2.210.020 Economic and community development incentive grants.

A. The metropolitan government may make economic and community development incentive grants to the board for qualified projects in order to encourage economic and community development within the boundaries of the metropolitan government. The amount of the economic and community development incentive grant during any year will be determined by multiplying the average number of new full time equivalent employees of the qualified company within the boundaries of the metropolitan government during the preceding year by an amount up to five hundred dollars. The actual amount of the economic and community development incentive grant with respect to each qualified project and the period of such grant shall be determined taking into account, among other things, the amount of revenue from all sources that is anticipated to be received by the metropolitan government with respect to the location of the qualified company and its operations in the qualified project and other economic and community development opportunities that the qualified project is expected to create. Any grant made in accordance with the provisions of this Section 2.210.020 will be memorialized by an agreement among the metropolitan government, the board and the qualified company that operates the qualified project, pursuant to which the metropolitan government will authorize the board to utilize such economic and community development incentive grants to acquire, whether by purchase, lease or otherwise, real or personal property for use for the qualified project, and to improve, maintain, extend, equip and furnish real and personal property owned by the board and used for the qualified project.

B. Upon the ECD being contacted by a qualified company, the ECD may recommend that the metropolitan government make an economic and community development incentive grant to the board for the purposes described in this section, subject to approval as provided in Section 2.210.030 of this Code, in order to encourage economic and community development within the boundaries of the metropolitan government. The actual amount of the economic and community development incentive grant and the period of such grant shall be determined taking into account, among other things, the number of jobs created, the amount of revenue from all sources that is anticipated to be received by the metropolitan government with respect to the location of the qualified company and its operations and other economic and community development opportunities

that the qualified company is expected to create. Any grant made in accordance with the provisions of this Section 2.210.020(B) will be memorialized by an agreement between the metropolitan government and the qualified company, pursuant to which the metropolitan government will authorize the board to utilize such economic and community development incentive grants to reimburse the qualified company for all or part of its documented expenditures related to the acquisition, preparation or occupancy of office space and other facilities, costs of moving to or relocating within the area of the metropolitan government, and costs associated with employee training.

C. Beginning January 1, 2018, a qualified company shall be eligible for economic and community development incentive grants only upon satisfaction of the following additional requirements:

1) Written confirmation is provided by the director of the Metropolitan Transit Authority (MTA) that the qualified company has either committed to qualified project participation in the EasyRide MTA-RTA Commuter Program or provided a valid explanation as to why participation is not feasible; and

2) For the duration of any economic and community development incentive grants, the qualified company must provide an annual written report to the ECD regarding the participation rate of its full-time equivalent employees in the EasyRide MTA-RTA Commuter Program. Failure to submit timely written reports may be grounds for termination of a grant.

D. Upon the appropriation of an economic and community development incentive grant through the annual operating budget ordinance for the metropolitan government to a qualified company pursuant to this section, the metropolitan government shall appropriate an equivalent or greater amount to the Barnes Fund for Affordable Housing. Such appropriations shall not be construed as prohibiting other appropriations to the Barnes Fund separate from the annual operating budget ordinance of the metropolitan government from available revenue sources. (Ord. BL2020-533 §§ 1, 2, 2020; Amdt. 2 to Ord. BL2019-1472 § 1, 2019; Amdt. 1 to Ord. BL2019-1472 § 1, 2019; Ord. BL2019-1472 § 1, 2019; Ord. BL2017-904 § 1, 2017; Ord. BL2017-643 § 1, 2017; Ord. BL2010-806 § 4, 2011; Ord. 99-1680 § 1 (part), 1999)

2.210.030 Approval of economic and community development incentive grant agreements and PILOT agreements.

A. This section applies to two types of financial incentives provided through the board: (1) economic and community incentive grants authorized by Section 2.210.020 and (2) payment-in-lieu-of-taxes (PILOT) incentives, authorized by Tenn. Code Ann. § 7-53-305. Any such grant or PILOT incentive must be memorialized by a written agreement. The proposed grant or PILOT incentive and the related agreement shall be submitted to the metropolitan county council for approval by resolution. Any such resolution must receive the affirmative votes of at least twenty-one members of the metropolitan county council in order for it to be approved. All such grant agreements authorized under Section 2.210.020 that are to be funded by the metropolitan government shall provide that the metropolitan government's financial obligations thereunder are subject to the annual appropriation of funds by the metropolitan council.

B. To enable the metropolitan council's assessment of qualified projects, and to determine whether the public interest is served by the incentive under consideration, and to promote a transparent process, the mayor's office of economic and community development (ECD) shall solicit from qualified companies seeking a grant or PILOT incentive for a project, a project proposal that addresses each of the following:

1. The type and number of jobs that will be created — both during and after construction, if any — by the qualified company on the project, including whether those jobs will be temporary or permanent, and the number of identified jobs that will be filled by Davidson County residents;

2. Establishment of a workforce plan disclosing: (a) whether the qualified project will involve use of temporary or staffing agencies, the Nashville Career Advancement Center, or other third parties for identifying, recruiting or referring job applicants; (b) whether the individuals hired for the jobs identified will be employed by the company or by subcontractors or other third parties; and (c) the wages and benefits offered for the identified jobs, and a comparison of those wages to the average wage levels in Davidson County for comparable positions;

3. Whether the qualified project will involve the use of apprentices from programs certified by the U.S. Department of Labor; and

4. The number and type, within the preceding seven years, of (a) violations assessed by the U.S. Department of Labor — Occupational Safety and Health Administration and/or by the Tennessee Occupational Safety and Health Administration against the qualified company, or any contractor or subcontractor of the company retained on the qualified project; or (b) employment or wage-related legal actions filed within federal or state courts

against the qualified company, or any contractor or subcontractor of the company retained on the qualified project.

5. Whether the qualified company provides its employees with benefits that include transportation, accommodation, and related costs when necessary to obtain medical treatment that is otherwise unavailable in the employees' home state, including reproductive healthcare treatment such as abortion.

The ECD shall present this project proposal to the metropolitan council prior to the council's vote on the incentive and related agreement. The qualified company's project proposal shall be incorporated into the agreement upon approval by the metropolitan council. The ECD shall further present the information required under this section B in any report required to be submitted to the metropolitan council under its workforce development program developed under Chapter 2.211.

C. To enable the continued assessment of qualified projects, and to confirm that the public interest is being served by the award of the incentive, each qualified company receiving a grant or payment in lieu of taxes shall submit to the ECD quarterly reports demonstrating compliance with the agreement. With respect to grants awarded under Section 2.210.020, the ECD shall submit an annual report to the metropolitan council relaying compliance data, consistent with Section 2.190.010 of the Metropolitan Code. In the event such report shows that the qualified company failed to comply with its incentive agreement, the metropolitan council may, in its discretion upon the affirmative votes of at least twenty-one members, suspend the incentive prospectively or terminate the incentive agreement prospectively. (Ord. BL2022-1372 § 1, 2022; Amdt. 1 to Ord. BL2017-983 § 1, 2017; Ord. BL2017-983 § 1, 2017; Ord. 99-1680 § 1 (part), 1999)

"Workforce housing" means housing that, on an annual basis, costs thirty percent or less than the estimated median household income for households earning more than sixty percent and not in excess of one hundred twenty percent of the median household income for Davidson County based on the number of persons in the household, as established by the "Median Household Income in the Past 12 Months by Household Size" from the most recently available United States Census Bureau American Community Survey. (Amdt. 2 to Ord. BL2016-342 § 1, 2016; Amdt. 1 to Ord. BL2016-342 § 1, 2016; Ord. BL2016-342 § 1, 2016)

2.213.020 Incentive grants for new units.

A. The metropolitan government may make incentive grants to qualified developers to assist with the development of new affordable and/or workforce housing within the boundaries of the metropolitan government. Incentive grants may be made both for rental developments and owner-occupied units. Such grant funds shall be disbursed on a monthly basis.

1. Rental developments. Owners/developers of new construction rental developments, including developments under construction at the time of application, within the UZO or along a multimodal corridor designated in the Major and Collector Street Plan, excluding Expressways, Freeways, and Ramps may apply for a workforce and/or affordable housing incentive grant. The amount of the incentive grant will be the difference between the average rent for an occupied unrestricted rental housing unit and the average rent for an occupied affordable or workforce housing unit multiplied by the number of occupied affordable or workforce housing rental units for the duration that housing rental units remain affordable or workforce housing. The average rent for an occupied unrestricted rental housing unit will be calculated on a square footage basis using the rent charged for the three unrestricted units within the same development that are most comparable to each individual affordable or workforce housing unit. For purposes of this section, "average rent" includes all ancillary fees charged to all tenants of the development, including parking fees, application fees, association fees, and charges for amenities.

2. Owner-occupied units. The amount of the incentive grant will be a one-time payment of ten thousand dollars per unit for properties located outside of the urban zoning overlay (UZO) district, and twenty thousand dollars per unit for properties located within the UZO or along a multimodal corridor designated in the Major and Collector Street Plan, excluding Expressways, Freeways, and Ramps. All grants for owner-occupied units shall be conditioned upon the recording of deed restrictions with the register of deeds ensuring the units remain designated for affordable and/or workforce housing for the duration provided in the grant agreement. The form of the deed restrictions shall be established in the grant agreement.

B. The maximum amount of a grant to any one qualified developer of affordable or workforce housing rental units shall not exceed fifty percent of the difference between the annual post-development and pre-development real property ad valorem tax assessment for the calendar year for which an incentive grant is applicable. In the event that grant payments for any calendar year exceed the maximum amount, the director of finance, in consultation with OEOE and the grantee, is authorized to take corrective action in accordance with the written policies and procedures. (Amdt. 2 to Ord. BL2016-342 § 1, 2016; Amdt. 1 to Ord. BL2016-342 § 1, 2016; Ord. BL2016-342 § 1, 2016)

2.213.030 Standards for occupancy and construction of affordable and/or workforce housing.

A. To ensure livability, the calculation of bedrooms per affordable or workforce housing units shall be similar to the calculation of bedrooms per market rate units in the project.

B. Exteriors of the affordable and/or workforce housing units shall closely resemble the exteriors of other units within the development, and shall use similar construction materials. (Amdt. 2 to Ord. BL2016-342 § 1, 2016; Amdt. 1 to Ord. BL2016-342 § 1, 2016; Ord. BL2016-342 § 1, 2016)

2.213.040 Incentive grants for the optional conversion of existing rental units.

Owners of existing rental housing developments shall be eligible for an annual incentive grant if they voluntarily convert market-based rental units to affordable or workforce housing units. Owners of existing affordable and/or workforce rental housing units shall also be eligible to receive an incentive grant if they agree to continue to maintain such units as affordable and/or workforce housing units. The amount of the incentive grant will be the difference between the average rent for an occupied unrestricted rental housing unit and the average rent for an occupied affordable or workforce housing unit multiplied by the number of occupied affordable or workforce housing rental units for the duration that housing rental units remain affordable or workforce housing. The average rent for an occupied unrestricted rental housing unit will be calculated on a square footage basis using the rent charged for comparable unrestricted units within the same census tract that are most comparable to each individual affordable or workforce housing unit, as determined by OEOE. In no event shall the amount of the annual grant be greater than twenty percent of the real property ad valorem tax assessment for the calendar year for which an incentive grant is applicable. (Amdt. 2 to Ord. BL2016-342 § 1, 2016; Amdt. 1 to Ord. BL2016-342 § 1, 2016; Ord. BL2016-342 § 1, 2016)

2.213.050 Administration of grant program.

A. The affordable and workforce housing grant program shall be administered by OEOE, with assistance from ECD, the finance department, the department of codes administration, and the planning department.

B. The OEOE may procure the services of a third party entity to assist with administration of the grant program.

C. The director of finance and the director of OEOE shall have the authority and responsibility to develop written policies, procedures, rules, and/or regulations to implement this chapter. Such policies shall include the factors to be considered in determining whether a developer is a qualified developer and a mechanism for grantees to request monthly grant payments. Such policies shall be effective upon filing with the metropolitan clerk. Any amendments or modifications to such policies shall be effective upon filing with the metropolitan clerk, with a copy provided to the metropolitan council office.

D. Incentive grants may be awarded to a qualified developer for either affordable or workforce housing units, or both, provided OEOE shall take reasonable measures to ensure an equitable distribution of grant funds for both affordable and workforce housing.

E. Any grant made in accordance with the provisions of this section will be memorialized by an agreement between the metropolitan government and the qualified developer, which shall be approved by the metropolitan council by resolution. The maximum term for an incentive grant awarded pursuant to this chapter for rental units shall be fifteen years. All owner-occupied units for which one-time incentive grant payments have been made shall be maintained as for-sale affordable/workforce housing for thirty years from the

date of initial occupancy. For new developments, the grant agreements shall be finalized prior to a building permit being issued.

F. All grants awarded pursuant to this chapter shall be approved by the director of the OEOE, metropolitan director of finance, and the metropolitan director of law. (Amdt. 2 to Ord. BL2016-342 § 1, 2016; Amdt. 1 to Ord. BL2016-342 § 1, 2016; Ord. BL2016-342 § 1, 2016)

2.213.060 Annual certification.

A. Not later than February 15 of each year, the grantee shall submit a certification to the OEOE and the finance department for review covering the previous calendar year. The annual certification shall include at a minimum for each occupied affordable and/or workforce housing rental unit:

1. The number of months and partial months the unit was occupied;

2. The median household income level applicable to the unit;

3. The rent charged for the unit; and

4. The market value rent of the unit calculated based on the three closest comparable units on a square footage basis.

B. The annual certification shall also include the total number of occupied affordable and/or workforce housing units in the development compared to the total number of affordable and/or workforce housing units required pursuant to the grant agreement. The annual certification shall also compare the total grant payments for all occupied affordable and/or workforce housing units and the maximum annual grant allowable for the calendar year.

C. The annual certification shall include a certification from the chief executive officer of the grantee that the information is true, correct and complete and that each occupied affordable and/or workforce housing rental unit was occupied by an eligible household.

D. The annual certification shall be accompanied by an examination conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants conducted by a reputable and licensed independent accountant giving an opinion that the amount of the incentive being requested represents, in all material respects, the incentive grant payment owed in conformity with the grant agreement. The independent accountant shall examine, on a test basis, documentation supporting the eligibility of the occupants of the affordable and/or workforce housing units. Additional reporting requirements may be specified in each grant agreement.

E. The incentive grant payment shall be remitted to the developer monthly.

F. Upon review of the annual certification, if it is determined that a grantee received an overpayment in a calendar year, the grantee shall reimburse the metropolitan government by July 31 of the year following the year for which the overpayment was made. In the event that a grant was underpaid in a calendar year, the metropolitan government shall pay the amount of the underpayment to the grantee by July 31 of the year following the year for which the underpayment accrued. (Amdt. 2 to Ord. BL2016-342 § 1, 2016; Amdt. 1 to Ord. BL2016-342 § 1, 2016; Ord. BL2016-342 § 1, 2016)

2.213.070 Cap on total amount of grant awards.

Beginning with fiscal year 2017-2018, the annual amount of all grants awarded pursuant to this chapter including related administrative costs in the aggregate shall not exceed two million dollars exclusive of other grants or contributions made specifically for the purpose of funding the incentive grants. The aggregate grant amount may be increased by resolution of the metropolitan council. The amount budgeted annually will be based upon estimates of subsequent year awards and subject to the maximum set forth in this section. The director of finance and the director of the OEOE shall review the incentive grant program on an annual basis to determine whether the demand for grant funds significantly exceeds the amount of the cap, and shall make a recommendation to the metropolitan council regarding whether the amount of the cap should be adjusted. Any adjustments to the amount of the cap shall be approved by the metropolitan council by resolution prior to becoming effective. (Amdt. 2 to Ord. BL2016-342 § 1, 2016; Amdt. 1 to Ord. BL2016-342 § 1, 2016; Ord. BL2016-342 § 1, 2016)

2.213.080 Noncompliance.

In the event a grantee fails to provide the number of affordable and/or workforce units required for the specified grant term pursuant to the grant agreement, the director of finance shall have the authority to require the grantee to repay the metropolitan government for all grant funds disbursed for affordable and/or workforce housing units in accordance with the provisions of the grant agreement. The director of finance shall have the authority to pursue all other remedies at law or in equity to ensure the availability of the affordable and/or workforce housing units required under the grant agreement. (Amdt. 2 to Ord. BL2016-342 § 1, 2016; Amdt. 1 to Ord. BL2016-342 § 1, 2016; Ord. BL2016-342 § 1, 2016)

2.213.090 Grants subject to funding availability.

All agreements for affordable and/or workforce housing incentive grants to be funded by the metropolitan government shall expressly provide that the metropolitan government's financial obligations thereunder are conditioned upon the appropriation of funds by the metropolitan council. The metropolitan government shall have no obligation to make an affordable and/or workforce housing incentive grant if adequate funds are not available. If an incentive grant payment is not made as a result of lack of funding pursuant to this section, the grantee shall be relieved from the obligation to maintain the required number of affordable and/or workforce housing units. (Amdt. 2 to Ord. BL2016-342 § 1, 2016; Amdt. 1 to Ord. BL2016-342 § 1, 2016; Ord. BL2016-342 § 1, 2016)

2.213.100 Sunset provision.

The provisions of this chapter shall expire and be null and void on December 31, 2019 ("sunset date") unless extended by resolution of the metropolitan council. This provision, commonly known as a "sunset provision," is included to ensure that the effectiveness and necessity of this chapter is reviewed by the metropolitan council after its adoption. If the provisions of this chapter are not extended by resolution of the metropolitan council before the sunset date, no incentive grants shall be awarded after the sunset date. This sunset provision shall not operate to terminate any existing grant agreement in effect on the sunset date, except for a lack of available funds in accordance with Section 2.213.090. (Amdt. 2 to Ord. BL2016-342 § 1, 2016; Amdt. 1 to Ord. BL2016-342 § 1, 2016; Ord. BL2016-342 § 1, 2016)

2.214.040	**Response to request for auxiliary aid or service.**

2.214.010 Policy.

It is the policy of Metropolitan Government of Nashville and Davidson County to ensure that communications with applicants, participants, and members of the public with disabilities are as effective as communications with others. The metropolitan government will furnish appropriate auxiliary aids and services where necessary to afford an individual with a disability an equal opportunity to participate in, and enjoy the benefits of, a program, service, or activity conducted by the metropolitan government. In determining what type of auxiliary aid or service is necessary, the metropolitan government will give primary consideration to the requests of the individual with disabilities. (Ord. BL2000-403 § 1, 2000)

2.214.020 Auxiliary aids and services.

"Auxiliary aids and services" includes (1) qualified interpreters, notetakers, transcription services, written materials, telephone handset amplifiers, assistive listening devices, assistive listening systems, telephones compatible with hearing aids, closed caption decoders, open and closed captioning, telecommunications devices for deaf persons (TDD's), videotext displays, or other effective methods of making aurally delivered materials available to individuals with hearing impairments; and (2) qualified readers, taped texts, audio recordings, Brailled materials, large print materials, or other effective methods of making visually delivered materials available to individuals with visual impairments. (Ord. BL2000-403 § 1, 2000)

2.214.030 Notification.

A list of the metropolitan government departmental ADA contact persons will be distributed to all metropolitan government employees. If an employee does not know which department is sponsoring or responsible for providing the program or service that requires the provision of auxiliary aids or services to ensure effective communication, they will contact the metropolitan government ADA coordinator.

Requests for auxiliary aids or services should be made by the public in advance of the meeting, hearing or other program, service, or activity provided by the metropolitan government. For public meetings and hearings, the ADA contact person should be notified at least one week in advance. For on-going services and programs, the ADA contact person should be notified at least forty-eight hours in advance. For emergencies or urgent requests, the responsible ADA contact person or the metropolitan government ADA coordinator should be notified immediately. The best effort to fulfill the request will be made. (Ord. BL2000-403 § 1, 2000)

2.214.040 Response to request for auxiliary aid or service.

When an auxiliary aid or service is required to ensure effective communication, the metropolitan government will provide an opportunity for an individual with disabilities to request the auxiliary aid or service of their choice and will give primary consideration to the choice expressed by the individual. "Primary consideration" means that the metropolitan government will honor the choice, unless another equally effective means of communication is available, or that use of the means chosen would result in a fundamental alteration in the service, program, or activity or in undue financial burden. When the responsible ADA contact person is deciding whether an alternative means of communication will ensure effective communication, the ADA contact person will consult with the individual with a disability in order to determine the nature of the requirement for an auxiliary aid or service, that is, in what ways effective communication can be achieved with the individual with a disability in the context of the Government program, service, or activity. The ADA contact person may ask the individual with a disability for technical assistance and information on how to obtain a particular auxiliary aid or service.

Within forty-eight hours after the request, the departmental ADA contact person will notify, in writing, the requesting individual with a disability of the proposed auxiliary aid or service to be provided. A copy of the proposal will be sent to the metropolitan government ADA coordinator. (Ord. BL2000-403 § 1, 2000)

2.214.050 Grievance procedures.

If the requesting individual with a disability is dissatisfied with the ADA contact person's proposed auxiliary aid or service, the individual is encouraged to file a grievance with the metropolitan government ADA coor-

dinator. The coordinator will promptly contact the individual in person or by telephone and strive to resolve the grievance within one week. (Ord. BL2000-403 § 1, 2000)

A. Creation, continuing jurisdiction, organization, and membership:

1. There is created the board of ethical conduct, sometimes hereinafter referred to as the "board." The board shall consist of seven members, who shall have been residents of the area of the metropolitan government for not less than two years prior to appointment and shall continue such residency as a qualification for membership. No voting member shall be an official or employee of the metropolitan government or any other government. The members of the board shall serve for terms of three years each. The presence of five members shall be required to constitute a quorum for the board to conduct business. The president pro tem of the council shall be an ex officio, non-voting, member of the board.

2. One member each of the board shall be selected by the following organizations:

League of Women Voters of Nashville.

Nashville Area Central Labor Council.

Napier-Looby Bar Association.

Nashville Area Chamber of Commerce.

Nashville Bar Association.

National Association for the Advancement of Colored People Nashville Branch.

Tennessee Immigrant & Refugee Rights Coalition.

Upon the selection of the member of the board by the above-named organizations, the organization shall file with the metropolitan clerk evidence of the selection.

3. Any vacancy due to any cause shall be filled for the unexpired term in the same manner as the original appointment. A vacancy shall be deemed to exist upon the occurrence of any one or more of the following conditions:

(a) If a member moves their permanent residence out of Davidson County; dies or resigns or for any reason refuses to serve during the period for which they were appointed; or

(b) If the member becomes a member of the council, an official, or employee of the metropolitan government or any other government or a candidate for public office; or

(c) If a member fails to attend and participate in three consecutive meetings (provided said meetings were not held in the same week) or fails to attend at least two-thirds of all meetings of the board held within a calendar year, provided that said board meets at least three times during the calendar year.

4. The board shall elect from its membership a chairperson and vice-chairperson who shall each be selected for one-year terms. The metropolitan clerk or designee shall serve as the custodian of its records and minutes and shall act as the board secretary. The metropolitan attorney shall furnish legal assistance to the board.

5. The board, in addition to such other duties as may be assigned to it by ordinance, shall have the following duties and responsibilities:

(a) To establish and make public the procedures and rules governing its internal organization and the conduct of its affairs; and

(b) To maintain records of its investigations, inquiries and proceedings; and

(c) To render advisory opinions; and

(d) To conduct an investigation and make recommendations about any member's conduct as provided below.

(e) To conduct an investigation and make recommendations regarding any alleged violation of the lobbyist code as set forth in Chapter 2.196 of this code, using the procedures set forth in Section 2.196.085.

6. The council board of conduct shall replace and supersede the council board of conduct created pursuant to Substitute Ordinance No. BL2005-659, as amended, ("hereinafter the "board of conduct");

B. Advisory opinions:

1. Any metropolitan government elected official or member of any metropolitan government board or commission may request, in writing, an advisory opinion of the board regarding any matter relating to conduct or compliance of future activities with the standards set forth herein. The right to request advisory opinions shall be limited to such metropolitan government elected officials or members of boards or commissions. Said written request for an advisory opinion shall be delivered to the metropolitan clerk as secretary of the board, who will promptly deliver the same to the chair of the board.

2. The board may seek from the requesting member clarification of the request, but all such requests and clarifications shall be in writing. The advisory opinion of the committee of the board shall be delivered within forty-five days of the date of receipt of the request by the metropolitan clerk, unless that period is extended by the requesting member.

3. When a member has requested and received an advisory opinion and his or her conduct is in compliance with the conduct deemed acceptable in the advisory opinion, that advisory opinion shall thereafter be considered prima facia evidence that the conduct of the

member does not violate these standards of conduct. In making the determination of the weight to be given to the advisory opinion the board will take into account the degree to which the request for the advisory opinion and the response accurately described the activity or conduct which subsequently formed the basis of the complaint. No such advisory opinions shall have other force of law.

C. Procedures for evaluations and hearing of complaints regarding conduct:

1. Complaint procedures:

(a) Any person may submit a complaint alleging that any one or more metropolitan government elected officials or members of a metropolitan government board or commission have violated the standards of conduct or an executive order currently in effect which regulates the ethical standards of conduct for employees of the metropolitan government.

(b) The complaint must be signed by the complainant and notarized, and must contain the following:

i. Complainant's legal name, current mailing address, and a valid telephone number and/or email address;

ii. Names of person or persons who committed the alleged violation;

iii. Summary of the facts giving rise to the complaint; and,

iv. Explanation of why those facts constitute a violation of the standards of conduct or current executive order which regulates the ethical standards of conduct.

(c) The complaint must be filed with the metropolitan clerk. Upon receipt, the clerk will provide a copy of the complaint to the person or persons named therein, the director of law, and to the members of the council board of conduct.

(d) Additionally, upon receipt of a complaint, the clerk shall provide the complainant and the named persons with a copy of the complaint procedures and hearing procedures of this Code. As used in these sections, unless otherwise noted, to "provide" is to send by U.S. Mail or to hand-deliver.

(e) The department of law will evaluate the complaint, applying the law of the standards of conduct or current executive order which regulates the ethical standards of conduct to the facts alleged in the complaint, and shall undertake an investigation as may be deemed necessary, to determine if such complaint alleges facts, which if proven true, could be deemed to be a violation of the standards set forth in this chapter. Within fourteen business days from its receipt of the complaint, the department of law will issue a report concluding whether the facts alleged in the complaint, if true, would give rise to a violation of the standards of conduct or current executive order which regulates the ethical standards of conduct, and recommending either that the complaint be dismissed or a hearing be held on the complaint. The department of law shall provide its report to the chair of the board of conduct, and shall file it with the clerk.

(f) After receiving the department of law's report, the chair of the council board of conduct shall call a meeting of the board, which meeting is open to and noticed to the public. The clerk shall also provide notice of the meeting to the director of law, the complainant, and the persons named in the complaint.

(g) At the board's meeting, the board shall evaluate the department of law's report, and may accept or reject the department of law's recommendation. The board may decide to dismiss the complaint or call for a hearing on the complaint.

(h) Whether or not the board holds a hearing on the complaint or dismisses the complaint, it shall issue a decision in writing. Any decision shall require the affirmative vote of at least four members of the board. If a hearing is to be held, the decision will not be issued until after the hearing is held. The decision shall be filed with the clerk, and provided to the complainant and to the person or persons named in the complaint.

(i) Once a complaint has been received by the members of the board, and until a written decision has been issued by the board, no member of the board shall participate in any communication regarding the allegations or merits of the complaint, outside of the board's public meetings or hearings, except as contemplated by these procedures.

2. Hearing procedures:

(a) If the board of conduct calls for a hearing on a complaint, the hearing shall be conducted as follows:

i. The hearing shall be noticed to and open to the public, in accordance with these procedures.

ii. Notice of hearing shall be provided to the complainant and to the members or officials named in the complaint (together, the "parties").

iii. The parties may, but are not required to, submit material to the board. If a party does wish to submit such material to the board, the party must file the material with the clerk, and provide a copy of the same to the other parties, at least seven calendar days prior to the hearing. The clerk shall provide a copy of the same to the board members and the department of law.

iv. The parties shall have a full and fair opportunity, but are not required, to present their positions and facts to the board at the hearing. Each party has the right to the assistance of legal counsel. Each party shall be allotted a reasonable amount of time to make its presentation to the board.

v. All parties may call witnesses to give testimony at the hearing, which testimony shall be given under oath, with the witnesses stating their legal names. All witnesses will be subject to cross-examination. Each party must file with the clerk a list of the witnesses that the party intends to call at the hearing, and provide a copy of the same to the other parties, at least seven calendar days prior to the hearing. At the hearing, no party shall be permitted to call upon any person to give testimony if that person's name was not included on such list; however, the board may permit such an unnamed witness to be called by a party if, in the board's judgment, there was good cause for not timely naming the witness and the other parties would not be unduly prejudiced.

vi. Board members may ask questions of any party, counsel, or witness at any time during the hearing.

vii. The board may, in the exercise of its discretion, permit interested persons present at the hearing to offer testimony under oath, even if those persons were not called as witnesses by any party.

viii. The board may continue a hearing to a later date.

ix. The director of law or a metropolitan attorney shall be present during the hearing to advise the board.

3. Action of the board:

(a) If, after a hearing, the board decides that a metropolitan government elected official or member of a board or commission violated the standards of conduct or current executive order which regulates the ethical standards of conduct, then the board shall take one or more of the following actions, as decided by affirmative vote of at least four of its members:

i. Issue a written warning to the elected official or member of the board or commission, with a copy sent to the vice mayor or the executive director and chair of the applicable board or commission, as appropriate. Such warning should include the violation that occurred and any remedy the board requests be taken by the elected official or member of the board or commission;

Upon receipt of a recommendation from the board that an elected official or member of a board or commission be censured by the council, the chairman of the rules-confirmations-public elections committee shall file a resolution with the metropolitan clerk providing for censure of the member, which resolution shall be adopted by an affirmative vote of twenty-one members. Said resolution may also provide for the removal of the censured member of council from any or all committees of the council and removal as chairman of a committee of the council, and/or provide for referral of the matter to other authority as appropriate. (Ord. BL2007-1382 § 3, 2007)

2.226.110	**Tracking and data collection.**

2.226.010 Purpose.

The Metropolitan Government of Nashville and Davidson County's ("metro government's") urban tree canopy is a utility that improves air quality, manages storm water, supports public health, provides economic benefits, mitigates the heat island effect, and increases the quality of life for Nashville's residents. Therefore, this utility should be managed as an asset. The metropolitan government will lead by example to preserve the tree canopy and pursue retention wherever possible. (Ord. BL2021-829 § 1, 2021)

2.226.020 Responsible agencies identified.

The metropolitan government conducts tree-related programs and initiatives through the departments of water and sewerage services, parks and recreation, codes administration, public works (designated in this chapter as the "Nashville Department of Transportation and Multimodal Infrastructure" or "NDOT"), General Services, Nashville Public Library, and planning within the metro government's boundaries ("responsible agencies"). (Ord. BL2021-829 § 1, 2021)

2.226.030 Covered trees identified.

These tree replacement and protection regulations apply to trees within the metro government's rights-of-way and to trees on the properties of the departments of water and sewerage services, parks and recreation, NDOT, general services, the Nashville Public Library (collectively, "covered trees"). Trees that are less than two inches in diameter at breast height, dead, diseased, listed as invasive by the Tennessee Invasive Plants Council, structurally damaged, potentially hazardous, Bradford Pear (Pyrus calleryana), or Ash (Fraxinus) species are not covered trees. (Ord. BL2021-829 § 1, 2021)

2.226.040 Governance.

Tree-related programs and initiatives shall be coordinated by the metropolitan department of water and sewerage services ("metro water services") urban forestry staff and a tree working group. The tree working group shall consist of key program staff selected by the department heads of the responsible agencies and shall convene monthly to coordinate and provide updates on tree-related policies and initiatives. The metro water services urban forestry staff will lead coordination and ensure communication with all responsible agencies' department heads, project staff, and relevant non-governmental partners. (Ord. BL2021-829 § 1, 2021)

2.226.050 Tree review panel created.

Covered trees shall be managed and preserved under the supervision of the metro tree review panel (the "panel"). The panel shall be comprised of representatives from the departments of water and sewerage services, parks and recreation, codes administration, NDOT, general services, planning, and the mayor's office. (Ord. BL2021-829 § 1, 2021)

2.226.060 Panel review and replacement standards.

The panel will review metropolitan government projects and land-management activities on metro government properties of the responsible agencies that include the removal of covered trees over ninety aggregate inches in diameter at breast height ("DBH") or of any single specimen covered tree over thirty inches in DBH. Projects subject to the tree density requirements of Chapter 17.28 shall comply with Section 2.226.080 of the Metropolitan Code and not this section. The removals of covered trees over ninety aggregate inches in DBH or of any single specimen tree over thirty inches in DBH will be subject to the replacement standards contained in this section. Covered trees that are less than six inches in DBH and/or located within a public utility easement will not count toward the aggregate total or the single specimen requirement. Covered trees located in the metro government rights-of-way will not count as removals under this section unless located in a planting strip of at least four feet in width measured from the road or curb to the sidewalk, or they are being removed for a new metro government sidewalk installation. This protocol will not apply to areas within metro parks that are (1) greenways or trails, (2) managed as grasslands or

mixed-grass meadows, (3) areas designated as protected natural areas in the Metro Parks Natural Resource Management Plan, or (4) impacted by infrastructure maintenance or repair. Metro parks will supply an annual report of the counts to the tree review panel on covered tree removals in these exempted areas for data and public information purposes. The panel will review the projects for compliance with the replacement standards and will pursue retention where feasible. The panel may provide a recommendation of an alternate plan to the department head of the responsible agency that is proposing the removal, or their designee. The tree replacement standards for all covered trees are as follows:

Replacement Standards

Any medical treatment paid by the metropolitan government under this chapter shall constitute an indemnity in lieu of all other claims of liability as may be claimed against the metropolitan government. 3.08.010 General definitions.

The following definitions shall apply to both Division A and Division B.

For the purposes of Chapters 3.08 through 3.44, the following words and phrases shall have the meanings respectively ascribed to them by this section:

Average Earnings.

1. "Average earnings," when calculating pensions under Chapters 3.32, 3.33, 3.36 and 3.37, means an arithmetic monthly average of a metropolitan employee's earnings during the period which contains the sixty consecutive months of credited service which produces the highest average. Periods during which the member is not credited with credited service will be disregarded for the purposes of determining whether months of credited service are consecutive. If a member has not been employed for a period which contains sixty months, then his average earnings will be based on his earnings during all months of employment with the employer for which credited service was earned. Notwithstanding the foregoing, credited service for periods of disability under Chapters 3.28 or 3.29 shall be disregarded for purposes of this section.

2. "Average earnings," when computing pensions under Chapters 3.28 or 3.29, means the arithmetic average of a metropolitan employee's earnings during the period which contains twelve consecutive months of credited service which produces the highest average. Months during which a member is not credited with full credited service will be disregarded for the purpose of determining whether months of credited service are consecutive. The earnings for any month shall be: (a) the actual earnings paid for the month in which the member is compensated for eighty or more hours of work, but while incurring in-line-of-duty injury leave time, the member's earnings will be at his full regular salary or rate of pay; or (b) the actual earnings paid for the month in which the member is compensated for less than eighty hours but for which the member has unauthorized leave without pay which when added to the hours actually compensated, equals eighty or more hours for the month. If a member has not been employed for a period

which contains twelve consecutive months, his average earnings will be based on his compensation during all the months of employment for which there is full credited service. Notwithstanding the foregoing, authorized unpaid leaves of absence shall be disregarded for purposes of this section if the authorized unpaid leave of absence produces a month for which the member is compensated for less than eighty hours of work.

3. The amendments made to this definition of "average earnings" by Ordinance 97-1018 shall have retroactive application to those disability or service pensions that have a benefit commencement date of January 1, 1996 or later. The amendments made to this definition of "average earnings" by Ordinance BL2013-550 shall have retroactive application to those disability or service pensions that have a benefit commencement date of October 1, 2013 or later.

As of January 1, 1998 any member that dies, who has taken FMLA leave within twelve months of the member's death, will receive a maximum of three months' credited service for the amount of time that the member was on approved family medical leave.

"Credited police and fire service" means the sum of prior police and fire service and current police and fire service.

After July 1, 1986, if an employee subject to this plan terminates employment, and is entitled to payment of any retirement benefit under this plan, other than a refund of all or a portion of his contribution to the fund, he may elect prior to his termination of employment to receive service credit for that period of time spent in active military service in the Armed Forces of the United States, subject to a maximum of four years of total credit; provided, however, that the employee (1) was employed by metropolitan government immediately prior to entry into active military service and immediately returned to employment by metropolitan government upon discharge from such service, (2) was honorably discharged, and (3) that the employee does not receive retirement credit in any other Tennessee retirement system for his military service that results in a duplication of benefits.

However, earnings shall not include cash compensation paid to a metropolitan employee for services provided on or after December 1, 1998, to an entity or person other than the metropolitan government or an agency thereof pursuant to a contract between the metropolitan government and the person or entity by which the person or entity reimburses the metropolitan government for the metropolitan employee's compensation. Provided, however, that the calculation of frozen earnings shall take into account all of the non-merit salary increases that have accrued to the position since the employee's termination as a metropolitan employee. "Member" means a metropolitan employee who has established credited service in the system and whose membership in the system has not ceased as provided in Section 3.12.050.

Each metropolitan employee who was hired prior to January 1, 1972, and who first becomes a member as of that date shall receive full credit for service while he was covered under a former plan and shall be eligible to receive one-half credit for any service for which he was not covered by a former plan.

"Service" shall be determined in years and full months with one month to be counted for any month in which his normal work week was at least twenty hours per week and one-half a month shall be counted for any month in which his normal work week was at least ten but not as many as twenty hours per week. No more than one month of credit shall be counted for any one calendar month.

In those instances where the employee is regularly employed on a nine- or a ten-month basis, and the employing agency has established the work year as being less than twelve months due to the nature of their work, e.g., board of education employees, metro action commission employees, and school crossing guards, those employees shall be entitled to receive twelve months' service credit for their work during each such full work year. "Civilian positions" within the department shall not be deemed to be fire fighters. A fire fighter shall not lose his standing by virtue of a voluntary transfer into a civilian position, once having established credited service as a fire fighter, provided written application to continue such designation is approved by the board. Such applications filed with the board will only be approved by the board on a showing that the fire fighter has sustained a disability that prevents him from maintaining his position as a fire fighter, and stating that the fire fighter wants to move to a civilian position rather than take disability retirement.

3.08.020 System established—Application of former plan.

A. There is created and established, as of September 1, 1964, a system of employee benefit plans for officers and employees of the Metropolitan Government of Nashville and Davidson County to be known as the "metropolitan employee benefit system." The system is created pursuant to Article 13 of the Metropolitan Charter. All transactions of the system shall be in the name of the system.

B. Payment of benefits under any former plans shall be outside the scope of this system, and no interpretation or administrative act or ruling in connection with this system shall affect, relate to or otherwise be construed in any way to apply to any former plan or any benefit from such former plan to which any metropolitan employee may be entitled.

C. No metropolitan employee shall be eligible to receive any benefit from this system if he is eligible to receive any benefit from or is covered in any way by a former plan, notwithstanding any provision in this system to the contrary. (Prior code § 32-1-2)

3.08.030 Intent and purpose of system.

A. The metropolitan employee benefit system provides a program of benefits for members to provide for specific kinds of needs upon death, upon hospitalization and sickness and upon retirement because of disability or old age. The stated intent of the system is to provide a well-balanced program of such benefits and to have a system founded on concepts of sound actuarial principles in order that the system can, to as great an extent as possible, be considered sound as to benefits and costs in the future. It shall also be the stated intention, before amendments or changes are to be made to the system, that the financial effect of proposed changes on the actuarial soundness of the system be determined on the basis of competent actuarial, legal and other necessary advice as the board shall assemble and that such information be available to all interested parties.

B. It is the stated purpose that the system's (1) death benefits in the future provide benefits payable upon the death of the employee which are not inconsistent with group life insurance plans in general use by businesses and industries in Davidson County and (2) medical care benefits in the future provide a member a means of cushioning in a reasonable way the economic impact of medical care costs without his profiting because of any duplication of benefits and that the future level of medical care benefits be consistent with the general relationship of medical care benefits to prevailing cost in Davidson County of medical care at the inception of the system. The stated purpose of the retirement benefits, both for disability and old age, is to replace income and provide reasonable pensions to those members who have lost substantially their capacity to earn by reason of disability or old age. It is not the intention that the system provide a pension income to a metropolitan employee who contends disability, but who has not lost his power to work for compensable earnings or profits, except to the extent specifically provided in Sections 3.28.010 through 3.28.070 and 3.29.010 through 3.29.070. It is not the intention that the disability benefits of the system represent in any way an indemnity for a loss, whether or not such loss is suffered in the course of employment, except as provided in Sections 3.28.010 through 3.28.070 and 3.29.010 through 3.29.070. (Ord. 95-1452 § 19, 1995; prior code § 32-1-3)

3.08.040 Benefit board—Administration authority—Powers and duties.

A. The metropolitan employee benefit board shall administer, manage and coordinate the metropolitan employee benefit system in accordance with the provisions of the system, subject to and not inconsistent with Article 13 of the Metropolitan Charter. The board shall, as soon as practicable after adoption of the system by the metropolitan council, act as follows:

1. Meet with the legal counsel and actuarial consultants, as provided in Section 13.05(b) of the Metropolitan Charter, to coordinate and establish administrative details, forms and procedures to be followed in enrolling persons who are eligible to become members in the system in accordance with Chapter 3.12;

2. Select, in accordance with Section 3.08.110, an insurer or insurers to underwrite and administer the life insurance benefits and medical care benefits provided in Chapters 3.20 and 3.24, respectively, and execute any contract required;

3. Direct the preparation of and approve a booklet explaining the metropolitan employee benefit system in full detail, and make available in the pension office to metropolitan employees full information concerning a metropolitan employee's status and his rights concerning the system;

4. Act promptly to secure social security coverage for all eligible employees, in accordance with Section 3.08.150;

5. Adopt, from time to time, as it sees fit, actuarial and other tables necessary for the administration of the system.

B. The board shall be empowered to employ the services of investment consultants, and the services of others which, in the sole discretion of the board, may be necessary to maintain a soundly designed, administered and financed system.

C. The board shall be entitled to rely upon all tables, valuations, certificates and reports as furnished by any consultant or actuary, all opinions given by legal counsel of the board, and any advice of a qualified investment consultant. The board shall be fully protected with respect to any action taken or suffered by the board in good faith and reliance upon the advice or opinion of any such consultant, actuary, legal counsel or investment consultant, and all actions so taken or suffered shall be conclusive upon each of them and upon all members and other persons interested in the system.

D. The expenses incurred in the installation, administration and revision of the system, expenses of investment consultants, investment analysis, actuarial consultants, expenses incurred by the treasurer in the performance of his duties and all other proper charges and disbursements for the administration, design and financing of the system shall be paid from the trust fund, subject to the approval of the board, unless otherwise paid by metropolitan government.

E. 1. The board shall have jurisdiction over all voluntary benefit plans for employees of the metropolitan government who are subject to the jurisdiction of the board. "Voluntary benefit programs" means and is defined as any program to be offered to the employees of the metropolitan government, either through direct payment or payroll deduction, which provides a service, product or benefit that is made available to the employee by the employee paying one hundred percent of the cost of the service, product or benefit. Such services, products or benefits may include, but shall not be limited to, life, medical, dental, vision, disability and other forms of insurance, prepaid legal services, prepaid burial services, deferred compensation plans and other similar benefits.

2. Voluntary benefit programs shall be available to current employees and those persons receiving benefits under any pension system administered by the board.

3. All voluntary benefit programs shall be subject to the rules and regulations adopted by the board for the administration of such programs. The rules and regulations adopted by the board shall be filed with the metropolitan clerk as a public record. No voluntary benefit program shall be offered to metropolitan employees without the prior approval of the board. All current voluntary benefit programs shall be reviewed by the board, after the passage of the ordinance codified in this subsection, and shall be subject to recertification by the board.

4. Contributions by employees for any voluntary benefit programs approved by the board may be made by payroll deduction, if approved by the board, or be made by a direct payment to the provider. Contributions of individual employees shall not be collected on the premises of the metropolitan government. Any contributions collected by payroll deduction shall be remitted to the provider of the voluntary benefit program, as directed by the board, but remittances to any specific provider shall not be more frequent than twice a month unless agreed to by the supervisor of payroll, in writing.

5. No part of the cost of administration shall be borne by the board or by the metropolitan government, except the cost of administering payroll deductions. The board, with the assistance of the data processing division, or such other metropolitan departments as the board deems appropriate, shall establish startup costs or other administrative charges that may be incurred in adding any voluntary benefit program provider to the system. No provider may be added to the system until such startup costs or other administrative charges are paid in advance. Any additional charges incurred by the board or the metropolitan government shall be billed to the provider and paid within sixty days. Failure of the provider to pay the additional charges within sixty days shall be cause for the provider to be suspended from payroll deduction privileges until the additional charges are paid.

6. The board's rules and regulations shall provide for an annual accounting of contributions collected from employees or pensioners. The annual accounting shall include both payroll deduction and direct payment collections. Any provider failing to render such accounting shall have its payroll deduction privileges suspended until the accounting is made to the board. The annual accounting period shall be established by the board and shall be uniform in its application to all voluntary benefit program providers.

7. The board shall review each approved program on an annual basis and shall approve or disapprove the continued participation of each provider as of October of each year.

8. No voluntary benefit program shall be established by the board unless it provides that all metropolitan employees or pensioners who are eligible may participate therein.

9. In the event that the board determines that any such voluntary benefit program fails to meet any of the conditions set out herein, or fails to meet any conditions set out in the board's rules and regulations as approved by the board from time to time, the board shall withdraw its approval of such program, and thereafter contributions from metropolitan employees or pensioners shall no longer be collected by payroll deduction and such provider shall no longer be authorized to solicit participation of metropolitan employees or pensioners.

10. Voluntary benefit programs as defined in this subsection shall specifically exclude charitable organizations seeking approval for payroll deduction privileges. Jurisdiction over such charitable organizations, for payroll dedication purposes, shall be vested in the director of finance.

F. 1. Jurisdiction over flexible benefit plans under Section 125 of the Internal Revenue Code is placed under the board. The board shall have authority to develop such plans as are consistent with the Internal Revenue Code as it exists from time to time. The board shall have the authority to execute all necessary documents to qualify and administer such plans.

2. Upon the establishment of any flexible benefit plans by the board, the department of finance shall establish a separate account to be known as the "flexible benefit plan reserve savings account." To this account shall be transferred all funds that would otherwise have been paid as employer FICA contributions on that portion of the employees' earnings now subject to the flexible benefit deduction provided under Section 125 of the Internal Revenue Code for those employees participat-

ing in the flexible benefit plan. Transfers to the flexible benefit plan reserve savings account shall be on at least a quarterly basis.

3. The funds in the flexible benefit plan savings account shall be used for the following purposes:

a. To offset the expenses incurred in the installation, administration and maintenance of the flexible benefit plan or plans and all other charges and disbursements for the administration and design of the flexible benefit plans;

b. The balance of the flexible benefit plan reserve savings account, at the end of each fiscal year, shall be transferred to the self-insured portion of the employee medical benefit trust fund account.

G. 1. The board shall establish a "medical case management" program (hereinafter referred to as case management) to encourage and assist in the rehabilitation and retraining of disabled members, whether on disability pensions due to in-line-of-duty injuries or because of nonjob-related medical problems. The case management program may be operated by the board or by an organization not related to Metro but experienced in the operation of similar programs. The case manager shall be selected by the board.

2. The board shall have the authority to require participation in the rehabilitation program by a member or disabled member who, in the opinion of the board, and as documented by competent medical evidence either from (1) the member or disabled member's own medical physician or (2) through an independent medical examination authorized and paid for by the board, is physically and mentally able to participate in the program. The board shall have the authority to pay for such services. The board may terminate the disability pension of a disabled member who refuses to participate in the program, or who fails to complete the program and who has not provided proper medical justification to the board for failing to participate in or complete the rehabilitation or retraining program.

3. The program may, to the extent feasible, include the identification and case management of members who are not disabled but who, due to their utilization of in-line-of-duty "injury leave" benefits appear likely to qualify for disability benefits in the near future in the absence of early intervention of the case management concept. The board shall be responsible for developing the criteria to determine the identification of such persons and shall approve all such intervention or shall establish policies and procedures authorizing the board office to direct such intervention. Case management shall also be available to those members utilizing sick leave and likely to qualify for disability benefits but such use shall be on a voluntary basis.

4. All injuries to members participating in the system of benefits administered by the metropolitan employee benefit board shall be reported to the board under policies and procedures adopted by the board. The board shall set out its own form for reporting such injuries or may adopt the form used by the insurance and safety division for reporting injuries.

5. The board shall identify specific catastrophic type injuries that must be reported immediately to the board, by the department, upon notification to the department that such an injury has occurred.

6. The board shall have authority to enter into a contract with a "case manager" to work with the board in overseeing medical treatment plans, rehabilitation programs, and retraining programs for such injuries so that the member or disabled member shall receive continuity of treatment, rehabilitative services, retraining programs, and such other services as may be needed to decrease the likelihood that such individual will ultimately end up on or continue on a disability pension.

7. It is specifically the intent of this subsection that such services may be provided from funds provided directly by the general fund or the metropolitan government, or that the board in its discretion is authorized to use funds allocated to it under the employer contribution rate for pension purposes for disability benefits.

8. The board shall have authority to use the services of General Hospital, or such other service providers that it shall contract with to provide such services. It is hereby specifically authorized that the board shall have the authority to seek out services of other service providers and enter into contracts with them, provided that such services can be rendered at competitive prices.

H. The board is authorized to administer to police and fire employees wellness testing and education programs, to be conducted on-site, addressing weight control, blood pressure, smoking cessation, exercise programs and other health-related subjects, including health risk appraisal programs. The board shall be authorized to implement programs to provide early intervention into areas that are causing, or having the potential of causing, disability pensions, either medical or in-line-of-duty. The wellness and preventative care program shall be conducted in accordance with uniform policies and procedures adopted by the board.

C. No person on the board shall, directly or indirectly, for himself or as an agent, use in any manner the funds or deposits of the system, except to make such payments therefrom as are authorized by the board, nor shall any person on the board become an endorser or surety of any type or an obligor for money loaned by or borrowed from the system. (Prior code § 32-1-9)

A. As soon as practicable after September 1, 1964, the board shall determine the prior police and fire service and the prior employee service of each member who was a metropolitan employee on April 1, 1963, and shall issue to each such member a certificate showing such amounts of his prior service. If the board discovers that any amount of prior service recorded on a certificate is incorrect, a corrected certificate shall be issued promptly which shall revoke and supersede all certificates previously issued. Copies of such certificates shall become a part of the permanent records maintained by the board for the purpose of determining benefits to members or their beneficiaries. In establishing such records, the board may require, in its discretion, members, beneficiaries and other persons to submit affidavits as to any information which affects benefits payable to members or their beneficiaries. Upon the termination of a member, his certificate of prior service shall be void as of his date of termination.

B. Any member who first becomes a member as of January 1, 1972, pursuant to provisions of Section 3.12.030, shall similarly be furnished a certificate of prior service. (Prior code § 32-1-11)

3.08.100 Beneficiary payments—Minors and legally incompetent persons.

If any member or beneficiary is a minor or is, in the judgment of the board, otherwise legally incapable of personally receiving and giving a valid receipt for any payment due him hereunder, the board may, unless and until claim shall have been made by a guardian or conservator of such person duly appointed by a court of competent jurisdiction, direct that such payment or any part thereof be made to such person's spouse, child, parent, brother or sister, deemed by the board to have incurred expense for or assumed responsibility for the expenses of such person. Any payments so made shall be a complete discharge of any liability under the system for such payment. (Prior code § 32-1-17)

3.08.110 Insurer selection—Procedure—Plan approval by council required.

A. The board, together with actuarial and other consultants and legal counsel, shall prepare specifications for submission to insurers (insurance companies and hospital service associations) or organizations interested in insuring, providing or administering some or all of the benefits or services provided in Chapters 3.20 and 3.24 of the system. The board may provide the benefits described in Chapters 3.20 and 3.24 of the system through the medium of any sound financing vehicle widely used by employers of large numbers of employees, including conventional group insurance contracts or, in the case of medical care benefits provided in Chapter 3.24, through minimum premium group insurance contracts, self-insurance with administration by an insurance company as provided by Section 56-408 of the Insurance Law or through a health maintenance organization.

B. The board shall select an insurer to provide group life coverage for benefits provided in Chapter 3.20 and an insurer, administrator or health maintenance organization to provide medical care benefits or services provided in Chapter 3.24 and the board's decision shall be final. The board shall make its selection on the basis of low retention or administrative costs, the level of reserves required and the interest allowed thereon, the services to be provided and the general reputation and competence of the bidding organization.

C. Upon the selection of an insurer, administrator or health maintenance organization, the board shall be authorized and empowered to execute group or other contracts with such insurer or organization to provide coverage for benefits or services, as the case may be.

D. The board shall annually review the performance of each insurer that underwrites or administers a plan to furnish benefits or organization that provides services provided by the system and if the board determines that it is in the best interest of metropolitan government to resubmit specifications and select a new insurer, administrator or organization, it may do so in a manner consistent with this section.

E. The self-insured medical benefits plan shall be administered on a preferred provider (PPO)—nonpreferred provider (non-PPO) basis, with the term preferred provider meaning a preferred provider organization (PPO) which may include hospitals, physicians, and other health care providers which have entered into an agreement with the board or one of its agents, to provide services under the plan pursuant to a negotiated pricing arrangement. The aggregate maximum lifetime benefit shall be unlimited in regard to services performed by preferred providers (PPO) within the network and one million dollars for services provided by non-preferred providers (non-PPO) in the network. PPO benefits shall be paid at eighty percent of reasonable and customary charges and non-PPO benefits at sixty percent of reasonable and customary charges. The Employee Benefit Board may temporarily modify these percentages by exception through an affirmative vote to provide incentives for participants in special programs or provisions under this plan. Such exceptions to this section will expire one year after board adoption unless and until affirmed by another positive vote by the board.

The annual out-of-pocket maximum for individual PPO coverage shall be one thousand dollars and for family coverage two thousand dollars. The individual out-of-pocket non-PPO maximum shall be five thousand dollars and family shall be ten thousand dollars.

In addition to the self-insured medical benefits plan that is administered on a PPO/non-PPO basis, the Employee Benefit Board is authorized to adopt other types of self-insured medical plan design structures. Each such self-insured medical plan design structure shall be adopted by the Benefit Board only following an actuarial determination of the effect of the particular plan on the soundness of the system's design of benefits as well as its effect on the cost of the system.

All other terms and conditions of the self-insured plans shall be as approved by the board.

No additional self-insured medical benefits plan authorized by the section shall become effective until such plan is approved by resolution of the council receiving twenty-one affirmative votes. Beginning January 1, 2007, the employee benefit board shall submit a quarterly report to the budget and finance and personnel committees of the council providing information regarding other self-insured medical benefits plans being reviewed by the commission and the progress being made toward implementation of an additional plan or plans.

*F. No later than January 1, 2014, the board shall implement Medicare Part D or an Employer Group Waiver Plan for eligible pensioners. (Ord. BL2021-781 § 2, 2021; Ord. BL2012-237 § 5, 2012; Amdt. 1 to Ord. BL2006-1180 § 1, 2006; Ord. BL2006-1180 § 1, 2006; Ord. BL2005-530 § 1, 2005; Ord. 97-857 §§ 1—3, 1997; Ord. 95-452 §§ 22, 23, 1995; prior code § 32-1-5)

The manager, custodian or metropolitan treasurer shall promptly comply with any such instructions and shall be fully protected in acting upon such instructions of the investment committee, and shall not be liable for any depreciation or loss resulting to the trust fund from any action to be taken or not taken pursuant to any such instructions of the investment committee or because of the failure of the investment committee to give instructions. (Ord. 95-1452 § 24, 1995; prior code § 32-1-7)

3.08.130 Trust funds—Established—Requirements.

A. For benefits provided by this system other than those in Chapters 3.20 and 3.24, all contributions by metro and by eligible employees shall be deposited in three separate trust funds:

1. "Metropolitan Government Trust Fund A" (hereinafter called Fund A) is the fund which provides the benefits defined in Sections 3.28.010 through 3.28.070, inclusive, and 3.29.010 through 3.29.070, inclusive, to which the appropriate amount of employer contribution defined in Section 3.16.050 shall be paid for Division A and Division B.

Such trust funds shall be exclusively for the benefit of members and beneficiaries and shall be separate and apart from all other assets and funds of metropolitan government.

B. Registered securities of the funds may be registered in nominee or street names of the institutions managing the funds. Every change in registration by reason of sale or assignment of securities or any other method of transfer of securities shall be accomplished by an authorized signature of the committee; and such securities shall be delivered by the manager, custodian or metropolitan treasurer when directed, in writing, by the committee. The committee shall certify to the manager, custodian or metropolitan treasurer the authorized signatures of the committee and signatures of other persons who may sign directions of the committee to the manager or custodian. The manager, custodian or metropolitan treasurer shall be entitled to rely on the last received such certification of signatures until written notice to the contrary from the committee has been received. All disbursements from the funds shall be made subject to written direction by the committee through a document bearing the signature of a person authorized by the committee to give such directions. The committee shall not be liable for the making, retention, or sale of any investment or reinvestment made by it, nor for any loss to or diminution of the funds, except due to its own gross negligence, wilful misconduct, or lack of good faith. (Ord. 96-540 § 3, 1996; Ord. 95-1452 §§ 25, 26, 27, 1995; prior code § 32-1-6)

3.08.140 Trust fund accounts—Established—Prior contributions.

A. Fund A shall have a retirement allowance account and Funds B and C shall have a member contribution account and a retirement allowance account. The member contribution account shall be the account to which each member's contributions for pensions provided in Section 3.16.030 shall be credited. From this account shall be paid any refund of a member's contribution for pensions due upon his termination. At the time of a member's termination, his account balance shall be transferred to the appropriate retirement allowance account if a refund of his pension contributions is not then payable. Pension contributions by a member who is an eligible employee shall be payable each payroll period subsequent to his becoming a member and shall be deposited in the appropriate trust fund and credited to his individual account which shall be a subsidiary account of the member's contribution account. Benefits shall be paid out of the appropriate trust fund.

B. Each member as of any January 1st, commencing January 1, 1972, who then has three or more years of credited service shall have credited to his individual account interest applied to the amount of his individual account balance as of the preceding January 1st. The rate of interest shall be three percent per year or such higher rate as the board shall have declared.

C. A separate insurance account shall be maintained by the metropolitan government into which shall be paid monthly employee contributions for medical care benefits, together with contributions by the metropolitan government in accordance with Sections 3.16.010 and 3.16.040. In the case of insured benefits the monthly premiums required shall be paid promptly to the insurer. In the case of self-insured benefits there shall be paid each month to a special bank account an amount estimated by the administrator to be needed to meet benefit payments in the ensuing month. (Prior code § 32-1-8)

3.08.150 Social security benefits.

A. All eligible employees who are members shall be covered by social security. Each eligible employee who has made an election to transfer to the metropolitan employee benefit system, pursuant to Section 3.12.030, effective as of January 1, 1972, shall be covered for social security benefits commencing on that date or on the earliest date thereafter that such coverage is possible; provided, that he is eligible for social security coverage pursuant to all applicable state and federal laws and requirements.

B. The mayor of metropolitan government or the board, as the case may be, shall be authorized and empowered to execute any agreement or modification of an existing agreement and to take all other actions as may be necessary to accomplish such social security coverage upon recommendation of the board. All such action shall be accomplished as expeditiously as possible. Such agreement or modification of an agreement shall provide that no social security taxes of any sort shall be payable in respect of any service of a member prior to the date social security coverage becomes effective. If for any reason an employee is not eligible for social security coverage pursuant to state or federal law, he shall not be eligible to transfer into the metropolitan system and his election shall be null and void. (Prior code § 32-1-10)

3.08.160 Plan benefit payments—Conditions for approval.

Before any benefit payable from the trust fund can be paid, all conditions applicable to the payment of the benefit shall be met, written application for the benefit shall be presented to the board in such form and manner as the board shall determine and the payment of the benefit shall be approved and authorized by the board; provided, that if a member is not entitled to any benefit upon his termination as a metropolitan employee, other than a refund of his pension contributions, no application is necessary, and the payment of such refund shall be automatic. If any pension benefit provided in Chapters 3.32 or 3.36 is less than twenty dollars per month, the board, in its discretion, may pay the actuarially equivalent value of such benefit in one lump sum, or in such other manner as the board may determine. (Prior code § 32-1-12)

3.08.170 Plan benefit payments—Cost-of-living increase—Division A.

The provisions of this section shall apply only to those members who are covered under Division A of the system.

A. Each person receiving a benefit, pursuant to Chapters 3.32 and 3.36, or under an option in lieu of such benefit, shall be entitled to receive an escalation of such benefit in accordance with this section. An escalation, added to any previous total escalations of benefit, shall become effective on January 1st of each year commencing with January 1, 1985; provided, that:

1. The benefit has commenced to be paid prior to January 1st for which an escalation is to be effective, or in the case of a disability pension that converts to a

service pension due to the occurrence of a disability pensioner's sixty-fifth birthday in the month of December, commences to be paid on January 1st;

2. The amount of escalation shall be limited to an amount equal to the percentage of increase in the Consumer Price Index to the nearest one-half percent for the twelve months ending on the September 30th in the calendar year which precedes the calendar year for which the escalation shall apply; and

3. The total amount of escalation to be applied for a calendar year shall not exceed five percent.

B. The amount of escalation, if any, shall be computed on the basis of the initial amount only of the monthly benefit paid under the system and is not compounded from year to year; but if the amount of monthly benefit paid, exclusive of any escalation, changes either upward or downward, such as may be provided under an option, the amount of total escalation shall change correspondingly, so that the ratio of total monthly escalation before such change to total monthly escalation after such change is the same as the ratio of the monthly benefits before such change to the monthly benefits after such change, but otherwise, any benefit, once escalated, shall never decrease.

C. The amendments to subsection (A)(1) of this section made by Ordinance 97-1018 shall have a retroactive application date of December 1, 1996. (Amdt. 1 with Ord. 97-1018 §§ 1, 3 (part), 1997; Ord. 95-1452 §§ 28, 29, 1995; prior code 32-1-20.1)

3.08.171 Plan benefit payments—Cost-of-living increase—Division B.

The provisions of this section shall apply only to those members who are covered under Division B of the system.

A. Each person receiving a benefit, pursuant to Chapters 3.33 and 3.37, or under an option in lieu of such benefit, shall be entitled to receive an escalation of such benefit in accordance with this section. An escalation, added to any previous total escalations of benefit, shall become effective on January 1st of each year commencing with January 1, 1997; provided, that:

1. The benefit has commenced to be paid prior to January 1st for which an escalation is to be effective, or in the case of a disability pension that converts to a service pension due to the attainment of the disability pensioner's unreduced retirement age in the month of December, commences to be paid on January 1st;

2. The amount of escalation shall be based upon the Consumer Price Index for the twelve months ending on the September 30th in the calendar year which precedes the calendar year for which the escalation shall apply; and

3. In determining the cost of living increase, the first percent of increase in the Consumer Price Index since the last escalation was granted shall not be taken into consideration. The amount of escalation shall be eighty percent of the next five percent of increase in the Consumer Price Index since the last escalation was granted. The amount of escalation shall be to the nearest one-half percent of increase, subject to a maximum escalation in any one calendar year of four percent.

B. The amount of escalation, if any, shall be computed on the basis of the initial amount only of the monthly benefit paid under the system and is not compounded from year to year; but if the amount of monthly benefit paid, exclusive of any escalation, changes either upward or downward, such as may be provided under an option, the amount of total escalation shall change correspondingly, so that the ratio of total monthly escalation before such change to total monthly escalation after such change is the same as the ratio of the monthly benefits before such change to the monthly benefits after such change, but otherwise, any benefit, once escalated, shall never decrease.

C. The amendments to subsection (A)(1) of this section made by Ordinance 97-1018 shall have a retroactive application date of December 1, 1996. (Amdt. 1 with Ord. 97-1018 §§ 2, 3 (part), 1997; Ord. 95-1452 § 30, 1995)

3.08.180 Plan benefits exempt from taxation, execution or assignment, except as required by state or federal law.

A. Except as provided in Section 3.08.180 or as required by state or federal law, all benefits accrued or accruing to any member under the system, the contributions by members as well as by the metropolitan government and all other assets of the trust fund are and shall be exempt from any state, county or municipal tax and shall not be subject to execution, attachment, garnishment or any other legal process whatsoever, nor shall any assignment thereof be enforceable in any court; except, that levy of execution granted by a court of competent jurisdiction may issue against any of the assets described above in the event that a member does not repay social security taxes advanced for him by the metropolitan government in accordance with the provisions of Section 3.08.150.

B. The system will honor claims presented under a qualified domestic relations order ("QDRO") as provided in T.C.A. Section 26-2-105. A QDRO is defined in section 414(p) of the Internal Revenue Code, subject to

the limitations set forth in this subsection B. In addition, such order must apply only to benefits provided under one or more of the following plans within the system:

(i) The plan for pension benefits for credited employee service as provided in section 3.28.080, Chapters 3.32 and 3.40;

(ii) The plan for pension benefits for credited fire and police service as provided in section 3.28.080, Chapters 3.36 and 3.40;

(iii) The plan for pension benefits for credited employee service as provided in section 3.29.080, Chapters 3.33 and 3.40; or

(iv) The plan for pension benefits for credited fire and police service as provided in section 3.29.080, Chapters 3.37 and 3.40.

C. If a QDRO pertains to a member who has not commenced receiving benefits at the time the QDRO is received by the board, the alternate payee under said QDRO will begin receiving a portion of the benefits otherwise payable to the member, as specified by the order, at the time the member commences benefits. If a QDRO pertains to a member who is already receiving benefits under the plan at the time the QDRO is received by the board, the alternate payee shall receive a portion of the payments being made to the member, as specified by the order, at the time the order is determined by the board to be a QDRO that complies with T.C.A. Section 26-2-105. In no event will the alternate payee be allowed to change the payment method or the timing of the payments.

D. As provided in T.C.A. Section 26-2-105, the system shall honor orders for assignment of support issued under T.C.A. Section 36-5-501. (Ord. BL2016-328 §§ 1, 2, 2016; Ord. BL2015-68 § 1, 2016; prior code 32-1-15)

3.08.190 Limitations of system provisions—Conflict with other systems.

Nothing contained in the system shall be deemed to give any member or metropolitan employee the right to be retained in the employment of the metropolitan government or to interfere with any established process by which the metropolitan government may at any time hire, supervise or discharge any metropolitan employee, regardless of the effect on him as a member. Nothing in the system shall be in conflict with the metropolitan government's system of personnel administration; and the powers and duties of the civil service commission shall not be affected in any way by this system. (Prior § 32-1-13)

3.08.200 Amendments to system provisions—Effect on benefits.

Any amendment or termination of any provision of this system shall be made only following an actuarial determination of its effect on the soundness of the system's design of benefits as well as its effect on the cost of the system, and disclosure of such information to all interested persons. No amendment or repeal of a provision of this system shall affect in any way the benefits then accrued or being paid to members, retired members, disabled members or beneficiaries or benefits based on service completed prior to the date of such amendment or repeal, except as provided in Section 3.08.220; provided, that in determining such accrued benefits of members, average earnings, average base earnings, average excess earnings and service shall be determined as of the date of the amendment or repeal, as the case may be. (Prior code § 32-1-18)

3.08.210 Termination of plans—By default.

In the event of termination or complete discontinuance of contributions under any of the plans defined in subdivisions 3, 4 or 5 of the subsection defining "system" in Section 3.08.010, the provisions of Section 3.08.220 shall apply. (Prior code 32-1-20)

3.08.220 Termination of plans—Procedure.

A. In the event any one or all of the plans defined in subdivisions 3, 4 or 5 of the subsection defining "system" in Section 3.08.010 are terminated in their entirety, the board shall prepare a list of all members, retired members, disabled members and beneficiaries, showing for each, as of the date of such termination, the following:

1. For each retired member, disabled member or beneficiary receiving benefits, the amount and terms of payment of his pension;

2. For each member entitled to a deferred pension as provided in Sections 3.32.040 and 3.36.040, the amount and terms of payment of such pensions;

3. For each member not entitled to a deferred pension, the amount of his accrued pension computed as of the date of such termination in the same manner as set forth in Sections 3.32.030(A) and 3.36.030(A), and the terms of payment of such pensions for a member shall be in accordance with those sections, unless modified by a previous election of an option as provided in Chapter 3.40;

B. The benefits shown on the list in subsection A of this section will then be separated into three separate lists showing the benefits arising separately under each

of the three trust funds. Each of these lists will then be separated into "priority classes" for each fund separately as follows:

1. Fund A.

a. Priority Class A. Pensions for disabled members and benefits payable on the death of a disabled member under Section 3.28.070.

2. Funds B and C.

a. Priority Class A. Pensions for members who have reached their sixty-fifth birthdays, pensions for retired members who have reached their sixty-fifth birthdays, and pensions for retired members and for beneficiaries and benefits for all deceased members.

b. Priority Class B. For persons not in Priority Class A pensions for members, retired members who are receiving benefits and members entitled to deferred benefits.

c. Priority Class C. For persons not in Priority Classes A and B, benefits for all other members and beneficiaries.

C. The priority classes listed in subsection B of this section shall be observed separately for Funds B and C respectively. The board will then arrange for the liquidation of all assets held in each fund and prepare a statement of the liquidation value of the assets of such fund. The board will then arrange for the application separately of the assets of each of the Funds A, B and C respectively to purchase annuities from an insurance company or companies selected by the board, to provide in full, if such assets are sufficient to do so, the benefits in Priority Class A for each fund separately. In the case of Funds B and C, if such assets are not sufficient to purchase one hundred percent of benefits in Priority Class A, they shall be applied in full to purchase such uniform percentage as can be purchased. If the assets of any fund are more than sufficient to purchase one hundred percent of the benefits in Priority Class B, the remainder shall be applied in the same manner to purchase all or a uniform percentage of the benefits in Priority Class C. If the remaining assets in any of the three funds are more than sufficient to purchase one hundred percent of the benefits in Priority Class C, the remainder shall revert back to the metropolitan government. Upon completion of the steps specified above, the plan involved shall be considered terminated and no member or beneficiary shall have any right or claim to benefits under this system.

D. In the event of planned termination, the benefit of any highly compensated active or former employee is limited to a benefit that is nondiscriminatory under Internal Revenue Code Section 401(a)(4). (Ord. 95-1452 § 31, 1995; prior code § 32-1-19)

3.08.230 Change or error in records—Effect on payment received or contribution paid.

A. If any change in records or error results in any member or beneficiary receiving from the system more or less than he would had been entitled to receive had the records been correct or had the error not been made, the board, upon discovery of such error shall correct the error by adjusting, as far as practicable, the payments in such manner that the benefits to which the member or beneficiary was correctly entitled shall be paid. In the event a member or beneficiary receives more pension benefit than he was entitled to receive, the board shall collect, by way of reducing pension payments or through a lump sum repayment, only the amount overpaid during the one-year period prior to discovery by the benefit board of such change in records or such error which resulted in the pension overpayment. In the event a member or beneficiary receives less pension benefit than he was entitled to receive, the board shall reimburse, by way of increasing pension payments or in a lump sum payment, only the amount underpaid during the six-year period prior to discovery by or notice to the benefit board of such change in records or error which resulted in the underpayment of the pension benefit to the member or beneficiary. Notwithstanding the foregoing, the correction of errors resulting in an underpayment of a pension, made in calculating a disability or service pension awarded from and after January 1, 1987, and until January 1, 1997 shall not be subject to the six-year limitation. Correction of errors made in computing pensions for persons receiving a disability pension and converting to a service pension from and after January 1, 1984, and until January 1, 1997, which resulted in an underpayment of pensions shall also not be subject to the six-year limitation.

B. If the change in records or error results in any member contributing to the system more or less than should have been contributed had the records been correct or had the error not been made, the board, upon discovery of such error, shall correct the error by adjusting, as far as practicable, the contribution payable by the member so that the total contributions paid shall equal the amount payable had the records been correct or had the error not been made.

C. Repayment of any amount overpaid to any member or beneficiary may be waived by the board where such overpayment was made through error committed by the board's staff and the board determines that the member or beneficiary:

2. Did not participate in or induce the additional payment;

3. Had no way under the circumstances to know or, by the exercise of reasonable diligence, to know that an overpayment had been made; and

No such waiver shall be granted if it is determined that such waiver would, if granted, adversely affect the actuarial soundness of the metropolitan benefit system; provided further, that no waiver shall be final or take effect until the same shall have been approved by resolution of the metropolitan council.

A presumption is hereby established that any impairment of health of a firefighter caused by the disease of cancer resulting in hospitalization, medical treatment, or any disability, shall be presumed (unless the contrary be shown by competent medical evidence) to have occurred or to be due to accidental injury suffered in the course of employment. Any such condition or impairment of health which results in death shall be presumed (unless the contrary be shown by competent medical evidence) to be a loss of life in the line of duty, and to have been in the line and course of employment, and in the actual discharge of the duties of his position, or the sustaining of personal injuries by external and violent means or by accident in the course of employment and in the line of duty. Provided, however, that such firefighter shall have successfully passed a physical examination prior to such claimed disability, or upon entering upon his metropolitan government employment, and such examination fails to reveal any evidence of the condition of cancer.

For the purposes of this section, the term firefighter shall mean any regular and full-time employee of the metropolitan government who is required to extinguish and control fires or fire-related incidents and other employees of the fire department who are required to perform their duties under and in a toxic environment. "Declaration of domestic partnership" means a form provided by the metropolitan department of human resources that officially recognizes a domestic partner relationship when signed by domestic partners. By signing it, two persons attest, under penalty of perjury, that they both meet all of the requirements of domestic partners as provided herein.

"Domestic partners" means two adults who meet all of the following requirements:

1. Both adults have chosen to share one another's lives in an intimate and committed relationship of mutual caring that is intended to be lifelong;
2. Both adults currently share a primary residence;
3. Both adults have shared a primary residence for the preceding three hundred sixty-five days;

b. Copy of a utility (water, gas, or electric) invoice listing both domestic partners;

c. Joint ownership of an automobile;

d. Joint bank or credit account;

"Domestic partnership" means a relationship conferring benefits described in Section 3.14.030 upon domestic partners who have signed a declaration of domestic partnership as provided in this chapter.

"Share a primary residence" means that two persons share the same primary living quarters; however, it is not necessary that the legal right to possess the living quarters be in both of their names. (Ord. BL2014-779 § 1, 2014)

3.14.020 Establishing a domestic partnership.

A. Two persons may establish a domestic partnership by submitting a signed declaration of domestic partnership to the department of human resources, which shall maintain such declaration on file and give the two persons a copy showing that such declaration was filed.

B. Persons prohibited from marrying in the state of Tennessee as a result of degrees of relationship under T.C.A. § 36-3-101 are likewise prohibited from entering into a domestic partnership under this chapter. (Ord. BL2014-779 § 1, 2014)

After the initial enrollment created by the domestic partner declaration, the domestic partner and dependent children of the domestic partner shall be subject to the same enrollment and disenrollment requirements applicable to the spouses and dependent children of employees. (Ord. BL2014-779 § 1, 2014)

The notice must be dated and signed under penalty of perjury. The employee must also send a written copy of the notice to his or her former domestic partner by certified mail. (Ord. BL2014-779 § 1, 2014)

3.14.050 Tax liability.

Since a domestic partnership is not a legally recognized relationship by the U.S. Internal Revenue Service, an employee will be taxed on benefits provided to his or her domestic partner, unless the domestic partner is otherwise considered the employee's dependent for tax purposes. The employee shall be solely responsible for paying these taxes. Employees should seek independent tax advice in connection with any benefits provided to a domestic partner and their dependent children pursuant to this chapter. (Ord. BL2014-779 § 1, 2014)

Should any court of competent jurisdiction declare any section, clause, or provision of the ordinance codified in this chapter to be unconstitutional, such decision shall affect only such section, clause or provision so declared unconstitutional, and shall not affect any other section, clause, or provision of the ordinance. E. Effective January 1, 1987, the metropolitan government shall assume responsibility for the "employee contributions for pensions" previously provided for under this section. Such contributions shall be the sum of subdivisions 1 and 2 as follows:

1. Three percent of earnings subject to social security tax; and

2. Six percent of earnings not subject to social security tax.

F. As of January 1, 1987, all existing member contribution accounts shall be frozen. Only contributions by employees for work performed prior to January 1, 1987, may be added to the account. Member contributions to this account, and any interest that may accrue to the employee's account under the terms of the system, will be refundable under the same terms and conditions that existed prior to January 1, 1987.

G. No contribution made by the metropolitan government shall accrue to the member contribution account. All contributions made by the metropolitan government, and specifically those assumed as of January 1, 1987, shall remain a part of the fund upon a member's termination.

H. The provisions of subsections D through G of this section shall not apply to employees of the metropolitan board of education prior to July 1, 2001. From and after July 1, 2001 subsections D through G of this section shall apply to employees of the metropolitan board of education who are members of the metropolitan employee benefit system and any funds deducted from employee pay for employee contributions for pensions from and after July 1, 2001 shall be refunded to the affected employees. In applying subsections D through G of this section to employees of the metropolitan board of education, "July 1, 2001" shall be substituted for "January 1, 1987" and "metropolitan board of education" shall be substituted for "metropolitan government" wherever appearing in said subsections. Nothing in this subsection shall be construed to affect any employee pension contributions prior to July 1, 2001. (Ord. 2001-776 § 2, 2001; Prior code § 32-1-29)

3.16.040 Metropolitan government contributions—Medical care and life insurance.

A. The metropolitan government shall contribute monthly to the insurance account an amount which, together with employee and pensioner contributions, shall be sufficient to provide either:

1. Monthly premium payments for insured life insurance and medical care benefits provided by the system; or

2. In the base of self-insured benefits, the administration charges made by the administrator together with the contribution to be made by the metropolitan government determined in accordance with Section 3.16.010; or

3. The amount required to finance the cost of services through a health maintenance organization.

B. Reserved. (Ord. BL2008-111 § 1, 2008; Ord. BL2007-101 § 9, 2008; prior code § 32-1-30)

3.16.050 Metropolitan government contributions—Pensions.

A. The metropolitan government shall contribute to the fund not later than June 30th of each fiscal year an amount equal to a percentage of the annual payroll of members who are eligible employees and who are covered for pension benefits, in accordance with Sections 3.28.010 through 3.28.080, Sections 3.29.010 through 3.29.080, and Chapters 3.32, 3.33, 3.36 and 3.37, the percentage to be known as the "employer contribution rate." The employer contribution rate applicable for any fiscal year shall be determined by resolution of the board at a public meeting held at least four months prior to the beginning date of such fiscal year and filed with the metropolitan clerk and shall be at least the smaller of (1) three-tenths of one percent plus the employer contribution rate applicable to the prior fiscal year, or (2) an employer contribution rate, which shall be the ratio of the actuarially determined contribution level to the amount of the valuation payroll, on the basis of an actuarial valuation of the system made as of the last day of the fiscal year preceding the adoption of the contribution rate. The actuarially determined contribution level shall be the sum of normal cost and a percentage of unfunded past service liabilities, such percentage to be determined by the board at a level at least equal to the actuarial valuation interest rate. The actuarial valuation shall be made by a qualified or accredited actuary according to accepted and sound actuarial principles and methods and based on actuarial assumptions which have been recommended by said actuary and approved by the board.

B. The total amount of employer contribution shall be divided on a sound actuarial basis between the six Trust Funds, A through F, to provide the benefits to be paid from each of such trust funds under the plans defined in Section 3.08.010 in accordance with the last actuarial valuation as determined by such actuary and approved by the board. The "Metropolitan Employee Benefit Trust Fund of the Metropolitan Government of Nashville and Davidson County" as it exists on the date of the amendment codified in this section, shall be equitably allocated after such date to create Trust Funds A through F respectively on the basis of an actuarial valuation of the system as determined by such actuary and approved by the board. Provided, the metropolitan government shall not contribute to the fund for those employees who are eligible to participate in the state requirement for county paid judges pension plan and who elect to do so. (Ord. 95-1452 §§ 39, 40, 41, 1995; prior code § 32-1-31)

3.20.010 Eligibility for benefits.

Each member shall be covered for life insurance benefits during all times that he is an eligible employee and shall be entitled to benefits provided by a "life contract," which shall be a contract providing group life insurance, issued to the board by the insurer selected to underwrite life insurance benefits pursuant to this chapter. For the purposes of Chapters 3.08 through 3.44, members shall include those persons who become eligible for the state county paid judges pension plan and elect to participate in such system. (Prior code § 32-1-32)

3.20.020 Determination of benefits.

Life insurance benefits on the life of any covered employee shall be in accordance with the life contract, and not in accordance with the provisions of this chapter. (Prior code § 32-1-33)

3.20.030 Life contract requirements—Benefits and features.

The life contract shall include benefits and features described in this section. The board shall determine the content and wording of the contract consistent with the concept that sound actuarial principles and practical administrative methods be followed. Any word or expression set out below in this section that is not defined in Chapters 3.08 through 3.44 shall have the meaning established by the board in accordance with usual terminology in the insurance industry and in accordance with such life contract. The life contract shall include provisions for the following:

A. Life insurance on a covered member's life at any time shall be based on his annualized rate of earnings (annualized earnings) and age last birthday (insuring age) on the preceding July 1st or on his date of becoming a member if he was not a member on a preceding July 1st. Changes in amounts of life insurance benefits for any covered member by reason of his annualized earnings or insuring age shall be effective only on a July 1st once per fiscal year.

B. The amount of life insurance benefit available to employees shall be in accordance with the contract as authorized by the board.

C. Waiver of premium benefits for disability occurring prior to age sixty shall be included. The word "disability" shall have the definition as is customary with the insurer and not as otherwise defined in the system.

D. Conversion privileges shall be included.

E. No medical examination shall be required for purposes of any life insurance benefits.

F. Other usual types of provisions shall be included as the board and the insurer may mutually agree. (Ord. 96-540 § 6, 1996; Ord. 92-159 §§ 15, 16, 1992; prior code § 32-1-34)

3.20.040 In-line-of-duty death benefit.

A. As of January 1, 1993, any metropolitan employee whether regularly employed or not, who loses their life as a direct result of an act occurring or a thing done or a risk taken which, as determined in the discretion of the board, was required of the employee in the performance of the employee's duties as a metropolitan employee shall be entitled to an indemnity of one hundred thousand dollars paid to the estate of the metropolitan employee. Any amount payable under this section shall be in addition to benefits otherwise provided by the metropolitan system of employee benefits; however, any amount payable under this section shall constitute an indemnity in lieu of all other claim of liability as may be claimed in the Charter or claimed otherwise against the metropolitan government. This section shall not, however, establish eligibility or rights to any other benefit provided by the metropolitan system.

B. The board, together with actuarial consultants and legal counsel, shall prepare specifications for submission to insurers interested in underwriting benefits provided by this section. Except as further provided in this section, the director of finance shall have the authority to determine the extent to which any or all of the indemnity shall be self-insured by metropolitan government and shall so advise the board. Notice of the request for bids from insurers shall be published in two newspapers of wide circulation in the county at least sixty days prior to the date specified by the board for the receipt of such bids. On the basis of bids received by the board, the board shall select an insurer on the basis of low retention consistent with low rates. No insurer shall be eligible for consideration unless its volume of annual business with respect to accidental death or occupational accidental death coverage is at least ten times the premium volume of premiums required to underwrite benefits contained in this section. Upon the selection of an insurer, the board shall be authorized and empowered

to execute a contract with such insurer to effectuate coverage. Any indemnity payable under this section on account of a death occurring prior to the date such a contract has been executed shall be self-insured and paid by metropolitan government. For the purposes of Chapters 3.08 through 3.44, members shall include those persons who become eligible for the state county paid judges pension plan and elect to participate in such system. (Ord. 95-1452 § 47, 1995; Ord. 92-462 § 2, 1993; prior code § 32-1-48.1)

Chapter 3.24

MEDICAL CARE BENEFITS

Sections:

3.24.010	**Eligibility for benefits.**
3.24.020	**Benefit requirements.**

3.24.010 Eligibility for benefits.

A. Each member shall be covered for medical care benefits during all times that the member is an eligible employee or pensioner and shall contribute for such benefits in accordance with Section 3.16.020. Effective January 1, 2023, a Group Medicare Advantage plan shall be the only option for medical care benefits offered by the metropolitan government to pensioners and their dependents in circumstances where a pensioner and their dependents are Medicare eligible. For the purposes of Chapters 3.08 through 3.44, members shall include those persons who become eligible for the state county paid judges pension plan and elect to participate in the system.

B. Elected officials who were participants in the comprehensive health care plan during the time they held office may elect to continue the health care plan, provided they pay the full amount of the premium without any subsidy from metropolitan government; provided, however, those elected officials holding office for eight years or more and those persons receiving a pension from the state county paid judges pension plan may elect to continue the health care plan, provided they pay the contribution rates equivalent to those rates paid by metropolitan government employees. Dependents of metropolitan government officials may be continued under the plan provided they were covered during the elected official's tenure in office. Dependents may also continue to participate in the comprehensive health care plan upon the elected official's becoming deceased if they were covered by the plan during the life of the elected official.

C. Council member participation in the comprehensive health care plan.

1. Members of the metropolitan council, during their term of office, shall be authorized to participate in the health insurance program under the same terms and conditions as are available for regular metropolitan government employees. The benefits and contribution rates shall be equivalent to those benefits and rates paid by metropolitan government employees. Each member of council shall have the option of participating in the program by notifying the employee benefit board of their desire to participate in the program at any time during their term of office.

2. Members of council holding office for less than eight years prior to October 1, 2027 who were participants in the comprehensive health care plan during the time they held office may elect to continue the health care plan, provided they pay the full amount of the premium without any subsidy from the metropolitan government.

3. Members of council satisfying one of the following criteria shall be eligible to continue participation in the comprehensive health care plan at the contribution rate equivalent to those rates paid by metropolitan government employees:

a. Those members of council holding office for eight years or more on or prior to October 1, 2027;

b. Those members of council serving prior to September 1, 2007, that served part of one term and a full consecutive term and were prohibited from serving a third consecutive term pursuant to Section 1.07 of the Metropolitan Charter.

4. Those members of council serving at least eight years who are not covered by subsection 3 above shall be eligible to continue participation in the comprehensive health care plan as follows:

a. The metropolitan government shall contribute seventy-five percent of the contribution rate established for medical care benefits for a former member of council for the first two years of continued participation in the comprehensive health care plan after the member leaves office and fifty percent of the contribution rate for the next two years of continued participation in the comprehensive health care plan after the member leaves office;

b. After four years of continued participation after the member leaves office, the metropolitan government shall contribute twenty-five percent of the contribution rate established for medical care benefits for continued participation of the former member of council in the comprehensive health care plan.

5. Except as provided above, no member of council serving after October 1, 2027, shall be eligible for the subsidized health care plan after leaving office.

D. Notwithstanding any other provisions of the system to the contrary, an eligible employee or disability pensioner may decline coverage for medical and/or dental care benefits upon demonstrating to the board that such employee or disability pensioner has other medical and/or dental care coverage. The policies for declining such benefits and demonstrating alternative coverage shall be as approved by the board. The board shall also adopt policies governing the circumstances under which an employee or disability pensioner who has declined medical or dental care benefits coverage may elect to begin such coverage.

E. Notwithstanding any other provisions of the system to the contrary, an eligible retired member may decline coverage for medical and/or dental care benefits. Only retired members who demonstrate alternative non-Medicare coverage at the time of declination of medical and/or dental care benefits may be allowed to elect such coverage in the future. The board shall adopt policies governing the circumstances under which a retired member who declined medical or dental care benefits may be given a one-time opportunity to enroll in such coverage. Only retired members who maintained alternative non-Medicare coverage throughout the period of declination of coverage may be allowed to reenroll in medical and/or dental care benefits. (Ord. BL2021-781 § 1, 2021; Amdts. 1—3 to Ord. BL2020-387 § 1, 2021; Ord. BL2020-387 § 1, 2021; Ord. BL2012-237 §§ 8, 9, 2012; Ord. BL2008-111 § 2, 2008; Ord. BL2007-101 §§ 10, 11, 2008; Ord. 2002-1235 § 1, 2002; Ord. 92-159 § 17, 1992; Ord. 90-1115 § 1, 1990; prior code § 32-1-35)

3.24.020 Benefit requirements.

A. The medical care benefits provided shall be generally consistent with and as liberal as those contained in the group insurance contract in force on January 1, 1973.

B. The medical care benefits or services to be provided by the system shall be announced to the eligible employees and pensioners through the medium of a booklet describing the benefits or services provided.

C. Any covered member may voluntarily elect to provide coverage for his dependents, meaning an eligible employee's or pensioner's spouse and each dependent child.

D. Coverages for members shall be both occupational and nonoccupational, but coverages for dependents shall be nonoccupational only. Any employee who is injured by accident arising out of and in the course of employment shall be entitled to emergency medical treatment at the nearest available medical facility, if necessary. Non-emergency treatment shall be furnished to the employee at an injury-on-duty medical clinic established by the metropolitan government or from a panel of preapproved medical providers established by the board, known as the "in-line-of-duty medical treatment network." After June 30, 2014, or a later date determined by resolution of the metropolitan council, in non-emergency situations, only specialized medical treatment that is not available at the injury-on-duty medical clinic shall be furnished to an injured employee through the in-line-of-duty medical treatment network. More detailed protocol and rules regarding how and when the injury-on-duty clinic shall be utilized may be promulgated by the director of human resources in consultation with the civil service medical examiner, or the board as appropriate. The purchasing agent, after consultation with the director of human resources, shall have the authority to award a professional services contract to a healthcare provider to furnish occupational medical services to employees at the injury-on-duty clinic. The contract to provide medical services at the injury-on-duty clinic shall require approval by the metropolitan council if it is not competitively procured in accordance with Title 4 of the Metropolitan Code of Laws. In order for the metropolitan government to bear the expense for the treatment of an occupational injury, such treatment shall be obtained by the employee in conformity with the provisions of this section.

Editor's note—Ord. BL2013-526, adopted Nov. 6, 2013, which pertains to the in-line-of-duty medical clinic does not apply to any person receiving a disability or service pension as of Nov. 6, 2013 while he/she remains on pension.

E. Medical care benefits provided by the system shall not duplicate any benefit provided any member under Section 13.12 of the Charter nor any benefit provided by any group medical care insurance program.

F. All general sessions judges shall be eligible to continue membership in the medical care system upon retirement to the same extent and under the same terms and conditions as are provided for retired members, as defined in Section 3.08.010 and this section. Premiums due from the retired judges shall be payable on a semiannual basis to the employee benefit board. Continued membership is optional with each judge.

G. When medical treatment is rendered to a member for an in-line-of-duty injury, at the expense of the metropolitan government, and was caused under circumstances creating a legal liability against some person other than the metropolitan government to pay damages, the injured employee shall have the right to receive benefits as provided herein, and such injured employee may pursue his remedy by proper action in a court of competent jurisdiction against such person. In the event of recovery against such third person by the injured employee by judgment, settlement or otherwise, and the government's maximum liability for benefits as provided herein has been fully or partially paid and discharged, the government shall have a subrogation right, therefor, against such recovery for medical treatment. Such settlements shall be reported to and approved by the board. (Ord. BL2025-1064 § 1, 2025; Ord. BL2007-101 §§ 12, 13, 2008; Ord. BL2006-1288 § 1, 2006; Ord. BL2005-843 § 1, 2005; Ord. The provisions of this chapter shall apply only to those members who are covered under Division A of the system. (Ord. 95-1452 § 45, 1995)

3.28.010 Disability defined.

A. A member whose termination occurs because of disability while he or she is a fireman or policeman or in the line of duty, as provided in Section 3.28.040, shall be deemed to be "disabled" (1) if the member becomes disabled as a result of medically determinable bodily injury or disease or mental disorder so that during the continuation of the member's disability following such disability the member is unable to perform the duties of any occupation in the metropolitan government which is offered to the member at a rate of earnings equal to or higher than the member was receiving at the time of the disability for which he or she is reasonably capable of performing by reason of training, education or experience, and (2) if, upon review of the continuing disability, it is determined that the member is incapable of engaging in any occupation in the metropolitan government, which is offered to the member at a rate of earnings equal to or higher than he or she was receiving at the time of the disability, so that the sum of the member's earnings while disabled and his or her gross disability pension does not exceed one hundred percent of the member's frozen earnings, subject, however, to all other requirements of this chapter.

B. A member whose termination occurs because of disability, other than in the line of duty, and who is then not a fireman or policeman, shall be deemed to be "disabled" if he or she becomes disabled as a result of medically determinable bodily injury or disease or mental disorder and upon review of the continuing disability, it is determined the member is incapable of engaging in any occupation in the metropolitan government, which is offered to the member at a rate of earnings equal to or higher than he or she was receiving at the time of the disability, so that the sum of member's earnings while disabled and his or her gross disability pension does not exceed one hundred percent of the member's frozen earnings; subject, however, to all other requirements of this chapter.

C. Loss by severance of both hands at or above the wrists, or both feet at or above the ankles, or one hand above the wrist and one foot at or above the ankle, or the complete irrecoverable loss of the sight of both eyes shall conclusively determine disability, and in such event, the disability pension deduction of such a disabled member shall be zero, notwithstanding anything in this chapter to the contrary.

D. Notwithstanding any provision in this section to the contrary, disability shall not include any physical or mental condition which results directly from:

1. Injury intentionally self-inflicted;

2. Injury or disease resulting from military service;

3. Injury or disease suffered or contracted prior to the date last hired as a metropolitan employee, if the date of hire was after April 1, 1963. (Ord. BL2006-1054 §§ 1, 2, 2006; prior code § 32-1-41)

3.28.020 Eligibility for pension—Policy generally.

Only a member who, at the time of occurrence of disability, is an eligible employee and is not specifically excluded by the Metropolitan Charter from having a pension from the system, shall be covered for a disability pension in accordance with this chapter. (Prior code § 32-1-42)

3.28.030 Eligibility for pension—Disabled not in line of duty.

A member who is covered for a disability pension, who has completed ten years of credited service and who becomes disabled, as defined in Section 3.28.010, shall be eligible to receive a disability pension, subject to all applicable requirements of this chapter. (Prior code § 32-1-43)

3.28.040 Eligibility for pension—Disabled in line of duty.

A member who is covered for a disability pension, who becomes disabled, as defined in Section 3.28.010, in the line of duty, shall be eligible to receive a disability pension, provided his disability is a result, directly or indirectly, of an act occurring or thing done or risk taken which, as determined in the discretion of the board, was required of him in the performance of his duty as a metropolitan employee. Any metropolitan employee hired after April 1, 1963, who is an eligible employee shall be deemed to be a member from his date of employment in the metropolitan government for purposes of this section. (Prior code § 32-1-44)

3.28.050 Determination and payment of pension.

A. The disability pension payable to a disabled member in any month shall be the amount of his "net disability pension." His net disability pension due in any month shall be the amount by which a disabled member's "gross disability pension" exceeds the sum of his social security primary benefit and his "disability pension deduction" applicable to that month.

B. The gross disability pension of a disabled member shall be computed as sixty percent of his monthly average earnings over the last twelve months preceding retirement, plus an additional ten percent of his monthly average earnings over the last twelve months preceding retirement, provided he has at least one dependent child.

C. A disability pension shall be payable until age sixty-five, except as otherwise provided in Section 3.32.030C, and during the lifetime and continuation of disability of a member commencing after his benefit application has been filed and following the board's determination that he is a permanently disabled member; except, that no payment shall be due or payable until all his sick leave, salary continuation or vacation benefits of whatever kind may be then provided to him by the metropolitan government are exhausted; provided further, however, that if a disabled member is eligible to receive a monthly disability pension until he has attained age sixty-five, the disability pension shall then cease and thereafter he shall be eligible to receive a normal retirement pension in accordance with Chapters 3.36 and 3.40; except, that his service shall include his entire period of disability prior to attaining age sixty-five as though his termination had never occurred, and the normal retirement pension shall be computed as though his earnings from the date his disability pension commenced had remained the same until his normal retirement date as his earnings prior to the date his disability pension commenced, notwithstanding any provision in the system to the contrary. The amendments made to this subsection by Ordinance 97-1018 shall have a retroactive application date of January 1, 1997.

D. When a disability pension is paid to a member for an in-line-of-duty injury, at the expense of the metropolitan government, and was caused under circumstances creating a legal liability against some person other than the metropolitan government to pay damages, the injured employee shall have the right to receive benefits as provided herein, and such injured employee and/or the metropolitan government may pursue his/her remedy by proper action in a court of competent jurisdiction against such person. In the event of recovery against such third person by judgment, settlement or otherwise, the metropolitan government shall have a subrogation right against such recovery for the cost of the disability pension. The metropolitan government shall only collect its subrogation interest when the employee has been made whole by settlement, judgment or otherwise. Such settlements shall be reported to and approved by the board. (Ord. 2002-1233 § 1, 2002; Ord. 97-1018 §§ 6, 10 (part), 1997; Ord. 92-159 § 19, 1992; prior code § 32-1-45)

3.28.060 Board authority—Disability report required—Resuming work—Termination of pension.

A. The board shall have the exclusive authority to determine the disability and continuation of disability of a disabled member and shall, in accordance with this section, determine the "disability pension deduction" of a disabled member. An applicant for a disability pension shall furnish to the board a "disability report," as provided in this section, and such other medical or other information as may reasonably be required by the board for the purpose of establishing disability. The board may secure additional medical or other evidence as it deems necessary and appropriate. On the basis of the disability report, medical and other information as the board has assembled, the board shall thereupon determine whether or not the applicant is a disabled member, and if so shall determine the amount of his gross disability pension, disability pension deduction and net disability pension.

B. At least once each calendar year thereafter, the board shall require any disabled member who is receiving a disability pension and who has not reached his sixty-fifth birthday to submit a disability report and written proof satisfactory to the board that he is still disabled. At least once per year and no more frequently than monthly, the board may require a disabled member to file a disability report. The disability report shall show

(1) whether or not social security benefits have been applied for, and if not, the report shall be accompanied by a copy of the letter from the social security administration stating that he is not eligible for social security benefits, (2) the amount, if any, of primary social security benefits that he is receiving, and (3) the amount of his earnings while disabled. The board, at each regular meeting, shall redetermine the disability pension deduction and net disability pension of all disabled members for whom all reports have been requested and received, or from whom reports have been voluntarily submitted, on the basis of the disability reports and any other information the board may reasonably require of the disabled member. The disability pension deduction of a disabled member shall be redetermined by the board in a practical manner as the monthly average, for the period of time covered by his last report, of his member's earnings while disabled. The disability pension deduction shall be the amount, if any, by which his frozen earnings is exceeded by the sum of his gross disability pension and his earnings while disabled. Any redetermined amount of net disability pension shall not be payable until the calendar month next following the month in which the board's redetermination is made.

C. 1. The board is authorized at any time to cause an investigation to be made of any pensioner being paid a disability pension because of medically determinable bodily injury or disease or mental disorder or disability due to injury suffered in the course of his employment. In gathering information concerning and in determining the existence and/or continuation of disability, the board may utilize the services of an insurance company, physicians, or any other entity deemed by the board to be suitable for such purpose. If, in the judgment of the board, such pensioner is able to resume work in the classified service, the pension shall cease upon the pensioner's being assigned to work in the classified service at the same, or substantially the same rate of pay being paid at the time the disability occurred; however, if the pensioner be a policeman or fireman, the pension shall cease upon the board's finding that the pensioner is able to resume active work in the same department in which such pensioner worked at the time the disability occurred and only upon such pensioner's being assigned to work in such department at the same, or substantially the same, rate of pay being paid at the time such pensioner was disabled. In all cases, the duties of such assigned position shall not be substantially less in authority or responsibility and shall be such that the pensioner can perform based on his training, education and experience.

2. Any pensioner able to resume work with the metropolitan government at a rate of pay less than he was receiving at the time of disability shall have his rate of pay supplemented by the board by the amount that the pensioner's current pay falls below the pensioner's prior rate of pay. Pay supplement shall not take into consideration any overtime pay, shift differential or other pay supplements, but shall be based solely upon the employee's base salary. The amount of salary supplement shall continue until the pensioner's current rate of pay exceeds the pensioner's prior rate of pay except the salary supplement shall not be diminished by any across-the-board pay increases given to Metro employees.

D. A pensioner who accepts the work assigned in the classified service shall receive credit for service under the system, including the period of time during which he was receiving disability pension benefits; a pensioner who does not accept the work assigned in the classified service shall not receive credit for service during disability, even if substantially reemployed by Metro, although such member subsequently reemployed shall receive credit for service under the system for all months in which he was a metro employee.

E. A member whose disability pension has been terminated because he did not accept the work assigned in the classified service shall be entitled to apply for resumption of benefits, which right shall terminate upon the expiration of ten years after the member's last disability payment, or at age sixty-five, whichever occurs first; provided, that nothing in this paragraph shall be construed to limit the authority of the board to consider the total actual disability of a member who returns to employment with Metro after a period of disability and subsequently becomes disabled again while employed by Metro, notwithstanding such member's failure to reapply for benefits during the ten-year period.

F. A member whose disability pension has been terminated as provided for herein shall have the right to a hearing on any finding of fact and may submit any evidence to the board as he deems necessary, and the board shall reconsider its determinations.

G. "Disability," when applied to firemen or policemen, shall mean the inability and/or the incapacity to perform the duties of a fireman or policeman.

H. An employee returning to work in the classified service shall receive priority consideration in being assigned to the position he or she previously held based upon training, education and experience. Should this position not be available upon the employee's return to work, the employee shall be placed in that previous position as soon as that position becomes vacant and available.

I. The board is authorized to supplement the pay of an employee that meets the definition of disability set forth in Section 3.28.010, 3.28.030, or 3.28.040, when the employee is able to continue working for the metro-

politan government in a position where the salary is less than the employee was receiving at the time of disability. Pay supplement shall not take into consideration any overtime pay, shift differential or other pay supplements, but shall be based solely upon the employee's base salary prior to disability. The amount of salary supplement shall continue until the employee's current rate of pay exceeds the pre-disability rate of pay, except that the salary supplement shall not be diminished by any across-the-board pay increases given to metro employees. (Ord. BL2012-237 § 10, 2012; Ord. 95-1452 §§ 44, 46, 1995; Ord. 93-795 § 1, 1993; Ord. 92-159 § 20, 1992; prior code § 32-1-46)

3.28.070 Survivor benefits—Conditions for payment.

A. If a disabled member dies prior to attainment of age sixty-five and while entitled to receive a disability pension, whether or not any pension payments have actually been made, a survivor benefit shall be payable thereafter under the following conditions:

1. To the deceased disabled member's widow until her death and thereafter to the natural guardian or guardians of such surviving dependent children, if any, of such deceased disabled member; otherwise, to the legal guardian or guardians of the surviving dependent children of the deceased disabled. Where a deceased member dies with more than one set of surviving dependent children, benefits which are payable to natural or legal guardians under this subdivision 1 for the benefit of such surviving dependent children, shall be distributed per capita among the children so that each such dependent child shall share equally in the benefits so long as he remains a dependent child;

2. To the legal guardian or guardians of the surviving dependent children of a deceased disabled member for the benefit of such surviving dependent children when the deceased disabled member dies with no spouse surviving him.

B. The benefits provided by this section to be paid for the benefit of the surviving dependent children of a deceased disabled member shall terminate when there ceases to be a surviving dependent child of a deceased disabled member.

C. The amount of the survivor benefit shall equal seventy-five percent of the amount by which the member's disability pension exceeds seventy-five percent of the widow's social security benefit which she may receive; provided, that the amount of survivor benefit payable after the widow's age sixty-five shall not exceed the benefit that would have commenced at the member's age sixty-five, based on his average earnings at time of termination, in accordance with Option A, had said member's termination not occurred until he reached age sixty-five. (Ord. 91-1682 § 1, 1991; prior code § 32-1-47)

3.28.080 Survivor benefits—When member died in line of duty.

If a member who is an eligible employee dies and his death is the result, directly or indirectly, of an act occurring or thing done or risk taken, which, as determined in the discretion of the board, was required of him in the performance of his duty as a metropolitan employee, a survivor benefit shall be payable in accordance with Section 3.28.070 as though he had died after commencing to receive a disability pension benefit. (Prior code § 32-1-48)

3.28.100 Questionnaire requirements for recipients.

A. All persons on disability pension, under this Division, shall be required to fill out the questionnaire set out in this section. The questionnaire is to provide the employee benefit board information on persons receiving disability pensions. The questionnaire shall be submitted at least annually, in July of each year, commencing July, 1978, and such questionnaire shall be signed, and the following words shall be printed on the application above the signature: "Under penalties of perjury, I declare that I have examined this application and to the best of my knowledge and belief it is true, correct and complete."

B. If a person on disability pension fails or refuses to fill out the questionnaire, or fails or refuses to provide the medical authorization herein provided for, the person on disability pension shall be terminated until such information is provided.

C. The following information shall be included:

1. The nature of the disability;

2. Person's attending physician;

3. The date of the person's last physical examination;

4. Changes in the person's physical condition;

5. Whether or not the person is presently employed;

6. If the person is employed, whether their earned income (i.e., wage or salary — not rent, interest, dividends or capital gains) exceeds their disability income;

7. Whether or not the person is willing to return to employment with the metropolitan government if a position can be secured for his employment;

8. The person on disability pension shall be required to submit proper medical authorization for the purpose of enabling the benefit board to secure pertinent medical records and reports.

D. In addition to the above questions, the board shall be authorized to include other pertinent questions concerning the person's physical condition; provided, however, that this questionnaire shall not apply to any individual who is on a disability pension who has attained the age of sixty-five. (Ord. 95-1452 § 48, 1995; prior code § 32-1-48.2)

The provisions of this chapter shall apply only to those members who are under Division B of the system. (Ord. 95-1452 § 49 (part), 1995)

3.29.010 Disability defined.

A. A member whose termination occurs because of disability while he or she is a fire fighter or policeman or in the line of duty, as provided in Section 3.29.040, shall be deemed to be "disabled" (1) if the member becomes disabled as a result of medically determinable bodily injury or disease or mental disorder so that during the continuation of the member's disability following such disability the member is unable to perform the duties of any occupation in the metropolitan government which is offered to the member at a rate of earnings equal to or higher than the member was receiving at the time of the disability for which he or she is reasonably capable of performing by reason of training, education or experience, and (2) if, upon review of the continuing disability, it is determined that the member is incapable of engaging in any occupation in the Metropolitan Government, which is offered to the member at a rate of earnings equal to or higher than he or she was receiving at the time of the disability so that the sum of the member's earnings while disabled and his or her gross disability pension does not exceed one hundred percent of the member's frozen earnings, subject, however, to all other requirements of this chapter.

"Disability" when applied to a fire fighter or a policeman, shall mean the inability and/or the incapacity to perform the duties of a fire fighter or policeman.

B. A member whose termination occurs because of disability other than in the line of duty and who is then not a fire fighter or policeman shall be deemed to be "disabled" if he or she becomes disabled as a result of medically determinable bodily injury or disease or mental disorder and upon a review of the continuing disability it is determined the member is incapable of engaging in any occupation in the metropolitan government, which is offered to the member at a rate of earnings equal to or higher than he or she was receiving at the time of the disability so that the sum of the member's earnings while disabled and his or her gross disability pension does not exceed one hundred percent of the member's frozen earnings, subject, however, to all other requirements of this chapter.

C. Loss by severance of both hands at or above the wrists, or both feet at or above the ankles, or one hand above the wrist and one foot at or above the ankle, or the complete irrevocable loss of the sight of both eyes shall conclusively determine disability, and in such event, the disability pension deduction of such a disabled member shall be zero, notwithstanding anything in this chapter to the contrary.

D. Notwithstanding any provision in this section to the contrary, disability shall not include any physical or mental condition which results directly from:

1. Injury intentionally self-inflicted;
2. Injury or disease resulting from military service;
3. Injury or disease suffered or contracted prior to the date last hired as a metropolitan employee, if the date of hire was after April 1, 1963. (Ord. BL2006-1054 §§ 3, 4, 2006; Ord. 95-1452 § 49(a), 1995)

3.29.020 Eligibility for pension—Policy generally.

Only a member who, at the time of occurrence of disability, is an eligible employee and is not specifically excluded by the Metropolitan Charter from having a pension from the system, shall be covered for a disability pension in accordance with this chapter. (Ord. 95-1452 § 49(b), 1995)

3.29.030 Eligibility for pension—Disabled not in line of duty.

A member who is covered for a disability pension, who has completed ten years of credited service and who becomes disabled, as defined in Section 3.29.010, shall be eligible to receive a disability pension, subject to all applicable requirements of this chapter. (Ord. 95-1452 § 49(c), 1995)

3.29.040 Eligibility for pension—Disabled in line of duty.

A member who is covered for a disability pension, who becomes disabled, as defined in Section 3.29.010, in the line of duty, shall be eligible to receive a disability pension, provided his disability is a direct result of an act occurring or thing done or risk taken which, as determined in the discretion of the board, was required of him in the performance of his duty as a metropolitan employee. Any metropolitan employee hired after April 1, 1963, who is an eligible employee shall be deemed to be a member from his date of employment in the metropolitan government for purposes of this section. (Ord. 95-1452 § 49(d), 1995)

3.29.050 Determination and payment of pension.

A. The disability pension payable to a disabled member in any month shall be fifty percent of his frozen earnings plus, provided he has at least one dependent child, an additional ten percent of frozen earnings, less any disability pension deduction. However, if he becomes eligible for Social Security disability benefits, the fifty percent factor in the previous sentence will be reduced to thirty percent, but no further reduction will be taken to offset Social Security. In no event will the total disability benefit, paid by Metro and Social Security, be less than the benefit Metro would have paid had the disability pensioner not qualified for Social Security disability benefits.

B. A disability pension shall be payable until the member's unreduced retirement age except as otherwise provided in Section 3.36.030C, and during the lifetime and continuation of disability of the member commencing after his benefit application has been filed and following the board's determination that he is a permanently disabled member, except that no payment shall be due or payable until all his sick leave, salary continuation, or vacation benefits of any kind which may be then provided to him by the metropolitan government are exhausted; provided further, however, that if a disabled member is eligible to receive a monthly disability pension until his unreduced retirement age, the disability pension shall then cease, and thereafter he shall be eligible to receive a normal retirement pension in accordance with Chapters 3.33, 3.37 and 3.40; except that his service shall include his entire period of disability prior to the attainment of his unreduced retirement age as though his termination had never occurred, and the service retirement pension shall be computed as though his earnings from the date his disability pension commenced had remained the same until his service retirement date as his earnings prior to the date his disability pension commenced, notwithstanding any provisions of the system to the contrary.

C. When a disability pension is paid to a member for an in-line-of-duty injury, at the expense of the metropolitan government, and was caused under circumstances creating a legal liability against some person other than the metropolitan government to pay damages, the injured employee shall have the right to receive benefits as provided herein, and such injured employee and/or the metropolitan government may pursue his/her remedy by proper action in a court of competent jurisdiction against such person. In the event of recovery against such third person by judgment, settlement or otherwise, the metropolitan government shall have a subrogation right against such recovery for the cost of the disability pension. The metropolitan government shall only collect its subrogation interest when the employee has been made whole by settlement, judgment or otherwise. Such settlements shall be reported to and approved by the board. (Ord. 2002-1233 § 2, 2002; Ord. 97-1018 § 8, 1997; Ord. 95-1452 § 49(e), 1995)

3.29.060 Board authority—Disability report required—Resuming work—Termination of pension.

A. The board shall have exclusive authority to determine the disability and continuation of disability of a disabled member, and shall, in accordance with this section, determine the disability pension deduction of a disabled member. An applicant for a disability pension shall furnish to the board a disability report, as provided in this section, and such medical or other information as may reasonably be required by the board for the purpose of establishing disability. The board may secure additional medical or other evidence as it deems necessary and appropriate. On the basis of the disability report, medical, and other information as the board has assembled, the board shall thereupon determine whether or not the applicant is a disabled member, and if so shall determine the amount of his gross disability pension, disability pension deduction, and net disability pension.

B. At least once each calendar year thereafter, the board shall require any disabled member who is receiving a disability pension, and who has not reached his unreduced retirement age, to submit a disability report and written proof satisfactory to the board that he is still disabled. At least once per year, and no more frequently then monthly, the board may require a disabled member to file a disability report. The disability report shall show (1) whether or not Social Security benefits have been applied for, and if the application has been rejected, the

report shall be accompanied by a copy of the letter from the Social Security Administration stating that he is not eligible for Social Security benefits, (2) the amount, if any, of primary Social Security benefits that he is receiving, and (3) the amount of his outside earnings while disabled. The board, at each regular meeting, shall redetermine the disability pension deduction and net disability pension of all disabled members for whom all reports have been requested and received, or from whom reports have been voluntarily submitted, on the basis of the disability reports and any other information the board may reasonably require of the disabled member. For purposes of calculating the disability pension deduction of a disabled member, the member's earnings while disabled shall be redetermined by the board in a practical manner as the monthly average, for the period of time covered by his last report, of the member's reported earnings while disabled. The disability pension deduction shall be the amount, if any, by which his frozen earnings is exceeded by the sum of his gross disability pension and his earnings while disabled. Any redetermined amount of net disability pension shall not be payable until the calendar month following the month in which the board's redetermination is made.

C. 1. The board is authorized at any time to cause an investigation to be made of any pensioner being paid a disability pension because of medically determinable bodily injury, or disease, or mental disorder, or disability due to injury suffered in the course of his employment. In gathering information concerning and in determining the existence and/or continuation of disability, the board may utilize the services of an insurance company, physicians, or any other entity deemed by the board to be suitable for such purpose. If, in the judgment of the board, such pensioner is able to resume work in the classified service, the pension shall cease upon the pensioner's being assigned to work in the classified service at the same, or substantially the same, rate of pay being paid at the time the disability occurred; however, if the pensioner be a policeman or fire fighter, the pension shall cease upon the board's finding that the pensioner is able to resume active work in the same department in which such pensioner worked at the time the disability occurred, and only upon such pensioner's being assigned to work in such department at the same, or substantially the same, rate of pay being paid at the time such pensioner was disabled. In all cases, the duties of such assigned position shall not be substantially less in authority or responsibility and shall be such that the pensioner can perform based on his training, education and experience.

2. Any pensioner able to resume work with the metropolitan government at a rate of pay less than he was receiving at the time of disability shall have his rate of pay supplemented by the board by the amount that the pensioner's current pay falls below the pensioner's prior rate of pay. Pay supplement shall not take into consideration any overtime pay, shift differential or other pay supplements, but shall be based solely upon the employee's base salary. The amount of salary supplement shall continue until the pensioner's current rate of pay exceeds the pensioner's prior rate of pay except the salary supplement shall not be diminished by any across-the-board pay increases given to Metro employees.

D. Once the board has determined that the pensioner is medically capable of returning to work, the department that the pensioner last worked in will be notified that the pensioner is medically capable of returning to work. If the department fails to return the pensioner to work, within sixty days of the date of notification to the department, the cost of all continuing disability payments will be allocated to the pensioner's former department on a quarterly basis. The board shall report to the mayor and the council budget and finance committee, on a quarterly basis, allocations made to the board, by any department.

E. The board shall assist departments in identifying, where possible, work assignments for disabled workers to return to, that otherwise complies with this chapter. If a disabled pensioner refuses to return to work after a third written offer of employment, the disability pension shall automatically terminate. A pensioner who accepts the work assigned in the classified service shall receive credit for service under the system, including the period of time during which he was receiving disability pension benefits; a pensioner who does not accept the work assigned in the classified service shall not receive credit for service during disability, even if subsequently reemployed by the metropolitan government, although such member subsequently reemployed shall receive credit for service under the system for all months in which he was an eligible employee.

F. A member whose disability pension has been terminated because he did not accept the work assigned in the classified service shall be entitled to apply for resumption of benefits, which right shall terminate upon the expiration of ten years after the member's last disability payment, or at unreduced retirement age, whichever occurs first; provided, that nothing in this paragraph shall be construed to limit the authority of the board to consider the total actual disability of a member who returns to employment with the metropolitan government after a period of disability and subsequently becomes disabled again while employed by the metropolitan government, notwithstanding such member's failure to reapply for benefits during the ten-year period.

G. A member whose disability pension has been terminated as provided for herein shall have the right to a hearing on any finding of fact, and may submit any evidence to the board as he deems necessary, and the board shall reconsider its determinations.

H. An employee returning to work in the classified service shall receive priority consideration in being assigned to the position he or she previously held based upon training, education and experience. Should this position not be available upon the employee's return to work, the employee shall be placed in that previous position as soon as that position becomes vacant and available.

I. The board is authorized to supplement the pay of an employee that meets the definition of disability set forth in Section 3.29.010, 3.29.030, or 3.29.040, when the employee is able to continue working for the metropolitan government in a position where the salary is less than the employee was receiving at the time of disability. Pay supplement shall not take into consideration any overtime pay, shift differential or other pay supplements, but shall be based solely upon the employee's base salary prior to disability. The amount of salary supplement shall continue until the employee's current rate of pay exceeds the pre-disability rate of pay, except that the salary supplement shall not be diminished by any across-the-board pay increases given to metro employees. (Ord. BL2012-237 § 11, 2012; Ord. 95-1452 § 49(f), 1995)

3.29.070 Survivor benefits—Conditions for payment.

A. If a disabled member dies before reaching unreduced retirement age and while entitled to receive a disability pension, whether or not any pension payments have actually been made, a survivor benefit shall be payable thereafter under the following conditions:

1. To the deceased disabled member's widow until her death and thereafter to the natural guardian or guardians of such surviving dependent children, if any, of such deceased disabled member; otherwise, to the legal guardian or guardians of the surviving dependent children of the deceased disabled. Where a deceased member dies with more than one set of surviving dependent children, benefits which are payable to natural or legal guardians under this subdivision 1 for the benefit of such surviving dependent children, shall be distributed per capita among the children so that each such dependent child shall share equally in the benefits so long as he remains a dependent child;

2. To the legal guardian or guardians of the surviving dependent children of a deceased disabled member for the benefit of such surviving dependent children when the deceased disabled member dies with no spouse surviving him.

B. The benefits provided by this section to be paid for the benefit of the surviving dependent children of a deceased disabled member shall terminate when there ceases to be a surviving dependent child of a deceased disabled member.

C. The amount of the survivor benefit shall equal twenty-five percent of the member's average earnings preceding his disability, but not less than the benefit that would have commenced at the member's date of death had he retired instead of dying, based on his average earnings and service at the time of his termination, in accordance with Option A. (Ord. 95-1452 § 49(g), 1995)

3.29.080 Survivor benefits—When member died in line of duty.

If a member who is an eligible employee dies and his death is the result, directly or indirectly, of an act occurring, or thing done, or risk taken, which, as determined in the discretion of the board, was required of him in the performance of his duty as a metropolitan employee, a survivor benefit shall be payable in accordance with Section 3.29.070 as though he had died after starting to receive a disability pension benefit. (Ord. 95-1452 § 49(h), 1995)

3.29.090 Questionnaire requirements for recipients.

A. All persons on disability pension, under this Division, shall be required to fill out the questionnaire set out in this section. The questionnaire is to provide the employee benefit board information on persons receiving disability pensions. The questionnaire shall be submitted at least annually, in July of each year, commencing July, 1978, and such questionnaire shall be signed, and the following words shall be printed on the application above the signature: "Under penalties of perjury, I declare that I have examined this application and to the best of my knowledge and belief it is true, correct and complete."

B. If a person on disability pension fails or refuses to fill out the questionnaire, or fails or refuses to provide the medical authorization herein provided for, the person's disability pension shall be suspended until such information is provided.

C. The following information shall be included:

1. The nature of the disability;
2. Person's attending physician;

3. The date of the person's last physical examination;

4. Changes in the person's physical condition;

5. Whether or not the person is presently employed;

6. If the person is employed, whether his earned income (i.e., wage or salary — not rent, interest, dividends or capital gains) exceeds his disability income;

7. Whether or not the person is willing to return to employment with the metropolitan government if a position can be secured for his employment;

8. The person on disability pension shall be required to submit proper medical authorization for the purpose of enabling the benefit board to secure pertinent medical records and reports.

D. In addition to the above questions, the board shall be authorized to include other pertinent questions concerning the person's physical condition; provided, however, that this questionnaire shall not apply to any individual who is on a disability pension who has attained his unreduced retirement age. (Ord. 95-1452 § 49(I), 1995)

3.30.010 Introduction.

A. The pensions for members with credited employee service and pensions for members with credited fire and police service (the "plan") is part of larger system of employee benefits plans provided by the Metropolitan Government of Nashville and Davidson County, Tennessee (metropolitan government) for the benefit of its employees. The benefits included in this system include the plan, as well as disability benefits, medical and life insurance programs. The terms of the plan are set forth in the Metropolitan Code of Laws subject to the provisions of the Metropolitan Charter.

B. Intention. It is the intention of the metropolitan government that the plan comply with all requirements of Internal Revenue Code Section 401(a) that apply to plans that are sponsored by state or local governments or political subdivisions. The metropolitan government intends that this plan be a tax-qualified plan.

C. Purpose of this Chapter. The provisions of this chapter have been adopted by the metropolitan government for the sole purpose of complying with Section 401(a) of the Internal Revenue Code. The provisions of this shall not be construed to change the benefits otherwise payable under the plan unless such is required under the Internal Revenue Code Section 401(a). (Ord. 2002-1060 § 1 (part), 2002)

3.30.020 Benefit limitations based on Code Section 415.

A. The limitations of this Section 3.30.020 shall apply to limitation years that begin more than ninety days after the close of the first regular legislative session of the council that begins on or after July 1, 2007, except as otherwise provided herein.

B. The annual benefit otherwise payable to a member at any time shall not exceed the maximum permissible benefit. If the benefit the member would otherwise accrue in a limitation year would produce an annual benefit in excess of the maximum permissible benefit, the rate of accrual of such benefit shall be reduced so that the benefit does not exceed the maximum permissible benefit.

C. If the member is, or has ever been, a member in another qualified defined benefit plan maintained by the employer, the sum of the member's annual benefits from all such plans may not exceed the maximum permissible benefit. Where the member's employer-provided benefits under all such defined benefit plans (determined as of the same age) would exceed the maximum permissible benefit applicable at that age, the employer will reduce the rate of accrual in this plan to the extent necessary so that the total annual benefit payable at any time under such plans will not exceed the maximum permissible benefit.

D. The application of the provisions of this Section 3.30.020 shall not cause the maximum permissible benefit for any member to be less than the member's accrued benefit under all the defined benefit plans of the employer as of the end of the last limitation year beginning before July 1, 2007, under provisions of the plans that were both adopted and in effect before April 5, 2007. The preceding sentence applies only if the provisions of such defined benefit plans that were both adopted and in effect before April 5, 2007, satisfied the applicable requirements of statutory provisions, regulations, and other published guidance relating to Code Section 415 in effect as of the end of the last limitation year beginning before July 1, 2007, as described in Section 1.415(a)-1(g)(4) of the Treasury Regulations.

E. Definitions. For purposes of this Section 3.30.020, the following terms shall be defined as follows:

1. "Annual benefit" means a benefit that is payable annually in the form of a straight life annuity. Except as provided below, where a benefit is payable in a form other than a straight life annuity, the benefit shall be adjusted to an actuarially equivalent straight life annuity that begins at the same time as such other form of benefit and is payable on the first day of each month, before applying the limitations of this Section 3.30.020. For a member who has or will have distributions commencing at more than one annuity starting date, the annual benefit shall be determined as of each such annuity starting date (and shall satisfy the limitations of this Section 3.30.020 as of each such date), actuarially adjusting for past and future distributions of benefits commencing at the other annuity starting dates. For this purpose, the determination of whether a new starting date has occurred shall be made

without regard to section 1.401(a)-20, Q&A 10(d), and with regard to section 1.415(b)1(b)(1)(iii)(B) and (C) of the Treasury Regulations.

No actuarial adjustment to the benefit shall be made for (i) survivor benefits payable to a surviving spouse under a qualified joint and survivor annuity to the extent such benefits would not be payable if the member's benefit were paid in another form; (ii) benefits that are not directly related to retirement benefits (such as a qualified disability benefit, preretirement incidental death benefits, and postretirement medical benefits); or (iii) the inclusion in the form of benefit of an automatic benefit increase feature, provided the form of benefit is not subject to Code Section 417(e)(3) and would otherwise satisfy the limitations of this Section 3.30.020, and the plan provides that the amount payable under the form of benefit in any limitation year shall not exceed the limits of this Section 3.30.020 applicable at the annuity starting date, as increased in subsequent years pursuant to Code Section 415(d). For this purpose, an automatic benefit increase feature is included in a form of benefit if the form of benefit provides for automatic, periodic increases to the benefits paid in that form.

The determination of the annual benefit shall take into account Social Security supplements described in Code Section 411(a)(9) and benefits transferred from another defined benefit plan, other than transfers of distributable benefits pursuant section 1.411(d)-4, Q&A-3(c) of the Treasury Regulations, but shall disregard benefits attributable to employee contributions or rollover contributions.

Effective for distributions in plan years beginning after December 31, 2003, the determination of actuarial equivalence of forms of benefit other than a straight life annuity shall be made in accordance with subsections a or b below.

a. Benefit Forms Not Subject to Code Section 417(e)(3). The straight life annuity that is actuarially equivalent to the member's form of benefit shall be determined under this subsection a if the form of the member's benefit is either (1) a nondecreasing annuity (other than a straight life annuity) payable for a period of not less than the life of the member (or, in the case of a qualified pre-retirement survivor annuity, the life of the surviving spouse), or (2) an annuity that decreases during the life of the member merely because of (a) the death of the survivor annuitant (but only if the reduction is not below fifty percent of the benefit payable before the death of the survivor annuitant), or (b) the cessation or reduction of Social Security supplements or qualified disability payments (as defined in Code Section 401(a)(11)).

(i) Limitation years beginning before July 1, 2007. For limitation years beginning before July 1, 2007, the actuarially equivalent straight life annuity is equal to the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit computed using whichever of the following produces the greater annual amount: (A) the interest rate and mortality table (or other tabular factor) specified in Section 3.30.130 of the plan for adjusting benefits in the same form; and (B) a 5-percent interest rate assumption and the applicable mortality table defined in Subsection F below for that annuity starting date.

(ii) Limitation years beginning on or after July 1, 2007. For limitation years beginning on or after July 1, 2007, the actuarially equivalent straight life annuity is equal to the greater of (A) the annual amount of the straight life annuity (if any) payable to the member under the plan commencing at the same annuity starting date as the member's form of benefit; and (B) the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using a 5-percent interest rate assumption and the applicable mortality table defined in Subsection F below for that annuity starting date.

b. Benefit Forms Subject to Code Section 417(e)(3). The straight life annuity that is actuarially equivalent to the member's form of benefit shall be determined under this subsection b if the form of the member's benefit is other than a benefit form described in subsection a above. In this case, the actuarially equivalent straight life annuity shall be determined as follows:

(i) Annuity Starting Date in Plan Years Beginning After 2005. If the annuity starting date of the member's form of benefit is in a plan year beginning after 2005, the actuarially equivalent straight life annuity is equal to the greatest of (A) the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using the interest rate and the mortality table (or other tabular factor) specified in Subsection F below for adjusting benefits in the same form; (B) the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using a 5.5-percent interest rate assumption and the applicable mortality table defined in Subsection F below; and (C) the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using the applicable interest rate and the applicable mortality table defined in Subsection F below, divided by 1.05. Notwithstanding the foregoing, distributions made prior to the effective date of this Section 3.30.020 (as set forth in

Subsection A above) for which the 5.5-percent interest rate assumption may have been applicable but was not applied, do not have to be recalculated.

(ii) Annuity Starting Date in Plan Years Beginning in 2004 or 2005. If the annuity starting date of the member's form of benefit is in a plan year beginning in 2004 or 2005, the actuarially equivalent straight life annuity is equal to the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the member's form of benefit, computed using whichever of the following produces the greater annual amount: (A) the interest rate specified and the mortality table (or other tabular factor) specified in Subsection F below for adjusting benefits in the same form; and (B) a 5.5-percent interest rate assumption and the applicable mortality table defined in Subsection F below. Notwithstanding the foregoing, distributions made prior to the effective date of this Section 3.30.020 (as set forth in Subsection A above) for which the 5.5-percent interest rate assumption may have been applicable but was not applied, do not have to be recalculated.

If the annuity starting date of the member's benefit is on or after the first day of the first plan year beginning in 2004 and before December 31, 2004, the application of this subsection b(ii) shall not cause the amount payable under the member's form of benefit to be less than the benefit calculated under the plan, taking into account the limitations of this Section 3.30.020, except that the actuarially equivalent straight life annuity is equal to the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the participant's form of benefit, computed using whichever of the following produces the greatest annual amount:

(a) The interest rate and the mortality table (or other tabular factor) specified in Section 3.30.130 of the plan for adjusting benefits in the same form;

(b) The applicable interest rate and the applicable mortality table defined in Subsection F below; and

(c) The applicable interest rate defined in Section 3.30.130 of the plan (as in effect on the last day of the last plan year beginning before January 1, 2004, under provisions of the plan then adopted and in effect) and the applicable mortality table defined in Subsection F below.

2. "Annuity starting date" shall mean the first day of the first period for which an amount is paid as an annuity or any other form.

3. "Compensation" shall mean, solely for purposes of this section,

a. Wages, salaries and fees for professional services and other amounts received (without regard to whether or not an amount is paid in cash) for personal services actually rendered in the course of employment with the employer to the extent that the amounts are includible in gross income (including but not limited to, commissions paid salesmen, compensation for services on the basis of a percentage of profits, commissions on insurance premiums, tips, bonuses, fringe benefits reimbursements, and expense allowances), and excluding the following:

(1) Employer contributions to a plan of deferred compensation (including a Code Section 457 plan) which are not includible in the employee's gross income for the taxable year in which contributed, or any distributions from a plan of deferred compensation; and

(2) Other amounts which received special tax benefits, including pick-up contributions, and contributions made by the employer (whether or not under a salary reduction agreement) towards the purchase of an annuity described in Code Section 403(b) (whether or not the amounts are actually excludable from the gross income of the eligible employee).

b. Notwithstanding subsection a above, effective January 1, 1998, compensation shall include salary deferrals under Sections 401(k), 403(b), 457 and 125 of the Code, however contributions picked up by the employer shall continue to be excluded.

c. For limitation years beginning on and after January 1, 2001, for purposes of applying the limitations of this section, compensation paid or made available during such limitation years shall include elective amounts that are not includible in the gross income of the eligible employee by reason of Code Section 132(f)(4).

d. For limitation years beginning on or after July 1, 2007, compensation for a limitation year shall also include compensation paid by the later of two and one-half months after an employee's severance from employment with the employer or the end of the limitation year that includes the date of the employee's severance from employment with the employer, if:

(1) The payment is regular compensation for services during the employee's regular working hours, or compensation for services outside the employee's regular working hours (such as overtime or shift differential), commissions, bonuses, or other similar payments, and, absent a severance from employment, the payments would have been paid to the employee while the employee continued in employment with the employer; or,

(2) The payment is for unused accrued bona fide sick, vacation or other leave that the employee would have been able to use if employment had continued; or

(3) The payment is received by the employee pursuant to a nonqualified unfunded deferred compensation plan and would have been paid at the same time if employment had continued, but only to the extent includible in gross income.

e. Any payments not described in subsection d above shall not be considered compensation if paid after severance from employment, even if they are paid by the later of two and one-half months after the date of severance from employment or the end of the limitation year that includes the date of severance from employment, except

(1) Payments to an individual who does not currently perform services for the employer by reason of qualified military service (within the meaning of Code section 414(u)(1)) to the extent these payments do not exceed the amounts the individual would have received if the individual had continued to perform services for the employer rather than entering qualified military service; or

(2) Compensation paid to a member who is permanently and totally disabled, as defined in Code Section 22(e)(3), provided, salary continuation applies to all members who are permanently and totally disabled for a fixed or determinable period, or the member was not a highly compensated employee, as defined in Code Section 414(q), immediately before becoming disabled.

f. Back pay, within the meaning of Section 1.415(c)-2(g)(8) of the Treasury Regulations, shall be treated as compensation for the limitation year to which the back pay relates to the extent the back pay represents wages and compensation that would otherwise be included under this definition.

4. "Defined benefit dollar limitation" shall mean, effective for limitation years ending after December 31, 2001, one hundred sixty [thousand] dollars, as automatically adjusted, effective January 1 of each year, by the Secretary of the Treasury under Code Section 415(d) in such manner as the secretary shall prescribe, and payable in the form of a straight-life annuity. A limitation as adjusted under Code Section 415(d) will apply to limitation years ending with or within the calendar year for which the adjustment applies, but a member's benefits shall not reflect the adjusted limit prior to January 1 of that calendar year. The automatic annual adjustment provided under Code Section 415(d) shall apply to members who have had a separation from employment.

5. "Employer" shall mean, for purposes of this Section 3.30.020, the Metropolitan Government of Nashville and Davidson County, Tennessee, and any agency that adopts this plan.

6. "Limitation year" shall mean the plan year. All qualified plans maintained by the employer shall use the same limitation year. If the limitation year is amended to a different twelve consecutive month period, then the new limitation year shall begin on a date within the limitation year in which the amendment is made.

7. "Maximum permissible amount" shall mean the defined benefit dollar limitation (adjusted where required and to the extent applicable pursuant to subsections a and b below).

a. Adjustment for Less Than Ten Years of Participation or Service. If the member has less than ten years of participation in the plan, the defined benefit dollar limitation shall be multiplied by a fraction (1) the numerator of which is the number of years (or part thereof, but not less than one year) of participation in the plan, and (2) the denominator of which is ten. However, the adjustment made by the preceding sentence shall not apply for a member who becomes disabled by reason of personal injuries or sickness, or as a result of the death of the member, regardless of such member's years of participation.

b. Adjustment of Defined Benefit Dollar Limitation for Benefit Commencement Before Age Sixty-two or after Age Sixty-five. Effective for benefits commencing in limitation years ending after December 31, 2001, the defined benefit dollar limitation shall be adjusted if the annuity starting date of the member's benefit is before age sixty-two or after age sixty-five. If the annuity starting date is before age sixty-two, the defined benefit dollar limitation shall be adjusted under subparagraph b(1) below, as modified by subparagraph b(3). If the annuity starting date is after age sixty-five, the defined benefit dollar limitation shall be adjusted under subparagraph b(2) below, as modified by subparagraph b(3).

(1) Adjustment of Defined Benefit Dollar Limitation for Benefit Commencement Before Age Sixty-two.

(A) Limitation Years Beginning Before July 1, 2007. If the annuity starting date for the member's benefit is prior to age sixty-two and occurs in a limitation year beginning before July 1, 2007, the defined benefit dollar limitation for the member's annuity starting date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the defined benefit dollar limitation (adjusted under subsection a above for years of participation less than ten, if required) with actuarial equivalence computed using whichever of the following produces the smaller annual amount: (i) the interest rate specified and the mortality table (or other tabular factor) specified in Section 3.30.130 of the plan; or (ii) a five percent interest rate assumption and the applicable mortality table as defined in Subsection F below.

(B) Limitation Years Beginning on or After July 1, 2007.

(i) Plan Does Not Have Immediately Commencing Straight Life Annuity Payable at Both Age Sixty-two and the Age of Benefit Commencement. If the annuity

starting date for the member's benefit is prior to age sixty-two and occurs in a limitation year beginning on or after July 1, 2007, and the plan does not have an immediately commencing straight life annuity payable at both age sixty-two and the age of benefit commencement, the defined benefit dollar limitation for the member's annuity starting date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the defined benefit dollar limitation (adjusted under subsection 7a above for years of participation less than ten, if required) with actuarial equivalence computed using a five percent interest rate assumption and the applicable mortality table for the annuity starting date as defined in Section 3.30.120 of the plan (and expressing the member's age based on completed calendar months as of the annuity starting date).

(ii) Plan Has Immediately Commencing Straight Life Annuity Payable at Both Age Sixty-two and the Age of Benefit Commencement. If the annuity starting date for the member's benefit is prior to age sixty-two and occurs in a limitation year beginning on or after July 1, 2007, and the plan has an immediately commencing straight life annuity payable at both age sixty-two and the age of benefit commencement, the defined benefit dollar limitation for the member's annuity starting date is the lesser of the limitation determined under subsection b(1)(B)(i) above and the defined benefit dollar limitation (adjusted under subsection 7a for years of participation less than ten, if required) multiplied by the ratio of the annual amount of the immediately commencing straight life annuity under the plan at the member's annuity starting date to the annual amount of the immediately commencing straight life annuity under the plan at age sixty-two, both determined without applying the limitations of this Section 3.30.020.

(C) Exception for qualified members. Notwithstanding the other provisions of this subsection (1), no age adjustment shall be made to the defined benefit dollar limitation for a member who has at least fifteen years of service in the plan as:

(i) A full-time employee of a governmental police or fire department providing police protection, firefighting services, or emergency medical services, or

(ii) A member of the Armed Forces of the United States.

(D) Exception for survivor and disability benefits. Notwithstanding the other provisions of this subsection (1), no age adjustment shall be made to the defined benefit dollar limitation for a member who becomes disabled by reason of personal injuries or sickness, or as a result of the death of the member.

(2) Adjustment of Defined Benefit Dollar Limitation for Benefit Commencement After Age Sixty-five.

(A) Limitation Years Beginning Before July 1, 2007. If the annuity starting date for the member's benefit is after age sixty-five and occurs in a limitation year beginning before July 1, 2007, the defined benefit dollar limitation for the member's annuity starting date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the defined benefit dollar limitation (adjusted under subsection 7a above for years of participation less than ten, if required) with actuarial equivalence computed using whichever of the following produces the smaller annual amount: (i) the interest rate and the mortality table (or other tabular factor) specified in Section 3.30.130; or (ii) a five-percent interest rate assumption and the applicable mortality table defined in Subsection F below.

(B) Limitation Years Beginning on or After July 1, 2007.

(i) Plan Does Not Have Immediately Commencing Straight Life Annuity Payable at Both Age Sixty-five and the Age of Benefit Commencement. If the annuity starting date for the member's benefit is after age sixty-five and occurs in a limitation year beginning on or after July 1, 2007, and the plan does not have an immediately commencing straight life annuity payable at both age sixty-five and the age of benefit commencement, the defined benefit dollar limitation at the member's annuity starting date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the member's annuity starting date that is the actuarial equivalent of the defined benefit dollar limitation (adjusted under subsection 7a above for years of participation less than ten, if required), with actuarial equivalence computed using a five percent interest rate assumption and the applicable mortality table for that annuity starting date as defined in Subsection F below (and expressing the member's age based on completed calendar months as of the annuity starting date).

(ii) Plan Has Immediately Commencing Straight Life Annuity Payable at Both Age Sixty-five and the Age of Benefit Commencement. If the annuity starting date for the member's benefit is after age sixty-five and occurs in a limitation year beginning on or after July 1, 2007, and the plan has an immediately commencing straight life annuity payable at both age sixty-five and the age of benefit commencement, the defined benefit dollar limitation at the member's annuity starting date is the lesser of the limitation determined under subsection b(2)(B)(i) and the defined benefit dollar limitation (adjusted under subsection 7a above for years of participation less than ten, if required) multiplied by the ratio of the annual

amount of the adjusted immediately commencing straight life annuity under the plan at the member's annuity starting date to the annual amount of the adjusted immediately commencing straight life annuity under the plan at age sixty-five, both determined without applying the limitations of this Section 3.30.020. For this purpose, the adjusted immediately commencing straight life annuity under the plan at the member's annuity starting date is the annual amount of such annuity payable to the member, computed disregarding the member's accruals after age sixty-five but including actuarial adjustments even if those actuarial adjustments are used to offset accruals; and the adjusted immediately commencing straight life annuity under the plan at age sixty-five is the annual amount of such annuity that would be payable under the plan to a hypothetical member who is age sixty-five and has the same accrued benefit as the member.

(3) Notwithstanding the other requirements of this subsection 7b, no adjustment shall be made to the defined benefit dollar limitation to reflect the probability of a member's death between the annuity starting date and age sixty-two, or between age sixty-five and the annuity starting date, as applicable, if benefits are not forfeited upon the death of the member prior to the annuity starting date. To the extent benefits are forfeited upon death before the annuity starting date, such an adjustment shall be made. For this purpose, no forfeiture shall be treated as occurring upon the member's death if the plan does not charge members for providing a qualified preretirement survivor annuity, as defined in Code Section 417(c) upon the member's death.

c. Minimum benefit permitted. Notwithstanding anything else in this definition to the contrary, the benefit otherwise accrued or payable to a member under this plan shall be deemed not to exceed the maximum permissible benefit if:

(1) The retirement benefits payable for a limitation year under any form of benefit with respect to such member under this plan and under all other defined benefit plans (without regard to whether a plan has been terminated) ever maintained by the employer do not exceed ten thousand dollars multiplied by a fraction (A) the numerator of which is the member's number of years (or part thereof, but not less than one year) of service (not to exceed ten) with the employer, and (B) the denominator of which is ten; and

(2) The employer has not at any time maintained a defined contribution plan in which the member participated (for this purpose, mandatory employee contributions under a defined benefit plan, individual medical accounts under Code Section 401(h), and accounts for postretirement medical benefits established under Code Section 419A(d)(1) are not considered a separate defined contribution plan).

8. "Year of participation" shall mean each accrual computation period (computed to fractional parts of a year) for which the following conditions are met: (a) the member is credited with at least the number of hours of service for benefit accrual purposes, required under the terms of the plan in order to accrue benefit service, and (b) the member is included as a member under the eligibility provisions of the plan for at least one day of the period of benefit service. If these two conditions are met, the portion of a year of participation credited to the member shall equal the amount of benefit service credited to the member for such accrual computation period. A member who is permanently and totally disabled within the meaning of Section 415(c)(3)(C)(i) of the Code for an accrual computation period shall receive a year of participation with respect to that period. In addition, for a member to receive a year of participation (or part thereof) for an accrual computation period, the plan must be established no later than the last day of such accrual computation period. In no event will more than one year of participation be credited for any twelve-month period.

F. Actuarial equivalence. All actuarial equivalence determinations in this Section 3.30.020 shall be made in accordance with this subsection F. For actuarial equivalence unrelated to this section and the requirements of Section 415 of the Code, see Section 3.30.40 of the plan.

Actuarial equivalence determinations include: adjustment for early payment; adjustment for delayed payment; adjustment for payment in a form other than a life annuity; computation of the benefit attributable to employee contributions; and all other determinations of a similar nature, as required by context.

1. On or After January 1, 2000, through December 31, 2007. With respect to participants whose termination of employment is on or after January 1, 2000, and for benefits commencing on or before December 31, 2007, the actuarial equivalent value of any distribution other than a non-decreasing annuity form of payment (as defined in the Treasury Regulations issued pursuant to Code Section 417(e)) shall be determined using the GATT interest rate and GATT mortality table described below:

Interest: With respect to any single sum payment, the GATT interest rate is the annual rate of interest on thirty-year treasury securities for the second full month prior to the first day of the plan year in which such single sum payment is made. For the purposes of determining an actuarial equivalent amount (other than nondecreasing life annuities payable for a period not less than the life of

a participant or, in the case of a pre-retirement survivor annuity, the life of the surviving spouse) the GATT interest rate shall be the annual interest rate on thirty-year treasury securities determined as of the second full month prior to the first day of the plan year in which the annuity starting date occurs.

Mortality: The prevailing Internal Revenue Service Commissioners' standard table (described in Code Section 807(d)(5)(A), without regard to any other subparagraphs of Code Section 807(d)(5)) used to determine reserves for group annuity contracts issued on the date as of which the present value is being determined (which as of the effective date of Section is the table prescribed in Rev. Rul. 2001-62).

2. On or After January 1, 2008. Notwithstanding the foregoing, with respect to benefits commencing on or after January 1, 2008, the amount of a single sum distribution (or the amount of distributions in any form other than a nondecreasing annuity) shall not be less than such amount determined using the applicable mortality table and the applicable interest rate. For annuity starting dates occurring on or after January 1, 2008, "applicable mortality table" means the mortality table prescribed by the Secretary of the Treasury pursuant to Code Section 417(e)(3)(B) for the plan year containing the annuity starting date and "applicable interest rate" means the adjusted first, second, and third segment rates applied under the rules similar to the rules of Code Section 430(h)(2)(C) for the November which precedes the plan year that includes the annuity starting date. For this purpose, the first, second, and third segment rates are the first, second, and third segment rates which would be determined under Code Section 430(h)(2)(C) if:

a. Code Section 430(h)(2)(D) were applied by substituting the average yields for the month described in clause (2) below for the average yields for the twenty-four-month period described in such section, and

b. Code Section 430(h)(2)(G)(i)(II) were applied by substituting "Section 417(e)(3)(A)(ii)(II) (as in effect for the plan year beginning in 2007)" for "Section 412(b)(5)(B)(ii)(II)," and

c. The applicable percentage under Code Section 430(h)(2)(G) is treated as being twenty percent in 2008, forty percent in 2009, sixty percent in 2010, and eighty percent in 2011.

In the event this section is amended, the actuarial equivalent of a member's accrued benefit on or after the date of change shall be determined (unless otherwise permitted by law or Treasury Regulation) as the greater of (1) the actuarial equivalent of the accrued benefit as of the date of change computed on the old basis, or (2) the actuarial equivalent of the total accrued benefit computed on the new basis.

G. Notwithstanding any provision of this Section 3.30.020, the application of this Section shall be subject to such rules as may be prescribed by the Secretary of the Treasury. (Ord. BL2015-1007 § 1, 2015; Ord. BL2004-128 § 1, 2004; Ord. 2002-1060 § 1 (part), 2002)

3.30.030 Limitation on earnings.

A. For purposes of computing any benefit under the plan or any contribution made to the plan, there shall be a limit on the amount of compensation that may be considered in any plan year for any member. The limit shall be the amount specified in this section as described below. The limit contained in this Section 3.30.030 shall apply to earnings as defined in Section 3.08.010 and to compensation as defined in Section 3.30.020.

B. Increase in Compensation Limit.

1. Increase in Limit. The annual compensation of each noneligible member taken into account in determining benefit accruals in any plan year beginning after December 31, 2001, shall not exceed $200,000. Annual compensation means compensation during the plan year or such other consecutive twelve-month period over which compensation is otherwise determined under the plan (the determination period). For purposes of determining benefit accruals in a plan year beginning after December 31, 2001, the annual compensation limit for noneligible members under this section for determination periods beginning before January 1, 2002, shall be two hundred thousand dollars. Notwithstanding the foregoing, in the case of an eligible member, the annual compensation limit of Code Section 401(a)(17) shall not apply to the extent that the application of the limitation would reduce the amount of compensation that was allowed to be taken into account under the plan as in effect on July 1, 1993. For these purposes, an eligible member is an individual who first became a member in the plan prior to the first day of the first plan year beginning after the earlier of: (i) the last day of the plan year by which a plan amendment to reflect the amendments made by Section 13212 of the Omnibus Budget Reconciliation Act of 1993 is both adopted and effective; or (ii) December 31, 1995.

2. Cost-of-Living Adjustment. The two hundred thousand dollar limit on annual compensation in subsection (1) above shall be adjusted for cost-of-living increases in accordance with Section 401(a)(17)(B) of the Code. The cost-of-living adjustment in effect for a calendar year applies to annual compensation for the determination period that begins with or within such calendar year. (Ord. BL2015-1007 § 2, 2015; Ord. 2002-1060 § 1 (part), 2002)

3.30.040 Actuarial equivalence.

A. All actuarial equivalence determinations in this plan shall be made in accordance with this section. Actuarial equivalence determinations include: adjustment for early payment; adjustment for delayed payment; adjustment for payment in a form other than a life annuity and all other determinations of a similar nature, as required by context. Actuarial equivalence shall mean, for purposes of determining optional benefit payment forms, a benefit of equivalent value based on the following:

1. For participants with benefit commencement dates on and after January 1, 1996:

a. Interest eight percent per annum;

b. Mortality: Participants - a table constructed from the 1983 Group Annuity Mortality Table by assuming a population composition consisting of sixty-six and two-thirds percent male participants and thirty-three and one-third percent female participants;

c. Beneficiaries - a table constructed from the 1983 Group Annuity Mortality Table by assuming a population composition consisting of thirty-three and one-third percent male participants and sixty-six and two-thirds percent female participants.

2. For participants with benefit commencement dates before January 1, 1996:

a. Interest—Seven and one half percent per annum;

b. Mortality for general government participants:

i. Participants - the 1951 Group Annuity Mortality Table for males projected to 1960.

ii. Beneficiaries - the 1951 Group Annuity Mortality Table for females projected to 1960.

c. Mortality for police and fire participants:

i. Participants - the mortality factors adopted by the employee benefit board for this purpose.

ii. Beneficiaries - the 1951 Group Annuity Mortality Table for females projected to 1960.

d. Mortality for early retirement:

i. General government participants - the mortality factors adopted by the employee benefit board for this purpose.

ii. Police and fire participants - the mortality factors adopted by the employee benefit board for this purpose. (Ord. 2002-1060 § 1 (part), 2002)

3.30.050 Minimum distributions.

A. General Rules.

1. Precedence and Effective Date. Subject to the optional form of benefits permitted under the terms of the plan, the requirements of this Section 3.30.050 shall apply to any distribution of a member's interest and will take precedence over any inconsistent provisions of this plan. Unless otherwise specified, the provisions of this Section 3.30.050 apply to calendar years beginning after December 31, 2002.

2. Requirements of Regulations Incorporated. All distributions required under this Section 3.30.050 shall be determined and made in accordance with Code Section 401(a)(9), including the incidental death benefit requirement in Code Section 401(a)(9)(G), and the Regulations thereunder.

3. Limits on Distribution Periods. As of the first distribution calendar year, distributions to a member, if not made in a single sum, may only be made over one of the following periods:

a. The life of the member,

b. The joint lives of the member and a designated beneficiary,

c. A period certain not extending beyond the life expectancy of the member, or

d. A period certain not extending beyond the joint life and last survivor expectancy of the member and a designated beneficiary.

4. Grandfather Benefits. In the case of an annuity distribution option provided under the optional forms of this plan as in effect on April 17, 2002, the plan will not fail to satisfy the requirements of Section 401(a)(9) of the Code merely because the annuity payments do not satisfy the requirements of this section.

5. Nongrandfathered Benefits. For calendar years 2003, 2004 and 2005, the reasonable and good faith standard extends to the end of the calendar year that contains the 90th day after the opening of the first legislative session of the legislative body with the authority to amend the plan that begins on or after June 15, 2004, if such 90th day is later than December 31, 2005.

B. Time and Manner of Distribution.

1. Required Beginning Date. The member's entire interest will be distributed, or begin to be distributed, no later than the member's required beginning date as referenced in Section 3.30.050(H)(6) hereof.

2. Death of Member Before Distributions Begin. If the member dies before distributions begin, the member's entire interest will be distributed, or begin to be distributed, no later than as follows:

a. If the member's surviving spouse is the member's sole designated beneficiary, then distributions to the surviving spouse will begin by December 31 of the calendar year immediately following the calendar year in which the member died, or by December 31 of the calendar year in which the member would have attained age seventy and one-half, if later.

b. If the member's surviving spouse is not the member's sole designated beneficiary, then, unless an election to the contrary is made pursuant to this subsec-

tion (b), distributions to the designated beneficiary will begin by December 31 of the calendar year containing the fifth anniversary of the member's death. The foregoing will apply to all distributions other than distributions to a surviving spouse.

Notwithstanding the preceding paragraph, a member or designated beneficiary may elect to have distributions to the designated beneficiary begin by December 31 of the calendar year immediately following the calendar year in which the member died. Such election must be made no later than the earlier of September 30 of the calendar year in which distributions would be required to begin under Section 3.30.050(B)(2) hereof, or by September 30 of the calendar year which contains the fifth anniversary of the member's (or, if applicable, surviving spouse's) death. If neither the member nor beneficiary makes such an election, distributions will be made in accordance with the first paragraph of this subsection (b).

c. If there is no designated beneficiary as of September 30 of the year following the year of the member's death, the member's entire interest will be distributed by December 31 of the calendar year containing the fifth anniversary of the member's death.

d. If the member's surviving spouse is the member's sole designated beneficiary and the surviving spouse dies after the member but before distributions to the surviving spouse are required to begin, this subsection (B)(2), other than subparagraph (a), will apply as if the surviving spouse were the member.

For purposes of this subsection (B)(2) and Section 3.30.050(E), unless Section 3.30.050(B)(2)(d) applies, distributions are considered to begin on the member's required beginning date. If Section 3.30.050(B)(2)(d) applies, distributions are considered to begin on the date distributions are required to begin to the surviving spouse under Section 3.30.050(B)(2)(a). If distributions under an annuity meeting the requirements of this Section 3.30.050 commence to the member before the member's required beginning date (or to the member's surviving spouse before the date distributions are required to begin to the surviving spouse under Section 3.30.050(b)(2)(A)), the date distributions are considered to begin is the date distributions actually commence.

3. Forms of Distribution. Unless the member's interest is distributed in the form of an annuity purchased from an insurance company or in a single sum on or before the required beginning date, as of the first distribution calendar year distributions will be made in accordance with subsections (C), (D) and (E) of this Section 3.30.050. If the member's interest is distributed in the form of an annuity purchased from an insurance company, distributions thereunder will be made in accordance with the requirements of Code Section 401(a)(9) and Section 1.401(a)(9) of the Regulations. Any part of the member's interest which is in the form of an individual account described in Code Section 414(k) will be distributed in a manner satisfying the requirements of Code Section 401(a)(9) and Section 1.401(a)(9) of the Regulations that apply to individual accounts.

C. Determination of Amount to be Distributed Each Year.

1. General Annuity Requirements. If the member's interest is to be paid in the form of annuity distributions under the plan, payments under the annuity shall satisfy the following requirements:

a. The annuity distributions will be paid in periodic payments made at uniform intervals not longer than one year;

b. The distribution period will be over a life (or lives) or over a period certain not longer than the period described in Sections 3.30.050(D) or (E) hereof;

c. Once payments have begun over a period, the period will be changed only in accordance with Section 3.30.050(F) hereof;

d. Payments will either be nonincreasing or increase only as follows:

i. By an annual percentage increase that does not exceed the percentage increase in an eligible cost-of-living index for a twelve-month period ending in the year during which the increase occurs or a prior year;

ii. By a percentage increase that occurs at specified times and does not exceed the cumulative total of annual percentage increases in an eligible cost-of-living index since the annuity starting date, or if later, the date of the most recent percentage increase;

iii. By a constant percentage of less than five percent per year, applied not less frequently than annually;

iv. As a result of dividend or other payments that result from actuarial gains, provided:

(a) Actuarial gain is measured not less frequently than annually,

(b) The resulting dividend or other payments are either paid no later than the year following the year for which the actuarial experience is measured or paid in the same form as the payment of the annuity over the remaining period of the annuity (beginning no later than the year following the year for which the actuarial experience is measured),

(c) The actuarial gain taken into account is limited to actuarial gain from investment experience,

(d) The assumed interest rate used to calculate such actuarial gains is not less than three percent, and

(e) The annuity payments are not increased by a constant percentage as described in Section 3.30.050(C)(1)(d)iii hereof;

v. To the extent of the reduction in the amount of the member's payments to provide for a survivor benefit, but only if there is no longer a survivor benefit because the beneficiary whose life was being used to determine the distribution period described in subsection (D) below dies or is no longer the member's beneficiary pursuant to a qualified domestic relations order within the meaning of Code Section 414(p);

vi. To provide a final payment upon the member's death not greater than the excess of the actuarial present value of the member's accrued benefit (within the meaning of Code Section 411(a)(7)) calculated as of the annuity starting date using the applicable interest rate and mortality table defined in Section 1.2 of the plan (or, if greater, the total amount of employee contributions, if any) over the total of payments before the member's death;

vii. To allow a beneficiary to convert the survivor portion of a joint and survivor annuity into a single sum distribution upon the member's death; or

viii. To pay increased benefits that result from a plan amendment.

2. Amount Required to be Distributed by Required Beginning Date and Later Payment Intervals. The amount that must be distributed on or before the member's required beginning date (or, if the member dies before distributions begin, the date distributions are required to begin under Section 3.30.050(B)(2)(a) or (b) hereof) is the payment that is required for one payment interval. The second payment need not be made until the end of the next payment interval even if that payment interval ends in the next calendar year. All of the member's benefit accruals as of the last day of the first distribution calendar year will be included in the calculation of the amount of the annuity payments for payment intervals ending on or after the member's required beginning date.

3. Additional Accruals After First Distribution Calendar Year. Any additional benefits accruing to the member in a calendar year after the first distribution calendar year will be distributed beginning with the first payment interval ending in the calendar year immediately following the calendar year in which such benefit accrues.

D. Requirements For Annuity Distributions That Commence During Member's Lifetime.

1. Joint Life Annuities Where the Beneficiary Is Not the Member's Spouse. If the member's interest is being distributed in the form of a joint and survivor annuity for the joint lives of the member and a nonspouse beneficiary, annuity payments to be made on or after the member's required beginning date to the designated beneficiary after the member's death must not at any time exceed the applicable percentage of the annuity payment for such period that would have been payable to the member, using the table set forth in Section 1.401(a)(9)-6, Q&A2(c)(2), in the manner described in Q&A 2(c)(1), of the Regulations, to determine the applicable percentage. If the form of distribution combines a joint and survivor annuity for the joint lives of the member and a nonspouse beneficiary and a period certain annuity, the requirement in the preceding sentence will apply to annuity payments to be made to the designated beneficiary after the expiration of the period certain.

2. Period Certain Annuities. Unless the member's spouse is the sole designated beneficiary and the form of distribution is a period certain and no life annuity, the period certain for an annuity distribution commencing during the member's lifetime may not exceed the applicable distribution period for the member under the Uniform Lifetime Table set forth in Section 1.401(a)(9)-9, Q&A-2, of the Regulations for the calendar year that contains the annuity starting date. If the annuity starting date precedes the year in which the member reaches age seventy, the applicable distribution period for the member is the distribution period for age seventy under the Uniform Lifetime Table set forth in Section 1.401(a)(9)-9, Q&A-2, of the Regulations plus the excess of seventy over the age of the member as of the member's birthday in the year that contains the annuity starting date. If the member's spouse is the member's sole designated beneficiary and the form of distribution is a period certain and no life annuity, the period certain may not exceed the longer of the member's applicable distribution period, as determined under this subsection (d)(2), or the joint life and last survivor expectancy of the member and the member's spouse as determined under the Joint and Last Survivor Table set forth in Section 1.401(a)(9)-9, Q&A-3, of the Regulations, using the member's and spouse's attained ages as of the member's and spouse's birthdays in the calendar year that contains the annuity starting date.

E. Requirements For Minimum Distributions After the Member's Death.

1. Death After Distributions Begin. If the member dies after distribution of his or her interest begins in the form of an annuity meeting the requirements of this Section 3.30.050, the remaining portion of the member's interest will continue to be distributed over the remaining period over which distributions commenced.

2. Death Before Distributions Begin.

a. Member Survived by Designated Beneficiary. Subject to subsection (1) below, if the member dies before distributions of his or her interest begins and there is a designated beneficiary, then the member's entire interest will be distributed to the designated beneficiary by December 31 of the calendar year containing the fifth

anniversary of the member's death. The foregoing will apply to all distributions other than distributions to a surviving spouse.

Notwithstanding the preceding paragraph, a member or designated beneficiary may elect to have the member's entire interest distributed, beginning no later than the time described in Section 3.30.050(B)(2)(a) or (b), over the life of the designated beneficiary or over a period certain not exceeding:

i. Unless the annuity starting date is before the first distribution calendar year, the life expectancy of the designated beneficiary determined using the beneficiary's age as of the beneficiary's birthday in the calendar year immediately following the calendar year of the member's death; or

ii. If the annuity starting date is before the first distribution calendar year, the life expectancy of the designated beneficiary determined using the beneficiary's age as of the beneficiary's birthday in the calendar year that contains the annuity starting date.

The foregoing election must be made no later than the earlier of September 30 of the calendar year in which distributions would be required to begin under Section 3.30.050(B)(2) hereof, or by September 30 of the calendar year which contains the fifth anniversary of the member's (or, if applicable, surviving spouse's) death. If neither the member nor beneficiary makes such an election, distributions will be made in accordance with the first paragraph of this subsection (A).

b. No Designated Beneficiary. If the member dies before the date distributions begin and there is no designated beneficiary as of September 30 of the year following the year of the member's death, distribution of the member's entire interest will be completed by December 31 of the calendar year containing the fifth anniversary of the member's death.

c. Death of Surviving Spouse Before Distributions to Surviving Spouse Begin. If the member dies before the date distribution of his or her interest begins, the member's surviving spouse is the member's sole designated beneficiary, and the surviving spouse dies before distributions to the surviving spouse begin, this Section 3.30.050(E) will apply as if the surviving spouse were the member, except that the time by which distributions must begin will be determined without regard to Section 3.30.050(B)(2)(a).

F. Changes to Annuity Payment Period.

1. Permitted Changes. An annuity payment period may be changed only in association with an annuity payment increase described in Section 3.30.050(C)(1)(d) hereof or in accordance with Section 3.30.050(F)(2) hereof.

2. Reannuitization. An annuity payment period may be changed and the annuity payments modified in accordance with that change if the conditions in subsection (3) below are satisfied and:

a. The modification occurs when the member retires or in connection with a plan termination;

b. The payment period prior to modification is a period certain without life contingencies; or

c. The annuity payments after modification are paid under a qualified joint and survivor annuity over the joint lives of the member and a designated beneficiary, the member's spouse is the sole designated beneficiary, and the modification occurs in connection with the member's becoming married to such spouse.

3. Conditions. The conditions in this subsection (3) are satisfied if:

a. The future payments after the modification satisfy the requirements of Code Section 401(a)(9), Section 1.401(a)(9) of the Regulations, and this Section 3.30.050 (determined by treating the date of the change as a new annuity starting date and the actuarial present value of the remaining payments prior to modification as the entire interest of the member);

b. For purposes of Code Sections 415 and 417, the modification is treated as a new annuity starting date;

c. After taking into account the modification, the annuity (including all past and future payments) satisfies the requirements of Code Section 415 (determined at the original annuity starting date, using the interest rates and mortality tables applicable to such date); and

d. The end point of the period certain, if any, for any modified payment period is not later than the end point available to the employee at the original annuity starting date under Code Section 401(a)(9) and this Section 3.30.050.

G. Payments to a Surviving Child.

1. Special rule. For purposes of this Section 3.30.050, payments made to a member's surviving child until the child reaches the age of majority (or dies, if earlier) shall be treated as if such payments were made to the surviving spouse to the extent the payments become payable to the surviving spouse upon cessation of the payments to the child.

2. Age of majority. For purposes of this subsection (g), a child shall be treated as having not reached the age of majority if the child has not completed a specified course of education and is under the age of twenty-six. In addition, a child who is disabled within the meaning of § 72(m)(7) when the child reaches the age of majority shall be treated as having not reached the age of majority so long as the child continues to be disabled.

H. Definitions. The following terms used in this Section 3.30.050 shall have the meaning ascribed below:

1. Actuarial gain. The difference between an amount determined using the actuarial assumptions (i.e., investment return, mortality, expense, and other similar assumptions) used to calculate the initial payments before adjustment for any increases and the amount determined under the actual experience with respect to those factors. Actuarial gain also includes differences between the amount determined using actuarial assumptions when an annuity was purchased or commenced and such amount determined using actuarial assumptions used in calculating payments at the time the actuarial gain is determined.

2. Designated beneficiary. The individual who is designated by the member (or the member's surviving spouse) as the beneficiary of the member's interest under the plan and who is the designated beneficiary under Code Section 401 (a)(9) of the Code and Section 1.401(a)(9)-4 of the Regulations.

3. Distribution calendar year. A calendar year for which a minimum distribution is required. For distributions beginning before the member's death, the first distribution calendar year is the calendar year immediately preceding the calendar year which contains the member's Required Beginning Date. For distributions beginning after the member's death, the first distribution calendar year is the calendar year in which distributions are required to begin pursuant to Section 3.30.050(B)(2) hereof.

4. Eligible cost-of-living index. An index described in paragraphs (b)(2), (b)(3) or (b)(4) of Section 1.401(a)(9)-6, Q&A-14, of the Regulations.

5. Life expectancy. Life expectancy as computed by use of the Single Life Table in Section 1.401(a)(9)-9, Q&A-1, of the Regulations.

6. Required beginning date.

a. The required beginning date of a member is April 1 of the calendar year following the later of the calendar year in which the member attains age seventy and one-half or the calendar year in which the member retires.

b. Any member attaining age seventy and one-half in years after 1995 but before 2002 may elect by April 1 of the calendar year following the calendar year in which the member attains age seventy and one-half, (or by December 31, 1997 in the case of a member attaining age seventy and one-half in 1996) to defer distributions until April 1 of the calendar year following the calendar year in which the member retires. If no such election is made the member will begin receiving distributions by April 1 of the calendar year following the year in which the member attained age seventy and one-half.

I. TEFRA § 242(b)(2) Elections.

1. Notwithstanding the other requirements of this Section 3.30.050 and subject to the requirements of the optional forms of benefits permitted under the terms of the plan hereof, distribution on behalf of any employee who has made a designation under Section 242(b)(2) of the Tax Equity and Fiscal Responsibility Act (a "Section 242(b)(2) election") may be made in accordance with all of the following requirements (regardless of when such distribution commences):

a. The distribution by the plan is one which would not have disqualified such plan under Code Section 401(a)(9) as in effect prior to amendment by the Deficit Reduction Act of 1984.

b. The distribution is in accordance with a method of distribution designated by the employee whose interest in the plan is being distributed or, if the employee is deceased, by a beneficiary of such employee.

c. Such designation was in writing, was signed by the employee or the beneficiary, and was made before January 1, 1984.

d. The employee had accrued a benefit under the plan as of December 31, 1983.

e. The method of distribution designated by the employee or the beneficiary specifies the time at which distribution will commence, the period over which distributions will be made, and in the case of any distribution upon the employee's death, the beneficiaries of the employee listed in order of priority.

2. A distribution upon death will not be covered by this transitional rule unless the information in the designation contains the required information described above with respect to the distributions to be made upon the death of the employee.

3. For any distribution which commences before January 1, 1984, but continues after December 31, 1983, the employee, or the beneficiary, to whom such distribution is being made, will be presumed to have designated the method of distribution under which the distribution is being made if the method of distribution was specified in writing and the distribution satisfies the requirements in subsections (1)(a) and (e) above.

4. If a designation is revoked any subsequent distribution must satisfy the requirements of Code Section 401(a)(9) and the Regulations thereunder. If a designation is revoked subsequent to the date distributions are required to begin, the plan must distribute by the end of the calendar year following the calendar year in which the revocation occurs the total amount not yet distributed which would have been required to have been distributed to satisfy Code Section 401(a)(9) and the Regulations thereunder, but for the Section 242(b)(2) election. For calendar years beginning after December 31, 1988, such

distributions must meet the minimum distribution incidental benefit requirements. Any changes in the designation will be considered to be a revocation of the designation. However, the mere substitution or addition of another beneficiary (one not named in the designation) under the designation will not be considered to be a revocation of the designation, so long as such substitution or addition does not alter the period over which distributions are to be made under the designation, directly or indirectly (for example, by altering the relevant measuring life).

5. In the case in which an amount is transferred or rolled over from one plan to another plan, the rules in Section 1.401(a)(9)-8, Q&A-14 and Q&A-15 of the Regulations shall apply. (Ord. BL2015-1007 § 3, 2015; Ord. 2002-1060 § 1 (part), 2002)

3.30.060 Right to direct rollover.

A. This section applies to distributions made on or after January 1, 2002. Notwithstanding any provision of the plan to the contrary that would otherwise limit a distributee's election under this section, a distributee may elect, at the time and in the manner prescribed by the employee benefit board, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover.

B. Definitions.

1. Eligible rollover distribution: An eligible rollover distribution is any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include: any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the distributee or the joint lives (or joint life expectancies) of the distributee and the distributee's designated beneficiary, or for a specified period of ten years or more; any distribution to the extent such distribution is required under Section 401(a)(9) of the Code; and the portion of any distribution that is not includible in gross income (determined without regard to the exclusion for net unrealized appreciation with respect to employer securities), any hardship distribution (if allowed under the plan), and any other distribution that is reasonably expected to total less than two hundred dollars during a year.

A portion of a distribution shall not fail to be an "eligible rollover distribution" merely because the portion consists of after-tax employee contributions which are not includible in gross income. However, such portion may be transferred only to an individual retirement account or annuity described in Code Section 408(a) or (b), or to a qualified defined contribution plan described in Code Section 401(a) or 403(a) that agrees to separately account for amounts so transferred, including separately accounting for the portion of such distribution which is includible in gross income and the portion of such distribution which is not so includible.

2. Eligible retirement plan: An eligible retirement plan is an individual retirement account described in Code Section 408(a), an individual retirement annuity described in Code Section 408(b), an annuity plan described in Code Section 403(a), or a qualified trust described in Code Section 401(a), that accepts the distributee's eligible rollover distribution. An eligible retirement plan shall also mean an annuity contract described in Code Section 403(b) and an eligible plan under Code Section 457(b) which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state and which agrees to separately account for amounts transferred into such plan from this plan. The definition of eligible retirement plan shall also apply in the case of a distribution to a surviving spouse, or to a spouse or former spouse who is the alternate payee under a qualified domestic relations order, as defined in Code Section 414(p).

3. Distributee: A distributee includes an employee or former employee. In addition, the employee's or former employee's surviving spouse and the employee's or former employee's spouse or former spouse who is the alternate payee under a qualified domestic relations order, as defined in Section 414(p) of the Code, are distributees with regard to the interest of the spouse or former spouse.

A distributee also includes the participant's nonspouse beneficiary. However, in the case of a nonspouse beneficiary, the rollover must be a direct rollover and must be made to an individual retirement account or annuity describe in Code Section 408(a) or 408(b) ("IRA") that is established on behalf of the beneficiary and will be treated as an inherited IRA pursuant to Code Section 402(c)(ii). Also, in the case of a nonspouse beneficiary, the determination of any required minimum distribution under Code Section 401(a)(9) that is ineligible for rollover shall be made in accordance with IRS Notice 2007-7, Q&A 17 and 18.

4. Direct rollover: A direct rollover is a payment by the plan to the eligible retirement plan specified by the distributee. (Ord. BL2015-1007 § 4, 2015; Ord. 2002-1060 § 1 (part), 2002)

3.30.070 Qualified military service.

The following sentence shall apply as to affected members who are reemployed on or after December 12, 1994. Notwithstanding any provision of this plan to the

contrary, contributions, benefits and service credit with respect to qualified military service will be provided in accordance with Code Section 414(u). (Ord. 2002-1060 § 1 (part), 2002)

3.30.080 Family Medical Leave Act requirements.

Notwithstanding any other provisions of the plan, in the case of an eligible employee who takes family or medical leave as an eligible employee of a covered employer under the provisions of the Family and Medical Leave Act of 1993 (FMLA), any period of FMLA leave shall be treated as continued service for purposes of eligibility to participate and vesting service to the extent required by applicable law. (Ord. 2002-1060 § 1 (part), 2002)

3.30.090 Vesting upon plan termination.

In the event that this plan is terminated for any reason the accrued benefits of all members shall fully vest and become nonforfeitable. (Ord. 2002-1060 § 1 (part), 2002)

3.30.100 Plan forfeitures.

Any plan forfeitures occurring as a result of a member terminating employment with the Metropolitan Government of Nashville and Davidson County, Tennessee prior to completing five years of service shall not be used to increase benefits of remaining plan members. (Ord. 2002-1060 § 1 (part), 2002)

3.30.110 Definitions.

A. "Code" means the U.S. Internal Revenue Code as amended. All references to code sections shall include any applicable rulings and regulations, and as of any future date shall automatically incorporate any amendments to such sections, and shall be deemed to refer to any comparable provisions of any future laws.

B. "Plan" means the pensions for members with credited employee service and pensions for members with credited fire and police service as specified in the Metropolitan Code.

C. "Plan year" means each twelve month period commencing July 1 and ending on the next June 30.

D. "Spouse" means the person who is legally married to a member.

E. "Vesting service" means the service of a member as defined in Section 3.08.010 of the plan. (Ord. 2002-1060 § 1 (part), 2002)

3.30.120 Prohibition against diversion of trust funds.

The metropolitan government has no beneficial interest in the trust fund, and no part of the trust fund shall ever revert or be repaid to the metropolitan government, directly or indirectly, except:

A. Upon initial non-qualification pursuant to Chapter 3.30 hereof;

B. In the event that the metropolitan government contribution is made by mistake of fact, in which case the amount of such mistaken contribution shall be returned to the metropolitan government provided no more than one year has elapsed since the date of payment by the metropolitan government of the mistaken contribution; or,

C. In the event of termination of the plan with residual assets as described Section 3.08.210 or 3.08.220 hereof, if, and to the extent, permitted by the Internal Revenue Code and applicable regulations thereunder. (Ord. BL2015-1007 § 5, 2015; Ord. BL2003-35 § 1, 2003)

3.30.130 Reserved.

Editor's note—Ord. BL2015-100,7 § 6, passed February 24, 2015, repealed § 3.30.130, which pertained to applicable mortality table under Rev. Rul. 2001-62 and derived from Ord. BL2003-35 § 2, 2003.

3.40.050	**Minimum service pension benefit.**

3.40.010 Pension contributions—Refund—Revocation of withdrawal—Repayment after reemployment.

A. If upon a member's termination no benefit is payable under any section of Chapter 3.32, 3.33, 3.36 or 3.37, or, if a benefit is payable under any section of Chapter 3.32, 3.33, 3.36 or 3.37, but payments have not commenced, a refund of a member's contributions may be elected by the member or beneficiary, as the case may be, in lieu of all benefits which may otherwise become payable, such refund to be reduced by the amount of any benefits which have been previously applied for and paid from the fund. The amount of any such refund if the date of such termination is prior to the member's attainment of age sixty, shall exclude his prior employee contributions to a former plan which shall be forfeited, but the amount of any refund if the date of such termination is after his attainment of age sixty shall include his prior employee contributions to a former plan in addition to his pension contributions credited to his individual account. Notwithstanding any provisions of the system to the contrary, in no case shall any refund be payable if any benefit payment or any option-al benefit under the system has commenced to be paid.

B. Any officer and/or employee who, between January 1, 1972, and December 5, 1972, elected to withdraw his pension contributions may revoke such election; provided, however, that such revocation must be in writing and delivered to the board within one month after the passage of Bill No. 73-588. The revocation must be accompanied by payment of the amount withdrawn as well as those amounts which would have been paid by the officer and/or employee had he remained in the pension plan, plus interest at the rate of six percent per annum on the total amount payable, to be computed from the date of payment of the contributions to the officer and/or employee.

C. If a member's service with Metro, or a predecessor government, terminates and the member is subsequently rehired, the member shall receive service credit for his prior period of service after being regularly employed continuously for one year. This subsection shall apply to all members who are metropolitan employees on or after October 1, 2001, regardless of the date of termination or rehire. Members who are not metropolitan employees on or after October 1, 2001 shall only receive prior service credit if application for such credit was properly made under prior ordinances.

A member who received a refund of his contributions upon his termination, and who otherwise meets the requirements of this section, shall repay such contributions to the system with interest at six percent per annum of such refund computed from the day of payment of such refund to the member. Upon repayment of refund and interest the member shall receive credit for service as provided in Section 3.08.010 for service prior to his termination, but not including the time he was not employed by the metropolitan government. If only a portion of the refunded amount is repaid by the member, the member shall only receive pro rata credit, for his prior service with the refunded amount, plus interest, being credited towards the oldest period of service.

Any provision to the contrary notwithstanding, any employee whose service was terminated and was subsequently rehired prior to September 1, 1996 shall be permitted to make application to the board and receive service credit for their prior period of service, provided such application is made to the board not later than December 31, 2001. (Ord. 2001-775 § 6; Ord. BL2000-561 § 1, 2000; Ord. 95-1452 §§ 54, 55, 1995; amended during 10/94 supplement; prior code § 32-1-57)

3.40.020 Optional benefits—Conditions for payment.

A. A member who is entitled to receive a pension in accordance with either Chapter 3.32, 3.33, 3.36 or 3.37 may elect at any time prior to approval of the application by the board to have an optional benefit payable as set forth in Section 3.40.030 in lieu of all benefits he may otherwise be entitled to receive. If a member applies for

a service pension without electing an optional benefit, the board office shall notify the spouse of the member that an option is available, the amount of the option, and request an acknowledgment from the spouse that an option is available but not being elected. Those persons that are on disability pensions as provided under Chapter 3.28 or 3.29 must make their election prior to the time that their service pension becomes effective. The optional benefit shall be paid in accordance with the terms of the optional benefit elected. A member may revoke his election of an optional benefit and may make a new election at any time prior to the approval of the application by the board; provided, that if he or his beneficiary dies prior to the commencement of benefits, his election of an optional benefit shall be null and void.

B. Election of any optional benefit shall be subject to the approval of the board and shall be made by the member in writing and in such manner and form as the board may prescribe. The beneficiary last designated by the member prior to the date he delivers written application for an optional benefit to the board shall be the beneficiary to receive any benefits payable after his death; provided, that the beneficiary to receive any optional benefit in accordance with either Option A or Option B described in Section 3.40.030 must be a living person and cannot be his estate. (Ord. 95-1452 §§ 56, 57, 1995; Ord. 92-159 §§ 23, 24, 1992; prior code § 32-1-58)

3.40.030 Optional benefits—Defined.

A. The amount of any optional benefit set forth in this section shall be based on option rates adopted from time to time by the retirement board, and shall be actuarially equivalent in value to the benefits that would otherwise be payable to a retired member if no option were to have been elected; provided, that an optional benefit in lieu of any pension which commences after an employee's sixty-fifth birthday shall not be less than is based on the option rate that would have been applicable had he retired at age sixty-five.

B. The optional benefits are as follows:

1. Option A—Joint and Survivor Option. An amount of optional benefit payable to the retired member for life, which shall continue after his death to his surviving beneficiary for life in the same amount as that payable to the retired member.

2. Option B—Modified Joint and Survivor Option. An amount of optional benefit payable to the retired member for life, which shall continue after his death to his surviving beneficiary for life in the amount of fifty percent of the amount that was payable to the retired member.

3. Option C—Social Security Option. An increased amount of optional benefit, payable to the retired member during his lifetime until an age between age sixty-two and age sixty-five, and a reduced optional benefit payable thereafter for life in order to have a more level retirement income when such reduced optional benefit is added to his primary social security. This optional benefit shall be based on a computed amount of primary social security, determined by the board in accordance with the Act as it exists on the date his optional benefit is to commence.

4. Option D—One Hundred Twenty Payments Certain and Life Option. An optional benefit payable for life with the first one hundred twenty payments guaranteed. Any guaranteed payments due after the death of the retired member shall be payable to his beneficiary.

5. Option E—A Joint and Survivor Option with a Pop-Up Feature. An amount of optional benefit payable to the retired member for life, which shall continue after the retired member's death to his surviving beneficiary for life in the same amount payable to the retired member; provided, however, that if the surviving beneficiary for life predeceases the retired member, the amount of the benefit paid to the retired member shall be adjusted to the retired member's normal retirement benefit.

6. Option F—Modified Joint and Survivor Option with a Pop-Up Feature. An amount of optional benefit payable to the retired member for life, which shall continue after his death to his surviving beneficiary for life in the amount of fifty percent of the amount that was payable to the retired member; provided, however, that if the surviving beneficiary for life predeceases the retired member, the amount of the benefit paid to the retired member shall be adjusted to the retired member's normal retirement benefit.

C. Under any option elected which provides for payments after the death of a retired member to a beneficiary, except under Options A and B if the retired member's spouse is the beneficiary, the actuarial present value of payments to the retired member must be more than fifty percent of the actuarial present value of payments to the retired member and the beneficiary. (Ord. 92-159 § 25, 1992; prior code § 32-1-59)

3.40.035 Deferred Retirement Option Plan for members of Division A and B ("DROP").

A. Eligible members shall be entitled to elect a deferred retirement option plan ("DROP") as an additional optional benefit. Members electing a DROP benefit shall be entitled to receive a lump sum payment equal

to the monthly benefit amount the member would be eligible to receive at retirement (calculated prior to any actuarial reductions for other retirement options elected) multiplied by the number of months in the DROP period elected. Members may elect a one, two or three year DROP period. A member electing a DROP benefit shall then have his monthly periodic pension benefit determined by reducing the pension benefit that would otherwise be payable by an annuity that is the actuarial equivalent of the DROP lump sum elected. The monthly periodic pension payments (after actuarial equivalent reduction) shall be payable as pension benefits are otherwise payable under the system, including optional benefit elections pursuant to Sections 3.40.020 and 3.40.030 of this chapter.

B. Only a member of Division A or B that is eligible for normal retirement under Sections 3.32.020, 3.33.020, 3.36.020 and 3.37.020 and has accumulated twenty-five or more years of combined credited employee service and/or credited fire and police service shall be eligible to participate in the DROP. Early retirees and employees who terminate with a vested benefit prior to eligibility to immediately receive a normal retirement benefit shall not be eligible to make a DROP election. DROP elections shall be made for whole year periods only and may not be made for a period that exceeds three years. The election shall be made at the time of retirement and prior to commencement of benefits.

C. A DROP election shall not be available to a member whose termination of service occurs because of disability.

D. A DROP election shall not be available to the beneficiary of a member who has separated from service as a result of death.

E. A DROP election shall not be available to any former employee who has commenced receiving benefits from the plan prior to the effective date of the ordinance codified in this section.

F. The DROP payment elected shall be paid as soon as practicable after the retirement of the member. Election of a DROP payment shall be subject to the approval of the board and shall be made by the member in writing and in such manner and form as the board may prescribe.

G. Actuarial equivalence for the purpose of determining a member's annuity reduction resulting from a DROP election shall be based upon the age of the member, the DROP lump sum payment amount elected, and the actuarial assumptions that are in use for this purpose by the plan at the time of the DROP election. The actuarial assumptions to be used on the effective date of this section shall be based on recommendations of the first plan experience study conducted after June 30, 1997 without regard to actual adoption by the board.

Actuarial assumptions used in the preceding section for the purpose of determining actuarial equivalence between lump sum payments and related annuity reductions may be changed periodically to ensure currency. Assumptions include mortality tables; interest rates and future cost of living increase rates. The actuarial assumptions will be based on recommendations from the most recent actuarial experience study conducted for the plan without regard to actual adoption by the board. Revised assumptions used in periods subsequent to the implementation of the initial assumptions used on the effective date will be effective as of the first July 1 date following the later of (1) the ending date of the period examined in the most recent experience study, or (2) the date the most recent experience study is formally presented to the board.

Actuarial assumptions may differ for Divisions A and B due to differences in future expectations.

Provided however that the interest rate used for the purpose of determining actuarial equivalence between lump sum payments and related annuity reductions will be no less than interest rate specified by Internal Revenue Code Section 417(e)(3)(A)(ii)(II) for the measurement date that is four months prior to the first day of the plan year in which the benefit commencement date occurs.

H. Payments made to a member as a result of a DROP election shall be treated as a refund of member contributions for purposes of determining benefits payable to a beneficiary as a result of the death of the member.

I. Any other provisions of this title notwithstanding, no member shall acquire a vested right to a DROP benefit until such member's application for a DROP benefit is approved by the board. DROP benefits may be discontinued or modified as to any member until such member's application is approved by the board.

J. A member may not elect a DROP payment period that results in a lump sum payment that exceeds the actuarially equivalent value of the member's retirement benefit.

K. No member shall be permitted to apply for or receive a DROP benefit until and unless the employee benefit board adopts a resolution certifying that the necessary infrastructure and resources are in place to adequately administer the DROP benefit. (Ord. 2002-1234 § 1 (part), 2002)

3.40.040 Death before retirement benefits commence—Division A.

The provisions of this section shall apply only to those members who are covered under Division A of the system.

If the death of a member occurs while he is an eligible employee and after becoming eligible to retire and receive a benefit in accordance with Sections 3.32.020 through 3.32.040 or 3.36.020 through 3.36.040, or if the death of a member occurs after his termination but before any benefit under either Sections 3.32.020 through 3.32.040 or 3.36.020 through 3.36.040 has commenced to be paid, his surviving spouse shall be eligible to receive a benefit determined in accordance with the applicable option the member had elected prior to his termination, but if no option had been so elected, the benefit shall be determined in accordance with Option A as though the member had retired in the month prior to the month of his death and had elected Option A. (Ord. 95-1452 § 58, 1995; prior code § 32-1-60)

3.40.041 Death before retirement benefits commence—Division B.

The provisions of this section shall apply only to those members who are covered under Division B of the system.

If the death of a member occurs while he is an eligible employee and after becoming eligible to retire and receive a benefit in accordance with Sections 3.33.020 through 3.33.040 or 3.37.020 through 3.37.040, or if the death of a member occurs after his termination but before any benefit under either Sections 3.33.020 through 3.33.040 or 3.37.020 through 3.37.040 has commenced to be paid, his surviving spouse shall be eligible to receive a benefit determined in accordance with the applicable option the member had elected prior to his termination, but if no option had been so elected, the benefit shall be determined in accordance with Option A as though the member had retired in the month prior to the month of his death and had elected Option A.

In no case, however, will an eligible employee's death benefit be less than twenty-five percent of his average earnings over the last twelve months preceding his death or Option A — whichever is greater. (Ord. 95-1452 § 59, 1995)

3.40.045 Death before retirement benefits commence—Dependent child benefit.

If a member who is vested in the pension system dies leaving no surviving spouse and no benefit is payable under any other provision of this code and the member is survived by one or more dependent children, a benefit under this section shall be payable for the benefit of the member's dependent child or children. Any benefit due under this section shall be distributed per capita among the surviving dependent children so that each shall share equally in the benefits so long as he remains a dependent child.

The amount of the benefit due under this section shall be the amount a surviving spouse the same age as the member would have received, determined in accordance with Option A, as though the member had retired in the month prior to the month of his death or twenty-five percent of the member's average earnings over the last twelve months preceding his death - whichever is greater. (Ord. 2001-775 § 7, 2001)

If the amount of a benefit provided under any section other than Section 3.32.020, 3.33.020, 3.36.020 or 3.37.020 is arrived at by first calculating a normal retirement benefit under Section 3.32.020, 3.33.020, 3.36.020 or 3.37.020, the calculation under Section 3.32.020, 3.33.020, 3.36.020 or 3.37.020 shall take the minimum service pension benefit into account, but the amount of the benefit payable under such other section shall not otherwise be affected by the existence of the minimum service pension benefit. If the amount of a benefit is calculated without reference to the amount of the normal retirement benefit payable under Section 3.32.020, 3.33.020, 3.36.020 or 3.37.020, then the amount of such benefit shall not be affected by the existence of the minimum service pension benefit.

A nonmember shall have until seventy-five days following the effective date to enroll for medical care or life insurance benefits or both in accordance with this chapter, in which case his medical care coverage shall commence on the effective date and his life insurance shall commence on the date he enrolls. A nonmember who does not so enroll for such medical care or life insurance benefits or both on or before seventy-five days following the effective date shall not be eligible thereafter to enroll for benefits pursuant to this chapter; except, that an elected official who is not a metropolitan employee shall be eligible to be covered, from the date he takes office, for benefits provided in this chapter, provided he enrolls within thirty days of the date he takes office; otherwise, he shall not be eligible to enroll for benefits pursuant to this chapter. B. Notwithstanding the provisions of subsection A of this section, as of March 1, 1966, and thereafter during his employment by the metropolitan government, each nonmember, as defined by subsection B of Section 3.44.010, who has enrolled for medical care and/or life insurance benefits in accordance with this chapter shall be entitled to the same rights to contribute to the payment for medical care and life insurance benefits as members have, and shall be entitled to have the metropolitan government contribute to the payment for his medical care or life insurance benefits or both to the same extent that the metropolitan government contributes to the medical care and life insurance benefits of members. Eligible employees under the CETA program shall pay the same contribution rate as if they were employees of the metropolitan government.

2. Should the CETA program be revised or phased out, the metropolitan government shall have no obligation to continue the program or to make contributions to the pension and/or life and health insurance plans for CETA employees.

B. Employees of the CETA program shall not become a part of the pension system of the metropolitan government while they are employees under the CETA program.

C. CETA employees shall, when they would have otherwise been able to participate in the metropolitan government pension system, be permitted to authorize the deduction from their salaries of an amount of money equal to the employee contribution rate they would otherwise have paid. This money shall be held in a separate reserve account. If the CETA employee is transferred to a budgeted position from the CETA program within ninety days after the termination of the period of CETA participation, the contributions of the employee shall be transferred to the appropriate pension trust fund.

4.12.010 Definitions.*

"Anticompetitive practice" means any practice between or among bidders or offerors that, in the judgment of the purchasing agent and the director of law, has the effect of reducing or eliminating competition or restraining trade. An anticompetitive practice includes, but is not limited to,

1. An agreement, oral or written, between or among suppliers to submit collusive bids or proposals,

2. An agreement, oral or written, between or among suppliers to not compete or not bid on a metro solicitation,

3. An agreement, oral or written, between or among suppliers to control the resale price of products, or

4. A non-compete or non-bid agreement between or among prime contractors and/or subcontractors.

"Competitive bidding" means:

Dollar Amount of Purchase	Requirements
Up to $4,999.99	A minimum of one written quotation is required.
$5,000.00—$50,000.00	A minimum of three written quotations are required. Where availability exists, at least one of the three written quotes shall be solicited from a certified minority-owned business enterprise (MBE) or women-owned business enterprise (WBE). Where availability exists, at least one of the three written quotes shall be solicited from a certified small business enterprise (SBE) or service-disabled veteran owned enterprise (SDV).
Above $50,000.00	Competitive sealed bids or request for proposals.

The above dollar thresholds shall be inclusive of the total project cost up to a maximum term of sixty months. The department shall award to the offer they determine most advantageous to Metro.

"Established catalogue price" means the price included in a catalogue, price list, schedule or other form that:

1. Is regularly maintained by a manufacturer or contractor;

2. Is either published or otherwise available for inspection by customers; and

Therefore, the amendments to Section 4.12.010 preempted by Public Chapter No. 234 are not codified or published in the Metropolitan Code.

"Multi-step sealed bidding" is a two-phase process consisting of a technical first phase composed of one or more steps in which bidders submit unpriced technical offers to be evaluated by the metropolitan government and a second phase in which those bidders whose technical offers are determined to be acceptable during the first phase have their price bids considered. It is designed to obtain the benefits of competitive sealed bidding by award of a contract to the lowest responsive, responsible bidder, and at the same time obtain the benefits of the competitive sealed proposals procedure through the solicitation of technical offers and the conduct of discussions to evaluate and determine the acceptability of technical offers.

"Purchase description" means the words used in a solicitation to describe the supplies, services or construction to be purchased and includes specifications attached to, or made a part of, the solicitation.

"Request for proposals" means all documents, whether attached or incorporated by reference, utilized for soliciting proposals.

"Responsible bidder or offeror" means a person who possesses the capability in all respects to perform fully the contract requirements and the integrity and reliability which assures good faith performance. In the event a court of competent jurisdiction or a governmental regulatory agency issues a final ruling, declaration, or finding that a bidder or offeror committed a willful violation, or multiple violations, of any federal or state law or regulation regarding employment practices or safety standards within the preceding five years prior to submission of the bid or offer, such determination may be deemed evidence of a lack of integrity and reliability and allow the purchasing agent to disqualify a person from meeting the definition of "responsible bidder or offeror".

As used in this Section, "employment practices" shall refer to matters regulated under The Fair Labor Standards Act of 1938, 29 U.S.C. § 201-219; The Family Medical Leave Act, 29 U.S.C. § 2601, et seq.; Title VII of the Civil Rights Act of 1964 and 42 U.S.C. 1981 (Section 1981); The Age Discrimination in Employment Act, 29 U.S.C. § 621, et seq.; The Americans with Disabilities Act of 1990, 42 U.S.C. § 12101; The Rehabilitation Act of 1973, 29 U.S.C. § 701, et seq. or the Education Amendments Act of 1972, 20 U.S.C. § 1681, et seq.

"Responsive bidder" means a person who has submitted a bid which conforms in all material respects to the invitation to bid. (Ord. BL2025-1065 § 1, 2025; Ord. BL2024-626 § 1, 2024; Ord. BL2019-1731 § 1, 2019; Ord. BL2019-1525 § 1, 2019; Ord. 2002-1232 § 3 (part), 2002; Ord. 95-1428 § 1, 1995; Ord. 92-210 § 1 (3-101), 1992)

4.12.030 Competitive sealed bidding.

A. Conditions for Use. Contracts shall be awarded by competitive sealed bidding except as otherwise provided in Section 4.12.020 of this code, Methods of source selection.

B. Invitation to Bid. An invitation to bid shall be issued and shall include a purchase description and all contractual terms and conditions applicable to the procurement. The invitation to bid shall require that the bidder execute an affidavit, in a form prescribed in the invitation to bid, certifying that the bidder is and will remain in compliance with the provisions of this chapter and the contents of its bid as submitted, and further that the bidder understands that failure to remain in such compliance shall constitutes a material breach of its contract with the metropolitan government. The affidavit required by this section shall be submitted with bidder's bid.

C. Public Notice. Adequate public notice of the invitation to bid shall be given a reasonable time prior to the date set forth therein for the opening of bids, in accordance with regulations promulgated by the standards board. The standards board may require different types of public notice on the basis of the size of the purchase or contract, or the type of supplies, services or construction. Such notice may include, but is not limited to, publication in a newspaper of general circulation a reasonable time prior to bid opening, mailing to suppliers on a list of established suppliers, and/or posting notice.

D. Bid Opening. Bids shall be publicly opened in the presence of one or more witnesses at the time and place designated in the invitation for bids. The amount of each bid and such other relevant information as may be specified by regulation, together with the name of each bidder, shall be read aloud and recorded and the record shall be open to public inspection.

E. Bid Acceptance and Bid Evaluation. Bids shall be accepted without alteration or correction, except as authorized in this code. Bids shall be evaluated based on the requirements set forth in the invitation to bid, which may include criteria to determine acceptability such as inspection, testing, quality, workmanship, delivery and suitability for a particular purpose. Those criteria that will affect the bid price and be considered in evaluation for award shall be objectively measurable, such as discounts, transportation costs and total or life cycle costs. The invitation to bid shall set forth the evaluation criteria to be used. No criteria may be used in bid evaluation that are not set forth in the invitation to bid.

F. Correction or Withdrawal of Bids; Cancellation of Awards. Correction or withdrawal of inadvertently erroneous bids before or after award, or cancellation of awards or contracts based on such bid mistakes, shall be permitted in accordance with regulations promulgated by the standards board. After bid opening no changes in bid prices or other provisions of bids prejudicial to the interest of the metropolitan government or fair competition shall be permitted. In accordance with regulations of the standards board, the purchasing division may correct mathematical errors. Except as otherwise provided by regulation, all decisions to permit the correction or withdrawal of bids, or to cancel awards or contracts based on bid mistakes, shall be supported by a written determination made by the purchasing agent.

G. Multi-Step Sealed Bidding. When it is considered impractical to initially prepare a purchase description to support an award based on price, an invitation to bid may be issued requesting the submission of unpriced offers to be followed by an invitation to bid limited to those bidders whose offers have been qualified under the criteria set forth in the first solicitation. The standards board shall adopt regulations governing the use of multi-step sealed bidding and establishing procedures. Discussions conducted for the purposes of facilitating understanding of technical offers or specifications may result in the obtaining of supplemental information, amendments of technical offers, and/or amendments of the specifications.

H. Award. The contract shall be awarded with reasonable promptness by written notice to the lowest responsible and responsive bidder whose bid meets the requirements and criteria set forth in the invitation for bids.

I. Rejection. The purchasing agent may reject any and all bids received for purchases or sales. (Ord. BL2019-1731 § 2, 2019; Ord. 92-210 § 1 (3-202), 1992)

A. Conditions of Use. When, under regulations promulgated by the standards board, the purchasing agent determines that the use of competitive sealed bidding is either not practicable or not advantageous to the metropolitan government, a contract may be entered into by competitive sealed proposals. The standards board may provide by regulation that it is either not practical or not advantageous to the metropolitan government to procure specified types of supplies, services or construction by competitive sealed bidding.

B. Request for Proposals. Proposals shall be solicited through a request for proposals.

C. Public Notice. Adequate public notice of the request for proposals shall be given in the same manner as provided in Section 4.12.030(C), Competitive sealed bidding, public notice.

D. Receipt of Proposals. Proposals shall be opened so as to avoid disclosure of contents to competing offerors during the process of negotiation. A register of proposals shall be prepared in accordance with regulations promulgated by the standards board and shall be open for public inspection after contract award.

E. Evaluation Factors. The request for proposals shall state the relative importance of price and other evaluation factors. The standards board shall adopt and promulgate regulations requiring that an offeror's prior metropolitan government audit findings and contract noncompliance, including but not limited to a failure or inability of the offeror to furnish documentation justifying billing to the metropolitan government under a previously-awarded contract, be included as part of the scoring under the evaluation factors.

F. Discussion with Responsible Offerors and Revisions to Proposals. As provided in the request for proposals and under regulations promulgated by the standards board, discussions may be conducted with responsible offerors who submit proposals determined to be reasonably susceptible of being selected for award for the purpose of clarification to assure full understanding of, and responsiveness to, the solicitation requirements. Offerors shall be accorded fair and equal treatment with respect to any opportunity for discussion and revision of proposals and such revisions may be permitted after submissions and prior to award for the purpose of obtaining best and final offers. In conducting discussions, there shall be no disclosure of any information derived from proposals submitted by competing offerors.

G. Award. Award shall be made to the responsible offeror whose proposal is determined to be the most advantageous to the metropolitan government taking

into consideration price and the evaluation factors set forth in the request for proposals. No other factors or criteria shall be used in the evaluation. The contract file shall contain the basis on which the award is made. (Ord. BL2021-738 § 1, 2021; Ord. 92-210 § 1 (3-203), 1992)

A. A contract may be awarded for a supply, service or construction item without competition when, under regulations promulgated by the standards board, the purchasing agent determines in writing that there is only one source for the required supply, service or construction item. The standards board may, by regulation, establish specific categories of supplies, services, or construction items as sole source items.

B. In recognition that works of art and artistic services have unique characteristics, a contract may be awarded for a public art project, product, or service without competition when the Metropolitan Nashville Arts Commission, in accordance with its public art guidelines, determines that there is only one source for the product or service. The Metropolitan Nashville Arts Commission shall transmit to the purchasing agent for review and approval, a written sole source justification, reflecting the factual basis for the conclusion that there is only one source for the required public art project, product, or service.

C. Notwithstanding the foregoing, no sole source contract for the purchase of goods or services, excluding contracts for economic development initiatives and services, with a total contract amount in excess of three hundred fifty thousand dollars may be entered into unless and until such contract has been approved by resolution duly adopted by the council by twenty-one affirmative votes. D. No contract for privatizing governmental services shall become effective unless all employees of metropolitan government who were providing such services be offered employment with metropolitan government at the same or greater pay grade and level.

E. No contract for privatizing governmental services may be approved unless a comprehensive written justification and cost-benefit analysis, prepared by the department or agency seeking to have such contract approved and approved by the director of finance, is filed with the council at the same time as the ordinance approving such contract. 4.46.001 Short title.

This program shall be known as the "Metropolitan Government of Nashville and Davidson County Procurement Nondiscrimination Program." (Ord. BL2008-161 § 1, 2008)

4.46.010 Policy and objectives.

A. Policy Statement. It is the policy of the Metropolitan Government of Nashville and Davidson County to promote full and equal business opportunities for all persons doing business with the Metropolitan Government by increasing the purchase of goods and services from minority and women owned businesses within the area of the Metropolitan Government. It is further the policy of the Metropolitan Government that firms seeking to participate in contracting and procurement activities with the Metropolitan Government are not prevented from doing so on the basis of the race or gender of their owners and that the Metropolitan Government not be a passive participant in any private scheme of discrimination.

B. Promotion of Equal Opportunity. The Metropolitan Government strictly prohibits discrimination against businesses based on the race, color, national origin, or gender of their owners or employees in the conduct of any Metropolitan Government affairs. No person shall be denied the benefit of, or otherwise discriminated against, on the grounds of race, color, national origin or gender in connection with the award or performance of any contract paid for, in whole or in part, with funds of the Metropolitan Government.

C. Program Objectives. The objective of the Procurement Nondiscrimination Program ("the Program") is to promote and encourage full and open competition in all Metropolitan Government procurement and purchasing; encourage all Metropolitan Government personnel involved in procurement and contracting activities to utilize appropriate purchasing procedures; to prevent the Metropolitan Government from becoming a passive participant in any unlawful discrimination; to spur economic development in the public and private sectors of the local economy; and, to rectify that participation in such unlawful discrimination. (Ord. BL2008-161 § 1, 2008)

4.46.020 Definitions.

For the purpose of this chapter, the following words, terms, phrases and abbreviations shall have the following meanings:

"African American" means persons having origins in any black racial group of Africa. It includes people who indicate their race as "Black, African American, or Negro," or provide written entries such as African American, Afro American, Kenyan, Nigerian, or Haitian.

"African American Business Enterprise (AABE)" means a business that is an independent and continuing enterprise for profit, performing a commercially useful function, and that is owned and controlled by one or more African Americans.

"Asian" means persons having origins in any of the original people of the Far East, Southeast Asia, the Indian subcontinent or the Pacific Islands.

"Asian Business Enterprise (ABE)" means a business which is an independent and continuing enterprise for profit, performing a commercially useful function, and which is owned and controlled by one or more Asian individuals.

*__Editor's note—__This Chapter has more than one version. This version applies to any contract entered into and executed by the Metropolitan Government, or any formal solicitation issued, prior to the applicability date of Ordinance BL2018-1419. Ordinance BL2018-1419 is applicable on July 3, 2019 (or upon the earlier certification by the Director of Finance to the Metropolitan Council that the offices and processes contemplated by Ordinance BL2018-1419 have been established). This program remains valid pursuant to Public Chapter 458 (2025)'s definition allowing preferences for lawful eligibility criteria. Here the criteria is lawful because *City of Richmond v. J.A. Croson Co.*, 488 U.S. 469 (1989) permits these types of programs, which are supported by a disparity study establishing a factual predicate.

"Availability" means being "qualified" to perform work for the Metropolitan Government. This means that the Bidder does business within an industry group from which agencies of the Metropolitan Government make certain purchases; the firm's owner has demonstrated the belief that the firm is qualified and able to perform the work; the firm is located within the relevant geographical area such that it can do business with agencies of the Metro Government; and the bidder has demonstrated an interest in obtaining work by filling out a vendor application, has bid, or is going through the certification process.

"Bid" means a quotation, proposal, sealed bid or offer to perform or provide labor, materials, supplies or services to the Metropolitan Government for a price.

"Bidder" means any individual, sole proprietorship, partnership, joint venture, or corporation that submits a Bid to the Metropolitan Government.

"Benchmarking" means the method enabling the Metropolitan Government to track the inclusion of MWBEs in the procurement process. Benchmarks are not quotas or goals, rather, they are percentage ranges based on MWBE availability, current MWBE participation, and previous MWBE participation in the Nashville Metropolitan Statistical Area ("MSA").

"Certification" means the qualifying process that assures buyers and local, state, and federal agencies that a particular business is an MWBE that performs a commercially useful function. Certification or Recertification shall mean official recognition and approval by the Metropolitan Government that a business meets the qualification criteria of an MWBE, as set forth in this Program. Certification or recertification relates to qualifications regarding ownership and control, not the quality of the service or product.

"Commercially useful function" means performance or provision of real and actual services by a Participant under a contract with the Metropolitan Government or under a subcontract with another business enterprise under a contract with the Metropolitan Government. In determining whether a business is performing a commercially useful function, the following non-exclusive factors will be considered:

(i) The nature and amount of work contracted;

(ii) Whether the MWBE has the skill and expertise to perform work for which it has been certified;

(iii) Whether the MWBE actually performs, manages and supervises the work;

(iv) Whether the MWBE intends to purchase commodities and/or services from a non-MWBE and simply resell same to the general or prime contractor for the purpose of allowing those commodities and/or services to be counted towards assessment of a Benchmark or fulfillment of a goal (if implemented);

(v) Standard industry practices relating to the use of subcontractors. Consistent with standard industry practices, a MWBE subcontractor may enter into second tier subcontracts provided that no more than twenty-five percent of the work thereunder will be performed by a non-MWBE unless the subcontractor demonstrates to the satisfaction of the Metropolitan Government that the subcontracting arrangement is consistent with standard industry practice.

"Compliance" means the condition existing when a Participant has met the requirements of this Program.

"Control" or "controlled" for the purpose of determining whether the owner or owners of a potential MWBE controls the potential MWBE, the Metropolitan Government shall consider all of the facts in the record viewed as a whole, including, without limitation the following:

(i) Whether the potential MWBE is an independent business, which means that its commercial viability does not depend on another firm or firms.

(ii) Whether the potential MWBE is subject to any formal or informal restrictions that limit the customary discretion of the MWBE owner. There can be no restrictions through corporate charter provisions, by-law provisions, contracts or any other formal or informal devices that prevent the owner of the potential MWBE from making any business decision without the cooperation of another individual. This paragraph does not preclude a spousal co-signature on documents.

(iii) Whether the owner of the potential MWBE possesses the power to direct or cause the direction of the management and policies of the business enterprise and to make the day-to-day as well as long term decisions on matters of management, policy and operations.

(iv) Whether the owner of the potential MWBE has an understanding of, and managerial and technical competence directly related to, the type of business in which the business enterprise is engaged and the business enterprises' operations. Generally, experience limited to office management, administration, or bookkeeping functions, unrelated to the principal business activities of the business enterprise is insufficient to demonstrate control.

(v) Whether, if a state or local law requires the owner of a particular type of firm to have a particular license or other credential, the owner of the potential MWBE possesses the required license or credential.

"Covenant of non-discrimination" means, collectively, one or more contractual affirmative promises (1) to adopt the policies of the Metropolitan Government

relating to the participation of MWBEs in the procurement process; (2) to undertake certain good faith efforts to solicit MWBE participation; and (3) not to otherwise engage in discriminatory conduct against MWBEs.

"Hispanic American Business Enterprise" means a business that is an independent and continuing enterprise for profit, performing a commercially useful function, and that is owned and controlled by one or more Hispanic American.

"Joint venture" means an association of two or more independent persons, partnerships, corporations (or any combination of them) formed, consistent with the laws of the State of Tennessee, to perform one or more specific contracts limited in scope and duration.

"Minority or Women Owned Business Enterprise ("MWBE")" refers to a business enterprise maintaining a significant business presence in the MSA and performing a commercially useful function that is owned by one or more of the following: (1) African Americans, (2) Native Americans, (3) Hispanic Americans, (4) Asian Americans and (5) Women. Racial and gender categories are separated for monitoring and tracking purposes only.

"Metropolitan Government" means the Metropolitan Government of Nashville and Davidson County, including any of its operating elements, officers, and/or employees acting with authority, but excluding the Metropolitan Development and Housing Authority, Nashville Electric Service, Metropolitan Transit Authority, the Metropolitan Nashville Public Schools, the Metropolitan Hospital Authority, the Metropolitan Sports Authority and the Metropolitan Nashville Airport Authority.

"Significant business presence" means that a business enterprise with an established place of business in the MSA at which one or more of its employees is regularly based and that such place of business has a substantial role in the business' performance of a commercially useful function as herein defined. A location utilized solely as a post office box, mail drop or telephone message center or any combination thereof, with no other substantial work function, shall not constitute a significant business presence.

"Supplier" means a warehouser or manufacturer of materials, supplies or equipment that contracts directly with a bidder to provide such materials, supplies or equipment on a project that involves a trade or service.

The list prepared from the database will specify which firms the Metropolitan Government has determined to be certified in accordance with the Metropolitan Government definitions for MWBEs.

(6) Monitoring utilization of MWBE participation on projects for data gathering and informational purposes.

(12) Performing other tasks as may be required to fulfill the above-stated duties of the Business Assistance Office.

C. Authorization to Monitor. The BAO shall be authorized to collect from all Participants such data and information as is necessary to monitor this Program. This information shall include information regarding business ownership, supplier information, and subcontractor information, all of which shall reflect the race, ethnic origin, gender, business location of the identified businesses, and type of work to be performed indicated by the United Nations Standard Products and Services Codes. Individuals or entities that enter into contracts with the Metropolitan Government shall submit to the BAO subcontractor information reflecting all MWBEs and non-MWBEs providing services on the contract, including total amounts paid to each subcontractor. Failure to provide this information may subject participants to penalties for noncompliance as specified in Section 4.46.100. The BAO shall continuously monitor the participation of MWBEs in the procurement of construction, non-professional services and professional services for Metropolitan Government. Such monitoring shall include, without limitation, a statistical analysis of each construction trade, non-professional services, and professional services to determine whether there is utilization of MWBEs in a manner that is proportionate to the identified availability range. E. Contractors' Closeout Activity Reports: In accordance with the Rules and Regulations for the Program, prime contractors and prime consultants shall provide closeout activity reports to the BAO identifying activities of all subcontractors and sub-consultants in order to monitor MWBE participation.

F. Authority to Investigate Discriminatory Practices: Should a Bidder or Participant submit a written complaint of discrimination, the BAO is authorized to investigate the complaint. An investigation may be initiated based solely on a finding of a significant statistical disparity from the Benchmark in the Participant's utilization of MWBEs.

Further, such investigations may be initiated when the BAO receives information that provides a reasonable basis to believe that an individual contractor seeking to contract or contracting with Metropolitan Government may be engaging in discriminatory conduct with relation to the Bid process. The details of that investigation, including findings, shall be recorded and maintained by the BAO.

G. Evaluation of Compliance: Pursuant to Section 4.46.090, prior to issuing a notice of award the BAO shall review a Bid when the Purchasing Agent has reached an intent to award. (Amdt. 1 to Ord. BL2018-1063 § 1, 2018; Ord. BL2018-1063 § 1, 2018; Ord. BL2008-161 § 1, 2008)

(Ord. BL2008-161 § 1, 2008)

4.46.050 MWBE designation.

A. Certification. Certification is the qualifying process that ensures that a particular business is a MWBE that performs a commercially useful function. Certification assures that interested MWBEs have the proper ownership, control, and management as defined in the Program. Current contact information about the certifying entity shall be maintained by the BAO and provided to interested persons upon request.

B. Reciprocal Certification. Subject to the approval of the Director of Finance, the BAO may accept certification of a MWBE from another government or private entity having certification standards at least as stringent as those created in this chapter. (Ord. BL2008-161 § 1, 2008)

4.46.060 Benchmarks.

A. Definition and Purpose. The Metropolitan Government has a compelling interest in providing equal business opportunities for all persons wishing to do business with it. Therefore, the Metropolitan Government will monitor and track MWBE availability and participation in the procurement process through Benchmarks. Benchmarks are not quotas but a method enabling the Metropolitan Government to compare the participation of MWBE's in the procurement process with expected participation rates based on the availability of MWBE's within the MSA.

B. Procedure for Establishing Benchmarks. The BAO shall establish and recommend proposed Benchmarks to the Purchasing Agent and Finance Director biennially. The BAO shall evaluate the levels of MWBE participation for the Metropolitan Government's overall procurement program. As part of the review, the BAO may consider data regarding MWBE participation for the preceding three fiscal years for a more accurate portrayal of MWBE participation. The BAO shall review available MWBE totals and percentages for the MSA that shall be reported in ranges showing expected MWBE participation rates on Metropolitan Government projects for each Procurement Sector based on MWBE availability within the MSA. MWBE availability shall be determined in accordance with current legal, economic, statistical and social science standards. The Purchasing Agent may employ one or more qualified consultants each year to assist the BAO in determining MWBE availability. Benchmarks during the first year of the Program shall be based on data compiled in the Metropolitan Nashville Disparity Study, a copy of which shall be placed on file in the office of the Metropolitan Clerk.

C. Comment Period. The Purchasing Agent shall publish proposed Benchmarks in a newspaper of general circulation at least once each week for four consecutive weeks and shall receive public comments submitted within ten days after the final such publication. The Purchasing Agent shall consider all public comments duly submitted, additional recommendations of the BAO, make any necessary changes to the Benchmarks, and submit the proposed Benchmarks to the Finance Director. The Finance Director shall make any revisions the Finance Director feels are necessary and shall then issue the final Benchmarks, a copy of which shall be filed with the Metropolitan Clerk.

D. Review of Benchmarks. The Benchmarks shall be in effect for a period of two years. BAO shall review Benchmarks annually and shall report its findings to the Purchasing Agent and Finance Director. All total contract dollars awarded to MWBEs shall count towards Benchmark percentages. (Ord. BL2012-315 §§ 1—3, 2013; Ord. BL2008-161 § 1, 2008)

4.46.070 Bid requirements.

No Bid submitted to the Metropolitan Government for work within the scope of the Program shall be considered responsive unless it includes each of the following documents:

A. Covenant of Non-Discrimination. Each Bidder must submit a duly executed and notarized Covenant of Non-Discrimination. This written instrument shall contain promises, averments and/or affirmations made by the Bidder:

(1) To adopt the policies of the Metropolitan Government relating to equal opportunity in contracting on projects and contracts funded, in whole or in part, with funds of the Metropolitan Government;

(2) To attempt certain good faith efforts to solicit MWBE participation on projects and contracts in addition to regular and customary solicitation efforts;

(3) Not to otherwise engage in discriminatory conduct;

(4) To provide a discrimination-free working environment;

(5) That this Covenant of Non-Discrimination shall be continuing in nature and shall remain in full force and effect without interruption;

(6) That the Covenant of Non-Discrimination shall be incorporated by reference into any contract or portion thereof which the Bidder may hereafter obtain; and

(7) That the failure of the Participant to satisfactorily discharge any of the promises of nondiscrimination as made and set forth herein shall constitute a material breach of contract.

B. Statement of Written Notification to MWBEs. Each Bidder must provide a statement that the Bidder has delivered written notice to at least three available certified MWBEs if use of MWBEs is reasonable and if BAO can provide at least three MWBEs for the applicable category. Upon request, names, addresses, and telephone numbers for available MWBEs shall be provided by the BAO for each potential subcontracting or supply category in the solicitation. In addition, a Bidder must deliver written notice to all individuals or entities requesting information on the solicitation. The written notice sent to potential subcontractors or vendors shall contain the following:

(1) Sufficient information about the plans, specifications, and relevant terms and conditions of the solicitation to permit development of an understanding of work requirements. This may include information about the work that will be subcontracted or the goods that will be obtained from subcontractors and suppliers;

(2) A contact person knowledgeable of the project documents within the Bidder's office to answer questions about the conditions of the contract;

(3) Information regarding the Bidder's bonding requirements;

(4) The deadline for submission of price quotations.

C. Statement of Successful Subcontractors. Each Bidder shall submit a Statement of Subcontractors. The Statement shall include each successful subcontractor's name, UNSPSC Code, race, gender, national origin, business location, work to be performed, dollar value of the project, and percentage attributable to each subcontractor. In addition, copies of each successful subcontractor's price quotes must be submitted by the close of business on the second business day following submission of a Bid.

D. Statement of Interested Subcontractors/Vendors. Each Bidder shall submit a Statement of Interested Subcontractors/Vendors that shall include each individual or entity requesting information about the project or solicited for participation on the project. The list of subcontractors shall include those persons who did not actually submit a price quotation or a bid, rather just requested information. The statement shall include the individual's or entity's name, UNSPSC Code, race, gender, national origin, business location, and information requested.

E. Statement of Bid Proposals/Price Quotations. Each Bidder shall submit a Statement of Bid Proposals/Price Quotations. The Statement shall include each potential subcontractor's vendor's name, UNSPSC Code, race, gender, national origin, business location, work requested to be performed, and price quotation and/or bid. The statement shall include only those potential subcontractors not selected that actually submitted a bid or proposal for the project.

F. Letter of Intent to Perform as a Subcontractor/Joint Venture. In the event that a Bidder or Participant proposes to use subcontractors or joint ventures if awarded a contract with the Metropolitan Government, such Bidder shall be required to submit to the BAO a letter of intent signed by both the subcontractor/joint venturer and Bidder. This form is to be completed and submitted by the apparent successful Bidder by the end of the second business day following issuance by the Purchasing Agent of a notice of award of contract.

G. Other Information and Data. The BAO may request additional information and data prior to a contract award. This information may include, without limitation, information regarding business ownership of all subcontractors to be utilized on the project, all of which shall reflect the race, gender, ethnic origins, location, and structure of the identified businesses, in order to be eligible for contract award. The BAO with the approval of the Purchasing Agent may declare any Bid nonresponsive upon failure or refusal of the Bidder to provide information and data required by this Program and requested by the Metropolitan Government pursuant to this paragraph.

H. Reporting Subcontractor Substitution or Replacement. The prime contractor shall report any replacements or substitutions of the use of subcontractors to BAO in advance of making the substitution. For reporting purposes, the prime contractor shall report to the BAO statistical data pertaining to the new subcontractor, including race, gender, national origin, and business location. (Ord. BL2008-161 § 1, 2008)

4.46.080 Good faith efforts.

A. Good Faith Efforts. In addition to regular and customary solicitation processes for contacting potential subcontractors and/or vendors, all Bidders are required to:

(1) Make efforts to include MWBEs in the procurement process;

(2) Make efforts to ensure that businesses are not discriminated against on the basis of race, ethnicity or gender;

(3) Ensure that prospective subcontractors, vendors, suppliers and others are not denied opportunities to compete for work for the Metropolitan Government on the basis of their race, ethnicity, or gender;

(4) Afford all firms, including those owned by racial or ethnic minorities and women, opportunities to participate in the performance of the business of the Metropolitan Government to the extent of their availability, capacity and willingness to compete;

(5) Demonstrate compliance with these Program requirements with appropriate documentation submitted with their Bids;

(6) Maintain for a minimum of three years after completion of the contract and final payment detailed records of all correspondence and responses thereto, logs of all telephone calls made and received regarding Metropolitan Government solicitations, copies of advertisements in publications and other media, and other relevant papers required by the Program or Section 4.12.180.

B. Methods of Demonstrating Good Faith Efforts. Bidders shall demonstrate Good Faith Efforts by demonstrating efforts that may include, but are not limited to, the following:

(1) Attending informational meetings to update potential subcontractors or vendors of subcontracting or supply opportunities.

(2) Dividing the contract, in accordance with normal industry practice, into small, economically feasible segments that could be performed by a MWBE. Under no circumstances, however, shall a Bidder segment work solely for the purpose of utilizing MWBEs as subcontractors where such segmentation is not in accordance with common and accepted industry practices relating to the utilization of other firms as subcontractors.

(3) Providing a written explanation for rejection of any potential subcontractor or vendor to the Bidder, including the name of the firm awarded the subcontract or supply agreement. The BAO will maintain these records and make same available to any subcontractor or vendor rejected by the Bidder.

(4) Providing a non-discriminatory work site. Maintaining a work environment free of harassment, intimidation and coercion at all construction sites, offices and other facilities at which the Bidder's employees are assigned to work. The Bidder shall specifically ensure that all labor supervisors, superintendents, and other on-site supervisory personnel are aware of and carry out the Bidder's obligation to maintain a non-discriminatory work environment.

(5) Soliciting specific individual MWBEs whose availability as potential sources of goods or services can be reasonably ascertained. This measure includes sending letters or making other personal contacts with specific certified MWBEs including those that the Bidder has contracted with in the past as well as other MWBEs with which the Bidder may be unfamiliar, but whose identities can be ascertained from a directory of certified MWBEs maintained by the BAO.

(6) Sending letters or making other personal contacts with other programs as well as private trade associations in the MSA which are known to publicize contracting and procurement opportunities for the benefit of their respective associates and/or members.

(7) Advertising in trade publications of general circulation in the MSA. The advertisement shall identify and describe the specific subcontracting or other opportunity in reasonable detail.

(8) Following up initial solicitations by contacting potential subcontractors or vendors to determine, with certainty, whether these firms are interested in participating on the contract.

(9) Thoroughly investigating the potential subcontractor or vendor's capabilities in good faith.

(10) Providing reasonable assistance to a MWBE in need of equipment, supplies, bonding, letters of credit and/or insurance.

(11) Providing reasonable technical assistance to MWBEs to ameliorate any deficiencies of technical knowledge or advance skill, where such assistance is undertaken by the Bidder to facilitate the MWBE's successful participation on a project or contract. (Ord. BL2008-161 § 1, 2008)

4.46.090 Evaluation of bid for program compliance.

A. If the Bid submitted by the First Ranked Bidder in response to a solicitation issued by the Purchasing Agent includes the documents required by Section 4.46.070 of this chapter, the Purchasing Agent shall forward the Bid to the BAO. The BAO shall then evaluate whether it believes the First Ranked Bidder has engaged in and adequately documented with its Bid efforts to ensure that its process of soliciting, evaluating and awarding subcontracts, placing orders, and partnering with other companies has met the criteria of the Program including the use of Good Faith Efforts. Upon a recommendation of compliance by the First Ranked Bidder, the BAO shall notify the Purchasing Agent. The Purchasing Agent shall proceed to award a contract upon concurrence with the BAO recommendation.

B. If the BAO's preliminary analysis suggests that the First Ranked Bidder has failed to comply with the good faith or other requirements of the Program, the BAO shall send written notice to the Bidder. The notice shall set forth with particularity the reasons for the questioning of non-compliance and shall schedule a conference at which the issue may be reviewed with the Bidder. The Bidder shall be permitted to present any additional materials relevant to the question of non-compliance for consideration by the BAO. If, after the conference and upon consideration of all relevant materials, the BAO is convinced that the Bidder is in fact compliant with the requirements of this chapter, the BAO shall notify the Purchasing Agent, who shall proceed with an award of contract upon concurrence with the BAO recommendation. If the BAO concludes that the Bidder is not compliant with the requirements of this chapter, the BAO shall so notify the Purchasing Agent, who shall, upon concurrence with the conclusion, reject that Bidder's Bid, identify another Bidder as the First Ranked Bidder, and forward that Bidder's Bid to the BAO. The BAO shall then proceed to evaluate the Bid submitted by the new First Ranked Bidder. The Purchasing Agent shall decide whether a determination of nonresponsiveness shall be made pursuant to Section 4.12.110. Decisions of the Purchasing Agent under this section are subject to protest in accordance with Section 4.36.010, et seq., and the rules and regulations of the Purchasing Division. (Ord. BL2008-161 § 1, 2008)

4.46.100 Sanctions and penalties for non-compliance.

The BAO shall recommend appropriate mechanisms to enforce the provisions of this Program to the Purchasing Agent. Further, the failure of a Bidder or Participant to comply with the requirements of this chapter may be grounds for suspension or debarment by the Purchasing Agent pursuant to the standards set forth in Metropolitan Code of Laws § 4.36.020. Sanctions shall not be imposed unless there is evidence of specific conduct on the part of Participant that is inconsistent with or in direct contravention of the applicable provisions of this Program. In determining appropriate sanctions, the Purchasing Agent shall consider the following factors:

(1) Whether the failure to comply with applicable requirements involved intentional conduct or, alternatively, may be reasonably concluded to have resulted from a misunderstanding on the part of the Participant of the duties imposed on them by this Program;

(2) The number of specific incidences of failure by the Participant to comply;

(3) Whether the Participant has been previously suspended;

(4) Whether the Participant has failed or refused to provide the BAO with any information required or requested by this Program;

(5) Whether the Participant has materially misrepresented any applicable facts in any filing or communication to the BAO; and

(6) Whether the Participant has subsequently restructured or taken other action to cure the deficiencies in meeting applicable requirements. (Ord. BL2008-161 § 1, 2008)

4.46.110 Goals.

A. Goals are race/gender-conscious measures that may be established in the event that periodic review of the Metropolitan Government procurement practices reveal a continuing pattern of underutilization of and discrimination against MWBEs by the Metropolitan Government. Goals shall only be considered in the event the Metropolitan Government has exhausted all race/gender neutral remedies and continues to fall below identified Benchmarks in contracting.

B. Procedure for Adopting Goals. After using Benchmarks and Good Faith Efforts of the Program for 24 months, if the BAO semiannual review shows continuing underutilization of MWBEs and can demonstrate a compelling interest to support imposition of goals in specific subcategories, upon concurrence of the Purchasing Agent, the BAO shall recommend to the Finance Director and the Director of Law the implementation of goals for selected contracts in the identified subcategories. If the Finance Director and the Director of Law agree that goals are warranted and necessary and that the goals proposed by the BAO and the Purchasing Agent are reasonably likely to result in achieving satisfactory utilization, the BAO shall publish the proposed goals three times over a period of thirty days in a newspaper of general circulation. After such time BAO will hold a ten (10) day comment period to receive written comments from any interested individual or entity regarding implementation of a race/gender-conscious program. Subsequent to this comment period, upon approval of the Finance Director and the Director of Law, the BAO with the concurrence of the Purchasing Agent, shall prepare a resolution for submission to the Metropolitan Council with a proposal to implement goals and the proposed goals.

C. Goals in Bids/Proposals. Should the Metropolitan Council approve the imposition of goals by a resolution receiving twenty-one affirmative votes, the Purchasing Agent may consider the inclusion or underutilization of MWBEs in specific industry subcategory as an additional factor in the evaluation of a Bid. The Purchasing Agent may consider the following types of participation toward achievement of a goal:

(1) The total dollar value of the contract may be counted toward the specified goal. This includes the fees and commissions charged for professional services, legal counsel, manufacturers, financial consultants, and insurance agents.

(2) The actual portion of MWBE participation in a joint venture is counted toward the goal.

D. MWBE Participation in Meeting Goals. In the event that goals are established, all Participants, including MWBE Participants, shall make good faith efforts to attain goals through all subcontractor work.

(1) Prime Contractors: A Participant may subcontract portions of its contract consistent with industry standards. However, should a prime contractor subcontract greater portions of the project than are consistent with industry standards, then the MWBE will not have performed a commercially useful function as defined herein. Therefore, such participation by a MWBE will not be counted towards any goal.

(2) Subcontractor Participation: Where a Participant utilizes one or more subcontractors or sub-subcontractors to attain any goal(s) for an underutilized subcategory, the prime contractor may count said subcontractor or sub-subcontractor work toward goals. In no way shall subcontractors' or sub-subcontractors' work or dollar amount be construed to count toward said goal more

than once. Only expenditures to MWBE subcontractors that perform a commercially useful function in the work of the project or contract may be counted.

(3) Supplier Participation: Where a Participant utilizes suppliers to satisfy the goal(s) in whole or in part, the MWBE suppliers must perform a commercially useful function. Supplier participation may be approved upon review of the following factors:

(a) The nature and amount of supplies to be furnished;

(b) Whether the MWBE is a manufacturer, wholesaler or distributor of the supplies and has the capabilities to deliver same in accordance with its certification;

(c) Whether the MWBE actually performs, manages and supervises the work to furnish the supplies; and

(d) Whether the MWBE intends to purchase supplies from a non-MWBE and simply resell same to the general or prime contractor for allowing those supplies to be counted towards fulfillment of the goal(s).

(4) Joint Venture Participation: Where Participants engage in a joint venture to meet a goal, the prime contractor shall demonstrate that the MWBE joint venturer's participation meets the standards for a commercially useful function. The BAO shall review and approve all contractual agreements and other supporting documentation to determine the percentage of MWBE participation resulting from the joint venture that may be credited towards applicable goals of the project; and shall make the determination based on the following factors:

(a) The initial capital investment of each venture partner;

(b) The proportional allocation of profits and losses to each venture partner;

(c) The sharing of the right to control the ownership and management of the joint venture;

(d) Actual participation of the venture partners in the performance of work under the project or contract; and

(e) Other pertinent factors of the joint venture.

(5) The degree to which any goals have been attained by joint ventures between MWBE firms, and between MWBE and non-MWBE firms, shall be calculated as follows:

(a) A joint venture consisting of a MWBE and non-MWBE firm functioning as a prime contractor will be credited with MWBE participation based on the percentage of the dollar amount of the work to be performed by the MWBE.

(b) In joint venture Proposals in which all joint venture Participants are MWBEs, the joint venture will be credited with MWBE participation for that portion of the dollar amount of the contract which MWBEs perform and that portion subcontracted to MWBE firms.

(c) In joint venture Proposals, Participants will receive credit toward the goal for the dollar amount purchased from MWBE suppliers.

E. BAO Monitoring: Ending Goals. In the event that goals are established, the BAO shall review and report to the Purchasing Agent semi-annually and to the Metropolitan Council, the Finance Director, and Director of Law annually, the effectiveness of the goals in reducing underutilization of MWBEs. The BAO shall recommend termination of a goal for a Purchasing Sector established by the Metropolitan Council when the semiannual review shows underutilization has ceased. In any event, a goal for a Purchasing Sector shall automatically expire two years after adoption by the Metropolitan Council. (Amdt. 1 to Ord. BL2008-161 § 1, 2008; Ord. BL2008-161 § 1, 2008)

4.46.120 Outreach program.

To ensure that opportunities to participate in Metropolitan Government contracts are available to the widest feasible universe of willing, available and qualified businesses, the BAO shall develop and engage in outreach designed to increase public awareness of the Program. This outreach may consist of any of the following:

A. Public Awareness of the Program. To increase the effectiveness of the BAO and to increase the awareness of the Program, the BAO shall disseminate at community events, trade shows, and other appropriate business functions, and publish at regular intervals information describing the Program. This information shall also identify ongoing contracting opportunities.

B. Outreach to MWBEs. The BAO shall assist MWBEs in obtaining certification by disseminating information, providing individualized counseling, and/or conducting seminars regarding the certification process. (Ord. BL2008-161 § 1, 2008)

4.46.130 Mentor-protege initiative.

The BAO shall encourage all contractors and subcontractors to participate in a Mentor/Protege initiative on a voluntary basis for the purpose of enhancing the potential of all MWBEs by building business capability to expand contracting opportunities within an agreed framework of conditions. The initiative is intended to assist in integration of on-the-job training for all emerging businesses and permit a prime contractor to offer assistance on a limited term agreement, generally one

project. Any interested contractor or subcontractor may submit with a Bid a completed Mentor/Protege Promise demonstrating that such a relationship has been formed. The BAO shall make available a database of potential Mentor and Protege firms. No contractor or vendor shall be penalized or preferred based upon participation or non-participation in this initiative. All administrative functions should be performed by the Protege personnel. The Protege is expected to maintain final decision-making responsibilities regarding the scope of its work. (Ord. BL2008-161 § 1, 2008)

4.46.140 Severability.

If any of the provisions set forth in this chapter, or any section, subsection, paragraph, sentence, clause, phrase, or word thereof shall be found to be invalid, illegal or unenforceable for any reason, the application of the remainder of this chapter shall not be affected by such invalidity. (Ord. BL2008-161 § 1, 2008)

4.46.150 Application.

This chapter shall not apply to any contract entered into by the Metropolitan Government or any solicitation issued prior to the effective date of the adopting ordinance. (Ord. BL2008-161 § 1, 2008)

(Ord. 92-210 § 1 (12-101), 1992)

4.48.020 Statement of policy.

A. Public employment is a public trust. It is the policy of the metropolitan government to promote and balance the objective of protecting government integrity and the objective of facilitating the recruitment and retention of personnel needed by the metropolitan government. Such policy is implemented by prescribing essential standards of ethical conduct without creating unnecessary obstacles to entering public service.

B. Public employees must discharge their duties impartially so as to assure fair competitive access to government procurement by responsible contractors. Moreover, they should conduct themselves in such a manner as to foster public confidence in the integrity of the metropolitan government procurement organization.

C. To achieve the purpose of this Article, it is essential that those doing business with the metropolitan government also observe the ethical standards prescribed herein. (Ord. 92-210 § 1 (12-201), 1992)

4.48.030 General standards of ethical conduct.

A. General Ethical Standards for Employees. Each employee of the metropolitan government shall avoid any action, whether or not specifically prohibited by this code, which might result in, or create the appearance of:

1. Using public office for private gain;
2. Giving preferential treatment to any person;
3. Impeding government efficiency or economy;
4. Losing complete independence or impartiality;
5. Making a Metropolitan government decision outside of official channels; or
6. Affecting adversely the confidence of the public in the integrity of the government.

B. Specific Standards. In order to fulfill this general prescribed standard, employees must also meet the specific standards set forth in Section 4.48.050, employee conflict of interest; Section 4.48.060, Employee disclosure requirements; Section 4.48.070, Gratuities and kickbacks; Section 4.48.080, Prohibition against contingent fees; Section 4.48.090, Restrictions on employment of present and former employees and Section 4.48.100, Use of official information.

C. General Ethical Standards for Nonemployees. Any effort to influence any public employee to breach the standards of ethical conduct set forth in this section and Sections 4.48.050 through 4.48.100 of this chapter is also a breach of ethical standards. (Ord. BL2016-526 § 1, 2017; Ord. 92-210 § 1 (12-202), 1992)

4.48.040 Criminal sanctions.

To the extent that violations of the ethical standards of conduct set forth in Sections 4.48.020 through 4.48.100 constitute violations of the criminal laws of this state, they shall be punishable as provided therein. Such sanctions shall be in addition to the civil remedies set forth in this chapter. (Ord. 92-210 § 1 (12-203), 1992)

4.48.050 Employee conflict of interest.

A. Conflict of Interest. It shall be a breach of ethical standards for an employee to participate directly or indirectly in a procurement when the employee knows that:

1. The employee or any member of the employee's immediate family has a financial interest pertaining to the procurement;
2. Business or organization in which the employee, or any member of the employee's immediate family, has a financial interest pertaining to the procurement; or
3. Any other person, business or organization with whom the employee or any member of the employee's immediate family is negotiating or has an arrangement concerning prospective employment involved in the procurement.

B. Financial interest in a Blind Trust. Where an employee or any member of the employee's immediate family holds a financial interest in a blind trust, the employee shall not be deemed to have a conflict of interest with regard to matters pertaining to that financial interest, provided that disclosure of the existence of the blind trust has been made known to the procurement appeals board.

C. Discovery of Actual or Potential Conflict of Interest—Disqualification and Waiver. Upon discovery of an actual or potential conflict of interest, an employee shall promptly file a written statement of disqualification and shall withdraw from further participation in the transaction involved. The employee may, at the same time, apply to the procurement appeals board in accordance with Section 4.48.140, Waiver by procurement appeals board, for a waiver. (Ord. 92-210 § 1 (12-204), 1992)

4.48.060 Employee disclosure requirements.

A. Disclosure of Benefit Received from Contract. Any employee who has, or obtains any benefit from, any metropolitan government contract with a business in which the employee, the employee's spouse or the employee's child has a financial interest shall report such benefit to the procurement appeals board; provided, however, this section shall not apply to a contract with a business where the employee's interest in the business has been placed in a disclosed blind trust.

B. Failure to Disclose Benefit Received. Any employee who knows or should have known of such benefit and fails to report such benefit to the procurement appeals board, is in breach of the ethical standards of this section. (Ord. 92-210 § 1 (12-205), 1992)

4.48.070 Gratuities and kickbacks.

A. Gratuities. It shall be a breach of ethical standards for any person to offer, give or agree to give any employee or former employee, or for any employee or former employee to solicit, demand, accept or agree to accept from another person, a gratuity or an offer of employment in connection with any decision, approval, disapproval, recommendation, preparation of any part of a program requirement or a purchase request, influencing the content of any specification or procurement standard, rendering of advice, investigation, auditing or in any other advisory capacity in any proceeding or application, request for ruling, determination, claim or controversy or other particular matter, pertaining to any program requirement of a contract or subcontract or to any solicitation or proposal therefor.

B. Kickback. It shall be a breach of ethical standards for any payment, gratuity or offer of employment to be made by or on behalf of a subcontractor under a contract to the prime contractor or higher tier subcontractor or any person associated therewith, as an inducement for the award of a subcontract or order.

C. Contract Clause. The prohibition against gratuities and kickbacks prescribed in this section shall be conspicuously set forth in every contract and solicitation therefor. (Ord. 92-210 § 1 (12-206), 1992)

4.48.080 Prohibition against contingent fees.

A. Contingent Fees. It shall be a breach of ethical standards for a person to be retained, or to retain a person, to solicit or secure a metropolitan government contract upon an agreement or understanding for a contingent commission, percentage, or brokerage fee. Notwithstanding the foregoing, it is not a breach of ethical standards to retain bona fide employees or bona fide established commercial selling agencies for the purpose of securing business. In addition, upon approval of the director of finance and the director of law, the purchasing agent is authorized to procure the services of licensed real estate brokers to assist the metropolitan government in real property lease transactions. Such real estate brokers may be compensated on a commercially reasonable commission basis, including options for payment of brokerage fees by the metropolitan government or the lessor of the property.

B. Representation of Contractor. Every person, before being awarded a metropolitan government contract, shall represent in writing, that such person has not retained anyone in violation of subsection a of this section. Failure to do so constitutes a breach of ethical standards.

C. Contract Clause. The representation prescribed in subsection B of this section shall be conspicuously set forth in every contract and solicitation therefor. (Ord. BL2020-407 § 1, 2020; Ord. 92-210 § 1 (12-207), 1992)

4.48.090 Restrictions on employment of present or former employees.

A. Contemporaneous Employment Prohibited. Except as may be permitted by regulations or rulings of the procurement appeals board, it shall be a breach of ethical standards for any employee who is participating directly or indirectly in the procurement process to become or be, while such an employee, the employee of any person contracting with the governmental body by whom the employee is employed.

B. Restrictions on Former Employees Connected with Their Former Duties.

1. Permanent Disqualification of Former Employees Personally Involved in a Particular Matter. It shall be a breach of ethical standards for any former employee knowingly to act as principal, or as an agent for anyone other than the metropolitan government, in connection with any:

a. Judicial or other proceeding, application, request for a ruling or other determination;

b. Contract;

c. Claim; or

d. Charge or controversy,

in which the employee participated personally and substantially through decision, approval, disapproval, recommendation, rendering of advice, investigation or otherwise while an employee, where the metropolitan government is a party or has a direct or substantial interest.

2. One-Year Representation Restriction Regarding Matters for Which a Former Employee Was Officially Responsible. It shall be a breach of ethical standards for any former employee, within one year after cessation of the former employee's official responsibility, knowingly to act as principal or as an agent for anyone other than the metropolitan government, in connection with any:

a. Judicial or other proceeding, application, request for a ruling or other determination;

b. Contract;

c. Claim; or

d. Charge or controversy,

in matters which were within the former employee's official responsibility, where the metropolitan government is a party or has a direct or substantial interest.

C. Disqualification of Business When an Employee Has a Financial Interest. It shall be a breach of ethical standards for a business in which an employee has a financial interest knowingly to act as a principal or as an agent for anyone other than the metropolitan government, in connection with any:

2. Contract;

3. Claim; or

D. Selling to the metropolitan government After Termination of Employment is Prohibited.

1. It shall be a breach of ethical standards for any former employee, unless the former employee's last annual salary did not exceed eighteen thousand dollars, to engage in selling or attempting to sell supplies, services or construction to the metropolitan government for six months following the date employment ceased.

2. The term "sell" as used herein means signing a bid, proposal or contract; negotiating a contract; contacting any employee for the purpose of obtaining, negotiating or discussing changes in specifications, price, cost allowance or other terms of a contract; settling disputes concerning performance of a contract or any other liaison activity with a view toward the ultimate consummation of a sale although the actual contract therefor is subsequently negotiated by another person; provided, however, that this section is not intended to preclude a former employee from accepting employment with private industry solely because the former employee's employer is a contractor with the metropolitan government; nor shall a former employee be precluded from serving as a consultant to the metropolitan government. (Ord. 92-210 § 1 (12-208), 1992)

4.48.100 Use of official information.

It shall be a breach of ethical standards for any employee or former employee knowingly to use, disclose or allow the use of official information for the purpose of furthering the private interest or personal profit of any person, including the employee. (Ord. 92-210 § 1 (12-209), 1992)

1. Oral or written warnings or reprimands;

2. Suspension with or without pay for specified periods of time; and

3. Termination of employment.

C. Right to Recover from Employee Value Received in Breach of Ethical Standards. The value of anything received by an employee in breach of the ethical standards of this chapter or regulation promulgated hereunder shall be recoverable by the metropolitan government as provided in section 4.48.130 Recovery of value transferred or received in breach of ethical standards. (Ord. 92-210 § 1 (12-301), 1992)

4.48.115 Restrictions on procurement from nonemployees.

A. Nonemployees who provide services to the metropolitan government regarding the feasibility, cost, design, implementation, or legislative adoption of a particular matter, prior to metropolitan council approval of any particular matter that requires such approval — including proposed capital projects or developments — shall be prohibited from subsequent participation in the procurement process, directly or indirectly, in connection with the particular matter, or with any metropolitan government contract related thereto.

B. A violation of this prohibition shall constitute a breach of ethical standards.

C. The restrictions within this section shall be subject to waiver by regulations of the procurement standards board. (Amdt. 1 to Ord. BL2017-952 § 1, 2017; Ord. BL2017-952 § 1, 2017)

4.48.120 Civil and administrative remedies against nonemployees who breach ethical standards.

A. Existing Remedies Not impaired. Civil and administrative remedies against nonemployees which are in existence on the effective date of the ordinance codified in this title shall not be impaired.

B. Supplemental Remedies. In addition to existing remedies for breach of ethical standards of this chapter or regulations promulgated hereunder, the procurement appeals board may impose any one or more of the following;

1. Written warnings or reprimands;

2. Termination of transactions; and

3. Debarment or suspension from being a contractor or subcontractor under metropolitan government contracts.

C. Right to Recover from Nonemployee Value Transferred in Breach of Ethical Standards. The value of anything transferred in breach of the ethical standards of this chapter or regulations promulgated hereunder by a non-employee shall be recoverable by the metropolitan government as provided in Section 4.48.130, Recovery of value transferred or received in breach of ethical standards.

D. Right of the Metropolitan Government to Debar or Suspend. Debarment or suspension may be imposed by the purchasing agent or procurement appeals board in

accordance with the procedure set forth in Section 4.36.020, Authority to debar or suspend, for breach of ethical standards of this chapter, provided that such action may not be taken without the concurrence of the director of law. (Ord. 92-210 § 1 (12-302), 1992)

4.48.130 Recovery of value transferred or received in breach of ethical standards.

A. General Provisions. The value of anything transferred or received in breach of the ethical standards of this chapter or regulations promulgated hereunder by an employee or a nonemployee may be recovered from both the employee and the nonemployee.

B. Recovery of Kickbacks by the metropolitan government. Upon a showing that a subcontractor made a kickback to a prime contractor or a higher-tier subcontractor in connection with the award of a subcontract or order thereunder, it shall be conclusively presumed that the amount thereof was included in the price of the subcontract or order and ultimately borne by the metropolitan government and will be recoverable from the subcontractor making such kickbacks. Recovery from one offending party shall not preclude recovery from other offending parties. (Ord. 92-210 § 1 (12-303), 1992)

4.48.140 Waiver by procurement appeals board.

On written request of an employee, the procurement appeals board may grant an employee a written waiver from the application of Section 4.48.050, Employee conflict of interest and grant permission to proceed with the transaction to such extent and upon such terms and conditions as may be specified. Such waiver and permission may be granted when the interest of the metropolitan government so requires or when the ethical conflict is insubstantial or remote. (Ord. 92-210 § 1 (12-401), 1992)

C. The program administrator shall review an application according to the application checklist to determine whether it: (i) is complete, (ii) proposes a qualified improvement, (iii) contains no errors on its face, and (iv) that all information is provided in the substance and form required by the application checklist. If an application and supporting documents comply with the application checklist, the program administrator may sign the application checklist indicating that an application is deemed approved and the project is a qualified project. If an application to the program is incomplete and/or does not conform to the requirements of the application checklist, the program administrator shall inform the applicant as soon as practicable that an application is denied, the reasons for the denial, and any corrections that could make the application. If feasible, the applicant shall have an opportunity to correct its application.

D. The application review process is confined to confirming that an application is complete, that all attachments conform to the program guidelines, and that the capital provider and property owner are found to sufficiently meet the program's criteria. The program administrator's approval shall not constitute endorsement of any representations that may be made with regard to the operation and any savings associated with the qualified improvements.

E. An application may be conditionally approved if the application is complete but the attachment regarding lender consent of the C-PACER lien is not yet available per requirements outlined in the program guidelines. If after thirty days, not all necessary documents are submitted by the applicant, or a lender does not submit the consent form, the application is deemed as incomplete and the conditional approval is moved to not approved.

F. Upon approval of an application, a property owner or capital provider shall provide the completed and executed assessment agreement and notice of assessment interest and C-PACER lien to the office of the metropolitan trustee for execution at least five days prior to close of the C-PACER transaction, along with a requested date for recordation of such forms.

G. The metropolitan government shall record the assessment agreement and the notice of assessment interest and C-PACER lien with the Davidson County Register of Deeds. At the request of the property owner and the capital provider, the recording of the executed documents may be delegated to the capital provider. (Ord. BL2022-1633 § 1, 2023)

5.22.080 Program guidelines.

B. The program guidelines, program guidebook, and other forms may be amended by the program administrator from time to time to carry out the intent and purposes of this chapter, provided that such amendments comply with the C-PACER Act, this chapter, and applicable law. Notwithstanding, material amendments to the program, program guidelines, or program guidebook concerning the eligibility of an eligible property, property owner, qualified improvement, qualified project, or concerns the roles and responsibilities of the metropolitan government in administering the program shall be approved by the metropolitan council, which shall be by resolution. (Ord. BL2022-1633 § 1, 2023)

5.22.090 Collection and enforcement; delinquencies.

A. Assessment installments shall be paid to the program administrator and be due and payable at the same time and in the same manner as ad valorem property taxes. The program administrator shall cause the assessment installment to be reflected on the annual property tax bill for the eligible property, provided that failure to do so shall not be a defense for not making a payment when due.

B. Failure to pay any assessment installment by the due date shall result in penalties and interest accruing on unpaid amounts as provided for in the financing agreement. Statutory interest and penalties, as allowed for delinquent ad valorem property taxes, shall also accrue on delinquent assessment installments, which shall be retained by the metropolitan government.

C. Collection of assessment installments and enforcement of C-PACER liens due to delinquent assessment installments, including enforcement by tax sale, shall be enforced by the delinquent tax attorney in the same manner and at the same time as delinquent real property taxes. (Ord. BL2022-1633 § 1, 2023)

5.22.100 Fees.

The program administrator is authorized to collect an application fee at the time of application to the program that is up to one percent of the applicable C-PACER financing, but not to exceed fifty thousand dollars. The fee shall be calculated to offset the actual and reasonable causes to the metropolitan government for administration of the program. If an application is declined, the fee paid shall be returned to the applicant, less the amount necessary to offset the actual and reasonable costs of reviewing the application. (Ord. BL2022-1633 § 1, 2023)

5.22.110 Severability.

If any provision or clause of this chapter or the application thereof to any person or circumstance is held to be unenforceable by a court of competent jurisdiction, such clause or provision and the remainder of this chapter shall remain effective and enforceable to the full extent allowed by law, and all clauses and provisions of this chapter are hereby declared to be severable. In the event and to the extent of a conflict exists between this chapter and the C-PACER Act, the C-PACER Act shall govern. (Ord. BL2022-1633 § 1, 2023)

5.22.120 No liability.

Except for a right of action to enforce the terms of this chapter, this chapter does not confer any right of action nor property interest upon any party to a C-PACER

transaction against the metropolitan government, and, so long as metropolitan government complies in good faith with the terms of the C-PACER Act and this chapter, the metropolitan government shall incur no liability for enacting the program, nor shall the metropolitan government, its governing body, officers, employees, or agents be personally liable as a result of exercising any rights or responsibilities granted pursuant to this chapter. 6.06.020 Registration, permit and fees required.

It is unlawful to operate any after hours establishment within the metropolitan government area unless a permit has been issued by the department for the operation of such after hours establishment in accordance with the provisions of this chapter after payment of an application fee of two hundred fifty dollars, with a one hundred dollar annual fee for the permit, plus the cost for providing the required background checks as determined by the director. (Ord. BL2007-1546 § 1, 2007)

If the department deems it necessary, the department may submit the necessary information of each applicant for an after hours establishment permit to the police department for the purpose of ascertaining whether the applicant has ever been arrested or convicted of any offense which would prohibit the issuance of a permit. In the alternative, the police department may provide the department with computer access to their records revealing the required information and provide assistance so that the department can conduct its own checks. (Ord. BL2008-116 §§ 1, 2, 2008; Ord. BL2007-1546 § 1, 2007)

6.08.005 Findings and intent of the council.

The Council of the Metropolitan Government of Nashville and Davidson County finds that the development of cable television and communications systems has conferred substantial benefits upon the people of Metropolitan Nashville and Davidson County. The council further finds that the continuation and expansion of such systems, in terms of area covered and services provided, is in the public interest of Metropolitan Nashville and Davidson County. Due to the complex and rapidly changing technology associated with cable television, the council further finds that the public convenience, safety, and general welfare can best be served by establishing regulatory powers within the limits allowed by federal law and Tennessee law, which should be vested in the council or such persons as the council shall designate. It is the intent of this chapter and subsequent amendments to provide for and specify the means to best satisfy the public interest and public purpose in these matters, and any franchise issued pursuant to this chapter shall be deemed to include these findings as an integral part thereof. (Ord. 95-1368 § 2 (part), 1995)

6.08.010 General provisions.

A. Title. This chapter shall be referred to as "Nashville-Davidson County Cable Communications Franchise and Regulatory Ordinance."

B. Purpose. The metropolitan county council of Nashville and Davidson County finds that the development of cable television systems has the potential to be of great benefit to the people of Metropolitan Nashville. Cable technology is rapidly changing, and cable plays an essential role as part of Metropolitan Nashville's basic infrastructure. Cable television systems extensively make use of scarce and valuable public rights-of-way, in a manner different from the way in which the general public uses them, and in a manner reserved primarily for those who provide services to the public, such as utility companies. The grant of a franchise has the effect of giving the holder a special privilege that confers significant economic benefits. This creates a need to ensure that the holder of a franchise exercises it in the public trust. The council, therefore, finds that public convenience, safety, and general welfare can best be served by establishing regulatory powers vested in Metropolitan Nashville or such persons as the council so designates to protect the public and to ensure that any franchise granted is operated in the public interest. In light of the foregoing, the following goals, among others, underlie the provisions set forth in this chapter:

1. Cable should be available to as many Metropolitan Nashville residents as possible.

2. A cable system should be capable of accommodating both present and reasonably foreseeable future cable-related needs of the community.

3. A cable system should be constructed and maintained during a franchise term so that changes in technology may be integrated to the maximum extent possible into existing system facilities, taking into account the costs of implementing such changes.

4. A cable system should be responsive to the needs and interests of the local community.

The council intends that all provisions set forth in this chapter be construed to serve the public interest and the foregoing public purposes, and that any franchise issued pursuant to this chapter be construed to include the foregoing findings and public purposes as integral parts thereof. (Ord. 95-1368 § 2 (part), 1995)

6.08.030 Grant of franchise.

A. Grant of Franchise. Metropolitan Nashville may grant one or more cable television franchises, and each such franchise shall be awarded in accordance with and subject to the provisions of this chapter. This chapter may be amended from time to time, and in no event shall this chapter be considered a contract between Metropolitan Nashville and a franchisee such that Metropolitan Nashville would be prohibited from amending any provision hereof; provided, however, that by entering into any franchise agreement hereunder, a franchisee shall not be deemed to have waived any right it may have to object to or challenge any amendment to this chapter made after the effective date of such franchise agreement on the grounds that such amendment abridges any contractual rights a franchisee may have in its franchise agreement or is otherwise unlawful.

B. Franchise/Certificate of Franchise Authority Required. No person may construct or operate a cable system without a certificate of franchise authority granted by the state pursuant to T.C.A. § 7-59-301 et seq. or a franchise agreement granted by the metropolitan government.

C. Council Action Required. All franchises, and all renewals, extensions and amendments thereof shall be granted only by ordinance. No such ordinance shall be adopted before the application therefor has been filed with the council through the metropolitan clerk and same shall have been referred by the council to the CATV special committee for its consideration.

1. No ordinance granting or revoking a franchise shall be passed by the council without a full public proceeding affording due process in which the franchisee's legal, character, financial, technical and other qualifications, and the adequacy and feasibility of its construction arrangements have been reviewed and approved either by the full council or a committee composed of members of the council only. The franchise shall include those provisions of the franchisee's application pursuant to Section 6.08.040 that are finally negotiated and accepted by Metropolitan Nashville and franchisee in writing. Nothing in the franchise shall be deemed to waive the requirements of the various codes and ordinances of Metropolitan Nashville regarding permits, fees to be paid, or manner of construction.

2. Franchises shall be evidenced by a contract adopted by the council, which contract shall be submitted to the mayor in the manner provided for by the Metropolitan Government Charter.

D. Length of Franchise. A franchise shall initially be granted for a period as set forth in a franchise agreement; provided, however, that the term of a franchise shall not exceed fifteen years. Notwithstanding the foregoing, a franchisee may apply for renewal or extension pursuant to Section 6.08.040 of this chapter.

E. Reserved.

F. Franchisee Subject to Other Laws, Police Power.

1. A franchisee shall at all times be subject to and shall comply with all applicable federal, state, and local laws. A franchisee shall at all times be subject to all lawful exercise of the police power of Metropolitan Nashville, including all rights Metropolitan Nashville may have under 47 U.S.C. Section 552.

2. No course of dealing between a franchisee and Metropolitan Nashville, or any delay on the part of Metropolitan Nashville in exercising any rights hereunder, shall operate as a waiver of any such rights of Metropolitan Nashville or acquiescence in the actions of a franchisee in contravention of rights except to the extent expressly waived by Metropolitan Nashville or expressly provided for in a franchise agreement.

3. Metropolitan Nashville shall have the maximum plenary authority to regulate cable systems, franchisees, and franchises as may now or hereafter be lawfully permissible; except where rights are expressly waived by a franchise agreement, they are reserved, whether expressly enumerated or not.

G. Modification of Franchise in Event of Conflict. Should the State of Tennessee, FCC rules or federal law require the franchisee to perform or refrain from performing any act, the performance or nonperformance of which is inconsistent with any of the provisions of this chapter or a franchisee's franchise agreement, the franchisee shall so notify the council and the council shall thereupon, if it determines that a material provision of this chapter or the franchise agreement is affected, have the right to modify any such provision herein to such reasonable extent as may be necessary to carry out the full intent and purpose of the franchise agreement and this chapter. Metropolitan Nashville may terminate the franchise in the event Metropolitan Nashville determines that substantial and

material compliance with the original proposed terms of the franchise agreement has been frustrated by such state or federal requirements.

H. Interpretation of Franchise Terms.

1. Reserved.

2. The provisions of this chapter and a franchise agreement will be liberally construed in favor of promoting the public interest.

3. A franchise agreement will be governed by and construed in accordance with the laws of the State of Tennessee and federal law.

I. Operation of a Cable System Without a Franchise/Certificate of Franchise Authority. Any person who occupies the public rights-of-way for the purpose of operating or constructing a cable system and who does not hold a valid franchise from the metropolitan government or a certificate of franchise authority from the state shall be subject to all provisions of this chapter. In its discretion the metropolitan government at any time may require such person to enter into a franchise agreement within thirty days of receipt of a written notice by the metropolitan government that a franchise agreement is required; require such person to remove its property and restore the area to a condition satisfactory to the metropolitan government within such time period; remove the property itself and restore the area to a satisfactory condition and charge the person the costs therefor; and/or take any other action it is entitled to take under applicable law, including filing for and seeking damages under trespass. In no event shall a franchise be created unless it is issued by action of the metropolitan government or the state and subject to a written franchise agreement or certificate of franchise authority.

J. Acts at Franchisee's Expense. Any act that a franchisee is or may be required to perform under this chapter, a franchise agreement, or applicable law shall be performed at the franchisee's expense, unless expressly provided to the contrary in this chapter, the franchise agreement, or applicable law.

K. Reserved.

L. Exclusive Contracts and Anticompetitive Acts Prohibited.

1. Except to the extent permitted by subsection (E)(6) of this section, no franchisee shall, as a condition of extending service, require any person to enter into an exclusive contract for the provision of cable service, or demand the exclusive right to serve a person or location.

2. No franchisee shall engage in acts that have the purpose or effect of unlawfully limiting competition for the provision of cable service or services similar to cable service in Metropolitan Nashville within the meaning of applicable federal or state law.

M. Reserved. (Ord. BL2013-396 §§ 2—4, 2013; Ord. 95-1368 § 2 (part), 1995)

6.08.040 Applications for grant, renewal, or modification of franchises.

A. Written Application.

1. A written application shall be filed with Metropolitan Nashville for (a) grant of an initial franchise; (b) renewal of a franchise under 47 U.S.C. Section 546(a)—(g); or (c) modification of a franchise agreement pursuant to this chapter or a franchise agreement. An applicant shall demonstrate in its application compliance with all requirements of this chapter and all applicable laws.

2. Any application for a franchise shall be made to the council through the metropolitan clerk and introduced in the council in the manner provided by the rules of the council. No grant, renewal or modification of a franchise shall be issued until the council has received the recommendation of the CATV special committee or the CATV special committee has failed to act within sixty days from the date the council has referred such application to such committee, unless a longer period is granted by the council.

3. Each such application shall be kept on file with the metropolitan clerk. Any intentional misrepresentation in such application shall be grounds for the rejection of the application. The application shall be a part of any franchise agreement subject to this chapter.

4. The mandatory referral to the metropolitan planning commission required by Section 11.505 of the Metropolitan Charter shall apply to each franchise application, but such referral to the planning commission may be made at the same time as any one or more franchise applications or bills are referred to the CATV special committee.

5. To be acceptable for filing, a signed original of the application shall be submitted together with twelve copies. The application must be accompanied by the required application filing fee as set forth in subsection F of this section, conform to any applicable request for proposals, and contain all required information. All applications shall include the names and addresses of persons authorized to act on behalf of the applicant with respect to the application.

6. All applications accepted for filing shall be made available by Metropolitan Nashville for public inspection.

B. Application for Grant of a Franchise, Other Than a Cable Act Renewal Franchise.

1. A person may apply for a franchise by submitting a request for issuance of a notice of sale ("NOS") and requesting an evaluation of its application pursuant to subsection (B)(4) of this section. Upon receipt of a

request for an NOS, Metropolitan Nashville shall, if necessary, commence a proceeding to identify the future cable-related needs and interests of the community and, upon completion of that proceeding, shall promptly issue an NOS and proposed franchise agreement, which shall be mailed to the person requesting its issuance and made available to any other interested party. The applicant shall respond within the time directed by Metropolitan Nashville, providing the information and material set forth in subsection D of this section. The procedures, instructions, and requirements set forth in the NOS shall be followed by each applicant as if set forth and required herein. Metropolitan Nashville or its designee may seek additional information from any applicant and establish deadlines for the submission of such information.

2. Notwithstanding the provisions of subsection (B)(1) of this section, a person may apply for an initial franchise by submitting an unsolicited application containing the information required in subsection D of this section and requesting an evaluation of that application pursuant to subsection (B)(3) of this section. Prior to evaluating that application, Metropolitan Nashville may conduct such investigations as are necessary to determine whether the application satisfies the standards set forth in subsection (B)(3) of this section and may seek additional applications.

3. In evaluating an application for a franchise, Metropolitan Nashville shall consider, among other things, the following factors:

a. The extent to which the applicant has substantially complied with the applicable law and the material terms of any existing cable franchise for Metropolitan Nashville;

b. Whether the quality of the applicant's service under any existing franchise in Metropolitan Nashville, including signal quality, level of service, response to customer complaints, billing practices, and the like, has been reasonable in light of the needs and interests of the communities served;

c. Whether the applicant has the financial, technical, and legal qualifications to provide cable service;

d. Whether the application satisfies any minimum requirements established by Metropolitan Nashville and is otherwise reasonable to meet the future cable-related needs and interests of the community, taking into account the cost of meeting such needs and interests;

e. Whether, to the extent not considered as part of subsection (B)(3)(d) of this section, the applicant will provide adequate public, educational, and governmental access channel capacity, facilities, or financial support;

f. Whether issuance of a franchise is warranted in the public interest considering the immediate and future effect on the public rights-of-way and private property that would be used by the cable system, including the extent to which installation or maintenance as planned would require replacement of property or involve disruption of property, public services, or use of the public rights-of-way; the effect of granting a franchise on the ability of all cable systems in Metropolitan Nashville to meet the cable-related needs and interests of the community; and the comparative superiority or inferiority of competing applications;

g. Whether the applicant or an affiliate of the applicant owns or controls any other cable system in Metropolitan Nashville, or whether grant of the application may eliminate or reduce competition in the delivery of cable service in Metropolitan Nashville.

4. If Metropolitan Nashville finds that it is in the public interest to issue a franchise considering the factors set forth above, and subject to the applicant's entry into an appropriate franchise agreement, it shall issue a franchise. If Metropolitan Nashville denies a franchise, it will issue a written decision explaining why the franchise was denied. Prior to deciding whether or not to issue a franchise, Metropolitan Nashville shall hold one or more public hearings or implement other procedures under which comments from the public on an application may be received. Metropolitan Nashville also may grant or deny a request for a franchise based on its review of an application without further proceedings and may reject any application that is incomplete or fails to respond to an NOS. This chapter is not intended and shall not be interpreted to grant any applicant or existing franchisee standing to challenge the issuance of a franchise to another.

C. Application for Grant of a Cable Act Renewal Franchise. Applications for renewal under the Cable Act shall be received and reviewed in a manner consistent with Section 626 of the Cable Act, 47 U.S.C. Section 546. If neither a franchisee nor Metropolitan Nashville activates in a timely manner or can activate the renewal process set forth in 47 U.S.C. Section 546(a)—(g) (including, for example, if the provisions are repealed), and except as to applications submitted pursuant to 47 U.S.C. Section 546(h), the provisions of this Section 6.08.040 shall apply and a renewal request shall be evaluated using the same criteria as any other request for a franchise. The following requirements shall apply to renewal requests properly submitted pursuant to the Cable Act:

1. If the provisions of 47 U.S.C. Section 546(a)—(g) are properly invoked, Metropolitan Nashville shall issue a request for renewal proposal ("RFRP") after conducting a proceeding to review the applicant's past performance and to identify future cable-related community needs and interests. The department of information systems shall

establish deadlines and procedures for responding to the RFRP, may seek additional information from the applicant, and shall establish deadlines for the submission of that additional information. Following receipt of the application responding to that RFRP (and such additional information as may be provided in response to requests), Metropolitan Nashville will determine that the franchise should be renewed, or make a preliminary assessment that the franchise should not be renewed. This determination shall be in accordance with the time limits established by the Cable Act. The preliminary determination shall be made by resolution. If Metropolitan Nashville determines that the franchise should not be renewed, and the applicant that submitted the renewal application notifies Metropolitan Nashville, either in its proposal in response to the RFRP or within ten working days of the preliminary assessment, that it wishes to pursue any rights to an administrative proceeding it has under the Cable Act, then the CATV special committee shall commence an administrative proceeding after providing prompt public notice thereof, in accordance with the Cable Act. If Metropolitan Nashville decides preliminarily to grant renewal, it shall prepare a final franchise agreement that incorporates, as appropriate, the commitments made by the applicant in the renewal application. If the applicant accepts the franchise agreement, and the final agreement is ratified by Metropolitan Nashville, the franchise shall be renewed. If the franchise agreement is not so accepted and ratified within the time limits established by 47 U.S.C. Section 546(c)(1), renewal shall be deemed preliminarily denied, and an administrative proceeding commenced if the applicant that submitted the renewal application requests it within ten days of the expiration of the time limit established by 47 U.S.C. Section 546(c)(1).

2. If an administrative hearing is commenced pursuant to 47 U.S.C. Section 546(c), the applicant's renewal application shall be evaluated considering such matters as may be considered consistent with federal law. The following procedures shall apply:

a. The CATV special committee shall serve as the administrative hearing body, and will evaluate the proposal. The director and staff of the department of information systems, or their designees (collectively "staff"), shall serve as the representative of the metropolitan government.

b. The CATV special committee shall establish a schedule for proceeding which allows for documentary discovery and interrogatory responses, production of evidence, and cross-examination of witnesses. Depositions shall not be permitted unless the party requesting the deposition shows that documentary discovery and interrogatory responses will not provide it an adequate opportunity to require the production of evidence necessary to present its case. The CATV special committee shall have the authority to require the production of evidence as the interests of justice may require, including to require the production of evidence by the applicant that submitted the renewal application and any entity that owns or controls or is owned or controlled by, or under common control with, such applicant directly or indirectly. The CATV special committee may issue protective orders, but shall not prohibit discovery on the ground that evidence sought is proprietary or involves business secrets. Any order may be enforced by a court of competent jurisdiction or by imposing appropriate sanctions in the administrative hearing.

c. The CATV special committee may conduct a prehearing conference and establish appropriate prehearing orders. Intervention by nonparties is not authorized except to the extent required by the Cable Act.

d. The CATV special committee shall require the staff and the applicant to submit prepared testimony prior to the hearing. Unless the parties agree otherwise, the applicant shall present evidence first, and the staff shall present evidence second.

e. Any reports or the transcript or summary of any proceedings conducted pursuant to 47 U.S.C. Section 546(a) shall for purposes of the administrative hearing be regarded no differently than any other evidence. The staff and the applicant must be afforded full procedural protection regarding evidence related to these proceedings, including the right to refute any evidence introduced in these proceedings or sought to be introduced by the other party. Both shall have the opportunity to submit additional evidence related to issues raised in the proceeding conducted pursuant to 47 U.S.C. Section 546(a).

f. Following completion of any hearing, the CATV special committee shall require the parties to submit proposed findings of fact with respect to the matters that Metropolitan Nashville is entitled to consider in determining whether renewal ought to be granted. Based on the record of the hearing, the CATV special committee shall then prepare written findings with respect to those matters, and submit those findings to the council and to the parties.

g. The parties shall have thirty days from the date the findings are submitted to the council to file exceptions to those findings. The council shall thereafter issue a written decision granting or denying the application for renewal, consistent with the requirements of the Cable Act and based on the record of such proceeding. A copy of the final decision of the council shall be provided to the applicant.

h. The proceeding shall be conducted with due speed.

i. In conducting the proceedings, and except as inconsistent with the foregoing, the CATV special committee will follow applicable state administrative procedure laws, or the successor statutes thereto. The CATV special committee may request that the council adopt additional procedures and requirements as necessary in the interest of justice.

j. This section does not prohibit any franchisee from submitting an informal renewal application pursuant to 47 U.S.C. Section 546(h), which application may be granted or denied in accordance with the provisions of 47 U.S.C. Section 546(h). If such an informal renewal application is granted, then the steps specified in subsections (C)(1) and (C)(2)(a—l) of this section need not be taken, notwithstanding the provisions of those subsections.

k. The provisions of this chapter shall be read and applied so that they are consistent with Section 626 of the Cable Act, 47 U.S.C. Section 546.

D. Contents of Applications. An NOS for the grant of a franchise, including an RFRP for a renewal franchise under 47 U.S.C. Section 546(c), shall require, and any application submitted (other than an application submitted pursuant to 47 U.S.C. Section 546(h)) shall contain, at a minimum, the following information:

1. Name and address of the applicant and identification of the ownership and control of the applicant, including: The names and addresses of the ten largest holders of an ownership interest in the applicant and affiliates of the applicant, and all persons with five percent or more ownership interest in the applicant and its affiliates; the persons who control the applicant and its affiliates; all officers and directors of the applicant and its affiliates; and any other business affiliation and cable system ownership interest of each named person;

2. A demonstration of the applicant's technical ability to construct and/or operate the proposed cable system, including identification of key personnel;

3. A demonstration of the applicant's legal qualifications to construct and/or operate the proposed cable system, including but not limited to a demonstration that the applicant meets the following criteria:

a. The applicant must not have submitted an application for an initial or renewal franchise to Metropolitan Nashville, which was denied on the ground that the applicant failed to propose a system meeting the cable-related needs and interests of the community, or as to which any challenges to such franchising decision were finally resolved adversely to the applicant, within three years preceding the submission of the application.

b. The applicant must not have had any cable television franchise validly revoked by any franchising authority within three years preceding the submission of the application.

c. The applicant must have the necessary authority under Tennessee law to operate a cable system.

d. The applicant shall not be issued a franchise if it may not hold the franchise as a matter of federal law. An applicant must have, or show that it is qualified to obtain, any necessary federal licenses, franchises, authorizations, approvals or waivers required to own and/or operate the system proposed.

e. 7. In no event shall NECAT have any authority or control of government access television, which is managed and operated by the metropolitan department of information services.

6.08.120 Insurance—Surety—Indemnification.

A. Insurance Required. A franchisee shall maintain, and by its acceptance of a franchise specifically agrees that it will maintain, throughout the entire length of the franchise period, at least the following liability insurance coverage insuring Metropolitan Nashville and the

franchisee: Worker's compensation and employer liability insurance to meet all requirements of Tennessee law and comprehensive general liability insurance with respect to the construction, operation, and maintenance of the cable system, and the conduct of the franchisee's business in Metropolitan Nashville, in the minimum amounts of:

1. Three million dollars for property damage resulting from any one accident;

2. One million dollars for personal bodily injury and death for any one person;

3. Five million dollars for personal bodily injury or death resulting from any one accident; and

4. Two million dollars for all other types of liability. Metropolitan Nashville may review these amounts no more than once every three years and may require reasonable adjustments to them consistent with the public interest. In the event that the franchisee objects to an increase in a policy limit and the parties are unable to agree on a mutually acceptable amount, the dispute shall be resolved by arbitration in accordance with the procedures of the American Arbitration Association.

B. Qualifications of Sureties. All insurance policies shall be with sureties qualified to do business in the State of Tennessee, with an A-1 or better rating of insurance by Best's Key Rating Guide, Property/ Casualty Edition, and in a form approved by Metropolitan Nashville.

C. Policies Available for Review. A franchisee shall keep on file with Metropolitan Nashville certificates of insurance.

D. Additional Insureds—Prior Notice of Policy Cancellation. All general liability insurance policies shall name Metropolitan Nashville, its officers, boards, commissions, commissioners, agents, and employees as additional insureds and shall further provide that any cancellation or reduction in coverage shall not be effective unless thirty days' prior written notice thereof has been given to Metropolitan Nashville. A franchisee shall not cancel any required insurance policy without submission of proof that the franchisee has obtained alternative insurance satisfactory to Metropolitan Nashville which complies with this chapter.

E. Failure Constitutes Material Violation. Failure to comply with the insurance requirements set forth in this section shall constitute a material violation of a franchise.

F. Indemnification.

1. A franchisee shall, at its sole cost and expense, indemnify, hold harmless, and defend Metropolitan Nashville, its officials, boards, commissions, commissioners, agents, and employees, against any and all claims, suits, causes of action, proceedings, and judgments for damages or equitable relief arising out of the construction, maintenance, or operation of its cable system; copyright infringements or a failure by the franchisee to secure consents from the owners, authorized distributors, or franchisees of programs to be delivered by the cable system; the conduct of the franchisee's business in Metropolitan Nashville; or in any way arising out of the franchisee's enjoyment or exercise of its franchise, regardless of whether the act or omission complained of is authorized, allowed, or prohibited by this chapter or a franchise agreement.

2. Specifically, a franchisee shall, at its sole cost and expense, fully indemnify, defend, and hold harmless Metropolitan Nashville, and in its capacity as such, the officers, agents, and employees thereof, from and against any and all claims, suits, actions, liability, and judgments for damages or otherwise subject to Section 638 of the Cable Act, 47 U.S.C. Section 558, arising out of or alleged to arise out of the installation, construction, operation, or maintenance of its system, including but not limited to any claim against the franchisee for invasion of the right of privacy, defamation of any person, firm or corporation, or the violation or infringement of any copyright, trademark, trade name, service mark, or patent, or of any other right of any person, firm, or corporation. This indemnity does not apply to (a) programming carried on any channel set aside for public, educational, or government use, or channels leased pursuant to 47 U.S.C. Section 532, unless the franchisee was in any respect engaged in determining the editorial content of the program, or adopts a policy of prescreening programming for the purported purpose of banning or regulating indecent or obscene programming; or (b) liability arising solely out of Metropolitan Nashville's gross negligence or that of its officers, employees, agents, or independent contractors.

3. The indemnity provision includes, but is not limited to, Metropolitan Nashville's reasonable attorneys' fees incurred in defending against any such claim, suit, or proceeding.

4. No claim of indemnity shall be valid unless Metropolitan Nashville has provided the franchisee with prompt notice and a timely opportunity to assume the defense of a claim covered by the indemnity.

G. No Limit of Liability. Neither the provisions of this section nor any damages recovered by Metropolitan Nashville shall be construed to limit the liability of a franchisee for damages under any franchise issued hereunder. (Ord. 95-1368 § 2 (part), 1995)

6.08.130 Performance guarantees and remedies.

A. Security Fund.

1. Prior to a franchise's becoming effective, Metropolitan Nashville may require the franchisee to post with Metropolitan Nashville a cash security deposit

to be used as a security fund to ensure the franchisee's faithful performance of and compliance with all provisions of this chapter, the franchise agreement, and other applicable law, and compliance with all orders, permits, and directions of Metropolitan Nashville, and the payment by the franchisee of any claims, liens, fees, or taxes due Metropolitan Nashville which arise by reason of the construction, operation, or maintenance of the system. The amount of the security fund shall be specified in the franchise agreement, but may not exceed five percent of the franchisee's projected annual average gross revenues.

2. In lieu of a cash security fund, a franchisee may file and maintain with Metropolitan Nashville an irrevocable letter of credit or a corporate surety bond with an acceptable surety in the amount specified in its franchise agreement to serve the same purposes as the cash security fund. Said letter of credit or bond shall remain in effect for the full term of the franchise plus an additional six months thereafter. The franchisee and its surety shall be jointly and severally liable under the terms of the letter of credit or bond for the franchisee's failure to ensure its faithful performance of and compliance with all provisions of this chapter, the franchise agreement, and other applicable law, and compliance with all orders, permits, and directions of Metropolitan Nashville, and the payment by the franchisee of any claims, liens, fees, or taxes due Metropolitan Nashville which arise by reason of the construction, operation, or maintenance of the system. The letter of credit or bond shall provide for thirty days' prior written notice to Metropolitan Nashville of any intention on the part of the franchisee to cancel, fail to renew, or otherwise materially alter its terms. Neither the filing of a letter of credit or bond with Metropolitan Nashville, nor the receipt of any damages recovered by Metropolitan Nashville thereunder, shall be construed to excuse faithful performance by the franchisee or limit the liability of the franchisee under the terms of its franchise for damages, either to the full amount of the letter of credit or bond, or otherwise.

3. The rights reserved to Metropolitan Nashville with respect to the security fund are in addition to all other rights of Metropolitan Nashville, whether reserved by this chapter or authorized by other law or a franchise agreement, and no action, proceeding, or exercise of a right with respect to such security fund or letter of credit will affect any other right Metropolitan Nashville may have.

4. The following procedures shall apply to drawing on the security fund and letter of credit:

a. If the franchisee fails to make timely payment to Metropolitan Nashville of any amount due as a result of a franchise, fails to make timely payment to Metropolitan Nashville of any amounts due under a franchise agreement or applicable law, fails to make timely payment to Metropolitan Nashville of any taxes due, or fails to compensate Metropolitan Nashville within ten days of written notification that such compensation is due, for any damages, costs, or expenses Metropolitan Nashville suffers or incurs by reason of any act or omission of the franchisee in connection with its franchise agreement or the enforcement of its franchise agreement after ten days' notice to comply with any provision of the franchise or franchise agreement that Metropolitan Nashville determines can be remedied by an expenditure of the security, Metropolitan Nashville may withdraw the amount thereof, with interest and any penalties, from the security fund or from funds available under the letter of credit or bond.

b. Within three days of a withdrawal from the security fund or under the letter of credit or bond, Metropolitan Nashville shall mail, by certified mail, return receipt requested, written notification of the amount, date, and purpose of such withdrawal to the franchisee.

c. If at the time of a withdrawal from the security fund or under the letter of credit or bond by Metropolitan Nashville, the amounts available are insufficient to provide the total payment towards which the withdrawal is directed, the balance of such payment shall continue as the obligation of the franchisee to Metropolitan Nashville until it is paid.

d. No later than thirty days after mailing of notification to the franchisee by certified mail, return receipt requested, of a withdrawal under the security fund, letter of credit or bond, the franchisee shall deliver to Metropolitan Nashville for deposit in the security fund an amount equal to the amount so withdrawn and shall restore the letter of credit or bond. Failure to make timely delivery of such amount to Metropolitan Nashville or to restore the letter of credit or bond shall constitute a material violation of the franchise.

e. Upon termination of the franchise under conditions other than those stipulating forfeiture of the security fund, the balance then remaining in the security fund, together with any interest then accrued, shall be withdrawn by Metropolitan Nashville and paid to the franchisee within ninety days of such termination, provided that there is then no outstanding default on the part of the franchisee.

B. Performance Bond.

1. Prior to any cable system construction, upgrade, or other work in the public rights-of-way, a franchisee shall establish in Metropolitan Nashville's favor a performance bond in an amount specified in the franchise agreement or other authorization as necessary to ensure

the franchisee's faithful performance of the construction, upgrade, or other work. The amount of such performance bond shall be equal to ten percent of the total cost of the work, but shall not exceed three hundred thousand dollars.

2. In the event a franchisee subject to such a performance bond fails to complete the cable system construction, upgrade, or other work in the public rights-of-way in a safe, timely, and competent manner in accord with the provisions of a franchise agreement, there shall be recoverable, jointly and severally from the principal and surety of the bond, any damages or loss suffered by Metropolitan Nashville as a result, including the full amount of any compensation, indemnification, or cost of removal or abandonment of any property of the franchisee, or the cost of completing or repairing the system construction, upgrade, or other work in the public rights-of-way, plus a reasonable allowance for attorneys' fees, up to the full amount of the bond. Metropolitan Nashville may also recover against the bond any amount recoverable against the security fund where such amount exceeds that available under the security fund.

3. Upon completion of the system construction, upgrade, or other work in the public rights-of-way and payment of all construction obligations of the cable system to the satisfaction of Metropolitan Nashville, Metropolitan Nashville shall eliminate the bond or reduce its amount after a time appropriate to determine whether the work performed was satisfactory, which time shall be established considering the nature of the work performed. Metropolitan Nashville may subsequently require a new bond or an increase in the bond amount for any subsequent construction, upgrade, or other work in the public rights-of-way. In any event, the total amount of the bond shall equal ten percent of the cost of the work, but shall not exceed three hundred thousand dollars.

4. The performance bond shall be issued by a surety with an A-1 or better rating of insurance in Best's Key Rating Guide, Property/Casualty Edition; shall be subject to the approval of Metropolitan Nashville; and shall contain the following endorsement:

> This bond may not be canceled, or allowed to lapse, until sixty (60) days after receipt by Metropolitan Nashville, by certified mail, return receipt requested, of a written notice from the issuer of the bond of intent to cancel or not to renew.

C. Failure Constitutes Material Violation. Failure to maintain the security fund, letter of credit, or performance bond shall constitute a material violation of a franchise.

D. Remedies. In addition to any other remedies available at law or equity, Metropolitan Nashville may pursue the following remedies in the event a franchisee violates this chapter, its franchise agreement, other applicable ordinances, or applicable state or federal law:

1. Revoke the franchise pursuant to the procedures specified in this chapter;

2. Impose any penalties available under applicable state and local laws for violation of city ordinances;

3. Seek legal or equitable relief from any court of competent jurisdiction;

4. Apply any remedy provided for in a franchise agreement, including liquidated damages, if any.

E. Reserved.

F. Obligation of Compliance. Metropolitan Nashville's exercise of a remedy or franchisee's payment of liquidated damages or penalties relieve a franchisee of its obligations to comply with its franchise. In addition, Metropolitan Nashville may exercise any rights it has at law or equity.

G. Relation to Insurance and Indemnity Requirements. Recovery by Metropolitan Nashville of any amounts under insurance, the performance bond, the security fund or letter of credit, or otherwise does not limit a franchisee's duty to indemnify Metropolitan Nashville in any way; nor shall such recovery relieve a franchisee of its obligations under a franchise, limit the amounts owed to Metropolitan Nashville, or in any respect prevent Metropolitan Nashville from exercising any other right or remedy it may have. (Ord. BL2013-396 § 9, 2013; Ord. 95-1368 § 2 (part), 1995)

6.08.140 Reserved.

Editor's note—Ord. BL2013-396, § 9, adopted April 16, 2013, repealed § 6.08.140, which pertained to transfers and derived from Ord. 95-1368 § 2 (part), 1995.

6.08.150 Discrimination prohibited.

A. Discriminatory Practices Prohibited.

1. A franchisee shall not deny service, deny access, or otherwise discriminate against subscribers, programmers, or residents of Metropolitan Nashville on the basis of race, color, religion, national origin, sex, or age.

2. A franchisee shall not discriminate among persons or take any retaliatory action against a person because of that person's exercise of any right it may have under federal, state, or local law, nor may the franchisee require a person to waive such rights as a condition of taking service.

3. A franchisee shall not deny access or levy different rates and charges on any group of potential residential cable subscribers because of the income of the residents of the local area in which such group resides.

4. A franchisee is prohibited from discriminating in its rates or charges or from granting undue preferences to any subscriber, potential subscriber, or group of subscribers or potential subscribers; provided, however, that subject to subsection D of this section, a franchisee may offer temporary, bona fide promotional discounts in order to attract or maintain subscribers, so long as such discounts are offered on a nondiscriminatory basis to similar classes of subscribers throughout Metropolitan Nashville; and a franchisee may offer discounts for the elderly, the handicapped, or the economically disadvantaged, and such other discounts as it is expressly entitled to provide under federal law, if such discounts are applied in a uniform and consistent manner. A franchisee shall comply at all times with all applicable federal, state, and city laws, and all executive and administrative orders relating to nondiscrimination.

B. Equal Employment Opportunity. A franchisee shall not refuse to employ, discharge from employment, or discriminate against any person in compensation or in terms, conditions, or privileges of employment because of race, color, religion, national origin, sex, or age. A franchisee shall comply with all federal, state, and local laws and regulations governing equal employment opportunities, as the same may be from time to time amended.

C. Subscriber Privacy.

1. A franchisee shall at all times protect the privacy of all subscribers pursuant to the provisions of Section 631 of the Cable Act, 47 U.S.C. Section 551. A franchisee shall not condition subscriber service on the subscriber's grant of permission to disclose information which, pursuant to federal or state law, cannot be disclosed without the subscriber's explicit consent.

2. Except to the extent permitted by the Cable Act, neither a franchisee nor its agents or employees shall, without the prior and specific written authorization of the subscriber involved, sell or otherwise make available for commercial purposes the names, addresses, or telephone numbers of any subscriber or subscribers, or any information that identifies the individual viewing habits of any subscriber or subscribers.

3. Neither the franchisee nor any other person, agency or entity shall tap or arrange for the tapping of any cable, line, signal input device, or subscriber outlet or receiver that is part of a cable system for any purpose whatsoever.

4. No subliminal transmission shall be utilized at any time, for any purpose whatsoever.

5. A franchisee shall not utilize any two-way communications capability of the system for unauthorized subscriber surveillance of any kind.

D. Uniform Rates. A franchisee shall have a rate structure for the provision of cable services that is uniform throughout the geographic area in which it provides cable service over its cable system. Notwithstanding the foregoing, a franchisee may conduct experimental services and service offerings to particular regions of its franchise area without making such experimental services available throughout its franchise area; provided, that such experimental service offerings are offered on a nondiscriminatory basis to similar classes of subscribers. (Ord. 95-1368 § 2 (part), 1995)

6.08.160 Miscellaneous provisions.

A. Compliance With Laws. Each franchisee shall comply with all federal and Tennessee laws, as well as Metropolitan Nashville ordinances, resolutions, rules and regulations heretofore and hereafter adopted or established during the entire term of its franchise.

B. No Recourse Against Metropolitan Nashville. Without limiting such immunities as Metropolitan Nashville or other persons may have under applicable law, a franchisee shall have no recourse whatsoever against Metropolitan Nashville or its officials, boards, commissions, agents or employees for any loss, costs, expense or damage arising out of any provision or requirement of this chapter or because of the enforcement of this chapter or Metropolitan Nashville's exercise of its authority pursuant to this chapter or other applicable law, unless the same shall be caused by criminal acts or by wilful misconduct or gross negligence.

C. Rights.

1. The rights reserved to Metropolitan Nashville by this chapter are cumulative and shall be in addition to and not in derogation of any other rights which it may have with respect to the subject matter of this chapter.

2. Metropolitan Nashville reserves to itself the right to intervene in any suit, action or proceeding involving any provision of this chapter.

3. No franchisee shall be relieved of its obligation to comply with any of the provisions of this chapter by reason of any failure of Metropolitan Nashville to enforce prompt compliance. Nor shall any inaction by Metropolitan Nashville be deemed to waive a provision voiding any provision of this chapter.

D. Amendments to this Ordinance. In order to fulfill the public interest goals of this chapter, to provide additional communications service to Metropolitan Nashville through the use of cable television and thereby

to ensure the benefits which will result from such service, Metropolitan Nashville shall specifically reserve the right in any franchise granted to amend this chapter to effectuate the public interest in the operation of a cable television system.

E. Incorporation by Reference. Any franchise granted pursuant to this chapter shall include a provision which shall incorporate by reference this chapter into such franchise as fully as if copied therein verbatim.

F. Force Majeure. A franchisee shall not be deemed in default with provisions of its franchise where performance was rendered impossible by war or riots, civil disturbances, floods, or other natural catastrophes beyond the franchisee's control, and a franchise shall not be revoked or a franchisee penalized for such noncompliance, provided that the franchisee takes immediate and diligent steps to bring itself back into compliance and to comply as soon as possible under the circumstances with its franchise without unduly endangering the health, safety, and integrity of the franchisee's employees or property, or the health, safety, and integrity of the public, public rights-of-way, public property, or private property.

G. Public Emergency. In the event of a major public emergency or disaster as determined by Metropolitan Nashville, a franchisee immediately shall make the entire cable system, employees, and property, as may be necessary, available for use by Metropolitan Nashville or other civil defense or governmental agency designated by Metropolitan Nashville to operate the system for the term of such emergency or disaster for the emergency purposes. In the event of such use, a franchisee shall waive any claim that such use by Metropolitan Nashville constitutes a use of eminent domain; provided that Metropolitan Nashville shall return use of the entire system, employees, and property to the franchisee after the emergency or disaster has ended or has been dealt with.

H. Connections to System—Use of Antennae.

1. Subscribers shall have the right to attach devices to a franchisee's system to allow them to transmit signals or services for which they have paid to VCR's, receivers, and other terminal equipment. Subscribers also shall have the right to use their own remote control devices and converters, and other similar equipment, and a franchisee shall provide information to consumers which will allow them to adjust such devices so that they may be used with the franchisee's system.

2. A franchisee shall not, as a condition of providing service, require a subscriber or potential subscriber to remove any existing antenna, or disconnect an antenna except at the express direction of the subscriber or potential subscriber, or prohibit or discourage a subscriber from installing an antenna switch; provided that such equipment and installations are consistent with applicable codes.

I. Calculation of Time. Unless otherwise provided, when the performance or doing of any act, duty, matter, or payment is required under this chapter or any franchise agreement, and a period of time or duration for the fulfillment of doing thereof is prescribed and is fixed herein, the time shall be computed so as to exclude the first and include the last day of the prescribed or fixed period of duration time.

J. Severability. If any term, condition, or provision of this chapter shall, to any extent, be held to be invalid or unenforceable, the remainder hereof shall be valid in all other respects and continue to be effective. In the event of a subsequent change in applicable law so that the provision which had been held invalid is no longer invalid, said provision shall thereupon return to full force and effect without further action by Metropolitan Nashville and shall thereafter be binding on the franchisee and Metropolitan Nashville.

K. Notice. Every direction, notice or order to be served upon the franchisee shall be sent to its local office, which shall be located in the franchise area. Every notice to be served upon Metropolitan Nashville shall be delivered, with registered letter by registry receipt, to the metropolitan clerk at the Metropolitan Courthouse. The delivery or mailing of such notice, direction or order shall be equivalent to direct personal notice, direction or order, and shall be deemed to have been given at the time of delivery.

L. Materiality. Specific mention of the materiality of any of the provisions herein is not intended to be exclusive of any others for the purpose of determining whether any failure of compliance hereunder is material and substantial.

M. Right of Intervention. Metropolitan Nashville may intervene in any suit or proceeding in which the franchisee is a party; provided, that Metropolitan Nashville's interests are not adequately represented by the existing parties; and provided further, that the disposition of each suit or proceeding without Metropolitan Nashville's participation, may as a practical matter, impair or impede Metropolitan Nashville's ability to protect its interests. 6.26.030 Grant of franchise.

A. The metropolitan government warrants that it has the right to issue a nonexclusive, revocable franchise to a grantee to have, acquire, construct, expand, reconstruct, maintain, use and operate in, along, across, on, over, through, above and under the public streets, alleys and rights-of-way of the city, a fiber optics telecommunications system (the "system"). Any grantee of such franchise agrees that it shall not now or at any time after a franchise is granted challenge this right in any way or in any metropolitan, state or federal court; provided, that in the event the federal or state government acquires or assumes exclusive jurisdiction over the issuance or regulation of fiber optic telecommunications franchises, grantee agrees that a franchise issued pursuant to the provisions herein shall remain in full force and effect as a binding contract between the grantee and the metropolitan government to the extent permitted by law.

B. Application for franchise.

1. Any franchise application shall be made to the council through the metropolitan clerk and introduced in the council in the manner provided by the rules of the council.

2. Each such application shall be kept on file with the metropolitan clerk. Any intentional misrepresentation in such application shall be grounds for the rejection of the franchise. The application shall be a part of any franchise grant or agreement under this chapter.

3. Each application shall include a map and description of the proposed service area for the grantee.

4. The mandatory referral to the metropolitan planning commission required by Section 11.505 of the Metropolitan Charter shall apply to each franchise application.

5. No ordinance granting a franchise shall be passed by the council without first receiving from the applicant a detailed report, certified under oath, establishing that the applicant possesses the necessary legal, character, financial, technical and other qualifications to construct and achieve full activation of its system, and to perform its obligations and faithfully adhere to all requirements of the franchise ordinance codified in this chapter, and that its construction arrangements are adequate and feasible. A member of council shall have the authority to file a resolution calling for a full public proceeding, affording due process, to review and approve the grantee's legal, character, financial, technical and other qualifications, and the adequacy and feasibility of its construction arrangements. If the majority votes in favor of the resolution, the full public proceeding it calls for shall be

conducted either by the full council or a committee composed of members of the council only. If any material representation of the certified report is determined to be false, this shall be grounds for revocation of a franchise granted under this chapter, in addition to the grounds itemized in Section 6.26.310 of the Metropolitan Code. No franchise shall be revoked, for this or any other reason, without a full public proceeding, affording due process, to be conducted either by the full council or a committee composed of members of the council only. Prior to such a revocation proceeding, the processes described in Section 6.26.300 of the Metropolitan Code shall be followed.

2. Grantee shall not provide cable services or operate a cable system as defined in the Cable Television Consumer Protection and Competition Act of 1992 (47 U.S.C.A. § 521, et seq., as amended) or as recognized by the Federal Communications Commission (the FCC) without first obtaining a separate cable franchise from the metropolitan government and shall not allow the use of the system by a cable system that has not been granted a franchise to operate a cable communications system by the metropolitan government. Nor shall any provider of cable services or grantee of a cable television franchise operate or provide a telecommunications service or facilities except pursuant to the ordinance codified in this chapter.

3. Grantee shall not provide services directly regulated by the Tennessee Public Services Commission (the PSC) under the laws of Tennessee unless duly authorized by the PSC.

4. Franchises granted pursuant to this chapter do not require grantee to provide ubiquitous service throughout Davidson County as a public service provided.

5. Franchises shall be evidenced by a contract adopted by the metropolitan council, which contract shall be submitted to the mayor in the manner provided for in the Charter of the Metropolitan Government presently in effect or hereafter adopted. (Ord. BL2016-310 § 1, 2016; Amdt. 1(4), (5), (6) to Ord. 94-1103, 7/19/94; Ord. 94-1103 § 3, 1994)

A. Licenses and permits. The grantee shall have the sole responsibility for diligently obtaining, at its own cost and expense, all permits, licenses, or other forms of approval or authorization necessary to construct, operate, maintain or repair the system, and to construct, maintain and repair any part thereof prior to commencement of any such activity.

Issuance of a permit by any agency of the metropolitan government as to the construction and installation of any portion of grantee's system does not waive other applicable requirements of federal or Tennessee law, and grantee shall comply with such other requirements.

B. Subject to Police Power. The construction, expansion, reconstruction, excavation, use, maintenance and operation of the system shall be subject to all lawful police regulations of the metropolitan government and performed in accordance with all laws and regulations of the metropolitan government for utility location and excavation in public rights-of-way presently in effect or hereafter adopted. In addition to the duty under any other law or regulation of the metropolitan government, not less than seven days prior to filing of a request for a construction permit, grantee shall provide to the director of public works a copy of all the construction work plans and drawings for the system, or any segment or expansion thereof. Grantee shall not proceed with construction until the plans and drawings have been approved in writing by the above-listed metropolitan government official. (Ord. 94-1103 § 4, 1994)

6.26.050 As built drawings.

Grantee shall submit to the director of public works "as built" drawings of the portions of grantee's system located along the public right-of-way of a size and material satisfactory to the director of public works within one hundred twenty days after completion of construction of such portions. Grantee shall update such drawings within sixty days whenever material changes are made to grantee's system which impact the public right-of-way. Said drawings, set forth by utility quarter sections, shall at a minimum include cable routings and the location of amplifiers, power supplies and system monitor test points. (Amdt. 1(7) to Ord. 94-1103, 7/19/94; Ord. 94-1103 § 5, 1994)

6.26.060 Construction standards.

A. All work done in connection with the construction, expansion, reconstruction, maintenance or repair of the system shall be subject to and governed by all laws, rules, and regulations of the metropolitan government in accordance with the provisions of Chapter 13.20 of the Metropolitan Code, except that the provisions of Section 13.20.050 shall not be applicable. Grantee shall excavate only for the construction, installation, expansion, repair, removal, and maintenance of all or a portion of its system.

All installations shall be underground in those areas of the metropolitan government where public utilities providing telephone and electric service are underground at the time of installation. In areas where either telephone or electric utility facilities are above ground at the time of installation, grantee may install its service above ground; provided, that at such time as those facilities are required to be placed underground by the metropolitan government, or are placed underground, grantee shall likewise place its services underground without additional cost to the metropolitan government.

B. Electrical standards. Grantee shall at all times comply fully with provisions of the electrical code of the metropolitan government and with Chapter 6.20 of the Metropolitan Code of Laws.

C. Interference With Persons, Improvements, Public and Private Property and Utilities. Grantee's system and facilities, including poles, lines, equipment and all appurtenances, shall be located, erected and maintained so that such facilities shall:

1. Not endanger or interfere with the health, safety or lives of persons;

5. Not obstruct, hinder or interfere with any gas, electric, water or telephone facilities or other utilities within the metropolitan government.

D. Protect Structures. In connection with the construction, operation, maintenance, repair or removal of the system, the grantee shall, at its own cost and expense, protect any and all existing structures and improvements, including landscaping and trees belonging to the metropolitan government, and all designated historical landmarks, as well as all other structures within any designated historical district. The grantee shall obtain the prior approval of the metropolitan government before altering or crossing any water main, sewerage or drainage system, or any other municipal, state or federally owned structure in the streets required because of the presence of the system in the streets. Any such alteration shall be made by the grantee at its sole cost and expense, and in a manner prescribed by the metropolitan government. The grantee shall be liable, at its own cost and expense, to replace or repair and restore to serviceable condition in a manner as may be specified by the metropolitan government, any street or any municipal, state or federally owned structure involved in the construction of the system that may become disturbed or damaged as a result of any work thereon by or on behalf of the grantee pursuant to its franchise.

E. Erection, Removal and Use of Poles. No poles shall be erected by grantee without prior approval of the metropolitan government with regard to location, height, types and any other pertinent aspect. Such pole or structures shall be removed or modified by grantee at its own expense whenever the metropolitan government determines that the public convenience would be enhanced thereby. Approval under this section shall require the written approval of the department of public works.

F. Upon request of the metropolitan government or other authority of competent jurisdiction, grantee shall remove and abate any portion of the system or any facility that is dangerous to life or property, and in case grantee, after notice, fails or refuses to act, the metropolitan government may remove or abate the same, at the sole cost and expense of grantee, all without compensation or liability for damages to grantee. (Ord. BL2016-236 § 1, 2016; Amdt. 1(8), (9) to Ord. 94-1103, 7/19/94; Ord. 94-1103 § 6, 1994)

6.26.070 Suspension or revocation of construction permit.

The director of public works may suspend or revoke any permit issued by the department of public works or take any action he deems necessary, including the stopping of work, should grantee violate the terms of said permit, until said violation has been corrected to said director's satisfaction. (Ord. 94-1103 § 7, 1994)

6.26.080 Adjustment of utility facilities.

In the event that the location of grantee's system will require an adjustment of the installation of existing public or private utility facilities, grantee must obtain written consent of the owner of such utility, including, where applicable, all relevant metropolitan government departments to such adjustment and make such arrangements for the payment or reimbursement of the cost of such adjustment as are satisfactory to the owner of such utility, including, where applicable, all relevant metropolitan government departments. No permit for construction will be issued until the director of the department of public works is satisfied that the requirements of this section have been satisfied. In no case shall grantee be entitled to perform such adjustment or disturb such utility facilities without the written consent of the owner of such utility. (Amdt. 1(10) to Ord. 94-1103, 7/19/94; Ord. 94/1103 § 8, 1994)

6.26.090 Adjoining property owners.

All of grantee's system shall be so installed and located so as to cause minimum interference with the rights and appearance and reasonable convenience of adjoining property owners and at all times shall be kept and maintained in a safe, adequate and substantial condition, and in good order and repair. Grantee shall at all times employ reasonable care, and shall install and maintain in use commonly accepted methods and devices for preventing failures and accidents which are likely to cause damage, injuries or nuisances to the public. (Ord. 94-1103 § 9, 1994)

6.26.100 Emergency or disaster.

In case of emergency or disaster, grantee shall, upon request of the metropolitan government, make available its facilities to the metropolitan government, without cost, for emergency use. (Ord. 94-1103 § 10, 1994)

6.26.110 Moving wires.

If determined to be necessary to promote the public health, welfare and safety, in case of fire, disaster or other

emergency, the metropolitan government may, in its reasonable discretion, take such action with respect to grantee's system in the streets or in metropolitan government buildings as it deems necessary to promote the public health, welfare and safety, in which event the metropolitan government shall not be liable therefor to the grantee. (Amdt. 1(11) to Ord. 94-1103, 7/19/94; Ord. 94-1103 § 11, 1994)

6.26.120 Temporary removal of facilities for demolition of buildings.

Upon the request of a person holding a permit issued by the metropolitan government for the moving or demolition of a building, and at least ten days' notice, grantee shall temporarily raise, lower or remove its facilities to permit the removal or demolition of such building. The expense of such temporary removal, raising or lowering of facilities shall be paid by the person requesting the same and grantee shall have the authority to require such payment in advance; provided, however, that no payment (direct or indirect) shall be required of the metropolitan government. (Ord. 94-1103 § 12, 1994)

6.26.130 Joint use.

Every public utility and every grantee may be required by the metropolitan government to permit joint use of its property and appurtenances located in the streets, alleys, and public places of the metropolitan government by other public utilities and grantees, in so far as such joint use may be reasonably practicable, and in accordance with the provisions of the National Electrical Safety Code upon payment of reasonable rental therefor; provided, that in the absence of agreement, upon application by any public utility or grantee, the council shall provide for arbitration of the terms and conditions of such joint use and the compensation to be paid therefor, which award shall be final. Grantee may require any such person or entity to furnish evidence of adequate insurance covering grantee and adequate bonds covering the performance of the person or entity attaching to grantee's facilities as a condition precedent to granting permission to any such person or entity to attach wires or equipment to grantee's facilities; provided, that grantee's requirements for such insurance shall be reasonable. (Amdt. 1(12) to Ord. 94-1103, 7/19/94; Ord. 94-1103 § 13, 1994)

6.26.140 Removal of city property.

No property of the metropolitan government is to be removed from the right-of-way, including signage on utility poles, without prior approval from the metropolitan government. (Ord. 94-1103 § 14, 1994)

6.26.150 Reservation of rights.

The metropolitan government reserves the right to exercise its police and/or proprietary powers to modify, vacate or transfer any right-of-way in use by grantee for a public purpose. At grantee's own risk, the metropolitan government has the predominant right to use its right-of-way in the placement, maintenance and repair of sewers, water mains and other public utilities or to relocate or remove grantee's system where the metropolitan government determines that the public convenience and/or necessity would be enhanced or for any other public purpose, including, but not limited to the use of any right-of-way used by grantee for public transportation purposes or where the director of public works determines there is an emergency. The permits referred to in Section 6.26.040 may be amended or revoked in whole or in part by the issuing department whenever such action is necessary or advisable for a public purpose. Grantee shall make no claims for costs or damages against the metropolitan government by reason of such removal or relocation. Upon thirty days' written notice to grantee of partial or complete revocation of such permit from the director of public works, grantee shall remove, modify, replace or relocate its facilities as required at its own expense. In the event grantee does not remove, modify, replace or relocate its facilities as required by said notice within thirty days as aforesaid, the director of public works may cause the same to be done at grantee's expense and all expenses incurred or damages paid by the metropolitan government on account of such action shall be paid by grantee on demand. Grantee shall remove, replace or modify, at its own expense, the installation of any of its facilities as may be deemed necessary by any other appropriate governmental authority to meet such authority's proper responsibilities. In the event the metropolitan government exercises its predominant right to use any right-of-way used by grantee for a public purpose, the metropolitan government shall reasonably cooperate with grantee in finding an alternate site for any telecommunications facilities removed and in avoiding disruption to grantee's telecommunications system to the extent not reasonably required by the metropolitan government. In an emergency, as determined by the director of public works, the metropolitan government may order grantee to remove or relocate its facilities within forty-eight hours. If the metropolitan government exercises any of its rights pursuant to this section, grantee shall have the option, upon notice to the director of information services, of abandoning the portion of its telecommunications system to be so removed or relocated and deleting such portion from the public right-of-way. (Amdt. 1(13) to Ord. 94-1103, 7/19/94; Ord. 94-1103 § 15, 1994)

6.26.160 Protection of trees.

Trimming of trees and shrubbery within the public right-of-way to prevent contact with grantee's facilities shall be done only in accordance with the standards approved by the urban forester in accordance with the ordinances of the metropolitan government. Removal or pruning of any tree or shrub shall only be done upon issuance of a permit by the urban forester. When trees or shrubs in the public right-of-way are damaged as a result of work undertaken by or on behalf of grantee, grantee shall pay the metropolitan government within thirty days of submission of a statement by the metropolitan government, the cost of any treatment required to preserve the tree or shrub and/or cost for removal and replacement of the tree or shrub with landscaping of equal value and/or the value of the tree or shrub prior to the damage or removal, as determined by the urban forester or other authorized agent of the metropolitan government. (Ord. 94-1103 § 16, 1994)

6.26.170 Abandonment of right-of-way.

In the event that the metropolitan government shall close or abandon any public street, alley or right-of-way, which contains any portion of grantee's system, any conveyance of land contained in such closed or abandoned public street, alley, highway or right-of-way shall be subject to the rights herein granted. (Ord. 94-1103 § 17, 1994)

6.26.180 Rights of abutting landowners.

In the event that the metropolitan government authorizes abutting landowners to occupy space under the surface of any public street, alley or right-of-way, such grant to an abutting landowner shall be subject to the rights herein granted to grantee. (Ord. 94-1103 § 18, 1994)

6.26.190 Relocation of the system.

A. New Grades or Lines. If the grades or lines of any street on which grantee's system is placed are changed at any time during the term of the franchise, then the grantee shall, at its own cost and expense and upon the request of the metropolitan government, protect or promptly alter or relocate the system, or any part thereof, so as to conform with such new grades or lines. In the event that the grantee refuses or neglects to so protect, alter, or relocate all or part of the system, the metropolitan government shall have the right to break through, remove, alter or relocate such part of the system, without any liability to the metropolitan government, and the grantee shall pay to the metropolitan government the costs incurred in connection with such breaking through, removal, alteration or relocation.

B. Relocation of Right-of-Way. Wherever a public right-of-way or other public property is being constructed, paved (whether or not such paving is part of a more extensive improvement project), resurfaced, relocated or otherwise altered or improved (including, but not limited to, the installation of sidewalk, curb, gutter, drainage facilities, water mains, or sewer mains, traffic signals or trees), grantee shall, within ninety days of written notice from the director of public works, and at no cost (direct or indirect) to the metropolitan government, remove or relocate any grantee facility located within such public right-of-way or public property or perform such work as it deems necessary for the extension of new facilities. In the event the grantee fails to relocate its property in a manner approved by the metropolitan government within ninety days of the metropolitan government's written notice, absent an extension of time granted by the metropolitan government, the metropolitan government may seek revocation of the franchise agreement pursuant to Section 6.26.310 of this chapter. Failure to obtain the metropolitan government's approval of the location of facilities relocated under this section will be considered a forfeiture under Section 6.26.310 of this chapter. Grantee shall be responsible for any damage it causes to property, including damage to trees and other landscaping, as a result of the relocation or removal of facilities.

C. Time Limit—Liquidated Damages. Failure of grantee to remove or relocate the facility to a location approved by the metropolitan government within ninety days of the metropolitan government's written notice shall entitle the metropolitan government to recover liquidated damages from grantee. The liquidated damages for failure to remove or relocate a facility shall be two hundred fifty dollars per diem.

If grantee believes it will be unable to complete the relocation within ninety days from receipt of notice from the metropolitan government, grantee shall explain the reasons for its inability in detail and the metropolitan government and grantee shall attempt to agree on an alternate schedule, subject, however, to the metropolitan government's right to finally determine the schedule and liquidated damages, as long as its decision is not unreasonable. (Amdt. 1(14) to Ord. 94-1103, 7/19/94; Ord. 94-1103 § 19, 1993)

6.26.200 Bonds.

A. Grantee shall obtain and maintain, at its sole cost and expense, and file with the metropolitan clerk, a corporate surety bond with a surety company authorized to do business in the State of Tennessee and found acceptable by the metropolitan attorney, in the amount of five hundred thousand dollars, both to guarantee the

timely construction and full activation of grantee's system, and to secure grantee's performance of its obligations and faithful adherence to all requirements of the franchise ordinance codified in this chapter. After the first five years of the initial term, bond requirement amount shall be reduced to two hundred fifty thousand dollars. Grantee shall provide this corporate surety bond at the time of execution of a franchise agreement, as required by Section 6.26.330 of this chapter.

B. The rights reserved to the metropolitan government with respect to the bond are in addition to all other rights of the metropolitan government, whether reserved by the franchise ordinance codified in this chapter or authorized by law; and no action, proceeding or exercise or a right with respect to such bond shall affect any other right the metropolitan government may have.

C. The bond shall contain the following endorsement; it is hereby understood and agreed that this bond may not be canceled by the surety nor any intention not to renew by exercised by the surety until sixty days after receipt by the metropolitan government, by registered mail, of written notice of such intent. (Ord. 94-1103 § 20, 1994)

6.26.210 Insurance requirements.

On or before the effective date of the franchise, grantee shall file with the metropolitan government a certificate of insurance and thereafter maintain in full force and effect at all times for the full term of the franchise, at the expense of grantee, a comprehensive general liability insurance policy, including underground property damage coverage, naming the metropolitan government as additional insured, written by a company authorized to do business in the State of Tennessee, protecting the metropolitan government against liability for loss or bodily injury and property damage occasioned by the installation, removal, maintenance, or operation of the communications system by grantee in the following minimum amounts:

A. One million dollars combined single limit, bodily injury and for real property damage in any one occurrence;

B. One million dollars aggregate.

Grantee shall also file with the metropolitan government a certificate of insurance for a comprehensive automobile liability insurance policy written by a company authorized to do business in the State of Tennessee, for all owned, nonowned, hired and leased vehicles operated by grantee, with limits no less than one million dollars each accident, single limit, bodily injury and property damage combined, or evidence of self-insurance.

Grantee shall also maintain, and by its acceptance of any franchise granted hereunder, and specifically agrees that it will maintain throughout the term of the franchise, workers compensation and employers liability, valid in the state, in the minimum amount of the statutory limit for workers compensation, and five hundred thousand dollars for employers liability.

All liability insurance required pursuant to this section shall be kept in full force and effect by grantee during the existence of the franchise and until after the removal of all poles, wires, cables, underground conduits, manholes and any other conductors and fixtures installed by grantee incident to the maintenance and operation of the communications system as defined in this chapter. All policies shall be endorsed to give the metropolitan government thirty days' written notice of the intent to amend or cancel by either grantee or the insuring company. (Ord. 94-1103 § 21, 1994)

6.26.220 Indemnification.

Grantee shall indemnify, defend and save whole and harmless the metropolitan government and all of its officers, agencies, and employees against and from any and all claims, suits, judgments, actions, losses, costs and expenses, including attorney's fees and costs or expenses incidental to the investigation and defense of claims and lawsuits brought for, on behalf of, or on account of any injuries or damages received or sustained by any person, firm or corporation or to any property, which may be occasioned by, or arising out of or from, the conduct of grantee in connection with the franchise ordinance codified in this chapter, the construction, reconstruction, expansion, removal, maintenance, operation, or repair of grantee's system, the conduct of grantee's business in Metropolitan Nashville and Davidson County pursuant to the franchise ordinance codified in this chapter, any occurrence in connection with the franchise ordinance codified in this chapter, any and all claims and lawsuits arising from any breach or default on the part of grantee in the performance of any term, condition, provision, covenant or agreement to be performed by grantee pursuant to the franchise ordinance codified in this chapter, any act or omission of grantee, or any of its agents, contractors, subcontractors, servants, employees or licensees, or any relationship between grantee and its end use customers and retailers whether caused by or attributable solely to grantee and others, or the metropolitan government, and grantee shall pay all judgments, with costs, counsel fees and expenses, which may be obtained against the metropolitan government related to any such claim. The metropolitan government agrees to give grantee prompt and reasonable notice of any claims or lawsuits; and grantee shall have the right to investi-

gate, compromise and defend same to the extent of its own interest. The above indemnification shall not apply to any judgment of liability resulting from the gross negligence or wilful misconduct of the metropolitan government. The terms and provisions contained in this section are intended to be for the benefit of the metropolitan government and grantee, and are not intended to be for the benefit of any third party. The metropolitan government shall have the right to participate or conduct the defense of its interests in any proceeding, and thereby assume risks and liabilities for its own acts or omissions. (Ord. 94-1103 § 22, 1994)

6.26.230 Services to the metropolitan government.

Grantee agrees to provide the metropolitan government with four dark fiber optic fibers within the backbone of grantee's system for use by the metropolitan government for municipal purposes only. Grantee also shall provide coordination and engineering assistance to the metropolitan government for providing such fiber optic accesses as the metropolitan government may require.

In order to ensure coordination of metropolitan government facilities with grantee's network, grantee agrees to:

A. Provide twenty-four hour per day continuous monitoring of grantee's system;

B. Coordinate, design and install network specific requirements of the metropolitan government, including maintenance, at grantee's cost, plus ten percent.

Grantee shall maintain with the metropolitan government a current listing of all buildings, both public and private, in which it provides services. No monthly fee shall be charged to the metropolitan government for this service.

Grantee shall comply with applicable requirements of regulatory agencies, with jurisdiction over ratemaking issues, which promote universal service. (Amdt. 1(15) to Ord. 94-1103, 7/19/94; Ord. 94-1103 § 23, 1994)

6.26.240 Compensation to the metropolitan government.

A. General Compensation. For the reason that the public streets, alleys and rights-of-way to be used by grantee in the operation of its system within the boundaries of the metropolitan government are valuable, public properties, acquired and maintained by the metropolitan government at great expense to its taxpayers, and that the grant to grantee of the use of said public streets, alleys and rights-of-way is a valuable property right, without which the grantee would be required to invest substantial capital in right-of-way costs and acquisitions, the grantee agrees to pay to the metropolitan government as general compensation during each year of the franchise ordinance codified in this chapter, an amount equal to five percent of gross revenues for each quarter of a compensation year. Grantee shall forward by check or money order an amount equal to the quarterly payment by the fifteenth day of the calendar month immediately following the close of the calendar quarter for which the payment is calculated. Any necessary prorations shall be made.

B. Recalculation At End of Compensation Year. At the end of each compensation year, grantee shall recalculate the total general compensation actually due. If additional amounts are due the metropolitan government by grantee, said amounts shall be paid by the fifteenth day of the second month of the compensation year following the compensation year during which such amounts were originally due. If amounts are found to be due the grantee by the metropolitan government, said amounts shall be credited by the fifteenth day of the second month of the compensation year, during which such amount were originally due. Any necessary prorations shall be made. The compensation set forth in this section shall be exclusive of and in addition to all special assessments and taxes of whatever nature, including, but not limited to, ad valorem taxes. In the event any quarterly payment is made after noon on the date due, grantee shall pay a late payment penalty of the greater of: (1) one hundred dollars or (2) simple interest at ten percent annual percentage rate of the total amount past due. As used in this section, gross revenues shall mean all revenues (exclusive of sales tax) collected by grantee from operation of grantee's system installed pursuant to the franchise ordinance codified in this chapter, and any related services provided by the grantee within Metropolitan Nashville and Davidson County, including, but not limited to:

1. All telecommunications service revenues charged on a flat-rate basis;

2. All telecommunications services charged on a usage-sensitive or mileage basis;

3. All revenues from installation service charges;

4. All revenues from connection or disconnection fees;

5. All revenues from penalties or charges to customers for checks returned from banks, net of bank costs paid;

6. All revenues from local services;

7. All revenues from authorized rental of conduit space;

8. All revenues from charges for access to local and long distance networks;

9. All revenues from authorized rentals of any portion of grantee's system, including plant, facilities, or capacity leased to others;

10. All other revenues collected from grantee's business pursued with the metropolitan government, excluding revenues received pursuant to Section 6.26.230(B) and, excluding third party billing arrangements not related to grantee's business;

11. Recoveries of bad debts previously written off and revenues from the sale or assignment of bad debts. Unrecovered bad debts charged off after diligent, unsuccessful efforts to collect are excludable from gross revenues; and

12. All revenues received from any subcontractor and/or subsidiary operating telecommunications services under or pursuant to grantee's franchise.

Gross revenues shall not include revenues from long distance operations other than revenues from local access connections.

Payment of money under this section shall not in any way limit or inhibit any of the privileges or rights of the metropolitan government, whether under the franchise ordinance codified in this chapter or otherwise.

Any transactions which have the effect of circumventing payment of required franchise fees and/or evasion of payment of franchise fees by noncollection or nonreporting of gross revenues, bartering, or any other means which evade the actual collection of revenues for business pursued by grantee are prohibited. (Amdt. 1(16), (17), (18), (19), (20), (21) to Ord. 94-1103, 7/19/94; Ord. 94-1103 § 24, 1994)

6.26.250 Accounts, records and reports.

A. Grantee shall keep the metropolitan government fully informed as to all matters in connection with or affecting the construction, reconstruction, removal, maintenance, operation and repair of grantee's system, grantee's accounting methods and procedures in connection therewith, and the recording and reporting by grantee of all revenues and uncollectibles.

B. Grantee shall keep complete and accurate books of account and records of its business and operations pursuant to the franchise ordinance codified in this chapter in accordance with generally accepted accounting principles, subject to approval by the metropolitan government. If required by the FCC, grantee shall use the system of accounts and the forms of books, accounts, records, and memoranda prescribed by the FCC in 47 CFR Part 32 or its successor and as may be further described herein. The metropolitan government may require the keeping of additional records or accounts which are reasonably necessary for purposes of identifying, accounting for, and reporting gross revenues and uncollectibles for purposes of Section 6.26.240 of this chapter. Grantee shall keep its books of account and records in such a way that breakdowns of revenues are available by type of service within the metropolitan government.

Grantee shall file annually with the director of finance and the metropolitan clerk, on a form approved by the metropolitan government, no later than ninety days after the end of the grantee's fiscal year, an audited statement of revenues (for that year) attributable to the operations of the grantee's system within Metropolitan Nashville and Davidson County pursuant to the franchise ordinance codified in this chapter. This statement shall present a detailed breakdown of gross revenues and uncollectible accounts for the year. This statement shall be audited by an independent certified public accountant whose report shall accompany the statement. The metropolitan government may, if it sees fit, have the books and records of grantee examined by a representative of said metropolitan government to ascertain the correctness of the reports agreed to be filed herein.

C. Grantee shall report to the metropolitan government such other information relating to grantee as the metropolitan government may consider useful and shall comply with the metropolitan government's determination of forms for reports, the time for reports, the frequency with which any reports are to be made, and if reports are to be made under oath.

D. Grantee shall provide the metropolitan government with access at reasonable times and for reasonable purposes, to examine, audit and review the papers, books, accounts, documents, maps, plans and other records of grantee pertaining to the franchise ordinance codified in this chapter. Grantee shall fully cooperate in making available its records and otherwise assisting in these activities.

E. The metropolitan government may, at any time, make inquiries pertaining to grantee's operation of its system within Metropolitan Nashville and Davidson County. Grantee shall respond to such inquiries on a timely basis.

F. Grantee shall provide the metropolitan government with notices of all petitions, applications, communications and reports submitted by grantee to the FCC, Securities and Exchange Commission and the Tennessee Public Service Commission or their successor agencies, relating to any matters affecting the use of public streets, alleys and public rights-of-way and/or the telecommunications operations authorized pursuant to the franchise ordinance codified in this chapter. Upon written request from the metropolitan government, grantee shall provide the metropolitan government with copies of all such

documentation. (Amdt. 1(22), (23) to Ord. 94-1103, 7/19/94; Ord. 94-1103 § 25, 1994)

6.26.260 Term of franchise.

A. Term. Upon execution of a franchise agreement between the metropolitan government and grantee, a franchise shall be in full force and effect for a term and period of fifteen years, ending on the anniversary date of the franchise.

B. Renegotiation At Five Years. The metropolitan government and grantee shall have the right to renegotiate in good faith, at the fifth and tenth anniversary dates of the franchise, the amount, nature and terms of compensation to be paid by grantee for use of the public rights-of-way during the term of this franchise. Any adjustment to compensation shall become effective on the next succeeding anniversary date. In order to renegotiate compensation, the metropolitan government, acting through its director of finance, shall give written notice to grantee at least sixty days prior to the fifth and tenth year anniversary dates. Said notice shall contain the franchise's proposed schedule of compensation. The terms of any such compensation shall be reflected in an amendment to this franchise and shall be nondiscriminatory and reasonable. No such amendment may take effect without the approval, by ordinance, of the metropolitan council.

C. Dispute Resolution. If grantee shall in good faith maintain that the amount, terms or nature of any adjustment to compensation proposed by the metropolitan government pursuant to Section 6.26.260(B) is excessive or unreasonable, given the value of the privileges granted under this chapter and grantee's franchise, grantee shall enter into good faith negotiations with the metropolitan government as expeditiously as possible to reach an agreement as to the adjustment to compensation prior to the five-year anniversary date. In the event that an agreement as to adjustment to compensation is not reached prior to such anniversary date, grantee shall have the right to make a demand for arbitration in writing to the director of information systems within thirty days after such anniversary date. In such event, the metropolitan government and grantee shall each appoint an arbitrator and a third arbitrator shall be appointed by the arbitrators so appointed. Each arbitrator shall have at least five years of experience in the field of rights-of-way procurement. Pursuant to the then current rules of the American Arbitration Association, or any successor organization, an arbitration shall be held as expeditiously as possible. (Amdt. 1(24) to Ord. 94-1103, 7/19/94; Ord. 94-1103 § 26, 1994)

6.26.270 Extension of term.

If, on the expiration date, grantee shall not be in default under the franchise, and if neither party has notified the other of its intent to terminate the franchise on or before the expiration date, then the terms of this franchise shall be deemed extended on an interim basis until terminated, renewed or renegotiated. Said interim extension period shall not extend beyond a date sixty days after the expiration date, after which date the franchise shall be considered terminated and all rights of the grantee to use the public rights-of-way to provide telecommunications services shall cease. (Ord. 94-1103 § 27, 1994)

6.26.280 Renewal.

At any time during the last year of the franchise, grantee may request the metropolitan government to enter into negotiations toward renewing or extending this franchise. The exercise by grantee of this option shall not bind the metropolitan government as to acceptance of any particular terms or renewal of the rights granted by the franchise. Any proposed renewal, extension or modification of the franchise is subject to the council's approval, modifications or rejection in its sole discretion.

Upon expiration of the fifteenth year of the franchise, the metropolitan government shall have the right, at its election, to:

A. Renew or extend the franchise for an additional period, as agreed by the metropolitan government and grantee;

B. Invite additional franchise applications or proposals; or

C. Terminate the franchise without further action.

The grantee shall provide notice to any party to any contract entered into by it that the metropolitan government shall have the right to exercise these options. (Amdt. 1(25) to Ord. 94-1103, 7/19/94; Ord. 94-1103 § 28, 1994)

6.26.290 Assignment or lease of franchise.

Neither the franchise, the assets held by grantee under the franchise ordinance codified in this chapter, nor any rights or privileges of grantee under the franchise ordinance codified in this chapter, grantee's system capacity, or allowance of access to grantee's system, either separately or collectively, shall be sold, resold, assigned, transferred or conveyed by grantee to any other person, firm, corporation, affiliate or entity, without the written consent of the metropolitan government by ordinance of the council, which permission shall not be unreasonably withheld. In the event that the purchaser is the holder of a like franchise, the franchise purchased shall be canceled and merged into the franchise held by the purchaser

upon such terms and conditions as may be set out by the council when permission for assignment is granted. Should the grantee sell, assign, transfer, convey or otherwise dispose of any of its rights or its interests under the franchise ordinance codified in this chapter, or attempt to do so, in violation of this requirement to obtain prior consent, the metropolitan government may revoke this franchise for default, in which event all rights and interest of the grantee shall cease and no purported sale, assignment, transfer or conveyance shall be effective. (Amdt. 1(26) to Ord. 94-1103, 7/19/94; Ord. 94-1103 § 29, 1994)

6.26.300 Violations.

If the metropolitan government has reason to believe that grantee is in violation of this chapter, the metropolitan government shall notify grantee in writing of the violation, setting forth the nature of such violation. Within ten days of receipt of such notice, grantee shall respond in writing to provide explanation or documentation to support that the violation did not occur. Grantee shall be allowed thirty days to cure violations after written notice is received from the metropolitan government.

Upon evidence being received by the metropolitan government that any violation of the franchise ordinance codified in this chapter, any Metropolitan Charter provisions or any ordinances lawfully regulating grantee in the construction and operation of this system is occurring, or has occurred, the metropolitan government shall cause an investigation to be made. If the metropolitan government finds that such a violation exists or has occurred, the grantee shall take appropriate steps to comply with the terms of the franchise ordinance codified in this chapter and any lawful regulation. Should grantee fail to comply, after the above-stated notice and opportunity to cure, then the metropolitan government may take any action authorized by law, including revocation or repeal of the franchise or a suit in court to compel compliance. If, in any such proceeding, default is finally established, grantee shall be required to pay to the metropolitan government the reasonable expenses incurred in the prosecution of such suit and all the metropolitan government's damages and costs (including attorney's fees). (Ord. 94-1103 § 30, 1994)

6.26.310 Revocation and termination.

A. In addition to all other rights and powers retained by the metropolitan government under the franchise ordinance codified in this chapter or otherwise, the metropolitan government reserves the right to revoke and terminate any franchise issued by authority of the ordinance codified in this chapter, and all rights and privileges of grantee hereunder shall cease in the event of material breach, subject to reasonable notice and opportunity to cure, of its terms and conditions. A material breach of grantee shall include, but shall not be limited to, the following:

1. Grantee's violation of any material provision of the franchise ordinance codified in this chapter or any material rule, order or regulation of the metropolitan government made pursuant to the franchise ordinance codified in this chapter;

2. Grantee's failure to properly compensate the metropolitan government as required in the franchise ordinance codified in this chapter;

3. Grantee's attempt to evade any material provision of the franchise ordinance codified in this chapter or to practice any fraud or deceit upon the metropolitan government or upon grantee's end-user customers or interexchange carriers;

4. Grantee's failure to comply with Section 6.26.060 of this chapter;

5. For failure to file and maintain the bond, security or insurance required under this chapter;

6. Grantee's failure to comply with Section 6.26.290 of this chapter;

7. Grantee's failure to respond to or comply with reports, audits, statements and other information lawfully requested by the metropolitan government;

8. Grantee's failure to operate its system for six months after it has been constructed; or

9. Grantee's material misrepresentation of fact in its application or negotiations during the franchise process; or the conviction of any director, officer, employee or agent of grantee for the offense of bribery or fraud connected with or resulting from the award of the franchise to grantee.

B. The foregoing shall not constitute a material breach if the violation occurs without the fault of grantee or occurs as a result of circumstances beyond its control. Grantee shall not be excused by mere economic hardship, nor misfeasance or malfeasance of its directors, officers or employees. Revocation or termination shall only take place for material cause.

C. If any provision of this chapter shall be preempted by state or federal regulations, or finally adjudged by a court of law invalid or unenforceable and the council further finds that such provision constitutes at that time a consideration material to the continuance of the franchise herein granted, the metropolitan government reserves the right to revoke and terminate any franchise issued under authority of this chapter. (Amdt. 1(27), (28), (29), (30), (31) to Ord. 94-1103, 7/19/94; Ord. 94-1103 § 31, 1994)

6.26.320 Service standards.

Grantee shall maintain and operate its communications system and business in an efficient manner and shall provide adequate, efficient and reasonable service to its customers in Metropolitan Nashville and Davidson County. Once it commences operation, grantee's system shall provide continuous and uninterrupted service throughout the term of the franchise.

Grantee shall comply with all applicable federal, state and local laws, rules and regulations, including the Tennessee Public Service Commission. (Amdt. 1(32) to Ord. 94-1103, 7/19/94; Ord. 94-1103 § 32, 1994)

6.26.330 Preferential or discriminatory practices prohibited.

Pursuant and subject to applicable federal, state and local laws, grantee shall not make or grant any unreasonable preference or advantage to any person, nor subject any person to any unreasonable prejudice or disadvantage in its exercise of the rights and privileges granted by its franchise; provided, however, that nothing in its franchise shall be deemed to prohibit the establishment of a graduated scale of charges and classified rate schedules, consistent with applicable law, to which any customer coming within such classification would be entitled. (Amdt. 1(33) to Ord. 94-1103, 7/19/94; Ord. 94-1103 § 33, 1994)

6.26.340 Conflict with other laws.

Where a provision of this chapter or grantee's franchise is in conflict with any state or federal statute or a rule of the Tennessee Public Service Commission or FCC, so that grantee cannot reasonably comply with both the provisions of this chapter or franchise and the statute or rule of the Tennessee Public Service Commission of FCC, then grantee may comply with such rule instead of the conflicting provision of this chapter or the franchise until such time as the metropolitan government obtains a contrary ruling or other relief from an appropriate regulatory agency or court of competent jurisdiction; provided, that the metropolitan government is given written notice of and a statement of the legal grounds for such noncompliance. Grantee shall comply with all remaining provisions of this chapter or franchise. Notice of noncompliance given pursuant to this shall not relieve grantee—upon determination that the noncompliance was unlawful or otherwise improper—from the obligation to pay more damages, redo work at grantee's expense, or otherwise take such steps as may be necessary to restore the metropolitan government to the position it would have been in if grantee had remained in compliance with this chapter and its franchise. (Amdt. 1(34) to Ord. 94-1103, 7/19/94; Ord. 94-1103 § 34, 1994)

6.26.350 Compliance with applicable laws and ordinances.

Grantee shall, at all times during the term of its franchise, be subject to the provisions of the present Charter of the Metropolitan Government, the present ordinances, resolutions, rules, regulations and laws of the metropolitan government and the State of Tennessee, and to the provisions of any further charter, ordinance, resolution, rule, regulation or law of the metropolitan government or of the State of Tennessee, so far as they may be applicable, including but not limited to the provisions of the Zoning Code codified in Title 17 hereof, especially Chapter 17.16 and Section 17.16.080 thereof. (Ord. BL2016-415 § 8, 2016; Ord. 94-1103 § 35, 1994)

6.26.360 Tennessee law governs.

In any controversy or dispute under this chapter, the law of the State of Tennessee shall apply to the extent such law has not been superseded or preempted. (Ord. 94-1103 § 36, 1994)

6.26.370 Metropolitan government taking part in litigation.

The metropolitan government shall have the right to take part in, by intervention or otherwise at its option, in any suit, action, or proceeding instituted by or against grantee in which any judgment, decree, or order can be rendered affecting the rights, powers or duties of grantee to do or not to do anything which, by its franchise or this chapter, it is obligated or may be required to do or not to do or affecting, such as by foreclosure or lien, grantee's title to any facility. Grantee shall not object to the metropolitan government's exercise of such right. (Ord. 94-1103 § 37, 1994)

6.26.380 Office location.

The grantee shall maintain an office in Metropolitan Nashville and Davidson County. Grantee shall always keep and maintain city specific books, records, contracts, accounts, documents, and papers for its operation within Metropolitan Nashville and Davidson County. All maps, plats, records and inventories and books of the grantee, insofar as they show values and location of existing property shall be preserved for use, if necessary, in connection with any future valuation of the property of the grantee. (Ord. 94-1103 § 38, 1994)

6.26.390 Severability.

In any section, subsection, sentence, clause, phrase, term, provision, condition, covenant or portion of the franchise ordinance codified in this chapter is for any reason held invalid or unenforceable by any court of competent jurisdiction, the remainder of the franchise ordinance codified in this chapter shall not be affected thereby, but shall be deemed as a separate, distinct and independent provision, and such holding shall not affect the validity of the remaining portions hereof, and each remaining section, subsection, sentence, clause, phrase, term, provision, condition, covenant and portion of the franchise ordinance codified in this chapter shall be valid and enforceable to the fullest extent permitted by law. False or misleading information does not include information which the applicant reasonably believed, after exercising due diligence, was correct at the time of the application.

3. If the board fails to meet within the specified time period, fails to have a quorum, or fails to take action on the application within the specified time period, then the license shall be deemed approved and sent to the applicant by United States Mail to the address listed on the application within two days of the events described in this paragraph.

4. In the event the board denied the application in accordance with the provisions of this chapter, such denial and the reason for the denial shall be mailed to the applicant the next business day after the board meeting reviewing the results of the investigation and inspections.

5. If it is determined by the board, using the application and the inspection reports that the applicant has violated the provisions of the zoning code applicable to sexually oriented/adult entertainment businesses within the past two years, then the applicant is ineligible for a license for one year from the date the citation was sustained. A violation of the zoning code shall be evidenced by a judgment of a court. The fact that the judgment is being appealed shall have no effect on the disqualification of the applicant unless the judgment is stayed.

6. Any investigation reports or inspection reports not filed with the board in the time period specified in this section shall not prevent the applicant from receiving his/her license and shall be treated by the board as if that department approved the application.

7. If the board determines that the actual structure does not comply with Section 6.54.050(A) or the submitted diagram, then the applicant is not in compliance with this code section and the license shall be denied in accordance with Section 6.54.050(A) and (B).

8. If in the course of the investigation it is discovered any false or misleading statement or information was given on the application, or material facts were omitted from the application, the board shall deny the application in accordance with Section 6.54.050(B)(3). This notice shall specify the violation. If the applicant can come into compliance as described in subsection D of this section, the denial shall not take effect. The notice shall also specify that the applicant may request a hearing within five days, cure the violation within fifteen days and request reinspection or request an extension of time.

The board has the discretion to hold any application for further investigation if: (a) the initial investigation requires investigation into out-of-state records; or (b) verification of out-of-state employment relating to a sexually oriented business or a sexually oriented business license/permit or similar business license/permit is needed. Such additional investigation shall not exceed an additional ten days from the end of the initial fifteen days specified in subsection (C)(1) of this section, unless otherwise agreed to by the applicant.

Upon conclusion of the additional investigation, the board shall advise the applicant in writing the next business day whether the application is granted or denied.

12. Failure or refusal of the applicant to give any information relevant to the investigation of the application, or his/her refusal or failure to appear at a reasonable time and place for examination under oath regarding such application or his/her refusal to submit to or cooperate with any investigation required by this chapter, shall constitute an admission by the applicant that he/she is ineligible for such license and shall be grounds for denial thereof by the board. This in no way requires the applicant to agree to additional time extensions beyond that allowed in subsection (C)(10) of this section.

D. Extensions of Time for the Applicant.

1. If the license is denied, the applicant may reinstate his/her application by notifying the board in writing that he/she has come into compliance and requests reinspection.

The inspector has five days from the date he/she was notified by the board to reinspect the premises and inform the board as to whether the applicant has come into compliance in the same manner described in subsection (B)(3) of this section and using the same language required in subsection (B)(3) of this section.

d. Based on the report of the inspector(s), the board shall determine if the applicant has come into compliance, and if so the board shall issue the license at the next regular meeting. The next meeting shall be held no later than fifteen days after the inspection report is filed with the board. Any inspections not filed with the board in the time period specified in this section will be treated as described in subsection (C)(6) of this section.

e. If the applicant fails to either contact the appropriate inspector to report that the code violations have been corrected, or if the code violations have not been corrected, then the application will be denied.

2. If the process of curing the violation requires more time than that provided in subsection (D)(1) of this section, the applicant may request an extension from the board. If the applicant does not make such a request in the time allotted, the application is denied.

a. The request for an extension must be made in writing within fifteen days from the denial.

b. The board shall hear the applicant's request for an extension at the next regular meeting. The next meeting shall be held no later than fifteen days after the request for the extension is received by the board.

c. The hearing on the extension shall follow the same rules as set out in Section 6.54.020(G) except that the decision of the board shall grant or deny the extension and a decision to grant an extension shall take effect immediately.

d. An extension shall only be granted when the codes inspector and the health inspector agree that an extension will not endanger the health or safety of the community and the board determines that the applicant has demonstrated a good faith effort to make the necessary repairs or cure the violation(s) in a timely manner.

3. If the applicant fails to follow the procedure set out in this subsection then the application is denied and the applicant must reapply to obtain a license. Following the procedure set out in subsections (D)(1) or (D)(2) of this section requires no additional fees. Once the deadlines to cure the violation or ask for an extension of time have passed, the initial denial shall be treated as a denial of the application.

E. Denial of the License Application.

1. When an application is denied, the applicant has the right to request a hearing within five days of the board's notification.

a. The request shall be in writing and filed with the board within five days of the board's decision.

b. The board shall hear all the evidence pertaining to the denial of the application at the next regular meeting. The next meeting shall be held no later than fifteen days after the request described above is mailed.

c. At the hearing, the applicant may present evidence as to why his/her application should not be denied. If the applicant fails to appear at the hearing before the board he/she will have waived the right to present evidence to the board. Failing to appear before the board will not preclude the applicant's right to appeal any denial to the circuit or chancery courts of Davidson County.

d. The board shall affirm or reject the denial of the application at the hearing and in writing state the reasons for the board's decision.

e. The denial of the application shall be mailed by U.S. mail the next business day to the address of the applicant as listed on the application.

f. If the board fails to meet within the specified time period, fails to have a quorum, or fails to take action on the application within the specified time period, then the license shall be deemed approved and sent to the applicant by United States Mail to the address listed on the application within two days of that specified time period.

2. Any denial of an application for a license may be immediately appealed to the circuit or chancery courts of Davidson County. The metropolitan department of law may institute proceedings for a declaratory judgment. If the applicant chooses to appeal by filing a petition for a writ of certiorari, then the metropolitan government shall file the record of all proceedings with the court within ten days from the date the metropolitan government was served with a petition for a writ of certiorari.

3. For an existing sexually oriented business, as defined in Section 6.54.010, any adverse administrative decision that is appealed to any court shall not take effect until that decision has been upheld by the court after adjudication on the merits. If the court fails to rule within forty days of the filing of an appeal, a license shall issue. When the court makes a determination after adjudication on the merits that upholds the administrative denial of the license then that license shall be revoked in accordance with Section 6.54.150(A)(8). Adverse administrative de-

cisions of the board, which are not appealed shall not take effect for sixty days from the date of the decision to allow the affected party time to seek judicial review.

6.54.070 Application for permit.

A. Application.

1. Any person desiring to secure a permit shall make application to the board. The applicant shall file the original application with three copies. The original application shall be dated by the board and held in the files of the board. A copy of the application shall be distributed the next business day by the board to the Metropolitan Nashville police department and the applicant.

2. Application forms shall be available at the office of the board. Applicants may obtain their application from the codes department. Applicants must also submit with each application two 2 (2 photos.

a. Background Check. All background checks shall be completed by the metropolitan police department. The police department may be notified of a need for a background check in two ways. The applicant brings his/her application, including one of the two photos to the police department and has his/her fingerprints taken at the police department. The police then begin the background check and once completed, send the background check, application, fingerprint card, and photo to the office of the board. In the alternative, the applicant can obtain fingerprints as described below, turn into the board a complete application including, fingerprints and two photos and the board shall send the complete application to the police department requesting a background check. The police will return the complete application with the completed background check to the office of the board.

b. Fingerprints. The applicant shall have his/her fingerprints completed by the police department. If the applicant intends to mail his/her application to the board then he/she shall have his/her local law enforcement agency take his/her fingerprints and photograph and that law enforcement agency shall mail the fingerprints directly to the metropolitan police department.

c. Fees. If the applicant brings his/her application to the police department, the police department shall not charge the applicant any additional fee for fingerprinting or a background check. If the applicant has the fingerprinting performed without informing the police department that it is for his/her application for a sexually oriented entertainer permit, then the applicant may retain the receipts for the fingerprinting and give them to the codes department when the applicant files his/her application. The codes department shall subtract the expenses for the fingerprints from the one hundred dollar permit fee, and the applicant shall pay the difference. This same procedure applies if the applicant has his/her fingerprints and photographs taken by their local law enforcement agency and mailed directly to the metropolitan police department. Photos can be taken by the codes department at no additional fee or the applicant may have his/her photo taken elsewhere.

3. The application form shall include all information indicated in subdivisions (4)(a) through (4)(h) of this subsection.

B. Investigation. The police department shall investigate the applicant's criminal history by collecting the applicant's fingerprints and 2 (2 photo and by performing a background investigation for crimes of a sexual nature. The results of the investigation shall be filed in writing with the board no later than twenty days after the date the application was filed with the board. Any investigation information not filed with the board in the time period specified shall not prevent the applicant from receiving his/her permit and shall be treated by the board as if the report revealed no applicable criminal history.

C. Board Action on the Investigation Results.

1. Within fifteen days of receiving the results of the investigation conducted by the police department the board will meet and if it determines that the applicant has not been convicted of a crime of a sexual nature, as defined in Section 6.54.010, has not had a similar type of permit/license revoked in the last year, is at least eighteen

years of age, and has not given any false or misleading information on the application or omitted any material facts from the application then the board shall grant the permit. False or misleading information does not include information which the applicant reasonably believed, after exercising due diligence, was correct at the time of the application.

2. If the board fails to meet within the time period specified, or fails to have a quorum at the meeting, then the permit shall be deemed approved and sent to the applicant by United States mail to the address listed on the application.

3. In the event the board denied the application in accordance with Section 6.54.080, such denial and the reason for the denial shall be mailed to the applicant the next business day after the board meeting reviewing the results of the investigation.

4. Any investigation reports not filed with the board in the time period specified in this section shall not prevent the applicant from receiving his/her permit and shall be treated by the board as if that department approved the application.

5. If in the course of the investigation it is discovered any false or misleading statements or information was given on the application, or material facts were omitted from the application, the board shall deny the application in accordance with Section 6.54.080. False or misleading information does not include information which the applicant reasonably believed, after exercising due diligence, was correct at the time of the application.

6. The board has the discretion to hold any application for further investigation if: (a) the initial investigation requires investigation into out-of-state records; or (b) verification of out-of-state employment relating to a sexually oriented business or the revocation of a sexually oriented business license/permit or similar business license/permit is needed. Such additional investigation shall not exceed an additional ten days from the end of the initial fifteen days specified in subsection (D)(1) of this section, unless otherwise agreed to by the applicant.

7. Whenever an application is denied or held for further investigation, the board shall advise the applicant in writing the next business day of the reasons for such action. Upon conclusion of the additional investigation, the board shall advise the applicant in writing the next business day whether the application is granted or denied.

8. Failure or refusal of the applicant to give any information relevant to the investigation of the application, or his or her refusal or failure to appear at a reasonable time and place for examination under oath regarding such application or his or her refusal to submit to or cooperate with any investigation required by this chapter, shall constitute an admission by the applicant that he/she is ineligible for such permit and shall be grounds for denial thereof by the board. This in no way requires the applicant to agree to additional time extensions beyond that allowed in subsection (C)(6) of this section.

D. Denial of the Permit Application.

1. When an application is denied, the applicant has the right to request a hearing within five days of the board's decision.

a. The request shall be in writing and filed with the board within five days of the board's decision.

b. The board shall hear all the evidence pertaining to the denial of the application at the next regular meeting. The next meeting shall be held no later than fifteen days after the request described above is mailed.

c. At the hearing, the applicant may present evidence as to why his/her application should not be denied. If the applicant fails to appear at the hearing before the board he/she will have waived the right to present evidence to the board. Failing to appear before the board will not preclude the applicant's right to appeal any denial to the circuit or chancery courts of Davidson County.

2. Any denial of the application for a permit may be immediately appealed to the circuit or chancery courts of Davidson County. The metropolitan department of law may also initiate proceedings for a declaratory judgment. If the applicant chooses to appeal by filing a petition for a writ of certiorari, then the metropolitan government shall file the record of all proceedings with the court within ten days from the date the metropolitan government was served with a petition for a writ of certiorari.

3. For any current entertainer, as defined in Section 6.54.010, any adverse administrative decision that is appealed to any court shall not take effect until that decision has been upheld by the court after adjudication on the merits. If the court fails to rule within forty days of the filing of an appeal, a permit shall issue. When the court makes a determination after adjudication on the merits that upholds the administrative denial of the permit then that permit shall be revoked in accordance

with Section 6.54.150(C)(8). Adverse decisions of the board, which are not appealed shall not take effect for sixty days from the date of the decision to allow the affected party time to seek judicial review.

4. For a new entertainer, as defined in Section 6.54.010, any adverse administrative decision shall take effect the day the decision is issued by the board. If the adverse administrative decision is appealed to a court, and if the court fails to rule within forty days of the filing of an appeal, a permit shall issue. When the court makes a determination after adjudication on the merits that upholds the administrative denial of the permit then that permit shall be revoked in accordance with Section 6.54.150(C)(8).

3. Any cost or fee required to be paid by this chapter is not paid;

4. The licensee knowingly employs, or with due diligence should have known that licensee was employing, an entertainer who does not have a permit. The licensee knowingly provides, or with the exercise of due diligence should have known the he/she was providing, space on the premises whether by lease or otherwise to an independent contractor who performs or works as an entertainer without a permit;

5. The licensee sells, furnishes, gives, displays, or causes to be sold, furnished, given or displayed to any minor any sexually oriented entertainment or sexually oriented material on the licensed premises. The licensee knowingly allows, or thorough the exercise of due diligence should have been able to prevent, the licensee's employee, who is on the premises furthering the business of the licensee, from selling, furnishing, giving, displaying, or causing to be sold, furnished, given or displayed to any minor any sexually oriented entertainment or sexually oriented material on the licensed premises.

The licensee knowingly allows, or thorough the exercise of due diligence should have been able to prevent, an entertainer to sell, furnish, give, display, or cause to be

sold, furnished, given or displayed to any minor any sexually oriented entertainment or sexually oriented material on the licensed premises;

6. The licensee knowingly denies, or thorough the exercise of due diligence should have known that he/she was denying, access to law enforcement personnel during business hours to any portion of the licensed premises wherein sexually oriented entertainment is permitted or to any portion of the licensed premises wherein sexually oriented material is displayed or sold.

The licensee knowingly allows, or thorough the exercise of due diligence should have been able to prevent, his/her employee, who is on the premises furthering the business of the licensee, to deny access to law enforcement personnel during business hours to any portion of the licensed premises wherein sexually oriented entertainment is permitted or to any portion of the licensed premises wherein sexually oriented material is displayed or sold.

8. If an application for a license or a renewal of a license was denied and that administrative denial was appealed and upheld by a court after adjudication on the merits then that license shall be revoked on the effective date of the court's judgment.

9. The licensee fails to maintain the licensed premises in a sanitary and safe condition by allowing continuing violations of Chapter 6.54.

A continuing violation shall mean more than two judgments from the board, unless the decision of the board is appealed and overturned, that the licensee violated Chapter 6.54 within a twenty-four-month period, not including any period of suspension. The fact that the board's judgment is being appealed shall have no affect on the determination that the violation has been continuing until such time as the judgment of the board is reversed.

The licensee may affirmatively prove as a defense to an alleged violation of Chapter 6.54 that the licensee did not know, or through the exercise of due diligence could not have known that his/her employees' acts or an entertainer's acts would violate Chapter 6.54. If the licensee knew or should have known that his/her employees' acts or an entertainer's acts were violating any subsection of Chapter 6.54, the licensee may still affirmatively prove as a defense to the violation that the licensee was powerless to prevent the continuing unsafe or unsanitary condition.

The fact that the trial court's judgment is being appealed shall have no effect on the revocation until such time as the judgment of the trial court is reversed.

B. The board shall either fine, suspend or fine and suspend a license for any of the following reasons, that are not sufficient grounds for revocation:

1. The licensee fails to maintain the licensed premises in a sanitary or safe condition by allowing a violation of Chapter 6.54, Tennessee Code Annotated Section 57-4-204 or Metropolitan Code Section 7.24.030.

The licensee may affirmatively prove as a defense to an alleged violation of Chapter 6.54, Tennessee Code Annotated Section 57-4-204 or Metropolitan Code Section 7.24.030 that he/she did not know, or through the exercise of due diligence could not have known of his/her employee's acts or omissions or an entertainer's act or omissions. If the licensee knew or should have known that his/her employee or an entertainer was violating any such subsection of Chapter 6.54, Tennessee Code Annotated Section 57-4-204 or Metropolitan Code Section 7.24.030, the licensee may still affirmatively prove as a defense to the alleged violation that he/she was powerless to prevent the unsafe or unsanitary condition.

2. Upon the first violation of Chapter 6.54, Tennessee Code Annotated Section 57-4-204 or Metropolitan Code Section 7.24.030 within a twenty-four-month period, not including periods of suspensions, the licensee shall either be fined five hundred dollars or his/her license shall be suspended for a period no less than five days and no longer than thirty days or the licensee shall be both fined five hundred dollars and his or her license suspended for a period of not less than five days and no longer than thirty days.

A second violation of Chapter 6.54, shall mean a prior judgment from the board, unless the decision of the board is appealed and overturned, that the licensee violated

Chapter 6.54 within a twenty-four-month period, not including any period of suspension. The fact that the board's judgment is being appealed shall have no affect on the determination that the violation occurred previously until such time as the judgment of the board is reversed.

A second violation of Tennessee Code Annotated Section 57-4-204 or Metropolitan Code Section 7.24.030 shall mean a judgment from a trial court that the license violated Tennessee Code Annotated Section 57-4-204 or Metropolitan Code Section 7.24.030. The fact that a trial court's judgment is being appealed shall have no affect on the suspension and the judgment shall be treated as a violation until such time as the judgment of the trial court is reversed.

C. The board shall revoke a permit for any of the following reasons:

1. Discovery that false or misleading information or data was given on any application, or material facts were omitted from any application. False or misleading information does not include information which the applicant reasonably believed, after exercising due diligence, was correct at the time of the application;

Repeatedly fails to comply shall mean that the permittee has been found by the board to have violated Chapter 6.54 more than twice within a period of twenty-four months, not including any period of suspension. The fact that the board's judgment is being appealed shall have no affect on the determination that the permittee has repeatedly failed to comply until such time as the judgment of the board is reversed.

D. The board shall suspend a permit for any of the following reasons that are not grounds for revocation:

1. The permittee violates Chapter 6.54, Tennessee Code Annotated Section 57-4-204 or Metropolitan Code Section 7.24.030.

2. Upon the first violation of Chapter 6.54, Tennessee Code Annotated Section 57-4-204 or Metropolitan Code Section 7.24.030 within a twenty-four-month period, not including periods of suspensions, the permittee shall either be fined five hundred dollars or his or her permit shall be suspended for a period no less than five days and no longer than thirty days or the permittee shall be both fined five hundred dollars and his or her permit suspended for a period of no less than five days and no longer than thirty days.

1. Before revoking or suspending any license or permit the board shall give the operator or entertainer five days' written notice of the alleged violation(s) against him/her. In such cases the charges shall be specific and in writing except under Section 6.54.150(A)(7), (8) and Section 6.54.150(C)(7), (8) of this chapter.

2. The board shall hear all the evidence pertaining to the revocation or suspension at the next regular meeting. The next meeting shall be held no later than fifteen days after the notice described above is mailed. The licensee/permittee may present evidence bearing upon the question of suspension/revocation.

3. If the licensee/permittee fails to appear at the hearing before the board he/she will have waived the right to present evidence to the board on the citation. Failing to appear before the board will not preclude the licensee's/permittee's right to appeal any revocation/suspension to the chancery court of Davidson County.

4. If the licensee/permittee requests a hearing, the license/permit shall remain in effect and valid during the appeal to the board until such time as the hearing is held.

5. Any adverse administrative decision to suspend or revoke a license/permit that is appealed to the circuit or chancery courts of Davidson County shall not take effect until that administrative decision has been upheld by the court after adjudication on the merits. Adverse decisions of the board which are not appealed shall not take effect for sixty days from the date of the decision to allow the affected party time to seek judicial review.

6. The revocation/suspension of a license/permit may be appealed to the circuit or chancery courts of Davidson County by the licensee/permittee. The metropolitan department of law may initiate proceedings for a declaratory judgment in the circuit or chancery court for Davidson County. If the permittee/licensee chooses to appeal by filing a petition for a writ of certiorari, then the metropolitan government shall file the record of all proceedings with the court within seven days from the grant of the writ of certiorari.

F. Any operator or entertainer whose license or permit is revoked shall not be eligible to receive a license or permit for one year from the date of revocation. (Amdt. 1 §§ 11-13 with Ord. 99-1503 § 88, 1999)

3. Revocation of any license/permit for any conduct listed in Section 6.54.150A or C.

B. The penalty of suspension may not be combined with revocation. The five-hundred dollar penalty alone can be a penalty or it may be combined with a suspension.

C. Each violation of this chapter shall be considered a separate offense and any continuing violation shall be considered a separate offense for each day of the violation. (Ord. 99-1814 § 51, 1999; Ord. 99-1503 §§ 89, 90, 1999; Ord. 97-1022 § 63 (part), 1997; Ord. 97-796 § 2 (part), 1997)

6.54.170 Invalidity of part.

Should any court of competent jurisdiction declare any section, clause or provision of this chapter to be unconstitutional, or any other ordinance of the metropolitan government unconstitutional, such decision shall affect only such section, clause, provision or ordinance so declared unconstitutional, and shall not affect any other section, clause or provision of this chapter. (Ord. 97-1022 § 63 (part), 1997; Ord. 97-796 § 2 (part), 1997)

All vehicles permitted under a single certificate shall be covered under one master policy held by that certificate holder with coverage of not less than one million dollars combined single limit. The holder of the certificate of public convenience and necessity shall certify under oath to the MTLC that it has met and will continue to meet all requirements as necessary to ensure that coverage remains in force for each passenger vehicle for hire currently or in future affiliated with the holder of the certificate of public convenience and necessity. Documentation of compliance with these requirements shall be available to the MTLC staff upon request. In the case of a TNC, the TNC's commercial automobile liability insurance coverage and uninsured/underinsured motorist insurance coverage shall be consistent with the provisions of subsections B.3. and C. below.

C. Insurance Alternatives for TNC's.

1. To cover TNC operators that do not maintain a personal automobile liability policy as provided in subsection B.3, above, the holder of a TNC's certificate of public necessity and convenience shall, in the alternative, maintain one master commercial automobile liability policy held by that holder of the certificate of public convenience and necessity with coverage of not less than one million dollars combined single limit, under which all vehicles permitted under that holder's single certificate of public convenience and necessity and not already covered by a policy of the TNC operator meeting the requirements of subsection B.3., above, shall be covered, and which policy shall provide primary coverage for any incident that arises out of the operation of a TNC vehicle affiliated with that TNC any time after the TNC operator operating that TNC vehicle has accepted a ride on the TNC digital network or dispatch system until the passenger exits the vehicle. The TNC shall also provide uninsured/underinsured motorist insurance coverage, to be effective while there is a passenger in the TNC vehicle, in an amount not less than twenty-five thousand dollars (bodily injury per person)/fifty thousand dollars (per accident)/fifteen thousand dollars (for property damage).

2. The TNC's policy shall be supplemental to the TNC operator's personal policy at times when the TNC operator is logged onto the TNC digital network or dispatch system but has not accepted a ride or is not carrying a passenger, but, in the event that with regard to a claim that arises out of TNC operations during this time period, the TNC operator's personal insurance policy is not in place, denies coverage, or does not cover the full amount of the damages, the TNC's insurance shall

become primary coverage for the TNC vehicle of that particular TNC operator up to limits for this period to be set by the MTLC by rule.

3. The holder of the TNC's certificate of public convenience and necessity shall certify under oath to the MTLC that it has met and will continue to meet all requirements as necessary to ensure that coverage remains in force for each TNC vehicle currently or in future affiliated with the TNC and not already covered by a policy of the TNC operator meeting the requirements of subsection B.2., above. Documentation of compliance with these requirements shall be available to the MTLC staff upon request.

The failure of a holder to maintain continuous coverage of insurance as required by this section or to ensure that coverage is maintained shall be deemed sufficient cause for revocation of the certificate of public convenience and necessity. The holder of the certificate of public convenience and necessity shall quarterly certify to the MTLC director that they maintain current endorsements including all of the applicable above-described coverages as to each permitted driver and vehicle pertaining to said certificate holder's certificate or that they ensure that such endorsements are maintained, and shall promptly make all such documentation available to the MTLC director upon request. 6.77.030 Findings—Issuance of certificate, renewal or additional permits.

A. The MTLC must make a prerequisite finding as to what number of entertainment transportation vehicle service providers and vehicles are required by the public convenience and necessity, in the metropolitan government area, before it may issue any new certificates of public convenience and necessity, renew any previously issued expiring certificates, or add any additional permitted vehicles to an existing certificate-holder's permitted fleet. Further, the MTLC must find that an applicant is fit, willing, and able to provide such service and to conform to the provisions of this chapter and the rules promulgated by the MTLC, before the MTLC may issue a certificate of public convenience and necessity to a particular applicant. The certificate shall state the name and address of the applicant, the number of vehicles authorized upon such certificate and the date of issuance.

B. In making the above findings, the MTLC shall, at a minimum, take into consideration the number of entertainment transportation vehicles already in operation, whether existing service is adequate to meet the public need, or so great as to be exceeding the public need and unnecessarily adding to traffic congestion; the character, experience, financial condition and responsibility of the applicant, and such criteria as may be adopted by the MTLC in its rules. C. If the MTLC has made a finding that the number of entertainment transportation vehicles already in operation immediately prior to the annual meeting, is so great as to be exceeding the public need and adding to traffic congestion, the MTLC shall determine what lower number would meet the public need. All renewing and new applicants shall be placed on notice that at the annual meeting they must show cause why their application for a new certificate, a renewal, or for the addition of vehicles to their fleet should be among the new number determined to be adequate to meet, and not exceed, the public need. It, accordingly, may not be possible to renew every certificate and/or vehicle that was permitted in the preceding year. In the event the number of permits is reduced and any existing permits are not renewed at the annual meeting, such non-renewed permitted vehicles may continue operating for one hundred days from the date of the non-renewal. 6.80.545 Service zones.

In order to provide for the immediate removal of those vehicles interrupting the proper and orderly flow of traffic and thereby constituting an emergency situation as declared in Section 6.80.510, the commission is authorized and directed to divide the geographical jurisdictional territory of the metropolitan government into zones for emergency wrecker service, which zones shall be established in a manner which best serves the traffic and safety needs of the community and as near as possible divides the emergency wrecker business equitably among those persons licensed to provide emergency wrecker service. To each zone the commission shall assign at least one licensee.

A. Present Zones Established. The emergency wrecker service zones presently established shall be the first emergency wrecker service zones authorized by this chapter and shall continue as emergency wrecker service zones with those licensees presently assigned to each zone continuing in the zones to which they are now assigned.

B. Method of Altering Zones.

1. The commission shall require all licensees to report all calls which they make to the commission, giving the date, the time, the name of the owner of the vehicle transported, type of vehicle, distance towed and fee charged and the license number. Once each year the commission shall review the efficiency and suitability of the emergency wrecker service zones which have been established and shall by regulations make such changes as the traffic control in the area of the metropolitan government, the welfare of the public and the safety of the motoring public shall require. Such changes shall be made only after a public hearing to occur at a time and place established by the commission and due notice provided prior to the hearing.

2. The commission on its own motion or on the petition of the chief of police of the metropolitan government or any licensee may change the established emergency wrecker service zones or the licensees assigned to such zones. However, before making any such change, the commission shall hold one public hearing a year on such petitions after having published notice, as herein required, and shall keep a record of the proceedings of

such hearing; and, within thirty days after the date of such hearing, the commission shall render its decision on the petition or the petition shall be considered denied. No such hearing shall be held on a petition for a change

in zones or licensees without giving due notice of the time and place of such hearing to all licensees who may be affected by such change.

C. Response Time. Zone wrecker companies must respond to calls within their zones within thirty minutes when traffic and weather conditions are normal. Excessive response time in normal conditions may result in a review of their zone privileges.

D. Transfer of Zone Assignments.

1. No licensee designated by the commission to provide emergency wrecker service within an assigned emergency wrecker service zone shall sell, assign, mortgage, bequeath, or otherwise transfer the right to service such assigned zone without commission approval following a public hearing as required in subsection (D)(2) of this section.

2. Prior to the transfer of any zone assignment, the commission shall hold a public hearing for the request. The commission shall establish the time and date for the public hearing and shall provide due notice prior to the hearing, giving the time and place of such hearing. A nonrefundable fee, as set by the commission, will be charged for each transfer request by any applicant assuming ownership of a wrecker company which already holds a zone assignment. Other applicants for the zone assignment will be charged a nonrefundable fee as set by the commission. (Ord. BL2022-1113 § 6, 2022; Ord. BL2011-870 §§ 2, 3, 2011; Ord. BL2000-247 § 20, 2000; Ord. 96-612 § 1 (part), 1996)

6.80.550 Fees charged.

The schedule of all maximum nonconsent wrecker service fees shall be posted in plain view at the location where vehicles are stored and recovered and inside each towing vehicle. In the event a service vehicle is summoned by the police and the service vehicle arrives at the scene to which summoned and assistance is offered but no longer needed, the maximum fee which may be charged shall be the established drop fee set forth at subsection G of this section.

4. The board shall notify the councilmember for the district in which the applicant establishment is located in writing within five business days from the date the application is filed requesting the waiver of distance requirements.

5. The public hearing required by this subsection shall be conducted by the council at a regular meeting of the council. Public notification of the hearing shall be conducted pursuant to the public notification requirements for amendments to the official zoning map in accordance with Article XV of Chapter 17.40 of the metropolitan code, provided that notice by mail shall be sent to all property owners within six hundred feet of the establishment seeking the exemption from the minimum distance requirements not later than fourteen days prior to the scheduled public hearing on the resolution. Further, a public notice sign meeting the general requirements of Section 17.40.730 of the metropolitan code shall be posted on the property of the applicant seeking the exemption from the minimum distance requirements at least fourteen days prior to the scheduled public hearing. The costs for the public notification requirements shall be paid by the applicant, in addition to the regular application fee pursuant to Section 7.08.060 of this chapter. The applicant shall coordinate the scheduling of the public hearing with the metropolitan clerk's office prior to the filing of the resolution for purposes of including the date and time of the public hearing in the public notice to be mailed.

6. Failure of a retail food store permit holder that is exempted from the distance requirements pursuant to this subsection to meet the applicable requirements in subsection E.2. above shall constitute grounds for revocation of a permit for the sale of beer. Upon revocation of a beer permit for failure to meet the applicable requirements in subsection E.2., the retail food store applicant shall be required to reapply for the permit without being exempted from any distance requirements.

7. Notwithstanding any other provision of this section to the contrary, any holder of a validly issued Wholesaler Basic Permit from the United States Alcohol and Tobacco Tax and Trade Bureau shall be exempt from the minimum distance requirements set forth in subsection A. of the section upon the adoption of a resolution, after a public hearing, by the metropolitan council receiving twenty-one affirmative votes approving the exemption of the establishment from said minimum distance requirements. The metropolitan clerk shall notify the board in writing upon the adoption of a resolution approving an exemption from the minimum distance requirements.

F. Notwithstanding any other provision of this section to the contrary, no on-premises beer permit shall be revoked or denied solely because the expansion of the footprint of the building causes the establishment to be located within one hundred feet of a school that received an occupancy permit from the department of codes administration after the permit holder obtained the initial beer permit. Further, if an on-premises beer permit holder sells the business establishment after a school locates within one hundred feet of the establishment, an on-premises beer permit shall not be denied for the new owner solely as a result of its proximity to said school as long as the new owner applies for the on-premises beer permit within three hundred sixty-five days after the expiration of the previous owner's beer permit.

G. Notwithstanding any other provision of this section to the contrary, the location restrictions provided in subsection A. prohibiting a beer permit from being issued to an applicant whose location is within one hundred feet of a one or two family dwelling shall not apply if the only single or two family dwelling within

one hundred feet is connected to the structure for which the permit is sought and is the primary dwelling of the permit holder.

H. No retailer off-sale permit shall be issued to an applicant whose location is within or attached to an indoor shopping mall that has a community center operated by the metropolitan department of parks and recreation and/or a public library on the premises. For purposes of this subsection, "indoor shopping mall" means a shopping center with stores and businesses facing a system of enclosed walkways for pedestrians. (Ord. BL2023-2007 § 1, 2023; Ord. No caterer's permit shall be issued to a person who does not hold a valid caterer license from the state alcoholic beverage commission for sale and consumption of wine and other alcoholic beverages pursuant to Chapter 4 of Title 57 of the Tennessee Code Annotated (T.C.A. § 57-4-101 et seq.). Should the holder of a caterer's permit cease to hold a valid caterer license from the state alcoholic beverage commission, such caterer's permit shall be automatically deemed revoked by the board.

B. No caterer's permit shall be issued to a person who does not hold a valid retailer's "on-sale" permit for its permanent catering hall issued pursuant to the provisions and requirements of this chapter, including the location restrictions specified in Section 7.08.090.

Such notice shall include, but not be limited to, the date, time, and location of the event.

E. 7.08.110 Suspension and revocation of permit—Authority.

A. The metropolitan beer permit board shall have the power to revoke or suspend, and shall be charged with the duty of revoking or suspending, any permits issued by it, upon notice to the permittee and a hearing thereon, for any violation of any provision of state law regulating the sale, storage and transportation of alcoholic beverages or for any violation of any provision of this code or any other ordinance of the metropolitan government or of any private act, county court resolution or City of Nashville ordinance which has the effect of an ordinance of the metropolitan government regulating beer or other intoxicating beverage, or when the permittee:

1. Operates a disorderly place;

B. Pursuant to Tennessee Code Annotated § 57-5-608, the beer board shall not revoke or suspend a permit because of the sale of beer to a minor if, at the time of the sale: (1) the permit holder was a responsible vendor, and (2) the clerk who made the sale was certified under the Responsible Vendor Program, or had been employed for sixty-one days or less. If the permit holder's certification has been revoked, the permit holder shall be punished by the beer board as if the vendor were not certified as a responsible vendor.

C. In lieu of any suspensions that might have been imposed but for the restrictions set forth in subsection B; the beer permit board may impose a civil penalty not to exceed one thousand dollars. If the beer board determines that a clerk of an off-premises beer permit holder certified under the Responsible Vendor Program sold beer to a minor, the beer board shall report the name of the clerk to the alcoholic beverage commission within fifteen days after such determination by the board. (Ord. BL2009-459 §§ 4, 5, 2009; Ord. 99-1794 §§ 8 (part), 9, 1999; prior code § 5-1-23)

7.08.120 Draft beer defined—Off-premises consumption sales.

A. Draft beer may be sold for off-premises consumption only by the holder of an off-sale beer permit.

B. "Draft beer," as defined in this section, means beer which is poured from a pressurized container or keg into a container approved by the State of Tennessee, which is then commercially sealed. The process of pouring the beer into the container and commercially sealing same shall take place on the premises of the retailer in an area separate from the area which the public may use. (Ord. 99-1794 §§ 7 (part), 8 (part), 1999; prior code § 5-1-15.1)

7.08.130 Prohibited acts—Generally.

It is unlawful for any person:

A. To bring, to cause, or allow to be brought onto the premises of any permittee under the provisions of this chapter any prohibited drugs within the meaning of Tennessee Code Annotated, Sections 53-10-101, et seq., and 39-17-401, et seq.,

B. To bring, to cause, or allow to be brought onto the premises of any permittee under the provisions of this chapter any intoxicating beverage, the alcoholic content of which is in excess of eight percent by weight, unless such permittee is the holder of a valid license issued under the authority of Tennessee Code Annotated, Title 57, Chapter 4 (T.C.A. § 57-4-101 et seq.); provided, however, that any permittee that is the holder of a Brewer's Notice from the United States Alcohol and Tobacco Tax and Trade Bureau, and such permittee is adjacent to and shares common interior and/or enclosed exterior areas with a distillery that holds a valid license issued under the authority of T.C.A. § 57-3-202, shall be allowed to permit alcoholic beverages, whether open or sealed, from such distillery to be brought onto the premises of the permittee as long as any sealed containers remain sealed while on the premises of the permittee;

This provision shall not apply to any beer permit holder that is permitted by Section 57-4-203(d)(6) of the Tennessee Code Annotated, as enacted by House Bill 1289 (2017 Tenn. Pub. Ch. 371), to sell or give away alcoholic beverages at any time of day except for the hour between three o'clock (3:00) a.m. and four o'clock (4:00) a.m. Such permit holders may sell, give away, or allow the consumption of beer on their premises during any hours they are permitted by state law to sell or give away alcoholic beverages;

E. To allow any person under eighteen years of age to loiter or congregate about the premises. The burden of ascertaining the age of minor persons shall be on the permit holder and his agent or employee. When a minor is seated at a table, there shall be no beer served at the table unless such minor is accompanied by a parent or guardian. When a minor is seated at a mobile establishment that holds a mobile beer permit or mobile BYO beer permit, there shall be no beer served unless such minor is accompanied by a parent or guardian;

J. To permit rowdy or disorderly conduct on the premises;

K. To sell or transfer the equipment or assets of the business authorized by his permit to another for the purpose of continuing the business on the same premises, unless he shall notify the board in writing immediately upon such sale or transfer, and unless he shall give the name and address of the purchaser within said notice. BL2013-633 § 1, 2014; Ord. BL2013-592 § 1, 2013; Ord. BL2008-349 § 2, 2008; Amdt. 1 with Ord. 2003-1363 § 1, 2003; Ord. 99-1794 §§ 8 (part), 11, 1999; Ord. 93-669 §§ 1, 2, 1993; Amdt. 1 to Ord. 91-2, 10/15/91; Ord. 91-2 § 1, 1991; prior code § 5-1-23.3)

7.08.150 Suspension and revocation of permit—Civil penalty options.

A. In addition to its authority in Section 7.08.110, the beer permit board may, at the time it imposes a suspension, offer a permit holder the alternative of paying a civil penalty not to exceed one thousand dollars provided however that the amount of the civil penalty may be increased to an amount not to exceed two-thousand five hundred dollars in the case of a sale to a minor by a permit holder that is not a responsible vendor. If a civil penalty is offered as an alternative to revocation or suspension, the holder shall have seven days within which to pay the civil penalty before the revocation or suspension shall be imposed. If the civil penalty is paid within that time, the revocation or suspension shall be deemed withdrawn. Payment of the civil penalty in lieu of revocation or suspension by a permit holder shall be an admission by the holder of the violation so charged and shall be paid to the exclusion of any other penalty that may be imposed.

B. Revocation, suspension or imposition of a civil penalty may be made where it appears satisfactorily that the premises of any person, firm or corporation holding a beer permit under this chapter are being operated in such manner as to be detrimental to public health, safety and morals.

C. The action of the board in connection with the issuance of any order revoking or suspending a beer permit or imposition of a civil penalty may be reviewed by statutory writ of certiorari, with a trial de novo as a substitute for an appeal, the petition of certiorari to be addressed to the circuit or chancery court of Davidson County. The procedures in Tennessee Code Annotated Section 57-5-108 are the sole method for review of decisions under this section, as they may be amended.

D. Where a permit is revoked, no new license shall be issued to permit sale of beer on the same premises until the expiration of one year from the date the revocation becomes final and effective. The board may, in its discretion, determine that issuance of a license or permit before the expiration of one year from the date of revocation becomes final is appropriate, if the individual applying for such issuance is not the original holder of the license or any family member who could inherit from such individual under the statute of intestate succession, or, if any new owner is not in any way associated with the owner whose permit was revoked.

E. The board may revoke or suspend a permit or impose a civil penalty on any beer retailer who is found to possess beer on which the state beer barrelage tax and the county wholesale beer tax has not been paid. The burden of proof shall be on the permit holder to show the taxes on the beer have been paid by showing that the beer was purchased from a Tennessee beer wholesaler by providing a bill of sale or invoice showing name and address of the retailer and wholesaler and the number of containers of each brand purchased, and which shall be signed by the retailer.

F. A beer permit of a responsible vendor may be permanently revoked only if the permit holder has had two or more violations of selling beer to a minor within a twelve month time period. (Amdt. 1 to Ord. BL2009-459 § 6, 2009; Ord. BL2009-459 §§ 6, 7, 2009; Ord. 99-1794 § 12, 1999)

(Ord. 99-1794 § 8 (part), 1999; prior code § 5-1-12)

7.08.200 Retail purchases and deliveries—Permit location only.

B. It shall be unlawful for any holder of a retail beer permit to knowingly permit the purchase of beer at his place of business by anyone for resale and delivery to another. Holders of retail beer permits issued by the board are prohibited from selling beer to any person when the retail permit holder knows or should have reason to know that such beer is purchased for resale and delivery off of the premises for which his permit is issued. 7.08.210 Resale prohibited when.

It is unlawful for any retailer holding a permit issued by the metropolitan beer permit board to purchase, accept as a gift or loan, or to receive, swap or exchange, beer, for the purpose of resale, from any person who is not the holder of a valid wholesale permit issued by the board. (Ord. 99-1794 § 8 (part), 1999; prior code § 5-1-11)

7.08.220 Return of beer permit upon termination of business.

A permit holder must return his permit to the board within fifteen days of termination of the business, change in ownership, relocation of the business or change of the businesses name; provided that, regardless of the failure to return a beer permit, a permit shall expire upon termination of the business, change in ownership, relocation of the business or change of the business's name. (Ord. 99-1794 §§ 8 (part), 13, 1999)

7.08.230 Valid permit—Limitations.

A permit shall be valid:

A. Only for a single location, except as provided in subsections D and F of this section, and cannot be transferred to another location. A permit shall be valid for all decks, patios and other outdoor serving areas that are contiguous to the exterior of the building in which the business is located and that are operated by the business. However, a permit holder for a business that is subject to the distance requirements set forth in this chapter, at Section 7.08.090, may not sell beer at a deck, patio and/or other outdoor serving area that is built after the date of the issuance of the permit.

B. Only for a business operating under the name identified in the application.

C. Only for the owner to whom the permit is issued and cannot be transferred to another owner. Should the ownership of a location change, the new owner shall apply for a new permit in accordance with Article I of Chapter 7.08. If the owner is a corporation, a change in ownership shall occur when control of at least fifty percent of the stock of the corporation is transferred to a new owner.

D. Where an owner operates two or more restaurants or other businesses within the same building, the owner may at the owner's discretion operate some or all such businesses pursuant to the same permit.

E. A business can sell beer for both on-premises and off-premises consumption at the same location pursuant to one permit.

No certificate of compliance shall be granted entitling the applicant to apply for a license from the alcoholic beverage commission to sell an alcoholic spirituous beverage at retail in respect to premises situated outside of the area defined in Section 7.16.030. (Ord. 90-1339 § 1 (5-14), 1990; prior code § 5-2-38)

A. Except as provided in subsection G. of this section, no certificate of compliance shall be issued under this chapter to any retailer where the place of business of the applicant is located within fifty yards of a private residence or a branch of the Nashville Public Library, which is on the same side of the street of the proposed retail store, or is within one hundred yards of any place of worship or two hundred yards of a schoolground or college campus. These restrictions as to locations apply to conditions existing at the present. Changes in such conditions shall not entitle or forbid the location of liquor stores by reason of such unless otherwise provided by ordinance.

B. 1. A "private residence" is defined as a house or dwelling wherein not more than two families reside and shall not include an apartment house having facilities for housing more than two families, nor a boarding or roominghouse where there are five or more boarders or roomers.

However, in no instance shall a proposed retail liquor store be located within one hundred yards of the closest property line of a schoolground or college campus following the usual and customary path of pedestrian travel. For the purposes of this subsection D, "access point" shall mean the first point at which a pedestrian is able to step onto the property of a schoolground or college campus, such as the opening or gate in a fence or similar barrier, or the property line if no such barrier exists.

E. No certificate of compliance shall be issued to any retail liquor dealer where the place of business of the applicant is located within two hundred yards of another retail liquor store, such measurement being determined by projecting a line from the entrance of the store to the middle of the street and then measuring from that point to the new location; provided, that nothing in this subsection shall prohibit or in any manner limit or affect the renewal of any retail certificate of compliance and the continuation of the operation of any retail liquor store licensed and in operation on May 1, 1968. The provisions of this subsection shall not be applicable to an artisan distillery as defined in Section 17.04.060 of the metropolitan code.

F. No certificate of compliance for the retail sale of liquor shall be issued where the applicant's proposed retail liquor store adjoins, abuts or is adjacent to an existing branch of the Nashville Public Library, a place of worship or school.

The certificate of compliance fee for every license issued under this chapter shall be payable by the person making application for such certificate of compliance and to whom it is issued, and no other person shall pay for any certificate of compliance issued under this

chapter. In addition to any other penalty that may be imposed, a violation of this section shall authorize and require the revocation of the certificate of compliance, the fee for which was paid by another, and also the revocation of the certificate of compliance, if any, of the person so paying for the license of another. (Ord. 90-1339 § 1 (5-18), 1990; prior code § 5-2-42)

7.16.180 Premises removal, relocation, transfer conditions.

A. Nothing in this chapter shall prohibit the removal from one location to another by a retailer already licensed, provided the location to which removal is sought is within one thousand twelve hundred feet of the present location of the premises so licensed. In such cases where removal is caused by the metropolitan government, state or federal government acquiring the property for public projects, however, the location to which removal is sought may be permitted within three thousand six hundred feet of the present location of the premises so licensed. In permitting the transfer of a certificate of compliance issued under this chapter, the certification of the mayor shall not issue unless the transferee meets all the requirements for the original issuance of the certificate of compliance.

B. Whenever a licensee whose premises is within the area defined in Section 7.16.030 loses his location, caused by no fault of the licensee himself, the licensee may be permitted to relocate within the urban services district area referred to in Section 7.16.030 to any suitable location within the urban services area upon approval by the mayor and the alcoholic beverage commission, which the mayor shall not grant except in cases where the transferee meets all requirements for the original issuance of a certificate of compliance for the proposed location. (Ord. 90-1339 § 1 (5-16), 1990; prior code § 5-2-40)

7.16.190 Effect of felony conviction involving moral turpitude.

A. No person shall make application who has been convicted of a felony involving moral turpitude within ten years prior to the time he or the concern with which he is connected shall make application; provided, that this provision shall not apply to any person who has been so convicted, but whose rights of citizenship have been restored or judgment of infamy has been removed by a court of competent jurisdiction, and in case of any such conviction occurring after a license has been issued and received, the certificate of compliance shall immediately be revoked, if such convicted felon is an individual licensee, and, if not, the partnership, corporation or association with which he is connected shall immediately discharge him.

A. For the purpose of this chapter, the following terms have the following meanings:

"Bite" means a puncture or tear caused by the teeth of an animal resulting in a break of the skin sufficient to cause blood to be present in the wound.

"Confined" means securely confined indoors, or confined outdoors in a securely enclosed locked pen or structure upon the premises of the owner of such dog. Such pen or structure must have secure sides, a secure top and provide for appropriate shading. If the pen or structure has no bottom secured to the sides, the sides must be set in concrete no less than eighteen inches in the ground. The size of the pen must be of sufficient size to house and shelter the said dog comfortably but no smaller than ten feet by ten feet.

"Guard dog" means any dog trained to protect persons or property by attacking or threatening to attack any person found within the area patrolled by the dog.

"Physical device or structure" means a tether or leash, trolley system, other physical control device or any structure made of material sufficiently strong to adequately and humanely confine the animal in a manner that would prevent it from escaping the premises.

"Provocation" means any act that causes an animal to bite or attack to protect itself, offspring, owner or property.

"Secure Enclosure" means any of the following:

(1) A fully fenced pen, kennel or structure that shall remain locked with a padlock or combination lock. Such pen, kennel or structure must have secure sides, minimum of five feet high, and the director may require a secure top attached to the sides, and a secure bottom or floor attached to the sides of the structure or the sides must be embedded in the ground no less than one foot. The structure must be in compliance with the jurisdiction's building code; or

(2) A house or garage. When dogs are kept inside a house or garage as a secure enclosure, the house or garage shall have latched doors kept in good repair to prevent the accidental escape of the dog. A house, garage, patio, porch or any part of the house or condition of the structure is not a secure enclosure if the structure would allow the dog to exit the structure of its own volition; or

(3) For a vicious dog, a fully fenced pen, kennel or structure at least six feet in height, installed beneath the ground level or in concrete or pavement, or a fabricated structure to prevent digging under it. Either enclosure shall be designed to prevent the entry of children or unauthorized persons and to prevent those persons from extending appendages inside the enclosure and be equipped with a self closing and self latching gate. A "Vicious Dog" sign prescribed by the director must be posted at the entry to the owner's or keeper's premises.

"Vicious dog" means any dog which attacks and bites, or which seriously injures or kills, a person or animal on any public or private property without provocation; any dog previously declared vicious in a court of law; or any dog owned or harbored primarily or in part for the purpose of dog fighting.

B. Except as provided above, all other terms shall have the meaning as provided in Section 8.04.010 of the Metropolitan Code. (Ord. BL2023-1688 § 2, 2023; Amdt. 1 §§ 1 and 2 with Ord. 2001-842 § 2 (part), 2001; Ord. 89-737 § 1, 1989)

8.08.020 Reserved.

Editor's note—Ord. BL2023-1688, § 3, adopted May 16, 2023, repealed § 8.08.020, which pertained to guard dogs and derived from Ord. 89-737 § 4, 1989; Amdt. 1 § 3 with Ord. 2001-842 § 2 (part), 2001. The user's attention is directed to § 8.04.110.

8.08.030 Vicious dogs prohibited.

A. It shall be unlawful for any person to keep or harbor a vicious dog within the area of the metropolitan government unless said dog is confined.

B. In addition to the court actions set forth in Section 8.08.060 of this chapter, upon being found in violation of the provisions of this section, the court may order that the person do one or both of the following:

1. Be precluded from owning, harboring, or having custody or control of companion animals for a period of time that the court deems reasonable.

2. Pay appropriate fines and fees. (Amdt. 1 to Ord. BL2007-1316 § 1, 2007; Ord. BL2007-1316 § 1, 2007; Ord. 2001-842 § 2 (part), 2001; Ord. 89-737 § 2, 1989)

Any vicious dog, not in compliance with the provisions of Section 8.08.030 may be taken into custody by the appropriate authorities of the department of health or of the metropolitan police department and impounded. The fees imposed by Section 8.04.130 of the Metropolitan Code shall be imposed upon and paid by the owner of such vicious dog so impounded to cover the costs of the metropolitan government in impounding said dog. (Ord. 2001-842 § 2 (part), 2001; Ord. 89-737 § 3(a), 1989)

8.08.050 Impoundment—Court proceedings against owner.

A. Upon receipt of a vicious dog complaint, the division of metro animal services shall investigate said complaint. No dog that is the subject of a vicious dog investigation may be relocated or ownership transferred pending the outcome of said investigation. Each vicious dog complaint shall be subject to the review of the director of metro animal services or his/her designee prior to initiating any action against the dog's owner.

B. If the director of metro animal services has probable cause to believe that a dog is in violation of any provision of the chapter, the animal shall be impounded at the metro animal services facility or a licensed veterinary clinic in Davidson County. The owner of the dog shall be charged with violating this chapter, and proceedings initiated in the metropolitan general sessions court against the owner. (Ord. 2001-842 § 2 (part), 2001; Ord. 89-737 § 3(b), 1989)

The court may, upon making a finding that the dog is a vicious dog pursuant to this chapter, order (a) the dog released from impoundment, provided the owner shall within three days after the dog has been declared vicious, provide proof that a proper enclosure to adequately confine said vicious dog has been built subject to inspection by the director of metro animal services or his/her designee; (b) the dog is transported directly from metro animal services to a licensed veterinarian where said dog shall be either tattooed or implanted with an electronic microchip for identification, a copy of the information contained thereon to be provided to the division of metro animal services; or (c) the dog be destroyed in a humane manner by the division of metro animal services. 3. The first permit year shall extend from the date of issuance through December 31, 2013. Thereafter the permit year shall be January 1 through December 31.

4. Fees. The fee for an annual permit to keep domesticated hens is twenty-five dollars.

2. In addition to the fenced enclosure, hens shall be provided with a covered, predator-resistant henhouse. A minimum of two square feet per hen shall be provided for henhouses and six square feet per bird for fenced enclosures.

H. Approval of permit. The department of health shall issue a permit if the applicant submits an affidavit attesting that he/she is in compliance with the criteria and standards in this section.

I. Denial, suspension or revocation of permit. The department of health shall deny a permit if the applicant fails to submit an affidavit demonstrating compliance with all provisions of this section. A permit to keep domesticated hens may be suspended or revoked by the department of health where there is a risk to public health or safety or for any violation of or failure to comply with any of the provisions of this section or with the provisions of any other applicable ordinance or law, provided that a permit to keep domesticated hens shall be revoked in the event a court of competent jurisdiction finds three or more separate violations of the provisions of this section and/or of Section 17.16.250.B of the Metropolitan Code within a twenty-four month period. Any denial, revocation, or suspension of a permit shall be in writing and shall include notification of the right to and procedure for appeal. In the event a permit to keep domesticated hens at a particular address is revoked pursuant to the provisions of this subsection, no new permit shall be issued by the department of health for the same address unless the property changes ownership or a new tenant is residing at the address.
