC shall be required for the parcel.

(b) The SWQ permit is in addition to any other construction permit required for the new development or significant redevelopment.

(c) Subject to the limitations in this subsection, the obligation to have and comply with a SWQ permit shall continue in perpetuity and shall run with all the land covered by the original SWQ permit. The owner of the land shall have the obligation to have and comply with a SWQ permit unless that obligation is transferred to another person pursuant to section 47-673 of this Code. If pursuant to sections 47-673(a)(1) or 47-673(b) of this Code the obligation to comply is transferred to a homeowners' association or a person other than the city, the homeowners' association or the other person shall have the obligation to maintain and comply with a SWQ permit. If pursuant to section 47-673(a)(2) of this Code, the obligation to comply is transferred to the city, the obligation to obtain and continuously maintain a SWQ permit for the land covered by the SWQ permit shall cease.

(d) For new development or significant redevelopment that includes, in whole or in part, the platting of a single-family residential subdivision, a SWQ permit for the single-family residential portion of the subdivision shall be obtained before the release of the plat for recordation. For all other new development or any significant redevelopment, a SWQ permit shall be obtained before the issuance of any construction permit for the new development or significant redevelopment.
(Ord. No. 01-800, § 3, 8-29-01)

Sec. 47-633. Industrial activity certification.

If the new development or significant redevelopment occurs at a facility that either has or will have permit coverage for storm water discharges from industrial activity issued by the state before the industrial activity will commence, the operator shall either submit an industrial activity certification in a form approved by the city engineer or obtain a SWQ permit. The industrial activity certification shall include any of the following:

(1) A copy of the application for an individual permit from the state for storm water discharges from industrial activity at the facility;

(2) A copy of the permit issued by the state for storm water discharges from industrial activity at the facility;

(3) A copy of the NOI for coverage under a general permit for storm water discharges associated with industrial activity issued by the state;

(4) A statement of commitment to file an application for an individual permit from the state for storm water discharges from industrial activity at the facility; or

(5) A statement of commitment to file a NOI for coverage under a general permit for storm water discharges associated with industrial activity issued by the state.

(Ord. No. 01-800, § 3, 8-29-01)

Sec. 47-634. Denial of plat recordation.

The planning and development department shall not release for recordation a subdivision plat for new development or significant redevelopment consisting in whole or in part of single-family residential lots that does not have a SWQ permit for the residential lots.
(Ord. No. 01-800, § 3, 8-29-01)

[The next page is 3351]

Sec. 47-635. Denial of construction permit.

(a) Neither the city engineer nor the building official shall issue any construction permit required for new development or significant redevelopment that has not filed an IAC or that has not obtained or is not in compliance with a SWQ permit.

(b) If the SWQMP on which the SWQ permit is based includes one or more structural controls, neither the building official nor the city engineer shall issue any construction permit for streets, public utilities, demolition or storm water controls for all or part of the new development or significant redevelopment unless the requirements of section 47-652 of this Code have been met.

(c) If the SWQMP on which the SWQ permit is based includes one or more structural controls, neither the building official nor the city engineer shall issue any construction permit, except permits for streets, public utilities, demolition or storm water controls, for all or part of the new development or significant redevelopment unless the city engineer has confirmed the proper installation of all structural controls included in the SWQMP for all or that portion of the new development or significant redevelopment and the SWQ permittee has satisfied the requirements of section 47-672(a) of this Code;

(d) If the SWQMP on which the SWQ permit is based does not include one or more structural controls, neither the building official nor the city engineer shall issue any construction permit for all or a part of the new development or significant redevelopment unless the SWQ permittee has satisfied the requirements of section 47-672(b) of this Code.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 2016-864, §§ 6, 7, 11-9-2016)

Sec. 47-636. Denial of utility connections.

The utility official shall not permit any new development or significant redevelopment to receive any service from the city water distribution or wastewater collection systems unless, at the time of the application for service, the new development or significant redevelopment has and is in compliance with a SWQ permit or an industrial activity certification.
(Ord. No. 01-800, § 3, 8-29-01)

Sec. 47-637. Denial of certificate of occupancy.

The building official shall not issue a certificate of occupancy for any new development or significant redevelopment unless the new development or significant redevelopment has and is in compliance with a SWQ permit or an industrial activity certification.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 2016-864, § 8, 11-9-2016)

Sec. 47-638. Fees.

The fees for this article are set forth in the city fee schedule. Payment of any applicable fees when due is a condition of the processing of any application, renewal, amendment or structural control maintenance agreement under this article.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 06-892, § 14, 8-23-06; Ord. No. 2011-1168, § 13, 12-14-2011)

Secs. 47-639—47-650. Reserved.

Subdivision B. Storm Water Quality Permit Process

Sec. 47-651. Storm water quality permit application generally.

An applicant for a SWQ permit shall submit a storm water quality permit application on the form specified by the city engineer. The application shall include a storm water quality management plan that:

(1) Complies with the design manual;

(2) Includes a proposed inspection checklist, maintenance plan, and associated construction drawings; and

(3) Is sealed by a professional engineer licensed as such in Texas.

Each application for a SWQ permit shall be accompanied by the applicable application fee. (Ord. No. 01-800, § 3, 8-29-01)

Sec. 47-652. Bond.

(a) Except as provided in subsection (d), if the SWQMP includes structural controls, the applicant shall provide a performance bond that satisfies the following requirements:

(1) The bond shall name the owner or operator of the parcel subject to the SWQ permit as principal and a corporate bonding company licensed to conduct business in the state as surety to secure the city that the proposed structural controls to be covered by the bond will be constructed and installed in accordance with the SWQ permit, the SWQMP, and any plans and specifications contained therein, and securing the city against loss, damage, claim, or liability in connection therewith.

(2) The bond shall be in a sum that includes at a minimum the total estimated costs of the controls to be constructed.

(3) The bond shall be in favor of and for the use and benefit of the city.

(4) The bond shall describe, by reference to the number of the application together with such other brief descriptive matter as is necessary, the work proposed to be done or to be covered by the SWQ permit in connection with which the bond is given.

(5) The bond required by this section shall be conditioned that the work therein referred to will be performed in strict and full accordance with the terms and provisions of the SWQ permit, the SWQMP, and the plans and specifications therein; and that if any of the work is not performed in accordance therewith, or if any materials not in accordance therewith are used in the process of such work, such failure and default shall be promptly remedied and any defective material or work removed and replaced with material and by workmanship in accordance with the terms of the SWQ permit, the SWQMP, and plans and specifications therein without cost or expense to the city up to the sum of the bond. The bond must guarantee materials and workmanship for a period of one year after the city's initial inspection that confirms proper installation of the controls.

(6) The bond shall provide that the surety company will notify the city in writing 30 days prior to a cancellation, nonrenewal, or material change in the policy. In the case of nonrenewal or cancellation, the SWQ permittee shall then have 21 days after the surety company's notice to the city to replace the coverage or the SWQ permittee's SWQ permit shall be revoked after notice and the opportunity for a hearing without further action on the part of the city.

(7) The bond shall be in a form approved by the city attorney and must be accompanied by a power of attorney or other convincing evidence of the issuing agent's authority to act for the surety company and must meet the requirements of Article 7.19-1(b) of the Insurance Code.

(8) The bond shall be furnished to the city prior to the issuance of a construction permit for any construction on the parcel.

(b) The applicant must present to the city its estimate of the costs to construct the structural controls included in the SWQMP, and the city will assess the reasonableness of the estimate. If the city determines that the estimate is insufficient and the applicant does not provide a substitute bond in an amount deemed sufficient by the city, the city shall deny the SWQ permit that is supported by the bond.

(c) The bond shall be released one year after the date of the city's inspection that confirms that the structural controls covered by the bond have been properly installed and are performing as intended.

(d) A bond shall not be required if all structural controls will be completed and the certifications required by section 47-672(a) will be filed before any additional construction, including the construction of streets and utilities, commences.

(e) If the project is on public property, the owner or operator shall also provide a payment bond to the city to secure the payment of mechanics, materialmen and suppliers liens.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 06-892, § 15, 8-23-06)

Sec. 47-653. Issuance of SWQ permit.

(a) The city engineer shall review the SWQ permit application and the SWQMP and either approve or deny the application based on compliance with the applicable provisions of this article and the design manual. The city engineer shall also deny the application if any statement made in the application or any documents submitted therewith were known to be false or should have been known to be false by the applicant.

(b) The SWQ permit shall be issued to the owner of the land covered by the SWQ permit and shall run with the land and be binding on all subsequent owners unless responsibility for compliance has been transferred pursuant to section 47-673 of this Code.

(c) The applicant may seek a hearing for reconsideration of the denial of a SWQ permit pursuant to section 47-608 of this article by filing a written request with the city engineer not later than the tenth day after the applicant has been notified that the application has been denied.

(d) The granting of a SWQ permit does not imply that federal or state storm water management requirements or criteria have been met.
(Ord. No. 01-800, § 3, 8-29-01)

Sec. 47-654. Amendment of SWQ permit.

(a) An amendment to the SWQ permit is required in the following events:

(1) The person responsible for compliance with the SWQ permit changes either as a result of:

(A) The transfer of ownership of the parcel to a different person; or

(B) The transfer of the obligation to comply with this Code to a third-party permittee pursuant to section 47-673 of this Code.

(2) Any substantial deviation is made to a structural control or any change is made to a non-structural control in the SWQMP on which the SWQ permit is based; or

(3) The subsequent new development or significant redevelopment of any parcel covered by that SWQ permit (unless the subsequent new development or significant redevelopment has already been anticipated and provided for in the SWQMP on which the SWQ permit is based).

(b) Applications to amend a SWQ permit to satisfy subsection (a)(1) of this section shall be submitted within 30 days after any such transfer to a subsequent owner or to a third-party permittee. Amendments to a SWQ permit to satisfy subsections (a)(2) and (a)(3) of this section must be obtained before commencement of the activity that triggers the need for the amendment.

(c) An application to amend a SWQ permit to transfer the SWQ permit to a subsequent owner or a third-party permittee shall include an attestation by the subsequent owner or third-party permittee that he has read the SWQMP and agrees to adhere to the operation and maintenance requirements specified therein.

(d) To amend a SWQ permit, the SWQ permittee must submit a revised SWQMP, including any revisions to the inspection checklist, maintenance plan and associated construction drawings, together with the appropriate form and amendment fee. The city engineer shall review the amendment application and either approve or deny the amendment application based on compliance with the applicable provisions of this article and the design manual.

(e) If the amendment includes the transfer of responsibility for compliance with this division to a third-party permittee pursuant to section 47-673(b) of this Code, the legal agreement documenting that transfer shall be referred to the city attorney for a determination of whether

the legal agreement is adequate to assure compliance. If the city attorney determines that the legal agreement is not adequate and the applicant does not provide a substitute legal agreement deemed adequate by the city attorney, the amendment application shall be denied.

(f) The applicant may seek a hearing to reconsider the denial of an amendment to a SWQ permit pursuant to section 47-608 of this Code.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 2016-864, § 9, 11-9-2016)

Sec. 47-655. Revocation of SWQ permit.

(a) The city engineer shall revoke a SWQ permit after notice and opportunity for a hearing pursuant to section 47-608 of this article if he finds that:

(1) The applicant knew or should have known that a statement made in the application for the SWQ permit was false;

(2) The SWQ permittee has violated any provision of its SWQ permit or of this division including, but not limited to, failure to amend a SWQ permit as required by section 47-654 of this Code;

(3) The SWQ permittee or anyone acting on his behalf commits or threatens to commit an act of violence against a city official either on or off the job for the purpose of intimidating the official so that he will not perform his duties under this division; or

(4) The SWQ permit has been issued in error.

(b) The city engineer shall send a written notification by certified mail, return receipt requested, to the SWQ permittee informing him of the grounds for revoking his SWQ permit. The SWQ permittee may request a hearing pursuant to section 47-608 by filing a written request with the city engineer not later than the tenth day after notification by the city of the grounds for revocation.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 06-892, § 16, 8-23-06)

Sec. 47-656. Duration.

An initial SWQ permit shall be valid for one year from date of issuance, but may be renewed. All subsequent renewals of a SWQ permit shall be valid for one year.
(Ord. No. 01-800, § 3, 8-29-01)

Sec. 47-657. Renewal.

To renew a SWQ permit, the SWQ permittee shall submit a renewal application on a form prescribed by the city engineer and the applicable renewal fee not more than 30 days but not less than five days prior to expiration of the SWQ permit. As part of the renewal application, the SWQ permittee shall certify that all controls have been maintained as specified in the SWQMP. If structural controls are used, a state licensed professional engineer shall also certify that all structural controls still generally conform to the plans and technical specifications in the SWQMP. The city engineer shall deny a renewal application if it is found that the SWQ permittee failed to seek an amendment to its SWQ permit if required to do so pursuant to section 47-654 of this Code.
(Ord. No. 01-800, § 3, 8-29-01)

Sec. 47-658. Late renewals of permit.

The authorized city official shall accept and process a late filed application for the renewal of a permit if the application is filed or tendered for filing within the 30 day period following the permit expiration date and if the applicant demonstrates that the failure to timely file was based upon an error or misunderstanding and was not the result of a conscious indifference to the requirements for renewal.
(Ord. No. Ord. No. 2016-864, § 10, 11-9-2016)

Secs. 47-659—47-670. Reserved.

Subdivision C. Storm Water Quality Permit Requirements

Sec. 47-671. Incorporation by reference.

The SWQMP, including the proposed inspection checklist, maintenance plan and associated construction drawings, shall be incorporated into

the SWQ permit by reference. Failure to comply with the SWQMP shall be a violation of this article.
(Ord. No. 01-800, § 3, 8-29-01)

Sec. 47-672. Certifications and attestations.

(a) If the SWQMP on which the SWQ permit is based includes one or more structural controls, the SWQ permittee shall submit a certificate sealed by a professional engineer licensed as such in Texas within 14 days after the structural controls specified in the SWQMP for all or that part of the new development or significant redevelopment have been installed. The certificate shall certify that all structural controls are in general accordance with the plans and technical specifications in the SWQMP. At the same time this certificate is filed, the SWQ permittee shall also submit an attestation that he has read the SWQMP and agrees to adhere to the operation and maintenance requirements specified therein.

(b) If the SWQMP on which the SWQ permit is based does not include one or more structural controls, the SWQ permittee shall, before the issuance of a construction permit for any structure on land included in the SWQMP, submit an attestation that he has read the SWQMP and agrees to adhere to the operation and maintenance requirements specified therein.
(Ord. No. 01-800, § 3, 8-29-01)

Sec. 47-673. Transfer of permit; third-party permittees.

(a) The provisions of this subsection (a) shall apply to subdivisions that include lots for single-family residential use. Prior to the sale of the first lot in the subdivision or any section thereof, the owner of land that is being subdivided, in whole or in part, into single-family residential lots shall transfer the obligation to comply with all requirements of this division to a homeowners' association established for all or that part of the subdivision. The homeowners' association must have fee simple title to all structural controls and, at a minimum, an easement in favor of the homeowners' association allowing access to maintain structural controls or to implement non-structural controls. Further, the owner must require that any homeowners' association for the subdivision have the authority to impose fees or otherwise generate monies to fund operation and maintenance measures and bond requirements. After a homeowners' association complying with the provisions of this subsection has been established, the owner may seek to amend the SWQ permit pursuant to section 47-654 of this Code to transfer the SWQ permit to the homeowners' association. Until the city has approved the transfer to the homeowners' association, the owner shall remain responsible for compliance with the requirements of this division;

(b) The provisions of this subsection (b) shall apply to all new development or significant redevelopment that is not governed by subsection (a) above. The SWQ permit may be transferred to a person other than the owner of the land subject to the SWQ permit if the person and the owner enter into a binding legal agreement that meets the requirements of this subsection. The person must agree to comply with the requirements of this division and with the terms and conditions of the SWQ permit, including adherence to the operation and maintenance requirements specified therein. The third-party agreement shall grant fee simple title to all structural controls to the person, provide an easement if necessary to allow access by person across the owner's property to maintain structural controls or to implement non-structural controls, and if necessary, to allow storm water from the owner's property to drain across any adjacent property to a designated structural control. The legal agreement shall also provide that in the event of its termination for any reason, including by either choice or default, the obligation to comply with the provisions of this division shall revert to the owner of the land.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 2016-864, § 11, 11-9-2016)

Sec. 47-674. Reserved.

Editor's note—Ord. No. 2016-864, § 12, adopted November 9, 2016, repealed § 47-674 in its entirety. Formerly said section pertained to assumption of maintenance requirements and derived from Ord. No. 01-800, § 3, 8-29-01.

Sec. 47-675. Reserved.

Editor's note—Ord. No. 2016-864, § 12, adopted November 9, 2016, repealed § 47-675 in its entirety. Formerly said section pertained to accounting for structural control maintenance agreements and derived from Ord. No. 01-800, § 3, 8-29-01.

Sec. 47-676. Recordation.

(a) The SWQ permit requirements for each parcel shall be recorded in the real property records the county in which the parcel is located. The recordation shall note that none of the structural or non-structural controls on or for the parcel may be changed from the plans and technical specifications in the SWQ permit for the parcel, except as may otherwise be provided in this article.

(b) For new development that includes the platting of a reserve tract, a notation shall be placed on the subdivision plat that a SWQ permit must be obtained before the issuance of any construction permit for a structure on all or a part of the reserve tract.

(c) Third-party permittees: For subdivisions of lots for single-family residences, the homeowners' association agreement or structural control maintenance agreement shall be recorded for all parcels in the subdivision at the time of the transfer of the SWQ permit to the homeowners' association. For other new development or significant redevelopment for which there is a third-party permittee, the third-party agreement shall be recorded for all parcels subject to the rights and obligations specified in the agreement at the time of the transfer of the SWQ permit to the third-party permittee.

(d) The SWQ permit applicant or, if the SWQ permit has already been issued, the SWQ permittee, shall pay all recording fees required by the county clerk's office.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 06-892, § 17, 8-23-06)

Secs. 47-677—47-690. Reserved.

DIVISION 3. STORM WATER DISCHARGES ASSOCIATED WITH CONSTRUCTION ACTIVITY

Sec. 47-691. Applicability.

This division shall apply to all sites with a construction permit located within the city that have storm water discharges associated with construction activity.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 2016-864, § 13, 11-9-2016)

Sec. 47-692. Unpermitted discharges prohibited.

A person who is the operator of a site with a construction permit that has storm water discharges associated with construction activity commits an offense if the person discharges, or causes to be discharged, storm water associated with construction activity without first having obtained an NPDES or TPDES permit, or an approved SWPPP to do so.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 2016-864, § 14, 11-9-2016)

Sec. 47-693. Submission of NOI.

(a) The operator of a facility required to have an NPDES or TPDES permit to discharge storm water associated with construction activity shall submit a certification that he has submitted an NOI to the EPA or TCEQ, a copy of that NOI, and a copy of a site plan detailing the location of erosion control measures to the city engineer or the building official prior to obtaining a construction permit for that activity.

(b) A person commits an offense if the person operates a facility that is discharging storm water associated with construction activity without having submitted a copy of the NOI to do so to the city.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 06-892, § 3, 8-23-06)

Sec. 47-694. Submission of NOT.

(a) If required to submit an NOT to EPA pursuant to an NPDES or TPDES permit to discharge storm water associated with construc-

tion activity, an operator shall submit a certification that he has submitted an NOT to the EPA or TCEQ and a copy of that NOT to the city engineer at the same time the operator submits the NOT to the EPA or the TCEQ as applicable. If final stabilization as required by EPA has not been achieved at the time the operator submits the NOT, the operator shall also submit a copy of the NOI for the operator who is assuming responsibility for the site.

(b) A person subject to the requirements of subsection (a) of this section commits an offense if the person fails to submit a copy of the NOT to the city.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 06-892, § 3, 8-23-06)

Sec. 47-695. Compliance with permit.

(a) A facility that has storm water discharges associated with construction activity shall be operated in strict compliance with the requirements of its NPDES or TPDES permit or its construction permit to discharge storm water associated with construction activity.

(b) The storm water pollution prevention plan implemented to satisfy the requirements of an NPDES or TPDES permit to discharge storm water associated with construction activity shall comply with the storm water management handbook for construction activities. Construction sites that are not subject to an NPDES or TPDES permit due to their small size are still subject to their approved SWPPP.

(c) A person commits an offense if the person operates a site with a construction permit that has storm water discharges associated with construction activity in violation of the site's construction, NPDES or TPDES permit to discharge storm water associated with construction activity.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 2016-864, § 15, 11-9-2016)

Sec. 47-696. Modification of storm water pollution prevention plans.

(a) The city engineer and the building official may require the operator of a facility that has storm water discharges associated with construction activity to modify the facility's storm water pollution prevention plan if, in the best professional judgment of the city engineer or the building official, the storm water pollution prevention plan does not comply with the requirements of the facility's NPDES or TPDES permit to discharge storm water associated with construction activity.

(b) Notification of the deficiencies in a facility's storm water pollution prevention plan shall be made in writing, and the facility operator will be given a reasonable amount of time, not to exceed 30 days, to make the necessary changes in the storm water pollution prevention plan.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 06-892, § 18, 8-23-06)

Secs. 47-697—47-710. Reserved.

DIVISION 4. STORM WATER DISCHARGES FROM INDUSTRIAL AND HIGH RISK FACILITIES

Subdivision A. Storm Water Discharges Associated With Industrial Activity

Sec. 47-711. Unpermitted discharges prohibited.

(a) A person who is the owner or operator of a facility that has storm water discharges associated with industrial activity commits an offense if the person discharges, causes to be discharged, or threatens to discharge storm water associated with industrial activity without having first obtained an NPDES or TPDES permit to do so.

(b) A person who is the owner or the operator of a facility that has storm water discharges associated with industrial activity commits an offense if the person submits a certification pursuant to section 47-724 and fails to comply with the applicable standards established by the TCEQ.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 06-892, § 19, 8-23-06)

Sec. 47-712. Submission of NOI.

(a) A person who is the owner or the operator of a facility that has storm water discharges associated with industrial activity shall submit to the authorized city official a copy of:

(1) The notice of intent to obtain coverage under TPDES permit number TXR050000 for the facility;

(2) The notice of intent to obtain coverage under any other TPDES general storm water permit for the facility;

(3) The individual TPDES storm water permit for the facility; or

(4) The no exposure certification form submitted to TCEQ for the facility pursuant to the provisions of TPDES permit number TXR050000.

(b) A copy of the NOI or the no exposure certification form shall be submitted to the city no later than 14 calendar days after filing the NOI or no exposure form with the TCEQ for such coverage. A copy of the individual TPDES permit shall be submitted to the city no later than 14 calendar days after TCEQ signs the permit.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 06-892, § 3, 8-23-06; Ord. No. 2016-864, § 16, 11-9-2016)

Sec. 47-713. Submission of NOT.

(a) A person who is the owner or operator of a facility that has storm water discharges associated with industrial activity shall submit to the authorized city official a copy of an NOT for the facility which shall include any information required for notice of termination under TPDES permit number TXR050000 or any other TPDES general storm water permit, whenever:

(1) All storm water discharges associated with industrial activity are eliminated at the facility; or

(2) The operator of the facility changes.

(b) The copy of the NOT shall be submitted no later than 24 calendar days after either all storm water discharges associated with industrial activity are eliminated at the facility or the operator of the facility changes.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 2016-864, § 17, 11-9-2016)

Secs. 47-714—47-720. Reserved.

Subdivision B. Monitoring and Reporting

Sec. 47-721. Applicability.

This subdivision shall apply to municipal landfills, hazardous waste treatment, disposal and recovery facilities, facilities that are subject to Section 11023 of Title 42 of the United States Code, as it may be amended from time to time, and other municipal waste treatment, storage or disposal facilities (including, but not limited to, POTWs, transfer stations and commercial incinerators). This subdivision shall also apply to high-risk facilities that the Director of Houston Public Works, or city engineer believes have the potential to contribute a pollutant to the MS4.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 2016-864, § 18, 11-9-2016; Ord. No. 2018-11, § 49, 1-10-2018)

Sec. 47-722. Designation as a high risk facility.

(a) The city engineer shall promulgate regulations to determine whether a facility is contributing a substantial pollutant loading to the MS4 and so should be designated as a high-risk facility. The city engineer shall consider, but shall not be limited to, such factors as the nature of the activities at the facility and drainage patterns in the area of the facility. The city engineer shall provide the facility with written notice of the facility's designation.

(b) The city engineer shall send written notification by certified mail, return receipt requested, to each high-risk facility designated pursuant to subsection (a) of this section informing the operator of that designation. The notice shall specify the parameter or parameters that the facility will have to monitor for pursuant to section 47-723(b)(12) or section 47-723(c)(5), whichever is applicable. The facility operator may appeal the designation pursuant to section 47-608 of this Code. Designation as a high-risk facility shall be effective on the third day following the date notice is deposited in the mail to the facility.

(c) The city engineer shall further promulgate regulations for determining whether a facility designated as a high-risk facility pursuant to subsection (a) is no longer contributing a substantial pollutant loading or a pollutant to the MS4 and for terminating the facility's designation as a high-risk facility. Upon terminating the facility's designation as a high-risk facility, the city engineer shall send written notification by certified mail, return receipt requested to the facility informing it of that termination.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 06-892, § 20, 8-23-06; Ord. No. 2016-864, § 19, 11-9-2016)

Sec. 47-723. Monitoring required.

(a) Every high-risk facility that has storm water discharges associated with industrial activity shall undertake all of the following applicable monitoring:

(1) Required by an individual NPDES or TPDES storm water permit if the facility has an individual storm water permit;

(2) Required by a general NPDES or TPDES storm water permit, other than TPDES permit number TXR050000 if the facility has coverage under such a permit; or

(3) Required by TPDES permit number TXR050000, or any successor permit thereto, if neither (i) or (ii) above apply; as applicable.

(b) If a high-risk facility does not have storm water discharges associated with industrial activity, the facility annually shall analytically monitor and analyze storm water discharges from its facility during a representative storm event on an outfall-by-outfall basis for each of the following parameters:

(1) Any pollutants limited in an existing NPDES or TPDES permit for the facility;

(2) Total oil and grease;

(3) Chemical oxygen demand;

(4) pH;

(5) Biochemical oxygen demand, five-day;

(6) Total suspended solids;

(7) Total phosphorus;

(8) Total Kjeldahl nitrogen;

(9) Nitrate plus nitrite nitrogen;

(10) Any other discharges required to be monitored under Section 122.21(g)(7)(iii) and (iv) of Title 40 of the CFR;

(11) Any pollutants for which effluent limitations are imposed in the city's storm water permit for its MS4; and

(12) Any other pollutant that the city has determined the facility is discharging that contributes a substantial pollutant loading to the MS4.

(c) If a type 2 facility does not have storm water discharges associated with industrial activity, the facility annually shall analytically monitor and analyze storm water discharges from its facility during a representative storm event on an outfall-by-outfall basis for each of the following parameters:

(1) Chemical oxygen demand;

(2) Total oil and grease;

(3) pH;

(4) Any pollutants for which effluent limitations are imposed in the city's storm water permit for its MS4; and

(5) Any other pollutant that the city believes the facility may be contributing to the MS4 or waters of the United States.

(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 2016-864, § 20, 11-9-2016)

Sec. 47-724. No exposure certification.

In lieu of the monitoring required by section 47-723, a facility may submit once every five years a certification that raw and waste materials, final and intermediate products and by-products, material handling equipment or activities, industrial machinery or operations, or significant materials from past industrial activity are not presently exposed to storm water and are not expected to be exposed to storm water. If the facility is eligible for coverage under TPDES permit number TRX05000, the certification shall be on the form provided by TCEQ pursuant to

TPDES permit number TXR05000. If the facility is not eligible for coverage under TPDES permit number TRX05000, the certification shall be on a form provided by the city. A facility that submits a certification pursuant to this section shall notify the city at least 14 days before changing operating or management procedures that would result in exposure of storm water to industrial activities, and upon such a change shall become subject to the monitoring requirements of section 47-723 of this Code.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 06-892, §§ 3, 21, 8-23-06)

Sec. 47-725. Establishment of reporting thresholds.

The city engineer shall establish a reporting threshold for every parameter for which monitoring is required of high risk facilities that do not have storm water discharges associated with industrial activity under this subdivision, which may be amended from time to time as deemed warranted by the city engineer.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 2016-864, § 21, 11-9-2016)

Sec. 47-726. Reporting of monitoring results.

(a) If the results of any monitoring required by this subdivision:

(i) Exceed a benchmark or effluent limitation in the NPDES or TPDES storm water permit for a facility that has storm water discharges associated with industrial activity, or

(ii) Exceed the threshold established by the city engineer pursuant to section 47-725 for a facility that does not have storm water discharges associated with industrial activity,

the owner and operator of the facility shall submit the results in writing to the city engineer within 30 days after conducting the monitoring. Failure to report the results of such monitoring shall constitute a violation of this article.

(b) The city engineer may request in writing by certified mail, return receipt requested, the results of any other monitoring required by this division. The facility shall then submitted the requested data in writing to the city engineer within 30 days after the date the city engineer's request is deposited in the mail to the facility.
(Ord. No. 01-800, § 3, 8-29-01)

Sec. 47-727. Record retention.

Each high-risk facility shall retain the results of all monitoring required by this division and supporting documentation for three years.
(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 2016-864, § 22, 11-9-2016)

Sec. 47-728. Investigation, corrective measures, and additional monitoring.

(a) If the results of any monitoring required by this division:

(1) Exceed a benchmark or effluent limitation in an NPDES or TPDES storm water permit for a facility that has storm water discharges associated with industrial activity; or

(2) Exceed the thresholds established by the city engineer pursuant to section 47-725 for a facility that does not have storm water discharges associated with industrial activity;

the owner and operator of the facility shall investigate the cause of each exceedance and take appropriate corrective measures to eliminate each exceedance as soon as possible. The owner and operator shall notify the city engineer of the corrective measures that will be taken and a schedule for implementation.

(b) The city engineer may require additional monitoring at a frequency to be determined by the city engineer to ascertain the effectiveness of any corrective measures taken pursuant to subsection (a).

(c) Failure to undertake appropriate corrective measures to eliminate an exceedance within a reasonable amount of time as determined by the city engineer shall constitute a violation of this article.
(Ord. No. 01-800, § 3, 8-29-01)

Secs. 47-729—47-740. Reserved.

DIVISION 5. ILLICIT DISCHARGES AND CONNECTIONS

Sec. 47-741. Discharge to MS4 prohibited.

(a) A person commits an offense if the person threatens to introduce, introduces or causes to be introduced into the MS4 any discharge that is not composed entirely of storm water.

(b) It is an affirmative defense to any enforcement action for a violation of subsection (a) that the discharge was composed entirely of one or more of the following categories of discharges:

(1) A discharge authorized by, and in strict compliance with, an NPDES or TPDES permit (other than the NPDES permit for discharges from the MS4);

(2) A discharge or flow resulting from fire fighting by the fire department if that discharge is not reasonably expected to be a significant source of pollutants to the MS4;

(3) A discharge or flow of fire protection water if that discharge is not reasonably expected to be a significant source of pollutants to the MS4;

(4) Water line flushing, provided that the water is not significantly chlorinated when reaching a receiving water;

(5) Landscape irrigation;

(6) Diverted stream flows;

(7) Rising ground waters;

(8) Uncontaminated ground water infiltration;

(9) Infiltration (as defined in Section 35.2005(20) of Title 40 of the CFR) to separate storm sewers;

(10) Uncontaminated pumped ground water;

(11) Discharges from foundation drains;

(12) Discharges from potable water sources, providing the water is not significantly chlorinated when reaching a receiving water;

(13) Irrigation water;

(14) Air conditioning condensation;

(15) Water from crawl space pumps;

(16) Springs;

(17) Lawn watering;

(18) Discharges from footing drains;

(19) Flows from riparian habitats and wetlands;

(20) Non-commercial car washing (until such time as TCEQ issues a general permit for such discharges);

(21) Pavement wash waters provided cleaning chemicals are not used (until such time as TCEQ issues a general permit for such discharges);

(22) Dechlorinated swimming pool discharges; or

(23) Materials resulting from a spill where the discharge is necessary to prevent loss of life, personal injury or severe property damage provided that the party responsible for the spill takes all reasonable steps to minimize or prevent any adverse effects to human health or the environment.

(24) Pavement wash water provided cleaning chemicals are not used (cosmetic wash water);

(25) Individual residential vehicle washing provided cleaning chemicals are not used;

(26) Wash water using only potable water, and which are similar in quality to street wash water and individual vehicles washing but without the use of detergents or surfactants;

(27) Other allowable non-storm water discharges listed in 40 CFR § 122.26(d)(2)(iv)(B)(1);

(28) Other allowable non-storm water discharges as listed in the TPDES Construction General Permit No. TXR150000 and TPDES Multi-Sector General Permit No. TXR050000; or

(29) Other similar occasional incidental non-storm water discharges.

(c) No affirmative defense shall be available under subsection (b) if:

(1) The discharge or flow in question has been determined by the city engineer to be a source of a pollutant or pollutants to the waters of the United States or to the MS4;

(2) Written notice of such determination has been provided to the discharger; and

(3) The discharge has continued after the expiration of the time given in the notice to cease the discharge.

(d) Reserved.

(Ord. No. 01-800, § 3, 8-29-01; Ord. No. 06-892, §§ 3, 22—24, 8-23-06; Ord. No. 2016-864, § 23, 11-9-2016)

Sec. 47-742. Reserved.

Editor's note—Ord. No. 06-892, § 25, adopted Aug. 23, 2006, effective Sept. 1, 2006, repealed § 47-742 in its entirety. Formerly, said section pertained to compliance monitoring and derived from Ord. No. 01-800, § 3, 8-29-01.

Secs. 47-743—47-760. Reserved.

ARTICLE XIII. MUNICIPAL SETTING DESIGNATIONS*

Sec. 47-761. Definitions.

As used in this article, the following words and terms shall have the meanings ascribed in this section, unless the context of their usage clearly indicates another meaning:

Application means the application submitted to the city for a municipal setting designation ordinance.

Contaminant of concern means any contaminant that has the potential to adversely affect ecological or human receptors due to its concentration, distribution or mode of toxicity.

Critical protective concentration level means the lowest protective concentration level for a contaminant of concern within a source medium determined from all applicable human exposure pathways.

Designated groundwater means groundwater that will be or is prohibited from use as potable water by a municipal setting designation ordinance.

Designated property means the property that will be or is subject to a municipal setting designation ordinance. The designated property may cover several platted lots or tracts of land and may include rights-of-way of the city or other governmental entity.

EPA means the United States Environmental Protection Agency and any successor agency or department.

Groundwater means water below the surface of the earth.

Ingestion protective concentration level means the protective concentration level for human ingestion for contaminants of concern in groundwater established by the TCEQ under the Texas Risk Reduction Program, determined as if there were no municipal setting designation ordinance.

*__Editor's note—__Section 5 of Ord. No. 07-959, adopted August 22, 2007, states that this article shall take effect at 12:01 a.m. on November 1, 2007.

Ingestion protective concentration level exceedence zone means the area where concentrations of contaminants of concern from sources on or migrating from or through the designated property are greater than the ingestion protective concentration level in groundwater, determined as if there were no municipal setting designation ordinance.

Municipal setting designation means a TCEQ designation authorized by Subchapter W of Chapter 361 of the Texas Health and Safety Code, as it may be amended from time to time.

Municipal setting designation ordinance means an ordinance adopted pursuant to this article.

Non-ingestion protective concentration level means the protective concentration level for dermal contact or inhalation for contaminants of concern in groundwater established by the TCEQ under the Texas Risk Reduction Program.

Non-ingestion protective concentration level exceedence zone means the area where concentrations of contaminants of concern from sources on or migrating from or through the designated property are greater than the non-ingestion protective concentration level in groundwater.

Potable water means water that is used for irrigation, production of food or drink products intended for human consumption, drinking, showering, bathing or cooking purposes.

Protective concentration level means the concentration of a contaminant fo [of] concern that the TCEQ has determined can remain within the source medium and not result in a level that exceeds the applicable human health risk-based exposure limit or ecological protective concentration level at the point of exposure for an exposure pathway.

Response action means the control, decontamination or removal from the environment of a hazardous substance or contaminant pursuant to Subchapter W of Chapter 361 of the Texas Health and Safety Code, as it may be amended from time to time.

TCEQ means the Texas Commission on Environmental Quality and any successor agency.

TCEQ application means the application submitted to the TCEQ for certification of a municipal setting designation.

To the extent known means information known by an applicant or applicant's agent after review of all public and private records and other information sources available in the exercise of due diligence.

(Ord. No. 07-959, § 2, 8-22-07)

Sec. 47-762. Application.

(a) A person seeking a municipal setting designation ordinance shall file an electronic portable digital file and at least one paper copy of an application and any supporting documentation with the director.

(b) The application must be clear, complete, concise, correct, contain only relevant information and be organized to facilitate analysis. Maps must be accurate and drawn to scale. Supporting documentation, if necessary, must be submitted as a separate appendix to the application.

(c) A professional surveyor registered with the Texas Board of Professional Surveying must certify that all property descriptions or maps with metes and bounds descriptions are accurate.

(d) The application must be on the form required by the director and contain the following information in the order listed:

(1) An executive summary of the application;

(2) The name, address, telephone number(s) and email addresses of all applicants, all property owners within the designated property, and any representatives of the applicants or property owners;

(3) A legal description of the boundaries of the designated property and a copy of the deed for the designated property;

(4) A site map showing:

a. The location of the designated property;

b. The topography of the designated property as indicated on publicly available sources, which must note the watershed and whether the designated property is located in a floodplain or floodway, as those terms are defined in chapter 19 of this Code;

c. The detected area of groundwater contamination;

d. The location of all soil sampling locations and all groundwater monitoring wells;

e. Groundwater gradients, to the extent known, and direction of groundwater flow; and

f. The ingestion protective concentration level exceedence zone for each contaminant of concern, to the extent known;

[The next page is 3363]

(5) A description of the current use, and, to the extent known, the anticipated uses, of the designated property and properties within 500 feet of the boundary of the designated property;

(6) For each contaminant of concern within the ingestion protective concentration level exceedence zone, to the extent known:

a. A description of the ingestion protective concentration level exceedence zone and the non-ingestion protective concentration level exceedence zone, including a specification of the horizontal area and the minimum and maximum depth below ground surface;

b. The level of contamination, the ingestion protective concentration level, and the non-ingestion protective concentration level, all expressed as mg/L units; and

c. Its basic geochemical properties (e.g., whether the contaminant of concern migrates with groundwater, floats or is soluble in water);

(7) For each contaminant of concern within the designated groundwater, to the extent known:

a. A description of the ingestion protective concentration level exceedence zone and the non-ingestion protective concentration level exceedence zone, including a specification of the horizontal area and the minimum and maximum depth below ground surface;

b. The level of contamination, the ingestion protective concentration level, and the non-ingestion protective concentration level, all expressed as mg/L units; and

c. Its basic geochemical properties (e.g., whether the contaminant of concern migrates with groundwater, floats or is soluble in water);

(8) A table displaying the following information for each contaminant of concern, to the extent known:

a. The concentration level for soil and groundwater, the ingestion protective concentration level, and the non-ingestion protective concentration level, all expressed as mg/L units; and

b. The critical protective concentration level without the municipal setting designation, highlighting any exceedences;

(9) A statement as to whether the plume of contamination is stable or contracting, with the basis for that statement. If this information is not known, a statement of why the information is not known;

(10) A statement as to whether contamination on and off the designated property without a municipal setting designation exceeds a residential assessment level as defined in the Texas Risk Reduction Program or analogous residential level set by EPA, if known, and the basis for that statement;

(11) A statement as to whether contamination on and off the designated property with a municipal setting designation will exceed a residential assessment level as defined in the Texas Risk Reduction Program or analogous residential level set by EPA, if known, and the basis for that statement;

(12) Identification of the points of origin of the contamination and the persons responsible for the contamination, to the extent known;

(13) A description of any environmental regulatory or litigation actions that have been taken within the past five years in connection with the designated property, to the extent known;

(14) A listing of all existing state or EPA registrations, permits, and identification numbers that apply to the designated property;

(15) A statement as to whether the designated property has been admitted to the Texas Voluntary Cleanup Program (§ 361.601 of the Texas Health & Safety Code, as may be amended from time to time) or similar state or federal program, and a description of the status of the designated property in the program;

(16) A summary of any environmental site assessment reports filed with the TCEQ regarding any site investigations or response actions that are planned, ongoing or completed related to the designated property;

(17) A statement as to whether any public drinking water supply system exists that satisfies the requirements of Chapter 341 of the Texas Health and Safety Code and that supplies or is capable of supplying drinking water to the designated property and property within ½ mile of the designated property and the identity of each supply system;

(18) The name and address of each owner or operator of a water well registered or permitted by the state or the Houston-Galveston Subsidence District that is located within five miles of the boundary of the designated property, along with:

a. A map showing the location of each well and, to the extent known, a notation of whether each well is used for potable water; and

b. A statement as to whether the applicant has provided notice to each owner in compliance with § 361.805 of the Texas Health and Safety Code;

(19) The name and address of each retail public utility, as defined in § 13.002 of the Texas Water Code, that owns or operates a groundwater supply well within five miles of the boundary of the designated property, along with a statement as to whether the applicant has provided notice as required by § 361.805 of the Texas Health and Safety Code;

(20) A listing of each municipality, other than the city, with a corporate limit within ½ mile of the boundary of the designated property, and a statement as to whether the applicant has provided notice as required by § 361.805 of the Texas Health and Safety Code;

(21) A listing of each municipality, other than the city, that owns or operates a groundwater supply well within five miles of the boundary of the designated property, and a statement as to whether the applicant has provided notice as required by § 361.805 of the Texas Health and Safety Code;

(22) The following statement signed and sealed by a licensed professional engineer or licensed professional geoscientist authorized to practice in the State of Texas with expertise in environmental remediation:

"To the best of my knowledge and belief, based upon a review of all public and private records and other information sources available to me in the exercise of due diligence, the opinions stated and conclusions made in this application are supported by such information, and the technical and scientific information submitted with the application is true, accurate and complete. Based on such review, the contaminants of concern from sources on the designated property or migrating from or through the designated property more likely than not do exceed or do not exceed a non-ingestion protective concentration level on property beyond the boundaries of the designated property";

(23) If the licensed professional engineer or licensed professional geoscientist determines that contaminants of concern from sources on the designated property or migrating from or through the designated property more likely than not do exceed a non-ingestion protective concentration level on property beyond the boundary of the designated property, then the applicant must:

a. Specify the name and address of the owner of each property;

b. Send a copy of the application to the owner of the property with the notice of the public meeting;

c. Provide documentation that the designated property has been included in a state or federal program that requires that the entire non-ingestion protective concentration level exceedence zone be addressed to the satisfaction of the agency administering the program, along with documentation of the estimated time period in which it is to be addressed. An example of such a program is the Texas Voluntary Cleanup Program (§ 361.501 of the Texas Health and Safety Code, as may be amended from time to time); and

d. Provide documentation upon completion of the state or federal program showing that the non-ingestion protective concentration level exceedences have been addressed to the satisfaction of the agency administering the program;

(24) The following statement certified by the applicant and any authorized representatives of the applicant(s) listed in the application:

"I certify under penalty of law that this application and all attachments were prepared under my direction or supervision in a manner designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the persons responsible for gathering and evaluating the information, the information submitted is, the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations";

(25) The signature of the applicant and proof that the applicant has the legal authority to restrict the use of the groundwater on the designated property; and

(26) Any other information that the director deems necessary.

(e) The fees payable pursuant to this article are set forth in the city fee schedule. Payment of any applicable fees when due is a condition of the processing of any application under this article, and no refund of the application fee shall be made. The director shall not mail notices or advertise the public meeting required by this article until the estimated cost of mailing notices and advertising the public meeting is paid by the applicant. The director shall not request that a municipal setting designation ordinance be placed on a city council agenda until the applicant has paid all costs associated with advertising and mailing notices for the public meeting. The director may waive the application fee but not other costs if the director finds that payment of the application fee would result in a substantial financial hardship to the applicant.

(f) Within 30 days after submission of an application, the director shall notify the applicant that the application is complete or notify the applicant in writing of any deficiencies in the application and of any additional documentation required. The applicant shall have 60 days from the date of the deficiency letter to correct the deficiencies or submit additional documentation. The director may, for good cause, extend the deadline to correct or supplement the application. If the applicant fails to correct or supplement the application within 60 days or the extended period, the application shall be deemed withdrawn and the initial filing fee forfeited. No application shall be deemed complete until all supporting documentation is supplied.
(Ord. No. 07-959, § 2, 8-22-07; Ord. No. 2010-556, §§ 2, 3, 7-14-2010, eff. 8-1-2010; Ord. No. 2011-1168, § 13, 12-14-2011)

Sec. 47-763. Staff review.

(a) The director shall distribute a copy of the complete application to the city attorney, the mayor's office, the Houston Health Department and any other city department whose property or operations may be affected by the application for review and comment. The director shall also send a copy of the application to the TCEQ.

(b) The city is not responsible for conducting an environmental risk assessment with respect to the application or the designated property.
(Ord. No. 07-959, § 2, 8-22-07; Ord. No. 2015-820, § 34, 8-26-2015)

Sec. 47-764. Public meeting.

(a) The director shall conduct a public meeting within 60 days after the application is deemed complete. The public meeting must be held at a facility open to the public near the designated property.

(b) Upon receipt of the estimated cost of mailing notices and advertising the public meeting, the director shall cause to be provided notification of the public meeting as follows:

(1) The notice of the public meeting must include:

a. The date, time and location of the public meeting;

b. The identity of the applicant;

c. The location and legal description of the designated property;

d. The purpose of a municipal setting designation; and

e. The type of contamination identified in the designated groundwater;

(2) The director shall publish notice of the public meeting in a newspaper of general circulation at least 30 days before the public meeting;

(3) The director shall mail notice of the public meeting at least 30 days before the date of the public meeting by depositing the notice properly addressed and postage paid in the United States mail. The notice must be written in at least English and Spanish. The applicant may not alter, change, amend, or enlarge the application after notices for the public meeting have been mailed. The director shall mail notice of the public meeting to:

a. The applicant;

b. Owners of real property within 2,500 feet of the boundary of the designated property as indicated by the most recent appraisal district records;

c. Owners and operators of water wells registered or permitted by the state or the Harris-Galveston Subsidence District that are located within five miles of the boundary of the designated property, as indicated on the application, by certified mail;

d. Any municipality with a corporate limit within one-half mile of the boundary of the designated property, as indicated on the application, by certified mail;

e. Any municipality that owns or operates a groundwater supply well within five miles of the boundary of the designated property, as indicated on the application, by certified mail;

f. The Harris-Galveston Subsidence District;

g. Any civic organization, property owners' association, or any other interested group with identifiable boundaries, provided that the organization, association or group is registered with the planning and development department in a manner prescribed by the director of that department, the boundary of which organization, association or group is within one-half mile of the boundary of the designated property, as indicated on the application, by certified mail; and

h. The TCEQ; and

(4) The director shall cause a copy of the application to be placed on display at the public library closest to the designated property at least 30 days prior to the public meeting.

(c) The applicant, the licensed professional engineer or licensed professional geoscientist who signed and sealed the application, or a licensed

professional engineer or licensed professional geoscientist who is familiar with the application must be present at the public meeting. If the required person is not present at the public meeting, the director may either deem the application withdrawn and any fees forfeited or reschedule the public meeting at the applicant's expense.

(d) The purpose of the public meeting is to provide information to the community about municipal setting designations in general and the application in specific, allow the applicant to explain the application, allow proponents and opponents to comment, and notify the community of the date of the public hearing.
(Ord. No. 07-959, § 2, 8-22-07; Ord. No. 2010-556, § 4, 7-14-2010, eff. 8-1-2010)

Sec. 47-765. Public hearing; consideration of application.

(a) *Public hearing.* The mayor shall designate a committee of city council that shall conduct a public hearing to consider a municipal setting designation ordinance. Upon a request from the director, the mayor may direct that city council will conduct the public hearing on a particular application.

(1) Prior to the public hearing, the director shall prepare a recommendation as to whether the municipal setting designation ordinance should be granted or denied, setting forth any conditions that should be imposed.

a. The director may recommend that the municipal setting designation ordinance prohibit the use of the designated groundwater from beneath public rights of way immediately adjacent to the designated property as potable water.

b. If, in the sole discretion of the director, the director determines it is more likely than not that a source of a contaminant of concern originated on the designated property, and the ingestion protective concentration level exceedence zone or the non ingestion protective concentration level exceedence zone for that contaminant of concern extends to public rights of way immediately adjacent to the designated property, the director may recommend that the municipal setting designation ordinance include a condition that the public right of way immediately adjacent to the designated property be included, at no additional cost to the city, in the TCEQ application.

(2) The applicant, the licensed professional engineer or licensed professional geoscientist who signed and sealed the application or a licensed professional engineer or licensed professional geoscientist who is familiar with the application must be present at the public hearing. If the required person is not present at the public hearing, the body conducting the hearing may either deny the application or continue the public hearing.

(b) *Council committee consideration.* Following the close of the public hearing, the city council committee shall consider whether it supports the director's recommendation. No further action shall be taken on the application if the city council committee finds that:

(1) It does not meet the eligibility criteria of § 361.803 of the Texas Health and Safety Code;

(2) The municipal setting designation will have an adverse effect on the current or future water resource needs or obligations of the city; or

(3) There is not a public drinking water supply system that satisfies the requirements of Chapter 361 of the Texas Health and Safety Code and that supplies or is capable of supplying drinking water to the designated property and property within one half mile of the boundary of the designated property.

(c) *City council consideration.* Upon receipt of the director's recommendation, or following the close of the public hearing if city council conducts the hearing, the city council shall approve or deny

the application. Approval of the application shall be demonstrated by adopting a municipal setting designation ordinance that:

(1) States that the ordinance is necessary because the concentrations of contaminants of concern exceed human ingestion protective concentration levels;

(2) Provides a legal description of the designated property;

(3) Describes the designated groundwater, including the maximum depth below ground surface of the designated groundwater; however, the maximum depth shall not exceed 200 feet below ground surface unless the applicant specifically so requests and the ordinance specifically provides a greater depth;

(4) Prohibits the use as potable water of groundwater from beneath the designated property;

(5) Appropriately restricts other uses of or contact with the designated groundwater, including, but not limited to, properly plugging any existing water production well on the designated property;

(6) Lists any reasonable and necessary conditions; and

(7) Indicates support of the applicant's TCEQ application, with any comments.

(d) The municipal setting designation ordinance may prohibit the use as potable water of the designated groundwater from beneath public rights of way immediately adjacent to the designated property as potable water.

(e) The municipal setting designation ordinance may include a condition that the public rights of way immediately adjacent to the designated property be included, at no additional cost to the city, in the TCEQ application.
(Ord. No. 07-959, § 2, 8-22-07; Ord. No. 2010-556, § 5, 7-14-2010, eff. 8-1-2010)

Sec. 47-766. Limitation on reapplication.

If the applicant withdraws the application after the public hearing, or if the city council committee or the city council denies the application, no further applications may be accepted for that property for one year after the date of the withdrawal or denial.
(Ord. No. 07-959, § 2, 8-22-07; Ord. No. 2010-556, § 6, 7-14-2010, eff. 8-1-2010)

Sec. 47-767. Effect of municipal setting designation ordinance.

(a) The effect of a municipal setting designation ordinance is to prohibit use of designated groundwater as potable water and thereby enable the TCEQ to certify a municipal setting designation for the designated property. If certified by the TCEQ, the municipal setting designation may limit the scope of or eliminate the need for risk-based site investigations and response actions pursuant to Section 361.808 of the Texas Health and Safety Code based on the non-existence, elimination, or control of pathways for human ingestion of contaminated groundwater.

(b) Any person owning, operating, or controlling the designated property remains responsible for complying with all applicable federal and state laws and regulations and all ordinances, rules, and regulations of the city. The city council's approval of a municipal setting designation ordinance in itself does not change any environmental assessment or cleanup requirements applicable to the designated property.

(c) Approval of a municipal setting designation ordinance shall not be construed to subject the city to any responsibility or liability for any injury to persons or damage to property caused by any contaminant of concern.
(Ord. No. 07-959, § 2, 8-22-07)

Sec. 47-768. Additional requirements following adoption of an ordinance.

(a) Within 30 days after adoption of a municipal setting designation ordinance, the applicant shall provide:

(1) The director with an electronic file showing the location of the designated property and the designated groundwater in a format compatible with the city's geographic information system and its integrated land management system; and

(2) The Harris County Appraisal District with an electronic file showing the location of the designated property and the designated groundwater in a format compatible with its system.

(b) Within 30 days after adoption, the director shall send a certified copy of the municipal setting designation ordinance to the applicant and the TCEQ or EPA, as applicable.

(c) The applicant shall provide the director with a copy of the municipal setting designation certificate issued by the TCEQ pursuant to § 361.807 of the Texas Health and Safety Code within 30 days after issuance of the certificate.

(d) Within 30 days after receipt of the copy of the municipal setting designation certificate issued by the TCEQ pursuant to § 361.807 of the Texas Health and Safety Code and the necessary filing fee from the applicant, the director shall file a certified copy of the municipal setting designation ordinance in the deed records of the county where the designated property is located.

(e) The applicant shall provide the director with a copy of the certificate of completion or other analogous documentation issued by the TCEQ or EPA showing that any site investigations and response actions required pursuant to § 361.808 of the Texas Health and Safety Code have been completed to the satisfaction of the TCEQ or EPA within the time period required. The director may, for good cause, extend the time for submitting the documentation.

(f) The director may, for good cause, recommend to the city council that the municipal setting designation ordinance be repealed, after giving 30 days written notice in advance to the applicant and the TCEQ or EPA, as applicable, of such a recommendation.

(g) The applicant shall notify the director in writing if the applicant determines that notice is required to be sent to an owner of other property beyond the boundaries of the designated property under Title 30 Texas Administrative Code, § 350.55(b), providing the name of the property owner, the property address, and a copy of the notice sent to the property owner.
(Ord. No. 07-959, § 2, 8-22-07; Ord. No. 2010-556, § 7, 7-14-2010, eff. 8-1-2010)

Sec. 47-769. Authority of the director.

The director is authorized to:

(1) Enter public or private property to determine whether designated groundwater is being used in violation of this section.

(2) Administer and enforce the provisions of this section.

(Ord. No. 07-959, § 2, 8-22-07)

Sec. 47-770. Offenses; penalty.

(a) A person commits an offense if the person:

(1) Uses designated groundwater as a potable water source or for a purpose prohibited in the municipal setting designation ordinance;

(2) Fails to provide the director with a copy of the municipal setting designation certificate issued by the TCEQ pursuant to § 361.807 of the Texas Health and Safety Code within 30 days after issuance of the certificate;

(3) Fails to provide the director with a copy of the certificate of completion or analogous documentation issued by the TCEQ or EPA showing that any site investigations and response actions required pursuant to § 361.808 of the Texas Health and Safety Code have been completed to the satisfaction of the TCEQ or EPA within the time period required; and

(4) Fails to notify and provide documentation to the director within the time period, if any, required in the municipal setting designation ordinance that the entire noningestion protective concentration level exceedence zone originating from sources on the designated property or migrating from or through the designated property has been addressed to the satisfaction of the state or federal agency administering the program.

(b) Except as may otherwise be provided, whenever in this article an act is prohibited or is made or declared unlawful or an offense or misdemeanor, or whenever in this article the doing of any thing or act is required or the failure to do

any thing or act is prohibited, the violation of the provision shall be and constitute a misdemeanor punishable, upon conviction, by a fine of not less than $500.00 nor more than $2,000.00 each day that any violation continues shall constitute and be punishable as a separate offense. Any offense under this article that also constitutes a violation of any state penal law shall be punishable as provided in the applicable state law.
(Ord. No. 07-959, § 2, 8-22-07)

Secs. 47-771—47-800. Reserved.

ARTICLE XIV. MUNICIPAL DRAINAGE UTILITY SYSTEM

DIVISION 1. CREATION OF THE SYSTEM

Sec. 47-801. Findings.

Incident to the creation of a municipal drainage utility system, the City Council of the City of Houston finds and determines that:

(1) The city shall establish a schedule of drainage charges against all benefitted real property in the city;

(2) The city shall provide drainage for all benefitted real property in the city upon payment of drainage charges unless the property is exempt from such payment as provided herein;

(3) The city shall offer drainage service on nondiscriminatory, reasonable and equitable terms.

(Ord. No. 2011-254, § 2, 4-6-2011; Ord. No. 2014-336, § 2, 4-23-2014)

Sec. 47-802. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Benefitted property means a lot or tract within the drainage service area that discharges directly or indirectly into the drainage system and that, according to a determination by the director, does not fall within an exemption.

Billing year means each 12-month period that begins on July 1st of one year and ends on June 30th of the ensuing year.

Cost of service, as applied to the drainage service for any benefitted property, means but shall not be limited to, the prorated cost of the following:

(1) The acquisition of interests in real property relating to drainage structures, equipment and facilities;

(2) The acquisition, construction, repair, and maintenance of drainage structures, equipment, and facilities;

(3) The acquisition of drainage-related architectural, engineering, legal, and related services, plans and specifications, studies, surveys, estimates of cost and of revenue, and all other expenses necessary or incident to planning, providing, or determining the feasibility and practicality of drainage structures, equipment and facilities;

(4) Providing and operating all drainage-related machinery, equipment, furniture, and facilities;

(5) Start-up costs of drainage facilities; and

(6) Administrative costs including direct and indirect costs.

County means any of the counties of Fort Bend, Harris, and Montgomery, Texas.

County-exempt property means real property owned by a county and administered or used by that county for a public purpose that is primarily supported by general county tax revenue, including, but not limited to, courthouses, emergency management facilities, jails, libraries, offices for county officers, parks, transportation facilities, flood control facilities, and other similar properties. County-exempt property shall not include real property owned and administered or used by county-wide entities that are largely self-sufficient, are primarily supported by fees and charges or a separate tax, and are not primarily funded by general county tax

revenue, including, but not limited to, courthouses, emergency management facilities, jails, libraries, offices for county officers, parks, transportation facilities, flood control facilities, and other similar properties. County-exempt property shall not include real property owned and administered or used by county-wide entities that are largely self-sufficient, are primarily supported by fees and charges or a separate tax, and are not primarily funded by general county tax revenue, including, but not limited to, the Port of Houston Authority, the Harris County Astrodome and Reliant Stadium complex, and other similar properties. For the purposes of this article, real property owned and administered or used for a public purpose by the Harris County Flood Control District, the Harris County Hospital District, and toll road authorities shall be considered county-exempt property.

Curb and gutter drainage means drainage primarily removed from a benefitted property by use of street curbs and gutters to channel the water to a system of underground pipes or culverts.

Department means Houston Public Works.

Director means the Director of Houston Public Works or the director's designee.

Drainage means streets, curbs, bayous, bridges, catch basins, channels, conduits, creeks, culverts, detention ponds, ditches, draws, flumes, inlets, pipes, pumps, rivers, sloughs, treatment works, and other means and appurtenances to those items, whether natural or artificial, or using force or gravity, that are used to draw off surface water from land, carry the water away, collect, store, or treat the water, or divert the water into natural or artificial watercourses or into which the surface water flows; *drainage* shall also mean the water so transported.

Drainage charge means the charge imposed by the city herein, including penalties, to recover the city's cost in furnishing drainage services for any benefitted property and the cost of funding future drainage system improvements.

Drainage system means the drainage owned or controlled in whole or in part by the city and dedicated to the service of benefitted property as provided for in section 47-804 of this Code, as well as provisions for additions to the system and any drainage system for which a Texas Pollutant Discharge Elimination System (TPDES) permit is held by the city alone or in conjunction with others. Drainage system components, including but not limited to streets, sidewalks, other dedicated improvements, and supporting rights-of-way, shall not be considered residential or nonresidential property as defined herein.

Impervious surface means any area that has been compacted or covered such that it does not readily absorb water or does not allow water to percolate through to undisturbed underlying soil strata. Surface materials considered impervious shall include, but not be limited to, bricks, pavers, concrete, asphalt, compacted oil-dirt, compacted or decomposed shale, oyster shell, gravel, or granite, and other similar materials. Surface features utilizing such materials and considered impervious shall include, but not be limited to, decks, foundations (whether pier and beam or slab), building roofs, parking and driveway areas, sidewalks, compacted or rolled areas, paved recreation areas, swimming pools, and other features or surfaces that are built or laid on the surface of the land and have the effect of increasing, concentrating, or otherwise altering water runoff so that flows are not readily absorbed.

Initial billing year means the City of Houston's initial billing year for drainage charges, which began on July 1, 2011, and ended on June 30, 2012.

Notification letter means the letter the city mails to a user, informing the user of the drainage charge the user shall be billed. The notification letter will also inform the user of the frequency of billing for drainage charges and the amount per bill due the city, based on the number of billing cycles per year. Changes to the drainage charge caused by changes in the square footage of impervious surface or otherwise may prompt a new notification letter.

Nonresidential property means any property that is not classified as residential under this article.

Open ditch drainage means drainage primarily removed from a benefitted property by use of an open ditch or ditches.

Parcel means one or more lots or tracts of land, or portions of lots or tracts.

Public or *private institution of higher education* means a public institution of higher education as defined by Section 61.003 of the Texas Education Code or a private college or university that issues degrees in the state of Texas and is accredited by a recognized accrediting agency as defined by Section 61.003 of the Texas Education Code.

Public utility means drainage service that is regularly provided by the city through municipal property dedicated to providing such service to the users of benefitted property within the service area, and that is based on an established schedule of charges, the use of police power to implement the service, and nondiscriminatory, reasonable, and equitable terms as provided under this article.

Record review panel means a panel of three hearing examiners that, upon a user's request, conducts a record review of a hearing examiner's decision pursuant to section 47-826 of this Code.

Religious organization means a religious organization exempt from taxation pursuant to the current provisions of Section 11.20 of the Texas Tax Code.

Residential property means any property upon which two or fewer single family residential units have or had been constructed or placed, including manufactured homes.

School district means any independent school district, as constituted by the laws of this state, located wholly or partly within the service area.

Service area for the drainage system, or drainage service area, means the corporate limits of the City of Houston, as those corporate limits are altered from time to time in accordance with state law and the Charter and ordinances of the city. Land annexed for limited purposes shall become part of the service area upon annexation for full purposes.

State agency means an administrative agency of the State of Texas; for the purposes of this article, state agency shall not include counties, special districts, or independent school districts.

User means the person or entity who owns or occupies a benefitted property.

Wholly sufficient and privately owned drainage system means land owned and operated by a person or entity other than the city's drainage utility system, the drainage of which does not discharge into a street, ditch, culvert, creek, river, slough, or other channel that is a part of the city's drainage system.

(Ord. No. 2011-254, § 2, 4-6-2011; Ord. No. 2014-336, §§ 3—5, 4-23-2014; Ord. No. 2018-11, §§ 49, 50, 1-10-2018)

Sec. 47-803. Creation of municipal drainage utility.

In the interest of public health and safety and a more efficient and economic operation of drainage facilities of the city, a municipal drainage utility system is created, which shall be a public utility. The public utility is created in accordance with the authority of the city as a home rule city pursuant to Article XI, Section 5 of the Texas Constitution; in accordance with Subchapter C of Chapter 552 of the Texas Local Government Code (the Municipal Drainage Utility Systems Act); and in accordance with Section 22 of Article IX of the City Charter. The provisions of Chapter 552, Subchapter C of the Texas Local Government Code, as amended, which are adopted and incorporated into this article by reference; the City Charter; this article; and any other provisions of this Code relating to drainage, shall govern the operation of the utility. The city shall have full authority to operate the municipal drainage utility system; such authority is delegated to the director. Drainage service will

be offered on nondiscriminatory, reasonable, and equitable terms within the drainage service area. (Ord. No. 2011-254, § 2, 4-6-2011; Ord. No. 2014-336, § 6, 4-23-2014)

Sec. 47-804. Dedication of assets to drainage utility system.

Existing City of Houston drainage facilities, including all real, personal, or mixed property, materials and supplies are incorporated into the

drainage utility system as permitted by section 552.046 of the Texas Local Government Code, as amended.
(Ord. No. 2011-254, § 2, 4-6-2011; Ord. No. 2014-336, § 7, 4-23-2014)

Sec. 47-805. Administration and operation of municipal drainage services.

(a) The director shall be responsible for administering this article and operating the drainage system including, but not limited to, interpreting and construing this article's provisions to correct any defect, supply any omission, and reconcile any inconsistency; enacting any procedures or policies necessary for the administration of the drainage system and the drainage charges, including establishing and implementing procedures for verification and correction of drainage charges and for appeals; developing maintenance and improvement programs; establishing drainage criteria and standards for operation of the drainage system; and determining which properties are benefitted or exempt, in accordance with and subject to the provisions of this article. The director's authority under this article shall be exercised in a manner and to the extent that the director considers the most expedient, in the best interests of the city, and in accordance with the provisions of this article.

(b) Calculation of impervious surface shall be adjusted by the director based on utilization of approved stormwater management techniques on the benefitted property. Any approved management techniques are to be identified and described in detail by the director and the information made readily available to the public.
(Ord. No. 2011-254, § 2, 4-6-2011; Ord. No. 2014-336, § 7, 4-23-2014)

Secs. 47-806—47-820. Reserved.

DIVISION 2. FUNDING

Sec. 47-821. Management of utility funds.

All drainage charges collected by the city beginning July 1, 2011, and such other monies as may be available to the city for the purpose of drainage shall be used exclusively for creation, operation, planning, engineering, inspection, construction, repair, maintenance, improvement, reconstruction, administration and other reasonable and customary expenses associated with the cost of service to provide drainage services within the service area. The income derived from the operation of municipal drainage services shall be maintained in accordance with Section 552.049 of the Texas Local Government Code and Section 22 of Article IX of the City Charter.
(Ord. No. 2011-254, § 2, 4-6-2011)

Sec. 47-822. Drainage charge established; exemptions.

(a) To recover the city's cost of service to provide drainage to benefitted properties, annual drainage charges calculated as provided herein are hereby imposed on all parcels of real property within the drainage service area for which drainage service is made available under this article, save and except for those properties exempted from the payment of drainage charges as provided herein.

(b) The rate applicable to each square foot of impervious surface of a benefitted property shall be determined on the basis of whether the land use of the benefitted property is classified as residential or non-residential. In addition, the rate applicable to a residential property shall be determined on the basis of whether the drainage system for the property is curb and gutter drainage or open ditch drainage.

(c) All drainage charges shall be calculated by multiplying the appropriate rate per square foot of impervious surface as specified in the city fee schedule by the total area in square feet of impervious surface on each benefitted property.

(d) The area of impervious surface on each benefitted property shall be determined on the basis of property inspections, appraisal district data, and/or the most current digital map data associated with tax plats and assessment rolls or other similar reliable data as shall be determined by the director.

(e) In the event a residential property is served by curb and gutter drainage on one or more sides and by open ditch drainage on one or more sides,

the appropriate rate shall be determined by the street address for the property and the drainage system that corresponds to that side of the property.

(f) The following are exempt from imposition of a drainage charge:

(1) Properties appraised for use as, and designated as, qualified agricultural use property by the respective county appraisal district where the property is located;

(2) Properties served exclusively by a properly constructed and maintained wholly sufficient and privately owned drainage system;

(3) State agencies;

(4) Any public or private institution of higher education;

(5) Any impervious surface owned by a school district as of April 6, 2011;

(6) Any impervious surface owned by a religious organization that is located on property exempt from taxation pursuant to Section 11.20, Tax Code as of April 6, 2011;

(7) County-exempt property.

(Ord. No. 2011-254, § 2, 4-6-2011; Ord. No. 2011-1168, § 13, 12-14-2011; Ord. No. 2014-336, §§ 8, 9, 4-23-2014)

Sec. 47-823. Review and adjustment of drainage rates.

The drainage rates established herein shall not be increased by city council for a minimum of ten years from April 6, 2011; provided, however, that such limitations shall not be applicable when a rate increase is necessitated by the enactment of any state law that directly and negatively impacts the collection of drainage charges under the existing rate structure. Save and except for any rate increase prompted by the enactment of state law, approval of any rate increase shall require a super majority vote of ⅔ of the members of city council. The director shall on a regular basis review available data to verify the amount of impervious surface for benefitted property, and will make adjustments where appropriate to the calculations of the square footage of impervious surface for purposes of determining the drainage charge for benefitted property.

(Ord. No. 2011-254, § 2, 4-6-2011)

Sec. 47-824. Verification and correction.

(a) *Establishing a system for verification and correction.* The director shall establish and implement a system of verification and correction of drainage charges for each property subject to the drainage charges established by this article. The user requesting a verification and correction must use either the city's officially-designated internet link (available on the city's website specifically for such purpose) or a form provided by the city with the notification letter and mailed to the address shown in the notification letter. As a condition of requesting verification and correction, the user shall grant the city reasonable access to the property for the city to independently verify on-site information. The following may be reviewed under the process described in this section:

(1) Ownership of the property;

(2) Whether the property is benefitted as defined in section 47-801 of this Code; and

(3) The amount of surface on a particular property determined to be impervious.

(b) *Documentation required.* The director may require the user to support the user's claim that the city's determination regarding the property is in error. The city's review will be based on documentation provided to the city by the user and on information available to the city. Required documentation shall be forwarded by the user either electronically or in writing. Any documentation submitted to the city for verification and correction shall also include an affidavit in a form approved by the city attorney whereby the user shall sign and verify under penalty of law that any document the user is submitting to the city is true and correct. The department shall provide a special affidavit form to every user along with the letter of notification.

Based on documentation submitted by the user and information available to the city in its files, in

databases, and from site visits, the city shall, where warranted, adjust the drainage charge accordingly.

(1) *Property ownership.* A user's request shall include documents demonstrating ownership such as titles, deeds, leases and other similar legal documents.

(2) *Benefitted property.* A user's request shall include documents demonstrating:

a. Whether the boundaries of the property lie outside the corporate limits of the city; or

b. That a particular exemption claimed applies to the property.

(3) *Amount of impervious surface.* A user's request shall include documentation demonstrating the user's calculation of impervious surface and shall be forwarded after receipt of the notification letter mailed to the user by the city that informed the user of:

a. The square footage of impervious surface on the benefitted property;

b. The rate applicable to each square foot of impervious area; and

c. The calculated drainage charge resulting from: the multiplication of the user's square footage of impervious surface by the applicable rate.

To be eligible for verification and correction of the amount of impervious surface, any request must at a minimum provide information sufficient to support a correction in the annual drainage charge to the user's favor of at least two percent or $3.00, whichever is greater.

(c) *Initial billing year.* If any charge paid by the user during the initial billing year and prior to an adjustment exceeds the amount of the adjusted charge, the cumulative total of such corrections due the user for payments made prior to an adjustment was credited to the user's account and shall be applied against the user's future charges due the city.

If any charge paid by the user in the city's initial billing year and prior to an adjustment falls short of the amount of the adjusted charge, the cumulative total of such corrections due the city for payments made prior to such adjustment shall be debited to the user's account and shall be applied against the user's future charges due the city.

The facts and information a user provides in a request to the city for verification and correction shall not form the basis for any subsequent request for verification and correction.

(d) *Request by user for verification and correction of changed impervious surface.* If the user's amount of impervious surface changes, and the user notifies the city of the change electronically or in writing and requests the city to verify and correct the drainage charges, the request will be handled as an initial request for verification and correction as provided in section 47-824(c) of this Code. Any adjustment in the drainage charge as a result of the request will become effective the first day of the month following the date of the user's request.

(e) *Request by user for verification and correction of change to drainage charge.* The city may periodically review any properties within the service area, shall revise the city's database to reflect any changes that affect the area of the impervious surface, and shall forward a notification letter to the user advising the user of such change and the resulting change in the drainage charge. Any request for verification and correction of drainage charges resulting from changes to or updated information about the impervious surface as identified by the city that are added by the city to the city's drainage utility database for any year following the city's initial billing year will be handled as an initial request for verification and correction, as provided in section 47-824(c) of this Code.

(f) *Results of verification and correction.* Based on documentation submitted by the user and information available to the city in its files, in databases, and from site visits, the city may make a determination regarding: ownership of the property, whether a property is benefitted, whether an exemption applies, or whether to increase or

decrease the figure for the amount of impervious surface on the property. The city shall adjust the drainage charge accordingly.

Editor's note—Ord. No. 2014-336, § 10, adopted April 23, 2014, set out two subsection (e)'s. At the direction of the City, the 2nd subsection (e) has been renumbered to subsection (f).

The city shall notify the user of the outcome of the city's verification and correction process using the same address and the same medium by which the request was tendered (whether in writing via the U.S. Postal Service or electronically), including advising the user of the adjustment, if any, made to the drainage charge.

(Ord. No. 2014-336, § 10, 4-23-2014)

Editor's note—Ord. No. 2014-336, § 10, 4-23-2014, replaced § 47-824 to read as herein set out. Former § 47-824 pertained to verification, correction and appeal and derived from Ord. No. 2011-54, § 2, 4-6-2011.

Sec. 47-825. Appeals.

(a) *Appeals.*In the event a user disagrees with the outcome of the verification and correction process, the user or the user's designated representative may request an appeal. Participation by a user in the verification and correction process as described herein and filing of a timely request for appeal shall be prerequisites to any appeal.

(b) The director shall designate drainage hearing examiners who will be independent of the operation of the city's drainage system to consider appeals as to whether or not a drainage charge was correctly applied to the property. City council is to review and approve the independent process utilized by the director for this appeal process.

(c) Any request for such an appeal shall be submitted by the user either online through a specifically-designated link on the city's website, or in writing, no later than 15 days following the date of the city's notification letter advising the user of the outcome of the verification and correction process.

(d) The user, or the user's designated representative, may select a date and time for the appeal hearing from those available dates shown on the department's online calendar, or if the user does not have access to said calendar, the user shall contact the department's Drainage Call Center to schedule an appeal. The appeal hearings shall be conducted under rules consistent with the nature of the proceedings; provided, however, that the following rules shall apply to such hearings:

(1) The user has the right to appear in person or through an attorney;

(2) The department and the user may present witnesses and evidence;

(3) The department and the user may cross-examine witnesses;

(4) The user may examine the information relied on by the department in reaching a determination in the verification and correction.

(e) Based on the outcome of the appeal, the drainage charge shall be adjusted accordingly or remain unchanged, and if appropriate, a credit or debit shall be applied to the user's account. The user shall be notified of the outcome of the appeal using the same address and the same medium by which the appeal was tendered (whether in writing via the U.S. Postal Service or electronically).

(f) The decision of the hearing examiner following appeal shall be final unless the user or the user's representative files a timely request for a record review.

(Ord. No. 2014-336, § 10, 4-23-2014)

Sec. 47-826. Record review.

(a) In the event a user disagrees with the decision of the hearing examiner, the user or the user's designated representative may request a record review of the hearing examiner's decision. The request for a record review shall be submitted by the user online through a specially-designated link on the department's website or in writing to the department's Utility Customer Service, P.O. Box 4863, Houston, TX 77210-4863, no later than 15 business days following the date of the city's letter advising the user of the hearing examiner's decision.

(b) The record review will be conducted by a three-member review panel of hearing examiners and shall not include the hearing examiner who made the decision on the appeal. The panel's

record review is limited to the information considered by the hearing examiner during the appeal.

(c) The city shall notify the user of the outcome of the panel's record review using the same address and the same medium by which the request was tendered (whether in writing via the U.S. Postal Service or electronically), including advising the user of the adjustment, if any, made to the drainage charge.

(d) The decision of the record review panel is final.
(Ord. No. 2014-336, § 10, 4-23-2014)

Secs. 47-826—47-840. Reserved.

DIVISION 3. BILLING

Sec. 47-841. Billing and payment.

(a) For users billed by the city for other utility charges, such as water and/or sewer service, the city may bill for drainage charges, identified separately, in the same bill. Otherwise the city shall establish new drainage billing accounts.

(b) An initial notification letter advising the user of the imposition of a drainage charge was mailed to each user prior to the initial billing year. After the initial billing year, notices will be sent when changes to drainage charges occur. The notice, as well as the bill itself, shall state the drainage charge that will be billed to the user and that failure of a user to pay the charges may result in the discontinuance of city drainage, water and sewer services.

(c) Bills for drainage charges shall reflect the annual charge imposed on a benefitted property divided by the user's number of utility billing cycles per year, e.g., if the city is billing a user for drainage on a monthly basis, the user's monthly drainage charge will equal the total annual drainage charge imposed on the property divided by 12 billing cycles per year."

(d) Bills shall be considered as received by the user, whether actually received or not, when deposited by the city in the United States mail, postage prepaid, addressed to the user's last known billing address or when electronically transmitted to the user's last known electronic address.

(e) Payment of bills shall be due when the bill is rendered.
(Ord. No. 2011-254, § 2, 4-6-2011; Ord. No. 2014-336, § 11 4-23-2014)

Sec. 47-842. Delinquent charges and penalties.

(a) Any drainage charge due hereunder that is not paid when due may subject the user to late charges and reconnection fees authorized under the provisions of this Code relating to water and sewer charges.

(b) Any drainage charge due hereunder that is not paid when due may subject the user to discontinuance of all utility services provided by the city, including drainage, water and sewer services.

(c) Any drainage charge due hereunder that is not paid when due may be recovered in an action at law by the city, or by any other remedies or penalties provided at law or in Subchapters A and C of Chapter 552 of the Texas Local Government Code, and the provisions of sections 47-70 and 47-136 of this Code relating to termination of service for failure to pay water or sewer charges.

(d) The employees of the city's drainage utility shall have access, at all reasonable times, to any benefitted properties served by the drainage utility for inspection or repair of the drainage system or for the enforcement of the provisions of this article.
(Ord. No. 2011-254, § 2, 4-6-2011; Ord. No. 2014-336, § 12, 4-23-2014)

Sec. 47-843. Determination of payment responsibility.

Under circumstances where there may be more than one user, either multiple tenants and/or multiple owners, the director shall determine the party responsible for payment of city-billed drainage charges as follows:

(1) On parcels where multiple utility accounts may exist and more than one tenant may be held responsible for payment

of drainage charges within a single parcel or group of parcels belonging to the same owner, the director may choose the common owner of the subject property or properties to be the officially-designated user.

(2) Where, within a 12-month period, a rental property has changed tenants two or more times, the director may choose the owner of the property to be the designated user. Such designation shall have no effect on responsibility for payment of water, sewer or solid waste charges.

(3) Where multiple residential owners are grouped into a single association responsible for the payment of collective water or sewer charges, the director may designate the association as the official user for all impervious surfaces within the association's purview, regardless of parcel boundaries.

(Ord. No. 2011-254, § 2, 4-6-2011)

[The next page is 3377]

Sec. 47-844. Applicability of the W.A.T.E.R. Fund.

Beginning August 1, 2012, and on such date for each billing year thereafter, to the extent drainage charges collected under this article for the previous billing year exceed $125 million, the amount of any excess up to, but no more than $500,000.00, shall annually be transferred to the W.A.T.E.R. Fund (as such Fund has been established by section 36-61 of this Code), to be available for use in the payment of drainage bills; provided, however, the cumulative amount in the W.A.T.E.R. Fund for payment of drainage charges on such date for each billing year shall not exceed $500,000.00. Monies accumulated in the W.A.T.E.R. Fund as provided herein shall be administered in accordance with the applicable provisions of Chapters 36 and 47 of this Code, but such funds shall be used exclusively for drainage bills.
(Ord. No. 2011-254, § 2, 4-6-2011)

Secs. 47-845—47-860. Reserved.

DIVISION 4. USE OF FUNDS

Sec. 47-861. Oversight committee.

There shall be created an oversight committee of nine members, four members to be appointed by the mayor, including the committee chair, and five members to be appointed by city council, whose members shall advise the city on drainage project priorities and process. The committee will consist of individuals with significant backgrounds in community development, infrastructure assessments, and other appropriate qualifications. Contractors, engineers or firms participating in any city drainage system project will be ineligible to serve on the committee. Within 12 months following the appointment of the committee, the committee shall recommend to city council principles and guidelines by which future drainage projects shall be selected, and shall present to city council a proposed ten-year plan identifying drainage and street improvements recommended for construction with funding collected by the city pursuant to this article. Following presentment of said plan to city council, and after any amendments thereof by city council have been considered, the council shall approve the plan for implementation. The plan may thereafter be reviewed periodically by the city council and may be amended as appropriate. Following approval of the plan by city council, the plan shall be placed on the City's website or other public location for public viewing.

The oversight committee shall be in place by July 1, 2011.
(Ord. No. 2011-254, § 2, 4-6-2011)

Sec. 47-862. No assumed liability.

Floods from drainage and storm water runoff may occasionally occur that exceed the capacity of the drainage system maintained and financed with the drainage charges. In addition, surface water stagnation and pollution arising from nonpoint source runoff may occasionally occur that exceed the capacity of the drainage system maintained and financed with drainage charges. This article does not imply that properties subject to charges shall always be free from flooding or flood damage, surface water stagnation or nonpoint source pollution or that all flood control and water treatment projects to control the quantity and quality of runoff can be constructed effectively. Nothing whatsoever in this article should be construed as creating or be deemed to create additional duties on the part of the city or to hold the city liable for any damages incurred in a flood or from adverse water quality due to drainage runoff. Nothing in this article shall be deemed to waive the city's immunities under state law or to reduce the need or necessity for flood insurance by property owners within or without the city.
(Ord. No. 2011-254, § 2, 4-6-2011)

Secs. 47-863—47-880. Reserved.

ARTICLE XV. DRAINAGE IMPACT FEES

DIVISION 1. GENERAL PROVISIONS

Sec. 47-881. Purpose.

This article is intended to ensure the provision of adequate public drainage facilities to serve new development in the city by requiring each such

development to pay its pro rata share of the costs of drainage capital improvements necessitated by and attributable to such new development.
(Ord. No. 2013-281, § 5, 4-3-2013)

Sec. 47-882. Authority.

This article is adopted pursuant to Chapter 395 of the Texas Local Government Code and pursuant to the Houston City Charter, Article IX, Section 22. The provisions of this article shall not be construed to limit the power of the city to utilize other methods authorized under state law or pursuant to other city powers to accomplish the purposes set forth herein, either in substitution for or in conjunction with this article.
(Ord. No. 2013-281, § 5, 4-3-2013)

Sec. 47-883. Definitions.

As used in this article, the following terms and phrases shall have the following meanings:

Assessment means the determination of the amount of the service unit rate that may be imposed on new development pursuant to this article as determined at the time specified in section 47-891 of this Code.

Building permit means:

a. With respect to buildings or premises within the corporate limits of the city, the general permit required by the Construction Code; or

b. With respect to buildings or premises outside the corporate limits of the city or for which a general permit under the Construction Code is not required, a plumbing permit under the Construction Code or under section 47-14 of this Code.

Credit means a certain number of service units attributable to an improved lot with impervious surface for purposes of article XIV of this chapter.

Drainage means water transported by or detained in features and improvements, whether natural or man-made, such as streets, curbs, bridges, catch basins, channels, conduits, creeks, culverts, detention ponds, ditches, draws, flumes, pipes, pumps, sloughs, treatment works, and any appurtenances, that use force or gravity to draw off surface water from land, carry the water away, collect, store, or treat the water, or divert the water into natural or man-made watercourses.

Drainage benefit area means an area within the city's extraterritorial jurisdiction that may reasonably connect to the city's drainage system.

Drainage capital improvement or *drainage impact fee improvement* means a drainage facility with a life expectancy of three or more years, to be owned or operated by or on behalf of the city.

Drainage capital improvement plan or *drainage impact fee improvement plan* means the plan adopted by city council at least every ten years, as may be amended from time to time, identifying the drainage facilities and their associated costs, necessitated by and attributable to new development, to be financed in whole or in part through drainage impact fees imposed and collected pursuant to this article.

Drainage facility means an improvement to land designed or utilized, in whole or part, for the purpose of collecting, storing, pumping or conveying drainage, including an existing facility, the capacity of which has been expanded to service new development. Drainage facility includes land, roads, easements or structures and all appurtenances associated with such facilities.

Drainage impact fee means a fee imposed by city council on new development to fund or reimburse the costs of drainage capital improvements necessitated by and attributable to such new development. Drainage impact fees do not include requirements for the dedication or construction of rights-of-way or easements for such facilities, nor payment by persons receiving service from a drainage facility of connection charges imposed to reimburse a property owner for the costs of extending such drainage facility.

Drainage service area means an area designated as such by city council within a certain watershed boundary located within the corporate limits of the city.

Drainage system means the drainage and drainage facilities owned or controlled in whole or in part by the city, including provisions for additions to the system. Drainage system components, including but not limited to streets, sidewalks, other dedicated improvements, and supporting rights-of-way shall not be considered residential or nonresidential property as defined herein.

Impervious surface means any area that has been compacted or covered such that it does not readily absorb water or does not allow water to percolate through to undisturbed underlying soil strata. Surface materials considered impervious shall include, but not be limited to, bricks, pavers, concrete, asphalt, compacted oil-dirt, compacted or decomposed shale, oyster shell, gravel, or granite, and other similar materials. Surface features utilizing such materials and considered impervious shall include, but not be limited to, decks, foundations (whether pier and beam or slab), building roofs, parking and driveway areas, sidewalks, compacted or rolled areas, paved recreation areas, swimming pools, and other features or surfaces that are built or laid on the surface of the land and have the effect of increasing, concentrating, or otherwise altering water runoff so that flows are not readily absorbed.

Improved lot means a lot or a tract of land on which the city has recorded impervious surface as determined under Article XIV of this chapter.

New development means a project involving the construction, reconstruction, redevelopment, conversion, structural alteration, relocation or enlargement of any structure, or any use or extension of the use of land, that requires either the issuance of a building permit or connection to the city's drainage system and has not been exempted from compliance by this article or state law.

Offset means the amount of the reduction of a drainage impact fee, determined under this article or pursuant to administrative guidelines, that is equal to the value of a drainage facility or portion thereof included in the drainage impact fee improvement plan and is constructed or financed by a property owner without reimbursement from other city funds.

Plat means the plan or map of a subdivision to be filed for record with the county clerk in the county in which the property is located. Plat includes a replat, but excludes a development plat.

Property owner means the owner in fee of a tract or parcel of land upon which new development is to be located, or his authorized representative.

Service unit means 1,000 square feet of impervious surface rounded to the nearest ten square feet for purposes of impact fee calculation.

Service unit rate means the drainage impact fee that the city charges per service unit within a certain drainage service area.

(Ord. No. 2013-281, § 5, 4-3-2013)

Sec. 47-884. Drainage impact fees, in general.

(a) Except as otherwise provided herein, each new development within any of the city's drainage service areas shall pay a drainage impact fee for drainage facilities necessitated by and attributable to that development as provided in division 2 of this article. Drainage impact fees shall be assessed against and collected from new development on the basis of service units and shall vary depending on the drainage service area in which the property is located.

(b) The maximum drainage impact fee per service unit assessed against a new development is provided in the drainage impact fee improvement plan. The service unit rates shall never exceed the maximum drainage impact fee per service unit.

(c) The service unit rates shall be published in the city fee schedule and shall be collected from new development as stated in this article. On July 1 of each year beginning on July 1, 2018, and to the extent allowed by subsection (b), the director shall cause the service unit rates in the city fee schedule to be adjusted by an amount equal to the percentage increase (if any) in the designated

index for the preceding calendar year multiplied by the service unit rates. The director shall annually calculate the effective service unit rates for each drainage service area on or before June 1 of each year and make all calculations available in his or her office upon request for public inspection.

For purposes of this subsection, the term designated index shall mean the United States Producers Price Index for All Commodities (1982=100), as published by the Bureau of Labor Statistics, U.S. Department of Labor. If such index is subject to adjustment later, then the city shall use the adjusted index, together with any correlation factor necessary to relate the later adjusted index to the earlier index, as published by the entity publishing the index, or if such publication is discontinued, the designated index shall then refer to comparable statistics on changes in the cost of living for urban consumers as the same may be computed and published by an agency of the United States or by a responsible financial periodical of recognized authority, which agency or periodical shall be selected by the city.

(d) City council may amend drainage impact fees to be collected from new developments without amending the service unit rates or drainage impact fee improvement plan adopted herein, as long as the impact fees to be collected do not exceed the maximum drainage impact fees per service unit that may be assessed for such facilities.
(Ord. No. 2013-281, § 5, 4-3-2013)

Sec. 47-885. Drainage service areas

(a) The department shall keep, update, and make available to the public maps of the drainage service areas. The drainage service areas may be amended from time to time as part of a new or amended drainage impact fee improvement plan. When the city's corporate limits are altered by general purpose annexation to include land within a natural watershed boundary, the land so annexed shall become part of a drainage service area.

(b) At the time of assessment, the utility official shall determine the appropriate drainage service area or areas for the new development based on the developer's application and the map(s) attached to the most recent land use assumptions adopted by city council.
(Ord. No. 2013-281, § 5, 4-3-2013)

Secs. 47-886—47-890. Reserved.

DIVISION 2. ASSESSMENT, COLLECTION AND COMPUTATION OF DRAINAGE IMPACT FEES

Sec. 47-891. Assessment of fees.

Assessment of drainage impact fees against new development shall be based on the drainage impact fee per service unit within the applicable drainage service area, established by city council. Except as otherwise provided herein, the utility official shall assess a drainage impact fee on any building permit application for new development submitted after April 3,[1] 2014, at the time the building permit application is submitted.
(Ord. No. 2013-281, § 5, 4-3-2013)

Sec. 47-892. Time of fee collection.

Drainage impact fees shall be collected at or before the time of issuance of building permits.
(Ord. No. 2013-281, § 5, 4-3-2013)

Sec. 47-893. Computation of fees.

The department shall compute the drainage impact fees in the following manner:

(1) Except as otherwise provided in this section, the drainage impact fee shall be calculated by multiplying the applicable service unit rate by the number of service units generated by the new development, rounded to the nearest hundredth.

(2) The drainage impact fee for new development on an improved lot shall be reduced by a credit determined by the utility official to be equal to the existing impervious surface on which drainage fees are being paid at the time a building permit application is submitted.

(3) Development of low and moderate cost single family housing is exempt from payment of impact fees. To qualify for this exemption, a house must be a single family residence located within the city limits having an initial purchase price as certified by the property owner that does not exceed the latest available 12-month listing for median price single family housing in the city as published by the Real Estate Center at Texas A&M University. In the event the initial purchase price exceeds this amount, the property owner making the certification shall pay to the city the full amount of the impact fee as calculated under this section. If publication of the median price for single family housing is discontinued by the Real Estate Center at the Texas A & M University, the mayor is authorized to select another publication that lists the median price of single family houses in the city.

(4) If the new development involves the alteration of existing structures, new impervious surface created by such altered structure or structures shall be converted to additional service units. If the impervious surface for the new development exceeds the existing impervious surface, the amount of the drainage impact fee due shall be the number of additional service units, rounded to the nearest hundredth, multiplied by the drainage impact fee per service unit then in effect. If the impervious surface for the new development is less than or equal to the existing impervious surface, no impact fee is due.

(5) The amount of each drainage impact fee due shall be reduced by any allowable adjustments in the manner provided in section 47-894 of this Code.

(6) If the property owner proposes to increase the number of service units for development following payment of the drainage impact fee, the additional drainage impact fees collected for such new service units shall be determined in the same manner as provided in this section.

(Ord. No. 2013-281, § 5, 4-3-2013)

Sec. 47-894. Determination of service units.

(a) The utility official shall determine the number of service units generated from a new development based on the information contained in the building permit application along with digital map data associated with tax plats and assessment rolls or other similar, reliable data from independent sources authorized by the director.

(b) If the utility official determines that sufficient information is provided along with the building permit application to demonstrate that no drainage will ever flow off all or a significant portion of the property, the director may approve an adjustment in the number of service units. Before an adjustment is made, the property owner shall covenant not to change the property to allow drainage to flow off the property without first obtaining a building permit and paying impact fees on any new development. The director may develop guidelines to determine the amount of drainage that will flow off the property and what constitutes a significant portion of the property.
(Ord. No. 2013-281, § 5, 4-3-2013)

Sec. 47-895. Offsets against drainage impact fees.

(a) A property owner may receive an offset pursuant to a development agreement approved by the city, if

(1) The property owner constructs or finances a drainage facility included in the drainage impact fee improvement plan;

(2) The property owner does not receive reimbursement for the drainage facility constructed or financed by the property owner;

(3) The drainage facility serves only the city drainage system; and

(4) The offset does not include on-site drainage for the property.

(b) A drainage facility constructed for an offset pursuant to a development agreement must be constructed within the drainage service area in which the property is located. The offset may be associated with the plat of the property that is to be served by the constructed or financed drainage facility. The amount of the offset shall be deter-

mined pursuant to rules established in this section and any administrative guidelines promulgated by the director. In no event shall the offset allowable under this subsection exceed the amount of the drainage impact fees due.

(c) Any offset associated with new development shall be applied against the drainage impact fee due at the time that the fee for the building permit is collected.

(d) Any offset provided under this section shall have no effect on on-site drainage requirements associated with the property.
(Ord. No. 2013-281, § 5, 4-3-2013)

Sec. 47-896. Development agreements in drainage benefit areas.

If the director determines that adequate capacity exists within the drainage system, a property owner within a drainage benefit area may voluntarily enter into a development agreement to connect to the drainage system. The director may authorize a development agreement to allow the property owner to construct facilities consistent with section 47-895 of this Code, and any associated rules and guidelines, or pay charges equivalent to drainage impact fees. The drainage impact fee improvement plan, as amended in accordance with Chapter 395 of the Local Government Code, shall account for the connections pursuant to development agreements under this section and shall include projections for voluntary connections to the drainage system from the drainage benefit area.
(Ord. No. 2013-281, § 5, 4-3-2013)

Secs. 47-897—47-900. Reserved.

DIVISION 3. ADMINISTRATION

Sec. 47-901. Accounting.

(a) All drainage impact fees collected within a certain drainage service area shall be deposited in a dedicated fund to which interest is allocated in accordance with Section 22, Article IV of the City Charter. All such amounts, together with all interest earned thereon, shall be used solely for the purposes set forth in subsection (b).

(b) The drainage impact fees collected pursuant to this article shall be used to finance or recoup the costs of any drainage impact fee improvements identified in the drainage impact fee improvement plan for the applicable drainage service area, including but not limited to the construction contract price, surveying and engineering fees, land acquisition costs (including land purchases, court awards and costs, attorneys' fees, and expert witness fees) and fees paid to an independent qualified engineer or financial consultant for preparing or updating the drainage impact fee improvement plan.

(c) Disbursement of funds shall be authorized by the department at such times as are reasonably necessary to carry out the purposes intended by this article; provided, however, that funds shall be expended within a reasonable period of time, but not to exceed ten years from the date drainage impact fees are deposited in the fund.

(d) An owner of property for which a drainage impact fee has been paid is entitled to a refund for all or a portion of the fee in the following circumstances:

(1) The city denies service to the property on which the impact fees were paid; and

a. The city has the drainage facilities to provide service to the property;

b. The city has not constructed the drainage facilities within five years of the date the impact fees were collected; or

c. The city has not spent the impact fees within ten years of the date the impact fees were collected.

(2) After receiving a completed application for an impact fee refund, the department shall issue a refund to the record property owner. The refund shall include interest calculated from the date of collection to the date of refund at the statutory rate provided in Texas Local Government Code Section 395.024, or its successor statute. A drainage impact fee shall be considered expended on a first-in, first-out basis.

(3) If a refund is due pursuant to paragraph (2), the department shall divide the differ-

ence between the amount of expenditures and the amount of the fees collected by the total number of service units for which drainage impact fees have been paid within the service area for the period to determine the refund due per service unit. The refund to the owner shall be calculated by:

a. Multiplying the refund due per service unit by the number of service units of the development for which the fee was paid; and

b. Determining interest due based on the amount calculated under subsection (d)(3)a.

(4) Upon completion of all the drainage facilities identified in the drainage impact fee improvement plan for the drainage service area, the department shall recalculate the drainage impact fee per service unit using the actual costs for the drainage facilities. If the maximum drainage impact fee per service unit based upon actual cost is less than the drainage impact fee per service unit paid, the city shall refund the difference if such difference exceeds the drainage impact fee paid by more than ten percent. If the difference is less than ten percent, no refund shall be due. Refund to the record owner shall be calculated by:

a. Multiplying such difference by the number of service units of the development for which the drainage impact fee was paid; and

b. Determining interest due based on the amount calculated under subsection (d)(4)a.

(e) The department shall establish adequate financial and accounting controls to ensure that drainage impact fees disbursed from the fund are utilized solely for the purposes authorized. The department shall maintain and keep financial records for drainage impact fees that shall show the source and disbursement of all fees collected or expended within a certain drainage service area. The records of the fund into which drainage impact fees are deposited shall be open for public inspection and copying during ordinary business hours.

(f) Nothing in this article shall prevent the city from paying all or part of the drainage impact fees due for a new development pursuant to criteria adopted by city council.
(Ord. No. 2013-281, § 5, 4-3-2013)

Sec. 47-902. Impact fee appeals.

(a) The property owner or applicant for a new development may appeal the following administrative decisions to an administrative hearing official appointed by the director:

(1) The applicability of a drainage impact fee to the development;

(2) The amount of the drainage impact fee due;

(3) The determination of service units;

(4) The applicability of any credit or offset to the development;

(5) The amount of any credit or offset; or

(6) The amount of a refund due, if any.

(b) The burden of proof shall be upon the applicant to demonstrate that the administrative decision was not made in accordance with this article or applicable state law.

(c) The applicant shall file a written notice of appeal with the director within 30 days following the date of the decision from which an appeal is made. If the notice of appeal is accompanied by a payment or other sufficient security satisfactory to the department in an amount equal to the original determination of the drainage impact fee due, the development application may be processed while the appeal is pending. In addition to any other amount collected, the director shall collect from the applicant an administrative fee in accordance with section 1-14 before considering the applicant's appeal.
(Ord. No. 2013-281, § 5, 4-3-2013)

Sec. 47-903. Relief procedures.

(a) Any person who has paid a drainage impact fee, or an owner of land for which a drainage impact fee has been paid, may petition city council to determine whether any duty required by this article or by chapter 395 of the Texas Local Government Code has not been performed within the time so prescribed. The petition shall be in writing and delivered to the city secretary and shall state the nature of the unperformed duties and request that the duties be performed within 60 days of the request. If city council determines that the performance of the duty is required pursuant to this article and is late in being performed, it shall cause performance of the duty to commence within 60 days of the date of the request and to continue until completion. This subsection shall not apply to matters subject to appeal pursuant to section 47-902 of this Code.

(b) City council may grant a variance from any requirement of this article, upon written request by the property owner subject to the article following a public hearing, but only upon finding that a strict application of such requirement would, when regarded as a whole, result in confiscation of the property.

(c) If city council grants a variance to the amount of the drainage impact fee due for a new development under this section, it shall cause to be appropriated from other city funds the amount of the reduction in the drainage impact fee to the fund for the drainage service area in which the property is located.
(Ord. No. 2013-281, § 5, 4-3-2013)

Sec. 47-904. Storm water drainage letters.

(a) A storm water drainage letter associated with a new development shall automatically expire unless the developer makes progress towards completion of the new development within two years after the developer obtains the storm water drainage letter. If prior to expiration, the developer presents the utility official with evidence of progress towards completion of the project, then the developer shall have an additional two years to complete the project or make additional progress towards completion of the project.

(b) Progress towards completion of the project shall consist of one or more of the following:

(1) Payment or other provision of consideration authorized under this article for drainage impact fees on the new development;

(2) Execution of a performance bond, naming the city as obligee, for public infrastructure associated with the new development;

(3) Provision to the utility official of a copy of a substantially complete application necessary for completion of the new development that the developer has filed and actively pursued with the city or any local, state, or federal agency of competent jurisdiction; or

(4) Presentation to the utility official of documentation conclusively showing that the developer has spent, in aggregate, more than five percent of the most recent appraised market value of the property associated with the new development towards the development of infrastructure facilities.

(Ord. No. 2013-281, § 5, 4-3-2013)

ARTICLES XVI—XX. RESERVED

Secs. 47-905—47-1000. Reserved.

ARTICLE XXI. TABLES, CHARTS AND DIAGRAMS

Sec. 47-1001. Reserved.

Editor's note—Ord. No. 2010-305, § 10, adopted April 21, 2010, effective June 1, 2010, repealed § 47-1001 in its entirety. Formerly said section pertained to minimum monthly charges for treated water and derived from Code 1968, § 49-52 and subsequent amendatory ordinances.

Sec. 47-1002. Commercial equivalents of service.

The following table is applicable as provided in section 47-123 of this Code:

Type of Commercial Connection	*Units to Measure Contribution*	*Number of Contribution Units to Equal One Commercial Equivalent*
Offices, warehouses machine shops, producers of no process waste, without on premise showers	Total number of on premises employees working, based on 8-hour shifts	16 employees
Offices, warehouses machine shops, producers of no process waste, with on premise showers	Total number of on premise employees working, based on 8-hour shifts	8 employees
Offices, warehouses machine shops, producers of no process waste, without on premise showers	Total number of off premise employees working, based on 8-hour shifts	64 employees
Offices, warehouses machine shops, producers of no process waste, with on premise showers	Total number of off premise employees working, based on 8-hour shifts	32 employees
Offices, warehouses machine shops, producers of no process waste	Total number of employees who reside at their place of work	4 employees
Hospitals, with laundry facilities	Number of beds	1½ beds
Hospitals without laundry facilities	Number of beds	2 beds
Laundries	Pounds of laundry per day	50 pounds
Restaurants	Seating capacity	16 seats
Soda fountain only, without food facilities	Seating capacity	32 seats
Schools, all grades	Number of students, average daily attendance	32 students
Churches and Sunday Schools	Seating capacity	64 seats
Taverns, without food facilities	Seating capacity	32 seats
Skating rinks, theaters, bowling alleys, amusement parks, other entertainment facilities*	Average number of patrons daily, based on number of days facility is open	64 patrons
Tourist courts, motels, hotels, other transient lodging facilities*	Number of rooms	2 rooms

*The number of commercial equivalents for those facilities with restaurants or associated dining facilities to be calculated separately as for "Restaurants" above and added to the number of commercial equivalents calculated for this category.

(Code 1968, § 49-96; Ord. No. 74-221, § 1, 2-6-74; Ord. No. 77-499, § 3, 3-15-77; Ord. No. 82-37, § 2, 1-12-82; Ord. No. 83-1138, § 2, 7-26-83)

CODE COMPARATIVE TABLE

ORDINANCES

This table gives the location within this Code of those ordinances adopted since the 1968 Code, as supplemented through October 4, 1967, which are included herein. Ordinances adopted prior to such date were incorporated into the 1968 Code. Ordinances not listed herein have been omitted as repealed, superseded, or not of a general and permanent nature.

MEMORANDUM HISTORY TABLE

The table below has been created to maintain a detailed history of changes made to ordinances pursuant to Ordinance No. 2011-797, which is located as Section 1-16 of this Code of Ordinances.

Ordinance No. 2011-797 was adopted authorizing the City Attorney to direct the publisher of the Code to make non-substantive amendments, correct typographical errors and effect similar changes without the necessity of further action of the City Council.

Memorandum Date	Ordinance Amended	Description of Amendment
10-26-2011	2011-392	Renumbers the sections of Ch. 10, Article XIX from 10-1001—10-1007 to 10-731—10-737
	2011-108	Changing the word "on" to "one" of Section 10-363
	2011-655	Renumbers the reference to "Section 26-48" in sections 2, 3 and 4 of said ordinance to "Section 28-46".
2-22-2012	2011-1201	Section 2 of Ord. No. 2011-1201 replaced the term Article IV of Chapter 46 with the term "Section 46-191. The intent of this revision was to amend only Section 46-191, and not to replace the entirety of Article IV of Chapter 46 with the proposed amendments to Section 46-191.
	2011-1086	Former Section 3 was deleted, but the subsequent sections were not renumbered. This correction renumbers Sections 4 through 13 as Sections 3 through 12 and makes corresponding changes to citations to those sections.
	2011-1165	A subsection letter was accidentially skipped; this is corrected by redesignating subsections (k) through (o) of Section 32-301 of the City Code as subsections (j) through (n).
4-19-2012	2011-1175	Said ordinance accidentally repealed subsection (g) from Section 26-157. Said memorandum adds back Section 26-157(g).
9-12-2012		Section 2-263(a) is amended to update the references to State Law.
		Section 9-782(a)(3) is amended to correct the lettering of subitems so that there are no longer two subsections designated as "c.".
		Section 21-225 is amended to conform subsection (f) to changes in the Texas Health and Safety Code.
7-17-2013	2013-248	Mistakenly add a line of text to Item "7 to Section 15-17."7. Said line of text deleted.
1-23-2014	2013-455	Correct Sections 2 and 3 of said ordinance; intent of ordinance was to amend § 14-142, not § 14-140. If not corrected, the errors described above will lead to confusion, mislead the user of the Code and render the attempt to update Section 14-142 ineffective.
	2013-1081	Over the course of multiple drafts of the Wage Theft Ordinance, a new provision was inserted into Section 15-63 and numbered subsection (b), re-numbering the existing subsection (b) as subsection (c). Prior to such change, subsection (b) made a reference to "the preceding subsection" meaning subsection (a) of that section and the criteria listed therein. The insertion of the "new" subsection (b) made a reference in the current subsection (c) erroneous as it was always intended to refer to the criteria in subsection (a). Without the proposed correction, the reference to "preceding subsection" now in subsection (c) would be a reference to subsection (b), not subsection (a), as intended.
	2013-1163	Correct Section 2 of Ordinance No. 2013-1163, amending Chapter 28 of the Code to add a new Article XV relating to consumer protection and regulation of credit access businesses (Pay Day Loan Ordinance), by amending the last sentence of subsection (d) of Section 28-502 to read as follows: "An extension of consumer credit that provides for repayment in installments many not be refinanced or renewed." The error is a typo and the correction proposed above will ensure that the original intent of the ordinance is achieved in this regard.

Memorandum Date	Ordinance Amended	Description of Amendment
1-28-2015	2014-914	1. Amendments were to include a correction to item (5) of Section 46-331(b) intended to make the provision applicable to jitneys, rather than sightseeing or charter services. The amendment in Section 9 of the adopting ordinance was written incorrectly. The proposed change will preserve the intent of the Code as articulated above, and per the corresponding redline.
		2. Subsection (c) of Section 46-6 contains a typographical error. The first sentence of subsection (c) incorrectly identifies Section 1-10(a) as the Code provision that relates to vehicles for hire, rather than Section 1-10, because there are related provisions in both subsections (b) and (c). If the typographical error is not corrected, readers of the Code may be confused when they attempt to locate the information pertaining to certain requirements for vehicle for hire licenses, permits and certificate of registration. The proposed change will preserve the original intent of the Code by referencing the correct Code provision.
10-15-2015		1. The definition of solid waste in Section 39-1 of the Code of Ordinances includes a reference to a definition in the Texas Administrative Code. The definition states that it includes "any other type of solid waste as defined in Section 330.2 of the Texas Administrative Code and any amendments thereto." The definition cited is now found in Texas Administrative Code Title 30, § 330.3.
		Also in Section 39-1, the definition of *sponsorship agreement* is out of alphabetical order, so it will be moved to the appropriate position.
		2. The definition of commission in Article XIII of Chapter 45 of the Code of Ordinances refers to the State Highway and Public Transportation Commission, which was renamed the Texas Transportation Commission in 1991.
11-30-2015	2014-482	Section 1-9(a) was restored to its previous version.
11-30-2015	2009-1049	Section 10-215(b)(4), the word "except" was inadvertently deleted, in addition, the brackets should have been removed from the word "at". Brackets removed and the word "except" inserted.
1-12-2016	2015-1202	Removed the text "subitem b" from section 20-21.11(a)(3)b. During drafting, the substance of the highlighted text in subitem b. was moved to the paragraph below subitem d., but this was accidently retained.
1-27-2016	2015-1103	Duplicate subsection (c) of section 9-334. Renumbered the second subsection (c) as subsection (d) and subsequent subsections renumbered.
2- 3-2016	2015-1300	In December 2015, City Council passed Ord. No. 2015-1300, relating to civil service and employment. During drafting, the titles for Article II and Divisions 2 and 15 were accidentally deleted. Said titles have been inserted to read as they read before the passage of said ordinance.
1- 5-2017	2015-1300	Section 14-183 was amended to delete a reserved subsection, but a reference in subsection (a)(12) was not changed to account for the deleted subsection. To correct the inaccurate reference and to delete certain extraneous words and punctuation § 14-183 was revised to read as set out.
7- 8-2021	2021-350	A section referenced in Subsection (a)(4) of Section 28-641 was not changed to account for a non-existent subsection.
4-22-2025	2025-723	The phrase "or suspension" was inadvertently included in Subsection (b) of Section 28-723 of Ordinance No. 2015-322. The phrase is not relevant to the Ordinance and shall be removed from Subsection (b) of Section 28-723.
		Subsection (b) of Section 28-734 of Ordinance No. 2025-322 was inadvertently included in that section of the Ordinance and is not relevant to the overall subject of that section (Notice to platforms to delist short-term rentals) and shall be deleted from that Section and redesignated as Subsection (e) of Section 28-733. Furthermore, the Subsection (a) heading in Section 28-734 needs to be deleted so that the remaining paragraph/provision under Section 28-734 stands alone.
