13. The number of vehicles to be put into service at the time of application, the location of proposed stands and terminals, and the class and seating capacity of each vehicle;
14. The color scheme and insignia to be used to design the vehicle or vehicles of the applicant;
15. Whether applicant operates any other vehicles under this chapter;
16. A statement by the applicant that he or she is familiar with the provisions of this chapter and is in compliance with them;

17. A statement by applicant that he or she will be obligated to serve all sections of Memphis;

18. A business plan shall be included in the application package.

C. Within ten days, or a reasonable time thereafter of receiving the results of the investigation conducted by the division of police services, the director of police services shall fix a time and a place for a public hearing on the application and notice shall be given as provided in section 6-80-5(B). All documents relative to the public hearing shall be available for inspection prior to the hearing. Any interested person may file a statement in support of or in opposition to the issuance of a certificate, and/or may offer testimony at the hearing.

D. Failure or refusal of the applicant to give any information relevant to the investigation of the application or the applicant's refusal or failure to appear at any reasonable time and place for examination under oath regarding the application or the applicant's refusal to submit to or cooperate with any investigation required by this chapter, shall constitute an admission by the applicant that the applicant is ineligible for such license and shall be grounds for denial thereof by the director.

E. In addition to other requirements provided in this chapter, a new applicant for a certificate also making application for a hire vehicle driver permit, to operate a for hire vehicle, must have a certificate that the applicant has satisfactorily completed a training course approved by the city police department relative to the operation of the for hire vehicle in the city. This certificate is to be submitted with application for a for hire vehicle driver's permit.
(Code 1985, § 39-8; Ord. No. 4227, § 1, 11-2-1993; Ord. No. 4941, 5-7-2002)

Sec. 6-80-9. Standards for issuance of certificate.

The director of police services may issue a certificate of public convenience and necessity if an applicant meets the following standards:

A. The applicant's financial status shall be such that the applicant shall be capable of operating the taxicab or passenger vehicle for hire service during the time the certificate shall remain in effect.

B. The applicant has demonstrated clear and convincing evidence that the public convenience and necessity requires the granting of a certificate. Among the factors to be considered are:

1. The support of potential customers of the service;

2. The uniqueness of the services offered, if possible;

3. The service would not disrupt local traffic conditions.

C. The applicant shall present a distinct color scheme and an insignia to designate the vehicle(s) of the applicant.

D. If the applicant is an individual:

1. The applicant shall be at least 21 years of age.

2. The applicant shall not have outstanding unpaid final judgments.

3. The applicant shall not have been convicted of, forfeited bond or pleaded nolo contendere to a felony or any crime involving moral turpitude as defined in T.C.A. § 57-4-203(h)(2), a controlled substance, prostitution, assignation, obscenity, or any crime of a sexual nature in any jurisdiction within five years immediately preceding the date of application.

4. The applicant shall not have been found to have violated this chapter within five years immediately preceding the date of application.

E. If the applicant is a corporation:

1. All officers and directors shall be at least 21 years of age.

2. No officer, director or stockholder required to be named under section 6-80-8 shall have outstanding unpaid final judgments.

3. No officer, director or stockholder required to be named under section 6-80-8 shall have been convicted of, forfeited bond or pleaded nolo contendere to a felony or any crime involving moral turpitude as defined in T.C.A. § 57-4-203(h)(2), a controlled substance, assig-

nation, prostitution, obscenity, or any crime of a sexual nature in any jurisdiction within five years immediately preceding the date of application.

4. No officer, director or stockholder required to be named under section 6-80-8 shall have been found to have violated this chapter within five years immediately preceding the date of application.

F. If the applicant is a partnership, joint venture or any other type of organization where two or more persons have a financial interest:

1. All persons having a financial interest in the partnership, joint venture or other type of organization shall be at least 21 years of age.

2. The managing partner or manager shall have experience in the operation of a transportation business or in related endeavors.

3. No person having a financial interest in the partnership, joint venture or other type of organization shall have outstanding unpaid final judgments.

4. No persons having a financial interest in the partnership, joint venture or other type of organization shall have been convicted of, forfeited bond or pleaded nolo contendere to a felony or any crime of moral turpitude as defined in T.C.A. § 57-4-203(h)(2), a controlled substance, prostitution, assignation, obscenity or any crime of a sexual nature in any jurisdiction within five years immediately preceding the date of the application.

5. No person having a financial interest in the partnership, joint venture or other type of organization shall have been found to have violated this chapter within five years immediately preceding the date of the application.

(Code 1985, § 39-9; Ord. No. 4227, § 1, 11-2-1993)

Sec. 6-80-10. Insurance.

A. No certificate of public convenience and necessity shall be issued unless the applicant provides to the city treasurer proof of financial responsibility by either a written policy of liability insurance coverage as provided in subsections (A)(1) or (3) of this section, or a self-insurance certificate as provided in subsection (A)(2) of this section. The liability insurance coverage limits as provided in subsections (A)(1) and (2) of this section are the same as that provided by the Tennessee Financial Responsibility Law of 1977, as amended, T.C.A. § 55-12-101 et seq., generally and in particular T.C.A. §§ 55-12-102 and 55-12-111, and shall be automatically increased as of January 1, 1990, as provided by the state statute, and thereafter as the statute is amended.

1. A written policy of liability insurance coverage issued by an insurance carrier duly authorized to do business in the state, covering separately, or in a schedule attached to such policy, each passenger vehicle for hire to be operated under the direction of such applicant, for taxicabs shall be provided by a single-limit policy with a limit of not less than $50,000.00 applicable to one accident or split-limit policy with a limit of not less than $20,000.00 for bodily injury to or death of one person, not less than $40,000.00 for bodily injury or death to two or more persons in any one accident, and not less than $10,000.00 for damage to property in any one accident.

2. A self-insurance certificate issued by the state commissioner of the department of safety, for which documentation from the commissioner shall also be filed with the city treasurer.

3. A written policy of liability insurance coverage issued by an insurance carrier duly authorized to do business in the state, covering separately or in a schedule attached to each policy, each passenger vehicle having a capacity of more than five persons including the driver, shall be provided by a policy with limits of at least $5,000.00 more per each seat capacity beyond five than the minimum single-limit or split-limit requirement for taxicabs, as provided herein, for injuries or death of more than one person in any one accident.

a. A self-insured retention or deductible funding, whether or not in conjunction with automobile liability insurance for taxicabs which achieves the substantial equivalent of the liability insurance set forth in subsection (A)(1) of this section. The

applicant or certificate holder shall file a statement of compliance providing that the certificate holder or applicant shall pay within 30 days any final judgment of a court for damages on account of bodily injury, death or property damages resulting from the ownership or negligent use or operation of a taxicab subject to the single-limit liability of subsection (A)(1) of this section and shall deposit collateral for the faithful performance of the statement in a restricted account to insure the liability protection required in subsection (A)(1) of this section as follows: $20,000.00 to be deposited immediately in a commercial bank or other such depository with a branch office located in the city, three deposits of $20,000.00 each every 90 days thereafter, and then 12 deposits of $10,000.00 each every 90 days thereafter until a total amount of $200,000.00 is deposited. Documentation of the deposits shall be filed with the city treasurer. Within 30 days of any withdrawals, as provided for below, the fund shall be replenished to required funding level.

b. The certificate holder or applicant shall file with the city treasurer and the depository, wherein the certificate holder or applicant shall expressly agree that, if any court or the clerk thereof, shall certify to the city treasurer and to the depository that such certificate holder has failed to satisfy within 30 days any final judgment of the court upon which execution has been lawfully issued for damages in a single accident on account of bodily injury, death or property damage resulting from the ownership or negligent use or operation of any taxicab of such certificate holder, such cash or government obligations so deposited shall, to the extent of no more than $50,000.00, be applied by the depository upon the written order of the city treasurer, to the satisfaction of the judgment; and agreeing that, for that purpose, any government obligations so deposited may be sold and converted into cash by the depository at its market price, and that any cash excess from the proceeds of such sale shall remain with the depository as collateral security aforesaid. Nothing herein shall affect the right of the general public to recover damages in excess of the limits stated herein from a source other than the restricted fund. The certificate holder shall reimburse the fund for such judgment so that the fund shall be brought to the required level within 30 days of the withdrawal by the city treasurer. The certificate holder shall not encumber the fund nor shall the fund be encumbered or moneys withdrawn from the fund except as provided herein.

c. The certificate holder shall report claims activities on a quarterly basis to the city treasurer, including the following information per claim: the name(s) and addresses of the claimant(s), the date and location of the accident(s), the name(s) of the taxicab driver(s) involved, and the amount and current status of the claim. Records of the claims maintained by the certificate holder shall be made available for inspection by the city treasurer or his or her representative during regular business hours in the office of the certificate holder for a period of one year of the final disposition of each claim.

d. It is unlawful for a permit holder, or anyone acting on his or her behalf, to commit or perform any of the following in handling of claims:

   i. Misrepresent insurance policy provisions relating to coverage at issue;

   ii. Fail to acknowledge and act reasonably promptly, considering all the circumstances, upon written or oral communications with respect to claims;

   iii. Fail to adopt and implement reasonable standards for the prompt investigation of claims.

e. So long as a depository has received no written notice of default by a certificate holder in the faithful performance of this statement of compliance referred to in

subsection (A)(3)(a) of this section, such certificate holder shall be entitled to receive, and the depository shall pay to him or her, if, as and when collected by it, all interest from time to time accruing upon any cash or government obligations deposited as herein provided. All charges made by the depository for such account shall be paid by the certificate holder.

f. In case a certificate holder, after making a deposit of cash or government obligations as provided in subsection (A)(3)(a) of this section shall discontinue the operation of taxicabs or in the event he or she shall, with the consent of the city treasurer, substitute in lieu of such agreement a policy of liability insurance in accordance with subsection A of this section, the certificate holder shall continue to maintain the deposit at the required level for such period of time as shall equal the then applicable statute of limitation for the filing of claims by adult claimants for damages covered by subsection A of this section at which time an appraisal shall be made by the city treasurer and the certificate holder of all outstanding and unpaid claims pending against such person; and a sufficient amount of such cash or government obligations so deposited shall be retained by the depository as, in the reasonable discretion of the city treasurer, shall be reasonably sufficient to guarantee payment of such claims. The balance of such deposit shall thereupon be returned to the person making such deposit by the depository, upon the order of the city treasurer; and thereafter the balance of such fund shall, from time to time as claims are reduced, be returned by the depository to the person making such deposit on the order of the city treasurer, in the proportion to the amount that it shall be shown to the city treasurer that such claims have been paid or satisfied, or have been reduced, dropped or abandoned. In case of dispute over such appraisal between the person making such deposit and the city treasurer, the dispute shall be settled by the chief administrative officer or his or her designee, and the decision of same shall be final and binding upon the parties.

g. Failure by the certificate holder to fully comply with all the provisions of subsection (A)(3) of this section shall result in the immediate suspension of the affected certificate of public convenience and necessity and notification of a revocation hearing.

B. Any insurance policy issued pursuant to this section shall further provide that the insolvency or bankruptcy of the insured shall not relieve the company from the payment of damages for injuries or death sustained or loss occasioned within the provisions of the policy and that the prepayment of any judgment that may be recovered against the insured upon any claim covered by such policy shall not be a condition precedent to any right of action against the company upon the policy, but that the company shall be bound to the extent of its liability under the policy and shall pay and satisfy such judgment, and that action may be maintained upon such judgment by the injured person or his or her heirs or personal representatives, as the case may be, to enforce the liability of the company as therein set forth.

C. Any insurance policy issued pursuant to this section shall further provide that the same may not be canceled or not renewed without at least 30 days' written notice to be sent by registered or certified mail, return receipt requested, to the city treasurer except that cancellation for nonpayment of premium shall require no more than ten days, properly mailed, written notice of cancellation.

D. If the certificate holder fails to fully and timely comply with all the provisions of subsection (A)(3) of this section, the certificate of public convenience and necessity affected by such fund shall fail within the period specified in such notice of cancellation or nonrenewal of a liability insurance policy or self-insurance certificate to provide a policy or self-insurance certificate meeting the requirements of this section on or before the date of cancellation or nonrenewal, then the certificate of public convenience and necessity affected by such cancellation or nonrenewal shall be immediately suspended. Any such suspended certificate of public convenience and necessity may be revoked after a public hearing to be held following ten days' written notice, sent registered or certified mail, return receipt requested, the

date of post and the date of cancellation, nonrenewal, or the date the subsection (A)(3) of this section fund falls below the level provided for in subsection (A)(3)(a) of this section being day one, upon the finding that the policy or self-insurance certificate has not been provided or the subsection (A)(3) of this section fund has not been properly funded. The suspended certificate of public convenience and necessity may be reinstated by the city treasurer before the hearing or at the hearing, upon compliance in full with the provisions of this section, so long as no other cause for suspension or revocation exists. An application for a certificate of public convenience and necessity, after revocation, shall be treated as an initial application.

E. No passenger vehicles for hire shall be operated upon the suspension or revocation of a certificate of public convenience and necessity.
(Code 1985, § 39-10; Ord. No. 4227, § 1, 11-2-1993; Ord. No. 4352, § 8, 8-15-1995)

Sec. 6-80-11. Certificate issued to owner only.

No certificate shall be granted under this chapter to any person unless the person is the owner of the vehicle(s) to be operated as a passenger vehicle(s) for hire. At the time of the issuance of the certificate, the certificate applicant shall deposit with the city treasurer a copy of a title issued by the State of Tennessee for each vehicle to be operated as a passenger vehicle for hire. Copies of renewal forms of licensing through the State of Tennessee must be kept and maintained by the certificate holder and shall be available upon request to the city treasurer at any time without notice.
(Code 1985, § 39-11; Ord. No. 4227, § 1, 11-2-1993; Ord. No. 4352, § 8, 8-15-1995)

Sec. 6-80-12. Fee.

When a certificate is issued, and at each authorized renewal thereof, a fee for each vehicle in use shall be paid to the city treasurer to defray the cost of administration of this chapter. The fee shall be as follows:

A. For 2003, $95.00;

B. For 2004, $110.00;

C. For 2005 and all years thereafter, $125.00.

For any certificate issued or amended after July 1 of any year, the fee shall be half the annual fee for each vehicle in use.
(Code 1985, § 39-12; Ord. No. 4227, § 1, 11-2-1993; Ord. No. 4352, § 8, 8-15-1995; Ord. No. 4941, 5-7-2002)

Sec. 6-80-13. Passenger vehicle for hire services.

A. All persons engaged in the taxicab business in the city operating under the provisions of this chapter shall render service to the public desiring to use passenger vehicles for hire. Holders of certificates of public convenience and necessity shall maintain a fixed place of business and a publicly known telephone number. Holders of certificates to operate taxicabs shall keep the same open 24 hours a day for the purpose of receiving calls and dispatching taxicabs. The holders of certificates to operate taxicabs shall answer all calls received by them for services inside the corporate limits of the city as soon as they can do so and if the services cannot be rendered within a reasonable amount of time, they shall then notify the prospective passengers how long it will be before the call can be answered and give the reason thereof. No holder of certificates to operate taxicabs shall refuse to accept a call anywhere in the corporate limits of the city at any time when such holder has available taxis. All other holders of certificates shall fully comply with scope of service described in their certificates.

B. Except when carrying passengers, answering calls, going to or from officially designated taxicab stands, or attending the lawful business of the certificate holder other than carrying of passengers for hire, taxicabs shall be kept off the streets of the city; provided that they may occupy officially designated taxicab stands approved under the provisions of section 6-80-3.
(Code 1985, § 39-13; Ord. No. 4227, § 1, 11-2-1993)

Sec. 6-80-14. Book and accounting records of certificate holder.

Books, records and statistics shall be kept and maintained by the certificate holder for a period of seven years and a semi-annual comprehensive statement of profit and loss and a balance sheet and copies of same shall be available upon request to the director of police services at any time without notice.
(Code 1985, § 39-14; Ord. No. 4227, § 1, 11-2-1993)

Sec. 6-80-15. Telephone records.

The director of police services shall require that each taxicab company keep a record of each telephone call received requesting such taxicab services. The record must be kept for a period of not less than 12 months and will be subject to open inspection by the director of police services, the passenger vehicle for hire inspectors, or the division of police services on demand.
(Code 1985, § 39-15; Ord. No. 4227, § 1, 11-2-1993)

Sec. 6-80-16. Business to be conducted by certificate holder—Agreements with drivers.

The business of every passenger vehicle for hire shall be carried on by the person to whom the certificate is issued under this chapter. The holder of the certificate may enter into agreements with drivers fixing percentages of receipts to be turned over to the holder of the certificate for the daily use of such vehicles, paying salaries to drivers, or drivers may rent the passenger vehicle for hire for a specific sum on money. A driver may be the conditional buyer or lessee of a vehicle as long as the certificate holder is the owner as defined in section 6-80-1. Any arrangement contracted between the holder of a certificate and the driver shall not relieve the holder of the certificate from any liability and damages to third parties. A sample copy of all such agreements shall be kept on file with the director of police services.
(Code 1985, § 39-16; Ord. No. 4227, § 1, 11-2-1993)

Sec. 6-80-17. Increase in number of vehicles after issuance—Enlargement of authority.

A certificate holder shall not increase the number of vehicles operated pursuant to the certificate without receiving the approval of the director of police services or the director's designee. The director of police services or the director's designee shall approve or disapprove such request on the basis of economic need of the certificate holder, need of public for additional service, and other factors listed in section 6-80-9(B). If the request is denied, the director or the director's designee shall advise the certificate holder in writing of the reasons for such action. If the certificate holder requests a hearing within ten days of receipt of notification of denial, a public hearing shall be held as provided in section 6-80-5.
(Code 1985, § 39-17; Ord. No. 4227, § 1, 11-2-1993)

Sec. 6-80-18. Replacement of vehicles.

A. In case any vehicle covered by a certificate is retired by the owner because it is worn out or so damaged as not to be worthy of repair, or is burned or otherwise destroyed, the certificate holder shall deposit with the city treasurer a copy of the title of the substitute vehicle. Copies of renewal forms of licensing through the State of Tennessee must be kept and maintained by the certificate holder and shall be available upon request to the city treasurer at any time without notice.

B. The certificate holder must, if vehicles are discarded, sold, returned or otherwise disposed of, give notice to the city treasurer of such action whether or not the vehicle is replaced and return identification sticker to city treasurer.
(Code 1985, § 39-18; Ord. No. 4227, § 1, 11-2-1993; Ord. No. 4352, § 8, 8-15-1995)

Sec. 6-80-19. Accident reports.

Reports of accidents in which a taxicab or any passenger vehicles for hire may be involved shall be promptly made to the police services division in accordance with the provisions of chapters 2-28 through 2-34. The certificate holder and the driver shall each have responsibility for filing a copy of the report with the director of police services. Upon the happening of any accident or collision, the certificate holder shall forthwith have the taxicab or passenger vehicle for hire involved therein taken to the garage or repair shop of the certificate holder or to some reputable repair shop.
(Code 1985, § 39-19; Ord. No. 4227, § 1, 11-2-1993)

Sec. 6-80-20. Manifests.

It shall be the duty of every certificate holder operating taxicabs to furnish regularly to the driver an adequate number of printed manifests which shall contain the name of the driver of the taxicab, the license number and the date the sheet shall be completed by the driver at the time of the event, showing the time and place at which any passenger or passengers engaged the taxicabs, the number of such passengers, the time and place at which such passengers were delivered to their destination, and the amount of the fare received by the driver. Recording of odometer is required at beginning/end of each trip on manifest by the taxicab driver.
(Code 1985, § 39-20; Ord. No. 4227, § 1, 11-2-1993)

Sec. 6-80-21. Assignment or transfer of certificate.

No certificate of public convenience and necessity may be sold, assigned, mortgaged, transferred or alienated.
(Code 1985, § 39-21; Ord. No. 4227, § 1, 11-2-1993)

Sec. 6-80-22. Expiration and renewal of the certificate.

A certificate issued under this chapter shall expire December 31 of each year at midnight and shall be renewed at the existing level of vehicles as long as the standards for the initial issuance are met. Applications for renewals shall be made by December 10 of each year, by which time all fees for the succeeding year shall have been paid. If the request for renewal is denied, the director or the director's designee shall advise the applicant in writing of the reasons for such denial. If the applicant requests a hearing within ten days of notification of denial, a public hearing shall be held as provided in section 6-80-5(B).
(Code 1985, § 39-22; Ord. No. 4227, § 1, 11-2-1993)

Sec. 6-80-23. Fines, suspension and revocation of certificate.

A. A certificate issued under the provisions of this chapter may be suspended or revoked by the director of police services or the director's designee after a public hearing, except as provided in section 6-80-10. Notice, public access to documents, and conduct of hearing shall conform with the provisions of section 6-80-5(B), except that written notice shall be sent by registered U.S. mail to the subject certificate holder by the date of publication.

B. A certificate issued under the provisions of this chapter may be subject to a penalty fine of no more than $50.00, suspension or revocation by the director of police services or the director's designee upon findings at the public hearing that the holder of the certificate:

1. Has violated any provisions of this chapter;

2. Has discontinued operation for more than 30 days;

3. Would no longer be eligible for issuance of the certificate.

C. A certificate holder shall have the right to appeal the ruling of the director or the director's designee revoking or suspending the certificate in the same manner as provided for appeals of the decision under section 6-80-5(B).
(Code 1985, § 39-23; Ord. No. 4227, § 1, 11-2-1993; Ord. No. 4941, 5-7-2002)

ARTICLE 5. DRIVERS AND CONDUCTORS

Sec. 6-80-24. Vehicle drivers.

No person shall operate a taxicab or vehicle for hire upon the streets of the city, and no certificate holder who owns or controls a taxicab or vehicle for hire shall permit it to be so driven, and no passenger vehicle licensed by the city shall be so driven at any time for hire, unless the driver of the vehicle for hire shall have first obtained and shall have a current and properly updated passenger vehicle for hire driver's permit which has been approved by the city treasurer and issued by the city treasurer, or his or her designee.
(Code 1985, § 39-24; Ord. No. 4227, § 1, 11-2-1993; Ord. No. 4352, § 9, 8-15-1995)

Sec. 6-80-25. Application for a driver's permit.

A. Permits required by this article shall be applied for, in person and in writing, on such forms as the city treasurer may prescribe, which forms shall show:

1. The applicant has obtained a class D license with "For Hire" endorsement pursuant to the provisions of T.C.A. chapter 7, title 59;

2. All criminal statutes, whether federal or state, or city ordinance violations for which conviction, forfeiture of bond or pleading of nolo contendere has occurred, including motor vehicle and traffic violations;

3. Such other information as the city treasurer may require.

B. Such application shall be accompanied by:

1. A statement form, provided by a physician licensed to practice in the State of Tennessee, dated within 30 days of the application, indicating the length of time which the physician has treated the applicant, showing the applicant is not disabled by reason of defect of sight, hearing, body or limb from safely operating a motor

vehicle and indicating any and all physical and mental conditions for which treatment has been rendered within the last year and for which treatment continues to be rendered;

2. Statements of at least three reputable persons, residents of the city, personally acquainted with the applicant who will state their knowledge of the good reputation, honesty and general good character of the applicant; and

3. A statement from a holder of a certificate of public convenience and necessity indicating that the applicant shall be affiliated with the certificate holder upon issuance of the permit.

C. Permits shall remain the property of the city treasurer, and may be canceled, revoked or suspended at any time and will be surrendered on demand.
(Code 1985, § 39-25; Ord. No. 4227, § 1, 11-2-1993; Ord. No. 4352, § 8, 8-15-1995; Ord. No. 4941, 5-7-2002)

Sec. 6-80-26. Applicant to fill out identification questionnaire and be fingerprinted.

Each applicant applying for a permit shall appear before the city treasurer, or his or her designee, to complete an identification questionnaire on a form to be provided, and be fingerprinted.
(Code 1985, § 39-26; Ord. No. 4227, § 1, 11-2-1993; Ord. No. 4352, § 10, 8-15-1995)

Sec. 6-80-27. Investigation—Issuance—Not to issue to certain persons.

A. Before issuing a permit under this article, the city treasurer or the city treasurer's designee shall investigate the facts set out in the application and shall not grant such permit to any person who, in the opinion of the city treasurer, after investigation, is not physically or morally fit to drive or operate a vehicle for hire in the city.

B. No driver's permit shall be issued to any applicant who has been convicted of, forfeited bail or pleaded nolo contendere to a felony or any crime involving moral turpitude as defined in T.C.A. § 57-4-203(h)(2), a controlled substance, prostitution, assignation, obscenity or any crime of a sexual nature in any jurisdiction, or been an inmate of reform school or penitentiary as a result of a conviction for a felony, within five years prior to his or her application for such permit.

C. The city treasurer may refuse to issue a permit to any applicant whose police record shows conviction for public drunkenness, driving under the influence of intoxicants, repeated moving traffic violations, or any other good and just cause which, in the opinion of the city treasurer, would be inimical to the public health, safety or morals.

D. No permit shall be issued unless the applicant is at least 21 years of age.

E. It shall be the duty of the city treasurer to issue a permit to any person applying therefor, showing compliance with the provisions of this chapter.
(Code 1985, § 39-27; Ord. No. 4227, § 1, 11-2-1993; Ord. No. 4352, § 8, 8-15-1995)

Sec. 6-80-28. Defensive driving school and taxi safety/courtesy course required.

A. Every driver of a taxicab shall be required to attend and demonstrate successful completion of a defensive driving/taxi safety/courtesy course on the following schedule:

1. Existing drivers must complete the course within two years of the date of their next license renewal;

2. First-time drivers, within 60 days of initial permit issuance;

3. Prior to renewal for drivers with the following driving records:

   a. Involved in three nonchargable accidents within the permit year,

   b. Involved in two chargeable accidents or moving violations in the permit year,

   c. Involved in two unchangeable accidents and one chargeable accident or moving violation in the permit year.

B. The course shall be conducted by the city police department, or a certified instructor approved by the police department. All courses not provided by the police department shall be substantially equivalent to the police department course and approved by the permits office.
(Code 1985, § 39-27.1; Ord. No. 4941, 5-7-2002)

Sec. 6-80-29. Notification of arrest or indictment.

The holder of a driver's permit shall advise the city treasurer immediately of all charges, arrests and indict-

ments, including those for public drunkenness and driving under the influence of intoxicants. The city treasurer may suspend a driver's permit for five days prior to a hearing, pursuant to section 6-80-35, if driver is arrested, charged or indicted for any violation of city, state or federal laws. It shall also be the responsibility of the certificate holder with which the driver is affiliated to notify the city treasurer of the charges, arrests or indictments. Failure to do so may result in suspension or revocation of the permit and/or of the certificate.
(Code 1985, § 39-28; Ord. No. 4227, § 1, 11-2-1993; Ord. No. 4352, § 8, 8-15-1995)

Sec. 6-80-30. Notification of company change of driver.

At the time a permit is issued, the driver must register with the division of police services the name of the taxicab company, certificate holder, with which the driver intends to be affiliated, and the division of police services will have stamped on the permit the name of the taxicab company, certificate holder, specified by the driver. If at any time a driver wishes to change affiliations the driver must register the change with the city treasurer, and a fee of $3.00 will be charged to defray administrative cost. Failure to advise the city treasurer of any such changes may result in suspension or revocation of the permit. It shall be the responsibility of the holder of the certificate of public convenience and necessity to notify the city treasurer when affiliation with a driver is discontinued and any holder which allows a driver to operate a vehicle for hire without a proper and complete permit may have its certificate suspended or revoked.
(Code 1985, § 39-29; Ord. No. 4227, § 1, 11-2-1993; Ord. No. 4352, § 8, 8-15-1995)

Sec. 6-80-31. Fee.

Each applicant for a permit under the provisions of this article shall pay to the city treasurer, or his or her designee, a fee of $30.00 at the time of filing the application to cover the cost of processing. At the annual renewal of such permit, the applicant shall pay the sum of $30.00. To replace a lost, destroyed or stolen permit that is current, the fee shall be $15.00.
(Code 1985, § 39-30; Ord. No. 4227, § 1, 11-2-1993; Ord. No. 4352, § 8, 8-15-1995)

Sec. 6-80-32. Form, size, design and contents.

A permit issued under this chapter shall be in card form, of such size and design as may be prescribed by the city treasurer, which shall bear on its face a photograph of the driver, the number of the permit, the expiration date, the company with which the driver is affiliated and such other information as the city treasurer may require. The driver shall also have an identification badge, which must be accessible to the driver and in view of passengers at all times.
(Code 1985, § 39-31; Ord. No. 4227, § 1, 11-2-1993; Ord. No. 4352, § 8, 8-15-1995; Ord. No. 4941, 5-7-2002)

Sec. 6-80-33. Display of permit.

The original permit issued under this chapter containing a photograph and other data on the driver shall at all times be kept on display in the taxicab operated by such driver, to be read by the passenger, while such passenger vehicle for hire is under the direction or control of such driver.
(Code 1985, § 39-32; Ord. No. 4227, § 1, 11-2-1993)

Sec. 6-80-34. Expiration and renewal.

A. A permit issued under this provision shall expire at 12:00 midnight on the anniversary of the date of birth of the applicant. Every driver's permit in good standing will be renewable during the renewal period. The renewal period shall be from three months before until five working days after its expiration date. Renewal shall be made by application, as set forth below, and payment of the fee to the permit office, as required in section 6-80-31. At the end of the renewal period, the license shall become null and void. Failure to make timely application for renewal of the driver's permit will result in the assessing of a reinstatement fee of $15.00 per month, for up to three months from the expiration date, in addition to the renewal fee. After three months, a completed application for a new driver permit is required, including a new physical and required driver training within 90 days of its issuance.

B. If the driver wishes that his or her permit be renewed, he or she shall furnish, in person, to the city treasurer or his or her designee the following information:

1. An affidavit signed by the driver indicating no medical or physical disabilities were suffered during the previous year;
2. A statement from a holder of a certificate of public convenience and necessity indicating that the driver is a current driver for the certificate holder;

3. Evidence of successful completion of defensive driving and taxi courtesy/safety course, if needed.

C. Every three years, a driver shall submit, at the time of renewal, a certificate completed by a physician licensed in the State of Tennessee and including that physician's license number, indicating the length of time which the physician has treated the driver, showing the driver is not disabled by reason of defect of sight, hearing, body or limb from safely operating a motor vehicle and indicating any and all physical and mental conditions for which treatment has been rendered within the previous three years and those for which the driver continues to receive treatment.
(Code 1985, § 39-33; Ord. No. 4227, § 1, 11-2-1993; Ord. No. 4352, § 8, 8-15-1995; Ord. No. 4941, 5-7-2002)

Sec. 6-80-35. Fines, suspension and revocation of permit.

A. The city treasurer is given the authority to fine a penalty fee of no more than $50.00, to suspend or revoke any driver's permit issued under this chapter for a driver's failure to comply with the provisions of this chapter or the rules and regulations specified by the city treasurer.

B. The city treasurer shall notify a driver of the violations with which he or she is charged and his or her right to a hearing before the city treasurer or the city treasurer's designee, at which time the driver shall have an opportunity to present evidence; provided, however, that the city treasurer or the city treasurer's designee may suspend a permit for five working days prior to a hearing, with a hearing to be held within that period of time, if, in the judgment of the city treasurer or the city treasurer's designee, the public health and safety requires. At such hearing the city treasurer or the city treasurer's designee is authorized to further suspend or revoke a driver's permit.
(Code 1985, § 39-34; Ord. No. 4227, § 1, 11-2-1993; Ord. No. 4352, § 8, 8-15-1995; Ord. No. 4941, 5-7-2002)

Sec. 6-80-36. Unauthorized use of permit—Defacing or removing permit.

A. The city treasurer or the city treasurer's designee may suspend or revoke the permit of any driver for allowing any other person to use the permit granted to the driver, for the purpose of operating a taxicab, another type of passenger vehicle for hire, or for any other reason.

B. The city treasurer or the city treasurer's designee may suspend or revoke the permit of any driver who defaces, removes or obliterates any official entry made upon the permit.
(Code 1985, § 39-35; Ord. No. 4227, § 1, 11-2-1993; Ord. No. 4352, § 8, 8-15-1995)

Sec. 6-80-37. Prohibited manner of solicitation.

No taxicab driver shall solicit patronage in a loud or annoying tone of voice, or by sign, or in any manner annoying any person, or obstruct the movement of any person or follow any person for the purpose of soliciting patronage.
(Code 1985, § 39-36; Ord. No. 4227, § 1, 11-2-1993)

Sec. 6-80-38. Standards of appearance and conduct of drivers.

A. No driver shall engage in selling alcoholic beverages or any controlled substance, or solicit business from any house of ill repute nor may any person known to be of ill repute use his or her vehicle for any purpose other than the transporting of passengers except as provided for driver trainees.

B. Drivers shall not engage in abusive language, including but not limited, to cursing, verbal insults or derogatory comments in the presence of passengers, potential or engaged, or staff members of regulating authorities.

C. While on duty, drivers shall not be under the influence nor engage in the consumption of intoxicants, including but not limited to beer and other alcoholic beverages or controlled substances. Any driver charged with driving while intoxicated may have his or her permit immediately suspended as provided in section 6-80-35.

D. No driver shall participate in or be present during gaming activities.

E. Drivers must present an acceptable appearance, including clean, neat wearing apparel not in need of repair, no hats or other head dress except a brimmed chauffeur's cap or baseball cap with a brim of no more than four inches. No shirt may be worn open at the chest; all shirts must have a closable collar and shall bear no advertisement, symbol, fixture or saying other than company logo; no halter tops or tank shirts may be worn;

no shorts may be worn; and shoes must be worn at all times while serving the public; general appearance must be one of neatness and cleanliness.

F. All drivers must wear some form of identification of the company they represent. Examples include above chauffeur's/baseball cap, a company patch over the left breast pocket or shoulder, or jacket with company logo. (Code 1985, § 39-37; Ord. No. 4227, § 1, 11-2-1993)

Sec. 6-80-39. Drug screening.

A. Every driver holding a valid permit shall be subject to random drug screening as established in this section. This program shall require testing monthly of at least three percent taxi drivers, and three percent for carriage, and limousine and other drivers. Drivers shall be selected for drug and alcohol testing on a random basis, by using a scientifically valid random number generation method approved by the city. Upon selection, the permits office shall notify the certificate holder for whom the driver works. The certificate holder shall be responsible for notifying the driver. Once advised of the required test, a driver must take the test within 24 hours. The permits office will use testing locations already approved by the city.

B. The cost of the testing shall be borne by the certificate holder if the results are negative. If the results are positive, the cost of the test shall be borne by the driver tested. The results of all tests shall be immediately provided to the permits office.

C. Drivers will be subject to urine drug and breath alcohol testing. Drug testing will be for any illegal drug or substance including but not limited to amphetamines, cocaine or its derivatives, marijuana, opiates and phencyclidine (PCP). Illegal use includes use of any illegal drug, misuse of legally prescribed drugs, and use of illegally obtained prescription drugs. Breath alcohol testing will be considered positive at a 0.04 alcohol level or higher.

D. The use of a controlled substance is not prohibited, which is prescribed by a treating medical physician, if this physician makes a good faith judgement that use of the substance by the driver at the prescribed dosage level is consistent with the safe performance of the driver's duties. Drivers using a controlled substance prescribed by a treating physician must immediately notify the certificate holder that they are taking such medication. The certificate holder may request a doctor's certificate verifying the treatment. Abuse of a prescribed controlled substance is prohibited.

E. Any driver who refuses to comply with a request for testing, who provided false information in connection with a test, or who attempts to falsify tests results through tampering, contamination, adulteration or substitution shall have his or her permit revoked immediately. Refusal can include an inability to provide a specimen or breath sample without a valid medical examination, and a verbal declaration, obstructive behavior, or physical absence resulting in the inability to conduct the test.

F. Any driver who tests positive under the random testing procedure will be subject to the following:

1. Suspension of permit for one week;

2. Referral to an assessment by a substance abuse professional (SAP);

3. Return to work drug and alcohol tests at the end of the week;

4. Completing a return to work agreement outlining terms of return to work, including ongoing treatment and additional random testing for up to five years with a minimum of six tests that first year.

G. Any driver who has a second positive test under any testing circumstance within three years is subject to revocation.

H. No driver who has had a permit revoked for failing drug screening shall be eligible for a permit for six months following revocation. At the end of that period, any re-application must include evidence that the driver has undergone treatment for substance abuse and proof of a negative drug screen within one week of the application reinstatement.

I. A driver who fails a drug/alcohol test within three years of a first suspension shall have his or her permit revoked for two years. A third violation shall result in a permanent revocation.

J. 1. Testing shall be done on all drivers subject to a fitness for work evaluation when there are reasons to believe that drug or alcohol use is

adversely affecting job performance. The certificate holder and the permits office will make reasonable suspicion determinations.

2. Testing shall be done on all drivers involved in an accident that results in a fatality or injuries requiring immediate transportation to a medical facility or the driver receives citation by local law enforcement officers, or if one or more vehicle incurs disabling damage that requires towing, pushing, etc., from the site and driver receives a citation for a moving violation arising from the accident.

3. Following an accident, the driver will be tested as soon as possible, but not to exceed eight hours for alcohol testing and 32 hours for drug testing. Any driver involved in an accident must refrain from alcohol use for eight hours following the accident or until he or she undergoes a post accident alcohol test. Any employee who leaves the scene of the accident prior to the submission to the drug/alcohol test will be considered to have refused the test and subject to permit revocation.

K. Confidentiality will be maintained throughout the drug/alcohol testing process. The permits office will maintain results in the strictest confidence in a medical file separate from the official personnel file. In cases where disciplinary action results from positive test, such information shall be shared only with those in a supervisory capacity involved in that action.
(Code 1985, § 39-37.1; Ord. No. 4941, 5-7-2002)

Sec. 6-80-40. Receipt and discharge of passengers on sidewalk.

Drivers of taxicabs shall not receive or discharge passengers in the roadway, but shall pull to the extreme right-hand side of the road or to the sidewalk and then receive or discharge passengers, except upon one-way streets, where passengers may be discharged at either side of the roadway in the absence of a sidewalk.
(Code 1985, § 39-38; Ord. No. 4227, § 1, 11-2-1993)

Sec. 6-80-41. Total passengers in vehicle—Carrying passengers in front seat of taxicab.

A. No driver shall permit more persons to be carried in a taxicab as passengers than the seating capacity, as stated in the vehicle for hire definitions section 6-80-1. A child in arms shall not be counted as a passenger.

B. Not more than two paying passengers may be seated in the front seat or forward seat opposite the driver of the taxicab. Only paying passengers or trainee drivers may be seated on the front seat of any taxicab. The back seat of the taxicab must first be occupied before passengers are allowed to ride in the front seat.
(Code 1985, § 39-39; Ord. No. 4227, § 1, 11-2-1993)

Sec. 6-80-42. Consent required for a taxicab to pick up additional passengers.

No driver of a taxicab shall carry any person, other than the passenger(s) by whom he or she has been engaged, without the consent of the passenger.
(Code 1985, § 39-40; Ord. No. 4227, § 1, 11-2-1993)

Sec. 6-80-43. Drivers not to work more than 12 hours out of 24.

A. No driver shall work more than a maximum of 12 driving hours in the aggregate of any 24-hour period, and such driver shall not begin to drive until he or she has had at least eight consecutive hours of rest.

B. It is the duty of the certificate holder in conjunction with the driver to meet these requirements.
(Code 1985, § 39-41; Ord. No. 4227, § 1, 11-2-1993)

Sec. 6-80-44. Solicitation of passengers by drivers—Drivers to remain in or near vehicle.

No taxicab driver shall solicit passengers for a taxicab, except when sitting in the driver's seat of such taxicab or while standing immediately adjacent to the vehicle. The driver of any taxicab shall remain in the driver's seat or immediately adjacent to the vehicle at all times when such vehicle is upon public streets, provided further, that nothing herein contained shall be held to prohibit any driver from alighting to the street or sidewalk for the purpose of assisting passengers into or out of the vehicle.
(Code 1985, § 39-42; Ord. No. 4227, § 1, 11-2-1993)

ARTICLE 6. VEHICLES

Sec. 6-80-45. Equipment and maintenance.

A. Taxicabs must be licensed.

B. Prior to the use and operation of any taxicab under the provisions of this chapter the vehicle shall be thoroughly examined and inspected by the passenger

vehicle for hire inspectors and found to comply with this section's requirements. If, at any time, the taxicab is found by the inspectors not to comply with the following requirements, the taxicab shall not be allowed to be operated on the streets, alleys and public ways of the city until and unless the inspector finds the vehicle meets these requirements:

1. Every taxicab operating on the streets, alleys and public ways of the city shall at all times be equipped with:
    a. A power plant adequate to propel the same in full compliance with the ordinances of the city;
    b. All appliances required by title 11 of this Code, such as mufflers, service and emergency brakes, warning devices, lights and a rear vision mirror suitably installed in accordance with the provisions of such title;
    c. Interior lights providing at least two rated candle power for each interior seat space;
    d. Four doors;
    e. A handle, latch, or opening device attached to each door of the passenger compartment, so that such door may be opened by the passenger.
2. Every coach operating on the streets, alleys and public ways of the city shall at all times be equipped with all safety equipment and any other requirements in respect to safety as is required by the laws of the state or this code and all such regulations as may be issued by the director of police services.

C. The permit/license inspector may approve minivans.

(Code 1985, § 39-43; Ord. No. 4227, § 1, 11-2-1993)

Sec. 6-80-46. Television requirement.

No television set shall be installed or portable model television operated in any taxicab.

(Code 1985, § 39-44; Ord. No. 4227, § 1, 11-2-1993)

Sec. 6-80-47. Maintenance.

A. Every taxicab operated in the city shall be kept in a clean and sanitary condition and in such condition of repair as may be reasonably necessary to provide for the safety of the public and for continuation in satisfactory operation.

B. It is the joint responsibility of the certificate holder and of the driver to maintain the appearance and safety of the taxicab and equipment and failure to comply may result in the suspension or revocation of the certificate for public convenience and necessity and/or of the driver's permit.

1. Each taxicab shall be washed thoroughly and cleaned every 24 hours.
2. The interior will be cleaned periodically during the day as needed. The cleaning of the interior is to include the following:
    a. Ash trays emptied;
    b. Windows washed;
    c. Floors cleaned;
    d. Seats wiped clean;
    e. Attention given to any other areas requiring cleaning or maintenance.
3. The cleaning of the exterior of the vehicle shall include the trunk area for all taxicabs. In such vehicles, jacks, spare tires, and any other loose equipment housed in the trunk must be secured and covered with carpet or other appropriate covering.
4. It shall be the responsibility of the certificate holder to make certain that the following standards are met in relation to vehicles:
    a. Safe tread on tires;
    b. Brakes in working and safe condition;
    c. No vehicle body damage;
    d. All lights in working order;
    e. Any condition which the inspector may deem unsafe, unsightly or in need of repair;
    f. Seat belts provided in motor vehicles;
    g. Attention given to any other areas requiring maintenance.

(Code 1985, § 39-45; Ord. No. 4227, § 1, 11-2-1993)

Sec. 6-80-48. Taximeters.

A. It is unlawful for any taxicab certificate holder or driver operating any taxicab to operate, or cause to be operated, on the streets, alleys or public ways of this city, such taxicab unless the same is equipped with a taximeter approved by the director of police services and which

complies with this section. A taximeter shall be operated from any part of the propelled wheels or propelling machinery of the taxicab on which it is placed.

B. It shall be the duty of every certificate holder using any taximeter to keep the same accurate at all times.

C. All taximeters shall be placed so that the reading dial showing the amount to be charged shall be well lighted and readily discernible by passengers riding in such taxicab.

D. All taximeters shall be subject at all reasonable times and places to the inspection of the director of police services, the chief of police, any police officer of the city, the inspector of weights and measures, vehicle for hire inspectors, or any other inspector designated by the city. Taximeters must be checked and sealed annually with scheduling set by the Memphis Police Department. It is unlawful for any taxicab to operate without a sealed meter.
(Code 1985, § 39-46; Ord. No. 4227, § 1, 11-2-1993)

Sec. 6-80-49. Scanners.

No taxicab shall be equipped with a scanner or a device not capable of transmission but that allows an operator to access frequencies, or any device that allows an operator to access frequencies other than that vehicle's authorized frequency. In addition, no scanner or device capable of accessing frequency other than that certificate holder's authorized frequency shall be operated at the place of business of the certificate holder, nor shall the certificate holder permit the use of such a device at any other location.
(Code 1985, § 39-47; Ord. No. 4227, § 1, 11-2-1993)

ARTICLE 7. FARES

Sec. 6-80-50. Rates.

A. The city treasurer may, either acting independently or at the request of any taxicab company certificate holder, hold a public hearing to fix, in the city treasurer's sound discretion, the maximum taxicab rates, subject to the approval of the city council. The city treasurer shall cause the current rates to be posted in all taxicab places of business and on all passenger vehicles for hire.

B. The city treasurer, in the manner prescribed above, may fix flat rates to specific locations or for special events, which rates shall supersede the rates in effect at the time, provided a schedule of such fixed rates to specific locations is posted in each passenger vehicle for hire as set out in section 6-80-51, and, for special events, is placed so as to be visible on the outside and inside of the rear windows of each passenger vehicle for hire.

C. In regard to taxicabs:

1. In the absence of expressed agreement made at the time the taxicab is hired, the employment and collection of fee shall be held to be based upon the distance traveled at a rate of speed of at least ten miles per hour plus waiting time. In case of an express agreement for a charge not based on the distance traveled at a rate of speed of at least ten miles per hour plus waiting time, the automatic recording device or taximeter shall not be engaged.

2. The official current rates for taxicabs, as fixed by the city treasurer as provided herein, shall be filed in his or her office and it shall be a misdemeanor to demand or receive a fee or charge in excess of the official rates, except in case of an express agreement.

3. After the original passenger agrees to allow other passengers to travel in the same taxicab, the taximeter will be reset as each passenger arrives at his or her destination and departs the taxicab. When the first passenger has been transported to his or her destination, the taximeter will be reset and the next passenger transported to his or her destination. At such time, the fare shall be the amount on the taximeter plus $1.00. At the point of departure of the second passenger, the meter will be reset and this procedure shall continue until the taxicab is vacant.

4. When any passenger is picked up in route with the consent of the original passenger, on the departure from the cab he or she shall pay a fare equivalent to the fare had he or she had exclusive use of the taxicab for the distance he or she was actually transported.

5. When two or more passengers originating from the same point enter into a contractual agree-

ment as one with the driver and expect to go to different destinations, the meter shall be reset as each passenger departs the cab.

6. Taxicabs are authorized to regulate their meters so that, at any time the vehicle is moving at a speed slower than ten miles per hour, the meter recording the amount to be charged for the fare will automatically register an additional fare of $0.10 for each 30 seconds of operation during waiting time.

7. A $2.00 fuel surcharge per trip is to be added to all taxicab rates and fares and shall remain at $2.00 unless one of the following two conditions exists, as currently reported at www.fuelgaugereport.com:

   a. The fuel surcharge shall increase to $3.00 when the average price of unleaded regular gasoline in the city reaches or exceeds $5.00 per gallon for a minimum period of 60 consecutive days; or

   b. The fuel surcharge shall decrease to $1.00 when the average price of unleaded regular gasoline in the city reaches or remains below $3.00 per gallon for a minimum period of 60 consecutive days.

(Code 1985, § 39-48; Ord. No. 4227, § 1, 11-2-1993; Ord. No. 4352, § 8, 8-15-1995; Ord. No. 5275, § 1, 9-23-2008; Ord. No. 5406, § 1, 7-5-2011)

Sec. 6-80-51. Rates to be displayed.

The current official taxicab rates shall be prominently displayed in contrasting colors on the outside of each taxicab operated in the city in letters not less than two inches high. In addition, a synopsis of the current rates shall be furnished to all licensed taxicab operators by the city treasurer, who shall cause same to be prominently displayed within the vehicle for hire readily visible to the passengers.
(Code 1985, § 39-49; Ord. No. 4227, § 1, 11-2-1993; Ord. No. 4352, § 8, 8-15-1995)

Sec. 6-80-52. Demand of fare in advance—Refusal to convey passengers.

Every driver of a taxicab shall have the right to demand payment of the regular fare in advance and may refuse employment unless so paid, but no driver of a taxicab shall refuse or neglect to convey any orderly person or persons upon request anywhere in the city, unless previously engaged or unable to do so.
(Code 1985, § 39-50; Ord. No. 4227, § 1, 11-2-1993)

Sec. 6-80-53. Refusal to pay fare.

It is unlawful for a passenger or persons engaging a taxicab to refuse any fare registered on the taximeter of taxicabs in accordance with the rates or which is displayed or agreed upon prior to the hiring of the passenger vehicle for hire.
(Code 1985, § 39-51; Ord. No. 4227, § 1, 11-2-1993)

Sec. 6-80-54. Receipt for fare.

A. Each driver, if requested, shall give to every passenger paying for a taxicab a printed receipt, in form approved by the city treasurer, showing the cost of fare and such other information as the city treasurer may from time to time require; provided, however, that this requirement shall not apply to drivers of passenger vehicles for hire operating on a fixed route or with a seating capacity of more than seven passengers.

B. It is the duty of each certificate holder not excused by the above provision to cause to be printed and to provide each driver receipt forms of a standard format including the following information:

1. Drivers name;
2. Taxicab certificate holder's name;
3. Point of origin;
4. Point of destination;
5. Time passenger was picked up and time departed;
6. Vehicle license number;
7. Number of passengers on the trip;
8. Amount of total fare;
9. Number of bags;
10. Duplicate.

(Code 1985, § 39-52; Ord. No. 4227, § 1, 11-2-1993; Ord. No. 4352, § 8, 8-15-1995)

Sec. 6-80-55. In-kind payments of fares.

No in-kind payments including, but not limited to, items of value such as jewelry, drugs, coupons, credit slips or any objects(s) of any material value shall be accepted in lieu of or as collateral for a fare.
(Code 1985, § 39-53; Ord. No. 4227, § 1, 11-2-1993)

CHAPTER 6-84. UNDERTAKERS*

Sections:

Sec. 6-84-1. Undertaker defined.
Sec. 6-84-2. Permit—Required—Term—Contents.
Sec. 6-84-3. Permit—Revocation.
Sec. 6-84-4. Approval of plans and specifications for establishments.
Sec. 6-84-5. Establishments to conform to building and plumbing codes.
Sec. 6-84-6. Toilets, urinals and wash basins at establishments.
Sec. 6-84-7. Floors in workrooms.
Sec. 6-84-8. Report of homicides and suicides—Generally.
Sec. 6-84-9. Report of homicides and suicides—In absence of investigation by police.

Sec. 6-84-1. Undertaker defined.

For the purpose of this chapter, any person who makes a business of burying dead bodies, under the term "funeral director," "undertaker," or otherwise, such person having charge of the burial, cremation or other disposition of a dead body, shall be deemed an "undertaker."
(Code 1967, § 41-1; Code 1985, § 38-1)

Sec. 6-84-2. Permit—Required—Term—Contents.

No person shall operate or maintain an undertaking establishment within the city until a permit therefor shall have been issued by the health officer, which permit shall be valid for one calendar year. A new permit shall be secured at the first of each calendar year. Every funeral home shall pay to the city and county health department an annual permit fee of $50.00. This fee shall be due on January 1 of each year and must be paid by January 31. All permits shall be in writing and shall state the conditions under which the operation shall be maintained and the term for which the permit is allowed.
(Code 1967, § 41-2; Code 1985, § 38-2)

Sec. 6-84-3. Permit—Revocation.

A permit required by section 6-84-2 may be revoked by the health officer for failure to comply with any of the provisions of this chapter, or whenever the further operation of such permit becomes a menace to health and safety; provided, however, that, no permit shall be finally terminated until a reasonable written notice of the alleged violation shall be given the offender and he or she shall have been offered a reasonable period of time within which to correct the same.
(Code 1967, § 41-3; Code 1985, § 38-3)

Sec. 6-84-4. Approval of plans and specifications for establishments.

Before work is commenced on any new undertaking establishment or any alterations of any existing establishment, plans and specifications, accompanied by such pertinent data as may be required, shall be submitted to the health department for its approval; and no part of the work shall be undertaken until the health department has endorsed upon the plans and specifications its written approval thereof. No department of the city charged with the duty of issuing building permits, plumbing permits, lighting permits, sewer connection permits or any other like permits shall issue such permits in connection with the construction, repair or remodeling of undertaking establishments until after the approval of the health department of the plans and specifications therefor.
(Code 1967, § 41-4; Code 1985, § 38-4)

Sec. 6-84-5. Establishments to conform to building and plumbing codes.

All undertaking establishments shall comply in all respects with the applicable provisions of the building and plumbing codes.
(Code 1967, § 41-5; Code 1985, § 38-5)

Sec. 6-84-6. Toilets, urinals and wash basins at establishments.

An adequate number of toilets, urinals and wash basins shall be provided for the staff and general public

***State law reference—**Funeral directors and embalmers, T.C.A. § 62-5-101 et seq.

at every undertaking establishment. Wash basins shall be supplied with hot and cold running water and shall be conveniently located in the embalming rooms.
(Code 1967, § 41-6; Code 1985, § 38-6)

Sec. 6-84-7. Floors in workrooms.

All floors in the workrooms of an undertaking establishment shall be equipped with floor drains and be constructed of impervious materials.
(Code 1967, § 41-7; Code 1985, § 38-7)

Sec. 6-84-8. Report of homicides and suicides—Generally.

A. In every case of homicide or suicide, a report, which shall be in the form provided by subsection B of this section and signed by the undertaker handling the body of the deceased, at least two police officers and any medical doctor attending the deceased, or who may be summoned by any police officer, shall be filed with the division of police services within 24 hours after the body of the deceased is received by such undertaker. Such report shall contain front, rear and profile views of the human body, and the location of the wound inflicted thereon shall be plainly indicated. If the wound was inflicted by gunshot, the course of the bullet shall be indicated on the diagram by line from point of entrance to exit, or if the bullet remains in the body, by line on diagram determined by a probe of the wound.

B. The director of police services is directed to have prepared and to distribute, without cost, to every undertaker in the city, a sufficient quantity of printed blanks containing the diagrams aforesaid, which report shall be substantially in the following form:

Undertaker's Report of Homicide or Suicide

Memphis, Tennessee

Name of Undertaker

_____

Date _____, 20____

Name of Deceased

_____

Sex ____

Nationality _____

Apparent Age ____

Height ____ Weight ____

Physical Defects

_____

_____

Body of deceased removed from

_____

Time ____ Date _____

I have this day made a personal examination of the body of _____ and hereby certify the above report to be true to the best of my knowledge and belief.

_____

Undertaker

_____

Police Officer

_____

NOTE: Location of wound, or wound inflicted to be indicated on diagram by cross (X). If wound inflicted by gunshot, course of bullet to be indicated on diagram by line from point of entrance to exit. Or if bullet remains in body, by line on diagram determined by course or probe of wound.

C. Any undertaker who fails, neglects or refuses to file with the director of police services a form properly filled out in accord with this section within 24 hours after reception of the body of any deceased, shall be guilty of a misdemeanor.
(Code 1967, § 41-8; Code 1985, § 38-8)

Sec. 6-84-9. Report of homicides and suicides—In absence of investigation by police.

If any undertaker receives any body in any homicide or suicide case in which there has been no investigation by the division of police services of the city, it shall be

his or her duty to forthwith notify the director of police services of the reception of such body and it shall be the duty of the director of police services to detail forthwith not less than two police officers or detectives to investigate the circumstances of the homicide or suicide, and it shall be the duty of such officers so detailed to cooperate with and assist the undertaker in making up the report required by section 6-84-8.
(Code 1967, § 41-9; Code 1985, § 38-9)

ARTICLE 1. IN GENERAL

Sec. 6-88-1. Purpose and intent of provisions.

It is declared to be the purpose and intent of this chapter that all wreckers, towing and wrecker services doing business within the corporate limits of the city are hereby permitted to engage in such business, provided that such wrecker and towing services obtain the requisite permit, license, and insurance coverage as set forth in the governing provisions of this chapter. This chapter is also intended to ensure consumers are charged reason-

able and customary fees for wrecker services as limited by this chapter and based upon the time, labor and skill required to properly perform wrecker service.
(Ord. No. 5133, § 1(part), 4-18-2006; Ord. No. 5414, § 1(41-1), 11-1-2011)

Sec. 6-88-2. Definitions.

For purposes of this chapter, the following words and phrases shall have the meanings respectively ascribed to them by this section:

Cruising means the driving of a wrecker on the streets, alleys, roads, highways and thoroughfares within the corporate limits of the city in a fashion or manner calculated for the purpose of soliciting business.

Driver means any person driving a wrecker on the streets, alleys, roads, highways and thoroughfares within the city limits.

Driver helper means any person riding with a driver or assisting the driver in the operation of the wrecker on the streets, alleys, roads, highways and thoroughfares within the city limits.

Driver permit means a permit issued by the permits office authorizing a driver or driver helper to operate, drive or ride in a wrecker on the streets, alleys, roads, highways or thoroughfares within the city limits.

Emergency wrecker service means the removal of motor vehicles from the streets, alleys, roads, highways and thoroughfares within the city limits when there is an emergency situation as defined in section 6-88-10.

Extra winching means a tow that requires the use of more cable than prescribed for each Class of wrecker in section 41-5.

Fees means any charges assessed for transporting, towing, conveying or storing a vehicle by an emergency wrecker service.

Final destination means the vehicle entrance threshold of the place to which the owner or operator of the towed vehicle designates that the vehicle be taken, or if there exists no such entrance threshold, then the point in the street located in the front of the place to which the city police department otherwise designates as the vehicle entrance threshold, or the vehicle entrance threshold of the wrecker operator's place of business or lot, in the event that the vehicle is towed to such location; notwithstanding any remaining work that must be done after reaching the final destination in detaching the towed vehicle and/or completing reports. This definition is applicable to both police and private pulls.

Hazardous materials means any solid or liquid that is or may be deemed harmful to humans and or the environment. Such products shall include, but not be limited to, gasoline, diesel fuel, motor oil, transmission fluid, antifreeze coolant, battery acid, brake fluid or any mix of the above.

Holiday hours means any paid holiday recognized by the U.S. Federal or Tennessee State Governments.

License means a certificate issued by the city permits office authorizing the owner thereof to engage in the business of towing, transporting, conveying or removal of vehicles from one point to another within the city limits. A license can either authorize the holder thereof to engage in the business of providing wrecker services or emergency wrecker services.

Night hours means the hours between 6:00 p.m. and 7:00 a.m. daily.

Non-consent towing means towing without the prior consent or authorization of the owner or operator of the vehicle to be towed. Typically, it is categorized as police or trespass towing.

Permits office means the city office known as the "permits office" established for the purpose of issuing rate cards, permits for licensing of wrecker vehicles and other vehicular permits for use within the city limits.

Private property for the purposes of this article, includes, but is not limited to, a parking lot or garage for use by patrons of a particular business, or businesses or a lot or garage used for temporary storage of passenger cars or trucks for a fee and is staffed by an attendant.

Rate card means a card issued by the permits office for display in each emergency wrecker which contains the mandatory maximum fees or charges then in effect.

Towed vehicles means vehicles which can be driven but are towed to the lot at the request of the owner or police office.

Unauthorized vehicle means a vehicle parked on private property without the consent of the owner of the property or his agent or the lessee of the property.

Weekend hours means the hours between 6:00 p.m. Friday and 7:00 a.m. Monday.

Wrecked vehicles means vehicles which cannot be driven and must be towed to the lot and not related to recovery of vehicles submerged in water and, or off the road by 200 feet.

Wrecker means a motor vehicle constructed on a truck chassis with lifting devices operated by mechanical power and employed or used for the purpose of towing, transporting, conveying or removing any and all kinds of vehicles which are unable to be or actually are not operated under their own power.

Wrecker decal means a permit required and issued by the permits office for each wrecker operated by the licensee under the authority of a license.

Wrecker owner means any person or entity, or the designated agent for such person or entity, that holds legal title to or legal right of possession of a wrecker that is specifically designed by the manufacturer for the express purpose of towing vehicles.

Wrecker service means the towing, transporting, conveying, or removal of vehicles from one point to another within the area of the city limits.
(Ord. No. 5133, § 1(part), 4-18-2006; Ord. No. 5414, § 1(41-2), 11-1-2011; Ord. No. 5818, § 1, 3-22-2022; Ord. No. 5876, § 1, 11-7-2023)

Sec. 6-88-3. License requirements for wrecker services.

A. No person shall engage in the business of providing wrecker services within the corporate limits of the city without first obtaining and keeping in force a license from the permits office to engage in such services in accordance with section 6-88-26(A).

B. No driver shall operate a wrecker upon the streets of the city without first having obtained a wrecker driver's permit from the permits office.
(Ord. No. 5133, § 1(part), 4-18-2006; Ord. No. 5414, § 1(41-3), 11-1-2011)

Sec. 6-88-4. Wrecker classifications.

A. *Class A.* For towing passenger cars, pick-up trucks, small trailers, etc. This classification also includes "wheel lift" type vehicle transporters.

1. The towing vehicle chassis shall have a minimum manufacturer's capacity of 14,000 lbs. or greater GVWR;
2. The individual boom capacity shall be not less than four tons;
3. The individual power winch pulling capacity shall be not less than four tons;
4. There shall be a minimum of 100 feet of 3/8 inch, or larger cable or 7/16 inch, or larger synthetic rope on each drum;
5. The wheel lift shall be capable of picking up a passenger car or pick-up truck; and possessing equipment capable of lifting the vehicle by the wheels only, with nothing touching the vehicle body.
    a. Wheel lift towing vehicles shall meet all Class "A" requirements, excluding the belt-type cradle tow plate or tow sling.
    b. Safety restraint straps (nylon straps with ratchets or the equivalent) shall be provided to secure the towed vehicle's tires into the wheel lift forks.
6. The towing vehicle shall have a belt-type cradle tow plate or tow sling to pick up vehicles, and cradle or tow plate to be equipped with safety chain except for wheel lift towing vehicles as referenced above; and
7. Dollies are suggested, but not required.

B. *Class B.* For towing medium size trucks, trailers, etc.

1. The towing vehicle chassis shall have a minimum manufacturer's capacity of 26,000 lbs. or greater GVWR;
2. The towing vehicle shall have the following boom specifications:
    a. *Double boom:* So constructed as to permit splitting, each boom to operate independently or jointly, individual boom capacity of no less than eight tons and individual power winch pulling capacity of not less than eight tons, or
    b. *Single boom:* with no less than a 16 ton capacity and a power winch pulling capacity of no less than 16 tons.
3. The towing vehicle shall have a minimum of 200 feet of 7/16 inch, or larger, cable on each drum; and

4. The towing vehicle shall have a cradle tow plate or tow sling to pick up vehicle, cradle or tow plate to be equipped with safety chain.

C. *Class C.* For towing large trucks, road tractors, and trailers.

1. The towing vehicle chassis shall have a minimum manufacturer's capacity of 35,000 lbs. or greater GVWR;

2. The towing vehicle shall have the following boom specifications:

   a. Double boom as to permit splitting; each boom to operate independently or jointly; individual boom capacity of no less than 12½ tons, or

   b. Single boom with no less than a 25 ton capacity and a power winch pulling capacity of no less than 25 tons;

3. The towing vehicle shall have a minimum of 200 feet, or more, of 9/16 inch, or larger, cable on each drum;

4. The towing vehicle shall have airbrakes constructed so as to lock wheels automatically upon failure;

5. Only tandem axle trucks with two live drive axles will be accepted as class C; and

6. An under-reach capable of towing an 80,000 lbs. Tractor trailer combination shall be required on all class C towing vehicles that are added to the towing list after July 1, 2008.

(Ord. No. 5133, § 1(part), 4-18-2006; Ord. No. 5876, § 2, 11-7-2023)

Sec. 6-88-5. Identification of wreckers.

The owner of a wrecker shall have the company name, address and business phone number painted or otherwise permanently affixed on the outside of each front door of the wrecker thereof, in letters not less than four inches in height. Notwithstanding the foregoing, all such information must fit on the doors of each wrecker. This provision shall not apply to any wrecker or tow truck included on the city rotation list as of December 1, 2005.

(Ord. No. 5133, § 1(part), 4-18-2006)

Sec. 6-88-6. Wrecker fees prescribed.

The following fees shall apply for each class of wrecker services providing non-consensual tow services:

The following fees shall apply for each class of wrecker services providing non-consensual tow services:

A. *Class A wrecker service:* The maximum charge for class A wrecker services, except in those instances which require the use of heavy-duty equipment as provided for in paragraph (A)(1) of this section, shall be as follows within the corporate limits of the city:

	Recovery Base Rate	
Wrecker Class	Towed	Wrecked
A	$225.00	$275.00
Extra Winching	$100.00 one-time fee	$100.00 one time-fee

(1) The applicable fee shall include the point of final destination given to the wrecker driver in accordance with section 41-11(a). No additional fees may be charged for using dollies, trailers, lifts, slim jims or any other equipment, services, or licensed drive helpers.

B. *Class B and C wrecker service fees shall apply as follows:*

		Recovery Base Rate	
Wrecker Class		Towed	Wrecked
B	Straight Trucks, Vans, etc.:	$370.00	$475.00
B	Extra Winching	$300.00 one-time	$300.00 one time
Wrecker Class		Towed	Wrecked
C	Tandem-Axle, Not Loaded:	$430.00	$535.00
C	Tandem-Axle, Loaded:	$465.00	$575.00
	Recreational Vehicles:		
C	25 Feet & Under in Length	$370.00	$460.00

C	Over 25 Feet in Length:	$505.00	$610.00
C	Buses (Large):	$505.00	$610.00
C	Extra Winching	$450.00 one- time fee	$450.00 one-time fee

The fee for the use of a licensed driver helper for class B wreckers shall not exceed $60.00/hour and for class C wreckers shall not exceed $100.00/hour. In each case the licensed driver helper's time will commence at the time the wrecker arrives on the scene where the vehicle is located and will terminate at the time the wrecker and vehicle to be towed arrives at the final destination.

C. *Fee to drop vehicle before departing.* If the owner or operator of the vehicle is present and removes the vehicle to be towed from the premises before it is connected to the towing vehicle, the owner or operator shall not be charged any fee. If the owner or operator of the vehicle is present after the towing vehicle has been connected to the vehicle to be towed, the vehicle shall not be towed, but the owner or operator of the vehicle shall be liable for a reasonable fee not to exceed $75.00, in lieu of towing, provided the owner or operator of the vehicle forthwith removes the vehicle from the premises. A vehicle shall be deemed connected if every procedure required to secure the vehicle to the wrecker or wrecker equipment so that the vehicle may be safely towed has been completed at the time the owner or operator arrives, including the attachment of any safety chains. In the event that a tow is disregarded, the wrecker owner/operator responding to the call shall be rotated back to the top of the city's wrecker rotation list.

D. *Bi-Annual fee review* The fees prescribed in this article, including the foregoing and any prescribed in the chapter's subsequent articles or sections, shall be subject to review by the city council once every two years, to ensure parity with towing operator business costs.

E. *Recovery of vehicles submerged in water and off the road.* The owner or operator of any vehicles submerged in water or off the pavement more than 200 feet will be charged the applicable hourly rate of a class B wrecker. The wrecker driver will be allowed a maximum time of three hours to recover any submerged vehicle. The attending supervising officer from the Memphis Police Department will determine the need for diver personnel or specialty equipment.

(Ord. No. 5133, § 1(part), 4-18-2006; Ord. No. 5876, § 3, 11-7-2023)

Sec. 6-88-7. City impound lot storage fees, private lot fees, and administrative fees.

A. A one-time administrative fee of $75.00 will be assessed for each tow ticket processed at the Memphis Police Department (city impound lot facility or private tow lot), after the first 72-hours of impoundment. Such fee shall be charged to the consumer.

B. The storage of a vehicle (excepting tractor trailer trucks) by a wrecker operator on a private tow lot or any municipally operated vehicle storage or impound lot shall be $30.00 for each 24-hour period, or fraction thereof, after the first 24 hours of impoundment. All vehicles that have been damaged in an accident and cannot be safely driven shall be towed. Such vehicles shall be removed from the scene of the accident by a wrecker service owner or operator and towed to such wrecker owner or operator's private wrecker lot, if such wrecker owner or operator has not been notified by the Memphis Police Department that the vehicle is needed for evidentiary or investigative purposes.

C. The storage fee for tractor trailer trucks on a private tow lot or any municipally operated vehicle storage or impound lot shall be $60.00 for the rig and $60.00 for the trailer, for each 24-hour period, or fraction thereof after the first 24-hours of impoundment. All vehicles must be stored behind the fence of the vehicle storage lot.

D. The owner or lienholder of any stored motor vehicle shall not be charged a storage fee for a period exceeding 21 days without the consent of the owner or lienholder, except as provided in T.C.A. § 55-23-104.

E. The owner or lienholder of any stored motor vehicle shall not be charged a storage fee for any day on which the vehicle is not available for release to the

owner, lienholder, or insurer, unless such failure to release is based on a hold placed on the vehicle by law enforcement.

F. A gate fee of $50.00 shall be charged to release any car from a private tow lot or any municipally operated vehicle storage or impound lot during night, weekend, or holiday hours. A gate fee shall not be charged for any day during which daily storage is also being charged.
(Ord. No. 5133, § 1(part), 4-18-2006; Ord. No. 5868, § 1, 5-16-2023; Ord. No. 5876, § 4, 11-7-2023)

Sec. 6-88-8 Stolen vehicles/City impound or wrecker storage lot.

When stolen vehicles are impounded by the Memphis Police Department and stored by the city on a wrecker company's storage lot or a municipally owned storage lot, the owner will be liable for the tow fees but will not be liable for storage fees if he reclaims his vehicle within five days after notification of the recovery and whereabouts of the vehicle. If the owner does not pick up the vehicle from the municipally owned lot or the wrecker company's storage lot within five days after notification of the recovery and whereabouts of the vehicle, the owner will be liable for all storage costs from the time the vehicle was first placed on the storage lot.
(Ord. No. 5133, § 1(part), 4-18-2006; Ord. No. 5868, § 1, 5-16-2023)

Sec. 6-88-9. Billheads and storage charges for emergency wrecker services and wrecker services.

A. Each emergency wrecker company shall use billheads with the name, address, and place of business of the wrecker company printed thereon. The operator of a wrecker towing away a vehicle shall prepare a bill on this billhead form in triplicate; the original copy of which shall be given to the owner of the vehicle or his authorized representative; one copy shall be sent to the director of police services or his duly authorized designee on or before the 15th of the month; and the last copy must be retained by the owner of the wrecker company. This bill shall contain the following information:

1. Name and address of person engaging the wrecker.
2. The state license plate number or the VIN (Vehicle Identification Number) of the towed vehicle.
3 Class of wrecker and rates to be charged: All "A," "B," and "C" class wrecker bills will be specifically stated and will include the time of arrival on the scene of the tow and the time of arrival at the final destination of the tow, the number of work hours, the rate, and all incidental charges to be specifically described.
4. Storage rates per day, or part thereof in accordance to section 6-88-7.
5. Place to where vehicle is to be towed.

B. Upon towing any vehicle by a wrecker service, the wrecker service shall maintain records which shall include the following information:

1. The Memphis Police Department control notification number.
2. The date and time the call was received by the wrecker service.
3. The name of the caller.
4. The date and time of initial tow.
5. The place of initial tow.
6. The date and time of arrival at the impound lot.
7. The date and time of release to the owner.
8. The name of the wrecker driver and driver helper that towed the vehicle.
9. The total amount of the tow including storage.
10. The name, title, and telephone number of the person authorizing towing action.

In satisfaction of subsections (B)(3) and (B)(10) of this section, calls received by a wrecker service from the MPD dispatcher shall be so noted on the billhead as the name of the caller and the name of the person authorizing the towing action.

C. The duplicate copy of the bill shall be retained by the wrecker owner for a period of not less than 24 months, and shall be produced upon demand by the director of police services or his duly authorized designee, or any person who removes the towed vehicle from the original wrecker owner's place of business to another place.
(Ord. No. 5133, § 1(part), 4-18-2006)

Sec. 6-88-10. Emergency wrecker service and wrecker service requirements and records.

A. Emergency wrecker service. In order to regulate, facilitate and provide for the proper and orderly flow of traffic upon the streets, alleys, roads, highways, and thoroughfares within the city, including the regulation and control of parking and to promote public safety, the following acts and circumstances shall be deemed an emergency situation which shall require the immediate removal of a vehicle from the streets, alleys, roads, highways, and thoroughfares within the city limits:

1. When a vehicle is parked, stopped or standing in violation of any regulation or ordinance of the city government.

2. When a vehicle is parked, stopped or standing so as to obstruct the orderly flow of traffic.

3. When a vehicle is disabled by an accident and constitutes an obstruction of traffic, and its immediate removal or storage for safekeeping is necessary in the interest of public safety and protection of property.

B. 1. Except as otherwise provided in this chapter, for each vehicle towed by a wrecker service, the licensee shall retain at the wrecker owner's principal place of business all documents related to the towing of the vehicle along with any records required to be maintained pursuant to this chapter, including, but not limited to, towing agreements, written authorizations for removal, and wrecker slips or tickets.

2. The wrecker owner shall make all towing records available for inspection by the permits office upon request. If a wrecker owner fails to fulfill a permits office request to inspect towing records within three business days of the request, the owner's wrecker service license is automatically suspended until compliance by the wrecker owner.

C. Records location. The records required by this section shall be maintained and available at the permits office during business hours at the location where the vehicle is stored until the vehicle is recovered. Further, all wrecker services, public and private, which tow impounded vehicles, shall register with the permits office and city impound lot the current telephone number of the person responsible for releasing vehicles on their behalf.

D. A person desiring to engage in a wrecker service shall register with the permits office a trade name that clearly differentiates the person's company from all other companies engaging in vehicle tow services and shall use no other trade name in conducting vehicle tow services.

E. Private property tows. All private property tows must be reported to the city police department prior to the vehicle being towed. All private property tows must be in compliance with T.C.A. § 55-5-122.

F. Every wrecker company or towing operator doing business within the corporate city limits of the City of Memphis shall publish its rates in such a place as to be in full view of anyone wishing to inspect same and/or be communicated to the owner of the vehicle, or party seeking the service, prior to services being rendered.
(Ord. No. 5133, § 1(part), 4-18-2006; Ord. No. 5414, § 1(41-10), 11-1-2011; Ord. No. 5818, § 1, 3-22-2022)

Sec. 6-88-11. Destination requirements.

A. 1. A wrecker owner or operator shall tow the vehicle to any place designated by the owner or operator of such vehicle unless otherwise directed by the city police division.

2. The driver of the wrecker shall in all cases, before moving the vehicle to be towed, ask the owner or operator of such vehicle the place to which he/she desires the vehicle to be taken and shall transport such vehicle to such place upon the towing charges being paid or secured; otherwise, the vehicle shall be towed or transported to the wrecker operator's storage lot.

B. In the event that the place to which the owner or operator of the towed vehicle desires that the vehicle be taken is not open for business or available to receive the vehicle, the owner or operator of the towed vehicle and the wrecker operator shall agree between themselves as to the procedure to be followed in towing the vehicle to an alternate location.

C. Should the wrecker operator tow the vehicle to his own place of business for later delivery to the place designated by the owner or operator of the towed vehicle, towing and storage charges will be imposed in

accordance with sections 6-88-6 and 6-88-7. The wrecker driver must inform the owner or operator of the towed vehicle regarding the rates to be charged, prior to towing the vehicle to the alternate location.

D. In the event that the owner or operator of such vehicle is not available to designate the place to which such vehicle is to be taken, then the wrecker driver shall take such towed vehicle to his own place of business unless otherwise directed by the city police division. If the vehicle is taken to the wrecker driver's own place of business, the wrecker operator shall thereupon be responsible for the security of the vehicle and its contents. He shall also be responsible for contacting the owner of such vehicle within 48 hours to inform such owner that the vehicle is in his custody.

E. In those instances which require the wrecker driver to make a second tow in order to deliver the vehicle from his place of business to the place designated by the owner or operator of the towed vehicle, such second tow shall be made within 36 hours of the request or designation. Failure of the wrecker operator to comply with such request or designation shall be deemed a violation of this chapter and subject to the penalties as provided in section 6-88-50.

F. 1. No wrecker company shall tow a vehicle from public or private property under orders of one not the owner of the vehicle to a storage lot which is outside the geographic limits of the city.

2. All wrecker owners shall immediately upon connecting the vehicle to be towed take such vehicle directly to the licensed storage lot owned or operated by the wrecker owner located within the geographic lines of the city limits. Such towed vehicle shall not be dropped or left at any other lot or on any property without the consent of the owner for any period of time. No towed vehicle shall be stored on a public street.

G. If the vehicle to be towed is involved in an accident and the owner or operator of the vehicle thereof is unable to give any instructions on his own behalf, the driver of the wrecker shall tow the wrecked vehicle to the wrecker service's storage lot and it will be presumed and considered prima facie evidence that the owner or operator of such wrecked vehicle consents to and desires that his vehicle be towed to such location.

H. A towed vehicle shall not be stored more than a reasonable walking distance from the area where the towing and storage fee payments are received, however, this section shall not apply in instances where vehicle owners can pay online.

I. The operator shall exercise reasonable care to keep towed vehicles and their contents secure at all times.

J. Personal property in vehicles must be released in accordance with state law.

K. Whenever a wrecker company is involved in towing and its storage lot is closed or has the gate locked, a conspicuous sign, no smaller than 36 inches by 36 inches with four-inch lettering, must be posted at the entrance of its storage lot which provides instructions and a local telephone number for obtaining the release of a vehicle when its lot is not open. Its local telephone number must be posted and shall be answered 24 hours a day. The local telephone number posted and the name of a representative of the wrecker company shall be registered with the permits office. A wrecker company which fails to keep current phone and company representative information posted and registered with the permits office shall not be able to charge a storage fee if such failure interferes with the return of a vehicle to the vehicle owner or designee.

L. Any person operating a wrecker upon the streets of the city and maintaining a storage lot must maintain personnel with authority to accept payment and to release any impounded vehicle, on duty seven days a week. Such person must be available at 7:00 a.m. the morning after a vehicle is towed to release a vehicle upon the request of the owner. Vehicle access for the sole purposes of retrieving personal items shall be provided and personal items not needed for evidentiary reasons shall be released without charge to the vehicle owner or designee. Personal items are anything not

physically attached or mounted to the towed vehicle. Such items include, but shall not be limited to, clothing articles, tools, CDs, personal items contained in glove boxes, trunks or consoles.

M. The towing of any vehicle without the consent of the owner must be reported to the division of police services prior to the towing of the vehicle.

N. If the owner or operator of a vehicle is not available and a wrecker has been summoned by a police officer as a result of a parking violation, an abandoned vehicle or is subject to towing pursuant to code enforcement, then the vehicle shall be towed to the wrecker company's storage lot or transported to the city impound lot if so directed by the Memphis Police Department.
(Ord. No. 5133, § 1(part), 4-18-2006; Ord. No. 5414, § 1(41-11), 11-1-2011; Ord. No. 5868, § 1, 5-16-2023)

Sec. 6-88-12. Hazardous material clean-up.

Guideline for Wrecker Services Engaged in Clean-up of Motor Vehicle Accident Fluids

Memphis Division of Fire Services/Memphis Division of Police Services

A. Purpose: This document shall specify requirements and limits associated with the clean-up of hazardous materials where fire or police employees are responsible for the safety of the roadway and care for our local environment. It is intended for distribution to police, fire, and wrecker company operators.

B. Hazardous materials: Hazardous materials are defined for the purposes of this guideline as any solid or liquid that is or may be deemed harmful to humans and/or the environment. This definition is decidedly broader than other established guidelines for the purpose of encompassing all the safety concerns of the community and city government. Specific products that may not normally meet the definition of hazardous materials or hazardous waste but are specifically covered here are: gasoline, diesel fuel, motor oil, transmission fluid, antifreeze/coolant, battery acid, brake fluid or any mix of the above.

Wrecker services operating within the City of Memphis are regulated by the Memphis Police Department. Any needs of the fire division must be met through cooperation with the police division.

To expedite opening of the roadway, it has been acceptable past practice to require wrecker drivers to remove fluids associated with motor vehicle accidents along with removal of the vehicles. The purpose of this requirement is to prevent the safety hazard associated with slick roadways and to provide remediation for the thousands of small spills that have a direct impact on everything from our water supply to our quality of life.

All fire companies are equipped with absorbent material sufficient to stop these materials from entering the storm drain and other waterways. If possible, fire personnel should prevent these fluids from running off the pavement and therefore aiding in their removal from the scene.

The wrecker service must be equipped with sufficient absorbent material and tools to pick up all fluids associated with the vehicle they are towing. Multiple vehicles leaking fluids shall be addressed using the police officer's discretion to determine who is charged for the removal of these products. Wrecker services should be notified upon dispatch of the approximate amount of fluids spilled and denied the tow if they are not prepared to complete the clean-up of the roadway.

Wrecker services are permitted to charge to the tow, costs associated with removal and disposal of these hazardous wastes. Charge limits are described and regulated by the Memphis division of police services.

C. Cleanup of the above-mentioned products shall be limited in the following way:

1. All wrecker services are limited to clean-up of hazardous materials on the pavement only. Notwithstanding the foregoing, wrecker services are permitted to clean-up five gallons or less of hazardous materials off the roadway. Any such materials in excess of five gallons must be removed by a certified hazardous materials clean-up company. Small amounts of fluid that are easily shoveled in with oil dry may also be removed.

2. Class C wreckers are limited to removal of spills from the vehicle's fuel tanks, engines, and drive train. Quantities shall not exceed 300 gallons per wrecker. This is generally the capacity of two saddle tanks for over the road trucks.

3. Class A and B wreckers are also limited to removal of spills from the vehicle's fuel tanks, engine, and drive train. Quantities shall not exceed 30 gallons per wrecker.

4. All fuel removal operations shall be accomplished using non-sparking tools. Plastic scoops and shovels are readily available and must be used whenever the potential for fire exists. Smoking shall be prohibited during these operations.

5. Fuel products should be packaged in a DOT approved steel or plastic drum and labeled in compliance with 49 CFR. Small or large drums are acceptable, readily available, and not overly burdensome to the wrecker's operation.

6. The cleanup of hazardous materials in excess of 300 gallons shall be performed by a qualified hazardous materials clean-up company. The fire department and the Memphis/Shelby County Emergency Management Agency are familiar with procedures for contacting these companies.

7. Wrecker services who wish to participate on the Memphis police wrecker rotation list shall require its drivers and driver helpers to attend hazmat awareness for wrecker drivers and driver helpers training. This four hour course is intended to meet OSHA HAZWOPER requirements but shall be tailored to the hazards associated with wrecker operations. Proof of attendance shall be carried and may be requested by fire or police department personnel when roadway clean-up is required. The Memphis fire department training division shall offer this mandatory course at a cost of $80.00 per student.

City of Memphis
Guideline for Hazardous Materials Clean-Up Companies

A. Purpose: This document shall specify requirements associated with the clean-up of hazardous materials where City of Memphis employees are serving as incident commander. This guideline is intended to establish relationships and familiarity with personnel wishing to provide clean-up services to facilitate safe operations, timely remediation, and the return of city assets to service. Further, it is deemed basic due diligence for the city to ensure that any person performing work in and around a haz-mat site be properly trained and credentialed prior to the emergency event.

For this purpose, no person or company shall be permitted to do haz-mat clean-up work within the city limits of Memphis without compliance with this guideline. The incident commander may grant exceptions during extraordinary circumstances. State law in Tennessee calls for the highest ranking fire officer to work the role of incident commander.

B. Hazardous materials: Defined for the purposes of this guideline as any solid, liquid, or gas that is or may be deemed harmful to humans and/or the environment. This definition is decidedly broader than other established guidelines for the purpose of encompassing all the safety concerns of the community. Specific products not normally meeting the definition of hazardous materials or hazardous waste but are specifically covered here are gasoline, diesel fuel, motor oil, transmission fluid, battery acid, antifreeze/coolant, brake fluid or any mix of the above.

NOTE:

Let it be known by all parties that Memphis fire department response personnel shall never be authorized to contract for clean-up services. MFD provides contact information only for responsible parties in need of clean-up service. To prevent confusion and costly misunderstandings, any request for clean-up service must be made by the spiller, his company representative, or the Memphis/Shelby County Emergency Management Agency.

In the event that no responsible party is present, the Memphis/Shelby County Emergency Management Agency shall contract for clean-up services.

Fire department haz-mat units shall maintain current contact information for any hazardous materials clean-up company in compliance with this document. This information is maintained and presented in such a way as to show no preference toward any company or individual.

C. Hazardous materials clean-up companies: Defined as a private contractor whose business is among other things the remediation of hazardous materials. It is required by the City of Memphis that any person or

organization performing hazardous materials remediation work within the city limits meet the following requirements:

1. 40-hour OSHA compliant HAZWOPER training for all employees of the company who shall work in direct contact with hazardous materials or handle these products after they are packaged for removal. This shall include the company site supervisor.
2. Training records of all on-site personnel available for review by the incident commander at the time of the incident.
3. A copy of the company's current Shelby County business license on file with the Memphis fire department (MFD) special operations office and the Memphis/Shelby County Emergency Management Agency.
4. Proof of liability insurance current not less than $1,000,000.00 on file with the MFD special operations office and the Memphis/Shelby County Emergency Management Agency.
5. A copy of the company's Tennessee state permit to transport hazardous waste or a copy of a signed contract with a third party transporter and a copy of their permit to transport hazardous waste on file with the MFD special operations office and the Memphis/Shelby County Emergency Management Agency.
6. The company must have at least one member on the scene within one hour of receiving the phone request for service and begin remediation work within 90 minutes of the same call for service. Extenuating circumstances may be discussed and approved by the incident commander.
7. The company shall provide the MFD special operations office a list of services offered to include specialty equipment available. This list shall also include pertinent limitations. General areas of interest are:
    a. Any chemical products specialized in or excluded by the company;
    b. Any biological products specialized in or excluded by the company;
    c. Any radioactive products specialized in or excluded by the company;
    d. Any specialty services provided by the company;
    e. Availability of vacuum or steam cleaning services.
8. The written site safety plan must be presented to and approved by the incident commander. Any plan must include as a minimum:
    a. Personnel roles;
    b. PPE selection;
    c. Emergency procedures;
    d. Site sketch with extent of work planned;
    e. Plan for removal and packaging of waste material;
    f. Timeline for completion of removal process to include removal of packaged material;
    g. Location or facility determined for waste disposal;
    h. Method of environmental testing shall be listed to ensure complete removal of hazardous materials.

(Ord. No. 5133, § 1(part), 4-18-2006)

Sec. 6-88-13. Duty to remove accident debris.

Whenever any wrecker driver or driver helper removes a vehicle from the scene of an accident on the streets, alleys, roads, highways, or thoroughfares within the municipal boundaries of the City of Memphis, it shall be the duty of such driver and driver helper to simultaneously remove and carry away all glass, metal, oil dry, solvent provided by the Memphis fire department, and any debris which may have been cast upon such areas as a result of the accident or collision and to place such debris in containers.
(Ord. No. 5133, § 1(part), 4-18-2006)

Sec. 6-88-14. Soliciting business generally—Soliciting repair business at accident scene.

A. It shall be unlawful to drive along any street or bridge and solicit any towing work. Solicitation of towing work by the driver or driver helper of a licensed wrecker service while parked on any street, alley, road, highway, and thoroughfares within the city limits is expressly prohibited.

B. It shall be unlawful for any wrecker owner, driver or driver helper of a wrecker or an agent, employee or representative of the owner or driver of a wrecker at the scene of any accident, to pressure or otherwise coerce or insist that the owner or operator of a vehicle sign a work order or agreement at the scene of the place from which the vehicle is to be transported for any repairs to be made on such vehicle.

No repairs shall be made and no parts shall be removed from such vehicle until express written authorization has been obtained by the owner; provided, however, that if the wrecker company operator dismantles any such vehicle without the authority of the owner of the wrecked vehicle, the wrecker company shall restore such vehicle to its original condition at the time that it was picked up, and deliver the same to the owner or the owner's designee within 36 hours. There shall be no charge for the dismantling, restoring of the vehicle to its original condition, or for storage if the wrecker company driver has dismantled such vehicle without the authority of the owner.
(Ord. No. 5133, § 1(part), 4-18-2006)

Sec. 6-88-15. Private property tow authorization.

A. Wrecker service operators shall comply with all federal, state, and local laws concerning the towing of vehicles from private property, including, but not limited to, T.C.A. §§ 55-16-112 and 66-28-518.

B. The owner or person in lawful possession of private property, including an apartment complex or condominium association, may cause the removal of a vehicle parked on the property in compliance with applicable law; however, there must be displayed, in plain view at all entrances to the property, a sign not less than 18 inches by 12 inches in size, with lettering not less than one inch in height, prohibiting public parking and indicating that vehicles will be removed at the vehicle owner's expense, and containing the telephone number of the city police department report center and the name and telephone number of each towing company that is a party to a written general towing authorization agreement with the owner or person in lawful possession of the property. The sign must also indicate that a citation may also be issued for the violation. On a development with an integrated center sign or a complex sign as permitted under the Unified Development Code, a sign of the same size, information content, and lettering size may be placed and maintained on the integrated center sign or complex sign in lieu of at every driveway entrance to the property.

C. Prior to the removal of towing a vehicle (or personal property) from private property by a wrecker service without the owner's consent, the towing company must have express written authorization for the towing of that vehicle (or personal property) from the owner of the private property, property manager, or designated agent. When an individual is designated by a private property owner to act as an agent to authorize towing from the property, such designation must be in writing, signed by the private property owner, notarized, and filed with the permits office. Such designation shall name the wrecker company used by the property owner. A wrecker company may perform a periodic audit as part of a contractual agreement with a private property owner for the purpose of identifying vehicles on the property which may be inoperable or defective. The existence of such an arrangement shall be disclosed on the designation described above filed with the permits office which states the name of the private property owner's agent to authorize towing, wrecker company used, and list of violations that will cause a vehicle to be towed without consent from the owner's property. Contractors or written agreements between a towing company and private property owners for non-consensual towing must be retained by the towing company, and must include the property owner's signature and the signatures of any agents designated by the private property owner, a copy of which must be available for inspection by the city police department and/or permits office upon request.
(Ord. No. 5133, § 1(part), 4-18-2006; Ord. No. 5414, § 1(41-15), 11-1-2011)

Sec. 6-88-16. Reporting accidents and scene calls.

A. Every person operating wreckers within the city, upon receipt of a call to any accident location involving death, injuries or property damage, shall immediately notify the police services division of the location of the accident.

B. Scene calls. Any wrecker owner, driver, driver helper, employee or representative receiving a "scene call" must immediately notify the police dispatcher. No wrecker driver or driver helper shall respond to scene locations without permission from the police dispatcher. Such wrecker company owner, driver, driver helper, employee, or representative regardless of the class of

wrecker requested or location must first provide the police dispatcher with the following information: scene location, make, model and vehicle type. The police dispatcher will verify the time of the call, scene location and ascertain information if any other wrecker company has been dispatched prior to granting permission.
(Ord. No. 5133, § 1(part), 4-18-2006)

Sec. 6-88-17. City employees soliciting for wrecker companies.

No city employee shall recommend or solicit business on behalf of any wrecker service or tow company.
(Ord. No. 5133, § 1(part), 4-18-2006)

Sec. 6-88-18. Rules and regulations of the permits office.

The permits office shall promulgate a complete set of rules and regulations describing in detail the procedures to be observed by licensed wrecker owners and operators. After a period of advise and comment, such rules and regulations shall be submitted to the city council for approval. The permits office shall have authority to change such rules and regulations when the interest of the city requires such change or revision, and after a period of advise and comment, such changes or revisions shall be submitted to and approved by the city council before becoming effective. The violation of such rules and regulations may be grounds for fines, suspension or revocation of the wrecker or towing license or permit as provided in section 6-88-50.
(Ord. No. 5133, § 1(part), 4-18-2006; Ord. No. 5414, § 1(41-18), 11-1-2011)

ARTICLE 2. PERMITS REQUIRED

Sec. 6-88-26. Permit requirements.

A. *License for wrecker service.*

1. No wrecker service shall engage in business within the city limits or offer such service to any motor vehicle upon the streets, alleys, roads, highways, and thoroughfares of the city unless a license is obtained from the permits office.

2. Each wrecker service owner must provide to the permits office a certificate of occupancy and use from the Memphis and Shelby County Office of Construction and Code Enforcement and a current business license from the county business office, or the equivalents issued by appropriate governing bodies in the jurisdiction in which a wrecker service outside Memphis and Shelby County is located.

B. *Emergency wrecker service.* No person shall engage in the business of providing emergency wrecker services within the corporate limits of the city without first obtaining and keeping in force a license to operate an emergency wrecker service from the permits office.

C. *Wrecker service owners with addresses outside the city.* Wrecker owners located in the county, but outside the city limits, who are licensed to operate in the county, pursuant to the provisions of chapter 189 of the Private Acts of 1961, may apply for a license to operate in the city and such license shall be issued without the necessity of obtaining a certificate of occupancy and use from the Memphis and Shelby County Office of Construction and Code Enforcement as set forth above, provided that such operator meets the remaining qualifications for a license including a current business license issued by the county business office and complies with all rules and regulations promulgated pursuant to this chapter. Wrecker owners located outside of the county must provide a current business license issued by the county in which the wrecker service is located and comply with all rules and regulations of this chapter.

D. *Police rotation list or emergency wrecker.* Only wrecker companies licensed to operate in the city who have been issued certificates of occupancy and use by the Memphis and Shelby County Office of Construction and Code Enforcement and satisfied each requirement set forth in this chapter for emergency wrecker service

shall be eligible to be included on the emergency wrecker rotation list maintained by the police services division for use in those instances in which wrecker operators are directed to the scene of a wreck by the police dispatcher.

E. *Storage.* A wrecker company that does not currently have the requisite permit to operate as wrecker operator shall hereafter be ineligible to obtain a permit as a wrecker operator unless such operator shall have facilities for storage at the place from which its wreckers are to be operated sufficient for the storing of not less than 100 disabled motor vehicles.

A wrecker company that is currently permitted to operate as a wrecker operator as of the effective date of this chapter shall be grandfathered in, and continue to operate at current capacity. Renewal of the requisite permit shall not alter the applicability of this provision.

F. *Permit for wrecker service drivers/operators.* No person shall operate a wrecker vehicle for hire upon the streets of the city and no licensed wrecker service for hire shall permit towing at any time for hire, unless the driver of said wrecker for hire shall have first obtained and shall have a current and properly updated wrecker driver/operator's permit issued by the permits office.

1. Permits required by this article shall be applied for in person and in writing, on such forms as the permits office may prescribe which shall show:
    a. The applicant has obtained the proper class endorsement pursuant to the provisions of T.C.A. chapter 50, title 55.
    b. All criminal statutes, whether federal or state, or city ordinance violations for which conviction, forfeiture of bond or pleading of nolo contendere has occurred, including motor vehicle and traffic violations. The permits office must immediately submit to the state bureau of investigation a request for a criminal background check of the applicant upon submission of his wrecker driver permit application.
    c. Such other information as the permits office may require.
2. Such application shall be accompanied by a statement from a holder of a wrecker service license indicating that the applicant shall be affiliated with the license holder upon issuance of the permit.
3. Permits shall remain the property of the permits office, and may be canceled, revoked, or suspended at any time and will be surrendered on demand.
4. Each applicant applying for a permit shall appear before the permits office to complete an identification questionnaire on a form to be provided.
5. A wrecker driver's permit may not be issued to any applicant who has been convicted of a felony or any crime involving moral turpitude within five years prior to their application for such permit.
6. The permits office may refuse to issue a permit to an applicant whose police record shows more than one conviction for driving under the influence of intoxicants, moving traffic violations, or any other good and just cause within five years prior to their application for such permit.
7. No permit shall be issued unless the applicant is at least 21 years of age.
8. It shall be the duty of the permits office to issue a permit to any person applying therefor, showing compliance with the provisions of this chapter.
9. The holder of a wrecker driver's permit shall advise the permits office within three days of all arrests and indictments, including those for driving under the influence of intoxicants. It shall also be the responsibility of the wrecker service license holder with which said driver is affiliated to notify the permits office of said charges, arrests or indictments so long as the wrecker service license holder has actual knowledge of said arrests or indictments. Failure to do so may result in fines, suspension or revocation of said permit and/or of said license after a hearing within three business days by the permits office.
10. If a permit is issued, the driver must register with the permits office the name of the wrecker service license holder with which the driver intends to be affiliated, and the permits office

will have stamped on the permit the name of the wrecker service license holder. If at any time a driver wishes to change wrecker service providers, the driver must register the change with the permits office, and a fee of $3.00 will be charged to defray administrative cost. Failure to advise the permits office of any such changes may result in suspension or revocation of said permit. It shall be the responsibility of the holder of the wrecker service license to notify the permits office when affiliation with a driver is discontinued and any wrecker service license holder which allows a driver to operate a wrecker service vehicle for hire without a proper and complete permit may have its license suspended or revoked.

11. Each applicant for a permit under the provisions of this section shall pay to the permits office a fee of $50.00 at the time of filing the application to cover the cost of a criminal background check, application processing and a permit card. At the biannual renewal of such permit, the applicant shall pay the sum of $50.00. To replace a lost, destroyed or stolen permit that is current the fee shall be $15.00.

12. A permit issued under this chapter shall be in card form of such size and design as may be prescribed by the permits office, which shall bear on its face a photograph of the driver, the number of the permit, the expiration date thereof, the company with which the driver is affiliated, and such other information as the permits office may require. The driver shall also have a current driver's license.

13. A permit issued under this provision shall expire at 12:00 midnight two years after of the date of issuance. Every wrecker driver's permit in good standing will be renewable during the renewal period. The renewal period shall be from three months before until five working days after the expiration date. Renewal shall be made by application, as set forth below, and payment of the fee to the permit office. At the end of the renewal period, the license shall become null and void. Failure to make timely application for renewal of the wrecker driver's permit will result in the assessing of a reinstatement fee of $15.00 per month for up to three months from the expiration date in addition to the renewal fee. After three months, a completed application for a new driver permit is required, including a new physical, within 90 days of its issuance.

14. If the driver wishes that his/her permit be renewed, he/she shall furnish, in person, to the permits officer a statement from a wrecker service license holder indicating that the driver is a current driver for said certificate holder.

15. The permits office and/or transportation commission is hereby given the authority to fine a penalty fee of no more than $50.00, to suspend or revoke any wrecker driver's permit issued under this chapter for a driver's failure to comply with the provisions of this chapter or the rules and regulations specified by the permits office and/or transportation commission.

16. The permits office shall notify a driver and the associated wrecker service license holder of the violations with which they are charged and their right to a hearing before the transportation commission for any suspensions/revocation recommended by the permits office in excess of five days. A hearing shall be held at such time as may be conveniently scheduled but within 30 days of the notification to the driver of the recommended suspension/revocation exceeding five working days.

17. The permits office and/or transportation commission may suspend or revoke any driver and/or license of associated wrecker service license holder for allowing any other person to use the permit granted to said driver for the purpose of operating a wrecker, another type of passenger vehicle for hire, or for any other reason.

18. The permits office may suspend or revoke the wrecker driver's permit of any driver who defaces, removes, or obliterates any official entry made upon the permit.

19. Every driver holding a valid wrecker driver's permit shall be subject to random drug screening as established in this section unless the wrecker service license holder for whom the driver works is included in the Tennessee Highway Patrol Rotating Schedule Towing List. Drivers may be selected for drug and alcohol

testing on a random basis by using a scientifically valid random number generation method approved by the permits office. Upon selection, the permits office shall notify the wrecker service license holder for whom the driver works. The wrecker service license holder shall be responsible for notifying the driver. Once advised of the required test, a driver must take the test within 24 hours. The permits office will use a testing location already approved by the city.

20. The cost of the testing shall be borne by the certificate holder if the results are negative. If the results are positive, the cost of the test shall be borne by the driver tested. The results of all tests shall be immediately provided to the permits office.

21. Drivers will be subject to urine drug and breath alcohol testing. Drug testing will be for any illegal drug or substance, including but not limited to amphetamines, cocaine or its derivatives, marijuana, opiates, and phencyclidme (PCP). Illegal use includes use of any illegal drug, misuse of legally prescribed drugs, and use of illegally obtained prescription drugs. Breath alcohol testing will be considered positive at a 0.04 alcohol level or higher.

22. The use of a controlled substance is not prohibited, which is prescribed by a treating medical physician, if this physician makes a good faith judgment that use of the substance by the driver at the prescribed dosage level is consistent with the safe performance of the driver's duties. Drivers using a controlled substance prescribed by a treating physician must immediately notify the wrecker service license holder that they are taking such medication. The wrecker service license holder may request a doctor's certificate verifying the treatment. Abuse of a prescribed controlled substance is prohibited.

23. Any driver who refuses to comply with a request for testing, who provided false information in connection with a test, or who attempts to falsify tests results through tampering, contamination, adulteration, or substitution shall have his/her permit revoked immediately. Refusal can include an inability to provide a specimen or breath sample without a valid medical examination, and a verbal declaration, obstructive behavior, or physical absence resulting in the inability to conduct the test.

24. Any driver who tests positive under the first random testing procedure may be subject to the following:

    a. Suspension of his/her permit for 30 to 120 days;

    b. Referral to an assessment by a substance abuse professional (SAP), with a return to work drug and alcohol test at the end of suspension; and/or

    c. Completion of a return to work agreement outlining terms of return to work, including ongoing treatment and additional random testing for up to five years with a minimum of six tests that first year.

25. Any driver who has a second positive test under the random testing procedure within three years from failing the first drug screening shall be subject to revocation of his/her permit.

26. No driver who has had a permit revoked for failing drug screening shall be eligible for a permit for six months following revocation. At the end of that period, any re-application must include evidence that the driver has undergone treatment for substance abuse and proof of a negative drug screen within one week of reinstatement.

27. A driver who fails a drug/alcohol test within three years of a first suspension shall have his/her permit revoked for two years. A third violation shall result in a permanent revocation.

28. Testing shall be done on all drivers subject to a fitness for work evaluation when there are reasons to believe that drug or alcohol use may by adversely affecting job performance. The wrecker service license holder and the permits office will make reasonable suspicion determinations.

29. Testing shall be done on all drivers involved in an accident that results in a fatality, or injuries requiring immediate transportation to a medical facility or the driver receives citation by local law enforcement officers, or if one or

more vehicle incurs disabling damage that requires towing, pushing etc., from the site and driver receives a citation for a moving violation arising from the accident. Acceptance of a wrecker driver's permit under this chapter signifies consent to testing if a driver is unconscious after being involved in such an accident.

30. Following an accident, the driver will be tested as soon as possible, but not to exceed eight hours for alcohol testing and 32 hours for drug testing. Any driver involved in an accident must refrain from alcohol use for eight hours following the accident or until he/she undergoes a post-accident test. Any employee who leaves the scene of the accident prior to the submission to the drug/alcohol test will be considered to have refused the test and be subject to permit revocation.

31. Confidentiality will be maintained throughout the drug/alcohol testing process. The risk manager of the city will maintain results in the strictest confidence in a medical file separate from the official personnel file. In cases where disciplinary action results from positive test, such information shall be shared only with those in a supervisory capacity involved in that action.

(Ord. No. 5133, § 1(part), 4-18-2006; Ord. No. 5414, § 1(41-26), 11-1-2011; Ord. No. 5868, § 1, 5-16-2023)

Sec. 6-88-27. Making false statement—Power not to grant application.

Any person making a false statement in any application required by the director of police services or his duly authorized designee shall forfeit his permit and shall not be eligible to receive or hold a permit from the director of police services or his duly authorized designee for a period of five years. The director of police services or his duly authorized designee shall have the power not to issue any permit when it finds that such issuance would interfere with the public health, safety, and welfare of the residents of the City of Memphis.
(Ord. No. 5133, § 1(part), 4-18-2006)

Sec. 6-88-28. Application.

Any person desiring to engage in the business of providing wrecker or emergency wrecker services within the corporate limits of the City of Memphis must be certified by the Department of Transportation ("DOT") and obtain a license as required by this article. Such person must also file with the director of police services an application setting forth, among other things, the following:

A. Name and address of the applicant.

B. The location, description and hourly availability of wreckers owned or operated by the applicant.

C. A statement setting forth and describing the available space for properly accommodating and protecting all disabled motor vehicles to be towed or otherwise removed from the place where they are disabled.

D. The number of wrecker vehicles owned or available for use by the applicant.

E. A statement that the applicant intends to comply with the fees and schedule of charges prescribed by this chapter and the rules and regulations promulgated by the director of public services.

F. If the applicant is applying for emergency wrecker service the applicant must agree to provide 24-hour service, including holidays, and state that he will have at all times a minimum of two wreckers and two men on duty during any 24-hour period, except that between the hours of 7:00 p.m. and 7:00 a.m., there shall be one man on duty and one wrecker in use.

G. A statement that all wreckers will be fully equipped at all times with a broom, crowbar, flags, flares, firefighter's axes, shovel or scoop; fire extinguishers must be a minimum of 20 pounds, and absorbent materials (i.e., oil-dry) minimum of ten pounds.

H. Except for the time period set out in subsection (F) of this section governing hours of operation for nights and on weekends, that such wrecker and emergency equipment shall be operated from one business location only, provided such location(s) are in the operator's zone.

I. A statement that such wreckers will be equipped with at least two vehicle jacks, a set of dollies, 100 feet of towing cable; and any equipment necessary for the towing of special automobiles in order to prevent further damage to such

vehicles. If such wrecker company wishes to be an emergency wrecker service and on the police list approved for towing such special vehicles, that wrecker company will also have available a trailer for towing motorcycles.

J. Prior to any wrecker service operating as an emergency wrecker service on the rotation list for the Memphis Police Department, the city shall be added as an additional insured on such wrecker service's insurance coverage. This shall be evidenced by such notation on the certificate of insurance on file with the police services division.

K. Any wrecker service desiring to do business with the city shall first execute a hold harmless agreement stating that it will indemnify, defend and hold the city harmless from any and all claims of any type, including attorney's fees, which may arise out of the performance of the towing of any vehicle under or by direction from the City of Memphis police services division.

L. Compliance with the above stated conditions shall at all times be a condition precedent to providing any service to or on behalf of the City of Memphis division of police services.

(Ord. No. 5133, § 1(part), 4-18-2006)

Sec. 6-88-29. Investigation of applicant—Creation of zones.

A. The director of police services or his designee shall investigate or cause to be investigated each applicant under this article to determine whether the applicant has met each of the requirements to operate a wrecker service in the City of Memphis. Such investigation will establish whether the wrecker owner has the necessary facilities and equipment as required under section 6-88-28 of this chapter, and whether the owner has been convicted of a felony within the last two years which shall require the pre-approval of the director of the division of police services or his designee.

B. The director of police services or his designee may decide the number of wrecker call zones and the number of wrecker operators that will be placed on the police services wrecker rotation call list in any zone in order to promote public safety and efficiency of service. Every wrecker owner shall be required to operate wreckers from an approved location in the zone where the business is designated to make tows; provided, however, no wrecker operator shall be denied the right to operate in any zone in which it was operating prior to July 1, 1989.

C. No person shall, regardless of number of wrecker companies in which he has an interest, acquire more than one listing per zone on the Memphis police services rotational list. This section shall apply to each wrecker company in which any single individual has any ownership interest. For purposes of this section, the term "interest" is defined as including, but not limited to, any participation in a wrecker company or tow-in business either directly or indirectly, near or remote, or any pecuniary interest.

(Ord. No. 5133, § 1(part), 4-18-2006)

Sec. 6-88-30. Liability insurance required.

A. A wrecker service shall not operate upon the streets of the city until it has obtained and kept in force all insurance required as established by the city risk manager which may be adjusted from time to time. The company shall require all subcontractors to carry insurance as outlined below, in case they are not protected by the policies carried by the company. The company is required to provide copies of the insurance policies upon request. The company shall furnish the risk manager a certificate of insurance and/or policies attested by a duly authorized representative of the insurance carrier evidencing that the insurance required hereunder is in effect. All insurance companies must be acceptable to the city and licensed.

B. The company shall indemnify, defend, save and hold harmless the city, its officers, employees, and agents, from and against any and all claims, demands, suits, actions, penalties, damages, settlements, costs, expenses, or other liabilities of any kind and character arising out of or in connection with the breach of the agreement by company, its employees, subcontractors, or agents, or any negligent act or omission of company, its employees, subcontractors, or agents, which occurs pursuant to the performance of this agreement, and this indemnification shall survive the expiration or earlier termination of this agreement. The provisions of this subsection shall not apply to any loss or damage caused solely by the acts, errors, or omissions of the city, its officers, employees and agents.

C. Each certificate or policy shall require and state in writing the following clauses:

Company shall provide notice to the City within three business days following receipt of any notice of cancellation or material change in company's insurance policy from company's insurer. Such notice shall be provided to city by registered mail, to the following addresses:

City of Memphis	*City of Memphis*	*Permits Office*
Attn: Risk Management 2714 Union Ext, # 200 Memphis, TN 38112	Attn: Purchasing Agent 125 N Main, Rm 354 Memphis, TN 38103	Attn. Administrator 2714 Union Ave. Ex., #100 Memphis, TN 38112

The certificate of insurance shall state the following:

"The City of Memphis, its officials, agents, employees and representatives shall be named as additional insured on all liability policies."

The additional insured endorsements shall be attached to the certificate of insurance and the certificate of insurance shall also state:

"The additional insured endorsement is attached to the certificate of insurance."

WORKERS COMPENSATION:

The Company shall maintain in force workers' compensation coverage in accordance with the statutory requirements and minimum limits of the State of Tennessee and shall require all subcontractors to do likewise.

Employer's Liability	$100,000.00	Each Accident
	$500,000.00	Disease-Policy Limit
	$100,000.00	Disease-Each Employee

AUTOMOBILE LIABILITY:

Covering owned, non-owned, and hired vehicles with minimum limits of:

$1,000,000.00	Each Occurrence - Combined Single Limits

COMMERCIAL GENERAL LIABILITY:

Comprehensive general liability insurance, including premises and operations, contractual liability, independent contractor's liability, and broad form property damage liability coverage with minimum limits of:

$1,000,000.00	General Aggregate
$1,000,000.00	Products-Completed Operations
$1,000,000.00	Personal and Advertising Injury
$1,000,000.00	Each Occurrence (Bodily Injury & Property Damage)
$50,000.00	Fire Damage any One Fire
$5,000.00	Medical Expense any One Person

PROPERTY INSURANCE:

The company shall be responsible for maintaining any and all property insurance on their own equipment and shall require all subcontractors to do likewise.
(Ord. No. 5133, § 1(part), 4-18-2006; Ord. No. 5414, § 1(41-30), 11-1-2011)

Sec. 6-88-31. Insurance required for emergency wrecker service and non-consent wrecker operators.

A. No license to operate an emergency wrecker service shall be issued, become effective or continue in force and effect unless there is in full force and effect a liability insurance policy covering the wrecker owner and his towing and wrecker operation as follows. Such liability insurance policy shall be with an insurance company authorized to do business in Tennessee and approved by the commission and shall be filed with the secretary of the commission.

1. A garage keeper's legal liability policy covering fire, theft, explosion, and collision in the following amounts: fire, theft and explosion, all in the minimum amount of $100,000.00 collision;

2. A garage liability policy covering the operation of applicant's own business, equipment and/or vehicle in the amount of $750,000.00 combined single limits to cover bodily injury, including death and property damage.

B. The policy or policies must contain an endorsement providing for 30 days' notice to the city in the event of any material change or cancellation of the policy or policies.

C. The City of Memphis shall be named as an additional insured on each policy provided in this section as set forth in paragraph (A).

D. Those permitted to operate a wrecker service or emergency wrecker service shall comply with the insurance requirements contained in this section if they engage in non-consent tows.
(Ord. No. 5133, § 1(part), 4-18-2006)

Editor's note—Paragraph 1 of this subsection is set out exactly as it appeared in Ordinance 5133.

Sec. 6-88-32. Wrecker application.

Each person applying for a license to operate a wrecker service or an emergency wrecker in the City of Memphis shall pay a one-time fee of $500.00 to have the application investigated by the director of police services or his duly authorized designee which shall include the inspection of each wrecker, storage facility and all remaining requirements.
(Ord. No. 5133, § 1(part), 4-18-2006)

Sec. 6-88-33. Issuance of wrecker decals; transfer and display.

When an application for a license under this chapter has been approved by the director of police services and or his duly authorized designee, a wrecker decal shall be issued through the permits office.

1. No person shall operate a wrecker used for towing purposes to remove vehicles from any street, alley, road, highway, or thoroughfare or within the area of the city or for towing vehicles over the area of the city unless a wrecker decal approved by the director of police services or his/her duly authorized designee is obtained from the permits office for each such wrecker vehicle.

2. A wrecker decal issued hereunder shall not be sold, assigned, mortgaged or otherwise transferred. Written notification must be submitted to the permits office immediately upon the licensee terminating the wrecker service or upon revocation.

3. A current wrecker decal, issued by the permits office, shall be prominently and conspicuously displayed on each wrecker at all times.

4. Types of decals.

   a. General purpose. A general purpose decal permits towing of vehicles where the owner has consented to the control of the vehicle to a third party such as a repair shop; repossessions but not for violations whether private property or otherwise.

   b. Non-consent. A non-consent decal permits the towing of vehicles for violations whether private property, city, state or federal violations.

   c. Emergency. The term "emergency wrecker service" means the removal of motor vehicles from the streets, alleys, roads, highways and thoroughfares within the area of the metropolitan government when there is an emergency situation. An emergency decal will signify that general purpose and non-consent towing are also authorized.

(Ord. No. 5133, § 1(part), 4-18-2006; Ord. No. 5414, § 1(41-33), 11-1-2011)

Sec. 6-88-34. License and decal responsibility.

Upon approval of a wrecker service license it shall be the responsibility of the applicant to purchase from the permits office a wrecker decal and any other such decals which shall at all times be prominently displayed on the windshield of each wrecker used for towing purposes.
(Ord. No. 5133, § 1(part), 4-18-2006)

Sec. 6-88-35. Expiration and renewal—Decal fees.

A. All wrecker decals issued under this article shall expire on April 15 of each year and shall be renewed between March 1 and April 15 of each year.

B. A decal fee of $50.00 for each wrecker vehicle in use shall be paid to the permits office to defray the cost of administration of this chapter. This fee will be required for all wrecker services, emergency and non-consent, unless the application is made after September 1, in which event such fee shall be $25.00 for any new truck placed in use or any newly licensed company.

ARTICLE 3. DRIVERS, DRIVER HELPERS AND EMPLOYEES

Sec. 6-88-41. Wrecker owner's responsibilities—Compliance required.

A. No wrecker owner shall permit any of its drivers or driver helpers while operating a wrecker to engage in any activities or practices contrary to the public safety or welfare, or contrary to the proper discharge of their duties in the course of their employment.

B. Each wrecker owner shall be responsible for its employees complying with the laws of the City of Memphis, the State of Tennessee, the United States, and the rules and regulations of the City of Memphis which reflect on the fitness of such employees to be employed in the operation of a wrecker service. Any violations by the employees of a wrecker owner shall be cause for revocation, suspension, probation or failure to renew the license of the wrecker company and the permits of the drivers or driver helpers.

ARTICLE 4. HEARINGS, VIOLATIONS AND APPEAL

Sec. 6-88-50. Violations.

A. It is declared that the following acts are prohibited and unlawful and the license or permit of any person doing any such acts may be revoked, suspended, placed on probation or not renewed. The director of police services or his authorized designee may suspend or remove from the emergency wrecker call list, or revoke or suspend the permit of any wrecker operator for any of the following reasons:

1. If the permit was procured by fraudulent conduct or false statement of a material fact, or if a fact concerning the applicant was not disclosed at the time of his making application that would have constituted just cause for refusing to issue the permit.

2. If the permittee proceeds to the scene of an accident in violation of the provisions of this chapter.

3. If the permittee uses a short wave or police radio to obtain information as to location of the scene of an accident.

4. If the permittee pays any person not involved in the accident for information as to the location of the accident.

5. If the permittee has violated the fee schedule by overcharging or has violated any of the rules and regulations established pursuant to section 6-88-18 by the director of police services.

6. If the permittee fails to comply with all reasonable and lawful requests of the owner or operator of the vehicle to be towed to the requested destination.

7. If the permittee removes or transports any vehicle, the owner of which is in violation of any law of the City of Memphis or of the State of Tennessee, except by explicit instructions of a Memphis police officer.

8. If the permittee disregards the instruction of any person under the division of police services during the transportation of the vehicle to its destination.

9. If the permittee waits for employment by standing or parking upon any street, alley, road, highway, thoroughfare or upon public property.

10. If the permittee interferes with the orderly flow of traffic along the streets, alleys, roads, highways, or thoroughfares, except upon the direction of any person under the division of police services.

11. If the permittee invites or permits loitering within or near his wrecker.

12. If the permittee transports a vehicle other than by the most direct and safest route and without delay from the point of pick-up to the assigned destination.

13. If the permittee fails to comply with any of the ordinances of the City of Memphis, the State of Tennessee, the United States or the rules and regulations of the director of police services which reflect unfavorably on the fitness of the driver, the driver helper, or employee to be employed in the operation of a wrecker service.

(Ord. No. 5133, § 1(part), 4-18-2006)

Sec. 6-88-51. Penalties—Fines, suspensions, revocations.

A. *Hearing before permits administrator.* If it appears that a wrecker service or wrecker service license holder has violated any of the aforementioned requirements or rules and regulations the permits administrator shall have the authority to conduct a hearing with the wrecker service representatives and/or wrecker service license holder upon 48 hours' notice. If violations are found to have occurred, the permits administrator may suspend the wrecker service license and/or wrecker driver's permit up to a period not to exceed ten days. Upon expiration of the suspension, the wrecker service license holder license and/or permit will not be reinstated until such time that the requirement, rule or regulation violation is corrected and the wrecker operator meets all provisions of this chapter. Any decision by the permits administrator may be appealed within five days by the transportation commission.

B. *Hearing before transportation commission.* If any wrecker service or wrecker operator has been charged by the permits office with any of the aforementioned violations that if found guilty the penalty may require suspension or revocation of the wrecker service or wrecker operator upon the streets of the city for a period of more than ten days, the permits administrator shall notify the wrecker operator in writing of the nature of the offense and each shall appear before the transportation commission. At such hearing before the transportation commission the wrecker service or operator shall be allowed to answer such charges. Penalties levied against the wrecker service or wrecker operator include, but are not limited to fines, suspensions, and revocations. Penalties are not subject to appeal, the decision of the transportation commission being final.

C. *Revocation.* Unless good cause is shown, any wrecker operator whose wrecker service license and/or wrecker driver's permit has been revoked shall not be eligible to reapply for a license for a period of one year from the date of such revocation.

(Ord. No. 5133, § 1(part), 4-18-2006; Ord. No. 5414, § 1(41-51), 11-1-2011)

Charter reference—Authority to regulate tow-cars, § 745.

ARTICLE 5. METHODS OF PAYMENT

Sec. 6-88-55. Payment.

A. Every wrecker company or towing operator and/or storage facility doing business within the corporate limits of the City of Memphis shall accept payment by:

1. Cash; and

2. Major credit card (i.e., Visa, Mastercard, American Express); and

3. Any additional forms of payment accepted by the City of Memphis impound lot, which shall be accepted within 60 days of implementation by the city.

(b) There may be an additional fee of no more than four percent charged for use of a credit card.

(Ord. No. 5818, § 1, 3-22-2022)

CHAPTER 6-92. EQUAL BUSINESS OPPORTUNITY PROGRAM*

Sec. 6-92-1. Equal business opportunity program.

***Editor's note—**Ord. No. 5662, § 1, adopted Nov. 7, 2017, repealed the former Ch. 6-92, §§ 6-92-1—6-92-7, and enacted a new Ch. 6-92 as set out herein. The former Ch. 6-92 pertained to similar subject matter and derived from Ord. No. 5384, §§ 1(2-325—2-331), 10-26-2010; Ord. No. 5632, §§ 2—13, 10-18-2016.

Sec. 6-92-2. Equal business opportunity (EBO) subcontracting program.
Sec. 6-92-3. Equal business opportunity goals.
Sec. 6-92-4. Requirements for bidders, contractors, and joint ventures.
Sec. 6-92-5. Mediation of disputes between joint venture team members and/or prime and subcontractors.
Sec. 6-92-6. Penalties for noncompliance.
Sec. 6-92-7. Outreach and assistance to subcontractors by the office of business diversity and compliance (OBDC).

Sec. 6-92-1. Equal business opportunity program.

A. *Statement of policy.* Under all the circumstances and based on the factual predicate which has been established after careful study and review, the city has a compelling interest to fully remedy the ongoing effects of past and present discrimination against minority and women business owners in both the public and private sectors of its marketplace. The city has a compelling interest to assure that public dollars derived from tax collection and revenues are not utilized to further discriminatory practices. It is the policy of the city to promote full and equal business opportunity for all persons doing business with the city. The city must ensure that firms seeking to participate in contracting and procurement activities with the city are not prevented from doing so on the basis of the race or gender of their owners. The city is committed to ensuring that it is not a passive participant in any private scheme of discrimination. To ensure that businesses are not discriminated against with regard to prime contracting, subcontracting or other partnering opportunities with the city, the city has developed an equal business opportunity program.

B. *Title.* This chapter shall be known as the "City of Memphis, Equal Business Opportunity Program Ordinance."

C. *Adoption of the findings and conclusions of the Griffin and Strong, P.C. Report*. The city council adopts the findings and conclusions of the Griffin and Strong, P.C. Report dated August 2016 (referred to in this chapter as the "GSPC report").

D. *Definitions.* The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

African American shall mean persons having origins in any black racial group of Africa.

African American business enterprise (AABE) shall mean a business which is an independent and continuing enterprise for profit, performing a commercially useful function, and which is owned and controlled by one or more African Americans.

Annual participation goals shall mean the targeted levels established by city council of relevant markets for minority and women participation in city professional contracts, goods and nonprofessional services contracts, and construction contracts calculated in accordance with this chapter and applicable only to specific gender, ethnic or ethnic minority groups for which goals have been set.

Asian shall mean persons having origins in any of the original people of the Far East, Southeast Asia, the Indian subcontinent or the Pacific Islands.

Asian American business enterprise (ABE) shall mean a business which is an independent and continuing enterprise for profit, performing a commercially useful function, and which is owned and controlled by one or more Asian individuals.

Best bid shall be defined as the responsive quotation, proposal, solicitation or offer that meets specifications, including, if applicable, any project participation goal as set in the bid packet specifications.

Bid shall mean written quotations, proposals or offers by a bidder or contractor to perform or provide labor, materials, equipment, supplies or services to the city for a price submitted in response to competitive bidding solicitation issued by the city.

Bidder shall mean any business enterprise that submits a bid or proposal as defined herein.

Boards, commissions, and quasi-governmental agencies shall mean any entity that the mayor of the city holds appointment power to effect membership.

Business enterprise shall mean a corporation, partnership, sole proprietorship, joint venture, joint-stock company, professional association or any other legal entity, operated for profit that is properly licensed and/or otherwise authorized to do business in the State of Tennessee.

Certification or recertification shall mean the official recognition and approval by the office of business diversity and compliance (OBDC) that a business meets the qualification criteria of an AABE, HBE, ABE, NABE, or WBE, as set forth in this chapter. Certification or recertification relates to qualifications regarding ownership, control, and the applicant's economic disadvantage, not the quality of the service or product. The office of business diversity and compliance will serve as the central certification agency for all city funded projects with acceptance of certifications from third party certifying agencies as a consideration by OBDC.

Certified AABE, HBE, ABE, NABE, or *WBE* shall mean an AABE, HBE, ABE, NABE or WBE which has been certified by a city approved central certification agency and approved by the office of business diversity and compliance (OBDC).

Commercially useful function. For the purpose of determining whether a business enterprise is performing a commercially useful function, OBDC shall consider all of the facts in the record, viewed as a whole, including without limitation the following:

1. An MWBE performs a commercially useful function when it is responsible for execution of the work of the contract and is carrying out its responsibilities by actually performing, managing, and supervising the work involved.
2. To perform a commercially useful function, the MWBE must be responsible, with respect to material and supplies used on the contract, for negotiating price, determining quality and quantity, ordering the material, and installing (where applicable) and paying for the material itself.
3. To determine whether an MWBE is performing a commercially useful function, OBDC will evaluate the amount of work subcontracted by the MWBE, industry practices regarding subcontracting, whether the amount the MWBE is to be paid under the contract is commensurate with the work it is actually performing, the MWBE credit claimed for its performance of the work, and other relevant factors.
4. An MWBE does not perform a commercially useful function if its role is limited to that of an extra participant in a transaction, contract, or project through which funds are passed in order to obtain the appearance of MWBE participation. In determining whether an MWBE is such an extra participant, OBDC will examine similar transactions, particularly those in which MWBEs do not participate.

Construction contracts shall mean those written agreements between a contractor and the city for the construction, repair, rehabilitation, alteration, conversion or extension of buildings, parks, utilities, streets or other improvements or alteration to real property. Construction projects include the contracts for the labor portion of a project as well as equipment and other supplies to be incorporated in a project.

Contract shall mean and include any agreement between the city and a person or business enterprise to provide or procure labor, materials, equipment, supplies

and services to, for or on behalf of the city. A "contract" shall include an agreement between the city and a person or business enterprise to perform professional architectural and engineering services, construction related services or fund the performance of such services, nonprofessional services and/or goods. Except as otherwise specifically defined in this section, a "contract" does not include:

1. Awards made by the city to a nonprofit entity which the city offers assistance, guidance, or supervision on a project or program and the recipient of the grant award uses the grant monies to provide services to the community;
2. Sales transactions where the city sells its personal or real property;
3. A loan transaction where the city is acting as a debtor or a creditor;
4. Lease and franchise agreements;
5. Agreements to use city real property; or
6. Gifts of materials, equipment, supplies or services to the city.

Contract compliance officer (CCO) means the director of the office of business diversity and compliance, or the city official appointed by the mayor to specifically manage designated sections of the program authorized by this chapter.

Contractor shall mean any person or business enterprise that submits a bid or proposal to provide labor, goods or services to the city by contract for profit in the area of construction or construction-related activities; and, any person who supplies or provides labor, goods or services to the city by contract for profit; and any person who is a subcontractor under any such contract.

Control or *controlled:* For the purpose of determining whether the owner or owners of a potential MWBE (as used in this definition, "MWBE-owner", which shall denote one or more owners) controls the potential MWBE, OBDC shall consider all of the facts in the record, viewed as a whole, including without limitation the following:

1. For an MWBE-owner to be deemed to control the potential MWBE, the potential MWBE must be independent. An independent business enterprise is a business whose viability does not depend on its relationship with another firm or firms.
   a. In determining whether a potential MWBE is independent, OBDC will scrutinize relationships with other firms, in such areas as personnel, facilities, equipment, financial and/or bonding support, and other resources.
   b. OBDC will consider whether present or recent employer/employee relationships between the MWBE-owner and other firms or persons associated with other firms compromise the independence of the potential MWBE firm.
   c. OBDC will examine the potential MWBE's relationships with prime contractors to determine whether a pattern of exclusive or primary dealings with a prime contractor compromises the independence of the potential MWBE firm.
   d. In considering factors related to the independence of a potential MWBE firm, OBDC will consider the consistency of relationships between the potential MWBE and other firms with normal industry practice.
2. A potential MWBE firm must not be subject to any formal or informal restrictions which limit the customary discretion of the MWBE-owner. There can be no restrictions through corporate charter provisions, by-law provisions, contracts or any other formal or informal devices (e.g., cumulative voting rights, voting powers attached to different classes of stock, employment contracts, requirements for concurrence by persons other than the MWBE-owner, conditions precedent or subsequent, executory agreements, voting trusts, restrictions on or assignments of voting rights) that prevent the MWBE-owner, without the cooperation or vote of any other individual, from making any business decision of the business enterprise. This paragraph does not preclude a spousal co-signature on documents.
3. The MWBE-owner must possess the power to direct or cause the direction of the management and policies of the business enterprise and to

make day-to-day as well as long-term decisions on matters of management, policy and operations.

a. An MWBE-owner must hold the highest officer position in the company (e.g., chief executive officer or president).

b. In a corporation, the MWBE-owner must control the board of directors.

c. In a partnership, the MWBE-owner must serve as a general partner, with control over all partnership decisions.

4. Individuals who are not the MWBE-owner may be involved in an MWBE as owners, managers, employees, stockholders, officers, and/or directors. Such individuals must not, however, possess or exercise the power to control the business enterprise, or be disproportionately responsible for the operation of the business enterprise.

5. The MWBE-owners of the business enterprise may delegate various areas of the management, policymaking, or daily operations of the business enterprise to other participants in the firm, regardless of whether these participants are African American, Hispanic, Asian, Native American, or women. Such delegations of authority must be revocable, and the MWBE-owner must retain the power to hire and fire any person to whom such authority is delegated. The managerial role of the MWBE-owner in the business enterprise's overall affairs must be such that OBDC can reasonably conclude that the MWBE-owner actually exercises control over the business enterprise's operations, management, and policy.

6. The MWBE-owner must have an overall understanding of, and managerial and technical competence and experience directly related to, the type of business in which the business enterprise is engaged and the business enterprise's operations. The MWBE-owner is not required to have experience or expertise in every critical area of the business enterprise's operations, or to have greater experience or expertise in a given field than managers or key employees. The MWBE-owner must have the ability to intelligently and critically evaluate information presented by other participants in the business enterprise's activities and to use this information to make independent decisions concerning the business enterprise's daily operations, management, and policymaking. Generally, expertise limited to office management, administration, or bookkeeping functions unrelated to the principal business activities of the business enterprise is insufficient to demonstrate control.

7. If state or local law requires the owner of a particular type of firm to have a particular license or other credential, then the MWBE-owner of that type of firm must possess the required license or credential in order to be deemed in control. If state or local law does not require an owner to have such a license or credential, OBDC will not deny certification solely on the ground that the MWBE-owner lacks the license or credential. However, OBDC may take into account the absence of the license or credential as one factor in determining whether the MWBE-owner actually controls the firm.

8. OBDC may consider differences in remuneration between the MWBE-owner and other participants in the business enterprise in determining whether the MWBE-owner controls the business enterprise. Such consideration shall be in the context of the duties of the persons involved, normal industry practices, the business enterprise's policy and practice concerning reinvestment of income, and any other explanations for the differences proffered by the business enterprise. OBDC may determine that a business enterprise is controlled by its MWBE-owner although the MWBE-owner's remuneration is lower than that of some other participants in the business enterprise. In a case where someone other than the MWBE-owner formerly controlled the business enterprise, and the MWBE-owner now controls it, OBDC may consider a difference between the remuneration of the former and current owner of the business enterprise as a factor in determining who controls the business enterprise, particularly when the former owner remains involved with the business enterprise and continues to receive greater compensation than the current MWBE-owner.

9. In order to be viewed as controlling a business enterprise, an MWBE-owner cannot engage in outside employment or other business interests that conflict with the management of the business enterprise or prevent the MWBE-owner from devoting sufficient time and attention to the affairs of the business enterprise to control its activities. For example, absentee ownership of a business and part-time work in a full-time firm are not viewed as constituting control except for franchise ownership. However, an MWBE-owner could be viewed as controlling a part-time business that operates only on evenings and/or weekends, if the MWBE-owner controls the business enterprise when it is operating.

10. An MWBE-owner may control a business enterprise even though one or more of the MWBE-owner's immediate family members (who themselves are not African American, Hispanic, Asian, Native American, or women) participate in the business enterprise as a manager, employee, owner, or in another capacity. Except as otherwise provided in this paragraph, OBDC must make a judgment about the control the MWBE-owner exercises vis-a-vis other persons involved in the business enterprise as it does in other situations, without regard to whether or not the other persons are immediate family members. If OBDC cannot determine that the MWBE-owner, as distinct from the family as a whole, controls the business enterprise, then the MWBE-owner has failed to carry her/his burden of proof concerning control, even though s/he may participate significantly in the business enterprise's activities.

Eligible projects means those projects that have a participation MWBE goal set on it.

Expertise means demonstrable skills or knowledge of the field of endeavor in which certification is sought, including licensure where required.

Front shall mean a business which purports to be an MWBE but which is actually owned and/or controlled in a manner which is inconsistent with the requirements for certification set out in this chapter.

Fronting activity shall be defined as any occurrence of collusion between a MWBE and a majority business enterprise for the purpose of exploiting that MWBE's minority or female certification status to primarily benefit a majority firm without the performance of any commercially useful function by that MWBE.

Good faith efforts means the steps undertaken to obtain MWBE participation for subcontracting opportunities related to the bid proposal submitted. Minimum standards are set out in section 6-92-4(D).

Hispanic shall mean persons of Spanish or Portuguese culture with origins in Mexico, South or Central America or the Caribbean Islands, regardless of race.

Hispanic American business enterprise (HBE) shall mean a business which is an independent and continuing enterprise for profit, performing a commercially useful function, and which is owned and controlled by one or more Hispanic individuals. For purposes of this chapter alone, references to racial ownership of businesses shall include HBEs.

Joint venture shall mean an association of two or more persons, partnerships, corporations, or any combination of them, established to carry on a single business activity that is limited in scope and duration. The agreement establishing the joint venture, partnership or other multi-entity relationship shall be in writing. Further, participation in a joint venture shall be based on the sharing of real economic interest in the venture and shall include proportionate control over management, interest in capital acquired by the joint venture and interest in earnings.

Memphis Metropolitan Statistical Area (MSA) shall mean the geographical area consisting of Shelby, Tipton, Fayette, Crittenden, Desoto, Tunica, Tate, and Marshall counties.

Minority and diverse used interchangeably along with women business enterprise (MWBE) means a business which is an independent and continuing operation for profit, performing a commercially useful function, and which is owned and controlled by one or more African Americans, Hispanics, Asians, Native Americans, or women, or a combination thereof.

Minority-owned business enterprise (MBE) means a business (including, without being limited to, a sole proprietorship, partnership, corporation, joint venture or any other business or professional entity):

1. Which is at least 51 percent owned by one or more minority persons, or, in the case of

publicly-owned business, at least 51 percent of all classes of the stock of which is owned by one or more minority persons; and

2. Whose management, policies, major decisions and daily business operations are independently controlled by one or more of such minority persons; and

3. Which performs a commercially useful function; and

4. Minority person means those persons, citizens of the United States and lawfully admitted resident aliens, who are African American, Hispanic, Asian, or Native American.

MWBE advisory committee means the committee, composed of the contract compliance officer/director of OBDC, the director of finance or designee, the city engineer or designee, the city attorney or designee, the purchasing agent or designee, the director of information systems or designee, responsible for recommending to the city council the annual minority and women owned business enterprise procurement participation goals.

Native American shall mean persons having origins in any of the original people of North America, including American Indians, Eskimos and Aleuts.

Native American business enterprise (NABE) shall mean a business which is an independent and continuing enterprise for profit, performing a commercially useful function and which is owned and controlled by one or more Native Americans.

North American Industry Classification System (NAICS) Code shall mean the standard code that classifies industries by the type of activity in which such industries are primarily engaged.

Office of business diversity and compliance (OBDC) shall mean the office of business diversity and compliance (OBDC) in the city.

Owned, managed and independently controlled means the one or more minority persons or women who own(s) the requisite interest in or assets of a business applying for certification, shall possess equivalent incidents of such ownership, including an equivalent interest in profit and loss, and shall have contributed an equivalent percentage of capital or equipment and expertise to the business. Ownership shall be measured as though not subject to the community property interest of a spouse, if both spouses certify in writing that the nonparticipating spouse relinquished control over his or her community property interest in the subject business (but by doing so is not required to transfer ownership interest or to characterize the property as the separate property of the spouse). The one or more minority or women shall have recognized ultimate control over all day-to-day operations by employees of the business, and by those with whom it does business. The ownership and control of the firm shall be real, substantial, and continuing and shall go beyond the pro forma ownership of the firm as related in its ownership documents.

Owned or *ownership:* In determining whether a potential MWBE is owned by one or more African Americans, Hispanics, Asians, Native Americans, or women, OBDC will consider all of the facts in the record, viewed as a whole, including without limitation the following:

1. OBDC shall deem the owner of a business enterprise to be whoever possesses at least 51 percent of the business enterprise. There may be more than one owner.

   a. In the case of a corporation, such individuals must possess at least 51 percent of each class of voting stock outstanding and 51 percent of the aggregate of all stock outstanding.

   b. In the case of a partnership, such individual(s) must possess at least 51 percent of each class of partnership interest. Such ownership must be reflected in the business enterprise's partnership agreement.

   c. In the case of a limited liability company, such individual(s) must possess at least 51 percent of each class of member interest.

2. All securities which constitute ownership of an entity for purposes of establishing it as an AABE, HBE, ABE, NABE or WBE must be held directly by African American, Hispanic, Asian, Native American or women individuals or by AABEs, HBEs, ABEs, NABEs or WBEs. No securities held in trust or by any guardian for a minor shall be considered held by African Americans, Hispanics, Asians, Native Americans or women in determining the ownership or control of a corporation.

3. Ownership shall be measured as though not subject to the community property interest of a spouse if both spouses certify that only one spouse owns the business and if such assertion is supported by the totality of the evidence considered by the office of business diversity and compliance (OBDC).

4. OBDC must find that the individual's ownership is real, substantial, and continuing, going beyond pro forma ownership of the business enterprise as reflected in ownership documents. The individuals must enjoy the customary incidents of ownership, and share in the risks and profits commensurate with their ownership interests, as demonstrated by the substance, not merely the form, of arrangements.

Project participation goal shall mean a goal established for a particular project or contract and calculated as authorized in section 6-92-3(B).

Proposer shall mean a person or business enterprise which responds to a contract opportunity with the city, solicited as a request for proposal and that possesses the requisite expertise to perform the professional services sought.

Satisfactorily completed or *satisfactory completion* shall mean when all of the tasks called for in the subcontract have been accomplished and documented as required by the city. When the city has made an incremental acceptance of a portion of a prime contract, the work on a subcontractor covered by the acceptance is deemed to be satisfactorily completed.

Subcontractor shall mean any person or business enterprise providing goods, labor or services to a contractor if such goods, labor or services are procured in fulfillment of the contractor's obligations arising from a contract with the city. Subcontractor includes every level of subcontracting required to fulfill a contract with the city.

Supplier shall mean a warehouse or manufacturer of materials, supplies or equipment which contracts directly with a bidder to provide such materials, supplies or equipment on an eligible project which involves a trade or service. For purposes of measuring the total contract dollars awarded or paid to suppliers on eligible projects, only amounts paid to suppliers of goods customarily and ordinarily used based upon standard industry or trade practices shall be counted.

Women shall mean those persons, citizens of the United States and lawfully admitted resident aliens, who are of the female gender, and not otherwise included in one of the specific ethnic minority groups.

Women business enterprise (WBE) shall mean a business (including, without being limited to, a sole proprietorship, partnership, corporation, joint venture or any other business or professional entity):

1. Which is at least 51 percent owned by one or more women, or, in the case of publicly-owned business, at least 51 percent of all classes of the stock of which is owned by one or more women; and

2. Whose management, policies, major decisions and daily business operations are independently controlled by one or more of such women; and

3. Which performs a commercially useful function; and

4. Women means those persons, citizens of the United States and lawfully admitted resident aliens, who are of the female gender, and not otherwise included in one of the specific ethnic minority groups.

E. *Administrative authority; powers and duties.* It is the responsibility of every officer, director, administrator, manager, and supervisor of the city to manage the daily administration of the provisions of this chapter and to assure that the intent of this chapter is carried out in all procurement activities and opportunities.

1. The overall provisions of this chapter shall be administered and enforced by the contract compliance officer ("CCO") and, in pertinent parts, in conjunction with the division of finance.

2. The CCO's powers and duties under this chapter include the following:

   a. Establishment of written procedures, informal guidelines, and forms as may be necessary to effectuate this chapter.

   b. Monitoring compliance with the requirements of this chapter.

   c. Assist, where directed, the division of finance in establishing written procedures to implement this chapter.

d. Development of databases to be maintained as a public record of certified AABEs, HBEs, ABEs, NABEs and WBEs.

e. Maintenance of documents, forms, records or data regarding this program as provided in this chapter, including:

1. Documents, forms, records or data regarding the dollar amounts subcontracted to or expended for services performed by subcontractors and suppliers on eligible projects, including the race and gender ownership of each subcontractor and supplier, and

2. Documents, forms, records or data regarding certified AABEs, HBEs, ABEs, NABEs and WBEs.

f. Development and implementation of outreach and assistance programs to promote equal contracting opportunities for all businesses that wish to do business with the city, in accordance with section 6-92-7.

g. Provide information and assistance to MWBEs to increase their ability to compete effectively for the award of city contracts.

h. Provision of information to potential bidders/proposers which shall include names and contact information of certified MWBEs for each eligible project, to reinforce and support outreach efforts by potential bidders/proposers.

i. Keep MWBEs apprised of opportunities for technical assistance and training.

j. In conjunction with the division of finance, monitor contracts for compliance with MWBE participation goals throughout the contract term.

k. Ensuring compliance with requirements for joint venture arrangements under section 6-92-4(G) as applicable.

l. Determination of whether any of the penalties set forth in section 6-92-6 should be applied to a business.

m. Monitor the city's progress toward achievement of MWBE program goals.

n. Attendance at pre-bid, pre-proposal, pre-construction and pre-work conferences.

o. Assist, where directed, the division of finance in preparing compliance guidelines for contractors which will include monitoring and reporting procedures and recommendations for actions to be taken should noncompliance OBDC.

p. Investigation of alleged violations of this chapter, and the issuance of written statements following any determination of such investigation stating the reasons therefore and any penalty to be imposed.

q. Issue an exit interview for any contract which includes MWBE prime contractor participation as a joint venture, partner. The purpose of the exit interview is to ensure that MWBEs are actually performing services on joint ventures.

r. Collect data on diversity plans and outcomes from all boards, commissions and quasi-governmental agencies on a quarterly basis.

F. *Certification.*

1. For purposes of contracting with the city under this program, a minority or woman owned business enterprise must be located within the Memphis MSA (Crittenden County in Arkansas (AR), Desoto, Marshall, Tate, and Tunica Counties in Mississippi (MS), and Fayette, Shelby and Tipton Counties in Tennessee).

2. For purposes in contracting with the city under this program a minority or women owned business enterprise must be certified as such by a city-approved central certification agency or any other certification agency deemed appropriate by the office of business diversity and compliance, and/or the city. The city shall serve as the primary certifying agency for all the publicly funded city projects.

3. Reciprocal certification may be accepted by the office of business diversity and compliance as follows:

a. Submission of a current Shelby County LOSB certificate and sworn affidavit

testifying to annual revenues no greater than $250,000.00, for all industries except construction, engineering, architecture, or technology enterprises; and

b. Verification by OBDC staff of minority or woman owned status; and

c. Proof of registration with OBDC through B2GNow and city purchasing office.

4. Certifications by the city will include two tiers:

a. Tier 1 (program participants). MWBEs who meet the SBA size standards and criteria to be certified as a minority or woman owned business based on race or gender. These MWBEs may be included in subcontracting participation goals for contracts directly with the city during the contract evaluation process.

b. Tier 2 (directory participants). MWBEs who meet the criteria as a minority or woman owned business based on race or gender regardless of the SBA size standards. These MWBEs may be included in subcontracting participation goals that specify a tier 2 goal under the EBO Program for contracts directly with the city. However, they may also be considered an eligible MWBE for participation goals on other public projects, such as quasi-governmental agencies, and private sector projects during the contract evaluation process and be included in the reporting of performance of such projects.

c. Submission of a current certification certificate and sworn affidavit testifying to all criteria set forth in this chapter will be required to participate as a tier 1 or tier 2 MWBE.

5. False/misleading statements. A business found to have intentionally and willfully provided false or misleading information for the purpose of obtaining MWBE certification or re-certification, or otherwise acting as a front or engaged in fronting activity as defined herein, as determined by an investigation and review by the CCO/director of business diversity and compliance, at the discretion of the director, may be subject to any or all of the following penalties:

a. Denial of certification or immediate decertification;

b. Termination of any active contracts with the city and any obligation to make future payments otherwise due under said contracts;

c. Precluded from bidding on or participating in any contract with the city as a prime or subcontractor for a minimum of three years but not to exceed ten years;

d. Repayment of all payments made by the city during the period while operating fraudulently as a MWBE;

e. Reporting of the findings to the chair of the city council and any other agency or private business known to be doing business with the fraudulent MWBE.

G. *Graduation clause.* Certified AABEs, HBEs, ABEs, NABEs, or WBEs shall be deemed graduated from being certified as a tier 1 for the purposes of the EBO program as AABEs, HBEs, ABEs, NABEs, or WBEs when the MWBE has sales that exceed the average sales for the industry for eight consecutive years, as determined by the federal tax returns for that firm and the NAICS Codes designated by the small business administrations. Small business size standards are as outlined in Title 13 CFR Part 121. If an MWBE is engaged in more than one industry, then its graduation level shall be determined by a weighted average of sales for all industries in which the MWBE is engaged. The office of business diversity and compliance (OBDC) will continue to ensure that African Americans, Hispanics, Asians, Native Americans and women are not discriminated against in the procurement process, whether or not such companies are eligible for certification as MWBEs.

1. Graduation procedures. Any interested party may request an evaluation of an M/WBE firm. That evaluation will be performed at the time of the recertification for the MWBE. Upon recertification, a firm will be evaluated for graduation from the program. Once the office of business diversity and compliance (OBDC) has been notified by the certifying agency that

the firm has exceeded the size standards established by the NAICS, the following steps will be followed:

a. Notification. The OBDC shall issue a letter of notification to the firm detailing its intent to graduate the firm from the program. The letter of notification shall set forth findings, based on the facts and in accordance with law and regulations, for every material issue relating to the basis of the program graduation with specific reasons for each finding.

b. Appeal. The firm will be allowed 45 days from the date of the letter to appeal the decision. To appeal the decision, the firm must submit in writing to the OBDC information which would explain why the proposed basis of graduation is not warranted. Upon receipt of the appeal, the office of contract compliance will notify the firm in writing of the receipt of the appeal.

c. Review. If the firm appeals its graduation from the program within the requisite 45 days, the appeal will be reviewed by a committee composed of the director of finance, purchasing agent, and city attorney or designee. Within 15 days of receipt of the appeal, a written decision will be issued to the firm by the committee via the OBDC.

d. Post graduation. After the effective date of firm's graduation from the program as provided for herein, a firm is no longer eligible to participate in or receive assistance from the MWBE program. However, such firm is obligated to complete previously awarded contracts and/or subcontracts, including any priced bids that may be exercised.

e. Firms that graduate will be eligible for a one-time re-entry upon demonstration that the firm can meet the revenue requirements for three consecutive years following the date of its notification of graduation from OBDC. If the firm subsequently again meets the graduation criteria, no further re-entry will be permitted.

H. *Decertification.* The office of business diversity and compliance (OBDC) may decertify a business that it finds is not or is no longer a bona fide AABE, HBE, ABE, NABE or WBE. Businesses decertified for reasons other than by voluntary request may not apply for recertification for such time as may be specified, up to two years. A business that is decertified may file an appeal within 30 days to the director of OBDC.

1. Any of the following reasons, which are not intended to be all-inclusive, are sufficient grounds for decertification:

   a. The business has changed to the extent that it no longer satisfies the ownership, control, and/or other requirements set forth in section 6-92-1(D);

   b. The business fails to submit within a reasonable time period information requested by the office of business diversity and compliance (OBDC);

   c. The business ceases to be a viable enterprise for profit because of involuntary bankruptcy, dissolution or other cessation of commerce;

   d. Information or evidence that was not available to the office of business diversity and compliance (OBDC) at the time the firm was certified is now available and said information, if known at the time of certification review would have resulted in a denial of certification;

   e. Information was concealed or misrepresented by the firm in connection with the certification application or review conducted by the office of business diversity and compliance (OBDC);

   f. A change in the certification standard or requirements of the city has occurred since the certification of the firm;

I. *Continuing duty.* Certified AABEs, HBEs, ABEs, NABEs and WBEs shall be under a continuing duty to inform the office of business diversity and compliance (OBDC) in writing of any changes in the AABE's, HBE's, ABE's, NABE's or WBE's business if, as a result of such changes, the AABE, HBE, ABE, NABE or WBE no longer satisfies the requirements of section 6-92-1(D).

(Ord. No. 5662, § 1(2-325), 11-7-2017)

Sec. 6-92-2. Equal business opportunity (EBO) subcontracting program.

A. *Program requirements.*

1. All bidders/proposers are required to make efforts to ensure that businesses are not discriminated against on the basis of their race, ethnicity or gender, and to demonstrate compliance with these program requirements at or prior to the time of bid opening, or upon request by OBDC. Bidders/proposers are required to ensure that prospective subcontractors, vendors, suppliers and other potential participants are not denied opportunities to compete for work on a city contract on the basis of their race, ethnicity, or gender, and must afford all firms, including those owned by racial or ethnic minorities and women, opportunities to participate in the performance of the business of the city to the extent of their availability, capacity and willingness to compete.

2. OBDC will review information submitted by bidders/proposers pertaining to efforts to promote opportunities for diverse businesses, including MWBEs, to compete for business as subcontractors and/or suppliers. A bidder is eligible for award of a city contract upon a finding by OBDC that the bidder has engaged in, and provided with its bid submission documentation of, efforts to ensure that its process of soliciting, evaluating and awarding subcontracts, placing orders, and partnering with other companies has been nondiscriminatory. To assist prime contractors in this effort, the office of business diversity and compliance (OBDC) shall set forth in the solicitation documents for the eligible project the availability of businesses, including certified MWBEs within the relevant NAICS Codes for such eligible project.

B. *Incorporating EBO chapter in contracts.*

1. All proposals, bid specifications and contracts for projects which have participating goals, will incorporate by reference this chapter and all city procedures established pursuant thereto, and will contain the following clause:

   "The contractor further agrees that its breach of the EBO provisions in the city's EBO ordinance shall subject it to any or all of the following penalties:

   a. If the contractor is a MWBE, denial of recognition as an approved MWBE, for purposes of contracting with the city, for a period not to exceed two years;

   b. Withholding of ten percent of all future payments on the involved project until it is determined that the contractor is in compliance;

   c. Exclusion from submitting a bid or proposals for a period not to exceed five years;

   d. Termination by the city of the contract;

   e. Any other penalty under section 6-92-6."

2. All contracts for projects with participation goals will require the prime contractor to pay all MWBE subcontractors their pro-rata share of progress payments made by the city to the prime contractor. The pro-rata share will be based on all work completed and materials furnished by the subcontractors in the period for which the progress payment was made. Payments will be made within a reasonable period of time (as specified by the city's EBO procedures), unless the prime contractor has good cause for not making any such payments. The payments may be reduced by the pro-rata share of retainage withheld from the prime contractor up to a maximum of five percent. The contracts will also require the prime contractor, prior to receiving a progress payment from the city, to certify that it has paid all previous progress payments to MWBE contractors, unless the contractor demonstrates good cause for not making any such payments and furnishes written notification of any such cause to the user division, the office of business diversity and compliance and the affected MWBE subcontractor.

3. All contracts for projects with participation goals will require the prime contractor to report all payments to and utilization of MWBE

subcontractors and all other subcontractors for review and approval before final payment is made by the city under the contract.

C. *Subcontractor project plan.*

1. Subcontractor project plan. Each successful bidder shall submit with her/his executed contract a completed and signed subcontractor project plan, in a form approved and provided by the office of business diversity and compliance (OBDC), which lists the name, address, telephone number and contact person of each subcontractor or other business to be used in the contract, the NAICS Code and the type of work or service each business will perform, the dollar value of the work and the scope of work, the ownership of each business by race and gender, if applicable the AABE, HBE, ABE, NABE, or WBE certification number of each business, and any other information requested by the office of business diversity and compliance (OBDC). However, each bidder shall submit with her/his bid the names, address, percent of bid allotted, dollar value of bid allotted to each MWBE. In order for the office of business diversity and compliance (OBDC) to officially consider a firm to be an MWBE, the MWBE firm must be approved by the office of business diversity and compliance (OBDC) and certified by a city approved certification agency prior to the bidder's submission of the bid or proposal.

D. *OBDC review of bidder submissions.* The OBDC shall determine whether a bidder has satisfied all contracting requirements as requested by this chapter, the subcontractor project plan, good faith effort documentation and its review of other relevant facts and circumstances, including complaints received as part of the bid or proposal process and other bidders. In reviewing the documents submitted by a bidder to determine whether the bidder has satisfied the good faith efforts requirement of this section, the office of business diversity and compliance (OBDC) will consider, among other things, the total project dollars subcontracted to or expended for services performed by other businesses, including certified MWBEs, whether such businesses perform commercially useful functions in the work of the contract based upon standard industry trade practices, whether any amounts paid to supplier businesses are for goods customarily and ordinarily used based upon standard industry trade practices, and the availability of certified MWBEs within the relevant NAICS Codes for such eligible project.

1. *Receipt of complaint of discrimination in the bid process.* The office of business diversity and compliance (OBDC) shall accept complaints of alleged discrimination during the bid process regarding any participant in the bid process. Where the complaint of discrimination is specific to the procurement which is under consideration by the city, the office of business diversity and compliance (OBDC) will investigate said complaint, determine its validity, and determine whether the actions complained of impact the bidder's responsiveness on the specific procurement. The accused will have the opportunity to review the complaint and respond in writing to the allegations of discrimination. Allegations of discrimination based on events, incidents or occurrences which are unrelated to the specific procurement may be placed in the bidder's file maintained in the OBDC. Complaints of discrimination will be one component taken under consideration when good faith efforts documentation has been filed.

2. *Determination of violation of EBO process.* Where the office of business diversity and compliance (OBDC) investigates a complaint of discrimination that is related to the specific bid process, as described in section 6-92-2(D)(1). above, the details of that investigation shall be recorded and maintained in the OBDC pursuant to section 6-92-2(D)(1).

E. *Equal business opportunity subcontracting program bid process.* The covenant of nondiscrimination, the subcontractor project plan, good faith efforts documentation and any other information required by OBDC in the solicitation document must be completed in their entirety by each bidder and submitted with the other required bid documents in order for the bid to be considered as a responsive bid. Failure to timely submit these forms, fully completed, will result in the bid being considered as a nonresponsive bid, and therefore, excluded from consideration.

F. *Contract progress.* The office of business diversity and compliance (OBDC) shall require contractors on eligible projects to complete and submit to OBDC documentation regarding their utilization of MWBEs,

along with all other pertinent records required by OBDC. Said documentation shall be in a format that is established by the office of business diversity and compliance (OBDC). These records will be submitted to OBDC monthly. The subcontractor project plan shall not be changed or altered after approval of the plan and award of the contract without the written approval of the OBDC. A written letter to the CCO requesting approval to change the subcontractor project plan must be submitted prior to any change in the plan or termination of an MWBE's contract.

G. *Database.* The city will maintain a database identifying MWBEs that will include the types of services provided by the business enterprise and contact information for the business enterprise. A list from the database will be made available to bidders to assist them in their efforts to meet the requirements of the equal business opportunity subcontracting program. The list prepared from the database will specify which firms the city has determined to be certified minority and women owned business enterprises, in accordance with the city definitions for MWBEs. This list is not exhaustive.

H. *Minority and women business enterprise utilization.* To ensure that the equal business opportunity subcontracting program achieves its purpose, the OBDC will verify the MWBE certification status of each firm claiming such designation. Only certified MWBEs may be designated in reports as MWBEs for purposes of city projects. The percentage of MWBEs utilized by a bidder will be calculated by dividing the MWBE's price for providing direct labor or a bona fide service by the bidder's total dollars as identified in the bid.

I. *Equal business opportunity program compliance, monitoring and audit.* The city reserves the right to conduct an audit of a bidder's work on an eligible project to confirm the bidder's compliance with this equal business opportunity subcontracting program, including without limitation compliance with the covenant of nondiscrimination, the good faith efforts documentation, and the subcontractor project plan.

J. *Prohibition against discrimination and reporting allegations.* Bidders shall prohibit discrimination against any person or business on the basis of race, color, creed, religion, sex, domestic relationship status, parental status, familial status, sexual orientation, disability, age, national origin, political affiliation, gender identity, or racial profiling. Bidders shall develop a written policy statement that shall be approved by the office of business diversity and compliance (OBDC) and distributed to all employees. Bidders shall conduct their contracting and purchasing programs so as to prohibit any discrimination and to resolve all allegations of discrimination. Bidders shall include a clause in its subcontracts that require the subcontractor to adopt and distribute a written nondiscrimination policy that is the same as that of the contractor. The office of business diversity and compliance (OBDC) shall review and investigate all allegations of discrimination which claim that prohibited forms of discrimination have occurred. Allegations of discrimination that are determined to have merit may be subject to penalties decided upon by the OBDC in consultation with the initiating department.

K. *Penalties.* Breach of the equal business opportunity subcontracting program by a bidder shall be subject to any or all of the penalties set forth in section 6-92-6 below.
(Ord. No. 5662, § 1(2-326), 11-7-2017)

Sec. 6-92-3. Equal business opportunity goals.

A. *Overall goals.* In order to provide MWBEs equal opportunity and access to participate in all city procurement of construction-related services, goods and nonprofessional services and professional services, the city hereby incorporates the following six factors as part of its goal setting methodology in establishing annual MWBE goals:

1. The number of minority and women owned businesses in the relevant market area;

2. The availability of minority and female owned businesses in the relevant market area willing to do business with the city;

3. The general availability of minorities and females having the requisite skills to manage and/or form businesses in the relevant market area;

4. The percentage of minority and female businesses compared to the total number of businesses in the relevant market;

5. The availability of minority and female businesses in the relevant market area which an agency can reasonably add to its certification list; and

6. The degree of outreach and training the city is reasonably able to undertake as a means of making opportunity available to minority and female businesses.

The annual MWBE goals shall be:

a. Goals for subcontracting construction:

20%	Minority/Diverse
5%	Women
25%	Total Goal

b. Goals for prime construction:

15%	Minority/Diverse
3%	Women
18%	Total Goal

c. Goals for architecture and engineering services:

22%	Minority/Diverse
7%	Women
29%	Total Goal

d. Goals for subcontracting architecture and engineering services:

15%	Minority/Diverse
5%	Women
20%	Total Goal

e. Goals for goods and supplies:

12%	Minority/Diverse
1%	Women
13%	Total Goal

f. Goals for other nonprofessional services:

23%	Minority/Diverse
2%	Women
25%	Total Goal

g. Goals for other professional services:

13%	Minority/Diverse
2%	Women
15%	Total Goal

The annual goals provided above shall be reviewed annually by the EBO advisory committee. These overall MWBE participation goals are only intended to be benchmarks evaluating the overall performance of the EBO program on an annual basis. These participation goals are not, and shall not, be quotas. For purposes of determining or satisfying annual participation goals, only the participation of minority or woman owned business enterprises located within the Memphis MSA and certified by the city's contracted central certification agency will be considered.

B. *Project participation goals.* On individual contracts or projects, there is no requirement that the above annual EBO goals be met. The EBO advisory committee shall have the responsibility of determining whether a project participation goal is warranted on any given project. On any individual contract or project, these annual goals may not be met, or may be exceeded, depending upon several factors, such as the availability of qualified MWBE business enterprises, the nature of the project, adverse impact on non-MWBE business enterprise, good faith efforts of contractors or vendors, or other relevant factors. For purposes of determining or satisfying project participation goals, only the participation of minority or woman owned business enterprises located within the Memphis MSA and certified directly by the city or an approved contracted central certification agency will be considered.

C. *Construction.*

1. *Construction projects goals setting committee.*

a. There is hereby established a construction projects goals setting committee ("construction committee"). The membership of this committee will consist of the CCO, serving as chairperson; the city engineer or designee; and the city attorney or designee.

b. The construction committee shall establish specific participation goals for each construction project, the cost of which is estimated to be in excess of $100,000.00. Said goals will be individual minority and women business enterprise participation goals, the sum of the individual goals not to exceed 50 percent of the total contract amount for each project.

2. *Outreach for construction.* For any construction project, the CCO, and, in certain instances, in conjunction with the purchasing agent and

the city engineer, will make good faith efforts to promptly notify MWBEs, which are available to provide the needed construction services, of the contracting opportunities. The notification shall advise the MWBEs:

a. Of the specific work the city intends to contract;

b. That their interest in the project is being solicited; and

c. How to obtain request for proposals or invitations to bid or information or specifications on the proposed contract.

D. *Goods, supplies and nonprofessional services.*

1. *Goods, supplies and nonprofessional services goals setting committee.*

a. There is hereby established a construction projects goals setting committee ("goods, supplies and nonprofessional services goal setting committee" or otherwise referred to as "GSNP committee"). The membership of this committee will consist of the CCO, serving as chairperson; the city's purchasing agent or designee; and the city attorney or designee.

b. The GSNP committee shall establish specific participation goals for each goods, supplies and nonprofessional services project, the cost of which is estimated to be in excess of $50,000.00. Said goals will be individual minority and women business enterprise participation goals, the sum of the individual goals not to exceed 50 percent of the total contract amount for each project.

c. If participation goals are established for a project, the contractor shall provide to the CCO documentation of good faith efforts to achieve said goals in the same manner as provided in section 6-92-4(D) if the participation MWBE goal is not met for approval.

2. *Outreach for goods, supplies and nonprofessional services.* For all anticipated procurement of goods and nonprofessional services, the CCO, and, in certain instances, in conjunction with the purchasing agent or the soliciting division, will make good faith efforts to promptly identify and notify MWBEs, which are available to provide the needed goods or services, of contracting opportunities. The notification shall advise the MWBEs:

a. Of the specific work the city intends to contract;

b. That their interest in the project is being solicited; and

c. How to obtain request for proposals or invitations to bid or information or specifications on the proposed contract.

E. *Professional services.*

1. *Professional services projects goals setting committee.*

a. There is hereby established a professional services review committee ("professional services review committee"). The committee shall consist of the CCO serving as chairperson, the director of the user division, the director of finance, and the city attorney, or the respective designee of each.

b. The professional services committee shall review a professional service project costing $50,000.00 or more to determine which, from the following, is or are the best methods for ensuring MWBE participation.

c. If participation goals are established for a project, the contractor shall provide to the CCO documentation of good faith efforts to achieve said goals in the same manner as provided in section 6-92-4(D) if the participation MWBE goal is not met for approval.

2. *Outreach for professional services.* For all anticipated procurement of professional services, the CCO, and, in certain instances, in conjunction with the purchasing agent and director of the soliciting division, will make good faith efforts to identify and notify MWBEs, which are available to provide the needed services, of

the contracting opportunities on an annual basis. Said notification shall advise the MWBEs:

a. Of the specific work the city intends to contract;

b. That their interest in the project is being solicited; and

c. How to obtain request for proposals or invitations to bid or information.

(Ord. No. 5662, § 1(2-327), 11-7-2017)

Sec. 6-92-4. Requirements for bidders, contractors, and joint ventures.

A. *General requirements.*

1. All bidders on any construction project, or any professional services project in which the bidders subcontract with MWBEs or enter into joint ventures with MWBEs, are required to complete and submit, as a part of their bids, the following:

   a. Schedule of participating certified MWBE subcontractors or joint venturers.

   b. Affidavit declaring the bidder's intention to fully comply with the provisions of this chapter and all city procedures established pursuant hereto.

   c. Letters of intent from subcontractors within ten days after notification of contract award.

2. Proposed changes to the designated participation of women or minority business enterprises in a bidder's bid or proposal, on any project, after submission of bids, including during performance of a contract, must be submitted to the user division and the CCO. Bidders and contractors must make a good faith effort to replace a woman or minority business enterprise subcontractor or joint venturer with another certified woman or minority business enterprise, based on said enterprises' availability. All substitutes for women or minority business enterprise subcontractors or joint venturers require prior approval by the CCO, not to be unreasonably withheld; and said approval may be granted for reasons including, but not limited to, the following:

   a. Subcontractor or joint venturer requests that its subcontract or joint venture agreement with the prime contractor be voided;

   b. Subcontractor or joint venturer is unable to perform the work;

   c. Subcontractor or joint venturer has consistently performed unacceptable work.

3. The apparent low and best bidder on any project must submit copies of all executed subcontracts or joint venture agreements with MWBEs listed in the bid documents, within ten business days after the prime contractor receives an executed contract.

4. A bidder's failure to submit any information required by this chapter or the city's EBO program procedures may render the bid nonresponsive and ineligible for consideration.

B. *Regulations on brokering services.*

1. MWBEs are required to perform a commercially useful function on contracts let or made pursuant to this chapter.

2. Only expenditures to or contracts with MWBEs that perform a commercially useful function in the work of a contract may be counted towards the MWBE goal. A MWBE is considered to perform a commercially useful function when it is responsible for execution of a distinct element of the work of a contract and carrying out its responsibilities by actually performing, managing and supervising the work involved. To determine whether a MWBE is performing a commercially useful function, the city will evaluate all relevant factors such as, for example, the amount of work subcontracted and industry practices.

3. Consistent with normal industry practice, a MWBE may enter into subcontracts. If a MWBE subcontracts 50 percent or more of the work, the MWBE shall be presumed not to be performing a commercially useful function unless the MWBE holds a general contracting license and

holds the prime contract with the city. The MWBE may present evidence to rebut this presumption to the city.

C. *Construction projects.*

1. *Goal achievement.*

   a. Contractors are responsible for achieving participation goals, as established by the construction committee, on construction projects and maintaining said goals for the duration of the project.

   b. If the prime contractor or bidder on a construction project is a certified minority or woman business enterprise, then the participation goal for the MWBE classification of said prime contractor or bidder shall be deemed met.

D. *Good faith efforts.* Any bidder, submitting a bid on a construction project, which does not meet participation goals established by this chapter, must provide in its bid, documentation of good faith efforts to achieve said goals. Documentation of good faith efforts will include, but not be limited to, the following:

1. Attendance at pre-bid conference, if held.

2. Copies of written notification sent to all city certified MWBEs that perform the type of work to be subcontracted, in sufficient time to allow said MWBEs to participate effectively, soliciting said MWBEs' interest in working on the project and advising the MWBEs:

   a. Of the specific work the bidder intends to subcontract;

   b. That their interest in the project is being solicited; and

   c. How to obtain information for the review and inspection of the plans, specifications and requirements of the bid.

3. A written statement that economically feasible portions of work were selected to be performed by MWBEs, including, where appropriate, segmenting elements of work or combining elements of work into economically feasible units. The ability of the bidder to perform the work with its own work force will not in itself excuse the bidder from making good faith efforts to meet participation goals.

4. A statement of the efforts made to negotiate with MWBEs, including:

   a. The names, addresses and telephone numbers of MWBEs, who were contacted;

   b. The date negotiations took place;

   c. A description of the information provided to MWBEs regarding the plans, specifications and requirements for portions of the work to be performed.

5. A statement of the efforts made to assist MWBEs contacted who need assistance in obtaining bonding, insurance, financing, or in reviewing the plans, specifications and requirements of the bid.

6. A statement that the bidder submitted all quotations received from MWBEs and, for those quotations not accepted, a statement of the reasons why the MWBE will not be used to work on the project; provided, that submission of the actual quotations received from MWBEs within ten business days from bid opening shall be deemed a compliance of this subsection; provided, further, that during this ten-day period no bids shall be solicited from any MWBEs for the involved project. Receipt of a lower quotation from a non-MWBE will not in itself excuse a bidder's failure to meet participation goals.

7. Outreach efforts documentation. A statement describing the bidder's outreach efforts to identify, contact, contract with, or utilize businesses, including certified MWBEs, as subcontractors or suppliers on the eligible project. The OBDC shall set forth in the solicitation document the documents that a bidder may submit to demonstrate its outreach efforts, and such documentation may include, without limitation, evidence of the following:

   a. The bidder contacted the office of business diversity and compliance (OBDC) to identify available businesses to work on the eligible project, including certified MWBEs, regardless of race, gender or ethnicity. The office of business diversity and compliance (OBDC) will supply a

letter to be included in the bid of the efforts rendered by the bidder as it relates to the OBDC recommendations.

b. The bidder placed notices of opportunities for qualified businesses to perform subcontracting work on the eligible project in newspapers, trade journals, and other relevant publications, including publications specifically targeted to MWBEs, or communicated such notices of opportunities via the Internet or by other available media or means.

c. The bidder submitted invitations to bid for work on the eligible project to qualified businesses, including certified MWBEs, regardless of race, gender or ethnicity.

d. The bidder included in such notices and invitations a full disclosure of the criteria upon which bids, proposals or quotes would be evaluated, and also included contact information for inquiries, submissions, or requests to review any necessary bid documents.

e. The bidder promptly responded to inquiries, provided necessary physical access and time for interested businesses to fully review all necessary bid documents, and otherwise provided information, access and time necessary to allow all interested businesses to prepare bids and quotes, regardless of race, gender or ethnicity.

f. For each business which contacted or was contacted by the bidder regarding subcontracting or other services on the eligible project, but was not contracted with or otherwise utilized on the eligible project, the bidder shall provide a written statement setting forth the dates of such contacts, the nature of such contacts, and the reasons why an agreement was not reached regarding work to be performed on the project. The bidder shall maintain all written documents reflecting such contacts, including bids, quotes and proposals.

8. As to each MWBE contacted, which the bidder considered not to be qualified, a statement of the reasons for the bidder's conclusion based on an investigation of said MWBE's capabilities. The determination of whether a bidder has made good faith effort will be made by the CCO, the director of finance and the purchasing agent, prior to the award of the project.

E. *Post-award contact compliance.*

1. The contractor shall submit monthly reports in such form, manner and time as required by the CCO and, in certain instances, the director of finance and/or purchasing.

2. The contractor shall notify the user division and the contract compliance office of any situations in which regularly scheduled payments are not made to MWBE subcontractors.

3. At the completion of performance on the construction project, the contractor or awardee is required to submit a final schedule of participating certified MWBE subcontractors to the user division and the contract compliance office. This document will be an affidavit denoting final contract amount and payments made to MWBE subcontractors.

F. *Exceptions and waivers.*

1. The CCO will waive a construction project's participation goals for a bidder when reasonable good faith efforts are shown by such bidder.

2. The CCO will waive the MWBE good faith efforts requirements of this chapter under the following circumstances:

   a. Whenever the CCO finds, with the advice of the user division and purchasing agent, that any needed services or goods are available only from a single source and the prospective contractor or awardee is not currently disqualified from doing business with the city based on a failure to comply with the provisions of this chapter or city procedures established pursuant hereto; or

   b. If the user division certifies in writing to the CCO that an emergency exists, and

no MWBEs capable of performing the emergency work are immediately available.

G. *The promotion of joint ventures.*

1. The office of business diversity and compliance (OBDC) shall strongly encourage, where economically feasible, establishment of joint ventures to ensure prime contracting opportunities for all businesses, including certified MWBEs, on eligible projects.

2. Based upon the scope of work and market availability, the OBDC shall determine on a project-by-project basis on all eligible projects valued over $500,000.00 whether good faith efforts to enter into a joint venture shall be required for such project. On such projects in which good faith efforts to enter into a joint venture relationship is required, no bid shall be accepted unless submitted by a joint venture, unless the OBDC has determined that good faith efforts to enter into a joint venture have been demonstrated. The OBDC shall determine whether good faith efforts to enter into a joint venture have been adequately demonstrated based on a review of relevant facts, documents and circumstances.

3. As to each joint venture under this section, a written joint venture agreement must be completed by all parties to the joint venture and executed before a notary public, which clearly delineates the rights and responsibilities of each member or partner, complies with any requirements of the OBDC as set forth in bid documents or otherwise, and provides that the joint venture shall continue for, at a minimum, the duration of the project.

4. The OBDC shall review and approve all contractual agreements regarding the terms and provisions of each joint venture relationship prior to the award of a contract on an eligible project to the joint venture, including agreements pertaining to:

   a. The initial capital investment of each venture partner;

   b. The proportional allocation of profits and losses to each venture partner;

   c. The sharing of the right to control the ownership and management of the joint venture;

   d. Actual participation of the venture partners on the project;

   e. The method of and responsibility for accounting;

   f. The method by which disputes are resolved; and

   g. Any additional or further information required by the OBDC as set forth in bid documents or otherwise. Joint ventures may submit agreements for pre-approval no later than seven calendar days prior to the date set for receipt of bids on an eligible project. Otherwise, agreements must be submitted on or before the date set for receipt of bids on an eligible project. A bid submitted by a joint venture that does not include a satisfactory written joint venture agreement in accordance with the requirements of this section shall be deemed non-responsive and rejected.

5. The joint venture, and each member of the joint venture, shall provide the OBDC access to review all records pertaining to joint venture agreements before and after the award of a contract in order to reasonably assess compliance with this chapter.

6. Penalties for noncompliance. Any responsible bidder who fails to comply with this section shall be subject to any or all of the penalties contained in section 6-92-6.

(Ord. No. 5662, § 1(2-328), 11-7-2017)

Sec. 6-92-5. Mediation of disputes between joint venture team members and/or prime and subcontractors.

A. If, after the award of a contract to a joint venture team, any member of the joint venture team believes that the terms and conditions of the agreement as approved by the OBDC have not been complied with, then such member may seek review and mediation of such agreement before the CCO. The request for review must be made in writing.

B. If, after the award of a contract, a dispute arises between the prime contractor and a subcontractor regarding performance of work or provision of services or supplies on the eligible project, then such prime contractor or subcontractor may seek review and mediation of the issue before the CCO. The request for review must be made in writing. If the dispute involves an alleged violation of the city's prompt payment requirement, as set forth in Section 6-92-7 below, the contractor, subcontractor and the city shall proceed as is set forth in section 6-92-7.

C. Within 20 calendar days of receipt of a request for review, if the dispute has not already been resolved informally among the parties, the CCO shall set a mediation date, and the CCO shall provide written notice of the mediation date to each of the interested parties.

D. The CCO shall have authority to make recommendations in an attempt to resolve the dispute.

E. In the event that the mediation with the CCO does not resolve all disputes, the CCO shall have the option of referring mediation proceedings to a qualified outside mediator, contingent upon the consent of the interested parties.
(Ord. No. 5662, § 1(2-329), 11-7-2017)

Sec. 6-92-6. Penalties for noncompliance.

Notwithstanding the penalties under section 6-92-1(F)(5), a contractor or MWBE who fails to comply with any portion of this chapter, and whose failure to comply continues for a period of 30 calendar days after the contractor or MWBE receives written notice of such noncompliance from the OBDC, shall be subject to any or all of the following penalties:

A. Withholding of 25 percent of all future payments for the eligible project until the office of business diversity and compliance (OBDC) determines that the contractor is in compliance with this chapter.

B. Withholding of all future payments under the eligible project until it is determined that the contractor is in compliance with this chapter.

C. Cancellation of the eligible project.

D. A determination by the OBDC that a MWBE has failed to comply with section 6-92-4(B), regulations on brokering services, shall subject the offending party to revocation of the city certification as a MWBE for a period not to exceed two years.

E. If the contractor is a MWBE, denial or revocation of the city certification as a MWBE for a period not to exceed two years.

F. Refusal of all future contracts or subcontracts with the city for a minimum of two years and a maximum of seven years from the date upon which this penalty is imposed.

G. An appeal by a nonresponsive bidder, contractor, or MWBE under this chapter will be resolved pursuant to city appeals procedures as adopted.

H. The OBDC may require such reports, information and documentation from bidders, contractors, MWBEs, user division and the head of any division or office of the city as are reasonably necessary to determine compliance with the requirements of this chapter.

I. Criminal sanction for fraud. If the OBDC determines that substantial evidence is available indicating that fraud or other unlawful activity has been committed:

1. By a MWBE certification or re-certification applicant;

2. By a certified MWBE or majority prime contractor falsely reporting the utilization of MWBE subcontractors; or

3. By an individual or firm attempting to benefit from or participate in the EBO program, through fronting activity, false representation of a commercially useful function, or other fraudulent or unlawful activity, the matter shall be referred to the appropriate legal authorities and the city legal division for criminal prosecution; and, in the event a conviction or guilty plea is obtained stemming from such criminal prosecution, the business entity and principals shall be barred from participation in city contracts for a minimum of one year and a maximum of five years to be determined by the MWBE advisory committee.

J. Notification of noncompliance, denial or revocation of certification. Upon a determination of noncompliance with the provisions of this chapter or any city procedures established pursuant hereto, the OBDC shall notify the affected party in writing by certified mail, return receipt requested, setting forth the reasons for the determination of noncompliance. Any appeal on the basis of noncompliance shall be conducted in conformity with procedures established by the city as adopted.

(Ord. No. 5662, § 1(2-330), 11-7-2017)

Sec. 6-92-7. Outreach and assistance to subcontractors by the office of business diversity and compliance (OBDC).

To ensure that opportunities to participate on city contracts are available to the widest feasible universe of interested, available and qualified businesses, the office of business diversity and compliance (OBDC) shall develop and implement a written comprehensive outreach program aimed at increasing business participation in the city's contracting and procurement process. This program may include, without limitation, any or all of the following:

A. The office of business diversity and compliance (OBDC) may disseminate at community events, trade shows, and other appropriate business functions, and publish at regular intervals, in print and in electronic media (including publications or electronic media targeted to MWBEs and small businesses) information describing the equal business opportunity program, the small business opportunity program, and the functions of the office of business diversity and compliance (OBDC). In addition, the office of business diversity and compliance (OBDC) may disseminate information in print and/or electronic form, may provide individualized counseling, and/or may conduct seminars regarding the certification process.

B. The office of business diversity and compliance (OBDC) may establish a procedure to engage in continuous recruitment and outreach efforts directed at business assistance organizations to increase the pool of businesses available to do business with the city. The office of business diversity and compliance (OBDC) may identify suppliers through business development organizations and participation at various trade shows, supplier diversity groups and work with various national and local supplier development counsels and organizations.

C. The office of business diversity and compliance (OBDC) may disseminate at community events, trade shows, and other appropriate business functions, and publish at regular intervals, in print and in electronic media information identifying ongoing contracting opportunities with the city, and providing contact information by which businesses may obtain additional information from the office of business diversity and compliance (OBDC). OBDC will provide this information in languages other than English, where appropriate. To the extent feasible, the office of business diversity and compliance (OBDC) may enter into arrangements to share data regarding upcoming city projects, and subcontracting opportunities on the projects, with other businesses and agencies or jurisdictions in the Memphis MSA.

D. The office of business diversity and compliance (OBDC) may assist businesses in submitting bids for eligible projects by disseminating information in print or electronic form, by providing individualized counseling, and/or by conducting seminars regarding the process for submitting a bid on a city project. The office of business diversity and compliance (OBDC) may sponsor "How to Do Business with the City" seminars and invite a wide array of businesses.

E. The office of business diversity and compliance (OBDC) may actively encourage businesses to attend the pre-bid conferences, providing face-to-face and one-on-one meeting opportunities with employees of the city within the divisions and departments that are involved with the contracting and procurement process. OBDC may establish and implement training and awareness programs with the employees of the city's user departments to educate them with regard to increasing utilization of a wide array of businesses.

F. The office of business diversity and compliance (OBDC) may provide information and advice to the purchasing department regarding the

effectiveness of current bidding procedures in facilitating bidding on eligible projects by the widest feasible universe of interested businesses. This information may include suggestions regarding how to arrange solicitations, times for the presentation of bids, quantities, specifications, and delivery schedules in ways that facilitate the participation of all interested businesses. In this regard, the office of business diversity and compliance (OBDC) may provide and encourage feedback from contractors and subcontractors regarding every aspect of the city's procurement process and may establish a system to allow for anonymous comments to be sent through the mail.

G. The office of business diversity and compliance (OBDC) may create workshops for businesses located within the city on how to compete in the private sector, including advice on marketing, soliciting, and preparing a bid. OBDC may establish a program which will incorporate business and entrepreneurial training and assistance mentoring, matchmaking, individual consulting and regular training workshops and seminars. To accomplish the same, OBDC may reach out to and collaborate with MSA higher educational institutions.

H. The office of business diversity and compliance (OBDC) may develop communications and other written materials that are meant to encourage and provide information to contractors to increase their utilization of subcontractors. In addition, OBDC may sponsor networking events that allow businesses to meet each other and that create an opportunity for contractors to discuss with subcontractors upcoming needs.

I. The office of business diversity and compliance (OBDC) may develop a resource directory to be provided to interested businesses, with information regarding assistance in bonding and financing, financial management, accounting, construction management and technical assistance.

J. The office of business diversity and compliance (OBDC) may establish policies to prohibit discrimination in the provision of credit or bonding regarding city contracts.

K. The OBDC may:

1. Develop a technical assistance program to prepare small businesses to compete for specific contracts;
2. Implement and monitor a supportive services program to develop and improve immediate and long term business management, record keeping and financial and accounting capability for businesses;
3. Develop and provide services to help businesses improve their long term development, increase their opportunities to participate in a variety of kinds of work, handle increasingly significant projects, and achieve self-sufficiency;
4. Establish a program to assist new, start-up or emerging businesses; and
5. Assist businesses in developing their capability to utilize emerging technology and conduct business through electronic media.

L. The office of business diversity and compliance (OBDC) may create and maintain records on all subcontractor participation on city projects. The office may perform investigations regarding the actual utilization of subcontractors during the term of the contract as compared with the anticipated use of subcontractors at the time of bid submittal. Subcontractors shall report the amount of work they anticipate performing on the contract and will report the actual work performed and the amount billed. The office of business diversity and compliance (OBDC) will allow subcontractors to confirm the status of their subcontracts and the payments received thereunder.

M. The office of business diversity and compliance (OBDC) may continue to develop its website to provide general information on doing business with the city, on the bid process, on how to get certified, to provide a calendar of events, bid lists, bid status reports, to post solicitation notices, and to provide downloadable forms and other appropriate information. In addition, contractors that have been awarded city contracts may be posted on the website to allow businesses to target their marketing efforts to contractors that have worked or are working with the city.

N. The office of business diversity and compliance (OBDC) shall establish a mechanism by which a business can file an administrative complaint

with the city if it believes a prime contractor or the city is discriminating in the award of contracts or subcontracts.

O. The office of business diversity and compliance (OBDC) is authorized to develop and implement such other and further outreach activities, and programs as the officer may from time to time recommend. From time to time an overall evaluation of the effectiveness of the program with regard to nondiscrimination in contracting shall be conducted. Appropriate changes to the measures and programs based on the results of the evaluations will be implemented.

P. Prompt payment of subcontractors. Contractors awarded city contracts shall ensure the prompt and full payment of any subcontractors working on the contract within five business days of the subcontractor's satisfactory completion of the work assigned to the subcontractor.

1. Contractors shall not withhold payment from subcontractors who have satisfactorily completed work until such time as the contractor receives payment from the city.

2. A contractor who fails to ensure the prompt and full payment of subcontractors shall be subject to the penalties set forth under section 6-92-6.

3. In the event of a good faith dispute regarding the amount of payment due to a subcontractor, contractor and subcontractor shall attend a binding arbitration within seven days of notice by the office of business diversity and compliance (OBDC) in order to resolve any payment disputes. If the arbitrator determines that the subcontractor is entitled to payment under the subcontract, contractor shall be required to pay the subcontractor within 48 hours of the arbitrator's decision. In the alternative, the contractor and subcontractor may utilize the mediation mechanism set forth in section 6-92-5, but only if such alternative is agreed to by the contractor, subcontractor, and the contract compliance officer.

4. The CCO is authorized to make a determination that the interests of the city are best served by issuing joint checks to resolve a dispute between vendors and suppliers, prime and subcontractors or sub consultants, or joint venture partners. In such circumstances, the CCO will issue a written request to the director of finance to issue two checks, in amounts deemed by the CCO to be equitable upon agreement by all parties involved. The division of finance will issue these checks exclusively to the CCO.

Q. Reporting by the office of business diversity and compliance (OBDC).

1. The CCO shall cause to be issued periodically, but no later than 30 months after the effective date of this chapter, reports on the operation of this chapter. The CCO shall be authorized to contract with or retain outside consultants or experts in connection with preparing a report and to assist in assembly, review and analysis of data necessary to prepare such report.

2. The office of business diversity and compliance (OBDC) shall provide to such consultants or experts such records in its custody as may be necessary to evaluate the operation of this chapter and the extent to which the purposes of this chapter are accomplished. A report shall include any findings or recommendations regarding the economic opportunities available to AABEs, HBEs, ABEs, NABEs and WBEs in the Memphis MSA and any recommendations regarding changes to this chapter or the enactment of any additional programs, procedures or strategies to better effectuate the purposes of this chapter.

3. Reports issued under this section shall be delivered to the mayor and to the city council, a copy of any report(s) shall be maintained at the OBDC for review, and copies shall be made available to the general public upon written request.

4. City's divisions, boards, commissions and quasi-governmental agencies as well as joint city/county agencies shall submit to the OBDC their respective diversity plans,

reports, and accomplishments on a quarterly basis. Any agency or business concerns receiving any city or city/county PILOTs, TDZs, TIFFs, grants or benefits shall be required to submit to the OBDC through the relevant governing agency, board or commission their respective diversity plans, reports and accomplishments on a quarterly basis. Boards, commissions or quasi-governmental agencies in need of diversity plans will have the opportunity to work in conjunction with the OBDC to develop an appropriate and suitable diversity plan.

R. Miscellaneous.

1. *City's role in dispute resolution.* All actions taken by the office of business diversity and compliance (OBDC) to ensure the fair and equitable treatment of subcontractors or joint venture partners working on city projects or seeking work on city projects are done pursuant to the city's nondiscrimination policy and shall not be construed as the city taking a position as to the merits of the dispute nor creating any privity of contract between the city and any contractor or subcontractor. Further, no contractor working on a city project or seeking work from the city shall have any claim against the city for any actions taken to ensure the fair and equitable treatment of subcontractors working on city projects or seeking work on city projects.

2. *Severability.* If any provision of this chapter or any application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of this chapter which can be given effect without the invalid provisions or applications, and are to this end declared to be severable.

3. *Sunset clause.* This chapter shall sunset on June 30, 2025, unless prior to such date the city council, after conducting public hearings, finds that the purposes of this chapter have not yet been achieved, in which case it may extend the effective period of this chapter for an additional five years.

4. *Bid preferences.* If upon review of the results of the annual program goals, the city determines that it has not achieved the individual MWBE program goals based on contracts let or awards made during the preceding fiscal year for women or minority business enterprises, then the city may consider amending said chapter to include bid preferences as may be permitted by law.

Sec. 6-94-14. Procedures to ensure that SBEs have an equitable opportunity to compete for contracts and subcontracts.
Sec. 6-94-15. Methods by which the city will require contractors and subcontractors to comply with applicable SBE requirements.
Sec. 6-94-16. Means to ensure that competitors make good faith efforts to meet SBE contract goals.
Sec. 6-94-17. Penalties for noncompliance.
Sec. 6-94-18. Outreach to SBEs.
Sec. 6-94-19. Procedures to require that participating SBEs are identified by name by competitors for contracts.
Sec. 6-94-20. Severability.

Sec. 6-94-1. Short title.

This chapter shall be known as the "City of Memphis Small Business Enterprise Program."
(Ord. No. 5366, § 1(A), 7-20-2010)

Sec. 6-94-2. Definitions.

The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Bid means a quotation, proposal, sealed bid or offer to perform or provide labor, materials, supplies or services to the city for a price on an eligible project, or for an eligible project that generates revenue for the city.

Bidder means any individual, sole proprietorship, partnership, joint venture, or corporation that submits a bid to the city.

Certification or recertification means official recognition and approval by the office of contract compliance that a business meets the qualification criteria of a small business enterprise, as set forth in this chapter. Certification or recertification relates to qualifications regarding ownership, control, and the applicant's economic disadvantage, not the quality of the service or product.

City means the City of Memphis.

Commercially useful function. For the purpose of determining whether a business enterprise is performing a commercially useful function, the office of contract compliance (OCC) shall consider all of the facts in the record, viewed as a whole, including without limitation the following:

1. A small business enterprise (SBE) performs a commercially useful function when it is responsible for execution of the work of the contract and is carrying out its responsibilities by actually performing, managing, and supervising the work involved.

2. To perform a commercially useful function, the SBE must be responsible, with respect to material and supplies used on the contract, for negotiating price, determining quality and quantity, ordering the material, and installing (where applicable) and paying for the material itself.

3. To determine whether a SBE is performing a commercially useful function, the OCC will evaluate the amount of work subcontracted by the SBE, industry practices regarding subcontracting, whether the amount the SBE is to be paid under the contract is commensurate with the work it is actually performing, the SBE credit claimed for its performance of the work, and other relevant factors.

4. A SBE does not perform a commercially useful function if its role is limited to that of an extra participant in a transaction, contract, or project through which funds are passed in order to obtain the appearance of SBE participation. In determining whether an SBE is such an extra participant, the OCC will examine similar transactions, particularly those in which SBEs do not participate.

Contract means and includes any agreement between the city and a person or business enterprise to provide or procure labor, materials, equipment, supplies and services to, for or on behalf of the city. The term "contract" shall include an agreement between the city and a person or business enterprise to perform professional architectural and engineering services, construction related services or fund the performance of such services, non-professional services and/or goods. Except as otherwise specifically defined in this section, the term "contract" does not include:

1. Awards made by the city to a nonprofit entity which the city offers assistance, guidance,

supervision on a project or program and the recipient of the grant award uses the grant moneys to provide services to the community;

2. Sales transactions where the city sells its personal or real property;

3. A loan transaction where the city is acting as a debtor or a creditor;

4. Lease and franchise agreements;

5. Agreements to use city real property; or

6. Gifts of materials, equipment, supplies or services to the city.

Contractor means a prime contractor or vendor on a city contract.

Control or *controlled.* For the purpose of determining whether the owner or owners of a potential SBE (as used in this definition, "SBE owner," which shall denote one or more owners) controls the potential SBE, the OCC shall consider all of the facts in the record, viewed as a whole, including without limitation the following:

1. For a SBE owner to be deemed to control, the potential SBE must be independent. An independent business enterprise is a business whose viability does not depend on its relationship with another firm.

   a. In determining whether a potential SBE is independent, the OCC will scrutinize the SBE's relationships with other firms, in such areas as personnel, facilities, equipment, financial and/or bonding support, and other resources.

   b. The OCC will consider whether present or recent employer/employee relationships between the SBE owner and other firms or persons associated with other firms compromise the independence of the potential SBE.

   c. The OCC will examine the potential SBE's relationships with prime contractors to determine whether a pattern of exclusive or primary dealings with a prime contractor compromises the independence of the potential SBE.

   d. In considering factors related to the independence of a potential SBE, the OCC will consider the consistency of relationships between the potential SBE and other firms with normal industry practice.

2. A potential SBE must not be subject to any formal or informal restrictions which limit the customary discretion of the SBE owner. There can be no restrictions through corporate charter provisions, bylaw provisions, contracts or any other formal or informal devices (e.g., cumulative voting rights, voting powers attached to different classes of stock, employment contracts, requirements for concurrence by persons other than the SBE owner, conditions precedent or subsequent, executory agreements, voting trusts, restrictions on or assignments of voting rights) that prevent the SBE owner, without the cooperation or vote of any other individual, from making any business decision of the business enterprise. This subsection does not preclude a spousal co-signature on documents.

3. The SBE owner must possess the power to direct or cause the direction of the management and policies of the business enterprise and to make day-to-day as well as long-term decisions on matters of management, policy and operations.

   a. A SBE owner must hold the highest officer position in the company (e.g., chief executive officer or president).

   b. In a corporation, the SBE owner must control the board of directors.

   c. In a partnership, the SBE owner must serve as a general partner, with control over all partnership decisions.

4. Individuals who are not the SBE owner may be involved in an SBE as owners, managers, employees, stockholders, officers, and/or directors. Such individuals must not, however, possess or exercise the power to control the business enterprise, or be disproportionately responsible for the operation of the business enterprise.

5. The SBE owner may delegate various areas of the management, policymaking, or daily operations of the business enterprise to other participants in the firm. Such delegations of authority must be revocable, and the SBE owner must retain the power to hire and fire any person to

whom such authority is delegated. The managerial role of the SBE owner in the business enterprise's overall affairs must be such that the OCC can reasonably conclude that the SBE owner actually exercises control over the business enterprise's operations, management, and policy.

6. The SBE owner must have an overall understanding of, and managerial and technical competence and experience directly related to the type of business in which the business enterprise is engaged and the business enterprise's operations. The SBE owner is not required to have experience or expertise in every critical area of the business enterprise's operations, or to have greater experience or expertise in a given field than managers or key employees. The SBE owner must have the ability to intelligently and critically evaluate information presented by other participants in the business enterprise's activities and to use this information to make independent decisions concerning the business enterprise's daily operations, management, and policymaking. Generally, expertise limited to office management, administration, or bookkeeping functions unrelated to the principal business activities of the business enterprise is insufficient to demonstrate control.

7. If state or local law requires the owner of a particular type of firm to have a particular license or other credential, then the SBE owner of that type of firm must possess the required license or credential in order to be deemed in control. If state or local law does not require an owner to have such a license or credential, the OCC will not deny certification solely on the ground that the SBE owner lacks the license or credential. However, the OCC may take into account the absence of the license or credential as one factor in determining whether the SBE owner actually controls the firm.

8. The OCC may consider differences in remuneration between the SBE owner and other participants in the business enterprise in determining whether the SBE owner controls the business enterprise. Such consideration shall be in the context of the duties of the persons involved, normal industry practices, the business enterprise's policy and practice concerning reinvestment of income, and any other explanations for the differences proffered by the business enterprise. The OCC may determine that a business enterprise is controlled by its SBE owner although the SBE owner's remuneration is lower than that of some other participants in the business enterprise. In a case where someone other than the SBE owner formerly controlled the business enterprise, and the SBE owner now controls it, the OCC may consider a difference between the remuneration of the former and current owner of the business enterprise as a factor in determining who controls the business enterprise, particularly when the former owner remains involved with the business enterprise and continues to receive greater compensation than the current SBE owner.

9. In order to be viewed as "controlling" a business enterprise, an SBE owner cannot engage in outside employment or other business interests that conflict with the management of the business enterprise or prevent the SBE owner from devoting sufficient time and attention to the affairs of the business enterprise to control its activities. For example, absentee ownership of a business and part-time work in a full-time firm are not viewed as constituting control. However, an SBE owner could be viewed as "controlling" a part-time business that operates only on evenings and/or weekends, if the SBE owner controls the business enterprise when it is operating.

10. An SBE owner may control a business enterprise even though one or more of the SBE owner's immediate family members participate in the business enterprise as a manager, employee, owner, or in another capacity. Except as otherwise provided in this subsection, the OCC must make a judgment about the control the SBE owner exercises vis-a-vis other persons involved in the business enterprise as it does in other situations, without regard to whether or not the other persons are immediate family members. If the OCC cannot determine that the SBE owner—as distinct from the family as a whole—controls the business enterprise, then the SBE owner has failed to carry her/his

burden of proof concerning control, even though he/she may participate significantly in the business enterprise's activities.

Day or days refers to calendar days.

Economically disadvantaged person means a person whose personal net worth does not exceed $750,000.00, excluding the individual's primary residence and the business enterprise owned by the individual for which the owner is seeking SBE certification from the city.

Eligible project means:

1. Any city contract with a participation goal attached as identified by the contract compliance officer, excluding sole source procurement, emergency procurement, and contracts governed by 49 CFR 23 and 26.
2. For purposes of this chapter, contract or project "value" shall mean either the expenditure of funds by the city, or the generation of revenue for the city by a contractor as a direct result of a city contract.

Joint venture means an association of two or more persons, partnerships, corporations, or any combination of them, established to carry on a single business activity that is limited in scope and duration. The agreement establishing the joint venture, partnership or other multi-entity relationship shall be in writing. Further, participation in a joint venture shall be based on the sharing of real economic interest in the venture and shall include proportionate control over management, interest in capital acquired by the joint venture and interest in earnings.

Memphis MSA means the geographical area consisting of the following counties: Shelby, Fayette, Tipton, Desoto, Marshall, Tate, Tunica, and Crittenden.

Office of contract compliance (OCC) means the office of contract compliance in the City of Memphis.

Owned or *ownership.* In determining whether a potential SBE is owned by one or more economically disadvantaged persons, the OCC will consider all of the facts in the record, viewed as a whole, including, without limitation, the following:

1. The OCC shall deem the owner of a business enterprise to be whoever possesses at least 51 percent of the business enterprise. There may be more than one owner.
    a. In the case of a corporation, such individual must possess at least 51 percent of the each class of voting stock outstanding and 51 percent of the aggregate of all stock outstanding.
    b. In the case of a partnership, such individual must possess at least 51 percent of each class of partnership interest. Such ownership must be reflected in the business enterprise's partnership agreement.
    c. In the case of a limited liability company, such individual must possess at least 51 percent of each class of member interest.
2. The OCC must find that the individual's ownership is real, substantial, and continuing, going beyond pro forma ownership of the business enterprise as reflected in ownership documents. The individual must enjoy the customary incidents of ownership, and share in the risks and profits commensurate with their ownership interests, as demonstrated by the substance, not merely the form, of arrangements.

SBE Status means whether a firm meets the qualification criteria of a small business enterprise, as set forth in this chapter.

Small business enterprise (SBE) means a firm with its headquarters and/or principal office located in the city which is an independent and continuing enterprise for profit, performing a commercially useful function, which is owned and controlled by one or more economically disadvantaged persons, and for which the gross revenues or number of employees averaged over the past three years, inclusive of any affiliates as defined by 13 CFR 121.103, does not exceed the size standards as defined pursuant to 13 CFR 121. In addition, the net worth of each owner of an SBE cannot exceed $750,000.00, excluding each owner's primary residence which may be located in the Memphis MSA and the business enterprise for which the owner is seeking SBE certification from the city.

Supplier means a warehouser or manufacturer of materials, supplies or equipment which contracts directly with a bidder to provide such materials, supplies or equipment on an eligible project which involves a trade or service. For purposes of measuring the total contract dollars awarded or paid to suppliers on eligible projects,

only amounts paid to suppliers of goods customarily and ordinarily used based upon standard industry or trade practices shall be counted.
(Ord. No. 5366, § 1(B), 7-20-2010)

Sec. 6-94-3. Statement of policy.

It is the purpose of this chapter to promote the economic welfare of the people of the city, to promote full and equal business opportunity for all persons doing business with the city, and to promote commerce by assisting SBEs to actively participate in the city's procurement process. SBEs represent 89 percent of the businesses in the United States and 30 percent of the business revenue nationwide, according to the United States Bureau of Census. Also, according to the United States Bureau of Census, in the Memphis metropolitan statistical area, 73 percent of establishments have less than ten employees and 94 percent of establishments have less than 50 employees. The city has set a goal of 25 percent for the small business enterprise program. This is consistent with the federal SBE goal of 25 percent and lower than the availability of SBEs in the marketplace. Although the goal is 25 percent, the city encourages participation greater than 25 percent.
(Ord. No. 5366, § 1(C), 7-20-2010)

Sec. 6-94-4. Duties of the office of contract compliance.

Under this chapter, the office of contract compliance shall have the following authority and duties for the implementation of the small business enterprise program under this chapter:

(1) Administration and enforcement of this chapter and of the disadvantaged business enterprise program.

(2) Establishment of written procedures, informal guidelines, and forms as may be necessary to effectuate this chapter.

(3) Monitoring compliance with the requirements of this chapter.

(4) Certification of businesses as SBEs in accordance with the standards set forth in this chapter.

(5) Development of databases to be maintained as a public record of certified SBEs.

(6) Investigation of alleged violations of this chapter, and the issuance of written statements following any determination of such investigation, stating the reasons therefor and any penalty to be imposed.

(7) Collaborating with the various city departments to ensure maximum outreach to SBEs.

(8) Determination of whether any of the penalties set forth in section 6-94-17 should be applied to a business.

(9) Attendance at pre-bid, pre-proposal, pre-construction and pre-work conferences.

(10) Provision to business entities of all forms, applications, documents and papers necessary to comply with this chapter.

(11) Provision of information to potential bidders, upon request by the potential bidder, which shall include names and contact information of certified SBEs, to reinforce and support outreach efforts by potential bidders.

(12) Notification by certified mail that a bidder who has bid on and who otherwise would have been awarded a contract has the right to appeal a determination of noncompliance with this chapter, said appeal to be determined by the OCC within seven calendar days of receipt of the notice of noncompliance.

(13) Notification by certified mail that an applicant who has been denied certification as an SBE has the right to appeal such determination, said appeal to be determined by the OCC within seven calendar days of receipt of the notice of such determination.

(14) Notification to the purchasing agent of any determination of noncompliance with this chapter, and of any appeal from any such determination.

(15) Monitoring, for data gathering and informational purposes, utilization of SBEs on eligible projects.

(16) Maintenance of documents, forms, records or data regarding this program as provided in this chapter including:

(a) Documents, forms, records or data regarding the dollar amounts subcontracted to or

expended for services performed by subcontractors and suppliers on eligible projects, including the SBE status of each subcontractor and supplier; and

(b) Documents, forms, records or data regarding certified SBEs.

(17) Development and implementation of outreach and assistance programs to promote equal contracting opportunities for all businesses that wish to do business with the city, regardless of SBE status.

(Ord. No. 5366, § 1(D), 7-20-2010)

Sec. 6-94-5. Small business assistance.

The office of contract compliance shall act as a resource for information on small business enterprises. The office of contract compliance shall also undertake to raise the consciousness of SBEs about city business opportunities and provide information on taking advantage of the program benefits. Further, the city shall provide the following assistance to small business enterprises:

(1) Access to training; technical assistance. The office of contract compliance in conjunction with the Renaissance Business Center shall act as a resource for technical assistance. The office shall collect, organize and disseminate information regarding available technical assistance providers in the Memphis market area.

(2) Capital; financing assistance. The office of contract compliance in conjunction with the Renaissance Business Center shall act as a resource for financial assistance. The office shall collect, organize and disseminate information regarding available capital or financing sources in the Memphis market area.

(3) Bonding assistance. The office of contract compliance in conjunction with the Renaissance Business Center shall provide SBEs with information regarding bonding including, providing a list of qualified service providers that supply bonding services.

(4) Access to markets. The office of contract compliance will work to facilitate access to markets for SBEs. The office of contract compliance will work with the office of planning and development (OPD) and other development entities to connect eligible businesses to city, state and federal programs that promote investment and encourage employment, including but not limited to the various hub zone, enterprise zone, and tax allocation districts. The office of contract compliance may monitor in conjunction with OPD SBE involvement in procurement opportunities generated by OPD.

(Ord. No. 5366, § 1(E), 7-20-2010)

Sec. 6-94-6. City-maintained records and reports.

The effectiveness of the small business enterprise program will be measured by a review of data indicating prime, subcontractor and supplier awards to SBEs. Program effectiveness measurements will also include efforts by city staff to provide prime contracting opportunities for SBEs. In order to ensure the effective tracking of these efforts, the following shall be done:

(1) Each contractor shall continuously maintain, compile, and provide to the office of contract compliance, monthly, information relating to its use of SBEs on the city project. This information shall include without limitation the following information for each of the SBE subcontractors and suppliers utilized by the contractor on the city project: a description of the categories of contracts awarded to SBEs; the dollar value of contracts awarded to SBEs; and contact information for the SBEs. Additionally, the contractor shall provide information regarding its progress toward attaining the SBE goal on the city project.

(2) Within 30 days after the end of a contract in which there was an SBE goal, each contractor shall provide the OCC with a report that summarizes the outcome of the project information, including without limitation: the identity of and contract information for each SBE to whom the contractor has awarded a subcontract or supplier agreement; the type of work performed or supplies provided by each subcontractor/supplier; the dollar value of each of the subcontracts/supplier agreements; and the total percentage of the value of the city contract subcontracted to SBE subcontractors and/or suppliers.

(3) The purchasing department shall provide the OCC with information regarding every city contract on which the prime contractor is an

SBE or on which an SBE is part of a joint venture or mentor protege team serving as the prime contractor. The information shall include the name and contact information of the SBE, the type of contract, and the dollar value of the contract.

(4) The OCC shall prepare a consolidated report based on a compilation and analysis of the reports submitted by each contractor and information from the purchasing department regarding the city's use of SBEs as prime contractors. The consolidated report will identify and assess the awards to SBEs of city contracts, prime contractors' use of SBE subcontractors and suppliers, prime contractors' progress in achieving SBE subcontract goals, and other SBE development and contracting efforts. Specifically, the OCC will maintain records and prepare reports showing:

(a) Awards to SBE subcontractors and suppliers, including names of contractors and subcontractors, nature of the work/services performed, and the percentage of SBE participation per contract. The city will obtain regular reports from prime contractors on their progress in meeting contractual SBE commitments;

(b) Specific efforts by contractors to identify and award contracts to SBEs;

(c) Copies of direct mailings by contractors to SBEs;

(d) City contracts awarded to SBEs or prime contractors in which an SBE was a joint venture partner or part of a mentor protege team. This information shall include without limitation the name and contact information of the SBEs, the type of contract, and the dollar value of the contract;

(e) Pre-bid conference information as it relates to the small business enterprise program;

(f) Requests for assistance from SBEs interested in bidding/proposing on city contracts and subcontracts;

(g) Workshops, seminars and training programs conducted for SBEs; and

(h) Efforts to assist SBEs in acquiring bonding and insurance.

(5) The OCC will submit annual SBE participation reports to the council. These reports shall include a summary of the information described in this section, plus an analysis of the total dollar value of city contracts/subcontracts awarded to SBEs during the preceding year, categorized by prime contracting dollars, subcontracting dollars, and supplier dollars. The percentage of the total dollar value of these contracts that was awarded to SBEs during the preceding year shall also be provided.

(Ord. No. 5366, § 1(F), 7-20-2010)

Sec. 6-94-7. Small business enterprise program goals and counting procedures.

A. The contract compliance officer in conjunction with the purchasing agent will set a 25 percent SBE subcontracting goal for each specific prime contract with subcontracting and/or supplier possibilities, but shall have the authority to reduce or eliminate such SBE goal on a contract-by-contract basis based upon the type of contract, the type of subcontracting work that will be required, and the availability of SBEs therefor. Every bidder on an eligible project shall be required to submit, with its bid submission, the names, address, certification numbers, if applicable, of certified SBEs or firms that have applied for SBE certification at the time of the bid submission, and any other information required by the OCC as set forth in the project's solicitation documents.

B. SBE participation is counted as follows:

1. Once a firm is certified as a SBE, the total dollar value of the subcontractor of supplier contract awarded to the SBE by the contractor is counted toward the applicable SBE goal. However, if a firm who is listed on the contract as having its SBE certification pending has its certification denied, or if an SBE fails to be recertified during the term of the contract, or if an SBE is decertified during the term of the contract, the dollar value of the contract awarded to that SBE cannot be counted toward the applicable SBE goal.

2. The city will count toward its SBE goal a portion of the total dollar value of a contract

with a joint venture equal to the percentage of the ownership and contractual commitment to the SBE partner in the joint venture.

3. The city will count toward the SBE goal a portion of the total dollar value of a contract with a mentor protege team equal to the percentage of the project self-performed by the SBE member of the team.

4. The city will count toward its SBE goal only expenditures to SBEs that perform a commercially useful function in the work of the contract.

5. The city will count toward its SBE goals the following expenditures to SBE firms that are not suppliers:

   a. The fees or commissions charged for providing a bona fide service, such as professional, technical, consultant or managerial services and assistance in the procurement of essential personnel, facilities, equipment, materials or supplies required for performance of the contract, provided that the fee or commission is determined by the city to be reasonable and not excessive as compared with fees customarily allowed for similar services.

   b. The fees charged for delivery of materials and supplies required on a job site (but not the cost of the materials and supplies themselves) when the hauler, trucker, or delivery service is not also the manufacturer of, or a regular dealer in, the materials and supplies, provided that the fee is determined by the city to be reasonable and not excessive as compared with fees customarily allowed for similar services. The fees or commissions charged for providing any bonds or insurance specifically required for the performance of the contract, provided that the fee or commission is determined by the city to be reasonable and not excessive as compared with fees customarily allowed for similar services.

C. Sheltered market.

1. The OCC in consultation with the purchasing department will designate certain procurements as sheltered market procurement opportunities, which will only be open for competition by and between SBEs.

   a. Contracts of $2,500.00 to $100,000.00. Under the sheltered market program, every acquisition of goods or services that has an anticipated dollar value between $2,500.00 and $100,000.00 is automatically reserved exclusively for small businesses, except for those contracts pertaining to street projects, as described in the CIP budget. The contract compliance officer and the purchasing agent may agree to exclude any procurement in this category from the sheltered market at their joint discretion. The sheltered market procurement requirement will only apply when there is a reasonable expectation that offers will be obtained from three or more SBEs that are competitive in terms of market prices, quality, and delivery. If only one acceptable offer is received from a responsible SBE, the sheltered market procurement will be withdrawn and the product or service, if still needed, will be solicited on an unrestricted basis.

   b. Contracts over $100,000.00. In addition, the contract compliance officer and purchasing agent may agree to designate any contract over $100,000.00 for SBEs, except for those contracts pertaining to street projects, pertaining to public works construction, or other projects for which a sheltered market would conflict with state law. The sheltered market designation shall be made only when there is a reasonable expectation that bids will be obtained from at least three responsible SBEs and that the award will be made at a fair market price.

2. Partial sheltered market procurements. A sheltered market procurement of a single acquisition or a class of acquisitions may be total or partial. The contract compliance officer and the purchasing agent may designate a portion of an acquisition as sheltered market procurement, except for construction.

3. To obtain sheltered market procurement, an SBE must perform at least a given percentage of the contract. This provision limits the amount of subcontracting an SBE may enter into with other firms when performing these types of contracts. The provisions are as follows:

    a. Construction. For general and heavy construction contractors, at least 15 percent of the cost of the contract, not including the cost of materials, must be performed by the SBE prime contractor with its own employees. For special trade construction, such as plumbing, electrical, or tile work, this requirement is 25 percent.

    b. Manufacturing. At least 50 percent of the cost of manufacturing, not including the cost of materials, must be performed by the SBE prime contractor.

    c. Services. At least 50 percent of the contract cost for personnel must be performed by the SBE prime contractor's own employees.

(Ord. No. 5366, § 1(G), 7-20-2010)

Sec. 6-94-8. Certification as a small business enterprise.

A. A business seeking certification as an SBE must submit a central certification agency as designated by the city on the prescribed form, affirming under penalty of perjury that the business qualifies as an SBE. In order to qualify as an SBE, the potential SBE owner must meet the following requirements:

1. Demonstrate that the firm's gross revenues or number of employees averaged over the past three years, inclusive of any affiliates as defined by 13 CFR 121.103, does not exceed the MWBE standards as defined pursuant to 13 CFR 121;

2. Submit a certification of the personal net worth of each owner of the firm;

3. Demonstrate that the net worth of each owner does not exceed $750,000.00, exclusive of principal residence and the value of the owner's interest in the certified SBE;

4. Demonstrate that the SBE owners listed on the certification application own and control the business;

5. Demonstrate that it is or will be performing a commercially useful function; and

6. Demonstrate that it is located in the city;

7. Demonstrate that the principal owner maintains a residence in the Memphis MSA.

B. The office of contract compliance or a central certification agency may also, if it deems it necessary, perform an on-site review of the potential SBE owner's business prior to approving an application for certification.

C. A firm that is denied certification may not reapply for certification for a period of 12 months from the date of the denial.

D. Firms certified by other government agencies will be required to be certified under this chapter regardless of previous certification.

E. When a firm which has previously been designated an SBE exceeds either the size standard or the owner's net worth provision, it will be deemed to have graduated from the SBE program with no right of reentry.

1. *Graduation procedures.* Any interested party may request an evaluation of an MWBE firm. That evaluation will be performed at the time of the recertification for the MWBE. Upon recertification, a firm will be evaluated for graduation from the program. Once the OCC has been notified by the certifying agency that the firm has exceeded the size standards established by the NAICS, the following steps will be followed:

    a. Notification. The OCC shall issue a letter of notification to the firm detailing its intent to graduate the firm from the program. The letter of notification shall set forth findings, based on the facts and in accordance with law and regulations, for every material issue relating to the basis of the program graduation with specific reasons for each finding.

    b. Appeal. The firm will be allowed 45 days from the date of the letter to appeal the decision. To appeal the decision, the firm must submit in writing to the OCC information which would explain why the proposed basis of graduation is not war-

ranted. Upon receipt of the appeal, the OCC will notify the firm in writing of the receipt of the appeal.

c. Review. If the firm appeals its graduation from the program within the requisite 45 days, the appeal will be reviewed by a committee composed of the director of finance, purchasing agent, and city engineer. Within 15 days of receipt of the appeal, a written decision will be issued to the firm by the committee via the OCC.

2. *Post graduation.* After the effective date of firm's graduation from the program as provided for herein, a firm is no longer eligible to participate in or receive assistance from the MWBE program. However, such firm is obligated to complete previously awarded contracts and/or subcontracts, including any priced bids that may be exercised. Upon graduation there will be no right of reentry.

(Ord. No. 5366, § 1(H), 7-20-2010)

Sec. 6-94-9. Recertification.

Once certified as an SBE by the office of contract compliance, the certification is valid for a period of two years from the date the city certified the applicant as an SBE. Prior to the expiration of the two-year period, a business that desires to be recertified by the city shall:

(1) File an application to renew with the central certification agency as designated by the city; and

(2) Meet the requirements specified in this chapter for certification as an SBE.

(Ord. No. 5366, § 1(I), 7-20-2010)

Sec. 6-94-10. Decertification of small business enterprise.

A. The city may decertify the SBE for any of the following reasons:

1. Changes in the firm's circumstances since the certification of the firm that render the firm unable to meet the eligibility standards;

2. Information or evidence that was not available to the city at the time the firm was certified that, if available, would have resulted in a denial of certification;

3. Information that was concealed or misrepresented by the firm in connection with the certification application or review conducted by the city;

4. A change in the certification standard or requirements of the city since the certification of the firm;

B. Prior to taking formal action, city staff shall provide the business with written notice of the proposed revocation. During the pendency of the proceeding, the SBE firm's certification shall remain valid. The office of contract compliance staff shall then prepare a recommendation regarding the proposed revocation for review and approval by the chief operating officer. If approved by the chief operating officer, the OCC shall issue an initial notice of decertification to the SBE owner by certified mail. The SBE may appeal the initial notice of decertification within seven days of the receipt of the initial notice of decertification. If the SBE owner fails to appeal the initial notice of decertification within the time period set forth in this section, the decertification shall be final and take effect immediately.

C. If the OCC decertifies an SBE proposed to work, or currently working, on a contract, the decertified SBE's participation on the contract may no longer be counted toward fulfillment of the city's SBE goals. If the contractor no longer meets the city's SBE goals after the decertification of the former SBE, the contractor shall be required, within 30 days after notification by the office of contract compliance, to demonstrate good faith efforts to substitute the decertified SBE. Failure to demonstrate good faith efforts to substitute a decertified SBE will result in the bidder being declared nonresponsive, if done prior to the award of the contract, or the contractor being held in default of the contact, if done after the award of the contract.

(Ord. No. 5366, § 1(J), 7-20-2010)

Sec. 6-94-11. Certification reviews.

In addition to reviewing firms for cause, the office of contract compliance will conduct random certification reviews of certified SBEs by auditing them to verify that the information submitted by a business is accurate, and that the business remains eligible after certification has been granted. Certification is subject to revocation if it is determined that a business no longer qualifies as an SBE under the terms of this chapter. Certification reviews may be conducted for any business for which the office of

contract compliance determines a certification review is warranted. Businesses subject to certification reviews must provide the office of contract compliance with any information requested to verify the certification eligibility of the business.
(Ord. No. 5366, § 1(K), 7-20-2010)

Sec. 6-94-12. Appeals.

A. *Determination of noncompliance.* A responsible bidder that is determined to be nonresponsive to the requirements of this chapter, and that otherwise would have been awarded a contract, as determined in consultation with the purchasing agent, shall receive a written determination by the contract compliance officer, via certified mail, setting forth the reasons for the determination of nonresponsiveness.

B. *Denial of certification as an SBE.* Upon a denial of certification as an SBE, the office of contract compliance officer shall notify the affected party in writing, via certified mail, setting forth the reasons for the denial of certification.

C. *Time for filing notice of appeal.* Any business that has been denied certification as an SBE, or against whom a final determination of nonresponsiveness to the requirements of this chapter has been made by the office of contract compliance officer, may appeal the final determination of nonresponsiveness or denial of SBE certification by filing a notice of appeal with the contract compliance officer in writing within seven calendar days of receipt of the notice of the final determination of noncompliance or denial of certification.

D. *Posting of appeal security.* Any bidder that files an appeal to a final determination of nonresponsiveness by the office of contract compliance must, at the time of filing, post security in the amount of one percent of the financial offer of the appellant. If the contract compliance hearing officer upholds the determination of the office of contract compliance, he or she shall assess against the appellant reasonable attorneys' fees and other administrative costs incurred by the city in reviewing and responding to the appeal. If the city is represented by its law department, such fees and costs will be calculated at the hourly rate of each attorney participating in the review and response to the appeal set forth in each attorney's most recent city paycheck times the number of hours worked by such participating attorneys on the appeal. If the city is represented by outside counsel, such fees and costs will be calculated at the billing rates of the firm's attorneys, plus all out-of-pocket costs of the firm concerning the appeal. Within 15 days of ruling against the appellant, the contract compliance hearing officer, in consultation with the city's law department and outside counsel, if any, will calculate the city's cost in reviewing and responding to the appeal and will apply the appellant's bond or certified check to the costs. Any remaining balance of the bond or certified check will be returned to the appellant.

E. *Notice of hearing date and hearing.* Within three calendar days of receipt of a notice of appeal from an aggrieved party, excluding official holidays, the contract compliance officer shall forward the notice to the contract compliance hearing officer.

F. *Exhaustion of administrative remedies.* A protestor shall be required to exhaust its administrative remedies before filing suit in any state or federal court based on a determination of nonresponsiveness or denial of certification by the OCC rendered pursuant to this chapter.

G. *Duties of contract compliance hearing officer.* The duties of the contract compliance hearing officer shall be as follows:

1. The contract compliance hearing officer shall have exclusive jurisdiction to determine all appeals arising under this chapter.
2. The contract compliance hearing officer shall set a hearing date not more than seven calendar days from the date of receipt of the notice of appeal from the contract compliance officer, excluding official holidays. The hearing officer shall cause notice of the hearing to be served upon all parties by certified U.S. mail. Such notice shall set forth with particularity the decision being appealed by the aggrieved business and shall include the hearing date, time and place.
3. At the hearing, all parties shall be provided a fair and impartial hearing and shall be allowed to produce any and all evidence in either party's possession concerning the final determination of nonresponsiveness with the requirements of this chapter, or the denial of certification as an SBE.

H. *Decision.* Within seven calendar days after conclusion of the hearing, excluding official holidays, the contract compliance hearing officer shall make a written decision on the appeal, which decision shall affirm, alter

or reverse the final determination of nonresponsiveness or the denial of certification by the office of contract compliance. The hearing officer shall decide whether the final determination of nonresponsiveness or the denial of certification being appealed was in accordance with the law in existence at the time that the bidder was found to be nonresponsive, at the time that certification was denied, or at the time the penalties were imposed.

I. *Notice of decision.* Within seven calendar days after conclusion of the hearing, excluding official holidays, the contract compliance hearing officer shall issue written notice of the decision on the appeal to all parties. The notice of the decision shall be sent to all parties by certified U.S. mail and shall set forth the reasons for the decision.

J. *Appeal.* The decision of the hearing officer shall be binding on all parties, subject to the right of appeal to the chief administrative officer or its designee.
(Ord. No. 5366, § 1(L), 7-20-2010)

Sec. 6-94-13. Small business enterprise directory.

The city will create an SBE directory that lists SBEs categorized by types of firms to facilitate identifying businesses with capabilities relevant to a particular specification. Each business listing will contain the business name, contact person, address, phone number, legal structure of the business, and details concerning the company's business specialties. North American Industrial Classification System (NAICS) codes will be identified for each company. The office of contract compliance will continuously update and maintain the directory on the computer and on hard copy. In compiling this directory, the office of contract compliance will identify and certify as many SBEs as possible that perform the types of work or provide the types of supplies needed by the city. The city will maintain and have available an updated SBE directory and source lists for each bid/proposal solicitation to facilitate identifying SBEs working in areas relevant to general contracting requirements and to particular solicitations.
(Ord. No. 5366, § 1(M), 7-20-2010)

Sec. 6-94-14. Procedures to ensure that SBEs have an equitable opportunity to compete for contracts and subcontracts.

A. *Procedures to ensure opportunities.* The city shall utilize the following measures to ensure maximum practicable opportunities for SBE participation on city contracts:

1. Assist SBE in obtaining insurance and surety bonds where necessary in the performance of contracts, including but not limited to:
   a. Packaging contracts so that dollar amounts do not require bonding;
   b. Encouraging prime contractors to waive bonding or assist SBE subcontractors in obtaining bonding;
   c. Encouraging staged bonding where feasible, when bonding is carried over from one project stage to the next; and
   d. Relaxing bonding requirements for projects less than $100,000.00;
2. Encourage the formation of joint ventures between SBEs. The OCC will also assist prime contractors in identifying interested SBEs for subcontracts;
3. Provide information on the city's organization and contractual needs and offer instructions on bid specifications, procurement policy, procedures, and general bidding requirements;
4. Provide specifications and requests for proposals to the SBE community in a timely manner to allow SBEs adequate time to develop responsible and responsive bids. In instances where the cost of obtaining specifications or requests for proposal is prohibitive, copies of the material will be made available at no charge to SBE development agencies;
5. Establish prorated payment and delivery schedules where feasible, to minimize cash flow problems faced by small firms. The city will provide guidance to SBE contractors regarding maintenance of positive flow in order that current obligations can be met;
6. Hold pre-bid conferences to explain SBE requirements as well as forms that must be submitted with a bid;

7. Permit bidders to review and evaluate successful bid documents of similar procurements and use debriefing sessions to explain why certain bids were unsuccessful;

8. Provide projected procurement information and contracting schedules through the office of contract compliance and other outreach efforts;

9. Conduct internal information workshops to inform and acquaint city staff with the goals and objectives of the city's small business enterprise program, and to sensitize them to the challenges faced by SBEs;

10. Maintain records showing specific efforts to identify and award contracts to SBEs and establish a monitoring system to ensure that all contractors, subcontractors, consultants, and vendors comply with contracts specifications related to SBE utilization; and

11. Inform SBEs of bid notices and specifications related to their capability by placing bid notices in major local newspapers and other periodicals. Bid notices will also be sent to local trade associations, technical assistance agencies, economic development groups, and SBEs with capabilities that may be relevant to the bid notice as identified by the city's SBE databank. Bid specifications will be made available to SBE contractor associations and technical assistance agencies. Lists of potential firms bidding as primes will also be made available to SBEs.

B. *Direct assistance to SBEs.* In addition to the procedures set forth in subsection A of this section, the office of contract compliance shall also undertake special measures to assist SBEs in overcoming barriers to participation on city contracts. This assistance will be offered directly by the city, as well as by city referral to other assistance agencies with established, comprehensive, and continuous SBE development programs. Businesses requiring management and technical assistance will be identified through a questionnaire, through personal experience with these businesses, and through requests for assistance. The office of contract compliance will offer the following direct assistance to SBEs:

1. Provide counseling and training sessions for SBEs. City staff will be available to interested business representatives to explain (in detail) instructions for preparation of bid specifications, the city's procurement policies, procedures and general bid requirements. The SBE program officer will coordinate and follow up all requests for assistance to ensure that all necessary information was provided.

2. Provide coordination and referral to existing business development organizations.

3. Sponsor intensive workshops and training sessions on identified SBE problem areas (i.e., pricing and estimating, joint venture formation, accounting principles, marketing, etc.).

(Ord. No. 5366, § 1(N), 7-20-2010)

Sec. 6-94-15. Methods by which the city will require contractors and subcontractors to comply with applicable SBE requirements.

The city's staff is available to assist contractors and subcontractors in implementing this program. As a standard procedure, such assistance includes:

1. Clearly setting forth the city's SBE goals in all city solicitations;

2. Attending pre-proposal/bid conferences to explain the city's SBE program;

3. Identifying certified SBEs in the city's database and providing a list of available, certified SBEs upon request;

4. Providing plan holder lists and pre-bid sign-in sheets made available to interested SBEs upon request;

5. Remaining available to assist bidders in developing their SBE programs;

6. Monitoring SBE participation levels on projects throughout the duration of a contract. Contractors violating contract provisions regarding SBE participation are subject to the sanctions set forth in section 6-94-17.

(Ord. No. 5366, § 1(O), 7-20-2010)

Sec. 6-94-16. Means to ensure that competitors make good faith efforts to meet SBE contract goals.

A. For all contracts for which SBE contract goals have been established, the bidder shall be required to submit SBE participation information to the city. The award of the contract will be conditioned upon satisfac-

tion of the requirements established by the city. The bidder shall submit, with its bid submission, the following information:

1. The name, address and certification number, if applicable, of the SBE firms that will participate in the contract;

2. The description of the work each named SBE will perform; and

3. The dollar amount of participation by each named SBE firm.

B. If the SBE participation submitted by the bidder does not meet the SBE contract goals, the bidder must submit with its bid submission evidence demonstrating that good faith efforts were made to meet the goals. The city will review documents submitted at the time of bid, and make its determination of good faith efforts based on those submitted documents. Additional submissions will not be permitted. To determine sufficient good faith efforts to meet the SBE contract goal, a bidder/proposer shall document the steps it has taken to obtain SBE participation, including but not limited to the following:

1. Attendance at a pre-bid meeting, if any, scheduled by the city to inform SBEs of subcontracting opportunities under a given solicitation;

2. Advertisement in general circulation media, trade association publications, and other media for at least 15 days before bids or proposals are due;

3. Written notification to SBEs that their interest in the contract is solicited;

4. Efforts made to select portions of the work proposed to be performed by SBEs in order to increase the likelihood of achieving the stated goal;

5. Good faith efforts to negotiate with SBEs for specific subcontracts, including at a minimum:

   a. The names, addresses, and telephone numbers of SBEs that were contacted;

   b. A description of the information provided to SBEs regarding the plans and specifications for portions of the work to be performed;

   c. A statement of why additional agreements with SBE were not reached;

   d. Concerning each SBE, the SBE contacted but rejected as unqualified, and the reasons for the bidder's conclusion; and

   e. Efforts made to assist the SBEs contacted that needed assistance in obtaining bonding or insurance required by the competitor or the city.

6. To determine whether a competitor that has failed to meet SBE goals may be awarded the contract, the city will determine whether the efforts the bidder made to obtain SBE participation were good faith efforts. Efforts that are merely pro forma are not good faith efforts to meet the goals. In order to award a contract to a bidder that has failed to meet SBE contract goals, the office of contract compliance will determine whether the bidder actively and aggressively made efforts to meet the city's SBE goals. A bidder making a good faith effort would consider a number of factors in negotiating with subcontractors, including SBE subcontractors, and would take a firm's price and capabilities as well as contract goals into consideration. However, the fact that there may be some additional costs involved in finding and using SBEs is not in itself sufficient reason for a bidder's failure to meet the contract SBE goal, as long as such costs are reasonable. Also, the ability or desire of a prime contractor to perform the work of a contract with its own organization does not relieve the bidder of the responsibility to make good faith efforts. Prime contractors are not, however, required to accept higher quotes from SBEs if the price difference is excessive or unreasonable. In determining whether a bidder has made good faith efforts, the office of contract compliance will take into account the performance of other bidders in meeting the contract. For example, when the apparent successful bidder fails to meet the contract goal, but others meet it, the office of contract compliance may reasonably raise the question of whether, with additional reasonable efforts, the apparent successful bidder could have met the goal. If the apparent successful bidder fails to meet the goal but meets or exceeds the average SBE participation obtained by other bidders, the city may view this, in conjunction with other factors, as evidence of the apparent successful

bidder having made good faith efforts. Competitors that fail to meet SBE goals and fail to demonstrate good faith efforts shall be deemed nonresponsive to the city's SBE requirements and shall not be eligible to be awarded the contract.

7. To ensure that all obligations under contracts awarded to SBEs are met, the city shall review the contractor's SBE involvement efforts during the performance of the contract. The contractor shall bring to the attention of the city any situation in which regularly scheduled progress payments are not made to SBE subcontractors.

(Ord. No. 5366, § 1(P), 7-20-2010)

Sec. 6-94-17. Penalties for noncompliance.

A contractor who fails to comply with any portion of this chapter, and whose failure to comply continues for a period of 30 calendar days after the contractor receives written notice of such noncompliance from the director of the office contract compliance, shall be subject to any or all of the following penalties:

1. Withholding of ten percent of all future payments for the eligible project until the office of contract compliance determines that the contractor is in compliance with this chapter.

2. Withholding of all future payments under the eligible project until it is determined that the contractor is in compliance with this chapter.

3. Cancellation of the eligible project.

4. Refusal of all future contracts or subcontracts with the city for a minimum of one year and a maximum of five years from the date upon which this penalty is imposed.

(Ord. No. 5366, § 1(Q), 7-20-2010)

Sec. 6-94-18. Outreach to SBEs.

The city considers information dissemination and communication with SBEs as an integral part of the city's SBE program. As a part of its outreach program, the office of contract compliance will solicit input from representatives of SBEs, trade associations and community organizations. This input will serve several important functions, including:

1. Providing information to identify additional SBE firms;

2. Assisting in refining SBE program goals and procedures; and

3. Providing an independent assessment of the effectiveness of the city's SBE program.

(Ord. No. 5366, § 1(R), 7-20-2010)

Sec. 6-94-19. Procedures to require that participating SBEs are identified by name by competitors for contracts.

A. The city shall indicate, in solicitations for contracts that provide opportunities for SBE participation, goals for the use of SBE firms. Solicitations shall require all bidders to submit a written assurance of meeting the goals in their bids or proposals. Bids must also include a proposed schedule of SBE participation that lists the names of SBE subcontractors, a description of the work each is to perform, and the dollar value of each proposed SBE subcontract. If the SBE participation does not meet the SBE contract goals, the bidders must submit sufficient information and evidence demonstrating that the bidder made good faith efforts to meet the goals.

B. Bidders are required to submit this information with their bids and bidders are so informed at the time of solicitation. Agreements between a bidder and a SBE in which the SBE promises not to provide subcontracting quotations to other bidders shall be prohibited.

(Ord. No. 5366, § 1(S), 7-20-2010)

Sec. 6-94-20. Severability.

If any provision of this chapter or any application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of this chapter which can be given effect without the invalid provisions or applications, and are to this end declared to be severable.

(Ord. No. 5366, § 1(T), 7-20-2010)

CHAPTER 6-96. LOCAL SMALL BUSINESS DEVELOPMENT AND PROCUREMENT PROGRAM

Sections:

Sec. 6-96-1. Local preference for award of city contracts.

Sec. 6-96-1. Local preference for award of city contracts.

A. *Definitions.* As used in this chapter, the following terms shall have the following meanings:

Contract means any contract, purchase order, or agreement (other than a lease or collective bargaining agreement or a contract awarded by MATA which is funded by federal moneys supplied under any federal grant program or plan), awarded by the purchasing agent, division head or his/her designee, or city agency, and whose cost is to be paid from funds belonging to or administered by the city.

Local business means that the vendor or contractor has a valid domestic type county and state business license, issued at least one year prior to bid or proposal opening date, to do business in said locality that authorizes the business to provide the goods, services, or construction to be purchased, and the physical principal business address located within the city limits, in an area zoned for the conduct of such business, from which the vendor operates or performs the majority of its business on a day-to-day basis, and also from which the vendor conducts 100 percent of the necessary functions to maintain or fulfill the contract with the city. Post office boxes are not verifiable and shall not be used for the purpose of establishing said address.

B. *Purpose and intent.* The city shall give a local preference to local businesses in the city limits in awarding city contracts and making purchases whenever the application of such a preference is reasonable in light of the dollar value of proposal received in relation to such expenditures.

1. *Local preference.*

   a. In order to be eligible for the local preference, the vendor must provide a copy of the domestic county and state business license and shall also provide proof that county personal property taxes and all other necessary local business operational taxes inherent to businesses whose principal base of operations is located within the city limits were appropriately paid and/or authorize the governing bodies of each agency to release such information to the city.

   b. In the bidding of, or letting contracts for procurement of supplies, materials, equipment and services, with a total price of $10,000.00 or more, local preference shall mean that if the lowest responsive bidder is a regional or non-local business, then all bids received from responsive local businesses are decreased by five percent. The original bid is not changed; the five percent decrease is calculated only for the purposes of determining the local preference. The local preference cost differential is not to exceed $100,000.00.

   c. In the case of request for proposal, letters of interest, best evaluated bids, qualifications or other solicitations and competitive negotiation and selection in which objective factors are used to evaluate the responses, local businesses are assigned five percent of the total points of the total evaluation points up to a maximum of five points.

   d. In the event of a tie between a local business and one or more non-local business meeting specifications, the ties shall be broken in favor of the local business.

2. *Local presence.*

   a. In the event there is no local business preference designation, either due to non-participation or non-eligibility after the five percent differential or five point assignment, then local presence will be considered for the procurement of goods and services over the amount of $2,000,000.00.

   b. Local presence will be demonstrated by the total number of individuals a business employs within the county. For procurements, a five percent differential which is not to exceed $200,000.00 shall be granted for the business that demonstrates the highest number of total employees located within the county at the time of the bid response. For request for proposals or matters for which factors are evaluated, local presence at the time of the response will be a weighted criteria. In no event shall the local presence designation be

allowed for a business with less than 25 local employees at the time of the bid response.

3. *Exceptions.*

a. The local business preference or presence criteria shall not apply to purchases or contracts which are funded, in whole or in part, by a governmental entity and the laws, regulations, or policies governing such funding prohibit application of the local preference, nor shall the local preference apply to purchases made or contacts let under emergency or noncompetitive situations.

b. Application of the local preference or local presence criteria to a particular purchase, contract or category of contracts for which the city is the awarding authority may be waived upon written justification and recommendation of the city to compare qualification, character, responsibility and fitness of all persons, firms, or corporations submitting bids or proposals. Further, the preference or presence criteria established herein in no way prohibit the right of the city from giving any other preference permitted by law in addition to the preference authorized herein.

(Ord. No. 5114, § 1, 2005; Ord. No. 5389, § 1, 1-18-2011)

CHAPTER 6-100. GOING OUT OF BUSINESS SALES

Sections:

Sec. 6-100-1. Definitions.
Sec. 6-100-2. Permit requirement.
Sec. 6-100-3. Application for permit.
Sec. 6-100-4. Issuance of permit—Time limit.
Sec. 6-100-5. Permit renewals.
Sec. 6-100-6. Permit application fee—Renewal fee.
Sec. 6-100-7. Contents of advertising.
Sec. 6-100-8. Display of permit—Books and records.
Sec. 6-100-9. Rules and regulations.
Sec. 6-100-10. Suspension or revocation of permit.
Sec. 6-100-11. Violations—Penalties.
Sec. 6-100-12. Application of chapter.

Sec. 6-100-1. Definitions.

As used in this chapter, the following terms shall have the following meanings unless a different meaning appears from the context:

Director means the director of public services, or his or her designated representative.

Inspector means the city employee selected by the director to inspect premises of going out of business activities.

On hand means only those items on hand and in stock under the name of applicant applying for permit, for at least 12 months prior to making application, at the address which appears on the face of the permit form, and shall include no other items.

Permit means a permit issued pursuant to this chapter.

Permittee means any person to whom a permit has been issued pursuant to this chapter.

Person means one or more individuals, partnerships, associations, corporations, business trusts, legal representatives, or any organized group of persons conducting a going out of business sale.

Publish, publishing, advertisement or *advertising* includes any and all means of every kind of conveying to the public notice of sale or notice of intention to conduct a sale, whether by word of mouth, by newspaper advertising, by magazine advertisement, by handbill, by written notice, by printed notice, by printed display, by billboard display, poster, by radio or television announcement, and any and all means including oral, written or printed.

Sales means the sale or any offer to sell to the public goods, wares and merchandise of any and all kinds and descriptions on hand and in stock in connection with a declared purpose, as set forth by advertising, on the part of the seller that such sale is anticipatory to the termination, closing, liquidation, revision, windup, discontinuance, conclusion or abandonment of the business in connection with such sale. It shall also include any sale advertised to be a "fire sale," "adjustment sale," "creditor's sale," "trustee's sale," "liquidation sale," "reorganization sale," "insurance salvage sale," "administrator's sale," "insolvent sale," "mortgage sale," "assignee's sale," "adjuster's sale," "receiver's sale," "loss-of-lease sale," "wholesaler's close-out sale," "retailer's close-out sale," "creditor's committee sale," "forced out-of-business sale,"

or "removal sale," and any and all sales advertised in such manner as to reasonably convey to the public that upon disposal of the stock of goods on hand, the business will cease and be discontinued.

Seller means the owner or operator of a legitimate on-going business in daily operation for at least 12 months prior to making application for permit, and may be composed of one or more individuals, partnerships, associations, corporations, business trusts, legal representatives, or any organized group of persons desiring to conduct a going-out-of-business sale.

Stock means only those items on hand, owned by seller, and in stock at least 12 months prior to making application for permit, at the address which appears on the face of the permit form, and shall include no other items.
(Code 1985, § 2-395; Ord. No. 3834, § 1(1, 2), 1-3-1989; Ord. No. 3919, § 1(1—3), 12-19-1989)

Sec. 6-100-2. Permit requirement.

No person, firm or corporation shall hereafter publish or conduct any sale of the type defined in section 6-100-1 without a permit therefor.
(Code 1985, § 2-396; Ord. No. 3563, § 1, 5-27-1986)

Sec. 6-100-3. Application for permit.

A. The director is authorized and empowered to supervise and regulate sales or special sales defined in section 6-100-1, and to issue the appropriate permit therefor.

B. Such permit shall be issued at the discretion of the director upon the written application in a form approved by the director and verified by the person who, or by an officer of the corporation which, intends to conduct such sale.

C. Such permit shall contain:

1. A description of the place where such sale is to be held, the nature of the occupancy, whether by lease or sublease, and the effective date of the termination of such occupancy, the means to be employed in publishing such sale, together with the proposed language content in any advertisement;
2. An itemized list of the goods, wares and merchandise to be offered for sale, certified by an independent audit of a public accountant or a certified public accountant, which goods, wares and merchandise have been under the ownership and name of the applicant, and located at the address which appears on the face of the permit form, for at least 12 months prior to the making of the application;
3. Any additional information as the director may require.

(Code 1985, § 2-397; Ord. No. 3563, § 1, 5-27-1986; Ord. No. 3834, § 1(3), 1-3-1989; Ord. No. 3919, § 1(4), 12-19-1989)

Sec. 6-100-4. Issuance of permit—Time limit.

Upon receipt of such application and payment of the fee prescribed in section 6-100-6, the director shall cause the same to be examined and investigated. If in any such investigation the director is satisfied as to the truth of the statements contained in such application, and as to the form and content of the advertising to be used in connection with such sale, he or she may then issue a permit permitting the publication and conduct of such sale. Such permit shall be for a period of not exceeding 30 days.
(Code 1985, § 2-398; Ord. No. 3563, § 1, 5-27-1986)

Sec. 6-100-5. Permit renewals.

Upon satisfactory proof by the permittee that the stock itemized in the original application has not been disposed of, the director may renew such permit for the remaining items, for an additional 30-day period upon payment of the prescribed renewal fee. Such proof for a renewal permit shall be furnished in form to be issued by the director. The renewal application shall contain an itemized list of stock on hand and the same shall be verified by the applicant. The director shall cause the same to be examined and investigated, and if satisfied as to the truth of the statements therein contained, the director may issue a renewal permit for a period not exceeding 30 days; provided, however, that not more than three such renewals shall be granted for any such sale for the same location within a period of one year from the date of issuance of the first permit.
(Code 1985, § 2-399; Ord. No. 3834, § 1(4), 1-3-1989; Ord. No. 3563, § 1, 5-27-1986)

Sec. 6-100-6. Permit application fee—Renewal fee.

Upon filing an original application, or a renewal application, for a permit to advertise and conduct a sale

or special sale, as defined in section 6-100-1, the applicant shall pay to the director a fee in the sum of $25.00. If any application or renewal application be disapproved, such payment shall be forfeited to the director as and for the cost of investigating the statements contained in such application or renewal application.
(Code 1985, § 2-400; Ord. No. 3563, § 1, 5-27-1986)

Sec. 6-100-7. Contents of advertising.

A. All advertisements or advertising and the language contained therein shall be in accordance with the purpose of the sale, as stated in the application pursuant to which a permit was issued, and the wording of such advertisements shall not vary from the wording as indicated in the application.

B. Such advertising shall contain a statement in these words, and no others:

> Sale held pursuant to Permit No: _____ of Director of Public Services, granted the _____ day of_____, 20____.

and in such blank spaces shall be indicated the permit number and the requisite dates.
(Code 1985, § 2-401; Ord. No. 3563, § 1, 5-27-1986)

Sec. 6-100-8. Display of permit—Books and records.

A. Upon commencement of any sale, as hereinbefore defined, the permit issued by the director shall be prominently displayed near the front entrance of the premises.

B. A duplicate of the original application and stock list pursuant to which permit was issued shall at all times be available to the director or to inspectors, and the permittee shall permit such inspectors to examine all merchandise in the premises for comparison with such stock list.

C. Suitable books and records as prescribed by the director shall be kept by the permittee and shall be at all times available to the inspectors of the city.

D. At the close of the business day the stock list attached to the application shall be revised and those items disposed of during such day shall be marked thereon.
(Code 1985, § 2-402; Ord. No. 3563, § 1, 5-27-1986)

Sec. 6-100-9. Rules and regulations.

The director is further empowered to make such rules and regulations for the conduct and advertisement of such sale or special sale as in his or her opinion will serve to prevent deception and to protect the public.
(Code 1985, § 2-403; Ord. No. 3563, § 1, 5-27-1986)

Sec. 6-100-10. Suspension or revocation of permit.

The director shall have power to suspend or revoke, at any time, any permit granted in accordance with this chapter.
(Code 1985, § 2-404; Ord. No. 3563, § 1, 5-27-1986)

Sec. 6-100-11. Violations—Penalties.

A. Any person who shall violate, neglect or refuse to comply with any of the provisions of this chapter shall, upon conviction thereof, be punished by a fine not to exceed $50.00.

B. In addition to penalties provided in subsection A of this section, the city shall have all legal enforcement powers up to and including injunctive relief requiring violators to cease or suspend business operations and/or initiate court proceedings to enjoin such violations.
(Code 1985, § 2-405; Ord. No. 3563, § 1, 5-27-1986; Ord. No. 3919, § 1(5), 12-19-1989)

Sec. 6-100-12. Application of chapter.

The provisions of this chapter shall not apply to or affect the following persons:

A. Persons acting pursuant to an order or process of court of competent jurisdiction from one of the courts of Shelby County, Tennessee;

B. Persons acting in accordance with their powers and duties as public officers, such as sheriffs and marshals, or city purchasing agents in the sale of surplus stocks; or

C. Duly licensed auctioneers, selling at auction.
(Code 1985, § 2-406; Ord. No. 3563, § 1, 5-27-1986; Ord. No. 3834, § 1(5), 1-3-1989)

CHAPTER 6-104. WEIGHTS AND MEASURES*

Sections:

Sec. 6-104-1. Registration of commercial devices.
Sec. 6-104-2. Inspector office created—General duties.
Sec. 6-104-3. Inspector not to have conflicting interests.
Sec. 6-104-4. Inspection of weights, measures, scales, taximeters and gas dispensers.
Sec. 6-104-5. Sealing of tested devices.
Sec. 6-104-6. Annual registration fees.
Sec. 6-104-7. Monthly report of fees to director of public services.
Sec. 6-104-8. Weights and measures violations.

Sec. 6-104-1. Registration of commercial devices.

It is the responsibility of businesses and manufacturers operating in the city to register commercial devices such as gas dispensers, platform scales, taxi meters, etc. with the city weights and measures bureau prior to operation. Businesses and manufacturers that fail to comply will be fined according to the terms specified in section 6-104-6(C).
(Code 1985, § 40-1; Ord. No. 4641, § 1, 1-5-1999)

Sec. 6-104-2. Inspector office created—General duties.

The office of city inspector of weights and measures is created, and it shall be the inspector's duty, by himself or herself or deputies, to inspect, test, measure or weigh, and mark all articles of commerce or merchandise usually inspected, tested, weighed or measured, and particularly to weigh, measure, test, and mark devices in this chapter. It shall likewise be the duty of the inspector to have, keep and preserve all instruments, weight standards, books, etc., belonging to this office, and to deliver all such that belong to the city to his or her successor in office, or to the mayor at his or her order.
(Code 1985, § 40-2; Ord. No. 4641, § 1, 1-5-1999)

Sec. 6-104-3. Inspector not to have conflicting interests.

Neither the inspector of weights and measures nor deputies shall deal or trade in any articles subject to inspection, weight or measurement by the ordinances of the city, for himself or herself or as an agent, and shall never solicit or interfere in any trade, sale or purchase between others. Any inspector who shall be guilty of this section shall be punished as prescribed in section 1-24-1, and such acts shall be just cause for removal from office.
(Code 1985, § 40-3; Ord. No. 4641, § 1, 1-5-1999)

Sec. 6-104-4. Inspection of weights, measures, scales, taximeters and gas dispensers.

A. It shall be the duty of the inspector of weight and measures to try, test and correct the weights, measures, scales, meters and/or gas dispensers, of all businesses, manufacturers, motor freight carriers or others in the city who buy or sell any articles of commerce or weigh commodities to be sold to the public or to the trade, or fix their charges for services rendered by scales, measures and weights, and for trying, testing and correcting, as aforesaid, the inspector shall keep correct records in the office, or the same quantity, weight and standard as are fixed by the laws of the state.

B. It will be the duty of the inspector of weights and measures to test or inspect all scales, gas dispensers, and meters used in the sale or manufacturing of merchandise, annually or when necessary. Any proprietor, clerk or employee of any place of business who shall make to the inspector any false statements in regard to the number of such scales, gas dispensers, weights or meters kept in his or her establishment or place of business, or endeavor to secrete or hide away the same to avoid the inspector shall be guilty of a misdemeanor provided that nothing herein contained shall be held to apply to scales, weights, gas dispensers, or meters kept for sale.
(Code 1985, § 40-4; Ord. No. 4641, § 1, 1-5-1999)

Sec. 6-104-5. Sealing of tested devices.

Whenever the inspector of weights and measures shall test, gauge, weigh or inspect any device, he or she shall properly seal or mark the same, and it shall be a misdemeanor to remove such seals or mark.
(Code 1985, § 40-5; Ord. No. 4641, § 1, 1-5-1999)

Sec. 6-104-6. Annual registration fees.

A. For the annual registration of all devices by the inspector of weights and measures, the city shall charge and receive, from the owner, lessee, or seller, the following fees and not other by January 31 of each year.

1. Platform scales: $20.00;
2. Counter scales: $15.00;

*__Charter reference—__Authority to inspect weights and measures and prescribe fees therefor, § 163.

__State law reference—__Weights and measures, T.C.A. § 47-26-101 et seq.

3. Gas dispensers (per pump): $15.00;

4. Taxi meters: $15.00.

B. A late fee of $3.00 per device will be assessed to all businesses or manufacturers who fail to register devices with the city weights and measures by March 31 of each year.

C. Businesses and manufacturers must register devices within 30 days of operation or be subject to fines and penalties as set forth in this Code.
(Code 1985, § 40-6; Ord. No. 4641, § 1, 1-5-1999; Ord. No. 5111, § 1, 2005)

Sec. 6-104-7. Monthly report of fees to director of public services.

The manager of weights and measures shall make to the director of public services, by the second week of each month, a report of the inspector's official transactions for the previous month, showing the amount of fees reported and summary of the kind and quality of goods registered.
(Code 1985, § 40-7; Ord. No. 4641, § 1, 1-5-1999)

Sec. 6-104-8. Weights and measures violations.

In addition to any conditions, violations or penalties set forth in T.C.A. title 47, chapter 26, part 9, as revised July 1, 1997, any violation of this chapter shall be deemed a misdemeanor and subject to a fine and penalty as set forth in section 1-24-1.
(Code 1985, § 40-8; Ord. No. 4641, § 1, 1-5-1999)

Title 7

ALCOHOLIC BEVERAGES*

Chapters:

7-4. Alcoholic Beverages Generally
7-8. Beer and Light Alcoholic Beverages
7-12. Tax on Retail Sales of Alcohol for On-Premises Consumption
7-16. Inspection Fees

***State law reference—**Intoxicating liquor, T.C.A. § 57-1-101 et seq.

CHAPTER 7-4. ALCOHOLIC BEVERAGES GENERALLY

Sections:

Sec. 7-4-1. Alcoholic beverage and zoning districts defined.
Sec. 7-4-2. Manufacture and sale legalized—Compliance with state law and chapter.
Sec. 7-4-3. Certificate of good moral character required of applicants for state license.
Sec. 7-4-4. Area within which retail sale permitted.
Sec. 7-4-5. Manufacture and sale near churches, schools or other public or private institutions or residential areas.
Sec. 7-4-6. Relocation of liquor stores.
Sec. 7-4-7. Limitation on number of retail outlets.
Sec. 7-4-8. Sale to certain persons prohibited—Drinking in or on premises of retail liquor stores prohibited—Penalty.
Sec. 7-4-9. Hours of sale at retail.
Sec. 7-4-10. Inducement to purchase prohibited.
Sec. 7-4-11. Inspection of sales premises.
Sec. 7-4-12. Possession or consumption in Liberty Bowl Memorial Stadium.
Sec. 7-4-13. Time of appeal from alcohol commission to the city council.
Sec. 7-4-14. Investigations by city for violations under state law regarding sexual and pornographic conduct.
Sec. 7-4-15. Open containers and consumption of alcoholic beverages prohibited in certain public places.

Sec. 7-4-1. Alcoholic beverage and zoning districts defined.

"Alcoholic beverage" or "beverage," as used in this title, means and includes alcohol, spirits, liquor, wine and every liquid containing alcohol, spirits, wine and capable of being consumed by a human being, other than patent medicine, or beer where the latter contains an alcoholic content of five percent by weight or less.

All zoning districts referenced in this title shall include those zoning districts reflected on the City of Memphis and Shelby County Zoning District Map, as well as the areas in approved planned developments that are designated for those zoning districts or their preceding equivalent zoning districts according to the Memphis and Shelby County Unified Development Code.
(Code 1967, § 5-1; Code 1985, § 4-1; Ord. No. 3507, § 1, 11-5-1985; Ord. No. 5459, § 4, 7-17-2012)

Sec. 7-4-2. Manufacture and sale legalized—Compliance with state law and chapter.

It shall be lawful to engage in the business of manufacturing, selling, storing, transporting, and distributing alcoholic beverages within the corporate limits of the city. The manufacture, sale, receipt, possession, storage, transportation, distribution, or in any manner dealing in alcoholic beverages within the corporate limits of the city shall be regulated in accordance with the provisions of T.C.A. title 57, the rules and regulations adopted by the Commissioner of Revenue of the state, and in accordance with the provisions of this title.
(Code 1967, § 5-2; Code 1985, § 4-2)

Sec. 7-4-3. Certificate of good moral character required of applicants for state license.

A. Each applicant for the certificate of good moral character required prior to the issuance or renewal of a state alcoholic beverage license shall make application to the alcohol commission created by section 2-82-1 on forms to be approved by the mayor. Such applications shall be transmitted by the alcohol commission to the mayor for his or her approval or disapproval.

B. The mayor shall have authority to prepare, in accordance with state law, and have printed a form of certificate to be issued in certifying to the Commissioner of Revenue of the state the good moral character of applicants for such certificate.

C. No such certificate of good moral character will be issued in any case where the location of the proposed retail liquor store has been disapproved by the mayor.
(Code 1967, § 5-7; Code 1985, § 4-3; Ord. No. 117, § 1, 2-20-1968)

State law reference—Certificates of moral character, T.C.A. §§ 57-3-208, 57-4-201.

Sec. 7-4-4. Area within which retail sale permitted.

It shall be lawful to sell at retail any alcoholic beverages within the corporate limits of the city, provided the retail liquor store is located in compliance with section 7-4-5.
(Code 1985, § 4-4; Ord. No. 188, §§ 1, 2, 6-11-1968; Ord. No. 286, § 1, 9-17-1968)

Sec. 7-4-5. Manufacture and sale near churches, schools or other public or private institutions or residential areas.

A. No alcoholic beverages shall be manufactured, distilled, rectified, sold or stored on any premises located within 1,500 feet (as measured along the center

line of the street or streets as defined further herein and applying to retail liquor stores located on either side of such street or streets) from any church (defined as property owned and used by a church having regular attendance at its meetings and whose property is exempt from taxation by the property assessor); school (defined as duly accredited public, private, or parochial school for grades one through 12, or any other division of such grades); park (defined as public park upon which children usually play); library (defined as tax supported public library) or any other retail liquor store, or within a 500-foot radius in any other direction from any such church, school, park, library, or any other retail liquor store or in any area in violation of the zoning ordinances. The 1,500 feet shall be measured from a point in the center line of the public or private street (private street being defined to be a private passageway for vehicles in a multi-establishment commercial area of at least two acres in size) on which the liquor store fronts, such point being directly opposite the center of the threshold of the wall of the liquor store if the threshold faces the street and if not, then at the midpoint of the liquor store building; thence along the center line of the street and the center line of intersecting street or streets to a point in the center line of the street opposite the nearest point to the property line of such church, school, park, library, or other liquor store which faces the public or private street. Such 500-foot restriction shall be measured from the center of the threshold of the store to the nearest point in the property line of such church, school, park, library, or other liquor store, it being the intent that no part of the property of such church, school, park, library, or other liquor store shall be within a radius of 500 feet from the point in the center of the threshold of the liquor store. The measurements set forth herein shall apply only to liquor store locations after September 17, 1986. For clarification as to location and continuous use for liquor stores receiving a permit before September 17, 1968, such business may continue as long as;

1. The store remains at the same location;
2. It is a continuing business without any intervening use; and
3. Any transfer of ownership to subsequent or succeeding owners occurs within a one-day period (24 hours) without the depletion of inventories.

At any time a license is surrendered, all prior existing rights are nullified. In addition to the above set forth restrictions on location due to measurement to such school, church, park or library, or any other liquor store, no liquor store may be located where any part of any residential property zoned R-15, R-10, R-8, R-6, RU-1 or RU-2 shall be within a radius of 200 feet from the point in the center of the threshold of the wall of the liquor store if the threshold faces the street and if not, then at the midpoint of the liquor store building. Liquor stores having received permits before September 17, 1968, shall be allowed to remain so long as they otherwise meet the ordinances. The subsequent location of a church, school, park or library nearer to the liquor store than the prescribed distance shall not of itself cause the removal of the liquor store so long as the liquor store remains at the same location. Likewise, should any real property be already zoned or which is rezoned R-15, R-10, R-8, R-6, RU-1 or RU-2 within the radius of such 200 feet above described, such zoning or rezoning shall not of itself cause the removal of the liquor store as long as the liquor store remains in the same location.

B. The foregoing provisions of this section shall not apply to the relocation of any retail dealer who is compelled to relocate as the direct result of the actions of a governmental body or agency thereof, and such dealer can relocate his or her business within a radius of 1,500 feet as measured from the center of the front door of his or her business, provided the new location is approved by the alcohol commission subject to appeal to the council.

C. Upon a clear showing by a liquor dealer, whose property has been taken through governmental action so that it is impossible to relocate the store within the 1,500 feet prescribed distance, such liquor dealer shall be allowed to relocate within the prohibited distance from parks, playgrounds, churches, schools or libraries if such location is approved by the city council after a hearing and recommendation by the alcohol commission.

D. The location restriction (as defined in subsection A of this section) shall not apply to a qualified "retail food store wine license" applicant, that as of December 31, 2015, holds any off-premises beer permit, or upon application for a retail food store wine license, qualifies for any off-premises beer sales permit under chapter 7-8, article 2.

(Code 1967, § 5-9; Code 1985, § 4-5; Ord. No. 188, § 3, 6-11-1968; Res. of 8-6-1968; Ord. No. 286, § 1,

9-17-1968; Ord. No. 649, § 1, 2-3-1970; Ord. No. 694, § 1, 5-12-1970; Ord. No. 836, § 1, 12-22-1970; Ord. No. 1683, § 1, 4-10-1973; Ord. No. 3606, § 1, 9-23-1986; Ord. No. 5459, § 5, 7-17-2012; Ord. No. 5615, § 2, 5-3-2016)

State law reference—Location restrictions authorized, T.C.A. § 57-3-208.

Sec. 7-4-6. Relocation of liquor stores.

Owners of retail liquor licenses issued for a specific location shall not be allowed to relocate their liquor stores until at least 24 months have passed since the granting of the original license at that location, unless the location is lost through condemnation, loss of lease or unanticipated hardship.
(Code 1967, § 5-11; Code 1985, § 4-6)

Sec. 7-4-7. Limitation on number of retail outlets.

In no event shall the number of retail liquor stores, premises or outlets for the sale of alcoholic beverages exceed 177.
(Code 1967, § 5-10; Code 1985, § 4-6.1; Ord. No. 127, § 1, 5-8-1951; Ord. No. 96, § 1, 12-19-1980)

State law reference—Numerical limitation on licenses authorized, T.C.A. § 57-3-208.

Sec. 7-4-8. Sale to certain persons prohibited—Drinking in or on premises of retail liquor stores prohibited—Penalty.

A. No retailer shall sell any alcoholic beverages to any person who is drunk, nor shall any retailer selling alcoholic beverages sell to any person accompanied by a person who is drunk.

B. No retailer shall sell any alcoholic beverages to a person known to be a minor and no person under the age of 21 years old is allowed in a retail liquor store unless accompanied by a parent, legal guardian or spouse.

C. No retail liquor package store operator, licensee, or his or her employee shall consume any alcoholic beverage nor permit any alcoholic beverage to be consumed within the licensed premises at any time, nor shall any licensee, operator, or his or her employee engage in the sale of alcoholic beverages while under the influence of intoxicants or drugs.

D. It is unlawful for any other person to consume alcoholic beverages while upon the premises of a retail liquor package store or any parking lot under control of the store. Retail liquor package store operators or

licensees shall post a sign on painted wood or metal or on the glass show window with black lettering on white background, two feet by three feet in size, lettering not less than three inches in height, containing the following language:

"The consumption of alcoholic beverages upon these premises is prohibited by law."

These signs shall be posted in a conspicuous and readily visible place, and not less than one sign shall be posted within the sales area, and not less than one sign shall be posted within the parking area, if any.
(Code 1967, § 5-12(a)—(c); Code 1985, § 4-7; Ord. No. 1509, § 1, 11-14-1972; Ord. No. 5413, § 1, 9-20-2011)

State law reference—Alcohol and underage persons, T.C.A. §§ 57-3-406, 57-3-412.

Sec. 7-4-9. Hours of sale at retail.

No retail liquor store or retail food store shall sell, give away, or otherwise dispense alcoholic beverages except between the hours of 8:00 a.m. and 11:00 p.m. Monday through Saturday and between 10:00 a.m. and 11:00 p.m. on Sunday.
(Code 1967, § 5-13; Code 1985, § 4-8; Ord. No. 5720, § 1(A.), 1-22-2019)

State law reference—Hours of sale, T.C.A. § 57-3-406.

Sec. 7-4-10. Inducement to purchase prohibited.

No licensee under state law shall give away, sell, or in any manner whatsoever deal in premiums, tokens, or other articles by means of which inducements are held out to persons to purchase any alcoholic beverages.
(Code 1967, § 5-14; Code 1985, § 4-9)

Sec. 7-4-11. Inspection of sales premises.

The duly authorized representatives of the city shall have the right to inspect the premises of any business licensed for the sale of alcoholic beverages during the hours when such establishment is open for the conduct of business.
(Code 1967, § 5-16; Code 1985, § 4-10)

Sec. 7-4-12. Possession or consumption in Liberty Bowl Memorial Stadium.

A. The possession or consumption of alcoholic beverages in Liberty Bowl Memorial Stadium shall be prohibited.

B. The officials in charge at any event held in the Liberty Bowl Memorial Stadium shall be authorized by this section to eject, without refunding the admission price, if any, any person present who possesses or consumes any alcoholic beverage whatsoever.

C. Appropriate signs shall be publicly and conspicuously posted in the Liberty Bowl Memorial stadium, notifying all patrons that "the possession or consumption of alcoholic beverages is prohibited by ordinance of the City of Memphis," citing this section of the code.

D. Nothing in this section shall prevent the sale of beer and other light beverages with an alcoholic content of not more than five percent by weight as hereinafter regulated and set forth in section 7-84-20.
(Code 1967, § 5-17; Code 1985, § 4-11; Ord. No. 2071, § 1, 6-25-1974)

Sec. 7-4-13. Time of appeal from alcohol commission to the city council.

Notice of appeals from the action of the alcohol commission to the city council shall be filed in writing with the comptroller no later than ten days after the final decision of the alcohol commission. Otherwise, such decision shall be deemed and considered to be final.
(Code 1967, § 5-18; Code 1985, § 4-12; Ord. No. 279, § 1, 9-10-1968)

Sec. 7-4-14. Investigations by city for violations under state law regarding sexual and pornographic conduct.

All regularly employed, full-time employees of the police services division, when assigned by the director or his or her designee, shall have authority to conduct investigations into alleged violations of T.C.A. § 57-4-204, relating to prohibited sexual or pornographic conduct, and upon completion of their investigation shall report any such violation to the city alcohol commission for their appropriate action. The commission shall have the power to suspend or revoke such licenses, upon determining such violations exist, relating to establishments selling beer and malt beverages, and the commission shall recommend to the state alcoholic beverage commission its findings as they relate to establishments selling liquor by the drink for on-premises consumption.
(Code 1967, § 5-21; Code 1985, § 4-13; Ord. No. 3029, § 1, 7-8-1980)

Sec. 7-4-15. Open containers and consumption of alcoholic beverages prohibited in certain public places.

A. It is unlawful for any person or persons, while in or on any streets, sidewalks, alleyways, parking areas, bus and trolley stops and shelters, or other open areas operated and controlled by the city within the central business improvement district, defined in sections 12-32-2 and 12-44-2, to consume any alcoholic beverage as defined in section 7-4-1, or to possess for the purpose of consumption any such alcoholic beverage, unless such beverage remains commercially sealed.

B. Possession of any alcoholic beverage in an open container not permitted in subsection A of this section shall be prima facie evidence of having the beverage for the purpose of consumption.

C. This section shall not apply to the following:

1. Patrons of premises licensed for on-premises consumption while the patrons are in or upon such premises;
2. Patrons of premises licensed for on-premises consumption where attendance may be controlled by the owner or lessee;
3. Patrons of premises that have been granted a special event permit as set forth in section 7-8-21 of this Code;
4. The Beale Street Historic District as set forth in section 7-8-23, and other such districts within the Central Business Improvement District as may hereafter be designated by state or local authorities.

D. Subsection C of this section may include outdoor areas.

(Code 1985, § 4-14; Ord. No. 4828, § 1, 11-21-2000)

***State law references—**Beer and alcoholic beverages containing les than five percent alcohol, T.C.A. § 57-5-101 et seq.; local regulatory ordinances, T.C.A. § 57-5-101 et seq.

ARTICLE 1. GENERAL PROVISIONS

Sec. 7-8-1. Application of chapter.

Except as otherwise specifically provided, the provisions of this chapter shall apply to beer with an alcoholic content of not more than five percent by weight and any other beverage of like alcoholic content.
(Code 1967, § 5-70; Code 1985, § 4-51)

Sec. 7-8-2. Transportation and sale legalized—Compliance required.

It is lawful to transport, store, sell, distribute, possess, receive or manufacture beverages mentioned in section 7-8-1 within the corporate limits of the city, subject to all of the regulations, limitations and restrictions provided by the laws of the state and this chapter, and subject to all of the laws of the state and this chapter, and subject to the rules and regulations enacted by authorized public officials or boards.
(Code 1967, § 5-71; Code 1985, § 4-52)

Sec. 7-8-3. Hours of sale.

No retail liquor store or retail food store governed by this article shall sell, give away, or otherwise dispense alcoholic beverages except between the hours of 7:00 a.m. to 3:00 a.m. Monday through Saturday and between 10:00 a.m. and 11:00 p.m. on Sunday.
(Code 1967, § 5-72; Code 1985, § 4-53; Ord. No. 636, § 1, 1-27-1970; Ord. No. 2411, § 1, 6-8-1976; Ord. No. 5720, § 1(B.), 1-22-2019)

Sec. 7-8-4. Purchase by minors.

A. It is unlawful for any minor to purchase or attempt to purchase any beer or other beverage governed by this chapter and it is unlawful for any minor to possess any such beverage upon the premises of an on-premises licensee.

B. It is unlawful for any minor to present or offer to any licensee, or his or her agent or employee, any written evidence of his or her age which is false, fraudulent or not actually his or her own, for the purpose of purchasing or attempting to purchase or otherwise procuring or attempting to procure any beverage governed by this chapter.

C. Any minor who acts in violation of any one or more of the provisions of this section shall be guilty of a misdemeanor, and if 19 years of age, or more, shall upon conviction be subject to punishment as provided in section 1-24-1 of this Code; if 18 years of age, or less, he or she shall be taken before the juvenile court for appropriate disposition.
(Code 1967, § 5-73; Code 1985, § 4-54)

State law reference—Alcohol and underage persons, T.C.A. §§ 57-3-406, 57-5-301.

Sec. 7-8-5. Wholesale beer tax.

Pursuant to the authority contained in T.C.A. § 57-6-103, there is imposed on the sale of beer at wholesale within the city a tax of 17 percent of the wholesale price.
(Code 1967, § 5-74; Code 1985, § 4-55)

ARTICLE 2. LICENSES TO STORE, SELL, DISTRIBUTE OR MANUFACTURE

Sec. 7-8-6. Required.

No person shall engage in the storing, selling, distributing or manufacturing of beer or any other beverage referred to in section 7-8-1 within the corporate limits of the city until he or she receives approval from the alcohol commission and purchases a license from the city treasurer, or his or her designee.
(Code 1967, § 5-80; Code 1985, § 4-66; Ord. No. 117, § 1, 2-20-1968; Ord. No. 4352, § 1, 8-15-1995)

Sec. 7-8-7. Application—Generally.

Each applicant for a license under this article shall file with the alcohol commission a sworn petition in writing, establishing the following facts, which are made conditions of any license issued thereunder, and the violation of any such statements of fact shall be sufficient cause for the revocation of such license:

A. That the applicant will not engage in the sale of such beverages except at the place for which the alcohol commission has issued a license to such applicant;

B. That no sale of such beverages will be made except in accordance with the license granted;

C. That, if the license is to sell for consumption on the premises, the licensee will make no sale except where meals, consisting of no less than one meat and a vegetable, are prepared on premises with adequate kitchen facilities, as

provided in chapter 9-52, and are regularly served at tables with a menu provided for selection by the customers;

D. That, if the application is for a license to sell at hotels, sales for consumption on the premises will be made only where meals or lunches are served at tables to persons seated at tables, and to persons in guests' rooms;

E. That, if the application is for a license for a club or lodge, such applicant is a regularly incorporated club or lodge operating under a charter and by-laws, in which the officers were elected by a regular membership which is composed of persons who must pay a substantial initiation fee, and whose purpose of organization and existence is other than the sale of beverages covered by this chapter;

F. That, if the application is for a license to sell, not for consumption on the premises, that no sales will be made for consumption on the premises, no consumption will be allowed on the premises or on the sidewalks, streets or property within the immediate premises (building and parking lot) of any off-premises location selling beer, and that no such beverages will be kept for sale in such premises except in the original packages or containers; except that an off-premise licensee may offer complimentary samples of the products it sells for tastings to be held on the premises of the off-premise licensee. Such tastings shall be for sales, education and promotional purposes;

G. That no sale shall be made to minors; and that applicant will not permit minors or disorderly or disreputable persons heretofore connected with the violation of the liquor laws to loiter around or frequent his or her place of business; that applicant will not allow gambling or gambling devices on his or her premises; provided that, the provisions of this section relative to the frequenting of his or her place of business shall not apply to minors 18 years of age, who are under contract to provide entertainment in the field of music or vocal entertainment. This exception is in effect only during the actual hours of the minors' employment. Such minors must have the written consent of their parents or guardian, sworn to before a notary public. The owner or operator shall keep the written consent on file at all times during the employment of such minor, and same shall be available for inspection by officers of the city police department. A duplicate of such written consent shall be forwarded to the director of police of the city. The provisions herein shall not apply to disorderly or disreputable persons;

H. That neither the applicant nor any persons employed or to be employed by him or her in such distribution or sale of such beverage has been convicted of any violation of the law against prohibition, sale, manufacture or transportation of intoxicating liquor, or of any crime involving moral turpitude, within the past ten years;

I. That the applicant will conduct the business in person, for himself or herself, or, if he or she is acting as agent, the applicant shall state the person, firm, corporation, syndicate, association or joint stock company for whom, and only for whom, the applicant intends to act;

J. That the applicant or licensee providing musical entertainment in his or her business establishment, including but not limited to jukeboxes, live bands, with or without vocalists, and utilizing amplifiers, loudspeakers or other equipment for the reproduction or amplification of sound, shall not permit the noise, sound or vibration created, emitted or transmitted by such jukeboxes, bands, vocalists or sound equipment to be audible to persons on any public street, highway or upon any adjoining residential or

commercial premises, to the extent that it is detrimental to the life or health of any individual or disturbs the public peace and welfare.

(Code 1967, § 5-81; Code 1985, § 4-67; Ord. No. 2080, § 1, 7-18-1967; Ord. No. 117, § 1, 2-20-1968; Ord. No. 346, § 1, 12-26-1968; Ord. No. 1848, §§ 1—3, 10-2-1973; Ord. No. 2694, § 1, 2-13-1979; Ord. No. 3248, §§ 1, 2, 11-9-1982; Ord. No. 5472, § 1, 11-20-2012)

Sec. 7-8-8. Application—Citizens' certificate to accompany.

There shall be attached to each application for a license under this article a certificate signed by at least ten reputable citizens residing or doing business in the ward in which the petitioner seeks to do business, stating the residence or place of business of each person, and certifying the length of time that such persons have been acquainted with the petitioner, and if petitioner is a corporation or association, the length of time they have been acquainted with its officers or members, and that they have good reason to believe that all of the statements contained in the petition are true, and that they join in the prayer of the petitioner for the granting of the license prayed for.

(Code 1967, § 5-82; Code 1985, § 4-68)

Sec. 7-8-9. Prohibited sexual or pornographic conduct.

A. In addition to the other duties imposed under this title, the city alcohol commission is authorized to enforce provisions of subsections B, C and D of this section, as same relates to selling beer and other beverages governed by this chapter; and upon violation of such subsections by any person, firm or corporation licensed under the provisions of this title, the commission shall revoke the privilege license of such violator.

B. The following acts or conduct on licensed premises are deemed contrary to public policy, and therefore no license shall be held at any premises where such conduct or acts occur:

1. To employ, use or allow any person in the sale or service of beer or other beverages governed by this chapter in or upon the licensed premises while such person is unclothed or in such attire, costume or clothing as to expose to view any portion of the breast below the top of the areola or of any portion of the pubic hair, anus, cleft of the buttocks, vulva or genitals;

2. To employ, use or allow the services of any host, hostess or other person to mingle with the patrons while such host, hostess or other person is unclothed or in such attire, costume or clothing as described in subsection (B)(1) of this section;

3. For any person on the licensed premises to touch, caress or fondle the breasts, buttocks, anus or genitals of any other person;

4. For any employee or person to wear or use any device or covering, exposed to view, which simulates the breast, genitals, anus, pubic hair or any portion thereof.

C. Additional acts prohibited.

1. Acts or conduct on licensed premises in violation of this subsection are deemed contrary to public policy, and therefore no license shall be held at any premises where such conduct or acts occur.

2. Live entertainment is permitted on any licensed premises, except that:

   a. No person shall perform acts of or acts which simulate:

      i. Sexual intercourse, masturbation, sodomy, bestiality, cunnilingus, fellatio, flagellation or any sexual acts which are prohibited by law;

      ii. The touching, caressing or fondling of the breast, buttocks, anus or genitals; or

      iii. The displaying of the pubic hair, anus, vulva or genitals.

   b. Subject to the provisions of subsection (C)(2)(a) of this section, any entertainer who is employed in whole or in part, whether directly or as independent contractor or agent, by the licensee to dance at such licensee's premises shall perform only upon a stage at least 18 inches above the immediate floor level and removed at least 12 inches from the nearest patron.

3. No person shall use artificial devices or inanimate objects to depict any of the prohibited activities described above.

D. The following acts or conduct on licensed premises are deemed contrary to public policy, and therefore no license shall be held at any premises where such conduct or acts occur:

1. Engaging in sexual activity or any sexual relations as a business or loitering at a licensed premises for the purpose of being hired to engage in sexual activity or any sexual relations;

2. a. Soliciting or hiring another person with the intent that the other person engage in prostitution, defined as those activities described in subsection (D)(1) of this section, or

   b. Soliciting a person to do those things described in subsection (C)(2)(a) of this section;

3. Procuring a prostitute for a patron; or

4. Soliciting, receiving, or agreeing to receive any benefit for engaging in any of the activities defined in subsections (D)(1) through (3) of this section.

(Code 1967, § 5-83; Code 1985, § 4-69; Ord. No. 3958, § 1(1), 5-8-1990)

Sec. 7-8-10. Issuance or refusal generally.

The alcohol commission shall consider all applications filed under this article and grant or refuse the license according to its best judgment under all of the facts and circumstances, and the action of the commission in granting or refusing a license shall be final, except as same is subject to review at law.

(Code 1967, § 5-85; Code 1985, § 4-70; Ord. No. 117, § 1, 2-20-1968)

Sec. 7-8-11. General restrictions on issuance.

A. No license shall be issued to sell any beverage coming within the provisions of this chapter:

1. In violation of any provision of state law;

2. In violation of the Unified Development Code;

3. Where such sale will cause congestion of traffic or interference with schools, churches or other places of public gathering, or otherwise interfere with public health, safety and morals, and the judgment of the alcohol commission on such matters shall be final, except as same is subject to review at law;

4. Unless it is necessary for the accommodation of the public that such place should be licensed, and the judgment of the alcohol commission on such matters shall be final except as same is subject to review at law; provided, however, that nothing herein contained shall prevent the issuance of a license for the sale of beer upon private property next and adjacent to regularly licensed and operated sandwich shops, eating houses or restaurants, or to prevent the sale of beer for consumption in automobiles or other vehicles parked upon such premises; provided that, such beverages shall be consumed while such automobiles are parked upon such premises, but no beer or such beverages shall be served or consumed while such automobiles are parked upon a public street, alley or other public place.

B. Where the sale shall be for on-premise, and food sales shall consist of less than 40 percent of gross sales, the business establishment shall be located no less than 500 feet (as measured along the center line of the street or streets as defined further herein) or not less than within a 250-foot radius in any other direction from the property line of any single-family or duplex residential property zoned R-15, R-10, R-8, R-6, R-3, or RU-1, any church (defined as property owned and used by a church having regular attendance at its meetings and whose property is exempt from taxation by the property assessor) or school (defined as fully accredited public, private, or parochial school for grades one through 12 or any other division of such grades). The 500 feet shall be measured from a point in the center line of the public or private street adjacent to the threshold (private street being defined to be a private passageway for vehicles in a multi-establishment commercial area of at least two acres in size) on which the beer establishment fronts, such point being directly opposite the center of the threshold of the wall of the establishment if the threshold faces the street and if not, then at the midpoint of the establishment building; thence along the intersecting street or streets to a point on the center line of the street opposite the nearest point to the property line of the residence, church or school. Such 250-foot restriction shall be measured from the center of the threshold of the store to the nearest point in the property line of such residence, church, or school, it being the intent of the

restriction that no part of the property of such residence, church or school shall be within a radius of 250 feet from the point in the center of the threshold herein shall apply only to beer establishment locations after the effective date of this section. Further, T.C.A. § 57-5103(5) states "a business can sell beer for both on-premises and off premises consumption at the same location pursuant to one (1) permit." Where the business establishment does not meet the distance requirements set above, percentage of food sales notwithstanding, sale of more than two 16-ounce sealed containers, for off-premise consumption, per customer is not permitted per this section. This section shall not prohibit the sale and transfer of the assets, goodwill, equipment and fixtures of any on-going business to a new owner to continue the operation of such business, however, such new owner must comply with all the provisions of this section.

C. Where the sale shall be for off-premises consumption, the business establishment shall be located no less than 500 feet (as measured along the center line of the street or streets and such measurement is defined further herein by reference to subsection B above) or not less than within a 250-foot radius in any other direction from the property line of any residential property zoned R-E, R-15, R-10, R-8, R-6, R-3 or RU-1, any church (as defined in subsection B above) or school (as defined in subsection B above) except establishments located along interstate, U.S. and state highways. Said 500 feet and 250-foot radius restrictions shall be measured in the same manner as that set out in subsection B above with regard to on-premise sales. This location restriction is intended to and shall apply only to new beer establishment locations that make application for off- premises sales after the effective date of this subsection. This location restriction shall apply to any existing beer establishment location licensed for off-premises sales that ceases to sell, distribute or manufacture beer at that location during any continuous six-month period after the effective date of this subsection. The distance requirements of this paragraph do not apply to an establishment where less than ten percent of its gross sales consists of alcohol sales.

D. The location restriction (as defined in subsection C of this section) shall not apply to a qualified "retail food store wine license" applicant, that as of December 31, 2015, holds any off-premises beer permit, or upon application for a retail food store wine license, qualifies for any off-premises beer sales permit under chapter 7-8, article 2.

(Code 1967, § 5-86; Code 1985, § 4-71; Ord. No. 117, § 1, 2-20-1968; Ord. No. 3246, § 1, 11-9-1982; Ord. No. 5000, 5-20-2003; Ord. No. 5134, § 1, 2005; Ord. No. 5223, § 1, 2007; Ord. No. 5343, 1-26-2010; Ord. No. 5615, § 3, 5-3-2016; Ord. No. 5459, §§ 6, 7, 7-17-2012; Ord. No. 5825, § 5, 6-7-2022)

Sec. 7-8-12. Issuance to specialty or convenience stores, service or filling stations.

A beer permit for off-premises consumption may be issued to any convenience store, grocery store, sundry store, service or filling station having a minimum inventory of $2,000.00 in stock, not including equipment, fixtures or petroleum products, subject to the location restriction set out in section 7-8-11(C).

(Code 1967, § 5-87; Code 1985, § 4-72; Ord. No. 2410, § 1, 6-8-1976; Ord. No. 2507, § 1, 10-5-1976; Ord. No. 2694, § 2, 2-13-1979; Ord. No. 5000, 5-20-2003)

Sec. 7-8-13. Issuance to hotels and clubs.

It is lawful for the alcohol commission to issue licenses for the sale of any beverage coming within the provisions of this chapter in hotels, clubs or lodges, subject to all of the limitations and restrictions contained in the state law and the rules and regulations promulgated thereunder, and subject to all of the limitations and restrictions contained in the license and in this chapter.

(Code 1967, § 5-88; Code 1985, § 4-73; Ord. No. 117, § 1, 2-20-1968)

Sec. 7-8-14. Display.

The license required by this article shall be framed under glass and placed so that it is conspicuous and may be easily read at all times.

(Code 1985, § 4-74; Code 1967, § 5-89)

Sec. 7-8-15. Licensee's employees.

Before a person is employed to dispense beer, said person shall provide proof acceptable by the permits office of the City of Memphis that such person is not in violation of T.C.A. § 57-5-301.

(Code 1967, § 5-90; Code 1985, § 4-75; Ord. No. 3958, § 1(2), 5-8-1990; Ord. No. 4112, § 1, 6-16-1992; Ord. No. 5459, § 8, 7-17-2012)

Sec. 7-8-16. Revocation.

A. All licenses issued under this article shall be revocable in the discretion of the alcohol commission, and whenever it shall be brought to the attention of the alcohol commission that any declaration of fact contained in the application is false, or that there has been any violation thereof, or that the limitations and conditions of the license have been violated, or that the licensee permits minors to frequent or loiter around his or her place of business or permits gambling or gambling devices thereon, or permits drunken, disreputable or disorderly persons, or persons heretofore connected with the violation of liquor laws to make it a customary place of visitation or resort, or otherwise violates any of the provisions or restrictions of the state law or of this chapter, the alcohol commission shall revoke such license. Such revocation shall become final after five days, unless the licensee, within five days, demands a hearing before the alcohol commission, at which hearing the burden shall be upon the licensee to show that he or she has not violated the declaration of fact or statements contained in his or her application, or the limitations or restrictions upon his or her license, and that he or she has not violated the state law or the provisions of this chapter. The action of the alcohol commission at such hearing in arming or setting aside the revocation of such license shall be final, except as same is subject to review at law.

B. Three violations of the provisions or restrictions of state law or city ordinances during a two-year period by any licensee shall result in the automatic revocation of the licensee's license in accordance with the rules and procedures otherwise established by this ordinance and state law.

C. Any licensee whose license is revoked shall not be eligible to receive a license for three years from the date of revocation.

D. No permit for off-premises consumption will be issued for any subsequent applicant for a location where a license has been revoked under this chapter for three years from the date of revocation.

(Code 1967, §5-92; Code 1985, § 4-76; Ord. No. 117, § 1, 2-20-1968; Ord. No. 2694, § 3,2-13-1979; Ord. No. 5223, § 2, 2007)

Sec. 7-8-17. Records to be kept—List of licenses to be filed with collector of licenses and privileges and director of police.

The secretary of the alcohol commission shall preserve a complete record of applications received and licenses granted and refused under this article and all protests and hearings held by the commission. Such secretary shall file with the collector of licenses and privileges and with the director of police a complete list of licenses issued by the commission, giving the name, place and nature of the license.

(Code 1967, § 5-93; Code 1985, § 4-77; Ord. No. 117, § 1, 2-20-1968)

Sec. 7-8-18. Beer or alcoholic beverage sales in McCarver Stadium—Park commission's authority to permit.

Notwithstanding any other provisions of this chapter to the contrary, the city park commission is authorized and empowered in its discretion to permit the sale of beer and alcoholic beverages for consumption on the premises in McCarver Stadium at such times and events and under such terms, conditions, rules and regulations as such commission may establish for that facility.

(Code 1967, § 5-94; Code 1985, § 4-78; Ord. No. 322, § 1, 11-12-1968; Ord. No. 3066, § 1, 10-14-1980)

Sec. 7-8-19. Beer or alcoholic beverage sales in Coliseum—Board's authority to permit.

Notwithstanding any other provisions of this chapter to the contrary, the Coliseum board is authorized and empowered in its discretion to permit the sale of beer and alcoholic beverages for consumption on the premises in the Coliseum at such times and events and under such terms, conditions, rules and regulations as such board may establish for that facility.

(Code 1967, § 5-95; Code 1985, § 4-79; Ord. No. 323, § 1, 11-19-1968; Ord. No. 3066, § 1(2), 10-14-1980)

Sec. 7-8-20. Beer or alcoholic beverage sales in Liberty Bowl Memorial Stadium—Park commission's authority to permit.

Notwithstanding any other provisions of this chapter to the contrary, the city park commission is authorized and empowered in its discretion to permit the sale of beer and alcoholic beverages for consumption on the premises in Liberty Bowl Memorial Stadium at such times and events and under such terms, conditions, rules and regulations as such commission may establish for that facility.

(Code 1967, § 5-97; Code 1985, § 4-80; Ord. No. 2071, § 1, 6-25-1974; Ord. No. 3066, § 1(3), 10-14-1980)

Sec. 7-8-21. Permit for special event.

A beer permit for a special event may be issued for a specific location for a period not to exceed 30 days, upon the following conditions:

A. Application is made stating the dates and time permit will be used during the 30-day period;

B. Application is made setting out the purpose upon forms supplied by the secretary of the alcohol commission, the application to be approved at any regular or special meeting of the alcohol commission;

C. Approval is received from the city and county health department, the city building department, the city fire department, the police services division, the board of supervisors of public solicitation of funds, and/or any other affected governmental agencies;

D. Exemption has been granted by the city council of the conditions as set forth in section 12-84-20 of this Code;

E. The required business or other necessary licenses and permits have been issued for the event.

(Code 1967, § 5-98; Code 1985, § 4-81; Ord. No. 2694, § 4, 2-13-1979; Ord. No. 3067, § 1, 10-21-1980)

Sec. 7-8-22. Prohibited sexual or pornographic conduct—Penal provisions.

In any location holding a valid license to store, sell, distribute or manufacture beer or any beverage with an alcoholic content of not more than five percent by weight and any other beverage of like alcoholic content, the following acts or conduct on licensed premises are deemed contrary to public policy and shall be subject to all penal provisions provided by law:

A. Live entertainment is permitted on any licensed premises, except that:

1. No person shall perform acts of or acts which simulate:

a. Sexual intercourse, masturbation, sodomy, bestiality, cunnilingus, fellatio, flagellation or any sexual acts which are prohibited by law;

b. The touching, caressing or fondling of the breasts, buttocks, anus or genitals; or

c. The displaying of the pubic hair, anus, vulva or genitals.

2. Subject to the provisions of subsection A of this section, any entertainer who is employed in whole or in part, whether directly or as independent contractor or agent, by the licensee to dance at such licensee's premises shall perform only upon a stage at least 18 inches above the immediate floor level and the edge of the stage must be at least 12 inches from the nearest patron.

B. No person shall use artificial devices or inanimate objects to depict any of the prohibited activities described in subsection A of this section.

(Code 1985, § 4-82; Ord. No. 4049, § 1, 7-2-1991)

Sec. 7-8-23. Sales in the Beale Street Historic District.

A. Notwithstanding any other provisions of this chapter to the contrary, the alcohol commission is authorized and empowered in its discretion to permit the sale of beer and alcoholic beverages for consumption outside the clubs, but within the Beale Street Historic District at such times and events and under such terms, conditions, rules and regulations as such commission may establish for the district.

B. Outside bars cannot be more than ten feet from the business establishments which use these bars for beverage sales.

C. No beverages, alcoholic or nonalcoholic, will be permitted in glass or metal containers outside of the business establishments within the Beale Street Historic District.

(Code 1985, § 4-83; Ord. No. 4187, § 1, 6-22-1993)

Sec. 7-8-24. Sales for off-premises consumption by beer manufacturers operating as restaurants.

Notwithstanding any other provisions of this chapter, or any rule or regulation of the City of Memphis Alcohol Commission to the contrary, any manufacturer of beer operating as a restaurant and licensed to sell beer for consumption therein shall have the right to sell beer to go, provided that such beer is manufactured within the premises of the restaurant and is sold unopened and in the original container.

(Ord. No. 5276, § 1, 10-21-2008)

Sec. 7-8-25. Caterer's permit.

Notwithstanding any other provisions of this chapter, or any rule or regulation of the City of Memphis Alcohol Commission to the contrary, any brewery meeting the exemption requirements set forth in T.C.A. § 57-5-101 (c)(1)(A) that does not also operate as a restaurant as defined in section 9-52-1 of this Code ("brewery"), shall be subject to the following provisions and restrictions:

A. *Legislative intent.* The intent of this section is to recognize the distinction between breweries with tasting rooms and other establishments that sell alcoholic beverages, specifically that a brewery tasting room is an adjunct to the primary business of manufacture and sale to wholesale or retail establishments. It being the intent of this section to encourage the growth of local business and tourism while protecting the public welfare and morals.

B. *Permit required.* Each brewery with a tasting room in which beer is to be manufactured and sold must apply for a beer permit through the City of Memphis Alcohol Commission in conformity with section 7-8-7 above. Such permit application shall make reference to the fact that the application is for a brewery with a tasting room. The permit application shall conform to all onpremises permit requirements if the brewery intends to allow the consumption of beer in its tasting room, but so long as the application is accompanied by a sworn petition indicating that the restrictions of subsection D of this section are met, then there shall be no requirement for a brewery with a tasting room to maintain kitchen facilities or serve food.

C. *On and off premises consumption allowed.* So long as the tasting room of the brewery conforms with the requirements of subsection D below, breweries with tasting rooms shall be authorized to sell beer manufactured on premises for on-premises consumption or off-premises consumption (off-premises consumption shall include beer sold to licensed wholesalers or retail establishments) so long as all beer sold for off-premises consumption is in the original, sealed container.

D. *No food requirement—Restrictions.* No brewery with a tasting room shall be required to serve food, maintain kitchen facilities or conform to any requirement relating to the percentage of sales attributable to food so long as it:

1. Does not engage in the sale of any alcoholic beverage other than beer manufactured on premises;
2. Does not derive more than 25 percent of its gross annual income from the sale of beer for consumption on premises;
3. Does not open to the public for any period between the hours of 12:00 a.m. and 12:00 p.m.;
4. Does offer water or other non-alcoholic beverages at no cost to its patrons;
5. If located within a 500-foot radius or 250-foot radius of a church, a school or certain enumerated residential zoning districts as set forth in section 7-8-11(B) above, shall not open to the public on Sundays before 12:00 p.m. and shall close to the public each Sunday through Thursday no later than 10:00 p.m., this section being intended to prevent traffic congestion, to reduce noise and to protect the public welfare and morals of the community.

(Ord. No. 5490, § 1, 1-22-2013; Ord. No. 5459, § 9, 7-17-2012; Ord. No. 5825, §§ 3, 4, 6-7-2022)

CHAPTER 7-12. TAX ON RETAIL SALES OF ALCOHOL FOR ON-PREMISES CONSUMPTION

Sections:

Sec. 7-12-1. Definitions.
Sec. 7-12-2. Tax imposed—Amount—Term.

Sec. 7-12-1. Definitions.

As used in this chapter:

Club means a nonprofit corporation organized and existing under the laws of the State of Tennessee, which has been in existence at least two years prior to the application for a license hereunder having at least 100 members regularly paying dues, organized and operated exclusively for pleasure, recreation and other nonprofit purposes, no part of the net earning of which inures to the benefit of any shareholder or member and owning,

hiring or leasing a building or space therein for the reasonable use of its members with suitable kitchen and dining room space and equipment and maintaining and using a sufficient number of employees for cooking, preparing and serving meals for its members and guests; provided that no member or officer, agent or employee of the club is paid, or directly or indirectly receives, in the form of salary or other compensation, any profits from the sale of spirituous liquors, wines, champagnes or malt beverages beyond the amount of such salary as may be fixed by its members at an annual meeting or by its governing body of the general revenue of the club. For the purpose of this section, tips which are added to the bills under club regulations shall not be considered as profits hereunder. The alcohol commission shall have specific authority through rules and regulations to define with specificity the terms used herein and to impose additional requirements upon applicants seeking a club license not inconsistent with this definition.

Common carrier includes any mode of transportation, by train, plane, ship, boat, or other vehicle operating under certificates of public convenience and necessity issued by the appropriate federal or state agency, with adequate facilities and equipment for serving passengers, on regular schedules, or charter trips, while moving through any county of the state, but not while any such common carrier is stopped in a county or municipality that has not legalized such sales.

Hotel (motel) means every building or other structure kept, used, maintained, advertised and held out to the public to be a place where food is actually served and consumed and sleeping accommodations are offered for adequate pay to travelers and guests, whether transient, permanent, or residential, in which 50 or more rooms are used for the sleeping accommodations of such guests and having one or more public dining rooms, with adequate and sanitary kitchen and a seating capacity of at least 75 at tables, where meals are regularly served to such guests, such sleeping accommodations and dining rooms being conducted in the same building or in separate buildings or structures used in connection therewith that are on the same premises and are a part of the hotel operation. Motels meeting the qualifications set out herein for hotels shall be classified in the same category as hotels. Hotels shall have the privilege of granting franchises for the operation of a restaurant on their premises and the holder of such franchise shall be included in the definition of hotel hereunder, and property contiguous to a hotel.

Restaurant means any public place kept, used, maintained, advertised and held out to the public as a place where meals are served and where meals are actually and regularly served, without sleeping accommodations, such place being provided with adequate and sanitary kitchen and dining room equipment and seating capacity of at least 75 people at tables, having employed therein a sufficient number and kind of employees to prepare, cook and serve suitable food for its guests. At least one meal per day shall be served at least five days a week, with the exception of holidays, vacations and periods of redecorating, and the serving of such meals shall be the principal business conducted.
(Code 1967, § 5-111; Code 1985, § 4-116; Ord. No. 604, § 1, 12-16-1969)

Sec. 7-12-2. Tax imposed—Amount—Term.

A. There is levied and imposed a privilege tax to be paid to the collector of licenses and privileges of the city in the amounts and in accordance with the terms and conditions herein stated upon each person, firm, corporation, partnership or association who may be authorized to engage in the business of selling at retail alcoholic beverages for consumption on the premises within the city. The amount of privilege tax levied and imposed shall be as follows:

1.	Private club	$300.00
2.	Hotel and motel	$1,000.00
3.	Restaurant, according to seating capacity, on licensed premises:	
	75—125 seats	$600.00
	126—175 seats	$750.00
	176—225 seats	$800.00
	226—275 seats	$900.00
	276 seats and over	$1,000.00

B. The amount of privilege tax aforesaid shall be for the period of one year commencing January 1 of each year and expiring on December 31 of each year, and shall be paid upon receipt of a license from the state authorizing the business of selling at retail alcoholic beverages for consumption on the premises. The original payment of the privilege tax shall be prorated for the remaining quarters or portions thereof, of that calendar year. This tax shall be effective from and after January 1, 1970.
(Code 1967, § 5-110; Code 1985, § 4-117; Ord. No. 604, § 2, 12-16-1969)

CHAPTER 7-16. INSPECTION FEES*

Sections:

Sec. 7-16-1. Definitions.
Sec. 7-16-2. Fee levied on retailers—Computation.
Sec. 7-16-3. Wholesalers.
Sec. 7-16-4. Enforcement.

Sec. 7-16-1. Definitions.

For the purposes of this chapter the following definitions shall apply:

Alcoholic beverages shall have the same meaning as ascribed by section 7-4-1.

Retailer means a person who sells alcoholic beverages for consumption and not for resale.

Wholesaler means a person who sells alcoholic beverages to retailers, and shall include distributors, distillers, or any person making sales to retailers.
(Code 1985, § 4-131; Ord. No. 3508, § 2, 11-5-1985)

Sec. 7-16-2. Fee levied on retailers—Computation.

A. For the purpose of providing a means of regulating the liquor business in the city and pursuant to the authority granted the city by Chapter 87 of the Public Acts of the General Assembly of Tennessee for 1969, there is levied and imposed against retailers an inspection fee at the rate of five percent on all purchases of alcoholic beverages made by such retailers from wholesalers. The fee shall be measured by the wholesale price of the alcoholic beverage sold by the wholesaler and paid by the retailer to the wholesaler, and shall be five percent of such wholesale price.

B. The fee levied by this chapter shall be added by the wholesaler to each invoice for alcoholic beverages sold to each retailer within the city and shall be collected by the wholesaler at the time of the sale or at the time the retailer makes payment for the delivery of the alcoholic beverages.
(Code 1985, § 4-132; Ord. No. 3508, § 1, 11-5-1985)

Sec. 7-16-3. Wholesalers.

A. *Monthly reports; collection and remittance of fee.* Each wholesaler making sales to retailers within the city, shall furnish to the city treasurer a report monthly which report shall contain a list of alcoholic beverages sold to each retailer within the city, the wholesale price of the alcoholic beverages sold to each retailer, the amount of tax due, and such other information as shall be required by the city treasurer. The monthly report shall be furnished to the city treasurer not later than the 20th day of the month following which the sales were made, and the inspection fees collected by the wholesaler from the retailer shall be paid to the city treasurer at the time the monthly report is made.

B. *Reimbursement.* Wholesalers collecting and remitting the above inspection fee to the city shall be entitled to reimbursement for this collection service, a sum equal to five percent of the total amount of inspection fees collected and remitted, such reimbursement to be deducted and shown on the monthly report to the city treasurer.

C. *Penalties.* Failure to collect or timely report and/or pay the inspection fee collected shall result in a penalty of ten percent of the fee due the city which shall be paid to the city treasurer.

D. *Access to wholesalers' records.* The city treasurer and his or her authorized representative shall have access to the pertinent records and books of all wholesalers at reasonable times for the purpose of ascertaining and verifying the taxes due under the provisions of this chapter.
(Code 1985, § 4-133; Ord. No. 3508, § 3, 11-5-1985)

Sec. 7-16-4. Enforcement.

The city treasurer is authorized and empowered to take any and all steps necessary to enforce the payment of any inspection fees due under the provision of this chapter.
(Code 1985, § 4-134; Ord. No. 3508, § 4, 11-5-1985)

***State law reference—**Municipal inspection fees, T.C.A. § 57-3-501 et seq.

CHAPTER 8-1. SCOPE OF CHAPTER AND DEFINITIONS

Sections:

Sec. 8-1-1. Scope of Chapter.
Sec. 8-1-2. Definitions.

Sec. 8-1-1. Scope of Chapter.

Conduct which is in violation of this Chapter shall constitute an ordinance offense for which a summons may be issued.

This title does not bar, suspend, or otherwise affect any right or liability for damages, penalty, forfeiture, or other remedy authorized by law to be recovered or enforced for a criminal offense as set forth in T.C.A. Title 39, or in a civil suit for conduct that the state criminal code defines as an offense, and the civil injury is not merged into the offense.
(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-1-2. Definitions.

As used in this chapter, the following terms shall have the meanings ascribed to them herein, except when the context requires otherwise:

Abandonment means an animal that has not been provided adequate conditions as defined in this chapter, and whose owner failed to respond within 24 hours to an official notice left by animal services officers at the location where the dog is kept.

Adequate care shall include but not be limited to current vaccinations and/or medical treatment for illness, injury, disease, excessive parasitism, or any malformations; regular grooming to prevent matting which could lead to disease or injury; and nail clipping so no toenail grows long enough to penetrate the paw or affect the normal position of the paw.

Adequate conditions shall include but not be limited to adequate care, food, shelter, general maintenance, and water as defined in this section.

Adequate food means food that is not spoiled or contaminated and is of sufficient quantity and quality to meet the normal daily dietary requirements for the condition and size of the animal. Adequate food may be impacted by the environment in which the animal is kept and must be taken into account by the owner/custodian. An animal shall be fed or have food available at least once each day, unless a licensed veterinarian instructs otherwise, or withholding is in accordance with accepted agricultural or veterinarian practices. Food stored outside must be kept in sealed containers to prevent vermin from accessing it.

Adequate shelter means a four-sided ventilated structure in good repair with an entrance on one side, a roof, and a solid floor and allows the dog to remain reasonably dry and maintain normal body temperature. The dimensions of the entrance and structure shall allow each dog present to enter, stand, turn around, and lie down in a natural manner, whether in the same structure or by providing multiple structures, and protect the dog from adverse weather and direct sunlight. During cold weather, the structure must contain bedding material that is sufficient to promote the retention of body heat and during summer months a separate natural or artificial shaded area must be available outside the structure and accessible by the dog. "Adequate shelter" does not include the space under buildings, decks, steps, or open crates and carriers designed for temporary housing unless modified to meet the requirements of this section. The shelter shall be cleaned regularly enough so as not to force the animal to stand, sit or lie in bodily waste. The enclosure in which the structure is located must be of a square footage sufficient to allow the dog to defecate at one end and lie at least twice its length away at the other end of the enclosure.

Adequate water means potable water provided continuously and changed out no less than once daily. The animal must have uninhibited access to the water. Adequate water may be impacted by environment in which the animal is kept and must be taken into account by the owner/custodian.

Animal means a domesticated living creature or species of life different from man or plants or a wild creature previously captured and domesticated.

Animal services officer means any person assisting the animal services director authorized to impound animals and issue ordinance summons.

Animal services director means a person in charge of the city's animal services division, as designated by the mayor, and hereafter referred to as "director."

Bite scale means a standardized measurement tool used for determining the severity of a bite inflicted on a human or animal based on the physical damage the bite causes to the victim.

Cat means any animal of the domestic feline family.

Community cat means a cat that lives outdoors, is unowned/semi-owned, and free-roaming typically in a colony. Behavior is not an indicator of community cats as they can be friendly or "feral"(unsocialized). An ear-tip is an indicator that the cat is a community cat and has been sterilized.

Companion animal means domesticated animals kept in or near the household for the primary purpose of companionship for members of the household and/or companionship for other such animals. This includes dogs, cats, rabbits, guinea pigs, hamsters, domesticated rats, domesticated mice, ferrets, birds, reptiles, amphibians, invertebrates, and any other species that a reasonable person would consider to be a pet.

Competent person means any person 18 years old or older, who is able to comprehend and understand the nature of their responsibility, and has sufficient ability, mentally and physically, to handle any particular animal he or she may take charge of or have in their control.

Cruelty shall be defined in accordance with T.C.A. § 39-14-202.

Dangerous dog for the purposes of this chapter means any dog which:

a. attacks and bites a person, animal, or community cat without provocation, causing serious illness, injury or death including but not limited to a major fracture, muscle tears, or lacerations requiring multiple sutures or corrective or cosmetic surgery;

b. any dog previously declared dangerous in a court of law;

c. any dog owned or harbored for the purpose of dog fighting, to include animals bred for this purpose;

d. any dog that has committed a bite that scores at least a level 3 or higher on a nationally recognized bite scale as defined herein and been found at-large twice;

e. any dog that has bitten twice with at least one of the bites scoring a level 3 or higher on a nationally recognized bite scale as defined herein.

Dog means any animal of the canine family.

Ear tip means a procedure to remove the distal one-quarter of a cat's left ear for identification purposes and done under anesthesia during a sterilization surgery.

Employee means any person employed by the city under the management of the city's animal services division.

Fee schedule means fees charged for any services requiring payment at animal services, which shall be approved by the animal services director and authorized by passage of a resolution by the council. A current copy of the fee schedule shall be posted on the city of Memphis' website and in a conspicuous place in the Memphis Animal Services facility.

Fertile/unaltered animal means an animal which can produce offspring.

Fowl means any domesticated or undomesticated chickens, ducks, geese, turkeys, or other such birds as may be so designated by the director of the city's animal services division.

General maintenance means adequate care, conditions, food, shelter, and water as defined by this chapter and encompasses all reasonable measures to promote the health and safety of the animal.

Gross neglect means a conscious and voluntary disregard for adequate conditions as defined herein, which is likely to cause foreseeable grave injury or harm to a companion animal. Gross neglect is conduct that a reasonable person would consider extreme when compared with ordinary neglect or mere failure to provide adequate conditions.

Guard dog means any dog trained or used to protect persons or property by attacking or threatening to attack any person found within the area patrolled by the dog. Subject to the regulations set forth herein, nothing shall prohibit or limit a person's right to possess a dog for protection to their person or property. No person shall use a dog as a weapon or to threaten or harass other persons or animals.

Humane trap means a cage equipped with a trap door which, when tripped, locks an animal or fowl within the structure unharmed.

Inclement weather conditions shall mean rain, hail, sleet, snow, high winds, extreme low temperatures, or

extreme high temperatures, or any environmental condition sufficient to threaten the health and/or safety of a companion animal.

Livestock means animals such as cattle, cows, swine, sheep, horses, mules, goats, or any animal designated as such by the director of the city's animal services division.

Ordinance summons means a written order to appear in court for alleged violations of any part of this chapter, issued by an animal services officer.

Owner means any person, partnership or corporation owning an animal; or any person who feeds, shelters, or harbors an animal or permits it to remain on the person's property. If any dog is found on the premises of any person for a period of ten days or more, it shall be prima facie evidence that such dog belongs to the occupant of such residence. Any person keeping or harboring a dog for ten consecutive days shall, for the purpose of this chapter, be declared to be the owner thereof, and liable for violations of this title. If the animal is owned by a person under the age of 18 that person's parent or guardian shall be liable.

Properly fitted collar or *harness* means a band of material specifically designed to be placed around the neck of a dog or a set of straps constructed of nylon, leather, or similar material, specifically designed to restrain, or control a dog that is:

a. appropriately sized for the dog based on the dog's measurements and body weight;

b. does not choke the dog or impede the dog's normal breathing or swallowing; and not cause pain or injury to the dog.

Provocation, regarding a dangerous dog means and includes trespassing on property, teasing and release of the dog from its restraint, an attempt to injure the dog or the dog's owner or the individual in possession thereof or other such actions. Entry on property by persons with actual or implied permission of the owner or occupant, including a postal service employee or other authorized government or service employee, shall not in and of itself be characterized as provocation. Provocation can also include actions by another animal which justifiably incited the attack. The burden of proof as to provocation shall be with the owner of the dog.

Restraint means a chain, rope, tether, leash, cable, or other device that attaches a dog to a stationary object or trolley system.

Severe injury means any physical injury that results in broken bones, multiple punctures, or disfiguring lacerations, requiring sutures or cosmetic surgery.

Shelter-neuter-release (SNR)/Trap-neuter-release (TNR) means stray, owned or unowned, cats who are brought into the custody of the shelter, spayed/neutered, ear-tipped, vaccinated, and returned to location of pick-up.

Steel trap means a contraption which, when engaged, locks an animal or fowl in place by applying pressure against any part of its body.

Sterile/altered animal means an animal which has been surgically rendered incapable of producing offspring.

Unprovoked attack means an attack in which an animal without provocation as defined herein attacks or bites a human being or another animal.
(Ord. No. 5843, § 1, 7-11-2023)

Chapter 8-2. ANIMALS GENERALLY

Sections:

Sec. 8-2-1. Trapping animals.
Sec. 8-2-2. Striking or hitting an animal with a moving vehicle.
Sec. 8-2-3. Disposal of animals.
Sec. 8-2-4. Roadside sale of animals prohibited.
Sec. 8-2-5. Kennel licenses.

Sec. 8-2-1. Trapping animals.

It is unlawful for any person to set or bait any steel leg-trap or other contrivance which would maim, mutilate, or seriously injure any animal, excluding animals commonly referred to as vermin.
(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-2-2. Striking or hitting an animal with a moving vehicle.

It is unlawful for any person driving a vehicle to strike or hit any animal upon a public right-of-way or any public property without stopping and assisting the animal, or in the alternative notifying Memphis Animal Services or the Memphis Police Department immediately,

excluding animals commonly referred to as vermin as contemplated in Code of Ordinances Title 9 Health and Safety.
(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-2-3. Disposal of Animals.

No person shall leave or throw into any stream or river, nor leave exposed or bury the body, or any part thereof, of any animal, nor shall the same be kept where it may be dangerous to the life or detrimental to the health of any person. The sanitation services division of the city shall be promptly notified by the owner/discoverer of any deceased animal and where it is located. The animal will be scanned for a microchip, animal services notified if a microchip or other identifying information is found, the deceased animal will then be removed and disposed of in a sanitary manner.
(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-2-4. Roadside sale of animals prohibited.

A. It shall be unlawful for any person, firm or corporation to attempt to sell, exchange, trade, barter, lease, rent, donate or display for a commercial purpose any animal on any roadside, public right-of-way, parkway, median, park, playground, swimming pool, other recreation area, or commercial or retail parking lot that is generally accessible by the public, regardless of whether such access is authorized.

B. This section shall not apply to any city animal shelter or nonprofit organization founded for the purpose of providing humane sanctuary or shelter for abandoned or unwanted animals pursuant to T.C.A. § 39-14-210 or any dealer licensed to sell at a flea market pursuant to T.C.A. § 44-17-101 et seq.

C. This section shall not be construed to prohibit the sale of certain animals by those engaged in the business of selling the same for consumption and who have obtained the appropriate licenses or permits to conduct such activity.

D. This section shall not be construed to prohibit a properly licensed for-profit store from selling or donating any animals on the walkway or parking lot immediately adjacent to such store's physical address.

E. The sale, exchange, trade, barter, lease, rent, donation or display for a commercial purpose in violation of this section shall constitute for each animal a separate violation and be punishable by a fine in accordance with an amount allowed under state law for city ordinance violations.

F. Upon issuance of an ordinance summons for a violation of this section, the violator must immediately discontinue the activity.
(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-2-5. Kennel licenses.

A. Persons desiring to operate a commercial kennel where dogs and/or cats are owned, bred and/or held for sale must have an active kennel license issued by Memphis Animal Services to operate.

B. Prior to moving any animals into the facility, the person must submit a request to Memphis Animal Services for a kennel inspection via the online inspection request form available on the city's website.

C. Within 30 days of receipt of the request the requester will be notified when their inspection will occur.

D. At the time of inspection, an animal services officer will inspect the facility for adequate care and conditions and determine the maximum capacity of the facility.

E. Once the inspection is complete, the owner must show proof of inspection in-person at Memphis Animal Services to purchase a kennel license in accordance with the current fee schedule as defined in this chapter.

F. Persons holding an active kennel license shall not be required to pay the license fee prescribed in section 8-3-2, provided they can produce evidence that all dogs and cats on the property 12 weeks and older have been vaccinated for rabies and such vaccinations are current.

G. A kennel license is valid for one year, beginning during the month of purchase and expiring during the same month of the following year, and thereafter purchased annually on the same basis. Renewals require a reinspection to verify capacity/conditions at the facility and must be requested at least 30 days prior to the expiration of the existing license. No license is transferable.
(Ord. No. 5843, § 1, 7-11-2023)

CHAPTER 8-3. DOGS and CATS

Sections:

Sec. 8-3-1. Animal neglect and animal cruelty.
Sec. 8-3-2. Dog license tags required/Cat vaccination required.
Sec. 8-3-3. Mandatory spaying and neutering of cats and dogs.
Sec. 8-3-4. Fertile permit.
Sec. 8-3-5. Mandatory microchipping.
Sec. 8-3-6. Dogs running at-large.
Sec. 8-3-7. Defecation by dogs or cats.
Sec. 8-3-8. Guard dogs.
Sec. 8-3-9. Examination for rabies.
Sec. 8-3-10. Dangerous dogs; determination of dangerous dog.
Sec. 8-3-11. Dangerous dogs; duty of owner of dangerous dog.

Sec. 8-3-1. Animal neglect and animal cruelty.

A. Pursuant to this chapter, animal services may impound any animal suffering from gross neglect as detailed herein or animal cruelty.

B. Any person who shall, voluntarily or by necessity, take custody of any animal, on any property, shelter, or other place, shall supply to that animal adequate care, conditions, food, shelter, and water as defined in section 8-1-2 of this chapter.

C. Owners/custodians shall not allow any companion animal that is pregnant, nursing, or less than six months old to remain outdoors during inclement weather conditions unless such animal is accompanied by a custodian, keeper, or handler. In the event of extreme weather, as determined by the director of animal services, the owner/custodian must make alternate housing arrangements to ensure the health and safety of the pet if the provided shelter does not offer adequate protection from heat or cold exposure.

D. Inhumane transport of animals. No person shall carry or cause to be carried in or upon any vehicle or other conveyance, any creature in a cruel, inhumane, or unsafe manner. Whenever any person in violation of this section is taken into custody by an officer, the officer may take charge of such vehicle or other conveyance and its contents and deposit the same in some safe place of custody. Any necessary expense incurred for taking charge of and keeping and sustaining the vehicle or other conveyance and its contents shall be paid before the vehicle or other conveyance can be recovered.

E. Abandonment of dogs. No person may intentionally, knowingly, recklessly or with criminal negligence leave a dog at a location without providing adequate care as defined in this section, release a dog they have taken into their custody to run at-large, or tether the pet to a structure they do not own with the intent of abandonment. This includes dogs abandoned on the property of an animal shelter, veterinary clinic or any commercial or residential property.

F. If the animal services director or an animal services officer determines that evidence exists that any person has committed acts of animal neglect or cruelty knowingly, willfully or with gross neglect for the welfare of the animal, then misdemeanor or felony cruelty charges will be issued by the Memphis Police Department, in addition to any summons for an ordinance violation of this chapter.

(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-3-2. Dog license tags required/Cat vaccination required.

A. *Dogs—Licensing and vaccination.* It is unlawful for any person to own, have, harbor, keep or to cause or permit to be harbored, or kept in the city, any dog three months old or over, unless a current city license tag has been issued for such dog, subject to the exceptions provided in section 8-2-5(F). Prior to the issuance of a city dog license tag, the animal must receive a vaccination for rabies, or the owner of the animal must provide evidence that such animal has been so vaccinated and such vaccination is still current. In addition to the cost of the rabies vaccination, a city dog license tag shall be required for a 12-month period, beginning during the month of purchase, and expiring during the same month of the following year, and a license must thereafter be purchased annually on the same basis, in advance of such expiration date. Fees vary based on whether the animal is fertile or sterile, in accordance with the city's current fee schedule as defined in this chapter.

1. No license is transferable.

2. A city dog license tag may be purchased from the veterinarian at the time of vaccination or can be purchased at Memphis Animal Services.

3. If the license is purchased from a veterinary clinic, the veterinarian issuing the license may collect an agent's fee of $1.00 for this service.

4. If the license is purchased from a non-veterinarian source, such as Memphis Animal Services, the purchaser shall exhibit records from a licensed veterinarian, describing and identifying the animal and certifying its sterility, to pay the proper license fee. No license is transferable.

5. In the event a dog tag or license is lost, stolen or unavoidably mutilated, or damaged, the owner may apply for a duplicate license and tag. After investigation and upon payment of a fee in accordance with the city's current fee schedule as defined in this chapter, the director may, at their discretion, issue a duplicate license and tag.

B. *Cats—Vaccination.* It is unlawful for any person to own, have, harbor, keep or to cause or permit to be harbored, or kept in the city, any cat three months old or over, unless such person holds a current certificate of rabies vaccination for each such animal, subject to the exceptions provided in section 8-2-5(F).

C. The provisions of this section regarding licensing shall not apply to nonresidents traveling through the city or if the animal is staying temporarily for a period of less than 30 days.
(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-3-3. Mandatory spaying and neutering of cats and dogs.

No person shall own, harbor, or keep within the city a dog or cat which has not been spayed or neutered. It is a defense to prosecution under this section that:

1. The animal is under six months old;

2. A licensed veterinarian has certified within the past year that the dog or cat should not be spayed or neutered for health reasons or is permanently infertile;

3. The animal is being held for adoption by animal services or an animal welfare organization with an active 501(c)3;

4. The dog is documented as having been appropriately trained and actually being used by public safety agencies for law enforcement or search and rescue activities, or such dogs designated as breeding stock for law enforcement or search and rescue by an appropriate agency or organization and approved by the director of animal services;

5. The dog is designated by an appropriate agency or organization as breeding stock for service dogs such as guide dogs, hearing dogs, assistance dogs, seizure alert dogs, or social/therapy dogs, and approved by the director of animal services;

6. The dog is appropriately trained and actually being used for herding of other animals, or as a livestock guardian dog, hunting dog, or such dogs designated as breeding stock for these functions by an appropriate agency or organization and approved by the director of animal services;

7. The dog or cat is registered with a purebred dog or cat club, approved by the director of animal services, that maintains and enforces a code of ethics for breeding that includes restrictions on breeding dogs and cats with genetic defects and life-threatening health problems common to the breed.

8. The owner produces to the court proof of sterilization from a licensed veterinarian showing the dog or cat was sterilized at the time the summons was issued, or not later than 30 days after the summons was issued; or

9. The owner holds a valid fertile permit under section 8-3-4.

(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-3-4. Fertile permit.

A. Owners of fertile pets and not qualifying for any of the exemptions listed in section 8-3-3 must purchase a fertile permit in person during regular business hours from the division of animal services in accordance with the current fee schedule as defined in this chapter.

B. A separate permit is required for each unsterilized dog or cat. Each permit authorizes the whelping of no more than one litter per female in any 12-month period and no more than one litter per domestic household in any 12-month period.

C. The dog or cat must follow the vaccination requirements as defined in the Section 8-3-2 of this chapter to be eligible for a fertile permit.

D. The dog or cat must be microchipped to be eligible for a fertile permit.

E. Animals impounded for violation of this chapter are not eligible for a fertile permit purchase at the time the animal is reclaimed at animal services and must be spayed/neutered before leaving the facility unless another exemption defined in this chapter is met.

F. The director shall revoke a fertile permit if animal services determines that the permittee:

1. Failed to comply with any provision of this chapter;
2. Allows the offspring of a permitted dog or cat to be sold, adopted, or otherwise transferred, regardless of compensation, before the offspring have reached at least eight weeks old and have been vaccinated against common diseases;
3. Intentionally made a false statement as to a material matter to obtain a fertile permit.

(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-3-5. Mandatory microchipping.

A. The owner or custodian of any dog or cat must have the animal implanted with a registered microchip before the animal is six months old or within 30 after acquired if over six months.

B. A dog or cat is exempt from this requirement if the dog or cat is determined in writing to be medically unsuitable for microchipping by a licensed veterinarian.

C. The owner or custodian of a dog or cat shall maintain current registration with a microchip registration company.

1. The owner or custodian shall update contact information, including new address or telephone number with the microchip registration company within 30 days of the change in contact information.
2. After any change in ownership of a registered dog or cat, the initial owner or custodian shall be responsible for notifying the microchip registration company of a change in ownership within 30 days of transfer to the new owner. The new owner or custodian shall be responsible for re-registering the microchip to have the registration information transferred to the new owner's or custodian's name within 30 days after the change in ownership and for maintaining current contact information as described herein.

D. It is a violation of this chapter for any owner or custodian to fail to microchip or maintain current registration as described herein.

E. It is a defense to prosecution under this section that:

1. The animal owner is a non-resident of this city or has been a resident of this city for fewer than 30 days;
2. The animal is abandoned or lost and the temporary custodian possessed the dog or cat for fewer than 30 days; or
3. The owner produces to the court proof of microchipping from a licensed veterinarian showing the dog or cat was microchipped at the time the summons was issued, or not later than 30 days after the summons was issued.

F. Memphis animal services shall be authorized to provide funds, if available, to defray the cost of microchipping any dog or cat for any owner that cannot afford the cost thereof.

(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-3-6. Dogs Running at-large.

A. *Generally.* Dog owners or custodians shall always keep animals on a leash or other suitable restraint (as defined in subpart C) or confined by a fence on their property or, with permission, the private property of another. Dogs shall be restrained to prevent the animal from being at-large; biting; harassing any person engaged in a lawful act; interfering with the use of public or private property; or violation of any other section of this code. Unless confined by a fence or other suitable restraint, no animal shall be permitted to run at-large on the property of the owner or custodian of such animal.

B. *Walking dog on a leash.* Any person walking a dog on public property including sidewalks, or on the private property of others, must always keep the dog on a leash and under physical control. Physical control means the ability to restrain the movement of the dog. The leash must be kept in good condition, of sufficient strength to prevent breaking under pressure,; and of material generally resistant to chewing or gnawing by

an animal. The length of a leash must be sufficient to always control the dog from harassing pedestrians or other animals.

C. *Methods of restraint.*

1. *Dog restrained by traditional fencing.* To prevent the dogs from escaping fencing must be in good condition and maintained, of recognized construction methods, and of adequate size for the number and size of dogs. Entry or exit gates must be properly secured by a latching or locking mechanism. Fences should be at least 2½ times the height of the animal it is intended to restrain. The height of the dog is measured at the dog's shoulder when the dog is standing on four legs. If should a dog escapes from a fence, either by climbing or digging, additional fencing height, kennels, or other restraint methods may be required. Fencing must be sufficient to make an in-heat female dog inaccessible to any male dog and prevent the female dog from running at-large. Existing fencing, regardless of height, will be considered acceptable means of restraint unless and until a written and verified complaint is filed with Memphis Animal Services.

2. *Dogs restrained by invisible fencing.* As an alternative to traditional fencing, tie-outs or overhead cable runs, a dog may be restrained with invisible fencing properly set up and maintained.

The following conditions must be met:

a. The system must be rated for use by dogs, installed according to manufacturer's instructions, and properly maintained.

b. The dog must receive training regarding the boundaries of the fencing.

c. The fencing must be sufficient to make an in-heat female dog inaccessible to any male dog and prevent the female dog from running at-large.

d. Two warning signs of a minimum six inches by eight inches (6'×8') visible from the public sidewalks and public streets or driveways must be placed on the fenced yard. The signs must include the following: "Dog is contained by electronic device" or similar wording, the name, logo/trademark, address, and telephone number of either the company that installed the system or the company that maintains the system.

3. Dog restrained by tethering. As an alternative to fencing, dogs may be restrained by tether. No person shall allow any dog restrained by tether to remain outside and unattended unless all of the following conditions are satisfied:

a. The tether is not unreasonably heavy in proportion to the weight of the animal.

b. A swivel is located at both ends of the tether and the tether is free of tangles.

c. The collar or harness on the animal to which the swivel is attached is a properly fitted collar or harness as defined in this chapter. The collar must be made of a material which poses no risk of lacerations. Choke and pinch collars are not permitted on tethered dogs.

d. The tether is not less than ten feet in length.

e. At all times, the animal has access to water, shelter, dry ground free of standing water and animal waste, and access to adequate food.

f. The animal is at least three months old and has a current rabies vaccination with its tag visibly displayed.

g. The animal is not sick or injured.

h. If used, pulley, running line, or trolley systems are installed according to manufacturer's instructions and do not pose a safety risk to the dog.

i. If there are multiple animals, each animal must be tethered separately.

j. The tethering device shall allow the tethered dog to lie down comfortably in all positions of tether.

k. Dogs restrained by tie-outs or overhead cable runs must be spayed or neutered, even if otherwise subject to any exemption in this chapter.

D. *Exemptions.*

1. Dogs employed as police, service, therapy, and search and/or rescue dogs are exempt from the requirements of this section while used in their working capacity or while engaged in a train-

ing program with a recognized organization or government agency that regularly trains dogs for such use.

2. Dogs off-leash in areas designated for such use by departments of city government, or on grounds under their jurisdiction, and dogs engaged in conformation, competition, or performance related events on public or private property.

E. *Prima facie evidence.* If a dog is found running at-large by animal services employees, the incident shall constitute prima facie evidence that current restraint methods are inadequate. The owner shall be required to correct any conditions that permitted the dog to run-at-large or provide such additional restraints as necessary to secure and maintain the restraint of the dog.
(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-3-7. Defecation by dogs or cats.

A. It is unlawful for any owner/custodian of any dog or cat to fail to promptly remove and dispose in a sanitary manner of feces left by a dog or cat on property, public or private, other than the premises of the owner or custodian of such dog or cat.

B. Persons owning pet dogs or service dogs, such as seeing eye dogs, who are legally blind or confined to a wheelchair and thereby physically incapable of disposing of feces left by their animal, are exempt from this law.
(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-3-8. Guard dogs.

It is unlawful for any person to place or maintain guard dogs in any area of the city for the protection of persons or property unless the following provisions are met:

1. The guard dog shall be confined, or the guard dog shall always be under the absolute control of a custodian when not confined by way of lead or leash.

2. The owner or other persons in control of the premises upon which the guard dog is maintained shall post warning signs stating that such a dog is on the premises. At least one such sign shall be posted at each driveway or entranceway to said premises. Such signs shall be in lettering clearly visible from either the curb line or 50 feet, whichever is less, and shall contain a telephone number where some person responsible for controlling such guard dog can be reached 24 hours a day.

3. The above provisions shall not be applicable to dogs used in law enforcement by federal, state, or local law enforcement agencies.
(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-3-9. Examination for Rabies.

A. If any dog or cat has bitten any person and breaks the skin or is suspected of being infected with rabies, it shall be the duty of the owner or custodian to notify Memphis Animal Services within 24-hours of the bite, and to quarantine the pet for a ten day period. The animal shall be restricted to a building, pen, or other escape-proof enclosure and monitored for signs of rabies. Signs and symptoms of rabies can be found in the National Rabies Compendium on the Centers for Disease Control and Prevention website available at www.cdc.gov.

B. Quarantine.

1. Within 24-hours of the bite incident or first indication of rabies, the owner/custodian must contact Memphis Animal Services to provide proof of current rabies vaccination and to begin quarantine process at home or at a licensed veterinary clinic.

2. The owner/custodian must provide secure containment for the animal during the quarantine. If on day 11 the pet is exhibiting symptoms consistent with rabies, the owner must present the pet to a licensed veterinarian for examination. Written certification from the examining veterinarian of negative rabies status shall be provided to Memphis Animal Services withing 24 hours of receipt from veterinarian.

3. The owner/custodian must complete all documents provided by Memphis Animal Services to fulfill compliance requirements for this section.

4. At the end of the quarantine period and no later than 30 days of the bite incident, the animal must provide proof of or, if not previously, be fitted with a microchip implant and spayed/neutered even if otherwise subject to any exemption in this chapter.

C. Special circumstances.

1. The director of Memphis Animal Services may order the quarantine completed at the MAS facility if the attack resulted in a severe bite, mauling, and/or human death, the animal has a history of running at-large, or the animal is not properly confined by the owner during the quarantine period.

2. Any stray, unowned, or apparently abandoned animal that bites a human being will be held for ten-days. At the end of the ten-day holding period, the animal may be euthanized in an expeditious and humane manner. Any animal determined to have been involved in a bite incident and held for less than ten-days shall be tested at the state laboratory for rabies.

(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-3-10. Dangerous dogs; determination of dangerous dog.

A. If an animal services officer initially determines that a dog should be classified as dangerous as defined in this chapter or under T.C.A. § 44-17-120(a), notification will be sent to the owner or other responsible party. A mandatory ordinance summons shall be issued to the owner/custodian by the animal services officer citing the Code section violated and setting a date to appear in a court of competent jurisdiction for a determination. Any decision of the court shall be final, subject to appeal to a higher court of competent jurisdiction.

1. In the alternative a petition may be filed by Memphis Animal Services with the general sessions court, pursuant to T.C.A. § 44-17-120 (b), for a disposition order for the dangerous dogs or dogs causing death or serious bodily injury to humans or other animals.

2. If the owner does not appear before the court within five days of the receipt of notice and show cause why the dog should not be destroyed, then the order shall issue and the dog shall be destroyed.

B. Upon receipt of summons, the owner/custodian shall place their pet into a secure boarding facility until a final decision is issued by a judge. The owner/custodian has following options for secure boarding:

1. Upon payment of security bond to Memphis Animal Services according to the current fee schedule as defined in this chapter, the owner/custodian may board the dog at a licensed veterinary clinic at the owner/custodian's sole expense. The veterinary clinic must confirm in writing to the animal shelter director that the animal will be boarded in a private, licensed veterinary clinic. The purpose of the security bond it to ensure compliance pending all court appearances.

2. Alternately, without a security bond and at the owner/custodian's request and sole expense, the dog may be kept at Memphis Animal Services. The owner shall pay the daily boarding rate for each day or fraction thereof the dog remains at the shelter in accordance with the current fee schedule as defined in this chapter. The owner must pay for 30 days of care in advance. After the initial payment and until the court authorizes the release of the animal, the owner/custodian must pay the charge in advance, keeping the account ahead 30 days.

3. Alternately, the owner/custodian may elect to surrender the dog to Animal Services with a signed document requesting the dog be euthanized.

4. All payments to Memphis Animal Services must be made within ten days of issuance of the summons or within 24-hours of the defendant's initial court appearance whichever comes later. If the bond or boarding fees are not paid as required in this section, the animal shall be deemed forfeited.

5. After the satisfaction of fees, fines, and/or court-ordered payments, overpayments shall be returned to the owner/custodian within a reasonable time after of the final disposition of the case.

C. Failure of an owner to respond to the ordinance summons shall result in the animal being declared a dangerous dog by operation of law. The owner/custodian is deemed to have waived all rights to a hearing on the dog's classification. The animal shall be surrendered to Memphis Animal Services immediately or it shall be impounded. A show cause notice shall be issued requiring the owner/custodian to appear before the court within five days to show cause why the dog should not be euthanized. The show cause hearing is solely for determination of the issue of euthanasia.

Failure to appear or show cause will result in entry of a final surrender and disposition order permitting the dog to be euthanized.
(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-3-11. Dangerous Dogs; Duty of Owner of Dangerous Dog.

Upon conviction, a court of competent jurisdiction may order the defendant to:

A. Enroll, attend, and complete an approved animal behavior modification at the owner/custodian's expense.

B. *Registration and Tag.*

1. Within 30 days after an animal is classified as dangerous, the owner of the animal must obtain a dangerous dog tag for the animal from Memphis Animal Services. The tag shall be worn by the dog at all times and renewed annually. The animal services director, or their designee, is only authorized to issue such tags and renewals to persons who are at least 18 years old and who present to the animal services director, or their designee, sufficient evidence of:

a. A current certificate of rabies vaccination for the animal;

b. A proper enclosure to confine a dangerous animal and the posting at all entry points of the premises a clearly visible warning sign of a dangerous animal on the property or premises which reads:

WARNING
DANGEROUS DOG ON PREMISES

c. Proof that the dog has been spayed/neutered and microchipped;

d. Proof of a current public liability insurance policy or a bond of not less than $50,000.00 insuring the owner of the animal for any damages, whether arising from personal injury or otherwise, which may be caused by the dangerous animal. Such policy must provide for 30 days' notice to the city of Memphis Animal Services prior to cancellation or expiration of the policy. In the event such liability insurance or bond is canceled, lapses, or for any other reason becomes unenforceable, the owner shall be in violation of the provisions of this chapter and title;

e. Payment in accordance with the current fee schedule as defined in this chapter for the issuance of a dangerous dog tag.

2. If the owner/custodian does not obtain a dangerous dog tag within 30 days or fails to comply with any of the conditions listed herein, the classified dog shall be forfeited and must be immediately surrendered to Memphis Animal Services or shall be impounded by an animal services officer.

3. The owner/custodian shall immediately notify the appropriate animal control authority when an animal that has been classified as dangerous:

a. Is running at-large or unconfined;

b. Has bitten a human being;

c. Is sold, given away, or dies; prior to a dangerous animal being sold or given away, the owner shall provide the name, address, and telephone number of the new owner to the animal control authority; any new owner residing in the city must comply with all the requirements of this chapter and title without further order of the court.

d. Is moved to another address.

B. *Confinement outdoors.*

1. All dangerous dogs shall be confined in a securely enclosed and locked pen or kennel, except when leashed and muzzled as provided in this section.

2. Such pen, kennel or structure shall be at least 20 feet from any street or sidewalk, ten feet from any property line and must have secure sides and a secure top to the structure.

3. Such structures must be locked with a key or combination lock when any animal is within the structure.

4. Such structure must have a secure concrete bottom or floor attached to the sides of the pen or the sides of the pen must be embedded in the ground no less than two feet.

5. All structures erected to house dangerous animals must be a minimum of six feet by ten feet (6'×10') enclosure and comply with all zoning and building regulations of the city.

6. All such structures must meet the definition of adequate shelter as defined in this chapter and must be inspected and approved by Memphis Animal Services.

D. *Confinement indoors.* No dangerous animal may be kept on a porch, patio or in any part of a house or structure that would allow the animal to exit such building of its own volition. In addition, no such animal may be kept in a house or structure when any unbarred window is open or when any screened window or screen door is the only obstacle preventing the animal from exiting the structure.

E. *Leash and muzzle.*

1. No person shall permit a dangerous animal to go outside its kennel or pen unless such animal is securely leashed with a substantial restraint no longer than four feet in length.

2. No person shall permit a dangerous animal to be kept on rope or other type of leash outside of its kennel or pen unless a competent person at least 18 years old is in physical control of the restraint.

3. Such animal may not be leashed to inanimate objects.

4. All dangerous animals on a leash outside the animal's kennel must be muzzled to prevent such animal from biting persons or other animals. The muzzle should not cause injury to the animal or interfere with its vision or breathing but shall prevent it from biting any person.

F. Any dog charged as dangerous, notwithstanding a later finding of not guilty, must be fitted with a microchip implant and spayed/neutered within 30 days of the biting incident with no exceptions.

(Ord. No. 5843, § 1, 7-11-2023)

CHAPTER 8-4. LIVESTOCK AND FOWL

Sections:

Sec. 8-4-1. Neglect of livestock and fowl.
Sec. 8-4-2. Running at—Large of livestock and fowl.
Sec. 8-4-3. Keeping of livestock within 1,000 feet of residence or business.
Sec. 8-4-4. Killing birds.
Sec. 8-4-5. Unlawful to sell fowl as pets or novelties.

Sec. 8-4-1. Neglect of livestock and fowl.

No livestock or fowl shall be kept or confined where the water, shelter, ventilation, and food are not sufficient and wholesome for the preservation of its health and safe condition. No animal or fowl shall be kept in such place or condition as to become a nuisance either because of odor or contagious disease.

(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-4-2. Running at—Large of livestock and fowl.

It is unlawful for any person in charge of any animal defined in this chapter as livestock to permit it to run at-large upon any street, alley, or unenclosed lot within the city.

(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-4-3. Keeping of livestock within 1,000 feet of residence or business.

No person shall keep livestock within 1,000 feet of any residence or place of business in the city without a permit to do so from the health officer. The health officer shall issue permits only when the keeping of such animals in the yard or buildings, and under the circumstances set forth in the application for the permit, shall not injuriously affect the public's health. Domesticated pigs or other livestock that meet the definition of companion animal in this chapter are exempt from this provision.

(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-4-4. Killing birds.

A. The killing or attempting to kill any bird, other than domestic fowl, within the limits of the city, is prohibited, except as hereafter provided.

B. For control purposes and to alleviate public distress, and to promote public health, owners of private residential property and public commercial property are authorized to destroy or otherwise remove pigeons and/or birds located within the boundaries of their property, and to dispose of them in accordance with sanitation services procedures. In addition, such property owners may contract with pest control companies properly licensed and bonded by the state for the removal and disposition of pigeons or birds from their property. Such pest control companies shall dispose of such pigeons and/or birds in accordance with sanitation services procedures.

C. Whenever a homing pigeon bearing a ring or seamless leg-band with its registered number stamped thereon, or any protected wild bird, is found among pigeons trapped under this section, the same shall immediately be released from custody.

D. This section shall not be construed to permit the use of firearms to destroy pigeons and birds, and such use is expressly prohibited.
(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-4-5. Unlawful to sell fowl as pets or novelties.

A. It is unlawful for any person, firm, or corporation to display, sell, offer for sale, barter, or give away chicks or ducklings as pets or novelties. It shall further be unlawful for any person, firm or corporation to dye, color or otherwise artificially treat any animal or fowl.

B. This section shall not be construed to prohibit the display or sale of natural chicks, ducklings, or other fowl by those engaged in the business of selling the same to be raised for food purposes.
(Ord. No. 5843, § 1, 7-11-2023)

CHAPTER 8-5. MEMPHIS ANIMAL SERVICES

Sections:

Sec. 8-5-1. Establishment and supervision.
Sec. 8-5-2. Business hours.
Sec. 8-5-3. Badges, uniforms, and police power of animal services officers.
Sec. 8-5-4. Resisting or interfering with animal shelter employee.
Sec. 8-5-5. Aid and assistance by police.
Sec. 8-5-6. Enforcement; issuance of ordinance summons.
Sec. 8-5-7. Enforcement; limitation on action for violations.
Sec. 8-5-8. Enforcement; dismissal or entering nolle prosequi not prohibited.
Sec. 8-5-9. Enforcement; violation-penalty.
Sec. 8-5-10. Impoundment and redemption of cats.
Sec. 8-5-11. Impoundment and redemption of dogs.
Sec. 8-5-12. Impoundment, redemption, and disposition of livestock.
Sec. 8-5-13. Impoundment, redemption, and disposition of fowl.
Sec. 8-5-14. Adoption of animals.
Sec. 8-5-15. Euthanasia of abandoned or neglected animals.
Sec. 8-5-16. Animal services advisory committee.

Sec. 8-5-1. Establishment and supervision.

Memphis Animal Services is established under the executive division of the City of Memphis. The operation and management of such service center shall be under the supervision of the director of animal services.
(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-5-2. Business hours.

Memphis Animal Services shall post in a conspicuous and prominent location at the shelter and on the shelter's website the business hours as designated by the animal services director, subject to concurrence by the chief operating officer of the City of Memphis.
(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-5-3. Badges, uniforms, and police power of animal services officers.

A. Animal services officers shall wear badges and uniforms identifying them as such and shall have the necessary police powers for the enforcement of this chapter. Animal services officers shall have the authority to issue ordinance summonses related to violations of this chapter or state law summons for such violations.

B. Pursuant to T.C.A. § 39-14-207(a), an animal services officer, who has a reasonable belief that an animal inside a home, fenced in yard, behind a locked gate, or in a vehicle has been without necessary food and water for more than 12 successive hours, may, as often as necessary, enter any place in which any animal is so confined, and to supply it with necessary food and water for as long as it remains so confined. That person

shall not be liable for such entry to any person in any legal action, and the reasonable cost of the food and water may be collected from the owner or keeper of the animal. The animal shall not be exempt from levy and sale upon execution issued upon a judgment therefor.

C. If an animal services officer who has a reasonable belief that an animal inside a home, fenced in yard, behind a locked gate, or in a vehicle needs emergency care, or that there is an imminent threat to the life or welfare of an animal behind one of these barriers, the officer may make entry to any place in which any animal is so confined for the purpose of taking temporary custody of the animal but only after obtaining a warrant, except that a warrant shall not be required if the animal services officer has a good faith belief that the animal has a medical condition or injury of such a nature that the failure to render immediate care would reasonably likely result in the animal's imminent death and otherwise complies with T.C.A. § 39-14-215.

D. Any animal that is found to be injured, diseased, suffering from the elements or malnourished and abandoned as defined in this chapter may be taken into temporary custody by an animal services officer.

E. Upon taking temporary custody of any animal under this section, the animal services officer shall attempt to contact the owner of the animal and shall seek emergency veterinary care for the animal, if necessary, as soon as available. The officer shall leave notification of temporary custody at the location the animal was found or at the registered address of the owner if the owner cannot be reached. The owner of the animal is responsible for any costs of providing care to the animal.
(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-5-4. Resisting or interfering with animal shelter employee.

It is unlawful for any person to resist or interfere with an animal services employee in the performance of their duties.
(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-5-5. Aid and assistance by police.

It shall be the duty of all police officers to render any assistance necessary.
(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-5-6. Enforcement; issuance of ordinance summons.

Any ordinance summons issued pursuant to this chapter shall be left with the offender and shall provide information related to the offense charged and the time and place when such offender is to appear in court. Failure of the offender to appear in court shall result in a default judgment against the offender in an amount allowed under state law for city ordinance violations, and/or a warrant issued in accordance with T.C.A. § 7-63-204.
(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-5-7. Enforcement; limitation on action for violations.

A. No action shall be commenced by the city in any court for the purpose of enforcing any violation of animal violation sections of the Code of the city after one year from the commission of the offense. For this section, a court action shall be deemed to be commenced:

1. Upon the issuance of an ordinance summons to the offender;

2. Upon the arrest of the offender; or

3. Upon the issuance of an arrest or bench warrant for the offender.

B. A summons may be served by:

1. Personal service on the offender; or

2. Registered or certified mail, addressee only, return receipt requested.

(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-5-8. Enforcement; dismissal or entering nolle prosequi not prohibited.

Nothing herein shall prevent the city, through the city attorney's office, from dismissing or entering a nolle prosequi of any ordinance summons in open court. Such ordinance summons shall be dismissed if it shall be determined that the summons was issued to a nonresident and is deemed uncollectible; there is a lack of proof; or for such other valid reason as stated to the court.
(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-5-9. Enforcement; violation-penalty.

A person in violation of any part of this chapter is guilty of a city ordinance violation. Upon conviction, a court of competent jurisdiction may order the defendant to:

1. Pay fines in accordance with an amount allowed under state law for city ordinance violations. Each day that any violation of this chapter continues may constitute a separate offense.
2. Be precluded from owning, harboring, or having custody or control of companion animals permanently, or for a period that the court deems reasonable.
3. Participate in available animal cruelty prevention programs and educational programs or both.
4. Undergo a behavioral health evaluation and comply with any recommendations resulting from the evaluation.
5. Forfeit to Memphis Animal Services animals that are the basis of conviction.
6. Sterilize the companion animals. Sterilization is mandatory upon a second violation.
7. Payment of all costs and expenses of enforcement of this ordinance, including veterinary treatment and care, and feeding and housing of animals surrendered or forfeited under this ordinance.
    a. Failure to pay any portion of fees and costs shall result in a lien upon the property of the owner subject to the city ordinance and state law.
    b. Liens shall be enforced by attachment proceedings in any court of competent jurisdiction and payment made directly to Memphis Animal Services.

(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-5-10. Impoundment and Redemption of Cats.

A. *Impoundment*.

1. *First impoundment.* Any non-community cat found running at large, abandoned, or subject to neglect, cruelty or any of the conditions described Section 8-5-3 or is not in compliance with any other provision of this chapter may be apprehended and impounded in the city animal shelter, and the owner notified, if known. If such cat has any ownership identification (tag, microchip, etc.), it shall be held for at least 72 hours during which time the owner may redeem or repossess the same upon payment of reclaim fees for impound and boarding in accordance with the current fee schedule as defined in this chapter. If not reclaimed or redeemed by the owner within such time, the animal will become the property of the shelter and the animal may be designated for disposition by the animal shelter director or their designee. If no ownership identification exists, the cat can be deemed a community cat and the 72 hour stray hold does not apply. If the cat is deemed a community cat and is not in need of medical attention, it shall be sterilized, ear-tipped, and returned to the location it was found. If the cat is less than 12 weeks old and no ownership identification exists, the kitten can be immediately placed for adoption, and a 72 hour stray hold does not apply.
2. *Second impoundment.* Should a cat belonging to the same owner be picked up for a second time within two years of the date of the first offense, the owner may redeem and repossess the cat upon payment of reclaim fees for 2nd impound and boarding in accordance with the current fee schedule as defined in this chapter. 72 hour stray hold provisions as described in subpart 1 still apply.
3. *Third impoundment.* Should a cat belonging to the same owner be picked up for a third time within three years of the date of the first offense, the owner may redeem and repossess the cat upon payment of reclaim fees for 3rd impound and boarding in accordance with the current fee schedule as defined in this chapter. The owner also must receive a summons for animal neglect as defined in this chapter. 72 hour stray hold provisions as described in subpart 1 still apply.

B. *Fees and costs.* Impoundment fees for any cat confiscated and held pending a court ruling for violations of section 8-3-1 of this section or any violation of state animal cruelty codes (T.C.A. § 39-14-201, et seq.) must be paid within 2 hours of impoundment for the owner to maintain claim to ownership rights for the

animal. If the court determine there is probable cause to proceed with the charges at the owner's first appearance in court, a security bond order will be issued by the presiding judge to cover boarding and additional fees in accordance with the current fee schedule as defined in this chapter. The security bond order shall be in an amount sufficient to cover all expenses from the date of impoundment through the date of the trial and shall be paid within ten days of the issuance of said order or ownership of the pet is forfeited to Memphis Animal Services. Should the trial date be reset for a later date, the owner of the animal will be presented with an updated security bond order at the next scheduled court appearance, which will also require payment within ten days of the issuance of said order or ownership of the pet is forfeited to Memphis Animal Services.

C. *Sterilization.* Any unaltered cat that is not eligible for an exemption to the mandatory spay/neuter ordinance as defined in this chapter will be altered before discharge from Memphis Animal Services. Exemption 1 (under six months old) of the mandatory spay/neuter ordinance does not apply for cats brought into the shelter, if a licensed veterinarian determines the cat is of sufficient age and weight to proceed with sterilization. A fertile permit cannot be purchased after a lawful impound occurs.

D. *Microchip implant.* Before release into the owner's custody, the director of animal services is authorized to have a veterinarian humanely implant any animal lawfully impounded with an electronic microchip that will allow the animal to be positively identified.
(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-5-11. Impoundment and redemption of dogs.

A. *Impoundment.*

1. *First impoundment.* If any dog is found running at large, abandoned or subject to neglect, cruelty or any of the conditions described Section 8-5-3 or is not in compliance with any other provision of this chapter shall be apprehended and impounded in the city animal shelter, and the owner notified, if known, except in cases where an owner can be located within a reasonable amount of time or when exigent circumstances exist preventing the animal services officer from impounding the dog. Such dog shall be held for at least 72 hours during which time the owner may redeem or repossess the same upon payment for, or presentation of, a current license therefor, and payment of reclaim fees for impound and boarding in accordance with the current fee schedule as defined in this chapter. If not reclaimed or redeemed by the owner within such time, the animal will become the property of the shelter and the animal may be designated for disposition by the animal shelter director or their designee. If the dog is less than 12 weeks old and no ownership identification exists, the puppy can be immediately placed for adoption, and a 72 hour stray hold does not apply.

2. *Second impoundment.* Should a dog belonging to the same owner be picked up for a second time within two years of the date of the first offense, the owner may redeem and repossess the dog upon presentation of a current license thereof and payment of reclaim fees for 2nd impound and boarding in accordance with the current fee schedule as defined in this chapter. 72 hour stray hold provisions as described in subpart 1 still apply.

3. *Third impoundment.* Should a dog belonging to the same owner be picked up for a third time within three years of the date of the first offense, the owner may redeem and repossess the dog upon payment of reclaim fees for 3rd impound and boarding in accordance with the current fee schedule as defined in this chapter. The owner also must receive a summons for dog running at-large as defined in this chapter. 72 hour stray hold provisions as described in subpart 1 still apply.

B. *Fees and costs.* Impoundment fees for any dog confiscated and held pending a court ruling for violations of section 8-3-1 of this section or any violation of State animal cruelty codes (T.C.A. § 39-14-201, et seq.) must be paid within 72 hours of impoundment for the owner to maintain claim to ownership rights for the animal. If the court determine there is probable cause to proceed with the charges at the owner's first appearance in court, a security bond order will be issued by the presiding judge to cover boarding and additional fees in accordance with the current fee schedule as defined in this chapter. The security bond order shall be in an amount sufficient to cover all expenses from the date of impoundment through the date of the trial and shall be paid within ten days of the issuance of said order or

ownership of the pet is forfeited to Memphis Animal Services. Should the trial date be reset for a later date, the owner of the animal will be presented with an updated security bond order at the next scheduled court appearance, which will also require payment within ten days of the issuance of said order or ownership of the pet is forfeited to Memphis Animal Services.

C. *Sterilization*. Any unaltered dog that is not eligible for an exemption to the mandatory spay/neuter ordinance as defined in this chapter will be altered before discharge from Memphis Animal Services, and a fertile permit cannot be purchased after a lawful impound occurs. Additionally, exemption 1 of the mandatory spay/neuter ordinance does not apply for dogs brought into the shelter, if a licensed veterinarian determines the dog is of sufficient age and weight to proceed with sterilization.

D. *Microchip implant.* Before release into the owner's custody, the director of animal services is authorized to have a veterinarian humanely implant any animal lawfully impounded with an electronic microchip that will allow the animal to be positively identified.
(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-5-12. Impoundment, redemption, and disposition of livestock.

A. Livestock found running at-large in violation of this chapter may be apprehended and placed into the animal shelter. Such livestock shall be held for at least 72 hours during which time the owner may redeem or repossess the same upon payment of reclaim fees for impound, trailering fees, and boarding in accordance with the current fee schedule as defined in this chapter. If not reclaimed or redeemed by the owner within such time, the animal will become the property of the shelter and may be designated for disposition by the animal shelter director or their designee.

B. Impoundment fees for any livestock confiscated and held pending a court ruling for violations of section 8-4-1 of this section or any violation of State animal cruelty codes (T.C.A. § 39-14-201, et seq.) must be paid within 72 hours of impoundment for the owner to maintain claim to ownership rights for the animal. If the court determine there is probable cause to proceed with the charges at the owner's first appearance in court, a security bond order will be issued by the presiding judge to cover boarding and additional fees in accordance with the current fee schedule as defined in this chapter. The security bond order shall be in an amount sufficient to cover all expenses from the date of impoundment through the date of the trial and shall be paid within ten days of the issuance of said order or ownership of the pet is forfeited to Memphis Animal Services. Should the trial date be reset for a later date, the owner of the animal will be presented with an updated security bond order at the next scheduled court appearance, which will also require payment within ten days of the issuance of said order or ownership of the pet is forfeited to Memphis Animal Services.
(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-5-13. Impoundment, redemption, and disposition of fowl.

A. Fowl found running at-large in violation of this chapter may be apprehended and placed into the animal shelter. Such fowl shall be held for at least 72 hours during which time the owner may redeem or repossess the same upon payment of reclaim fees for impound and boarding in accordance with the current fee schedule as defined in this chapter. If not reclaimed or redeemed by the owner within such time, the animal will become the property of the shelter and may be designated for disposition by the animal shelter director or their designee.

B. Impoundment fees for any animal confiscated and held pending a court ruling for violations of 8-4-1 of this section or any violation of State animal cruelty codes (T.C.A. § 39-14-201, et seq.) must be paid within 72 hours of impoundment for the owner to maintain claim to ownership rights for the animal. If the court determine there is probable cause to proceed with the charges at the owner's first appearance in court, a security bond order will be issued by the presiding judge to cover boarding and additional fees in accordance with the current fee schedule as defined in this chapter. The security bond order shall be in an amount sufficient to cover all expenses from the date of impoundment through the date of the trial and shall be paid within ten days of the issuance of said order or ownership of the pet is forfeited to Memphis Animal Services. Should the trial date be reset for a later date, the owner of the animal will be presented with an updated security bond order at the next scheduled court appearance, which will also require payment within ten days of the issuance of said order or ownership of the pet is forfeited to Memphis Animal Services.

C. The director of animal services, or designated staff member, is authorized to waive fees related to reclamation on a case-by-case basis.
(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-5-14. Adoption of animals.

Once an animal becomes the property of Memphis Animal Services by any method described in this chapter, the animal may be adopted in accordance with current adoption policies as enacted by the director of animal services, and upon payment of an adoption fee, licensing fee and fees for any other service supplied by Memphis Animal Services in connection with such animal. Each unaltered dog and/or cat will be sterilized by the shelter veterinarian prior to leaving the shelter, unless it is determined by the director of animal services that the pet should not be altered. Any individual taking an unaltered dog or cat from the shelter must comply with applicable ordinances and policies relating to unsterilized animals. If it is determined that a former owner of an animal is applying for adoption, such former owner may only regain ownership or possession by payment of redemption fees set forth in the current fee schedule as defined in this chapter.
(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-5-15. Euthanasia of abandoned or neglected animals.

The director of animal services, or their designee, may lawfully euthanize immediately, or cause to be euthanized immediately, any animal that is legally the property of the city of Memphis, or that is suffering, and euthanasia will end that suffering.
(Ord. No. 5843, § 1, 7-11-2023)

Sec. 8-5-16. Animal services advisory committee.

There is hereby created the animal services advisory committee, consisting of seven citizens of the city, who shall be appointed by the mayor, subject to approval of the city council, for a term of two years or until their successors are appointed and qualified, and who shall serve without compensation, or oath. The director of animal services shall be an ex officio member of such committee.

A. *Chairperson and secretary.* The chairperson and the secretary of the animal services advisory committee shall be designated by the mayor when making appointments to the committee.

B. *Rules and regulations.* The animal services advisory committee shall have the power to make rules and regulations for the conduct of its business. Such committee shall meet as prescribed by its rules, and upon call of its chairperson.

C. *Powers and duties.* The animal services advisory committee shall:

1. Provide guidance and support to the director of animal services based on each individual committee member's area of expertise.
2. Serve as community liaisons for animal services, helping spread messaging regarding quality pet ownership and how to access resources through MAS.
3. Support and advocate for progressive animal control and sheltering programming to keep Memphis in alignment with national best practices.

(Ord. No. 5843, § 1, 7-11-2023)

CHAPTER 8-8. ANIMALS GENERALLY

Sections:

Sec. 8-8-1. General maintenance requirements for animals and fowl.
Sec. 8-8-2. Running at large of livestock and fowl prohibited.
Sec. 8-8-3. Impoundment, redemption and disposition.
Sec. 8-8-4. Destruction of abandoned or neglected animals.
Sec. 8-8-5. Cruelty to animals.
Sec. 8-8-6. Trapping animals.
Sec. 8-8-7. Striking or hitting animal with moving vehicle.
Sec. 8-8-8. Killing birds—Prohibited generally.
Sec. 8-8-9. Killing birds—Removal of pigeons and birds from private, residential and commercial property.
Sec. 8-8-10. Keeping of livestock within 1,000 feet of residence or place of business.
Sec. 8-8-11. Disposal of animals.
Sec. 8-8-12. Unlawful to sell fowl as pets or novelties.
Sec. 8-8-13. Roadside sale of animals prohibited.

Sec. 8-8-1. General maintenance requirements for animals and fowl.

No animal or fowl shall be kept or confined where the water, shelter, ventilation and food are not sufficient and wholesome for the preservation of its health and safe

condition. No animal or fowl shall be kept in such place or condition as to become a nuisance either because of odor or contagion of disease.
(Code 1967, § 7-20; Code 1985, § 5-2; Ord. No. 3189, § 1, 3-9-1982)

State law reference—Cruelty to animals, T.C.A. § 39-14-202.

Sec. 8-8-2. Running at large of livestock and fowl prohibited.

It is unlawful for any person in charge of any animal, including, but not limited to cattle, swine, sheep, horses, mules, goats or any offensive animal, or any chickens, ducks, geese, turkeys or other fowl, to permit it to run at large upon any street, alley or unenclosed lot within the city.
(Code 1967, § 7-21; Code 1985, § 5-3; Ord. No. 3189, § 1, 3-9-1982)

Sec. 8-8-3. Impoundment, redemption and disposition.

A. Livestock and animals other than fowl. It shall be the duty of the administrator in charge of the city animal shelter, or his or her agent, to cause any animal, other than fowl, running at large in violation of section 8-8-2 to be apprehended and placed into the animal shelter. If, within three business days from the time such animal is impounded, the owner or person in charge of such animal calls for the same, such animal may be released upon payment of a $50.00 redemption fee, per animal, a $25.00 trailering fee, and $10.00 per day boarding fee, other than fowl. If no one comes forward to claim the above-incarcerated animals within the three business-day period, such animals shall be considered abandoned property and will become the property of the city.

B. Fowl. It shall be the duty of the administrator in charge of the animal shelter, or his or her agent, to cause fowl running at large in violation of section 8-8-2 to be apprehended and incarcerated in the city animal shelter.

C. If within three business days from the day such fowl is incarcerated the owner or person in charge thereof calls for same, such fowl may be released upon the payment of $10.00 for each fowl so impounded plus $7.00 for each day of confinement to defray the cost of the capture of such animal and the protection of the public.

D. If no one comes forward to claim the above-incarcerated fowl within the three-business-day period, such shall be considered abandoned property and will become the property of the city.
(Code 1967, §§ 7-22, 7-23; Code 1985, § 5-4; Ord. No. 3189, § 1, 3-9-1982; Ord. No. 4247, § 11, 4-5-1994; Ord. No. 5214, §§ 1, 4—6, 9-7-2007)

Sec. 8-8-4. Destruction of abandoned or neglected animals.

The administrator in charge of the city animal shelter, or his or her agent, may lawfully destroy immediately, or cause to be destroyed immediately, any animal found to be injured or diseased past recovery.
(Code 1967, § 7-24; Code 1985, § 5-5; Ord. No. 3189, § 1, 3-9-1982; Ord. No. 5214, § 1, 9-7-2007)

Sec. 8-8-5. Cruelty to animals.

It is unlawful for any person to overdraw, overload, torture, torment, deprive of necessary sustenance, cruelly beat, needlessly mutilate, kill or cause to procure same to be done, any animal, fowl or bird within the meaning of this chapter, or use, buy, sell or exchange any horse or mule when unfit for labor, or abandon any animal upon any public street, alley or any public property. Nothing herein shall prohibit the purchase of animals by laboratories or humane societies incorporated under the laws of the State of Tennessee.
(Code 1967, § 7-25; Code 1985, § 5-6; Ord. No. 3189, § 1, 3-9-1982)

State law reference—Cruelty to animals, T.C.A. § 39-14-202.

Sec. 8-8-6. Trapping animals.

It is unlawful for any person to set or bait any steel leg-trap or other contrivance which would maim, mutilate or seriously injure any animal.
(Code 1967, § 7-26; Code 1985, § 5-7; Ord. No. 3189, § 1, 3-9-1982)

Sec. 8-8-7. Striking or hitting animal with moving vehicle.

It is unlawful for any person driving a vehicle to strike or hit any animal upon a public right-of-way or any public property without stopping and assisting the animal, or in the alternative notifying the Memphis Animal Shelter immediately.
(Code 1967, § 7-27; Code 1985, § 5-8; Ord. No. 3189, § 1, 3-9-1982)

Sec. 8-8-8. Killing birds—Prohibited generally.

The killing or attempting to kill any bird, other than domestic fowl, within the limits of the city, is prohibited, except as hereafter provided.
(Code 1967, § 7-28; Code 1985, § 5-9; Ord. No. 3189, § 1, 3-9-1982)

Sec. 8-8-9. Killing birds—Removal of pigeons and birds from private, residential and commercial property.

A. For control purposes and to alleviate public distress, and to promote public health, owners of private residential property and public commercial property are authorized to destroy or otherwise remove pigeons and/or birds located within the boundaries of their property, and to dispose of them in accordance with sanitation services procedures. In addition, such property owners may contract with pest control companies properly licensed and bonded by the state for the removal and disposition of pigeons or birds from their property. Such pest control companies shall dispose of such pigeons and/or birds in accordance with sanitation services procedures.

B. Whenever a homing pigeon bearing a ring or seamless legband with its registered number stamped thereon, or any protected wild bird, is found among pigeons trapped under this section, the same shall immediately be released from custody.

C. This section shall not be construed to permit the use of firearms to destroy pigeons and birds, and such use is expressly prohibited.
(Code 1967, § 7-29; Code 1985, § 5-10; Ord. No. 3189, § 1, 3-9-1982)

Sec. 8-8-10. Keeping of livestock within 1,000 feet of residence or place of business.

No person shall keep any cattle, cows, sheep, horses, mules, swine or goats within 1,000 feet of any residence or place of business in the city without a permit to do so from the health officer. The health officer shall issue permits only when the keeping of such animals in the yard or buildings, and under the circumstances set forth in the application for the permit, shall not injuriously affect the public's health. This section shall not apply to slaughterhouses or city parks.
(Code 1967, § 7-30; Code 1985, § 5-11; Ord. No. 3189, § 1, 3-9-1982)

Sec. 8-8-11. Disposal of animals.

No person shall leave or throw into any stream or river, nor offensively expose or bury the body, or any part thereof, of any animal, nor shall the same be kept where it may be dangerous to the life or detrimental to the health of any person. The sanitation services division of

the city shall be promptly notified of the existence of any such animal and where it is to be found so that it may be removed and disposed of in a sanitary manner.
(Code 1967, § 7-31; Code 1985, § 5-12; Ord. No. 3189, § 1, 3-9-1982)

Sec. 8-8-12. Unlawful to sell fowl as pets or novelties.

A. It is unlawful for any person, firm or corporation to display, sell, offer for sale, barter or give away chicks or ducklings as pets or novelties. It shall further be unlawful for any person, firm or corporation to dye, color or otherwise artificially treat any animal or fowl.

B. This section shall not be construed to prohibit the display or sale of natural chicks, ducklings or other fowl by those engaged in the business of selling the same to be raised for food purposes.
(Code 1967, § 7-32; Code 1985, § 5-13; Ord. No. 3189, § 1, 3-9-1982)

State law reference—Cruelty to animals, T.C.A. § 39-14-202.

Sec. 8-8-13. Roadside sale of animals prohibited.

A. It shall be unlawful for any person, firm or corporation to attempt to sell, exchange, trade, barter, lease, rent, donate or display for a commercial purpose any animal on any roadside, public right-of-way, parkway, median, park, playground, swimming pool, other recreation area, or commercial or retail parking lot that is generally accessible by the public, regardless of whether such access is authorized.

B. This section shall not apply to any city animal shelter or nonprofit organization founded for the purpose of providing humane sanctuary or shelter for abandoned or unwanted animals or any dealer licensed to sell at a flea market pursuant to T.C.A. § 44-17-101 et seq.

C. This section shall not be construed to prohibit the sale of certain animals by those engaged in the business of selling the same for consumption and who have obtained the appropriate licenses or permits to conduct such activity.

D. This section shall not be construed to prohibit a properly licensed for-profit store from selling or donating any animals on the walkway or parking lot immediately adjacent to such store's physical address.

E. The sale, exchange, trade, barter, lease, rent, donation or display for a commercial purpose of each animal in violation of this section shall constitute a separate violation and be punishable by fine up to $50.00 in accordance with section 8-20-10.

F. Once a citation or ordinance summons has been issued for a violation of this section, the violator must immediately discontinue the activity.
(Ord. No. 5300, § 1(5-15), 4-21-2009; Ord. No. 5390, § 2, 1-4-2011)

State law reference—Authority to issue ordinance summons in lieu of arrest, T.C.A. § 7-63-201.

CHAPTER 8-12. MEMPHIS ANIMAL SHELTER

Sections:

Sec. 8-12-1.	Establishment and supervision.
Sec. 8-12-2.	Business hours.
Sec. 8-12-3.	Badges, uniforms and police power of shelter officers.
Sec. 8-12-4.	Resisting or interfering with animal shelter employee.
Sec. 8-12-5.	Animal shelter advisory committee—Creation.
Sec. 8-12-6.	Animal shelter advisory committee—Chairperson and secretary.
Sec. 8-12-7.	Animal shelter advisory committee—Rules and regulations.
Sec. 8-12-8.	Animal shelter advisory committee—Powers and duties.

Sec. 8-12-1. Establishment and supervision.

A Memphis Animal Shelter is established under the division of public services. The operation and management of such shelter shall be under the supervision of the administrator in charge of the city animal shelter.
(Code 1967, § 7-12; Code 1985, § 5-26; Ord. No. 3189, § 1, 3-9-1982; Ord. No. 5214, §§ 1, 7, 9-7-2007)

Sec. 8-12-2. Business hours.

The city animal shelter shall post in a conspicuous and prominent location at the shelter the business hours as designated by the animal services administrator, subject to concurrence by the director of public service.
(Code 1967, § 7-13; Code 1985, § 5-27; Ord. No. 3189, § 1, 3-9-1982; Ord. No. 5214, § 8, 9-7-2007)

Sec. 8-12-3. Badges, uniforms and police power of shelter officers.

The animal shelter officers and assistants shall wear badges and uniforms designating them as shelter employees. Shelter officers shall have the necessary police powers for the enforcement of this title and the penal laws of the state regulating the keeping, care and impounding of animals.
(Code 1967, § 7-14; Code 1985, § 5-28; Ord. No. 3189, § 1, 3-9-1982)

Sec. 8-12-4. Resisting or interfering with animal shelter employee.

It is unlawful for any person to resist or interfere with an animal shelter employee in the performance of his or her duties by acting in a violent and tumultuous manner toward any animal officer so that such officer is placed in danger of safety of his or her life, limb or health.
(Code 1967, § 7-44; Code 1985, § 5-29; Ord. No. 3189, § 1, 3-9-1982)

Sec. 8-12-5. Animal shelter advisory committee—Creation.

There is hereby created the animal shelter advisory committee, consisting of seven citizens of the city, who shall be appointed by the mayor, subject to approval of the city council, for a term of two years or until their successors are appointed and qualified, and who shall serve without compensation, or oath. The manager in charge of the animal shelter and the health officer shall be ex officio members of such committee.
(Ord. No. 5260, § 1(part), 6-12-2008)

Sec. 8-12-6. Animal shelter advisory committee—Chairperson and secretary.

The chairperson and the secretary of the animal shelter advisory committee shall be designated by the mayor when making appointments to the committee.
(Ord. No. 5260, § 1(part), 6-12-2008)

Sec. 8-12-7. Animal shelter advisory committee—Rules and regulations.

The animal shelter advisory committee shall have the power to make rules and regulations for the conduct of its business. Such committee shall meet regularly as prescribed by its rules, and upon call of its chairperson.
(Ord. No. 5260, § 1(part), 6-12-2008)

Sec. 8-12-8. Animal shelter advisory committee—Powers and duties.

In addition to other duties prescribed by this title, the animal shelter advisory committee shall:

A. Assist the animal shelter staff in the investigation and prosecution, if necessary, of all complaints of cruelty or mistreatment of animals or fowl, and if necessary, take charge of and make proper disposition of the animals or fowl involved in such complaints, when so requested by the director of public service;

B. Advise the director of public service and the animal shelter administrator in matters relating to the efficient and humane operation of the animal shelter;

C. Serve as advocates for the humane treatment of animals and fowl, as set out in this title, while maintaining an awareness of the needs to protect and enhance the total environment of the city.

(Ord. No. 5260, § 1(part), 6-12-2008)

CHAPTER 8-16. DOGS AND CATS*

Sections:

Sec. 8-16-1. Evidence of ownership of animals.
Sec. 8-16-2. Dog license tags required—Fees—Exceptions—Cat rabies vaccination required.
Sec. 8-16-3. Examination for rabies.
Sec. 8-16-4. Kennel license fees.
Sec. 8-16-5. Duplicate dog licenses or tags.
Sec. 8-16-6. Dogs running at large.
Sec. 8-16-7. Impoundment and redemption of dogs.
Sec. 8-16-8. Adoption of animals.
Sec. 8-16-9. Defecation by dogs or cats.
Sec. 8-16-10. Adequate food, water, shelter, care and conditions—Defined—Penalties.
Sec. 8-16-11. Impoundment and redemption of cats.

Sec. 8-16-1. Evidence of ownership of animals.

If any dog is found on the premises of any person for a period of ten days or more, it shall be prima facie evidence that such dog belongs to the occupant of such residence. Any person keeping or harboring a dog for ten

*State law reference—Dogs and cats, T.C.A. § 44-17-101 et seq.

consecutive days shall, for the purpose of this chapter, be declared to be the owner thereof, and liable for violations of this title.
(Code 1967, § 7-36; Code 1985, § 5-56; Ord. No. 3189, § 1, 3-9-1982; Ord. No. 3973, § 1(2), 6-26-1990)

Sec. 8-16-2. Dog license tags required—Fees—Exceptions—Cat rabies vaccination required.

A. Dogs—Licensing and vaccination. It is unlawful for any person to own, have, harbor, keep or to cause or permit to be harbored, or kept in the city, any dog three months of age or over, unless a current city license tag has been issued for such dog. Prior to the issuance of a city dog license tag, the animal must receive a vaccination for rabies or the owner of the animal must provide evidence that such animal has been so vaccinated and such vaccination is still current. In addition to the cost of the rabies vaccination, a city dog license tag shall be required for a 12-month period, beginning during the month of purchase and expiring during the same month of the following year, and a license must thereafter be purchased annually on the same basis, in advance of such expiration date, for an applicable fee, as follows:

1. For each fertile dog: $15.00;

2. For each sterile dog: $5.00.

B. Such a city dog license tag may be purchased from the veterinarian at the time of vaccination or can be purchased from the city animal shelter, and/or agencies and offices designated by the director of public service.

C. If the license is purchased from a veterinary clinic, the veterinarian issuing the license may collect an agent's fee of $1.00 for this service.

D. If the license is purchased from a nonveterinarian source, such as the shelter, the purchaser shall exhibit an affidavit from a licensed veterinarian, describing and identifying the animal and certifying its sterility, in order to pay the proper license fee. Falsification of such affidavit shall be punishable in accordance with state law. No license is transferable.

E. The provisions of this section shall not apply to nonresidents traveling through the city or staying temporarily for a period of less than 30 days.

F. Cats—Vaccination. It is unlawful for any person to own, have, harbor, keep or to cause or permit to be harbored, or kept in the city, any cat three months of age or over, unless such person holds a current certificate of vaccination for each such animal.

G. The provisions of this section shall not apply to nonresidents traveling through the city or staying temporarily for a period of less than 30 days.
(Code 1967, § 7-37; Code 1985, § 5-57; Ord. No. 3189, § 1, 3-9-1982; Ord. No. 3973, § 1(3), 6-26-1990; Ord. No. 4145, § 2, 11-17-1992; Ord. No. 4819, § 1, 11-21-2000)

Charter reference—Authority of city to provide for registration and licensing of dogs, § 854.

Sec. 8-16-3. Examination for rabies.

A. If any dog or cat has bitten any person so as to break the skin, or is suspected of being infected with rabies, it shall be the duty of the animal shelter to cause such animal to be apprehended and quarantined in the shelter, or veterinary clinic, securely penned and separated from other animals for such period as may be necessary to ascertain whether or not the animal is infected with rabies. Pet owners who are bitten by their own dog or cat may be allowed to quarantine their animal at a veterinary clinic or at home. The health officer will have final authority with regard to animal bite quarantines.

B. If, after sufficient quarantine, the animal is not infected, in the opinion of the county officer, or the designated staff of the animal shelter, it shall be returned to the owner, upon payment of appropriate impound, licensing, and rabies inoculation fees, and board fees for each day of quarantine. If not redeemed by the owner at the end of the quarantine period, the animal shall become the property of the animal shelter and will be humanely put to death as soon as practicable thereafter.

C. If, in the opinion of the health officer, or his or her agent, a lab diagnosis is justified, the animal may be euthanized, and proper examination made by the health officer. In determining the necessity of the microscopic examination, the action of the health officer shall be final.

D. Any animal desired for observation by the health department or the animal shelter under the provisions of this section shall be delivered to the police or city animal shelter personnel upon demand and shall not be withheld, hidden or harbored.

E. When any person refuses to deliver a dog desired for observation, the city court clerk shall issue to the police department a warrant for the arrest of such person, which warrant shall also provide for the surrender of the animal and shall be lawful authority for the apprehending and forcible taking of the animal.
(Code 1967, § 7-43; Code 1985, § 5-14; Ord. No. 3189, § 1, 3-9-1982; Ord. No. 3973, § 1, 6-29-1990; Ord. No. 4145, § 1, 11-17-1992; Ord. No. 4247, § 2, 4-5-1994; Ord. No. 4578, § 1, 5-5-1998)

Sec. 8-16-4. Kennel license fees.

A. Persons operating a commercial kennel, where dogs are owned, bred, boarded and/or held for sale, containing four or more dogs, in which dogs are kept and maintained exclusively therein, shall not be required to pay the license fee prescribed in section 8-16-2, provided they can produce evidence that the dogs have been vaccinated for rabies and such vaccinations are still current, but may pay in lieu thereof an annual license fee, beginning during the month of purchase and expiring during the same month of the following year, and thereafter purchased annually on the same basis, in advance of such expiration date, as follows:

1. For each kennel with less than ten dogs: $10.00;

2. For each kennel with from ten to 20 dogs: $20.00;

3. For each kennel with over 20 dogs: $30.00.

B. Persons operating a commercial kennel must, at the time of purchasing their license, show approval from the city and county health department as to the location and number of dogs to be kept. In making application for such a license to the city's treasurer's office, the kennel owner or operator shall furnish an affidavit showing the number of dogs kept therein. No license is transferable.

C. A person owning four or more dogs, in a noncommercial capacity, but who may have dogs registered with a recognized kennel club, and the owner holds such animals for show or breeding purposes may, in lieu of section 8-16-2, purchase for a 12-month period, beginning during the month of purchase and expiring during the same month of the following year, a breeder's exemption certificate, which must thereafter be purchased annually on the same basis in advance of such expiration date from the city treasurer's office, for a fee of $30.00, which shall constitute a city license fee for all dogs so held. No license is transferable.
(Code 1967, § 7-38; Code 1985, § 5-58; Ord. No. 3189, § 1, 3-9-1982)

Sec. 8-16-5. Duplicate dog licenses or tags.

In the event a dog tag or license is lost, stolen or unavoidably mutilated, damaged or destroyed, the administrator in charge of the animal shelter may, in his or her discretion, and upon sworn application of the owner of the dog for which the license was purchased, setting forth the facts in connection therewith, and after investigation thereof, issue a duplicate license and tag upon payment of a fee of $2.00.
(Code 1967, § 7-39; Code 1985, § 5-59; Ord. No. 3189, § 1, 3-9-1982; Ord. No. 5214, § 1, 9-7-2007)

Sec. 8-16-6. Dogs running at large.

A. *Generally.* Dog owners or handlers shall, at all times, keep their animals on a leash or other suitable restraint or confined by a fence on their property or the private property of another, with the permission of the owner of that property, so as to prevent the animal from being at large, biting, or harassing any person engaged in a lawful act; interfering with the use of public property or with the use of another person's private property; or being in violation of any other section of this Code. No animal shall be allowed to run at large even on the property of the owner or handler of such animal, unless confined by a fence or other suitable restraint.

B. *Walking dog on a leash.* Any person walking a dog on public property, including sidewalks, and the private property of others, must keep the dog on a leash and under physical control being able to restrain the movement of the dog with the leash at all times. The leash must be kept in good condition; of sufficient strength to prevent breaking under pressure; and of material generally resistant to chewing or gnawing by an animal. The length of a leash must be such so as to control the dog from harassing pedestrians or other animals at all times.

C. *Methods of restraint.*

1. *Dog restrained by traditional fencing.* Fencing must be in good condition, of recognized construction methods, and adequate in terms of size to the number of dogs contained in the fenced area to prevent the dogs from escaping. Entry or exit gates must be properly secured by a latch-

ing or locking mechanism. The height and condition of the fence must be such to prevent the dog from escaping. As a general rule, a fence should be at least 2½ times the height of the animal it is intended to restrain. The height of the dog is measured by the height of the dog's shoulder when the dog is standing on four legs. However, should a dog be able to escape from a fence, either by climbing or digging, additional fencing height, kennels, or other restraint methods may be required in addition to fencing. Fencing must be maintained in continued good condition. Existing fencing regardless of height will be considered acceptable means of restraint unless and until a written complaint is filed with the city animal shelter and verified as valid.

2. *Dogs restrained by tie-outs or overhead cable runs.*

   a. Dogs may be restrained with suitably sized tie-outs or overhead cable runs. These restraints must be sufficient in length but never less than six feet, excluding length around collar, and nonrigid, to allow the animal freedom of motion, and to move about at will within a protected area on the property of the owner or handler without becoming tangled in obstacles. These types of restraints shall prevent the dog from traversing upon another person's property, public sidewalks or public property and from charging and harassing persons and pedestrians utilizing these properties.

   b. Dogs restrained by tie-outs or overhead cable runs must be spayed or neutered, not subject to any exemption under section 8-28-3.

3. *Dogs restrained by invisible fencing.* As an alternative to traditional fencing, tie-outs or overhead cable runs, a dog may be restrained with invisible fencing, provided the fencing is set up and maintained in the following manner:

   a. The owner or handler and dog receive training regarding the use and maintenance of the system.

   b. The owner or handler must post signs visible from the public sidewalks and public streets or driveways sufficient to alert the general public upon approaching the property upon which the fencing is located. Two signs are required containing the following wording: "Dog is contained by electronic device," or similar wording; the name, address and telephone number of the company, any trademark and/or logo of either the company that installed the system or the company that maintains the system, and the signs shall be of minimum size of six inches by eight inches.

D. *Protective purposes.* No person shall use a dog as a weapon or to threaten or harass other persons or animals. Nothing herein shall prohibit or limit a person's right to possess a dog for protection to their person or property.

E. *Exceptions.*

1. Dogs employed as police, service, therapy and search and/or rescue dogs are exempt from the requirements of this section while used in their working capacity or while engaged in a training program with a recognized organization or government agency that regularly trains dogs for such use;

2. Dogs off-leash in areas designated for such use by departments of city government, or on grounds under their jurisdiction, and dogs engaged in conformation, competition or performance related events on public or private property.

F. *Prima facie evidence.* If a dog is found running at large by the city animal shelter, the incident shall constitute prima facie evidence that current restraint methods are inadequate, and the owner shall be required to correct any conditions that permitted the dog to run-at-large, or provide such additional restraints as are necessary to secure and maintain the future restraint of the dog.

(Code 1967, § 7-40; Code 1985, § 5-60; Ord. No. 3189, § 1, 3-9-1982; Ord. No. 4530, § 1, 8-4-1998; Ord. No. 5378, § 1, 9-28-2010)

Charter reference—Authority of city to regulate running at large of dogs, § 854.

Sec. 8-16-7. Impoundment and redemption of dogs.

A. *Impoundment.*

1. *First impoundment.*

   a. Any dog not wearing a current license tag required by this title or running at large in

violation of this title shall be apprehended and incarcerated in the city animal shelter, and the owner notified, if known. Such dog shall be held for at least three business days during which time the owner may redeem or repossess the same upon payment for, or presentation of, a current license therefor, and payment of $80.00, plus $15.00 for each day of confinement to defray the cost of the capture of such animal and the protection of the public. If not reclaimed or redeemed by the owner within such time, the animal will become the property of the shelter and the animal may be designated for adoption, as provided for in section 8-16-8, or humanely put to death as soon as practicable thereafter.

2. *Second impoundment.*

   a. Should a dog belonging to the same owner be picked up for a second time within two years of the date of the first offense, the owner may redeem and repossess the dog upon presentation of a current license thereof and payment of $150.00, plus $15.00 for each day of confinement to defray the cost of the capture of such animal and the protection of the public.

3. *Third impoundment.*

   a. Should a dog belonging to the same owner be picked up for a third time within three years of the date of the first offense, the administrator of the animal shelter, or his or her agent, will serve a summons upon the owner of the animal. The owner shall also be liable for a penalty of not less than $225.00 to defray the cost of capture of the animal and protection of the public, with a boarding fee of $15.00 per day being charged.

B. *Sterilization at the animal shelter.* When an owner is reclaiming an animal that is not spayed or neutered and the owner chooses to sterilize the animal pursuant to this section, the owner will be given the option of having the animal sterilized at the animal shelter by the staff veterinarian when such person is available.

(Code 1967, § 7-41; Code 1985, § 5-61; Ord. No. 3189, § 1, 3-9-1982; Ord. No. 3973, § 1(4), 6-26-1990; Ord. No. 4247, § 3, 4-5-1994; Ord. No. 4506, § 1, 9-16-1997; Ord. No. 5214, §§ 1, 11, 9-7-2007; Ord. No. 5433, § 1, 1-3-2012)

Sec. 8-16-8. Adoption of animals.

Once an animal becomes the property of the city animal shelter either by gift, donation, abandonment or any other voluntary conveyance or as a result of pickup by the animal shelter or any other person or entity after the animal has been found running at large in violation of this chapter and as provided for in section 8-16-17, may be adopted in accordance with the terms of the adoption contract (supplied by the shelter) and upon payment of an adoption/sterilization fee, licensing fee and fees for any other service supplied but the city animal shelter in connection with such animal. Each unaltered dog and/or cat may be sterilized by the shelter veterinarian or representative prior to leaving the shelter. Any individual taking an unaltered dog or cat from the shelter must comply with applicable ordinances and policies relating to unsterilized animals. If it is determined that a former owner of an animal is applying for adoption, such former owner may gain ownership or possession only by payment of redemption fees set forth in section 8-16-17.

(Code 1967, § 7-42; Code 1985, § 5-62; Ord. No. 3189, § 1, 3-9-1982; Ord. No. 4506, § 1, 9-16-1997; Ord. No. 5433, § 1, 1-3-2012)

State law reference—The Tennessee Spay/Neuter Law, T.C.A. § 44-17-501 et seq.

Sec. 8-16-9. Defecation by dogs or cats.

A. It is unlawful for any owner of any dog or cat to fail to promptly remove and dispose of, in a sanitary manner, feces left by a dog or cat being handled by that person on property, public or private, other than the premises of the owner or handler of such dog or cat.

B. Persons owning pet dogs or service dogs, such as seeing eye dogs, who are legally blind or confined to a wheelchair and thereby physically incapable of disposing of feces left by their animal, are exempt from this law.

C. Enforcement of this section shall be in accordance with chapter 8-24.

(Code 1985, § 5-63; Ord. No. 4826, § 1, 11-21-2000)

Sec. 8-16-10. Adequate food, water, shelter, care and conditions—Defined—Penalties.

A. For the purposes of this section, the following words and phrases shall have the meanings ascribed to them by this section:

Adequate care shall include but not be limited to current vaccinations and/or medical treatment for illness, injury, disease, excessive parasitism, or any malformations.

Adequate conditions shall include but not be limited to adequate care, food, shelter, and water as defined in this section; some examples include, but are not limited to the following:

1. Owning or having a companion animal that injures a member of the general public or interferes with the ordinary use and enjoyment of their property;

2. Allowing or permitting a cat to damage the property of anyone other than its owner, including defecating upon the property of another;

3. Maintaining companion animals in an unsanitary environment which results in offensive odors or is dangerous to the public health, welfare, or safety so as to increase the probability of the transmission of disease;

4. Maintaining a companion animal that is diseased and thus dangerous to the public health.

Adequate food means food that is not spoiled or contaminated and is of sufficient quantity and quality to meet the normal daily requirements for the condition and size of the animal and environment in which it is kept. An animal shall be fed or have food available at least once each day, unless a licensed veterinarian instructs otherwise, or withholding is in accordance with accepted agricultural or veterinarian practices.

Adequate shelter means a structure or enclosure which provides an animal with protection from the elements (weather), which structure or enclosure must have a roof, floor and three sides and be of sufficient size as to allow each animal to stand up, lie down and turn around in a natural position and shall include, but not be limited to, proper restraints as defined in section 8-16-6.

Adequate water means fresh, potable water provided at suitable intervals for the species and which in no event shall exceed 24 hours at any interval. The animal must have access to the water.

Companion animal means domesticated animals kept in or near the household for the primary purpose of companionship for members of the household and/or companionship for other such animals. This includes dogs, cats, rabbits, guinea pigs, hamsters, rats, mice, ferrets, birds, reptiles, amphibians, invertebrates and species that a reasonable person would consider to be a pet.

Person means an individual, firm, partnership, or corporation or authorized agent or representative of a person, partnership, or corporation.

B. No person may possess, lodge, or maintain over five companion animals if such a person displays a general disregard for the conditions under which the animals are living, including, but not limited to, failing to provide all the following to all the companion animals in his care: adequate food, water, shelter, care and conditions.

C. A person in violation of this section is guilty of a misdemeanor. Upon conviction for companion animal hoarding, as defined in subsection (B) of this section, the city court, court of general sessions, or a court of competent jurisdiction may order that the person do any or all of the following:

1. Be precluded from owning, harboring, or having custody or control of companion animals for a period of time that the court deems reasonable;

2. Participate in available animal cruelty prevention programs and educational programs or both;

3. Undergo a behavioral health evaluation and comply with any recommendations resulting from the evaluation;

4. Forfeit to the Memphis Animal Shelter animals that are the basis of conviction;

5. Sterilize the companion animals, with sterilization being mandatory upon a second violation; or

6. Pay appropriate fees and fines.

(Ord. No. 5214, § 12, 9-7-2007)

State law reference—Cruelty to animals, T.C.A. § 39-14-202.

Sec. 8-16-11. Impoundment and redemption of cats.

A. *lmpoundment*.

1. *First impoundment.*

a. Any cat found in violation of this chapter shall be apprehended and incarcerated in the city animal shelter, and the owner notified, if known. Such cat shall be held for at least three business days during which time the owner may redeem or repossess the same upon payment of $80.00, plus $15.00 for each day of confinement to defray the cost of the capture of such animal and the protection of the public. If not reclaimed or redeemed by the owner within such time, the animal will become the property of the shelter and the animal may be designated for adoption, as provided for in section 8-16-8, or humanely put to death as soon as practicable thereafter.

2. *Second impoundment.*

a. Should a cat belonging to the same owner be picked up for a second time within two years of the date of the first offense, the owner may redeem and repossess the cat upon payment of $150.00, plus $15.00 for each day of confinement to defray the cost of the capture of such animal and the protection of the public.

3. *Third impoundment.*

a. Should a cat belonging to the same owner be picked up for a third time within three years of the date of the first offense, the administrator of the animal shelter, or his or her agent, will serve a summons upon the owner of the animal. The owner shall also be liable for a penalty of not less than $225.00 to defray the cost of capture of the animal and protection of the public, with a boarding fee of $15.00 per day being charged.

B. *Second impoundment.*

1. Should a cat belonging to the same owner be picked up for a second time within two years of the date of the first offense, the owner may redeem and repossess the cat upon payment of $150.00, plus $7.00 for each day of confinement to defray the cost of the capture of such animal and the protection of the public.

2. The second impoundment fee is reduced to $110.00 if the owner provides proof within 30 days that the animal is altered or if the owner agrees and provides proof thereof within 30 days that the unaltered animal has been sterilized.

C. *Third impoundment.*

1. Should a cat belonging to the same owner be picked up for a third time within three years of the date of the first offense, the administrator of the animal shelter, or his or her agent, will serve a summons upon the owner of the animal. The owner shall also be liable for a penalty of not less than $225.00 to defray the cost of capture of the animal and protection of the public, with a boarding fee of $7.00 per day being charged.

2. The third impoundment fee is reduced to $185.00 if the owner provides proof within 30 days that the unaltered animal has been sterilized.

D. *Sterilization at the animal shelter.* When an owner is reclaiming an animal that is not spayed or neutered and the owner chooses to sterilize the animal pursuant to this section, the owner will he given the option of having the animal sterilized at the animal shelter by the staff veterinarian when such person is available.
(Ord. No. 5214, § 13, 9-7-2007; Ord. No. 5433, § 1, 1-3-2012)

CHAPTER 8-20. DANGEROUS AND VICIOUS ANIMALS

Sections:

Sec. 8-20-1. Definitions.
Sec. 8-20-2. Determination of dangerous/vicious dog or animal.
Sec. 8-20-3. Dog or animal declared dangerous/vicious.
Sec. 8-20-4. Duty of owner of dangerous/vicious dog or animal.
Sec. 8-20-5. Surrender of dog or animal.
Sec. 8-20-6. Unowned or abandoned dog or animal.
Sec. 8-20-7. Dogs or animals not declared dangerous/vicious.
Sec. 8-20-8. Exemptions.
Sec. 8-20-9. Duties of animal control officer.

Sec. 8-20-10. Violation—Penalty.
Sec. 8-20-11. Guard dogs.

Sec. 8-20-1. Definitions.

For the purposes of this chapter, the following definitions shall apply:

Animal includes any dog or animal of the canine family.

Competent person means any person 18 years of age or older, who is able to comprehend and understand the nature of his or her responsibility, and has sufficient ability, mentally and physically, to handle any particular animal he or she may take charge of, or have in his or her control.

Dangerous/vicious animal means any dog, or animal of the canine family, that according to records of the appropriate authority has:

1. Aggressively bitten, attacked, or has otherwise inflicted injury on a human being on public or private property;
2. Severely injured or killed a human being;
3. Been used primarily, or in part, for the purpose of dog fighting or any other aggressive activity;
4. Aggressively and unprovoked, while off its owner's property, attacked another domestic animal causing serious injury or death;
5. Bitten once and been found at large twice.

Dog means any animal of the canine family.

Guard dog means any dog trained or used to protect persons or property by attacking or threatening to attack any person found within the area patrolled by the dog.

Keeper means any person, corporation, or other legal entity possessing or having custody or control of an animal.

Owner means:

1. Any person, partnership or corporation owning an animal;
2. Any person in charge of maintaining an animal;
3. Any person who feeds, shelters or harbors an animal or permits it to remain on such person's property; or
4. If the animal is owned by a person under the age of 18, that person's parent or guardian.

Severe injury means any physical injury that results in broken bones, multiple punctures, or disfiguring lacerations, requiring sutures or cosmetic surgery.

Sporting kennels means a facility which offers no services for profit, which maintains animals solely for the owners' sporting or hobby purposes, and which sells offspring and adult animals only on an occasional basis. The term "occasional basis" means animal sales of a frequency of no greater than one litter per fertile female per year.

Trained attack dog means an animal trained by authorized and specialized personnel for specific purposes.

Unprovoked attack means an attack in which an animal without provocation attacks or bites a human being who has been conducting himself or herself peacefully and lawfully and has not teased, threatened or otherwise provoked the attacking animal.
(Code 1985, § 5-64; Ord. No. 4954, § 1, 8-6-2002; Ord. No. 5214, § 14, 9-7-2007; Ord. No. 5379, § 1, 9-28-2010)

Sec. 8-20-2. Determination of dangerous/vicious dog or animal.

A. After an animal control officer has initially determined that a dog should be classified as dangerous/vicious and notification has been sent to the owner or other responsible party, unless a petition has been filed with the Shelby County District Attorney, pursuant to T.C.A. § 44-17-120, a mandatory ordinance summons shall be obtained by the animal control officer against the owner or other responsible party citing the code section violated, setting a date to appear in city court, court of general sessions, or a court of competent jurisdiction for a determination. If the animal shelter administrator obtains a summons under this code section, then during such time the administrator shall have authority to retain the animal for observation of rabies and safekeeping of the animal shelter. Any decision of the court shall be final, subject to appeal to a higher court of competent jurisdiction. During the running of any appeal time, the animal shelter administrator shall have authority to continue to retain the animal for observation of rabies and safekeeping of the animal shelter. The owner is required to pay $68.00 per day as a boarding fee for the dog for each day or fraction

thereof the dog remains unclaimed, awaiting hearing, or retained by administrator. After the initial payment the owner must pay the charge in advance, keeping the account ahead. The owner must initially pay for at least 30 days of care and payments must be made in advance until the court authorizes the release of the animal. The initial payment shall be within ten days of the shelter taking possession of the animal. If the boarding fee is not paid as required to this section, the animal shall be deemed forfeited. At the owner's request and expense, the animal may be kept at a licensed veterinary clinic upon written statement from the veterinary clinic to the animal shelter administrator that the animal will be boarded in a private, licensed veterinary clinic and the posting of a bond with the administrator in the amount of $2,000.00 to insure compliance pending any and all court appearances.

B. Failure of an owner to respond to the ordinance summons shall result in the animal being automatically declared a dangerous/vicious animal and owner has waived all rights to a hearing, and will result in the animal's ownership being relinquished to the animal shelter. At this time notice shall be given as in civil cases, that if the owner does not appear before the court within five days of receipt thereof and show cause why the dog should not be destroyed then the order shall be issued and the dog shall be destroyed.
(Code 1985, § 5-65; Ord. No. 4954, § 1, 8-6-2002; Ord. No. 5214, § 16, 9-7-2007; Ord. No. 5434, § 1, 1-3-2012)

Sec. 8-20-3. Dog or animal declared dangerous/vicious.

A. Within 30 days after an animal has been classified as dangerous/vicious, the owner of the animal must obtain a certificate of registration and a tag for the animal from the animal control authority, and the certificate shall be renewed annually. The animal control administrator, or his or her designee, is authorized to issue such certificates of registration, and renewals thereof, only to persons who are at least 18 years of age and who present to the animal control administrator, or his or her designee, sufficient evidence of:

1. A current certificate of rabies vaccination for the animal;
2. A proper enclosure to confine a dangerous/vicious animal and the posting of the premises with a clearly visible warning sign at all entry points which informs both children and adults of a dangerous/vicious animal on the property or premises which reads:

   Warning

   Dangerous/Vicious Dog
   (or Animal) on Premises

3. Permanent identification of the animal such as a tattoo on the inside thigh or electronic implantation;
4. Proof that the dog has been spayed/neutered;
5. Proof to the animal control authority that public liability insurance or a bond of at least $50,000.00 is in effect insuring the owner of the animal for any damages, whether arising from personal injury or otherwise, which may be caused by the dangerous/vicious animal. Such policy must provide for 30 days' notice to the City of Memphis Animal Services prior to cancellation or expiration of the policy. In the event such liability insurance or bond is cancelled, lapses, or for any other reason becomes unenforceable, the owner shall be in violation of the provisions of this chapter and title;
6. Purchase of a dangerous/vicious dog tag from the animal control administrator which must be worn by the animal at all times; and
7. Payment in the amount of $50.00 for the issuance of certificates of registration and dangerous/vicious dog (animal) tag. For purposes of administering the provisions of this section, the fees provided herein shall be credited to the Memphis Animal Shelter in a specific line item account.

B. If the owner does not obtain a certificate of registration and a tag within 30 days then the dog becomes the property of the city.

C. The owner shall immediately notify the appropriate animal control authority when an animal that has been classified as dangerous/vicious:

1. Is running at large or unconfined;
2. Has bitten a human being;
3. Is sold, given away, or dies;
4. Is moved to another address.

Prior to a dangerous/vicious animal being sold or given away, the owner shall provide the name, address and telephone number of the new owner to the animal control authority; any new owner residing in the city must comply with all the requirements of this chapter and title.

D. It is unlawful for the owner of a dangerous/vicious animal to permit the animal to be outside a proper enclosure unless the animal is muzzled and restrained by a substantial chain or leash and under the control of a competent person. The muzzle shall be made in a manner that will not cause injury of the animal or interfere with its vision or respiration, but shall prevent it from biting any person.
(Code 1985, § 5-66; Ord. No. 4954, § 1, 8-6-2002; Ord. No. 5214, § 17, 9-7-2007)

Sec. 8-20-4. Duty of owner of dangerous/vicious dog or animal.

The owner of any dangerous/vicious animal shall keep the animal confined. As used in this chapter, the word "confined" shall mean as follows:

A. *Leash and muzzle.* No person shall permit a dangerous/vicious animal to go outside its kennel or pen unless such animal is outfitted with a choke or pinch collar and securely leashed with a substantial chain or leash no longer than four feet in length. No person shall permit a dangerous/vicious animal to be kept on rope or other type of leash outside of its kennel or pen unless a competent person at least 18 years of age is in physical control of the leash. Such animal may not be leashed to inanimate objects, including, but not limited to, posts, buildings or fences. In addition, all dangerous/vicious animals on a leash outside the animal's kennel must be muzzled by a muzzling devise sufficient to prevent such animal from biting persons or other animals. Such muzzle should not cause injury to the animal or interfere with its vision or breathing, but shall prevent it from biting any person.

B. *Confinement outdoors.* All dangerous/vicious animals shall be securely confined indoors or in a securely enclosed and locked pen or kennel, except when leased and muzzled as provided above. Such pen, kennel or structure shall be at least 20 feet from any street or sidewalk, ten feet from any property line and must have secure sides and a secure top to the sides. Such structures must be locked with a key or combination lock when any animal is within the structure. Such structure must have a secure concrete bottom or floor attached to the sides of the pen or the sides of the pen must be embedded in the ground no less than two feet. All structures erected to house dangerous/vicious animals must be a minimum of six feet by ten feet enclosure and comply with all zoning and building regulations of the city. All such structures must be adequately ventilated and kept in a clean and sanitary condition at all times, and must be inspected and approved by the local health officer, or his or her designee.

C. *Confinement indoors.* No dangerous/vicious animal may be kept on a porch, patio or in any part of a house or structure that would allow the animal to exit such building of its own volition. In addition, no such animal may be kept in a house or structure when any unbarred window is open or when any screened window or screen door is the only obstacle preventing the animal from exiting the structure.

(Code 1985, § 5-67; Ord. No. 4954, § 1, 8-6-2002)

Sec. 8-20-5. Surrender of dog or animal.

Any owner of an animal which has been involved in a biting incident must surrender that animal to the animal control administrator or his or her designee. Should the owner choose to relinquish ownership rights to the animal, he or she must sign a statement acknowledging that the animal may be destroyed and, if so, the remains submitted to the state laboratory for testing for the rabies virus. In addition, the owner will be required to pay boarding costs and other fees if the dog is kept at the shelter after being confiscated.

(Code 1985, § 5-68; Ord. No. 4954, § 1, 8-6-2002; Ord. No. 5214, § 1, 9-7-2007)

Sec. 8-20-6. Unowned or abandoned dog or animal.

Any stray, unowned, or apparently abandoned animal that bites a human being will be held for ten days. At the end of the ten-day holding period, the animal may be destroyed in an expeditious and humane manner. Any animal determined to have been involved in a bite incident, and held for less than ten days shall be tested at the state laboratory for rabies.

(Code 1985, § 5-69; Ord. No. 4954, § 1, 8-6-2002)

Sec. 8-20-7. Dogs or animals not declared dangerous/vicious.

When an animal attacks or bites strangers:

A. If an animal that has not been declared dangerous/vicious under this chapter aggressively attacks and causes severe injury to, or death of, any human being, the owner of the animal shall be issued an ordinance summons for failing to properly control the animal and shall be subject to a fine of $50.00.

B. An unaltered animal with a record of one bite and/or attack must be fitted with a microchip

implant and spayed or neutered, not subject to any exemption under section 8-28-3, within 30 days of the incident.

(Code 1985, § 5-70; Ord. No. 4954, § 1, 8-6-2002; Ord. No. 5379, § 2, 9-28-2010; Ord. No. 5390, § 3, 1-4-2011)

Sec. 8-20-8. Exemptions.

Hunting dogs are exempt from the provisions of this chapter when engaged in any legal hunt or training procedure. Dogs engaged in training or exhibiting in legal sports such as obedience trials, conformation shows,

field trials, retrieving trials, herding trials, or when engaged in any legal procedures, are exempt from the provisions of this chapter. However, such dogs at all other times in all other acts shall be subject to this chapter. The foregoing exemptions shall not apply unless all damages done by dogs or animals, therein exempted, to the person or property of another, shall be paid to that person or his or her agent within 30 days after the damage is done.
(Code 1985, § 5-71; Ord. No. 4954, § 1, 8-6-2002)

Sec. 8-20-9. Duties of animal control officer.

An animal control officer shall investigate incidents involving dogs and animals that may be dangerous/vicious. The animal control officer shall make an initial determination whether an animal is to be classified as dangerous/vicious and shall immediately provide written notification by registered or certified all to the owner, authorized handler, or person maintaining possession of the animal, that the animal has been preliminarily classified as dangerous/vicious. A dog shall not be classified as dangerous/vicious if the threat, injury or damage was sustained by a person, who, at the time, was unlawfully on the property, or while lawfully on the property was tormenting, abusing, or assaulting the animal or its owner or handler. The officer shall take possession of any dog or animal preliminarily determined to be dangerous/vicious and transport the animal to the animal shelter.
(Code 1985, § 5-72; Ord. No. 4954, § 1, 8-6-2002)

Sec. 8-20-10. Violation—Penalty.

Any person violating or permitting the violation of any provision of this chapter and title, shall upon conviction, be subject to a fine of not more than $50.00 for each separate violation. Each day that any violation of this Code or any ordinance continues shall constitute a separate offense.
(Code 1985, § 5-73; Ord. No. 4954, § 1, 8-6-2002)

Sec. 8-20-11. Guard dogs.

It is unlawful for any person to place or maintain guard dogs in any area of the city for the protection of persons or property unless the following provisions are met:

A. The guard dog shall be confined; or

B. The guard dog shall be under the absolute control of a handler at all times when not confined by way of lead or leash.

C. The owner or other persons in control of the premises upon which the guard dog is maintained shall post warning signs stating that such a dog is on the premises. At least one such sign shall be posted at each driveway or entranceway to said premises. Such signs shall be in lettering clearly visible from either the curb line or a distance of 50 feet, whichever is less, and shall contain a telephone number where some person responsible for controlling such guard dog can be reached 24 hours a day.

D. The above provisions shall not be applicable to dogs used in law enforcement by federal, state or local law enforcement agencies.

(Ord. No. 5214, § 15, 9-7-2007)

CHAPTER 8-24. ENFORCEMENT

Sections:

Sec. 8-24-1. Official to designate special officers.
Sec. 8-24-2. Issuance of ordinance summons.
Sec. 8-24-3. Procedures applicable to summonses and animal citations.
Sec. 8-24-4. Animal violation forfeiture schedule.
Sec. 8-24-5. Limitation on action for violations—When action deemed commenced—Service of summons.
Sec. 8-24-6. Dismissal or entering a nolle prosequi of citation/summonses not prohibited.
Sec. 8-24-7. Aid and assistance.

Sec. 8-24-1. Official to designate special officers.

The city animal shelter manager may designate, subject to the approval of the director of public service, certain animal shelter employees to serve as municipal enforcement officers for the purpose of issuing ordinance summonses related to violations of this chapter witnessed by the officer.
(Code 1967, § 7-55; Code 1985, § 5-76; Ord. No. 3189, § 1, 3-9-1982; Ord. No. 5214, § 1, 9-7-2007; Ord. No. 5390, § 4, 1-4-2011)

Sec. 8-24-2. Issuance of ordinance summons.

Any ordinance summons issued pursuant to this chapter shall be treated in accordance with the procedures set forth in section 8-24-3 included herein. The ordinance summons shall be left with the offender and shall provide information related to the offense charged and the time and place when such offender is to appear in

court. Failure of the offender to appear in court shall result in a default judgment against the offender in an amount not to exceed $50.00 plus costs for each offense. (Code 1967, § 7-56; Code 1985, § 5-77; Ord. No. 3189, § 1, 3-9-1982; Ord. No. 5390, § 5, 1-4-2011)

Sec. 8-24-3. Procedures applicable to summonses and animal citations.

The following shall apply as to animal and fowl summonses and citations:

A. *Citations.* Whenever any citation has been issued pursuant to this title, the citation shall provide for payment within 15 days from issuance. Any person receiving such citation may appear and pay the forfeiture set herein at the city court clerk's office on or before the end of the 15-day period. If no one appears to pay the citation by the end of such 15 days, a summons shall be issued as provided for in this title, and served either by personal service or certified or registered mail as provided by law indicating the date and time for such person to appear to answer the charge in such citation. The summons shall be set upon the docket specially established for such summons by the city court judge. If such person fails to appear to answer summons before the court indicated and at the date and time provided for, the court, upon motion of the city, shall take a default judgment against the defendant in favor of the city. The amount of such default judgment shall be at least the amount of the forfeiture set for violation of such section and no more than $50.00 and cost for each violation. The summons shall be sworn to by the officer before a person designated as a city court clerk for the purpose of taking oaths approved by a majority of the city court judges. If the defendant contests the ownership of the animal or the violation of this title, he or she shall file a sworn pleading in advance of the hearing setting forth such defense or defenses so as to allow the city sufficient time to prepare for the trial.

B. *Summons.* Every summons issued shall provide for an appearance date and such date shall be not less than five nor more than 15 days after the issuance of a summons. The offender shall pay by mail or shall appear at the city court clerk's office on the date set therein or at any time prior thereto and pay the forfeiture as set forth therein, or may request a trial on the date set therein. If any offender fails to appear on or before the appearance date, a docket shall be prepared, as soon as possible of all those persons failing to appear, to be called the default docket. The docket shall be presented to the court and the court shall, upon motion of the clerk, take a default judgment against the defendant in favor of the city in an amount not less than that specified by the schedule of forfeitures nor more than $50.00, plus costs, for each offense. The default docket shall be assigned in accordance with procedures established by the court rules.

C. *Procedures.* Any ordinance summons issued pursuant to this chapter shall follow the procedures set forth herein in accordance with the preceding subsections A and B of this section.

(Code 1967, § 7-57; Code 1985, § 5-78; Ord. No. 3189, § 1, 3-9-1982; Ord. No. 3973, § 1, 6-26-1999; Ord. No. 5390, § 6, 1-4-2011)

Sec. 8-24-4. Animal violation forfeiture schedule.

A. The city court clerk's office is authorized to collect the following scheduled forfeitures:

Section Violation	*Nature of Violation*	*Forfeiture*
8-8-5	Cruelty to animal	$50.00
8-16-2	Failure to vaccinate a dog or cat for rabies	50.00
8-16-6	Dog running at large	50.00

B. The established forfeitures as provided herein may be paid at the city court clerk's office at any time prior to the court date appearing upon any citation or ordinance summons issued pursuant to this chapter. Such payments at the city court clerk's office may be made in person or by mail, or as otherwise provided by law.

(Code 1967, § 7-58; Code 1985, § 5-79; Ord. No. 3189, § 1, 3-9-1982; Ord. No. 3471 § 1, 7-2-1985; Ord. No. 3973, § 1, 6-26-1999; Ord. No. 5390, § 7, 1-4-2011)

Sec. 8-24-5. Limitation on action for violations—When action deemed commenced—Service of summons.

A. No action shall be commenced by the city in any court for the purpose of enforcing any violation of animal violation sections of the Code of the city after one

year from the commission of the offense. For the purpose of this section a court action shall be deemed to be commenced:

1. Upon the issuance of a citation or ordinance summons to the offender; or
2. Upon the arrest of the offender;
3. Upon the issuance of an arrest or bench warrant for the offender; or
4. Upon the issuance of a summons to the offender.

B. A summons may be served by:

1. Personal service on the offender; or
2. Registered or certified mail, addressee only, return receipt requested.

(Code 1967, § 7-59; Code 1985, § 5-80; Ord. No. 3189, § 1, 3-9-1982; Ord. No. 5390, § 8, 1-4-2011)

Sec. 8-24-6. Dismissal or entering a nolle prosequi of citation/summonses not prohibited.

Nothing herein shall prevent the city through the city attorney's office from dismissing or entering a nolle prosequi of any citation, summons, or ordinance summons in open court. Such summons, citation or ordinance summons shall be dismissed if it shall be determined that the citation was issued to a nonresident and is deemed uncollectible; there is a lack of proof; or for such other valid reason as stated to the court.
(Code 1967, § 7-61; Code 1985, § 5-81; Ord. No. 3189, § 1, 3-9-1982; Ord. No. 5390, § 9, 1-4-2011)

Sec. 8-24-7. Aid and assistance.

It shall be the duty of all police officers to render any assistance necessary.
(Code 1967, § 7-61; Code 1985, § 5-82; Ord. No. 3189, § 1, 3-9-1982)

CHAPTER 8-28. MANDATORY SPAYING AND NEUTERING OF CATS AND DOGS

Sections:

Sec. 8-28-1. Spay and neuter requirement.
Sec. 8-28-2. Owner.
Sec. 8-28-3. Exemption for certain animals.
Sec. 8-28-4. Fertile animal permits.
Sec. 8-28-5. Enforcement.
Sec. 8-28-6. Proof of compliance to enforcement agents, including ACOs.
Sec. 8-28-7. Penalties.
Sec. 8-28-8. Data.

Sec. 8-28-1. Spay and neuter requirement.

No person shall own, harbor, or keep within the city a dog or cat over the age of six months, which has not been spayed or neutered unless the dog or cat is exempted from the provisions of this section, as defined under section 8-28-3.
(Ord. No. 5380, § 1(5-83), 9-28-2010)

Sec. 8-28-2. Owner.

As used in this chapter, an owner is:

A. Any person, partnership or corporation owning an animal;

B. Any person in charge of maintaining an animal;

C. Any person who feeds, shelters or harbors an animal or permits it to remain on such person's property; or

D. If the animal is owned by a person under the age of 18, that person's parent or guardian.

(Ord. No. 5380, § 1(5-84), 9-28-2010)

Sec. 8-28-3. Exemption for certain animals.

The following animals are exempt from the provisions of section 8-28-1:

A. Dogs documented as having been appropriately trained and actually being used by public law enforcement agencies for law enforcement activities, or such dogs designated as breeding stock by an appropriate agency or organization approved by the director of animal services after consultation with knowledgeable professionals;

B. Dogs having been appropriately trained and actually being used as a service dog, such as a guide dog, hearing dog, assistance dog, seizure alert dog, or social/therapy dog, or such dogs designated as breeding stock by an appropriate agency or organization approved by the director of animal services after consultation with knowledgeable professionals;

C. Dogs documented as having been appropriately trained and actually being used by search and rescue agencies for search and rescue activities,

or such dogs designated as breeding stock by an appropriate agency or organization approved by the director of animal services after consultation with knowledgeable professionals;

D. Dogs or cats certified by a licensed veterinarian as having a health reason for not being spayed/neutered;

E. Dogs which are appropriately trained and actually being used for herding of other animals, or as livestock guardian dogs, hunting dogs, or such dogs designated as breeding stock by an appropriate agency or organization approved by the director of animal services after consultation with knowledgeable professionals;

F. Dogs or cats boarded in a licensed kennel or a business which boards such animals for professional training or resale;

G. Dogs or cats which are registered with the American Kennel Club, the Cat Fancier Association or other recognized registry or trained and kept for the purpose of show, field trials or agility trials;

H. Dogs or cats whose owner has obtained an unaltered animal permit issued by the license-collecting agent of the city, or any successor agency authorized by law to issue said permit.

(Ord. No. 5380, § 1(5-85), 9-28-2010)

Sec. 8-28-4. Fertile animal permits.

Obtaining an unaltered (fertile animal) permit. Applicants must apply for unaltered permits with the city's division of public services.

A. The owner of a fertile animal will have to pay the city a one-time $200.00 permit fee to keep a fertile animal within the city. Said payment must be made to the city treasury.

B. In order to prevent the over-breeding of animals, each permit authorizes the whelping of no more than one litter per female dog in any 12-month period and no more than one litter per domestic household in any 12-month period.

(Ord. No. 5380, § 1(5-86), 9-28-2010)

Sec. 8-28-5. Enforcement.

Memphis Animal Services, which is the department under the division of public services and neighborhoods, is charged with the enforcement of this chapter. Animal control officers (ACOs) are the agents of the city which are generally charged with compliance activities. ACOs shall issue citations under this chapter only as a secondary offense to another violation of this title, including but not limited to: dogs running at large; defecation by dogs and cats; and dangerous and vicious animals.

(Ord. No. 5380, § 1(5-87), 9-28-2010)

Sec. 8-28-6. Proof of compliance to enforcement agents, including ACOs.

Proof of compliance before citation may include, but is not limited to:

A. A uniform mark or symbol at the spay incision site, such as the mark already utilized by the Mid-South Spay and Neuter Services that is in conformance with the American Veterinarian Medical Association (AVMA) standards;

B. A written statement from a veterinarian, which identifies the animal and explains why the animal is exempt;

C. A current rabies certificate, which identifies the animal and states that it has been spayed or neutered;

D. A visual inspection and determination by the ACO that the animal has been altered.

(Ord. No. 5380, § 1(5-88), 9-28-2010)

Sec. 8-28-7. Penalties.

A. The offender of this chapter shall be issued a citation, the penalty shall be a $50.00 fine and court costs. Each day that any violation of this chapter continues may constitute a separate offense. Said fines may be waived by the court of appropriate jurisdiction on a first offense, if proof is provided that the dog or cat is/or has been brought in compliance with this chapter by the date of the hearing.

B. On a second or subsequent offense, the court shall have authority to enforce the $50.00 fine plus costs and may hold the owner in criminal contempt and require the owner to prove that the animal has been brought into compliance with this chapter.

(Ord. No. 5380, § 1(5-89), 9-28-2010)

Sec. 8-28-8. Data.

The council hereby recognizes that adoption of the spay neuter ordinance from which this chapter is derived may qualify the city to apply for available grant money and encourages the administration to maintain records to be able to provide statistics which may be requested for use in grant applications.
(Ord. No. 5380, § 1(5-90), 9-28-2010)

CHAPTER 8-32. CRUELTY TO ANIMALS

Sections:

Sec. 8-32-1. Cruelty to animals.
Sec. 8-32-2. Cock and animal fighting.
Sec. 8-32-3. Penalty.

Sec. 8-32-1. Cruelty to animals.

A. A person commits an offense who intentionally or knowingly:

1. Tortures, maims or grossly overworks an animal;
2. Fails unreasonably to provide necessary food, water, care or shelter for an animal in the person's custody;
3. Abandons unreasonably an animal in the person's custody;
4. Transports or confines an animal in a cruel manner; or
5. Inflicts burns, cuts, lacerations, or other injuries or pain, by any method, including blistering compounds, to the legs or hooves of horses in order to make them sore for any purpose including, but not limited to, competition in horse shows and similar events.

B. A person commits an offense who knowingly ties, tethers, or restrains a dog in a manner that results in the dog suffering bodily injury. "Bodily injury" includes a cut, abrasion, bruise, burn or disfigurement, and physical pain or temporary illness or impairment of the function of a bodily member, organ, or mental faculty.

C. It is a defense to prosecution under this section that the person was engaged in accepted veterinary practices, medical treatment by the owner or with the owner's consent, or bona fide experimentation for scientific research.

D. Whenever any person is taken into custody by any officer for violation of subsection (A)(4), the officer may take charge of the vehicle or conveyance, and its contents, used by the person to transport the animal. The officer shall deposit these items in a safe place for custody. Any necessary expense incurred for taking charge of and sustaining the same shall be a lien thereon, to be paid before the same can lawfully be recovered; or the expenses, or any part thereof, remaining unpaid may be recovered by the person incurring the same of the owners of the animal in an action therefor.

E. In addition to the penalty imposed in subsection (G), the court making the sentencing determination for a person convicted under this section shall order the person convicted to surrender custody and forfeit the animal or animals whose treatment was the basis of the conviction. Custody shall be given to a humane society incorporated under the laws of this state. The court may prohibit the person convicted from having custody of other animals for any period of time the court determines to be reasonable, or impose any other reasonable restrictions on the person's custody of animals as necessary for the protection of the animals.

F. 1. Nothing in this section shall be construed as prohibiting the owner of a farm animal or someone acting with the consent of the owner of that animal from engaging in usual and customary practices which are accepted by colleges of agriculture or veterinary medicine with respect to that animal.

2. It is an offense for a person other than a law enforcement officer acting with probable cause to knowingly interfere with the performance of any agricultural practices permitted by subsection (F)(1).

3. An offense under subsection (F)(2) is a Class B misdemeanor.

G. 1. Cruelty to animals is a Class A misdemeanor.

2. A second or subsequent conviction for cruelty to animals is a Class E felony.

3. Violation of any prohibition or restriction imposed by the sentencing court pursuant to subsection (E) is a Class A misdemeanor.

(Ord. No. 5417, § 1, 10-18-2011)

Sec. 8-32-2. Cock and animal fighting.

A. It is unlawful for any person to:

1. Own, possess, keep, use or train any bull, bear, dog, cock, swine or other animal, for the purpose of fighting, baiting or injuring another such animal, for amusement, sport or gain;

2. Cause, for amusement, sport or gain, any animal referenced in subsection (A)(1) to fight, bait or injure another animal, or each other;

3. Permit any acts stated in subsections (A)(1) and (2) to be done on any premises under the person's charge or control, or aid or abet those acts; or

4. Be knowingly present, as a spectator, at any place or building where preparations are being made for an exhibition for the fighting, baiting or injuring of any animal, with the intent to be present at the exhibition, fighting, baiting or injuring.

B. It is the legislative intent that the provisions of this section shall not apply to the training or use of hunting dogs for sport or to the training or use of dogs for law enforcement purposes.

C. 1. Except for any offense involving a cock, an offense under subsections (A)(1)—(3) is a Class E felony.

2. An offense involving a cock under subsections (A)(1)—(3) is a Class A misdemeanor.

D. 1. An offense under subsection (A)(4) is a Class B misdemeanor if the person is a spectator at a dog fight.

2. Any other violation of subsection (A)(4) is a Class C misdemeanor.

E. It is not an offense to own, possess or keep cocks, or aid or abet the ownership, possession or keeping of cocks, for the sole purpose of selling or transporting cocks to a location in which possession or keeping of cocks is legal.
(Ord. No. 5417, § 1, 10-18-2011)

Sec. 8-32-3. Penalty.

A. Animal cruelty and animal fighting are dangerous public nuisances and all monies, profits and fruits of such illegal activity shall be subject to forfeiture action.

B. In addition to penalties named in subsections 8-32-1(D) and (E), a lien for all costs and expenses of enforcement of this ordinance, including veterinary treatment and care, feeding and housing of animals surrendered or forfeited under this ordinance is declared on property where violation(s) of this section occurred. Such liens shall be enforced by attachment proceedings in any court of competent jurisdiction.
(Ord. No. 5417, § 1, 10-18-2011)

CHAPTER 9-4. HEALTH DEPARTMENT*

Sections:

Sec. 9-4-1. Establishment and control.
Sec. 9-4-2. General duties of health department.
Sec. 9-4-3. Appointment and qualifications of health officer.
Sec. 9-4-4. Bureaus, divisions and other administrative units of health department.
Sec. 9-4-5. Appointment, removal and salaries of health department personnel.
Sec. 9-4-6. Health officer to establish rules and regulations for conduct of health department and prescribe duties of department employees.
Sec. 9-4-7. Health officer may delegate authority and responsibilities.
Sec. 9-4-8. Right of entry of health department personnel.

Sec. 9-4-1. Establishment and control.

A. There is established a department of health which shall be known as the Memphis and Shelby County health department and which shall be under the general supervision and control of the health officer.

B. The health officer shall have administrative control over all books, records, policies, programs, budgets, employees and property of the health department.
(Code 1967, § 32-1; Code 1985, § 16-1)

Charter references—Health department generally, §§ 61, 62; consolidation and joint operation of city and county governmental functions, §§ 847—850.

Sec. 9-4-2. General duties of health department.

It shall be the duty of the department of health to carry out the laws of the state and ordinances of the city in relation to public health and sanitation, together with its own regulations governing these subjects.
(Code 1967, § 32-2; Code 1985, § 16-2)

Sec. 9-4-3. Appointment and qualifications of health officer.

The health officer shall be appointed jointly by the city mayor and the county mayor. The health officer shall be licensed by the state licensing board for the healing arts to practice in the state and shall be trained and experienced in public health administration.
(Code 1967, § 32-3; Code 1985, § 16-3)

***State law reference—**Local health services, T.C.A. § 68-2-601 et seq.

Sec. 9-4-4. Bureaus, divisions and other administrative units of health department.

The health officer shall have the authority to establish such bureaus, divisions, services, or other administrative units as deemed necessary for the efficient operation of the health department. The health officer shall appoint the administrative head of each of the administrative units so established, and it shall be his or her duty to prescribe the work to be performed by each such unit.
(Code 1967, § 32-4; Code 1985, § 16-4)

Sec. 9-4-5. Appointment, removal and salaries of health department personnel.

It shall be the duty of the health officer to appoint, from time to time, subject to the merit system of the health department, such physicians, engineers, bacteriologists, chemists, veterinarians, dentists, nurses, environmentalists, technicians, machine operators, statisticians, skilled workmen, stenographers, clerks and other employees as may be necessary to efficiently operate the health department and to safeguard and preserve the health of the people of the city. Such personnel shall be subject to removal by the health officer for cause, as provided by the rules and regulations of the merit system of the health department. The salaries of personnel of the health department shall be fixed by the health officer and shall be in accordance with the rules and regulations of the merit system.
(Code 1967, § 32-5; Code 1985, § 16-5)

Sec. 9-4-6. Health officer to establish rules and regulations for conduct of health department and prescribe duties of department employees.

The health officer shall have power and authority, and it shall be his or her duty, to establish and enforce all necessary rules and regulations for the government of the health department and prescribe the duties of all employees of the health department.
(Code 1967, § 32-6; Code 1985, § 16-6)

Sec. 9-4-7. Health officer may delegate authority and responsibilities.

The health officer is empowered to delegate the authority and responsibilities assigned to him or her by this code to such duly authorized employees and representatives of the health department as he or she may see fit and appropriate.
(Code 1967, § 32-7; Code 1985, § 16-7)

Sec. 9-4-8. Right of entry of health department personnel.

For the purpose of carrying out the requirements of this title and other laws and ordinances relating to public health and sanitation; and the regulations of the health department, the health officer and his or her authorized representatives, including engineers, assistants, environmentalists and other employees, shall be permitted at all reasonable times to enter into any manufacturing plants, business buildings or other buildings, and all lots, grounds and premises, in order to thoroughly examine any items in relation to public health and sanitation and other conditions thereon and therein.
(Code 1967, § 32-36; Code 1985, § 16-31; Ord. No. 1227, § 1, 4-4-1972)

CHAPTER 9-8. HEALTH AND SAFETY REGULATIONS GENERALLY

Sections:

Sec. 9-8-1. Adoption of state regulations relative to communicable diseases.
Sec. 9-8-2. General powers and duties of health officer relative to communicable diseases.
Sec. 9-8-3. Free vaccination and treatment in certain cases.
Sec. 9-8-4. Special powers in health emergencies.
Sec. 9-8-5. Report of births and stillbirths.
Sec. 9-8-6. Physicians' reports of deaths.
Sec. 9-8-7. Birth and death certificates.
Sec. 9-8-8. Burials in unauthorized places.
Sec. 9-8-9. Retaining or exposing dead bodies.
Sec. 9-8-10. Disinterment of dead bodies.
Sec. 9-8-11. Cleanliness and ventilation of places of public assemblage.
Sec. 9-8-12. Use of common utensils and towels in public or semipublic places.
Sec. 9-8-13. Toilets and lavatories at industrial and business establishments.
Sec. 9-8-14. Offensive water or other liquids.
Sec. 9-8-15. Septic tanks and privies.
Sec. 9-8-16. Disposal of industrial waste generally.
Sec. 9-8-17. Refuse from gashouses.
Sec. 9-8-18. Fluoridation of public water supply.
Sec. 9-8-19. Plumbing—Maintenance requirements.
Sec. 9-8-20. Filling of unmarked holes, abandoned cisterns and wells.
Sec. 9-8-21. Nuisances.
Sec. 9-8-22. Notice on buildings placarded by health department.
Sec. 9-8-23. Assistance of police in enforcing health laws.
Sec. 9-8-24. Obedience to regulations and orders of health department.

Sec. 9-8-1. Adoption of state regulations relative to communicable diseases.

The Regulations Governing Communicable Diseases in Tennessee, pages four through 20, and any changes and amendments thereto, published by the Tennessee Department of Public Health, in accordance with the provisions of chapter 111 of the Public Acts of 1941, are adopted and approved and made a part of this title as fully as if set out herein.
(Code 1967, § 32-8; Code 1985, § 16-8)

Sec. 9-8-2. General powers and duties of health officer relative to communicable diseases.

The health officer or his or her representative shall make such investigations as in his or her judgment may be necessary to determine the presence or absence of any of the diseases named in the state regulations adopted by section 9-8-1, and if any such be found he or she shall adopt such measures as are authorized by law for the prevention of the spread of such disease and for the relief of the patient. The health officer, or his or her representative, shall secure material for cultures or specimens for bacteriological or other laboratory examination to assist in determining the diagnosis whenever, in his or her judgment, such procedure is necessary, and any person, when requested by him or her or his or her representative, shall permit such specimens to be taken.
(Code 1967, § 32-9; Code 1985, § 16-9)

Sec. 9-8-3. Free vaccination and treatment in certain cases.

Whenever any person is, by the provisions of state law or the regulations adopted by section 9-8-1 required to be vaccinated or treated with any virus or preparation to protect against or treat a communicable disease and is

unable to pay for such virus or preparation, the department of health shall furnish it free, and shall provide for the vaccination or treatment of such person.
(Code 1967, § 32-10; Code 1985, § 16-10)

Sec. 9-8-4. Special powers in health emergencies.

Whenever any emergency occurs, or any rare or unusual disease appears, or when any disease becomes unduly prevalent, the health officer, subject to the approval of the mayor, shall have the power to employ any measures necessary for the protection of the public health; and the mayor shall have the power, by proclamation, to establish quarantine and to promulgate such rules and regulations as may be necessary to combat such emergencies, including rules and regulations for persons residing in, entering or leaving the city, and the regulation of property, and he or she shall have power to make such expenditures as may be necessary for such purpose. The health officer and his or her deputies, assistants and officers shall have the right to enter private premises and it shall be their duty to enforce the rules and regulations promulgated by the mayor and established by the health officer under the provisions of this section. Any person who violates any such regulation, or who fails to carry out any lawful order of the health officer in such emergencies, shall be guilty of a misdemeanor.
(Code 1967, § 32-11; Code 1985, § 16-11)

Sec. 9-8-5. Report of births and stillbirths.

Any person, including physicians and midwives, who delivers or assists in delivering any woman, shall report all births and stillbirths, as required by the provisions of the state Vital Statistics Act, T.C.A. §§ 68-3-101—68-3-313, as amended.
(Code 1967, § 32-14; Code 1985, § 16-12)

Sec. 9-8-6. Physicians' reports of deaths.

It shall be the duty of every practicing physician in the city to report, in writing, to the department of health, the death of any of his or her patients who shall have died in the city, within 72 hours thereafter, and to state in such report the specific name and type of the disease, or other cause of death; provided, however, that so long as the department of health of the city, or any member thereof, shall act as registrar of vital statistics under the general laws of the state, separate reports to the department of health shall not be required.
(Code 1967, § 32-15; Code 1985, § 16-13)

Sec. 9-8-7. Birth and death certificates.

The vital statistics division of the department of health shall have authority to issue transcripts and photostatic copies of births and deaths, or certified copies of births and deaths occurring prior to 1914, and charge therefor a sum to be fixed by the health officer not to exceed $4.00 each to be paid upon delivery of same.
(Code 1967, § 32-16; Code 1985, § 16-14; Ord. No. 215, § 1, 7-16-1968)

State law reference—Vital Records Act of 1977, T.C.A. § 68-3-101 et seq.

Sec. 9-8-8. Burials in unauthorized places.

It is unlawful for any person to bury or cause to be buried a dead body of any human being on any lot or plot of ground in the city other than those officially registered and licensed for this purpose and in which there is sufficient space or ground for the location of the grave so that it can be dug in solid earth without digging on or into another grave.
(Code 1967, § 32-18; Code 1985, § 16-16)

Sec. 9-8-9. Retaining or exposing dead bodies.

No person shall retain, expose, or allow to be retained or exposed the dead body of any human being, to the peril or prejudice of the life or health of any person.
(Code 1967, § 32-19; Code 1985, § 16-17)

Sec. 9-8-10. Disinterment of dead bodies.

The disinterment of dead bodies from any of the cemeteries or burial places in or near the city, or storing dead bodies within the same, except for freezing or embalming, without special permission from the registrar of vital records, and on such terms as he or she may prescribe, is forbidden.
(Code 1967, § 32-20; Code 1985, § 16-18)

State law reference—Disinterments of dead bodies, T.C.A. § 68-3-508.

Sec. 9-8-11. Cleanliness and ventilation of places of public assemblage.

No person, being the lessee, manager, conductor or owner, of any theatre, church, motion picture house, hall or other place of public assemblage, shall cause, permit, or allow the same, or any part or appurtenance thereof, to be so far overcrowded or inadequate, faulty or insufficient in respect to cleanliness, ventilation, excreta dis-

posal, water supply, or in any other particular as to cause any avoidable peril to any person properly at or in any such place.
(Code 1967, § 32-21; Code 1985, § 16-19)

Sec. 9-8-12. Use of common utensils and towels in public or semipublic places.

The use of common drinking or eating utensils, towels, or any other article for common use in public or semipublic places or establishments which might cause the spread of any communicable disease is forbidden in the city. The term "common," as used in this section, means for use of more than one person without proper cleaning or disinfecting by methods approved by the health officer.
(Code 1967, § 32-22; Code 1985, § 16-20)

Sec. 9-8-13. Toilets and lavatories at industrial and business establishments.

Adequate toilets, urinals, lavatories, showers and locker and toilet rooms shall be provided at all industrial establishments, business establishments and other places of employment, as may be deemed necessary for each establishment by the health officer.
(Code 1967, § 32-23; Code 1985, § 16-21)

Sec. 9-8-14. Offensive water or other liquids.

No person shall permit, have or cause any offensive water or other liquid substance on his or her premises or grounds, to the prejudice of health, safety or life, whether for use in any trade, business or otherwise.
(Code 1967, § 32-27; Code 1985, § 16-23)

Sec. 9-8-15. Septic tanks and privies.

A. No septic tank or vault, privy, sink, cistern, well or cesspool shall be constructed or rebuilt in the city except in accordance with the regulations of and pursuant to a permit from the department of health, nor shall any erection or cover be made or put upon or over the same, until the same has been examined by the health officer or an officer detailed by him or her, and found to correspond to such permit and regulations.

B. No privy shall be built within four feet of the line of any lot.

C. All septic tanks and privies for excrement shall be under the supervision of the health department. The department shall see that every septic tank and privy is kept in good working order and in a sanitary condition, and it is unlawful for any person to fail to keep his or her septic tank or privy in such clean and sanitary condition.

D. The department of health shall make periodic inspections, as often as may be deemed necessary, of any septic tank or privy in the city, and where the inspector shall find any unsanitary condition, he or she shall at once condemn the same as a nuisance and notify the occupant or owner of the premises where such septic tank or privy is to clean out, disinfect and fill up the same within five days thereafter, or take such steps as may be necessary to render such septic tank or privy sanitary.

E. Whenever the city's sanitary sewer system shall be extended into any unsewered portion of the city, it shall be the duty of every owner or occupant on whose premises there is a septic tank or privy to have the same cleaned out, disinfected and filled up as soon as possible after sewer connections are available, and it is unlawful for such owner or occupant to fail so to do after notice from the department of health. Connection with the sewer system shall be made as soon as possible.

F. The type and methods of construction of receptacles for excrement and the methods of providing for the reception, collection and disposition of excrement, shall be under the supervision of the department of health. The department may from time to time make such rules and regulations for the building of such receptacles, the collection and disposition of excrement, in such parts of the city as are not supplied with sanitary sewers, as it may deem best suited for the protection of human life and the public health.

G. All excrement collected in any receptacle shall be carried off at the expense of the city and removed to such place as the department of health may designate.

H. No person shall empty or attempt to empty any septic tank or privy in the city, except under the permit therefor first obtained from the department of health. The department of health is required to keep a record of all septic tanks and privies emptied, and when any are emptied they shall be reported to the department of health so that the same may be inspected.

I. No part of the contents of any septic tank or privy or any accumulation of any offensive fluid, liquid or semi-liquid substance material, being in any excavation, cellar or place within the city, shall be removed therefrom, nor shall the same be transported through any of the streets or avenues of the city, unless and except the

same shall be removed and transported by means of airtight apparatus, or in such manner as shall prevent entirely the escape of any noxious or offensive odors therefrom, and by a permit from the department of health.

J. No person shall draw off, or allow to run off, into any ground place of the city, the contents of any septic tank or privy, nor shall any owner, tenant or occupant of any building to which any septic tank or privy shall appertain or be attached, permit the contents, or any part thereof, to flow therefrom, or to rise within two feet of the top, or permit such contents to become offensive; nor shall any septic tank or privy be filled with or covered with dirt until its filthy contents shall be emptied.
(Code 1967, § 32-28; Code 1985, § 16-24)

State law reference—Subsurface sewage disposal systems, T.C.A. § 68-221-401 et seq.

Sec. 9-8-16. Disposal of industrial waste generally.

A. No person shall permit the discharge into any drainage system or sewerage system within the city of any industrial waste, liquid waste or other by-product that is toxic, or obnoxious or may in due time become toxic or obnoxious or create a condition which, upon examination, is found to be a menace to health, unless such waste is treated in a manner to render it in a safe condition as may be accepted by the health officer or his or her authorized representatives. The effluent and by-products from the treatment plant shall not exceed the maximum allowable concentration as may be established by the health officer.

B. Before any work is commenced on any new construction or alteration of any existing industrial establishment involving the lease or discharge of materials known to be toxic or adversely affecting health, plans and specifications as to chemical processes, nature of liquid waste or by-products and proposed control measures, accompanied by such pertinent data as may be required, shall be submitted to the health department for its approval. No part of the work shall be undertaken until the health department has endorsed upon the plans and specifications its written approval thereof.
(Code 1967, § 32-29; Code 1985, § 16-25)

Sec. 9-8-17. Refuse from gashouses.

No person, being a manufacturer or distributor of gas, shall throw or deposit, or allow to run, or shall permit to be thrown or deposited, into any public waters, or into any sewer, or into any street, or public place, any gas tar, or any refuse matter of or from any gashouse, works or manufactory, or make gas of any such ingredients or quality that any substance shall escape therefrom, or be formed in the process of burning any gas, which shall be offensive or dangerous, or prejudicial to life or health, nor shall any such person or company fail to use all reasonable means for preventing the escape of odors.
(Code 1967, § 32-30; Code 1985, § 16-26)

Sec. 9-8-18. Fluoridation of public water supply.

A. The light, gas and water division of the city, through its board of commissioners, is authorized and directed to take all necessary proper steps to fluoridate the water supply of the city. This process shall include the addition of 0.7 to 1.0 p.p.m. of fluorine to the water distributed by the city light, gas and water division, in accordance with the approved and recommended procedures of the state department of public health, in order that the citizens of Memphis and the citizens of areas outside the corporate limits of the city served by the water division of the city light, gas and water division, may obtain the benefits to be derived from same.

B. The board of commissioners of the city light, gas and water division is authorized and directed to proceed with the purchase and installation of the proper equipment and materials for the fluoridation of the city public water supply and to provide that the necessary funds be made available for this purpose on a continuing basis.
(Code 1967, § 32-37; Code 1985, § 16-32; Ord. No. 354, §§ 1, 2, 1-14-1969)

State law reference—Notice of commencing or ceasing fluoridation, T.C.A. § 68-221-708.

Sec. 9-8-19. Plumbing—Maintenance requirements.

A. In buildings and structures used for human occupancy, water lines, plumbing fixtures, vents and drains shall be properly installed, connected and maintained in working order and shall be kept free of obstructions, leaks, and defects and shall be capable of performing the function for which they are designed. All repairs and installations shall be made in accordance with the provisions of the building code or plumbing code of the city and county.

B. In buildings and structures used for human occupancy, every plumbing stack, waste and sewer line shall be so installed and maintained as to function properly and shall be kept free from obstructions, leaks, outcrop-

pings and defects to prevent health hazards. All repairs and installations shall be made in accordance with the provisions of the building code or plumbing code of the city and council.
(Code 1985, § 16-33; Ord. No. 3436, § 1(6), 2-19-1985)

Sec. 9-8-20. Filling of unmarked holes, abandoned cisterns and wells.

It shall be the duty of the owner or responsible tenant to fill or make secure any unmarked holes, or abandoned cisterns and wells which may exist on property, for the safety and security of persons or animals who may come upon the property as an innocent passerby, city personnel authorized to cut and clean, or for individuals who have a purpose for entering the premises.
(Code 1985, § 16-473; Ord. No. 4978, § 1, 12-3-2002)

Sec. 9-8-21. Nuisances.

A. Prohibited. No person shall cause, keep or permit any material, substance or condition which is, or is likely to become, a public nuisance, by the emission of odors, fumes, dusts, vapors, or gases that are offensive, providing a harborage for mosquitoes or rodents, or which may imperil or affect the comfort, health or life of other persons. Any such person creating or maintaining such a nuisance within the city limits or within one mile thereof shall be guilty of a misdemeanor.

B. Abatement. It shall be the duty of the health department, through the health officer, engineers, assistants, environmentalists or other employees, to serve notice in writing upon the owner, occupant or agent of any lot, building or premises in or upon which any nuisance or violation of this title, or regulations or orders of the health department may be found, or upon the person maintaining any nuisance, or aiding therein, requiring him or her to abate or correct the same in such manner as the health department shall prescribe, within a reasonable time. It shall not be necessary in any case for the health officer to specify in his or her notice the manner in which a nuisance shall be abated, unless he or she shall deem it advisable so to do. Such notice may be given or served by engineers, assistants, environmentalists or other employees of the health department, as well as by the health officer. If the person to whom such notice is lawfully directed shall fail, neglect or refuse to comply with the requirements of such order, within the time specified, he or she shall be guilty of a misdemeanor, and each day's violation shall constitute a separate offense. Upon the failure of such person to comply with such requirements, it shall be the duty of the department of health, whenever public necessity requires it, to proceed at once, upon the expiration of the time specified in such notice, to cause such nuisance to be abated.

C. Whenever the owner, occupant or agent of any premises or person maintaining or aiding in the maintenance of a nuisance is unknown or cannot be found, the department of health shall proceed to abate the nuisance without notice.

D. In the event any nuisance is abated by the department of health, it shall keep an itemized account thereof and shall certify a bill thereof to the city attorney, whose duty it shall be to collect the same according to law.
(Code 1967, §§ 32-31, 32-32; Code 1985, § 16-27; Ord. No. 837, § 2, 1-12-1971; Ord. No. 1227, § 1, 4-4-1972)

Charter references—Authority to define and prohibit nuisances, § 410; condemnation and abatement of nuisances, § 411.

State law reference—Nuisances, T.C.A. § 29-3-111.

Sec. 9-8-22. Notice on buildings placarded by health department.

When any building or structure within the city becomes dangerous to public health and is placarded by the department of health, it shall be the duty of the department to place notices on some conspicuous place thereon of the dangerous character of the building or structure, and it shall be a misdemeanor for any person to tear down or deface such notice, unless by permission of the health officer.
(Code 1967, § 32-33; Code 1985, § 16-28)

Sec. 9-8-23. Assistance of police in enforcing health laws.

Whenever necessary to carry out the provisions of the health and sanitary laws, the health officer shall have the power to call upon the director of police services for a detail of officers, and the director of police shall furnish such officers, and the officers so detailed shall act under the direction of the health officer for the time being, for the purpose of carrying out the provisions of any health or sanitary law or regulation, and for the time being, such police officer shall be clothed with all the power to enter buildings and abate nuisances therein conferred upon the department of health.
(Code 1967, § 32-34; Code 1985, § 16-29)

Sec. 9-8-24. Obedience to regulations and orders of health department.

Every person shall observe and obey every special regulation and every order of the department of health, the health officer and engineers, assistants, environmentalists or other employees of the health department that is or may be made for the purpose of carrying into effect the provisions of the public health and sanitary laws and ordinances.
(Code 1967, § 32-35; Code 1985, § 16-30; Ord. No. 1227, § 11, 4-4-1972)

*__State law reference—__Tennessee Air Quality Act, T.C.A. § 68-201-101 et seq.

ARTICLE 1. GENERAL PROVISIONS

Sec. 9-12-1. Definitions.

For the purpose of enforcement of the definitions, chapter 1200-3-2, of the Tennessee Air Pollution regulations, as effective on December 31, 2000, is adopted by reference as a portion of this code. Such regulations and/or all such additions, deletions, changes and amendments as may subsequently be made become a part of this code and shall have the same effect as if set out in full herein.

Additionally, the following definitions are adopted into this code:

Health officer is the health officer for Memphis and Shelby County.

Odor is the sensation of smell perceived as a result of olfactory stimulation. An odor is deemed objectionable,

and therefore a nuisance, when one-third or more of a sample of persons exposed to it believe it to be objectionable in usual places of occupancy. The sample size is to be at least 25 persons, or when fewer than 25 are exposed, one-half must believe it to be objectionable.
(Code 1967, § 3-1(A); Code 1985, § 16-46; Ord. No. 3230, § 1(1), 8-3-1982; Ord. No. 4320, § 1, 5-2-1995; Ord. No. 4636, § 5, 12-15-1998; Ord. No. 4867, § 1, 6-19-2001; Ord. No. 4981, § 12, 12-17-2002)

Sec. 9-12-2. Words and phrases substituted in state regulations adopted by reference.

For the purpose of enforcement of this chapter, the following shall apply:

A. Wherever the terms "Air Pollution Control Board of the State of Tennessee," "Tennessee Air Pollution Control Board," or "Board" appear, they shall be replaced by "Memphis and Shelby County Air Pollution Control Board," with the following exceptions:

Section This Code	*State Regulations Section Adopted*
9-12-23	1200-3-7.06
9-12-24	1200-3-6-.01
9-12-27	1200-3-14-.01(1)(a)
9-12-28	1200-3-11-.01(1)

B. Wherever the terms "Tennessee," "State of Tennessee," or "State" appear, they shall be replaced by "City of Memphis," with the following exceptions:

Section This Code	*State Regulations Section Adopted*
9-12-27	1200-3-14-.01(1)(a)

When referring to the Tennessee Code Annotated, and when referring to the Tennessee Air Quality Act.

C. Wherever the terms "technical secretary of the Tennessee Air Pollution Control Board," "technical secretary," or "secretary" appear, they shall be replaced by "health officer" except in section 9-12-7(E)(2)(a) and (b) for the purposes of T.C.A. § 68-201-116(b)(1).

D. Wherever the terms "Department of Environment and Conservation of the State of Tennessee," "Tennessee Department of Environment and Conservation," or "Department" appear, they shall be replaced by "Memphis and Shelby County Health Department."

E. Wherever the terms "Tennessee Air Pollution Control," "Division of Air Pollution Control," or "Division" appear, they shall be replaced by "Memphis and Shelby County Health Department, Air Pollution Control Section."

F. Wherever the terms "Tennessee Air Pollution Control Regulations" or "Regulations" appear, they shall be replaced by "City of Memphis Air Pollution Control Code."

G. Wherever the term "Nashville Office" appears, it shall be replaced by "Memphis Office."

H. Wherever the term "State Civil Defense" appears, it shall be replaced by "Memphis and Shelby County Emergency Management Agency."

I. Wherever the terms "Chapter 1200-3-26," "Rule 1200-3-02," or other citations involving "1200-3-26" appear, they shall be replaced by "sections 9-12-34 through 9-12-43."

(Code 1967, § 3-1.11; Code 1985, § 16-48; Ord. No. 2921, § 1(5), 10-9-1979; Ord. No. 4320, § 3, 5-2-1995; Ord. No. 4636, § 1, 12-15-1998; Ord. No. 4981, § 1, 12-17-2002; Ord. No. 5041, § 1(1), 2004)

Sec. 9-12-3. Ambient air quality standards.

For the purpose of enforcement of the ambient air quality standards, chapter 1200-3-3 of the Tennessee Air Pollution Control Regulations, as effective on December 31, 2000, is adopted by reference as a portion of this code. Such regulations and/or all such additions, deletions, changes and amendments as may subsequently be made shall become a part of this code and shall have the same effect as if set out in full herein.
(Code 1967, § 3-6; Code 1985, § 16-49; Ord. No. 1265, § 1, 4-25-1972; Ord. No. 2921, § 1(1), 10-9-1979; Ord. No. 4320, § 4, 5-2-1995; Ord. No. 4636, § 6, 12-15-1998; Ord. No. 4867, § 1, 6-19-2001; Ord. No. 4981, § 1, 12-17-2002)

Sec. 9-12-4. Open burning.

A. No person shall cause, suffer, allow or permit open burning of refuse, garbage, trade waste, trees, limbs, brush, or materials from salvage operations. The open burning of tires and other rubber products, vinyl shingles and siding, other plastics, asphalt shingles and other

asphalt roofing materials, and/or asbestos containing materials is expressly prohibited, and such materials shall not be lawful in any open burning conducted under the provisions of this section.

B. Open burning as listed below may be conducted without permit subject to fire department approval and provided further that no public nuisance is or will be created by the open burning:

1. Fires used for the cooking of food or for ceremonial, recreational or comfort-heating purposes including barbecues and outdoor fireplaces. This exception does not include commercial food preparation facilities and their operation;

2. Fires set for the training and instruction of firefighters or for research in fire protection or prevention. However, routine demolition of structures via supervised open burning by responsible fire control persons will not be considered fire training. Additionally, the person responsible for such burning, unless conducted at a recognized fire-training academy, must certify compliance with the following requirements by written statement. The certification must be delivered to the pollution control section of the Memphis-Shelby County health department (department) at least ten working days prior to commencing the burn:

    a. The open burning is being conducted solely for fire training purposes,

    b. All vinyl siding, carpet, vinyl flooring, asphalt roofing materials, and any other materials expressly prohibited in subsection A of this section have been removed,

    c. All regulated asbestos containing materials have been removed in accordance with section 9-12-18, Reference 1200-3-11-.02(2)(d)3.(x),

    d. A traffic hazard will not be caused by the air contaminants generated by the fire training,

    e. A public nuisance will not be created by the open burning;

3. Smokeless flares or safety flares for the combustion of waste gases provided other applicable subsections of this section are met;

4. Fire used for carrying out recognized agricultural procedures necessary for the production or harvesting of crops or for the control of diseases or pests, in accordance with practices acceptable to the department;

5. Fires for the burning of bodies of dead animals, including poultry, where no other safe and/or practical disposal method exists;

6. Other open burning as may be approved by the health officer and with approval by the fire department, where there is no other practical, safe, and lawful method of disposal.

C. Exceptions to subsection A of this section may be permitted for vegetation if all of the following conditions are met when an air curtain destructor is used:

1. A request is filed with the health officer giving the reason why no method except open burning can be employed to dispose of the material involved, the amount and kind of material to be burned, the exact location where the burning will take place, and the dates when the open burning will be done. All changes in types of, or increase in quantities of, materials burned must be preceded by notification. The notification must be delivered to the department at least ten working days prior to commencing the change in the burn;

2. The person applying for the permit certifies, by written statement, compliance with following distance requirements, at a minimum:

    a. The open burning site must be at least 500 feet from any federal and from any state highway,

    b. The open burning site must be at least 1,000 feet from any school, national or state park, national reservation, national or state forest, wildlife area, and/or residence not on the same property as the air curtain destructor, and

    c. The open burning site must be at least one-half mile from any airport, nursing home or hospital;

3. The plume from the air curtain destructor must meet the visible emission standards specified in section 9-12-20, Reference 1200-3-5-.01(1); however, for certain materials the department may

allow one start-up period in excess of the standard, per day, not to exceed 20 minutes in 24 hours;

4. All material to be burned must be dry and in other respects be in a state to sustain good combustion. Open burning must be conducted when ambient conditions are such that good dispersion of combustion products will result. Priming materials used to facilitate such burning shall be limited to No. 1 or No. 2 grade fuel oils;

5. No fire shall be ignited while any air pollution emergency episode is in effect in the area of the burn. No fire shall be ignited during any exceedance of the National Ambient Air Quality Standard for ozone, oxides of nitrogen, carbon monoxide, or particulate matter. Permittee is required to contact the department's computerized local air index reporting system (CLAIR) recorded line at (901) 544-7489 or 544-7490 before igniting a fire to determine if it is a burning day or a no-burning day;

6. Approval is received from the health officer in writing;

7. Permission is secured from the fire department in the jurisdiction involved;

8. The burning will be done between the hours of 9:00 a.m. and 4:00 p.m. or as authorized by the health officer.

This approval will not relieve the person responsible for such burning from the consequences of any damages, injuries, or claims resulting from such burning.

D. Definitions.

Air curtain destructor is a portable or stationary combustion device that directs a plane of high velocity forced draft air through a manifold head into a burn chamber with vertical walls in such a manner as to maintain a curtain of air over the surface of the burn chamber and a recirculating motion of air under the curtain. The use of an air curtain destructor is considered controlled open burning.

Air pollution emergency episode is defined as air pollution alerts, warnings, or emergencies declared by the health officer during adverse air dispersion conditions that may result in harm to public health or welfare.

Natural disaster is defined as any event commonly referred to as an "act of God" and includes but is not limited to the following weather related or naturally occurring categories of events: tornadoes, hail and wind storms, snow or ice storms, flooding, and earthquakes.

Open burning is the burning of any matter under such conditions that products of combustion are emitted directly into the open atmosphere without passing directly through a stack.

Person is any individual, partnership, co-partnership, firm, company, corporation, association, joint stock company, trust, estate, political subdivision, an agency, authority, commission, or department of the United States government, or of the State of Tennessee government; or any other legal entity, or its legal representative, agent, or assigns.

E. Burning after natural disasters.

1. Open burning of materials resulting from a natural disaster, and when conducted in conformity with the following conditions, may be permitted:

   a. Fires disposing of structural and household materials and vegetation are allowed only when those structures or materials are destroyed or severely damaged by natural disaster. Input from emergency management personnel may be requested in determining qualification with this criteria. The provisions of this section pertaining to structural and household materials may be waived if the persons seeking to open burn under this provision make a reasonable effort to remove all expressly prohibited material from the structural remains before ignition. The department reserves the right to inspect the proposed materials to be burned before ignition. The alternative use of chippers and grinders, landfilling, or on-site burial of waste in lieu of burning, if lawful, is encouraged.

   b. If a governmental collective burn site for disposing of structural and household materials and vegetation damaged by a natural disaster is planned, the person responsible for such burning must notify the department of the proposed location. The

notification must be delivered to the department at least three days prior to commencing the burn. The department may request that alternate sites be identified to minimize impact to air quality. The alternative use of chippers and grinders in lieu of burning is encouraged.

c. A traffic hazard will not be caused by the air contaminants generated by the fire.

d. No fire shall be ignited while any air pollution emergency episode is in effect in the area of the burn. No fire shall be ignited during any exceedance of the National Ambient Air Quality Standard for ozone, oxides of nitrogen, carbon monoxide, or particulate matter. Contact the department's computerized local air index reporting system (CLAIR) recorded line at (901) 544-7489 or 544-7490 before igniting a fire to determine if it is a burning day or a no-burning day.

e. Open burning conducted under this exception is only allowed where no other safe and/or practical means of disposal is available.

2. The health officer reserves the right to require a person to cease or limit open burning if emissions from the fires are deemed by the health officer or his or her designee to jeopardize public health or welfare, create a public nuisance or safety hazard, create a potential safety hazard, or interfere with the attainment or maintenance of the air quality standards.

3. Any exception to the open burning prohibition granted by this section does not relieve any person of the responsibility to obtain a permit required by any other agency, or of complying with other applicable requirements, ordinances, or restrictions. (Particular attention is directed to T.C.A. § 39-14-306, which prohibits open air fires between October 15 and May 15 within 500 feet of any forest, grasslands or woodlands without first securing a permit from the state forester in unincorporated portions of the county.)

(Code 1967, § 3-16; Code 1985, § 16-50; Ord. No. 1265, § 1, 4-25-1972; Ord. No. 4981, § 2, 12-17-2002; Ord. No. 5582, 4-21-2015)

Sec. 9-12-5. Good engineering practice stack height regulations.

For purposes of enforcement of the "Good Engineering Practice Stack Height Regulations," chapter 1200-3-24 of the Tennessee Air Pollution Control Regulations, as effective December 31, 2000, is adopted by reference as a portion of this code. Such regulations and/or all such additions, deletions, changes and amendments as may subsequently be made shall become a part of this code and shall have the same effect as if set out in full herein. (Code 1985, § 16-52; Ord. No. 3784, § 1, 8-2-1988; Ord. No. 4320, § 5, 5-2-1995; Ord. No. 4636, § 7, 12-15-1998; Ord. No. 4867, § 1, 6-19-2001; Ord. No. 4981, § 12, 12-17-2002)

ARTICLE 2. ENFORCEMENT

Sec. 9-12-6. Notice—Citation—Injunctive relief.

A. *Notice—Citation.* Whenever evidence has been obtained or received establishing that a violation of this chapter has been committed, the health officer shall issue a notice to correct the violation or a citation to cease the violation. Such notice or citation shall briefly set forth the general nature of the violation and specify a reasonable time within which the violation shall be rectified or stopped. If the violation is not corrected within the time so specified, or the violation stopped, or reasonable steps taken to rectify the violation, the health officer shall have the power and authority to issue an order requiring the violator to cease or suspend operation of the facility causing the violation until the violation has been corrected, or initiate proceedings to prosecute the violator for violation of this chapter.

B. *Injunctive relief.* In the event any person fails to comply with a cease-or-suspend-operation order that is not subject to a stay pending administrative or judicial review, the health officer shall institute proceedings in a court of competent jurisdiction for injunctive relief to enforce the regulations or orders pursuant hereto.
(Code 1967, § 3-2; Code 1985, § 16-56; Ord. No. 1265, § 1, 4-25-1972)

Sec. 9-12-7. Penalties for noncompliance.

A. Failure to comply with any of the provisions of the city air pollution control code shall constitute a violation thereof and shall subject the person or persons responsible therefor to any and all of the penalties provided by law.

B. The Memphis-Shelby County health department in conjunction with the local air pollution control board shall have authority, at their option, to institute and litigate proceedings for violations as set out therein. Any person who knowingly:

1. Violates or fails to comply with any provision of the city air pollution control code, any board or administrative order or any permit condition;

2. Makes any false material statement, representation, or certification in any record, report, plan or other document required by permit to be either filed or maintained;

3. Falsifies, tampers with, renders inaccurate or fails to install any monitoring device or method required to be maintained or followed; or

4. Fails to pay a fee; commits a Class C misdemeanor pursuant to the Tennessee Code Annotated with the fine not to exceed $10,000.00 per day per violation. For the purpose of this section, each day of continued violation constitutes a separate offense and is punishable as such.

No warrant, presentment or indictment arising under subsection B of this section shall be issued except upon application, authorized in writing, by the health officer on behalf of the local air pollution control program operating under a certificate of exemption pursuant to T.C.A. § 68-201-115, for a violation within its jurisdiction.

C. Willful and knowing violation of any provision of the city air pollution control code is declared to be a misdemeanor, and each day of violation shall constitute a separate offense. Conviction of a misdemeanor is punishable with the fine not to exceed $10,000.00 per day per violation or with imprisonment not greater than 30 days, or both.

D. In addition and supplemental to any criminal action which may be prosecuted under this section, the health officer has and is vested with jurisdiction and authority to determine whether or not any provision of the city air pollution control code, any permit condition, or any order has been violated, and whether or not such violation constitutes a public nuisance. Upon such finding that a public nuisance exists, the health officer has authority to abate any such public nuisance in the manner provided by the general law relating to the abatement of public nuisances.

E. Orders and assessments of damages and civil penalties and appeals.

1. When the health officer discovers that any provision of the city air pollution control code has been violated, the health officer may issue an order for correction to the responsible person, and this order shall be complied with within the time limit specified in the order. Such order shall be served by personal service or sent by certified mail, return receipt requested. The recipient of such an order may appeal in the same manner as with an assessment of damages or civil penalty under subdivision 2 of this subsection.

2. a. In addition to the criminal penalties in this section, any person who violates or fails to comply with any provision of the city air pollution control code or any standard adopted pursuant thereto in a permit, shall be subject to a civil penalty of up to $25,000.00 per day for each day of violation. Any person against whom an assessment in excess of $10,000.00 for each violation has been issued by a local pollution control program pursuant to this section may petition the technical secretary for de novo review of the assessment under the provisions of T.C.A. § 68-201-116. The technical secretary shall render an initial determination, and that initial determination may be appealed to the Tennessee Air Pollution Control Board pursuant to this section. Each day such violation continues constitutes a separate punishable offense, and such person shall also be liable for any damages to the municipality resulting therefrom.

   b. Any civil penalty or damages shall be assessed in the following manner:

      i. The health officer on behalf of the Memphis-Shelby County health department operating under a certificate of exemption pursuant to T.C.A. § 68-201-115 may issue an assessment against any person responsible for the violation or damages. Such person shall receive notice of such assessment by certified mail, return receipt requested;

ii. Any person against whom an assessment has been issued may appeal the assessment by filing a petition for review with the health officer, or with the technical secretary of an assessment in excess of $10,000.00 for each violation, within 30 days after receipt of the assessment, setting forth the grounds and reasons for such person's objections and requesting a hearing on the matter; and

iii. If a petition for review of the assessment is not filed within 30 days after the date the assessment is served, the violator shall be deemed to have consented to the assessment and it shall become final.

c. In assessing such civil penalty, the factors specified in T.C.A. § 68-201-106 and 42 USC 7413 and 7420 may be considered. Damages to the state or to the city may include any expenses incurred in investigating the enforcing of this section; in removing, correcting, or terminating the effects of air pollution; and also compensation for any expense, loss or destruction of plant or animal life or any other actual damages or clean-up expenses caused by the pollution or by the violation. The plea of financial inability to prevent, abate or control pollution by the polluter or violator shall not be a valid defense to liability for violations of the provisions of the city air pollution control code.

d. The issuance of an order or assessment of civil penalty by the Memphis-Shelby County health department operating under a certificate of exemption as provided for in this section is intended to provide additional and cumulative remedies to prevent, abate and control air pollution in Tennessee. Nothing herein shall be construed to preempt, supersede, abridge or otherwise alter any rights, action or remedies of the technical secretary, Tennessee Air Pollution Control Board or commissioner of the state Department of Environment and Conservation.

e. i. Whenever any order or assessment under this section has become final, a notarized copy of the order or assessment may be filed in the office of the clerk of the chancery court of the county if the final order or assessment is from the Memphis-Shelby County health department.

ii. When filed in accordance with subdivision (2)(e)(i) of this subsection, a final order or assessment shall be considered as a judgment by consent of the parties on the same terms and conditions as those recited therein. Such judgment shall be promptly entered by the court. Except as otherwise provided in this section, the procedure for entry of the judgment and the effect thereof shall be the same as provided in T.C.A. title 26, ch. 6.

iii. Within 45 days after entry of a judgment under subdivision (2)(e)(ii) of this subsection, any citizen of the city shall have the right to intervene on the ground that the penalties or remedies provided are inadequate or are based on erroneous findings of facts. Upon receipt of a timely motion to intervene, the court shall determine whether it is duplicitous or frivolous, and shall notify the movant and the parties of its determination. If the motion is determined not to be duplicitous or frivolous, all parties shall be considered to have sought review of the final order or assessment, and the court shall proceed in accordance with T.C.A. § 4-5-322. If no timely motion to intervene is filed, or if any such motion is determined to be duplicitous or frivolous, the judgment shall become final 45 days after the date of entry.

iv. A final judgment under this subsection has the same effect, is subject to the same procedures, and may be

enforced or satisfied in the same manner, as any other judgment of a court of record of this state.

(Code 1967, § 3-3; Code 1985, § 16-57; Ord. No. 1265, § 1, 4-25-1972; Ord. No. 3230, § 1(2), 8-3-1982; Ord. No. 4981, § 3, 12-17-2002)

Sec. 9-12-8. Variances.

A. Any person who owns or is in control of any plant, building, structure, establishment, process or equipment including a group of persons who own or control like processes or like equipment may apply to the air pollution control hearing board, hereinafter referred to as "the board", for a variance from rules or regulations governing the quality, nature, duration or extent of discharge of air contaminants. The application for a variance shall include information and data sufficient for the board to make the findings required below. The hearing held hereunder shall be conducted in accordance with the rules of evidence as set forth in section 9-12-12(F) of the city air pollution control code. The board may grant such variance, but only after public hearing on due notice and subject to the certificate of exemption issued pursuant to T.C.A. § 68-201-115 if it finds that:

1. The emissions proposed to occur as a result of a variance would not endanger or tend to endanger human health, safety, or welfare, and would not cause or tend to cause property damage; and

2. Compliance with the rules or regulations from which variance is sought would produce serious hardship without equal or greater benefits to the public or a variance is needed only until a rule adopted by the Tennessee Air Pollution Control Board becomes state effective. If economic hardship is claimed, a description of expected monetary losses shall be included.

B. No variance shall be granted or denied pursuant to this section until the board has considered the relative interests of the applicant, other owners of property likely to be affected by the discharges, and others who may be affected by granting or denying a request for variance.

C. Any variance or renewal thereof shall be granted within the requirements of subsection A of this section for time periods and under conditions consistent with the reasons therefor, and with the following limitations:

1. If the variance is granted on the grounds that there is no practicable means known or available for the adequate prevention, abatement, or control of the air pollution involved, the variance shall be permitted only until the necessary means for prevention, abatement, or control become known and available, and the variance shall be subject to the taking of any substitute or alternate measures that the board may prescribe.

2. If the variance is granted on the ground that compliance with the particular requirement or requirements from which variance is sought will necessitate the taking of measures which, because of their extent or cost, must be spread over a considerable period of time, it shall be for a period not to exceed such reasonable time as, in view of the board, is requisite for the taking of necessary measures. A variance granted on the ground specified herein shall contain a timetable for the taking of action in an expeditious manner and shall be conditioned on adherence to such timetable and submittal of proof that such timetable is being met.

3. Any variance or renewal granted shall be for a time period not to exceed one year.

D. Any variance granted pursuant to this section may be renewed by the air pollution control hearing board on terms and conditions and for periods which would be appropriate on initial granting of the variance following the same procedures required for issuance of the initial variance. If complaint is made to the board on account of the variance, no renewal thereof shall be granted, unless, following public hearing on the complaint, the board finds that renewal is justified. No renewal shall be granted except on application therefor. Any such application shall be made at least 60 days prior to the expiration of the variance. Immediately upon a receipt of an application for renewal, the board shall give public notice of such application in accordance with rules and regulations of the board.

E. A variance of renewal shall not be a right of the applicant or holder thereof, but shall be in the discretion of the board. However, any applicant adversely affected by the denial or the terms and conditions of the granting of an application for a variance or renewal of a variance by the board may obtain judicial review thereof only in a court of competent jurisdiction.

F. Nothing in this section and no variance or renewal granted pursuant hereto shall be construed to prevent or limit the application of the emergency provisions and procedures of sections 9-12-9 and 9-12-10 (Reference 1200-3-15) to any person or his or her property.
(Code 1967, § 3-10; Code 1985, § 16-58; Ord. No. 1265, § 1, 4-25-1972; Ord. No. 4981, § 4, 12-17-2002)

Sec. 9-12-9. Emergency powers of health officer.

A. Any other provision of the law notwithstanding, if the health officer finds that a generalized condition of air pollution exists and that it creates an emergency requiring immediate action to protect human health or safety, the health officer shall order persons causing or contributing to the air pollution to reduce or discontinue immediately the emission of air contaminants. Upon issuance of any such order, the health officer shall fix a place and time, not later than 24 hours thereafter, for a hearing to be held before the air pollution control hearing board. Such hearing shall be held in conformity with the provisions of section 9-12-12, insofar as applicable. No more than 24 hours after the commencement of such hearing and without adjournment thereof, the air pollution control hearing board shall affirm, modify or set aside the order of the health officer.

B. In the absence of a generalized condition of air pollution of the type referred to in subsection A of this section, if the health officer finds that emissions from the operation of one or more air contaminant sources is causing imminent danger to human health or safety, he or she may order the person responsible for the operation in question to reduce or discontinue operations immediately, without regard to the provisions of this chapter. In such event, the requirements for hearing and affirmance, modification or setting aside of orders set forth in subsection A of this section shall apply.
(Code 1967, § 3-4; Code 1985, § 16-59; Ord. No. 1265, § 1, 4-25-1972)

Sec. 9-12-10. Emergency episode plan.

For the purpose of enforcement of an emergency episode plan, chapter 1200-3-15 of the Tennessee Air Pollution Regulations, as effective on December 31, 2000, is adopted by reference as a portion of this code. Such regulations and/or all such additions, deletions, changes and amendments as may subsequently be made shall become a part of this code and shall have the same effect as if set out in full herein.
(Code 1985, § 16-60; Ord. No. 4981, § 13, 12-17-2002)

Sec. 9-12-11. Right of entry.

For the purpose of carrying out the requirements of the city air pollution control code, the health officer and his or her authorized representatives, including engineers, assistants, environmentalists and other employees, shall be permitted at all reasonable times to enter into any manufacturing plants, business buildings or other buildings, and all lots, grounds and premises, in order to thoroughly examine any items in relation to public health and air pollution thereon and therein.
(Code 1985, § 16-61; Ord. No. 4981, § 5, 12-17-2002)

ARTICLE 3. AIR POLLUTION CONTROL BOARD

Sec. 9-12-12. Created—Membership—Terms of office—Jurisdiction—Hearing—Appeals.

A. There is created the Memphis and Shelby County air pollution control board, hereinafter referred to as "the board" to be composed of nine members to be appointed as described in subsections (A)(1) and (2) of this section. No member of the board shall hold any elective office or receive any governmental salary except as a member of the faculty or staff of a school in the state education system. Otherwise, all members shall serve without compensation. Any member of the board who has any conflict of interest or potential conflict of interest shall make adequate disclosure of it and abstain from matters related to it.

1. Eight members of the board are to be appointed jointly by the mayor of the city and the mayor of Shelby County and confirmed by both the city council and the Shelby County board of commissioners. These eight members shall consist of the following: one professional engineer knowledgeable in the field of air pollution control, one physician licensed to practice in Tennessee, one attorney licensed to practice law in the state, one member of academia, a representative of industry at large, and such other citizen members as may be appointed, except that industry may have no more than two representatives.

2. One member of the board is to be appointed by the executive committee of the Memphis Area Association of Governments. This member is to be representative of the municipalities of Arlington, Bartlett, Collierville, Germantown, Lakeland, and Millington and is to be a citizen of one of these communities.

B. The terms of the members shall be four years except that of the initially appointed members, of which three shall serve for four years, two shall serve for three years, two shall serve for two years and two shall serve for one year as designated at the time of appointment. Whenever a vacancy occurs, the vacancy shall be filled for the unexpired term in the same manner as the original appointment. Should the term of any board member expire without a replacement member being appointed, the existing member shall continue to hold the board membership until such appointment or reappointment occurs.

C. The board shall select annually a chairperson from among its members. The board shall hold at least four regular meetings each year and such additional meetings as the chairperson deems necessary. All hearings conducted by the board shall be open to the public. The health officer shall act as secretary to the board and shall keep records of its hearings and other official actions. All hearings shall be held before not less than a majority of the board.

D. The board is vested with the following jurisdiction and authority:

1. Grant, deny or revoke variance applications;

2. Grant, deny or revoke confidentiality protected status after a contested hearing pursuant to section 9-12-14, Reference 1200-3-9.02(11)(d)1.(iii) or issue confidentiality protection orders to prevent public dissemination of secret formulae, processes or methods used in any manufacturing operation carried on by any person (or under such person's direction) required to furnish the department information required by the department in the discharge of its duties. Any person who petitions the department or the Memphis and Shelby County air pollution control board for a confidentiality protection order shall include in the petition information sufficient for the board to make the finding that the information for which the confidentiality protected status is sought is eligible for such status under section 9-12-14, Reference 1200-3-9 and subsection (D)(2) of this section. The composition and quantity of air contaminants emitted from the source; the applicable requirements for the source and its compliance status with each applicable requirement; and the business name, address, and location of the source shall not be considered confidential. For the purpose of ensuring compliance, if a confidentiality protection order is granted, the protected information may be disseminated to the Tennessee Department of Environment and Conservation and/or to the Environmental Protection Agency, upon written request of an authorized representative of such agency;

3. To decide appeals from any decisions, rulings, or determinations of the health officer or his or her designated representative under this chapter;

4. To hear appeals arising from the failure of the health officer or his or her designated representative to act within a reasonable period on complaints under this chapter.

E. Any person taking exception to and who is uniquely affected by any decision, ruling, requirement, rule, regulation, or order of the health officer or by his or her failure to act within a reasonable amount of time may take an appeal to the board as established by this section. Such appeals shall be made within 15 days after receiving notice of such decision, ruling, requirement, rule, regulation, or order or failure to act by filing a written notice of appeal directly to the board specifying the ground thereof and the relief requested. Such an appeal shall act as a stay of the decision, ruling, requirement, rule, regulation or order in question until the board has taken final action on the appeal, except when the health officer has acted under section 9-12-9, emergency order or except when an appeal has been filed pursuant to section 9-12-14, Reference 1200-3-9-.05(8). The board, not more than 30 days after the date of filing an appeal, shall set a date for the hearing not more than 60 days after the date of filing of the appeal and shall give notice thereof by mail to the interested parties.

F. Hearings before the board shall be conducted in the following manner:

1. Notice of any and all hearings shall be given at least 15 days prior to the scheduled date of the hearing by public advertisement in a newspaper

of general circulation in Shelby County, Tennessee, giving the date, time, place and purpose of the hearing.

2. The chairperson of the board shall act as the hearing examiner to conduct such hearing.

3. Any person seeking a variance or any party who has filed a written notice of appeal pursuant to this section or section 9-12-14 [Reference 1200-3-9-.05], may appear in person or by agent or attorney and present evidence, both written or oral, relevant to the questions and issues involved and may examine and cross examine witnesses.

4. All testimony shall be under oath and recorded. The board is authorized to have all testimony transcribed and a transcript of such testimony, if transcribed, shall be made available to the respondent or any party to the hearing upon payment of the normal fee, which shall not exceed the cost of transcribing such testimony.

5. After due consideration of the written and oral statements, the testimony and arguments submitted at the hearing upon such complaint, or, upon default in appearance of the respondent on the return date specified in the formal notice of complaint, the board shall issue and enter such final order or make such final determination as it shall deem appropriate not later than 60 days after the hearing date, and shall immediately notify the respondent thereof, in writing, by certified mail. Such order or determination shall be approved by at least a majority of members to which the board is entitled.

6. Upon failure of the board to enter a final order or determination within 60 days after the final argument of such hearing, the respondent shall be entitled to treat for all purposes such failure to act as a finding favorable to the respondent.

7. The burden of proof shall be on the health officer or his or her duly authorized representative where appeal has been sought pursuant to this section or section 9-12-14. The burden of proof is on the applicant where a variance has been sought pursuant to section 9-12-8, in accordance with T.C.A. § 68-201-118(k).

8. Any person aggrieved by any final order or determination of the board hereunder, including the health officer, shall have judicial review thereof by common law writ of certiorari. No judicial review shall be available until and after all administrative remedies have been exhausted.

(Code 1967, § 13-35; Code 1985, § 16-71; Ord. No. 1265, § 1, 4-25-1972; Ord. No. 3230, § 1(5), 8-3-1982; Ord. No. 4320, § 6, 5-2-1995; Ord. No. 4867, § 1, 6-19-2001; Ord. No. 4981, § 6, 12-17-2002; Ord. No. 5041, § 1(2—5), 2004)

ARTICLE 4. SOURCE EMISSION STANDARDS

Sec. 9-12-13. New source performance standards.

For the purpose of enforcement of the new source performance standards, chapter 1200-3-16 of the Tennessee Air Pollution Control Regulations, as effective on December 31, 2000, is adopted by reference as a portion of this code. Such regulations and/or all such additions, deletions, changes and amendments as may subsequently be made shall become a part of this code and shall have the same effect as if set out in full herein.

(Code 1985, § 16-76; Ord. No. 4320, § 7, 5-2-1995; Ord. No. 4636, § 8, 12-15-1998; Ord. No. 4867, § 1, 6-19-2001; Ord. No. 4981, § 12, 12-17-2002)

Sec. 9-12-14. Construction and operating permits.

For the purpose of enforcement of the construction and operating permits chapter 1200-3-9 of the Tennessee Air Pollution Control Regulations, as effective on December 31, 2000, is adopted by reference as a portion of this code. Such regulations and/or all such additions, deletions, changes and amendments as may subsequently be made shall become a part of this code and shall have the same effect as if set out in full herein.

(Code 1967, § 3-5; Code 1985, § 16-77; Ord. No. 1265, § 1, 4-25-1972; Ord. No. 2671, § 1, 1-17-1978; Ord. No. 4320, § 8, 5-2-1995; Ord. No. 4636, § 9, 12-15-1998; Ord. No. 4867, § 1, 6-19-2001; Ord. No. 4981, § 12, 12-17-2002; Ord. No. 5041, § 1(6—8), 2004)

Sec. 9-12-15. Process emission standards.

For the purpose of enforcement of the process emission standards, chapter 1200-3-7 of the Tennessee Air Pollution Control Regulations, as effective on December 31, 2000, is adopted by reference as a portion of this code. Such regulations and/or all such deletions, changes

and amendments as may subsequently be made shall become a part of this code and shall have the same effect as if set out in full herein.
(Code 1967, § 3-20; Code 1985, § 16-78; Ord. No. 1265, § 1, 4-25-1972; Ord. No. 2921, § 1(8), 10-9-1979; Ord. No. 4320, § 9, 5-2-1995; Ord. No. 4636, § 10, 12-15-1998; Ord. No. 4867, § 1, 6-19-2001; Ord. No. 4981, § 12, 12-17-2002)

Sec. 9-12-16. Nonprocess emission standards.

For the purpose of enforcement of the nonprocess emission standards, chapter 1200-3-6 of the Tennessee Air Pollution Control Regulations, as effective on December 31, 2000, is adopted by reference as a portion of this code. Such regulations and/or all such additions, deletions, changes and amendments as may subsequently be made shall become a part of this code and shall have the same effect as if set out in full herein.
(Code 1967, § 3-21; Code 1985, § 16-79; Ord. No. 1265, § 1, 4-25-1972; Ord. No. 2921, § 1(9), 10-9-1979; Ord. No. 4320, § 10, 5-2-1995; Ord. No. 4636, § 11, 12-15-1998; Ord. No. 4867, § 1, 6-19-2001; Ord. No. 4981, § 12, 12-17-2002)

Sec. 9-12-17. Volatile organic compounds.

For the purpose of enforcement of the volatile organic compounds, chapter 1200-3-18 of the Tennessee Air Pollution Control Regulations, as effective on December 31, 2000, is adopted by reference as a portion of this code. Such regulations and/or all such additions, deletions, changes and amendments as may subsequently be made shall become a part of this code and shall have the same effect as if set out in full herein.
(Code 1967, § 3-22; Code 1985, § 16-79; Ord. No. 1265, § 1, 4-25-1972; Ord. No. 2921, § 1(10), 10-9-1979; Ord. No. 4320, § 11, 5-2-1995; Ord. No. 4636, § 12, 12-15-1998; Ord. No. 4867, § 1, 6-19-2001; Ord. No. 4981, § 12, 12-17-2002)

Sec. 9-12-18. Hazardous air contaminants.

For the purpose of enforcement of the hazardous air contaminants, chapter 1200-3-11 of the Tennessee Air Pollution Control Regulations, as effective on December 31, 2000, is adopted by reference as a portion of this code. Such regulations and/or all such additions, deletions, changes and amendments as may subsequently be made shall become a part of this code and shall have the same effect as if set out in full herein.
(Code 1967, § 3-25; Code 1985, § 16-81; Ord. No. 1265, § 1, 4-25-1972; Ord. No. 2921, § 1(11), 10-9-1979; Ord. No. 4320, § 12, 5-2-1995; Ord. No. 4636, § 13, 12-15-1998; Ord. No. 4867, § 1, 6-19-2001; Ord. No. 4981, § 12, 12-17-2002)

Sec. 9-12-19. Sulfur oxide emissions.

For the purpose of enforcement of the sulfur oxide emissions, chapter 1200-3-14 of the Tennessee Air Pollution Control Regulations, as effective on December 31, 2000, is adopted by reference as a portion of this code. Such regulations and/or all such additions, deletions, changes and amendments as may subsequently be made shall become a part of this code and shall have the same effect as if set out in full herein.
(Code 1967, § 3-24; Code 1985, § 16-82; Ord. No. 1265, § 1, 4-25-1972; Ord. No. 1988, § 1, 3-19-1974; Ord. No. 2761, § 1, 1-17-1978; Ord. No. 4320, § 13, 5-2-1995; Ord. No. 4636, § 14, 12-15-1998; Ord. No. 4867, § 1, 6-19-2001; Ord. No. 4981, § 12, 12-17-2002)

Sec. 9-12-20. Visible emissions.

For the purpose of enforcement of the visible emissions, chapter 1200-3-5 of the Tennessee Air Pollution Control Regulations, as effective on December 31, 2000, is adopted by reference as a portion of this code. Such regulations and/or all such additions, deletions, changes and amendments as may subsequently be made shall become a part of this code and shall have the same effect as if set out in full herein.
(Code 1967, § 3-17; Code 1985, § 16-83; Ord. No. 1265, § 1, 4-25-1972; Ord. No. 2921, § 1(7), 10-9-1979; Ord. No. 4320, § 14, 5-2-1995; Ord. No. 4636, § 15, 12-15-1998; Ord. No. 4867, § 1, 6-19-2001; Ord. No. 4981, § 12, 12-17-2002)

Sec. 9-12-21. Particulate matter from incinerators.

A. No person shall cause, suffer, allow or permit the emissions from any incinerator having a charging rate of 2,000 pounds per hour or less, fly ash or other particulate matter in quantities exceeding two-tenth grains per cubic foot of flue gas at standard conditions corrected to 12 percent carbon dioxide by volume excluding the contribution of auxiliary fuel.

B. No person shall cause, suffer, allow or permit the emissions from any incinerator having a charging rate greater than 2,000 pounds per hour, fly ash or other particulate matter in quantities exceeding one-tenth grains per standard cubic foot of flue gas at standard conditions corrected to 12 percent carbon dioxide by volume excluding the contribution of auxiliary fuel.

C. No person shall cause, suffer, allow or permit the emission of particles of unburned waste or ash from any incinerator which are individually large enough to be visible while suspended in the atmosphere.

D. No person shall construct, install, use or cause to be used any incinerator which will result in odors being detectable by sense of smell in any area of human use or occupancy.

E. No person shall install or construct an incinerator to be used for disposal of combustible waste from dwelling units if such incinerator is to be used to burn such wastes produced by fewer than 25 dwelling units.

F. No person shall use or cause to be used any incinerator unless all components connected or attached to, or serving the incinerator, including control apparatus, are functioning properly and are in use. Incinerators shall be operated so as to comply with recognized good practices.

G. Incinerators having two and five-tenths cubic feet furnace volume or less used solely for the disposal of infective dressings and other similar material shall not be required to meet these emission standards.

H. No person shall cause, suffer, allow or permit to be discharged into the atmosphere from any incinerator, visible emissions with an opacity in excess of 20 percent. (Code 1967, § 3-23; Code 1985, § 16-84; Ord. No. 1265, § 1, 4-25-1972; Ord. No. 3230, § 1(4), 8-3-1982)

Sec. 9-12-21.5. Emission standards for existing hospital/medical/infectious waste incinerators (HMIWI).

A. *Definitions.* As used in this section:

Batch HMIWI means an HMIWI that is designed such that neither waste charging nor ash removal can occur during combustion.

Biologicals means preparations made from living organisms and their products, including vaccines, cultures, and similar substances, intended for use in diagnosing, immunizing, or treating humans or animals or in research pertaining thereto.

Blood products means any product derived from human blood, including, but not limited to, blood plasma, platelets, red or white blood corpuscles, and other derived licensed products such as interferon and similar substances.

Body fluids means liquid emanating or derived from humans and limited to blood; dialysate; amniotic, cerebrospinal, synovial, pleural, peritoneal, and pericardial fluids; and semen and vaginal secretions.

Bypass stack means a device used for discharging combustion gases to avoid severe damage to the air pollution control device or other equipment.

Chemotherapeutic waste means waste material resulting from the production or use of antineoplastic agents used for the purpose of stopping or reversing the growth of malignant cells.

Co-fired combustor means a unit combusting hospital waste and/or medical/infectious waste with other fuels or wastes (for example coal, municipal solid waste) and, subject to an enforceable requirement limiting the unit to combusting a fuel feed stream, ten percent or less of the weight of which is comprised, in aggregate, of hospital waste and of medical/infectious waste as measured on a calendar quarter basis. For purposes of this definition, pathological waste, chemotherapeutic waste, and low-level radioactive waste are considered "other" wastes when calculating the percentage of hospital waste and medical/infectious waste combusted.

Continuous emission monitoring system or *CEMS* means a monitoring system for continuously measuring and recording the emissions of a pollutant.

Continuous HMIWI means an HMIWI that is designed to allow waste charging and ash removal during combustion.

Dioxins/furans means the combined emissions of tetra-through octa-chlorinated dibenzo-paradioxins and dibenzofurans, as measured by EPA Reference Method 23.

Dry scrubber means an add-on air pollution control system that injects dry alkaline sorbent (dry injection) or

sprays an alkaline sorbent (spray dryer) to react with and neutralize acid gases in the HMIWI exhaust stream forming a dry power material.

Fabric filter or *baghouse* means an add-on air pollution control system that removes particulate matter (PM) and nonvaporous metals emissions by passing flue gas through filter bags.

Facilities manager means the individual in charge of purchasing, maintaining, and operating the HMIWI or the owner's or operator's representative responsible for the management of the HMIWI. Alternative titles may include director of facilities or vice president of support services.

High-air phase means the stage of the batch operating cycle when the primary chamber reaches and maintains maximum operating temperatures.

Hospital means any facility that has an organized medical staff, maintains at least six inpatient beds, and where the primary function of the institution is to provide diagnostic and therapeutic patient services and continuous nursing care primarily to human inpatients who are not related and who stay on average in excess of 24 hours per admission. This definition does not include facilities maintained for the sole purpose of providing nursing or convalescent care to human patients who generally are not acutely ill but who require continuing medical supervision.

Hospital/medical/infectious waste incinerator or *HMIWI* or *HMIWI unit* means any device that combusts any amount of hospital waste and/or medical/infectious waste.

Hospital/medical/infectious waste incinerator operator or *HMIWI operator* means any person who operates, controls or supervises the day-to-day operation of an HMIWI.

Hospital waste means discards generated at a hospital, except unused items returned to the manufacturer. The definition of hospital waste does not include human corpses, remains, and anatomical parts that are intended for interment or cremation.

Infectious agent means any organism (such as a virus or bacteria) that is capable of being communicated by invasion and multiplication in body tissues and capable of causing disease or adverse health impacts in humans.

Intermittent HMIWI means an HMIWI that is designed to allow waste charging, but not ash removal, during combustion.

Large HMIWI means:

1. Except as provided in paragraph 2 of this definition:
    a. An HMIWI whose maximum design waste burning capacity is more than 500 pounds per hour; or
    b. A continuous or intermittent HMIWI whose maximum charge rate is more than 500 pounds per hour; or
    c. A batch HMIWI whose maximum charge rate is more than 4,000 pounds per day.
2. The following are not large HMIWI:
    a. A continuous or intermittent HMIWI whose maximum charge rate is less than or equal to 500 pounds per hour; or
    b. A batch HMIWI whose maximum charge rate is less than or equal to 4,000 pounds per day.

Low-level radioactive waste means waste material that contains radioactive nuclides emitting primarily beta or gamma radiation, or both, in concentrations or quantities that exceed applicable federal or state standards for unrestricted release. Low-level radioactive waste is not high-level radioactive waste, spent nuclear fuel, or by-product material as defined by the Atomic Energy Act of 1954 (42 U.S.A.C. § 2014(e)(2)).

Malfunction means any sudden, infrequent and not reasonably preventable failure of air pollution control equipment, process equipment, or a process to operate in a normal or usual manner. Failures that are caused, in part, by poor maintenance or careless operation are not malfunctions. During periods of malfunction the operator must operate within established parameters as much as possible, and monitoring of all applicable operating parameters must continue until all waste has been combusted or until thermal function ceases, whichever comes first.

Maximum charge rate means:

1. For continuous and intermittent HMIWI, 110 percent of the lowest three-hour average charge

rate measured during the most recent performance test demonstrating compliance with all applicable emission limits.

2. For batch HMIWI, 110 percent of the lowest daily charge rate measured during the most recent performance test demonstrating compliance with all applicable emission limits.

Maximum design waste burning capacity means:

1. For intermittent and continuous HMIWI:

$$C = P_v \times 15{,}000/8{,}500$$

Where:

C	=	HMIWI capacity, lb/hr
P_v	=	primary chamber volume, ft^3
15,000	=	primary chamber heat release rate factor, Btu/ft^3fhr
8,500	=	standard waste heating value, Btu/lb.

2. For batch HMIWI:

$$C = P_V \times 164.5/8$$

Where:

C	=	HMIWI capacity, lb/hr
P_v	=	primary chamber volume, ft^3
164.5	=	waste density, lb/ft^3
8	=	typical hours of operation of a batch HMIWI, hours

Maximum fabric filter inlet temperature means 110 percent of the lowest three-hour average temperature at the inlet to the fabric filter (taken, at a minimum, once every minute) measured during the most recent performance test demonstrating compliance with the dioxin/furan emission limit.

Maximum flue gas temperature means 110 percent of the lowest three-hour average temperature at the outlet from the wet scrubber (taken, at a minimum, once every minute) measured during the most recent performance test demonstrating compliance with the mercury (Hg) emission limit.

Medical/infectious waste means any waste generated in the diagnosis, treatment, or immunization of human beings or animals, in research pertaining thereto, or in the production or testing of biologicals that is listed in paragraphs 1 through 7 of this definition. The definition of medical/infectious waste does not include hazardous waste identified or listed under the regulations in Title 40 CFR Part 261; household waste, as defined in 40 CFR 261.4(b)(1); ash from incineration of medical/infectious waste, once the incineration process has been completed; human corpses, remains and anatomical parts that are intended for interment or cremation; and domestic sewage materials identified in 40 CFR 261.4(a)(1).

1. Cultures and stocks of infectious agents and associated biologicals, including: cultures from medical and pathological laboratories; cultures and stocks of infectious agents from research and industrial laboratories, wastes from the production of biologicals; discarded live and attenuated vaccines; and culture dishes and devices used to transfer, inoculate, and mix cultures.

2. Human pathological waste, including tissues, organs, and body parts and body fluids that are removed during surgery or autopsy, or other medical procedures, and specimens of body fluids and their containers.

3. Human blood and blood products including:

   a. Liquid waste human blood;

   b. Products of blood;

   c. Items saturated and/or dripping with human blood; or

   d. Items that were saturated and/or dripping with human blood that are now caked with dried human blood; including serum, plasma, and other blood components, and their containers, which were used or intended for use in either patient care, testing and laboratory analysis or the development of pharmaceuticals. Intravenous bags are also included in this category.

4. Sharps that have been used in animal or human patient care or treatment or in medical, research, or industrial laboratories, including treatment or in medical, research, or industrial laboratories, including hypodermic needles, syringes (with or without the attached needle), Pasteur pipettes, scalpel blades, blood vials, needles with at-

tached tubing, and culture dishes (regardless of presence of infectious agents). Also included are other types of broken or unbroken glassware that were in contact with infectious agents, such as used slides and cover slips.

5. Animal waste including contaminated animal carcasses, body parts, and bedding of animals that were known to have been exposed to infectious agents during research (including research in veterinary hospitals, production of biologicals or testing of pharmaceuticals).

6. Isolation wastes including biological waste and discarded materials contaminated with blood, excretions, exudates or secretions from humans who are isolated to protect others from certain highly communicable diseases, or isolated animals known to be infected with highly communicable diseases.

7. Unused sharps including the following unused, discarded sharps: hypodermic needles, suture needles, syringes, and scalpel blades.

Medium HMIWI means:

1. Except as provided in paragraph 2 of this definition:

   a. An HMIWI whose maximum design waste burning capacity is more than 200 pounds per hour but less than or equal to 500 pounds per hour; or

   b. A continuous or intermittent HMIWI whose maximum charge rate is more than 200 pounds per hour but less than or equal to 500 pounds per hours; or

   c. A batch HMIWI whose maximum charge rate is more than 1,600 pounds per day but less than or equal to 4,000 pounds per day.

2. The following are not medium HMIWI:

   a. A continuous or intermittent HMIWI whose maximum charge rate is less than or equal to 200 pounds per hour or more than 500 pounds per hour; or

   b. A batch HMIWI whose maximum charge rate is more than 4,000 pounds per day or less than or equal to 1,600 pounds per day.

Minimum dioxin/furan sorbent flow rate means 90 percent of the highest three-hour average dioxin/furan sorbent flow rate (taken, at a minimum, once every hour) measured during the most recent performance test demonstrating compliance with the dioxin/furan emission limit.

Minimum Hg sorbent flow rate means 90 percent of the highest three-hour average Hg sorbent flow rate (taken, at a minimum, once every hour) measured during the most recent performance test demonstrating compliance with the Hg emission limit.

Minimum horsepower or amperage means 90 percent of the highest three-hour average horsepower or amperage to the wet scrubber (taken, at a minimum, once every minute) measured during the most recent performance test demonstrating compliance with the applicable emission limits.

Minimum hydrogen chloride (HCl) sorbent flow rate means 90 percent of the highest three-hour average HCl sorbent flow rate (taken, at a minimum, once every hour) measured during the most recent performance test demonstrating compliance with the HCl emission limit.

Minimum pressure drop across the wet scrubber means 90 percent of the highest three-hour average pressure drop across the wet scrubber PM control device (taken at a minimum, once every minute) measured during the most recent performance test demonstrating compliance with the PM emission limit.

Minimum scrubber liquor flow rate means 90 percent of the highest three-hour average liquor flow rate at the inlet to the wet scrubber (taken, at a minimum, once every minute) measured during the most recent performance test demonstrating compliance with all applicable emission limits.

Minimum scrubber liquor pH means 90 percent of the highest three-hour average liquor pH at the inlet to the wet scrubber (taken, at a minimum, once every minute) measured during the most recent performance test demonstrating compliance with the HCl emission limit.

Minimum secondary chamber temperature means 90 percent of the highest three-hour average secondary chamber temperature (taken, at a minimum, once every minute) measured during the most recent performance test demonstrating compliance with the PM, CO, or dioxin/furan emission limits.

Modification or *modified HMIWI* means any change to an HMIWI unit after March 16, 1998, such that:

1. The cumulative costs of the modifications, over the life of the unit, exceed 50 percent of the original cost of the construction and installation of the unit (not including the cost of any land purchased in connection with such construction or installation updated to current costs; or
2. The change involves a physical change in or change in the method of operation of the unit which increases the amount of any air pollutant emitted by the unit for which standards have been established under section 129 or section 111 of the Clean Air Act.

Operating day means a 24-hour period between 12:00 midnight and the following 12:00 midnight during which any amount of hospital waste or medical/infectious waste is combusted at any time in the HMIWI.

Operation means the period during which waste is combusted in the incinerator excluding periods of startup or shutdown.

Particulate matter or *PM* means the total particulate matter emitted from an HMIWI as measured by EPA Reference Method 5 or EPA Reference Method 29.

Pathological waste means waste material consisting of only human or animal remains, anatomical parts, and/or tissue, the bags/containers used to collect and transport the waste material, and animal bedding (if applicable).

Primary chamber means the chamber, in an HMIWI that receives waste material, in which the waste is ignited, and from which ash is removed.

Pyrolysis means the endothermic gasification of hospital waste and/or medical/infectious waste using external energy.

Secondary chamber means a component of the HMIWI that receives combustion gases from the primary chamber and in which the combustion process is completed.

Shutdown means the period of time after all waste has been combusted in the primary chamber. For continuous HMIWI, shutdown must commence no less than two hours after the last charge to the incinerator. For intermittent HMIWI, shutdown must commence no less than four hours after the last charge to the incinerator. For batch HMIWI, shutdown must commence in less than five hours after the high-air phase of combustion has been completed.

Small HMIWI means:

1. Except as provided in paragraph 2 of this definition:
   a. An HMIWI whose maximum design waste burning capacity is less than or equal to 200 pounds per hour;
   b. A continuous or intermittent HMIWI whose maximum charge rate is less than or equal to 200 pounds per hour; or
   c. A batch HMIWI whose maximum charge rate is less than or equal to 1,600 pounds per day.
2. The following are not small HMIWI:
   a. A continuous or intermittent HMIWI whose maximum charge rate is more than 200 pounds per hour;
   b. A batch HMIWI whose maximum charge rate is more than 1,600 pounds per day.

Small rural HMIWI means a small HMIWI that is located more than 50 miles from the boundary of the nearest standard metropolitan statistical area and which burns less than 2,000 pounds per week of hospital waste and medical/infectious waste.

Standard conditions means a temperature of 20 degrees Celsius and a pressure of 101.3 kilopascals.

Standard metropolitan statistical area or *SMSA* means any area listed in OMB Bulletin No. 93-17 entitled "Revised Statistical Definitions for Metropolitan Areas" dated June 30, 1993. This information can also be obtained from the nearest metropolitan planning organization.

Startup means the period of time between the activation for the system and the first charge to the unit. For batch HMIWI, "startup" means the period of time between activation of the system and ignition of the waste.

Wet scrubber means an add-on air pollution control device that utilizes an alkaline scrubbing liquor to collect particulate matter (including nonvaporous metals and condensed organics) and/or to absorb and neutralize acid gases.

B. *Applicability.*

1. These emission standards for existing hospital/medical/infectious waste incinerators (HMIWI) apply to each individual HMIWI for which construction was commenced on or before June 20, 1996, except as provided below.

2. A combustor is not subject to this section during periods when only pathological waste, low-level radioactive waste, and/or chemotherapeutic waste (as those terms are defined in 40 CFR 60.51c) is burned, provided the owner or operator of the combustor:

   a. Notifies the health officer of an exemption claim; and

   b. Keeps records on a calendar quarter basis of the periods of time when only pathological waste, low-level radioactive waste, and/or chemotherapeutic waste is burned.

3. Any co-fired combustor (as defined in subsection A of this section) is not subject to this section if the owner or operator:

   a. Notifies the health officer of an exemption claim;

   b. Provides an estimate of the relative weight of hospital waste, medical/infectious waste, and other fuels and/or wastes to be combusted; and

   c. Keeps records on a calendar quarter basis of the weight of hospital waste and medical/infectious waste combusted, and the weight of all other fuels and wastes combusted at the co-fired combustor.

4. Any combustor required to have a permit under section 3005 of the Solid Waste Disposal Act is not subject to this section.

5. Any combustor that meets the applicability requirements under Title 40 CFR Part 60, Subparts Cb, Ea, or Eb for certain municipal waste combustors is not subject to this section.

6. Any pyrolysis unit (defined in subsection A of this section) is not subject to this section.

7. Cement kilns firing hospital waste and/or medical/infectious waste are not subject to this section.

8. Physical or operational changes made to an existing HMIWI unit solely for the purpose of complying with this section are not considered a modification and do not result in an existing HMIWI unit becoming subject to the provisions of Title 40 CFR part 60, subpart Ec or this section.

9. Each individual HMIWI subject to this section shall operate pursuant to a Title V operating permit issued pursuant to section 3-5.

C. *Emission standards.*

1. On and after the date on which the initial performance test is completed or is required to be completed under subsection (G) of this section, whichever date comes first, no owner or operator of an individual HMIWI shall cause to be discharged into the atmosphere from the stack of that individual HMIWI any gases that contain stack emissions in excess of the emission limits in Table 1 below.

Table 1
Emission Limits for Small, Medium and Large HMIWI

Pollutant	*Units (7 Percent Oxygen Dry Basis)*	*HMIWI Size Emission Limits:*		
		Small	*Medium*	*Large*
Particulate matter	Milligrams per dry standard cubic meter (grains per dry standard cubic foot)	115 (0.05)	69 (0.03)	34 (0.15)
Carbon monoxide	Parts per million by volume	40	40	40

Pollutant	*Units (7 Percent Oxygen Dry Basis)*	*HMIWI Size Emission Limits:*		
		Small	*Medium*	*Large*
Dioxins/furans	Nanograms per dry standard cubic meter total dioxins/ furans (grains per billion dry standard cubic feet) or nanograms per dry standard cubic meter TEO (grains per billion dry standard cubic feet)	125 (55) or 2.3(1.0)	125 (55) or 2.3 (1.0)	125 (55) or 2.3 (1.0)
Hydrogen chloride	Parts per million by volume or percent reduction	100 or 93%	100 or 93%	100 or 93%
Sulfur dioxide	Parts per million by volume	55	55	55
Nitrogen oxides	Parts per million by volume	250	250	250
Lead	Milligrams per dry standard cubic meter (grains per thousand dry standard cubic feet) or percent reduction	1.2 (0.52) or 70%	1.2 (0.52) or 70%	1.2 (0.52) or 70%
Cadmium	Milligrams per dry standard cubic meter (grains per thousand dry standard cubic foot) or percent reduction	0.16 (0.07) or 65%	0.16 (0.07) or 65%	0.16 (0.07) or 65%
Mercury	Milligrams per dry standard cubic meter (grains per dry standard cubic foot) or percent reduction	0.55 (0.24) or 85%	0.55 (0.24) or 85%	0.55 (0.24) or 85%

D. *Opacity limits.*

1. On and after the date on which the initial performance test is completed or is required to be completed under subsection (G) of this section, whichever date comes first, no owner or operator of an individual HMIWI shall cause to be discharged into the atmosphere from the stack of that individual HMIWI any gases that exhibit greater than ten percent opacity (six-minute block average).

2. On and after the date on which the initial performance test is completed or is required to be completed under subsection (G) of this section, whichever date comes first, no owner or operator of an individual HMIWI utilizing a large HMIWI shall cause to be discharged into the atmosphere visible emissions of combustion ash from an ash conveying system (including conveyor transfer points) in excess of five percent of the observation period (i.e., nine minutes per three-hour period) as determined by EPA Reference Method 22, except as provided in subsection (D)(3) of this section.

3. The emission limit specified in subsection (D)(2) of this section does not cover visible emission discharged inside buildings or enclosures of ash conveying systems; however, the emission limit does cover visible emissions discharged to the atmosphere from, buildings or enclosures of ash conveying systems. This provision does not apply during maintenance and repair of ash conveying systems. Maintenance and/or repair shall not exceed ten operating days per calendar quarter unless the owner or operator obtains written approval from the health officer establishing a date whereby all necessary maintenance and repairs of ash conveying systems shall be completed.

E. *Operator training and qualification requirements.*

1. No owner or operator of an affected facility shall allow the individual HMIWI to operate at any time unless a fully trained and qualified HMIWI operator is accessible, either at the facility or available within one hour. The trained

and qualified HMIWI operator may operate the HMIWI directly or be the direct supervisor of one or more HMIWI operators.

2. Operator training and qualification shall be obtained through a state-approved program or by completing the requirements included in subsections (E)(3) through (11) of this section.

3. Training shall be obtained by completing an HMIWI operator training course that includes, at a minimum, the following provisions:

   a. 24 hours of training on the following subjects:

      i. Environmental concerns, including pathogen destruction and types of emissions;

      ii. Basic combustion principles, including products of combustion;

      iii. Operation of the type of incinerator to be used by the operator, including proper startup, waste charging, and shutdown procedures;

      iv. Combustion controls and monitoring;

      v. Operation of air pollution control equipment and factors affecting performance (if applicable);

      vi. Methods to monitor pollutants (continuous emission monitoring systems and monitoring of HMIWI and air pollution control device operating parameters) and equipment calibration procedures (where applicable);

      vii. Inspection and maintenance of the HMIWI, air pollution control devices, and continuous emission monitoring systems;

      viii. Actions to correct malfunctions, upsets, or conditions that may lead to malfunctions or upsets;

      ix. Bottom and fly ash characteristics and handling procedures;

      x. Applicable federal, state and local regulations;

      xi. Work safety procedures;

      xii. Pre-startup inspections; and

      xiii. Recordkeeping requirements.

   b. An examination designed and administered by the instructor.

   c. Reference material distributed to the attendees covering the course topics.

4. Qualification shall be obtained by:

   a. Completion of a training course that satisfies the criteria under subsection (E)(3) of this section; and

   b. Either six months experience as an HMIWI operator, six months experience as a direct supervisor of an HMIWI operator, or completion of at least two burn cycles under the observation of two qualified HMIWI operators.

5. Qualification is valid from the date on which the examination is passed or the completion of the required experience, whichever is later.

6. To maintain qualification, the trained and qualified HMIWI operator shall complete and pass an annual review or refresher course of at least four hours covering, at a minimum, the following:

   a. Update of regulations;

   b. Incinerator operation, including startup and shutdown procedures;

   c. Inspection and maintenance;

   d. Responses to malfunctions and upsets or conditions that may lead to malfunctions and upsets; and

   e. Discussion of operating problems encountered by attendees.

7. A lapsed qualification shall be renewed by one of the following methods:

   a. For a lapse of less than three years, the HMIWI operator shall complete and pass a standard annual refresher course described in subsection (E)(6) of this section.

   b. For a lapse of three years or more, the HMIWI operator shall complete and pass a training course with the minimum criteria described in subsection (E)(3) of this section.

8. The owner or operator of an individual HMIWI shall maintain documentation at the individual HMIWI that addresses the following
    a. Summary of the applicable standards under this section;
    b. Description of basic combustion theory applicable to an HMIWI;
    c. Procedures for receiving, handling, and charging waste;
    d. HMIWI startup, shutdown, and malfunction procedures;
    e. Procedures for maintaining proper combustion air supply levels;
    f. Procedures for operating the HMIWI and associated air pollution control systems within the standards established under this section;
    g. Procedures for responding to periodic malfunctions or upsets or conditions that may lead to malfunctions or upsets;
    h. Procedures for monitoring HMIWI emissions;
    i. Reporting and recordkeeping procedures; and
    j. Procedures for handling ash.
9. The owner or operator of an individual HMIWI shall establish a program for reviewing the information listed in subsection (E)(8) of this section annually with each HMIWI operator.
    a. The initial review of the information listed in subsection (E)(8) of this section shall be conducted within six months after the effective date of this section.
    b. Subsequent reviews shall be conducted annually.
10. The information listed in subsection (E)(8) of this section shall be kept in a readily accessible location for all HMIWI operators. This information, along with records of training, shall be available for inspection by the health officer upon request.
11. Compliance by the individual HMIWI with this subsection (E), operator training and qualification requirements, is required by the date one year after the effective date of this section.

F. *Waste management plan requirements.* The owner or operator of an individual HMIWI shall prepare a waste management plan. The waste management plan shall identify both the feasibility and the approach to separate certain components of solid waste from the health care waste stream in order to reduce the amount of toxic emissions from incinerated waste. A waste management plan may include, but is not limited to, elements such as paper, cardboard, plastics, glass, battery, or metal recycling; or purchasing recycled or recyclable products. A waste management plan may include different goals or approaches for different areas or departments of the facility and need not include new waste management goals for every waste stream. It should identify, where possible, reasonably available additional waste management measures, taking into account the effectiveness of waste management measures already in place, the costs of additional measures, the emission reductions expected to be achieved, and any other environmental or energy impacts they might have. The American Hospital Association publication entitled "An Ounce of Prevention: Waste Reduction Strategies for Health Care Facilities" available for purchase at Post Office Box 92683, Chicago, IL 60675 from that association, shall be considered in the development of the waste management plan.

G. *Compliance and performance testing.*

1. The emission standards and opacity limits under this section apply at all times except during periods of startup, shutdown, upsets that qualify for the affirmative defense of "malfunction" or "emergency" as those terms are defined in this air pollution control code, or "malfunction", provided that no hospital waste or medical/infectious waste is charged to the individual HMIWI during startup, shutdown, upsets that qualify for the affirmative defense of "malfunction" or "emergency" as those terms are defined in this air pollution control code, or malfunction.
2. The owner or operator of an individual HMIWI shall conduct an initial performance test as required under this subsection to determine compliance with the emission standards and opacity limits using the procedures and test methods listed in subsections (g)(2)(a) through (l) of this section. The use of the bypass stack during a performance test shall invalidate the performance test.
    a. All performance tests shall consist of a minimum of three test runs conducted under representative operating conditions.

b. The minimum sample time shall be one hour per test run unless otherwise required.

c. EPA Reference Method I of Title 40 CFR Part 60, Appendix A, shall be used to select the sampling location and number of traverse points.

d. EPA Reference Method 3, 3A, or 3 B of Title 40 CFR Part 60, Appendix A, shall be used for gas composition analysis, including measurement of oxygen concentration. EPA Reference Method 3, 3A, or 3B shall be used simultaneously with each of the other required EPA Reference Methods.

e. The pollutant concentrations shall be adjusted to seven percent oxygen using the following equation:

$$C_{adj} = C_{meas}(20.9-7)(20.9 - \%O_2)$$

Where:

C_{adj} = Pollutant concentration adjusted to 7 percent oxygen;

C_{meas} = Pollutant concentration measured on a dry basis;

(20.9-7) = 20.9 percent oxygen -7 percent oxygen (defined oxygen correction basis);

20.9 = Oxygen concentration in air, percent; and

$\% O_2$ = Oxygen concentration measured on a dry basis, percent.

f. EPA Reference Method 5 or 29 of Title 40 CFR Part 60, Appendix A, shall be used to measure the particulate matter emissions.

g. EPA Reference Method 9 of Title 40 CFR Part 60, Appendix A, shall be used to measure stack opacity.

h. EPA Reference Method 10 or 10B of Title 40 CFR Part 60, Appendix A, shall be used to measure the CO emissions.

i. EPA Reference Method 23 of Title 40 CFR Part 60, Appendix A, shall be used to measure total dioxin/furan emissions. The minimum sample time shall be four hours per test run. If the individual HMIWI has selected the toxic equivalency standards for dioxin/furans in Table 1 in subsection (C) of this section, the following procedures shall be used to determine compliance:

i. Measure the concentration of each dioxin/furan tetra/through octa-congener emitted using EPA Reference Method 23.

ii. For each dioxin/furan congener measured in accordance with subsection (G)(2)(i)(i) of this section, multiply the congener concentration by its corresponding toxic equivalency factor specified in Table 2 below.

Table 2
Toxic Equivalency Factors

Dioxin/Furan Cogener	*Toxic Equivalency Factor*
2,3,7,8-tetrachlorinated dibenzo-o-dioxin	1
1,2,3,7,8-pentachlorinated dibenzo-p-dioxin	0.5
1,2,3,4,7,8-hexachlorinated dibenzo-p-dioxin	0.1
1,2,3,7,8,9-hexachlorinated dibenzo-p-dioxin	0.1
1,3,6,7,8-hexachlorinated dibenzo-p-dioxin	0.1
1,2,3,4,6,7,8-heptachlorinated dibenzo-p-dioxin	0.01
Octachlorinated dibenzo-p-dioxin	0.001
2,3,7,8-tetrachlorinated dibenzofuran	0.1
2,3,4,7,8-pentachlorinated dibenzofuran	0.5
1,2,3,7,8-pentachlorinated dibenzofuran	0.05
1,2,3,4,7,8-hexachlorinated dibenzofuran	0.1
1,2,3,6,7,8-hexachlorinated dibenzofuran	0.1
1,2,3,6,7,9-hexachlorinated dibenzofuran	0.1
2,3,4,6,7,8-heptachlorinated dibenzofuran	0.1

Dioxin/Furan Cogener	*Toxic Equivalency Factor*
1,2,3,4,6,7,8-heptachlorinated dibenzofuran	0.01
1,2,3,4,6,7,9-heptachlorinated dibenzofuran	0.01
Octachlorinated dibenzofuran	0.001

iii. Sum the products calculated in accordance with subsection (G)(2)(i)(ii) of this section to obtain the total concentration of dioxins/furans emitted in terms of toxic equivalency.

j. EPA Reference Method 26 or 26A of Title 40 CFR Part 60, Appendix A, shall be used to measure HCl emissions. If the individual facility has selected the percentage reduction standards for HCl under Table 1 of subsection (C) of this section, the percentage reduction in HCl emissions ($\%R_{HCl}$) is computed using the following formula:

$$(\%R_{HCl}) = \frac{(Ei - Eo)}{Ei} \times 100$$

Where:

$(\%R_{HCl})$ = percentage reduction of HCl emissions reductions achieved;

Ei = HCl emission concentration measured at the control device inlet, corrected to 7 percent oxygen (dry basis); and

Eo = HCl emission concentration measured at the control device outlet, corrected to 7 percent oxygen (dry basis).

k. EPA Reference Method 29 of Title 40 CFR Part 60, Appendix A, shall be used to measure Pb, Cd, and Hg emissions. If the individual HMIWI has selected the percentage reduction standards for metals under Table 1 of subsection (C) of this section, the percentage reduction in emissions ($\%R_{metal}$) is computed using the following formula:

$$(\%R_{metal}) = (Ei - Eo) \times 100 \; Ei$$

Where:

$(\%R_{metal})$ = percentage reduction of metal emission (Pb, Cd, or Hg) achieved;

Ei = metal emission concentration (Pb, Cd, or Hg) measured at the control device inlet, corrected to 7 percent oxygen (dry basis); and

Eo = metal emission concentration (Pb, Cd, or Hg) measured at the control device outlet, corrected to 7 percent oxygen (dry basis).

l. The EPA Reference Method 22 of Title 40 CFR Part 60, Appendix A, shall be used to determine compliance with the fugitive ash emission limit under section 60.52c(c). The minimum observation time shall be a series of three one-hour observations.

3. Following the date on which the initial performance test is completed or is required to be completed under this subsection, whichever date comes first, each owner or operator of an individual HMIWI shall:

a. Determine compliance with the opacity limit by conducting an annual performance test (no more than 12 months following the previous performance test) using the applicable procedures and test methods listed in subsection (G)(2) of this section;

b. Determine compliance with the PM, CO, and HCl emissions limits by conducting an annual performance test (no more than 12 months following the previous performance test) using the applicable procedures and test methods listed in subsection (G)(2) of this section. If all three performance tests over a three-year period demonstrate compliance with the emission limit for a pollutant (PM, CO, or HCl) the owner or operator may forego a

performance test for that pollutant for the subsequent two years. At a minimum, a performance test for PM, CO, and HCl shall be conducted every third year (no more than 36 months following the previous performance test). If a performance test conducted every third year demonstrates compliance with the emission limit for a pollutant (PM, CO, or HCl), the owner or operator may forego a performance test for an additional two years. If any performance test demonstrates noncompliance with the respective emission limit, a performance test for that pollutant shall be conducted annually until all annual performance test over a three-year period demonstrate compliance with the emission limit. The use of the bypass stack during a performance test shall invalidate the performance test.

c. (Reserved.)

d. Facilities using a CEMS to demonstrate compliance with any of the emission limits in Table I of subsection (C) of this section shall:

1. Determine compliance with the appropriate emission limit(s) using a 12-hour rolling average, calculated each hour as the average of the previous 12 operating hours (not including startup, shutdown, or malfunctions).

2. Operate all CEMS in accordance with the applicable procedures under Title 40 CFR Part 60, Appendices B and F.

4. The owner or operator of an individual HMIWI equipped with a dry scrubber followed by a fabric filter, a wet scrubber or a dry scrubber followed by a fabric filter and wet scrubber shall:

a. Establish the appropriate maximum and minimum operating parameters, indicated in Table 3 below for each control system, as site specific operating parameters during the initial performance test to determine compliance with the emission limits; and

---

Table 3
Operating Parameters to be Monitored
and Minimum Measurement and Recording Frequencies

Operating Parameters to Be Monitored	*Minimum Frequency*		*Control System*		
	Data Measurement	*Data Recording*	*Dry Scrubber Followed By Fabric Filter*	*Wet Scrubber*	*Dry Scrubber Followed By Fabric Filter and Wet Scrubber*
Maximum Operating Parameters:					
Maximum charge rate	Continuous	1 × hour	X	X	X
Maximum fabric filter inlet temperature	Continuous	1 × minute	X	N/A	X
Maximum flue gas temperature	Continuous	1 × minute	X	X	N/A
Minimum Operating Parameters:					
Minimum secondary chamber temperature	Continuous	1 × minute	X	X	X
Minimum dioxin/furan sorbent flow rate	Hourly	1 × hour	X	N/A	X

Operating Parameters to Be Monitored	*Minimum Frequency*		*Control System*		
	Data Measurement	*Data Recording*	*Dry Scrubber Followed By Fabric Filter*	*Wet Scrubber*	*Dry Scrubber Followed By Fabric Filter and Wet Scrubber*
Minimum HCl sorbent flow rate	Hourly	1 × hour	X	N/A	X
Minimum mercury (Hg) sorbent flow rate	Hourly	1 × hour	X	N/A	X
Minimum pressure drop across the wet scrubber or minimum horsepower or amperage to wet scrubber	Continuous	1 × minute	N/A	X	X
Minimum scrubber liquor flow rate	Continuous	1 × minute	N/A	X	X
Minimum scrubber liquor pH	Continuous	1 x minute	N/A	X	X

b. Following the date on which the initial performance test is completed or is required to be completed under this subsection, whichever date comes first, ensure that the individual HMIWI does not operate above any of the applicable maximum operating parameters or below any of the applicable minimum operating parameters listed in Table 3 immediately above and measured as three-hour rolling averages (calculated each hour as the average of the previous three operating hours) at all times except during periods of startup, shutdown and malfunction. Operating parameter limits do not apply during performance tests. Operation above the established maximum or below the established minimum operating parameter(s) shall constitute a violation of established operating parameter(s).

5. Except as provided in subsection (G)(8) of this section, for individual HMIWI equipped with a dry scrubber followed by a fabric filter:

a. Operation of the individual HMIWI above the maximum charge rate and below the minimum secondary chamber temperature (each measured on a three-hour rolling average) simultaneously shall constitute a violation of the CO emission limit.

b. Operation of the individual HMIWI above the maximum fabric filter inlet temperature, above the maximum charge rate, and below the minimum dioxin/furan sorbent flow rate (each measured on a three-hour rolling average) simultaneously shall constitute a violation of the dioxin/furan emission limit.

c. Operation of the individual HMIWI above the maximum charge rate and below the minimum HCl sorbent flow rate (each measured on a three-hour rolling average) simultaneously shall constitute a violation of the HCl emission limit.

d. Operation of the individual HMIWI above the maximum charge rate and below the minimum Hg sorbent flow rate (each measured on a three-hour rolling average simultaneously shall constitute a violation of the Hg emission limit.

e. Use of the bypass stack (except during startup, shutdown, or malfunction) shall constitute a violation of the PM, dioxin/furan, HCl, Pb, Cd and Hg emission limits.

6. Except as provided in subsection (G)(8) of this section, for individual HMIWIs equipped with a wet scrubber:

a. Operation of the HMIWI above the maximum charge rate and below the minimum pressure drop across the wet scrubber or below the minimum horsepower or amperage to the system (each measured on a

three-hour rolling average) simultaneously shall constitute a violation of the PM emission limit.

b. Operation of the individual HMIWI above the maximum charge rate and below the minimum secondary chamber temperature (each measured on a three-hour rolling average) simultaneously shall constitute a violation of the CO emission limit.

c. Operation of the individual HMIWI above the maximum charge rate, below the minimum secondary chamber temperature, and below the minimum scrubber liquor flow rate (each measured on a three-hour rolling average) simultaneously shall constitute a violation of the dioxin/furan emission limit.

d. Operation of the individual HMIWI above the maximum charge rate and below the minimum scrubber liquor pH (each measured on a three-hour rolling average) simultaneously shall constitute a violation of the HCl emission limit.

e. Operation of the individual HMIWI above the maximum flue gas temperature and above the maximum charge rate (each measured on a three-hour rolling average) simultaneously shall constitute a violation of the Hg emission limit.

f. Use of the bypass stack (except during startup, shutdown, or malfunction) shall constitute a violation of the PM, dioxin/furan, HCL, Pb, Cd and Hg emission limits.

7. Except as provided in subsection (G)(8) of this section, for individual HMIWI equipped with a dry scrubber followed by a fabric filter and a wet scrubber:

a. Operation of the individual HMIWI above the maximum charge rate and below the minimum secondary chamber temperature (each measured on a three-hour rolling average) simultaneously shall constitute a violation of the CO emission limit.

b. Operation of the individual HMIWI above the maximum fabric filter inlet temperature, above the maximum charge rate, and below the minimum dioxin/furan sorbent flow rate (each measured on a three-hour rolling average) simultaneously shall constitute a violation of the dioxin/furan emission limit.

c. Operation of the individual HMIWI above the maximum charge rate and below the minimum scrubber liquor pH (each measured on a three-hour rolling average) simultaneously shall constitute a violation of the HCl emission limit.

d. Operation of the individual HMIWI above the maximum charge rate and below the minimum Hg sorbent flow rate (each measured on a three-hour rolling average) simultaneously shall constitute a violation of the Hg emission limit.

e. Use of the bypass stack (except during startup, shutdown, or malfunction) shall constitute a violation of the PM, dioxin/furan, HCl, Pb, Cd and Hg emission limits.

8. The owner or operator of an individual HMIWI may conduct a repeat performance test within 30 days after violation of applicable operating parameter(s) to demonstrate that the individual HMIWI is not in violation of the applicable emission limits. Repeat performance tests conducted pursuant to this paragraph shall be conducted using the identical operating parameters that demonstrated a violation under subsections (G)(5), (6) or (7) of this section.

9. The owner or operator of an individual HMIWI using an air pollution control device other than a dry scrubber followed by a fabric filter, a wet scrubber, or a dry scrubber followed by a fabric filter and a wet scrubber to comply with the emission limits in Table 1 of subsection (C) of this section shall petition the administrator (not the health officer) for other site-specific operating parameters to be established during the initial performance test and continuously monitored thereafter. The owner or operator shall not conduct the initial performance test until after the petition has been approved by the administrator.

10. The owner or operator of an individual HMIWI may conduct a repeat performance test at any

time to establish new values for the operating parameter. The health officer or the administrator may request a repeat performance test at any time.

H. *Monitoring requirements.*

1. The owner or operator of an individual HMIWI shall install, calibrate (to manufacturers' specifications), maintain and operate devices (or establish methods) for monitoring the applicable maximum and minimum operating parameters listed in Table 3 of subsection (G) of this section such that these devices (or methods) measure and record values for these operating parameters at the frequencies listed in Table 3 at all times except during periods of startup and shutdown.

2. The owner or operator of an individual HMIWI shall install, calibrate (to manufacturers' specifications), maintain and operate a device or method for measuring the use of the bypass stack including date, time and duration.

3. The owner or operator of an individual HMIWI using something other than a dry scrubber followed by a fabric filter, a wet scrubber, or a dry scrubber followed by a fabric filter and a wet scrubber to comply with the emission limits in Table 1 of subsection (C) of this section shall install, calibrate (to manufacturers' specifications), maintain and operate the equipment necessary to monitor the site-specific operating parameters developed pursuant to subsection (G)(9) of this section if other site-specific operating parameters are approved by the administrator.

4. The owner or operator of an individual HMIWI shall obtain monitoring data at all times during HMIWI operation except during periods of monitoring equipment malfunction, calibration or repair. At a minimum, valid monitoring data shall be obtained for 75 percent of the operating hours per day and for 90 percent of the operating hours per calendar quarter that the individual HMIWI is combusting hospital waste and/or medical/infectious waste.

I. *Reporting and recordkeeping requirements.*

1. Reserved.

2. The owner or operator of an individual HMIWI shall maintain the following information (as applicable) for a period of at least five years:

   a. Calendar date of each record; and

   b. Records of the following data:

      i. Concentration of any pollutant listed in Table 1 in subsection (C) of this section or measurements of opacity as determined by the continuous emission monitoring system (if applicable);

      ii. (Reserved)

      iii. HMIWI charge dates, times and weights and hourly charge rates;

      iv. Fabric filter inlet temperatures during each minute of operation, as applicable;

      v. Amount and type of dioxin/furan sorbent used during each hour of operation, as applicable;

      vi. Amount and type of Hg sorbent used during each hour of operation, as applicable;

      vii. Amount and type of HCl sorbent used during each hour of operation, as applicable;

      viii. Secondary chamber temperatures recorded during each minute of operation;

      ix. Liquor flow rate to the wet scrubber inlet during each minute of operation as applicable;

      x. Horsepower or amperage to the wet scrubber during each minute of operation, as applicable;

      xi. Pressure drop across the wet scrubber system during minute of operation, as applicable;

      xii. Temperature at the outlet from the wet scrubber during each minute of operation, as applicable;

      xiii. pH at the inlet to the wet scrubber during each minute of operation, as applicable;

xiv. Records of use of the bypass stack, including dates, times and durations; and

xv. For individual HMIWI complying with subsections (G)(9) and (H)(3) of this section concerning site-specific operating parameters, the owner or operator shall maintain all operating parameter data collected.

c. Identification of calendar days for which data on emission rates or operating parameters specified under subsection (I)(2)(b) of this section have not been obtained, with an identification of the emission rates or operating parameters not measured, reasons for not obtaining the data, and a description of corrective actions taken;

d. Identification of calendar days, times and durations of "malfunctions" as defined in this air pollution control code, upsets, a description of the malfunction or upset, and the corrective action taken;

e. Identification of calendar days for which data on emission rates or operating parameters specified under subsection (I)(2)(b) of this section exceeded the applicable limits, with a description of the exceedances, reasons for such exceedances, and a description of corrective actions taken;

f. The results of the initial, annual, and any subsequent performance tests conducted to determine compliance with the emission limits and/or to establish operating parameters, as applicable;

g. (Reserved)

h. Records showing the names of HMIWI operators who have completed review of the information in subsection E of this section as required by subsection E of this section, including the date of the initial review and all subsequent annual reviews;

i. Records showing the names of the HMIWI operators who have completed the operator training requirements, including documentation of training and the dates of the training;

j. Records showing the names of the HMIWI operators who have met the criteria for qualification under subsection (E) of this section and the dates of their qualification; and

k. Records of calibration of any monitoring devices as required under subsections (H)(1), (2) and (3) of this section.

3. The owner or operator of an individual HMIWI shall submit the information specified in subsection (I)(3)(a) through (c) of this section no later than 60 days following the initial performance test. All reports shall be signed by the facilities manager.

a. The initial performance test data as recorded under subsections (G)(2)(a) through (G)(2)(l) of this section.

b. The values for the site-specific operating parameters established pursuant to subsections (G)(4) or (G)(9) of this section.

c. The waste management plan as specified subsection (F) of this section.

4. An annual report shall be submitted one year following the submission of the information in subsection (I)(3) of this section and subsequent reports shall be submitted no more than 12 months following the previous report (once the unit is subject to permitting requirements under Title V of the Clean Air Act or section 3-5, Reference 1200-3-9-.02(11), the owner or operator of an individual HMIWI must submit these reports semiannually). The annual report shall include the information specified in subsections (I)(4)(a) through (h) of this section. All reports shall be signed by the facilities manager.

a. The values for the site-specific operating parameters established pursuant to subsections (G)(4) or (G)(9) of this section, as applicable.

b. The highest maximum operating parameter and the lowest minimum operating parameter, as applicable, for each operating parameter recorded for the calendar

year being reported, pursuant to subsections (G)(4) or (G)(9) of this section, as applicable.

c. The highest maximum operating parameter and the lowest minimum operating parameter, as applicable for each operating parameter recorded pursuant to subsections (G)(4) or (G)(9) of this section for the calendar year preceding the year being reported, in order to provide the administrator with a summary of the performance of the affected facility over a two-year period.

d. Any information recorded under subsections (I)(2)(c) through (e) of this section for the calendar year being reported.

e. Any information recorded under subsections (I)(2)(c) through (e) of this section for the calendar year preceding the year being reported, in order to provide the health officer with a summary of the performance of the individual HMIWI over a two-year period.

f. If a performance test was conducted during the reporting period, the results of that test.

g. If no exceedances or malfunctions or upsets were reported under subsections (I)(2)(c) through (e) of this section for the calendar year being reported, a statement that no exceedances occurred during the reporting period.

h. Any use of the bypass stack, the duration, reason for the malfunction or upset, and corrective action taken.

5. The owner or operator of an individual HMIWI shall submit semiannual reports containing any information recorded under subsections (I)(2)(c) through (e) of this section no later than 60 days following the submission of information in subsection (I)(3) of this section. Subsequent reports shall be submitted no later than six calendar months following the previous report. All reports shall be signed by the facilities manager.

6. All records specified under subsection (I)(2) of this section shall be maintained onsite in either paper copy or computer-readable format, unless an alternative format is approved by the health officer.

(Code 1985, § 16-84.1; Ord. No. 5041, § 1(9), 2004)

Sec. 9-12-22. Testing and monitoring air contaminant sources.

A. *Confirmation of emissions listed in a permit application.* The health officer may require the applicant for an operating permit to conduct or have conducted such tests as are necessary to establish the quantity or identity of air contaminants emitted from an air contaminant source. Such tests shall be conducted in a manner approved in advance by the health officer. The health officer may require that such tests be conducted in the presence of the health officer or a designee.

B. *General testing.* The health officer may conduct tests of air contaminant emissions from any source. Upon request of the health officer, the owner or operator of the source to be tested shall provide, at no expense to the health officer, reasonable and necessary performance testing facilities in accordance with section 9-12-23 of this chapter and openings in stacks, vents and ducts.

C. *Determination of violation(s).* Whenever the health officer has reason to believe that the emission limits of the regulations set forth in this chapter are being violated, the health officer may require the owner or operator to conduct or have conducted at the owner's or operator's expense, tests to determine the emission level of specific air contaminants. The health officer may require that such tests be conducted in the presence of the health officer or designee.

D. *Periodic testing.* The health officer may require the owner or operator of an air contaminant source, as a condition of an operating permit, to conduct or have conducted periodic tests to establish the amount of air contaminants emitted. The nature, extent, and frequency of such required testing shall be specified in the operating permit. Such tests shall be made at the expense of the owner or operator and shall be conducted in accordance with section 9-12-23 of this chapter.

E. *Filing emission data.* Any person subject to this air pollution control code and directed to do so by the health officer shall file emission data, reporting a minimum of one year of emissions, with the health officer on forms available from the health officer.

F. *Monitoring of emissions.* The requirements of the Rules and Regulations of Tennessee 1200-3-10-.02 are incorporated by reference as the requirements of this jurisdiction, except that the phrase "Federal Register, Volume 40, No. 194, October 6, 1975" in 1200-3-10-.02(1)(c) and the phrase "October 6, 1975, Federal Register, Volume 40, No. 194 (Appendix P, Paragraph 5.0)" in 1200-3-10-.02(2)(b)7 are deleted and the phrase "Title 40 Code of Federal Regulations Part 58, Appendix C" is substituted in lieu thereof.

G. *Major stationary source sampling, recording and reporting.* The requirements of the Rules and Regulations of Tennessee 1200-3-10-.04 are incorporated by reference as the requirements of this jurisdiction.

H. *Monitoring required for determination of compliance of certain large stationary sources.* The requirements of the Rules and Regulations of Tennessee 1200-3-12-.04 are incorporated by reference as the requirements of this jurisdiction.

(Code 1967, § 3-7; Code 1985, § 16-85; Ord. No. 1265, § 1, 4-25-1972; Ord. No. 2921, § 1(2), 10-9-1979; Ord. No. 4320, § 15, 5-2-1995; Ord. No. 4636, § 16, 12-15-1998; Ord. No. 4867, § 1, 6-19-2001; Ord. No. 4981, § 12, 12-17-2002; Ord. No. 5041, § 1(10), 2004)

Sec. 9-12-23. Test methods.

A. Any of the following promulgated test methods may be performed for the purpose of demonstrating compliance with this chapter; for the purpose of submission of a compliance certification by a source; or for the purpose of establishing whether any person, owner or operator has violated any provision of this chapter, of a permit issued hereunder, or of a compliance plan entered by any person, owner or operator; so long as the effective date of the promulgated test method used is the date closest in time to the date of test performance; and so long as the test meets the applicability criteria in the test method itself:

1. Title 40 Code of Federal Regulations Part 51, Appendix M - Recommended Test Methods for State Implementation Plans.
2. Title 40 Code of Federal Regulations Part 51, Appendix P - Minimum Emission Monitoring Requirements.
3. Title 40 Code of Federal Regulations Part 51, Appendix W - Guideline on Air Quality Models and Appendices A, B and C to Appendix W.
4. Title 40 Code of Federal Regulations Part 60, Appendix A - Test Methods.
5. Title 40 Code of Federal Regulations Part 60, Appendix B - Performance Specifications.
6. Title 40 Code of Federal Regulations Part 60, Appendix C - Determination of Emission Rate Change.
7. Title 40 Code of Federal Regulations Part 60, Appendix F - Quality Assurance.
8. Title 40 Code of Federal Regulations Part 61, Appendix A - National Emission Standards for Hazardous Air Pollutants, Compliance Status Information.
9. Title 40 Code of Federal Regulations Part 61, Appendix B - Test Methods.
10. Title 40 Code of Federal Regulations Part 61, Appendix C - Quality Assurance Procedures.
11. Title 40 Code of Federal Regulations Part 61, Appendix D - Methods for Estimating Radionuclide Emissions.
12. Title 40 Code of Federal Regulations Part 61, Appendix E - Compliance Procedures Methods for Determining Compliance with Subpart I.
13. Title 40 Code of Federal Regulations Part 63, Appendix A - Test Methods.
14. Title 40 Code of Federal Regulations Part 63, Appendix C - Determination of the Fraction Biodegraded (F_{bio}) In A Biological Treatment Unit.
15. Title 40 Code of Federal Regulations Part 63, Appendix D - Alternative Validation Procedure For EPA Waste and Wastewater Methods.
16. Title 40 Code of Federal Regulations Part 75, Appendices A through I - Continuous Emissions Monitoring.
17. Title 40 Code of Federal Regulations Part 136 - Guidelines Establishing Test Procedures for the Analysis of Pollutants and Appendices A, B, C and D.

B. Where specific materials, equipment, or procedures are specified in a test method promulgated in the Code of Federal Regulations, it shall only be permissible to use other materials, equipment or procedures where the U.S. EPA Administrator: (1) specifies or approves, in

specific cases, the use of reference method with minor changes in methodology; (2) approves the use of an equivalent method; (3) approves the use of an alternate method the results of which the administrator has determined to be adequate for indicating whether a specific source is in compliance; (4) waives the requirement for performance tests because the owner or operator of a source has demonstrated by other means to the administrator's satisfaction that the affected facility is in compliance with the standard; or (5) approves shorter sampling times and smaller sampling volumes when necessary by process variables or other factors. Nothing in section 9-12-22 or this section shall be construed to abrogate the administrator's authority to require testing under section 114 of the Clean Air Act or the Technical Secretary's authority to require testing under the Tennessee Air Quality Act or the health officer's authority to require testing under this air pollution control code. For those air contaminants for which a test method has not been promulgated in the Code of Federal Regulations, the proposed test method shall be approved in advance by the health officer.

C. Unless otherwise specified in the test method, each performance test shall consist of three separate runs using the applicable test method. Each test run shall be conducted for the time and under the conditions specified in the applicable test method. For the purpose of determining compliance with an applicable standard, the arithmetic mean of results of the three runs shall apply. In the event that a sample is accidentally lost or conditions occur in which one of the three runs must be discontinued because of forced shutdown, failure of an irreplaceable portion of the sample train, extreme meteorological conditions, or other circumstances beyond the owner or operator's control, compliance may, upon the administrator's approval, be determined using the arithmetic mean of the results of the two other runs.

D. Any of the following U.S. EPA Administrator approved alternative test methods may be performed for the purpose of demonstrating compliance with this air pollution control ordinance; for the purpose of submission of a compliance certification by a source; or for the purpose of establishing whether any person, owner, or operator has violated any provision of this chapter, of a permit issued hereunder, or of a compliance plan entered by any person, owner or operator; so long as the administrator approval is in effect on the date of test performance; and so long as the test meets the applicability criteria in the test method itself:

1. Alternative test methods approved by the administrator or designee in the Code of Federal Regulations; and

2. Alternative test methods approved by the administrator or designee and posted on the U.S. Environmental Protection Agency Internet website at http://www.epa.gov/ttn//emc/approalt.html.

E. Any of the following U.S. EPA Administrator approved conditional test methods may be performed for the purpose of demonstrating compliance with this air pollution control chapter; for the purpose of submission of a compliance certification by a source; or for the purpose of establishing whether any person, owner, or operator has violated any provision of this chapter, of a permit issued hereunder, or of a compliance plan entered by any person, owner or operator; so long as the test meets the applicability criteria in the test method itself and provided that they are subject to both a U.S. Environmental Protection Agency permit veto opportunity and public notice and opportunity for public comment before test performance:

1. Conditional test methods approved by the administrator or designee in the Code of Federal Regulations; and

2. Conditional test methods approved by the administrator or designee and posted on the U.S. Environmental Protection Agency Internet website at http://www.epa.gov/ttn/emc/ctm.html.

F. Performance tests shall be conducted under representative performance conditions of the tested air contaminant source(s) for which compliance is to be demonstrated by the test. Samples shall be taken in such number, duration and location as to be statistically significant and representative of performance conditions for which compliance is to be demonstrated by the test. Unless otherwise specified in the test method, each performance test shall be corrected to standard conditions, defined as a temperature of 293 K (68° F) and a pressure of 101.3 kilopascals (29.92 in Hg). Emissions may have to be retested upon request of the health officer if the maximum production rate that occurred during compliance testing is exceeded by ten percent or more. The owner or operator shall make available to the health officer such records as may be necessary to determine the conditions of the performance tests. Operations during periods of startup, shutdown and upsets that qualify for the affirmative defense of "malfunction" or "emergency", as those terms are defined in this air pollution control code, shall not constitute representative conditions for the purpose of a performance test nor shall emissions in excess of the level of the applicable emission limit

during periods of startup, shutdown, and upsets that qualify for the affirmative defense of "malfunction" or "emergency", as those terms are defined in this air pollution control code, be considered a violation of the applicable emission limit unless otherwise specified in the applicable standard.

G. The owner or operator of an air contaminant source to be tested shall provide the health officer at least 30 days' prior written notice of any performance test and the test protocol form, except as otherwise specified in a promulgated test method, to afford the health officer the opportunity to have an observer present and to approve the test protocol. The health officer shall complete review of such submitted test protocol form and shall provide the source written notice of any changes required or any additional test(s) required at least ten calendar days prior to the test date, absent extraordinary circumstances. If there is a subsequent delay in conducting the scheduled performance test, the owner or operator of the source to be tested shall notify the health officer as soon as practicable of any delay in the original test date, either by providing at least seven days prior notice of the rescheduled date of the performance test or by arranging a rescheduled date by mutual agreement.

H. The owner or operator of an air contaminant source shall provide, or shall cause to be provided, performance testing facilities as follows:

1. Sampling ports adequate for performance of test methods applicable to such source or facility. This includes constructing the air pollution control system such that volumetric flow rates and pollutant emission rates can be accurately determined by applicable test methods and procedures and providing a stack or duct free of cyclonic flow during performance tests, as demonstrated by applicable test methods and procedures;
2. Safe sampling platform(s) for the person performing the test and for the health officer's designated observer; and
3. Safe access to sampling platform(s) and sampling ports for the person performing the test and for the health officer's designated observer;
4. Utilities for sampling and testing equipment; and
5. Such other sampling and testing facilities as the health officer may require.

I. The test methods in Title 40 Code of Federal Regulations Part 50 and Appendices A, B, C, D, F, G, H, I, J, K, L, M, and N, shall be performed for the purpose of determining compliance with the National Primary and Secondary Ambient Air Quality Standards. Three copies of 40 CFR Part 50 are on file at the Shelby County clerk's office. For those air contaminants for which the EPA has established reference and equivalent monitoring methods, the use of alternative sampling procedures shall be approved by the health officer and EPA. For those air contaminants for which the EPA has not established reference and equivalent 'methods, the use of alternative sampling procedures shall be approved by the health officer. The procedure for sampling and analyzing atmospheric fluorides shall conform with the method adopted by the American Society for Testing Materials found in the Annual Book of ASTM Standards published each year by the American Society for Testing Materials with a designation of D3266 "Standard Test Method for Automated Separation and Collection of Particulate and Acidic Fluoride in the Atmosphere ('Double Paper Tape Sampler Method')." Each ambient monitor sited in the field for the purpose of determining compliance with the National Primary and Secondary Ambient Air Quality Standards must meet the data completeness requirements in 40 CFR Part 50 and Appendices. Information that documents the cause of missing data shall be submitted in writing to the Technical Secretary for all missing data.

J. Each owner or operator of an air monitoring network required by the health officer shall submit in writing to the health officer a quality control/quality assurance plan for approval prior to commencing air monitoring. This plan shall be reviewed and approved prior to start-up of new monitoring networks or whenever any significant change is made to an existing network. The health officer will determine if a change that is made is significant. All ambient monitoring data generated by continuous operating monitors shall be submitted on magnetic media in a format acceptable to the Technical Secretary. All ambient monitoring data generated by intermittent sampling techniques shall be submitted in a format acceptable to the health officer.
(Code 1967, § 3-8; Code 1985, § 16-86; Ord. No. 1265, § 1, 4-25-1972; Ord. No. 2921, § 1(3), 10-9-1979; Ord. No. 4320, § 16, 5-2-1995; Ord. No. 4636, § 17, 12-15-1998; Ord. No. 4867, § 1, 6-19-2001; Ord. No. 4981, § 12, 12-17-2002; Ord. No. 5041, § 1(11), 2004)

Sec. 9-12-24. Malfunctions, startups and shutdowns.

For the purpose of enforcement of the control of the emissions that occur during malfunctions, startups and

shutdowns, chapter 1200-3-20 of the Tennessee Air Pollution Regulations, as effective on December 31, 2000, is adopted by reference as a portion of this code. Such regulations and/or all such additions, deletions, changes and amendments as may subsequently be made shall become a part of this code and shall have the same effect as if set out in full herein.
(Code 1967, § 3-9; Code 1985, § 16-87; Ord. No. 1265, § 1, 4-25-1972; Ord. No. 2921, § 1(4), 10-9-1979; Ord. No. 4320, § 17, 5-2-1995; Ord. No. 4636, § 18, 12-15-1998; Ord. No. 4867, § 1, 6-19-2001; Ord. No. 4981, § 12, 12-17-2002)

Sec. 9-12-25. Nuisance abatement.

A. When dust, fumes, gases, mist, odorous matter, vapors, or any combination thereof escape from a building or equipment in such a manner and amount as to cause a nuisance or to violate any regulation, the health officer may order that the building or equipment in which processing, handling and storage are done be tightly closed and ventilated in such a way that all air and gases and air- or gas-borne material leaving the building or equipment are treated by removal or destruction of air contaminants before discharge to the open air.

B. No person shall cause, suffer, allow or permit any air contaminant source to be operated without employing suitable measures for the control of the emission of objectionable odors. Suitable measures shall include permit limitations, wet scrubbers, incinerators, or such other devices as may be approved by the health officer.
(Code 1967, § 3-19; Code 1985, § 16-88; Ord. No. 1265, § 1, 4-25-1972; Ord. No. 3230, § 1(3), 8-3-1982)

Sec. 9-12-26. Fugitive dust.

No person shall cause, suffer, allow, or permit any materials to be handled, transported or stored, or a building, its appurtenances, or a road to be used, constructed, altered, repaired or demolished, without taking reasonable precautions to prevent particulate matter from becoming airborne. Such reasonable precautions shall include, but not be limited to, the following:

A. Use, where possible, of water or chemicals for control of dust in the demolition of existing buildings or structures, construction operations, the grading of roads or the clearing of land;

B. Application of asphalt, oil, water, or suitable chemicals on material stockpiles, and other surfaces which can create airborne dusts;

C. Installation and use of hoods, fans, and fabric filters to enclose and vent the handling of dusty materials. Adequate containment methods shall be employed during sandblasting or other similar operations;

D. Covering, at all times when in motion, open-bodied trucks transporting materials likely to become airborne;

E. Conduct of agricultural practices such as tilling of land, application of fertilizers, etc., in such manner as to not create a nuisance to others residing in the area;

F. The paving of roadways and their maintenance in a clean condition;

G. The prompt removal of earth or other material from paved street which earth or other material has been transported thereto by trucking or earth moving equipment or erosion by water.

(Code 1967, § 3-18; Code 1985, § 16-89; Ord. No. 1265, § 1, 4-25-1972)

Sec. 9-12-27. General alternative emission standards.

For the purpose of enforcement of the methods of establishing alternate emission standards, chapter 1200-3-21, of the Tennessee Air Pollution Control Regulations, as effective on December 31, 2000, is adopted by reference as a portion of this code. Such regulations and/or all such additions, deletions, changes and amendments as may subsequently be made shall become a part of this code and shall have the same effect as if set out in full herein.
(Code 1985, § 16-90; Ord. No. 3464, § 1, 6-4-1984; Ord. No. 4320, § 18, 5-2-1995; Ord. No. 4636, § 19, 12-15-1998; Ord. No. 4867, § 1, 6-19-2001; Ord. No. 4981, § 12, 12-17-2002)

Sec. 9-12-28. Lead emission standards.

A. For the purpose of enforcement of the lead emission standards, chapter 1200-3-22, of the Tennessee Air Pollution Control Regulations, as effective on December 31, 2000, is adopted by reference as a portion of this code. Such regulations and/or all such additions, deletions, changes and amendments as may subsequently be made shall become a part of this code and shall have the same effect as if set out in full herein.

B. The RACT emission level specified as permit conditions on the operating permit(s) in paragraph (1) of Rule 1200-3-22-03, adopted by reference in subsection A of this section, must be submitted, reviewed and approved by the administrator of the environmental protection agency or his or her designee.
(Code 1985, § 16-91; Ord. No. 3465, § 1, 6-4-1984; Ord. No. 4320, § 19, 5-2-1995; Ord. No. 4636, § 20, 12-15-1998; Ord. No. 4867, § 1, 6-19-2001; Ord. No. 4981, § 12, 12-17-2002)

Sec. 9-12-29. Infectious waste incinerators.

For the purpose of enforcement of the control of infectious waste incinerators, chapter 1200-3-25, of the Tennessee Air Pollution Control Regulations, as effective on December 31, 2000, is adopted by reference as a portion of this code. Such regulations and/or all such additions, deletions, changes and amendments as may subsequently be made shall become a part of this code and shall have the same effect as if set out in full herein.
(Code 1985, § 16-91.1; Ord. No. 3889, § 1, 8-15-1989; Ord. No. 4320, § 20, 5-2-1995; Ord. No. 4636, § 21, 12-15-1998; Ord. No. 4867, § 1, 6-19-2001; Ord. No. 4981, § 12, 12-17-2002)

Sec. 9-12-30. Acid precipitation standard.

For the purpose of enforcement of the control of emissions that cause acid precipitation, chapter 1200-3-30 of the Tennessee Air Pollution Control Regulations, as effective on December 31, 2000, is adopted by reference as a portion of this code. Such regulations and/or all such additions, deletions, changes and amendments as may subsequently be made shall become a part of this code and shall have the same effect as if set out in full herein.
(Code 1985, § 16-91.2; Ord. No. 4320, § 21, 5-2-1995; Ord. No. 4636, § 22, 12-15-1998; Ord. No. 4867, § 1, 6-19-2001; Ord. No. 4981, § 12, 12-17-2002)

Sec. 9-12-31. Case-by-case determinations of hazardous air pollutant control requirements.

For the purpose of enforcement of the requirements for case by case determinations of hazardous air pollutant control requirements, chapter 1200-3-31 of the Tennessee Air Pollution Control Regulations, as effective on December 31, 2000, is adopted by reference as a portion of this code. Such regulations and/or all such additions, deletions, changes and amendments as may subsequently be made shall become a part of this code and shall have the same effect as if set out in full herein.
(Code 1985, § 16-91.3; Ord. No. 4320, § 22, 5-2-1995; Ord. No. 4636, § 23, 12-15-1998; Ord. No. 4867, § 1, 6-19-2001; Ord. No. 4981, § 12, 12-17-2002)

Sec. 9-12-32. Prevention of accidental releases.

For the purpose of enforcement of the requirements for the prevention of accidental releases, chapter 1200-3-32 of the Tennessee Air Pollution Control Regulations, as effective on December 31, 2000, is adopted by reference as a portion of this code. Such regulations and/or all such additions, deletions, changes and amendments as may subsequently be made shall become a part of this code and shall have the same effect as if set out in full herein.
(Code 1985, § 16-91.4; Ord. No. 4320, § 23, 5-2-1995; Ord. No. 4636, § 24, 12-15-1998; Ord. No. 4867, § 1, 6-19-2001; Ord. No. 4981, § 12, 12-17-2002)

Sec. 9-12-33. Conformity.

For the purpose of enforcement of conformity, chapter 1200-3-34 of the Tennessee Air Pollution Regulations, as effective on December 31, 2000, is adopted by reference as a portion of this code. Such regulations and/or all such additions, deletions, changes and amendments as may subsequently be made shall become a part of this code and shall have the same effect as if set out in full herein.
(Code 1985, § 16-91.5; Ord. No. 4981, § 13, 12-17-2002)

ARTICLE 5. PERMITS AND INSPECTION FEES

Sec. 9-12-34. Applicability and enforcement authority.

A. The provisions of this article and section on permit fees shall apply to any person making application on or after July 1, 1992, to the Memphis and Shelby County health department for issuance, re-issuance or modification of a permit in accordance with this article and code, and shall be subject to the fee schedule set out in section 9-12-35. The provisions of this article and section on emissions fees shall apply to any person holding or obtaining a valid air pollution permit from the Memphis and Shelby County health department on or after July 1, 1992, and shall be subject to the fees set out in section 9-12-43.

B. The Memphis/Shelby County health department (hereinafter referred to as "the department") is designated to carry out and enforce the provisions of this article and to promulgate any regulations consistent with it as may be required for proper administration of the fee system created herein.
(Code 1985, § 16-93; Ord. No. 4105, § 1, 5-26-1992)

Sec. 9-12-35. Permit fee schedule.

Fees for permits are hereinafter set out as follows, and shall apply to any person as defined in this article:

A. *Construction permits.*

1. Any person making application to the Shelby County Health Department for a construction permit shall pay an initial filing fee of $200.00 per permit unit. This filing fee shall not be refundable if the permit is denied or if the application withdrawn, nor shall it be applied to any subsequent application.

2. In addition to the fees in subsection (A)(1) of this section, the largest of the following fees, if applicable, shall be paid:

a.	Prevention of significant deterioration (PSD) review	$3,960.00
b.	Major source or major modification review, except PSD sources review, requiring modeling	$2,640.00
c.	Minor source or minor modification review, requiring modeling	$660.00
d.	New resource performance standard (NSPS) source review, per permit unit	$660.00
e.	National Emission Standards for Hazardous Air Pollutant (NESHAP) source review, per permit unit	$660.00

B. *Inspection/operating permit.*

1. Any person making application to the Shelby County Health Department for an inspection/operating permit shall pay the larger of the applicable fees in accordance with the following schedule:

a.	Asbestos demolition/renovation removal, per notice	$130.00
b.	Air curtain destructor, per permit unit	$130.00
c.	NSPS source, per permit unit	$130.00
d.	NESHAP source, per permit unit	$130.00
e.	Any source issued a permit pursuant to local rules implementing Title 40, Code of Federal Regulations, Section 70 (major source permits)	$2,000.00
f.	Any permit unit with actual emissions of 50 tons or more a year, but less than 100 tons per year of any single pollutant	$130.00
g.	Any permit unit with actual emissions of 25 tons or more per year, but less than 50 tons per year of a single pollutant	$100.00
h.	Any permit unit with actual emissions of less than 25 tons per year of a single pollutant	$65.00
i.	Any permit issued as the result of a permit by rule or annual notification and general standards application to a particular business or business group	$130.00
j.	Any source issued an operating permit for which a construction permit was never obtained (Enforcement action may also apply)	$265.00

2. No portion of the inspection/operating fee shall be refundable in the event the source discontinues operation or service during the permitted period.

C. *Modification of a permit.*

1. Any person making application to the Shelby County Health Department for the modification

of a permit shall pay a fee for each permit shall pay a fee for each permit unit being modified, except that no fee is required for modification of a permit to correct clerical, typographical, or calculations errors. This fee shall be set out as follows:

a.	If the modification is anticipated to result in an increase in all pollutants less than 10 tons per year	$130.00
b.	If the modification is anticipated to result in an increase in all pollutants equal to or greater than 10 tons per year, but less than 50 tons per year	$330.00
c.	If the modification is anticipated to result in an increase in all pollutants equal to or greater than 50 tons per year	$660.00
d.	Name change	$130.00
e.	Ownership change—New owner pays inspection and operating fees (based on tonnage)	Varies based on tonnage fees
f.	Address change—New owner pays inspection and operating fees (based on tonnage) for the new address	$265.00 plus tonnage fees
g	Permit revision (with no emissions consequences)	$130.00

D. *Stack sampling.*

1. If a source is required to demonstrate compliance by stack sampling its emissions, it shall pay the following additional fees:

a.	Any testing requiring U.S./EPA methods 1 through 4 only, per stack test	$130.00
b.	Particulate emissions testing requiring U.S./EPA method 5, per stack test	$400.00
c.	Any other pollution testing by methods other than U.S./EPA method 5, (excepting those subject to subsection (D)(1)(a) of this section, per stack test)	$660.00

2. Any retest required to demonstrate compliance shall be subject to the fee schedule as stated in subsections (D)(1)(a) through (c) of this section.

(Code 1985, § 16-94; Ord. No. 4105, § 1, 5-26-1992; Ord. No. 4867, § 1, 6-19-2001; Ord. No. 4899, § 1, 10-2-2001; Ord. No. 5041, § 1(12, 13), 2004; Ord. No. 5513, 6-4-2013; Ord. No. 5581, 4-21-2015)

Sec. 9-12-36. Emissions fee for stationary sources.

A. *Emissions fee.* A fee shall be collected from each stationary air pollution source which emits more than one ton of actual emissions annually of a "regulated pollutant (for fee calculation)" as defined herein, called the "emissions fee", which shall equal the amount determined by the requirements set forth below. "Regulated pollutant (for fee calculation)", which is used only for purposes of this section, means any "regulated air pollutant" except the following: carbon monoxide; any pollutant that is a regulated air pollutant solely because it is a Class I or II substance to a standard promulgated under or established by Title VI of the Clean Air Act; or, for any pollutant that is a regulated air pollutant solely because it is subject to a standard or regulation under section 112(r) of the Clean Air Act.

1. $48.00 per ton of actual emissions emitted during calendar year 2013 to be collected beginning in 2015 and for successive years until such time as the council approves a further increase or decrease, not including fugitive emissions and actual excess emissions that are the result of process malfunctions and facility start-up and shutdown determined by the health department to be in compliance with the air pollution code sections that excuse these emissions from enforcement of each regulated pollutant as defined in section 502(b)(3)(B)(ii) of the Federal Clean Air Amendments of 1990.

2. If no adjustment in the emissions fee rate established for any calendar year after 1992 is made by the county commission and the city council, the fee shall be increased by the percentage, if any, by which the consumer price

index for the most recent calendar year preceding the unadjusted year exceeds the consumer price index for the calendar year two years prior to the unadjusted year, unless the county commission adopts an emissions fee rate that excludes a consumer price index adjustment. This rate amount shall then reflect a one-year consumer price index adjustment. For purposes of this title and air pollution control code, the consumer price index is the average of the consumer price index for all urban consumers published by the department of labor, as of the close of the 12-month period ending on August 31 of each calendar year, and the revision of the consumer price index which is most consistent with the consumer price index for 1989 shall be used.

3. The fee collected shall be adjusted by resolution of the board of Shelby County commissioners and by resolution of the Memphis City Council from time to time consistent with the need to cover the costs authorized by this chapter and air pollution control code. For purposes of this chapter and air pollution control code, a "stationary air pollution source" shall be that group of air pollution sources located within a contiguous area and under common control.

B. *Maximum amount subject to emissions fee.* Each stationary air pollution source shall be assessed the emissions fee on no more than 4,000 tons per year of each regulated pollutant it emits.

C. *Minimum annual emissions fee.* Air pollution sources issued a permit under Title 40, Code of Federal Regulations, Section 70, to include Title V and synthetic minor sources, being those sources of air pollution with actual emissions over the major source threshold or who have the potential to be a major source under Title V, but which have limited that potential by permit, and as further defined in the City of Memphis Air Code Section, shall pay a minimum annual emissions fee of no less than $1,000.00.

(Code 1985, § 16-95; Ord. No. 4105, § 1, 5-26-1992; Ord. No. 4636, §§ 2, 3, 12-15-1998; Ord. No. 4867, § 1, 6-19-2001; Ord. No. 4899, § 1, 10-2-2001; Ord. No. 4981, §§ 7—9, 12-17-2002; Ord. No. 5041, § 1(14—17), 2004; Ord. No. 5513, 6-4-2013; Ord. No. 5581, 4-21-2015)

Sec. 9-12-37. Payment of fees.

A. Any person acquiring a permit shall be subject to the following payment of permit fees and the following procedure shall be used in payment thereof:

1. Initial filing fees for construction permits must be submitted with the initial permit applications.
2. Additional fees related to construction permits including those related to public notice are due within 30 days of receipt of billing by the department.
3. Fees related to stack testing are due within 30 days of receipt of billing by the department.
4. Inspection/operating fees are assessed annually on the anniversary date of the issuance of the permit where applicable.
    a. Fees for asbestos removal must be submitted with the written notice of intent to remove.
    b. Fees for air curtain destructors must be submitted within ten days of receipt of permit.
5. Fees related to modification of a permit shall be submitted with the permit application.
6. Fees related to public notice necessary for the regulation of a source shall be due within 30 days of receipt of billing by the department.

B. If the emissions fees assessed to a stationary air pollution source are less than $5,000.00, the fees owed shall be submitted by September 30 of the year following the year the emissions occurred. If more than $5,000.00 is owed, then the amount due shall be submitted by January 31 of the year two years after the emissions occurred.

(Code 1985, § 16-96; Ord. No. 4105, § 1, 5-26-1992; Ord. No. 4636, §§ 2, 3, 12-15-1998; Ord. No. 4867, § 1, 6-19-2001; Ord. No. 4899, § 1, 10-2-2001; Ord. No. 4981, §§ 7—9, 12-17-2002)

Sec. 9-12-38. Allowable uses for emissions fee.

The department shall collect an annual emissions fee from those entities within the city which operate stationary air pollutant sources required to make application on or after July 1, 1992, to the Memphis-Shelby County health department for issuance, re-issuance or modifica-

tion of a permit in accordance with the city air pollution control code, and shall be subject to the fee schedule set out in section 9-12-35 of this code:

A. Reviewing and acting upon any application for a permit or permit modification under the city air pollution control code as amended;

B. Implementing and enforcing the terms and conditions of any permit issued under the city air pollution control code, provided, however, such cost shall not include any court cost or other costs associated with any judicial enforcement action;

C. Emissions and ambient monitoring and inspection of source operated monitoring programs;

D. Preparing generally applicable regulations or guidance;

E. Modeling, analyses and demonstrations;

F. Preparing inventories and tracking emissions;

G. Development of and support for the small business stationary source technical and environmental compliance assistance program as it applies to Part 70 sources;

H. Information management activities to support and track permit applications, compliance certifications and related data entry.

The emission and annual operating/inspection fees collected from major stationary air pollution sources as defined herein shall be used exclusively for and be sufficient to pay the direct and indirect costs of the major stationary source operating permit program allowable under the Federal Clean Air Act and under regulations in support of those federal provisions as adopted locally in the city air pollution control code. The owner or operator of any stationary source shall also pay any cost of expense associated with public notices or notifications required pursuant to the city air pollution control code or the Federal Clean Air Act.
(Code 1985, § 16-97; Ord. No. 4105, § 1, 5-26-1992; Ord. No. 4636, § 4, 12-15-1998; Ord. No. 4981, §§ 10, 11, 12-17-2002; Ord. No. 5041, § 1(18), 2004)

Sec. 9-12-39. Reporting requirement.

A. Except as provided below, each permitted stationary air pollution source must submit to the department, with the emissions fee, an annual report that establishes the amount of actual emissions of each regulated pollutant, including carbon monoxide, for that source. This report will be for the emissions of that source that occurred during the calendar year starting in 1991 and continuing for succeeding years thereafter. The department may request, and the air pollution source shall provide, additional information on the emissions data submitted when the department determines the data previously provided is inadequate to establish the actual type or amount of emissions from the source subject to fees.

B. Not including air toxics as they are defined in the Clean Air Act Amendments of 1990 and the amendments thereto, if the source emits fewer than 25 tons of actual emissions of pollutant during a year, it may at its option, use as the actual emissions figure, its permitted pollutant levels where available and known. If the source is a major source under the Air Toxics provisions of the Clean Air Act Amendments of 1990, it, too, must calculate its actual emission of regulated pollutants. Failure to provide, on a timely basis, any additional information requested shall be considered failure to pay the fees.
(Code 1985, § 16-98; Ord. No. 4105, § 1, 5-26-1992; Ord. No. 4320, § 25, 5-2-1995)

Sec. 9-12-40. Small business waiver.

The director of the department, on his or her discretion but consistent with section 507(f) of the Clean Air Act Amendments of 1990, may, upon written petition setting forth in detail the justification therefor, reduce or waive for up to three years, any emissions fee required under this chapter to take into account the financial resources of small business stationary air pollution sources as defined under the federal act or regulations promulgated pursuant thereto. A decision to deny the waiver may be appealed to the local air pollution control board by the party requesting the waiver and will be heard under the same procedures as any other decision that is appealed to this board. If a waiver is granted, it will be reviewed by the board in its annual review process and is then subject to revocation or modification by the board if found to be unwarranted or granted in an arbitrary fashion. Such action will have no effect on prior years emissions fees and will only apply to the collection of future emissions fees.
(Code 1985, § 16-99; Ord. No. 4105, § 1, 5-26-1992)

Sec. 9-12-41. Surplus funds carry forward.

Any surplus in emissions fee funds shall be carried forward from year to year for these stated purposes only.

If, however, in any year after 1993, this carry forward surplus exceeds on February 15 35 percent of the previous 12 months fee, a ten percent per ton credit on the established emissions fee amount shall be given to all stationary sources in the next emissions fee payment.
(Code 1985, § 16-100; Ord. No. 4105, § 1, 5-26-1992)

Sec. 9-12-42. Penalty provisions.

Failure to pay the fees set forth in this chapter shall be a violation of the Memphis/Shelby County air pollution code and can result in the assessment of penalties and injunction against the stationary air pollution source. In addition to any fee owed, a maximum penalty equal to 50 percent of the fees owed may be assessed for late payment. Interest in the amount equal to the maximum allowed under state law shall also be charged for all fees paid more than 30 days late. When an emissions fee amount is contested, only the contested portion can be withheld. Any uncontested fee amount must be paid by the due date for payment. Due process for contested amounts is provided by appeal under the administrative and judicial review provisions of the Memphis/Shelby County air pollution code for appeal of decisions of the director.
(Code 1985, § 16-101; Ord. No. 4105, § 1, 5-26-1992)

Sec. 9-12-43. Annual review of fee structure and financial need.

The Memphis/Shelby County air pollution control board shall annually review the fee structure established by this chapter and recommend to the Shelby County commission any change in rate or makeup of the fee it determines, after public hearing, is necessary to meet the financial requirements of the Memphis/Shelby County health department air pollution control program to fulfill the activities allowed to be funded by these fees. Such review shall include an estimate of other funds available to the program including surplus or carry forward funds as well as changes in state or federal laws that could effect the program. The recommendation shall be provided to the commission no later than April 1 of each year. The city shall not, however, be required to adopt this recommendation, nor to change fees on any predetermined schedule.
(Code 1985, § 16-102; Ord. No. 4105, § 1, 5-26-1992)

CHAPTER 9-16. POLICE AND FIRE EMERGENCY ALARM SYSTEMS*

***Editor's note—**Ord. No. 5729, § 1, adopted Aug. 20, 2019, amended Ch. 9-16 in its entirety to read as herein set out. Former Ch. 9-16, §§ 9-16-1—9-16-16, pertained to alarm systems, and derived from the Code 1985, § 28-126—28-140; Ord. No. 4640, § 1, adopted Jan. 19, 1999; Ord. No. 4847, § 1—15, adopted Feb. 20, 2001; Ord. No. 5306, § 1(28-141), adopted May 19, 2009; Ord. No. 5328, §§ 1—3, adopted Feb. 9, 2010; Ord. No. 5374, §§ 1, 2, adopted Sept. 28, 2010; Ord. No. 5527, §§ 1—6, adopted July 16, 2013.

State law reference—Alarm Contractors Licensing Act of 1991, T.C.A. § 62-32-301 et seq.

maintain operational reliability, properly use alarm systems and to reduce or eliminate false alarm dispatch requests.

2. This chapter governs systems intended to summon police and fire emergency response and it sets forth the requirements for permits, establishes fees, provides for penalties for violations, establishes a system of administration and sets conditions for suspension or loss of permits.

3. The licensure requirements contained in this chapter shall only apply to those individuals and entities who are not required to be licensed by the state alarm contractor's licensing law, T.C.A. § 62-32-301 et seq.

4. The issuance of an alarm permit authorizing the use of an alarm system shall not create any duty or liability on the part of the city or guarantee any police or fire department or other response from the city. Nothing in this article shall be construed to waive the city's governmental immunity from suit or from liability.

B. *Definitions.*

Alarm agent means any person employed by a licensed alarm systems contractor whose duties include the altering, installing, maintaining, moving, repairing, replacing, selling, servicing or monitoring of an alarm system. This definition shall only include persons who work for an alarm systems contractor as defined in this section. The owners, managers, corporate officers and partners of all alarm systems contractors are classified as alarm agents. Further, any person who is not an alarm agent, who, as an employee of a licensed alarm systems contractor or a contractor for the alarm systems contractor, has access to confidential information of an alarm user or to monitor radio equipment, shall be considered an alarm agent.

Alarm dispatch request means a notification to the police or fire division by an alarm systems contractor that an alarm, either manual or automatic, has been activated at a particular alarm site.

Alarm site means a single premises or location where an alarm system is installed and capable of being operated. Each tenancy, served by a separate alarm system in a building or complex, shall be considered a separate alarm site requiring separate permits.

Alarm system means a device or equipment designed to emit or transmit an alarm signal. "Alarm system" does not include an alarm installed on a vehicle unless the vehicle is permanently located at a site or will cause emergency services to be dispatched.

Alarm systems contractor or *contractor* means any person, a firm, company, partnership, association or corporation, which sells, or attempts to sell, installs services or monitors alarm systems, signal devices, fire/life safety systems, alarms, burglar alarms, security cameras used to detect burglary, breaking and/or entering, intrusion, shoplifting, pilferage or theft. This definition shall not include persons who sell alarm systems strictly in an over-the-counter capacity in an established location or businesses where the alarm system is owned, operated and monitored by the same entity or proprietary alarm divisions of a company where the alarm user is also an employee of the alarm service provider.

Alarm user means any person, firm, partnership, corporation or other entity who (which) uses an alarm system.

Commercial alarm user means an alarm user required to register as [a] business with the Tennessee Department of Revenue or the City of Memphis.

Conversion means the transaction or process by which one alarm systems contractor begins the monitoring of an alarm system previously monitored by another alarm systems contractor.

Designated qualifying agent means any individual licensed by the board whose qualifications have been demonstrated to the metro alarm review board for overseeing and supervising alarm systems contractor operations of any classification or combination of classifications covered under this chapter.

Director means the director of police or fire services of the city.

Duress means a silent alarm system generated by activation at a key pad or device intended to signal a crisis situation requiring police response.

False alarm means the activation of an alarm system through mechanical failure, malfunction, improper installation or through the negligence of the owner or user of the alarm system, which activation results in a response by a law enforcement agency.

False alarm prevention class means a class operated or designated by the metro alarm office for the purpose of educating alarm users about the problems created by false alarm dispatches and in the responsible use of their alarm system.

False automatic fire alarm means the activation of any fire alarm system, which results in a response by the fire department caused by mechanical failure, malfunction, improper installation, lack of proper maintenance or any other response that is not activated by smoke, heat, fire or emergency condition for which the fire department personnel are unable to determine the apparent cause of the alarm activation. As required by T.C.A. § 62-32-321, no alarm shall be considered "false" if it is caused by a violent act of nature. Additionally, if an alarm is considered a false report as defined by T.C.A. § 39-16-502 the alarm owner will not be cited under this chapter for a false alarm.

Fire alarm system means an alarm or monitoring system that is intended to respond to or detect fire, heat, smoke or other byproducts of combustion.

Holdup alarm means a silent or audible alarm signal generated by the manual activation of a device at a commercial property intended to signal a robbery in progress.

Keypad means a device that allows control of an alarm system by the manual entering of a coded sequence of numbers or letters. Each keypad with a separate physical address is considered a separate alarm and each keypad is required to be permitted.

Malicious fire false alarm means the intentional false reporting to the fire division of an emergency condition, or the intentional setting off of an alarm system which will cause another person to report the signal to the fire division. However, this definition is not to include the testing of an alarm system by a licensed alarm systems contractor alarm business under guidelines established by the metro alarm administrator.

Malicious police false alarm means the intentional false reporting to the police of a police emergency condition, or the intentional setting off of an alarm system which will cause another person to report the signal to the police. However, this definition is not to include the testing of an alarm system by a licensed alarm systems contractor under guidelines established by the metro alarm administrator.

Metro alarm administrator means the administrator of the alarm office.

Metro alarm office means the office of the city having the responsibility to administer the permitting and oversight of alarm systems, alarm system contractors and alarm agents subject to the authority of this chapter and chapters 2-28 through 2-33 and the regulations and procedures established by the metro alarm review board.

Metro alarm review board. The metro alarm review board shall consist of six members as follows: the metro alarm administrator; a dispatcher or other person designated by the police director; a person designated by the memphis fire director; a resident of the city who shall be appointed by the mayor subject to approval by city council; and two licensed alarm contractors who shall be appointed by the mayor subject to approval by city council.

Metro alarm review board dispute committee. The metro alarm review board dispute committee shall consist of five members, consisting of the metro alarm administrator and four persons designated by the metro alarm review board.

Monitoring means the process by which an alarm systems contractor receives signals from alarm systems and relays an alarm dispatch to the city for the purpose of summoning police response to the alarm site.

Multi-unit alarm system means an alarm system covering multiple individual units or alarm sites. Each alarm site within a multi-unit alarm system must have a separate alarm permit.

Non-permitted alarm system means an alarm system for which no valid alarm permit is in existence.

Notice means written notice of false alarm by U.S. mail addressed to the person to be notified at his or her last known address.

Officer means a city police officer.

Panic alarm means a silent alarm signal generated by the manual activation of a device in a residence intended to signal a crisis requiring police response.

Person means an individual, corporation, partnership, association, organization or similar entity.

Police emergency alarm system means an assembly of equipment or devices which is designed, arranged or used for the detection of a hazardous condition or an

unauthorized entry or attempted entry into a building, structure or facility, or for alerting persons of a hazardous condition or the commission of an unlawful act within a building, structure or facility, and which emits a sound, or transmits a signal or message when activated, to which annunciation a law enforcement agency or other service agency may be summoned to respond, but shall exclude a proprietary system.

Proprietary system means an alarm system emitting alarm or supervisory signals from within a control center, the control center being under the supervision of the proprietor of the protected premises. If a proprietary system includes any signal visible or audible outside the protected premises, it thereby becomes a police emergency alarm system as defined in this section.

Remote visual inspection means a visual inspection of the premises protected by the burglar alarm system which is accomplished through the use of a video camera or other similar device to capture real time visual images of the premises to the alarm system user, alarm company operator, private guard responder, or person or entity authorized by the alarm system user. The visual images must be sufficiently discernable to permit the viewer to confirm that an unauthorized entry, attempted unauthorized entry, or other crime has occurred at the premises protected by the burglar alarm system.

Residential alarm user means an alarm user that uses an alarm on private property and is not considered a commercial alarm user.

Signature means the act of signing one's name or making a mark in lieu thereof; the name of a person written with his or her own hand to signify that the writing which precedes is in accordance with his or her wishes or intentions; or an electronic marking or signature made to serve as an indication of the party's execution or authentication of the document and intent to be bound by it.

Signed certification means the act of a handwritten signature certifying receipt or an electronic signature certifying receipt.

Verify means, to contact the alarm site by telephonic or other electronic means in order to verify as required by subsection 9-16-3(E) the validity of the alarm before requesting a police dispatch.
(Ord. No. 5729, § 1(28-126), 8-20-2019)

Sec. 9-16-2. System types.

A. No automatic telephone dialing devices of any kind shall be permitted to dial directly to the 911. No business or person shall cause a programmed tape, digital, or other recorded message to be sent to the alarm dispatch center, nor shall any business or person cause a programmed tape, digital, other recorded message to be sent to any person or place to call for police emergency services. Police communications cannot receive calls from automated dialers.

B. Alarm systems contractors shall not program alarm systems so that they are capable of sending one plus duress alarms without the prior written approval of the alarm administrator's office.

C. Alarm systems contractors shall not install devices for activating a hold-up alarm which is single action, non-recessed button.
(Ord. No. 5729, § 1(28-127), 8-20-2019)

ARTICLE 2. INDIVIDUAL USERS/OPERATORS

Sec. 9-16-3. Alarm user permits; responsibilities.

A. *Required.*

1. No alarm user shall operate, or cause to be operated, an alarm system unless a valid alarm permit has been issued by the metro alarm office.
2. It is the responsibility of the alarm user to obtain a permit for each alarm system.
3. Alarm permits must be renewed each year on or before July 1 of each calendar year by the alarm user when the alarm systems contractor provides an alarm or monitoring service to an alarm user.
4. All duties and responsibilities for the use of and/or operation of a non-permitted alarm system operation at an alarm site and the obligation to pay all fines, penalties and other amounts authorized in this article in connection with such system shall be imposed on the alarm user.
5. A separate alarm permit is required for each alarm site. Multi-unit facilities must have a valid alarm permit for each unit. An alarm

system may not be operated, used, installed or monitored to protect more than one alarm site.

6. If a licensed alarm systems contractor uses an alarm system to protect its own premises, it shall obtain a permit for such system as required in this section.

7. Upon submission of a completed permit form and the permit fee, the metro alarm office shall have discretion to issue an alarm permit to an applicant unless the applicant has:

   a. Failed to provide proof of requisite alarm system requirements;

   b. Failed to pay a fine assessed under this section;

   c. Had an alarm permit for the alarm site suspended or revoked, and the violation causing the suspension or revocation has not been corrected to the satisfaction of the metro alarm administrator.

If the metro alarm administrator denies an application for a permit, the individual seeking the license may file an appeal with the metro alarm board.

8. The issuance of an alarm permit authorizing the use of an alarm system shall not create any duty or liability on the part of the city or guarantee any police or fire department or other response from the city. Nothing in this article shall be construed to waive the city's governmental immunity from suit or from liability.

B. *Application information.*

1. Except as otherwise set out here below, each permit application or request must include the following information:

   a. The name, address, and telephone numbers of the person who will be the permit holder and be responsible for the proper maintenance and operation of the alarm system and payment of fees assessed under this section;

   b. The name, address, and telephone numbers of the alarm systems contractor providing alarm or monitoring services to the alarm permit holder;

   c. The classification of the alarm site as residential, commercial, medical, or government owned facility;

   d. If the alarm is housed at an individual facility or the alarm system is housed at a multi-unit facility, whichever is applicable;

   e. Signed certification from the alarm user and the alarm systems contractor stating;

      (1) The date of installation;

      (2) The name, address, telephone number, Tennessee Alarm Contractor's License number and Tennessee Qualifying Alarm Agent's license number for the alarm systems contractor performing the alarm system installation, and responsible for providing repair service to the alarm system. If the alarm systems contractor is not required to be licensed under the Tennessee Alarm Contractor's Licensing Law, all provisions in section 9-16-7 of this chapter shall be met by the alarm systems contractor in addition to all other provisions under this chapter and chapters 2-28 through 2-33 prior to an alarm user permit being issued;

      (3) The name, address, telephone number, state alarm contractor's license number and the state qualifying alarm agent's license number for the monitoring company or central station if different from the alarm systems contractor performing the responsibilities listed in this section. If the monitoring company is not required to be licensed under the state alarm contractor's licensing law, all revisions in section 9-16-7 of this chapter shall be met by the monitoring company in addition to all other provisions under this chapter and chapters 2-28 through 2-33;

      (4) A list containing the names, addresses and telephone numbers of at least two persons and at least

one of those individuals must have keys and keypad numbers for the residential alarm site;

(5) That a set of written operating instructions for the alarm system;

(6) That the alarm systems contractor has trained the applicant, including instructions on how to avoid false alarms and the penalties, fines and consequences for false alarms under this chapter have been provided to the alarm user;

(7) A certificate from an alarm systems contractor duly licensed under the state alarm contractor's licensing board signed by the designated qualifying agent stating that the alarm system has been tested. If the alarm systems contractor is not required to be licensed under state alarm contractor's licensing board, then all provisions in section 9-16-7 of this chapter in addition to all other provisions under this chapter and chapters 2-28 through 2-33 shall be met by both the alarm systems contractor and the designated qualifying agent; and

(8) Entities identified as proprietary under definition in section 9-16-1 are exempt and provide only that information as required by the metro alarm administrator; and

f. Classification of the alarm site as being equipped with duress alarm, panic alarm, hold up alarm, or remote visual inspection if applicable.

2. Any false statement of a material matter made by an applicant for the purpose of obtaining an alarm permit shall be sufficient cause for refusal to issue or renew a permit.

3. An alarm permit cannot be transferred to another person or another address, except as provided for in subsection 19-16-3(F)(2). An alarm user shall inform the alarm administrator of any change that alters any information listed on the permit application within five business days.

C. *Fees.*

1. All fees, fines and penalties owed by an applicant must be paid before a permit may be issued or renewed. Payments will not be accepted on current fees, fines and penalties until past due fees, fines and penalties are paid in full. The permit fee shall be issued by the metro alarm administrator, or alarm administrator's designee, upon the following conditions:

a. There shall be a $30.00 permit fee for the first year for residential customers. There shall be a $60.00 permit fee for the first year for commercial customers.

b. There shall be an annual renewal fee of $10.00 for residential customers and $25.00 for commercial customers. Renewal fees become delinquent after July 30 of each calendar year. Fees paid after July 30 will include a delinquent fee of $30.00 for residential customers and $60.00 for commercial customers.

c. It is the responsibility of the alarm user to renew the permit for each active alarm or monitoring system.

D. The metro alarm administrator may deny the renewal of permits based if the permit holder has outstanding fees, fines or penalties which have been incurred as a result of the use of the system have not been paid. If an applicant has false alarm citations pending in the administrative process or a court system, then a permit may be issued or renewed at the discretion of the metro alarm administrator.

E. *Commercial alarm users.* The following provisions are applicable to commercial alarm users who have at least six false alarms from July 1 to June 30 of any year.

1. Commercial alarm users may be required to show proof an alarm system with the ability to confirm validity of the alarm prior to police dispatch.

2. A commercial alarm system must confirm an unauthorized entry or attempted unauthorized entry upon the premises, building or structure protected by alarm system.

3. In-person confirmation: confirmation may be made by the alarm system user, other person at

or near the scene of the activation, private guard responder. An in-person confirmation shall include an observation of or inspection of the premises.

4. Digital verification: on-site digital verification may be made by an alarm systems contractor or alarm user verifying the validity of alarm through digital surveillance. The images must confirm unauthorized entry or attempted unauthorized entry.

F. *Multi-unit alarm systems.*

1. *Alarm systems in multi-unit dwelling contracted for by individual tenant.* If an alarm system is installed by an individual tenant in an apartment complex unit, the tenant may provide the name of a representative of the apartment owner or property manager who can grant access to the apartment to the alarm business which is providing any services to the alarm user pertaining to the alarm system.

   A tenant of a multi-unit dwelling shall not operate an alarm system in a residential unit before an alarm permit has been issued by the alarm administrator. The fees for this permit and the renewal of this permit shall be the same as the fees and renewal for a residential alarm site.

   For the purpose of enforcing this section against an individual residential unit, the tenant is responsible for false alarm dispatches emitted from the alarm system in the tenant's residential unit.

2. *Alarm systems in multi-unit dwelling within residential units contracted by owner or property manager.* If the owner or property manager of a multi-unit dwelling provides alarm systems in each residential unit as an amenity, then the owner or property manager of the multi-unit dwelling shall not operate an alarm system in each residential unit before an alarm permit has been issued by the alarm administrator. The permits are transferable from tenant to tenant at the same alarm site. Each living unit within the multi-unit dwelling shall be considered one alarm site and be required to be permitted. The fees for this permit and the renewal of this permit shall be the same as the fees and renewal for a residential alarm site.

   All units shall be required to be permitted if the alarm system is active, regardless of the unit's occupancy status.

   For purposes of assessing fines and enforcing this section, the master alarm permit holder is responsible for payment of fines for false alarm dispatches emitted from the alarm systems in residential units.

3. *Alarm systems in multi-unit facility contracted for by individual alarm user.* If an alarm system is installed by an individual alarm user, the individual alarm user may provide the name of a representative of the multi-unit facility or property manager who can grant access to the unit to the alarm business which is providing any services to the individual alarm user pertaining to the alarm system.

   An individual alarm user in a multi-unit facility shall not operate an alarm system in the multi-unit facility before an alarm permit has been issued by the alarm. The fees for this permit and the renewal of this permit shall be the same as the fees and renewal for a commercial alarm site

   For the purpose of enforcing this section against an individual alarm user, the individual alarm user is responsible for false alarm dispatches emitted from the individual's alarm system.

4. *Alarm systems in multi-unit facility contracted by the owner or property manager.* If the owner or property manager of a multi-unit facility provides alarm systems in each unit as an amenity, then the owner or property manager of the multi-unit facility shall be required to obtain a permit, or apply for a permit for each unit and show proof of a permit prior to activating the alarm system. The permits are transferable from tenant to tenant at the same alarm site. However, if the owner or property manager requires individual tenants to apply for and obtain permits, the permit shall not be transferable. Regardless, each unit within the multi-unit facility shall be considered one alarm site and be required to be permitted. The fees

for this permit and the renewal of this permit shall be the same as the fees and renewal for a commercial alarm site.

All units shall be required to be permitted if the alarm system is active, regardless of the unit's occupancy status.

For purposes of assessing fines and enforcing this section, the master alarm permit holder is responsible for payment of fines for false alarm dispatches emitted from the alarm systems in multi-unit facilities.

G. *Permit duration and renewal.*

1. A permit shall expire at midnight on June 30 of each calendar year. The permit must be renewed annually, for a fee of $10.00 for residential users and $25.00 for commercial users by the metro alarm administrator. The alarm administrator may notify the alarm user of the need to renew prior to the expiration of the permit. It is the responsibility of the alarm user to renew the permit prior to the expiration date. Failure to renew will be classified as use of a non-permitted alarm system and penalties shall be assessed without waiver; except, if the alarm system is installed after January 1, but before July 1 of each calendar year, and the permit fee was paid, the alarm site will not be subject to an annual renewal fee until the following July 1, provided the alarm site has not exceeded its false alarm threshold two false alarms.
2. Fees paid after July 30 will include a delinquent fee of $30.00 for residential customers and $60.00 for commercial customers.
3. If an alarm user does not have a proper permit, the alarm user will be charged an additional $20.00 for administrative costs associated with false alarms.

H. *Proper alarm systems operation and maintenance.* An alarm user shall:

1. Maintain the premises and the alarm system in a manner that will minimize or eliminate false alarm dispatches;
2. Make every reasonable effort to respond or cause a representative to respond to the alarm system's location within a reasonable amount of time when notified by the city or the alarm company to deactivate a malfunctioning alarm system, to provide access to the premises, or to provide security for the premises;
3. Not manually activate an alarm for any reason other than an occurrence of an event that the alarm system was intended to report; and
4. Adjust the mechanism or cause the mechanism to be adjusted so that an alarm signal audible on the exterior of the alarm system will sound for no longer than 15 minutes after being activated. This shall provision shall not apply to duress, hold up, panic or glass break signals.
5. The alarm user or permit holder shall cause a properly sized and easy to locate address of the alarm company to be placed at the alarm site as determined by the metro alarm administrator.

(Ord. No. 5729, § 1(28-128), 8-20-2019)

Sec. 9-16-4. Contents confidential.

The information contained in an alarm user permit application required by this section and other information received by the alarm administrator through correspondence or communications with an alarm user shall be securely maintained and restricted to inspection only by the alarm administrator or certain officers or city employees specifically assigned the responsibility for handling and processing alarm user permits in the course of official duties or as otherwise required by law. The register of business subject to a verified response shall remain confidential.
(Ord. No. 5729, § 1(28-129), 8-20-2019)

ARTICLE 3. FALSE ALARMS

Sec. 9-16-5. False alarms fees and penalties; dispatch records; appeals.

A. *Fines.*

1. An alarm user shall be subject to fines, warnings, civil penalties, and suspension or revocation of permit after the first false alarm dispatch from July 1 to June 30 based upon the following schedule:

No. of False Alarm Dispatches for Police for permitted alarms	Action Taken	Fine	Fees
1	Written Notice	No Fine	No Fees
2—6	Written Notice	$50.00	Cost of service
7 or more	Written Notice, potential revocation of permit, ordinance and/or board summons, future alarms may be considered false in nature and may require additional confirmation prior to response.	$50.00	Cost of service + court costs and fines
No. of Unintentional Dispatches for Fire	Action Taken	Fine	Fees
1	Written Notice	No Fine	No Fees
2 or more	Written Notice and/or board summons.	$50.00	Cost of service + court costs and fines
No. Hold Up Alarms for permitted systems	Action Taken	Fine	Fees
1	Written Notice	No Fine	No Fees
2 or more	Written Notice	$50.00	Cost of service + additional resource service cost

[1] Cost of service and additional resource service cost ([subsections 9-16-5(A)(9) and (10)])

2. Any false or unintentional alarm from an unpermitted alarm shall result a fee of $20.00 (for additional admininstrative costs) plus the permit fee and cost of service.

3. Any individual or entity which receives notice of a false alarm may dispute the false alarm by filing with the metro alarm office, within 30 business days of the notification of the false alarm, a notice of dispute. The metro alarm administrator will review any such notice of dispute. If the metro alarm administrator denies the dispute the matter may be appealed to the metro alarm board dispute committee within five business days of the administrative decision. Adjudication of disputes before the metro alarm board dispute committee shall be governed by sections 9-16-10, 9-16-12 and 9-16-13. A failure to timely file a notice of dispute shall constitute an admission of the facts contained in the false alarm notice.

4. Disputes for commercial alarms verified by in-person confirmation that result in a false disposition, must be notarized statement by the individual that verified the incident.

5. Failure to comply with fines, penalties within 60 days of issuance may result in mandatory revocation of permit, online mandatory class approved by metro alarm office and review by the metro alarm office. Failure to complete online mandatory class may result in a $150.00 penalty.

6. Failure to comply with the above conditions may result in alarm user being summoned before the metro alarm board dispute committee or into city court, or other court of competent jurisdiction, by issuance of a mandatory summons issued by authorized officers.

7. Any owner, user or operator of any alarm system found to have violated this section two times or more in any permit period, which runs from shall also be liable for a service fee to the city for the actual cost of any response by law enforcement or emergency personnel, and for the actual cost to the city for any interruption of public services or closure of public facilities reasonably necessitated by response to such false alarm, in an amount up to the maximum allowed by state law. Additionally, any owner, user or operator of any alarm system will also be responsible for the admininstrative fees associated with the enforcement of this chapter.

8. Except for fire or mechanically-activated water flow alarm devices and alarm systems owned

and operated by any governmental entity or subdivision, upon a finding that an owner, user or operator has violated this section six times in any permit year which runs from July 1 to June 30, said owner, user or operator shall further be prohibited from operating the alarm system at issue in such a manner as to be the sole basis for a request for response by law enforcement personnel for a the remainder of the permit year from the date of such finding.

9. The metro alarm office shall collect the fines and civil penalties for false alarms in accordance with this section. Failure to comply with any of the action prescribed by this section within the time period required by the alarm office shall be considered an ordinance violation and the alarm user shall be subject to additional civil penalties.

10. The Memphis police director shall submit to the metro alarm office an amount commensurate to the cost of officers answering false alarms for approval by resolution no less than three months prior to the end of the fiscal year in every even numbered year. The Memphis fire director shall submit to the metro alarm office an amount commensurate to the cost of the fire department answering false alarms for approval by resolution no less than three months prior to the end of the fiscal year in every even numbered year.

11. The metro alarm administrator shall submit the amounts set forth in subsections [(8) and (9)] along with the administrative costs associated with enforcement of this chapter for approval by resolution on or before the second council meeting in May of each year.

B. *Non-permitted alarm system.*

1. Any person operating a non-permitted alarm system (whether revoked or suspended) will be subject to a false alarm penalty in addition to any other fines. Persons operating an alarm system that was never permitted shall receive written notice and will have ten business days after such violation to apply for a permit. The metro alarm office shall send a certified letter to users that have not applied within the ten days notifying alarm user that a false alarm fine and service fees will be levied if application is not complete a total of 30 days after the original violation. In addition, alarm user will further be prohibited from operating the alarm system at issue in such a manner as to be the sole basis for a request by law enforcement personnel until application has been submitted and all fees and fines have been paid.

2. Any subsequent false alarm calls to a non-permitted alarm system shall also be liable for a service fee to the city for the actual cost of any response by law enforcement or emergency personnel, and for the actual cost to the city for any interruption of public services or closure of public facilities reasonably necessitated by response to such false alarm, along with the admininstrative costs associated with enforcement of this chapter and in an amount up to the maximum allowed by state law and a fee of $20.00 for the failure to have a permit.

C. *Reports.* All alarm installation companies providing services in the city shall, prior to activation, send the alarm office application for permit. In addition, alarm monitoring firms shall provide after the fifth day of the end of each month, a list of any and all locations where alarm monitoring services are provided. Such list shall remain confidential to the extent allowed by law.
(Ord. No. 5729, § 1(28-130), 8-20-2019)

ARTICLE 4. ALARM SYSTEMS CONTRACTOR NOT LICENSED BY STATE

Sec. 9-16-6. Alarm system standards.

Alarm systems contractors which perform monitoring services must maintain for a period of at least one year following request for police dispatch to an alarm site, records relating to the dispatch. Those records are to be maintained July 1, 00:00 to June 30, 23:59. Records must include the name, address, and phone number of the alarm user, the alarm system zone(s), or point(s) activated, (if applicable), the time of the request for law enforcement dispatch and evidence that an attempt to verify was made to the alarm site prior to the request for law enforcement dispatch, where applicable. The alarm administrator may request copies of such records for individually named alarm users.
(Ord. No. 5729, § 1(28-131), 8-20-2019)

Sec. 9-16-7. Licensing procedures and qualifications.

A. Any person engaging in an alarm systems contractor or installing, servicing, or monitoring alarm systems in the city not required to be licensed under the state alarm contractor's licensing law shall be approved by the metro alarm administrator.

B. An alarm systems contractor which is not required to be licensed under the Tennessee Alarm Contractor's Licensing Act, shall:

1. Have a regular place of business at a permanent fixed location;

2. Have a business license or license for the city and county in which the business is located;

3. Complete a background check for all alarm system contractors and employees;

4. Provide proof that all alarm systems contractors and employees with access to records, diagrams, plans or other sensitive information pertaining to monitored, installed or proposed alarm systems are at least 18 years of age.

C. No person shall do business under this chapter unless the business entity has been approved by the alarm administrator and meets the requirements of this section.

D. *Insurance.* No approval shall be issued under this chapter and chapters 2-28 through 2-33 unless the alarm systems contractor files with the metro alarm review board evidence of insurance as follows:

A policy of liability insurance providing the following minimum coverage:

1. $100,000.00 because of bodily injury or death of one person as a result of the negligent act or acts of the principal insured or the principal insured's agents operating in the course and scope of such agent's employment;

2. $100,000.00 because of injury to or destruction of property in the course and scope of such agent's agency.

Every business company shall at all times maintain on file with the alarm administrator certificates of insurance as required by this chapter and chapters 2-28 through 2-33, and upon failure to do so, the approval of such business/company shall be suspended and not reinstated until the insurance certificates are filed.
(Ord. No. 5729, § 1(28-132), 8-20-2019)

Sec. 9-16-8. Revocation, appeal and reinstatement.

A. *Revocation, suspension or loss of alarm permit.*

1. A person commits an offense if he or she operates an alarm system during the period in which his or her alarm permit is suspended or revoked.

2. Unless there is separate indication that there is a crime in progress, the respective law enforcement office may refuse police response to an alarm dispatch request at an alarm site for which the alarm permit is revoked.

B. *Appeal from denial, suspension or revocation of permit.*

1. If the alarm administrator denies the issuance or renewal of a permit, or suspends or revokes a permit, he or she shall send written notice of his or her action and a statement of the right to appeal, by certified mail, return receipt requested, to the applicant or alarm user.

2. The applicant or alarm user may appeal the decision of the alarm administrator by filing a written request for a review setting forth the reasons for the appeal within 20 days after receipt of the notice from the alarm administrator. An alarm systems contractor may submit the request for review on behalf of an alarm user.

3. Filing of a request for appeal shall stay the action by the alarm administrator suspending or revoking a permit until a review has been completed. If a request for appeal is not made within the 20-day period, the action of the alarm administrator is final.

4. The appeal shall be heard by the metro alarm board dispute committee. The decision of the metro alarm administrator shall be overturned only upon a showing that the decision was arbitrary and capricious. Additionally, the metro alarm board dispute committee may impose other conditions it deems appropriate for the issuance of the permit.

C. *Reinstatement of permit.* A person whose alarm permit has been revoked may be issued new permit if the person:

1. Pays, or otherwise resolves all fees, fines and penalties;
2. Submits a certificate from an alarm systems contractor designated qualifying agent licensed under the provisions of this chapter, or the applicable statutes of the state, stating that the alarm system has been inspected, repaired or upgraded to meet current industry standards; and
3. Satisfies any other conditions or requirements set by the metro alarm board.

(Ord. No. 5729, § 1(28-133), 8-20-2019)

ARTICLE 5. ADMINISTRATION

Sec. 9-16-9. General rules.

A. *Establishment of office of metro alarm administrator.* There is established the office of alarm administrator, under the supervision of the city treasurer, to oversee the installation, service, maintenance and use of alarm security systems in the City of Memphis, who shall oversee operations. The office shall be operated as a self-funding unit and permitting revenue received by such office are to be used exclusively for the continued operation of the office. The office is to maintain a reserve of $100,000.00 plus ten percent of the previous year's operating expenses. The metro alarm office may reimburse the city attorney's office for $25,000.00 for resources used to defend matters under this chapter. Any surplus revenue will be divided pro rata between the Memphis Police and Fire Department based on the percentage of fees collected from alarm system users.

B. *Metro alarm administrator.* The metro alarm administrator shall act as executive director, and his or her appointment shall be by the mayor of the city. The metro alarm administrator may adopt regulations, in accordance with this subtitle, article VI, police emergency alarm system to:

1. Establish the form and content of the registrations and permits required by this subtitle;
2. Establish the procedures that regulate the request for police response to an alarm location;
3. Establish policies and procedures to ensure that alarm monitoring companies are verifying alarms; calling notification lists; and notifying the alarm dispatch center of alarm cancellations;
4. Oversee the creation and implementation of an alarm user awareness class;
5. Enforce the criteria for revocation of any registration or permit required by this subtitle;
6. Enforce the criteria for reinstatement of a registration or permit required by this subtitle after revocation;
7. File suit in any court of competent jurisdiction for the collection of all outstanding fees, fines and penalties; and
8. Further the metro alarm administrative office's ability to carry out and enforce the provisions of this subtitle.

C. *Metro alarm review board.* The metro alarm review board shall consist of six members as follows: the metro alarm administrator, a dispatcher or other person designated by the police director; a person designated by the Memphis Fire Director; a resident of the city who shall be appointed by the mayor subject to approval by city council; and two licensed alarm contractors who shall be appointed by the mayor subject to approval by city council. The appointed members shall serve for a term of two years, and shall serve no more than two consecutive terms. The chair of the metro alarms review board shall be voted on by the members. The metro alarm review board shall meet no less than twice a year.

D. *Metro alarm review board dispute committee.* The metro alarm review board dispute committee shall consist of five members designated by the metro alarms review board. The dispute committee shall hear all appeals from alarm users asserting an alarm should not be considered a false alarm. The burden shall be on the alarm user to demonstrate why the alarm was not false and why the alarm user should not be charged the fines, fees and penalties assessed herein. If an alarm user is dissatisfied with the decision of the dispute committee the alarm user may file an appeal in Chancery Court of Shelby County, Tennessee in accordance administrative act.

(Ord. No. 5729, § 1(28-134), 8-20-2019)

ARTICLE 6. ENFORCEMENT

Sec. 9-16-10. Malicious false alarm declared violation and city misdemeanor.

Any person who shall cause a malicious false alarm to be reported shall be guilty of a violation, punishable as provided in section 1-24-1 of this Code, or section 1-4 of the Code of Shelby County, whichever is applicable.
(Ord. No. 5729, § 1(28-135), 8-20-2019)

Sec. 9-16-11. Exceptions.

A. Sections 9-16-1 and 9-16-7 shall not apply to any governmental entity with regard to payment of a fee or a penalty or the revocation of a permit which provides, maintains and services police emergency alarm reporting systems for its own protection when acting in a governmental capacity as opposed to a proprietary function. These governmental entities shall be required to secure permits and renew such as required so that their alarm devices will be recorded by the police services division.

B. When law enforcement services are requested to respond to the governmental entities, all directives of this chapter shall be in force. This is not to exempt private businesses which provide, maintain or service governmental entities with such alarm systems. This exception is to include electronic surveillance program systems used by the law enforcement agencies.
(Ord. No. 5729, § 1(28-136), 8-20-2019)

Sec. 9-16-12. 911 calls in non-emergency situations prohibited; penalty.

A 911 call for a communication that is for some purpose other than to report an emergency or an event that the person placing the call reasonably believes to be an emergency is a Class C misdemeanor, subject to a $50.00 fine.
(Ord. No. 5729, § 1(28-136), 8-20-2019)

CHAPTER 9-20. AMBULANCES*

Sections:

Article 1. General Provisions

Sec. 9-20-1. Financial responsibility of owners and operators.
Sec. 9-20-2. Driver and attendant to be available.
Sec. 9-20-3. Attendants to have first aid certificate.
Sec. 9-20-4. Age of drivers—Driver's license.
Sec. 9-20-5. Display of red light on vehicle.
Sec. 9-20-6. Vehicle to be equipped with oxygen, splints and sandbags.
Sec. 9-20-7. Notice to police of accident calls.

Article 2. City's Emergency Service

Sec. 9-20-8. Established.
Sec. 9-20-9. Operation and control by fire services division.
Sec. 9-20-10. Fees.
Sec. 9-20-11. False alarms or calls.
Sec. 9-20-12. Rules and regulations.

ARTICLE 1. GENERAL PROVISIONS

Sec. 9-20-1. Financial responsibility of owners and operators.

All owners and operators of ambulances shall meet the requirements of the laws of the state as to financial responsibility for the operation of their vehicles.
(Code 1967, § 6-1; Code 1985, § 16-106)

Sec. 9-20-2. Driver and attendant to be available.

Each vehicle designated as an ambulance shall have a driver and an attendant available at all times while an injured or ill person is occupying the vehicle.
(Code 1967, § 6-2; Code 1985, § 16-107)

Sec. 9-20-3. Attendants to have first aid certificate.

All ambulance attendants employed to render aid to the injured persons suffering from an illness shall be required to complete a course in first aid given by the

***Charter reference—**Authority to regulate ambulances, § 745.

State law reference—Emergency Medical Services Act of 1983, T.C.A. § 68-140-301 et seq.

Red Cross before being assigned as such attendants and shall be recertified by the Red Cross annually as to proficiency.
(Code 1967, § 6-3; Code 1985, § 16-108)

Sec. 9-20-4. Age of drivers—Driver's license.

Ambulance drivers shall be 21 years of age or over and shall be duly licensed to operate vehicles under the laws of the state.
(Code 1967, § 6-4; Code 1985, § 16-109)

Sec. 9-20-5. Display of red light on vehicle.

Vehicles designated as ambulances shall display at least one lighted red lamp visible under normal atmospheric conditions from a distance of 500 feet to the front of such vehicle while on emergency runs.
(Code 1967, § 6-7; Code 1985, § 16-110)

Sec. 9-20-6. Vehicle to be equipped with oxygen, splints and sandbags.

Each vehicle designated as an ambulance shall be equipped with oxygen apparatus complete with pressure regulator with one hour's supply at normal rate of usage, and further shall be equipped with a set of splints, sandbags and first aid kits.
(Code 1967, § 6-8; Code 1985, § 16-111)

Sec. 9-20-7. Notice to police of accident calls.

Every person operating an ambulance within the city shall, upon receipt of a call to any accident involving death, injury or property damage, before leaving any establishment to answer such call, notify the division of police services of the location of the accident and the fact that they are answering the call.
(Code 1967, § 6-9; Code 1985, § 16-112)

ARTICLE 2. CITY'S EMERGENCY SERVICE

Sec. 9-20-8. Established.

There is established an emergency ambulance service which shall be and is incident to the operation of the fire services division. All policies governing this ambulance service shall be determined by the fire services division, with a copy of the policy sent to the chairperson of the council. Any change in the policy will be provided to the council.
(Code 1967, § 6-20; Code 1985, § 16-126; Ord. No. 4667, § 1, 4-20-1999)

Sec. 9-20-9. Operation and control by fire services division.

The city's emergency ambulance service shall be operated and controlled by the fire services division for emergency calls only.
(Code 1967, § 6-21; Code 1985, § 16-127)

Sec. 9-20-10. Fees.

A. There shall be a fee charged for each patient transported by an ambulance operated by the fire services division under this chapter, except that for any trip on behalf of a city employee on duty, there shall be no charge. No fee shall be charged for any passenger accompanying the patient, provided consent is given by the driver of the ambulance to such accompanying passenger.

B. In the event that members of the same immediate family living under the same roof (husband, wife and/or children) are transported to one hospital, the charge will be considered one charge, regardless of the number of members of the family, except that if more than one stop is made an additional fee will a charged for each stop, or if more than one ambulance is used an additional fee will be charged for each ambulance.

C. In the event that members of separate families are transported in the same ambulance, the charge will be a separate fee for each of the families.

D. There shall be a fee charged where an emergency call is made, but it is determined by the ambulance attendants that on-the-scene-treatment is adequate without transporting a patient to the hospital or when further treatment is waived by the patient.

E. Fees for such calls shall be fixed by the director of fire services.

F. Such fees shall be paid into a special general fund revenue account, separate from all other revenues.
(Code 1967, § 6-22; Code 1985, § 16-128; Ord. No. 1822, § 1, 8-14-1973; Ord. No. 2379, § 1, 2-17-1976; Ord. No. 2542, § 1, 1-4-1977; Ord. No. 2904, § 1,

7-31-1979; Ord. No. 3196, § 1, 4-6-1982; Ord. No. 3210, § 1, 6-15-1982; Ord. No. 3406, § 1, 9-25-1984; Ord. No. 3920, § 11, 1-9-1990)

Sec. 9-20-11. False alarms or calls.

It is unlawful for any person to willfully turn in any false alarm or call for the emergency ambulance service provided for in this chapter.
(Code 1967, § 6-23; Code 1985, § 16-129)

Sec. 9-20-12. Rules and regulations.

The director of fire services shall promulgate such rules and regulations as he or she deems advisable for the operation of the city's emergency ambulance service.
(Code 1967, § 6-24; Code 1985, § 16-130)

CHAPTER 9-24. CIVIL EMERGENCIES*

Sections:

Sec. 9-24-1. Definitions.
Sec. 9-24-2. Written declaration by mayor.

***State law reference—**Civil emergencies, T.C.A. § 38-9-101 et seq.

Sec. 9-24-3. General curfew—Duration.
Sec. 9-24-4. Powers of mayor.
Sec. 9-24-5. Inability or absence of mayor—Substitute officer designated.
Sec. 9-24-6. Persons not bound by curfew.
Sec. 9-24-7. Procurements made during civil emergency.
Sec. 9-24-8. Immunity to city and indemnification in use of procurements.
Sec. 9-24-9. Violations—Penalties.

Sec. 9-24-1. Definitions.

As used in this chapter:

Civil emergency is defined to be:

1. A riot or unlawful assembly characterized by the use of actual force or violence or a threat to use force if accompanied by the immediate power to execute by three or more persons acting together without authority of law;
2. Any natural disaster or manmade calamity including but not limited to flood, conflagration, cyclone, tornado, earthquake or explosion within the geographic limits of a municipality resulting in the death or injury of persons, or the destruction of property to such an extent that extraordinary measures must be taken to protect the public health, safety and welfare;
3. The destruction of property, or the death or injury of persons brought about by the deliberate acts of one or more persons acting either alone or in concert with others when such acts are a threat to the peace of the general public or any segment thereof.

Curfew is defined as a prohibition against any person or persons walking, running, loitering, standing or motoring upon any alley, street, highway, public property or vacant premises within the corporate limits of the municipality except persons officially designated to duty with reference to such civil emergency or those lawfully on the streets as defined hereinafter.

Substitute officer is defined as an official who shall act in the absence or inability to act of the mayor as provided in this chapter and chapters 6-56, 6-72, 9-32, 9-88, 10-4 through 10-32, 12-64 and 12-68 in cases of civil emergencies.

(Code 1967, § 22-91; Code 1985, § 20-66; Ord. No. 170, § 1, 5-14-1968; Ord. No. 1226, § 1, 4-11-1972)

State law reference—Similar provisions, T.C.A. § 39-1-101.

Sec. 9-24-2. Written declaration by mayor.

When, in the judgment of the mayor, a civil emergency as defined in this chapter is determined to exist, he or she shall forthwith proclaim in writing the existence of same, a copy of which proclamation will be filed with the comptroller.

(Code 1967, § 22-92; Code 1985, § 20-67; Ord. No. 170, § 2, 5-14-1968)

State law reference—Similar provisions, T.C.A. § 39-1-102.

Sec. 9-24-3. General curfew—Duration.

A. After proclamation of a civil emergency by the mayor he or she may order a general curfew applicable to such geographical areas of the municipality or to the municipality as a whole, as he or she deems advisable, and applicable during which hours of the day or night as he or she deems necessary in the interest of the public safety and welfare. Such proclamation and general curfew shall have the force and effect of law and shall continue in effect until rescinded in writing by the mayor but not to exceed 15 days.

B. Until overruled by final decision of a court of last resort, the provisions of this section shall apply only to a general curfew applicable to the municipality as a whole and may not be applicable only to such geographical areas of the municipality as the mayor deems advisable, but should this sentence be found improper by such court of last resort, then, in that event, this sentence will be considered as having not been passed, such being the legislative intent of the council.

(Code 1967, § 22-93; Code 1985, § 20-68; Ord. No. 170, § 3, 5-14-1968)

State law reference—Similar provisions, T.C.A. § 39-1-103.

Sec. 9-24-4. Powers of mayor.

After proclamation of a civil emergency the mayor may, at his or her discretion, in the interest of public safety and welfare:

A. Order the closing of all retail liquor stores;

B. Order the closing of all establishments wherein beer or alcoholic beverages are served;

C. Order the closing of all private clubs or portions thereof wherein the consumption of intoxicating liquor and/or beer is permitted;

D. Order the discontinuance of the sale of beer;

E. Order the discontinuance of selling, distribution or giving away of gasoline or other liquid flammable or combustible products in any container other than a gasoline tank property affixed to a motor vehicle;

F. Order the closing of gasoline stations, and other establishments, the chief activity of which is the sale, distribution or dispensing of liquid flammable or combustible products;

G. Order the discontinuance of selling, distributing, dispensing or giving away of any firearm or ammunition of any character whatsoever;

H. Order the closing of any or all establishments or portions thereof, the chief activity of which is the sale, distribution, dispensing or giving away of firearms and/or ammunition;

I. Issue such other orders as are necessary for the protection of life and property.

(Code 1967, § 22-94; Code 1985, § 20-69; Ord. No. 170, § 4, 5-14-1968)

State law reference—Similar provisions, T.C.A. § 39-1-105.

Sec. 9-24-5. Inability or absence of mayor—Substitute officer designated.

A. In the event of the inability to act or absence of the mayor during any civil emergency as defined in this chapter, the chairperson of the city council or in such chairperson's absence or inability to act, the member of the council who is the most immediate past chairperson is designated as substitute officer as defined herein and shall act for and in place of the mayor with respect to any civil emergencies as provided for in this chapter.

B. In the event there is no immediate past chairperson serving on the council, then by majority vote a substitute officer shall be selected from the remaining members of the council to serve.

C. The above described substitute officer to serve in place of the mayor or chairperson in civil emergencies shall have no duties the chairperson pro tem who shall be selected as provided in the rules of procedure of the council heretofore adopted by resolution.

(Code 1967, § 22-94.1; Code 1985, § 20-70; Ord. No. 1226, § 2, 4-11-1972)

Sec. 9-24-6. Persons not bound by curfew.

Any curfew as defined by this chapter shall not apply to persons lawfully on the streets and public places during a civil emergency who have obtained permission of the local chief of police or other law enforcement officer then in charge of municipal law enforcement which permission shall be granted on good cause shown. This curfew also shall not apply to medical personnel in the performance of their duties.

(Code 1967, § 22-96; Code 1985, § 20-71; Ord. No. 170, § 6, 5-14-1968)

State law reference—Similar provisions, T.C.A. § 39-1-106.

Sec. 9-24-7. Procurements made during civil emergency.

After proclamation of a civil emergency pursuant to section 9-24-2, in the event the mayor further should determine in his or her judgment that the resources then available to the city are insufficient for the protection of life or property, and that the public peace, health, safety and welfare require that additional labor, equipment or supplies be procured in order to combat such civil emergency, the mayor shall forthwith authorize the director of civil defense, to procure by contract on behalf of the city all such additional labor, equipment or supplies as may be necessary in order to combat such civil emergency. Such procurement on behalf of the city may be by employment or subemployment of personnel for such times and such durations as the director of civil defense may determine, or by lease or purchase of equipment or supplies. All such procurements made or contracted for on behalf of the city by the director of civil defense shall become the obligations of the city and shall be paid for from the general funds of the city.

(Code 1967, § 22-98; Code 1985, § 20-72; Ord. No. 2072, § 1, 6-18-1974)

Sec. 9-24-8. Immunity to city and indemnification in use of procurements.

This chapter and chapters 6-56, 6-72, 9-32, 9-88, 10-4 through 10-32, 12-64 and 12-68 are an exercise by the city of its governmental functions for the protection of the public peace, health, safety and welfare, and the city shall not be liable for any damage to person or property in the utilization of any labor, equipment or supplies procured under section 9-24-7. Any person or corporation furnishing labor, equipment or supplies to the city pursuant to the provisions of section 9-24-7 shall be

indemnified and held harmless by the city from any and all claims made by third persons for damage to person or property arising out of the utilization of such labor, equipment or supplies during a civil emergency.
(Code 1967, § 22-99; Code 1985, § 20-73; Ord. No. 2072, § 2, 6-18-1974)

Sec. 9-24-9. Violations—Penalties.

Any person violating the provisions of orders issued by the mayor pursuant to this chapter during a proclaimed civil emergency shall be guilty of a misdemeanor and be punished as provided in section 1-24-1 of this code.
(Code 1967, § 22-95; Code 1985, § 20-74; Ord. No. 170, § 5, 5-14-1968)

State law reference—Authorized penalty, T.C.A. § 39-1-105.

CHAPTER 9-28. DAY CARE CENTERS*

Sections:

Sec. 9-28-1. Definitions.
Sec. 9-28-2. Registration.
Sec. 9-28-3. Approval generally.
Sec. 9-28-4. Conditions to approval.
Sec. 9-28-5. First-story operation required—Prohibited equipment.
Sec. 9-28-6. Age limit.
Sec. 9-28-7. Toilet facilities.
Sec. 9-28-8. Penalties for violations.

Sec. 9-28-1. Definitions.

When referred to in this chapter, the terms below shall be defined as follows:

Ambulatory means the ability to walk unaided.

Day care means all types of day care programs wherein are received for pay five or more children for care, which are operated for a period of less than 24 hours per day, or other similar businesses operated under any name whatsoever, provided that kindergarten for five-year old children under the direct supervision of any private or parochial school or the board of education, operating on essentially the same time schedule as public school guidelines, are not subject to this chapter.

Day care center means the building, group of buildings, room or other place where day care is provided.

Institution, for the purposes of this chapter, means the building, group of buildings, room or other place providing care for nonambulatory persons, or children under the age of 15 months, when used to conduct day care activities and complying with standards of the building official, the fire marshal and health department outlined in sections 9-28-3 and 9-28-4.

Supervisor means any person in charge of children at a day care center.
(Code 1967, § 14-1; Code 1985, § 12-1; Ord. No. 2401, § 1, 4-13-1976)

Sec. 9-28-2. Registration.

A. Every day care center shall be registered with the office of planning and development and the plan of building shall be submitted as required by the building official and the fire marshal and the health department. The center shall furnish the name and address of the owner, and if the owner is a corporation or association, the names and residences of all of the officers thereof, the present or proposed location of the center, the name and address of the superintendent or of the person to be in charge thereof, and such other information as the building official and the fire marshal and the health department may request in connection with such day care center, its management, operation and personnel.

B. Every day care center shall be required to post in a prominent and easily visible location the following information:

1. The name and address of the owner. If the owner is a corporation, partnership or association, the names and addresses of all of the officers thereof;
2. The name and address of the superintendent, manager or person in charge of the center's operation;
3. The most recent fire department inspection report;
4. The most recent health department inspection report;
5. The most recent department of human services inspection report;

***Charter reference—**Authority to regulate homes and institutions operated for the care of children, § 860.

State law reference—Child care agencies, T.C.A. § 71-3-501 et seq.

6. A certificate of liability insurance with the carrier's name and address;
7. A list of all employees, their job titles and a notice that additional, detailed information on the employees' qualifications are available upon request;
8. The telephone numbers of the department of human services and the mayor's citizen service center to register complaints;
9. The number of children actually enrolled and the number of children for which the center is licensed.

It shall be the responsibility of the fire department to make sure that all necessary information is posted in a suitable manner and location.
(Code 1967, § 14-2; Code 1985, § 12-2; Ord. No. 2401, § 1, 4-13-1976; Ord. No. 4705, § 1, 9-7-1999)

Sec. 9-28-3. Approval generally.

All day care centers shall be approved by the office of planning and development, such approval to be given only after it is recommended by the building official, the fire marshal and the health department. Such recommendation for approval shall be made after an inspection of the premises by the fire marshal and health department. Such officers are authorized and empowered to enter any day care center in the city and the premises on which the same is conducted, for the purpose of making a full inspection thereof.
(Code 1967, § 14-3; Code 1985, § 12-3; Ord. No. 2401, § 1, 4-13-1976)

Sec. 9-28-4. Conditions to approval.

The building official, the fire marshal and the health department are empowered to require day care centers to meet all applicable conditions and ordinances as to provide safe and proper facilities for children therein, before recommending approval of such centers.
(Code 1967, § 14-4; Code 1985, § 12-4; Ord. No. 2401, § 1, 4-13-1976)

Sec. 9-28-5. First-story operation required—Prohibited equipment.

Day care centers shall operate on the first story only. There shall be no measures or devices that prohibit quick egress by all children in case of emergency. Each day care center shall contain a minimum open floor space of 30 square feet per child, excluding offices, halls, kitchens and bathrooms.
(Code 1967, § 14-5; Code 1985, § 12-5; Ord. No. 2401, § 1, 4-13-1976)

Sec. 9-28-6. Age limit.

Day care centers, except those which qualify as institution facilities and comply with the building official, fire marshal and health department regulations, shall not admit children less than 15 months of age or nonambulatory children.
(Code 1967, § 14-6; Code 1985, § 12-6; Ord. No. 2401, § 1, 4-13-1976)

Sec. 9-28-7. Toilet facilities.

One water closet and one lavatory shall be provided for each 15 children or appreciable fraction thereof.
(Code 1967, § 14-7; Code 1985, § 12-7; Ord. No. 2401, § 1, 4-13-1976)

Sec. 9-28-8. Penalties for violations.

Any person who shall violate any of the provisions of this chapter shall be guilty of a misdemeanor and subject to a fine of not less than $10.00, nor more than $50.00 for each and every violation.
(Code 1967, § 14-8; Code 1985, § 12-8; Ord. No. 2401, § 1, 4-13-1976)

CHAPTER 9-32. EMERGENCY ENERGY CURTAILMENT PLAN

Sections:

Sec. 9-32-1. Definitions.
Sec. 9-32-2. Notice of energy emergency—Proclamation by mayor of energy emergency.
Sec. 9-32-3. Energy curtailment measures.
Sec. 9-32-4. Exceptions.
Sec. 9-32-5. Authority to act when mayor disabled or absent.
Sec. 9-32-6. Conclusion of emergency—Proclamation by mayor.
Sec. 9-32-7. Violations—Penalties.

Sec. 9-32-1. Definitions.

As used in this chapter:

Customer means every person, partnership, company, firm, corporation, unincorporated association or any

other legal entity using or receiving any form of energy resource from the Memphis light, gas and water division.

Energy emergency means a condition of danger to the health, safety, welfare or economic well-being of the citizens for the city, arising out of a present or threatened shortage or reduction of usable energy resources; also, any condition of substantial danger resulting from the operation of any electrical power generating facility or the transport of any energy resource by any means whatsoever.

Energy resource means all forms of energy or power including, without limitation, natural or synthetic gas, electricity in all forms and from all sources, and other fuels of any description.

Occupied space means a space then occupied by human beings for business or living.

Substitute officer means an official who shall act in the absence or inability to act of the mayor as provided in this chapter in case of energy emergencies.
(Code 1967, § 22-105; Code 1985, § 20-86; Ord. No. 2186, § 1, 12-17-1974; Ord. No. 2563, § 1, 2-22-1977)

Sec. 9-32-2. Notice of energy emergency—Proclamation by mayor of energy emergency.

The board of commissioners of the Memphis light, gas and water division shall advise the mayor when in its opinion an energy emergency, for whatever reason, exists in the city. When, in the judgment of the mayor, an energy emergency, as defined in this chapter, is determined to exist, the mayor shall forthwith proclaim the existence of same, a copy of which proclamation shall be filed with the comptroller.
(Code 1967, § 22-106; Code 1985, § 20-87; Ord. No. 2186, § 2, 12-17-1974; Ord. No. 2563, § 1, 2-22-1977)

Sec. 9-32-3. Energy curtailment measures.

A. After proclamation of an energy emergency, the mayor may, at his or her discretion, in the interest of the public health, safety and welfare, order the implementation of any or all of the following energy curtailment steps:

1. Prohibit any customer from making, causing or permitting any use of an energy resource from the light, gas and water division for exterior floodlighting and motorized devices for decorative use, with the exception that commercial customers may operate window display lighting and one outdoor sign for business logo or identification purposes;

2. Reduce the amount of electric energy usage for lighting billboards and other outdoor advertising signs under contract by the same percentage of kilowatt hours that the Tennessee Valley Authority reduces the total supply of kilowatt hours available to the light, gas and water division. This reduction shall not apply to the amount of energy used in connection with lighting the one outdoor sign for business logo or identification permitted under subsection (A)(1) of this section;

3. Prohibit any customer from making, causing or permitting any use of an energy resource from the light, gas and water division for outdoor gaslights, swimming pool heaters, outdoor barbecue grills or similar nonessential uses;

4. Prohibit any customer from making, causing or permitting any use of an energy resource from the Memphis light, gas and water division for the purpose of:

   a. Heating or cooling an occupied space beyond the temperature limits set by order of the mayor, or

   b. Heating or cooling an unoccupied space at a temperature in excess of that required to prevent loss of perishable goods, animals or damage to piping or equipment;

5. Prohibit any customer from making, causing or permitting any use of an energy resource from the light, gas and water division for exterior lighting during daylight hours;

6. Prohibit any customer from making, causing or permitting any use of an energy resource from the light, gas and water division for interior lighting within commercial and industrial buildings when they are closed for business;

7. Prohibit any customer from making, causing or permitting any use of an energy resource from the light, gas and water division for noncommercial recreational use after 10:00 p.m., and such use before 10:00 p.m. shall not be in

excess of 50 percent of the amount of that energy resource used in the billing period for the same month one year earlier;

8. Declare and set the maximum number of hours and the maximum number of days that commercial customers may be open for the conduct of trade or business in any seven-consecutive-day period. Such declaration or restriction shall not be in conflict with any restrictions that may be imposed by the state or the federal government;

9. Declare certain businesses as nonessential to the maintenance of the public health, welfare and safety. Such businesses shall be subject to having their energy resource supply from the light, gas and water division restricted or eliminated upon order of the mayor;

10. Prohibit or restrict such other activities as he or she reasonably believes are necessary to help maintain life, health or property within the city.

B. In imposing the restrictions provided by this section, the mayor may impose them for such times, upon such conditions, with such exceptions and in such areas of the city as he or she from time to time deems necessary.

C. Whenever the restrictions imposed under this chapter are more restrictive than are required by any other statute, local ordinance or regulations, the provisions of the restriction imposed hereunder shall govern.

D. Whenever the restrictions of any other statute, local ordinance or regulation are more restrictive than the restriction imposed under this chapter, the provisions of such statute, local ordinance or regulations shall govern.

(Code 1967, § 22-107; Code 1985, § 20-88; Ord. No. 2186, § 3, 12-17-1974; Ord. No. 2563, § 1, 2-22-1977)

Sec. 9-32-4. Exceptions.

Exceptions to the foregoing provisions in sections 9-32-1 through 9-32-3 may be made where necessary for the maintenance of the public health, welfare and safety, or where required by law. Such exceptions shall include, but not necessarily be limited to, police, fire and other essential governmental services, the room rental services of hotels, motels or similar establishments, funeral homes and mortuaries, hospitals, medical clinics, sanitariums, rest homes and the prescription drug services of business establishments. The mayor shall determine such approved exceptions as are necessary for the maintenance of the public health, welfare and safety, and include a listing of the same in such proclamations as may be issued by him or her invoking the provisions of section 9-32-3; and he or she shall file such proclamations with the office of the city comptroller.

(Code 1967, § 22-108; Code 1985, § 20-89; Ord. No. 2186, § 4, 12-17-1974; Ord. No. 2563, § 1, 2-22-1977)

Sec. 9-32-5. Authority to act when mayor disabled or absent.

A. In the event of the inability to act or absence of the mayor during any energy emergency as defined herein the chairperson of the city council or in such chairperson's absence or inability to act, the member of the council who is the chairperson of the council's committee on public utilities is designated as substitute officer as defined herein and shall act for and in place of the mayor with respect to any energy emergencies as provided for in this chapter.

B. In the event there is no chairperson of the council's committee on public utilities serving on the council, then by majority vote a substitute officer shall be selected from the remaining members of the council to serve.

(Code 1967, § 22-109; Code 1985, § 20-90; Ord. No. 2186, § 5, 12-17-1974)

Sec. 9-32-6. Conclusion of emergency—Proclamation by mayor.

All curtailment of energy use decreed by the mayor shall terminate upon the conclusion of the energy emergency as defined in section 9-32-1, and the mayor shall proclaim the same to have come to an end.

(Code 1967, § 22-110; Code 1985, § 20-91; Ord. No. 2186, § 6, 12-17-1974)

Sec. 9-32-7. Violations—Penalties.

Any customer as herein defined who violates any section of this chapter shall be guilty of a misdemeanor and upon conviction shall be subject to punishment as provided in section 1-24-1 of this code.

(Code 1967, § 22-111; Code 1985, § 20-92; Ord. No. 2186, § 7, 12-17-1974)

CHAPTER 9-36. FIRE PREVENTION CODE ADOPTED

Sections:

Sec. 9-36-1. International Fire Code adopted.
Sec. 9-36-2. Definitions.
Sec. 9-36-3. Penalty for violations.
Sec. 9-36-4. Amendments.

Sec. 9-36-1. International Fire Code adopted.

The 2021 Edition of the ICC International Fire Code is hereby adopted as the Fire Prevention Code of the City of Memphis, and such code shall have the same force and effect as if set out in full herein. The following Appendices of the 2021 Edition of the ICC International Fire Code, or as locally drafted, are also adopted. Appendix B - Fire-Flow Requirements for Buildings, Appendix E - Hazard Categories, Appendix F - Hazard Ranking, and Appendix G -Cryogenic Fluids - Weight and Volume Equivalents. Any appendix not listed in this ordinance is specifically not adopted.
(Code 1985, § 14-51; Ord. No. 3939, § 2, 1-30-1990; Ord. No. 4389, § 1, 2-20-1996; Ord. No. 4900, § 1, 10-16-2001; Ord. No. 5225, § 1, 12-3-2007; Ord. No. 5486, § (a), 12-18-2012; Ord. No. 5701, § (a), 8-28-2018; Ord. No. 5808, 11-16-2021)

State law reference—Adoption by reference, T.C.A. § 6-54-501 et seq.

Sec. 9-36-2. Definitions.

For the purposes of this chapter, certain terms shall have the meanings ascribed to them in this section, unless the context clearly indicates otherwise.

City or *municipality* means the City of Memphis, Tennessee.

Fire official means the fire marshal of the fire services division, City of Memphis, or his or her designated assistant, deputy or representative.
(Code 1985, § 14-52; Ord. No. 3939, § 2, 1-30-1990; Ord. No. 4389, § 1, 2-20-1996; Ord. No. 4900, § 1, 10-16-2001)

Sec. 9-36-3. Penalty for violations.

Any person, firm or corporation violating any of the provisions of this chapter shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished as provided in section 1-24-1 of this code. Each day a violation continues after a service of notice specifying a compliance date, shall be deemed a separate offense.
(Code 1985, § 14-53; Ord. No. 3939, § 2, 1-30-1990; Ord. No. 4389, § 1, 2-20-1996; Ord. No. 4900, § 1, 10-16-2001)

Sec. 9-36-4. Amendments.

The International Fire Code, 2021 Edition, is hereby amended as set out in this Article. All references to Chapter, Section and sub-section numbers in the text of the amendments hereafter set out shall be construed as if followed by the words, "of the Fire Code" unless clearly indicated to the contrary.

2021 International Fire Code Amendments

Chapter 1 Scope and Administration

101.1 Title is amended to delete the words "[NAME OF JURISDICTION]," and replace with the words "Memphis, Tennessee."

104.6 Official records is amended to delete the entire section and subsections 104.6.1 Approvals, 104.6.2 Inspections, 104.6.3 Fire records, and 104.6.4 Administrative without substitution.

105.5.29 LP-gas is amended to add the following sentence at the end of section 1 after the word "gas":

"It shall be the responsibility of the owner of the LP container to obtain the permit."

105.5.49 Temporary membrane structures and tents is amended to delete the second exception and substitute in lieu thereof the following:

"2. Funeral tents and curtains or extensions attached thereto, when used for funeral services."

105.5.49 Temporary membrane structures and tents is further amended by adding the following new subsection:

105.5.49.1 Responsibility. It shall be the responsibility of the owner of the tent to obtain the permit.

105.6.24 Temporary membrane structures and tents is amended to delete the third exception without replacement.

105.6.24 Temporary membrane structures and tents is further amended by adding the following new sub-section:

105.6.24.1 Responsibility. It shall be the responsibility of the owner of the tent to obtain the permit.

106.4 Retention of construction documents is amended to delete the first sentence, "One set of construction documents shall be retained by the fire code official for a period of not less than 180 days from date of completion of the permitted work, or as required by state or local laws," without substitution.

110.1 Authority to disconnect service utilities is amended to delete the last sentence, "If not notified prior to disconnection, then the owner, the owner's authorized agent or occupant of the building, structure or service system shall be notified in writing as soon as practical thereafter," without substitution.

111 Means of appeals is amended by adding the following new sub-section:

111.5 Notice of appeal. Notice of appeal shall be in writing and filed with the fire code official within 15 days of a decision that is rendered by the fire code official.

112.4 Violation penalties is amended to delete the words "guilty of a [SPECIFY OFFENSE], punishable by a fine of not more than [AMOUNT] dollars or by imprisonment not exceeding [NUMBER OF DAYS], or both such fine and imprisonment," and replace with the words "subject to a citation and/or fines as determined by a court of law."

113.4 Failure to comply is amended to delete the words "subject to fines established by the authority having jurisdiction" and replace with the words "guilty of a civil offense subject to a citation and/or fines as determined by a court of law."

Chapter 2
Definitions

Section 202 General Definitions is amended by adding the following definitions:

Automated external defibrillator (AED): A medical device heart monitor and defibrillator that:

(1) Has received approval of its premarket notification, filed pursuant to 21 U.S.C. §360(R), from the United States Food and Drug Administration.

(2) Is capable of recognizing the presence or absence of ventricular fibrillation or rapid tachycardia, and is capable of determining, without intervention by an operator, whether defibrillation should be performed; and

(3) Upon determining that defibrillation should be performed, automatically charges and requests delivery of an electrical impulse to an individual's heart.

Fenced compound: A property such as, but not limited to, a car lot, storage lot, warehouse, retail or wholesale business, night watchmen staffed facility, or facility that is open during business hours and uninhabited when closed, etc.

Light wood truss: Manufactured from the natural wood fiber in trees, cut and dried to nominal dimensions such as 2 x 4, 2 x 6, 2 x 8, 2 x 10, 2 x 12, etc., which is used in floor and ceiling systems. These wooden structures are composed of a combination of members such as chords, diagonals, and web members, usually in same triangular arrangements to constitute a rigid framework.

Chord: A principal member of a truss which extends from one end to the other, primarily to resist bending; usually on of a pair of such members.

Diagonal: In a framed structure, an inclined member running across a panel as in a truss.

Web: The portion of a truss or girder between the chords or flanges, whose principal function is to resist shear on the span.

Residential community: A community shall be defined as a location at which a group resides and/or dwells, including but not limited to, apartments, hotels, modular home communities, private subdivision, etc.

Chapter 3
General Requirements

308.1.4 Open-flame cooking devices is amended to delete the second and third exceptions.

311.5 Placards is amended to delete the words "as required by Sections 311.5.1 through 311.5.5" after the word "marked."

311.5.1 Placard location is deleted without substitution.

311.5.2 Placard size and color is deleted without substitution.

311.5.3 Placard date is deleted without substitution.

311.5.4 Placard symbols is deleted without substitution.

311.5.5 Informational use is deleted without substitution.

319.1 General is amended to add the following sentence after the section following the word "section":

"Mobile units must remain mobile at all times during operation. The unit must be on wheels (excluding boats) at all times. Any mobile food unit that removes such wheels or becomes stationary must meet Tennessee Department of Health Regulations Chapter 1200-23-1 et seq. in its entirety. Mobile food preparation vehicles do not include pushcarts as regulated by city codes and prohibited from selling potentially hazardous foods by the state department of health, nor vehicles from which only ice cream and other frozen nonhazardous food products are sold, nor vehicles operating under special event permit."

319.8.2 General is amended to add the words "in accordance with NFPA 96" at the end of the section following the word "movement."

Chapter 4
Emergency Planning and Preparedness

401.1 Scope is amended to delete the exception without replacement.

402.1 Definitions is amended to add the following definition term:

"**AUTOMATED EXTERNAL DEFIBRILLATOR (AED).**"

Chapter 4 shall be amended by adding the following new section:

Section 408 Automated External Defibrillators

408.1 Where required. An Automated External Defibrillator shall be installed and maintained in newly constructed or newly classified Group A, B, E, F, H, I, M, R-1, R-2, R-4 and S occupancies with an occupant load of 300 or more.

408.2 Location. Automated External Defibrillators shall be in conspicuous locations where they will be readily accessible and immediately available for use. AED devices, where required, shall be installed in sufficient numbers and in locations so that an AED device shall be accessible within three (3) minutes in the event of an emergency, in accordance with American Heart Association recommendations.

408.2.1 Unobstructed and unobscured. Automated External Defibrillators shall not be obstructed or obscured from view. Means shall be provided within occupancies and at outdoor public assemblages and events to indicate the location of AEDs.

408.2.2 Cabinets. Cabinets used to house Automated External Defibrillators shall not be locked.

Exceptions:

1. Where Automated External Defibrillators subject to malicious use or damage are provided with a means of ready access.
2. In Group I-3 occupancies and in mental health areas in Group I-2 occupancies, access to Automated External Defibrillators shall be permitted to be locked or to be in staff locations provided the staff has keys.

408.3 General requirements. Automated External Defibrillators and the programs for their use shall comply with the requirements set forth in the Tennessee Code Annotated and the rules adopted by the Tennessee Department of Health.

408.3.1 Required Maintenance. Automated External Defibrillators shall be maintained and tested in accordance to the manufacturer's operational guidelines. Written records of all maintenance and testing performed on AEDs shall be maintained.

408.3.2 Registration. Automated External Defibrillators shall be registered with the primary provider of emergency medical services where the defibrillator is located. A copy of the required AED program and plan for each installation shall be included with the registration.

Chapter 5
Fire Service Features

502.1 Definitions is amended to add the following definition terms:

FENCED COMPOUND.

RESIDENTIAL COMMUNITY.

503.2.5 Dead ends is amended to add the following sentence after the section following the word "apparatus":

"Turnarounds required by this section shall comply with Table D103.4 Requirements for Dead-End Fire Apparatus Access Roads in Appendix D."

503.6 Security gates is amended to delete the entire section and substitute in lieu thereof the following:

503.6 Security gates. The installation of security gates across a fire apparatus access road shall be approved by the fire code official. Where security gates are installed, they shall have an approved means of emergency operation. Any gated and/or fenced community shall have at least one 20-foot opening gate which shall be designated as the Fire Department primary access. This gate shall conform to sections 503.6.1.1 through 503.6.1.6 and, if automated, shall be siren activated and equipped with both primary and secondary overrides.

Exception: Group R-3 occupancies are exempt from the requirements of this section when the fenced area is for a single occupancy.

503.6.1 Automatic gates. All automatic gates on required fire apparatus access roads, as determined by the fire code official, shall provide approved override and power-off equipment. This override system shall provide controls to open, override timer functions for emergency access, and power off equipment for manual operation.

503.6.1.1 Emergency override. Emergency override of all automated gate systems shall operate with power on or off. The emergency override system shall consist of a fire access housing designed as follows: The access box shall be red in color and display "Fire Dept." or "Fire Access" in white letters on the face plate. The face plate shall be hinged and designed to accept a Medeco padlock, keyed to the Memphis Fire Department access key. The Fire Access housing shall be equipped with an internal switch so as when the pad lock is removed and the face plate is opened it will signal the automated gate to open. The automated gate shall remain open while the face plate remains open. Upon closing of the face plate and reinserting the Medeco pad lock, the automated gate shall return to normal operation. The Fire Access housing shall be installed in a manner as to be plainly visible from the cab of the approaching emergency vehicle.

503.6.1.2 Manual disconnects. All automated entry gates shall be equipped with Medeco padlocked disconnects for use if the power supply to the automated gate fails or the Fire Access housing device fails to open the gate.

503.6.1.2.1 For a sliding gate, the rear chain attachment point, at which the chain connects to the physical gate, shall be padlocked and secured with a Memphis Fire Department keyed Medeco lock. If the disconnect is not accessible from the public side or the secured sides of the gate, a walk gate padlocked with a Memphis Fire Department keyed Medeco lock shall be installed to allow access to the disconnect.

503.6.1.2.2 For a swing gate, the attachment point of the swing arm to the gate shall be equipped with a disconnect pin that shall be padlocked. As with the slide style gate, this pin shall be accessible from both the public and secured sides of the gate

503.6.1.3 Additional gates. If a community design prevents emergency equipment from accessing any area of the property from the primary access gate, it may be deemed necessary by the fire code official that more than one Fire Department access gate is required. Additional emergency access gates shall conform to the same standards as the primary gate, unless the fire code official declares these gates to be secondary, and allows them to be padlock secured with a Memphis Fire Department keyed Medco lock, interlocked with the owner's lock, rather than being automated.

503.6.1.4 Locking access gates. If locked, gates in fenced compounds shall be padlock secured with a Memphis Fire Department keyed Medeco padlock, interlocked with the owner's lock.

503.6.2 Access to hydrants. The fire code official shall require all fences that impede access to hydrants, whether from the street or to the protected structure, to have 48" walk gates installed at or near those hydrants. To allow proper access to the hydrant for firefighting purposes, these fences shall not be located within a 10' radius of the center line of the hydrant. Additionally, long runs of fencing that block access to buildings shall require the installation of walk gates at intervals not exceeding 300 linear feet. Gates installed at hydrants may be included to meet this requirement. If locked, required walk gates shall be equipped with Medeco locks properly keyed for Memphis Fire Department use.

505 Premises identification is amended to add the following new sub-section:

505.3 Identifying emblems for structures with light wood truss construction

505.3.1 Emblem permanently affixed. The identifying emblem shall be permanently affixed as prescribed by city ordinance at all buildings having light wood truss construction. This section shall not apply to one- and two-family dwellings.

505.3.2 Emblem description. The identifying emblem shall be in the shape of an isosceles triangle with a vertical height of six (6) inches and a horizontal length of twelve (12) inches. The background of the emblem shall be made of a white reflective material and all lettering thereon shall be made of a red reflective material, said lettering having a minimum height of at least four (4) inches with a one-half (½) inch stroke.

The emblem shall contain the following designations to identify the presence of light wood trusses in the structure:

(1) "F" shall designate a floor with truss construction.

(2) "R" shall designate a roof with truss construction.

(3) "F/R" shall designate both a floor and roof truss construction.

505.3.3 Location of emblem. The emblem shall be permanently affixed at one of the following locations:

(1) Where a building or group of buildings has an approved fire apparatus access drive(s) meeting the requirements of Section 503 of this code, emblems shall be placed at each entrance on the left side of each drive at a height of 3 to 5 feet above ground, no more than 3 feet from the curb line; or,

(2) Where a building or group of buildings do not have approved fire apparatus access drive(s) immediately adjacent to the building, the emblem shall be affixed to each building on the address side of the building visible to approaching fire companies; or,

(3) At such other location(s) approved by the fire code official.

If a building exceeds 12 tenant spaces or 12,000 square feet, additional emblems shall be provided on the building at locations designated by the fire code official. These emblems shall be installed and maintained by the owner of the structure(s).

507.3 Fire flow is amended to add the following words after the end of the last sentence following the word "method":

"Fire flows required by this section shall comply with Appendix B Fire-Flow Requirements for Buildings as amended in this code."

507.3 is further amended by adding the following new sub-section:

507.3.1 Fire Hydrant systems shall be designed such that each individual fire hydrant on the system can flow a minimum of 1500 gallons per minute (gpm) at 20 pounds per square inch (psi)(138kPa) residual pressure.

507.5.1 Where required is amended to delete the numbers "400 (122 m)" in the first sentence and replace with the numbers "500 (152 m)." This section shall be further amended to delete Exceptions 1 and 2 without substitution.

507.5.2 Inspection, testing and maintenance is amended to add the following new sections:

507.5.2.1 Private hydrants periodic inspection, testing, and maintenance. Hydrants shall be checked monthly to make sure they are not obstructed by storage, weeds, etc., conveniently accessible, visible and with outlet caps in place. At least once a year, they shall be opened and closed to ensure proper operation and drainage in compliance with the International Fire Code, as amended, and shall be properly lubricated. All such inspections, tests and maintenance shall be performed by a fire protection company licensed by the State of Tennessee. Records of all such inspections, tests, and maintenance activities shall be submitted to the fire code official. Such records shall also be kept on the premises and shall be available to the fire code official upon request.

507.5.2.2 Notice to inspect private fire hydrant. Upon failure of any private fire hydrant owner within the city to properly inspect, test and maintain such private fire hydrant in accordance with the law, it shall be the duty of the fire services division to serve a notice on such owner to inspect their fire hydrant within twenty (20) days of the service of such notice. Such notice may be

served personally on the owner by mailing same, by registered or certified mail, to owner's last known address, or it may be posted on the property on which such fire hydrant is located. Service of notice by any of the above methods shall be due notice to such owner. Should the owner or its responsible agent fail to inspect all private fire hydrants on said property following notice as set out above, then the Fire Services Division may enter such property or premises, directly or through their designated contractor, for inspecting, testing, and maintaining such fire hydrants.

507.5.2.3 Inspection by City. In addition to the penalties provided for in Section 1-24-1 of the City Code of Ordinances, any owner of a private fire hydrant in the city who fails or refuses to inspect, test and maintain such fire hydrants in accordance with the notice mentioned in section 507.5.2.2 shall be liable for a penalty of two hundred dollars ($200) per day for each day of non-compliance with the said notice. This ordinance is deemed to be an environmental ordinance and shall be enforced in courts having appropriate jurisdiction over such subject matter.

Chapter 5 shall be amended by adding the following new section:

Section 511 Electric security fence installations

511.1 Electric security fence installations. All new and existing electric security fence installations shall be equipped with the following features:

1. An approved manual disconnect shall be provided that will interrupt the power supply to the fence. The manual disconnect means shall be located at an approved and accessible location. It shall be secured by an approved locking device that is keyed to the Memphis Fire Department's specifications.

2. The manual disconnect means shall clearly indicate the fence power status.

3. Signage shall be provided at the manual disconnect that indicates "Fence Power Emergency Bypass" in red letters at least 1" high on a white background. Based on the installation, additional signs may be required at additional points to clearly indicate the location of the manual disconnect means.

Chapter 6
Building Services and Systems

No Amendments

Chapter 7
Fire-Resistance-Rated Construction

No Amendments

Chapter 8
Interior Finish, Decorative Material and Furnishings

806.1.1 Restricted occupancies is amended to add the letter "B," following the letter "A". This section is further amended to delete the first exception and substitute in lieu thereof the following:

1. Where protected in a manner approved by the fire code official.

Section 806 Decorative vegetation in new and existing buildings is amended to add the following new sub-section:

806.5 Restricted occupancies. Combustible decorative materials such as, but not limited to, cotton batting, vegetation, moss, straw, hay, vines, split bamboo, leaves and similar material shall not be used in Group A, B, E, I-1, I-2, I-3, I-4, M, R-1, R-2, R-4 occupancies.

Chapter 9
Fire Protection Systems

901.2 Construction documents is amended to add the following new sub-sections:

901.2.2 Fire sprinkler plans submittal. Plans for the installation of sprinkler systems shall be submitted to the Fire Prevention Bureau and approved prior to installation of any new system and on all existing systems where 10 or more sprinkler heads are added or when calculations for the system must be revised.

901.2.3 Fire alarm plans submittal. Plans for the installation of fire alarm systems shall be submitted to the Fire Prevention Bureau and approved prior to installation of any new system and for any alterations to existing systems where devices are added or removed.

901.2.4 All other fire protection system plans. Any plans for the installation of fire protection systems shall be submitted to the Fire Prevention Bureau and approved prior to installation.

903.3.5 Water supplies is amended to add the following words at the end of the second sentence following the word "Code":

"and Memphis Light, Gas, and Water requirements."

903.4 Sprinkler system supervision and alarms is amended to add the following sentence at the end of the section following the word "unit":

"These valves shall also be mechanically locked in the normal position."

Section 903.4 is further amended to add Exceptions 9 and 10 at the end of the section:

9. Existing systems that have not been extended, modified or previously electrically supervised may be mechanically locked in the normal position.

10. In private fire service mains, underground control or section valves with roadway boxes accessible with a special wrench shall not be required to be electrically supervised or locked in the normal position.

903.4.1 Monitoring is amended to add the following new sub-section:

903.4.1.1 Where monitoring of an automatic sprinkler system is required in this jurisdiction, it shall be by an approved central station and shall be in accordance with the requirements of Fire Alarm Systems for Central Station Service as described in NFPA 72. The method of retransmission of signals shall be approved by the Fire Communications Bureau.

903.4.3 is amended to delete the words "high-rise buildings" at the end of the section and replace therewith the following words: "all buildings two (2) or more stories in height." This section is further amended to add the following exceptions at the end of the section:

Exceptions: 1. Buildings equipped with an approved 13R sprinkler system that are not equipped with a standpipe system.

2. Buildings equipped with an approved 13D sprinkler system.

904.13 Commercial cooking systems is amended to insert the following sentences before the first sentence of this section following the section title word "systems":

"Commercial cooking systems shall include all cooking operations except those conducted in one- and two-family dwelling units. One- and two-family dwellings being used as group homes shall be required to install a suppression system unless otherwise approved by the fire official. Domestic cooking equipment and related exhaust systems/hoods regulated by this section may be protected by an automatic fire extinguishing system of a type recognized for their protection."

904.13.5.3 Fusible link and sprinkler head replacement is amended to insert the following words in the first sentence following the words "Fusible links":

"shall be replaced semi-annually"

905.2 Installation standard is amended to add the following sentence at the end of the section following the words "Section 912":

"Where required, standpipe systems shall be of the wet, automatic dry, or semiautomatic dry types, unless specifically allowed elsewhere in this code."

905.3 Required installations is amended to delete the number "905.3.8" in the first sentence and substitute in lieu thereof the number "905.3.9."

Section 905.3 is further amended to add the following new sub-section:

905.3.9 Other buildings. Buildings 50 feet or more in height, except those with a roof slope greater than 4:12 that do not require a wet standpipe shall be provided with a dry standpipe. The standpipe shall provide coverage for all areas of the building including the roof. The standpipe need not have an automatic water supply and shall be located so that hose lays do not exceed 250 feet. Access to the roof and the standpipe shall be provided. Each standpipe shall be capable of providing 500 gallons per minute at the top most outlet when supplied by fire department equipment. Signage shall be provided on each standpipe indicating that it is a dry standpipe with no automatic water supply.

905.3.1 Height is amended to add the following sentence after the words "parking garages" in Exception 3:

"Class I manual standpipes are allowed in open parking garages that are subject to freezing temperatures, provided that the hose connections are located as required for Class II standpipes in accordance with Section 905.5."

905.3.2 Group A is amended to delete the second exception in its entirety without substitution.

905.3.5 Underground buildings is amended to delete the words "or manual wet" in the first sentence without substitution.

907.2.5 Group H is amended to delete the letter and number "H-5" in the first sentence and replace with the letter "H."

907.5.2.3 Visible alarms is amended to delete the first exception in its entirety without substitution.

907.6 Installation and monitoring is amended to delete the number "907.6.6.3" in the first sentence and substitute in lieu thereof the number "907.6.6.5."

907.6.6 Monitoring is amended to add the following new sub-sections:

907.6.6.4 Monitoring requirements. Where monitoring of a fire alarm system is required in this jurisdiction, it shall be by an approved central station and shall be in accordance with the requirements of Fire Alarm Systems for Central Station Service as described in NFPA 72. The method of retransmission of signals shall be approved by the Fire Communications Bureau.

907.6.6.5 Runner service. A runner or technician, as defined by NFPA 72, must be dispatched to the protected premises to arrive within 1 hour after receipt of a signal, when required to respond.

910.4 Mechanical smoke removal systems is amended to delete the number "910.4.7" in the first sentence and substitute in lieu thereof the number "910.4.8."

910.4 Mechanical smoke removal systems is further amended to add the following new subsection:

910.4.8 Mechanical smoke removal systems plans submittal. Plans for the installation of all mechanical smoke exhaust systems shall be submitted to the Fire Prevention Bureau and approved prior to installation of any new system and for any alterations to existing systems where components are added or removed.

910.4.3 System design criteria is amended to add the following sentence at the end of the section following the word, "minute":

"Exhaust fans shall be uniformly spaced within the building and the maximum distance between fans shall not be greater than 100 feet (30,480 mm), unless approved by the fire code official."

910.4.3.1 Makeup air is amended to add the following sentence at the end of the section following the word, "exhaust":

"Overhead doors shall not be used as required makeup air inlets."

910.4.5 Manual control location is amended to add the following sentences at the end of the section following the word, "both":

"The mechanical smoke removal system fire department control panel shall be in an approved location. The control panel may be located at an exterior location approved by the fire code official. The location and the control panel shall be clearly identified. Automatic sprinkler protection shall be provided in the control panel room."

910.4.7 Controls is amended to add the following sentence at the end of the section following the word, "system":

"Controls shall be designed for selective control of no more than 3 smoke removal units. Fans grouped on a single switch shall be in the same fire area."

Section 912.2 Location is amended to add the following new sub-section:

912.2.3 Proximity to fire hydrants. Fire department connections shall be located not more than 100 feet from an approved fire hydrant.

913.4 Valve supervision is amended to delete the entire section and substitute in lieu thereof the following:

913.4 Valve supervision. Where provided, all valves which effect the proper operation of the fire pump, shall be supervised by approved central-station signaling service and be locked in the normal position.

Exception: In private fire service mains, underground control or section valves with roadway boxes accessible with a special wrench shall not be required to be electrically supervised or locked in the normal position.

914.3.2 Secondary water supplies is amended to add the following words to the end of the last sentence following "NFPA 13":

"; however, this supply need not exceed 10,000 gallons in capacity unless required by the fire code official."

Chapter 10
Means of Egress

1001.1 General is amended to add the following new sub-section:

1001.3 Other standards. When this code does not contain requirements relative to a specific means of egress system, NFPA 101 may be used as an accepted engineering practice standard as approved by the fire code official.

1008.2 Illumination required is amended to add the following at the end of Exception 2 following the letter "A":

"and Group S (Sprinklered)."

1032 Maintenance of the means of egress is amended to add the following new sub-section:

1032.11 Overcrowding. The number of occupants of any building or portion thereof shall not be permitted to exceed the allowed or posted capacity, determined in accordance with the building code.

Flammable and Combustible Liquids

5704.1 General is amended to add the following new sub-section:

5704.1.1 Unauthorized storage. It shall be illegal to store or keep gasoline powered equipment such as motor vehicles, motorcycles, scooters, lawn equipment, generators, power washers, or equipment associated with the construction trades in any structure, facility, building, suite, or room unless the structure, facility, building, suite, or room is approved for such use. This restriction does not apply to items displayed for sale with no gasoline in the attached tank.

5703.5 Labeling and signage is amended to add the words "or combustible" following the word "flammable" in the first sentence.

5704.2.9.6.1 Locations where above-ground tanks are prohibited is amended to delete the words "limits established by law as the limits of districts in which such storage is prohibited [jurisdiction to specify]" in the first sentence and substitute in lieu thereof the words "fire district."

5704.3.3 Indoor storage is amended to add the following exception:

3. The storage of flammable and combustible liquids in plastic containers shall comply with this chapter as well as applicable sections of NFPA 30. Secondary containment for the storage of flammable and combustible liquids in plastic containers shall comply with Factory Mutual Data sheet 7-29.

5706.2.4.4 Locations where above-ground tanks are prohibited is amended to delete the words "limits established by law as the limits of districts in which such storage is prohibited [JURISDICTION TO SPECIFY]" in the first sentence and substitute in lieu thereof the words "fire district".

Chapter 58
Flammable Gases and Flammable Cryogenic Fluids

5806.2 Limitations is amended to delete the words "limits established by law as the limits of districts in which such storage is prohibited [JURISDICTION TO SPECIFY]" in the first sentence and substitute in lieu thereof the words "fire district."

Appendix B
Fire-Flow Requirements for Buildings

B103.2 Increases is amended to insert the following words at the end of the first sentence following the word "conflagrations":

", present a special hazard use, or include the protection of a special hazard commodity."

Section B105 Fire-flow Requirements for Buildings is amended to delete sub-sections B105.1, B105.2, Table B105.1(1) and Table B105.2 and substitute in lieu thereof the following new subsections:

B105.1 One- and two-family dwellings, Group R-3 and R-4 buildings and townhouses. The minimum fire-flow and flow duration requirements for one- and two-family dwellings, Group R-3 and R-4 buildings and townhouses shall be as specified in Table B105.1(2).

B105.2 Buildings other than one- and two-family dwellings, Group R-3 and R-4 buildings and townhouses. The minimum fire-flow and flow duration for buildings other than one- and two-family dwellings, Group R-3 and R-4 buildings and townhouses shall be as specified in Table B105.1(2).

Exceptions:

1. A reduction in required fire-flow of up to 30 percent is allowed when the building is provided

with an approved automatic sprinkler system installed in accordance with Section 903.3.1.1 or 903.3.1.2. A reduction in required fire-flow of up to 40 percent is allowed when the building is provided with an approved ESFR sprinkler system installed in accordance with this code and NFPA 13. A reduction in required fire-flow which exceeds the percentages listed above must be specifically approved by the fire code official. No reductions in required fire-flows are allowed for occupancies located within congested valve districts (including the fire district as defined in the International Building Code) or Group H occupancies unless specifically approved by the fire code official.

2. Buildings subjected to the plan of services relative to Annexation Area #01-50, which are provided with an approved ESFR sprinkler system installed in accordance with this code and NFPA 13, may have limited fire-flow requirements commensurate to that available from the public water supply. Limitations are not applicable for occupancies located within congested valve districts (including the fire district as defined in the International Building Code) or Group H occupancies unless specifically approved by the fire code official.

(Ord. No. 5225, § 2, 12-3-2007; Ord. No. 5486, § (b), 12-18-2012; Ord. No. 5701, § (b), 8-28-2018; Ord. No. 5808, 11-16-2021)

CHAPTER 9-40. FIRE PREVENTION INSPECTIONS, CHARGES AND PERMITS

Sections:

Sec. 9-40-1. Definitions.
Sec. 9-40-2. Fees, charges and permits established.
Sec. 9-40-3. Fees deposited in anti-neglect administrative fund.
Sec. 9-40-4. Fee schedules—Payable to fire prevention bureau.
Sec. 9-40-5. Penalties.

Sec. 9-40-1. Definitions.

For purposes of this chapter the following definitions and terms shall apply:

Alteration means any addition, repair and/or replacement of any building.

Applicant means the person who applies for an application.

Building is any structure designed or built for the support, enclosure, shelter or protection of persons, animals, chattels or property.

Building code is the building codes of the City of Memphis and County of Shelby, as amended.

Corporation means the entity in charge of a building and in control of its operation.

Director means the director of fire services of the City of Memphis, or his or her designated representative.

Division means the division of fire services of the City of Memphis.

Fees include charges and permits as required by the fire prevention bureau.

Fire prevention bureau is the authorized bureau established under the fire services division.

Inspection means physical inspection of buildings, and shall include all tests as required by the rules and regulations prescribed in the Standard Fire Prevention Code adopted by the city.

Inspector is the person appointed by the director to carry out inspections of buildings.

Licensee includes the term individual and is the person officially in charge of any building and has control of the operations therein.

New installation means new buildings constructed for any habitation and includes the application for permit and all accompanying documents necessary to complete the application.

Operator includes the term individual and is the person officially in charge of any building and has control of the operations therein.

Owner includes holder of legal title as well as holders of any equitable interest, such as trust beneficiaries, contract purchasers, option holders, lessees under leases having an unexpired term of at least ten years, and the like.

Plans review means an inspection by the fire prevention inspector of the design of buildings or systems and/or installation layouts.

Premises means a lot, plot or parcel of land, together with the buildings and structures thereon.
(Code 1985, § 14-110; Ord. No. 4192, § 1, 6-22-1993)

Sec. 9-40-2. Fees, charges and permits established.

There is established fire prevention inspection fees, charges and permits to defray part of the costs of administering the city's anti-neglect and/or dangerous derelict abandoned structures in multi-housing, commercial and industrial districts, regulations, chapter 14-8, which fees, charges and permits shall be payable by the applicant, the owner, the operator or the corporation, as set out in this chapter, prior to the physical inspection. The fees, charges and permits shall be billed by the fire prevention bureau on behalf of the city and the proceeds used exclusively by the city.
(Code 1985, § 14-111; Ord. No. 4192, § 1, 6-22-1993)

Sec. 9-40-3. Fees deposited in anti-neglect administrative fund.

All fire prevention inspection fees, charges and permits collected herein at the fire prevention bureau pursuant to section 9-40-2 shall be placed in the anti-neglect, administrative fund for the implementation of regulations of chapter 14-8, and used for the purposes stated herein. Beginning with the fiscal year 2004, all anti-neglect expenses for inspections and general operation of this department shall be funded out of the general fund of the city and fees collected shall be paid into the office of the city treasurer and placed in the general fund.
(Code 1985, § 14-112; Ord. No. 4192, § 1, 6-22-1993)

Sec. 9-40-4. Fee schedules—Payable to fire prevention bureau.

Fees, charges and permits are hereinafter set out as follows, and shall apply to any applicant, owner, operation, licensee or corporation, as defined in this chapter:

A. *Original inspections.* Original inspection for occupancies which require fire department approval for state licensing, including but not limited to:

Day care centers	$75.00
Adult day care centers	$75.00
Residential board and care homes	$75.00
Day treatment centers	$75.00
Institutional occupancies	$100.00
Alcohol and drug care centers	$75.00

B. *Yearly inspections.* Annual re-inspection for occupancies which require fire department for state licensing, including but not limited to:

Day care centers	$50.00
Adult day care centers	$50.00
Residential board and care homes	$50.00
Day treatment centers	$50.00
Institutional occupancies	$100.00
Alcohol and drug care centers	$50.00

C. *Plans review for new installations.* Following fees including plans review and two approval inspections for new installations.

Fire pump installation	$25.00
Plus per 250 gpm	$50.00
Fire suppression system (hood and duct system)	$100.00
Smoke and heat detection system	$100.00
Standpipe system	$100.00
Sprinkler system (each system)	$100.00
Dry/wet chemical system	$100.00
Carbon dioxide system	$100.00
Foam system	$100.00
Fire alarm system:	
a. 1—5 stories	$100.00
b. 6 plus stories	$150.00
Transmitter installation for purpose of supervising a fire protection system	$50.00
Point of connection to fire alarm by central station to monitoring system	$50.00
Private fire hydrant installation	$50.00
Each additional fire hydrant	$25.00
Flammable liquid storage room	$75.00
Flammable liquid storage building	$100.00
Hazardous chemical storage room	$75.00

Hazardous chemical storage building	$100.00
Paint spray booth	$50.00
Paint spray room/area	$100.00
Installation of inside/outside above ground flammable/ combustible liquid storage tank	$100.00
Installation of inside/outside above ground hazardous chemical storage tank	$100.00
Liquid petroleum storage tank (120 gallons plus)	$100.00
Cryogenic storage tank	$100.00

D. *Plans review for alterations.* Fees include plans review and two approval inspections.

Fire suppression system (hood and duct system)	$50.00
Smoke and heat detection system	$100.00
Halon system	$50.00
Dry/wet chemical system	$50.00
Carbon dioxide system	$50.00
Foam system	$50.00
Sprinkler system (10+ heads)	$50.00
Fire alarm system:	
a. 1—5 stories	$50.00
b. 6 plus stories	$75.00
Flammable liquid storage room	$75.00
Flammable liquid storage building	$100.00
Hazardous chemical storage room	$75.00
Hazardous chemical storage building	$100.00
Paint spray booth	$50.00
Paint spray room area	$100.00
Installation of inside/outside above ground flammable/ combustible liquid storage tank	$100.00
Installation of inside/outside above ground hazardous chemical storage tank	$100.00
Liquid petroleum storage tank (120 gallons plus)	$100.00
Cryogenic storage tank	$100.00

E. *Miscellaneous permits and fees.*

Fireworks, pyrotechnic, or flame effect display (Standby firefighter requires additional cost)	$25.00
Tent inspection (over 400 square feet)	$25.00
Cutting and welding	$25.00
Flammable and combustible liquid underground tank test	$50.00
Flammable and combustible liquid line test	$50.00
Flammable and combustible liquid tank removal	$50.00
Use, handle or store explosives	$50.00
Mobile Food Preparation Vehicle (annual)	$50.00
901 fire report	$10.00
Fire investigation report	$25.00
Fire inspection report:	
a. First page	$10.00
b. Each additional page	$1.00
Fire inspection required by alcohol commission	$50.00
Fire inspection photos (per each photo)	$10.00
Permit for approved, controlled, open burning	$50.00
Inspection requested for insurance (charge per hour or similar purpose)	$25.00
High piled combustible storage, exceeding 500 square feet (for compliance with chapter 32, International Fire Code)	$100.00

(Code 1985, § 14-113; Ord. No. 4192, § 1, 6-22-1993; Ord. No. 5700, § (a), 8-28-2018; Ord. No. 5809, 11-16-2021)

Sec. 9-40-5. Penalties.

A. Additional inspections required in connection with the permit approval, after the first two inspections, shall be billed at a rate of $25.00 per man hour.

B. For applications submitted less than 48 hours in advance of date permit is needed, include additional $25.00 fee.

C. Failure to obtain permit approval prior to installation and/or construction shall result in double permit fees.
(Code 1985, § 14-114; Ord. No. 4192, § 1, 6-22-1993)

CHAPTER 9-44. MISCELLANEOUS FIRE PREVENTION REGULATIONS*

Sections:

Sec. 9-44-1. Obstructing fire access areas and fire hydrants.
Sec. 9-44-2. Smoking in bed.
Sec. 9-44-3. Smoking prohibited in certain public places.
Sec. 9-44-4. Reports of fires to fire department.
Sec. 9-44-5. Elevator key box.
Sec. 9-44-6. Fire protection equipment—Smoke detector devices—Required—Design—Installation and maintenance.

Sec. 9-44-1. Obstructing fire access areas and fire hydrants.

A. No obstruction of any kind, including motor vehicles or trailers, whether attended or unattended, shall be placed, stored, parked or permitted to remain for any period of time in any area required for the access of fire equipment to any public or private residential or business building or complex of such buildings, which may, in the discretion of the director of fire services, and with the consent of the owner when such areas are not public property, be designated as "fire access areas."

B. Such fire access areas may include both public and private streets and alleys designated by the director of fire services, and off-street driveways or alleyways owned by such hospitals, buildings or complexes of such buildings, designated by the director of fire services with the consent of the owner thereof, and shall be marked by official signs designed and approved by the director of fire services indicating that approval is pursuant to this section, which design shall be used exclusively by the city and fire services division. A record of all approved fire access areas shall be kept on file at the fire services fire prevention bureau.

C. Any and all signs erected, or areas marked or posted as a fire access area, by any owner of private property must bear different identification and color scheme, and such signs must indicate that such designation is not an official fire access area enforceable by the city fire division and police department. For the purposes of this section the terms "fire access areas" and "fire lanes" are synonymous.

*__Charter references—__Authority to regulate storage of combustible articles, § 405; miscellaneous powers relative to fire prevention, § 834.

D. No such obstruction of any kind, including motor vehicles or trailers, whether attended or unattended, shall be placed, stored or parked or permitted to remain for any period of time within ten feet of a fire hydrant, whether such fire hydrant is located on public streets, alleys, off-street driveways or alleyways or on public or private property, including, but not limited to hospitals, residential or business buildings or complexes.

E. When used herein, "owner" means individuals, partnerships or corporations actually legal owners or otherwise entitled to occupancy, use or possession thereof.

F. Any person violating this section shall be guilty of a misdemeanor and such motor vehicles or trailers found in violation hereof may be impounded and towing and storage charges assessed under the provisions of section 11-40-26 of this code.

G. The amount of forfeiture which may be paid at the traffic violations bureau for violation of this section is designated as $13.00, which amount shall be added to the traffic violations bureau schedule of forfeitures contained in section 11-8-5(A) of this code.
(Code 1967, § 17-15; Code 1985, § 14-1; Ord. No. 718, § 1, 5-26-1970; Ord. No. 928, § 1, 4-27-1971; Ord. No. 3212, § 1, 6-15-1982)

Cross reference—Motor vehicles and traffic, title 11.

Sec. 9-44-2. Smoking in bed.

It shall be a misdemeanor for any person to start or cause a fire by smoking in bed, or by placing or leaving any lighted cigarette, cigar or tobacco on any bed or by permitting any lighted cigarette, cigar or tobacco to fall upon a bed.
(Code 1967, § 17-16; Code 1985, § 14-2; Ord. No. 213, § 1, 7-16-1968)

Sec. 9-44-3. Smoking prohibited in certain public places.

It shall be a misdemeanor for any person to smoke cigarettes, cigars or pipes in any theater, hall, hotel, public building, store, warehouse, factory, or on the premises of any establishment, public conveyance or anywhere that smoking is dangerous, provided signs of a suitable size are posted in such places where they can be seen.
(Code 1967, § 17-13; Code 1985, § 14-3)

Sec. 9-44-4. Reports of fires to fire department.

A. *Definition.* As used in this section:

Required means fire protection systems, equipment or apparatus that is required by applicable fire and building codes or ordinances.

B. *Responsibility for reporting fire.*

1. Any person who has knowledge of a fire in progress shall immediately notify the Memphis division of fire services (Memphis fire department).
2. Additionally, whenever any required fire alarm system is activated at any premises of any kind, the owner, manager, occupant, or any person in control of such building or premises, shall immediately notify the Memphis division of fire services (Memphis fire department).
3. Approved central stations, as defined in the National Fire Protection Standard No. 71, "Installation, Maintenance and Use of Central Station Signaling System," 1982 edition, receiving an alarm signal initiated by required manual fire alarm boxes, automatic fire detectors, waterflow from an automatic sprinkler system, or actuation of other fire extinguisher systems or equipment, shall treat such signal as a fire alarm and immediately retransmit the alarm signal to the fire department.

C. *Delaying actions.* No person shall make, issue, post or maintain any regulation or order, written or verbal, which will delay or require unnecessary action prior to the reporting of a fire or alarm signal to the Memphis fire services division (Memphis fire department).

D. *Violation—Penalty.* Violation of this section shall be a misdemeanor punishable by a fine not to exceed $50.00.
(Code 1967, § 17-14; Code 1985, § 14-4; Ord. No. 3479, § 1, 7-23-1985)

Sec. 9-44-5. Elevator key box.

A. *Requirement—Installation.* Owners of all structures containing elevators, with the exception of residential lifts, shall be required to install and maintain an approved key box at an accessible location approved by the fire official. The key and lock on such box shall meet standardized fire department regulations. The box shall

contain elevator access and control keys, but may also contain keys necessary for life-saving or fire-fighting purposes.

B. *Effective date.* Effective September 1, 1984, this section shall apply to all structures, whether new building construction or existing building construction.
(Code 1967, § 17-35; Code 1985, § 14-5; Ord. No. 3364, § 1, 2-21-1984)

Sec. 9-44-6. Fire protection equipment—Smoke detector devices—Required—Design—Installation and maintenance.

A. *Where required.* Smoke detectors are required:

1. In every existing dwelling unit within an apartment house, condominium complex, dormitory, townhouse or duplex; and

2. Every existing guest room in a motel and hotel.

These occupancies shall be provided with an approved U.L. or F.M. -listed smoke detector(s). A smoke detector shall be installed to protect each separate sleeping area, which may consist of one bedroom, or immediately adjoining or adjacent bedroom units of two or more separate rooms; at the head of each stairway leading to an occupied area; and also at the head of each interior basement stairway. Where one smoke detector can be located outside the bedrooms but within the immediate vicinity of the sleeping area, one smoke detector may be so located and used. When activated, the detector(s) shall provide an alarm which shall be clearly audible in all bedroom units and over background noise levels with all intervening doors closed. The test of the audibility level shall be conducted with all household equipment in full operation. Examples of such household equipment are, but are not limited to, window air conditioners and room humidifiers. This test shall be conducted by the installer in the presence of the owner or his or her authorized representative. In the event an owner or his or her authorized agent cannot be present for an installation test, the installer shall submit to the owner a written notice that the smoke detectors were installed in accordance with the manufacturer's specifications and were tested and are properly functioning. Smoke detectors located in rooms with ceiling slopes greater than one foot rise per eight feet horizontally shall be located at the high side of the room. A smoke detector installed at the head of a stairway shall be so located as to assure that smoke rising in the stairwell cannot be prevented from reaching the detector by an intervening door or obstruction. Smoke detectors shall be located on or near the ceiling, in accordance with the manufacturer's specifications.

B. *Exception.* Any residential unit or occupancy as set out in subsection A of this section, having in operation a form or system of electronic or other fire detection system, device or similar system, when approved by the fire official as an alternate alarm system shall be exempt from the equipment requirements of this section, as to all areas so protected.

C. *Responsibility.* It shall be the responsibility of the owner, the lessor and/or the managing agent of all of the above-listed residential occupancies to provide and install smoke detectors in full operating condition. It shall be the occupants' responsibility to make operational safety tests and notify the owner, lessor and/or managing agent in writing of any malfunction. These operational tests, or inspections, as recommended by the manufacturer, shall be made by the occupant not less than once a month. Detector(s) installed in common corridors or at the head of common stairs shall be tested by the owner or his or her authorized agent periodically, but at least once a month. If the owner is also the occupant, the owner shall also make the test. It shall be the responsibility of the owner, lessor and/or managing agent to test the detectors at the time each unit is occupied to ensure they are operating properly. If batteries are used as a source of energy, they shall be replaced in accordance with the recommendations of the alarm equipment manufacturer.

D. *Interference.* It is unlawful for any person to remove or to intentionally interfere with the proper operation of any required smoke detectors.

E. *Definition.* "Smoke detector," whenever used in this section, means a fire alarm device capable of sensing visible or invisible particles of combustion, and providing suitable alarm audible in all sleeping areas and stairways as set out in this section.
(Code 1967, § 17-131; Code 1985, § 14-106; Ord. No. 3114, § 1, 4-14-1981; Ord. No. 3234, § 1, 7-20-1982)

State law reference—Smoke detectors, T.C.A. § 68-102-151.

CHAPTER 9-48. FIRE HYDRANTS

Sections:

Sec. 9-48-1. Installation generally.
Sec. 9-48-2. Roadway accessibility.

Sec. 9-48-1. Installation generally.

A. *Where required.* With the exception of one- and two-family dwellings, owners of buildings and structures, including, but not limited to, assembly, educational, residential, institutional, mercantile business, industrial storage, and/or other use occupancies, which buildings or structures are located more than 500 feet, by standard roadway, street, or approved fire lane, from the nearest public fire hydrant, shall install the number and type of fire hydrants and/or branch line valves as directed by the fire official. Hydrants and/or branch line valves shall also be installed where the distance from any required fire protection connection exceeds 100 feet.

B. *Design standards.* Hydrant design and pattern shall conform to published specifications and standards of the division of fire services and the Memphis light, gas and water division. Installation details shall also comply with National Fire Protection Association Standard No. 24, 1981 Edition, "Installation of Private Fire Service Mains and Their Appurtenances."

C. *Fire flow demand.* Fire flow standards, as established and published by the division of fire services and the light, gas and water division, shall be provided at the required hydrants through approved water mains with approved controlling sectional valves located as directed by the fire official. Water main sizes may be calculated based on fire flow demand, but in no case shall mains and valves be less than six inches in diameter.

D. *When required.* Fire hydrants, mains, and valves shall be installed as work progresses, and shall be fully operational at such time as combustible or hazardous materials are introduced or stored on the construction site, and/or at other times deemed necessary by the fire official. In no case shall any building or structure as herein described be issued an occupancy permit until all such required hydrants, water mains, and valves are completely installed, tested and approved.
(Code 1967, § 17-120; Code 1985, § 14-91; Ord. No. 2931, § 1, 10-23-1979)

Sec. 9-48-2. Roadway accessibility.

Where fire hydrants are installed to comply with the provisions of this chapter, approved all-weather roadways, drives, and/or fire lanes are to be provided before construction begins. Temporary roadways, drives, and/or fire lanes, where installed to facilitate work on the site, shall be located with consideration to fire hydrants and shall be approved by the fire official. Roadways, drives, and/or fire lanes shall be properly maintained and unobstructed at all times. In no case shall any building or structure herein described be issued an occupancy permit until all required roadways, drives, and/or fire lanes are completely installed.
(Code 1967, § 17-121; Code 1985, § 14-92; Ord. No. 2931, § 1, 10-23-1979)

Sec. 9-52-91. Maintenance of premises.
Sec. 9-52-92. Vehicle sanitation requirements.
Sec. 9-52-93. Zoning districts.
Sec. 9-52-94. Mobile food market.

ARTICLE 1. GENERAL PROVISIONS

Sec. 9-52-1. Definitions.

The following definitions shall apply in the interpretation and enforcement of this article:

Approved means acceptable to the health officer based on his or her determination as to conformance with appropriate standards and good public health practice, as hereinafter set forth.

Bakery means a plant where bread, rolls, cakes, doughnuts, pies and similar products are processed, mixed, baked, packaged or stored for sale and distribution to retailers.

Commissary means any state licensed stationary food establishment that serves mobile food dispensers, mobile food facilities, vending machines or other food dispensing operations where (i) food, containers or supplies are stored; (ii) food is prepared or prepackaged for sale or service at other locations; (iii) utensils are cleaned; or (iv) liquid and solid wastes are disposed of or potable water is obtained.

Food commissary means an establishment with an eating and drinking classification, which prepares food for distribution to an approved retail food establishment owned or operated by the same person who has ownership of the commissary. Adequate equipment must be provided to maintain good sanitation in the preparation and transportation of such food.

Environmentalist is the term designated to include inspectors, sample collectors or any other person employed by the health department and assigned to food control.

Frozen dessert is any clean frozen or partially frozen combination of two or more of the following: Grade A milk products, manufactured milk or manufactured milk products, eggs or egg products, sugars, water, fruit or fruit juices, candy, nut meats, or other harmless and wholesome food products, flavors, color, or harmless stabilizers, and shall be deemed to include ice cream, ice milk, sherbet, imitation ice cream, novelties, and other similar products.

Grocery store or *retail market* means a place of business where food and food products are stored, displayed and offered for sale to retail customers to be prepared or cooked elsewhere. Another type of business such as a meat market, restaurant, or bakery may be incorporated into the grocery store area but will not be included in this definition. A grocery store or retail market routinely sells fruits, vegetables or other produce and/or has a meat market. See also, *retail market*.

Health officer means the county health officer and/or director of the county health department, or his or her designated representative.

Historical district means a specific area included on the state register of historical places, as defined by state laws or the state historical commission.

Labeling means the marking, designation, or descriptive device on food containers and/or articles of food denoting the name of the product, ingredients thereof; name and address of manufacturer and/or distributor (if name and address of distributor is utilized then the permit number and the permitting agency shall appear on the product); and any other information required by the state department of agriculture, USDA or FDA, as found in the Tennessee Food, Drug, and Cosmetic Act Food Labeling Requirements, T.C.A. § 53-1-105 et seq.

Meat market means a place of business or an area in a grocery store which meat, or meat products, are stored, processed, displayed or offered for sale.

Menu change means a modification of a food establishment's menu that requires a change in the food establishment's food preparation equipment, storage equipment or storage capacity previously approved by the health department. The term "menu change" shall include, but is not limited to, the addition of potentially hazardous food to a menu, installation of new food preparation or storage equipment, or increasing storage capacity.

Misbranded means the presence of any written, printed or graphic matter upon or accompanying food or containers of food, which is false or misleading, or which violates any applicable state or local labeling requirements.

Mobile food units means:

1. *Mobile food truck* means a truck that dispenses pre-packaged food and drinks.

   A. *Mobile food market* means a truck that dispenses pre-packaged food and drinks or sells pre-packaged frozen or refrigerated meat, poultry, or dairy products, fresh fruits and vegetables and other perishable and/or non-perishable packaged products from approved locations in Memphis and Shelby County in accordance with Tennessee Department of Agriculture Rules Chapter 0080-4-9, 0080-03-01 and 0080-04-01.

   B. *Mobile food market with deli* as defined above, with the addition of the preparation of potentially hazardous food, including cold or hot sandwiches, hot dogs, ready-to-eat meats, pizza, chili, dip ice cream and soft serve machines.

   C. *Industrial caterer* dispenses pre-packaged food products and drinks to one or more locations on commercial or industrial property, private or public, with the permission/authorization of the owner or occupant.

2. *Mobile food preparation vehicle* is a mobile food preparation vehicle that is any motorized vehicle that includes a self-contained or attached trailer kitchen in which food is prepared, processed or stored and used to sell and dispense food to the ultimate consumer. Mobile units must be mobile at all times during operation. The unit must be on wheels (excluding boats) at all times. Any mobile food unit that removes such wheels or becomes stationary must meet Tennessee Department of Health Regulations Chapter 1200-23-1 et seq. in its entirety. This definition does not include push-carts as regulated by city codes and prohibited from selling potentially hazardous foods by the state department of health, nor vehicles from which only ice cream and other frozen non-hazardous food products are sold, nor vehicles operating under special event permit.

3. *Mobile frozen meat truck* means a truck that sells pre-packaged frozen meat or poultry to retail customers from approved locations in Memphis and Shelby County in accordance with Tennessee Department of Agriculture Rules and Regulations Chapter 0080-4-9 et seq.

4. *Mobile seafood truck* means a truck that sells pre-packaged frozen or refrigerated seafood as well as seafood packaged on site to retail customers from approved locations in Memphis and Shelby County in accordance with Tennessee Department of Agriculture Rules and Regulations Chapter 0080-04-10-.01 and 0080-04-10-.02.

5. *Produce truck* means person who sells or peddles from a vehicle on the streets of the city only fruits, vegetables, melons, berries, chestnuts and packaged nuts. Such products may be produced by him/her or they may be purchased from others for resale.

6. *Push cart* means a mobile unit which dispenses non-potentially hazardous food on a daily basis from a non-motorized mobile vehicle which operates within the confines of a public or private pedestrian mail, shopping center, commercial business, city park or commercially zoned historical district, in accordance with Tennessee Department of Health Rules and Regulations for mobile units, Chapter 1200-23-1-.02(12).

7. *Pedestrian vendor* means a person engaged in the business of dispensing non-potentially hazardous or non-perishable packaged food on a daily basis from a non-motorized mobile vehicle which operates within the confines of a public or private pedestrian mall, shopping center, commercial business, city park or commercially zoned historical district.

8. *Ice cream vendor* means any person who offers for sale or sells to another any frozen desserts while operating from an ice cream cart or truck on the streets of the city.

Packaged-goods store means a retail food establishment in which non-perishable food is stored, displayed

and/or offered for sale in the packaged form and is intended for consumption off the premises. No meat market is included in the establishment, nor are fruits, vegetables and other produce routinely offered for sale.

Pedestrian mall means an open or covered passageway or concourse which provides access to rows of stores and is closed permanently to private motor vehicles, and dedicated or otherwise appropriated to the public for public use, which is under the authority of a mall agent or manager.

Perishable food means any food of such type or in such condition as may spoil.

Person in charge means the individual present in a food service establishment at the time of inspection. If no individual is the apparent supervisor, then any employee present is the person in charge.

Potentially hazardous food are those foods which consist of meat, poultry, liquid eggs and partially cooked egg products, fish, milk and milk products, shellfish, partially cooked bakery products and/or other ingredients capable of supporting rapid and progressive growth of infectious or toxigenic micro-organisms when stored at temperatures in excess of 41 degrees Fahrenheit, if a cold food, or 135 degrees Fahrenheit or below, if a hot food.

Also included as potentially hazardous foods are foods with a Ph greater than 4.2 and a water activity greater than .88, such as low acid canned foods (vegetables, fish, meat, etc.) and acidified foods (pickled vegetables, fish, meat, eggs, etc.).

Retail bakery means a place of business where bread, rolls, cakes, doughnuts, pies and similar products are processed, mixed, racked, packaged and sold to consumers primarily for consumption off the premises.

Retail market or *grocery store* means a place of business where food and food products are stored, displayed and offered for sale to retail customers to be prepared or cooked elsewhere. Another type of business such as a meat market, restaurant, or bakery may be incorporated into the grocery store area but will not be included in this definition. A grocery store or retail market routinely sells fruits, vegetables or other produce and/or has a meat market. See also, "grocery store."

Servicing area means a mobile food unit servicing area shall be provided and shall include at least overhead protection for any supplying, cleaning, or servicing operation. Within this servicing area, there shall be a location provided for the flushing and drainage of liquid wastes separate from the location provided for water servicing and for the loading and unloading of food and related supplies.

Shopping center means a group of two or more commercial establishments that occupies at least 30,000 square feet of gross leasable area, located in a building or buildings that are planned, developed, owned and managed as a unit.

Wholesome, when applied to food for human consumption, means in sound condition, clean and free from adulteration.
(Ord. No. 5542, § 1, 12-17-2013)

Sec. 9-52-2. Approval of plans for construction and alteration of food service establishment.

Whenever a non-temporary food service establishment is constructed or extensively remodeled and whenever an existing structure is converted to use as a food service establishment, at least one set of properly prepared plans and specifications for such construction, remodeling, or conversion shall be submitted to the health department for review and approval at least 15 days before construction, remodeling, or conversion is begun. The plans and specifications shall indicate the proposed menu, layout, arrangement, mechanical plans, and construction materials of work areas, as well as the type and model of proposed fixed equipment and facilities.

After the plans and specifications have been approved by the health department, the food service establishment shall not start operations until a preoperational inspection has determined compliance with the approved plans and specifications and the requirements of this article and the TDH/TDA Rules and Regulations as referenced below.

Reference: Tennessee Department of Health Rules and Regulations Chapter 1200-23-1.02 et seq, and Tennessee Department of Agriculture Rules and Regulations Chapter 0080-4-9 et seq.
(Ord. No. 5542, § 1, 12-17-2013)

Sec. 9-52-3. Permit to manufacture, sell, or distribute food generally—Required.

A. No person shall engage in the manufacture, sale or distribution of any food without a permit from the department of health.

B. The health officer shall determine which type of permit each establishment must obtain. If an establishment does not fit into any type of business listed, the health officer shall have the authority to assign it to one of those listed which is in his or her judgment most reasonable.

C. All food permits are issued for the period July 1 to June 30 of each year. A late penalty equal to 50 percent of the permit fee will be assessed on all permit fees received 30 days past the expiration date. Permit fees received on or after January 1 will be prorated. In addition, the county health department shall assess a fee equal to ½ of the permit fee for non-sufficient funds or returned checks. Returned checks will be considered as non-payment of permit fees.

D. State and local permit fee schedules for food service and retail food establishments shall be posted on-line at www.shelbycountytn.gov/health and are available upon request through the county health department environmental sanitation office.

E. These fees shall be reviewed and modified on a bi-annual schedule.

F. Fees for retail and food service establishments not listed above can be found in either the state department of health or department of agriculture rules and regulations. The county health department will provide additional information upon request.
(Ord. No. 5542, § 1, 12-17-2013)

Sec. 9-52-4. Permit—Application.

Any person desiring a permit required by section 9-52-3 shall make written application to the department of health on forms approved by the department The applicable fee must be paid at the time the permit application is completed. No permit shall be issued until the applicable fee is paid.

Local permittees shall be billed, collected and retained by the county health department to maintain sufficient staffing, inspection equipment and training to effectively enforce all applicable laws, ordinances, regulations and rules. Contracts between the county health department and the state department of health and the state department of agriculture will dictate the terms of reimbursement or compensation to the county health department for services provided under those agreements, including billing for state permits.
(Ord. No. 5542, § 1, 12-17-2013)

Sec. 9-52-5. Permit—Issuance.

A permit required by section 9-52-3 shall be granted only after inspection and approval by the health department and the payment of applicable fees.
(Ord. No. 5542, § 1, 12-17-2013)

Sec. 9-52-6. Permit—Display—Not transferable.

Every permit issued under section 9-52-5 shall be conspicuously displayed in the location where food is manufactured, sold or distributed. No such permit shall be transferable from one location to another or from one person to another, or from one mobile food unit to another. Any change of location or ownership shall require issuance of a new permit.
(Ord. No. 5542, § 1, 12-17-2013)

Sec, 9-52-7. Permit—Revocation or suspension.

A. The health officer shall have the power, and it shall be his or her duty, to suspend or revoke any permit issued under TDH Rules and Regulations Chapter 1200-23-.03 and/or TDA Rules and Regulations Chapter 0080-4-9, where it is made to appear that the provisions of TDH and TDA Rules and Regulations and this chapter have been violated by the person or persons engaging in the manufacture, sale or distribution of food; provided, however, that the person holding such permit shall be given reasonable notice and an opportunity to be heard as to why such permit should not be revoked or suspended. Such notice may be given by the environmentalist/inspector on his or her regular inspection form or may be in the form of a letter from the health department.

The health officer shall develop uniform policies and procedures for the suspension and/or revocation of permits. In the event of a foodborne illness outbreak or the existence of an imminent health hazard in a food service establishment, the health officer may suspend the food permit pending an administrative hearing if the owner/manager agrees to voluntarily close. If the owner/manager refuses to close voluntarily, the health officer shall convene an administrative hearing immediately and rule on the need for permit suspension or permit revocation.

B. On each occasion, where a permit is suspended or revoked, the holder of the permit may appeal the health officer's decision to the TDH or TDA whose decision on the matter shall be binding.
(Ord. No. 5542, § 1, 12-17-2013)

Sec. 9-52-8. Periodic inspections.

A. Each food service establishment in the city shall be inspected routinely in accordance with TDH Rules and Regulations Chapter 1200-23-1 et seq. and TDA Rules and Regulations 0080-4-9 et seq. At the time of each inspection, an inspection form will be used by the environmentalist or inspector to indicate the specific deficiencies, which may exist. The form will contain items of weighted value as regulated by TDH or TDA. Upon completion of the inspection, the environmentalist or inspector shall note deficiencies on such form and shall review his or her findings with the person in charge. A copy shall be acknowledged or signed by the person in charge, and the same shall be left with the person in charge.

B. The inspection sheet must be prominently displayed for public view it. It must be located where it is clearly visible to customers upon entering the establishment. Placement of the inspection sheet behind posters, calendars or other items that would obscure visibility is prohibited.
(Ord. No. 5542, § 1, 12-17-2013)

Sec. 9-52-9. Sale of food or drinks on streets from vehicles, vacant lots or temporary stands prohibited, except as authorized.

It is unlawful for any person to sell or offer for sale on any street in the city, or from any vehicle thereon, or from any vacant lot or temporary or improvised stand or structure in the city, any fruits, vegetables, ice cream, or other food or drinks, except as provided for in sections 9-52-11, 9-52-19, 9-52-78, 9-52-81, 9-52-83, 9-52-86, 9-52-87 and 9-52-93.
(Ord. No. 5542, § 1, 12-17-2013)

Sec. 9-52-10. Reserved.

Sec. 9-52-11. Temporary food service establishment.

A temporary food service establishment permit may be issued for an event lasting from two to 14 days and shall comply with all provisions of this chapter and TDH Rules and Regulations Chapter 1200-23-1 et seq., as well as its policies which are applicable to its operation; provided that, the health officer may augment such requirements when needed to assure the service of safe food; may prohibit the sale of certain potentially hazardous food; and may relax specific requirements for physical facilities when, in his or her opinion, no imminent health hazard will result and where close supervision of the operation can be provided by the health department. (Ord. No. 5542, § 1, 12-17-2013)

Secs. 9-52-12—9-52-18. Reserved.

Sec. 9-52-19. Frozen desserts—Mobile vendors.

A. No person shall sell, offer for sale, or give away any frozen desserts on city streets, vacant lots or premises without a permit issued by the health department; provided that, a mobile ice cream truck or cart vendor may sell novelties which have been manufactured and packaged at a frozen desserts plant.

B. A mobile frozen desserts vendor's permit shall not be issued to a person unless the following conditions are met:

1. The vending vehicle or cart must be specially designed as a vending vehicle or cart and be approved by the health department.

   Automobile or passenger conveyance vehicles shall not be used to transport or dispense frozen desserts.

2. The vending vehicle or cart must be constructed so as to be easily cleaned and shall be kept clean.

3. The vending vehicle or cart must be constructed so as to protect the frozen desserts from contamination.

4. The vending vehicle or cart shall have a separate compartment or containers for the storage of boxes and paper.

5. The vending vehicle or cart shall be labeled with the name and address of the distributor on both sides of the vehicle in three-inch letters or numbers as designated by the health department.

6. Only frozen desserts novelties shall be sold, offered for sale, or given away in a mobile frozen desserts vendor's vehicle or cart. Thermometers must be visible in each freezer compartment to monitor the temperature of the frozen desserts.

7. Vehicles or carts shall be loaded and operated only from an establishment which meets the requirements of the state law and local ordinances of the city and which has a permit from the health department.

8. Vehicles or carts shall be parked only in a location, which coincides with the zoning ordinances of the county or city.

(Ord. No. 5542, § 1, 12-17-2013)

Sec. 9-52-20. Right of entry into food establishment—Interfering with health department personnel.

The health officer, all agents, environmentalists or inspectors of the department of health shall have the right to enter any lot, premises, building, factory or place where food is manufactured, processed, distributed, stored, sold, or offered for sale, and it is unlawful for any person to deny to such officers, agents and employees access to any such place, or to interfere with such officers in the performance of their duties under the provisions of this chapter.

(Ord. No. 5542, § 1, 12-17-2013)

Sec. 9-52-21. Interpretation of article—Policies and standards of health officer.

The interpretation of the provisions of this article shall be made by the health officer, and he or she shall adopt written policies and standards consistent with state law in carrying out the provisions of this article.

(Ord. No. 5542, § 1, 12-17-2013)

Sec. 9-52-22. Enforcement of article—Rules and regulations of health department.

It shall be the duty of the department of health to enforce this chapter and to adopt and enforce TDH and TDA state law rules and regulations and such other written rules and regulations as may be recommended by the health officer.

(Ord. No. 5542, § 1, 12-17-2013)

Secs. 9-52-23—9-52-25. Reserved.

ARTICLE 2. GENERAL SANITARY REQUIREMENTS

Sec. 9-52-26. Application.

The provisions of this article shall be the state and local laws, rules and regulations governing the sanitary conditions of food service establishments and retail food establishments, including mobile food units. Reference: Tennessee Retail Food Safety Act, TDH Rules and Regulations Chapter 1200-23-1 et seq., and TDA Rules and Regulations Chapter 0080-4-9 et seq.

(Ord. No. 5542, § 1, 12-17-2013)

Secs. 9-52-27—9-52-47. Reserved.

Sec. 9-52-48. Birds and animals prohibited—Exception.

No live birds or animals shall be allowed in any area used for the conduct of food service establishment operations; provided that, guide dogs and service animals accompanying blind patrons or other physically disabled persons may be permitted; and, further, provided that, trained mallard ducks and caged birds are excluded from that classification of live birds and animals prohibited by this section.

(Ord. No. 5542, § 1, 12-17-2013)

Secs. 9-52-49—9-52-70. Reserved.

ARTICLE 3. REQUIREMENTS FOR SPECIFIC TYPES OF ESTABLISHMENTS AND MOBILE FOOD UNITS

Sec. 9-52-71. Application of article.

The provisions of this article shall apply to the below specific food establishments and mobile food units including all sections under the article.

(Ord. No. 5542, § 1, 12-17-2013)

Secs. 9-52-72—9-52-77. Repealed.

Sec. 9-52-78. Mobile food trucks and industrial caterers.

Mobile food trucks and industrial caterers shall meet all the applicable requirements of this chapter and shall also meet the following special requirements:

1. Food shall be dispensed only from mobile food trucks on commercial/industrial sites with the permission of the property occupant or owner.
2. Prepackaged potentially hazardous food shall be transported stored and served only in containers and equipment, which is designed and thermostatically controlled to keep the food above 135 degrees Fahrenheit or 41 degrees Fahrenheit or below.

3. An industrial caterer shall dispense only food which has been processed at a food processing plant.

4. industrial catering trucks shall be based at or operated from premises in an area other than residential where storage facilities are available for food processors and where cleaning facilities are available.

(Ord. No. 5542, § 1, 12-17-2013)

Sec. 9-52-79—9-52-80. Reserved.

Sec. 9-52-81. Produce truck.

A produce truck shall meet all of the applicable requirements of this chapter and shall also meet the following special requirements:

A. No person shall engage in the business as a produce truck without a permit.

B. If the pre-operational inspection is approved, a permit application will be issued to the operator upon payment of the permit fee.

C. Produce truck permits shall be issued for fruits, vegetables, melons, berries, chestnuts and packaged nuts only.

D. A produce truck permit may be suspended or revoked for violating the applicable provisions of this article as required in section 9-52-7.

E. A produce truck vehicle shall be identified on both sides by the name and address of the person holding the permit and by the health department permit number.

F. A produce truck shall be kept in motion except when making sales and its movement shall be timed and executed so as to cause a minimum interference with traffic.

G. When not in use, a produce truck vehicle which contains fruits, vegetables, melons, chestnuts, packaged nuts and berries shall be stored in such a place and condition so as to prevent contamination of the food from dust, flies, insects, rodents and animals.

H. Produce vehicles must carry waste containers and this waste must be properly disposed of as required in TDA Rules § 0080-4-9.

I. Fruits and vegetables shall be sold whole and not cut or sliced while in the produce truck operator's possession. In addition, all fruits and vegetables must be sold from the truck or trailer not from tables or stands.

J. Operation of produce trucks is prohibited between sundown and sunrise.

K. Produce trucks shall carry the required permit at all times while in operations as required by this section.

(Ord. No. 5542, § 1, 12-17-2013)

Sec. 9-52-82. Same—Operating on public property.

This section shall not apply wherever produce trucks are otherwise regulated in specific chapters or sections of this code.

(Ord. No. 5542, § 1, 12-17-2013)

Sec. 9-52-83. Pedestrian vendors and push carts.

Pedestrian vendors and push cart vendors shall meet all the applicable requirements of this article and shall also meet the following special requirements. The health officer shall adopt written rules and regulations for pedestrian vendors and push cart vendors for the purpose of interpretation of this article.

A. No person shall engage in the business as a pedestrian vendor or push cart vendor without a permit.

B. If the pre-operational inspection is approved, a permit application will be issued to the vendor upon payment of the required permit fee.

C. The permitted pedestrian vendor or push cart vendor shall secure the written permission of an agent, manager, superintendent, or director in charge of a mall, pedestrian mall, shopping center, commercial business, historical district or city park. Such agent, manager, superintendent or director shall be directly responsible for the operation or activities of such vendors.

D. All food to be served and sold by a pedestrian vendor or push cart vendor shall be processed under proper and sanitary facilities as required by the health officer and state department of health and/or state department of agriculture rules and regulations.

E. All push carts shall have a commissary licensed by the state department of health and/or the state department of agriculture where the food is prepared and/or stored when the cart is not in use, and cleaning facilities are available.

F. Push carts shall have facilities where perishable food can be kept below 41 degrees Fahrenheit and/or above 135 degrees Fahrenheit in a controlled container.

G. Push carts shall be especially designed for food distribution and shall be made from material that can be kept clean and well maintained.

H. All push cart vendors must have a copy of their permit and most recent inspection available upon request.

I. Pedestrian vendors and push cart vendors shall wash their hands as required by the state department of health and state department of agriculture rules and regulations.

J. Vendors shall wear clean outer garments at all times.

K. Toilet facilities shall be provided by the sponsoring organization and made available to the public and shall meet the requirements of the county plumbing code.

L. All pedestrian vendor carts and pushcarts shall be clearly identified with the name of the business and permit number posted and unobstructed on the exterior of the unit in letters at least three inches in height.

(Ord. No. 5542, § 1, 12-17-2013)

Sec. 9-52-84. Farmer's market.

A farmer's market shall meet all of the applicable requirements of this chapter and shall also meet the following special requirements:

A. The agent, manager, or director of the sponsoring organization of a farmer's market shall secure a farmer's market permit from the health department and shall pay the appropriate fee as required in section 9-52-3. This permit shall cover all sellers operating within the market, and the agent, manager or director thereof shall be directly responsible for the operation of each seller.

B. The person requesting the permit must make a written application to the health department. No regular inspections will be conducted at farmer's markets, however all complaints will be investigated. Each applicant will be provided basic food safety training and materials describing the permitting requirements for selling different types of food at the farmer's market.

C. A farmer's market permit shall be issued for fruits, vegetables, melons, berries or nuts only. All other types of food sold at farmer's markets shall require a separate permit.

D. A farmer's market permit may be suspended or revoked for violating the applicable provisions of this chapter, as required in section 9-52-7.

E. Fruits, including cantaloupe and watermelon, shall be sold whole and shall not be cut or sliced while on the premises of the market.

F. Toilet facilities shall be provided by the sponsoring organization and made available to the public, and shall meet the requirements of the county plumbing code.

G. A separate permit must be obtained for each farmer's market site. This permit shall not be transferable from site to site.

H. The farmer's market must be completely contained on a paved surface.

(Ord. No. 5542, § 1, 12-17-2013)

Sec. 9-52-85. Reserved.

Sec. 9-52-86. Mobile food preparation vehicles.

Mobile food preparation vehicles shall meet all applicable requirements of this article in addition to the requirements outlined as follows:

A. No person shall engage in the business of a mobile food preparation vehicle within the municipal limits without first having obtained a permit required by section 9-52-3 of the city Code and the State of Tennessee.

B. A mobile food preparation vehicle license, as authorized by the state and local ordinances, will not be issued to a person unless the following conditions are met:

1. The vehicle must be specially designed as defined as a mobile food preparation ve-

hicle and be approved by the health officer in addition to meeting the standards as set forth in section 16-208 of the city Code.

2. No person shall engage in the business of a mobile food preparation vehicle without first having obtained a commissary license or having a written commissary agreement, if required by the health officer.

3. Each mobile food preparation vehicle must display its business name and state and local permit numbers, with letters and numbers at least three inches in height, in a prominent and visible location on the vehicle.

4. The driver of the truck must have a current Tennessee driver's license, current auto insurance (including liability insurance) and current vehicle registration as required by state law and enforced by law enforcement authorities.

5. The vehicle can only operate in locations where the operation of motorized vehicles is permitted under local zoning ordinances and enforced by local code enforcement authorities

6. All current permits must be posted in a conspicuous manner, in compliance with T.C.A., 68-14-305.

C. The health officer shall adopt written rules and regulations for mobile food preparation vehicles for the purpose of interpretation of this article.

(Ord. No. 5542, § 1, 12-17-2013)

Sec. 9-52-87. Operational requirements.

A. When legally parked on a city street, alley and other public thoroughfares in an allowed zoning district, mobile food preparation vehicles shall park for no less than 30 minutes and shall not exceed a total of six hours in any one block, with food service available for no more than four hours of that time. The mobile food vendor must then provide a minimum break from that location of one hour.

B. When parked on private property with the permission of the property owner, a mobile food preparation vehicle may operate at the times and for the duration provided in its permission by the property owner.

C. No mobile food preparation vehicle shall be equipped with any external electronic sound-amplifying device.

D. No operator of such vehicle shall park or stand such vehicle within 300 feet of a school or school playground in a residential district while school is in session, unless an agreement is established with such school.

E. When legally parked on a city street, alley and other public thoroughfare in an allowed zoning district, no such vehicle shall park or stand within 300 feet of any principal customer entrance to a restaurant outside of the central business improvement district (CBID) during its posted hours of operation, unless a signed waiver, with a stated duration, has been obtained from all restaurants which are within a 300 foot radius of that parking location. For any restaurant within the CBID, this distance shall be 50 feet, unless a similar waiver is obtained from all restaurants within that lesser distance. Restaurant, for purposes of this section, means any public place at a fixed location kept, used, maintained, advertised and held out to the public as a place where food and drink are prepared and served to the public for consumption on or off the premises pursuant to the required licenses. Such establishments include, but are not limited to, restaurants, bars, lounges, coffee shops, cafeterias, dining rooms, eating houses, short order cafes, luncheonettes, grills, tearooms and sandwich shops. All measured distances and distance requirements addressed in this regulation shall be distances measured in a straight line from the nearest edge of the mobile vehicle or trailer to the nearest edge of the object from which the mobile vehicle or trailer is to be distant.

When legally parked on private property, the distance requirements established above shall still be applicable if a restaurant is present on adjacent or abutting property, unless a signed waiver, with a stated duration, has been obtained from all restaurants on adjacent or abutting property which are within a 300 foot radius of that parking location on private property. For any restaurant within the CBID, this distance restriction shall be 50 feet, unless a similar waiver is obtained from all restaurants within that distance located on adjacent or abutting property.

F. When legally parked on a city street, alley and other public thoroughfares in an allowed zoning district, no sale shall be made from such vehicle except from the curb side.

G. Cooking must not be conducted while the vehicle is in motion.

H. Mobile food preparation vehicle shall be parked only at its commissary or any other location approved by the health department that does not violate an applicable city ordinance.

I. No detached signs are permitted. All signs used must be permanently affixed to, or painted on, the mobile food preparation vehicle and shall extend no more than six inches from the vehicle. No sign shall flash, cause interference with radio, telephone, television or other communication transmissions; produce or reflect motion pictures; emit visible smoke, vapor, particles, or odor; be animated or produce any rotation, motion or movement. A sign on which the message is changed electronically not more than one time per eight seconds shall not be considered to be an animated sign or a sign with movement, but is classified as a changeable copy sign. Changeable copy signs shall be permitted, but the total area of such signs on the vehicle, when parked and the vehicle is set up to operate, must not exceed 30 square feet. Any message on a changeable copy sign shall have an instantaneous change of message with no fading, fly-in, dissolve or other feature used. The change of message rate on digital signs shall be limited to no more than once every eight seconds. No sign shall utilize any exposed incandescent lamp with a wattage of more than 40 watts, any revolving beacon light; or a luminance in excess of 350-foot lamberts measured at the sign face.

J. Vendor must provide for the sanitary collection of all refuse, litter and garbage generated by the patrons using that service and remove all such waste materials from the location before the vehicle departs. This includes physically inspecting the general area for such items prior to the vehicle's departure.
(Ord. No. 5542, § 1, 12-17-2013)

Sec. 9-52-88. Food requirements.

A. All food shall be protected from contamination and the elements while being stored, prepared, displayed or sold at a mobile food preparation vehicle and during transportation to or between such establishments or vending machine locations, and so shall all food equipment, containers, utensils, food-contact surfaces and devices and vehicles, in accordance with the provisions of this chapter and the rules and regulations of the health department.

B. All foods to be used, prepared, cooked, displayed, sold, served, offered for sale or stored in a food establishment, or during transportation to or between locations shall be from sources approved by the health authorities of the point of origin and must be clean, wholesome, free from spoilage, adulteration, contamination or misbranding and safe for human consumption. The standards for judging wholesomeness for human food shall be those promulgated and amended from time to time by the United States Food and Drug Administration, United States Department of Agriculture, the state department of health and the state department of agriculture and published in the United States Code of Federal Regulations and the Tennessee Code Annotated or the Tennessee Rules and Regulations. Such laws will be adopted by reference when approved and deemed effective as of the date designated by the above government agencies or the appropriate legislative body approving such changes.

C. The only milk or milk products which may be used as food ingredients shall be pasteurized Grade A milk or milk products from sources approved by the health department. All pasteurized milk and fluid milk products shall be sold in the individual original containers in which they were received from distributor and shall be stored at a temperature of 41 degrees Fahrenheit or less until sold.

D. Raw shellfish, including oysters, clams and mussels, with the exception of properly prepared fish for sushi, shall not be sold or distributed, unless such item has received specific authorization from the state department of agriculture and the county health department.

E. All meats, meat food products, poultry and poultry products used in cooking, offered for sale, sold or prepared shall be from sources inspected and approved by the United States Department of Agriculture, the state department of agriculture or the state or local department of health and shall be plainly marked, tagged or stamped to indicate the source, and the inspection and approval.

F. All hermetically sealed foods shall have been processed in approved food- processing establishments. The use, preparation, display, sale or storage of home-canned foods is prohibited and no other foods which have been processed in a private home or other than in an approved food-processing establishment shall be stored, used, kept for sale or served in a food establishment or automatic food-vending machine.

G. The use of newspaper or any unclean paper for the purpose of wrapping food is forbidden.

H. The health officer may augment such requirements when needed to assure the service of safe food and may prohibit the sale of certain potentially hazardous food.
(Ord. No. 5542, § 1, 12-17-2013)

Sec. 9-52-89. Food handler requirements.

All food handlers shall meet the standards as set forth in T.C.A.S 53-8-108, state department of health rules and regulations, and city Code Title 9, Chapter V, Article II, section 9-52-26.
(Ord. No. 5542, § 1, 12-17-2013)

Sec. 9-52-90. Equipment standards.

All mobile food preparation vehicles shall meet the standards as set forth in state department of health rules and regulations, and city Code Title 9, Chapter V, Article II, section 9-52-26.
(Ord. No. 5542, § 1, 12-17-2013)

Sec. 9-52-91. Maintenance of premises.

All mobile food preparation vehicles shall meet the standards as set forth in T.C.A. § 53-8-102, T.C.A. § 53-8-103, state department of health rules and regulations, and city Code, Title 9, Article V, Division II.
(Ord. No. 5542, § 1, 12-17-2013)

Sec. 9-52-92. Vehicle sanitation requirements.

A. Each vehicle shall be constructed so that the portions of the vehicle containing food shall be covered so that no dust or dirt will settle on the food; and such portions of the vehicles which are designed to contain food shall be at least 18 inches above the surface of the public way while the vehicle is being used for the conveyance of food.

B. The food storage areas of each vehicle shall be kept free from rats, mice, flies and other insects and vermin. No living animals, birds, fowl, reptiles or amphibians shall be permitted in any area where food is stored.

C. Hazardous non-food items such as detergents, insecticides, rodenticides, plants, paint and paint products that are poisonous or toxic in nature shall not be stored in the food area of the vehicle.

D. The vehicle shall be enclosed with tops and sides.

E. The vehicle shall not be used for any purpose other than for the purpose described in this chapter.
(Ord. No. 5542, § 1, 12-17-2013)

Sec. 9-52-93. Zoning districts.

A. Mobile food preparation vehicles are allowed to operate on sites and city streets, alleys and other public thoroughfares within the Office General (OG); Commercial Mixed Use 1, 2 and 3 (CMU-1, CMU-2 and CMU-3); Central Business (CBD); Campus Master Plan -1 and -2 (CMP-1 and CMP-2); Employment (EMP); Warehouse and Distribution (WD) and Heavy Industrial (IH) zoning districts; the South Central Business Improvement Special Purpose District (SCBiD) and the Mixed Use (MU), Neighborhood Center Overlay (NC), Uptown Hospital (UH) and Uptown Light Industrial (ULI) districts of the Uptown Special Purpose District. In addition, mobile food preparation vehicles are allowed to operate on public and private school sites within residential zoning districts with written authorization from the school.

B. Mobile food preparation vehicles must operate at least 1,000 feet from permitted special events locations and permitted farmer's market locations and the mobile food preparation vehicle shall not operate within two hours before or after a scheduled, permitted event or farmer's market, unless the vendor has received specific authority to operate from the event or farmer's market officials. Mobile food preparation vehicles may not operate within 300 feet of FedEx Forum or Autozone Park when events are being conducted or within two hours before or after such event.

C. Approval to operate a mobile food preparation vehicle within all residential and residential work districts, or parks, except as provided below, shall require approval of a special use permit from the land use control board and the legislative body, subject to the provisions of Chapter 9.6 of the Memphis and Shelby County Unified Development Code.

1. Mobile food vendors shall be authorized to operate in any park under a management agreement with the city or county government under terms and conditions established by those entities authorized by the city or county for such park management activities as to the times and locations within the park and additional fees charged for such vendors.

2. Written authorization for activities within such parks by the management group shall be provided by the food vendor upon request by local or state authorities.

D. Regulation of this section shall be performed by law enforcement and Shelby County Code Enforcement.
(Ord. No. 5542, § 1, 12-17-2013)

Sec. 9-52-94. Mobile food market.

A mobile food market shall meet all the applicable requirements of this chapter and shall also meet the following special requirements:

Pre-operational requirements:

Floor plans, equipment layouts, and equipment specifications for both the mobile food market and commissary or food storage facility must be submitted to the health department at least 15 days prior to construction.

A. All floors, walls, and ceilings must be smooth and washable.

B. All equipment must be movable or sealed to the floor, in compliance with TDH Rules 1200-23-1 et seq.

C. Adequate mechanical refrigeration and freezing equipment must be provided to maintain potentially hazardous food at the proper temperature.

D. All coolers and freezers must have visible, accurate, easily readable thermometers.

E. All openings to the outside must be screened or self-closing.

F. Solid waste/trash shall be contained in durable, easily cleanable, insect-proof containers.

G. All potentially hazardous food (meat, poultry, dairy products, etc.) must be stored in an approved commissary. A separate food storage permit is required for that facility.

If the commissary is owned by another operator, a mobile unit/commissary agreement must be submitted to the county health department.

H. All mobile units shall be clearly identified with the name of business and permit number posted and unobstructed on the exterior of the unit in letters at least three inches in height.
(Ord. No. 5542, § 1, 12-17-2013)

ARTICLE I. GENERAL PROVISIONS

DIVISION 1. SOLID WASTE DIVISION

Sec. 9-56-1. Definitions.

For the purposes of this chapter the following words and phrases shall have the meanings herein:

Bulky refuse means discarded appliances such as stoves, refrigerators, water tanks, washing machines, and discarded furniture or similar bulky materials having a weight greater than 75 pounds and/or volume greater than 35 gallons.

Cart means the wheeled, mechanically dumped, usually plastic container, with a capacity in excess of 90 gallons, as distributed by the city for use by the public as a refuse container.

Director means the director of the solid waste division.

Garbage includes every accumulation of both animal and vegetable matter, liquid or otherwise, that attends the preparation, use, cooking, dealing in or storage of meat, fish, fowl, fruits or vegetables, cans or other containers originally used for foodstuffs.

Hazardous waste means a hazardous waste as defined in T.C.A. § 68-46-104.

Industrial waste means solid waste produced in, or generated by, industrial or manufacturing processes. The term does not include commercial or domestic waste.

Person means every natural person, firm, partnership, association or corporation.

Public place includes parks, docks, wharves, water or open adjacent spaces thereto and public yards, grounds and areas and all open spaces between buildings and streets and in view of such streets.

Recycling bin means any container distributed or designated by the city for use as a repository for recyclable materials, the materials to be collected by the city or its designee.

Refuse is a comprehensive term meaning any worthless leaving to be discarded; including, but not limited to, garbage, bulky refuse, rubbish, and industrial and hazardous waste.

Rubbish/trash includes all nonputrescible solid waste except building material, bulky refuse, hazardous waste and industrial waste.

Solid waste is the same as "refuse" or "trash," normally presented for collection at the curb in a disposable container and collected in packer type vehicles.
(Ord. No. 5707, § 15-1, 9-25-2018)

Sec. 9-56-2. Division of solid waste established; director.

There is established a division of solid waste with a director to be appointed thereto in the same manner as other division directors.
(Ord. No. 5707, § 15-2, 9-25-2018)

Sec. 9-56-3. Exclusive collection.

It is unlawful for any person other than the city to engage in the business of collecting, removing, and disposing of solid waste in the city, except those private collectors specifically authorized by permit.
(Ord. No. 5707, § 15-3, 9-25-2018)

Sec. 9-56-4. Jurisdiction of director.

The removal and final disposition of all solid waste from premises in the city shall be under the jurisdiction of the director of the solid waste division.
(Ord. No. 5707, § 15-4, 9-25-2018)

Sec. 9-56-5. Rules and regulations to implement articles.

The director of the solid waste division, except as otherwise stated, subject to the approval of the mayor, may make such rules and regulations as are consistent with the provisions of this article as may be necessary or desirable to aid in the administration of and obtaining compliance with the provisions of this article.
(Ord. No. 5707, § 15-5, 9-25-2018)

Sec. 9-56-6. Collection and disposal of industrial waste, pathogenic and radioactive waste and salvageable materials for reclamation.

A. *Industrial and hazardous waste.* All industrial and hazardous waste shall be disposed of by the industry, manufacturer or processing plant generating such waste under such methods and conditions as shall be approved by the director. Such industries may apply for a special permit as a private collector or may dispose of industrial waste by licensed private collectors. Solid waste not consisting of industrial waste and hazardous waste may be collected by the city and charges made therefor in accordance with the fee set forth herein, provided, however, that if the person in disposing of his or her industrial and hazardous waste also desires to dispose of other solid waste generated on his or her premises, the city shall allow him or her to do so as a special private collector for his or her own premises or through licensed private collectors, if he or she desires.

B. *Pathogenic and radioactive waste.* All pathogenic and radioactive waste shall be disposed of by the hospital or institution generating such waste under such conditions as shall be approved by the health department. If the health department approves the treatment of such waste so that it may be disposed of by collections from the city, or if the hospital is eligible due to classification by volume, then such waste may be disposed of by the hospital as a special private collector or through licensed private collectors. Solid waste not consisting of pathogenic and radioactive waste may be collected by the city and charges made therefor accordance with the fee set forth herein. Provided, however, that if the person disposing of his or her pathogenic or radioactive waste so desires to dispose of his or her other solid waste generated on the premises, the city shall allow him or her to do so by granting a special permit to the hospital or institution if so classified by volume for itself as a special private collector or through use of a licensed private collector. All pathological waste from physicians' clinics, dental clinics, blood banks and medical laboratories, shall be separate from normal waste, placed in durable disposable bags that can be tied and sealed when full. The bags shall be stored in containers approved by the director while in the process of being filled. Containers shall be kept in places restricted from access by the public and placed at the collection point only on the regularly scheduled collection day. Needles shall be separated from disposable

syringes by breaking them off at the hub immediately after use. Fluids may be discharged into the sewer system in accordance with the guidelines set forth in the city sewer use ordinance. Storage, collection and disposal of pathological waste shall be in accordance with local, state and federal regulations.

C. *Salvageable materials for reclamation.* Persons engaged in collecting or purchasing for resale paper, cardboard, rags and scrap metals, for reclamation purposes, shall be exempted from the provisions of this article except insofar as regulations of the health department and the solid waste division apply to maintaining standards of health and cleanliness, preventing nuisances, preventing interference with refuse containers and preventing littering.
(Ord. No. 5707, § 15-6, 9-25-2018)

DIVISION 2. CONTAINERS; DISPOSAL FEES

Sec. 9-56-7. Container provided.

A. *Duty to have carts.* It shall be the duty of every person in possession, charge or control of any premises where solid waste is created or accumulated and in the case of multiple dwellings or multiple occupancy, the owner of the premises, at all times to keep or cause to be kept a sufficient number of city-issued carts for the deposit of garbage generated on the premises. It shall be incumbent upon every person in possession, charge or control of any premises to which a city-owned cart has been issued, to ensure the security of such cart from the perils of theft and damage at times other than when the cart is curbside between 6:00 a.m. and 7:30 p.m. on the regularly scheduled collection day, or at times otherwise established by the director. The cost of damage or loss occurring to a cart as the result of a failure to adequately secure it shall be borne by the person in possession, charge or control of the premises who shall also be responsible for reporting any damage or loss of the cart to the solid waste division as soon as the damage or loss is realized. The cost of damage to the cart caused by fire shall be borne by the person in possession, charge or control of the premises, without regard to the time or location of the cart when such damage occurs.

B. *Cart requirements.* Lids or covers of city-issued carts shall be kept tightly closed at all times other than when solid waste is being deposited therein or removed therefrom. Carts used for the deposit of solid waste for collection by the city shall be in good condition so that collection thereof shall not injure the person collecting the contents. Carts having ragged or sharp edges or other defects must be reported to solid waste for repair or replacement.

C. Except where exempt from cart participation by the director, solid waste will collect solid waste contained in city-issued carts only. Solid waste placed in personally owned carts, personally owned containers and in unregistered previously purchased city carts will not be collected by the city.

D. Residential units may lease additional city-owned carts at the monthly fee established in section 9-56-12.

E. *Unauthorized city carts.* Solid waste will not collect waste from additional city carts where the residential unit has unauthorized possession of the cart or if the cart is not registered in the cart lease program. Unauthorized city carts at residential units are subject to confiscation by the city.

F. *Previously purchased city carts.* Residential units possessing previously purchased city carts may register their city purchased cart with solid waste in order to receive collection of waste from said cart at the monthly fee per cart established in section 9-56-12. Upon registration of the cart, the previously sold city cart will receive the same repair and replacement benefits of leased carts, as long as the cart remains registered and is actively billed at the monthly fee per cart established in section 9-56-12.

G. It shall be the duty of both the person in possession, charge or control of any premises as well as the owner of the premises to comply with the provisions of this section regarding the cleanliness of the premises and keeping carts properly closed.
(Ord. No. 5707, § 15-7, 9-25-2018)

Sec. 9-56-8. Location of containers; safe premises for collection.

A. Carts shall be placed on the neutral strip immediately adjacent to the curb or, in the absence of a neutral strip, immediately adjacent to and just behind the sidewalk, if possible. If, because of a retaining wall or other impediment, carts must be placed on the sidewalk, they shall be placed immediately adjacent to the curb in such a manner that pedestrian traffic on such sidewalk is minimally obstructed. In the absence of curbs, carts shall be placed immediately adjacent to the

surfaced roadbed. Where alley collection is provided, carts shall be placed immediately adjacent to the rear property line in such a manner so as to provide open access from the alley. Nothing is to be placed in the alley right-of-way.

B. Where exempted from cart participation, it shall be incumbent upon tenants, lessees, occupants or owners of premises to provide a safe and convenient entrance to and through the premises when required for the purpose of collecting solid waste. Where alley collection is provided, individual can-type containers shall be placed at a convenient and accessible point in the yard within five feet of the alley. In the absence of alley service, can-type containers shall be placed at a convenient and accessible point adjacent to a drive or walkway. Where yards are fenced, a gate suitable for passage of collectors and equipment and a minimum of 40 inches in width shall be left open to provide a safe and convenient entrance to and through the premises. Containers shall be placed where collectors may service them without attack from animals.

C. City collectors shall not enter any structure for the collection of solid waste nor shall they accept any money or valuable gifts from persons served.

D. Solid waste shall not be stored in close proximity to other personal effects which are not desired to be collected, but shall be reasonably separated in order that the collectors can clearly distinguish between what is to be collected and what is not.

E. The director may, by regulation, provide for the location of all solid waste containers.
(Ord. No. 5707, § 15-8, 9-25-2018)

Sec. 9-56-9. Reserved.

Sec. 9-56-10. Sanitary landfills, other places of disposal and disposal fees.

A. The city may establish sanitary landfills or other places of disposal as may be necessary, and no person shall use any disposal facility or sanitary landfill or other place of disposal except with the approval of the director and in accordance with the rules and regulations promulgated under this article.

B. All sanitary landfills, incinerators or other collection stations operated by or on behalf of the city, either within or without the city limits, shall have disposal fees established, and all persons (other than persons in passenger-type vehicles hauling refuse emanating from a private residence) shall pay a disposal fee based on rates established by the director of solid waste.

An appropriate handling or incinerator disposal fee shall be charged at any transfer station or incinerator for all haulers (other in persons in passenger-type vehicles hauling solid waste emanating from a private residence), as established by the director.

C. The director shall be authorized to promulgate reasonable rules and regulations for the collection of such fees, including collection at the landfills, incinerators or other collection stations, or the sale of coupon books at one or more locations, with coupons to be given upon the presentation of a vehicle for dumping at the landfill, incinerator or transfer station. The director shall also make reasonable rules and regulations as shall be necessary to carry out the inspection, supervision and enforcement of fees.

D. All vehicles transporting solid waste shall be enclosed at the sides and the back and covered with a tarpaulin or methods established by the director so as to reasonably avoid spilling solid waste, disseminating odors, and attracting insects, and the director may establish such reasonable time when such vehicles may be presented for dumping. Vehicles which are not covered a tarpaulin or other approved cover shall not be allowed to dump at the landfill, incinerator and/or transfer station.
(Ord. No. 5707, § 15-10, 9-25-2018)

Sec. 9-56-11. Leaves, grass, trimmings, trees and paper.

A. Leaves, grass cuttings and garden trimmings, weeds and roots from which all dirt has been removed shall be deposited in disposable containers or carts and placed adjacent to the front property line or at the back property line where alley collection is provided or, when exempted from cart participation, in the regular can-type container, provided that it does not create an amount of solid refuse substantially greater than normal so as to require the collector to make an extra trip to remove such solid waste, provided further, that such solid waste is loose in such regular container and not tightly compacted so as to cause difficulty to the collector in removing the same from the container. The director of solid waste may grant waivers of this section in cases of hardship. Disposable containers for such solid waste shall be cardboard cartons or plastic bags or

moisture resistant paper bags and such containers shall have tops, ties or other means of preventing spillage, scattering or blowing away of the solid waste and be moisture proof or kept dry and be of sufficient strength to contain the solid waste without spillage during handling. They shall not exceed in size the approximate capacity of a 30-gallon regulation solid waste container which is considered the maximum size for manual lifting by a collector.

B. Large accumulations of magazines and newspapers shall be bundled and securely tied.

C. Bulky solid waste and tree trimmings shall be separated from other solid waste and neatly placed adjacent to the front property line.

D. Limbs or logs in excess of 13 inches in diameter and five feet in length will not be collected by the city.

E. All solid waste shall be drained and separately wrapped and placed in the cart or, where exempted from cart participation, in individual can-type containers or mechanically dumped commercial containers. Solid waste and other liquid substances shall not be kept in the same individual can-type containers with ashes and rubbish. (Ord. No. 5707, § 15-11, 9-25-2018)

Sec. 9-56-12. Solid waste fees for collection and disposal.

The following monthly fees are established for the collection, removal or disposal of solid waste:

	Fee
Residential units, including single-family dwellings, mobile homes, duplexes, triplexes, quadruplexes, apartment units with seven units or less, for each unit thereof[1]	$41.96
Additional carts for residential units may be leased for each[2]	$10.00
Apartment houses provided with non-mechanized collection, for each unit thereof**	$29.86
Apartment houses and mobile homes with centralized, mechanized collection for each unit thereof**	$19.42
Commercial businesses, churches, boardinghouses with three or more living quarters, and other institutions shall be charged the appropriate commercial rate based upon weekly containerized volume:	
Gallons	Monthly Fee
0-180	$97.96
181-360	$185.77
361-780	$377.76
781-1,200	$512.87
1,201-1,800	$715.98
1,801-3,600	$1,174.18
3,601-5,400	$1,874.59
5,401-7,200	$2,573.23
7,201-9,000	$3,272.76
9,001-10,800	$3,961.90
10,801-12,600	$4,670.67

Notes:

1. Residential customers will be assigned a minimum of one 90-gallon garbage cart and one 90-gallon recycle cart, for a total of two carts. Residential customers must have at least one 90-gallon garbage cart. Residential customers in this category will be eligible for a reduced fee in the amount of $9.23 if they meet the following criteria: Head of household, have an active utility account in their name, are at least 65 years of age or 100 percent disabled and have a gross household income of $25,000.00 per year or less.
2. Households qualifying for the reduced fee, which generate more waste than what can be contained in one 90-gallon garbage cart per week, may request an additional city cart through the cart lease program, and pay the normal monthly fee.

** This item may be adjusted as necessary by resolution with a recommendation of the director of solid waste and approval of the city council.

This section shall take effect on January 1, 2020, as to coincide with the monthly billing cycles of Memphis Light Gas and Water.
(Ord. No. 5707, § 15-12, 9-25-2018; Ord. No. 5739, § 1(15-12), 12-17-2019; Ord. No. 5904, § 1, 6-25-2024)

Sec. 9-56-13. Classification of commercial business for collection services.

The director shall cause each commercial establishment to be placed in the particular group based upon the average collections per week. The director from time to time may change the classifications of a commercial establishment from one group to another. The decision of the director shall be final.
(Ord. No. 5707, § 15-13, 9-25-2018)

Sec. 9-56-14. Special collection services.

A. The director may provide for the collection and removal of solid waste from any place or premises at times in addition to those when regular collection service is provided or in a manner different from the prescribed method of collection. Nonrecurring or infrequent special services shall be provided, as prescribed by the director. In the event special services, the method of special service and the fee therefor shall be submitted, by the director, to the council for approval by appropriate resolution.

B. In the event the director establishes such special service, the director shall have authority to charge the users of such special services a charge based on the division of solid waste' best estimate of their actual cost of providing such service, including labor and equipment used, plus the prevailing landfill fee and transportation costs.
(Ord. No. 5707, § 15-14, 9-25-2018)

Sec. 9-56-15. Billing of solid waste disposal fee.

A. The solid waste disposal fee for removal of refuse by the city shall be included as a separate item each month on the bills rendered by the light, gas and water division. Such charge shall be rendered to all persons whose billing date would be on or after January 1, 1968, and for each month thereafter, at the rate as set forth in section 15-12 [9-56-11]. All persons receiving solid waste service by the city who are not customers of the light, gas and water division shall be billed separately by the city. The amount shall be paid monthly to the person or department designated by the council by resolution.

B. In the event that all or any portion of the solid waste disposal fee remains unpaid 30 days after the delinquent date of the utility statement, the light, gas and water division shall, upon written request by the director of solid waste, terminate water service to the property affected. Additionally, the city shall cease the collection of solid waste from that premises.

C. When service commences or ceases, applicable charges may be prorated. If electricity, gas, or water services or any of them, shall be supplied to a location, the occupant or tenant of which has vacated such premises, and the city is satisfied that there has been a termination of the need for solid waste collection, then the city, on application of the owner or agent therefor, may suspend liability for such charges, and such charges shall be reinstated with the next utility bill rendered to an occupant or tenant of such premises.
(Ord. No. 5707, § 15-15, 9-25-2018)

Sec. 9-56-16. Charges for loss or damage of carts.

The director shall establish a schedule of charges for loss or damage to city-owned carts; such charges to be applied as liability is established under section 9-56-7. These charges may be collected by direct invoice.
(Ord. No. 5707, § 15-16, 9-25-2018)

Sec. 9-56-17. Responsibility for collection charges.

In the case of premises containing more than one dwelling unit or place of business, and each is billed separately for utilities by the light, gas and water division, such fees will be billed to the person in possession, charge or control who is the customer of the light, gas and water division. In the case of premises containing more than one dwelling unit or place of business which are served by a single utility bill, so that the occupants or tenants cannot be billed separately by the light, gas and water division, such fees as are prescribed by this article shall be billed by the light, gas

and water division to the customer of the single utility bill who shall be liable for the solid waste disposal fee for such premises.
(Ord. No. 5707, § 15-17, 9-25-2018)

Sec. 9-56-18. Nurserymen—Duty to remove refuse.

Every nurseryman or other person who cuts trees or trims shrubs or grass as an independent contractor and not as a regular employee of the occupant of the premises shall remove or cause to be removed all refuse from the premises serviced by him or her. In the event the contractor fails to remove the cuttings, the owner, occupant or person in charge or control of the premises shall cause the refuse to be privately removed. In cases where the owner, occupant or person in charge of the premises fails to remove or cause to be removed the refuse, the city shall initiate action as prescribed under sections 9-96-6 and 9-96-7.
(Ord. No. 5707, § 15-18, 9-25-2018)

Sec. 9-56-19. Responsibility for removal of building debris and restrictions for waste at commercial sites.

A. Building debris, including, but not limited to, scrap lumber, plaster, roofing, concrete, brickbats, sanding dust, and other types of construction debris generated as a result of construction, repair, remodeling or demolition of any building or appurtenances on private property, will not be removed by the solid waste division of the city. The property owner shall cause such material and waste to be privately removed to a disposal site authorized by the solid waste division.

B. It is unlawful for any construction and/or demolition contractor to fail to provide an on-site enclosed container or an on-site enclosed area for loose debris, paper, building material waste, scrap building material and other solid waste on the site. All such materials shall be containerized by the end of each day, and the site shall be kept in a litter-free condition. The number and/or size of enclosed containers or enclosed areas shall be adequate to contain debris generated on site. Dirt, mud, construction materials or other debris deposited upon any public right-of-way or street as a result of construction or demolition shall be removed by the contractor by the end of each day. Dirt, mud, construction materials or other debris deposited upon any private property (aside from dirt used as fill material) as a result of construction or demolition shall be confined to the site and removed by the contractor upon completion of the job.

C. All solid waste or other such material generated at loading dock sites or other commercial sites on private property must be collected in an enclosed container or in an enclosed area. The number and size of such containers must be adequate for such collection. Preparation of such materials for collection shall be as required elsewhere in this chapter. The tops, lids, doors, or openings to any dumpster or other container or enclosed area shall be closed and tightly secured except when such material is being loaded or unloaded, so that littering or scattering of such debris outside the confines of such site is prevented.
(Ord. No. 5707, § 15-19, 9-25-2018)

Sec. 9-56-20. Interference with containers.

A. No person, other than the owner or person lawfully in control of any premises, or any authorized employee of the city or an authorized employee of a person licensed by the city for the collection or removal of solid waste or recyclable materials, shall interfere in any manner with a container used for the accumulation or handling of solid waste or recyclable materials or remove any such container from the location where it shall have been placed by the owner or person lawfully in control of the premises; nor shall any such person remove the contents from any such container.

B. It is unlawful for any person, firm or corporation to deposit or permit or suffer its agents, servants or employees to deposit household or commercial wastes in or about the anti-litter cans or like receptacles provided by the city in various public places in the community.
(Ord. No. 5707, § 15-20, 9-25-2018)

Sec. 9-56-21. Place for disposal of waste materials.

It is unlawful for any person to dispose of or cause to be disposed any solid waste or other waste materials upon any property other than a permitted disposal site as designated by the city.
(Ord. No. 5707, § 15-21, 9-25-2018)

Sec. 9-56-22. Littering prohibited.

It shall be a misdemeanor for any person to place any solid waste, straw, dirt, chips, shells, nails, iron, glass, fruit peelings, melon rinds, paper, shavings, rags, gravel, brick, building debris or other refuse or other obnoxious substance on any street, sidewalk, alley, public park, parkway, square or other place in the city or on the property of another person, or to violate any of the requirements of sections 9-56-22 through 9-56-24. Any illegally disposed of solid waste bearing a person's name shall be prima facie evidence that the person whose name appears thereon disposed of or caused to be disposed of the solid waste.
(Ord. No. 5707, § 15-22, 9-25-2018)

Sec. 9-56-23. Collection services subject to health department regulations.

The handling, collection and disposition of all solid waste shall be subject to the regulations of the department of health, which is charged with the duty of seeing to it that the public health shall not be endangered in the handling, storage or disposal of such solid waste matter.
(Ord. No. 5707, § 15-23, 9-25-2018)

Sec. 9-56-24. Hours during which carts may be placed outside property lines; extension.

A. It is unlawful for any person in possession, charge of or control of any premises to allow the cart assigned to or used by that premises to remain in public view at any time other than between the hours of 6:00 a.m. and 7:30 p.m. on the regularly scheduled collection day.

B. The director may, during inclement weather and other extreme circumstances, extend or otherwise modify the above stated hours in order to perfect the completion of a collection route.
(Ord. No. 5707, § 15-24, 9-25-2018)

DIVISION 3. PRIVATE COLLECTION—FEES

Sec. 9-56-25. Private collection authorized and regulated.

The director shall authorize the private collection of solid waste for a particular location only as hereinafter provided:

A. Except as allowed under subsection E. of this section, the director shall not authorize the private collection of solid waste from: (i) single-family, duplex, triplex, quadruplex residences and boardinghouses on dedicated city streets; or (ii) mobile homes. Any private collection fees shall be paid by the city and the city shall contract for the private collection.

B. The director may authorize the private collection of solid waste for apartment units of seven units or less, churches and institutions by the issuance of a location permit upon the application by a licensed private contractor, on the authority of the person in possession or control of the premises or his or her agent, whenever the director shall determine it is uneconomical for the city to provide collection or the city cannot give adequate service and a private collector can give adequate service. The collection shall be by a private garbage collector licensed under this article and suitable to the occupant of the premises.

The director, in considering whether it is economical for the city, shall take into consideration the location of the establishment, the solid waste collection routes, the available manpower, the equipment and manpower necessary for removal, times and cost studies by the city and all such other factors as may be necessary and proper to determine if it is economical or uneconomical for the city to provide such collection. In determining whether the city can give adequate collection service upon a request for a location permit, the director shall consider the feasibility of collection,

the building design, city-owned equipment available and whether the location can best be served by containerized equipment and such other factors as the director may deem appropriate.

C. The director shall authorize the private collection of solid waste from commercial establishments, governmental agencies and from industrial establishments by the issuance of a location permit, upon the application by a licensed private contractor, on the authority of the person in possession or control of the premises, or his or her agent, whenever the director shall determine that a private collector can give adequate service. The collection shall be by a private collector defined under this article and suitable to the occupant of the premises.

D. The director shall authorize the private collection of solid waste from apartment buildings and complexes of eight units or more by the issuance of a location permit, upon the application by a licensed private contractor, on the authority of the person in possession or control of the premises whenever the director shall determine that a private collector can give adequate service. The collection shall be by a licensed private collector defined under this article and suitable to the occupant of the premises, who has obtained a special apartment permit for the collection of apartments.

A special apartment permit for the collection of apartments shall be issued by the director only to licensed private collectors who have obtained a permit for private collection under this article and in addition have signed an agreement with the city to handle any apartments where application is made for their services. Any owner of an apartment building or complex who contends he or she has been unable to obtain private collection services may apply to the director for private collection and the licensed private collectors shall agree that such apartment units may be assigned by the director to the private collectors, on a rotating basis, for collection at the standard rates filed with the director; that is, the rates for each pickup and furnishing of containers, where applicable. The director shall have the authority to revoke immediately the special apartment permit for the handling of apartments of any private collector violating his or her agreement with the city.

E. When private collection services are considered to be in the public interest, the director may require that such services be provided by a licensed private collector. Private collection services are considered in the public interest if the director determines the structural dimensions, turn radiuses and load bearing capacities of any property does not permit public collection services. The director may also determine private collection services are considered to be in the public interest for economic reasons based on the factors set forth in subsection B. of this section, but any private collection services authorized by the director for economic reasons shall not permit any private collection service fees being charged to any of the dwelling units identified in subsection A. of this section.

(Ord. No. 5707, § 15-25, 9-25-2018)

Sec. 9-56-26. Private collection permits.

A. *Application.* Any person desiring to secure a permit for the private collection of solid waste or industrial waste by either a licensed private collector or a special private collector on and after July 1, 1968, shall submit an application therefor to the director of solid waste. The application shall contain the following information:

1. Private collector's name, home address, business address and telephone numbers. This includes information as to persons doing business under fictitious names, members of partnerships, and officers of corporations or associations;
2. A list of equipment intended to be used by the private collector within the city, including a full description thereof;
3. The rates or charges to be imposed for private collection;
4. The date upon which the applicant desires the permit to be issued;
5. Proof of public liability insurance issued by a company authorized to do business in the state in the amount of $100,000.00 for death or

injury to any one person in one accident, $300,000.00 for death or injury to more than one person in any one accident and $50,000.00 property damage;

6. Such other and further information as the director may require.

B. *Investigation and issuance.* The director shall cause such investigation to be made of the facts stated in the application and, if verified, shall without delay advise the collector of licenses and privileges to issue the private collector's permit upon payment of the fee.

C. *Effective period and fee.* The private garbage collection permit shall be effective for the fiscal year beginning on July 1 until the next ensuing June 30, on and after which date it shall be null and void. The licensed private collector shall pay an annual fee of $240.00, which fee shall be prorated and paid at the rate of $20.00 per month, in advance, to the director of solid waste. The fee for a special permit issued to a private collector whose sole collection is a location owned by the private collector shall be $26.00 per annum payable annually in advance, to the director of solid waste.

D. *Conditions of issuing permit.* The director may impose conditions upon the issuing of a permit reasonably calculated to eliminate excessive noise, scattering of dust and dirt, scattered materials, and similar nuisances, and to prevent obstruction of public streets and interference with traffic.

E. *Rules and regulations.* The director may make rules and regulations for the identification of private collectors and their equipment. Every private collector shall keep such records, receipts, invoices, and other pertinent papers in such form as the director may require which shall be open to inspection by the city.

F. *No vested right or property interest acquired—Suspension or revocation—Notice—Hearings.*

1. No vested right or property interest is acquired by the issuance to a licensed private collector of an annual permit or through a special permit issued to a licensed collector whose sole collection is a location owned by the private collector. Nor is there any vested right or property interest acquired by the issuance of a location permit to a particular location to be picked up by a licensed private collector, but the annual permit or location permit may be suspended or revoked when it shall appear:

   a. That any of the conditions thereof are being violated;

   b. That the permit is being exercised in violation of this article or any ordinance or statute;

   c. That the permit is being used for a purpose detrimental to public health, morals, peace and order or is being used for a purpose foreign to that for which the permit was issued;

   d. For the nonpayment of the annual permit fee, the nonpayment of the location fee or the nonpayment of any moneys rightfully due and payable to the city;

   e. That the application contains falsehoods;

   f. That the equipment being used by the private collector for collection or the containers used fail to meet the health and safety standards established by the city, state or federal government.

2. Ten days' written notice of suspension or revocation shall be given. Within such period of time the collector may ask for a hearing before the director. If no request for a hearing is made, the suspension for the period listed or the revocation shall be final. Hearings before the director shall be conducted informally, may be continued, and his or her decision shall be rendered within five days after the close of such hearing. The decision of the director in regard to the issuance, suspension or revocation of private collection permits shall be appealable to the city council under such rules and regulations as established by the council.

G. *Payment bond.* The city shall require of each private collector a bond to secure the payment of location permit fees, inspection fees and sanitary fill or landfill fees. Such bond shall be in an amount determined by the director to be the average amount due from the private collector of such fees for a three-month period, and shall be based upon the director's estimate of such fees from the location permits submitted by the private collector and approved by the director. The director is

authorized to increase or decrease the bond from time to time, at his or her discretion, as the number of location permits increase or decrease by the private collectors. (Ord. No. 5707, § 15-26, 9-25-2018)

Sec. 9-56-26.1. Dumpster regulations.

A. There is established a special downtown solid waste collection district that shall be an area bounded by the Mississippi River on the west, Auction Street on the north, Danny Thomas Boulevard on the east and G.E. Patterson on the south.

B. For purposes of this section, "dumpster" means a watertight container constructed of impervious material and provided with a cover or covers of like material intended and designed to be used for the retention or storage of garbage, refuse or recyclable materials. This term shall not include containers having a maximum capacity of 90 gallons or less, open top rolloff construction containers, or solid waste stationary compactors. "Impervious" means any nonorganic material which prohibits penetration by liquids or other soluble materials.

C. All existing commercial establishments where dumpsters are in use shall meet the requirements of this section within six months of the effective date of this section.

D. Any solid waste collection service by private haulers ("private refuse collectors") in this district will require a location permit.

E. The director of solid waste, or his or her designee, before approving a location permit for private solid waste collection, pursuant to section 9-56-27 of this Code, shall review the proposed dumpster location and determine if the location will require visual screening or site designation. If visual screening is required, a temporary location permit may be issued to remain in effect until approval and completion of construction of the visual screening or enclosure, or for six months, whichever occurs first.

F. 1. Dumpsters may not be located in a public right-of-way within the downtown solid waste collection district unless it is demonstrated by the applicant for a location permit that:

a. The physical layout of the property makes it impracticable to locate such dumpster on the private property of the premises using such dumpster; and

b. Special circumstances make it impracticable for the solid waste generator to employ alternative solid waste collection means such as a shared compactor or hand collection services.

2. Specific site designation is required for all dumpsters meeting the exception of subsection F.1. and located in a public right-of-way. Site designation shall consist of visual markings on the surface of the public right-of-way identifying the particular place where the dumpster must be placed for as long as the location permit allowing the placement of the dumpster remains valid.

The specific site designation of each dumpster in a public right-of-way must be approved by the design review board, established pursuant to subsection 12-44-7.F. of this Code, prior to the issuance of a location permit by the director of solid waste or by his or her designee.

3. The owner of any dumpster located in a public right-of-way within the downtown solid waste collection district shall pay to the city a location permit fee of $200.00 per month per dumpster for the use of the public right-of-way and to fund enforcement of the downtown dumpster ordinance. This fee shall be paid in advance by the first of each calendar month for as long as the dumpster is located in a public right-of-way.

4. Notwithstanding the foregoing of this subsection F., any dumpster that as of November 1, 2011, has a valid location permit allowing it to be located in the public right-of-way within the downtown solid waste collection district, and that is in compliance in all other respects with this section and former subsection F. as it existed as of November 1, 2011, shall not be required to comply with this subsection F. until November 1, 2013, on which date such preexisting location permit shall expire.

5. The city and Center City Commission d/b/a Downtown Memphis Commission (DMC) are each authorized to remove, at the owner's expense, any dumpster that is located in a public right-of-way within the downtown solid waste district that does not have a valid location permit and site designation pursuant to

subsection F.2. If a dumpster has a valid location permit but is not in compliance with this the downtown dumpster ordinance in some other respect, then the city and DMC are each authorized to remove, at the owner's expense, such dumpster after giving the notice and opportunity to cure required by subsection [9-56-26.1.J.]

G. Dumpsters located or to be located on private property but within public view, will require visual screening or enclosure. Visual screening or enclosure requirements will be determined by the design review board, established pursuant to sections 12-36-3 through 12-36-7 of this Code, prior to the issuance of a permanent location permit. The owner of any premises employing a dumpster shall be responsible, at his or her own expense, for preparing and submitting a design plan for required visual screening or enclosure to the design review board and for constructing the approved project.

H. In addition to the requirements set forth in subsections B. through F. of this section, all dumpsters located in the downtown solid waste collection district shall comply with the following requirements:

1. All dumpsters shall have the name and phone number of the private refuse collector holding the location permit for same, as well as the location permit number, stenciled thereon in letters inches in height in a location that is conspicuous and clearly visible from the nearest public through street.

2. All dumpsters must be equipped with a pad lock, and must remain locked at all times, in order to prevent overflowing and windblown garbage, interference with dumpster contents or frequent accumulation of litter.

3. All dumpsters shall be maintained free of jagged or sharp edges or inside parts which could prevent the free discharge of their contents.

4. All dumpsters shall be clean, painted, water tight, and in good condition.

5. Dumpsters shall be emptied by a private refuse collector at intervals which will preclude overflow. Dumpsters shall not be used for disposal of bulk items, such as furniture and major appliances, that may preclude compliance with this section.

6. All private refuse collectors holding location permits for dumpsters to be located in public right-of-way shall be responsible for assuring that their dumpsters are and remain within the marked site designation for such dumpster.

7. The owner of any premises employing a dumpster shall have the obligation and responsibility of assuring that the dumpster is kept closed and locked and of maintaining the dumpster, any dumpster enclosure or screening and all surrounding areas in a clean condition free of overflowing refuse during all times except on a scheduled pick-up date. If a continuous problem of insufficient dumpster capacity is proven to exist, additional or larger capacity dumpsters and enclosures or increased frequency of pick-up shall be required in order to eliminate the overflow problems.

I. Except as otherwise provided herein, it shall be the obligation and responsibility of the private refuse collector who holds the location permit for a specific dumpster, to assure that such dumpster is in compliance with all provisions of this section, with the exception of subsection G.7. of this section which shall be the obligation and responsibility of the owner of any premises employing such dumpster.

J. The city is authorized to remove any dumpster which is not in compliance with this section. Prior to any such removal, the city shall give notice of intent to remove a dumpster to the private refuse collector holding a location permit therefor. The notice shall set out the conditions that render the dumpster to be noncompliant with this section. If such conditions are not corrected to the city's satisfaction within seven days from the date of the notice, the city shall remove the dumpster at the expense of the private refuse collector.

K. Any person, residence, firm, corporation or commercial establishment who violates this section shall be guilty of a misdemeanor fined in an amount not to exceed $50.00 per violation. Each day on which a violation of, or failure to comply with, this section continues shall constitute a separate violation and shall be punishable as such. The city also is entitled to pursue all other remedies to which it is entitled under the authority of applicable law and in accordance with article 2 of this chapter.
(Ord. No. 5707, § 15-26.1, 9-25-2018)

Sec. 9-56-27. Location permits.

A. *Application.* Any private refuse collector who has secured a permit for the private collection of solid waste or industrial waste for either contract collection or special owner collection, and desires to secure a permit for the collection from any particular location or premises within the city, shall submit an application for such collection to the director of the solid waste division for each location to be so collected. The application shall include the following information:

1. The private collector's name and permit number;
2. The address of the location where the materials will be collected and the nature of the activity thereon;
3. The written approval of the request for a location permit by the operator or owner of the activity on the premises at the location for which collection will be made;
4. The character and description of the materials to be collected;
5. The proposed date the private collection is to begin;
6. The number of collections anticipated per week or month;
7. Equipment to be used;
8. Such other and further information as the director may require.

At the time of making application for a private collector's permit, the applicant may apply for location permits and the private collection and location permits may be issued simultaneously.

B. *Investigation and notice of refusal.* The application shall be forwarded to the director who shall cause an investigation to be made of the facts stated in the application and shall authorize the issuance of the location permit within ten days of the filing thereof, provided he or she makes the findings required by this article. Whenever the director refuses the location permit, he or she shall immediately notify the applicant, in writing, of this refusal.

C. *Fees and computation.* A disposal fee, as set forth in section 9-56-10, and a location permit fee shall be charged to defray the costs necessary to provide places of disposal, necessary inspections and the cost of maintaining the general cleanliness of the city. The fees shall be chargeable to the location collected by the licensed private collector or the special private collector and paid to the city by the tenth of the month following the month services were provided by such collector. The owner or operator, when he or she requests the issuance of a location permit for private collections, shall agree to pay the location permit fee and disposal fee to be collected by the private collectors as provided herein. The location fee shall be as follows:

1. $0.75 per apartment per month for apartment buildings and complexes;
2. $0.75 per commercial or industrial unit per month.

D. *Renewals.* The location permit shall remain effective without express renewal until such time as the conditions under which the application was approved have changed to such an extent as to render the permit invalid with respect to the requirements of this section and section 9-56-20. When such location permits are determined by the director to be invalid the director shall immediately notify the applicant in writing.
(Ord. No. 5707, § 15-27, 9-25-2018)

Sec. 9-56-28. Nuisances prohibited, compliance with article required.

It is unlawful for any person in possession, charge of or control of any premises to keep, cause to be kept, or allow the keeping on any premises within the corporate limits of the city any solid waste in such manner that it will become offensive or deleterious to health or likely to cause disease, and the same is declared a public nuisance. The health department, police division and supervisory employees of the solid waste division are authorized to inspect any premises in the city and its police jurisdiction for the purpose of seeing that the requirements of this article are being complied with.
(Ord. No. 5707, § 15-28, 9-25-2018)

Sec. 9-56-29. Solid waste disposal fund.

All funds received by the city from the solid waste disposal fee, whether billed by utilities or collected by the city for permit fees, location fees or sanitary fees, shall be placed by the comptroller of the city in a special account entitled "solid waste disposal fee." Such funds shall be used solely by the city to pay for the cost of solid waste services, including all salaries of the solid waste management bureau, all necessary capital expenditures for equipment and all other necessary and

reasonable charges. It being the intention of this article as previously set forth from its inception that such funds shall be used to defray the cost of collection and disposal of solid waste in the city.
(Ord. No. 5707, § 15-29, 9-25-2018)

DIVISION 4. DISPOSAL AND REMOVAL OF PERSONAL PROPERTY

Sec. 9-56-30. Landlord or property owner's responsibility to notify the city regarding tenant property discarded onto city right-of-ways, easements, or property owned or maintained by the city after an eviction.

Any landlord or property owner that discards personal property belonging to a tenant, including, but not limited to, household furniture, appliances, equipment, clothing, and any other type of personal property onto any city right-of-way, easement, or property owned or maintained by the city after an eviction must notify the division of solid waste by email or fax within 24 hours or the next business day of such eviction, and discard and remove such property in accordance with the provisions set forth in section 9-56-31.
(Ord. No. 5707, § 15-30, 9-25-2018)

Sec. 9-56-31. Disposal and removal of personal property discarded onto city right-of-ways, easements, or property owned or maintained by the city after an eviction.

Any landlord or property owner that discards tenant property onto a city right-of-way, easement, or property owned or maintained by the city after an eviction must discard such property, excluding bulky items, in heavy duty trash bags or cardboard boxes in a neat and organized manner, and remove such property within 72 hours of such eviction as a matter of health and public safety.
(Ord. No. 5707, § 15-31, 9-25-2018)

Sec. 9-56-32. Violations for failure to provide notice to city and to remove and dispose of personal property discarded onto city right-of-way.

A. *First offense violations.* Any landlord or property owner that commits a first offense violation of sections 9-56-30 or 9-56-31 shall be issued a courtesy citation and assessed the actual costs incurred by the city for the removal and disposal of such property.

B. *Second and subsequent violations.* Any landlord or property owner that commits a second or subsequent violation of sections 9-56-30 or 9-56-31 shall be issued a misdemeanor citation in accordance with article 2 of this chapter and assessed the actual costs incurred by the city for the removal and disposal of such property. Each day that the discarded property remains in a city right-of-way, easement, or on property owned or maintained by the city in violation of this section shall constitute a separate offense punishable up to $50.00, plus costs, per offense.

C. *Disposal and removal costs.* The actual costs of disposal and removal assessed by the city shall not be less than $50.00 and shall not exceed $1,000.00.
(Ord. No. 5707, § 15-32, 9-25-2018)

Sec. 9-56-33. Disposal and removal by city.

A. In addition to the penalties set forth in section 9-56-32, upon failure of any landlord or property owner to discard and remove such property in the manner set forth in section 9-56-31, the solid waste division is hereby authorized and directed to have such property removed and disposed, and to provide a statement of costs to the director of finance or his designee. A lien is hereby declared on such property for all costs and expenses incurred by the city provided that, such costs and expenses shall not exceed the amounts set forth in subsection 9-56-32.C.

B. Upon receipt of the statement of costs of disposal and removal by the city, the director of finance or his designee may transmit a true copy thereof to the city attorney, who shall forthwith institute suit or take such other action as may be necessary to enforce the lien on such property.

C. All uncollected costs for the current year shall be certified to the city treasurer on or before December 31 of each year. It shall be the duty of the city treasurer to collect, as a special tax, the amount so certified at the time city taxes levied against the property for which the disposal and removal was performed for the next succeeding year are collected. The cost of disposal and removal pursuant to this section is hereby declared to be a special tax to be collected as general taxes levied by the city.
(Ord. No. 5707, § 15-33, 9-25-2018)

Sec. 9-56-34. Responsibility of property owners, tenants, developers, and others that do not pay solid waste disposal fees for discarded items.

A. The owner, responsible tenant, lessor, lessee, or developer of any commercial or residential property or real estate, including vacant lots and structures, which does not pay a monthly fee for solid waste services for such commercial or residential property or real estate shall be responsible for the removal of any debris, refuse, trash, or any other items placed at the curb, right-of-way or easement of the subject property.

B. Any debris, refuse, trash or other items discarded onto the curb, right-of-way or easement of the property referenced herein shall be tagged by the division of solid waste, with notice to the owner or responsible person for the property to remove such debris or items of refuse within five days of the tagging. If the debris, refuse, trash and other items are not properly removed within the five-day period, the division of solid waste will remove all discarded items and bill the property owner or responsible party.
(Ord. No. 5707, § 15-34, 9-25-2018)

Secs. 9-56-35—9-5615-40. Reserved.

ARTICLE 2. ENFORCEMENT

Sec. 9-56-41. Definitions.

The following definitions shall apply to this article:

Citation means a written order issued by a law enforcement officer requiring a person accused of violating the law to appear in a designated court at a specified date and time, signed by the person agreeing to appear at the time and place indicated.

Summons means an order issued by a court requiring a person against whom a charge has been filed to appear in a designated court at a specific date and time, such summons to be signed by the judge or the clerk.

Traffic violations bureau means the division of the city court system designated to file and process citations and summonses and to deliver the ticket or citation to the clerk for hearing as provided herein.
(Ord. No. 5707, § 15-41, 9-25-2018)

Sec. 9-56-42. Official to designate special officer.

Both the director of the division of public works and the director of solid waste are authorized to designate certain city employees to become special officers of the municipality to issue citations in lieu of arrest to offenders that violate the provisions of this chapter in such cases as they have jurisdiction.
(Ord. No. 5707, § 15-42, 9-25-2018)

Sec. 9-56-43. When citations/summonses deemed lawful complaints for prosecution.

An employee designated as provided in section 9-56-42 of this chapter is authorized to issue misdemeanor citations, in lieu of arrest, for violations of this chapter or sections 9-96-2 , 9-96-6 and 11-52-1. In the event the form of such citation includes information and is sworn to, it shall be deemed to be a lawful complaint for the purpose of prosecution under the section specified.
(Ord. No. 5707, § 15-43, 9-25-2018)

Sec. 9-56-44. Procedure applicable to citations/summonses.

A. Every citation or summons issued shall provide for an appearance date. If any offender fails to appear on the appearance date, the court may take a default judgment against the defendant in favor of the city in an amount not to exceed $50.00 plus costs, for each offense.

B. The summons shall be sworn to by the officer before a person designated as a city court clerk for the purpose of taking oaths.
(Ord. No. 5707, § 15-44, 9-25-2018)

Sec. 9-56-45. Limitation on action for violations—When action deemed commenced—service of summons.

A. No action shall be commenced by the city in any court for the purpose of enforcing any violation of this chapter or section 11-52-1 after one year from the commission of the offense.

B. For the purpose of this section, a court action shall be deemed to be commenced:

1. Upon the issuance of a citation to the offender;
2. Upon the arrest of the offender; or
3. Upon the issuance of a summons to the offender.

C. A summons may be served by:

1. Personal service on the offender; or

2. Registered or certified mail, addressee only, return receipt requested.

(Ord. No. 5707, § 15-45, 9-25-2018)

CHAPTER 9-57. SOLID WASTE MANAGEMENT EMPLOYEES RETIREMENT BENEFIT PLAN

Sections:

Chapter 9-57. Solid Waste Management Employees Retirement Benefit Plan

Sec. 9-57-1. Creation of solid waste supplemental retirement benefit plan.
Sec. 9-57-2. Definitions.
Sec. 9-57-3. Eligibility requirements.
Sec. 9-57-4. Retirement benefit amount.
Sec. 9-57-5. Payment of retirement benefit.
Secs. 9-57-6—9-57-15. Reserved.

Sec. 9-57-1. Creation of solid waste supplemental retirement benefit plan.

There is hereby created a solid waste supplemental retirement benefit plan for solid waste employees hired by the city as of July 1, 2014.
(Ord. No. 5537, § 1, 12-3-2013)

Sec. 9-57-2. Definitions.

Sec. 9-57-3. Eligibility requirements.

Normal retirement. A solid waste employee in the regular, full-time employ of the city that has reached the age of 65 and has a minimum of 25 years of service shall be eligible for normal retirement pursuant to this section.

Early retirement. A solid waste employee in the regular, full-time employ of the city that has reached the age of 62 and has a minimum of 30 years of service shall be eligible for early retirement pursuant to this section.
(Ord. No. 5537, § 1, 12-3-2013)

Sec. 9-57-4. Retirement benefit amount.

A. Any employee that satisfies the eligibility requirement as set forth in section 9-57-3 shall be entitled to a supplemental retirement benefit in the amount of $400.00 multiplied by the number of years of service completed upon retirement; provided, however, that the years of service of such employee shall be capped at 30 years with partial years to be calculated based upon completed months.

B. The supplemental retirement benefit as provided for herein shall not be subject to a cost of living adjustment (COLA) and shall be paid in accordance with section 9-57-5.
(Ord. No. 5537, § 1, 12-3-2013)

Sec. 9-57-5. Payment of retirement benefit.

A. The supplemental retirement benefit provided hereunder shall be paid monthly in the form of a straight life annuity to a single employee that has satisfied the eligibility requirements set forth in section 9-57-3 herein and retired from service.

B. In the event of the death of a married solid waste employee that has satisfied the eligibility requirements included herein and retired prior to such employee's death, 50 percent of the supplemental retirement benefit provided hereunder shall be paid to the surviving spouse. If there is no spouse, the benefit shall be paid to or on behalf of the deceased employee's surviving children. Notwithstanding the foregoing, a surviving spouse shall have the ability to buy up to 100 percent of the deceased employee's benefit as provided herein.

C. If an employee receiving a benefit pursuant to this chapter is reemployed after the commencement of his retirement benefit payments, no further benefit payment shall be made to such employee during his period of reemployment.
(Ord. No. 5537, § 1, 12-3-2013)

Secs. 9-57-6—9-57-15. Reserved.

CHAPTER 9-58. TIRE BUSINESS AND TIRE HAULER REGISTRATION

Sections:

Sec. 9-58-1. Purpose and intent.
Sec. 9-58-2. Definitions.
Sec. 9-58-3. Tire business permits.
Sec. 9-58-4. Tire hauler permit.
Sec. 9-58-5. Denial of permit or renewal; suspension or revocation of permit.
Sec. 9-58-6. Destruction of tires.
Sec. 9-58-7. Storage of tires.
Sec. 9-58-8. Transport and place for disposal of tires.

Sec. 9-58-9. Disposal records/transmittal manifest.
Sec. 9-58-10. Reserved.
Sec. 9-58-11. Administration/enforcement.
Sec. 9-58-12. Violations and penalties.
Sec. 9-58-13. Injunctive relief.
Sec. 9-58-14. Tire disposal fund.

Sec. 9-58-1. Purpose and intent.

It is declared to be the purpose and intent of the city to protect the public health, safety, and welfare of its citizens, prevent the spread of disease and creation of nuisances, and to protect and enhance the quality of its environment. The purpose of this chapter is to institute and maintain a comprehensive city-wide program for tire disposal which will ensure that the storage, transportation, collection, processing, and disposal of tires does not adversely affect the health, safety, and well-being of the public and does not degrade the quality of the environment.
(Ord. No. 5334, § 1(15-46), 11-3-2009; Ord. No. 5875, § 1, 7-11-2023)

Sec. 9-58-2. Definitions.

The following words, terms, and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Dump means to throw, discard, place, deposit, discharge, bury, or dispose of.

Elements of nature means rainfall, snow, sleet, hail, or other natural precipitation.

Manifest means a form or document used for identifying the quantity and the origin, routing, and destination of tires during transportation from the point of generation, through any intermediate points, to an end user, processor, or disposer.

Person means any and all persons, natural or artificial, including any individual, firm, or association.

Store means to place, collect, or accumulate tires that are not for sale or resale as tires, whether the tires are directly on the ground, in roll-off containers, or otherwise.

Tire means a continuous solid or pneumatic rubber, covering encircling the wheel of a bicycle, motorcycle, automobile, truck, trailer, tractor, or other vehicle.

Tire business means and includes any place or establishment engaged in the business of reselling tires or that generates waste tires and is occupied, used, or maintained for the purpose of offering, transporting, repairing, processing, storing, utilizing, and disposing of any and all types of such tires.

Used tire means any tire that has been in use and no longer considered new.

Tire marking means the marking of a tire with the tire business permit number.

Tire recycling facility means a county facility, mandated and licensed pursuant to the Tennessee Solid Waste Management Act, which recycles or properly disposes of tires.

Waste tire means a tire that is no longer suitable for its original intended purpose because of wear, damage, or defect. The term "waste tire" also includes any tire that is destined for a tire disposer or reprocess or (i.e., recapper).

Waste tire hauler means any person or entity permitted by the city engaged in the business of picking up or transporting waste tires for the purpose of removal to a tire recycling facility, waste tire disposer, processor, end user, or disposal facility.

Waste tire disposer means any person who is approved by the state department of environment and conservation to receive waste tires from waste tire generators or waste tire haulers for the purpose of waste tire processing, shredding or otherwise facilitating recycling or resource recovery techniques for waste tires.

Waste tire generator means any person or entity that generates waste tires. Generators may include, but are not limited to, retail tire dealers, retreaders, waste tire disposers not approved by the state department of environment and conservation, automobile dealers, private company vehicle maintenance shops, garages, and service stations.
(Ord. No. 5334, § 1(15-47), 11-3-2009; Ord. No. 5558, § 1, 9-16-2014; Ord. No. 5875, § 1, 7-11-2023)

Sec. 9-58-3. Tire business permits.

All tire businesses located within the city limits engaging in the resale of tires or the generation of waste tires shall be issued a permit annually by the city, by and through its permit's office for a nonrefundable fee of $250.00. Tire businesses with multiple locations must purchase a permit for each location. Tire businesses that have their own trucks utilized to transport waste tires

will receive one decal included with the permit fee. A separate decal must be purchased by such business for any additional truck utilized by the tire business to transport waste tires at a cost of $50.00 per decal. The city will conduct random inspections of such tire businesses for the sake of monitoring compliance with the foregoing requirement. Tire business permits issued under this article are personal to the applicant and may not be transferred, leased, assigned, or given away or sold in any manner or under any circumstance. It shall be the duty of each registrant and permittee to advise the permits office in writing in ten business days of any change to any item for which representation or response was made in its application for registration or permit.

A. *Application*. Every person, firm or corporation obligated to comply with the permit requirement set forth herein shall make written application to the city. The application shall be made on a form obtained from the city permits office setting forth, among other things, the following:

1. Name, physical address, telephone, and facsimile number of the applicant;
2. Tax identification number or taxpayer identification number;
3. Proof of current county business license, issued to the applicant at the proposed business address;
4. County code enforcement use and occupancy certificate;
5. Name, mailing address, telephone, and facsimile number of the owner of the tire business (if different from subsection A.1 of this section);
6. Name, mailing address, telephone, facsimile number and copy of a valid City of Memphis tire hauler permit of the waste tire hauler who will be transporting tires and waste tires to and from the tire business.
7. The estimated maximum number of tires that will be stored on site;
8. The current physical address of the site;
9. A statement setting forth and describing the available space for properly accommodating and protecting all tires;
10. Proof of insurance required in accordance with the state financial responsibility laws;
11. Such other and further information as the permit's office may require.

B. *Annual fees.*

1. All permit and decal fees are due annually by July 1 of each calendar year at the city permits office. These annual fees shall be paid in advance of the issuance of such permit and decal and shall be prorated, as necessary.
2. A current valid permit or decal may be replaced by the permit's office for a fee of $50.00.

C. *Issuance*. The permits office shall issue a permit and decal to a tire business which submits the required and completed application, pays to the city the fee as required in this chapter, and has demonstrated compliance with this chapter and all applicable city ordinances. Each tire business registered in accordance with the provisions of this chapter shall immediately post such permit and decal in a prominent manner or cause such permit to be posted in a conspicuous place within the premises where such tire business is thereby authorized to be established, maintained, or operated. The decal shall be conspicuously displayed on each vehicle owned by such tire business that is utilized to transport used or waste tires. Any permit or decal issued hereunder shall not be sold, assigned, mortgaged, or otherwise transferred without approval by the city permits office and shall expire upon termination of the existence of the tire business or revocation of such business' permit.

D. *Effective period.* The permit shall be effective beginning on July 1 until the next ensuing June 30, on and after which date it shall be null and void.

(Ord. No. 5334, § 1(15-48), 11-3-2009; Ord. No. 5558, §§ 2, 3, 9-16-2014; Ord. No. 5875, § 1, 7-11-2023)

Sec. 9-58-4. Tire hauler permit.

All tire haulers, not affiliated with a tire business that is properly permitted as required herein, transporting used or waste tires within the city limits shall be issued a permit and decal annually by the city, by and through

its permit's office for a nonrefundable fee of $250.00. Tire haulers with multiple locations must purchase a permit for each location. Tire haulers will receive one decal included with the permit fee. A separate decal must be purchased by such hauler for any additional vehicles utilized by the hauler to transport waste tires at a cost of $50.00 per decal. Tire hauler permits issued under this article are personal to the applicant and may not be transferred, leased, assigned, or given away or sold in any manner or under any circumstance. It shall be the duty of each registrant and permittee to advise the permits office in writing in ten business days of any change to any item for which representation or response was made in its application for registration or permit.

A. *Application*. Every person, firm or corporation obligated to comply with the permit and decal requirement set forth herein shall make written application to the city. The application shall be made on a form obtained from the city permits office setting forth, among other things, the following:

1. Name, physical address, telephone, and facsimile number of the applicant;
2. Tax identification number or taxpayer identification number (if applicable);
3. Proof of current county business license, issued to the applicant at the proposed business address;
4. Proof of insurance required in accordance with the state financial responsibility laws;
5. Such other and further information as the permit's office may require.

B. *Annual fees*.

1. All permit and decal fees are due annually by July 1 of each calendar year at the city permits office. These annual fees shall be paid in advance of the issuance of such permit, and such fee shall be prorated, as necessary.
2. A current valid permit or decal may be replaced by the permit's office for a fee of $50.00.

C. *Issuance*. The permits office shall issue a permit and decal to a tire hauler who submits the required and completed application, pays to the city the fee as required in this chapter, and has demonstrated compliance with this chapter and all applicable city ordinances. Each waste tire hauler registered in accordance with the provisions of this chapter shall conspicuously post and maintain such decal in his or her vehicle which is used for transporting tires at all times. Any permit or decal issued hereunder shall not be sold, assigned, mortgaged, or otherwise transferred without approval by the city permits office and shall expire upon termination of the tire hauler's business or revocation of such hauler's permit.

D. *Effective period.* The permit shall be effective beginning on July 1 until the next ensuing June 30, on and after which date it shall be null and void.

E. *Permit exemptions.* The following persons are exempt from the tire hauler permit requirements set forth herein:

1. A tire hauler who is regulated or licensed by, and is currently in compliance with, state or federal agencies such as the department of transportation;
2. A private individual transporting the individual's own waste tires to an approved tire disposal or tire recycling facility;
3. Haulers removing four or less tires from a residential location, which is under contract to remove that residence's solid waste; or
4. Anyone transporting four or fewer used tires directly from a used tire generator facility to a point of re-use or proper storage prior to their re-use.

(Ord. No. 5334, § 1(15-49), 11-3-2009; Ord. No. 5558, §§ 4, 5, 9-16-2014; Ord. No. 5875, § 1, 7-11-2023)

Sec. 9-58-5. Denial of permit or renewal; suspension or revocation of permit.

In addition to the penalties set forth in section 9-58-12, the permits office may refuse to issue or renew a tire business or tire hauler permit or may suspend or revoke such permit if:

A. The applicant or permit holder refuses to allow entry into the tire business by the authorized

representatives of the city or otherwise willfully obstructs the inspection of the tire business;

B. There are repeated or serious violations of any city ordinance by the tire business or tire hauler;

C. The tire business or tire hauler fails to comply with any provisions of this chapter and/or any other applicable city ordinance;

D. The tire business or tire hauler fails to comply with any applicable state or federal law, rule, or regulation, including state and local traffic laws; or

E. The tire business knowingly authorizes a tire hauler who is not properly permitted as required in section 9-58-4 to transport tires on behalf of such business.

(Ord. No. 5334, § 1(15-50), 11-3-2009; Ord. No. 5875, § 1, 7-11-2023)

Sec. 9-58-6. Destruction of tires.

Any tire that is no longer suitable for its original intended purpose or deemed unfit for resale by a tire business shall be rendered unusable and properly disposed of at an authorized tire disposal or recycling facility. Such unusable and unfit tires may not be returned to the customer for disposal by that customer, but the customer may, in writing, request their return for continued use and, in so doing, releases the facility from all liability for that reuse.

Each tire business shall have six months from the effective date of the ordinance from which this chapter is derived to comply with this provision. Failure to comply with this requirement shall be grounds for revocation of the permit holder's permit in accordance with section 9-58-5.

(Ord. No. 5334, § 1(15-51), 11-3-2009; Ord. No. 5558, § 6, 9-16-2014; Ord. No. 5875, § 1, 7-11-2023)

Sec. 9-58-7. Storage of tires.

Tire businesses shall properly store tires at each facility in accordance with local, state, and federal laws. Prior to storage, each used or waste tire shall be permanently marked by the tire business with the tire business permit number. Tire markings should be at least two inches in height, clearly printed, and prominently displayed on the exterior of the tire.

To eliminate potential nuisances of litter, insect breeding, fire hazards and other health risks, each tire business shall at all times during storage:

A. Store tires in covered or enclosed areas, or under an impermeable cover, in accordance with applicable health and safety laws, including but not limited to the city's fire prevention code, to prevent the exposure to and collection of elements of nature, and accumulation of water, dirt or other foreign materials;

B. Ensure all used or waste tires are appropriately marked.

C. Tires stored outside shall be screened from public view.

D. Secure tires at each facility to prevent easy access or theft (lock, chain, or store inside a building or other securable structure);

E. Used tires, waste tires and tire pieces shall be stored separately.

F. Accumulate tires in piles in accordance with the city's fire prevention code, but not in excess of seven feet in height;

G. Isolate tires from other stored materials that may create hazardous products if there is a fire, including, but not limited to, lead acid batteries, fuel tanks, solvent barrels, and pesticide containers;

H. Store no more than 100 used or waste tires in each bay and a maximum of 200 used or waste tires on the site which includes inside and outside storage. Any requests for more than 200 used or waste tires must be approved by the inspecting agency and could result in additional fees.

(Ord. No. 5334, § 1(15-52), 11-3-2009; Ord. No. 5558, § 7, 9-16-2014; Ord. No. 5875, § 1, 7-11-2023)

Sec. 9-58-8. Transport and place for disposal of tires.

A. All tires, including used and waste tires shall be covered and secured during transport upon any public road or highway by a permitted waste tire hauler.

B. It shall be unlawful for any person or tire business to cause, suffer or allow the dumping of any tires at any place in the city, including, without limitation, in or on any public highway, road, street, alley, or thoroughfare,

including any portion of the right-of-way thereof, any public or private property in the city or any waters in the city. Notwithstanding the foregoing, residential property owners within the city may properly discard up to four rimless used or waste tires on the curbside immediately in front of the property owner's residence for normal trash pickup without violating this provision; provided that such tires are discarded for removal within 24-hours of the property owner's designated day for trash pickup.

C. It shall be unlawful for any person or tire business to cause, suffer, or allow the disposal of whole tires in a landfill.

D. Tires shall be properly disposed of in accordance with section 9-58-9 by the delivery and manifesting of tires to an authorized tire disposal or tire recycling facility designated by the city. Tire businesses contracting with a tire hauler for the proper disposal of tires generated by such business shall require such hauler utilize a transmittal manifest documenting the pickup and delivery of the tires to an authorized tire disposal or tire recycling facility.

E. It shall be unlawful for any person, tire business, or tire hauler to transport or dispose of tires or waste tires that are not marked with the tire business permit number.
(Ord. No. 5334, § 1(15-53), 11-3-2009; Ord. No. 5875, § 1, 7-11-2023)

Sec. 9-58-9. Disposal records/transmittal manifest.

A. Tire businesses shall keep disposal records in the form of a daily transmittal manifest, as prescribed by the city, the numbers of new, used and waste tires stored on site, and waste tires transported away at each business location for a minimum of three years and make such records readily available upon request at reasonable hours for inspection by representatives of the city. The daily manifest must be maintained legibly and signed by an authorized representative of the tire business and clearly state the following:

1. Name, address, telephone number, permit number and authorized signature of the tire hauler;

2. Name, address, telephone number, and authorized signature of the tire business who is contracting for the removal of the tires along with the permit number for such business;

3. Date and time of removal/transport and the number of tires being transported;

4. Name, address, and telephone number of the location where the tires are to be delivered; and

5. Upon delivery, the name and signature of the person accepting the tires, including the date of acceptance, the number of tires received, and certification the received tires are properly marked with permit numbers.

B. The manifest required by this section shall at all times accompany tires while in transit. Any tire business directly delivering waste or used tires generated at its business location to a tire disposal or tire recycling facility must also utilize the daily transmittal manifest and make such manifest available for production or inspection by representatives of the city, upon request. The original manifest shall be maintained by the tire business evidencing all information and signatures required herein, notwithstanding the use of a tire hauler or direct delivery by the tire business. A tire hauler contracted to deliver tires to a recycling facility or disposal facility must maintain a duplicate copy of the manifest reflecting the delivery of such tires for proper disposal. The tire recycling or tire disposal facility shall sign the manifest upon acceptance of the tires and also maintain a copy of the manifest for the facility's records.

C. It shall be unlawful for tire disposal businesses to accept delivery of tires or waste tires without tire markings from known used tire businesses. All tire disposal businesses shall immediately report to City of Memphis environmental enforcement if tires or waste tires are delivered without tire markings.
(Ord. No. 5334, § 1(15-54), 11-3-2009; Ord. No. 5558, § 8, 9-16-2014; Ord. No. 5875, § 1, 7-11-2023)

Sec. 9-58-10. Reserved.

Editor's note—Ord. No. 5875, § 1, adopted July 11, 2023, repealed § 9-58-10, which pertained to redemption program and derived from Ord. No. 5334, § 1(15-55), adopted November 3, 2009.

Sec. 9-58-11. Administration/enforcement.

A. Administration and enforcement of this chapter shall be the responsibility of the city permits office, City Police Department, public works division, and neighborhood improvement. The city, by and through its authorized

representatives, is hereby authorized to enter any property regulated by this chapter, at reasonable or necessary times in order to properly inspect for violations.

B. The permits office is hereby authorized to promulgate all such rules and regulations considered necessary and proper to effectuate the implementation and enforcement of this chapter.
(Ord. No. 5334, § 1(15-56), 11-3-2009; Ord. No. 5875, § 1, 7-11-2023)

Sec. 9-58-12. Violations and penalties.

A. The improper storage of one or more used tires shall constitute a separate offense per tire and be punishable by a fine of $50.00 for each improperly stored tire on the location of the tire business. Each day of continued violation of this subsection constitutes a separate offense.

B. The transport of one or more tires without the required permit and decal shall constitute a separate offense per tire and be punishable by a fine of $50.00 for each tire being transported in violation of this chapter. Each day of continued violation of this subsection constitutes a separate offense. In addition, if the improper transport of one or more tires was done from an identified motor vehicle, with the aid of an identified motor vehicle, or in connection with an identified motor vehicle, a traffic citation shall be issued against such vehicle for $50.00 for each offense of a tire or tires being transported in violation of this chapter. Furthermore, such traffic citation for improper dumping of tires, if unpaid, shall also constitute grounds for impoundment and/or immobilization of such vehicle as provided in section 11-40-27.

C. The improper transporting or dumping of a tire shall constitute a separate offense per tire and be punishable by a fine of $50.00 for each tire found improperly dumped. Each day of continued violation of this subsection constitutes a separate offense. In addition, if the improper transporting or dumping of one or more tires was done from an identified motor vehicle, with the aid of an identified motor vehicle, or in connection with an identified motor vehicle, a traffic citation shall be issued against such vehicle for $50.00 for each tire being transported in violation of this chapter. Furthermore, such traffic citation for improper transporting or dumping of tires, if unpaid, shall also constitute grounds for impoundment and/or immobilization of such vehicle as provided in section 11-40-27.
(Ord. No. 5334, § 1(15-57), 11-3-2009; Ord. No. 5475, § 1, 1-8-2013; Ord. No. 5558, §§ 9, 10, 9-16-2014; Ord. No. 5875, § 1, 7-11-2023)

Sec. 9-58-13. Injunctive relief.

In addition to, and cumulative of, all other penalties herein provided, the city shall have the right to seek injunctive relief for any violation of this chapter.
(Ord. No. 5334, § 1(15-58), 11-3-2009; Ord. No. 5875, § 1, 7-11-2023)

Sec. 9-58-14. Tire disposal fund.

All funds received by the city pursuant to this chapter shall solely be used to pay for the administrative and operational costs resulting from the enforcement and implementation of this chapter.
(Ord. No. 5334, § 1(15-59), 11-3-2009; Ord. No. 5875, § 1, 7-11-2023)

CHAPTER 9-60. LITTER CONTROL*

Sections:

Sec. 9-60-1. Definitions.
Sec. 9-60-2. Throwing, dumping or depositing litter.
Sec. 9-60-3. Objects bearing name—Presumption of evidence.
Sec. 9-60-4. Evidence against driver of motor vehicle.
Sec. 9-60-5. Reporting litter from motor vehicle.
Sec. 9-60-6. Prosecution by peace officer or private citizen.
Sec. 9-60-7. Violations—Penalties.

Sec. 9-60-1. Definitions.

The following definitions shall apply to the interpretation and enforcement of this chapter:

Bulky refuse means discarded appliances such as stoves, refrigerators, water tanks, washing machines, discarded furniture, and inoperable motor vehicles, or similar bulky materials having a weight greater than 75 pounds and/or volume greater than 35 gallons.

Garbage includes putrescible animal and vegetable wastes resulting from the handling, preparation, cooking and consumption of food.

***State law reference—**Litter control, T.C.A. § 39-14-501 et seq.

Litter includes garbage, refuse, rubbish and all other waste materials.

Nuisance, for the purposes of this title and chapter, means a structure or building in such a state of deterioration or abandonment that it is a blighting influence on neighboring properties. The fact that buildings on neighboring properties are abandoned or deteriorated is not a defense.

Person means every natural person, firm, partnership, association, corporation, municipal corporation or public authority.

Refuse, as a comprehensive term, means any worthless leaving to be discarded, including but not limited to, garbage, bulky refuse, rubbish, and industrial and hazardous waste.

Rubbish includes all combustible and noncombustible waste materials, except garbage. The term shall include the residue from the burning of wood, coal, coke and other combustible materials, paper, rags, cartons, boxes, wood, excelsior, rubber, leather, tree branches, yard trimmings, tin cans, metals, mineral matter, glass, crockery, dust and other similar materials.

Urban blight, for the purposes of this title and chapter, means a condition existing on property such as weeds, grass, undergrowth and uncut shrubbery without apparent or patent supervision by an owner or tenant so that the exterior of property is in disrepair, contains unduly amounts of high weeds, tall grass, unkept greenery and undergrowth about the premises creating an invitation to dust, obstructions to view, harbor for unauthorized persons or animals, or venom.
(Code 1985, § 16-491; Ord. No. 3442, § 1, 4-2-1985; Ord. No. 4610, §§ 1, 2, 9-15-1998)

Sec. 9-60-2. Throwing, dumping or depositing litter.

A. A person shall not throw, dump, deposit, or cause to be thrown, dumped, or deposited, litter or maintain a nuisance on property, improved or vacant or on any public parkway, pathway, street, or road, upon public parks, or recreation areas, or upon any other public property, except that property designated for that use.

B. No person shall allow high weeds or grass to accumulate so as to permit urban blight.
(Code 1985, § 16-492; Ord. No. 3442, § 1, 4-2-1985; Ord. No. 4610, § 3, 9-15-1998)

Sec. 9-60-3. Objects bearing name—Presumption of evidence.

If an object of litter is discovered, on another's property without his or her permission, on any public highway, street or road, upon public parks or recreation areas, or upon any other public property, except that property designated for that use, bearing a person's name, it shall be prima facie evidence that the person whose name appears on the object, threw, dumped, deposited or caused it to be thrown, dumped or deposited there.
(Code 1985, § 16-493; Ord. No. 3442, § 1, 4-2-1985)

Sec. 9-60-4. Evidence against driver of motor vehicle.

If the throwing, dumping or depositing of litter was done from a motor vehicle, except a motor bus, it shall be prima facie evidence that the throwing, dumping or depositing was done by the driver of the motor vehicle.
(Code 1985, § 16-494; Ord. No. 3442, § 1, 4-2-1985)

Sec. 9-60-5. Reporting litter from motor vehicle.

A. Any person, whether or not such person is a citizen of the city, who shall witness the throwing, dumping or depositing of litter from a motor vehicle onto any public highway, street or road, onto another's property without the owner's permission, onto public park or public recreation lands, or onto any other public property, except such as is designated for the throwing, dumping or depositing of litter, may report the date and time of day of the littering and the license plate registration number and state of registration to any state or local law enforcement authority.

B. The license plate registration number as recorded shall constitute prima facie evidence that the littering was done by the person to whom such motor vehicle is registered.

C. Any person so reporting a violation shall be required to appear as witness in any prosecutions resulting therefrom.
(Code 1985, § 16-495; Ord. No. 3442, § 1, 4-2-1985)

Sec. 9-60-6. Prosecution by peace officer or private citizen.

Prosecution for a violation of sections 9-60-1 through 9-60-5 may be initiated by a peace officer who witnessed an offense in violation of such sections, or who discovered an article bearing a person's name on the property of

another, or any public highway, street or road, upon a public park or recreation area, or upon any other public property, except that designated for that use, or by any private citizen, who witnessed an offense or discovered incriminating evidence, who is willing to make the initial charge and testify for the city, by having a summons issued by a court clerk.
(Code 1985, § 16-496; Ord. No. 3442, § 1, 4-2-1985; Ord. No. 4610, § 4, 9-15-1998)

Sec. 9-60-7. Violations—Penalties.

A. A person who violates a provision of this chapter shall be guilty of a misdemeanor and, upon conviction thereof, shall be punishable by a fine of not more than $50.00. Each violation is considered a separate offense and punishable as such.

B. Additionally, if the throwing, dumping or depositing of litter was done from an identified motor vehicle, with the aid of an identified motor vehicle, or in connection with an identified motor vehicle, a traffic citation shall be issued against such vehicle for $50.00. Furthermore, such traffic citation for throwing, dumping or depositing of litter from a motor vehicle, if unpaid, shall also constitute grounds for impoundment and/or immobilization of such vehicle as provided in section 11-40-27.
(Code 1985, § 16-497; Ord. No. 3442, § 1, 4-2-1985; Ord. No. 5474, § 1, 1-8-2013)

CHAPTER 9-64. MOSQUITO CONTROL

Sections:

Article 1. General Provisions

Sec. 9-64-1. Treatment of collections of water—Generally.
Sec. 9-64-2. Treatment of collections of water—Methods.
Sec. 9-64-3. Action by city to prevent breeding.
Sec. 9-64-4. Rulings of health officer final—Authority of health officer to make rules and regulations.
Sec. 9-64-5. Right of entry to enforce chapter.
Sec. 9-64-6. Appropriation of funds for control of breeding.

Article 2. Fish Pools, Pools and Lakes

Sec. 9-64-7. Definitions.
Sec. 9-64-8. Purpose.
Sec. 9-64-9. Lakes to comply with state law.
Sec. 9-64-10. Inspection.
Sec. 9-64-11. Health officer to determine methods of treatment.

ARTICLE 1. GENERAL PROVISIONS

Sec. 9-64-1. Treatment of collections of water—Generally.

A. It is unlawful for any owner of property occupied or vacant, agent of such owner, tenant, subtenant, or other occupant of any property or premises located within the city to have, keep, maintain, cause or permit upon such property or premises any collection of standing or flowing water in which mosquitoes breed or are likely to breed, unless such collection of water is treated so as effectually to prevent such breeding. This section shall apply to collections of water in ditches, pools, ponds, excavations, holes, depressions, open cesspools, privy vaults, fountains, cisterns, tanks, shallow wells, barrels, troughs, urns, cans, boxes, bottles, tubs, buckets, defective house roof gutters, old tires, old appliances, tanks of flush closets, or other similar water containers.

B. The natural presence of mosquito larvae in standing or running water shall be evidence that mosquitoes are breeding there and shall be deemed a violation of this section.

(Code 1967, § 32-47; Code 1985, § 16-301)

Sec. 9-64-2. Treatment of collections of water—Methods.

The method of treatment of any collection of water specified in section 9-64-1, directed toward the prevention of breeding of mosquitoes, shall be approved by the health officer and may be any one of the following:

A. *Screening.* Screening with wide netting of at least 16 meshes to the inch each way or with any other material which will effectually prevent the ingress or egress of mosquitoes;

B. *Emptying and cleaning.* Complete emptying every seven days of unscreened containers, together with their thorough drying or cleaning;

C. *Use of larvacides.* Using a larvacide approved and applied under the direction of the health officer;

D. *Oiling.* Covering completely the surface of the water with kerosene, petroleum, or paraffin oil once every seven days;

E. *Stocking with fish.* Cleaning and keeping sufficiently free of vegetable growth and other obstructions, and stocking with mosquito-destroying fish;

F. *Filling or draining.* Filling or draining to the satisfaction of the health officer, his or her agent or accredited representative;

G. *Destruction of breeding places.* Proper disposal, by removal or destruction, of tin cans, tin boxes, broken or empty bottles and similar articles likely to hold water.

(Code 1967, § 32-48; Code 1985, § 16-302)

Sec. 9-64-3. Action by city to prevent breeding.

A. Should any person responsible for conditions giving rise to the breeding of mosquitoes fail or refuse to take necessary measures to prevent the same, the health officer or his or her authorized agent is authorized to do so, and all necessary cost incurred by him or her for this purpose shall be a charge against the property owner or other person offending, as the case may be.

B. The health department may, if it deems necessary, immediately treat any collection of standing or flowing water in which mosquitoes are found to be breeding on public or private property to stop such breeding, at its own expense.

(Code 1967, § 32-49; Code 1985, § 16-303)

Sec. 9-64-4. Rulings of health officer final—Authority of health officer to make rules and regulations.

A. In determining when and where it is necessary to use the prevention methods set out in section 9-64-2, and in determining which of such methods shall be used, and in determining when proper and sufficient prevention methods have been used, the judgment of the health officer shall be final.

B. The health officer is authorized to pass such rules and regulations not inconsistent with the provisions of this chapter as may be proper in the administration and enforcement of this chapter.
(Code 1967, § 32-50; Code 1985, § 16-304)

Sec. 9-64-5. Right of entry to enforce chapter.

For the purpose of enforcing the provisions of this chapter, the health officer or his or her duly accredited agent, acting under his or her authority, may at all reasonable times enter in and upon any premises within the city.
(Code 1967, § 32-51; Code 1985, § 16-305)

Sec. 9-64-6. Appropriation of funds for control of breeding.

The city council shall appropriate, out of the general revenues of the city, sufficient funds to cover the costs of supervision for the control of disease-transmitting and pest mosquito breeding.
(Code 1967, § 32-52; Code 1985, § 16-306)

ARTICLE 2. FISH POOLS, POOLS AND LAKES

Sec. 9-64-7. Definitions.

For the purposes of this article, the following words and phrases all have the meanings set out below, unless the context indicates to the contrary.

Fish pool is a pool constructed of concrete or other impervious material to hold water, as frequently built in a garden, usually for the purpose of beautifying the premises where situated, and which contains less than one acre of water surface at the normal pool level, and whether used for the purpose of containing fish or lilies or other vegetation.

Lake is an impoundage of water of more than one acre of water surface at the normal pool level, whether it is for the purpose of beautification, recreation and fish, industrial mining, chemical waste, sewage treatment or other uses.

Pool is a collection of water containing less than one acre of water surface at the normal pool level and used for the purpose of beautification, recreation, industrial mining, chemical waste, sewage treatment or uses other than fish containment.
(Code 1967, § 32-58; Code 1985, § 16-316)

Sec. 9-64-8. Purpose.

It is the purpose of this article to regulate the maintenance of fish pools, pools and lakes and the impoundage of water which might provide breeding places for disease-transmitting and pest mosquitoes.
(Code 1967, § 32-59; Code 1985, § 16-317)

Sec. 9-64-9. Lakes to comply with state law.

Every lake, as defined in this article, shall be constructed and maintained in full compliance with T.C.A. §§ 68-7-101 through 68-7-109.
(Code 1967, § 32-62; Code 1985, § 16-318)

Sec. 9-64-10. Inspection.

The health officer, or his or her representative, may make an inspection of a fish pool, pool or lake at any time to investigate for mosquito breeding and as to health conditions, and shall have the authority to take such action as may be necessary to properly control mosquito breeding when found or to insure health conditions in and around such pool or lake.
(Code 1967, § 32-63; Code 1985, § 16-319)

Sec. 9-64-11. Health officer to determine methods of treatment.

The health officer shall have the final authority to decide as to what is the proper method of treatment of fish pools, pools and lakes to prevent mosquito breeding or to eliminate unhealthy conditions.
(Code 1967, § 32-64; Code 1985, § 16-320)

CHAPTER 9-68. NOISE CONTROL*

Sections:

Sec. 9-68-1. Loud, disturbing and unnecessary noises generally.
Sec. 9-68-2. Excessive noise near school, church, court or hospital.
Sec. 9-68-3. Creation of noise to attract attention to performance, show or sale.
Sec. 9-68-4. Playing of radios and phonographs.
Sec. 9-68-5. Yelling, shouting and singing.
Sec. 9-68-6. Building operations.
Sec. 9-68-7. Noisy animals and fowl.
Sec. 9-68-8. Blowing steam whistles.
Sec. 9-68-9. Noisy vehicles generally.
Sec. 9-68-10. Loading vehicles—Opening or destruction of bales or boxes.
Sec. 9-68-11. Loudspeakers or amplifiers on vehicles.
Sec. 9-68-12. Mufflers for steam and stationary internal combustion engines.
Sec. 9-68-13. Exemptions from chapter.

Sec. 9-68-1. Loud, disturbing and unnecessary noises generally.

The creating of any unreasonably loud, disturbing and unnecessary noise within the limits of the city is prohibited. Any noise of such character, intensity or duration as to be detrimental to the life or health of any individual, or in disturbance of the public peace and welfare is prohibited.
(Code 1967, § 24-1; Code 1985, § 22-1)

Sec. 9-68-2. Excessive noise near school, church, court or hospital.

The creation of any excessive noise on any street adjacent to any school, institution of learning, church or court while the same are in session, or adjacent to any hospital, which unreasonably interferes with the workings or sessions thereof is prohibited.
(Code 1967, § 24-2; Code 1985, § 22-2)

***Charter reference—**Authority to regulate and prohibit unnecessary noises, § 855.

State law reference—Excessive noise from motor vehicles, T.C.A. § 55-8-193.

Sec. 9-68-3. Creation of noise to attract attention to performance, show or sale.

The use of any drum, loudspeaker or other instrument or device for the purpose of attracting attention, by creation of noise, to any performance, show or sale or display of merchandise is prohibited.
(Code 1967, § 24-3; Code 1985, § 22-3)

Sec. 9-68-4. Playing of radios and phonographs.

A. The playing of any radio, phonograph, or any musical instrument or sound device, including, but not limited to, loudspeakers or other devices for reproduction or amplification of sound, either independently or in connection with motion pictures, radio or television, in such manner or with such volume, particularly during the hours between 11:00 p.m. and 7:00 a.m., as to annoy or disturb the quiet, comfort or repose of persons in my office, hospital or in any dwelling, hotel or other type of residence, or of any person in the vicinity is prohibited.

B. The use of playing of any radio or receiving device, at any time, on a public transportation bus or vehicle, which will interfere with, annoy, or disturb the quiet and comfort of any passenger, driver, or the use of any communications facilities installed in the bus or vehicle, unless such instrument is used with, or controlled by, an ear plug so as to make the sound audible only to the individual user, is prohibited.
(Code 1967, § 24-4; Code 1985, § 22-4; Ord. No. 1189, § 1, 2-8-1972)

Sec. 9-68-5. Yelling, shouting and singing.

Yelling, shouting, hooting, whistling or singing on the public streets, particularly between the hours of 11:00 p.m. and 7:00 a.m. or at any time or place so as to annoy or disturb the quiet, comfort or repose of persons in any hospital, dwelling, hotel or any other type of residence or of any persons in the vicinity is prohibited.
(Code 1967, § 24-5; Code 1985, § 22-5)

Sec. 9-68-6. Building operations.

The erection (including excavation), demolition, alteration or repair of any building or the excavation of streets and highways in any residential district or section, other than between the hours of 7:00 a.m. and 6:00 p.m. on weekdays and between the hours of 8:00 a.m. and 4:00 p.m. on Saturdays is prohibited, except in case of urgent necessity in the interest of public health and safety, and

then only with a permit from the chief building inspector, which permit may be granted for a period not to exceed 30 days while the emergency continues, if the chief building inspector determines that the public health and safety will not be impaired thereby and that loss or inconvenience will result to a party in interest if such permit is not granted.
(Code 1967, § 24-6; Code 1985, § 22-6; Ord. No. 5660, § 1, 10-3-2017)

Sec. 9-68-7. Noisy animals and fowl.

The keeping of any animal, bird or fowl which, by causing frequent or long continued noise, shall disturb the comfort or repose of any person in the vicinity is prohibited.
(Code 1967, § 24-7; Code 1985, § 22-7)

Sec. 9-68-8. Blowing steam whistles.

The blowing of any steam whistle attached to any stationary boiler except to give notice of the time to begin or stop work or as a warning of fire or danger, or upon request of proper city authorities, is prohibited.
(Code 1967, § 24-8; Code 1985, § 22-8)

Sec. 9-68-9. Noisy vehicles generally.

The use of any automobile, motorcycle, or other vehicle so out of repair, so loaded or in such manner as to cause loud and unnecessary grating, grinding, rattling or other noise is prohibited.
(Code 1967, § 24-9; Code 1985, § 22-9)

Sec. 9-68-10. Loading vehicles—Opening or destruction of bales or boxes.

The creation of any loud and excessive noise in connection with loading or unloading any vehicle or the opening and destruction of bales, boxes, crates and containers is prohibited.
(Code 1967, § 24-11; Code 1985, § 22-10)

Sec. 9-68-11. Loudspeakers or amplifiers on vehicles.

The use of mechanical loudspeakers or amplifiers on trucks or other moving or standing vehicles for advertising or other purposes is prohibited.
(Code 1967, § 24-12; Code 1985, § 22-11)

Sec. 9-68-12. Mufflers for steam and stationary internal combustion engines.

It is unlawful for any person to discharge into the open air the exhaust of any steam engine or stationary internal combustion engine, except through a muffler or other device which will effectively prevent loud or explosive noises therefrom.
(Code 1967, § 24-13; Code 1985, § 22-12)

Sec. 9-68-13. Exemptions from chapter.

None of the terms or prohibitions of this chapter shall apply to or be enforced against:

(1) Any vehicle of the city while engaged upon necessary public business;

(2) Excavations or repairs of bridges, streets, or highways by or on behalf of the city, county or state during the night or weekend, when the public welfare and convenience render it impossible to perform such work during the hours of 7:00 a.m. and 6:00 p.m. on weekdays and between the hours of 8:00 a.m. and 4:00 p.m. on Saturdays;

(3) The reasonable use of amplifiers or loudspeakers in the course of public addresses which are noncommercial in character;

(4) The use of sound trucks on behalf of candidates or questions during the hours of 10:00 a.m. through 9:00 p.m., on the day of any municipal, county, state or national general or special election, primary or referendum and during similar hours on the ten days immediately preceding such election, primary or referendum.

(Code 1967, § 24-14; Code 1985, § 22-13; Ord. No. 20, § 1, 9-12-1967; Ord. No. 5660, § 1, 10-3-2017)

CHAPTER 9-72. PERSONAL CARE HOMES*

Sections:

Sec. 9-72-3. Admission requirements.
Sec. 9-72-4 Staffing.
Sec. 9-72-5. Laundry services.
Sec. 9-72-6. Living/sleeping quarters.

***State law reference—**Regulation of health and related facilities, T.C.A. § 68-11-201 et seq.

Sec. 9-72-7. Nutritional requirements.
Sec. 9-72-8. Building and physical plant.
Sec. 9-72-9. Records.
Sec. 9-72-10. Removal of sick resident.
Sec. 9-72-11. Agency coordination.
Sec. 9-72-12. Personal health care home status at enactment of chapter.
Sec. 9-72-13. Rights of hearing, appeal and legal counsel.

Sec. 9-72-14. Rules and regulations.

Sec. 9-72-1. Definitions.

The following definitions shall apply to the interpretation and enforcement of this chapter:

Ambulatory/infirm person means those who, due to age or infirmity, are physically, medically, and/or mentally unable to satisfactorily care for themselves, but who do not necessarily need care provided by a licensed health care professional in custodial institutions, and for whom family type living can be made adequate to assure necessary protection and safety. Custodial institutions, as used herein, shall not be construed to include personal care homes.

Department means the health department.

Health officer means the health officer and director of the health department, or his or her designated representative or representatives.

Independently mobile means an individual who is physically and/or mentally capable of vacating the personal care home on his or her own power in case of emergency, including the capability to ascend or descend stairs that are present to the exit path. Residents who use canes, wheelchairs, or walkers are considered independently mobile as long as they do not require more than verbal or minimum assistance from another person to vacate and can do so in two minutes, or as required by local fire codes.

Owner/operator means and includes persons in possession and in control of property by virtue of lease-rental agreements; and as further set forth under the term "provider."

Personal care home means any premises operated for compensation in which food, shelter and personal assistance or supervision are provided for a period exceeding 24 consecutive hours for two or more independently mobile adults who are not related to the operator and who require assistance or supervision in such matters as dressing, bathing, diet, or medication prescribed for self-administration, but do not require hospitalization or care in a skilled nursing home or in intermediate care facilities. The state definition for "home for the aged" and "supportive living home" shall also be included in this category.

Personal care home permit means the permit to operate a personal care home and must be secured from the health department. This permit shall be issued only after the provider has complied with all health department rules and regulations necessary for issuance of such permit, which shall include building and occupancy permits, issued by the building official.

Provider means the owner, manager, operator, proprietor, or person in charge of a personal care home at any time during a 24-hour period.

Staff means those aides, cooks, homemakers, and other persons employed by the provider, to assist in providing personal health care services for all residents and clients in a personal care home.
(Code 1967, § 32-120; Code 1985, § 16-336; Ord. No. 3229, § 1, 8-3-1982)

Sec. 9-72-2. Permit to operate—Supervision of registration.

A. It is unlawful for any person to operate a personal care home as defined in this chapter without having first registered such establishment with, and received a permit and other certifications from, the health department.

B. An initial fee of $50.00 shall be paid to the health department by the owner, operator, or provider prior to issuance of such permit, and thereafter such permit to operate personal care homes must be renewed annually by the owner, operator, or provider at an annual fee of $50.00. All permits must be purchased prior to January 1 of the ensuing year. This permit is not transferable.

C. Supervision of registration of the personal care home shall be the responsibility of the health department.
(Code 1967, § 32-121; Code 1985, § 16-337; Ord. No. 3229, § 1, 8-3-1982)

Sec. 9-72-3. Admission requirements.

A. No proprietor or provider of personal care home services for adults shall allow any person to become a resident unless such person provides a certificate from a licensed physician. This certificate or form shall be provided by the health department and completed by a licensed physician before a person can enter as a resident in a personal care home. The health department is not required to provide the physician, but will provide assistance and direction to those seeking admission. Persons who are not independently mobile shall not be admitted to a personal care home. Any proposed resident referred by a mental health institution, mental health center, or a mental health facility for retarded individu-

als, or any agency responsible for rehabilitating persons involved in alcohol or drug abuse, must furnish a written assessment of his or her needs from that institution or agency, or qualified licensed clinical psychologist or psychiatrist before admission to a personal care home.

B. In cases of emergency admission, five working days from date of emergency admission will be allowed for acquisition of the certificate. Persons with levine tubes, gastronomy tubes, intravenous tubes, indwelling catheters, and persons with tracheotomies are specifically excluded from emergency admissions. "Emergency admission," as used herein, means whenever the state Department of Human Services is securing care for an ambulatory or independently mobile person within a 24-hour period when normal processing cannot be provided, as in the case of periods of extreme hot or cold weather, or destitution.
(Code 1967, § 32-122; Code 1985, § 16-338; Ord. No. 3229, § 1, 8-3-1982)

Sec. 9-72-4 Staffing.

A. The provider must be physically and mentally capable of providing needed services to the residents. Homes with nine or less residents shall require at least one staff person who is capable and responsive, to be physically present and available. Other staff shall be retained, as necessary, for laundry, food service, housekeeping, and maintenance requirements.

B. In homes with ten or more residents, the provider and/or staff shall be present in numbers to provide a minimum of 45 minutes of individual care service per day per resident, to all residents requiring these services.
(Code 1967, § 32-123; Code 1985, § 16-339; Ord. No. 3229, § 1, 8-3-1982)

Sec. 9-72-5. Laundry services.

Services for bed linen, towels, and personal clothing adequate for each resident must be provided at all times. Linen supply shall be sufficient to ensure complete bed linen change once per week minimum. Clean linen must be stored separate from soiled clothes or soiled linen.
(Code 1967, § 32-124; Code 1985, § 16-340; Ord. No. 3229, § 1, 8-3-1982)

Sec. 9-72-6. Living/sleeping quarters.

Bedrooms shall have a minimum of 80 square feet of floor space for each resident, and bedrooms for more than one person shall not contain more than four beds, or four residents. Bedrooms shall be equipped as required by the rules and regulations of the health department.
(Code 1967, § 32-125; Code 1985, § 16-341; Ord. No. 3229, § 1, 8-3-1982)

Sec. 9-72-7. Nutritional requirements.

Each home shall prepare wholesome, well balanced meals and the health department will provide nutritional education to assure that each staff person understands how to meet the special dietary needs of each resident. Kitchen employees of each home must receive this training at least two times per year. Persons who are registered dietitians, or who hold current nutritional education certificates, shall not be required to take the nutritional training required by the health department.
(Code 1967, § 32-126; Code 1985, § 16-342; Ord. No. 3229, § 1, 8-3-1982)

Sec. 9-72-8. Building and physical plant.

A. The provider shall be responsible for providing all required utilities. Heating and cooling shall be provided and maintained which will provide a temperature of not less than 70 degrees Fahrenheit, nor more than 85 degrees Fahrenheit. The home shall have an adequate supply of hot and cold or tempered water at each wash basin and bathtub/shower, kitchen sink, laundry equipment, and adequate hot and cold water to the dishwasher.

B. The building shall comply with all local, state and federal codes, designed for minimum risk from injuries and accidents. Fireplaces must be screened when in use. Floors, walls, ceilings and vents shall be in good repair in all parts of the home. All windows must be screened except those in which mechanical air conditioning units are installed. All parts of the building are to be kept clean by the provider, his or her staff or his or her agents. Safeguards must be taken at all times to minimize fire hazards associated with cigarette, cigar, or pipe smoking by providing metallic ashtrays, or the setting aside of smoking areas.

C. Individual telephone service, if provided, will be provided per written agreement between the provider and resident. All telephone areas shall provide numbers for fire department, police department, medical and ambulance service, and must be posted and easily readable by the elderly.

D. Food preparation areas shall comply with chapter 9-52.
(Code 1967, § 32-127; Code 1985, § 16-343; Ord. No. 3229, § 1, 8-3-1982)

Sec. 9-72-9. Records.

A. A record must be kept for each resident containing the name of his or her personal physician, social security number and next of kin, if known. This record should also include information on the individually required personal care services, including:

1. A list of all currently prescribed medication, updated at least quarterly;
2. Nearest relative or person to notify in an emergency, with current addresses;
3. An inventory of personal properties brought to the home by the resident; and
4. Fees charged and paid.

B. These records shall be accessible and available for review by the representative of the health department during routine inspections. Records not available on the premises of the personal care home within three days of the request during the inspection, shall be considered a violation of this section and this chapter.
(Code 1967, § 32-128; Code 1985, § 16-344; Ord. No. 3229, § 1, 8-3-1982; Ord. No. 4029, § 1, 4-23-1991)

Sec. 9-72-10. Removal of sick resident.

A. The provider shall make arrangement with a licensed physician/licensed hospital or licensed nursing home to transfer nonambulatory/nonindependently mobile residents who require skilled nursing care, intermediate nursing care, or more technical nursing or medical services.

B. When notified by the health department, the provider shall do so within ten days of such notification. Less time may be given by the health department, when, in the opinion of the health officer, a resident's life or health requires immediate medical attention. The provider must report these emergencies and imminent situations to the state Department of Human Services. The responsibility for the resident's care shall rest with the provider.
(Code 1967, § 32-130; Code 1985, § 16-345; Ord. No. 3229, § 1, 8-3-1982)

Sec. 9-72-11. Agency coordination.

The health department shall coordinate the administration of this chapter between itself and the fire services division, the bureau of construction code enforcement and the city and county office of planning and development and each shall be assigned special duties as follows:

A. *Health department.* The health department shall:

1. Make inspections at least quarterly to ascertain the sanitation level of the kitchen, the sanitation level of the residents' rooms, general health of the residents, and general compliance with this chapter. The results of this inspection shall be made available to the provider on forms provided by the health department;
2. Have the responsibility for notifying and confirming annual fire and building inspections, and be responsible for the coordination of plan review and approval, management of complaints and referrals, and the coordination of all required annual inspections, the institution of timely legal action, and the training of providers and staff who manage and operate personal care homes as provided in this chapter;
3. Coordinate its inspections with the department of public health, the state Department of Human Services, and the state Department of Mental Health and Mental Retardation, where applicable and appropriate.

B. *Division of fire services.* The division of fire services shall make inspections as necessary to assure fire safety codes are being enforced. An inspection of all personal care homes shall be made it least one time per year. The health department may request additional inspections with probable cause such as complaints or an observed hazard.

C. *City and county office of planning and development.* The city and county office of planning and development will review and process applications for zoning amendments in accordance with sections 6, 8, 9 or 14 of the Joint Ordinance/Resolution No. 3064, as amended, for residen-

tial homes for the aged, rooming houses, boarding homes, or group shelters which may be called personal care homes.

D. *Bureau of construction code enforcement.* The bureau of construction code enforcement will enforce zoning, electrical, plumbing and structural codes, as may be applicable by the provisions therein, including Joint Ordinance/Resolution No. 3064, section (9)(D)(2), paragraphs 1 and 2. New building, mechanical, and plumbing construction or remodeling of personal care homes shall have plans reviewed and approved by each appropriate department. Owners failing to obtain necessary approval from all departments shall be held liable and subject to citation, whether work had been started or completed.

(Code 1967, § 32-131; Code 1985, § 16-346; Ord. No. 3229, § 1, 8-3-1982)

Sec. 9-72-12. Personal health care home status at enactment of chapter.

Any personal care home in operation on August 31, 1982, shall have two years to come into compliance with standards. Conditions noted as imminent health or safety problems shall require immediate action. The foregoing shall not relieve the provider from complying with applicable zoning laws.

(Code 1967, § 32-132; Code 1985, § 16-347; Ord. No. 3229, § 1, 8-3-1982)

Sec. 9-72-13. Rights of hearing, appeal and legal counsel.

The health officer shall leave a report of his or her findings after each inspection of a personal care home. If violations are found, which, in the opinion of the health officer does not constitute an imminent or immediate health hazard, a report shall state a specified time in which such violations must be corrected. Upon reinspection, persons found in violation by the health officer or his or her representative, of this chapter shall be subject to suspension of permit, administrative hearing and/or court hearing. If the provider disagrees with the health officer's findings, the provider may request an administrative hearing. The provider must request the hearing within five days from the date of notification of a violation, and a hearing on the matter shall be held within 14 days from the date of such violation. The health officer or his or her designated representative will hear the provider's grievance. The provider may represent himself or herself, or may be represented by an attorney of his or her choosing. The decision of the health officer shall be final. Any provider aggrieved by action taken pursuant to this chapter shall have the right to appeal such decision as provided by law. If any violations are found which, in the opinion of the health officer constitutes an immediate or imminent health hazard, such violations shall be immediately corrected.

(Code 1967, § 32-133; Code 1985, § 16-348; Ord. No. 3229, § 1, 8-3-1982)

Sec. 9-72-14. Rules and regulations.

A. The health officer of the health department shall have the authority to establish rules and regulations governing good public health practices, and failure to comply with such instructions procedures shall be grounds for the suspension or revocation of the personal care home permit. Copies of the rules and regulations shall be supplied to personal care homes and operators and available to the public upon request.

B. The regulations for personal care homes, as defined in this chapter, which provide room, board and personal care assistance for mentally ill persons, shall comply with the licensure standards of the state Department of Mental Health and Mental Retardation for supportive living facilities. All other personal care homes, as defined in this chapter, shall comply with the rules of the state Department of Public Health, division of health care facilities for residential homes for the aged.

(Code 1967, § 32-134; Code 1985, § 16-349; Ord. No. 3229, § 1, 8-3-1982)

CHAPTER 9-76. QUASI-PUBLIC AND PRIVATE WATER SUPPLIES*

Sections:

Sec. 9-76-2.	Well digger's permit.
Sec. 9-76-3.	Permit to operate and maintain private supply.
Sec. 9-76-4.	Approval of plans and specifications for private supply.
Sec. 9-76-5.	Approval of plans and specifications for sewer work on property served by private supply.

***Charter references—**General authority relative to water, § 413; city-county water control board, §§ 413.1—413.6.

Sec. 9-76-6. Location, construction and operation of private supplies.
Sec. 9-76-7. Inspection of private supplies.
Sec. 9-76-8. Location, construction and operation of wells generally.
Sec. 9-76-9. Location of wells in street, alley or public place.
Sec. 9-76-10. Filling of abandoned or condemned wells.
Sec. 9-76-11. Approval of auxiliary intake.
Sec. 9-76-12. Connections with public supply generally.
Sec. 9-76-13. Equipment to prevent commingling with public supply.
Sec. 9-76-14. Independent piping system for nonpotable supply—Statement as to nonexistence of cross connections.
Sec. 9-76-15. Posting of signs where potential danger of contamination of a quasi-public supply exists.
Sec. 9-76-16. Limitation on use of water.
Sec. 9-76-17. Rules and regulations of health department.
Sec. 9-76-18. Chapter not to affect power of light, gas and water division.
Sec. 9-76-19. Installation of individual water meters on newly constructed residential rental units.

Sec. 9-76-1. Definitions.

For the purposes of this chapter, the following definitions shall apply:

Abandoned well is any well that has been voluntarily abandoned for further use because of outliving its usefulness.

Auxiliary intake is any piping connection or device whereby water may be secured from a source other than that normally used.

Condemned well is any well which pollutes or contaminates or tends, in the judgment of the department of health, to pollute the water stratum and which cannot be corrected, in the judgment of the department of health, to prevent pollution or contamination.

Cross connection is any physical connection whereby a potable water system, whether public or private, is connected with another water supply either inside or outside of any building in such manner that a flow of water into the potable supply is possible, either through the manipulation of valves or because of ineffective check or back pressure valves, or for any other cause.

Light, gas and water division means the light, gas and water division of the city.

Potable water supply means any public, quasi-public or other water supply of a quality approved by the department of health as being safe for human consumption.

Private water supply means the source from which water is obtained and all structures, conduits and appurtenances by means of which the water is collected and treated, stored and delivered to the consumers.

Quasi-public water supply is any water supply used or made available by a person to his or her employees, tenants, members or guests for drinking, or, in connection with the manufacturing or handling of ice, foods, or drinks, such as: candy, ice cream, milk, ice, bottled drinks and any other or drink products. The source of a quasi-public water supply may be a private well or the city public water supply.

Shallow well is a well that is constructed to a depth shallower than the stratum of blue clay which is found just above the water bearing sands known as the Grenada formation. This stratum of blue clay in and adjacent to the city is usually intercepted at a depth of approximately 100 feet extends to a depth of from 200 to 300 feet.
(Code 1967, § 32-102; Code 1985, § 16-396)

Sec. 9-76-2. Well digger's permit.

No person shall engage in drilling, boring, digging or other constructing or repairing wells in the city without a permit from the department of health. Such permit shall be granted by the health department to any person upon application properly approved by the health officer, and such permit shall be in force and effect for one year from the date of its issuance. The health officer shall have the power and it shall be his or her duty to revoke any permit issued where it is made to appear that the provisions of this chapter have been violated by the person engaged in well construction. The holder of such permit shall, after such revocation, have the right of appeal to the city council.
(Code 1967, § 32-103; Code 1985, § 16-397)

Sec. 9-76-3. Permit to operate and maintain private supply.

A. No person shall operate or maintain a private water supply until a permit therefor has been issued by the department of health, which permit shall not be valid for longer than one year and may be renewed at the expiration thereof upon payment of the fees hereinafter

set out. All permits shall be in writing. Such permit may be revoked by the health officer upon the violation by the holder of any of the terms of this chapter, or in any emergency when, in the judgment of the health officer, the continued operation of the private water supply will be a public health menace. The holder of such permit, after such revocation, shall have the right of appeal to the city council.

B. The yearly permit to operate or maintain a private water supply shall not be issued until an inspection fee is paid each year to the department of health. A fee of $100.00 shall be paid by the owner of one private water supply well, whether shallow, deep, abandoned or condemned. An additional charge of $25.00 shall be paid for each additional well whether operating or not. The fee shall be due and payable on or before January 31 of each year.
(Code 1967, § 32-104; Code 1985, § 16-398; Ord. No. 352, § 1, 12-3-1968)

Sec. 9-76-4. Approval of plans and specifications for private supply.

Before work is commenced on the construction of any new well or private water supply, or any additions, alterations or changes, including cross connections, treatment, settling and storage tanks, aerators, wells, suction lines and any other part of such private water supply listed in any regulations adopted by the department of health, complete plans and specifications, accompanied by such pertinent data as may be required, shall be submitted, by the owner or his or her agent, to the department of health, and no part of the work shall be commenced until the department has given its written approval.
(Code 1967, § 32-105; Code 1985, § 16-399)

Sec. 9-76-5. Approval of plans and specifications for sewer work on property served by private supply.

Before any work is commenced on the construction of any sewers, sewage treatment plants, or any part of the sewerage system constructed underground, or any additions, alterations or major changes to an existing sewerage system on private property on which there is a private water supply, complete plans and specifications, accompanied by such pertinent data as may be required, shall be submitted by the owner or his or her agent to the department of health, and no part of the work shall be commenced until the department of health has given its written approval; provided that, this does not include changes and repairs to plumbing in buildings and above the ground which is controlled by the plumbing inspector of the city.
(Code 1967, § 32-106; Code 1985, § 16-400)

Sec. 9-76-6. Location, construction and operation of private supplies.

All private water supplies shall be properly located, constructed and operated, and be of an approved quality.
(Code 1967, § 32-107; Code 1985, § 16-401)

Sec. 9-76-7. Inspection of private supplies.

All private water supplies shall be open for inspection at all times by the health officer or the light, gas and water division.
(Code 1967, § 32-108; Code 1985, § 16-402)

Sec. 9-76-8. Location, construction and operation of wells generally.

A. All wells shall be located, constructed and operated in accordance with the rules and regulations adopted by the department of health, and the water shall be of a safe, sanitary quality.

B. No well shall be located close enough to any existing or proposed well of the light, gas and water division of the city to materially affect the static head of water from the underground strata of any such well or proposed well of the public supply.
(Code 1967, § 32-109; Code 1985, § 16-403)

Sec. 9-76-9. Location of wells in street, alley or public place.

A. No well shall be located in a street, alley or public place out a permit from the city council.

B. Any person making application for a permit to construct a well in any street, alley, or other public place shall be required, as a condition precedent to the issuance of such permit, to agree that if at any time subsequent to the construction of such well it shall become necessary for the city to use such street, alley, or other public place, for any public purpose, such person shall, within 90 days after the receipt of notice from the city, abandon, dismantle, and fill such well, at his or her own expense.
(Code 1967, § 32-110; Code 1985, § 16-404)

Sec. 9-76-10. Filling of abandoned or condemned wells.

The health department may order the owners to fill up any abandoned or condemned well.
(Code 1967, § 32-111; Code 1985, § 16-405)

Sec. 9-76-11. Approval of auxiliary intake.

No auxiliary intake for a potable water supply shall be made or permitted unless the source and use of the auxiliary supply, and the location and arrangement of the intake, shall be approved by the department of health.
(Code 1967, § 32-112; Code 1985, § 16-406)

Sec. 9-76-12. Connections with public supply generally.

A. It is unlawful for any person to cause a connection to be made or allow a connection to exist for any purpose whatever between the distribution system of the light, gas and water division, and any private water supply, unless the quality of such private water supply, and the interconnection of the two supplies, shall be approved, in writing, by the department of health.

B. It is unlawful for any engineer, plumber or other tradesman or workman, or any other person, to make any cross connection between the water supply of the light, gas and water division and any other water supply, or between any quasi-public water supply and any other water supply, unless written approval by the department of health has been given.

C. Whenever a cross connection between the light, gas and water division water supply and a private water supply has been made, the premises shall at all times be open for inspection by any agent or representative of the light, gas and water division, and of the health officer or of any officer or representative of the department of health, and, if on inspection, it is found that the city water supply might become contaminated through such cross connection because of some potential danger of contamination to the other water supply, then the light, gas and water division shall have the right to discontinue the city water service upon such premises upon written recommendation by the health officer that such discontinuance should be effected.
(Code 1967, § 32-113; Code 1985, § 16-407)

Sec. 9-76-13. Equipment to prevent commingling with public supply.

Whenever a cross connection may be made or now exists between the water supply of the light, gas and water division and any quasi-public water supply, such quasi-public water supply shall be equipped with gate valves, check valves and bleeder or test valves for the purpose of preventing the commingling of water, except as when desired, and to insure the means of immediate and complete separation during any possible emergency when commingling would not be approved. Such valve or valves must be installed by the owner of private supply in such a manner as to meet the approval of the department of health and the light, gas and water division.
(Code 1967, § 32-114; Code 1985, § 16-408)

Sec. 9-76-14. Independent piping system for nonpotable supply—Statement as to nonexistence of cross connections.

A. Whenever the water supply of the light, gas and water division or a quasi-public water supply is used for drinking and a nonpotable water supply is used for fire protection, industrial or other purposes, such nonpotable water supply shall be distributed through an independent piping system having no cross connection with the water supply of the light, gas and water division, or the quasi-public water supply, and shall not be rendered available for drinking or other personal or domestic uses.

B. Any person whose premises are supplied with water from the light, gas and water division, and who shall also have on the same premises a separate source of water supply that is nonpotable, but is circulated through a piping system, shall file with the light, gas and water division a statement of the nonexistence of cross connections.
(Code 1967, § 32-115; Code 1985, § 16-409)

Sec. 9-76-15. Posting of signs where potential danger of contamination of a quasi-public supply exists.

Whenever the potential danger of contamination of a quasi-public water supply is sufficient to be considered an emergency by the health officer, he or she shall have the right to post signs at all faucets, fountains or other places where people might drink, or prohibit the use of this water for drinking or in connection with the prepa-

ration of any ice, food or drink, until such time as the necessary protection changes are made and approved by the health department.
(Code 1967, § 32-116; Code 1985, § 16-410)

Sec. 9-76-16. Limitation on use of water.

The use of all water pumped by private or quasi-public water supplies for industrial and drinking purposes shall be limited to reasonable use. The term "reasonable use" shall be defined as that use of water which is ordinarily required by industries, firms and individuals in the usual operation of their business. It shall also include such water as may be reasonably necessary for cooling, refrigeration and air conditioning, subject however, to the limitations and conditions herein mentioned. The amount of water reasonably necessary for the purposes mentioned herein may be determined by the effect the use of the same, when combined with similar uses by others, may have on the available water supply and on the sewerage system available for the carrying off of waste water. In all cases where it will be feasible for private water supplies to reuse water for cooling through the use of cooling towers, evaporative condensers or some other such device, the health department may require the use of some such device in order to conserve the amount of water taken from the water bearing strata from which the public drinking water supply is obtained and to limit, so far as practicable, the amount of waste water which must be handled by the public sewer system. The city engineer may require the use of cooling towers, evaporative condensers or some other such device in all such conditions existing prior to the passage of this chapter in order to conserve the amount of water taken and to limit the amount of waste water handled by the public sewer system. In any and all cases that might arise due to the drilling of new wells in which the existing public sanitary or storm sewer available is too small to handle the additional load, then such waste water must be handled in some other manner satisfactory to the city engineer.
(Code 1967, § 32-117; Code 1985, § 16-411)

Sec. 9-76-17. Rules and regulations of health department.

The health department may make such rules and regulations, not inconsistent with this chapter or with the constitution or laws of the state, as may from time to time be necessary to carry out the purpose of this chapter.
(Code 1967, § 32-118; Code 1985, § 16-412)

Sec. 9-76-18. Chapter not to affect power of light, gas and water division.

Nothing in this chapter shall be construed as affecting the duty and power of the light, gas and water division of protecting the purity of the water supply of the city.
(Code 1967, § 32-119; Code 1985, § 16-413)

Sec. 9-76-19. Installation of individual water meters on newly constructed residential rental units.

A. *Definitions*. For purposes of this section, the following definitions shall apply:

Apartment means a residential rental unit consisting of one or more rooms with a private bath and kitchen facilities comprising an independent, self-contained residential unit in a building.

Apartment complex means two or more apartments in one or more buildings that are owned by the same owner, located on the same lot or tract, and managed by the same owner, agent or management company.

Condominium means the ownership of single units in a multiple unit structure or structures with common elements.

Master meter means a utility owned meter that measures and totalizes the volume of water flowing from the water distribution system into an apartment complex or newly constructed condominium.

Newly constructed condominium means:

1. Any structure for which a building permit for construction of a condominium is issued on or after July 1, 2014; or

2. Any existing apartment that is converted into a condominium on or after July 1, 2014.

B. The developer or condominium owner shall provide for individually metered water service to each unit in a newly constructed condominium. A master meter shall not satisfy the requirement in this subsection (B).

C. If the owner of an apartment complex fails to pay any water bill issued to the owner by MLGW, then MLGW shall notify the local code enforcement entity of the impending cut-off simultaneously with the issuance of the utility's notice of cut-off to the apartment owner.

D. Upon receipt of notification as provided in subsection (C) above, the local code enforcement agency shall inspect the property and take such additional action as may be permitted by federal, state and local law.
(Ord. No. 5545, § 1, 4-1-2014)

Editor's note—At the discretion of the editor, Ord. No. 5545, § 1, adopted Apr. 1, 2014, has been codified as herein set out. Said provisions did not expressly amend the Code.

CHAPTER 9-80. RAT CONTROL

Sections:

Article 1. General Provisions

Sec. 9-80-1. Definitions.
Sec. 9-80-2. Storage of chicken and animal feed.
Sec. 9-80-3. Accumulations of garbage, rubbish or trash providing food or harborage for rats.
Sec. 9-80-4. Accumulations of lumber, boxes, barrels, etc.
Sec. 9-80-5. Exterior property areas—Extermination of insects, rodents, and vermin.
Sec. 9-80-6. Interior structures—Extermination of insects, rodents, and vermin.

Article 2. Business Buildings and Multifamily Dwellings

Sec. 9-80-7. Buildings to be ratproof and rat-free.
Sec. 9-80-8. Inspections.
Sec. 9-80-9. Duty of owner to ratproof upon notice.
Sec. 9-80-10. Duty of occupant to free premises of rats or make repairs upon notice.
Sec. 9-80-11. Cement floors may be required.
Sec. 9-80-12. Removal of ratproofing—Failure to close openings.

ARTICLE 1. GENERAL PROVISIONS

Sec. 9-80-1. Definitions.

For the purposes of this chapter, the following definitions shall apply:

Business building means any structure, whether public or private, that is adapted for occupancy for transaction of business, for rendering of professional service, for amusement, for the display, sale or storage of goods, wares, or merchandise, or for the performance of work or labor, including hotels, rooming houses, office buildings, public buildings, stores, theaters, markets, restaurants, grain elevators, abattoirs, warehouses, workshops, factories, and all outhouses, sheds, barns and other structures on premises used for business purposes.

Multifamily dwelling/apartment house means any building or portion thereof used as a multiple dwelling for the purpose of providing two or more separate dwelling units which may share means of egress and other essential facilities.

Occupant means the individual, partnership or corporation that has the use of or occupies any business building or multifamily dwelling or part or fraction thereof, whether the actual owner or tenant. In the case of vacant business buildings or any vacant portion of a business building or multifamily dwelling, the owner, agent or other person having custody of the building shall have the responsibilities of an occupant of a building.

Owner means the actual owner of a business building, multifamily dwelling/apartment house, single-family dwelling/dwelling unit, or townhouse, whether individual, partnership or corporation, or the agent of the building or other person having custody of the building or to whom rent is paid.

Rat harborage means any condition which provides shelter or protection for rats, thus favoring their multiplication and continued existence in, under or outside of a structure of any kind.

Rat-stoppage or *ratproofing* apply to a form of ratproofing to prevent the ingress of rats into buildings from the exterior or from one building to another. It consists essentially of the closing of all openings in the exterior walls, ground or first floors, basements, roofs and foundations, that may be reached by rats from the ground, by climbing or by burrowing, with material impervious to rat gnawing.

Single-family dwelling/dwelling unit means a single unit providing complete, independent living facilities for one or more persons including permanent provisions for living, sleeping, eating, cooking and sanitation.

Townhouse is a single-family dwelling unit constructed in a series or group of attached units with property lines separating such units.
(Code 1967, § 32-77; Code 1985, § 16-361; Ord. No. 3436, § 1(1—5), 2-19-1985)

Sec. 9-80-2. Storage of chicken and animal feed.

All food and feed kept within the city for feeding chickens, cows, pigs, horses and other animals shall be kept and stored in rat-free and ratproof containers, compartments or rooms, unless kept in a ratproof building.
(Code 1967, § 32-78; Code 1985, § 16-362)

Sec. 9-80-3. Accumulations of garbage, rubbish or trash providing food or harborage for rats.

It is unlawful for any person to place, leave, dump or permit to accumulate any old appliances, demolition materials, garbage, rubbish or trash in any building or premises, improved or vacant, in the city so that same shall or may afford food or harborage for rats.
(Code 1967, § 32-79; Code 1985, § 16-363; Ord. No. 387, § 2, 1-12-1971)

Sec. 9-80-4. Accumulations of lumber, boxes, barrels, etc.

It is unlawful for any person to permit to accumulate on premises, improved or vacant, any lumber, boxes, barrels, bricks, stones or similar materials, unless the same are placed on open racks that are elevated not less than 18 inches above the ground, and evenly piled or stacked so that these materials will not afford harborage for rats.
(Code 1967, § 32-80; Code 1985, § 16-364)

Sec. 9-80-5. Exterior property areas—Extermination of insects, rodents, and vermin.

Every owner of a dwelling or multifamily dwelling shall be responsible for the extermination of insects, rodents, vermin, or other pests in all exterior areas of the premises, except that the occupant shall be responsible for such extermination in the exterior areas of the premises of a single-family dwelling. Whenever infestation exists in the shared or public parts of the premises of other than a single-family dwelling, extermination shall be the responsibility of the owner.
(Code 1985, § 16-365; Ord. No. 3436, § 1(6), 2-19-1985)

Sec. 9-80-6. Interior structures—Extermination of insects, rodents, and vermin.

A. Buildings used for human occupancy shall be kept free from insect and rodent infestation, and where insects or rodents are found, they shall be promptly exterminated by the owner by acceptable processes which will not be injurious to human health. After extermination, proper precautions shall be taken to prevent reinfestation.

B. Every owner of a dwelling or multifamily dwelling shall be responsible for the extermination of insects, rodents, vermin, or other pests in the shared or public parts of the structure.

C. The occupant of a single-family dwelling unit shall be responsible for such extermination, excluding termites, within the unit occupied by the occupant. However, the owner shall be responsible for such extermination within each unit of a multifamily dwelling.

D. Notwithstanding the foregoing provisions, whenever infestation of rodents is caused by failure of the owner to maintain any dwelling or multifamily dwelling in a rodent-proof condition, extermination of such rodents shall be the responsibility of the owner.
(Code 1985, § 16-366; Ord. No. 3436, § 1(6), 2-19-1985)

ARTICLE 2. BUSINESS BUILDINGS AND MULTIFAMILY DWELLINGS

Sec. 9-80-7. Buildings to be ratproof and rat-free.

A. All business buildings or multifamily dwellings in the city shall be ratproofed, freed of rats, and maintained in a ratproof and rat-free condition under the direction and supervision of the health officer.

B. It is unlawful to erect any business building or multifamily dwelling in the city unless the same is equipped with ratproofing.

C. The occupants of all ratproofed business buildings or multifamily dwellings are required to maintain the premises in a ratproof and rat-free condition and to repair all breaks or leaks that may thereafter occur.
(Code 1967, § 32-86; Code 1985, § 16-376)

Sec. 9-80-8. Inspections.

The health officer is empowered to make such unannounced inspections of the interior and exterior of business buildings or multifamily dwellings as, in his or her opinion, may be necessary to determine full compliance with this chapter. The health officer shall make periodic inspections of all rat-stopped buildings to determine evidence of rat infestation and the existence of new breaks or leaks and when any evidence is found indicating the presence of rats the health officer shall serve the occupants with notices or orders to abate the conditions found.
(Code 1967, § 32-87; Code 1985, § 16-377)

Sec. 9-80-9. Duty of owner to ratproof upon notice.

A. Upon receipt of written notice from the health officer, the owner of any business building or multifamily dwelling specified therein shall take immediate measures for ratproofing the building, and unless such work has been completed in the time specified in the written notice, in no event to be less than 15 days, or within the time to which a written extension may have been granted by the health officer, then the owner shall be guilty of a misdemeanor.

B. If the owner fails to comply with such written notice or extension, then the health officer is authorized and directed to take such action as may be necessary to completely ratproof the building at the expense of the owner, and the health officer shall submit bills for the costs thereof to the owner of the building, and if the same are not paid, the health officer shall certify the amount due from the owner to the city attorney, and the city attorney shall bring suit to collect the same. The expense thereof shall include the cost of labor, materials, and equipment necessary for ratproofing and the bills for the same may be rendered monthly or upon completion of work.
(Code 1967, § 32-88; Code 1985, § 16-378)

Sec. 9-80-10. Duty of occupant to free premises of rats or make repairs upon notice.

Whenever the health officer notifies, in writing, the occupant of a business building or multifamily dwelling theretofore ratproofed that there is evidence of rat infestation of the building, or that the ratproofing of the building is in need of repair, the occupant shall immediately institute appropriate measures for freeing the premises of all rats and making such repairs. Unless suitable measures for freeing the building of rats are instituted within three days after the receipt of notice and unless continuously maintained in a satisfactory manner until the building is free of rats, the health officer is authorized and directed to free the building of rats and make the necessary repairs at the expense of occupant thereof, and the health officer shall submit bills for the costs thereof to the occupant of the building, and if the same are not paid the health officer shall certify the amount due from the occupant to the city attorney, and the city attorney shall bring suit to collect the same. The expense thereof shall include the costs of labor, materials and equipment

necessary for eradication measures and to repair the ratproofing and the bills for the same may be rendered monthly or upon completion of the work.
(Code 1967, § 32-89; Code 1985, § 16-379)

Sec. 9-80-11. Cement floors may be required.

Whenever conditions inside or under business buildings or multifamily dwellings provide such extensive harborage for rats that the health officer deems it necessary to eliminate such harborage, he or she may require the owner to install suitable cement floors in basements or to replace wooden first or ground floors or require the owner to correct such other interior rat harborage as may be necessary in order to facilitate the eradication of rats in a reasonable time and thereby to reduce the cost thereof.
(Code 1967, § 32-90; Code 1985, § 16-380)

Sec. 9-80-12. Removal of ratproofing—Failure to close openings.

It is unlawful for the occupant, owner, contractor, public utility company, plumber or any other person to remove ratproofing from any business building or multifamily dwelling for any purpose and fail to restore the same in a satisfactory condition or to make any new openings that are not closed or sealed against the entrance of rats.
(Code 1967, § 32-91; Code 1985, § 16-381)

CHAPTER 9-84. SELF-SERVICE GASOLINE STATIONS

Sections:

Sec. 9-84-1. Compliance required—Attendant's duties—No smoking restrictions.
Sec. 9-84-2. Customers authorized to dispense flammable and combustible liquids into approved containers only.
Sec. 9-84-3. Required equipment.
Sec. 9-84-4. Coin-operated vending devices—Use of automatic shutoff nozzle with hold-open latch.
Sec. 9-84-5. Application of chapter.

Sec. 9-84-1. Compliance required—Attendant's duties—No smoking restrictions.

A. No customer or person other than the owner, manager or employed attendant shall dispense or be permitted to dispense gasoline or other Class 1 flammable liquid, as defined in the National Fire Protection Association Standard No. 30, at service stations or garages, or from pumps or devices from which the public is served, except in accordance with the provisions, conditions, limitations and instructions hereinafter provided.

B. Any such establishment permitting the dispensing of gasoline or other flammable liquid by customers or by any person other than the owner, manager or employed attendant, shall be under the control and supervision of no less than one employed attendant on duty at all times while such establishment is open to the public.

C. Such attendant's primary function shall be supervising the dispensing of gasoline and similar liquids at such establishments, collecting therefor, and maintaining the premises in safe condition.

D. The attendants shall constantly remain within the confines of such service stations and in a position to be in full view at all times of every portion of such station where gasoline or similar liquid is dispensed.

E. Such attendants shall refuse service to any customer who is smoking or who appears, for any reason, to be unable or incompetent to participate in the dispensing of gasoline.

F. Such attendants shall be thoroughly instructed in the operation of all equipment of such stations, including the pumps, fire extinguishers and emergency cutoff switches, and shall be thoroughly instructed concerning safety regulations for dispensing gasoline and similar flammable liquids.

G. Such attendants must enforce no-smoking restrictions and require that customers shut off their engines and follow safe practices generally.

H. 1. Unmanned self-service stations shall be permitted, subject to the following conditions:

a. Listed dispensing devices shall be used. (NFPA 30A, section 9-5.2).

b. Emergency controls shall comply with Standard Fire Code, 1994, section 907.4.6.

c. Operating instructions shall be conspicuously posted in the dispensing area and shall include location of emergency controls and a requirement that the user must stay outside of his or her vehicle, in view of the fueling nozzle during dispensing (NFPA 30A, section 9-5.4).

d. Emergency instructions shall be conspicuously posted in the dispenser area incorporating the following or equivalent wording. (NFPA 30A, section 9-5.5):

In case of fire or spill:

Use emergency stop button

Report accident by calling 911 on the phone

Report location.

e. A listed, automatic-closing type hose nozzle valve with latch-open device shall be provided. The system shall include listed equipment with a feature that causes or requires the closing of the hose nozzle valve before the product flow can resume or before the hose nozzle valve can be replaced in its normal position in the dispenser (NFPA 30A, section 9-5.6).

f. A telephone or other approved, clearly identified means to notify the fire department shall be provided on the site in a location approved by the authority having jurisdiction. (NFPA 30A, section 9-5.7) This means of notification shall be monitored by an approved central station and comply with the requirements of NFPA 71.

g. Fire suppression equipment shall be monitored by an approved central station. All dispensing of fuel and filling of tanks shall be prevented, immediately, when the central station monitoring is out-of-service for any reason.

h. The maximum gallonage per vehicle at fleet refueling operations shall not exceed 50 gallons of Class IB liquids (gasoline) per transaction or 250 gallons of Class II liquids (diesel) per transaction. Total gallonage per vehicle per day shall be limited to two transactions per day.

i. Card operated and similar non-monetary vending devices may be used for dispensing Class IB and III liquids at fleet refueling facilities.

2. Source of ignition.

a. Smoking materials, including matches and lighters shall not be used within 20 feet of areas used for fueling, servicing fuel systems for internal combustion engines, or receiving or dispensing of Class I liquids (NFPA 30A, section 9-7).

b. Conspicuous and legible signs prohibiting smoking shall be posted within sight of the customer being served (NFPA 30A, section 9-7).

c. The motors of all equipment being fueled shall be shut off during the fueling operations except for emergency generators, pump, etc., where continuing operation is essential (NFPA 30A, section 9-7).

3. Fire control.

a. Automatic fire suppression systems shall be installed in accordance with appropriate NFPA standards, manufacturers instructions, and the listing requirements of the systems. (NFPA 30A, section 9-8.1) This system shall be monitored by an approved central station and monitoring shall comply with NFPA 71.

b. The fire suppression systems shall provide complete coverage for the hazard including spillage under vehicles.

4. Signs. Warning signs shall be conspicuously posted in the dispensing area incorporating the following or equivalent wording. (NFPA 30A, section 9-9):

Warning

It is unlawful and dangerous to dispense

gasoline into unapproved containers.

No smoking.

Stop motor.

(Code 1967, § 17-91; Code 1985, § 14-71; Ord. No. 745, § 1, 7-28-1970; Ord. No. 3291, § 1, 3-1-1983; Ord. No. 4408, § 1, 6-4-1996; Ord. No. 4766, §§ 1—3, 5-2-2000)

Sec. 9-84-2. Customers authorized to dispense flammable and combustible liquids into approved containers only.

The attendant shall be responsible to insure that the dispensing of flammable or combustible liquids are into containers authorized under the laws of the city. No sale of flammable or combustible liquid shall be made in

containers unless such containers are clearly and permanently marked with the name of the product contained therein.
(Code 1967, § 17-92; Code 1985, § 14-72; Ord. No. 745, § 2, 7-28-1970; Ord. No. 3271, § 1, 3-1-1983)

Sec. 9-84-3. Required equipment.

A clearly identified and easily accessible switch(es) or a circuit breaker(s) shall be provided at a prominent location remote from dispensing devices, including remote pumping systems, to shut off the power to all dispensing devices in event of an emergency. Fire extinguishers must be located next to the emergency cutoff switches and as otherwise required by law.
(Code 1967, § 17-93; Code 1985, § 14-73; Ord. No. 745, § 3, 7-28-1970)

Sec. 9-84-4. Coin-operated vending devices—Use of automatic shutoff nozzle with hold-open latch.

A. Except as authorized herein, all coin-operated, card-operated and similar type automatic customer-operated vending devices for the dispensing of gasoline or other flammable liquids are prohibited.

B. The use of automatic shutoff nozzles with hold-open latches is prohibited where the dispensing of gasoline or other flammable liquids to the tanks of motor vehicles is performed by anyone other than a regularly designated approved employed attendant of the service station, or an individual holding a valid and current driver's license. The owner or operator of the self-service station or center, or his or her representative, shall inspect daily the hold-open latches of the nozzles to insure that they are in proper operating order.
(Code 1967, § 17-94; Code 1985, § 14-74; Ord. No. 745, § 4, 7-28-1970; Ord. No. 2856, §§ 1, 2, 4-17-1979)

Sec. 9-84-5. Application of chapter.

Provisions of this chapter are fully applicable notwithstanding any provision to the contrary which may appear elsewhere in this code.
(Code 1967, § 17-95; Code 1985, § 14-75; Ord. No. 745, § 5, 7-28-1970)

CHAPTER 9-88. SMOKING*

Sections:

Sec. 9-88-1. Definitions.
Sec. 9-88-2. Areas where smoking is prohibited.
Sec. 9-88-3. Exception.
Sec. 9-88-4. Notice requirements.
Sec. 9-88-5. Violations—Penalties.
Sec. 9-88-6. Injunction.

Sec. 9-88-1. Definitions.

As used in this chapter:

Restaurant means any eating place which is open to the public, having a seating capacity of 50 individuals or more.

Smoking includes carrying a lighted cigar, cigarette, cigarillo, pipe, or any other lighted smoking material and/or equipment.
(Code 1967, §§ 17-13, 22-61; Code 1985, § 20-25(a); Ord. No. 2852, § 1, 4-3-1979; Ord. No. 3517, § 1(1)—(4), 2-11-1986)

Sec. 9-88-2. Areas where smoking is prohibited.

Smoking in certain enclosed areas has been determined to be injurious to human health, to constitute a source annoyance and discomfort to nonsmokers, and to be a public nuisance. Therefore:

A. Smoking shall be unlawful and prohibited in:

1. All public elevators;
2. All Memphis Area Transit Authority buses;
3. The Mid-South Coliseum Arena (but allowed in the concourses and lobbies);
4. Dixon-Myers Hall, the Auditorium South Hall, and the Auditorium stage area (but allowed in the lobbies of such facilities);
5. All rooms in the Cook Convention Center designated by its management as nonsmoking meeting rooms;
6. Any theater, hall, hotel, public building, store, warehouse, factory, or on the premises of any establishment, public conveyance or anywhere that smoking is danger-

***State law references—**Local ordinances relating tobacco products, T.C.A. § 39-17-1551; smoking in public places, T.C.A. § 39-17-1801 et seq.

ous, provided signs of a suitable size are posted in such places where they can be seen;

7. All publicly or privately owned restaurants or other eating establishments, as defined herein, except that this prohibition shall not apply to any such eating establishment which maintains a nonsmoking area adequate to meet demand and which informs all patrons that a nonsmoking area is provided. At the request of the patron, the patron shall be seated in the nonsmoking area. This prohibition shall not apply to any rooms while being used for private functions. Notwithstanding the provisions of this subdivision, any owner or person in charge of a business activity governed may designate the restaurant as a nonsmoking area in its entirety;

8. All enclosed areas open to the public in any shopping area of a retail merchandising store, including grocery stores, having more than five employees; however, nothing herein shall prevent areas other than shopping areas from being established for smoking and nonsmoking employees and/or patrons by posting proper signs.

B. Nonsmoking areas shall be designated by the person in charge of all hospital lobbies and waiting rooms. After such designation, smoking is unlawful and prohibited in such areas.

Both the places described in subsection A of this section and the areas designated as nonsmoking areas pursuant to subsection B of this section shall henceforth be referred to as "nonsmoking areas."

(Code 1967, §§ 17-13, 22-61; Code 1985, § 20-25(b); Ord. No. 2852, § 1, 4-3-1979; Ord. No. 3517, § 1(1)—(4), 2-11-1986)

Sec. 9-88-3. Exception.

This chapter is not intended to regulate smoking in retail stores whose sales consist principally of tobacco or tobacco-related product sales.

(Code 1967, §§ 17-13, 22-61; Code 1985, § 20-25(c); Ord. No. 2852, § 1, 4-3-1979; Ord. No. 3517, § 1(1)—(4), 2-11-1986)

Sec. 9-88-4. Notice requirements.

The proprietor or other person in charge of any of the places or areas described in section 9-88-2 shall post and maintain conspicuous signs in all nonsmoking areas, advising the public that smoking is prohibited therein, describing generally the perimeters of the nonsmoking area, and stating the penalty for violation of the prohibition in language similar to the following:

NO SMOKING
(general description of nonsmoking area)
Memphis Code Chapter 9-88
UP TO $50.00 FINE

(Code 1967, §§ 17-13, 22-61; Code 1985, § 20-25(d); Ord. No. 2852, § 1, 4-3-1979; Ord. No. 3517, § 1(1)—(4), 2-11-1986)

Sec. 9-88-5. Violations—Penalties.

Any person or entity who fails to post and maintain the signs required by this chapter is guilty of a misdemeanor punishable by a fine of up to $50.00 per required sign for each day during which a required sign is either not posted or not maintained. Any person who smokes or carries a lighted cigar, cigarette, cigarillo, pipe or any other lighted smoking material and/or equipment in a nonsmoking area is guilty of misdemeanor punishable as provided in section 1-24-1 of this code.

(Code 1967, §§ 17-13, 22-61; Code 1985, § 20-25(e); Ord. No. 2852, § 1, 4-3-1979; Ord. No. 3517, § 1(1)—(4), 2-11-1986)

Sec. 9-88-6. Injunction.

The director of the city and county health department, the director of the city police services division, the director of the city fire services division, or any adversely affected party may institute an action to enjoin repeated violations of this section in any court of competent jurisdiction.

(Code 1967, §§ 17-13, 22-61; Code 1985, § 20-25(f); Ord. No. 2852, § 1, 4-3-1979; Ord. No. 3517, § 1(1)—(4), 2-11-1986)

CHAPTER 9-92. SWIMMING POOLS*

Sections:

Sec. 9-92-1. Definitions.

***State law reference—**Hotel, Food Service and Public Swimming Pool Inspection Act of 1985, T.C.A. § 68-14-301 et seq.

Sec. 9-92-2. Permit.
Sec. 9-92-3. Approval of plans and specifications.
Sec. 9-92-4. Design of pool area.
Sec. 9-92-5. Water requirements generally—Recirculation system.
Sec. 9-92-6. Disinfecting agent.
Sec. 9-92-7. Gaseous chlorine equipment.
Sec. 9-92-8. Dressing rooms—Maintenance of premises.
Sec. 9-92-9. Toilet facilities.
Sec. 9-92-10. Lighting system.
Sec. 9-92-11. Drinking water.
Sec. 9-92-12. Safety of bathers generally.
Sec. 9-92-13. Attendants.
Sec. 9-92-14. Diseased persons not to use pool—Spitting and spouting water prohibited.
Sec. 9-92-15. Common use of suits and towels.
Sec. 9-92-16. Records and reports.
Sec. 9-92-17. Rules and regulations of health department.
Sec. 9-92-18. Publication of grades of sanitary condition.

Sec. 9-92-1. Definitions.

A. The term "public swimming pool," as used in this chapter, means any body of water used for public or semipublic swimming or recreative bathing, which is of artificial or semiartificial construction, including all appurtenances concerning its use, whether operated for the public in general or for a portion of the public, as members of clubs, associations or other organizations.

B. Other terms used in this chapter shall have the meanings usually accorded to them by the health department of this and other cities regulating swimming pools.
(Code 1967, § 31-78; Code 1985, § 16-426)

Sec. 9-92-2. Permit.

A. No person shall operate or maintain a public swimming pool until a permit therefor has been issued by the health department, which permit shall not be valid for longer than one year. A new permit shall be secured at the first of each year or season of operation. All permits shall be in writing and shall state the conditions under which operation shall be maintained and the term for which the permit is allowed.

B. Before a permit is issued by the health department, an annual permit fee of $150.00 shall be paid to the city and county health department. Such fee shall be due on January 1 of each calendar year and shall be paid by January 31.

C. Any permit granted by the health department under the provisions of this section may be revoked by the health department, acting through the health officer, for failure to comply with any of the provisions of this chapter, or whenever, in the opinion of the health officer the further operation under such permit becomes a menace to the health and safety of bathers; provided that, the holder of any permit which has been revoked, feeling aggrieved at the action of the health officer, shall have the right to appeal to the city council and have tried before the council the question of the legality or reasonableness of the action of the health officer. No such appeal shall entitle the continued operation of the pool pending the action of the city council.
(Code 1967, § 31-79; Code 1985, § 16-427; Ord. No. 350, § 1, 12-31-1968; Ord. No. 2956, § 1(1), (2), 12-11-1979)

Sec. 9-92-3. Approval of plans and specifications.

No person shall begin construction of a public swimming pool or substantially alter or reconstruct any such swimming pool, unless plans and specifications therefor have been submitted to and approved by the health department. Such plans and specifications shall be accompanied by supporting data, such as shop drawings of equipment, fittings, skimmers, filters, disinfectant feeders, pump rating curves, etc. The plans shall be prepared by an architect or engineer licensed to practice in the state.
(Code 1967, § 31-80; Code 1985, § 16-428)

Sec. 9-92-4. Design of pool area.

Each public swimming pool area shall be designed in such a manner as to permit the installation of all equipment necessary for the proper operation of same, and so as to give the proper routing and segregation of bathers and spectators.
(Code 1967, § 31-81; Code 1985, § 16-429)

Sec. 9-92-5. Water requirements generally—Recirculation system.

A. No natural body of water which contains sewage or other waste, rendering it dangerous to public health, shall be used as a public swimming pool.

B. Every public swimming pool shall be provided with a sufficient quantity of fresh water which meets the drinking water standards of the health department as to physical, bacteriological and chemical quality. The water

shall show an alkaline reaction all times when the pool is in use. Frequent tests shall be made to insure the water having an alkaline reaction. At all times when the pool is in use, the water shall be sufficiently clear to permit the entire bottom of the pool to be clearly visible from the walkways.

C. A complete recirculating system for swimming pools consists of circulating pumps, chemical dosing equipment (alum and soda ash) or surge tank, float valve control on water supply, pump strainer, chlorinator, brominator, flow meters, pressure gauges, piping connections to inlets and outlets.
(Code 1967, § 31-82; Code 1985, § 16-430)

Sec. 9-92-6. Disinfecting agent.

Some means of disinfecting the water in a public swimming pool shall be used which provides a residual of a disinfecting agent in the pool water.
(Code 1967, § 31-83; Code 1985, § 16-431)

Sec. 9-92-7. Gaseous chlorine equipment.

Where gaseous chlorine equipment is provided in a filter room at a public swimming pool, or in any part of a building which provides housing, the mechanical proportioning and cylinders of chlorine shall be housed in a reasonably gas-tight corrosion-resistant and mechanically vented enclosure.
(Code 1967, § 31-84; Code 1985, § 16-432)

Sec. 9-92-8. Dressing rooms—Maintenance of premises.

All public swimming pools shall be provided with dressing rooms which shall be so constructed and maintained that they will be clean and in a sanitary condition at all times. The buildings and grounds shall be kept free from garbage, trash and other refuse.
(Code 1967, § 31-85; Code 1985, § 16-433)

Sec. 9-92-9. Toilet facilities.

All public swimming pools shall be provided with a sanitary method of excreta disposal, including one or more separate toilets for each sex, and their number and location will be determined by the health department.
(Code 1967, § 31-86; Code 1985, § 16-434)

Sec. 9-92-10. Lighting system.

A complete system of artificial lighting conforming to Article 680 of the National Electric Code 1981 shall be provided for all indoor public swimming pools and for all public swimming pools which are to be used at night.
(Code 1967, § 31-87; Code 1985, § 16-435)

Sec. 9-92-11. Drinking water.

Drinking water furnished at any public swimming pool shall be of a quality approved by the health department and shall be made available by means of sanitary drinking fountains. The use of common drinking cups is forbidden.
(Code 1967, § 31-88; Code 1985, § 16-436)

Sec. 9-92-12. Safety of bathers generally.

All reasonable precautions shall be taken at public swimming pools to protect the bathers from injury or accident. Convenient means of ingress and egress shall be provided. The various depths of the water and any irregularities of the bottom shall be clearly indicated on both sides of the pool. Safety appliances such as life buoys, life hooks, bamboo poles or ropes, and equipment, including first aid kits, shall be provided and be readily accessible.
(Code 1967, § 31-89; Code 1985, § 16-437)

Sec. 9-92-13. Attendants.

A sufficient number of attendants shall be on duty when a public swimming pool is in use. Such attendants shall be capable swimmers competent in life saving methods and trained in methods of artificial resuscitation.
(Code 1967, § 31-90; Code 1985, § 16-438)

Sec. 9-92-14. Diseased persons not to use pool—Spitting and spouting water prohibited.

No person having any skin eruptions or abrasions, sore or infected eyes, cold, nasal or ear discharge, or any communicable disease shall be permitted to use any public swimming pool. Spitting, spouting of water, or blowing the nose in the pool shall strictly prohibited. Suitable placards embodying such personal regulations and instructions shall be conspicuously posted.
(Code 1967, § 31-91; Code 1985, § 16-439)

Sec. 9-92-15. Common use of suits and towels.

Suits and towels for common use at a public swimming pool shall be thoroughly laundered and dried after each usage in such manner as to meet the requirements of the health department.
(Code 1967, § 31-92; Code 1985, § 16-440)

Sec. 9-92-16. Records and reports.

Such records concerning the operation of a public swimming pool shall be kept as may be required by the health department reports shall be submitted to the health department as required.
(Code 1967, § 31-93; Code 1985, § 16-441)

Sec. 9-92-17. Rules and regulations of health department.

The health department shall make such rules and regulations as may be necessary in its judgment to meet the requirements of public swimming pool sanitation, and to preserve the safety and health of the bathers. Such rules and regulations, when adopted by the health department, shall be printed and copies thereof delivered to all operators of public swimming pools and to such other persons as may request the same. When such rules have been duly adopted and printed, they shall constitute a part of the requirements imposed upon operators of public pools by this chapter, and for any violation of such rules and regulations or any failure to comply therewith, any permit to operate may be revoked by the health officer under the provisions of section 9-92-2.
(Code 1967, § 31-94; Code 1985, § 16-442)

Sec. 9-92-18. Publication of grades of sanitary condition.

The health department may, from time to time, publish grades of the sanitary condition of public swimming pools.
(Code 1967, § 31-95; Code 1985, § 16-443)

CHAPTER 9-94. VACANT/ABANDONED PROPERTY

Sections:

Article 1. Property Registration Requirements

Sec. 9-94-1. Purpose; definitions.
Sec. 9-94-2. Vacant property registration.
Sec. 9-94-3. Registration of real property upon vacancy, abandonment, and tax delinquency.
Sec. 9-94-4. Compliance.

ARTICLE 1. PROPERTY REGISTRATION REQUIREMENTS

Sec. 9-94-1. Purpose; definitions.

A. *Purpose and intent.* It is the purpose and intent of the City of Memphis ("city") to establish a process to address the deterioration and blight of city neighborhoods caused by an increasing amount of abandoned, foreclosed or distressed real property located within the city, and to identify, regulate, and reduce the number of abandoned properties located within the city. It is the city's further intent to establish vacant property registration requirements as a mechanism to protect neighborhoods from becoming blighted due to the lack of adequate maintenance and security of abandoned and foreclosed real property.

B. *Definitions.* The following words and terms shall have the meanings set forth in this section, except where otherwise specifically indicated.

Abandoned real property means any real property that is vacant, is subject to unauthorized occupancy, and has been determined by evidence of an affidavit by an agent or officer of the City of Memphis Housing Code Enforcement.

Willful and intentional mean the failure to register or take the necessary actions to register as required under this chapter after three successful attempts by a housing code official to notify the responsible party of their responsibility to register under this chapter. Such actions shall constitute a rebuttable presumption that the responsible party has willfully and intentional[ly] failed to register as required under this chapter.

Evidence of vacancy means any condition that on its own, or combined with other conditions present, would lead a reasonable person to believe that the property is vacant. Such conditions may include, but are not limited to: overgrown and/or dead vegetation; electricity, water or other utilities turned off; stagnant swimming pool; or statement by neighbors, passers-by, delivery agents or government agents.

Foreclosure means the judicial or non-judicial process by which a property, placed as security for a mortgage loan, is to be sold at an auction to satisfy a debt upon which the borrower has defaulted.

Material change in ownership is defined for purposes of this chapter as any change in ownership, whether of record or not, which results in a new party assuming responsibility:

1. For care and maintenance;
2. For receipt of notice and/or service of process; or
3. For acting as agent for the owner of record of the subject property.

Mortgage means any consensual lien created by a written instrument which grants or retains an interest in real estate to secure a debt or other obligation. The term includes, without limitation:

1. Mortgages securing reverse mortgage loans;
2. Mortgages securing revolving credit loans;
3. Every deed conveying real estate, although an absolute conveyance in its terms, which shall have been intended only as a security in the nature of a mortgage; and
4. Equitable mortgages.

Mortgagee means:

1. The holder of an indebtedness or oblige of a non-monetary obligation secured by a mortgage or any person designated including mortgage servicers or authorized to act on behalf of such holder, including mortgage servicers;
2. Any person claiming through a mortgage as successor; and
3. Any person identified as such in a recorded document which has not been released, assigned, or superseded of record.

Mortgagor means the person whose interest in the real estate is the subject of the mortgage and any person claiming through a mortgagor as successor. Where a mortgage is executed by a trustee of a land trust, the mortgagor is the trustee and not the beneficiary or beneficiaries.

Owner means any person who alone, jointly, or severally with others:

1. Has legal title to the property, with or without accompanying actual possession thereof;
2. Has charge, care or control of the property as owner or agent of the owner or an executor, administrator, trustee or guardian of the estate of the owner; or
3. Is the agent or the owner for the purpose of managing, controlling the property or collecting rents, or is any other person managing or controlling the property or is any person entitled to the control or direction of the management or disposition of the property. This article definition excludes real estate listing agents when acting exclusively in that capacity.

Property means any real, residential, commercial or industrial property, or portion thereof, located within the City of Memphis, including buildings or structures situated on the property.

Residential property means buildings of three stories or less in height where the whole building or parts thereof are designed or used as residential units or auxiliary uses to a residential unit.

Vacant means any building or structure that is not lawfully occupied or inhabited as evidenced by the conditions set forth in the definition of "evidence of vacancy" (see section 9-94-1(B)) and as defined in T.C.A. § 13-21-202.

C. *Applicability.*

1. These sections shall be considered cumulative and not superseding or subject to any other law or provision for same, but rather an additional remedy available to the city, above and beyond any other state, county or local provisions.
2. Parties identified as owners in subsection (B) above will not be fined or held liable for fines (under the doctrine of agency) in cases where their principal is disclosed and is identified by subsection (B).

(Ord. No. 5477, § 1, 4-2-2013)

Sec. 9-94-2. Vacant property registration.

Pursuant to the authority of T.C.A. § 6-54-113 and in addition to the requirements of section 9-94-3 set forth

herein, the City of Memphis or its designee shall establish a vacant property registry and require registration by the mortgage holder of single family residential real property, including condominiums within the City of Memphis upon notice of vacancy, abandonment (vacancy), and tax delinquency.
(Ord. No. 5477, § 1, 4-2-2013)

Sec. 9-94-3. Registration of real property upon vacancy, abandonment, and tax delinquency.

A. Any mortgagee who holds a mortgage on single family residential housing, including condominiums located within the City of Memphis, shall, register the property within 30 days of a notice of a declaration of vacancy, abandonment and tax delinquency as well as other housing code violations pursuant to a sworn affidavit by a City of Memphis Housing Code Official. The sworn affidavit shall be issued by the housing code official after reasonable observation and monitoring of the property. In addition, the housing code official shall also state under oath that after a reasonable and diligent search of all Shelby County public records, the said housing code official has not been able to determine the correct name and address of the mortgagee. Upon completing and filing the said affidavit with the department of code enforcement, a notice to register will be issued pursuant to the standards set forth in T.C.A. § 13-21-202. A separate registration is required for each property parcel.

B. *Cure prior to registration.* If within 30 days after notification of vacancy, abandonment and tax delinquency by a City of Memphis Housing Code Official pursuant to section 9-94-4(A), a mortgagee shows proof of payment of all tax delinquencies, no registration will be required for that notification.

C. *Registration requirements.* Registration pursuant to this section shall require the mortgagee to provide the name of mortgagee and the servicer, the direct mailing address of the mortgagee and the servicer, a direct contact name and telephone number for each, facsimile number and e-mail address for each, the folio or tax number, and the contact name and telephone number of the person responsible for the security and maintenance of the property. The owner shall be required to provide his direct mailing address, a direct contact name and telephone number, facsimile number and e-mail address, and the folio or tax number where applicable. Upon notification of vacancy by code enforcement both the mortgagee, or his designated agent, and the property owner shall be responsible for compliance with this article whether the vacancy occurred through default, foreclosure, vacancy, or otherwise.

D. *Annual registration fee for vacant, abandoned, and, tax delinquent property.* A non-refundable annual registration fee in the amount of $200.00 per property parcel, shall accompany the registration forms as provided by the City of Memphis. The registration fee shall be paid by the mortgagee or his agent.

E. *Registration of transferred property.* This section shall also apply to properties that have been the subject of a foreclosure sale where the title was transferred by the mortgagee, or its agent, or when any property is transferred under a deed in lieu of foreclosure/sale, or quit claim deed, or by transfer, whether filed with the register of deeds or not, and, upon transfer of ownership upon the death of a prior owner.

F. *Duration of registration for vacant, abandoned, and tax delinquent property.* Properties subject to this section shall remain under all registration requirements and maintenance standards of the department of housing code enforcement as long as the property remains vacant, abandoned, and tax delinquent. Property may be removed from the registry upon verification by the City of Memphis or its designee of cure of vacancy, abandonment or tax delinquency; and cure of any existing code violations, with title vested in an owner of record.

G. *Reporting changes in service, property conditions, mortgage status, etc.* Any person or legal entity that has registered a property under this section must report any change of information contained in the registration pursuant to section 9-94-3(C) within ten days of the change.

H. *Limited reporting requirements.* No release of private information shall be required if the release of such information would constitute a violation of any federal or state privacy law. In such event where the city requires such information, the city shall seek such private information by way of application to a court of competent jurisdiction.

I. *Service.* Service of notice under this section shall be:

1. Mailed to the mortgagee and owner at their last known addresses as it appears in Shelby County public records;

2. Posted on the property in a conspicuous location; or

3. Published at least three weeks in a newspaper of general circulation in Shelby County, providing that the first publication is 30 days before the hearing date.

(Ord. No. 5477, § 1, 4-2-2013)

Sec. 9-94-4. Compliance.

A. *Failure to comply.* Failure of the mortgagee and/or owner to properly register or to modify the registration from time to time to reflect a change of circumstances as required by this article is a violation of this article and shall be subject to enforcement and/or the levy of administrative fee of $50.00 per violation. Where the failure to register is found to be willful and intentional, then the administrative fee of $50.00 shall continue to be assessed daily until corrected.

B. *Exceptional penalty provision.* Upon reasonable cause to believe a deliberate attempt by a mortgagee to evade, conceal or otherwise not identify its true ownership or lienholder interest in a vacant property as certified by the department of code enforcement, the city may petition a court of competent jurisdiction to order that notice of any further transfer of title, ownership or interest to said property shall be filed with the City of Memphis Department of Code Enforcement.

C. *Description of violation: Civil penalty.* Any violation of section 9-94-3(A)—(G) of this article shall result in the levy of an administrative fee of $50.00 per violation payable by the mortgagee and subject to a continual violation where section 9-94-4(A) applies. This administrative fee amount shall not be increased without written justification presented at a hearing before the Memphis City Council, and by passage of a super majority (9) of the council.

D. *Collections and use of funds.* All funds collected under this chapter, sections 9-94-1 through 9-94-4, including fines and fees, are to be reserved for the use of the office of code enforcement for the removal of blight in the City of Memphis.

(Ord. No. 5477, § 1, 4-2-2013)

CHAPTER 9-96. WEEDS AND REFUSE

Sections:

Sec. 9-96-1. Definitions.
Sec. 9-96-2. Duty of property owner to cut and clean—Penalty.
Sec. 9-96-3. Height to which grass must be cut.
Sec. 9-96-4. Notice to property owner to cut and clean.
Sec. 9-96-5. Cutting and cleaning by city.
Sec. 9-96-6. Notice to remove refuse from property.
Sec. 9-96-7. Cleaning by city.

Sec. 9-96-1. Definitions.

As used in this chapter:

Abandoned is any tangible personalty or property left unclaimed for a period of 30 days or more without any identifiable ownership and its presence raises a presumption of abandonment by owner of property upon which the personalty is found, left unattended in an obvious state of disrepair or declared by owner of property as worthless or not under his or her ownership.

Cut and clean means cutting and removal of grass and/or rank grass and the clearing of the area from which such cuttings were made, the removal of all substances found upon the ground, the removal of noxious growth, tree branches, saplings, bushes, vines, undergrowth, abandoned foundations, abandoned piles of trash or any abandoned material, or tangible personalty which causes an obstruction to view of premises from the street, thoroughfare, or alleyway.

Hazardous substances and conditions means any element, chemical compound or otherwise which is a physical or health hazard as defined in the OSHA standard in 29 CFR, No. 1910-120(c) or a hazardous substance as defined in the OSHA standards in 29 CFR No. 1901-120(d), or any county health department regulation, which provides the opportunity to expose unsuspecting city grounds maintenance employees, grass cutter personnel, and other humans, particularly children, and animals.

Nuisance means a structure, building, portion of building, foundations, in such a state of deterioration or abandonment that it is a blighting influence on neighboring properties. The fact that such buildings or structures on neighboring properties are abandoned or deteriorated is not a defense.

Refuse is a comprehensive term meaning any worthless leaving to be discarded, on protected or unprotected lots, vacant or structured, including, but not limited to, garbage, all putrescible substances, bulky refuse, rubbish, undergrowth, (to include bushes, vines, saplings), household fixtures, furniture, cartons, boxes, excelsior,

rags, building/construction materials, abandoned materials (in bulk) such as residue from burning of wood, coal, coke, ashes, firewood, tree trunk/hazardous limbs/branches, gravel, tar, macadam, concrete, plaster, glass, plasterboard, tiles, and industrial or hazardous waste, are left by benign neglect for a period of 30 days or more.

Tangible personalty includes personal property such as goods, chattels and other articles which are capable of manual or physical possession, machinery and equipment detachable from real property, growing crops, pastures, orchards, plants, trees, timber, poles conduits, asphalt, macadam, rock, stone, and brick products.

Urban blight means a condition existing on property without apparent or patent supervision by an owner or tenant so that the exterior of property is in disrepair, or contains unduly amounts of high weeds, tall grass, unkept greenery and undergrowth (to include trees, saplings, vines, bushes), about the premises creating an invitation to dust, obstructions to view, harboring of unauthorized persons or animals, vermin, health problems, promotes vandalism, danger to innocent passerby, illicit drug traffic or illegal activity, and is detrimental to the immediate neighborhood.

Weeds, grass and noxious growth shall not be interpreted to require the property owner to dispose of, or cut down growing trees, shrubs, or crops on his or her property. Weeds and noxious growth shall, however, include: (1) trees, shrubbery and rank grasses, due to neglect, that overhang either the city streets or walkways abutting the city streets; or (2) weeds and rank grass, left unattended for a period of time creating urban blight and a nuisance.

(Code 1967, § 22-53.2; Code 1985, § 16-456; Ord. No. 837, § 1, 1-12-1971; Ord. No. 4724, § 1, 12-7-1999; Ord. No. 4978, § 1, 12-3-2002)

Sec. 9-96-2. Duty of property owner to cut and clean—Penalty.

A. The owner or owners of all lands or lots in the city shall keep all weeds, rank grass and noxious growth of any kind upon such property cut or clipped to prevent a nuisance and urban blight.

B. Failure to carry out the provisions of this chapter shall be considered a misdemeanor subject to punishment as provided in section 1-24-1 of this code.

C. For the convenience of property owners, the weed section of the general services division will maintain a list of persons in the business of cutting grass and weeds and will supply such names on request of a property owner.

(Code 1967, § 22-53; Code 1985, § 16-457; Ord. No. 837, § 1, 1-12-1971; Ord. No. 4724, § 1, 12-7-1999; Ord. No. 4978, § 1, 12-3-2002)

Sec. 9-96-3. Height to which grass must be cut.

A. Small tracts of land, whether improved or unimproved, within the city shall be maintained to insure that weeds, rank grass and noxious growth do not exceed a height of not more than 12 inches. "Small tracts" are defined as building lawns, sidewalk, neutral strips, walkways, gardens, decorative landscaped areas and unimproved lots of two acres or less.

B. Grass walkways abutting the city streets shall be kept mowed to a height not exceeding six inches.

C. Large tracts of land, whether improved or unimproved within the city shall be maintained to insure that weeds, rank growth, and noxious growth do not exceed 12 inches during the growing season. "Large tracts" are defined as unimproved property of a size two acres in area or larger, except, that if large tracts are adjacent to improved residential property, they shall be maintained to the same standards as small tracts within 130 feet of such improved residential property.

D. Any tract maintained in a natural state or as a wilderness area may be exempt from cutting by the director of general services, except for the requirements of provisions hereinabove mentioned.

(Code 1967, § 22-53.1; Code 1985, § 16-458; Ord. No. 837, § 1, 1-12-1971; Ord. No. 4724, § 1, 12-7-1999; Ord. No. 4978, § 1, 12-3-2002)

Sec. 9-96-4. Notice to property owner to cut and clean.

A. Upon the failure of any owner of property within the city to cut, or have cut, weeds, rank grass or noxious growths, it shall be the duty of the grounds maintenance section of the general services division to serve a notice on the owner of such property to cut or to have cut, within five days of the service of such notice, all weeds, grass, or noxious growth upon his or her property. Such notice: (1) may be served personally on the owner of the property; (2) may be mailed to the last known address of

such owner by registered or certified mail; or (3) may be posted on the property on which such weeds, grass or noxious growths exist.

B. Service of notice by any of the above methods shall be due notice to such owner.

C. 1. Service of notice under the provisions of subsection A of this section, shall be required of the city only one time during a growth season and shall be deemed to be sufficient, satisfactory and

legal notice to the property owner for any further violations during the balance of that growth season.

2. "Growth season" is defined to be that period of time between May 1 and September 30 of each calendar year.

D. Should the owner or responsible tenant in charge fail to cut and clean the property following notice as set out above, city forces under supervision of director of general services reserves the right to enter the premises for the purpose of removing abandoned tangible personalty, weeds, rank grass and noxious growths to prevent hazard conditions, nuisances, and urban blight.
(Code 1967, § 22-54; Code 1985, § 16-459; Ord. No. 837, § 1, 1-12-1971; Ord. No. 4724, § 1, 12-7-1999; Ord. No. 4978, § 1, 12-3-2002)

Sec. 9-96-5. Cutting and cleaning by city.

A. In addition to the penalty provided for in section 1-24-1 of this code, upon the failure of any owner of lots or lands in the city to cut or cause to be cut weeds, grass or noxious growths upon the property described in the notice mentioned in section 9-96-4 within five days thereof, the weed section of the general services division is authorized and directed to have such weeds, grass and noxious growths cut, and a statement of the cost thereof shall be filed with the director of finance or his or her designee. A lien is declared on such property for all costs and expenses of cutting incurred by the weed section of the general services division. Work performed under this section by the city may be accomplished by cutting or by chemical control, and with city forces or by retention of services from a private contractor to perform on the city's behalf in accordance with the city's contracting and purchasing procedures.

B. Upon receipt of the statement of costs of cutting weeds or chemical control of grass or noxious growths pursuant to this action, the director of finance may transmit a true copy thereof the city attorney, who shall forthwith institute suit or take such other proceedings as may be necessary to enforce the lien on such property.

C. All uncollected costs for cutting or chemical control of weeds, grass or noxious growths for the current year shall be certified to the city treasurer on or before December 31 of each year. It shall be the duty of the city treasurer to collect, as a special tax, the amount so certified at the time city taxes levied against properties on which the cutting or chemical control was done for the next succeeding year are collected. The cost of cutting chemical control of weeds, grass and noxious growth pursuant this section is declared to be a special tax to be collected general taxes levied by the city.
(Code 1967, § 22-25; Code 1985, § 16-460; Ord. No. 837, § 1, 1-12-1971; Ord. No. 4724, § 1, 12-7-1999; Ord. No. 4978, § 1, 12-3-2002)

Charter reference—Cutting of weeds by city and collection of cost thereof, §§ 424, 425.

Sec. 9-96-6. Notice to remove refuse from property.

A. Upon the failure of any owner of property within the city to remove refuse from his or her property and dispose of it in accordance with the law, it shall be the duty of the general services division to serve a notice on the owner of such property to clean the property within five days of the service of such notice. Such notice may be served personally on the owner by registered or certified mail, or may be posted on the property on which such refuse exists.

B. Service of notice by any of the above methods shall be due notice to such owner.

C. 1. Service of notice under the provisions of subsection A of this section shall be required of the city only one time during a calendar year; and shall be deemed to be sufficient, satisfactory and legal notice to the property owner of any further violations during the balance of that calendar year.

2. "Calendar year" is defined to be that period of time between January 1 and December 30 of each calendar year.

D. Should the owner or responsible tenant in charge fail to remove all refuse, tangible property, or urban blight from the property following notice as set out below, city forces under the supervision of the director of general services reserves the right to enter the premises for the purpose of removing refuse and abandoned tangible personalty, to prevent nuisances and urban blight.
(Code 1967, § 22-58; Code 1985, § 16-471; Ord. No. 837, § 1, 1-12-1971; Ord. No. 4724, § 1, 12-7-1999; Ord. No. 4978, § 1, 12-3-2002)

Sec. 9-96-7. Cleaning by city.

A. In addition to the penalty provided for in section 1-24-1 of this code, upon failure of any owner of lots or lands in the city to clean the property described in the

notice mentioned in section 9-96-6 within five days thereof, the general services division is authorized and directed to have such work done and a statement of the costs thereof shall be filed with the director of finance or his or her designee. A lien is declared on such property for all costs and expenses incurred by the city.

B. Upon receipt of the statement of costs of cleaning property by city forces or by contract pursuant to this section, the director of finance or his or her designee may transmit a true copy thereof to the city attorney, who shall forthwith institute suit or take such other proceedings as may be necessary to enforce the lien on such property.

C. All uncollected costs for the current year shall be certified to the city treasurer on or before December 31 of each year. It shall be the duty of the city treasurer to collect, as a special tax, the amount so certified at the time city taxes levied against properties from which the refuse was removed for the next succeeding year are collected. The cost of cleaning property by city forces or by contract pursuant to this section is declared to be a special tax to be collected as general taxes levied by the city.
(Code 1967, § 22-59; Code 1985, § 16-472; Ord. No. 837, § 1, 1-12-1971; Ord. No. 4724, § 1, 12-7-1999)

CHAPTER 9-100. CITATIONS FOR HEALTH AND SANITATION VIOLATIONS

Sections:

Sec. 9-100-1. Definitions.
Sec. 9-100-2. Designation of health and sanitation personnel as special employee officers.
Sec. 9-100-3. Scope of authority.
Sec. 9-100-4. Failure to sign citation ticket.
Sec. 9-100-5. Failure of offender to appear for trial.
Sec. 9-100-6. Authority of special employee officers retained.

Sec. 9-100-1. Definitions.

For the purposes of this chapter the following definitions are applicable:

Citation is any ticket issued to a person showing the offense charged and signed by the person agreeing to appear at the time and place indicated.

Employee officer is any employee designated by the health director/officer of the Memphis and Shelby County health department to issue citations.

Health director/officer is the executive officer in charge of the Memphis and Shelby County health department.

Ordinance summons is process issued by the city court and signed by the judge or the clerk, as provided for in section 280 of the Charter of the City of Memphis.

Person is any person found violating any sections of this title, and the term "offender" wherever used shall be synonymous with the word "person."
(Code 1985, § 16-500; Ord. No. 3817, § 1, 10-18-1988)

Sec. 9-100-2. Designation of health and sanitation personnel as special employee officers.

The health director/officer may designate certain employees to be special employee officers of the municipality for the purpose of issuance of citations or complaints in lieu of arrest of offenders in such cases as they have jurisdiction.
(Code 1985, § 16-501; Ord. No. 3817, § 1, 10-18-1988)

Sec. 9-100-3. Scope of authority.

When employees are so designated, they are, in lieu of arrest, authorized to issue citation tickets, ordinance summons, and legal process. In the event the form of such citation ticket includes information and is sworn to, as required by general laws of the state, with respect to a complaint charging the commission of the offense alleged in such citation ticket when filed with a court or a branch or a court having jurisdiction, it shall be deemed to be a lawful complaint for the purpose of prosecution under the section specified.
(Code 1985, § 16-502; Ord. No. 3817, § 1, 10-18-1988)

Sec. 9-100-4. Failure to sign citation ticket.

In the event any person fails to comply with a citation ticket given to such person, or refuses to sign the ordinance summons, then the special employee officer in whose presence the violation is committed may have a summons issued by the clerk of the city court or the special employee officer may seek the assistance of a police officer to witness the violation who may issue a

citation in lieu of arrest for the violation, or to make arrest for failure to sign the citation, as provided in T.C.A. § 7-63-104.
(Code 1985, § 16-503; Ord. No. 3817, § 1, 10-18-1988)

Sec. 9-100-5. Failure of offender to appear for trial.

It is unlawful for any person to violate his or her written promise, given to an employee officer upon the issuance of a citation ticket, to appear regardless of the disposition of the charge for which such citation ticket was originally issued, and failure of the offender to appear for trial after signing of the ordinance summons agreement shall cause the court having jurisdiction thereof to issue a warrant against the offender, as provided for in T.C.A. § 7-63-105.
(Code 1985, § 16-504; Ord. No. 3817, § 1, 10-18-1988)

Sec. 9-100-6. Authority of special employee officers retained.

Nothing herein contained shall be construed as removal of the designated special employee officer's authority to make arrest for violations under his or her jurisdiction, and it shall be the duty of all police officers to render any assistance necessary.
(Code 1985, § 16-505; Ord. No. 3817, § 1, 10-18-1988)

CHAPTER 9-104. FACE COVERING/MASK REQUIREMENTS

Sections:

Sec. 9-104-1. Short Title.
Sec. 9-104-2. Legislative findings and intent.
Sec. 9-104-3. Requirements for wearing face coverings.
Sec. 9-104-4. Exemptions from requirements for wearing face coverings.
Sec. 9-104-5. Violations.
Sec. 9-104-6. Administration and enforcement.
Sec. 9-104-7. Miscellaneous.
Sec. 9-104-8. Definitions.

Sec. 9-104-1. Short title.

This chapter shall be known as the "Face Covering/ Mask Ordinance."
(Ord. No. 5751, § 1, 6-16-2020)

Sec. 9-104-2. Legislative findings and intent.

A. Tennessee General Assembly has declared the State's policy that safeguarding the life and property of its citizens is an innate responsibility of the governing body of each political subdivision of the state;

B. The council, as the governing body of the city, does hereby find, declare and conclude that it has the power and duty under the city's Charter:

1. To pass all laws to preserve the health of the city;
2. To prevent the introduction of contagious diseases within the city; and
3. To define, prevent, remove and cause to be abated nuisances within the city;

C. The council, as the governing body of the city, does hereby further find, declare and conclude that it has the power and authority under State statutes to take whatever prudent action is necessary to ensure the health, safety, and welfare of the community during a declared state of emergency and that this chapter is adopted pursuant to State policy and the authority granted it under State statutes and the city's Charter;

D. The council does hereby find and declare that this chapter is based on evidence of increasing occurrence of COVID-19 within the city, the State of Tennessee, and the United States of America and on scientific evidence, and best practices regarding the most effective approaches to slow the transmission of communicable diseases generally and COVID-19 specifically;

E. The council does hereby find and declare that this chapter is also issued in light of the existence, as of May 27, 2020, of a cumulative total of 4,703 confirmed cases of infection by the COVID-19 virus and 102 deaths in Shelby County, of which over 65 percent of the confirmed cases and over 68 percent of deaths are African-American citizens;

F. It is the intent of this chapter:

1. To help reduce the spread of the COVID-19 virus and mitigate the impact of the virus on members of the public and on the delivery of critical healthcare services to those in need. All provisions of this chapter must be interpreted to effectuate this intent.
2. To ensure that all people who are visiting or working at essential businesses and all people

who are seeking care at healthcare facilities or engaged in certain types of public transit or transportation with others wear a face covering to reduce the likelihood that they may transmit or receive the COVID-19 virus.

3. To ensure that people who work for or seek services from entities engaged in essential infrastructure work, minimum basic operations, or essential government functions also wear a face covering when they are in close proximity to others.

4. To create environments where employees, customers and members of the public may feel safe in visiting and/or working in essential businesses, essential government functions and healthcare operations.

(Ord. No. 5751, § 2, 6-16-2020)

Sec. 9-104-3. Requirements for wearing face coverings.

A. Specific requirement for wearing face coverings. All members of the public, except as specifically exempted herein, are required to wear a face covering outside their home or other place they reside in the following specific situations:

1. When they are inside of, or in line to enter, any essential business including, but not limited to, grocery stores, convenience stores, supermarkets, laundromats, and restaurants;

2. When they are inside of, or in line to enter, any non-essential business as defined in this chapter.

3. When they are inside or at any location or facility engaging in seeking or receiving essential government functions, including but not limited to City Hall or other city buildings and facilities;

4. When they are at the entrance to and inside elevators in all public and private buildings;

5. When they are engaged in essential infrastructure work;

6. When they are obtaining services at healthcare operations—including hospitals, clinics, COVID-19 testing locations, dentists, pharmacies, blood banks and blood drives, other healthcare facilities, mental health providers, or facilities providing veterinary care and similar healthcare services for animals—unless directed otherwise by an employee or worker at the healthcare operation; or

7. When they are waiting for or riding on public transportation (including without limitation any bus, MATA, street car or paratransit or are in a taxi, private car service, or ride-sharing vehicle.

8. Each driver or operator of any public transportation or paratransit vehicle, taxi, or private car service or ride-sharing vehicle must wear a face covering while driving or operating such vehicle, regardless of whether a member of the public is in the vehicle, due to the need to reduce the spread of respirator droplets in the vehicle at all times.

9. All essential businesses, non-essential businesses, as well as entities and organizations with workers engaged in essential infrastructure work, or essential government functions (except for healthcare operations, which are subject to their own regulation regarding specified face coverings), must:

   a. Require their employees, contractors, owners, and volunteers to wear a face covering at the workplace and when performing work off-site any time the employee, contractor, owner, or volunteer is:

      i. Interacting in person with any member of the public;

      ii. Working in any space visited by members of the public, such as by way of example and without limitation, reception areas, grocery' store or pharmacy aisles, service counters, public restrooms, cashier and checkout areas, waiting rooms, service areas, and other spaces used to interact with the public, regardless of whether anyone from the public is present at the time;

      iii. Working in any space where food is prepared or packaged for sale or distribution to others; working in or walking through common areas such as hallways, stairways, elevators, and parking facilities; or

iv. In any room or enclosed area when other people (except for members of the person's own household or residence) are present.

v. Take reasonable measures, such as posting signs, to remind their customers and the public of the requirement that they wear a face covering while inside of or waiting in line to enter the business, facility, or location. Essential businesses and entities or organizations that engaged in essential infrastructure work must take all reasonable steps to prohibit any member of the public who is not wearing a face covering from entering and must not serve that person if those efforts are unsuccessful.

B. Reusable face coverings or masks must remain clean and sanitary via regular washing and daily disinfecting.
(Ord. No. 5751, § 3, 6-16-2020)

Sec. 9-104-4. Exemptions from requirements for wearing face coverings.

A. A face covering is not required, but is strongly encouraged, when a person is not in any of the specific situations identified in subsection 9-104-3(A).

B. A face covering is not required when a person is in a personal office (a single room) when others outside of that person's household are not present as long as the public does not regularly visit the room. By way of example and without limitation, a construction worker, plumber, bank manager, accountant, or bike repair person is not required to wear a face covering if that individual is alone and in a space not regularly visited by the public, but that individual must put on a face covering when coworkers are nearby, when being visited by a client/customer, and anywhere members of the public or other coworkers are regularly present.

C. A face covering is not required after a person has been seated in a restaurant or bar or similar facility, but is strongly recommended when a person is ordering food or drink or otherwise interacting with workers or other customers at the restaurant or bar or similar facility.

D. Any child aged two years or less must not wear a face covering because of the risk of suffocation. This chapter does not require that any child aged 12 years or less wear a face covering. Parents and caregivers must supervise use of face coverings by children to avoid misuse.

E. Wearing a face covering is recommended but not required while engaged in outdoor recreation such as walking, hiking, bicycling, or running. But each person engaged in such activity must comply with social distancing requirements including maintaining at least six feet of separation from all other people to the greatest extent possible. Additionally, it is recommended that each person engaged in such activity bring a face covering and wear that face covering in circumstances where it is difficult to maintain compliance with social distancing requirements and that they carry the face covering in a readily accessible location, such as around the person's neck or in a pocket, for such use.

F. Because running or bicycling causes people to more forcefully expel airborne particles, making the usual minimum six feet distance less adequate, runners and cyclists must take steps to avoid exposing others to those particles, which include the following measures: wearing a face covering when possible; crossing the street when running to avoid sidewalks with pedestrians; slowing down and moving to the side when unable to leave the sidewalk and nearing other people; never spitting; and avoiding running or cycling directly in front of or behind another runner or cyclist who is not in the same household.

G. This chapter does not require any person to wear a face covering while driving in a motor vehicle, but is highly recommended if other persons who are not part of the driver's family are present.

H. A face covering is also not required by this chapter to be worn by a particular individual if the person can show either: (1) a medical professional has advised that wearing a face covering may pose a risk to the person wearing the mask for health-related reasons; or (2) wearing a face covering would create a risk to the person related to their work as determined by local, state, or federal regulators or workplace safety guidelines; or because the person suffers from a medical condition that prevents that person from wearing a face covering.

I. A face covering should also not be used by anyone who has trouble breathing or is unconscious, incapacitated, or otherwise unable to remove the face covering without assistance.
(Ord. No. 5751, § 4, 6-16-2020)

Sec. 9-104-5. Violations.

The council does hereby expressly find and declare that this chapter is necessary to slow the rate of spread of COVID-19 in the city, especially among its most vulnerable citizens. Failure to comply with any of the provisions of this chapter constitutes an imminent threat and immediate menace to public health, especially and therefore is declared to be a public nuisance, which is a Class C Misdemeanor that is punishable in the manner set forth herein or is subject to other extraordinary legal remedies available to the city to eliminate and/or abate public nuisances.
(Ord. No. 5751, § 5, 6-16-2020)

Sec. 9-104-6. Administration and enforcement.

A. Pursuant to the city's Charter, the mayor, by virtue of his office, is the chief executive officer of the city government, and each and every department thereof, and as such, shall have under his control and be charged with the duty of supervising and compelling the performance of duties by all other officers and employees. The mayor is required to see that provisions of the city's Charter and ordinances are obeyed and enforced.

B. Notwithstanding any city ordinance to the contrary, whenever any emergency occurs, or any rare or unusual disease appears, or when any disease becomes unduly prevalent, the mayor, in consultation with a medical professional selected by him, shall have the power to employ any measures necessary for the protection of the public health; and the mayor shall have the power, by proclamation, to establish quarantine and contact tracing measures and to promulgate such rules and regulations as may be necessary to combat such emergencies, including rules and regulations for persons residing in, entering or leaving the city, and the regulation of property, and he or she shall have power to make such expenditures as may be necessary for such purposes.

C. The mayor shall be authorized to appoint his officers, assistants and employees to enforce the rules and regulations promulgated by the mayor under the provisions of this chapter. Any person who violates any such regulation, or who fails to carry out any lawful order of the mayor or his designee(s) in such emergencies, shall be guilty of a misdemeanor.

D. Whenever the mayor deems it necessary to carry out the provisions of this chapter, the mayor shall have the power to call upon the chief of police services for a detail of officers, and the director of police shall furnish such officers, and the officers so detailed shall act under the direction of the mayor for the purpose of carrying out the provisions of this chapter or any proclamation or regulation issued by the mayor to abate any public health nuisances and may issue citations for violations hereof.

E. The municipal courts of the city shall have jurisdiction over any citations issued for violations of this chapter.

F. The fines or penalties that may be assessed by the city's municipal courts against individual violators shall be as follows:

1. First offense - warning.
2. There shall be no monetary fines or criminal penalties assessed for violations of this chapter by individuals.

G. Chapter 1, section 1-24-1 of the Memphis Code of Ordinances is hereby amended to add a new subsection C, which shall provide that court fees for violation of the face coverings/mask ordinance by individuals shall not exceed $20.00 per violation, which may be waived upon completion of the community service requirement.

H. In order to remedy continuing violations of this chapter the mayor shall be authorized to assess civil penalties against any business or entity after such business or entity has been issued a warning for violating section 9-104-3(A) of this chapter or any health directive on three separate occasions in an amount of $100.00 per successive violation and the mayor shall also be authorized to seek restraining orders or injunctive relief in courts of appropriate jurisdiction to abate any continuing health nuisances that have occurred and are continuing in violation of section 9-104-3(A) of this chapter or any health directive.

I. The council shall be expressly authorized to modify by resolution the fines and penalties required by this chapter.

J. The mayor shall be authorized to create, operate and/or contract with non-profit organizations, who are providing community services to the public during an infectious disease pandemic to coordinate and report community services performed by violators of this chapter.

K. The mayor is requested to develop and post on the city's website a sample sign to be used by essential business and governmental operations for notifying customers and the public of the need to comply with the requirements of this chapter for wearing face coverings.

L. The mayor is authorized to use any available federal COVID-19 funding for implementation of this chapter, including but not limited to compensation of inspectors and other employees whose services are substantially dedicated to mitigation of the COVID-19 public health emergency as provided in this chapter or for the provision of masks to small businesses, public transportation vehicles and for use by visitors to public buildings and facilities. The mayor is authorized to coordinate with the Shelby County Health Department in the use and deployment of city personnel assigned to mitigation of the COVID-19 public health emergency hereunder.

M. The mayor is authorized to establish a system for employees of essential and non-essential businesses to report the failure of an employer to provide masks for their work and for members of the public to report violations of this chapter, any executive orders or health directives relating to the operations of businesses and activities during an infectious disease pandemic, which may include telephone hot-lines and/or internet systems. (Ord. No. 5751, § 6, 6-16-2020)

Sec. 9-104-7. Miscellaneous.

This chapter shall remain in effect only during a declared public health emergency. Except as provided in this chapter, all health directives issued by the Shelby County Health Department and Health Officer shall be obeyed and observed by all persons and businesses. (Ord. No. 5751, § 7, 6-16-2020)

Sec. 9-104-8. Definitions.

A. *Essential businesses* are:

1. Healthcare operations and businesses that operate, maintain, or repair essential infrastructure;
2. Grocery stores, certified farmers' markets, farm and produce stands, supermarkets, food banks, convenience stores, and other establishments engaged in the retail sale of unprepared food, canned food, dry goods, non-alcoholic beverages, fresh fruits and vegetables, pet supply, fresh meats, fish, and poultry, as well as hygienic products and household consumer products necessary for personal hygiene or the habitability, sanitation, or operation of residences. The businesses included in this subparagraph (ii) include establishments that sell multiple categories of products provided that they sell a significant amount of essential products identified in this subparagraph, such as liquor stores that also sell a significant amount of food;
3. Food cultivation, including farming, livestock, and fishing;
4. Businesses that provide food, shelter, and social services, and other necessities of life for economically disadvantaged or otherwise needy individuals;
5. Construction:

Affordable housing that is or will be income-restricted, including multi-unit or mixed-use developments containing at least ten percent income-restricted units;

Public works projects;

Shelters and temporary housing, but not including hotels or motels;

Projects immediately necessary to provide critical noncommercial services to individuals experiencing homelessness, elderly persons, persons who are economically disadvantaged, and persons with special needs;

Construction or repair necessary to ensure that residences and buildings containing essential businesses are safe, sanitary, or habitable to the extent such construction or repair cannot reasonably be delayed;

6. Newspapers, television, radio, and other media services;
7. Gas stations and auto-supply, auto-repair (including, but not limited to, for cars, trucks, motorcycles and motorized scooters), and automotive dealerships;

8. Bicycle repair and supply shops;

9. Banks and related financial institutions;

10. Service providers that enable residential transactions (including rentals, leases, and home sales), including, but not limited to, real estate agents, escrow agents, notaries, and title companies;

11. Hardware stores;

12. Plumbers, electricians, exterminators, and other service providers who provide services that are necessary to maintaining the habitability, sanitation, and operation of residences and essential businesses, but not for cosmetic or other purposes;

13. Arborists, landscapers, gardeners, and similar service professionals, but only to the limited extent necessary to maintain the habitability, sanitation, operation of businesses or residences, or the safety of residents, employees, or the public (such as fire safety or tree trimming to prevent a dangerous condition);

14. Businesses providing mailing and shipping services, including post office boxes;

15. Educational institutions—including public and private K-12 schools, colleges, and universities;

16. Laundromats, drycleaners, and laundry service providers;

17. Restaurants and other facilities that prepare and serve food, including schools and other entities that typically provide free food services to students or members of the public, but only for delivery or carry out, unless authorized for in person service pursuant to a state, county or city back-to-business order;

18. Businesses that supply other essential businesses with the support or supplies necessary to operate;

19. Businesses that have the primary function of shipping or delivering groceries, food, or other goods directly to residences or businesses. This exemption shall not be used to allow for manufacturing or assembly of non-essential products or for other functions besides those necessary to the delivery operation;

20. Airlines, taxis, rental car companies, rideshare services (including shared bicycles and scooters), and other private transportation providers providing transportation services necessary for essential activities;

21. Home-based care for seniors, adults, children, and pets;

22. Residential facilities and shelters for seniors, adults, and children;

23. Professional services, such as legal, notary, or accounting services;

24. Services to assist individuals in finding employment with essential businesses;

25. Moving services that facilitate residential or commercial moves;

26. Childcare facilities providing services that enable owners, employees, volunteers, and contractors for essential businesses or essential governmental functions to work as permitted. Children of owners, employees, volunteers, and contractors who are not exempt under this order may not attend childcare facilities.

B. *Essential government functions* means all services needed to ensure the continuing operation of the government agencies and provide for the health, safety and welfare of the public.

C. *Essential infrastructure*, means airports, utilities (including water, sewer, gas, and electrical), oil refining, roads and highways, public transportation, solid waste facilities (including collection, removal, disposal, and processing facilities), cemeteries, mortuaries, crematoriums, and telecommunications systems (including the provision of essential global, national, and local infrastructure for internet, computing services, business infrastructure, communications, and web-based services).

D. *Health conditions* means health conditions, including, but not limited to, high blood pressure, chronic lung disease, diabetes, obesity, asthma, and those whose immune system is compromised such as by chemotherapy for cancer and other conditions requiring such therapy.

E. *Non-essential businesses* means all brick and mortar retail businesses not otherwise covered by this chapter that are engaged in the sale of goods, products and services to the public, in which ten or more workers are working.
(Ord. No. 5751, § 8, 6-16-2020)

CHAPTER 9-108. COMMERCIAL PROPERTY ASSESSED CLEAN ENERGY AND RESILIENCY (C-PACER) PROGRAM

Sections:

Sec. 9-108-1. Establishment.
Sec. 9-108-2. Definitions.
Sec. 9-108-3. Territory.
Sec. 9-108-4. Program administration.
Sec. 9-108-5. C-PACER financing.
Sec. 9-108-6. C-PACER lien.
Sec. 9-108-7. Application and review.
Sec. 9-108-8. Program guidebook.
Sec. 9-108-9. Collection and enforcement.
Sec. 9-108-10. Fees.
Sec. 9-108-11. Enactment.
Sec. 9-108-12. No liability.

Sec. 9-108-1. Establishment.

There is hereby established within the boundaries of Memphis, Tennessee (the "city") a Commercial Property Assessed Clean Energy and Resiliency ("C-PACER") program (the "program") in accordance with chapter Tenn. Code Ann. §§ 68-205-101 et seq. (the "C-PACER Act"). The city finds that it is convenient and advantageous to establish the program, at no net cost to the city, in order to finance qualified projects (as hereinafter defined), repaid by voluntary annual assessment installment payments on the property benefited by such qualified projects, and that the program is in the public interest, providing for the safety, health, and environmental public benefit, and provides for economic development of the community. The program shall allow financing for the full range of qualified improvements on all eligible properties, as authorized by the C-PACER Act, and shall abide by and operate according to the C-PACER Act.
(Ord. No. 5832, § 1, 8-23-2023)

Sec. 9-108-2. Definitions.

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise:

(1) *Application checklist* means the list of items in a program application required by the C-PACER Act, this chapter, the program guidebook, and the corresponding documentation that the city accepts in order to show the requirements of the C-PACER Act have been met;

(2) *Assessment* means the voluntary agreement of a record owner pursuant to an assessment agreement to allow the city to require the payment of annual assessment installments on their property in an amount sufficient to re-pay C-PACER financing, together with interest, penalties, fees and charges related thereto;

(3) *Assessment agreement* means an agreement between the city and a record owner whereby the city agrees to place an assessment to re-pay C-PACER financing and C-PACER lien on the property to secure the obligation to repay the financing;

(4) *Assessment installment* means annual payments assessed against property to repay C-PACER financing;

(5) *Capital provider* means a private third-party entity, including its designee, successor, and assigns that makes or funds C-PACER financing, including refinancing;

(6) *C-PACER financing* means an investment from a capital provider to a record owner to finance or refinance a qualified project as described under this chapter. The proposed C-PACER financing for a qualified improvement may authorize the record owner to:

a. Purchase directly the related equipment and materials for the installation or modification of a qualified improvement; and

b. Contract directly, including through lease or other service contract, for the installation or modification of a qualified improvement;

(7) *C-PACER lien* means the lien recorded at the Shelby County Register of Deeds on the eligible property to secure the C-PACER financing, which remains on the property until the C-PACER financing is paid in full;

(8) *Eligible property* means (a) privately owned commercial, industrial, or agricultural real property, (b) privately owned residential real property consisting of five or more dwelling units, (c) property owned by nonprofit, charitable, or religious organizations, and (d) property owned by pseudo-governmental organizations such as industrial development corporations, housing authorities, or health educational and housing facility boards. Pawn shops, adult entertainment and product stores, liquor and tobacco stores, payday loan and title loan establishments, as well as other business types determined in the local government's sole discretion shall not be considered commercial property;

(9) *Fair market value* means the as-appraised value, as determined by a state-certified appraiser, as if the property would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or to sell and both having reasonable knowledge of relevant facts;

(10) *financing agreement* means the contract under which a record owner agrees to repay a capital provider through assessment installments for the C-PACER financing including, but not limited to, details of any finance charges, fees, debt servicing, accrual of interest and penalties, and any terms relating to treatment of prepayment and partial payment of the C-PACER financing;

(11) *Local government* means the governing body, any department, or any office within the government for the City of Memphis;

(12) *Program* means the C-PACER program established under this chapter;

(13) *Program administrator* means the party designated by the local government to administer the C-PACER program. This party may be (1) a department or individual within the local government; (2) a quasi-governmental organization, such as an industrial development corporations, housing authorities, or health educational and housing facility boards; (3) a capital provider; or (4) another private and independent third party designated by the local government.

(14) *Program guidebook* means documents that, collectively, are incorporated in exhibit A of this chapter, including the assessment agreement and the notice of assessment interest and C-PACER lien;

(15) *Program application* means the application submitted to demonstrate that a proposed project qualifies for C-PACER financing and for a C-PACER lien;

(16) *Qualified improvement* means a permanent improvement affixed to real property and intended to:

(a) Decrease energy consumption or demand through the use of efficiency technologies, products, or activities that reduce or support the reduction of energy consumption, allow for the reduction in demand, or support the production of clean, renewable energy, including, but not limited to, a product, device, or interacting group of products or devices on the customer's side of the meter that generates electricity, provides thermal energy, or regulates temperature;

(b) Increase resilience and support the production of clean, renewable energy, including through the use of a product, device, or interacting group of products or devices on the customer's side of the meter that generates electricity, provides thermal energy, or regulates temperature;

(c) Decrease water consumption or demand and address safe drinking water through the use of efficiency technologies, products, or activities that reduce or support the reduction of water consumption;

(d) Allow for the reduction or elimination of lead from water that may be used for drinking or cooking;

(e) Increase water or waste water resilience, including through storm retrofits, flood mitigation, and stormwater management, or wind resistance, energy storage, microgrids, and other resilience projects approved by the local government;

(f) Electrical vehicle charging infrastructure;

(g) Conform to requirements of the most recent version of the International Energy Conservation Code adopted by the local government; or

(h) Conform to seismic requirements of the most recent version of the International Building Code adopted by the local government.

(17) *Qualified project* means a project approved by the program administrator, involving the installation or modification of a qualified improvement, including new construction or the adaptive reuse of eligible property with a qualified improvement, including qualified improvements installed no more than two years prior to the date of application. Together, qualified improvements, inclusive of all related and eligible costs pursuant to the C-PACER Act that are to be financed as described in a program application and approved by the program administrator, are a qualified project. If the program administrator is a capital provider, the local government must also approve the project for it be to be a qualified project. The minimum project size for a qualified project is one that costs $1,000,000.00; and

(18) *Record owner* means the owner or owners on title, duly recorded, of a commercial property, the owner listed on the property's legal documents on file or the owner of an estate for years created pursuant to a written ground lease agreement or similar agreement.

The record owner requesting to participate in the program must certify (1) the record owner is the legal owner o the eligible property; (2) the record owner is current on mortgage and property tax payments; (3) the record owner is not insolvent or in bankruptcy proceedings; and (4) the title of the eligible property is not in dispute.
(Ord. No. 5832, § 1, 8-23-2023)

Sec. 9-108-3. Territory.

The program shall be available to all eligible property within the boundaries of the region, in accordance with the C-PACER Act. The region is the areas of the city as shown in the map attached to this chapter.
(Ord. No. 5832, § 1, 8-23-2023)

Sec. 9-108-4. Program administration.

1. Pursuant to the C-PACER Act, the local government designates the economic development growth engine industrial development board of the City of Memphis and the County of Shelby, Tennessee ("EDGE") as the program administrator. If EDGE is no longer the program administrator for any reason, then the local government will either assume the role of public administrator or designate a new third-party entity to serve as public administrator. The program administrator shall review and approve the program applications submitted in accordance with the program guidebook, collect any fees, execute the documents required by the program guidebook to enable C-PACER financing, and record the documents requested by the record owner and capital provider.

2. The program administrator is authorized to impose fees to offset the actual and reasonable costs of administering the program. The fees may be assessed as part of the program application, to be paid by the record owner requesting to participate in the program. Service fees of approved applications must be calculated as one percent of the total amount financed, not to exceed $50,000.00. Service fees retained by a capital provider acting as the designated program administrator must be placed into a reserve account and utilized for costs related to the billing, collection, and enforcement of the special assessment and lien. If the local government does not select a capital provider as its designated program administrator, then the funds must be placed into an account designated by the program administrator.
(Ord. No. 5832, § 1, 8-23-2023)

Sec. 9-108-5. C-PACER financing.

1. C-PACER financing, under the C-PACER Act, is to be provided by capital providers through a financing agreement entered into with the owner of an eligible property to fund a qualified project.

2. The C-PACER financing may include:

a. The cost of the qualified improvement plus the costs of materials and labor necessary for the installation or modification of a qualified improvement;

b. Permit fees;

c. Inspection fees;

d. Financing or origination fees;

e. Program application and administrative fees;

f. Project development and engineering fees;

g. Third-party review fees, including verification review fees;

h. Capitalized interest, in an amount determined by the record owner and the capital provider for a period of years to be determined by the record owner and capital provider;

i. Interest reserves; and

j. Any other fees or costs that may be incurred by the incident to the installation, modification, or improvement of a qualified improvement on a specific or pro rata basis, as determined by the local government.

3. The interest rates imposed upon the assessment are subject to the usury laws of the State of Tennessee and shall not exceed the maximum allowed interest rates. The capital provider may not impose variable interest rates upon the assessment.

4. The assessment of the property, plus existing indebtedness on the property, cannot exceed:

a. Ninety percent of the fair market value of the property prior to the completion of all planned real property improvements, as determined by

a state-certified appraiser, with the exception that properties qualified under the federal low-income housing tax credit program set forth in 26 U.S.C. § 42 are exempt from this requirement; and

b. Twenty-five percent of the fair market value of the property at the time of the completion of all planned real property improvements, as determined by a state-certified appraiser.

5. Prior to entering into a financing agreement, the capital provider must receive written consent from every holder of a deed of trust or mortgage interest in the real property that will be subject to the assessment and C-PACER lien agreeing that the property may participate in the program and that the C-PACER lien will take precedence over all other liens except for a lien for taxes.

6. The period of the special assessment must not exceed the weighted average of the useful life of the qualified project that is the basis for the assessment.

7. Prior to approval of financing on a leasehold owned by this state or the local government, but leased to a privately owned entity as described in T.C.A. § 68-205-102(2)(C), the consent of this state or the local government must be obtained. A change to the leasehold local government must be held harmless if the privately owned entity to which the leasehold is leased defaults on a financing agreement for a leasehold changed in accordance with this section.
(Ord. No. 5832, § 1, 8-23-2023)

Sec. 9-108-6. C-PACER lien.

1. The C-PACER lien amount, plus any interest, penalties, fees and charges accrued or accruing on the C-PACER lien:

a. Takes precedence over all other liens or encumbrances except a lien for taxes imposed by the state, a local government, or a junior taxing district on real property, provided existing mortgage holders, if any, have provided written consent described in section 9-108-5(3); and

b. Is a first and prior lien, equal to the lien for taxes imposed by the state, a local government, or a junior taxing district against the real property on which the C-PACER lien is imposed, from the date on which the notice of the C-PACER lien is recorded until the C-PACER lien, interest, penalties, fees and charges accrued or accruing are paid in full.

2. The C-PACER lien runs with the land, and that portion of the C-PACER lien that has not yet become due is not accelerated or eliminated by enforcement of the C-PACER lien by tax sale or any lien for taxes imposed by the state, a local government, or junior taxing district against the real property on which the C-PACER lien is imposed.

3. Delinquent assessment installments incur interest and penalties as specified in the financing agreement.

4. After the C-PACER lien is recorded as provided in this chapter, the assessment, C-PACER financing and the C-PACER lien may not be contested on the basis that the improvement is not a qualified improvement or that the project is not a qualified project.
(Ord. No. 5832, § 1, 8-23-2023)

Sec. 9-108-7. Application and review.

1. A record owner and capital provider shall complete a program application and submit it to the program administrator for review.

2. The program application shall require:

a. An attestation by the record owner that the project consists of one or more "qualified improvement" as defined by [section] 9-108-2(14).

b. For an existing building seeking improvements:

(a) Where energy or water usage improvements are proposed:

(1) A certification by a licensed engineering firm, engineer, or other qualified professional listed in the program guidebook, with the licensed professional's stamp affixed to the certification, stating that the proposed qualified improvements will either result in more efficient use or conservation of energy or water, the reduction of greenhouse gas emissions, or the addition of renewable sources of energy or water; and

(2) An analysis by a licensed professional explaining how the proposed qualified improvements will either result in more efficient use or conservation of energy or water, the reduction of greenhouse gas emissions, or the addition of renewable sources of energy or water;

(b) Where safe drinking water measures are proposed:

(1) A certification by a licensed professional engineer, with the licensed professional engineer's stamp affixed to the certification, stating that the qualified improvements will result in the reduction of lead in potable water; and

(2) An analysis by a licensed professional engineer explaining how the qualified improvements will result in the reduction of lead in potable water; or

(c) Where resilience improvements are proposed:

(1) A certification by a licensed professional engineer, with the licensed professional engineer's stamp affixed to the certification, stating that the qualified improvements will result in improved resilience and an analysis explaining how the qualified improvements will result in improved resilience; and

(2) An analysis by a licensed professional engineer explaining how the qualified improvements will result in improved resilience and an analysis explaining how the qualified improvements will result in improved resilience.

c. For new construction, an applicant must provide:

(a) A certification by a licensed professional engineer, with the licensed professional engineer's stamp affixed to the certification, stating that the proposed qualified improvements, individually, or acting as a whole, will enable the project to exceed the energy efficiency, water efficiency, renewable energy, renewable water, or resilience requirements of the current building code of the city; and

(b) An analysis explaining how the qualified improvements, individually, or acting as a whole, will enable the project to exceed the energy efficiency, water efficiency, renewable energy, renewable water, or resilience requirements of the current building code of the city.

3. The program administrator shall review the program application according to the application checklist solely to determine whether it is complete, proposes a "qualified improvement," contains no errors on its face, and that all information is provided in the substance and form required by the application checklist. If so, the program administrator shall sign the application checklist indicating that the program application is deemed approved and the project is a qualified project. If a program application is incomplete and/or does not conform to the requirements of the application checklist, the program administrator shall inform the applicant as soon as practicable that the program application is denied, the reasons for the denial, and any corrections that could make the program application acceptable. If feasible, the applicant shall have an opportunity to correct the program application.

4. Upon approval of a program application, a record owner or capital provider shall provide the completed (1) the assessment agreement; (2) the notice of assessment interest and C-PACER lien; (3) Certificate of C-PACER completion; (4) Economic benefits compliance certificate; (5) Energy water resilience compliance certificate; (6) Mortgage holder consent; (7) MLGW compliance certificate, if applicable, and (8) Program application checklist for execution at least ten days prior to close of the C-PACER transaction, along with a requested date for recordation of such forms.

5. The program administrator, on behalf of the local government, shall record in its real property records (1) the assessment agreement; (2) the notice of assessment interest and C-PACER lien; (3) Certificate of C-PACER completion; (4) Economic benefits compliance certificate; (5) Energy water resilience compliance certificate; (6) Mortgage holder consent; (7) MLGW compliance certificate, if applicable, and (8) program application checklist at the date requested by the record owner and

capital provider or, at the request of the record owner and the capital provider, the executed documents may be delegated to the capital provider.

6. For a record owner and capital provider whose program application is denied by the local government's program administrator, either party, or both, may request an adjudicative proceeding before the local government's adjudicative body, consistent with the local government's rules and subject to the applicable provisions of Tennessee's Administrative Procedures Act, Tenn. Code Ann. §§ 4-5-101 et seq.
(Ord. No. 5832, § 1, 8-23-2023)

Sec. 9-108-8. Program guidebook.

1. The C-PACER program shall be administered in accordance with the requirements contained in the program guidebook established by the program administrator from time to time.

2. The program guidebook and forms may be amended by the program administrator without approval by the Memphis City Council, provided that such amendments comply with the C-PACER Act and other applicable law.
(Ord. No. 5832, § 1, 8-23-2023)

Sec. 9-108-9. Collection and enforcement.

1. Collection of assessment installments and enforcement of C-PACER liens due to delinquent assessment installments, including enforcement by tax sale, shall be enforced in the same manner that a property tax lien against commercial property is enforced by the local government.

2. The local government hereby designates the Memphis City Treasurer to collect assessment installments and enforce C-PACER liens due to delinquent assessment installments. The Memphis City Treasurer shall remit any and all assessment installments it collects to the capital provider to whom the payment is due within 90 days of receipt thereof.
(Ord. No. 5832, § 1, 8-23-2023)

Sec. 9-108-10. Fees.

An application fee shall be paid to the local government when the program application is submitted. The amount of the fee shall be determined by the program administrator. Pursuant to the program guidebook, the program administrator shall establish a fee that makes the costs of the C-PACER program cost-neutral to the local government and program administrator provided, however that the fees for any assessment may not exceed one percent of the applicable C-PACER financing and shall not in any case exceed $50,000.00.
(Ord. No. 5832, § 1, 8-23-2023)

Sec. 9-108-11. Enactment.

The provisions of this chapter are hereby declared to be severable and if any section, phrase or provision shall for any reason be declared by a court of competent jurisdiction to be invalid or unenforceable, such declaration shall not affect the validity or enforceability of the remainder of the sections, phrases and provisions hereof. All ordinances, orders, resolutions, and parts thereof in conflict herewith are to the extent of such conflict hereby repealed upon the effectiveness of this chapter. No provision of the Municipal Code or violation of any provision of the Code shall be deemed to impair the validity of this chapter or the instruments authorized by this chapter or to impair the security for or payment of the instruments authorized by this chapter; provided further, however, that the foregoing shall not be deemed to affect the availability of any other remedy or penalty for any violation of any provision of the Code. In the event and to the extent of a conflict between this chapter and the C-PACER Act, the C-PACER Act shall govern.
(Ord. No. 5832, § 1, 8-23-2023)

Sec. 9-108-12. No liability.

Except for a right of action to enforce the terms of this chapter, this chapter does not confer any right of action nor property interest upon any party to a C-PACER transaction against the local government or the program administrator, and, so long as the local government or program administrator comply in good faith with the terms of the C-PACER Act and this chapter, neither the local government nor the program administrator shall incur liability for enacting this program, nor shall the local government, its governing body, executives, or employees nor the program administrator, its governing body, executives, or employees be personally liable as a result of exercising any rights or responsibilities granted under this chapter.
(Ord. No. 5832, § 1, 8-23-2023)

CHAPTER 10-4. STATE MISDEMEANOR STATUTES ADOPTED

Sections:

Sec. 10-4-1. State misdemeanors.

Sec. 10-4-1. State misdemeanors.

A. Any offense made a misdemeanor under the laws of the state, committed within the corporate limits of the city, which the legislative body of the city could, by ordinance, make a misdemeanor by virtue of the charter powers of the city, shall be a misdemeanor.

B. It shall be a misdemeanor against this city for any person to do or cause to be done any act which shall be declared a misdemeanor against the state by legislation hereafter passed, whenever such act is committed within the corporate jurisdiction of the city, after such state legislation has become effective and in force and effect upon the inhabitants of this state.

(Code 1967, § 22-45; Code 1985, § 20-1)

State law reference—Crimes generally, T.C.A. § 39-11-101 et seq.

CHAPTER 10-8. OFFENSES AGAINST PUBLIC PEACE AND DECENCY

Sections:

Sec. 10-8-1. Assault and battery.
Sec. 10-8-2. Disorderly conduct.
Sec. 10-8-3. Disturbing religious or other lawful assemblies.
Sec. 10-8-4. Disturbing or disquieting school students or occupants.
Sec. 10-8-5. Drunkenness in private places.
Sec. 10-8-6. Drunkenness in public places.
Sec. 10-8-7. Malicious mischief.
Sec. 10-8-8. Unlawful assembly.
Sec. 10-8-9. Regulation of drug/gang-related lingering or loitering.
Sec. 10-8-10. Indecent exposure and dress.
Sec. 10-8-11. Gambling.
Sec. 10-8-12. Nudity and sexual activities in public places.

Sec. 10-8-1. Assault and battery.

A. It is unlawful for any person to commit an assault or an assault and battery.

B. Violation of this section shall be a misdemeanor punishable as provided in section 1-24-1.

(Code 1967, § 22-4; Code 1985, § 20-4)

Sec. 10-8-2. Disorderly conduct.

A person is guilty of disorderly conduct when, with intent to cause public inconvenience, annoyance or alarm, or recklessly creating a risk thereof:

A. He or she acts in a violent or tumultuous manner toward another whereby any person is placed in danger of safety of his or her life, limb or health;

B. He or she acts in a violent or tumultuous manner toward another whereby the property of any person is placed in danger of being destroyed or damaged;

C. He or she causes, provokes or engages in any fight, brawl or riotous conduct so as to endanger the life, limb, health or property of another;

D. In a public place, he or she uses abusive or obscene language intending that it be heard by members of the public and uttered with the intention to disturb the hearer;

E. Without lawful authority, he or she disturbs any lawful assembly or meeting or persons with intent to disrupt and deprive others of their right to attend or participate;

F. He or she obstructs vehicular or pedestrian traffic;

G. He or she congregates with another or others in a public place depriving others of the lawful use and refusing to comply with a lawful order of the police to disperse; or

H. By acts of violence interferes with another's pursuit of a lawful occupation or activity.

(Code 1967, § 22-12; Code 1985, § 20-8; Ord. No. 869, § 1, 2-16-1971; Ord. No. 930, § 1, 4-27-1971)

State law reference—Disorderly conduct, T.C.A. § 39-17-305.

Sec. 10-8-3. Disturbing religious or other lawful assemblies.

It is unlawful for any person to disturb or disquiet any congregation or assembly, met for religious or other lawful purpose, by making any noise, or by rude and indecent behavior, or by boisterous or profane discourse within or near such place.

(Code 1967, § 22-15; Code 1985, § 20-9; Ord. No. 931, § 1, 4-27-1971)

State law reference—Disruption of meetings or processions, T.C.A. § 39-17-305.

Sec. 10-8-4. Disturbing or disquieting school students or occupants.

A. It is unlawful for any person while on any public road or street or sidewalk or in any building or structure or on the school premises to willfully interfere with, disturb, or in any way disquiet the students or pupils of any university, college, public or private school in the city while same is in session, or the principal or teachers in charge of such students or pupils; nor shall any such person, while such school is in session, communicate with such students or pupils for the purpose of interfering with, disturbing or in any way disquieting them, either orally or in writing or by signs or otherwise.

B. It shall also be unlawful for any person or persons to cause, advise or procure any other person or persons to perform or participate in the performance of any of the acts or conduct prohibited by this section.
(Code 1967, § 22-15.1; Code 1985, § 20-10)

Sec. 10-8-5. Drunkenness in private places.

It is unlawful for any person to be drunk in any private place, to the annoyance of others.
(Code 1967, § 22-17; Code 1985, § 20-11; Ord. No. 933, § 1, 4-27-1971)

Sec. 10-8-6. Drunkenness in public places.

It is unlawful for any person to be drunk in any public place so as to be incapable of protecting his or her own safety or in such condition as to constitute a danger to himself or herself or to others or to be drunk in any public place to the annoyance of other persons.
(Code 1967, § 22-17.1; Code 1985, § 20-12)

State law references—Public intoxication, T.C.A. § 39-17-305; local public intoxication ordinances, T.C.A. § 33-10-203.

Sec. 10-8-7. Malicious mischief.

A. For the purpose of this section, the term "malicious mischief" shall be defined and considered as any malicious or mischievous physical injury either to the property or rights of another or to those of the public in general, and without the consent of the owner.

B. Without excluding any act not herein named, but expressly included herein, the following acts shall be and constitute malicious mischief and a misdemeanor:

1. Damaging a vessel or building by explosion;
2. Burning crops, timber or grass;
3. Altering or removing a signal or light for a railroad or vessel or exhibiting false lights or signals;
4. Maliciously injuring, destroying, defacing or removing any milestone, post, guideboard, or street marker, bridge, private way, pier, tree, rock, post, or other monument for designating property, telegraph or telephone wire, or cable, or appurtenances belonging thereto, pipe or main for conducting gas or water and appurtenances thereto, electric lines, lamps, posts and appurtenances thereto, sewer or drain or pipe connected therewith, fire hydrants, hose or appliances, fire extinguishers, danger and guideposts;
5. Entering upon the garden, orchard, or improved cultivated or enclosed lands of another, and to willfully or wantonly sever, destroy, carry away, or injure the trees, shrubs, vines, flowers, moss, turf, grain, grass, hay, fruit or vegetables thereon;
6. Digging, taking or carrying away earth, soil or stone from the land of another;
7. Placing any structure upon the land of another;
8. Breaking plate glass windows or doors of another;
9. Breaking, defacing or injuring any house of religious worship;
10. Connecting any tube, pipe, wire or other instrument with any instrument used for conducting gas, fuel, electricity or water, in such manner as to use such gas, fuel, electricity or water without same passing through a meter or other instrument;
11. Altering, injuring or preventing the action of a meter, valve, stopcock, or other instrument used for measuring quantities of gas, electricity or water;
12. Breaking, defacing or causing to be broken or defaced, the seal on any water meter;
13. Loosening the brake or blocking of any car standing on any railroad track in the city;
14. Taking or carrying away any coal or other fuel from any railroad car or environs of the city;

15. Maliciously to cut away, let loose, injure or destroy any raft, boat, floating mill, watercraft or vessel of another, or carrying the same from its moorings;

16. Knowingly or willfully to destroy or carry away the rails or boards, wood or other lumber of another, or to tear down or remove any structure or part thereof, or to destroy or remove therefrom any plumbing, electrical equipment or other appurtenances;

17. Maliciously to destroy, injure or secrete any goods, chattels or valuable papers of another;

18. Wantonly or unnecessarily to remove, cut, injure or destroy any tree, shrub, vine, moss or turf growing or being located upon any public lands of any character whatsoever, including all public parks and the entire rights-of-way of all public highways, roads, streets and alleys;

19. For any chauffeur or any other person in like capacity to use the automobile of another without the owner's permission or consent;

20. Willfully to top, cut, burn, break down, injure or destroy, or otherwise to interrupt or interfere with the current, lines, cables, poles, towers, fixtures or appliances of any telephone or telegraph company, or electric light or power company or municipality engaged in furnishing communication, light, heat or power by electricity, or in any way to injure, remove, destroy or interfere with any gas, water or electrical fixtures or appliances.

(Code 1967, § 22-25; Code 1985, § 20-14; Ord. No. 936, § 1, 4-27-1971)

State law reference—Vandalism, T.C.A. § 39-14-408.

Sec. 10-8-8. Unlawful assembly.

A person is guilty of unlawful assembly when he or she assembles with four or more other persons for the purpose of engaging or preparing to engage with them in tumultuous and violent conduct likely to cause public alarm, or a clear and present danger to persons or property, or when, being present at an assembly which either has or develops such purpose or purposes, he or she remains there with intent to advance that purpose or purposes.

(Code 1967, § 22-48.1; Code 1985, § 20-20; Ord. No. 866, §§ 1, 2, 2-16-1971)

Sec. 10-8-9. Regulation of drug/gang-related lingering or loitering.

The purpose of this section and legislation is to regulate and punish violations of the act of illegal drug-related loitering/lingering. Exclusion: the activity of loitering/lingering does not include any activity by a person who passively stands or sits without addressing any solicitation to any specific person other than in response to any inquiry by that person, and in no manner intimidates or uses aggressive behavior.

A. *Generally.* It is unlawful for any person to linger or loiter alone or congregate with others upon any public street or sidewalk, public buildings, or other public place, school grounds, playing fields, park or recreation buildings, in such a manner and under circumstances manifesting the purpose of selling or purchasing illegal drugs or effecting a pattern of criminal gang activity, so as to obstruct pedestrian or vehicular traffic, and refuse to cease such obstruction when ordered to by police.

B. *Definitions.* For the purposes of this section, certain terms shall have the meaning as ascribed to them in this subsection, unless the context clearly indicates otherwise.

Aggressive behavior means to attempt to or to initiate conversation with intent to offer, sell, purchase, or intimidate another person into giving money or goods in exchange for illegal drugs or against their will.

Gang means any ongoing organization, association, or group of three or more persons, whether formal or informal, having as one of its primary activities the commission of a criminal act as defined in the Tennessee Code Annotated, having a common name or common identifying sign or symbol, and whose members individually or collectively engage in or have engaged in a pattern of criminal gang activity.

Illegal drugs means any controlled or restricted substance or drug, the sale of which is prohibited by the Tennessee Code Annotated.

Intimidate means to engage intentionally in conduct which would make a reasonable person fearful or feel compelled. A person commits the offense of intimidating others from exercising civil rights who injures or threatens to injure or

coerce another person with intent to unlawfully intimidate another from the free exercise or enjoyment of a right or privilege secured by the constitution or laws of the State of Tennessee.

Known drug dealer means a person who, within one year previous to the date of citation for violation of this section, has, within the knowledge of the enforcing officer, been convicted of a crime involving the sale of illegal drugs or a crime involving the possession of illegal drugs with the intent to sell.

Known drug purchaser means any person who, within one year previous to the date of a citation for violation of this section, has, within the knowledge of the enforcing officer, been convicted of a crime involving the purchase of illegal drugs.

Known gang associate/member means a person who, within one year previous to the date of a citation for violation of this section, has, within the knowledge of the enforcing officer, been convicted of a crime committed while the person was associated with or a member of a gang, or convicted of a crime committed in conjuncture with criminal gang activity.

Lingering or *loitering* means to lounge about idly or to linger, to stay unnecessarily, whether on foot or in or upon a motorized or nonmotorized vehicle.

Obstruct pedestrian or vehicular traffic means when a person without legal privilege intentionally, or knowingly walks, stands, sits or places any object in such a manner as to cause another person or a driver of a vehicle to take evasive action to avoid physical contact. Acts authorized as an exercise of one's constitutional right to picket or to legally protest shall not constitute obstruction of pedestrian or vehicular traffic.

Park means all public parks and public recreation areas, whether leased or owned, which have been or shall be adopted by the city park commission.

Pattern of criminal gang activity means the commission, attempted commission or solicitation of one or more of the following by two or more persons who are members of a gang as defined in this section, provided at least one of those offenses occurred within three years after a prior offense, and the offenses are committed on separate occasions, or by two or more persons:

1. Assault with a deadly weapon or by means of force likely to produce great bodily injury, as defined by Tennessee Statutes;
2. Robbery, as defined by the Tennessee Code Annotated;
3. Unlawful homicide or manslaughter, as defined by the Tennessee Code Annotated;
4. The sale, possession for sale, transportation, manufacture, offer for sale, or offer to manufacture controlled substances, as defined in the Tennessee Code Annotated;
5. Shooting at an inhabited dwelling or occupied motor vehicle, as defined in the Tennessee Code Annotated;
6. Discharging or permitting the discharge of a firearm from a motor vehicle, as defined in the Tennessee Code Annotated;
7. Arson, as defined in the Tennessee Code Annotated;
8. (Grand) theft, as defined in the Tennessee Code Annotated;
9. Burglary, as defined in the Tennessee Code Annotated;
10. Rape, as defined in the Tennessee Code Annotated;
11. Money laundering, as defined in the Tennessee Code Annotated;
12. Kidnapping, as defined in the Tennessee Code Annotated;
13. Felony extortion, as defined in the Tennessee Code Annotated;
14. Felony vandalism, as defined in the Tennessee Code Annotated;
15. The sale, delivery, or transfer of a firearm as described in the Tennessee Code Annotated;
16. Possession of a pistol, revolver, or other firearm capable of being concealed upon the person in violation of the Tennessee Code Annotated.

Public building means a building belonging to the federal government, to the state or to the city, whether owned or leased, and any church, meetinghouse or other building generally used for religious worship or any university, college, academy, school or other building used for educational purposes.

Public place means any area within the Memphis city limits that is city, state or federally owned or controlled and accessible to the general public, including but not limited to buildings, streets, schools, sidewalks, bridges, alleys, plazas, parks, driveways and parking lots.

School means all public primary, middle and high schools, colleges, academies and other buildings and grounds, whether leased or owned, generally used for educational purposes.

C. *Prohibited conduct.* It shall be a violation of this section for any person who is a known drug dealer or purchaser, as defined in this section, to loiter in any public place in a manner and under circumstances manifesting the purpose of selling or purchasing illegal drugs or for any known gang associate/member, as defined in this section, to loiter in any public place in a manner and under circumstances manifesting engagement in a pattern of criminal gang activity. In determining whether the prohibited conduct, as stated above, is manifested, the following circumstances may be considered:

1. That such person repeatedly beckons to, stops or attempts to stop passerby or pedestrians and engages or attempts to engage them in conversation with intent to offer, sale, purchase, or intimidate that person into giving money or goods in exchange for illegal drugs or to place that person in such a situation as to be the victim of a criminal act;

2. That such person repeatedly stops or attempts to stop motorized or nonmotorized vehicle operators by hailing, waiving of arms or other bodily gestures so that they may engage them in conversation with intent to offer, sale, purchase, or intimidate that person into giving money or goods in exchange for illegal drugs or to place that person in such a situation as to be the victim of a criminal act.

D. *Proof of guilt.* No person shall be found to have violated this section unless such person is:

1. A known drug dealer or drug purchaser as defined in this section;

2. A known gang associate or member as defined in this section;

3. Engaging in prohibited conduct, as defined in this section;

4. Loitering in any public place in a manner and under circumstances manifesting the purpose of selling or purchasing illegal drugs or engaging in prohibited conduct, as defined in this section;

5. Loitering in any public place in a manner and under circumstances manifesting engagement in a pattern of criminal gang activity as defined in this section; and/or

6. Refusing to cease such conduct when ordered to by a law enforcement officer and/or resumes such conduct after being ordered to cease by the officer.

E. *Penalties for violations.* Any person found in violation of any one or all of the subsections of this section is deemed guilty of a misdemeanor and upon conviction thereof subject to penalties as set under section 1-24-1.

F. *Posted property.* Authorization is given for the posting of appropriate signs, as may become necessary and desirable in order to: (1) protect minors in such parks, school grounds and other public property; (2) assist the police in crime prevention; (3) protect the public from crime and mischief; and (4) promote the public good, safety and welfare.

(Code 1985, § 20-30; Ord. No. 4400, § 1, 3-19-1996)

Sec. 10-8-10. Indecent exposure and dress.

It is unlawful for any person to appear in a public place in a state of nudity, or to bathe in such state or to appear in public in an indecent or lewd dress, or to do any obscene or indecent act in any public place.

(Code 1967, § 22-23; Code 1985, § 20-106; Ord. No. 934, § 1, 4-27-1971)

State law reference—Nudity, T.C.A. § 39-13-511.

Sec. 10-8-11. Gambling.

A. It is unlawful for any person to keep a gambling house, room or other place, or to keep or have in his or her possession any table, cloth, box or device for the purpose of gambling.

B. It is unlawful for any person to play at any game of chance or hazard any money or other valuable thing, or in any way to aid, abet, countenance or encourage such game.

C. It is unlawful for any person to maintain himself or herself by gaming or other undue means, or remain at hotels or in the city for the purpose of gaming.
(Code 1967, § 22-22; Code 1985, § 20-107; Ord. No. 3369, § 1, 4-3-1984)

State law reference—Gambling, T.C.A. § 39-17-501 et seq.

Sec. 10-8-12. Nudity and sexual activities in public places.

A. It is unlawful for any person to perform in a public place, or for any person who owns or operates premises constituting a public place to knowingly permit or allow to be performed therein, any of the following acts or conduct:

1. The performance of acts or simulated acts of sexual intercourse, masturbation, sodomy, bestiality, oral copulation, flagellation, or any sexual acts which are prohibited by laws, including but not limited to the actual or simulated touching, caressing or fondling of the breasts, buttocks, anus or genitals in public; or

2. The actual or simulated public displaying of the pubic hair, anus, vulva or genitals.

B. With the exception of nursing mothers feeding their babies, it is unlawful for any live female to appear in a public place so costumed or dressed that one or both breasts are wholly or substantially exposed to public view, and it is unlawful for an owner or operator of premises constituting a public place to permit or allow any such person to appear on the premises owned or operated by him or her. "Wholly or substantially exposed to public view," as it pertains to breasts, means the showing of the female breast, in a public place, with less than a fully opaque covering of any portion of the areola, or with a covering simulating the areola.

C. For the purpose of this section, "public place" includes: streets, sidewalks or highways; transportation facilities; schools; places of amusement; parks; playgrounds; restaurants; nightclubs; cocktail lounges; burlesque houses; bars; cabarets; taverns; taprooms; private fraternal, social, golf or country clubs; or any public place that allows the consumption of intoxicating beverages on the premises.

D. Any person violating any of the provisions of this section shall be subject to all penal provisions provided by law, and the maximum fine provided by law.

E. Any violation of this section shall be a public nuisance and shall be subject to abatement by injunction.
(Code 1985, § 20-150; Ord. No. 4102, § 1, 5-12-1992)

State law reference—Nudity, T.C.A. § 39-13-511.

CHAPTER 10-10. GRAFFITI VANDALISM

Sections:

Sec. 10-10-1. Definitions.
Sec. 10-10-2. Graffiti prohibition.
Sec. 10-10-3. Possession of graffiti implements by minors prohibited.
Sec. 10-10-4. Possession of graffiti implements prohibited in designated public places.
Sec. 10-10-5. Sale of graffiti implements to minors prohibited.
Sec. 10-10-6. Responsibilities of commercial establishments; signage required.
Sec. 10-10-7. Penalty.
Sec. 10-10-8. Parental civil liability.
Sec. 10-10-9. Graffiti removal.
Sec. 10-10-10. Anti-graffiti trust fund.
Sec. 10-10-11. Reimbursement to municipality.

Sec. 10-10-1. Definitions.

For the purpose of the ordinance codified in this chapter, words and phrases shall have the following meanings, unless otherwise clearly indicated by the context:

Aerosol paint container means any aerosol container which is adapted or made for the purpose of spraying paint or other substance capable of defacing property.

Felt tip marker means any indelible marker or similar implement with a tip which, at its broadest width, is greater than one-quarter of an inch, containing ink or other pigmented liquid which is not water soluble.

Graffiti means any inscription, word, figure, or design that is marked, etched, scratched, drawn, painted, pasted or otherwise affixed to or, on any surface, regardless of the nature of the material of that structural component, to the extent that same was not authorized in advance by the owners thereof.

Graffiti implement means an aerosol paint container, a felt tip marker, or a graffiti stick.

Graffiti stick means any device containing a solid form of paint, chalk, wax, epoxy, or other similar substance capable of being applied to a surface by pressure, and upon application, of leaving a mark at least one-quarter of an inch in width and not water-soluble.
(Ord. No. 5238, § 1(part), 2007)

Sec. 10-10-2. Graffiti prohibition.

A. It shall be unlawful for any person to apply graffiti on any public or privately owned structures located on public or privately owned real property located within the area of the City of Memphis.

B. All persons directly or indirectly involved in acts of graffiti vandalism may be found to be equally responsible and guilty of the act, in addition to the individual who personally defaced the object or area, such as others in the group who knowingly make available the tools, writing materials, ladders, lookouts, materials or assistance, or who knowingly supply funds to acquire such materials for such purposes.
(Ord. No. 5238, § 1(part), 2007)

State law reference—Vandalism, T.C.A. § 39-14-408.

Sec. 10-10-3. Possession of graffiti implements by minors prohibited.

It shall be unlawful for any person under the age of 18 years to have in his or her possession any graffiti implement while upon public property or upon private property without the consent of the owner of such private property whose consent is given in advance and whose consent shall be given as to the person's presence while in possession of a graffiti implement. The foregoing provision shall not apply to the possession of felt tip markers by minors attending, or traveling to or from a school at which the person is enrolled, if the person is participating in a class at said school which formally requires the possession of felt tip markers. The burden of proof in any prosecution for violation of this section shall be upon the minor student to establish the need to possess a felt tip marker.
(Ord. No. 5238, § 1(part), 2007)

Sec. 10-10-4. Possession of graffiti implements prohibited in designated public places.

It shall be unlawful for any person to have in his or her possession any graffiti implement while in or upon any public facility, park, playground, swimming pool, recreational facility, or other public building or within 100 feet of an underpass, bridge abutment, storm drain, or similar types of infrastructure unless otherwise authorized by the municipality.
(Ord. No. 5238, § 1(part), 2007)

Sec. 10-10-5. Sale of graffiti implements to minors prohibited.

No person or firm shall sell or cause to be sold to any person under the age of 18 years, and no person under the age of 18 years shall buy any graffiti implement as defined in section 10-10-1. Evidence that a person, or his/her employee or agent demanded and was shown bona fide evidence of majority and acted upon such evidence in a transaction or sale shall be a defense to any violation of this section. For purposes of this section, "bona fide evidence of majority" means a document issued by a federal, state, county, or municipal government or agency thereof, including but not limited to, a motor vehicle operator's license, or registration certificate issued under the Federal Selective Service Act, a passport, or an identification card issued to a member of the armed forces which identifies an individual and provides proof of the age of such individual.
(Ord. No. 5238, § 1(part), 2007)

Sec. 10-10-6. Responsibilities of commercial establishments; signage required.

Every person who operates a retail commercial establishment selling graffiti implements shall place a sign in clear public view at or near the display of such products stating:

> "Graffiti vandalism is against the law. Any person who vandalizes real or personal property with paint or any other liquid or device is guilty of a crime under the Code of Ordinances of Memphis, TN, Title 10, Chapter 10 - Graffiti Vandalism."

(Ord. No. 5238, § 1(part), 2007)

Sec. 10-10-7. Penalty.

Any person who is found to have violated this chapter shall be assessed a penalty. Acts of graffiti vandalism are to be valued according to the provisions of T.C.A. § 39-11-106(a)(36) and punished as vandalism pursuant to T.C.A. § 39-14-408.
(Ord. No. 5238, § 1(part), 2007)

Sec. 10-10-8. Parental civil liability.

Any parent or legal guardian who consents to, permits, or otherwise knowingly allows her or his child under the age of 18 to possess a graffiti implement which is found to have been used to deface private or public property shall be personally liable for any and all costs to any person incurred in connection with the removal of graffiti caused by said child or by said graffiti implement.
(Ord. No. 5238, § 1(part), 2007)

Sec. 10-10-9. Graffiti removal.

A. The City of Memphis Division of General Services may use municipal funds to remove graffiti or other inscribed material from publicly owned real or personal property or privately owned real or personal property visible from publicly owned property and located within the City of Memphis and to replace or repair publicly owned property or privately owned property visible from publicly owned property within the city that has been defaced with graffiti or other inscribed material.

B. In removing, repairing or replacing the real or personal property pursuant to this section, the City of Memphis may use the services of persons ordered to perform those services by a general sessions, criminal or juvenile court.

C. The City of Memphis and its officers, employees, agents, volunteers and persons ordered to perform nuisance removal by a general sessions, criminal or juvenile court shall not be liable for any damages or loss of property:

1. Due to the removal of graffiti performed pursuant to the provisions of this section.
2. Due to the repair or replacement of the property performed pursuant to the provisions of this section.
3. Due to the failure by the municipality to remove, repair or replace property defaced by graffiti.

D. Every owner of real or personal property shall keep and cause to be kept such building free of all graffiti.

1. Subject to the availability of annual appropriations, the City of Memphis may provide graffiti removal services to abate graffiti on real or personal property without charge to the property owner if the property owner first executes a written consent and a waiver of liability.
2. Should the real or personal property owner fail to accept the city's graffiti removal services after the city has attempted in good faith to obtain written consent and a waiver of liability from the owner for such services, and the property owner fails to remove such graffiti within 30 days of receiving a notice, the property may be declared a nuisance which may be abated in any manner provided by law.

(Ord. No. 5238, § 1(part), 2007)

State law reference—Graffiti removal, T.C.A. § 6-54-127.

Sec. 10-10-10. Anti-graffiti trust fund.

A. The City of Memphis hereby creates the city anti-graffiti trust fund. Fines and penalties against violators of this division shall be placed in the fund. The city shall direct expenditures of moneys from the fund for the purposes of payment of the cost of graffiti removal and for such other public purpose as may be approved by resolution of the city council.

B. The City of Memphis may also use city anti-graffiti trust funds or other municipal funds for anti-graffiti education and prevention.

C. The City of Memphis may operate a "hot line" for the purpose of receiving reports of unlawful application of graffiti on public or private property.
(Ord. No. 5238, § 1(part), 2007)

Sec. 10-10-11. Reimbursement to municipality.

In the event the person or persons responsible for the graffiti are convicted and the court orders the offender(s) to pay restitution for the cost of the clean up, and the City of Memphis has expended funds to remove the graffiti, the restitution shall be directed to the city as reimbursement for the cost of the clean up.
(Ord. No. 5238, § 1(part), 2007)

CHAPTER 10-12. PROPERTY OFFENSES*

Sections:

Sec. 10-12-1. Public library—Failure to return, destroying or injuring books and other property—Use of fictitious name or address to obtain books.
Sec. 10-12-2. Dangerous and offensive substances—Exposing in public places.
Sec. 10-12-3. Dangerous conditions on premises.
Sec. 10-12-4. Excavations—Leaving unguarded.
Sec. 10-12-5. Names to be affixed to business houses.
Sec. 10-12-6. Playing ball on streets, or public places, except in parks or playgrounds—Vacant lots.
Sec. 10-12-7. Giving performances on streets.
Sec. 10-12-8. Trees on public property—Destroying or damaging.
Sec. 10-12-9. Public property and works—Injuring or defacing, and regulating advertising and/or campaign materials.

Sec. 10-12-1. Public library—Failure to return, destroying or injuring books and other property—Use of fictitious name or address to obtain books.

A. It shall be a misdemeanor for any person to detain or fail to return to any public library in the city any book, periodical, map, newspaper, plate, engraving, magazine, pamphlet, manuscript, picture, clipping or other property belonging to any public library in the city after the lapse of 30 days from the date of posting by certified mail of a notice addressed to such person at the last address furnished the public library, which notice may be given at any time after the date on which such person should have returned the loaned property in accordance with the rules of such public library; provided, however that, no penalty shall be imposed in any case where restitution in value shall have been made prior to the expiration of such 30-day period, nor in any case where the return of such loaned property belonging to any public library in the city has been rendered impossible by causes beyond the control of the borrower.

B. It shall be a misdemeanor to give a fictitious or incorrect name or address at any public library in order to obtain possession or use of any property, as described in subsection A of this section, belonging to any public library in the city.

C. It shall be a misdemeanor for any person to cut, write upon, injure, deface, tear or destroy any property, as described in subsection A of this section, belonging to any public library in the city.
(Code 1967, § 22-42; Code 1985, § 18-1; Ord. No. 1207, § 1, 3-7-1972; Ord. No. 3009, § 1, 5-13-1980)

Sec. 10-12-2. Dangerous and offensive substances—Exposing in public places.

No person shall take, carry, expose or place in or upon any street or public building any substance, animal or thing which is or is likely to become a public nuisance; or which shall imperil the life, health or safety of any person who is or may properly be in such public place or building; or which through the giving off of odors or noises shall be or become offensive, or injuriously affect the comfort and service of persons using such public place or building.
(Code 1967, § 22-10; Code 1985, § 20-6)

Sec. 10-12-3. Dangerous conditions on premises.

No owner, tenant, lessee, occupant, or manager of any private, residential, commercial, industrial or publicly owned property within the city shall cause, keep or permit on such property excavations, corrosive chemicals, exposed electrical conduits, poisonous and highly flammable substances, unguarded operating machinery, or similar conditions, that because of their nature and ease of accessibility would be dangerous to small children and unsuspecting persons. Whenever such conditions exist, and when it is the determination of the health officer that such conditions constitute a threat to the life or safety of the citizens, it shall be his or her duty to require that the condition be made safe by modification, or made inaccessible to unauthorized and unsuspecting persons.
(Code 1967, § 22-11; Code 1985, § 20-7)

Sec. 10-12-4. Excavations—Leaving unguarded.

It shall be a misdemeanor for any person to permit any well, cistern or other excavation to remain open and uncovered, to the danger of others.
(Code 1967, § 22-20; Code 1985, § 20-13)

Sec. 10-12-5. Names to be affixed to business houses.

It is unlawful for any person doing any business in the city to follow the same, unless his or her name, or name

*__State law reference__—Property offenses, T.C.A. § 39-14-101 et seq.

of the firm, is printed or affixed in legible letters over the front door of his or her business house, the letters to be of the usual size used on such signs.
(Code 1967, § 22-33; Code 1985, § 20-15)

Sec. 10-12-6. Playing ball on streets, or public places, except in parks or playgrounds—Vacant lots.

A. It shall be a misdemeanor to play, or to throw or to kick balls in any sport, on any street or other public place within the city, except in parks and playgrounds.

B. It shall be deemed a nuisance to play, throw or kick balls, pucks, missiles, rocks, stones, or other objects used in sports or games, upon any vacant lot or yard without the owner's permission, or to create an annoyance in violation of conditions as provided under chapter 9-68.
(Code 1967, § 22-35; Code 1985, § 20-16; Ord. No. 4689, § 1, 7-20-1999)

Sec. 10-12-7. Giving performances on streets.

It is unlawful for any person to employ any device, noise or performance tending to the collection of persons on the streets or other public places, to the obstruction of the same, or to exhibit any tricks of legerdemain, or other devices of a like kind, or perform with bells, organs or other instruments upon any of the streets, public squares or promenades.
(Code 1967, § 22-41(b); Code 1985, § 20-17)

Sec. 10-12-8. Trees on public property—Destroying or damaging.

It shall be a misdemeanor for any person to willfully break down, destroy, injure or remove any tree not obnoxious to health or otherwise injurious, or any of the boxes enclosing the same, on any street, public square or open court.
(Code 1967, § 22-48; Code 1985, § 20-19)

Sec. 10-12-9. Public property and works—Injuring or defacing, and regulating advertising and/or campaign materials.

A. No person shall injure or deface any public building, public work or public property; provided, however, painting of numerals of the street address on the curb immediately in front of a structure shall not be an act prohibited in this section when conforming to provisions set forth in section 12-4-7.

B. No person shall post, stick, stamp, paint or otherwise fix, or cause the same to be done by any person, any notice, placard, bill, card, poster, advertisement or other paper or device calculated to attract the attention of the public, to or upon any public property, including but not limited to, any street, sidewalk, crosswalk, curb, or any other portion or part of any public way or public place or building, or any telephone pole, light standard, stop sign, railway structure, tree, bush or shrub, or upon any railings, gates, or other parts of any public bridge, viaduct, subway or overpass, or upon any other public property, right-of-way or easement granted to the city. No person shall remove, deface or otherwise tamper with any lawfully posted signs.

C. Any notice, placard, bill, card, poster, advertisement or other paper or device as referred to in subsection B of this section, which contains a message attributable to a person or entity named thereon or an advertisement or telephone number notification for the benefit of a person or entity, or any properly authenticated photograph or videotape of same, shall be prima facie evidence that the notice, placard, bill, card, poster, advertisement or other paper or device was placed on public property in violation of this section by the person or entity whose name appears thereon or whose telephone number appears thereon, or by their employee or agent while acting in the scope of their employment or agency and on behalf of the person or entity whose name or telephone number appears thereon.

D. Each notice, placard, bill, card, poster, advertisement or other paper or device as referred to in subsection B of this section, found posted on public property in violation of this section shall be deemed to be a separate violation of this section. Each separate violation shall be punishable by a fine of $50.00. In addition, in order to remediate the harm caused the city by violations of this section, the city shall be entitled to recover a penalty in an amount equal to the cost incurred in locating, removing and disposing of such material, provided however that such penalty shall not exceed $200.00.

E. The division of public works is authorized to issue citations for violation of this section, and to act as the city's official representative in all prosecutions of such citations in all appropriate courts.
(Code 1967, § 22-43; Code 1985, § 20-26; Ord. No. 1432, § 1, 9-26-1972; Ord. No. 3156, § 1, 9-29-1981; Ord. No. 4999, 5-20-2003; Ord. No. 5073, § 1, 2004)

CHAPTER 10-16. THEFT AND RELATED OFFENSES*

Sections:

Sec. 10-16-1. Community antenna systems—Connecting, modifying or tampering with franchised system.
Sec. 10-16-2. Shoplifting.
Sec. 10-16-3. Defrauding light, gas and water division by tampering with measuring devices and diverting the utility services of another.

Sec. 10-16-1. Community antenna systems—Connecting, modifying or tampering with franchised system.

A. It is unlawful for any person to make or use any unauthorized connection whether physically, electrically, acoustically, inductively or otherwise with any part of a franchised cable television system for the purpose of enabling himself or herself or others to receive or use any television signal, radio signal, picture, program or sound, without payment to the owner of such system.

B. It is unlawful for any person without consent of the franchise owner to willfully transfer with, remove, or injure in any manner cables, wires, or equipment used for the distribution of television signals, radio signals, pictures, programs or sound.

C. Nothing in this section shall be construed to apply to licensed and certified electrical contractors while performing usual and ordinary service in accordance with recognized standards.

(Code 1967, § 12½-1; Code 1985, § 10-1; Ord. No. 1712, §§ 1—3, 5-1-1973)

State law reference—Communications theft, T.C.A. § 39-14-149.

Sec. 10-16-2. Shoplifting.

A. Any person who shall willfully take possession of any goods, wares or merchandise offered for sale by any store or other mercantile establishment with the intent of converting the same to his or her own use without paying the purchase price thereof is guilty of shoplifting.

B. Any person willfully concealing unpurchased goods or merchandise of any store or other mercantile establishment, whether on the premises or outside the premises of such store, shall be prima facie presumed to have so concealed such article with intention of converting the same to his or her own use without paying the purchase price thereof.

C. The finding of such unpurchased goods or merchandise concealed upon such person or among the belongings of such person shall be prima facie evidence of willful concealment, and if such person conceals, or causes to be concealed, such unpurchased goods or merchandise upon the person, or among the belongings of another, the finding of the same shall also be prima facie evidence of willful concealment on the part of the person so concealing such goods.

D. A peace officer or merchant or a merchant's employee who has probable cause for believing that goods held for sale by the merchant have been unlawfully taken by a person and that he or she can recover them by taking the person into custody, may for the purpose of attempting to effect such recovery, take the person into custody and detain him or her in a reasonable manner for a reasonable length of time. Such taking into custody and detention by a peace officer, merchant, or merchant's employee shall not render such police officer, merchant, or merchant's employee criminally or civilly liable for false arrest, false imprisonment or unlawful detention.

(Code 1967, § 22-43.2; Code 1985, § 20-18; Ord. No. 607, §§ 1—5, 12-23-1969; Ord. No. 938, § 1, 4-27-1971)

State law reference—Shoplifting, T.C.A. § 39-14-144 et seq.

Sec. 10-16-3. Defrauding light, gas and water division by tampering with measuring devices and diverting the utility services of another.

A. It shall be a misdemeanor punishable as set forth hereinafter for any person as the owner, the tenant, or occupant to commit or authorize any of the following acts. It shall further be a misdemeanor punishable as set forth hereinafter for any person to commit any of the following acts which would make gas, electricity, or water available to an owner, tenant or occupant. All persons aiding and abetting or ready and consenting to aid and abet in the following prohibited acts shall be deemed principal offenders and punishable as such:

1. Connecting any tube, pipe, wire or other instrument with any meter, device or other instrument used for conducting gas, electricity or water in such a manner as to permit the use of such gas,

*__State law reference—__Theft, T.C.A. § 39-14-101 et seq.

electricity or water without the same passing through a meter or other instrument recording the usage for billing;

2. Altering, injuring or preventing the action of a meter, valve, stopcock or other instrument used for measuring quantities of gas, electricity or water;

3. Breaking, defacing or causing to be broken or defaced any seal, locking device or other parts that make up a metering device for recording usage of gas, electricity or water or a security system for such recording device;

4. Removing a metering device for measuring quantities of gas, electricity or water;

5. Transferring from one location to another a metering device for measuring quantities of gas, electricity or water;

6. Using a metering device belonging to the light, gas and water division that has not been assigned to such location and installed by the light, gas and water division;

7. Adjusting the indicated consumption, jamming the measuring device, by-passing the meter or measuring device with a jumper so that it does not indicate use or registers incorrectly or otherwise obtaining quantities of gas, electricity or water from the light, gas and water division without the same passing through a metering device for measuring quantities of consumption for billing;

8. Fabricating or using a device to pick or otherwise tamper with the locks used to deter current diversion, meter tampering and meter thefts;

9. Diverting the gas, electricity or water of another without the consent of the person liable for payment to light, gas and water division and knowingly using gas, electricity or water which has been diverted.

B. Any person in possession of the premises as owner, occupant or tenant who is found to have an electric, gas or water meter tampered with or found to have diverted electricity, gas or water of another in violation of this section or receiving electricity, gas or water as a result of some method of diversion described above, shall be guilty of a misdemeanor, and such receipt of gas, electricity or water shall be deemed prima facie evidence in a prosecution under this section.

C. This section shall not apply to installation and action done pursuant to instructions of appropriate officials of the light, gas and water division.

(Code 1967, § 22-60; Code 1985, § 20-24; Ord. No. 2308, § 1, 9-9-1975; Ord. No. 4022, § 1(1)—(3), 3-5-1991)

State law reference—Fraud, theft or destruction of public utility property, T.C.A. § 65-35-101 et seq.

CHAPTER 10-20. PROSTITUTION*

Sections:

Sec. 10-20-1. Definitions.
Sec. 10-20-2. Prostitution—Acts relative thereto prohibited.
Sec. 10-20-3. Assignation—Acts relative thereto prohibited.
Sec. 10-20-4. Presumption.
Sec. 10-20-5. Various acts relating to prostitution declared misdemeanor.

Sec. 10-20-1. Definitions.

As used in this chapter, except as more specifically defined in other sections of this chapter, the following terms shall have the meanings indicated:

Assignation is the making of any appointment or engagement for prostitution or for the purpose of fellatio or cunnilingus, or any act in furtherance of such appointment or engagement.

Prostitution is the giving or receiving of the body for sexual intercourse for hire or licentious sexual intercourse without hire.

(Code 1967, §§ 22-35.1, 22-35.2; Code 1985, § 20-116; Ord. No. 1209, § 1, 3-14-1972)

State law reference—Similar provisions, T.C.A. § 39-13-512.

Sec. 10-20-2. Prostitution—Acts relative thereto prohibited.

It is unlawful:

A. To engage in prostitution;

***State law reference—**Prostitution, T.C.A. § 39-13-512 et seq.

B. To knowingly aid or abet prostitution;

C. To procure or solicit for the purpose of prostitution;

D. To reside in, enter or remain in any vehicle, trailer, conveyance, place, structure or building for the purpose of prostitution;

E. To keep or set up a house of ill fame, brothel or bawdy house;

F. To receive or direct any person for purposes of prostitution to any vehicle, trailer, conveyance, place, structure or building or to permit any person to remain in such places for the purpose of prostitution;

G. To direct, take, transport, or to offer or agree to take or transport, or to aid and abet in transporting or directing any person to any vehicle, conveyance, trailer, place, structure or building for the purpose of prostitution;

H. To direct, transport or offer to agree to take, direct or transport any person to any other person with knowledge of or having reasonable cause to believe that the purpose of such directing, taking or transporting is for prostitution.

(Code 1967, § 22-35.3; Code 1985, § 20-117; Ord. No. 1209, § 1, 3-14-1972)

State law reference—Similar provisions, T.C.A. §§ 39-13-513—39-13-516.

Sec. 10-20-3. Assignation—Acts relative thereto prohibited.

It is unlawful:

A. To engage in assignation;

B. To knowingly aid or abet assignation;

C. To reside in, enter, or remain in any vehicle, trailer, conveyance, place, structure or building for the purpose of assignation;

D. To receive or direct any person for purposes of assignation to any vehicle, trailer, conveyance, place, structure, or building, or to permit any person to remain in such places for the purpose of assignation;

E. To direct, take, transport, or to offer or agree to take or transport, or to aid and abet in transporting or directing any person to any vehicle, conveyance, trailer, place, structure or building for the purpose of assignation;

F. To direct, transport, or offer to agree to take, direct, or transport any person to any other person with knowledge of or having reasonable cause to believe that the purpose of such directing, taking or transporting is for assignation;

G. To procure or solicit for the purpose of assignation.

(Code 1967, § 22-35.4; Code 1985, § 20-118; Ord. No. 1209, § 1, 3-14-1972)

Sec. 10-20-4. Presumption.

The signaling, approaching, stopping, or attempting to signal, stop or approach pedestrians, operators of any motor vehicle, passengers in any motor vehicle, occupants of any motel, hotel or any other dwelling place, by any method expressed or implied, shall be presumed to be done for the purpose of engaging in prostitution or assignation; or aiding and abetting prostitution and assignation where:

A. The person stops, signals, approaches or attempts to stop, signal or approach by any method expressed or implied:

1. One or more pedestrians, motor vehicle operators or passengers in any motor vehicle at any one place; or

2. Engages in such activity at more than one location;

B. The person stops, signals, approaches or attempts to stop, signal or approach, by any method expressed or implied, one or more residents of any motel, hotel or occupant of any other dwelling place at any time or engages in such activity at more than one location.

(Code 1967, § 22-35.7; Code 1985, § 20-119; Ord. No. 1209, § 1, 3-14-1972)

Sec. 10-20-5. Various acts relating to prostitution declared misdemeanor.

A. *Definitions.* For the purpose of this section:

Known prostitute or panderer is a person who, within one year previous to the date of arrest for violation of this subsection, has within the knowledge of the arresting

officer been convicted of violating any ordinance of the city defining and punishing acts of soliciting, committing, or offering or agreeing to commit prostitution.

Prostitution means engaging for hire in sexual activity, including homosexual or other deviate sexual relations.

B. *Prohibited acts.* It is unlawful and a misdemeanor for anyone:

1. To commit or offer or agree to commit an act of prostitution;

2. To secure or offer to secure another for the purpose of committing an act of prostitution;

3. To knowingly transport a person into or within the city with purpose to promote that person's engaging in prostitution, or procuring or paying for transportation with that purpose;

4. To knowingly and willfully receive, offer or agree to receive another into any place or building for the purpose of performing an act of prostitution, or to knowingly and willfully permit another to remain there for any such purpose;

5. To direct another to any place for the purpose of committing an act of prostitution;

6. To knowingly in any way aid, abet or participate in an act of prostitution;

7. To loiter in or near any thoroughfare or place open to the public in a manner and under circumstances manifesting the purpose of inducing, enticing, soliciting or procuring another to commit an act of prostitution. Among the circumstances which may be considered in determining whether such purpose is manifested are: that such person is a known prostitute or panderer, repeatedly beckons to, stops or attempts to stop, or engages male passers-by in conversation under circumstances manifesting the purpose of inducing, enticing or soliciting, or repeatedly stops or attempts to stop motor vehicle operators by hailing, waving of arms or any other deliberate bodily gesture. No arrest shall be made for a violation of this subsection unless the arresting officer first affords such person an opportunity to explain such conduct, and no one shall be convicted of violating this subsection if it appears at trial that the explanation given was true and disclosed a lawful purpose.

(Code 1967, § 22-35.8; Code 1985, § 20-120; Ord. No. 666, § 1, 3-31-1970)

CHAPTER 10-24. PERFORMANCES HARMFUL TO MINORS*

Sections:

Sec. 10-24-1. Definitions.
Sec. 10-24-2. Minor's presence at live performance unlawful—By promoter or producer.
Sec. 10-24-3. Minor's presence at live performance unlawful—By parent.
Sec. 10-24-4. Prohibited activity by minors.

Sec. 10-24-1. Definitions.

As used in this chapter the following definitions apply:

Excess violence means the depiction of acts of violence in such a graphic and/or bloody manner as to exceed common limits of custom and candor, or in such a manner that it is apparent that the predominant appeal of the material is portrayal of violence for the sake of violence.

Harmful to minors means the quality of any description or representation, in whatever form, during a live performance, of nudity, sexual excitement, sexual conduct, excess violence, or sado-masochistic abuse when it:

1. Predominantly appeals to the prurient, shameful or morbid interest of minors;

2. Is patently offensive to prevailing standards in the adult community as a whole with respect to what is suitable material for minors; and

3. Is utterly without redeeming social importance for minors.

Knowingly means having general knowledge of, or reason to know, or a belief or ground for belief, which warrants further inspection or inquiry or both:

1. The character and content of any material described herein which is reasonably susceptible of examination by the defendant; and

---

***State law reference—**Obscenity, T.C.A. § 39-17-901 et seq.

2. The age of the minor; provided, however, that an honest mistake shall constitute an excuse from liability hereunder if the defendant makes a reasonable bona fide attempt to ascertain the true age of such minor.

Minor means any person who has not reached 18 years of age and is unemancipated.

Nudity means the showing of the human male or female genitals, pubic area or buttocks with less than full opaque covering or the showing of the female breast with the top of the nipple or the depiction of covered male genitals in a discernibly turgid state.

Sado-masochistic abuse means flagellation or torture or physical restraint by or upon a person for the purpose of sexual gratification of either person.

Sexual conduct means acts of masturbation, homosexuality, sexual intercourse or physical contact with a person's clothed or unclothed genitals, pubic area, buttocks or the breast.

Sexual excitement means the condition of human male or female genitals when in a state of sexual stimulation or arousal.
(Code 1985, § 20-135.1; Ord. No. 3957, § 1, 4-10-1990)

Sec. 10-24-2. Minor's presence at live performance unlawful—By promoter or producer.

It is unlawful for a promoter, performer, producer or director to knowingly allow a minor to be present during a live performance which is harmful to minors as hereinabove described.
(Code 1985, § 20-135.2; Ord. No. 3957, § 1, 4-10-1990)

Sec. 10-24-3. Minor's presence at live performance unlawful—By parent.

It is unlawful for a parent or legal guardian to knowingly allow their child or children to attend a live performance which is harmful to minors as hereinabove described.
(Code 1985, § 20-135.3; Ord. No. 3957, § 1, 4-10-1990)

Sec. 10-24-4. Prohibited activity by minors.

A. It is unlawful for any minor to knowingly purchase or attempt to purchase a ticket or attempt to gain admission to, or attend, a live performance which is harmful to minors as hereinabove described.

B. It is unlawful for any minor to present or offer to present any written evidence of his or her age which is false, fraudulent or not actually his or her own for the purpose of gaining admission to a live performance which is harmful to minors as hereinabove described.

C. Any minor who acts in violation of any one or more provisions of this section shall be taken before the juvenile court for appropriate disposition.
(Code 1985, § 20-135.4; Ord. No. 3957, § 1, 4-10-1990)

CHAPTER 10-28. OFFENSES BY OR AGAINST MINORS

Sections:

Sec. 10-28-1. Abandonment of airtight containers.
Sec. 10-28-2. Children—Leaving locked in house unattended.
Sec. 10-28-3. Truancy—Parental responsibility.
Sec. 10-28-4. Minor curfew.

Sec. 10-28-1. Abandonment of airtight containers.

It is unlawful for any person to place or permit to remain outside of any dwelling, building, or other structure, or within any warehouse or storage room or any unoccupied or abandoned dwelling, building, or other structure, under such circumstances as to be accessible to children, any icebox, refrigerator, or other airtight or semiairtight container which has a capacity of one and one-half cubic feet or more and an opening of 50 square inches or more and which has a door or lid equipped with a latch or other fastening device capable of securing such door or lid shut.
(Code 1967, § 22-1; Code 1985, § 20-2)

State law reference—Abandoned airtight containers and refrigerators, T.C.A. § 39-17-101 et seq.

Sec. 10-28-2. Children—Leaving locked in house unattended.

It is unlawful to leave any child so locked or fastened in a building that in case of fire or other calamity such child cannot escape, unless the child is attended at all times by an adult capable of protecting such child from the consequences of fire or other calamity.
(Code 1967, § 22-8; Code 1985, § 20-5)

Sec. 10-28-3. Truancy—Parental responsibility.

Notwithstanding any other statute, provision, ordinance or regulation to the contrary, if any minor child is

found, detained, or apprehended by a school truancy officer or a city police officer, upon the public streets during school hours during any school term who is unable to give an accounting of his or her whereabouts, the parents, parent, guardian, or ward having legal custody of the minor, shall be guilty of a misdemeanor and, upon conviction, subject to a fine of up to $50.00, plus penalties as provided in section 1-24-1.
(Code 1985, § 20-29; Ord. No. 4329, § 1, 6-6-1995)

State law reference—Truancy, T.C.A. § 49-6-3001 et seq.

Sec. 10-28-4. Minor curfew.

A. It is unlawful for any minor between 17 and 18 years of age to remain in or upon any public street, highway, park, vacant lot, establishment or other public place within the city during the following time frames:

1. Monday through Thursday between the hours of 11:00 p.m. to 6:00 a.m.;
2. Friday through Sunday between the hours of 12:00 midnight to 6:00 a.m.

B. It is unlawful for any minor 16 years of age and under to remain in or upon any public street, highway, park, vacant lot, establishment or other public place within the city during the following time frames:

1. Monday through Thursday between the hours of 10:00 p.m. to 6:00 a.m.;
2. Friday through Sunday between the hours of 11:00 p.m. to 6:00 a.m.

C. It is unlawful for a parent or legal guardian to knowingly permit or by inefficient control to allow such minor to be or remain upon any street or establishment under circumstances not constituting an exception to, or otherwise beyond the scope of subsections A and B of this section. The term "knowingly" includes knowledge which a parent or guardian should reasonably be expected to have concerning the whereabouts of a minor in that parent's legal custody. The term "knowingly" is intended to continue to keep neglectful or careless parents up to a reasonable community standard of parental responsibility through an objective test. It is not a defense that a parent was completely indifferent to the activities or conduct or whereabouts of such minor child.

D. The following are valid exceptions to the operation of the curfew:

1. At any time, if a minor is accompanied by such minor's parent or legal guardian;
2. When accompanied by an adult authorized by a parent or guardian of such minor to take such parent or guardian's place in accompanying the minor for a designated period of time and purpose within a specified area;
3. Until the hour of 12:30 a.m., if the minor is on an errand as directed by such minor's parent or guardian;
4. If the minor is legally employed, for a period of from 45 minutes before to 45 minutes after, while going directly between the minor's home and place of employment. This exception shall also apply if the minor is in a public place during the curfew hours in the course of the minor's employment. To come within this exception, the minor must be carrying written evidence of employment which is issued by the employer;
5. Until the hour of 12:30 a.m. if the minor is on the property of or the sidewalk directly adjacent to the place where such minor resides or the place immediately adjacent thereto, if the owner of the adjacent building does not communicate an objection to the minor and the law enforcement officer;
6. When returning home by a direct route from (and within 30 minutes of the termination of) a school activity or an activity of a religious or other voluntary association, or a place of public entertainment, such as a movie, play or sporting event. This exception does not apply beyond 1:00 a.m.;
7. In the case of reasonable necessity, but only after such minor's parent has communicated to law enforcement personnel the facts establishing such reasonable necessity relating to specified streets at a designated time for a described purpose including place of origin and destination. A copy of such communication, or the record thereof, an appropriate notation of the time it was received and of the names and addresses of such parent or guardian and minor constitute evidence of qualification under this exception;
8. When exercising first amendment rights protected by the United States Constitution, such as the free exercise of religion, freedom of speech

and the right of assembly. A minor shall show evidence of good faith of such exercise and provide notice to city officials by first delivering to the appropriate law enforcement authority written communication, signed by such minor, with the minor's home address and telephone number addressed to the mayor of the city specifying when, where and in what manner the minor will be on the streets at night in the exercise of a First Amendment right specified in such communication; and

9. When a minor is, with parental consent, in a motor vehicle engaged in good faith interstate travel.

Each of the foregoing exceptions, and the limitations are severable.

E. When any child is in violation of this section, the apprehending officer shall act in one of the following ways:

1. In the case of the first violation, and in the opinion of the officer such action would be effective, take the child to the child's home and warn and counsel the parents or guardians;

2. Issue a summons to the child and/or parents or guardians to appear at the juvenile court; or

3. Bring the child into custody of the juvenile court for disposition.

F. Penalty for violation.

1. A minor violating the provisions of this section shall commit an unruly act disposition of which shall be governed pursuant to T.C.A. title 37.

2. Any parent, guardian or other person having the care, custody and control of a minor violating the provisions of this section is guilty of a misdemeanor and shall be fined no more than $50.00 for each offense; each violation of the provisions of this section shall constitute a separate offense.

(Code 1985, § 20-32; Ord. No. 4430, § 1, 8-6-1996)

State law reference—Child Curfew Act of 1995, T.C.A. § 39-17-408.

CHAPTER 10-32. WEAPONS*

Sections:

Sec. 10-32-1. Air guns—Discharge prohibited—Exception.
Sec. 10-32-2. Reserved.
Sec. 10-32-3. Replica firearms.
Sec. 10-32-4. Discharging firearms.
Sec. 10-32-5. Weapons—Carrying.
Sec. 10-32-6. Commercial sale of assault rifles.
Sec. 10-32-7. Extreme risk protection orders.
Sec. 10-32-8. Emergency ex parte order.
Sec. 10-32-9. Order after hearing.
Sec. 10-32-10. Entry into background check systems.
Sec. 10-32-11. Violations.

Sec. 10-32-1. Air guns—Discharge prohibited—Exception.

It shall be a misdemeanor for any person to discharge within the limits of the city any air gun, air pistol, air rifle or BB gun, capable of discharging a metal bullet or pellet, whether propelled by spring, compressed air, expanding gas (CO_2), explosive, or other force-producing means or method, except within a legally established target range or shooting gallery.
(Code 1967, § 22-3; Code 1985, § 20-3)

Sec. 10-32-2. Reserved.

Editor's note—Ord. No. 5926, § 2, adopted Feb. 4, 2025, repealed § 10-32-2, which pertained to carrying weapons and derived from the 1967 Code, § 22-50; the 1985 Code, § 20-21; Ord. No. 940, § 1, 4-27-1971; Ord. No. 2232, § 1, 4-8-1975; Ord. No. 2732, § 1, 7-11-1978; Ord. No. 3343, § 1, 11-1-1983; Ord. No. 3724, § 1(1), 2-16-1988; and Ord. No. 5320, § 1, 7-21-2009.

Sec. 10-32-3. Replica firearms.

A. *Prohibited.* It shall be a misdemeanor for any person to sell, at retail or wholesale, manufacture, or give away, within the limits of the city, any toy look-alike gun, replica gun, or realistic toy gun.

B. *Definition.* For purposes of this section and chapter, "toy look-alike gun," "replica gun," or "realistic toy gun" means: any device or object which outwardly resembles a firearm manufactured after 1898, made of plastic, wood, metal, or any other material which is a replica, facsimile or toy version of, or is otherwise recognizable as, a pistol, revolver, shotgun, sawed-off

***State law references—**Weapons, T.C.A. § 39-17-1301 et seq.; local firearms ordinances, T.C.A. § 39-17-1314.

shotgun, rifle, machine gun, rocket launcher, or any other device, which might reasonably be perceived to be a real or actual firearm, unless the replica, imitation, or toy firearm shall be colored in colors other than black, blue, silver or aluminum, and further, that the barrel of the toy shall be closed with the same material of which the toy is made, for a distance of not less than one-half inch from the front end of the barrel. The term includes instruments which expel water and those which use air pressure to expel nonmetallic projectiles.

C. *Exception.* Such term shall not include any non-firing replica of an antique firearm, the original of which was designed, manufactured and produced prior to 1898. Practice or demonstrations in the use of such guns is permitted only in a legally established gun range or shooting gallery.

D. *Manufacture and marketing.* The manufacture, marketing, distribution and sale of replica or facsimile toy guns are permitted if such devices are manufactured, marketed, distributed or sold:

1. Solely for subsequent transportation in intrastate, interstate or foreign commerce; or

2. Solely for lawful use in theatrical productions, including action picture, television and stage productions.

E. *Effective date.* This section shall become effective from and after January 1, 1989, and shall apply to such guns manufactured for sale at retail or wholesale after said date.
(Code 1985, § 20-22; Ord. No. 3724, § 1(3), 2-16-1988)

State law reference—Imitation firearms, T.C.A. § 39-17-1362.

Sec. 10-32-4. Discharging firearms.

A. It shall be a misdemeanor to discharge any pistol, gun or firearm of any description within the city, except in self defense or while executing some law, or within a legally established gun range or shooting gallery.

B. It shall be a misdemeanor to discharge any replica gun, or realistic toy gun, of any description, including that as defined in section 10-32-3, within the limits of the city.
(Code 1967, § 22-52; Code 1985, § 20-23; Ord. No. 941, § 1, 4-27-1971; Ord. No. 3724, § 1(2), 2-16-1988)

Sec. 10-32-5. Weapons—Carrying.

A. No person shall be allowed to carry a handgun in the City of Memphis without possessing a valid handgun carry permit.

B. No person shall be allowed to carry, store, or travel with a handgun in a vehicle in the City of Memphis without possessing a valid handgun permit.

C. It shall be unlawful for a person to store a firearm, whether loaded or unloaded, or firearm ammunition, in a motor vehicle or boat while the person is not in the motor vehicle or boat unless the firearm or firearm ammunition is kept from ordinary observation and locked within the trunk, utility or glove box, or a locked container securely affixed to the motor vehicle or boat.

D. The proliferation and use of assault weapons pose a threat to the health, safety, and security of all citizens of Memphis.

E. It shall be unlawful and prohibited for a person to possess or carry, openly or concealed, any assault rifles in the City of Memphis. Persons with valid handgun permits are exempt from this restriction when possessing or carrying an assault rifle on their privately owned property or at a shooting range.

F. Any person who violates this section shall be guilty of a misdemeanor and upon conviction shall be subject to punishment as provided in section 1-1-8.
(Ord. No. 5926, § 1, 2-4-2025)

Sec. 10-32-6. Commercial sale of assault rifles.

A. The commercial sale of assault rifles within the City of Memphis shall be deemed unlawful and is prohibited.

B. The provisions of this chapter shall not apply to the commercial sale of assault rifles to:

1. Any federal, state, local law enforcement agency;

2. The United States Armed Forces or department or agency of the United States;

3. Tennessee National Guard, or a department, agency, or political subdivision of a state; or

4. A law enforcement officer.

C. This prohibition shall not apply to those pre-existing owners who can demonstrate that the commercial sale of an assault rifle was completed prior to January 1, 2025.

1. A pre-existing owner is one who, in the purchase of an assault rifle in a commercial sale prior to January 1, 2025, completed an application, passed a background check, and has a receipt or purchase order for said purchase, without regard to whether the purchaser has actual physical possession of the assault rifle and complied with any other requirements regarding the purchase and sale of weapons, codified in Tenn. Code Ann. §§ 39-17-1316 and 39-17-1351.

(Ord. No. 5926, § 1, 2-4-2025)

Sec. 10-32-7. Extreme risk protection orders.

A. Definitions:

1. *Petitioner* means:

   a. A law enforcement officer or agency, including an attorney for the state;

   b. A member of the family of the respondent, which shall be understood to mean a parent, spouse, child, or sibling of the respondent;

   c. A member of the household of the respondent;

   d. A dating or intimate partner of the respondent;

   e. A health care provider who has provided health services to the respondent;

   f. An official of a school or school system in which the respondent is enrolled or has been enrolled within the preceding month;

2. *Respondent* means the person against whom an order under sections 10-32-8 or 10-32-9 has been sought or granted.

B. Types of orders:

1. The petitioner may apply for an emergency ex parte order as provided in section 10-32-8 or an order following a hearing as provided in section 10-32-9.

(Ord. No. 5926, § 1, 2-4-2025)

Sec. 10-32-8. Emergency ex parte order.

A. *Basis for order.* The court shall issue an emergency ex parte extreme risk protection order upon submission of an application by a petitioner, supported by an affidavit or sworn oral statement of the petitioner or other witness, that provides specific facts establishing probable cause that the respondent's possession or receipt of a firearm will pose a significant danger or extreme risk of personal injury' or death to the respondent or another person. The court shall take up and decide such an application on the day it is submitted, or if review and decision of the application on the same day is not feasible, then as quickly as possible but in no case later than 48 hours.

B. *Content of order.* An order issued under this section shall:

1. Prohibit the respondent from possessing, using, purchasing, manufacturing, or otherwise receiving a firearm;

2. Order the respondent to provisionally surrender any firearms in his or her possession or control, and any license or permit allowing the respondent to possess or acquire a firearm, to any law enforcement officer presenting the order or to a law enforcement agency as directed by the officer or the order; and

3. Inform the respondent of the time and place of the hearing under section 3 to determine whether he or she will be subject to a continuing prohibition on possessing and acquiring firearms.

C. *Search and seizure.*

1. If the application and its supporting affidavit or statement establish probable cause that the respondent has access to a firearm, on his or her person or in an identified place, the court shall concurrently issue a warrant authorizing a law enforcement agency to search the person of the respondent and any such place for firearms and to seize any firearm therein to which the respondent would have access.

2. The court may subsequently issue additional search warrants of this nature based on probable cause that the respondent has retained, acquired, or gained access to firearm while an order under this section remains in effect.

3. If the owner of a firearm seized pursuant to this subsection is a person other than the respondent, the owner may secure the return of the firearm as provided in section 10-32-9 C. 3.

D. *Time for service and searches.* The responsible law enforcement agency shall serve the order on the respondent and carry out any search authorized under subsection C. 1., promptly following issuance of the order. If a search is authorized under subsection C. 1., the agency may serve the order on the respondent concurrently with or after the execution of the search. (Ord. No. 5926, § 1, 2-4-2025)

Sec. 10-32-9. Order after hearing.

A. *Order after hearing.* Upon application for an extreme risk protection order, supported by an affidavit or sworn oral statement of the petitioner or other witness that provides specific facts giving rise to the concern about the significant danger or extreme risk described in section 10-32-8, the court may issue an order under this section, which shall be effective for a period of one year after a hearing. An order issued under this section shall,

1. Prohibit the respondent from possessing, using, purchasing, or otherwise receiving a firearm; and

2. Order the respondent to surrender any firearm in his or her possession or control, and any license or permit allowing the respondent to possess or acquire a firearm, to any law enforcement officer presenting the order or to a law enforcement agency as directed by the officer or the order.

B. *Basis for order.* The court shall issue such an order based on a preponderance of the evidence that the respondent's possession or receipt of a firearm will pose a significant danger or extreme risk of personal injury or death to the respondent or another person. In determining the satisfaction of this requirement, the court shall consider all relevant facts and circumstances after reviewing the petitioner's application and conducting the hearing described in section 10-32-9 D. The court may order a psychological evaluation of the respondent, including voluntary or involuntary commitment of the respondent for purposes of such an evaluation, to the extent authorized by other law.

C. *Search and seizure.*

1. If the evidence presented at the hearing establishes probable cause that the respondent has access to a firearm, on his or her person or in an identified place, the court shall concurrently issue a warrant authorizing a law enforcement agency to search the person of the respondent and any such place for firearms and to seize any firearm therein to which the respondent would have access.

2. The court may subsequently issue additional search warrants of this nature based on probable cause that the respondent has retained, acquired, or gained access to a firearm while an order under this section remains in effect.

3. If the owner of a firearm seized pursuant to this subsection is a person other than the respondent, the owner may secure the prompt return of the firearm by providing an affidavit to the law enforcement agency affirming his or her ownership of the firearm and providing assurance that he or she will safeguard the firearm against access by the respondent. The law enforcement agency shall return the firearm to the owner upon its confirmation, including by a check of the National Instant Criminal Background Check System and the applicable state firearm background check system, that the owner is not legally disqualified from possessing or receiving the firearm.

D. *Time for hearings and service.*

1. A hearing under this section shall be held within three days of the filing of the application, or within one day of the issuance of an emergency ex parte order under section 10-32-8, if such an order is issued. The responsible law enforcement agency shall serve notice of the hearing on the respondent promptly after the filing of the application or issuance of an emergency ex parte order, but notice may be provided by publication or mailing if the respondent cannot be personally served within the specified period. The respondent shall be entitled to one continuance of up to two days on request, and the court may thereafter grant an additional continuance or continuances for good cause. Any emergency ex parte order under section 10-32-8 shall remain in effect

until the hearing is held. The court may temporarily extend the emergency order at the hearing, pending a decision on a final order.

2. The responsible law enforcement agency shall serve an order issued under this section on the respondent and carry out any search authorized under subsection C. 1., promptly following issuance of the order. If a search is authorized under subsection C. 1., the agency may serve the order on the respondent concurrently with or after the execution of the search.

E. *Termination and renewal of orders.*

1. A respondent may file a motion to terminate an order under this section one time during the effective period of that order. The respondent shall have the burden of proving, by the same standard of proof required for issuance of such an order, that he or she does not pose a significant danger or extreme risk of personal injury or death to himself or herself or another.

2. The petitioner may seek renewals of an order under this section for an additional six months at any time preceding its expiration. Renewals after the initial order shall be granted subject to the same standards and requirements as an initial order. The preceding order shall remain in effect until the renewal hearing is held and the court grants or denies a renewed order.

3. If the respondent fails to appear at, or cannot be personally served in relation to, any hearing or renewal hearing under this section, the default does not affect the court's authority to issue an order or entitle the respondent to challenge the order prior to its expiration. The order will lapse after one year if no eligible petitioner seeks its renewal.

(Ord. No. 5926, § 1, 2-4-2025)

Sec. 10-32-10. Entry into background check systems.

The court shall forward any order issued under sections 10-32-8 or 10-32-9 to an appropriate law enforcement agency on the day it is issued. Upon receipt of an order under section 10-32-9, the law enforcement agency shall make the order available to the National Instant Criminal Background Check System and any state system used to identify persons who are prohibited from possessing firearms.

(Ord. No. 5926, § 1, 2-4-2025)

Sec. 10-32-11. Violations.

A. The following persons shall be in violation of the City Code of Ordinances:

1. *Filer of false or harassing application.* Any person filing an application under sections 10-32-8 or 10-32-9 containing information that he or she knows to be materially false, or for the purpose of harassing the respondent.

2. *Respondent not complying with order.* Any person who knowingly violates an order under sections 10-32-7 or 10-32-8, including by possessing or acquiring a firearm in violation of the order or failing to surrender a firearm as required by the order.

3. *Provider of prohibited access to respondent.* Any person who knowingly provides the subject of an order under section 10-32-7 or 10-32-8 access to a firearm, in violation of an assurance the person has provided in an affidavit under section 10-32-7 C. 3. or 10-32-8 C. 3. that he or she will safeguard the firearm against access by the respondent.

(Ord. No. 5926, § 1, 2-4-2025)

CHAPTER 10-36. FAIR HOUSING*

Sections:

Sec. 10-36-1. Title.
Sec. 10-36-2. Purpose.
Sec. 10-36-3. Definitions.
Sec. 10-36-4. Exemptions from housing provisions.

Sec. 10-36-9. Annual report.

***State law reference—**Discrimination in housing and financing, T.C.A. § 4-21-601 et seq.

Sec. 10-36-1. Title.

This chapter shall be known and may be cited as the "City of Memphis Fair Housing Ordinance."
(Code 1985, § 48-251; Ord. No. 4932, § 1, 3-5-2002)

Sec. 10-36-2. Purpose.

A. The general purposes of this chapter are:

1. To provide for uniformity in policy and enforcement of the laws of the city, the state, and United States which prohibit discrimination in housing, including the Tennessee Human Rights Act, T.C.A. § 4-21-101 et seq. (the "Tennessee Human Rights Act"), the Civil Rights Act of 1866, 42 USC 1982, and the Civil Rights Act of 1968, 42 USC 3601 et seq., as amended (collectively the "Civil Rights Acts");

2. To foster cooperation between the city, state and United States in the implementation of such policies and laws designed to promote fair housing opportunities for all citizens; and

3. To safeguard all individuals residing within the city from discrimination in housing because of race, color, religion, national origin, sex, age, familial status, source of income or handicap/disability; to promote equal protection of all parties; and to encourage all citizens to maintain and improve the quality of housing within the city and thereby to preserve the health and general welfare thereof.

B. Nothing in this chapter shall be deemed to repeal or supercede any rights granted any person under any other law prohibiting discrimination in housing, including the Tennessee Human Rights Act and the Civil Rights Acts.
(Code 1985, § 48-252; Ord. No. 4932, § 1, 3-5-2002)

Sec. 10-36-3. Definitions.

The following terms shall have the following meanings as interpreted by federal or state courts.

Discriminatory practice means any direct or indirect act or practice of exclusion, distinction, restriction, segregation, limitation, refusal, denial, or differentiation or preference in the treatment of a person or persons because of race, color, religion, national origin, sex, age, familial status, source of income, or handicap/disability.

Familial status means one or more individuals, who have not attained 18 years of age, being domiciled with:

1. A parent or another person having legal custody of such individual or individuals; or

2. The designee of such parent or other person having such custody, with the written permission of such parent or other person. The protections against discrimination on the basis of familial status shall apply to any person who is pregnant or is in the process or securing legal custody of any person who has not attained the age of 18 years.

Family includes a single individual.

Financial institution means a bank, banking organization, mortgage company, insurance company, or other lender to whom application is made for financial assistance for the purchase, acquisition, lease, construction, rehabilitation, repair, maintenance, or improvement of real property, or any individual employed by or acting on behalf of any such bank, banking organization, mortgage company, insurance company or other lender.

Handicap/disability means, with respect to a person:

1. A physical or mental impairment which substantially limits one or more of such person's major life activities;

2. A record of having such an impairment; or

3. Being regarded as having such an impairment;

The term "handicap/disability" does not include current, illegal use of or addiction to a controlled substance, as more specifically defined in the Tennessee Human Rights Act.

Housing accommodations means a building, structure, lot or part thereof which is used or occupied, or is intended, arranged or designed to be used or occupied, as the home or residence of one or more individuals and shall include improved or unimproved property.

National origin means the national origin or ancestry of a person, as more specifically defined in the Tennessee Human Rights Act.

Person includes one or more individuals, governments or government agencies, public authorities, labor organizations, corporations, limited liability companies,

partnerships or corporations, partnerships, trusts, or other organized groups of persons, or legal representatives thereof.

Real estate broker or *real estate salesperson* means an individual, whether licensed or not, who on behalf of others for a fee, commission, salary, or other valuable consideration, or who with the intention or expectation of receiving or collecting any such consideration, lists, sells, purchases, exchanges, rents or leases any interest in real property, or who negotiates or attempts to negotiate on behalf of others such activity; or who advertises or holds such individual out as engaged in such activities; or who negotiates or attempts to negotiate on behalf of others, a loan secured by mortgage or other encumbrance upon a transfer of real property, or who is engaged in the business of charging or collecting fees in connection with a contract whereby such individual undertakes to promote real estate transaction through listing such real property in a publication issued primarily for such purpose; or an individual employed by or acting on behalf of any of these.

Real estate operator means any person engaged in the business of consummating real estate transactions, or deriving income, in whole or in part, from real estate transactions; or any individual employed by or acting on behalf of any of these.

Real estate transaction includes the sale, exchange, rental or lease of real property.

Real property includes land and all buildings and structures thereon and all interests therein, including but not limited to, leaseholds, cooperatives, and condominiums.

Source of income means a regular, verifiable income, or its equivalent, from which an individual can pay rental, mortgage or other payments associated with the provision of housing. The term shall specifically include Section 8 vouchers or certificates issued by the United States Department of Housing and Urban Development or other similar contractual commitments whereby a third party commits to making all or a portion of rental, mortgage or other housing-related payments.
(Code 1985, § 48-253; Ord. No. 4932, § 1, 3-5-2002)

Sec. 10-36-4. Exemptions from housing provisions.

A. Nothing in this chapter shall apply to housing transactions meeting the requisites of T.C.A. § 4-21-602.

B. Nothing in this chapter shall require a real estate broker or salesperson or operator to negotiate with any person who has not shown evidence of financial ability to consummate the purchase or rental of a housing accommodation.

C. Nothing in this chapter shall prohibit the use of attorneys, escrow agents, abstractors, title companies and other such professional assistance as necessary to perfect or transfer the title.

D. Nothing in this chapter shall limit the applicability of any reasonable local, state or federal statute, ordinance, or restriction regarding the maximum number of occupants permitted to occupy a dwelling, nor shall any provision of this chapter regarding familial status apply

with respect to dwellings provided under any state or federal program specifically designed and operated to assist elderly persons, or to housing for older persons.

1. As used in this subsection, "housing for older persons" means housing communities consisting of dwellings:
   a. i. Intended for, at least 90 percent occupied by, at least one person 55 years of age or older per unit;
      ii. Providing significant facilities and services specifically designed to meet the physical or social needs of such persons; and
      iii. Publishing and adhering to policies and procedures which demonstrate an intent by the owner or manager to provide housing for persons 55 years or older; or
   b. Intended for and occupied solely by person 62 years or older.
2. Nothing in this chapter shall prohibit conduct against a person because such person has been convicted by any court of competent jurisdiction of the illegal manufacture or distribution of a controlled substance as defined in section 102 of the Controlled Substances Act (21 USC 802), or as defined in the Tennessee Drug Control Act, compiled in title 39, chapter 17, part 4.

E. Nothing in this chapter shall apply to the rental of housing accommodations in a building which contains housing accommodations for not more than two families living independently of each other, if the owner or a member of the owner's family resides in one of the housing accommodations.

F. Nothing in this chapter shall apply to the rental of one room or one rooming unit in a housing accommodation by an individual, if such individual or a member of such individual's family resides therein, or, with regard to discrimination based on sex, rooms or rental units where tenants would be required to share a common bath.

G. Nothing in this chapter shall apply to a religious organization, association, or society, or any nonprofit institution or organization operated, supervised or controlled by or in conjunction with a religious organization, association, or society, which limits the sale, rental or occupancy of dwellings which it owns or operates for other than a commercial purpose to persons of the same religion, or which gives preference to such persons, unless membership in such religion is restricted on account of race, color, or national origin.

H. Nothing in this chapter shall apply, with regard to discrimination based on sex to the rental of housing accommodations of single-sex dormitory rental properties, including but not limited to, those dormitories operated by higher educational institutions.
(Code 1985, § 48-254; Ord. No. 4932, § 1, 3-5-2002)

Sec. 10-36-5. Unlawful housing practices.

A. It is unlawful for an owner or other person engaging in a real estate transaction, or for a real estate broker or salesperson, real estate operator, or person acting by or on behalf of any of these to discriminate against any person in the sale or rental of real property or any housing accommodation because of race, color, religion, national origin, sex, age, familial status, source of income or handicap/disability.

B. It shall be a discriminatory practice for any person because of race, color, religion, national origin, sex, age, familial status, source of income or handicap/disability to:

1. Refuse to sell or rent after the making of a bona fide offer or to negotiate for the sale or rental of, or otherwise to make unavailable or deny, real property or a housing accommodation to a person;
2. Discriminate against any person in the terms, conditions, or privileges of sale or rental of real property or a housing accommodation, or in the provision of services or facilities in connection therewith; and it shall specifically be a violation of this section for an owner or manager of rental property to fail to maintain rental property in compliance with applicable housing code provisions because some or all of the tenants are members of classes protected by this chapter or the Tennessee Human Rights Act;
3. Refuse to receive or transmit a bona fide offer to purchase, rent or lease real property or a housing accommodation from a person;
4. Represent to a person that real property or a housing accommodation is not available for inspection, sale, rental or lease when in fact it so

available, or to refuse to permit a person to inspect real property or a housing accommodation;

5. Make, print, publish, circulate, post or mail or cause to be made, printed, published, circulated, posted or mailed a notice, statement, advertisement, or sign, or to use a form of application for the purchase, rental or lease of real property or a housing accommodation, or make a record of inquiry in connection with the prospective purchase, rental or lease of real property or a housing accommodation, which indicates, directly or indirectly, a limitation, specification, or discrimination as to race, color, religion, national origin, sex, age, familial status, source of income, or handicap/disability or an intent to make such a limitation, specification, or discrimination;

6. Offer, solicit, accept, use or retain a listing of real property or housing accommodation for sale, rental or lease with the understanding that a person may be discriminated against in the sale, rental or lease of that real property or housing accommodation or in the furnishing of facilities or services in connection therewith; or

7. Deny any person access to, or membership or participation in, any multiple-listing services, real estate brokers' organization or other service, organization, or facility relating to the business of selling or renting real property, or to discriminate against such person in the terms or conditions of such access, membership or participation.

C. It is a discriminatory practice for any person to:

1. Discriminate in the sale or rental of, or to otherwise make unavailable or deny, a dwelling to any buyer or renter because of a handicap/disability of:

   a. The buyer or renter;

   b. A person residing in or intending to reside in the dwelling after it is sold, rented or made available;

   c. Any person associated with the buyer or renter; or

2. Discriminate against any person in the terms, conditions, or privileges of sale or rental of a dwelling, or in the provision of services or facilities in connection with such dwelling, because of a handicap/disability of:

   a. The person;

   b. A person residing in or intending to reside in the dwelling after it is so sold, rented or made available; or

   c. Any person associated with the person.

3. For purposes of this subsection, "discrimination" includes:

   a. A refusal to permit, at the expense of the handicapped/disabled person, reasonable modifications of existing premises occupied or to be occupied by such person if such modifications may be necessary to afford such person full enjoyment of the premises; except that, in the case of a rental, no modification need be permitted unless the renter first agrees to restore the interior of the premises to the condition that existed before the modification, reasonable wear and tear excepted, unless previously negotiated with the landlord;

   b. A refusal to make reasonable accommodations in rules, practices or services, when such accommodations may be necessary to afford such person equal opportunity to use and enjoy a dwelling; or

   c. In connection with the design and construction of covered multifamily dwellings for first occupancy after March 13, 1991, a failure to design and construct those dwellings in such a manner that:

      i. The dwellings have a least one building entrance on an accessible route, unless it is impractical to do so because of terrain or unusual site characteristics; or

      ii. With respect to dwellings with a building entrance on an accessible route:

         (A) The public use and common use portions of such dwellings are readily accessible to and usable by handicapped persons;

(B) All the doors designed to allow passage into and within all premises within such dwellings are sufficiently wide to allow passage by handicapped person in wheelchairs; and

(C) All premises within such dwellings contain the following features of adaptive design:

(1) An accessible route into and through the dwelling;

(2) Light switches, electrical outlets, thermostats, and other environmental controls in accessible locations;

(3) Reinforcements in bathroom walls to allow later installation of grab bars; and

(4) Usable kitchens and bathrooms, such that an individual in a wheelchair can maneuver about the space.

4. Compliance with the appropriate requirements of the American National Standard for buildings and facilities providing accessibility and usability for physically handicapped people (commonly cited as "ANSI A1 17.1") suffices to satisfy the requirements of section 5, part C(3)(c)(2)(ii).

5. As used in this subsection, "covered multifamily dwellings" means:

a. A building consisting of four or more units if such buildings have one or more elevators; and

b. Ground floor units in other buildings consisting of four or more units.

6. Nothing in this subsection requires that dwelling be made available to an individual whose tenancy would constitute a direct threat to the health or safety of other individuals or whose tenancy would result in substantial physical damage to the property of others.

D. It shall be illegal for a real estate operator, a real estate broker a real estate salesperson, a financial institution, an employee of any of these, or any other person, to engage in blockbusting for the purpose of inducing a real estate transaction from which he or she may benefit financially. Those provisions of the Tennessee Human Rights Act concerning blockbusting are adopted by reference to define illegal practices under this chapter. Violation of T.C.A. § 4-21-603 shall be deemed a violation of this chapter.

E. It shall be illegal to make any oral agreement, insert a written agreement, honor or attempt to honor any such term or provision, or place in an agreement anything that purports to forbid or restrict conveyance, encumbrance, occupancy, or lease of real property to individuals on the basis of race, color, religion, national origin, sex, age, familial status source of income or handicap/disability. Those provisions of the Tennessee Human Rights Act concerning restrictive covenants or agreements are adopted by reference to define such illegal practices under this chapter. Violation of T.C.A. § 4-21-604 shall be deemed a violation of this chapter.

F. It shall be illegal for a financial institution, or an individual employee acting by or on behalf of such institution to discriminate against an individual, a present or prospective owner, tenant, or occupant of real property or a member, stockholder, director, officer, employee or representative of any of these, because of race, color, religion, national origin, sex, age, familial status, source of income and disability/handicap, in the extension or provision of financial services. Those provisions of the Tennessee Human Rights Act concerning prohibited financial practices are adopted by reference to define such illegal practices under this chapter. Violation of T.C.A. § 4-21-606 shall be deemed a violation of this chapter.

G. It is a discriminatory practice for a person in the business of insuring against hazards to refuse to enter into, or discriminate in the terms, conditions, or privileges of a contract of insurance against hazards to a housing accommodation or real property because of race, color, religion, national origin, sex, age, familial status, source of income or handicap/disability of the person owning, or residing in or near the housing accommodation or real property.

H. It is a discriminatory practice for a person to coerce, intimidate, threaten or interfere with any person in the exercise or enjoyment of, or on account of his or

her having exercised or enjoyed, or on account of his or her having aided or encouraged any other person in the exercise or enjoyment of, any right granted or protected by the provisions of this chapter.

I. Those provisions of the Tennessee Human Rights Act concerning prohibited practices are adopted by reference in that it shall be no defense to a violation of this chapter by a real estate operator, real estate broker, real estate salesman, financial institution, or other person that the violation was requested, sought or otherwise procured by a person not subject to the provisions of this chapter.

J. It is an unlawful practice for any person or other entity whose business includes engaging in real estate transactions to discriminate against any person in making available such transaction, or in the terms and conditions of such transaction, because of race, color, religion, national origin, sex, age, familial status, source of income or handicap/disability:

1. In the making or purchasing of loans or providing financial assistance:
    a. For purchasing, constructing, improving, repairing, or maintaining a dwelling; or
    b. Where the security is residential real estate; or
2. The selling, brokering, or appraising of residential real estate.

(Code 1985, § 48-255; Ord. No. 4932, § 1, 3-5-2002)

Sec. 10-36-6. Enforcement.

A. The city, through the division of housing and community development, shall designate an employee of the city to serve as the city's fair housing officer. Alternatively, the director of the division of housing and community development may contract with an appropriate individual or entity to perform all duties of the fair housing officer.

B. Any person who claims to have been injured or aggrieved in any manner by a violation of this chapter may file a written complaint with the city, through its designated fair housing officer, within 365 days of the alleged discriminatory act. The complaint shall include the name and address of the complainant and of every person against whom the complaint is made, and shall set out the facts giving rise to the complaint.

C. Upon receipt of a timely complaint, the city's fair housing officer shall advise a complainant of his or her right to also file a complaint with the United States Department of Housing and Urban Development and the Tennessee Human Rights Commission and the procedures for so doing.

D. The city's fair housing officer shall promptly notify the person identified in the complaint as having violated this chapter (the "respondent(s)"), in writing, of the complaint and of their opportunity to submit a written response to the complaint. The fair housing officer shall initiate an investigation into the allegations in the complaint within 30 days of the filing of same.

E. The city's fair housing officer shall, after investigation, determine whether there is sufficient merit to initiate an action for violation of this chapter. Such determination shall be made within 100 days of the filing of such complaint (except that if a complaint is filed with the Department of Housing and Urban Development or the state Human Rights Commission it may defer the determination until a determination of cause has been made by the pertinent agency). The complainant shall be notified in writing of the determination.

F. The fair housing officer shall be and is made a special police officer of the city for purposes of the issuance of citations for violation of this chapter. For purposes of this chapter the term "citation" means a written order issued by a law enforcement officer or special police officer (as authorized in this chapter) including information of the nature of the violation of this chapter charged, and requiring the person so charged to appear in a designated court at a specified date and time, signed by the person agreeing to appear at the time and place indicated. In the event that the person so charged fails to appear in the designated court on the specified date and time, then the court may take a default judgment against the charged person in favor of the city.
(Code 1985, § 48-256; Ord. No. 4932, § 1, 3-5-2002)

Sec. 10-36-7. Penalties for violation.

Violation of any provision of this chapter shall be punished by a fine of $50.00 and a penalty in any sum not exceeding $200.00. Each day on which a continuing violation occurs shall constitute a new and separate violation of this chapter. Nothing herein contained shall be construed so as to preclude any aggrieved person from pursuing such other and further and equitable relief to which he or she may be entitled. Fines collected pursuant

to this section will be used to establish a fund to educate the community about fair housing and responsibilities and to promote fair housing in the city.
(Code 1985, § 48-257; Ord. No. 4932, § 7, 3-5-2002)

Sec. 10-36-8. Notice of violation.

The city attorney shall file with the state Real Estate Commission a notice of the conviction of any licensed real estate broker or affiliate broker found guilty of violating this chapter.
(Code 1985, § 48-258; Ord. No. 4932, § 8, 3-5-2002)

Sec. 10-36-9. Annual report.

The fair housing/human rights officer shall publish an annual report setting forth the number of complaints received during the prior year, as well as the disposition of the complaints, the number of convictions for violation.
(Code 1985, § 48-259; Ord. No. 4932, § 9, 3-5-2002)

CHAPTER 10-37. SEXUAL OFFENDERS—COMMUNITY NOTIFICATION SYSTEM

Sections:

Sec. 10-37-1. Mandatory registration.
Sec. 10-37-2. Forms of notification.

Sec. 10-37-1. Mandatory registration.

Pursuant to T.C.A., § 40-39-217, any sexual offender or violent sexual offender, as defined by T.C.A., § 40-39-202, residing in the City of Memphis must register with the Memphis Police Department and pay to the police department a notification fee of $50.00 per year.
(Ord. No. 5567, § 2, 10-21-2014)

Sec. 10-37-2. Forms of notification.

Whenever a sexual offender or violent sexual offender intends to reside, or, upon registration, declares to already reside within 1,000 feet of the property line of any public school, private or parochial school, licensed day care center, other child care facility, public park, playground, recreation center, or public athletic field available for use by the general public, the City of Memphis may notify the public using any or all of the following methods:

1. Notification by the police department to residents, schools, and child-care facilities within 1,000 feet of the offender′s residence;
2. A community notification flyer, whether made by regular mail or hand delivered, to all legal residences within 1,000 feet of the offender′s residence;
3. Posting a copy of the notice in a prominent place at the office of the police station closest to the declared residence of the offender;
4. Notifying homeowners associations within the immediate area of the declared residence of the offender; or
5. Any other method reasonably expected to provide notification as determined by city.

(Ord. No. 5567, § 2, 10-21-2014)

CHAPTER 11-4. GENERAL PROVISIONS AND DEFINITIONS

Sections:

Sec. 11-4-1. Definitions.
Sec. 11-4-2. General duties of director of police under title.
Sec. 11-4-3. Establishment, control and general duties of traffic division of police division.
Sec. 11-4-4. Traffic design department generally.
Sec. 11-4-5. Duty of police to enforce traffic laws.
Sec. 11-4-6. Authority of police to direct traffic.
Sec. 11-4-7. Authority of firefighters to direct traffic.
Sec. 11-4-8. Obedience to traffic officers.
Sec. 11-4-9. Obedience to school safety patrols.
Sec. 11-4-10. Riding or driving animals or animal-drawn vehicles.
Sec. 11-4-11. Application to persons propelling pushcarts.
Sec. 11-4-12. Application to persons working on street.
Sec. 11-4-13. Exemptions for authorized emergency vehicles.
Sec. 11-4-14. Report of vehicles stored for more than 30 days.
Sec. 11-4-15. Traffic records and reports.
Sec. 11-4-16. Violators to furnish name and address.
Sec. 11-4-17. City impound lot—Sales.
Sec. 11-4-18. City impound lot—Unsalvageable sales.
Sec. 11-4-19. Non-driver participation in drag racing and reckless driving exhibitions.

Sec. 11-4-1. Definitions.

The following terms, whenever used in this title, except as otherwise specifically indicated, shall be held to have each of the meanings hereinbelow set forth, and any such term used in the singular number shall be held to include the plural.

Alley means any lane or other passageway as so designated by the official map of the city.

Authorized emergency vehicle means vehicles of the fire division, fire patrol, police vehicles and such ambulances and emergency vehicles as are designated or authorized by the state commissioner of safety or the director of police of the city.

Bicycle means every device propelled by human power upon which any person may ride, having two tandem wheels either of which is more than 20 inches in diameter.

Bus means every motor vehicle designed for carrying more than ten passengers and used for the transportation of persons; and every motor vehicle, other than a taxicab, designed and used for the transportation of persons for compensation.

Chauffeur means every person who is employed by another for the principal purpose of driving a motor vehicle and every person who drives a school bus transporting school children or any motor vehicle when in use for the transportation of persons or property for compensation.

Coach stop means a space adjacent to a curb reserved for the exclusive use of vehicles during the loading or unloading of passengers.

Controlled-access highway means every street, highway or roadway in respect to which owners or occupants of abutting lands and other persons have no legal right of access to or from the same except at such points only and in such manner as may be determined by the proper authorities having jurisdiction over such street, highway or roadway.

Crosswalk means that part of a roadway at an intersection included within the connections of the lateral lines of the sidewalks on opposite sides of the street measured from the curbs or, in absence of curbs, from the edges of the traversable roadway. Such term shall also include any portion of a roadway at an intersection or elsewhere distinctly indicated for pedestrian crossing by lines or other markings on the surface.

Curb means the lateral boundary of that portion of the street designated for the use of vehicles, whether marked with a curbstone or not.

Driver means every person who drives or is in actual physical control of a vehicle.

Intersection means the areas embraced with the prolongation or connection of the lateral curb lines, or if none, then the lateral boundary lines of the roadways of two streets which join one another at, or approximately at, right angles, or the areas within which vehicles traveling upon different streets joining at any other angle may come in conflict. Where a street includes two roadways 30 feet or more apart, then every crossing of each roadway of such divided street by an intersecting street shall be regarded as a separate intersection. In the event such intersecting street also includes two roadways 30 feet or more apart, then every crossing of two roadways of such street shall be regarded as a separate intersection.

Laned roadway means a roadway which is divided into two or more clearly marked lanes for vehicular traffic.

License to operate a motor vehicle means any operator's or chauffeur's license, or any other license or permit to operate a motor vehicle issued under the laws of the state including:

1. Any temporary license or instruction permit;
2. The privilege of any person to drive a motor vehicle whether or not such person holds a valid license;
3. Any nonresident's operating privilege as defined in the Tennessee Code.

Loading and unloading zone means any portion of the street designated by the city engineer by official signs for the use of vehicles while actually engaged in loading or unloading freight or picking up and discharging passengers.

Metal tire means every tire the surface of which in contact with the street is wholly or partly of metal or other hard, nonresilient material.

Motorcycle means every motor vehicle having a seat or saddle for the use of the rider and designed to travel on not more than three wheels in contact with the ground, but excluding a tractor or motorized bicycle.

Motor-driven cycle means every motorcycle, including every motor scooter, with a motor which produces not to exceed five brake horsepower, or with a motor with a cylinder capacity not exceeding 125 cubic centimeters.

Motorized bicycle means a vehicle with fully operable pedals for propulsion by human power, an automatic transmission, and a motor with a cylinder capacity not exceeding 50 cubic centimeters which produces no more than two brake horsepower and is capable of propelling the vehicle at a maximum design speed of no more than 30 miles per hour on level ground. The operator of a motorized bicycle must be in possession of a valid operator's or chauffeur's license, and shall be subject to all applicable and practical rules of the road. A motorized bicycle may not be operated on a highway of the interstate and defense highway system, any similar limited-access multilane divided highway, or upon sidewalks.

Motor vehicle means every vehicle which is self-propelled, excluding motorized bicycles, and every vehicle which is propelled by electric power obtained from overhead trolley wires, but not operated upon rails.

Off-street parking facility means any unenclosed lot, building or space used for the parking of automobiles or other motor vehicles where charges are made for the parking or storage of automobiles or other motor vehicles thereon.

Official traffic-control devices means all signs, markings, signals and devices not inconsistent with this title, placed or erected by authority of the city engineer for the purpose of regulating, warning or guiding traffic.

Operator means every person, other than a chauffeur, who drives or is in actual physical control of a motor vehicle upon a highway or who is exercising control over or steering a vehicle being towed by a motor vehicle.

Owner means any person in whose name any vehicle shall be registered under the laws of the state, or of any other political subdivision where such owner may be domiciled.

Parking means the standing of a vehicle, whether occupied or not, upon a street otherwise than temporarily for the purpose of, and while actually engaged in, receiving or discharging passengers, or loading or unloading merchandise, or in obedience to traffic regulations or traffic signs or signals.

Parking meter means any device by which the time a vehicle may be parked at any point on the streets of the city is measured and compensation paid therefor.

Parking meter space means any space adjacent to a parking meter, and which is duly designated for the parking of a single vehicle.

Pedestrian means any person afoot.

Pneumatic tire means every tire in which compressed air is designed to support the load.

Police officer means every officer of the police division of the city, or any person authorized to direct or regulate traffic or to make arrests for violations of traffic regulations.

Private road or *driveway* means every way or place in private ownership and used for vehicular travel by the owner and those having express or implied permission from the owner, but not by other persons.

Railroad means a carrier of persons or property upon cars, other than streetcars, operated upon stationary rails.

Railroad sign or signal means any sign, electrically or manually operated signal or other device erected by authority of the proper officials of the city or by a railroad and intended to give notice of the presence of railroad tracks or the approach of a railroad train.

Railroad train means a steam engine, electric or other motor, with or without cars coupled thereto, operated upon rails, except streetcars.

Right-of-way means the privilege of the immediate use of the roadway.

Roadway means that portion of a street improved, designed or ordinarily used for vehicular travel, exclusive of the berm or shoulder. In the event a street includes two or more separate roadways, the term "roadway" shall refer to any such roadway separately but not to all such roadways collectively.

Safety zone means the area or space officially set apart within a roadway for the exclusive use of pedestrians and which is protected or is so marked or indicated by adequate signs as to be plainly visible at all times while set apart as a safety zone.

School bus means every motor vehicle owned by a public or governmental agency and operated for the transportation of children to or from school or privately owned and operated for compensation for the transportation of children to or from school.

Semitrailer means every vehicle, with or without motive power, other than a pole trailer, designed for carrying persons or property and for being drawn by a motor vehicle and so constructed that some part of its weight and that of its load rests upon or is carried by another vehicle.

Sidewalk means that portion of a street between the curb lines, or the lateral lines of a roadway, and the adjacent property lines, intended for use of pedestrians.

Solid tire means every tire of rubber or other resilient material which does not depend upon compressed air for the support of the load.

Stop, when required, means complete cessation from movement.

Stopping, standing, or *parking,* when prohibited, means any stopping or standing or parking of a vehicle, whether occupied or not, except when necessary to avoid conflict with other traffic or in compliance with the directions of a police officer or traffic-control sign or signal.

Street means the entire width between right-of-way lines of every way, except designated alleys, publicly maintained when any part thereof is open to the use of the public for the purpose of vehicular travel.

Taxicab means any vehicle, other than a bus, used in the carrying or transporting of persons or property for hire.

Taxicab stand means any portion of the street assigned or allotted to any person for the exclusive purpose of parking one or more taxicabs.

Tractor means any self-propelled vehicle designed or used as a traveling power plant or for drawing other vehicles, but having no provision for carrying loads independently.

Traffic means pedestrians, ridden or herded animals, vehicles, and other conveyances, either singly or together, while using any street for purposes of travel.

Traffic-control signal means any sign or device, whether manually, electrically or mechanically operated, by which traffic is alternately directed to stop and to proceed, or otherwise controlled.

Traffic division means the traffic division of the police division, as created by this title.

Trailer means every vehicle, with or without motive power, designed for carrying persons or property and for being drawn by a motor vehicle and so constructed that no part of its weight rests upon the towing vehicle.

Truck means every motor vehicle designed, used or maintained primarily for the transportation of property.

Vehicle means every device in, upon or by which any person or property is or may be transported or drawn upon a street, excepting devices moved by human power or used exclusively upon stationary rails or tracks.
(Code 1985, § 21-1; Ord. No. 3586, § 1, 9-2-1986)

State law reference—Definitions, T.C.A. § 55-1-102 et seq.

Sec. 11-4-2. General duties of director of police under title.

The director of police is vested with the power and is charged with the duty of observing, administering and enforcing the provisions of this title and of all laws

regulating the operation of vehicles or the use of the streets, the enforcement or administration of which is now vested in the police division.
(Code 1967, § 23-2; Code 1985, § 21-2)

Sec. 11-4-3. Establishment, control and general duties of traffic division of police division.

There is established in the police division of the city a traffic division to be under the control of an officer of police directly responsible to the director of police. It shall be the primary duty of the traffic division, with such aid as may be rendered by other members of the police division, to enforce the street traffic regulations of the city and all of the state vehicle laws applicable to street traffic in the city, to make arrests for traffic violations, to investigate traffic accidents and to arrest and to assist in the prosecution of those persons charged with violations causing or contributing to such accidents, to cooperate with the director of public works and other officials of the city in the administration of the traffic laws and in developing ways and means to improve traffic conditions, and to carry out those duties specially imposed upon such division by this title and other traffic ordinances of the city.
(Code 1967, § 23-3; Code 1985, § 21-3)

Sec. 11-4-4. Traffic design department generally.

It shall be the general function of the traffic engineering department to determine the installation and proper timing and maintenance of traffic-control devices, to conduct engineering analyses of traffic accidents and to devise remedial measures, to conduct engineering investigation of traffic conditions, to plan the movement of traffic on the streets and highways of this city, and to cooperate with other city officials in the development of ways and means to improve traffic conditions.
(Code 1967, § 23-4; Code 1985, § 21-4; Ord. No. 3586, § 2, 9-2-1986)

Sec. 11-4-5. Duty of police to enforce traffic laws.

It shall be the duty of the officers of the police division of the city or such persons as are assigned by the director of police to enforce all street traffic laws of this city and all the state motor vehicle laws applicable to street traffic in the city.
(Code 1967, § 23-5; Code 1985, § 21-5)

Sec. 11-4-6. Authority of police to direct traffic.

Officers of the police division or such persons as are assigned by the director of police are authorized to direct all traffic by voice, hand or signal in conformance with traffic laws; provided that in the event of a fire or other emergency or to expedite traffic or to safeguard pedestrians, officers of the police division may direct traffic as conditions may require notwithstanding the provisions of the traffic laws.
(Code 1967, § 23-6; Code 1985, § 21-6)

Sec. 11-4-7. Authority of firefighters to direct traffic.

Personnel of the fire division, when at the scene of a fire, may direct or assist the police in directing traffic thereat or in the immediate vicinity.
(Code 1967, § 23-7; Code 1985, § 21-7)

Sec. 11-4-8. Obedience to traffic officers.

No person shall willfully fail or refuse to comply with any lawful order or direction of a police officer, or of a fire division official at the scene of a fire, or any person authorized to direct, control or regulate traffic.
(Code 1967, § 23-8; Code 1985, § 21-8)

State law reference—Similar provisions, T.C.A. § 55-8-104.

Sec. 11-4-9. Obedience to school safety patrols.

All motorists and pedestrians shall obey the directions or signals of the school safety patrols, when such patrols are assigned under the authority of the director of police, and when acting in accordance with instructions; provided that such persons giving any order, signal or directions shall, at the time, be wearing some insignia and using authorized flags for giving signals.
(Code 1967, § 23-9; Code 1985, § 21-9)

Sec. 11-4-10. Riding or driving animals or animal-drawn vehicles.

A. Every person riding an animal upon a roadway, and every person driving any animal-drawn vehicle, shall be subject to the provisions of this title applicable to the driver of any vehicle, except those provisions of this title which, by their very nature, can have no application.

B. No person shall ride or drive any animal upon any street beyond a moderate gait. Every person riding or driving any animal upon any street shall slacken the pace of such animal in approaching any street crossing upon

which any person may be in the act of crossing and shall also slacken the pace of such animal when any person is boarding or leaving a bus or trackless trolley. Every person driving or riding any animal shall exercise due care to avoid colliding with or striking any person or property in a public street. It is unlawful for any person to leave any animal standing in a public street without the animal's being fastened or so guarded as to prevent running away, or to turn the animal loose in any street.
(Code 1967, § 23-16; Code 1985, § 21-10)

State law reference—Similar provisions, T.C.A. § 55-8-105.

Sec. 11-4-11. Application to persons propelling pushcarts.

Every person propelling any pushcart shall be subject to the provisions of this title applicable to the driver of any vehicle, except those provisions which, by their very nature, can have no application.
(Code 1967, § 23-17; Code 1985, § 21-11)

Sec. 11-4-12. Application to persons working on street.

Unless specifically made applicable, the provisions of this title shall not apply to persons, teams, motor vehicles and other equipment while actually engaged in work upon the surface of a street, but shall apply to such persons and vehicles when traveling to or from such work.
(Code 1967, § 23-18; Code 1985, § 21-12)

Sec. 11-4-13. Exemptions for authorized emergency vehicles.

A. The driver of an authorized emergency vehicle, when responding to an emergency call or when in the pursuit of an actual or suspected violator of the law or when responding to but not upon returning from a fire alarm, may exercise the privileges set forth in this section, but subject to the conditions herein stated.

B. The driver of an authorized emergency vehicle may:

1. Park, stand or stop irrespective of the provisions of this title;
2. Proceed past a red signal or stop sign, but only after slowing down as may be necessary for safe operation;
3. Exceed the speed limits so long as he or she does not endanger life or property;
4. Disregard regulations governing direction of movement or turning in specified directions.

C. The exemptions herein granted to an authorized emergency vehicle shall apply only when such vehicle is making use of audible and visual signals meeting the requirements of the applicable state laws, except that an authorized emergency vehicle operated as a police vehicle need not be equipped with or display a red light visible from in front of the vehicle.

D. The foregoing provisions shall not relieve the driver of an authorized emergency vehicle from the duty to drive with due regard for the safety of all persons, nor shall such provisions protect the driver from the consequences of his or her reckless disregard for the safety of others.
(Code 1967, § 23-19; Code 1985, § 21-13)

State law reference—Similar provisions, T.C.A. § 55-8-108.

Sec. 11-4-14. Report of vehicles stored for more than 30 days.

A. Whenever a motor vehicle has been stored, parked or left in a garage, trailer park or court, or any type of storage or parking lot for a period of more than 30 consecutive days, the owner of such garage, trailer park or lot shall report in writing the make, motor number, vehicle identification number and serial number of such motor vehicle to the police division. This section shall not apply where the owner of the motor vehicle so parked or stored is personally known to the owner or operator of the garage, trailer park or court, storage or parking lot and where such motor vehicle owner has made arrangements for the parking or storing of such motor vehicle for a longer period of time than 30 days.

B. Any person who fails to submit the report required hereunder within ten days after the termination of such 30-day period shall forfeit all claims for storage or parking of such vehicle and shall be guilty of a misdemeanor and shall be fined not less than $10.00 for each offense. Each day's failure to make such report shall be deemed a separate offense.
(Code 1967, § 23-21; Code 1985, § 21-25)

Sec. 11-4-15. Traffic records and reports.

The police division shall maintain a suitable system of filing accident reports, drivers' records, arrests, convic-

tions for arrests or citations and shall periodically prepare a traffic report which shall be filed with the city council containing information on traffic matters in this city. Such reports shall include the following:

A. The number of traffic accidents, the number of persons injured and/or fatally injured, and other pertinent traffic accident data;

B. The number of traffic accidents investigated and other pertinent data on the safety activities of the police;

C. The plans and recommendations of the division for future traffic safety activities.

(Code 1967, § 23-22; Code 1985, § 21-26)

Sec. 11-4-16. Violators to furnish name and address.

Any person charged with violating any provision of this title shall furnish to any police officer, on demand, his or her correct name and address and supply also, if required, proof of his or her identity. Any failure to comply with this requirement shall be justification for immediate arrest.

(Code 1967, § 23-23; Code 1985, § 21-27)

Sec. 11-4-17. City impound lot—Sales.

It is unlawful to sell more than six vehicles any one calendar year, from the city's impound lot, on an individual basis. This restriction shall not apply to duly licensed automobile dealers.

(Code 1985, § 21-31; Ord. No. 4432, § 1, 8-6-1996)

Sec. 11-4-18. City impound lot—Unsalvageable sales.

Individual sale of unsalvageable vehicles from the city impound lot is unlawful. This restriction shall not apply to duly licensed salvage dealers.

(Code 1985, § 21-32; Ord. No. 4433, § 1, 8-6-1996)

Sec. 11-4-19. Non-driver participation in drag racing and reckless driving exhibitions.

A. For purposes of this section, the following terms shall mean:

Drag racing and *reckless driving exhibition* means any motor vehicle ascertaining the maximum speed obtainable by the vehicle; performing donuts, burnouts and drifting by a single automobile; ascertaining the highest obtainable speed of the vehicle within a certain distance or within a certain time limit; the use of any one or more motor vehicles for the purpose of comparing the relative speeds of the vehicle or vehicles, or for comparing the relative speeds of the vehicle or vehicles within a certain distance or within a certain time limit; the use of one or more motor vehicles in an attempt to outgain, outdistance or to arrive at a given destination simultaneous with or prior to that of any other motor vehicle; or the use of any motor vehicle for the purpose of the accepting of, or the carrying out of any challenge, made orally, in writing, or otherwise, made or received with reference to the performance abilities of one or more motor vehicles;

Organizer means any individual who in any manner knowingly takes part in the planning, organization, coordination, facilitation, advertising or sharing of the location for any such drag race, or collect moneys in connection with a drag racing exhibition, as defined herein;

Participant means any individual who is knowingly present at a drag racing exhibition for the purpose of actively taking part in the event, through conduct including riding in a race vehicle as a passenger; assisting the organizers and/or drivers in carrying out or promoting the event; or exchanging money or anything of value with any driver, car owner, or other participant in connection with the event. For the purposes of this section, a person who is a mere bystander, passerby, or observer not aware of the illegal activity shall not be deemed a participant.

B. Violations.

1. No person shall knowingly act as an organizer of a drag racing or reckless driving exhibition, as defined herein.

2. Except as provided elsewhere in this chapter, no person shall knowingly act as a participant in a drag racing or reckless driving exhibition, as defined herein.

C. Penalties.

1. Anyone found in violations of this section shall be prosecuted in the same manner as other traffic violations of this Code, shall be initiated upon issuance of a traffic citation ticket subjected to a fine not to exceed $50.00 and shall require a mandatory court appearance.

D. Exemptions.

This section shall not apply to licensed or duly authorized racetracks, drag strips, or other designated areas set aside by proper authorities for such purposes. (Ord. No. 5771, § 1, 7-6-2021)

CHAPTER 11-8. ADMINISTRATION AND ENFORCEMENT

Sections:

Sec. 11-8-1. Definitions.
Sec. 11-8-2. Sections 7-63-101 through 7-63-107, T.C.A., adopted.
Sec. 11-8-3. When summonses deemed lawful complaints for prosecution.
Sec. 11-8-4. Procedures applicable to summonses and traffic citations.
Sec. 11-8-5. Violation forfeitures.
Sec. 11-8-6. Court may adopt rule permitting deposit of chauffeur's or operator's license in lieu of bond.
Sec. 11-8-7. Limitation on action for traffic violation—When action deemed commenced—Service of summons.
Sec. 11-8-8. Dismissal or nolle prossing of summons or citation not prohibited.
Sec. 11-8-9. When attendance of driver education course required—Additional penalty for benefit of driver education program.
Sec. 11-8-10. Compliance with financial responsibility law required—Evidence of compliance.
Sec. 11-8-11. Electronic citations.

Sec. 11-8-1. Definitions.

The following definitions shall apply to sections 11-8-2 through 11-8-8:

Electronic traffic citation is any traffic citation or traffic summons, containing all information required by law, that is prepared by a law enforcement officer in an electronic data device with the intent that the data collected shall be filed electronically with a court having jurisdiction over the alleged offense.

Ordinance summons is a ticket issued to an offender by a police officer or other person authorized by law under T.C.A. § 7-63-101 to appear in the city court for any offense other than traffic, showing the offense charged and signed by the offender agreeing to appear at the place and time indicated; the ordinance summons being issued for the violation of any other ordinance, law or regulation of the municipality in the presence of the police officer or other designated official authorized to issue such summonses by T.C.A. § 7-63-101.

Summons is the process issued by the city court, and signed by the judge or clerk as provided by law, and served by personal service or certified or registered mail, as provided by law.

Traffic citation is any ticket issued by a police officer or other person authorized by law where there is no personal delivery of the ticket to the offender and the ticket is not signed by the offender, such as a parking ticket.

Traffic summons is any ticket issued to an offender by a police officer or other person authorized by law to appear in the city court, showing the offense charged and signed by the offender agreeing to appear at the time and

place indicated, or to appear in the traffic violations bureau on or before the time indicated to pay the forfeiture required or to request a trial date.

Traffic violations bureau is the bureau established to file and process traffic summonses and traffic citations for payment prior to the preparation of the docket and delivery of the ticket or citation to the clerk for hearing as provided herein, and to maintain records of disposition of summons and citations.

(Code 1967, § 23-24; Code 1985, § 21-46; Ord. No. 2229, § 2, 5-13-1975; Ord. No. 2223, § 1(1—3), 7-11-1975; Ord. No. 5568, § 1, 10-21-2014)

Sec. 11-8-2. Sections 7-63-101 through 7-63-107, T.C.A., adopted.

The provisions of T.C.A. §§ 7-63-101 through 7-63-107 are adopted. The adoption of T.C.A. § 7-63-101 et seq., applies to violations of any traffic or other ordinances, laws and regulations of the city as provided in such code provision.

(Code 1967, § 23-25; Code 1985, § 21-47; Ord. No. 2229, § 2, 5-13-1975; Ord. No. 2455, § 1, 6-29-1976)

Sec. 11-8-3. When summonses deemed lawful complaints for prosecution.

In the event the form of traffic summons, traffic citation or ordinance summons issued includes information as required under the general laws of this state, adopted herein, or the Charter of the city, or this chapter in respect to a complaint charging the commission of offense alleged in the traffic summons, traffic citation or ordinance summons to have been committed, then such summons or citation, when filed with the clerk's office or the traffic violations bureau, shall be deemed to be a lawful complaint for the purpose of prosecution under this title in accordance with the procedures herein.

(Code 1967, § 23-26; Code 1985, § 21-48; Ord. No. 2229, § 2, 5-13-1975)

Sec. 11-8-4. Procedures applicable to summonses and traffic citations.

The following procedures shall apply as to traffic summonses, ordinance summonses and traffic citations:

A. *Traffic summons.* Every traffic summons issued shall provide for an appearance date and such date shall be not less than five nor more than 15 days after the issuance of a traffic summons. The offender shall pay by mail or shall appear at the traffic violations bureau on the date set therein or at any time prior thereto and pay the forfeiture as set forth herein, or may request a trial date prior to or on the date set therein. The trial date shall be set at some time thereafter upon one of the dates established as the court date for the police officer writing the summons and the docket prepared.

If any offender fails to appear on or before the appearance date, a docket shall be prepared as soon as possible of all those persons failing to appear to be called the default docket. The docket shall be presented to the court and the court shall, upon motion of the clerk, take a default judgment against the defendant in favor of the city in an amount not less than that specified by the schedule of forfeitures nor more than $50.00, plus costs, for each offense. The default docket shall be assigned in accordance with procedures established by the court rules.

B. *Ordinance summonses.* Whenever any person is served with an ordinance summons, the person shall appear at the date and time set forth therein in court for hearing of the cause unless such violation has a forfeiture set specifically in section 11-8-5. If such person fails to appear on the date and time, a default judgment shall be taken not to exceed $50.00 and costs for each offense.

C. *Traffic citation.* Whenever any traffic citation has been issued, the citation shall provide for payment within 15 days from issuance. Any person receiving such traffic citation may appear and pay the forfeiture set therein at the traffic violations bureau on or before that date, either in person or by mail. If no one appears to pay such traffic citation by the end of the 15-day period, then a summons shall be issued as provided in the Charter and served either by personal service or certified or registered mail as provided by law indicating the date and time for such person to appear to answer the charge in such traffic citation. The traffic citation summons shall be set upon the docket specially established for such summons. If such person fails to appear to answer such citation before the court indicated and at the date and time provided for, the court, upon motion of the city, shall take a default judgment against the defendant in favor of the city. The amount of such

default judgment shall be at least the amount of the forfeiture set for the violation of such section and no more than $50.00 and costs for each violation.

The traffic citation summons shall be sworn to by the officer before a person designated as a city court clerk for the purpose of taking oaths on a form of oath approved by a majority of the city court judges. The city court clerk's office shall certify that the defendant is the registered owner of the vehicle by signing the docket and certifying to such registration. The oath of the officer and the certification of the clerk shall be prima facie evidence that the defendant violated the section charged. If the defendant contests the ownership of the vehicle or the violation of the ordinance, he or she shall file a sworn pleading in evidence of the hearing setting forth such defense or defenses so as to allow the city sufficient time to prepare for the trial.

(Code 1967, § 23-27; Code 1985, § 21-49; Ord. No. 2229, § 2, 5-13-1975; Ord. No. 2223, § 1(4—6), 7-11-1975; Ord. No. 3201, § 1(1), 5-18-1982)

Sec. 11-8-5. Violation forfeitures.

A. The traffic violations bureau is authorized to collect the following schedule of forfeitures:

Traffic Violations Bureau
Schedule of Forfeitures

Section Violated	*Nature of Violation*	*Forfeiture*

11-12-7	Flashing signals	$30.00
11-12-8	Pedestrian-control signal	$20.00
11-12-12	Controlled-access roadways	$15.00
11-12-13	Obedience to devices	$50.00
11-16-1	State license required	Court
11-16-2	Duty to devote full time and attention to operating vehicle	$30.00
11-16-3	Duty to drive at safe speed, maintain lookout and keep vehicle under control	$30.00
11-16-4	Driving when view or control obstructed	$20.00
11-16-5	Lap driving	$20.00
11-16-6	Pulling away from curb	$30.00
11-16-7	Emerging from or entering alley, private driveway or building	$30.00

Section Violated	*Nature of Violation*	*Forfeiture*
11-16-8	Duty to drive on right side of roadway	$30.00
11-16-9	Passing vehicles proceeding in opposite direction	$25.00
11-16-10	Passing vehicles proceeding in same direction—generally	$25.00
11-16-11	Passing vehicles proceeding in same direction—on right side	$25.00
11-16-12	Passing vehicles proceeding in same direction—duty of driver of overtaken vehicle	$25.00
11-16-13	Overtaking and passing school buses; identification of buses	Court
11-16-14	Driving on roadways laned for traffic	$25.00
11-16-15	Driving on divided street	$25.00
11-16-16	Entering/leaving controlled-access roadway	$25.00
11-16-17	Driving in parks	$25.00
11-16-18	Driving within a sidewalk area	$50.00
11-16-19	Obstructing intersection or crosswalk	$50.00
11-16-20	Following too closely	$30.00
	General Speed Restrictions	
11-16-21	Speed limit—parks—20 mph zone	
	21 mph through 25 mph	$10.00
	26 mph through 30 mph	$20.00
	31 mph through 35 mph	$35.00
	36 mph through 45 mph	$45.00
	46 mph and over	Court
11-16-21	Speed limit 25 mph zone	
	26 mph through 30 mph	$10.00
	31 mph through 35 mph	$20.00
	36 mph through 40 mph	$35.00
	41 mph through 50 mph	$45.00
	51 mph and over	Court
11-16-21	Speed limit 35 mph zone	
	36 mph through 40 mph	$10.00
	41 mph through 45 mph	$20.00
	46 mph through 50 mph	$35.00
	51 mph through 55 mph	$45.00
	61 mph and over	Court
11-16-21	Speed limit 40 mph zone	
	41 mph through 45 mph	$10.00
	46 mph through 50 mph	$20.00
	51 mph through 55 mph	$35.00
	56 mph through 65 mph	$45.00
	66 mph and over	Court

Section Violated	*Nature of Violation*	*Forfeiture*
11-16-21	Speed limit 45 mph zone	
	46 mph through 50 mph	$10.00
	51 mph through 55 mph	$20.00
	56 mph through 60 mph	$35.00
	61 mph through 70 mph	$45.00
	71 mph and over	Court
11-16-21	Speed limit 50 mph zone	
	51 mph through 55 mph	$10.00
	56 mph through 60 mph	$20.00
	61 mph through 65 mph	$35.00
	66 mph through 75 mph	$45.00
	76 mph and over	Court
11-16-21	Speed limit 55 mph zone	
	56 mph through 60 mph	$10.00
	61 mph through 65 mph	$20.00
	66 mph through 70 mph	$35.00
	71 mph through 80 mph	$45.00
	81 mph and over	Court
11-16-22	Speed limit—school zone—15 mph zone	
	16 mph through 25 mph	Court
	26 mph through 35 mph	Court
	36 mph and over	Court
11-16-23	Minimum speed regulations	$15.00
11-16-24	Right-of-way at uncontrolled intersections	$30.00
11-16-25	Yield intersections	$30.00
11-16-26	Stop intersections	$30.00
11-16-27	One-way streets	$30.00
11-16-28	Turning movements generally	$30.00
11-16-29	Markings or signs regulating manner of making turns	$20.00
11-16-31	Prohibited turns	$20.00
11-16-32	Limitations on turning around	$20.00
11-16-33	Turning and stopping signals—generally	$20.00
11-16-34	Turning and stopping signal—manner of giving with hand and arm	$20.00
11-16-35	Turning and stopping signal—change of direction after signal given	$20.00
11-16-36	Turning and stopping signals—duty of drivers receiving signal	$20.00
11-16-37	Right-of-way when vehicle turning left at intersection	$30.00
11-16-38	Limitations on backing	$30.00
11-16-39	Procedure upon approach of authorized emergency vehicle	$50.00
11-16-40	Following fire apparatus or driving near fire	$20.00
11-16-41	Driving over fire hose	$20.00
11-16-42	Driving in processions	$20.00

Section Violated	*Nature of Violation*	*Forfeiture*
11-16-43	Driving through processions	$10.00
11-16-44	Reckless driving	Court
11-16-45	Striking parked vehicles or fixed objects	$30.00
11-16-46	Operating vehicle for advertising purposes	$15.00
11-16-47	Restriction on use of certain streets by trucks, trailers and heavy duty vehicles	$15.00

12-48-7	Vehicle illegally on mall	$50.00
12.84-13	Parking or stopping of vehicles in certain places prohibited	$15.00
Various	Violation of prohibited activities, per violation	$50.00

B. Nothing herein shall prohibit a person from requesting that the ticket or citation issued against him or her be transferred to the docket of the city court for disposition.

C. In the event of a violation of any traffic regulation not herein set out, the chief of the traffic violations bureau is authorized to collect, as a forfeiture, the sum of $15.00 prior to the issuance of a summons; but after issuance of such summons, $30.00.

D. The schedule of forfeitures for the traffic violations bureau is raised $14.00 on each and every amount set therein when the municipal violation was served upon the person by means of a traffic summons. For the purposes of this section, a "traffic summons" is any ticket issued by an officer or other person authorized by law to issue such ticket to an offender showing the offense charged and signed by the offender agreeing to appear at the time and place indicated. The same schedule of forfeitures shall remain in effect, however, for any person receiving a traffic citation; that is, any ticket issued by a police officer or other person provided by law where

there is no personal delivery of the ticket (such as a parking ticket) to the offender and the ticket is not signed by the offender.

E. The established forfeitures as provided herein may be paid at the traffic violations bureau at any time prior to the court date appearing upon any citation issued for a violation of any traffic ordinance contained in this Code except in those instances in which by law or order of court an appearance in court is required. Such payments at the traffic violations bureau may be made in person or by mail, or as otherwise provided by law. All moneys collected by the traffic violations bureau shall be turned over to the city treasurer daily.

F. Notwithstanding the foregoing, in addition to the forfeiture amounts resulting from parking tickets issued in accordance with this chapter, a delinquency fee in the amount of $20.00 shall be imposed for any parking ticket remaining unpaid 60 days following the date of issuance and $40.00 for any ticket that remains unpaid for 90 days following the date of issuance.

(Code 1967, §§ 23-28, 23-242; Code 1985, § 21-50; Ord. No. 2229, § 2, 5-13-1975; Ord. No. 2719, § 1, 5-16-1978; Ord. No. 2883, § 1, 5-29-1979; Ord. No. 3168, § 1, 10-20-1981; Ord. No. 3201, § 1(2), 5-18-1982; Ord. No. 3314, § 1, 6-28-1983; Ord. No. 3375, § 1(1), 5-22-1984; Ord. No. 3758, § 1, 5-17-1988; Ord. No. 3783, § 1, 7-26-1988; Ord. No. 3975, § 1, 6-26-1990; Ord. No. 4263, § 1, 6-14-1994; Ord. No. 4296, § 1, 12-6-1994; Ord. No. 4310, § 1, 3-21-1995; Ord. No. 4387, § 2, 2-6-1996; Ord. No. 4953, § 2, 8-6-2002; Ord. No. 5429, § 1, 12-6-2011; Ord. No. 5505, § 1, 5-21-2013; Ord. No. 5507, § 1, 6-4-2013; Ord. No. 5560, § 2, 9-2-2014; Ord. No. 5576, § 2, 12-16-2014)

Sec. 11-8-6. Court may adopt rule permitting deposit of chauffeur's or operator's license in lieu of bond.

The judges of the city court by rules adopted by them may adopt the provisions of T.C.A. §§ 55-7-401 through 55-7-405 so as to provide for the deposit of a chauffeur's or operator's license in lieu of bond or other security. Such court rules when adopted shall be posted in the clerk's office and distributed to the police division for information and implementation.

(Code 1967, § 23-29; Code 1985, § 21-51; Ord. No. 2229, § 2, 5-13-1975)

Sec. 11-8-7. Limitation on action for traffic violation—When action deemed commenced—Service of summons.

A. No action shall be commenced by the city in any court for the purpose of enforcing any violation of traffic ordinances of the city after one year from the commission of the offense.

B. For the purpose of this section a court action shall be deemed to be commenced:

1. Upon the arrest of the offender;
2. Upon the issuance of a traffic summons to the offender;
3. Upon the issuance of an arrest or bench warrant for the offender; or
4. Upon the issuance of a summons to the offender.

C. A summons may be served by:

1. Personal service on the offender; or
2. Registered or certified mail, addressee only, return receipt requested.

(Code 1967, § 23-30; Code 1985, § 21-52; Ord. No. 2229, § 2, 5-13-1975)

Sec. 11-8-8. Dismissal or nolle prossing of summons or citation not prohibited.

Nothing herein shall prevent the city through the city attorney's office from dismissing or nolle prossing any summons or citation in open court. Such summons or citation shall be dismissed if it shall be determined that the citation was issued where there was the mechanical failure of a parking meter, the citation was issued to a nonresident and is deemed uncollectible, there is a lack of proof, or for such other valid reasons as stated to the court.

(Code 1967, § 23-31; Code 1985, § 21-53; Ord. No. 2229, § 2, 5-13-1975)

Sec. 11-8-9. When attendance of driver education course required—Additional penalty for benefit of driver education program.

A. Pursuant to T.C.A. § 55-10-308, authority is granted to municipalities to enforce regulation and operation of vehicles and the imposing of attendance of a driver education course upon persons found guilty of moving traffic violations.

B. In addition to all other fines, fees, costs and punishments now prescribed by law, the driver of any motor vehicle upon his or her conviction by any judge or plea of guilty or submission to fine for any offense involving a moving traffic violation prescribed by municipal ordinance may be required, at the discretion of the court, to attend a driver education course approved by the state department of safety, in addition to, or in lieu of, any portion of other penalty imposed.

C. There shall be a fee of $12.00 assessed in addition to all other fines, fees, costs and punishments now prescribed by law upon the driver of any motor vehicle upon his or her conviction by any judge or plea of guilty or submission to fine for any offense involving a moving traffic violation or upon conviction or plea of guilty or submission to fine for any moving traffic violation prescribed by municipal ordinance, for the driver education course, but no one shall be refused admittance to any course if found to be unable to pay such fee.

D. For the purpose of this section, the term "moving traffic violation" means any offense which can occur only if the motor vehicle is in motion.

E. All fees collected under this section shall be forwarded by the office of the court which collects the same to the city comptroller within 30 days after the fee, penalty or forfeiture is collected. The city comptroller shall then be responsible for transferring these funds to the agency in charge of the driver education program.

F. The $12.00 additional fee collection under section 11-8-5(D) for this program shall also be forwarded to the city comptroller, who shall then transfer these funds to the agency in charge of the driver education program.
(Code 1967, § 23-35; Code 1985, § 21-54; Ord. No. 2719, § 1, 5-16-1978; Ord. No. 3171, § 1, 11-17-1981; Ord. No. 3375, § 1(2), 5-22-1984; Ord. No. 3783, §§ 2, 3, 7-26-1988; Ord. No. 4303, § 1, 2-21-1995)

Sec. 11-8-10. Compliance with financial responsibility law required—Evidence of compliance.

A. Every vehicle driven on the streets of the city must be in compliance with the financial responsibility law.

B. At the time the driver of a motor vehicle is charged with any moving violation under this title regulating traffic, or at the time of an accident for which notice is required under state law, the officer shall request evidence of financial responsibility as required by this section. In case of an accident for which notice is required under state law, the officer shall request such evidence from all drivers involved in the accident, without regard to apparent or actual fault. For purposes of this section, the term "financial responsibility" means:

1. Documentation, such as the declaration page of an insurance policy, an insurance binder, or an insurance card from an insurance company authorized to do business in Tennessee, stating that a policy of insurance meeting the requirements for the Tennessee Financial Responsibility Law of 1977, compiled in T.C.A. tit. 55, ch. 12, has been issued;

2. A certificate, valid for one year, issued by the commissioner of safety, stating that a cash deposit or bond in the amount required by the Tennessee Financial Responsibility Law of 1977, compiled in T.C.A. tit. 55, ch. 12, has been paid or filed with the commissioner, or has qualified as a self-insurer under T.C.A. § 55-12-111; or

3. The motor vehicle being operated at the time of the violation was owned by a carrier subject to the jurisdiction of the department of safety, or the interstate commerce commission, or was owned by the United States, the state, or any political subdivision thereof, and that such motor vehicle was being operated with the owner's consent.

C. It is an offense to fail to provide evidence of financial responsibility pursuant to this section. Any violation is punishable only by fine of not more than $50.00.

D. The fine imposed by this section shall be in addition to any other fine imposed by this title, for any other violation under this title.

E. On or before the court date, the person so charged may submit evidence of financial responsibility at the time of the violation. If it is the person's first violation of this section and the court is satisfied that the financial responsibility was in effect at the time of the violation, the charge of failure to provide evidence of financial responsibility shall be dismissed. Upon the person's second or subsequent violation of this section, if the court is satisfied that the financial responsibility was in effect at the time of the violation, the charge of failure to provide evidence of financial responsibility may be dismissed. Any charge that is dismissed pursuant to this

subsection shall be dismissed without costs to the defendant and no litigation tax shall be due or collected, notwithstanding any law to the contrary.
(Code 1985, § 21-55; Ord. No. 4930, § 1, 8-20-2002; Ord. No. 5308, § 1, 5-19-2009)

State law reference—State financial responsibility law, T.C.A. § 55-12-101 et seq.

Sec. 11-8-11. Electronic citations.

A. In lieu of filing written traffic citations and traffic summonses, law enforcement officers may file electronic traffic citations. Replicas of traffic citation data sent by electronic transmission shall be sent within three days of the issuance of the citation to the court having jurisdiction over the alleged offense. Any person issued a traffic citation prepared by a law enforcement officer electronically shall be provided with a paper copy of the traffic citation. A law enforcement officer who files a citation electronically shall be considered to have certified the citation and has the same rights, responsibilities, and liabilities as other citations issued pursuant to this chapter.

B. Pursuant to T.C.A. § 55-10-207, the city court clerk shall charge and collect an electronic traffic citation fee of $5.00 for each traffic citation resulting in a conviction. Such fee shall be assessable as court costs and paid by the defendant for any offense cited in an issued traffic citation that results in a plea of guilty or nolo contendere, or a judgment of guilty. This fee shall be in addition to all other fees, taxes and charges. One dollar of such fee shall be retained by the city clerk. The remaining $4.00 of the fee shall be transmitted monthly by the city clerk to the Memphis Police Department.

C. Pursuant to T.C.A. § 55-10-207, all funds derived from the electronic traffic citation fee issued pursuant to subsection (B) that are transmitted to the Memphis Police Department shall be accounted for in a special revenue fund for the Memphis Police Department and may only be used for the following purposes:

1. Electronic citation system and program related expenditures; and

2. Related expenditures by the Memphis Police Department for technology, equipment, repairs, replacement, and training to maintain electronic citation programs.

D. Pursuant to T.C.A. § 55-10-207, all funds derived from the electronic citation fee set aside for the city clerk pursuant to subsection (B) shall be used for computer hardware purchases, usual and necessary computer related expenses, or replacement. Such funds shall be preserved for those purposes and shall not revert to the general fund at the end of a budget year if unexpended.

E. Pursuant to T.C.A. § 55-10-207, the fee requirements of this section shall terminate five years from the date of adoption.
(Ord. No. 5568, § 2, 10-21-2014)

CHAPTER 11-12. TRAFFIC-CONTROL DEVICES*

Sections:

Sec. 11-12-1. Installation and maintenance generally.
Sec. 11-12-2. Uniformity—When official.
Sec. 11-12-3. When signs required.
Sec. 11-12-4. Unauthorized signs and signals.
Sec. 11-12-5. Altering or injuring devices.
Sec. 11-12-6. Traffic-control signal legend generally.
Sec. 11-12-7. Flashing signals.
Sec. 11-12-8. Pedestrian-control signal.
Sec. 11-12-9. Designation of crosswalks.
Sec. 11-12-10. Establishment of safety zones.
Sec. 11-12-11. Marking traffic lanes.
Sec. 11-12-12. Controlled-access roadways.
Sec. 11-12-13. Obedience to devices.

Sec. 11-12-1. Installation and maintenance generally.

The director of public works shall, as authorized by the city engineer, place and maintain traffic-control signs, signals and devices when and as required under this title and other traffic ordinances of the city to make effective the provisions of this title and other ordinances, and may place and maintain such additional traffic-control devices as he or she may deem necessary to regulate traffic under this title, other traffic ordinances of the city or under state law, or to guide or warn traffic.
(Code 1967, § 23-128; Code 1985, § 21-366; Ord. No. 3586, § 25, 9-2-1986)

Sec. 11-12-2. Uniformity—When official.

All traffic-control signs, signals and devices required by this title for a particular purpose shall, so far as

***State law reference—**Traffic control devices, T.C.A. § 55-8-109 et seq.

practicable, be uniform as to type and location throughout the city. All traffic-control devices so erected and not inconsistent with the provisions of state law or this title shall be official traffic-control devices.
(Code 1967, § 23-197; Code 1985, § 21-367)

Sec. 11-12-3. When signs required.

No provision of this title for which signs are required shall be enforced against an alleged violator if at the time and place of the alleged violation an official sign is not in proper position and sufficiently legible to be seen by an ordinarily observant person. Whenever a particular section does not state that signs are required, such section shall be effective even though no signs are erected or in place.
(Code 1967, § 23-203; Code 1985, § 21-368)

Sec. 11-12-4. Unauthorized signs and signals.

A. No person shall place, maintain or display upon or in view of any street any unauthorized sign, signal, marking or device which purports to be or is an imitation of or resembles an official traffic-control device or railroad sign or signal, or which attempts to direct the parking or movement of traffic, or which hides from view or interferes with the effectiveness of any official traffic-control device or any railroad sign or signal, and no person shall place or maintain nor shall any public authority permit upon any street any traffic sign or signal bearing thereon any commercial advertising. This section shall not be deemed to prohibit the erection, upon private property adjacent to highways, of signs giving useful directional information and of a type that cannot be mistaken for official signs.

B. Every such prohibited sign, signal or marking is declared to be a public nuisance and the city is empowered to remove the same or cause it to be removed without notice.
(Code 1967, § 23-207; Code 1985, § 21-369)

State law reference—Similar provisions, T.C.A. § 55-8-113.

Sec. 11-12-5. Altering or injuring devices.

A. No person shall, without lawful authority, attempt to or in fact alter, deface, injure, knock down or remove any official traffic-control device or any railroad sign or signal or any inscription, shield or insignia thereon, or any other part thereof.

B. Violation of this section shall be a misdemeanor punishable as provided in section 1-24-1.
(Code 1967, § 23-208; Code 1985, § 21-370; Ord. No. 2371, § 1, 2-10-1976)

State law reference—Similar provisions, T.C.A. § 55-8-114.

Sec. 11-12-6. Traffic-control signal legend generally.

A. Whenever traffic is controlled by traffic-control signals exhibiting illuminated and different colored circular lenses or lighted arrows successively one at a time or in combination, only the colors green, yellow and red shall be used, except for special pedestrian signals carrying a word or symbol legend, and such signals shall indicate and apply to drivers of vehicles and pedestrians as follows:

1. Green indication:
   a. Vehicular traffic facing the signal may proceed straight through or turn right or left, unless a sign at such place prohibits either such turn, but vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited.
   b. Vehicular traffic facing a green arrow signal, alone or in combination with another indication, may cautiously enter the intersection only to make the movement indicated by such arrow, or such other movements as are permitted by other indications shown at the same time. Such vehicular traffic shall yield the right-of-way to pedestrians within any adjacent crosswalk and to other traffic lawfully within the intersection.
   c. Unless otherwise directed by a pedestrian control signal, pedestrians facing any green signal, except when the sole green signal is a turn arrow, may proceed across the roadway within any marked or unmarked crosswalk.
2. Steady yellow indication, when shown following the green indication:
   a. Vehicular traffic facing a steady yellow signal is thereby warned that the related

green movement is being terminated or that a red indication will be exhibited immediately thereafter.

b. Pedestrians facing a steady yellow indication, unless otherwise directed by a pedestrian control signal, are thereby advised that there is insufficient time to cross the roadway before a red indication is shown, and no pedestrian shall then start to cross the roadway.

3. Steady red indication:

a. Vehicular traffic facing a steady red signal shall stop at a clearly marked stop line, if any, before entering the crosswalk on the near side of the intersection, or, if none, then before entering the intersection, and shall remain standing until an indication to proceed is shown, except that a right turn shall be permitted at any time unless otherwise prohibited by a sign; and, provided that, the prospective turning car comes to a full and complete stop before turning and that the turning car yields the right-of-way to pedestrians and all vehicles lawfully within the intersection in accordance with the signal indications controlling them, and such turn will not endanger other traffic lawfully using such intersection. A right turn on red shall be permitted at all intersections except those clearly marked by a "NO TURN ON RED" sign.

b. Unless otherwise directed by a pedestrian control signal, no pedestrian facing a steady red indication alone shall enter the roadway.

c. A left turn may be permitted by sign during the display of a steady red indication at any intersection where a one-way street intersects with another one-way street moving in the same direction into which the left turn would be made from the original one-way street. Before making such a turn, the turning car shall come to a full and complete stop and shall yield the right-of-way to pedestrians and all vehicles lawfully in the intersection in accordance with the traffic signal controlling them, and so as not to endanger traffic lawfully using the intersection. Unless signs permitting this left turn during the display of a steady red indication are erected, left turns on red are prohibited.

B. If an official traffic control signal is erected and maintained on a street, at a location other than an intersection with another street, including, but not limited to, a private road or a driveway entering a public street, or a signal-controlled midblock pedestrian crossing, and if signal indications are provided to control traffic entering or crossing the public street, the provisions of this section shall be applicable, except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or stop line marking on the pavement indicating where the stop shall be made, but in the absence of any such sign or marking, the stop shall be made before entering the street from a private road or driveway.

C. If a private road or driveway enters the intersection of two streets which are under the control of an official traffic-control signal and if signal indications are provided for the control of traffic entering the intersection from such private road or driveway, the provisions of this section shall be applicable, except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or stop line marking on the pavement indicating where the stop shall be made, but in the absence of any such sign or marking, the stop shall be made before entering the near side crosswalk or sidewalk, or, if none, the stop shall be made at the street right-of-way. If no signal indications are provided to control traffic on the private road or driveway, the provisions of this title covering vehicles entering and leaving a street via an uncontrolled private road or driveway shall apply.

(Code 1967, § 23-204; Code 1985, § 21-371; Ord. No. 2456, § 1, 6-29-1976; Ord. No. 3586, § 26, 9-2-1986)

State law reference—Similar provisions, T.C.A. § 55-8-110.

Sec. 11-12-7. Flashing signals.

Whenever an illuminated flashing circular red or yellow signal is used in conjunction with a traffic sign or signal, it shall require obedience by vehicular traffic as follows:

A. Flashing red (stop signal). When a red signal is illuminated with rapid intermittent flashes, drivers of vehicles shall stop at a clearly marked stop line, but if none, before entering the nearest crosswalk, or if none, then before entering the intersection, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign.

B. Flashing yellow (caution signal). When a yellow signal is illuminated with rapid intermittent flashes, drivers of vehicles may proceed through the intersection or past such signal only with caution.

C. This section shall not apply at railroad grade crossings. Conduct of drivers of vehicles approaching railroad grade crossings shall be governed by the rules as set forth in T.C.A. § 55-8-145.

(Code 1967, § 23-205; Code 1985, § 21-372)

State law reference—Similar provisions, T.C.A. § 55-8-112.

Sec. 11-12-8. Pedestrian-control signal.

Whenever special pedestrian-control signals exhibiting the words "Walk" or "Don't Walk" are in place, such signals shall indicate require obedience as follows:

A. Walk. Pedestrians facing such a signal may proceed across the roadway in the direction of the signal, within a marked crosswalk, if one exists, and shall be given the right-of-way by the drivers of all vehicles.

B. Flashing or "Don't Walk." No pedestrian shall start to cross the roadway in the direction of such signal, but any pedestrian who has begun his or her crossing on the walk signal may proceed to a sidewalk or designated pedestrian refuge area.

C. Steady "Don't Walk." No pedestrian shall leave the curb or start crossing the roadway in the direction of such signal.

(Code 1967, § 23-206; Code 1985, § 21-373)

State law reference—Similar provisions, T.C.A. § 55-8-111.

Sec. 11-12-9. Designation of crosswalks.

The city engineer is authorized to designate and maintain by appropriate devices, marks or lines upon the surface of the roadway, crosswalks at intersections where, in his or her opinion, there is particular danger to pedestrians crossing the roadway, and at such other places as he or she may deem necessary.

(Code 1967, § 23-198; Code 1985, § 21-374; Ord. No. 3586, § 27, 9-2-1986)

Sec. 11-12-10. Establishment of safety zones.

The city engineer shall establish safety zones of such kind and character and at such places as he or she may deem necessary for the protection of pedestrians.
(Code 1967, § 23-199; Code 1985, § 21-375; Ord. No. 3586, § 28, 9-2-1986)

Sec. 11-12-11. Marking traffic lanes.

The director of public works is authorized to mark traffic lanes upon the roadway of any street where a regular alignment of traffic is necessary, upon authorization by the city engineer.
(Code 1967, § 23-200; Code 1985, § 21-376; Ord. No. 3586, § 29, 9-2-1986)

Sec. 11-12-12. Controlled-access roadways.

The director of public works may, with respect to any controlled-access roadway under his or her jurisdiction, prohibit the use of any such roadway by pedestrians, bicycles or other nonmotorized traffic or by any person operating a motor-driven cycle. Such prohibition shall be indicated by appropriate signs erected by the director of public works and, when so erected, no person shall disobey the restrictions stated on such signs.
(Code 1967, § 23-201; Code 1985, § 21-377)

Sec. 11-12-13. Obedience to devices.

The driver of any vehicle, or any pedestrian, shall obey the instructions of any official traffic-control device applicable thereto placed in accordance with this title and other traffic ordinances of the city, unless otherwise directed by a police officer, subject to any specific exceptions granted by this title or other ordinances.
(Code 1967, § 23-202; Code 1985, § 21-378)

State law reference—Similar provisions, T.C.A. § 55-8-109.

CHAPTER 11-14. TRAFFIC CONTROL PHOTOGRAPHIC SYSTEM*

***State law reference—**Unmanned traffic enforcement cameras, T.C.A. § 55-8-198.

Sec. 11-14-1. Definitions.

The following words, terms and phrases, when used herein, shall have ascribed to them the following meanings, except where the context clearly indicates a different meaning.

Citations and warning notices means the documents of notice of violation and shall include:

1. The name and address of the registered owner of the vehicle;
2. The registration plate number of the motor vehicle involved in the violation;
3. The violation charged;
4. The location of the violation;
5. The date and time of the violation;
6. A copy of the recorded image;
7. The amount of the civil penalty imposed and the date by which the civil penalty should be paid;
8. A sworn statement signed by an officer or agent of the police services division that based on inspection of recorded images, the subject motor vehicle was being operated in violation of sections 11-12-6 and/or 11-12-13; and
9. Information advising the person alleged to be liable for violation of sections 11-12-6 and/or 11-12-13 (i) of the manner and time in which the liability alleged in the citation may be contested in city court, and (ii) warning that failure to contest in the manner and time provided shall be deemed an admission of liability and that a default judgment may be entered thereon.

Recorded images means images recorded by a traffic control photographic system:

1. On a photograph, microphotograph, electronic image, videotape, or any other medium; and

2. At least one image or portion of tape, clearly identifying the registration plate number, or other identifying designation of the license plate, on the motor vehicle.

System location is the approach to an intersection toward which a traffic control photographic system device, including but not limited to a photographic, video, or electronic camera, is directed and is in operation.

Traffic control photographic system is an electronic system consisting of a photographic, video or electronic camera and a vehicle sensor installed to work in conjunction with an official traffic control sign, signal or device, and to automatically produce photographs, video or digital images of each vehicle violating a standard traffic control sign, signal or device.

Vehicle owner is the person identified on records maintained by the Tennessee Department of Safety as the registered owner of a motor vehicle.
(Ord. No. 5108(part), 2005)

Sec. 11-14-2. Administration.

A. The division of police services or an agent of said division shall administer the traffic control photographic system and shall maintain a list of all system locations where traffic control photographic systems are installed.

B. Signs to indicate the use of the traffic control photographic system shall be clearly posted.
(Ord. No. 5108(part), 2005)

Sec. 11-14-3. Offense.

It shall be unlawful for a vehicle to cross the stop line at a system location, in disregard or disobedience of the traffic control sign, signal or device at such location, or to otherwise violate sections 11-12-6 or 11-12-13 of this code.
(Ord. No. 5108(part), 2005)

Sec. 11-14-4. Procedure.

A. The city shall adopt procedures for the issuance of uniform citations and warning notices hereunder.

B. A citation or warning notice so issued, alleging an offense hereunder in violation of sections 11-12-6 or 11-12-13 of this code, which is sworn to or affirmed by an official of the division of police services or an agent of said division based on inspection of recorded images produced by the traffic control photographic system, and which includes copies of such recorded images, shall be prima facie evidence of the facts contained therein and shall be admissible in any proceeding alleging a violation hereunder. The citation or warning notice shall be forwarded by first-class mail, postmarked pursuant to state law, to the vehicle owner's address as given on the motor vehicle registration records maintained by the Tennessee Department of Safety. Personal delivery to or personal service of process on the owner of the vehicle shall not be required.

C. A person who receives a citation or warning notice may:

1. Pay the assessed fine and civil penalty, in accordance with instructions on the citation or warning notice, directly to the city court clerk; or

2. Elect to contest the citation for the alleged violation.

D. Liability hereunder shall be determined based upon preponderance of the evidence. Admission into evidence of a citation or warning notice, together with proof that the defendant was at the time of the violation the registered owner of the vehicle, shall permit the trier of fact in its discretion to infer that such owner of the vehicle was the driver of the vehicle at the time of the alleged violation. Such an inference may be rebutted if the owner of the vehicle:

1. Testifies under oath in open court that he or she was not the operator of the vehicle at the time of the alleged violation; and

2. Presents to the court prior to the return date established on the citation and warning notice a certified copy of a police report showing that the vehicle had been reported to the police as stolen prior to the time of the alleged violation; or

3. Submits to the court prior to the return date established on the citation and warning notice the owner's sworn notarized statement that the vehicle was in the care, custody or control of another person or entity at the time of the violation and identifying the name and address of the person or entity who leased, rented or otherwise had such possession of the vehicle at the time of the alleged violation.

(Ord. No. 5108(part), 2005; Ord. No. 5493, § 1, 2-19-2013)

Sec. 11-14-5. Penalty.

A. Any offense hereunder shall be deemed a non-criminal violation for which a civil penalty of $50.00 shall be assessed. Failure to pay the civil penalty or appear in court to contest the citation or warning notice on the designated date shall result in an assessment of court costs of $45.00. The city may establish procedures for the trial of civil violators and may enforce and collect all penalties assessed in the nature of a debt.

B. All net revenues generated from penalties and assessments associated with the enforcement of this section shall be apportioned as follows: the first $150,000.00 collected in a fiscal year shall be allocated to the Memphis Area Neighborhood Watch Program for the funding of an executive director position and to provide neighborhoods with mechanisms to assist them in protecting their homes and/or communities; thereafter, 50 percent shall be used for the purchase and installation of cameras and/or GPS systems in police cars, and/or Skycop or Skywatch systems (the police department will submit a budget and plan outlining their recommended plan and budget for each budget year) and 50 percent shall be used for maintenance of the Memphis Area Neighborhood Watch Program. Said funds shall be distributed equally on a monthly basis immediately upon receipt from the city court clerk office once the $150,000.00 threshold is met. Any traffic control photographic system funds accrued as of the passage of this section shall be restricted for distribution equally among Neighborhood Watch and the Memphis Police Department for the uses specified above.

C. A violation for which a civil penalty is imposed hereunder shall not be considered a moving violation and may not be recorded by the division of police services or the state department of safety on the driving record of the owner or driver of the vehicle and may not be considered in the provision of motor vehicle insurance coverage.
(Ord. No. 5108(part), 2005; Ord. No. 5325, 9-15-2009; Ord. No. 5493, § 2, 2-19-2013)

Sec. 11-16-56. Texting while driving.
Sec. 11-16-57. Procedures to be taken when in the presence of stationary solid waste collection vehicles.

Sec. 11-16-1. State license required.

No person shall operate any motor vehicle on any street without having in his or her possession an operator's license or a chauffeur's license valid under the laws of this state.
(Code 1967, § 23-138; Code 1985, § 21-86)

Sec. 11-16-2. Duty to devote full time and attention to operating vehicle.

It is unlawful for a driver of a vehicle to fail to devote full time and attention to operating such vehicle when such failure, under the then existing circumstances, endangers life, limb or property.
(Code 1967, § 23-139; Code 1985, § 21-87)

Sec. 11-16-3. Duty to drive at safe speed, maintain lookout and keep vehicle under control.

Notwithstanding any speed limit or zone in effect at the time, or right-of-way rules that may be applicable, every driver shall:

A. Operate his or her vehicle at a safe speed;

B. Maintain a safe lookout;

C. Use due care to keep his or her vehicle under control.

(Code 1967, § 23-155; Code 1985, § 21-88)

Sec. 11-16-4. Driving when view or control obstructed.

A. No person shall drive a vehicle when it is so loaded, or when there are in the front seat such number of persons, exceeding four, as to obstruct the view of the driver to the front or sides of the vehicle or as to interfere with the driver's control over the driving mechanism of the vehicle.

B. No driver of any bus shall permit his or her vision ahead or to the sides of his or her vehicle to be obscured by any passenger standing in the vestibule thereof, nor shall he or she permit any passenger to interfere with his or her control over the driving mechanism of the vehicle.
(Code 1967, § 23-156; Code 1985, § 21-89)

State law reference—Similar provisions, T.C.A. § 55-8-165.

Sec. 11-16-5. Lap driving.

No operator of a vehicle shall have in his or her lap any other person, adult or minor, nor shall the operator be seated in the lap of any person while the vehicle is in motion.
(Code 1967, § 23-157; Code 1985, § 21-90)

Sec. 11-16-6. Pulling away from curb.

No vehicle shall be pulled out or backed from a curb into traffic until such movement may be made without danger to persons or property, and all vehicles proceeding in a street shall have the right-of-way over all vehicles pulling from a curb into traffic.
(Code 1967, § 23-172; Code 1985, § 21-91)

Sec. 11-16-7. Emerging from or entering alley, private driveway or building.

The driver of a vehicle entering into a street, either from an alley or from a private road, driveway or building, shall yield the right-of-way to all pedestrians on a sidewalk crossing such alley or driveway and to all vehicles approaching on such street, and it shall be the duty of the driver of every vehicle so entering a street to bring his or her vehicle to a stop and not enter therein until same may be done with safety and without danger to others using the street, and he or she shall proceed with caution. The driver of any vehicle leaving a street to enter an alley, private driveway or building, shall likewise yield the right-of-way to all pedestrians in any sidewalk crossing such alley or driveway, and when such driver is making a left turn into an alley, private driveway or building, such driver shall yield the right-of-way to all vehicles approaching from the opposite direction.
(Code 1967, § 23-173; Code 1985, § 21-92)

Sec. 11-16-8. Duty to drive on right side of roadway.

A. Upon all roadways of sufficient width, a vehicle shall be driven upon the right half of the roadway, except as follows:

1. When overtaking and passing another vehicle proceeding in the same direction under the rules governing such movement;

2. When the right half of a roadway is closed to traffic while under construction or repair;

3. Upon a roadway designated and signposted for one-way traffic;

4. Upon a roadway divided into three marked lanes for traffic under the rules applicable thereon.

B. Upon all roadways any vehicle proceeding at less than the normal speed of traffic at the time and place and under the conditions then existing shall be driven in the right-hand lane then available for traffic, or as close as practicable to the right-hand curb or edge of the roadway, except when overtaking and passing another vehicle proceeding in the same direction or when preparing for a left turn at an intersection or into a private road or driveway.
(Code 1967, § 23-140; Code 1985, § 21-93)

State law reference—Similar provisions, T.C.A. § 55-8-115.

Sec. 11-16-9. Passing vehicles proceeding in opposite direction.

Drivers of vehicles proceeding in opposite directions shall pass each other to the right, and upon roadways having width for not more than one line of traffic in each direction, each driver shall give to the other at least one-half of the main-traveled portion of the roadway as nearly as possible.
(Code 1967, § 23-141; Code 1985, § 21-94)

State law reference—Similar provisions, T.C.A. § 55-8-116.

Sec. 11-16-10. Passing vehicles proceeding in same direction—Generally.

A. Except as otherwise provided in section 11-16-11, the driver of a vehicle overtaking another vehicle proceeding in the same direction shall pass to the left thereof at a safe distance and shall not again drive to the right side of the roadway until safely clear of the overtaken vehicle.

B. No vehicle shall be driven to the left side of the center of the roadway in overtaking and passing another vehicle proceeding in the same direction, unless such left side is clearly visible and is free from oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completely made without interfering with the safe operation of any vehicle approaching from the opposite direction or any vehicle overtaken. In every event the overtaking vehicle must return to the right-hand side of the roadway before coming within 100 feet of any vehicle approaching from the opposite direction.

C. No vehicle shall be driven to the left of the center of any street for the purpose of passing another vehicle when approaching within 100 feet of any intersection or while traversing any intersection or railroad grade crossing. This subsection shall not apply to one-way streets or to streets where special signs or markings permit driving to the left of the center.

D. No vehicle shall be driven to the left of the center of the roadway upon any street of sufficient width for two or more lines of moving vehicles in each direction, except when the right half of the roadway is obstructed, and then such movement shall be made in safety in accordance with this section.
(Code 1967, § 23-142; Code 1985, § 21-95)

State law reference—Similar provisions, T.C.A. § 55-8-117.

Sec. 11-16-11. Passing vehicles proceeding in same direction—On right side.

A. The driver of a vehicle may overtake and pass upon the right of another vehicle only under the following conditions:

1. When the vehicle overtaken is making or about to make a left turn;
2. Upon a street with unobstructed pavement not occupied by parked vehicles of sufficient width for two or more lines of moving vehicles in each direction when traffic is moving in two or more substantially continuous lines in direction of travel;
3. Upon a one-way street or upon any roadway on which traffic is restricted to one direction of movement, where the roadway is free from obstructions and of sufficient width for two or more lines of moving vehicles.

B. The driver of a vehicle may overtake and pass another vehicle upon the right only under conditions permitting such movement in safety. In no event shall such movement be made by driving off the pavement or main-traveled portion of the roadway.

(Code 1967, § 23-143; Code 1985, § 21-96)

State law reference—Similar provisions, T.C.A. § 55-8-118.

Sec. 11-16-12. Passing vehicles proceeding in same direction—Duty of driver of overtaken vehicle.

Except when overtaking and passing on the right is permitted, the driver of an overtaken vehicle shall give way to the right in favor of the overtaking vehicle and shall not increase the speed of his or her vehicle until completely passed by the overtaking vehicle.
(Code 1967, § 23-144; Code 1985, § 21-97)

Sec. 11-16-13. Overtaking and passing school buses—Identification of buses.

A. The driver of a motor vehicle within the city limits upon meeting or overtaking from either direction any school bus which has stopped for the purpose of receiving or discharging any school children shall stop the motor vehicle before reaching such school bus, and such driver shall not proceed until such bus resumes motion or is signaled by the school bus driver to proceed or the visual signals are no longer actuated.

B. All motor vehicles used in transporting school children to and from school in this city are required to be distinctly marked "School Bus" on the front and rear thereof in letters of not less than six inches in height, and so plainly written or printed and so arranged as to be legible to persons approaching such school bus, whether traveling in the same or opposite direction.

C. The driver of a vehicle upon a street or highway with separate roadways need not stop upon meeting or passing a school bus which is on a different roadway or when upon a controlled-access highway and the school bus is stopped in a loading zone which is a part of or adjacent to such highway and where pedestrians are not permitted to cross the roadway.

D. For the purpose of this section, "separate roadways" means roadways divided by an intervening space which is not suitable to vehicular traffic.

E. Except as otherwise provided by the preceding subsections, the school bus driver is required to stop such school bus on the right-hand side of a street or highway, and such driver shall cause the bus to remain stationary and the visual stop signs on the bus to be actuated until all school children who should be discharged from the bus have been so discharged and until all children whose destination causes them to cross the street or highway at that place have negotiated such crossing.

F. Any person failing to comply with the requirements of this section, requiring motor vehicles to stop upon approaching school buses, or violating any of the provisions of this section, shall be deemed guilty of a misdemeanor, and upon conviction shall be subject to punishment as provided in section 1-24-1.

G. The preceding subsections of this section shall not be applicable to the vehicles of the Memphis Transit Authority, while such vehicles are being used for the transportation of school children within the city.
(Code 1967, § 23-140.1; Code 1985, § 21-98; Ord. No. 1636, § 1, 2-20-1973)

State law reference—Similar provisions, T.C.A. § 55-8-151.

Sec. 11-16-14. Driving on roadways laned for traffic.

Whenever any roadway has been divided into two or more clearly marked lanes for traffic, the following rules, in addition to all others consistent herewith, shall apply:

A. A vehicle shall be driven entirely within a single lane and shall not be moved from such lane until the driver has ascertained that such movement can be made with safety.

B. Upon a roadway which is divided into three lanes, a vehicle shall not be driven in the center lane, except where overtaking and passing another vehicle where the roadway is clearly visible and such center lane is clear of traffic within a safe distance, or in preparation for a left turn, or where such center lane is at the time allocated exclusively to traffic moving in the direction the vehicle is proceeding and is signposted to give notice of such allocation.

C. Official signs may be erected directing slow-moving traffic to use a designated lane or designating those lanes to be used by traffic moving in a particular direction regardless of the center of the roadway and drivers of vehicles shall obey the directions of every such sign.

(Code 1985, § 21-99)

Sec. 11-16-15. Driving on divided streets.

Whenever any street has been divided longitudinally into two roadways by leaving an intervening space, such as a parkway, wall, sunken way, viaduct or traffic-guide,

every vehicle shall be driven to the right of the longitudinal division. No vehicle shall be driven across, over or within such divided space or section, except through an opening in such physical barrier or divided section or space, or at a crossover or intersection established by the city engineer. This section shall not prohibit a driver from making a left turn into a private driveway where such turn is permitted and where such turn would require the driver to drive across a center dividing strip of the corrugated concrete type which does not constitute a physical barrier.
(Code 1967, § 23-146; Code 1985, § 21-100; Ord. No. 3586, § 8, 9-2-1986)

State law reference—Similar provisions, T.C.A. § 55-8-125.

Sec. 11-16-16. Entering or leaving controlled-access roadway.

No person shall drive a vehicle onto or from any controlled access roadway except at such entrances and exits as are established by the city engineer.
(Code 1967, § 23-147; Code 1985, § 21-101; Ord. No. 3586, § 9, 9-2-1986)

State law reference—Similar provisions, T.C.A. § 55-8-126.

Sec. 11-16-17. Driving in parks.

All traffic regulations set forth in this title shall apply to all drives and all roadways within all public parks, except as otherwise provided in chapter 12-84; provided, however, that no person shall use the driveways in public parks by driving over such driveways in vehicles other than passenger vehicles, motorcycles, motor-driven cycles, bicycles and persons mounted on horseback. The use of all bridle paths is prohibited to all traffic other than to persons on horseback and pedestrians.
(Code 1967, § 23-148; Code 1985, § 21-102)

Sec. 11-16-18. Driving within sidewalk area.

The operator of a motor vehicle shall not drive within any sidewalk area except in crossing such in a traverse manner at a permanent or temporary driveway.
(Code 1967, § 23-149; Code 1985, § 21-103)

Sec. 11-16-19. Obstructing intersection or crosswalk.

No driver shall enter an intersection or a marked crosswalk unless there is sufficient space on the other side of the intersection or crosswalk to accommodate the vehicle he or she is operating without obstructing the passage of other vehicles or pedestrians, notwithstanding any traffic-control signal to proceed.
(Code 1967, § 23-150; Code 1985, § 21-104)

Sec. 11-16-20. Following too closely.

The driver of a motor vehicle shall not follow another vehicle more closely than is reasonable and prudent, having due regard to the speed of such vehicle and the traffic upon and condition of the street.
(Code 1967, § 23-151; Code 1985, § 21-105)

State law reference—Similar provisions, T.C.A. § 55-8-124.

Sec. 11-16-21. General speed restrictions.

It is unlawful for any person to drive a vehicle upon the streets of this city at a speed greater than 25 miles per hour. However, the city engineer shall have the authority, after determining on the basis of an engineering and traffic investigation that the stated limit is greater or lesser than is reasonable and safe, to designate certain streets or sections of streets as speed zones where greater speeds may be permitted or lesser speeds required. No person shall drive a vehicle upon the streets or sections of streets designated by the city engineer as speed zones at a greater speed than is permitted, when signs are in place giving notice thereof.
(Code 1967, § 23-152; Code 1985, § 21-106; Ord. No. 2236, § 1, 4-15-1975; Ord. No. 3586, § 10, 9-2-1986; Ord. No. 4491, § 1, 5-20-1997; Ord. No. 5767, § 1, 1-5-2021)

State law reference—Speed limits, T.C.A. § 55-8-152 et seq.

Sec. 11-16-22. Speed limit in school zones.

A. No vehicle shall be driven at a greater rate of speed than 15 miles per hour on that portion of any street which has been designated as a school zone by official signs, during any time when school children are on the streets or sidewalks within such school zone, either en route to or returning from school or while school safety patrols or police officers are on duty. Such school zones shall be confined to such portions of the streets adjacent to school grounds, or for a distance not to exceed 750 feet beyond the boundaries of such grounds.

B. All Memphis city schools shall have official signs so designating the area as a school zone. Further, official signs shall be erected prior to the commencement of operation of such schools(s).
(Code 1967, § 23-153; Code 1985, § 21-107; Ord. No. 5017, §§ 1, 2, 2003)

State law reference—Speed limits, T.C.A. § 55-8-152 et seq.

Sec. 11-16-23. Minimum speed regulations.

No person shall drive a motor vehicle upon any street at such a slow speed as to impede the normal and reasonable movement of traffic, except when reduced speed is necessary for safe operation or in compliance with the law.
(Code 1967, § 23-154; Code 1985, § 21-108)

State law reference—Similar provisions, T.C.A. § 55-8-154.

Sec. 11-16-24. Right-of-way at uncontrolled intersections.

The driver of a vehicle approaching an intersection not controlled by a traffic sign or signal shall yield the right-of-way to a vehicle which has entered the intersection from a different street. When two vehicles enter an uncontrolled intersection from different streets at approximately the same time, the driver of the vehicle on the left shall yield the right-of-way to the driver of the vehicle on the right.
(Code 1967, § 23-158; Code 1985, § 21-109)

State law reference—Similar provisions, T.C.A. § 55-8-128.

Sec. 11-16-25. Yield intersections.

Whenever a yield right-of-way sign has been placed at or near an intersection, all drivers approaching such sign shall proceed with caution, slowing down or stopping if necessary so as not to interfere with traffic moving on the intersecting street and such drivers shall not proceed into the intersecting street until such movement can be made with safety.
(Code 1967, § 23-159; Code 1985, § 21-110)

Sec. 11-16-26. Stop intersections.

A. *Conduct generally.*

1. When official stop signs are erected at or near the entrance to any intersection, every driver of a vehicle approaching a stop sign shall stop before entering the crosswalk on the near side of the intersection or, in the event there is no crosswalk, shall stop at a clearly marked stop line, but if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the intersection except when directed to proceed by a police officer or traffic-control signal.

2. Every driver who has stopped his or her vehicle at a stop sign in compliance with this section shall remain stopped and shall not proceed into or through the intersecting street until such movement can be made in safety. Such driver shall yield the right-of-way to all vehicles moving in a lawful manner upon the intersecting street.

B. *Multiway stop intersections.*

1. When official stop signs are erected at or near the entrances to any intersection creating a multiway stop intersection, the driver of a vehicle approaching such a stop sign, shall stop before entering the crosswalk on the near side of the intersection, or, in the event there is no crosswalk, shall stop at a clearly marked stop line, but if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway except when directed to proceed by a police officer or traffic-control signal.

2. The first vehicle approaching and stopping at a multiway stop intersection, after stopping, shall have the right-of-way to proceed into and through the intersection. Each succeeding vehicle approaching must stop at such intersection, and after stopping and yielding to the preceding vehicle, shall then have the right-of-way to proceed into and through the intersection.

3. Each driver of a vehicle approaching and entering any multiway stop intersection, must use reasonable and ordinary care in proceeding through the intersection.

(Code 1967, § 23-160; Code 1985, § 21-111; Ord. No. 3675, § 1, 7-7-1987)

State law reference—Stop sigs, T.C.A. § 55-8-149.

Sec. 11-16-27. One-way streets.

The city engineer is authorized to designate, by signs or markers, certain streets and alleys for traffic in only one direction where the conditions of traffic, width of street and other conditions make such restrictions necessary. Whenever a street or alley has been so designated as one-way, no person shall drive a vehicle upon such a street in any direction other than that indicated by signs.
(Code 1967, § 23-161; Code 1985, § 21-112; Ord. No. 3586, § 11, 9-2-1986)

State law reference—Similar provisions, T.C.A. § 55-8-122.

Sec. 11-16-28. Turning movements generally.

A. No person shall turn a vehicle at an intersection, or turn a vehicle to enter a private road or driveway, or otherwise turn a vehicle from a direct course or move right or left upon a roadway unless and until such movement can be made with reasonable safety.

B. The driver of a vehicle intending to turn at an intersection shall do so as follows:

1. *Right turns.* Except as otherwise indicated by directional markings placed in conformity with provisions of this title, both the approach for a right turn and right turn shall be made as close as practicable to the right-hand curb or edge of the street.

2. *Left turns on two-way roadways.* At any intersection where traffic is permitted to move in both directions on each roadway entering the intersection, an approach for a left turn shall be made in that portion of the right half of the roadway nearest the center lane thereof and by passing to the right of such center line where it enters the intersection and after entering the intersection the left turn shall be made so as to leave the intersection to the right of the center line of the roadway being entered. Whenever practicable, the left turn shall be made in that portion of the intersection to the left of the center of the intersection.

3. *Left turns on other than two-way roadways.* At any intersection where traffic is restricted to one direction on one or more of the roadways, the driver of a vehicle intending to turn left at such intersection shall approach the intersection in the extreme left-hand lane lawfully available to traffic moving in the direction of travel of such vehicle and after entering the intersection, the left turn shall be made so as to leave the intersection, as nearly as practicable, in the left-hand lane lawfully available to traffic moving in such direction upon the roadway being entered.

C. The driver of any truck, bus or any large vehicle which cannot comply with the foregoing provisions due to the size of the vehicle may use such additional portions of the street or roadway as may be necessary for a right turn; provided, however, that, the driver of such vehicle, before making such turn, shall first determine that this movement may be made in safety.
(Code 1967, § 23-162; Code 1985, § 21-113)

State law reference—Similar provisions, T.C.A. § 55-8-140.

Sec. 11-16-29. Markings or signs regulating manner of making turns.

The city engineer may cause markings or signs to be placed within or adjacent to intersections and thereby require and direct that a different course from that specified in section 11-16-28 be traveled by vehicles turning at an intersection, and when markings or signs are so placed, no driver of a vehicle shall turn a vehicle at an intersection other than as directed and required by such markings or signs.
(Code 1967, § 23-163; Code 1985, § 21-114; Ord. No. 3586, § 12, 9-2-1986)

State law reference—Similar provisions, T.C.A. § 55-8-140.

Sec. 11-16-30. Turns from a designated center lane.

Where a special lane for making left turns by drivers proceeding in opposite directions has been established:

A. A left turn shall not be made from any other lane unless a vehicle cannot safely enter the turn lane;

B. A vehicle shall not be driven in the designated left turn lane except when preparing for or making a left turn from or into the roadway, which should never exceed 100 feet, or pass through any intersection;

C. A vehicle shall not use the left turn lane solely for the purpose of passing another vehicle;

D. A vehicle shall not enter a left turn lane more than a safe distance from the point of the intended turn, or less than the length of 100 feet;

E. When any vehicle enters the turn lane, no other vehicle proceeding in an opposite direction shall enter that turn lane if such entrance would prohibit the vehicle already in the lane from making the intended turn; and

F. When vehicles enter the turn lane proceeding from opposite directions, the first vehicle to enter the lane shall have the right-of-way.

(Code 1985, § 21-56)

State law reference—Similar provisions, T.C.A. § 55-8-140.

Sec. 11-16-31. Prohibited turns.

Whenever authorized signs are erected indicating that no right or left turn is permitted, no driver of a vehicle shall disobey the directions of any such sign.
(Code 1967, § 23-164; Code 1985, § 21-115)

Sec. 11-16-32. Limitations on turning around.

No driver of any vehicle shall make a U-turn (reverse direction) upon any street except at locations designated by the city engineer with authorized signs and such movement shall not be made unless the same can be made in safety and without interfering with other traffic.
(Code 1967, § 23-165; Code 1985, § 21-116; Ord. No. 748, § 1, 7-21-1970; Ord. No. 3586, § 13, 9-2-1986)

Sec. 11-16-33. Turning and stopping signals—Generally.

The driver of any vehicle who intends to stop or turn, or partly turn from a direct line, shall first see that such movement can be made in safety, and whenever the operation of any other vehicle may be affected by such movement, shall give an appropriate signal, plainly visible to the driver of such other vehicle, of his or her intention to make such movement. Such signal shall be given continuously for a distance of at least 50 feet before slowing down, stopping, turning, partly turning or materially altering the course of the vehicle. The signal herein required shall be given by means of the hand and arm or by some mechanical or electrical device approved by the state department of safety.
(Code 1967, § 23-166; Code 1985, § 21-117)

State law reference—Similar provisions, T.C.A. § 55-8-143.

Sec. 11-16-34. Turning and stopping signals—Manner of giving with hand and arm.

Whenever the signal required by section 11-16-33 is given by means of the hand and arm, the driver shall indicate his or her intention to stop or turn, or partly turn, by extending the hand and arm from and beyond the left side of the vehicle, in the following manner:

A. *Left turn.* For a left turn, or to pull to the left, the arm shall be extended in a horizontal position straight from and level with the shoulder.

B. *Right turn.* For a right turn, or to pull to the right, the arm shall be extended upward.

C. *Slowing down or stopping.* For slowing down or to stop, the arm shall be extended downward.

(Code 1967, § 23-167; Code 1985, § 21-118)

State law reference—Similar provisions, T.C.A. § 55-8-144.

Sec. 11-16-35. Turning and stopping signals—Change of direction after signal given.

Drivers having once given a hand, electrical or mechanical device signal must continue the course thus indicated, unless they alter the original signal and take care that the drivers of the vehicles and pedestrians have seen and are aware of the change.
(Code 1967, § 23-168; Code 1985, § 21-119)

Sec. 11-16-36. Turning and stopping signals—Duty of drivers receiving signal.

Drivers receiving a signal from another driver shall keep their vehicles under complete control and shall be able to avoid an accident resulting from a misunderstanding of such signal.
(Code 1967, § 23-169; Code 1985, § 21-120)

Sec. 11-16-37. Right-of-way when vehicle turning left at intersection.

The driver of a vehicle within an intersection intending to turn to the left shall yield the right-of-way to any vehicle approaching in the opposite direction which is within the intersection or so close thereto as to constitute an immediate hazard, but such driver, having so yielded and having given a signal when and as required by this chapter, may make such left turn and the drivers of all

other vehicles approaching the intersection from the opposite direction shall yield the right-of-way to the vehicle making the left turn.
(Code 1967, § 23-170; Code 1985, § 21-121)

State law reference—Similar provisions, T.C.A. § 55-8-129.

Sec. 11-16-38. Limitations on backing.

The driver of a vehicle shall not back the same unless such movement can be made with reasonable safety and without interfering with other traffic.
(Code 1967, § 23-175; Code 1985, § 21-122)

State law reference—Similar provisions, T.C.A. § 55-8-163.

Sec. 11-16-39. Procedure upon approach of authorized emergency vehicle.

A. Upon the immediate approach of an authorized emergency vehicle making use of audible and visual signals meeting the requirements of the applicable laws of the state, or of a police vehicle properly and lawfully making use of an audible signal only, the driver of every other vehicle shall yield the right-of-way and shall immediately drive to a position parallel to, and as close as possible to, the right-hand edge or curb of the roadway clear of any intersection and shall stop and remain in such position until the authorized emergency vehicle has passed, except when otherwise directed by a police officer.

B. This section shall not operate to relieve the driver of an emergency vehicle from the duty to drive with due regard for the safety of all persons using the street.
(Code 1967, § 23-171; Code 1985, § 21-123)

State law reference—Similar provisions, T.C.A. § 55-8-132.

Sec. 11-16-40. Following fire apparatus or driving near fire.

The driver of a vehicle, other than one on official business, shall not follow any fire apparatus traveling in response to a fire alarm closer than 500 feet or drive into or park such vehicle within the block where fire apparatus has stopped in answer to a fire alarm.
(Code 1967, § 23-176; Code 1985, § 21-124)

State law reference—Similar provisions, T.C.A. § 55-8-168.

Sec. 11-16-41. Driving over fire hose.

No vehicle shall be driven over any unprotected hose of the fire division when laid down on any street or private driveway to be used at any fire or alarm of fire, without the consent of the fire division official in command.
(Code 1967, § 23-177; Code 1985, § 21-125)

State law reference—Similar provisions, T.C.A. § 55-8-169.

Sec. 11-16-42. Driving in processions.

A. Each driver in a funeral or other authorized procession shall drive as near the right-hand edge of the roadway as practical and shall follow the vehicle ahead as close as is practical and safe.

B. Each driver of a vehicle in a funeral procession shall cause the lights on his or her vehicle to be lighted during the entire procession as a means of identifying the vehicle in the procession.

C. A funeral or other authorized procession shall be permitted to proceed through a red light at an intersection when a police officer in charge of the intersection or procession so directs and the procession shall continue moving and cross-traffic shall stop until the entire procession has passed such signal.
(Code 1967, § 23-178; Code 1985, § 21-126)

State law reference—Funeral processions, T.C.A. § 55-8-183.

Sec. 11-16-43. Driving through funeral processions.

A. Unless complying with the specific order of a law enforcement officer, it is unlawful for the operator of a motor vehicle to:

1. Fail to yield the right-of-way to a properly identified funeral procession progressing across an intersection in accordance with the provisions of section 11-16-42, or T.C.A. § 55-8-183(a)(1);
2. While following a properly identified funeral procession along a two-lane street, road or highway, pass or attempt to pass a properly identified funeral procession; or
3. Drive or attempt to drive between the vehicles within a properly identified funeral procession as identified in section 11-16-42.

B. Each violation of this section is subject to penalties as set out in section 1-24-1.

C. For purposes of this section, to be a properly identified funeral procession, such procession must be indicated by a flashing amber light and an auditory signaling device mounted on the lead vehicle, or by other properly identified escort, and a flag or other appropriate marking device on each vehicle in the procession indicating that such vehicle is part of the funeral procession, in addition to requirements in section 11-16-42.

D. No driver of a vehicle shall drive between the vehicles comprising a funeral procession while they are in motion and when such vehicles are conspicuously designated as provided in this section or section 11-16-42; however, this rule shall not apply to emergency vehicles answering emergency calls.
(Code 1967, § 23-179; Code 1985, § 21-127; Ord. No. 4808, § 1, 9-19-2000)

State law reference—Similar provisions, T.C.A. § 55-8-183.

Sec. 11-16-44. Reckless driving.

A. Any person who drives any vehicle in a willful or wanton disregard for the safety of persons or property is guilty of reckless driving.

B. Violation of this section shall be a misdemeanor punishable as provided in section 1-24-1.
(Code 1967, § 23-180; Code 1985, § 21-128; Ord. No. 942, § 1, 4-27-1971)

State law reference—Similar provisions, T.C.A. § 55-10-205.

Sec. 11-16-45. Striking parked vehicles or fixed objects.

It is unlawful for the driver of any vehicle while operating such vehicle on a public street or alley to drive such vehicle into, against or upon a parked vehicle or fixed object thereon.
(Code 1967, § 23-182; Code 1985, § 21-129)

Sec. 11-16-46. Operating vehicle for advertising purposes.

No person shall operate or park on any street any vehicle for the primary purpose of advertising unless authorized by the director of police.
(Code 1967, § 23-183; Code 1985, § 21-130)

Sec. 11-16-47. Restriction on use of certain streets by trucks, trailers and heavy-duty vehicles.

Trucks, trailers or heavy-duty vehicles shall not be allowed on any street which the city engineer may designate by appropriate official sign indicating that such street is so restricted, except that such vehicles may be operated thereon for the purpose of delivering or picking up materials or merchandise and then only by entering such street at the intersection nearest the destination of the vehicle and proceeding thereon further than the nearest intersection thereafter; provided further, however, that the city engineer is authorized to grant a permit to the operator of the vehicle to be driven on such street for a greater distance where urgent necessity requires it. This section shall apply only to vehicles of weight capacity of over one ton, excluding recreational vehicles, emergency vehicles, city school buses and Memphis Area Transit Authority vehicles on designated routes.
(Code 1967, § 23-184; Code 1985, § 21-131; Ord. No. 2345, § 1, 12-16-1975; Ord. No. 2439, § 1, 6-1-1976; Ord. No. 2996, § 1(1), 4-1-1980; Ord. No. 3586, § 14, 9-2-1986)

Sec. 11-16-48. Truck routes.

The city engineer is authorized to designate, by official signs, certain streets for traffic by trucks, trailers or heavy-duty equipment entering, passing through, or departing from the city. Deviation from such truck routes shall be made only for pickups of shipments destined for points out of the city, delivery of shipments consigned from out of the city to an address within the city off a truck route, or for bona fide service or repair stops, in any of which events, departure from and return to the designated truck route shall be by the most direct route; provided, however, that nothing herein shall be construed as altering or amending section 11-16-47, and further provided, this section shall apply only to vehicles of weight capacity of over one ton, excluding recreational vehicles, emergency vehicles, city school buses and Memphis Area Transit Authority vehicles on designated routes.
(Code 1967, § 23-185; Code 1985, § 21-132; Ord. No. 2996, § 1(2), 4-1-1980; Ord. No. 3586, § 16, 9-2-1986)

Charter reference—Authority to establish and require use of truck routes, § 748. See also, § 751.

Sec. 11-16-49. Duty to stop at railroad crossing upon approach of train.

A. Whenever any person driving a vehicle approaches a railroad grade crossing under any of the following circumstances, the driver of such vehicle shall

stop within 50 feet but not less than 15 feet from the nearest rail of such railroad, and shall not proceed until he or she can do so safely. The foregoing requirements shall apply when:

1. A clearly visible electric or mechanical signal device gives warning of the immediate approach of a railroad train;
2. A crossing gate is lowered or when a human flagman gives or continues to give a signal of the approach or passage of a railroad train;
3. A railroad train approaching within approximately 1,500 feet of the street crossing emits a signal audible from such distance, or when such railroad train, by reason of its speed or nearness to such crossing is an immediate hazard;
4. An approaching railroad train is plainly visible and is in hazardous proximity to such crossing.

B. No person shall drive any vehicle through, around or under any crossing gate or barrier at a railroad crossing while such gate or barrier is closed or is being opened or closed.

(Code 1967, § 23-174; Code 1985, § 21-133)

State law reference—Similar provisions, T.C.A. § 55-8-145.

Sec. 11-16-50. Cruising on public streets.

A. For purposes of this section, the following definitions shall apply:

Cruising means driving a motor vehicle past a traffic control point in the area designated as a no cruising zone more than three times in one hour.

Prohibited activities means engaging in any of the following activities with the intent to cause public inconvenience, annoyance or alarm, or recklessly creating a public risk thereof by the use of a vehicle or in person:

1. Acting in a violent or tumultuous manner toward another whereby any person is placed in danger of safety of his or her life, limb or health (section 10-8-2);
2. Acting in a violent or tumultuous manner toward another whereby the property of any person is placed in danger of being destroyed or damaged (section 10-8-2);
3. Causing, provoking or engaging in any fight, brawl or riotous conduct so as to endanger the life, limb, health or property or another (section 10-8-2);
4. Using abusive or offensive language intending that it be heard by members of the public and uttered with the intention to disturb the hearer (section 10-8-2);
5. Obstructing vehicular or pedestrian traffic (section 10-8-2);
6. Being drunk in any public place so as to be incapable of protecting his or her own safety or in such condition as to constitute a danger to himself or herself or to others or to be drunk in any public place to the annoyance of other persons (section 10-8-6);
7. Engaging in unlawful assembly by five or more persons for the purpose of engaging or preparing to engage with them in a tumultuous and violent conduct likely to cause public alarm or a clear and present danger to persons or property, or when, being present at an assembly which either has or develops such purpose or purposes, and remaining there with intent to advance that purpose or purposes (section 10-8-8);
8. Carrying in any manner whatever, with the intent to go armed, any razor; dirk; bowie knife or other knife of like form, shape or size; pocket knife with any blade over four inches in length; sword cane; ice pick; slingshot; black jack; brass knuckles; Spanish stiletto; or any rifle or shotgun or any pistol or revolver of any kind whatever; or a fountain pen pistol or gun or like instrument containing a firing pin capable of shooting tear gas or pistol cartridges; or any other dangerous weapon (section 10-32-2);
9. Carrying or exhibiting in any manner any replica gun, or realistic toy gun, as defined in section 10-32-3, or brandish in a threatening manner, in any public place, or on any public street in a vehicle or otherwise, so as to cause a reasonable person apprehension or fear of bodily harm, or to believe their personal safety is endangered (section 10-32-2);
10. Blocking or obstructing the movement of a trolley vehicle by:
    a. Parking or abandoning any vehicle whether self-propelled, animal drawn or motor powered on or near the tracks (chapter 12-64);

b. Placing any object on or near the tracks (chapter 12-64),

c. Standing on, in the middle of, or adjacent to the tracks (chapter 12-64),

11. Interfering in any way with the safe and orderly operation of the Main Street Trolley System (chapter 12-64);

12. Engaging intentionally in conduct which would make a reasonable person fearful or feel compelled or committing the offense of intimidating others from exercising civil rights by injuring or threatening to injure or coerce another person with intent to unlawfully intimidate another from the free exercise or enjoyment of a right or privilege secured by the constitution or laws of the State of Tennessee (section 10-8-9);

13. Violating the ordinance pertaining to minor curfew (section 10-28-4);

14. Violating the ordinance pertaining to indecent exposure, dress, etc. (section 10-8-10);

15. Violating the ordinance pertaining to display of sexually explicit materials to minors (section 6-72-15);

16. Violating the ordinance pertaining to performances harmful to minors (chapter 10-24);

17. Violating the ordinance pertaining to nudity and sexual activities in public place (section 10-8-12);

18. Violating the ordinance pertaining to clinging to moving vehicles (section 11-68-2);

19. Violating the ordinance pertaining to boarding or alighting from vehicle in motion (section 11-68-3);

20. Violating the ordinance pertaining to riding on a portion of vehicle not intended for passengers or operating a vehicle while persons are riding on a portion of a vehicle not intended for passengers (section 11-68-4);

21. Violating the ordinance pertaining to obstructing intersection or crosswalk (section 11-16-190);

22. Violating the ordinance pertaining to following too closely (section 11-16-20);

23. Violating the ordinance pertaining to reckless driving (section 11-16-44);

24. Violating the ordinance pertaining to stopping, standing and parking prohibited in specified places (section 11-40-2);

25. Violating the ordinance pertaining to obstructing traffic prohibited (section 11-40-5);

26. Violating the ordinance pertaining to opening door of parked or standing vehicle (section 11-40-6);

27. Violating the ordinance pertaining to unattended vehicles (section 11-40-7);

28. Violating the ordinance pertaining to impounding vehicles obstructing street (section 11-40-26);

29. Violating the ordinance pertaining to loud, disturbing and unnecessary noises generally (section 9-68-1);

30. Violating the ordinance pertaining to playing of radios, phonographs, etc. (section 9-68-4);

31. Violating the ordinance pertaining to yelling, shouting, singing, etc. (section 9-68-5); or

32. Violating the ordinance pertaining to loudspeakers or amplifiers on vehicles (section 9-68-11).

No cruising zone means the area bounded by and including the following streets or portions of streets and any other area as designated by the city council, between the hours of 7:00 p.m. to 4:00 a.m., Monday through Sunday, except for Riverside Drive, which shall be designated a no cruising zone from 2:00 p.m. to 12:00 a.m., Saturday, Sunday and holidays, namely an area bordered by Union Avenue on the north, Vance Avenue on the south, Riverside Drive on the west, and Danny Thomas on the east.

Traffic control point means a reference point within or adjacent to a designated area selected by a police officer for the purpose of enforcing this section.

B. At every point where a public street or alley becomes or provides ingress to a no cruising zone, there shall be posted a sign which designates no cruising zones and times.

C. It is unlawful for anyone to engage in cruising in connection with any one or more of the prohibited activities within an area designated a no cruising zone.

For purposes of this section, the person having control or ownership of a motor vehicle shall be considered the person cruising, without regard as to whether that person was actually driving the motor vehicle each time it passed the traffic control point. Having control or ownership of a motor vehicle shall mean either the owner of the vehicle, if present in the vehicle at the time of the violation, or, if the owner is not present, the person operating the vehicle at the time of the violation.

D. This section shall be enforced in accordance with the provisions contained in chapters 2-88 and 11-8.
(Code 1985, § 21-134; Ord. No. 4953, § 1, 8-6-2002)

Sec. 11-16-51. Use of off-highway motor vehicles on highways.

A. Off-highway motor vehicles such as motorcycle dirt bikes, dune buggies or similar all-terrain vehicles may be operated or driven upon a highway but only as follows:

1. On a two-lane highway, only to cross such highway at an angle of approximately 90 degrees to the direction of the roadway and at a place where a quick and safe crossing may be made;
2. With respect to the crossing of a highway having more than two lanes, or a highway having limited access, such off-highway motor vehicles may cross such highways, but only at a place designated by the department of transportation or local government authorities with respect to highways under their respective jurisdictions as a place where such motor vehicles, or specified types of such motor vehicles, may cross the highways, and such vehicles shall cross such highways only at such designated places and only in a quick and safe manner; and
3. The city, with respect to highways under its respective jurisdiction, may designate, by the erection of appropriate signs of a type approved by the appropriate division, places where such motor vehicles, or specified types of such motor vehicles, may cross any highway having more than two lanes or having limited access.

B. Such vehicles may be moved, by non-mechanical means only, adjacent to a roadway, in such a manner so as to not interfere with traffic upon the highway, only for the purpose of gaining access to, or returning from, areas designed for the operation of off-highway vehicles, when no other route is available. The city may designate access routes leading to off-highway parks as suitable for the operation of off-highway vehicles, if such access routes are available to the general public only for pedestrian and off-highway motor vehicle travel.

C. Notwithstanding any law to the contrary, three- or four-wheel all-terrain vehicles may not be operated on city highways or streets.

D. A violation of this section is a Class C misdemeanor, subject to a $50.00 fine.
(Ord. No. 5309, § 1(21-134.1), 5-19-2009)

Sec. 11-16-52. Low-speed vehicles prohibited.

A. The following words, terms and phrases, when used in this section, shall have the meanings ascribed to them in this subsection, except where the context clearly indicates a different meaning:

Low-speed vehicle means any four-wheeled electric vehicle, excluding golf carts, whose top speed is greater than 20 miles per hour but not greater than 25 miles per hour.

B. All low-speed vehicles are prohibited from being operated on streets.

C. A violation of this section is a Class C misdemeanor, subject to a $50.00 fine.
(Ord. No. 5311, § 1(21-134.2), 5-19-2009)

Sec. 11-16-53. Overtaking and passing bicycles.

A. The operator of a motor vehicle, when overtaking and passing a bicycle proceeding in the same direction on the roadway, shall leave a safe distance between the motor vehicle and the bicycle of not less than three feet and shall maintain the clearance until safely past the overtaken bicycle.

B. A violation of this section is a Class C misdemeanor, subject to a $50.00 fine.
(Ord. No. 5305, § 1(21-134.3), 5-19-2009)

Sec. 11-16-54. School buses; handheld mobile telephones.

A. Definitions. The following words, terms and phrases, when used in this section, shall have the meanings ascribed to them in this subsection, except where the context clearly indicates a different meaning:

Mobile telephone means a cellular, analog, wireless or digital telephone.

School bus means every motor vehicle owned by a public or governmental agency and operated for the transportation of children to or from school or privately owned and operated for compensation for the transportation of children to or from school.

B. No driver shall operate a school bus on any city roads or state highways while using a handheld mobile telephone while such vehicle is in motion and such vehicle is transporting children.

C. This section does not apply to mobile telephones or two-way radio communications made to and from a central dispatch, school transportation department or its equivalent.

D. A violation of this section is a Class C misdemeanor, subject to a $50.00 fine.

E. It is an affirmative defense to prosecution under this section, which must be proven by a preponderance of the evidence, that the driver's use of a mobile telephone was necessitated by a bona fide emergency.
(Ord. No. 5304, § 1(21-134.4), 5-19-2009)

Sec. 11-16-55. Open container law.

A. *Definitions.* The following words, terms and phrases, when used in this section, shall have the meanings ascribed to them in this subsection, except where the context clearly indicates a different meaning:

Open container means any container containing an alcoholic beverage, the contents of which are immediately capable of being consumed or the seal of which has been broken.

B. *Consumption while driving, possession of open containers prohibited.*

1. No driver or passenger shall consume any alcoholic beverage or beer or possess an open container of alcoholic beverage or beer while either operating a motor vehicle or while a passenger within a motor vehicle within the boundaries of the city.

2. For purposes of this section:

   a. An open container is in the possession of the driver when it is not in the possession of any passenger or is not located in a closed glove compartment, trunk or other non-passenger area of the vehicle; and

   b. A motor vehicle is in operation if its engine is operating, whether or not the motor vehicle is moving.

C. *Violation and penalty.*

1. A violation of this section is a Class C misdemeanor, punishable by a fine of $50.00.

2. For a violation of this section, a law enforcement officer shall issue a citation in lieu of continued custody, unless the offender refuses to sign and accept the citation, as provided in T.C.A. § 40-7-118.

(Ord. No. 5310, § 1(21-134.5), 5-19-2009)

Sec. 11-16-56. Texting while driving.

A. The following words, terms and phrases, when used in this section, shall have the meanings ascribed to them in this subsection, except where the context clearly indicates a different meaning:

Mobile telephone means a cellular, analog, wireless or digital device that provides for voice communication and for data communication other than by voice.

Personal digital assistant means a wireless electronic communication device that provides for data communication other than by voice.

B. No driver shall operate a motor vehicle on any highway while using a handheld mobile telephone or a handheld personal digital assistant to transmit or read a written message while such vehicle is in motion; provided that a driver does not transmit or read a written message for the purpose of this subsection if such driver reads, selects or enters a telephone number or name in a handheld mobile telephone or a personal digital assistant for the purpose of making or receiving a telephone call.

C. The provisions of this section shall only apply to a person driving a motor vehicle that is in motion at the time a written message from a mobile telephone or handheld personal digital assistant is transmitted or read by such person.

D. A violation of any provision of this section is a Class C misdemeanor, subject only to imposition of a fine, not to exceed $50.00, and court costs, not to exceed $10.00, including, but not limited to, any statutory fees of officers. No state or local litigation taxes shall be applicable to a case prosecuted under this section.

E. The provisions of this section shall not apply to the following persons:

1. Officers of the state, or of any county, city or town, charged with the enforcement of the laws of the state, when in the actual discharge of their official duties;
2. Campus police officers and public safety officers, as defined by T.C.A. § 49-7-118, when in the actual discharge of their official duties;
3. Emergency medical technicians, emergency medical technician-paramedics, and firefighters, both volunteer and career, when in the actual discharge of their official duties; and
4. Emergency management agency officers of the state, or of any county, city or town, when in the actual discharge of their official duties.

F. A traffic citation that is based solely upon a violation of this section shall be considered a non-moving traffic violation and no points shall be added to a driver's record for such violation.
(Ord. No. 5324, § 1(21-134.6), 8-18-2009)

Sec. 11-16-57. Procedures to be taken when in the presence of stationary solid waste collection vehicles.

Upon approaching a stationary solid waste collection vehicle, a person who drives an approaching vehicle shall: proceeding with due caution, yield the right-of-way by making a lane change into a lane not adjacent to that of the authorized emergency vehicle, if possible with due regard to safety and traffic conditions, if on a highway having at least four lanes with not less than two lanes proceeding in the same direction as the approaching vehicle; or proceeding with due caution, reduce the speed of the vehicle, maintaining a safe speed for road conditions, if changing lanes would be impossible or unsafe.
(Ord. No. 5560, § 1, 9-2-2014; Ord. No. 5576, § 1, 12-16-2014)

CHAPTER 11-20. MOTORCYCLES

Sections:

Sec. 11-20-1. Riding on motorcycles.
Sec. 11-20-2. Wearing of crash helmets by driver and passenger required—Operation of headlights required.
Sec. 11-20-3. Passenger seats required.
Sec. 11-20-4. Windshield—Wearing of goggles by operator and passenger.
Sec. 11-20-5. Penalty for violation.
Sec. 11-20-6. Parent deemed guilty of misdemeanor for permitting minors to violate chapter.

Sec. 11-20-1. Riding on motorcycles.

A person operating a motorcycle or a motor-driven cycle shall ride only upon the permanent and regular seat attached thereto. Such operator shall not carry any other person nor shall any other person ride on a motorcycle unless such motorcycle is designed to carry more than one person, in which event a passenger may ride upon the permanent and regular seat if designed for two persons, or upon another seat firmly attached behind the operator's seat.
(Code 1967, § 23-14; Code 1985, § 21-18)

State law reference—Similar provisions, T.C.A. § 55-8-164.

Sec. 11-20-2. Wearing of crash helmets by driver and passenger required—Operation of headlights required.

A. The driver of a motorcycle or motor-driven cycle and any passenger thereon shall be required to wear a crash helmet of a type approved by the Commissioner of Safety of the state.

B. Whenever motorcycles or motor-driven cycles are in operation upon the streets, highways and alleys of the city, headlights and tail lights shall be in operation irrespective of daylight or darkness.
(Code 1967, § 23-186; Code 1985, § 21-19; Ord. No. 214, § 1, 7-16-1968; Res. of 7-16-1968; Ord. No. 2046, § 1, 5-21-1974)

State law reference—Similar provisions, T.C.A. §§ 55-9-302, 55-8-164, 55-9-403.

Sec. 11-20-3. Passenger seats required.

No person shall ride as a passenger upon a motorcycle or motor-driven cycle unless a proper seat for a passenger is installed thereon.
(Code 1967, § 23-187; Code 1985, § 21-20; Ord. No. 214, § 2, 7-16-1968; Res. of 7-16-1968)

State law reference—Similar provisions, T.C.A. § 55-8-164.

Sec. 11-20-4. Windshield—Wearing of goggles by operator and passenger.

Every motorcycle or motor-driven cycle operating upon any public street or public alley of the city shall be equipped with a windshield of a type approved by the Commissioner of Safety of the state, or, in the alternative, the operator and any passenger on such motorcycle or motor-driven cycle shall be required to wear safety goggles of a type approved by the Commissioner of Safety of the state for the purpose of preventing any flying object from striking the operator or any passenger in the eye.

(Code 1967, § 23-188; Code 1985, § 21-21; Ord. No. 214, § 3, 7-16-1968; Res. of 7-16-1968)

State law reference—Similar provisions, T.C.A. § 55-8-304.

Sec. 11-20-5. Penalty for violation.

Any person who violates the provisions of sections 11-20-2 through 11-20-4 shall be guilty of a misdemeanor and upon conviction shall be subject to punishment as provided in section 1-24-1.

(Code 1967, § 23-189; Code 1985, § 21-22; Ord. No. 214, § 4, 7-16-1968; Res. of 7-16-1968)

Sec. 11-20-6. Parent deemed guilty of misdemeanor for permitting minors to violate chapter.

If any parent or guardian knowingly permits a minor to operate motorcycle or a motor-driven cycle in violation of sections 11-20-2 through 11-20-4, such parent or guardian shall be guilty of a misdemeanor and upon conviction shall be subject to punishment as provided in section 1-24-1.

(Code 1967, § 23-190; Code 1985, § 21-23; Ord. No. 214, § 5, 7-16-1968; Res. of 7-16-1968)

CHAPTER 11-21. SPEED ENFORCEMENT PHOTOGRAPHIC SYSTEM*

Sections:

Sec. 11-21-1. Speed enforcement photographic system.

Sec. 11-21-1. Speed enforcement photographic system.

A. *Definitions*. The following words, terms and phrases, when used herein, shall have ascribed to them the following meanings, except where the context clearly indicates a different meaning.

Citations and *warning notices* means the documents of notice of violation and shall include:

1. The name and address of the registered owner of the vehicle;
2. The registration plate number of the motor vehicle involved in the violation;
3. The violation charged;
4. The location of the violation;
5. The date and time of the violation;
6. A copy of the recorded image;
7. The amount of the civil penalty imposed and the date by which the civil penalty should be paid;
8. A sworn statement signed by an officer or agent of the police services division that based on inspection of recorded images, the subject motor vehicle was being operated in violation of section 21-106, and/or 21-107; and
9. Information advising the person alleged to be liable for violation of section 21-106, and/or 21-107: (i) of the manner and time in which the liability alleged in the citation may be contested in city court, and (ii) warning that failure to contest in the manner and time provided shall be deemed an admission of liability and that a default judgment may be entered thereon.

Recorded images means images recorded by a speed enforcement photographic system:

1. On a photograph, microphotograph, electronic image, videotape, or any other medium; and
2. At least one image or portion of tape, clearly identifying the registration plate number, or other identifying designation of the license plate, on the motor vehicle.

System location is within the boundary of an active school speed zone or in a reverse curve or "S" curve portion of a public road or highway, as defined by T.C.A. § 55-8-198.

Speed enforcement photographic system is an electronic system consisting of a photographic, video or electronic camera that automatically detects and produces photographs, video or digital images of each vehicle exceeding the active school zone speed limit or exceeding the speed limit within a reverse or "S" curve.

***State law reference—**Unmanned traffic enforcement cameras, T.C.A. § 55-8-198.

Vehicle owner is the person identified on records maintained by the Tennessee Department of Safety as the registered owner of a motor vehicle.

B. *Administration.*

1. The city court clerk or an agent of said office shall administer the speed enforcement photographic system and shall maintain a list of all system locations where speed enforcement photographic systems are installed.

2. Signs to indicate the use of the speed enforcement photographic system shall be clearly posted not less than 500 feet but not more than 1,000 feet in advance of the enforcement area of the unmanned traffic enforcement camera informing drivers as to the presence of traffic enforcement cameras at the approaching location. All regulatory and warning signs relating to the intersection or enforcement area shall meet the conventional road size or larger requirements of the MUTCD.

C. *Offense.*

It shall be unlawful for any person to drive a vehicle at a rate of speed greater than 15 miles per hour on that portion of any street which has been designated as a school zone by official signs during any time when school children are present, when school zone flashing signals are in operation or otherwise in violation of sections 21-378 or 21-107 of this code ("School Zone Offense").

It shall be unlawful for any person to drive a vehicle at a rate of speed greater than is permitted on that portion of any street which is constructed as a reverse or "S" curve or otherwise in violation of sections 21-378 or 21-106 of this Code (" 'S' Curve Offense").

D. *Procedure.*

1. The city shall adopt procedures for the issuance of uniform citations and warning notices hereunder.

2. A citation or warning notice so issued, alleging an offense hereunder in violation of section 21-106 or 21-107 of this Code, which is sworn to or affirmed by an official of the division of police services or an agent of said division based on inspection of recorded images produced by the speed enforcement photographic system, and which includes copies of such recorded images, shall be prima facie evidence of the facts contained therein and shall be admissible in any proceeding alleging a violation hereunder. The citation or warning notice shall be forwarded by first-class mail, postmarked pursuant to state law, to the vehicle owner's address as given on the motor vehicle registration records maintained by the Tennessee Department of Safety. Personal delivery to or personal service of process on the owner of the vehicle shall not be required.

3. A person who receives a citation or warning notice may:

   a. Pay the assessed fine and civil penalty, in accordance with instructions on the citation or warning notice, directly to the city court clerk; or

   b. Elect to contest the citation for the alleged violation.

4. Liability hereunder shall be determined based upon preponderance of the evidence. Admission into evidence of a citation or warning notice, together with proof that the defendant was at the time of the violation the registered owner of the vehicle, shall permit the trier of fact in its discretion to infer that such owner of the vehicle was the driver of the vehicle at the time of the alleged violation. Such an inference may be rebutted if the owner of the vehicle:

   a. Testifies under oath in open court that he or she was not the operator of the vehicle at the time of the alleged violation; and

   b. Presents to the court prior to the return date established on the citation and warning notice a certified copy of a police report showing that the vehicle had been reported to the police as stolen prior to the time of the alleged violation; or

   c. Submits to the court prior to the return date established on the citation and warning notice the owner's sworn notarized statement that the vehicle was in the care, custody or control of another person or entity at the time of the violation and identifying the name and address of the person or entity who leased, rented or

otherwise had such possession of the vehicle at the time of the alleged violation.

5. The following vehicles are exempt from receiving a citation and warning notice:

   a. Emergency vehicles with active emergency lights;

   b. Vehicles moving through the intersection to avoid or clear the way for a marked emergency vehicle;

   c. Vehicles under police escort; and

   d. Vehicles in a funeral procession.

E. *Penalty.*

1. Any offense hereunder shall be deemed a non-criminal violation for which a civil penalty of $50.00 shall be assessed. Failure to pay the civil penalty or appear in court to contest the citation or warning notice on the designated date shall result in an assessment of court costs. The city may establish procedures for the trial of civil violators and may enforce and collect all penalties assessed in the nature of a debt.

2. A violation for which a civil penalty is imposed hereunder shall not be considered a moving violation and may not be recorded by the division of police services or the state department of safety on the driving record of the owner or driver of the vehicle and may not be considered in the provision of motor vehicle insurance coverage.

F. *Use of revenues.*

1. All net revenues generated from penalties and assessments associated with this program and the enforcement of section 21-106 or 21-107 that exceed the cost of the administration and operation of the speed enforcement photographic system will be apportioned to the division of engineering for traffic safety projects or initiatives. This would include, but not be limited to the design, installation, operation, and maintenance of traffic control devices, traffic calming infrastructure, and pedestrian safety infrastructure. Said funds shall be distributed from the office of the city court clerk on a monthly basis upon receipt.

(Ord. No. 5747, § , 4-7-2020)

Note—A. With respect to an "S" Curve Offense, this Ordinance shall take effect from and after the date it shall have been passed by the Council, signed by the Chairman of the Council, certified and delivered to the Office of Mayor in writing by the comptroller and become effective as otherwise provided by law. B. With respect to a School Zone Offense, this Ordinance shall not take effect from and after the date it shall have been passed by the Council, signed by the Chairman of the Council, certified and delivered to the Office of Mayor in writing by the comptroller but the effective date of this Ordinance shall be deferred and become effective upon the commence upon the opening of the Shelby County Schools for all students for the 2020-2021 school year.

CHAPTER 11-24. BICYCLES*

Sections:

Sec. 11-24-1. Effect of regulations.
Sec. 11-24-2. Traffic laws apply to persons riding bicycles.
Sec. 11-24-3. Removal or alteration of serial number.
Sec. 11-24-4. Equipment—Lights and reflectors.
Sec. 11-24-5. Equipment—Brake.
Sec. 11-24-6. Use of permanent seat required; carrying excess persons forbidden.
Sec. 11-24-7. Riding on roadways.
Sec. 11-24-8. Obedience to traffic control devices.
Sec. 11-24-9. Bike lanes.
Sec. 11-24-10. Riding on sidewalks.
Sec. 11-24-11. Parking on sidewalks.
Sec. 11-24-12. Right-of-way to pedestrians; passing pedestrians.
Sec. 11-24-13. Clinging to moving vehicles.
Sec. 11-24-14. Towing other vehicles.
Sec. 11-24-15. Racing and endurance contests.
Sec. 11-24-16. Carrying articles on bicycles.
Sec. 11-24-17. Child bicycle safety.

Sec. 11-24-1. Effect of regulations.

A. It is a misdemeanor for any person to do any act forbidden or fail to perform any act required in this chapter.

***Charter references—**Authority to regulate sale, use and operation of bicycles, § 749; dealers in secondhand bicycles, §§ 730—734.

State law reference—Bicycles, T.C.A. § 55-8-171 et seq.

B. The parent of any child and the guardian of any ward shall not authorize or knowingly permit any such child or ward to violate any provisions of this chapter.

C. These regulations applicable to bicycles shall apply whenever a bicycle is operated upon any street or upon any path set aside for the exclusive use of bicycles subject to those exceptions stated herein.
(Code 1967, § 10-1; Code 1985, § 21-196; Ord. No. 2155, § 1, 5-20-1975)

State law reference—Similar provisions, T.C.A. § 55-8-1.

Sec. 11-24-2. Traffic laws apply to persons riding bicycles.

Every person riding a bicycle upon a roadway shall be granted all of the rights and shall be subject to all of the duties applicable to the driver of a vehicle by this chapter, except as to special regulations in this chapter and except as to those provisions of this chapter which by their nature can have no application.
(Code 1967, § 10-3; ; Code 1985, § 21-197; Ord. No. 2155, § 1, 5-20-1975; Ord. No. 5352, § 1(21-197), 5-11-2010)

State law reference—Similar provisions, T.C.A. § 55-8-172.

Sec. 11-24-3. Removal or alteration of serial number.

A. It is unlawful for any person to willfully or maliciously remove, destroy, mutilate or alter the serial number of any bicycle frame registered pursuant to this chapter.

B. Nothing in this section shall prohibit a representative of the traffic bureau of the division of police from stamping serial numbers on the frames of bicycles on which no serial number can be found, or on which such number is insufficient for identification purposes.
(Code 1967, § 10-4; Code 1985, § 21-198; Ord. No. 2155, § 1, 5-20-1975)

Sec. 11-24-4. Equipment—Lights and reflectors.

Every bicycle, operated upon streets in the city during hours of darkness, shall be equipped with the following:

1. A forward-facing lamp mounted on the front of the bicycle and shall emit a white light visible from a distance of at least 500 feet to the front; and
2. Either a rearward-facing red reflector or rearward-facing lamp emitting a red light that shall be visible from a distance of at least 500 feet when directly in front of lawful upper beams of headlight or headlamps on a motor vehicle.

(Code 1967, § 10-5; Code 1985, § 21-199; Ord. No. 2155, § 1, 5-20-1975; Ord. No. 5352, § 1(21-199), 5-11-2010)

State law reference—Similar provisions, T.C.A. § 55-8-177.

Sec. 11-24-5. Equipment—Brake.

Every bicycle operated upon streets in the city shall be equipped with a brake or brakes which will enable its driver to stop the bicycle within 25 feet from a speed of ten miles per hour on dry, level, clean pavement. Such brake shall be maintained in good working order at all times. For purposes of this section, the drivetrain of a fixed gear bike is considered a brake, provided the rider can demonstrate compliance with the braking requirement stated herein.
(Code 1967, § 10-6; Code 1985, § 21-200; Ord. No. 2155, § 1, 5-20-1975; Ord. No. 5352, § 1(21-200), 5-11-2010)

State law reference—Similar provisions, T.C.A. § 55-8-177.

Sec. 11-24-6. Use of permanent seat required; carrying excess persons forbidden.

A. A person propelling a bicycle shall not ride other than upon or astride a permanent and regular seat attached thereto, except for a certified police cyclist who is performing duties that require riding in a side dismounting position.

B. No bicycle shall be used at any time to carry more persons than the number for which it has been equipped per person in terms of seats and handlebars, with the exception of properly installed child carriers with hand and foot protection.
(Code 1967, § 10-7; Code 1985, § 21-201; Ord. No. 2155, § 1, 5-20-1975; Ord. No. 5352, § 1(21-201), 5-11-2010)

State law reference—Similar provisions, T.C.A. § 55-8-173.

Sec. 11-24-7. Riding on roadways.

A. Any person operating a bicycle upon a roadway at less than the normal speed of traffic at the time and place and under the conditions then existing shall ride in

the same direction as other vehicular traffic as close as practicable to the right-hand curb or edge of the roadway, except under any of the following situations:

1. When overtaking and passing another vehicle proceeding in the same direction;

2. When preparing for a left turn at an intersection or into a private road or driveway; or

3. When reasonably necessary to avoid conditions including, but not limited to, fixed or moving objects, parked or moving vehicles, pedestrians, animals, surface hazards, or when traveling in a lane that is too narrow for a bicycle and another vehicle to travel safely side by side within the lane.

This section shall not apply to a certified police cyclist engaged in the lawful performance of duty relating to traffic control or in pursuit of an actual or suspected violator of the law.

B. No person shall operate a bicycle on any part of any roadway where official signs have been erected and are in place indicating the prohibition of such activity.

C. Hand signals for stopping, turning and changing lanes shall be given at least one time but are not required to be continuous if the bicycle is in a designated turn lane or if the operator's hands are needed for the safe operation of the bicycle. A person operating a bicycle shall either give a right turn signal by extending the left hand and arm upward and to the left side of the bicycle; or by extending the right hand and arm horizontally and to the right side of the bicycle.

D. Persons riding bicycles upon a roadway shall not ride more than two abreast except on paths or parts of roadways set aside for the exclusive use of bicycles. Persons riding two abreast shall not impede the normal and reasonable movement of traffic and, on a laned roadway, shall ride within a single lane. This section shall not apply to a certified police cyclist engaged in the lawful performance of duty relating to traffic control or in pursuit of an actual or suspected violator of the law.

(Code 1967, § 10-8; Code 1985, § 21-202; Ord. No. 2155, § 1, 5-20-1975; Ord. No. 5352, § 1(21-202), 5-11-2010)

Sec. 11-24-8. Obedience to traffic control devices.

Any person operating a bicycle shall obey the instructions of all official traffic signals, signs and other control

devices applicable to vehicles, unless otherwise directed by a police officer; except that a bicyclist who is faced with a red traffic-control signal or device may, after coming to a complete stop at the intersection and waiting a reasonable time to determine the signal or device will not change to green, proceed after yielding the right-of-way to all traffic lawfully proceeding through the intersection.
(Code 1967, § 10-9; Code 1985, § 21-203; Ord. No. 2155, § 1, 5-20-1975; Ord. No. 5352, § 1(21-203), 5-11-2010)

Sec. 11-24-9. Bike lanes.

A. The creation of one or more bicycle lanes does not inhibit a bicycle operator's ability to operate a bicycle upon a roadway in accordance with this chapter.

B. Every person operating a motor vehicle shall yield the right-of-way to a person operating a bicycle within a bicycle lane. A person operating a motor vehicle may cross a bicycle lane when making a turn or when entering or leaving the roadway, but a bicycle lane shall not be used as a turning lane or passing lane.

C. Motor vehicles shall not be parked, stopped or left standing in a bicycle lane unless the city has determined that parking within the bicycle lane in specific locations is appropriate during certain hours and official signs have been erected in the designated areas to that effect or the city engineer has issued written special permission parking for a specific event during certain hours.

D. A person operating a bicycle within a bicycle lane shall give an audible signal before overtaking and passing another person operating a bicycle proceeding in the same direction and shall further pass on the left. The audible signal shall be given verbally or via a bell, and shall not be given via a whistle or siren.

E. A person operating a bicycle entering a bicycle lane shall yield the right-of-way to all bicycles in the bicycle lane. A person operating a bicycle leaving the bicycle lane shall yield the right-of-way to all vehicles and pedestrians. No person operating a bicycle within a bicycle lane shall leave the bicycle lane until the movement can be made with reasonable safety and, if any vehicle would be affected by the movement, by giving an appropriate signal before the movement is made.

F. A person operating a bicycle within a bicycle lane shall travel in the same direction as vehicles traveling in the adjacent traffic lane.
(Code 1967, § 10-10; Code 1985, § 21-204; Ord. No. 2155, § 1, 5-20-1975; Ord. No. 5352, § 1(21-204), 5-11-2010)

Sec. 11-24-10. Riding on sidewalks.

A. Any person may operate a bicycle on a sidewalk except where official signs have been erected and are in place indicating the prohibition of such activity.

B. When operating a bicycle on a sidewalk, such person shall yield the right-of-way to any operator of sidewalk-type vehicles and give an audible signal before overtaking and passing any such operator. The audible signal shall be given verbally or via a bell, and shall not be given via a whistle or siren. For purposes of this subsection, sidewalk-type vehicles shall include coasters, sleds, non-motorized scooters, roller skates, or any similar vehicle, toy or article on wheels.
(Code 1967, § 10-11; Code 1985, § 21-205; Ord. No. 2155, § 1, 5-20-1975; Ord. No. 5352, § 1(21-205), 5-11-2010)

Sec. 11-24-11. Parking on sidewalks.

No person shall park a bicycle upon a street other than upon the roadway against the curb or upon the sidewalk in a rack to support the bicycle or against a building or at the curb, in such manner as to afford the least obstruction to pedestrian traffic.
(Code 1967, § 10-12; Code 1985, § 21-206; Ord. No. 2155, § 1, 5-20-1975)

Sec. 11-24-12. Right-of-way to pedestrians; passing pedestrians.

A. Any person operating a bicycle, on a sidewalk or otherwise, shall yield the right-of-way to any pedestrian.

B. Any operator of a bicycle shall give an audible signal before overtaking and passing any pedestrian. The audible signal shall be given verbally or via a bell, and shall not be given via a whistle or siren.
(Code 1967, § 10-13; Code 1985, § 21-207; Ord. No. 2155, § 1, 5-20-1975; Ord. No. 5352, § 1(21-207), 5-11-2010)

Sec. 11-24-13. Clinging to moving vehicles.

It shall be unlawful for any person riding upon a bicycle to cling or attach himself or herself or his or her bicycle to any other moving vehicle upon a street in the city.
(Code 1967, § 10-14; Code 1985, § 21-208; Ord. No. 2155, § 1, 5-20-1975; Ord. No. 5352, § 1(21-208), 5-11-2010)

Sec. 11-24-14. Towing other vehicles.

The operator of a bicycle shall not tow or draw any coaster, sled, person on roller skates, toy vehicles or other similar vehicle. The provisions of this section shall not be construed to prohibit the attachment of a bicycle trailer or bicycle semitrailer to a bicycle if the trailer or semitrailer is designed specifically for that purpose.
(Code 1967, § 10-15; Code 1985, § 21-209; Ord. No. 2155, § 1, 5-20-1975; Ord. No. 5352, § 1(21-209), 5-11-2010)

Sec. 11-24-15. Racing and endurance contests.

No person operating a bicycle upon a street in the city shall participate in any race of speed or endurance, or contest with any vehicle unless such activity is specifically authorized by the police director or his or her designee and is supervised.
(Code 1967, § 10-16; Code 1985, § 21-210; Ord. No. 2155 § 1, 5-20-1975; Ord. No. 5352, § 1(21-210), 5-11-2010)

Sec. 11-24-16. Carrying articles on bicycles.

No person operating a bicycle shall carry any package, bundle or article that prevents the driver from keeping at least one hand upon the handlebars.
(Code 1967, § 10-17; Code 1985, § 21-211; Ord. No. 2155, § 1, 5-20-1975; Ord. No. 5352, § 1(21-211), 5-11-2010)

Sec. 11-24-17. Child bicycle safety.

A. No person who is under 16 years of age shall operate a bicycle or ride as a passenger on a bicycle or a bicycle trailer on a roadway, bikeway, sidewalk, bike lane or bike path unless he or she is wearing a protective helmet of good fit fastened securely upon his or her head with the straps of the helmet and which meets or exceeds the standards set by the American National Standards Institute (ANSI) or the Snell Memorial Foundation, or that is otherwise approved by the commissioner of safety for the state.

B. No person who weighs less than 40 pounds or is less than 40 inches in height shall be a passenger on a bicycle unless such person can be and is properly seated in and adequately secured to a restraining seat. For purposes of this section, a restraining seat means a seat separate from the saddle seat of the operator of the bicycle that is fastened securely to the frame of the bicycle and is adequately equipped to restrain the passenger in the seat and protect the passenger from the moving parts of the bicycle.
(Code 1967, § 10-18; Code 1985, § 21-212; Ord. No. 2155, § 1, 5-20-1975; Ord. No. 5352, § 1(21-212), 5-11-2010)

CHAPTER 11-28. PEDESTRIANS*

Sections:

Sec. 11-28-1. Applicability.
Sec. 11-28-2. Use of crosswalks generally.
Sec. 11-28-3. Right-of-way in crosswalks.
Sec. 11-28-4. Crossing at other than crosswalks.
Sec. 11-28-5. Walking on roadways.
Sec. 11-28-6. Pedestrians soliciting rides or business.
Sec. 11-28-7. Pedestrian responsibilities.
Sec. 11-28-8. Pedestrian right-of-way on sidewalks.
Sec. 11-28-9. Pedestrians using white canes or sticks.
Sec. 11-28-10. Penalty.

Sec. 11-28-1. Applicability.

A. Pedestrians shall be subject to traffic-control signals at intersections as provided for in this title, and at all other places pedestrians shall be accorded the privileges, and shall be subject to restrictions as hereinafter stated.

B. Notwithstanding the provisions of this chapter, every driver of a vehicle shall exercise due care to avoid colliding with any pedestrian upon any roadway, and shall give warning by sounding the horn when necessary, and shall exercise proper precaution upon observing any child or any confused or incapacitated person upon a roadway.
(Code 1967, § 23-259; Code 1985, § 21-226; Ord. No. 5401, § 1(11-28-1), 7-5-2011)

State law reference—Similar provisions, T.C.A. § 55-8-133.

***State law reference—**Pedestrians, T.C.A. § 55-18-133 et seq.

Sec. 11-28-2. Use of crosswalks generally.

Whenever there is a marked crosswalk, all pedestrians crossing in such crosswalk shall stay within the markings or lines, and whenever practicable such pedestrian shall walk on the right half of the crosswalk.
(Code 1967, § 23-260; Code 1985, § 21-227; Ord. No. 5401, § 1(11-28-2), 7-5-2011)

State law reference—Similar provisions, T.C.A. § 55-8-137.

Sec. 11-28-3. Right-of-way in crosswalks.

A. When traffic signals are not in place or not in operation, the driver of the vehicle shall yield the right-of-way, slowing down or stopping if need be to so yield, to a pedestrian crossing the roadway within a crosswalk when the pedestrian is upon the half of the roadway within a crosswalk upon which the vehicle is traveling, or when the pedestrian is approaching so closely from the opposite half of the roadway as to be in danger.

B. No pedestrian shall suddenly leave a curb or other place of safety and walk or run into the path of a vehicle, which is so close that it is impossible for the driver to yield.

C. Whenever any vehicle is stopped at a marked crosswalk or at any unmarked crosswalk at an intersection to permit a pedestrian to cross the roadway, the driver of any other vehicle approaching from the rear shall not overtake and pass such stopped vehicle.
(Code 1967, § 23-262; Code 1985, § 21-229; Ord. No. 5401, § 1(11-28-3), 7-5-2011)

State law reference—Similar provisions, T.C.A. § 55-8-134.

Sec. 11-28-4. Crossing at other than crosswalks.

A. Between adjacent intersections at which traffic-control signals are in operation, pedestrians shall not cross at any place except in a marked crosswalk.

B. Every pedestrian crossing a roadway at any point other than within a marked crosswalk or within an unmarked crosswalk at an intersection shall yield the right-of-way to all vehicles upon the roadway.

C. Any pedestrian crossing a roadway at a point where a pedestrian tunnel or overhead pedestrian crossing has been provided shall yield the right-of-way to all vehicles upon the roadway.
(Code 1967, §§ 23-261, 23-263, 23-264; Code 1985, §§ 21-228, 21-230, 21-231; Ord. No. 5401, § 1(11-28-4), 7-5-2011)

State law reference—Similar provisions, T.C.A. § 55-8-135.

Sec. 11-28-5. Walking on roadways.

A. Except as provided in this section, where sidewalks are provided, it is unlawful for any pedestrian to walk or use a wheelchair along and upon an adjacent roadway.

B. Where sidewalks are not provided or are obstructed, any pedestrian walking along and upon a highway shall, when practicable, walk only on the left side of the roadway or its shoulder facing traffic that may approach from the opposite direction.

C. Where sidewalks are not provided, are obstructed or are not wheelchair accessible, any person using a wheelchair along and upon a highway shall, when practicable, use the wheelchair on the left side of the roadway or its shoulder facing traffic that may approach from the opposite direction; provided that a person using a wheelchair along and upon a highway may use the wheelchair on the right side of the roadway or its shoulder if it is convenient or reasonably necessary for travel by the person.
(Code 1967, § 23-265; Code 1985, § 21-232; Ord. No. 5401, § 1(11-28-5), 7-5-2011)

State law reference—Similar provisions, T.C.A. § 55-8-138.

Sec. 11-28-6. Pedestrians soliciting rides or business.

A. No person shall stand in a roadway for the purpose of soliciting a ride or employment from the occupant of any vehicle.

B. No person shall stand on or in proximity to a street or highway for the purpose of soliciting the watching or guarding of any vehicle while parked or about to be parked on a street or highway.
(Code 1967, §§ 23-266, 23-267; Code 1985, §§ 21-233, 21-234; Ord. No. 5401, § 1(11-28-6), 7-5-2011)

State law reference—Similar provisions, T.C.A. § 55-8-139.

Sec. 11-28-7. Pedestrian responsibilities.

A. Upon the immediate approach of an authorized emergency vehicle making use of an audible signal and/or visual signals or of a police vehicle properly and lawfully making use of an audible signal only, every pedestrian shall yield the right-of-way to the authorized emergency vehicle.

B. This section shall not relieve the driver of an authorized emergency vehicle from the duty to drive with due regard for the safety of all persons using the highway, nor from the duty to exercise due care to avoid colliding with any pedestrian.

C. No pedestrian shall pass through, around, over or under any crossing gate or barrier at a railroad crossing while such gate or barrier is closed or is being opened or closed.

D. No person shall cross any street within ten feet of the front of any vehicle which has stopped momentarily to load or discharge passengers, except in compliance with the direction of a police officer or a traffic signal.

E. It is unlawful for a pedestrian who is under the influence of alcohol or any drug to a degree which renders oneself a hazard to walk or be upon a street except on a sidewalk.
(Code 1967, § 23-268; Code 1985, § 21-235; Ord. No. 5401, § 1(11-28-7), 7-5-2011)

Sec. 11-28-8. Pedestrian right-of-way on sidewalks.

The driver of a vehicle shall yield the right-of-way to any pedestrian on a sidewalk that extends across any alley, building entrance, road or driveway.
(Ord. No. 5401, § 1(11-28-8), 7-5-2011)

State law reference—Similar provisions, T.C.A. § 55-8-134.

Sec. 11-28-9. Pedestrians using white canes or sticks.

A. It is unlawful for any person except persons wholly or partially blind to carry or use on the public streets any canes or walking sticks which are white in color with a red end.

B. Whenever any pedestrian guided by a service animal or carrying any cane or walking stick white in color with a red end undertakes to cross any public street or thoroughfare, it is the duty of all drivers of any vehicles to immediately come to a full stop and yield the right-of-way to said person.
(Code 1967, § 23-269; Code 1985, § 21-236; Ord. No. 5401, § 1(11-28-9), 7-5-2011)

State law reference—Similar provisions, T.C.A. § 55-8-180.

Sec. 11-28-10. Penalty.

Violations of this chapter shall be prosecuted in the same manner as prescribed in chapter 11-8.
(Ord. No. 5401, § 1(11-28-10), 7-5-2011)

CHAPTER 11-32. VEHICLE EQUIPMENT*

Sections:

Sec. 11-32-1. Brakes generally.
Sec. 11-32-2. Brakes for motorcycles and motorized bicycles.
Sec. 11-32-3. Brakes for trailers and semitrailers.
Sec. 11-32-4. Service brakes required.
Sec. 11-32-5. Performance ability of brakes.
Sec. 11-32-6. Maintenance and adjustment of brakes.
Sec. 11-32-7. Lights—Required on motor vehicles—Exceptions—Regulations as to color, type and visibility distance.
Sec. 11-32-8. Lights—On vehicles other than motor vehicles—Visibility distance.
Sec. 11-32-9. Lights—Headlamps on motorcycles.
Sec. 11-32-10. Lights—Lamp at end of train of vehicles.
Sec. 11-32-11. Lights—Lighting devices and reflectors on vehicles having width in excess of 80 inches, truck tractors and trailers—Lamp or flag on projecting load.
Sec. 11-32-12. Lights—Headlights on motor vehicles—Operation during inclement weather.
Sec. 11-32-13. Lights—Headlights complying with prohibition against glaring and dazzling lights—Anti-glare devices—Mounted height of lamps.
Sec. 11-32-14. Use of spotlights prohibited—Exception.
Sec. 11-32-15. Muffler required.
Sec. 11-32-16. Muffler cutout prohibited.
Sec. 11-32-17. Horn—Bells, sirens or exhaust whistles on emergency vehicles.
Sec. 11-32-18. Windshields and windows.
Sec. 11-32-19. Windshield wipers.
Sec. 11-32-20. Steering mechanism and wheel alignment.
Sec. 11-32-21. Rear view mirrors.

***State law reference—**Vehicle equipment, T.C.A. § 55-9-101 et seq.

Sec. 11-32-22. Operating vehicle equipped with tire in dangerous condition.
Sec. 11-32-23. Emission control devices and emissions generally.
Sec. 11-32-24. Television in motor vehicles—Penalty—Law enforcement.
Sec. 11-32-25. Obscene or patently offensive bumper stickers, window signs or automotive equipment—Prohibited.
Sec. 11-32-26. Offensive sound systems installed in or on vehicles—Prohibited.

Sec. 11-32-1. Brakes generally.

Every motor vehicle, other than a motorcycle, when operated upon any street within the city, shall be equipped with brakes adequate to control the movement of and to stop and hold such vehicle, including two separate means of applying the brakes, each of which means shall be effective to apply the brakes to at least two wheels. If these two separate means of applying brakes are connected in any way, they shall be so constructed that failure of any one part of the operating mechanism shall not leave the motor vehicle without brakes on at least two wheels.
(Code 1967, § 23-105; Code 1985, § 21-321)

State law reference—Brakes, T.C.A. §§ 55-8-204, 55-8-205.

Sec. 11-32-2. Brakes for motorcycles and motorized bicycles.

Every motorcycle and bicycle with motor attached when operated upon any street within the city shall be equipped with at least one brake, which may be operated by hand or foot.
(Code 1967, § 23-106; Code 1985, § 21-322)

State law reference—Similar provisions, T.C.A. § 55-9-204.

Sec. 11-32-3. Brakes for trailers and semitrailers.

Every trailer or semitrailer of a gross weight of 3,000 pounds or more, when operated upon any street within the city, shall be equipped with brakes adequate to control the movement of and to stop and to hold such vehicle and so designed as to be applied by the driver of the towing motor vehicle from its cab, and the brakes shall be so designed and connected that in case of an accidental breakaway of the towed vehicle, the brakes shall be automatically applied.
(Code 1967, § 23-107; Code 1985, § 21-323)

State law reference—Brakes, T.C.A. §§ 55-8-204, 55-9-205.

Sec. 11-32-4. Service brakes required.

Every new motor vehicle, trailer or semitrailer sold in this city and operated upon any of the streets of the city shall be equipped with service brakes upon all wheels of every such vehicle, except trucks and truck tractors having three or more axles need not have brakes on the front wheels, unless such vehicles are equipped with at least two steerable axles the wheels of one such axle need not be equipped with brakes, except any motorcycle and except that any semitrailer of less than 1,500 pounds gross weight need not be equipped with brakes.
(Code 1967, § 23-108; Code 1985, § 21-324)

State law reference—Brakes, T.C.A. §§ 55-8-204, 55-9-205.

Sec. 11-32-5. Performance ability of brakes.

A. The service brakes upon any motor vehicle or combination of vehicles shall be adequate to stop such vehicle when traveling 20 miles per hour within a distance of 30 feet when upon dry asphalt or concrete pavement surface free from loose material where the grade does not exceed one percent.

B. Under the above conditions, the hand brake shall be adequate to stop such vehicle within a distance of 55 feet and such hand brake shall be adequate to hold such vehicle stationary on any grade upon which operated.

C. Under the above conditions, the service brakes upon a motor vehicle equipped with two wheel brakes only, when permitted under this chapter, shall be adequate to stop the vehicle within a distance of 40 feet and the hand brake adequate to stop the vehicle within a distance of 55 feet.

D. All braking distances specified in this section shall apply to all vehicles mentioned, whether or not such vehicles are loaded to the maximum capacity.
(Code 1967, § 23-109; Code 1985, § 21-325)

Sec. 11-32-6. Maintenance and adjustment of brakes.

All brakes specified in this chapter shall be maintained in good working order and shall be so adjusted as to operate as equally as practicable with respect to the wheels on opposite sides of the vehicles.
(Code 1967, § 23-110; Code 1985, § 21-326)

State law reference—Brakes, T.C.A. §§ 55-8-204, 55-9-205.

Sec. 11-32-7. Lights—Required on motor vehicles—Exceptions—Regulations as to color, type and visibility distance.

A. Every motor vehicle other than a motorcycle, road roller, road machinery or farm tractor shall be equipped with at least two and not more than four headlights, with at least one on each side of the front of the motor vehicle; provided that, auxiliary road lighting lamps may be used, but not more than two of such lamps shall be lighted at any one time in addition to the two required headlights; and, provided that, no spotlight or auxiliary lamps shall be so aimed upon approaching another vehicle that any part of the high intensity portion of the beam therefrom is directed beyond the left side of the motor vehicle upon which the spotlight or auxiliary lamp is mounted, nor more than 100 feet ahead of such motor vehicle.

B. Every motor vehicle shall be equipped with two red tail lamps and two red stoplights on the rear of such vehicle, and one tail lamp and one stoplight shall be on each side, except that passenger cars manufactured or assembled prior to January 1, 1939, trucks manufactured or assembled prior to January 1, 1968, and motorcycles and motor-driven cycles shall have at least one red tail lamp and one red stoplight.

C. The stoplight shall be so arranged as to be actuated by the application of the service or foot brake and shall be capable of being seen and distinguished from a distance of 100 feet to the rear of a motor vehicle in normal daylight but shall not project a glaring or dazzling light.

D. The stoplight may be incorporated with the tail lamp.

E. Each lamp and stoplight required in this section shall be in good condition and operational.

F. No vehicle operated in this state shall be equipped with any flashing red or blue lights which displays to the front of such vehicle, except school buses, law enforcement vehicles, and emergency vehicles used in firefighting including ambulances, firefighting vehicles, rescue vehicles, privately owned vehicles of regular or volunteer firefighters certified in T.C.A. § 55-9-201(c) or other emergency vehicles used in firefighting owned, operated, or subsidized by the governing body of any county or municipality; provided, however, that any emergency rescue vehicle owned, titled and operated by a state chartered rescue squad, a member of the state association of rescue privately owned vehicle of regular or volunteer firefighters certified in T.C.A. § 55-9-201(c), squads, and marked with lettering at least three inches in size and displayed on the left and right sides of the vehicle designating it as "emergency rescue vehicle"; any authorized civil defense emergency vehicle displaying the appropriate civil defense agency markings of at least three inches; and any ambulance or vehicle equipped to provide emergency medical services properly licensed as required in the state and displaying the proper markings shall also be authorized to be lighted in one or more of the following manners:

1. A red light visibar type with P.A. system;
2. A red oscillating type light;
3. Blinking red lights, front and rear.

G. Any vehicle, other than an emergency vehicle or law enforcement vehicle authorized by this section to display flashing red or blue lights, which displays any such lights shall be considered in violation of this provision and subject for each offense.
(Code 1967, §§ 23-111(e), 23-115; Code 1985, § 21-327; Ord. No. 4938, § 1, 4-16-2002)

Sec. 11-32-8. Lights—On vehicles other than motor vehicles—Visibility distance.

Every vehicle other than a motor vehicle when traveling upon a city street dedicated, appropriated or open to public use or travel, shall be equipped with a light attached to and on the upper left side of such vehicle, capable of displaying a light visible 500 feet to the front and 500 feet to the rear of such vehicle under ordinary atmospheric conditions and such light shall be displayed during the period from one-half hour after sunset to one-half hour before sunrise and at all other times when there is not sufficient light to render clearly discernible any person on the road or highway at a distance of 200 feet ahead of such vehicle.
(Code 1967, § 23-111(a), (c), (d); Code 1985, § 21-328)

State law reference—Brakes, T.C.A. §§ 55-8-204, 55-9-402.

Sec. 11-32-9. Lights—Headlamps on motorcycles.

Every motorcycle shall be equipped with at least one and not more than two headlamps.
(Code 1967, § 23-111(b); Code 1985, § 21-329)

State law reference—Similar provisions, T.C.A. § 55-9-403.

Sec. 11-32-10. Lights—Lamp at end of train of vehicles.

Every motor vehicle and every trailer or semitrailer which is being drawn at the end of a train of vehicles shall carry at the rear a lamp of a type which exhibits a yellow or red light plainly visible under normal atmospheric conditions from a distance of 500 feet to the rear of such vehicle and such light shall be so constructed and placed that the number plate carried on the rear of such vehicle shall under like conditions be so illuminated by a white light as to be read from a distance of 50 feet to the rear of such vehicle.

(Code 1967, § 23-111(f); Code 1985, § 21-330)

State law reference—Similar provisions, T.C.A. § 55-9-404.

Sec. 11-32-11. Lights—Lighting devices and reflectors on vehicles having width in excess of 80 inches, truck tractors and trailers—Lamp or flag on projecting load.

A. *Generally.* Every motor vehicle other than any passenger car, any road roller, road machinery or farm tractor having a width of 80 inches or more shall be equipped with at least the following lighting devices and reflectors:

1. On the front, at least two headlamps, an equal number at each side; two turn signals, one at each side; two clearance lamps, one at each side; three identification lamps, mounted on the vertical center line of the vehicle, or the vertical center line of the cab where different from the center line of the vehicle, except that where the cab is not more than 42 inches wide at the front roofline, a single lamp at the center of the cab shall be deemed to comply with the requirements for identification lamps. No part of the identification lamps or their mountings may extend below the top of the vehicle windshield;

2. On the rear, two tail lamps, one at each side; two stop lamps, one at each side; two turn signals, one at each side; two clearance lamps, one at each side; two reflectors, one at each side; three identification lamps, mounted on the vertical center line of the vehicle, provided that the identification lamps need not be lighted if obscured by a vehicle towed by the truck;

3. On each side, one side-marker lamp at or near the front, one side-marker lamp at or near the rear; one reflector at or near the front, and one reflector at or near the rear.

B. *Truck tractors.* Every truck tractor shall be equipped as follows:

1. On the front, at least two headlamps, an equal number at each side; two turn signals, one at each side; two clearance lamps, one at each side; three identification lamps, mounted on the vertical center line of the vehicle, or the vertical center line of the cab where different from the center line of the vehicle, except that where the cab is not more than 42 inches wide at the front roofline, a single lamp at the center of the cab shall be deemed to comply with the requirement for identification lamps. No part of the identification lamps or their mountings may extend below the top of the vehicle windshield;

2. On the rear, one tail lamp; one stop lamp; two reflectors, one at each side; and, unless the turn signals on the front are so constructed (double faced) and located as to be visible to passing drivers, two turn signals on the rear of the cab, one at each side.

C. *Trailers.* Every semitrailer or full trailer 80 inches or more in overall width, except converter dollies, shall be equipped as follows:

1. On the front, two clearance lamps, one at each side;

2. On the rear, two tail lamps, one at each side; two stop lamps, one at each side; two turn signals, one at each side; two clearance lamps, one at each side; two reflectors, one at each side; three identification lamps, mounted on the vertical center line of the vehicle, provided that the identification lamps need not be lighted if obscured by another vehicle in the same combination;

3. On each side, one side-marker lamp at or near the front; one side-marker lamp at or near the rear: one reflector at or near the front; one reflector at or near the rear; and, in case of semitrailers and full trailers 30 feet or more in length, at least one additional side-marker lamp at optional height and at least one additional reflector, the additional side-marker lamp (or

lamps) and reflector (or reflectors) to be at or near the center or at approximately uniform spacing in the length of the vehicle.

4. For the purposes of these regulations, a "converter dolly" is a motor vehicle with a fifth wheel lower half or equivalent mechanism, the attachment of which vehicle converts a semitrailer to a full trailer. Each dolly, when towed singly by another vehicle, and not as part of a full trailer, shall be equipped with one stop lamp, one tail lamp, and two reflectors on the rear. No lighting devices or reflectors are required on the front or sides of any dolly.

D. *Projections.* During the time when lights are required to be displayed, there shall be attached to the rearmost extremity of any load which projects four feet or more beyond the rear of the of the body of the motor vehicle, or at any tailboard or tailgate so projecting, or to the rearmost extremity of any load, carried on a pole trailer, at least one red lamp, securely fastened thereto, which shall be visible from a distance of 500 feet to the sides and rear under normal atmospheric conditions. At all other times a red flag or cloth, synthetic or manmade material shall be so displayed.

E. *Towed vehicles.* Any vehicle attached to, or being towed, drawn or hauled by another vehicle, shall have separately displayed thereon the lights required herein to be displayed on vehicles to which they belong.

F. *Electric turn signal lights; exceptions.* Every passenger vehicle and truck shall be equipped with electric turn signal lights except that passenger cars and trucks less than 80 inches in width, manufactured or assembled prior to 1955, and motorcycles and motor-drive cycles, need not be equipped with electric turn signal lights.

The electric turn signal lights shall indicate an intention to turn by flashing lights showing to the front and rear of a vehicle or on a combination of vehicles on the side of the vehicle or combination toward which the turn is to be made.

The lights showing to the front shall be mounted on the same level and as widely spaced laterally as practicable and, when signaling, shall emit white or amber light, or any shade of light between white and amber. The light showing to the rear shall be mounted on the same level and as widely spaced laterally as practicable, and when signaling, shall emit a red or amber light, or any shade of color between red and amber. Turn signal lights on vehicles 80 inches or more in overall width shall be visible from a distance of not less than 500 feet in normal sunlight. Turn signal lights on vehicles less than 80 inches wide shall be visible at a distance of not less than 300 feet in normal sunlight. Turn signal lights may, but need not be, incorporated in other lights on the vehicle.
(Code 1967, §§ 23-1(c), (e)—(g), 23-112, 23-113; Code 1985, § 21-331; Ord. No. 3514, § 1(1), (2), 1-7-1986)

State law reference—Similar provisions, T.C.A. § 55-9-405.

Sec. 11-32-12. Lights—Headlights on motor vehicles—Operation during inclement weather.

A. The headlights of every motor vehicle shall be so constructed, equipped, arranged, focused, aimed, and adjusted, that they will at all times mentioned in section 11-32-8, and under normal atmospheric conditions and on a level road produce a driving light sufficient to render clearly discernible a person 200 feet ahead, but shall not project a glaring or dazzling light to persons in front of such headlights. Such headlights shall be displayed during the period from one-half hour after sunset to one-half hour before sunrise, during fog, smoke, or rain and at all other times when there is not sufficient light to render clearly discernible any person on the road at a distance of 200 feet ahead of such vehicle.

B. Operation of headlights during periods of rain, as required in this section, shall be made during any time when rain, mist, or other precipitation, including snow, necessitates the constant use of windshield wipers by motorists.
(Code 1967, § 23-111(e); Code 1985, § 21-332)

State law reference—Similar provisions, T.C.A. § 55-9-406.

Sec. 11-32-13. Lights—Headlights complying with prohibition against glaring and dazzling lights—Anti-glare devices—Mounted height of lamps.

Headlights shall be deemed to comply with the provisions of section 11-32-12, prohibiting glaring and dazzling lights, if such headlights are of a type customarily employed by manufacturers of automobiles and in addition are equipped with some anti-glare device approved by the state department of safety in conformance with the standards of T.C.A. § 55-9-408.
(Code 1967, § 23-111(e); Code 1985, § 22-333)

State law reference—Similar provisions, T.C.A. § 55-9-408.

Sec. 11-32-14. Use of spotlights prohibited—Exception.

Dirigible search lights or spotlights shall not be used on the public streets, except by authorized emergency vehicles.
(Code 1967, § 23-114; Code 1985, § 21-334)

Sec. 11-32-15. Muffler required.

No person shall drive a motor vehicle on a street unless such motor vehicle is equipped with a muffler in good working order and in constant operation to prevent excessive or unusual noise, annoying smoke and the escape of excessive gas, steam or oil.
(Code 1967, § 23-116; Code 1985, § 21-335)

State law reference—Similar provisions, T.C.A. § 55-9-202.

Sec. 11-32-16. Muffler cutout prohibited.

It is unlawful to use a muffler cutout on any motor vehicle upon a street.
(Code 1967, § 23-117; Code 1985, § 21-336)

State law reference—Similar provisions, T.C.A. § 55-9-202.

Sec. 11-32-17. Horn—Bells, sirens or exhaust whistles on emergency vehicles.

A. Every motor vehicle, when operated upon any street shall equipped with a horn in good working order capable of emitting sound audible under normal conditions from a distance of not less than 200 feet, and it is unlawful, except as otherwise provided in this section, for any vehicle to be equipped with or for any person to use upon a vehicle any siren, exhaust, compression or spark plug whistle or for any person at any time to use a horn otherwise than as a reasonable warning or to make any unnecessary or unreasonably loud or harsh sound by means of a horn or other warning device.

B. Every police and fire department and fire patrol vehicle and every ambulance and emergency repair vehicle of public service companies used for emergency calls shall be equipped with a bell, siren, or exhaust whistle of a type approved by the division of police.
(Code 1967, §§ 23-118, 23-118.1, 23-119; Code 1985, § 21-337)

State law reference—Similar provisions, T.C.A. § 55-9-202.

Sec. 11-32-18. Windshields and windows.

A. It is unlawful for any person to drive any vehicle upon a street with any sign, poster or other nontransparent material upon the front windshield, sidewings, or side or rear window of such motor vehicle other than a certificate or other paper required to be so displayed by law, where such sign, poster or other nontransparent material will interfere with, obstruct or impair the driver's view from and through the windshield, sidewings, or side or rear window of such vehicle. The windshield and windows of such vehicle shall be of transparent material so as to furnish the driver a clear unobstructed view of the front, sides and rear.

B. All motor vehicles shall be equipped with safety glass of a type approved by the commissioner of the state department of safety, for windshields, doors and windows, according to the provisions of state law. It is unlawful to operate any motor vehicle in the city upon which the glass of the windshield, doors, windows or window vents is broken, cracked, pitted, discolored, marred or otherwise defective so as to constitute an impairment or obstruction to the vision of the operator.

C. It is unlawful for any person to operate a motor vehicle upon a public highway, street or road, which has been altered, treated or replaced by the affixation, application or installation of any material which causes the visible light transmittance of any window to be less than 35 percent.

D. No sunscreen material shall be installed below the manufacturer's standard shade ban length and width of the front windshield.

E. All installers of tinted glass or other light-retarding materials shall supply an adhesive sticker or other method of certification that the standards required under this section have been met by the materials or method used on the motor vehicle.

F. All drivers with tinted windows, or windows treated with other light-retarding materials, shall completely roll down the window on the driver's side of the vehicle or exit the vehicle immediately upon being stopped by a uniformed law enforcement officer.
(Code 1985, § 21-338; Ord. No. 5405, § 1, 7-5-2011; Ord. No. 5559, § 1, 9-2-2014)

State law reference—Similar provisions, T.C.A. § 55-9-107.

Sec. 11-32-19. Windshield wipers.

Every motor vehicle other than a motorcycle and a motor-driven cycle shall be equipped with a device for cleaning rain, snow or other moisture from the windshield of the vehicle, which device shall be so constructed as to be controlled or operated by the operator of the vehicle.
(Code 1967, § 23-121; Code 1985, § 21-339)

State law reference—Similar provisions, T.C.A. § 55-9-203.

Sec. 11-32-20. Steering mechanism and wheel alignment.

No motor vehicle shall be driven upon the streets of the city when the "play" in the steering wheel is in excess of three inches. The steering arms, tie rod, drag link or other mechanism by which the vehicle is steered, and the associated parts, must be secure and free from excessive "play" or wear. The "toe-in" and "toe-out" shall not vary more than one-quarter inch from the factory specifications. Rear wheels must be in good condition and in alignment so as not to have more than a ten-foot sideslip per mile, and the center bolts must be secure in the rear springs. The alignment of wheels shall be determined by a standard test as prescribed by the director of police.
(Code 1967, § 23-122; Code 1985, § 21-340)

Sec. 11-32-21. Rear view mirrors.

No person shall drive a motor vehicle on a street unless such vehicle is equipped with a mirror so located as to reflect to the driver a view of the street for a distance of at least 200 feet to the rear of such vehicle.
(Code 1967, § 23-123; Code 1985, § 21-341)

Sec. 11-32-22. Operating vehicle equipped with tire in dangerous condition.

It is unlawful to operate in the city any motor vehicle while using thereon any tire or tires with visibly exposed fabric or bulges or other obvious defects indicating a dangerous condition.
(Code 1967, § 23-129; Code 1985, § 21-349; Ord. No. 1017, § 1, 7-20-1971)

State law reference—Tires, T.C.A. § 55-9-106.

Sec. 11-32-23. Emission control devices and emissions generally.

A. Every gasoline-powered vehicle shall not emit carbon monoxide (CO) and/or hydrocarbon (HC) in its exhaust in excess of standards established by the director of the public service division. In setting inspection standards for emission of pollutants, the director of the public service division may use manufacturer's specifications, industry guidelines, and recommendations of the U.S. Environmental Protection Agency. Where required by law, regulation or court order, he or she shall establish inspections to meet the mandated standards, and shall provide for an inspection at least one time per year by the public service division of the city.

B. No person shall remove or cause to be removed any factory-installed device which has as its purpose, or produces the effect of, reducing the emission of pollutants, except when the removal is for the purpose of repair or replacement.

C. No person shall introduce or cause to be introduced into any gas tank of a motor vehicle any fuel or additive which has the effect of directly increasing the emission of pollutants or which will directly or indirectly result in damage to pollution-control devices which were installed by the manufacturer.

D. The director of the public service division may waive any standards and the requirement to make repairs to meet those standards for any group of motor vehicles when, in his or her opinion, the cost of making the required repairs is unreasonable or when it is unlikely that repairs will result in significantly improved performance; however, such waivers shall not adversely affect the overall viability or air pollution control plans or strategies developed by the city for the purpose of attaining and maintaining compliance with ambient air quality standards.
(Code 1967, § 23-133; Code 1985, § 21-351; Ord. No. 3306, § 1, 7-5-1983)

Sec. 11-32-24. Television in motor vehicles—Penalty—Law enforcement.

A. No television screen or other device of a similar nature shall be installed or used in the city in any position or location in a motor vehicle where it may be visible to the driver, or where it may in any other manner interfere with the safe operation and control of the vehicle.

It is unlawful for any person to install or cause to be installed a television screen or other device of a similar nature, in violation of the provisions of this section, or to operate upon the public highways, or sell within this city,

any motor vehicle which has a television screen or other devise of a similar nature installed in violation of the provisions of this section.

B. The prohibitions contained in this section do not apply to the following:

1. Electronic displays used in conjunction with vehicle navigation systems;
2. Closed circuit video monitors designed to operate only in conjunction with dedicated video cameras and used in rear-view systems on motor vehicles;
3. Television receivers or monitors used in government-owned vehicles by law enforcement officers in the course of their official duties; and
4. a. Computer or other electronic displays or monitors used in utility vehicles by employees of the utility in the course of their official duties; provided, however, such use shall only be permitted while the vehicles are stopped, standing or parked.
   b. As used in this subsection, "utility" means any person, municipality, county, metropolitan government, cooperative, board, commission, district, or any entity created or authorized by public act, private act, or general law, to provide electricity, natural gas, water, wastewater services, telephone service, or any combination thereof for sale to consumers in any particular service area.
   c. As used in subsection (B)(4)(b) of this section, "cooperative" means any cooperative providing utility services, including, but not limited to, electric and/or telephone services.

C. A violation of this section is declared to be a misdemeanor and subject to a fine of not more than $50.00.

D. This section does not apply to local, state or federal law enforcement officers who are engaged in the performance of their official duties.

(Code 1985, § 21-352; Ord. No. 5084, § 1(part), 2004)

Sec. 11-32-25. Obscene or patently offensive bumper stickers, window signs or automotive equipment—Prohibited.

A. In order to avoid distracting other drivers and, thereby, to reduce the likelihood of accidents arising from lack of attention or concentration:

1. No obscene or patently offensive bumper sticker, window sign or other marking on a motor vehicle shall be displayed in any manner visible to other drivers; and
2. No obscene or patently offensive movies, bumper stickers, window signs, or other markings on or in a motor vehicle, motion picture, film, movie, videotape, digital video disc or other pictorial representation shall be exhibited on a television, monitor or other viewing screen or surface, located within or on a motor vehicle, in any manner visible to other drivers.

B. As used in subsection A of this section, the terms "obscene" and "patently offensive" shall be defined as set forth within T.C.A. § 39-17-901.

C. 1. The owner of a vehicle involved in a violation of subsection (A)(1) of this section shall be fined not more than $50.00 per incident.

2. The operator of a vehicle involved in a violation of subsection (A)(2) of this section shall be fined not more than $50.00 per incident.

D. This section does not apply to local, state or federal law enforcement officers who are engaged in the performance of their official duties.

(Code 1985, § 21-353; Ord. No. 5084, § 1(part), 2004)

State law reference—Similar provisions, T.C.A. § 55-8-187.

Sec. 11-32-26. Offensive sound systems installed in or on vehicles—Prohibited.

A. No person operating or occupying a motor vehicle on any public street, highway, alley, parking lot, or driveway shall operate or permit the operation of any sound amplification system, including, but not limited to, any radio, tape player, compact disc player, loud speaker, or any other electrical device used for the amplification of sound from within the motor vehicle so that the sound is plainly audible at a distance of 50 or more feet from the vehicle. For the purpose of this section, "plainly audible" means any sound which clearly can be heard, by unimpaired auditory senses based on a direct line of sight of 50 or more feet; however, words or phrases need not be discernible and such sound shall include bass reverberation.

B. This section shall not be applicable to emergency or public safety vehicles, vehicles owned and operated by a municipality or county government or any utility company, for sound emitted unavoidably during a job-related operation, school or community sponsored activities, auctioneers or auctioning activities, boats or other watercrafts operated on waters or any motor vehicle used

in an authorized public activity for which a permit has been granted by the appropriate agency of a municipal or county government.

C. The violation of this section is declared to be a misdemeanor and subject to a fine of not more than $50.00 per incident.

D. This section does not apply to local, state or federal law enforcement officers who are engaged in the performance of their official duties.

E. It is not the intent of this section to prohibit any right guaranteed by the United States Constitution and state constitution including freedom of speech and freedom of religion.

(Code 1985, § 21-354; Ord. No. 5084, § 1(part), 2004)

State law reference—Similar provisions, T.C.A. § 55-8-193.

CHAPTER 11-36. SEATBELTS AND CHILD-SAFETY DEVICES*

Sections:

Sec. 11-36-1. Child passenger safety responsibility.
Sec. 11-36-2. Use of safety belts in passenger vehicles.
Sec. 11-36-3. Transportation of children in truck beds.

Sec. 11-36-1. Child passenger safety responsibility.

A. Any person transporting any child under one year of age, or any child, weighing 20 pounds or less, in a motor vehicle upon a road, street or highway of the city, is responsible for the protection of the child and properly using a child passenger restraint system in a rear facing position, meeting federal motor vehicle safety standards in the rear seat if available or according to the child safety restraint system or vehicle manufacturer's instructions. (Reference to T.C.A. § 55-9-603). Children are to be kept rear facing until they are one year old. If they are over one year old and still weigh less than 20 pounds, they shall remain rear facing until they weigh more than 20 pounds.

B. Any person transporting any child, one through three years of age weighing greater than 20 pounds, in a motor vehicle upon a road, street or highway of the city, is responsible for the protection of the child and properly using a child passenger restraint system in a forward-facing position, meeting federal motor vehicle safety standards in the rear seat if available or according to the child safety restraint system or vehicle manufacturer's instructions. (Reference to T.C.A. § 55-9-603).

C. Any person transporting any child, four through eight years of age and measuring less than five feet in height, in a passenger motor vehicle upon a road, street or highway of the city, is responsible for the protection of the child and properly using a belt positioning booster seat system, meeting federal motor vehicle safety standards in the rear seat if available or according to the child safety restraint system or vehicle manufacturer's instructions. (Reference to T.C.A. § 55-9-603).

1. All passenger vehicle rental agencies doing business in the city shall make available at a reasonable rate to those renting such vehicle an approved restraint as described in T.C.A. § 55-214(a).

2. If a child is not capable of being safely transported in a conventional child passenger restraint system as provided for in this subsection, a specially modified professionally manufactured restraint system meeting the intent of this subsection shall be in use; provided that the provisions of this subsection shall not be satisfied by use of the vehicle's standard lap or shoulder safety belts independent of any other child passenger restraint system. A motor vehicle operator who is transporting a child in a specially modified, professionally manufactured child passenger restraint system shall possess a copy of the physician's signed prescription that authorizes the professional manufacture of the specially modified child passenger system.

3. A person shall not be charged with a violation of this subsection if such person presents a copy of the physician's prescription in compliance with the provisions of this subsection to the arresting officer at the time of the alleged violation.

4. A person charged with a violation of this section may, on or before the court date, submit a copy of the physician's prescription and evidence of the possession of a specially modified, professionally manufactured child passenger restraint system to the court. If the court is satisfied that compliance was in effect at the time of the violation, the charge for violating the provisions of this section may be dismissed.

***State law reference—**Seat belts and child-safety devices, T.C.A. § 55-9-601 et seq.

D. Any person transporting any child, nine through 12 years of age, or any child through 12 years of age, measuring five feet or more in height, in a passenger motor vehicle upon a road, street or highway of the city, is responsible for the protection of the child, and properly using a seat belt system meeting federal motor vehicle safety standards. It is recommended that any such child be placed in the rear seat if available. (Reference to T.C.A. § 55-9-603).

E. Any person transporting any child 13 through 15 years of age, in a passenger motor vehicle upon a road, street or highway of the city, is responsible for the protection of the child and properly using a passenger restraint system, including safety belts, meeting federal motor vehicle safety standards. (Reference T.C.A. § 55-9-603).

F. If the driver is neither a parent nor legal guardian of the child and the child's parent or legal guardian is present in the vehicle, the parent or legal guardian is responsible for ensuring that the provisions of this subsection are complied with. If no parent or legal guardian is present at the time of the violation, the driver is solely responsible for compliance with this subsection. (Reference to T.C.A. § 55-9-603).

G. Notwithstanding any provisions of this part to the contrary, for any child transported by child care agencies licensed by the Department of Human Services pursuant to T.C.A. § 71-3-501 et seq. and transported pursuant to the rules and regulations of such department, such rules and regulations shall remain effective until the department amends such rules and regulations; provided that the department shall either promulgate rules consistent with the provisions of this part of promulgated rules exceeding, based on federal regulations or standards, the provisions of this part no later than January 1, 2007. (Reference to T.C.A. § 55-9-603).

H. Violation of any provision of this section is declared a misdemeanor and any one convicted of any such violation shall be fined not more than $50.00 for each violation.

I. As used in this section, unless specified otherwise, "passenger motor vehicle" means any motor vehicle with a manufacturer's gross vehicle weight rating of 10,000 pounds or less, that is not used as a public livery conveyance for passengers. "Passenger motor vehicle" does not apply to motor vehicles which are not required by federal law to be equipped with safety belts.

J. A person who has successfully met the minimum required training standards for installation of child restraint devices established by the National Highway Traffic Safety Administration of the United States Department of Transportation, who in good faith installs or inspects the installation of a child restraint device shall not be liable for any damages resulting from any act or omission related to such installation or inspection unless such act or omission was the result of the person's gross negligence or willful misconduct. (Reference to T.C.A. § 55-9-603).

K. This section does not apply to local, state or federal law enforcement officers who are engaged in the performance of their official duties.

(Code 1967, § 23-36; Code 1985, § 21-23.1; Ord. No. 3287, § 1, 4-5-1983; Ord. No. 3557, § 1, 6-17-1986; Ord. No. 5059, § 1(part), 2004; Ord. No. 5084, § 1(part), 2004)

State law reference—Similar provisions, T.C.A. § 55-9-602.

Sec. 11-36-2. Use of safety belts in passenger vehicles.

A. *Definitions.* The following terms as used in this section shall have the following meaning:

Passenger car or *passenger motor vehicle* means any motor vehicle with a manufacturer's gross vehicle weight rating of 10,000 pounds or less, that is not used as a public livery conveyance for passengers. "Passenger motor vehicle" does not apply to motor vehicles which are not required by federal law to be equipped with safety belts.

B. *Violations, penalties and applicability.*

1. No person shall operate a passenger motor vehicle in this city unless such person and all passengers are restrained by a belt at all times the vehicle is in forward motion.
2. The provisions of this section shall apply only to the operator and all passengers occupying the front seat of a passenger motor vehicle. If the vehicle is equipped with a rear seat which is capable of folding, the provisions of this section shall only apply to front seat passengers and operator when the back seat is in the fold down position.
3. Violation of any provision of this section is declared to be a misdemeanor, and any operator of a passenger motor vehicle convicted of a

violation hereunder shall be fined $25.00 for each person in the passenger motor vehicle failing to use a seat belt as provided in this subsection.

4. Revenues collected (less than two percent of the revenues which shall go to the city clerk's office to defray the cost of collecting the fines) under this subsection, shall be paid to the Memphis and Shelby County Health Department to be designated for child restraint seats for the indigent; provided that any funds remaining unused for such purpose, after the Memphis and Shelby County Health Department has made every effort to distribute such child restraint seats, may be used for other health promotion initiatives as identified by the health director.

5. Notwithstanding the provisions of this section, any and all revenues derived from the penalties imposed herein shall be independent of and in addition to the city's contribution pursuant to the amended and restated contract for joint funding of the Memphis and Shelby County Health Department as amended on December 22, 1999, and first amendment to the amended and restated contract for joint funding of the Memphis and Shelby County Health Department, as amended on March 27, 2000.

(Code 1985, § 21-23.2; Ord. No. 4264, § 1, 6-14-1994; Ord. No. 4982, § 1, 12-17-2002; Ord. No. 5059 § 1(part), 2004)

State law reference—Similar provisions, T.C.A. § 55-9-601.

Sec. 11-36-3. Transportation of children in truck beds.

A. No person shall transport on city roads or state highways a child under 12 years of age in the bed of a truck with a manufacturer's ton rating not exceeding three-quarter ton and having a pickup body style.

B. This section does not apply:

1. To a person transporting such child in the bed of such vehicle when such vehicle is being used as part of an organized parade, procession, or other ceremonial event, and when such vehicle is not exceeding the speed of 20 miles per hour; or

2. When a child being transported is involved in agricultural activities.

C. A violation of this section is a Class C misdemeanor, subject to a $50.00 fine.

(Ord. No. 5307, § 1(21-23.3), 5-19-2009)

CHAPTER 11-40. STOPPING, STANDING AND PARKING GENERALLY

Sections:

Sec. 11-40-1. Obedience to parking signs.
Sec. 11-40-2. Prohibited in specified places.
Sec. 11-40-3. City engineer to create and designate tow-away zones—Parking in zones—Enforcement.
Sec. 11-40-4. Prohibited for certain purposes.
Sec. 11-40-5. Obstructing traffic prohibited.
Sec. 11-40-6. Opening door of parked or standing vehicle.
Sec. 11-40-7. Unattended vehicles.
Sec. 11-40-8. Stopping with left side to curb.
Sec. 11-40-9. No-parking zones.
Sec. 11-40-10. Angle parking.
Sec. 11-40-11. Parking vehicles in residential zone.
Sec. 11-40-12. Parking of nonmotorized equipment or vehicles in residential zone.
Sec. 11-40-13. Storage of property on public streets and right-of-way unlawful.
Sec. 11-40-14. Parking, loading and unloading in alleys.
Sec. 11-40-15. Parking in handicapped spaces.
Sec. 11-40-16. Parked vehicles restricting or encroaching upon designated handicapped spaces.
Sec. 11-40-17. Loading and unloading zones—Generally.
Sec. 11-40-18. Loading and unloading zones—Use.
Sec. 11-40-19. Bus stops.
Sec. 11-40-20. Taxicab stands.
Sec. 11-40-21. Regulation of parking on city property.
Sec. 11-40-22. Attendants at off-street parking facilities.
Sec. 11-40-23. Vehicle owner not to permit parking violations.
Sec. 11-40-24. Duty of police relative to illegally parked vehicles—Ticket for parking violations.
Sec. 11-40-25. Presumption in prosecutions for parking violations.
Sec. 11-40-26. Impounding vehicles obstructing street.
Sec. 11-40-27. Impoundment and/or immobilization of vehicles with outstanding traffic ticket violations.
Sec. 11-40-28. Claims for damaged booting devices—Presumption on registered owner.
Sec. 11-40-29. Parking permit program for neighborhoods.

Sec. 11-40-1. Obedience to parking signs.

The owner or operator of any vehicle shall obey the instructions of any official parking sign applicable thereto placed in accordance with this title, and other traffic ordinances of the city, unless otherwise directed by a police officer.
(Code 1967, § 23-242; Code 1985, § 21-135; Ord. No. 3186, § 1, 10-20-1981)

Sec. 11-40-2. Prohibited in specified places.

A. No person shall stop, stand or park a vehicle, except when necessary to avoid conflict with other traffic or in compliance with the direction of a police officer or traffic-control device, in any of the following places:

1. On a sidewalk or between the curb and an adjacent sidewalk;
2. More than 12 inches from the curb;
3. In front of a public or private driveway;
4. Within an intersection;
5. Within 15 feet of a fire hydrant;
6. On a crosswalk;
7. Within 20 feet of a crosswalk at an intersection, unless otherwise designated by markers or parking meters;
8. Within 30 feet upon the approach to any flashing beacon, stop sign, or traffic-control signal located at the side of a roadway;
9. Within 50 feet of the nearest rail of a railroad crossing;
10. Within 20 feet of the driveway entrance to any fire station and, on the side of a street opposite the entrance to any fire station, within 75 feet of such entrance, when properly signposted;
11. Alongside or opposite any street excavation or obstruction when stopping, standing or parking would obstruct traffic;
12. On the roadway side of any vehicle stopped or parked at the edge or curb of a street;
13. Upon any bridge or other elevated structure upon a street or within a street tunnel;
14. Any place where official signs prohibit parking;
15. So as to obstruct access to any United States mailbox;
16. On any part of the interstate highway system; except that vehicles may be left on the portion of the interstate not intended for travel for a period of four hours if a note is attached thereto or the hood of such vehicle is left raised indicating that an emergency situation necessitated the vehicle being left in this location.

B. No person shall move a vehicle not owned by such person into any such prohibited area or away from a curb such distance as is unlawful.
(Code 1967, § 23-219; Code 1985, § 21-136; Ord. No. 2399, § 11, 4-13-1976; Ord. No. 3109, § 1, 4-7-1981)

Sec. 11-40-3. City engineer to create and designate tow-away zones—Parking in zones—Enforcement.

A. The city engineer is authorized to create and designate certain portions of public streets as tow-away zones.

B. It is unlawful for any person to park a vehicle within such designated areas, except as otherwise provided by law.

C. Any vehicle parked within such zones shall be subject to removal by the police services division at the expense and risk of the owner of the vehicle.

D. Section 11-60-1 shall be applicable with respect to the presumption of ownership.
(Code 1967, § 23-4.1; Code 1985, § 21-137; Ord. No. 2138, § 1, 10-1-1974; Ord. No. 3586, § 16, 9-2-1986)

Sec. 11-40-4. Prohibited for certain purposes.

No person shall stand or park a vehicle upon any roadway for the principal purpose of:

A. Displaying it for sale or rent;

B. Washing, greasing or repairing such vehicle, except repairs necessitated by an emergency.

(Code 1967, § 23-220; Code 1985, § 21-138;)

Sec. 11-40-5. Obstructing traffic prohibited.

A. No driver shall stop, stand or park a vehicle abreast of another vehicle parallel to the curb or in any other manner so as to interrupt or interfere with the

passage of other vehicles on any street except in the case of public emergency or when directed by a police officer.

B. It is unlawful to leave any vehicle standing in any street when such vehicle constitutes a hazard to public safety or an obstruction to traffic.
(Code 1967, § 23-221; Code 1985, § 21-139)

Sec. 11-40-6. Opening door of parked or standing vehicle.

Whenever any vehicle is standing or parked upon or beside a roadway, no person shall open any door of such vehicle on that side of the vehicle nearest the flow of traffic on such street, whenever the opening of such door shall constitute a hazard or obstruction to vehicles moving on the street in a lawful manner.
(Code 1967, § 23-227; Code 1985, § 21-140)

Sec. 11-40-7. Unattended vehicles.

A. No person driving or in charge of a motor vehicle shall permit it to stand unattended without first stopping the engine, locking the ignition, removing the key and effectively setting the brake thereon and, when standing upon any grade, turning the front wheels to the curb or side of the street.

B. The portion of this section pertaining to the locking of or removal of keys from the vehicle shall not apply when a vehicle is parked upon an off-street parking facility where an attendant is present.

C. It shall be the duty of every person driving or in charge of any vehicle, when parking or stopping such vehicle, to secure such vehicle so that it shall not roll unattended into or upon any public street or alley.
(Code 1967, § 23-222; Code 1985, § 21-141)

State law reference—Similar provisions, T.C.A. § 55-8-162.

Sec. 11-40-8. Stopping with left side to curb.

No vehicle shall stop with its left side to the curb; provided, however, that this prohibition shall not apply to one-way streets when such stopping has been authorized by the city engineer and is not prohibited.
(Code 1967, § 23-223; Code 1985, § 21-142; Ord. No. 3586, § 17, 9-2-1986)

State law reference—Similar provisions, T.C.A. § 55-8-161.

Sec. 11-40-9. No-parking zones.

The city engineer is authorized to designate spaces upon either side of any street in the city where vehicles shall not be parked at any time or to designate spaces where parking may be limited to certain times or places, as indicated by the placing of official signs. The city engineer shall locate these spaces with regard to public convenience and to meet the conditions of traffic.

It is unlawful for any person to park any vehicle in violation of any sign or marking erected or maintained under this section.
(Code 1967, § 23-224; Code 1985, § 21-143; Ord. No. 3586, § 18, 9-2-1986)

Sec. 11-40-10. Angle parking.

The city engineer shall determine upon what streets angle parking shall be permitted and shall mark or sign such streets. Upon those streets which have been signed or marked for angle parking no person shall park or stand a vehicle other than at the angle to the curb or edge of the roadway indicated by such signs or markings.
(Code 1967, § 23-225; Code 1985, § 21-144; Ord. No. 3586, § 19, 9-2-1986)

Sec. 11-40-11. Parking vehicles in residential zone.

A. It is unlawful for any person to park, or knowingly permit, any vehicle as defined in this title, on any residential street in the city for a period of time longer than 24 hours consecutively.

B. No truck, truck trailer, or tractor or bus, as defined in this title, but specifically excluding pickup trucks with two axles and passenger vans and sport utility vehicles, shall be parked or left unattended on any public street located within a residential district and/or zone, as defined in the Memphis and Shelby County Unified Development Code, except while actively being loaded or unloaded, or while such vehicle is being used in connection with any work or service being performed on adjacent property.

C. No recreation vehicle shall be parked or left unattended on any residential street or in any residential district, except while actively being loaded or unloaded.

D. The division of police services is authorized to remove any vehicle found parked in violation of this section when such vehicle constitutes a traffic hazard or

obstruction of traffic. Such vehicle may be impounded by the division of police services in accordance with the provisions of section 11-40-26.

E. Violation of this section shall be a misdemeanor punishable as provided in section 1-24-1. Proof of ownership, as identified on registration records maintained by the Tennessee Department of Safety, or similar agency of other relevant state and as certified by the city court clerk's office pursuant to section 11-8-4(C), of any vehicle found parked in violation of this section shall be prima facie evidence that the vehicle, at the time of the violation, was operated and used by the owner, or by the owner's employee or agent while acting in the scope of their employment or agency and with the owner's authority, consent and knowledge.
(Code 1967, § 23-238; Code 1985, § 21-145; Ord. No. 1639, § 1, 2-27-1973; Ord. No. 3790, § 1, 8-30-1988; Ord. No. 4906, § 1, 11-20-2001; Ord. No. 4959, 9-3-2002; Ord. No. 5002, 6-3-2003)

Sec. 11-40-12. Parking of nonmotorized equipment or vehicles in residential zone.

A. It is unlawful for any person to park or store any nonmotorized vehicle or equipment, such as, but not limited to, campers, trailers, boats, or other recreational type equipment, on any public street located within a residential district and/or zone, as defined in the Memphis and Shelby County Unified Development Code, in the city.

B. Such nonmotorized vehicles or equipment may be removed by the police division in accordance with the provisions of section 11-40-26 relating to the impounding of vehicles obstructing the streets.

C. Violation of this section shall be a misdemeanor punishable as provided in section 1-24-1.
(Code 1967, § 23-239; Code 1985, § 21-146; Ord. No. 2136, § 1, 10-1-1974; Ord. No. 3790, § 2, 8-30-1988; Ord. No. 4960, 9-3-2002; Ord. No. 5002, 6-3-2003)

Sec. 11-40-13. Storage of property on public streets and right-of-way unlawful.

A. It is unlawful for any person to use a public street or public right-of-way along the street, for the purpose of storing any item, except where otherwise lawfully provided.

B. "Storage" is defined, for the purposes of this section, as the placing of any property in such public street or right-of-way in such a manner as to preclude the use of such street or right-of-way by the general public or the normal flow of vehicular or pedestrian traffic.
(Code 1967, § 23-240; Code 1985, § 21-147; Ord. No. 2262, § 1, 6-10-1975)

Sec. 11-40-14. Parking, loading and unloading in alleys.

It is unlawful for any person to park any vehicle in any alley or to place or permit any obstruction in the same at any time; provided that, this section shall not apply to trucks and wagons that are actually engaged in loading or unloading; provided, further, that no such vehicle shall be left standing so as to obstruct ingress and egress to and from an alley. All loading and unloading activity permitted in alleys shall be performed in accordance with section 11-40-18.
(Code 1967, § 23-226; Code 1985, § 21-148; Ord. No. 2838, § 1, 3-12-1979)

Sec. 11-40-15. Parking in handicapped spaces.

No person shall stop, stand or park a vehicle in a parking space clearly designated as being reserved for the physically handicapped, as provided for in T.C.A. §§ 55-21-104 and 105, unless the person driving the vehicle is physically handicapped or parking such vehicle for the benefit of a physically handicapped passenger. A vehicle parking in such space shall display a distinguishing placard, license plate, disabled veterans' license plate, or distress flag or card, under the provisions of T.C.A. title 55, chapter 21. A person who parks a vehicle in violation of this section shall be subject to a fine of not more than $25.00 for a first offense, or as provided in section 1-24-1 for each subsequent offense. This section shall be enforceable on public property or on private property where a business, firm or other person transacting business with the public from a permanent location has provided specially marked parking spaces for the exclusive use of handicapped drivers or passengers, as set forth in T.C.A. title 55, chapter 21.
(Code 1967, § 23-219.1; Code 1985, § 21-148.1; Ord. No. 3323, § 1, 8-2-1983)

State law reference—Similar provisions, T.C.A. § 55-21-108.

Sec. 11-40-16. Parked vehicles restricting or encroaching upon designated handicapped spaces.

A person who parks a vehicle in violation of this section, as hereinafter set out in subsections A, B or C of this section shall be subject to a fine of not more than $50.00, for each violation, or as provided in section 1-24-1. This section shall be enforceable on public property or on private property where a business, firm or other person transacting business with the public from a permanent location, has provided specially marked parking spaces for the exclusive use of handicapped drivers or passengers, as set forth in T.C.A. § 55-21-101 et seq., and T.C.A. § 68-120-204. Notwithstanding any other provision set out in this Code, a $50.00 penalty shall be automatically assessed with each violation, as authorized under T.C.A. §§ 55-21-108(a) and 55-21-108(b).

A. *Vehicles parked adjacent to handicapped spaces.* No person shall stop, stand or park a vehicle in any space immediately adjacent to a designated handicapped space, so as to restrict, or unreasonably restrict, a person confined to a wheelchair from exiting or entering a motor vehicle properly parked within such designated handicapped parking space.

B. *Vehicles parked so as to encroach in to handicapped spaces.* No person shall stop, stand or park a vehicle in any space immediately adjacent to a designated handicapped space, so that a portion of such vehicle encroaches into a handicapped parking space in a manner which restricts, or reasonably could restrict, a person confined to a wheelchair from exiting or entering a motor vehicle properly parked within such handicapped parking space.

C. *Vehicles parked so as to prevent use of curb cut or ramp by handicapped person.* No person shall stop, stand or park a vehicle in a manner which restricts, or reasonably could restrict, a mobility impaired person, or a physically handicapped person, from using a curb cut or ramp designed to provide access to a sidewalk or parking area.

(Code 1985, § 21-148.2; Ord. No. 4263, § 1, 6-14-1994; Ord. No. 4296, § 1, 12-6-1994)

Sec. 11-40-17. Loading and unloading zones—Generally.

A. Any person desiring to have a loading or unloading zone established on any street or public way shall first obtain the written consent of the owners of the property abutting on the street where such loading and unloading zone is sought to be placed, or if the applicant for such loading and unloading zone is the abutting property owner, then his or her application shall so state, and he or she shall then make application to the city engineer for the establishment of such loading and unloading zone. If, in the judgment of the city engineer, the establishment of such loading and unloading zone will serve a substantial public need and will not interfere with nor present a hazard to the traffic on the street where such loading and unloading zone is sought to be established, the city engineer shall, upon payment of the fees herein prescribed, issue such permit and erect the necessary standard official signs and markings to properly designate such loading and unloading zone. Such permit shall not be effective at any location where parking is or may hereafter be prohibited, and shall be inoperative during any time parking is or hereafter may be prohibited, either permanently or temporarily. Such permit shall be subject to annual renewal, and may be revoked at any time the public welfare and safety requires the use of such street space for moving traffic, subject to refund to the applicant of the pro rata portion of the annual fee paid.

B. Any person requesting the establishment of a loading and unloading zone shall pay an installation fee, based on reimbursement to the city of the cost of investigating the application and installing, inspecting and maintaining the signs and markings, such installation fee to cover the first year's maintenance. Upon each annual renewal of the permit, the person requesting the same shall pay an annual maintenance fee, based on reimbursement to the city of the cost of inspecting and maintaining the signs and markings. Where the loading and unloading zone is installed in a parking meter space, the installation and annual renewal fee shall also include reimbursement to the city for loss of revenue from meters displaced by such loading and unloading zone. The installation and annual maintenance fees shall be established and reviewed annually by the city engineer and shall become effective upon posting for public inspection in the permit section of the department of the city engineer, and shall be applied on a uniform basis.

C. All applications under this section shall be filed with and fees paid through the permit section of the department of the city engineer. No permit shall be issued or renewed nor shall any zone be established or maintained unless the annual fee has been paid to the city. It is unlawful for any person to remove, alter or

deface any sign or other marking so installed, or to place any other or additional signs or markings on the public right-of-way.
(Code 1967, § 23-228; Code 1985, § 21-149; Ord. No. 3586, § 20, 9-2-1986)

Charter reference—Authority to establish loading and unloading zones, § 744.

Sec. 11-40-18. Loading and unloading zones—Use.

A. No person shall stop, stand or park a vehicle for any purpose or length of time other than for the expeditious unloading and delivery or pickup and loading of property in any place marked as a loading zone. The stop for loading and unloading of property shall not exceed 30 minutes, unless visible and continuously active loading or unloading of property cannot be completed within this period.

B. The driver of a vehicle may stop temporarily at a loading zone for the purpose of and while actually engaged in loading or unloading passengers when such stopping does not interfere with any vehicle which is waiting to enter or about to enter such zone to load or unload property.

C. The front and rear hazard signals of any vehicle stopped, standing or parked in a public alley or marked loading zone shall be continuously flashed. If vehicle is not equipped with hazard signals, the left side turn signal shall be so operated.
(Code 1967, § 23-229; Code 1985, § 21-150; Ord. No. 2838, § 1, 3-12-1979)

Sec. 11-40-19. Bus stops.

A. The operator of a bus shall not stop, stand or park such vehicle upon any street at any place for the purpose of loading or unloading passengers or their baggage, other than at a coach stop designated by the city engineer, except in case of an emergency.

B. The operator of a bus shall enter a coach stop on a public street in such a manner that the bus when stopped to load or unload passengers or baggage shall be in a position with the right front wheel of such vehicle not further than 18 inches from the curb and the bus approximately parallel to the curb so as not to unduly impede the movement of other vehicular traffic.

C. No person shall stop, stand or park a vehicle other than a bus in a coach stop, when any such stop or stand has been officially designated and appropriately signed, except that the driver of a passenger vehicle may temporarily stop therein for the purpose of and while actually engaged in loading or unloading passengers when such stopping does not interfere with any bus waiting to enter or about to enter such stop.
(Code 1967, § 23-230; Code 1985, § 21-151; Ord. No. 3586, § 21, 9-2-1986)

Sec. 11-40-20. Taxicab stands.

A. Taxicab stands shall be designated by the director of public service upon the director receiving concurrence from the city engineer. All taxicab stands are to be available for the use of all licensed taxicabs operating within the city on a basis of the driver of the first taxicab arriving at a vacant stand having the right to occupy the stand, except for the stands located at the Memphis International Airport. No stands shall be designated which will interfere with or present a hazard to the traffic on the street where the stand is to be located. The city engineer shall place the necessary signs and markings at the locations of the stands under the direction of the director of public service. It is expressly provided that passengers may select any taxicab at such stands regardless of the taxicab's position in the line at such stand.

B. While in service, the operator of a taxicab shall not stand or park such vehicle upon any street other than at a taxicab stand so designated. This provision shall not prevent the operator of a taxicab from temporarily stopping in accordance with other stopping or parking regulations at any place for the purpose of and while actually engaged in the expeditious loading or unloading of passengers or packages or the delivery of packages. Where parking for this designated purpose is upon a metered space, the driver shall pay the appropriate fee. Nothing in this section shall deemed to apply to regularly scheduled limousine service.

C. The operator of a taxicab shall not stand or park such vehicle upon any street at any place other than in a taxicab stand designated as provided herein. This provision shall not prevent the operator of a taxicab from temporarily stopping in accordance with other stopping or parking regulations at any place the purpose of and while actually engaged in the expeditious loading or unloading of passengers.

D. No person other than the owner of a taxicab stand permit, his or her agent, servants or employees, shall occupy a taxicab stand so designated by the director of

public service, except that the driver of a passenger vehicle may temporarily stop therein for the purpose and while actually engaged in loading or unloading passengers when such stopping does not interfere with any taxicab waiting to enter or about to enter such stand.
(Code 1967, § 23-231; Code 1985, § 21-152; Ord. No. 1782, § 1, 12-11-1973; Ord. No. 3586, § 22, 9-2-1986)

Charter reference—Authority to establish taxicab stands, § 744.

Sec. 11-40-21. Regulation of parking on city property.

The city engineer shall have authority to regulate or prohibit the parking of vehicles upon any property owned by the city.
(Code 1967, § 23-233; Code 1985, § 21-153; Ord. No. 3586, § 23, 9-2-1986)

Sec. 11-40-22. Attendants at off-street parking facilities.

Owners and operators of off-street parking facilities are required to keep attendants on duty at all times when automobiles or other motor vehicles are stored thereon with the lock keys therein or in the custody of the owners or proprietors; provided, however, that this section shall not apply to off-street parking facilities where the owners or operators of automobiles or motor vehicles parked thereon lock their own cars and retain the keys.
(Code 1967, § 23-234; Code 1985, § 21-154)

Sec. 11-40-23. Vehicle owner not to permit parking violations.

It is unlawful for any person to cause, allow, permit or suffer any vehicle registered in the name of such person to be parked in such manner as to violate the terms and provisions of this title.
(Code 1967, § 23-232; Code 1985, § 21-155)

Sec. 11-40-24. Duty of police relative to illegally parked vehicles—Ticket for parking violations.

Whenever any motor vehicle without a driver is found parked or stopped in violation of any of the restrictions imposed by this title or by state law, the officer finding such vehicle shall take its registration number and may take any other information displayed on the vehicle which may identify its user, and shall conspicuously affix to such vehicle a traffic citation ticket, on a form provided by the city, for the driver to answer to the charge against him or her within 15 days, during the hours and at a place specified in the ticket.
(Code 1967, § 23-235; Code 1985, § 21-156; Ord. No. 1874, § 1, 10-9-1973)

Sec. 11-40-25. Presumption in prosecutions for parking violations.

A. In any prosecution charging a violation of any provision of this title or other law or regulation governing the stopping, standing or parking of a vehicle, proof that the particular vehicle described in the complaint was parked in violation of any such law or regulation, together with proof that the defendant named in the complaint was, at the time of such parking, the registered owner of such vehicle, shall constitute in evidence a prima facie presumption that the registered owner of such vehicle was the person who parked or placed such vehicle at the point where, and for the time during which, such violation occurred.

B. This presumption shall not apply in instances where the vehicle involved was rented or leased. In these instances, the sworn statement of the lessor or renter that the person named in the statement was, at the time of such parking, the person to whom such vehicle was rented or leased, shall constitute in evidence a prima facie presumption that the person to whom the vehicle was rented or leased was the person who parked or placed such vehicle at the point where, and for the time during which, such traffic violation occurred.
(Code 1967, § 23-236; Code 1985, § 21-157; Ord. No. 2205, § 1, 2-4-1975)

Sec. 11-40-26. Impounding vehicles obstructing street.

A. In order to remove all obstructions and to provide free use of the streets and alleys for the fire and police divisions and for the public, whenever a motor vehicle is wrecked or abandoned in the street or is found parked in violation of any of the provisions of this title, and it becomes necessary, in the opinion of the police division, to remove such vehicle from the street as an obstruction, such vehicle shall be towed or driven to a designated place of storage and stored until the owner claims the vehicle and gives satisfactory evidence of ownership. The police division is authorized to advertise for bids and to enter into a contract with garage or storage

company for fixed charges for pulling in and storing such vehicles and to provide by such contract that the garage or storage company shall look to the owner of the vehicle so pulled in or stored for the stipulated compensation.

B. Where the police division elected to pull in and store such vehicle a charge shall be made therefor as follows:

1. For pulling same in: $30.00;

2. For storing same, per day: $5.00.

For the purpose of fixing these charges, a day shall begin at 12:01 a.m. Nothing herein shall alter or amend the rights and privileges provided in chapter 599 of the Private Acts 1939, as amended, regarding the disposition of property held by the police division which remains unclaimed for a period of 30 days.
(Code 1967, § 23-237; Code 1985, § 21-158; Ord. No. 1353, § 1, 7-5-1972; Ord. No. 1433, § 1, 10-24-1972; Ord. No. 3137, § 1, 7-7-1981)

Charter references—For Act referred to in text, see § 495 et seq.; authority to move and hold illegally parked vehicles, § 742.

Sec. 11-40-27. Impoundment and/or immobilization of vehicles with outstanding traffic ticket violations.

A. Any unattended motor vehicle found parked at any time upon any public thoroughfare, street, alleyway or other public property of the city against which there is either a traffic citation or traffic summons that has not been paid 60 days after final adjudication may, by or under the direction of an officer or a member of the police division, either by towing or otherwise, be removed or conveyed to and impounded in any place designated by the director of police. In lieu of towing and impoundment, such vehicle may be immobilized in such manner as to prevent its operation, except that no such vehicle shall be immobilized by any means other than by the use of a device or other mechanism that will cause no damage to such vehicle unless it is moved while such device or mechanism is in place. The city shall not be liable for any damage to such vehicle while such vehicle is immobilized by boot, towed or impounded.

B. The owner of a vehicle which has been immobilized by the installation of a boot or other similar device shall be required to pay a fee of seventy-five dollars ($75.00) in addition to any forfeiture amount or bond. If a vehicle which has been immobilized by a booting device is later impounded by tow-in, the owner of the vehicle shall be required to pay towing and storage fees, in addition to any forfeiture amount or bond, but shall not be required to pay the booting fee.

C. It shall be the duty of the officer or a member of the police division removing or immobilizing such motor vehicle, or under whose direction such vehicle is removed or immobilized, to inform in writing, as soon as practicable, the owner of an impounded or immobilized vehicle of the nature and circumstances of the prior unsettled traffic citation(s), traffic summons(es), or warrant(s), for which, or on account of which, such vehicle was impounded or immobilized. The notice shall also inform the owner that if he or she feels that the vehicle was towed, impounded or immobilized in error, he or she may arrange for a prompt hearing before the city claim agent, or his or her designee, by contacting him or her during normal business hours. The notice shall also state that the owner has a right to present evidence in his or her own behalf, to have a representative, and to have a decision that states its basis in writing. The city claim agent, or his or her designee, shall hold a hearing within 24 hours after request and shall have the authority to immediately grant a free release or refund towing, booting and/or storage fees in those cases when a motor vehicle has been towed, impounded or immobilized in error. Any decision of the city claim agent, or his or her designee, concerning these matters may be appealed within ten days to the city attorney, or his or her designee. In any case involving immobilization of a vehicle pursuant to this section, such member or officer shall cause to be placed on such vehicle, in a conspicuous manner, notice sufficient to warn any individual to the effect that such vehicle has been immobilized and that any attempt to move such vehicle might result in damage to such vehicle.

D. Unless released pursuant to subsection C of this section, if a warrant has not been issued, the owner of such impounded or immobilized motor vehicle, or other duly authorized person, shall be permitted to repossess or secure the release of the vehicle upon the depositing of the forfeiture amount prescribed by ordinance for each violation for which there is a traffic citation or traffic summons outstanding, according to the standards set forth in subsection A of this section, and payment of towing, booting and/or storage fees incurred by the immobilization or impounding. If a warrant has been

issued, then posting of the bond required by the court clerk and payment of any towing, booting and/or storage fees due shall be sufficient to obtain the release of the vehicle. Deposits and payments of boot fees are to be made at the office of the city court clerk, or at other sites as determined by the clerk. Payments of towing and/or storage fees shall be made at the place where the vehicle was impounded.
(Code 1967, § 23-241; Code 1985, § 21-159; Ord. No. 2433, § 1, 6-1-1976; Ord. No. 2482, § 1, 8-10-1976; Ord. No. 2858, § 1, 5-8-1979; Ord. No. 2920, §§ 1, 2, 9-25-1979; Ord. No. 3201, § 1(3), 5-18-1982; Ord. No. 5428, § 1, 12-6-2011)

Sec. 11-40-28. Claims for damaged booting devices—Presumption on registered owner.

In the event that a boot or similar vehicle immobilization device, which was properly and lawfully affixed to a vehicle, is damaged or destroyed as a result of attempts to remove it from the vehicle or attempts to drive the vehicle, proof of ownership of such vehicle shall be prima facie evidence that such damage occurred through actions of the owner of the vehicle or with his or her authority, consent and knowledge.
(Code 1967, § 23-241.1; Code 1985, § 21-160; Ord. No. 3201, § 1(3), 5-18-1982)

Sec. (. Parking permit program for neighborhoods.

A. *Definitions*. For the purpose of this section, the following words and phrases are defined and shall be construed as hereinafter set out, unless it shall be apparent from the context that they have a different meaning:

Nonresident vehicle shall mean a motor vehicle parked in a residential area which is not owned, leased or otherwise controlled by:

a. A resident who lives in the area designated as a permit parking district.

b. A guest visiting residents living in the area designated as a permit parking district.

Resident means a person who lives in a dwelling unit located in a permit parking district.

Absentee landlord means an owner of residential property who does not live on the property. Such property shall be located in a permit parking district.

Guest means a person who is visiting in a dwelling located in a permit parking district.

Permit parking district means a residential area with streets and boundaries designated by a city council resolution wherein vehicles displaying a valid permit shall be exempt from parking restrictions established pursuant to this section.

B. *Designation of permit parking district*. Permit parking districts may be designated or dissolved, by the city engineer.

The city engineer shall consider for designation as permit parking districts those areas satisfying the criteria established in this section for said districts.

If the city engineer determines that the criteria, rules and procedures required in this section have been met, it may establish permit parking districts with appropriate boundaries and parking restrictions.

Motor vehicles displaying a valid parking permit may be parked exempt from the parking restrictions established pursuant to the authority of this section in the permit parking district for which the permit is issued.

C. *Designation process and criteria*. The city engineer shall prepare rules and procedures for the designation of permit parking districts setting forth the petition process (requiring approval by 75 percent of property owners), the hearing and notification processes, reporting requirements, criteria for designation of a permit parking district and for the implementation and administration of this section.

D. *Issuance of permits.* Parking permits for permit parking districts shall be issued by the city engineer.

1. Each annual parking permit shall be designated to state or reflect thereon the particular permit parking district, the license number of the vehicle for which the permit is issued and the date on which the permit shall expire.

2. No more than two annual parking permits shall be issued to any one dwelling unit.

3. Parking permits may be issued only to residents of the permit parking district.

4. Year-long visitor permits shall be issued as provided in subsection (1).

5. Applicants for any parking permits are required to clear all unpaid parking citations prior to the issuance of new permits or renewals for annual or visitor permits.

E. *Posting of permit parking area.* Upon designation of a permit parking district, the city engineer shall cause appropriate signs to be erected in the district, indicating prominently thereon the parking limitation, period of the day for its application, and the fact that motor vehicles with valid permits shall be exempt therefrom. Parking restriction signs may be posted on school and church frontages located within the district.

F. *Permit parking exemption*.

1. A motor vehicle on which is displayed a valid annual or visitor parking permit, as provided for herein, shall be permitted to be parked on any block within the permit parking district for which it is issued without being limited by parking restrictions established pursuant to this section. Except as provided below, all other motor vehicles parked within a permit parking district shall be subject to the parking restrictions adopted as provided in this section as well as the penalties provided for herein.

2. A parking permit shall not guarantee or reserve to the holder thereof an on-street parking space within the designated permit parking district.

3. The following vehicles shall be exempt from parking restrictions established pursuant to this section:

    a. A motor vehicle, identified as owned by or operated under contract to a utility, whether privately, municipally or publicly owned and when used in the construction, operation, removal, or repair of utility property or facilities or engaged in authorized work in the designated permit parking district.

    b. A motor vehicle when identified as owned by or operated under contract to a governmental agency, when used in the course of official government business.

    c. Vehicles parked directly adjacent to a property which has a primarily commercial use.

G. *Exemption of commercial vehicles.* No person shall without a permit therefore park or leave standing any commercial vehicle or trailer in a permit parking district in excess of the parking restrictions authorized pursuant to this section, except

1. While loading or unloading property; or

2. When such vehicle is parked in connection with, or in aid of, the performance of a service to or on a property in the block in which such vehicle is parked.

H. *Application for and duration of permit.* Except as otherwise provided, each parking permit shall be valid for a period not to exceed one year. Permits may be renewed annually upon reapplication in the manner required by the city engineer. Each application for a parking permit shall contain information sufficient to identify the applicant, his residence address or address of real property owned or leased within a permit parking district, the license number(s) of the motor vehicle(s) for which application is made, and such other information as may be deemed relevant by the city engineer. Permits may be issued only for vehicles registered in the City of Memphis.

I. *Annual permit fees.* The fee for an annual parking permit shall be $50.00. The fee for an annual parking permit shall be prorated by the month for the unexpired period of the district, but in no case less than $15.00. Upon the permittee's change of place of residence, change of vehicle or damaged permit, the permittee shall surrender the permit to the city engineer before a replacement permit can be issued. If the permit is lost or stolen, the city engineer shall be notified immediately. The city engineer shall collect a fee of $15.00 for replacement of lost, stolen or transferred permits and the replacement permit shall expire on the same day as the original permit. In the event a permittee moves from one of the permit parking districts to another permit parking district, the city engineer shall collect a fee of $15.00 for the transfer of the permit. The permits so transferred shall expire on the same day as do all permits in the new district. No refund shall be made for any unused portion of the permit's duration.

J. *Rules and regulations.* The city engineer shall have authority to promulgate and administer rules to implement and enforce the program and to implement the issuance of permit parking districts and the collection of fees for these permits.

K. *Penalty provisions.*

1. Unless exempted pursuant to this section, no person shall stand or park a motor vehicle in violation of any parking restrictions established pursuant to this section.
2. No person shall falsely represent himself or herself as eligible for a parking permit or furnish false information in an application for a parking permit to the city engineer.
3. No permit issued pursuant to this section shall thereafter be assigned, transferred or used for any consideration, monetary or otherwise.
4. No person shall copy, produce or create a facsimile or counterfeit parking permit; nor shall any person use or display a facsimile or counterfeit permit parking district permit.
5. The permit or permits of any person who after a hearing has been found by the city engineer to have violated any of the provisions of this ordinance shall be revoked by the city engineer and no new permit shall be issued to that person or household for a period of one year. Such person upon written notification of such revocation, shall surrender the permit or permits to the department within 15 days. Use of a revoked parking permit shall be subject to the penalty provisions of subsection K(1).

L. *Visitor permits.* Any resident eligible for an annual parking permit and whose residence has frontage or side frontage on a block posted within the permit parking district may apply to the city engineer for an annual visitor parking permit for the use of visitors to the person's residence. The owners of a residence under construction and absentee landlords may purchase a maximum of four visitor permits for their personal use or for the use of construction service personnel. The city engineer shall collect a fee of $25.00 for each visitor permit issued. No more than four visitor permits shall be issued for any one dwelling at any one time. These permits shall be valid only on the block or blocks for which they are issued and for a period not to exceed one year. Visitor permits can be replaced at a prorated cost when lost or stolen if the applicant submits written documentation of actual loss to the city engineer.

M. *Budget neutral program provisions.* Fees will be revisited each year by the city engineer and a recommendation for fee adjustment brought before city council that will allow for the permit parking program to be self-supporting and continue to operate without a shortfall.

N. *Restricted to residential districts with excessive parking demand.* Section 11-40-29 shall only be in effect for neighborhoods that have a demonstrated need for permit parking according to the city engineer. Additional neighborhoods may be added to this ordinance by city council resolution upon recommendation by the city engineer. No eligible street shall be subject to permit parking until they have been designated as such in accordance with subsection (B). Areas eligible to be designated as permit parking districts include:

1. The east side of N. Main Street, between Saffarans Avenue and Looney Avenue.

(Ord. No. 5550, 8-5-2014; Ord. No. 5933, § 1(21-136.1), 4-8-2025)

CHAPTER 11-42. VALET PARKING

Sections:

Sec. 11-42-1. Definitions.
Sec. 11-42-2. Permits.
Sec. 11-42-3. Conditions of valet parking permits.
Sec. 11-42-4. Cancellation of permit.
Sec. 11-42-5. Valet parking operations.
Sec. 11-42-6. Employees.
Sec. 11-42-7. Violations.
Sec. 11-42-8. Enforcement.
Sec. 11-42-9. Appeals.

Sec. 11-42-1. Definitions.

The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Permit or *valet parking permit* means the permit issued by the division of engineering allowing a person to conduct a valet parking service.

Valet operator means:

1. A person whose business is served by valet parking service;
2. A person who provides valet parking service; and
3. Any employee or agent of a person described in (1) or (2) who provides, or participates in the provision of valet parking service.

For purposes of this chapter, valet operator shall not mean the City of Memphis or a person acting on behalf of the City of Memphis.

Valet parking service means accepting possession of a vehicle for the purpose of parking the vehicle for the operator or retrieving a parked vehicle and returning it to the operator, regardless of whether a fee is charged. (Ord. No. 5418, § [1], 10-18-2011)

Sec. 11-42-2. Permits.

A. *Permit required.* No valet parking service is permitted unless a permit allowing such activity has been issued pursuant to this section. The City of Memphis through its division of engineering shall issue parking permits to valet operators to conduct their operations as a commercial enterprise or in furtherance of a commercial enterprise. No valet parking shall occur without the valet operator securing a valet parking permit from the division of engineering, except that parties conducting or offering valet parking services on a short-term, infrequent and/or occasional basis in connection with private parties or special events outside the Central Business Improvement District (CBID) shall not be required to obtain a permit. A separate permit is required for each location where valet parking services are provided. Valet operators engaged in valet parking under contract or otherwise on behalf of others, except as excepted above, shall be required to obtain a separate permit. Permits will be issued only for locations where valet parking would not be detrimental to the public safety, health and welfare of the inhabitants of the City of Memphis and only after approval of the city engineer.

B. *Permit application.* An application for a valet parking permit shall be made in writing on a form prescribed by the city engineer and submitted to the city engineer's office along with payment of the permit fee in the amount of $50.00. Failure to provide such permit fee upon the submission of the application shall result in a rejection of the application. All permit fees will be deposited into the parking fee revenue fund of the City of Memphis.

In addition to the permit fee, the application must contain the following information:

1. The name, address, and telephone number of the business(es) to be served by the valet parking service and, if separate from the business to be served, the owner/operator of the valet parking service;
2. A written justification of the need for valet parking service by the business to be served;
3. A scale drawing of the location and limits of the proposed valet parking service activities, including an identification of any on-street parking spaces or loading zones to ensure that these areas would not be affected by the activities;
4. An operation plan that includes the days and times when valet parking services will be provided and the location where valet customer vehicles will be parked;
5. An indemnity and release form as prescribed by the city engineer and approved by the city attorney;
6. Proof of insurance as required by the city engineer;
7. Any other information reasonably required by the city engineer; and
8. Payment of a non-refundable application fee.

The permit application and fee requirements of this section shall also apply to permit renewals.

C. *Permitting criteria.* The city engineer shall issue or deny a valet parking permit taking into consideration the following factors:

1. Whether the application is complete;
2. The extent to which the valet parking service might unreasonably disrupt the flow of pedestrian and vehicular traffic, including the location of the proposed valet parking service in relationship to traffic control devices;
3. The extent to which the valet parking service might unreasonably interfere with or impinge upon on-street parking;
4. The proximity of traditional on-street and off-street parking to the business to be served by the valet parking service;
5. The proximity and relationship to any other previously permitted valet parking service; and
6. Payment of the permit fee.

A permit shall specify: (i) the business served; (ii) the location and limits of the valet parking service activities; (iii) the days and times when the valet parking

service is permitted and the location where valet customer vehicles will be parked; (iv) any additional restrictions or requirements regarding the location or operation of the valet parking service; (v) identification tag requirements for valet operators; (vi) the permit expiration date; and (vii) any other conditions on the permit.

D. *Modification and revocation.* The city may modify or revoke a permit issued pursuant to this section at any time in the interest of the public health, welfare and safety upon violation of this chapter or the permit requirements included herein.

E. *Temporary suspension.* The city may temporarily suspend a permit issued pursuant to this section when warranted by traffic conditions or anticipated traffic conditions.

F. *No rights established.* Nothing in this chapter is intended to establish any legal right to provide a valet parking service or any legal property interest in a valet parking permit. Valet parking permits and privileges may not be transferred.
(Ord. No. 5418, § [1], 10-18-2011)

Sec. 11-42-3. Conditions of valet parking permits.

A. *Hold harmless.* Each valet parking operator applying for a permit shall execute an agreement approved by the City of Memphis City Attorney providing for the valet operator to indemnify and hold harmless the City of Memphis for any and all claims against the city resulting from the actions of the valet operator, including without limitation, claims of property damage or expenses resulting from the valet operator's violation of this chapter or any applicable ordinance.

B. *Term.* The term of each permit shall be for one year. Renewal shall be on an annual basis and shall be granted after confirmation of extension of all applicable permit requirements established in this chapter and payment of applicable fees.
(Ord. No. 5418, § [1], 10-18-2011)

Sec. 11-42-4. Cancellation of permit.

A. A valet parking permit may be canceled by the city engineer under the following circumstances:

1. The City of Memphis determines that the valet operation is creating a hazardous traffic condition and/or serious disruption of traffic flow or is otherwise inimical to the public health, safety and welfare;
2. Parking is no longer permitted in the area where valet service is provided;
3. The valet parking operator repeatedly fails to comply with the rules and regulations established by the City of Memphis and/or the provisions of this chapter or otherwise creates a situation that is inimical to the public health, safety and welfare.

B. Cancellation pursuant to subparagraph (3) of this section shall preclude the valet parking operator, a general partner, or immediate family member of the operator from being issued a valet parking permit for any location for a period of one year if the operator whose license has been canceled has any participation in the operation, management and/or maintenance of the valet parking operation(s) for which the permit application is being made.

C. When a permit is canceled by the city engineer pursuant to subsection (A) of this section, the city engineer shall immediately provide the permit holder written notice by certified mail of the cancellation and the reasons for the cancellation.
(Ord. No. 5418, § [1], 10-18-2011)

Sec. 11-42-5. Valet parking operations.

A. Valet services shall be operated in accordance with the terms of the permit approved by the city engineer. Valet service on public property shall not be permitted in any location other than for immediate loading and unloading of passengers in a zone established under sections 11-40-17 and 11-40-18 by the city engineer. Each valet service operator shall utilize an approved off-street parking facility for the parking of each valet vehicle.

B. An ADA accessible passenger loading and unloading area meeting ADA standards shall be provided.

C. Valet parking is not permitted in any alley, on-street public parking space or where otherwise prohibited by law, unless previously approved in writing by the city engineer.

D. The permit holders are responsible for reimbursing the City of Memphis for the cost of installing any signs, notices or warnings deemed necessary for the establishment of valet parking operations. Permit holders will be billed for any required installation by the division of engineering.
(Ord. No. 5418, § [1], 10-18-2011)

Sec. 11-42-6. Employees.

The valet parking operator shall require all employees who operate motor vehicles to have in their possession at the time of such operation a valid Tennessee driver's license.
(Ord. No. 5418, § [1], 10-18-2011)

Sec. 11-42-7. Violations.

A. It shall be unlawful for a valet operator to provide or engage in valet parking service without a valid valet parking permit issued pursuant to this chapter. A valet parking permit that has expired or that has been suspended or revoked is not a valid permit.

B. It shall be unlawful for a valet operator to provide or engage in valet parking service in violation of the terms and conditions of a valet parking permit issued to the valet parking service.

C. It shall be unlawful for a valet operator to block, stop or direct traffic.
(Ord. No. 5418, § [1], 10-18-2011)

Sec. 11-42-8. Enforcement.

A. The permit of any valet operator that violates this chapter shall be subject to suspension upon the first violation, and revocation upon the second violation along with the imposition of a civil penalty in the amount of $50.00.

B. All fines paid pursuant to this section will be deposited into the parking revenue fund of the City of Memphis.

C. Valet parking operators shall pay all fines and fees, including towing charges, arising in connection with a valet patron's vehicle which is in the possession of the valet parking operator at the time such fine, fee or charge is incurred. This does not preclude the valet parking operator from also being cited for violations of this chapter which resulted in the imposition of the fines and fees.
(Ord. No. 5418, § [1], 10-18-2011)

Sec. 11-42-9. Appeals.

The denial, modification, revocation, or suspension of a valet parking permit, and the issuance of civil penalties, may be appealed to the City of Memphis Transportation Board within ten days of receipt of notice of such action taken by the city engineer's office. A ruling on appeal is

subject to further review by the Shelby County courts by proceedings in the nature of certiorari. Any petition for writ of certiorari for review shall be filed with the court within 60 days after notice of the decision has been sent to the appellant.
(Ord. No. 5418, § [1], 10-18-2011)

CHAPTER 11-44. PARKING METERS*

Sections:

Sec. 11-44-1. Duties of the city engineer.
Sec. 11-44-2. Installation and operation generally.
Sec. 11-44-3. Marking of and parking within metered spaces.
Sec. 11-44-4. Deposit of payment—Overtime parking.
Sec. 11-44-5. Deposit of slugs prohibited.
Sec. 11-44-6. Injuring or tampering with meters.
Sec. 11-44-7. Daily deposit of route collections required.

Sec. 11-44-1. Duties of the city engineer.

The city engineer is directed to provide for the installation, regulation, control, operation, and use of parking meters and multi-space kiosks at such locations as shall be necessary, reasonable and proper, and shall make regulations covering the time which a vehicle may be parked at such locations and the compensation to be paid for the parking of such vehicle.

The city engineer shall establish and continually update the amounts to be paid for on-street parking on a block-by-block basis to balance demand and supply with the goal of having 85 percent on-street parking occupancy on each block so that drivers may easily find short-term places to park near their destinations.
(Code 1967, § 23-243; Code 1985, § 21-176; Ord. No. 5531, § 1, 8-20-2013)

Sec. 11-44-2. Installation and operation generally.

A. *Single-space parking meters.* Single-space parking meters installed shall be placed behind and adjacent to the curb immediately adjacent to the front or rear of the individual parking meter spaces. Each single-space parking meter shall be placed or set in such a manner as to show or display by a signal that the parking meter space adjacent to such meter is or is not legally in use. Each single-space parking meter shall be installed and set to display, upon the deposit of the appropriate form of payment, a signal indicating legal parking for that period of time, conforming to the limit of parking time which has been or may be established for the street upon which such single-space parking meter is installed, and shall continue to operate from the time of the deposit of such payment therein until the expiration of the time fixed as the parking limit for the part of the street upon which such meter is placed. Each single-space meter shall also be arranged so that upon the expiration of the legal parking time, such meter will indicate by mechanical operation or signal that the lawful parking period has expired.

B. *Multi-space kiosk.* A "multi-space kiosk" refers to a parking meter for a parking zone in which there is space for more than one vehicle to park. Multi-space kiosks shall be placed behind and adjacent to the curb within the parking zone such multi-space kiosk shall control. Where a multi-space kiosk has been installed, every vehicle shall park adjacent to the curb, (head-in where pavement stall markings dictate angled parking) in the zone controlled by the multi-space kiosk. Each vehicle operator shall deposit in the kiosk the appropriate form and the required amount of payment for the time the vehicle operator intends to park, up to the maximum time limit available. Unless otherwise specified or directed by a kiosk's instructions, each vehicle operator parking in a zone controlled by a multi-space kiosk must obtain and properly display a receipt, ticket, or display device issued by the multi-space kiosk which displays the date and period of time for which parking is legal, up to the maximum time limit available. Proper display of the receipt, ticket, or display device issued by a multi-space kiosk shall consist of displaying the receipt, ticket, or display device on the curbside of the vehicle dashboard in a publicly visible location or affixing the receipt, ticket, or display device to the front lamp of a motorcycle or a motor scooter. A receipt, ticket, or display device issued by a multi-space kiosk may be used to park the operator's vehicle in a parking zone controlled by a different multi-space kiosk prior to the expiration of time on the receipt, ticket, or display device if the parking zone has an equal or greater maximum allowable time limit and the same hourly rate as the parking zone controlled by the multi-space kiosk where the original payment was made.
(Code 1967, § 23-244; Code 1985, § 21-177; Ord. No. 5531, § 1, 8-20-2013)

***Charter reference—**Authority of city relative to parking meters, § 744.

Sec. 11-44-3. Marking of and parking within metered spaces.

A. *Single-space parking meters.* Lines or markings shall be painted or placed upon the curb or upon the street adjacent to each single-space parking meter for the purpose of designating the parking meter space for which such meter is to be used, and each vehicle parked alongside or next to any single-space parking meter shall park within the lines or markings so established. It is unlawful to park any vehicle across any such line or marking, or to park any vehicle in such a position that the same shall not be wholly within the area so designated by such lines or markings.

B. *Multi-space kiosk.* When parking stall markings designating parking spaces are present, the provisions for single space parking meters shall apply. If parking stall markings are not present, official signs shall designate the physical limits or boundaries of the parking zone for multi-space kiosks.
(Code 1967, § 23-245; Code 1985, § 21-178; Ord. No. 5531, § 1, 8-20-2013)

Sec. 11-44-4. Deposit of payment—Overtime parking.

A. When any vehicle is parked in any parking meter space next to which a single-space parking meter is located, or in a parking zone controlled by a multi-space kiosk, in accordance with the provisions of this chapter and chapter 11-40, the operator of such vehicle shall, upon entering the parking meter space or parking zone, immediately deposit, or cause to be deposited, the payment indicated on such parking meter or kiosk, and the parking space may then be lawfully occupied by such vehicle during the period of parking time prescribed for the part of the street in which such parking space is located. If any vehicle shall remain parked in any such parking space beyond the parking time limit fixed for such parking space, the single-space parking meter shall display a sign or signal showing illegal parking. The receipt, ticket, or display device issued by a multi-space kiosk shall indicate that the time for legal parking has expired. In that event, such vehicle shall be considered as parked overtime and beyond the period of legal parking time in any such part of a street where any such meter or kiosk is located and shall be a violation of this title. Each period of overtime parking beyond the duration of time specified by the parking meter or kiosk shall be considered a separate offense.

B. No person shall permit a vehicle to remain or to be placed in any parking space adjacent to any single-space parking meter or in a zone controlled by a multi-space kiosk while such meter, or the receipt, ticket, or display device issued by a multi-space kiosk is indicating that the vehicle occupying such parking space has already been parked beyond the period of time prescribed for such parking space.

C. The provisions of this section shall be enforced between the hours of 8:00 a.m., and 6:00 p.m., on every day of the week except on Saturday, Sunday and the following holidays:

1. Christmas Day;
2. New Year's Day;
3. July Fourth;
4. Thanksgiving Day;

However, the above provisions shall not apply to those areas designated by the city engineer as areas of public necessity. In such areas so designated, parking meters or kiosks shall specify "twenty-four (24) hours per day each day of the week, holidays included."

D. No person shall permit a vehicle to remain in any parking space adjacent to any single-space parking meter or parking zone controlled by a multi-space kiosk for a consecutive period of time longer than the maximum period of time provided by the meter or kiosk following a single occurrence of depositing payment. The intent of this provision is to make illegal the practice of purchasing additional time on the meter or kiosk for a single parked vehicle by successive occurrences of depositing payment. This practice is commonly described as "meter feeding."
(Code 1967, § 23-246; Code 1985, § 21-179; Ord. No. 2250, § 1, 5-6-1975; Ord. No. 3110, § 1, 5-12-1981; Ord. No. 3586, § 24, 9-2-1986; Ord. No. 5531, § 1, 8-20-2013)

Sec. 11-44-5. Deposit of slugs prohibited.

No person shall deposit or cause to be deposited in any parking meter or kiosk, any slug, device or metallic substitute for the coin or other accepted form of payment indicated on the parking meter or kiosk as being required.
(Code 1967, § 23-247; Code 1985, § 21-180; Ord. No. 5531, § 1, 8-20-2013)

Sec. 11-44-6. Injuring or tampering with meters.

No person shall deface, injure, interfere with, open or willfully break, destroy or impair the usefulness of any parking meter or kiosk installed under the provision of this chapter.
(Code 1967, § 23-248; Code 1985, § 21-181; Ord. No. 5531, § 1, 8-20-2013)

Sec. 11-44-7. Daily deposit of route collections required.

The daily route collections of the division of public works shall be deposited daily with the treasurer's office.
(Code 1985, § 21-182; Ord. No. 5531, § 1, 8-20-2013)

CHAPTER 11-48. ACCIDENTS*

Sections:

Sec. 11-48-1. Immediate notice to police.
Sec. 11-48-2. Garages to report.
Sec. 11-48-3. Review of traffic accident reports—Fee.
Sec. 11-48-4. Accident studies.

Sec. 11-48-1. Immediate notice to police.

The driver of a vehicle involved in an accident resulting in injury to or death of any person or property damage to an apparent extent of $50.00 or more shall immediately, by the quickest means of communication, give notice of such accident to the police division. Whenever the driver of a vehicle is physically incapable of giving an immediate notice of an accident as required by this section, and there was another occupant in the vehicle at the time of the accident capable of doing so, or whenever the driver is not the owner of the vehicle, such occupant or the owner shall make or cause to be given the notice not given by the driver.
(Code 1967, § 23-284; Code 1985, § 21-246; Ord. No. 497, § 1, 7-8-1969)

State law reference—Similar provisions, T.C.A. § 55-10-106.

Sec. 11-48-2. Garages to report.

The person in charge of any garage or repair shop to which is brought any motor vehicle which shows evidence of having been involved in an accident or struck by any bullet, shall report the facts immediately to the police division after such motor vehicle is received, giving the license number, the engine number and the name and address of the owner or operator of such vehicle. Compliance with this section shall not relieve the driver of any vehicle involved in an accident from complying with section 11-48-1.
(Code 1967, § 23-285; Code 1985, § 21-247)

State law reference—Similar provisions, T.C.A. § 55-10-113.

Sec. 11-48-3. Review of traffic accident reports—Fee.

The police division shall permit the review of traffic accident reports. Upon request, a complete copy of such reports shall be furnished as provided herein. The director of police services is authorized to fix a standard charge for copies of traffic accident reports not to exceed $15.00 for the basic initial report and $1.00 for each page in addition thereto.
(Code 1967, § 23-286.1; Code 1985, § 21-248; Ord. No. 490, § 2, 6-24-1969; Ord. No. 3138, § 1(2), 8-11-1981; Ord. No. 4896, 10-2-2001)

Sec. 11-48-4. Accident studies.

Whenever the accidents at any particular location become numerous, the traffic division shall cooperate with the traffic design department in conducting studies of such accidents and determining remedial measures.
(Code 1967, § 23-287; Code 1985, § 21-249; Ord. No. 4896, 10-2-2001)

CHAPTER 11-52. VEHICLE LOADS†

Sections:

Sec. 11-52-1. Vehicles to be constructed and loaded so as to prevent escape of load.
Sec. 11-52-2. Vehicles so constructed or loaded as to obstruct traffic prohibited.
Sec. 11-52-3. Permit required for excessively wide vehicles.
Sec. 11-52-4. Extension of loads on passenger vehicles.
Sec. 11-52-5. Protruding objects.
Sec. 11-52-6. Ownership identification.
Sec. 11-52-7. Mud flaps on trucks.

*State law reference—Accidents, T.C.A. § 55-10-101 et seq.

†State law reference—Vehicle size, weight and load, T.C.A. § 55-7-101 et seq.

Sec. 11-52-1. Vehicles to be constructed and loaded so as to prevent escape of load.

A. No vehicle shall be driven or moved on any street unless such vehicle is so constructed as to prevent its contents from dropping, shifting, leaking or otherwise escaping therefrom.

B. No owner, lessee, operator or driver shall load any vehicle with dirt, ashes, rubbish, debris, sand, gravel, wood chips or any other material that is capable of blowing or slipping from a vehicle as a result of movement or exposure to air, wind current or weather, in such a manner or to the extent that such load or a material can or will fall or drop from the vehicle to the street, and no vehicle so loaded shall be driven or conveyed through any street of the city.

C. All vehicles transporting dirt, ashes, rubbish, debris, sand, gravel, wood chips or any other such material shall be loaded so that the top of the load making contact with any sideboard or side panel or front or rear part of the enclosure must not be within six inches of the top of the part of the enclosure contacted, and at no time shall the load exceed the six inches as stated in this section during transportation of load without being covered.

D. Subsection (C) of this section does not apply to any load-carrying compartment that completely encloses the load or to the transporting of any load that is otherwise suitably covered or secured by other means which prevents the escape of loose material.

E. It is unlawful for any person to use a motor vehicle to dispose of, or cause to be disposed of, any garbage, rubbish or other waste materials not suitable for fill purposes on any property other than a garbage dump or sanitary landfill, so designated by the city.

F. In any prosecution charging a violation of any provision of this section, proof that the particular vehicle described in the complaint or summons was used in violation of this section, together with proof that the defendant named in the complaint or summons was, at the time of the violation, the registered owner of such vehicle, or in the case of a lease, the lessee of such vehicle, shall constitute in evidence a prima facie presumption that the registered owner of such vehicle, or the lessee of such vehicle, as the case may be, was the person in control of such vehicle at the time of such violation, or that such vehicle was at such time being used or operated at his or her instruction and direction, and in his or her behalf.

G. Any person found to have violated this section by a judge of the city court shall be subject to punishment as provided in section 1-24-1.

(Code 1967, § 23-124; Code 1985, § 21-342; Ord. No. 737, § 1, 6-23-1970; Ord. No. 1447, § 1, 9-19-1972; Ord. No. 1519, §§ 1, 2, 12-19-1972)

State law reference—Vehicle scatting loads, T.C.A. § 55-7-107 et seq.

Sec. 11-52-2. Vehicles so constructed or loaded as to obstruct traffic prohibited.

No person shall drive or direct any vehicle on a street when such vehicle is in a condition, or so constructed or loaded as to be likely to cause delay in traffic or injury to persons or property.

(Code 1967, § 23-125; Code 1985, § 21-343)

Sec. 11-52-3. Permit required for excessively wide vehicles.

No person shall drive or convey through any street any vehicle, the width of which, with its load, exceeds eight feet, except in accordance with a permit issued by the director of police.
(Code 1967, § 23-126; Code 1985, § 21-344)

Sec. 11-52-4. Extension of loads on passenger vehicles.

No passenger vehicle shall carry any load extending beyond the fenders on the left side of such vehicle or extending more than six inches beyond the line of the fender on the right side thereof.
(Code 1967, § 23-127; Code 1985, § 21-345)

Sec. 11-52-5. Protruding objects.

It is unlawful to operate any motor vehicle in the city whereon any installation, attachment or addition thereto or any portion of the vehicle's body, such as windows, doors or bumpers are damaged and are protruding so as to create a dangerous condition to any person or property.
(Code 1967, § 23-128; Code 1985, § 21-346; Ord. No. 573, § 2, 10-28-1969)

Sec. 11-52-6. Ownership identification.

All local commercial trucking vehicles, including, but not limited to, vehicles carrying or hauling gravel, sand, metals, trash, garbage, wood, brick, oils, tar, tar derivatives, cement, pipes, beams, or any similarly related materials, shall have identification by displaying on two parallel horizontal lines, on the right and left frontmost doors of such trucking vehicle, in letters at least three inches high, the name of the owner or firm, or in the event equipment is leased, the name of the lessee, on the first line and the street address immediately below upon the second line, and an individual vehicle identification number no less than six inches in height on the frontmost doors shall be displayed conspicuously.
(Code 1967, § 23-131; Code 1985, § 21-347; Ord. No. 2103, § 1, 7-30-1974)

Sec. 11-52-7. Mud flaps on trucks.

A. No person shall operate upon a public highway or street any motor vehicle or combination of vehicle having a carrying capacity in excess of 3,000 pounds, which motor vehicle or combination of vehicles is not equipped with rear fenders, mud flaps or mudguards which shall be of such size as will substantially prevent the projection of rocks, dirt, water or other substances to the rear. Such fenders, flaps or guards shall be of a type approved by the director of police.

B. This section shall have no application to farm vehicles, or vehicles used by farmers to haul produce from farm to market, nor shall it apply to vehicles used exclusively for hauling logs.

C. Any person violating the provisions of this section shall be guilty of a misdemeanor which shall be punishable as provided in section 1-24-1.
(Code 1967, § 23-130; Code 1985, § 21-348; Ord. No. 1272, § 1, 5-9-1972)

CHAPTER 11-56. VEHICLE NOISE REGULATIONS

Sections:

Sec. 11-56-1. Definitions.
Sec. 11-56-2. Motorized vehicles.
Sec. 11-56-3. Mufflers.
Sec. 11-56-4. Horns and other warning devices generally.
Sec. 11-56-5. Trains.
Sec. 11-56-6. Manner of enforcement.
Sec. 11-56-7. Exemptions.

Sec. 11-56-1. Definitions.

For the purposes of this chapter, certain words and phrases used herein are defined as follows:

Ambient noise is the all-encompassing noise associated with a given environment being usually a composite of sounds from many sources, near and far.

A-weighted level is the total sound pressure level of all noise as measured with a sound level meter using the A-weighting network. The unit of measurement is the dB(A).

Band pressure level of sound for a specified frequency band is the sound pressure level for the sound contained within the restricted band. The reference pressure must be specified.

Cycle is the complete sequence of values of a periodic quantity that occurs during a period.

Decibel or *dB,* is one-tenth of a decibel and is a unit of level when the base of the logarithm is the tenth root of ten, and the quantities concerned are proportional to power.

Sound analyzer is a device for measuring the band pressure level or pressure spectrum level of a sound as a function of frequency.

Sound level meter is an instrument, including a microphone, an amplifier, an output meter, and frequency-weighting networks for the measurement of noise and sound levels in a specified manner.

Sound pressure level, in decibels of sound, is 20 times the logarithm to the base ten of the ratio of the pressure of this sound to the reference pressure, which reference pressure is for the purposes of this chapter a reference pressure of 20 micro-newtons per meter squared.

All technical definitions are in accordance with American National Standards Institute S1. 1-1960 entitled "Acoustical Terminology."
(Code 1967, § 23-132; Code 1985, § 21-350(a); Ord. No. 2106, § 1, 8-20-1974)

Sec. 11-56-2. Motorized vehicles.

It is unlawful to operate a motorized vehicle, including, but not limited to, cars, trucks, buses, motorcycles, motorbikes, minibikes, and go-carts, within the city limits, on private or public property, which creates a noise or sound which exceeds the noise level limits set out in Table I below:

Table I
Limiting Noise Levels
for Motor Vehicles

	Maximum Allowable Limit (dB(A))
Trucks and buses:	
Over 10,000 pounds:	
Measured at 50 feet	87
Measured at 25 feet	93
Under 10,000 pounds:	
Measured at 50 feet	80
Measured at 25 feet	86
Passenger cars:	
Measured at 50 feet	78
Measured at 25 feet	84
Motorcycles, go-carts, trail bikes and other motorized vehicles not classified as trucks or passenger cars:	
Measured at 50 feet	87
Measured at 25 feet	93

A. The measurement of sound or noise shall be made with a sound level meter meeting the standards prescribed by the American National Standards Institute. The instrument shall be maintained in calibration and good working order. A calibration check shall be made of the system at the time of any noise measurement. Measurements recorded shall be taken so as to provide a proper representation of the noise source and shall not exceed the above levels as measured in any direction. The microphone during measurement shall be positioned so as not to create any unnatural enhancement or diminution of the measured noise. A windscreen for the microphone shall be used when required. Traffic, aircraft and other transportation noise sources and other background noises shall not be considered in taking measurements except where such background noise interferes with the primary noise being measured.

B. Measurement of noise levels caused by a moving vehicle shall be confirmed by a noise level measurement taken with the vehicle stationary. The driver of the vehicle shall be required to accelerate his or her engine to one-half throttle, in order to conduct the noise level reading.

(Code 1967, § 23-132; Code 1985, § 21-350(b); Ord. No. 2106, § 1, 8-20-1974)

Sec. 11-56-3. Mufflers.

It is unlawful for any person to operate or cause to be operated any muffler attached to any motor vehicle or any other mechanized unit which produces noise levels within the city exceeding dB(A) ratings as set out in Table I and accompanying sections above.
(Code 1967, § 23-132; Code 1985, § 21-350(c); Ord. No. 2106, § 1, 8-20-1974)

State law reference—Mufflers, T.C.A. § 55-9-202.

Sec. 11-56-4. Horns and other warning devices generally.

It is unlawful for any person to operate or cause to be operated any horn, siren, whistle, bell or any electronic blast which may be attached to any motor vehicle or other mechanized unit which is in any manner inconsistent with section 11-32-17.
(Code 1967, § 23-132; Code 1985, § 21-350(d); Ord. No. 2106, § 1, 8-20-1974)

Sec. 11-56-5. Trains.

It is unlawful for any person to operate or cause to be operated a warning device of any type, including, but not limited to, a whistle, horn or electronic blast, on trains or vehicles which operate on stationary rails in excess of 87 dB(A) at 50 feet (Table I in section 11-56-2) within the city for a sustained period of more than 30 seconds, except as may be required by any federal safety regulation requiring sounding of warning signals at grade crossings.
(Code 1967, § 23-132; Code 1985, § 21-350(e); Ord. No. 2106, § 1, 8-20-1974)

Sec. 11-56-6. Manner of enforcement.

Violations of this chapter shall be prosecuted in the same manner as other misdemeanor violations of this Code, and shall be initiated upon issuance of a traffic citation ticket, or brought upon complaint of a private citizen by issuance of a summons, after verification by a police officer using a sound meter.
(Code 1967, § 23-132; Code 1985, § 21-350(f); Ord. No. 2106, § 1, 8-20-1974)

Sec. 11-56-7. Exemptions.

The following uses and activities shall be exempt from noise level regulations:

A. Ambulances, whether owned by private company or city operated, while upon call to scene of accident or emergency situation;

B. Vehicles used as garbage collection trucks while in performance of duties and used for either loading or processing of garbage and debris, whether privately owned or city operated;

C. City fire equipment upon emergency call and return;

D. City police equipment, and/or other city, county, state and federal law enforcement equipment, upon emergency call;

E. Sound trucks or trucks with mounted amplifiers or public address systems used in connection with election campaigns, and more specifically designated under section 9-68-13(C) and (D);

F. Vehicular equipment used in connection with removal of trees, brush, undergrowth, etc., whether privately owned or city operated;

G. All of the above-mentioned vehicles, with the exception of city fire equipment, shall be required to maintain mufflers and related equipment within the noise level regulations contained in this chapter.

(Code 1967, § 23-132; Code 1985, § 21-350(g); Ord. No. 2106, § 1, 8-20-1974)

CHAPTER 11-60. REGISTRATION OF VEHICLES

Sections:

Article 1. General Provisions

Sec. 11-60-1. Definitions.
Sec. 11-60-2. Persons required to register motor vehicles—Exceptions.
Sec. 11-60-3. Proof of inspection prerequisite to registration.
Sec. 11-60-4. Registration fees.
Sec. 11-60-5. Registration under chapters 1 through 6 of title 55, Tennessee Code Annotated—Required—Penalty for violation of section.
Sec. 11-60-6. Display of registration plates—Manner.

Article 2. Freight Vehicles

Sec. 11-60-7. Required registration.
Sec. 11-60-8. Information to be given.
Sec. 11-60-9. Registration fees for freight motor vehicles.

ARTICLE 1. GENERAL PROVISIONS

Sec. 11-60-1. Definitions.

The following definitions shall apply to this chapter:

City's registration agent means the agent designated by the city to be in charge of city registrations and to

issue certificates of registration pursuant to receiving proper applications from owners/operators of motor vehicles.

Motorcycle means a motor vehicle having a saddle for the use of the rider and designed to travel on not more than three wheels in contact with the ground.

Motor vehicle means any device self-propelled in, upon or by which a person or property is transported or drawn upon the streets or the public ways of the city except a motorcycle, farm tractor or special mobile equipment.

Owner means the person who holds the legal title of a vehicle, or in the event a vehicle is the subject of an agreement for the conditional sale or lease thereof, with the right of purchase upon performance of the condition stated in the agreement, and with an immediate right of possession vested in the conditional vendee or lessee, or in the event a mortgagor of a vehicle is entitled to possession, then such conditional vendee or lessee or mortgagor shall be deemed the owner for the purpose of this chapter; provided that every agent, servant, or employee operating the vehicle for the owner shall also be defined as owner if the owner, whether a natural person, firm, copartnership, association or corporation, has failed to comply with this article, and such agent, servant or employee shall be required to comply with the registration of the vehicle which he or she is operating, and the owner so designates the agent, servant or employee for this purpose as representing him or her by his or her use of the streets of the city.

Person includes every natural person, firm, copartnership, association or corporation and shall be synonymous with "owner" as defined herein and may be used interchangeably.

Special mobile equipment means any vehicle not designed or used primarily for the transportation of personal property and incidentally operated or moved over the streets or other public ways.
(Code 1967, § 23-59; Code 1985, § 21-266; Ord. No. 244, § 1, 8-20-1968; Ord. No. 2491, § 1, 9-7-1976; Ord. No. 3187, § 1(1), 2-2-1982)

Sec. 11-60-2. Persons required to register motor vehicles—Exceptions.

A. All residents of the city operating any motor vehicle for pleasure or business purposes shall register their motor vehicles and motorcycles with the city's registration agent during the dates prescribed by the state in chapters 1 through 6 of title 55, T.C.A., as presently enacted or hereafter amended, for the original or renewal of state registration of motor vehicles or within five days after the acquisition of any such vehicle.

B. Exceptions to the registration requirement are the following:

1. Vehicles owned by governmental agencies, that is, the United States government, state, county and municipal governments, which have a state motor vehicle registration plate designating them as such, are not required to register with the city. If the state motor vehicle registration plate does not so designate the vehicle, city registration must be made, but no registration fee is to be charged;

2. A handicapped veteran, or former prisoner-of-war, who is a permanent resident of the city and who qualifies under section 55-4-209 or 55-4-211, T.C.A., must register, but shall be issued free of charge a city registration tag of the same classification as issued by the state motor vehicle registration department for a state license tag, commencing with city registration for the year 1977;

3. A resident of the state, and permanent resident of the city, who is a recipient of the Congressional Medal of Honor, as defined in T.C.A. § 55-4-231;

4. A handicapped person who is permanently and totally confined to a wheelchair when so certified by a physician's statement, and other qualifications as defined in T.C.A. § 55-21-103(a), paragraphs 1, 2, and 3, and is a permanent resident of the city;

5. Any other exceptions allowable under T.C.A. title 55, which would be applicable to the city.

(Code 1967, § 23-60; Code 1985, § 21-267; Ord. No. 244, § 1, 8-20-1968; Ord. No. 425, § 1, 4-1-1969; Ord. No. 462, § 1, 4-29-1969; Ord. No. 1979, § 5, 3-5-1974; Ord. No. 2491, § 1, 9-7-1976; Ord. No. 2558, § 1, 2-1-1977; Ord. No. 3187, § 1(2), 2-2-1982; Ord. No. 3310, § 1, 5-31-1983)

Sec. 11-60-3. Proof of inspection prerequisite to registration.

Effective October 1, 1985, no registration of vehicles owned by residents of the city shall be permitted without proof of current inspection.
(Code 1985, § 21-267.1; Ord. No. 3458, § 1, 4-30-1985)

Sec. 11-60-4. Registration fees.

A. For every motor vehicle which is registered as required by this chapter, the owner thereof as classified under T.C.A. § 55-4-111 shall pay the city's registration agent fees as follows:

Vehicle Registration Fee Classes	Current	Proposed
Class (A) Motorcycles	$10.00	$20.00
Class (B) Motorcycles with three wheels, used in furtherance of a commercial enterprise	$21.00	$62.00
Class (C) Passenger motor vehicles	$30.00	$60.00
Class (E) Private buses (not for hire)	$30.00	$60.00
Class (F) Low-speed vehicles "Low Speed Vehicle" means any four wheeled electric or gasoline vehicle, excluding golf carts, whose top speed is greater than 20 mph but not greater than 25 mph, including neighborhood electric vehicles. Low speed vehicles must comply with the standards in 49 FR 571.500.	$30.00	$60.00
Class (G) Medium-speed vehicles "Medium Speed Vehicle" means any four wheeled electric or gasoline vehicle, excluding golf cans, whose top speed is greater than 30 mph but not greater than 35 mph, including neighborhood electric vehicles and mini-trucks. Medium speed vehicles must meet or exceed the federal safety standards set forth in 49 CFR 571.500.	$30.00	$60.00
Class (H) (i) Class I off-highway vehicles "Class I off-highway vehicle" means a motorized vehicle with not less than four non-highway tires, no more than six non-highway tires, whose top speed is greater than 35 mph, that is limited in total dry weight up to 2,500 lbs, that is 80 inches or less in width, and that has a non-straddle seating capable of holding no more than four passengers and a steering wheel. "Class I off-highway vehicle" includes mini-trucks.	$30.00	$60.00
Class (H) (ii) Class II off-highway vehicles "Class II off-highway vehicle" means any off-highway vehicle that is designed to be primarily used for recreational purposes, that has a non-straddle seating capable of holding at least two but no more than four passengers and a steering wheel, and that is commonly referred to as a sand buggy, dune buggy, rock crawler, or sand rail, "Class II off-highway vehicle" does not include a snowmobile or other vehicle designed to travel exclusively over snow or ice.	$30.00	$60.00

B. Registration fee for dealers, manufacturers and transporters.

1. Any manufacturer, transporter or dealer owning a motor vehicle for the sole purpose of resale may obtain "dealer" registration of the vehicle at the hereinafter fees for the specified purpose of operating such vehicles upon the city streets. Operation upon the streets of the city under this special registration is to be limited to operation by their customers for temporary purposes, not in excess of 24 hours, or for movement of any vehicle of the like type upon the city streets solely for the purpose of delivery. The operation of service vehicles owned by a manufacturer or transporter or dealer while using special registration is not permitted. The fee for the first registration shall be at the rate of $41.00, for a passenger motor vehicle and the charge for each additional registration for the manufacturer, transporter or dealer special registration shall be at $21.00 per vehicle.

2. Any dealer engaged in the sale of trucks (freight motor vehicles) at retail may make application for purchase of special dealer registration at a fee of $325.00 per unit. No dealer shall permit such registrations to be used by any person except one who is a prospective purchaser of such track. All other restrictions that apply to such dealers in T.C.A. § 55-4-117 shall also apply to the city registration.

C. Proration of fees for any class shall be done in accordance with the laws of the State of Tennessee.

D. All city registrations issued for motor vehicles as registered for state purposes under chapters 1 through 6 of title 55, T.C.A., shall expire at the same date set out in T.C.A. § 55-4-104 for the registration with the state.

E. These fees shall apply to all vehicles whose registration becomes due from and after the effective date hereof. (Code 1967, § 23-61; Code 1985, § 21-268; Ord. No. 244 § 1, 8-20-1968; Ord. No. 425 § 2, 4-1-1969; Ord. No. 462 § 2, 4-29-1969; Ord. No. 596 § 1, 12-9-1969; Ord. No. 1357 § 1, 7-5-1972; Ord. No. 1979 § 1, 3-5-1974; Ord. No. 2491 § 1, 9-7-1976; Ord. No. 2559 § 1, 2-1-1977; Ord. No. 3187 § 1(3), 2-2-1982; Ord. No. 5912, § 1, 8-6-2024)

Sec. 11-60-5. Registration under chapters 1 through 6 of title 55, Tennessee Code Annotated—Required—Penalty for violation of section.

A. No vehicle, required to be registered under chapters 1 through 6 of title 55, T.C.A., shall be operated upon any street or public way of the city unless there shall be attached thereto and displayed thereon when and as required by chapters 1 through 6 of title 55, T.C.A., a valid and outstanding registration plate or plates issued therefor to the owner thereof for the current registration year, or a registration plate or plates issued to the owner thereof with the proper tabs, stickers or other devices attached or affixed thereto indicating a valid renewal of such registration plate or plates. Violation of this requirement by the owner or operator hereof shall be a misdemeanor punishable by fine of not more than $50.00.

B. Any owner or operator of a vehicle who fails or refuses to display the certificate of registration therefor and in the case of a freight vehicle refusing to submit the vehicle and load for a weighing when directed by an officer of the law shall be guilty of misdemeanor punishable as provided in section 1-24-1.
(Code 1967, § 23-68; Code 1985, § 21-269; Ord. No. 218, § 1, 7-23-1968)

Sec. 11-60-6. Display of registration plates—Manner.

Registration plates issued for motor vehicles shall be attached in compliance with state law. The registration

plate issued for a truck shall be attached to the rear of the vehicle. The registration plate for a truck trailer shall be attached to the front of the vehicle. The registration plate issued for a motorcycle, trailer, semitrailer, or dealer's plate shall be attached to the rear of the vehicle.
(Code 1967, § 23-69; Code 1985, § 21-270; Ord. No. 573, § 3, 10-28-1969)

ARTICLE 2. FREIGHT VEHICLES

Sec. 11-60-7. Required registration.

All residents of the city owning and operating a motor vehicle classified in section 11-60-9 in the city shall register such vehicle with the city's registration agent between March 1 and April 15 of each calendar year; provided that, upon the acquisition of any vehicle which does not replace any vehicle previously registered under this chapter, the owner shall register the same within five days after such acquisition.
(Code 1967, § 23-74; Code 1985, § 21-281; Ord. No. 1137, § 1, 12-14-1971; Ord. No. 2491, § 1, 9-7-1976; Ord. No. 3187, § 1, 2-2-1982)

Sec. 11-60-8. Information to be given.

When a vehicle is registered under this chapter, the owner shall give the city's registration agent, the motor vehicle identification number, tonnage capacity and make of the vehicle, together with the name and residence location of the owner, and any other material information required by the agent.
(Code 1967, § 23-75; Code 1985, § 21-282; Ord. No. 3187, § 1, 2-2-1982)

Sec. 11-60-9. Registration fees for freight motor vehicles.

The registration fees for trucks and truck tractors shall be:

A. Private carriers:

1. Class 1: freight motor vehicles with declared maximum gross weight, including vehicle and load, of not more than 9,000 pounds.

   Registration fee: $38.00.

2. Class 2: freight motor vehicles with declared maximum gross weight, including vehicle and load, of not more than 16,000 pounds.

   Registration fee: $51.00.

3. Class 3: freight motor vehicles with declared maximum gross weight, including vehicle and load, not in excess of 20,000 pounds.

   Registration fee: $83.00.

   This registration class may likewise be issued for motor vehicles in excess of 20,000 pounds which are hereinafter identified and for limited use hereinafter described:

   a. Truck tractors used exclusively to pull lowboy type trailers on which is transported machinery that is used only for agricultural purposes, such as but not limited to terracing, clearing land, and building ponds, levees, ditches and/or canals; and

   b. Trucks on which are mounted lime-for-fertilizer spreaders. The use of the highways by these limited use motor vehicles registered in this class is restricted to that which is incidental to the movement of such designated machinery from farm to farm and any volume and unpackaged lime and fertilizer from the distribution point to the farm.

   Provided, however, that the applicant for licensing hereinabove must file an affidavit with the city's registration agent that such trucks or truck tractor combina-

tions are used exclusively for such agricultural purposes; and, further, that a notarized carbon copy of the affidavit shall be attached to the owner's certificate of registration and shall be carried and displayed as provided in T.C.A. § 5-54-108 for state registration purposes.

4. Class 4: freight motor vehicles with declared maximum gross weight, including vehicle and load, not in excess of 26,000 pounds.

   Registration fee: $114.00.

5. Class 5: freight motor vehicles with declared maximum gross weight, including vehicle and load, not in excess of 32,000 pounds.

   Registration fee: $146.00.

6. Class 6: freight motor vehicles with declared maximum gross weight, including vehicle and load, not in excess of 38,000 pounds.

   Registration fee: $177.00.

7. Class 7: freight motor vehicles with declared maximum gross weight, including vehicle and load, not in excess of 44,000 pounds.

   Registration fee: $209.00.

8. Class 8: freight motor vehicles with declared maximum gross weight, including vehicle and load, not in excess of 56,000 pounds.

   Registration fee: $282.00.

9. Class 9: freight motor vehicles with a declared maximum gross weight, including vehicle and load, not in excess of 66,000 pounds.

   Registration fee: $313.00.

10. Class 10: freight motor vehicles with a declared maximum gross weight, including vehicle and load, not in excess of 74,000 pounds.

    Registration fee: $376.00.

11. Class 11: freight motor vehicles with a declared maximum gross weight, including vehicle and load, not in excess of 80,000 pounds.

    Registration fee: $452.00.

B. City motor vehicle registration shall not be required on over-the-road vehicles carrying freight and cargo to and from places outside the city from and to places within the city exclusively, and not making local stops within the city except at terminals or depots which are registered and licensed by the Interstate Commerce Commission, and are for public hire only.

C. City motor vehicle registration shall not be required for vehicles not required to register annually with the state.

D. Combined farm and limited private trucks. Motor vehicles used exclusively for the movement of farm products for the grower from the point of production to the first market, or operated as farm trucks, as defined in T.C.A. § 55-1-119, or as logging and lumbering trucks, or as the owner's private conveyance, transporting only tangible personal property belonging to the owner or guest occupant, as defined in T.C.A. § 55-4-113, shall be classified and registered with the city's registration agent as freight motor vehicles at the following fees in lieu of those set out in subsection A of this section:

Class 1	$30.00
Class 2	$38.00
Class 3	$51.00
Class 4	$83.00
Class 5	$114.00
Class 6	$146.00
Class 7	$177.00
Class 8	$209.00
Class 9	$282.00
Class 10	$313.00
Class 11	$376.00

E. Freight trailers and semitrailers. No city registration fee shall be required for such vehicles as defined in T.C.A. § 55-3-113.

(Code 1967, § 23-76; Code 1985, § 21-283; Ord. No. 245, § 1, 8-13-1968; Ord. No. 599, § 1, 12-9-1969; Ord. No. 1375, § 1, 7-5-1972; Ord. No. 1979, § 4, 3-5-1974; Ord. No. 2491, § 1, 9-7-1976; Ord. No. 3187, § 1(13), 2-2-1982)

CHAPTER 11-64. INSPECTION OF VEHICLES

Sections:

Sec. 11-64-1. Definitions.
Sec. 11-64-2. Motor vehicle inspection requirements; frequency.
Sec. 11-64-3. Motor vehicle inspection program/fleet inspections.
Sec. 11-64-4. Emission control devices and emissions generally.
Sec. 11-64-5. Motor vehicle emission performance test criteria.
Sec. 11-64-6. Exemptions from motor vehicle emission requirements.
Sec. 11-64-7. Motor vehicle anti-tampering test criteria.
Sec. 11-64-8. Motor vehicle anti-tampering test methods.
Sec. 11-64-9. Waiver provisions.
Sec. 11-64-10. Safety inspection.
Sec. 11-64-11. Motorcycle/motor scooter inspections.
Sec. 11-64-12. Procedure when vehicle found defective.
Sec. 11-64-13. Director of public services and neighborhoods authorized to promulgate rules and regulations regarding inspection of vehicles.

Sec. 11-64-1. Definitions.

The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Air pollution is any particulate matter or any gas or vapor other than water or any combination thereof, including any physical, chemical, biological, radioactive substance or matter which is emitted into or otherwise enters the ambient air.

Antique motor vehicle is any motor vehicle over 25 years old which is owned solely as a collectors' item and is used for participation in club activities, exhibits, tours, parades and similar uses, but in no event for general transportation.

Carbon dioxide is a compound consisting of the chemical formula (CO_2).

Carbon monoxide is a compound consisting of the chemical formula (CO).

Catalytic converter is a pollution control device containing a catalyst for converting automobile exhaust into mostly harmless products.

Centralized network means that motor vehicle inspections are conducted by the local or state government at permanent locations.

Certificate of compliance is a certification issued by a department vehicle examiner or a fleet vehicle inspector that the motor vehicle identified on the certificate complies with the emission performance, safety, and anti-tampering criteria appropriate to the vehicle as specified in this chapter.

Check engine light. See *Malfunction indicator light (MIL)*.

Department means the city's motor vehicle inspection bureau (MVIB).

Department vehicle examiner is any person employed by the city's division of public services and neighborhoods who is designated by the MVIB as qualified to perform vehicle emissions performance, safety, and anti-tampering inspections.

Diagnostic trouble codes (DTCs) is an alphanumeric code which is set in a vehicle's onboard computer when a monitor detects a condition likely to lead to (or has already produced) a component or system failure or otherwise contribute to exceeding emissions standards by 1.5 times the certification FTP standard.

Diesel-powered motor vehicle is a motor vehicle powered by a compression-ignition internal combustion engine.

Electric-powered motor vehicle is a motor vehicle which uses a propulsive unit powered exclusively by electricity.

Exhaust emissions are substances emitted into the atmosphere from any opening downstream from the exhaust ports of a motor vehicle engine.

Exhaust gas analyzer is a device for sensing the amount of air pollutants, including carbon monoxide and hydrocarbons, in the exhaust emissions of a motor vehicle. For the purpose of this chapter, this shall mean analyzing devices of the non-dispersive infrared type or any other analyzing devices that provide equal or greater accuracy as approved by the United States Environmental Protection Agency.

Factory-installed motor vehicle pollutant control system is a motor vehicle pollution control system installed

by the vehicle or engine manufacturer to comply with the United States government motor vehicles emission control laws and regulations.

Federal test procedure (FTP) is the test procedure used to determine the compliance of vehicles with federal emission standards.

Fleet means ten or more motor vehicles owned by the same person or business entity which are in use, registered in any county that has been designated by the state air pollution control board to have a motor vehicle inspection and maintenance program in order to attain and maintain compliance with national ambient air quality standards within any area of the state or an adjoining state and not owned or held primarily for the purpose of resale.

Fleet inspection operator is a business who has been certified, in accordance with this regulation and other requirements as determined by the MVIB to perform inspections on their own fleet, as defined herein.

Fleet inspection permit is a certificate issued by the MVIB authorizing a fleet operator to become a fleet inspection operator.

Fleet vehicle inspector is any person retained by a fleet inspection operator holding a valid fleet inspection permit, and who is certified by the MVIB as qualified to perform vehicle emissions performance, safety, and anti-tampering inspections.

Fuel inlet restrictor is the leaded fuel nozzle restrictor installed on motor vehicles which was designed for the use of unleaded gasoline only.

Gasoline cap is the manufacturer cover that seals the motor vehicle gasoline tank.

Gasoline-powered motor vehicle is any motor vehicle powered by a spark-ignition internal combustion engine.

Gross vehicle weight (GVWR) is a term defining the gross vehicle weight as determined from the combined manufacturer vehicle and maximum load rating.

Heavy-duty motor vehicle is any motor vehicle having a combined manufacturer vehicle and maximum load rating (GVWR) to be carried thereon in excess of 10,500 pounds (4,773 kilograms).

Hydrocarbon is any organic compound consisting predominantly of carbon and hydrogen.

Idle speed means the unloaded engine speed of a motor vehicle when the accelerator pedal is fully released. In a motor vehicle equipped with an automatic transmission, this is with the drive selector in neutral or park. In a motor vehicle equipped with a manual transmission, this is with the gear selector in neutral and the clutch fully engaged. In all motor vehicles, the engine operated accessories shall be turned off.

Internal combustion engine is any engine in which the combustion of gaseous, liquid or pulverized solid fuel takes place within one or more cylinders, or any engine with one or more combustion chambers.

Light-duty motor vehicle is any motor vehicle having a combined manufacturer vehicle and maximum load rating (GVWR) to be carried thereon of 10,500 pounds (4,773 kilograms) or less.

Malfunction indicator light (MIL) is known as the check engine light. The malfunction indicator light is illuminated on the dashboard when conditions exist likely to result in emissions exceeding FTP standards by 1.5 times or worse. Alternatives include "service engine soon," as well as an unlabeled icon of an engine.

Manufacturer's idle-speed specification is the engine idle speed specified for a particular motor vehicle as printed on the engine compartment emissions system data plate or in the owner's manual.

Model year means the annual production period of new motor vehicles or new motor vehicle engines designated by the calendar year in which such production ends. If the manufacturer does not designate a production period, the year with respect to such motor vehicle or engines shall mean the 12-month period beginning January of the year in which production thereof begins. The model year for a motor vehicle constructed by other than the original manufacturer shall be assigned by the state department of motor vehicles.

Motor vehicle is any self-propelled vehicle used for transporting persons or commodities on public roads.

Motor vehicle regulatory license is the annual motor vehicle license required as a condition for legal operation of certain classes of motor vehicles.

Motorcycle is any motor vehicle having a seat or saddle for the use of the rider and designed to travel on not more than three wheels in contact with the ground, and having a curb weight of 2,000 pounds (907 kilograms) or less.

New motor vehicle is any motor vehicle that has never been previously titled or registered in this or any other jurisdiction and whose ownership document remains as a manufacturer's certificate of origin.

Official inspection station means a facility operated by the MVIB to conduct motor vehicle inspections pursuant to this chapter, in a centralized network.

Onboard diagnostics (OBD) is a system of vehicle component and condition monitors controlled by a central, onboard computer designed to signal the motorist when conditions exist which could lead to a motor vehicle's exceeding its certification standards by 1.5 times the FTP standard. OBD refers specifically to EPA's OBDII requirements. The following vehicles are equipped with OBDII systems: 1996+ gasoline-powered vehicles less than 8,500 pounds GVWR, 1997+ diesel-powered vehicles less than 8,500 pounds GVWR, and 2007+ gasoline- and diesel-powered vehicles between 8,500 and 14,000 pounds GVWR.

OBD data link connector (DLC) serves as an interface between a motor vehicle's OBD computer and the OBD scanner and is usually located under the dashboard on the driver's side. Connecting an OBD scanner to the DLC allows inspectors and motor vehicle repair technicians to read the readiness status of motor vehicle's onboard monitors as well as any diagnostic trouble codes.

Opacity is the degree to which emissions reduce the transmission of light and obscure the view of an object in the background.

Pollution control device is the equipment designed by the manufacturer for installation on a motor vehicle for the purpose of reducing pollutants emitted from the motor vehicle, or a system or engine modification on a motor vehicle which causes a reduction of pollutants emitted from the motor vehicle.

Readiness codes are status flags stored by a motor vehicle's onboard computer which is different from the DTC in that it does not indicate a motor vehicle fault, but rather whether or not a given monitor has been run (i.e., whether or not the component or system in question has been checked to determine if it is functioning properly).

RPM is a term describing the engine crankshaft revolutions per minute.

Tampering means to remove, render inoperative, cause to be removed, or make less operative any emission control device, unless such removal or act to render inoperative or less operative is for the purpose of motor vehicle disposal or salvage operation.

Vehicle exhaust system means all devices, equipment and systems which transport exhaust emissions from the exhaust ports of the motor vehicle engine to the atmosphere.
(Ord. No. 5317, § 21-301, 7-21-2009)

Sec. 11-64-2. Motor vehicle inspection requirements; frequency.

A. For the protection of the public health, safety and welfare and for the promotion of safe operation of motor vehicles on the streets and highways of the city, all motor vehicles and freight vehicles required to be registered under chapter 11-60 of this title which are four years old or older shall be inspected by the public service and neighborhoods division of the city or other authorized vehicle inspection agency at least one time per year. Owners or drivers of all such motor vehicles shall present such motor vehicles for inspection to the motor vehicle inspection bureau (MVIB) or other authorized location.

B. All motor vehicles, including motorcycles and motor scooters, are required to have a vehicle identification number plate permanently affixed to the vehicle prior to inspection of same.

C. All motor vehicles are required to be inspected annually for compliance with omissions performance; safety, and anti-tampering, unless specifically excluded in this article.

D. Owners of motor vehicles so inspected are required to obtain a certificate of compliance, which shall be issued by the MVIB and/or a licensed fleet vehicle inspector, authorized pursuant to section 11-64-3(C), only after the motor vehicle demonstrates compliance with the test criteria established herein.

E. The certificate of compliance shall be valid for 90 days following the date of issuance and must be presented to the county clerk's office prior to the issuance of the wheel tax or the vehicle regulatory license.

F. Any motor vehicle which is owned or operated by an agency of the federal government and which is operated on a federal installation located in any county that has been designated by the state air pollution control board to have a motor vehicle inspection and mainte-

nance program is required to be inspected annually for compliance with emissions performance and anti-tampering criteria as specified in sections 11-64-4, 11-64-5, 11-64-6, and 11-64-7. This requirement applies to all employee-owned or leased motor vehicles (including vehicles owned, leased, or operated by civilian and military personnel on federal installations. This requirement shall not apply to a motor vehicle which is on the facility for less than a total of 60 days during the calendar year or to tactical military vehicles.

G. Any motor vehicle which is operated on property owned by the city, county, and state government within the city shall be inspected annually for compliance with emissions performance and anti-tampering criteria as specified in sections 11-64-4, 11-64-5, 11-64-6, and 11-64-7. This requirement applies to all employee-owned or -leased vehicles, excluding tactical vehicles. This requirement shall not apply to a vehicle which is operated on government property for less than a total of 60 calendar days per year.

(Code 1967, § 23-88; Code 1985, § 21-301; Ord. No. 243, §§ 1, 2, 8-13-1968; Ord. No. 335, § 1, 12-3-1968; Ord. No. 390, §§ 1, 2, 5, 1-28-1969; Ord. No. 1018, § 1, 8-3-1971; Ord. No. 3306, § 1, 7-5-1983; Ord. No. 3457, § 1, 7-16-1985; Ord. No. 5317, § 21-302, 7-21-2009; Ord. No. 5351, § 1, 6-22-2010)

Sec. 11-64-3. Motor vehicle inspection program/fleet inspections.

A. The MVIB, through its motor vehicle inspection program, is responsible for testing motor vehicles for compliance with emissions, anti-tampering and safety standards.

B. All motor vehicle inspections shall be conducted at official or mobile inspection stations operated by the MVIB, except those fleet inspections authorized pursuant to subsection C of this section.

C. In lieu of the requirement in subsection B of this section, the city council, by resolution, upon recommendation of the public services and neighborhoods division, when it finds it is necessary that inspections be made other than by the public services and neighborhoods division, is authorized to permit the public services [and neighborhoods] division to issue rules and regulations and to grant the privilege to operators of fleets of ten or more motor vehicles and similar establishments to conduct inspections of its own fleet at a rate established by the MVIB in the rules and regulations. The mayor shall be authorized to contract with such establishments that meet the standards set by the public services and neighborhoods division, consistent with those used by the MVIB.

1. A fleet vehicle operator may make application to the MVIB for a fleet inspection permit. Minimum requirements for issuance of a permit shall be:
   a. Possession of an emissions analyzer, tools and other testing equipment approved by the MVIB, and in accordance with the applicable rules and regulations, to be adequate for conducting the required emissions inspections;
   b. Demonstration of knowledge regarding the methods and procedures for conducting the required emissions performance, safety and anti-tampering inspections according to criteria developed by the MVIB;
   c. Provisions of appropriate facility for motor vehicle testing and secure storage facility for storing inspection records;
   d. Agreement to supply inspection information as requested by the MVIB and to allow access to testing facility, testing equipment, testing personnel, testing data, inventory and fleet vehicles as requested by the MVIB;
   e. Retention of a certified automotive service excellence mechanic to conduct fleet vehicle inspections.
2. A fleet inspection permit shall be valid for one year from the date of issuance and shall be renewed through application to the MVIB within 30 days prior to the date of expiration.
3. A fleet inspection permit is not transferable and may be denied, suspended or revoked by the MVIB for failure to comply with this regulation and other requirements as determined by the department, in its sole discretion.
4. Any person operating as a fleet inspection operator, which:
   a. Changes its business name, ownership, official inspection personnel, or approved emissions analyzers; or
   b. Ceases to operate a fleet operation;

shall notify the MVIB program manager within ten days of such change. Failure to provide such notice may be cause for the MVIB to revoke the fleet inspection permit.

5. A fleet inspection operator shall notify, and obtain written approval of, the MVIB program manager prior to relocating its fleet operation. A fleet inspection permit shall automatically terminate as a result of a fleet inspection operator's failure to obtain prior written approval as required herein.

6. Any vehicle inspected by a fleet inspection operator under the provision of this section, shall be subject to retesting at either the fleet inspection location or an official inspection station as deemed necessary by the department in order to maintain compliance with the intent of this chapter.

(Ord. No. 5317, § 21-303, 7-21-2009)

Sec. 11-64-4. Emission control devices and emissions generally.

Pursuant to section 11-32-23, every gasoline-powered motor vehicle shall be subject to inspection for emission of pollutants.

(Ord. No. 5317, § 21-304, 7-21-2009)

Sec. 11-64-5. Motor vehicle emission performance test criteria.

A. Motor vehicles shall not be allowed to undergo idle emission performance testing if, when the motor vehicle is presented for testing, smoke is present from the exhaust system, or the motor vehicle is overheating or losing fluids. Such presence is a health nuisance and would interfere with the operation of the testing equipment.

B. Motor vehicles shall not be allowed to undergo idle emission performance testing if, when the motor vehicle is presented for testing, the vehicle identification number (VIN) plate is missing or illegible.

C. To successfully pass the emission performance testing, the idle speed of the vehicle shall not exceed manufacturer specifications.

D. For vehicles subject to idle emission tests, if the vehicle exhaust system leaks in such a way as to dilute the exhaust emissions being sampled by the exhaust gas analyzer, the sum of carbon monoxide and carbon dioxide concentrations recorded for idle speed reading from an exhaust outlet must not be less than six percent.

E. All 1996 and newer gasoline-powered motor vehicles and all 2002 and newer diesel-powered motor vehicles that are equipped with OBDII systems shall be subject to an OBD inspection for emissions testing. An OBD check shall consist of two parts: a visual check of the MIL and an electronic examination of the OBD computer. The motor vehicle is required to pass a MIL command on test, readiness evaluation and a bulb check test. A vehicle shall fail the OBD inspection if one or more of the following conditions exist:

1. The vehicle's MIL is commanded-on and there are DTCs stored in the computer.

2. The vehicle has more than the allowable number of monitors not ready:

   a. 1996—2000 models: two monitors.

   b. 2001+ models: one monitor.

3. The vehicle's MIL fails to illuminate when the ignition key is placed in the key-on engine off position.

F. If the vehicle is incompatible with the OBD test equipment or if the DLC is readily unavailable (e.g., behind fender walls, under seats, etc.), then the vehicle is required to pass the MIL command on test readiness evaluation and a bulb check test conducted by the station supervisor.

G. All gasoline-powered motor vehicles that are not equipped with OBDII systems shall be subject to gasoline cap and idle emissions testing.

H. When a motor vehicle is equipped with other than the original engine or when a motor vehicle has been constructed, modified, customized or altered in such a way so that the model year cannot be clearly determined, the motor vehicle shall be classified, for purposes of the emission performance test, by the model year of the chassis.

I. All gasoline-powered motor vehicles which have idle speed emission values that exceed the test standards specified in Table I below shall fail the emission performance test.

Table I
Maximum Idle Speed Emissions Allowable During Idle Speed Emissions Test

Vehicle Model Year	*CO (%)*		*HC (PPM)*	
	Light Duty Vehicles Less Than or Equal to 6,000 Pounds GVWR	*Light Duty Vehicles Greater Than 6,000 Pounds to 10,500 Pounds GVWR*	*Light Duty Vehicles Less Than or Equal to 6,000 Pounds GVWR*	*Light Duty Vehicles Greater Than 6,000 Pounds to 10,500 Pounds GVWR*
Pre-72	8.2	8.9	700	900
1973—74	8.2	8.9	700	900
1975—77	5.0	6.5	500	750
1978—79	4.0	6.0	400	600
1980	3.0	4.5	300	400
1981—95	1.2	4.0	220	400
1996+	NA	4.0	NA	400

Year	*Heavy Duty Vehicles 10,501 Pounds to 25,999 Pounds GVWR*	
	CO (%)	*HC (PPM)*
Pre-72	8.9	1,000
1973—74	8.2	1,000
1975—79	8.0	1,000
1980	6.0	800
1981—85	4.0	800
1996+	4.0	800

(Ord. No. 5317, § 21-305, 7-21-2009)

Sec. 11-64-6. Exemptions from motor vehicle emission requirements.

The following classes of motor vehicles are exempt from the emission requirements established in sections 11-64-4 and 11-64-5:

A. Antique motor vehicles with antique registration;

B. Electric powered light-duty vehicles;

C. Motorcycles;

D. Motor scooters;

E. New motor vehicles registered for the first time;

F. Tactical military vehicles;

G. Vehicles over 26,000 pounds GVWR.

(Ord. No. 5317, § 21-306, 7-21-2009)

Sec. 11-64-7. Motor vehicle anti-tampering test criteria.

A. Each gasoline and diesel-powered motor vehicle subject to an emission performance test is also subject to a visual anti-tampering inspection under this rule and shall comply with the following minimum anti-tampering requirements:

1. At a minimum, the emissions control devices subject to an inspection are the catalytic converter, and fuel cap. If emission control devices are found in a tampered condition, such devices shall be repaired or replaced prior to any retesting, re-inspection or waiver issuance as provided for in sections 11-64-12 and 11-64-9.

2. Nothing in this section shall be construed as to relieve a motor vehicle owner from complying with the provisions of sections 11-64-4 and 11-64-5.

B. Each gasoline- and diesel-powered motor vehicle, subject to an OBD inspection, is also subject to an anti-tampering test and shall comply with a DLC check.
(Ord. No. 5317, § 21-307, 7-21-2009)

Sec. 11-64-8. Motor vehicle anti-tampering test methods.

A. The motor vehicle anti-tampering test shall be verified by the department vehicle examiner and consists of the following elements:

1. The vehicle examiner shall visually check the vehicle to see that the appropriate fuel cap is securely in place and limits the escape of fumes into the environment.

2. If the appropriate fuel cap is present and the vehicle is 1995 or older model, the gas cap shall be removed and a fuel cap pressure test shall be performed to ensure the cap is working properly, (FTP 26-21 Pass/Fail Standard). If the fuel cap fails the pressure test, it shall result in a failure of the anti-tampering test. If the appropriate fuel cap is not in place or is damaged, it shall result in failure of the anti-tampering test.

3. Each gasoline-powered motor vehicle with a model year of 1996 and newer, and each diesel-powered motor vehicle with a model year of 2002 and newer, shall comply with the DLC inspection. If the DLC has been tampered with or is missing, it must be repaired or replaced prior to any retesting or re-inspection.

B. Pass/fail determination. A pass or fail determination shall be made for each of the anti-tampering test elements in this section. If a motor vehicle fails any of the anti-tampering elements, it shall result in the failure of the motor vehicle inspection test and a certificate of compliance shall not be issued until the repairs have been made to the vehicle, in accordance with section 11-64-12.
(Ord. No. 5317, § 21-308, 7-21-2009)

Sec. 11-64-9. Waiver provisions.

A. The purpose of this section is to allow a person to operate a motor vehicle that fails to meet the applicable motor vehicle emission performance test criteria as specified in sections 11-64-4 and 11-64-5, provided the department has issued a waiver to the owner of the motor vehicle.

1. A waiver issued pursuant to this section shall relieve the registered owner of a motor vehicle from responsibility for taking any further action to reduce exhaust emissions from the motor vehicle until the motor vehicle is next due for inspection, pursuant to section 11-64-2.

2. Any registered owner of a motor vehicle may be eligible and may apply to the department for a waiver pursuant to this rule if:

   a. An application for a waiver is submitted to a representative at an inspection site designated by the department; and

   b. The vehicle passed the tampering portion of the vehicle inspection; and

   c. All of the exhaust emissions components appropriate to make, model, year, series, and engine size are in place and visually operating; and

   d. The motor vehicle failed the initial emissions test and the emissions retest after repairs; and

   e. The registered owner of the motor vehicle has spent the required amount, pursuant to parts (i), (ii) or (iii) of this subparagraph, in parts and/or labor as an attempt to bring the vehicle into compliance with the motor vehicle emission performance test criteria as specified in section 11-64-5 and has satisfied the remaining requirements of this subparagraph:

      i. For 1980 and older model year vehicles—the minimum expenditure requirement is $75.00. All repairs must be appropriate and/or related to the cause of the test failure. This expenditure includes parts and labor, as specified in part (iv) of this section.

      ii. For 1981 through 1995 model year vehicles—the minimum expenditure requirement is $200.00. All repairs must be appropriate and/or related to the cause of the test failure. This expenditure includes parts and labor, as specified in part (iv) of this section.

      iii. For 1996 and newer model year vehicles—the minimum expenditure requirement is $650.00. All repairs must be appropriate and/or related to the cause of the test failure. This expenditure includes parts and labor, as specified in part (iv) of this section.

      iv. The cost of labor can be applied towards the expenditure amount only if the repairs were performed by a certified repair technician (National Institute for Automotive Service Excellence [ASE] certified in engine repair and engine performance). Repairs performed by non-technicians (e.g., owners) may only apply the cost of parts towards the expenditure.

      v. Documentation of repairs must be provided to the department. Documentation shall include dated re-

ceipts itemized with the name of each part, part number, and manufacturer.

vi. Emission related repairs were performed on the motor vehicle 60 days before or after the initial failed exhaust emissions inspection.

vii. Proof of registration is provided to the department. (Example: Title, vehicle registration).

viii. The registered owner of a motor vehicle, within the failed vehicle's warranty period, shall use all available warranty coverage to have repairs made that are directed toward correcting the cause of the motor vehicle's inspection failure prior to applying for a waiver and provide support documentation pursuant to subparagraph (A) or (B) of this paragraph:

(A) Documentation indicating that any available warranty coverage has been used to have the repairs made that are directed toward correcting the cause of the motor vehicle's failure to pass the motor vehicle inspection shall be provided to the department; or

(B) A written denial of warranty coverage for the needed repairs from the manufacturer or authorized dealer shall be provided to the department.

f. Prior to the issuance of a waiver, department staff shall perform a visual (under hood) inspection of the motor vehicle. This inspection will be performed to determine that emission related repairs have been completed and verify that the minimum expenditure has been met. If during the visual inspection any motor vehicle tampering, as defined in section 11-64-7, is discovered, a waiver cannot be granted.

g. The waiver shall be valid for one year or until the next registration expiration date, whichever is sooner.

h. A waiver shall be granted to the registered owner of a motor vehicle provided the requirements of this section have been fulfilled.

i. Upon receiving a waiver from the department, the registered owner shall be exempt from the requirements of section 11-64-2 within the time period prescribed in paragraph (A)(2)(g) above.

B. Upon application, the department may issue an exemption, as specified in paragraphs (1), (2), or (3) below, from the inspection requirements pursuant to this chapter, provided the subject motor vehicle is registered in the name of the individual applying for the exemption and (i) is not impounded or non-operational; (ii) has never been inspected or has not failed inspection within the past 90 days; or (iii) is not registered in another city or state.

1. Out-of town exemption. The department may grant an exemption for a vehicle that is out-of-town during the required annual inspection period, subject to the following requirements:

a. The motor vehicle must be a minimum of 300 miles outside of the city;

b. The applicant must complete the application required by the city and provide all documentation required by the department; and

c. In the event a federal-approved emissions program is available in the locale where the motor vehicle is located, the motor vehicle must successfully pass a federal emissions test.

2. Military exemption. The department may grant an exemption for active-duty military personnel, including his or her spouse, when the military personnel's vehicle(s) are out-of-town during the required annual inspection period, subject to the following requirements:

a. The individual must provide evidence of an active-duty military identification and leave earning statement (LES), issued by the military, of the motor vehicle owner or his or her spouse;

b. In the event the motor vehicle was registered in another state, the vehicle must successfully pass a federal emissions test; and

c. The individual must complete the application required by the city and provide all documentation required by the department.

3. Reciprocal inspection. The department may grant an exemption for motor vehicles inspected at another federal-approved inspection facility in another locale, subject to the following requirements:

a. The motor vehicle must have passed a federal-approved emissions test within the past 90 days, and the individual must provide evidence of a certificate of compliance from such federal-approved inspection facility;

b. The certificate of compliance, as referenced in the preceding paragraph, shall be valid for a period of 90 days from the test completion date.

4. Financial hardship. The department may grant a wavier for financial hardship subject to the following requirements.

a. Submit a completed financial hardship application including copies of:

i. Failed vehicle inspection report for emissions

ii. Current vehicle registration in the applicant's name.

iii. Valid Tennessee driver's license.

iv. Cost estimate for the vehicle emission related repairs.

v. Statement of financial hardship.

vi. Seniors 62 years and older who are on fixed incomes and vehicles failed the initial on-board diagnostic II test but pass the subsequent emissions tailpipe test would be granted a waiver for one year.

(Ord. No. 5317, § 21-309, 7-21-2009; Ord. No. 5457, § 1, 7-3-2012)

MEMPHIS MOTOR VEHICLE INSPECTION
Financial Hardship Waiver Application

(See rear of form for instructions)

Vehicle must be currently registered by owner in Memphis Tennessee to obtain a Financial Hardship Waiver. All requested information below must be completed and the **receipts and estimates** must be attached, or **your application will be denied**.

VEHICLE INFORMATION - Please Print:

Registration Expiration Date: _____ **Vehicle ID Number:** _____

License Plate Number: _____ **Year/Make of Vehicle:** _____

Registered Owner(s) - Please Print Name(s)/Current Address:

Owner 1: _____ **Address:** _____

Owner 2: _____ **Address:** _____

ALL REGISTERED OWNER(s) MUST COMPLETE THE FOLLOWING:

Yes No

[ ] [ ] 1. Has this vehicle failed the vehicle emissions test? (A **"Reject"** is **not** a failure.)

[ ] [ ] 2. Has this vehicle previously received a financial hardship waiver?

[ ] [ ] 3. Have you attached a written estimate of emissions-related repair costs for at least $200? (See instructions below)

The estimate must total at least **$75 for 1980 and older vehicles, $200 for 1995 and older vehicles,** or **$650 for 1996 and newer vehicles** on the cost of emissions-related repairs. The estimate must include parts, services, and diagnostic fees signed and dated from an Automotive Service Excellence (ASE) repair technician.
Note: Costs of emissions recall repairs cannot be included in these estimates.

4. Please check the box and sign below.

[ ] I am having a financial hardship and unable to make the necessary emissions-related repairs to my vehicle.

I/We hereby swear or affirm the information provided above is true and correct, and authorize the City of Memphis Motor Vehicle Inspection Bureau or its representatives to make legitimate inquiries to all relevant federal, state, or local offices regarding the accuracy of the information provided.

Please sign and date:

Signature _____ Date _____ Phone Number _____

Signature _____ Date _____ Phone Number _____

After completing the application, send to:

City of Memphis Motor Vehicle Inspection Bureau 590 Washington Avenue Memphis, TN 38105	E-mail: mvib@memphistn.gov (Subject: Economic Hardship)

MEMPHIS

MOTOR VEHICLE INSPECTION BUREAU

FINANCIAL HARDSHIP WAIVER

Instructions

Motorists may be eligible for a one year financial hardship waiver for a vehicle that fails the Memphis Vehicle Emissions Inspection if the household's income falls within the income guidelines. The hardship waiver is one time only for the life of the vehicle. The vehicle must be repaired for the next year inspection cycle.

To qualify for a financial hardship waiver:

1. The vehicle must be currently registered in applicant's name. Provide copy of registration.
2. Copy of a valid Tennessee driver's license.
3. The motorist must provide a completed Financial Hardship Waiver Application.
4. A current failed vehicle inspection test with the past thirty (30) days.
5. A type written estimate for the vehicle emission related repairs from an Automotive Service Excellence (ASE) repair technician.
6. Must have a financial hardship that prevents the motorist from making the emission-related repairs.

(Ord. No. 5457, § 1, 7-3-2012)

Sec. 11-64-10. Safety inspection.

In addition to any and all other tests required herein, all motor vehicles registered in the city shall pass the safety inspection prior to registration. The following components shall be inspected:

1. Visible smoke.

2. Emergency/parking brakes. The emergency and parking brakes shall function according to the manufacturer's specifications. When emergency brakes or parking brakes are applied, the motor vehicle should not move more than 12 inches in either direction when lightly accelerated.

3. Turn signals. The turn signals and components shall function according to the manufacturer's specifications. Both the left and right turn signals on the front and rear of the vehicle must be operational. No aftermarket lens that reduces the candle light power should be affixed to the motor vehicle. The lights shall be in good working condition and operational in accordance with state law.

4. Rear lights. The rear lights and components shall function according to the manufacturer's specifications. Rear lights on both sides must be fully illuminated when activated. No aftermarket lenses that reduce the candle light power should be affixed to the motor vehicle. The lights shall be in good working condition and operational in accordance with state law.

5. Brake lights. The brake lights and lens shall function according to the manufacturer's specifications. Both the left and right brake lights must illuminate brightly when the brakes are applied. This must occur when headlights are in the on and off state. No aftermarket lens that reduces the candle light power should be affixed to the vehicle. The lights shall be in good working condition and operational in accordance with state law.

6. Headlights. The headlights and components shall function according to the manufacturer's specifications. Both headlights must operate and be properly aligned. The dimmer switch must change the headlights from high to low beam. No aftermarket lens that reduces the candle light power should be affixed to the vehicle. No device or lens may impair the direction or intensity of the headlights.

7. Windshield wipers. The windshield wipers and components shall function according to the manufacturer's specifications. The windshield wipers must cover the sweep of the windshield and the blades shall not be frayed or missing.

8. Windshield. The windshield, front and rear, is designed to help support the roof of the motor vehicle. Cracks or starbursts can reduce the structural integrity of the windshield. Any crack six inches or longer anywhere on the windshield, a crack three inches in length inside the critical area (wiper sweep), starbursts larger than one inch in diameter in the critical area, or a missing windshield shall be cause for inspection failure.

9. Rearview mirrors. The rearview mirror shall be attached to the inside of the windshield. The mirror shall not be broken or missing, and shall be in good working condition.

10. Side mirrors. The side mirrors shall be attached to the sides of the motor vehicle according to the manufacturer's specifications. The mirrors shall not be broken, or missing, and shall be in good working condition.

11. Window tint. No window on a motor vehicle may have a visible light transmittance of less than 35 percent. Windshields, specifically, may not have a visible light transmittance of less than 70 percent, with the exception of the manufacturer's standard installed shade band, which reduces the visible light transmittance in the uppermost portion of the windshield. (The shade band should not exceed six inches from the top of the windshield, or below the AS1 line on the windshield.)

12. Exhaust and muffler. The muffler and exhaust system shall be in good working order and in constant operation to prevent excessive or unusual noise, annoying smoke, escape of excessive gas, steam or oil, and to prevent entrain carbon monoxide from entering the vehicle. The exhaust system shall extend pass the rear bum-

per or exit near the rear tires on the motor vehicle according to the manufacturer's specifications.

(Ord. No. 5317, § 21-310, 7-21-2009; Ord. No. 5559, § 2, 9-2-2014)

Sec. 11-64-11. Motorcycle/motor scooter inspections.

An annual safety inspection is required on motorcycles and motor scooters that are registered in the city. These inspections are performed at the motor vehicle inspection stations. The following items shall be inspected:

1. Vehicle identification number.
2. Turn signals. The turn signals and components shall function according to the manufacturer's specifications. Both the left and right turn signals on the front and rear of the motor vehicle must be operational. No aftermarket lens that reduces the candle light power should be affixed to the motor vehicle. The lights shall be in good working condition and operational in accordance with state law.
3. Headlights. The headlights and components shall function according to the manufacturer's specifications. The headlight or headlights must be operational and aligned properly. The dimmer switch must change the headlights from high to low beam. No aftermarket lens that reduces the candle light power should be affixed to the motor vehicle. No device or lens may impair the direction or intensity of the headlights.
4. Brake lights. The brake lights and lens shall function according to the manufacturer's specifications. The brake lights must illuminate bright in a steady state when the brakes are applied. This must occur when headlights are in the on and off state. Oscillating or flashing brake lights are legal for emergency vehicles only. No aftermarket lens that reduces the candle light power should be affixed to the motor vehicle. The lights shall be in good working condition and operational in accordance with state law.
5. Rearview mirrors. Two rearview mirrors shall be securely mounted. The mirrors must not be broken, missing, tarnished, or peeling.
6. Muffler and exhaust. The muffler and exhaust system shall be in good working order with a sound baffling device inside the tailpipe. Motor vehicle noise level will be checked in accordance with section 11-56-2.

(Ord. No. 5317, § 21-311, 7-21-2009)

Sec. 11-64-12. Procedure when vehicle found defective.

A. If any motor vehicle fails to pass the windshield safety inspection provided for in this chapter, the registered owner of such motor vehicle shall be allowed 14 days from the date the motor vehicle registration expires to make repairs or corrections in order that such vehicle shall pass such inspection. The owner of such motor vehicle shall be required to resubmit the motor vehicle for inspection within 14 days to pass the required inspection.

B. If any motor vehicle fails to pass the emissions test provided for in this chapter, the registered owner of such motor vehicle shall be provided an inspection certificate stating the date the emissions test was administered and failed and shall be allowed 30 days from the date the vehicle registration expires, in accordance with T.C.A. § 55-4-128(a), to make repairs or corrections in order that such motor vehicle shall pass such test. The owner of such motor vehicle shall be required to resubmit the motor vehicle for inspection until such motor vehicle successfully passes the emissions test requirements.

C. If any motor vehicle fails inspection, excluding the emissions testing, the owner of such motor vehicle shall resubmit the motor vehicle for re-inspection of the failed items within 30 days from the date of failure. Should the owner fail to comply with this provision, the motor vehicle shall be subject to all inspection requirements as specified in section 11-64-2.

D. If, in the opinion of the police director, or his or her designated agent, the director of the division of public services and neighborhoods or his or her designated agent, any motor vehicle is so defective as to make it dangerous to the public to allow such motor vehicle to be operated on the public streets and highways, the time period, as specified in subsections A and B of this section, allowed for repair may be denied and the owner or driver of such motor vehicle shall take same immediately to a place of repair and, until same passes inspection, shall not operate same except to the place where it is to be repaired and to return same to the municipal testing station.

(Code 1967, § 23-90; Code 1985, § 21-303; Ord. No. 390, §§ 3, 4, 1-28-1969; Ord. No. 3306, § 1, 7-5-1983;

Ord. No. 3497, § 1(1), 10-1-1985; Ord. No. 3591, § 1, 8-5-1986; Ord. No. 5317, § 21-312, 7-21-2009; Ord. No. 5343, 1-26-2010)

Sec. 11-64-13. Director of public services and neighborhoods authorized to promulgate rules and regulations regarding inspection of vehicles.

The director of public services and neighborhoods is authorized to promulgate rules and regulations subject to approval of the council for the inspection of motor vehicles, setting forth the equipment of such motor vehicles to be inspected in accordance with the standards and provisions of this title and such other standards as approved in such rules and regulations.
(Code 1967, § 23-95; Code 1985, § 21-307; Ord. No. 573, § 4, 10-28-1969; Ord. No. 5317, § 21-313, 7-21-2009)

CHAPTER 11-68. MISCELLANEOUS TRAFFIC REGULATIONS

Sections:

Sec. 11-68-1. Use of roller skates and coasters in roadway.
Sec. 11-68-2. Clinging to moving vehicles.
Sec. 11-68-3. Boarding or alighting from vehicle in motion.
Sec. 11-68-4. Riding on a portion of vehicle not intended for passengers.
Sec. 11-68-5. Deposit of glass and nails in street prohibited—Removal of same.

Sec. 11-68-1. Use of roller skates and coasters in roadway.

No person upon roller skates or a skateboard or riding in or by means of any coaster, toy vehicle or similar device, shall go upon any roadway except while crossing a street on a crosswalk; and when so crossing, such person shall be granted all of the rights and shall be subject to all of the duties applicable to pedestrians.
(Code 1967, § 23-10; Code 1985, § 21-14)

Sec. 11-68-2. Clinging to moving vehicles.

No person riding upon any roller skates, skateboard, sled, toy vehicle or other means of locomotion shall hang onto, catch hold of or otherwise attach himself or herself to a moving vehicle for the purpose of being propelled thereby along the street.
(Code 1967, § 23-11; Code 1985, § 21-15)

Sec. 11-68-3. Boarding or alighting from vehicle in motion.

No person shall board or alight from any vehicle while such vehicle is in motion.
(Code 1967, § 23-12; Code 1985, § 21-16)

Sec. 11-68-4. Riding on a portion of vehicle not intended for passengers.

A. No person shall ride on any vehicle upon any portion thereof not designed or intended for use of passengers except for: (1) a non-minor employee engaged in the necessary discharge of duty; or (2) a non-minor person riding within a truck body in space intended for merchandise.

B. No person driving any vehicle shall knowingly transport on such vehicle any person who is in violation of subsection A of this section.
(Code 1967, § 23-13; Code 1985, § 21-17; Ord. No. 4387, § 1, 2-6-1996)

Sec. 11-68-5. Deposit of glass and nails in street prohibited—Removal of same.

A. No person shall throw or deposit upon any street any glass bottle, glass, nails, tacks, wire, cans or any other substance likely to injure any person, animal or vehicle upon such street. Any person who drops, or permits to be dropped or thrown, any destructive or injurious material upon any street shall immediately remove the same or cause it to be removed.

B. Any person removing a wrecked or damaged vehicle from a street shall remove any glass or other injurious substance dropped upon the street from such vehicle.
(Code 1967, § 23-15; Code 1985, § 21-24)

CHAPTER 11-70. IMMOBILIZATION OF MOTOR VEHICLES BY BOOTING AND COMMERCIAL PARKING LOT TICKETING

Sections:

Sec. 11-70-1. Definitions.
Sec. 11-70-2. Licenses.
Sec. 11-70-3. Application requirements for a booting and ticketing license.
Sec. 11-70-4. Booting and ticketing permit required for employees; permit fee; identification badge.

Sec. 11-70-5. Licensee responsibilities—Compliance required.
Sec. 11-70-6. Notices at time boot device is installed.
Sec. 11-70-7. Notices at time ticket is issued.
Sec. 11-70-8. Booting fees.
Sec. 11-70-9. Ticketing fees.
Sec. 11-70-10. Signage—Unpaid parking violations.
Sec. 11-70-11. Immediate release of vehicle required; payment of unpaid parking fees.
Sec. 11-70-12. Prohibited acts.
Sec. 11-70-13. Hearings for license application.
Sec. 11-70-14. Hearing for suspension, revocation or probation and after refusal to renew license or permit.
Sec. 11-70-15. Making false statement—Power not to grant application.
Sec. 11-70-16. Severability.

Sec. 11-70-1. Definitions.

As used in this chapter, the following words and phrases shall have the meaning ascribed to them in this section, except as otherwise may be provided or unless a different meaning is plainly required by the context:

Attended commercial parking lot means a lot or garage used for the temporary storage of passenger cars or trucks for a fee, and that is staffed by an attendant at all times vehicles are parked. Attended commercial parking lots do not include residential parking areas.

Booting means the attachment of any device to a vehicle that prevents the vehicle from being driven.

Booting and ticketing license means a license issued by the transportation licensing commission authorizing the holder thereof to engage in the business of booting and/or enforcement of commercial parking lot time limits by ticketing within the area of the metropolitan government.

Booting service means a person, business, or firm engaged in the practice of booting for a fee or other compensation within the area of the metropolitan government, provided that the vehicle's owner/lien holder, a metropolitan police officer in the performance of his/her official duty, or a parking patrol officer for a college or university engaging in the practice of booting shall not be considered a booting service.

Business parking lot means a parking lot or garage for use by patrons of a particular business or businesses for which no parking fee is charged.

Commercial parking lot means either an unattended commercial parking lot or attended commercial parking lot.

Ticketing means charging a penalty to a motor vehicle that is parked in a commercial parking lot as a means of enforcing parking lot policies, in lieu of booting or towing.

Unattended commercial parking lot means a lot or garage used for the temporary storage of passenger cars or trucks for a fee, and that is not staffed by an attendant. Unattended commercial parking lots do not include residential parking areas.
(Ord. No. 5679, § 41.5-1, 3-6-2018)

Sec. 11-70-2. Licenses.

No person shall engage in the business of providing booting services, neither installing nor removing, within the City of Memphis without first obtaining and keeping in force a booting and ticketing license issued by the permits office. An applicant for a booting and ticketing License must be at least 18 years of age.
(Ord. No. 5679, § 41.5-2, 3-6-2018)

Sec. 11-70-3. Application requirements for a booting and ticketing license.

A. Every application for, and renewal of, a license under this chapter, shall, at a minimum, contain, or in the case of license renewal confirm, the following information:

1. If the applicant is an individual:
    a. The applicant's full name, residence address, business address, business, home and cellular telephone numbers, and e-mail address;
    b. The name and telephone number of an emergency contact person;
    c. The applicant's date of birth and social security number;
    d. Proof that the applicant is at least 18 years of age;
2. If the applicant is a corporation:
    a. The applicant's name, the name under which the applicant is doing business, the

applicant's address, the business' address, the applicant's telephone number and the business location's telephone number;

b. The date and state of incorporation;

c. The name, residence address and residence telephone number of all controlling persons;

d. The date of birth and social security number of all controlling persons;

e. The name and telephone number of an emergency contact person;

f. Proof that all controlling persons are at least 18 years of age;

g. Proof that the corporation is in good standing under the laws of the State of Tennessee.

h. A current background check (no more than 90 days old) based upon Fair Credit Reporting Act standards on all persons owning five percent or greater of all outstanding stock. The city, through the permits office, reserves the right to deny a permit based on the content of the report which can be appealed to the Memphis Transportation Commission within ten days of such denial.

3. If the applicant is a partnership or limited liability company:

a. The applicant's name, the name under which the applicant is doing business, the applicant's address, the business' address, the applicant's telephone number and the business location's telephone number;

b. The name, residence address, residence telephone number, date of birth and social security number of all partners, if a general partnership; of all general and limited partners, if a limited partnership; of all managers, managing members and members, if a limited liability company; and of all controlling persons;

c. The name and telephone number of an emergency contact person;

d. Proof that all controlling persons are at least 18 years of age;

e. A current background check (no more than 90 days old) based upon Fair Credit Reporting Act standards on all controlling persons. The city, through the permits office, reserves the right to deny a permit based on the content of the report which can be appealed to the Memphis Transportation Commission within ten days of such denial.

4. If the applicant seeks to do business under an assumed name, proof of compliance with State of Tennessee relevant laws;

5. A description of the activities and services, as applicable, that the applicant will carry on or provide at the licensed premises;

6. Whether the business activity at the location meets the requirements of the City of Memphis Zoning Ordinance;

7. The license fee; and

8. Any other information or requirements that the permits office and/or the Memphis Transportation Commission may reasonably require in connection with issuance or renewal of a license.

B. It is a condition of the license that all information in the license application is kept current. The licensee shall report to the permits office any change in the above required information within ten business days of such change.

C. The permits office shall be responsible for issuing any required license shall promulgate rules and regulations to provide for situations where any of the information required in subsection (A) of this section or in a specific license in the case of license renewal confirm, the following information:

1. If the applicant is sole proprietor:

a. The applicant's full name, residence address, business address, business, home and cellular telephone numbers, and e-mail address;

b. The name and telephone number of an emergency contact person;

c. The applicant's date of birth and social security number;

d. Proof that the applicant is at least 18 years of age;

2. If the applicant is a corporation:
   a. The applicant's name, the name under which the applicant is doing business, the applicant's address, the business' address, the applicant's telephone number and the business location's telephone number;
   b. The date and state of incorporation;
   c. The name, residence address and residence telephone number of all controlling persons;
   d. The date of birth and social security number of all controlling persons;
   e. The name and telephone number of an emergency contact person;
   f. Proof that all controlling persons are at least 18 years of age;
   g. Proof that the corporation is in good standing under the laws of the State of Tennessee;
3. If the applicant is a partnership or limited liability company:
   a. The applicant's name, the name under which the applicant is doing business, the applicant's address, the business' address, the applicant's telephone number and the business location's telephone number;
   b. The name, residence address, residence telephone number, date of birth and social security number of all partners, if a general partnership; of all general and limited partners, if a limited partnership; of all managers, managing members and members, if a limited liability company; and of all controlling persons.

D. No license to operate a booting and ticketing service shall be issued, become effective, or continue in force or effect unless all insurance requirements, as determined by the risk management office of the city, and proof thereof are submitted in a form prescribed by the city prior to the issuance of a license.

E. The fee for a booting and ticketing license shall be $500.00. Booting and ticketing licenses expire annually on December 31 and the renewal fee shall be $250.00.
(Ord. No. 5679, § 41.5-3, 3-6-2018)

Sec. 11-70-4. Booting and ticketing permit required for employees; permit fee; identification badge.

A. An employee of a booting or ticketing service that engages in the practice of installing and removing booting devices from vehicles or enforcing commercial parking lot parking time limits through ticketing shall possess a permit issued by the permits office and meet the same requirement, qualifications and training deemed necessary by the Memphis Transportation Commission.

B. Every application for, and renewal of, a permit under this chapter, shall, at a minimum, contain, or in the case of permit renewal confirm, the following information:

1. The applicant's full name, residence address, business address, business, home and cellular telephone numbers, and e-mail address;
2. The name and telephone number of an emergency contact person;
3. The applicant's date of birth and social security number.
4. A current background check (no more than 90 days old) than based upon Fair Credit Reporting Act standards. The city, through the permits office, reserves the right to deny a permit based on the content of the report which may be appealed to the Memphis Transportation Commission within ten days of such denial.

C. The fee for a booting and ticketing permit shall be $10.00 per employee. Booting and ticketing permits shall expire annually on December 31 and the renewal fee shall be $10.00.

D. All person engaged in the act of booting or ticketing shall wear an identification badge including the person's first and last name, the name of the company, and the permit number of the employee.
(Ord. No. 5679, § 41.5-4, 3-6-2018)

Sec. 11-70-5. Licensee responsibilities—Compliance required.

A. No licensee shall permit any of its employees while engaged in the practice of booting or ticketing to engage in activities or practices contrary to the public safety or welfare or contrary to the proper discharge of their duties in the course of their employment.

B. Licensee shall be responsible for its employees complying with the ordinances of the City of Memphis, the State of Tennessee, the United States and rules and regulations of the Memphis Transportation Commission and the permits office which reflect on the fitness of such employees to be employed in the operation of a booting and/or ticketing service, and violations by the employees of a licensee shall be cause for revocation, suspension, probation or failure to renew the licensee of the licensee and the permits of the employees.
(Ord. No. 5679, § 41.5-5, 3-6-2018)

Sec. 11-70-6. Notices at time boot device is installed.

A. A notice must be affixed using temporary adhesive to the driver side window of every vehicle for which a booting device is installed.

B. Such notice shall measure not less than five inches in width and seven inches in height, and shall include the following information:

1. A warning not to move the vehicle. Such warning shall expressly state that movement of the vehicle may cause damage to the vehicle.
2. The reason for and date and time of immobilization.
3. The name of the booting service and a 24-hour telephone number at which the booting service can be reached.
4. The fee required for removal of the booting device.
5. A reference to chapter 11-70 of the City of Memphis Municipal Code regulating booting of vehicles.
6. "If you believe you have been booted improperly, please contact the City of Memphis Permits Office at (901) 636-6711".

(Ord. No. 5679, § 41.5-6, 3-6-2018)

Sec. 11-70-7. Notices at time ticket is issued.

A. A notice must be affixed using temporary adhesive to the driver side window of every vehicle for which a ticket is issued. Such notice shall measure not less than five inches in width and seven inches in height, and shall include the following information:

1. The reason for and date and time of ticket.
2. The name of the ticketing service and a 24-hour telephone number at which the ticketing service can be reached.
3. The fee required by the ticket.
4. A reference to chapter 11-70 of the City of Memphis Municipal Code regulating booting and ticketing of vehicles.
5. "If you believe you have been ticketed improperly, please contact the City of Memphis Permits Office at (901) 636-6711".

(Ord. No. 5679, § 41.5-7, 3-6-2018)

Sec. 11-70-8. Booting fees.

A. Booting company licensees shall maintain 24-hour telephones and wheel locking device removal services, and shall respond to a request to remove a wheel locking device within 30 minutes. If a licensee or permittee does not appear to remove the wheel locking device within one hour of a request from the owner or operator of the vehicle, the locking device shall be removed at no charge.

B. If the owner or operator of a motor vehicle that is parked without authorization on private property attempts to retrieve said vehicle before booting actually occurs there shall be no fee and the vehicle owner shall be allowed to remove the vehicle without further delay.

C. The maximum fee which may be charged for boot removal shall not exceed $50.00 and there shall be no other fees charged related to removal of the boot.

D. A booting licensee must accept payment by at least three of the following means:

1. Check;
2. Cash;
3. VISA;
4. MasterCard;
5. American Express.

E. There shall be no additional fee charged for the use of credit cards.

F. Booting fees shall not be charged in conjunction with ticketing and/or towing fees. An itemized receipt for all fees collected on site must be provided to payee. Unpaid parking fees, if any, must be listed separately from any booting or ticketing fees.
(Ord. No. 5679, § 41.5-8, 3-6-2018)

Sec. 11-70-9. Ticketing fees.

A. A motor vehicle that is parked on private property without authorization may be ticketed in lieu of booting or towing.

B. If the owner or operator of a motor vehicle that is parked without authorization on private property attempts to retrieve said vehicle before ticketing actually occurs there shall be no fee and the vehicle owner shall be allowed to remove the vehicle without further delay.

C. The maximum fee which may be charged by ticketing shall not exceed two times the maximum daily rate, and shall not exceed $50.00. There shall be no other fees charged related to the ticket.

D. A ticketing licensee must accept payment by at least three of the following means:

1. Check;
2. Cash;
3. VISA;
4. MasterCard;
5. American Express.

E. Ticketing fees shall not be charged in conjunction with booting and/or towing fees. An itemized receipt for all fees collected on site must be provided to payee. Unpaid parking fees, if any, must be listed separately from any booting or ticketing fees.
(Ord. No. 5679, § 41.5-9, 3-6-2018)

Sec. 11-70-10. Signage—Unpaid parking violations.

A. No boot or ticket shall be placed on a vehicle parked at a commercial parking lot unless there is a permanently placed sign affixed measuring not less than 24 inches in height and 18 inches in width is placed at all points of vehicular ingress to the lot, which sign shall include the following information in red lettering no less than four inches in size on a white background, as follows:

Parking Policy Strictly Enforced

Violators will be Booted, Ticketed, or Towed at Owner's Expense

$50.00 Maximum Booting fee

Ticketed Fee is two times the daily rate, $50.00 Maximum

(Name and 24-hour phone number of booting and/or towing company)

Complaints? Contact the City of Memphis Permits Office (901) 636-6711

B. Such signs shall be not less than 42 and not more than 72 inches from the ground.

C. If a vehicle is booted, ticketed, or towed as a result of a property owner's request and the property owner has not complied with the requirements of subsection (A) above, the property owner shall be guilty of a misdemeanor and may, in the discretion of the municipal judge, subject to a fine.
(Ord. No. 5679, § 41.5-10, 3-6-2018)

Sec. 11-70-11. Immediate release of vehicle required; payment of unpaid parking fees.

A. If a boot is placed on a vehicle parked at an unattended commercial parking lot for failure to pay the required parking charge, the vehicle must be immediately released upon making the $50.00 fee available to the booting company.

B. If a ticket is placed on a vehicle parked at an unattended commercial parking lot for failure to pay the required parking charge, the ticket must provide a mailing address to send the ticket fee and no immediate payment will be required. If a ticket is placed on a vehicle parked at an attended commercial lot, the vehicle must be immediately released upon making the ticket fee available to the parking attendant.

C. The owner or operator of a commercial parking lot may require the owner of the vehicle to pay all unpaid parking fees, which shall be based on the applicable rates during the time the vehicle was parked. Only the owner or its designated agent may collect the unpaid parking fees, but neither the booting, ticketing, nor towing company may serve as the designated agent for the purpose of collecting the unpaid parking fees. No vehicle may be withheld to collect unpaid parking fees if the vehicle owner has paid a booting or ticketing fee.
(Ord. No. 5679, § 41.5-11, 3-6-2018)

Sec. 11-70-12. Prohibited acts.

It is declared that the following acts are prohibited and unlawful and the license or permit of any person doing such acts may be revoked, suspended, placed on probation or not renewed:

A. No vehicle affixed with a boot may be towed unless the owner of the vehicle fails to contact the booting company within 24 hours of the notice. All towed vehicles are subject to compliance with local ordinances.

B. No vehicle may be immobilized or ticketed without proof that the vehicle was illegally parked.

C. Failure to remove a booting device within one hour of being contacted by the owner or operator of the vehicle that has been booted.

D. For a booting and/or ticketing service to make any payment to an owner, employee, agent, or person in possession of a commercial parking lot in excess of the reasonable and customary parking fee ordinarily charged by the parking lot thereon.

E. For any vehicle immobilization service to be licensed hereunder if that vehicle immobilization service is also engaged in the business of a parking lot or property where booting services are being performed.

F. For any vehicle immobilization service and owner of a parking lot or property where booting services are being performed to have any financial arrangement which result in a financial benefit related to the booting services.

G. Any failure to comply with the requirements of chapter 11-70.
(Ord. No. 5679, § 41.5-12, 3-6-2018)

Sec. 11-70-13. Hearings for license application.

A. Prior to the issuance of any license provided per this chapter, the Memphis Transportation Commission shall hold a hearing for the applicant after giving the applicant at least a 15-day notice of the time and place of such hearing.

B. The Memphis Transportation Commission is empowered to make all such rules and regulations which it considers necessary and proper for any hearings provided for by this chapter.
(Ord. No. 5679, § 41.5-13, 3-6-2018)

Sec. 11-70-14. Hearing for suspension, revocation or probation and after refusal to renew license or permit.

A. *Hearing before permits administrator.* If it appears that a booting or ticketing company has violated any permit holder has violated any of the aforementioned requirements or rules and regulations, the permits administrator shall have the authority to conduct a hearing with the booting/ticketing service representatives and/or license holder upon 48 hours' notice. If violations are found to have occurred, the permits administrator may suspend the license and/or permit up to a period not to exceed ten days and/or administer a fine in conjunction with the rules and regulations of the Memphis Transportation Commission. Upon expiration of the suspension, the booting/ticket license and/or permit will not be reinstated until such time that the requirement, rule or regulation violation is corrected and the booting/ticketing company meets all provisions of this chapter. Any decision by the permits administrator may be appealed within five days to the transportation commission.

B. *Appeal hearing before transportation commission.* At such any appeals hearing before the transportation commission the booting/ticketing company shall be allowed to answer such charges and respond to the decision of the permits administrator. The rules and regulations of the transportation commission shall apply for any penalties levied against the booting/ticketing company including but not limited to fines, suspensions, probation and/or revocations. Penalties are not subject to appeal, as the decision of the transportation commission being final.
(Ord. No. 5679, § 41.5-14, 3-6-2018)

Sec. 11-70-15. Making false statement—Power not to grant application.

Any person making a false statement in any application required by the permits office shall forfeit his permit and shall not be eligible to receive or hold a permit from permits office for a period of five years. The Memphis Transportation Commission shall have the power not to issue any permit when it finds that such issuance would interfere with the public health, safety, and welfare of the residents of the city.
(Ord. No. 5679, § 41.5-15, 3-6-2018)

Sec. 11-70-16. Severability.

If any section, subsection, sentence, clause, phrase, word or any other part of this chapter shall be declared unconstitutional or invalid by a court of competent authority, then the remainder of this chapter shall not be affected and shall remain in full force and effect.
(Ord. No. 5679, § 41.5-16, 3-6-2018)

CHAPTER 12-4. STREETS GENERALLY

Sections:

Sec. 12-4-1. Street improvements generally.
Sec. 12-4-2. Establishment of street grade prior to improvement of street.
Sec. 12-4-3. Removal of improper materials under grading or paving contract.
Sec. 12-4-4. Bus shelters.
Sec. 12-4-5. Street obstructions.
Sec. 12-4-6. Obstructing street lamps.
Sec. 12-4-7. Defacing or injuring streets—Painting house numerals on curb.
Sec. 12-4-8. Oil not to be spilled on asphalt pavements.
Sec. 12-4-9. Curb service.
Sec. 12-4-10. Gas and water pipes under streets and sidewalks.
Sec. 12-4-11. Flashing lights projecting revolving beam upon or in view of streets—Removal when interfering with traffic.
Sec. 12-4-12. Notice of excavation or site preparation work in utility easements.

Sec. 12-4-1. Street improvements generally.

Streets and public thoroughfares shall be paved and otherwise improved in such manner and with such materials as the city council may prescribe by ordinance or resolution. If any improvement is made on the front foot or district improvement plan, the provisions of the statutes authorizing such improvements shall be strictly followed, and each and every officer of the city shall follow the provisions of such statutes governing his or her powers and duties.
(Code 1967, § 36-1; Code 1985, § 34-1)

Charter references—Improvements under front-foot assessment law, §§ 503—545; improvements under district plan, §§ 546—565.

Sec. 12-4-2. Establishment of street grade prior to improvement of street.

The city engineer shall fix the official grade of any street or public thoroughfare in the city before such thoroughfare may be improved, or before an ordinance or resolution providing for such improvement may be passed. In such event, he or she shall deposit in the records of his or her office a copy of the survey or plan establishing such grade, and thenceforward the grade so established shall be conclusively held to be the official or established grade of such street or public thoroughfare.
(Code 1967, § 36-2; Code 1985, § 34-2)

Sec. 12-4-3. Removal of improper materials under grading or paving contract.

All contracts for grading and paving any street or wharf shall contain a provision that if the contractor or any other person shall bring, or cause to be brought, on the street or wharf, any materials which do not strictly conform to the contract or city ordinances, the city engineer, or other proper officer of the city, shall, on behalf of the city, have the right to order the same to be removed forthwith from such street or wharf. In case of neglect or refusal of the contractor, or those employed by him or her, to remove such material, then the engineer may cause such material to be removed at the expense of the contractor, and to deduct the expense of such removal, and all other expenses thereon, from the account of the contractor.
(Code 1967, § 36-3; Code 1985, § 34-3)

Sec. 12-4-4. Bus shelters.

The purpose of this section and legislation is to establish the procedure for the approval of site locations for bus shelters to be constructed on sidewalks by any company or companies contracting with the city or MATA to provide such shelters ("government contractor"). Any shelter(s) meeting the criteria set forth below shall be approved by the city engineer. If there is any dispute regarding a particular shelter's location, the government contractor shall, after exhaustion of its appeal to the CAO, have the right to appeal to the Memphis City Council Transportation Committee. The Memphis City Council Transportation Committee shall review the matters presented and may, at its option, adopt a recommendation of Memphis City Council action. The appeal will then be submitted to the Memphis City Council for a final and binding decision by a simple majority of those members present. The site approval procedure for any bus shelter constructed entirely on a city sidewalk is as follows:

A. MATA will determine which proposed transit shelters are acceptable for construction in accordance with MATA's routes, and the criteria set forth below. MATA will deliver approved lists, of not more than 20 shelters each week, to the city engineering division. For each approved site location, the government contractor will also submit a detailed schematic diagram which shows major site features, distances from adja-

cent driveways and intersections, etc., as prescribed by MATA's administrative procedures memorandum.

B. The city engineering division will have five working days to accept or reject MATA's list of approved site locations. If the city engineering division has not responded at the end of five days, the locations will be deemed to have been approved by the city engineering division. At the government contractor's request and upon payment of the fee, the city engineering division will immediately issue a sidewalk cut permit to the government contractor for each approved site location.

C. For any location properly rejected in compliance herewith by the city engineering division, the city engineering division will highlight the rejected locations and send a copy of the highlighted list to MATA, the government contractor, and the CAO along with the reasons why each shelter has been rejected. Within five working days from receipt of such rejection, the CAO will make a written determination of whether or not the disputed site locations are approved.

D. If the CAO is unable to act within five working days because of vacation or other absences from the office, the CAO's secretary will notify MATA, the government contractor and the engineering division of such absence, and will specify a date for a decision not more than five days after his or her return to the office. If MATA does not receive a written decision from the CAO within the time specified, the locations will be deemed to have been approved. At the government contractor's request and upon payment of the fee, the city engineering division will immediately issue a sidewalk cut permit to the government contractor for each approved site location.

E. If dissatisfied with the decision of the CAO, the government contractor shall have the right to appeal to the Memphis City Council Transportation Committee. The Memphis City Council Transportation Committee shall review the matters presented and may, at its option, adopt a recommendation of Memphis City Council action. The appeal will then be submitted to the Memphis City Council for a final and binding decision by vote of a simple majority of those present.

F. The city engineer shall follow the criteria listed below to determine the site locations which should be approved for bus shelters pursuant to this title:

1. Following receipt of MATA's approval of a site at a signalized public intersection, the city engineer shall approve a shelter located within 25 feet of the approved MATA site at a signalized intersection. Irrespective of such approval, the city engineer may require that additional traffic control devices be installed at such intersection where necessary for public safety. Such installation shall be at the expense of the government contractor; provided, however, that the city engineer may approve a distance greater than 25 feet from the originally MATA approved site, if any only if MATA also approves the greater distance.

2. Any existing MATA shelter shall be approved for retrofitting, including movement at the site, by the government contractor, although such shelter may not be moved more than 25 feet from its existing location; provided, however, that the city engineer may approve a distance greater than 25 feet from the originally MATA approved site, if and only if MATA also approves the greater distance.

3. In the event that the placement of a shelter is near a private drive or access point, the shelter shall be placed outside the required site triangle prescribed in the current Memphis and Shelby County subdivision landscape requirements.

4. If any shelter herein is or may be partially or totally constructed on private property, the shelter may be approved for construction by the city engineer if the Memphis and Shelby County Office of Construction Code Enforcement determines the shelter to be in compliance with applicable ordinances of the city and Shelby County.

(Code 1985, § 34-4; Ord. No. 4364, § 1, 10-10-1995)

Sec. 12-4-5. Street obstructions.

A. It is unlawful to obstruct the public streets, alleyways or rights-of-way with boxes, barrels, or any other thing, or any kind of obstruction whatsoever, or permit trees, shrubs or other foliage to project into the street or alleyway so as to impair the vision or passage of motorists.

B. It shall be a misdemeanor to place, or cause to be placed, any manner of buildings, erections, depositories, overhanging banners, temporary barriers marking off portions of streets, or other obstructions, with any sort of permanency for private use, benefit, or profit, upon any part or portion of the public grounds, thoroughfares, or passageways of the city, except for emergencies arising or repairs being made by city forces, without approval of the city treasurer, and issuance of a permit by the city treasurer, or his or her designee.
(Code 1967, § 36-5; Code 1985, § 34-5; Ord. No. 837, § 3, 1-12-1971; Ord. No. 4352, § 7, 8-15-1995)

Sec. 12-4-6. Obstructing street lamps.

It shall be a misdemeanor for any person to place any sign or other thing so as to obstruct the light from any street lamp. Failure to remove any such obstruction within five days after notice by the police to do so shall constitute a separate offense.
(Code 1967, § 36-5.1; Code 1985, § 34-6)

Sec. 12-4-7. Defacing or injuring streets—Painting house numerals on curb.

It is unlawful for any person to disturb, deface, injure, damage or alter the face of any street, thoroughfare or public place unless he or she shall have first obtained a permit from the city engineer as provided for by section 12-8-1; provided, further, that painting of numerals of the legally assigned house number on the curb immediately in front of a building or structure shall not be an act prohibited in this section when conforming to the following specifications: no deviation shall be allowed from use of standard block Arabic numerals, and no other embellishments, background coloring (other than white, immediately beneath numerals in an area not to exceed five inches in height and 24 inches in length), nor any script lettering shall accompany the numerals.

In the event the city should inadvertently or advertently remove or deface numerals so placed on street curbs, the city assumes no responsibility for the replacement or maintenance of such numbering and all maintenance or replacement remains the responsibility of the owner/occupant.
(Code 1967, § 36-6; Code 1985, § 34-7; Ord. No. 3164, § 1, 10-6-1981; Ord. No. 3590, § 1(1), 9-2-1986)

Sec. 12-4-8. Oil not to be spilled on asphalt pavements.

It is unlawful for any person to permit oil to drip, spill or fall upon any asphalt pavement of the city.
(Code 1967, § 36-7; Code 1985, § 34-8)

Sec. 12-4-9. Curb service.

The serving of food and drinks and the sale of other merchandise to passengers in vehicles in streets is prohibited.
(Code 1967, § 36-8; Code 1985, § 34-9)

Sec. 12-4-10. Gas and water pipes under streets and sidewalks.

A. It is unlawful to lay down any new water or gas pipes within the limits of the city less than three feet below the base of sidewalks. The city engineer shall furnish a certificate of the grade. No pipes shall be put down under the pavement or roadbed, except when necessary to connect with pipes already laid.

B. All water and gas connection pipes, from mains in the streets of the city to the connection with buildings, shall be of a type approved by the light, gas and water division.

C. Whenever a street is to be paved, the gas and water companies are required to put in house connection pipes every 25 feet to prevent the taking up of the streets after they are paved.
(Code 1967, § 36-9; Code 1985, § 34-10)

Sec. 12-4-11. Flashing lights projecting revolving beam upon or in view of streets—Removal when interfering with traffic.

The director of police services is authorized and directed to determine whether any existing flashing light interferes with vehicular traffic on any street so as to constitute a traffic hazard. When such determination is made in the affirmative, the director of police services shall notify the owner or operator thereof to remove such light within ten days thereafter. Each and every day's

continued operation of such light after the expiration of such ten-day period shall constitute a new and separate offense hereunder.
(Code 1967, § 36-11; Code 1985, § 34-11)

Sec. 12-4-12. Notice of excavation or site preparation work in utility easements.

All persons, including all public and private utilities, doing land site preparations within recorded utility easements where such site preparation involves dirt moving and grading for residential, commercial or industrial developments, shall file with the city engineer and the city light, gas and water division right-of-way department a notice of the proposed excavation or site preparation, including the exact location thereof, and a general description of the work proposed, which notice shall be given at least 20 days prior to the commencement of work. Street work done in accordance with engineering plans submitted to and reviewed by the city engineer shall be excepted from this notification requirement. Such notice shall be registered and records kept in the city engineer's office showing information concerning the exact location of such excavation or site preparation and the general purpose for which it is made.
(Code 1967, § 36-12; Code 1985, § 34-12; Ord. No. 2413, § 1, 4-27-1976; Ord. No. 3047, § 1(1), 8-12-1980)

CHAPTER 12-8. STREET CUTS

Sections:

Sec. 12-8-1.	Permit required.
Sec. 12-8-2.	Records relative to permits.
Sec. 12-8-3.	Work to be performed diligently—Expiration of permit if work not begun in 90 days.
Sec. 12-8-4.	Intersections to be kept open.
Sec. 12-8-5.	Warnings to be displayed.
Sec. 12-8-6.	Refilling of trench.
Sec. 12-8-7.	Notice when opening is repaired and ready for traffic.
Sec. 12-8-8.	Liability of permit holder for damages.
Sec. 12-8-9.	Standards of workmanship for repairing surfaces.
Sec. 12-8-10.	Period for which repairs must be maintained—Costs of permits.

Sec. 12-8-1. Permit required.

It is unlawful for any public or private utility, individual, or city or county department to cut or dig into or open any pit or trench, or to grade or excavate any pavement, gutter, sidewalk, lawn strip, neutral strip or any other portion of any city rights-of-way or easement, or for any railroad company having tracks upon, along or across any city rights-of-way or easement to repair such tracks or any of the appurtenances thereto, or for any pole company having pole lines upon the rights-of-way or easement or any company having conduits, mains or pipes under the surface of the rights-of-way or easement, to do any work in connection therewith by which any parts of any surface of a city right-of-way or easement is to be cut or disturbed, without having first obtained from the city engineer a permit to do such work. A copy of the permit shall be posted as the site of the work and be maintained until the work has been inspected and approved by the city engineer or his or her representative.
(Code 1967, § 36-38; Code 1985, § 34-51; Ord. No. 3047, § 1(3), 8-12-1980; Ord. No. 4196, § 1, 8-24-1993)

Sec. 12-8-2. Records relative to permits.

A. The city engineer shall provide in his or her office a well-bound book so designed as to form a record of applications for permits to make openings in the pavements, sidewalks, gutters, lawn strips, neutral strips and other portions of the streets and all other thoroughfares and a history by inspection of such opening during the period of construction and maintenance hereinafter provided for. This book shall show the serial number of the application, name of applicant, the street number at the point where the opening is to be made, or in the absence of a number, the distance to the nearest intersecting street shall be given, and the distance from the curb or from the property line, the kind of surface to be cut, the character of foundation, the size of opening to be made, the number of the permit, the completion date and the date that the maintenance period expires during which time the utility responsible shall maintain such street cut.

B. The caption of each page of the book shall be such that the applicant agrees, in applying for a permit, to carefully observe the provisions of this chapter and to save the city harmless from any claim for damages by reason of the cut or opening in the surface of the thoroughfare.

C. This book shall be a public record and shall be kept open for inspection by interested persons during office hours.
(Code 1967, § 36-39; Code 1985, § 34-52; Ord. No. 1061, § 1, 9-28-1971)

Sec. 12-8-3. Work to be performed diligently—Expiration of permit if work not begun in 90 days.

The holder of a permit required by this chapter shall perform the work provided for therein with due regard to the public convenience and safety and as expeditiously as possible. Such permits shall expire automatically thereunder unless the work is begun within 90 days after its issuance. Any permit not used within 90 days shall be returned for cancellation or renewal.
(Code 1967, § 36-40; Code 1985, § 34-53)

Sec. 12-8-4. Intersections to be kept open.

All intersections shall be kept open to vehicular and pedestrian traffic at all times by persons performing work authorized by permit issued under this chapter.
(Code 1967, § 36-41; Code 1985, § 34-54)

Sec. 12-8-5. Warnings to be displayed.

Barricades, lights and signs shall be provided and erected to adequately direct traffic and protect the public from the construction site. Signs shall be provided indicating who is in responsible charge of work being done pursuant to a permit issued under this chapter.
(Code 1967, § 36-42; Code 1985, § 34-55)

Sec. 12-8-6. Refilling of trench.

The holder of a permit under this chapter shall, as soon as practicable after finishing the work causing such opening, carefully refill the trench and properly fill the same according to specifications on file in the office of the city engineer.
(Code 1967, § 36-43; Code 1985, § 34-56)

Sec. 12-8-7. Notice when opening is repaired and ready for traffic.

Immediately upon completing the tamping, filling and properly paving the permitted opening, the utility who made such opening shall notify the city engineer's office in writing that the opening has been properly repaired and opened for traffic, stating the number of the permit and location of the opening.
(Code 1967, § 36-44; Code 1985, § 34-57; Ord. No. 1061, § 1, 9-28-1971)

Sec. 12-8-8. Liability of permit holder for damages.

The permit holder, while making the repairs, shall use every precaution required as to barricades, lights and devices for the safety of the public. This section shall not relieve the holder of the permit from responsibilities for accidents, should any occur. It shall be distinctly understood, and the application and permit shall state, that all permit holders making openings shall hold the city and its employees harmless from all damages which may be recovered by reason of injuries received to persons or property on account of such openings.
(Code 1967, § 36-45; Code 1985, § 34-58; Ord. No. 1061, § 1, 9-28-1971; Ord. No. 4196, § 1, 8-24-1993)

Sec. 12-8-9. Standards of workmanship for repairing surfaces.

A. All work of repairing surfaces which have been cut or opened shall be done in accordance with the specifications and standards of workmanship of the city engineer and shall be inspected by the city engineer.

B. Should any cut or trench not be refilled in accordance with this chapter, the city engineer may cause such opening to again be excavated and refilled to his or her satisfaction at the expense of the permit holder.

C. The permit holder shall be responsible for total street failure, including changes in sub-base and supporting area, resulting from a water main breakage or from a sewer line breakage that was directly caused by a previous excavation of the permit holder.
(Code 1967, § 36-46; Code 1985, § 34-59; Ord. No. 1061, § 1, 9-28-1971; Ord. No. 3590, § 1(2), 9-2-1986; Ord. No. 4196, § 1, 8-24-1993)

Sec. 12-8-10. Period for which repairs must be maintained—Costs of permits.

A. Surfaces shall be kept in repair by the permit holder responsible for one year from the date of the notice of completion by the permit holder.

B. The city engineer shall cause bills for proper cost of all permits, covering the city's administrative, inspection or other expense, to be sent to all indebted individuals at the end of each month after all work on the opening is complete and the exact number of square yards of street opening is determined. The cost of each permit shall be on a linear foot basis, and determined by the city engineer, and such costs shall be reviewed annually.

C. Should they fail to make settlement for same within 30 days, the accounts shall be placed in the hands of the city attorney for collection. The city engineer shall send a copy of each bill to the city comptroller.
(Code 1967, § 36-47; Code 1985, § 34-60; Ord. No. 1061, § 1, 9-28-1971; Ord. No. 4196, § 1, 8-24-1993)

CHAPTER 12-12. STREET CONCRETE WORK

Sections:

Sec. 12-12-1. Compliance required.
Sec. 12-12-2. Worker's bond—Required—Amount—Conditions.
Sec. 12-12-3. Worker's bond—Renewal.
Sec. 12-12-4. Worker's bond—Breach of conditions.
Sec. 12-12-5. Job permit.
Sec. 12-12-6. When work to be commenced and concluded.
Sec. 12-12-7. Inspection of work—Certificate of approval.
Sec. 12-12-8. Notices to property owners to contain warning.

Sec. 12-12-1. Compliance required.

It is unlawful for any person to engage in the business of laying, constructing or building concrete sidewalks, steps, coping or other form of concrete work in or upon the streets, alleys, highways or public places of the city, except in compliance with the terms of this chapter.
(Code 1967, § 36-20; Code 1985, § 34-31)

Sec. 12-12-2. Worker's bond—Required—Amount—Conditions.

Any person desiring to engage in the business described in section 12-12-1 shall file with the city a bond in the amount of $5,000.00, with some surety company authorized to do business in this state, as surety, conditioned as follows:

Concrete Worker's Bond

Know all men by these presents, that we, _____, as principal, and _____, a surety company authorized to do business in the State of Tennessee, as surety, acknowledge ourselves to be held and truly bound to the City of Memphis in the sum of $5,000.00, for the payment of which sum well and truly to be made, we bind ourselves, our representatives, successors and assigns, firmly by these presents.

But the condition of the above obligation is such that:

Whereas the above bounden principal is desirous of engaging in the business of doing concrete work in or upon the streets, alleys, public places or ways in the City of Memphis for a period of one year from the date hereof; now, if the said principal shall during the term of one year faithfully observe the following regulations of the City of Memphis, to wit:

Shall observe the lines, grades and widths given by the City Engineer, shall not proceed to do any concrete work in the streets, alleys and places in the City of Memphis without specific instruction from the City Engineer, or his authorized subordinates limited to their particular duties; shall do no work until a permit shall have been obtained therefor from the City Engineer, shall cover no stop boxes, valves or meter boxes belonging to any firm, company or individual; shall surround no poles, posts or other objects rightfully occupying the sidewalks unless the same are in their regularly appointed locations adjacent to the curb or edge stone; shall mix or deposit no material loose on the surface of any pavement; shall clear away all rubbish and all forms and materials from the location of the work within 24 hours after the proper completion thereof; and shall do all work so that the same shall have the thickness, proportion, qualities, material and texture called for by the specifications for such work, which may be in force in the City of Memphis; and shall in all other respects observe the terms and regulations of the ordinances of the City of Memphis regulating the work of doing any concrete work in or upon any street, alley, public place or way in the City of Memphis and shall, within ten days after written notice by the City Engineer, remedy any defects that may appear within one year of completion of work, then this obligation shall be void; otherwise to remain in full force and effect.

Witness the hands and seals of the parties hereto, this the ____ day of _____, 20____.

_____

Surety
(Code 1967, § 36-21; Code 1985, § 34-32; Ord. No. 3047, § 1(2), 8-12-1980)

Sec. 12-12-3. Worker's bond—Renewal.

The bond required by this chapter shall be renewed annually. This renewal shall be filed within three days of the expiration of any bond on file with the city engineer.
(Code 1967, § 36-22; Code 1985, § 34-33)

Sec. 12-12-4. Worker's bond—Breach of conditions.

Upon the failure to abide by the terms and conditions of the bond required by section 12-12-2, the person engaged in such business shall pay to the city such sum as is necessary to repay any injuries done by the nonobservance of the bond and shall immediately place the work in such condition as shall be directed and approved by the city engineer. The city attorney shall, in case of a failure to comply with this section, at once institute proceedings against the principal and surety upon the bond.
(Code 1967, § 36-23; Code 1985, § 34-34)

Sec. 12-12-5. Job permit.

A. Any person desiring to do concrete work governed by this chapter shall, after having filed the required plans and bond, apply in such instance in which it is desired to do work to the city engineer for a permit to do so. This permit shall be issued, provided the bond of the person has not been impaired by previous breaches of the conditions therein contained, and provided, further, that, no sidewalk permits shall be issued for streets or parts thereof until the area proposed to be covered shall have been graded to the true and lawful grade established for such street. The permit shall be posted in plain sight at the job location and shall be maintained until the work is completed, inspected and approved by the city engineer or his or her representative.

B. Whenever any person engaged in concrete work shall have, by breaches of the conditions of the bond required by this chapter, incurred an obligation to the city, to the extent that the bond has been impaired to the sum of $100.00, such person in default shall not be granted any further permit to do concrete work until a satisfactory bond has been filed conditioned as provided in section 12-12-2 for the full penalty therein prescribed.
(Code 1967, § 36-24; Code 1985, § 34-35)

Sec. 12-12-6. When work to be commenced and concluded.

When a permit is granted under this chapter, the work therein specified shall be commenced within three days from the date of the permit, and carried to conclusion in a reasonable time.
(Code 1967, § 36-25; Code 1985, § 34-36)

Sec. 12-12-7. Inspection of work—Certificate of approval.

A. When concrete work governed by this chapter has been completed, it shall be inspected by the city engineer or his or her representative. If such work is found to meet the requirements of all city ordinances regulating such work, the city engineer, on application, shall issue his or her certificate that the work has been inspected and approved as in accordance with provisions of this Code and the terms of the required bond.

B. A property owner, receiving notice requiring concrete work to be done in or about any public place, shall not be held to have complied with such notice until the certificate provided for in this section has been issued to such owner.
(Code 1967, § 36-26; Code 1985, § 34-37)

Sec. 12-12-8. Notices to property owners to contain warning.

Every notice to property owners with reference to concrete work in and about public places required to be done by such property owners, shall contain a warning to the effect that concrete workers are required to be under bond to the city, to observe faithfully the provisions of this chapter, and that, having faithfully observed all city regulations, they are entitled to receive from the city engineer a certificate to that effect.
(Code 1967, § 36-27; Code 1985, § 34-38)

CHAPTER 12-16. STREET THOROUGHFARE DESIGNATIONS AND NAMES

Sections:

Sec. 12-16-1. Designating alleys.
Sec. 12-16-2. Method of naming and renaming.
Sec. 12-16-3. North and South prefixes.
Sec. 12-16-4. East and West prefixes.
Sec. 12-16-5. Thoroughfares on same line to bear same name—Exception.
Sec. 12-16-6. Official map showing names.

Sec. 12-16-7. Reports to post office of changes in names.

Sec. 12-16-1. Designating alleys.

Thoroughfares less than 30 feet in width may be designated as alleys.
(Code 1967, § 36-60; Code 1985, § 34-76)

Sec. 12-16-2. Method of naming and renaming.

When the city shall acquire any street or other thoroughfare by purchase or dedication, the city engineer shall file with the director of public works his or her recommendation of a suitable name of such street or thoroughfare. It shall be the duty of the city council to select a suitable name for such new street. Furthermore, the Memphis City Council may change the official name adopted for City of Memphis streets and other thoroughfares, including streets and other thoroughfares within residential developments, by ordinance duly passed. Any conflicts with the Memphis and Shelby County Unified Development Code shall be made in favor of this section.
(Code 1967, § 36-62; Code 1985, § 34-77; Ord. No. 3047, § 1(4), 8-12-1980; Ord. No. 5459, § 10, 7-17-2012; Ord. No. 5759, § 2, 9-1-2020)

Sec. 12-16-3. North and South prefixes.

Thoroughfares abutting or intersecting Madison Avenue shall carry the prefix "South" for the thoroughfare, or part thereof, lying south of Madison Avenue, and the prefix "North" for the thoroughfare, or part thereof, lying north of Madison Avenue.
(Code 1967, § 36-63; Code 1985, § 34-78)

Sec. 12-16-4. East and West prefixes.

Thoroughfares abutting or intersecting Florida Street or Meridian A, as defined in section 12-20-2, shall carry the prefix "East," if lying east of this meridian, and the prefix "West," if lying west of this meridian.
(Code 1967, § 36-64; Code 1985, § 34-79)

Sec. 12-16-5. Thoroughfares on same line to bear same name—Exception.

Thoroughfares lying on approximately the same line shall have the same name unless the intervening space between the separate parts shall be greater than 2,000 feet.
(Code 1967, § 36-65; Code 1985, § 34-80)

Sec. 12-16-6. Official map showing names.

A map of the city showing streets, alleys, avenues, boulevards, lanes, places, parkways, and other thoroughfares, and the official names assigned to each, prepared under the supervision of the city engineer, authenticated by him or her, shall be published, from time to time. All streets, avenues, alleys, lanes, boulevards, parkways, places, and other thoroughfares in the city shall be known by the name allocated to each on this official map, and such later additions and changes as may be provided by the Memphis City Council Any conflicts with the Memphis and Shelby County Unified Development Code shall be made in favor of this section.
(Code 1967, § 36-66; Code 1985, § 34-81; Ord. No. 3590, § 1(3), 9-2-1986; Ord. No. 5459, § 11, 7-17-2012; Ord. No. 5759, § 3, 9-1-2020)

Sec. 12-16-7. Reports to post office of changes in names.

It shall be the duty of the city engineer to report to the postmaster of the city any change in the names of streets or other public thoroughfares which shall from time to time occur.
(Code 1967, § 36-67; Code 1985, § 34-82)

CHAPTER 12-20. BUILDING AND HOUSE NUMBERS

Sections:

Sec. 12-20-1. Required.
Sec. 12-20-2. Meridians described.
Sec. 12-20-3. Method of numbering on north and south streets.
Sec. 12-20-4. Method of numbering on east and west streets.
Sec. 12-20-5. Method of numbering two entrances.
Sec. 12-20-6. Method of numbering on streets not at right angles with meridians.
Sec. 12-20-7. Application for number—Issuance of certificate.
Sec. 12-20-8. Attaching, stenciling or painting number on building.
Sec. 12-20-9. Display of incorrect number.

Sec. 12-20-1. Required.

Every main entrance to every building and every lot fronting upon any street within the limits of the city shall bear, and be known by, a certain street number to be fixed by the light, gas and water division.
(Code 1967, § 36-78; Code 1985, § 34-96)

Sec. 12-20-2. Meridians described.

The street number required by this chapter shall be ascertained and fixed with reference to the distance and direction of such main entrance or lot, from two certain meridian lines, which lines are now described and established as follows:

A. Meridian A for east and west streets: beginning at the intersection of the south boundary line of the city and the center of Florida Street, running thence north along the center of Florida Street and with the center line of such street projected to an intersection with the west line of Tennessee Street; thence northwardly along the west line of such street to an intersection with the north line of Beale Street; thence northwardly parallel to that part of Second Street north of Beale Street to the city limits.

B. Meridian B for north and south streets: beginning at a point where Meridian A would intersect the center line of Madison Avenue if same were extended westwardly, thence east along the center of Madison Avenue, and the projection eastwardly of such center line to the center line of the Memphis and State Line Railway; thence offsetting to the south along the center line of such railway 1,140 feet; thence eastwardly to the intersection of Poplar Avenue and Lafayette Street; thence eastwardly to the intersection of the center lines of Walnut Grove Road and Highland Avenue; thence east along the center line of such road to the east city limits.

(Code 1967, § 36-79; Code 1985, § 34-97)

Sec. 12-20-3. Method of numbering on north and south streets.

Where the main entrance or lot is situated on a street running in a north and south direction, the number shall be fixed with reference to the distance north or south from Meridian B, each street number taking up a frontage of 20 feet. The odd numbers shall be on the west side of the street, and the even numbers on the east side. For example: a main entrance on Second Street 1,000 feet north of Madison Avenue would be No. 100 North Second Street if situated on the east side of the street, and No. 99 North Second Street if situated on the west side of the street.

(Code 1967, § 36-80; Code 1985, § 34-98)

Sec. 12-20-4. Method of numbering on east and west streets.

Where the main entrance or lot is situated on a street running east and west, the number shall be fixed with reference to the distance from Meridian A, each street number taking up a frontage of 20 feet, the odd numbers being on the south side and the even numbers on the north side of the street. For example: a main entrance or lot on Union Avenue 7,000 feet east of Meridian A would be No. 700 Union Avenue if situated on the north side of the street, and No. 699 Union Avenue if situated on the south side of the street.

(Code 1967, § 36-81; Code 1985, § 34-99)

Sec. 12-20-5. Method of numbering two entrances.

Where there is more than one main entrance within a 20-foot frontage on any street in the city, the first main entrance shall bear the proper number for this frontage. The other main entrance in such 20-foot frontage shall bear the same number followed by the capital letter A, B, etc. For example: 100, 100A, 100B.

(Code 1967, § 36-82; Code 1985, § 34-100)

Sec. 12-20-6. Method of numbering on streets not at right angles with meridians.

Where streets do not run at right angles with the meridians, the frontage of each street number shall be increased so as to make the number on that street correspond with the street numbers on other streets in the same block, which do run at right angles to the meridian.

(Code 1967, § 36-83; Code 1985, § 34-101)

Sec. 12-20-7. Application for number—Issuance of certificate.

The owner of any house or building fronting on any street shall apply to the light, gas and water division for his or her street number. The light, gas and water division shall issue a certificate designating the number to be used on any house or building, upon the payment of a fee of $5.00 for each certificate. The fee for a duplicate certificate shall be $2.50. Fees shall be turned over to the city treasurer for the use of the city. This section does not apply to numbers for buildings in the rear.

(Code 1967, § 36-84; Code 1985, § 34-102; Ord. No. 3024, § 1, 6-9-1980)

Sec. 12-20-8. Attaching, stenciling or painting number on building.

Every person owning or occupying any house or building fronting on any street in the city, and not bearing the proper street number for each main entrance, shall, within ten days after the beginning of such occupancy, have the proper number attached to, stenciled or painted on the front part of such house or building, over, on, or by each main entrance in such manner that the number shall be plainly visible from the street. Such street number shall conform with this chapter and be the number designated by the light, gas and water division. If, because of the setback of the house or building, or for any other reason, the number cannot readily be seen from the street, then the occupant shall, in addition to the provisions above, position the numbering so that it is clearly visible from the street. This section shall be enforced by the office of planning and development.
(Code 1967, § 36-85; Code 1985, § 34-103; Ord. No. 2286, § 1, 7-29-1975)

Sec. 12-20-9. Display of incorrect number.

It is unlawful for any person to display any false or incorrect house or lot number knowingly and willfully or with the intention to deceive another person.
(Code 1967, § 36-87; Code 1985, § 34-104)

CHAPTER 12-24. SIDEWALKS GENERALLY

Sections:

Sec. 12-24-1. Definitions.
Sec. 12-24-2. Obstructions generally.
Sec. 12-24-3. General duty of property owner to build, repair and clean.
Sec. 12-24-4. Work on sidewalks by tenants.
Sec. 12-24-5. To be kept free of mud, weeds and grass.
Sec. 12-24-6. To be kept free of ice and snow—Exceptions.
Sec. 12-24-7. Time and method of sweeping.
Sec. 12-24-8. Wood and brick sidewalks to be kept in repair.
Sec. 12-24-9. Slippery walks to be made safe.
Sec. 12-24-10. Use for storage, display or sale of merchandise prohibited.
Sec. 12-24-11. Drainage.
Sec. 12-24-12. Foliage and tree limbs projecting over sidewalks.
Sec. 12-24-13. Metal drains across sidewalks.
Sec. 12-24-14. Openings to be covered.
Sec. 12-24-15. Obstructing gutters adjoining sidewalks.
Sec. 12-24-16. Letters and numbers in sidewalks.
Sec. 12-24-17. Gates and doors not to swing over walks—Exception.
Sec. 12-24-18. Water not to drain on sidewalks.
Sec. 12-24-19. Location of meter boxes and cut-off valves.
Sec. 12-24-20. Base of poles set in sidewalks to be concreted.
Sec. 12-24-21. When sidewalks to be relaid—Concrete to be used.
Sec. 12-24-22. Compliance with chapter 12-12.

Sec. 12-24-1. Definitions.

As used in this chapter and chapter 12-28, the following terms shall have the indicated meaning:

Street means the entire width between right-of-way lines plus any pedestrian/sidewalk easement of every way, publicly maintained when any part thereof is open to the use of the public for the purpose of vehicular and/or pedestrian travel.

Walkway means that portion of a street between the curblines, or the lateral lines of a roadway, and the adjacent lines or pedestrian/sidewalk easement lines, intended for use of pedestrians.
(Code 1967, § 36-96; Code 1985, § 34-116; Ord. No. 894, § 1, 4-6-1971; Ord. No. 4196, § 1, 8-24-1993)

Sec. 12-24-2. Obstructions generally.

It shall be a misdemeanor to obstruct any sidewalk or walkway with boxes, barrels, or other things interfering with the free passageway of the public or which may render such sidewalk or walkway unsafe for public travel. Bicycle parking is permitted on sidewalks, pursuant to section 4.5.3(C) of the Memphis and Shelby County Unified Development Code.
(Code 1967, § 36-104; Code 1985, § 34-117; Ord. No. 894, § 1, 4-6-1971; Ord. No. 5459, § 12, 7-17-2012)

Sec. 12-24-3. General duty of property owner to build, repair and clean.

A. The owner or every lot and parcel of land abutting on any street, avenue, parkway, boulevard or other public street of the city, for which an established grade has been lawfully fixed and curbs and gutters are in place, is required to provide and maintain adjacent to his or her property a sidewalk in accordance with the specifications set out in this chapter and chapter 12-28 when so ordered by the city engineer or his or her authorized representative.

B. It shall be the duty of every owner of property, whether vacant or occupied, within the limits of the city abutting on or adjacent to, any street, avenue, parkway, or other public street of the city, to keep clean and open for public passage all public sidewalks or walkways abutting on or adjacent to such property, and to keep such sidewalks or walkways in good repair and condition.

C. On streets, avenues, parkways or other public streets, for which an established grade has not been lawfully fixed, and curbs and gutters are not in place, the owners of abutting and adjacent property to such streets are required to keep the space provided for walkway or passageway for pedestrian traffic adjacent to their property in a safe condition, free from all obstructions, excavations, high grass, weeds, trash, debris, or other substances or material which may interfere with the free use of such passageway by the public. The abutting or adjacent owner may be required to lay a gravel, asphalt or cinder walkway of an approximate minimum width of three feet abutting his or her property.
(Code 1967, § 36-105; Code 1985, § 34-118; Ord. No. 894, § 1, 4-6-1971; Ord. No. 1635, § 3, 3-13-1973; Ord. No. 3590, § 1(5), 9-2-1986)

Sec. 12-24-4. Work on sidewalks by tenants.

The duties and obligations imposed by this chapter and chapter 12-28 on the owners of property abutting on any public street to build, repair, and keep clean and open for public passage, public sidewalks and walkways, shall also devolve upon the tenant or other person occupying the premises adjacent to such sidewalks. Notice to such tenant or occupant in the manner hereinbefore specified shall be sufficient to compel him or her to do the things specified in such notice; provided, that whenever any tenant or occupant shall be required under the provisions of this chapter and chapter 12-28 to build, repair, and keep clean and open for public passage any sidewalk or walkway abutting his or her premises, such tenant or occupant shall have a lien on such property occupied for reimbursement and reasonable attorney's fees, if the primary obligation to do such was on the landlord. This lien may be enforced by attachment proceedings in any court of competent jurisdiction and the tenant or occupant may, when so entitled under the general principles of law of set-off, use such claims against his or her liability for rent, all in accordance with the provisions of section 1 of chapter 163 of the Acts of the General Assembly of the State of Tennessee for 1889.
(Code 1967, § 36-106; Code 1985, § 34-119; Ord. No. 894, § 1, 4-6-1971)

Sec. 12-24-5. To be kept free of mud, weeds and grass.

Every owner, tenant, lessee or occupant of any building or lot, whether vacant or occupied, within the city, shall keep, or cause to be kept, the sidewalks or walkways adjacent to or abutting such property free from mud, weeds, grass, noxious growth, obstructions, encumbrances, trash, debris and foreign substances of every kind.
(Code 1967, § 36-107; Code 1985, § 34-120; Ord. No. 894, § 1, 4-6-1971)

Sec. 12-24-6. To be kept free of ice and snow—Exceptions.

All sidewalks shall be kept free from ice or snow; provided, however, that tightly adhering ice may be sprinkled with sawdust, ashes or sand, so as to make the uses of the sidewalk by pedestrians safe.
(Code 1967, § 36-108; Code 1985, § 34-121; Ord. No. 894, § 1, 4-6-1971)

Sec. 12-24-7. Time and method of sweeping.

Sidewalks adjacent to businesses premises shall not be swept or cleaned, except in cases of necessity, between the hours of 7:30 a.m. and 7:30 p.m. Sidewalks shall be carefully cleaned or swept so as not to unnecessarily raise or spread dust, dried sputum or other substances which may carry the germs of infectious or contagious diseases.
(Code 1967, § 36-109; Code 1985, § 34-122; Ord. No. 894, § 1, 4-6-1971)

Sec. 12-24-8. Wood and brick sidewalks to be kept in repair.

It shall be a misdemeanor to permit any wood or brick sidewalks now laid to become out of repair, or in such condition as to become dangerous or annoying to pedestrians or those lawfully using such sidewalks.
(Code 1967, § 36-110; Code 1985, § 34-123; Ord. No. 894, § 1, 4-6-1971)

Sec. 12-24-9. Slippery walks to be made safe.

It is unlawful for any person to permit to remain on or in any sidewalk adjacent to or adjoining his or her property, dwelling house, store building or other property, any tile or other material which may, through use, become slippery or unsafe for public travel. It shall be the duty of the city engineer and his or her duly authorized representatives to order existing sidewalks which have become slippery or unsafe to be removed or made safe, and sidewalks according to the specifications set out in this chapter and chapter 12-28 to be laid. The notice and remedies of the city for the failure of any such person to obey such lawful order shall be the same as prescribed in the preceding sections of this chapter.
(Code 1967, § 36-111; Code 1985, § 34-124; Ord. No. 894, § 1, 4-6-1971; Ord. No. 3590, § 1(6), 9-2-1986)

Sec. 12-24-10. Use for storage, display or sale of merchandise prohibited.

A. It shall be a misdemeanor for any person, or a public or private agency, to use any part of any sidewalk between the private property line and curb or within a pedestrian/sidewalk easement for the storage of goods, merchandise or other material or for the purpose of displaying goods or articles for sale or barter, or for the parking of vehicles, or to place on the sidewalk any sign or device for advertising purposes.

B. It is unlawful for any person, or public or private agency, to rent, lease or let to another any portion of the sidewalks or walkways of the city for the purpose of selling fruits, vegetables, magazines, or any class of merchandise thereon.
(Code 1967, § 36-112; Code 1985, § 34-125; Ord. No. 894, § 1, 4-6-1971; Ord. No. 4196, § 1, 8-24-1993)

Sec. 12-24-11. Drainage.

It shall be a misdemeanor to permit any sidewalk to remain which does not properly drain storm water, or which permits water to lie upon the surface thereof.
(Code 1967, § 36-113; Code 1985, § 34-126; Ord. No. 894, § 1, 4-6-1971)

Sec. 12-24-12. Foliage and tree limbs projecting over sidewalks.

It shall be a misdemeanor to permit shrubbery, hedges, or foliage of any kind to project over sidewalks or walkways so as to interfere with the free use of such sidewalks or walkways by pedestrians. All trees upon or near sidewalks or walkways shall be so trimmed that the lower branches thereof are not less than eight feet above the sidewalks.
(Code 1967, § 36-114; Code 1985, § 34-127; Ord. No. 894, § 1, 4-6-1971)

Sec. 12-24-13. Metal drains across sidewalks.

It shall be a misdemeanor to permit any iron or metal drain to remain across a sidewalk, unless the top of such drain shall be roughened in an approved manner, and be level or flush with the surface of the walk and securely bolted, riveted or welded to the body of such drain.
(Code 1967, § 36-115; Code 1985, § 34-128; Ord. No. 894, § 1, 4-6-1971)

Sec. 12-24-14. Openings to be covered.

A. It shall be a misdemeanor to leave open or unguarded any cellar or vault door or grating on any sidewalk, or to permit any unguarded well, cistern, coal hole or other opening to remain open and uncovered in any sidewalk.

B. Every opening in the paved sidewalk leading into an area or vault beneath the surface of such sidewalk, or into a cellar or basement, shall be fitted with an iron grating or roughened metal cover, flush with the surface of the walk and securely bolted, riveted or welded so as to remain in place.
(Code 1967, § 36-116; Code 1985, § 34-129; Ord. No. 894, § 1, 4-6-1971)

Sec. 12-24-15. Obstructing gutters adjoining sidewalks.

It shall be a misdemeanor to obstruct any gutter with dirt, gravel, sand or other substance, bridge or thing which will prevent the free and unobstructed flow of water in such gutter.
(Code 1967, § 36-117; Code 1985, § 34-130; Ord. No. 894, § 1, 4-6-1971)

Sec. 12-24-16. Letters and numbers in sidewalks.

It shall be a misdemeanor for any person to erect on, in or about any sidewalk, or to permit on, in or about any sidewalk adjacent to his or her premises, any character, device, letters or numbers of any material so constructed as to interfere with the free and safe use of any sidewalk. It shall be a misdemeanor for any person maintaining in

any sidewalk any such character, device, letter or number to permit same to become slippery or otherwise dangerous to those using the sidewalk.
(Code 1967, § 36-118; Code 1985, § 34-131; Ord. No. 894, § 1, 4-6-1971)

Sec. 12-24-17. Gates and doors not to swing over walks—Exception.

It shall be a misdemeanor to permit any gate or door to open outwardly upon or across a sidewalk or driveway except where required by statute.
(Code 1967, § 36-119; Code 1985, § 34-132; Ord. No. 894, § 1, 4-6-1971)

Sec. 12-24-18. Water not to drain on sidewalks.

No person, whether owner, lessee, tenant or occupant, of an house or building, shall permit any water or other liquid to run or drip from or out of his or her building upon or across any sidewalk. If such water or other liquid is carried to the street, it shall be confined in pipe, tile or other enclosed passageway, which shall be constructed of suitable strength and material underneath the surface of such sidewalk, and shall at all times be kept in repair and adequate to handle the waters or other liquids flowing into such street. No water, liquid or ice shall be allowed to gather, remain or drip upon the upper surface of such sidewalk or passageway. No storm water shall be allowed to fall through downpipes from any building upon the sidewalks or street, or across any sidewalk, but shall be conducted by downpipe or gutter under the sidewalk to the street gutter; provided, however, that it shall be lawful for such storm waters, when conducted to alleys, to be conducted on the surface of such alleys.
(Code 1967, § 36-120; Code 1985, § 34-133; Ord. No. 894, § 1, 4-6-1971)

Sec. 12-24-19. Location of meter boxes and cut-off valves.

Whenever possible, meter boxes, cut-off valves and like instrumentalities shall be placed in the grass plot between the sidewalk and curb, but where no grass plot exists, such meter boxes, cut-off valves and other like instrumentalities shall be placed adjacent to the curb.
(Code 1967, § 36-121; Code 1985, § 34-134; Ord. No. 894, § 1, 4-6-1971)

Sec. 12-24-20. Base of poles set in sidewalks to be concreted.

It shall be a misdemeanor to set or install in any concrete sidewalk any pole or post without properly concreting around the base of same within 30 days after installation. The area immediately around such pole or post shall be neatly isolated from the adjacent sidewalk by the placement of minimum one-half inch thick, full-depth expansion joint material forming a square or rectangular isolated sidewalk slab.
(Code 1967, § 36-122; Code 1985, § 34-135; Ord. No. 894, § 1, 4-6-1971)

Sec. 12-24-21. When sidewalks to be relaid—Concrete to be used.

Whenever it becomes necessary to relay sidewalks or when any sidewalks are lawfully ordered to be made, and are laid or repaired on all streets, avenues, parkways or other public streets of the city, on which stone, concrete or granite curbs have been set, or on streets which have been brought to the established grade, such sidewalks shall be laid or repaired with concrete in accordance with lines and grades furnished and established by the city engineer, and in strict accordance with the specifications set out in this chapter and chapter 12-28, except as specifically approved by the city engineer.
(Code 1967, § 36-123; Code 1985, § 34-136; Ord. No. 894, § 1, 4-6-1971)

Sec. 12-24-22. Compliance with chapter 12-12.

It shall be a misdemeanor to do or permit work to be done on any granolith, stone or cement sidewalk unless the person doing the work shall comply with the provisions of chapter 12-12, and shall have on file, in the office of the city engineer, the concrete worker's bond required by section 12-12-2.
(Code 1967, § 36-124; Code 1985, § 34-137; Ord. No. 894, § 1, 4-6-1971)

CHAPTER 12-28. SIDEWALK CONSTRUCTION AND MAINTENANCE

Sections:

Sec. 12-28-1. Work permit.
Sec. 12-28-2. Sidewalk construction in developing areas.
Sec. 12-28-3. Sidewalks required on existing improved streets—When construction to begin.
Sec. 12-28-4. Sidewalk inspector.

Sec. 12-28-5. Notice to property owner to build, repair or clean.
Sec. 12-28-6. Failure of property owner to comply with notice.
Sec. 12-28-7. City engineer to furnish grades and lines.
Sec. 12-28-8. Driveway openings.
Sec. 12-28-9. City engineer to accept and inspect work.
Sec. 12-28-10. Width, location of walks.
Sec. 12-28-11. Thickness and material to be used in concrete sidewalks.
Sec. 12-28-12. Tennessee One Call to be notified of laying sidewalks.
Sec. 12-28-13. Cement—Materials, preparation, placement, treatment and curing.
Sec. 12-28-14. Cuts and repairs.
Sec. 12-28-15. Sidewalks surrounding buildings.
Sec. 12-28-16. Contractor's responsibilities.

Sec. 12-28-1. Work permit.

A. It shall be a misdemeanor for any person to lay, construct, build or repair a sidewalk, hire others to work upon, or knowingly permit work to be done on any part of a sidewalk or street from the curb to the property line, without first obtaining a permit from the city engineer to do such work. The fee for such permit shall be $0.24 per square foot of sidewalk and driveway abutting property used for residential purposes, and $0.48 per square foot of sidewalk and driveway abutting property used for commercial or industrial purposes, provided a minimum fee shall be $20.00 for each permit. On any sidewalk which the city has to lay and charge to the property owner, the cost of the proper work permit shall be added to the bill of costs and recovered in the same manner as are costs for such laying. All sidewalk work shall be done under the conditions and pursuant to the directions contained in the permit. The work permit shall be conspicuously posted at the work site and maintained until such work is completed and inspected by the city engineer or his or her representative.

B. The permit shall state the place where the work is to be done, the nature of the work, and the material with which such work is to be constructed.

C. The work embraced in this section shall not be held to include the removal of grass, weeds, trash, debris or other obstructions which can be done without damage to the surface of such sidewalk, or which can be done without endangering the safety of persons lawfully using such sidewalk.

(Code 1967, § 36-125; Code 1985, § 34-138; Ord. No. 894, § 1, 4-6-1971; Ord. No. 3024, § 1, 6-9-1980; Ord. No. 3747, § 1, 5-3-1988; Ord. No. 5110, § 1, 2005)

Sec. 12-28-2. Sidewalk construction in developing areas.

A. Sidewalks shall be constructed along public street frontages in accordance with Chapter 4.3 of the Memphis and Shelby County Unified Development Code.

B. It shall be the duty and responsibility of the contractor/builder to whom the building permit for the lot is issued to obtain a permit from the city engineer and to install the required sidewalk across the street frontage(s) of the lot. The building official shall advise the city engineer in a timely manner of the issuance of all such building permits. The sidewalk shall be installed by the contractor/builder, and inspected by the city engineer, prior to the final inspection of the structure by the building official and prior to any use or occupancy of the structure on the lot.

C. It shall be a misdemeanor for the contractor/builder to permit any use to commence on any lot, or occupancy to commence in any structure on any lot within a new development, prior to the installation, inspection and acceptance of the sidewalks required by this chapter and chapter 12-24.

D. The lot owner shall assume the responsibility of installation, maintenance and repair of the required sidewalks along the lot frontage(s) upon occupying the structure on the lot.

E. The city engineer reserves the right to include the installation of required sidewalks within a standard development contract for nonresidential developments, street dedication contracts, and streets abutted by reverse frontage lots and/or unbuildable common open space lots.

(Code 1967, § 36-97; Code 1985, § 34-151; Ord. No. 894, § 1, 4-6-1971; Ord. No. 969, § 1, 6-1-1971; Ord. No. 1635, § 1, 3-13-1973; Ord. No. 3590, § 1(7), 9-2-1986; Ord. No. 4196, § 1, 8-24-1993; Ord. No. 5459, § 13, 7-17-2012)

Sec. 12-28-3. Sidewalks required on existing improved streets—When construction to begin.

A. On existing streets improved prior to the effective date of this section, sidewalks shall be required, provided that at least 25 percent of the sidewalks already exist. These sidewalks shall be constructed immediately upon receipt of notice from the city engineer. For topographic reasons, the city engineer may waive this requirement

on all or any portion of any street, parkway, boulevard, avenue or other public street of the city for which an established grade has been lawfully fixed. Exceptions to this section may be granted pursuant to section 4.3.4 of the Memphis and Shelby County Unified Development Code.

B. A "street" is defined as that portion composing one city block, both sides of the street, unless, in the opinion of the city engineer, a natural neighborhood dividing line would cause such street to be either shorter or longer than one block.
(Code 1967, § 36-97.1; Code 1985, § 34-152; Ord. No. 3047, § 1(b), 8-12-1980; Ord. No. 3590, § 1(8), 9-2-1986; Ord. No. 5459, § 14, 7-17-2012)

Sec. 12-28-4. Sidewalk inspector.

The city engineer shall employ an inspector to be known as the sidewalk inspector. It shall be his or her duty to enforce the provisions of this chapter and chapter 12-24, under the direction of the city engineer.
(Code 1967, § 36-98; Code 1985, § 34-155; Ord. No. 894, § 1, 4-6-1971; Ord. No. 3590, § 1(11), 9-2-1986; Ord. No. 4196, § 1, 8-24-1993)

Sec. 12-28-5. Notice to property owner to build, repair or clean.

A. Whenever it is made to appear to the city engineer, or his or her lawfully authorized representative, that there has been a failure on the part of the owner of property to build, repair, or keep clean and open for public passage any sidewalk or walkway abutting on or adjacent to such property, the city engineer, or his or her duly authorized deputy, shall give notice to such owner, or his or her duly authorized agent, of the failure of such owner to build, repair, or keep clean and open for public passage such sidewalk or walkway.

B. Such notice may be given either by personal service on the owner or his or her duly authorized agent, or by certified letter addressed to the last known place of residence of such owner, or his or her duly authorized agent, and proof of the mailing of such registered letter by the city engineer, or his or her duly authorized deputy, shall be a complete compliance with this provision.

C. In the cases of nonresident or unknown owners, a publication of the notice by one insertion in a daily newspaper published in the city shall be a complete compliance with the provisions of this section as to notice.

D. The notice in each case shall specify what is required of the owner with respect to the sidewalk. The notice shall advise the owner that unless the requirement is carried out within 30 days of the date of service, mailing or publication of the notice, the necessary work will be done by the city at the expense of the owner.
(Code 1967, § 36-99; Code 1985, § 34-156; Ord. No. 894, § 1, 4-6-1971; Ord. No. 3590, § 1(12), 9-2-1986)

Charter reference—Authority to compel property owners to build, repair and clean sidewalks, §§ 571, 572.

Sec. 12-28-6. Failure of property owner to comply with notice.

A. Failure to comply with the provisions of this chapter and chapter 12-24 shall be a misdemeanor subject to punishment as provided in section 1-24-1.

B. Further, upon the failure, refusal or neglect of any person notified to comply with the terms and orders of a notice given pursuant to section 12-28-5, the city engineer is authorized to build, repair, and keep clean and open for public passage any sidewalk or walkway abutting on or adjacent to the property of the person owning or controlling it. The cost of such work shall be a lien on such property, and may be enforced by suit in any court of competent jurisdiction.

C. As an additional and cumulative remedy, the city engineer may certify to the city treasurer the cost of such work. It shall be the duty of the city treasurer to place the amount so certified on the bill for city taxes assessed against the property abutting on or adjacent to the sidewalk or walkway laid. It shall be the duty of the city treasurer to collect, as a special tax, the amount so certified, which is declared to be a special improvement tax on the property abutting on, or adjacent to, such sidewalks or walkways. This special tax may be collected in the same manner as other general taxes are collected by the city.
(Code 1967, § 36-100; Code 1985, § 34-157; Ord. No. 894, § 1, 4-6-1971; Ord. No. 969, § 1, 6-1-1971; Ord. No. 4196, § 1, 8-24-1993)

Sec. 12-28-7. City engineer to furnish grades and lines.

The city engineer shall furnish, to every person ordered or required to construct, pave or repair sidewalks, the proper grades and lines for such sidewalks, and such work shall be done in accord with the lines and grades so furnished.
(Code 1967, § 36-101; Code 1985, § 34-158; Ord. No. 894, § 1, 4-6-1971; Ord. No. 3590, § 1(13), 9-2-1986)

Sec. 12-28-8. Driveway openings.

A. All driveway openings constructed for use by vehicular traffic to single-family and duplex residential land shall be six inches thick and composed of Portland cement concrete, proportioned, mixed and laid as specified in this chapter and chapter 12-24 and in accordance with the construction standards of the city.

B. All driveway openings constructed for use by vehicular traffic to multifamily residential, commercial and/or industrial land use shall be eight inches thick and composed of Portland cement concrete, proportioned, mixed and laid as specified in this chapter and chapter 12-24 and in accordance with the construction standards of the city.

C. All openings in the curb for driveways shall be approved by the city engineer prior to actual construction.

D. Driveway openings providing access to streets where curbs and gutters are not in place shall be constructed of asphalt pavement in accordance with the design and material standards established by the city engineer, and shall include a drainage pipe of adequate size as required to accommodate roadside drainage. Any person desiring to construct such a driveway opening shall obtain a permit from the city engineer prior to actual construction.

E. The design, number and location of all driveway openings providing access to a lot and/or land use are subject to the approval of the city engineer.

F. If the land use and/or the on-site improvements on a lot are modified, altered or changed, the design, number and location of all driveway openings providing access to the lot shall be submitted to the city engineer for review and approval.
(Code 1967, § 36-102; Code 1985, § 34-159; Ord. No. 1635, § 2, 3-13-1973; Ord. No. 3590, § 1(13A), 9-2-1986; Ord. No. 4196, § 1, 8-24-1993)

Sec. 12-28-9. City engineer to accept and inspect work.

The laying of all sidewalks and driveway openings and the material and component parts thereof shall be under the inspection and subject to the acceptance of the city engineer or his or her authorized deputy.
(Code 1967, § 36-103; Code 1985, § 34-160; Ord. No. 894, § 1, 4-6-1971; Ord. No. 3590, § 1(14), 9-2-1986; Ord. No. 4196, § 1, 8-24-1993)

Sec. 12-28-10. Width, location of walks.

A. All walks shall not be less than five feet wide, unless otherwise especially provided in the permit or by this section.

B. The normal location of walks shall be such that the edge of the walk farthest from the curb shall be on the property line. At the discretion of the city engineer, the normal location of walks may be varied within the city's right-of-way. In the event a walk is located adjacent to the back edge of the curb, the width of such walk shall not be less than six feet as measured from the back edge of the curb, subject to the exception hereinafter noted, so as to avoid interference by poles, fire plugs, meters or any such obstruction capable of preventing free passage along such walk. Should the city not have sufficient right-of-way for a walk to be not less than six feet wide, where such walk is adjacent to the curb, then in such event, the walk shall be full width, from the back edge of the curb to the property line.

C. Sidewalks installed on residential minor streets, culs-de-sac, and loop streets shall not be less than four feet wide and normally placed adjacent to the property line. Those sidewalks placed adjacent to the curb shall not be less than six feet wide.

D. Sidewalks may be installed behind the property line (on private property) if an appropriate pedestrian/sidewalk/utility easement has been granted as part of an approved final plat of a subdivision. In such cases, sidewalks shall not be less than four feet in width and normally located with the edge of the walk farthest from the curb against the easement line located farthest from the curb. Sidewalks located adjacent to the curb shall have a width of not less than six feet.
(Code 1967, § 36-127; Code 1985, § 34-171; Ord. No. 894, § 1, 4-6-1971; Ord. No. 3590, § 1(15), 9-2-1986)

Sec. 12-28-11. Thickness and material to be used in concrete sidewalks.

Walks shall be a minimum of four inches thick and composed of monolithic Portland cement concrete, proportioned, mixed and cured in accordance with the specifications of the city engineer.
(Code 1967, § 36-128; Code 1985, § 34-172; Ord. No. 894, § 1, 4-6-1971; Ord. No. 3590, § 1(16), 9-2-1986)

Sec. 12-28-12. Tennessee One Call to be notified of laying sidewalks.

It shall be the duty of every person about to lay a sidewalk or driveway opening, or permitting such work to be done in his or her behalf, to give Tennessee One Call underground utility location service not less than three working days' notice in advance of the beginning of work.
(Code 1967, § 36-129; Code 1985, § 34-173; Ord. No. 894, § 1, 4-6-1971; Ord. No. 4196, § 1, 8-24-1993)

Sec. 12-28-13. Cement—Materials, preparation, placement, treatment and curing.

All materials, preparation, placement, treatment and curing of Portland cement concrete used in sidewalk and driveway opening construction shall be in accordance with the specifications of the city engineer and the standard construction specifications of the city.
(Code 1967, § 36-136; Code 1985, § 34-180; Ord. No. 894, § 1, 4-6-1971; Ord. No. 3590, § 1(20), 9-2-1986; Ord. No. 4196, § 1, 8-24-1993)

Sec. 12-28-14. Cuts and repairs.

Not less than a five-foot by five-foot block shall be constructed in replacing or repairing sidewalk, except in replacing squares around objects in the sidewalk which have previously been separated with expansion joints.
(Code 1967, § 36-140; Code 1985, § 34-184; Ord. No. 894, § 1, 4-6-1971)

Sec. 12-28-15. Sidewalks surrounding buildings.

When a building permit is issued for the construction of new buildings or the remodeling of old buildings, the sidewalk, curb and driveway, if any, shall be left in first class condition upon completion of the building construction; and if damaged during the course of the demolition or construction of a building, it shall be restored to first class condition.
(Code 1967, § 36-142; Code 1985, § 34-186; Ord. No. 894, § 1, 4-6-1971; Ord. No. 4196, § 1, 8-24-1993)

Sec. 12-28-16. Contractor's responsibilities.

The contractor will be held responsible for all injury and damage to curbs, walks, pipelines, utility stretches and all other public and private property that may occur due to his or her operation while carrying out his or her work, and all repair or replacement costs, if and where necessary, shall be borne by him or her. The contractor, at his or her own expense, shall erect and maintain all necessary walkways, barricades, and warning signs to ensure safety of the public in the work area.
(Code 1967, § 36-144; Code 1985, § 34-188; Ord. No. 894, § 1, 4-6-1971)

CHAPTER 12-32. CENTRAL BUSINESS IMPROVEMENT DISTRICT*

Sections:

Sec. 12-32-1. Created.
Sec. 12-32-2. District boundaries.
Sec. 12-32-3. Required and permissible improvements.
Sec. 12-32-4. Estimate of overall cost.
Sec. 12-32-5. Assessments to pay for improvements.
Sec. 12-32-6. Board of assessment commissioners.
Sec. 12-32-7. Preliminary approval or disapproval of designs and improvements.
Sec. 12-32-8. Authority to establish zoning regulations, building code or sign code.

Sec. 12-32-1. Created.

There is created the Memphis Central Business Improvement District.
(Code 1967, § 10½-1; Code 1985, § 7-36; Ord. No. 1556, § 1, 1-23-1973)

Sec. 12-32-2. District boundaries.

A. The central business improvement district created by this chapter shall be comprised of that area located in the city within the following boundaries:

A line commencing at the point of intersection of the south line of McCall Avenue with the west line of

***State law reference—**Central Business Improvement District Act of 1971, T.C.A. § 7-84-101 et seq.

Wagner Street running thence eastwardly with such south line of McCall Avenue and continuing across Main Street eastwardly with an extension of the south line of McCall to the east line of Third Street; thence northwardly with the east line of Third Street to the point of intersection of such line with the south line of Union Avenue; thence northeastwardly to the intersection of the north line of Union Avenue with the east line of the first alley east of Third Street; thence northwardly with the east line of said alley to the north line of Exchange Avenue; thence westwardly with the north line of Exchange Avenue to the east line of Third Street; thence northwardly with the east line of Third Street to the south boundary of the Interstate 40 right-of-way; thence westwardly with such south side of Interstate 40 right-of-way and continuing along the boundary thereof in irregular lines to the point of intersection of such south side of Interstate 40 with the east line of Riverside Drive; thence southwardly with the east line of Riverside Drive to the point of its intersection with the south line of Union Avenue; thence east with the south line of Union Avenue to the point of its intersection with the west line of Wagner Street; thence southwardly with the west line of Wagner Street to the point of beginning.

B. The following area shall be included within the boundaries of the central business improvement district only for the purposes of applicability and enforcement of the zoning, building and sign codes established by section 12-32-8:

Beginning at a point, said point being the intersection of the southerly right-of-way line of Peabody Place (McCall Avenue) with the westerly right-of-way line of Wagner Street, thence westwardly along a westward projection of the southerly right-of-way line of Peabody Place (McCall Avenue) to its intersection with the mid-stream of the main channel of the Mississippi River; thence northwardly with the mid-stream of the main channel of the Mississippi River to its intersection with a westward projection of the northerly right-of-way line of Auction Avenue; thence eastwardly along said westward projection and the northerly right-of-way line of Auction Avenue to its intersection with the easterly right-of-way line of North Second Street; thence southwardly along the easterly right-of-way line of North Second Street to its intersection with the south boundary of the Interstate 40 right-of-way; thence westwardly with such south side of Interstate 40 right-of-way and continuing along the boundary thereof in irregular lines to the point of intersection of such south side of Interstate 40 with the east line of Riverside Drive; thence southwardly with the east line of Riverside Drive; to the point of its intersection with the south line of Union Avenue; thence east with the south line of Union Avenue to the point of its intersection with the west line of Wagner Street; thence southwardly with the west line of Wagner Street to the point of beginning.

(Code 1967, § 10½-2; Code 1985, § 7-37; Ord. No. 1556, § 2, 1-23-1973; Ord. No. 4268, § 1, 7-26-1994)

Sec. 12-32-3. Required and permissible improvements.

The improvements to be constructed in the central business improvement district created by this chapter shall include:

A. A mall extending down Main Street from the south line of McCall Avenue to the south line of Exchange Avenue. Such mall may be constructed to include new decorative and ornamental sidewalk and street paving, pylons for street lighting, drinking fountains, trash receptacles, directional signs, telephones, decorative planting and trees, and such other attractive facilities and/or items as may, in the opinion of the architects, be deemed desirable.

B. North Court Avenue and South Court Avenue between Main Street and Second Street may be closed to traffic and abolished as vehicle carrying arteries upon order of the mayor as of the date that construction on the improvements herein in this chapter and chapters 12-36 and 12-40 authorized is begun.

C. Court Square may be expanded from its present perimeters to the edge of the buildings presently fronting on the south side of South Court Avenue and the north side of North Court Avenue. Such mall shall include new and decorative planting and full and adequate lighting at pedestrian height throughout the entire Court Square area, it being the intention of the city council that the Court Square area, as expanded, shall be brilliantly lighted for the safety and convenience of the citizens who use it.

D. New and decorative lighting shall, to the extent practicable, be installed on the following streets

between Front Street and Third Street: McCall Avenue, Gayoso Avenue, Union Avenue, Monroe Avenue, Madison Avenue, Court Avenue, Jefferson Avenue, Adams Avenue, Poplar Avenue, Exchange Avenue and along the exit and entrance ramps on the south side of Interstate I-40.

E. Streets and sidewalks shall, to the extent practicable, be repaired or replaced with new and decorative pavement between Front Street and Third Street along the following streets: McCall Avenue, Gayoso Avenue, Union Avenue, Monroe Avenue, Madison Avenue, Court Avenue, Jefferson Avenue, Adams Avenue, Poplar Avenue and Exchange Avenue. The new paving is not considered to be to the full extent a portion of the improvements incidental to the creation of the Memphis Central Business Improvement District, but is, rather, an obligation of the city in conjunction with others, and the director of the division of public works is directed to prepare, and at the appropriate time after consultation with the architects hereafter to be employed by the city for the design of the Main Street Mall, an estimate of the costs of such cross-street improvements and a proposal for the sources of funds for such street improvements and a recommendation for the year or years in which such street improvements should take place.

(Code 1967, § 10½-3; Code 1985, § 7-38; Ord. No. 1556, § 3, 1-23-1973)

Sec. 12-32-4. Estimate of overall cost.

The overall cost of the improvements herein authorized, including interest and all other costs itemized in T.C.A. § 7-84-401, is estimated at $3,000,000.00.

(Code 1967, § 10½-5; Code 1985, § 7-39; Ord. No. 1556, § 3, 1-23-1973)

Sec. 12-32-5. Assessments to pay for improvements.

A. The sum of $2,983,188.00 shall be the cost of the improvements herein ordered and ordained which shall be paid by special assessments against all parcels of real property within the Memphis Central Business Improvement District as authorized by T.C.A. § 7-84-401; provided, however, that no assessments shall be levied against property belonging to the governments of the United States, the state, the county and the city.

B. Upon the completion of the construction of all improvements in the Memphis Central Business Improvement District herein authorized, the board of assessment commissioners, hereinafter created, shall apportion the sum of $2,983,188.00, including interest, upon the various properties located within such district in accordance with the benefits to each property thereon by such improvements conferred; provided, however, that a portion of the costs of the sidewalk and street improvements authorized under section 12-32-3(E) shall be borne in the manner and in an amount later to be determined by the city council. Interest shall be computed in an amount sufficient to provide for amortization of all other such costs in 20 approximately equal payments of principal and interest on the assumption that each payment is applied first to payment of interest on the unpaid principal balance at the rate of five percent per annum, and the balance to reduction of principal, and on the assumption that the first payment is made one year after due date.

C. All special assessments levied against property within the Memphis Central Business Improvement District shall be made as of and become effective on January 10 in the calendar year following the ordinance levying such assessments. Any affected property owner may pay such assessment in full within 60 days after the effective date of such ordinance, in which event the entire portion of interest attributable to such assessment shall abate and be deducted therefrom. If such assessment is not so paid, then it shall be paid in 20 equal annual installments, the first being due and payable in the calendar year when such ordinance becomes effective at the same time city ad valorem real property taxes are due and payable, and subsequent installments being due and payable in the same manner during the following 19 years.

(Code 1967, § 10½-6; Code 1985, § 7-40; Ord. No. 1556, § 6, 1-23-1973; Ord. No. 2817, § 1, 12-5-1978)

Sec. 12-32-6. Board of assessment commissioners.

There is created a Memphis board of assessment commissioners for the central business improvement district created by this chapter. Such board shall consist of five members to be appointed by the mayor of the city, by and with the consent of the city council. The qualifications of such members shall be as contained in T.C.A. § 7-84-303, and such commissioners shall perform all acts prescribed by T.C.A. title 7, chapter 84.

(Code 1967, § 10½-7; Code 1985, § 7-41)

Sec. 12-32-7. Preliminary approval or disapproval of designs and improvements.

The preliminary designs for the mall and other improvements generally described in section 12-32-3 shall be submitted to the city council for approval. After the selection of architects and appointment of the center city commission, the architects and the commission shall enter into such consultations between themselves and with other interested parties as the commission may deem advisable. Upon completion of preliminary designs, the council shall be notified, and a date shall be set for a hearing on the proposed design, and all property owners in the central business improvement district shall have at least ten days' written notice by mail of the hearing. After the hearing, the council may approve the preliminary design by resolution, or may reject the same and determine at that time what further steps shall be taken with respect to modifications which the council may deem desirable. This section is enacted pursuant to the general governmental powers of the council.
(Code 1967, § 10½-8; Code 1985, § 7-42; Ord. No. 1556, § 8, 1-23-1973; Ord. No. 2555, § 2, 2-22-1977)

Sec. 12-32-8. Authority to establish zoning regulations, building code or sign code.

The city council may establish zoning regulations, building code or sign code for the central business improvement district created by this chapter, as will best promote the overall district plan, notwithstanding any other portions of this Code.
(Code 1967, § 10½-9; Code 1985, § 7-43; Ord. No. 1556, 1-23-1973; Ord. No. 2318, § 1, 10-14-1975)

CHAPTER 12-36. CENTRAL BUSINESS DISTRICT SIGN CODE*

Sections:

Sec. 12-36-1. Established.
Sec. 12-36-2. Definitions.
Sec. 12-36-3. Design regulations—Purpose.
Sec. 12-36-4. Design regulations—Areas affected.
Sec. 12-36-5. Design regulations—Review procedure.
Sec. 12-36-6. Design regulations—Sign standards—General CBID sign standards.
Sec. 12-36-7. Design regulations—Sign standards—Special provisions for general districts.
Sec. 12-36-8. Existing nonconforming signs.
Sec. 12-36-9. Permits.

***Editor's note—**According to section 2-84-14 of the code, this chapter is to be repealed upon the adoption by the commission of rules and regulations pursuant to section 12-44-7(E).

Sec. 12-36-1. Established.

There is established a uniform sign code of the central business improvement district which shall read as set forth in this chapter.
(Code 1985, § 7-51; Ord. No. 4750, § 1, 3-7-2000)

Sec. 12-36-2. Definitions.

As used in this chapter:

Above roof sign means a sign which is displayed above the highest projection of the roof.

Banner means a sign having the characters, letters, illustrations or ornamentation applied to cloth, paper or fabric of any kind with only such material for a backing.

CBID means the central business improvement district.

CCC means the center city commission.

Central business improvement district means the Central Business Improvement District No. II created by chapter 12-44.

Construction sign means a temporary graphic placed on a construction site listing such information as contractor, engineer or architect.

DRB means the design review board.

Design review board means the Memphis center city design review board created pursuant to section 12-44-7(F).

Doorway means area set back from the public right-of-way enclosed or surrounded by show windows or walled sides of show windows, but not inside the establishment itself.

Expressway means a limited access highway to which access is restricted except by ramps and interchanges.

Graphic means any letter, symbol, number, or combination of these that can be seen from the public right-of-way.

Graphic element means any syllable, abbreviation, number, or geometric shape.

Ground sign means a display sign supported by uprights or braces in or upon the ground surface.

Informational sign means a graphic giving direction or information without advertising.

Item of information means any of the following: a syllable; an abbreviation; a number; a symbol; a geometric shape.

Marquee means a permanent roofed structure projecting over public property, attached to and supported by a building.

Marquee sign means a display sign attached to or hung from a marquee canopy or other covered structure projecting from and supported by the building and extending beyond the building wall, building line, or street lot line.

Off-premises sign means a sign which attracts attention to a product, service, commodity or entertainment which primarily is conducted, sold, produced or offered off the premises where the sign is located.

Primary sign means permanent signs that are highly visible to pedestrian and vehicular traffic and do not include roof signs, rooftop signs, sandwich boards, or window graphics. Ground signs and projecting signs are also considered primary signs.

Primary wall sign means a primary sign no higher than the second floor windowsills of the building to which it is attached.

Projecting sign means a display sign which is attached directly to the building wall and which extends more than 18 inches from the face of the wall.

Real estate sign means a temporary graphic erected by the owner, or his or her agent, advertising the real property upon which the sign is located, for rent, for lease, or for sale.

Roof graphic means a sign that is displayed above the eaves and under the highest projection of the roof.

Roof line means either the edge of the roof or the top of the parapet, whichever forms the top line of the building silhouette and, where a building has several roof levels, such roof or parapet shall be the roof level belonging to that portion of the building where the sign is to be located.

Sign includes any announcement, declaration, or demonstration, display, illustration or insignia used to advertise or promote the intent of any person when the same is placed for the view of the general public.

Signable area means an area of the facade of the building below the roof line which is free of windows, doors or major architectural details and not higher than the lowest of the following: 25 feet above the adjoining sidewalk, the bottom of the window sills of the second story, or the highest part of the building under the roof as illustrated in Exhibit 1 set out at the end of this section.

Temporary sign means any sign, banner, pennant, valance, or advertising display constructed of cloth, canvas, light fabric, cardboard, wallpaper, or light material with or without frames, intended to be displayed for a limited period of time only.

Wall sign means a sign that is painted on or attached directly to the building wall and not more than 18 inches from the face of the wall.

Window graphic means a sign that is attached to or visible through a window.
(Code 1985, § 7-52; Ord. No. 4750, § 1, 3-7-2000)

Sec. 12-36-3. Design regulations—Purpose.

Signs are a vital component of a community's streetscape and good commercial signage can make a significant contribution to the physical appearance and to the economic prosperity of a community. The design regulations outlined herein are intended to ensure that property owners in downtown and the central business improvement district have available to them a palette of street graphics that enhances and celebrates the character of the center city that is indescribably Memphis.
(Code 1985, § 7-53(a); Ord. No. 4750, § 1, 3-7-2000)

Sec. 12-36-4. Design regulations—Areas affected.

A. The following design regulations apply to any property located within the central business improvement district (CBID). The CBID is generally bound by the Wolf River on the north, Crump Boulevard on the south, the Tennessee state line on the west and Danny Thomas on the east, with an extension between Poplar and Linden to Watkins encompassing the medical center as shown in Exhibit 2 set out at the end of this section.

B. For the purposes of these guidelines, the CBID has been divided into 13 general categories of review. The downtown core standards and the medical district standards modify the general CBID sign standards. The remaining ten areas, shown in Exhibit 3, set out at the end of this section, address further modifications to the downtown core sign standards.

1. General CBID sign standards.
    a. Downtown core sign standards.
        i. Main Street Mall sign standards.
        ii. Gayoso-Peabody/Cotton Row sign standards.
        iii. Beale Street sign standards.
        iv. South Main/warehouse district sign standards.
        v. Pinch sign standards.
        vi. Greenlaw and Bickford-Bearwater sign standards.
        vii. Victorian Village sign standards.
        viii. Riverfront sign standards.
        ix. Ballpark District sign standards.
        x. Peabody Place entertainment district sign standards.
    b. Medical district sign standards.

C. Standards for the downtown core, Main Street Mall, Gayoso-Peabody/Cotton Row, South Main/ warehouse district, Pinch, Victorian Village, Greenlaw and Bickford-Bearwater, Beale Street, ballpark district, Peabody Place entertainment district, medical district, and the Riverfront are intended to strengthen the character of each of the individual areas and to enhance the pedestrian-scale quality of Memphis' urban center. In some cases, they may be more restrictive than the general CBID sign standards. Any property that is located within the areas outlined on the following maps is subject to review relative to its geography or district. In addition, alterations to properties located within a city historic district must also be reviewed by the Memphis Landmarks Commission.
(Code 1985, § 7-53(b); Ord. No. 4750, § 1, 3-7-2000)

Sec. 12-36-5. Design regulations—Review procedure.

The design review board shall implement the sign code for the central business improvement district set forth in this chapter as follows:

A. *Pre-design conference.* Before an application for review can be submitted to the DRB, a pre-design conference must be scheduled with the CCC staff to help accelerate the approval process by acquainting applicants with design standards, submittal requirements and application procedures.

B. *Application.* After the pre-design conference, an application for formal review and all information regarding the project must be submitted to the center city commission director of planning. The following materials must be submitted for all sign applications:
    1. Photo(s) of the building(s) in question;
    2. 13 copies of drawings that are to scale (not to exceed 11 inches by 17 inches in size) of the proposed sign(s) with size and dimensions. The drawings should show the front and side views of the sign and may require additional drawings if the proposal is not adequately illustrated in those drawings;
    3. A description of letter style and size to be used on the sign;
    4. A drawing or photo indicating where the sign(s) will be located on the building/site along with dimensions/measurements that are descriptive of the building or sign location;
    5. A description of the type of sign, colors, installation/mounting and materials of the proposed sign, including any proposed lighting.

The CCC staff shall have the right to waive the requirement that any of such material shall be submitted.

C. *Review of applications.* At each monthly meeting of the design review board, the CCC staff will present all applications that have been received by the director of planning no later than two weeks prior to the meeting. All meetings of the design review board are open to the public. Applicants or their representative should attend the meeting to answer any questions the design review board may have regarding the application. After reviewing each case, the design review board shall vote on the proposal.

D. *Post-review.* For approved applications, the CCC staff shall mail a letter stating the conditions of

the approval to the applicant and to the city construction code enforcement division. For denied application, the CCC staff may make recommendations to the applicant about changes that could be made to the application to warrant approval. Amendments to the application shall be considered at a future meeting of the DRB.

E. *Appeal.* Appeals must be made in writing to the chairperson of the center city commission within five business days of the date of the meeting at which the application was denied. Applicants may present the appeal at the regular CCC monthly board meeting. A representative of the design review board may be present and the CCC may outline the reasons for the denial. A final appeal may be made to the Memphis City Council after a decision has been issued by the center city commission.

(Code 1985, § 7-53(c); Ord. No. 4750, § 1, 3-7-2000)

Sec. 12-36-6. Design regulations—Sign standards—General CBID sign standards.

All signs in the CBID shall adhere to the following guidelines and size limitations except in cases where outstandingly creative design solutions are offered. In such cases, if a proposal incorporates unique or high quality materials (such as neon, hand painting, some metals, or well-crafted wood), exterior lighting (such as floodlighting), unique shapes, and outstanding graphic composition, a sign exceeding the limits stated in this chapter may be approved. All signs should, however, be appropriately scaled to fit their context, should complement the building on which they are located, and should not intrude upon any architectural detail.

A. *Identification.* All signs within the CBID are encouraged to utilize creative approaches to property and business identification; however, signs should be used for identification only, not for the advertisement of services or products available within a building or site. The only exception to this is off-premises advertising.

1. *Removal.* When a business closes or relocates, its sign shall be removed within three months of the date of close. If the sign has not been removed after six months, the property owner will be notified that the sign is noncompliant and will be formally requested to remove the sign. Unless the owner can provide a reason acceptable to the design review board that the sign should be retained, the sign shall be removed immediately. If the sign has not been removed within one year of the close of the building or business, it can be removed by the city or the center city commission at the owner's expense.

2. *Disrepair.* When a sign (designated for identification or off-premises advertising) falls into disrepair or is abandoned, the CCC staff may notify the property owner that the sign is noncompliant and request that the sign be removed. Unless the owner can provide a reason acceptable to the design review board that the sign should be retained, the sign shall be removed immediately. If the sign has not been removed within one year following notification, it can be removed by the city or the center city commission at the owner's expense.

B. *Graphic elements.* All signs should contain no more than ten graphic elements.

1. If a name of a business consists of more than four syllables, it is counted only as four graphic elements.

2. The property's legal street address shall only count as one graphic element.

C. *Number of signs.* Any ground floor business is allowed two primary signs facing a public right-of-way; however, the area of the signs may not exceed the allowable size requirements as outlined in following sections.

D. *Upper floor tenants.* Each ground floor leasable unit is considered separately for signage; however, upper floor tenants are not allowed signs at the ground level unless they have a separate entrance at the ground level fronting onto a public right-of-way. Upper floor tenants in all cases are allowed, as established below, window or door graphics on the ground level and window graphics at the floor on which they are located.

E. *Multitenant buildings.* Multitenant buildings may incorporate a designation sign at the ground level that identifies all of its tenants.

F. *Size of signs.* The size of a sign will be determined by the smaller of the following two measurements: (1) the area of a rectangle enclosing all elements of a sign, including any sign cabinet or edges of a cabinet; or (2) the sum total of all areas of all elements of a sign.

G. *Ground signs.* Ground signs are freestanding elements, and include pole-mounted signs and shorter monument signs. Any activity that is set back from the street or public right-of-way by at least 35 feet may display one ground sign within the allowable size limits set forth below:

1. Pole signs shall be no taller than 20 feet and shall be no closer than 300 feet from any other pole sign. The size of the sign cabinet on top of the pole shall not exceed 45 square feet.

2. Monument signs shall not exceed 35 square feet. The height of a monument sign shall not exceed six feet. Monument signs should be designed and located so that they do not create security hazards or visual barriers to traffic.

3. Changeable copy signs of any type are not allowed. This includes individual cabinets as part of a pole sign or portable readerboard signs.

H. *Wall signs.* Wall signs may be attached flat to or pinned away from the wall and may not project from the wall by more than 18 inches. In no case should a wall sign obscure architectural details, window openings, or other open areas within a building facade.

1. Any activity may display one wall sign on each side of the building that fronts onto a public right-of-way.

2. The size of an individual wall sign will be no more than 40 percent of the signable area of any building.

3. If an activity in a building of two or more stories is a place of entertainment, a place of assembly for 200 or more people, a hospital, a hotel, or a majority tenant of the building, a sign may be placed on the wall near the roof line. In such cases, there is generally an area near the roof that is free of architectural detail; this area will be considered the signable area and no sign should exceed 40 percent of that area. Such signs are not considered primary signs and therefore do not count against the size limitations of lower, primary wall signs.

I. *Projecting signs.* Any activity may display one projecting sign on each public right-of-way frontage. A projecting sign may not extend above the roof of the structure to which it is attached.

1. Projecting signs shall be mounted at right angles to the building facade except if the building is a corner building. On corner buildings, a projecting sign may be mounted at a 45 degree angle to the building; however, in such cases, the sign at a 45 degree angle would be the only projecting sign allowed for the activity.

2. Projecting signs must clear the sidewalk by at least eight feet and shall project no more than four feet from the building face or one-third of the sidewalk width (whichever is less). Marquee graphics are excluded from this constraint.

3. The vertical axis of a projecting sign will be no more than 25 percent of the height of the building to which it is attached if the building is 75 feet tall or less, as shown in Exhibit 4 set out at the end of this section. If the height of the building to which the projecting sign is attached is greater than 75 feet, then the vertical axis of the sign cannot exceed 20 feet. The overall size of a projecting sign must adhere to Table 1 below.

Table 1

Length of Frontage on Public Right-of-Way	*Total Allowable Signage (square feet)*
Less than 30'	20
30' to 49' 11″	30
50' to 69' 11″	40
70' to 99' 11″	50
100' and greater	60

J. *Above-roof wall signs.* Wall signs above the roof are allowed only in three situations: on hotels, on hospital buildings, and when the tenant identified by the sign is a majority tenant within the building.

1. An above-roof wall sign may be attached to or pinned away from permanent portions of the building's structure that extend above what is traditionally considered to be the roofline of the building and may not project more than 18 inches from the wall to which it is attached. This type of sign should not extend above the highest projection of the roof, including elevator penthouses and mechanical enclosures. The size of the sign will be limited by the roof structure to which the sign is attached and will be no larger than 40 percent of its signable area.

2. Above-roof wall signs are allowed only on buildings that are taller than 50 feet in height.

K. *Rooftop signs.* Signs above the highest projection of the roof are not allowed except as outlined in the standards for the ballpark district and Peabody Place entertainment district.

L. *Marquee signs.* Marquees are allowed only on theaters, other entertainment establishments featuring live performances, and places of assembly of 200 or more people (including restaurants and bars).

1. As a permanent structure attached to and projecting from a building, a marquee is very much a part of a building's overall design and must be integrated into the facade design. A marquee can project the entire width of the sidewalk, assuming there are not obstructions, but must clear the sidewalk by at least eight feet.

2. Only individual letters or symbols should be placed on or attached to marquees. The area reserved for changeable copy should be no more than 85 percent of each side of a marquee. Changeable copy displayed on marquees is not included in the items of information calculation for the building or tenant.

3. If an activity is eligible for a marquee, it may not have any other projecting sign.

M. *Window signs.* Permanent window signs shall be affixed to the window and limited to 25 percent of the total area of the window in which they are displayed. Temporary window signs shall be limited to 15 percent of the total window area.

N. *Designation signs.* An industrial park, shopping center, or multitenant building can display a designation sign that indicates the name of multiple activities. These signs are subject to the above limitations regarding items of information and size. Designation signs shall not be taller than ten feet when a ground sign is allowed. Wall designation signs must adhere to the standards for wall signs.

1. Directional signage is allowed only for purposes of wayfinding and may not be used for advertising.

2. Directional signage must be kept to a minimum necessary to locate the intended destination.

3. The DRB will review all directional signage with regard to its integration with the overall signage package for the intended project.

O. *Directional signs.* Directional signs do not count toward the allowable sign limit per activity. These signs can be vehicular or pedestrian oriented, but in no case, should they exceed a size of six square feet if oriented toward vehicles or three square feet if oriented toward pedestrians or a height of four feet. Directional signs should not be designed or situated as to provide a traffic or security hazard. In no case shall they be located within a public right-of-way.

P. *Off-premises advertising.* Permitted off-premises signs fall within only one of two categories: wall painted signs and sponsored artwork. No other off-premises signs shall be permitted within the CBID.

1. Off-premises advertising attached to bus shelters and trolley kiosks is exempt from these standards.

2. Wall painted signs are allowed only in the following districts: South Main/warehouse, the Pinch, and Beale Street. Wall painted signs must be on the sides of buildings and must follow the guidelines and size restrictions for wall signs in subsection (F) of this section. When allowed, they are permitted only on buildings between two and 15 stories tall, not within 200 feet of any other wall painted off-premises sign and should not project from the face of the building wall.
3. A current certificate of use and occupancy is required before an off-premises identification sign can be installed.
4. When allowed, all off-premises wall signs must be hand painted unless the sign has been approved and designated by the design review board as sponsored art.
5. Sponsored artwork involves graphics which do not necessarily identify a particular product, place or event in their imagery; but include identification of a sponsor that may be a business enterprise or other entity; e.g., a private business may install a painted mural on the side of a building depicting a historic streetscape and include the name of its business as the provider of the mural.
6. For the purposes of these guidelines, sponsored art is considered to be only two-dimensional graphics or other types of signboards/sign cabinets; these standards are by no means intended to address three-dimensional sculpture or other types of artwork.
7. All sponsored art must adhere to size and placement guidelines outlined above regarding the particular type of artwork: wall art, projecting art, etc. The size of the identification of individual or group sponsors shall be limited to ten percent of the overall area of the piece of art.

Q. *Awnings.* Awnings can greatly enhance the appearance of a building, can provide shade and shelter, and can provide an alternative means of tenant identification. As extensions of the building to which they are attached, they must be carefully considered for their appropriateness of design in relation to the building's architectural character.

1. Buildings of historic character should have awnings that respect and complement the architecture. Contemporary building designs may accept a wider range of awning styles. Buildings or storefronts with 19th or early 20th century facades should, typically, have simple, sloped awnings rather than curved or rounded awnings or one of more modern design.
2. Awnings should fit the openings of the building on which they are attached and not overlap the opening or multiple openings.
3. Awnings should not obscure any significant architectural detail such as ornamental metal, glass or woodwork.
4. Lettering on awnings can be placed on the vertical valance flap or on the sloped portion of the awning. Any lettering that is larger than three inches in height will be counted against the allowable amount of primary signage for the activity or property. In such cases, the area of the graphic will be determined by measuring the area of the smallest rectangle that encloses all of the elements of the graphic. The maximum signable area for awnings is 30 percent of the awning's face.
5. The recommended material for awnings shall be canvas, particularly on historic buildings; however, vinyl-type awnings may be allowed on more contemporary buildings, except as stated elsewhere relative to each district's guidelines.
6. Illumination of awnings is allowed; however, the illumination must be directed or focused toward the ground, not upward creating the effect of an oversized illuminated sign. Lighting external to the awning is also allowed.

R. *Canopies.* Canopies can be constructed of canvas, well-crafted wood, or metal and are generally supported by vertical supports along their length. For the purposes of this sign code, however, a canopy that is of differing construc-

tion and that projects out from a building and/or is supported from above also falls under the guidelines outlined in this section.

1. Canopies are integral parts of buildings, and as such, require great sensitivity in order to make certain that they complement the design and character of the building.

2. Lettering on canvas or other fabric-type canopies should not be greater than six inches in height and should be located only on vertical surfaces and not on sloped or curved sections of the canopy. The front piece of a canopy may present an opportunity to prominently display a graphic symbol or logo with lettering no greater than six inches in height. Illumination of fabric-type canopies is allowed from the exterior or from within only if it is directed downward to the ground.

3. Larger identification or signage on canopies made of wood, metal or other permanent material may be allowed if it is compatible with the design of the canopy. Such signs may be internally illuminated, but in such cases, the background color must be darker than the color of the graphics.

S. *Temporary signs.* Temporary signs may be installed for a predetermined length of time and must be removed at the end of that time period. The predetermined length of time must be approved by the design review board. Temporary signs may be wall signs, window signs, or banners, but in no case should a temporary sign obscure any architectural detail of a building. Temporary signs shall be installed in an unobtrusive manner so that their removal does not damage a building facade.

1. For sale and for lease signs do not require approval of the design review board if they are limited to one sign for each available space or building frontage and are five square feet or smaller.

2. Tethered signs such as blimps or balloons must be reviewed by the DRB for appropriateness and compatibility with surrounding establishments. Tethered signage must not drift into space above public rights-of-way or across surrounding property lines.

T. *Sandwich boards.* One sandwich board sidewalk sign is allowed for each building and can identify multiple tenants on one sign. All such signs shall be designed to be folding in nature and must be removed at the close of business each day. The size of each face of a sandwich board shall not exceed 12 square feet and the overall sign shall be no taller than four feet. A sandwich board within the public right-of-way must be such that at least a five-foot unobstructed sidewalk width remains between the curb and the building front.

U. *Banners.* Banners on streetlights are allowed throughout the CBID. Banners attached to buildings are allowed only within the downtown core. Standards for building banners are included within the individual district sections of this sign code.

1. Street banners are permitted only for nonprofit organizations or governmental entities. No for-profit, commercial enterprises will be allowed to hang banners to advertise or to promote their businesses, merchandise, products or services.

2. Banners should generally be event-oriented. For events lasting one week or longer, banners may be installed 30 days prior to the event. All banners must be removed within 14 days of the conclusion of the event. If banners are not removed within the required time frame, and if city crews perform removal, the organization will be assessed the cost and may be denied future banner requests.

3. The name of a for-profit sponsor organization or event may appear at the bottom of a banner in letters no more than one inch high and occupying no more than ten percent of the overall area of the banner. Logos may be permitted within that area.

4. Banners shall be a maximum of five feet in length and 30 inches wide. The minimum distance from the bottom of the banner to the top of the curb shall be 12

feet, unless it is installed on an existing mechanism that is currently part of the public infrastructure.

5. Coordination with the city engineer is necessary before any banner is installed on a street light.

6. Installation and removal of banners is the responsibility of the sponsoring organization, but must be performed by a licensed sign company with proof of adequate liability insurance.

7. Maintenance and replacement of damaged or missing banners is the responsibility of the sponsoring organization for the duration of the banners' display and shall be addressed in a timely manner.

V. *Illumination.* Internally illuminated signs in which the background color is darker than the color of the graphics is encouraged. Exterior illumination, such as floodlights or spotlights, shall be positioned so that none of the light shines onto an adjoining property or in the eyes of motorists or pedestrians. For the purposes of these guidelines, neon-type lighting is considered external illumination.

1. Signs with marquee or bare bulb illumination shall not be located within 60 feet of any other similar sign or within 500 feet of any single, two-, three-, or four-family detached residential building. Exposed fluorescent tubes are not permitted.

2. There are no limits on neon tube illumination as a part of a sign and such lighting is strongly encouraged. Decorative neon accents intended to illuminate a building should be utilized only on nonhistoric structures and should not obscure any architectural details.

3. Signs are not required to be lit but in the event illumination is added, it must conform to this sign code.

W. *Mechanization.* Mechanized signs that incorporate moving elements shall not be located within 60 feet of another similar sign or within 500 feet of any single-, two-, three-, or four-family detached residential building.

X. *Vehicles.* Any sign painted or adhered to a vehicle that remains parked in front of any business establishment for the purposes of permanent advertising in the CBID is subject to review by the design review board. Such identification must meet the standards for identification and graphic elements explained above.

(Code 1985, § 7-53(d)(1); Ord. No. 4750, § 1, 3-7-2000)

Sec. 12-36-7. Design regulations—Sign standards—Special provisions for general districts.

A. *Downtown core.* All signs within the downtown core, notwithstanding the general CBID sign standards, shall adhere to the following guidelines and limitations:

1. *Area defined.* The area included within the downtown core, for the purposes of this sign code, is bound by Auction Street, Riverside Drive, Linden Avenue and Danny Thomas Boulevard as shown in Exhibit 5 set out at the end of this section.

2. *Ground signs.* No pole signs are allowed within the downtown core unless they are utilized for a public surface parking lot, in which case they shall only identify the parking lot, management company, and rate information. Ground signs shall not be allowed for any off-premises business.

3. *Signs on parking structures.* Structured parking is a particular land use that requires immediate identification by users in order to strengthen the overall viability and success of an urban center. As such, these types of facilities may incorporate signs that exceed the size limitations established previously; however, in no case shall a sign attached to a parking structure cover any portion of a window opening or open area of the facade. One primary sign shall be allowed on each side of a parking facility that fronts onto a public right-of-way. The allowable size of signs under this section differs from the general CBID sign standards in the following ways: a wall sign may be 60 percent of the signable area; a projecting sign may be no taller than 35 percent of the overall height of the parking structure if the parking structure is less than 85 feet tall, although it may not extend above the second highest level of parking. If the parking structure exceeds 85 feet in height, then the projecting

sign is limited to a vertical axis of 30 feet. The size of a projecting sign is limited to the allowable square footage in Table 1 set out in section 12-36-6(I).

B. *Main Street Mall.* All signs on the Main Street Mall, notwithstanding the general CBID and downtown core sign standards, shall adhere to the following guidelines and limitations:

1. *Area defined.* The area included within the Main Street Mall, for the purposes of this sign code, is bound by Adams Avenue, the mid-block between Main Street and Front Street, Peabody Place Avenue and the mid-block between Main Street and Second Street as shown in Exhibit 6 set out at the end of this section.

2. *Ground signs.* No ground sign will be allowed within the Main Street Mall area except for temporary and portable sandwich board/sidewalk signs. These types of signs must be reviewed by the design review board prior to their use.

3. *Projecting signs.* Projecting signs on the mall shall not project more than five feet and shall not extend above the second floor windowsills of the building to which they are attached.

4. *Illumination.* If lit, all signs within the Main Street Mall must be externally illuminated.

5. *Awnings.* All awnings shall be of a canvas or other durable cloth material.

C. *Gayoso-Peabody/Cotton Row.* All signs within the Gayoso-Peabody/Cotton Row area, notwithstanding the general CBID and downtown core sign standards, shall adhere to the following guidelines and limitations:

1. *Area defined.* The area included within the Gayoso-Peabody/Cotton Row area, for the purposes of this sign code, is bound by Riverside Drive, the mid-block between Monroe Avenue and Madison Avenue, the mid-block between South Main Street and South Second Street, the mid-block between Monroe Avenue and Union Avenue, the mid-block between Second Street and Third Street, Union Avenue, Hernando Avenue, mid-block between Union Avenue and Gayoso Avenue, Second Street and mid-block between Gayoso Avenue and Peabody Place Avenue as shown in Exhibit 7 set out at the end of this section.

2. *Ground signs.* No ground sign will be allowed within the Gayoso-Peabody/Cotton Row except for temporary and portable sandwich board/sidewalk signs.

3. *Projecting signs.* Projecting signs in Gayoso-Peabody/Cotton Row shall not extend above the second floor windowsills of the building to which they are attached.

4. *Illumination.* If lit, all signs within Gayoso-Peabody/Cotton Row must be externally illuminated.

5. *Awnings.* All awnings within Gayoso-Pea-body/Cotton Row shall be of a canvas or other durable cloth material.

D. *Beale Street.* All signs within the Beale Street district, notwithstanding the general CBID and downtown core design standards, shall adhere to the following guidelines and limitations:

1. *Area defined.* The area included within the Beale Street District, for the purposes of this sign code, is bound by Wagner Place, the mid-block between Beale Street and Peabody Place Avenue, South Fourth Street and Linden Avenue as shown in Exhibit 8 set out at the end of this section.

2. *Size of signs.* There are no size limits for signs in the Beale Street District except that the scale and character of the building to which the sign is attached must be considered and respected.

3. *Illumination.* All types of illumination will be allowed in the Beale Street District while still insuring that vehicular traffic can be safely maintained.

E. *South Main/Warehouse; The Pinch.* All signs within the South Main/Warehouse District and the Pinch, notwithstanding the general CBID and downtown core design standards, shall adhere to the following guidelines and limitations:

1. *Area defined.* The area included within the South Main/warehouse district, for the purposes of this sign code, is bound by Riverside Drive, Linden Avenue, South Second Street and Calhoun Avenue as shown in Exhibit 9 set out at the end

of this section. The area included within the Pinch district, for the purposes of these guidelines, is bound by Front Street, Auction Avenue, Third Street and Interstate 40 as shown in Exhibit 10 set out at the end of this section.

2. *Ground signs.* No pole sign will be allowed within South Main/warehouse district and the Pinch unless they are utilized for a public surface parking lot. When allowed, they shall be not taller than 20 feet.

3. *Illumination.* If lit, all signs within the South Main/warehouse district and the Pinch must be externally illuminated.

4. *Awnings.* All awnings within the South Main/warehouse district and the Pinch shall be of a canvas or other durable cloth material.

F. *Greenlaw/Bickford-Bearwater; Victoria Village.* All signs within the Greenlaw/Bickford-Bearwater and Victorian Village areas, notwithstanding the general CBID and downtown core design standards, shall adhere to the following guidelines and limitations:

1. *Area defined.* The area included within the Greenlaw/Bickford-Bearwater area, for the purposes of this sign code, is bound by Front Street, Hickory Street, Second Street, Marble Street, Danny Thomas Avenue and Auction Street as shown in Exhibit 11 set out at the end of this section. The area included within the Victorian Village area, for the purposes of these guidelines, is bound by west property lines of parcels aligned with Neely, the alley north of Washington Avenue, mid-block between Orleans and Manassas and Avant as shown in Exhibit 12 set out at the end of this section.

2. *Ground signs.* No pole sign will be allowed within Greenlaw/Bickford-Bearwater and Victorian Village areas.

3. *Projecting signs.* Projecting signs in the Greenlaw/Bickford-Bearwater and Victorian Village areas shall not exceed 30 square feet and should not extend above the second floor windows of the building to which they are attached.

4. *Illumination.* If lit, all signs within the Greenlaw/Bickford-Bearwater and Victorian Village areas must be externally illuminated. In this case external illumination excludes neon lighting.

5. *Awnings.* All awnings within the Green-law/Bickford-Bearwater and Victorian Village areas shall be of a canvas or other durable cloth material.

G. *Riverfront.* All signs within the Riverfront area, notwithstanding the general CBID and downtown core design standards, shall adhere to the following guidelines and limitations:

1. *Area defined.* The area included within the Riverfront area, for the purposes of this sign code, is bound by Island Drive, Auction Street, Riverside Drive, the railroad alignment, the Mississippi River and the Wolf River as shown in Exhibit 13 set out at the end of this section.

2. *Size of signs.* No sign within the Riverfront area shall be larger than 30 square feet.

3. *Wall signs.* Wall signs within the Riverfront area shall be no larger than 30 percent of the signable area.

4. *Wall signs above the roof.* Wall signs above the roof are not allowed.

5. *Ground signs.* No pole sign will be allowed within the Riverfront area. Only monument-type signs no taller than six feet in height shall be allowed.

6. *Projecting signs.* Projecting signs in the Riverfront area will be no larger than 30 square feet.

7. *Off-premises signs.* Off-premises signs are not allowed along the riverfront.

8. *Illumination.* If lit, all signs within the Riverfront area must be externally illuminated.

9. *Awnings.* All awnings within the Riverfront area shall be of a canvas or other durable cloth material.

H. *Baseball District.* All signs within the Ballpark District, notwithstanding the general CBID and downtown core design standards, shall adhere to the following guidelines and limitations:

1. *Area defined.* The area included within the Ballpark District, for the purposes of this sign code, is bound by the mid-block between Madison Avenue and Court Avenue, Fourth Street, Madison Avenue, Danny Thomas Boulevard, mid-block between Union Avenue and Gayoso Avenue, Hernando Avenue, Union Avenue and

the mid-block between Third Street and Second Street as shown in Exhibit 14 set out at the end of this section.

2. *Ballpark.* The ballpark itself is excluded from this district, as all new and amended signage will have to come before the design review board for approval.

3. *Banners.* The name of a for-profit sponsor organization or event may appear at the bottom of a banner occupying no more than 25 percent of the overall area of the banner. Logos may be permitted within that area. Banners shall be a maximum of eight feet in length and either 24 inches, 30 inches or 36 inches wide. The minimum distance from the bottom of the banner to the top of the curb must be at least 12 feet, unless it is installed on an existing mechanism that is currently part of the public infrastructure.

4. *Rooftop signs.* Signage projecting above the highest point of the roof or rooftop structure is permitted within the Ballpark District on buildings that exceed 40 feet in height. Signs must identify the name of the property or the majority tenant. Signage must face the direction of the ballpark and must be visible from the interior of the ballpark. Signage must consist of individual lettering attached to a minimally visible frame. The horizontal length of the sign shall not exceed 50 percent of the length of the roof on the side of the building where the sign is located. The total area of the sign shall not exceed 350 square feet.

I. *Peabody Place Entertainment District.* All signs within the Peabody Place Entertainment District, notwithstanding the general CBID and downtown core design standards, shall adhere to the following guidelines and limitations:

1. *Area defined.* The area included within the Peabody Place Entertainment District, for the purposes of this sign code, is bound by Fourth Street, Peabody Place Avenue, Third Street, the mid-block between Peabody Place Avenue and Beale Street, the mid-block between Second Street and Main Street, the mid-block between Peabody Place Avenue and Gayoso Avenue, Second Street and the mid-block between Gayoso Avenue and Union Avenue as shown in Exhibit 15 set out at the end of this section.

2. *Size of signs.* There are no size limits for signs in the Peabody Place Entertainment District except that the scale and character of the building to which the sign is attached must be considered and respected.

3. *Height and placement.* There are no limits for height and placement of signs in the Peabody Place Entertainment District except that the scale and character of the building to which the sign is attached must be considered and respected.

4. *Illumination.* All types of illumination will be allowed in the Peabody Place Entertainment District while still insuring that vehicular traffic can be safely maintained.

J. *Medical District.* All signs within the medical district, notwithstanding the general CBID design standards, shall adhere to the following guidelines and limitations:

1. *Area defined.* The area included within the medical district, for the purposes of this sign code, is bound by Union Avenue, Dunlap Street, Poplar Avenue and Claybrook Street as shown in Exhibit 16 set out at the end of this section.

2. *Ground signs.* No pole signs are allowed within the medical district unless they are utilized for a public surface parking lot, in which case they shall only identify the parking lot, management company, and rate information.

3. *Signs on parking structures.* Structured parking is a particular land use that requires immediate identification by users in order to strengthen the overall viability and success of an urban center. As such, these types of facilities may incorporate signs that exceed the size limitations established previously; however, in no case shall a sign attached to a parking structure cover any portion of a window opening or open area of the facade. One primary sign shall be allowed on each side of a parking facility that fronts onto a public right-of-way. The allowable size of signs under this section differs from standards earlier established in the following ways: a wall sign may be 60 percent of the signable area; a projecting sign may be no taller than 35 percent of the overall height of the parking structure if the parking structure is less than 85 feet tall,

although it may not extend above the second highest level of parking. If the parking structure exceeds 85 feet in height, then the projecting sign is limited to a vertical axis of 30 feet. The size of a projecting sign is limited to the allowable square footage in Table 1 set out in section 12-36-6(I).

(Code 1985, § 7-53(d)(2); Ord. No. 4750, § 1, 3-7-2000)

Sec. 12-36-8. Existing nonconforming signs.

A. Any sign in existence on the effective date of this sign code which violates or does not conform to the current provisions but was constructed, erected or maintained in accordance with the requirements of previously existing ordinances or regulations, shall be regarded as a nonconforming sign.

B. No nonconforming sign shall be changed or altered in any manner which would increase the degree of its nonconformity; be expanded; structurally altered to prolong its useful life; or removed in whole or in part to any other location where it would be nonconforming.

(Code 1985, § 7-54; Ord. No. 4750, § 1, 3-7-2000)

Sec. 12-36-9. Permits.

A. *Requirements.* No sign shall be erected, altered or relocated within the central business improvement district without a permit, except as provided herein.

B. *Application.* Applications for permits shall be filed with the division of construction code enforcement.

C. *DRB approval.* No permit shall be issued unless the design review board shall have issued a letter of approval for such sign as provided in sections 12-36-3 through 12-36-7 or such sign is approved on appeal from the design review board.

(Code 1985, § 7-55; Ord. No. 4750, § 1, 3-7-2000)

CHAPTER 12-40. CENTRAL BUSINESS DISTRICT SURFACE PARKING LOTS*

Sections:

Sec. 12-40-1. Established.
Sec. 12-40-2. Parking lot defined.
Sec. 12-40-3. Location prohibited.
Sec. 12-40-4. Locations permitted.
Sec. 12-40-5. Surface parking lot lighting.
Sec. 12-40-6. Parking lot fencing.
Sec. 12-40-7. Fences and walls.
Sec. 12-40-8. Supplemental zoning regulations.
Sec. 12-40-9. Downtown parking facility revitalization and safety program.

Sec. 12-40-1. Established.

There are established regulations for the location, design and landscaping of surface parking lots within the central business improvement district (CBID) which shall read as set forth in this chapter.
(Code 1985, § 7-62; Ord. No. 4177, § 1, 5-4-1993)

Sec. 12-40-2. Parking lot defined.

Parking lot means any area located within the CBID which, by design or by use, provides parking for six or more motor vehicles at grade outside of any structure. provided, however, that the term "parking lot" shall not include parking provided adjacent to and as support for an allowed use within the central business improvement district. Such parking shall not be available for use by the general public on a paying basis. In no event shall support parking for new construction be allowed within 40 feet of the property line abutting the Main Street Mall. Support parking within the CBID shall be screened by the primary structure or by landscaping as required in the Memphis and Shelby County Unified Development Code, included herein as title 15.
(Code 1985, § 7-63; Ord. No. 4177, § 1, 5-4-1993; Ord. No. 4269, § 1, 8-16-1994)

Sec. 12-40-3. Location prohibited.

Surface parking lots as defined herein shall not be permitted to be established within the central business improvement district in the area described as being located within 150 feet on either side of Main Street. Notwithstanding the foregoing, and the provisions of sections 12-40-2 and 12-40-4, a new surface parking lot or a new supporting parking lot which replaces a legal, paved surface parking lot and/or supporting parking lot existing on September 1, 2000, and abutting the Main Street Mall, shall be permitted in the central business improvement district within 150 feet of Main Street, if such replacement parking lot shall have fewer parking spaces located within 40 feet of the property line abutting the Main Street Mall than the parking lot being replaced, and shall be screened from the Main Street Mall by the primary structure or by landscaping as required in the Memphis and Shelby County Unified Development Code, included herein as title 15, for streetscapes, and otherwise conform to the design and landscape requirements of the Memphis and Shelby County Unified Development Code.
(Code 1985, § 7-64; Ord. No. 4177, § 1, 5-4-1993; Ord. No. 4827, § 1, 11-7-2000)

Sec. 12-40-4. Locations permitted.

Surface parking lots shall be permitted to be located within the central business improvement district, except as provided in section 12-40-3, provided such surface parking lots shall conform to the design and landscape requirements of the Memphis and Shelby County Unified Development Code, included herein as title 15.
(Code 1985, § 7-65; Ord. No. 4177, § 1, 5-4-1993)

Sec. 12-40-5. Surface parking lot lighting.

Parking lots shall be adequately illuminated to ensure the security and safety of vehicles, patrons and the general public. At a minimum, illumination of 0.8 footcandles measured at the lot surface shall be provided throughout the parking lot area between the hours of sunset and sunrise. In general, lighting should be provided in accordance with the guidelines published by Illuminating Engineers Society of North America, IES Lighting Handbook, 1981, or more current edition. Light fixtures shall be MLG&W standard downtown tear-drop fixtures or an equivalent alternative approved by the CBID design review committee.
(Code 1985, § 7-66; Ord. No. 4177, § 1, 5-4-1993)

Sec. 12-40-6. Parking lot fencing.

Parking lot fencing shall be permitted provided such fencing is constructed with ornamental iron, or a combina-

*__Charter reference—__According to section 2-84-14 of the Code, references to central business improvement district in sections 12-40-1 through 12-40-6 shall refer to District No. I upon the adoption by the commission of rules and regulations pursuant to section 12-44-7.

tion of iron and brick or masonry construction. No fence shall be constructed without prior approval by the CBID design review committee. Fence construction using chain link or cyclone fencing is expressly prohibited.
(Code 1985, § 7-67; Ord. No. 4177, § 1, 5-4-1993)

Sec. 12-40-7. Fences and walls.

In addition to the requirements of the Memphis and Shelby County Unified Development Code, included herein as title 15, the following regulations shall apply within the CBID boundaries set out in section 12-32-2(B):

A. Fences and walls greater than four feet in height, except ornamental iron or brick walls, shall not be permitted within 30 feet of any public street right-of-way; however, such fences shall be permitted during construction of a building on the premises during a period beginning ten days prior to commencement of construction and ending upon issuance of a certificate of use and occupancy by the building official.

B. In no event shall any fence be constructed with the application of razor wire, ribbon wire, concertina wire or similar elliptical or coiled wire. Furthermore, in no event shall any fence be equipped or extended in a manner so as to extend or cantilever the fence beyond a structure's property line.

(Code 1985, § 7-68; Ord. No. 4268, § 2, 7-26-1994)

Sec. 12-40-8. Supplemental zoning regulations.

Within the CBID boundaries set out in section 12-32-2(B), outdoor storage of merchandise, material, supplies, salvage materials, refuse or similar material shall not be permitted except as provided hereafter:

A. Materials and supplies necessary for the support of new construction, repair or alteration of a structure shall be permitted to be stored outdoors during a period beginning 30 days prior to commencement of construction and ending upon issuance of a certificate of use and occupancy by the building official.

B. In no event shall the outdoor storage of materials, supplies, merchandise, refuse or other similar material be permitted on the rooftop of any structure.

(Code 1985, § 7-69; Ord. No. 4268, § 2, 7-26-1994)

Sec. 12-40-9. Downtown parking facility revitalization and safety program.

A. *Intent and scope of the section.* This section is intended to create a new section to establish the downtown parking facility revitalization and safety program. In addition, this section designates downtown parking facilities as a priority area for inspections and enforcement of existing minimum standards for property maintenance, safety, and sanitation; and provide a framework for coordination between the city's code enforcement division and other city divisions and partner entities in addressing conditions of downtown parking facilities that may violate the IPMC or otherwise endanger public health, safety, and welfare.

B. *Definitions.*

1. *Downtown* means the geographic area defined by the Memphis 3.0 Comprehensive Plan, bounded generally by the Mississippi River to the west, A.W. Willis/North Parkway to the north, East Parkway to the east, and Crump Boulevard to the south.

2. *Parking facility* means any structure, surface lot, or combination thereof, open to the public for vehicular parking, whether for hourly, daily, monthly, or event-based use.

3. *Downtown public parking facility* means any parking facility located within downtown that is available for use by the general public, whether operated on a paid or unpaid basis.

4. *Parking garage* means any multi-level parking facility privately owned and managed that is accessible to the general public located in downtown Memphis.

5. *Code official* has the same meaning as in the IPMC as locally adopted, and includes any duly authorized representative or deputy of the code official acting within the scope of authority granted by the IPMC and city ordinances.

6. *Subject IPMC provisions* means, for purposes of downtown public parking facilities, the provisions of the IPMC as locally adopted that apply to nonresidential structures and related premises, including but not limited to sections 101, 102, 103, 104, 106, 107, 108, 109, 302, 304, 305, 308, 402, and 606, as they may be amended from time to time.

7. *Facility operators* means any individual, company, contractor, or entity responsible for managing, maintaining, or overseeing the daily operations of a parking facility.

8. *Program* means the downtown parking facility revitalization and safety program as established in this ordinance.

C. *Program objectives.* The program shall aim to:

1. Identify downtown public parking facilities whose physical condition, structural elements, lighting, sanitation, or maintenance may constitute a violation of the subject IPMC provisions or otherwise render the facility unsafe, unfit for occupancy, or unlawful under the IPMC.

2. Encourage regular observation and, as resources allow, periodic inspections of downtown public parking facilities by code enforcement, consistent with the authority granted by IPMC sections 103 and 104, to determine compliance with the subject IPMC provisions.

3. Promote timely correction of conditions that violate the subject IPMC provisions, including but not limited to:

   a. Unsafe structures or equipment, or structures unfit for human occupancy, as defined in IPMC Section 108;

   b. Exterior property and premises that are not maintained in a clean, safe, and sanitary condition as required by IPMC section 302;

   c. Exterior and interior structural elements (including but not limited to walls, ceilings, stairways, railings, decks, ramps, roofs, and other structural components) that are not maintained in sound condition and good repair as required by IPMC sections 304 and 305;

   d. Accumulations of rubbish and garbage, spills, fluids, or other hazards in violation of IPMC section 308;

   e. Inadequate light and illumination of interior or enclosed areas, where such conditions render the structure unsafe or unfit for use under IPMC section 402; and

   f. Elevators, escalators, and dumbwaiters that are not maintained in compliance with IPMC section 606 or applicable referenced codes.

D. *Program requirements.*

1. Inspections.

   a. The code official is authorized to make inspections of downtown public parking facilities pursuant to IPMC sections 103 and 104 and the city's property maintenance program, in order to determine compliance with the subject IPMC provisions.

   b. The code official may coordinate such inspections with other city divisions and with the downtown mobility authority as appropriate, provided that code enforcement's actions are in accordance with the IPMC and any other applicable city ordinances.

2. Findings and notices.

   a. Where a downtown public parking facility is found to be in violation of the subject IPMC provisions, the code official shall issue notices of violation, orders, or other remedies consistent with IPMC sections 106 and 107.

   b. Notices shall describe the conditions observed, identify the specific IPMC sections alleged to be violated, and provide a reasonable time to abate or correct the violations as required by the IPMC.

3. Unsafe structures and emergency measures.

   a. Where the condition of a parking garage or other downtown public parking facility constitutes an unsafe structure, unsafe equipment, or a structure unfit for human occupancy under IPMC section 108, the code official may condemn the structure or equipment and take such actions as are authorized by IPMC section 108, including placarding and requiring the structure to be vacated or secured.

   b. In cases of imminent danger, the code official may take emergency measures as authorized by IPMC section 109, includ-

ing ordering occupants to vacate, closing sidewalks or streets in coordination with the appropriate authorities, or taking temporary measures to secure the premises.

E. *Reporting.*

a. During the city's annual budget preparation and adoption process, or approximately six months following the effective date of the ordinance from which this section is derived if sufficient data is not available during the budget process, the administration shall make a presentation to the Memphis City Council, detailing the effectiveness of more focused enforcement of the IPMC as it relates to parking garages; and, if necessary, the administration shall, at that time, provide a detailed report that outlines any additional resources that may be beneficial in order to continue enforcement.

(Ord. No. 5943, § 1, 2-24-2026)

CHAPTER 12-44. CENTRAL BUSINESS IMPROVEMENT DISTRICT II*

Sections:

Sec. 12-44-1. Created.
Sec. 12-44-2. District boundaries.
Sec. 12-44-3. Special assessment.
Sec. 12-44-4. Authorized improvements, services and projects.
Sec. 12-44-5. Initial special assessment rates.
Sec. 12-44-6. District management corporation.
Sec. 12-44-7. Delegation of authority to district management corporation.
Sec. 12-44-8. Annual budget.
Sec. 12-44-9. Determination and apportionment of special assessments.
Sec. 12-44-10. Time and manner of payment of assessments.

Sec. 12-44-1. Created.

There is established and created the Memphis Central Business Improvement District II, pursuant to the Central Business Improvement District Act of 1990, T.C.A. title 7, chapter 84, part 5 (as amended from time to time, hereinafter in this chapter called the "1990 Act").

(Code 1985, § 7-86; Ord. No. 4468, § 2, 1-7-1997)

***State law reference—**Central Business Improvement District Act of 1971, T.C.A. § 7-84-101 et seq.

Sec. 12-44-2. District boundaries.

The central business improvement district created by this chapter shall be comprised of that area located in the city within the following boundaries:

That area bounded generally by the Tennessee state line on the west of the Interstate 55 bridge on the south, thence east along the Interstate 55 bridge, thence south along the shore line of the Mississippi River to a line extended from the ICC Railroad tracks to the Mississippi River, thence following the railroad tracks to Interstate 55, thence north along the center of Interstate 55 to Crump Avenue, thence following Crump Avenue to Danny Thomas, thence along Danny Thomas to Linden Avenue, thence east along Linden Avenue to Watkins Street, thence north generally along Watkins Street to Poplar Avenue, thence generally west along Poplar Avenue to Danny Thomas, thence north along Danny Thomas to the Wolf River, thence along the Wolf River to the point where it turns south, thence along the centerline of the Wolf River Riverfront Channel and following such line to the Tennessee state line.

(Code 1985, § 7-87; Ord. No. 4468, § 2, 1-7-1997)

Sec. 12-44-3. Special assessment.

All parcels of real property in the central business improvement district created by this chapter shall be subject to the provisions of the special assessment provided in this chapter; provided, however, that no assessments shall be levied against any government-owned property, including, but not limited to, property owned by the city or County of Shelby or by a public building authority created by either or both thereof, and provided further that the first $25,000.00 of appraised value of each parcel of real property shall be exempt from such assessment.

(Code 1985, § 7-88; Ord. No. 4468, § 2, 1-7-1997)

Sec. 12-44-4. Authorized improvements, services and projects.

The improvements, services and projects authorized to be provided within the central business improvement district created by this chapter, and other uses of special assessment revenues within the district, include:

A. Provide services for the improvement and operation of the district, including, but not limited to:

1. Promotion and marketing;

2. Advertising;
3. Health and sanitation;
4. Public safety;
5. Security;
6. Elimination of problems related to traffic and parking;
7. Recreation;
8. Cultural enhancements;
9. Consulting with respect to planning, management and development activities;
10. Maintenance of the improvements;
11. Activities in support of business or residential recruitment, retention or management development;
12. Aesthetic improvements, including the decoration, restoration or renovation of any public place or of building facades and exteriors in public view which confer a public benefit;
13. Furnishing of music in any public place;
14. Professional management, planning and promotion of the district; and
15. Design assistance;

B. Acquisition, construction, maintenance or operation of parking facilities;

C. Acquisition, construction, maintenance or operation of public improvements;

D. Acquisition of real property or an interest therein in connection with a public improvement;

E. To construct and install improvements across or along any public street, alley, highway, stream of water or watercourse; and

F. Construction and operation of child care facilities.

(Code 1985, § 7-89; Ord. No. 4468, § 2, 1-7-1997)

Sec. 12-44-5. Initial special assessment rates.

The initial rates of special assessment on all nonexempt property by property classifications (including without limitation any leasehold interest therein) are as follows:

Classification	*Assessment*
Single-family	$0.0/$100.00 of assessed value
Governmental	$0.0/$100.00 of assessed value
All other	$0.65/$100.00 of assessed value

The first $25,000.00 of appraised value of each tax parcel shall be exempt from such special assessment. (Code 1985, § 7-90; Ord. No. 4468, § 2, 1-7-1997)

Sec. 12-44-6. District management corporation.

Pursuant to T.C.A. § 7-84-519, Memphis Center City Commission is appointed to act as the district management corporation and advisory board for Memphis Central Business Improvement District II, for the purpose of making recommendations for the use of special assessment revenues and for the purpose of administering activities within and for the district, the making of improvements within and for the district, and the provision of services and projects within and for the district.

As so appointed, Memphis Center City Commission shall be known and referred to in this chapter as the "district management corporation."
(Code 1985, § 7-91; Ord. No. 4468, § 2, 1-7-1997)

Sec. 12-44-7. Delegation of authority to district management corporation.

The following powers are delegated to the district management corporation, pursuant to T.C.A. § 7-84-520:

A. To enter into contracts and agreements;

B. To hire employees or retain agents engineers, architects, planners, consultants, attorneys and accountants;

C. To acquire, construct, install and operate public improvements and parking facilities contemplated by this chapter and all property, rights, or interests incidental or appurtenant thereto and to dispose of real and personal property and any interest therein, including leases and easements in connection therewith;

D. To coordinate, manage, control and supervise:

1. All the business and affairs of the central business improvement district created by this chapter;

2. The acquisition, construction, installation and operation of public improvements and parking facilities within the district;

3. The operation of district services therein; and

4. The services provided by the city within the district, including without limitation, health, safety, sanitation, and construction code enforcement;

E. To adopt, promulgate, establish, enforce and amend from time to time written rules and regulations governing the design of building facades and exteriors in public view, signs and all other improvements, public or private, located within such parts of district II as shall be determined by the commission from time to time, including without limitation, different rules and regulations for different parts or neighborhoods within district II, a violation of such rules and regulations is declared to be a misdemeanor subject to punishment as provided in section 1-24-1;

F. To establish a design review board or other similar body to make recommendations to the commission regarding regulations to be promulgated with respect to the design of public building facades and exteriors in public view, signs and other public improvements located within district II and to review applications for and issue permits for such building facades and exteriors in public view, signs and other improvements;

G. To adopt, promulgate, establish, enforce and amend from time to time written rules and regulations governing operation of any or all Main Street Mall activities, including without limitation, regulation of noise, bicycles or other vehicles, privately used bicycles, floodlights, lights, music, machines, encroachments, concessions, leases, permits, fees, amusement devices, mechanical devices, sidewalk activity, and vehicular traffic and to assess uniform common mall fees; a violation of such rules and regulations is declared to be a misdemeanor subject to punishment as provided in section 1-24-1; and

H. To exercise all rights and powers necessary or incidental to or implied from the specific powers granted in this chapter. Such specific powers shall not be considered as a limitation upon any power necessary or appropriate to carry out the purposes and intent of this chapter.

(Code 1985, § 7-92; Ord. No. 4468, § 2, 1-7-1997)

Sec. 12-44-8. Annual budget.

On or before June 1 of each year, or such other time as may be set by the council, the district management corporation shall submit an annual budget for review and approval by the council of the city, provided however that the annual budget for the first fiscal year of operation of Memphis Central Business Improvement District II shall be submitted on or before March 1 of such year. This budget shall include a statement of the improvements to be made, the services to be provided and the projects and activities to be conducted during the ensuing fiscal year, the proposed program budget and a statement of the assessment rates for financing the proposed budget.
(Code 1985, § 7-93; Ord. No. 4468, § 2, 1-7-1997)

Sec. 12-44-9. Determination and apportionment of special assessments.

A. The council of the city shall determine annually, on or before July 1 of each year, the total costs and expenses of improvements, services and projects autho-

rized pursuant to this chapter which are to be paid from special assessments against all parcels of real property within the Memphis Central Business Improvement District II, as authorized by T.C.A. § 7-84-521, and annually apportion such costs and expenses upon the various properties located within such district in accordance with the benefits conferred upon the various properties. Such assessments and the apportionment thereof shall be determined in accordance with the 1990 Act, including T.C.A. §§ 7-84-521 through 7-84-528.

B. Changes may be made in the rates or additional rates of the special assessment, in accordance with the provisions of T.C.A. § 7-84-522.

C. After all assessments have been determined, an assessment roll shall be prepared by the council of the city, which shall show the location of the property, the owner of the property as shown in the records of the assessor, and the amount of the assessment.

D. Special assessments imposed pursuant to this chapter shall be in addition to assessments otherwise provided for, including without limitation, assessments pursuant to chapters 12-32 through 12-40.
(Code 1985, § 7-94; Ord. No. 4468, § 2, 1-7-1997)

Sec. 12-44-10. Time and manner of payment of assessments.

All special assessments levied pursuant to this chapter against property within the Memphis Central Business Improvement District II shall be made as of and become effective on January 10 in the calendar year following the imposition of such assessment (including the initial assessment and each annual assessment thereafter) and shall be payable on or before April 10 of such year; provided, however, that the assessment levied pursuant to this chapter against property within the Memphis Central Business Improvement District II for calendar year 1997 shall be made as of and become effective on the day after the adoption of this chapter by the council of the city, prorated for any partial year, and shall be payable on or before June 10, 1997.
(Code 1985, § 7-95; Ord. No. 4468, § 2, 1-7-1997)

CHAPTER 12-48. COMMON MALL AREA*

Sections:

Sec. 12-48-1. Definitions.
Sec. 12-48-2. Center city commission—Powers.
Sec. 12-48-3. Center city commission—Duties—Appeals.
Sec. 12-48-4. Center city commission—Meetings.
Sec. 12-48-5. Center city commission—Enforcement—Injunctive or other relief.
Sec. 12-48-6. Insurance.
Sec. 12-48-7. Regulation of vehicles.
Sec. 12-48-8. Violation—Penalty.

Sec. 12-48-1. Definitions.

As used in this chapter:

Amusement devices means any device created to perform for a customer a source of entertainment, other than coin-operated devices, mechanically operated or otherwise.

Bicycle or *wheeled vehicle* means any wheeled vehicle, whether propelled manually or motorized, offering services for pay for either a fixed base operator or otherwise.

Bicycle, private use, means the use by an individual for his or her personal use, using common mall passageways, including any entrance onto the mall or general public areas adjacent thereto.

Commission means the center city commission.

Common mall means that property used by the general public which width extends immediately from the front property line on the west side of the mall to the front property line on the east side of the mall and which length extends from Exchange Street on the north to McCall Street on the south, and which includes the land area known as Court Square and the north and south Court Streets immediately adjacent thereto, such Court Square area to retain its function as a public park and further includes West Court to the first north/south alley west of former Main Street.

Common mall transit vehicle means a vehicle designed specifically for common mall transportation or service and approved by the commission.

***Editor's note—**According to section 2-84-14 of the Code, this chapter is to be repealed upon the adoption by the commission of rules and regulations pursuant to section 12-44-7(G).

Concession means the serving of food or beverages in any form; sale of plants and flowers, wares of any type; by means of portable, semiportable or permanent equipment, carts or stands or the performances of services by any owner/operator or establishment operator.

Encroachment means the use of common mall property by any owner/operator or establishment owner for their own personal or private purposes to sell, solicit, give away, promote, or in any way further their business, charitable, or civic interests or the use of private property open to the mall and adjacent to it for any such purpose within four feet of the front property line of the property of any such owner/operator or establishment owner.

Establishment operator means an individual, company or group of persons operating in a building of a permanent nature immediately adjacent to the common mall area.

Fees means any charge levied by the commission for a permit, long-term or short-term lease as provided in the fee schedule, section 12-48-2, made a part of this chapter.

Floodlights means the use of any light, either on the building exterior or interior, to illuminate the immediate area or to produce attention of passersby or the general public.

Hold-harmless agreement means a written agreement whereby the owner/operator or establishment operator holds the commission and the city harmless from any losses and/or claims arising out of their use of the common mall area.

Liability and workers compensation insurance means insurance provided at the expense of the owner/operator or establishment operator whereby such operator's liability for damages or injury to their employees, members of the public and third parties are covered by any insurance carrier satisfactory to the commission.

Lights means the use of any lights, whether flashing, beaming, electronically operated or reflecting, which may attract individuals or customers inconsistent with written rules and/or regulations established by the commission.

Long-term lease means agreement as to length of time and use and/or rental of space or services upon the common mall by private or public concerns or individuals for a period of one year or more and for which a fee is collected. Long-term leases are to be negotiated by the commission with such assistance from city departments as required and within the framework set out in the fee schedule, section 12-48-2, and such leases are subject to approval by the city council and execution by the mayor.

Music means any type of musical sound, whether the original source emanates from within a building or is produced from a mechanism attached to the exterior of a business or consists of some other freestanding or freewheeling device and whether fixed or portable.

Noise means any sound produced by any means which can be heard upon the common mall.

Owner/operator means an individual, company, or group of persons who have obtained permits or long-term or short-term leases to operate a single venture upon the common mall.

Permit means any use granted by the commission for a period of time, up to 90 days and subject to extensions thereof, with or without a fee, for any purpose and subject to written regulations of the commission.

Property rights means any right, granted by the commission, of any owner/operator or establishment operator to use the common mall contingent upon written rules and regulations set out by such commission.

Short-term lease means agreement as to length of time and use and/or rental of space or services upon the common mall by private or public concerns or individuals for a period up to one year and for which a fee is collected. Short-term leases are to be negotiated by the commission with such assistance from city departments as required and within the framework set out in the fee schedule, section 12-48-2, and such leases are subject to execution by the mayor.

Sidewalk activity means the use of the common mall area immediately in front of a business or establishment carried on by any owner/operator or establishment operator for any craft, display, promotion or service to be rendered by such business establishment or the use of private property open to the mall and adjacent to it for any such purpose within four feet to the front property line of such business or establishment.

Vehicles means the use by any person of any type vehicle upon the common mall.

(Code 1967, § 10½-40; Code 1985, § 7-76; Ord. No. 2383, § 2, 3-9-1976; Ord. No. 2555, § 2, 2-22-1977; Ord. No. 2839, § 1(1), (2), 3-6-1979)

Sec. 12-48-2. Center city commission—Powers.

The center city commission is empowered to establish written rules and regulations, subject to the approval of the city council, governing operation of all common mall activities, including, but not limited to, regulation of noise, bicycles or wheeled vehicles, privately used bicycles, floodlights, lights, music, machines, encroachments, concessions, leases, permits, fees, devices either amusement or mechanical, sidewalk activity; to limit vehicular traffic; and to assess uniform common mall fees.
(Code 1967, § 10½-42; Code 1985, § 7-77; Ord. No. 2383, § 2, 3-9-1976; Ord. No. 2555, § 2, 2-22-1977; Ord. No. 2389, § 1(3), 3-6-1979)

Sec. 12-48-3. Center city commission—Duties—Appeals.

A. In addition to the commission devising written rules and regulations, it shall sit as a body to hear complaints and/or suggestions from common mall owner/operators and establishment operators at regular or special meetings, upon the giving of proper notice to the general public; render decisions based upon its findings and implement same into written rules and regulations. Appeal of any decision of the commission may be carried forward the city council, provided written appeal is accompanied by petition containing at least 100 signatures of individual mall owner/operators and/or establishment operators within ten days from date of such hearing before the commission. City council decisions shall be final.

B. It shall be the duty of the commission to secure both hold-harmless agreements and proof of liability and workers compensation insurance from prospective owner/operators or establishment operators utilizing the common mall in their endeavors, naming the commission and the city as additional insureds, with certificates of insurance provided on all long-term and short-term leases prior to the execution of such leases; and copies of such certificates shall be promptly forwarded to the city insurance coordinator.

C. On permits not requiring long-term or short-term leases, the commission will have the option of securing proof of liability and workers compensation insurance or a hold-harmless agreement in favor of the commission and city, as it deems appropriate.
(Code 1967, § 10½-43; Code 1985, § 7-78; Ord. No. 2383, § 2, 3-9-1976; Ord. No. 2555, § 2, 2-22-1977)

Sec. 12-48-4. Center city commission—Meetings.

The center city commission shall meet at least once a month at such time and place as such commission may fix by resolution. Special meetings may be called from time to time by the chairperson. A majority of the members of the commission shall constitute a quorum for the transaction of business. Decisions shall be based upon a vote of the majority of the commission. The commission shall cause a proper record to be kept of its proceedings.
(Code 1967, § 10½-44; Code 1985, § 7-79; Ord. No. 2383, § 2, 3-9-1976; Ord. No. 2555, § 2, 2-22-1977)

Sec. 12-48-5. Center city commission—Enforcement—Injunctive or other relief.

Enforcement of this chapter shall be delegated to any employee of the center city commission staff, who may obtain a summons through the city municipal court, and also to any city police officer, who may issue a summons or misdemeanor citation or effect a physical arrest for violations. In addition to the remedies provided herein, the center city commission may issue an order requiring any violator to cease or suspend operation of the facility causing the violation and/or initiate court proceedings to enjoin such violation.
(Code 1967, § 10½-47; Code 1985, § 7-82; Ord. No. 2383, § 2, 3-9-1976; Ord. No. 2555, § 2, 2-22-1977; Ord. No. 2839, § 1(4), 3-6-1979)

Sec. 12-48-6. Insurance.

A. Where liability and workers compensation insurance is required, the limits and coverages are as follows:

Coverages	*Limits*
Comprehensive general liability:	
Bodily injury—	$500,000.00 each occurrence; $500,000.00 aggregate*
Premises operations	
Independent contractor	
Products-completed operations*	
Blanket contractual	
Property damage—	$100,000.00 each occurrence; $100,000.00 aggregate*
Premises operations	

Coverages	*Limits*
Independent contractor	
Products-completed operations*	
Blanket contractual	
Workers' compensation and employer's liability*	Statutory limits

*These coverages and limits may be waived or adjusted by the commission if, in the opinion of the city insurance coordinator, the exposure and circumstances do not justify their inclusion.

B. All moneys received from fees, permits and leases shall be paid into the general funds of the city less the costs or expenses borne by the board incidental to issuance of the permit, lease, or other property rights.
(Code 1967, § 10½-48; Code 1985, § 7-83; Ord. No. 2383, § 2, 3-9-1976; Ord. No. 2555, § 2, 2-22-1977)

Sec. 12-48-7. Regulation of vehicles.

A. No motorized or nonmotorized wheeled vehicles (except for police, fire and other emergency vehicles, official mall transit vehicles, and wheelchairs or similar vehicles for the handicapped) shall be allowed on the common mall area (other than North and South Court Streets from Second Street to the mall) unless a permit for such use shall first have been obtained from the center city commission. Permits will be issued only in connection with special events or construction or renovation of buildings facing the mall or for mall maintenance and repairs. Permits will not be issued for regular delivery vehicles, which shall park in designated loading zones or alleys in accordance with applicable city ordinances.

B. Except as otherwise provided in this section, the common mall area shall be designated as a tow-away zone and any illegally parked vehicles thereon shall be subject to the provisions of section 11-40-3 of this Code.

C. Manually propelled vehicles such as bicycles, skateboards, etc. and non-motorized wheeled vehicles such as pedi-cabs shall be allowed on the common mall area without a permit and are subject to the following rules of operation:

1. When operating a bicycle, skateboard, or other manually propelled vehicle or non-motorized wheeled vehicle on the common mall area, such person shall yield the right-of-way to any pedestrian or trolley.
2. Any operator of a bicycle, skateboard, or other manually propelled vehicle or non-motorized wheeled vehicle shall give an audible signal before overtaking and passing any pedestrian. The audible signal shall be given verbally or via a bell, and shall not be given via a whistle or siren.
3. No person shall park a bicycle or non-motorized wheeled vehicle upon the common mall area in such a manner as to obstruct pedestrian or trolley traffic.

(Code 1967, § 10½-49; Code 1985, § 7-84; Ord. No. 2383, § 2, 3-9-1976; Ord. No. 2839, § 1(5), 3-6-1979; Ord. No. 5432, § 1, 1-3-2012)

Sec. 12-48-8. Violation—Penalty.

Violation of any provision of this chapter or of any of the rules of the center city commission is declared to be a misdemeanor. The penalty for each such violation shall be a fine of not less than $15.00 nor more than $50.00.
(Code 1967, § 10½-50; Code 1985, § 7-85; Ord. No. 2383, § 2, 3-9-1976; Ord. No. 2839, § 1(6), 3-6-1979)

CHAPTER 12-50. QUALIFIED PUBLIC USE FACILITY—BEALE STREET

Sections:

Sec. 12-50-1. Designation as qualified public use facility.
Sec. 12-50-2. Creation of district.
Sec. 12-50-3. District boundaries.
Sec. 12-50-4. Surcharge assessment.
Sec. 12-50-5. Surcharge assessment rate.
Sec. 12-50-6. Mandatory registration, filing of returns, payment of surcharge and licensing.
Sec. 12-50-7. Delinquent payments.
Sec. 12-50-8. Allocation and use of revenues.
Sec. 12-50-9. Remittance of revenues.
Sec. 12-50-10. Termination of surcharge.

Sec. 12-50-1. Designation as qualified public use facility.

The hotel to be constructed at the address municipally known as One Beale Street, Memphis, Tennessee, containing not less than not less than 250 rooms, and related

retail, commercial, and parking space (the "One Beale QPUF"), is hereby designated as a qualified public use facility as described in T.C.A. 67-4-30 (as amended from time to time, hereinafter in this chapter called the "Act").
(Ord. No. 5770, § 1, 1-26-2021)

Sec. 12-50-2. Creation of district.

There is created the One Beale Surcharge District (the "District") in accordance with the Act.
(Ord. No. 5770, § 1, 1-26-2021)

Sec. 12-50-3. District boundaries.

The District created by this chapter shall be comprised of the area located in the city within the following boundaries:

Approximately 5.265 acres known as One Beale as shown on Plat of record in Plat Book 279, Page 14 in the Register's Office of Shelby County, Tennessee consisting of:

(Phase I) Final Plat - PD 18-10, Phase One, The Landing at One Beale as shown on Plat of record in Plat Book 281, Page 3 in the Register's Office of Shelby County, Tennessee (approximately 2.26 acres) consisting of:

(a) The Residential Unit created under Master Deed, Declaration of Covenants, Conditions and Restrictions of The Landing Condominium recorded as Instrument No. 201906100056198 in the Register's Office of Shelby County, Tennessee; and

Municipal Address: 1 Dr. ML King, Jr. Avenue
Tax Parcel ID: 002098 00010

(b) The Parking Unit created under Master Deed, Declaration of Covenants, Conditions and Restrictions of The Landing Condominium recorded as Instrument No. 201906100056198 in the Register's Office of Shelby County, Tennessee.

Municipal Address: 1 Dr. ML King, Jr. Avenue
Tax Parcel ID: 002098 00009

(Phase II) Final Plat - PD 18-10, Phase Two, Hyatt Centric at One Beale as shown on Plat of record in Plat Book 281, Page 3 in the Register's Office of Shelby County, Tennessee (approximately 2.26 acres).

Municipal Address: 33 Beale Street
(0 Wagner Place)
Tax Parcel ID: 002099 00002C

(Phase III) Final Plat - PD 18-10, Phase Three, as shown on Plat of record in Plat Book 288, Page 24 in the Register's Office of Shelby County, Tennessee (approximately 0.654 acres) consisting of:

Parcel 1, Hyatt 2 Parcel:

TO THE POINT OF BEGINNING AND CONTAINING 2,935 SQUARE FEET OR 0.067 ACRES.

Municipal Address: 245 South Front Street, Memphis, Tennessee
Tax Parcel ID: 002099 00008

(Phase IV) PD 18-20, Phase Four, Grand Hyatt at One Beale (approximately 1.162 acres):

Description of the One Beale, LLC property recorded at Instrument No. 07085520 in Memphis, Shelby County, Tennessee:

Beginning at the intersection of the south line of Beale Street (60' R.O.W.) and the west line of Wagner Place (50' R.O.W.);

thence south 33 degrees 55 minutes 04 seconds west, 355.43 feet to a point in the north line of Parcel II of the Carlisle Landing, LLC property recorded at Instrument No. 04011935; thence north 55 degrees 44 minutes 29 seconds west with the north line of Parcel II of said property recorded at Instrument No. 04011935, 150.00 feet to a point in the east line of Tennessee Street (closed); thence north 33 degrees 55 minutes 04 seconds east with the east line of said Tennessee Street, 319.39 feet to a point in the south line of the aforesaid Beale Street; thence south 69 degrees 16 minutes 11 seconds east with the south line of said Beale Street, 154.06 feet to the Point of Beginning and containing 50,612 square feet or 1.162 acres of land.

Municipal Address: 1 Beale Street (245 Wagner PL), Memphis, Tennessee

Tax Parcel ID: 002070 00001C

(Ord. No. 5770, 1-26-2021)

Sec. 12-50-4. Surcharge assessment.

The making of sales (as such term is defined in the Act) by engaging in any business (as such term is defined in the Act), except for those businesses exempt under T.C.A. 67-4-712, in the district is declared to be a privilege. All such sales shall be subject to the surcharge assessment provided in this chapter and the city hereby levies such surcharge on all sales.
(Ord. No. 5770, § 1, 1-26-2021)

Sec. 12-50-5. Surcharge assessment rate.

The surcharge levied by this section shall be equal to five percent of the sales price (as such term is defined in the Act).
(Ord. No. 5770, § 1, 1-26-2021)

Sec. 12-50-6. Mandatory registration, filing of returns, payment of surcharge and licensing.

All persons carrying on business (as such term is defined by the Act) in the district, and all person who may hereafter carry on business in the district, shall register with the city treasurer for the purpose of assessment and collection of the surcharge. All persons so registered shall file a return detailing sales for the prior month and surcharge collected on account of such sales on or before the 20th day of each calendar month and shall remit all surcharge collected during such month, together with any delinquent payments of surcharge, with such return. Each person who files a return and remits the appropriate amount of surcharge shall be granted a license which such person shall display with their place of business. The city treasurer is hereby authorized and directed to develop the forms for registration and filing monthly returns, as well as rules and regulations regarding the filing of the same.
(Ord. No. 5770, § 1, 1-26-2021)

Sec. 12-50-7. Delinquent payments.

Any nonpayment or delinquent payment of any surcharge shall be subject to the rights and remedies described in Chapter 5-24 of the Memphis City Code.
(Ord. No. 5770, § 1, 1-26-2021)

Sec. 12-50-8. Allocation and use of revenues.

All revenues received by the city as a result of the surcharge, except for the reasonable expenses of the city treasurer incurred as a result of its administrative duties under this chapter which shall not exceed one percent of the revenues, shall be designated for, and allocated to the payment of, the cost of the One Beale QPUF, including without limitation all debt issued or incurred in the acquisition, construction, leasing, renovation and equipping by the Memphis Center City Revenue Finance Corporation ("CCRFC"), or any other similar instrumentality of the City of Memphis, including principal, interest and other fees and charges.
(Ord. No. 5770, § 1, 1-26-2021)

Sec. 12-50-9. Remittance of revenues.

On or before the 15th day of each month, the city treasurer shall remit all revenues received during the prior month, less the aforedescribed administrative fee, to CCRFC or its assignee. CCRFC, or its assignee, are hereby directed to deposit such revenues in accordance with the Act and any agreements governing the debt issued or incurred by CCRFC on account of the qualified public facility.
(Ord. No. 5770, § 1, 1-26-2021)

Sec. 12-50-10. Termination of surcharge.

The surcharge shall continue until terminated pursuant to the terms of the Act.
(Ord. No. 5770, § 1, 1-26-2021)

CHAPTER 12-52. GUIDELINES FOR EVENTS*

Sections:

Sec. 12-52-1. Definitions.
Sec. 12-52-2. Permit required.
Sec. 12-52-3. Exceptions.
Sec. 12-52-4. Permit requirements.
Sec. 12-52-5. Fees.
Sec. 12-52-6. Police protection.
Sec. 12-52-7. Nondiscrimination.
Sec. 12-52-8. Standards for issuance.
Sec. 12-52-9. Modification or denial.
Sec. 12-52-10. Appeal procedure.
Sec. 12-52-11. Notice to city and other officials.
Sec. 12-52-12. Contents of permit.
Sec. 12-52-13. Duties of permittee.
Sec. 12-52-14. Prohibitions.
Sec. 12-52-15. Public conduct during parades or public assemblies.
Sec. 12-52-16. Revocation of permit.
Sec. 12-52-17. Violations—Fines and penalties.

Sec. 12-52-1. Definitions.

The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

City means the City of Memphis, Tennessee.

Director of police means the director of the police services division of the city or his or her designee.

Motorized vehicle right-of-way means any place or way set aside or open to the general public for purposes of motorized vehicular traffic, including any berm or shoulder, parkway, right-of-way, or median strip thereof.

Parade means any procession or motorcade consisting of persons, animals, or vehicles or a combination thereof upon the public rights-of-way within the city that interfere with or have a tendency to interfere with the normal flow or regulation of traffic upon the public rights-of-way. Parade does not include a private motorcade of vehicles transporting persons within the city limits from one destination to another destination with no intent to attract public attention or interfere with the normal flow or regulation of traffic upon public streets and rights-of-ways.

Pedestrian right-of-way means any area or way set aside or open to the general public for purposes of pedestrian or non-motorized vehicle traffic, whether or not it is paved, and including but not limited to such pedestrian and bicycle infrastructure as greenlines, greenways, and riverwalks.

Permit office means the office or department responsible for the issuance of any and all permits required under this chapter.

Person in this chapter should be read to include any person or collections of persons, such as firms, partnerships, associations, corporations, companies, or organizations of any kind.

Pre-approved route means any route approved by city council as route of travel for a parade or race, including the assembly, staging and disbanding areas.

Public assembly means any meeting, march, demonstration, picket line, rally, or gathering of more than 25 persons for a common purpose as a result of prior planning that interferes with or has a tendency to interfere with the normal flow or regulation of pedestrian or vehicular traffic or occupies any public area in a place open to the general public, to the hindrance of others.

Public assembly permit means a permit as required by this chapter for public assemblies, as defined herein.

Race means a planned speed event, for competitive or charitable purposes, in which a collection of persons traverse along a set route, impeding traffic in the rights-of-way or otherwise, by foot or otherwise, within the city.

Sidewalk means any area or way set aside or open to the general public for purposes of pedestrian traffic or non-motorized vehicle traffic, whether or not it is paved, and including but not limited to such pedestrian and bicycle infrastructure as greenlines, greenways, and riverwalks.

***Editor's note—**Ord. No. 5675, § 1, adopted Feb. 6, 2018, repealed the former chapter 12-52 and enacted a new chapter 12-52 as set out herein. The former chapter 12-52 pertained to parades and public assemblies and derived from Code 1985, §§ 21-28(a)—(r); Ord. No. 4576, 4-21-1998; Ord. No. 4875, 6-19-2001; Ord. No. 5502, 3-19-2013.

Special event means any parade or race submitted to the permit office for review.

Special event permit means a permit as required by this chapter for parades or races or any other event not meeting the definition of a public assembly.

Street means any place or way set aside or open to the general public for purposes of vehicular traffic, including any berm or shoulder parkway, right-of-way, or median strip thereof.

Structure means any means, permanent or temporary, by which normal vehicular or other traffic is diverted or impeded in the context of parades, races or public assemblies as defined in this section, including but not limited to barricades, signs, cones, ropes, and vehicles.
(Ord. No. 5675, § 1(a), 2-6-2018)

Sec. 12-52-2. Permit required.

No person shall engage in or conduct any parade, race, and/or public assembly unless a permit is issued by the permit office after consultation with the director of police.
(Ord. No. 5675, § 1(b), 2-6-2018)

Sec. 12-52-3. Exceptions.

This chapter shall not apply to the following:

A. Funeral processions/proceedings by vehicle under the most reasonable route from the funeral home, church or residence of the deceased to the place of interment;

B. Students going to and from school classes or participating in educational activities, provided that such conduct is under the immediate direction and supervision of the proper school authorities;

C. A governmental agency acting within the scope of its functions;

D. Spontaneous events occasioned by news or affairs coming into public knowledge within seven days of such public assembly, provided that the organizer thereof gives written notice to permit office at least 48 hours prior to such public assembly; and

E. Private gatherings, affairs or activities on private property that may inadvertently interfere with the normal flow or regulation of traffic upon the public streets.

(Ord. No. 5675, § 1(c), 2-6-2018)

Sec. 12-52-4. Permit requirements.

A. A person seeking a permit shall file an application with the permit office on forms provided by such officer and the application shall be signed by the applicant under oath.

B. The application deadline for permits are as follows:

1. An application for a "special event permit" shall be filed with the permit office at least 90 calendar days and not more than 180 days before the parade or race is proposed to commence.

2. An applicant for a "public assembly permit" shall be filed with the permit office at least 14 business days before public assembly is proposed to commence.

3. The permit office, in consultation with the director of police, may waive the minimum filing period and accept an application filed within a shorter period if, after due consideration of the date, time, place and nature of the event the anticipated number of participants, and the city services required in connection with the event, he or she determines that the waiver will not present a hazard to public safety, health, and/or welfare.

C. The application for a permit shall set forth the following information:

1. The name, address and telephone number of the person seeking to conduct such event;

2. The names, addresses and telephone numbers of the headquarters of the organization for which the event is to be conducted, if any, and the names of the authorized and responsible heads of the organization;

3. The requested date of the event;

4. Any route to be traveled, including the starting point and the termination point;

5. If applicable, a statement that a pre-approved route will be used for the special event or race;

6. The approximate number of persons who, and animals and vehicles which, will constitute such event and the type of animals and description of the vehicles;

7. The hours when such event will start and terminate;

8. A statement as to whether the event will occupy all or only a portion of the width of the streets proposed to be traversed;

9. The location by street of any assembly areas for such event;

10. The time at which units of the event will begin to assemble at any such area;

11. The intervals of space to be maintained between units of such event;

12. If the event is designed to be held by, or on behalf of, any person other than the applicant, the applicant for such permit shall file an oath from that person with the permit office authorizing the applicant to apply for a permit on his or her behalf;

13. The type of event including a description of activities planned during the event;

14. A description of any recording equipment, sound amplification equipment, banners, signs or other attention-getting devices to be used in connection with the event;

15. The approximate number of participants (spectators are by definition not participants);

16. The approximate number of spectators;

17. A designation of any public facilities or equipment to be utilized;

18. If applicant is not a resident of Shelby County, the applicant shall place a surety bond and deposit equal to 50 percent of the total cost as deemed applicable by the director of police;

19. For a special events permit, the applicant's plan and method of notification to any neighboring residential and commercial parties affected by a race or parade for approval by the permit office; and

20. Any additional information that either the permit office or director of police finds reasonably necessary to make a fair determination as to whether a permit should be issued.

D. Pre-approved routes.

1. The permit office shall submit a list of all pre-approved routes for races and parades to the city council during the second meeting in November for consideration.

2. The city council shall approve the pre-approved routes by resolution at the next regular meeting.

3. These pre-approved routes shall be constructed to minimize the use of motorized vehicular rights-of-way, particularly at highly trafficked times of day, residential streets without sidewalks, and to maximize the use of pedestrian rights-of-way.

(Ord. No. 5675, § 1(d), 2-6-2018)

Sec. 12-52-5. Fees.

A nonrefundable fee of $50.00 to cover administrative costs of processing the permit shall be paid to the city by the applicant when the application is filed, except in cases where the event will require the partial or complete closure of a public street, sidewalk, or right-of-way or diversion of the normal flow of vehicular or pedestrian traffic with structures, an additional nonrefundable fee of $100.00 shall be paid when the application is filed.

(Ord. No. 5675, § 1(e), 2-6-2018)

Sec. 12-52-6. Police protection.

A. The director of police shall determine whether and to what extent an event will reasonably require additional police protection to control traffic and preserve public safety. If additional protection for the event is necessary, the director of police shall notify the applicant.

B. The director of police shall base his decision on the types of public safety measures required for the proposed event on the size, location, duration, time and date of the event, the number of streets and intersections blocked or affected by the event, the need to detour or preempt citizen travel and use of the streets and sidewalks and realistic concerns and threats of social disorder, personal injuries, property damage and individual rights violations arising from the event. The speech content of the event shall not be a factor in determining the amount of police protection necessary, unless past experiences with similar events have demonstrated a need for additional police protection to protect event participants, spectators, passers-by and law enforcement personnel, and to preserve free speech and assembly rights of event sponsors and participants.

C. The applicant shall have the duty to secure the police protection deemed necessary by the director of police at the sole expense of the applicant. The director of police shall have the authority to enter into agreements with any applicant for additional police protection including security for the costs thereof.

D. The director of police shall be fully authorized to implement and require reasonable steps to forestall potential disorder and civil hostilities among participants, observers and opponents of a proposed event, including but not limited to: zoning of areas in proximity of the event site, crowd control measures, metal detector searches of all entrants to the event site, traffic rerouting, and cessation of street parking. Any such measures shall be narrowly tailored to advance the city's interest in public safety and protection of the rights to free speech and assembly.

(Ord. No. 5675, § 1(f), 2-6-2018)

Sec. 12-52-7. Nondiscrimination.

The permit office, after consultation with the director of police, shall uniformly consider each application upon its merits and shall not discriminate in granting or denying permits under this chapter based upon political, religious, ethnic, race, disability, sexual orientation or gender-related grounds.
(Ord. No. 5675, § 1(g), 2-6-2018)

Sec. 12-52-8. Standards for issuance.

A. The permit office shall consider the following factors prior to issuing a permit upon consideration of the application and other information as may be obtained:

1. The conduct of the event will not substantially interrupt the safe and orderly movement of other pedestrian or vehicular traffic contiguous to its route or location;
2. The conduct of the event will not require the diversion of so great a number of city police officers to properly police the line of movement and the areas contiguous thereto as to prevent normal police protection of the city;
3. The concentration of persons, animals, and vehicles at assembly points of event will not unduly interfere with proper fire and police protection of, or ambulance service to, areas contiguous to such public assembly areas;
4. The conduct of the event is not reasonably likely to cause injury to persons or property;
5. The event is scheduled to move from its point of origin to its point of termination expeditiously and without unreasonable delays in route;
6. Adequate sanitation and other required health facilities are or will be made available in or adjacent to any event areas;
7. The applicant has secured the police protection, if any required;
8. Such event is not for the primary purpose of advertising any product, goods or event that is primarily for private profit and the parade itself is not primarily for profit. The prohibition against advertising any product, goods or event shall not apply to signs identifying organizations or sponsors furnishing or sponsoring exhibits or structures used in the parade;
9. No event permit application for the same time and location is already granted or has been received and will be granted;
10. No event permit application for the same time but not location is already granted or has been received and will be granted, and the police resources required for that prior event are so great that in combination with the subsequent proposed application, the resulting deployment of police services would have an immediate and adverse effect upon the welfare and safety of persons and property;
11. No event is scheduled elsewhere in the city where the police resources required for that event are so great that the deployment of police services for the proposed event would have an immediate and adverse effect upon the welfare and safety of persons and property;
12. For a "special events permit", the applicant has submitted a sworn oath confirming the notification of the date, time and location of event to any neighboring residential and commercial parties affected by the event as approved by the permit office at least 60 days prior to event of any requested route not previously approved pursuant to subsection 12-52-4(D);
13. The applicant has agreed in writing to defend, hold harmless and indemnify the city for any and all claims, lawsuits or liability including attorneys' fees and costs allegedly arising out of loss, damage or injury to person or person's property occurring during the course of or pertaining to the event caused by the conduct of employees or agents of the applicant.
14. The director of police has issued written approval for the police protection for event;
15. The applicant meets all of the requirements of this section.

B. No special event permit that is utilizing a route other than a pre-approved route shall be granted when the event will require the partial or complete closure of a public street, sidewalk, or right-of-way or diversion of the normal flow of vehicular or pedestrian traffic with structures unless either no opposition has been forthcoming from the affected public or, in the case of opposition, advance approval for is obtained from the city council:

1. Any neighboring residential or commercial party may file written opposition to an applica-

tion for a special event permit. Written opposition must be received by the permit office at least 45 days prior to the commencement of the event.

2. The permit office shall immediately notify council administrator and council records of the written opposition so that an item might be added to the next scheduled city council agenda, or in the case that the agenda has already been published, to the immediately following city council agenda.

3. Permit cases shall be heard before the council in both the public safety committee and shall be before the full council on the same day, unless the permit applicant agrees to a delay.

4. Permit cases shall require a simple majority of members present for approval.

5. Upon the council approving, denying, or amending a permit request, the permit office shall approve or deny the permit application within five business days, still subject to the conditions laid out above.

(Ord. No. 5675, § 1(h), 2-6-2018)

Sec. 12-52-9. Modification or denial.

A. The permit office shall act promptly upon a timely filed application for all permits.

1. For all special event permits, the permit office will notify the applicant of denial or modification at least 30 days prior to the commencement of the event, or within three days of any decision by city council under section 12-52-8(B), if applicable.

2. For all public assembly permits, the permit office will notify the applicant of denial or modification at least five days prior to the commencement of the event.

B. The permits office in consultation with administration officials may modify the conduct of the event at a date, time, location or route different from that named by the applicant in a manner that protects the lives, safety, health, welfare and property of the general public.

C. Upon receipt of written notice, and applicant desiring to accept the modifications must file a written notice of acceptance with the permit office within three business days.

D. The permit office shall issue in writing a denial and reasons thereof to the applicant.

(Ord. No. 5675, § 1(i), 2-6-2018)

Sec. 12-52-10. Appeal procedure.

A. Any applicant shall have the right to appeal the permit office's denial of an event permit to the city council. The denied applicant shall make the appeal within five calendar days after receipt of the denial by filing a written notice with the permit office and a copy of the notice with the city comptroller.

B. In the event that the city council rejects an applicant's appeal, or in the rare event that an eligible council meeting does not fall within the time between the denial and the proposed event, the applicant may file an immediate request for review with a court of competent jurisdiction.

(Ord. No. 5675, § 1(j), 2-6-2018)

Sec. 12-52-11. Notice to city and other officials.

Immediately upon the receipt or issuance, as appropriate, of a permit, the permit office shall send a copy thereof to the following additional persons:

A. City attorney;

B. The director of police;

C. The director of fire services;

D. The city engineer;

E. The director of public works;

F. The head of each public transportation agency, if the regular routes of public transportation will be affected; and

G. The city council chair.

(Ord. No. 5675, § 1(k), 2-6-2018)

Sec. 12-52-12. Contents of permit.

Each permit shall state the following information:

A. Starting and approximate ending time;

B. Minimum speed of parade units;

C. Maximum speed of parade units;

D. Maximum interval of space to be maintained between parade units;

E. The portions of the rights-of-way that may be occupied by the event;

F. The maximum length of the route(s) in kilometers or fractions thereof; and

G. Such other information as either the permit office or the director of police shall find necessary to the enforcement of this chapter.

(Ord. No. 5675, § 1(l), 2-6-2018)

Sec. 12-52-13. Duties of permittee.

A. A permittee hereunder shall comply with all permit directions and conditions and with all applicable laws and ordinances.

B. The parade, race or public assembly chairperson or other person heading such activity shall carry the event permit upon his or her person during the conduct of the event.

(Ord. No. 5675, § 1(m), 2-6-2018)

Sec. 12-52-14. Prohibitions.

The following prohibitions shall apply to all permitted events as defined by this chapter:

A. It is unlawful for any person to stage, present or conduct any parade, race or public assembly without first having obtained an event permit as herein provided, except in case of exemptions herein provided;

B. It is unlawful for any person to participate in a parade, race or public assembly for which the person knows an event permit has not been granted;

C. It is unlawful for any person in charge of, or responsible for the conduct of, a duly licensed parade, race or public assembly to knowingly fail to comply with any condition of the event permit;

D. It is unlawful for any person to engage in any parade, race or public assembly activity that would constitute a substantial hazard to the public health, safety or welfare, or that would materially interfere with or endanger the public peace or rights of residents to the quiet and peaceful enjoyment of their property;

E. It is unlawful for any person to ride, drive or cause to be ridden or driven any animal or any animal drawn vehicle upon any public right-of-way, unless specifically authorized by the permit;

F. It is unlawful for any person participating in a parade, race or public assembly to violate municipal ordinances and any applicable laws of the State of Tennessee;

G. It is unlawful for any participant, spectator or person at a parade, race or assembly to possess or carry weapons in violation of any applicable law of the State of Tennessee; and

H. It is unlawful to wear a mask or disguise with the intent to violate any law of the State of Tennessee.

(Ord. No. 5675, § 1(n), 2-6-2018)

Sec. 12-52-15. Public conduct during parades or public assemblies.

A. No person shall unreasonably hamper, obstruct or impede, or interfere with any parade or public assembly or with any person, vehicle or animal participating or used in a parade or public assembly.

B. No driver of a vehicle shall drive between the vehicles or persons comprising a parade or public assembly when such vehicles or persons are in motion and are conspicuously designated as a parade or public assembly.

C. The director of police shall have the authority, when reasonably necessary, to prohibit or restrict the parking of vehicles along a street constituting a part of the route of a parade or public assembly. The director of police shall post signs to that effect, and it is unlawful for any person to park or leave unattended any vehicle in violation thereof. No person shall be liable for parking on a street unposted in violation of this chapter.

(Ord. No. 5675, § 1(o), 2-6-2018)

Sec. 12-52-16. Revocation of permit.

The director of police shall have the authority to revoke a permit instantly upon violation of the conditions or standards for issuance as set forth in this chapter or when a public emergency arises where the police resources required for that emergency are so great that

deployment of police services for the event would have an immediate and adverse effect upon the welfare and safety of persons or property.
(Ord. No. 5675, § 1(p), 2-6-2018)

Sec. 12-52-17. Violations—Fines and penalties.

Any person violating the provisions of any section of this chapter shall, upon conviction, be punished by a fine not to exceed $50.00 and any other penalties which may be applicable.
(Ord. No. 5675, § 1(q), 2-6-2018)

CHAPTER 12-56. POLES, WIRES AND CONDUITS

Sections:

Article 1. General Provisions

Sec. 12-56-1. Compliance with National Electrical Safety Code.
Sec. 12-56-2. Dead wires or wires not in use.
Sec. 12-56-3. Trees near wires or street lights.

Article 2. Poles

Sec. 12-56-4. Supervision.
Sec. 12-56-5. Permit to install, reset, replace or repair—Required—Exceptions.
Sec. 12-56-6. Permit—Application.
Sec. 12-56-7. Permit—Refusal to issue.
Sec. 12-56-8. Joint construction.
Sec. 12-56-9. Reservation of space for city wires.
Sec. 12-56-10. Identification of poles located in street right-of-way.
Sec. 12-56-11. Privilege tax on poles in streets.
Sec. 12-56-12. Removal, replacement or relocation of poles in public places.

Article 3. Conduits

Sec. 12-56-13. Conduit district established.
Sec. 12-56-14. Wires to be underground within conduit district—Exceptions.
Sec. 12-56-15. Permit to construct, alter or repair.
Sec. 12-56-16. Bond.
Sec. 12-56-17. Conformity with general rules and requirements.
Sec. 12-56-18. Departure from approved construction plans.
Sec. 12-56-19. Location.
Sec. 12-56-20. Depth, gradient, ventilation and drainage.

Sec. 12-56-21. Required ducts.
Sec. 12-56-22. Excavations generally.
Sec. 12-56-23. Restoration of surface improvements.
Sec. 12-56-24. Permit to install wires.
Sec. 12-56-25. Manholes—Construction—Size—Control—Costs.
Sec. 12-56-26. Manholes—Joint use.
Sec. 12-56-27. Manholes—Permit to enter.
Sec. 12-56-28. Plans to be filed upon execution of work.
Sec. 12-56-29. To be used only for authorized public services.
Sec. 12-56-30. Disturbing or interfering with conduits.
Sec. 12-56-31. Transfer of rights in conduits.
Sec. 12-56-32. What rights acquired under article.

ARTICLE 1. GENERAL PROVISIONS

Sec. 12-56-1. Compliance with National Electrical Safety Code.

All poles, wires and conduits authorized or required by this chapter shall be installed and maintained in accordance with the applicable provisions of the National Electrical Safety Code, 1977 Edition, as amended, and it shall be a misdemeanor for any person or corporation to have, use or maintain within the limits of the city any such installation that does not meet such requirements as to quality or safety. Compliance with the National Electrical Safety Code shall be a complete compliance with all requirements of the city for the construction, maintenance and operation of poles, wires, conduits and other facilities in the city.
(Code 1967, § 29-1; Code 1985, § 27-1; Ord. No. 456, § 1, 4-22-1969)

Sec. 12-56-2. Dead wires or wires not in use.

No dead electric wire or wires not in use shall be permitted in the city and all dead wires or wires not in use shall be at once removed by the person who owns, operates, controls or manages the same.
(Code 1967, § 29-2; Code 1985, § 27-2)

Sec. 12-56-3. Trees near wires or street lights.

A. No tree, limb or part thereof shall be allowed to interfere with the safe distribution of electrical energy and any wire carrying electric current in or adjacent to any public street, alley, highway, easement for utility purposes or public place, whether such wire is insulated or not. No tree, limb or part thereof shall be allowed to grow so as to obstruct the light from any electric lamp or other appliance used by the city for the lighting of its public streets and ways.

B. Whenever it becomes necessary, in the extension of the city's fire and police signal system or the service of any public service corporation using wires carrying electricity in the furnishing of such service, to string or place overhead wires carrying currents of electricity through or across any public street, alley or place, or to erect any street lights, it shall be the duty of the city to see that no tree or parts thereof will violate subsection A of this section, and to this end it is authorized and empowered to remove or cause to be removed any tree, branch or limb in or overhanging any public street, alley or public place, interfering with such wires or street lighting.

C. The Memphis light, gas and water division, through its personnel or agents, shall have the right to trim or top trees which are on public property or intrude on public property, and which are in proximity to electric conductors in the distribution system.

D. The enforcement of this section shall be under the supervision of the director of public works or the Memphis light, gas and water division, as applicable, whose duty it shall be to direct the removal or trimming of any tree or part thereof which is in violation of subsection A of this section.

E. It shall be a misdemeanor for any person to interfere with the director of public works, the Memphis light, gas and water division, or persons working under their direction in the trimming or removing of trees under the provisions of this section.
(Code 1967, § 29-3; Code 1985, § 27-3)

ARTICLE 2. POLES

Sec. 12-56-4. Supervision.

The location, erection, placing, replacing and repair of poles used for the stringing of wires thereon shall be under the supervision of, and subject to the approval of, the director of public works.
(Code 1967, § 29-14; Code 1985, § 27-16)

Sec. 12-56-5. Permit to install, reset, replace or repair—Required—Exceptions.

A. It is unlawful for any person to install, put up, reset, replace or repair, within the city, any pole used or to be used for the overhead carrying of wires, cables or

other like instrumentalities, without first obtaining a permit to do so from the director of public works; provided, that no permit will be required for the resetting, replacement or repair of such a pole where such work is occasioned by accident or mishap and is done under emergency conditions.

B. The maintenance of any pole erected, reset, replaced or repaired without the permit provided for by this section shall be a nuisance, to be abated in the manner provided by law for the abatement of public nuisances erected or maintained in the city.
(Code 1967, § 29-15; Code 1985, § 27-17)

Sec. 12-56-6. Permit—Application.

An application, in writing, for a permit required by section 12-56-5 shall be filed with the director of public works, setting forth the location at which the pole is to be erected, reset, replaced or repaired, the character of the material of which the same is made, its height and diameter, and the kind and character of wires, cables or other instrumentalities to be carried thereon.
(Code 1967, § 29-16; Code 1985, § 27-18)

Sec. 12-56-7. Permit—Refusal to issue.

The director of public works shall refuse to issue the permit required by section 12-56-5 whenever it appears that the pole sought to be erected, reset, replaced or repaired is unsafe, unsuitable for the purposes to which it will be put, or not suited to the location in which it will be placed.
(Code 1967, § 29-17; Code 1985, § 27-19)

Sec. 12-56-8. Joint construction.

A. All poles used for the stringing of wires thereon shall be erected, reset or replaced under the rules of joint pole construction as set forth in this section. Whenever a new line of poles is to be erected, or whenever, by reason of street improvements, existing lines of poles are to be replaced, moved or reset, or whenever, due to the dangerous condition by reason of age or deterioration (in which case the director of public works shall have power to order the same replaced), then any such pole shall be constructed under the joint pole construction rules; provided, that the director shall have power and it shall be his or her duty to order such construction when, in his or her judgment, it shall be deemed advisable.

B. Such joint pole construction shall consist of poles of ample size and length to carry the wires of two or more companies using the same street, and the wires of the electric light and power companies, when such poles are to be used by them, shall have their wires strung at the top sections of poles. The telephone and telegraph companies shall occupy with their wires the middle sections of such poles. All poles and wires shall meet all the minimum standards and be installed so as to meet the requirements for quality and clearance as are specifically set out in the National Electrical Safety Code, 1977 Edition, as amended.

C. Whenever it is decided that poles shall be erected under the joint pole construction rules, all companies concerned shall agree on the space necessary to carry their respective wires, and shall also agree as to pro rata of expense for the erection of such poles. Whenever they are not able to come to an agreement, the director of public works shall have power to decide such matters.
(Code 1967, § 29-18; Code 1985, § 27-20; Ord. No. 456, § 1, 4-22-1969)

Sec. 12-56-9. Reservation of space for city wires.

Before any permission is given to erect any pole in the city, or to reset or replace any pole, provision shall be made for reserving proper space and furnishing all crossarms, pins and supports to carry all wires of the city traffic signal system and telephone systems of the city and of the fire and police telegraph and telephone systems of the city, and such space shall be under the wires of the electric light and power companies, when used by such companies. Whenever any poles are used exclusively for telephone or telegraph companies, then such space shall be reserved at the top of all such poles for the use of the wires of the city. The proper space reserved for the wires of the city shall be such that the installation can be made in full compliance with the minimum standards for clearance as are specifically set out in the National Electrical Safety Code, 1977 Edition, as amended.
(Code 1967, § 29-19; Code 1985, § 27-21; Ord. No. 456, § 1, 4-22-1969)

Sec. 12-56-10. Identification of poles located in street right-of-way.

A. It shall be a misdemeanor for any telegraph, telephone, gas, electric light or any other public utility to erect, maintain or allow to remain, in any public right-

of-way or easement, any pole or post, unless there shall be visibly painted or securely affixed to such pole or post some device, character, sign or other symbol identifying the ownership of such pole or post and such device, character, sign or symbol shall be registered with the city engineer. Such device, character, sign or symbol shall be legible and shall not be affixed at greater height than eight feet from the surface of the ground.

B. It shall be a misdemeanor for any person to efface, deface or otherwise make illegible any such device, character, sign or symbol affixed to any pole or post in any public right-of-way or easement.
(Code 1967, § 29-20; Code 1985, § 27-22)

Sec. 12-56-11. Privilege tax on poles in streets.

There is levied annually a privilege tax of $0.25 on each telephone pole or telegraph pole located on or in the streets and other thoroughfares within the corporate limits of the city, as authorized by T.C.A. § 67-4102, item Q.
(Code 1967, § 29-21.1; Code 1985, § 27-23)

Sec. 12-56-12. Removal, replacement or relocation of poles in public places.

The director of public works shall have the right to order the removal, replacement or relocation of any pole erected in any street, alley or other public place as may be necessary for proposed public improvements, which pole may become unsafe, or which ceases to be used for the purposes for which erected, or which interferes with the free use of such street, alley or public place, or interferes with the reasonable ingress and egress to private property abutting on such street, alley or public place. It shall be a misdemeanor for any person to maintain such pole or to fail to remove it to a new location designated by the director of public service after ten days' notice in writing from such director to remove, replace or relocate such pole.
(Code 1967, § 29-22; Code 1985, § 27-24)

ARTICLE 3. CONDUITS

Sec. 12-56-13. Conduit district established.

A. There is established within the city a conduit district bounded as follows:

On the north by the first alley north of Exchange Avenue; on the south by a line 148½ feet south of the south line of Vance Avenue; on the east by the first alley east of Third Street from Exchange Avenue south to Madison Avenue, and thence extended east on Madison Avenue to a point 150 feet east of the east line of North Neely Street; thence returning on the south side of Madison Avenue to the first alley east of Third Street; and running thence south to Union Avenue; thence east on Union Avenue to Third Street; thence along the east line of Third Street to Beale Street, and running thence east on Beale Street to 200 feet east of Fourth Street (formerly DeSoto Street); thence returning on the south side of Beale Street to Third Street; thence south along the east line of Third Street to a point 148½ feet south of the south line of Vance Avenue; and on the west by a line commencing at Exchange Avenue 20 feet west of the west line of Front Street; thence south to Union Avenue; thence west with Union Avenue to Wagner Place; thence south with the west side of Wagner Place to a point 148½ feet south of the south line of Vance Avenue.

B. The conduit district shall include such streets and also the parts of the following streets hereinafter set forth, both within and without the district above described:

1. Main Street, from the north line of Auction Avenue to the south line of Iowa Avenue;

2. Monroe Avenue, from the first alley east of Third Street to Marshall Avenue;

3. Marshall Avenue, from Madison Avenue to Union Avenue;

4. Union Avenue, from the first alley east of Third Street to East Parkway, South;

5. South Fourth Street, from Madison Avenue to Union Avenue;

6. Calhoun Avenue, from a point 148 feet west of the west line of Tennessee Street, to a point 148 feet east of South Third Street;

7. Union Avenue extended, beginning on the east line of the Parkway and extending along and with Union Avenue extended, to the south line of Poplar Avenue.

(Code 1967, § 29-33; Code 1985, § 27-36)

Charter reference—Authority to establish conduit district, § 928.

Sec. 12-56-14. Wires to be underground within conduit district—Exceptions.

A. In the public thoroughfares, streets, alleys and squares within the territory described in section 12-56-13, all electric service wire lines shall be placed in conduits underground, and no person shall construct any telegraph, telephone, electric light or power service above the ground in passing along or across such public thoroughfares within such territory.

B. This section shall not apply to the following overhead wires with their appurtenances:

1. Wires and lamp poles, with such appurtenances as may be deemed desirable by the director of public works, used for the purpose of public street lighting;

2. Such wires, poles and other appurtenances as may be deemed unobjectionable by the director of public works within the limits of any block used for the purpose of subdistribution of wires within that block, but in no event shall such wires be permitted to cross any street or alley overhead, within such conduit district;

3. All wires, poles and necessary appurtenances for the installation of traffic-control signal lights.

(Code 1967, § 29-34; Code 1985, § 27-37)

Charter reference—Authority to require that wires be placed underground in conduit district, § 930.

Sec. 12-56-15. Permit to construct, alter or repair.

A. Before any person shall proceed to construct, alter or repair any underground conduit into which to run any electric service wire line within the district established by section 12-56-13, such person shall make application to the director of public works for a permit to perform such work, such application to be filed with the director of public works. Such application shall state the name of the applicant, the purpose for which the use of the conduit is desired, the materials of which it is proposed to construct it, together with the plans and specifications showing the proposed method of construction. All such applications shall be accompanied by detailed plans showing the desired route of the conduit, grouping of ducts and distribution of boxes. No permit shall be issued until the bond required by section 12-56-16 has been filed.

B. Emergency maintenance work that is necessary to reestablish service shall not require a permit under this section.

(Code 1967, § 29-35; Code 1985, § 27-38)

Sec. 12-56-16. Bond.

Each applicant for a permit required by section 12-56-15 shall, after approval of the application, file with the comptroller a penal bond in the sum of $10,000.00, with two or more good and sufficient sureties, approved by the mayor, conditioned that the conduit construction shall be carried out in accordance with the terms of this article, or with the rules and regulations governing conduit construction and use approved by the director of public works, and that the city and its employees shall be held harmless from all suits for damages that may arise from the construction of any conduit, or that may arise from operations therein, or that may arise in any way as a result of such construction or operation.

(Code 1967, § 29-36; Code 1985, § 27-39)

Sec. 12-56-17. Conformity with general rules and requirements.

When an application has been filed with the director of public works under section 12-56-15, it shall be his or her duty to see that the proposed conduits, in their route, disposition, material and construction, conform with the general rules and requirements governing same, adopted by the city.

(Code 1967, § 29-37; Code 1985, § 27-40)

Sec. 12-56-18. Departure from approved construction plans.

When it becomes necessary to depart from any plans filed with and approved by the director of public works under section 12-56-15, because of obstructions, it shall be the duty of the person performing work on or in the electrical conduit to immediately report the difficulty to the city engineer, and at the same time to submit an alternative plan of construction calculated to overcome the difficulty. No departure from standard construction primarily approved by the director of public works shall be allowed until such modifications have been approved in writing by the director of public works.

(Code 1967, § 29-38; Code 1985, § 27-41)

Sec. 12-56-19. Location.

All conduits shall be constructed under sidewalks, except where the physical conditions render this impractical. In that event, special permission in each case shall be obtained from the director of public works to construct conduits in or under the street between curbs.
(Code 1967, § 29-39; Code 1985, § 27-42)

Sec. 12-56-20. Depth, gradient, ventilation and drainage.

The city engineer shall decide as to proper depth, gradient, ventilation and drainage proposed to be given to conduits within the district described in section 12-56-13, such data receiving also the endorsement of all city officers whose duties require them to supervise any underground construction whatever, so that no undue interference with the other underground construction may result from the building of the conduits.
(Code 1967, § 29-40; Code 1985, § 27-43; Ord. No. 3587, § 1, 9-2-1986)

Sec. 12-56-21. Required ducts.

Conduits shall be provided with ducts 50 percent in excess of those required to carry the wires in use along the routes of the proposed conduits at the time of making application for a permit to construct the same.
(Code 1967, § 29-41; Code 1985, § 27-44)

Sec. 12-56-22. Excavations generally.

A. In the construction, alteration or repair of any conduit or its appurtenances, no excavation shall be made on any one continuous line for a greater length than four blocks at the same time, nor shall any excavation be permitted to exist in any public thoroughfare for a longer period than is absolutely necessary to properly and expeditiously perform the work for which a permit is granted under this article. All excavations made in pursuance of the right which may be granted under this article shall at all times be provided with sufficient guards and lights to render the same secure in themselves, and free from becoming a source of danger to the public.

B. All excavations for trenches or manholes shall be backfilled and tamped to the satisfaction of the city engineer, of materials similar to that surrounding the street or pavement, and the person making such excavations shall pay to the city the cost of such repairs at the end of the month during which such repairing is done.
(Code 1967, § 29-42; Code 1985, § 27-45; Ord. No. 3587, § 2, 9-2-1986)

Sec. 12-56-23. Restoration of surface improvements.

A. All surface improvements disturbed in connection with the construction, alteration, repair or use of any conduit or subdistribution pole, or their appurtenances, carried on under the terms of this article, shall be repaired to the satisfaction of the city engineer in conformity to the city specifications for paving sidewalks or other improvements at the expense of the person possessing the permit for carrying on such construction, alteration, repairs or use. Such party shall, moreover, keep such repaired surface improvements in a condition satisfactory to the city engineer for a period of one year after they have been repaired.

B. Should such party fail to promptly fulfill the requirements of this section, the city may proceed with any or all of such work and charge the cost of performing the same to such party. This provision shall not give immunity from any penalty attached to the violation of the requirements of this article.
(Code 1967, § 29-43; Code 1985, § 27-46; Ord. No. 3587, § 3, 9-2-1986)

Sec. 12-56-24. Permit to install wires.

A. Before any electrical service wires are placed in any conduit constructed under this article, a permit shall be obtained. Application for this permit shall be made by the person owning the conduit. All such applications shall state:

1. The name of the applicant;
2. The purpose for which the use of the conduit is desired;
3. The number, material and dimensions of conductors proposed to be placed in the conduit;
4. The arrangement of the conductors, whether singly or in cables, and if in cables, the number of conductors and their disposition in each cable;
5. The maximum voltage to be used on such conductors;

6. The nature of the insulating material or materials to be employed, and such other specific information as will fully explain the use to be made of the conduit, except that the foregoing provisions and requirements shall not apply to any department or agency of the city.

B. On approval by the director of public works of an application for a permit under this section, a permit shall be issued, conditioned on compliance with the rules and regulations governing the occupation of electrical conduits as contained in the National Electrical Safety Code, 1977 Edition.
(Code 1967, § 29-44; Code 1985, § 27-47)

Sec. 12-56-25. Manholes—Construction—Size—Control—Costs.

A. The using agency shall construct all the manholes required for putting wires underground in accord with this article, and the cost of constructing and maintaining such manholes shall be borne and prorated among the companies using the same in proportion to the number of ducts entering such manholes.

B. All such manholes shall be constructed of such size and character as will enable them to accommodate 50 percent more ducts than all the companies entering them will at first require. Such manholes shall be constructed in accordance with plans and specifications approved by the city engineer.

C. After such manholes have been constructed, they shall be under the absolute control of the city, or some officer designated by the city, to be used and occupied by such companies for the purpose of connecting their conduits and ducts therewith.

D. Companies constructing and maintaining manholes shall file with the director of public works itemized, full and complete statements of the cost of constructing and maintaining such manholes.
(Code 1967, § 29-45; Code 1985, § 27-48; Ord. No. 3587, § 4, 9-2-1986)

Sec. 12-56-26. Manholes—Joint use.

Any company, other than the original using agency, desiring to enter and use any manhole constructed under this article shall be permitted to enter the same and use the same by first obtaining a permit from the city, and by paying its proper pro rata of the cost of construction and maintenance of the manhole, such pro rata to be determined by the director of public works, except that such use by other companies shall not extend to manholes or conduits constructed for the purpose of transmitting electrical energy for lighting, heating and power.
(Code 1967, § 29-46; Code 1985, § 27-49)

Sec. 12-56-27. Manholes—Permit to enter.

No person shall enter any manhole constructed under this article, unless he or she has a permit to do so from the division of public service, and no company using any manhole shall permit any person to enter the same, unless he or she has such a permit. Such permit shall be issued by the division of public service upon proper evidence submitted that the applicant is careful and experienced. Such permit shall not be granted for a period longer than six months. The foregoing provisions shall not apply to any division or agency, or its employees, of the city.
(Code 1967, § 29-47; Code 1985, § 27-50)

Sec. 12-56-28. Plans to be filed upon execution of work.

Plans showing all details of conduit construction and the disposition of all electrical conductors and apparatus within or connected with the conduits shall be filed with the director of public works promptly upon the execution of any work, so that a complete record of all conduits, with their appurtenances and over-ground connections, together with the electrical conductors and apparatus installed in connection therewith, shall at all times be on file with the director of public works.
(Code 1967, § 29-49; Code 1985, § 27-51)

Sec. 12-56-29. To be used only for authorized public services.

No conduit or duct constructed and maintained under this article shall be used other than for specific public services authorized by the director of public works.
(Code 1967, § 29-50; Code 1985, § 27-52)

Sec. 12-56-30. Disturbing or interfering with conduits.

Any person who shall disturb any conduit laid in accordance with the requirements of this article, or interfere with its legitimate use, shall pay all costs or damages resulting from such disturbance or interference.
(Code 1967, § 29-51; Code 1985, § 27-53)

Sec. 12-56-31. Transfer of rights in conduits.

No person owning, occupying or having rights in conduits under this article shall sell, lease or sublease any property or privilege in connection therewith, without first obtaining the consent of the director of public works, nor shall any such person consolidate with any other person or company without the consent of the director of public works.
(Code 1967, § 29-52; Code 1985, § 27-54)

Sec. 12-56-32. What rights acquired under article.

No person shall, by reason of compliance with this article, acquire any rights or privileges other or further than herein specifically expressed, and nothing herein contained shall be construed as extending or changing the terms, length of time or any of the conditions of any contract or agreement now existing between the city and any such person. The occupation and operation of conduits and manholes shall be upon the same terms, lengths of time and conditions as now fixed by law or contract for the maintenance and use of overhead poles and wires.
(Code 1967, § 29-53; Code 1985, § 27-55)

CHAPTER 12-60. RESERVED

Editor's note—Ord. No. 5459, § 15, adopted July 17, 2012, repealed Ch. 12.60, §§ 12-60-1—12-60-8, which pertained to residential corridors. For prior history, see Code Comparative Table. See section 8.3 of the Memphis and Shelby County Unified Development Code.

CHAPTER 12-64. MAIN STREET TROLLEY SYSTEM

Sections:

Sec. 12-64-1. Definitions.
Sec. 12-64-2. Prohibitions.
Sec. 12-64-3. Right-of-way.
Sec. 12-64-4. Vehicles on Main Street Mall.
Sec. 12-64-5. Conduct of passengers or occupants of trolley vehicles.

Sec. 12-64-1. Definitions.

As used in this chapter, unless the context requires otherwise:

Nonemergency vehicle means a vehicle which is not an authorized emergency vehicle as defined in T.C.A. § 55-8-101(2).

Proof of fare payment means the following:

1. A trolley pass or a MATA pass valid for the status of person, the time of use and the zones of travel;

2. A receipt showing payment of the applicable fare, used within the time and zones applicable to the receipt;

3. A prepaid ticket or series of tickets showing cancellation by MATA time stamp, used within the time and zones applicable to the ticket; or

4. Other passes or vouchers issued by MATA evidencing fare payment.

Transit inspector means any person authorized by the general manager of the Memphis Area Transit Authority (hereinafter "MATA") to demand proof of fare payment and to issue citations as provided hereunder in accordance with T.C.A. §§ 7-63-101 and 2-36-1.

Trolley equipment includes, but is not limited to, trolley cars, tracks, trolley stops including the lifts contained therein, trolley sign posts, overhead wires and the poles that support them, electrical equipment including wires that supply and carry power to the trolley, lifts, stops and ticket dispensing machines, the trolley facility located at 547 North Main Street, and any other item used in or necessary to the operation of or to maintain the Main Street Trolley System.

Trolley right-of way means a 22 foot six-inch wide paved cobblestone pathway running north and south through the common mall area known as Main Street Mall containing the parallel tracks (rails) upon which the trolley operates. The trolley right-of-way is not a public street nor a roadway.

Trolley stops are areas created for the protection of passengers boarding, disembarking or waiting for the Main Street Trolley System. These stops shall be indicated by either: (1) shelter stations at specific locations; (2) areas designated by painting, brickwork or other prominent markings, as may be authorized by the MATA board; or (3) such other locations as are designated from time to time by prominent MATA signage.
(Code 1985, § 20-27(a); Ord. No. 4202, § 1, 7-6-1993)

Sec. 12-64-2. Prohibitions.

The commission of the following acts shall be a misdemeanor and shall be punishable by payment of a fine of not more than $50.00 for each separate violation and court costs:

A. *Payment of fare.*

1. *Fares.* Passengers shall be permitted upon trolley vehicles only upon payment of such fares and under such circumstances as may from time to time be established by the Memphis Area Transit Authority. It is an infraction, punishable pursuant to section 1-24-1, for any person to refuse to pay, or to evade or attempt to evade the payment of such fares.

2. *Proof of payment.* No unauthorized person shall occupy, ride in or use any trolley vehicle without possessing and exhibiting upon demand of a trolley inspector, valid proof of fare payment.

3. *Agreement.* The use of any trolley vehicle shall constitute an agreement by the user to pay the applicable fare in accordance with the effective fare resolution established by the Memphis Area Transit Authority and to have in his or her immediate possession proof of fare payment.

4. *Procedure.* It is unlawful for any person to fail to provide his or her name, address or identification to a transit inspector. It shall also be unlawful for any person to provide a false or fictitious name, address or identification to a transit inspector.

5. *Counterfeiting of passes and tickets.* No person shall counterfeit, forge or alter any ticket, coupon, receipt for fare payment, or pass issued by Memphis Area Transit Authority designed to title the holder to ride MATA trolley vehicles.

No such person shall possess, offer or put into circulation, any such counterfeit, forgery or altered ticket, copy, receipt for fare payment, or pass.

B. *Riding the trolley.* It is unlawful for any person to:

1. Vandalize, damage or otherwise deface in any manner a trolley car;

2. Smoke, eat or drink any beverage aboard the trolley, or carry aboard, possess or cause any open food or drink container to be aboard any trolley vehicle. Appropriate notices or symbols indicating the foregoing may be posted on trolley vehicles so as to be visible to passengers.

Notwithstanding the preceding subsection, food and drink, including alcoholic beverages, may be consumed aboard trolley vehicles during the time any such vehicle is actually operating under charter, provided, that the consumption of food and drink, including alcoholic beverages, by any person, shall at all times be contingent upon and shall conform to the conditions applicable to the charter of MATA's trolley vehicles, as set forth in

[The next page is T12:73]

the Memphis Area Transit Authority Charter Policy, including mandatory prearrangement with MATA for the consumption of alcoholic beverages, and the providing by the chartering party of insurance satisfactory to MATA in the event that alcoholic beverages are consumed on board;

3. Extend his or her head, hand, arm, foot, leg or other portion of the body through any window or door opening of a trolley;
4. Harass, threaten or intimidate the trolley operator or a trolley inspector;
5. Ring or attempt to ring the trolley bell;
6. Throw or project a stone or other missile from the trolley, throw or project a stone or other missile at a trolley or trolley facility, or at any person or thing on a trolley;
7. Pull or attempt to pull the emergency cord except in case of an emergency;
8. Solicit any passengers for any purpose;
9. Carry or attempt to carry a bicycle on board a trolley vehicle. Folded bicycles may be carried aboard trolley cars provided space is available;
10. Bring, carry into or carry upon a trolley car a dog or other animal unless it is completely enclosed in a carrying case which can be accommodated in the lap of a passenger with no danger of annoyance to other persons. This prohibition shall not apply to a dog or other duly trained animal, properly harnessed, accompanying a visually-impaired, hearing-impaired or other disabled persons;
11. Carry aboard a trolley car any packages, bundle, sharp or pointed objects or other objects which, because of their size, bulk, shape or nature may be dangerous or cause discomfort to passengers, or which interferes with the safe operation of the trolley vehicle;
12. Ride upon the outside or roof of any trolley.
13. Urinate or defecate in or upon a trolley.

C. *Interference with trolley operation.* It is unlawful for any person to:

1. Hang upon, jump upon or attempt to hang upon or jump upon a trolley;
2. Displace or attempt to displace a trolley vehicle from the track below or the electrical lines above the trolley vehicle;
3. Vandalize, in any manner whatsoever, any trolley equipment or appurtenances;
4. Cut or break, in any manner whatsoever, or attempt to cut or break, the electrical lines supplying current to the trolley equipment, including throwing a switch that controls the electrical current;
5. Block or obstruct the movement of a trolley vehicle by: (1) parking or abandoning any vehicle whether self-propelled, animal drawn or motor powered on or near the tracks; or (2) placing any object on or near the tracks; or (3) standing on, in the middle of, or adjacent to the tracks;
6. Attach any advertising, hand bills, flyers or other material or object to any portion of the trolley stops, trolley signs or poles supporting the overhead wires as prohibited in section 10-12-9(B);
7. Solicit any person standing at a trolley stop;
8. Climb upon any trolley stop or the clock tower located in front of City Hall;
9. Interfere in any way with the safe and orderly operation of the Main Street Trolley System.

D. *Miscellaneous.*

1. No person shall exhibit, sell or offer for sale, hire, lease or let out in a trolley vehicle any object or merchandise, or anything whatsoever, whether corporeal or incorporeal, except concessions under contract to the Memphis Area Transit Authority.
2. No person (except Memphis Area Transit Authority staff and persons or firms under written contract with MATA) shall offer for sale, sell or put into circulation, any

transit ticket, coupon, receipt for fare payment or pass which entitles the holder to ride in MATA trolley vehicles.

(Code 1985, § 20-27(b); Ord. No. 4202, § 1, 7-6-1993)

Sec. 12-64-3. Right-of-way.

All pedestrians and all nonemergency vehicles, including, but not limited to, self-propelled, animal drawn, and motor powered, shall yield the right-of-way to the trolley vehicles at all points along the Main Street Trolley System. Trolley vehicles shall obey all traffic signals at intersections of the Main Street Trolley System and dedicated city streets.

(Code 1985, § 20-27(c); Ord. No. 4202, § 1, 7-6-1993)

Sec. 12-64-4. Vehicles on Main Street Mall.

Pursuant to section 12-48-7, vehicle traffic is prohibited on the Main Street Mall. In addition to the exceptions provided in section 12-64-1, an exception to this prohibition is also granted for MATA supervisory, maintenance and fare collection vehicles and Memphis light, gas and water division (MLGW) vehicles actively engaged in servicing, repairing or replacing electrical, gas or water equipment, facilities or service on the Mall or for the Main Street Trolley.

(Code 1985, § 20-27(d); Ord. No. 4202, § 1, 7-6-1993)

Sec. 12-64-5. Conduct of passengers or occupants of trolley vehicles.

The following are in addition to any rules and regulations established by Memphis Area Transit Authority, and shall not limit or restrict MATA's authority to from time to time promulgate rules and regulations relative to its trolley vehicles.

A. Any person under the influence of intoxicating liquor or any drug and, resulting therefrom, is in such a condition that he or she is unable to exercise care for his or her safety and the safety of others may be refused entry by the trolley operator.

B. No person shall discard litter in or upon a trolley.

(Code 1985, § 20-27(e); Ord. No. 4202, § 1, 7-6-1993)

CHAPTER 12-68. PUBLIC BUILDINGS, PROPERTY USE REGULATIONS, AND NAMES

Sections:

Sec. 12-68-1. Definitions.
Sec. 12-68-2. Opening and closing hours.
Sec. 12-68-3. Entry into work area.
Sec. 12-68-4. Open spaces, parks and recreational areas—Use for political gatherings.
Sec. 12-68-5. Intent of chapter—Responsibility of park commission.
Sec. 12-68-6. Method of naming and renaming.

Sec. 12-68-1. Definitions.

As used in this chapter:

Public property is any real property owned or leased by the city or any of its agencies, including the surrounding grounds.

Work area means publicly owned or leased property which is not ordinarily open to the public and is used by municipal employees in the ordinary course of their duties, or in assembling for their duties, and includes, but is not limited to, fire station engine houses, fire department shops, sanitation and public works substations, city shops, light, gas and water division substations or pumping stations, and other offices within public buildings where it is not normal and routine for members of the public to come for municipal services. (For example, City Hall is a public building, but the public works drafting room would be a work area, and the police headquarters would be a public building, but the record room or similar offices would be work areas.)

(Code 1967, § 22-42.1; Code 1985, § 20-136; Ord. No. 868, § 1(1), 2-2-1971)

Sec. 12-68-2. Opening and closing hours.

The executive division shall have the power to designate the opening and closing hours of public buildings or offices operated the city by posting such hours in the buildings. No person, except duly authorized personnel, shall remain in such public building after official closing hours to the general public, and any

Editor's note—Ord. No. 5759, § 4, adopted September 1, 2020, retitled ch. 12-68 from 'Public Buildings and Property Use Regulations' to 'Public Buildings, Property Use Regulations, and Names.'

person who, after being notified to leave and who refuses to leave, shall be guilty of a violation of this chapter and punishable as such.
(Code 1967, § 22-42.2; Code 1985, § 20-137; Ord. No. 868, § 1(2), 2-2-1971)

Sec. 12-68-3. Entry into work area.

No person shall enter into any work area of public property as defined in this chapter except with the permission of the supervisor of such area, and any person who inadvertently or with intent to enter such area fails and refuses to comply with any lawful request to leave such area shall be guilty of a violation of this section.
(Code 1967, § 22-42.3; Code 1985, § 20-138; Ord. No. 868, § 1(3), 2-2-1971)

Sec. 12-68-4. Open spaces, parks and recreational areas—Use for political gatherings.

All open spaces, including but not limited to, parks, playgrounds, picnic areas and areas set aside for recreational purposes, shall be used for those purposes and shall not be used for nonrecreational gatherings or purposes, except upon permission granted by the city park commission, which shall regulate the time, place and manner of the nonrecreational usage.
(Code 1967, § 22-42.4; Code 1985, § 20-139; Ord. No. 868, § 1(4), 2-2-1971; Ord. No. 4237, § 1, 1-18-1994)

Sec. 12-68-5. Intent of chapter—Responsibility of park commission.

A. It is the purpose of this chapter to detail the process for naming and renaming public place/property names not outlined in sections of the Memphis Municipal Code specifically concerning: (i) streets, and (ii) parks, and to prevent interference with normal use of public property by the general public and to prohibit only such use which will unduly interfere with the normal use of public property by other members of the public with an equal right to access it.

B. The park commission shall establish reasonable nondiscriminatory regulations that preserve peace, order and tranquility in granting permits for organized meetings as authorized above and such regulations shall be forwarded to the council for approval by resolution. Such regulations shall provide definite and objective standards and such regulations shall be published and available to the public as to how an application for a permit is to be submitted and shall provide for a speedy right of review, either administratively or judicially. The park commission may designate certain parks or open spaces at which no organized political gatherings or religious meetings may be held because of the nature or size of such facilities.
(Code 1967, § 22-42.5; Code 1985, § 20-140; Ord. No. 868, § 1(4), 2-2-1971; Ord. No. 5759, § 5, 9-1-2020)

Sec. 12-68-6. Method of naming and renaming.

When the city shall acquire property for use by the general public, by purchase, condemnation, or dedication, it shall be the duty of the Memphis City Council to select a suitable name for such new public place/property. Furthermore, the Memphis City Council may change the official name adopted for existing City of Memphis public places/property, by ordinance duly passed. Any conflicts with the Memphis and Shelby County Unified Development Code shall be made in favor of this section.
(Ord. No. 5759, § 6, 9-1-2020)

CHAPTER 12-70. PUBLIC TREES

Sections:

Sec. 12-70-1. Definitions.
Sec. 12-70-2. Creation and establishment of Memphis Tree Board.
Sec. 12-70-3. Public tree care.
Sec. 12-70-4. Tree pruning requirements.
Sec. 12-70-5. Removal of stumps.
Sec. 12-70-6. Tree contractor's insurance and bond requirements.
Sec. 12-70-7. Penalty.
Sec. 12-70-8. Indemnification.
Sec. 12-70-9. Conflicts.
Sec. 12-70-10. Severability.
Sec. 12-70-11. Effective date.

Sec. 12-70-1. Definitions.

Park trees are hereby defined as trees in city parks or city park-like areas to which the public has free access as a park.

Public trees are hereby defined as trees located on city property.

Tree is hereby defined as any self-supporting woody perennial plant, having one to several main stem[s] (trunk) and many lateral branches, extensive root system,

and at maturity normally attaining a trunk diameter greater than three inches at any point and a canopy height greater than 15 feet. Each category of tree should be planted in the appropriate space and environment.

A. *Large tree* is a tree generally expected to reach a height in excess of 50 feet at maturity.

B. *Medium tree* is a tree generally expected to reach a height between 25 and 50 feet at maturity.

C. *Small tree* is a tree generally expected to reach a height between 15 and 25 feet at maturity.

(Ord. No. 5494, 3-5-2013)

Sec. 12-70-2. Creation and establishment of Memphis Tree Board.

There is hereby created and established the Memphis Tree Board (hereafter "board").

A. *Duties and responsibilities.* It shall be the responsibility of the Memphis Tree Board to serve as an advisory board and recommend policies and practices to the director of park services and neighborhoods that have positive contributions to the establishment, management, enhancement, maintenance, and conservation of public trees in the City of Memphis. The board also serves to develop and promote public awareness programs that identify the community benefits from the establishment and maintenance of public urban trees, along with nurturing private/public collaborations to fund and further promote a public tree conservation program.

B. *Board composition and qualifications.* The board shall consist of seven members which shall include three officers: chairperson, co-chairperson, and treasurer. Each member shall be a resident of the City of Memphis and shall be appointed by the mayor, subject to the approval of the Memphis City Council. Three of the members are required to be a certified professional arborist, horticulturalist, or forester.

The majority of the board members shall recommend the appointment of a chairperson to be approved by the director of parks and neighborhoods. The chairperson shall select the co-chairperson and the treasurer.

C. *Term.* The term of each member shall be for a period of three years. Upon the expiration of a term, a member may be reappointed as his or her successor. The chair shall serve successive three-year terms, unless removed by the mayor. In the event of a vacancy during the term of any member, a successor shall be appointed by the mayor, subject to the approval of the council, to serve the remainder of such member's unexpired term.

D. *Removal.* A member may be removed from the board for continued absence from meetings or other just cause in accordance with the procedure for removal of board or commission members provided by the City of Memphis Charter.

(Ord. No. 5494, 3-5-2013)

Sec. 12-70-3. Public tree care.

The city shall have the right to plant, prune, maintain and remove trees, plants and shrubs on public property, as may be necessary to ensure public safety or to preserve or enhance the symmetry and beauty of the site.

(Ord. No. 5494, 3-5-2013)

Sec. 12-70-4. Tree pruning requirements.

No person shall top any public tree. Any tree requiring pruning to ameliorate any public safety issues, to ensure the safe distribution of public energy, to remove obstruction of street lights from any lamps or other public obstruction, shall be pruned according to ANSI standards. Topping a tree shall be used only when pruning by ANSI standards fail to address the foregoing issues.

(Ord. No. 5494, 3-5-2013)

Sec. 12-70-5. Removal of stumps.

The city will utilize its best efforts and embrace the operational preference to remove tree stumps below the surface of the ground.

(Ord. No. 5494, 3-5-2013)

Sec. 12-70-6. Tree contractor's insurance and bond requirements.

The city shall require individuals and companies conducting any pruning, treating or removing of park or public trees as defined in this chapter to satisfy the following requirements:

A. To protect the public, the city shall require any company or contractor which removes or maintains trees as a business on public lands to:

1. Furnish an acceptable surety bond covering the work in which they are engaged and provide proof of liability insurance satisfactory to city, upon the terms and conditions set forth in this section.

a. The bond shall be in a sum of 100 percent of the cost of the work to be performed and be executed by the applicant as principal and by a solvent corporation authorized to do business within the State of Tennessee as surety;

b. The bond shall be for a minimum term of one year and shall extend to cover the period of the contract with the city;

c. The bond shall not be canceled or terminated until at least 30 days after a notice of cancellation of the bond is received by the city risk manager;

d. The principal will at all times do all pruning, trimming and removing of trees strictly in accordance with this article;

e. All work will be done in a good and workmanlike manner;

f. The city shall be fully indemnified and held whole and harmless from any cost, expense, damages to real property or personal injury done to any person or property in the prosecution of such work that may arise out of or be occasioned in the performance of such work; and

g. The company or contractor will cause all streets, alleys and sidewalks that have been impaired in any manner to be repaired and put in the same condition as they were before the work was done.

2. Provide to the city risk manager an insurance policy or certificate of insurance with coverage for personal injury and property damage, including coverage for damage to trees, in amounts of not less than $50,000.00 property damage, $100,000.00 for bodily injury or death, and aggregate limits of $500,000.00 for each incident or occurrence. The city shall be named as an additional insured on any such policies and certificates of insurance and the company shall agree to indemnify the city as part of any contract with the city against any loss, liability or damage resulting from performance of the contract.

3. Have at least one certified arborist employed by each company operating within the city.

4. In addition, workmen's compensation insurance satisfying the statutes of the State of Tennessee shall be on file with the city risk manager.

5. Should any policy be cancelled, the city shall be notified of such within ten days after such cancellation is effective, and a provision to that effect, which shall also place upon the company writing such policy the duty to give such notice, shall be incorporated in each such policy.

(Ord. No. 5494, 3-5-2013)

Sec. 12-70-7. Penalty.

Any person violating any provision of this chapter shall be subject to a fine not to exceed $50.00. The appeal of any fine imposed hereunder shall be handled in accordance with section 1-8 of the Memphis City Code of Ordinances.
(Ord. No. 5494, 3-5-2013)

Sec. 12-70-8. Indemnification.

Nothing contained in this chapter shall be deemed to impose any liability upon the city, its officers or employees, nor to relieve the owner of any private property from the duty to keep any tree, shrub or plant upon any street tree area on his property or under his control in such condition as to prevent it from constituting a hazard or an impediment to travel or vision upon any public property or rights-of-way or public place within the city.
(Ord. No. 5494, 3-5-2013)

Sec. 12-70-9. Conflicts.

Should any section, clause, or provisions of this chapter be declared by the courts to be invalid, the same shall not affect the validity of the chapter as a whole, or parts thereof, other than the part so declared to be invalid.
(Ord. No. 5494, 3-5-2013)

Sec. 12-70-10. Severability.

If any subsection, sentence, clause, provision or part of this chapter shall be held invalid for any reason by a court of the competent jurisdiction, the remainder of this chapter shall not be affected thereby, but shall remain in force and effect.
(Ord. No. 5494, 3-5-2013)

Sec. 12-70-11. Effective date.

This chapter is hereby declared to be of immediate necessity for the preservation of public peace, health, and safety, and shall be in full force and effective from and after its passage and publication as provided by law.
(Ord. No. 5494, 3-5-2013)

CHAPTER 12-72. PUBLIC ART PROGRAM*

Sections:

Sec. 12-72-1. Purpose.
Sec. 12-72-2. Definitions.
Sec. 12-72-3. Funding source, use and disbursement of the public art program.
Sec. 12-72-4. Oversight.
Sec. 12-72-5. Administration.
Sec. 12-72-6. Ownership.

Sec. 12-72-1. Purpose.

The purpose of the public art program, as defined herein, is to provide a dedicated funding source for art enhancements to be implemented in selected city capital improvement projects constructed by the city or with city funds, and to provide, through the city public art oversight committee, guidance and support to the city in implementing such art enhancements and to thereby foster public projects of art in city buildings and landscapes with a minimal impact on existing procedures, practices and capital improvement project budgets.
(Ord. No. 5674, § 1(2-86), 1-9-2018)

Sec. 12-72-2. Definitions.

The following words, terms, and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except when the context clearly indicates a different meaning:

Art percentage means that percent defined in section 12-72-3(A), to be allocated to the public art fund out of eligible general fund capital improvement project ("CIP") funds (excluding public works project, PW 156) and used hereunder to enhance public buildings with artwork.

Artwork means all forms of original creations or works designed by a professional artist, team of artists, or design team.

Local artist means an artist who has current permanent residence within the city municipal limits. An artist team shall be considered as a local artist when at least 75 percent of the members of the team have current permanent residence within the city municipal limits.

Minority means those persons who are of a race or nationality other than Caucasian, including African Americans, Hispanics, Asians, Native Americans, or a combination thereof.

MWBE means an entity which is owned and controlled by one or more African Americans, Hispanics, Asians, Native Americans, or women, or a combination thereof.

Participating bureaus means departments of the city that either construct or fund CIP projects in which artwork is to be installed and public art funds are to be expended hereunder.

Public art fund means the special fund established as a separate account pursuant to section 12-72-3(A) with funds allocated to the public art fund and administered by the city. All interest and investment earnings attributable to the public art fund shall accrue therein. The city shall establish procedures for reporting activity of the public art fund. The city shall periodically provide the city council with reports reflecting all amounts allocated to the public art fund, encumbered to specific projects, and expended from the public art fund for artwork.

Public art maintenance fund means the special fund established as a separate account pursuant to section 12-72-3(B) with funds allocated to the public art maintenance fund, and administered by the city. All interest and investment earnings attributable to the public art maintenance fund shall accrue therein. The city shall establish procedures for reporting activity of the public art maintenance fund.

Public art oversight committee shall consist of seven members with three members nominated by the mayor and approved by the city council. Three members nominated by the council chair and approved by the council and one of the seven members shall be the chair of the UAC board or a board member designated by the UAC board chair. The members shall serve a maximum of four two-year terms. Members shall sign a conflict of interest statement and declare any conflicts annually. The committee shall also include as ex officio members the UAC executive director and the director or designee of any participating bureau.

Public art program means the activities and art enhancements generated pursuant to this chapter.

Regional artist means an artist who has lived and worked in the Memphis Metropolitan Statistical Area for the past three years.

***Editor's note—**Ord. No. 5674, §§ 1(2-86—2-91), adopted Jan. 9, 2018, amended chapter 12-72 in its entirety to read as herein set out. Former chapter 12-72, §§ 12-72-1—12-72-5, pertained to public art, and derived from Code 1985, § 2-86—2-90; Ord. No. 4934, 3-5-2002.

Rolling three-year period means at any given date, the previous three fiscal years combined.

UAC is the urban art commission, an independent 501(c)(3) organization established in 1999.

Women means those persons, citizens of the United States and lawfully admitted resident aliens, who are of the female gender and not otherwise included in one of the specific ethnic minority groups.
(Ord. No. 5674, § 1(2-87), 1-9-2018)

Sec. 12-72-3. Funding source, use and disbursement of the public art program.

A. An art percentage of one percent of the total general obligation bond amount included in the CIP budget for construction costs each fiscal year, not to exceed $1,000,000.00 per fiscal year, shall be allocated to the public art fund for use in the development of artwork hereunder, including, but not limited to, artist design services, the development of design concepts and models, an artist in residency program, the selection, acquisition, purchase, commissioning, placement, installation, exhibition and display of artwork, and architectural and engineering design associated with artwork.

B. Each fiscal year, the city shall provide operating funds in an amount equal to one-tenth of one percent of the total general obligation bond amount included in the CIP budget for construction costs each fiscal year, which funds shall be allocated to the public art maintenance fund for use for maintenance, curatorial and conservation care for artwork developed pursuant to the public art program.

C. Funds in the public art fund and the public art maintenance fund not expended by the end of the close of any fiscal year shall be carried forward to the next succeeding fiscal year, to the extent that such carried forward funds, when added to the art percentage funds for the succeeding fiscal year, do not exceed $1,500,000.00.

D. All participating bureaus shall include in their applications for funding for CIP projects to unrelated governmental agencies and other funding sources that allow for art enhancements in capital improvement projects, amounts up to the limit set by any such agency or other funding source, for artist design services and artwork. Any grant amounts received by participating bureaus for artwork or art enhancements to capital improvement projects shall be directed to the public art fund and shall not be included for purposes of computing the maximum funding amounts set out in subsections 12-72-3(A) or 12-72-3(B).

E. Public art funds shall be used for the creation of artwork in, upon, adjacent to, or in close proximity to CIP projects.

F. Disbursements from the public art fund and the public art maintenance fund shall be made only after authorization by the city, through its city engineer. Disbursements shall be made according to the terms of this chapter and any guidelines adopted by the city hereunder.

G. UAC will track dollars spent locally within each project. Sixty percent of the projects/dollars spent annually shall be contracted to a local artist or team of artists. It is possible that there may be years that due to the special needs of projects or unforeseen circumstances, there may not be local artists available to meet the 60 percent participation. In this case, the 60 percent participation shall be calculated on a three-year rolling period to allow for the UAC to meet the participation goal by increasing the local artists participation in the next two years.

H. In an effort to promote equality and diversity in all artwork undertaken pursuant to this chapter, the public art program funded hereunder should include significant minority and women participation. UAC will report annually on the total CIP dollars contracted in MWBE participation, including both certified and non-certified vendors.
(Ord. No. 5674, § 1(2-88), 1-9-2018)

Sec. 12-72-4. Oversight.

The City of Memphis Public Art Oversight Committee shall meet regularly to provide guidance and oversight in the implementation of the city's public art program.

A. All meetings of the public art oversight committee shall be open to the public and posted in accordance with city policies for meetings of appointed boards and commissions;

B. Review program policies and guidelines and make recommendations to city council for changes and updates to the public art ordinance as appropriate;

C. Provide guidance to UAC in the development of the annual plan and recommend its adoption to city council;

D. Recommend representatives for ad hoc selection committees to expand the roster of volunteers to serve as selection panelists;

E. Review quarterly reports presented by the UAC and evaluate the performance of the organization in the administration of the program;

F. Annually the members of the oversight committee shall complete a conflict of interest form and declare any conflicts of interest; members shall abstain from participating in discussions or voting on items in which they have a conflict of interest of the appearance of a conflict of interest.

(Ord. No. 5674, § 1(2-89), 1-9-2018)

Sec. 12-72-5. Administration.

The city shall contract annually with the UAC for the UAC to administer the public art program, and shall provide therein for compensation to be paid to UAC for all such administrative services. The UAC and the public art oversight committee shall, after consultation with the city council and participating departments of city, administer the provisions of this chapter relating to artwork acquisition and display, and shall adopt guidelines to:

A. Provide for annual meetings with participating bureaus;

B. Develop an annual plan for the public art program that considers the views of the participating bureaus and is consistent with all applicable city budgets;

C. Recommend to the city engineer and appropriate bureau director for his or her approval the selection of artwork to be created with public art funds;

D. Provide a method for the appointment of representatives to ad hoc selection committees, created solely for the purpose of selecting artists and reviewing artwork proposals. The method shall include a public solicitation of applications and an orientation for selection committee members on their role as panelists. The names and affiliations of the members of the selection committee shall be published in the call for artists.

E. Ad hoc selection committee members shall sign a conflict of interest statement and shall abstain from participating in discussion or voting on items in which they have a conflict of interest or the appearance of a conflict of interest;

F. Ad hoc selection committee meeting information and meeting minutes shall be publicly advertised on the UAC website and social media and ad hoc selection committee meetings shall be open to the public;

G. Determine a method or methods of selecting artists for the design, execution and siting of artwork;

H. Provide quarterly reports and reviews to the city council to account for artwork projects funded from the public art fund;

I. Clarify the responsibilities for maintenance of artwork, including any extraordinary operations or maintenance costs associated with artwork, prior to selection;

J. Facilitate the preservation of art objects, ethnic and cultural arts and crafts, and artifacts funded through this chapter;

K. Determine a process to accession and deaccession artwork, as necessary, and make recommendations to the oversight committee and, as appropriate, for the disposal of city assets to city administration or city council;

L. UAC shall provide the city with CIP-funded contracts to be made publicly available in the city's website for city contracts.

M. Set forth any other matter appropriate to the administration of this chapter.

(Ord. No. 5674, § 1(2-90), 1-9-2018)

Sec. 12-72-6. Ownership.

All artwork acquired pursuant to this chapter shall be acquired in the name of the city. Insurance coverage for artwork acquired hereunder shall be provided and maintained by the city.

(Ord. No. 5674, § 1(2-91), 1-9-2018)

***Charter reference—**Authority of board of commissioners to regulate the landing of airplanes and airships and the operation thereof above or in the city, § 834.

State law reference—Aviation, T.C.A. § 42-1-101 et seq.

ARTICLE 1. GENERAL PROVISIONS

Sec. 12-76-1. Definitions.

The following terms, whenever used or referred to in this chapter, shall have the following respective meanings, unless a different meaning clearly appears from the context:

Aircraft means any contrivance now known or hereafter invented, used or designed for navigation of or flight in the air.

Airman means any individual who engages as a person in command or as a pilot, mechanic or member of the crew, in the navigation of aircraft while under way, and any individual who is directly in charge of the inspection, maintenance, overhauling or repair of aircraft, aircraft engines, propellers or appliances, and any individual who serves in the capacity of aircraft dispatcher or air traffic control tower operator.

Airport means the Memphis International Airport and/or the General Dewitt Spain Airport where applicable.

Authority means the Memphis-Shelby County Airport Authority.

Director means the director of aviation of the airport authority or his or her duly authorized representatives; the director is also the president of the airport authority.

Fixed base operator means any person upon airport property engaged in the business of the sale of aircraft, the sale of aircraft parts, the sale of gasoline and oil for aircraft at retail, the rental of aircraft, the operation of a flying school or the rendition of any service to aircraft or the operators thereof for profit. The term shall include persons engaged in any one or more of such businesses, but shall not include oil companies renting space on airport property and selling gasoline and oil to commercial airlines or fixed base operators for resale at retail.

Operation of aircraft or *operate aircraft* means the use of aircraft for the purpose of air navigation. Any person who causes or authorizes the operation of aircraft, whether with or without the right of legal control of the aircraft, in the capacity of owner, lessee or otherwise, shall be deemed to be engaged in the operation of aircraft within the meaning of this chapter.

President means the president of the airport authority or his or her duly authorized representatives; the president is also the director of aviation of the airport authority.

Retail food store is defined as an establishment that is open to the public that derives at least 20 percent of its sales from the retail sale of food and food ingredients for human consumption taxed at the rate provided in T.C.A. § 67-6-228(a) and has retail floor space of at least 1,200 square feet, or as otherwise defined by Tennessee law.

Tower means the airport traffic control tower.

Wine means the product of the normal alcoholic fermentation of the juice of fresh, sound, ripe grapes, with the usual cellar treatment and necessary additions to correct defects due to climatic, saccharine and seasonal conditions, including champagne, sparkling and fortified wine of an alcoholic content not to exceed 18 percent by volume. No other product shall be called "wine" unless designated by appropriate prefixes descriptive of the fruit or other product from which the same was predominately produced, or an artificial or imitation wine. "Wine" does not mean alcohol derived from wine that has had substantial changes to the wine due to the addition of flavorings and additives.

Nothing in this section shall be construed to allow wine sales at retail food stores for on premises consumption, including by the drink or by the pour, nor shall this section be construed to allow the sale of liquor or spirits other than wine or beer at a food retail store.
(Code 1967, § 4-1; Code 1985, § 3-1; Ord. No. 5615, § 1, 5-3-2016)

Sec. 12-76-2. General rules for operating aircraft over city.

It is unlawful for any person to operate an aircraft in and over the city at any height or speed in any manner which is unreasonable or improper under the circumstances of the operation; or so as to endanger the property, life or limb of any person. Operation of an aircraft in violation of Federal Aviation Regulations shall be presumptive evidence of unreasonable and improper operation. In no event shall an aircraft be operated over the city at an altitude of less than 1,000 feet above any

obstruction and at a horizontal distance of less than 2,000 feet, in any direction, from an obstruction; provided however, that aircraft maneuvering for landing or take off are subject only to such rules and regulations as may apply thereto.
(Code 1967, § 4-2; Code 1985, § 3-2)

Sec. 12-76-3. Acrobatic flying.

Aerial acrobatics and trick flying over any area within the limits of the city, or within the airport control zone, are prohibited; and within such areas the controls of aircraft shall not be manipulated so as to divert the aircraft from normal, stable and safe flight; provided however, that acrobatic flying may be permitted within the airport control zone outside the boundaries of the city upon previous arrangement made with the controller on duty in the tower, and the approval of the president of the airport authority.
(Code 1967, § 4-3; Code 1985, § 3-3)

Sec. 12-76-4. Dropping handbills and circulars from aircraft.

It is unlawful for any person in any aircraft flying over the airport or over the territory within the boundaries of the city, to cause or permit to be thrown out, discharged or dropped, any handbills, circulars, cards or other matter whatsoever.
(Code 1967, § 4-4; Code 1985, § 3-4)

ARTICLE 2. ADMINISTRATION

Sec. 12-76-5. Permit for commercial activities generally.

No person shall use any portion of the airport property or any structure thereon for revenue-producing commercial activities without securing an appropriate permit for such activities from the president of the airport authority and paying the rates and charges prescribed for such use.
(Code 1967, § 4-19; Code 1985, § 3-16)

Sec. 12-76-6. Permit for commercial photography.

No person shall take still, motion or sound pictures for commercial purposes on the airport without permission of the president of the airport authority, and on such terms and conditions as such president may prescribe.
(Code 1967, § 4-20; Code 1985, § 3-17)

Sec. 12-76-7. Advertisements.

No person shall post, distribute or display signs, advertisements, circulars or other printed or written matter at the airport except with the approval of the president of the airport authority or in accordance with the provisions of a lease executed with the airport authority.
(Code 1967, § 4-21; Code 1985, § 3-18)

Sec. 12-76-8. Soliciting funds.

No person shall solicit funds for any purpose on the airport without the permission of the president of the airport authority.
(Code 1967, § 4-22; Code 1985, § 3-19)

Sec. 12-76-9. President to have access to records of commercial users.

As a condition precedent to the right of commercial airlines and air freight and express haulers to use the airport, the president of the airport authority shall be given access by them at all reasonable times, in person or by agent, to examine and check the records of such airlines and freight and express haulers, showing the information required by this chapter to be reported by them to the president of the airport authority.
(Code 1967, § 4-26; Code 1985, § 3-20)

Sec. 12-76-10. Entering restricted area.

All areas of airport property except those areas specifically open to the public are restricted and no person shall enter upon the aircraft movement areas, ramp areas, aircraft parking and storage areas, hangars or shop areas of the airport except:

A. Persons assigned to duty therein;

B. Persons authorized by the airport authority;

C. Passengers under appropriate supervision entering the apron for the purpose of embarkation and debarkation;

D. Persons engaged, or having been engaged, in the operation of any aircraft;

E. Persons under contractual agreement with the airport authority.

(Code 1967, § 4-27; Code 1985, § 3-21)

Sec. 12-76-11. Unauthorized taking of property.

No person shall take or use any aircraft, aircraft parts, instruments, or tools owned, controlled, or operated by any other person while the same are stored, housed, or otherwise left on the airport or within its hangars, except with the written consent of the owner or operator thereof, or other evidence of the right to do so satisfactory to the president of the airport authority.
(Code 1967, § 4-28; Code 1985, § 3-22)

Sec. 12-76-12. Firearms and explosives.

No person shall have any firearm, explosive or incendiary device on or about their person or accessible property except:

A. Duly authorized peace officers of the federal, state or municipal government or political subdivision thereof;

B. Duly authorized federal inspectors and postal employees;

C. Duly authorized airport or air carrier employees;

D. Members of the armed forces of the United States on official duty;

E. Air passengers transporting unloaded firearms in checked baggage.

Unauthorized persons possessing such property on the airport shall surrender same to the airport police officer on duty.
(Code 1967, § 4-29; Code 1985, § 3-23)

Sec. 12-76-13. Destroying or damaging property.

A. No person shall:

1. Destroy, injure, deface or disturb in any way any building, sign, equipment, marker, or other structure, tree, flower, lawn or other property on the airport;

2. Trespass on lawns and seeded areas of the airport.

B. Any and all airport property destroyed, injured, or damaged, by accident or otherwise, shall be paid for by the party responsible for such destruction, injury or damage.
(Code 1967, § 4-30; Code 1985, § 3-24)

Sec. 12-76-14. Disposal of refuse.

Garbage, papers and refuse or other similar material shall be placed in receptacles provided at the airport for that purpose.
(Code 1967, § 4-31; Code 1985, § 3-25)

Sec. 12-76-15. Gambling.

No person shall conduct gambling in any form or operate gambling devices anywhere on the airport.
(Code 1967, § 4-32; Code 1985, § 3-26)

Sec. 12-76-16. Restrictions on dogs and other animals.

Dogs or other animals shall not be permitted in the terminal building or on the landing area of the airport, except Seeing-Eye dogs and other animals being transported by air and confined in suitable shipping containers. Dogs shall be permitted in other areas of the airport if restrained by leash or confined in such manner as to be under control.
(Code 1967, § 4-34; Code 1985, § 3-27)

Sec. 12-76-17. Lost property.

Persons finding lost articles at the airport shall turn same in to the lost and found department located in the airport management offices or to the airport security office. Articles which remain unclaimed for a period of 90 days will be disposed of in the manner prescribed by the board of commissioners of the airport authority.
(Code 1967, § 4-35; Code 1985, § 3-28)

Sec. 12-76-18. Eviction from premises.

Any person operating or handling any aircraft, operating any vehicle, equipment, or apparatus or using the airport or any of its facilities in violation of this chapter, or refusing to comply herewith, may be removed from the airport, and deprived of and refused the further use of the airport and its facilities for such length of time as may be determined by the president of the airport authority.
(Code 1967, § 4-37; Code 1985, § 3-29)

Sec. 12-76-19. Accident reports.

All persons involved in any accident on the airport and all witnesses thereto shall report promptly to the president of the airport authority's office or to the airport police officer on duty.
(Code 1967, § 4-38; Code 1985, § 3-30)

Sec. 12-76-20. Airport authority—Promulgation of rules and regulations.

The board of commissioners of the airport authority shall have authority to make and promulgate rules and regulations for the development, operation, maintenance and management of the airport and to develop, maintain, manage and operate the airport in accordance therewith.
(Code 1967, § 4-55; Code 1985, § 3-41)

ARTICLE 3. AIRPORT OPERATING REGULATIONS

Sec. 12-76-21. Storage and repair of aircraft.

Aircraft shall be stored and repairs made on the airport only in the spaces designated for the purpose by the president of the airport authority. Aircraft other than those belonging to the commercial airlines entering the airport, and military aircraft, may be repaired on the airport only by fixed base operators doing business on the airport; provided, however, that a properly qualified airplane mechanic may work upon, service and repair aircraft owned by him or her.
(Code 1967, § 4-76; Code 1985, § 3-56)

Sec. 12-76-22. Securing unattended aircraft.

No aircraft shall be left unattended on the airport unless properly secured or within a hangar. Owners of aircraft shall be held responsible for any damage resulting from failure to comply with this section.
(Code 1967, § 4-77; Code 1985, § 3-57)

Sec. 12-76-23. Runway usage.

Landings and take-offs at the airport shall be made on the runways and in the direction indicated by the controller on duty in the tower.
(Code 1967, § 4-88; Code 1985, § 3-58)

Sec. 12-76-24. Airport authority may delay or restrict operations or refuse clearance.

The president of the airport authority may delay or restrict any flight or other operations at the airport and may refuse take-off clearance to any aircraft for any infraction of airport rules and regulations.
(Code 1967, § 4-90; Code 1985, § 3-60)

Sec. 12-76-25. Removal of disabled aircraft.

Aircraft owners, their pilots and agents, shall be responsible for the disposal of disabled aircraft and parts thereof, and shall promptly remove the same from the airport, unless directed to delay such action pending an investigation of an accident.
(Code 1967, § 4-91; Code 1985, § 3-61)

Sec. 12-76-26. Experimental and test flying.

Experimental and test flying will be permitted, but only upon previous arrangements with, and the approval of, the president of the airport authority and the controller on duty in the tower.
(Code 1967, § 4-92; Code 1985, § 3-62)

Sec. 12-76-27. Parachute jumping.

Experimental and exhibition parachute jumping at the airport will be permitted only on previous arrangement with the controller on duty in the tower and approval by the president of the airport authority.
(Code 1967, § 4-93; Code 1985, § 3-63)

Sec. 12-76-28. Aircraft radios.

All aircraft regularly operating from the airport shall be equipped with two-way radios capable of receiving tower transmissions at all times, from any position within the limits of the airport control zone; shall maintain such radio equipment on the control tower frequency; and shall follow whatever traffic control instructions may be given by the tower.
(Code 1967, § 4-95; Code 1985, § 3-65)

Sec. 12-76-29. Radio procedure.

Radio contacts between pilots of aircraft and air traffic control tower operators shall be conducted in accordance with the procedures and by means of the phraseologies prescribed by the administrator of the Federal Aviation Administration whenever practicable.
(Code 1967, § 4-96; Code 1985, § 3-66)

Sec. 12-76-30. Portable traffic-control light.

The portable traffic-control light shall be used to regulate landing and take offs of any aircraft not equipped with radio. Signals from the portable traffic-control light shall be those provided for such use by the air traffic rules issued by Federal Aviation Regulations. All such light

signals from the tower shall be acknowledged by the pilot by the wiggling of ailerons when on the ground, and by rocking of the wings when in the air.
(Code 1967, § 4-97; Code 1985, § 3-67)

Sec. 12-76-31. Report of aircraft accidents.

Persons employed on the airport who witness or participate in any aircraft accident shall promptly render a detailed report to the president of the airport authority's office, giving the names and addresses of all witnesses thereto.
(Code 1967, § 4-98; Code 1985, § 3-68)

ARTICLE 4. MOTOR VEHICLE AND PEDESTRIAN TRAFFIC AT AIRPORT

Sec. 12-76-32. Application of traffic regulations.

A. Insofar as the same are applicable and not in conflict with the following sections, the traffic regulations prescribed by title 11 as the same now exist, or as the same shall be hereafter amended, shall apply to and govern the area embraced within the airport.

B. The drives and parking spaces in and about the airport are declared to have the status of streets, for the purpose of application thereto of the traffic regulations of the city.
(Code 1967, § 4-131; Code 1985, § 3-81)

Sec. 12-76-33. Establishment of no parking zones and loading zones.

For the purpose of the establishment of no parking zones, loading and unloading zones, safety zones, one-way streets or drives and any and all other administrative and police regulations upon the airport, the airport authority shall have the powers delegated to the directors of fire and police and the director of public works by title 11.
(Code 1967, § 4-132; Code 1985, § 3-82)

Sec. 12-76-34. Use of roads and walks.

A. No person shall travel on the airport other than on the roads, walks or places provided for the particular class of traffic.

B. No person shall use the roads or walks in such manner as to hinder or obstruct their proper use.

C. No person shall operate any type of vehicle on roads or walks except as designated by the president of the airport authority.
(Code 1967, § 4-133; Code 1985, § 3-83)

Sec. 12-76-35. Pedestrians' right-of-way.

Pedestrians within pedestrian lanes, as marked at the airport, shall have the right-of-way over vehicular traffic.
(Code 1967, § 4-134; Code 1985, § 3-84)

Sec. 12-76-36. Following other vehicles.

No person shall operate a vehicle following another vehicle on the airport closer than 15 feet.
(Code 1967, § 4-135; Code 1985, § 3-85)

Sec. 12-76-37. Obstructing traffic.

Motor vehicles being operated at the airport shall not obstruct traffic by making right or left turns from the wrong traffic lane, or by weaving in and out of traffic, or in any other improper manner.
(Code 1967, § 4-136; Code 1985, § 3-86)

Sec. 12-76-38. Operation of motorized equipment on apron.

No motorized equipment shall be operated on the apron of the terminal building or the aircraft landing area at the airport, except:

A. By persons assigned to duty thereon;

B. By persons authorized by the president of the airport authority.

(Code 1967, § 4-137; Code 1985, § 3-87)

Sec. 12-76-39. Speed of vehicles.

Motor vehicles shall be operated in strict compliance with speed limits prescribed by the president of the airport authority and indicated by posted traffic signs, and in any event shall not be operated in excess of 25 miles per hour.
(Code 1967, § 4-138; Code 1985, § 3-88)

Sec. 12-76-40. Vehicles for hire.

A. No person shall operate any vehicle for hire from the airport except with the approval of the president of the airport authority and under such terms and conditions as may be prescribed by him or her.

B. No common carrier vehicle or vehicle for hire shall load or unload passengers at the airport at any place other than that designated for the purpose by the president of the airport authority.
(Code 1967, § 4-142; Code 1985, § 3-89)

CHAPTER 12-80. RAILROADS AND RAILROAD CROSSINGS*

Sections:

Article 1. General Provisions

Sec. 12-80-1. Trains obstructing street.
Sec. 12-80-2. Wooden bridges, culverts or trestles.
Sec. 12-80-3. Applicability of chapter to agents and officers.
Sec. 12-80-4. Contracts between city and railroads—Deemed ordinances.
Sec. 12-80-5. Contracts between city and railroads—Breaches.
Sec. 12-80-6. Work in streets to be under supervision of city engineer—Adjustment of conflicts between company and engineer.
Sec. 12-80-7. Rules and regulations relative to passenger terminal facilities.
Sec. 12-80-8. Obstructing passage between depots and trains.
Sec. 12-80-9. Climbing upon or between cars or engines.
Sec. 12-80-10. Locomotive headlight.
Sec. 12-80-11. Speed limit.
Sec. 12-80-12. Sounding of engine whistle.
Sec. 12-80-13. Parking of railway cars at crossings.

Article 2. Crossings

Sec. 12-80-14. Generally.
Sec. 12-80-15. Signal lights.
Sec. 12-80-16. Human flagmen, gates or crossarm signs.
Sec. 12-80-17. Overhead street or arc lights.
Sec. 12-80-18. Safety gates to be counterbalanced.
Sec. 12-80-19. Inspection by city engineer.

ARTICLE 1. GENERAL PROVISIONS

Sec. 12-80-1. Trains obstructing street.

It is unlawful for the directing officer or the operator of any railroad train to direct the operation of or to operate the same in such a manner as to prevent the use of any street for purposes of travel for a period of time longer than five minutes. This section shall not apply to trains or cars in motion other than those engaged in switching.
(Code 1967, § 34-19; Code 1985, § 31-1)

Sec. 12-80-2. Wooden bridges, culverts or trestles.

It is unlawful for any railroad company having tracks or obtaining the right-of-way to lay tracks in the corporate limits of the city to construct, alter, change or repair any wooden bridge, culvert or trestle, but, in all instances hereafter, bridges, culvert or trestles shall be constructed of concrete and/or steel. When any wooden bridge, culvert or trestle needs repairs, it shall be torn away and one of such materials constructed in its stead. The plans in all instances shall be submitted to and approved in writing by the city engineer before any work shall be done on the same.
(Code 1967, § 34-13; Code 1985, § 31-2)

Sec. 12-80-3. Applicability of chapter to agents and officers.

This chapter shall, in all respects, apply to the officers, agents and employees of any railroad company, as well as to the company itself.
(Code 1967, § 34-1; Code 1985, § 31-3)

Sec. 12-80-4. Contracts between city and railroads—Deemed ordinances.

Each and every contract between any railroad company and the city, under which such company occupies with its tracks any street or parts of a street within the city, or operates cars thereover, shall in addition to being a contract between the parties, be deemed also an ordinance, with the same effect as if the city had granted or consented to such use and occupancy by an ordinance wherein was embodied all the terms and provisions and conditions of such contract.
(Code 1967, § 34-2; Code 1985, § 31-4)

Sec. 12-80-5. Contracts between city and railroads—Breaches.

A. Any breach of a contract referred to in section 12-80-2 of this chapter on the part of the railroad company shall constitute a misdemeanor.

*__Charter reference—__Authority to regulate railroads, §§ 719—722.

B. The failure of any railroad company to lay or maintain its tracks, or to lay, relay, repair or maintain the paving of the streets, or parts of the streets occupied by it, in the manner, to the extent, and within the time prescribed by such contract, is declared a nuisance and a misdemeanor.

C. Whenever the surface of any street shall be disturbed by any railroad company, and there shall be a contract then existing showing the obligations of such company in respect to the paving, repaving, repairing or maintaining the paving of such streets, either within or without the tracks of such company, and such company shall fail to comply with and perform such work in every particular, such failure shall be considered and treated as if the use and the occupancy of such street had been in the first instance, unauthorized and unlawful, and a nuisance and a misdemeanor. Each day's breach of such contract shall constitute a separate offense.
(Code 1967, § 34-3; Code 1985, § 31-5)

Sec. 12-80-6. Work in streets to be under supervision of city engineer—Adjustment of conflicts between company and engineer.

The grade of streets, the manner of work and material used and the erection of poles by railroad companies shall all be under the supervision of the city engineer, and done according to his or her specifications and directions, and any conflict between him or her and the railroad company shall be adjusted by the mayor, whose action shall be final.
(Code 1967, § 34-4; Code 1985, § 31-6; Ord. No. 1426, § 1, 9-5-1972)

Sec. 12-80-7. Rules and regulations relative to passenger terminal facilities.

It is unlawful for any railroad company operating within the corporate limits of the city to fail to comply with rules and regulations adopted by the mayor and council for the operation, maintenance and use of railroad passenger terminal facilities. The director of public works shall be delegated the responsibility for enforcing such rules and regulations.
(Code 1967, § 34-5; Code 1985, § 31-7; Ord. No. 1426, § 2, 9-5-1972)

Sec. 12-80-8. Obstructing passage between depots and trains.

It is unlawful for any person to obstruct the passage of persons going to or from the cars of any railroad at any station or depot within the limits of the city by standing in the way or crowding upon, or in any other manner obstructing the free passage along or upon the platforms and ways leading to and from the depots to the trains.
(Code 1967, § 34-15; Code 1985, § 31-8)

Sec. 12-80-9. Climbing upon or between cars or engines.

It is unlawful for any person, except an employee of the railroad, to be found jumping upon, or attempting to jump upon, climbing upon, or attempting to climb upon or between the cars or engines of any railroad passing through any part of the city.
(Code 1967, § 34-16; Code 1985, § 31-9)

Sec. 12-80-10. Locomotive headlight.

All railway locomotives operated within the city between the hours of sunset and sunrise shall carry upon the forward portion thereof a properly constructed and lighted headlight, which shall be clearly distinguishable and visible at a distance of 300 feet or more from such locomotive.
(Code 1967, § 34-17; Code 1985, § 31-10)

Sec. 12-80-11. Speed limit.

It shall be a misdemeanor for any person to run any engine or train of cars on any railroad in the city at a greater speed than 20 miles an hour, except over track which has at least a Federal Railroad Administration Classification No. 4, where the speed may not exceed 30 miles an hour.
(Code 1967, § 34-20; Code 1985, § 31-11; Ord. No. 1426, § 7, 9-5-1972)

Sec. 12-80-12. Sounding of engine whistle.

It is unlawful for any person to sound or blow the whistle or other similar device of any engine operated on any railroad in the city except when the same is sounded as required by the laws of the state.
(Code 1967, § 34-21; Code 1985, § 31-12)

Sec. 12-80-13. Parking of railway cars at crossings.

It is unlawful for any person to park railway cars within the city limits of the city nearer than 150 feet to any grade crossing of any of the streets of the city occupied with the tracks of any railway company in the

city. This section shall not be so construed as to prohibit the parking of cars for the purpose of loading or unloading on a platform attached to a building.
(Code 1967, § 34-22; Code 1985, § 31-13)

ARTICLE 2. CROSSINGS

Sec. 12-80-14. Generally.

A. The owner or operator of every railroad, the tracks of which cross a street of the city at a grade, shall be and is required to lay and maintain a suitable crossing at the street so crossed, such crossing to be paved with a standard crossing in a manner and of such materials as shall be approved by the city engineer, for the full width of the street from curbline to curbline and extending between rails and two feet on either side of the rails, the crossing material to be laid flush with the surface of the track rails so as to at all times afford a good and safe crossing; provided that, where any existing crossing in the opinion of the city engineer is of suitable material and safe and satisfactory, such owner or operator of the railroad track shall be permitted to maintain such crossing until the same shall require extensive repairs or rebuilding, when the same shall be rebuilt as herein provided; and, provided, further, that, the city engineer shall have the power to designate the crossings of streets where little traffic exists, and when so designated, it shall not be necessary to install such standard crossings, but the same shall be paved with other material and in a manner satisfactory to the city engineer. Wherever more than one track crosses a street and the nearest rails of the tracks are less than 15 feet apart, the paving required shall extend between the tracks as well as between the rails and two feet outside of the outermost rails.

B. The owner or operator of every railroad shall also lay and provide sidewalks of asphalt or concrete, which shall be approved by the city engineer, to be laid between the curblines and street right-of-way lines for the full width of the right-of-way; and provided further, that the city engineer shall have power to designate crossings with little pedestrian traffic, and when so designated, it shall not be necessary to lay such sidewalks.
(Code 1967, § 34-7; Code 1985, § 31-26; Ord. No. 1426, § 3, 9-5-1972; Ord. No. 3588, § 1, 9-2-1986)

Sec. 12-80-15. Signal lights.

At each place where railroad tracks cross public streets or highways in the city, except as otherwise provided in this chapter, there shall be provided and maintained at all times, by one or more of such railroads whose tracks intersect such streets and whose locomotives, cars or trains cross same, approved automatic or manually controlled signal lights for the purpose of giving warning and notice of the approach of locomotives, cars, trains or parts of trains to each such street crossing. Such automatic or manually controlled signal lights shall be erected at the right side of the street or railway near the first railroad track to be crossed and so as to be plainly visible to pedestrians, drivers or operators of vehicles, streetcars, motorcars and other traffic using such streets, and such automatic or manually controlled signals shall display and burn two red lights in a horizontal line, mounted below a standard railroad crossing sign, flashing alternately at all times when any moving locomotive, rail train or car is within 300 feet of such street crossing. At crossings of streets with traffic in both directions, back-to-back pairs of lights shall be placed on each side of the tracks. On one-way streets and divided streets, signals shall be placed on the approach side of the crossing. Such automatic signals shall be controlled so as to be actuated a minimum of 20 seconds before the train reaches the crossing. Controls shall be set in each instance for the actual operating speed of the track to be protected, but in no event shall the speed of the train exceed 30 miles per hour. Additional regulations of the state manual on uniform traffic control devices shall be observed as though written herein. Applications with all necessary data shall be made to the city engineer, and he or she shall approve the automatic or manually controlled signal lights to be installed as herein required before such installations are made. The city engineer shall prepare and have on hand for public inspection general specifications for the installation and operation of such signal lights according to the provisions of this chapter.
(Code 1967, § 34-8; Code 1985, § 31-27; Ord. No. 1426, § 4, 9-5-1972; Ord. No. 3588, § 2, 9-2-1986)

Sec. 12-80-16. Human flagmen, gates or crossarm signs.

A. The city engineer, with the advise and concurrence of the director of fire and/or police, shall prepare and keep on file in his or her office for public inspection a list of railroad crossings on all main highways and boulevards where, by reason of the amount of traffic or number of trains, or geographical conditions, the public safety requires human flagmen, manually or automati-

cally controlled gates or large signs with crossarms, in lieu of signal lights as provided by section 12-80-15. Such list may be modified, from time to time, in like manner, as changes in conditions occur. At all crossings where manually or automatically controlled gates are specified by the city engineer, the railroads using such crossings shall provide and maintain such gates at their own expense. Gates shall be controlled so as to be activated a minimum of 20 seconds before the train reaches the crossing. Controls shall be set in each instance for the actual operating speed of the track to be protected, but in no event shall the speed of the train exceed 30 miles per hour. Additional regulations of state manual on uniform traffic control devices shall be observed as though written herein. At all crossings where human flagmen are designated to be placed, the railroads using such crossings shall provide human flagmen, who shall be on duty constantly at each such street crossing when trains, cars or locomotives are crossing or preparing to cross such streets and highways, and the flagmen at each such crossing shall display a sign bearing the word "STOP," or wave a red flag in the daytime, and wave a red light at night in such manner as to give timely and sufficient warning of the approach of each and every locomotive or train of cars to such street crossing.

B. At all crossings where signs with crossarms are designated by the city engineer, the railroads using such crossing shall erect and maintain at all times at their own expense on the right-hand side of the highway approaching each such railroad crossing and so situated as to be plainly visible, a large sign carrying cross-arms inscribed with the words "Railroad Crossing" painted on such crossarms in large letters.

C. Whenever any railroad or interested persons using such crossing shall feel aggrieved at the inclusion or exclusion of any crossing in the list of crossings requiring human flagmen or manually controlled or automatically controlled gates, he or she shall have the right to file a petition with the city engineer, stating the reason for his or her objection. The petition shall be acted on promptly by the city engineer, and the petitioner shall have the right, within five days after the city engineer has acted, to appeal to the mayor.
(Code 1967, § 34-9; Code 1985, § 31-28; Ord. No. 1426, § 5, 9-5-1972; Ord. No. 3588, § 3, 9-2-1986)

Annotation—The above section is applicable to a crossing designated to have human flagmen, regardless of whether the railroad had actual notice of the designation. See *Louisville & N.R. Co.* v. *Tucker,* 211 F.2d 325 (U.S. Circuit Court of Appeals, 6th circuit, 1954).

Sec. 12-80-17. Overhead street or arc lights.

A. Wherever designated by the city engineer, railroad companies whose tracks cross or intersect certain streets in the city shall provide and maintain overhead street or arc lights and keep the same burning nightly for the purpose of lighting the railroad tracks and rights-of-way where the same cross such streets. Whenever any railroad company shall fail to provide such overhead light at any designated street, the city shall have the right to install and maintain such lights for the safety and welfare of the public, and charge the cost of installation and maintenance thereof to the railroad company required by this section to install and maintain such lights.

B. The city engineer shall prepare and keep on file in his or her office for public inspection a list of those railroad crossings where such overhead lights are designated for the public safety, and whenever any railroad company or any person shall feel aggrieved at the inclusion or exclusion of any crossing in the list of those requiring overhead lights, such railroad company or person shall have the right to file a petition with the city engineer stating the reason for objecting to the inclusion or exclusion of such crossing in such list. Such petition shall be acted on promptly by the city engineer, and the petitioner shall have the right, within five days after the city engineer has acted on such petition, to appeal to the mayor.

C. The list of railroad crossings requiring overhead lights may be modified, from time to time, as changes in conditions occur and as the public safety requires.
(Code 1967, § 34-10; Code 1985, § 31-29; Ord. No. 1426, § 6, 9-5-1972; Ord. No. 3588, § 4, 9-2-1986)

Sec. 12-80-18. Safety gates to be counterbalanced.

All railroad safety gates in the city shall be so counterbalanced, or otherwise arranged, that they cannot fall to a horizontal position by their own weight. The use by any railroad company of safety gates not constructed in accordance with this section shall be deemed a misdemeanor.
(Code 1967, § 34-11; Code 1985, § 31-30)

Sec. 12-80-19. Inspection by city engineer.

The city engineer shall inspect all railroad crossings and see that the railroads of the city comply with the ordinances of the city and all contracts between the city and such railroads with respect to street crossings, and in case such crossings are not maintained as provided by ordinance or contract, he or she shall have the power to order the railroad company so in default to do the necessary work, and is vested with the power to enforce such order by instituting proper legal proceedings through the city attorney.
(Code 1967, § 34-12; Code 1985, § 31-31)

CHAPTER 12-84. PARK, PARKWAY REGULATIONS, AND NAMES*

Sections:

Sec. 12-84-1. Applicability.
