For this article, the following definitions shall apply, unless the context clearly indicates otherwise:

Certification holder shall mean a person issued a green event certification pursuant to this article.

City manager shall mean the city manager of the City of San Antonio or designated representative.

City-owned property shall mean all facilities, parks, and other real property owned or controlled by the city.

Director shall mean the director of the office of sustainability or designated representative.

Event shall mean any organized gathering of individuals.

Green event certification shall mean an event that has received certification as green because of the resource conservation measures that will be employed during the event and the subsequent reduction of waste, energy and materials consumption.

Green event facility shall mean a building or facility that has been previously certified by design and best management practices as a green event compliant venue. If the building or facility capacity is under two thousand (2,000) occupants a certification level of "silver" or higher is required. If the building or facility capacity is two thousand (2,000) or more occupants, a certification level of "gold" or higher is required.

Green event scorecard shall mean the listing of measures that an event can utilize to obtain the various levels of compliance with this article, as developed and maintained by the OS. Each measure is assigned a number of points that can be combined toward achieving a certification level of silver, gold, platinum, and verde.

Large scale event shall mean an event with a total of two thousand (2,000) or more participants and support personnel.

Medium scale event shall mean an event with a total of one thousand (1,000) or more, but less than two thousand (2,000), participants and support personnel.

Mission Verde shall mean the sustainability resolution adopted and endorsed by the city.

OS shall mean the office of sustainability of the city.

Organize shall mean to arrange systematically as an individual or with a committee or group for harmonious or united action.

Person shall mean an individual, corporation (including a government corporation) organization, governmental subdivision or agency, federal agency, state, political subdivision of a state, interstate agency or body, business or business

[This page intentionally left blank.]

trust, partnership, association, firm, company, joint stock company, commission, or any other legal entity.
(Ord. No. 2010-04-08-0303, § 1, 4-8-10; Ord. No. 2016-04-14-0283, § 1, 4-14-16)

Sec. 26-31. Green event certification required.

(a) No person shall organize any medium or large scale event on city-owned property or requiring a right-of-way permit without having first obtained a green event certification. No person shall organize any medium or large scale event receiving city funding or sponsorship which is valued at half or greater of the total event costs without having first obtained a green event certification.

(b) All medium scale events at city-owned property or requiring a right of way permit must obtain a certification of "silver" or higher. All large scale events at city-owned property or requiring a right of way permit must obtain a certification of "gold" or higher. Events receiving city sponsorship which is valued at half or greater of the total event costs must obtain a certification of "platinum" or higher.

(c) Event venues can apply to the director for listing as certified green event facilities. Event organizers that are using the green event certified facilities would not need to complete the scorecard unless they wish to be recognized for higher levels of certification than the event facility includes.
(Ord. No. 2010-04-08-0303, § 1, 4-8-10)

Sec. 26-32. Exceptions.

This article shall not apply to:

(1) Events with less than a total of one thousand (1,000) participants and support personnel;

(2) Events and parades not providing or including food or beverages as a part of the event;

(3) Events held on city-owned property that is managed or operated for the city under a third party lease;

(4) Any event held at a green certified facility; or

(5) Any event that is held on private property and the event is not receiving city funding or sponsorship which is valued at half or greater of the total event costs.

(Ord. No. 2010-04-08-0303, § 1, 4-8-10)

Sec. 26-33. Standards for issuance of certification.

(a) The city shall uniformly treat each application in a just, fair, and nondiscriminatory manner bearing in mind that the objective of the green events policy is to target the reduction of waste, energy and materials consumption at events.

(b) A "green events planning guide" shall be developed by the OS and outline how to organize and coordinate a certifiable green event. The guide shall describe how to minimize and offset the impact of an event.

(c) The event organizers will complete a "green events scorecard" which shall be made available by the relevant city department controlling the facility, issuing the permit, or providing funding or sponsorship which is valued at half or greater of the total event costs. The "green events scorecard" will be submitted along with each city contract, permit application, or as otherwise required for events covered by the ordinance. The "green events scorecard" shall contain the various measures and practices available to qualify for the required point standards needed for certification for the applicable event.

(d) Event organizers will have the opportunity to purchase necessary certification points from OS by contributing to the "Mission Verde Offset Fund." Proceeds from the fund will go towards local environmental activities. The "Mission Verde Offset Fund" fees are fifty-five dollars ($55.00) per point for medium-scale events and seventy-five dollars ($75.00) per point for large-scale events. These amounts may be changed to fit future needs to reinforce effectiveness of this article. For example, an event with fifteen thousand (15,000) participants that requires a gold rating and chooses to do none of the scorecard items can pay an offset cost of four thousand five hundred dollars ($4,500.00) to the "Mission Verde

Offset Fund" to pay for local environmental activities such as tree plantings or energy conservation programs.

(e) Non-mandated events can voluntarily complete and submit a "green events scorecard" to the OS and contribute to the "Mission Verde Offset Fund" to purchase points needed for certification or to voluntarily provide support for local environmental programs. All events completing a scorecard will receive a "green event" rating to use in event advertising and publications.
(Ord. No. 2010-04-08-0303, § 1, 4-8-10; Ord. No. 2016-04-14-0283, § 1, 4-14-16)

Sec. 26-34. Application for certification.

(a) A person seeking issuance of a green event certification shall complete the "green events scorecard", develop and submit a recycling/waste plan, and file an application (including the green events scorecard and the recycling/waste plan) with the city on forms provided by the relevant department in charge of the facility, responsible for issuing the permit, or providing funding or sponsorship which is valued at half or greater of the total event costs. The recycling/waste plan is mandatory for all events, is subject to review and approval by the city, and must address:

(1) The number of recycling receptacles to trash receptacles - reflecting a 1:1 ratio of recycling receptacles to trash receptacles;

(2) Items to be recycled;

(3) Name of the trash and recycling haulers; and

(4) Outreach methods to reduce recycling contamination.

(b) An application for a green event certification shall be filed with the relevant department with the applicable contract or permit application.

(1) The application shall contain the following information:

a. The name and contact information of the person seeking to conduct the event;

b. Where the event is to be held for or by an entity, rather than an individual, the name, address, and telephone number of the entity and the name, address, and telephone number of the head of the entity;

c. Where the event is to be held by or for any person other than the applicant, documentation evidencing authority to make the application;

d. The name and contact information of the person who will be the event chairperson and who will be responsible for conducting the event;

e. The date the event will be conducted;

f. The location of the event;

g. The approximate number of persons who will participate in the event;

h. The time when the event will begin and end;

i. The purpose of the event; and

(2) Any other information which the director finds necessary to an evaluation of the request under the standards for issuance set forth in section 26-33. If any of the above required information is included on the standard application form for the permit or contract required by the relevant city department or otherwise filed and available to the city for enforcement of this article, the information does not have to be duplicated for the "green event scorecard."
(Ord. No. 2010-04-08-0303, § 1, 4-8-10; Ord. No. 2016-04-14-0283, § 1, 4-14-16)

Sec. 26-35. Notice of rejection; appeal.

(a) The relevant city department shall act upon the application for a certification within five (5) calendar days after it has been filed with the required permit application or contract. If the relevant city department does not approve the application, they shall mail, by e-mail if an address is provided, or by certified mail/return receipt requested, to the applicant, within ten

(10) calendar days after the date upon which the application was filed, a notice of their action, stating the reason for the denial of a permit.

(b) The applicant shall have the right to appeal a denial of a certification to the director by filing notice of appeal with the city clerk within seven (7) calendar days after receipt of the notice provided above. The appeal shall be heard within ten (10) calendar days of the filing of the appeal. The director or the director's designee shall hear the appeal as soon as practicable. The decision of the director or the designee is final.
(Ord. No. 2010-04-08-0303, § 1, 4-8-10)

Sec. 26-36. Duties and costs to be paid by certification holder.

(a) Each certification holder shall comply with all requirements of this article, the "green event scorecard", the certification directions and conditions, the requirements of the contract or permit issued by the relevant department and with all applicable laws and ordinances. The certification holder shall attest no later than thirty (30) days after the event is completed that they have complied with all the measures on the "green events scorecard" which they proposed to implement to obtain the certification.

(b) The director shall create written standard procedures to be used by relevant city departments for issuance of certifications, enforcement, and the evaluation and assessment of facilities and events in conformity with this section. City staff will conduct periodic random checks of events that have received certification to verify compliance with this article.

(c) If an applicant owes fees not timely paid in connection with an event previously approved and conducted, the applicant shall, prior to approval of the application for a certification, pay these fees.
(Ord. No. 2010-04-08-0303, § 1, 4-8-10)

Sec. 26-37. Revocation of certification.

The director shall have the authority to revoke a certification issued pursuant to this article when the conditions supporting the findings made by the relevant city department pursuant to section 26-33 change in such a way, prior to the date on which the event is to be held, that a certification would not otherwise be issued.
(Ord. No. 2010-04-08-0303, § 1, 4-8-10)

Sec. 26-38. Penalty for violation.

The violation of any of the rules and regulations set forth in this article is hereby declared to be unlawful and punishable in accordance with section 1-5.
(Ord. No. 2010-04-08-0303, § 1, 4-8-10)

Sec. 26-39. Reserved.

ARTICLE IV. COAL TAR SEALANT PAVEMENT PRODUCTS*

Sec. 26-40. Definitions.

Except as may otherwise be provided or clearly implied by context, all terms shall be given their commonly accepted definitions. For the purpose of this article, the following definitions shall apply unless the context clearly indicates or requires a different meaning:

Asphalt based sealer means a petroleum based sealer material that is commonly used on driveways, parking lots, and other surfaces and does not contain polycyclic aromatic hydrocarbons.

City means the City of San Antonio, Texas.

Coal tar means a byproduct of the process used to manufacture steel.

Coal tar sealant pavement product means a material that contains coal tar and is for use on asphalt or concrete surfaces including a driveway or parking lot. These surface applied sealing products contain coal tar, coal tar pitch, coal tar pitch volatiles, or any variation assigned the Chemical Abstracts Service (CAS) numbers 65996-93-2, 65996-89-6, or 8007-45-2.

*__Editor's note__—Ord. No. 2016-06-30-0518, § 14, adopted June 30, 2016, states that the penalty provisions of this article shall be effective January 1, 2017.

Director means the director of the Transportation and Capital Improvements Department of the City of San Antonio.

Polycyclic aromatic hydrocarbons means a group of organic chemicals formed during the incomplete burning of coal, oil, gas, or other organic substances. Present in coal tar and believed harmful to humans, fish, and other aquatic life.
(Ord. No. 2016-06-30-0518, § 4, 6-30-16)

Sec. 26-41. Prohibitions.

(a) No person shall apply a coal tar sealant product within the City of San Antonio.

(b) No person shall allow a coal tar sealant product to be applied upon property that is under that person's ownership or control.

(c) No person shall contract with any commercial sealer product applicator, residential or commercial developer, or any other person for the application of any coal tar sealant product to any driveway, parking lot, or other surface within the city.

(d) No commercial sealer product applicator, residential or commercial developer, or other similar individual or organization shall direct any employee, independent contractor, volunteer, or other person to apply any coal tar sealant product to any driveway, parking lot, or other surface within the city.
(Ord. No. 2016-06-30-0518, § 4, 6-30-16)

Sec. 26-42. Reserved.

Sec. 26-43. Asphalt-based sealcoat products.

The provisions of this article shall only apply to coal tar sealant products and shall not affect the use of asphalt based sealant products within the city.
(Ord. No. 2016-06-30-0518, § 4, 6-30-16)

Sec. 26-44. Enforcement and penalty.

(a) All officials duly authorized, including but not limited to peace officers of the state, and those authorized by statute to issue citations for class C criminal misdemeanors, may assist the city in enforcement of this article.

(b) The city shall request that the San Antonio Water System assist in enforcement of this article. The directors of the departments of transportation and capital improvements, the metropolitan health district and development services are hereby authorized to designate trained personnel to enforce this article in the manner and to the extent allowed by law, including, but not limited to, filing complaints with the city municipal prosecutor's office for such violations, serving notices of violations of this article and filing civil enforcement actions, in coordination with the office of the city attorney, the municipal courts, and the police department.

(c) Each person suspected to be in violation of this article shall allow, during normal business hours, an authorized representative or representatives of the city to conduct an inspection of their place of business for purposes of determining compliance with this article.

(d) Nothing in this section shall limit any and all other criminal, civil or administrative remedies available to the city in seeking to enforce the provisions of this article. The city attorney's office is hereby empowered to secure injunctive relief to enforce the provisions of this article. This shall be in addition to, and not in lieu of, the criminal penalties provided for in this article.
(Ord. No. 2016-06-30-0518, § 4, 6-30-16)

Chapter 27

RAILROADS*

Sec. 27-1. Tampering with railroad facilities.

It shall be unlawful for any person, in any way, to tamper with, damage or destroy any railroad track or appurtenance, or any bridge, viaduct, trestle or culvert structure supporting a railroad track or any appurtenance thereto, or any signal system or appurtenances thereto, telegraph line, telephone line, power line or signal system line maintained or operated as a railroad facility, whether located upon privately-owned property used for the maintenance and operation of railroad tracks, or located within the limits of any public highway, roadway, street, alleyway or walkway dedicated for public use within the city.
(Code 1950, § 46-10; Code 1959, § 33-1)

Sec. 27-2. Whistles.

It shall be unlawful for any person to sound a steam whistle, or an air whistle, or an air siren on any locomotive in the city except in the following instances:

(1) When a person or an animal is discovered in a position of peril, at which time an alarm signal may be sounded by successive blasts of a whistle, each not longer than two seconds' duration, until the peril is past; and

(2) When the locomotive is approaching an interlocking switch and signal apparatus, at which time a whistle signal may be used by blasts of a whistle, each not longer than three seconds' duration.

(Code 1950, § 46-5; Code 1959, § 33-2)

State law reference—State requirements generally, Vernon's Ann. Civ. St. art. 6371.

Sec. 27-3. Flagmen required at crossings.

Every railroad company shall station and maintain a flagman at such of its crossings as may be indicated by resolution of the city.
(Code 1950, § 46-19; Code 1959, § 33-4)

State law reference—Similar provisions, Vernon's Ann. Civ. St. art. 6371.

Sec. 27-4. Failure to obey flagman's signals.

It shall be unlawful for any person, either on foot or on horseback, to fail or refuse to stop when flagged or signaled so to do by any flagman or watchman at any point within the city where a railroad crosses a street of the city.
(Code 1950, § 46-20; Code 1959, § 33-5)

State law reference—Similar provisions, Vernon's Ann. Civ. St. art. 6701d, § 86.

Sec. 27-5. Maintenance of roadbed and other property.

It shall be the duty of every railroad corporation which has a track in the city to keep its roadbed, street crossings, culverts, switches and drainage in good repair.
(Code 1950, § 46-18; Code 1959, § 33-6)

Sec. 27-6. How crossings to be constructed.

(a) Whenever a street or road crosses the track of any railroad at grade, within the city, such crossing shall be planked level with the tops of the rails, and extended to the ends of the ties. The planks shall be not less than three (3) inches thick, and laid close, so as to form a smooth and even surface.

(b) All crossings shall be at least two-thirds of the width of the streets, and at the crossing of all

*Charter reference—Authority of city to regulate the laying of tracks, § 3, Par. 13(12).
Cross reference—Motor vehicles and traffic, § 19-1 et seq.
State law reference—Restrictions, duties and liabilities of railroads, Vernon's Ann. Civ. St. art. 6354 et seq.

streets where curb and sidewalks have been laid, the planking is to be extended the full width of the street.
(Code 1950, § 46-21; Code 1959, § 33-7)

Sec. 27-7. Grading approaches to tracks.

Whenever it is necessary to grade approaches to the track, such grade shall be not more than five (5) percent. Suitable provisions shall be made in all cases to carry off drainage which would otherwise be impeded by such approaches.
(Code 1950, § 46-22; Code 1959, § 33-8)

Sec. 27-8. When gates required.

Whenever it shall be directed by the city council so to do, each railway company operating its trains and having its tracks within the city shall erect and maintain, on all street crossings over and along which their tracks are laid, the latest improved railway crossing gates, and shall have such gates erected within ninety (90) days from the date of the passage of the council's order or resolution.
(Code 1950, § 46-23; Code 1959, § 33-9)

Sec. 27-9. Failure to provide gates.

Any officer, agent or employee of any railway company operating any line of railway, or propelling or moving any train, car or locomotive over and along any street crossing not provided with crossing gates, as provided for in section 27-8 shall be guilty of a misdemeanor.
(Code 1950, § 46-24; Code 1959, § 33-10)

Sec. 27-10. Lights at crossings.

(a) *Required.* It shall be the duty of every railway company operating a railway in the city to provide lights at the crossings of their respective railways with the streets of the city when notified to do so.

(b) *Notice to provide.* The notice to railway companies to provide lights at the crossings of their respective railways with the streets of the city shall be by resolution of the city council, duly passed by that body, and served on the agent or representative of the company, corporation or association. The resolution shall state the places or crossings to be lighted and the time the lights shall burn. A copy of the resolution, certified to by the city clerk, shall be served on such company by registered mail.
(Code 1950, §§ 46-25, 46-26; Code 1959, §§ 33-11, 33-12)

Sec. 27-11. Summons for violations of chapter.

Whenever a complaint is made and filed in the municipal court that any railroad company has violated the provisions of this chapter, it shall be the duty of the court to immediately issue and deliver to any policeman a citation, commanding the officer to summon the company, corporation or association to answer the complaint at some stated time in the municipal court, after service thereof.
(Code 1950, § 46-27; Code 1959, § 33-13)

Sec. 27-12. Service of summons and trial.

It shall be the duty of the officer to whom a citation shall be delivered to forthwith serve a copy thereof upon the local agent or representative, and to make his written return thereon, showing how he has executed the same, and thereupon to cause the same to be filed with the papers in the case. When service has been effected, the prosecution shall stand for trial, and be tried before the judge of the municipal court in like manner as other prosecutions.
(Code 1950, § 46-28; Code 1959, § 33-14)

Sec. 27-13. Judgment; levy for nonpayment of fine and costs.

If, upon the trial of a complaint, the company shall be found guilty, judgment shall be duly entered against it for the amount of the fine assessed, together with the costs of prosecution, and if defendant shall fail to pay the same within ten (10) days from the rendition of the judgment, then it shall be the duty of the clerk of the municipal court to issue a writ of fieri facias for the amount of such fine and costs, directed to any policeman of the city, commanding such officer forthwith to levy the same upon the goods and chattels, lands, tenements and effects of the defendant within the city for the satisfaction thereof.
(Code 1950, § 46-29; Code 1959, § 33-15)

Sec. 27-14. Form of writ authorizing levy.

A writ of fieri facias issued pursuant to this chapter shall conform as nearly as may be to writs issued in civil cases under the laws of the state, and shall be attested by the city clerk under the seal of the municipal court.
(Code 1950, § 46-30; Code 1959, § 33-16)

Sec. 27-15. How writ to be executed.

It shall be the duty of the officer to whom a writ of fieri facias is delivered to forthwith proceed to levy and collect the amounts therein directed, and in all his proceedings thereunder shall conform as nearly as may be to the laws of the state relating to levy and satisfaction of executions in civil cases.
(Code 1950, § 46-31; Code 1959, § 33-17)

Sec. 27-16. Speed of trains generally.

It shall be unlawful for any engineer or other person in charge of any locomotive, train, motor car or other vehicle for the transportation of freight or passengers, by railroad, to run the same onto any street crossing within the corporate limits of this city at a greater speed than twenty (20) miles per hour, except upon the portions of the railroad lines as provided in section 27-17 hereof. Where no streets are crossed by the railroad line, train speed on that line is not restricted by the city.
(Code 1959, § 33-18; Ord. No. 36307, § 1, 3-7-68)

Sec. 27-17. Speed limit in specific locations.

Upon the portions of the railroad lines set out in this section, the maximum speed authorized for any train or vehicle, operated on rails, entering any street crossing is as follows:

(1) *Upon the Missouri Kansas Texas Railroad Line.*

a. From north city limits to Loop 410 ..... 60 m.p.h.
b. From Loop 410 to Hoefgen St. ..... 45 m.p.h.
c. From Hoefgen St. to S. Alamo St. ..... 30 m.p.h.
d. From S. Alamo St. to Durango Blvd. ..... 20 m.p.h.

(2) *Upon the Missouri Pacific Railroad Line.* (Laredo to Palestine Line)

a. From south city limits to Taft St. ..... 45 m.p.h.
b. From Taft St. to Ceralvo St. 40 m.p.h.
c. From Ceralvo St. to Russell St. ..... 30 m.p.h.
d. From Russell St. to Norwood St. ..... 40 m.p.h.
e. From Norwood St. to Loop 410 ..... 45 m.p.h.
f. From Loop 410 to north city limits ..... 60 m.p.h.

(3) *Upon the Missouri Pacific Railroad Line.* (San Antonio to Corpus Christi Line)

a. From south city limit to Quintana Rd. ..... 45 m.p.h.

(4) *Upon the Southern Pacific Railroad Line.*

a. From the M.K.T. Railroad crossing to Pine St. ..... 40 m.p.h.
b. From Pine St. to Probandt St. ..... 30 m.p.h.
c. From Probandt St. to Brady St. ..... 40 m.p.h.
d. From Brady St. to south city limits ..... 45 m.p.h.

(5) *Upon the Southern Pacific Railroad Line.* (Kerrville Branch)

a. From Southern Pacific Main Line to Loop 410 ..... 20 m.p.h.
b. From Loop 410 to north city limits ..... 30 m.p.h.

(6) *Upon the Southern Pacific Railroad Line.* (Corpus Christi Line)

a. From Southern Pacific Line to S.E. Military Dr. ..... 20 m.p.h.
b. From S.E. Military Dr. to south city limits ..... 30 m.p.h.

(Code 1959, § 33-19; Ord. No. 36307, § 2, 3-7-68)

Article III. Regulatory Requirements

Division 1. License and Insurance

Sec. 28-20. In general.
Sec. 28-21. License.
Sec. 28-22. Off-premises sign operator license.
Sec. 28-23. On-premises sign operator license.
Sec. 28-24. Nontransferability.
Sec. 28-25. Unlawful use of license.
Sec. 28-26. Revocation and suspension.
Sec. 28-27. State issued master sign electrician's license and master electrician license.
Sec. 28-28. Indemnification and insurance requirements.

Division 2. Permit and Compliance Bond

Sec. 28-29. Permit required.
Sec. 28-30. Permit exceptions.
Sec. 28-31. Permit application process.
Sec. 28-32. Obtaining permit for another.
Sec. 28-33. Validity of permit.
Sec. 28-34. Continuation of the business upon death, disability or termination of the business's master.
Sec. 28-35. Suspension or revocation.
Sec. 28-36. Compliance bond required for permit.
Secs. 28-37—28-40. Reserved.

***Editor's note—**Ord. No. 2017-05-04-0297, § 1(Att. 1), adopted May 4, 2017, amended chapter 28 in its entirety to read as herein set out. Formerly, chapter 28, articles I—IX, pertained to similar subject matter. See the Code Comparative Table for a complete derivation.

State law reference—Authority of city to regulate, control or prohibit the erection of signs or billboards, Vernon's Ann. Civ. St. art. 1175(24).

Article IV. Erection and Maintenance Regulations

Division 1. In General

Sec. 28-41. Erection and maintenance.
Sec. 28-42. Minimum sign residential buffer/setback and height restrictions.
Sec. 28-43. Digital displays; general.

Division 2. Regulations Based Upon Sign Classification

Subdivision A. On-Premises Signs

Sec. 28-44. In general.
Sec. 28-45. Sign height and area.
Sec. 28-46. Provisions applicable to residential zoning districts.
Sec. 28-47. Provisions applicable to nonresidential zoning districts.
Sec. 28-48. Digital displays and projections; on-premises.
Sec. 28-49. Sign master plan development agreement.
Sec. 28-50. Nonconforming sign abatement.

Subdivision B. Off-Premises Signs

Sec. 28-51. In general.
Sec. 28-52. Sign specifications and maintenance.
Sec. 28-53. Display prohibitions.
Sec. 28-54. Digital displays; off-premise.
Sec. 28-55. Legally erected nonconforming rights.
Sec. 28-56. Governmental action.
Sec. 28-57. Relocation and replacement of existing off-premises signs.
Sec. 28-58. Scenic corridors and historic districts.

Subdivision C. Government Signs

Sec. 28-59. General.

Subdivision D. Urban Corridors

Sec. 28-60. Purpose.
Sec. 28-61. Designation criteria.
Sec. 28-62. Designation process.
Sec. 28-63. Boundaries.
Sec. 28-64. Sign standards.
Sec. 28-65. Specific urban corridors—IH-10/FM 1604 Urban corridor.
Sec. 28-66. Same—UC-2, Broadway urban corridor district.
Sec. 28-67. Same—UC-3, Fredericksburg Road urban corridor district.
Sec. 28-68. Same—UC-4, North St. Mary's Street urban corridor district.
Sec. 28-69. Same—UC-5, Main Ave./McCullough Ave. urban corridor district.
Sec. 28-70. Same—UC-6, San Pedro urban corridor district.

Subdivision E. ETJ Regulations

Sec. 28-71. Off-premises signs in the extra territorial jurisdiction (ETJ).

Subdivision F. Temporary Signs

Sec. 28-72. In general.
Sec. 28-73. Temporary signs on residential zoned properties and residential uses.
Sec. 28-74. Temporary signs on nonresidential zoned properties and nonresidential uses.
Sec. 28-75. Temporary signs on public right-of-way and city public property.

Article V. Fee Schedule

Sec. 28-76. Fee schedule.

[This page intentionally left blank.]

ARTICLE I. IN GENERAL

Sec. 28-1. Short title.

This chapter may be referred to as the "Sign code for San Antonio." See also chapter 10, Building-related code, articles I, II, III, VI and XII.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-2. Legislative findings; intent.

(a) It is the intention that this chapter be liberally construed to cover advances in technology and its impact on city interests in aesthetics and traffic safety not contemplated at its inception.

(b) Throughout this chapter, subsections prefaced "commentary" have been inserted below individual sections of the text. Each commentary is intended as an official statement of legislative finding or purpose. Whenever a section or subsection is deemed to require clarification, explanation of intent, or further elaboration, a commentary has been included. These commentaries have been legislatively adopted together with the more formal text of the chapter. They are intended as a guide to the administration and interpretation of the chapter and shall be treated in that fashion.

(c) This chapter constitutes a baseline for regulatory compliance involving signs. Placement of such signs advertising commercial and non-commercial messages must therefore comply with reasonable time, place and manner regulations found in this chapter. In case of conflict, specific governs general language. Unless specifically stated otherwise or is clear from the context, this chapter will control.

(d) The city, through appropriate staff and stakeholder commentary, shall review and recommend amendments to sign regulations with such review to coincide with the Unified Development Code technical code updates as noted in section 35-111 and its corresponding city schedule.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-3. Purpose.

(a) To provide minimum standards to protect the life, health, safety, property, welfare, convenience and enjoyment of the general public by regulating and controlling the design, quality of materials, construction, erection, location, electrification, lighting, use, maintenance and safe transportation of all signs and sign structures as well as confirm that all sign operators are properly licensed, insured, and bonded.

(b) To make San Antonio safer by eliminating or reducing safety hazards, contribute to the development and maintenance of an attractive visual environment while facilitating message communication to the public.

(c) To protect the safety and efficiency of the city's transportation network by reducing confusion or distractions to motorists and enhancing motorists' ability to see and react.

(d) To ensure safe construction and minimizing potential hazards or obstructions to access and views by requiring all signs to conform to erection and maintenance regulations.

(e) To preserve, protect and enhance aesthetic and economic/property values by establishing height, size, light and movement requirements.

(f) To preserve, protect and enhance the image and attractiveness of the city for its citizens and visitors through identification of the special character and economic advantages of its subareas.

(g) Preserve and enhance visitor impression of the city by restricting off premises sign construction.

(h) Preserve, protect and improve quality of life, which although difficult to define, is possibly the city's most valuable resource.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

ARTICLE II. ADMINISTRATION AND PROCEDURES

Sec. 28-4. In general.

This chapter establishes a legal framework for sign regulation within the jurisdiction.

(1) *Public considerations.* No sign or related structure shall be approved or erected in

contravention to public life, health, safety and welfare considerations as outlined below and a sign or related structure so constructed constitutes a violation of this chapter:

a. Signs erected which obstruct the view of the operators of motor vehicles on public streets or entering such streets from private property.

b. Signs erected or in the process of being erected constituting a public hazard or an obstruction to building egress, such as a window or door.

c. Signs supported on or attached to any fire escape, door, or window casing.

d. Signs with damage, deterioration or other defects constituting a hazard to public life, health, safety and welfare.

e. Revolving beam or beacon of light resembling any emergency vehicle light and signs resembling traffic control signs.

f. Signs which encroach or project over city public property or right-of-way except as expressly authorized in this chapter.

g. Portable signs except as expressly authorized in this chapter.

h. Digital display signs configured to resemble a warning or danger signal or are otherwise easily confusable with a warning or danger signal.

i. Digital display signs resembling or simulating any lights or official signage used to control traffic in accordance with the 2003 Manual on Uniform Traffic Control Devices, with Revision No. 1 published by the Federal Highway Administration (FHWA).

j. Signs emitting excessive luminance.

(2) *City authority.* Any purported city authorization to erect a sign in violation of subsection (1) above is invalid and is automatically rescinded. Nothing herein shall be construed so as to restrict or prohibit lawful sign erection in compliance with this chapter. The city is authorized to evaluate and alleviate the life, safety, health and welfare concern of a sign or related structure 1) constructed; 2) in the process of being constructed; 3) damaged; or 4) otherwise deteriorated; - all so as to present a clear and present danger to the public by any reasonable means necessary under the circumstances then existing as a valid exercise of its police powers. Costs associated with alleviating the sign or related structure shall be forwarded to the sign owner for immediate remittance.

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-5. Jurisdiction, enforcement and appeals.

(a) *Jurisdiction.* The provisions of this chapter shall be applicable to the entire area within the corporate limits of the city and in the extraterritorial jurisdiction (ETJ) of the city as defined in the Municipal Annexation Act.

(b) *Enforcement.* Enforcement shall be made by departments of development services, police, or other departments designated by the city manager against any violator of any provision of this chapter. As a condition precedent for the lawful erection and continued erection and maintenance of signs within its jurisdiction, city staff shall have the right to enter into the property wherein said sign is displayed or erected or to be erected, during reasonable working hours, for inspection and/or other health and safety regulatory purposes. Failure to permit city staff entry to the premises and/or to conduct a lawful investigation, or any obstruction thereof, will result in immediate termination of any existing permit and/or permission to lawfully display, erect or maintain said sign. The sign owner or operator must file a written appeal of such termination to the building-related and fire codes appeals and advisory board within ten (10) days of notice of the same being mailed to the sign-owner and/or operator prior to any other

administrative or legal action taken by the sign owner and/or operator. A proper and timely filed appeal shall be heard by the building-related and fire codes appeals and advisory board as mandated by chapter 10 of the City Code and termination is tolled pending the outcome. This procedure applies to all pre-existing signs erected, maintained and displayed within the city. This provision may be enforced by the city, using all civil, administrative and/or criminal procedures and remedies available; the election of one means does not preclude enforcement by another.

(c) *Duties and powers of the director.*

(1) *In general.* The director is authorized and directed to enforce the provisions of this chapter. The director has the authority to render interpretations of this chapter and to adopt policies and procedures in order to clarify the application of its provisions. Such interpretations, policies and procedures shall be in accordance with the intent and purpose of this chapter. Such policies and procedures shall not have the effect of waiving requirements specifically provided for in this chapter. The director shall have the power to suspend or revoke city issued certificates of license and registration as detailed in this chapter.

(2) *Application and permits.* The director and designees shall receive applications, review construction documents and issue permits for the erection, repair, alteration, addition, demolition, and relocation of sign structures, inspect the premises for which such permits have been issued and enforce compliance with the provisions of this chapter.

(3) *Notices and orders.* The director and designees shall issue all necessary notices or orders to ensure compliance with the provisions with this chapter.

(4) *Inspections.* The director and designees shall make all of the required inspections, or may accept reports of inspection by approved agencies or individuals. Reports of such inspections shall be in writing and certified by a responsible officer of such approved agency or by the responsible individual. The director is authorized to engage such expert opinion as deemed necessary to report upon unusual technical issues that arise, subject to the approval of the appointing authority.

(5) *Identification.* The director and designees shall carry proper identification when inspecting structures or premises in the performance of duties under this chapter.

(6) *Impersonation prohibited.* A person shall not impersonate the director or designees through the use of a uniform, identification card, badge or any other means. Any such impersonation is a violation of this chapter.

(7) *Notice of defects.* The director and designees shall examine, or cause to be examined, every building or structure or portion thereof reported as dangerous or damaged.

(8) *Department records.* The director and designees shall keep official records of applications received, permits and certificates issued, fees collected, reports of inspections, and notices and orders issued. Such records are retained in the official records for the period required for retention of public records.

(9) *Liability.* The director, members and alternate members of the building-related and fire codes board of appeals, or employees charged with enforcement of this chapter, while acting for the city in good faith and without malice in the discharge of the duties required by this chapter or other pertinent law or ordinance, are not civilly or criminally rendered liable personally and are relieved from personal liability for any damage accruing to persons or property as a result of any act, or by reason of an act or omission in the discharge of official duties. Any suit or criminal complaint instituted against an officer or employee because of an act performed by that officer or employee in the lawful discharge of duties

and under the provisions of this chapter shall be defended by legal representative of the city until the final termination of the proceedings. The director or any subordinate shall not be liable for cost in any action, suit or proceeding that is instituted in pursuance of the provisions of this chapter.

(10) *Approved materials and equipment.* Materials, equipment and devices approved by the director shall be constructed and installed in accordance with such approval.

(11) *Modifications.* Whenever there are practical difficulties involved in carrying out the provisions of this chapter, the director is authorized to grant modifications for individual cases, upon application of the owner or owner's authorized representative, providing the director first finds, that special individual reason based upon unique circumstances or undue hardship makes the strict letter of this chapter impractical, the modification is in compliance with the intent and purpose of this chapter, and that such modification does not lessen any of the following: health, accessibility, life and fire safety, or structural requirements. Any modification must be supported through consultation with and upon the advice of qualified persons as defined in this chapter and by review and evaluation of objective criteria. The details of action granting modifications including all materials reviewed and statements by personnel consulted shall be recorded in writing and entered in the files of the department of development services.

(12) *Administrative exceptions.* To facilitate flexibility in design while maintaining the safety, health and welfare of the public, the director in concurrence with qualified personnel may grant administrative exceptions to the following provided 1) the director certifies that the proposed exception does not conflict with the intent of this chapter; and 2) the applicant demonstrates, through documentation and/or studies, based on generally accepted engineering, design and installation principles, that exceptions to the standard provided by this chapter would not pose a threat to health and safety. The director shall not modify minimum and maximum dimensions for sign spacing, heights and areas more than ten (10) percent of the value listed in this code where an administrative variance is considered. Any exception shall not eliminate the distinctions between on-premise and off-premise sign types, single and multi-tenant sign types, nor sign sizes by zoning district, street classification or like areas of legislative prerogative.

(13) *Alternative materials, design and methods of construction and equipment.* The provisions of this chapter are not intended to prevent the installation of any material or to prohibit any design or method of construction not specifically prescribed by this chapter, provided that any such alternative has been approved by the director. An alternative material, design or method of construction shall be approved where the director, in consultation with qualified persons and based upon objective criteria supporting that decision, finds that the proposed design is satisfactory and complies with the intent of the provisions of this chapter, and that the material, method or work offered is, for the purpose intended, at least the equivalent of that prescribed in this chapter in qualify, strength, effectiveness, fire resistance, durability and safety including minimization of driver distraction. Where the alternative material, design or method of construction is reviewed, the director shall respond in writing to the requester, stating the decision and reasons supporting such decision. The details resulting in a decision including all materials reviewed and statements by personnel consulted shall be recorded in writing and entered in the files of the department of development services.

a. *Research reports.* Supporting data, where necessary to assist in the

approval of materials or assemblies not specifically provided for in this chapter, shall consist of valid research reports from objective third party sources including national and internationally recognized authorities and/or standards.

b. *Tests.* Whenever there is insufficient evidence of compliance with the provisions of this chapter, or evidence that a material or method does not conform to the requirements of this chapter, or in order to substantiate claims for alternative materials or methods, the director has the authority to require tests as evidence of compliance to be made at no expense to the city. Test methods shall be as specified in this chapter or by recognized industry test standards including, but not limited to, ASTM and UL standards. In the absence of recognized and accepted test methods, the director may approve the testing procedures, provided such testing procedures are performed and supported by appropriate qualified persons through written review and opinion reports. If seals and/or signatures are required in the performance of such duties, reports must reflect them. Reports of such tests shall be retained by the department of development services for the period required for retention of public records.

(d) *Board authority, appeals and variance procedures.*

(1) *Board authority.*

a. The building-related and fire codes appeals and advisory board, also known as the appeals and advisory board: authorized to hear and decide appeals of orders, decisions or determinations made by the director relative to the application and interpretation regarding licensing issued under this chapter, on-premise and off-premises signs and electrical considerations as explicitly set out in various sections of this chapter. The appeals and advisory board acts as an appellate and advisory board to the director regarding interpretations of this chapter.

b. The board of adjustment: authorized to hear and grant variances from regulations not specifically reserved for the appeals and advisory board.

(2) *Appeals.*

a. A decision by the director regarding an interpretation of this chapter may be appealed within twenty-one (21) days after notice is served to the appeals and advisory board in accordance with City Code section 10-14. The appeals and advisory board may hear the arguments in favor and against the interpretation from any interested party.

b. A party who seeks to appeal an interpretation shall submit a written request along with the required appeals to the department of development services. The director shall review the notice of appeal for completeness within three (3) working days. The appellate agency for purposes of completeness review is the appeals and advisory board. Upon receipt of a complete application for an appeal and the fee, the appeals and advisory board must meet within fourteen (14) calendar days after either the building official receives an application in accordance with City Code section 10-14. The appeals and advisory board may reverse or affirm, in whole or in part, or modify the director's order, requirement, decision, or determination from which an appeal is taken and make the correct order, requirement, decision, or determination in accordance with chapter 10 of the City Code. The applicant will be

notified of such decision by first class mail or by e-mail at the request of the applicant. This request shall be made in writing and signed by the applicant containing at a minimum an email address for where the decision is to be sent. Development services shall keep proof of the request and a log of the email sent containing the appeals and advisory board decision. Note that public notice and appeals of the appeals and advisory board's decisions shall be in accordance with chapter 10.

(3) *Variances.*

a. Any person seeking a variance from the requirements of this article shall submit a written request on an application form approved by the director along with the required variance application fee to the development services department. The director shall review the variance application for completeness within three (3) working days. The appellate agency for purposes of completeness review shall be the appeals and advisory board. Upon receipt of the complete variance application and fee, the application shall be placed on the first open date of the docket of the board of adjustment that meets the requirements of the Texas Open Meetings Act.

b. The director shall not forward a variance application to the board of adjustment for consideration that would eliminate the distinctions between on-premises and off-premises sign types, single and multi-tenant sign types, nor sign sizes by zoning district, street classification or like areas of legislative prerogative. An applicant may appeal the director's decision to the appeals and advisory board pursuant to subsection (2).

c. The board of adjustment may grant a variance if it finds that:

1. The variance is necessary because strict enforcement of the regulation prohibits any reasonable opportunity to provide adequate signs on the site, considering the unique features of a site such as its dimensions, landscaping, or topography; or

2. A denial of the variance would probably cause a cessation of legitimate, longstanding active commercial use of the property; and

3. After establishing that one or more of the findings set forth in subparagraphs 1. or 2. have been met, the board finds that:

A. Granting the variance does not provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated;

B. Granting the variance will not have a substantially adverse impact upon neighboring properties; and

C. Granting the variance will not substantially conflict with the stated purposes of chapter 28.

(4) The board of adjustment shall not grant a variance if that variance would eliminate the distinctions between on-premises and off-premises sign types, single and multi-tenant sign types, sign sizes by zoning district, street classification or like areas of legislative prerogative.

(5) The board of adjustment shall conduct its review and render a decision in accordance with the procedures contained in chapter 35 of the City Code. In making its decision, the board shall consider the

director's recommendation and apply the factors delineated in subsection (3)c. above. The action taken by the board shall be in the form of a motion to grant the variance. Such motion shall require a three-fourths (¾) vote by the appointed members of the board.

(6) The person seeking the variance or the owners or lessees of property lying one thousand (1,000) feet of any point of the lot or portion thereof on which a variance is desired may appeal the decision of the board of adjustment. Within seven (7) days after the board of adjustment's final action an appeal to the city council may be made. The appeal shall be initiated by filing a letter indicating that the applicant seeks to appeal the decision of the board to the city council. The appeal shall be accompanied with the required appeal application fee and delivered to the city clerk. The city council shall consider all the circumstances of the variance request, including the factors outlined in this section, and make its determination by majority vote. If the city council has not acted on the appeal on or before the 60th calendar day after the date the letter of appeal was filed with the city clerk, the decision of the board of adjustment shall be final.

(7) Public notice of such variance request to the board of adjustment or further appeal to city council shall be in accordance with chapter 35 of the City Code.

(8) Voting procedures.

a. The board of adjustment shall vote in accordance with chapter 35, article 8 of the City Code.

b. The appeals and advisory board shall vote in accordance with chapter 10 of the City Code.

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-6. Definitions.

When used in this chapter, the following terms have the following meanings:

Abandoned sign means any sign structure that upon the expiration of thirty (30) calendar days after written notice is given:

(1) Is not in lawful compliance with this chapter; or

(2) Is not classified as a nonconforming sign.

Action video means the use of action footage shot with any device, the product of which is sized to fit and be displayed by an electronic message sign or similar device.

Adjacent means two (2) properties, lots or parcels where they abut or where they are nearby and are separated by a dissimilar type of manmade or geologic feature.

Advertiser means any natural person who uses signs or other medium to display a message to the public.

Advertising means the activity of displaying a message to the public.

Advertising bench means any bench providing seating to the general public without charge, which may bear advertising.

Alamo Plaza Park means the city park area bound by East Houston Street on the north, by the eastern portion of Alamo Plaza (Street) on the east, by Blum (Street) on the south, and the western portion of Alamo Plaza (Street) on the west.

Animated sign (aka *moving sign*) means a sign any sign, or part of a sign, which changes physical position by any movement or rotation or that depicts action, motion, light, or color changes through any means.

Animation means the use of movement or some element thereof, to depict action or create a special effect or scene.

Appeal means a formal request for hearing to a higher authority submitted pursuant to the requirements of this chapter.

Approved means acceptable to the director or authority having jurisdiction.

Arterial type A street classification means any street designated as a super primary or secondary arterial type A in the city major thoroughfare plan.

Arterial type B street classification means any street designated as super, primary or secondary arterial type B in the city major thoroughfare plan.

Attached means fixed or adjoined to something else.

Awning or canopy sign means a sign that is mounted or painted on, or attached to, an awning, or canopy that is otherwise permitted by this chapter.

Back to back sign means a structure containing two (2) parallel signs whose faces are oriented in opposite directions and are spaced no more than ten (10) feet apart.

Bandit sign means any sign posted on a utility pole, street sign or other street furniture or a sign posted on public property or public right-of-way in violation of this chapter. No sign owned or placed by the city, the state, or a public utility shall be considered a bandit sign.

Banner sign means a temporary, unframed sign made of various flexible materials.

Bill means any advertising poster or hand bill.

Billboard means a structure erected to display an off-premises message. (See "Off-premises signs.")

Billboard operator means any person licensed by the development services department to install, erect, service, maintain, alter, repair or demolish billboards.

Board means the building-related and fire codes appeals and advisory board, unless specifically stated otherwise or it is clear by the context that something else is intended.

Cabinet means the part of a sign structure consisting of metal enclosures which have a face area to provide messages or advertising and which may or may not be illuminated.

Canopy sign means a sign that is a part of or attached to an awning, canopy or other fabric, plastic or structural protective cover over an entrance or window, or along a building facade.

Changeable-copy sign means a sign or portion thereof on which the copy or symbols change either automatically through electrical or electronic means (for example, time and temperature units), digitally projected or manually though placement of letters or symbols on a panel mounted in or on a track system.

Channel letter sign means a sign composed of raised, cut-out letters or symbols constructed of a material which may or may not be illuminated.

City means the City of San Antonio, Texas.

Commercial collector street classification means a street which primarily serves non-residential purposes and provides access to abutting, nonresidential property, collecting traffic from local streets to distribute to arterial streets and expressways. Also refers to arterial type B.

Cultural facilities means establishments such as museums, art galleries, public libraries and community centers, botanical and zoological gardens, and theaters for performing arts, which, although they may charge an admission fee, are essentially nonprofit and are principally funded through public expenditures, foundation grants, and donations.

Cutouts means reproductions of that portion of the graphic elements of an off-premises sign which project beyond the normal limits of the advertising face to dramatize the copy and the advertising message.

Digital display means a sign face, display or device that displays images composed of electronically illuminated segments and/or a series of

grid lights, including cathode ray, light emitting diode (LED) display, plasma screen, liquid crystal display (LCD), fiber optic or other electronic media or technology.

Digital projection means the ability to project an image, geographic design, or any other such figure onto the facade of any structure through video mapping or any other type of technologies.

Digital sign means a sign regulated under this chapter that is fitted with a digital display.

Director means the director of development services and includes authorized designees, unless specifically stated otherwise or clear from the context.

Dwell time means the interval of change between each individual message. Dwell time shall not include the one second or less required to change a message.

Electronic message center means a sign capable of displaying words, symbols or figures that can be changed by remote or automatic means.

Electric sign means any sign on which letters, figures, designs, or messages are formed or outlined by electric illumination, or by a transparent or translucent medium which is electrically illuminated, whether the illuminating device is contained within or on the sign and shall also include all outside building outlining, and interim decorative displays and gas tube window outlining. Signs illuminated by electric lights which are not attached to the sign, and signs which are lighted by floodlights or projectors, are not classified as electric signs within the meaning of this chapter. Any portable sign that has electrical components attached, connected to, or part of the sign, or support, whether electrified or not, shall be considered an electric sign and all provisions of this chapter pertaining to electric signs shall apply.

Embellishments means any feature to include, but not limited to, a cut-out, neon or plastic letters, clock, electric device, and space extension which is added to an advertising structure.

Encroach means something is built on or hangs over another's property interest.

Event means something that occurs in a certain place during a particular interval of time with a clearly established beginning and end.

Expressway street classification means any street designated as an expressway in the city major thoroughfare plan.

Facade means the exterior walls of a building exposed to public view or that wall viewed by persons not within the building, including any vertical extension of a building wall (parapet), but not including any part of the building roof.

Feather sign (aka *feather-type sign*) means a sign in a feather, flutter, square, teardrop and half drop shape usually self-supported or supported by a pole(s) and firmly affixed to the ground.

Fireproof structure means a sign constructed entirely of steel members including structural support for the sign face. The sign face and its support members may be constructed of wooden or metal panels.

Flashing means a pattern of changing light illumination where the sign illumination alternates suddenly between fully illuminated and fully non-illuminated, inverse illuminated or operates with transitory bursts, for periods of less than one (1) second. This term includes blinking, strobing and twinkling. Animation as defined does not fall under the definition of flashing.

Flashing sign means any directly or indirectly illuminated sign exhibiting changing natural or artificial light or color effects by any means whatsoever.

Footcandle means a unit of light measurement equal to one (1) lumen per square foot. Footcandle may be abbreviated "fc."

Freestanding sign means a sign not attached to a building or any structure other than its own support, supported by one (1) or more columns, uprights or braces in or upon the ground, and that may extend over any portion of a building.

Government sign means a sign erected and maintained on a sign pursuant to and in discharge

of any governmental functions, or required by law, ordinance or other governmental regulation.

Historic area means a district or zone designated by the city council or a unit of the state or federal government, within which the buildings, structures, appurtenances and places are of basic and vital importance because of their association with history, or because of their unique architectural style and scale. An historic area may also be a part of, or related to, a square, park, or other area; the design of which should be preserved and/or developed according to a fixed plan based on cultural, historical, or architectural motives or purposes.

Historical building means any building or structure which is officially designed as historically or architecturally significant by a unit of local, state, or federal government.

Illegal sign means any sign unlawfully erected or maintained and includes sign structure and signs that have lost nonconforming rights.

Illuminated sign means a sign with electrical equipment installed for illumination, either internally illuminated through its sign face by a light source contained inside the sign or externally illuminated by reflection of a light source aimed at its surface.

Incidental/way finding sign means a non-illuminated sign, generally informational, that has a purpose secondary to the use of the lot on which it is located, such as "no parking," "entrance," "loading only," "telephone," and other similar directives. "For sale/lease" signs not more than thirty-two (32) square feet in area are considered incidental signs.

Local street classification means any street not defined in this chapter as:

(1) An arterial type A;

(2) Arterial type B;

(3) Commercial collector; or

(4) Expressway.

Luminance means an objective measurement of the brightness of illumination, including illumination emitted by an electronic sign, measured in candles per square foot (cd/ft^2).

Maintenance as it pertains to structural integrity of on-premises signs regarding the upkeep, care, refacing and servicing of equipment comprising sign components and sign structures. Any electrical work must be in compliance with chapter 10 regulations. However, it does not include any rebuilding, reconstructing or any reconfiguration of the existing sign cabinet.

Maintenance, nonconforming means the replacement or repair of existing electrical appurtenances, apparatus, equipment, machinery, or controls used in connection with the use of electrical energy in, on, outside, or attached to a sign, or sign structure. This precludes any technological improvements to nonconforming signage.

May implies permissiveness and connotes a non-mandatory action.

Menu board means a sign placed so as to be viewed from a drive-through lane and containing a listing of products and prices offered by the business. A menu board may include a mechanism for ordering products while viewing the sign.

Mobile sign means a sign affixed in any manner whatsoever to a motor vehicle while in motion for the purpose of advertising.

Monument sign means a permanent sign not attached to a building and constructed directly and continuously upon the ground or a grade-level support structure with no separation between the sign and the ground or grade-level support structure. Monument signs shall not be supported by visible columns, uprights, poles or braces and shall be of continuous solid construction without holes, gaps or spacing. See section 35-A101 of the Unified Development Code.

Multiple tenant sign means an on-premises pole sign that advertises three (3) or more occupancies on the same premises. Each tenant shall not advertise more than the allowable maximum for each street classification to include digital and traditional electronic space at any one (1) point of time.

Natural feature means that which is found in its natural or original state out of doors and has not been converted into a structure as defined in

this section, and includes but is not limited to trees, bushes, shrubbery, rocks, boulders, and earth.

Neighborhood means a distinct segment of the community, usually consisting of essentially similar housing stock whose boundaries are defined by physical barriers such as major arterial streets and railroads and/or natural features such as creeks and rivers.

Nit means a unit of illuminative brightness equal to one (1) candle per square meter, measured perpendicular to the rays of the source.

Nonconforming sign means a sign which was lawful prior to the adoption or revision, or amendment of this chapter, but which fails, by reason of such adoption, revision, or amendment, to conform to the present requirements of this chapter.

Occupancy means a business, office, or other enterprise which has a separate certificate of occupancy.

Off-premises sign means any sign not meeting the definition of, or considered an on-premises sign, including but not necessarily limited to, a sign that pertains or directs attention to a business, product, service, activity, person, organization, institution, event, place, object, or location not located, manufactured, conducted, sold, or offered on the premises on which the sign is located. An off-premises sign shall not include plaques or memorials by the city on public property within the Rio Districts.

Off-premises digital sign means an off-premises sign outfitted with a digital display.

Off-premises sign operator means any person licensed by the director to install, erect, service, maintain, alter, repair or demolish non-electrical off-premises signs. Any electrical sign work conducted on an off premises sign shall be done by a state licensed master electrician or a licensed master sign electrician.

On-premises digital sign means an on-premises sign outfitted with a digital display.

On-premises sign operator means any person licensed by the director to install, erect, service, maintain, alter, repair or demolish non-electrical on-premises signs. Any electrical work shall require a licensed master sign electrician or master electrician. Please note for on-premises operator, see license requirements.

On-premises sign means a sign that directs attention to a recognized commercial or industrial activity pertaining to a business, product, service, activity, person, organization, institution, event, place, or object that actually is manufactured, conducted, sold, or offered upon the premises on which the sign is located, except that any sign bringing more than mere incidental rental income to the property owner in contrast to the rental of its corresponding business/office space, shall not be considered an on-premises sign.

Park means a publicly owned tract of land designated and used by the public for active and/or passive recreation.

Pennant means any lightweight plastic, fabric, or other material, whether or not containing a message of any kind, suspended from a rope, wire, or string, usually in series, and designed to move in the wind.

Permitted area means the area that is authorized for use for a permitted event by the department exercising control of the public property.

Permitted event means an event that is allowed to use public property by the issuance of a permit by the department exercising control over the use of the public property.

Person means an individual, association, or corporation.

Place means to physically place or cause to be physically placed.

Pole sign means a sign that is mounted on a free standing pole or other support.

Political sign means a temporary sign announcing or supporting political candidates or issues in connection with any national, state or local election.

Portable sign means any sign designed or constructed to be easily moved from one location to another, including signs mounted upon or

designed to be mounted on a vehicle, trailer, wheeled carrier, or other mobile structure, but not a motor vehicle. A portable sign which has its wheels removed is a portable sign. The term "nonelectric portable sign" means any portable sign which does not have any electrical components.

Practical experience means performing work with, but not limited to, hand tools and equipment, welding equipment, hole-diggers, cranes, and other equipment used in the installation of and/or the construction of signs.

Premises means a single lot or parcel of land (platted and/or unplatted), together with all buildings, structures, yards areas and parking spaces as defined by the Unified Development Code; under the same ownership and used for the same, general purpose or use as permitted by zoning.

Private profiteering means a tangible benefit or gain for the placement of unauthorized off-premises signs in:

(1) Residential zoning districts, and

(2) Non-residential zoning districts.

Public nuisance means any legal sign erected or maintained in any manner:

(1) To constitute an immediate threat to the health, safety or welfare of the public, or is

(2) Dangerously damaged or deteriorated.

Public right-of-way means an area or strip of land, dedicated for municipal public use, occupied or intended to be occupied by a street, walkway, railroad, utility line, drainage channel, or other municipal public uses as authorized by law. It is a rebuttable presumption that any area within fifteen (15) feet of the edge of a paved portion of a public street maintained by the city is public right-of-way.

Qualified person means one with the requisite skills, knowledge and training as evidenced by certifications, licenses, or experience to offer sound and competent judgment as to a particular issue.

Recognized commercial or industrial activities means activities customarily permitted only in zoned commercial or industrial areas except that none of the following shall be considered recognized commercial or industrial activities:

(1) Outdoor signs;

(2) Agricultural, forestry, ranching, grazing, farming and related activities, including, but not limited to, temporary roadside fresh produce stands;

(3) Activities not housed in a permanent building or structure having functioning water and sewer connections and functioning electrical connections;

(4) Activities conducted in a building primarily used as a residence;

(5) Railroad right-of-way;

(6) Activities more than two hundred (200) feet from the edge of the right-of-way;

(7) Activities conducted only seasonally;

(8) Activities not conducted by human beings;

Reface means removing vinyl and replacing, restoring, repainting or repairing the existing advertising sign face area which is attached, annexed, or supported from the sign cabinet and/or main structure. The term specifically includes altering the shape of a registered "trademark sign" to prevent misidentification with the registered trademark. It does not include any other rebuilding, reconstructing or reconfiguration of the existing sign cabinet and/or existing supporting structure. Reface is a type of maintenance.

Roof sign means a sign that is mounted on, and is wholly supported by, the roof of a building and which projects above the point of a building with a flat roof, the cave line of a building with a gambrel, gable, or hip roof, or the deck of a building with a mansard roof.

Shall/must means a mandatory action.

Sign means any object, device, display, structure, description, figure, painting, drawing, message, plaque, placard, poster, or thing or any part thereof, situated outdoors or indoors, that is designed or used to advertise, inform, identify,

display, direct, or attract attention to anything by any means, including words, letters, figures, design, symbols, fixtures, colors, illumination or projected images. The foregoing enumeration of signs shall not be considered to be exclusive. The term "sign" shall include all other devices or structures as may reasonably be included under it, whether attached or unattached. This definition excludes all national or state flags, non-electric window displays, graffiti placed without the authority of the property's owner or representative, the official announcements or signs of government, and athletic scoreboards displaying no otherwise off-premises signage.

Sign assembly means all parts of an advertising structure.

Sign-face area means the entire advertising area or "sign face" within the sign excluding any framing, bracing, trim, or molding and the supporting structure. A Matrix 2-D symbol is not part of the area.

Simulcast means a simultaneous live transmission of the permitted event from the permitted area to one or more permitted areas or to an area on private property.

Street frontage means the distance for which a lot adjoins a public street, from one lot line intersecting a street to the furthest distant lot line intersecting the same street.

Structure means anything built, constructed or erected or any piece or work artificially built-up or composed of parts joined together in some definite manner including, but not limited to, buildings of any kind, utility poles, fences, fire-hydrants, street light standards, traffic light standards, traffic directional sign standards or any other thing to which a sign, may be placed, affixed, erected, painted, posted, maintained or displayed.

Temporary sign means a sign advertising messaging displayed for a limited period of time and subject to reasonable placement and manner regulations as set forth in this chapter.

Temporary sign on public street right-of-way means an off-premise temporary sign that is permitted to be placed on the right-of-way of a road or highway maintained by the city.

Three-dimensional sign means a sign having or appearing to have three (3) dimensions: length, width, and depth.

Type A street classification (commercial collector) means any street designated as a primary or secondary arterial type A in the city major thoroughfare plan.

Variance means the right to build on land in a way prohibited by strict application of this chapter.

V-type sign means a structure composed of two (2) signs with the faces oriented in opposing directions and in the shape of the letter "V"; provided, however, that only one (1) face can be viewed from any one direction.

Wall sign means a sign fastened to, projected on, or painted on, the wall of a building or structure in such a manner that the wall becomes the supporting structure for, or forms the background surface of, the sign and which does not protrude more than eighteen (18) inches from the building or structure.

Window sign means any sign, picture, symbol, or combination thereof, designed to communicate information about an activity, business, commodity, event, sale, or service, that is placed inside a window or upon the window panes or glass and is visible from the exterior of the window.

Zone means one of the standard zoning classifications established in chapter 35 of the City Code.

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17; Ord. No. 2023-6-01-0369, § 1(Att. I), 6-1-23)

Sec. 28-7. Certain items exempted from chapter provisions.

Letters or figures on windows, doors, awnings and advertising benches placed pursuant to a contract with the city are not addressed by this chapter.

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-8. Classification of signs.

(a) All signs regulated under this chapter are classified initially as on-premises signs, off-premises signs or government signs. All regulated signs under this chapter follow this initial classification. With the exception of government signs, all signs regulated under this chapter may display noncommercial speech. Nothing herein shall be interpreted to waive legal rights under local, state or federal law.

(b) Signs regulated by this chapter are further classified as:

(1) Temporary signs.

(2) Wall signs.

(3) Projecting signs.

(4) Pole signs.

(5) Roof signs.

(6) Portable signs.

(7) Electric signs.

(8) Official or government signs.

(9) Back to back signs.

(10) V-type signs.

(11) Digital signs.

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-9. Violations; penalties; civil remedies; abandoned and nuisance signs.

(a) *Violations.* Failure to comply with the provisions of this chapter shall constitute a violation of the City Code. Each day a violation exists shall constitute a separate violation and, consequently, a separate offense.

(b) *Penalties.* Any person violating any provision of this chapter shall be guilty of a misdemeanor and shall, upon conviction, be punished by a fine not to exceed five hundred dollars ($500.00).

(c) *Civil and administrative remedies.* A violation of this chapter 28 is also subject to civil and administrative penalties.

(1) Administrative hearing officer. Under authority of V.T.C.A., Local Government Code ch. 54 et seq., the city may bring an administrative action to enforce this chapter 28, pursuant to chapter 20, article II, Administrative adjudication hearings.

(2) Building standards board. Under authority of V.T.C.A., Local Government Code ch. 54 et seq., the city through its city attorney or designee may bring a civil action to, without limitation, compel the repair or demolition of a structure or to obtain approval to remove said structure and recover associated costs. In this specific action the city may also bring a claim for civil penalties under V.T.C.A., Local Government Code § 54.017 and an action in rem against the structure that may result in a judgment against the structure as well as the defendant.

(3) Nothing in this chapter shall preclude the city's pursuit of any and all other remedies allowed under civil and criminal statues and, in equity, to address conditions which are treated in this chapter. Neither shall the city be required to issue, nor be prohibited from issuing, criminal citations before, during, or after any proceeding prescribed in this chapter.

(4) Civil remedies contained herein shall be construed to be in addition to the power of the city to abate public nuisances.

(d) *Abandoned sign.*

(1) The director or designee shall notify the owner of the structure, the owner's agent or the owner of the property on which the structure is located by certified mail that: 1) the sign structure is out of lawful compliance with this chapter; 2) the reasons why the sign structure is out of compliance; and 3) contact information. Such notice shall also state that upon the expiration of thirty (30) days without

corrective measures being completed, the sign structure is abandoned and subject to removal at owner's expense.

Commentary: Nonconforming signs are, by definition, legally erected signs, which by reason of adoption, revision, or amendment of law, do not conform to present legal requirements. It is the intention that nonconforming signs not be exempt from regulations enacted under municipal police power authority to ensure life, safety and public welfare. Example: City enacts legislation to lower light levels of all signs, including existing signs. A nonconforming sign must be brought into compliance with this regulation and nonconforming status will not shield it from enforcement of section 28-9 of this chapter.

(2) The director and designee(s), severally, are authorized to extend the time period under subsection (1) for up to six (6) months for good cause shown supported by written documentation stating the reasons why thirty (30) days is insufficient to complete corrective measures. Any discretion to extend time is tempered and balanced with public safety and welfare. No such action shall be taken that endangers public safety and welfare or waive requirements under the City Code.

(3) If an abandoned sign is removed as permitted hereinabove, the director shall send service of notice by certified mail of such removal and disposition to the owner of the sign or agent, if mailing address is known, and, if not known, said notice may be published in a newspaper of general circulation in the city. Disposition follows subsection (f) below.

(e) *Nuisances; repair; removal; disposition.* Any sign erected or maintained in any manner to constitute: 1) an immediate threat to the health, safety or welfare of the public; or 2) is dangerously damaged or deteriorated, is hereby classified as a public nuisance, prohibited as unlawful, and shall be abated according to the following provisions.

(1) *Immediate threat to the health, safety or welfare of the public.* Where it appears to the director in coordination and consultation with a qualified person, that due to structural defects or conditions arising from, but not limited to, fire, accident, or other act or occurrence threatening the structural integrity of the sign structure, there is or appears to be an immediate threat to the health, safety or welfare of the public, the director shall declare its immediate demolition. Such declaration shall include a determination that under the circumstances no other abatement procedure is reasonably available except demolition. City is authorized to use any legal means for recoupment of expenditures arising out of the demolition order. Written notice shall be made by certified mail to owner of the structure, the owner's agent or the owner of the property on which the structure is located as soon as practical under the circumstances then existing. Said notice shall contain information detailing that city will dispose of the sign without further notice or opportunity to salvage.

(2) *Dangerously damaged or deteriorated.* If a sign structure is dangerously damaged or deteriorated as determined by the director in coordination and consultation with a qualified person, the director must give the owner of the structure, the owner's agent or the owner of the property on which the structure is located written notice by certified mail stating the defects thereof and sufficient time to complete repairs or improvements or demolition and removal of the structure. Said notice shall contain information detailing the city's options to store or dispose of the sign without further notice. The director is authorized to determine sufficient time under the circumstances then existing, but as a general rule, such time shall not exceed thirty (30) days.

a. *Conditions or defects.* Any structure which has any or all of the condi-

tions or defects hereinafter described constitutes a dangerously damaged or deteriorated structure and a hazard to the public health, safety, and welfare:

1. *General conditions.* Whenever the structure, or any portion thereof, because of:
   A. Dilapidation, deterioration, or decay;
   B. Faulty construction;
   C. The removal, movement, or instability of any portion of the ground necessary to support such structure;
   D. The deterioration, decay, or inadequacy of its foundation; or
   E. Any other cause, is likely to partially or completely collapse.
2. *Specific.*
   A. *Foundations.*
      1) Condition of anchor bolts and/or bottom plate show excessive wear, deterioration, cracks or stress fractures.
      2) Condition of foundation systems including but not limited to spread or pier footings show signs of decay, rupture, or other indications of undue stress.
   B. *Sign structures.*
      1) Pole/pylon damaged by impact, obvious signs of tension, shear, or stress fractures through any means.
      2) Over bored or worn holes in all plate connections.
      3) Poor or improperly made welds which may or may not show signs of burn through.
      4) Plate connectors, rings or gussets showing stress fractures or other types of damage/deterioration.
   C. *Connections.*
      1. Any connectors showing deficiencies, loose or missing nuts, bolts or other means of connection.
      2. Required bracing bearing shows signs of stress of any type or magnitude.
      3. Unapproved or improper use of materials to make repairs/corrections to any component of a sign structure.

b. *Standards for repair or demolition.* The following standards guide the director in the discretion in ordering that a dangerously damaged structure be repaired, vacated, secured, and/or demolished and these standards will be observed and applied by the board on appeal.
   1. If the alleged dangerous structure can be feasibly repaired or the condition remedied so that it will no longer exist in violation of the terms of this chapter, it shall first be ordered remedied or repaired by the director.
   2. In any case where a dangerous structure is fifty (50) percent or more damaged or deteriorated in its structure, a presumption shall arise that

the structure cannot be repaired. Such presumption may be appropriately rebutted by the weight of the evidence.

3. Principals of sound engineering practices shall be respected.

4. The director is authorized to extend the time period under subsection (e)(2) for up to sixty (60) days for good cause shown supported by written documentation stating the reasons why thirty (30) days is insufficient to complete corrective measures. Any discretion to extend time is tempered and balanced with public safety and welfare. No such action shall be taken that endangers public safety and welfare or waive requirements under the City Code.

(3) *Abatement.*

a. The designated period within which said owner of the structure, the owner's agent or the owner of the property on which the structure is located is required to comply with an order of the director shall begin as of the date notice is received.

b. Responsible party's failure to abate; costs.

1. If the sign structure or its components, subject of the DSD order, is not secured, repaired, removed, or demolished, or the occupants are not relocated within the time prescribed as detailed above, the city is authorized to secure, remove, or demolish at the owners own expense.

2. If the city incurs expenses under subsection 1. above, the city may assess its costs and secure same by a lien.

3. In the event of city serviced demolition, following review and approval by the DSD, to abate the public nuisance, the owner shall be charged and billed for the expense of demolition of the sign structure, to prepare the premises for demolition, collapse the structure, remove and dispose of all debris to a legal disposal facility, plus any handling, transportation and disposal fees incurred, including any and all costs necessary to address special or hazardous wastes, and a ten (10) percent administration expense charge.

4. Any case referred to the DSD for consideration shall also have attached as costs all expenses incurred by the city to research ownership and mortgagee/lien holder interests, as such research is required by state law to fix enforceable orders and liens.

Commentary: A repair permit must be issued first before any legal sign may be repaired. An illegally erected sign shall not be repaired under any circumstance and any illegal sign may be demolished without classifying it as a public nuisance.

(f) *Disposal.* City may permanently dispose of any removed sign authorized under subsection (e) provided applicable written notice is given of that action. Additionally, any sign removed under subsection (e) may, but need not, be stored or impounded and will not be returned to the owner until all applicable charges for removal and storage are paid. Should a sign be stored or impounded, and any such sign remains unclaimed for a period of thirty (30) days after its removal or if the removal and storage costs are not paid within the 30-day period, the city may, after notice to the sign owner or agent, or if not known, notification by publication in a newspaper of general circulation in the city and a hearing before the director, destroy, sell, or otherwise dispose of the sign.

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-10. Posting signs and bills on public and private property.

(a) No person shall affix a sign or bill by any means whatsoever to any private property without having first obtained the written permission of the owner or the owner's agents. Nothing within this chapter shall be interpreted or applied so as to prohibit a property owner or that owner's agent from removing or authorizing the removal of unauthorized signage.

(b) Except as expressly provided in this chapter, no person shall affix a sign or bill by any means whatsoever to any public property, including public right-of-way, without having first obtained the written permission of the city through appropriate legislative action or approved permitting procedures through the city's transportation and capital improvements department. Nothing within this chapter shall be interpreted or applied so as to prohibit the city, through its staff, from removing or authorizing the removal of unauthorized signage on public property or public right-of-way.

Commentary: non-governmental signs are generally not permitted on city right-of-way unless 1) expressly provided for in this chapter; 2) permitted pursuant and through the city's transportation and capital improvement's department way-finding sign permitting process; or 3) through city council approval.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-11. Recorded sign easement agreements.

Any recorded private sign easement agreement or any other legal agreement that eliminates or purports to eliminate the distinctions between on-premises and off-premises sign types, single and multi-tenant sign types, or sign sizes by zoning district or street classification constitutes a violation of this chapter. This provision shall operate prospectively from July 3, 2017.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17; Ord. No. 2023-6-01-0369, § 1(Att. I), 6-1-23)

Sec. 28-12. Signs posted at commercial parking areas.

See chapter 19, section 19-236, Requirements for signs posted at commercial parking areas.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Secs. 28-13—28-19. Reserved.

ARTICLE III. REGULATORY REQUIREMENTS

DIVISION 1. LICENSE AND INSURANCE

Sec. 28-20. In general.

All persons engaging in the business of erecting, painting, servicing refacing, maintaining or demolishing signs regulated by the chapter must be licensed and insured to conduct business in this jurisdiction, unless specifically excepted in this chapter. Work shall not commence until the insured license holder has posted a compliance bond and been issued a proper permit for the proposed work by the development services department.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-21. License.

(a) *License required.* See section 28-20 above.

(b) *City issued licenses.* The city issues an on premise sign operator license and an off premise sign operator license authorizing holders of such licenses to perform duties as they are defined in section 28-6.

(c) *State issued licenses.* See City Code, chapter 10, section 10-113, Electrical contractors and electrical sign contractors, installers, maintenance electricians; licenses and registrations. Registration requirements under chapter 10 include a background check verifying one (1) qualifying master per contractor.

(d) *Term of licenses; right to renew.* All licenses issued pursuant to this chapter shall continue in full force from the date of issuance until the end of the city's fiscal year, and may be renewed annually thereafter, without examination, unless the license has been suspended for cause.

Notwithstanding this, continuing education units (CEU) are required in order to renew city issued licenses. A limitation exists where the licensee (state or city issued) shall neither master nor engage in the operation of a second electrical or electrical sign business, unless it is under the same name and insurance of the first business.

(e) *Renewal date.* A person licensed under this chapter must renew his license within thirty (30) days of the beginning of the city's fiscal year or the license shall be declared in default and the holder shall be subject to reexamination.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-22. Off-premises sign operator license.

(a) *License required.* A person engaging in the business of erecting, painting, servicing or maintaining non-electrical off-premises signs must be licensed to do business by the city. A license holder supplying his license for a firm or corporation doing business under this Code shall not supply his license to a second firm or corporation. Any permit issued to the license holder shall be for work being done by the license holder and his firm or corporation. The licensing requirement shall not be applicable to employees or subcontractors performing work under the supervision of the licensed off-premises sign operator.

(b) *Examination, application and fee.* Each person seeking an off premise sign operator license must file an application and pay a fee with the director and take and pass an examination given by an approved third party. A license shall not issue without taking and passing such examination. An additional fee shall be charged upon reexamination.

(c) *Qualifications.* As part of the application process, each application shall show proof to the director of at least four (4) years of practical experience at the trade working under an off-premise sign operator. The applicant shall also submit to the director an affidavit, duly sworn, setting for and including proof of such experience.

(d) *Minimum test score.* The director shall issue a license provided a minimum of score of seventy-five (75) percent has been achieved on the off-premises sign operator's examination and the annual license fee has been paid.

(e) *Vehicle identification.* Any contractor engaged in erecting, installing, servicing, or maintaining an off-premises sign shall ensure that all vehicles required to be on the job site are identified with the contractor/company name and license number. Lettering on the vehicle shall be at least two (2) inches high, and shall be in full view and legible at all times.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-23. On-premises sign operator license.

(a) *License required.* A person engaging in the business of erecting or maintaining on-premises signs must be licensed to do business by the city. Such a license does not authorize electrical work on any sign. A license holder shall supply the license to only one (1) firm or corporation doing business. Any permit issued to the license holder shall be for work being done by the license holder and this firm or corporation. Work shall be conducted by the license holder issued the permit; however, a new license holder is permitted to complete work under the issued permit. The licensing requirement is inapplicable to employees or subcontractors performing work under the supervision of the license holder.

(b) *Examination, application and fee.* Each person seeking an on premise sign operator license must file an application and pay a fee with the director and take and pass an examination given by nationally or internationally recognized authorities. A license shall not issue without taking and passing such examination. An additional fee shall be charged upon reexamination as detailed in the fee schedule.

(c) *Qualifications.* As part of the application process, each applicant shall show proof to the director of a minimum of two (2) years experience in on-premises sign installation working under a licensed on-premises sign operator, or a licensed on-premises sign operator from another city provided that licensing qualifications and

examinations are similar in design and quality to that of the city as determined by the director, or can show proof of a minimum of four (4) years experience in on-premises sign installation, provided that verification of experience shall be determined by the director. The applicant shall submit to the director an affidavit, duly sworn, setting forth his experience.

(d) *Minimum test score.* The director will issue a license provided a minimum of score of seventy-five (75) percent has been achieved on the off-premises sign operator's examination and the annual license fee has been paid.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17; Ord. No. 2023-6-01-0369, § 1(Att. I), 6-1-23)

Sec. 28-24. Nontransferability.

A license issued pursuant to this chapter is not transferrable.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-25. Unlawful use of license.

A person licensed under this chapter will not allow his name to be used by any other party for the purposes of doing work or obtaining a permit. Violations of this section will result in revocation of the license, and the holder will be subject to all other penalties provided by law.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-26. Revocation and suspension.

(a) *Grounds.* The appeals and advisory board is authorized to uphold, modify or overrule the director's decision to suspend or revoke the city issued license of any person found to have:

(1) Committed any fraud or deceit in obtaining a license.

(2) Secured sign permits under his license and thereafter allowing a person without a proper license to do the work.

(3) Committed gross negligence, incompetency, or misconduct in the performance of sign work. Misconduct includes, but is not be limited to, a failure to:

a. Offer remittance on permit applications upon ninety (90) days past due and permits issued, and

b. Close permits within the prescribed time period required by chapter 10 of this Code.

(4) Intentionally made a false or misleading material statement on an application for a permit or registration form for nonconforming signs.

(5) Perform any contractor work for which a permit is required without having the permit or after the permit has been canceled.

(b) *Hearing.* In determining the validity of charges brought under this section, the appeals and advisory board shall proceed upon information provided to show just cause for license suspension or revocation. The board, whenever it deems the information sufficient to support further action on its part, shall convene a hearing to further investigate the charges. Procedural requirements follow chapter 10 of this Code. The accused may appear in person or be represented by counsel, or both, and present his defense to the board. If the accused fails, or refuses, to appear, the board may proceed to hear and determine the charge in his absence. If the accused pleads guilty, or if the board, by a majority of members present after a quorum has been established, finds the charges to be true, the board shall uphold, modify or overrule the director's decision to suspend or revoke the city issued license.

(c) *Record.* When the board has completed its hearing, it shall file a record of its finding and decision with the city clerk and forward a certified copy of the finding and decision to the accused.

(d) *Length of suspension.* If the board determines to suspend a license, it shall make a determination on the length of that suspension.

In no case, however, may a suspension period exceed one hundred eighty (180) days, nor be less than thirty (30).

(e) *Appeal.* Any appeal from the decision of the board shall be made to a court of proper jurisdiction by following procedures found under section 10-14.

(f) *Reapplication.* If a license is revoked, a new licensed may not be applied for a period of one (1) year.

(g) *Operating while suspended or revoked.* It shall be unlawful for any person whose license has been suspended or revoked by the board to engage in, or do, sign work for which a permit is required under this article.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17; Ord. No. 2023-6-01-0369, § 1(Att. I), 6-1-23)

Sec. 28-27. State issued master sign electrician's license and master electrician license.

See section 10-113, electrical contractors and electrical sign contractors, installers, maintenance electricians; licenses and registrations, of the City Code.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-28. Indemnification and insurance requirements.

(a) Indemnity. All persons holding an on or off premise sign operator's license shall agree to indemnify and hold harmless the city, its members, agents, officers and employees, their successors and assigns, individually or collectively, from and against all liability for any fines, claims, suits, demands, action or causes of action of any kind and nature including, but not limited to, personal injury or death, and property damage, in any way arising out of or resulting from any activity or operation of the licensee. This indemnification shall be a prerequisite to the issuance of the off-premises sign operator's or on-premises sign operator's license. The license holder shall pay all expenses incurred in defending against any such claims made against the city; however, the license holder shall not be liable for any injury, damage, or loss caused by the sole negligence or willful misconduct of the city, its agents or employees. The licensee and the city shall give prompt and timely notice of any claim made, or suit instituted, which in any way affects or might affect either party.

(b) Insurance. Subject to the license holder's right to maintain reasonable deductibles in such amounts as are approved by the city, the licensee shall procure and maintain at his own expense, the following types and amounts of insurance:

Type	Amount
(1) Workers compensation and employer's liability	Statutory amount of $500,000.00 for each accident
(2) Comprehensive general (public) liability, to include, but not be limited to, the following: (a) Premises/operations (b) Independent contractors (c) Personal injury (d) Products/completed operations (e) Contractual liability (f) Explosion, collapse and underground property damage	Combined single limit for bodily injury or property damage: $1,000,000.00 or its equivalent
(3) Comprehensive automobile liability, to include coverage for: a. Owned/leased automobiles. b. Non-owned automobiles c. Hired cars	Combined single limit for bodily injury or property damage: $1,000,000.00 or its equivalent

(c) The licensee further agrees that with respect to the required insurances, the city shall:

(1) Be named as additional insured/or insured, as its interest may appear.

(2) Be provided with a waiver of subrogation.

(3) Be provided with thirty (30) days advance notice, in writing, of cancellation or material change.

(4) Be provided with certificates of insurance evidencing the required insurances, prior to the commencement of the city's fiscal year. Notices and certificates of insurance shall be provided to the director of the development services department and the city clerk.

(d) Should a person holding a license sever employment connections with a firm which is jointly covered by the same insurance, a new certificate showing proper coverage will be required of both parties.

(e) If the insurance cancels or renews at periods other than the annual license renewal date, new evidence to show that the license holder is maintaining proper coverage shall be furnished to the city.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

DIVISION 2. PERMIT AND COMPLIANCE BOND

Sec. 28-29. Permit required.

A validly issued license and insurance are prerequisites to the issuance of a permit for work in this jurisdiction. No permit for work will issue unless an applicant shows proof of license and insurance as provided in division 1, unless specifically excepted below. Only a registered contractor or city licensed contractor is authorized to obtain sign permits for the installation, erection, or alteration of any sign. Work includes erection, painting, servicing, refacing, maintaining or demolishing a sign regulated by this chapter.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Note—See chapter 10 for a detailed description of registered contractor or city licensed contractor.

Sec. 28-30. Permit exceptions.

(a) On-premise signs not exceeding one (1) square foot of facing, and non-lit, attached to a residence, apartment or mixed use building used solely for home occupation purposes.

Any activity carried out for gain by a resident conducted as an accessory use in the resident's dwelling unit as defined in chapter 35.

(b) Non-electric or non-illuminated signs not exceeding thirty-two (32) square feet of facing, composed of durable material, situated wholly upon private property and securely affixed to a building, fence or wall and having a frame or trim not more than three (3) inches wide except said signs shall comply with applicable erection and maintenance permit regulations. This exception does not apply to any signs erected in the Riverwalk Area as defined in this chapter.

(c) Signs or markers on public property used by a public utility holding a franchise from the city to designate bus stops or cab stands.

(d) Government signs.

(e) Incidental/way finding signs.

(f) Temporary signs on residential zoned properties and residential zoned uses that are maximum ten (10) square feet in area and in accordance with all applicable provisions of section 28-73.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17; Ord. No. 2023-6-01-0369, § 1(Att. I), 6-1-23)

Sec. 28-31. Permit application process.

(a) *General application requirements.* In compliance with chapter 10 and all adopted amendments, including Appendix H to the International Building Code, to obtain a city issued sign permit, the applicant must first file an application in writing on a form furnished by the development services department for that purpose. Such application shall:

(1) Identify the type, size, shape, zoning district and location (or proposed location) of sign through drawings and specifications.

(2) Identify the premises and street address of the sign (or proposed location).

(3) Identify the means and methods of construction including, where required, an engineer's certification.

(4) Be signed by the applicant, or applicant's authorized agent.

(5) Give other information as required by the director.

(6) Where engineering is required by the applicable provisions of this chapter, chapter 10 of the City Code and the adopted International Building Code including Appendix H, Sign, certification by a Texas licensed engineer shall be provided as part of the permit application.

(b) *Off-premises application requirements.* In addition to general application requirements above, an off-premises sign permit application must include:

(1) The distance to the nearest off-premises sign on the same side of the roadway.

(2) An affidavit from the property owner authorizing erection of the sign or an executed lease agreement.

(3) Two (2) demolition permit numbers of off premises signs registered with the city that have been removed and their date(s) of removal.

(4) Proof of a state permit for off-premises sign placement along the main-traveled way of the interstate and primary systems of a highway. In order to submit an application for a city sign permit, proof of commercial or industrial zoning must be submitted to the State of Texas and a state issued sign permit must be issued to erect the sign. Proof of this state sign permit must be included in the permit application to the city.

(c) *Application completeness review and approval.*

(1) *Completeness review.* A permit application shall not be deemed complete unless the application form is filled out completely and all requested information has been provided. No form shall be deemed complete until the application fee has been paid. The applicant shall be notified of the status of the application by certified mail or through the customer notification system. An application remaining incomplete at the expiration of thirty (30) days is invalid.

(2) *Approval process.* Once an application is deemed complete, the director shall examine or cause to be examined permit applications within as reasonable time. As part of such process, the director may forward the application to other city departments in order to verify compliance with any applicable laws and ordinances under their jurisdiction. If the application or attached documentation does not conform to pertinent law, the director shall reject such application in writing, stating the reasons for the denial. If the director is satisfied that the proposed work conforms to applicable law and fees have been paid, the director shall issue a permit as soon as practicable.

(d) *Considerations for issuing sign permits.*

(1) *In general.* A permit for the erection or alteration of any sign over any sidewalk, alley, or other public property, or on or over any roof or building, shall not be issued to any person except upon the condition that the permit may be withdrawn at any time, in which case the sign shall be immediately removed by the owner thereof.

Comment. See chapter 10 of this Code for general sign inspection requirements.

(2) *Off premises relocation permit application considerations.*

a. Any off premises sign structure removed in the city within two (2) years prior to July 3, 2017 may be credited as a required removal provided the development services department has previously identified the removed sign through a

demolition permit application as such under then-existing regulations. Demolition permits must be issued by the development services department and structures demolished prior to issuance of a relocation permit. Once an application for a relocation permit is filed, such application shall not be amended except for adjustment of the location of the relocated off premises sign structure on the same property.

b. Once a relocation permit has issued, the permit holder must have the relocated structure under construction within three (3) calendar days of the permit issuance date or identify the site with a sign bearing the company and operator's name, operator's license number, and the permit number. The sign shall measure no more than four (4) feet high by three (3) feet in length and shall be affixed to an upright of ten (10) feet overall, set in a minimum of three (3) feet below ground level, and a minimum of six (6) feet above ground level, facing the flow of traffic and clearly visible from the street. For purposes of this subsection a billboard shall be considered to be under construction when the sign pole is set in concrete in the ground in an upright position.

c. A permit holder shall have one hundred eighty (180) days from the time the relocation permit is issued or thirty (30) days from the time the installation is complete to request a final inspection of the relocated off premises sign, whichever comes first. Should such a request not be made within the time prescribed, the relocation permit is invalid. However, one (1) 90-day extension period may be granted. The request for the extension must be made before the 180-day period lapses. If an inspection has not been requested by the end of that extension, the relocation permit is invalid. Should the operator still desire to place a billboard at the site in question, an applicant must apply for a new relocation permit pay all required fees.

(3) *Limitation on relocation permits.*

a. Relocation permits will only be issued on a one-for-two basis, i.e., one (1) relocation permit issued for every two (2) billboards removed. For every billboard relocated pursuant to a relocation permit, a minimum of two (2) billboards must be removed and their combined advertising display area square footage must be equal to or exceed twice the advertising display area square footage of the relocated billboard. For purposes of determining the monthly allocation of square footage of advertising display area, an application for a relocation permit shall be charged to the month within which the application is filed.

b. Each off premises sign company may relocate no more than one thousand three hundred forty-four (1,344) square feet of advertising display area during any given calendar month, provided a minimum of two (2) billboards and twice the amount of advertising display area square footage are removed per relocation permit issued. This relocation limitation of one thousand three hundred forty-four (1,344) square feet must be used within a given calendar month and shall not be cumulative on a month-to-month basis. No credit shall be issued should more than two thousand six hundred eighty-eight (2,688) square feet of advertising display area be removed during any given calendar month.

c. An off premises sign erected pursuant to a relocation permit shall conform to all provisions of this chapter as well as any other

applicable City Code provisions. In addition to the maximum sign face restrictions detailed in subsection 28-50(d), the maximum size sign face area of a relocated billboard as viewed from one (1) direction is the average square footage of sign face area of the prior removed billboards, excluding embellishments, as viewed from one (1) direction (i.e., adding the sign face areas of two (2) billboards to be removed as viewed from one (1) direction and dividing by two (2).

(4) *Height adjustment permits.* A height adjustment permit can be issued if all of the following conditions are met for an existing billboard structure.

a. The owner shall file an application with the development services department providing it with photographic evidence that the sign face is obstructed by a ramp, elevated roadway, traffic sign or similar highway structure.

b. The structure is not located within the following boundaries:

1. Both sides of I.H. 10, an expressway, between Highway 90 to I.H. 35 for a distance of five hundred (500) feet from the street right-of-way.

2. Both sides of I.H. 35, an expressway, between I.H. 10 to I.H. 37 for a distance of five hundred (500) feet from the street right-of-way.

3. Both sides of I.H. 37, an expressway, between I.H. 35 I.H. 10/Highway 90 for a distance of five hundred (500) feet from the street right-of-way.

4. Both sides of I.H. 10,/Highway 90, an expressway, between I.H.10/I.H. 35 and I.H. 37 for a distance of five hundred (500) feet from the street right-of-way.

c. The existing billboard structure was installed prior to the building or installation of the obstruction.

d. The existing billboard was not converted to a digital face in the previous three (3) years.

e. The existing billboard must retain the same basic structural configuration, including number of faces and lighting method after adjustment. The building official may allow minor alterations that do not affect the configuration.

f. The adjusted height would be coordinated with and approved by the development services department to create adequate sign face visibility for an existing obstructed billboard but may not exceed eighty-five (85) feet above the grade level at the base of the sign. The bottom of the sign face may not exceed ten (10) feet above the obstruction at the point nearest to the billboard.

g. All adjustments shall comply with the most recently adopted version of the International Building Code as adopted under chapter 10.

(e) *Billboard permits are not transferable.* A permit must be utilized by the operator to whom it is issued. Any operator who intentionally gives, lends, sells, or otherwise conveys a permit to another operator shall have his license revoked and shall be subject to all penalties as established in the City Code.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17; Ord. No. 2023-6-01-0369, § 1(Att. I), 6-1-23)

Sec. 28-32. Obtaining permit for another.

It shall be unlawful for any person licensed under the provisions of this chapter to obtain a permit on behalf of, or for the benefit of, any

unlicensed person whose business activities are such that such unlicensed person would need a license to obtain a permit.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-33. Validity of permit.

The issuance or granting of a permit shall not be construed to be a permit for, or an approval of, any violation of any of the provisions of this chapter or of any other ordinance of the city. Permits presuming to give authority to violate or cancel the provisions of this chapter or other ordinances of the city shall not be valid. The issuance of a permit based on construction documents and other data shall not prevent the director from requiring the correction of errors in the construction documents and other data. The director is also authorized to prevent use of a structure where in violation of this chapter or of any other ordinances of the city.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-34. Continuation of the business upon death, disability or termination of the business's master.

Upon the death or disability of a registered contractor or city licensed contractor (the master), the business will be allowed to complete existing work for which permits have been obtained prior the severance of the master provided insurance is posted and sufficient evidence is submitted to and approved by the director as to the ability of the business to complete the work as required under law. Monthly approval may be granted by the director for period not to exceed six (6) months. On or before the expiration of such period, the business shall associate a new master of the appropriate classification or cease operations. Upon termination of a master, a letter shall be provided stating the cause of termination prior to a new contractor being issued a completion permit.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-35. Suspension or revocation.

The director is authorized to suspend or revoke a permit issued under the provisions of this chapter whenever the permit is issued in error or on the basis of incorrect, inaccurate or incomplete information, or in violation of any ordinance or regulation or any of the provisions of this chapter.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-36. Compliance bond required for permit.

(a) *Posting compliance bond.* A license holder shall first post a compliance bond in the name of the City of San Antonio in a sufficient amount to cover the estimated work to be done before being issued a sign permit. A written estimate must be submitted prior to the issuance of a permit and the bond must continue for one (1) year succeeding the completed work. The compliance bond shall ensure the full and faithful compliance by the licensee of all the covenants, terms, and conditions of the construction codes of the city and stands as surety for payment by the licensee of all valid city claims.

(b) *Bond recovery and disposition.* The director shall report each violation of this chapter to the office of the city attorney who shall immediately make demand on the compliance bond holder and his sureties for the amount of liability for each offense. Should the compliance bond holder default, the city attorney is authorized to file suit upon the bond for recovery of any amount due the city. All sums of money collected under the provisions of this section shall be deposited in the general fund of the city.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Secs. 28-37—28-40. Reserved.

ARTICLE IV. ERECTION AND MAINTENANCE REGULATIONS

DIVISION 1. IN GENERAL

Sec. 28-41. Erection and maintenance.

(a) *General.* All signs and components thereof shall be erected and maintained in good repair and with the proper and secure structural supports. All signs and their immediate surrounding area shall be kept free of weeds, trash and

other refuse. The display surfaces of all signs shall be kept neatly painted or posted. All signs regulated under this chapter shall comply with applicable provisions of chapter 10 of the City Code, the adopted International Building Code including Appendix H, Signs, and the adopted National Electric Code unless otherwise provided in this chapter. Additional/supplemental requirements are provided under this chapter.

(1) No signs shall be erected on or over public property in a manner which interferes with any fire hydrant, traffic light, fire alarm box or street light. Similarly, off-premises signs and on-premises signs shall not be erected in any location where, by reason of traffic conditions, fire, or explosion hazards, the sign would imperil public safety or hamper the functions of the fire department.

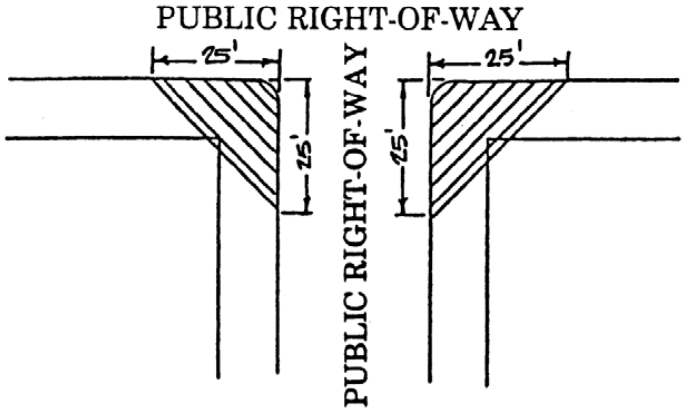
(2) All signs shall be securely fastened or anchored to a building wall, structural framing, or other foundation, with a sufficient number of bolts or anchors to resist the stress resulting from the dead weight of the sign and wind loads. The use of staples, wires, and wood plugs in erecting signs is prohibited.

(3) All signs governed by this chapter, excluding electric signs, shall be constructed of durable materials and securely attached to framework and supports made of wood, metal, or other similar material of equivalent strength. On-premises signs may be made of pressed wood. All electric signs shall have metal supports and frames.

(b) *Preventing obstructions.*

(1) All signs governed by this chapter shall be situated in a manner which does not interfere with or obstruct windows, doors, or other means of exit from a building. No sign shall be supported on or attached to any fire escape, door, or window casing.

(2) On any corner lot on which a front yard is required by the zoning ordinance of the city, no structure, including signs shall be maintained within the triangular area formed by the intersecting street lines and a straight line connecting such street lines, at points twenty-five (25) feet from the point of intersection measured along such street lines.



(3) Signs within the 25-foot triangular area public right-of-way described immediately above are illegal and are subject to removal without prior notification.

(4) Unless permitted by other sections of this chapter, signs within the public right-of-way but outside the 25-foot triangular area described above are presumed illegal and subject to penalties described in this chapter including, but not limited to, sign removal at owner's (if known) expense and other legal means, without prior notification. It is a rebuttable presumption that prior sign placement was legally authorized by this chapter or other legal means. This subsection shall not be interpreted to limit city authority to abate a public danger presented by an otherwise legal structure.

(c) *Clear vision area.* No sign shall be placed within the clear vision area defined in chapter 35.

(d) *Government signs.* Nothing in this chapter shall be construed to prevent or affect the display of insignia, legal notices or informational, directional or traffic signs which are legally required or necessary to the essential functions of government agencies.

(e) *Identification.* Every sign hereafter erected, constructed or maintained, for which a permit is required and for which engineering is required to obtain a permit, shall be plainly marked with the name of the person, firm or corporation erecting and maintaining such sign (license holder) and shall have affixed on the front thereof the permit number (AP) issued for said sign or other method of identification approved by the director.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-42. Minimum sign residential buffer/ setback and height restrictions.

Signs on property that abuts a single-family residential property shall meet the following minimum setback and height restrictions in addition to the other applicable sign provisions listed in chapter 28.

(1) Freestanding signs on properties abutting a platted lot that is zoned and used for single-family residential purposes shall require a minimum ten-foot setback from the property line abutting the residential property and be a maximum of eight (8) feet in height, except as provided below.

(2) Freestanding signs on properties abutting a platted lot that is zoned and used for single-family residential purposes may be erected to exceed eight (8) feet in height, provided that such sign is located back from the minimum ten (10) foot setback required above one (1) foot for each one (1) foot of height in excess of eight (8) feet prescribed above.

(3) This section shall not apply to a sign that is subject to an agreement between the sign owner and all owners of single-family property abutting and/or within one hundred (100) feet of the sign. The agreement shall: a) be in writing; b) signed by the owner of the sign and all owners of single-family property abutting and/or within one hundred (100) feet of the sign; c) identify the minimum permitted setback from the property line abutting the single-family residential property or properties; and d) identify the maximum permitted height of the sign. Note that the use of this provision shall not permit a minimum setback less than ten (10) feet and the agreed sign height shall not exceed that prescribed elsewhere in this chapter.

(4) The owner of a property that abuts a lot that is zoned and/or used for single-family residential purposes is entitled to place one (1) sign ("relocated sign") on an abutting platted lot that is zoned and used for commercial purposes ("relocation site"), subject to an agreement between the sign owner and the owner of the relocation site. A relocated sign shall be treated as an on-premises sign. The relocated sign agreement shall: a) be in writing; b) signed by the owner of the relocated sign and the owner of the relocation site; and c) identify the location of the relocated sign. A relocated sign may either be a freestanding sign or part of a multi-tenant sign on the relocation site. A relocated sign shall be in addition to any signage permitted on the relocation site and shall not be subject to the limitation on the number or spacing of signs permitted on the relocation site.

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-43. Digital displays; general.

(a) All digital displays (both on-premise and off-premise) must meet the following general requirements in addition to any additional specific listed elsewhere in the code:

(1) A digital display may not display light of such intensity or brilliance to cause glare or otherwise impair the vision of the driver, or results in a nuisance to the driver.

(2) A digital display must not be configured to resemble a warning or danger signal or to cause a driver to mistake the digital sign for a warning or danger signal.

(3) A digital display must not resemble or simulate any lights or official signage used to control traffic in accordance with the 2003 Manual on Uniform Traffic

Control Devices, with Revision No. 1 published by the Federal Highway Administration (FHWA).

(4) A digital display is subject to all existing restrictions on light intensity or brilliance contained in chapter 35, the Unified Development Code, including, but not limited to, subsection 35-612.

(5) A digital display sign must be equipped with both a dimmer control and a photocell which automatically adjusts the display's intensity according to natural ambient light conditions.

(6) Digital display light intensity exceeding the following intensity levels (nits) constitutes "excessive intensity or brilliance":

Intensity Levels (NITS)		
Color	*Daytime*	*Nighttime*
Red Only	3150	1125
Green Only	6300	2250
Amber Only	4690	1675
Full Color	7000	2500

(7) In addition to the maximum intensity levels (NITS) listed above, all digital displays shall be illuminated at a level no greater than 0.3 footcandles over ambient light levels for the location and time and shall employ light cutoff devices such as, but not limited to, louvers in order to minimize light escaping above the horizontal plane. Footcandle readings shall be measured at ground level at the distances shown in the table below.

Sign Size (ft^2)	*Distance From Source*
0 to 100	100 feet
101 to 350	150 feet
351 to 650	200 feet
Over 651	250 feet

(8) As measured from the nearest residential property line, the maximum light emanation from an adjacent digital sign display shall be 0.2 footcandles.

(9) Prior to the issuance of any digital sign permit, the application shall include acknowledgement that the light intensity has been factory pre-set not to exceed seven thousand (7,000) NITS and that the intensity level is protected from end-user manipulation.

(10) The digital display must contain a default mechanism that will freeze the sign in one (1) position if a malfunction occurs. If the sign continues to be a danger to the traveling public, the digital display shall be turned off.

(11) Luminance shall be measured using a calibrated, certified luminance meter and/or photometer.

(12) Luminance measurements shall be taken during the hours between the end of evening civil twilight and the beginning of morning civil twilight

(13) At least five (5) measurements shall be made for each sign or sign areas, and the readings recorded.

(14) The recorded measurements, including the date and time made and the permit number for the sign(s) in question shall be documented in the city's permitting system.

(b) Existing signs. All digital displays, as defined, lawfully in existence prior to July 3, 2017 shall conform to the provisions of this article within one (1) year of ordinance passage; provided however, that incandescent or monochrome LED signs using a single display color and which are used exclusively to display text is excluded from the requirements of this provision.

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17; Ord. No. 2023-6-01-0369, § 1(Att. I), 6-1-23)

DIVISION 2. REGULATIONS BASED UPON SIGN CLASSIFICATION

Subdivision A. On-Premises Signs

Sec. 28-44. In general.

(a) *Special districts.* Specific regulations for historic landmarks and districts, neighborhood conservation districts, corridor districts, river

improvement overlay districts and other overlay districts are contained in chapter 35 of this Code.

(b) *Freestanding, multiple-tenant signs in non-residential zoning districts.* Freestanding, multiple-tenant signs twenty-five (25) feet or more in height in non-residential zoning districts shall contain the address number of the sign clearly visible from the street with each numeral being a minimum of six (6) inches in height. Those signs less than twenty-five (25) feet in height shall contain an address number of the sign with each numeral being a minimum of three (3) inches in height. The portion of the sign utilized for minimum compliance with this subsection shall not be included in the calculation of sign area.

(c) **Incidental/way finding signs.** Incidental/way finding signs may be erected in the city within the premises of an apartment complex and subdivision and commercial properties provided the signs do not exceed thirty-two (32) square feet in area and twelve (12) feet in height and they comply with applicable sections of chapters 35 and 37, but not spacing requirements. Under no circumstance shall any sign be erected so as to erode the safety and security of the traveling public.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-45. Sign height and area.

(a) Height computation. The height of a sign shall be computed as the distance from the ground level of the sign to the top of the highest attached component of the sign.

(b) Sign area.

(1) *Total-sign area computation.* The area of a sign shall be computed on the actual area of the sign. Included in the actual area shall be any open space which gives definition to the sign including the shape of any writing, object, representations, emblems, or other displays. Any border which forms an integral part of the background of the display, or differentiates the sign from the backdrop or structure against which it is placed should also be included in the actual total-sign area. The computation of sign area shall not include any structure, bracing, or wall that is necessary to support the sign.

(2) *Double-faced signs.* The area of a sign shall be computed on a sign face basis and all requirements with respect to sign area refer to the area of a single face. A double-faced sign shall be permitted to have the allowed area for a single-faced sign on each of the two (2) faces of the sign.

(3) *Three-dimensional signs.* For three-dimensional signs and objects, the sign area is the rectangle within which the largest two-dimensional projection (silhouette) of the object can be enclosed.

(4) *Channel letter signs.* For channel letter signs, the sign area shall be the smallest rectangle that will encompass the limits of the writing, including spaces between the letters. Each advertising message shall be considered separately.

(5) *Lots fronting on two (2) or more streets.* Platted lots fronting on two (2) or more streets are allowed the permitted freestanding signage for each frontage, but such signage cannot be transferred from one frontage to another.

(c) Height and size limitation.

(1) For the first freestanding sign on a lot, the height and size maximum shall be in accordance with Table 1 and/or Table 2 if applicable. All subsequent freestanding signs on the lot shall not exceed seventy-five (75) percent of the allowable height and size specified in the appropriate table(s).

On lots with frontage on more than one (1) street, the same shall apply for each street.

(2) One (1) freestanding sign shall be permitted for each one hundred fifty (150) feet of street frontage. On lots with frontage on more than one (1) street, the same shall apply for each street. All allowed

freestanding signs shall be in accordance with Table 1 and/or Table 2 as specified in subsection (1) above.

Table 1
Maximum-Allowable Heights and Sizes for Freestanding Signs in Nonresidential Zoning Districts

Street Classification	*Height (Ft.)*	*Size (SF)*
Local	16 ft	75 ft
Arterial Type B/ Commercial Collector	24 ft	150 ft
Arterial Type A	40 ft	240 ft
Expressway	50 ft*	375 ft

* Not to exceed fifty (50) feet in height above the adjacent street grade, measured from the grade level of the centerline of the main-traveled way, not including a frontage road or controlled access highway, closest to the sign at a point perpendicular to the sign location, not to exceed a maximum of sixty (60) feet above ground level.

** Note: Sign height and square footage may vary depending on special districts and overlays.

(d) Height and size limitation. Freestanding multiple tenant signs in nonresidential zoning districts shall be limited in height and size in accordance with Table 2.

Table 2
Maximum Allowable Heights and Sizes for Freestanding Multiple Tenant Signs in Nonresidential Zoning Districts

Street Classification	*Height (Ft.)*	*Size (SF)*
Local	20 ft	125 ft
Arterial Type B/ Commercial Collector	32 ft	250 ft
Arterial Type A	50 ft	500 ft
Expressway	60 ft(2)	650 ft(1)

(1) The maximum size for an individual tenant's portion of a freestanding multiple tenant sign in a nonresidential zoning district may not exceed the maximum size allowed for a freestanding sign in a nonresidential zoning district as specified in Table 1 of this section.

(2) Not to exceed sixty (60) feet in height above the adjacent street grade, measured from the grade level of the centerline of the main-traveled way, not including a frontage road or controlled access highway, closest to the sign at a point perpendicular to the sign location, not to exceed a maximum of seventy (70) feet above ground level.

** Note: Sign height and square footage may vary depending on special districts and overlays.

(e) No single tenant shall exceed three hundred seventy-five (375) square feet of advertising on a multi-tenant sign at any given time. This provision is intended to address hybrid static and changeable copy multi-tenant signs.

(f) The expressway standards set out in Tables 1 and 2, excluding the 10 ft increase for adjacent grade allowance, shall also apply to lots, or any portion of lots, located within five hundred (500) feet of an expressway where said lot or lots do not have frontage on an expressway. If an expressway size sign is erected on a lot which does not have expressway frontage, said sign shall be setback a minimum of one hundred (100) feet from the nearest street easement or right-of-way and a minimum of two hundred (200) feet from the nearest residential zone. Said sign or signs shall be oriented to the expressway.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17; Ord. No. 2023-6-01-0369, § 1(Att. I), 6-1-23)

Sec. 28-46. Provisions applicable to residential zoning districts.

(a) The provisions of this section apply to all signs in any residential zoning district and within a radius of one hundred (100) feet of a residential zoning district or a public park boundary.

(b) The following signs are allowed in residential zones:

(1) One (1) attached, non-illuminated nameplate identifying a business authorized in that zoning district not to exceed one (1) square foot in sign area.

(2) Freestanding signs are allowed in accordance with Table 1 for residential R-2 and 3 occupancy types defined per the currently adopted International Building Code under chapter 10. In addition, one (1) identification sign per entrance is allowed.

(3) For nonresidential uses:

a. On local streets, one (1) freestanding sign and one (1) attached sign, each not to exceed thirty-six (36) square feet in sign area are allowed.

b. With primary frontage on arterials/commercial collectors and expressways, freestanding signs are allowed in accordance with Table 1.

c. Digital signs are permitted under a. and b. above in accordance with this article IV, division 1, In general, sections 28-41 and 28-48.

d. For local streets and residential collectors in residential zones, freestanding signs are limited to a maximum height of eight (8) feet and must be set back a minimum of fifteen (15) feet from any public right-of-way and ten (10) feet from side and rear lot lines abutting residential uses. No portion of an illuminated non-digital sign shall have a luminance greater than two hundred (200) foot candles as measured within six (6) inches of the sign face.

e. No sign or part of any sign regulated under this section 28-44 shall move, flash, rotate, or change its illumination.

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17; Ord. No. 2023-6-01-0369, § 1(Att. I), 6-1-23)

Sec. 28-47. Provisions applicable to nonresidential zoning districts.

(a) The number and size of signs allowed in nonresidential zoning districts are based on Tables 1 and 2 of this article and the street classification as specified in the major thoroughfare plan, article IV of the Unified Development Code and the definitions included in this chapter.

(b) Local streets.

(1) *Freestanding signs.*

a. One (1) freestanding sign per platted lot is permitted; provided, however, on lots with frontage on more than one (1) street, one (1) sign shall be allowed on each street on which the lot has frontage.

b. The sign shall be set back a minimum of five (5) feet from the street right-of-way and ten (10) feet from all interior side lot lines.

c. In addition to other authorized signs, businesses shall be allowed up to eight (8) square feet of sign area. If attached to a freestanding sign, the area of this sign shall be counted toward the allowable area for the freestanding sign.

(2) *Attached signs.* The aggregate area of all attached signs shall not exceed twenty-five (25) percent of a building facade or fifty (50) square feet for each occupancy that has a separate and distinct public entrance, whichever is greater.

(c) Arterials type A and B/Commercial collectors.

(1) *Freestanding signs.*

a. One (1) freestanding sign per platted lot is permitted; provided, however, on lots with frontage on more than one (1) street, one (1) sign shall be allowed on each street on which the lot has frontage. Additional freestanding signs are permitted with a minimum spacing of every one hundred fifty (150) linear feet. Additional freestanding signs shall not exceed seventy-five (75) percent of the allowable height and size set out in Tables 1 and 2 of this article.

b. Signs shall be set back a minimum of ten (10) feet from street rights-of-way if the height of the sign exceeds twenty-five (25) feet. Signs shall be set back a minimum of ten (10) feet from side or rear lot lines if the adjacent property is zoned residential or is used for residential.

(2) *Attached signs.* The aggregate area of all attached signs shall not exceed twenty-five (25) percent of a building facade or

seventy-five (75) square feet for each occupancy that has a separate and distinct public entrance, whichever is greater.

(d) Expressways.

(1) *Freestanding signs.*

a. One (1) freestanding sign per platted lot is permitted; provided, however, on lots with frontage on more than one (1) street, one (1) sign shall be allowed on each street on which the lot has frontage. Additional freestanding signs are permitted with a minimum spacing of every one hundred fifty (150) linear feet. Additional freestanding signs shall not exceed seventy-five (75) percent of the allowable height and size set out in Tables 1 and 2 of this division.

b. Setback requirements follow subsection (c)(1)b. for arterials immediately above.

(2) *Attached signs.* The aggregate area of all attached signs shall not exceed twenty-five (25) percent of a building facade or one hundred (100) square feet for each occupancy that has a separate and distinct public entrance, whichever is greater.

(e) Special regulations for nonresidential zoning districts.

(1) *Menu boards.* Menu boards shall be oriented to internal vehicular traffic and shall not be directed to traffic on adjacent streets.

(2) *Wall signs.* All channel letter signs shall not extend more than eighteen (18) inches from the facade.

(3) *Ground-mounted flag/feather type signs.* In addition to other authorized signs, businesses shall be allowed ground-mounted flag/feather type signs on the non-residential lot provided all the following conditions listed below are met.

a. The ground-mounted flag/feather type sign is securely attached to the ground by an approved mounting system designed for its specific purpose and to ensure the safety of the sign and citizens.

b. No sign shall be so installed/located as to create an obstruction that would interfere with use of any public right-of-way or to create a visual obstruction/traffic hazard to motorists.

c. The sign is installed on non-residentially zoned and/or non-residentially used private property. It may not be located on the public right-of-way.

d. The sign has a maximum area of twenty (20) square feet and maximum height of twelve (12) feet measured from ground to top of the sign.

e. Each ground-mounted flag-feather type flag is spaced/separated from any other ground mounted flag/feather type sign a minimum of fifty (50) feet.

Exception: Up to three (3) ground-mounted feather type flags may be installed in a grouping with less than fifty (50) feet separation, so long as the grouping is separated from another individual and/or grouping of ground-mounted feather type flags.

Commentary: Note ground-mounted flag/feather type devices without lettering or symbols are not considered signs per this section are therefore are not regulated as such. Note that while these devices without letters or symbols are not considered signs they are still not permitted to be installed in the public right-of-way.

(4) *Projecting signs.*

a. *Installation on a pipe.* In instances where a building is set back from

the property line, a projecting sign may be installed on a pipe overhanging the sidewalk provided that:

1. The pipe is set inside the property line unless the line is more than twenty-five (25) feet away from the street curb. In the latter instance, the pipe shall be set at the property side of the sidewalk, or if there is no sidewalk, no closer than ten (10) feet to the curb. If the pipe is set in an area that can be traversed by vehicles, it shall be surrounded by curbing as specified by the director.
2. Projecting signs must comply with the regulation clearances over sidewalks and distances from curb lines.
3. No wooden poles or timbers shall be used. Only sound straight, steel, galvanized, or iron pipes in good condition, free from all major flaws and defects, and painted with weatherproof paint, are authorized.
4. All pipes must be set at least three (3) feet in the ground and embedded in concrete; however, this subsection shall not apply to any existing sign hung under the auspices of a special permit which is still valid issued by the director of housing and inspections before April 11, 1940.
5. The cross arms of angle iron for side guys are to be bolted or welded to the pipes in a secure manner, and side guys are to be of galvanized cable.
6. The pipe must extend far enough above the top of the sign to provide space for a suitable headlift which must be of galvanized cable.
7. All pipes must be of sufficient diameter and strength to properly support the weight of the signs which are to be installed on them. The minimum size of the pipe in relation to the weight shall be as follows:

Weight in Pounds	*Size in Inches*
Up to 175	3
175—250	4
>250—325	5
>325—400	6

8. All pipes used for signs weighing in excess of one hundred (100) pounds must be of the well casing type or the equivalent. Lighter weight pipe may be used for signs weighing one hundred (100) pounds or less and situated entirely within the property lines. In no case may a sign be supported by a pipe less than three (3) inches in diameter.

b. *Installation not on a pipe.* In addition to section 28-41 above, projecting signs shall not be erected so as to overhang any street, alley, or plaza. Such signs may extend into the public right-of-way from the building facade provided the space is not used for, or designed to be used for, vehicular ingress and egress to a building for a maximum distance of eight (8) feet or a distance equal to two-thirds (⅔) the width of the abutting sidewalk, whichever distance is greater. However, the horizontal clearance between any portion of the sign and the curb line shall not be less than two (2) feet. Projecting signs shall not exceed one hundred fifty (150) square feet in sign area and shall be a minimum of eight and one-half (8½) feet above the adjacent sidewalk or grade.

(5) *Awning and canopy signs.* See section 28-41 of this chapter and specifically, Sections 3105 and 3106 of the International Building Code.

(6) *Marquee signs.* See section 28-41 of this chapter and specifically, Appendix H of the International Building Code.

(7) *Incidental signs.* Incidental signs may be erected on any platted lot without limit to number, provided the signs do not exceed thirty-two (32) square feet in area or twelve (12) feet in height. These signs are not required to meet spacing requirements.

(8) *Pole signs.* A pole, post or standard used to support any sign or floodlight shall not be set in or upon any sidewalk, street or other public property. See section 28-41 for general construction requirements.

(9) *Roof signs.* See section 28-41. In addition:

a. Roof signs may be used for on-premises advertising only.

b. Roof signs, except electrical signs, shall not exceed thirty-two (32) feet in total height above that portion of the roof of the building, or structure, over which they are erected. All such signs hall be constructed of durable material and shall be set back a minimum of seven (7) feet from the inside line of the exterior wall of the building, the distance being measured at right angles to the line of the wall. An open space of not less than six (6) feet shall be maintained below the bottom of the sign and the roof, except for necessary vertical supports. Adequate provision shall also be made for grounding metallic parts of all roof signs as a protection against lightning. No roof signs shall be erected so as to extend over a sidewalk, street, or other public property.

c. All existing off-premises signs classified as roof signs and registered with the city by September 22, 1984 are awarded nonconforming status. This nonconforming status is valid so long as the sign is used solely for off-premises advertising. A change from off-premises to on-premises advertising revokes the nonconforming status of the sign immediately.

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-48. Digital displays and projections; on-premises.

Specific requirements. In addition to general digital display requirements in division 1, In general, above, on-premises sign digital displays shall comply with the following:

(1) *Light intensity.* Footcandle readings shall be no more than as stated in the general digital display requirements measured at ground level at the distances shown in Table 3.

Table 3

Sign Size (ft^2)	*Distance From Source*
0 to 100	100 feet
101 to 350	150 feet
351 to 650	200 feet
Over 651	250 feet

(2) *Standards.*

a. Use of digital projection and video is prohibited on displays greater than thirty-two (32) square feet.

b. Use of flashing, strobing or scrolling line-travel text such as, but not limited to, "ticker-tape" is prohibited.

c. Use of sound is prohibited.

(3) *Placement.*

a. No more than one (1) two-sided digital display per each freestanding sign structure is permitted.

b. No more than one (1) two-sided digital display is permitted for each street frontage for an individual premise.

c. Minimum spacing between electronic message centers is two hundred (200) feet.

(4) *Sign dimensions.*

a. Digital displays shall be permitted at heights and areas in accordance with Table 2.

b. In no case shall any digital display exceed three hundred seventy-five (375) square feet nor exceed sixty (60) feet in overall height.

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17; Ord. No. 2023-6-01-0369, § 1(Att. I), 6-1-23)

Editor's note—Ord. No. 2023-6-01-0369, § 1(Att. I), 6-1-2023, amended § 28-48, and in so doing changed the title of said section from digital displays; on-premises to read as set out herein.

Sec. 28-49. Sign master plan development agreement.

(a) *Purpose.* Designation of an area for a sign master plan will allow flexibility in signage location in exchange for a minimum twenty-five (25) percent cumulative reduction in both total sign area and sign height within the master plan area. Note that this is in addition to the twenty-five (25) percent mandatory reduction for secondary signage.

(b) *Requirements.* Commercial property owners who want more flexibility in locating on-premises signs can do so by entering into a sign master plan development agreement. To qualify for a sign master plan an area must:

(1) Include two (2) or more contiguous lots, which may be separated by a street or drainage rights-of-way, that are not included in any other sign master plan development agreement.

(2) The owners of all lots within the sign master plan development agreement must agree in writing that neither they nor their successors in ownership shall exceed the maximum height, square footage and number set out in this article on any of the lots within the plan.

(3) All existing signs within the sign master plan development agreement must be in conformance with this article.

Once approved, the applicant's sign master plan area will be defined as a single premises for the purpose of determining whether a sign is an on-premises sign. A sign which advertises a use on a lot within the plan area which is not a use which occurs on that lot shall be termed a sign master plan (SMP) sign. The use advertised on an SMP sign shall be termed an SMP use.

The square footage and height of an SMP sign shall be subtracted from the square footage and height of the allowable on-premises signs on the lot where the SMP use occurs. In no case shall the square footage, height and number of signs on any lot in a plan area exceed the maximum amounts allowed in this article.

(c) *Submittal requirements.*

(1) A sign master plan must be submitted to the director for consideration.

(2) All land owners included in the sign master plan must submit:

a. A letter signed by all the property owners in the plan area agreeing to the terms of the plan and that they and their successors will abide by the plan.

b. A site plan showing the sign master plan area boundaries.

c. A site plan showing the location of all signage.

d. A table showing the square footage and heights of all signs throughout the plan by lot.

(3) The director may approve the sign master plan (SMP), approve the SMP with conditions, or deny the SMP. Once approved, the applicant must record the SMP in the official deed records for Bexar County, Texas. The department shall not issue permits unless and until the applicant provides proof of recordation.

(4) Appeals shall be considered in accordance with appellate provisions of this chapter.

Commentary: This subsection shall not be interpreted to exclude an owner of separate parcels from entering into a sign master plan agreement.

(d) *Changes to sign master plan development agreement.* If changes or amendments to a sign master plan are being requested by a property owner whose property is subject to the respective sign master plan, then all property owners within that sign master plan shall have six (6) months to respond to the suggested changes or amendments made by the proposing property owner. A failure of the property owner(s) or their representatives to respond to no less than three (3) Building Official approved and documented attempts to inform the property owners of the proposed changes and allow feedback on the proposed change(s), shall result in a finding of no objection the proposed changes to the plan. However, the sign master plan changes cannot negatively impact the party(s) that fail to respond to the proposed changes. Section (d) only applies to Sign Master Plans created after the effective date of this section of the sign ordinance, and reference to this section of the sign ordinance shall be included in future sign master plans for notice purposes.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17; Ord. No. 2023-6-01-0369, § 1(Att. I), 6-1-23)

Sec. 28-50. Nonconforming sign abatement.

(a) *Continuance.* Any nonconforming sign may be continued in operation and maintained after the effective date of this chapter; provided, however, that no such sign shall be changed in any manner that increases its noncompliance with the provisions of this chapter; and, provided further, that the burden of establishing such a sign to be nonconforming under this section rests entirely upon the person claiming nonconforming status.

(b) *Freestanding signs and multi-tenant signs.* Freestanding pole signs and freestanding, multi-tenant pole signs that are nonconforming due to square footage, height, or spacing requirements may be refaced and/or have general maintenance performed. In general, whenever the sign cabinet is removed and lowered to the ground to facilitate the general maintenance and/or refacing due to property or personnel safety consideration considerations, it shall, at that time, lose its nonconforming status unless a permit is issued prior to doing so. The contractor shall submit a written request, prior to removal of the sign cabinet, outlining the proposed work to be performed, dates for accomplishment of same and property or personnel safety considerations involved. If approved, the contractor shall be issued a basic sign inspection permit and shall request an inspection on said permitted sign when the sign cabinet is first taken down and again just prior to re-installation. When the sign cabinet is first lowered to the ground, the license holder of record for the company shall supply an independent third party evaluation in writing by a Texas licensed structural engineer as to the structural integrity of the sign cabinet and its structural supports. If it is determined that the sign cabinet or structural supports are not structurally sound, the sign shall, at that time, lose its nonconforming status as outlined below. A nonconforming sign will lose its status as nonconforming upon a failure to gain approval and have the sign inspection permit issued prior to the sign cabinet being taken down.

Commentary: It is the intent of this section for nonconforming signs to continue in existence for the usable life span of the sign and not have years of noncompliance increased through reconstruction. Maintenance pertaining to a nonconforming sign ("nonconforming maintenance") by definition is distinguished from maintenance and shall be used for all off-premises signs classified as nonconforming.

(c) *Registered trademarks.* Notwithstanding any other provision of this chapter, a nonconforming registered "trademark sign" may be refaced and modified so as to prevent misidentification with the registered trademark. The original height or width of the "trademark sign" shall not be increased when the sign is modified.

(d) *Termination of nonconforming rights.*

(1) *By abandonment.* Abandonment of a nonconforming sign shall terminate the

right to maintain such sign in accordance with the abandoned sign procedure of this chapter.

(2) *By violation of sign provisions.* Any violation of these provisions shall terminate immediately the right to maintain a nonconforming sign.

(3) *By damage or deterioration.* The right to maintain any nonconforming sign shall terminate and shall cease to exist whenever the sign assembly is damaged or deteriorated as described in section 28-9 above.

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Subdivision B. Off-Premises Signs

Sec. 28-51. In general.

New off-premises signs are prohibited in the city and no new construction permits shall be issued unless for a relocation of a legally erected, existing, off-premises sign as authorized under this chapter 28.

Comment: See subsection 28-31(d) for relocation of existing off-premises signs.

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-52. Sign specifications and maintenance.

Authorized off-premises signs shall comply with the following specifications:

(1) *Height.* All off-premises signs erected after July 3, 2017 shall not exceed forty-two and one-half (42½) feet in height above the adjacent street grade, measured from the grade level of the centerline of the main-traveled way, not including a frontage road or controlled access highway, closest to the sign at a point perpendicular to the sign location; not to exceed a maximum of sixty (60) feet above ground level.

(2) *Spacing.* Any sign relocation must meet the following spacing requirements:

a. On interstates, freeways or expressway systems, off-premises signs up to six hundred seventy-two (672) square feet shall not be closer than one thousand five hundred (1,500) feet along one (1) side of the roadway.

b. On primary and secondary arterial streets, off-premises signs up to three hundred ninety-nine (399) square feet shall not be closer to any other off-premises sign than seven hundred fifty (750) feet along one (1) side of the roadway; on secondary arterial streets, off-premises signs ninety-nine (99) square feet and less shall not be erected closer than five hundred (500) feet along one (1) side of the roadway.

c. On collector and local access streets, off-premises signs ninety-nine (99) square feet and less shall not be erected closer than five hundred (500) feet along one side of the roadway.

(3) *Setback.*

a. *Generally.* An off-premises sign may be installed on a side or rear property line provided the lot is zoned to permit zero (0) setbacks, and the adjoining zoning classifications are not residential. No part of the sign, its support structure, light fixtures, or catwalks may overhang the property line. An off-premises sign erected adjacent to residentially zoned property shall observe the side and rear yard setbacks required by the zoning ordinance. In such instances light fixtures and catwalks may overhang the setback lines no more than six (6) feet. However, no part of the sign face or its support structure shall overhang the setback lines.

b. *Large off-premises signs.* Off-premises signs greater than seventy-five (75) square feet must comply with all property setback lines established in chapter 35 for the

applicable zoning category and set back a minimum of thirty (30) feet from adjacent residential zones. All off-premises signs greater than seventy-five (75) square feet must be setback from the following facilities, districts, and parks as specified below:

1. *Large urban parks.* A 1,000-foot radius from the park boundaries.
2. *Publicly owned and operated sports complexes.* A 500-foot radius from the complex boundaries.
3. *Community parks.* A 300-foot radius from the park boundaries.
4. *Neighborhood parks.* A 200-foot radius from the park boundaries.
5. *Cultural facilities.* A 500-foot radius from the facility boundary.
6. *Historic buildings and structures.* A 200-foot radius from the building or structure.
7. *Historic districts.* A 500-foot radius from the district boundary.
8. *Universities and colleges.* Off-premises signs in excess of seventy-five (75) square feet shall not be permitted on the opposite side of a public street bordering a university or college.

c. *Small off-premises signs.* Off-premises signs which measure seventy-five (75) square feet or less of sign face shall adhere to property lines, but are not required to conform to the other setback limits established in this chapter.

d. *Distance from overpass, etc., railings.* All off-premises signs shall be set back a distance of at least fifteen (15) feet from the railing of an overpass or bridge on any road, street, highway, or expressway.

e. *Commentary.* All park definitions are taken from the San Antonio Parks Plan, 1981 edition. A publicly owned sports complex is meant to be a facility such as the Alvo Jo Fischer or Kennedy Softball Complexes. The radius setback requirements do not apply to private parks, country clubs, etc., which are not open to the general public. Any legally erected off-premises sign which no longer conforms to the provisions of this chapter due to the creation of a new park, historic district, etc., shall be officially recognized as nonconforming by the director according to the requirements established in section 28-55. Off-premises signs are no longer permitted within historic districts. Existing off-premises signs in historic districts are awarded nonconforming status in accordance with the provisions of section 28-55.

(4) *Area.*

a. The maximum size of the sign face, as viewed from one (1) direction, for any off-premises sign is:

1. Six hundred seventy-two (672) square feet along freeways, expressways and interstate highways.
2. Three hundred ninety-nine (399) square feet along arterials.
3. Ninety-nine (99) square feet along collectors and local access streets.

b. The square footage requirements specified in paragraphs (1)a. through c. pertain to the sign face per se. Embellishments and cutouts, may be utilized on off-premises signs as long as these extensions do not

measure more than twenty (20) percent of the allowable square footage for the sign face.

(5) *Inspection.* All legally erected and registered off-premises signs, including relocations, must be inspected upon construction and thereafter annually. This inspection includes maintenance and structural deficiency evaluation and may require, if necessary, further inspection by a licensed engineer and remediation. The operator or owner must pay an annual inspection fee as provided in the fee schedule for each registered sign. The annual inspection fee is payable within thirty (30) days after the beginning of each fiscal year. Failure to pay the annual inspection fee or within this time period is a violation of this chapter and punishable as prescribed.

(6) *Construction requirements.*

a. The following are considered to be routine maintenance activities that do not require an amended permit:
   1. The replacement of nuts and bolts;
   2. Nailing, riveting, or welding;
   3. Cleaning and painting;
   4. Manipulation of the sign structure to level or plumb it;
   5. Changing of the advertising message;
   6. The replacement of minor parts if the materials of the minor parts are the same type as those being replaced and the basic design or structure of the sign is not altered;
   7. Changing all or part of the sign structure but only if materials similar to those of the sign structure being replaced are used; and
   8. Upgrading existing lighting for an energy efficient lighting system.

b. The following are considered to be customary maintenance activities that may be made but require an amended permit before the initiation of such an activity:
   1. Replacement of poles, but only if not more than one-half of the total number of poles of the sign structure are replaced in any 12-month period and the same material is used for the replacement poles; and
   2. Adding a catwalk to the sign structure.

c. The following are examples of substantial changes that may be made but require an amended permit before the initiation of such an activity:
   1. Adding lights to an un-illuminated sign
   2. Changing the number of poles in the sign structure;
   3. Adding permanent bracing wires, guy wires, or other reinforcing devices;
   4. Changing the material used in the construction of the sign structure, such as replacing wooden material with metal material;
   5. Adding faces to a sign or changing the sign configuration;
   6. Increasing the height of the sign;
   7. Changing the configuration of the sign structure, such as changing a "V" sign to a stacked or back to back sign, or a single face sign to a back-to back sign; and
   8. Moving the sign structure or sign face.

d. To add a catwalk to a sign structure the catwalk must meet Occupational Safety and Health Administration guidelines.

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17; Ord. No. 2023-6-01-0369, § 1(Att. I), 6-1-23)

Sec. 28-53. Display prohibitions.

(a) *In general.* Off-premises signs which 1) utilize intermittent or flashing illumination devices; 2) change light intensity, brightness or color; 3) are constructed and operated so as to create an appearance or illusion of motion; or 4) utilize sound, are strictly prohibited.

(b) *Exception.* Light intensity, brightness or color regulations specific to off premises digital signs are addressed in section 28-54 immediately below.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-54. Digital displays; off-premise.

(a) New, off-premise digital signs are prohibited within the jurisdiction of the city, provided however, that the director was previously authorized to issue fifteen (15) off-premise digital sign permits pursuant to Ordinance No. 2007-12-06-1247. The director may be authorized to issue additional off-premise digital sign permits pursuant to any future pilot program ordinance adopted by city council. Existing off-premise digital signs are subject to this section and all other relevant provisions of this chapter, the City Code, and state and federal law.

Commentary: Under the one (1) year pilot program, thirteen (13) off-premises digital signs were permitted. No new off-premise digital signs are permitted in the city or the ETJ, with the exception of one additional digital sign permit authorized by city council ordinance, and the ten (10) permits authorized by city council through the Digital Media and Arts pilot program. The thirteen (13) existing off-premises digital displays that were approved, and any additional approved off-premises digital displays, are required to be maintained in accordance with the requirements listed here in this section.

(b) Off-premises sign operators testing or maintaining existing off-premise digital signs shall comply with the following requirements:

(1) The dwell time, defined as the interval of change between each individual message, shall be at least ten (10) seconds, and a change of message must be accomplished within one (1) second or less. The dwell time shall not include the one (1) second or less required to change a message.

(2) The off-premises digital sign shall contain a default mechanism that will freeze the sign in one (1) position if a malfunction occurs.

(3) The off-premises digital sign may not display light of such intensity or brilliance to cause glare or otherwise impair the vision of the driver, or results in a nuisance to the driver.

a. Off-premises digital sign light intensity exceeding 0.3 footcandles or the following intensity levels (nits) constitutes "excessive intensity or brilliance":

Intensity Levels (NITS)		
Color	*Daytime*	*Nighttime*
Red Only	3,150	1,125
Green Only	6,300	2,250
Amber Only	4,690	1,675
Full Color	7,000	2,500

b. Prior to the issuance of a sign permit, the applicant shall provide written certification from the sign manufacturer that the light intensity has been factory pre-set not to exceed seven thousand (7,000) NITS and that the intensity level is protected from end-user manipulation by password-protected software or other method as deemed appropriate by the director.

(4) The off-premises digital sign shall not be configured to resemble a warning or danger signal or to cause a driver to mistake the digital sign for a warning or danger signal.

(5) An off-premises digital sign is subject to all existing restrictions on light intensity or brilliance contained in chapter 35 of the Unified Development Code, including but not limited to subsection 35-612(p)(6).

(6) An off-premises digital sign must not resemble or simulate any lights or official signage used to control traffic in

accordance with the 2003 Manual on Uniform Traffic Control Devices, with Revision No. 1 published by the Federal Highway Administration (FHWA).

(7) An off-premises digital sign must be equipped with both a dimmer control and a photocell, which automatically adjusts the display's intensity according to natural ambient light conditions.

(8) Except for a sign that qualifies as nonconforming under section 28-55, an off-premises digital sign must comply with sign face size restrictions set forth in section 28-52. A nonconforming sign may not be enlarged beyond its present size without forfeiting its nonconforming status.

(9) An off-premises digital sign may not be within two thousand (2,000) feet of another off-premise digital sign facing the same traveled way. In no case shall an off-premise digital sign be in a line of sight with another off-premise digital sign. Spacing requirements for off-premise digital signs in relation to other classifications of signs shall comply with section 28-52.

(c) The city, through appropriate personnel, may exercise its police powers to protect public health, safety, and welfare by requiring emergency information to be displayed via digital signs. Upon notification, the off-premises sign operators shall display in appropriate sign rotations: Amber Alert emergency information or emergency information regarding terrorist attacks, or natural disasters. Emergency information messages are to remain in rotation according to the designated issuing agencies protocols.

(d) Notwithstanding subsection (a) above, the owner of an existing legally permitted off-premises digital sign erected under the 2007 one-year pilot program may place a second digital display of nor more than six hundred seventy-two (672) square feet on the backside of the existing digital sign provided that the following conditions are met:

(1) For each additional digital display, the owner shall completely remove four (4) square feet of sign face off an existing off-premises sign for one (1) square foot of digital display.

a. The sign faces must be removed prior to receiving a permit for each digital display.

b. If a face is removed from a structure, the entire sign assembly must be removed.

c. No credit will be given for the area of the sign face removed to convert to a digital display.

d. For each additional digital display, at least one (1) sign assembly must contain a minimum of one (1) face of approximately six hundred seventy-two (672) square feet and be removed from designated protected corridors and overlays.

(2) An off-premises digital sign owner, with approval by the city, may make alterations to the digital signs as necessary to deploy the additional digital displays.

(3) An off-premises digital sign owner must apply for all necessary permits within six (6) months of the approval of this article.

(4) An owner who deploys a digital display under this subsection must, in addition to the above, remove any permitted sign assembly from within the city containing a sign face smaller than one hundred (100) square feet. Removal of the signs must be completed within eighteen (18) months of the approval of the ordinance, with at least one-third (⅓) of the operator's inventory removed within twelve (12) months of the approval of the ordinance. Upon good cause shown, the director may grant an extension for the removals of no more than ninety (90) days.

(e) The owner of a sign qualifying for a second digital display under subsection (d) above that did not deploy the display during the allotted time may place a second display so long as all permits have been applied for within nine (9) months of the approval of this article. Such

placement may only occur if all other applicable requirements of subsection (d) have been satisfied.

(f) Notwithstanding subsection (a) above, as of the latest date of this ordinance, for a three (3) year period, the owner of an existing legally permitted off-premises sign structure may place up to two digital displays of no more than six hundred seventy-two (672) square feet each on the structure, provided that the following conditions are met:

(1) The sign structure is not located within the following areas:

a. Downtown area within the following boundaries:

1. Both sides of I.H. 10, an expressway, between South Alamo Street to I.H. 35 for a distance of five hundred (500) feet from the street right-of-way.

2. Both sides of I.H. 35, an expressway, between I.H. 10 to I.H. 37 for a distance of five hundred (500) feet from the street right-of-way.

3. Both sides of I.H. 37, an expressway, between I.H. 35 to Carolina Street for a distance of five hundred (500) feet from the street right-of-way.

4. Both sides of I.H. 10,/Highway 90, an expressway, in the Mission Reach Overlay District for a distance of five hundred (500) feet from the street right-of-way.

b. Any street categorized as an Arterial Street or smaller, excluding locations where the structure is located on an arterial or smaller street but oriented toward the expressway and the structure is within one-hundred (100) feet from the expressway right-of-way.

c. A historic overlay district.

d. Both sides of I.H. 37, an expressway, between the south most intersection of I.H. 37 and Jones Maltsberger Road and I.H. 35 for a distance of five hundred (500) feet from the street right-of-way.

e. Within five hundred (500) feet of a structure located on a property zoned HL, HE, or HS.

f. Within two thousand (2000) feet of another digital off-premises sign.

g. Within two thousand (2000) feet of the city limits for City of San Antonio.

h. Within one thousand five hundred (1,500) feet of another existing legally permitted off-premises sign structure.

i. Within ten (10) feet of the adjacent expressway.

j. Within the Hill Country Gateway Corridor, GC-1, as defined per the 2003 Ordinance 97656.

(2) The new digital display shall comply with the following:

a. Digital Sign lighting requirements per the MLOD Standards per the Uniform Development Code Section 35-339.04.

b. The orientation to the highway of the existing sign structure shall not be modified.

c. The height of the existing sign structure shall not be increased. And the structure was not changed in height under a height adjustment permit within the past three (3) years.

d. A minimum of forty (40) hours of public service announcement time shall be provided to the City of San Antonio each year, initially starting at the activation of the sign and renewing at the start of each calendar year.

(3) Takedown credits, utilization and requirements.

a. Takedown credits will be accrued through the removal of existing permitted billboards within the City of San Antonio at a per square footage of sign face removed at a one (1) for one (1) ratio. Billboards removed in the areas defined under section 28-54(f)(1) will receive Takedown Credits at a per square footage of sign face removed at a one and a half (1.5) for one (1) ratio.

b. Relocation credits per Sections 28-56 and 28-57 can be converted to Takedown Credits at a ratio of one (1) square footage of sign face relocation credit to a half (0.5) square footage of takedown credit. A maximum of fifty percent (50%) of required takedown credits needed for the conversion of a digital face can be converted from relocation credits.

c. For each new digital display, the billboard owner shall need four (4) square feet of takedown credits for one (1) square foot of digital display.

d. The sign faces must be removed prior to receiving takedown credits and a permit for each digital display.

e. If a face is removed from a structure, the entire sign assembly must be removed.

f. No credit will be given for the area of the sign face removed to convert to a digital display.

g. Credits for a takedown to be utilized for digital conversion shall not be transferred from one licensed billboard operator to another.

(4) A maximum of eight (8) digital conversion permits will be issued per calendar year starting on January 1, 2024 and will conclude on December 31, 2026. Conversion permits are only good for the year issued and cannot be transferred to another calendar year. One (1) permit will be issued for each billboard structure to be converted to digital. The billboard owner will have the option to convert one (1) or both faces of an existing dual face billboard. If the owner only converts one (1) face of a dual face structure, then a new permit will be required to convert the second face in any future year. No new faces can be added to existing billboards under the digital conversion and no more than two (2) digital faces can be added to an existing structure.

a. Licensed billboard operators with four-hundred (400) or more permitted billboards shall be allocated four (4) conversion permits per year.

b. Licensed billboard operators with twenty (20) to three-hundred ninety-nine (399) permitted billboards shall be allocated one (1) conversion permit per year.

c. Licensed billboard operators with less than twenty (20) permitted billboards shall be allocated the remaining allowable conversions using the following process:

1. A company wishing to participate in the digital conversion process during each calendar year must submit a completed application detailing the location to be converted, the number of faces to be converted, and billboards that will be removed to accrue the required takedown credits.

2. Development services department will conduct a drawing in the presence of participants.

3. The company selected by the drawing must submit a final application within sixty (60) days of the selection drawing date.

4. All demolition requirements need to be completed in six (6) months after the application

has been issued and approved. The director is authorized to extend this time an additional ninety (90) days for good cause shown supported by written documentation stating the reasons why six (6) months was insufficient to complete the required demolitions.

5. If the company drawn to perform the conversion fails to meet the deadline, the next company in line will be awarded the right to perform a digital conversion.

6. Approval to receive a digital conversion permit cannot be transferred or sold.

(g) Notwithstanding any prior permit limitations, the director may issue up to ten (10) off-premise digital display permits associated with the Digital Media and Arts (DMA) two-year pilot program.

(1) The DMA permits shall be authorized for use only in the eight (8) districts established by, and more particularly described in, the DMA pilot program ordinance, being:

- UTSA District
- Downtown West District
- Downtown East District
- Downtown South District
- Alamodome East District
- Port San Antonio District
- Brooks City Base District
- Toyota Field District

(2) No more than three (3) permits may be authorized for use in any one (1) district.

(3) Two (2) of the DMA permits shall be reserved for use on city facilities and shall be subject to the city's procurement process and procedures.

(4) DMA permittees shall be subject to the DMA pilot program policy and guidelines, including any revenue sharing and cost-bearing conditions.

(5) DMA participation revenue detail:

i. Revenue Share - Ten (10) percent during the two-year pilot program and thereafter.

ii. Revenue shall go to the City of San Antonio Arts and Culture Department.

iii. Display time share for city use - Twenty (20) percent of display time guaranteed, plus an additional five (5) percent remnant time, if available.

iv. Pilot Art Contribution - One hundred thousand dollars ($100,000.00) per permit.

(6) At the end of the two-year pilot program, said program will be evaluated by city for potential program time extension. City council shall have sole discretion to authorize any additional program time beyond the initial two-year pilot program.

(7) A limited number of digital displays on existing buildings that allow off-premise advertising will be allowed with the city receiving a percentage of revenue share and time share on the display.

(8) Size limitations - Maximum display size shall be limited to twenty-five (25) percent of the side of a building on which a display is located. On regulated streets, the display must meet all Texas Department of Transportation regulations which may require smaller digital display size.

(9) To the best of permittee's ability, each display will strive for carbon neutrality.

(10) Lighting intensity levels shall comply with the provisions of this chapter.

(11) No display shall be located on the San Antonio Riverwalk.

(12) No display shall be located on any historic designated structures.

(13) Any display to be located in the RIO District shall require HDRC and OHP approval.

(14) The content of any display shall conform to existing laws and city policy. Permittee voluntarily agrees to not display prohibited content including, but not limited to:

i. Explicit images.

ii. Advertising for smoking or vaping products, vendors or facilities.

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17; Ord. No. 2019-09-12-0718, § 1, 9-12-19; Ord. No. 2019-11-07-0910, § 4, 11-7-19; Ord. No. 2023-6-01-0369, § 1(Att. I), 6-1-23; Ord. No. 2025-06-12-0465, § 4, 6-12-25)

Sec. 28-55. Legally erected nonconforming rights.

(a) Generally. Any legally erected off-premises sign which, by reason of revisions to this chapter, no longer complies with its provisions, is awarded

nonconforming status by the director if the operator registers the off-premises sign with the director within one hundred eighty (180) days of the effective date of passage of the chapter revisions. After that time, the director may order any unregistered nonconforming off-premises sign removed at the operator's expense.

(b) Damaged or deteriorated structures. The right to maintain any nonconforming off-premises sign terminates and is subject to removal at owner's expense whenever it is damaged or deteriorated beyond fifty (50) percent of its replacement value.

(c) Nonconforming rights awarded under subsection (a) run with the site for sixty (60) days following the removal of the nonconforming off-premises sign, provided such land owner within twenty-four (24) hours after removal of the nonconforming off-premises sign files with the department a written notice of intent to replace the nonconforming off-premises sign with an off-premises sign relocated from another site.

During that 60-day period, an off-premises sign may be erected at the identical location of the nonconforming off-premises sign, provided that the new sign shall be erected to conform to all relocation, construction, height and spacing requirements of this chapter. The new sign shall have the same size sign face as the previous off-premises sign but shall not exceed the limits of subsection 28-52(4). If the existing sign exceeds the standards set out in this chapter, the new sign must conform to the provisions of subsection 28-52(4). Provided further, that during the same 60-day period, no off-premises sign may be erected within the applicable spacing regulations except at the identical location of the removed nonconforming off-premises sign.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-56. Governmental action.

(a) General rule. Notwithstanding subsection 28-31, a legally erected off-premises sign may be relocated on the same premises due to governmental action or eminent domain proceedings on a one-for-one basis.

If the sign owner can demonstrate that the original location is not physically or economically feasible for the sign structure to be relocated, the sign owner may relocate the sign to any other location within the city with the exception of a historic district, scenic corridor overlay district, or an urban corridor district on a one-for-one basis.

(1) *Physically feasible* means that the remaining site is configured in such a way that the structure cannot be moved to a location that provides adequate visibility or the structure interferes with the landowner's use of the site.

(2) *Economically feasible* means that the structure owner and the landowner are unable to agree to contractual terms for the use of the sign.

(b) Specific rules. A legally erected off-premise sign located in a historic district or scenic corridor overlay district removed as a result of governmental action or eminent domain proceeding may not be relocated to the same premises or any other historic district or scenic corridor overlay district, but may be relocated to any other premises within the city, including urban corridor districts, on a one-for-one basis.

A legally erected off-premises sign located in an urban corridor district required to be removed by governmental action or eminent domain proceeding may not be relocated to any historic district, scenic corridor overlay district or a different urban corridor district, but may be relocated within the same urban corridor district or in any other premises not specifically prohibited within the city on a one-for-one basis.

(c) Under subsection (a) and (b), if the off premises sign is nonconforming under the zoning ordinance, it will continue to retain nonconforming status in accordance with the following stipulations:

(1) A demolition permit shall be obtained by a licensed off-premises sign operator prior to removal of the off-premises sign. An off-premises sign removed pursuant to this section shall neither be credited to the two-for-one requirement for reloca-

tion permits provided in section 28-31 nor impact the monthly limitation on square feet for advertisement display area per off-premises sign company under section 28-31.

(2) An off-premises sign relocated pursuant to this section must comply with all construction, height, setback and other regulations set forth in this chapter unless specifically indicated otherwise in this section.

(3) An off-premises sign relocated pursuant to this section must be relocated to the same premises as perpendicular to the right-of-way as practicable, such site to be approved by the director or his designated representative prior to removal of the off-premises sign.

(4) The size of the sign face of an off-premises sign relocated pursuant to this section shall not exceed the size of the sign face of the removed off-premises sign.

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-57. Relocation and replacement of existing off-premises signs.

(a) The owner of a premises where an existing off-premises sign has been previously erected in accordance with prior rules and regulations is authorized to erect an on-premises sign in accordance with the current provisions of this chapter.

(b) Once an on-premises sign permit has been issued as authorized under this chapter, the owner of the existing off-premises sign is entitled to a permit under this section for the one time only relocation of an off-premises sign with the same face area, notwithstanding the provisions of section 28-31 and section 28-58 of this chapter, provided the relocation is not less than six hundred (600) feet nor more than seven hundred (700) feet from the location of the original off-premises sign; and provided that the owner's premises:

(1) Are in use as a tax exempt entity under the provisions of Section 501(c)(3) of the Internal Revenue Code;

(2) Have a primary facility or structure which is outside of the boundary of the scenic corridor; and

(3) Further provided, that the new location of the off-premises sign meets the spacing and all set back requirements except that the city may not require a greater front yard set back than the present front yard setback of the off-premises sign to be removed, of this chapter 28 of the City Code in effect at the time of the move.

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-58. Scenic corridors and historic districts.

(a) *Scenic corridors.* Off-premises signs are prohibited along the following freeways, expressways, state highways, or arterials, designated as scenic corridors. An off-premises sign is "along" said freeways, expressways, state highways or arterials if it is erected within six hundred sixty (660) feet of the public right-of-way.

(1) Any expressway or freeway constructed after April 13, 1986.

(2) McAllister Freeway/IH-37 between its intersections with Sunset Road and IH-10/US Highway 90.

(3) Charles Anderson Loop/FM 1604 as defined in the city's major thoroughfare plan as well as any future extensions of FM 1604.

(4) State Highway 151 and any extension of same.

(5) Wurzbach Parkway between its intersections with IH-35 and Lockhill-Selma Road.

(6) IH-10 between its intersections with Hildebrand Avenue and IH-37.

(7) IH-35 between its intersections with IH-37 and IH-10.

(8) IH Loop 410 S between its intersections with New Sulphur Springs Road (FM 3432) and Pearsall Road.

(9) IH-35 between its intersections with IH Loop 410 S and Charles Anderson Loop/FM 1604.

(10) IH-37 between its intersections with IH Loop 410 S and Charles Anderson Loop/FM 1604.

(11) State highways, and arterials as defined by the city's major thoroughfare plan that are located or come into existence after April 17, 2003, within the area bounded by IH Loop 410S, IH-35, Charles Anderson Loop/FM 1604, and IH-37, including:

a. Somerset Road/FM 2790.
b. Senior Road.
c. Noyes Road.
d. State Highway 16 South.
e. South Zarzamora Street.
f. Applewhite Road.
g. Neal Road.
h. Pleasanton Road.
i. Watson Road.
j. Fischer Road.
k. Martinez Losoya/FM 2537.
l. US Highway 281 S.
m. FM 3499.
n. Roosevelt Avenue/FM 1937.
o. Brauning Road.
p. Blue Wing Road.
q. Southton Road.
r. S. Presa/U.S. 181 S.

(b) *Historic districts.* Off-premises signs are prohibited in historic districts.

(c) *Commentary.* The McAllister Freeway between Sunset Road and Josephine Street provides San Antonians with a particularly unique view of their city. Because most of the land abutting the freeway is publicly owned, off-premises signs have not become commonplace along it. Prohibiting off-premises signs along the McAllister Freeway is intended to enhance an especially striking view of the downtown, Trinity University, the large trees in Olmos and Brackenridge Parks, and the Incarnate Word Property. Designating Loop 1604, State Highway 151 and all future freeways as scenic corridors will serve to preserve natural surroundings, thereby enhancing the aesthetic environment, reducing visual blight and distraction and further promoting traffic safety.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Subdivision C. Government Signs

Sec. 28-59. General.

Except as specifically provided for in this chapter or other law, governmental signs are exempt from permitting requirements.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Subdivision D. Urban Corridors

Sec. 28-60. Purpose.

(a) Within the city's jurisdiction there are many roadway corridors which have been and/or will continue to be very significant to the city. Some of these corridors are important because they have shaped the sense of what individual neighborhoods of the city are in their role as historic entrances to the city. Other corridors are significant because they serve as new gateways to the city or because of surrounding natural, historic, cultural, and aesthetic areas. These corridors are amenities and assets of great value to the city, its inhabitants and its economy. The city council aims to preserve, enhance, and perpetuate the value of these roadway corridors and hereby authorizes the establishment of urban corridors.

(b) Corridor purposes.

(1) To create a more attractive, cohesive, and safe corridor environment.

(2) To safeguard San Antonio's heritage by preventing the despoliation of areas that reflect important elements of the city's cultural, natural, historic, and economic fabric.

(3) To create favorable impressions of San Antonio that provides environmental enrichment for the citizens of the city and visitors thereto.

(4) To enhance San Antonio's image as a progressive, scenic, and livable city.

(5) To preserve, protect, and enhance areas of high tourist and visitor visibility.

(6) To enhance the appearance and economic viability of urban corridors within neighborhoods.

(7) To provide corridor motorists and pedestrians with rewarding viewing opportunities.

(8) To reduce visual chaos and limit distractions along public roadways.

(9) To stabilize and strengthen property values within the corridors.

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-61. Designation criteria.

To be designated as an urban corridor, an area must meet one (1) or more of the following criteria:

(1) Recognized primary entryway to the city.

(2) The corridor abuts, traverses, or links designated historic landmarks and/or districts.

(3) The corridor traverses areas where natural vegetation representative of the native landscape is present along at least fifty (50) percent of the street frontage.

(4) There is substantial public and/or private commitment of resources for redevelopment or revitalization of at least fifty (50) percent of the corridor's buildings or infrastructure.

(5) The corridor has historically served as a regional or neighborhood commercial center for at least fifty (50) years.

(6) The corridor provides primary access to one (1) or more major tourist attractions.

(7) The corridor abuts, traverses, or links the San Antonio River or its major tributaries, area lakes, or major parks.

(8) The corridor traverses residential areas where housing is present along at least fifty (50) percent of the street frontage.

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-62. Designation process.

(a) This division and section authorizes the establishment of urban corridors within the city's extraterritorial jurisdiction to regulate sign standards. Ordinances designating each urban corridor shall identify the designated street corridor(s) and specify the sign standards for that corridor.

(b) Designation of specific urban corridors shall be initiated at the direction of the city council or by a memorandum signed by a majority of council members.

(c) The planning commission is hereby designated in accordance with Section 118, Paragraph 3, of the City Charter to hold public hearings on all proposed urban corridor sign standards and submit a recommendation to the city council. The city council shall also hold a public hearing prior to considering urban corridor sign standards. The director of the development services department shall provide notice of each public hearing to the owners of real property inside and within two hundred (200) feet of the proposed urban corridor. Such notice shall be served by depositing the notice, properly addressed and postage paid, in a city post office not less than ten (10) days prior to the scheduled date of the public hearings to all owners who have rendered their property for taxes on the last approved tax roll.

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-63. Boundaries.

To be designated as an urban corridor, a street must be a collector, arterial, or expressway. An urban corridor shall be designated on both sides of a street except when one (1) side is not located within the city's extraterritorial jurisdiction.

(1) The maximum width of an urban corridor along either side of the street right-of-way shall not exceed the distance indicated in the table below:

Collector street	100 feet
Arterial street	200 feet
Expressway	500 feet

(2) The minimum length of urban corridor districts shall generally comply with the following distances:

Collector street	1,320 feet
Arterial street	2,640 feet
Expressway	5,280 feet

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-64. Sign standards.

(a) *General.* Ordinances establishing specific urban corridors may include requirements for on- and off-premises signs subject to the guidelines included herein. Specific corridor ordinances may include more or less restrictive standards for off-premises signs. In event of a conflict between a specific corridor ordinance and other provisions of this chapter, the most restrictive shall apply.

(b) *Prohibited signs.* The following signs are prohibited in urban corridors unless expressly authorized by the city council to create a unifying theme in a specific urban corridor:

(1) Animated, moving, flashing, or rotating signs. However, digital displays, including but not limited to, electronic message centers up to twenty-five (25) percent of the allowable sign area are permitted.

(2) Three-dimensional objects such as vehicles, animals, instruments or other figures; propellers, wind powered or other similar devices or objects; and air-filled figures other than balloons one (1) foot or less in diameter.

(3) Signs which (1) utilize intermittent or flashing illumination devices; (2) which change light intensity, brightness or color; or (3) which are constructed and operated so as to create an appearance or illusion of motion unless specifically authorized by the city council to create a unifying theme in an urban corridor. This prohibition includes digital displays.

(4) Roof signs.

(c) *Temporary signs within urban corridors.* Banners, pennants, streamers, and balloons one (1) foot or less in diameter may be used as temporary advertising for a maximum duration of thirty (30) days each six (6) months. Permits in accordance with the City Code and this chapter are required for signs over thirty-two (32) square feet in size.

(d) *On-premises pole sign.*

(1) Platted lots along designated urban corridors shall be permitted one (1) pole sign for each two hundred (200) linear feet of street frontage or fraction thereof, but in any event shall be permitted at least one (1) sign. A pole sign shall not be erected closer than two hundred (200) feet along one (1) side of the street to another pole sign within the same platted lot.

(2) In lieu of the signs permitted in subsection (1) above, platted lots along expressways shall be permitted one (1) pole sign for each one hundred (100) linear feet of street frontage or fraction thereof provided the sign area for each sign does not exceed two hundred fifty (250) square feet.

(3) The maximum height for pole signs shall be in accordance with the table below. The height of a sign shall be measured from the adjacent primary street grade provided that the overall height of the sign does not exceed sixty (60) feet above ground level.

Maximum Sign Height (in Feet)

Designated Street	*Pole Sign*	*Multiple Tenant Sign*
Local street	10—15	15—25
Collector/arterial street	30—40	40—50
Expressway	40—50	50—60

(4) The maximum allowable sign area for each pole sign shall be established in accordance with the table below. For signs with more than one (1) face, only

the area of one (1) face shall be counted, provided only one (1) face is visible from any one (1) direction.

Maximum Sign Area (in Square Feet)

Designated Street	*Pole Sign*	*Multiple Tenant Sign*
Local street	64—96	96—160
Collector/arterial street	200—300	350—500
Expressway	350—500	500—650

(5) The following signs shall not be included in the total allowable sign area: temporary signs, signs which are designed not to be visible from or directed to traffic on the adjacent street, electric directional signs less than five (5) feet in height, and signs which are exempted from the permit requirement in subsection (g) below.

(e) *Wall signs.* Wall signs shall not extend or project more than one-third (⅓) the vertical height of the sign above the roof or parapet of a building or structure. The maximum allowable sign area for wall signs along all street frontages shall be as follows:

Cabinet Signs	20% of the wall area
Channel Letter Signs	25% of the wall area

(f) *Maintenance.* The director may order the removal of any sign not meeting these standards at the expense of the sign or property owner within sixty (60) days of notification by the city. If the business or activity for which a sign was permitted, ceases to operate for a period of one hundred eighty (180) days, the sign shall be considered abandoned and the sign shall be removed by the sign or property owner.

(g) *Permit requirement.* A permit must be obtained from the department before a sign may be erected within an urban corridor. Applications for a permit shall be made upon forms provided by the department. All signs shall display a decal as evidence of the permit. However, the following signs are exempt from the permit requirement:

(1) Governmental signs. Governmental agencies are encouraged to coordinate their signs with respect to color size, height and placement.

(2) Non-electric directional signs not exceeding fifteen (15) square feet in size. These signs must be composed of durable material, situated wholly upon private property and not exceed a maximum height of eight (8) feet.

(3) Signs less than fifteen (15) square feet in size and designed not to be read by the traveling public, including menu boards, service station pump decals and spanners.

(h) *Nonconforming signs.* Nonconforming signs shall be brought into conformance with the requirements of the urban corridor ordinance when there are alterations or repairs to the sign exceeding fifty (50) percent of the sign's value.

(i) *Map requirement.* All urban corridors shall include a map, either indented or in an appendix detailing location at a minimum.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17; Ord. No. 2023-6-01-0369, § 1(Att. I), 6-1-23)

Sec. 28-65. Specific urban corridors—IH-10/FM 1604 Urban corridor.

(a) *Boundaries.* The following areas which are located outside the city limits are designated as the I.H. 10 West/Loop 1604 urban corridor:

(1) Both sides of I.H. 10 West, an expressway, between Wurzbach Road and Boerne Stage Road for a distance of five hundred (500) feet from the street right-of-way.

(2) Both sides of Loop 1604, an expressway, between Northwest Military Highway and Hausman Road for a distance of five hundred (500) feet from the street right-of-way.

(3) Both sides of Babcock Road, an arterial street, between Loop 1604 and Camp Bullis Road for a distance of two hundred (200) feet from the street right-of-way.

(4) Both sides of Camp Bullis Road, an arterial street, between I.H. 10 West and Babcock Road for a distance of two hundred (200) feet from the street right-of-way.

(b) *Designation criteria.* The areas specified in subsection (a) above meet the designation criteria established above:

(1) The corridor serves as a recognized primary entryway to the city.

(2) The corridor traverses areas where natural vegetation representative of the native landscape is present along at least fifty (50) percent of the street frontage.

(3) The corridor provides primary access to one or more major tourist attractions.

(c) *Other provisions.* In addition to the requirements set forth in this section, the mandatory provisions of sections 28-64 and 28-5 shall be applicable to this corridor.

(d) *Off-premises signs.* Off-premises signs are prohibited in the corridor.

(e) *Maximum sign height and area.*

(1) The maximum heights for on-premises signs are as follows:

Maximum Sign Height (in Feet)

Designated Street	*Pole Sign*	*Multiple Tenant Sign*
Local street	10	15
Collector/arterial street	30	40
Expressway	40	50

(2) The maximum allowable sign area for on-premises signs are as follows:

Maximum Sign Area (in Square Feet)

Designated Street	*Pole Sign*	*Multiple Tenant Sign*
Local street	64	96
Collector/arterial street	200	350
Expressway	350	500

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-66. Same—UC-2, Broadway urban corridor district.

(a) *Boundaries.* The following area is designated as the Broadway urban corridor district: both sides of Broadway, an arterial, between IH-35 and the city limits of Alamo Heights for a distance of two hundred (200) feet from the street right-of-way.

(b) *Designation criteria.* This corridor meets the following designation criteria established by section 28-61:

(1) The corridor provides primary access to one or more major tourist attractions.

(2) The corridor abuts, traverses, or links the San Antonio River or its major tributaries, area lakes, or major parks.

(c) *Other provisions.* In addition to the requirements set forth in this section, the mandatory provisions of sections 35-339(a)(1), 28-64, and 35-339(b)(2) are applicable to this district.

(d) *Setback.* The setback along Broadway is established at twenty-five (25) feet.

(e) *Screening.* The following uses shall be screened from Broadway to a height sufficient to completely screen the use from view at ground level: all outside storage, industrial activities, off-street loading areas as required by the 1987 version of chapter 35, the Unified Development Code, article III, Zoning, division 9, Supplemental regulations, Subdivision D., Off-street truck loading requirements, refuse storage areas, air conditioning and heating equipment, and microwave and satellite antennas. An opaque screen composed of berms, walls, fences, vegetation, or a combination of these materials shall be used.

(f) *Off-premises signs.* Off-premises signs are prohibited in this corridor district.

(g) *Maximum sign height.* The maximum heights for on-premises signs are thirty (30) feet for pole signs and forty (40) feet multiple tenant signs.

(h) *Maximum sign size.* The maximum allowable sign areas for on-premises signs are two hundred (200) square feet for pole signs and three hundred fifty (350) square feet for multiple tenant signs.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-67. Same—UC-3, Fredericksburg Road urban corridor district.

(a) *Boundaries.* The following area is designated as the Fredericksburg Road urban corridor district: both sides of Fredericksburg Road, an arterial, between Martinez Creek and Santa Barbara Street for a distance of two hundred (200) feet from the street right-of-way.

(b) *Designation criteria.* This corridor meets the following designation criteria established by section 28-61:

(1) The corridor has historically served as a regional or neighborhood commercial center for at least fifty (50) years.

(2) There is substantial public and/or private commitment of resources for redevelopment or revitalization of at least fifty (50) percent of the corridor's buildings or infrastructure.

(c) *Other provisions.* In addition to the requirements set forth in this section, the mandatory provisions of sections 35-339(a)(1), 28-64, and 35-339(b)(2) are applicable to this district.

(d) *Setback.* The setback along Fredericksburg Road is established at twenty-five (25) feet.

(e) *Screening.* The following uses shall be screened from Fredericksburg to a height sufficient to completely screen the use from view at ground level: all outside storage, industrial activities, off-street loading areas as required by the 1987 version of chapter 35, the Unified Development Code, article III, Zoning, division 9, Supplemental regulations, Subdivision D., Off-street truck loading requirements, refuse storage areas, air conditioning and heating equipment, and microwave and satellite antennas. An opaque screen composed of berms, walls, fences, vegetation, or a combination of these materials shall be used.

(f) *Off-premises signs.* Off-premises signs are prohibited in this corridor district.

(g) *Maximum sign height.* The maximum heights for on-premises signs are thirty (30) feet for pole signs and forty (40) feet for multiple tenant signs.

(h) *Maximum sign size.* The maximum allowable sign areas for on-premises signs are two hundred (200) square feet for pole signs and three hundred fifty (350) square feet for multiple tenant signs.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-68. Same—UC-4, North St. Mary's Street urban corridor district.

(a) *Boundaries.* The following area is designated as the North St. Mary's Street urban corridor district: both sides of North St. Mary's Street, an arterial, between I.H. 35 and HWY 281 for a distance of two hundred (200) feet from the street right-of-way.

(b) *Designation criteria.* This corridor meets the following designation criteria established by section 28-61:

(1) The corridor has historically served as a regional or neighborhood commercial center for at least fifty (50) years.

(2) The corridor provides primary access to one or more major tourist attractions.

(3) The corridor abuts, traverses, or links the San Antonio River or its major tributaries, area lakes, or major parks.

(c) *Other provisions.* In addition to the requirements set forth in this section, the mandatory provisions of sections 35-339(a)(1), 28-64, and 35-339(b)(2) are applicable to this district.

(d) *Setback.* The setback to this urban corridor is established at zero (0) feet.

(e) *Screening.* The following uses shall be screened to a height sufficient to completely screen the use from view at ground level: all outside storage, industrial activities, off-street loading areas as required by the 1987 version of chapter 35, the Unified Development Code, article III, Zoning, division 9, Supplemental regulations, subdivision D., Off-street truck loading requirements, refuse storage areas, air conditioning and heating equipment, microwave and satellite antennas. An opaque screen composed of berms, walls, fences, vegetation, or a combination of these materials shall be used.

(f) *Off-premises signs.* Off-premises signs are prohibited in this corridor district.

(g) *Maximum sign height.* The maximum height for on-premises signs are thirty (30) feet for pole signs and forty (40) feet for multiple tenant signs.

(h) *Maximum signs size.* The maximum allowable sign areas for on-premises signs are two hundred (200) square feet for pole signs and three hundred fifty (350) square feet for multiple tenant signs.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-69. Same—UC-5, Main Ave./McCullough Ave. urban corridor district.

(a) *Boundaries.* The following area is designated as the Main Ave./McCullough Ave. urban corridor district: a distance of one hundred (100) feet from the street right-of-way on either side of Main Ave. a collector, between I.H. 35 on the south and Huisache Ave. on the north, and two hundred (200) feet from the street right-of-way on either side of McCullough Ave. an arterial, between I.H. 35 on the south and Huisache Ave. on the north.

(b) *Designation criteria.* This corridor meets the following designation criteria established by section 28-61:

(1) The corridor abuts, traverses, or links designated historic landmarks and/or districts.

(2) The corridor has historically served as a regional or neighborhood commercial center for at least fifty (50) years.

(c) *Other provisions.* In addition to the requirements set forth in this section, the mandatory provisions of sections 35-339(a)(1), 28-64, and 35-339(b)(2) are applicable to this district.

(d) *Setback.* The setback along Main Ave./McCullough Ave. are established at fifteen (15) feet for local streets, twenty (20) feet for collector/arterial streets and twenty-five (25) feet for expressways.

(e) *Screening.* The following uses shall be screened from Main Ave./McCullough Ave. to a height sufficient to completely screen the use from view at ground level all outside storage, industrial activities, off-street loading areas as required by the 1987 version of chapter 35, the Unified Development Code, article III, Zoning, division 9, Supplemental regulations, subdivision D., Off-street truck loading requirements, refuse storage areas, air conditioning and heating equipment, and microwave and satellite antennas. An opaque screen composed of berms, walls, fences, vegetation, or a combination of these materials shall be used.

(f) *Off-premises signs.* Off-premises signs are prohibited in this corridor district.

(g) *Maximum pole sign height.* The maximum heights for on-premises pole signs are fifteen (15) feet for local streets, twenty-four (24) feet for collector/arterial streets and forty (40) feet for expressways.

(h) *Reserved.*

(i) *Maximum multi-tenant sign height.* The maximum height for on-premises multi-tenant signs are fifteen (15) feet for local streets, thirty-two (32) feet for collector/arterial streets, and fifty (50) feet for expressways.

(j) *Maximum pole sign area.* The maximum allowable sign area for on-premises pole signs are sixty-four (64) square feet for local streets, one hundred fifty (150) square feet for collector/arterial streets and three hundred fifty (350) square feet for expressways.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-70. Same—UC-6, San Pedro urban corridor district.

(a) *Boundaries.* The following area is designated as the San Pedro Urban Corridor District: Both sides of San Pedro Avenue, an arterial, between I.H. 35 to the south and Ashby Street to the north for a distance of two hundred (200) feet from the street right-of-way.

(b) *Designation criteria.* This corridor meets the following designation criteria established by section 28-61:

(1) The corridor abuts, traverses, or links designated historic landmarks and/or districts.

(2) The corridor has historically served as a regional or neighborhood commercial center for at least fifty (50) years.

(c) *Other provisions.* In addition to the requirements set forth in this section, the mandatory provisions of sections 35-339(a)(1), 28-64, and 35-339(b)(2) are applicable to this district.

(d) *Screening.* The following uses shall be screened from San Pedro Avenue to a height sufficient to completely screen the use from view at ground level: All outside storage, industrial activities, off-street loading areas as required by the 1987 version of chapter 35, the Unified Development Code, article III, Zoning, division 9, Supplemental regulations, subdivision D., off-street truck loading requirements, refuse storage areas, air conditioning and heating equipment, and microwave and satellite antennas. An opaque screen composed of berms, walls, fences, vegetation, or a combination of these materials shall be used.

(e) *Off-premises signs.* Off-premises signs are prohibited in this corridor district.

(f) *Maximum sign height.* The maximum heights for on-premises pole signs are: Local streets—Ten (10) feet, collector/arterial street—Twenty-four (24) feet, and expressway—Forty (40) feet.

The maximum heights for on-premises multi-tenant signs are: Local streets—Fifteen (15) feet, collector/arterial—Thirty-two (32) feet, and expressway—Fifty (50) feet.

(g) *Maximum sign size.* The maximum allowable sign area for on-premises pole signs are: Local streets—Sixty-four (64) feet, collector/arterial street—One hundred fifty (150) square feet, and expressway—Three hundred fifty (350) square feet.

The maximum allowable sign area for on-premises multi-tenant signs are: Local streets—Ninety-six (96) square feet, collector/arterial street—Two hundred and fifty (250) square feet, and expressway—Five hundred (500) square feet. (Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17; Ord. No. 2024-12-19-1017, § 4, 12-19-24)

Subdivision E. ETJ Regulations

Sec. 28-71. Off-premises signs in the extra territorial jurisdiction (ETJ).

(a) Off-premises signs erected in the ETJ pursuant to a relocation permit shall adhere to the following size and spacing requirements:

(1) On interstates, freeways and expressway systems, off-premises signs up to six hundred seventy-two (672) square feet shall not be closer than one thousand five hundred (1,500) feet along one side of the roadway.

(2) On primary and secondary arterial streets, off-premises signs up to three hundred ninety-nine (399) square feet shall not be closer to any other off-premises sign than one thousand (1,000) feet along one side of the roadway; on secondary arterial streets, off-premises signs ninety-nine (99) square feet and less shall not be erected closer than seven hundred fifty (750) feet along one side of the roadway.

(3) On collector and local access streets, off-premises signs ninety-nine (99) square feet and less shall not be erected closer than seven hundred fifty (750) feet along one side of the roadway.

(4) All off-premises signs under subsections (1), (2), and (3) above must be:

a. Within eight hundred (800) feet of at least two (2) adjacent recognized commercial or industrial activities located on the same side of the roadway, and

b. At least five hundred (500) feet, as measured along one side of the road, from any structure located within a zoning district exclusively used by one or more human beings for residential purposes. This subsection is inapplicable to commercial zoned districts.

(b) Temporary off-premises signs erected in the ETJ shall adhere to the spacing requirements set forth in subdivision F., Temporary signs.

Commentary: As there are no zoning designations within the ETJ, the applicable regulations for temporary signs shall be based upon the actual use of the property. Temporary signs on properties with a residential use shall be subject to the regulations in section 28-73. Temporary signs on properties with a non-residential use and vacant properties shall be subject to the regulations in section 28-74.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Subdivision F. Temporary Signs

Sec. 28-72. In general.

(a) General prohibition. Temporary sign placement is prohibited in the city and ETJ unless permitted as provided in this division. Signs in violation of this division constitute bandit signs.

(b) All temporary signs must comply with reasonable time, place and manner regulations and are subject to all applicable City Code requirements, including underlying zoning districts and uses.

(c) Zoning districts and uses are outlined in the Unified Development Code (UDC) of the city.

(1) Temporary signs may only be placed in residential zoning districts and uses identified in Table 311-1 of the UDC.

(2) Temporary signs may only be placed in nonresidential zoning districts and uses identified in Table 311-2 of the UDC.

(d) A temporary sign permit is required in order to display a temporary sign, unless specifically excepted from permitting requirements. A department issued decal or other approved identification means authorizing temporary placement must be displayed on all temporary signs regulated under this division, unless such sign is excepted from permitting requirements. Only one (1) temporary sign permit for a temporary sign advertising a commercial message may be issued for the premises and only in specified areas detailed in each section below except for noncommercial speech in residential zoning districts.

(e) A temporary sign is authorized for one (1) single continuous maximum specified time period detailed in each section below. Signs exceeding maximum time periods are illegal and subject to removal.

(f) Private profiteering involving unauthorized temporary sign placement is prohibited in and constitutes a violation of this chapter.

(g) No temporary sign permit is transferrable or assignable from one (1) permit holder to another, to another property or be used for a different time period than what it was issued. A permit holder may not switch signs under one (1) sign permit.

(h) Temporary signs are prohibited severally:

(1) With an area greater than that prescribed in the applicable sections below;

(2) Which is more than the maximum height prescribed in the applicable sections below;

(3) Which is illuminated; or

(4) Which has any moving elements.

(i) Temporary signs must be constructed of durable building materials reflecting the temporary nature of the sign and securely affixed to a structure or ground. Signs shall have a non-reflective surface.

(j) Permit application. An application for a temporary sign permit must include, at a minimum:

(1) A map and listing identifying the street and block number where each sign shall be placed regardless of size.

Commentary: The director may modify the map requirement for the application

if the temporary sign is intended to be mobile in nature (e.g., real estate open houses, etc.)

(2) Prior permission of the underlying property owner.

(3) Acknowledgement that signs will be spaced as required under this chapter.

(4) Acknowledgement that sign square footage is not limited to a specific shape unless specifically stated under each section below. No offensive shapes may be utilized.

(5) Payment of fees.

Note: The director of development services may accept confirmation from another governmental agency where appropriate.

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-73. Temporary signs on residential zoned properties and residential uses.

(a) In general.

(1) Temporary signs placed in residential zoning districts and uses identified in subsection 28-72(c) shall comply with this section.

(2) A sign placed on private property requires property owner approval. Any sign placed without property owner approval is illegal and subject to removal and offending party subject to prosecution for trespass.

(3) Maximum size. Ten (10) square feet.

(4) Maximum height limitation. Six (6) feet measured from ground to top of sign.

(5) Permit validity period. Maximum of ninety (90) days.

Commentary: Note that if the on-premise event (e.g., home sale; remodel work; etc.) for which the temporary sign is used at the residential property goes beyond ninety (90) days, an automatic renewal of the temporary sign is allowed until the on-premise event is completed as long as the event is permitted properly in accordance with any other applicable sections of the City Code.

(6) Distance limitation.

a. *Spacing.* No sign may be placed closer than twenty-five (25) feet from a street intersection or median opening. Signs shall be placed no closer than three (3) feet from the edge of the sign to the street curb or, if there is no curb, the edge of pavement.

b. *Encroachment.* Signs shall not encroach on either the sidewalks or streets.

(7) Noncommercial speech and on-premises commercial speech narrowly tailored to lawful commercial transactions relating to the premise are authorized. All other on and off premises commercial speech is prohibited.

Comment: The exception to commercial advertising in subsection (7) is intended to address temporary on-premises advertising concerns in narrow circumstances, including, but not limited to home for sale signs, re-roofing signs, and the like, so long as the temporary advertisement is related to the premises itself.

Exception: For residential zoned properties that are 1) vacant, and 2) one (1) or more acres in size, temporary signs with off-premises commercial speech is permitted to follow the size, spacing and permitting requirements of section 28-74.

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Sec. 28-74. Temporary signs on nonresidential zoned properties and nonresidential uses.

(a) *In general.*

(1) Temporary signs placed in nonresidential zoning districts and uses identified in subsection 28-72(c) shall comply with this section.

(2) In addition to general sign construction requirements in section 28-72, all temporary nonresidential signs must be securely affixed to a structure or ground. Through authority granted in section 28-5, the director may provide interpretations and adopt written policies and procedures and this includes, but is not limited to, specific installation requirements for different types of signs.

(3) Any banner type of sign placed on a facade must follow the permanent sign placement regulations found in this chapter.

(4) Property owner and development services department approval is required prior to sign placement. Any sign placed without required approval is a violation of this chapter and subject to removal.

(5) Commercial and noncommercial speech are authorized.

(b) *Large sign.*

(1) *Size range.* Between ten (10) and sixty-four (64) (maximum) square feet.

(2) *Height.* Not to exceed sixteen (16) feet.

Comment: Note that engineering requirements referenced in other sections of this chapter are applicable to temporary signs.

(3) *Temporary placement.*

a. A licensed sign contractor is required to apply for and be issued a permit to place a temporary large sign.

b. The development services department must review the plan for conformity and perform necessary inspections prior to permit issuance.

c. Permit validity period. Duration of the temporary event for which the temporary sign is used for, but not more than five (5) years. The permit can be renewed up to four (4) times (maximum five (5) years) by the applicant upon and submission of evidence that the event is not yet over.

d. The sign erector shall certify in writing that the sign will not interfere with public safety.

(4) *Distance limitation.*

a. An owner or agent of the commercial business is limited to four (4) temporary permits for large signs displaying commercial off-premises speech per five-mile radius of the commercial location and one (1) temporary permit for displaying commercial on-premises speech. A person is limited to four (4) temporary permits for signs displaying noncommercial speech.

b. There shall be a minimum spacing requirement of one hundred fifty (150) feet between large temporary signs.

Exception: A sign grouping of up to a maximum of four (4) temporary large signs are permitted to be installed less than one hundred fifty (150) feet apart provided 1) the sign grouping does not have more than one hundred twenty-eight (128) square feet of sign face area, and 2) no other temporary signs are installed within three hundred (300) feet of the sign grouping. Each individual sign in the sign grouping shall be less than sixty-four (64) square feet in sign area.

(5) *Sign identification requirements.* A separate department issued decal or other approved identification means authorizing temporary placement must be displayed on each temporary sign.

(c) *Small sign.*

(1) *Size range.* Any sign less than ten (10) square feet.

(2) *Height.* The total height of the sign may not exceed three (3) feet above the ground.

(3) *Temporary placement.*

a. An applicant is required to apply for and be issued an individual permit to place a temporary small sign.

b. The development services department must review the application.

c. Temporary placement is authorized from Friday until no later than 9:00 p.m. the following Monday. If a federally recognized holiday falls on a Friday, then the signs are permitted from the preceding Thursday until no later than 9:00 p.m. the following Monday. If a federally recognized holiday falls on a Monday, then signs are permitted from Friday until no later than 9:00 p.m. the following Tuesday. Signs may not be either placed or picked up between the hours from 6:00 a.m. to 9:00 a.m. or from 4:00 p.m. to 7:00 p.m. on weekdays.

d. Signs must be self-supporting and placed into the ground by a single stake or no more than two (2) stakes. Placement on a utility pole, street light pole, sign pole, fence, tree or other manmade or natural feature is prohibited.

(4) *Distance limitation.*

a. No sign may be placed closer than twenty-five (25) feet from a street intersection or median opening, driveway curb cuts, fire hydrant, or any other public man made feature. Additionally, signs shall not be erected in any location where, by reason of traffic conditions, fire, or explosion hazards, the sign would imperil public safety or hamper the functions of the fire department.

b. Placement on any esplanade or island that is located between a road or highway or otherwise divides traffic is prohibited.

(5) *Minimum spacing requirement.* Two hundred (200) feet between small temporary signs with permits held by the same permit holder, measured in a straight line. Small temporary signs with permits held by different permit holders must be a minimum of five (5) feet apart.

(6) *Sign identification requirements.* A separate department issued decal or other approved identification means authorizing temporary placement must be displayed on each temporary sign.

(d) *Inflatables.* The temporary display of inflatable signs is permitted for a maximum period of twenty-one (21) days per calendar quarter per platted lot. Inflatables shall be limited to a height of thirty (30) feet for the inflatable device, not to include the height of any building or structure on which it might be placed.
(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17; Ord. No. 2023-6-01-0369, § 1(Att. I), 6-1-23)

Sec. 28-75. Temporary signs on public right-of-way and city public property.

(a) *In general.* Temporary sign placement for city public right-of-way and city public property only as authorized by law, including underlying zoning district and use requirements. This does not allow placement on the state highway system or a scenic or urban corridor. It is a rebuttable presumption that any are within fifteen (15) feet of the edge of the paved portion of a road or highway maintained by the city is public right-of-way.

(1) *Government placement.* Signs placed or authorized in writing to be placed on public property or on/over the street right-of-way by, or at the direction of the federal, state or local government is permitted and an affirmative defense to prosecution only for the time and the location specified in such written permission.

(2) *Restrictions on otherwise allowable temporary placement.* No signs shall be erected on or over city public property in a manner which interferes or has the potential to interfere, at the director's reasonable discretion, with any fire hydrant, traffic light, fire alarm box or street light. Similarly, signs shall not be erected in any location where, by reason of traffic conditions, fire, or explosion

hazards, the sign would imperil public safety or hamper the functions of the fire department.

(b) *Temporary placement on city public street right-of-way.* Off premises signs are only permitted to be placed on the city right-of-way of a road or highway maintained by the city provided that the following regulations are observed and required fees have been paid.

(1) *Schedule.* Off premises signs are permitted from Friday until no later than 9:00 p.m. the following Monday. If a federally recognized holiday falls on a Friday, then the signs are permitted from the preceding Thursday until no later than 9:00 p.m. the following Monday. If a federally recognized holiday falls on a Monday, then signs are permitted from Friday until no later than 9:00 p.m. the following Tuesday. Signs may not be either placed or picked up between the hours from 6:00 a.m. to 9:00 a.m. or from 4:00 p.m. to 7:00 p.m. on weekdays.

(2) *Size.* Signs shall not exceed six (6) square feet in size. Irregular shaped signs shall fit in a 24-inch by 36-inch rectangle, square or circle. The total height of the sign may not exceed three (3) feet above the ground measured from the base of the sign support structure. Signs may be two-dimensional only and shall have a non-reflective surface.

(3) *Spacing between signs.*

a. A minimum of five (5) feet must be maintained between each off premises sign of different advertisers.

b. The signs of each advertiser must be spaced so that no two (2) signs advertising the same good, service, business, political campaign, or particular piece of real property (for sale or lease), are closer than two hundred (200) feet from each other measured in a straight line. If a new residential subdivision or development is being advertised, no sign of any advertiser may be closer than two hundred (200) feet from any other sign of the same advertiser.

(4) *Sign location.*

a. Signs must be self-supporting and placed into the ground by one (1) to two (2) stakes. No off premises sign is permitted on a utility pole, guardrail, street light pole, sign pole, fence, tree or other manmade or natural feature unless authorized under this section.

b. No sign may be placed closer than twenty-five (25) feet from a street intersection or median opening. Any off premises sign determined to be in a location that causes an immediate hazard to public safety may be immediately removed by the city.

c. Signs shall be placed no closer than three (3) feet from the edge of the sign to the street curb or, if there is no curb, the edge of pavement. Signs shall not encroach on either the sidewalks or streets.

d. No sign may be placed on any esplanade or island that is located between a road or highway or otherwise divides traffic.

e. Placement limitation. Three (3) miles or less from the property, location, or business being advertised. Additionally, placement depends on the underlying zoning district and use classification:

- Public ROW in residential zoning districts or use—Commercial and noncommercial speech are authorized.
- Public ROW in non-residential zoning districts or use—Commercial and noncommercial speech are authorized.

(5) *Registration, permits and fees.* See article V, Fee schedule.

a. An advertiser is required to register with the department and post a permit decal on each temporary sign

to be placed. Each advertiser shall pay a registration fee as well as a permit decal fee. The first two (2) permit decals shall be included in any registration fee.

Commentary: Registration includes, but is not limited to, any event, such as a garage sale, peddlers sign, or carnival.

b. Where an advertiser wishes to advertise multiple locations, a permit decal must be obtained for each business location subdivision location, or service location to be advertised by off premises signs.

c. An off premises sign will not be placed on the right-of-way of a road or highway unless an off premises permit decal is affixed on the face of the off premises sign.

Commentary: Registration and decals are required on any temporary sign placed in the right-of-way.

(6) *Map and listing required.* In addition to payment of the appropriate fees, the advertiser shall provide a map and listing identifying the street and block number where each sign shall be placed including another governmental agency.

(7) *Permission of abutting property owners is required.* Nothing in this division authorizes the placement of signage contrary to existing property law. The advertiser must secure all necessary permission of any and all parties having a property interest in the right-of-way prior to placing any off premises sign.

(c) *Temporary placement over and across city public right-of-way.*

(1) Banner signs projecting over and across public street rights-of-way are limited to noncommercial speech and such placement is authorized solely in locations approved and utilized prior to the date of this chapter enactment.

(2) No part of the banner sign shall be closer to the street grade than fourteen and one-half (14½) feet.

(3) The sign erector shall certify in writing that the sign will not interfere with public safety. Banner signs shall be constructed of durable cloth and standard sign hooks, lag screws or expansion bolts and shields shall be used where required to support the sign. Construction materials are limited to flexible natural or synthetic fabric or membrane and prohibit solid materials which might damage, injure or otherwise endanger vehicles or persons below in the event of a collapse.

(4) Maximum of ninety (90) days.

(d) *Temporary placement on city roadways.*

(1) *Mobile signs: Signs in transit.*

a. Generally. It shall be unlawful to carry or transport by any means, or cause to be so carried or transported, any sign in excess of thirty-two (32) square feet in area, without the approval of the director of the development services department. This provision shall not apply to a sign on a vehicle which is used principally for a purpose other than advertising.

Commentary. Commercial vehicles which have the business's name, logo, slogan or license number painted on them are primarily means of transportation, not an advertising medium. Therefore, the provisions of subsection (a) do not apply to the automobile, truck, or van per se.

b. Vehicles used principally for commercial advertising must comply with applicable off-premises sign requirements.

(2) *Mobile signs: Stationary.* Mobile signs no longer in transit and stationary must meet temporary placement requirements for the specific zoning district in which it is located. A failure to meet this require-

ment is a violation of this chapter. For purposes of classification as stationary, a mobile sign must be stationary for at least twenty-four (24) hours. This provision shall not apply to stationary vehicles at their own place of business.

(3) *Portable sign.*

In general. It is unlawful to intentionally place or display, or cause to be placed or displayed, any portable sign on any premises or be utilized in connection with a mobile sign in transit for the purpose of commercial advertising.

Exception. A portable sign may be placed or displayed at a properly zoned storage area of one properly licensed under this chapter provided such placement was prior to September 22, 1985 and it has been granted nonconforming rights through the process required in Ordinance No. 62652. Portable signs must conform to regulations for on-premises signage.

Commentary. The law under Ordinance No. 62652 required portable signs to be registered within one hundred eighty (180) days of enactment by mid-1986. Any portable sign not meeting this requirement may not be placed or displayed.

(e) *Temporary placement on public property.*

(1) The temporary display of an on-premises sign and/or an on-premises digital display, as they are defined in section 28-6, is permitted on public property for a permitted event for a maximum of thirty (30) days per event per calendar quarter. The temporary on-premises display must:

a. Be erected in the area specified in the permit for the event;

b. Be erected only for the period specified in the permit for the use of the public property;

c. Only contain an on-premises message related to the specific event;

d. Be permitted by the department exercising control of the public property; and

e. Be permitted by the development services department if required by this chapter;

(2) Notwithstanding subsection (1) above, on-premises digital displays shall not be authorized for events located in Alamo Plaza Park or in the Riverwalk Area.

(3) On-premises signs and/or on-premises digital displays shall be authorized for events hosted in Main Plaza, provided such events are permitted events approved by a Texas non-profit corporation managing Main Plaza under a management agreement approved by the city council.

(4) City department work programs such as "Movies in the Park", are authorized on-premises signs or on-premises digital displays on public property and are exempt from the permit requirements of this section.

(5) The event may only be simulcast from the permitted area to another area on public property permitted for the event or may only be simulcast from the permitted area to private property.

(6) This section does not apply to public art.

(7) To the extent that this section is in conflict with any other provision of the City Code, this section prevails or supersedes the provision in conflict.

(8) Nothing herein shall act as a limitation on city council's authority to authorize on-premises signs or on-premises digital displays for specific events.

(9) Only: 1) on-premises commercial speech, and 2) noncommercial speech is authorized.

Commentary: On-premises commercial, it is authorized only at permitted event in restricted areas. Advertising is classified as on-premises for that event.

(f) *Confiscation of bandit sign placed in right-of-way and public property.*

(1) Any bandit sign placed in violation of the provisions of this section by placement in right or way and public property is hereby declared a nuisance to the public health, safety and welfare and may be confiscated and disposed of immediately without notice.

(2) Bandit signs are abandoned trash at the time of posting and may be removed and discarded without notice. Any citizen removing a bandit sign shall do so at his or her own risk and neither the city nor any public utility exercising control of the right-of-way, pole or fixture shall be liable for damage, loss or injury due to such independent acts.

(g) *Placement of bandit sign—Criminal offense, penalty.*

(1) A person commits an offense if the person places a bandit sign in violation of this section. Legally placed temporary signs in all areas become bandit signs when they violate the terms of authorized placement. Placement of multiple bandit signs constitutes a separate and distinct violation for each sign.

(2) An offense under this section is punishable as follows:

a. First offense by a fine of not less than one hundred dollars ($100.00) and not more than five hundred dollars ($500.00);

b. Second offense by a fine of not less than two hundred dollars ($200.00) and not more than five hundred dollars ($500.00); or

c. Third offense or thereafter by a fine of not less than three hundred dollars ($300.00) and more than five hundred dollars ($500.00).

(3) It is a defense to prosecution if:

a. The sign is placed on the right-of-way of a road or highway maintained by the city by a person other than the defendant, and

b. Without the knowledge of the defendant.

(h) *Placement of bandit sign—Administrative, penalty.*

(1) In addition to any civil penalties described in section 28-9 of this chapter, where the alleged violator of any provision of section 28-75, Temporary signs on public right-of-way and public property is the holder of a valid annual temporary sign permit, the director will follow administrative penalty provisions below, prior to application of criminal charges:

a. *First violation.* A written warning shall be given.

b. *Second violation.* Revocation of permit and require double fee for new permit and forwarding to administrative hearing officer—Minimum three hundred dollar ($300.00) civil penalty.

c. *Third violation.* Revocation of permit and require double fee for new permit; said permit and any additional permits shall not be issued to the violator until one hundred twenty (120) days has passed from the date of revocation and forwarding to administrative hearing officer—Minimum five hundred dollar ($500.00) civil penalty.

(3) The accused may appeal the revocation of the permit and the one hundred twenty (120) days hold on the ability to obtain temporary permits to the building related and fire codes appeals and advisory board.

a. The request for appeal must be submitted to the development services department, by certified mail, return receipt requested, within seven (7) days of receipt of the director's determination. A failure to appeal within the prescribed period finalizes the director's determination.

b. Appellate procedures follow this chapter and applicable provisions of chapter 10 of the City Code.

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17; Ord. No. 2023-6-01-0369, § 1(Att. I), 6-1-23)

ARTICLE V. FEE SCHEDULE

Sec. 28-76. Fee schedule.

The following fee schedule details the fees charged for all examinations, reexaminations and various sign permits required by this chapter. Note that the fee schedule shall be passed by the city council by separate ordinances. A copy of the ordinance will be posted in the offices of the department of development services and in the office of the city clerk.

Off-premises sign operator license examination fee		$80.00
Off-premises sign operator license reexamination fee		$80.00
Off-premises sign operator's license		$375.00
Renewal of off premises sign operator's license		$375.00
On-premises sign operator license examination fee		$80.00
On-premises sign operator license reexamination fee		$80.00
On-premises sign operator's license		$100.00
Renewal of on-premises sign operator's license		$100.00
Duplicate license for one lost, destroyed or mutilated		$5.00
Off-premises sign annual inspection fee:	≤72 ft^2	$50.00
	>72—300 ft^2	$50.00
	>300—672 ft^2	$75.00
Portable sign annual inspection fee, per year		$50.00
On-premises sign permit fee:	≤32 ft^2 of sign area	$10.80
	> 32 ft^2 of sign area	$10.80 + $0.22 per ft^2 over 32 ft^2
	Sign height fee	$2.00 per ft of height
	Cloth banners	$5.40
Electrical sign inspection fee: In addition to the commercial fees required by this section, the following are also required for electrical signs:	Gas or Vacuum Tube	$10.80
	Incandescent Sign	$5.40
	Plus # of sockets each	$0.22
Off-premises sign removal permit:		$100.00
Banner/inflatable permits:	Sign inspection fee	$50.00
	Banner, cloth or other	$5.40
	Street light pole across street	$5.40
	Flag lines	$1.60
Preliminary site inspections, each		$50.00
On-premises sign permits inspection fee:	≤32 ft^2	$60.80
	>32 ft^2	$60.80 + $0.22/$ft^2$ over 32 ft^2
On-premises sign permits—Gas tube/electric:		$10.80
On-premises sign permits—Incandescent signs:		$5.40 + $0.22/ socket
On-premises sign permits—Sign ht/ft		$2.00
On-premises sign permits—Digital display/electronic message center fee Commentary: This fee is in addition to other required permit and inspection fees		$15.00
Off-premise sign permits—Inspection fee:	≤ 75 ft^2	$66.20
	> 75 ft^2	$66.20 + 0.22 ft^2 over 75 ft^2

Historic designated properties: See Chapter 35 C-112	<15 ft^2 sign permits per sign	$75.00
	Permit application	$25.00
	HDRC sign approval application fee	$50.00
	Paint permit fee, per permit application	$10.00
Off-premises digital sign permits inspection fee:	≤75 ft^2	$264.80
	> 75 ft^2	$264.80 + 0.88 ft^2 over 75 ft^2
Off-premises digital sign annual inspection fee:	≤72 ft^2	$200.00
	>72—300 ft^2	$300.00
	>300—672 ft^2	$400.00
Sign certification fee, per inspection		$50.00
Sign plan review fee, per permit		$50.00
Additional processing fee for paper applications		$50.00
Temporary signs per section 28-74 renewal fee		$25.00
Temporary signs per section 28-75 public property/ROW		1st two signs included in event permit (i.e., garage sale, etc.); third is $50.00 permit fee plus $5.00 for each decal

(Ord. No. 2017-05-04-0297, § 1(Att. 1), 5-4-17)

Chapter 29

STREETS AND SIDEWALKS*

Art. I. **In General, §§ 29-1—29-35**

Art. II. **Street Numbering, §§ 29-36—29-65**

Div. 1. Generally, §§ 29-36—29-50

Div. 2. Street Numberers, §§ 29-51—29-65

Art. III. **Sidewalk and Curbing Contractors, §§ 29-66—29-105**

Art. IV. **Excavations, §§ 29-106—29-204**

Div. 1. General Provisions, §§ 29-106—29-123

Div. 2. Technical Specifications, §§ 29-124—29-167

Div. 3. Costs, Fees and Enforcement, §§ 29-168—29-171

Div. 4. Indemnification, Insurance, Bonding, and Liability, §§ 29-172—29-178

Div. 5. Variances and Exemptions, §§ 29-179, 29-180

Div. 6. Certificated Telecommunication Providers, §§ 29-181—29-186

Div. 7. Fiscal Provisions, §§ 29-187, 29-188

Div. 8. Reserved, §§ 29-189, 29-190

Div. 9. Sidewalk Construction, §§ 29-191—29-202

Div. 10. Weight Limited Bridges, §§ 29-203, 29-204

***Editor's note—**Ord. No. 93319, § 1, adopted January 25, 2001, repealed the former articles IV, V, and VI and enacted new provisions as set out herein. Formerly, articles IV, V, and VI pertained to excavations, sidewalk construction, and weight limited bridges, respectively, and derived from Code 1950, §§ 52-20—52-31, 52-162—52-177; Code 1959, §§ 35-16—35-27, 35-29—35-45; Ord. No. 33865, §§ 1—5, adopted Nov. 11, 1965; Ord. No. 37301, §§ 1, 2, adopted Feb. 27, 1969; Ord. No. 39762, § 5, adopted July 29, 1971; Ord. No. 40639, §§ 3, 4, adopted April 27, 1972; Ord. No. 45535, §§ 21, 23, adopted July 24, 1975; Ord. No. 49627, §§ 15, 16, adopted July 27, 1978; Ord. No. 52523, § 6, adopted July 24, 1980; Ord. No. 54272, § 1, adopted Sept. 17, 1981; Ord. No. 55811, § 23, adopted Sept. 16, 1982; Ord. No. 59311, § 8, adopted Sept. 4, 1984; Ord. No. 61329, adopted August 29, 1985; Ord. No. 71464, § 4, adopted April 26, 1990; Ord. No. 79913, §§ 1—3, adopted March 31, 1994; Ord. No. 88489, §§ 1—7, adopted Sept. 17, 1998; Ord. No. 88491, §§ 1—5, adopted Sept. 17, 1998.

Ord. No. 93319 renamed articles V and VI to read as divisions 9 and 10, respectively, of article IV.

Charter references—General street powers of city, § 3, par. 7 et seq.; construction and repair of sidewalks, § 3, par. 13(11).

Cross references—Planning, § 3-1 et seq.; mobile home parks, § 18-1 et seq.; parks and recreation, § 22-1 et seq.; soliciting from occupants of vehicles prohibited, § 19-8; railroads, § 27-1 et seq.; signs, § 28-1 et seq.; subdivisions, § 30-1 et seq.; water and sewers, § 34-1 et seq.; notice prior to making street improvements, § 34-37; zoning, § 35-1 et seq.

State law reference—General authority relative to streets and sidewalks, Vernon's Ann. Civ. St. art. 1175(16)—(18), (20).

[This page intentionally left blank.]

ARTICLE I. IN GENERAL

Sec. 29-1. Use of streets a privilege.

The use of the streets by any person for the purpose of operating or causing to be operated thereon any vehicle engaged in transporting passengers for hire over fixed routes is declared a public franchise or privilege in the nature of a franchise and such business or occupation a public utility, the exercise of which is conditioned upon and subject to grant, authorization, license, inspection and regulation by the city council.
(Code 1950, § 13-3; Code 1959, § 1-18)

Sec. 29-2. Reserved.

Editor's note—Ord. No. 71696, § 6, adopted June 7, 1990, repealed former § 29-2, relative to collecting donations, selling goods, services and soliciting business upon public streets prohibited, which derived from Code 1959, § 26-31 and Ord. No. 52865, § 2, adopted Oct. 2, 1980.

Sec. 29-3. Depositing litter, trash and waste material.

It shall be unlawful for any person to throw, dump, deposit, or place any litter, trash or waste material of any kind in or on any public plaza, square, park, street, parkway or sidewalk, or in any planter box or plant container located on such sidewalk.
(Code 1959, § 26-17.1; Ord. No. 36462, § 1, 4-25-68)

Sec. 29-4. Discharges of impure water and fluids into streets.

(a) It shall be unlawful for any person to run or discharge any fluid or water containing oil, grease, soap, lye, washing powder, mud or filth, on or into any of the public streets within the city; however, the scrubbing of walks and driveways with reasonable amounts of mild detergent and flushed with clear water from a hose not to exceed three-fourths of an inch in diameter and operating on normal city water pressure shall not be deemed a violation of this section even though water incidentally spills over into the city streets, provided the water does not extend into the traffic lanes.

(b) Spots on walks or driveways may be dissolved and washed in the manner described above, but the flushing of liquid oil, grease, kerosene, naphtha, or other solvents detrimental to asphalt into city streets shall be prohibited. Sections of this Code dealing with water conservation are not waived under this section.

(c) In locations where drainage conditions do not permit complete runoff, and pooling of water results between the curb and the traffic lane, the person responsible for such pooling shall be responsible for the immediate removal of such pooled water, or will be deemed to be in violation of this section.

(d) For the purposes of this section, the term "traffic lane" shall mean that portion of the roadway beginning at a point three (3) feet out from the curb line adjoining the location involved.
(Code 1950, § 41-4; Ord. No. 17835, 7-3-52; Ord. No. 20304, 6-17-54; Ord. No. 20459, § 1, 8-19-54; Code 1959, § 26-14)

Sec. 29-5. Sweeping and cleaning sidewalks by merchants in sidewalk stands.

(a) It shall be the duty of all persons selling vegetables, fruits or other commodities on the plazas and squares of the city to sweep and clean the several spaces or stands respectively occupied by them, and also to sweep and clean the area within a radius of five (5) feet from each of such spaces or stands.

(b) Such spaces shall be so swept and cleaned immediately before the several occupants quit the same, and at each time that they may be occupied by them. All litter, trash, refuse and other matter so swept together shall be immediately removed from the plazas and squares by such occupants and shall be disposed of in the same manner as is provided by chapter 14 for the disposal of garbage.
(Code 1950, § 52-10; Code 1959, § 35-5)

Sec. 29-6. Transportation which is injurious to streets.

(a) It shall be unlawful for any person to transport or cause to be transported any gravel, broken rock, coal, wood, coarse sand and trash on

or over any street in the city in such manner as to permit any such substance to fall out of any vehicle upon any street of the city, and it shall be unlawful for any person to use or cause to be used any vehicle for hauling any such substance, other than vehicles with a bed or box tightly constructed and of sufficient size to carry such substance securely so that the same cannot drop out on any street.

(b) All vehicles used for the transportation of crushed stone, wood, dirt, trash, sand, gravel or coal shall be constructed in such a manner as to prevent leakage or spillage of crushed stone, wood, dirt, garbage, gravel or coal upon the city streets.
(Code 1950, §§ 52-11, 52-12; Code 1959, §§ 35-6, 35-7)

Sec. 29-7. When opening of manholes prohibited.

Manholes shall not be opened in the streets of the business section lying between Alamo Plaza and Flores Street, and between Market and Travis Streets, between the hours of 8:00 a.m. and 9:00 p.m. except for an emergency.
(Code 1950, § 52-13; Code 1959, § 35-8)

Sec. 29-8. Gratings; abutting steps.

The gratings to be used for covering the openings left in the sidewalks of any street, plaza, public lane or alley for lighting and ventilating the cellars of any house or building within the city shall be made in such a manner that they will be entirely safe for persons walking across the same, and the iron bars used for such grating shall be of heavy iron, and not over one (1) inch apart; but no grate hereafter constructed shall extend or project into the sidewalk more than twenty-four (24) inches beyond the building line, nor shall any steps be allowed upon any pavement or sidewalk unless the latter be more than eight (8) feet in width, and in that event they may be allowed by the city council so long as they may not be considered an obstruction to such sidewalks.
(Code 1950, § 52-14; Code 1959, § 35-9)

Sec. 29-9. Reserved.

Editor's note—Ord. No. 2007-01-11-0065, § 2, adopted January 11, 2007, repealed § 29-9 in its entirety, which pertained to permit required to plant trees, etc. in public ways, and derived from the Code of 1950, § 52-17, and the Code of 1959, § 35-10.

Sec. 29-10. Duty of property owners to trim overhanging trees, etc., and remove debris.

It shall be the duty of the occupant, owner or agent of every premises in the city to keep all trees and shrubs on his premises well trimmed so that they will not overhang the sidewalks or streets in such manner as to interfere with free passage over the same. Such abutting property owners, occupants and agents shall further keep the streets and sidewalks adjoining their property free from debris.
(Code 1950, § 52-10; Code 1959, § 35-11)

Sec. 29-11. Maintenance of sidewalks, parkways, curbs and driveways by abutting owners.

(a) It shall be the duty of any property owner, or person, firm or corporation making special use of any sidewalk, curb, parkway or driveway for purposes of ingress and/or egress, or regress for loading, unloading, loading elevators, downspout drains or any other specific use to keep the sidewalks, parkway, curb and driveway abutting said property in a good and safe condition and free from any defects and hazards.

(b) It shall be the duty of the owner of abutting property or any special user, upon receipt of written notification by the director of public works or any of his subordinates, of any defects or dangerous condition of any unsafe and dangerous defect in any sidewalk, curb, gutter, parkway or driveway to repair the same and put it in a safe condition, free from defect and hazard, within thirty (30) days from date of receipt of such notice.

(c) The abutting property owner or person enjoying the use of any property abutting upon any sidewalk, curb, parkway or driveway, or any abutting owner or person who is making special use of any sidewalk, curb, parkway or driveway which is or has become defective and has resulted in

causing damage either to person or property or both as a result of such defective condition, shall be primarily liable and shall and will indemnify and save harmless the city from and against any and all actions, claims, damages, costs and expenses which may be suffered by the city all in such manner as to save the city whole and harmless from all such actions, claims, damages, costs and expense, and such primary liability and indemnity shall exist without regard to whether or not notice of injury, or of such defect has been given the city as provided by section 150 of article XII of the city charter.

(d) Any violation of this section or any provision hereof shall be deemed a misdemeanor and upon conviction, the person or persons found guilty shall be subject to the penalty prescribed in section 1-5.
(Code 1959, § 35-27.1)

Sec. 29-12. Grant of use of streets to utilities and carriers.

It shall be unlawful for any person to use any street or grounds of the city for the purpose of conducting and operating thereon any character of public utility or the business of a common carrier or any other character of business, unless the right to do so is granted by an ordinance duly passed by the city council.
(Code 1950, § 52-19; Code 1959, § 35-12)

Sec. 29-13. Curb cuts, prohibited in certain areas.

No permit shall be issued for construction of any curb cut or driveway leading on to those portions of Commerce Street and Houston Street which lie between Main Avenue and Alamo Street unless the proposed driveway conforms to all of the following requirements:

(1) There shall be a sight triangle adjoining each side of the driveway which shall extend ten (10) feet from the edge of the driveway along the front property line and six (6) feet into the property. Within such area there shall be no wall, vegetation or other obstruction of any nature to interfere with vision of drivers or pedestrians, except that there may be within such area one (1) column supporting a building; provided, no horizontal dimension of such column which is perpendicular to any possible sight line through the sight triangle shall exceed twenty-four (24) inches.

(2) There shall be a warning system using audible or visible signals to warn pedestrians of existing vehicles.

(3) Sufficient off-street storage area shall be provided to prevent the use of street or sidewalk area for storage and to prevent the backing up onto the street or sidewalk area of vehicles using the driveway.

(4) Where the curb cut or driveway is to be used in connection with a parking facility for automobiles, the design of the parking facility shall be such that the width of the driveway and the direction of traffic flow shall conform to sound traffic engineering principles.

(Ord. No. 22395, § 1, 2-23-56; Ord. No. 27549, § 1, 5-7-59; Code 1959, § 35-13)

Sec. 29-14. Duties of public service corporations when improvements to be made.

(a) All public service corporations lawfully having rails, tracks, mains, pipes, poles, conduits, wires or other fixtures or appliances in the public streets of the city are required to take notice of any resolution of the city council and the advertisement inviting bids for the permanent improvement of any street.

(b) It shall be the duty of each public service corporation, after first obtaining a proper permit from the city authorities, to lay, place, repair or renew, in such time and manner as not to hinder or interfere with such work of improvement, all proper rails, tracks, mains, conduits, pipes or other fixtures and appliances, of such size, condition, character, material, weight and arrangement as to suffice fully for all the needs of the service to be rendered by or which may reasonably be required of such public service corporation on such street for and during the period of at least ten (10) years from and after the time of such

improvement, so that it may not be necessary to disturb the pavement of such street for any such purpose during such period.
(Code 1950, § 52-81; Code 1959, § 35-14)

Sec. 29-15. Repairs to buildings after setbacks.

(a) Whenever the city council shall order or authorize the opening or widening of any street and it may become necessary to cut or set back any building or structure on such street to conform to the new property and street line to be established, the owners of property abutting thereon shall be permitted, on application to the director of building inspections, to repair or reconstruct such parts of such building or structure as may be required to replace any parts of the same cut away or removed, with the same style of construction and materials as may conform to the building.

(b) This section shall not authorize the construction of any wooden building or structure or roofs of any combustible materials in districts where such materials are forbidden.

(c) The building may be extended at the rear of the building by a structure corresponding in size to the part cut away. Such extensions shall be constructed under the provisions of this section.
(Code 1950, § 52-82; Code 1959, § 35-15)

Sec. 29-16. Reserved.

Editor's note—Ord. No. 65513, § 2(d), adopted Aug. 13, 1987, provided in part for the deletion of former § 29-16 relative to standard street curb and sidewalk requirements for certain new construction. The provisions of former § 29-16 derived from Code 1959, § 35-87 and Ord. No. 41480, § 1, adopted Nov. 16, 1972.

Sec. 29-17. Specifications.

All sidewalks, cross walk-ways, drive approaches, curbs and combination curb and gutter shall comply with and be in accordance with the specifications for curbs and sidewalks set forth in this chapter and as outlined in chapter 30 of this Code.
(Code 1959, § 35-88; Ord. No. 41480, § 1, 11-16-72)

Sec. 29-18. City's liability not extended by granting permits, leases, etc.

No ordinance or other proceeding of the city council, and no act thereunder by any official of the city, and no failure on the part of the city to object to the use by any person for basement or other purposes of any space under any sidewalk in any public street or place of the city shall be taken to evidence any grant of, or lease or consent by the city to any permanent right to the use of such space; but the city shall at all times have the right and power to revoke any permission given for the use of such space, or to take and use, or cause to be taken and used, any and all such space when needed for public use.
(Code 1950, § 52-32; Code 1959, § 35-28; Ord. No. 30271, § 2, 4-11-62)

Sec. 29-19. Reserved.

Editor's note—Ord. No. 2007-08-30-0913, § 3, adopted August 30, 2007, repealed § 29-19 in its entirety, which pertained to fees for street name changes, and derived from Ord. No. 60446, §§ 1—3, adopted March 21, 1985.

Sec. 29-20. Placement and maintenance of appurtenances prohibited on sidewalks and rights-of-way improved in the Tri-Party Downtown Transportation Improvements Project.

(a) For purpose of this section, the following terms shall have the meanings as indicated:

Appurtenance shall mean any accessory or subordinant building, object or structure, fence, street furniture fixture, trash receptacles, planters, vending machine (excluding newspaper vending machine), fountain, public artwork, or bicycle rack located within the city public right-of-way. Newspaper vending machines are specifically addressed by separate ordinance.

Designated street shall mean any street or public right-of-way which has been or will be improved or reconstructed under the Tri-Party Downtown Transportation Improvements Plan, as set out in the list on Attachment A, attached hereto and incorporated herein.

Person shall mean an individual, corporation, partnership, firm, or association.

(b) It shall be unlawful for a person to knowingly place or maintain an appurtenance on a sidewalk or public right-of-way abutting a designated street.

(c) It shall be unlawful for a person to knowingly cause another person to place or maintain an appurtenance on a sidewalk or public right-of-way abutting a designated street. For purposes of this section, a person knowingly causes another person to place or maintain an appurtenance when he aids, directs, hires, or enters into a contract with another person for the aforementioned purpose.

(d) Any person placing or maintaining an appurtenance in violation of this section shall, upon conviction, be punished by a fine of not less than one hundred dollars ($100.00) nor more than five hundred dollars ($500.00). In addition, any appurtenance found to be in violation hereof may be identified by placing thereon a highly visible and easily read notice stating that the appurtenance is in noncompliance and must be removed within seventy-two (72) hours. If the appurtenance is not removed, the city may remove same and dispose of it at a police department auction of unclaimed or abandoned property and in accordance with the procedures and practices governing such auctions.

(e) This section shall become effective on April 15, 1989, for Tri-Party Downtown Transportation Improvements on which construction has been completed and for which beneficial occupancy by the city has occurred. It shall take effect on other Tri-Party Downtown Transportation Improvements streets at subsequent completion milestones as indicated on the Construction Phasing Timetable as shown in Attachment B.

(Ord. No. 69131, §§ 1—5, 3-23-89)

Editor's note—Ord. No. 69131, §§ 1—5, adopted March 23, 1989, did not specifically amend the Code and at the discretion of the editor said provisions have been included herein as § 29-20. Attachments A and B referred to in § 29-20 have not been set out at length herein but are on file and available for inspection in the offices of the city.

Cross reference—Newspaper vending machines in area of Tri-Party Downtown Transportation Improvements, § 16-321 et seq.

Sec. 29-21. Compensation for costs associated with restoration, reconstruction and repair of damage to Tri-Party Downtown Transportation Improvements.

(a) It shall be the responsibility of the persons and/or utility companies that damage or disturb public Tri-Party Downtown Transportation Improvements, which are generally indicated by location in Attachment I hereto, as may be amended to include further future and similar improvements, to compensate the City of San Antonio for actual costs of labor, equipment, materials and overhead associated with city public works department restoration, reconstruction and/or repair of said improvements in general accordance with Tri-Party Design Plans and Specifications.

(b) Persons and/or utility companies causing construction, excavation or demolition to take place within or under, the public Tri-Party Downtown Transportation Improvements shall be responsible to construct bedding and initial backfill in the excavation up to an elevation to be determined in each instance by the city engineer, at which point Tri-Party specified backfill subgrade or base will be constructed by the city public works department. That initial construction of bedding and initial backfill by the person and/or utility company, shall be accomplished in accordance with prudent civil and utility engineering and construction standards. This city public works department construction is a means to assure that the Tri-Party Improvements restoration, reconstruction and/or repair may be successfully placed above such initial construction, excavation or demolition conducted by persons and/or utility companies.

(c) Tri-Party Improvements pavement, including subgrade, base course(s), and surface course, will be replaced by city public works department forces to generally conform to design sections indicated on applicable construction documents for the Tri-Party Downtown Transportation Improvements Project. These construction documents shall include drawings and specifications as originally prepared by:

Package 1—Johnson, Johnson & Roy, Inc. and others;

Package 2—Ford, Powell & Carson and others;

Package 3-LAN/Saldana and Amphion Environmental;

and any and all changes or modifications to those documents made during the course of original construction as evidenced in the "as-built" record drawings.

Where, in the opinion of the director of public works, it is necessary for the city public works department to modify original construction methods, materials, or design to achieve the intent of the original Tri-Party Improvements design, those additional changes shall also be incorporated by the city in the Tri-Party Improvements restoration, reconstruction and/or repair, and paid for by the person and/or utility company.

(d) Any person or utility company considering construction, excavation, or demolition activity within, or under the Tri-Party Improvements shall in advance of same, submit design plans to the city's building inspector for review and comment and shall secure proper permits and/or approvals and pay appropriate fees as otherwise required by the San Antonio City Code. Additionally, the person or private utility company that intends to disturb Tri-Party Improvements shall post a bond, make a cash deposit with the city, or provide other suitable forms of financial security as determined by the city's building inspector in an amount that approximates the projected costs of inspection/observation, labor, equipment, materials, and overhead associated with the city public works department restoration, reconstruction and/or repair activities as estimated in writing and in advance

of construction by the city engineer. Upon completion of the work conducted by the public works department, the person or utility company shall be presented with a final invoice stating the actual costs incurred by the public works department listed by general accounting categories. Within thirty (30) days of city issuance of the final invoice to the person or utility company, reimbursement to the city shall occur. Upon satisfactory payment of the invoice, the city shall release any remaining forms of financial security posted by the person or private utility company.

(e) Emergency conditions requiring immediate response by affected parties warrant the city's building inspector to exercise hereby authorized discretion to waive and/or modify normal standard procedures outlined herein and to promulgate special written conditions to expeditiously address the resolution of the emergency conditions.

(f) To the maximum extent permitted by applicable law, this section shall apply to previously authorized franchise agreements and licenses or contracts allowing use of the city's public right-of-way.

(g) Conviction for violation of this section shall be punishable by a fine in San Antonio Municipal Court not to exceed five hundred dollars ($500.00), and city council hereby directs that any said fines collected be deposited into Fund No. 29, Project 014000, Streets/Drainage Maintenance and Improvement Fund.

(Ord. No. 69219, §§ 1—7, 4-6-89)

Editor's note—Ord. No. 69219, §§ 1—7, adopted April 6, 1989, did not specifically amend the Code and at the discretion of the editor said provisions have been included herein as § 29-21. Attachment I referred to in § 29-21 has not been set out at length herein but is on file and available for inspection in the offices of the city.

Secs. 29-22—29-35. Reserved.

Editor's note—Ord. No. 2007-01-11-0065, § 2, adopted January 11, 2007, repealed §§ 29-22 and 29-23 in their entirety. Formerly, §§ 29-22 and 29-23 pertained to the sale of land processing fee; real estate fee; public right-of-way license fee; reduction and waivers; lease transfer fee, and fees for cell towers on city-owned property, respectively, and derived from Ord. No. 99729, § 1, adopted September 16, 2004, and Ord. No. 2006-09-07-0996, § 1, adopted September 7, 2006.

ARTICLE II. STREET NUMBERING

DIVISION 1. GENERALLY*

Secs. 29-36—29-50. Reserved.

DIVISION 2. STREET NUMBERERS†

Sec. 29-51. License required; application for license; numbering specifications; penalty.

(a) *License required.* It shall be unlawful for any person to maintain, own or operate a business which engages in painting house or street numbers on curbs or driveway approaches for pay, or to paint house or street numbers on curbs or driveway approaches for pay, unless said person has been issued a license for such business from the city, or is an employee of such a licensed person.

(b) *Application for license, contents; fees; term, nonassignability.*

(1) Application for such a license required by this division shall be made to the department of building inspections and shall contain the correct name and address of the applicant, including the office address and telephone number where the business may be contacted.

(2) The fee for the initial license shall be twenty-five dollars ($25.00).

(3) A license shall be good for one (1) year.

(4) A fee of twelve dollars and fifty cents ($12.50) shall be charged for each annual renewal.

(5) No license issued pursuant to this division shall be assignable or transferrable.

***Editor's note—**Ord. No. 65513, § 2(d), adopted Aug. 13, 1987, provided in part for the deletion of former Div. 1, §§ 29-36—29-40 relative to general street numbering provisions. Former §§ 29-36—29-40 derived from Code 1950, §§ 52-2, 52-4—52-7; Code 1959, §§ 35-1—35-3.1, 35-4.3; Ord. No. 42254, §§ 1, 2, adopted May 24, 1973; and Ord. No. 57453, § 3, adopted Aug. 18, 1983.

†**Cross references—**Licenses and business regulations, Ch. 16; size and specifications for street numbers in subdivisions, § 35-4134.

(c) Street numbers.

(1) *Numbering system.* The numbering of all structures fronting on public streets shall be in conformity with the following system:

a. Commerce Street, with its continuations to the city limits, shall divide the city north and south and the San Antonio River shall divide the city east and west. Each street crossing the established east and west base line (Commerce Street) shall have the word "north" or "south" prefixed to its name proper, according as the line of such street shall be north or south of such established east and west base line. Each street crossing the established north and south base line (San Antonio River) shall have the word "east" and "west" prefixed to its name proper, according as the line of such street shall be east or west of such established north and south base line.

b. The odd numbers shall apply to the north and west sides of the streets, and the even numbers to the south and east sides of the streets. The first block will be numbered from 100 up, the second block from 200 up, the third block from 300 up, and so on.

c. Tracts of land longer than five hundred (500) feet that have not as yet been subdivided in blocks and streets will be allowed ten (10) numbers to approximately every two hundred fifty (250) feet.

(2) *Conflicting street numbers.* Any old number in conflict with the number given by the director of building inspections shall be removed and any person refusing or neglecting to remove the same shall be guilty of an offense.

(3) *Where and by whom street numbers to be affixed.*

a. To ensure uniformity and regularity in the numbering of structures, it shall be the responsibility of the owner of any structure fronting on a public street to place numbers on the structure in so conspicuous a manner that the number may be easily discernible from the opposite side of the street.

b. If any structure shall be located too far back from the street for a number on its front to be easily seen and read from the opposite side of the street, or the front of the structure is hidden, or the view obstructed by trees, plants, shrubbery or other objects, then the number of such structure and premises shall be placed on a plank or post in a conspicuous part of the premises whereon the structure is located.

(4) *Size and specifications for street numbers.*

a. Each street number shall be of any durable material.

b. All numbers painted on curbs or driveway approaches shall be black on a white rectangular background, or white on a black rectangular background, and of a durable and waterproof finish.

c. The numbers on curbs shall be a minimum of three (3) inches in height, with the background at least one (1) inch higher than the digits, and extending at least one and one-half (1½) inches beyond the digits on both ends. The width of the digits shall be in proportion to the height. A one (1) inch distance shall be maintained between figures.

d. The rectangular background shall be no more than twenty (20) inches in length.

e. The street numbers may be on the driveway approach or curb. If on the curbs, they shall be placed not more than two (2) feet from the driveway at the nearest point. If the lot has no front driveway, the numbers shall be centered on the lot.

(d) *Penalty for violation.* It shall be unlawful for any person to paint or have an employee paint such numbers on curbs or driveway approaches without a license, or other than in accordance with this division. Upon conviction for violation hereof, a licensee shall be punished by fine of not less than one dollar ($1.00) nor more than two hundred dollars ($200.00).
(Code 1959, §§ 35-4.1, 35-4.2; Ord. No. 57453, §§ 1—4, 8-18-83)

Editor's note—At the direction of the city, street numbering provisions as set out in Code §§ 35-4131—35-4134 (derived from Ord. No. 65513, § 2(i), adopted Aug. 13, 1987) have been transferred to Ch. 29, Art. Il and at the discretion of the editor also set out within § 29-51(c).

Cross reference—Similar provisions regarding subdivision street numbers, § 35-4131 et seq.

Secs. 29-52—29-65. Reserved.

ARTICLE III. SIDEWALK AND CURBING CONTRACTORS

Sec. 29-66. "Contractor" defined.

For the purposes of this article, the term "contractor" shall mean any person undertaking or doing any work of constructing sidewalks, curbing or gutters.
(Code 1959, § 35-61; Ord. No. 40639, § 1(1), 4-27-72)

Sec. 29-67. License required.

It shall be unlawful for any contractor to make any excavation or commence or prosecute any such work in any part of any public street, sidewalk or other public place in the city without first obtaining a license therefor. The license shall remain unsuspended and in effect at the time when the excavation or construction for the work is in good faith actually commenced or prosecuted on the ground.
(Code 1959, § 35-61; Ord. No. 40639, § 1(1), 4-27-72)

Sec. 29-68. Application for license; information required.

Every contractor desiring to engage in the business or occupation of constructing sidewalks, curbing or gutters in public streets or other public places shall make, sign and file with the director -of building inspections an application in writing, requesting the issuance of a license by the city to such contractor authorizing such contractor to engage in such business or occupation. The application shall list each person expected to manage or superintend the performance of the work for the applicant, and shall also state the names of each person owning or holding any financial interest or share of stock in any corporation applying for the license, and for each person so required to be mentioned, application shall also state the experience of the person in such construction work, stating when, how and where, and during what periods such experience was gained, and shall also state whether or not the applicant has duly conformed to all requirements of the city as to all such work theretofore done by applicant in the city and if not, why not.
(Code 1959, § 35-62; Ord. No. 40639, § 1(2), 4-27-72)

Sec. 29-69. False statements in application for license.

Any false or misleading statement made in any such application for a license required by this article shall be sufficient grounds for the director of building inspections to suspend any license granted thereon.
(Code 1959, § 35-63; Ord. No. 40639, § 1(3), 4-27-72)

Sec. 29-70. Approval or disapproval of application for license.

Each application for a license required by this division shall, before being so filed, be presented by the applicant to the director of building inspections who shall be authorized to approve it by his signature, or to withhold such approval in the event he be of opinion that sufficient reason exists why such license should not be granted.
(Code 1959, § 35-64; Ord. No. 40639, § 1(4), 4-27-72)

Sec. 29-71. Appeal from disapproval of license application.

If the application for a license required by this article is not approved by the director of building

inspections, the director shall, if requested by the applicant, present the application to the city council which shall fix a date for a hearing of the matter and cause the notice thereof to be given to the applicant. Upon the hearing being had, the city council may either reject the application or approve the same on such conditions as they may order.
(Code 1959, § 35-65; Ord. No. 40639, § 1(5), 4-27-72)

Sec. 29-72. Issuance of license.

If an application for a license required by this article is approved, the director of building inspections shall, upon payment by the applicant of the required fee and posting of the required bond, issue to the applicant a written license for a period of one (1) year beginning at the first day of January through the last day of December.
(Code 1959, § 35-66; Ord. No. 40639, § 1(6), 4-27-72; Ord. No. 42160, § 1, 5-3-73)

Sec. 29-73. License not transferable.

A license issued pursuant to this article shall not be transferable, and it shall be unlawful for any contractor to sublet any work without the written consent of the director of building inspections, and then only to another duly licensed contractor.
(Code 1959, § 35-67; Ord. No. 40639, § 1(7), 4-27-72)

Sec. 29-74. License fee.

For each such license issued, the department of building inspections shall collect, and receive, for the use of the city, a license fee of sixty dollars ($60.00). The fee for issuing a duplicate license for one lost, destroyed or mutilated shall be fifty dollars ($50.00).
(Code 1959, § 35-68; Ord. No. 40639, § 1(8), 4-27-72; Ord. No. 45535, § 9, 7-24-75; Ord. No. 49627, § 22, 7-27-78; Ord. No. 52523, § 16, 7-24-80; Ord. No. 61329, 8-29-85; Ord. No. 2008-09-11-0777G, § 16, 9-11-08)

Cross reference—Fee schedule, § 6-3.

Sec. 29-75. Implied agreement of applicant or licensee.

Every person making application and receiving a license under this article shall be held to have agreed to perform, observe and comply with all the terms, stipulations, conditions and provisions of this chapter, which provisions shall be and become a part of every contract or agreement for such work which may be hereafter made or entered into by and between a contractor and any property owner.
(Code 1959, § 35-69; Ord. No. 40639, § 1(9), 4-27-72)

Sec. 29-76. Suspension of license.

In the event any contractor shall fail or refuse to conform to the provisions of this chapter, or fail or refuse to obey the instructions of the director of building inspections or fail or refuse to comply with any provision of any contract made by such contractor consistent with this chapter, or in the event any contractor shall fail or refuse to provide any additional bond when required by this chapter, then the director of building inspections shall be authorized by written notice to such contractor to suspend the license of such contractor, cancel all unexecuted permits issued to such contractor, and stop all work being done by him, and to withhold from him all further permits for such work, until any or all incomplete or defective work of such contractor, or other objection, shall be fully and completely remedied by such contractor, and such suspension set aside by written notice from the director delivered to such contractor, and in case such failure or refusal by contractor be, in the opinion of the director, willful or persistent, the director may decline to set aside such suspension, and such contractor shall, in such case, if he desires to have such suspension set aside, petition the city council therefor, who shall determine such matter after due notice and hearing.
(Code 1959, § 35-70; Ord. No. 40639, § 1(10), 4-27-72)

Sec. 29-77. Permit for work required.

Before proceeding with any work or placing any materials on the ground by or for any con-

tractor, the contractor shall make, sign and file with the director of building inspections a written application for a permit authorizing the work, which application shall be in such form as may be required by the director. The application shall include the lines, grades and specifications for the work. The director, subject to the provisions of this Code and upon payment of the permit fee, shall issue to such contractor a signed permit in writing which, among other things, shall be dated, name the contractor and property owner, and contain a receipt for the permit fees, and describe the character and location of the work, and authorize such work to be executed as herein provided. The permit shall remain unsuspended and in effect at the time when the excavation or construction work is in good faith actually commenced or prosecuted on the ground.
(Code 1959, § 35-71; Ord. No. 40639, § 1(1), (11), 4-27-72)

Sec. 29-78. Life of permit.

All work authorized by a permit issued under this article shall be commenced within six (6) months after date of issuance and thereafter continuously prosecuted. Further time will be allowed only if an extension of time be granted by the director of building inspections.
(Code 1959, § 35-72; Ord. No. 40639, § 1(12), 4-27-72)

Sec. 29-79. Renewal of permit; work to conform to permit.

No work shall be done under any permit issued under this article except as stated in the permit. If the permit is allowed to expire, the contractor shall apply for and procure a new permit, paying the fee therefor as before, before proceeding with any such work.
(Code 1959, § 35-73; Ord. No. 40639, § 1(13), 4-27-72)

Sec. 29-80. Fees; refunds.

(a) The fees for permits and inspections coming within the terms of this article shall be as follows:

(1) *Sidewalks,* nine cents ($0.09) per square foot.

(2) *Curbing,* nine cents ($0.09) per running foot.

(3) *Gutters,* eight cents ($0.08) per running foot.

(4) *Combined curbs and gutters,* eight cents ($0.08) per running foot.

(5) *Reinspections,* twenty-five dollars ($25.00).

(b) No permit shall be issued for less than a fee of one dollar ($1.00) in any case based on the work authorized, and the fee in each case shall be paid to the director of development services upon issuance of the permit.

(c) The director of development services shall keep, or cause to be kept, as a record of his office, a copy of each permit and receipt issued.

(d) If a job for which a permit has been issued under this article is not started, the permittee may apply for a refund of said permit fee to the director of finance within one hundred eighty (180) days of the date of the issuance of said permit. The director of finance will forward such application with a recommendation to the city manager for approval. The city manager may authorize the refund of any portion of the permit fee; however, in every such case the city shall retain not less than five dollars ($5.00) of the permit fee.
(Code 1959, §§ 35-74, 35-61; Ord. No. 40639, § 1(14), 4-27-72; Ord. No. 45545, § 20, 7-24-75; Ord. No. 45565, § 6, 8-7-75; Ord. No. 49627, § 17, 7-27-78; Ord. No. 59311, § 9, 9-4-84; Ord. No. 61329, 8-29-85; Ord. No. 76463, § 11, 9-10-92; Ord. No. 2008-09-11-0777G, § 16, 9-11-08)

Sec. 29-81. Bond required.

A good and sufficient bond shall be filed with the application for the license required by this article, executed by a bonding company, which bond shall be approved by the director as to form and sufficiency and shall be in the sum of not less than two thousand dollars ($2,000.00). The bond shall be conditioned, among other things, that the contractor shall faithfully, at his own cost and expense, furnish all proper materials, tools and appliances, and perform, execute, construct and complete all such work undertaken by such contractor, and observe and comply with the specifi-

cations, requirements and provisions of this chapter. The bond shall remain in effect at the time when excavation or construction for the work is in good faith actually commenced or prosecuted on the ground.
(Code 1959, § 35-75; Ord. No. 40639, § 1(1), (15), 4-27-72)

Sec. 29-82. Maintenance provisions in bond.

(a) Every contractor licensed under this article shall be bound and obligated to construct all work, and use such materials in the construction thereof, so that the same shall be and remain for and during a period of not less than one (1) year from and after the date of completion in good, sound, smooth and serviceable condition and free from all cracks, breaks, disintegration, undue wear, scaling or departures from true line or grade, or other defects which might impair the permanence or usefulness of the work; however, such cracks as may appear in expansion joints, or cuts between blocks, shall not be deemed to be defects unless in the opinion of the director of building inspections such cracks are excessive in opening or deflection of surface.

(b) Each such bond issued pursuant to this article shall continue in effect for and during the maintenance period of one (1) year as to all work constructed or commenced in good faith on the ground during the period of the license in connection with which the bond may be given.
(Code 1959, §§ 35-76, 35-77; Ord. No. 40639, § 1(16), (17), 4-27-72)

Sec. 29-83. Withdrawal of surety on bond.

On written notice to the director of building inspections and the contractor, any surety on a bond issued pursuant to this article may withdraw from all liability thereon on account of any and all further work undertaken by the contractor for which excavation or construction was not in good faith actually begun on the ground before the delivery of the notice, and after receipt of the notice the contractor shall not begin any new work unless and until the contractor shall provide and procure the approval of a new bond in the same manner as required for the first bond.
(Code 1959, § 35-79; Ord. No. 40639, § 1(19), 4-27-72)

Sec. 29-84. When additional security required.

If the director of building inspections shall be of opinion at any time and on any reasonable grounds that the solvency of or financial responsibility on any bond of any contractor is or may be insufficient or materially reduced by actual or possible claims, then the director may make written demand on such contractor for an additional bond which shall be of corresponding amount, form and sufficiency, and thereupon such contractor shall immediately furnish such additional bond. The previous bond shall not be held to cover any work not actually begun as aforesaid, before the date of such new bond, but all work begun after such date shall be covered by such new bond.
(Code 1959, § 35-78; Ord. No. 40639, § 1(18), 4-27-72)

Sec. 29-85. Decision of director binding on contractor and sureties.

In any question as to when any work was actually begun, the decision of the director of building inspections shall be conclusive on the contractor and the sureties on all such bonds.
(Code 1959, § 35-80; Ord. No. 40639, § 1(20), 4-27-72)

Sec. 29-86. Removal and reconstruction where work defective.

All construction work in the streets, sidewalks and public places of the city is declared to be wholly subject to the exclusive control of the city, and whenever, in the opinion of the director of building inspections, any such work shall not have been duly completed within a reasonable time or shall have been executed in a defective manner, whether because of bad workmanship or materials or because not true to the lines or grades or specifications therefor given to him by the city engineer, then upon written demand or notice from the director, such contractor shall promptly remedy, complete or remove and reconstruct such incomplete or defective work all as the director may require, and these provisions shall also comprehend and apply to all repair and maintenance work. If the contractor shall fail or refuse so to do within a reasonable time to be

specified by the director of building inspections, then, if the director shall so order, such work shall be completed or corrected or removed and wholly or partially reconstructed by the city, or its instance, in such manner as in the opinion of the director may be necessary to make such work as good as originally required, and such work may be done by contract or otherwise, under the provision of this chapter and the direction of the director.
(Code 1959, § 35-81; Ord. No. 40639, § 1(21), 4-27-72)

Sec. 29-87. Liability of contractor and sureties for defective work.

A contractor whose work is completed by the city shall, on completion of the work and according to the certified bill of the cost thereof to be prepared by the director of building inspections, pay to the city, on its order, the cost of the work for all of which the sureties on the contractor's bond shall be liable as such sureties.
(Code 1959, § 35-82; Ord. No. 40639, § 1(22), 4-27-72)

Sec. 29-88. Liability of contractor and sureties for maintenance and repair work.

If any defects develop during the one (1) year guaranty period established by this article which, in the opinion of the director of building inspections, are due in any measure to defects of workmanship or material, such contractor shall remedy, repair or reconstruct such work, or any part thereof, as may be required by the director, and such work shall be known as maintenance or repair work and the sureties or contractor's bond shall be fully liable for any default of such contractor under this section.
(Code 1959, § 35-83; Ord. No. 40639, § 1(23), 4-27-72)

Sec. 29-89. Duty to barricade, light, etc.

At all times during which any work under a contract coming within the provisions of this article is being performed and until the work is completed and accepted, the contractor shall place and maintain all necessary and proper barriers and other safeguards, including watchmen, if necessary, upon and around the work for the prevention of accidents, and at night shall place, maintain and keep suitable and sufficient lights.
(Code 1959, § 35-84; Ord. No. 40639, § 1(24), 4-27-72)

Sec. 29-90. Indemnification of city for accident.

A contractor doing work pursuant to this article shall indemnify and save harmless the city from and against any and all actions and claims, and against all costs, damages and expenses to which the city may be put by reason of any injury or alleged injury to any person or property, resulting or alleged to result from or to be occasioned by any act, negligence, carelessness or want of skill in connection with or in the conduct of any of said work or in guarding such work, or from any improper methods, tools, implements or materials used in its prosecution, or by or on account of any alleged act or omission whatever of such contractor or his agent, employees or servants, or of any assignee or subcontractor or his agents, employees or servants. Such contractor and his bondsmen shall well and truly make payment of any and all sums so recovered against the city in any suit on account of such injuries to which the city may be made a party, together with all such costs, damages and expenses as may be suffered by the city, all in such manner as to save the city whole and harmless from all such actions or claims.
(Code 1959, § 35-85; Ord. No. 40639, § 1(25), 4-27-72).

Sec. 29-91. Actions on bond by property owner.

Whenever the director of building inspections shall declare in writing that a contractor has failed or refused to construct and complete any such work in conformity with this chapter, either the city or any contracting property owner injured on the contract may sue and recover his damages on the bond required by this article.
(Code 1959, § 35-86; Ord. No. 40639, § 1(26), 4-27-72)

Secs. 29-92—29-105. Reserved.

ARTICLE IV. EXCAVATIONS

DIVISION 1. GENERAL PROVISIONS

Sec. 29-106. Administration.

The director is the principal city official responsible for the administration of the right of way, right of way permits, the regulation of same and ordinances related thereto. The director may delegate any or all of the duties hereunder.

(1) The position of right-of-way manager in the public works department is hereby established. The right-of-way manager in the public works department shall have the same duties, responsibilities and authority as specified for the director stated herein.

(2) The position of utility coordinator in the public works department is hereby established. The utility coordinator shall supervise utility construction projects and utility inspections.

(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-107. Definitions.

The following definitions apply in this chapter of the city Code. The terms, phrases, words, abbreviations, and their derivations shall have the same meanings herein. When not inconsistent with the context, words used in the present tense include the future; words in the plural number include the singular number, and words in the singular include the plural. The word "shall" is mandatory and not merely permissive.

Abandoned facilities means facilities no longer in service or physically disconnected from the operating facilities, or from any other facilities that are in use or that still carry service.

Administrative fee means the fee charged by the city to recover its costs incurred for right-of-way management; including, but not limited to, costs associated with registering applicants; issuing, processing, and verifying right-of-way permit applications; inspecting job sites and restoration improvements; determining the adequacy of right-of-way restoration; revoking right-of-way permits and other costs the city may incur in implementing the provisions of this article.

Applicant means an owner or authorized agent of an owner, who submits an application for a permit under these provisions of the city Code.

Area of influence means that area around a utility excavation where the pavement and subgrade is impacted by the excavation and is subject to more rapid deterioration due to the trench excavation.

Certificated telecommunications provider or *CTP* means a person who has been issued a certificate of convenience and necessity, certificate of operating authority, or service provider certificate of operating authority by the Texas Public utility Commission or "PUC" to offer local exchange telephone service as defined by Section 283 of the Local Government Code or "the Act."

City means the City of San Antonio.

Contractor means any public or private person or organization, other than the city.

Day means business day unless otherwise specified.

Department means the department of public works or a successor department that is responsible for management of the right of way and roadway infrastructure.

Director means the director of the city department of public works, or his or her designee.

Emergency operations are defined as those operations and repairs necessary to prevent damage or injury to the health or safety of the public or any person and the work necessary to address a service interruption. Upgrading of facilities, new service installation and neighborhood improvement projects are not emergency operations.

Excavation means an activity that removes or otherwise disturbs soil, pavement, driveways, curbs, or sidewalks in the right-of-way and does not include landscaping activity unless the activity removes or disturbs the paved portion of the right-of-way.

Facilities means the plant, equipment, and property, including but not limited to lines, poles, mains, pipes, conduits, ducts, cables, micro network nodes, network nodes, node support poles, and wires located under, on, or above the surface of the ground within the right-of-way and valves, and related facilities and equipment used or useful for the provision of utility services.

FCC means Federal Communications Commission.

Governing body means the mayor and the city council of the city of San Antonio, Texas.

Governmental entity means any county, township, city, town, village, school district, library district, road district, drainage or levee district, sewer district, water district, fire district or other municipal corporation, quasi-municipal corporation or political subdivision of the State of Texas or of any other state of the United States and any agency or instrumentality of the State of Texas or of any other state of the United States or of the United States.

Micro network node means a network node that is not larger in dimension than twenty-four (24) inches in length, fifteen (15) inches in width, and twelve (12) inches in height, and that has an exterior antenna, if any, not longer than eleven (11) inches.

Network node means equipment at a fixed location that enables wireless communications between user equipment and a communications network. The term includes: equipment associated with wireless communications; a radio transceiver, an antenna, a battery-only backup power supply, and comparable equipment, regardless of technological configuration; and coaxial or fiber-optic cable that is immediately adjacent to and directly associated with a particular collocation. The term does not include: an electric generator; a pole; or a macro tower.

Network provider means a wireless service provider; or a person that does not provide wireless services and that is not an electric utility but builds or installs on behalf of a wireless service provider: network nodes; or node support poles or any other structure that supports or is capable of supporting a network node.

New street means the paved portion of the right-of-way that has been constructed, reconstructed, or resurfaced with an asphalt overlay, hot in place recycling, full-depth reclamation, reconstruction or other structural street maintenance treatment. "New street" includes all concrete paved streets, streets constructed or structurally resurfaced during the preceding seven years, for a collector or arterial street or during the preceding five (5) years for a residential street or alley or any street with a pavement condition index greater than eighty-five (85) as defined herein.

Node support pole means a pole installed by a network provider for the primary purpose of supporting a network node.

Pavement condition index (PCI) means a measure of the condition of the right-of-way on a scale of 1-100. The PCI is available through the department.

Pavement degradation recovery fee means the cost incurred by the city and the public associated with a decrease in the useful life of a street caused by excavations and failures in restoration of the right-of-way.

Permit means a permit issued under this chapter authorizing excavation in the right-of-way.

Permittee means any person or right-of-way user to whom a permit is issued to excavate a right-of-way.

Person means any person, company, partnership, agency or other public or private entity, excepting the city.

Pole means a service pole, a municipally owned utility pole, node support pole, or utility pole.

Registration means the application process of a ROW user to use any portion of the right-of-way.

Repair means the temporary or permanent construction work necessary to make the right-of-way useable.

Repair area means that area around an excavation where the pavement and subgrade is impacted by an excavation.

Restoration means the process by which an excavated right-of-way and surrounding area, including pavement and foundation, is returned to the same condition, or better, than existed before the commencement of the work.

Resurfacing means any repaving, overlay, seal or reconstruction which creates a new pavement surface over the entire width of the street, excluding crack seals and localized base and pavement repairs.

Right-of-way or *public right-of-way* means the surface of, and the space above and below, any street, road, highway, freeway, lane, path, drainage way, channel, fee interest, public way or place, sidewalk, alley, boulevard, parkway, drive, or other easement now or hereafter held by the city or over which the city exercises any rights of management or control and shall include but not be limited to all easements now held, or hereafter held, by the city but shall specifically exclude private property.

Right-of-way (ROW) user means a person, its successors and assigns, that uses the right-of-way for purposes of work, excavation, provision of services, and to install, construct, maintain, repair facilities thereon, including, but not limited to, landowners, utilities, service providers, and contractors.

Routine service operation means a work activity that makes no material change to the facilities and does not disrupt traffic.

Service means a commodity provided to a person by means of a delivery system that is comprised of facilities located or to be located in the right of way, including, but not limited to, gas, telephone, cable television, internet services, wireless service, open video systems, alarm systems, steam, electric, water, telegraph, data transmission, petroleum pipelines, or sanitary sewage.

Service pole means a pole, other than a municipally owned utility pole, owned or operated by a municipality and located in a public right-of-way, including: a pole that supports traffic control functions; a structure for signage; a pole that supports lighting, other than a decorative pole; and a pole or similar structure owned or operated by a municipality and supporting only network nodes.

Street means the pavement and sub-grade of a city residential, collector or arterial roadway.

Supplementary application means an application made to excavate or obstruct more of the right-of-way than allowed in, or to extend a permit that has already been issued.

TMUTCD shall mean Texas Manual on Uniform Traffic Control Devices, latest edition.

Transport facility means each transmission path physically within a public right-of-way, extending with a physical line from a network node directly to the network, for the purpose of providing backhaul for network nodes.

Utility shall mean any privately or publicly owned entity which uses public rights-of-way to furnish to the public any general public service, including, without limitation, sanitary sewer, gas, electricity, water, mobile services, telecommunications services, information services, cable services, video services, petroleum products, telegraph, heat, steam or chilled water, together with the equipment, structures, and appurtenances belonging to such entity and located within and near the right-of-way. Poles are regulated herein only as specifically set forth in this chapter.

UECM means Utility Excavation Criteria Manual, current edition.

White lining means marking the excavation site with white washable marking paint or flags prior to requesting a utility locate in order to further identify the site.

Wireless service means any service, using licensed or unlicensed wireless spectrum, including the use of Wi-Fi, whether at a fixed location or mobile, provided to the public using a network node.

Wireless service provider means a person that provides wireless service to the public.

(Ord. No. 93319, § 1, 1-25-01; Ord. No. 2016-11-10-0894, § 2, 11-10-16; Ord. No. 2017-08-31-0609, § 1, 8-31-17)

Sec. 29-108. Utility coordination committee.

Each utility shall name a utility coordinator who shall participate in the utility coordination committee.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-109. Field utility coordination.

(a) The ROW user shall notify the department at each of the following times during a project:

(1) Forty-eight (48) hours before the start of construction;

(2) Upon completion of the initial backfill; and

(3) Upon completion of the project.

(b) The ROW user shall mark the site of the proposed excavation with white lining and/or flags prior to making a request for locates and actual excavation. White lining is not required for excavations of more than sixty (60) feet long unless the excavation is located in pavers, cobblestone, pavements, sidewalks, or other public flatwork.

(c) The ROW user shall make a request for a utility locate not more than fourteen (14) days and not less than forty-eight (48) hours prior to the commencement of the proposed excavation. Such request shall be made to the state One-Call Center and the San Antonio Water System ("SAWS"). A request made using the One-Call Center (811) shall be made by telephone or facsimile and shall include the date, location, extent and reason for such proposed excavation. A request to SAWS shall be done via SAWS's website, www.saws.org.

(d) The use of markers, stakes, poles, barricades or other devices shall be used in such a way to avoid damage to adjoining property. The use of "non-washable" markers is prohibited.

(e) The ROW user shall mark the proposed excavation site with paint and/or flags in colors established by the One-Call System. The markings shall be placed a distance of not less than five (5) feet in all directions from the outside boundary of the site to be excavated.

(f) All excavations shall commence within fourteen (14) days of the date of the utility locate. In the event that the excavator fails to commence work within fourteen (14) days or the utility locate marks are not visible at the time the excavation is scheduled to commence, the ROW user is required to request a new utility locate.

(g) Compliance with the Texas Utilities Code is required at all times.

(h) All barricades, plates, cones, traffic directional equipment, and all other traffic control devices owned by the ROW user and used on or near any excavation shall be clearly and visibly marked with the name of the permittee and/or ROW user, as applicable, at all times such equipment is used on or near the right of way. An exception to the marking requirement may be made in the event the traffic control equipment is not owned by the permittee or ROW user.

(i) A network provider conducting routine maintenance on network nodes, including micro network nodes, or network support poles that do not require excavation or closing of sidewalks or vehicular lanes in the right-of-way as provided for in V.T.C.A., Local Government Code § 284.157, shall provide the right-of-way manager notice not more than fourteen (14) days and not less than forty-eight (48) hours prior to commencement of the planned routine maintenance.
(Ord. No. 93319, § 1, 1-25-01; Ord. No. 2017-08-31-0609, § 1, 8-31-17)

Sec. 29-110. Maps and records of registrants.

Each ROW user must maintain accurate maps and records of its facilities. The information shall be made available to the department within five (5) days of request by the department. The maps and records shall depict horizontal and vertical locations of all facilities in and near the right of way. The information shall be provided in electronic format compatible with city software or shall be subject to a conversion fee. Maps and records shall indicate horizontal location and a description of the facility for the area involved in the permit application and two (2) block radius. The department may have facilities located if the

ROW user does not provide the requested information. In such event the ROW user shall reimburse the cost to the city to locate the facilities.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-111. Notice.

Notice for purposes of this article shall be made to city via electronic message (e-mail), overnight courier (generally used carrier with tracing available), or hand delivery with signed receipt, facsimile to the department, or United States mail return receipt required.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-112. Registration.

All ROW users must register with the city within thirty (30) days of the effective date of the ordinance from which this article derives. Any person who is not an existing ROW user prior to the effective date of the ordinance from which this article derives and who wishes to become a ROW user must first register with the city. All ROW users shall report all changes in its registration information within thirty (30) days of such change. No ROW user shall be authorized to utilize the right-of-way in any capacity or manner without registering and obtaining the necessary right-of-way permit from the city.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-113. Registration information.

The information required for registration includes the following:

(1) Identity and legal status of ROW user and names of all operators of any facilities on the right of way.

(2) Name, address, telephone number, fax number and email address of officer, agent or employee responsible for the accuracy of the registration information.

(3) Name, address, telephone number, fax number and email address of the local representative of the ROW user who shall be available at all times to act on behalf of the ROW user in the event of an emergency.

(4) If applicable, certification number issued by public utilities commission.

(5) General description of services to be provided.

(6) Insurance and bonding information.

(7) Employee safety certification information.

(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-114. Employee safety certification.

The ROW user operating facilities or constructing facilities in any public right of way is responsible for the safe movement of pedestrian and vehicular traffic through the construction area. The ROW user shall obtain certification through a city approved training organization for a sufficient number of employees working within the right of way such that a certified employee is present at the job site during construction activities. The ROW user shall meet all requirements for barricading and traffic control as specified in the TMUTCD. Alternative training programs may be submitted to the director for city certification. Only those individuals who are qualified by means of adequate training in safe traffic control practices and have a basic understanding of the principles established by applicable standards and regulations, including those in TMUTCD, as evidenced by certification, shall place and maintain the traffic control devices in the construction area. Employee certificates shall be maintained current by ROW user at all times. An employee shall produce, upon request of an inspector or certified police officer, proof of a valid training certificate.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-115. Reserved.

Sec. 29-116. Reporting obligations.

All ROW users shall provide on demand, proof of any necessary permit, license, certification, grant, registration, franchise agreement or any other authorization required by any governmental entity, including, but not limited to, the city, State or Federal Government, including a description of the ROW user's intended use of the right-of-way, information sufficient to determine

whether the ROW user is subject to franchising or licensing by the city, and information to determine whether the ROW user has applied for and received any certificate of authority required by the PUC. The information provided shall be sufficient to determine that the ROW user has applied for and received any permit or other approvals required by the FCC. ROW users shall provide all such other information as may be reasonably required by the city to complete the registration statement.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-117. Permit required.

It is unlawful for any person, its agents, servants or employees to dig, plow, blast, make cuts, openings, bore, excavate or use the right-of-way for any purpose without first having made application and obtained a permit therefore. It is unlawful for any person, its agents, servants or employees to make or cause to be made any excavation in or under the surface of any right-of-way for the installation, repair or removal of any facilities, or for any other purpose without first obtaining from the director a permit in compliance with this chapter.

(1) Before issuing a permit, the director shall have been provided a written application, on a form furnished by the director, setting forth the name and residence or business address of the applicant; the location and approximate area of the excavation, including its approximate length and width, and, if the excavation is in a street, whether it is parallel or transverse to the direction of the travel lanes; and, the purpose of the excavation. The application form shall include plans prepared in accordance with city specifications.

(2) At the time the permit is issued, the applicant shall pay a nonrefundable application fee in an amount as provided for in this chapter.

(3) All sums paid to the city pursuant to this chapter, shall be deposited in a separate fund or funds and shall be expended only for the repair resurfacing, rehabilitation, reconstruction, or other improvement of city streets where excavation has occurred after the effective date of the ordinance from which this article derives.

(4) The proposed location, depth and other characteristics of any facilities for which the permit is issued shall be subject to approval of the director, and all backfilling, compaction and pavement restoration performed for any excavation shall comply with the requirements of this chapter.

(5) No fee or requirement authorized or imposed pursuant to this chapter shall be construed to affect or alter in any way any obligation of public and private utilities with facilities installed in any right-of-way to relocate the facilities at no cost to the city, subject to state law, if applicable, in the event that relocation is required by the city to accommodate a proper governmental use of the right-of-way.

[This page intentionally left blank.]

(6) Combinations of permits shall be permitted at the discretion of the director. Fees shall be assessed based on the excavations permitted.

(7) Subdivision monuments, historical markers, and any other signs or structures with foundations in the right-of-way, excluding billboards, are subject to this chapter.

(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-118. Excavation permit application.

Application for a permit shall be addressed to the director and made on a form furnished for that purpose, stating the extent, dimensions, character and purpose of the cut or excavation to be made, the location, by street and number if possible, where the work is to be done, and the time in which it is to be completed. The application form shall be accompanied by maps of the existing facilities in the area, to the extent available, and the location of the proposed facilities, methodology of construction; proposed start and completion dates.

(1) *Joint applications.* Applicants may apply jointly for permits to excavate the right-of-way at the same time and place. Applicants who apply jointly for a right-of-way permit may share in the payment of the permit fee. Applicants must agree among themselves as to the portion each shall pay. The city will recognize only one (1) point of contact.

(2) *Supplementary applications.* A permit shall only be valid for the area of the right-of-way specified within the permit. No permittee may cause any work to be done outside the area specified in the permit, except as provided herein. Any permittee who determines that an area greater than that which is specified in the permit must be excavated must:

a. Make application for a permit extension and pay any additional fees required thereby; and

b. Receive a new right-of-way permit or permit extension.

Permits will be issued or denied within ten (10) days of application. Unless granted for a longer period, an excavation permit shall be valid for thirty (30) days and for the dates specified in the permit. The applicant may request the permit be valid for such longer period as may be necessary in the circumstances, in advance, as part of the application. The city may approve or deny the application for such extended permit period. No permittee may commence work before the permit start date or, except as provided herein, may continue working after the end date. If a permittee does not complete the work by the permit end date, the permittee must apply for and may receive a new right-of-way permit or a permit extension for additional time. This supplementary application must be submitted to the city prior to the permit end date.

An expedited permit may be requested, and shall be issued within two (2) days of application upon a showing of good cause.

(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-119. Issuance of permit.

Every person making application for a permit in accordance with the provisions of this chapter and having complied with such provisions shall be entitled thereto, and, upon filing such application with the director, it shall be his duty to issue the permit, when the provisions of this chapter shall have been complied with.

(1) Upon receiving a written application for an excavation permit and a plan prepared in accordance with city specifications, the director's designee shall set forth all requirements, approve or disapprove the application, sign and return it to the applicant. Excepting only emergency excavations, at least one (1) working day prior to the start of work, the applicant shall telephone the city street maintenance division and request a permit number, informing the city the date the work will commence. A permit number shall then be assigned to the job and a permit shall be sent to the applicant.

(2) No permit shall be transferable. A permit shall be void unless the excavation to be

made pursuant thereto is commenced within the time stated therein and the work diligently completed.

(3) Each permit shall state a time period for completion of all the work to be done thereunder. The director may grant extensions of time.

(4) No person in violation of any requirement of this chapter shall be issued an excavation permit, nor shall any contractor or agent apply for or be issued an excavation permit on the person's behalf, until the outstanding violation is corrected or a plan for correction is approved by the director. The foregoing requirement is in addition to any penalty or remedy for violation that may be imposed or sought by the city at law or equity.

(5) No work shall be done under any permit issued under this chapter except as stated in the permit. If the permit is allowed to expire, the ROW user shall procure a new permit, paying the applicable fee therefor as before, before proceeding with any such work.

(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-120. Excavation to be under supervision of the director.

(a) Any ROW user engaged in making or backfilling any excavation in any right-of-way shall at all times while such work is in progress keep at the job location the permit, or a copy thereof, and shall, on demand, exhibit the permit to the director, right-of-way manager or designee, or any police officer. At all times while the work is in progress the ROW user shall also maintain at the job location, a barricade, approved traffic control plan if applicable, and signs bearing the contractor's name, the name of the utility that is having facilities installed, maintained, repaired, replaced, and/or removed under, on, or above the ROW, contact information for both the contractor and utility, and a brief description of the permitted work. Employees and contractors of the ROW user engaged in carrying out the permitted work shall also have on their person a conspicuous identifier of the utility for whom permitted work is being performed.

(b) The ROW user shall protect from damage, utility conduits, sewer conduits, water conduits, lawns, shrubbery, trees, fences, structures, or other property at, near or encountered in his work. The ROW user shall determine the boundary of the right-of-way.

(c) All excavations and other construction in the streets shall be conducted so as to interfere as little as practicable with the use of rights-of-way and with the use of private property, in accordance with any lawful and reasonable direction given by or under the authority of the governing body of the city under the policy and regulatory powers of the city necessary to provide for public convenience. The ROW user shall reasonably protect from damage, utility facilities, sewer facilities, water facilities, lawns, shrubbery, trees, fences, structures, or other property encountered in his work. The ROW user shall not trespass upon private property. The ROW users shall determine the boundary between public right-of-way and private property.

(d) All transmission and distribution structures, lines, equipment and facilities erected by a ROW user within the city shall be so located as to cause minimum interference with the proper use of the public rights-of-way, and to cause minimum interference with the rights and reasonable convenience of property owners who join any of the said streets.

(e) The city reserves the right to lay, and allow to be laid, electricity, sewer, gas, water and other pipe lines or cables and facilities, as well as drainage pipes and channels and streets and to perform, and allow to be performed, any underground and overhead installation or improvement that may be deemed necessary or proper by the governing body of the city, in, across, along, over or under any right-of-way or public place occupied by a ROW user and to change any curb or sidewalk or the grade of any street and to maintain all of the city's facilities. In allowing such work to be performed by others, the city shall not be liable to a ROW user for any damage caused by those persons or entities.

Nothing herein shall relieve any third party from responsibility for damages caused to a ROW user by such third party.

(f) If the city requires a ROW user to adapt or conform its facilities, or in any way or manner to alter, relocate or change its property to enable any other corporation or person, except the city, to use, or to use with greater convenience, any right-of-way or public place, the ROW user shall not be required to make any such changes until such other corporation or person shall have undertaken, with solvent bond, to reimburse a ROW user for any loss and expense which will be caused by, or arise out of such removal, change, adaptation, alteration, conformance or relocation of a ROW user's facilities; provided, however, that the city shall never be liable for such reimbursement.
(Ord. No. 93319, § 1, 1-25-01; Ord. No. 2016-11-10-0894, § 3, 11-10-16)

Sec. 29-121. Additional excavation permit.

Subsequent to issuance of a permit, if it is necessary to excavate a larger area than originally estimated, the permittee shall at once pay to city the amount necessary to obtain the additional permit necessary.
(Ord. No. 93319, § 1, 1-25-01)

[This page intentionally left blank.]

Sec. 29-122. Appeal.

A right-of-way user that has been denied registration, has been denied a permit, has had a permit revoked, or believes that fees imposed are invalid, may have the denial, revocation, or fee imposition reviewed, upon written request as follows:

(1) Appellant shall provide, within five (5) days of denial, a written notice of appeal filed with the right-of-way manager of the department. The notice must state the alternatives available and routes explored, hardship encountered, cost comparison of other alternatives and a statement of any other significant factors. The right-of-way manager shall provide a written decision within five (5) days of receipt of the appeal. Failure to render a decision within five (5) business days shall constitute a denial.

(2) If a further denial is given, the appellant may thereafter file a written notice of appeal with the director within five (5) days. The notice must state the alternatives available and routes explored, hardship encountered, cost comparison of other alternatives and a statement of any other significant factors. The director shall provide a written decision within the ten (10) business days. Failure to render a decision within ten (10) days shall constitute a denial.

(3) If a further denial is given, the appellant may thereafter file a written notice of appeal to the city council with the city clerk within five (5) business days of receipt of the directors written decision. The clerk shall notify the director and the appellant of the placement of the appeal on the first available city council agenda in compliance with the Texas Open Meetings law.

(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-123. Denial of permit.

A permit may be denied or suspended for any of the following reasons:

(1) Failure to provide proof of a surety bond or liability insurance acceptable to the city.

(2) Failure to secure a contractor's license or other required license.

(3) Failure to perform in accordance with the requirements of the UECM or in accordance with these provisions.

(4) The excavation would be in a new street and not otherwise permitted by this article.

(5) The proposed warning or other traffic control procedures or equipment do not comply with the requirements of the TMUTCD or the requirements of the director.

(6) The proposed activity would violate a city ordinance or State or Federal statute.

(7) The permit application contains false or misleading information.

(8) The activity would cause a public health or safety hazard.

(9) The ROW user is not authorized within the city.

(10) The ROW user is in violation of this chapter relative to work in progress.

Denied permits may be appealed as set forth in this article.

(Ord. No. 93319, § 1, 1-25-01)

DIVISION 2. TECHNICAL SPECIFICATIONS

Sec. 29-124. Energy, electric and gas standards.

Technical standards for energy, electric and gas are defined in the UECM.

(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-125. Water and sewer regulations and standards.

Water and sanitary sewer providers shall work to provide a connection service point beyond the pavement to all commercial and residential tracts in their service area as streets are constructed either by connection or conduit, for existing development. Technical standards for water and sanitary sewer are defined in the UECM.

(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-126. Storm sewer standards.

Technical standards for storm sewer are defined in the UECM.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-127. Reserved.

Sec. 29-128. Compliance with safety regulations.

The permittee and ROW user shall comply with all applicable federal, state and local safety regulations and requirements, including, by example and not limitation, the occupational safety and health standards for the construction industry.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-129. Commencement and completion.

After obtaining the permit and prior to commencing the work, the permittee shall notify the director, and shall commence and complete all work within the time specified in the permit unless an extension of time is granted by the director.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-130. Safe conduct of work.

Every permittee and ROW user shall prosecute its work diligently and in a good, safe, and workmanlike manner, and shall safeguard and protect the public using the street or right of way where the work is being performed from accidents or damage by placing barriers, lights and other sufficient safeguards around all cuts, openings, and excavations. All material, implements and tools stored upon the premises and used in connection with the excavation shall be stored in a safe and non-hazardous manner. All work must be performed only within the hours and days as set forth in the UECM and in accordance with the requirements of the permit. Work in residential areas may only occur during daylight hours. Certain commercial areas and hospital districts are subject to noise controls and other limitations. Details are available in the UECM and from the department.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-131. Emergency excavations.

Nothing in this article shall be construed to prevent any person maintaining any pipe, conduit, or duct in or under any street, or right-of-way by virtue of any law, ordinance or permit, from making such excavation as may be necessary for compliance with law or for the preservation of life or property when the necessity arises, provided that the person making the excavation shall notify the director within twenty-four (24) hours. Except as specifically provided otherwise in this article, excavations authorized by this section shall be subject to all fees and requirements of this article.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-132. Traffic control safety.

In the event of non-compliance with the TMUTCD, the ROW user shall be notified in writing of the violation. In the event of continued non-compliance, the director may revoke the permit, in addition to any other remedies available to the city.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-133. Excavation in streets in good condition.

The permittee shall complete pavement restoration of the excavated area within thirty (30) days on major arterial, minor arterial and collector streets and within thirty (30) days on residential and alley streets after final backfill is completed and accepted by the director. The permittee shall conduct the work with a minimum disturbance to existing utilities and shall coordinate all work in or near the existing utilities with the utility owners.

(1) *Excavation in new streets.* There shall be no excavation in new streets without the prior approval of the director. Any request for a permit to excavate a new street shall include a description of the proposed work and proposed restoration of the area, as well as a statement as to why alternate procedures cannot or should not be used in lieu of excavating a new street.

(2) *Excavation in arterial streets in good condition.*

a. A permit holder shall perform jacking and boring operations in a manner that does not weaken or impair the right of way upon completion of restoration of the excavation.

b. Excavation in all streets in good condition regardless of age should not occur without prior approval of the director. Streets assigned a PCI of eighty-six (86) or above by the pavement management system are deemed to be in good condition and are subject to the review procedures of excavation of new streets.

c. Restoration of the excavated area of streets in good condition shall be in accordance with this article.

(3) *Excavation in Portland Cement Concrete (PCC) pavement surface.* If the existing pavement is PCC, the concrete shall be cut first with a saw to a minimum depth of half the thickness of the concrete which shall also cut the reinforcing steel. The concrete can then be broken out with an air chisel or pavement breaker. No more than six (6) inches of PCC shall be broken back beneath the saw cut. Further criteria is set forth in the UECM. The guidelines for jacking and boring are set forth in the UECM.

(4) *Responsibility of excavated area maintenance.* A permittee or ROW user shall maintain their repairs in the right-of-way for the life of the street as defined in this article.

(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-134. Lawful use of right-of-way.

(a) The use of the right-of-way in any manner which violates federal, state, or local laws, or city codes and regulations, including, without limitation, those relating to health, safety, noise, environmental protection, waste disposal and water and air quality, is prohibited. All permittees shall provide satisfactory evidence of compliance with the foregoing upon request of the city.

(b) Permittee shall dispose of all material removed from the right-of-way and any waste created by permittee in compliance with all state, federal and local laws and requirements.

(c) If a permittee discovers any contaminated, regulated, or hazardous materials in the right-of-way, permittee shall be responsible for environmental assessment, excavation, testing, transportation, and disposal of any such contaminated or regulated material in accordance with applicable law, or the permittee may elect to abandon the contaminated area of the right of way and reroute around the contaminated area. The permittee shall promptly notify the city in writing of the condition.

(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-135. Tree trimming and graffiti abatement.

Permission is granted to a ROW user, subject to the requirements of the city's tree ordinance, which may be amended from time to time, to trim trees upon and overhanging the public right-of-way, so as to prevent the branches of such trees from coming in contact with a ROW user's facilities. When so directed by the city, the tree trimming shall be done under the supervision and direction of the city. The city shall report damage or vandalism to the ROW user's facilities as soon as practicable after city discovers or learns of such event. The ROW user shall make the necessary repairs or restoration, including cleaning of graffiti, within forty-eight (48) hours after the ROW user discovers or learns of any misuse, destruction, damage, or vandalism to its facilities.

(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-136. Conformance with major thoroughfare plan.

A ROW user shall consult the city's Major Thoroughfare Plan ("MTP") prior to the acquisition of any interest in real property in the city for the installation or relocation of service lines or other equipment or facilities along or adjacent to any street, right-of-way, thoroughfare, highway, or any proposed street, right-of-way, highway or thoroughfare to attempt to minimize any future

conflict regarding the location of such facilities. All ROW users are charged at all times with constructive notice of the MTP subsequent to the effective date of the ordinance from which this article derives. The city shall have no liability for the value of or loss by a ROW user of any improvements constructed in the area shown in the MTP subsequent to the effective date of the ordinance from which this article derives.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-137. Rights in the event of abandonment.

In the event the city closes, vacates, abandons or conveys any right-of-way containing facilities of the ROW user, any such closure, vacation, abandonment or conveyance of land shall be subject to the rights of the ROW user.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-138. Supervision by city of location of poles and conduits.

All poles in the rights-of-way shall be of sound material and straight, and shall not interfere with the flow of water in any gutter or drain, and shall be placed so as not to unduly interfere with either vehicular nor pedestrian travel. The location and route of all conduits, fiber, cables, and utilities, and facilities placed and constructed by a ROW user in the construction and maintenance of its system in the city shall be subject to the reasonable and proper control, direction and approval of the city. Any "non-standard" placement of poles, stubs, guys and anchors is subject to all provisions of this chapter. Any "standard" placement of poles, stubs, guys, and anchors is exempt from this chapter. "Standard" is defined by the provisions of the UECM.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-139. Attachments to poles.

(a) Nothing shall obligate or restrict a ROW user from exercising its rights to enter into pole attachment, pole usage, joint ownership or other wire space or facilities agreements with light and/or power companies or with other wire-using companies authorized to operate within the city.

(b) A ROW user shall utilize existing poles, conduits, and other facilities whenever reasonably and/or economically possible. Prior to the utilization of any right-of-way for the placement of any of its facilities, the ROW user shall make available to the director any utility pole usage agreement with each utility within the city currently owning poles, conduits, and other facilities, whose poles, conduits and facilities are to be used.

(c) A permit for a network node, node support pole, or transport facility expires due to nonperformance:

(1) On midnight of the 183rd day following the date the permit is approved if installation has not commenced by that date;

(2) On midnight of the 365th day following the date the permit is approved if installation is not completed by that date; and

(3) On midnight of the 60th day following the date installation and final testing is complete if the node, node support pole, or transport facility is not placed into active commercial service as of that date.

(4) The right-of-way manager may grant a one-time extension for up to thirty (30) days to an expiration date in this section, provided the right-of-way manager determines in their sole discretion that the network provider has shown good cause for granting the extension. Good cause is determined in the right-of-way manager's sole discretion and, in any event, must be due to circumstances entirely outside of the network provider's control and may not in any way be the result of a business decision or market forces.

(d) Where anticipated construction activities will involve service pole re-enforcement or replacement, network providers shall notify the city right-of-way manager before submitting application materials. Replacement pole must comply with Texas Department of Transportation specifications and standards, Texas Manual on Uniform Traffic Control Devices requirements, and applicable federal or state standards. Prior

to construction, network provider shall agree that all re-enforced or replaced service poles will be owned by the city. Where a traffic signal pole is reinforced or replaced, the traffic signal must remain operational throughout construction, and if necessary, network provider must provide a temporary signal trailer or other temporary pole during construction.
(Ord. No. 93319, § 1, 1-25-01; Ord. No. 2017-08-31-0609, § 1, 8-31-17; Ord. No. 2020-04-02-0225, § 1, 4-2-20)

Sec. 29-140. Temporary rearrangement of aerial wires.

The ROW user shall rearrange its transmission media temporarily as necessary to permit the moving of houses or other bulky structures. The requesting parties shall pay the reasonable and necessary expense of such temporary rearrangements. The ROW user may require payment in advance. The ROW user shall be given not less than five (5) days advance notice to arrange for such temporary rearrangements. The ROW user shall remove its transmission media in connection with the demolition of unsafe structures, including emergency or ordered demolitions at no cost to the city. The ROW user may invoice third parties for the cost of this work where applicable.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-141. Utility excavation criteria manual adopted.

The director is authorized to develop the Utility Excavation Criteria Manual (UECM), First Edition, which shall be approved and adopted as the City of San Antonio, departments of public works' official technical and policy manual no later than the effective date of the ordinance from which this article derives. Three (3) copies of the UECM shall be placed on file and available for inspection in the offices of the city clerk.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-142. Backfill of excavated area.

(a) Open trenches may be temporarily backfilled for the convenience of the permittee or the public safety. At least one (1) hour prior to beginning

[This page intentionally left blank.]

permanent backfill operations, the permittee shall notify the director of the time the backfill will begin.

(b) All excess water and mud shall be removed from the trench prior to backfilling. Any backfill placed during a rainy period or at other times, where excess water cannot be prevented from entering the trench, will be considered temporary and shall be removed as soon as weather permits. All disturbed base material or any base that has been undermined shall be removed and discarded. The new roadway base material shall be a minimum depth of six (6) inches asphalt treated base or other approved roadway base material, as detailed in the UECM.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-143. Restoration of pavement.

Unless otherwise specified in the permit, restoration of the asphalt pavement of any street, alley right-of-way or other public place shall be performed by the permittee or by the city, upon request by the permittee. Nothing in this section shall relieve the ROW user from the responsibility to maintain the excavation or installation in a safe condition until it is repaved by city or otherwise restored. In addition to all other applicable fees or charges, if the ROW user or permittee making the excavation requests repaving by the city, the ROW user shall pay for repaving at a rate to be established by the city.

(1) No trench shall be opened in any street for the purpose of laying pipes, conduits or ducts more than four hundred (400) feet in advance of the pipe, conduit or ducts being placed in the trench, other than with the prior written consent of the director.

(2) All excavations shall comply with the standards and requirements established from time to time by the director for compaction, backfill and pavement restoration.

(3) Any excavated pavement, debris and other rubble shall be removed, together with any surplus material, within one (1) working day from the time such material is placed upon the street. After backfilling is completed, and prior to repaving the cut, the ROW user shall remove all loose paving material and trim the edges of the excavation at the street surface to the satisfaction of the director.

(4) Whenever any caving occurs in the sidewalls of any excavation, the pavements above such caving shall be cut away, trench backfilled and pavement restored in accordance with the UECM. In no case shall any side or lateral tamping fill any void under a pavement.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-144. Excavation specifications.

All excavations shall be made in accordance with plans submitted with the permit application and in accordance with specifications set forth in the UECM. All plans shall be prepared in accordance with all city specifications and the UECM. All excavations shall be repaired in such a way so as not to become depressed, cracked, broken, or in any way fail during the remaining "life of the street." The remaining "life of the street" for this purpose shall be until the PCI index drops to below fifty (50) or until the subject area is repaved by the city or other entity. Additional specifications may be contained in the UECM.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-145. Cleanup of right-of-way.

In every case and at all times, the work of removing from the right-of-way all obstructions, surplus materials, debris and waste matter of every description caused by and accumulated from the excavation shall be the responsibility of the ROW user. Streets shall be cleaned by use of a regenerative air or vacuum street sweeper. The ROW user shall clean the surrounding area, as outlined above, within one (1) day upon completion and approval of all trench work and pavement restoration unless the director, sufficient reason therefor having been given to his satisfaction, grants an extension of time.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-146. Substandard repair of pavement or right-of-way.

In case the pavement or the surface of the street, alley, or right-of-way in, over or near any

excavation should become depressed, cracked, or broken any time or fails in any way at any time after the excavation has been made and during the remaining life of the street, the ROW user shall comply with any applicable obligations of this article, including, without limitation, reimbursement to city of the cost to restore the street or right-of-way and payment of the pavement degradation recovery fee as set forth in this chapter.
(Ord. No. 93319, s; 1, 1-25-01)

Sec. 29-147. Failure to complete work within specified time.

In the event any work governed by this chapter is not completed by the ROW user within the time required or in accordance within the specifications required herein or by the director, the director may cause such work to be performed as is necessary to secure the work area to a safe and passable condition. The ROW user shall reimburse the city for the costs of securing the site.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-148. Permanent pavement repairs.

All permanent pavement repairs shall be made under one (1) of the two (2) following methods:

(1) *Permanent pavement repairs by city.* If the city is to make the permanent pavement repairs, the ROW user shall maintain the excavated area for a period of two (2) weeks after acceptance by the director. After the two-week period, the city will be responsible for maintaining the excavated area until final restoration is made. Backfill failures shall remain the responsibility of the ROW user. The ROW user shall reimburse the city for all costs of any backfill failure before and/or after permanent pavement repair.

(2) *Permanent pavement repairs by ROW user.* If the ROW user is authorized to make permanent pavement repairs, the ROW user will maintain the excavated area until permanent pavement restoration of the excavated area is complete. The ROW user shall make final repairs within thirty (30) days on arterial and collector streets and within thirty (30) days on residential, local and alley streets after the director makes final inspection. Backfill failures shall remain the responsibility of the ROW user.

(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-149. Responsibility for signs, barricades and warning devices.

The ROW user working in any right-of-way is responsible for the safe movement of traffic, both pedestrian and vehicular, through the construction area. The ROW user shall meet all requirements for barricading and traffic control as specified in the TMUTCD.

(1) Only those individuals who are qualified by means of adequate training in safe traffic control practices and have a basic understanding of the principles established by applicable standards and regulations, including those in TMUTCD, may place and maintain the traffic control devices in a construction area.

(2) The ROW user must either subcontract the barricading to a firm specializing in traffic control, or submit the qualifications and name(s) of employees to the director for approval prior to the work commencing. They must also submit a traffic control plan for review. All signs and barricades must conform to the requirements of the TMUTCD.

(3) All barricades, plates, and other traffic control equipment must conform to TMUTCD specifications and must be inspected and approved by the director if not provided by a traffic control firm.

(4) All barricades, plates, and other traffic control equipment must display accurate and sufficient information including the name of the ROW user.

(5) Non-compliance with the TMUTCD shall be cited in writing. In the event of noncompliance after citation, the director may place the necessary devices as required and the ROW user shall pay the charges therefor. The ROW user shall reimburse

the city for all such expenses as well as five hundred dollars ($500.00) for noncompliance. Failure to comply with this provision may result in denial of application for future permits.

(6) All traffic control devices must be removed immediately upon completion of work.

Prior to commencement of any excavation, or any work relative to a permit, the ROW user shall install at the work site informational sign in conformance with the Requirements of the UECM.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-150. Duty to barricade.

At all times during construction activity, the contractor and/or ROW user, as applicable, shall place and maintain all necessary and proper barriers and other safeguards, including watchmen certified in accordance with the safety training described in this article, if necessary, upon and around the work for the prevention of accidents, and after daylight hours, shall place, maintain and keep suitable sufficient lights, in accordance with the TMUTCD.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-151. Inspection.

The permittee shall make the work-site accessible to the city, and others as authorized by law, for inspection at all reasonable times during performance of the work.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-152. Materials testing.

The department may require testing of materials used in construction in or near the right-of-way to determine conformance to required specifications, including, but not limited to, compaction tests on backfill materials, subgrade, aggregate base course, Portland concrete (rigid pavement), asphaltic concrete (flexible pavement) and other construction materials as deemed necessary by the department.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-153. Duties of persons making excavations or creating obstructions.

Any person who shall cause to be made any excavation or obstruction in any street or right-of-way may not suffer the same to remain there beyond a time reasonably sufficient for the completion of the work and/or removal of the obstruction, and shall repair the subject portion of such street, or right-of-way so as to restore the same to its condition previous to the making of such cut or obstruction. It shall be the duty of such excavators to protect the area while such condition exists and promptly to repair the same so as to leave the street or right-of-way in as good condition as before the excavation.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-154. Cease work.

At any time, the director may order the immediate cessation of any work which poses a threat to the health, safety or well being of the public. The director may revoke the permit of any permittee in any instance where there is a threat to the health, safety or well being of the public.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-155. Requirements.

The director may issue a written notice to the permittee indicating work that does not conform to the terms of the permit, applicable standards, conditions, or codes, or other applicable regulation. Within ten (10) days after issuance of written notice, the permittee shall present proof to the director that the violation has been corrected. If such proof has not been presented within the required time, the director may revoke the permit.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-156. Reporting.

When the work under any permit hereunder is completed, the permittee shall furnish the director a completion certificate.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-157. Revocation of permit.

The city reserves its right, as provided herein, to revoke any permits, without refund of the

permit fee, in the event of a breach by the permittee of the terms and/or conditions of the permit or of this chapter or any city ordinance. A breach of the terms of the permit shall include, but not be limited to the following:

(1) The violation of any provision of the permit;

(2) An evasion or attempt to evade any provision of the permit, or the perpetration or attempt to perpetrate any fraud or deceit upon the city or its citizens;

(3) Any material misrepresentation of any fact in the permit application;

(4) The failure to meet insurance, surety bond, or indemnification requirements;

(5) The failure to complete the work in a timely manner;

(6) The failure to correct a condition indicated on an order issued pursuant to this article;

(7) Repeated traffic control violations;

(8) Failure to repair facilities damaged in the right-of-way; or

(9) Violation of any part of this article.

If the director determines that the permittee has committed a breach of any law or condition of the right-of-way permit, the director shall make a written demand upon the permittee to remedy such violation. Continued violation may be cause for revocation of the permit, or legal action, or both. The director may revoke the permit, provide specifications to cure the breach, or both. Within five (5) calendar days of receiving notification of the breach, permittee shall contact the director with a plan, acceptable to the director, for correction of the breach. Permittee's failure to do so or permittee's failure to timely implement the approved plan shall be cause for revocation of the permit.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-158. Work done without a permit.

No cut, excavation, grading or disturbing of the right-of-way in any way shall be made other than excavations necessary for emergency work without first securing a permit. No person or ROW user shall at any time open or encumber more of the right of way than shall be reasonably necessary to complete a project in the most expeditious manner.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-159. Right-of-way restoration requirements.

(a) The work to be done pursuant to the permit and any repair and subsequent restoration of the right-of-way must be completed within the dates specified in the permit. In the event of circumstances beyond the control of the permittee or when work is prohibited by unseasonable or unreasonable conditions, the director may extend the dates on receipt of a substantiated supplementary application for a permit extension.

(b) All earth, materials, sidewalks, paving, crossing, or improvements of any kind which are owned or possessed by city and damaged, disturbed, or removed by a ROW user shall be fully repaired promptly by the ROW user at its sole expense, to the reasonable satisfaction of the director.

(c) After any excavation, the ROW user shall, at its expense, restore the right-of-way, trench envelope, pavement structure and the surrounding area, to the same or better condition than it was prior to the excavation. The restoration shall be made in accordance with specifications set forth in the UECM and the repair shall endure without failure for the remaining life of the street, as such period is described in this article.

(d) In the event the ROW user fails to restore the right-of-way in the manner and to the condition required herein, or fails to satisfactorily and timely complete all restoration, the city may, at its option, serve written notice upon the ROW user that, unless within five (5) days after serving of such notice a satisfactory arrangement can be made for the proper restoration of the right-of-way by the ROW user, the city may take over the work and prosecute same to completion, by contract or otherwise, at the expense of the ROW user, and the ROW user and its surety shall be liable to the city for any and all cost incurred by the city by reason of such prosecution and com-

pletion, including, without limitation, the applicable public inconvenience penalty. Nothing contained herein shall limit any other remedies available to the city.

(e) If any excavation cannot be back-filled immediately, the ROW user shall securely and adequately cover the excavation and maintain proper barricades, safety fencing and/or lights as required, from the time of the opening of the excavation until the excavation is surfaced and opened for travel.

(f) In all right-of-way restoration, the ROW user guarantees its work and shall maintain it for the remaining life of the street following completion of the restoration. During the period following completion, the ROW user shall, in the event of any failure of the restoration, upon notification from the director, reimburse city for pavement restoration costs and the pavement degradation recovery fee as provided for in this article. Additionally, the ROW user in the event of such failure, shall within forty-eight (48) hours of notice from city, repair the subject trench envelope.

(g) The "life of the street" guarantee period shall be applicable to failure of the pavement surface as well as failure of the trench envelope. Notwithstanding remediation of the pavement structure by city, the ROW user retains repair responsibility at all times during the guaranty period for the trench envelope.

(h) Excavations in streets and/or right-of-way with PCI values of eighty-six (86) or greater shall be deemed one hundred (100) percent loss of pavement life. These excavations require i) Block to block and curb to curb pavement reconstruction, ii) Use of a hot mix asphalt repaving process, or iii) Such other method of repair as the director approves, for all cuts. Specifications are available in the UECM.

(i) A right-of-way user whose work is completed by the city shall, on completion of the work and according to the certified bill of the cost thereof to be prepared by the director, pay to the city, on its order, the amount of the certified bill as reimbursement for such work.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-160. Excavations not in accordance with permit declared unlawful.

(a) It shall be unlawful for any person to make, cause or allow to be made, any excavation, or to install, cause or allow to be installed any tank, pipe, conduit, duct, tunnel, utility pole or other utility or appliance in or under the surface of any street, alley, sidewalk, right-of-way or other public place, at any location, other than that described in the application for the permit and as shown on the plans filed with the director, and in accordance with the requirements of the permit. If the circumstances appearing after the excavation is commenced make it impossible to comply with the permit, the director may grant a waiver to take the circumstances into account.

(b) Failure to comply with requirements set forth in the chapter or on any permit shall be cause for revocation of the subject permit and of any other permits held by the same permittee until the violations have been corrected or the director has approved alternative requirements.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-161. Removal and reconstruction where work defective.

All construction work in the streets, right-of-way, sidewalks and public places of the city is declared to be subject to the exclusive control of the city, and whenever, in the opinion of the director, any such work shall not have been duly completed within a reasonable time or shall have been executed in a defective manner, whether because of bad workmanship or materials or because not true to the lines or grades or specifications therefor given to him by the director, then upon written demand or notice from the director, such ROW user or contractor shall promptly remedy, complete or remove and reconstruct such incomplete or defective work all as the director may require, and these provisions shall also apply to all repair and maintenance work. If the contractor or ROW user shall fail or refuse to do so within a reasonable time to be specified by the director, then, if the director shall so order, such work shall be completed or corrected or removed and wholly or partially reconstructed

by the city, in such manner as in the opinion of the director may be necessary to make such work as good as originally required, and such work may be done by contract or otherwise, under the direction of the director.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-162. Location and relocation of facilities.

Subject to applicable federal, state, and local law, the ROW user shall, upon the request of the city, locate and/or relocate its facilities situated within any right-of-way, at no expense to the city, where reasonable and necessary to accommodate street construction, widening, or public improvement projects of the city. When relocation is necessitated by federal government requirements, and includes reimbursements, the city will reimburse applicant for its proportionate share from funds provided the city in such reimbursements.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-163. Pre-excavation facilities location.

The ROW user shall contact the One Call Center (811), so long as that center is in existence and utilized by the city, or such other center at the time utilized by city, at least forty-eight (48) hours prior to excavation. The ROW user shall protect and support all utility facilities during construction. The ROW user shall also contact the San Antonio Water System ("SAWS") via SAWS's website, www.saws.org.
(Ord. No. 93319, § 1, 1-25-01; Ord. No. 2017-08-31-0609, § 1, 8-31-17)

Sec. 29-164. Relocation facilities for city.

In the event the city finds it necessary to move a ROW user's equipment to protect it, city shall notify the local representative of the ROW user. ROW user shall promptly move or facilitate the relocation of the subject facilities at ROW user's expense.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-165. Right-of-way vacation and reservation of right.

In the event of vacation of a right-of-way requiring the relocation of facilities, the ROW user being relocated shall pay the costs of the relocation where the ROW user does not own an easement or other real property interest.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-166. Abandoned facilities.

A ROW user owning abandoned facilities in the right-of-way shall:

(1) Remove its facilities and repair, at its expense, any damage caused by the removal. The director may allow some or all facilities to remain if the director determines same is in the best interest of the public to do so; or

(2) Provide information satisfactory to the city that the ROW user's obligations for its facilities in the right-of-way have been lawfully assumed by another authorized ROW user.

The facilities of a ROW user who fails to comply with this section, and those facilities which remain unused for two (2) years, shall be deemed to be abandoned unless, within the aforesaid two-year period, the city receives written confirmation and reasonable evidence that the ROW user intends to use the facilities. The city may exercise any remedies or rights it has at law or in equity, including, but not limited to, taking possession of the abandoned facilities or requiring the removal of the facilities by the ROW user.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-167. Routing and spatial assignment.

The city reserves the right, in the permit or otherwise, to restrict or determine the route (pathway) and/or spatial location, whether horizontal, vertical or depth, of any facility and/or structure or improvement in the right-of-way.
(Ord. No. 93319, § 1, 1-25-01)

DIVISION 3. COSTS, FEES AND ENFORCEMENT

Sec. 29-168. Fees.

(a) *Permit application fee.* There is a permit application fee of fifty dollars ($50.00). Permits shall be issued or denied within ten (10) days.

[This page intentionally left blank.]

There is an expedited application fee of two hundred fifty dollars ($250.00) for permits, which shall be issued or denied within two (2) days. The fees are paid by an applicant when a permit is issued. The fees are charged for administration and input of permit data. An expedited permit may be requested upon a showing of good cause, including but not limited to a pending order for service that cannot be met by means of existing facilities of the ROW user. An expedited permit may be requested and shall be issued or denied within two (2) days of application.

(b) *Inspection fee.* The work allowed by each permit shall be subject to inspection as determined by the director and a fee of one hundred twenty dollars ($120.00) per point repair; sixty dollars ($60.00) re-inspection fee; and Tier 1 (0 to 60 days): sixty dollars ($60.00) per day, Tier 2 (61 to 120 days): ninety dollars ($90.00) per day, Tier 3 (121 to 180 days): one hundred twenty dollars ($120.00) per day, Tier 4 (>180 days): one hundred fifty dollars ($150.00) per day for project permit. The tier rate shall be based on the number of days estimated by the applicant in the application. In the event the excavation takes a longer period than the days estimated, the rate for the excavation shall be the Tier 4 rate. The department shall collect the fee from an applicant for each inspection by the department for any excavation. The fee shall be paid at the time of application for a permit. Inspections may be performed on any and all excavations, at the discretion of the director, based on previous performance of the utility owner, location of excavation, type of work and/or construction methodology. Overtime inspection fees are incurred at a rate of fifty dollars ($50.00) per hour and eighty-five dollars ($85.00) per hour on Sundays and holidays.

(c) *Permit expiration fee.* A fee of thirty dollars ($30.00) will be charged for any permit that has not been extended before its expiration date and for any permit wherein work has not been completed by the expiration date provided for in the permit. The thirty-day period begins with the date of issuance of the permit.

(d) *Electronic maps submittal fee.* A fee of forty dollars ($40.00) per hour will be charged for each hour of labor necessitated by information submitted to city in hard copy format in lieu of submittals to city in electronic format. There is a minimum of two (2) hours.

(e) *Pavement degradation recovery fee.* This reimbursement to the city is due upon failure of any ROW user's restoration, or upon a ROW user's failure to restore the right-of-way. The following provisions apply to excavations in streets with certain PCI indexes.

(1) *PCI OF O-50.* Excavations in streets and/or rights-of-way with PCI values of fifty (50) or less shall be deemed to be excavations in streets with nominal loss of life. The ROW user excavator shall promptly repair the trench envelope and surface in accordance with specifications set forth herein and in the UECM. The repair shall have a guaranty by the ROW user as set forth herein.

(2) *PCI OF 51-85.* In the event of an excavation in a street or right-of-way having a PCI of fifty-one (51) to eighty-five (85), the ROW user excavator shall promptly repair the trench envelope and surface in accordance with the specifications set forth herein and in the UECM. The repair shall have a guaranty as set forth herein. In the event of failure of the repair during the guaranty period, the ROW user/excavator shall reimburse the city for its pavement restoration cost and pay the pavement degradation recovery fee, calculated as set forth herein.

(3) *PCI OF 86-100.* Excavations in streets and/or right of way with PCI values of eighty-six (86) or greater shall be deemed one hundred (100) percent loss of pavement life. These excavations require block to block and curb to curb pavement reconstruction. Use of a "hot mix asphalt repaving process" is an option with approval of the director. Specifications are available in the department. In the event of any trench failure in the street or right-of-way during the guaranty period, the ROW user shall reimburse the city for its costs to repair the failure, and pay the pavement degradation recovery fee, calculated

as set forth herein. Additionally, in the event of such failure, the ROW user shall within forty eight (48) hours repair the subject trench envelope, if required by the director.

(f) All repairs, for streets or right of way of any PCI, are guaranteed by the excavator making the repair, and the excavator causing the repair to be made, for the "life of the street." The "life of the street" for these purposes is defined to be until such time as that certain street or right-of-way is repaved by the city or another, in the same location as the excavation, or until such time as the PCI index of such street or right-of-way drops to below fifty (50).

(g) *Pavement degradation recovery fee calculation.* The area of influence adjacent to the trench is calculated by using the following formula: [(Length of cut in feet + (two (2) times the depth of trench in feet)) × (Width of the cut in feet + (two (2) times the depth of trench in feet))]/ 9 = square yards of area of influence. All damage(s) caused directly or indirectly to the street surface or subsurface outside the pavement excavated area shall be regarded as a part of the excavation repair area. This includes any holes drilled into the pavement and not properly plugged, as well as damages caused by work equipment. These areas, as established by the director, will be included in the total area to be repaired.

(h) The pavement degradation recovery fee is determined by multiplying the percent loss of life by the pavement cost per square yard determined above by the area of influence. Unit costs shall be updated annually.

(Ex. Trench = Fifteen (15) feet long × two (2) feet wide × four (4) feet deep = (15 + (2x4)) x (2 + (2x4)) / 9 = area of influence of 25.56 square yards)

(1) Damage recovery cost calculation. The damage recovery cost per square yard shall be based on the pavement thickness and/or street classification (residential, collector minor arterial or major arterial), and the (PCI).

(2) Pavement cross-sectional thickness determination. Determine the pavement cross-sectional thickness (in inches) from one of the following sources:

a. City pavement management system (PMS) data base information; or

b. From infrastructure plans on file in the city engineer's office.

c. From the as-built drawings on file in the city engineer's office

(3) Pavement equivalent granular thickness (EGT) determination. The pavement equivalent granular thickness (EGT) value is equal to the sum of all the layers in the existing pavement section times the respective value for each material as follows:

Pavement Material	*EGT Value per Inch*
Lime Stabilized Subgrade	0.6
Crushed Limestone Base	1.0
HMACP, Type A or B	2.0
HMACP, Type C, or D	1.8
Asphalt Stabilized Base	1.7
Asphalt In-Place Base Stabilization	1.6
Old or Weathered Concrete	2.0
Newly or Mildly Weathered Concrete	3.0

(4) Pavement section classification determination. Use the calculated EGT Value from above to determine the classification of the pavement section.

Total EGT Value	*Classification*	*Cost per Sq. Ft.*
Less than or equal to 15	Thin	$28/SY
Greater than 15 but less than 20	Medium	$34/SY
Equal or greater than 20	Thick	$42/SY

a. Using the PCI value determine the percent loss of life of the pavement by locating the value at the bottom of the graph (Appendix B—Figure B.1) and moving up to intersect the curved line. Read the percent loss of life on the left side of the figure. Round the value to the nearest whole number. The percent loss of life can also be calculated using the following formula:

Percent Loss of Life = $0.0039 \times ((PCI/20)^{6.963})$

b. Pavement cost per square yard determination. Use the classification from above to determine the cost per square yard for the area to be excavated. The cost per square yard rates shall be updated annually.

c. Pavement restoration cost is the cost reimbursement owning the city for repair of the pavement riding surface and base and sub-base courses in the event of a failure or a failure of restoration or no restoration by a right-of-way user.

(i) *Registration fee.* There is a fee of forty-five dollars ($45.00) per right-of-way user per year for processing registration information, which fee will be collected upon registration.

(j) *Barricade fees.*

Barricades, on city streets (including sidewalks and alleys) per sq. ft. of closure per day $0.0629

Barricades in traveled portion of city streets between curbs including sidewalk and alley, per sq. ft. per day, minimum $50.00

Private barricading of streets or portions of streets, per block of roadway closed, per day of closure (block parties). $100.00

(k) Minimum inspection fee for sidewalks and curb permit $50.00

(Ord. No. 93319, § 1, 1-25-01; Ord. No. 101397, § 1, 9-15-05; Ord. No. 2008-09-11-0777G, § 16, 9-11-08; Ord. No. 2009-09-17-0731L, § 1, 9-17-09; Ord. No. 2010-09-16-0791, § 1(Att. G), 9-16-10; Ord. No. 2012-09-13-0699, § 2(Att. F), 9-13-12; Ord. No. 2015-09-10-0758, § 2(Att. O), 9-10-15)

Sec. 29-169. Penalty for violation of this chapter.

Each violation of this chapter shall be punishable by a fine not to exceed five hundred dollars ($500.00). Each day during which a violation continues shall be deemed a separate violation of this chapter. Any fines that are collected pursuant to this section shall be deposited into Fund No. 29, Project 014000, Streets/Drainage Maintenance and Improvement Fund.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-170. Public inconvenience penalty.

Public inconvenience penalties are assessed and calculated from the date of expiration of the permit until date of completion of work or repair or of final backfill if turned over to the department for repair. This penalty shall not exceed and is capped by statutory limits. Public inconvenience penalties are charged per day as follows:

Type of Facility	*Unit of Cost*	*Fee Rate*			
	(Per Day)	*31—75 Days*	*76—90 Days*	*90—100 Days*	*>100 Days*
(a) Traffic Lane	Per Square Foot	$0.0521	$0.1042	$0.1563	$0.2084

Type of Facility	*Unit of Cost*	*Fee Rate*			
	(Per Day)	*31—75 Days*	*76—90 Days*	*90—100 Days*	*>100 Days*
(b) Sidewalk	Per Square Foot	$0.0026	$0.0052	$0.0078	$0.0104
(c) Driveway	Per Each	$39.00	$78.00	$117.00	$156.00
(d) Parking	Per Meter	$14.00	$21.00	$28.00	$42.00
Metered Traffic Lane	*In addition to Traffic Lane Fee				

(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-171. Clean up costs.

The ROW user shall maintain the area on and around the excavation and related work in a clean, safe and orderly fashion at all times during conduct of the excavation and shall clean the same area upon completion of work.
(Ord. No. 93319, § 1, 1-25-01)

DIVISION 4. INDEMNIFICATION, INSURANCE, BONDING, AND LIABILITY

Sec. 29-172. Liability of right-of-way user.

To the extent allowed by law, the right-of-way user shall be liable to the city for any damage or loss occasioned by any act or omission occurring in connection with his excavation, and subject to state law, the ROW user shall fully indemnify, hold harmless and defend city, its officers and employees from and against any and all suits, actions, judgments, losses, costs, demands, claims, expenses (including attorney's fees), damages, and liabilities of every kind to which the city, its officers or employees may be subjected for injury of any type, death or property damage arising from or connected with any such act or omission. City shall promptly notify a permittee, or ROW user, at the address set forth in the permit, or last known address, of any claim or suit served upon the city and alleging negligent or wrongful conduct by the permittee or ROW user in connection with an excavation.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-173. Insurance.

(a) Right-of-way users shall furnish an original completed certificate of insurance or the city's standard certificate of insurance form to the city's finance department, city clerk's office, and public works department, which shall be completed by an agent authorized to bind the named underwriter(s) and their company to the coverage, limits, and termination provisions shown thereon, and which shall furnish and contain all required information referenced or indicated thereon. The original certificate(s) or form must have the agent's original signature, including the signer's company affiliation, title and phone number, and be mailed directly from the agent to the city. The city shall have no duty to pay or perform under this article until such certificate shall have been delivered to the city's finance department, city clerk's office, and public works department, and no officer or employee, other than the city's risk manager, shall have authority to waive this requirement.

(b) The city reserves the right to review the insurance requirements of this section to modify insurance coverage and their limits when deemed necessary and prudent by the city's risk manager based upon changes in statutory law, court decisions, or circumstances surrounding this article, but in no instance will the city allow modification whereupon the city may incur increased risk.

(c) Subject to the right-of-way user's right to maintain reasonable deductibles in such amounts as are approved by the city, right of way users shall obtain and maintain in full force and effect for the duration of the permit, and any extension thereof, and/or duration of time it maintains facilities in the public right of way, at the right-of-way user's sole expense, insurance coverage written on an occurrence basis, by companies authorized and admitted to do business in the

State of Texas and rated A- or better by A.M. Best Company and/or otherwise acceptable to the city, in the following types and amounts:

Type	*Amount*
1. Workers' Compensation Employer's Liability	Statutory $500,000/$500,000/$500,000
2. Commercial General (Public) Liability Insurance to include coverage for the following: (a) Premises/Operations (b) Independent Contractors (c) Products/completed operations (d) Contractual Liability (e) Personal Injury (f) Explosion, collapse, underground (g) Broad form property damage, to include fire legal liability	Bodily injury and property damage of $2,000,000.00 per occurrence $5,000,000.00 general aggregate or its equivalent in umbrella or excess liability coverage

[This page intentionally left blank.]

Type	*Amount*
*3. Business Automobile Liability (a) Owned/leased vehicles (b) Non-owned vehicles (c) Hired vehicles	Combined single limit for bodily injury and property damage of $1,000,000.00 per occurrence or it's equivalent.
*4. Professional Liability (Claims made from)	$1,000,000.00 per claim to pay on behalf of the insured all sums which the insured shall become legally obligated to pay as damages by reason of any act, malpractice, error or omission in professional services.
*5. Contractor's Pollution Liability Coverage	$1,000,000.00 written on a claims made form with a two-year extended reporting period
*6. Pollution Liability Motor Carrier and Trucker Coverage endorsing the upset, overturn and remediation of a load in transport.	$1,000,000.00 per occurrence written on an occurrence form) (Combined single limit for bodily injury and property damage.)
*If applicable	

(d) The city shall be entitled, upon request and without expense, to receive copies of the policies and all endorsements thereto as they apply to the limits required by the city, and may make a reasonable request for deletion, revision, or modification of particular policy terms, conditions, limitations or exclusions (except where policy revisions are established by law or regulation binding upon either of the parties hereto or the underwriter of an such policies). Upon such request by the city, the rights-of-way user shall exercise reasonable effort to accomplish such changes in policy coverage, and shall pay the cost thereof.

(e) Right-of-way users shall ensure that all insurance contracts and certificate(s) of insurance contain the following required provisions:

(1) Name the city and its officers, employees, volunteers, agents, and elected representatives as additional insureds with respect to the operations and activities of, or on behalf of, the named insured performed in the right-of-way under provision of this chapter, with the exception of the professional liability, workers' compensation and liability policy; and

(2) Right-of-way user's insurance shall be deemed primary with respect to any insurance or self-insurance carried by the city; and

(3) Provide for an endorsement that the "other insurance" clause shall not apply to the city where the city is an additional insured shown on the policy; and

(4) Workers' compensation and employers' liability will provide for a waiver of subrogation in favor of the city.

(f) Right-of-way user shall notify the city in the event of any notice of cancellation, nonrenewal or material change in coverage and shall give such notices not less than thirty (30) days prior to the change, or ten (10) days notice for cancellation due to non-payment of premiums, which notice must be accompanied by a replacement certificate of insurance. All notices shall be given to the city at the following address:

City of San Antonio Finance Department P.O. Box 839966 San Antonio, Texas 78283-3966	City of San Antonio City Clerk's Office P.O. Box 839966 San Antonio, Texas 78283

(g) Nothing herein contained shall be construed as limiting in any way the extent to which the right-of-way user may be held responsible for payments of damages to persons or property resulting from the right-of-way user's or its subcontractors' performance of the work performed in the public right-of-way.

(h) The city owned utilities, city public service and San Antonio Water System, shall not be required to provide the insurance specified herein.

(i) With respect to the right-of-way user's obligation to comply with the requirements for Commercial General (public) Liability Insurance coverage to include pollution coverage, the city may allow the right-of-way user to self-insure upon annual production of evidence that is satisfactory to the city's risk manager. With respect to the right-of-way user's obligation to comply with the requirements for automobile liability insurance and for workers' compensation insurance, a right of way user may self-insure, provided the right-of-way user tenders satisfactory evidence of self-insurance as contemplated by the State motor vehicle financial responsibility law, Tex. Transp. Code § 601.124, and the Texas Workers' Compensation Act, Tex. Labor Code § 407.001 et seq.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-174. Performance/assurance bond.

Before a permit shall be issued, the applicant therefore shall execute and deliver to the city, to be kept on file in the city clerk's office, a good and sufficient bond of or assurance, in the sum of ten thousand dollars ($10,000.00) to be approved by the risk manager and conditioned that the person making the application shall promptly adjust, pay and settle all legitimate claims for damages that may result by reason of carelessness or negligence in the manner of performing such work or by reason of any defects therein caused or arising from careless, negligent or imperfect construction thereof, and to hold the city free and harmless from liability on all such claims for damages to the performance or assurance bond shall cover the cost of repairs in or upon the street, sidewalk or other public place where the work is to be done that may become necessary by reason of such cut or excavation having been made. The bond shall be maintained until the work is accepted by the city.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-175. Optional continuing bond and deposit.

In lieu of a bond of performance or assurance required for each permit issued under the performance/assurance bond section of this article, the applicant may maintain a one-time bond of performance or assurance with the director the sum of one hundred thousand dollars ($100,000.00) for the purposes specified in section 29-174, and shall have on file, in the city clerk's office, an approved bond of performance or assurance in like amount, being then in full force and effect, against which claims shall not have been presented aggregating more than one hundred thousand dollars ($100,000.00); provided, further, that section 29-174 shall not apply to applications for permits to make cuts, openings or excavations in any street, plaza or other public place paved under contract with the city, unless the contract of maintenance and the maintenance bond therefor shall have expired. The bond shall be maintained until the applicant is no longer working in or on city streets.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-176. Liability of contractor and sureties for maintenance and repair work.

Any defects of workmanship or material relating to work done by an excavator during the initial project or becoming known or which should have been known during the guarantee period (the life of the street) shall be known as maintenance or repair work and both the excavator and the sureties and/or the contractor's bond shall be fully liable for any default of such contractor under this section. In the event of a failure in the restoration of an excavation, the ROW user shall have one opportunity to repair, in a timely manner, the section of the restoration that has failed at its expense, which repair shall be in accordance with the standards set forth in this chapter. In the event of any subsequent failure of that section of the restoration, the city retains the right and option to terminate the ROW user's guaranty, upon written notice to the ROW user. In such event, the ROW user shall reimburse the city for its direct costs associated with the repair of the failure of the restoration work.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-177. When additional security required.

In the event the director reasonably believes the contractor or ROW user;s solvency is threatened, the director may, at any time, make written

demand on a contractor or ROW user for bonds and the contractor or ROW user shall immediately furnish such additional bond or bonds.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-178. Decision of director binding on contractor, ROW user, and sureties.

In any question as to when any work was actually begun or other specific dates, the decision of the director shall be conclusive on the contractor, ROW user, and the sureties on all such bonds.
(Ord. No. 93319, § 1, 1-25-01)

DIVISION 5. VARIANCES AND EXEMPTIONS

Sec. 29-179. Variances/exemptions.

A permittee or ROW user may request a variance from any of the requirements of this chapter by filing a written request with the director stating the requirement and the basis for the variance. Incomplete variance requests may be rejected. The applicant shall bear its own expenses of the application process.

(1) Any request for a variance from any right-of-way restoration requirement shall be made in writing in advance of any contemplated work and shall be accompanied by digitally formatted detailed plans of the substituted reconstruction and/or repair of the excavated area, if applicable.

(2) Any request for an exemption from any penalty or fee other than as provided in this, shall be made in writing, and shall be accompanied by a written detailed request stating the reasons therefor.

(3) Any request for an exemption from any permit, or any other requirement of this chapter shall be made in writing, by detailed written request therefor, stating all pertinent reasons.

(4) The department shall grant or deny an application for a variance within ten (10) days of receipt of the application for variance.

(5) Denial of the variance may be appealed in accordance with the appeal section of this chapter.

(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-180. Exception for irrigation, sprinkler and residential purposes.

This article shall not be applicable to excavations which are not in pavement and are solely for the purpose of creating a sprinkler system for one (1) or more residential units located in Bexar County.
(Ord. No. 93319, § 1, 1-25-01)

DIVISION 6. CERTIFICATED TELECOMMUNICATION PROVIDERS

Sec. 29-181. Certificated telecommunications providers authority required/non-exclusive use.

A CTP must provide evidence that the CTP has acquired authorization from the Texas Public Utility Commission pursuant to state law, prior to obtaining a permit to use public rights-of-way. The CTP's right to use and occupy the public rights-of-way shall not be exclusive and CTP recognizes the city's right to exercise its police powers and manage its public rights-of-way, based on the Act and all other State or Federal laws.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-182. Additional authority required.

The CTP and any of its affiliates are not authorized to provide cable television service as a cable operator or to operate an open video system in the city, but must first obtain a separate franchise agreement from the city for that purpose, under such terms and conditions as may be required by law. This section does not preclude the CTP from providing its services to cable television companies. Unless a cable television operator shows proof of appropriate city authorization, nothing herein shall authorize the CTP to license, sublicense, lease, sublease or by any instrument authorize any cable television operator the right to use or utilize the transmission media or facilities of the CTP.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-183. Transfer and notice.

A CTP shall notify the director and the city's supervisor of public utilities of any sale, transfer, merger or assignment of the ownership or control of a CTP's business within at least thirty (30) days of such sale, transfer, merger or assignment. A CTP shall also maintain and provide current point-of-contact information with the director and the city's supervisor of public utilities at all times during which the CTP uses the right-of-way.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-184. Exemption from fees.

Certificated telecommunications providers are exempted from the following fees provided for in this article:

(1) Permit application fee, including expedited application fee, and permit expiration fee.

(2) Additional excavation permit fee.

(3) Inspection fee.

(4) Pavement degradation fee.

(5) Division 8 fees.

(6) Registration fee.

(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-185. Waiver of bonds.

Unless determined otherwise by the director a CTP will be exempt from the bonding requirements of this article, including sections 29-175 and 29-176, however, in the event that the director determines, based upon reasonable grounds, that a bond is necessary to protect the public assets, or the health and safety of the public, then the director may require that a CTP post a reasonable bond not to exceed one hundred thousand dollars and zero cents ($100,000.00). The director shall consult with the city's risk manager prior to imposing a bond on a CTP. Factors to be considered in determining reasonable grounds may include, but not limited to, a conviction for violation of this article, a general pattern of sub-standard adherence to the provisions of this article or the failure to comply with this article. If three (3) years pass from the date that the director requires a bond of a CTP and it has not been necessary for the city to seek performance under the bond, then a bond will no longer be required pursuant to this section.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-186. CTP indemnity.

A CTP shall indemnify the city as specified by § 283.057 of the Texas Local Government Code, as may be amended. A CTP shall be exempt from all indemnity requirements of this article that are inconsistent with § 283.057.
(Ord. No. 93319, § 1, 1-25-01)

DIVISION 7. FISCAL PROVISIONS

Sec. 29-187. Right-of-way management fund.

[(a)] Section 1: The director of finance is authorized to establish a project within the Miscellaneous Special Revenue—Streets & Drainage Fund 29-014002, entitled "Right-of-Way Management Street Restoration Project" to account for all revenues and expenditures to manage construction, excavation and placement of utilities; establishing fees; providing a penalty for violation by fine of not more than six hundred ($600.00) per day, per violation, and providing for publication. The director of finance is authorized to record and account for the project in accordance with Generally Accepted Accounting Principles (GAAP).

[(b)] Section 2: The director of finance is authorized to establish a project within the Miscellaneous Special Revenue— Streets & Drainage Fund 29-014003, entitled "Right of Way Management Street Restoration Reserve" to account for penalties and payment repair revenues authorized. The director of finance is authorized to record and account for the project in accordance with Generally Accepted Accounting Principles (GAAP).

[(c)] Section 3: Eighteen (18) new positions (one (1) Administrative Assistant II, six (6) Engineering Technicians, one (1) Fiscal Officer, three (3) Permit Clerks, one (1) Right-of-Way Manager, one (1) GIS Manager, four (4) Sr. Engineering Technicians, one (1) Utility coordinator) are hereby authorized in Fund 29-014002.

[(d)] Section 4: Funds in the amount of one million one hundred thirty thousand six hundred forty-four dollars ($1,130,644.00) are appropriated in Fund 29-14002, entitled Miscellaneous Special Revenue: Streets & Drainage—Right-of-Way Management Restoration Project, as set out in Attachment I.

[(e)] Section 5: The following fees authorized by this article are to be deposited in Fund 29-014002 in the index codes indicated below and budgets are authorized to be established:

Index Code	*Title*	*Activity*	*Amount*
069153	Permit Application Fee		$241,146.00
069161	Inspection Fee		$661,250.00
069179	GIS Processing Fee		$51,667.00
069187	Pavement Degradation Fee		$100,000.00
069195	Admin Fee—Pavement Repair		$79,080.00

[(f)] Section 6: The following fees authorized by this article are to be deposited in Fund 29-014003 in the index codes indicated below and budgets are authorized to be established:

Index Code	*Title*	*Activity*	*Amount*
069690	Penalties		$253,958.00
069708	Pavement Repair Revenue		$790,804.00

Attachment I is authorized for adoption into fiscal year 2000/2001 annual budget in Fund 29-014 (Streets Maintenance Special Revenue Fund) in Project 29-014002 (Right-of-Way Management Street Restoration Project). The personnel complement and budget appropriations, for the department, contained therein is authorized.

A separate fund shall be created, effective as of the effective date of the ordinance from which this article derives, known as the Right-of-Way Management Street Restoration Fund, for the purpose of identifying and controlling all revenues and expenses attributable to the Right-of-Way Management Street Restoration Program. All right-of-way management charges collected by the city, after the effective date of the ordinance from which this article derives, and other monies city council may wish to designate for this fund, shall be deposited in the Right-of-Way Management Street Restoration Fund. Such revenues shall be used for the purposes of administration, studies, engineering, construction, reconstruction and other reasonable and customary charges associated with the operation of the Right-of-Way Management Program.

Revenue collected through Right-of-Way Management shall be recorded and accounted for in a manner that insures that said funds are expended solely for expenses accrued by the Right-of-Way Management Street Restoration Program. The balance of funds on deposit in the account at the end of any fiscal year shall remain in the account and not be absorbed into the general fund.
(Ord. No. 93319, § 1, 1-25-01; Ord. No. 2008-09-11-0777G, § 16, 9-11-08)

Sec. 29-188. Annual report.

A report shall be made to the city council on an annual basis detailing the revenue and expenditure from the street excavation permit and associated fees collected and expended for the Right-of-Way Management Program.
(Ord. No. 93319, § 1, 1-25-01)

DIVISION 8. RESERVED*

Secs. 29-189, 29-190. Reserved.

DIVISION 9. SIDEWALK CONSTRUCTION

Sec. 29-191. Exemption for walk done under contract with city.

The provisions of this article shall not apply to any sidewalk or curbing construction or repairs

*__Editor's note—__Ord. No. 2007-01-11-0065, § 2, adopted January 11, 2007, repealed division 8, §§ 29-189 and 28-190, in its entirety, which pertained to licenses to use public right-of-way and derived from Ord. No. 93319, § 1, adopted January 25, 2001; Ord. No. 96508, §§ 3—5, adopted October 3, 2002, and Ord. No. 96509, §§ 2—13, adopted October 3, 2002.

done under contract with the city, except to the extent which may be specified in such contract or ordinance passed pursuant thereto, or as further described herein.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-192. Procedure for making sidewalk improvements and assessments.

(a) Whenever the city council shall find a public necessity for laying any sidewalk or curbing on any public street or place along, in front of or abutting of any private in the city, and shall pass an ordinance ordering the construction of such sidewalk or curbing, specifying the extent of such sidewalk or curbing required and naming the street or public place along which it is ordered to be constructed. The ordinance shall give a general description of each parcel of abutting property sufficient to identify the parcel and the name of the owner of the property of known.

(b) It shall be the duty of each owner of such abutting property forthwith to lay and construct, or cause to be laid and constructed, such sidewalk or curbing as so ordered and of the character required.

(c) It shall not be necessary for the city council expressly to declare such public necessity in each successive case, but the necessity shall be presumed to have been found and declared whenever the laying of sidewalks or curbing is ordered. If any owner is unknown to the city council it shall be sufficient so to state in the ordinance requiring the construction.

(d) Each order and notice of any sidewalk, curbing or repairs for property situated at the intersection of any two (2) streets or public places shall be deemed to include the construction of the sidewalk, curbing or repairs along the property mentioned and extending to the curb line of the street or public place.

(e) If any property has an unpaved alley abutting on the street or public place and intersecting on the street or public place and intersecting the street or public place, the sidewalk along the street or public place on either side of the alley shall be extended and maintained by the owner of each parcel of property abutting on the alley without special order or notice therefore, one-half (½) of the distance across such alley at a grade not higher than the sidewalk as may be fixed and determined by the director of public works.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-193. Procedure when improvement consists of repairs.

(a) When the city council shall be of the opinion that any sidewalk or curbing is in need of repairs, the repairs may be ordered and notice given to owners all in the same manner and with like purpose and effect as provided for original construction of the sidewalks or curbing. It shall be the duty of the owners of the property to construct the repairs, or cause the repairs to be

constructed so as to lay, construct and restore the sidewalk or curbing to good, safe and sound condition conforming to city specifications.

(b) Whenever the city council finds that any old sidewalk or curbing is so broken or disintegrated as to require construction of a new sidewalk, either wholly or in part, the council may order even though such old broken or disintegrated sidewalk or curbing may then exist along such premises.

(c) Each order of the city council shall be made pursuant to a report of the director of public works, when made by ordinance shall have the full force of condemnation were expressed in such ordinance.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-194. Procedure for improvement.

All sidewalk, curbing and guttering work constructed or contracted for by the city, independently of and apart from any paving contract, shall be conducted, and proceedings and assessments therefore made and had substantially as provided by state law. The cost of the construction or repair of sidewalks and curbing when so constructed or contracted for and not included with paving work shall be payable in two (2) equal installments, the first payable thirty (30) days after the date of the certificate of the director of public works provided within the division evidencing the completion of the improvements and acceptance thereof by the city, and the second payable one (1) year after such date. The construction or repair of such sidewalk and curbing on any number of streets and for any number of separate parcels of property where situated, and through originally ordered at different dates, may be included in the same proceedings and contracts, and the improvement so ordered for each parcel of property and the street or public place upon which such property abuts shall be deemed to be separate and distinct improvements, neither affected by any other such improvement included in the same proceedings or contract. Except as stipulated within this division all pertinent provisions of state law shall apply to the construction or repair of sidewalk and curbing, and the assessments to be levied on account of the cost of such work.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-195. Notice to owner.

Upon passage of any ordinance ordering the laying and construction of any sidewalk, curbing or repairs, the director of public works shall issue a written notice addressed to each owner of such property, which notice shall be sent by certified mail, return receipt requested, and shall include the substance of such ordinance.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-196. Substituted service.

If an owner of property is not found or is unknown or is a nonresident, it shall be sufficient service of the notice required above (notice to owner) to public the same three (3) consecutive times in any newspaper of general circulation published in the city in the English language, or it shall be sufficient service of the notice on any owner of any property to deliver the notice to the agent, if any, collecting rentals on the property, or to any owner of any such parcel of property, and it shall also be sufficient service of the notice, if the city shall forward the notice to the owner by certified or by registered United States mail, provided the receipt of the owner for the letter forwarded is received and filed by the director as evidence of service.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-197. When work is to commence.

Work on the construction of each sidewalk, curbing or repair ordered as provided above shall be commenced within the period of time as specified by ordinance, and the work shall thereafter be prosecuted to completion within the time thus slated.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-198. Failure to commence work.

If any person owning any property, or any portion or share in the fee title thereof, after the passage of any ordinance requiring improvements under this article and the service of any required

notice, shall fail or refuse to commence the construction of such repairs, or to cause such work to be commenced within the period specified by ordinance, or if the person shall allow the work to be discontinued before completion other than by written consent of the director, the person shall be adjudged guilty of a misdemeanor.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-199. Periodic inspections to assure compliance; complaints for noncompliance.

Upon the expiration of the period of time specified by an ordinance requiring improvements to be made under this article, the director of public works shall inspect or have inspection made of the premises on which the work was ordered to be constructed and shall cause a complaint to be filed in the municipal court against each person who, after the order and notice, has failed or refused to begin or to continue the improvements, or to cause such improvements to be begun and continued. The inspection and complaint shall be made at least one each month until the work shall be commenced and prosecuted with diligence.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-200. Liability of owner for cost of work; lien.

Whenever the city shall, after issuing the order and notice required by this article, construct, or contract for, or whenever any owner of any property shall enter into a lawful contract in writing for the construction or repair of any sidewalk or curbing, independently of and apart from any paving contract or other proceedings for the assessment of the cost of the work against such property and the owner thereof, the cost of such work, in accordance with the city Charter, shall nevertheless be a personal liability against the owner as well as a first and prior lien and charge against such abutting property, and such cost shall be paid by the owner of the city, or to the contractor constructing and completing the work, as herein provided, or as may be provided by the terms of any such contract made and entered into by and between the owner of the property and the contractor.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-201. Work to be supervised and approved by director of public works.

Every owner and contractor, and each agent, servant or employee of a contractor employed on work coming the terms of this article shall cause the work to conform strictly to the city specifications and requirements. work in the streets shall always be subject to the further supervision and approval or rejection by the director of public works, acting personally or by one of his assistants. If the work is not constructed in strict conformity with the specifications and the lines and grades for such work, the director of public works shall condemn the work, and it shall be promptly removed by the person or contractor who constructed it and without further notice be reconstructed as originally ordered and authorized, until the work shall comply with all such requirements.
(Ord. No. 93319, § 1, 1-25-01)

Sec. 29-202. Certificate of approval.

When work is fully completed pursuant to this article, the director of public works shall, if requested by the contractor or any owner of any such parcel of property, inspect the work and if it be approved, furnish to such applicant a written certificate showing the completion of the work and the acceptance thereof by the city, for which inspection and final certificate, the applicant, shall, upon application therefore, pay a fee of two dollars ($2.00) to the director of public works, for which fee he shall account to the city. Any owner of such property may refuse to make payment on account of the work until the director has certified to the completion and acceptance of such work.
(Ord. No. 93319, § 1, 1-25-01)

DIVISION 10. WEIGHT-LIMITED BRIDGES

Sec. 29-203. Bridge weight limit violation.

It shall be unlawful for the operator of any vehicle to drive, haul, push or tow, wholly or partially, any load upon a posted weight limited bridge, which collectively exceeds the officially

designated and posted maximum bridge weight, whether or not all load bearing wheels travels onto the bridge.
(Ord. No. 93319, § 1, 1-25-01)

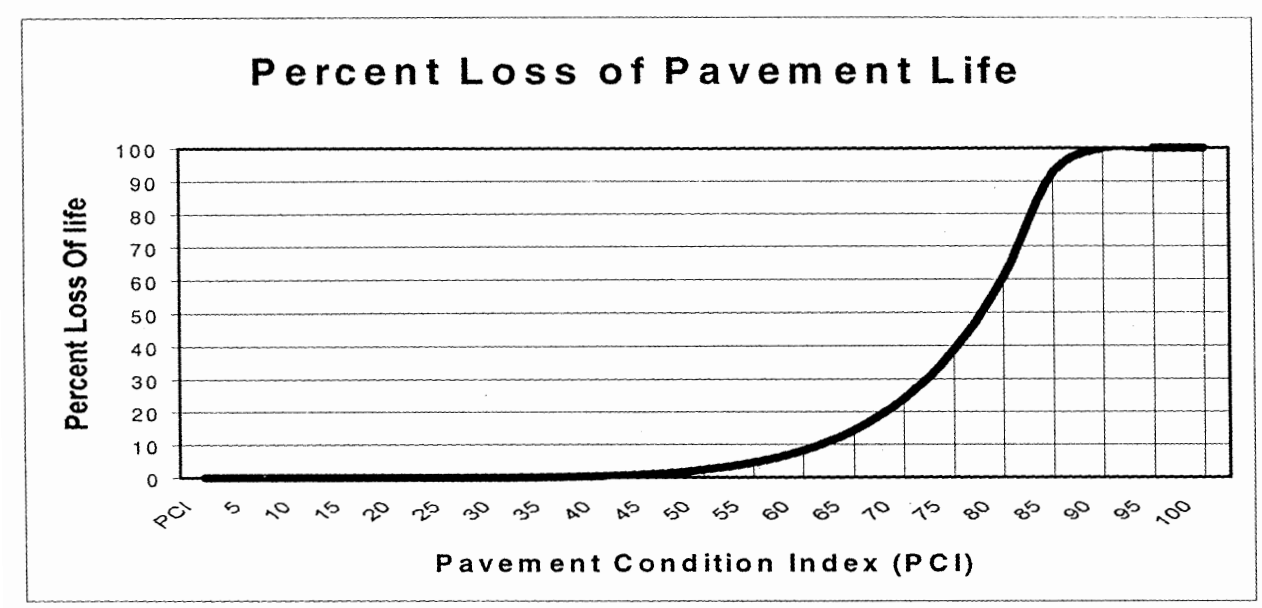
Sec. 29-204. Penalty upon conviction.

This is not a traffic ordinance authorized under the Texas Motor Vehicle Statutes, and is not governed by the penal provisions there under. Any violation of the provisions of this division is hereby declared to be a health and safety related misdemeanor, and upon conviction is punishable by a fine of not more than five hundred dollars ($500.00).
(Ord. No. 93319, § 1, 1-25-01)

Appendix "B"

Formula:

Percent Loss of Pavement Life = $0.0039 \times (PCI/20^{6.963})$



Read the Percent Loss of Pavement Life on the left side of the figure. Round the value to the nearest whole number. Table of PCI values in increments of five (5) follows and shall be used as a guide:

PCI	5	10	15	20	25	30	35	40	45	50	55	60	65	70	75	80	85	90	95	100
PLL Value	0	0	0	0	0	0	0	0	0	2.30	4.47	8.19	14.30	23.96	38.73	60.70	92.58	100.00	100.00	100.00

PCI > 85 use 100% Loss of Pavement Life

PCI ≤ 50 use 0% Loss of Pavement Life

Pavement Cost per Square Yard Rate is scheduled as follows:

Classification	*Cost per Square Yard (FY 2000-2001)*
Thin (flexible pavement)	$32

Classification	*Cost per Square Yard (FY 2000-2001)*
Medium (flexible pavement)	$38
Thick (flexible pavement)	$42
The cost per square yard rates shall be updated annually.	

To determine pavement classification you must first determine the pavement equivalent granular thickness (EGT). The EGT value is equal to the sum of all the layers in the existing pavement section times the respective value for each material as follows:

Pavement Material	*EGT Value per Inch*
Lime Stabilized Subgrade	0.6
Crushed Limestone Base	1.0
HMACP, Type A or B	2.0
HMACP, Type C or D	1.8
Asphalt Stabilized Base	1.7
Ashpalt In-Place Base Stabilization	1.6
Old or Weathered Concrete	2.0
Newly or Mildly Weathered Concrete	3.0

EGT value = SUM (EGT value per inch × inches of material in the section)

Note: The pavement cross-sectional thickness (in inches) can be determined from one of the following sources:

(1) City of San Antonio's Pavement Management System

(2) Field investigation through coring or excavation of sample sections, or

(3) From the as-built drawings on file in the city engineer's office.

Then, determine the pavement classification as follows:

Total EGT Value	*Classification*
Less than or equal to 15	Thin (flexible pavement)
Greater than 15 but less than 20	Medium (flexible pavement)
Equal to or greater than 20	Thick (flexible pavement)

Use the pavement classification to determine pavement cost per square yard rate.

Chapter 31

TAXATION*

Article I. In General

Sec. 31-1. Adoption of state tax code.
Sec. 31-2. Ad valorem tax rate for the maintenance and operation of the city government (2002).
Sec. 31-3. Ad valorem tax rate to pay the principle and interest on the funded debt of the city (2002).
Secs. 31-4—31-15. Reserved.

Article II. General Occupation Tax

Sec. 31-16. Enforcement.
Sec. 31-17. Businesses, professions and occupations for which required; duration.
Sec. 31-18. Tax levied; amount.
Sec. 31-19. When taxes due and payable.
Sec. 31-20. Partial payment of tax prohibited.
Sec. 31-21. Issuance of license.
Sec. 31-22. License numbers.
Sec. 31-23. Receipts for licenses.
Sec. 31-24. Display of license.
Sec. 31-25. Discriminatory practices of licensee prohibited.
Sec. 31-26. Revocation.
Sec. 31-27. Lien for taxes in arrears.
Secs. 31-28—31-39. Reserved.

Article III. Coin-Operated Machines

Sec. 31-40. Occupation tax required.
Sec. 31-41. Definitions.
Sec. 31-42. Machines exempt from tax.
Sec. 31-43. Amount of tax.
Sec. 31-44. When tax is due.
Sec. 31-45. Issuance of decal.
Sec. 31-46. Display of decal.
Sec. 31-47. Attachment to machine.
Sec. 31-48. Sealing and release of machines.
Secs. 31-49—31-65. Reserved.

Article IV. Hotel Occupancy Tax

ARTICLE I. IN GENERAL

Sec. 31-1. Adoption of state tax code.

The provisions of the Texas Tax Code as set forth in V.T.C.A., Tax Code, § 1.01 through § 211.259 is hereby adopted by the city as if set forth at length herein. Three (3) copies of the Tax Code shall be filed in the office of the city clerk.

Sec. 31-2. Ad valorem tax rate for the maintenance and operation of the city government (2002).

The city council hereby sets and levies for general purposes an ad valorem tax rate of 36.204 cents per one hundred dollars ($100.00) of assessed valuation for the tax year beginning January 1, 2002, and ending December 31, 2002, on all property, real, personal, mobile, and mixed, within the limits of the city, not otherwise exempted by the Constitution or laws of the state and ordinance of the city.
(Ord. No. 96400, § 1, 9-19-02)

Sec. 31-3. Ad valorem tax rate to pay the principle and interest on the funded debt of the city (2002).

To provide for the payment of the principal and interest on general obligation bonds and certificates of obligation issued by the city and to create a sinking fund for the payment thereof as they severally mature, there hereby is levied for the tax year beginning January 1, 2002 and ending December 31, 2002, a special tax of, and at the rate of, 21.650 cents per one hundred dollars ($100.00) of assessed valuation on all property, real, personal, mobile, and mixed, within the limits of the city, not otherwise exempted by the Constitution or laws of the state and ordinance of the city.
(Ord. No. 96401, § 1, 9-19-02)

Secs. 31-4—31-15. Reserved.

ARTICLE II. GENERAL OCCUPATION TAX

Sec. 31-16. Enforcement.

It shall be the duty of the police to assist in the enforcement of this article, and they are required to report to the tax assessor-collector every person pursuing any business, vocation or occupation without having the required license.
(Code 1950, § 34-1; Code 1959, § 14-23)

Sec. 31-17. Businesses, professions and occupations for which required; duration.

It shall be the duty of every person pursuing a business, profession or occupation within the city, upon which there is or may be levied an occupation tax by the city council, before commencing, engaging in or pursuing same, to procure a license from the office of the tax assessor-collector. The license shall be valid to midnight of the last day of May following issuance of the license.
(Code 1950, § 34-1.1; Code 1959, § 14-24)

Sec. 31-18. Tax levied; amount.

There is hereby levied upon every person within the limits of the city pursuing a business, profession or occupation, a tax equal to one-half (½) of the tax imposed by the state upon each such business, profession or occupation and a tax or fee charge of one-half (½) of any fee so charged by the state which under the statutes and the constitution of the state may be imposed by the city.
(Code 1950, § 34-2; Code 1959, § 14-25)

Sec. 31-19. When taxes due and payable.

Occupation taxes shall become due on the day upon which the person first engages in the pursuit, vocation, occupation or calling, and shall be payable annually, in advance, before the first day of June.
(Code 1950, § 34-3; Code 1959, § 14-26)

Sec. 31-20. Partial payment of tax prohibited.

It shall be unlawful on the part of the tax assessor-collector to receive partial payments on account of occupation taxes, but the same shall be received by him only for the full periods authorized by the laws of the state.
(Code 1950, § 34-4; Code 1959, § 14-27)

Sec. 31-21. Issuance of license.

Before any person shall engage in any pursuit, vocation, occupation or calling which is subject to the occupation tax provided for in section 31-18, the amount of the tax shall be paid to the tax assessor-collector, who shall give a receipt therefor upon forms furnished by the director of finance, and shall issue to the person applying therefor a license signed by the director of finance, attested by the tax assessor-collector, and sealed with the seal of the city, to pursue for the time named in the license, the occupation, pursuit, vocation or calling named in the license.
(Code 1950, § 34-5; Code 1959, § 14-28)

Sec. 31-22. License numbers.

The director of finance shall furnish the tax assessor-collector with all occupation tax receipts numbered serially, and such collector shall number each license issued by him to correspond with the number on the receipt.
(Code 1950, § 34-6; Code 1959, § 14-29)

Sec. 31-23. Receipts for licenses.

All occupation taxes shall be receipted for by the tax assessor-collector only upon printed receipts furnished and counter-signed by the director of finance. All occupation receipts issued by the assessor-collector shall have duplicate stubs which shall be signed by him at the time of payment in like manner as the receipt. One of these stubs shall be filed with the assessor-collector's monthly report to the director of finance, and the other stub shall be retained by him until he makes his annual statement.
(Code 1950, § 34-7; Code 1959, § 14-30)

Sec. 31-24. Display of license.

Each occupation license shall be posted by the licensee in a conspicuous place at his place of business.
(Code 1950, § 34-8; Code 1959, § 14-31)

Sec. 31-25. Discriminatory practices of licensee prohibited.

It shall be unlawful for any licensee doing business in the city under and by virtue of any license issued by the city to deny admission to the place of business to any person, merely because he is a member of the armed forces of the United States or its allies, of the reserve officers' training corps, of the boy scouts of America, of the fire and police departments of the city, whether they are in or out of uniform, or to any governmental employee in or out of uniform, or because of citizenship in any Latin-American republic or merely because of racial origin, provided the admission of such person is not in conflict with state and federal laws.
(Code 1950, § 34-9; Code 1959, § 14-32)

Sec. 31-26. Revocation.

Any license granted or issued by the city shall be subject to revocation by the city council after due notice to the holder of such license and hearing thereon, upon proof of violation of section 31-25.
(Code 1950, § 34-10; Code 1959, § 14-33)

Sec. 31-27. Lien for taxes in arrears.

All arrearages of occupation taxes, which may be due by reason of a business having been carried on without the payment of a tax, shall be a lien upon all stock and fixtures owned or used in or making a part of any business or vocation liable to such tax, which lien shall authorize the tax assessor-collector to seize and sell, after ten (10) days' notice, so much of the stock or other personal property of any person owing such taxes as will satisfy the claim for taxes, and all costs incurred by such proceedings.
(Code 1950, § 34-14; Code 1959, § 14-34)

Secs. 31-28—31-39. Reserved.

ARTICLE III. COIN-OPERATED MACHINES*

Sec. 31-40. Occupation tax required.

Every owner or operator who owns, controls, possesses, exhibits, displays, or who permits to be

*__Editor's note—__Ordinance No. 76466, adopted Sep. 10, 1992, amended Art. III to read as herein set out. Formerly, Art. III consisted of §§ 31-41—31-48, which pertained to coin-operated machines and derived from §§ 14-32, 14-36, 14-38, 14-39, 14-41—14-44 of the 1959 Code, and § 1 of Ord. No. 46599, adopted April 29, 1976.

exhibited or displayed in this city any coin operated machine which are not exempt from payment by section 31-42 of this Code, shall pay the appropriate annual taxes as provided in section 31-43.
(Ord. No. 76466, 9-10-92)

Sec. 31-41. Definitions.

The terms "owner," "operator," "coin-operated machine," "music coin-operated machine," "skill or pleasure coin-operated machine," or "service coin-operated machine," as used in this section, shall have the meanings given to them in chapter eight, V.A.T.S., coin-operated services. The term "tax," as used in this section, shall have the meaning of "occupation tax."
(Ord. No. 76466, 9-10-92)

Sec. 31-42. Machines exempt from tax.

Gas meters, pay telephones, pay toilets, food vending, confection vending, beverage vending, merchandise vending and cigarette vending machines, which are now subject to an occupation or gross receipts tax, stamp vending machines and "service coin-operated machines," and machines exclusively for the amusement of children, are expressly exempt from the provisions of this article.
(Ord. No. 76466, 9-10-92)

Sec. 31-43. Amount of tax.

(a) The following tax shall be collected by the tax assessor-collector:

(1) For each coin-operated machine the annual occupation tax shall be an amount that does not exceed one-fourth (¼) the amount of the state tax.

(2) The tax shall be prorated on a semiannual basis. That is, the amount of the tax shall be one-half (½) of the annual amount when paid on a machine placed in operation from December to May.

(3) There shall be no proration of the tax paid on a coin-operated machine which has been sealed for any of the reasons in section 31-48.

(b) The tax assessor-collector may not refund any part of a tax after it is paid.
(Ord. No. 76466, 9-10-92)

Sec. 31-44. When tax is due.

Tax on a coin-operated machine is due by June 1, and shall expire on the last day of May of each year. Payment of the tax is verified by placement of a decal on each coin-operated machine prior to its placement, display, or use.
(Ord. No. 76466, 9-10-92)

Sec. 31-45. Issuance of decal.

Upon payment of the tax required by section 31-43, a decal representing payment of the tax shall be issued by the assessor-collector for placement on the machine under the guidelines of section 31-47. No tax receipt or decal shall be issued for a period longer than one (1) year.
(Ord. No. 76466, 9-10-92)

Sec. 31-46. Display of decal.

It shall be unlawful for any person to possess or exhibit within the city, any coin-operated amusement machine without having first properly attached thereto a valid current decal issued by the city tax assessor-collector, thereby verifying the payment of the tax thereon for the current coin-operated machine tax year of June 1 through May 31. Decal shall be conspicuous and visible to the public, and attached in accordance with section 31-47.
(Ord. No. 76466, 9-10-92)

Sec. 31-47. Attachment to machine.

Occupation tax decals shall be conspicuously attached to a permanent surface of the machine so as to make the decal visible for inspection without movement of machine. Decals not properly displayed will be invalid. Tax decals shall be securely and permanently attached to the coin-operated machine. It shall be unlawful to enclose any tax decal in a plastic cover or to in any way affix the decal in a less than permanent manner so that the decal may be removed or moved from one machine to another without the destruction of the decal resulting as a consequence of such removal. The decal must be attached by use of the

adhesive exposed on back following complete removal of the protective backing. Decals shall not be affixed by the use of tape. Any decal not affixed permanently to a machine as described in this section by use of the adhesive backing on the decal shall be immediately voided. Any decal removed from a machine shall be immediately voided. Occupation tax decals issued under the provisions of this article are not transferrable from one person to another or from one coin-operated machine to another.
(Ord. No. 76466, 9-10-92)

Sec. 31-48. Sealing and release of machines.

(a) The special tax investigators of the city tax office are authorized to and shall have the power to inspect any coin-operated machines for compliance of this article and shall seal or otherwise make inoperable any coin-operated machine on which the city occupation tax has not been paid or on which the decal has been improperly placed, removed, invalidated, voided, or defaced in such a manner as to deem the decal number unreadable.

(b) The special tax investigators are authorized to release any machine so sealed upon the payment in full of the tax due and verification of the correct placement of the current decal on the coin-operated machine so sealed, and the payment of a penalty of five dollars ($5.00) to the assessor-collector for each machine so sealed. A coin-operated machine shall remain sealed and it shall be unlawful to play, use, or remove from the premises where it was located when sealed, any machine sealed by an investigator until such time as all taxes and penalty fees are paid in accordance with the provisions contained in this article.
(Ord. No. 76466, 9-10-92)

Secs. 31-49—31-65. Reserved.

ARTICLE IV. HOTEL OCCUPANCY TAX*

Sec. 31-66. Definitions.

The following words, terms and phrases are, for the purposes of this article (except where the context clearly indicates a different meaning), defined as follows:

Alternate collection / reporting period shall mean a period of a day or days other than the regular calendar months. Such periods are approved by the city finance director upon request by the hotel manager, operator, or person in control, or imposed by the city finance director upon his finding that collections are at risk of loss if collections accumulated for the full calendar month [are] in the possession of the hotel owner, operator, manager, or person in control.

Consideration shall mean the price of, or value received for, the right to use a sleeping room, bed, or dormitory space or other sleeping facility in a hotel, and includes the price of conveniences customarily provided in connection with sleeping accommodations, including mattress, sheets, bedspreads, pillows, pillow cases, bed frames, air conditioning, electricity, lighting, water, soap, towels, wash cloths, toilet tissue, shower or bath facilities, lavatory, chairs, trash receptacles, plus any other goods or services which are not ordinarily subject to sales tax. The consideration paid for a sleeping room or facility shall not include the price of food served, nor the price of personal services rendered to the occupant which are unrelated to cleaning and readying a room for occupancy, nor any sales tax, nor occupancy tax assessed by other governmental agencies, provided that these charges are stated separately on the folio or invoice of the occupant. Charges not stated separately shall be presumed to be part of

*__Editor's note—__**Ord. No. 67104, adopted May 12, 1988, amended Art. IV, §§ 31-66—31-74, relative to the hotel occupancy tax, in its entirety to read as herein set out. Prior to said amendment, the substantive provisions of Art. IV derived from Code 1959, §§ 14-5, 14-46—14-51; Ord. No. 36347, § 3, adopted March 14, 1968; Ord. No. 43385, § 1, adopted Feb. 14, 1974; Ord. No. 54564, § 3, adopted Nov. 19, 1981; Ord. No. 57798, § 1, adopted Oct. 27, 1983; Ord. No. 63239, §§ 1, 2, adopted July 16, 1986; and Ord. No. 65174, adopted June 11, 1987.

State law references—Hotel occupancy tax, Vernon's Ann. Civ. St. art. 1269j-4.1; §§ 3a, 3b, 3d.

the consideration paid for occupancy of a sleeping room or sleeping facility, and shall be taxed under this article.

Hotel shall mean any building or complex of buildings, trailer, converted railroad pullman car, or any other facility in which the public may, for a consideration, obtain sleeping accommodations. The term shall include hotels, motels, tourist homes, houses or courts, lodging houses, inns, rooming houses, trailer houses, trailer motels, parked railroad pullman cars used for sleeping accommodations and not involving the transportation of travelers, dormitory where bed space is rented, apartments not occupied by permanent residents, and all other facilities where rooms or sleeping facilities or space are furnished for a consideration. The term hotel does not include hospitals, sanitariums or nursing homes.

Monthly collection/reporting period shall mean the regular calendar months of the year.

Occupancy shall mean the use or possession of, or the exclusive right to the use or possession of a sleeping room or sleeping facility in a hotel.

Occupant shall mean any individual, corporation, governmental agency, partnership, or association that has paid a consideration for the exclusive right to use a sleeping room or sleeping facility in a hotel.

Permanent resident shall mean any occupant who has occupied or has paid for the exclusive right to occupy a particular sleeping room or rooms or sleeping facility in a hotel for at least thirty (30) consecutive days; however, one change of sleeping rooms or facility during the first thirty (30) days of occupancy in the hotel shall not terminate the status of the permanent resident. Any person who does not fully prepay for the first thirty (30) days is not a permanent resident during the first thirty (30) days of occupancy.
(Ord. No. 67104, 5-12-88)

Sec. 31-67. Use of tax proceeds.

All hotel tax revenues above and beyond the seven (7) percent rate, up to the maximum tax rate of nine (9) percent, together with any attendant late penalties, shall be devoted exclusively to the "Capital Improvement Plan For Convention Center Expansion," and related renovations.
(Ord. No. 67104, 5-12-88; Ord. No. 67923, § 9(a), 9-15-88; Ord. No. 78834, § 6, 9-30-93)

Sec. 31-68. Tax authorized; tax rate; exceptions to tax.

(a) *Authorization.* There is hereby levied a tax upon the cost of or consideration paid for a sleeping room or sleeping facility furnished by any hotel.

(b) *Tax rate.* The tax shall be equal to nine (9) percent of the total price of a sleeping room or sleeping facility, said price to include all goods and services provided by the hotel which are not ordinarily subject to sales tax.

(c) *Exceptions.*

(1) There shall be no tax on the cost of or consideration paid for occupancy of a hotel sleeping room or sleeping facility priced at less than two dollars ($2.00) per day.

(2) The cost of or consideration paid for a hotel room or facility not ordinarily used for sleeping, such as a meeting room, is not subject to this tax.

(3) The cost of or consideration paid for a sleeping room or facility occupied by a permanent guest is not subject to this tax.

(4) There can be no occupancy tax on the consideration paid directly by the United States Treasury if the constitutional exemption is invoked. This exception is not extended to employees of the federal government or any local government who pay the consideration for sleeping room or sleeping facilities without the federal government being a party to the contract.

(Ord. No. 67104, 5-12-88; Ord. No. 78834, § 2, 9-30-93)

Sec. 31-69. Collection; payment to city; fee for collection.

(a) Every person owning, operating, managing or controlling any hotel shall collect the tax imposed under this article and pay same to the city tax collector with the report required hereinafter.

(b) Reserved.

(c) The report and the tax remittance shall become delinquent on the first day of the second calendar month following the collection/reporting month; and on the thirty-first day after the end of any alternate collection/reporting period.
(Ord. No. 67104, 5-12-88; Ord. No. 101393, § 2, 9-15-05)

Sec. 31-70. Reports.

(a) Every person required to collect the tax by section 31-69 shall file a report with the city finance director or his designated representative showing the consideration paid for all rooms or sleeping space occupancies in the preceding calendar month, the amount of tax collected on such occupancies, and any other useful and relevant information as the city finance director may require.

(b) Timely reports must be submitted so as to arrive at the office of the city tax collector by the twentieth day of the month following the calendar month collection/reporting period or by the twentieth day after the end of any alternate collection/reporting period approved by or imposed by the city finance director.

(c) Reports shall include gross sleeping-room revenues, gross exempt sleeping room revenues, city occupancy tax collected, and net occupancy tax due the city. It shall also include the signature of the hotel's local manager or person in control of business operations at the reporting hotel, who shall sign a statement that the report is accurate to the best of his/her knowledge and belief.

(d) The report and the tax remittance shall be for the calendar month or other collection/reporting period requested by a hotel business manager or operator and approved by the director of finance. For such alternate collection/reporting periods, delinquency shall occur on the thirty-first day after the end of the alternate reporting period, and the office of internal audit shall audit and provide report/remittance pick-up service if so directed by the finance director.

(e) The finance director shall impose a daily or weekly collection/reporting period, and shall provide for daily or weekly pick-up of reports and tax collections, whenever he has reason to believe that the tax revenues will not be remitted in the normal course of business, such as an impending bankruptcy or business closing, or the maintenance of unauditable records.
(Ord. No. 67104, 5-12-88)

Sec. 31-71. Availability of records.

Each person required to collect the tax must make records available for inspection by the city finance director or his designated representative, at the hotel where the tax is collected.
(Ord. No. 67104, 5-12-88)

Sec. 31-72. Rules and regulations.

The city finance director is authorized to issue rules and regulations necessary to effectuate the full intent and purpose of this article concerning the information required on reports, the collection reporting periods, audits, the retention of records at the hotel, the forcible seizure of records for auditing purposes, the imposition of a daily or weekly collection/reporting period, the referral of delinquent reports and/or collections to the legal department for purpose of enjoining continued operation of a hotel, the filing of criminal complaints for violations of this article, and the acceptance of a surety bond in lieu of enjoining a hotel from doing business.
(Ord. No. 67104, 5-12-88)

Sec. 31-73. Violations.

(a) *Reserved.*

(b) *Date of first penalty.* In addition, he shall pay five (5) percent of the unremitted delinquent tax as a late penalty if the report is not submitted or the tax is not remitted by the last day of the calendar month in which they are due; provided that the penalty shall never be less than five dollars ($5.00).

(c) *Monthly penalty.* After the first calendar month of delinquency, he shall pay an additional five (5) percent of the unremitted tax on the first day of each delinquent month; provided that the penalty shall never be less than five dollars ($5.00).

(d) *Interest on delinquent balance.* Delinquent taxes shall accrue interest on the first day of each month at the annual rate of ten (10) percent per annum.
(Ord. No. 67104, 5-12-88; Ord. No. 101393, § 2, 9-15-05)

Sec. 31-74. Suit to enjoin hotel operations.

The finance director shall refer any hotel occupancy tax account that has a delinquent balance older than sixty (60) days to the city attorney for the purpose of filing a suit to enjoin the hotel owner, operator, manager, and other persons in control from operating any hotel in the City of San Antonio until the tax is paid and/or the report filed. This remedy shall be in addition to the remedy of a collection suit and in addition to the municipal court criminal complaint that may be filed for each violation of this article.
(Ord. No. 67104, 5-12-88)

Sec. 31-75. Surety bond in lieu of injunction suit.

The finance director shall not refer a delinquent account to the city attorney for the purpose of enjoining the hotel operators from doing business in San Antonio if the owner, manager, operator, or other persons in control provides an acceptable surety bond in an amount equal to the city hotel occupancy tax collected by the subject hotel in the six (6) best net revenue months of the twelve (12) full calendar months immediately prior to the acquisition of the bond, said bond to ensure payment for a one-year period, and be updated and approved by the finance director annually if said hotel operators desire to continue such protection from business-closing during a period of delinquency.
(Ord. No. 67104, 5-12-88)

Sec. 31-76. Fine upon conviction.

A violation of any of the requirements of this article shall constitute a Class "C" misdemeanor crime, and upon conviction, shall be punished by a fine of not less than fifty dollars ($50.00) nor more than five hundred dollars ($500.00).

The auditor or the city tax collector shall mail a delinquency notice to the hotel manager, operator, or person in control, and in said notice, shall give a date certain for the filing of criminal complaint for failure to report or remit collected tax revenues, or for failure to do any other specified act required by this article.
(Ord. No. 67104, 5-12-88)

Sec. 31-77. Tampering with government records.

The auditor of hotel tax records which are created and maintained at the hotel business shall report any evidence of false entry in or false alteration of said records to the finance director, who shall make the determination of whether or not to file a criminal charge against the person in control of said records pursuant to Texas Penal Code, Section 37.10, entitled "Tampering With Government Records," after consultation and advise of the city attorney.
(Ord. No. 67104, 5-12-88)

Secs. 31-78—31-85. Reserved.

ARTICLE V. RESIDENCE HOMESTEAD EXEMPTION FOR THE ELDERLY*

Sec. 31-86. Exemption granted.

Upon compliance with all requirements of this article and all other applicable laws and resolutions, eighty-five thousand dollars ($85,000.00) of the assessed value of residence homestead of persons sixty-five (65) years of age or older shall be exempt from ad valorem taxes levied by the city.
(Code 1959, § 14-58: Ord. No. 42679, § 1(1), 8-23-73; Ord. No. 44159, 8-1-74; Ord. No. 58152, § 1, 1-19-84; Ord. No. 62252, § 1, 1-30-86; Ord. No. 97234, § 2, 2-20-03; Ord. No. 2022-06-16-0433, § 5, 6-16-22)

Sec. 31-87. Effective date.

The exemption granted by this article shall be effective as to such residence homesteads as may qualify hereunder commencing with the 2022 tax year.
(Code 1959, § 14-59; Ord. No. 42679, § 1(2), 8-23-73; Ord. No. 44159, 8-1-74; Ord. No. 58152,

*__State law reference—__Residence homestead exemption, V.T.C.A. Tax Code, 11.13.

§ 2, 1-19-84; Ord. No. 62252, § 2, 1-30-86; Ord. No. 97234, § 3, 2-20-03; Ord. No. 2022-06-16-0433, § 6, 6-16-22)

Sec. 31-88. Limitations of exemption.

The exemption authorized hereby shall extend only to a residential homestead as same may be defined by the laws of the state. Such exemptions shall be allowed only if the property in question is in fact a residential homestead of the applicant and such person has attained the age of sixty-five (65) during the tax year.
(Code 1959, § 14-62: Ord. No. 42679, § 1(5), 8-23-73; Ord. No. 44159, 8-1-74; Ord. No. 97234, § 4, 2-20-03)

Sec. 31-89. Determinative date for exemption.

The exemption for an individual sixty-five (65) years of age or older is effective as of January 1 of the tax year in which such person qualifies for the exemption (attains the age of sixty-five (65) and applies to the entire tax year.
(Code 1959, § 14-63; Ord. No. 42679, § 1, 8-23-73; Ord. No. 4415, 8-1-74; Ord. No. 97234, § 5, 2-20-03)

ARTICLE VI. RESERVED*

Secs. 31-116—31-199. Reserved.

ARTICLE VII. RESIDENCE HOMESTEAD EXEMPTION FOR THE DISABLED

Sec. 31-200. Definitions.

As used in this section, the term "disabled" means under a disability for purposes of receiving disability insurance benefits under the Federal Old Age, Survivors and Disability Insurance Act administered by the Social Security Administration, and shall include all conditions required for eligibility under said Act.
(Ord. No. 100324, § 2, 1-20-05)

Sec. 31-201. Exemption granted.

Upon compliance with all requirements of this article and all other applicable laws and resolutions, eighty-five thousand dollars ($85,000.00) of the assessed value of the residence homestead of a disabled individual shall be exempt from ad valorem taxes levied by the city.
(Ord. No. 100324, § 2, 1-20-05; Ord. No. 2022-06-16-0433, § 8, 6-16-22)

Sec. 31-202. Effective date.

The exemption granted by this article shall be effective as to such residence homesteads as may qualify hereunder commencing with the 2022 tax year.
(Ord. No. 100324, § 2, 1-20-05; Ord. No. 2022-06-16-0433, § 9, 6-16-22)

Sec. 31-203. Limitations of exemption.

The exemption authorized hereby shall extend only to a residence homestead as same may be defined by the laws of the state. Such exemption shall be allowed only if the property in question is in fact a residence homestead of the applicant and such person meets the definition of disabled during the tax year.
(Ord. No. 100324, § 2, 1-20-05)

Sec. 31-204. Determinative date for exemption.

The exemption for an individual who is disabled is effective as of January 1 of the tax year in which such person qualifies for the exemption (meets the definition of "disabled") and applies to the entire tax year.
(Ord. No. 100324, § 2, 1-20-05)

Sec. 31-205. Exemption granted.

Upon compliance with all requirements of this article and all other applicable laws and resolutions of the state and the city, the residence homestead of an individual shall be exempt from

*__Editor's note—__The former article VI, divisions 1—4, which pertained to tax increment financing (TIF) and reinvestment zones and derived from Ord. No. 88196, § 1, adopted July 30, 1998, was not intended for codification and has been removed at the direction of the city.

ad valorem taxes levied by the city in the amount equal to ten (10) percent of the appraised value of the residence homestead or the statutorily mandated minimum of five thousand dollars ($5,000.00).
(Ord. No. 2022-06-16-0433, § 2, 6-16-22)

Sec. 31-206. Effective date.

The exemption granted by this article shall extend only to such residence homesteads as may qualify hereunder commencing with the 2022 tax year, which began January 1, 2022.
(Ord. No. 2022-06-16-0433, § 3, 6-16-22)

Secs. 31-207—31-219. Reserved.

ARTICLE VIII. GENERAL RESIDENCE HOMESTEAD EXEMPTION*

Sec. 31-220. Exemption granted.

Upon compliance with all requirements of this article and all other applicable laws and resolutions of the state and the city, the residence homestead of an individual shall be exempt from ad valorem taxes levied by the city in the amount equal to 0.01 percent of the appraised value of the residence homestead or the statutorily mandated minimum of five thousand dollars ($5,000.00).
(Ord. No. 2019-06-24-0584, § 2, 6-24-19)

Sec. 31-221. Effective date.

The exemption granted by this article shall extend only to such residence homesteads as may qualify hereunder commencing with the 2019 tax year, which began January 1, 2019.
(Ord. No. 2019-06-24-0584, § 2, 6-24-19)

Sec. 31-222. Limitations of exemption.

The exemption authorized by this article shall extend only to a residence homestead as the same may be defined by the laws of the State of Texas and the city.
(Ord. No. 2019-06-24-0584, § 2, 6-24-19)

Sec. 31-223. Determination date for exemption.

The exemption for an individual granted by this article is effective as of January 1 of the tax year in which the individual qualifies for it and applies to the entire tax year.
(Ord. No. 2019-06-24-0584, § 2, 6-24-19)

*__Editor's note—__Ord. No. 2019-06-24-0584, § 2, adopted June 24, 2019, added new §§ 31-205—31-208 to the Code; however, said provisions have been redesignated as §§ 31-220—31-223, at the discretion of the editor, for purposes of maintaining Code format.

Editor's note—Ord. No. 2015-09-10-0758, § 2(Att. L), adopted September 10, 2015, enacted provisions intended for use as section 32-5. Inasmuch as there are already provisions so designated, and at the discretion of the editor, said provisions have been redesignated as section 32-6.

Secs. 32-7—32-15. Reserved.

ARTICLE II. MARKET SQUARE (TOURIST TRADE CENTER NO. 1)

DIVISION 1. GENERALLY

Sec. 32-16. Definitions.

For the purpose of this chapter, the following words and phrases shall be defined as follows:

Centro de Artes del Mercado is all of that property owned by the city bounded on the north by West Commerce Street, on the west by an alley running north and south, on the south by Produce Row and bounded on the east by Santa Rosa Street.

Director is the director of the parks and recreation department or his authorized representative.

El Mercado is all of that property owned by the city housing specialty shops bounded on the north by West Commerce Street, on the east by an alley running north and south between Produce Row and West Commerce Street, on the south by Produce Row, and bounded on the west by San Saba Street.

Farmer is any person who sells or offers for sale farm products actually raised, grown or produced by him on land owned or leased by him, or some member of his immediate family.

Farmers Market Plaza is all of that property owned by the city bounded on the north by West Commerce Street, on the east by San Saba Street, on the south by Dolorosa Street, and on the west by the expressway east boundary line. All references in this Code or in Chapter 32 previously referring to the "Farmers Market" are changed to read the "Farmers Market Plaza."

Fiesta Room is the air conditioned, separate area on the west end of the El Mercado building to be utilized as designated by the director or manager.

Load is that amount of produce which is contained in one (1) vehicle at the time it enters the Farmers Market.

Mall areas are all city-owned properties within Market Square not specially referred to as the Farmers Market, El Mercado or Centro de Artes del Mercado referred to as Mariachi Mall, Madero Mall and Hidalgo Mall.

Manager is the Market Square Manager or his authorized representative.

Market Square is that area of the city bounded on the north by West Commerce Street, on the west by the expressway east boundary line, on the south by Dolorosa Street, and on the east by Santa Rosa Street.

Permanent stall is a separately identified area on the inside of the Farmers Market building which is available for annual lease from the city.

Produce merchant is any person who sells or offers for sale any farm products which were not raised, grown or produced by him on land owned or leased by him or some member of his immediately family.

Shop is a designated leased premises in the El Mercado which is used solely for the business to be conducted by the tenant, as provided in Article I of Attachment 1, a copy of which is on file and available for public inspection in the office of the city clerk.

Stall is any marked or unmarked area, part or portion of the Farmers Market which may be designated by the director as places to be used on a daily basis for parking, standing or stopping any vehicle for the purpose of selling, offering or exposing for sale, delivering, transferring, loading, unloading or displaying of produce or other merchandise.

Vehicle is every device in or upon, or by which any person or property is or may be transported or drawn upon a highway, including devices moved by human power.
(Code 1959, § 21-1; Ord. No. 50570, § 2, 3-29-79; Ord. No. 66913, § 1, 4-7-88; Ord. No. 79223, § 1, 11-23-93; Ord. No. 84164, § 1, 5-23-96)

Sec. 32-17. Designation of Market Square as tourist trade center.

Market Square, having met the legal definition for designation, as a tourist trade center, is hereby officially designated and recognized as tourist trade center No. 1.
(Code 1959, § 21-1.1; Ord. No. 51602, § 1, 12-13-79)

Sec. 32-18. Parks and recreation department; director, duties.

(a) The parks and recreation department shall be responsible for administering the policies, plans and actions required for effective operation of all activities in the Market Square complex.

(b) The Director of the Parks and Recreation Department shall have general supervision over the city owned part of Market Square. The director, the Market Square Manager and their employees are hereby vested with all power necessary to require compliance with this chapter, the rules and regulations promulgated hereunder, and the orderly regulation of traffic and parking on Market Square and on all streets, thoroughfares, malls and on all other public property; and it shall be the duty of the director, the Market Square Manager and their employees to enforce strict compliance with all provisions of this chapter affecting and regulating business in Market Square.
(Code 1959, § 21-2; Ord. No. 50570, § 2, 3-29-79; Ord. No. 84164, § 2, 5-23-96)

Sec. 32-19. Contracts for leased space.

(a) The city manager or his designated representative is hereby authorized to enter into contracts not to exceed a term of six (6) years for designated city-owned property at Market Square, except as noted in (3) and (4) below.

(1) Three (3) days for special activities in the plaza areas or the Centro de Artes del Mercado, or as directed by the city manager.

(2) On a daily basis for temporary vending in the plaza areas.

(3) Four-year leases for all tenants in the 1993 completed renovation of the Farmers Market Plaza leasing in-line shop, specialty truck, or food court space.

(4) For all tenants licensing kiosks and push carts in the Farmers Market Plaza the license term will not exceed a one-year period.

(b) Copies of leases for purposes authorized in this chapter are attached hereto as Attachments 1-4, which are incorporated herein by reference.

(c) The following rental rate schedule for El Mercado, the Farmers Market Plaza, and Other Designated Areas in the Market Square complex is established as follows:

El Mercado:

Retail Space	$1.00 psf per month, First Year

	$1.25 psf per month, plus CPI, or 6% of gross receipts, whichever is greater, Fourth, Fifth and Sixth Year
Outdoor Sidewalk Space	$0.40 psf per month, First Year
	$0.45 psf per month, Second Year
	$0.50 psf per month, Third Year
	$0.50 psf per month, plus CPI, Fourth, Fifth and Sixth Year
Utilities (Water, Gas, and Electricity)	Reimbursement from applicable meters
Late Payment Penalties	$20.00 late charge on payments not made on 11th day when due
	Ten percent (10%) per annum interest penalty on payments not made within 30 days

(Code 1959, § 21-3; Ord. No. 50570, § 2, 3-29-79; Ord. No. 70253, § 1, 9-14-89; Ord. No. 74293, §§ 1—4, 9-12-91; Ord. No. 78722, §§ 1, 2, 9-15-93; Ord. No. 79223, §§ 2—4, 11-23-93; Ord. No. 94566, §§ 1, 2, 9-20-01)

Sec. 32-20. Initial and future rates.

Initially, all contracts executed under authority of this chapter shall be at rates to phase in the established fair market rate over a three year period. Future adjustment of the lease rates will be annually in accordance with the consumer price index (CPI) after market rates have been reached. A market analysis will be conducted every five (5) years to determine additional future rates.
(Code 1959, § 21-4; Ord. No. 50570, § 2, 3-29-79; Ord. No. 74293, § 5, 9-12-91)

Sec. 32-21. Fee collections.

The director is hereby authorized to collect fees, daily or monthly, for all space rented in the Market Square complex. It shall also be the duty of the director to collect fees for the delivery of produce to the Farmers Market, as shown on Exhibits A—B [incorporated herein by reference].
(Code 1959, § 21-5; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-22. Hours of operation.

(a) The director is authorized to establish the opening and closing hours of any and all operations within Market Square and Farmers Market Plaza.

(b) Failure of tenants and lessees to maintain stated minimum operating hours shall result in the following penalties:

First offense	Written warning
Second offense	Twenty-five dollar ($25.00) fine
Third offense	Fifty dollar ($50.00) fine
Fourth offense	Five hundred dollar ($500.00) fine
Fifth offense	Default declared and cause for termination of lease and/or license established

(Code 1959, § 21-6; Ord. No. 50570, § 2, 3-29-79; Ord. No. 94566, § 3, 9-20-01)

Sec. 32-23. Right reserved to refuse rentals.

(a) The director shall have the right to refuse to rent any area of the Market Square complex to any person guilty of willful violations of the rules and regulations promulgated under this division.

(b) No tenant may own or operate more than two (2) stores within the Market Square complex, to include any combination of pushcarts, kiosks, in-line stores, food court stalls and specialty trucks. Kiosks in their entirety constitute two (2) individual retail stores.
(Code 1959, § 21-7; Ord. No. 50570, § 2, 3-29-79; Ord. No. 94566, § 4, 9-20-01)

Sec. 32-24. Special activities—Authority to develop rules.

The director is specifically authorized to develop, implement and enforce all necessary and proper rules for the conduct of special activities in Market Square.
(Code 1959, § 21-8; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-25. Same—Prohibited on holidays.

There will be no scheduling of special events on the following holidays:

(1) Thanksgiving Day;

(2) Christmas Eve;

(3) Christmas Day;

(4) New Year's Eve; and

(5) New Year's Day.
(Code 1959, § 21-9; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-26. Same—Duration.

All special activities not designated by the department shall not exceed three (3) days in length, unless approved by the city manager.
(Code 1959, § 21-10; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-27. Same—Availability of facilities; priorities.

Facilities will be provided upon request to eligible sponsors as the schedule allows. Priority will be given to nonprofit organizations, groups or individuals.
(Code 1959, § 21-11; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-28. Same—Rental rate schedule for facilities and special events.

The following rental rate schedule for Market Square facilities and events is hereby established:

(1) *Plaza areas:* Mariachi Plaza, one thousand dollars ($1,000.00) per day. Other plaza areas, four hundred dollars ($400.00) per plaza per day.

Use of all Market Square Plazas, including San Saba Street and Santa Rosa Street, by commercial agencies/organizations, six thousand eight hundred dollars ($6,800.00) per day.

Use of all Market Square Plazas, including San Saba Street, by non-profit agencies/organizations, two thousand six hundred dollars ($2,600.00) per day.

Use of all Market Square Plazas, including San Saba Street, by Market Square tenant-led organizations, two thousand six hundred dollars ($2,600.00) per day.

Rental of any plaza area will not include usage of city-owned equipment, such as tables and chairs. Lessee will provide at their own expense any equipment necessary in conjunction with rental of the plaza areas. A garbage container fee, per event, of two hundred dollars ($200.00) shall be paid by the lessee for using the plazas for any event.

The director of center city development and operations has the authority to waive or reduce plaza rental fees as a co-sponsorship for public events.

(2) *Closing of San Saba Street:* Daily rental, eight hundred dollars ($800.00).

a. Lessee must rent the necessary barricades required for San Saba Street closure from the Market Square Activity in the department of parks and recreation.

b. Barricade rental: Eighty dollars ($80.00) per event closure.

c. Garbage container fee, per event, of two hundred dollars ($200.00) per event will be paid by lessee for using the plazas and/or San Saba Street for any event.

(3) *Temporary outdoor vending in plaza areas:* All fees are payable in advance. Rental rates will apply to non-food vendors, working artisans, artists and craftsmen:

a. Monthly, three hundred forty-five dollars, ($345.00).

b. Daily, twenty-five dollars ($25.00).

No selling of any type of clothing apparel will be permitted in the pedestrian plaza areas. Any type of clothing accessory or accessory item will generally not be permitted to be sold unless the clothing accessory or accessory item is hand crafted as per the definition of working artisans and craftsmen, and with the prior written approval of the Market Square manager.

Working artisans and craftsmen are defined as those persons who use raw and natural products and creatively handicraft individually every component and who demonstrate their craft on premises at all times.

There will be no non-festival related temporary food vending in the plaza areas of Market Square. Mobile or stationary raspa vendors will not be permitted in any area of Market Square complex except during special outdoor public events, and with the prior written approval of the Market Square manager.

(4) *Photographer and shoe shine fees:* All fees are to be collected in advance.

a. Only non-stationary photographers will be permitted to set up on a daily basis in the plaza areas of Market Square. Daily fee of six dollars and twenty-five cents ($6.25). Monthly rate of one hundred twenty-five dollars ($125.00).

b. Shoe shine persons will be permitted to set up on a daily basis in the plaza area of Market Square. Shoe shiners will be limited to areas designated by the director or Market Square manager. Equipment will be limited to one (1) chair only and no storage of equipment is provided. Daily fee of six dollars and twenty-five cents ($6.25). Monthly rate of one hundred twenty-five dollars ($125.00).

(5) *Registration of working artists, craftsmen, photographers and shoe shiners:* All working artists, craftsmen, photographers and shoe shiners will be authorized for temporary outdoor vending on a first-come/merchandise basis on the Tuesday of the second week of each January.

(Code 1959, § 21-11.1; Ord. No. 50570, 3-29-79; Ord. No. 54277, § 1, 9-17-81; Ord. No. 61334, § 1, Exh. B, 8-29-85; Ord. No. 70253, §§ 2—8, 9-14-89; Ord. No. 74293, §§ 6—9, 9-12-91; Ord. No. 78722, §§ 3—10, 9-15-93; Ord. No. 84164, § 3, 5-23-96; Ord. No. 84796, §§ 11—13, 9-19-96; Ord. No. 88494, § 2, 9-17-98; Ord. No. 94585, §§ 17, 18, 9-20-01; Ord. No. 2006-09-07-1010, § 7, 9-7-06; Ord. No. 2009-09-17-0731D, § 5, 9-17-09; Ord. No. 2019-09-12-0694A, § 1(Att. K), 9-12-19)

Sec. 32-29. Loading zones.

The director is hereby authorized to designate sections of the Market Square complex as loading zones, and to enforce all necessary and proper rules.

(Code 1959, § 21-12; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-30. Possession of beverages in other than plastic or paper container.

(a) *Prohibited.* It shall be unlawful for any person to knowingly possess a beverage in the area of the Market Square complex unless such beverage is in a plastic or paper container. For purposes of this section, the contents of a container, other than paper or plastic, shall be presumed to be the beverage its label indicates.

(b) *Exceptions.* The provisions of this section shall not apply to restaurants or other establishments in the Market Square complex where beverages in bottles, cans or glasses are served in the regular course of business; however, possession of beverages in such containers shall be restricted to the immediate area of the establishment's leased premises.

(c) *Penalty.* Any person violating the terms of this section shall, upon conviction, be punished by a fine of not less than five dollars ($5.00) nor more than two hundred dollars ($200.00).

(Ord. No. 59685, § 1—3, 10-30-84)

Sec. 32-31. Restrictions governing sale of alcoholic beverages during special events.

(a) Off-premises sale of alcoholic beverages from public places during all celebrations and festivals co-sponsored by the city, sponsored by the Parks and Recreation Department, Market Square Division, or held pursuant to contractual authority at Market Square, shall be confined to public places leased for the festival or celebration.

(b) The intent of this policy is not to prohibit the off-premise sale of alcoholic beverages conducted in accordance with the law but to permit the sale of off-premises alcoholic beverages from public spaces only to those nonprofit organizations who have leased public areas for the festival or celebration.

[This page intentionally left blank.]

(c) All alcoholic beverage concessions erected for and during celebrations and festivals shall be restricted to one (1) alcoholic beverage concession per mall area; one alcoholic beverage stand on San Saba Street; and one alcoholic beverage concession inside the Farmers Market whenever that facility is leased for a festival or celebration. The size of each alcoholic concession is limited to no larger than a 16′ x 8′ stand placed in each mall area, the Farmers Market, and a stand no larger than 24′ x 8′ on San Saba Street whenever San Saba Street is entirely utilized.

(d) A sufficient number of licensed and bonded security personnel shall be provided prior to arid during the sale of all alcoholic beverages for all celebrations and festivals as determined by the chief of police taking into consideration the type of event and anticipated attendance. Costs of security shall be borne by the sponsoring organization, unless provided otherwise by written agreement.

(e) This section shall not impair any contractual rights or obligations to the extent and for the duration they are in effect.
(Ord. No. 66678, §§ 1—5, 2-25-88; Ord. No. 84164, § 4, 5-23-96)

Editor's note—Ord. No. 66678, adopted Feb. 25, 1988, did not specifically amend this Code; hence inclusion of §§ 1—5 as 32-31 was at the discretion of the editor.

Secs. 32-32—32-40. Reserved.

DIVISION 2. FARMERS MARKET

Sec. 32-41. "Day" defined.

The term "day," as used in this division, shall mean that period of time from the opening hour in the morning to the closing hour ill the evening of any calendar day, such opening and closing hours to be established from time to time by the director.
(Code 1959, § 21-28; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-42. Entitlements upon payment of fee.

The fee paid for the daily rental of a stall shall entitle the farmer, produce merchant or person to the use of such assigned stalls between the opening and closing hours of the Farmers Market on the day for which the fee is paid, or until the load which he had on his vehicle at the time he rented such stall has been sold; however, in no event shall such farmer, produce merchant or person be entitled to use such stall longer than the day for which the fee was paid without the payment of an additional fee for each day. No produce or merchandise may be placed in the assigned stall in addition to that upon which a fee was originally paid without the payment of an additional fee.
(Code 1959, § 21-27; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-43. Hiring of persons guilty of prior violations prohibited.

No farmer, produce merchant, or person shall hire as an agent or employee anyone who has been barred from the Farmers Market for violation of any provision of this chapter or any regulation promulgated by the director.
(Code 1959, § 21-29; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-44. Produce, products required to be grown, produced by seller.

It shall be the duty of every person desiring to use the area designated for farmers to first furnish the director with satisfactory evidence that the produce or products to be sold by him in the area designated for farmers have been raised or grown or produced by him upon land or premises owned or leased by him or some member of his immediate family. The director may require a statement in writing signed by such person evidencing the above facts, and any false statement made therein shall be deemed a violation of this article, and the person making such false statement shall be guilty of a misdemeanor.
(Code 1959, § 21-30; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-45. Hawking, etc., prohibited.

It shall be unlawful for any person to make an outcry or do any hawking or spieling, or to use loud or boisterous language for the purpose of drawing customers or attracting attention to the Farmers Market.
(Code 1959, § 21-31; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-46. Litter, rubbish prohibited.

No person shall throw, place or permit to be thrown or placed on the Farmers Market, or any part thereof, or the public streets adjacent thereto, any rubbish, refuse or litter of any kind, or any vegetables or produce which are likely to become dangerous or offensive to the public.
(Code 1959, § 21-32; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-47. Leaving personal items after hours prohibited.

No person shall enter, occupy, use or leave any produce, commodity, container, box, crate, basket, motor vehicle or other type of personal property of any description within the limits of the Farmers Market during such time as the market is closed, without the permission of the director.
(Code 1959, § 21-33; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-48. Deceitful pricing; refusal to sell.

It shall be unlawful for any person occupying a stall in the Farmers Market to resort to any trick or scheme to ask prices which are unreasonable when compared to prices asked for similar products at that time, or to refuse to sell his merchandise for the purpose of holding a stall. Such action on the part of a person in holding a stall shall be sufficient cause for the director to forfeit all rights, including fees paid, to such stall by such person.
(Code 1959, § 21-34; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-49. Parking.

(a) It shall be unlawful for any person to park, stop or stand a motor vehicle on any of the driveways in the Farmers Market in such a manner as to block or prevent the passing of other vehicles.

(b) The director is hereby authorized to designate certain areas on the ground level floor of the Farmers Market building, as defined in section 32-16, as customer parking only areas and to cause signs to be erected showing such designation. No person shall park a motor vehicle for a period of time in excess of one (1) hour during normal hours of operation.
(Code 1959, § 21-35; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-50. Rules of operation for parking deck.

The director is hereby authorized to set rules of operation for the parking deck on the Farmers Market. Such rules of operation shall include the authority to close the parking deck during designated hours; enforce all other applicable sections of this chapter in regard to parking and traffic regulations; and to implement measures that assure easy flow of traffic and parking space turnover.
(Code 1959, § 21-35.1; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-51. Vehicle speeds.

It shall be unlawful for any person to drive a motor vehicle in the Farmers Market at a speed of more than five (5) miles per hour.
(Code 1959, § 21-35.2; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-52. Removal, notification of unattended merchandise.

Produce left unattended by the owner may be removed from the stall by the director, and all rights to such stall shall be forfeited. The city shall have the right to remove or dispose of such produce without liability. An owner must notify the market master of unattended produce.
(Code 1959, § 21-36; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-53. Poultry, fish, etc., prohibited from sale.

It shall be unlawful for any person to sell or offer for sale any poultry, fish or livestock of any kind.
(Code 1959, § 21-37; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-54. Director's authority to prohibit sale of foreign produce.

The director may prohibit the sale of any produce not grown in the continental United States.
(Code 1959, § 21-38; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-55. Produce-related items.

Produce-related items may be sold only with the permission of the director.
(Code 1959, § 21-39; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-56. Unauthorized sales personnel.

It shall be unlawful for any person other than farmers and produce merchants, or agents or employees of produce merchants to sell any produce whatsoever on any part of the Farmers Market.
(Code 1959, § 21-40; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-57. Loitering.

It shall be unlawful for any person to loiter, linger or loaf on or about the Farmers Market.
(Code 1959, § 21-41; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-58. Fixing prices.

It shall be unlawful for farmers, produce merchants or persons to agree among themselves to fix or raise prices, or to exert any influence, pressure, or persuasion on any other farmer, produce merchants or person to fix or raise prices of produce being sold or to be sold on the Farmers Market.
(Code 1959, § 21-42; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-59. Animals prohibited.

It shall be unlawful for any owner, keeper or person having the custody or control of any dog, cat or other animal to cause or permit such animal to go into or upon the Farmers Market.
(Code 1959, § 21-43; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-60. Unwholesome produce prohibited.

It shall be unlawful for any person to bring, cause to be brought, sell, offer for sale, or expose for sale in the Farmers Market, any produce unfit for human consumption or otherwise not suitable for sale on the Farmers Market because of age, disease, damage or other conditions affecting the wholesomeness of the produce. The decision of the director or his representative shall be final in determining the quality, condition and wholesomeness of all produce in the Farmers Market.
(Code 1959, § 21-44; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-61. Obstruction of public ways prohibited.

It shall be unlawful for anyone to place any barrel, box, crate, wood, vehicle, merchandise, or other substances on any walking area in the Farmers Market so as to obstruct entirely or in part passage along such walking areas, or any part thereof.
(Code 1959, § 21-45; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-62. Inferior quality items in boxes, crates, etc.

It shall be unlawful for any person with intent to deceive, or to defraud, to sell, offer for sale, expose for sale or to possess for sale, any box, basket, crate, bag, or other container containing produce, merchandise or other commodity of a quality inferior to that with which such container is apparently filled.
(Code 1959, § 21-46; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-63. Signs.

Each farmer, produce merchant or person, before doing business in the Farmers Market, shall provide a sign of the size, color, lettering and material specified by the director. Such signs shall at all times be displayed in a conspicuous location which shall be approved by the director. No signs, placards or other advertising material other than price signs and above-described signs shall be displayed at the Farmers Market.
(Code 1959, § 21-47; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-64. Sanitary bags, sacks required.

All burlap bags, sacks, cloth or any other fabric, when used while wet to protect produce by persons utilizing the Farmers Market, must be thoroughly laundered and cleaned before being used for such purpose. The decision of the director as to the cleanliness of such fabric shall be final, and when he has determined that a fabric is too dirty

for use on produce, the owner thereof must have such fabric laundered and cleaned before he shall be authorized to use the fabric.
(Code 1959, § 21-48; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-65. Weights and measures.

No person shall possess, use or permit to be used, a weighing device or measuring device, which has not been sealed by the State of Texas, Texas Agriculture Department Inspector of Weights and Measures, within one (1) year, in weighing or measuring any commodity which is offered for sale, exposed for sale, or sold, or in computing the charge for services rendered based upon weight or measure.
(Code 1959, § 21-49; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-66. Health cards for employees.

Any person in the Farmers Market who shall handle produce, either as owner or employee, must have a health card, and such card must be prominently displayed in the stall or stalls.
(Code 1959, § 21-50; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-67. Licenses, certificates; display.

Produce licenses and other required certificates must be prominently displayed in stalls. Such licenses and other required certificates must be framed and hung on the wall of the stall.
(Code 1959, § 21-51; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-68. Display, storage heights.

All farmers, produce merchants or persons must display their produce eighteen (18) inches or more above the ground. Persons with coolers must store all produce in coolers, or it must be covered and eighteen (18) inches above the ground. Persons with no coolers must store their produce, covered, at least eighteen (18) inches above the ground. Produce must not be stored higher than five (5) feet above the ground.
(Code 1959, § 21-52; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-69. Garbage, refuse disposal; general conditions.

All farmers, produce merchants or persons will dispose of all refuse. Refuse must be taken to designated garbage disposal areas. All persons are responsible for keeping their stall in a presentable and sanitary condition at all times.
(Code 1959, § 21-53; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-70. Applicability of health provisions.

All stipulations of chapter 15 are applicable in the operation of the Farmers Market and will be enforced.
(Code 1959, § 21-54; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-71. Non-produce-related items.

Items not related to produce operations will not be sold or stored in stalls unless authorized by the director.
(Code 1959, § 21-55; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-72. Bedding, sleeping in stalls.

There will be no bedding or sleeping allowed in stalls.
(Code 1959, § 21-56; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-73. Assignment of existing leases.

(a) A tenant shall not assign the existing lease in the Farmers Market and the business conducted on the leased premises or any interest therein without first obtaining the written consent of the city, which consent shall not be unreasonably withheld, and which consent will be evidenced by the passage of a city ordinance based upon recommendations by the city staff, giving due consideration to the tenant mix and product mix as affected by such assignment. However, where the tenant is a sole proprietorship and the tenant dies, the surviving spouse or the tenant's heir or a testamentary beneficiary of the tenant or a representative of the tenant's estate designated by a court of competent jurisdiction may operate the establishment until the end of the term of the lease then in effect, and subject to city council approval.

(b) In addition to the foregoing, until the expiration of one (1) year from the commencement date of the lease agreement of any new tenant in the Farmers Market Plaza, said tenant may not sell, assign, sublease, or otherwise transfer said tenant's business or any part thereof or any

interest therein or transfer the lease agreement under which said tenant is leasing space in said Farmers Market Plaza to another party under any circumstances whatsoever, and thereafter, said tenant may not so assign, sublet, or otherwise transfer without first obtaining the written approval of the City of San Antonio, as evidenced by the passage of a City of San Antonio ordinance. In the event a tenant has been approved to purchase an existing business from either a new tenant or existing tenant of the Farmers Market Plaza and said approved tenant changes or alters the approved merchandise use of the leased premises at the Farmers Market Plaza without the prior written approval of the City of San Antonio, then the lease agreement will be immediately terminated.
(Ord. No. 74896, § 1, 12-5-91; Ord. No. 79223, § 5, 11-23-93; Ord. No. 84164, § 5, 5-23-96)

Secs. 32-74—32-85. Reserved.

DIVISION 3. EL MERCADO

Sec. 32-86. Promulgation of rules; violations; Fiesta Room.

(a) The director is specifically authorized to develop, implement, and enforce all necessary and proper rules for the management and operation of El Mercado. Violation of such rules shall be cause for termination of any lease agreement pertaining to El Mercado between the city and the violator or his representative. Such violation shall also be good and sufficient reason for refusal to lease any space in the Market Square to said violator or his representative.

(b) The director is specifically authorized to develop, implement and enforce all necessary and proper rules for the management and operation of the Fiesta Room. Violation of such rules shall be cause for immediate cancellation of any lease agreement pertaining to the Fiesta Room between the city and the violator or his representative. Such violation shall also be good and sufficient reason for refusal to lease any space in Market Square to said violator or his representative.
(Code 1959, § 21-72; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-87. Bus parking zone.

The driveway area directly in front of the Fiesta Room is hereby designated as a bus parking zone, and the director is authorized to implement all necessary and proper rules.
(Code 1959, § 21-72.1; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-88. Employees guilty of past violations.

No tenant in El Mercado shall hire as an agent, or employ any person who has been barred from El Mercado for violation of any provision of this chapter or regulation promulgated by the director.
(Code 1959, § 21-73; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-89. Operating hours.

The director shall have the authority to establish opening and closing hours of El Mercado and shall have the right to extend or limit hours of operation when deemed necessary.
(Code 1959, § 21-74; Ord. No. 50570, § 2, 3-29-79)
Cross reference—Rental rate schedule for facilities, § 21-11.1.

Sec. 32-90. Littering prohibited.

No person shall throw, place or permit to be thrown or placed on the El Mercado, or any part thereof, or the public streets adjacent thereto, any rubbish, refuse or litter of any kind, or any obstructions which are likely to become dangerous or offensive to the public.
(Code 1959, § 21-75; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-91. Deceitful pricing; refusal to sell.

It shall be unlawful for any person occupying a shop in the El Mercado to resort to any trick or scheme to ask prices which are unreasonable when compared to prices asked for similar items at that time, or to refuse to sell his merchandise for the purpose of holding a shop. Such action on the part of a person in holding a shop shall be sufficient cause for the director to forfeit all rights, including fees paid, to such shop by such person.
(Code 1959, § 21-76; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-92. Loitering, etc.

It shall be unlawful for any person to loiter, linger or loaf on or about the El Mercado.
(Code 1959, § 21-77; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-93. Fixing prices.

It shall be unlawful for tenants to agree among themselves to fix or raise prices, or to exert any influence, pressure or persuasion on any other tenant to fix or raise prices of items being sold or to be sold on or about the El Mercado.
(Code 1959, § 21-78; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-94. Animals prohibited.

It shall be unlawful for any owner, keeper or person having the custody or control of any dog, cat or other animal to cause or permit such animal to go into or upon the El Mercado.
(Code 1959, § 21-79; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-95. Obstruction of public ways prohibited.

It shall be unlawful for anyone to place any barrel, box, crate, wood, vehicle, merchandise or other substances on any walking area in the El Mercado so as to obstruct entirely or in part passage along such walking areas or any part thereof.
(Code 1959, § 21-80; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-96. Packing, displaying boxes, etc., deceptively.

It shall be unlawful for any person with intent to deceive, or to defraud, to sell, offer for sale, expose for sale or to possess for sale, any box, basket, crate, bag or other container containing merchandise or other commodity of a quality inferior to that with which such container is apparently filled.
(Code 1959, § 21-81; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-97. Signs.

Each tenant, before doing business in the El Mercado, shall provide a sign of the size, color, lettering and material specified by the director. Such signs shall at all times be displayed in a conspicuous location which shall be approved by the director. No signs, placards or other advertising material other than price signs and above-described signs shall be displayed at the El Mercado.
(Code 1959, § 21-82; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-98. Health cards for employees; display.

Any person in the El Mercado who shall handle food products, either as owner or employee, must have a health card and such card must be prominently displayed in the shop or shops.
(Code 1959, § 21-83; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-99. Licenses, certificates; display.

Food licenses and other required certificates must be prominently displayed in shops. Such licenses and other required certificates must be framed and hung on the wall of the shop.
(Code 1959, § 21-84; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-100. Disposal of garbage, refuse; general conditions.

All tenants and/or employees will dispose of all refuse. Refuse must be taken to designated garbage disposal areas. All persons are responsible for keeping their shop in a presentable and sanitary condition at all times.
(Code 1959, § 21-85; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-101. Applicability of health code.

All stipulations of Articles I through IV of Chapter 13, Food and Food Handlers, are applicable in any shop handling food products in the El Mercado, and will be enforced.
(Code 1959, § 21-86; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-102. Reserved.

Editor's note—Section 2 of Ord. No. 74896, adopted Dec. 5, 1991, repealed § 32-102 in its entirety. Formerly, § 32-102 pertained to the procedure for reletting merchant's spaces and derived from § 1 of Res. No. 84-29-35, adopted June 28, 1984.

Sec. 32-103. Assignment of existing leases.

A tenant shall not assign the existing lease in El Mercado and the business conducted on the leased premises or any interest therein without first obtaining the written consent of the city,

which consent shall not be unreasonably withheld, and which consent will be evidenced by the passage of a city ordinance, based upon recommendation by the city staff and the Market Square commission, giving due consideration to the tenant mix and product mix as affected by such assignment. However, where the tenant is a sole proprietorship and the tenant dies, the surviving spouse or the tenant's heir or a testamentary beneficiary of the tenant or a representative of the tenant's estate designated by a court of competent jurisdiction may operate the establishment until the end of the term of the lease then in effect, and subject to city council approval.
(Res. No. 84-29-35, § 1, 6-28-84; Ord. No. 74896, § 2, 12-5-91)

Sec. 32-104. Leases to prohibit independent contracts which amount to an assignment or subletting of the leased premises.

Leases on spaces in El Mercado shall be written so as to prohibit the tenant from entering into any independent contracts relative to the operation of the business amounting to any assignment or subletting of the leased premises, as determined solely by the city. This section shall also apply to the leases on spaces in the Farmers Market Plaza.
(Res. No. 84-29-35, § 1, 6-28-84; Ord. No. 74896, § 2, 12-5-91; Ord. No. 79223, § 6, 11-23-93)

Sec. 32-105. Renewal leases.

The City hereby exercises its option to renegotiate renewal leases as provided in Section 31.2 of the El Mercado lease agreement. The term of renewal lease shall be for a period not to exceed three (3) years. Upon written notification, if received within ninety (90) days from the expiration of the original term of the existing lease, of any tenant's intent to renew and renegotiate the terms and conditions of a renewal lease. The Director or Market Square Manager is hereby authorized and directed to renew and renegotiate terms and conditions of a renewal lease.
(Res. No. 84-29-35, § 1, 6-28-84; Ord. No. 84164, § 6, 5-23-96)

Secs. 32-106—32-120. Reserved.

DIVISION 4. CENTRO DE ARTES DEL MERCADO

Sec. 32-121. Promulgation of rule; violations.

The director is specifically authorized to develop, implement and enforce all necessary and proper rules for the management and operation of the Centro de Artes del Mercado. Violation of such rules shall be cause for immediate cancellation of any lease agreement pertaining to the Centro de Artes del Mercado building between the city and *the violator or his representative. Such violation* shall also be good and sufficient reason for refusal to lease any space in Market Square to said violator or his representative.
(Code 1959, § 21-102; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-122. Exclusive catering agreements.

No exclusive catering agreement will be a part of any lease agreement or contract pertaining to the Centro de Artes del Mercado.
(Code 1959, § 21-103; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-123. Display of food licenses, etc.

Food licenses and other required certificates must be prominently displayed in the kitchen area of the Centro de Artes del Mercado by any person or persons using the kitchen to handle food products.
(Code 1959, § 21-104; Ord. No. 50570, § 2, 3-29-79)

Cross reference—Tourist and trade center areas, Ch. 32.

Sec. 32-124. Health card for food handlers.

Any person or persons who shall handle food products, either as caterer or employee, must have a health card and such card must be prominently displayed in the kitchen area of the Centro de Artes del Mercado building.
(Code 1959, § 21-105; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-125. Applicability of health provisions.

All stipulations of articles I through IV of chapter 13, Food and Food Handlers, are applica-

ble to any person handling food products in the kitchen area of the Centro de Artes del Mercado, and will be enforced.
(Code 1959, § 21-106; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-126. Execution of memorandum of understanding for the public display of proprietary art work.

(a) The Director or Market Square Manager is hereby authorized to execute memorandums of understanding for a period not to exceed one (1) year with various artists for the public display of propriety art work in the Centro de Artes in Market Square.

(b) The Director or Market Square Manager is hereby authorized to act on behalf of the city in the preparation and handling of the various memorandums of understanding for the public display of propriety art work in the Centro de Artes in Market Square.
(Ord. No. 63205, §§ 1, 2, 7-10-86; Ord. No. 84164, § 7, 5-23-96)

Secs. 32-127—32-135. Reserved.

DIVISION 5. MALL AREAS

Sec. 32-136. Establishment of boundaries authorized.

The director is hereby specifically authorized to establish certain boundaries separating the mall areas into different sections for purpose of calculating rental fees.
(Code 1959, § 21-122; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-137. Authorized lease agreements; fees and conditions.

The director is hereby authorized to enter into lease agreements for the operation of outdoor dining areas and other business activities related to lessee's business. Rental fees and conditions of lessee's operation are incorporated in Attachment 4 and Exhibit A, not set out herein but on file and available for public inspection in the office of the city clerk.
(Code 1959, § 21-123; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-138. Promulgation of rules; violations.

The director is specifically authorized to develop, implement and enforce all necessary and proper rules for the management and operation of the mall areas. Violation of such rule shall be cause for immediate cancellation of any lease agreement pertaining to the mall areas between the city and the violator or his representative. Such violation shall also be good and sufficient reason for refusal to lease any space in the Market Square to said violator or his representative.
(Code 1959, § 21-124; Ord. No. 50570, § 2, 3-29-79)

Cross reference—Tourist and trade center areas. Ch 32.

Sec. 32-13. Temporary vending permits, rates.

The director is hereby authorized to issue daily permits for temporary vending in the mall areas of Market Square. Rental rates for temporary vending in the mall areas shall be at the same rates as established under section 32-20.
(Code 1959, § 21-125; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-140. Rules for temporary vending; director's decision re use.

The director is hereby authorized to develop, implement and enforce all necessary and proper rules for temporary vending in the mall areas. Violation of such rules shall be cause for the immediate termination of the permit of the violator. It shall be at the sole discretion of the director as to whether the goods or services to be sold are in keeping with the atmosphere of the area and whether a permit shall be issued. The decision of the director shall be final.
(Code 1959, § 21-126; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-141. Charge for rental equipment.

The rental for equipment to be used on the mall areas shall be charged in accordance with the rates shown on rate schedules incorporated herein by reference.
(Code 1959, § 21-127; Ord. No. 50570, § 2, 3-29-79)

Sec. 32-142. Unlawful vehicle parking, standing.

It shall be unlawful for any person to park or stand a motor vehicle on any of the mall areas of Market Square.
(Code 1959, § 21-128; Ord. No. 50570, § 2, 3-29-79)

Secs. 32-143—32-150. Reserved.

DIVISION 6. MARKET SQUARE COMMISSION*

Sec. 32-151. Establishment of members.

The Market Square Commission is established under the authority of Section 49 of the City Charter. The Market Square Commission shall consist of seven (7) members serving two (2) year overlapping terms and shall be appointed by the city council from the following categories:

# of Commissioners	*Category*
1	Market Square Merchant
2	Business Community
1	Professional Architect
1	Tourism Industry
1	Historic Preservation
1	Consumer

Except for the Market Square Merchant, none of the other members of the Market Square Commission shall have a substantial interest in any business entity in Market Square as that term is defined in Chapter 171 of the Local Government Code, Vernon's Texas Statutes Annotated.
(Ord. No. 84164, § 8, 5-23-96)

Sec. 23-152. Purpose.

The purpose of the Market Square Commission is to advise city staff on the promotion, development and preservation of Market Square as a major destination for tourists and community residents.
(Ord. No. 84164, § 8, 5-23-96)

Sec. 32-153. Meetings.

The Market Square Commission will meet a minimum of twice per calendar year and all meeting will be governed by Robert's Rules of Order.
(Ord. No. 84164, § 8, 5-23-96)

Sec. 32-154. Fund raising.

At the discretion of the City manager or his designee, the commission may assist city staff in the coordination and promotion of fund raising events designed to directly benefit the promotion, preservation and capital development of Market Square as a major destination for tourists and community residents.
(Ord. No. 84164, § 8, 5-23-96)

Sec. 32-155—32-160. Reserved.

ARTICLE III. TOURIST TRADE CENTER NO. 2

Sec. 32-161. Area designated; boundaries.

The city council hereby designates the area described as follows as Tourist Trade Center No. 2:

Beginning at a point being the intersection of the center lines of Durango Boulevard and South Alamo Street; thence, in a northerly direction along the center line of South Alamo Street to its intersection with the center line of Nueva Street; thence, in a westerly direction along the center line of Nueva Street to its intersection with the center line of South Presa;

*__Editor's note—__Ord. No. 84164, § 8, adopted May 23, 1996, amended former Div. 6, relative to the Market Square Commission, to read as herein set out. The provisions of former Div. 6 derived from Ord. No. 66913, §§ 2—16, adopted April 7, 1988.

thence, in a northerly direction along the center line of South Presa crossing East Commerce and continuing along the center line of North Presa to its intersection with the center line of East Houston Street; thence, in an easterly direction along the center line of East Houston to its intersection with the center line of Bonham Street; thence, in a southwesterly direction along the center line of Bonham Street to its intersection with the center line of Crockett Street; thence, in an easterly direction along the center line of Crockett to its intersection with the center line of Bowie Street; thence, in a southerly direction along the center line of Bowie Street to its intersection with the north right-of-way line of East Commerce; thence, along the north right-of-way line of East Commerce to its intersection with the center line of Chestnut Street; thence, in a northeasterly direction along the center line of Chestnut to its intersection with the center line of Centre Street; thence, in an easterly direction along the center line of Centre Street to its intersection with the west right-of-way of the Southern Pacific Railroad; thence, along the west right-of-way of the Southern Pacific Railroad; thence, along the west right-of-way of the Southern Pacific Railroad to its intersection with the center line of Galveston Street; thence, along the center line of Galveston Street to its intersection with the center line of Hoefgen Avenue; thence, in a northerly direction along the center line of Hoefgen Avenue to its intersection with the center line of Hieman Street; thence, in a westerly direction along the center line of Hieman Street to its point of intersection with the extension of the southwest boundary line of Lot D, NCB 684; thence, in a northwesterly direction along the said extended line across right-of-way of Sycamore Street along southwest boundary of NCB 684 and along this extension to its intersection with south right. of-way of East Commerce; thence, continuing along the south right-of-way line of East Commerce to its intersection with the center line of Water Street; thence, continuing in a southerly direction along the center line of Water Street across Market Street and continuing along the center line of Bowie Street (Hemisfair Plaza) (Perimeter Road) to its intersection with the center line of the Entry Road to the Tower of the Americas; thence, continuing in a northwesterly direction along the center line of the Entry Road to the Tower of the Americas to its intersection with the north extension of the north boundary of a 6.0027 acre tract of U.T.S.A. property; thence, in a southwesterly direction along the northern boundary of the U.T.S.A. property crossing a point on the northeast property line of a 7.688 acre tract of the U.S. Federal Courthouse; thence, continuing in a northwesterly, southwesterly direction along the boundary of said 7.688 acre tract and along an extension of this line to its intersection with the center line of Durango Boulevard; thence, along in a westerly direction along the center line of Durango being a curve to the left to its intersection with the center line of South Alamo being the point of beginning and containing one hundred fifty (150) acres more or less.

(Code 1959, § 37A-21; Ord. No. 54244, § 1, 9-3-81)

Secs. 32-162—32-176. Reserved.

ARTICLE IV. SIDEWALK CAFE PERMIT

Sec. 32-177. Definitions.

For purposes of this article, the following definitions shall apply:

Downtown business district has the same meaning as in the Unified Development Code of San Antonio, Texas.

Hawk means offering goods, merchandise, or services by calling or crying out.

Inhibit means to cause any person walking or otherwise proceeding to swerve, dodge, change direction, or come to a complete stop.

Pedestrian accessible route means a continuous unobstructed path of travel with minimum clear width of seventy-two (72) inches that connects public transportation stops, accessible parking, passenger loading zones and public streets or sidewalks.

Public property means any real property owned or controlled by the city.

Sidewalk cafe means any street level portion of public right-of-way use in which tables and chairs are placed for the sole purpose of patrons consuming food and/or beverages (alcoholic or non-alcoholic beverages) served by a food establishment adjacent to property. This sidewalk cafe permit will not include the Market Square or Riverwalk Areas.
(Ord. No. 2009-05-07-0354, § 1, 5-7-09)

Sec. 32-178. Downtown business district sidewalk cafe permits.

(a) *Permits.* Downtown business district sidewalk cafe permits for the operation of a sidewalk cafe shall be issued annually by the downtown operations department in accordance with procedures adopted by the city manager or the city manager's designee and such policies shall include, but not be limited to, standard amount of space necessary for the issuance of a permit, insurance and indemnity requirements and such other operational rules, regulations and requirements as deemed necessary by the city manager or the city managers designee. The city manager or the city manager's designee shall evaluate each proposed sidewalk cafe permit application and shall only be authorized to issue permits for those locations which the city manager or the city manager's designee has determined are large enough that a sidewalk cafe in those locations would have no effect on adjacent public property. The director of the downtown operations department shall have authority to immediately suspend any such permits in the event that the permit holder does not comply with the policies and procedures adopted by city manager or the city managers designee or is in violation of this chapter.

(b) *Fees.* Sidewalk cafe permit fee shall be paid to the city and the permit fee shall be determined according to the following table:

Square Footage of Sidewalk Cafe	*Fee*
Less than 250 square feet	$250.00
250 square feet to 500 square feet	$500.00
More than 500 square feet	$750.00

(Ord. No. 2009-05-07-0354, § 1, 5-7-09)

Sec. 32-179. Hawking and vending in the downtown business district.

Use of public property shall at all times, be in compliance with vending policies for the downtown business district as detailed in section 16-236 and any other applicable sections of this Code.
(Ord. No. 2009-05-07-0354, § 1, 5-7-09)

Sec. 32-180. Right reserved to refuse a permit.

The director of the downtown operations department shall have the right to refuse to issue a permit to any person guilty of willful violations of the rules and regulations promulgated under this article.
(Ord. No. 2009-05-07-0354, § 1, 5-7-09)

Chapter 33

VEHICLES FOR HIRE*

Article I. General Provisions

Division 1. General Procedures

Sec. 33-001. Statement of policy.
Sec. 33-002. Scope; effect; exclusions.
Sec. 33-003. Definitions.
Sec. 33-004. Authority and duty of director.
Sec. 33-005. Establishment of rules and regulations.

Division 2. Operating Authority

Sec. 33-006. Operating permit required.
Sec. 33-007. Application for operating permit.
Sec. 33-008. Prerequisites to issuance.
Sec. 33-009. Grant of operating permit; service requirements.
Sec. 33-010. Denial of operating permit.
Sec. 33-011. Amendments to permit agreement/operating permit.
Sec. 33-012. Reserved.
Sec. 33-013. License/permit bond.
Sec. 33-014. Conditions of bond.
Sec. 33-015. Amount of bond.
Sec. 33-016. Additional bonds and insurance may be required.
Sec. 33-017. Provisions to be contained in bonds and insurance policies.
Sec. 33-018. Insurance requirements generally.
Secs. 33-019—33-024. Reserved.
Sec. 33-025. Renewal of operating permit.
Secs. 33-026, 33-027. Reserved.
Sec. 33-028. Operation contingent upon payment of fees.
Sec. 33-029. Drug free workplace.
Sec. 33-030. Persons with disabilities.
Secs. 33-031, 33-032. Reserved.

Division 3. Revocation/Suspension of Permits

Sec. 33-033. Right to appeal director's decisions; hearing officer established; procedure for appeals established; actions.
Sec. 33-034. Revocation and suspension of operating permit.

***Editor's note—**Ord. No. 2013-08-01-0501, § 1(Exh. A), adopted August 1, 2013, amended chapter 33 in its entirety to read as herein set out. Formerly, chapter 33 pertained to similar subject matter, and derived from Ord. No. 70819, § 1, adopted December 21, 1989; Ord. No. 70903, § 1, adopted January 11, 1990; Ord. No. 82938, § 1, adopted September 28, 1995; Ord. No. 87146, §§ 1—3, adopted December 18, 1997; Ord. No. 89167, §§ 1—4, adopted January 28, 1999; Ord. No. 89301, § 1, adopted February 18, 1999; Ord. No. 91950, §§ 1, 2, adopted June 8, 2000; Ord. No. 94746, § 1, adopted October 18, 2001; Ord. No. 94854, § 29, adopted September 20, 2001; Ord. No. 97627, § 1, adopted May 15, 2003; Ord. No. 98187, § 21, adopted September 18, 2003; Ord. No. 99377, § 1, adopted June 24, 2004; Ord. No. 99741, §§ 8—13, adopted September 16, 2004; Ord. No. 100329, §§ 1—6, adopted January 20, 2005; Ord. No. 100552, § 2, adopted March 10, 2005; Ord. No. 101344, § 1, adopted September 1, 2005; Ord. No. 101404, §§ 4, 5, 7, 8, adopted September 15, 2005; Ord. No. 2007-03-01-0234, § 1, adopted March 1, 2007; Ord. No. 2007-05-17-0559, §§ 1, 2, adopted May 17, 2007; Ord. No. 2008-06-19-0593, §§ 1—6, adopted June 19, 2008; Ord. No. 2008-09-11-0777F, §§ 4, 5, 7, 8, adopted September 11, 2008; Ord. No. 2010-01-14-0116, §§ 2—7, adopted January 14, 2010; Ord. No. 2011-03-31-0241, §§ 1—5, adopted March 31, 2011; Ord. No. 2012-05-31-0387, §§ 1, 2, adopted May 31, 2012; Ord. No. 2012-09-20-0740, §§ 1, 2, adopted September 20, 2012, and Ord. No. 2013-03-21-0188, §§ 1—3, adopted March 21, 2013.

Charter reference—Authority to regulate and license vehicles for hire, § 3, par. 13(3).

Cross references—Ground transportation, vehicles for hire at airports, § 3-84 et seq.; motor vehicles and traffic, § 19-1 et seq.; streets and sidewalks, Ch. 29.

Sec. 33-035. Revocation and suspension of vehicle permit.
Sec. 33-036. Operating permit re-application.
Sec. 33-037. Penalties.
Sec. 33-038. Reserved.

Division 4. Drivers Permit

Sec. 33-039. Drivers permit.
Sec. 33-040. Drivers permit authorized companies.
Sec. 33-041. Investigation of applicant; records to be considered; qualifications; issuance and denial.
Sec. 33-042. Revocation and suspension of drivers permit.
Sec. 33-043. Reinstatement of drivers permit.
Sec. 33-044. Display of permit.
Sec. 33-045. License file to be kept.
Sec. 33-046. Voidance of drivers permit.
Sec. 33-047. Driver lists to be furnished and maintained.
Sec. 33-048. Reserved.
Sec. 33-049. Transfer of drivers permit.

Division 5. Holder and Driver Regulations

Sec. 33-050. Effect of amendments.
Sec. 33-051. Holder's duty to comply.
Sec. 33-052. Holder's duty to enforce compliance by drivers.
Sec. 33-053. Notification of change of address or ownership.
Sec. 33-054. Holders responsible for fitness of drivers.
Sec. 33-055. Information and data to be kept, maintained, and made available for inspection.
Sec. 33-056. Appearance of drivers; drivers uniforms.
Sec. 33-057. Periodic appearance in person by holders and drivers.
Sec. 33-058. Disposition of property left in vehicles for hire.
Secs. 33-059—33-061. Reserved.

Division 6. Vehicles and Equipment

Sec. 33-062. General safety requirements and inspections.
Sec. 33-063. Required equipment.
Secs. 33-064—33-066. Reserved.
Sec. 33-067. Substituted or replaced vehicles for hire.
Secs. 33-068, 33-069. Reserved.

Division 7. Enforcement

Sec. 33-070. Correction order.
Sec. 33-071. Permanent removal of vehicles and equipment.
Sec. 33-072. Service of notice.
Sec. 33-073. Enforcement by police department.
Sec. 33-074. Impoundment of vehicles.
Sec. 33-075. General penalties.

Division 8. Airport Operations

Sec. 33-076. Scope of instant article.
Sec. 33-077. Airport rules and regulations.
Sec. 33-078. Permit requirements.
Secs. 33-079—33-209. Reserved.

Article II. Motorbike Sidecar Service

Division 1. In General

Sec. 33-210. Scope of instant article.
Sec. 33-211. Fees.
Sec. 33-212. Amount of insurance.
Secs. 33-213—33-219. Reserved.

Division 2. Operating Authority

Sec. 33-220. Number of ground transportation vehicles authorized.
Secs. 33-221—33-229. Reserved.

Division 3. Service Regulations

Sec. 33-230. Hours of operation.
Sec. 33-231. Areas of service.
Sec. 33-232. Passenger restrictions.
Sec. 33-233. Standing or resting.
Sec. 33-234. Holder's duty to comply.
Sec. 33-235. Holder's duty to enforce compliance by drivers.
Sec. 33-236. Holders responsible for fitness of drivers.
Sec. 33-237. Periodic appearance in person by holders and drivers.
Secs. 33-238, 33-239. Reserved.

Division 4. Fares

Sec. 33-240. Fares.
Secs. 33-241—33-249. Reserved.

Division 5. Vehicles and Equipment

Sec. 33-250. Inspection requirements.
Secs. 33-251—33-309. Reserved.

Article III. Group Cycle Services

Division 1. In General

Sec. 33-310. Scope of instant article.
Sec. 33-311. Fees.
Sec. 33-312. Amount of insurance.
Secs. 33-313—33-319. Reserved.

Division 2. Operating Authority

Sec. 33-320. Number of ground transportation vehicles authorized.
Secs. 33-321—33-329. Reserved.

Division 3. Service Regulations

Sec. 33-330. Hours of operation.
Sec. 33-331. Areas of service.
Sec. 33-332. Passenger restrictions.
Sec. 33-333. Standing or resting.
Sec. 33-334. Holder's duty to comply.
Sec. 33-335. Holder's duty to enforce compliance by drivers.
Sec. 33-336. Holders responsible for fitness of drivers.

Sec. 33-337. Periodic appearance in person by holders and drivers.
Secs. 33-338, 33-339. Reserved.

Division 4. Fares

Sec. 33-340. Fares.
Secs. 33-341—33-349. Reserved.

Division 5. Vehicles and Equipment

Sec. 33-350. Inspection requirements.
Secs. 33-351—33-399. Reserved.

Article IV. Equine-Drawn Carriages

Division 1. In General

Sec. 33-400. Scope of instant article.
Sec. 33-401. Fees established.
Secs. 33-402—33-410. Reserved.

Division 2. Operating Authority

Sec. 33-411. Number of carriages.
Sec. 33-412. Permit fee.
Sec. 33-413. Company ownership.
Sec. 33-414. Reserved.
Secs. 33-415—33-430. Reserved.

Division 3. Service Regulations

Sec. 33-431. Hours of operation.
Sec. 33-432. Carriage stands.
Sec. 33-433. Reserved.
Sec. 33-434. Maintenance carriage stands, routes, streets, and feeding and watering locations.
Sec. 33-435. Refusal to convey.
Sec. 33-436. Additional passengers.
Secs. 33-437—33-440. Reserved.

Division 4. Fares

Sec. 33-441. Schedule of fares.
Sec. 33-442. Display of fares.
Secs. 33-443—33-460. Reserved.

Division 5. Equine

Sec. 33-461. Equine license required.
Sec. 33-462. Care of equine.
Secs. 33-463—33-470. Reserved.

Division 6. Stables

Sec. 33-471. Location.
Sec. 33-472. Requirements.
Secs. 33-473—33-480. Reserved.
Sec. 33-481. Carriage wheels.
Secs. 33-482—33-490. Reserved.

Division 7. Stand Workers

Sec. 33-491. Independent contractor, stand workers and employees.
Secs. 33-492—33-499. Reserved.

Article V. Limousine Services

Sec. 33-500. Scope of instant article.
Secs. 33-501—33-518. Reserved.
Sec. 33-519. Amount of insurance.
Secs. 33-520—33-522. Reserved.
Sec. 33-523. Number of ground transportation vehicles authorized.
Sec. 33-524. Supplemental operating permit.
Sec. 33-525. Supplemental drivers permit.
Sec. 33-526. Fees.
Secs. 33-527—33-560. Reserved.
Sec. 33-561. Rates of fare.
Secs. 33-562, 33-563. Reserved.
Sec. 33-564. Vehicle requirements.
Secs. 33-565—33-609. Reserved.

Article VI. Pedicab Services

Division 1. In General

Sec. 33-610. Scope of instant article.
Sec. 33-611. Fees.
Sec. 33-612. Amount of insurance.
Secs. 33-613—33-619. Reserved.

Division 2. Operating Authority

Sec. 33-620. Number of ground transportation vehicles authorized.
Sec. 33-621. Available permit distribution.
Secs. 33-622—33-629. Reserved.

Division 3. Service Regulations

Sec. 33-630. Hours of operation.
Sec. 33-631. Areas of service.
Sec. 33-632. Passenger restrictions.
Sec. 33-633. Standing or resting.
Sec. 33-634. Holder's duty to comply.
Sec. 33-635. Holders responsible for fitness of drivers.
Sec. 33-636. Periodic appearance in person by holders and drivers.
Secs. 33-637—33-639. Reserved.

Division 4. Fares

Sec. 33-640. Fares.
Secs. 33-641—33-649. Reserved.

Division 5. Vehicles and Equipment

Sec. 33-650. Inspection requirements.
Secs. 33-651—33-699. Reserved.

Article VII. Tour Service and Charter Service

Sec. 33-700. Scope of instant article.
Secs. 33-701—33-718. Reserved.
Sec. 33-719. Amount of insurance.
Secs. 33-720—33-722. Reserved.
Sec. 33-723. Number of ground transportation vehicles authorized.
Sec. 33-724. Supplemental operating permit.
Sec. 33-725. Supplemental drivers permit.
Sec. 33-726. Historic district restrictions.
Sec. 33-727. Destination point permits.
Sec. 33-728. Fees.
Secs. 33-729—33-760. Reserved.
Sec. 33-761. Rates of fare.
Secs. 33-762—33-764. Reserved.
Sec. 33-765. Vehicle age requirements.
Secs. 33-766—33-769. Reserved.
Sec. 33-770. Reservation schedule required.
Secs. 33-771—33-899. Reserved.

Article VIII. Taxicabs

Sec. 33-900. Scope of instant article.
Secs. 33-901—33-908. Reserved.
Sec. 33-909. Business office.
Secs. 33-910—33-923. Reserved.
Sec. 33-924. Qualification as self-insurer.
Sec. 33-925. Amount of insurance.
Secs. 33-926, 33-927. Reserved.
Sec. 33-928. Classifications and requirements of vehicles.
Sec. 33-929. Number of taxicabs; authority to operate additional taxicabs.
Sec. 33-930. Permit usage.
Sec. 33-931. Approval of wheelchair accessible vehicle permits for operation of taxicabs.
Sec. 33-932. Owner/operators.
Sec. 33-933. Fees.
Secs. 33-934—33-970. Reserved.
Sec. 33-971. Operating requirements.
Sec. 33-972. Driver as an independent contractor.
Sec. 33-973. Driver conduct.
Secs. 33-974—33-980. Reserved.
Sec. 33-981. Rate of fares.
Sec. 33-981.1. Per mile surcharge.

Article IX. Electric Vehicle Service

Division 1. In General

Sec. 33-990. Scope of instant article.
Sec. 33-991. Fees.
Sec. 33-992. Amount of insurance.
Secs. 33-993—33-1000. Reserved.

Division 2. Operating Authority

Sec. 33-1001. Number of ground transportation vehicles authorized per classification.
Secs. 33-1001—33-1009. Reserved.

Division 3. Service Regulations

Sec. 33-1010. Hours of operation.
Sec. 33-1011. Areas of service.
Sec. 33-1012. Passenger restrictions.
Sec. 33-1013. Standing or resting.
Sec. 33-1014. Holder's duty to comply.
Sec. 33-1015. Holder's duty to enforce compliance by drivers.
Sec. 33-1016. Holders responsible for fitness of drivers.
Sec. 33-1017. Periodic appearance in person by holders and drivers.
Secs. 33-1018—33-1019. Reserved.

Division 4. Fares

Sec. 33-1020. Fares.
Secs. 33-1021—33-1029. Reserved.

Division 5. Vehicles and Equipment

Sec. 33-1030. Inspection requirements.

[This page intentionally left blank.]

ARTICLE I. GENERAL PROVISIONS*

DIVISION 1. GENERAL PROCEDURES

Sec. 33-001. Statement of policy.

It is the policy of the city to promote efficient, safe, reliable, and quality ground transportation services in the city. To this end, this chapter provides for the regulation of such services to be carried out in a manner that protects the public health and safety, promotes the public convenience and necessity, and respects the concept of free enterprise.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-002. Scope; effect; exclusions.

This chapter governs the operation of vehicles for hire and ground transportation services in the city under each form of operating authority. The chapter, however, is not a limitation on the power of the city council to incorporate in a grant of operating authority special provisions relating to the operation of the particular ground transportation service to the grant. To the extent that a special provision conflicts with this chapter, the special provision controls. The following exclusions apply:

(a) This chapter does not apply to a person operating a ground transportation service that is:

(1) Operated under state or federal authority unless subject to the city's regulatory authority;

(2) Used to transport persons for hire and is regulated by another city ordinance;

(3) In the performance of a service involving a point of origin or destination outside the city that was authorized by a certificate of public convenience and necessity issued by the Texas Railroad Commission, except that the director shall prescribe routes, times, and locations for loading, unloading and stopping on public streets in the city for a ground transportation service operated under such a certificate;

(4) Operated for a funeral home in the performance of funeral services;

(5) Provided by an employer or employee association for use in transporting employees between the employees' homes and the employer's place of business or between work stations, with the employees reimbursing the employer or employee association in an amount calculated only to offset the reasonable expenses of operating the vehicle;

(6) Owned and operated by the federal or state government, by a political subdivision of the state, or by a person under contract with the city for operation of the vehicle;

(7) Used in a carpool to transport the person and others on a prearranged basis between their homes and places of employment or places of common destination, if only a fee calculated to reasonably cover expenses is charged;

(8) Used to transport children to or from school if only a fee calculated to reasonably cover expenses is charged;

(9) Owned by a nonprofit organization and carrying only passengers associated with that organization, if no compensation is received from any other person for carrying the passengers;

(10) A courtesy vehicle, as defined in section 33-003 of this chapter, if the name of the business or sponsor of such vehicle is permanently affixed to the outside of the vehicle;

*__Editor's note—__Ord. No. 2014-12-11-1002, § 1(Att. A), adopted December 11, 2014 and effective March 1, 2015, amended article I in its entirety to read as herein set out. Formerly, article I, divisions 1—7, pertained to similar subject matter and derived from Ord. No. 2013-08-01-0501, § 1(Exh. A), adopted August 1, 2013.

(11) Those services the provision of which is a continuation of interstate travel; and

(12) Those services provided by VIA Metropolitan Transit wherein persons are transported along regularly scheduled routes throughout the city for loading and unloading, at frequent intermittent stops, alongside the curb or curb lines of a street; wherein the disabled and the elderly are provided with special services; and wherein persons are offered express service from designated park and ride locations throughout the city.

(b) Divisions 4 and 6 of this article do not apply to:

(1) The driver of a ground transportation service operated under authority granted by the Interstate Commerce Commission, if the driver is operating within the scope of the driver's employment; and

(2) Motor coaches having a gross-weight rating in excess of twenty-three thousand (23,000) pounds.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-003. Definitions.

For the purpose of this chapter, the following words and phrases shall have the meanings ascribed to them by this section, unless the context shall indicate another or different meaning or intent.

Airport service shall mean vehicles that may serve the airport without city-wide service restrictions. A city-wide permit is a prerequisite for the issuance of an airport permit. No driver shall pick up a passenger on any portion of San Antonio International Airport (SAT) or Stinson Airfield (SSF) without proper authorization pursuant to chapter 3, article II of this Code, including payment of any fees.

Application shall mean the written request for a permit agreement or drivers permit.

Appointment basis only shall mean a ground transportation service pre-arranged by the passenger prior to the arrival of a vehicle for hire at the point of origin.

Association shall mean an incorporated or unincorporated society or group of persons united for some purpose related to the operation of ground transportation vehicles. This term includes a cooperative association.

Business office shall mean a location used for the purpose of conducting operations. A business office must have a valid mailing address within the city limits, other than a post office box.

Charter service shall mean a ground transportation service that uses vehicles with a capacity of sixteen (16) or more passengers to transport passengers belonging to a specified group and that is:

(a) Offered only upon a pre-arranged basis, the pre-arrangement being made at least one hour in advance of the time the transportation is to begin and on a pre-sold basis; and

(b) Is used to transport a specified group of passengers from the same or various points of origin to a same point of destination.

(c) Has registered with the state department of motor vehicles as a commercial vehicle.

City shall mean the City of San Antonio.

City manager shall mean the person, or the city manager's authorized or designated representative.

City-wide service shall mean vehicles that service the entire city except the San Antonio International Airport. City-wide vehicles may drop-off passengers at the airport

Classic vehicle shall mean a motor vehicle used in the operation of a limousine service, which is twenty-five (25) years of age or older and is of special interest to or in demand by auto collectors due to the vehicle's rarity, limited production, public recognition or increasing value.

Code shall mean the City Code of San Antonio, Texas.

Compensation shall mean any money, thing of value, payment, consideration, reward, tip, donation, gratuity or profit paid to, accepted or received by the driver or owner of any vehicle in exchange for transportation of a person, or persons, whether paid upon solicitation, demand or contract, or voluntarily, or intended as a gratuity or donation.

Courtesy vehicle shall mean a vehicle which provides a passenger ground transportation service exclusively for the clients of a sponsor of such vehicle and such sponsor is not a business, association, organization or any other entity engaged in providing a vehicle for hire service of any kind, and which accepts no fares or compensation paid by a passenger to the driver of such a vehicle or to the sponsor.

Conviction means a conviction in a federal court or a court of any state or foreign nation or political subdivision of a state or foreign nation that has not been reversed, vacated, or pardoned. Conviction shall also mean a plea of guilty or a finding of guilt in said courts.

Data device shall mean any device that is approved by the department for dispatching purposes. This device must be assigned to either a licensed vehicle or licensed driver.

Director or *department director* shall mean the department head assigned the responsibility for supervising the city's ground transportation services or the authorized or designated representative of such department head.

Dispatch shall mean to operate a scheduling service in which requests for vehicles for hire are received by phone, in person, by the internet, or by any other voice, data or electronic communication, and vehicles for hire are scheduled from the service to the vehicle for hire by radio or data device including, but not limited to, a device capable of any voice, data or electronic communication, or transportation network company application.

Driver shall mean any individual who operates a vehicle for hire under the holder's permit. The driver shall have a State of Texas drivers license required for the class of vehicle being operated, as defined in V.T.C.A., Transportation Code §§ 521.081 and 521.082, and a valid and current drivers permit issued under this chapter.

Drivers permit shall mean a photo I.D. card issued to an individual by the director which verifies that the individual has met all city requirements and is qualified to operate a vehicle for hire in the city.

Dwelling shall mean any "dwelling, one-family," "dwelling, one-family attached," "dwelling, single family-detached," "dwelling, two-family (duplex)," "dwelling, two-family attached," "dwelling, three-family (triplex)," "dwelling, four-family (quadraplex)," "dwelling, multifamily," "dwelling, single-family" or "dwelling unit," as such terms are defined in chapter 35 of this Code.

Electric vehicle (EV) shall mean a vehicle propelled by an electric motor (non-combustion) that has a maximum speed of no more than thirty-five (35) mph and otherwise complies with Federal Motor Safety Standard 500 (49 C.F.R. Section 571.500) for low-speed vehicles.

Electric vehicle service shall mean a ground transportation service operating for hire that uses an EV in the operation of the service and includes, but not limited to, a facility from which the service is operated, an EV used in the operation of the service, and a person who owns or operates said service. Such services shall be operated on a pre-arranged or on demand basis.

Facility shall mean a location for the conduct of business which includes but is not limited to a business office and a garage for the maintenance of vehicles for hire.

Ground transportation service shall mean a service which utilizes or connects individuals with vehicles for hire in the transportation of passengers from within the city and which includes, but is not limited to, equine-drawn carriage service, group cycle service, limousine service, pedicab service, tour service, charter service, taxicab service, and motorbike sidecar service.

Group cycle shall mean a device with four (4) or more wheels propelled by human power exerted through a belt, chain, or gears capable of carrying a driver and six (6) or more seated passengers on a platform made as part of the device. Group cycles may utilize assist motors as long as they:

(a) Are not intended to be the primary power for the cycle;

(b) Are not continuously operating and are shut off when the cycle is at a speed of five (5) miles per hour or greater speed; and

(c) Have been approved by the director.

Group cycle service shall mean a ground transportation service operating for hire that uses a group cycle in the operation of the service and includes, but is not limited to, a facility from which the service is operated, a group cycle used in the operation of the service, and a person who owns or operates said service. Such service shall only be operated on a pre-arranged basis.

Holder shall mean a person, company, corporation, cooperative or association, or the individual members of such cooperative or association that applies for and is granted an operating permit with the city for a ground transportation service. A holder is responsible to assure that any driver who operates under the holder's permit fully complies with chapter 33, the failure of which shall subject a holder to potential revocation or suspension of the holder's permit(s) under article I, division 3, revocation/suspension of permits.

Hybrid taxicab shall mean a taxicab with more than one power source, such as an electric motor and internal combustion engine or an electric motor with battery and fuel cells for energy storage.

Inspection re-scheduling fee shall mean a fee that is charged to a permit holder for a vehicle that was scheduled for an inspection and that vehicle failed to show for the scheduled inspection. This fee may be waved if the permit holder provides an acceptable reason, at least twenty-four (24) hours in advance of the inspection, the permit holder can provide proof of an extreme situation that caused a vehicle to fail to show or if the inspection time is filled by another vehicle.

Limousine service shall mean a ground transportation service that uses vehicles with a capacity of four (4) to fifteen (15) passengers to transport passengers for a fare based on a one (1) hour or more hiring period and:

(a) On an pre-arranged basis only; and

(b) On irregular routes and schedules.

The term "limousine service" may also refer to any or all of the following:

(1) A facility from which the service is operated;

(2) Vehicles for hire used in the operation of the service; or

(3) A person who owns or operates said service.

A limousine service vehicle shall not be equipped with a taximeter.

Limo-bus shall mean a motor vehicle that:

(a) Has been so designated by the director; and

(b) Has a manufacturer's or modifier's rated seating capacity at least nine (9) and not more than forty-five (45) passengers.

(c) If the rated seating capacity is more than fifteen (15) passengers, has registered with the state department of motor vehicles as a commercial vehicle.

Limo-van shall mean a motor vehicle that:

(a) Has been so designated by the director; and

(b) Has a manufacturer's or modifier's rated seating capacity of at least eight (8) and not more than fifteen (15) passengers.

Luxury vehicle shall mean a motor vehicle that:

(a) Has been designated by the director as a luxury vehicle;

(b) Has a manufacturer's rated seating capacity of not more than eight (8) passengers; and

(c) Has an original wheelbase of one hundred nine (109) inches or more.

Manifest shall mean the daily record prepared by a driver or a holder upon which appears the driver's name and vehicle number; date and hours of operation; time, place, origin and destination of each trip; amount of fare and other charges; and all other information as required by this chapter.

Mini-bus shall mean a motor vehicle that has a manufacturer's rated seating capacity of at least nine (9) and not more than forty-five (45) passengers.

Motor coach shall mean a motor vehicle that:

(a) Has a manufacturer's seating capacity of more than forty (40) passengers;

(b) Has luggage storage compartments located below the passenger area; and

(c) Is normally associated with interstate bus service.

Motorbike sidecar shall mean a car that is attached to the side of a motorbike for a passenger. The motorbike may be combustion or electric and must be street legal.

Motorbike sidecar service shall mean a ground transportation service operating for hire that uses a motorbike with a sidecar in the operation of the service and includes, but not limited to, a facility from which the service is operated, a sidecar used in the operation of the service, and a person who owns or operates said service. Such services shall be operated on a pre-arranged or on demand basis.

Open-air bus shall mean a bus in which all levels have open sides or an open top.

Operate or *operating* shall mean to drive or to be in control of a vehicle for hire. It shall also include the act of driving, managing or directing the utilization of one (1) or more vehicles for hire.

Operating permit shall mean a city-issued certificate which authorizes the holder to operate the number of vehicles for hire specified therein.

Operator shall mean the driver of a vehicle for hire, the owner of a vehicle for hire, or the holder of a vehicle for hire service.

Owner shall mean the person to whom state license plates for a vehicle were issued.

Owner/Operator shall mean an individual person that has an agreement with the city to operate a taxicab service with a single vehicle under an owner/operator permit.

Passenger shall mean an individual, including the driver, being transported by a vehicle for hire.

Pedicab shall mean a device with three (3) or more wheels propelled exclusively by human power exerted through a belt, chain, or gears capable of carrying a driver and one (1) or more passengers on a platform made as part of the device. Pedicabs may utilize assist motors as long as they:

(a) Are not intended to be the primary power for the cycle;

(b) Are not continuously operating and shut off when the cycle is at a speed of five (5) miles per hour or greater speed; and

(c) Have been approved by the director.

Pedicab service shall mean a ground transportation service operated for hire that uses a pedicab in the operation of the service and includes, but is not limited to a facility from which the service is operated, a pedicab used in the operation of the service and a person who owns or operates said service.

Permit agreement shall mean the written agreement between the city and a person for an operating permit which authorizes the operation of a ground transportation service after the issuance of such operating permit.

Permit holder shall mean the individual who:

(a) Owns the company if a sole proprietorship;

(b) Who has been designated as having the controlling interest over a company by

the majority of owners of said company, and who is identified as an owner on the letter of incorporation; or

(c) Has been elected as the president of a co-operative.

Person shall mean an individual, partnership, corporation, company association, co-op or other legal entity.

Pre-arranged basis shall mean operating with a reservation for service made at least one (1) hour in advance of the time the transportation is to begin.

Pre-sold basis shall mean full or partial payment is made or guaranteed by cash, check, or charge account, at the time of reservation.

Rated passenger capacity shall mean that designated in number by the manufacturer, or if none, that designated in number by the director.

Reservation schedule shall mean a record prepared at the time of reservation upon which appears the specified group name; the date and time the reservation for service was made; the type of payment made (cash, check, charge); the amount charged; the number of persons in the specified group; the place of origin; the time of pick-up; the destination; and the time of drop-off.

Service animal shall mean any guide dog, signal dog or other animal individually trained to work or perform tasks for a person with a disability, including but not limited to guiding persons with impaired vision, alerting persons with impaired hearing to intruders or sounds, providing minimal protection or rescue work, pulling a wheelchair or fetching dropped items.

Specified group shall mean more than one (1) individual having some unifying relationship purposely assembled for traveling together. However, they are not required to be transported together.

Stand shall mean a public place alongside the curb or curb line or a street which has been designated by the director as reserved exclusively for use by a particular type of ground transportation service.

State shall mean the State of Texas.

Street shall mean any street, alley, avenue, boulevard, drive, public way or highway commonly used for the purpose of public travel within the city.

Stretch limousine shall mean a motor vehicle that:

(a) Is a luxury vehicle with a wheelbase which has been extended one hundred (100) inches or more beyond the original manufacturer's specification;

(b) Is in compliance with the rated seating capacity as required by the U.S. Department of Transportation (DOT) approved manufacturer's or modifier's data plate or weather proof label on the door jamb;

(c) Possesses a DOT approved manufacturer's or modifier's data plate or weatherproof label on the door jamb; and

(d) Is used for the transportation of persons from a location in the city to another location either inside or outside the city.

(e) If the rated seating capacity is more than fifteen (15) passengers, has registered with the state department of motor vehicles as a commercial vehicle.

Sports utility vehicle (SUV) shall mean a motor vehicle that:

(a) Is designated by the manufacturer as a SUV and is designated by the director as a SUV authorized for use in the limousine service; and

(b) Has a manufacturer's seating capacity of not more than eight (8) passengers.

Taxicab shall mean a chauffeured motor vehicle having a rated passenger capacity not more than seven (7) passengers that is used to transport persons in a vehicle for hire on an on demand basis over routes determined by the destination of the passenger. A taxicab shall be equipped with a taximeter.

Taxicab service shall mean a passenger ground transportation service operated for hire that uses taxicabs in the operation of the service and includes, but is not limited to, a facility from

which the service is operated, taxicabs used in the operation of the service and a person who owns or operates said service.

Taximeter shall mean a device that mechanically or electronically computes records and indicates a fare based upon the time or distance a vehicle for hire is engaged and/or the distance travelled by said vehicle. The taximeter shall calculate distance by the transmission of the vehicle or by electrical impulses from the vehicle. A taximeter may also be a virtual/smart taximeter that meets the applicable standards as established and updated or amended in the National Institute of Standards and Technology's (NIST) Handbook 44 and enforced by federal or state departments of weights and measures or comparable agency or program. A taximeter must be visible to a passenger seated in the rear of the vehicle. Taximeters shall be approved and sealed by the city.

Tour service shall mean a passenger ground transportation service that uses vehicles with a manufacturer's rating capacity of eight (8) or more passengers in the operation of the service and includes, but is not limited to, a facility from which the service is operated, vehicles used in the operation of the service, and a person who owns or operates said service, and that:

(a) Is used to provide regularly scheduled and routed sight-seeing tours to persons for a per-passenger or per-hour charge agreed upon in advance; and

(b) Returns passengers to their point of origin upon completion of a tour.

(c) If the rated seating capacity is more than fifteen (15) passengers, has registered with the state department of motor vehicles as a commercial vehicle.

Transportation advisory board shall mean the advisory board created and designated as such by the city council.

Van shall mean a motor vehicle that:

(a) Is designated by the manufacturer as a van and is designated by the director as a van; and

(b) Has a manufacturer's seating capacity of at least eight (8) and not more than fifteen (15) passengers.

Vehicle for hire shall mean every chauffeured vehicle, other than mass transit vehicles or vehicles involved in an organized car pool not available to the general public, which is operated for any fare or compensation and used for the transportation of passengers over city streets. Such vehicles shall include but are not limited to taxicabs, buses, vans, mini-buses, motorcoaches, stretch limousines, classic vehicles, luxury vehicles, pedicabs and transportation network vehicles.

Vehicle number shall mean the identification number assigned to a vehicle for hire by the director.

Vehicle permit shall mean the city decal affixed to a vehicle for hire which evidences the holder's authority to operate said vehicle pursuant to the holder's operating permit.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2015-03-05-0152, § 1(Att. A), 3-5-15; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16; Ord. No. 2016-12-08-0968, § 1(Att. B), 12-8-16; Ord. No. 2018-05-31-0396, § 1, 5-31-18, eff. 7-1-18; Ord. No. 2022-11-03-0845, § 1(Att. C), 11-3-22; Ord. No. 2024-12-12-0998, § 1, 12-12-24)

Sec. 33-004. Authority and duty of director.

The director shall implement and enforce this chapter, interpret the provisions herein, and may by written order establish such rules or regulations, not inconsistent with this chapter, as the director determines are necessary to discharge any duty under, or to affect the policy of, this chapter and of the city. The director may at all reasonable times inspect a vehicle or facility operating under this chapter to determine whether the vehicle or facility complies with the provisions of this chapter and all other applicable rules, regulations and laws.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-005. Establishment of rules and regulations.

(a) Before adopting, amending, or abolishing a rule or regulation, the director together with the transportation advisory board shall hold a public hearing on the proposal.

(b) The director shall fix the time and place of the hearing and, in addition to notice required under V.T.C.A., Government Code § 551.041, shall notify each holder and such other persons as the director determines are interested in the subject matter of the hearing.

(c) After the public hearing, the director shall notify the holders and other interested persons of the action taken and shall post an order adopting, amending, or abolishing a rule or regulation on the official bulletin board in the City Hall for a period of not fewer than ten (10) days. The order becomes effective immediately upon expiration of the posting period.

(d) All rules and regulations established by the director shall be enforced as provided for in section 33-073 of this chapter.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

DIVISION 2. OPERATING AUTHORITY

Sec. 33-006. Operating permit required.

(a) A person shall not knowingly operate, allow to be operated, or cause to be operated, a ground transportation service as defined in section 33-003 of this chapter, or any other service providing or related to ground transportation service, without a current and valid operating permit issued under this chapter, nor shall a person transport a passenger for hire from within the city unless the person driving the vehicle for hire or another who employs or contracts with said driver has a current and valid operating permit under this chapter.

(b) No person shall knowingly represent a vehicle as a vehicle for hire nor use or offer the use of such vehicle in a ground transportation service unless the vehicle being so represented, used, or offered for use has a current and valid operating permit under this chapter.

(c) A holder of an operating permit issued under this chapter shall not operate a ground transportation service, other than for the type of service for which an operating permit has been granted.

(d) Before an operating permit is granted, a written application for such on a form provided for that purpose must be submitted to and approved by the director in accordance with the provisions of this chapter.

(e) No person for compensation or at any charge to a passenger shall by any means (including but not limited to any data or electronic communication, any telephone and cellular service, any software, any application, any internet service, and any physical presence) operate, arrange, dispatch to or solicit a vehicle for hire unless permitted under this chapter. A person is responsible for violations of this chapter by his own conduct, by the conduct of another person if acting with intent to violate this chapter he solicits, encourages, directs, aids, or attempts to aid another person to violate this chapter, or by both.

(f) A person commits an offense if he violates this section. A separate offense is committed each day during which an offense occurs. An offense committed under this section is punishable by a fine of not more than five hundred dollars ($500.00). Prosecution for an offense under this section does not prevent the use of the enforcement remedies provided in section 33-074 of this chapter.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-007. Application for operating permit.

To obtain an operating permit, a person shall submit an application to the director in the manner prescribed by this section. The applicant must be the person who will own or operate the proposed ground transportation service or the

chief officer. An applicant shall file with the director a written, sworn application containing the following:

(a) The form of business of the applicant; if the business is a corporation or association, a copy of the documents establishing the business and the name, address and citizenship of each person with a direct interest in the business. Notice of any change in an applicant's form of

[This page intentionally left blank.]

business shall be provided to the department director, within ten (10) business days of the change;

(b) The name, street address, phone number and verified signature of the applicant and of the applicant's proposed business; an applicant shall notify the director, in writing, of any change in the foregoing within ten (10) business days of the change;

(c) A representation of whether the applicant is a citizen of the United States of America by birth or naturalization, or, if alien, evidence of the applicant's legal residence in the United States and of the applicant's legal right to engage in employment therein;

(d) A description of any past business experience of the applicant, particularly in providing ground transportation services.

(e) An identification and description of any revocation or suspension of an operating permit held by the applicant or the applicant's business which occurred prior to the date of filing the application.

(f) The number of vehicles to be used by the applicant in the operation of the proposed ground transportation service. Notice of any change in the foregoing shall be provided to the director, in writing and with supporting documentation as required by the director, within five (5) business days of the change;

(g) A description of each of the vehicles the applicant proposes to use in providing ground transportation services including, but not limited to, each vehicle's year, make, model, type, and seating capacity;

(h) A description of the operations of the proposed ground transportation service and the location of the fixed facilities to be used in the operation;

(i) A management plan including:

(1) A maintenance plan which the applicant shall utilize for the upkeep and replacement of vehicles to be permitted. Such plan may include a maintenance contract with an outside contractor;

(2) A procedure outlining the handling of complaints; and

(3) A drivers training program submitted to the director for approval. The drivers training program must contain;

a. Customer service;

b. Company orientation;

c. Chapter 33 overview (including rules and regulations);

d. Airport operations, including the provisions of chapter 3, article II, of this Code, and the rules and regulations established thereunder;

e. Local sights and location orientation; and

f. Dispatching, to include (if required) meter and radio training.

(j) A description of the proposed insignia and color scheme for the applicant's vehicles and a description of apparel to be worn by the applicant's drivers;

(k) Documentation from an insurance company authorized by this chapter evidencing a willingness to provide, prior to commencement of the proposed service, the insurance required by this chapter;

(l) Documentation evidencing timely payment of all city and county taxes, fees and assessments which have been levied on the business and property to be used in connection with the proposed service;

(m) Written documentation authorizing the release to the city of any and all information which an organization or entity may have concerning the applicant and a release to said organization or entity from all liability which may result from the furnishing of such to the city; and

(n) Such additional information as the applicant desires to include to aid in the determination of whether the requested operating authority should be granted.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Sec. 33-008. Prerequisites to issuance.

(a) The authority to grant or deny an application for an operating or vehicle permit is vested with the director, and the director's designee, acting in accordance with the provisions of this chapter.

(b) An applicant for an operating permit has the burden of providing to the satisfaction of the director:

(1) That the applicant is of good character and is qualified to provide the service proposed in the application;

(2) That the proposed ground transportation service complies with the quality and safety standards of this chapter, and of the rules and regulations established by the director;

(3) That the applicant is fit, willing and able to operate the ground transportation service in accordance with the requirements of this chapter, rules and regulations established by the director, provisions of the operating permit, and all other applicable rules, regulations and laws.

(4) Where an applicant has been involved in past criminal activity, that the applicant has otherwise maintained a record of steady employment and good conduct; has supported any dependents; and has paid all outstanding court costs, supervision fees, fines and restitution that may have been ordered in all criminal cases in which the applicant has been convicted; and

(5) Where an applicant is or has been a permit holder in any industry that is regulated by chapter 33, that the applicant has met the requirements of section 33-010 of this chapter.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Sec. 33-009. Grant of operating permit; service requirements.

(a) Upon approval of an application for an operating permit by the director, and the execution of a permit agreement pursuant thereto, the director shall promptly issue the operating permit. Within ninety (90) days after receipt of such permit, the holder shall operate a city-wide ground transportation service in accordance with the provisions of this chapter, the operating permit, the permit agreement, and the rules and regulations established by the director, for a period of twenty-four (24) months beginning on the date stated in the permit agreement.

(b) Each holder and dispatch service shall maintain a business office within the county limits of Bexar County, Texas.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16; Ord. No. 2016-12-08-0968, § 1(Att. B), 12-8-16)

Sec. 33-010. Denial of operating permit.

(a) If the director, based on an investigation of the application under sections 33-007 and 33-008 of this chapter, determines that good cause exists for denial of the application, the director shall notify the applicant in accordance with section 33-072 of this chapter, of the decision and of the basis therefore. Upon the applicant receiving notice of the director's decision, the applicant may appeal such decision in accordance with section 33-033 of this chapter.

(b) In the case where an applicant has a background of past criminal activity, application denial based solely thereon is warranted if and only if the past criminal activity is directly related to the duties and responsibilities of a holder as more fully described in this chapter. Accordingly, the following shall be considered in making a determination of job-relatedness:

(1) The nature and seriousness of the crime;

(2) The relationship of the crime to the reasons for requiring the city's approval prior to engagement in a ground transportation service;

(3) The extent to which the applicant's engagement in a ground transportation service might offer an opportunity for further criminal activity of the same type as that which the applicant had previously been involved; and

(4) The relationship of the crime to the ability, capacity or fitness required of the applicant to perform the duties and discharge the responsibilities of the ground transportation service, including:

a. The extent and nature of the applicant's past criminal history;

b. The age of the applicant at the time of the commission of the crime;

c. The amount of time that has elapsed since the applicant's last criminal activity;

d. The conduct and work activity of the applicant prior to and following the criminal activity;

e. Evidence of the applicant's rehabilitation or rehabilitative effort while incarcerated or following release; and

f. Other evidence of the applicant's present fitness, including letters of recommendation from: prosecutorial, law enforcement and correctional officers who prosecuted, arrested or had custodial responsibility for the applicant; the sheriff and chief of police in the community where the applicant resides; and any other persons in contact with the applicant.

(c) An application for an operating permit shall be denied where the applicant:

(1) Is under indictment for or has been convicted of criminal homicide including murder, capital murder and manslaughter, but excluding criminally negligent homicide;

(2) Is under indictment, is currently on community supervision including but not limited to probation and deferred adjudication, or has been convicted of any of the following:

a. Multiple offenses involving violence to any person except conduct classified as no greater than a Class C misdemeanor offense under state law;

b. Any offense involving prostitution or the promotion of prostitution;

c. Any offense involving sexual assault, sexual abuse or indecency;

d. Any offense involving the sale or manufacturing of drugs; or

e. Any offense involving driving while intoxicated within five (5) years of the application date or more than one (1) offense involving driving while intoxicated, or a combination of driving while intoxicated and other drug or alcohol related offenses.

(3) Has falsified or materially altered or omitted pertinent information in any governmental record, including an application for an operating permit; or

(4) Has not met the requirements for obtaining an operating permit as set forth in this chapter, rules or regulations established by the director.

(d) An application for an operating permit may also be denied where the applicant is under indictment, is currently on community supervision, including but not limited to probation and deferred adjudication, or has been convicted of any of the following:

(1) Any offense involving fraud or theft;

(2) Any offense involving the unauthorized use of a motor vehicle;

(3) Any violation of state or federal laws regulating firearms;

(4) Any offense involving violence to any person except conduct classified as no greater than a Class C misdemeanor offense under state law;

(5) Any offense involving the use or possession of drugs; or

(6) Any other job-related offense.

(e) An application for an operating permit may be denied where the applicant has a current vehicle fleet that is regulated by any section of chapter 33 and in which they have had any of the following fleet issues with in the previous twelve (12) months;

(1) Has failed to have one hundred (100) percent of their fleet pass the annual inspection;

(2) Has failed to comply with all corrective notices;

(3) Has failed to maintain insurance or bond that complies with chapter 33;

(4) Has had one (1) or more permits revoked; or

(5) Has demonstrated a history of non-compliance with any of the provisions of chapter 33, the rules or regulations established by the director, the permit agreement, or the operating permit.

(f) Upon denial of an application for an operating permit, an applicant shall not be eligible for re-application for a period of twelve (12) months from the date of denial.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-011. Amendments to permit agreement/operating permit.

Minor amendments to the permit agreement and operating permit may be made by the director. Amendments that materially change the scope of the permit agreement or operating permit must be applied for in the same manner as the original.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-012. Reserved.

Editor's note—Ord. No. 2016-03-03-0164, § 1(Att. A), adopted March 3, 2016, repealed section 33-012 in its entirety. Former section 33-012 pertained to payment of taxes and derived from Ord. No. 2014-12-11-1002, § 1(Att. A), adopted Dec. 11, 2014.

Sec. 33-013. License/permit bond.

Prior to commencement of operations pursuant to this chapter, the holder shall file with the director, as security for compliance under the operating permit, a good and sufficient license/permit bond for each ground transportation service. The form and substance of such license/permit bond shall be subject to approval by the city attorney's office and shall be in the amount hereafter specified in section 33-015 of this chapter (amount of bond). The right to operate under an operating permit shall be conditional upon the existence and maintenance in full force and effect of the license/permit bond herein described.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-014. Conditions of bond.

The license/permit bond required by this division shall be conditioned as follows:

(a) That the holder of the operating permit shall pay to the city all amounts due under the terms of this chapter and all fees, costs, damages, and expenses which the city may incur or suffer as a result of the holder's acts or inactions in violation of the requirements of this chapter, any rules or regulations established by the director, any provisions of the operating permit, any provisions of the permit agreement, and all other applicable rules, regulations and laws;

(b) That the holder of the operating permit shall pay all fines, assessments and judgments levied against the holder by any court, by the city treasurer or by direction of city council, and by such other officials authorized to levy such fines, taxes, charges, assessments or judgments; and

(c) That the holder of the operating permit shall perform every duty of a person owning/operating a ground transportation service as required by this chapter, rules or regulations established by the director, and provisions of the permit agreement and operating permit.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-015. Amount of bond.

Except as otherwise provided by the holder's operating permit, every license/permit bond required by this division shall be in an amount fixed by the following schedule:

(a) If the holder is authorized to operate five (5) vehicles for hire or less, then the bond shall be in the sum of one thousand five hundred dollars ($1,500.00);

(b) If the holder is authorized to operate at least six (6) but not more than ten (10) vehicles for hire, then the bond shall be in the sum of three thousand dollars ($3,000.00);

(c) If the holder is authorized to operate at least eleven (11) but not more than fifteen (15) vehicles for hire, then the bond shall be in the sum of four thousand five hundred dollars ($4,500.00);

(d) If the holder is authorized to operate at least sixteen (16) but not more than twenty-five (25) vehicles for hire, than the bond shall be in the sum of six thousand dollars ($6,000.00);

(e) If the holder is authorized to operate at least twenty-six (26) but not more than fifty (50) vehicles for hire, then the bond shall be in the sum of seven thousand five hundred dollars ($7,500.00);

(f) If the holder is authorized to operate at least fifty-one (51) but not more than one hundred (100) vehicles for hire, then the bond shall be in the sum of eleven thousand two hundred dollars ($11,200.00); and

(g) If the holder is authorized to operate more than one hundred (100) vehicles for hire, then the bond shall be in the sum of fifteen thousand dollars ($15,000.00).

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2015-03-05-0152, § 1(Att. A), 3-5-15; Ord. No. 2022-11-03-0845, § 1(Att. C), 11-3-22)

Sec. 33-016. Additional bonds and insurance may be required.

Upon discovery or determination that either the license/permit bond or the public liability and property damage insurance required of the holder under this chapter has become impaired, the director shall require new or additional bonds and insurance as appear to the director as necessary and sufficient to insure faithful performance and payment by such holder, his servants or agents, to persons injured by reason of the neglect of such holder, his servants or agents, or by reason of the violation by such holder, individually or through his servants or agents, of any of the provisions of this chapter, rules and regulations established by the director, provisions of the permit agreement and operating permit, or other applicable rules, regulations and laws.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-017. Provisions to be contained in bonds and insurance policies.

Every license/permit bond and insurance policy required under this chapter shall contain an endorsement that termination of the obligations of such bond or expiration, material change in, or cancellation of such insurance policy shall not become effective before thirty (30) days after written notice is received by the city of such termination, expiration, change or cancellation. Every insurance policy required by this chapter shall name the city as an additional insured.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-018. Insurance requirements generally.

(a) Prior to commencement of operations pursuant to this chapter the holder shall produce and furnish to the director, and thereafter keep in

full force and effect, a policy of public liability and property damage insurance. Such policy of insurance shall be in the amount hereafter specified in this chapter and shall be subject to approval by the city risk manager. Every such policy shall insure all the vehicles permitted by the holder in the vehicle for hire service authorized in the operating permit. Such policy shall inure to the benefit of any person who shall be injured or who shall sustain property damage as a result of the negligence of the holder or his servants or agents. The insurer shall be obligated to pay all final judgments which may be rendered on behalf of the public for injury or damage resulting to persons or property from the negligent operation of the holder's ground transportation service.

(b) Every policy of insurance shall be issued by an insurance company with a minimum A.M. Best rating of B+ and authorized to do business in Texas.

(c) Failure to procure and keep in full force and effect an insurance policy from a company that has an A.M. Best rating of B+ or above and that meets the minimum amount of insurance requirements under this chapter shall result in the suspension of the holder's operating permits. (Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2015-03-05-0152, § 1(Att. A), 3-5-15; Ord. No. 2022-11-03-0845, § 1(Att. C), 11-3-22)

Secs. 33-019—33-024. Reserved.

Sec. 33-025. Renewal of operating permit.

(a) The operating permit shall be renewed unless the director determines, before the renewal date, that good cause exists to deny the renewal based on documentation:

(1) That the holder is in noncompliance or has demonstrated a history of noncompliance with the provisions of this chapter, the rules and regulations established by the director, the permit agreement, or the operating permit;

(2) That the holder is neither fit, willing, nor able to continue to operate the ground transportation service in accordance with the provisions of this chapter, the rules and regulations established by the director, the permit agreement, or the operating permit;

(3) That the holder, since the date of the execution of the original permit agreement:

a. Has been convicted of any felony:

b. Has had his felony probation, parole or mandatory supervision revoked;

c. Has falsified or materially altered or omitted pertinent information in any governmental record, including an application for permit renewal; or

d. Has not met the requirements for permit renewal as set forth in this chapter;

(4) That the holder, since the date of execution of his original permit agreement has been convicted or spent time in jail or prison for a conviction of any of the offenses listed in section 33-010 of this chapter;

(5) That public convenience and necessity do not require the continued operation of the ground transportation service;

(6) That a material change to the terms and conditions of the current permit agreement is requested or required;

(7) That good cause exists to deny renewal; or

(b) If the director decides to deny the application for renewal of an operating permit, the director shall notify the holder of such decision, giving specific reasons for the basis of the denial, in accordance with section 33-072 of this chapter. Upon the holder receiving notice of the director's decision, the holder may appeal such decision in accordance with section 33-033 of this chapter.

(c) If the operating permit expires at no fault of the holder before a ruling either on the approval or denial of the renewal, then the holder may continue to operate the ground transportation service pending a final decision. (Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Secs. 33-026, 33-027. Reserved.

Sec. 33-028. Operation contingent upon payment of fees.

Notwithstanding any other provisions of this chapter or any operating authority granted hereunder, the number of vehicles for hire which a holder shall be authorized to operate shall not exceed the number of vehicles for hire for which such holder shall have paid all charges as required by this chapter.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-029. Drug free workplace.

(a) Upon application for or request for renewal of an operating permit, each holder or applicant shall deliver to the director a statement certifying that the holder or applicant has established for its employees and drivers a drug free workplace policy. If this statement is not delivered to the director, the director or his designated agent may deny the application or renewal and may deny approval of the driver for whom the holder failed to deliver the statement.

(b) Each holder shall enforce the drug free workplace policy it has established and provide proof that drivers are being tested to the director within ten (10) days of:

(1) Receipt of a written request for such proof from the director whenever the director has good cause to believe that production of such proof is in the best interest of the public; or

(2) The first date on which any new driver operates a vehicle under the holder's operating permit.

(c) The purpose of this provision is to protect public safety by deterring the unsafe use of drugs and alcohol by drivers of vehicles for hire, by requiring each permit holder to establish certain standards for drug testing of employees and drivers, known as a drug free workplace. Uniform standards and requirements regarding testing of employees, licenses and job applicants must be put into place to protect the rights of individuals. The minimum standards set forth in this provision helps ensure public safety is promoted without unduly infringing on the privacy and dignity of employees and drivers.

At a minimum, the holder must adopt in writing a detailed policy setting forth the specifics of such a program which includes the utilization of the test for alcohol and other substances listed under subsection (e) of this section, and that includes at least the following information:

(1) A statement of the holder's policy regarding drug and alcohol use by employees and drivers. The policy shall include a zero-tolerance statement for which termination or cancelation of a drivers contract will result if a positive test result is obtained following an accident involving a permitted vehicle. Declining a test shall be considered the same as a positive test result.

(2) The job classifications for which employees, drivers and job applicants are subject to testing;

(3) The circumstances under which testing may be required;

(4) The substances as to which testing may be required;

(5) The testing methods and collection procedures to be used;

(6) The consequences of a refusal to participate in the testing;

(7) The adverse action that may be taken based on the testing procedure or results;

(8) The right of an individual to explain in confidence positive test results;

(9) The right of the individual to obtain all information related to the testing of that individual;

(10) Confidentiality requirements for the testing;

(11) The available appeal procedures, remedies and sanctions; and

(12) The substance abuse programs for education and treatment available to the individual.

(d) The holder shall post notice of the policy in prominent employee and driver access areas and give a written copy of the policy to each driver, applicant and affected employee. Notice shall be posted and the policy distributed any time the policy is changed.

(e) At a minimum, a holder shall insure that the testing complies with either the Texas Department of Transportation 5-panel urine drug test standards or tests for the following substances:

Amphetamines;

Cannabinoids;

Cocaine;

Phencyclidine;

Methaqualone;

Opiates;

Barbiturates;

Benzodiazepines;

Synthetic Narcotics; and

Methadone.

All laboratory security, chain of custody, transporting and receiving of specimens, specimen processing, retesting, storage of specimens, instrument calibration and reporting of results shall be in accordance with the National Institute on Drug Abuse standards.

(f) At a minimum, every holder shall insure that the following types of testing are included:

(1) Post-accident testing: all drivers shall be tested immediately after any automobile accident resulting in outside medical attention being required for any party involved, a fatality, or property or vehicle damage, or if the driver received a citation. The driver shall be tested for alcohol during this test.

(2) Testing for cause: if reasonable suspicion exists to believe the employee or driver is under the influence of drugs or alcohol and could adversely affect performance of duties and responsibilities.

(3) Applicant testing: any person applying to drive under the holder's operating permit to shall submit to testing no more than seven (7) days prior to the day on which said driver first operates a vehicle in connection with the holder's operating permit. Pedicab and group cycle drivers shall be exempt from applicant drug testing.

(4) Random testing. Because there is a likelihood that a driver may harm the public if impaired by alcohol or drug use, all drivers shall be subject to random testing. Other employees or drivers may be subject to random testing if injury to the public may occur if the employee or driver is impaired by drug or alcohol use.

(5) Testing after prior use. Employees or drivers who have received a confirmed positive test result within the past year may be required to submit to testing at reasonable intervals for a period of one (1) year after the test.

(6) Drivers that do not comply with or refuse a test shall constitute a positive test results.

(7) The director may request for a test for any of the above reasons at the permit holders expense. All results for all testing shall be sent the director within twenty-four (24) hours of testing. If a driver has a positive test, the results should also include documentation of actions taken by the company.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Sec. 33-030. Persons with disabilities.

(a) Every holder and driver shall comply with all applicable requirements of the Americans with Disabilities Act of 1990.

(b) A holder or driver.

(1) Shall not discriminate against persons with disabilities in providing ground transportation services;

(2) Shall not discriminate against persons with disabilities by actions including, but not limited to, refusing to provide ground

transportation service to persons with disabilities who are capable of using that service, refusing to assist with the stowing of mobility devices, and charging higher fares or fees for carrying persons with disabilities and their equipment than are charged to other persons;

(3) Shall not require persons with disabilities to use designated priority seats, if the person does not choose to use these seats;

(4) Shall not impose additional or special charges, fares or fees, not authorized by this chapter, on provisions or services necessary to accommodate persons with disabilities, including persons who use wheelchairs;

(5) Shall not require that persons with disabilities be accompanied by an attendant;

(6) Shall not refuse to serve persons with disabilities or require anything contrary to this chapter because an insurance company conditions coverage or rates on the absence of persons with disabilities or requirements contrary to this chapter;

(7) Shall permit service animals to accompany persons with disabilities in vehicles;

(8) Shall not prohibit persons with disabilities from traveling with a respirator or portable oxygen supply, consistent with department of transportation rules on transportation of hazardous materials; and

(9) Shall ensure that adequate time is provided to allow persons with disabilities to complete boarding and disembarking from the vehicle.

(c) A holder, driver and dispatch service shall make available to persons with disabilities adequate information concerning ground transportation services. This obligation includes making adequate communications capacity available, through accessible formats and technology, to enable persons with disabilities to obtain information and schedule service.

(d) Ground transportation services, and their holders, drivers and dispatch services providing on-demand vehicles for hire, including taxicabs and transportation network companies:

(1) Are not required to purchase, lease or make available wheelchair accessible vehicles;

(2) Upon request, shall ensure that a person with a disability who requests a wheelchair accessible vehicle receives such a vehicle, if that ground transportation service has such vehicles available:

a. The ground transportation service may require up to forty-eight (48) hours advance notice to provide this service;

b. If the person with a disability does not provide the advance notice, the ground transportation service shall nevertheless provide the service if it can do so by making a reasonable effort; and

c. If the ground transportation service does not have wheelchair accessible vehicles, then the ground transportation service is required to provide contact information to ground transportation services that have such vehicles;

(e) It is not discrimination under this chapter for an entity to refuse to provide service to a person with disabilities because that person engages in violent, seriously disruptive, or illegal conduct. However, a ground transportation service shall not refuse to provide service to a person with disabilities solely because the person's disability results in appearance or involuntary behavior that may offend, annoy or inconvenience another person.

(f) Training requirements.

(1) Holders shall ensure that drivers are trained to proficiency, as appropriate to their duties, so that they operate vehicles and equipment safely, and properly assist and treat persons with disabilities who use the ground transportation service in

a respectful and courteous way, with appropriate attention to the difference among persons with disabilities.

(2) Dispatch services shall ensure that all personnel are trained on the types of vehicles that are available, on ground transportation services in San Antonio that provide the service being requested, and how to provide service in a respectful and courteous way to a person with disabilities.

(g) Enforcement. A holder, driver or dispatch service who violates a provision of this chapter, or who fails to perform an act required by this chapter shall be subject to suspension or revocation of the holder, driver, vehicle and dispatch service permit, under the procedures established in sections 33-034(b), 33-035(c), 33-042(b)(3) and 33-033.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Secs. 33-031, 33-032. Reserved.

DIVISION 3. REVOCATION/SUSPENSION OF PERMITS

Sec. 33-033. Right to appeal director's decisions; hearing officer established; procedure for appeals established; actions.

(a) A holder or driver may appeal to a hearing officer a decision by the director to revoke, suspend, or deny an operating permit, vehicle permit, or driver permit. The city manager shall appoint a hearing officer for such appeals. Such hearing officer is hereby authorized to affirm, modify, or reverse the director's decisions which shall not become final unless affirmed by the hearing officer.

(b) Upon the holder or driver receiving notice of the director's decision, said holder or driver shall have ten (10) business days from the date of receipt thereof during which to appeal such decision to the hearing officer. The appeal shall be in writing, accompanied by an appeal fee of one hundred dollars ($100.00), and directed to the director. If no appeal is made to the hearing officer within ten (10) business days after receipt of the director's decision, the director's decision shall become final.

(c) Upon revocation, suspension, or denial of a vehicle permit or driver permit by the director, the holder or driver shall immediately cease operation of such service or vehicle, whether or not an appeal is filed. This section shall not apply in the case of a vehicle which may be operated for ten (10) days following the director's action under subsection 33-070(d) of this chapter.

(d) Upon revocation, suspension or denial of an operating permit by the director, the holder shall cease operations, except that a holder who appeals the suspension or revocation of an operating permit and is in compliance with the bond and insurance requirements of this chapter may continue to operate the service until the final decision on the appeal. Operating permit suspensions and denials shall be appealed to a hearing officer. Operating permit revocations shall be appealed to city council.

(e) Upon the scheduling of the hearing officer's review of the director's decision, the holder or driver shall be given an opportunity to appear before said officer and present to him any information, including witnesses, which may be of assistance in arriving at a decision on the matter.

(f) Upon action being taken by the hearing officer, the director shall promptly and without delay act in accordance therewith and pursuant to the directions thereof.

(g) If any such permits expire at no fault of the holder or driver before a ruling on the revocation or suspension of such permits, the holder or driver may continue to operate the ground transportation service or the vehicle pending a final decision on the matter. The holder or driver, however, shall immediately cease operation of such service or vehicle upon revocation or suspension of any such permits by the hearing officer. A suspension of any such permits shall not affect the expiration date.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-034. Revocation and suspension of operating permit.

(a) The director may revoke an operating permit, or suspend such operating permit for a period not to exceed sixty (60) days, where the director has determined it is in the best interest of the public or where the holder:

(1) Since the date of issuance of his operating permit, has been convicted or placed on community supervision, including but not limited to probation and deferred adjudication, for violations of any city, state, or federal law where said violation relates directly to the duties and responsibilities of the holder including but not limited to the violations listed in section 33-010 of this chapter;

(2) Since the date of issuance of the operating permit, has been indicted for criminal homicide, including murder and manslaughter but excluding criminal negligent homicide, or for any of the offenses listed in section 33-010 of this chapter;

(3) Has under his employment or contract a driver whose drivers permit has been suspended or revoked under the provisions of this chapter, or where a holder has failed to take reasonable action against one of the holder's drivers;

(4) Has failed to comply with a correction order issued to him by the director within the time specified in the order;

(5) Has failed to comply with this chapter or any rules, regulations, orders or directives;

(6) Has substantially breached the terms of the permit agreement;

(7) Has failed to pay a permit fee at the time it was due;

(8) Has failed to pay a monetary penalty at the time it was due;

(9) Has failed to comply with the license/permit bond requirements of this chapter;

(10) Has failed to comply with the insurance requirements of this chapter;

(11) Has transferred an operating permit without the city's approval;

(12) Has allowed the operation of a ground transportation service without the city's approval;

(13) Has failed to place in operation pursuant to the provisions of this chapter the number of vehicles authorized in the permit agreement within one hundred eighty (180) days of the date of the issuance of the operating permit;

(b) The decision of whether to suspend or revoke an operating permit, while vested in the director, shall be based on the following considerations:

(1) The relationship of the violation to a holder's ability, capacity or fitness to provide a safe and reliable service;

(2) The relationship of the violation to the city's interest in protecting the public safety and welfare;

(3) A holder's willingness or ability to promptly come into compliance with any provision that is the basis for the suspension or revocation of the operating permit; and

(4) The number or frequency of similar violations attributed to the holder or the holder's company.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2022-11-03-0845, § 1(Att. C), 11-3-22)

Sec. 33-035. Revocation and suspension of vehicle permit.

(a) The director shall revoke or suspend a vehicle operating permit for a period not to exceed sixty (60) days, when the director has determined:

(1) That the holder has failed to make a vehicle for hire available for inspection when so ordered by the city in accordance with section 33-062 of this chapter;

(2) That the vehicle for hire poses a serious threat to the safety of the public;

(3) That the holder has failed to comply with a correction order issued in connection with a vehicle for hire within the time specified in such order;

(4) That a vehicle for hire is operated by a driver not authorized by the director to operate such vehicle; or

(5) That a vehicle with a rated seated capacity of more than fifteen (15) passengers does not have a valid registration with the state department of motor vehicles as a commercial vehicle.

(b) Upon revocation of a vehicle permit by the director, the director shall amend the permit agreement of the holder to reduce the number of vehicles authorized by the number of vehicles for which vehicle permits were revoked.

(c) The decision of whether to suspend or revoke a vehicle operating permit, while vested in the director, shall be based on the following consideration:

(1) The relationship of the violation to a holder's ability, capacity, or fitness to provide a safe and reliable service;

(2) The relationship of the violation to the city's interest in protecting the public safety and welfare;

(3) A holder's willingness or ability to promptly come into compliance with any provision that is the basis for the suspension or revocation of the operating permit; and

(4) The number or frequency of similar violations attributed to the holder or his company.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-12-08-0968, § 1(Att. B), 12-8-16)

Sec. 33-036. Operating permit re-application.

Upon revocation of an operating permit, a holder shall not be eligible for re-application for a period of forty-eight (48) months from the date of revocation.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-037. Penalties.

(a) A person commits an offense if he knowingly operates, allows to be operated, or causes to be operated, a ground transportation service as defined in section 33-003 of this chapter, or any other service providing vehicles for hire, or if he transports a passenger for hire from within the city after the operating permit of such person has been revoked by the director.

(b) A person commits an offense if he knowingly represents a vehicle as a vehicle for hire or uses or offers the use of such vehicle in a ground transportation service after the vehicle permit for such vehicle has been revoked by the director.

(c) Violations under subsections (a) and (b) of this section are punishable by a fine of not more than five hundred dollars ($500.00). Each day on which a violation occurs is a separate offense. Prosecution for an offense under this section shall not prevent the use of any other enforcement remedies available under this chapter.

(d) It is a defense to a violation under this section that the permit has been reinstated by the director or that the ten-day period provided for in section 33-033 of this chapter has not expired.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-038. Reserved.

DIVISION 4. DRIVERS PERMIT

Sec. 33-039. Drivers permit.

In accordance with the terms and provisions of this chapter, every person before driving a vehicle for hire within the city, shall obtain a drivers permit. A drivers permit shall be valid for forty-eight (48) months from the date of issuance.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Sec. 33-040. Drivers permit authorized companies.

(a) A holder may not employ, contract with, or otherwise allow a person to drive a vehicle for hire owned or operated by the holder unless such

person has a valid drivers permit and has an authorized company listed on the drivers permit.

(b) A driver shall not driver for or contract with a company that is not listed as an authorized company on his or her drivers permit.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-041. Investigation of applicant; records to be considered; qualifications; issuance and denial.

(a) A holder may not allow a person who does not have a current and valid drivers permit to operate a vehicle for hire. If a holder wants to hire a person without a drivers permit, or provide for the renewal of a drivers permit, the holder is responsible for assisting such person in obtaining a drivers permit. The holder shall conduct an investigation at no expense to the city concerning the character, experience and qualifications of the applicant to determine whether or not that applicant is fit, willing, and able to operate a vehicle for hire in a manner consistent with the general welfare of the public and in accordance with the requirements of this chapter, rules and regulation established by the director, and all other applicable laws, rules and regulation.

(b) The holder shall confirm, obtain, and maintain evidence for submission to the city upon request pursuant to section 33-055, that the applicant meets all the requirements in this section. The holder shall attest through an enrollee/transfer slip, on a form provided by the city, that the applicant is in compliance with the following:

(1) Is eighteen (18) years of age or older;

(2) Is a citizen of the United States of America by birth or naturalization, or if an alien, submit evidence of legal residence in the United States and legal right to engage in employment herein;

(3) Possesses a valid Texas drivers license required for the class of vehicle to be operated by the applicant as required by V.T.C.A. Transportation Code §§ 521.081 and 521.082, or posses an active Department of Defense ID card and a current and valid drivers license from another state.

(4) Is able to read and speak the English language;

(5) Has been added to or remains on the permit holders insurance policy;

(6) Has completed a drivers training program that has been approved under section 33-007 of this chapter;

(7) Has a negative drug test as required under section 33-029 of this chapter:

(8) Has successfully completed any other training outlined in the rules and regulations established by the director; and

(9) Has provided a copy of the applicant's DD-214, if the applicant has prior military service;

(c) An applicant at the time of application and at the applicant's expense shall:

(1) Provide the director with the applicant's residence, street, address, and a valid phone number; an applicant shall notify the director of any changed thereto within five (5) business days of the change;

(2) Execute an authorization in writing for the release by the city to an organization or entity of any and all information which the city may have concerning the applicant, including, but not limited to, criminal history information, and a release of the city for all liability which may result from the furnishing of such to an organization;

(3) Execute an authorization in writing for the release to the city by any organization or entity of any and all information, without limitation, which the organization or entity may have concerning the applicant, and a release of the organization or entity and the city from all liability which may result from the furnishing of such by the organization or entity;

(4) Pay any fees required by this chapter.

(d) An applicant may be issued a drivers permit where the applicant:

(1) Has complied with subsections 33-041(a), (b), and (c); and

(2) Has paid for and complied with the requirements for a fingerprint criminal history background check, approved by the director.

(e) An application for a drivers permit shall be denied where the applicant:

(1) Is under indictment for or has been convicted of criminal homicide including murder, capital murder and manslaughter, but excluding criminally negligent homicide;

(2) Has been convicted or has been placed on community supervision, including but not limited to probation and deferred adjudication, of four (4) or more moving violations of the traffic laws of this or any other city or state within the 12-month period immediately preceding the date of application;

(3) Has falsified or materially altered or omitted pertinent information in any governmental record, including an application for a drivers permit; or

(4) Has not met the requirement for obtaining a drivers permit as set forth in this division.

(f) An application for a drivers permit may also be denied where the applicant is under indictment, is currently on community supervision, including but not limited to probation and deferred adjudication, or has been convicted of any of the offenses listed in section 33-010 of this chapter.

(g) If the director disapproves an application for a drivers permit, then the director shall notify the applicant, in accordance with section 33-072 of this chapter, of the decision and of the basis for the decision.

(h) Upon the applicant receiving notice of the decision of the director, the applicant may appeal such decision as provided by and in accordance with section 33-033 of this chapter.

(i) In the case where an applicant has a background of past criminal activity, drivers permit denial based solely thereon is warranted if and only if the past criminal activity is directly related to the duties and responsibilities of a driver as more fully described in this chapter. Accordingly, the factors set forth in section 33-010 of this chapter shall be considered in making a determination of job-relatedness. In this regard, however, it shall be the applicant's responsibility to secure and provide proof that applicant has otherwise maintained a record of steady employment and good conduct, that applicant has supported applicant's dependents, and that applicant has paid all outstanding court costs, supervision fees, fines and restitution as may have been ordered in any criminal cases.

(j) Should the hearing officer affirm the decision of the director to deny the application for a drivers permit, an applicant shall not be eligible for re-application for a period twelve (12) months from the date of the denial, or in the case of an appeal, from the date the appeal is affirmed.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Sec. 33-042. Revocation and suspension of drivers permit.

(a) A drivers permit may be revoked for any of the following:

(1) Suspension or revocation of the state drivers license;

(2) Two (2) or more suspensions pursuant to the provisions of this chapter within any 12-month period;

(3) Three (3) or more convictions or adjudications of the same provision of this chapter or rules and regulations established by the director, within any 12-month period;

(4) Four (4) or more convictions or placements on community supervision, including but not limited to probation and deferred adjudication, of any moving viola-

tion of the traffic laws of this or any other city or state within any 12-month period;

(5) Has been convicted or placed on community supervision, including but not limited to probation and deferred adjudication, for any felony since the date of issuance of the drivers permit;

(6) Revocation of felony community supervision, probation, parole or other supervision since the date of issuance of the drivers permit;

(7) Falsification or material alteration or omission of pertinent information in any governmental record, including an application for a driver permit or for renewal thereof;

(8) Failure to pay a monetary penalty required to be paid for a violation of this chapter within thirty (30) days of the date said penalty becomes due;

(9) A positive drug test as outlined in section 33-029 of this chapter, on or off duty, or a positive drug or alcohol test while on duty; or

(10) Failure to keep and maintain current documentation as outlined in this chapter.

(b) A drivers permit may be revoked or suspended for a period not to exceed sixty (60) days, when the director has determined it is in the best interest of the public to do so, or where the driver:

(1) Since the date of issuance of the drivers permit, has been convicted or has been placed on community supervision, including but not limited to probation and deferred adjudication, for violation of any city, state or federal law where said violation relates directly to the duties and responsibilities of the driver including, but not limited to, the violations listed in section 33-010 of this chapter;

(2) Since the date of issuance of the drivers permit has been indicted for homicide, including murder, capital murder and manslaughter, but excluding criminally negligent homicide, or for any of the offenses listed in section 33-010 of this chapter; or

(3) Has failed to comply with this chapter.

(c) A suspension of a drivers permit does not affect the expiration date of that drivers permit.

(d) If the director determines that good cause exists pursuant to this chapter, to revoke or suspend a drivers permit, then the director shall notify the driver of his decision, in accordance with section 33-072 of this chapter.

(e) Upon receiving notice of the decision of the director, the driver may appeal such decision as provided by and in accordance with section 33-033 of this chapter.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-043. Reinstatement of drivers permit.

Upon revocation of a drivers permit, a driver shall not be eligible to re-apply for a period of twelve (12) months from the date of revocation, or in the case of an appeal, from the date the appeal is affirmed.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-044. Display of permit.

A driver shall at all times keep his/her drivers permit in the driver's possession and shall allow the director, a peace officer, and any other person authorized to enforce the provisions of this chapter, to examine said permit upon request.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-045. License file to be kept.

A drivers permit file shall be kept and maintained, in a location determined by the director, of all persons to whom such permit have been issued.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2015-03-05-0152, § 1(Att. A), 3-5-15; Ord. No. 2022-11-03-0845, § 1(Att. C), 11-3-22)

Sec. 33-046. Voidance of drivers permit.

(a) If the license required by the state for the class of vehicle operated by a driver is suspended or revoked, then the drivers permit issued under this chapter automatically becomes void.

(b) A driver shall, within three (3) days of any expiration, suspension or revocation of the driver's state license, so notify the director and the holder for whom he/she drives and surrender his drivers permit to the director.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Editor's note—Ord. No. 2016-03-03-0164, § 1(Att. A), adopted March 3, 2016, repealed section 33-046 in its entirety and renumbered section 33-047 as section 33-046. Former section 33-046 pertained to drivers permit renewal and derived from Ord. No. 2014-12-11-1002, § 1(Att. A), adopted Dec. 11, 2014.

Sec. 33-047. Driver lists to be furnished and maintained.

Within ten (10) calendar days of the director's request, a permit holder shall furnish a current list of permitted drivers and the drivers' current phone number(s).
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Editor's note—Ord. No. 2016-03-03-0164, § 1(Att. A), adopted March 3, 2016, renumbered section 33-048 as section 33-047.

Sec. 33-048. Reserved.

Sec. 33-049. Transfer of drivers permit.

A driver may transfer from one (1) permitted company to another; however, a driver shall not drive for a new company prior to the listing of this new company on the drivers permit.

(a) A driver shall not be eligible to transfer between companies until the driver has:

(1) Provided an enrollee/transfer slip, on a form approved by the director, that has been signed by the authorized representative of the hiring/contracting company(s), that attests to the drivers qualifications under section 33-041; and

(2) Paid all fees required by this chapter.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-09-15-0697, § 2(Att. B), 9-15-16)

DIVISION 5. HOLDER AND DRIVER REGULATIONS

Sec. 33-050. Effect of amendments.

In the event that the city determines that it is in the best interests of the public to do so, and the city amends this chapter; any permit agreement, drivers permit, and vehicle permit granted pursuant to this chapter will become subject to the amended chapter upon the effective date of the amendment.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-051. Holder's duty to comply.

(a) In the operation of a ground transportation service, a holder shall comply with the terms and conditions of the holder's permit agreement and shall comply with all aspects of chapter 33, and the rules and regulations. Except to the extent expressly provided otherwise by the permit agreement, the holder shall comply with this chapter, the director's interpretations of the provisions herein, rules and regulations established by the director, and other laws applicable to the operation of a vehicle for hire.

(b) Upon written notice by the director of a violation by a driver or employee, a holder who allows such driver or employee to drive a vehicle for hire while in violation becomes responsible and liable to the city for all fees, penalties, and license revocations incurred by the driver or employee because of a failure to comply with this chapter, rules and regulations established by the director, and other laws applicable to the operation of a vehicle for hire.

(c) A holder shall establish a policy and take action to discourage, prevent and correct violations of this chapter by drivers who are employed or contracted by the holder.

(d) A holder shall not permit a driver who is employed or contracted by the holder to operate any vehicle for hire if the holder knows or has

reasonable cause to suspect that the driver has failed to comply with this chapter, the rules and regulations established by the director, or other applicable law.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Sec. 33-052. Holder's duty to enforce compliance by drivers.

(a) A holder shall establish a policy and take action to discourage, prevent and correct violations of this chapter by drivers who are employed by the holder.

(b) A holder shall not permit a driver to operate a vehicle for hire if the holder knows or has reasonable cause to suspect that the driver has failed to comply with this chapter, the rules and regulations established by the director, or other applicable law.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-053. Notification of change of address or ownership.

A holder commits a violation if the holder:

(a) Fails to notify the director within five (5) business days of a change in the address or telephone number of the holder; or

(b) Changes the form of the business or officers of the corporation of the ground transportation service from that originally submitted, without a request to amend the operating permit that is approved by the director.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-054. Holders responsible for fitness of drivers.

(a) Every holder operating a ground transportation service in the city shall employ or contract as drivers only persons who are physically and mentally fit and who have sufficient experience and training to operate a vehicle in a safe and proper manner. It shall be the sole responsibility of the holder to employ or contract only those drivers who are qualified under this chapter to obtain a drivers permit and who are familiar with those streets and addresses within the city over which they may operate. The employment or contracting of any driver shall be subject to the driver's obtaining a temporary or permanent drivers permit.

(b) Every holder is charged with knowledge of the contents of the drivers file of all drivers whom he employs and with whom he contracts. The director shall consider a holder's continued employment or contracting of any driver whose file shows a lack of mental, emotional or temperamental capacity to be a safe and reliable driver, when reviewing such holder's request for a grant or renewal of an operating permit.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Sec. 33-055. Information and data to be kept, maintained, and made available for inspection.

Each holder may maintain at the business office information and data on his ground transportation service business, drivers and operations, including the following specific requirements:

(a) Accurate records, reports, receipts, driver manifests and other operating information and shall be kept and maintained in the business office for at least four (4) years after the date the information was first recorded, and all such documents shall be made available for examination at all reasonable times by the director;

(b) Every holder shall keep complete records on employees and drivers, bonds, and insurance policies.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16; Ord. No. 2016-12-08-0968, § 1(Att. B), 12-8-16)

Editor's note—Ord. No. 2016-03-03-0164, § 1(Att. A), adopted March 3, 2016, changed the title of section 33-055 from "Information and data to be kept and maintained two (2) years; records to be made available for inspection" to "Information and data to be kept, maintained, and made available for inspection." This historical notation has been preserved for reference purposes.

Sec. 33-056. Appearance of drivers; drivers uniforms.

It shall be the responsibility of every permit holder to require that a driver employed or contracted wear clean and neat attire, as appropriate to the job duties performed, and to display proper identification. Uniforms and dress code should be professional. Those not in uniforms should dress in a way that is conducive to a professional environment. Non-uniformed clothing shall be free of obscenities, rude messages, and political statements.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-12-08-0968, § 1(Att. B), 12-8-16)

Sec. 33-057. Periodic appearance in person by holders and drivers.

Upon request and reasonable notice, holders and drivers shall appear, in person, before the director.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-058. Disposition of property left in vehicles for hire.

A driver shall return to the property owner without delay, any luggage, merchandise or other property left in a vehicle for hire. If the owner is not known, the driver shall immediately deliver to the holder employing or contracting them, any property left in the vehicle with a complete written report as to when it was left in the vehicle and the circumstance relating thereto. The holder shall tag the property so delivered and attach to it a copy of the driver's written report and, if its owner is not or cannot be located, shall turn the property over to the police department no later than thirty (30) days after its discovery in the vehicle.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-12-08-0968, § 1(Att. B), 12-8-16)

Secs. 33-059—33-061. Reserved.

DIVISION 6. VEHICLES AND EQUIPMENT

Sec. 33-062. General safety requirements and inspections.

(a) The city may by ordinance, rule or regulation establish requirements for size, condition and accessories of a vehicle for hire used by a holder.

(b) Holders for limousine, tour, and charter services, and taxicabs, shall have each vehicle inspected prior to operation and yearly thereafter in accordance with established inspection guidelines and standards of the city. Vehicles with a rating capacity of sixteen (16) or more passengers that are registered with the Texas Department of Transportation shall be exempt.

(c) The director shall inspect pedicabs, group cycles, motorbike sidecars, and equine-drawn carriages yearly, in accordance with established inspection guidelines and standards of the city, before such vehicle is placed in service, and upon passage of any such inspection, the director shall affix to the vehicle for hire a vehicle permit. The director may inspect a vehicle for hire at any other time which the director determines to be reasonable and necessary for enforcement of compliance with the provisions of this chapter and all other applicable rules, regulations, and laws.

(d) No person shall operate a vehicle for hire which has attached thereto an expired vehicle permit.

(e) It shall be a violation for a person to forge, alter, deface or counterfeit a vehicle permit; it shall also be a violation for a person to have in his possession any vehicle permit which has been forged, altered, defaced or counterfeited.

(f) A holder shall make a vehicle for hire available for inspection when ordered by the city. If a holder fails to make a vehicle for hire available for inspection when so ordered, said vehicle shall be immediately suspended from service for up to thirty (30) days. After thirty (30) days, if a holder has failed to make a vehicle for hire available for inspection as ordered by the city, the director shall initiate the revocation of the vehicle permit of said vehicle as authorized by section 33-035 under this chapter.

(g) If a holder makes a vehicle for hire available for inspection when so ordered, and if the director determines that said vehicle is in violation of any of the provisions of this chapter or other applicable rules, regulations and laws,

then the director shall issue a correction order or vehicle inspection report to said holder as provided by section 33-070 of this chapter.

(h) The holder shall have ten (10) days from the date of the director's decision to immediately remove a vehicle from service or from the date of receipt of a correction order to request a hearing before the director, in writing and addressed to the director, and to present to the director any additional information, including inspection reports from mechanics retained by the holder, which may aid the director in his determination whether to affirm or reverse the director's initial determination.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16; Ord. No. 2016-12-08-0968, § 1(Att. B), 12-8-16; Ord. No. 2022-11-03-0845, § 1(Att. C), 11-3-22; Ord. No. 2024-12-12-0998, § 1, 12-12-24)

Sec. 33-063. Required equipment.

A holder or driver shall, at all times, provide and maintain in good operating condition the following equipment and requirements for each vehicle for hire:

(a) Except on open-air buses and pedicabs, an air conditioner;

(b) Except on open-air buses and pedicabs, a heater;

(c) An ABC chemical-type fire extinguisher of at least two and one-half (2.5) pounds located in the area of the vehicle specified in the inspection guidelines established by the director;

(d) Evidence of insurance required by this chapter;

(e) A vehicle or temporary permit placed inside the vehicle's windshield as designated by the director or, where the vehicle has no windshield, at the location designated by the director;

(f) Any other equipment required to comply with all applicable federal and state vehicle and motor vehicle safety standards; and

(g) Any other special equipment that the director determines to be necessary for the service to be operated as outlined in the inspection guidelines established by the director.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Secs. 33-064—33-066. Reserved.

Sec. 33-067. Substituted or replaced vehicles for hire.

Any vehicle for hire within the total number of vehicles authorized by the permit agreement and operated by a holder may be substituted or replaced upon completion of the following requirements:

(a) Written notification to the director of the proposed replacement;

(b) Documentation evidencing the make, model, type, seating capacity, ownership, identification number and registration of the replacement vehicle as well as of the vehicle for which replacement is being proposed;

(c) Documentation from the holder's insurance company evidencing a willingness to provide the insurances required by this chapter on the replacement vehicle;

(d) Documentation evidencing timely payment of all city taxes, fees and assessments which have been levied on the replacement vehicle;

(e) Inspection by the city of the replacement vehicle prior to placement of said vehicle into service;

(f) Return to the director of the vehicle permit originally issued to the vehicle for which replacement is being proposed; and

(g) Complete removal of all vehicles for hire identifying markings and equipment from the vehicle for which replacement is being proposed.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Secs. 33-068, 33-069. Reserved.

DIVISION 7. ENFORCEMENT

Sec. 33-070. Correction order.

(a) If the director determines that a holder, or any person providing a service subject to this chapter, violates this chapter or the director's interpretations of the provisions therein, terms of its operating authority, a regulation established by the director, or other law, the director may notify the holder or violator in writing of the violation and by written order direct the holder or violator to correct the violation within a reasonable period of time. In setting the time for correction, the director shall consider the degree of danger to the public health or safety and the nature of the violation. If the violation involves equipment that is unsafe or functioning improperly, the director shall order the holder or violator to immediately cease use of the equipment.

(b) If the director determines that a violation constitutes an imminent or serious threat to the public health or safety, the director shall immediately order the vehicle removed from service and shall immediately remove the vehicle permit affixed to said vehicle. The director shall notify the holder of such action in accordance with the provisions of section 33-072 of this chapter. No person shall operate a vehicle which has been ordered removed from service by the director until the violation which caused the removal has been corrected in accordance with the director's instructions.

(c) The director shall include in a notice issued under this section an identification of the violation, the date of issuance of the notice and the time period within which the violation must be corrected. Failure to complete all corrections within thirty (30) days will result in immediate removal of the vehicle from service and suspension of the operating permit until the corrections are completed. Correction notices that are not corrected within ninety (90) calendar days shall have the vehicle permit revoked.

(d) Except when ordered to immediately remove a vehicle from service under subsections (a) and (b) of this section, the holder or violator shall have ten (10) days from the date of the director's decision to remove a vehicle from service. A holder or violator has ten (10) days from the date of receipt of a correction order to request a hearing before the director, in writing and addressed to the director, and to present to the director any additional information, including inspection reports from mechanics retained by the holder, which may aid the director in his determination whether to affirm or reverse the director's initial determination.

(e) If the director determines that a holder, or any person providing a vehicle for hire subject to this chapter, may be violating this chapter or the director's interpretations of the provisions therein, terms of a holder's operating authority, operations requiring a permit or license, a regulation established by the director, or other law, the director may request that person deliver copies of records, including electronic files and transmissions, sufficient to show each communication relating to a vehicle for hire, the date and time of such request, the date and time that such service was provided, and all charges related to such service. The failure to deliver copies of such records within fifteen (15) days after the director's request shall constitute a rebuttable presumption of probable cause under section 33-074 of this chapter, which authorizes the police department to impound vehicles operating without the required vehicle permits.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-071. Permanent removal of vehicles and equipment.

The director may permanently remove a vehicle or any other equipment from service if in the opinion of the director the vehicle or equipment cannot be corrected to the extent necessary to meet the safety, service, and quality standards established for vehicles for hire.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-072. Service of notice.

(a) A holder shall designate and maintain a representative to receive service of notice required under this chapter to be given a holder and a driver employed by a holder.

[This page intentionally left blank.]

(b) Notice required under this chapter.

(1) A holder or the holder's designated representative must be personally served or served by certified mail, return receipt requested, directed to the address last known to the director, of the holder to be notified, or to the holder's designated representative;

(2) A driver must be personally served or served by certified mail, return receipt requested, directed to the address last known to the director, of the driver to be notified, or to the designated representative for the driver.

(c) Service executed in accordance with this section constitutes notice to the person to whom the notice is addressed. In the case of certified mail, notice occurs on the date indicated as the delivery date on the return receipt or on the fifth day after the date of postmark, whichever is sooner.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-073. Enforcement by police department.

(a) It shall be the duty of the police department or of such other city employees as may be designated by the city manager, to enforce the provisions of this chapter.

(b) All violations of the provisions of this chapter and of the rules and regulations established by the director, are hereby declared to be civil offenses subject to administrative adjudication. This subsection does not apply to a violation of subsections 33-006(a) and (b) or to section 33-926 of this chapter, which are hereby declared to be criminal offenses.

(c) The total fines, costs, and fees per violation shall not be less than ten dollars ($10.00) and shall not exceed five hundred dollars ($500.00). However, for the first violation of sections 33-725 or 33-726 of this chapter, the total fines, costs, and fees shall not be less than two hundred dollars ($200.00); for the second violation of said sections, the total fines, costs, and fees shall not be less than three hundred fifty dollars ($350.00); for the third violation of said sections, the total fines, costs, and fees shall not be less than five hundred dollars ($500.00) and shall preclude the convicted person from obtaining a historic district destination point permit, as referred to in section 33-725 under this chapter, for a period of one (1) year from the date of conviction. Fines assessed shall be based on the relationship of the violation to the public safety, the number of violations committed by the person or company summoned, and any other considerations that may be relevant to the adjudication of the matter.

(d) Violators shall be issued a summons. The summons must provide information as to the time and place of an administrative adjudication hearing. The city attorney's office may participate at such hearings.

(e) Hearing officers shall be appointed by the city manager. Said officers may question witnesses and review documents presented by the parties before issuing an order. The order shall be in writing and shall state whether the person charged is liable for the violation, and the amount of any fines assessed against the person or company charged. The fines shall be assessed in accordance with subsection (c) of this section. The order shall be filed with the municipal court clerk with a copy provided to the director. The failure of any person charged with a violation to appear at the hearing shall be an admission of liability for the charged violation.

(f) Fines, costs, or fees assessed by the hearing officer may be levied against the license/permit bond of the holder, if the person summoned or the holder for whom such person works, fails to pay such fines, costs, or fees within thirty (30) days after the order is filed.

(g) The municipal court clerk shall establish a written body of administrative procedures for these cases.

(h) A person determined by the hearing officer to be in violation may appeal the decision to municipal court by filing an appeal petition with the San Antonio Municipal Court Clerk not later than thirty (30) days after the order is filed and by paying a twenty-five dollars ($25.00) appeal

filing fee. The appeal hearing must be scheduled to occur within ten (10) days of the filing of the appeal petition. The appeal hearing before a municipal court judge shall be an administrative review for the purpose of confirming or overruling the order issued by the administrative hearing officer, based upon the evidence presented to the administrative hearing officer. The record of witness testimony may be preserved for appellate review by the use of an audio tape recording or a video tape recording.

(i) Neither a notice of intent to appeal nor the filing of an appeal petition shall stay the enforcement and collection of the judgment order unless the service of the notice of appeal is preceded by the posting of a cash bond in the same amount of the adjudged penalty. However, the bond may not in any case be for a sum less than fifty dollars ($50.00).
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-074. Impoundment of vehicles.

(a) The police department shall seize and impound any vehicle when probable cause exists to believe that such vehicle is being operated for ground transportation service without the required vehicle permit, in violation of this chapter. A vehicle seized in accordance with this subsection shall be removed to a designated secured facility. Probable cause shall mean the existence of a reasonable ground to believe that facts exist to justify the impoundment of the vehicle.

(b) If a vehicle has been moved and placed in a secured facility without the consent of the owner, the owner is entitled to a hearing to determine whether or not probable cause existed for the removal and placement of the vehicle. A hearing under this subsection shall be before a municipal court judge.

(c) A person entitled to a hearing hereunder shall deliver a written request for the hearing to the San Antonio Municipal Court Clerk before the sixth day after the date the vehicle was place in a secured facility. In computing time under this subsection Saturdays, Sundays, and legal holidays are excluded. A person who fails to deliver the request within the specified time period waives the right to the hearing.

(d) A written request under this section must contain the following information:

(1) The name, address, and telephone number of the owner of the vehicle;

(2) The date and the location from which the vehicle was removed;

(3) The name, address, and telephone number of the police official who authorized the removal; and

(4) The name, address, and telephone number of the secured facility where the vehicle was placed.

(e) A hearing under this section shall be held before the fourth working day after the date the request for the hearing was received by the municipal court clerk. The court shall notify the vehicle's owner and the police official who authorized the removal of the vehicle of the date, time and place of the hearing. The sole issue in a hearing under this section is whether probable cause existed for the removal and placement of the vehicle. The court shall make written findings of fact and conclusions of law regarding the issues in the hearing.

(f) If the court determines that probable cause existed for the removal and placement of the vehicle, the owner of the vehicle shall pay the costs of removing and storing the vehicle. If the court determines that probable cause did not exist for the removal and placement of the vehicle, the city shall pay the costs of removing and storing the vehicle. If the vehicle's owner paid removal or storage costs before the hearing, the city shall fully reimburse the owner.

(g) The court may charge a filing fee of ten dollars ($10.00) for a hearing under this section and may award court costs to the prevailing party.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-075. General penalties.

Any violation of this chapter for which a penalty is not specifically stated is punishable by a fine of no more than five hundred dollars ($500.00). A separate offense is committed each day during which an offense occurs.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

DIVISION 8. AIRPORT OPERATIONS

Sec. 33-076. Scope of instant article.

Drivers and holders operating on airport premises are subject to the provisions of division 8, in addition to all the other requirements of this chapter.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-077. Airport rules and regulations.

(a) Chapter 3, article II of this Code of San Antonio, San Antonio International Airport and Stinson Municipal Airport Rules and Regulations (Airport Rules and Regulations) applies to all holders, drivers, independent contractors and their agents working on airport property.

(b) All ground transportation vehicles conducting business on airport premises which do not operate pursuant to a concessions agreement with the city, are subject to the imposition of the per trip fees outlined in the airport rules and regulations.

(c) Payment of the per trip fees is required in the manner prescribed by the aviation director. Failure to pay prescribed fees will result in revocation of the airport permit.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-078. Permit requirements.

(a) Any holder or driver desiring to operate a ground transportation vehicle on airport premises for passenger pick-up on airport property must apply for and obtain an airport permit from the aviation department prior to operating such vehicle on airport premises. Any ground transportation vehicle operating at the airport which is not operating pursuant to a concession agreement must purchase and display an airport permit. All city permitted vehicles for hire may drop-off on airport property without obtaining and airport permit.

(b) Holders, drivers and vehicles must meet all requirements of this chapter as applicable to their operations type in order to qualify to obtain an airport permit.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Secs. 33-079—33-209. Reserved.

ARTICLE II. MOTORBIKE SIDECAR SERVICE

DIVISION 1. IN GENERAL

Sec. 33-210. Scope of instant article.

Holders of permits to operate motorbike sidecar service and drivers of motorbike sidecars shall be governed by the provisions of articles I and II of this chapter.
(Ord. No. 2022-11-03-0845, § 1(Att. B), 11-3-22)

Sec. 33-211. Fees.

The following fees are hereby established:

(1)	Inspection	$28.00
(2)	Re-inspection	$28.00
(3)	Inspection no show	$28.00
(4)	Drivers permit (two (2) year permit)	$15.00
(5)	Replacement of lost drivers permit	$15.00
(6)	Drivers permit transfer	$15.00
(7)	Operating permit transfers (per vehicle)	$25.00
(8)	Operating permit	$110.00* per vehicle
(9)	Late permit payment	$30.00

(10) Permit application, per permit requested on the application	$150.00

All fees are due upon request of service and non-refundable.

* Operating permit fees shall be paid to the city for each vehicle authorized by the permit agreement. The operating permit fees shall be paid in one payment or four quarterly payments, due on the first business day of the following months: January, April, July and October.

Late permit payments shall be charged for all permit payments that are received after the close of business on the fifth business day of the month payment is due. Permits that do not have fees paid prior to thirty (30) calendar days from the due date shall be suspended until all fees are paid. If the fees are not paid prior to sixty (60) calendar days from the due date all permits shall be revoked.
(Ord. No. 2022-11-03-0845, § 1(Att. B), 11-3-22)

Sec. 33-212. Amount of insurance.

Except as otherwise provided by the holder's operating permit, the public liability and property damage insurance required by this article shall be the minimum of one million dollars ($1,000,000.00) per occurrence for each vehicle, to include the state minimum amount of commercial insurance for vehicle. These minimums shall be required to cover the following categories:

(1) For damages arising out of bodily injury to or death of one (1) person in any one (1) accident;

(2) For damages arising out of bodily injury to or death of two (2) or more persons in any one (1) accident; and

(3) For damages arising out of injury to or destruction of property in any one (1) accident.

(Ord. No. 2022-11-03-0845, § 1(Att. B), 11-3-22)

Secs. 33-213—33-219. Reserved.

DIVISION 2. OPERATING AUTHORITY

Sec. 33-220. Number of ground transportation vehicles authorized.

(a) The total number of all vehicle permits issued among all operating permit holders shall be determined by the director, which may be modified by the director as the director determines to be appropriate.

(b) A holder, within ninety (90) days after receipt of an operating permit, shall operate and maintain a city approved fleet of vehicles for hire consisting of the number of vehicles authorized and required by the permit agreement. The number of vehicles authorized by the permit agreement and the number of vehicle permits issued pursuant thereto shall be reduced to reflect the actual number of vehicles the holder is able to operate and maintain in accordance with the provisions of this chapter, the operating permit, the permit agreement, and the rules and regulations of the director.

(c) A holder may not hold more permits than are issued by the director.
(Ord. No. 2022-11-03-0845, § 1(Att. B), 11-3-22)

Secs. 33-221—33-229. Reserved.

DIVISION 3. SERVICE REGULATIONS

Sec. 33-230. Hours of operation.

The director shall establish the hours during which a driver may operate a motorbike sidecar as a rule or regulation in accordance with sections 33-004 and 33-005 of this chapter.
(Ord. No. 2022-11-03-0845, § 1(Att. B), 11-3-22)

Sec. 33-231. Areas of service.

(a) Motorbike sidecars shall only operate on streets that have speed limits of thirty-five (35) MPH or lower.

(b) Motorbike sidecars shall not be operated on sidewalks.

(c) Motorbike sidecars shall operate only on streets and must obey all vehicle traffic laws.

(d) The areas of service may be changed or removed by the director when the director determines it would be in the best interest of the public. This change or removal may be made with or without notice.
(Ord. No. 2022-11-03-0845, § 1(Att. B), 11-3-22)

Sec. 33-232. Passenger restrictions.

No sidecar shall transport more passengers than the motorbike sidecar is rated for.
(Ord. No. 2022-11-03-0845, § 1(Att. B), 11-3-22)

Sec. 33-233. Standing or resting.

(a) No motorbike sidecar shall stand or park on any public roadway, sidewalk, or walkway. The exception is commercial loading zones, curb cutouts, and vehicle parking spaces.

(b) Motorbike sidecars may utilize any unoccupied commercial loading zone to load and unload. All sidecars must give the right of way to commercial vehicles or other authorized motor vehicles to these commercial loading zones.
(Ord. No. 2022-11-03-0845, § 1(Att. B), 11-3-22)

Sec. 33-234. Holder's duty to comply.

(a) In the operation of a motorbike sidecar service, a holder shall comply with the terms and conditions of the holder's permit agreement. Except to the extent expressly provided otherwise by the permit agreement, the holder shall comply with this chapter, the director's interpretations of the provisions herein, rules and regulations established by the director, and other laws applicable to the operation of a vehicle for hire.

(b) Upon written notice by the director of a violation by a driver or employee, a holder who allows such driver or employee to operate a motorbike sidecar while in violation becomes responsible and liable to the city for all fees, penalties and license revocations incurred by the driver or employee because of a failure to comply with this chapter, rules and regulations established by the director, and other laws applicable to the operation of a sidecar.
(Ord. No. 2022-11-03-0845, § 1(Att. B), 11-3-22)

Sec. 33-235. Holder's duty to enforce compliance by drivers.

(a) A holder shall establish a policy and take action to discourage, prevent and correct violations of this chapter by drivers who are employed or contracted by the holder.

(b) A holder shall not permit a driver who is employed or contracted by the holder to operate any sidecar if the holder knows or has reasonable cause to suspect that the driver has failed to comply with this chapter, the rules and regulations established by the director, or other applicable law.
(Ord. No. 2022-11-03-0845, § 1(Att. B), 11-3-22)

Sec. 33-236. Holders responsible for fitness of drivers.

(a) Each holder operating a service in the city shall employ or contract as drivers only persons who are physically and mentally fit and who have sufficient experience and training to operate a sidecar in a safe and proper manner. It shall be the sole responsibility of the holder to employ or contract only those drivers who are qualified under this chapter to obtain a driver permit. The employment or contracting of any driver shall be subject to the driver obtaining a temporary or permanent driver permit.

(b) Each holder is charged with knowledge of the contents of the file of all drivers the holder employs or contracts. The director shall consider a holder's continued employment or contracting of any driver whose file shows a lack of mental, emotional or temperamental capacity to be a safe and reliable driver, when reviewing such holder's request for a grant or renewal of an operating permit.
(Ord. No. 2022-11-03-0845, § 1(Att. B), 11-3-22)

Sec. 33-237. Periodic appearance in person by holders and drivers.

Upon request and reasonable notice holders and drivers shall appear, in person, before the director and the director's representative.
(Ord. No. 2022-11-03-0845, § 1(Att. B), 11-3-22)

Secs. 33-238, 33-239. Reserved.

DIVISION 4. FARES

Sec. 33-240. Fares.

The use of any type of meter or measuring device to calculate rate of fare is prohibited.
(Ord. No. 2022-11-03-0845, § 1(Att. B), 11-3-22)

Secs. 33-241—33-249. Reserved.

DIVISION 5. VEHICLES AND EQUIPMENT

Sec. 33-250. Inspection requirements.

(a) Motorbike sidecar shall be inspected yearly.

(b) Motorbike sidecars shall comply with all vehicle requirements outlined in rules and regulations established by the director as well as the requirements outlined in the sidecar vehicle inspection guidelines.
(Ord. No. 2022-11-03-0845, § 1(Att. C), 11-3-22)

Secs. 33-251—33-309. Reserved.

ARTICLE III. GROUP CYCLE SERVICES

DIVISION 1. IN GENERAL

Sec. 33-310. Scope of instant article.

Holders of permits to operate group cycle service(s) and drivers of group cycles shall be governed by the provisions of articles I and III of this chapter.
(Ord. No. 2016-03-03-0164, § 1(Att. B), 3-3-16)

Sec. 33-311. Fees.

The following fees are hereby established:

(1)	Group cycle inspection	$28.00
(2)	Group cycle re-inspection	28.00
(3)	Group cycle inspection no show	28.00
(4)	Drivers permit	15.00
(5)	Replacement of lost drivers permit	15.00
(6)	Drivers permit transfer	15.00
(7)	Operating permit transfers (per vehicle)	25.00
(8)	Group cycle operating permit (per vehicle)	110.00*
(9)	Late permit payment	30.00
(10)	Permit application, per permit requested on the application	150.00

All fees are due upon request of service and non-refundable.

*Group cycle operating permit fees shall be paid to the city for each vehicle authorized by the permit agreement. The group cycle operating permit fees shall be paid in one (1) payment or four (4) quarterly payments, due on the first business day of the following months: January, April, July and October.

Late permit payments shall be charged for all permit payments that are received after the close of business on the fifth business day of the month payment is due.

Permits that do not have fees paid prior to thirty (30) calendar days from the due date shall be suspended until all fees are paid. If the fees are not paid prior to sixty (60) calendar days from the due date all permits shall be revoked.
(Ord. No. 2016-03-03-0164, § 1(Att. B), 3-3-16)

Sec. 33-312. Amount of insurance.

Except as otherwise provided by the holder's operating permit, the public liability and property damage insurance required by this article shall be the minimum of one million dollars ($1,000,000.00) per occurrence for each vehicle. These minimums shall be required to cover the following categories:

(a) For damages arising out of bodily injury to or death of one (1) person in any one (1) accident;

(b) For damages arising out of bodily injury to or death of two (2) or more persons in any one (1) accident; and

(c) For damages arising out of injury to or destruction of property in any one (1) accident.

(Ord. No. 2016-03-03-0164, § 1(Att. B), 3-3-16)

Secs. 33-313—33-319. Reserved.

DIVISION 2. OPERATING AUTHORITY

Sec. 33-320. Number of ground transportation vehicles authorized.

(a) The total number of all vehicle permits issued among all operating permit holders shall be determined by the director, which may be modified by the director as the director determines to be appropriate.

(b) A holder, within ninety (90) days after receipt of an operating permit, shall operate and maintain a city approved fleet of vehicles for hire consisting of the number of vehicles authorized and required by the permit agreement. The number of vehicles authorized by the permit agreement and the number of vehicle permits issued pursuant thereto shall be reduced to reflect the actual number of vehicles the holder is able to operate and maintain in accordance with the provisions of this chapter, the operating permit, the permit agreement, and the rules and regulations of the director.

(c) A holder may not hold more permits than are issued by the director.

(Ord. No. 2016-03-03-0164, § 1(Att. B), 3-3-16)

Sec. 33-321. Reserved.

Editor's note—Ord. No. 2022-11-03-0845, § 1(Att. C), adopted Nov. 3, 2022, repealed § 33-321, which pertained to available permit distribution and derived from Ord. No. 2016-03-03-0164, adopted March 3, 2016.

Secs. 33-322—33-329. Reserved.

DIVISION 3. SERVICE REGULATIONS

Sec. 33-330. Hours of operation.

The director shall establish the hours during which a driver may operate a group cycle as a rule or regulation in accordance with sections 33-004 and 33-005 of this chapter.

(Ord. No. 2016-03-03-0164, § 1(Att. B), 3-3-16)

Sec. 33-331. Areas of service.

(a) Group cycles shall not be operated on the Riverwalk.

(b) Group cycles shall not be operated on sidewalks.

(c) Group cycles shall be authorized to cross sidewalks to access legal operating areas.

(d) Group cycles shall operate only on routes provided to the director as outlined in group cycle rules and regulations.

(e) Group cycles shall operate only on streets and must obey all vehicle traffic laws.

(f) The areas of service may be changed or removed by the director when the director determines it would be in the best interest of the public. This change or removal may be made with or without notice.

(Ord. No. 2016-03-03-0164, § 1(Att. B), 3-3-16)

Sec. 33-332. Passenger restrictions.

No group cycle shall transport more passengers than the vehicle has seats.

(Ord. No. 2016-03-03-0164, § 1(Att. B), 3-3-16)

Sec. 33-333. Standing or resting.

(a) No group cycle shall stand or park on any public roadway, sidewalk, or walkway. The exception is commercial loading zones, curb cutouts, and vehicle parking spaces.

(b) Group cycles may utilize any unoccupied commercial loading zone to stand or rest. All Group cycles must give the right-of-way to commercial vehicles or other authorized motor vehicles to these commercial loading zones.

(Ord. No. 2016-03-03-0164, § 1(Att. B), 3-3-16)

Sec. 33-334. Holder's duty to comply.

(a) In the operation of a group cycle service, a holder shall comply with the terms and conditions of the holder's permit agreement. Except to the extent expressly provided otherwise by the permit agreement, the holder shall comply with this chapter, the director's interpretations of the provisions herein, rules and regulations established by the director, and other laws applicable to the operation of a vehicle for hire.

(b) Upon written notice by the director of a violation by a driver or employee, a holder who allows such driver or employee to operate a group cycle while in violation becomes responsible and liable to the city for all fees, penalties and license revocations incurred by the driver or employee because of a failure to comply with this chapter, rules and regulations established by the director, and other laws applicable to the operation of a group cycle.
(Ord. No. 2016-03-03-0164, § 1(Att. B), 3-3-16)

Sec. 33-335. Holder's duty to enforce compliance by drivers.

(a) A holder shall establish a policy and take action to discourage, prevent and correct violations of this chapter by drivers who are employed or contracted by the holder.

(b) A holder shall not permit a driver who is employed or contracted by the holder to operate any group cycle if the holder knows or has reasonable cause to suspect that the driver has failed to comply with this chapter, the rules and regulations established by the director, or other applicable law.
(Ord. No. 2016-03-03-0164, § 1(Att. B), 3-3-16)

Sec. 33-336. Holders responsible for fitness of drivers.

(a) Each holder operating a group cycle service in the city shall employ or contract as drivers only persons who are physically and mentally fit and who have sufficient experience and training to operate a group cycle in a safe and proper manner. It shall be the sole responsibility of the holder to employ or contract only those drivers who are qualified under this chapter to obtain a driver permit. The employment or contracting of any driver shall be subject to the driver obtaining a temporary or permanent driver permit.

(b) Each holder is charged with knowledge of the contents of the file of all drivers the holder employs or contracts. The director shall consider a holder's continued employment or contracting of any driver whose file shows a lack of mental, emotional or temperamental capacity to be a safe and reliable driver, when reviewing such holder's request for a grant or renewal of an operating permit.
(Ord. No. 2016-03-03-0164, § 1(Att. B), 3-3-16)

Sec. 33-337. Periodic appearance in person by holders and drivers.

Upon request and reasonable notice holders and drivers shall appear, in person, before the director and the director's representative.
(Ord. No. 2016-03-03-0164, § 1(Att. B), 3-3-16)

Secs. 33-338, 33-339. Reserved.

DIVISION 4. FARES

Sec. 33-340. Fares.

The use of any type of meter or measuring device to calculate rate of fare is prohibited.
(Ord. No. 2016-03-03-0164, § 1(Att. B), 3-3-16)

Secs. 33-341—33-349. Reserved.

DIVISION 5. VEHICLES AND EQUIPMENT

Sec. 33-350. Inspection requirements.

(a) Group cycles shall be inspected yearly.

(b) Group cycles shall comply with all vehicle requirements outlined in rules and regulations established by the director as well as the requirements outlined in the group cycle vehicle inspection guidelines.
(Ord. No. 2016-03-03-0164, § 1(Att. B), 3-3-16)

Secs. 33-351—33-399. Reserved.

ARTICLE IV. EQUINE-DRAWN CARRIAGES*

DIVISION 1. IN GENERAL

Sec. 33-400. Scope of instant article.

Holders of annual permits to operate carriage services and drivers of equine-drawn carriages shall be governed by the provisions of articles I and IV of this chapter.
(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Sec. 33-401. Fees established.

The following fees are hereby established:

(1)	Inspection of vehicle	$28.00
(2)	Re-inspection of vehicle	28.00
(3)	Drivers or stand worker permits	30.00
(4)	Renewal of drivers or stand worker permit	30.00
(5)	Replacement of lost drivers or stand workers permit	15.00
(6)	Drivers or stand worker permit transfer	15.00
(7)	Special event permit	25.00
(8)	Carriage permit fee per carriage per year	600.00
(9)	Late permit payment	30.00
(10)	Permit application, per permit	100.00

(11) Replacement medallion shall be equal to the cost of making a new medallion.
(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Secs. 33-402—33-410. Reserved.

*__Editor's note__—Ord. No. 2016-03-03-0164, § 1(Att. A), adopted March 3, 2016, changed the title of Art. IV from "Horse-drawn carriages" to "Equine-drawn carriages."

DIVISION 2. OPERATING AUTHORITY

Sec. 33-411. Number of carriages.

(a) The total number of carriage permits shall be twenty-five (25) carriages. Beginning December 12, 2024, existing carriage permits may be renewed subject to the prohibition of the operation of such carriages on January 1, 2030, but no permits for new carriages may be issued.

(b) The director shall issue medallions that identify each carriage authorized in the annual permit. When in operation, a holder shall require that each carriage used in the operation of a carriage service shall display its medallion in a location specified by the director.

(c) A carriage company that the director determines is operating more carriages than authorized in the permit agreement shall have the number of permits equal to unauthorized carriages revoked.

(d) Medallions shall mean an identification plate created by the director to identify the quantity of carriages in operations. Replacement of the lost, damaged, or stolen medallions shall be at the owner's expense.
(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16; Ord. No. 2024-12-12-0998, § 1, 12-12-24)

__Editor's note__—Ord. No. 2016-03-03-0164, § 1(Att. A), adopted March 3, 2016, changed the title of section 33-411 from "Number of horse-drawn carriages" to "Number of carriages." This historical reference has been preserved for reference purposes.

Sec. 33-412. Permit fee.

An annual permit fee of six hundred dollars ($600.00) shall be paid to the city for each carriage authorized by the permit agreement. The annual permit fees shall be paid in one payment or four (4) quarterly payments, due on the first business day of the month of January, April, July, and October.

Late permit payments shall be charged for all permit payments that are received after the close of business on the fifth business day of the month a payment is due.

Permits that do not have the fees paid within thirty (30) calendar days from the due date shall be suspended until all fees are paid. If the fees are not paid within sixty (60) calendar days from the due date, all permits shall be revoked.
(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Sec. 33-413. Company ownership.

(a) For the purpose of article IV, a permit holder shall be the individual who has been designated as having the controlling interest over a company by the majority of owners of said company, and that individual must be indentified as an owner on the letter of incorporation.

(b) Permits shall not be transferred for any reasons.

(c) A power of attorney shall not be accepted as a replacement for the permit holder's signature.

(d) The permit holder shall sign all documents for the company, including but not limited to renewal of permit agreements, insurance forms, and any other documents that the director requires.

(e) If a permit holder is unable to maintain one (1) or more permits for any reason these permits shall be recalled by the city.

(f) Company managers may be appointed by the permit holder to handle the day to day operations, to include but not limited to, hire slips and special event permits. However, the city retains the right to communicate exclusively with the permit holder.
(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13)

Sec. 33-414. Reserved.

Editor's note—Ord. No. 2024-12-12-0998, § 1, adopted December 12, 2024, repealed § 33-414, which pertained to available permit distribution and derived from Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16.

Secs. 33-415—33-430. Reserved.

DIVISION 3. SERVICE REGULATIONS

Sec. 33-431. Hours of operation.

(a) Carriages shall only operate during the following times for the following periods:

December 12, 2024—May 31, 2027

Monday - Friday: 9:00 a.m. to 4:00 p.m. and 6:00 p.m. to 2:00 a.m.

Saturday - Sunday: 10:00 a.m. to 2:00 a.m.

City Holidays: 10:00 a.m. to 2:00 a.m.

June 1, 2027—May 31, 2028

Monday - Friday: 11:00 a.m. to 4:00 p.m. and 8:00 p.m. to 2:00 a.m.

Saturday - Sunday: 2:00 p.m. to 2:00 a.m.

City Holidays: 2:00 p.m. to 2:00 a.m.

June 1, 2028—December 31, 2029

Monday - Friday: 12:00 p.m. to 4:00 p.m. and 8:00 p.m. to 12:00 a.m.

Saturday - Sunday: 5:00 p.m. to 2:00 a.m.

City Holidays: 5:00 p.m. to 2:00 a.m.

(b) Carriages shall not be operated in the King William District during the following hours:

(1) After 10:30 p.m. Monday through Sunday; and

(2) Before 12:00 p.m. on Sundays.

(c) Carriage operations shall be suspended whenever the temperature is at or above 95°F. Interpretation and enforcement of this provision shall be by individuals designated by the director to enforce this chapter and by veterinarians employed with or contracted by the city.

(d) Carriages operations shall be suspended at 12:00 p.m. until 8:30 p.m. on Air Quality Health Alert Days.

(e) No holder or driver shall permit or allow any equine being used for hire over which he has control to be outside the stable grounds except during the above specified hours, hours specified

in the rules and regulations established by the director, or pursuant to express written authority of the director.
(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16; Ord. No. 2024-12-12-0998, § 1, 12-12-24)

Sec. 33-432. Carriage stands.

(a) Carriage stands shall be established by the director as a rule or regulation in accordance with sections 33-004 and 33-005 of this chapter.

(b) Carriage stand shall mean a designated space that is created to allow for horse-drawn carriages to wait for customers. Carriage stand locations shall be determined by the director and shall be designated by two (2) signs that are placed at each end of the stand.

(c) Carriages may utilize any unoccupied commercial loading zone to load, unload, stand or rest. All carriages must give the right-of-way to commercial vehicles and other authorized motor vehicles.

(d) Carriages must have a seating rating capacity of fourteen (14) or less, this includes the drivers seating area. If the carriage does not have a rating capacity or there is a concern about the rated seating capacity than the capacity shall be determined by the director.

(e) Carriages shall not have more than four (4) bench seats on the carriage; this includes the driver's bench. Exception is carriages currently permitted, however these carriages must comply with subsection 33-432(d).
(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Sec. 33-433. Reserved.

Sec. 33-434. Maintenance carriage stands, routes, streets, and feeding and watering locations.

(a) A holder shall, at the holder's own expense, keep routes, carriage stands and streets clean, sanitary and free of animal excrement.

(b) Disposal of manure shall be by transport to stables and shall be the responsibility of the holder.

(c) It shall be the holder's responsibility to ensure that the stand, routes, and streets are free from animal excrement. If it is determined by the director that a stand, route, or street is not being kept clean of animal excrement, the director may suspend the permits for a period of no more than seven (7) days. If a waste issue is not resolved after notification to the permit holders, the director may revoke permits.

(d) Diaper devices shall be utilized by all carriages. These devices must be in good repair and attached properly to the carriage or animal to adequately capture solid animal excrement.
(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Editor's note—Ord. No. 2016-03-03-0164, § 1(Att. A), adopted March 3, 2016, changed the title of section 33-434 from "Maintenance of carriage stands, routes, streets, and horse feeding and watering locations" to "Maintenance carriage stands, routes, streets, and feeding and watering locations." This historical notation has been preserved for reference purposes.

Sec. 33-435. Refusal to convey.

While operating a carriage, a driver's refusal to convey a person requesting service shall be a violation of this chapter. It shall be an affirmative defense to prosecution under this section that:

(a) The driver was engaged in answering a previous call for service;

(b) The driver had good reason to believe that the person requesting service was engaged in unlawful conduct;

(c) The driver was in reasonable fear of his personal safety, or

(d) The driver would be violating another section of this chapter or the rules and regulations established by the director.
(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Sec. 33-436. Additional passengers.

(a) A company's independent contractor, driver, stand worker or employee shall at no time hold a group back from loading on a carriage for the purpose of loading a specific carriage.

(b) The group that first employs the services of a carriage company must agree to additional passengers being placed on the carriage.
(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13)

Secs. 33-437—33-440. Reserved.

DIVISION 4. FARES

Sec. 33-441. Schedule of fares.

The director shall establish the rates of fares for carriages and outline the details of the fares in the rule or regulations in accordance with sections 33-004 and 33-005 of this chapter.
(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Sec. 33-442. Display of fares.

(a) Each carriage shall have a current schedule of fares placed on the carriage that is visible to the passengers upon entry into or while seated in said carriage.

(b) Each permit holder shall ensure that a driver, independent contractor, or stand workers charge the rate as set in the rules and regulations established by the director.
(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13)

Secs. 33-443—33-460. Reserved.

DIVISION 5. EQUINE*

Sec. 33-461. Equine license required.

(a) Except in connection with special events authorized by city officials including, but not limited to, parades and livestock expositions, no person shall permit, allow, use or offer the use of an equine in a carriage service or in any service whereby animals are used to transport persons on a public street unless such equine has first been licensed pursuant to the provisions of this article.

(b) Equines used in the operation of a carriage shall be licensed by the Animal Care Services Department of the City of San Antonio and shall be made available for inspection by the city at all reasonable times with or without prior notice. Animal care services department shall not issue a license to any horse that has not been licensed prior to December 12, 2024.

(c) An equine license shall not be transferable. Upon the transfer of ownership of any equine, the new owner shall, prior to working the equine, have the equine licensed by animal care services.

(d) Each equine license shall be assigned an official identification number by animal care services and each equine licensed herein shall be identified by a microchip or any other means of identification as determined by animal care services. The cost of the microchip or any other identifier shall be at the expense of the permit holder. Microchips utilized shall be approved by animal care services and must be International Organization of Standards (ISO) compliant.

(e) The holder shall at all times maintain the equine license at the stable where the equine is kept and shall keep a copy of the equine license on the carriage that is being pulled by said equine. The equine license may be inspected by the director and any representative from animal care services.
(Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16; Ord. No. 2024-12-12-0998, § 1, 12-12-24)

Sec. 33-462. Care of equine.

(a) The director and the director of animal care services shall promulgate such rules and regulations as are necessary to carry out the provisions of this article and to promote the health, safety and well-being of the licensed equines.

*__Editor's note—__Ord. No. 2016-03-03-0164, § 1(Att. A), adopted March 3, 2016, amended division 5 in its entirety to read as set out herein. Former division 5, §§ 33-461 and 33-462, pertained to horses and derived from Ord. No. 2013-08-01-0501, § 1(Exh. A), adopted Aug. 1, 2013.

(b) A veterinarian employed or contracted by the city shall be available on a regular schedule and at such other times as may be necessary to provide inspections and ascertain compliance with the terms and conditions of this article.

(c) Holders and drivers shall ensure that they have access to a sufficient amount of fresh drinking water for the equine that they are working. Holders and drivers shall insure that each equine is offered water in an appropriate container after every trip. Holders and drivers shall further ensure that equines be given a minimum ten (10) minute rest period between fares.

(d) Holders and drivers shall not allow an equine to be worked on a public highway, path or street during conditions which are determined by the director and the director's designee, or a veterinarian employed or contracted by the city, to pose a threat to the health, safety or well-being of the equine, passengers, or general public. If conditions develop while an equine is being worked, however, said equine shall be returned without delay to the stable by the most direct route and, if the threat posed is an immediate one, then the return of the equine to the stable shall be by equine trailer.

(e) Holders and drivers shall ensure that an equine does not work more than eight (8) hours in a 24-hour period without allowing an equine at least a sixteen (16) continuous hour rest period. Holders shall keep a current log provided by animal care services in each stable showing each equine's use.

(1) A shift shall be considered the same as the carriage operating hours.

(2) Equines shall be considered as working if the equine is pulling a carriage that is being presented to the public as a carriage for hire. If an equine must return to the stables due to inclement weather or equipment replacement, it may return to operation to complete the same shift. Holders shall keep a log in each stables show each equine's use. This log shall be provided by animal care services and must be updated each shift.

(f) Holders and drivers shall be responsible for any violation under this article and the rules and regulations established by the director, where it is shown such person had knowledge of the violation, or should have had knowledge of the violation, and made no attempt to prevent it from occurring.

(g) A holder shall keep on the premises of the stable where the equines are kept a consecutive daily record of the movements of each licensed equine, including driver's name and identification number, equine's identification number, vehicle identification tag number, and a daily manifest on each equine. Such records shall be made available, at any reasonable time, for inspection by the director and the director of animal care services, and their designees.

(h) An equine required to be licensed pursuant to this article which is lame or suffers from a physical condition or illness making it unsuitable for work may be ordered removed from work by the director and the director of animal care services, and their designees, and any veterinarian employed or contracted by city if said individual determines that removal of the equine is necessary for health and safety reasons or as an immediate protection to the equine or the general public. An equine for which such an order has been issued shall not be returned to work until such time as the equine is re-examined and a veterinarian licensed by the State of Texas certifies in writing that the equine is fit to return to work.

(i) A holder shall, at his own expense, have each equine examined by a veterinarian licensed by the State of Texas before the equine is put in service and every six (6) months thereafter. Holders shall be responsible for maintaining the following on each carriage in operation:

(1) Current license of the equine being used;

(2) Current picture of the equine;

(3) Current health certificate of the equine;

(4) The equine's body condition score, certified every six (6) months by a veterinarian licensed by the State of Texas; and

(5) Description and location of any other identifying characteristics, marks and brands of the equine.

(j) The holder shall, in the operation of a carriage service, use only equines which are geldings and mares; are a minimum of three (3) years old; weigh at least one thousand two hundred (1,200) pounds; and are of such stamina and in such physical condition, as determined by a veterinarian employed or contracted by the city or by the director, the director of animal care services, or their designees, so as to be able to perform the required equine-drawn carriage tasks without any undue stress and effort.

(k) A holder shall treat an equine for internal parasites every four (4) months under the direction of a veterinarian licensed by the State of Texas. A holder shall treat an equine for external parasites whenever they are found to be present.

(l) A holder shall have the hooves of equines trimmed and their shoes reset every six (6) to eight (8) weeks, using caulks or borium to prevent slippage; shoes shall be shod in a manner approved by the director of animal care services and shall have non-skid base surfaces.

(m) Holders and drivers shall ensure that equines are kept clean, especially those areas in contact with the harness or other tack.

(n) Holders and drivers shall ensure that pads and other pieces of tack are kept clean and in a safe and serviceable condition.

(o) The following shall deem an equine unfit for use:

(1) Lameness of any kind;

(2) Open sores or wounds caused or likely to be irritated by the bearing surfaces of harness, bridle or girths;

(3) Signs of emaciation, dehydration or exhaustion;

(4) Loose shoes or no shoes; or

(5) Is exhibiting uncontrollable behavior.

(p) Nothing in the chapter shall preclude the director, the director of animal care services, or their designees from enforcing all local, state, and/or federal animal cruelty laws.
(Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16; Ord. No. 2024-12-12-0998, § 1, 12-12-24)

Secs. 33-463—33-470. Reserved.

DIVISION 6. STABLES

Sec. 33-471. Location.

Stables for housing of equine and carriages shall be at locations approved by the director of code compliance or public works, shall be situated in areas properly zoned for such use, and shall be no less than one hundred (100) feet from any dwelling. Such facilities shall conform to all health and sanitation regulations and shall be open for inspection by the director and the director of animal care services and their designees at all reasonable times, with or without prior notice.
(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Sec. 33-472. Requirements.

(a) All stables shall have standing stalls of minimum dimensions of twelve (12) feet by twelve (12) feet by twelve (12) feet. The stalls shall be enclosed on all four (4) sides and shall have a solid north wall and a solid roof.

(b) Equine shall be adequately quartered. Stables and stalls shall be clean and dry. Sufficient bedding of straw, shavings, or other suitable material shall be furnished and changed as often as necessary to maintain the stables and stalls in a clean and dry condition. Bedding for concrete floors shall consist of at least six (6) inches of materials. Bedding for clay, dirt or rubber base floor shall consist of at least three (3) inches of materials.

(c) While in stalls, and/or during each sixteen (16) hours break equines shall have access to forage and feed in the amount to keep appropri-

ate body condition score. The forage and feed shall be kept clean, fresh and must be of good quality.

(d) While in stalls, equines shall have continuous access to drinking water. Water shall be kept clean and fresh.
(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Secs. 33-473—33-480. Reserved.

Sec. 33-481. Carriage wheels.

Carriage wheels shall be firmly attached to the hub and shall not wobble excessively. All springs, axles and supporting structures shall be intact without any visible breaks or deflection greater than incurred by a normal load.
(Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Editor's note—Ord. No. 2016-03-03-0164, § 1(Att. A), adopted March 3, 2016, amended section 33-481 in its entirety to read as set out herein. Former section 33-481 pertained to horse-drawn carriage wheels and derived from Ord. No. 2013-08-01-0501, § 1(Exh. A), adopted Aug. 1, 2013.

Secs. 33-482—33-490. Reserved.

DIVISION 7. STAND WORKERS

Sec. 33-491. Independent contractor, stand workers and employees.

(a) Independent contractors, stand workers and employees that perform duties relating to the public operation of a carriage company shall be required to obtain a stand worker license.

(b) Stand workers shall meet the requirements of chapter 33, article I, division 4 and article IV, section 33-401, with the following exception: stand workers must have a valid Texas drivers license, a valid Texas ID card, or a valid military ID card.

(c) Stand workers shall comply with all rules and regulations established by the director.

(d) Permit holders are permitted to have only one (1) stand worker at each stand.
(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Secs. 33-492—33-499. Reserved.

ARTICLE V. LIMOUSINE SERVICES*

Sec. 33-500. Scope of instant article.

Holders of operating permits for a limousine service operated pursuant to supplemental operating permits, and the drivers operating the vehicles of the sponsored limousine services shall be governed by the provisions of articles I and V of this chapter.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Secs. 33-501—33-518. Reserved.

Sec. 33-519. Amount of insurance.

Except as otherwise provided by the holder's operating permit or supplemental operating permits, the public liability and property damage insurance required by this article shall be the minimum of five hundred thousand dollars ($500,000.00) combined single limit (CSL) for each vehicle with a rated passenger capacity of fifteen (15) passengers or less. Vehicles with rated capacity of more than fifteen (15) passengers shall be required to maintain insurance cover equal to or greater than the minimum requirements set by the State of Texas Department of Transportation. These minimums shall be required to cover the following categories:

(a) For damages arising out of bodily injury to or death of one person in any one accident;

(b) For damages arising out of bodily injury to or death of two (2) or more persons in any one accident; and

(c) For damages arising out of injury to or destruction of property in any one accident.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

*__Editor's note—__Ord. No. 2014-12-11-1002, § 1(Att. A), adopted December 11, 2014 and effective March 1, 2015, amended article V in its entirety to read as herein set out. Formerly, article V, §§ 33-500—33-565, pertained to similar subject matter, and derived from Ord. No. 2013-08-01-0501, § 1(Exh. A), adopted August 1, 2013.

Secs. 33-520—33-522. Reserved.

Sec. 33-523. Number of ground transportation vehicles authorized.

(a) A holder within ninety (90) days after receipt of an operating permit shall operate and maintain a city approved fleet of vehicles for hire consisting of the number of vehicles authorized and required by the permit agreement. The number of vehicles authorized by the permit agreement and the number of vehicle permits issued pursuant thereto shall be reduced to reflect the actual number of vehicles the holder is able to operate and maintain in accordance with the provisions of this chapter, the operating permit, the permit agreement, and the rules and regulations established by the director.

(b) A holder may apply for and receive additional vehicle permits within ten (10) business days, after the application satisfies the requirements of sections 33-008 and 33-007 of this chapter. The application, however, shall be denied if such holder:

(1) Has not held permits for at least one year;

(2) At any time during a 12-month period immediately preceding the application for additional permits, the applicant has failed to pay a fine owed within the time required by this chapter or by the director;

(3) At any time during a 12-month period immediately preceding the application for additional permits, the applicant has failed to maintain the license/permit bond or insurances required by this chapter;

(4) At any time during a 12-month period immediately preceding the application

for additional permits, the applicant has had a vehicle permit revoked or suspended; or

(5) The applicant has failed to assign any previously issued vehicle permits to a vehicle.

(c) A holder who is approved for additional vehicle permits must execute an amended permit agreement authorizing the additional vehicles. The amended permit agreement shall supersede any such agreements previously executed between the city and the holder. The duration of the amended permit agreement shall be for the same period of time as provided for in the original permit agreement.

(d) Additional vehicle permits shall be distributed to qualified holders within sixty (60) days of a reported deadline. A holder receiving additional vehicle permits shall, within ninety (90) days of the distribution of such additional vehicle permits, increase his total fleet to the new level as required by subsection (a) of this section.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-12-08-0968, § 1(Att. B), 12-8-16)

Sec. 33-524. Supplemental operating permit.

If a limousine service experiences peak demand periods requiring more vehicles than are designated in its permit agreement or operating permit, the holder may request supplemental vehicles by submitting a written application for a supplemental operating permit, along with proof of inspections and insurance, which shall state the reason why supplemental vehicles are needed and identify the vehicles to be used. Supplemental vehicles authorized by a supplemental operating permit:

(a) May not be used for more than ten (10) days;

(b) Must comply with the vehicle requirements of this chapter;

(c) Must comply with the insurance requirements of this chapter;

(d) Are subject to inspection by the director, who may at any time order unsafe vehicles to be removed from service.

(e) If leased or rented through a nationally recognized leasing or rental company, the vehicle shall be exempt from inspection requirements;

(f) Vehicles that are permitted by other Texas cities may be utilized and are exempt from inspection requirements;

(g) Vehicles with a rated seated capacity of sixteen (16) or more passengers and that are registered with the Texas Department of Transportation are exempt from inspection requirements;

(h) Vehicles that are utilizing a supplemental permit are exempt from ownership requirements and section 33-062(b), but must comply all other requirements of this chapter;

(i) The applicant must pay the supplemental operating permit fee in advance of the use of said supplemental permit;

(j) A limousine service that utilizes a supplemental vehicle that is not in compliance with section 33-524 of this chapter shall be in violation of section 33-006(a) of this chapter;

(k) A limousine service or the holder that has been convicted or placed on community supervision, including probation and deferred adjudication, for a violation of section 33.524(g) of this chapter shall no longer be authorized the use of supplemental operating permits.

(l) For the purposes of the supplemental operating permits, the provisions of section 33-564 of this chapter shall not apply.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16; Ord. No. 2022-11-03-0845, § 1(Att. C), 11-3-22)

Sec. 33-525. Supplemental drivers permit.

If a limousine service experiences peak demand periods requiring more drivers than are cur-

rently permitted, the holder may request supplemental drivers by submitting a written application for a supplemental drivers permit, which shall state the reason why a supplemental driver is needed. Supplemental drivers:

(a) Shall possess a valid Texas drivers license as outlined in subsection 33-041(3);

(b) Shall possess a valid driver's permit from the City of San Antonio or another Texas city, or have a Texas Department of Public Safety license designated for the type of vehicle they will be operating;

(c) May not be used for more than ten (10) consecutive days;

(d) Every individual driver may not be used for more than a total of thirty (30) days in a calendar year;

(e) A supplemental drivers permit shall automatically expire if the driver operates in violation of sections 33-524 and 33-525, and the driver shall be in violation of subsection 33-006(a) of this chapter.

(Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16; Ord. No. 2016-12-08-0968, § 1(Att. B), 12-8-16; Ord. No. 2022-11-03-0845, § 1(Att. C), 11-3-22)

Editor's note—Ord. No. 2016-03-03-0164, § 1(Att. A), adopted March 3, 2016, amended section 33-525 in its entirety. Former § 33-525 pertained to special event supplemental operating permit and derived from Ord. No. 2014-12-11-1002, § 1(Att. A), adopted Dec. 11, 2014.

Sec. 33-526. Fees.

The following fees are hereby established:

(1)	Drivers permit	$30.00
(2)	Renewal of driver permit	30.00
(3)	Replacement of lost driver permit	15.00
(4)	Driver transfers from one (1) holder to another	15.00
(5)	Supplemental operating permit, ten (10) days (including airport operating permit)	100.00
(6)	Application	110.00
(7)	*City-wide limousine operating permit (per vehicle/per year)	250.00
(8)	Late permit	30.00
(9)	Re-inspection	28.00
(10)	Inspection re-scheduling	28.00

All fees are due upon request of service and are non-refundable.

*City-wide limousine operating permit fees shall be paid to the city for each vehicle authorized by the permit agreement. The limousine operating permit fees shall be paid in one (1) payment or two (2) semi-annual payments, due on the first business day of January and July.

Permit fees shall not be pro-rated.

Late permit payments shall be charged for all permit payments that are received after the close of business on the fifth business day of the month a payment is due.

Permits that do not have fees paid prior to thirty (30) calendar days from the due date shall be suspended until all fees are paid. If the fees are not paid prior to sixty (60) calendar days from the due date all permits shall be revoked.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16; Ord. No. 2016-12-08-0968, § 1(Att. B), 12-8-16)

Secs. 33-527—33-560. Reserved.

Sec. 33-561. Rates of fare.

(a) A holder shall charge a minimum fare of sixty-seven dollars and fifty cents ($67.50) per hour for all permitted vehicles. This amount shall be exclusive of any gratuity. The holder shall file with the director a schedule of fares to be charged for services provided.

(b) A holder shall notify the director within forty-eight (48) hours of any changes in the fare schedule filed by the holder.

(c) The use of any type of meter or measuring device to calculate rate of fare is prohibited.

(d) The director may approve exemptions to subsection 33-561(a) of this chapter, by written contracts.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Secs. 33-562, 33-563. Reserved.

Sec. 33-564. Vehicle requirements.

Each holder of a limousine operating permit must own all of the vehicles permitted. No vehicle shall be allowed to enter into service that is more than four (4) model years old. Stretch limousine may not be more than seven (7) model years old, and no vehicle may be entered into service that has more than one hundred thousand (100,000) miles on the odometer. Each holder must operate and maintain a minimum of:

(a) Two (2) stretch limousines as defined in section 33-003 of this chapter; or

(b) One (1) stretch limousine and two (2) luxury vehicles or SUVs as defined in section 33-003 of this chapter.

Vehicle used for limousine services shall not have any age limits, however, vehicles may be removed from service by the director if the vehicles do not comply with any part of this chapter, rules and regulations, or vehicle inspection guidelines.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Secs. 33-565—33-609. Reserved.

Editor's note—Ord. No. 2016-03-03-0164, § 1(Att. A), adopted March 3, 2016, repealed § 33-565 in its entirety. Former section 33-565 pertained to vehicle age requirements and derived from Ord. No. 2014-12-11-1002, § 1(Att. A), adopted Dec. 11, 2014.

ARTICLE VI. PEDICAB SERVICES

DIVISION 1. IN GENERAL

Sec. 33-610. Scope of instant article.

Holders of permits to operate pedicab services and drivers of pedicabs shall be governed by the provisions of articles I and VI of this chapter.
(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13)

Sec. 33-611. Fees.

The following fees are hereby established:

(1)	Pedicab inspection	$28.00
(2)	Pedicab re-inspection	28.00
(3)	Pedicab inspection no show	28.00
(4)	Drivers license	30.00
(5)	Replacement of lost license.	30.00
(6)	Drivers transfer	15.00
(7)	Operating permit transfers (per vehicle)	25.00
(8)	Pedicab operating permit, per vehicle	110.00*
(9)	Late permit payment	30.00
(10)	Permit application, per permit requested on the application	150.00

All fees are due upon request of service and non-refundable.

*Pedicab operating permit fees shall be paid to the city for each vehicle authorized by the permit agreement. The pedicab operating permit fees shall be paid in one (1) payment or four (4) quarterly payments, due on the first business day of the following month: January, April, July and October.

Late permit payments shall be charged for all permit payments that are received after the close of business on the fifth business day of the month payment is due.

Permits that do not have fees paid prior to thirty (30) calendar days from the due date shall be suspended until all fees are paid. If the fees are not paid prior to sixty (60) calendar days from the due date all permits shall be revoked.
(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Sec. 33-612. Amount of insurance.

Except as otherwise provided by the holder's operating permit, the public liability and property damage insurance required by this article shall be the minimum of one million dollars

($1,000,000.00) per occurrence for each vehicle. These minimums shall be required to cover the following categories:

(1) For damages arising out of bodily injury to or death of one (1) person in any one (1) accident;

(2) For damages arising out of bodily injury to or death of two (2) or more persons in any one (1) accident; and

(3) For damages arising out of injury to or destruction of property in any one (1) accident.

(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13)

Secs. 33-613—33-619. Reserved.

DIVISION 2. OPERATING AUTHORITY

Sec. 33-620. Number of ground transportation vehicles authorized.

(a) The total number of all vehicle permits issued among all operating permit holders shall not exceed fifteen (15) without the approval of city council.

(b) A holder, within ninety (90) days after receipt of an operating permit, shall operate and maintain a city-approved fleet of vehicles for hire consisting of the number of vehicles authorized and required by the permit agreement. No operating permit shall be issued authorizing less than two (2) vehicles. The number of vehicles authorized by the permit agreement and the number of vehicle permits issued pursuant thereto shall be reduced to reflect the actual number of vehicles the holder is able to operate and maintain in accordance with the provisions of this chapter, the operating permit, the permit agreement, and the rules and regulations of the director.

(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13)

Sec. 33-621. Available permit distribution.

(a) When the city determines that permits shall become available, the city shall advertise the availability of pedicab permits for no less than thirty (30) days. This advertisement method shall be determined by the director.

(b) All applications must be submitted by a date set by the director and must comply with sections 33-007 and 33-008 of this chapter (as determined by the director). If the application is approved by the director, each application shall be placed into a permit drawing. Applications shall not be for more permits than are available.

(c) Permit drawings shall be held with all permit applicants present. Only permit applicants shall be allowed to attend the drawing. However, if an applicant can not be present they must provide a written letter informing the city that they can not attend. The applicant may request for one (1) individual to attend on their behalf. Failure to attend or have someone attend the drawing shall not disqualify the applicant.

(d) The director or designee shall pull one (1) drawing entry for each permit available. Each company that is issued a permit during this process shall have ninety (90) days from the time of the drawing to complete all requirements of this chapter and have the pedicab inspected and permitted. Failure to comply will result in forfeiture of the drawn permit.

(e) Drawing procedures shall be outlined in pedicab rules and regulations.

(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13)

Secs. 33-622—33-629. Reserved.

DIVISION 3. SERVICE REGULATIONS

Sec. 33-630. Hours of operation.

The director shall establish the hours during which a driver may operate a pedicab as a rule or regulation in accordance with sections 33-004 and 33-005 of this chapter.

(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13)

Sec. 33-631. Areas of service.

(a) No pedicab shall be operated on the Riverwalk.

(b) Pedicabs shall not operate on sidewalks, with the exception of the following:

1. The walkway that runs from Montana St. (Convention Center) to the Alamodome;
2. The walkways with Hemisfair Park;
3. The walkways around the Henry B. Gonzales Convention Center; and
4. The walkways within Main Plaza.

(c) Pedicabs shall be authorized to cross sidewalks to access legal operating areas.

(d) Irrespective of (b) above, a pedicab may not enter any park or plaza that is closed to the public, including sidewalks, because of a city issued permit.

(e) Pedicabs shall not utilize crosswalks.

(f) The areas of service may be changed or removed by the director when it would be in the best interest of the public. This change or removal may be made with or without notice.
(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Sec. 33-632. Passenger restrictions.

No pedicab shall transport more than four (4) passengers at one (1) time; all passengers shall fit in the seating area.

"Seating area" shall mean the area between the side walls and back wall of the pedicab. Passengers may not be seated above the top of the side or back walls. Passengers shall be required to have their feet inside the area of the pedicab.
(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13)

Sec. 33-633. Standing or resting.

(a) No pedicab shall stand or park on any public roadway, sidewalk, or walkway for longer than is necessary to load or unload passengers. All loading and unloading of passengers from a roadway must be from a curb lane. The exception is commercial loading zones.

(b) Pedicabs may utilize any unoccupied commercial loading zone to stand or rest. All pedicabs must give the right of way to commercial vehicles or other authorized motor vehicles to these commercial loading zones.
(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13)

Sec. 33-634. Holder's duty to comply.

(a) In the operation of a pedicab service, a holder shall comply with the terms and conditions of the holder's permit agreement. Except to the extent expressly provided otherwise by the permit agreement, the holder shall comply with this chapter, the director's interpretations of the provisions herein, rules and regulations established by the director, and other laws applicable to the operation of a vehicle for hire.

(b) Upon written notice by the director of a violation by a driver or employee, a holder who allows such driver or employee to drive a pedicab while in violation becomes responsible and liable to the city for all fees, penalties and license revocations incurred by the driver or employee because of a failure to comply with this chapter, rules and regulations established by the director, and other laws applicable to the operation of a pedicab.
(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13)

Sec. 33-635. Holders responsible for fitness of drivers.

(a) Each holder operating a pedicab service in the city shall employ or contract as drivers only persons who are physically and mentally fit and who have sufficient experience and training to operate a pedicab in a safe and proper manner. It shall be the sole responsibility of the holder to employ or contract only those drivers who are qualified under this chapter to obtain a driver permit. The employment or contracting of any driver shall be subject to the driver obtaining a temporary or permanent driver permit.

(b) Each holder is charged with knowledge of the contents of the file of all drivers the holder employs or contracts. The director shall consider a holder's continued employment or contracting of any driver whose file shows a lack of mental, emotional or temperamental capacity to be a safe

and reliable driver, when reviewing such holder's request for a grant or renewal of an operating permit.
(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Editor's note—Ord. No. 2016-03-03-0164, § 1(Att. A), adopted March 3, 2016, repealed section 33-635 in its entirety and renumbered sections 33-636 and 33-637 as sections 33-635 and 33-636. Former section 33-635 pertained to holder's duty to enforce compliance by drivers and derived from Ord. No. 2013-08-01-0501, § 1(Exh. A), adopted Aug. 1, 2013.

Sec. 33-636. Periodic appearance in person by holders and drivers.

Upon request and reasonable notice holders and drivers shall appear, in person, before the director and the director's representative.
(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Editor's note—See section 33-635 editor's note.

Secs. 33-637—33-639. Reserved.

DIVISION 4. FARES

Sec. 33-640. Fares.

(a) A permit holder shall file with the director a schedule of fares to be charged for services provided. A holder shall notify the director of any change to the fare schedule prior to the implementation of these changes.

(b) The schedule of fares shall be posted on each pedicab at a location designated by the director.

(c) The use of any type of meter or measuring device to calculate rate of fare is prohibited.
(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13)

Secs. 33-641—33-649. Reserved.

DIVISION 5. VEHICLES AND EQUIPMENT

Sec. 33-650. Inspection requirements.

(a) Pedicabs shall be inspected yearly.

(b) Vehicles shall comply with all vehicle requirements outlined in rules and regulations established by the director as well as the requirements outlined in the pedicab vehicle inspection guidelines.
(Ord. No. 2013-08-01-0501, § 1(Exh. A), 8-1-13)

Secs. 33-651—33-699. Reserved.

ARTICLE VII. TOUR SERVICE AND CHARTER SERVICE*

Sec. 33-700. Scope of instant article.

Holders of operating permits for tour services and charter services and drivers and tour operators of said vehicles, shall be governed by the provisions articles I and VII of this chapter.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Secs. 33-701—33-718. Reserved.

Sec. 33-719. Amount of insurance.

Except as otherwise provided by the holder's operating permit, the public liability and property damage insurance required by this article shall be the minimum of five hundred thousand dollars ($500,000.00) combined single limit (CSL) for each vehicle with a rated capacity of fifteen (15) passengers or less. Vehicles with a rated capacity of more than fifteen (15) passengers shall be required to maintain insurance equal to or greater than the minimum requirements set by the State of Texas Department of Transportation. These minimums shall be required to cover the following categories:

(a) For damages arising out of bodily injury to or death of one (1) person in any one (1) accident;

(b) For damages arising out of bodily injury to or death of two (2) or more persons in any one (1) accident; and

*__Editor's note—__Ord. No. 2014-12-11-1002, § 1(Att. A), adopted November 11, 2014 and effective March 1, 2015, amended article VII in its entirety to read as herein set out. Formerly, article VII, §§ 33-700—33-770, pertained to similar subject matter, and derived from Ord. No. 2013-08-01-0501, § 1(Exh. A), adopted August 1, 2013.

(c) For damages arising out of injury to or destruction of property in any one (1) accident.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Secs. 33-720—33-722. Reserved.

Sec. 33-723. Number of ground transportation vehicles authorized.

(a) A holder within ninety (90) days after receipt of an operating permit, shall own, operate and maintain a city approved fleet of vehicles for hire consisting of the number of vehicles authorized and required by the permit agreement. The number of vehicles authorized by the permit agreement and the number of vehicle permits issued pursuant thereto shall be reduced to reflect the actual number of vehicles the holder is able to operate and maintain in accordance with the provisions of this chapter, the operating permit, the permit agreement, and the rules and regulations established by the director.

(b) A holder may apply for and receive additional vehicle permits if such application satisfies the requirements of sections 33-008 and 33-007 of this chapter. The application, however, shall be denied if such holder:

(1) Has been a permit holder for less than one year;

(2) At any time during a 12-month period immediately preceding receipt of the application for additional permits, has failed to pay a fine owed within the time required by this chapter or by the director;

(3) At any time during a 12-month period immediately preceding receipt of the application for additional permits, has failed to maintain the license/permit bond or insurances required by this chapter;

(4) At any time during a 12-month period immediately preceding receipt of the application for additional permits, has had a vehicle permit revoked or suspended; or

(5) Has failed to assign any previously issued vehicle permits to a vehicle.

(c) A holder who is approved for additional vehicle permits must execute an amended permit agreement authorizing the additional vehicles. The amended permit agreement shall supersede any such agreements previously executed between the city and the holder. The duration of the amended permit agreement shall be for the same period of time as provided for in the original permit agreement.

(d) Additional vehicle permits shall be distributed to qualified holders within sixty (60) days of a reported deadline. A holder receiving additional vehicle permits shall, within ninety (90) days of the distribution of such additional vehicle permits, increase his total fleet to the new level as required by subsection (a) of this section.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-724. Supplemental operating permit.

If a vehicle for hire service experiences peak demand periods requiring more vehicles than are designated in its permit agreement or operating permit, the holder may request supplemental vehicles by submitting a written application for a supplemental operating permit, along with proof of inspections and insurance, which shall state the reason why supplemental vehicles are needed and identify the vehicles to be used. Supplemental vehicles authorized by a supplemental operating permit:

(a) May not be used for more than ten (10) days.

(b) Must comply with the vehicle requirements of this chapter.

(c) Must comply with the insurance requirements of this chapter.

(d) Are subject to inspection by the director, who may at any time order unsafe vehicles to be removed from service.

(e) If leased or rented through a nationally recognized leasing or rental company, the vehicle shall be exempt from inspection requirements.

(f) Vehicles that are permitted by other Texas cities may be utilized and are exempt from inspection requirements.

(g) Vehicles with a rated seating capacity of sixteen (16) or more passengers and that are registered with the Texas Department of Transportation are exempt from inspection requirements.

(h) The applicant must pay the supplemental operating permit fee in advance of the use of said supplemental permit.

(i) A tour or charter service that utilizes a supplemental vehicle that is not in compliance with section 33-524 of this chapter shall be in violation of subsection 33-006(a) of this chapter.

(j) A tour or charter service or the holder that has been convicted or placed on community supervision, including probation and deferred adjudication, for a violation of subsection 33-524(g) of this chapter shall no longer be authorized the use of supplemental operating permits.

(k) For the purposes of the supplemental operating permits, section 33-723 of this chapter shall not apply.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16; Ord. No. 2022-11-03-0845, § 1(Att. C), 11-3-22)

Sec. 33-725. Supplemental drivers permit.

If a service experiences peak demand periods requiring more drivers than are currently permitted, the holder may request supplemental drivers by submitting a written application for a supplemental drivers permit, which shall state the reason why a supplemental driver is needed. Supplemental drivers:

(a) Shall possess a valid Texas drivers license as outlined in subsection 33-041(3);

(b) Shall possess a valid driver's permit from the City of San Antonio or another Texas city, or have a Texas Department of Public Safety license designated for the type of vehicle they will be operating;

(c) May not be used for more than ten (10) consecutive days;

(d) Every individual driver may not be used for more than a total of thirty (30) days in a calendar year;

(e) A supplemental driver that is not in compliance with sections 33-724 and 33-725 of this chapter shall be in violation of sections 33-006(a) of this chapter.

(Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16; Ord. No. 2016-12-08-0968, § 1(Att. B), 12-8-16; Ord. No. 2022-11-03-0845, § 1(Att. C), 11-3-22)

Sec. 33-726. Historic district restrictions.

(a) This section applies to any tour or charter service, whether operated from within or without the city and whether required to be permitted pursuant to the provisions of this chapter. This section does not apply where a tour or charter service is providing service to patrons residing, either permanently or temporarily, in the King William Historic District or the Monte Vista Historic District which does not include a tour of either historic district. This section does not apply where a tour or charter service is transporting primary and secondary school students to the Steves Homestead in the King William Historic District on a school-related trip. This section does not apply where a charter service is transporting persons to or from property owned or leased by a non-profit organization.

(b) For purposes of this article only, the King William Historic District is that area bordered by S. St. Mary's, between Eagleland and Durango, Durango, between S. St. Mary's and Pancoast, Pancoast, between Durango and Washington, Washington, between Pancoast and E. Arsenal, E. Arsenal, between Washington and S. Main, S. Main, between Arsenal and Alamo, Alamo, between S. Main and S. Alamo, S. Alamo, between Alamo and E. Guenther, E. Guenther, between S. Alamo and Crofton, Crofton, between E. Guenther and Constance, Constance, between Crofton and E. Guenther, E. Guenther, between Constance and Eagleland,

and Eagleland, between E. Guenther and S. St. Mary's. For purposes of this section only, the following streets are designated as commercial streets in the King William Historic District: S. Main, Durango, S. St. Mary's, Alamo, S. Alamo, and E. Guenther, between S. Main and S. Alamo.

(c) For purposes of this article only, the Monte Vista Historic District is that area bordered by McCullough, between E. Huisache and E. Ashby, E. Ashby, between McCullough and San Pedro, San Pedro, between E. Ashby and E. Hildebrand, E. Hildebrand, between San Pedro and Shook, Shook, between E. Hildebrand and Ledge, Ledge, between Shook and Kings Court, Kings Court, between Trinity University and E. Mulberry, E. Mulberry, between Kings Court and Stadium, Stadium, between E. Mulberry and E. Huisache, E. Huisache, between Stadium and McCullough. The Monte Vista Historic District also includes the following roadways: E. Rosewood, east of Shook, E. Hollywood, east of Shook, Oakmont, east of Shook, and Bushnell, east of Shook. For purposes of this section only, the following streets are designated as commercial streets in the Monte Vista Historic District: San Pedro, E. Hildebrand, McCullough, Stadium, and N. Main, between E. Ashby and E. Mistletoe.

(d) Except as otherwise provided in this section, no tour or charter service may operate a bus or motor coach on any street in the King William Historic District or the Monte Vista Historic District that is not a commercial street.

(e) Nothing in this section shall be construed to prohibit a vehicle for hire operated by a tour or charter service to operate along Wickes, between S. Alamo and Forcke, for the purpose of entering the property on which the Alamo Street Theater is located where said vehicle enters Wickes from S. Alamo.

(f) No tour or charter service operating a vehicle for hire along E. Guenther, between S. Main and S. Alamo, shall park or allow passengers to board or disembark on the north side of the roadway nor remain parked on the south side of the roadway for more than fifteen (15) minutes and only then for the purpose of allowing passengers to board and disembark.

(g) After having first obtained a destination point permit, a tour or charter service may operate a bus or motor coach along the destination routes designated in this section for the purpose of transporting passengers to and from the destination points within the King William Historic District or the Monte Vista Historic District designated in this section, but only where said passengers will disembark at said destination points. No such vehicle for hire operated for this purpose may remain parked on any non-commercial street within the King William Historic District or the Monte Vista Historic District for any period of time after said passengers have disembarked. Said vehicles may return to the destination point along the destination routes for the purpose of boarding said passengers at the completion of their tour, but may not remain on any non-commercial street for any period of time after the passengers have boarded.

(h) The following are designated destination points within the King William Historic District:

(1) The Steves Homestead Museum located at 509 King William, the destination route for which shall begin at the intersection of S. Alamo and E. Johnson and proceed west along E. Johnson to the intersection of E. Johnson and King William and then proceed south along King William to said destination point and then from the destination point south along King William to the intersection of King William and E. Guenther and then proceed west along E. Guenther to the intersection of E. Guenther and S. Main, or, alternatively, begin at the intersection of E. Guenther and S. Main and be the opposite route of the route described; and

(2) The San Antonio Art League located at 130 King William, the destination route for which shall begin at the intersection of King William and S. St. Mary's and proceed south along King William to said destination point and then from said destination point south along King William to the intersection of King William and Turner and then proceed east along

Turner to the intersection of Turner and S. Alamo, or, alternatively, begin at the intersection of Turner and S. Alamo and be the opposite route of the route described.

(i) No destination points are designated within the Monte Vista Historic District.

(j) No tour or charter service may operate a vehicle for hire of any type on any non-commercial street in the aforementioned historic districts except between the hours of 10:00 a.m. and 6:00 p.m. Monday through Friday, and 12:00 p.m. and 6:00 p.m. Saturday and Sunday.

(k) No tour or charter service may utilize or cause to be utilized from or in a vehicle for hire of any type operated by said tour or charter service an electronic sound amplification system that is audible outside of any vehicle operated by said service in the King William Historic District or the Monte Vista Historic District.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Editor's note—Ord. No. 2016-03-03-0164, § 1(Att. A), adopted March 3, 2016, renumbered sections 33-725—33-727 as sections 33-726—33-728.

Sec. 33-727. Destination point permits.

(a) A destination point permit shall not be issued without the submission of a written application before use of the permit.

(b) The director may establish rules and requirements for obtaining permits. In addition, the director may establish rules further restricting the use of permits.

(c) Permits shall be displayed, at all times, in the windshield of any vehicle operating under the authority of the permit while in the King William Historic District or the Monte Vista Historic District.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Editor's note—See section 33-726 editor's note.

Sec. 33-728. Fees.

The following fees are hereby established:

(1)	Driver permit	$30.00
(2)	Renewal of driver permit. . .	30.00
(3)	Replacement of lost driver permit	15.00
(4)	Driver transfers from one (1) holder to another.	15.00
(5)	Supplemental permits, ten (10) days (including airport operating permit).	100.00
(6)	Application	110.00
(7)	Historic district designation point permits:	
	Per five (5) consecutive days/ per service	20.00
	Per year/per service	100.00
(8)	*Tour vehicle permit (per vehicle/per year)	
	Passenger capacity:	
	15 or less	440.00
	More than 15.	550.00
(9)	*Charter vehicle permit (per vehicle/per year).	250.00
(10)	Late permit payment	30.00
(11)	Re-inspection.	28.00
(12)	Inspection re-scheduling . . .	28.00

All fees are due upon request of service and non-refundable.

*Tour operating permit fees shall be paid to the city for each vehicle authorized by the permit agreement. The operating permit fees shall be paid in one (1) payment or four (4) quarterly payments, due on the first business day of the following months: January, April, July and October.

*Charter operating permit fees shall be paid to the city for each vehicle authorized by the permit agreement. The charter operating permit fees shall be paid in one (1) payment or two (2) semi-annual payments, due on the first business day of January and July.

Permit fees shall not be pro-rated.

Tour operating permit and charter operating permits are separate. Vehicles that require both permits must request a tour permit and a charter permit.

Late permit payments shall be charged for all permit payments that are received after the close of business on the fifth business day of the month a payment is due.

Permits that do not have fees paid prior to thirty (30) calendar days from the due date shall be suspended until all fees are paid. If the fees are not paid prior to sixty (60) calendar days from the due date all permits shall be revoked.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16; Ord. No. 2016-12-08-0968, § 1(Att. B), 12-8-16)

Editor's note—See section 33-726 editor's note.

Secs. 33-729—33-760. Reserved.

Sec. 33-761. Rates of fare.

(a) A holder shall file with the director a schedule of fares to be charged for services provided.

(b) A holder shall notify the director within forty-eight (48) hours of any changes in the fare schedule filed by the holder.

(c) The use of any type of meter or measuring device to calculate rate of fare is prohibited.

(d) Fares for charter service shall be based on the size and type of the vehicle used and the amount of time for which the vehicle is reserved.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Secs. 33-762—33-764. Reserved.

Sec. 33-765. Vehicle age requirements.

Vehicle used for tour service and charter service shall not have any age limits; however, vehicles may be removed from service by the director if the vehicles do not comply with any part of this chapter, rules and regulations, or vehicle inspection guidelines.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Secs. 33-766—33-769. Reserved.

Sec. 33-770. Reservation schedule required.

No charter vehicle may be operated for the purpose of providing charter service without a reservation schedule on board the vehicle reflecting the service being provided at the time.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Secs. 33-771—33-899. Reserved.

ARTICLE VIII. TAXICABS*

Sec. 33-900. Scope of instant article.

Holders of permits to operate taxicab services and drivers of taxicabs shall be governed by the provisions of articles I and VIII of this chapter.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Secs. 33-901—33-908. Reserved.

Sec. 33-909. Business office.

A holder of an operating permit to operate taxicab services shall maintain a business office in a location other than a dwelling.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Secs. 33-910—33-923. Reserved.

Sec. 33-924. Qualification as self-insurer.

In lieu of furnishing an insurance policy required under section 33-018 of this chapter, a taxicab service may qualify for and obtain, pursuant to V.T.C.A., Transportation Code § 601.124, a certificate of self-insurance for the types of insurance and amounts of coverage required by this chapter. Should a holder opt for such self-insurance, however, proof thereof must be provided

*__Editor's note—__Ord. No. 2014-12-11-1002, § 1(Att. A), adopted December 11, 2014 and effective March 1, 2015, amended article VIII in its entirety to read as herein set out. Formerly, article VIII, §§ 33-900—33-981, pertained to similar subject matter, and derived from Ord. No. 2013-08-01-0501, § 1(Exh. A), adopted August 1, 2013.

to the director prior to commencement of any operations under this chapter. The holder must also meet the city's approved self-insurance requirements.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-925. Amount of insurance.

Except as otherwise provided by the holder's operating authority, the public liability and property damage insurance required by this chapter shall be the minimum amount. The state minimum amount shall be required for the following categories:

(a) For damages arising out of bodily injury to or death of one (1) person in any one (1) accident;

(b) For damages arising out of bodily injury to or death of two (2) or more persons in any one (1) accident; and

(c) For damages arising out of injury to or destruction of property in any one (1) accident.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Secs. 33-926, 33-927. Reserved.

Editor's note—Ord. No. 2016-12-08-0968, § 1(Att. B), adopted December 8, 2016, repealed the former sections 33-926 and 33-927 in their entirety, which pertained to dispatch service license required and number of vehicles for hire authorized, respectively, and derived from Ord. No. 2014-12-11-1002, § 1(Att. A), adopted December 11, 2014.

Sec. 33-928. Classifications and requirements of vehicles.

Holders shall operate taxicabs in the city in accordance with the terms and conditions of the type of operating permit issued. The types of operating permits authorized by this chapter shall be classified as city-wide and airport, as defined in section 33-003 of this chapter.

(a) Each holder, owner and driver shall remove from city-wide and airport service any taxicab that does not comply with Rule 421 established by the director under this chapter. The age of the vehicle shall be calculated from the vehicle's model year.

(b) Wheelchair accessible vehicle requirements:

(1) Wheelchair accessible vehicles shall service the entire city.

(2) Wheelchair accessible vehicles shall comply with the rules and regulations as established by the director.

(3) Wheelchair accessible vehicles may pick up and drop off at the airport as requested.

(4) Wheelchair accessible vehicles shall not have any age limits; however, vehicles may be removed from service by the director if the vehicle(s) do not comply with any part of this chapter, the rules and regulations, or vehicle inspection guidelines.

(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16; Ord. No. 2022-11-03-0845, § 1(Att. C), 11-3-22)

Sec. 33-929. Number of taxicabs; authority to operate additional taxicabs.

(a) A holder shall maintain in service a minimum of three (3) taxicabs, except holders of owner/operator permits shall maintain in service only one (1) vehicle.

(b) The number of vehicles authorized by the permit agreement and the number of vehicle permits issued pursuant thereto shall be reduced to reflect the actual number of vehicles the holder is able to operate and maintain in accordance with the provisions of this chapter, the operating permit, the permit agreement, and the rules and regulations established by the director.

(c) All applicants for permits or additional permits shall be eligible to receive only such additional taxicab permits as are necessary to meet the service needs of the city's population growth. The number of additional taxicab permits for each calendar year shall be determined by a ratio of one (1) taxicab per one thousand seven hundred (1,700) population within the legal

boundaries of the city. The population figure for the city will be based upon the annual population estimate as determined by the planning department as of December 31 of the year preceding the allocation period.

(d) The procedure to distribute the taxicab permits shall be outlined in the rules and regulations established by the director.

(e) In addition to the requirements of subsections (c) and (d) above, other factors which may be relied on in determining eligibility for additional or new permits include, but are not limited to, whether:

(1) One hundred (100) percent of the holder's authorized taxicabs passed the most recent scheduled semi-annual inspection;

(2) Holder has complied with this chapter and the rules and regulations established by the director.

(f) The holder's application for additional vehicle permits may be denied if any of the requirements of the section above are not met or if at any time during the 12-month period immediately preceding the application for additional permits the holder:

(1) Failed to pay a fine or fee owed within the time required by this chapter or the director;

(2) Failed to maintain the license/permit bond or insurance required by this chapter;

(3) Had a vehicle permit revoked or suspended; or

(4) Has failed to assign any previously issued vehicle permits to a vehicle.

(g) A holder who is approved for additional vehicle permits shall execute an amended permit agreement authorizing the additional vehicles. The amended permit agreement shall supersede any such agreements previously executed between the city and the holder. The duration of the amended permit agreement shall be for the same period of time as provided for in the original permit agreement.

(h) A holder receiving new or additional vehicle permits shall, within one hundred eighty (180) days of signing the permit agreement have presented the vehicle(s) to the city which must have passed the initial inspection.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16; Ord. No. 2018-05-31-0396, § 2 (Att. A), 5-31-18, eff. 7-1-18; Ord. No. 2022-11-03-0845, § 1(Att. C), 11-3-22)

Sec. 33-930. Permit usage.

(a) A holder shall operate and maintain a city approved fleet of vehicles consistent with the number of vehicles authorized in the permit agreement. No company shall operate and maintain less than three (3) vehicles.

(b) A holder shall replace a vehicle within one hundred eighty (180) days from the date that the vehicle taken out of service. Permits that are not filed after one hundred eighty (180) days shall have the permits revoked.

(c) The number of vehicles authorized by the permit agreement shall be reduced to reflect the actual number of vehicles the holder is able to operate and maintain.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16; Ord. No. 2022-11-03-0845, § 1(Att. C), 11-3-22)

Sec. 33-931. Approval of wheelchair accessible vehicle permits for operation of taxicabs.

The director may approve wheelchair accessible permits for the purpose of providing a service to the disability community and these vehicles must give priority to individuals that need a wheelchair accessible vehicle, as outlined in the Taxicabs Rules and Regulations. All other provisions of this chapter applicable to taxicabs apply to the operation of wheelchair accessible taxicabs pursuant to this section where such provisions are not in conflict with this section.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16)

Sec. 33-932. Owner/operators.

(a) The director shall issue up to seventy-five (75) owner/operator permits to individual persons who own a motor vehicle for use as a taxicab service. These permits shall be included in calculating the number of additional permits available pursuant to the section 33-929(c). Owner/operators are exempt from section 33-929(d)—(i).

(b) An applicant for an owner/operator permit must be a continuously active and permitted taxicab driver in San Antonio for at least one (1) year at the time of the application.

(c) The owner/operator vehicle may not be operated as a vehicle for hire by anyone other than the permitted owner/operator.

(d) The procedure for distribution of owner/operator permits is outlined in City of San Antonio Taxicab Rules and Regulations.

(e) An individual who is approved for an owner/operator permit must make timely payment of all tax assessments and fees.

(f) Applicants and vehicles for owner/operator permits shall comply with all provisions of chapter 33 except for the following:

Section 33-007(f), (h), (i), (l), and (m).

Section 33-009.

Section 33-971.

(g) Within ninety (90) days after receipt of an owner/operator permit, the holder shall operate a city-wide ground transportation service in accordance with the provisions of this chapter, the operating permit, permit agreement, and the rules and regulations established by the director, for a period of five (5) years beginning on the date stated in the permit agreement. Thereafter, the owner/operator permit shall be renewed for a period of two (2) years, subject to the provisions in section 33-025.
(Ord. No. 2018-05-31-0396, § 2 (Att. A), 5-31-18, eff. 7-1-18)

Sec. 33-933. Fees.

The following fees are hereby established:

(1)	Driver permit	$30.00
(2)	Renewal of driver permit	30.00
(3)	Replacement of lost driver permit	15.00
(4)	Driver transfers from one (1) holder to another	15.00
(5)	Taxicab application, per permit	110.00
(6)	*Citywide taxicab operating permit (per year/per vehicle)	250.00
(7)	Late permit payment	30.00
(8)	Re-inspection	28.00
(9)	Inspection re-scheduling	28.00

All fees are due upon request of service and are non-refundable.

Taxicab operating permit fees shall be paid to the city for each taxicab authorized by the permit agreement. The taxicab operating permit fees shall be paid in one (1) payment or two (2) semi-annual payments, due on the first business day of January and July.

Permit fees shall not be pro-rated.

Late permit payments shall be charged for all permit payments that are received after the close of business on the fifth business day of the month payment is due.

Permits that do not have fees paid prior to thirty (30) calendar days from the due date shall be suspended until all fees are paid. If the fees are not paid prior to sixty (60) calendar days from the due date all permits shall be revoked.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16; Ord. No. 2016-12-08-0968, § 1(Att. B), 12-8-16)

Secs. 33-934—33-970. Reserved.

Sec. 33-971. Operating requirements.

(a) Every taxicab shall be operated as a unit of an effective operating group of sufficient number and equipped with such approved communica-

tion facilities for rendering satisfactory call service, unless expressly exempted by the director. This requires that owners of small fleets or single taxicabs shall operate as members of a city-approved operating association or as independent contractors as provided for in this chapter.

(b) Each member of an approved association or cooperative shall own and maintain sole registered ownership of one (1) association or cooperative vehicle only.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-12-08-0968, § 1(Att. B), 12-8-16)

Sec. 33-972. Driver as an independent contractor.

(a) A holder may contract with a driver on an independent contractor basis if and only if:

(1) Either the holder himself or the driver with whom he contracts is the owner of the vehicle for hire to be operated by such driver in the holder's ground transportation service;

(2) The contract provides that the holder indemnifies the city and holds the city harmless for all claims and/or causes of action against the city arising from the acts or inactions of the driver;

(3) The contract provides that the driver being contracted with is insured under the holder's insurance policy as required by this chapter;

(4) The contract imposes a condition that the driver must comply with the requirements of this chapter, rules and regulations established by the director, rules and regulations established by the city's director of aviation and all other applicable rules, regulations and laws, and that failure to so comply may be considered by the holder as a material breech of the contract; and

(5) The holder provides to the director within two (2) business days, an itemized disclosure of all lease fees charged to each driver. The contract shall state that an independent contractor will not be charged more than a five (5) percent processing fee for credit and debt cards.

(b) A holder who continues to contract with a driver who repeatedly violates chapter 33 may face revocation or suspension of the holder's permit(s) under article I, division 3, revocation/suspension of permits.

(c) The form of the contract between a holder and driver must be approved by the director. The director may disapprove a contract form if he determines that the contract is inconsistent with this chapter, regulations established under this chapter, or other applicable law. A holder may not use a contract that has been disapproved by the director.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Sec. 33-973. Driver conduct.

A driver shall not offer, confer or agree to confer on another person money, compensation or any benefit in order to receive a paying fare:

(a) A drivers permit shall be suspended for sixty (60) days for the violation of this provision.

(b) A drivers permit shall be revoked for a second violation of this provision within twenty-four (24) months from the date of the first violation.
(Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14)

Secs. 33-974—33-980. Reserved.

Sec. 33-981. Rate of fares.

(a) Taxicab fare rates shall be:

Drop charge	$3.50
Per mile	2.70
Per hour wait time	27.00
Per hour traffic delay	27.00

(b) Taxicab operator may charge a rate that is less than the maximum rate outlined in subsection (a). All passengers must be notified of discounted rates through an electronic applica-

tion, website, or over the phone by a dispatcher. The taxicab meter must be utilized at all time to include during a discounted fare.

(c) The minimum rate charge on any trip originating at the San Antonio International Airport or any pre-arranged (time-call) trip shall be twenty dollars ($20.00) or the meters fare, which ever is greater.

(d) The minimum rate charge on any trip originating in the "downtown rate zone" shall be ten dollars ($10.00). "Downtown rate zone" is the geographical area bounded by Interstate 37, traveling south from IH 35 to E. Houston St.; E. Houston St., traveling east to N. Cherry St.; N. Cherry Street, traveling south to Caesar Chavez Blvd.; Caesar Chavez Blvd., traveling west to Alamo St.; Alamo St., traveling south to Frio St.; Frio St., traveling north to W. Houston; W. Houston, traveling east to IH 35; IH 35, traveling north to IH 37.

(e) Taxicab operators may charge two dollars ($2.00) for each additional passenger over four (4) passengers (the fifth and sixth passengers) not to exceed more than four dollars ($4.00).

(f) A driver or holder shall not charge a fare for operating a taxicab that is higher than permitted in section 33-981 of this chapter. A driver or holder shall not charge any additional fees to include but not limited to: credit card processing fees, debt card processing fees, any third party card processing fees, and any other fees that are inconsistent with section 33-981 of this chapter.

(g) A driver or holder may be authorized to charge a five dollar ($5.00) surcharge to be added to the amount on the meter for trips that originate from the following venues:

(1) AT&T Center.

(2) Alamodome.

(3) Freeman Coliseum.

(4) Toyota Field.

(5) During official fiesta events.

(h) A driver may charge up to a two hundred dollar ($200.00) cleaning fee, when at no fault of the driver a passenger leaves the taxicab in a state that requires immediate cleaning or the taxicab could not transport additional passengers. Prior to charging this fee the driver shall report the situation to their dispatch company and record the date, time, detailed information of the cleaning needed, and the amount the driver is charging.

(i) The director may require a holder to display rates on or within a vehicle for hire in a manner prescribed by the director.

(j) A per-mile fuel surcharge shall be added to the fares established by this section where the average price of regular unleaded gasoline is two dollars and twenty cents ($2.20) or greater. The per-mile surcharge shall be as outlined in section 33-982;

(k) A fuel surcharge adjustment shall be done when the average price of fuel increases or decreases more than twenty-five cents ($0.25) from the last effective date. Fuel surcharge adjustments shall be done within forty-five (45) days from the date that the calculated average fuel price is received by the director.

(l) Taxicab operators may charge an airport departure fee to the customer at the rate that is equal to the amount charged to the operator pursuant to section 3-86 of this Code.

(m) Between January 1 and April 1 of every even numbered year, the transportation advisory board shall review the taxicab fare rates and make a recommendation to city council, no later than July 1, whether to adjust the rates in effect at the time of the recommendation. Nothing in this section shall preclude the city from undertaking a study of taxicab rate of fares at its own discretion at any time, for referral to city council. (Ord. No. 2014-12-11-1002, § 1(Att. A), 12-11-14; Ord. No. 2016-03-03-0164, § 1(Att. A), 3-3-16; Ord. No. 2016-12-08-0968, § 1(Att. B), 12-8-16; Ord. No. 2022-11-03-0845, § 1(Att. C), 11-3-22)

Sec. 33-981.1. Per mile surcharge.

[Per mile surcharges are as follows:]

Average Gas Price	*Per-Mile Surcharge*
Under $2.20	$0.00
$2.20—$2.49	0.05

Average Gas Price	*Per-Mile Surcharge*
$2.50—$2.79	0.10
$2.80—$2.99	0.15
$3.00—$3.20	0.20
$3.21—$3.49	0.25
$3.50—$3.79	0.30
$3.80—$3.99	0.35
$4.00—$4.19	0.40
$4.20—$4.49	0.45
$4.50—$4.79	0.50
$4.80—$4.99	0.55
$5.00—$5.19	0.60
$5.20—$5.49	0.65
$5.50—$5.79	0.70
$5.80—$5.99	0.75
$6.00—$6.19	0.80
$6.20—$6.49	0.85
$6.50—$6.79	0.90
$6.80—$6.99	0.95
$7.00 and above	1.00

(Ord. No. 2016-12-08-0968, § 1(Att. B), 12-8-16)

Editor's note—Ord. No. 2016-12-08-0968, § 1(Att. B), adopted December 8, 2016, enacted provisions intended for use as section 33-982. Inasmuch as there are already provisions so designated, and at the discretion of the editor, said provisions have been redesignated as section 33-981.1.

ARTICLE IX. ELECTRIC VEHICLE SERVICE*

DIVISION 1. IN GENERAL

Sec. 33-990. Scope of instant article.

Holders of permits to operate electric vehicles (EV) and electric vehicle service (EVS) and drivers of EVs shall be governed by the provisions of articles I and IX of this chapter.

(Ord. No. 2022-11-03-0845, § 1(Att. A), 11-3-22)

*__Editor's note—__Ord. No. 2022-11-03-0845, § 1(Att. A), adopted Nov. 3, 2022, repealed the former Art. IX, and enacted a new article as set out herein. The former Art. IX pertained to transportation network companies and derived from Ord. No. 2015-03-05-0152, adopted March 5, 2015. This ordinance set out provisions intended for use as Art. IX, §§ 33-910—33-912, 33-921, 33-930—33-937, 33-940, 33-950. For purposes of classification, and at the editor's discretion, these provisions have been included as Art. IX, §§ 33-990—33-992, 33-1001, 33-1010—33-1017, 33-1020, 33-1030.

Sec. 33-991. Fees.

The following fees are hereby established:

(1)	Inspection	$28.00
(2)	Re-inspection/re-scheduling	$28.00
(3)	Drivers permit	$30.00
(4)	Drivers permit renewal	$30.00
(5)	Replacement of lost drivers permit	$15.00
(6)	Drivers permit transfer	$15.00
(7)	Operating permit	$250.00* per year/per vehicle
(8)	Permit application	$110.00 per permit
(9)	Late permit payment	$30.00

All fees are due upon request of service and non-refundable.

* Operating permit fees shall be paid to the city for each vehicle authorized by the permit agreement. The operating permit fees shall be paid in one (1) payment or four (4) quarterly payments, due on the first business day of the following months: January, April, July, and October.

Late permit payments shall be charged for all permit payments that are received after the close of business on the fifth business day of the month payment is due. Permits that do not have fees paid prior to thirty (30) calendar days from the due date shall be suspended until all fees are paid. If the fees are not paid prior to sixty (60) calendar days from the due date, all permits shall be revoked.

(Ord. No. 2022-11-03-0845, § 1(Att. A), 11-3-22)

Sec. 33-992. Amount of insurance.

Except as otherwise provided by the holder's operating permit, the public liability and property damage insurance required by this article shall be the minimum of one million dollars ($1,000,000.00) per occurrence for each vehicle, to include the state minimum amount of com-

mercial insurance for the vehicle. These minimums shall be required to cover the following categories:

(1) For damages arising out of bodily injury to or death of one (1) person in any one (1) accident;

(2) For damages arising out of bodily injury to or death of two (2) or more persons in any one (1) accident; and

(3) For damages arising out of injury to or destruction of property in any one (1) accident.

(Ord. No. 2022-11-03-0845, § 1(Att. A), 11-3-22)

Secs. 33-993—33-1000. Reserved.

DIVISION 2. OPERATING AUTHORITY

Sec. 33-1001. Number of ground transportation vehicles authorized per classification.

(a) The total number of vehicle permits shall be determined by the director. The director may modify the total number of permits as the director determines to be appropriate.

(b) A holder within one hundred eighty (180) days after receipt of an operating permit shall operate and maintain a city-approved fleet of vehicles for hire consisting of the number of vehicles authorized and required by the permit agreement. After one hundred eighty (180) days, the number of vehicles authorized by the permit agreement and the number of vehicle permits issued pursuant thereto shall be reduced to reflect the actual number of vehicles the holder is able to operate and maintain in accordance with the provisions of this chapter, the operating permit, the permit agreement, and the rules and regulations of the director.

(c) A holder may not hold more permits than are issued by the director.

(Ord. No. 2022-11-03-0845, § 1(Att. A), 11-3-22)

Secs. 33-1001—33-1009. Reserved.

DIVISION 3. SERVICE REGULATIONS

Sec. 33-1010. Hours of operation.

The director shall establish the hours during which a driver may operate an EV as a rule or regulation in accordance with sections 33-004 and 33-005 of this chapter.

(Ord. No. 2022-11-03-0845, § 1(Att. A), 11-3-22)

Sec. 33-1011. Areas of service.

The areas of service shall be determined by the director in the rules and regulations.

(Ord. No. 2022-11-03-0845, § 1(Att. A), 11-3-22)

Sec. 33-1012. Passenger restrictions.

No EV shall transporter more passengers than the vehicle is rated for. If the vehicle does not have a manufactured passenger rating, the director shall determine the vehicle's maximum occupancy.

(Ord. No. 2022-11-03-0845, § 1(Att. A), 11-3-22)

Sec. 33-1013. Standing or resting.

EVs shall not stand, park, or wait for a fare on any public roadway, sidewalk, or walkway. The exception are provided in the rules and regulations.

(Ord. No. 2022-11-03-0845, § 1(Att. A), 11-3-22)

Sec. 33-1014. Holder's duty to comply.

(a) In the operation of an EV service, a holder shall comply with the terms and conditions of the holder's permit agreement. Except to the extent expressly provided otherwise by the permit agreement, the holder shall comply with this chapter, the director's interpretations of the provisions herein, rules and regulations established by the director, and other laws applicable to the operation of a vehicle for hire.

(b) Upon written notice by the director of a violation by a driver or employee, a holder who allows such driver or employee to operate a EV while in violation becomes responsible and liable to the city for all fees, penalties, and license revocations incurred by the driver or employee because of a failure to comply with this chapter,

rules, and regulations established by the director, and other laws applicable to the operation of the EV.
(Ord. No. 2022-11-03-0845, § 1(Att. A), 11-3-22)

Sec. 33-1015. Holder's duty to enforce compliance by drivers.

(a) A holder shall establish a policy and take action to discourage, prevent, and correct violations of this chapter by drivers who are employed or contracted by the holder.

(b) A holder shall not permit a driver who is employed or contracted by the holder to operate any EV, if the holder knows or has reasonable cause to suspect that the driver has failed to comply with this chapter, the rules and regulations established by the director, or other applicable law.
(Ord. No. 2022-11-03-0845, § 1(Att. A), 11-3-22)

Sec. 33-1016. Holders responsible for fitness of drivers.

(a) Each holder operating a service in the city shall employ or contract as drivers only persons who are physically and mentally fit and who have sufficient experience and training to operate the specific EV in a safe and proper manner. It shall be the sole responsibility of the holder to employ or contract only those drivers who are qualified under this chapter to obtain a driver permit. The employment or contracting of any driver shall be subject to the driver obtaining a temporary or permanent driver permit.

(b) Each holder is charged with knowledge of the contents of the file of all drivers the holder employs or contracts. The director shall consider a holder's continued employment or contracting of any driver whose file shows a lack of mental, emotional, or temperamental capacity to be a safe and reliable driver. when reviewing such holder's request for a grant or renewal of an operating permit.
(Ord. No. 2022-11-03-0845, § 1(Att. A), 11-3-22)

Sec. 33-1017. Periodic appearance in person by holders and drivers.

Upon request and reasonable notice holders and drivers shall appear, in person, before the director and the director's representative.
(Ord. No. 2022-11-03-0845, § 1(Att. A), 11-3-22)

Secs. 33-1018—33-1019. Reserved.

DIVISION 4. FARES

Sec. 33-1020. Fares.

The use of any type of meter or measuring device to calculate rate of fare is prohibited.
(Ord. No. 2022-11-03-0845, § 1(Att. A), 11-3-22)

Secs. 33-1021—33-1029. Reserved.

DIVISION 5. VEHICLES AND EQUIPMENT

Sec. 33-1030. Inspection requirements.

(a) EVs shall be inspected yearly.

(b) EVs shall comply with all vehicle requirements outlined in rules and regulations established by the director as well as the requirements outlined in the vehicle inspection guidelines.
(Ord. No. 2022-11-03-0845, § 1(Att. A), 11-3-22)

Chapter 34

WATER AND SEWERS*

Article I. In General

Division 1. Generally

Sec. 34-1.01. Title.
Sec. 34-1.02. Severability of chapter.
Sec. 34-1.03. Rules of construction.
Sec. 34-1.04. Tunnel rental fees.
Sec. 34-1.05. Floodplain verification letter fee.
Sec. 34-1.06. Cost of service reviews of miscellaneous and special services fees.

Division 2. Definitions

Sec. 34-2.01. Definitions.

Division 3. Billing and Collection of Charges for Services Provided by the System

Sec. 34-3.01. Deposits.
Sec. 34-3.02. Payment of current monthly charges.
Sec. 34-3.03. Penalty for late payment.
Sec. 34-3.04. Extension to penalty for late payment.
Sec. 34-3.05. Reserved.
Sec. 34-3.06. Termination of system service for non-payment of applicable charge.
Sec. 34-3.07. Encroachment or easement release application processing fee.
Sec. 34-3.08. Meter locate multiple trip fee.

Division 4. Notice and Hearing Requirements Prior to Termination of Service

Sec. 34-4.01. Issuance of final notice.
Sec. 34-4.02. Hearing procedure.

Division 5. Reinstatement of System Service

Sec. 34-5.01. Sewer service-only reinstatement charges.
Sec. 34-5.02. Other reinstatement charges.

Division 6. Customer Bill Inquiries

Sec. 34-6.01. Response to customer inquiries.
Sec. 34-6.02. Procedures and guidelines for routine customer inquiries.
Sec. 34-6.03. Procedures and guidelines for non-routine customer inquiries.
Sec. 34-6.04. Itemized statement.

***Charter references—**Authority of city to acquire and maintain property for water and sewer systems, § 3, par. 13(1), (23); powers with respect to sanitary sewer system, § 3, par. 10; public works department, § 60 et seq.

Cross references—Buildings generally, § 6-1 et seq.; fire prevention, § 11-1 et seq.; flood plains, § 12-1 et seq.; swimming pools, § 15-186 et seq.; standards and specifications for mobile home parks, § 18-61 et seq.; swimming in city parks, § 22-86; fishing in city parks, § 22-101; streets and sidewalks, § 29-1 et seq.; subdivisions, § 30-1 et seq.; zoning, § 35-1 et seq.

State law reference—Authority of home rule cities to enact ordinances more stringent than minimum state standards with respect to water and sewage, Vernon's Ann. Civ. St. art. 4477-1, § 23.

Division 7. Appeal Procedure

Sec. 34-7.01. Appeal committee.
Sec. 34-7.02. Procedures for appeal.
Sec. 34-7.03. Relief granted from decision to terminate.

Division 8. Water Quality and Environmental Education and Enforcement Account

Sec. 34-8.1. Establishment of account.
Sec. 34-8.2. Funding source.
Sec. 34-8.3. Use of funds.
Sec. 34-8.4. Funds to be kept separate.

Division 9. Enforcement

Sec. 34-9.1. Granting of enforcement authority to SAWS.
Sec. 34-9.2. Granting of authority to pursue legal remedies.
Sec. 34-9.3. Authority of city attorney to enforce chapter.
Sec. 34-9.4. Utility service lien.
Secs. 34-10—34-15. Reserved.

Article II. Water Service and Rates

Division 1. Generally

Sec. 34-16. Supplying below standard water to another.
Sec. 34-17. Investigation of pollution or potential pollution.
Sec. 34-18. Analyses of drinking water required.
Sec. 34-19. Restoring polluted water, procedure where not eradicated.
Sec. 34-20. Sources of water prohibited for drinking or domestic use.
Sec. 34-21. Health certificate and permit required of itinerant water vendors.
Sec. 34-22. Polluting bodies of water.
Sec. 34-23. Pipes, drains or sewer leading into bodies of water.
Sec. 34-24. Discharging oil, grease, soap, etc., into public waters or streams.
Sec. 34-25. Reserved.
Secs. 34-26—34-35. Reserved.

Division 2. City Water Service

Sec. 34-36. When connection with water main compulsory.
Sec. 34-37. Street improvements, service and posting of notice.
Sec. 34-38. Specifications for service connections.
Sec. 34-39. Connections with bathing pools and water tanks.
Sec. 34-40. Cross connections with water mains prohibited.
Sec. 34-41. Disconnection for noncompliance.
Sec. 34-42. Unlawful connection with water main.
Sec. 34-43. Maintenance of service pipes.
Sec. 34-44. Unlawful taking of water.
Sec. 34-45. Unlawful use of city's water.
Sec. 34-46. Injuries to water system.
Sec. 34-47. Title to water service apparatus.
Sec. 34-48. Penalties.
Secs. 34-49—34-60. Reserved.

Division 3. Reserved

Secs. 34-61—34-85. Reserved.

Division 4. Reserved

Secs. 34-86—34-100. Reserved.

Division 5. Reserved

Secs. 34-101—34-120. Reserved.

Division 6. Rates and Charges

Sec. 34-121. Establishment of rate schedules.
Sec. 34-121.1. Pass-through of EAA permit fee.
Sec. 34-121.2. Pass-through of Water Uplift Assistance Program fee.
Sec. 34-122. Rate schedules.
Sec. 34-122.1. Base use amount calculation for general and wholesale customers.
Sec. 34-122.2. Affordability reduction in meter charges for residential customers.
Sec. 34-122.3. Economic development rate schedule.
Sec. 34-122.4. Water service interconnect rate.
Sec. 34-123. Variance procedure for general water service customers.
Sec. 34-124. Irrigation water service charge.
Sec. 34-124.1. Variance procedure for irrigation water service customers.
Sec. 34-125. Multiple meters serving residential and general customers.
Sec. 34-125.1. Pipeline damage cost recovery fees.
Sec. 34-126. Fire flow test fee.
Sec. 34-127. Private fire protection water service connections; rates; billing; late payment; termination.
Sec. 34-128. Drought surcharge purpose, definitions and billing cycles.
Sec. 34-128.1. Drought surcharge.
Sec. 34-128.2. Reserved.
Sec. 34-128.3. Reserved.
Sec. 34-128.4. Uses of fees derived from the drought surcharge.
Sec. 34-129. Administrative relief from imposition of drought surcharge; notification.
Sec. 34-130. Meter trip fee.
Sec. 34-131. Fire hydrant water usage regulation, rates, and meter fees.
Sec. 34-132. Same-day meter turn-on fee.
Sec. 34-133. Bench meter test fee.
Sec. 34-134. Annual irrigation system evaluation compliance fees.
Sec. 34-135. Noncompliance charge.
Sec. 34-135.1. Uses of fees derived from the noncompliance charge.
Sec. 34-135.2. Dispute resolution.
Secs. 34-136—34-145. Reserved.

Article III. Sewer Service and Rates

Division 1. Generally

Secs. 34-146—34-155. Reserved.

Division 2. Reserved

Secs. 34-156—34-195. Reserved.

Division 3. Reserved

Secs. 34-196—34-225. Reserved.

Division 4. Rates and Charges

Sec. 34-226. Establishment of rates and schedules, rates schedules, and affordability discount analysis.
Sec. 34-226.1. Methods for establishing monthly residential charges.
Sec. 34-226.2. Flat rate sewer program.
Sec. 34-226.3. Industrial waste surcharges.
Sec. 34-226.4. Pass-through of sewer uplift assistance program fee.
Sec. 34-227. Determination in extenuating circumstances.
Secs. 34-228—34-230. Reserved.
Sec. 34-231. Reserved.
Sec. 34-232. Reserved.
Sec. 34-233. Collection of charges.
Sec. 34-234. Reserved.
Sec. 34-235. Reserved.
Sec. 34-236. Lift station maintenance fee.
Sec. 34-237. Dye testing fee.
Sec. 24-238. Reserved.
Secs. 34-239—34-270. Reserved.

Article IV. Drought Management, Water Conservation and Reuse

Division 1. Regulated Activities

Sec. 34-271. Definitions.
Sec. 34-272. Activities to be regulated on and after effective dates.
Sec. 34-273. Activities to be regulated on and after January 1, 2006.
Sec. 34-274. Other activities to be regulated on and after January 1, 2006.
Sec. 34-275. Landscaping regulations generally applicable on and after January 1, 2006.
Sec. 34-276. Variances.
Sec. 34-277. Enforcement.
Secs. 34-278—34-286. Reserved.

Division 2. Enforcement

Sec. 34-287. Reserved.
Sec. 34-288. Violations.
Sec. 34-289. Continued violations.
Sec. 34-290. Enforcement personnel.
Sec. 34-291. Education and enforcement.
Sec. 34-292. Defenses to prosecution.
Sec. 34-293. Responsible party.
Sec. 34-294. Additional enforcement remedies.
Sec. 34-295. Penalties.
Sec. 34-296. Nuisance.
Sec. 34-297. Access to premises.
Sec. 34-298. Access to information.
Sec. 34-299. Severability.
Sec. 34-300. This article to prevail if conflict.

Division 3. Reserved

Secs. 34-301—34-315. Reserved.

Division 4. Drought Management Stages

Sec. 34-316. Adoption of a drought management plan, water use reduction measures, and aquifer stage conditions applicable within the corporate limits of the city and its extraterritorial jurisdiction.

Sec. 34-317. Reserved.
Sec. 34-318. Bases of water use reduction measures and aquifer stage conditions.
Sec. 34-319. Implementation and termination of water use reduction measures and stages, generally.
Sec. 34-320. Declaration and termination of water use reduction measures; notice by publication required.
Secs. 34-321, 34-322. Reserved.
Sec. 34-323. Designated landscape irrigation times and days.
Secs. 34-324—34-331. Reserved.
Sec. 34-332. Specific water use reduction measures.
Sec. 34-333. Severability.
Sec. 34-334. This division to prevail if conflict.
Secs. 34-335—34-350. Reserved.

Division 5. Reserved

Secs. 34-351—34-425. Reserved.

Article V. Sewage Transportation, Treatment and Disposal

Division 1. Generally

Secs. 34-426—34-440. Reserved.

Division 2. Toilets, Septic Tanks, Privies

Sec. 34-441. Definitions.
Sec. 34-442. Enforcement.
Sec. 34-443. Mandatory disposal facilities.
Sec. 34-444. Connection to sanitary sewer.
Sec. 34-445. Alternate facilities where sewer connection not required.
Sec. 34-446. Abatement of nonconforming facilities.
Sec. 34-447. Maintenance and repair of sewer laterals—Generally.
Sec. 34-448. Same—Notice to abate; applicability.
Sec. 34-449. Same—Failure of owner to repair; penalty.
Sec. 34-450. Same—Hearing for termination of water service.
Sec. 34-451. Septic tanks—Permit required; percolation tests.
Sec. 34-452. Same—Permit fee.
Sec. 34-453. Same—Requirements for systems.
Sec. 34-454. Same—Inspection by health officer.
Sec. 34-455. Privies—Construction requirements.
Sec. 34-456. Same—Maintenance; repair.
Secs. 34-457—34-470. Reserved.

Division 3. Industrial Waste

Sec. 34-471. General provisions.
Sec. 34-472. Regulations.
Sec. 34-473. Wastewater pretreatment.
Sec. 34-474. Wastewater discharge permit application.
Sec. 34-475. Wastewater discharge permit issuance process.
Sec. 34-476. Liquid waste transportation regulations.
Sec. 34-477. Compliance monitoring.
Sec. 34-478. Reporting requirements.
Sec. 34-479. Confidential information.
Sec. 34-480. Publication of users in significant noncompliance.
Sec. 34-481. Enforcement.
Sec. 34-482. Penalties.

Sec. 34-483. Supplemental enforcement action.
Sec. 34-484. Fees.
Secs. 34-485—34-510. Reserved.

Division 4. Liquid Waste Transportation and Disposal Regulations

Sec. 34-511. Definitions.
Sec. 34-512. Liquid waste transportation.
Sec. 34-513. Permit requirements.
Sec. 34-514. Liquid waste vehicle specifications and maintenance requirements.
Sec. 34-515. Responsibilities of liquid waste transporters.
Sec. 34-516. Manifest system.
Sec. 34-517. Disposal site procedures.
Sec. 34-518. Responsibilities of generator and disposal site operator.
Sec. 34-519. Suspension of permit.
Sec. 34-520. Enforcement.
Sec. 34-521. Fees.
Sec. 34-522. Severability.
Sec. 34-523. Right of revision.
Sec. 34-524. Conflict.

Division 5. Fats, Oils and Grease

Sec. 34-525. General provisions.
Sec. 34-526. Interceptors.
Sec. 34-527. Maintenance.
Sec. 34-528. Record keeping.
Sec. 34-529. Prohibitions.
Sec. 34-530. Fees.
Sec. 34-531. Enforcement.
Secs. 34-532—34-550. Reserved.

Article VI. Water Quality Control and Pollution Prevention

Division 1. Generally

Secs. 34-551—34-565. Reserved.

Division 2. Wells

Sec. 34-566. Powers and duties of the SAWS board.
Sec. 34-566.5. Definitions.
Sec. 34-567. Permit for drilling new well required.
Sec. 34-568. Permit for repair or plugging of existing well required.
Sec. 34-569. Application for permit—Information required.
Sec. 34-570. Inspection before issuance of permit.
Sec. 34-571. Execution of permit.
Sec. 34-572. Permit fees.
Sec. 34-573. Nuisance of defective or contaminating wells, abatement.
Sec. 34-574. Abandoned wells.
Sec. 34-575. Failure to abate nuisance, remedies.
Sec. 34-576. Variance and appeal.
Sec. 34-577. Criminal penalty.
Sec. 34-578. Civil penalty.
Sec. 34-579. Additional enforcement remedies.
Sec. 34-580. Conflict.
Sec. 34-581. Severability.
Secs. 34-582—34-590. Reserved.

Division 3. Watercourses

Sec. 34-591. Condemnation of obstruction and encroachments by city.
Sec. 34-592. Removal of obstruction and encroachments by city, lien.
Sec. 34-593. Removal of growths or encroachments by property owners.
Sec. 34-594. Seining and netting in San Antonio River.
Secs. 34-595—34-605. Reserved.

Division 4. Water Quality Control

Secs. 34-606—34-700. Reserved.

Division 5. Prohibited Discharges Into the Municipal Separate Storm Sewer System

Subdivision A. General MS4 Protections

Sec. 34-701. Definitions.
Sec. 34-702. Prohibited discharges into the MS4.
Sec. 34-703. Placing brush cuttings, clippings, and/or rubbish into the MS4.
Sec. 34-704. Placing household hazardous wastes into the MS4.
Sec. 34-705. Prohibiting the improper use of pesticides in order to keep them from entering the MS4.
Sec. 34-706. Authority to enforce outside the city limits.
Sec. 34-707. Authority to enforce outside the city limits, but within the ETJ.
Sec. 34-708. Criminal penalty.
Sec. 34-709. Civil penalty.
Sec. 34-710. Additional enforcement remedies.
Sec. 34-711. Conflict.
Sec. 34-712. Severability.
Secs. 34-713—34-800. Reserved.

Subdivision B. Stormwater Compliance for Construction Activity

Sec. 34-801. Statement of purpose.
Sec. 34-802. Definitions.
Sec. 34-803. Applicability of Subdivision B entitled "Storm Water Compliance for Construction Activity," and declaration of nuisance for violation.
Sec. 34-804. General prohibition against construction pollution of the municipal separate storm sewer; measurable volumes for violation; required TCEQ TPDES permit; SWPPP and WPAP (as applicable).
Sec. 34-805. Additional federal and state requirements generally applicable to responsible parties associated with TPDES Regulated Projects: proper custody of federal or state storm water pollution prevention plans (SWPPP); applicable to parties required to provide TPDES notice of intent (NOI) or Small Construction Site Notice (CSN) to EPA or TCEQ and San Antonio Water System (SAWS); requirement to post TPDES Notices at site; requirement to make SWPPP available to city inspector; copy of Notice of Termination (NOT) or small construction site or large construction site secondary operator completed site notices required by TCEQ or SAWS.
Sec. 34-806. Best management practices (BMP) guidelines; compliance with this subdivision should not be relied upon by the regulated community to automatically effect compliance with what may be more stringent federal or state regulations pertaining to EPA/TCEQ permitted construction sites; explanation of federal jurisdiction.
Sec. 34-807. Enforcement procedures.
Sec. 34-808. Criminal and civil enforcement.

Sec. 34-809. Declaration of nuisance within applicable limits of the city's ETJ; city's authority to enforce within the ETJ.
Secs. 34-810—34-849. Reserved.

Subdivision C. Storm Water Compliance for Industrial and Commercial Activities

Sec. 34-850. General provisions.
Sec. 34-851. MSGP permit required.
Sec. 34-852. Conditional no exposure certification.
Sec. 34-853. Storm water pollution prevention plan requirements.
Sec. 34-854. Inspection and entry.
Sec. 34-855. Falsifying information.
Sec. 34-856. Enforcement and penalties.

Division 6. Aquifer Recharge Zone and Watershed Protection

Subdivision A. General

Sec. 34-901. Statement of purpose.
Sec. 34-902. Administration.
Sec. 34-903. Compliance and violations.
Sec. 34-904. Abrogation and greater restrictions.
Secs. 34-905, 34-906. Reserved
Sec. 34-907. Interpretation.
Sec. 34-908. Definitions.

Subdivision B. Violations and Enforcement

Sec. 34-909. Violations, defenses and enforcement.

Subdivision C. Letter of Certification

Sec. 34-910. Letter of certification required.
Sec. 34-911. Application for letter of certification; contents.

Subdivision D. Pollution Prevention Criteria

Sec. 34-912. Floodplain preservation area.
Sec. 34-913. Floodplain buffer zone.
Sec. 34-914. Drainage area.
Secs. 34-915—34-919. Reserved.
Sec. 34-920. Recharge feature protection and buffer zone.
Secs. 34-921—34-924. Reserved.
Sec. 34-925. Pollution prevention criteria.
Sec. 34-926. Pollution prevention criteria in Category 1.
Secs. 34-927—34-929. Reserved.
Sec. 34-930. Pollution prevention criteria in Category 2.
Secs. 34-931—34-934. Reserved.
Sec. 34-935. Pollution prevention criteria in Category 3.
Secs. 34-936—34-944. Reserved.
Sec. 34-945. Multi-category developments.
Secs. 34-946—34-959. Reserved.

Subdivision E. Additional Control Strategies

Sec. 34-960. Detention, sedimentation and filtration for water quality control.
Secs. 34-961—34-964. Reserved.
Sec. 34-965. Street improvements.
Secs. 34-966—34-969. Reserved.
Sec. 34-970. Best Management Practices (BMP's).
Secs. 34-971—34-974. Reserved.

Sec. 34-975. Construction sequencing and erosion controls.
Secs. 34-976—34-979. Reserved.

Subdivision F. Variance and Appeal

Sec. 34-980. Variance procedure.
Sec. 34-981—34-999. Reserved.

Division 7. Underground Storage Tank Management Program

Subdivision A. General Provisions

Sec. 34-1000. Purpose.
Sec. 34-1001. Applicability.
Secs. 34-1002—34-1005. Reserved.

Subdivision B. Underground Storage Tank System Permitting

Sec. 34-1006. Permit required.
Sec. 34-1007. Information required.
Sec. 34-1008. Permit procedures.
Sec. 34-1009. Inspections by San Antonio Water System.
Sec. 34-1010. Permit renewal.
Sec. 34-1011. Permit transfers.
Sec. 34-1012. Amendments.
Sec. 34-1013. Maintenance of records.
Sec. 34-1014. Public disclosure of information.
Sec. 34-1015. Fee waiver.
Secs. 34-1016—34-1019. Reserved.

Subdivision C. Monitoring and Testing Requirements

Sec. 34-1020. Monitoring plan requirements.
Sec. 34-1021. UST testing requirements.
Sec. 34-1022. Tank observation and leak detection systems.
Sec. 34-1023. Test results.
Sec. 34-1024. Alternate testing methods.
Sec. 34-1025. Overfill and overspill prevention devices.
Sec. 34-1026. Single-wall UST removal.
Sec. 34-1027. Insurance requirements.
Secs. 34-1028—34-1029. Reserved.

Subdivision D. Violations and Enforcement

Sec. 34-1030. Failure to perform.
Sec. 34-1031. Enforcement.
Secs. 34-1032—34-1039. Reserved.

Subdivision E. Variance Procedure

Sec. 34-1040. Variance procedure.
Secs. 34-1041—34-1074. Reserved.

Division 8. Backflow Prevention

Sec. 34-1075. General provisions.
Sec. 34-1076. Backflow prevention assemblies.
Sec. 34-1077. Inspection and testing.
Sec. 34-1078. Fees.
Sec. 34-1079. Emergency suspension.
Sec. 34-1080. Access to property.
Sec. 34-1081. Enforcement.

Secs. 34-1082—34-1100. Reserved.

Article VII. Drainage Utility

Division 1. Creation of a Drainage Utility

Sec. 34-1101. Establishment of drainage utility, calculation of drainage charges; service area; exemptions, and dedication of assets.
Sec. 34-1102. No effect on land owner obligations under city ordinances; no waiver of immunity.
Sec. 34-1103. Other laws.
Secs. 34-1104—34-1110. Reserved.

Division 2. Administration of Drainage Utility

Sec. 34-1111. Definitions.
Sec. 34-1112. Drainage utility fund.
Sec. 34-1113. Administration of drainage utility.
Sec. 34-1114. Drainage utility charges.
Sec. 34-1115. Billing, payments, and penalties.
Sec. 34-1116. Appeal of impervious area assignment.
Sec. 34-1117. Credit application.
Secs. 34-1118—34-1140. Reserved.

Article VIII. Recycled Water Service and Rates

Division 1. Generally

Sec. 34-1141. Purpose of recycled water program.
Sec. 34-1142. Contracting for purchase of recycled water.
Sec. 34-1143. Authorized uses of recycled water.
Sec. 34-1144. Prohibited uses of recycled water.
Sec. 34-1145. Prohibited sales of recycled water.
Secs. 34-1146—34-1160. Reserved.

Division 2. Quality

Sec. 34-1161. Generally.
Sec. 34-1162. Supplying below standard recycled water to another.
Sec. 34-1163. Analyses of recycled water required.
Secs. 34-1164—34-1180. Reserved.

Division 3. System

Sec. 34-1181. Definitions.
Sec. 34-1182. Extension policy.
Sec. 34-1183. SAWS not obligated to proceed.
Sec. 34-1184. Specifications for service connections.

ARTICLE I. IN GENERAL

DIVISION 1. GENERALLY

Sec. 34-1.01. Title.

This chapter shall be known as the Water and Sewer Chapter of the City of San Antonio City Code.
(Ord. No. 80330, § 1, 6-16-94)

Sec. 34-1.02. Severability of chapter.

If for any reason any one or more sections, sentences, clauses or parts of this chapter are held invalid, such judgment shall not affect, impair or invalidate the remaining provisions of this chapter but shall be confined in its operation to the specific sections, sentences, clauses or parts of this chapter held invalid. The invalidity of any section, sentence, clause or part of this chapter in any one or more instances shall not affect or prejudice in any way the validity of this chapter in any other instance.
(Ord. No. 80330, § 1, 6-16-94)

Sec. 34-1.03. Rules of construction.

(a) Words, phrases and terms defined in this chapter shall be given the defined meaning.

(b) Words, phrases and terms not defined in this chapter shall be given their usual and customary meanings except where the context clearly indicates a different meaning.

(c) The text of this chapter shall control any captions, or titles.

(d) The word "shall" is mandatory and not permissive; the word "may" is permissive and not mandatory.

(e) Words used in the singular include the plural and words used in the plural include the singular.

(f) Words used in the present tense include the future tense and words used in the future tense include the present tense.

(g) In their interpretation and application, the provisions of this Chapter shall be deemed to be minimal in nature and whenever the provisions, standards or requirements of any other applicable chapter of this Code are higher or more restrictive, the latter shall control.
(Ord. No. 80330, § 1, 6-16-94)

Sec. 34-1.04. Tunnel rental fees.

The increase of the Storm Water Utility Fund by the establishment of a tunnel inlet rental fee of twenty-five dollars ($25.00) per tour and one hundred dollars ($100.00) per rental of the tunnel inlet or outlet structure for special events is hereby approved.
(Ord. No. 96415, § 1, 9-19-02)

Sec. 34-1.05. Floodplain verification letter fee.

The increase of the Storm Water Utility Fund by the establishment of a floodplain verification letter fee of thirty dollars ($30.00) per request letter processed is hereby approved.
(Ord. No. 96416, § 1, 9-19-02)

Sec. 34-1.06. Cost of service reviews of miscellaneous and special services fees.

All SAWS miscellaneous and special services fees authorized in chapter 34 that are not rates as set forth in articles II, III, VIII, and IX shall be subject to a comprehensive cost of service review every three years. Each cost of service review shall be evaluated by the supervisor of public utilities and the review's recommendations on fee amounts must be approved by ordinance by the city council in order for the fees to be adjusted. The first required comprehensive cost of service review shall be conducted on all such fees prior to any proposed updates for 2021.
(Ord. No. 2017-12-07-0928, § 3(Att. II), 12-7-17)

DIVISION 2. DEFINITIONS

Sec. 34-2.01. Definitions.

For the purposes of this chapter the following terms, phrases, words and their derivations shall have the meaning given in this section. In the event a definition listed in Article I, Division 2,

herein is given a more specific meaning within another article/division of this chapter, such more specific definition shall control.

Athletic field. A sports playing field, the essential feature of which is turf grass, used primarily for organized sports for public or private schools, professional sports, or sanctioned league play.

Base use amount for general and wholesale water service customers. For general class water customers the base is defined as one hundred (100) percent of the average monthly water consumption with such amount being calculated by adding the monthly consumption, deducting irrigation use either calculated or metered, for the previous calendar year, and dividing the sum by twelve (12). For a new general class water customer who does not have a record of prior-year consumption history in order to establish a base use, a default base amount shall be assigned using the average monthly consumption for the prior calendar year for the average apartment, general or industrial account (as applicable) having the same meter size and sub-classification as the customer. A table of average monthly consumptions by general class sub-classification and meter size shall be updated annually by SAWS with actual prior calendar year consumption history information to serve as the source of default base amount assignments. For wholesale water service customers the base is defined as one hundred (100) percent of average monthly water consumption for the previous calendar year or as agreed to by the wholesale customer and approved by the SAWS board of trustees.

Board. The Board of Trustees of the San Antonio Water System, a water, wastewater and wastewater reuse agency of the City of San Antonio, established and created pursuant to the provisions of Ordinance No. 75686 and the Texas Revised Civil Statutes Annotated Article 1115.

Certificate of convenience and necessity (CCN). The area designated by the Texas Natural Resource Conservation Commission (TNRCC) within which the system operates and maintains water production and distribution facilities.

Customer service. The organizational unit of the San Antonio Water System charged with the duties of billing, collection and responding to customer inquiries.

Drip irrigation. Irrigation system (drip, porous pipe, etc.) that applies water at low-flow levels directly to the roots of the plant.

Economic development customer. Any customer that agrees in a contract to which SAWS is a party:

(1) To construct new or additional manufacturing or assembly facilities located within SAWS' service area that require a minimum capital investment of three hundred fifty million dollars ($350,000,000.00);

(2) To employ in such facilities a minimum of one thousand five hundred (1,500) persons in new or additional full time employment positions with an average salary, including benefits, of a minimum of nineteen dollars ($19.00) per hour, adjusted as of January 1 of each year for inflation and cost of living based on the Texas Consumer Price Index, as published by the comptroller of public accounts, using January 1, 2003, as the base comparative date; and

(3) To purchase potable water and wastewater treatment and service exclusively from SAWS for a period of at least ten (10) consecutive years.

End use. The use of water, typically by a customer, before it is discharged either back to the environment, an organized wastewater collection system, or an on-site wastewater system. Examples of end use include, landscape, domestic, cooling towers, manufacturing. These uses may be further defined. For example within the broad category of "domestic" end use is laundry, shower, dishwasher use.

Flow study. For the purposes of Chapter 34, Articles I and II, a study to estimate how much water from a single meter service is used for irrigation and other on-site uses. To conduct the flow study all irrigation from a meter is discontinued for a 14-day period and daily incom-

ing meter readings are recorded. The resulting consumptions are to be averaged, then annualized and compared to the previous twelve (12) months of water consumption.

This information will be used to determine the volume to be attributed to irrigation and charged the irrigation water service rate.

Full time employment. Employment for a minimum of thirty-five (35) hours per week.

General customer. Any customer not meeting the definition of a residential or wholesale customer as set forth herein.

Golf course. An irrigated and landscaped playing area made up of greens, tees, fairways, roughs and related areas used for the playing of golf.

Hand-held hose. A hose attended by one (1) person, fitted with a manual or automatic shutoff nozzle.

Hose-end sprinkler. A sprinkler that applies water that is piped through a flexible movable hose to landscape plants.

I.C.L. Inside the corporate limits of the city.

Irrigation system. A system of fixed pipes and emitters, drip, or heads that apply water to landscape plants or turfgrass, including, but not limited to, in-ground and permanent irrigation systems.

Irrigation water. The application of water to grow or maintain landscaping plants, such as flowers, ground covers, turf or grasses, shrubs, and trees. For purposes of Water Service and Rates, Article I and Article II does not include:

(1) Essential use without waste of water by a commercial nursery to the extent the water is used for production rather than decorative landscaping;

(2) Treated wastewater referred to as recycled water or on-site reuse water such as cooling tower blow-down or other process water used at least once on-site and then reused for landscape irrigation;

(3) Application of irrigation water by means of a bucket [not to exceed five (5) gallons in capacity], hand-held hose, hose-end sprinkler or soaker hose;

(4) Water used without waste by a golf course, athletic field, public school, or public park.

Landscape irrigation plan. The plan will include the type of irrigation system installed, zones, and square footage irrigated. It may also include a description of performance standards such as a calculated distribution uniformity, rain sensors, moisture meters, and other systems that increase the efficiency of the overall system, identification, location and dimensions of plant materials, description of plant materials shown on the plan, including names (common and botanical) or other information the customer would like to submit supporting their claim.

O.C.L. Outside the corporate limits of the city.

Outdoor landscaping. Any member of the Kingdom Plantae, including any tree, shrub, vine, herb, flower, succulent, groundcover or grass species, that grows or has been planted out-of-doors.

Public park. Municipal, county, state or federal owned or operated facility or tract of land, other than a golf course, maintained as a place of beauty or of public recreation.

Public school. A free tax-supported school controlled by a local governmental authority.

Quality control. The organizational unit of the San Antonio Water System charged with monitoring, testing, and preserving both the potable water quality and wastewater quality of the service area, as well as administering the San Antonio Pretreatment Program.

Regional agent boundary (RAB). The geographic region within which the system operates and maintains sanitary sewer facilities.

Residential customer. A single or multi-family dwelling unit containing two (2) or less family units.

SAWS. The San Antonio Water System, a water, wastewater and wastewater reuse agency

of the city, established and created pursuant to the provisions of Ordinance No. 75686 and Texas Revised Civil Statutes Annotated Article 1115.

Service area. The geographic region within which the system operates and maintains water and/or sanitary sewer facilities.

System. All properties, facilities, and plants currently owned, operated, and maintained by the city and/or board for the supply, treatment, and transmission and distribution of treated potable water, chilled water, and steam, for the collection and treatment of wastewater, and for water reuse, together with all future extensions, improvements, purchases, repairs, replacements and additions thereto, whether situated within or without the limits of the city, all water (in any form) owned by the city, and any other projects and programs of the system, provided, however, that the city expressly retains the right to incorporate (1) a stormwater system as provided by the provisions of Section 402.041 through 402.054, as amended, local government Code, or other similar law, and (2) any other related system as provided by the laws of the State of Texas as a part of the system. The system shall not include any special project of any water or water-related properties and facilities owned by the city as part of its electric and gas systems.

Turf. A surface layer of earth containing mowed grass with roots.

Wholesale customer. A customer which has entered into a contract for wholesale water and/or sewer service with the System.
(Ord. No. 80330, § 1, 6-16-94; Ord. No. 92752, § 1, 10-19-00; Ord. No. 97264, § 1(Att. 1), 2-27-03; Ord. No. 2017-12-07-0928, § 3(Att. II), 12-7-17; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

DIVISION 3. BILLING AND COLLECTION OF CHARGES FOR SERVICES PROVIDED BY THE SYSTEM

Sec. 34-3.01. Deposits.

An advance deposit of an amount reasonably adequate to secure payment of the customer's final bill shall be required of all new customers. For a new residential water/wastewater account, the amount of the deposit shall be one hundred dollars ($100.00). For a new residential water-only account, the amount of the deposit shall be sixty dollars ($60.00). For a new residential water/wastewater customer who qualifies for participation in the SAWS Uplift Assistance Program, the amount of the deposit shall be fifty dollars ($50.00). For a new residential water-only customer who qualifies for participation in the SAWS Uplift Assistance Program, the amount of the deposit shall be thirty dollars ($30.00). For a new residential wastewater-only customer who qualifies for participation in the SAWS Uplift Assistance Program, the amount of the deposit shall be twenty dollars ($20.00). For a new residential wastewater-only account, the amount of the deposit shall be forty dollars ($40.00). For a new general class water/wastewater account, the amount of the deposit shall vary by meter size:

Meter Size	General Class
⅝"	$100
¾"	$150
1"	$250
1.5"	$500
2"	$800
3"	$1,600
4"	$2,500
6"	$5,000
8"	$8,000
10"	$10,000
12"	$14,000

Such amounts for other types of accounts shall be determined in accordance with system Resolution No. 93-107, and as amended which establishes a policy for customer deposits. The deposit amounts listed in section 34-3.01 are effective for new accounts established on or after January 1, 2023. These deposit amounts shall be adjusted on January 1 of each year thereafter by the percentage of any approved monthly charge change (greater than zero (0)) for the next year in the monthly water and sewer charges for the average SAWS residential customer, and subsequently rounded to the nearest dollar.
(Ord. No. 80330, § 1, 6-16-94; Ord. No. 2007-12-13-1345, § 2(Att. B), 12-13-07; Ord. No. 2017-12-07-0928, § 3(Att. II), 12-7-17; Res. No. 18-262,

11-13-18; Res. No. 19-280, 7(Att. V), 11-5-19; Ord. No. 2022-11-10-0867, § 2(Att. II), 11-10-22)

Sec. 34-3.02. Payment of current monthly charges.

The monthly charges for all applicable services provided by the system are payable on or before fifteen (15) days from the date of mailing of the bill.
(Ord. No. 80330, § 1, 6-16-94)

Sec. 34-3.03. Penalty for late payment.

A penalty for late payment in the amount of five (5) percent of the net charges shall be added to the current charges owing if full payment for such charges is not made to the system on or before fifteen (15) days from date of mailing of the bill. The late payment penalty shall not be assessed for a residential customer who qualifies for participation in the SAWS Uplift Assistance Program.
(Ord. No. 80330, § 1, 6-16-94; Ord. No. 2022-11-10-0867, § 2(Att. II), 11-10-22)

Sec. 34-3.04. Extension to penalty for late payment.

(a) Any applicable statute, rule, or regulation pertaining to customers classified as state agencies and political subdivisions shall prevail over any provision of this section in conflict therewith. In the event of such conflict, the system shall promulgate regulations applicable to customers classified as state agencies and political subdivisions which conform to the applicable statute, rule, or regulation.

(b) The penalty provision of this section may not apply to residential customers classified as senior citizens, i.e., customers sixty (60) years or older, or as "senior citizen" is otherwise defined by applicable federal, state or local law. Penalty provisions for customers classified as senior citizens shall be in accordance with such regulations and under such terms as the system may prescribe.

(c) Section 34-3.03 shall not apply to a customer who meets the following criteria:

(1) The customer can satisfactorily prove to the system that he/she is disabled through the submittal of a current receipt of supplemental security income (SSI) benefits.

(2) The customer requests that the system delay without penalty the payment date for his/her most recent utility bill or the most recent utility bill and each subsequent utility bill until the twenty-fifth (25th) day after the date the bill is issued.

(3) The customer is a residential customer occupying the premises for which the delay is requested.

(4) The customer is not currently enrolled in the SAWS preauthorized electronic payment plan.

(5) The customer acknowledges that a late penalty in the amount of five (5) percent of the net charges will be added to the current charges owed if full payment for such charges is not made to the system on or before twenty-five (25) days after the date the bill is issued.

(6) Customer further acknowledges that annual recertification is required.

The system is both delegated the authority to and is required to update this subsection to reflect any additional requirements or changes to such requirements resulting from any amendments to applicable federal, state or local rules.
(Ord. No. 80330, § 1, 6-16-94; Ord. No. 99892, § 1(Att. I), 10-14-04)

Sec. 34-3.05. Reserved.

Editor's note—Ord. No. 2022-11-10-0867, § 2(Att. II), adopted Nov. 10, 2022, repealed § 34-3.05, which pertained to transfer of service; fee and derived from Ord. No. 80330, adopted June 16, 1994.

Sec. 34-3.06. Termination of system service for non-payment of applicable charge.

In the event payment of applicable charges for system services is not made on or before thirty

(30) days after the date of the mailing of the system bill, system services shall be subject to termination in accordance with the procedures set out herein.
(Ord. No. 80330, § 1, 6-16-94)

Sec. 34-3.07. Encroachment or easement release application processing fee.

A request to allow an encroachment on, over and/or across an existing SAWS easement or to release (in whole or in part) an existing SAWS easement must be submitted to SAWS development engineering services in accordance with procedures and requirements established by SAWS. The non-refundable application processing fee for the encroachment or release request is eight hundred eighty-three dollars ($883.00). SAWS may require applicant to verify ownership, and if property owner is a legal entity, documentation will be required demonstrating applicant's authority to make an application on behalf of the entity. If the encroachment is approved by SAWS, an agreement, prepared by SAWS corporate real estate, will be entered into between the property owner and SAWS granting the encroachment. If the easement release request is approved, SAWS corporate real estate will either: (i) if SAWS paid consideration for the easement, enter into negotiations for consideration for the full or partial release of the easement, or (ii) if the easement was dedicated to SAWS, prepare the release for SAWS execution. This fee amount is effective January 1, 2025. The fee amount shall be adjusted on January 1 of each year thereafter by the percentage difference (greater than zero (0)) between the Consumer Price Index for All Urban Consumers (CPI-U) as it is calculated by the United States Bureau of Labor Statistics at the end of the month of July prior to the next year and as it was calculated at the end of the month of July one (1) year earlier, and subsequently rounded to the nearest dollar. SAWS will periodically perform a cost of service analysis to ensure that the fee charged does not exceed the cost of providing the service.
(Ord. No. 2007-12-13-1345, § 2(Att. B), 12-13-07; Ord. No. 2015-11-19-0956, § 4(Att. III), 11-19-15; Ord. No. 2017-12-07-0928, § 3(Att. II), 12-7-17; Res. No. 18-262, 11-13-18; Res. No. 19-280, 7(Att. V), 11-5-19; Ord. No. 2022-11-10-0867, § 2(Att. II), 11-10-22; Res. No. 2023-198, 10-3-23; Res. No. 2024-227, § 7(Att. IV), 11-5-24)

Sec. 34-3.08. Meter locate multiple trip fee.

If a customer's request for onsite water and/or wastewater utility location services requires more than one trip to a specific address, the customer shall be assessed a fee of fifty-nine dollars ($59.00) for each additional trip. This fee amount is effective January 1, 2025. The fee amount shall be adjusted on January 1 of each year thereafter by the percentage difference (greater than zero (0)) between the Consumer Price Index for All Urban Consumers (CPI-U) as it is calculated by the United States Bureau of Labor Statistics at the end of the month of July prior to the next year and as it was calculated at the end of the month of July one (1) year earlier, and subsequently rounded to the nearest dollar. SAWS will periodically perform a cost of service analysis to ensure that the fee charged does not exceed the cost of providing the service.
(Ord. No. 2022-11-10-0867, § 2(Att. II), 11-10-22; Res. No. 2023-198, 10-3-23; Res. No. 2024-227, § 7(Att. IV), 11-5-24)

DIVISION 4. NOTICE AND HEARING REQUIREMENTS PRIOR TO TERMINATION OF SERVICE

Sec. 34-4.01. Issuance of final notice.

Prior to any action being taken to terminate a customer's service for non-payment of applicable charges, the system shall formally notify such customer of their right to a hearing on the matter through the issuance of a final notice.
(Ord. No. 80330, § 1, 6-16-94)

Sec. 34-4.02. Hearing procedure.

The system shall follow the pretermination administrative hearing procedure set out in Schedule 1 which is attached hereto for customer notification and convenience. In the event the system duly amends such procedure from time to time, an updated version of such procedure shall be supplied to the City of San Antonio City

Clerk. Copies of the system's most current Pretermination Administrative Hearing Procedures shall be available to all system customers upon request, at the system's customer service locations.
(Ord. No. 80330, § 1, 6-16-94)

Editor's note—Schedule 1 referenced above is set out at length at the end of this chapter.

DIVISION 5. REINSTATEMENT OF SYSTEM SERVICE

Sec. 34-5.01. Sewer service-only reinstatement charges.

For SAWS sewer service customers who receive water service from a different utility, the system shall reinstate sewer service terminated for nonpayment of charges upon payment by the customer of all outstanding and owing service charges as shown on the bill, plus reimbursement to SAWS of any additional fees paid by SAWS to the serving water utility for the shut-off and turn-on of the customer's account.
(Ord. No. 80330, § 1, 6-16-94; Ord. No. 2017-12-07-0928, § 3(Att. II), 12-7-17)

Sec. 34-5.02. Other reinstatement charges.

Additionally, under certain special conditions or events, the procedures and charges relative to reinstatement of water service are as follows:

(a) If a customer, whose service has been discontinued in accordance with division 4 is found to have reinstated his water service at the curb stop without approval of the system, the customer's meter shall be removed to preclude illegal reinstatement of service by the customer, and a fee shall be added to the customer's account in the amount of one hundred thirty-four dollars ($134.00) to recover the cost of removal of the illegal service connection.

Additionally, a fee shall be added to the customer's account in the amount of four hundred and fifty-seven dollars ($457.00) to recover the cost of capping the customer's service line.

As a condition for service reinstatement, after removal of an illegal service connection or after a meter has been found to be damaged or illegally removed, one of the following fees shall also be assessed a customer's account to replace the damaged or illegally removed meter depending on the size and type of meter as listed below:

Meter Size	*Mechanical Meter*	*Connect H2O Meter*
⅝"	$97.00	$156.00
¾"	$118.00	$160.00
1"	$149.00	$213.00
1.5"	$303.00	$492.00
2"	$463.00	$625.00

If the customer is found to have tampered or damaged an associated Connect H2O Meter, the associated valve, the associated lock, or the plug installed to cap the associated service line, one or more of the following charges shall be added to the customer's account depending on the piece of equipment damaged:

Connect H2O Meter tampering fee	$58.00
Valve tampering fee	$77.00
Lock tampering fee	$61.00
Plug tampering fee	$74.00

(b) In addition, the customer shall be charged the cost of the estimated amount of water used between the time the customer's service was disconnected for non-payment and the time the customer's illegal straight connection was discovered. For a residential customer, the charge for the water used will be calculated using the winter average (see section 34-226.1) for all SAWS residential customers. For a general class customer, the charge for water used will be calculated using the appropriate average monthly consumption amount by meter size listed in the table of average monthly consumptions by general class sub-classification a meter

size established by SAWS and updated on an annual basis as defined in section 34-2.01.

(c) Full payment of all charges incurred under the terms of section 34-3.01, paragraphs (a) and (b) above must be made prior to the reinstatement of service.

(d) If a customer presents a check or other negotiable instrument in payment of service fees that is not honored by the bank or other financial institution upon which the check or other negotiable instrument is drawn, a service charge of thirty dollars ($30.00) shall be added to the amount due the system by the customer; provided, however, that if the instrument is returned by the financial institution because of error on its part, the service charge will not be added.

(e) All fee amounts listed in section 34-3.01, paragraphs (a) and (b) above are effective January 1, 2025. The fee amounts shall be adjusted on January 1 of each year thereafter by the percentage difference (greater than zero (0)) between the Consumer Price Index for All Urban Consumers (CPI-U) as it is calculated by the United States Bureau of Labor Statistics at the end of the month of July prior to the next year and as it was calculated at the end of the month of July one (1) year earlier, and subsequently rounded to the nearest dollar. SAWS will periodically perform a cost of service analysis to ensure that the fees charged do not exceed the cost of providing the services.

(Ord. No. 80330, § 1, 6-16-94; Ord. No. 101685, § 3(Att. I), 11-17-05; Ord. No. 2011-12-08-1004, § 2(Exh. L), 12-8-11; Ord. No. 2017-12-07-0928, § 3(Att. II), 12-7-17; Res. No. 18-262, 11-13-18; Res. No. 19-280, 7(Att. V), 11-5-19; Ord. No. 2022-11-10-0867, § 2(Att. II), 11-10-22; Res. No. 2023-198, 10-3-23; Res. No. 2024-227, § 7(Att. IV), 11-5-24)

DIVISION 6. CUSTOMER BILL INQUIRIES

Sec. 34-6.01. Response to customer inquiries.

Customers may direct questions concerning their bills to any of the system's customer service locations during regular working hours. The system shall respond to such inquiries in a timely, consistent and comprehensive fashion.
(Ord. No. 80330, § 1, 6-16-94)

Sec. 34-6.02. Procedures and guidelines for routine customer inquiries.

The system has established procedures and guidelines to be followed for certain types of routine inquiries such as high bills and adjustments due to leakage. Such procedures are available to any customer upon request at any of the system's customer service locations.
(Ord. No. 80330, § 1, 6-16-94)

Sec. 34-6.03. Procedures and guidelines for non-routine customer inquiries.

The system has established procedures and guidelines to be followed for certain types of nonroutine inquiries. A compilation of such procedures, including methods for determining consumption during the winter sewer averaging period, is available to any customer upon request at any of the system's customer service locations.
(Ord. No. 80330, § 1, 6-16-94)

Sec. 34-6.04. Itemized statement.

When a customer requests preparation by SAWS of an itemized statement of the customer's account history for a specified period of time, a fee of thirteen dollars ($13.00) per hour of required preparation time shall be assessed the customer.
(Ord. No. 2007-12-13-1345, § 2(Att. B), 12-13-07)

DIVISION 7. APPEAL PROCEDURE

Sec. 34-7.01. Appeal committee.

The board is hereby authorized to appoint a committee of three (3) members, to be known as

the customer service appeals committee, to hear appeals from a decision to terminate service rendered by the customer review officer, as well as customer disputes concerning high bills, adjustments due to leakage, or other matters covered in sections 34-6.01 through 34-6.03 herein.
(Ord. No. 80330, § 1, 6-16-94)

Sec. 34-7.02. Procedures for appeal.

The procedures for appeal before the customer service appeals committee are set out in Schedule 3—Customer Service Appeals Committee, which is attached hereto for customer notice and convenience. In the event the system duly amends such procedure, an updated version of such procedure shall be supplied to the City of San Antonio City Clerk. Copies of the system's most current customer service appeals committee procedure shall also be available upon request at the system's customer service locations.
(Ord. No. 80330, § 1, 6-16-94)

Editor's note—Schedule 3 referenced above is set out at length at the end of this chapter.

Sec. 34-7.03. Relief granted from decision to terminate.

In the event the customer service appeals committee determines that the decision of the customer review officer to terminate service was erroneous, the committee shall direct system staff to reconnect the customer's service immediately, without payment of reinstatement charges.
(Ord. No. 80330, § 1, 6-16-94)

DIVISION 8. WATER QUALITY AND ENVIRONMENTAL EDUCATION AND ENFORCEMENT ACCOUNT

Sec. 34-8.1. Establishment of account.

SAWS is hereby directed to establish an account to be entitled the water quality and environmental education and enforcement account (hereinafter "the account"). The establishment of the account shall in no way conflict with the terms and conditions set out in Ordinance 75686 of April 30, 1992.
(Ord. No. 80574, § 1, 8-4-94)

Sec. 34-8.2. Funding source.

(a) *Civil penalties.* Certain Divisions of Chapter 34, specifically Article V, Division 2, Industrial Waste and Pretreatment, and Division 3, Liquid Waste Transportation and Disposal Regulations, and Article VI, Division 2, Wells, Division 4, Prohibited Discharges Into the Municipal Separate Storm Sewer System, Division 6, Aquifer Recharge Zone and Watershed Protection, and Division 7. Underground Storage Tank Management Program include sections imposing civil penalties in addition to criminal penalties. Civil penalties collected by the actions of SAWS and its attorneys pursuant to such sections shall be recorded in the Account created pursuant to Section 34-8.1 herein, unless expressly prohibited by law. Should any such civil penalties collected fail to be recorded in the account, the SAWS personnel and attorneys responsible for the imposition and collection of such civil penalty shall be required to justify in writing to the President/CEO why such funds were not so recorded and shall state the disposition of same.

(b) *Permit fees.* Certain Divisions of Chapter 34. specifically Article VI, Division 7, Underground Storage Tank Management Program, include sections requiring the payment of fees for the purpose of providing funding for the cost of administering and enforcing the related programs and regulations. Fees collected by the actions of SAWS pursuant to such sections shall be recorded in the account created pursuant to Section 34-8.1 herein, unless expressly prohibited by law. Should any such fee collected fail to be recorded in the account, the SAWS personnel responsible for the collection of such fees shall be required to justify in writing to the president/CEO why such funds were not so recorded and shall state the disposition of same.
(Ord. No. 80574, § 1, 8-4-94; Ord. No. 81491, § 3, 1-12-95; Ord. No. 83200, § 1, 11-16-95)

Sec. 34-8.3. Use of funds.

(a) *Civil penalties.* The funds collected from civil penalties in the account shall be utilized solely to educate the public in the areas of water quality and pollution prevention and to enhance the enforcement of the chapter divisions for

which such civil penalties were imposed. Such enhanced enforcement may include increased enforcement personnel as needed, the acquisition of additional material and equipment, and other activities directly related to the enforcement of the divisions for which civil penalties are imposed. A minimum of twenty-five (25) percent of the funds from civil penalties deposited in the account shall be used for funding activities directed towards the educating school age children on topics of water quality, conservation, environmental awareness and pollution prevention

(b) *Permit fees.* The funds collected from the payment of fees which are required to be recorded in this account shall be utilized solely for the purpose of funding the administration and enforcement of the programs and regulations under which they were collected.
(Ord. No. 80574, § 1, 8-4-94; Ord. No. 83200, § 3, 11-16-95)

Sec. 34-8.4. Funds to be kept separate.

The funds within the account shall be recorded and accounted for in a manner that distinguishes them from other SAWS funds and shall be disbursed in a manner which is consistent with the purposes for which this account has been established.
(Ord. No. 80574, § 1, 8-4-94)

DIVISION 9. ENFORCEMENT

Sec. 34-9.1. Granting of enforcement authority to SAWS.

(a) The president/CEO of SAWS is hereby granted the authority to designate qualified SAWS personnel to enforce this chapter in the manner and to the extent allowed by law.

(b) The president/CEO is specifically granted the authority to designate qualified SAWS personnel to file notices of violations of this chapter and to take all necessary actions to file complaints with the municipal prosecutor's office for violations of this chapter.
(Ord. No. 80574, § 2, 8-4-94)

Sec. 34-9.2. Granting of authority to pursue legal remedies.

The SAWS legal department is hereby granted the authority to seek legal and/or equitable remedies including the filing of criminal charges for violations of this chapter. The SAWS legal department, as well as the office of the city attorney, are hereby granted the additional authority to exercise all powers allowed under the Texas Water Code, Chapter 7, § 7.351 and § 7.352, which enforcement powers are here authorized to address violation or threat of violation of Chapter 26 of the Texas Water Code or a rule adopted or an order or a permit issued under Chapter 26 of the Texas Water Code by instituting a civil suit (under Subchapter D, General Powers and Duties of the Commission, Texas Water Code §§ 5.101, et. Seq.) in the same manner as the Texas Commission on Environmental Quality (TCEQ) in a district court for injunctive relief or civil penalty or both. The authority here authorized shall survive change in the name of the TECQ and the succession of any agency to the TCEQ. The SAWS legal department shall, for purposes of this chapter, represent the city, by ad through the San Antonio Water System.
(Ord. No. 80574, § 2, 8-4-94; Ord. No. 97000, § 2, 1-9-03)

Sec. 34-9.3. Authority of city attorney to enforce chapter.

The granting of the authority set out in section 34-9.2 herein shall in no way diminish the authority and responsibility of the city attorney to enforce Chapter 34 and diligently prosecute violations of this chapter through the municipal prosecutor's office.
(Ord. No. 80574, § 2, 6-16-94)

Sec. 34-9.4. Utility service lien.

The SAWS' Board of Trustees and the President/Chief Executive Officer is hereby granted the authority to impose a lien against an owner's property for delinquent municipal utility service bills unless the property is a homestead as protected by the Texas Constitution. The lien shall not apply to service connected in a tenant's

name after notice by the property owner to the municipality that the property is rental property or service connected in a tenant's name prior to the effective date of the ordinance imposing the lien.

The lien shall be perfected by recording in the real property records of the county where the property is located a notice of lien containing a legal description of the property and the SAWS account number for the delinquent charges. The lien may include penalties, interest, and collection costs. The lien allowed under this section shall be inferior to a bona fide mortgage lien that is recorded before the recording of SAWS lien in the real property records of the county where the property is located but the SAWS lien is superior to all other liens, including previously recorded judgment liens and any liens recorded after its lien.
(Ord. No. 2025-05-08-0345, § 3(Exh. B), 5-8-25)

Secs. 34-10—34-15. Reserved.

ARTICLE II. WATER SERVICE AND RATES*

DIVISION 1. GENERALLY

Sec. 34-16. Supplying below standard water to another.

It shall be unlawful for any person to supply another any water to drink or for domestic purposes, which does not comply with the public health service drinking water standards and the standards set by the state water development board pursuant to V.T.C.A., Water Code, § 26.023.
(Code 1950, § 62-1; Code 1959, § 41-1)

Sec. 34-17. Investigation of pollution or potential pollution.

Where an analysis of water samples, as provided by section 34-18, indicates pollution or potential pollution of a water supply, it shall be the duty of the director of public health or his duly authorized representative to make investigation to determine, if possible, the cause and remedy for such condition, and to make suitable recommendations to the official or other person responsible for such water supply to ensure the protection and the purity of the supply, and it shall be the duty of such official or other person responsible for such water supply to ensure the protection and the purity of the supply and to comply with the standards adopted by section 34-16.
(Code 1950, § 62-3; Code 1959, § 41-3)

Sec. 34-18. Analyses of drinking water required.

Every official or other person responsible for any water supply in the city, who furnishes water for drinking and domestic purposes to fifty (50) or more people, shall have at least one (1) sanitary analysis of a representative sample of water from the distribution system made each week and submit a copy of such analysis to the city public health department or submit at least one (1) sample of such water weekly to the city public health department, as may be directed by the director of public health. Where the population served by a water supply is greater than one thousand (1,000), there shall be made at least one (1) additional analysis each month for each one thousand (1,000) population in excess of the first one thousand (1,000) population, up to one hundred thousand (100,000) population, and for populations in excess of one hundred thousand (100,000), the number of supplies analyzed monthly shall be in accordance with the standards adopted in this section.
(Code 1950, § 62-2; Code 1959, § 41-2)

Sec. 34-19. Restoring polluted water, procedure where not eradicated.

If such official or other person responsible for a water supply fails or neglects to observe or comply with the standards adopted by section 34-16 or if it shall be found to be impossible to restore and protect the purity of such water supply so that it will not endanger the lives and health of the consumers of that supply, the further use of such supply for drinking and domestic purposes shall either be discontinued and another approved supply shall be secured, or

*__State law reference—__Texas Water Quality Act, V.T.C.A., Water Code, § 26.001 et seq.

the director of public health shall warn the public of the character of the water supply concerned, together with recommendations for their protection, whichever seems in the opinion of the director of public health best to protect the lives and health of the citizens of the city.
(Code 1950, § 62-4; Code 1959, § 41-4)

Sec. 34-20. Sources of water prohibited for drinking or domestic use.

It shall be unlawful to draw, pump, dip or otherwise take water from the San Antonio River, the San Pedro Creek, the Alazan Creek, the Apache Creek or the Menger Creek within the city for drinking or other domestic purposes or to drink or use for other domestic purposes any water taken therefrom.
(Code 1950, § 62-6; Code 1959, § 41-5)

Sec. 34-21. Health certificate and permit required of itinerant water vendors.

It shall be unlawful for an itinerant vendor to sell water for drinking or domestic purposes within the city, without securing a health certificate as provided in section 13-96, requiring certificates for food handlers, and securing the approval of the director of public health of the water sold and the containers from which the water is sold.
(Code 1950, § 62-5; Code 1959, § 41-6)

Sec. 34-22. Polluting bodies of water.

It shall be unlawful for any person to defile the waters of the San Antonio River, San Pedro Creek, the Alazan Creek, the Zarzamora Creek, or any lake or any stream, or any other body of water, whether running or not.
(Code 1950, § 62-20; Code 1959, § 41-7)

Sec. 34-23. Pipes, drains or sewer leading into bodies of water.

No pipe, drain or sewer connecting with or leading into the San Antonio River, San Pedro Creek, Alazan Creek, Zarzamora Creek, or any lake, or any stream, or any other body of water whether running or not, or any of the irrigating ditches of the city shall be used for any purpose except as drainage pipe for water.
(Code 1950, § 62-21; Code 1959, § 41-8)

Sec. 34-24. Discharging oil, grease, soap, etc., into public waters or streams.

(a) It shall be unlawful for any person to discharge any fluid, containing oil, into any of the waters or streams within the city. All establishments engaged in a business wherein water mixed with oil, or oil, is discharged into any public stream, sewer or drain within the city may equip the discharge pipes from such establishment with traps to separate the oil from the water in such a manner as only unpolluted water will flow from such trap into any sewer, drain or public stream within the city.

(b) It shall be unlawful for any person to run or discharge any fluid or water containing either grease, soap, lye, washing powder, mud or filth into any of the public waters or streams within the city.
(Code 1950, §§ 62-22, 62-23; Code 1959, §§ 41-9, 41-10)

Sec. 34-25. Reserved.

Editor's note—Ord. No. 80574, § 6, adopted Aug. 4, 1994, repealed former § 34-25, relative to restrictions on landscape watering, which derived from Ord. No. 72834, adopted Dec. 20, 1990 and Ord. No. 73267, adopted March 7, 1991. Said Ord. No. 80574 enacted new provisions regarding similar subject matter which has been included in this chapter as Division 3 of Article IV, § 34-301 et seq.

Secs. 34-26—34-35. Reserved.

DIVISION 2. CITY WATER SERVICE

Sec. 34-36. When connection with water main compulsory.

(a) The owner of every tract of land in the city, upon which there is a building used for human habitation or used for commercial purposes, which tract abuts on a street in which a public water supply line is located and is within two hundred (200) feet of such water supply line,

shall connect to such water supply line and shall use water therefrom for drinking, domestic and commercial purposes.

(b) This section shall not apply to any person who has a supply of water on his premises from an approved well more than one hundred (100) feet deep, the water from which well complies with the water standards required by section 34-16.
(Code 1950, § 62-8; Code 1959, § 41-17)

Sec. 34-37. Street improvements, service and posting of notice.

(a) Whenever the city shall determine that any street of the city shall be paved the director of public works shall cause a written notice to be served on each and every one (1) of the owners, occupants or agents of property along the lines of such street where such improvements are proposed to be made, and also serve a like notice upon the proper authorities of the water suppliers, requiring them, within fifteen (15) days from the date of such notice, to make connections with the water mains that may be laid on such street, unless such connections have already been made.

(b) If along the line of such street there is any vacant or unoccupied lot and the owner or agents thereof cannot be conveniently found, the director of public works shall cause to be posted such notice, as aforesaid, in some conspicuous place upon such lot.
(Code 1950, §§ 62-9, 62-10; Code 1959, §§ 41-18, 41-19)

Sec. 34-38. Specifications for service connections.

(a) All property owners on streets, alleys, plazas and other public places, hereafter to be paved, shall, within fifteen (15) days after written notice from the director of public works, connect their water fixtures with the street water mains. Wrought and galvanized pipe incorporated in the center of concrete at least six (6) inches wide or a double "A" lead pipe inside of a three-inch vitrified pipe, are acceptable types of service connections, and should any type of service connection other than the above be used, it shall first be approved by the director of public works.

(b) Service pipes shall be connected to mains by either two (2) elbows or an elbow and a tee in such manner as to make a flexible joint that will prevent an excessive strain on the pipes.

(c) All public water meters are owned, operated, maintained and replaced by the San Antonio Water System. The San Antonio Water System may install an advanced electronic meter and communication endpoint at a customer's water service connection for the purpose of measuring water use and transmitting that information over an electronic communication network. No person shall be allowed to prohibit the installation of such an advanced electronic meter nor shall they inhibit the electronic transmission of water use information.
(Code 1950, § 62-11; Code 1959, § 41-20; Ord. No. 2022-11-10-0867, § 2(Att. II), 11-10-22)

Sec. 34-39. Connections with bathing pools and water tanks.

It shall be unlawful for any person to make or to maintain any connection with the water supply system of the city discharging into any bathing pool or any water tank except in such a manner that the place of discharge from the water supply system of the city shall be more than one (1) foot above the top of the overflow of the bathing pool or the water tank.
(Code 1950, § 62-13; Code 1959, § 41-21)

Sec. 34-40. Cross connections with water mains prohibited.

(a) It shall be unlawful for any person to make or to maintain any cross connection within the city or to allow any cross connection to exist at any place under the control of any person.

(b) The term cross connection, as used in this section, is defined as any mechanical union or any hydraulic union which, under any condition, might pass water into the water supply system of the city from any other source.
(Code 1950, § 62-14; Code 1959, § 41-22)

Sec. 34-41. Disconnection for noncompliance.

It shall be the duty of the manager of the water supply system of the city to disconnect the city service from any place where the provisions of this article are violated, whether inside or outside of the city.
(Code 1950, § 62-15; Code 1959, § 41-23)

Sec. 34-42. Unlawful connection with water main.

It shall be unlawful for anyone without the written consent of the manager or owner of the water supply to bore or drill into any water main or make attachments to or connections with any service pipe or turn on water from street cocks.
(Code 1950, § 62-16; Code 1959, § 41-24)

Sec. 34-43. Maintenance of service pipes.

All persons using water furnished by the city shall keep their service pipes from the city's service box in good repair, so as to prevent leakage on the streets.
(Code 1950, § 62-12; Code 1959, § 41-25)

Sec. 34-44. Unlawful taking of water.

It shall be unlawful for any person without the written consent of the owner or manager of the water supply to make an attachment to, or to use water from, any private hydrant for purposes other than those specified in the original application for water.
(Code 1950, § 62-17; Code 1959, § 41-26)

Sec. 34-45. Unlawful use of city's water.

It shall be unlawful for any person to touch, tamper with or open the city fire hydrants, or to use the water from the same, except under the immediate control of the chief of the fire department, and then only by persons authorized for the extinguishment of fires, practice of the fire department, flushing the gutters, watering the streets and plazas with hose or watering carts, and repairing of the hydrants.
(Code 1950, § 62-18; Code 1959, § 41-27; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Sec. 34-46. Injuries to water system.

It shall be unlawful for any person, in any way, to intentionally or carelessly break, deface or in any manner injure or destroy any hydrant or standpipe or other property belonging to the city or belonging to others, and used in connection with the waterworks.
(Code 1950, § 62-19; Code 1959, § 41-28)

Sec. 34-47. Title to water service apparatus.

Title to all water meters, curb-cocks and appurtenances that are attached through service lines or branches thereof to the water mains of the city water system, including the meter and curb-cock boxes enclosing the same, shall be vested in the city for the singular use and benefit of the waterworks board of trustees. No person other than a duly authorized agent or representative of the waterworks board of trustees shall open the meter or curb-cock or appurtenances thereto. The waterworks board of trustees shall maintain, repair and replace all meters, curb-cocks and appurtenances in connection therewith at its cost and expense.
(Ord. No. 19146, 6-4-53; Ord. No. 22374, § 4, 2-23-56; Code 1959, § 41-29)

Sec. 34-48. Penalties.

A conviction for violation of this division shall constitute a Class C misdemeanor. A person convicted of a violation of this division shall be fined not less than two hundred dollars ($200.00) nor more than two thousand dollars ($2,000.00) per violation. Each violation of a particular section of this division shall constitute a separate offense, and each day an offense continues shall be considered a new violation for purposes of enforcing this division.
(Ord. No. 2011-12-08-1004, § 2(Exh. L), 12-8-11)

Editor's note—Prior to the reenactment of section 34-48 by Ord. No. 2011-12-08-1004, § 2(Exh. L), adopted December 8, 2011, Ord. No. 80574, § 7, adopted Aug. 4, 1994, relocated the text of former section 34-48, relative to wasting water, to article IV, division 2, section 34-287. Former history notation has been retained at the new section designation.

DIVISION 6. RATES AND CHARGES**

Sec. 34-121. Establishment of rate schedules.

The schedule of water service rates and charges contained in Schedule A relating to residential water customers, the schedule of water service rates and charges contained in Schedule B relating to general water customers, the schedule of water service rates and charges in Schedule C relating to wholesale water customers, the schedule of water service rates and charges in Schedule D for irrigation water rates, the schedule of water service rates and charges relating to Uplift Assistance Program customers in Schedule G, and the schedule of conservation fee water rates and charges relating to residential, general and irrigation customers in Schedule H, as amended, attached hereto, shall be effective for all consumption on or about January 1, 2024 as appropriate, and shall be the lawful rates for water service to be charged by the system.
(Ord. No. 80330, § 1, 6-16-94; Ord. No. 90733, § 3, 10-21-99; Ord. No. 92752, § 1, 10-19-00; Ord. No. 99994, § 2(Att. I), 11-18-04; Ord. No. 101681, § 3(Att. I), 11-17-05; Ord. No. 2015-11-19-0956, § 4(Att. I), 11-19-15, Res. No. 16-302, Att. III; Ord. No. 2017-12-07-0928, § 1(Att. I), 12-7-17; Ord. No. 2022-11-10-0867, § 1(Att. I), 11-10-22; Res. No. 2023-198, 10-3-23)

Editor's note—Rate Schedules A and B referenced above are set out at length at the end of this chapter.

Sec. 34-121.1. Pass-through of EAA permit fee.

The assessment of a pass-through of the Edwards Aquifer Authority ("EAA") permit fee to all water customers is authorized. The initial monthly pass-through of the EAA permit fee shall commence on or after January 1, 1998, and shall apply to all water customers and all types of water usage. Such initial pass-through, while estimated to be $0.00629 per hundred gallons of consumption, is subject to change, based on the formula set out herein. The San Antonio Water System is delegated the authority to administratively adjust such pass-through on an annual basis, on or about January 1 of each year, in accordance with the following formula:

EDWARDS AQUIFER AUTHORITY ("EAA")
PERMIT FEE ADJUSTMENT

An adjustment will be made to the Edwards Aquifer Authority Permit Fee annually, beginning January 1, 1998, based on the following formula: the annual permit fee billed by the Edwards Aquifer Authority for the twelve-month period beginning in January plus the amount of the over-recovery or under-recovery from the prior twelve-month permit fee collections, divided by the project annual water usage, yields the permit fee on a dollars-per-gallon basis.

*__Editor's note—__Ord. No. 80574, § 15, adopted Aug. 4, 1994, repealed former Div. 3, §§ 34-61—34-71, relative to wells, which derived from Code 1950 §§ 62-24—62-37; Code 1959, §§ 41-37—41-50; and Ord. No. 23407, 8-9-56. Said Ord. No. 80574 enacted new provisions regarding similar subject matter which has been included in this chapter as Division 2 of Article VI, § 34-566 et seq.

†__Editor's note—__Ord. No. 80574, § 8, adopted Aug. 4, 1994, relocated the text of former Div. 4, §§ 34-86—34-89, relative to watercourses, to Art. VI, Div. 3, § 34-591 et seq. Former history notation has been retained at the new section designation.

‡__Editor's note—__Ord. No. 80574, § 9, adopted Aug. 4, 1994, repealed former Div. 5, § 34-101, relative to the aquifer management plan, which derived from Ord. No. 79702, adopted Feb. 24, 1994. Said Ord. No. 80574 enacted new provisions regarding similar subject matter which has been included in this chapter as Division 4 of Article IV, § 34-316 et seq.

**__Editor's note—__Ord. No. 80330, § 1, adopted June 16, 1994, amended former Div. 6, §§ 34-121—34-130, relative to rates and charges, in its entirety to read as herein set out. The provisions of former Div. 6 derived from Ord. No. 72742, adopted Dec. 6, 1990.

Permit fee billed by EAA PLUS *Over-recovery/under-recovery from prior 12-month permit fee collections*

Project annual water usage = *Adjusted permit fee on a dollars-per-gallon basis of consumption, for the 12-month period beginning in the month of January*

The San Antonio Water System is directed to show such pass-through as a line item on each customer bill. No pass-through shall be charged if there is not metered use by the customer during the month.
(Ord. No. 87042, § 2, 12-1-97)

Sec. 34-121.2. Pass-through of Water Uplift Assistance Program fee.

The assessment of a pass-through of the Water Uplift Assistance Program fee (Water UAP fee) to all non-UAP water customers in the residential, general, and irrigation classes is authorized. The initial monthly pass-through of the Water UAP fee shall commence on or after January 1, 2023. Such initial pass-through, while estimated to be $0.1590 per thousand gallons of billed water consumption, is subject to change, based on the formula set out herein. The San Antonio Water System is delegated the authority to administratively adjust such pass-through on an annual basis, on or about January 1 of each year, in accordance with the following formula:

WATER UPLIFT ASSISTANCE PROGRAM FEE ADJUSTMENT

An adjustment will be made to the Water UAP Fee annually, beginning January 1, 2024, based on the following formula: the annual revenue from the fee collected by SAWS for the prior twelve-month period beginning in January plus the amount of the over-recovery or under-recovery of the prior twelve-month costs of water service to UAP customers, divided by the projected annual water usage, yields the fee on a dollars-per-gallon basis.

Water UAP fee billed revenue by SAWS for prior twelve (12) months.

PLUS

Over-recovery/under-recovery of the prior twelve-month total costs of water service to UAP water customers from the application of UAP water rates.

PLUS

Projected UAP cost increases from program growth and rate changes.

DIVIDED BY

Projected annual water usage subject to UAP Fee for the next twelve (12) months.

EQUALS

Adjusted Water UAP Fee rate on a dollars-per-gallon basis of consumption, for the next twelve (12) months period beginning in the month of January.

The San Antonio Water System is directed to show such pass-through as a line item on each customer bill.
(Ord. No. 2022-11-10-0867, § 1(Att. I), 11-10-22)

Sec. 34-122. Rate schedules.

Rate Schedules A, B, C, D, G, and H relating to residential, general, wholesale, irrigation, and Uplift Assistance Program customers are hereby amended and shall hereinafter read as attached hereto and incorporated herein.
(Ord. No. 80330, § 1, 6-16-94; Ord. No. 92752, § 1, 10-19-00; Ord. No. 99994, § 2(Att. I), 11-18-04; Ord. No. 101681, § 3(Att. 1), 11-17-05; Ord. No. 2022-11-10-0867, § 1(Att. I), 11-10-22)

Editor's note—Rate Schedules referenced above are set out at length at the end of this chapter.

Sec. 34-122.1. Base use amount calculation for general and wholesale customers.

The amendments to Rate Schedule B relating to general and wholesale customers, which is attached hereto and incorporated herein, shall utilize a base use amount calculation, as such term is more thoroughly defined in Section 34-2.01.
(Ord. No. 92752, § 1, 10-19-00)

Sec. 34-122.2. Affordability reduction in meter charges for residential customers.

Residential customers that qualify to receive assistance from the City of San Antonio Community Initiatives Department, Community Action Division (CAD) based on federal income guidelines established by the CAD may qualify for a reduction in monthly water meter charges. Such qualification must be presented in writing to the San Antonio Water System Customer Service Department.
(Ord. No. 92752, § 1, 10-19-00)

Sec. 34-122.3. Economic development rate schedule.

Rate schedule D, establishing potable water rates for economic development customers, permitting the waiver of certain fees and costs, and permitting the provision of water and wastewater infrastructure at reduced or no cost to an economic development customer, is hereby adopted and attached hereto and incorporated herein.
(Ord. No. 97264, § 2(Att. 2), 2-27-03)

Sec. 34-122.4. Water service interconnect rate.

(a) *Definitions.* For the purpose of this chapter the following terms, phrases, words, and their derivations shall have the meaning in this section.

Customers. The application of the water service interconnect rate shall apply to customers or entities that request to interconnect into the system to receive water services on a temporary basis that:

(1) Do not have a current contract for wholesale water service with the system at the point of service that is included in the request; and

(2) Plan to resell the water provided by the system to its own customers.

The system shall have the discretion to determine whether or not a particular request for temporary water service qualifies as either a wholesale water service request or a request for temporary water service under this temporary interconnection rate. In making such a determination, the system may consider whether or not the requirements for service included in the request are within the system's long-term capabilities and consistent with the system's master plan.

Water rates of the customer. The water rates shall be herein defined as those water rates and charges in effect for residential customers of the customer at the time of the billing of the water service interconnect rate by the system. The water rates shall include but not be limited to all applicable water rates, surcharges, and charges for the procurement of existing or additional water sources.

Water rates of the system. The water rates shall be herein defined as those water rates and charges in effect for residential customers as defined under chapter 34 article II and amended from time to time. The water rates shall include but not be limited to the water supply fee, all applicable water rates, and Edwards Aquifer Authority Fees.

(b) *Application of water service interconnect rate.*

(1) *Billing of customer.* The system shall bill customer in accordance with the provisions in chapter 34, article II.

(2) *Systems' right to sell water.* System has an obligation to serve its customers who are not under the water service interconnect rate. System shall have the right not to sell to customer in any event that it deems necessary to preserve the capacity to serve customers who are not under the water service interconnect rate. When possible, system shall notify customer in advance that it will not be able serve customer under the interconnect arrangement for a designated time period.

(3) *Required documentation.* Customer shall provide to system on a monthly basis its monthly forecast for the next 12-month time period of water usage needs required of the interconnection infrastructure. The forecast documentation is necessary for

system to determine its ability to service customer under the water service interconnect rate.

Customer shall also provide to system on a monthly basis its current rate schedules then in effect for its residential customers, including all applicable charges and fees that would be charged to its residential customers for that month. If billing to customer is not according to the applicable rate schedules then in effect at time of billing, system reserves the right to bill customer on the applicable rates for all usage that was applied to the incorrect rate schedules.

(4) *System's ability to provide standby services.* System recognizes that the interconnect services are necessary to provide services that are on a standby basis and the rate should incorporate a provision for the standby service.

(5) *Payment for the interconnection infrastructure.* Customer shall pay for all services related to connecting into the infrastructure of the system, to include capital and operations costs. Customer shall pay for the pipeline costs in advance of receiving water services from system. In the event system must incur operations costs to service the interconnect infrastructure, system shall bill customer the current costs of time and materials.

(6) *Assignment of water under water service interconnect rate.* Water service provided to customer through the interconnect line is intended for the use of the customer on a temporary or emergency basis. Customer shall not assign the provisions of the water service to other water purveyors.

(c) *Water service interconnect rate.* The water service interconnect rate is hereby established and is applicable to the use of potable water.

Customer shall be charged on a monthly basis for the preceding monthly metered usage based on the following calculations:

(1) *Rates.* Customer shall be charged the highest bill calculated based on the metered usage on the interconnect line of the customer applied to the water rates of the system and the water rates of the customer;

(2) *Standby charge.* Customer shall be charged monthly for the ability of system to provide standby services at the system's meter fee rate on the interconnect meter. If water usage is metered for two (2) consecutive months or for more than three (3) months during a calendar year, then the system shall charge additional standby services of ten (10) times the applicable meter fee rate or monthly service availability charge for each month of metered usage in the calendar year; and

(3) *Time and material charges.* Customer shall be charged monthly for all time and material charges incurred to service the interconnect infrastructure. Such billing shall detail the reason for the charges in addition to the time and unit costs.

(Ord. No. 101684, § 1(Att. I), 11-17-05)

Sec. 34-123. Variance procedure for general water service customers.

If a general water service customer seeks an administrative variance from the applicable base use amount set out in Schedule B, the procedures set out herein shall be followed. The general water service customer shall apply in writing to the director of customer service, setting out the basis for his/her request for an administrative variance. Such request must clearly detail the factors upon which the customer is claiming relief from his/her base use amount. Such factors may include the seasonal nature of the business, health and safety needs and unique business processes. The director of customer service shall review the request, and may ask for additional written information from the customer if needed. Once all information requested by the customer service director has been received, the customer service director will respond to the request in writing within twenty (20) working days from receipt of all required information deemed necessary by the customer service director to render a decision. If the customer does not

agree with the determination of the director of customer service, the customer may appeal such determination within ten (10) working days to the President/Chief Executive Officer of the San Antonio Water System. The President/Chief Executive Officer shall make an independent review of the written information submitted by the requesting customer and the written determination and supporting documentation submitted by the director of customer service. The President/Chief Executive Officer shall make a written administrative determination on the variance request within ten (10) working days of receipt of the written appeal. If the customer does not agree with the determination of the President/Chief Executive Officer, the customer may request an appeal to the San Antonio Water System Board of Trustees through a written request to the President/Chief Executive Officer. The President/Chief Executive Officer shall schedule a hearing before the Board as soon as practicable, but in no event less than sixty (60) days after the receipt of the variance request.
(Ord. No. 92752, § 1, 10-19-00)

Sec. 34-124. Irrigation water service charge.

(a) *General.* An irrigation water service rate is hereby established and is set out in Schedule C which is attached hereto and incorporated herein. Such rate is applicable to the use of potable water for the growth and maintenance of outdoor landscaping and turf. Such rate is not applicable when recycled water is used for such purposes.

(b) *New non-residential accounts.* From and after the date of this ordinance, all customers that are installing an in-ground landscape irrigation system and seeking application for water service from the San Antonio Water System for new non-residential accounts shall be required to install a separate irrigation meter. All non-residential accounts receiving new service after 12:01 a.m. December 1, 2000 that install an in-ground irrigation system after initial water service is established will be required to install a dedicated irrigation meter when the new in-ground irrigation system is installed.

(c) *Existing non-residential accounts.* Existing non-residential customers that have an irrigation system and do not have a separate irrigation meter may choose to install a separate meter for irrigation purposes.

(1) If an existing non-residential customer that has an irrigation system chooses not to install an irrigation meter the customer has two options:

Option One:

a. SAWS will estimate for the non-residential customer through the use of surveys, meter sizes, past use or other methods the amount of water used for irrigation purposes. SAWS will notify in writing the resulting finding and apply the appropriate rate schedule.

b. SAWS at its own discretion reserves the right to install irrigation meters on existing non-residential accounts SAWS determines would be beneficial for SAWS to install.

c. SAWS will make all reasonable efforts to have irrigation use defined for all existing non-residential accounts that have irrigation systems by December 31, 2001.

Option Two:

If an existing non-residential customer chooses Option Two they must submit a Potable Water End-Use Report that at a minimum calculates the volume of potable water from a single meter that is used separately for irrigation and non-irrigation purposes. The Potable Water End-Use Report must be prepared by a registered professional engineer, licensed landscape irrigation auditor or licensed master plumber. The Potable Water End-Use Report must include the findings of a flow study, a description of potable water end-use categories found on site, a landscape plan and any other information the customer would like to include as supporting documentation in the report. The completed Potable Water End-Use Report must be submitted to the director

of customer service of the San Antonio Water System. If the director of customer service approves the Potable Water End-Use Report, the San Antonio Water System shall mail notice of this action to the customer and shall make adjustments to the customer's bills retroactive to the date the Potable Water End-Use Report was received in the office of the director of customer service. Those non-residential customers existing prior to January 1, 2001 that choose this option must have end-use reports submitted to the director of customer service by April 1, 2001.

(d) *New and existing residential accounts.* Both new and existing residential customers may choose to install a separate irrigation meter.
(Ord. No. 92752, § 1, 10-19-00)

Sec. 34-124.1. Variance procedure for irrigation water service customers.

If an irrigation water service customer requests an administrative variance from the rate he/she is being charged pursuant to Schedule C, the procedures set out herein shall be followed. The irrigation water service customer shall apply in writing to the director of customer service setting out the basis for his/her request for an administrative variance. Such request must clearly detail the factors upon which the customer is claiming relief for the amount he/she is currently charged. Such factors may include but are not limited to health and safety needs. The director of customer service shall review the request, and may ask for additional written information from the customer if needed. Once all information requested by the customer service director has been received, the director of customer service shall render a decision in writing to the customer within twenty (20) working days from receipt of the completed request. If the customer does not agree with the determination of the director of customer service, the customer may appeal such determination within ten (10) working days to the President/Chief Executive Officer of the San Antonio Water System. The President/Chief Executive Officer shall make an independent review of the written information submitted by the requesting customer and the written determination and supporting documentation submitted by the director of customer service. The President/Chief Executive Officer shall make a written administrative determination on the variance request within ten (10) working days of receipt of the written appeal. If the Customer does not agree with the determination of the President/Chief Executive Officer, the customer may request an appeal to the San Antonio Water System Board of Trustees through a written request to the President/Chief Executive Officer. The President/Chief Executive Officer shall schedule a hearing before the Board as soon as practicable, but in no event less than sixty (60) days after the receipt of the variance request.
(Ord. No. 92752, § 1, 10-19-00)

Sec. 34-125. Multiple meters serving residential and general customers.

(a) *Residential.* The meter readings of two (2) or more meters with like service addresses shall be combined for billing purposes. However, if any such meter(s) with like service address is classified as a potable water irrigation meter, such meter reading(s) shall not be combined with the remaining meter reading(s). The meter reading amounts from the meters classified as irrigation shall appear on the account as irrigation use and a charge will be assessed in accordance with Rate Schedule C. Any remaining meters with a like service address not designated as irrigation meters will then be combined for billing purposes. Such combined meter billings will be based upon combining the applicable meter charges and the applicable volume charges as provided in the applicable residential rate schedule attached hereto. Such combined meter reading amounts will appear on the account as domestic use (non-irrigation water and sewer).

(b) *General.* The meter readings of two (2) or more meters even though serving a single general customer and even though serving a single building establishment shall not be combined for billing purposes. A separate billing shall be made for the water metered through each

individual meter based upon the applicable meter charge and block-rate scale of volume charges as provided in the applicable general rate schedule attached hereto with the charges computed the same as if that were the only meter serving such customer, building or establishment.
(Ord. No. 80330, § 1, 6-16-94; Ord. No. 92752, § 10-19-00)

Sec. 34-125.1. Pipeline damage cost recovery fees.

The following fees are established for the purpose of recovering certain costs incurred by SAWS in connection with each instance of damage to a SAWS pipeline from the party which caused the damage:

(a) Dispatch fee for response to damaged mains: Four hundred and twenty-five dollars ($425.00) per instance reported to the SAWS emergency operations center.

(b) The amount for the dispatch fee is effective January 1, 2025. The fee amount shall be adjusted on January 1 of each year thereafter by the percentage difference (greater than zero (0)) between the Consumer Price Index for All Urban Consumers (CPI-U) as it is calculated by the United States Bureau of Labor Statistics at the end of the month of July prior to the next year and as it was calculated at the end of the month of July one (1) year earlier, and subsequently rounded to the nearest dollar. SAWS will periodically perform a cost of service analysis to ensure that the fee charged do not exceed the cost of providing the services.

(c) Lost water charge: The cost of water lost as a result of each instance of damage to a pipeline shall be recovered through the assessment on the estimated water loss volume of the current highest tier water supply fee rate assessed by SAWS, the current highest tier outside-the-city-limits (OCL) water delivery rate, and the current Water Uplift Assistance Program fee rate assessed by SAWS, and the current Edwards Aquifer Authority (EAA) permit fee rate.

(Ord. No. 2017-12-07-0928, § 3(Att. II), 12-7-17; Res. No. 18-262, 11-13-18; Res. No. 19-280, 7(Att. V), 11-5-19; Ord. No. 2022-11-10-0867, § 2(Att. II), 11-10-22; Res. No. 2023-198, 10-3-23; Res. No. 2024-227, § 7(Att. IV), 11-5-24)

Editor's note—Ord. No. 2017-12-07-0928, § 3(Att. II), adopted December 7, 2011, enacted provisions intended for use as section 34-106. To preserve the style of this Code, and at the discretion of the editor, said provisions have been redesignated as section 34-125.1.

Sec. 34-126. Fire flow test fee.

Upon request, a fire flow test will be conducted by personnel of the system to provide flow data in support of any fire protection system located within the board's service area. An advance fee of eighty-one dollars ($81.00) shall be applicable for each fire flow test requested for purposes of obtaining fire flow data for a specific piece of property or building in order for the owner of the property or building to obtain insurance rating or coverage or to assist in the design and construction of an interior fire protection system. This fee amount is effective January 1, 2025. The fee amount shall be adjusted on January 1 of each year thereafter by the percentage difference (greater than zero (0)) between the Consumer Price Index for All Urban Consumers (CPI-U) as it is calculated by the United States Bureau of Labor Statistics at the end of the month of July prior to the next year and as it was calculated at the end of the month of July one (1) year earlier, and subsequently rounded to the nearest dollar. SAWS will periodically perform a cost of service analysis to ensure that the fee charged does not exceed the cost of providing the service.
(Ord. No. 2007-12-13-1345, § 2(Att. B), 12-13-07; Ord. No. 2017-12-07-0928, § 3(Att. II), 12-7-17; Res. No. 18-262, 11-13-18; Res. No. 19-280, 7(Att. V), 11-5-19; Ord. No. 2022-11-10-0867, § 2(Att. II), 11-10-22; Res. No. 2023-198, 10-3-23; Res. No. 2024-227, § 7(Att. IV), 11-5-24)

Editor's note—Ord. No. 2007-12-13-1345, § 2(Att. B), adopted December 13, 2007, amended § 34-126 in its entirety to herein set out. Formerly, § 34-126 pertained to fire hydrant flow test fee, and derived from Ord. No. 80330, § 1, adopted June 16, 1994.

Sec. 34-127. Private fire protection water service connections; rates; billing; late payment; termination.

(a) Private fire protection water service line connections permitted may be one of the following three (3) types:

Type 1 — A line utilized exclusively to supply service for closed circuit automatic sprinkler head system.

Type 2 — A line to supply service for systems which have water outlets such as open head sprinkler systems, standpipes, hose connection outlets, external private fire hydrants on the premises, or other outlets used solely for fire protection purposes.

Type 3 — A line to supply service for a combination domestic and private fire protection system where the fire system is composed of automatic sprinkler heads, standpipes, hose connections, external private fire hydrants, and where other outlets shall be classified as a domestic account.

(b) The private fire protection water service charges for Type Nos. 1, 2, and 3 shall be based on the size of the fire flow line requirement determined in accordance with the system's "Regulations For Water Service." The water service rates which shall be the lawful rates charged on the three types of connections are contained in Rate Schedules A and B, attached hereto and incorporated herein.

(c) Such charges shall be billed as of January 1 of each year and shall be the net annual charge for private fire protection service to be rendered during the ensuing calendar year. For private fire protection service established subsequent to January 31 of each calendar year, charges shall be prorated based on the number of remaining full months in the year. Charges for private fire protection water service are due and payable on or before thirty (30) days from the date of mailing of the bill.

(d) For Type 3 (combination meter) accounts, private fire protection water service shall be billed in accordance with subsection (c), above. Domestic service shall be billed monthly in accordance with Rate Schedules A or B for general water service rates inside and outside the city limits, according to the size of meter required for domestic flow purposes.

(e) A penalty for late payment in the amount of five (5) percent of the net charges shall be added to the current charges owing if full payment for such charges is not made to the system on or before thirty (30) days from the date of mailing of the bill.

(f) In the event payment of applicable charges for private fire protection water services is not made on or before sixty (60) days from the date of the mailing of the system bill, service may be subject to termination in accordance with the procedure set out in division 4.

(g) The system is hereby authorized and directed to promulgate and enforce detailed rules and regulations governing private fire protection water service connections and charges consistent with the provisions hereof.

(h) The private fire protection water service rates on the three types of connections listed in section 34-127(a) above are effective January 1, 2025. The fee amounts shall be adjusted on January 1 of each year thereafter by the percentage difference (greater than zero (0)) between the Consumer Price Index for All Urban Consumers (CPI-U) as it is calculated by the United States Bureau of Labor Statistics at the end of the month of July prior to the next year and as it was calculated at the end of the month of July one (1) year earlier, and subsequently rounded to the nearest dollar. SAWS will periodically perform a cost of service analysis to ensure that the fee charged does not exceed the cost of providing the service.

(Ord. No. 80330, § 1, 6-16-94; Ord. No. 2022-11-10-0867, § 2(Att. II), 11-10-22; Res. No. 2023-198, 10-3-23; Res. No. 2024-227, § 7(Att. IV), 11-5-24)

Editor's note—Rate Schedules A and B referenced above are set out at length at the end of this chapter.

Sec. 34-128. Drought surcharge purpose, definitions and billing cycles.

(a) *Purpose.* This surcharge is to discourage discretionary water consumption by customers during advanced stages of drought or emergency conditions.

(b) *Definitions.* As used in sections 34-128 and 34-129 and the associated surcharge rate sheets, the following terms are defined as follows:

Non-residential irrigation customer. A non-residential San Antonio Water System customer (a billed commercial account as identified in the Drought Surcharge Schedule) that is assessed the irrigation rate and/or is billed for a portion of their water at the irrigation rate using methodology established in subsection 34-124(c), commonly referred to as "assumed irrigation customers". A non-residential district special project customer that receives water service under an account designated by the district special project as being solely irrigation in purpose. Using the subsection 34-124(c) methodology, the district special project may determine that a regular non-residential district special project customer uses a portion of their water for irrigation purposes, in which case that portion of consumption shall be designated as "assumed irrigation".

Residential customer means a residential customer that has water service that is assigned a residential rate under the rates of the San Antonio Water System or the district special project.

Residential irrigation customer means a customer that has both residential and irrigation service at a single service address under the rates of the San Antonio Water System or the district special project.

(c) *Billing cycles.* All water consumption beginning with the next billing cycle subsequent to the declaration of a surcharge (section 34-320) may be assessed a surcharge. Such surcharge shall remain in effect for a minimum of one entire billing month. The surcharge shall remain in effect for another complete billing month, so that all customers are affected if stages III or IV is still in effect at the end of the original billing month.

(Ord. No. 2007-02-08-0149, § 1(Exh. A), 2-8-07; Ord. No. 2014-05-29-0376, § 2(Exh. A), 5-29-14; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Editor's note—Ord. No. 2007-02-08-0149, § 1(Exh. A), adopted February 8, 2007, amended § 34-128 in its entirety to read as herein set out. Formerly, § 34-128 pertained to the critical period surcharge, and derived from Ord. No. 80330, § 1, adopted June 16, 1994.

Sec. 34-128.1 Drought surcharge.

A drought surcharge is a charge applied to a customer's bill as a result of high use during drought Stages III and IV. A drought surcharge is directly related to the volume of water used. All customers may be subject to a drought surcharge as set out in the drought surcharge schedules within this chapter 34 of the San Antonio City Code.

(Ord. No. 2007-02-08-0149, § 1(Exh. A), 2-8-07; Ord. No. 2017-12-07-0928, § 4(Att. III), 12-7-17; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Editor's note—Ord. No. 2024-05-20-0480, § 1(Exh. A), adopted June 20, 2024, repealed § 34-128.1, which pertained to non-residential irrigation drought surcharge and derived from Ord. No. 2007-02-08-0149, § 1(Exh. A), 2-8-07; Ord. No. 2017-12-07-0928, § 4(Att. III), 12-7-17. Therefore, § 34-128.2 is renumbered as § 34-128.1 and amended to read as herein set out.

Sec. 34-128.2. Reserved.

Sec. 34-128.3. Reserved.

Sec. 34-128.4. Uses of fees derived from the drought surcharge.

All fees derived from the drought surcharge shall support conservation education and related programs.

(Ord. No. 2007-02-08-0149, § 1(Exh. A), 2-8-07)

Sec. 34-129. Administrative relief from imposition of drought surcharge; notification.

(a) SAWS is hereby authorized to grant administrative relief to residential and non-residential customers in certain circumstances to the imposition of the drought surcharge or a portion thereof by granting a variance from applicable surcharge provisions. A customer who is seeking such relief must submit a request via electronic mail or submit a written request to SAWS based upon the health and safety needs of the customer. Such relief may be based upon but not limited to medical conditions requiring the use of water for special equipment or therapy or

other compelling health and/or safety reasons. Extenuating circumstances for the maintenance of xeric landscape material may also be considered. SAWS will determine, as part of the variance process, which plant material qualifies as xeric in nature. SAWS shall review the request and determine whether the water consumption level for such customer should be raised and to what extent prior to the imposition of the drought surcharge for that customer. A customer shall be notified in writing within a reasonable time whether such relief is granted. A customer seeking drought surcharge relief shall be afforded all administrative remedies available to all SAWS customers. The rules for administrative relief will be approved by the SAWS president/chief executive officer or his or her designee prior to the implementation of any surcharges and in any case the rules should be developed and approved by January 1, 2008.

(b) SAWS is hereby directed to notify customers that such variance procedure is available and to further notify customers where drought surcharge relief forms may be obtained.

(Ord. No. 2007-02-08-0149, § 1(Exh. A), 2-8-07; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Editor's note—Ord. No. 2007-02-08-0149, § 1(Exh. A), adopted February 8, 2007, amended § 34-129 in its entirety to read as herein set out. Formerly, § 34-129 pertained to administrative relief from imposition of critical period surcharge; notification, and derived from Ord. No. 84432, §§ 1, 2, adopted July 18, 1996.

Sec. 34-130. Meter trip fee.

A customer requesting assistance from SAWS to turn-off or turn-on water flow via the meter serving the customer shall be assessed a fee of twelve dollars ($12.00) for each trip required by a SAWS employee to satisfy the customer's request. This fee shall also be assessed for each trip necessary by a SAWS employee to turn-on water flow via a meter whenever a customer requests new water service from SAWS. For a customer who qualifies for participation in the SAWS Uplift Assistance Program, the meter trip fee amount shall be six dollars ($6.00). This fee amounts are effective January 1, 2023. The fee amount shall be adjusted on January 1 of each year thereafter by the percentage difference (greater than zero (0)) between the Consumer Price Index for All Urban Consumers (CPI-U) as it is calculated by the United States Bureau of Labor Statistics at the end of the month of July prior to the next year and as it was calculated at the end of the month of July one (1) year earlier, and subsequently rounded to the nearest dollar. SAWS will periodically perform a cost of service analysis to ensure that the fee charged does not exceed the cost of providing the service.

(Ord. No. 2007-12-13-1345, § 2(Att. B), 12-13-07; Ord. No. 2022-11-10-0867, § 2(Att. II), 11-10-22)

Sec. 34-131. Fire hydrant water usage regulation, rates, and meter fees.

(a) *General.* SAWS may authorize a meter to be connected temporarily to a fire hydrant during construction operations in lieu of installing a temporary service line provided the customer:

(1) Executes a contract for fire hydrant meter usage,

(2) Pays the customer account deposit and all other applicable rates and fees as established in this section,

(3) Assumes responsibility for the safekeeping of the meter, fitting and fire hydrant, and

(4) Complies with backflow prevention requirements as established in the SAWS Utility Service Regulations.

(b) *Fire hydrant meter deposit, and daily availability charge.*

(1) Prior to obtaining a fire hydrant meter, the customer will be required to pay a fire hydrant meter deposit of one thousand eight hundred ninety-three dollars ($1,893.00).

a. The customer shall indicate on the fire hydrant meter usage contract the location of usage of the meter by street address or by street name with the nearest cross street, and the estimated duration of meter usage at the designated location.

b. The customer shall indicate whether the fire hydrant meter will be used

for irrigation or non-irrigation purposes for the purpose of being assessed the appropriate water usage rates; a single meter may not be used for both types of usages during a given six-month usage period.

(2) The daily availability charge for use of a fire hydrant meter shall be six dollars ($6.00).

(3) The fee amounts for the fire hydrant meter deposit and the daily availability charge are effective January 1, 2025. The fee amounts shall be adjusted on January 1 of each year thereafter by the percentage difference (greater than zero (0)) between the Consumer Price Index for All Urban Consumers (CPI-U) as it is calculated by the United States Bureau of Labor Statistics at the end of the month of July prior to the next year and as it was calculated at the end of the month of July one (1) year earlier, and subsequently rounded to the nearest dollar. SAWS will periodically perform a cost of service analysis to ensure that the fees charged do not exceed the cost of providing the services.

(c) *Requirements for fire hydrant meter periodic calibration and meter readings.* A customer authorized by SAWS to use a fire hydrant meter must meet the following requirements:

(1) Return the meter to SAWS for inspection and re-calibration every twelve (12) months from the original date of the customer's fire hydrant meter contract; if the customer fails to meet this requirement, the customer will:

a. Forfeit the fire hydrant meter deposit, and

b. Be charged one hundred forty-four dollars ($144.00) per month in addition to all other fees and charges until the meter in question is returned for inspection and re-calibration (this monthly fee will not be prorated if the meter is returned in the middle of a billing period), and

c. Be unable to obtain any additional fire hydrant meters from SAWS until the meter in question is returned for inspection and re-calibration.

(2) Provide meter readings to SAWS on a monthly basis and report the location of the usage by the meter by street address, or by street name with the nearest cross street; if the customer fails to provide a meter reading for a given month on the day designated by SAWS, the customer shall be billed a flat fee equal to the OCL volumetric cost of water usage of seventy-four thousand eight hundred ten (74,810) gallons (one hundred (100) CCF) for the month.

(3) The additional one hundred forty-four dollars ($144.00) per month fee amount indicated in section 34-131(c)(1), above, is effective on January 1, 2023. The fee shall be adjusted on January 1 of each year thereafter by the percentage of any approved monthly change (greater than zero (0)) for the next year in SAWS domestic water delivery rates, and subsequently rounded to the nearest dollar.

(d) *Fire hydrant water usage rate classes.* Two separate classes of fire hydrant water usage rates are established one or the other to be assessed on monthly water consumption measured by the fire hydrant meter based on the type of usage declared by the customer at the time of entering into a contract with SAWS for use of a fire hydrant meter:

(1) *Non-irrigation usage.* The customer shall be charged using the second tier general class water delivery outside the city limits (OCL) rates currently assessed by SAWS, the Water Uplift Assistance Program fee rate, the second tier general class water supply fee rates currently assessed by SAWS, and the current Edwards Aquifer Authority (EAA) permit fee rate.

(2) *Irrigation usage.* The customer shall be charged using the highest tier irrigation class OCL rates currently assessed by SAWS, the highest irrigation water supply

fee rates currently assessed by SAWS, the Water Uplift Assistance Program fee rate, and the current Edwards Aquifer Authority (EAA) permit fee rate.

(e) *Regulations for fire hydrant meter irrigation meter usage.*

(1) Fire hydrant meters may not be used for irrigation if regular metered SAWS irrigation service is available at the desired location of meter usage; if regular SAWS irrigation service becomes available after fire hydrant meter irrigation usage begins, the fire hydrant meter must be returned to SAWS immediately or else the meter is subject to unannounced retrieval by SAWS.

(2) Customers using fire hydrant meters for irrigation purposes are subject to all drought management restrictions contained in article IV and must not irrigate between 11:00 a.m. and 7:00 p.m.

(3) Fire hydrant meters may only be used for irrigation purposes at one (1) location for six-months at a time; if customer desires to use the meter beyond the six-month period at one (1) location, the customer must apply to the SAWS President/CEO's designee in conservation for a variance using the procedure defined in section 34-276.

(4) Fire hydrant meter irrigation usage found to be unauthorized by SAWS subjects the meter in question to unannounced retrieval by SAWS.

(f) *Regulations for unauthorized SAWS fire hydrant water usage.*

(1) Withdrawal of water directly from a SAWS fire hydrant without the use of a SAWS-issued fire hydrant meter as authorized under the terms of a duly executed fire hydrant meter contract is prohibited.

(2) Should SAWS staff encounter and document an instance of such unauthorized usage, the person or entity making the withdrawal shall be assessed and billed a flat fee equal to the volumetric cost of water usage of seventy-four thousand eight hundred ten (74,810) gallons (one hundred (100) CCF) plus the equivalent of thirty (30) days of daily availability charges

(3) The fees and charges listed in section 34-131(f)(2) above shall be assessed in addition to any legal enforcement action undertaken by the City of San Antonio for criminal theft of water.

(Ord. No. 2007-12-13-1345, § 2(Att. B), 12-13-07; Ord. No. 2017-12-07-0928, § 3(Att. II), 12-7-17; Res. No. 18-262, 11-13-18; Ord. No. 2019-02-14-0123, § 1(Att. I), 2-14-19; Res. No. 19-280, 7(Att. V), 11-5-19; Ord. No. 2022-11-10-0867, § 2(Att. II), 11-10-22; Res. No. 2023-198, 10-3-23; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24; Res. No. 2024-227, § 7(Att. IV), 11-5-24)

Sec. 34-132. Same-day meter turn-on fee.

A customer requesting that the system initiate or reinstate water service on the same day the application for service is made shall be assessed a fee of thirty-four dollars ($34.00) for this service. A customer who qualifies for participation in the SAWS Uplift Assistance Program requesting that the system initiate or reinstate water service on the same day the application for service is made shall be assessed a fee of seventeen dollars ($17.00) for this service. The fee amount is effective January 1, 2024. The fee amount shall be adjusted on January 1 of each year thereafter by the percentage difference (greater than zero (0)) between the Consumer Price Index for All Urban Consumers (CPI-U) as it is calculated by the United States Bureau of Labor Statistics at the end of the month of July prior to the next year and as it was calculated at the end of the month of July one (1) year earlier, and subsequently rounded to the nearest dollar. SAWS will periodically perform a cost of service analysis to ensure that the fee charged does not exceed the cost of providing the services.

(Ord. No. 2017-12-07-0928, § 3(Att. II), 12-7-17; Res. No. 18-262, 11-13-18; Res. No. 19-280, 7(Att. V), 11-5-19; Ord. No. 2022-11-10-0867, § 2(Att. II), 11-10-22; Res. No. 2023-198, 10-3-23)

Editor's note—Prior to the reenactment of section 34-132 by Ord. No. 2017-12-07-0928, § 3(Att. II, adopted December

7, 2017, Res. No. 16-302, Att. III, repealed the former section 34-132 in its entirety, which pertained to the establishment of rates and schedules for former district special project customers, and derived from Ord. No. 2015-11-19-0956, § 4(Att. I), adopted November 19, 2015.

Sec. 34-133. Bench meter test fee.

A customer requesting that the system apply a bench test at the system's meter shop to the meter serving the customer's account shall be assessed a fee of one hundred twenty-three dollars ($123.00) only if the system finds that the meter being tested is accurate:

The fee amount is effective January 1, 2025. The fee amount shall be adjusted on January 1 of each year thereafter by the percentage difference (greater than zero (0)) between the Consumer Price Index for All Urban Consumers (CPI-U) as it is calculated by the United States Bureau of Labor Statistics at the end of the month of July prior to the next year and as it was calculated at the end of the month of July one (1) year earlier, and subsequently rounded to the nearest dollar. SAWS will periodically perform a cost of service analysis to ensure that the fees charged do not exceed the cost of providing the services.
(Ord. No. 2017-12-07-0928, § 3(Att. II), 12-7-17; Res. No. 18-262, 11-13-18; Res. No. 19-280, 7(Att. V), 11-5-19; Ord. No. 2022-11-10-0867, § 2(Att. II), 11-10-22; Res. No. 2023-198, 10-3-23; Res. No. 2024-227, § 7(Att. IV), 11-5-24)

Sec. 34-134. Annual irrigation system evaluation compliance fees.

Failure to comply with the annual inspection requirements contained in subsection 34-273(3) shall result in the assessment of the following additional charges on the account associated with the irrigation system:

(a) Annual enforcement fee in the amount of one hundred sixty dollars ($160.00); this fee shall be assessed on an annual basis until the requirements of subsection 34-273(3) have been met.

(b) Additional volumetric rate of $0.8711 per one thousand (1,000) gallons on all irrigation consumption on a monthly basis; this additional rate shall continue to be assessed until the requirements of subsection 34-273(3) have been met.

(c) The annual enforcement fee amount in section 34-134(a) above is effective January 1, 2025. The fee amount shall be adjusted on January 1 of each year thereafter by the percentage difference (greater than zero (0)) between the Consumer Price Index for All Urban Consumers (CPI-U) as it is calculated by the United States Bureau of Labor Statistics at the end of the month of July prior to the next year and as it was calculated at the end of the month of July one (1) year earlier, and subsequently rounded to the nearest dollar. SAWS will periodically perform a cost of service analysis to ensure that the fees charged do not exceed the cost of providing the services.

(d) The volumetric rate amount in section 34-134(b) above is effective January 1, 2025. The fee amount shall be adjusted on January 1 of each year thereafter by the percentage difference (greater than zero (0)) between the Consumer Price Index for All Urban Consumers (CPI-U) as it is calculated by the United States Bureau of Labor Statistics at the end of the month of July prior to the next year and as it was calculated at the end of the month of July one (1) year earlier. SAWS will periodically perform a cost of service analysis to ensure that the fees charged do not exceed the cost of providing the services.

(Ord. No. 2015-11-19-0956, § 4(Att. III), 11-19-15; Ord. No. 2017-12-07-0928, § 3(Att. II), 12-7-17; Res. No. 18-262, 11-13-18; Res. No. 19-280, 7(Att. V), 11-5-19; Ord. No. 2022-11-10-0867, § 2(Att. II), 11-10-22; Res. No. 2023-198, 10-3-23; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24; Res. No. 2024-227, § 7(Att. IV), 11-5-24)

Editor's note—Ord. No. 2017-12-07-0928, § 3(Att. II), adopted December 7, 2017, redesignated the former section 34-133 as section 34-134. The historical notation has been preserved for reference purposes.

Sec. 34-135. Noncompliance charge.

The purpose of this charge is to discourage discretionary water consumption that is in direct violation of article IV use restrictions. Customers at locations of repeated or continued violations of article IV, may be subject to the noncompliance charge. SAWS will periodically analyze the charge to ensure it fairly reflects the overall dollar cost impact of noncompliance to the community. The structure and rate of the noncompliance charge is set out in the noncompliance charge schedule within this chapter 34 of the San Antonio City Code.
(Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Sec. 34-135.1. Uses of fees derived from the noncompliance charge.

All fees derived from the noncompliance charge shall support conservation education and related programs.
(Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Sec. 34-135.2. Dispute resolution.

(a) *Request for review.* The noncompliance provisions of section 34-135 and of article IV, drought management, water conservation, and reuse are to be administered and executed by SAWS. If a customer believes an enforcement action occurred in error, they may request the review of an enforcement action resulting in a noncompliance charge being applied to the customer's account. The customer must submit the following information in writing to SAWS Conservation within fourteen (14) days of the date of the notice of violation:

(1) Name and address of the customer.

(2) Account number.

(3) Customer's contact information.

(4) Specific provision(s) from which the customer is requesting relief.

(5) Detailed statement as to how the specific provision(s) was misapplied or adversely affects the customer, extenuating circumstances that prevent(ed) compliance, or mitigating efforts made on the part of the customer.

(6) Other pertinent information related to the dispute.

(b) *Request for review by president/CEO's designee.* A customer may appeal the determination of an enforcement action review performed by conservation staff. If the customer's appeal is denied by conservation staff, the customer may request in writing that a secondary review be performed. The secondary review will be performed by either the president/CEO's designee in SAWS conservation or the VP of conservation's designee. This request must be made within five (5) working days of the customer being provided the results of the enforcement action review. In addition to the items stated in section 34-135.2(a), the request for appeal should include an explanation of the insufficiency of the conservation department's review.

(c) *Review by committee.* A customer may appeal the determination of an enforcement action review performed by the president's designee in conservation. If the customer's appeal is denied the customer may request in writing that a tertiary review be managed by a review committee which shall be appointed by the board. The request for this review must be made within five (5) working days of the customer being provided the results of the enforcement action review. In addition to the items stated in subsection 34-135.2(a), the request for appeal should include an explanation of the insufficiency of the previous rounds of review. Determinations made by committee review are final.

(d) *Items excluded from review.* The following are not eligible for review available under this section 34-135:

- Dissatisfaction with a SAWS policy or regulation.
- The noncompliance charge amount or structure as stated in chapter 34 of the San Antonio City Code and approved by city council.
- A customer's inability to pay and/or other billing disputes regarding the amount of the noncompliance fee.

(Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

ARTICLE III. SEWER SERVICE AND RATES*

DIVISION 1. GENERALLY

Secs. 34-146—34-155. Reserved.

DIVISION 2. RESERVED†

Secs. 34-156—34-195. Reserved.

DIVISION 3. RESERVED‡

Secs. 34-196—34-225. Reserved.

DIVISION 4. RATES AND CHARGES**

Sec. 34-226. Establishment of rates and schedules, rates schedules, and affordability discount analysis.

The schedule of sewer service rates and charges contained in Schedule A for residential sewer service customers, the schedule of sewer service rates and charges contained in Schedule B for general sewer service customers, the sewer service rates and charges contained in Schedule C for wholesale sewer service customers, and the schedule of sewer service rates and charges in Schedule G, as amended attached hereto, shall be effective for all consumption on or about January 1, 2024, as appropriate, and shall be the lawful rates for sewer service to be charged by the system except as specified below:

Customers approved by the SAWS for participation in the flat rate sewer program in accordance with section 34-226.2 shall pay sewer charges as required under the flat rate sewer program.
(Ord. No. 80330, § 1, 6-16-94; Ord. No. 99995, § 2(Att. I), 11-18-04; Ord. No. 101682, § 1(Att. I), 11-17-05; Ord. No. 2015-11-19-0956, § 4(Att. I), 11-19-15, Res. No. 16-302, Att. III; Ord. No. 2017-12-07-0928, § 1(Att. I), 12-7-17; Ord. No. 2022-11-10-0867, § 1(Att. I), 11-10-22; Res. No. 2023-198, 10-3-23)

Editor's note—Rate Schedules referenced above are set out at length at the end of this chapter.

Sec. 34-226.1. Methods for establishing monthly residential charges.

(a) *Definitions.*

(1) *Entity.* A city, town, political or commercial subdivision, district, association, military installation or facility that establishes, operates and maintains a sewer collection system within its jurisdictional boundaries, and contracts with the San Antonio Water System to connect that sewer collection system to the regional sewage transportation and treatment works in order that the San Antonio Water System can provide for the transportation and treatment of sewage discharged by the entity.

(2) *Winter averaging sewer charge period.* The period of water and sewer service during the three (3) complete consecutive billing periods commencing on or after November 15 of each year and terminating on or after the completion of three (30 full billing cycles in March of each year. During the three (3) complete consecutive billing periods the system shall

*__Note—__Rate schedules A, B, C, and G relating to wastewater residential, general, wholesale, and Uplift Assistance Program customers are hereby amended and shall hereinafter read as attached hereto and incorporated herein.

†__Editor's note—__Ord. No. 80574, § 10, adopted Aug. 4, 1994, relocated the text of former Div. 2, §§ 34-156—34-166, relative to industrial waste, to Art. V, Div. 3, § 34-471 et seq. Former history notation has been retained at the new section designations.

‡__Editor's note—__Ord. No. 80574, § 11, adopted Aug. 4, 1994, relocated the text of former Div. 3, §§ 34-196—34-211, relative to toilets, septic tanks and privies, to Art. V, Div. 2, § 34-441 et seq. Former history notation has been retained at the new section designations.

**__Editor's note—__Ord. No. 80330, § 1, adopted June 16, 1994, amended the provisions of former §§ 34-226—34-234, relative to sewage disposal rates and charges, in their entirety to read as herein set out. The provisions of these former sections derived from Code 1959, §§ 33A-61—33A-65, 33A-67—33A-69; Ord. No. 56173, 11-24-82; Ord. No. 57792, 10-27-83; Ord. No. 58526, 3-29-84; Ord. No. 60600, 4-25-85; Ord. No. 63544, 8-28-86; Ord. No. 65694, 9-10-87; Ord. No. 65767, 9-24-87; Ord. No. 67918, 9-15-88.

establish monthly sewer service charges for customers based upon their average monthly water consumption during the three (3) complete consecutive billing periods. The customer must receive sewer service at one location during the entire three (3) consecutive billing periods in order to establish a "winter average."

(3) *Interim averaging sewer charge period.* The period of water and sewer service during three (3) complete monthly billing periods during which the system establishes monthly sewer service charges for customers based upon their average monthly water consumption during that period. This interim averaging sewer charge period is to be used only in determining monthly sewer service charges when the customer has not yet established a winter average by the method outlined in (2) above.

(4) *Winter average charge.* The monthly sewer service charge established by the system during the winter averaging sewer charge period. This charge is the basis for monthly billings until completion of the next entire winter averaging sewer charge period.

(5) *Interim average charge.* The monthly sewer service charge established by the system during the interim averaging sewer charge period. This charge is the basis for monthly billings until completion of the next entire winter averaging sewer charge period and becomes the basis for subsequent monthly billings.

(b) *Final billings.* For all final billings, either the winter average charge, or the interim average charge, or the unaveraged residential charge or the unmetered residential charge, whichever is in effect at the termination of service for residential customers, will be prorated by dividing the applicable sewer service charge by thirty (30), and multiplying by the number of days that sewer service was actually received during the final month. However, final billings shall not be greater than the applicable sewer service charge and shall not be less than the minimum sewer service charge stated in Rate Schedules A and B, attached hereto and incorporated herein.

(c) *New customers who have not established monthly sewer service charge by previous residency within the service area during the preceding six months.* New customers who move into the service area after the first day of a billing period and before the last day of that billing period will be billed on a proration basis by dividing the applicable I.C.L. or O.C.L. unaveraged residential charge, stated in Rate Schedules A and B, attached hereto and incorporated herein by thirty (30), and multiplying by the number of days that sewer service was actually received. However, the initial bill for service received during the first partial billing period shall not be less than the minimum I.C.L. or O.C.L. sewer service charge stated in Rate Schedules A and B, attached hereto and incorporated herein.

New customers will pay the I.C.L. or O.C.L. unaveraged residential charge, stated in Rate Schedules A and B, attached hereto and incorporated herein, during the first three (3) complete billing periods while an interim average charge based upon water consumption is established. The interim average charges shall not be greater than the I.C.L. or O.C.L. unaveraged residential charge, stated in Rate Schedules A and B, attached hereto and incorporated herein, nor be less than the minimum monthly I.C.L. or O.C.L. sewer service charge stated in Rate Schedules A and B, attached hereto and incorporated herein.

Once the interim average charge is established, it shall be the monthly sewer service charge through the end of the next complete winter averaging sewer charge period. Once the winter average charge is established, the interim average charge shall no longer be the basis for the monthly service charge.

(d) *Initial billings for customers relocating within the service area.* Customers who relocate within the service area will receive an initial bill at their new residence based upon either the winter average charge, or the interim average charge, or the unaveraged residential charge or the unmetered residential charge, depending

upon which charge has been the basis for monthly billings at the previous residence. The applicable charge will be prorated by dividing it by thirty (30), and multiplying by the number of days that sewer service is actually received during the first month at the new residence. However, initial billings shall not be greater than the applicable monthly sewer service charge and shall not be less than the minimum I.C.L. or O.C.L. sewer service charge stated in Rate Schedules A and B, attached hereto and incorporated herein. After this initial billing, the customers described above will continue to be billed monthly sewer service charges based upon the full monthly charge established at their previous residence. This applicable charge shall serve as the basis for monthly billings until the end of the next complete winter averaging sewer charge period.

(e) *Alternative methods.* The above definitions and methods (1-5) for established monthly residential sewer service charges shall apply to, and be implemented by, all water purveyors within the service area except those water purveyors that have submitted alternative definitions and methods which have been approved by the system.

(Ord. No. 80330, § 1, 6-16-94)

Editor's note—Rate Schedules A and B referenced above are set out at length at the end of this chapter.

Sec. 34-226.2. Flat rate sewer program.

(a) The purpose of this program is to allow an alternate method of establishing a sewer charge for general accounts.

(b) Any general user who uses water in their daily activities which is not discharged into the sewer system, may submit a written request to customer service for a reduction in the volume of waste estimated to be discharged from the premise.

(c) In the event a customer requests to participate in the program, the system shall follow the flat rate sewer program procedure set out in Schedule 2 which is attached hereto for customer notification and convenience. In the event the system duly amends such procedure from time to time, an updated version of such procedure shall be supplied to the City of San Antonio City Clerk. Copies of the system's most current flat rate sewer program procedure shall also be available to all system customers upon request at the system's customer service locations.

(Ord. No. 80330, § 1, 6-16-94)

Editor's note—Schedule 2 referenced above is set out at length at the end of this chapter.

Sec. 34-226.3. Industrial waste surcharges.

(a) Persons or owners discharging industrial wastes which exhibit none of the characteristics of wastes prohibited by Ordinance Number 77784, or as may be amended, other than excessive BOD or TSS, but having a concentration in excess of normal domestic sewage, that is, concentrations of BOD in excess of two hundred fifty (250) mg/l and TSS in excess of two hundred fifty (250) mg/l, shall pretreat the industrial waste to meet the concentrations of normal domestic sewage; however, such excessive BOD and TSS waste may be accepted for treatment if all the following requirements are met:

(1) The wastes will not cause damage to the collection system.

(2) The wastes will not impair the system's treatment process.

(3) The wastes will not cause contamination of POTW sludges thus limiting sludge disposal options or practices.

(4) The person(s) or owners responsible for the wastes pays an industrial surcharge, in addition to the regular water and sewer charges, in accordance with the following cost factors and formula:

V	=	Volume of water use reported in millions of gallons (MG) per month.
BOD	=	Biochemical oxygen demand analyzed in accordance with the procedures approved under 40 CFR Part 136, or the latest Environmental Protection Agency (EPA) approved method, and reported in units of milligrams per liter (mg/l).

TSS = Total suspended solids analyzed in accordance with the procedures approved under 40 CFR Part 136, or the latest Environmental Protection Agency (EPA) approved method, and reported in units of milligrams per liter (mg/l).

Cost factor BOD = $1.40

Cost factor TSS = $3.24

IWS = Industrial waste surcharge computed in dollars as follows: IWS Volume of discharge (in MG per Month) [$1.40 × (BOD mg/l - 250 mg/l) + $3.24 × (TSS mg/l) - 250 mg/l].

(b) *Surcharge review.*

(1) The San Antonio Water System as the Control Authority (CA) shall review the basis for determining surcharges at least once every two (2) years, or more frequently as needed.

(2) The discharger may employ an independent registered professional engineer, at the discharger's cost, to perform additional sampling and analysis provided this activity is coordinated with the CA. Upon consideration of all available information, the CA shall determine the final values and/or charges to be assessed.

(c) *Sample point.*

(1) Each sampling point shall be installed and maintained by the discharger so that any authorized representative of the CA may readily and safely obtain samples of the flow at all times.

(2) Each sampling point shall be near the outlet of each sewer, drain, pipe, or channel which connects with the sanitary sewer or wastewater facility.

(3) Each sampling point shall be designed and constructed to prevent infiltration by ground and surface water and maintained so that any authorized representative of the CA may readily and safely obtain samples of the flow at all times.

(4) Before beginning construction of a sampling point, a person shall submit plans to the CA for review and approval to ensure compliance with these provisions. Plans must include the sewage metering device if one (1) is to be installed.

(d) *Measurement of waste volumes.*

(1) The volume of wastes may be determined by the same methods used to calculate the general sewer service rate.

(2) On premises where all or part of the water is obtained from a source other than the public water supply and no sewage metering device is installed, the owner shall provide and maintain a metering device of a type approved by the CA to measure sources of private water.

(e) *Sampling of wastes.*

(1) The CA shall take samples of waste discharges from establishments as often as determined necessary to adequately monitor and control the discharges. If an owner desires additional samples, the owner shall pay the cost of the additional service.

(2) Samples collected by the CA may be either flow-proportional or time proportional composite samples as appropriate to achieve the most representative samples, or via the best available sampling method given the constraints and limitations present at the discharge point source.

(f) *Sampling and analysis fees.* A person discharging concentrations of BOD and/or TSS in excess of normal domestic sewage concentrations shall compensate the CA for the cost of sample collection and analysis when an industrial surcharge is established.

(g) *Industrial surcharges for class groups.*

(1) The CA shall assess an industrial surcharge rate for each class group based

on waste strength determinations established by averaging grab or composite samples or both, taken from a representative number of establishments in each group, and shall apply this rate to the water consumption or metered wastewater of the establishment. If the establishment is within a larger facility for which water usage is determined from a master meter, the San Antonio Water System Customer Service Department (CSD) shall determine an estimated volume for the establishment on which the surcharge rate is applied. CSD shall then add the appropriate industrial surcharge to billings for regular water and sewer service for each establishment classified into a class group.

(2) If an establishment contains operations from more than one of the class groups, CSD determines that the surcharge rate for a particular class group would not adequately compensate the system for its cost of treatment, CSD shall add an appropriate industrial waste surcharge to adequately compensate the system for its cost of treatment.

(3) The CA may, from time to time, revise surcharge class groups based on analysis of current samples.

(h) The surcharge amounts shown in section 34-226.3(a) above are effective January 1, 2025. The fee amount shall be adjusted on January 1 of each year thereafter by the percentage difference (greater than zero (0)) between the Consumer Price Index for All Urban Consumers (CPI-U) as it is calculated by the United States Bureau of Labor Statistics at the end of the month of July prior to the next year and as it was calculated at the end of the month of July one (1) year earlier. SAWS will periodically perform a cost of service analysis to ensure that the fee charged does not exceed the cost of providing the services.
(Ord. No. 80330, § 1, 6-16-94; Ord. No. 97395, 3-27-03; Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14; Ord. No. 2015-11-19-0956, § 4(Att. I), 11-19-15; Ord. No. 2022-11-10-0867, § 2(Att. II), 11-10-22; Res. No. 2023-198, 10-3-23; Res. No. 2024-227, § 7(Att. IV), 11-5-24)

Sec. 34-226.4. Pass-through of sewer uplift assistance program fee.

The assessment of a pass-through of the Sewer Uplift Assistance Program Fee (Sewer UAP Fee) to all non-UAP sewer customers in the Residential and General classes is authorized. The initial monthly pass-through of the Sewer UAP Fee shall commence on or after January 1, 2023. Such initial pass-through, while estimated to be $0.1610 per thousand gallons of billed sewer usage, is subject to change, based on the formula set out herein. The San Antonio Water System is delegated the authority to administratively adjust such pass-through on an annual basis, on or about January 1 of each year, in accordance with the following formula:

SEWER UPLIFT ASSISTANCE PROGRAM FEE ADJUSTMENT

An adjustment will be made to the Sewer UAP Fee annually, beginning January 1, 2024, based on the following formula: the annual revenue from the fee collected by SAWS for the prior twelve-month period beginning in January plus the amount of the over-recovery or under-recovery of the prior twelve-month costs of sewer service to UAP customers, divided by the project annual sewer usage, yields the fee on a dollars-per-gallon basis.

Sewer UAP Fee billed revenue by SAWS for prior twelve (12) months.

PLUS

Over-recovery/under-recovery of the prior twelve-month total costs of sewer service to UAP sewer customers from the application of UAP sewer rates.

PLUS

Projected UAP cost increases from program growth and rate changes.

DIVIDED BY

Projected annual sewer usage subject to UAP Fee for the next twelve (12) months.

DIVIDED BY

Projected annual sewer usage for the next twelve (12) months.

EQUALS

Adjusted Sewer UAP Fee rate on a dollars-per-gallon basis of consumption, for the next twelve (12) months period beginning in the month of January.

The San Antonio Water System is directed to show such pass-through as a line item on each customer bill.
(Ord. No. 2022-11-10-0867, § 2(Att. II), 11-10-22)

Sec. 34-227. Determination in extenuating circumstances.

The president/chief executive officer of the system is hereby authorized to designate a committee comprised of representatives from quality control and customer service empowered to establish special monthly commercial rates in cases where extenuating circumstances exist, such as the use of water in a manufactured product, the use of water from a consumer's own supply where there is no meter, excessive irrigation, etc. The committee shall, upon review of the facts, make a determination as to sewer service charges in such instances.

Secs. 34-228—34-230. Reserved.

Sec. 34-231. Reserved.

Editor's note—Ord. No. 2015-11-19-0956, § 4(Att. III), adopted November 19, 2015, repealed the former section 34-231 in its entirety, which pertained to monthly charges to new, vacant, residential or commercial structures, and derived from Ord. No. 80330, § 1, adopted June 16, 1994.

Sec. 34-232. Reserved.

Sec. 34-233. Collection of charges.

The president/chief executive officer of the system or his designated representative shall negotiate with other water purveyors in order to make necessary arrangements for the collection of the sewer charges prescribed in this division by such water purveyors.
(Ord. No. 80330, § 1, 6-16-94)

Sec. 34-234. Reserved.

Sec. 34-235. Reserved.

Editor's note—Ord. No. 2015-09-10-0761, § 7(Exh. D), adopted September 10, 2015, repealed the former section 34-235 in its entirety, which pertained to the schedule of rates for stormwater drainage, services and programs; billing and collection, and derived from Ord. No. 77949, §§ 1—6, adopted May 13, 1993; Ord. No. 90499, § 1, adopted September 16, 1999; Ord. No. 96515, § 1, adopted October 3, 2002; Ord. No. 98635, § 1, adopted December 18, 2003; Ord. No. 100066, § 1, adopted December 9, 2004, and Ord. No. 2007-09-20-0988, § 1, adopted September 20, 2007.

Sec. 34-236. Lift station maintenance fee.

A customer-developer wishing to install a lift station as an element of an off-site wastewater collection system to serve a specific area must meet all SAWS regulatory requirements as they relate to lift stations and, in addition, pay to SAWS a one-time lift station maintenance fee of two hundred thirty-nine thousand six hundred and ninety-one dollars ($239,691.00) that will be used to offset annual lift station maintenance expenses over a ten-year period. The fee amount is effective January 1, 2025. The fee amount shall be adjusted on January 1 of each year thereafter by the percentage difference (greater than zero (0)) between the Consumer Price Index for All Urban Consumers (CPI-U) as it is calculated by the United States Bureau of Labor Statistics at the end of the month of July prior to the next year and as it was calculated at the end of the month of July one (1) year earlier, and subsequently rounded to the nearest dollar. SAWS will periodically perform a cost of service analysis to ensure that the fee charged does not exceed the cost of providing the services.
(Ord. No. 2007-12-13-1345, § 2(Att. B), 12-13-07; Ord. No. 2011-12-08-1004, § 2(Exh. L), 12-8-11; Ord. No. 2017-12-07-0928, § 3(Att. II), 12-7-17; Res. No. 18-262, 11-13-18; Res. No. 19-280, 7(Att. V), 11-5-19; Ord. No. 2022-11-10-0867, § 1(Att. I), 11-10-22; Res. No. 2023-198, 10-3-23; Res. No. 2024-227, § 7(Att. IV), 11-5-24)

Sec. 34-237. Dye testing fee.

A person requesting that the system provide a dye test to confirm the presence of a connection of a property to the system's sewer system shall be assessed a fee of ninety dollars ($90.00) for the conduct of the test. The fee amount is effective January 1, 2025. The fee amount shall be adjusted on January 1 of each year thereafter by the percentage difference (greater than zero (0)) between the Consumer Price Index for All Urban Consumers (CPI-U) as it is calculated by the United States Bureau of Labor Statistics at the end of the month of July prior to the next year and as it was calculated at the end of the month of July one (1) year earlier, and subsequently rounded to the nearest dollar. SAWS will periodically perform a cost of service analysis to ensure that the fee charged does not exceed the cost of providing the services.
(Ord. No. 2011-12-08-1004, § 2(Exh. L), 12-8-11; Ord. No. 2017-12-07-0928, § 3(Att. II), 12-7-17; Res. No. 18-262, 11-13-18; Res. No. 19-280, 7(Att. V), 11-5-19; Ord. No. 2022-11-10-0867, § 1(Att. I), 11-10-22; Res. No. 2023-198, 10-3-23; Res. No. 2024-227, § 7(Att. IV), 11-5-24)

Sec. 34-238. Reserved.

Editor's note—Ord. No. 2022-11-10-0867, § 1(Att. I), adopted Nov. 10, 2022, repealed § 34-238, which pertained to unauthorized sewer connection cap and removal fee and derived from Ord. No. 2011-12-08-1004, adopted Dec. 8, 2011; Ord. No. 2017-12-07-0928, adopted Dec. 7, 2017; Res. No. 18-262, adopted Nov. 13, 2018; Res. No. 19-280, adopted Nov. 5, 2019.

Secs. 34-239—34-270. Reserved.

ARTICLE IV. DROUGHT MANAGEMENT, WATER CONSERVATION AND REUSE*

DIVISION 1. REGULATED ACTIVITIES

Sec. 34-271. Definitions.

As used in this article, the following terms shall have the following meanings:

Advanced plan means:

(1) As it related to athletic fields, submitted to and approved by SAWS, an irrigation schedule based on precipitation rates for irrigation systems that allows athletic fields to be irrigated more than one day a week.

(2) As it relates to water features, submitted to and approved by SAWS, owner certification that the water feature is in good working order, to include the Outdoor water feature conservation plan and advanced monitoring methods that allow the operator to receive real time data regarding water use.

Agricultural irrigation means irrigation for the purpose of growing crops commercially for human consumption or to use as feed for livestock or poultry.

Air conditioning system(s) means a mechanical system generally consisting of a compressor, thermostat and duct work permanently installed in a building for the purpose of controlling humidity and temperature. For the purposes of this division, an air conditioning system does not include window units.

Athletic field means a sports playing field, the essential feature of which is turf grass, used primarily for organized sports for schools, professional sports, or sanctioned league play.

Automatic irrigation controller means a device that automatically activates and deactivates an irrigation system at times selected by the operator.

Automatic pool drain/overflow system means the removal of pool/spa surface water through the use of overflows and surface water collection systems of various design and manufacture.

*__Editor's note—__Ord. No. 2014-05-29-0376, § 3(Exh. B), adopted May 29, 2014, amended article IV in its entirety to read as herein set out. Formerly, article IV, divisions 1—5, pertained to similar subject matter, and derived from Ord. No. 92179, § 1, adopted July 27, 2000; Ord. No. 92503, § 1, adopted September 14, 2000; Ord. No. 100322, § 1(Att. A), adopted January 20, 2005; Ord. No. 2008-10-02-0885, § 3(Exh. A), adopted October 2, 2008; Ord. No. 2009-02-05-0089, § 1(Exh. A), adopted February 5, 2009, and Ord. No. 2009-03-12-0179, § 8, adopted March 12, 2009.

Automatic pool fill means a water level sensing device that can control a valve to add make-up water to a pool, spa, or water feature.

Automatic pool shut-off means the action of the automatic pool fill system is automatically turned off when desired water level is attained.

Backwash / backwashing means the process of cleansing the filter medium and/or elements by the reverse flow of water through the filter.

Base usage means the average monthly total water usage for the three (3) lowest months of November and December and the following January and February during each of the three (3) consecutive 12-month periods preceding the commencement of the user's use of water.

Basic plan means:

(1) As it relates to athletic fields, submitted to and approved by SAWS, an irrigation schedule for athletic fields that allows each athletic field at a particular location to be irrigated one day a week.

(2) As it relates to water features, submitted to and approved by SAWS, owner certification that the water feature is in good working order to including the Outdoor water feature conservation plan.

Beneficial use means the amount of water that is economically necessary for a purpose not otherwise prohibited by the city, state or federal law or regulation, when reasonable intelligence and reasonable diligence is used in applying water for that purpose.

Blowdown meter means a meter that tracks the amount of water discharged from a cooling tower system.

Bucket means a deep, cylindrical container holding five (5) gallons or less, used singly by one person.

Cartridge pool filter means a filter that utilizes a porous element that acts as a filter medium.

Certified vehicle wash facility means a vehicle wash facility that meets the requirements of SAWS certified vehicle wash program.

Commercial dining facility means a business that serves prepared food and beverages to be consumed on the premises.

Computer controlled irrigation system (CCIS) means a system comprised of a computer controller (digital operating system), software, interface modules, satellite field controllers, soil sensors, weather station, or similar devices that is capable of achieving maximum efficiency and conservation in the application of water for irrigation. A CCIS, at a minimum, should be designed to:

(1) Prevent over watering, flooding, pooling, evaporation and run-off, and

(2) Prohibit sprinkler system from applying water at an rate exceeding the soil holding capacity of the land under irrigation.

Concentration means re-circulated water that has elevated levels of total dissolved solids as compared to the original make up water.

Conductivity controller means a device used to measure the conductivity of total dissolved solids in the water of a cooling system and control the discharge of water in order to maintain efficiency.

Conforming means a golf course that has a CCIS in place and is utilizing the system to achieve maximum conservation and the goals of this division. Conforming facilities shall have a conservation plan approved and on file with SAWS.

Conservation department means the Conservation Department of the San Antonio Water System.

Cooling tower means an open water recirculation device that uses fans or natural draft to draw or force air to contact and cool water through the evaporative process.

Customer means any individual, business, institution, builder, developer, or other end user eligible for utility service in accordance with City Code and SAWS' regulations.

Dedicatory instrument means a governing instrument for the establishment, maintenance, and operation of a residential subdivision, planned unit development, condominium, townhouse regime, or any similar planned development. Texas Real Property Code, Sec. 202.007(1).

Diatomaceous earth pool filter means a filter that utilizes a coating of diatomaceous earth (DE) or other filter media over a porous fabric as its filter medium.

Drip irrigation means an irrigation system (drip, porous pipe, etc.) that applies water at a predetermined controlled low-flow levels directly to the roots of the plant.

Drought for this article is not intended to be limited to any meteorological definition of the term. "Drought" is intended to have broad meaning and refers to any condition, whether man-made or natural, where the available water supply or resources are not meeting the water

[This page intentionally left blank.]

demand, or if the water supply or resources are being depleted at a faster rate than they are being replenished.

Evaporative shields means soft floating pads that have contact with the pool water surface to reduce evaporation, small enough and flexible enough not to present an entrapment or injury hazard to bathers.

Evapotranspiration rate (ET rate) means the rate which the combination of evaporation from soil surface and transpiration from vegetation will occur for specific climatic conditions.

Existing landscaping plant means a landscaping plant existing after such period of time as to accomplish an establishment and maintenance of growth.

Extra-territorial jurisdiction (ETJ) means the un-incorporated area contiguous to corporate boundaries of the city where the city has regulatory control as determined by state law and the Texas Local Government Code, which may be amended from time to time.

Fountain means an artificially created jet or stream of water, a structure, often decorative, from which a jet or stream of water issues.

Golf course means an irrigated and landscaped playing area made up of greens, tees, fairways, roughs and related areas used for the playing of golf.

Hand-held hose means a hose physically held by one person, fitted with a manual or automatic shutoff nozzle.

Health care facility means any hospital, clinic, nursing home or other health care or medical research facility.

Hose-end sprinkler means a sprinkler that applies water to landscape plants that is piped through a flexible, movable hose.

Household use means the use of water, other than uses in the outdoor category, for personal needs or for household purposes, such as drinking, bathing, heating, cooking, sanitation or cleaning, whether the use occurs in a residence or in a commercial or industrial facility.

Impervious surface means any structure or any street, driveway, sidewalk, patio or other surface area covered with asphalt, concrete, brick, paving, tile or other material preventing water to penetrate the ground.

Indoor water feature means any water feature located entirely in a conditioned space.

Industrial use means the use of water for or in connection with commercial or industrial activities, including but not limited to, manufacturing, bottling, brewing, food processing, scientific research and technology, recycling, production of concrete, asphalt, and cement, commercial uses of water for tourism, entertainment, and hotel or motel lodging, generation of power other than hydroelectric, and other business activities.

Irrigation suspension program (ISP) means a program administered by the Edwards Aquifer Authority pursuant to which agricultural irrigators within the Edwards Aquifer Authority's boundaries voluntarily agree to suspend some irrigation use of the underground water from the Edwards Aquifer in consideration for payments voluntarily funded by ISP participants.

Irrigation system means a system of fixed pipes and emitters or heads that apply water to landscape plants or turfgrass, including, but not limited to, in-ground and permanent irrigation systems.

Irrigation system evaluation means a zone-by-zone analysis of an irrigation system that, at a minimum, includes a review of the following elements:

(1) Design appropriateness for current landscape requirements;

(2) Irrigation spray heads and valves;

(3) Irrigation zone flow rates expressed in gallons per minute;

(4) System pressure;

(5) Annual maintenance plan that includes irrigation system maintenance, landscape maintenance, and a basic summer and winter irrigation scheduling plan;

(6) Location and account numbers of meters supplying the irrigation system should be described or identified on a map;

(7) Location and verification of functional rain sensor.

Lake, lagoon or *pond* means an artificially created body of fresh or salt water.

Landscaping plant means any member of the Plant kingdom (Plantae), including any tree, shrub, vine, herb, flower, succulent, groundcover or grass species, that grows or has been planted out-of-doors.

Landscape watering means the application of water to any landscaping plant member for growth or maintenance, but for purposes of this article does not include essential use without waste of water by a commercial landscape nursery to the extent the water is used for production rather than decorative landscaping.

Large property means a tract of land or several tracts of land managed as a group such as commonly found in neighborhood common areas or medians and street setbacks commonly found associated with commercial development regardless of the number of meters or individual parcel sizes associated with the property that equals or exceeds five (5) acres in size and has an irrigation system covering all or a portion of the property.

Large use property means any property that uses 1 million gallons of water or more for irrigation purposes in a single calendar year.

Low-flow toilet means a tank toilet that uses one and sixth-tenths (1.6) gallons of water or less per flush.

Livestock means cattle, sheep, goats, hogs, poultry, horses, and game, domestic, exotic and other animals and birds, including zoo animals, used for commercial or personal purposes.

Livestock use means the use of water for drinking by or washing of livestock.

Maintenance level means the level of water in a swimming pool required for proper operation of circulation and filter equipment for the swimming pool.

Make-up meter means a meter that measures the amount of water entering a cooling tower system.

msl means elevation above mean sea level.

Mulch means any material such as bark, leaves, straw or other materials left loose and applied to the soil surface to reduce evaporation.

Multi-family means residential properties consisting of more than two (2) individual dwellings.

New landscape means any contiguous area where new landscape plant(s) are installed where no other planted plants currently exists. A new plant(s) added to an existing landscape is not considered a new landscape for the purposes of an establishment variance.

New landscaping plant means any plant or seed planted in or transplanted to an area within such period of time as to accomplish a reasonable establishment and maintenance of growth. Application of grass seed to an existing stand of grass or turf is not considered new landscaping for the purposes of this chapter.

Non-conforming means a golf course that is not conforming. Non-conforming golf courses must follow the reduction measures and guidelines set forth in section 34-332.

Non-potable tank means a tank installed to capture water generated on the property from rainwater, storm water, cooling towers, air condition condensate or other process that generates secondary water use as maybe found through an industrial process with the intent to use that captured water again on site.

Non-residential means a property, facility location, or owner that is not residential.

Non-residential water feature means a water feature associated with a non-residential facilities including but not limited to shopping centers, hotels, apartments, health care facility, schools, home and property owner associations, governmental entities

NPDES/TPDES permit holders means those entities that have valid state or federal permits commonly referred to as NPDES or TPDES

(National Pollutant Discharge Elimination System/Texas Pollutant Discharge Elimination System) permits to satisfy requirements of the federal Clean Water Act.

On-site reclaim water means water generated on the property from rainwater, storm water, cooling towers, air condition condensate or other process that generates secondary water use as maybe found through an industrial process with the intent to use that captured water again on site.

Organic material means organic substances in differing Stages of decay.

Other outdoor use means the use of water outdoors for the maintenance, cleaning and washing of structure and mobile equipment, including automobiles and boats, or the washing of streets, driveways, sidewalks, patios and other similar areas.

Outdoor water feature conservation plan means a plan submitted to and approved by the SAWS Conservation department that includes owner contact information monthly water use, surface area, location, reduced hours of operation through the use of timers, and certified and verified by SAWS to be in good working order.

Park means a non-residential or multi-family tract of land, other than a golf course, maintained by a city, private organization, or individual, as a place of beauty or public recreation and available for use to the general public.

Person means any individual, corporation (including a government corporation), organization, state or federal governmental subdivision or agency, political subdivision of a state, interstate agency or body, business, trust, partnership, limited partnership, association, firm, company, joint stock company, joint venture, commission or any other legal entity.

Pervious hardscape means patios, pathways and other areas where firm footing is desired, constructed in such a way that allows for water to penetrate the ground. Examples include flagstone set in sand and wood plank decks, but exclude concrete slab patios and sidewalks or pavers set with mortar and generally defined as impervious.

Pervious surface means any ground surface that can absorb water or other liquids.

Pool skimmer means a device installed in the pool or spa that permits the removal of floating debris and surface water to the filter.

Pool water features means fountains, spray jets, waterfalls, spillways, and similar water aerating devices, systems, or arrangements. Features not used for the sanitizing or filtration of the pool water.

Positive shut-off means a valve that is held in a closed position by system pressure until overridden by an outside force.

Power production use means the use of water for steam generation and the use of water for cooling and for replenishment of cooling reservoirs.

Power washer means a machine that uses water or a water-based product applied at high pressure to clean impervious surfaces.

Precipitation rate means the speed at which a sprinkler or irrigation system applies water. Precipitation rates are measured in inches per hour or inches per minute.

Prescribed hours for watering means the hours of 12:00 a.m. to 10:00 a.m. and 9:00 p.m. to midnight when this article IV, division 4 of chapter 34 is not in effect, and during the hours specified therein when division 4 is in effect.

Private residential swimming pool means any swimming pool located on private property under the control of the homeowner, the use of which is limited to swimming or bathing by the homeowner's family or invited guests.

Property address means the street address of a property, unless multiple street addresses are served by a single meter, in which case the mailing address will be used.

Public swimming pool means any swimming pool, other than a private residential swimming pool, intended to be used collectively by persons for swimming or bathing, operated by any person

as defined herein, whether owner, lessee, operator, licensee, or concessionaire, regardless of whether a fee is charged for such use. The term includes, but is not limited to, apartment community pools, condominium association pools and community association pools.

Public park means as a place of beauty or public recreation owned by a governmental entity that collects sales or property for the property tax and available for use to the general public.

Rain sensor means a functioning device that detects the presence of precipitation and automatically interrupts an irrigation cycle and inhibits future irrigation cycles by means of an adjustable reset delay.

Recycled water means domestic or municipal wastewater which has been treated to a quality suitable for a beneficial use, pursuant to the provisions of TCEQ Chapter 210 of TAC 30 and other applicable rules and permits.

Requestor means a person who requests a variance under this article.

Residential means a single or multi-family dwelling unit containing two (2) or fewer family units.

Residential water feature means a water feature located at a residential property.

River, stream or *brook* means an artificially created flow of water in a channel or bed, as a brook, rivulet or small river.

Sand media filter means a filter using sand or sand and gravel as a filter medium. Also known as "sand filters."

SAWS means the San Antonio Water System.

Soaker hose means a flexible hose that is designed to slowly emit water across the entire length and connect directly to a flexible hose or spigot. Does not include hose that by design or use sends a fine spray in the air. It is not considered drip irrigation.

Soil holding capacity means the amount of moisture in the soil that can occur without becoming saturated.

Soil organic matter means the organic component of soil, consisting of three (3) primary parts including small (fresh) plant residues and small living soil organisms, decomposing (active) organic matter, and stable organic matter (humus). Soil organic matter serves as a reservoir of nutrients for crops, trees, shrubs, and vegetation, and provides soil aggregation, increases nutrient exchange, retains moisture, reduces compaction, reduces surface crusting, and increases water infiltration into soil.

Spa means any sub structure associated with a swimming pool often described as a hot tub.

Sprinkler means an emitter that applies water to the landscape plants in a stream or spray that travels through the air. Sprinkler irrigation can be applied by an irrigation system or hose-end sprayer or a perforated hose that sprays water in the air.

Summer dormancy means the ability of turfgrass to survive without water for a period of sixty (60) consecutive days during the months of May through September in Bexar and the adjacent counties. Turfgrass with summer dormancy capabilities approved for use are set forth in the approved plant list. The approved plant list, as may be amended from time to time, shall be available from SAWS and located at www-.saws.org/conservation.

Swimming pool means any structure, basin, chamber, or tank including hot tubs, containing an artificial body of water for swimming, diving, or recreational bathing, and having a depth of two (2) feet or more at any point.

TCEQ means Texas Commission on Environmental Quality.

TDS means total dissolved solids.

Trigger level means the mean sea level of the Edwards Aquifer as indicated by the J-17 index well and/or as defined by the Edwards Aquifer Authority.

Turfgrass or *turf* means perennial ground cover plants and grasses that are adapted to regular mowing and foot traffic through management.

Vacuum system means a system, often consisting of a pump, chamber, and tubes, that is used to create a vacuum for any of a variety of purposes, including but not limited to medical, dental and industrial applications.

Vanishing edge pools means a water-feature detail in which water flows over the edge of at least one of the pool walls and is collected in a catch basin. Also known as negative edge pools.

Vegetable garden means any non-commercial vegetable garden planted primarily for household use; "non-commercial" includes incidental direct selling of produce from such a vegetable garden to the public.

Vehicle wash facility means a permanently-located business that washes vehicles with water or water-based product, including but not limited to self-service car washes, full-service car washes, roll-over/in-bay style car washes, and fleet maintenance wash facilities.

Vehicle wash fundraiser means any special-purpose vehicle wash event for which a fee is charged or donation accepted.

Violation means any violation of the drought management, water conservation and reuse rules in this article IV.

Waste means water used without obtaining maximum beneficial use thereof. "Waste" shall also include, but not be limited to, causing, suffering, or permitting a flow of water used for landscape watering to run into any river, creek or other natural water course or drain, superficial or underground channel, bayou, or unto any sanitary or storm sewer, any street, road or highway or other impervious surface, or upon the lands of another person or upon public lands. "Waste" shall also include, but not be limited to, any discharge of water used for commercial, industrial, municipal or domestic purposes to any storm, sanitary sewer, or septic system without the user first having obtained maximum beneficial use thereof. "Waste" shall also include, but not be limited to, failure to repair any controllable leak on property located within the San Antonio city limits or a water or waste water customer of SAWS located in the City of San Antonio ETJ.

Water means and includes, but not be limited to, potable water supplied by a water purveyor, potable water withdrawn from any groundwater well, surface water from any river, creek, natural watercourse, pond, lake or reservoir, and recycled water supplied by a water purveyor.

Water conservation plan means a written document that must include proof of irrigation efficiency of sixty (60) percent or greater and demonstrate specific measures to be taken to reduce consumption to meet the reduction goal established for each stage as described in division 4. A plan includes plant material, precipitation rates and irrigation schedules with run times. SAWS Conservation department may, on a case by case basis, waive the requirements for irrigation efficiency and/or submission of a water conservation plan.

Water feature means an artificially created body of water for aesthetic use including but not limited to fountains, waterfalls, ponds, lagoons, rivers, streams, and brooks as further defined herein.

Water flow restrictor means an orifice or other device through which water passes at a restricted rate.

Water holding capacity means the amount of moisture in the soil that can occur without becoming saturated.

Water utility use means water used for withdrawal, treatment, remediation, transmission and distribution by the water utility.

Waterfall means an artificially created steep descent of water from a height, cascade.

Watering day means a day designated for landscape watering limited to the standard 24-hour period of 12:00 a.m. to midnight. Thus, if it is Stage I and Wednesday is a designated watering day, the period of time referenced is Wednesday morning between 12:01 a.m. to 10:00 a.m., and Wednesday evening between 9:00 p.m. and midnight.

Wildlife habitat water feature means an established aquatic wildlife habitat that has actively sustained a variety of wildlife in a

deliberative, inclusive ecosystem including plant material in and around the water, and fish in the water.

Xeriscape means a landscape consisting of a maximum of fifty (50) percent turfgrass, with the remaining percentage of landscape incorporating low water use plants and/or pervious hardscape. The approved plant list, as may be amended from time to time, shall be available from SAWS Conservation department and located at www.saws.org/conservation.

Zonal irrigation system means an irrigation system which segregates by station areas of shrubs, ground cover, bedding plants, and turf to accommodate a diversity of watering requirements.

(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Sec. 34-272. Activities to be regulated on and after effective dates.

The following activities shall be regulated in the manner set out herein on and after the respective dates indicated in the sections and subsections. A person affected by such regulations may request a variance in the manner set out in section 34-276. A violation of this section and subsections shall be subject to the enforcement provisions set out in section 34-277. It shall be and is hereby declared unlawful for any person to violate, refuse or fail to implement the requirements of this division.

(1) *Prescribed hours for watering.* Watering with an irrigation system or hose-end sprinkler is allowed between the hours of 12:01 a.m. and 10:00 a.m. and 9:00 p.m. and midnight when article IV, division 4 is not in effect.

(2) *Power washers.*

a. Effective January 1, 2006, a person who uses a power washer in any commercial manner or for compensation shall register with the president/CEO or their designee of the San Antonio Water System, and obtain a certificate for such use.

b. Exempted from this requirement are persons who use power washers for personal use at their own home and homebuilders who are performing a one-time clean up at a newly constructed house.

c. Holders of NPDES/TPDES permits are deemed certified.

Comment. This comment does not have force of law, but is offered for clarification only. The intent of this registration protocol is to complement and make effective mandates necessary to critical period conservation rules found elsewhere in this Code. The conservation rules in question are intended to prevent water waste under certain circumstances when critical periods are observed. Examples of persons subject to year-round registration are those hired, employed or contracted to clean sidewalks, parking lots, commercial/public buildings and other impervious areas associated with commercial or domestic properties; professional painters; businesses using their own in-house power washers such as chain stores, grocery stores, and any other entity, public or private.

(3) *Vehicle wash fundraisers.* Effective March 1, 2005, any vehicle wash fundraiser shall be conducted at a vehicle wash facility using such facility's equipment.

(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Sec. 34-273. Activities to be regulated on and after January 1, 2006.

Except as provided by a specific and alternative application date, particularly systems analysis, the following activities shall be regulated in the manner set out herein on and after January 1, 2006. A person affected by such regulations may request a variance in the manner set out in section 34-277. A violation of this section and subsections shall be subject to the enforcement provisions set out in section 34-278.

It shall be and is hereby declared unlawful for any person to violate, refuse or fail to implement the requirements of this division.

(1) *Minimum irrigation area and flow direction.* Newly installed irrigation systems using pop-up spray or rotor technology shall not be used in landscaped areas which have both:

a. Dimensions less than five (5) feet in length and/or width; and

b. Impervious pedestrian or vehicular traffic surfaces along two (2) or more perimeters.

(2) *Pop-up sprays.* Where pop-up sprays and rotor heads are allowed in newly installed irrigation systems:

a. They must direct flow away from any adjacent impervious surface;

b. Shall not be placed within four (4) inches from an impervious surface; and

c. Irrigation systems newly installed after January 1, 2010 in residential properties may not cover more than ten thousand (10,000) square feet of landscape with spray and/or rotor irrigation heads.

(3) *Annual irrigation system evaluation for athletic fields, golf courses, large use and large properties.*

a. An annual irrigation system evaluation shall be required for all athletic fields, golf courses, large use and large properties and shall be submitted in writing to the SAWS Conservation Department on or before May 1st of each year. Golf courses, athletic fields, homeowner and property owner associations, and large properties or large use properties regardless of size including residential properties must have a licensed Landscape Irrigator in good standing with TCEQ sign-off on the annual irrigation system evaluation to document that the system does not have ongoing leaks, that any leaks found in the course of the audit have been repaired and that its operation does not result in water waste. Golf courses, other than those utilizing recycled water for irrigation in accordance with an agreement with SAWS, shall comply with residential irrigation requirements on areas other than tee boxes, fairways and greens.

b. Municipal tenants and lessees of golf courses, sports and athletic playing fields, and any other municipally owned properties, shall be responsible for compliance with this section and subsection. SAWS shall look directly to such tenants and lessees for compliance with section 34-273(3)(a) unless the municipality concedes by contractual agreement with the tenant/lessee to assume the tenant/lessee's responsibility for compliance.

(4) *Cooling towers.* Effective January 1, 2006:

a. Cooling towers, not utilizing recycled water, shall operate a minimum of four (4) cycles of concentration.

b. Newly constructed cooling towers shall be operated with conductivity controllers, as well as make-up and blowdown meters.

c. Cooling tower owners of existing cooling towers shall register their cooling tower with the SAWS Conservation department by May 1 2013. New cooling towers shall be registered with the SAWS Conservation Department prior to the start of operation.

(5) *Ice machines.* Newly installed ice machines shall not be single pass water-cooled.

(6) *Commercial dining facilities.* Commercial dining facilities shall:

a. Serve water only upon request.

b. Utilize positive shut-offs for hand-held dish-rinsing wands.

c. Utilize water flow restrictors for all garbage disposals.

(7) *Vehicle wash facilities.*

a. Vehicle wash facilities, commencing operation on or after January 1, 2006, using conveyorized, touchless, and/or rollover in-bay technology shall reuse a minimum of fifty (50) percent of water from previous vehicle rinses in subsequent washes.

b. Vehicle wash facilities, commencing operation on or after January 1, 2006, using reverse osmosis to produce water rinse with a lower mineral content, shall incorporate the unused concentrate in subsequent vehicle washes.

c. Regardless of date of operation commencement, self-service spray wands used shall emit no more than three (3) gallons of water per minute.

d. Vehicle wash facilities shall utilize self-service, rollover in-bay or conveyor washing technology with catchment systems and oil-water separators that are intended to treat wastewater prior to entering the sanitary sewer. Such systems shall be designed and maintained to prevent runoff into streets, storm drains and/or local creeks and tributaries.

(8) *Vacuum systems.* Vacuum systems shall not be water-cooled with single-pass potable water when alternative systems are available.

(9) *Certain plumbing fixtures.* When installing certain plumbing fixtures on or after January 1, 2010; gravity flush toilets, bathroom aerators, showerheads, urinals; in any location, residential, commercial, industrial, or institutional, the fixtures will meet or exceed the following performance standards; and where the Environmental Protection Agency has accepted that specific plumbing fixtures by make and model, meet or exceed the WaterSense standards, such fixtures installed will be from the most current listing available at the time of installation:

a. Gravity flush toilets shall have a maximum average water use of no more than one and twenty-eight hundredths (1.28) gallons per flush.

b. Faucet aerators for bathrooms shall have a maximum water flow of one and one-half (1.5) gallons per minute.

c. Showerheads shall have a maximum water flow of two (2.0) gallons per minute. All associated valves must be appropriate to the flows.

d. Urinals shall have a maximum water use of one-half (0.5) gallons per flush.

(10) *Coin operated washing machines.*

a. All newly installed, leased or released coin/card operated washing machines, including but not limited to those that might be found in laundry-mats, apartment houses, dorms or communal use situations shall be selected from Consortium for Energy Efficiency (CEE) that meet or exceed the most current highest water and energy standards as determined by the CEE.

b. In any case all coin/card operated washing machines must meet or exceed the most current highest water and energy standards as determined by the CEE, by January 1, 2020.

(11) *Hot water lines.* Buildings without dedicated hot-water return lines with runs exceeding twenty (20) feet between the heating element and the end use fixture shall be insulated with R-4 sleeve insulation.

(12) *Pool construction requirements on or after May 1, 2013.*

a. Private residential swimming pools shall not be installed with sand media filters.

b. Pool water features installed with public swimming pools or private residential swimming pools must be designed so that the water feature can be turned off without affecting the filtering capabilities of the pool.

c. Pools with shared water between the pool and a spa shall be designed so that water can be shared without the necessity of an above ground water feature that cannot be turned off. If a water feature between the spa and the pool exists, the default setting will be for it to be turned off.

d. Automatic pool fill features must be designed so that they may be turned off in both public swimming pools and private residential swimming pools.

e. Automatic pool fill features must include an automatic pool shut-off feature.

f. Vanishing or negative edge pools must be designed with catch basins large enough to prevent splashing that leads to increased water use.

g. Backwash systems must be designed so they may be turned off.

h. Pool skimmers should be managed in such a way as to minimize water consumption. The range of allowable water within the skimmer fill range should allow for several inches of evaporative loss prior to filling.

i. All residential swimming pools shall have a hose end timer installed at the nearest hose bib location. In addition, a hose bib back-flow prevention device will be connected to the hose bib fixture nearest to the pool.

j. Pool companies that provide installation and/or maintenance services within the jurisdiction of this code must provide in writing to every customer specific information on maintenance requirements that include an emphasis on preventative measures for keeping pool water quality high and alternatives to draining pools to correct water quality problems unless draining is needed for physical repair.

(13) *Non-potable tank registration.*

a. All non-residential non-potable tank owners shall register tanks if combined storage on a single property is over five thousand (5,000) gallons or there is potable water back-up, with the SAWS Conservation department by May 1, 2013 or prior to the start of operation if installed after May 1, 2013. Tanks that are utilized in industrial processing are exempt from this requirement.

b. All residential non-potable tank owners with potable water back-up, or in excess of one thousand (1,000) gallons in size shall register their tanks with the SAWS Conservation department by May 1, 2013 or prior to the start of operation if installed after May 1, 2013.

(14) *Non-residential water features.* Non-residential water features installed after May 1, 2013 are required to be separately metered or sub-metered.

(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Sec. 34-274. Other activities to be regulated on and after January 1, 2006.

The following activities shall be regulated in the manner set out herein on and after January 1, 2006. A person affected by such regulations may request a variance in the manner set out in section 34-276. A violation of this section and subsections shall be subject to enforcement provisions set out in section 34-277. It shall be and is hereby declared unlawful for any person to violate, refuse or fail to implement the requirements of this division.

(1) *Condensate collection.* Newly constructed commercial buildings installing air conditioning systems on and after Janu-

ary 1, 2006, shall have a single and independent condensate wastewater line to collect condensate wastewater to provide for future utilization as:

a. Process water and cooling tower make-up, and/or

b. Landscape irrigation water.

c. Any other beneficial on-site use.

d. Condensate wastewater shall not be allowed to drain into a storm sewer, roof drain overflow piping system, public way, or impervious surface.

(2) *Rain sensors.* Effective January, 1, 2006, rain sensors shall be installed and maintained in good working order on all irrigation systems equipped with automatic irrigation controllers.

(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14)

Sec. 34-275. Landscaping regulations generally applicable on and after January 1, 2006.

Except as specifically provided with alternative effective dates, persons affected by the regulations set out herein below shall comply on and after January 1, 2006, and may request a variance to such regulations in the manner set out in section 34-276. A violation of this section and subsections shall be subject to the enforcement provisions set out in section 34-277. It shall be and is hereby declared unlawful for any person to violate, refuse or fail to implement the requirements of this division.

(1) *Xeriscape option.* Effective January 1, 2006, homebuilders and/or developers subdividing lots and/or constructing new single family residential homes shall offer a xeriscape option in any series of landscaping options offered to prospective home buyers.

(2) *Model.* Effective January 1, 2006, homebuilders and/or developers who construct model homes for a designated subdivision shall have at least one model home per subdivision landscaped according to a xeriscape design.

(3) *Zonal system.* In-ground irrigation systems installed on and after January 1, 2006, shall be zonal irrigation systems.

(4) *Turfgrass soil support.*

a. Turfgrass installed during or associated with new construction on and after January 1, 2006, shall have a minimum of four (4) inches of soil including a minimum 0.25 inches of Soil Organic Matter (SOM) laid, or equivalent amount blended with the balance of soil, under the turfgrass after sod is installed. A contractors mix, enriched topsoil, or other enriched and finely screened landscaping material should be applied to meet the SOM requirement.

b. Drainage utility projects, water and power utility projects, public property maintenance or repair, and those governmental activities necessary to NPDES/TPDES compliance with federal or state rules and regulations implementing the federal Clean Water Act; or governmental actions to comply with the Americans with Disabilities Act, shall not be deemed new construction for purposes of this subsection.

(5) *Turfgrass dormancy qualities.* Turfgrass installed after January 1, 2007, shall have summer dormancy capabilities. A requirement to irrigate turfgrass that has summer dormancy capabilities is not allowed.

(6) *Irrigation system use, setting and schedule recommendations.* All irrigators installing irrigation systems permitted by the city or on property subject to this article shall provide to the irrigation system owner in writing a recommended seasonal irrigation schedule and instructions on how to use the irrigation system and set the controller. Seasonal schedules provided will be approved by the president/CEO's designee in conservation or their

designee. The schedule will be affixed to the irrigation controller or an adjacent wall.

(7) *Required city irrigation permits.*

a. Where irrigation permits are required by the city, it is the responsibility of the licensed irrigator to ensure permits are secured. Failure to secure and pay for a permit as required for irrigation work is subject to penalties as described in section 34-277 in addition to penalties that may be assessed under the city unified development code.

b. If an irrigation system is found to be installed by an unlicensed individual or company, other than a homeowner working on his or her own residence, an additional violation may be issued under section 34-277 in addition to penalties that may be assessed under the city unified development code.

c. Failure to properly supervise installation of irrigation work by an onsite licensed irrigator or licensed irrigation technician is subject to penalties as described in section 34-277 in addition to penalties that may be assessed under the city unified development code.

(8) *Dedicatory instruments.*

a. A dedicatory instrument may not require the installation of an irrigation system.

b. A dedicatory instrument may not require turfgrass to be planted or irrigated

Legal comment. This comment does not have force of law, but is provided here for informational purposes only. V.T.C.A., Property Code ch. 202, § 202.001 et. seq., entitled "Certain Restrictive Covenants," reflects a growing public interest in water conservation and its relationship to the public health, safety, and welfare.

V.T.C.A., Property Code ch. 202, § 202.007, provides that a property owners association may not include or enforce a provision in a dedicatory instrument that prohibits or restricts a property owner from implementing certain efficient irrigation systems, including underground drip or other drip systems. Any dedicatory instrument provision, attempting to restrict a property owner from installing such efficient systems, is void. Therefore, such restrictions, running counter to certain conservation efforts, cannot be enforced. Texas Real Property Code, § 202.007(b). Added by Acts 2003, 78th Legislature, chapter 1024, § 1, Effective, September 1, 2003.

As used within the Texas Property Code, "dedicatory instrument" means a governing instrument for the establishment, maintenance, and operation of a residential subdivision, planned unit development, condominium, townhouse regime, or any similar planned development. Texas Real Property Code, § 202.007(1).

The Texas Property Code also allows that a property owners' association may restrict the type of turf used by a property owner in the planting of new turf (in the future) in order to encourage or require water conserving turf.

According to the Texas Property Code, property owners' associations may regulate, by dedicatory instrument or other legal means, installation of efficient irrigation systems, including establishing visibility limitations for aesthetic purposes.

SAWS endorses and advocates the use of dedicatory instruments and other legal obligations among private parties which understandings may support and promote a culture of water conservation.

(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Sec. 34-276. Variances.

The authority to grant a variance and an appeal from such variance to the provisions of this division, is hereby delegated to the San Antonio Water System in the manner described herein. A determination by the San Antonio Water System pursuant to this section shall be deemed final for purposes of appeal. Appeal procedures are detailed below.

(1) *Variance.* A person who is affected by these provisions may seek a variance in the manner set out herein. A person shall request a variance within thirty (30) days of the date a provision becomes apparently applicable to that person's activities and/or properties.

(2) *Time, date, place.* A person seeking a variance under these provisions shall make such request in writing to the conservation department. Such request shall be reviewed by the department. If the application, on its face, warrants a variance, the department may grant the request without hearing.

(3) *Appeal.* In the event the variance is granted, the decision of the department shall be final. Should the variance be denied, however, the requestor shall have ten (10) days from receipt of the denial of the variance to seek an appeal in writing. Within thirty (30) days of the written request for an appeal from the denial of a variance, the President/CEO's designee in Conservation shall hear the appeal. The requestor shall be informed in writing of the time, date and place where such appeal shall be heard. The requestor and/or their authorized representatives may present evidence to the President/CEO's designee in Conservation why such appeal should be granted. The designee shall inform the requestor within thirty (30) days of the date of the hearing of the appeal whether the appeal has been granted or denied. The determination of the director shall be final and shall be in writing.

(4) *Variance qualifications.* Variances to the regulated activities in this division 1 may be issued through the department of conservation's designee provided that the general intent of this division has been met, and compliance with article IV, division 1, is proven to be impracticable to accomplish and to cause unnecessary hardship. The criteria to determine hardship shall include, but not be limited to, a showing of level of capital outlay and technical complexity in relation to conservation benefit to be derived, and time and effort required to accomplish compliance with this division.

(5) *Specific criteria to be used for the granting of variances.* The president/CEO of the San Antonio Water System or their designee shall also develop specific criteria to be used for the granting of variances from the provisions of this division, which are appropriate to the provision for which a variance is being sought. Such criteria shall be applied equally to each request for variance under a particular provision. A requestor shall be furnished with the criteria to be utilized by the department and/or director prior to his/her variance application and/or appeal being heard.

(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Sec. 34-277. Enforcement.

(a) The president/CEO or his designee of the San Antonio Water System is hereby authorized to enforce this article IV in the manner and to the extent allowed by law, including, but not limited to, filing complaints with the city municipal prosecutor's office for such violations, serving notices of violations of this division, filing civil enforcement actions, and enforcing the system's utility service regulations. Such authorization does not diminish the city attorney's authority in regard to enforcement of chapter 34, provisions.

(b) Responsible party. For purposes of this division, the San Antonio Water System water and/or waste water customer, property owner,

occupant, or resident, of the property where a violation is observed shall be the responsible party for a violation of the provisions of this division unless an alternate person is designated by the named meter holder and accepts responsibility and it is documented in writing by both the alternate individual and the meter holder. If there is no meter, the property owner, occupant, or resident, shall be the responsible party.

(c) The president/CEO or his or her designee is authorized and instructed to commence any action, in law or in equity, including the filing of criminal charges, deemed necessary for the purpose of enforcing this division. The San Antonio Water System president/CEO or the designee may seek civil penalties, as may be allowed by statute, and any other legal or equitable relief available under common law, V.T.C.A., Local Government Code ch. 54 as it may be amended to address the subject matter of this division, or any other applicable city, state or federal code or statute.

(d) Criminal. Any person violating any provision of this division 1 of article IV shall be guilty of a Class C misdemeanor and upon citation and conviction, shall be punished by a fine not less than fifty dollars ($50.00) and not more than one hundred dollars ($100.00) for the first offense; a fine not less than two hundred and fifty dollars ($250.00) and not more than five hundred dollars ($500.00) for the second offense; a fine of not less than one thousand dollars ($1,000.00) and not more than two thousand dollars ($2,000.00) for the third and additional offenses. Each violation of a particular section of this division shall constitute a separate offense, and each day an offense continues shall be considered a new violation for purposes of enforcing this division.

(e) Civil. Civil penalties, imposed by courts of competent jurisdiction in civil actions for violations of this division, may also be assessed as may be allowed by applicable state law in any amount to be authorized by the state. Under V.T.C.A., Local Government Code ch. 54, SAWS and the office of the city attorney may presently pursue civil enforcement for injunctive relief and the imposition of one thousand dollars ($1,000.00) per day civil penalties appropriately imposed by the Court. This statutory remedy is in addition to the city's common law right to bring civil actions for injunctive relief to stop harmful acts, independent of authority found in the Texas Local Government Code.

(f) If, for any reason, any section, sentence, clause or part of this division is held legally invalid, such judgment shall not prejudice, affect, impair or invalidate the remaining sections of this division, but shall be confined to the specific section, sentence, clause, or part of this division held legally invalid.
(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Secs. 34-278—34-286. Reserved.

DIVISION 2. ENFORCEMENT

Sec. 34-287. Reserved.

Sec. 34-288. Violations.

It shall be a violation punishable by city municipal fine for any San Antonio Water System water and/or waste water service customer, property owner, occupant, resident, or their designee within the city of San Antonio or its extraterritorial jurisdiction, to intentionally, knowingly, recklessly, or criminally negligently allow or cause water waste, to allow or cause landscape watering outside the prescribed hours for landscape watering, or to allow or cause any violation of any provision of this article.
(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14)

Sec. 34-289. Continued violations.

At locations of repeated or continued violations, the president/CEO of the San Antonio Water System shall have the authority to discontinue the supply of potable water to the registered meter holder. A repeated or continued violation may occur even if a municipal fine was never imposed for a previous violation.
(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Sec. 34-290. Enforcement personnel.

The president/CEO or the designee of the San Antonio Water System is hereby authorized to enforce this article IV in the manner and to the extent allowed by law, including, but not limited to, filing complaints with the city municipal prosecutor's office for such violations, serving notices of violations of this division, filing civil enforcement actions, and enforcing the system's utility service regulations. Such authorization does not diminish the city attorney's authority in regard to enforcement of chapter 34, provisions.
(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Sec. 34-291. Education and enforcement.

As the success of conservation generally, and specifically of this article, depends largely on public cooperation, SAWS policies shall implement customer education programs and shall establish and maintain a water conservation "hot line," so that the public may provide the San Antonio Water System with information relating to violators.
(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14)

Sec. 34-292. Defenses to prosecution.

(a) It shall be a defense to prosecution that landscape watering was performed on any plant or seed planted in or transplanted to an area with a valid new landscape variance from SAWS as described in section 34-332.

(b) It shall be a defense to prosecution that landscape watering was performed by a commercial enterprise in the business of growing or maintaining plants for sale, such as plant nurseries; provided, however, that such landscape watering shall be performed solely for the establishment, growth, and maintenance of such plants and without waste as defined in section 34-271.
(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14)

Sec. 34-293. Responsible party.

For purposes of this article, the San Antonio Water System water and/or waste water customer, property owner, occupant, or resident of the property where a violation is observed shall be the responsible party for a violation of the provisions of this article unless an alternate person is designated by the named meter holder and accepts responsibility and it is documented in writing by both the alternate individual and the meter holder. If there is no meter, the property owner, occupant, or resident shall be the responsible party.
(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14)

Sec. 34-294. Additional enforcement remedies.

The president/CEO or his or her designee is authorized and instructed to commence any action, in law or in equity, including the filing of criminal charges, deemed necessary for the purpose of enforcing this division. The SAWS president/CEO or the designee may seek civil penalties and any other legal or equitable relief available under common law, V.T.C.A., Local Government Code ch. 54 or any other applicable city, state or federal code or statute.
(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14)

Sec. 34-295. Penalties.

(a) *Criminal.* Any person violating any provision of this article IV, divisions 1—4, shall be guilty of misdemeanor and upon citation therefore and conviction thereof, shall be punished by a fine not less than fifty dollars ($50.00) and not more than one hundred dollars ($100.00) for the first offense, a fine not less than two hundred and fifty dollars ($250.00) and not more than five hundred dollars ($500.00) for the second offense, and a fine not less than one thousand dollars ($1,000.00) and not more than two thousand dollars ($2,000.00) for the third or any additional offense. Each violation of a particular section of this article, shall constitute a separate offense, and each day an offense continues shall be considered a new violation for purposes of enforcing this division.

(b) *Civil.* Civil penalties for violations of this division or of the drought management, water conservation and reuse plan, article IV, division 4, may also be assessed as allowed by applicable state law in an amount not to exceed one thousand dollars ($1,000.00) per violation. Each violation

of a particular section of this division or of the drought management, water conservation and reuse plan, article IV, division 4, shall constitute a separate violation, and each day a violation continues shall be considered a new violation for purposes of enforcing this division.
(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Sec. 34-296. Nuisance.

The violation of any part of this division shall be a nuisance which may be abated and enjoined by SAWS. Any person creating a public nuisance shall be subject to the provision of the Code governing such nuisances, including reimbursing SAWS for any costs incurred in removing, abating or remedying said nuisance. The owner of any property where said nuisance has occurred shall be liable to the city, acting through and on behalf of SAWS, for the cost of such abatement and shall pay such cost on demand and the city, acting through and on behalf of SAWS, shall have a right to file a lien on the property to secure payment of the cost of such abatement.
(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14)

Sec. 34-297. Access to premises.

SAWS and all persons or agents employed thereby, or acting behalf of, shall have free access of the right-of-way to the premises, including, to any neighborhood or subdivision wherein SAWS provides water service to perform maintenance, make repairs, and conduct inspections, including inspections to determine whether provisions of the water conservation and reuse article IV have been, and are being, complied with in all respects. Any person or entity refusing permission or barring or obstructing access will be in violation of this division and may be subject to consequences in this division.
(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Sec. 34-298. Access to information.

Any water purveyor operating within the corporate limit of the city shall provide enforcement personnel of SAWS, upon request, with the identity, mailing address and telephone number of any person in whose name a water meter is registered or customer account is maintained.
(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14)

Sec. 34-299. Severability.

If, for any reason, any section, sentence, clause or part of this division is held legally invalid, such judgment shall not prejudice, affect, impair or invalidate the remaining sections of this division, but shall be confined to the specific section, sentence, clause, or part of this division held legally invalid.
(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14)

Sec. 34-300. This article to prevail if conflict.

In the event any section of this article conflicts in effect or application with any other section of the Code or ordinance, the section(s) of this article shall prevail.
(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14)

DIVISION 3. RESERVED

Secs. 34-301—34-315. Reserved.

DIVISION 4. DROUGHT MANAGEMENT STAGES

Sec. 34-316. Adoption of a drought management plan, water use reduction measures, and aquifer stage conditions applicable within the corporate limits of the city and its extraterritorial jurisdiction.

The drought management plan, including the water use reduction measures and associated implementation conditions set out therein, is hereby adopted and applicable throughout the corporate limits of the city regardless of water source and its extraterritorial jurisdiction where the San Antonio Water System may provide water and waste water service.
(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14)

Sec. 34-317. Reserved.

Sec. 34-318. Bases of water use reduction measures and aquifer stage conditions.

The water use reduction measures shall be based on the aquifer stage conditions or other condition considerations specified in section 34-319. The aquifer stage conditions shall be based on the Edwards Aquifer water levels in well AY-68-37-203 in the city (also known as "Dodd Field Test Well" or "J-17") or on aquifer water quality or other aquifer, seasonal or weather conditions not based on water levels in J-17.
(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Sec. 34-319. Implementation and termination of water use reduction measures and stages, generally.

(a) *Implementation of water use reduction measures.* When the aquifer falls to six hundred sixty-five (665) feet above msl, city and SAWS staff shall begin preparations for public awareness, education and enforcement of the respective stage provisions.

(1) *Stage 1.* Stage I water use reduction measures shall be declared to be in effect when the aquifer level at J-17 drops to six hundred sixty (660) feet msl based on a ten-day rolling average calculated and determined by the Edwards Aquifer Authority.

(2) *Stage II implementation.* Stage II water use reduction measures shall be declared to be in effect when the aquifer level in the index well J-17 falls to six hundred fifty (650) feet above msl based on a ten-day rolling average calculated and determined by the Edwards Aquifer Authority.

(3) *Stage III implementation.* Stage III water use reduction measures shall be implemented when well J-17 falls to six hundred forty (640) feet above msl. Based on a ten-day rolling average calculated and determined by the Edwards Aquifer Authority.

(4) *Stage IV implementation.* Once Stage III is declared, and due consideration of all of the conditions described below in subsection (b), the city manager, or designee, in consultation with SAWS president/CEO or designee, may declare or delay Stage IV. Specific water use reduction measures are set out in section 34-332 and shall cover the categories of regulated uses, applicable stages and corresponding required water use reduction measures. Stage IV water use reduction measures may be implemented when well J-17 falls to six hundred thirty (630) feet above msl. Based on a ten-day rolling average calculated and determined by the Edwards Aquifer Authority. Alternatively, Stage IV may be implemented before or after the J-17 levels described above based on the following conditions set forth in subsection (b).

(b) *Conditions for the implementation of water use reduction measures.* One or more of the following conditions may trigger the implementation of water use reduction measures by the city manager or designee, in consultation with SAWS president/CEO or designee:

(1) The review of conditions to determine whether SAWS is able to comply with the applicable regulations governing water supply withdrawals based upon consideration of water supplies, pumping trends, seasonal adjustments and current and forecast precipitation.

(2) Consideration of water resource water quality or other seasonal or weather conditions not based on water levels in J-17, or other conditions as determined by the city.

(3) Whenever Edwards aquifer quality measures thirty (30) percent TDS above historical average and above the

maximum TDS value for any public supply water well warrant additional measures to protect the aquifer.

(4) City council may determine that other aquifer, water resource, seasonal, or weather conditions not based on water levels in J-17 warrant additional restrictions. The city council may declare the city impose additional restrictions for all water uses including a prohibition of sprinkler irrigation.

(c) *Termination of mandatory water use reduction measures.*

(1) *Stage I termination.* When the aquifer level at J-17 rises to six hundred sixty (660) feet msl SAWS shall monitor the consistency and conditions of Edwards aquifer levels for the next fifteen (15) days to determine if termination of water use reductions measures is warranted, unless conditions significantly change to warrant an earlier or later review for stage termination or extension. After this monitoring period, the city manager, or designee, in consultation with SAWS president/CEO, or designee, may declare the measures terminated.

(2) *Stage II termination.* When the aquifer level at J-17 rises to six hundred fifty (650) feet msl SAWS shall monitor the consistency and conditions of Edwards aquifer levels for the next fifteen (15) days to determine if termination of water use reductions measures is warranted, unless conditions significantly change to warrant an earlier or later review for stage termination or extension. After this monitoring period, the city manager, or designee, in consultation with SAWS president/CEO, or designee, may declare the measures terminated.

(3) *Stage III termination.* When the Edwards aquifer levels remain above six hundred forty (640) msl for fifteen (15) consecutive days conditions will determine if all restrictions are terminated or extended or if a previous less restrictive stage will apply.

(4) *Stage IV termination.* When Stage III is terminated then termination of Stage IV will occur at the end of the current billing cycle in which the termination takes place.

(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Sec. 34-320. Declaration and termination of water use reduction measures; notice by publication required.

(a) The city manager, in consultation with SAWS, is hereby authorized to declare that each "trigger level" or other condition has been reached as described in section 34-319 and that the water use reduction measures and each respective stage are in effect.

(b) Notices of the implementation and termination of the water use reduction measures and each of the various stages, as appropriate, shall be publicly announced and published in a daily newspaper and websites for the City of San Antonio and SAWS for a minimum of one day. The implementation or termination of the measures and each of the stages shall become effective immediately upon publication of the respective notice.

(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Secs. 34-321, 34-322. Reserved.

Sec. 34-323. Designated landscape irrigation times and days.

During any period when stage restrictions have been declared to be in effect, irrigation with a sprinkler or irrigation system of existing landscape on any property (other than golf courses and athletic fields, the restrictions for which are set out in section 34-332) may occur only on certain designated days and at certain times, as follows:

(1) *Stages I, II, III, IV landscape irrigation days.* For Stages I, II, III, and IV the landscape irrigation days for residential and commercial properties will be accord-

ing to the street address and according to the following schedule. If the last digit of the street address ends in:

0 or 1 the irrigation day is Monday,

2 or 3 the irrigation day is Tuesday,

4 or 5 the irrigation day is Wednesday,

6 or 7 the irrigation day is Thursday,

8 or 9 the irrigation day is Friday.

If there is no street address associated with the property such as a parkway or if there is more than one street address associated with a single contiguous property, the irrigation day is Wednesday.

(2) *Stage I landscape irrigation times and methods.* For Stage I the following times and associated irrigation methods apply: Irrigation with a soaker hose, hose-end sprinkler or in-ground irrigation system is allowed on the day specified in subsection (1) between the hours of 12:00 a.m. to 10:00 a.m. and 9:00 p.m. to midnight. Drip irrigation systems may run up to three days a week on Monday, Wednesday, and Friday. Landscape irrigation with a handheld hose is allowed at any time on any day.

(3) *Stage II landscape irrigation times and methods.* For Stage II the following times and associated irrigation methods apply: Irrigation with a soaker hose, hose-end sprinkler or in-ground irrigation system is allowed on the day specified in subsection (1) between the hours of 5:00 a.m. to 10:00 a.m. and 9:00 p.m. to midnight. Drip irrigation systems may run up to two days a week on Monday and Friday between the hours of 5:00 a.m. to 10:00 a.m. and 9:00 p.m. to midnight. Landscape irrigation with a handheld hose is allowed at any time on any day.

(4) *Stage III landscape irrigation times and methods.* Stage II landscape irrigation restrictions remain in effect. In addition, a drought surcharge is assessed on all water accounts of SAWS meeting the thresholds in the drought surcharge schedule, in accordance with section 34-128.

(5) *Stage IV landscape irrigation and methods.* For Stage IV, the following times and associated irrigation methods apply: Irrigation with a soaker hose, hose-end sprinkler or in-ground irrigation system is allowed on the day specified in subsection (1) every other week beginning on the second Monday after Stage IV has been declared, between the hours of 5:00 a.m. to 10:00 a.m. and 9:00 p.m. to midnight. Drip irrigation systems may run once per week on Friday between the hours of 5:00 a.m. to 10:00 a.m. and 9:00 p.m. to midnight. Landscape irrigation with a handheld hose is allowed at any time on any day. In addition, a drought surcharge is assessed on all water accounts of SAWS meeting the thresholds in the drought surcharge schedule, in accordance with section 34-128. Additional restrictions on water use may be established by the president/CEO in consultation with the city manager.

(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Secs. 34-324—34-331. Reserved.

Sec. 34-332. Specific water use reduction measures.

Specific water use reduction measures, their corresponding stages and scope are set out in Table A Stage I, Table B Stage II, Table C Stage III [and] Stage IV, below.

Table A—Stage I Restrictions

Stage	*Measures For*	*Scope of Restrictions*
I	Essential Services	Fire-fighting and medical uses-no restrictions. Reductions in fire hydrant and sewer line flushing encouraged.

Stage	*Measures For*	*Scope of Restrictions*
I	Water Utility Use	Water utilities are encouraged to implement voluntary measures, such as improving leak detection surveys and repair programs and stabilizing and equalizing system pressure.
I	Power Production	Water used for power production shall be voluntarily reduced.
I	Military	Compliance with mandatory reduction measures for those uses in the outdoor, essential and utility categories.
I	Agriculture	The escape of irrigation tailwater, as that term is commonly used in the agricultural community, is prohibited. Water loss through percolation in transmission canals is prohibited.
I	Livestock Use	Reduction of water use by any means available is encouraged.
I	Industrial, Commercial, and Other	A. Reduction of water use by any means available is encouraged. Compliance with the mandatory demand reduction measures is required for those uses in the outdoor category, including landscape watering, swimming pools, hot tubs and similar facilities, golf courses, aesthetic uses such as water features; such restrictions specifically include industrial users, as well as all others. B. Use of gray water, treated wastewater or reuse water, cooling tower blow down, condensate water is a defense to prosecution. Alternate on-site reclaimed sources may be approved through variance on a case by case basis. C. If one hundred (100) percent use of treated wastewater (recycled water), reuse water, reclaimed water, gray water, condensate, or cooling tower blow down will be used, signs identifying this property as using recycled or reclaimed water source must be posted on site at a location where the general public can view it.
I	Hotels, Motels, Bed and Breakfasts	Hotels, motels, and B&B's encouraged to voluntarily offer the option of a "no linen/towel change" program.
I	Households	Reduction of water use by any means available is encouraged. Compliance with the mandatory demand reduction measures shall be achieved for those uses in the outdoor category, such as landscape watering, swimming pools, hot tubs, pressure washing and similar facilities.
I	Water Features	A. *Residential:* All residential water features are allowed without prohibition. B. *Non-Residential:* SAWS Conservation department may verify the condition of a water feature to determine if it is in good working order. 1) All indoor water features in good working order allowed without prohibition. 2) All water features that meet the definition of wildlife habitat water features section 34-271 in good working order allowed without prohibition with basic variance approved by SAWS Conservation. 3) All outdoor water features that have a water surface area of less than one thousand (1,000) square feet prior to Stage I declarations and in good working order with an approved basic variance from SAWS Conservation are allowed without prohibition. 4) All water features confirmed by SAWS to be using one hundred (100) percent treated wastewater (recycled water), reuse water, reclaimed water, gray water, condensate, or cooling tower blow down or other on-site reclaim water and in good working order with a basic variance approved by SAWS Conservation are allowed without prohibition. Signs identifying this property as using recycled or reclaimed water source must be posted on site at a location where the general public can view it. 5) All outdoor water features that do not meet the conditions described in B.1)—4) above must have a Basic variance and outdoor water feature conservation plan approved by SAWS Conservation that includes limiting hours of operation to a maximum of eight (8) hours of 24-hour period before they are allowed to operate in Stage I or Stage II. 6) Outdoor water features that do not meet the conditions described in B.1)—4) and would like to be considered for expanded operated hours from eight (8) hours in a 24-hour period to twelve (12) hours of operation in a 24-hour period during Stages I and II may apply for an advanced variance to the SAWS Conservation department prior to implementation of the extended hours.
I	Pressure or Power Washing	*Residential:* Residential property owners may personally pressure wash their property without a variance for health and safety or in preparation of maintenance such as for house painting if they perform the work themselves. Water is never allowed to run into the street or otherwise off the property. *Non-Residential:* Pressure washing of non-residential property allowed for health and safety by a properly registered employee or a pressure washing company (section 34-272). A variance from the SAWS Conservation department is required prior to work and all conditions of the variance must be followed.

Stage	*Measures For*	*Scope of Restrictions*
I	Vehicle and Equipment Washing	A. Citizens are encouraged to wash their vehicles no more than twice a month. B. Residential: washing of vehicles and mobile equipment (e.g., washing vehicle at a residence) is permitted only on Saturday or Sunday with a pressure washer, hand-held hose equipped with an automatic shut-off nozzle, or bucket of five (5) gallons or less, without waste. C. Fleet managers are encouraged to only wash those vehicles as is necessary for health and safety. D. Use of treated wastewater (recycled water), reuse water, reclaimed water, gray water, condensate, or cooling tower blow down is a defense to prosecution and may be use for vehicle washing any day. Alternate on-site reclaimed sources may be approved through variance for the SAWS Conservation department on a case by case basis.
I	Landscape Irrigation for Existing Plants	A. Landscape watering using sprinkler or irrigation systems is permitted only on designated landscape watering days (subsection 34-323(1)). For Stage I the following times and associated irrigation methods apply: Irrigation with a soaker hose, hose-end sprinkler or in-ground irrigation system is allowed on the day specified in subsection (1) between the hours of 12:00 a.m. to 10:00 a.m. and 9:00 p.m. to midnight. Drip irrigation systems may run up to three days a week on Monday, Wednesday, and Friday. Landscape irrigation with a handheld hose is allowed at any time on any day. B. A user may file with SAWS a request for a variance to the designated days and times. The request must include: (1) a statement indicating compelling reasons why the user is unable to meet the specific designated watering times and days; (2) a water conservation plan demonstrating a significant overall reduction of water use, and (3) evidence of having filed with SAWS the annual irrigation system evaluation required for properties that are five (5) acres or more and have in-ground irrigation (section 34-273.2). The water conservation plan must also include proof of irrigation efficiency of sixty (60) percent or greater and demonstrate specific measures to be taken to reduce consumption to meet the reduction goal established for Stages I, II, III, and IV. SAWS may, on a case by case basis, waive the requirements for irrigation efficiency and/or submission of a water conservation plan. Upon the approval of the water conservation plan as set forth herein, the user may be granted a variance. C. The one hundred (100) percent use of treated wastewater (recycled water), reuse water, reclaimed water, gray water, condensate, or cooling tower blow down is a defense to prosecution and may be used to irrigate any day without waste, that include allowing water to run down the street, parking lot, or adjacent property. Alternate on-site reclaimed sources may be approved through variance from the SAWS Conservation department on a case by case basis. D. If one hundred (100) percent use of treated wastewater (recycled water), reuse water, reclaimed water, gray water, condensate, or cooling tower blow down will be used during additional days allowed in subsections 34-323(1)—(7) signs identifying this property as using recycled or reclaimed water source must be posted on site at a location where the general public can view it.

Stage	*Measures For*	*Scope of Restrictions*
I	Landscape Irrigation for New Landscapes	A. Installation of new landscapes is permitted with a variance which shall only be granted if all applicable provisions including sections 34-273, 34-274.2 and section 34-275 are verified by SAWS, including zonal irrigation systems if a permanent irrigation system is installed, a minimum of four (4) inches of soil under turf, model home with xeriscape and xeriscape option offered by builder on file with SAWS Conservation department. B. Landscape watering permitted to maintain adequate growth until established on newly installed landscapes, generally five (5) weeks. Property owners should submit electronically on-line at www.saws.org to the SAWS Conservation department their name, address where the new landscape is to be installed and the date of installation in order to receive a confirmation electronic email from SAWS. A copy of the confirmation must be posted at a place visible from the street at the property the variance was received at. Thereafter, landscape watering using sprinkler or irrigation systems for landscaping plants is permitted only on the day and times associated with the current stage in effect at the termination of the variance. C. The one hundred (100) percent use of gray water, treated wastewater or reuse water, condensate water, cooling tower blow down may be used to irrigate any day between the hours of 7:00 p.m. and 11:00 a.m. without waste, that include allowing water to run down the street, parking lot, or adjacent property. Alternate on-site reclaimed sources may be approved through variance from the SAWS Conservation department on a case by case basis. D. If one hundred (100) percent use of treated wastewater (recycled water), reuse water, reclaimed water, gray water, condensate, or cooling tower blow down will be used during additional days allowed in subsections 34-323(1)—(7) signs identifying this property as using recycled or reclaimed water source must be posted on site at a location where the general public can view it.
I	Golf Courses	Golf courses shall be required to submit a water conservation plan and shall have on file with SAWS the annual irrigation system evaluation as described in section 34-273.2 and shall be defined as "conforming" or "non-conforming" and shall reduce water usage under the following terms: A. All landscape out-of-play areas such as may be found around a club house or entryway shall follow general landscape irrigation restrictions (subsections 34-323(1)—(3)). B. All in-play areas may be irrigated with a sprinkler or irrigation system between the hours of 12:00 a.m. to 10:00 a.m. and 9:00 p.m. to midnight. C. Conforming golf courses shall implement a ten (10) percent reduction in the replacement of daily evapotranspiration rate ("ET rate") or soils daily water holding capacity, achieved by use of an existing and properly operating CCIS (as defined) capable of achieving such water conservation goals. D. A non-conforming golf course shall not use more than 1.8 times the base usage. If not separately metered an irrigation audit showing precipitation rates and run times along with a conservation plan shall be submitted and approved by SAWS for the purpose of establishing acceptable irrigation run times and days as approved by SAWS. E. The one hundred (100) percent use of treated wastewater (recycled water), reuse water, reclaimed water, gray water, condensate, or cooling tower blow down, gray water, treated wastewater or reuse water, condensate water, cooling tower blow down is a defense to prosecution and may be used to irrigate any day without waste. Alternate on-site reclaimed sources may be approved through variance from the SAWS Conservation department on a case by case basis. F. If one hundred (100) percent use of treated wastewater (recycled water), reuse water, reclaimed water, gray water, condensate, or cooling tower blow down, gray water, treated wastewater or reuse water, condensate water, cooling tower blow will be used during additional days or hours allowed in subsections 34-323(1)—(5) signs identifying this property as using recycled or reclaimed water source must be posted on site at a location where the general public can view it.

Stage	*Measures For*	*Scope of Restrictions*
I	Public Parks	A. Public park owner/operators shall be required to submit a water conservation plan and have on file with the SAWS Conservation department an irrigation checkup as required by subsection 34-273(2). B. Public parks shall limit irrigation with an irrigation system to those days and times required by subsections 34-323(1)—(3). C. The one hundred (100) percent use of treated wastewater (recycled water), reuse water, reclaimed water, gray water, condensate, or cooling tower blow down is a defense to prosecution and may be used to irrigate any day between the house of 7:00 p.m. and 11:00 a.m. without waste, that include allowing water to run down the street, parking lot, or adjacent property. Alternate on-site reclaimed sources may be approved through variance from the SAWS Conservation department on a case by case basis. D. If one hundred (100) percent use of treated wastewater (recycled water), reuse water, reclaimed water, gray water, condensate, or cooling tower blow down will be used during additional days allowed in subsections 34-323(1)—(3) signs identifying this property as using recycled or reclaimed water source must be posted on site at a location where the general public can view it.
I	Athletic Fields	A. An athletic field shall either irrigate according to a basic plan or an advanced plan. Plans shall be on file and approved by SAWS in advance of use. The advanced plan showing precipitation rates and run times along with a conservation plan shall be submitted and approved by SAWS for the purpose of establishing acceptable irrigation run times and days as approved by SAWS. A basic plan outlines which day of the week (Monday—Friday) which athletic field would be irrigated. B. All landscape out-of-play areas such as may be found around a club house or entryway shall follow general landscape irrigation restrictions (subsections 34-323(1)—(5)).

Table B—Stage II Restrictions

Stage	*Measures For*	*Scope of Restrictions*
II	In General	For Stage II, Stage I restrictions remain the same except as added to or replaced below.
II	Hotels, Motels, Bed and Breakfasts	Hotels, motels and B&B's must offer and clearly notify guests of a "no linen/towel change" program.
II	Swimming Pools, Hot Tubs	A. Draining permitted only onto pervious surface, or onto pool deck where the water is transmitted directly to a previous surface, only if: 1. Draining excess water from pool due to rain in order to lower water to maintenance level; 2. Repairing, maintaining or replacing pool component that has become hazardous; or 3. Repairing pool leak Refilling of public swimming pool permitted only if pool has been drained for the repairs, maintenance or replacement set out in items 2 or 3 above.
II	Landscape Irrigation for Existing Landscapes	Landscape watering using sprinkler or irrigation systems is permitted only on designated landscape watering days (subsection 34-323(1)). For Stage II the following times and associated irrigation methods apply: Irrigation with a soaker hose, hose-end sprinkler or in-ground irrigation system is allowed on the day specified in subsection (1) between the hours of 5:00 a.m. to 10:00 a.m. and 9:00 p.m. to midnight. Drip irrigation systems may run up to two days a week on Monday and Friday between the hours of 5:00 a.m. to 10:00 a.m. and 9:00 p.m. to midnight. Landscape irrigation with a handheld hose is allowed at any time on any day.
II	Landscape Irrigation for New Landscapes	A. Installation of new landscapes is permitted with a variance which shall only be granted if all applicable provisions including sections 34-273, 34-274.2 and section 34-275 are verified by SAWS, including zonal irrigation systems if a permanent irrigation system is installed, a minimum of four (4) inches of soil under turf, model home with xeriscape and xeriscape option offered by builder on file with SAWS Conservation department. B. Landscape watering may be permitted by variance to maintain adequate growth until established on newly installed landscapes for a period of time to be determined in keeping with seasonal and varying weather conditions. Property owners should submit electronically on-line at www.saws.org to the SAWS Conservation department their name, address where the new landscape is to be installed and the date of installation in order to receive a confirmation electronic email from SAWS. A copy of the confirmation must be posted at a place visible from the street at the property the variance was received at. Thereafter, landscape watering using sprinkler or irrigation systems for landscaping plants is permitted only on the day and times associated with the current stage in effect at the termination of the variance. C. The one hundred (100) percent use of gray water, treated wastewater or reuse water, condensate water, cooling tower blow down is a defense to prosecution and may be used to irrigate any day without waste. Alternate on-site reclaimed sources may be approved through variance from the SAWS Conservation department on a case by case basis. D. If one hundred (100) percent use of treated wastewater (recycled water), reuse water, reclaimed water, gray water, condensate, or cooling tower blow down will be used during additional days or hours allowed in subsections 34-323(1)—(7) signs identifying this property as using recycled or reclaimed water source must be posted on site at a location where the general public can view it.

Stage	*Measures For*	*Scope of Restrictions*
II	Golf Courses	Golf courses shall be required to submit a water conservation plan and shall have on file with SAWS the annual irrigation evaluation as described in section 34-273.3 and shall be defined as "conforming" or "non-conforming" and shall reduce water usage under the following terms: A. All landscape out-of-play areas such as may be found around a club house or entryway shall follow general landscape irrigation restrictions (subsections 34-323(1)—(3)). B. All in-play areas may be irrigated with a sprinkler or irrigation system between the hours of 5:00 a.m. to 10:00 a.m. and 9:00 p.m. to midnight. C. Conforming golf courses shall implement a twenty (20) percent reduction in the replacement of daily evapotranspiration rate ("ET rate") or daily soil-holding capacity, achieved by use of an existing and properly operating CCIS (as defined) capable of achieving such water conservation goals. D. A non-conforming golf course shall not use more than one and six-tenths (1.6) times the base usage. If not separately metered an irrigation audit showing precipitation rates and run times along with a conservation plan shall be submitted and approved by SAWS for the purpose of establishing acceptable irrigation run times and days as approved by SAWS. E. The one hundred (100) percent use of treated wastewater (recycled water), reuse water, reclaimed water, gray water, condensate, or cooling tower blow down is a defense to prosecution and may be used to irrigate any day between the hours of 7:00 p.m. and 11:00 a.m. and without waste. Alternate on-site reclaimed sources may be approved through variance from the SAWS Conservation department on a case by case basis. F. If one hundred (100) percent use of treated wastewater (recycled water), reuse water, reclaimed water, gray water, condensate, or cooling tower blow down will be used during additional days allowed in subsections 34-323(1)—(4) signs identifying this property as using recycled or reclaimed water source must be posted on site at a location where the general public can view it.

Table C—Stage III Restrictions

Stage	*Measures For*	*Scope of Restrictions*
III	In General	For Stage III, Stages I, II restrictions remain the same except as added to or replaced below.
III	Hotels, Motels, Bed and Breakfasts	Hotels, motels, B&B's must limit linen/towel changes to once every three (3) nights or for the entire stay, whichever is shorter, except for health and safety.
III	Vehicle and Equipment Washing	During Stage III any vehicle wash facility that is not certified as a SAWS certified vehicle wash facility will not be able to operate. Upon receiving certification vehicle wash facilities may resume operating hours.
III	Landscape Irrigation for Existing Landscapes	Landscape watering using sprinkler or irrigation systems is permitted only on designated landscape watering days (subsection 34-323(1)). For Stage III, the same rules as in Stage II apply. Irrigation with a soaker hose, hose-end sprinkler or in-ground irrigation system is allowed on the day specified in subsection (1) between the hours of 5:00 a.m. to 10:00 a.m. and 9:00 p.m. to midnight. Drip irrigation systems may run up to two days a week on Monday and Friday between the hours of 5:00 a.m. to 10:00 a.m. and 9:00 p.m. to midnight. Landscape irrigation with a handheld hose is allowed at any time on any day. In addition, a drought surcharge is assessed on all water accounts of SAWS, in accordance with section 34-128 of the San Antonio City Code. Landscape irrigation with a handheld hose is allowed at any time on any day.
III	Landscape Irrigation for New Landscapes	A. Installation of new landscapes is permitted only if less than fifty (50) percent of the available landscape area is planted with turf, all applicable provisions of sections 34-273, 34-274.2 and section 34-275, including proper horticultural practices such as the use of mulch and zonal irrigation systems if a permanent irrigation system is installed and a minimum of four (4) inches of soil under turf after installation of sod. B. A user may file with SAWS a request to install more than fifty (50) percent turf. The request must include: (1) a statement or plan describing the landscaping plan; and (2) a statement indicating how the landscaping plan will achieve the goals of this chapter. Upon the approval of the alternate landscaping plan as set forth herein, the user may be granted a variance.

Stage	*Measures For*	*Scope of Restrictions*
III	Water Features	1) Water features that are required to have a basic variance and outdoor water feature conservation plan approved by SAWS Conservation must reduce their hours of operation to a maximum of four (4) hours a day in Stage III. 2) Outdoor water features that would like to be considered for expanded operated hours from four (4) hours in a 24-hour period to eight (8) hours of operation in a 24-hour period during Stage III may apply for an advanced variance to the SAWS Conservation department prior to implementation of the extended hours.
III	Golf Courses	A. A conforming golf courses shall implement a thirty (30) percent reduction (or twenty (20) percent reduction, if the conforming golf course is an ISP participant) in replacement of daily ET rate or soils daily water holding capacity, achieved by use of an existing and properly operating CCIS (as defined) capable of achieving such water conservation goals. B. A non-conforming golf course shall not use more than one and one-fourth (1.4) times the base usage. If not separately metered an irrigation audit showing precipitation rates and run times along with a conservation plan shall be submitted and approved by SAWS for the purpose of establishing acceptable irrigation run times and days as approved by SAWS.
III	Commercial Surcharge	A surcharge is assessed on all irrigation accounts and assumed irrigation (section 34-124) of the San Antonio Water System as described in section 34-128. Surcharge is to remain in effect for a minimum of one complete billing month. The surcharge shall remain in effect if Stage IV is still in effect at the beginning of the next billing month.
III	Residential Surcharge	A surcharge is assessed on all water accounts of the San Antonio Water System as described in section 34-128. Surcharge is to remain in effect for a minimum of one complete billing month. The surcharge shall remain in effect if Stage IV is still in effect at the beginning of the next billing month.

Table D—Stage IV Restriction

Stage	*Measures For*	*Scope of Restrictions*
IV	In General	For Stage IV, the most restrictive requirements of either Stage I, II or III restrictions remain the same except as added to or replaced below.
IV	Landscape Irrigation for Existing Landscapes	Landscape watering using sprinkler or irrigation systems is permitted only on designated landscape watering days (subsection 34-323(1)). For Stage IV, the following times and associated irrigation methods apply: Irrigation with a soaker hose, hose-end sprinkler or in-ground irrigation system is allowed on the day specified in subsection (1) every other week beginning on the second Monday after Stage IV has been declared, between the hours of 5:00 a.m. to 10:00 a.m. and 9:00 p.m. to midnight. Drip irrigation systems may run once per week on Friday between the hours of 5:00 a.m. to 10:00 a.m. and 9:00 p.m. to midnight. Landscape irrigation with a handheld hose is allowed at any time on any day. In addition, a drought surcharge is assessed on all water accounts of SAWS, in accordance with section 34-128. Additional restrictions on water use may be established by the President/CEO in consultation with the City Manager.
IV	Commercial Surcharge	A surcharge is assessed on all irrigation accounts and assumed irrigation (section 34-124) of the San Antonio Water System as described in section 34-128. Surcharge is to remain in effect for a minimum of one complete billing month. The surcharge shall remain in effect if Stage IV is still in effect at the beginning of the next billing month.
IV	Residential Surcharge	A surcharge is assessed on all water accounts of the San Antonio Water System as described in section 34-128. Surcharge is to remain in effect for a minimum of one complete billing month. The surcharge shall remain in effect if Stage IV is still in effect at the beginning of the next billing month.
IV	Additional Restrictions	Additional restrictions including but not limited to a ban on lawn watering with irrigation systems or hose end sprinklers may be established at the discretion of the president/CEO in consultation with the city manager.

(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Sec. 34-333. Severability.

If, for any reason, any section, sentence, clause or part of this division is held legally invalid, such judgment shall not prejudice, affect, impair or invalidate the remaining sections of this division, but shall be confined to the specific section, sentence, clause, or part of this division held legally invalid.

(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14)

Sec. 34-334. This division to prevail if conflict.

In the event any section of this division conflicts in effect or application with any other section of a City Code or ordinance, the section(s) of this division shall prevail.
(Ord. No. 2014-05-29-0376, § 3(Exh. B), 5-29-14)

Secs. 34-335—34-350. Reserved.

DIVISION 5. RESERVED

Secs. 34-351—34-425. Reserved.

ARTICLE V. SEWAGE TRANSPORTATION, TREATMENT AND DISPOSAL

DIVISION 1. GENERALLY

Secs. 34-426—34-440. Reserved.

DIVISION 2. TOILETS, SEPTIC TANKS, PRIVIES*

Sec. 34-441. Definitions.

The following definitions shall apply in the interpretation and the enforcement of this division:

Baffle shall mean any wall or separation that prevents the fluid from the influent channel of the septic tank from flowing directly through to the effluent channel. This may be accomplished by use of a wall, a weir or a sanitary tee.

Septic tank system shall mean a system for the treatment of sewage or water-borne wastes from a dwelling or business establishment. The septic tank system shall consist of a watertight drain line from the house to a watertight septic tank, a distribution box and an absorption field consisting of trench, gravel and disposal line.
(Code 1950, § 58-6; Ord. No. 21416, § 1, 6-23-55; Code 1959, § 18-65; Ord. No. 80574, § 11, 8-4-94)

*__Note—__See the editor's note to Art. III, Div. 3 of this chapter.

Sec. 34-442. Enforcement.

It shall be the duty of the director of public health to enforce the provisions of this division, and, in the performance of this duty, he or his duly authorized agent is hereby authorized to enter, at any reasonable hour, any premises as may be necessary in the enforcement of this division.
(Code 1950, 58-1; Code 1959, § 18-66; Ord. No. 80574, § 11, 8-4-94)

Sec. 34-443. Mandatory disposal facilities.

It shall be unlawful to permit, maintain or use any ground, lot, yard, residence, place of business or other place or building within the city where persons reside, congregate or are employed which is not provided with means for the disposal of human excreta, either by a flush toilet connected with a sewerage system approved by the state department of health, a septic tank conforming to the requirements of this division or a privy which meets the requirements of construction and maintenance provided in this division.
(Code 1950, § 58-2; Code 1959, § 18-67; Ord. No. 80574, § 11, 8-4-94)

Sec. 34-444. Connection to sanitary sewer.

Every residence, place of business or other building or place where persons reside, congregate or are employed, which abuts a street in which there is a public sanitary sewer or which is within two hundred (200) feet of a public sanitary sewer, shall be connected to the sewer by the owner or agent of the premises in the most direct manner possible and with a separate connection for each home, building or place. Each connection and each fixture emptying through the connection shall be installed in the manner prescribed by Chapter 24.
(Code 1950, §§ 17-1, 58-3; Code 1959, § 18-68; Ord. No. 80574, § 11, 8-4-94)

Sec. 34-445. Alternate facilities where sewer connection not required.

Every residence, place of business or other building or place where persons reside, congregate or are employed and which does not abut a street in which there is a public sanitary sewer or

which is not within two hundred (200) feet of a public sanitary sewer shall be provided with a private water flush toilet, or a privy, to be built or rebuilt, constructed and maintained in such a manner as to meet the requirements of construction and maintenance set out in this division.
(Code 1950, § 58-4; Code 1959, § 18-69; Ord. No. 80574, § 11, 8-4-94)

Sec. 34-446. Abatement of nonconforming facilities.

Any privy or private sewer existing or being maintained which does not conform to the requirements of this division shall be declared a nuisance, dangerous, and a menace to the public health, and the city shall have the power to abate any such nuisance in accordance with law.
(Code 1950, § 58-5; Code 1959, § 18-70; Ord. No. 80574, § 11, 8-4-94)

Sec. 34-447. Maintenance and repair of sewer laterals—Generally.

(a) The improper maintenance and repair of sewer laterals is found to constitute a public health hazard.

(b) It shall be the responsibility of the owners of real property located within the city limits of San Antonio and within the extraterritorial jurisdiction of San Antonio to own, operate, and maintain that portion of the sewer lateral located on such real property from the structure(s) which such sewer lateral(s) services to the commencement of the public street or public alley right-of-way which is contiguous to the real property.

(c) It shall be the responsibility of the city acting by and through the city water system ("system"), within those portions of the city limits of San Antonio and its extraterritorial jurisdiction receiving retail sewer service from the system, to own, operate, and maintain that portion of a sewer lateral located in a public street or public alley right-of-way.

(1) System maintenance of a sewer lateral located in a public street or public alley right-of-way will constitute a dedication and acceptance of such sewer lateral for ownership by the system.

(2) Diagrams depicting the location of sewer laterals for ownership, maintenance, and operation purposes are set out in exhibit(s) A and B which are attached hereto and incorporated herein (on file in the office of the city clerk).

(3) The standard right-of-way widths for public streets set out in section 34-4113 of this Code, as amended, shall be applicable to this section. Public right-of-ways widths for alleys set out in subsection 35-4122(i) of this Code, as amended, shall be applicable to this section.

(Code 1959, § 18-68.1; Ord. No. 54344, 9-24-81; Ord. No. 80574, § 11, 8-4-94; Ord. No. 89695, § 1, 4-29-99)

Sec. 34-448. Same—Notice to abate; applicability.

(a) This section is applicable when a health hazard is caused by the lack of maintenance and/or repair of that portion of the sewer lateral which is the responsibility of the owner of real property as set out in subsection 34-447(b) above.

(b) Whenever the director of the city metropolitan health district, building inspections director, or a respective authorized agent thereof receives information of the existence of a faulty sewer lateral or sewer pipe located within a structure on said real property a sanitary inspector, sanitarian, or plumbing inspector shall serve the owner or his agent with a written notice to abate the condition causing the health hazard within three (3) days.
(Code 1959, § 18-68.2; Ord. No. 54344, 9-24-81; Ord. No. 80574, § 11, 8-4-94; Ord. No. 89695, § 1, 4-29-99)

Sec. 34-449. Same—Failure of owner to repair; penalty.

(a) It shall be unlawful for the owner of real property located within the corporate limits of the city to knowingly fail (1) to repair or replace a faulty sewer pipe or connection located within a structure on said real property, or (2) to repair or replace that portion of a sewer lateral which is the responsibility of the owner as defined in subsection 34-447(b) herein.

(b) Any person, firm, corporation or agent or employee thereof who violates any of the provisions of this division shall be fined an amount not less than one hundred dollars ($100.00) and not more than one thousand dollars ($1,000.00) provided, however, in the event a defendant has once previously been convicted under this division, the defendant shall be fined an amount no less than two hundred dollars ($200.00) and shall be fined no less than three hundred dollars ($300.00) for a third conviction and for each conviction thereafter. Each day a violation is permitted to exist shall constitute a separate offense.

(c) Nothing in this section shall limit the remedies available to the city in seeking to enforce the provisions of this division nor effect the city's authority to initiate other legal or equitable actions to abate any nuisance as herein defined.
(Code 1959, § 18-68.3; Ord. No. 54344, 9-24-81; Ord. No. 64489, § 6, 2-5-87; Ord. No. 80574, § 11, 8-4-94; Ord. No. 89695, § 1, 4-29-99)

Sec. 34-450. Same—Hearing for termination of water service.

(a) *Applicability.* This section is applicable in those instances when (i) the owner fails to repair sewer pipe located within a structure located on the real property, or (ii) the owner fails to repair that portion of the sewer lateral set out in subsection 34-447(b) for which the owner is responsible, (the premises).

(b) *Requested to obtain order.* Where the danger to public health created by a faulty sewer pipe is deemed significant by a sanitary inspector or sanitarian, that person may request a hearing before the director of the city metropolitan health district for the purpose of obtaining an order to terminate water service to the premises.

(c) *Setting date, time; notice to owner or agent.* Upon receipt of such request, the director of the city metropolitan health district shall immediately set a date and time for a hearing. Notice of the hearing shall be given in writing to the owner and occupant of the affected premises, served either by personal service or by United States certified mail, return receipt requested, at least seven (7) days before the scheduled hearing date. In the case of a business entity, such notice shall be given to the registered agent for service as reflected in the records of the secretary of state.

(d) *Complaint response.* At the hearing provided for in this section, the complaining sanitary inspector or sanitarian shall set forth the danger created to the public health by the faulty sewer pipe. The owner or occupant, if either appears, or his legal representative shall be granted an opportunity to respond and cross-examine the complainant or his witnesses, and to present witnesses. Testimony shall, upon request, be given under oath.

(e) *Determination; issuance of order notice of termination; reinstatement.* Thereafter, the director of the city metropolitan health district shall determine if a clear and present danger to the public health has been shown, and if he so finds, he shall issue an order to the city water system ("system") stating his finding and directing the termination of water service to the offending premises; the general manager of the chief executive officer (CEO) shall, upon receipt of the order, give the occupant of the premises written notice of the intention to terminate water service twenty-four (24) hours prior to the termination thereof. Upon the expiration of the twenty-four-hour notice period the chief executive officer (CEO) of the city water system ("system") shall cause water service to the premises to be terminated. Upon written notice from the director of the city metropolitan health district that the sewer pipe has been repaired, the chief executive officer (CEO) shall reinstate water service to the premises.
(Code 1959, § 18-68.4; Ord. No. 54344, 9-24-81; Ord. No. 80574, § 11, 8-4-94; Ord. No. 89695, § 1, 4-29-99)

Sec. 34-451. Septic tanks—Permit required; percolation tests.

It shall hereafter be unlawful for any person to construct a septic tank system without first obtaining a written permit from the director of public health. Such permit shall be displayed at the site of construction until approval is obtained from the director of public health. Prior to

issuance of such a permit, percolation tests shall be conducted at the site of the proposed installation. These percolation tests shall be conducted by the director of public health or a registered professional engineer and shall serve as a basis for determining the minimum length of disposal line as outlined in section 34-208. All percolation tests shall be conducted in accordance with procedure as outlined by the director of public health. The fee for conducting the percolation tests by the director of public health shall be ten dollars ($10.00), payable in advance. Results of percolation tests must be submitted at the time of application for permit.
(Code 1950, § 58-6; Ord. No. 21416, § 2, 6-23-55; Code 1959, § 18-71; Ord. No. 80574, § 11, 8-4-94)

Sec. 34-452. Same—Permit fee.

The fee for a permit to construct a septic tank system shall be five dollars ($5.00), payable at the time of issuance of such permit.
(Code 1950, § 58-6; Ord. No. 21416, § 3, 6-23-55; Code 1959, § 18-72; Ord. No. 80574, § 11, 8-4-94)

Sec. 34-453. Same—Requirements for systems.

It shall hereafter be unlawful for any person to construct a septic tank system that does not conform to the following minimum requirements:

(1) *Septic tank.*

a. *Location.* The tank shall be located not less than ten (10) feet from any property line, not less than five (5) feet from the foundation of any structure and not less than fifty (50) feet from any water well.

b. *Liquid capacity.* The minimum liquid capacity for single-family dwellings shall be based on the number of bedrooms in the dwelling as follows:

2 bedrooms or less . . . . .500 gallons

3 bedrooms . . . . . .600 gallons

4 bedrooms . . . . . .750 gallons

For capacities other than single-family residences, the director of public health will determine the minimum capacity of the septic tank. The liquid depth of any tank or compartment thereof shall not be less than two and one-half (2½) feet nor more than six and one-half (6½) feet. When multicompartment tanks are used the inlet compartment shall have a liquid capacity of not less than two hundred and fifty (250) gallons. The liquid capacity shall be in-

[This page intentionally left blank.]

creased by fifty (50) percent when household garbage grinders discharge into the system.

c. *Scum storage.* Scum storage volume (space between the liquid surface and the top of the tank) shall be not less than twelve (12) inches.

d. *Inlet baffle.* The inlet baffle shall extend not less than six (6) inches below the liquid surface and not less than four (4) inches above the liquid surface.

e. *Outlet baffle.* The outlet baffle shall extend not less than twelve (12) inches below the liquid surface and not less than six (6) inches above the liquid surface. The outlet shall not extend above the level of the inlet nor more than three (3) inches below the level of the inlet.

f. *Multicompartment tanks.* When multicompartment tanks are used, a connection between compartments with a minimum diameter of four (4) inches shall be provided, and the inlet and outlet baffle submergency shall conform to the specifications for a single-compartment tank.

g. *Passage of waste.* All kitchen waste, laundry waste and sewage shall pass through the septic tank before being discharged into the absorption field.

h. *Construction.* The tank shall be constructed of reinforced concrete or metal such as to ensure watertightness and prevent the entrance of rainwater, surface drainage or groundwater Metal tanks shall comply with commercial standard 177-51 of the United States Department of Commerce.

i. *Manholes.* All septic tanks shall be provided with manholes, removable lids or removable top sections. If a manhole is used, it shall be placed over the inlet and an inspection hole shall be placed over the outlet.

(2) *Distribution box.* A distribution box of sufficient size to accommodate the necessary disposal lines shall be constructed at the head of each disposal field.

a. Each disposal line shall be connected separately to the distribution box and shall not be subdivided.

b. The invert of all outlets shall be level and the inlet invert shall be at least one (1) inch above the outlets.

c. The outlet inverts shall be from four (4) to six (6) inches above the floor in lieu of a baffle for the purpose of securing equal distribution.

d. Metal distribution boxes shall comply with commercial standard 177-51 of the United States Department of Commerce.

(3) *Location of absorption field.* The absorption field shall be not less than one hundred and fifty (150) feet from any water well and not less than ten (10) feet from any dwelling or property line.

(4) *Minimum length of disposal line.* All septic tank systems shall be provided with a minimum of disposal line based on the results of the percolation tests as follows. (A minimum of one hundred (100) linear feet of four-inch drainpipe shall be provided per installation.):

Percolation rate time required for water to fall one inch in minutes	*Linear feet of four-inch drainpipe per bedroom, without garbage grinder or automatic washer*
2 or less	34
3	40
4	47
5	50
10	67
15	77
30	100
45	120
60	134

When automatic washers discharge into the system, the minimum length of absorption field shall be increased by thirty-six (36) percent, and when garbage grinders discharge into the system the minimum length

of absorption field shall be increased by twenty (20) percent. When both automatic washers and garbage grinders discharge into the system, the minimum length of absorption field shall be increased by sixty-six (66) percent.

(5) *Construction of disposal line trenches.* All disposal line trenches shall have a minimum bottom width of eighteen (18) inches. The minimum distance of disposal line trenches center to center shall be six (6) feet. The grade of the disposal line trenches shall not exceed four (4) inches per one hundred (100) feet. The disposal field tile shall be laid one-fourth-inch open joints on a grade not to exceed four (4) inches per one hundred (100) feet. All open joints shall be protected on top by asphalt-treated building paper. There shall be a minimum of six (6) inches of gravel underneath disposal tile and two (2) inches over the tile, covering the entire width of the trench. The gravel shall be clean-washed, varying in size from one-half (½) to two and one-half (2½) inches. A layer of straw or absorbent paper shall be placed over the top of the gravel before the backfill is added. A minimum of twelve (12) inches of backfill shall be placed over the straw or absorbent paper. The maximum length of any disposal line shall not exceed one hundred (100) feet.

(Code 1950, § 58-6; Ord. No. 21416, § 4, 6-23-55; Code 1959, § 18-73; Ord. No. 80574, § 11, 8-4-94)

Sec. 34-454. Same—Inspection by health officer.

It shall hereafter be unlawful for any person to cover or use any portion of the septic tank system until the director of public health has inspected the septic tank system and given notice of approval stating that the construction conforms to the provisions of sections 34-451 through 34-453. If the construction of the system does not comply with the provisions of sections 34-451 through 34-453 the director of public health shall issue written notice to the holder of the permit specifying corrections that must be made so that the system will comply with such provisions. After such corrections have been completed, the permit holder shall call for another inspection.

(Code 1950, § 58-6; Ord. No. 21416, § 5, 6-23-55; Code 1959, § 18-74; Ord. No. 80574, § 11, 8-4-94)

Sec. 34-455. Privies—Construction requirements.

(a) *Minimum standards.* Where at any time there shall be established or installed a pit privy, it shall be so constructed, built or rebuilt that:

(1) The excreta deposited therein shall not fall upon the surface of the ground, but shall enter into a vault or pit in the ground.

(2) The contents of such vault shall be at all times inaccessible to flies, mosquitoes, fowl or small animals.

(3) The pit, vault or compartment, together with the floor, riser, seat and other portions of the building shall, as a unit, prevent the entrance of either rain or surface water into the pit below.

(b) *Construction.* There shall be deemed to be compliance with the requirements of the preceding subsection when the following conditions exist:

(1) *Minimum pit dimensions.*

a. Length and breadth: three (3) feet six (6) inches;

b. Depth, from original ground surface, five (5) feet;

c. A box cribbing shall extend from the bottom of the pit to a distance of two (2) inches above the original ground surface.

(2) *Collar or sill.* Around the pit, and clearing the cribbing by a distance of one (1) inch, shall be placed a reinforced concrete collar or sill not less than four (4) inches thick and five (5) inches wide, such sill to be cast monolithic, or in one (1) piece.

(3) *Floor and riser.* Upon the sill or collar shall be placed the floor and riser, which shall be a substantial reinforced concrete slab four

(4) feet by four (4) feet, with bolts set in the concrete for bolting the house and the seat to such slab.

(4) *Mound.* From the top edge of the slab, a well-tamped mound shall be constructed tapering from the edge of the slab to the original ground surface at a distance not less than eighteen (18) inches from the slab.

(5) *Seat and lid.* The seat shall be constructed of a good grade of wood, two (2) inches thick. There shall be an opening at the back of the seat for a four-inch galvanized iron vent pipe, which shall be screened at both ends with sixteen-mesh copper wire screen. The vent pipe shall extend to a height of not less than eight (8) inches above the roof, and shall be provided with a metal cap to prevent the entrance of rain or the light of day. The seat shall be grouted to the riser so that no cracks exist which will permit the entrance or exit of flies or mosquitoes. The seat shall be provided with a self-closing lid. A device shall be used which will maintain the lid in an open position when the toilet is being used, but which will automatically close the lid when the door is opened for exit from the toilet.

(6) *House.* The house shall be four (4) feet square, five (5) feet five (5) inches high in the back, and six (6) feet six (6) inches high in front, and shall be provided with a shed roof. The building shall be ventilated on each side just under the roof. The roof shall extend five (5) inches in front and fifteen (15) inches behind and nine (9) inches on each side.

(Code 1950, § 58-7; Code 1959, § 18-75; Ord. No. 80574, § 11, 8-4-94)

Sec. 34-456. Same—Maintenance; repair.

(a) All privy buildings shall be kept in a clean condition at all times.

(b) Should any defect occur in a privy which would cause it in any way to fail to meet the requirements provided in sections 34-455 and subsection (a) of this section, the defect shall be immediately corrected by the owner or agent of the premises on which the defect has occurred, unless the defect shall be caused by neglect, destructiveness or carelessness on the part of the occupant of the premises on which the defect has occurred, or through his agent, in which case the defect shall be immediately repaired or corrected by the occupant or the agent of the occupant of the premises on which the defect has occurred.

(Code 1950, §§ 58-8, 58-9; Code 1959, § 18-77; Ord. No. 80574, § 11, 8-4-94)

Secs. 34-457—34-470. Reserved.

DIVISION 3. INDUSTRIAL WASTE*

Sec. 34-471. General provisions.

(1) *Purpose.* This division sets forth uniform requirements to be met by all industrial waste dischargers utilizing the San Antonio Regional Wastewater Transportation and Treatment System (hereinafter termed "regional system"). This division is written to enable the regional system to comply with and enforce all applicable local, state, and federal laws pertaining to water quality control, including the Clean Water Act (33 U.S.C. 1251 et. seq.), and the general pretreatment regulations (40 CFR 403). Any word, phrase, clause, paragraph, section, part or provision of this division which, upon the promulgation of more stringent local, state or federal law or duly implemented regulatory requirement, is in conflict with or less stringent than such local, state and federal law or regulation promulgated after enactment of this division, shall be invalidated and repealed to the extent of such conflict or super cession upon the effective date of such local, state and federal law or regulation, and the language and provisions of such local, state and federal law or regulation shall be incorporated herein by reference and shall become a part of

*__Editor's note—__Ord. No. 81771, § 1, adopted March 2, 1995, repealed former Div. 3, §§ 34-471—34-481, relative to industrial waste, and § 2 of said ordinance enacted a new Div. 3 to read as herein set out in §§ 34-471—34-485. The provisions of former Div. 3 derived from Ord. No. 77784, adopted April 15, 1993; Ord. No. 78153, adopted June 17, 1993; Ord. No. 80574, adopted Aug. 4, 1994.

those sections, parts, paragraphs, clauses, or phrases affected to the extent that the existing division language is invalidated and repealed.

(2) *Administration.*

(a) Pursuant to the grant of authority to the San Antonio Water System in City Ordinance No. 75686, dated April 30, 1992 and in the Ordinance No. 80574 dated August 4, 1994, the SAWS board of trustees shall have full responsibility for the administration and implementation of the pretreatment program established by this division.

(b) Except as otherwise provided herein, the director shall administer, implement and enforce the provisions of this division. The pretreatment program shall be modified as needed to meet local, state and federal requirements. Any powers granted to or duties imposed upon the director may be delegated by the director to other SAWS personnel.

(3) *Objectives.* The objectives of this division are:

(a) To prevent the introduction of pollutants into the regional system in such quantities or qualities that would interfere with the operation of the regional system;

(b) To prevent the introduction of pollutants or substances into the regional system that may typically pass through either unaffected by the treatment process or may be inadequately compatible with such treatment, that could result in potential violations of POTW effluent standards, air quality standards, NPDES permit conditions, sludge use and disposal requirements and any other federal or state laws, or otherwise considered incompatible with the POTW;

(c) To preserve and improve the opportunity for reusing, reclaiming and recycling wastewater and sludge generated by the regional system, and to ensure quality of sludge to allow its use and disposal in compliance with statutes and regulations;

(d) To ensure that there is an equitable distribution of the operation, maintenance and capital-related costs of the regional system across user classes;

(e) To create a permit system to regulate industrial users of the regional system;

(f) To enforce the provisions of this division by requiring self-monitoring and self-reporting from industrial users to supplement periodic investigations made by regional system inspection personnel;

(g) To provide penalties for violations of the regulations established herein;

(h) To protect the health and welfare of the public and of employees who maintain and operate the regional system;

(i) To establish a regulatory environment that encourages identification and utilization of pretreatment opportunities to reduce or eliminate the volume and toxicity of any industrial waste discharged to the regional system, in fulfillment of the intent of objectives (a), (b), (c), and (h) above.

(4) *Service area.* This division shall be given full force and effect inside the corporate limits of San Antonio and within those unincorporated areas located outside the corporate limits of San Antonio, but within the regional system's sewer service area. Additionally, this division shall apply to those entities (as defined hereinafter) served by the regional system that have entered into sewer service contracts with the city or the San Antonio Water System. By operation of law, permit conditions, contract, or intermunicipal agreement, industrial users within the sewer service area are obligated to abide by the provisions of this division and/or similarly stringent regulations adopted by an entity other than SAWS, which govern the discharge of industrial wastewater into any sewage collection system which ultimately connects to the regional system. Industrial users within the sewer service area are obligated to financially support the regional system by paying all applicable sewer user charges and fees to the appropriate collection agent for costs associated with the transportation, treat-

ment, operation, maintenance, monitoring, administration, and enforcement services provided to the user of the regional system.

(5) *Abbreviations.* The following abbreviations shall have the designated meanings:

BOD — Biochemical Oxygen Demand (five day).

BMP — Best Management Practices.

C — Centigrade.

CERCLA — Comprehensive Environmental Response, Compensation, and Liability Act.

CIU — Categorical Industrial User.

CFR — Code of Federal Regulations.

CAA — Clean Air Act.

CWA — Clean Water Act, 33 U.S.C. 1251 et seq.

COD — Chemical Oxygen Demand.

DIU — Dental Industrial User.

EPA — Environmental Protection Agency.

F — Fahrenheit.

FOG — Fats, Oils and Grease.

GPD — Gallons per day.

IU — Industrial User.

L — Liter.

LEL — Lower Explosive Limit.

mg — Milligrams.

MGD — Million gallons per day.

mg/L — Milligrams per Liter (weight to volume).

NPDES — National Pollutant Discharge Elimination System.

POTW — Publicly Owned Treatment Works.

RCRA — Resource Conservation and Recovery Act.

PL — Public Law.

SARA — Superfund Amendments and Reauthorization Act.

SAWS — San Antonio Water System.

SDWA — Safe Drinking Water Act.

SIC — Standard Industrial Classification.

SNC — Significantly Non-Compliance.

SWDA — Solid Waste Disposal Act, 42 U.S.C. 6901, et seq.

TBLL — Technically Based Local Limits.

TCEQ — Texas Commission on Environmental Quality

TOMP — Toxic Organic Management Plan.

TPDES — Texas Pollutant Discharge Elimination System.

TSCA — Toxic Substances Control Act.

TSS — Total Suspended Solids.

TTO — Total Toxic Organics.

USC — United States Code.

(6) *Definitions.* Unless a provision explicitly states otherwise, the following terms and phrases, as used in this division, shall have the meanings hereinafter designated.

Act or *the Act:* The Federal Water Pollution Control Act, also known as the Clean Water Act, as amended, 33 U.S.C. 1251, et seq.

Administrator: The Administrator of the U.S. Environmental Protection Agency.

Amalgam process wastewater: Wastewater discharged from a DIU containing dental amalgam.

Amalgam Separator: A collection device designed to capture and remove dental amalgam from the amalgam process wastewater of a dental facility with a removal efficiency of at least 95 percent and meeting the ANSI/ADA criteria as outlined in 40 CFR § 441.

Approval authority: The administrator of the EPA or the director in a National Pollutant Discharge Elimination System (NPDES) delegated state with an approved state pretreatment program or his designated representative.

Authorized representative of industrial user: An authorized representative of an industrial user may be:

(1) An executive officer of at least the level of vice president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision-making functions for the corporation;

(2) The manager of one (1) or more manufacturing, production, or operating facilities, provided, the manager is authorized to make management decisions which govern the operation of the regulated facility including having the explicit or implicit duty of making major capital investment recommendations, and initiate and direct other comprehensive measures to assure long-term environmental compliance with environmental laws and regulations; can ensure that the necessary systems are established or actions taken to gather complete and accurate information for control mechanism requirements; and where authority to sign documents has been assigned or delegated to the manager in accordance with corporate procedures;

(3) A general partner or proprietor if the industrial user is a partnership or proprietorship, respectively;

(4) A duly authorized representative of a user that is a political subdivision or other entity as defined at section 34-471(6) of this division;

(5) The individuals described in paragraphs (1) through (3) above, may designate an alternate authorized representative if the authorization is in writing, the authorization specifies the individual or position responsible for the overall operation of the facility from which the discharge originates or having overall responsibility for environmental matters for the company, and the written authorization is submitted to the control authority.

(6) If an authorization under subsection (5) of this section is no longer accurate because a different individual or position has responsibility for the overall operation of the facility, or overall responsibility for environmental matters for the company, a new authorization satisfying the requirements of this section must be submitted to the control authority prior to or together with any reports to be signed by an authorized representative.

Best management practices (BMPs): A schedule of activities, prohibitions of practices, maintenance procedures, and other management practices to implement the requirements listed in subsections 34-472(1) and (2). BMPs include treatment requirements, operating procedures, and practices to control plant site runoff, spillage, or leaks, sludge or waste disposal, or drainage from raw materials storage.

Biochemical oxygen demand (BOD): The quantity of oxygen utilized in five (5) days at twenty (20) degrees centigrade for biochemical oxidation of the organic matter present in wastewater, expressed in mg/l and measured by the method set forth in the most recent edition of Standard Methods for the Examination of Water and Wastewater, or such other method as approved by EPA and published in 40 CFR 136.

Categorical standards: National categorical pretreatment standards or pretreatment standards as set forth in any regulation containing pollutant discharge limits promulgated by the EPA in accordance with the Section 307 (b) and (c) of the Act (33 U.S.C. 1347) which applies to a specific category of industrial users, and which appear in 40 CFR Chapter I, Subchapter N, Parts 405-471. These IU are defined as CIU or categorical industrial users.

Chemical oxygen demand (COD): A measure of the oxygen required in mg/l for the oxidation of organic matter to CO^2 and water while under acidic conditions using a strong chemical oxidizing agent. See Standard Methods for the Examination of Water and Wastewater, current edition.

City: The City of San Antonio in Bexar County, Texas, being a home rule municipality duly

authorized and existing, pursuant to its charter, the Texas Constitution, and the laws of the State of Texas. Texas as represented by the official acts of the city council and council-designated representative public officials.

Compatible pollutant: A pollutant such as biochemical oxygen demand, total suspended solids, or any additional pollutants identified in the publicly-owned treatment works NPDES permit, where the POTW is designed to treat such pollutants to the degree required by the POTW's NPDES or state wastewater discharge permit.

Composite sample: A representative sample (flow or time proportional) resulting from the combination of individual wastewater samples taken at selected intervals based on an increment of either flow or time. Normally these samples are based on a twenty-four-hour period and should be representative of daily operations, as is further defined in Appendix E of 40 CFR 403.

Control authority: The term "control authority or CA" shall refer to SAWS or the POTW defined hereinafter, the resource compliance division, or the designated representative or agent, in accordance with the provisions of 40 CFR 403.12 insofar as the pretreatment program was originally approved and effective as of February 15, 1985.

Daily discharge: The wastewater discharge (including pollutants) from a facility during a normal twenty-four-hour period that represents the calendar day for the purpose of sampling the discharge to the sanitary sewer.

Daily maximum limit: The maximum allowable discharge limit of a pollutant during a calendar day. Where a daily maximum limit is expressed in units of mass, the daily discharge is the total mass discharged over the course of a day. Where a daily maximum limits is expressed in terms of a concentration, the daily discharge is the arithmetic average measurement of the pollutant concentration derived from all measurements taken that day.

Dental amalgam: An alloy of elemental mercury and other metal(s) that is used in the practice of dentistry.

Dental industrial user: A general dentistry practice or large dental facility described under the NAICS as 621210 that either uses or removes dental amalgam as part of the practice including but not limited to institutions, permanent or temporary offices, clinics, home offices, and facilities operated by federal, state or local governments that discharge wastewater to the control authority. This does not include mobile dental units, dental dischargers that do not place dental amalgam and do not remove amalgam except in limited emergency or unplanned, unanticipated circumstances and that certify as such to the control authority. Offices that exclusively practice one or more of the following specialties are also not included: oral pathology, oral and maxillofacial radiology, oral and maxillofacial surgery, orthodontics, periodontics, or prosthodontics.

Department: The San Antonio Water System Resource Protection and Compliance Department.

Direct discharge: The discharge of treated or untreated wastewater directly to the waters of the United States or the state.

Division: The San Antonio Water System Resource Compliance Division.

Entity: Shall refer to those cities, towns, political or commercial subdivisions, municipal utility districts, industrial districts, public utility districts, water improvement districts, military installations or state government facilities that establish, operate, and maintain a sanitary sewer collection system within their jurisdictional boundary and contract with the control authority to provide for the transportation and treatment of sewage generated by the entity.

Environmental Protection Agency, or *EPA:* The U.S. Environmental Protection Agency, or where appropriate the term may also be used as a designation for the administrator or other duly authorized official of said agency.

Existing source: Any source of discharge, the construction or operation of which commenced

prior to the publication by EPA of proposed categorical pretreatment standards, which will be applicable to such source if the standard is thereafter promulgated in accordance with Section 307 of the Act.

Explosion hazard meter: An explosion-proof electromechanical device designed to collect and analyze ambient air samples to determine the presence and measure the concentration of volatile, flammable, organic vapors capable of causing a fire or explosion in the presence of a source of ignition.

Flow-proportional composite sample: Shall mean the composite of two (2) or more discharge samples taken on a flow-proportional basis, to be representative of daily operations.

Fats, oils and grease (FOG): Shall mean any animal, vegetable or mineral fats, oils and/or greases, including but not limited to the following types: floatable grease of any origin; and free or emulsified grease of petroleum or mineral origin, or both, such as, cooling or quenching oil, lubricating oil, nonbiodegradable cutting oil and non-saponifiable oil.

Grab sample: A sample taken over a short period of time, not usually exceeding fifteen (15) minutes, and representative of a wastewater flow on a one-time basis. This sample is taken without regard to the flow volume or consideration of the time at which the sample is taken, as is further defined in Appendix E of 40 CFR 403.

Grease trap: Any structure or mechanical device intended to cause or facilitate the interception and separation of free and emulsified oils and grease from wastewater prior to its discharge to the regional system. All structure or devices installed for the purpose of pretreatment shall conform to the design requirements contained in the city plumbing code. Plans for such structures or devices shall be submitted to the control authority for review prior to construction or installation.

Grit trap: A receptacle utilized by commercial or industrial generators of liquid waste to intercept, collect and restrict the passage of petroleum-based oil and grease wastes and inorganic or other solids into both private and public sanitary sewers to which the receptacle is directly or indirectly connected.

Ground water: The supply of fresh water found beneath the earth's surface, usually in aquifers, which supply wells and springs.

Holding tank waste: Any wastes from holding tanks such as vessels, chemical toilets, campers, trailers, septic tanks, and vacuum pump tank trucks, or any other waste hold/hauling mechanisms.

Incompatible pollutant: All pollutants other than compatible pollutants as defined in section 34-471(6), such as, but not limited to, metals, volatile organics, and hazardous substances, etc.

Indirect discharge: The discharge or the introduction into the POTW of any pollutant from any non-domestic source, including but not limited to those sources regulated under Section 307 (b) and (c) or (d) of the Act (33 U.S.C. 1317) (including holding tank waste discharged into the regional system).

Industrial user or *user (IU):* Any user who contributes, causes, or allows an indirect discharge (as defined in subparagraph 34-471(6) of this section) of non-domestic pollutants or other wastewater which does not constitute a "direct discharge" to a receiving stream under regulations issued pursuant to Section 402, of the Act, (33 U.S.C. 1342).

Industrial wastewater: The liquid and waterborne pollutants resulting from processes or operations employed in business, commerce or industry as defined in the "Standard Industrial Classification Manual, 1987" office of management and budget of the federal government, as amended and supplemented from time to time, inclusive of the mixtures of any industrial wastewater pollutants with water or domestic sewage as distinct from normal domestic sewage.

Industrial wastewater advisory board: An advisory board consisting of eleven (11) members whose function is to provide information and recommendations to the control authority's board of trustees, president/CEO, and the director regarding Industrial Wastewater. The general

provisions of the Federal Register, Volume 44, No. 34, Friday, February 16, 1979, Sec. 25.7 "Advisory Groups," shall serve as a guideline for the activities and structure of the board.

Industrial wastewater discharge permit: A control mechanism providing for the regulation of discharge by certain users pursuant to 40 CFR 403.8 (f)(1)(iii), the Act, the control authority pretreatment program, and this division.

Inhibition: A discharge which has a negative impact upon the biological activity of the POTW either alone or in conjunction with other discharges.

Instantaneous maximum allowable discharge limit: The maximum concentration of a pollutant allowed to be discharged at any time, determined from the analysis of any discrete or composite sample collected, independent of the industrial flow rate and the duration of the sampling event.

Interference: A discharge which alone or in conjunction with a discharge from other sources tends to:

(1) Inhibit or disrupt the treatment processes, operations, sludge processes, sludge use or disposal of the POTW, and

(2) Therefore is a cause of violation of POTW's NPDES permit or of the prevention of sewage sludge use or disposal in compliance with any of the following statutory/regulatory provisions or permits issued hereunder (or any more stringent state or local regulations): Section 405 of the Clean Water Act; the Solid Waste Disposal Act (SWDA), including Title II commonly referred to as the Resource Conservation and Recovery Act (RCRA); any State regulations contained in any State sludge management plan prepared pursuant to Subtitle D of the SWDA; the Clean Air Act; the Toxic Substances Control Act; and Marine Protection, Research, and Sanctuaries Act.

Mobile dental unit: A specialized mobile self-contained van, trailer, or equipment used in providing dentistry services at multiple locations. The discharge from a mobile dental unit to the control authority must include provisions to remove dental amalgam prior to discharge to the collection system.

Monthly average limit: The highest allowable average of daily discharges over a calendar month, calculated as the sum of all daily discharges measured during a calendar month divided by the number of daily discharges measured during that month.

NAICS: North American Industrial Classification System, an industrial classification system that groups establishments into industries based on the similarity in the processes used to produce the principal goods or services and the economic activities in which they are primarily engaged.

Narrative standard: Narrative criteria are statements that describe the desired water quality goal that is used when pollutants cannot be precisely measured to express the limit on a parameter in a quantitative form. This criteria is used for pollutants for which numeric criteria are difficult to specify, such as those that offend the senses (e.g., color and odor) or for requirements as might be specified in a compliance agreement (e.g., employee training or visual postings).

National pollution discharge elimination system (NPDES) permit: A permit issued pursuant to Section 402 of the Act (33 U.S.C. 1342).

New source:

(1) Any building, structure, facility, or installation from which there is (or may be) a discharge of pollutants, the construction of which commenced after the publication of proposed pretreatment standards under Section 307(c) of the Act which will be applicable to such source if such standards are thereafter promulgated in accordance with that action, provided that:

(a) The building, structure, facility, or installation is constructed at a site at which no other source is located; or

(b) The building, structure, facility, or installation totally replaces the

process or product equipment that causes the discharge of pollutants at an existing source; or

(c) The production or wastewater generating processes of the building, structure, facility, or installation are substantially independent of existing sources at the same site. In determining whether these are substantially independent, factors such as the extent to which the new facility is integrated with the existing plant, and the extent to which the new facility is engaged in the same general type of activity as the existing source, should be considered.

(2) Construction on a site at which an existing source is located results in a modification rather than a new source if the construction does not create a new building, structure, facility, or installation meeting the criteria of section (1)(b) or (c) above but otherwise alters, replaces or adds to existing process or production equipment.

(3) Construction of a new source as defined under this paragraph has commenced if the owner or operator has:

(a) Begun, or caused to begin, as part of a continuous onsite construction program:

(i) Any placement, assembly, or installation of facilities or equipment; or

(ii) Significant site preparation work including clearing, excavation, or removal or existing buildings, structures, or facilities which is necessary for the placement, assembly, or installation of new source facilities or equipment; or

(b) Entered into a binding contractual obligation for the purchase of facilities or equipment which is intended to be used in its operation within a reasonable time. Options to purchase or contracts which can be terminated or modified without substantial loss, and contracts for feasibility, engineering, and design studies do not constitute a contractual obligation under this paragraph.

Noncontact cooling water: Water used for cooling which does not come into direct contact with any raw material, intermediate product, waste product, or finished product.

Non-significant categorical industrial user: An industrial user subject to categorical pretreatment standards under § 403.6 and 40 CFR chapter I, subchapter N user that never discharges more than one hundred (100) gallons per day (gpd) of total categorical wastewater (excluding sanitary, non-contact cooling and boiler blow down wastewater.

Normal domestic wastewater: The waterborne wastes normally discharged from the sanitary conveniences of dwellings (including apartment houses and hotels), office buildings, factories and institutions, free from storm water, ground water and industrial waste, with a BOD normally less than two hundred fifty (250) mg/L and total suspended solids normally less than two hundred fifty (250) mg/L.

Pass through: A discharge which exits the POTW into waters of the United States in quantities or concentrations which, alone or in conjunction with a discharge or discharges from other sources, is a cause of a violation of any requirement of the control authority's NPDES permit, including an increase in the magnitude or duration of a violation.

Person: Any individual, partnership, copartnership, firm, company, corporation, association, joint stock company, trust, estate, governmental entity, or any other legal entity, or their legal representatives, agents or assigns. The masculine gender shall include the feminine, the singular shall include the plural where indicated by the context.

pH: A measure of the acidity or alkalinity of an aqueous solution, defined as the logarithm (base 10) of the reciprocal of the hydrogen ion concentration of a solution, expressed in standard units.

Pollutant: A substance that alters the physical, thermal, chemical, radiological, or biological quality or properties of water; or that contaminates water to the extent that the water is rendered harmful to humans, animal life, vegetation, property, or to public health, safety, or welfare; or that impairs the usefulness of public enjoyment of the water for any lawful purpose. Pollutants include, but are not limited to, dredged soil, solid waste, incinerator residue, filter backwash, sewage, garbage, sewage sludge, munitions, medical wastes, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand, cellar dirt, municipal, agricultural and industrial wastes, and certain characteristics of wastewater (e.g., pH, temperature, TSS, turbidity, color, BOD, COD, toxicity, or odor).

Pollution prevention plan: A plan designed for the reduction of generation of hazardous waste and toxic chemicals as outlined in the Waste Reduction Policy Act of 1991 (under 30 Texas Administrative Code (TAC) 335 Subchapter Q) by avoiding the disposal or release of harmful substances into the environment by means of source reduction, waste minimization, reuse, recycling, and detoxifying treatments.

Pretreatment or *treatment:* The reduction of the amount of pollutants, the elimination of pollutants, or the alteration of the nature of pollutant properties in wastewater to a less harmful state prior to or in lieu of discharging or otherwise introducing such pollutants into a POTW. The reduction or alteration can be obtained by physical, chemical, or biological processes, or process changes by other means, except by diluting the concentration of the pollutants, and as prohibited by 40 CFR 403.6(d).

Pretreatment requirements: Any substantive or procedural requirement of the control authority related to industrial wastewater pretreatment that may supplement national pretreatment standard requirements imposed upon an industrial user.

Pretreatment standards: Any regulation containing prohibitive discharge standards and/or categorical pretreatment standards promulgated by the EPA in accordance with Section 307 (b) and (c) of the Act (33 U.S.C. 1347). This term also includes local limits.

Process wastewater: Any water which, during manufacturing of processing, comes into contact with or results from the production of use of any raw material, intermediate product, finished product, byproduct, or waste product.

Prohibitive discharge standards: Absolute prohibitions against the discharge of certain substances; these prohibitions appear in section 34-472(1) of this division.

Publicly owned treatment works (POTW): A "treatment works," as defined by Section 212 of the Act (33 U.S.C. 1292) which is owned by the control authority. This definition includes any devices or systems used in the recycling or reclamation, collection and treatment of sewage or industrial wastes of a liquid nature and any conveyances, which convey wastewater to a water recycling center.

San Antonio water system (the control authority): Regional water, wastewater and reuse utility system created by Ordinance No. 75686 of the City of San Antonio, passed on April 30, 1992.

Septic tank waste: Any sewage or wastewater from holding tanks such as vessels, chemical toilets, campers, trailers, and septic tanks.

Sewage: Wastewater containing human excrement and gray water (household showers, dishwashing operations, etc.).

Shall: "Shall" is mandatory; "May" is permissive.

Sharps: Sharps means any object contaminated with a pathogen or that may become contaminated with a pathogen through handling or during transportation and also capable of cutting or penetrating skin or a packaging material. Sharps includes needles, syringes, scalpels, broken glass, culture slides, culture dishes, broken capillary tubes, broken rigid plastic, and exposed ends of dental wires.

Significant industrial user (SIU): Any user meeting the following criteria:

(1) Industrial users subject to categorical pretreatment standards; and/or

(2) Any other industrial user that:

a. Discharges an average of 25,000 gpd or more of process wastewater;

b. Contributes a process wastestream which makes up five (5) percent or more the average dry weather hydraulic or organic capacity of the treatment plant or;

c. Is designated as significant by the director on the basis that the industrial user has a reasonable potential for adversely affecting the POTW's operation or for violating any pretreatment standard or requirement.

d. The control authority may determine that an industrial user subject to categorical pretreatment standards under § 403.6 and 40 CFR chapter I, subchapter N is a non-significant categorical industrial user rather than a significant industrial user on a finding that the industrial user never discharges more than one hundred (100) gallons per day (gpd) of total categorical wastewater (excluding sanitary, non-contact cooling and boiler blow down wastewater, unless specifically included in the pretreatment standard) and the following conditions are met:

1. The industrial user, prior to the control authority's finding, has consistently complied with all applicable categorical pretreatment standards and requirements;

2. The industrial user annually submits the certification statement required in § 403.12(q) together with any additional information necessary to support the certification statement; and

3. The industrial user never discharges any untreated concentrated wastewater.

(3) Upon a finding that an industrial user meeting the criteria in paragraph (v)(1)(ii) of this section has no reasonable potential for adversely affecting the POTW's operation or for violating any pretreatment standards or requirement, the control authority may at any time, on its own initiative or in response to a petition received from an industrial user or POTW, and in accordance with 40 CFR 403.8(f)(6), determine that such industrial user is not a significant industrial user.

Significant noncompliance: For the purpose of this provision, an industrial user is significantly noncompliant (SNC), if its violation meets one (1) or more of the following criteria:

(1) Chronic violations of numeric wastewater discharge limits, defined here as those in which sixty-six (66) percent or more of all measurements taken during a six-month period exceed (by any magnitude) the daily maximum limit or the average limit for the same pollutant parameter, a numeric pretreatment standard or requirement, including instantaneous maximum allowable discharge limits as defined in section 34-471; or

(2) Technical review criteria (TRC) violations, defined here as those in which thirty-three (33) percent or more of all of the numeric measurements for the same pollutant parameter taken during a six-month period equal or exceed the product of the numeric pretreatment standard or daily maximum limit or the average limit multiplied by the applicable TRC (TRC = 1.4 for BOD, TSS, FOG, and 1.2 for all other pollutants except pH.); or

(3) Any other violation of a pretreatment standard, requirement, or effluent limit (daily maximum or longer term average, instantaneous maximum allowable

discharge limit, or narrative standard) that the control authority determines has caused, alone or in combination with other discharges, interference or pass through (including endangering the health of POTW personnel or the general public); or

(4) Any discharge of a pollutant that has caused imminent endangerment to human health, welfare or to the environment or has resulted in the control authority's exercise of its emergency authority under paragraph (f)(1)(vi)(B) of this section to halt or prevent such a discharge; or

(5) Failure to meet, within ninety (90) days after the schedule date, a compliance schedule milestone contained in a local control mechanism or enforcement order for starting construction, completing construction, or attaining final compliance; or

(6) Failure to provide, within forty-five (45) days after the due date, required reports such as baseline monitoring reports, 90-day compliance reports, periodic self-monitoring reports, and reports on compliance with compliance schedules; or

(7) Failure to accurately report noncompliance; or

(8) Any other violation or group or violations which may include a violation of best management practices that the control authority determines will adversely affect the operation or implementation of the local pretreatment program.

Slug discharge / slug load: Any single discharge episode at a flow rate or strength which could cause a violation of the prohibited discharge standards in subsection 34-472(1) of this division, and any discharge of a non-routine, episodic nature, including but not limited to an accidental spill or a non-customary batch discharge. The discharge episode is not required to cause or have the potential to cause pass-through or interference with the POTW processes to be considered a slug load. In addition a slug discharge shall not violate the POTW's regulations, local limits, or individual permit conditions.

Standard industrial classification (SIC): A four-digit code created by the U.S. Office of Management & Budget (1987) for statistical classification purposes that describes an industrial activity that takes place at a facility or site. It is possible for a facility or site to have multiple SIC codes depending on the varying activities that take place.

Standard methods: The examination and analytical procedures set forth in the latest edition of "Standard Methods for the Examination of Water and Wastewater" as prepared and published jointly by the American Public Health Association, American Water Works Association, and Water Environment Federation. "Standard Methods" shall also mean any approved analytical procedures published by the U.S. EPA in 40 CFR Part 136.

State: State of Texas.

State waters: Water of the ordinary flow, underflow, and tides of every flowing river, natural stream or lake, and of every bay of the Gulf of Mexico, of every river, natural stream, canyon, ravine, depression, and other watershed in the state which are the property of the state.

Storm water: Any flow occurring during or following any form of natural precipitation, and resulting from such precipitation, including snowmelt runoff, rainfall runoff and surface runoff and drainage.

Technically based local limits (TBLL): Those enforceable technically based local pollutant discharge standards developed by POTWs to address federal standards as well as state and local regulations.

Texas commission on environmental quality (TCEQ): The TEXAS COMMISSION ON ENVIRONMENTAL QUALITY, or an agent thereof.

Texas pollutant discharge elimination system (TPDES): A discharge permit issued pursuant to the authority of the Texas Commission on Environmental Quality.

Time-proportional composite sample: The composite of two (2) or more wastewater samples of equal volume taken at regular time intervals during any period of operational discharge.

Total suspended solids (TSS): The total suspended matter that floats on the surface of, or is suspended in, water, wastewater, or other liquids, and which is removable by laboratory filtration.

Total toxic organic (TTO): The summation of all quantifiable values greater than 0.01 milligrams per liter for the toxic pollutants located in 40 CFR 122, Appendix D, Table II.

Toxic organic management plan (TOMP): A plan which specifies the toxic organic compounds used, the method of disposal used, and procedures for assuring that toxic organics do not routinely spill or leak into wastewater discharged to the POTW.

Toxic pollutant: Any pollutant or combination of pollutants listed as toxic in regulations promulgated by the administrator of the environmental protection agency under the provisions of Section 307(a) of the Act.

Treatment, storage and disposal facility: A facility that treats, stores and disposes of materials (including hazardous materials) and may provide transportation as defined in 40 CFR Parts 264/265, subpart A—E.

Upset: An exceptional incident in which there is unintentional and temporary noncompliance with categorical pretreatment standards because of factors beyond the reasonable control of the industrial user. An upset does not include noncompliance to the extent caused by operational error, improperly designed treatment facilities, inadequate treatment facilities, lack of preventive maintenance, or careless or improper operation.

Waste amalgam: Dental amalgam that is no longer suitable for use in making dental repairs such as excess mix leftover at the end of a dental procedure and amalgam removed as part of a dental repair or replacement. Removed teeth with fillings can contain amalgam and is included as waste in the definition.

Wastewater: The liquid and water-borne industrial or domestic wastes from commercial buildings, industrial and manufacturing facilities and institutions, whether treated or untreated, which are discharged into the POTW.

Water pollution: The manmade or man induced alteration of the chemical, physical, biological, or radiological characteristics of water below certain minimum desirable quality standards.

Water recycling center: That portion of the POTW which is designed to provide treatment of municipal sewage (formerly referred to as a wastewater treatment plant).

Waters of the United States: All navigable waters of the United States as defined at 33 USC 1362(7) and at 40 CFR § 122.2.

Zero discharger: An industrial user subject to categorical pretreatment standards that does not discharge any categorical waste to the sanitary sewer collection system. This IU may not discharge waste that has categorical standards to the sanitary sewer collection system as outlined under their SIU permit requirements or local limits whichever is more stringent.
(Ord. No. 81771, § 2(App. I), 3-2-95; Ord. No. 85765, § 1, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04; Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14; Ord. No. 2019-02-14-0123, § 1(Att. I), 2-14-19; Ord. No. 2021-04-29-0283, § 1(Att. I), 4-29-21)

Sec. 34-472. Regulations.

(1) *General discharge prohibitions.* No user shall introduce or cause to be introduced into the POTW any pollutant or wastewater which causes pass through or interference. These general prohibitions apply to all users of the POTW whether or not they are subject to categorical pretreatment standards or any other national, state, or local pretreatment standards or requirements.

(2) *Specific discharge prohibitions.* No user shall introduce or cause to be introduced into the POTW the following pollutants, substances, or wastewater:

(a) There shall be no discharge of pollutants in amounts which would cause the

discharge from a facility to have a closed cup flashpoint of less than 60° centigrade or 140° Fahrenheit using the test methods specified in 40 CFR 261.21;

(b) Any wastewater having a pH less than 5.5 or greater than 10.5 standard units, or wastewater having any other corrosive property capable of causing damage or hazard to structures, equipment, and/or personnel of the POTW. (Any wastewater having a pH less than or equal to 2.0 or greater than or equal to 12.5 standard units is considered hazardous under 40 CFR 261.22);

(c) Solid or viscous substances in such quantities and/or qualities which may cause obstruction to the flow in a sewer or other interference with the operation of the wastewater treatment facilities such as, but not limited to: grease, solids or solids accumulation greater than one-half (½) inch in any dimension, animal guts or tissues, paunch manure, bones, hair, hides or fleshings, entrails, whole blood, asbestos, feathers, ashes, cinders, sand, spent lime, stone or marble dust, metal, glass, straw, shavings, grass clippings, rags, spent grains, spent hops, waste paper, wood, plastics, paint or chemical residues, tar, asphalt residues, residues from refining or processing of fuel or lubricating oil, mud or glass grinding or polishing wastes, fatty acids or esters of fatty acids, or food and vegetable wastes, sharps, regulated medical waste or used health care product (as defined in 49 CFR 173.134 Class 6, Division 6.2 cleaning wipes, articles of clothing, or bedding), or any material which can be disposed of as trash;

(d) Any pollutants, including oxygen demanding pollutants (BOD, etc.) released at a flow rate and/or pollutant concentration which contributes, either singly or by interaction with other pollutants, to interference to the POTW. In no case shall a slug load have a flow rate or contain concentrations or quantities of pollutants that exceed, for any time period longer than fifteen (15) minutes, more than five (5) times the average daily concentration, quantities, or flow produced during normal operations;

(e) Any wastewater having a temperature which will inhibit biological activity in the POTW plant contributing to interference, but in no case wastewater with a temperature at the introduction into the POTW treatment plant which exceeds 40° centigrade (104° Fahrenheit) unless the POTW treatment plant is designed to accommodate such temperature;

(f) Wastewater entering the regional collection system cannot exceed 65.5° centigrade (150° Fahrenheit) unless the quantity of heated discharge is of such volume that the total wastewater temperature at the nearest downstream manhole does not exceed 40° centigrade (104° Fahrenheit);

(g) There shall be no discharge of any petroleum oil, nonbiodegradable cutting oil, or products of mineral oil origin in amounts that may contribute, either singly or by interaction with other products, to interference or pass through;

(h) In accordance with 40 CFR 403.5(b)(7) there shall be no discharge of any pollutants which result in the presence of toxic gases, vapors, or fumes within the POTW in a quantity that may cause acute worker health and safety problems. Prohibited materials include, but are not limited to, gasoline, kerosene, naphtha, benzene, toluene, xylene, ethers, alcohols, ketones, aldehydes, peroxides, chlorates, perchlorates, bromates, carbides, hydrides and sulfides, asbestos, and any other substances which the control authority, the state or EPA has notified the user is a fire or explosion hazard to the system, or presents an imminent threat to the health and safety of persons operating the system;

(i) Any trucked or hauled pollutants, except at discharge points designated by the control authority, and in accordance with the Liquid Waste Transportation and

Disposal Regulations (article V, division 4 of this chapter), as amended or replaced, and section 34-476 of this division;

(j) Any noxious or malodorous liquids, gases, solids, or other wastewater which either singly or by interaction with other wastes are sufficient to create a public nuisance or hazard to life or are sufficient to physically prevent reasonably safe entry of humans and/or equipment into the sewers for inspection, maintenance and repair purposes;

(k) Any wastewater with any objectionable color not removed in the treatment process, such as, but not limited to, dye wastes, ink or printer waste, and vegetable tanning solutions;

(l) Any stormwaters, surface water, groundwater, or subsurface drainage, except as specifically authorized by the control authority;

(m) Sludges, screenings, or other residues from the pretreatment of industrial wastes;

(n) Any substance which will cause the control authority to violate its NPDES/TPDES and/or state disposal system permit or the receiving water effluent quality standards, or fail a toxicity test;

(o) Any agent, including but not limited to emulsifiers, surface active agents, detergents, etc. added to sand traps, grease traps, or the like, capable of passing the solid or semi-solid contents of the trap to the sewer system or any substance that may cause excessive foaming in the POTW;

(p) Fats, oils, or greases of animal, mineral or vegetable origin in concentrations greater than two hundred (200) mg/L;

(q) Any liquids, solids or gases, which by reason of their nature or quantity are, or may be sufficient, either alone or by interaction with other substances, to cause fire or explosion or be injurious in any other way to the POTW or to the operation of the POTW. At no time shall two successive readings on an explosion hazard meter, at the point of discharge into the system, or at any other point in the system, be more than five (5) percent, nor any single reading be over ten (10) percent of the lower explosive limit (LEL) of the meter. In accordance with 40 CFR 403.5(b)(1);

(r) Any wastewater containing toxic pollutants in sufficient quantity, either singly or by interaction with other pollutants, which may injure or interfere with any wastewater treatment process, constitute a hazard to humans or animals, create a toxic effect in the receiving waters at the effluent end of the POTW, or which exceeds the limitations set forth in a categorical pretreatment standard. A toxic pollutant shall include, but not be limited to spent antifreeze or any pollutant identified pursuant to Section 307(a) of the Act;

(s) Wastewaters or leachates generated from the remediation of hazardous or non-hazardous waste sites, except as specifically authorized by the control authority;

(t) Any substance which may cause the POTW's effluent or any other product of the POTW such as residues, sludges, or scums, to be unsuitable for normal landfill disposal, land application, reclamation or reuse, or which may interfere with the reclamation process where the POTW is pursuing a reuse and reclamation program. In no case shall a substance discharged to the POTW cause the POTW to be in noncompliance with sludge use or disposal criteria, guidelines, or regulations developed under Section 405 or 503 of the Clean Water Act, or with any criteria, guidelines, or regulations affecting sludge use or disposal developed pursuant to the Solid Waste Disposal Act, Clean Air Act, the Toxic Substances Control Act, the Resource Conservation and Recovery Act, or state criteria applicable to sludge management and/or disposal methods being used;

(u) Hazardous waste other than that allowed under the domestic sewage exemption, as provided for under 40 CFR 261.4(a)(1)(ii). Notwithstanding that exemption, there shall be no discharge of what would otherwise be considered hazardous waste unless a user can certify the following:

(i) The volume and toxicity of such waste has been minimized to the fullest extent possible by utilizing the best available technology and pretreatment practices.

(ii) The discharge of such waste is not a substitute for disposal and reporting thereof otherwise necessary under RCRA, CERCLA, SARA, TSCA, CAA, EPA, or TCEQ regulations.

(iii) Any wastewater containing antibiotics or any organism including viruses, considered pathogenic and/or detrimental to process organisms.

(iv) Wastewater containing any radioactive waste or isotopes except in compliance with applicable state or federal regulations. Greater than or in allowable concentrations by TDH regulations or other agencies.

Pesticides.

Bulk food processing wastes.

Discharge of slugs or flows which exceed the carrying capacity of the part of the collection system through which it is discharged.

Waste amalgam including, but not limited to, dental amalgam from chair-side traps, screens, vacuum pump filter, dental tools, cuspidors, or other collection devices, must not discharge to the POTW except as described in 40 CFR § 441.

The above pollutants, substances, or wastewater prohibited by this section shall not be processed or stored in such a manner that they could be discharged to the POTW. This division may be amended to regulate specific types and sources of such discharges in order to minimize or eliminate hazardous waste loadings into the POTW. When the control authority determines that a user is indirectly discharging to the POTW any of the above mentioned substances in such quantities or concentrations which may interfere with the operation or performance of the POTW, the control authority shall advise the user of the impact of the indirect discharge on the POTW and impose upon the user a schedule for termination of the discharge causing the interference.

(3) *National categorical pretreatment standards.* The National Categorical Pretreatment Standards found at 40 CFR Chapter I, Subchapter N, Parts 405—471 are hereby fully incorporated into this division.

(a) Where a categorical pretreatment standard is expressed only in terms of either the mass or the concentration of a pollutant in wastewater, the control authority may impose equivalent concentration or mass limits in accordance with 40 CFR 403.6(e). The more stringent national categorical pretreatment standards shall supersede the limitations imposed under section 34-472(5) of this division for that particular category.

(b) When wastewater subject to a categorical pretreatment standard is mixed with wastewater not regulated by the same standard, the control authority shall impose an alternate limit using the combined wastestream formula in 40 CFR 403.6(e).

(4) *Technically based local limits.*

(a) Significant industrial users regulated by permit for identified specific pollutants and non-permitted users not regulated under BMPs yet identified as potential contributors of certain pollutants shall not discharge or allow the discharge to

the regional system, wastewaters containing individually identified specific pollutants in concentrations, in solution or suspension, in excess of the limits below. Compliance with these limits shall be determined based on the analysis of a grab sample or a combination of grab samples, time composite samples, or flow composite samples.

(b) All samples shall be collected and analyzed in a manner consistent with the requirements of 40 CFR 136. No user as prescribed above shall discharge or allow the discharge of wastewater to the regional system having a pH less than 5.5 or greater than 10.5 standard units, and all concentrations and/or quality criteria shall apply where the effluent is discharged to the POTW. Wastewater entering the regional collection system shall not exceed 65.5 degrees Centigrade (150 degrees Fahrenheit). The following pollutant limits are established to protect against pass through and interference at the POTW. No person shall discharge wastewater containing in excess of the following:

Industrial user local limits:

(a) 0.7 Arsenic
(b) 0.7 Cadmium
(c) 5.0 Chromium
(d) 1.50 Copper
(e) 0.17 Total Cyanide
(f) 0.7 Lead
(g) 0.05 Mercury
(h) 5.5 Nickel
(i) 0.02 Selenium
(j) 0.50 Silver
(k) 2.50 Zinc
(l) 200 Fats Oil & Grease
(m) 5.5—10.5 pH
(n) 150 degrees Fahrenheit

Note that the above mentioned limits are reflected in units of mg/L, with the exception of pH and temperature. All limits with the exception of TSS represent the total concentration of the substance, both suspended and dissolved.

(c) Best Management Practices (BMPs)/ Pollution Prevention (P2). Users not regulated under local limits shall be regulated under the following guidelines relating to Best Management Practices and pollution prevention. Narrative BMPs may also be incorporated into individual permits.

The methodology involved in the application of Best Management Practices/ Pollution Prevention may include but not be limited to the following:

(i) Source reduction
Operating practices
Inventory control
Employee training
Spill control
Input Material Substitutions
Product Changes
Technology Changes
Process changes
Equipment changes

(ii) Recycling
Reuse
Closed loop recycling
Other recycling
Reclamation

There are existing non-permitted and/or unregistered industrial dischargers who typically have reasonable potential for violating a pretreatment standard or requirement. Therefore, the implementation of best management practices, as stipulated by the control authority, is required to control and reduce specific pollutants. The reduction of these specific pollutants at many facilities may have a significant impact on the total contribution based on the number of facilities involved. Upon determination by the control authority that it is necessary to regulate an individual user or group of

industrial users based on potential for pollutants of concern, the following minimum requirements will be established to accomplish this goal:

- Industrial users within the identified grouping must either be regulated by the BMP guidelines and/or pretreatment standards (local limits).
- Users may be required to submit letters of authorization indicating the facility's intent to comply with the BMP guidelines.
- Users may register with the control authority using an online format when provided.
- The control authority may require periodic reporting by these users demonstrating compliance with the BMP guidelines such as copies of equipment maintenance records or manifest records for waste disposal, or records demonstrating employee training.
- The control authority may conduct random inspections to determine compliance independent of the information supplied by an industrial user.

(d) *Best management practices for DIU.* Implementation of BMP for DIU are required by 40 CFR § 441. These include, but are not limited to the following controls for waste amalgam.

- Waste amalgam must be discharged to a separator with ninety-five (95) percent efficiency.
- Dental unit water lines, chair side traps, and vacuum lines must not be cleaned with oxidizing or acidic cleaners, including but not limited to, bleach, chlorine, iodine and peroxide that have a pH lower than 6.0 or greater than 8.0.

(5) *State requirements.* Specific pollutant requirements and limitations which have or may be enacted by the state on indirect discharges shall immediately supersede and replace the requirements and limitations imposed by this division when the state requirements are more stringent than either the federal or the control authority's standards or requirements.

(6) *Control authority's right of revision.* The control authority reserves the right to amend this division at any time to establish more stringent specific pollutant limitations or requirements on indirect discharges to the regional system if deemed necessary to protect the POTW processes or to correct or prevent an effluent quality problem in treated wastewater and/or resulting sludges. The control authority also reserves the right to amend this division to comply with the general objectives and purposes presented in section 34-471 of this division.

(7) *Prohibition of dilution.* No user shall ever increase the use of process water, unpolluted water, surface water or storm water or in any other way attempt to dilute either a direct or indirect discharge as a partial or complete substitute for adequate treatment to achieve compliance with the specific pollutant limitations contained in the national categorical pretreatment standards, or in any other specific pollutant limitations promulgated by the control authority and/or state and incorporated in this division. The control authority may impose mass limitations on users who are using dilution to meet applicable pretreatment standards or requirements, or in other cases when the imposition of mass limitations is appropriate.

(8) *Reserved.*

(9) *Bypass.*

(a) A user may allow a bypass to occur which does not cause pretreatment standards or requirements to be violated, but only if it also is for essential maintenance to assure efficient operation. These bypasses are not subject to the provision of paragraphs (b) and (c) of this section.

(b) (1) If a user knows in advance of the need for a bypass it shall submit prior notice to the control authority, at least ten (10) calendar days before the date of the bypass, if possible.

(2) A user shall submit oral notice to the control authority of an

unanticipated bypass that exceeds applicable pretreatment standards within twenty-four (24) hours from the time it becomes aware of the bypass. A written submission shall also be provided within five (5) calendar days of the time the user becomes aware of the bypass. The written submission shall contain a description of the bypass and its cause; the duration of the bypass, including exact dates and times, and, if the bypass has not been corrected, the anticipated time it is expected to continue; and steps taken or planned to reduce, eliminate, and prevent reoccurrence of the bypass. The control authority may waive the written report on a case by case basis if the oral report has been received within twenty-four (24) hours.

(c) (1) Bypass is prohibited, and the control authority may take an enforcement action against a user for a bypass, unless:

(a) Bypass was unavoidable to prevent loss of life, personal injury, or severe property damage;

(b) There were no feasible alternatives to the bypass, such as the use of auxiliary treatment facilities, retention of untreated wastes, or maintenance during normal periods of equipment downtime. This condition is not satisfied if adequate back-up equipment should have been installed in the exercise of reasonable engineering judgment to prevent a bypass which occurred during normal periods of equipment downtime or preventive maintenance; and

(c) The user submitted notices as required in this section.

(2) The control authority may approve an anticipated bypass, after considering its adverse effects, if the control authority determines that it will meet the conditions listed in this section.

(10) *Act of God.*

If a person can establish that an event that would otherwise be a violation of a statute within the commission's jurisdiction or a rule adopted or an order or a permit issued under such a statute was caused solely by an act of God, war, strike, riot, or other catastrophe, the event is not a violation of that statute, rule, order, or permit.

(Ord. No. 81771, § 2(App. I), 3-2-95; Ord. No. 85765, § 1, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04; Ord. No. 100030, § 1(Att. 1), 11-18-04; Ord. No. 101725, § 1, 11-17-05; Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14; Ord. No. 2019-02-14-0123, § 1(Att. I), 2-14-19; Ord. No. 2021-04-29-0283, § 1(Att. I), 4-29-21)

Sec. 34-473. Wastewater pretreatment.

(1) *Pretreatment facilities.* Users shall provide wastewater treatment as necessary to comply with this division and shall achieve compliance with all categorical pretreatment standards, local limits, and the prohibitions set out in section 34-472(1) of this division within the time limitations specified by EPA, the state, or the control authority, whichever is more stringent. Any facilities necessary for compliance shall be provided, operated, and maintained at the user's expense. Detailed plans describing such facilities and operating procedures shall be submitted to the department for review, and shall be acceptable to the division before such facilities are constructed. The review of such plans and operating procedures shall in no way relieve the user from the responsibility of modifying such facilities as necessary to produce a discharge acceptable to the control authority under the provisions of this division.

(2) *Additional pretreatment measures.*

(a) Whenever deemed necessary, the control authority may require users to restrict their discharge during peak flow periods, designate that certain wastewater be discharged only into specific sewers,

relocate and/or consolidate points of discharge, separate sewage wastestreams from industrial wastestreams, and such other conditions as may be necessary to protect the POTW and determine the user's compliance with the requirements of this division.

(b) The control authority may require any person discharging into the POTW to install and maintain, on their property and at their expense, a suitable storage and flow-control facility to ensure equalization of flow. A wastewater discharge permit may be issued solely for flow equalization.

(c) Types of traps, sumps, interceptors and/or filters such as, but not limited to, lint, grease, oil, grit and sand shall be provided by the user when, in the opinion of the control authority, they are necessary for the proper handling of wastewater containing grease and oil, or grit; except that such interceptors shall not be required for residential users. All interception units shall be of type and capacity approved by the control authority and shall be so located to be easily accessible for cleaning and inspection. Such interceptors shall be installed, inspected, cleaned, and repaired regularly, as needed, by the user at their expense. Refer to the liquid waste transportation regulations, section 34-518(1)(c) for specific guidelines pertaining to the maintenance of such interceptors and/or sumps.

(d) Users with the potential to discharge flammable substances may be required to install and maintain an approved combustible gas detection meter.

As specified in the user's permit or this division, the industrial user shall effectively monitor the operation and efficiency of all pretreatment facilities, and the quantity and quality of the treated discharge emanating from the user's facility. Samples and measurements taken shall be representative of the monitored activity. Monitoring for the parameters indicated in an industrial user's permit or in this division must be conducted according to test procedures approved under 40 CFR 136 and 40 CFR 403.

(e) Dental industrial users must install, operate, and maintain an amalgam separator that meets the following requirements:

(i) Compliant with either the American National Standards Institute (ANSI) American National Standard/ American Dental Association (ADA) Specification 108 for Amalgam Separators (2009) including Technical Addendum (2011), or the International Organization for Standardization (ISO) 11143 Standard (2008), or subsequent versions so long as that version requires amalgam separators to achieve at least a ninety-five (95) percent removal efficiency. Compliance must be assessed by an accredited testing laboratory under ANSI's accreditation program for product certification or a testing laboratory that is a signatory to the International Laboratory Accreditation Cooperation's Mutual Recognition Arrangement. The testing laboratory's scope of accreditation must include ANSI/ADA 108-2009 or ISO 11143.

(ii) The amalgam separator(s) must be sized to accommodate the maximum discharge rate of amalgam process wastewater.

(iii) A DIU subject to this ordinance that operates an amalgam separator that was installed at a dental facility prior to June 14, 2017, satisfies the requirements of paragraphs (e)(i) and (ii) of this section until the existing separator is replaced as described in paragraph (e)(v) of this section or until the effective date of this ordinance, whichever date is sooner.

(iv) The amalgam separator(s) must be inspected in accordance with the manufacturer's operating manual to ensure proper operation and maintenance of the separator(s) and to confirm that all amalgam process wastewater is flowing through the amalgam retaining portion of the amalgam separator(s).

(v) In the event that an amalgam separator is not functioning properly,

the amalgam separator must be repaired consistent with manufacturer instructions or replaced with a unit that meets the requirements of paragraphs (e)(i) and (ii) of this section as soon as possible, but no later than ten (10) business days after the malfunction is discovered by the dental discharger, or an agent or representative of the dental discharger.

(vi) The amalgam retaining units must be replaced in accordance with the manufacturer's schedule as specified in the manufacturer's operating manual or when the amalgam retaining unit has reached the maximum level, as specified by the manufacturer in the operating manual, at which the amalgam separator can perform to the specified efficiency, whichever comes first.

(vii) For multiple offices located in a single building or complex sharing plumbing and vacuum systems (such as a school or dental complex) the DIUs may be able to install a larger separator rather than each office individually. Individual compliance reports are still required.

(3) *Slug control plan.* Within one (1) year of the effective date of the IU permit issuance date the control authority shall evaluate whether each significant industrial user needs a plan to control slug discharges. The control authority may require any user to develop, submit for review, and implement such a plan. In the event of a slug discharge by the IU, the facility will be required to revise, update the slug control plan and perform necessary upgrades to prevent reoccurrence. A plan shall address, at a minimum, the following:

(a) Description of discharge practices, including nonroutine batch discharges;

(b) Description of stored chemicals;

(c) Procedures for immediately notifying the control authority of any accidental or slug discharge, as required by sections 34-473(4) and 34-473(5) of this division, including any discharge that would result in a violation under 40 CFR 403.5(b) with procedures for followup written notification within five (5) calendar days, and

(d) Procedures to prevent adverse impact from any accidental or slug discharge. Such procedures include, but are not limited to, inspection and maintenance of storage areas, handling and transfer of materials, loading and unloading operations, control of plant site runoff, worker training, building of containment structures or equipment, measures for containing toxic organic pollutants, including solvents, and/or measures and equipment for emergency response.

(4) *Reporting of slug/accidental discharges.* In the case of a slug discharge, including any accidental spill or noncustomary batch discharges, the user shall notify the department and the appropriate water recycling center immediately by telephone and provide the following information:

(a) Time of discharge.

(b) Location of the discharge.

(c) Type of waste.

(d) Concentration and volume discharged.

(e) Corrective actions taken.

(f) Water recycling center receiving the waste.

Within five (5) calendar days following an accidental or slug discharge, the user shall submit to the control authority, or to the designated representative, a written report describing the cause of the discharge and the measures to be taken by the user to prevent similar future occurrences. The results of the report will be documented and available to the control authority upon request. Such notification shall not relieve the user of any responsibility for, expense, loss, damage, or other liability which may be incurred as a result of damage to the POTW, the environment or any other damage to person or property; nor shall such notification relieve the user of any fines, penalties, or other liability

which may be imposed by this division or other applicable law. Failure to notify the director of a slug or accidental discharge may result in legal action or discontinuation of service; and may be deemed a separate violation of this division.

(5) *Toxic organic management plan.* All industrial users in the electroplating, metal finishing, copper forming, aluminum forming, coil coating and electrical and electronic components categories may submit a toxic organic management plan (TOMP) in lieu of annual monitoring for total toxic organics (TTO) as referenced in 40 CFR 413.03(b), 40 CFR 433.12(b) and 40 CFR 469.13(b) respectively. Specifically after initial monitoring in year one (1) the TTO monitoring in years two (2), three (3), four (4) and five (5) of the permit cycle may be waived by the control authority upon approval and proper implementation of the TOMP. After approval the TOMP will be incorporated by reference as a narrative BMP into the discharge permit. The plan must specify at a minimum the following:

(a) A complete inventory of all toxic organic chemicals, defined in this division as TTO, with corresponding MSDS sheets in use or identified through sampling and analysis of the wastewater from regulated process operations detected above 0.01 mg/l (Organic constituents of trade-name products should be obtained from the appropriate suppliers as necessary). All analyses must conform with 40 CFR Part 136 Methods.

(b) Descriptions of the methods of disposal other than dumping used for the inventoried compounds, such as reclamation, contract hauling, or incineration;

(c) The procedures for ensuring that the regulated toxic organic pollutants do not spill or routinely leak into process wastewaters, floor drains, non-contact cooling water, groundwater, surface waters; i.e., spill prevention, control and countermeasures (SPCC) plan; or any other location which allows discharge of the compounds; and

(d) Determinations or best estimates of the identities and approximate quantities of toxic organic pollutants used in as well as discharged from the regulated manufacturing processes. Compounds present in wastestreams that are discharged to sanitary sewers may be a result of regulated processes or disposal, spills, leaks, rinse water carryover, air pollution control, and other sources. The Control Authority reserves the right to verify compliance with the TTO requirement through its own sampling program.

(6) *Notice to employees.* All industrial users shall take necessary and reasonable measures to insure that all appropriate employees are advised of the notification procedure to be used in the event of an accidental or slug discharge.
(Ord. No. 81771, § 2(App. I), 3-2-95; Ord. No. 85765, § 1, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04; Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14; Ord. No. 2019-02-14-0123, § 1(Att. I), 2-14-19)

Sec. 34-474. Wastewater discharge permit application.

(1) *Wastewater discharges.*

(a) No significant industrial user shall discharge wastewater into the POTW without first obtaining a wastewater discharge permit from the control authority. Those potential SIUs already discharging may continue to do so provided a permit application is submitted to the control authority in a timely manner for review and final determination.

(b) The control authority may require other users to obtain wastewater discharge permits as necessary to carry out the purposes of this division.

(c) Any violation of the terms and conditions of a wastewater discharge permit shall be deemed a violation of this division and subjects the wastewater discharge permittee to the sanctions set out in sections 34-481, 34-482, and 34-483 of this division. Obtaining a wastewater discharge permit does not relieve a permittee of its obligation to comply with all federal and

state pretreatment standards or requirements or with any other requirements of federal, state and local law.

(2) *Wastewater discharge permit application.*

(a) Significant industrial users shall, pursuant to the control authority's approved pretreatment program, obtain an industrial wastewater discharge permit, and shall complete and file an application on a form prepared by the control authority. (Refer to section 34-480 concerning confidential or proprietary information). The information requested shall at a minimum include the following items:

(1) Name(s), address(es) including the legal description, location(s);

(2) Name(s), official title(s), and address(es) of the owners and/or operators;

(3) The identity of the authorized representative including his or her name, official title, address, and date of birth;

(4) SIC number(s) according to the current edition of the Standard Industrial Classification Manual, 1987, bureau of the budget, as amended;

(5) A list of all environmental control permits held by or for the facility;

(6) The nature and concentration of any pollutants in the discharge which are limited by a city, state or federal pretreatment standard (sampling and analysis shall be performed in accordance with procedures established by the EPA pursuant to Section 304(g) of the Act and contained in 40 CFR 136, as amended);

(7) Time and duration of contribution;

(8) Average daily and peak wastewater flow rates, including daily, monthly and seasonal variations, if any;

(9) Site plans, floor plans, mechanical and plumbing plans, and details showing all sewers, sewer connections, and appurtenances by size, location and elevation;

(10) Number of employees, hours of operation of plant and, if required in accordance with other provisions herein, the proposed or actual hours of operation of pretreatment system;

(11) Description of activities, facilities and plant processes on the premises, including all materials which are, or could be, discharged;

(12) Each product by type, amount, process(es), and rate of production, if applicable;

(13) Type and amount of raw materials processed (average and maximum per day), if applicable;

(14) Current slug/spill plan as identified in 40 CFR 403.8(f)(2)(v);

(15) Description of on-site storage and off/on-site disposal of waste not disposed of to the sanitary sewer.

(16) A list and description of the waste transporters and disposal facilities (with their EPA/TCEQ/the control authority identification numbers).

(17) A list and description of the pollution prevention activities in the past 5 to 10 years.

(18) Any other relevant information as may be deemed by the director to be necessary to evaluate the permit application, or as required under section 34-476(5) of this division.

(19) NAICS number(s) according to the current edition of the North American Industrial Classification System Manual, 1997, Office of Management and Budget (OMB), as amended.

(b) It shall be the permittee's continued duty to provide, when requested by the control authority, information necessary to ensure current information and data required as part of the permit application. Such

requests by the control authority may be presented to the permittee in writing, or by a representative of the control authority at the time of an inspection. Failure to provide such information will be considered a violation of this division.

(c) Incomplete or inaccurate permit applications will not be processed and will be returned to the user for revision.

(3) *Wastewater discharge registration*

(a) (Non-significant industrial users)

The control authority may require other users to obtain a wastewater discharge registration application as necessary to carry out the purposes of this division.

When the control authority requires a user to register its wastewater discharge that user shall obtain a wastewater discharge registration application, and shall complete and file an application on a form prepared by the control authority. (Refer to section 34-480 concerning confidential or proprietary information). The information requested may include the following items:

(1) Name(s), address(es) including the legal description, location(s);

(2) Name(s), official title(s), and address(es) of the owners and/or operators;

(3) The identity of the authorized representative including his or her name, official title, address, and date of birth;

(4) NAICS number(s) according to the current edition of the North American industrial classification system, 1997 office of management & budget, as amended;

(5) A list of all environmental control permits held by or for the facility;

(6) The nature and concentration of any pollutants in the discharge which are limited by a city, state or federal pretreatment standard (sampling and analysis shall be performed in accordance with procedures established by the EPA pursuant to Section 304(g) of the Act and contained in 40 CFR 136, as amended);

(7) Site plans, floor plans, mechanical and plumbing plans, and details showing all sewers, sewer connections, and appurtenances by size, location and elevation;

(8) Number of employees, hours of operation of facility

(9) Description of activities, facilities and plant processes on the premises, including all materials (material safety data sheets) which are, or could be, discharged;

(10) Pretreatment device details;

(11) Daily discharge / flow information

(12) Any other relevant information as may be deemed by the control authority to be necessary to evaluate the registration application, or as required under sections 34-474(2b) and 34-475 of this division.

(b) *Dental industrial user registration.* As required by 40 CFR § 441 the DIU is required to submit a one-time compliance report to the control authority. The deadline for existing facilities is to submit the report no later than October 12, 2020, or ninety (90) days after a transfer of ownership. For new sources, the report must be submitted no later than ninety (90) days following the introduction of wastewater into the POTW. The report may be submitted in writing or by an online registration. The report shall include the following information:

(1) Signed and certified by a responsible corporate officer, a general partner or proprietor, or a duly authorized representative in accordance with the requirements of 40 CFR § 403.12(l).

(2) Facility name, physical address, mailing address, contact information, name of the operator(s) and owner(s);

(3) A description of the operation of the dental facility including: The total number of chairs, the total number of chairs at which dental amalgam may be present in the resulting wastewater, and a description of any existing amalgam separator(s) or equivalent device(s) currently operated to include, at a minimum, the make, the model and year of installation.

(4) Certification that the amalgam separator or equivalent device is designed and will be operated and maintained to meet the requirements specified in 40 CFR § 441.30 or 40 CFR § 441.40.

(5) Certification that the dental discharge is implementing BMPs specified in 40 CFR § 441.30(b) or 40 CFR § 441.40(b) and will continue to do so.

(6) The name of the third-party service provider that maintains the amalgam separator or equivalent devices operated at the dental office, if applicable. Otherwise a brief description of the practices employed by the facility to ensure proper operation and maintenance in accordance with 40 CFR § 441.30 or 40 CFR § 441.40.

The control authority will evaluate the data furnished by the user and may require additional information. A wastewater discharge registration shall include such conditions as are deemed reasonably necessary by the control authority to prevent pass through or interference, protect the quality of the water body receiving the treatment plant's effluent, protect worker health and safety, facilitate sludge management and disposal, and protect against damage to the POTW. The control authority may require periodic self-monitoring analysis of the user's wastestream for compliance and / or surcharge assessment. The Control Authority may require periodic cleaning and maintenance of any pretreatment device in accordance with section 34-518 of this article.

(4) *Certification: data accuracy, truthfulness and completeness.* All wastewater discharge permit applications, required documents, and other specified documents submitted to the control authority must contain the following certification statement, and must be signed by the authorized representative of the industrial user:

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations."

(5) *Wastewater discharge permit decisions.* The control authority will evaluate the data furnished by the user and may require additional information. Within sixty (60) calendar days of receipt of a complete wastewater discharge permit application, the control authority will determine whether or not to issue a wastewater discharge permit. The control authority may deny any application for a wastewater discharge permit.

(Ord. No. 81771, § 2(App. I), 3-2-95; Ord. No. 85765, § 1, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04; Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14; Ord. No. 2019-02-14-0123, § 1(Att. I), 2-14-19)

Sec. 34-475. Wastewater discharge permit issuance process.

Within sixty (60) calendar days from the date the permit application is approved (section 34-474(4)), the control authority shall issue the wastewater discharge permit to the user.

(1) *Permit duration.* Permits issued to significant industrial users shall be issued for a period of five (5) years or for a period of less than (5) years if established by the control authority. The terms and conditions of the permit are subject to modification by the department during the term of the permit as limitations or requirements as identified in this division are modified, or other just cause exists that warrants modification.

(2) *Permit contents.* A wastewater discharge permit shall include such conditions as are deemed reasonably necessary by the control authority to prevent pass through or interference, protect the quality of the water body receiving the treatment plant's effluent, protect worker health and safety, facilitate sludge management and disposal, and protect against damage to the POTW. Permits shall, at a minimum, address the following:

(a) A statement that indicates wastewater discharge permit duration, which in no event shall exceed five (5) years;

(b) A statement that the wastewater discharge permit is non-transferrable without prior notification to and authorization from the department in accordance with section 34-475(4) of this division;

(c) The unit charge or schedule of user charges and fees for the wastewater to be discharged to a regional system sewer, and/or for the monitoring, sampling, testing, and analysis thereof;

(d) Limits on the average and maximum wastewater constituents and characteristics;

(e) Limits on the average and maximum rate and time of discharge or requirements for flow regulation and equalization;

(f) Requirements for installation and maintenance of inspection and sampling facilities, including technical data relative to location, slope, and capacity of piping used in the sampling facility or discharge point;

(g) Specifications for monitoring programs which may include the number of sampling locations, frequency of sampling, number, types and standards for tests and reporting schedule;

(h) Compliance schedules for the installation of technology needed to meet applicable pretreatment standards and requirements, including specific dates and increments of progress. Compliance schedules shall be filed according to sections 34-478(1)(c)(7) and 34-478(2) of this division;

(i) Requirements for submission of technical reports or discharge reports;

(j) Requirements for maintaining and retaining plant records relating to wastewater discharge as specified by the Control Authority and affording the control authority access thereto as specified in 40 CFR 403.12(o);

(k) Requirements for reporting the introduction of any new wastewater constituents or any substantial change in the volume or character of the wastewater constituents being introduced into the regional system;

(l) Requirements for reporting accidental and/or slug discharges as per the provisions of this division;

(m) Development and implementation of waste minimization plans to reduce the amount of pollutants discharged to the POTW;

(n) A statement that compliance with the wastewater discharge permit does not relieve the permittee of responsibility for compliance with all applicable federal and state pretreatment standards, including those which become effective during the term of the wastewater discharge permit;

(o) A statement of applicable civil and criminal penalties for violation of the permit and/or this division;

(p) Other conditions as deemed appropriate by the control authority to ensure compli-

ance with this division, including but not limited to, self-monitoring, sampling, reporting, notification and recordkeeping requirements, including an identification of the pollutants to be monitored, sampling location, sampling frequency, and sample type;

(q) Effluent limits, including Best Management Practices, based on applicable Pretreatment Standards.

(3) *Wastewater discharge permit modification.* The control authority may modify a wastewater discharge permit for good cause, including, but not limited to, the following reasons:

(a) To incorporate any new or revised federal, state, or local pretreatment standards or requirements;

(b) To address significant alterations or additions to the user's operation, processes, or wastewater volume or character since the time of wastewater discharge permit issuance;

(c) A change in the POTW that requires either a temporary or permanent reduction or elimination of the authorized discharge;

(d) Information indicating that the permitted discharge poses a threat to the POTW, the control authority personnel, the receiving waters, its sludge or recycled water quality, and/or upset to the wastewater treatment plant;

(e) Violation of any terms or conditions of the wastewater discharge permit;

(f) Misrepresentations or failure to fully disclose all relevant facts in the wastewater discharge permit application or in any required reporting;

(g) Revision of a categorical pretreatment standard pursuant to 40 CFR 403.13;

(h) To correct typographical or other errors in the wastewater discharge permit; or

(i) To reflect a transfer of the facility ownership or operation to a new owner or operator, or to reflect a change in the authorized representative including date of birth;

(j) The director reserves the right and shall have the authority to deny any increased contributions of pollutants, or changes in the nature of pollutants, to the POTW by industrial users where such contributions do not meet applicable pretreatment standards and requirements or where such contributions would cause the POTW to violate its NPDES permit.

(k) To change from a discharge to zero discharge permittee, or vice versa, the control authority may require all unsettled violations be resolved through the control authority legal department.

(4) *Wastewater discharge permit transfer.* Wastewater discharge permits may be transferred to a new owner or operator only if the permittee gives at least thirty (30) days advance notice to the control authority and the control authority approves the wastewater discharge permit transfer. The notice to the control authority must include a written certification by the new owner or operator which:

(a) States that the new owner and/or operator has no immediate intent to change the facility's operations and processes;

(b) Identifies the specific date on which the transfer is to occur;

(c) Acknowledges full responsibility for complying with the existing wastewater discharge permit; and

(d) States whether liabilities for past or present permit violations will become the responsibility of the new owner/operator.

Failure to provide advance notice of a transfer renders the wastewater discharge permit void as of the date of facility transfer, and shall constitute a violation of this division.

(5) *Wastewater discharge permit revocation.* The control authority may revoke a wastewater discharge permit for good cause, including, but not limited to, the following reasons:

(a) Failure to notify the control authority of significant changes to the wastewater prior to the changed discharge;

(b) Failure to provide prior notification to the control authority of changed conditions pursuant to section 34-478(5) of this division;

(c) Misrepresentation or failure to fully disclose all relevant facts in the wastewater discharge permit application;

(d) Falsifying self-monitoring reports;

(e) Tampering with monitoring or surveillance equipment;

(f) Refusing to allow the control authority timely access to the facility premises and records;

(g) Failure to meet effluent limitations;

(h) Failure to pay fines;

(i) Failure to pay sewer charges;

(j) Failure to meet compliance schedules;

(k) Failure to complete a wastewater survey or the wastewater discharge permit application;

(l) Failure to provide advance notice of the transfer of business ownership of a permitted facility;

(m) Violation of any pretreatment standard or requirement, or any terms of the wastewater discharge permit or this division; or

(n) Failure to provide, operate and maintain, at all times, wastewater pretreatment equipment as is necessary to comply with this division.

Wastewater discharge permits shall be voidable upon cessation of operations. All wastewater discharge permits issued to a particular user are void upon the issuance of a new wastewater discharge permit to that user, however, liability for violations of previous permits will not be extinguished by the issuance of a new permit.

(6) *Wastewater discharge permit renewal.* A user with an expiring wastewater discharge permit shall apply for wastewater discharge permit renewal by submitting a complete permit application, in accordance with section 34-474(2) of this division, a minimum of ninety (90) days prior to the expiration of the user's existing wastewater discharge permit. Failure to reapply for a permit may result in an enforcement action.
(Ord. No. 81771, § 2(App. I), 3-2-95; Ord. No. 85765, § 1, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04; Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14; Ord. No. 2019-02-14-0123, § 1(Att. I), 2-14-19)

Sec. 34-476. Liquid waste transportation regulations.

Liquid waste transporter permits will be issued in accordance with the provisions of Article V, Division 4 of this chapter, the liquid waste transportation and disposal regulations, as amended.
(Ord. No. 81771, § 2(App. I), 3-2-95; Ord. No. 85765, § 1, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04)

Sec. 34-477. Compliance monitoring.

(1) *Monitoring facilities.*

(a) Industrial users shall install and maintain monitoring facilities that allow inspection, surveillance and sampling at the discharge point and/or internal drainage systems located on private property. Permanent flow measurement, metering and/or totalizing devices for surcharge calculations and/or determination of the mass of pollutants discharged shall be required when deemed appropriate by the control authority. These facilities shall be provided by the industrial user and operated at the user's expense. All devices installed by an industrial user used to measure water and/or wastewater flow and quality shall be calibrated at a minimum of one (1) time per calendar year to ensure accuracy. The monitoring facility should normally be situated on the user's premises, but the control authority may, when such a location would be impractical or cause undue hardship on the user, allow the facility to be constructed on the sidewalk area and located so that it will not create a public safety hazard nor be obstructed by

structures, landscaping, or parked vehicles. To establish water consumption of users on water wells, metering devices shall be installed, operated and maintained by the user.

(b) Wastewater monitoring and flow measurement facilities shall be properly operated, kept clean and maintained in good working order at all times. The failure of a user to keep its monitoring facility in good working order shall not be grounds for the user to claim that sample results are unrepresentative of its discharge.

(c) For multiple use buildings (i.e. shopping centers, medical service buildings, office buildings, etc.) having only one master water meter, or multiple meters paid by one person or company, and/or where the building is served by a common sewer lateral, one permit may be issued to the water bill addressee. In this case, the addressee shall be responsible for:

(1) The installation, operation, and maintenance of any required pretreatment device or monitoring station;

(2) Compliance with all provisions of this division and/or applicable pretreatment standards or requirements; and

(3) The payment of all sampling and analysis fees, surcharges, and any fines or penalties imposed. If in the judgment of the director, the quality of wastewaters from the separate users is such that separate pretreatment or monitoring facilities is appropriate, the director may require separate facilities. In this case, all of the aforementioned requirements shall apply to the individual users.

(d) There shall be adequate lighting of and ample room in or near such sampling manhole or facility to safely allow inspection personnel to position sampling, monitoring or surveillance equipment and prepare field samples for analysis. Whether construction on public or private property, the sampling and monitoring facilities shall be provided in accordance with the regional system requirements and all applicable local construction standards and specifications, including applicable requirements contained in the plumbing code, chapter 10 of the City Code, as amended or as may be amended.

(2) *Inspection and sampling.*

(a) The control authority and EPA and/or TCEQ representatives shall have the right to inspect the facilities of any industrial user to ascertain whether the purposes of this division are being met and all applicable requirements are being fulfilled. Industrial users and their employees shall allow authorized regulatory representatives displaying proper identification ready access to the premises at all reasonable times for the purpose of: inspecting wastewater generating operations and processes; wastewater flow monitoring and sampling; examination and reproduction of business records pertinent to water and wastewater volume and quality; including hazardous and non-hazardous waste manifests; inspection of potential slug-related discharges; and where applicable, making photographic documentation and obtaining other information necessary to ascertain and ensure that the correct data and information submitted in the facility's permit application, and assure and assess compliance by users with pretreatment standards and requirements. Inspection frequency is at a minimum conducted once per year, and the frequency will depend on the nature and type of industrial processes as is specified in the control authority's pretreatment program. Failure to allow access, to permit photographic documentation, or to allow copying of pertinent records will be considered a direct violation of this division.

(b) The control authority shall have the right to install, or require the installation of monitoring, testing, and surveillance

equipment (including adequate lighting) and to take samples (including independent samples) of any indirect discharge at any reasonable time in accordance with the applicable provisions of this division. Where an industrial user has safety and/or security measures in force which require user issuance of special safety equipment and/or proper identification and clearance before allowing entry into their premises, the user shall make the necessary arrangements with their security guards or similar personnel, so that upon presentation of suitable identification, personnel from the control authority, the state, or EPA will be permitted to enter any or all areas of the user's facility, without delay, for the purpose of performing responsibilities reasonably associated with those stated above and reasonably required to accomplish the purposes and objectives of this division.

(c) Results of concentration and constituent analysis of wastewater from samples collected from any industrial user may be determined by the control authority or its authorized agent, the approval authority, a professional engineer contracted by the discharger, or by any other qualified party approved by the control authority.

(d) If the industrial user elects to contract with a professional engineer or other qualified party for sampling and analysis of wastewater, all results of such sampling and analysis shall be submitted to the director, and all reports submitted shall contain a statement certifying that the samples collected and values reported are developed in accordance with the collection and analytical procedures contained in section 34-474 of this division, 40 CFR 403.12, and the appropriate federal categorical pretreatment standards, as applicable. Each significant industrial user will be sampled at least twice each year, or more frequently if required by the local pretreatment program.

(e) Any temporary or permanent obstruction to safe and easy access to the facility to be inspected and/or sampled shall be promptly removed by the user at the written or verbal request of the control authority and shall not be replaced. The costs of clearing such access shall be borne by the user.

(3) *Search warrants.* Failure to allow access to a building, structure, or property, or any part thereof, when the control authority personnel is able to demonstrate probable cause to believe that there may be a violation of this division, or that there is a need to inspect and/or sample as part of a routine inspection and sampling program of the control authority designed to verify compliance with this division or any permit or order issued hereunder, or to protect the overall public health, safety and welfare of the community, then the control authority may seek issuance of a search warrant from the municipal magistrate of the city or the County Judge of Bexar, or any judge of appropriate jurisdiction.

(Ord. No. 81771, § 2(App. I), 3-2-95; Ord. No. 85765, § 1, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04; Ord. No. 100030, § 1(Att. 1), 11-18-04; Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14; Ord. No. 2019-02-14-0123, § 1(Att. I), 2-14-19)

Sec. 34-478. Reporting requirements.

(a) *Baseline monitoring reports.*

(1) Within either six (6) months after the effective date of a categorical pretreatment standard, or the final administrative decision on a category determination under 40 CFR 403.6(a)(4), whichever is later, existing categorical users currently discharging to or scheduled to discharge to the POTW shall submit to the control authority a report which contains the information listed in paragraph (3) below.

(2) At least ninety (90) days prior to the commencement of their discharge, new sources, and sources that become categorical users subsequent to the promulgation of an applicable categorical standard, shall submit to the control authority a report which contains the information

listed in paragraph (3) below. A new source shall report the method of pretreatment it intends to use to meet applicable categorical standards. A new source also shall give estimates of its anticipated flow and quantity of pollutants to be discharged.

(3) Users described above shall submit the information set forth below:

a. *Identifying information.* The name and address of the facility, including the name of the operator and owner.

b. *Environmental permits.* A list of any environmental control permits held by or for the facility.

c. *Description of operations.* A brief description of the nature, average rate of production, and standard industrial classifications of the operation(s) carried out by such user. This description should include a schematic process diagram which indicates points of discharge to the POTW from the regulated processes.

d. *Flow measurement.* Information showing the measured average daily and maximum daily flow, in gallons per day, to the POTW from regulated process streams and other streams, as necessary, to allow use of the combined wastestream formula set out in 40 CFR 403.6(e).

e. *Measurement of pollutants.* Information regarding pretreatment standards sampling include the following:

1. The categorical pretreatment standards applicable to each regulated process.

2. The results of sampling and analysis identifying the nature and concentration or mass, where required by the standard or by the control authority of regulated pollutants in the discharge from each regulated process. Instantaneous, daily maximum, and average concentrations, (or mass where required), shall be reported. The sample shall be representative of daily operations and shall be analyzed in accordance with procedures set out in section 34-478(j) and (k) of this division. In cases where the standard requires compliance with a best management practice or pollution prevention alternative, the user shall submit documentation as required by the CA or the applicable standards to determine compliance;

3. Sampling must be performed in accordance with procedures set out in section 34-478(j) of this division.

4. The submission of a baseline report which utilizes only historical data so long as the data provides information sufficient to determine the need for industrial pretreatment measures.

5. The baseline monitoring report shall indicate the time, date, and place of sampling and the methods of analysis, and shall certify that such sampling and analysis is representative or normal work cycles and expected pollutant discharge to the CA.

f. *Certification.* A statement, reviewed by the user's authorized representative and certified by a qualified professional, indicating whether pretreatment standards are being met on a consistent basis, and if not, whether additional operation and maintenance and/or additional pretreatment is required to meet the pretreatment standards and requirements.

g. *Compliance schedule.* If additional pretreatment and/or additional operation and maintenance is necessary to meet the pretreatment standards, then the shortest schedule by which the user will provide such additional pretreatment and/or operation and maintenance will be utilized. The completion date in this schedule shall not be later than the compliance date established for the applicable pretreatment standard. A compliance schedule pursuant to this section must meet the requirements set out in Section 34-478(b) of this division.

h. *Signature and certification.* All baseline monitoring reports must be signed and certified in accordance with section 34-474(3) of this division.

(b) *Initial database monitoring.* The permittee shall initially document six (6) consecutive months of discharge monitoring to determine compliance with effluent standards established in the permit. If any discharge is found to be in violation of the permit limits, the permittee shall develop corrective measures to achieve and maintain consistent compliance. Techniques specified in 40 CFR 403 and 40 CFR 136 shall be used to collect and analyze any wastewater samples in connection with this database monitoring requirement.

(c) *Compliance schedules and progress reports.* The following conditions shall apply to the compliance schedule required by section 34-478(a)(3)g of this division.

(1) The compliance schedule shall allow the user to voluntarily establish goals and time frames for meeting those goals for installing, modifying, and/or maintaining pretreatment equipment and/or practices to identify and resolve conditions in their operation which have resulted in noncompliance. The user shall notify the control authority within five (5) working days from the initial compliance schedule meeting, stating whether or not they will enter into a compliance schedule. Within fifteen (15) working days of the initial compliance schedule meeting, the user shall submit a proposed compliance schedule to the control authority for review. No enforcement action will be taken against the user for instances of noncompliance which occur during an approved compliance schedule. Such instances of noncompliance may be the subject of enforcement at a later date should the user commit violations after the expiration of the applicable compliance schedule. Users must remain compliant for a minimum of one calendar year from the expiration date of the schedule. The CA may issue an extension to the user, if the user can document progress toward meeting the compliance schedule and the request for additional time is valid and reasonable;

(2) The schedule shall contain progress increments in the form of dates for the commencement and completion of major events leading to the construction and operation of additional pretreatment required for the user to meet the applicable pretreatment standards (such events include, but are not limited to, hiring an engineer, completing preliminary and final plans, executing contracts for major components, commencing and completing construction, and beginning and conducting routine operation);

(3) No increment referred to above shall exceed nine (9) months; however, the duration of the compliance schedule and any individual increment shall be determined at the discretion of the control authority;

(4) The user shall submit a progress report to the control authority no later than fourteen (14) days following each date in the schedule and the final date of compliance including, at a minimum, whether or not it complied with the increment of progress, the reason for any delay, and, if

appropriate, the steps being taken by the user to return to the established schedule; and

(5) In no event shall more than nine (9) months elapse between such progress reports to the control authority.

(d) *Reports on compliance with categorical pretreatment standard deadline.* Within ninety (90) days following the date for final compliance with applicable categorical pretreatment standards, or in the case of a new source following commencement of the introduction of wastewater into the POTW, any user subject to such pretreatment standards and requirements shall submit to the control authority a report containing the information described in this division. For users subject to equivalent mass or concentration limits established in accordance with the procedures in 40 CFR 403.6(c), this report shall contain a reasonable measure of the user's long-term production rate. For all other users subject to categorical pretreatment standards expressed in terms of allowable pollutant discharge per unit of production (or other measure of operation), this report shall include the user's actual production during the appropriate sampling period. All compliance reports must be signed and certified in accordance with this division.

(e) *Periodic compliance reports.*

(1) All categorical industrial users shall, at a frequency determined by the control authority, but in no case less than twice per year (in June and December), submit a report indicating the nature and concentration of pollutants in the discharge which are limited by pretreatment standards and the measured or estimated average and maximum daily flows for the reporting period. All periodic compliance reports must be signed and certified in accordance with section 34-474(3) of this division. In cases where the Pretreatment Standard requires compliance with a BMP or P2 alternative, the User must submit documentation required by the Control Authority or the Pretreatment Standard necessary to determine the compliance status of the User.

(2) All wastewater samples must be representative of the user's discharge.

(3) If a user subject to the reporting requirement in this section monitors any pollutant more frequently than required by the control authority, using the procedures prescribed in section 34-478(j) of this division, the results of this monitoring shall be included in the report.

(4) All significant industrial users shall submit a report indicating the nature and concentration of pollutants in the discharge which are limited by pretreatment standards that are taken from any permitted sample point and analyzed as outlined in 34-478(j). The SIU must submit documentation required by the CA within forty-five (45) days of the analysis.

(f) *Notification of changed conditions.* Each user must notify the control authority promptly, in writing, of any planned substantial or significant changes to the user's operations or system which might alter the nature, quality, or volume of its wastewater, including a change in the listed or characteristic hazardous wastes for which the user has submitted initial notification under 40 CFR 403.12 (p).

(1) The control authority may require the user to submit such information as may be deemed necessary to evaluate the changed condition, including the submission of a wastewater discharge permit application under section 34-474(2) of this division.

(2) The control authority may issue a wastewater discharge permit under section 34-475 of this division or modify an existing wastewater discharge permit under section 34-475(3) of this division in response to changed conditions or anticipated changed conditions.

(3) For purposes of this requirement, significant changes include, but are not

limited to, flow increases of twenty (20) percent or greater, and the discharge of any previously unreported pollutants.

(g) *Notification of potential problems.* In the case of any discharge, including, but not limited to, accidental discharges, discharges of a nonroutine, episodic nature, a noncustomary batch discharge, or a slug load, the user shall immediately telephone and notify the control authority and the appropriate wastewater treatment plant of the incident. This notification shall include the location of the discharge, type of waste, concentration and volume, if known, and corrective actions taken by the user. Within five (5) days following such discharge, the user shall submit a detailed written report describing the items as referenced in sections 34-473(4) and 34-473(5) of this division.

(h) *Notice of violation/repeat sampling and reporting.* If sampling performed by a user indicates a violation, the user must notify the Control Authority within twenty-four (24) hours of becoming aware of the violation. The user shall also repeat the sampling and analysis, and submit the results of the repeat analysis to the Control Authority within thirty (30) days after becoming aware of the violation. The user is not required to resample if the Control Authority monitors at the user's facility at least once a month, or if the Control Authority samples between the user's initial sampling and when the user receives the results of this sampling. All sampling and notification performed by the user under this section shall comply with the requirements of 40 CFR 403.12(g).

(i) *Notification of the discharge of hazardous waste.* Unless otherwise permitted by this division, the discharge of hazardous waste into the POTW is strictly prohibited and constitutes a violation of this division. Should a user discharge hazardous waste, said user must comply with the following provisions:

(1) Any user who commences the discharge of hazardous waste shall notify the control authority, the POTW, the EPA regional waste management division director, and the TCEQ, in writing, of any discharge into the POTW of a substance which, if otherwise disposed of, would be a hazardous waste under 40 CFR Part 261. Such notification must include the name of the hazardous waste as set forth in 40 CFR Part 261, the EPA hazardous waste number, and the type of discharge (continuous, batch, or other). All SIU's who commence discharging after the effective date of this rule shall provide notification no later than one hundred and eighty (180) days after the discharge of the listed or characteristic hazardous waste. Any notification under this paragraph need be submitted only once for each hazardous waste discharged. The notification requirement in this section does not apply to pollutants already reported by users subject to categorical pretreatment standards under the self-monitoring requirements of sections 34-478(a), 34-478(c) and 34-478(d) of this division.

(2) In the case of any new regulations under Section 3001 of RCRA identifying additional characteristics of hazardous waste or listing any additional substance as a hazardous waste, the user must notify the control authority, the EPA regional waste management division director, and the TCEQ of the discharge of such substance within ninety (90) days of the effective date of such regulations.

(3) In the case of any notification made under this section, the user shall certify that it has a program in place to reduce the volume and toxicity of hazardous wastes generated to the degree it has determined to be economically practical.

(4) This provision does not create a right to discharge any substance not otherwise permitted to be discharged by this division, a permit issued thereunder, or any applicable federal or state law.

(j) *Analytical requirements.* All pollutant analyses, including sampling techniques, to be submitted as part of a wastewater discharge permit application or report shall be performed in accordance with the techniques prescribed in 40 CFR Part 136, unless otherwise specified in

an applicable categorical pretreatment standard. If 40 CFR Part 136 does not contain sampling or analytical techniques for the pollutant in question, sampling and analyses must be performed in accordance with procedures approved by EPA. All analytical results submitted to the control authority shall include supporting quality assurance/quality control documentation.

(k) *Sample collection.* All sample collection should be performed pursuant to the applicable requirements of 40 CFR 403.12 and by appropriate EPA guidance, including preservation and compositing techniques.

(1) Except as indicated in subparagraph (b), the user must collect wastewater samples using flow proportional composite collection techniques. In the event flow proportional sampling is not infeasible, the control authority may authorize the use of time proportional sampling or a minimum of four (4) grab samples where the user demonstrates that this will provide a representative sample of the effluent being discharged. In addition, grab samples may be required to show compliance with instantaneous discharge limits. IU facilities that discharge batch discharges or have discharge that are less than twenty-four (24) hours in duration must have sampling collection techniques documented in the IU discharge permit. Self-monitoring samples collected must still provide a representative sample of normal daily regulated processes and activities.

(2) Samples for compliance monitoring for oil and grease, temperature, pH, cyanide, phenols, sulfides, total residual chlorine and volatile organic compounds must be obtained using grab collection techniques and follow preservation and compositing techniques as outlined in the 40 CFR § 403.12 and 40 CFR § 136.

(3) Any change to the permitted sampling locations requires prior notification and approval by the control authority.

(4) For sampling required in support of BMR and ninety-day reports required in 40 CFR 403.12 a minimum of four (4) grab samples are required for pH, cyanide, total phenols, O&G, sulfide and VOCs for new IUs, existing IUs that make changes or install new treatment, for existing IUs for which historical sampling data does not exist or in cases where the existing data does not represent the current discharge and could not be used to justify a lower number of minimum grab samples.

(l) *Timing.* Written reports will be deemed to have been submitted on the date postmarked. For reports which are not transmitted through or by a mail facility serviced by the United States Postal Service, the date of receipt of the report shall govern.

(m) *Record keeping.* Users subject to the reporting requirements of this division shall retain, and make available for inspection and copying, all records of information obtained pursuant to any monitoring activities required by this division and any additional records of information obtained pursuant to monitoring activities undertaken by the user independent of such requirements, and documentation associated with Best Management Practices established under subsection 34-472(4)(c). Records shall include the date, exact place, method, and time of sampling, and the name of the person(s) taking the samples; the dates analyses were performed; who performed the analyses; the analytical techniques or methods used; and the results of such analyses. Documentation shall include all necessary data and reports necessary to show compliance with the narrative BMP as described in the IU Permit. These records shall remain available for a period of at least three (3) years by both the IU and CA. This period shall be automatically extended for the duration of any litigation concerning the user or the control authority, or where the user has been specifically notified of a longer retention period by the control authority.

For DIUs the maintenance records shall include the following documentation:

- The date;
- Person conducting the inspection;

- Results of the inspection of each amalgam separator;
- A summary of any action or repairs needed;
- The type of amalgam retaining container or equivalent;
- The dates that amalgam is collected or shipped for proper disposal in accordance with 40 CFR § 261.5(g)(3);
- The name of the treatment, storage and disposal facility receiving the containers;
- Repair or replacement of the device including the date, person making the repair or replacement and a description of the repair or replacement to include the make and model.

A copy of the manufactures operating manual shall be available onsite for the current device. These records shall remain available for a period of at least three (3) years by both the IU and the control authority. This period shall be automatically extended for the duration of any litigation concerning the user or the control authority, or where the user has been specifically notified of a longer retention period by the control authority.

(n) *DIU one-time compliance reporting*. Existing DIU established prior to July 14, 2017 must install compliant amalgam separators by July 14, 2020 and complete a one-time compliance report as described in 40 CFR § 411 by October 12, 2020 or ninety (90) days after transfer of ownership. New DIU established on or after July 14, 2017 must install complaint amalgam separators prior to any discharge to the POTW and complete a one-time compliance report as outlined in 40 CFR § 411 no later than ninety (90) days following the introduction of wastewater into the POTW. The DIU shall submit a copy of the one-time compliance report either online or by mail to the control authority as required.

(o) Existing or new industrial users having a pretreatment standard or permit requirement implemented with or met by a BMP requirement shall report information as may be necessary to determine compliance with the standard, including, but not limited to, baseline monitoring reports, ninety-day compliance reports, semi-annual reports and compliance milestone reports or other reports as may be required by individual permits or BMP programs.
(Ord. No. 81771, § 2(App. I), 3-2-95; Ord. No. 85765, § 1, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04; Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14; Ord. No. 2019-02-14-0123, § 1(Att. I), 2-14-19; Ord. No. 2021-04-29-0283, § 1(Att. I), 4-29-21)

Sec. 34-479. Confidential information.

Information and data on a user obtained from reports, surveys, wastewater discharge permit applications, wastewater discharge permits, and monitoring programs, and from the control authority's inspection and sampling activities, shall be available to the public without restriction, unless the user specifically requests in writing, and is able to demonstrate to the satisfaction of the Control Authority, that the release of such information would divulge information, processes, or methods of production entitled to protection as trade secrets under applicable state law or federal law. Any such request must be asserted at the time of submission of the information or data. When requested and demonstrated by the user furnishing a report that such information should be held confidential, the portions of a report which might disclose trade secrets or secret processes shall be stamped "confidential business information" on each page containing such information and shall not be made available for inspection by the public, but shall be made available immediately upon request to governmental agencies for uses related to the NPDES/TPDES program or pretreatment program, and in enforcement proceedings involving the person furnishing the report. Wastewater constituents and characteristics and other "effluent data" as defined by 40 CFR 2.302 will not be recognized as confidential information and will be available to the public without restriction.
(Ord. No. 81771, § 2(App. I), 3-2-95; Ord. No. 85765, § 1, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04)

Sec. 34-480. Publication of users in significant noncompliance.

The control authority shall publish annually, in any paper of general circulation within the

jurisdiction served by the POTW that provides meaningful public notice, a list of the users which, during the previous twelve (12) months, were in significant noncompliance with applicable pretreatment standards and requirements as defined in section 34-471.

(Ord. No. 81771, § 2(App. I), 3-2-95; Ord. No. 85765, § 1, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04; Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

[This page intentionally left blank.]

Sec. 34-481. Enforcement.

Users who violate any term or condition of this division or of their permit shall be subject to enforcement action by the control authority. Such enforcement action will be applied in accordance with the enforcement response plan and may include legal action or other appropriate enforcement remedies as provided for below:

(1) *Enforcement response plan.* In accordance with 40 CFR 403.8(f)(5)(ii), the control authority has in use an enforcement response plan (ERP), including an enforcement response guide (ERG) which shall be used by the control authority in initiating and, if necessary, in escalating, enforcement responses with regard to any instance of user noncompliance. The ERP is subject to change as required, and is consistent with approval authority procedures and guidelines.

(2) *Legal action.* In addition to any other remedies provided by this division, the control authority may, at any time, seek legal and/or equitable remedies, or prosecute criminal charges against any person, corporation or other entity believed to be in violation of this division, the provisions of an industrial wastewater discharge permit and/or any federal or state law or regulations governing water quality or industrial wastewater pretreatment over which the control authority has been given enforcement powers. The control authority legal staff is hereby authorized and instructed to commence such actions for appropriate legal and/or equitable relief in courts having proper jurisdiction and may seek civil penalties and any other legal or equitable relief available under common law, Chapter 54 of the Texas Local Government Code, or any other applicable local, state, or federal code or statute. The control authority may require that an enforcement meeting be held prior to implementing legal action; however, such a meeting shall not be a bar against or prerequisite for taking any enforcement action against the user.

(3) *Notice of violation (NOV).* When the control authority determines that a user has violated, or continues to violate, any provision of this division, a wastewater discharge permit or order issued hereunder, or any other pretreatment standard or requirement, the control authority may serve (either personally or by registered or certified mail, return receipt requested) upon that user a written notice of violation. Within fifteen (15) working days of the mailing date or personal delivery date of such notice, an explanation for the violation and measures taken and/or to be taken for the satisfactory correction and prevention thereof, to include specific required actions, shall be submitted by the user to the control authority. Submission of this response in no way relieves the user of liability for any violations occurring before or after receipt of the notice of violation. Nothing in this section shall limit the authority of the control authority to take any action, including emergency actions or any other enforcement action, without first issuing a notice of violation.

(4) *Response by the industrial user to the notice of violation.* The industrial user responding to receipt of a notice of violation shall file a written response in the following form:

(a) The industrial user shall submit a written report within the fifteen (15) working days designated in section 34-481(3) to the director. If the violation involves a discharge that is prohibited, or exceeds quantity, quality, or concentration limitations, the report shall contain information regarding the time, date, location, cause, source, quantity, quality and concentration of the discharge and the corrective measures actually taken, or to be taken, by the industrial user to correct and prevent any similar recurring discharges. If the violation is an administrative or procedural violation, the report shall contain infor-

mation regarding corrective measures and time schedules the industrial user has adopted to assure expeditious compliance.

(b) Should the recipient of a notice of violation fail to respond in writing to the director within the initial fifteen (15) working day response period as required in section 34-481(3), above, the user shall be considered in violation of this division with each day resulting in a separate violation. Such failure to respond may be cited by the director in any legal proceeding in the appropriate municipal, county, district, or federal court.

(5) *Injunctive relief.* When the control authority finds that a user has violated, or continues to violate, any provision of this division, a wastewater discharge permit, or order issued hereunder, or any other pretreatment standard or requirement, the control authority may petition the court through the control authority legal staff for the issuance of a temporary or permanent injunction, as appropriate, which restrains or compels the specific performance of the wastewater discharge permit, order, or other requirement imposed by this division on activities of the user. The control authority may also seek such other action as is appropriate for legal and/or equitable relief, including a requirement for the user to conduct environmental remediation. A petition for injunctive relief shall not be a bar against, or a prerequisite for, taking any other action against a user.

(6) *Consent orders.* The director or his designated representative is hereby empowered to enter into consent orders, assurances of voluntary compliance, establishing an agreement with any user responsible for noncompliance. Such orders will include specific action to be taken by the user to correct the noncompliance within a time period also specified by the order. Consent orders shall have legal force and effect and shall be judicially enforceable. The director may require that a compliance schedule pursuant to sections 34-478(1)(c)(7) and 34-478(3) of this division be included and followed as a condition of the order. No order shall in any way waive a national categorical pretreatment standard.

(7) *Compliance schedule.* The compliance schedule is discussed in sections 34-478(1)(c)(7) and 34-478(3) of this division.

(8) *Compliance orders.* When the director or his designated representative finds that a user has violated or continues to violate the division, wastewater discharge permits or orders issued hereunder, or any other pretreatment standard or requirement, he may issue an order to the user responsible for the discharge directing that the user come into compliance within fifteen (15) calendar days. If the user does not come into compliance within fifteen (15) calendar days, sewer service shall be discontinued unless adequate treatment facilities, devices, or other related appurtenances are installed and properly operated. Compliance orders may also contain other requirements to address the noncompliance, including additional self-monitoring and/or management practices designed to minimize the amount of pollutants discharged to the sewer. A compliance order may not extend the deadline for compliance established for a federal pretreatment standard or requirement, nor does a compliance order release the user of liability for any violation, including any continuing violation. Issuance of a compliance order shall not be a prerequisite to taking any other action against the user.

(9) *Emergency suspension.* The director may unilaterally order the suspension of water and/or wastewater service(s) to any user in order to prevent or eliminate an indirect discharge which may cause imminent, serious endangerment to the health or safety of any person, significant damage to the environment, significant interference with the POTW, or violations of

the Control Authority, TCEQ or NPDES permit conditions. Concurrent with ordering such a suspension, the director shall issue a written report containing information and investigative data and the notice of violation and suspension order upon which the director relies in ordering the suspension of service(s). A copy of this report will be expeditiously forwarded to the affected industrial user.

(a) The director shall order reinstatement of any discontinued water and/or wastewater service(s) upon presentation to him by the industrial user of a registered professional engineer's report or other written proof acceptable to the control authority that the dangerous discharge has been eliminated and that recurrence is not likely.

(b) Costs incurred by the control authority or its agents in detecting, investigating, monitoring, measuring and eliminating the dangerous discharge, along with any disconnect and reconnect fees, shall be reimbursed to the control authority by the user(s) responsible for the dangerous discharge within sixty (60) days of billing. Any property damage to the POTW or its appurtenant structures resulting from the dangerous discharge shall also be borne by the user(s) responsible for the discharge.

(c) A user that is responsible, in whole or in part, for any discharge presenting imminent endangerment shall submit a detailed written statement, describing the causes of the harmful contribution and the measures taken to prevent any future occurrence, to the control authority prior to the date of any show cause or termination hearing under sections 34-481(10) and 34-481(11) of this division.

(10) *Cease and desist orders.* When the control authority finds that a user has violated, or continues to violate, any provision of this division, a wastewater discharge permit or order issued hereunder, or any other pretreatment standard or requirement, or that the user's past violations are likely to recur, the director may issue an order to the user directing it to cease and desist all such violations and directing the user to:

(a) Immediately comply with all requirements; and

(b) Take such appropriate remedial or preventive action as may be needed to properly address a continuing or threatened violation, including halting operations and/or terminating the discharge.

Issuance of a cease and desist order shall not be a bar against, or a prerequisite for, taking any other action against the user.

(11) *Termination of discharge.* In addition to other provisions of this division, any user who violates the following conditions of this division, wastewater discharge permits, or orders issued hereunder, is subject to discharge termination:

(a) Violation of wastewater discharge permit conditions;

(b) Failure to accurately report the wastewater constituents and characteristics of its discharge;

(c) Failure to report significant changes in operations or wastewater volume, constituents and characteristics prior to discharge;

(d) Refusal of reasonable access to the user's premises for the purpose of inspection, monitoring or sampling;

(e) Violation of the pretreatment standards in section 34-472 of this division.

(f) Failure to provide, operate and maintain, at all times, wastewater pretreatment equipment, as is necessary to comply with this division.

(Ord. No. 81771, § 2(App. I), 3-2-95; Ord. No. 85765, § 1, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04; Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-482. Penalties.

(1) *Penalties for violations.*

(a) *Criminal.* A conviction for violation of this division shall constitute a class C misdemeanor. A person convicted of a violation of this division shall be fined a minimum amount of not less than two hundred dollars ($200.00) per violation and a maximum amount of not more than two thousand dollars ($2,000.00) per violation. Each violation of a particular section of this division shall constitute a separate offense, and each day an offense continues shall be considered a new violation for purposes of enforcing this division. A culpable mental state is not required to prove an offense under this division.

(b) *Civil.* A civil penalty in an amount not to exceed five thousand dollars ($5,000.00) per violation of this division may be imposed. Each violation of a particular section of this division shall constitute a separate offense, and each day such offense continues shall be considered a new violation for purposes of enforcing this division, and calculating the amount of civil penalties.

(2) *Falsifying information.* Any person who knowingly makes any false statement, representation or certification in any application, record, report, plan, or other document filed or required to be maintained pursuant to this division or pursuant to any condition or provision of an industrial wastewater discharge permit, or who falsifies, tampers with, or knowingly renders inoperable monitoring, sampling or surveillance devices or improperly impedes an inspection procedure required or authorized under this division and/or any industrial wastewater discharge permit, shall upon conviction, be punished by a criminal fine of not less than two hundred dollars ($200.00) or more than two thousand dollars ($2,000.00) or a civil penalty not to exceed five thousand dollars ($5,000.00) per violation per day. A person found guilty of damaging equipment used or necessary for monitoring compliance with an industrial wastewater discharge permit and/or this division, shall also be liable for the cost associated with replacing or repairing such equipment. Reports and other documents required to be submitted or maintained in accordance with 40 CFR 403.12 shall further be subject to Provisions Governing Fraud and False Statements as provided for at 40 CFR 403.12(n).

(3) *Damage, theft and vandalism.* A person found responsible of damaging, stealing, or vandalizing Control Authority equipment, used or necessary for monitoring compliance with an industrial wastewater discharge permit and/or this division, shall also be liable for the cost associated with replacement or repair of such equipment.

(4) *Remedies nonexclusive.* The remedies provided for in this division are not exclusive. The control authority may take any, all, or any combination of these actions against a noncompliant user. Enforcement of pretreatment violations will generally be in accordance with the control authority enforcement response plan. However, the control authority may take other action against any user when the circumstances warrant. Further, the control authority is empowered to take more than one enforcement action against any noncompliant user.

(Ord. No. 81771, § 2(App. I), 3-2-95; Ord. No. 85765, § 1, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04)

Sec. 34-483. Supplemental enforcement action.

(1) *Performance bonds.* The control authority may decline to issue or reissue a wastewater discharge permit to any user who has failed to comply with any provision of this division, a previous wastewater discharge permit, or order issued hereunder, or any other pretreatment

standard or requirement, unless such user first files a satisfactory bond, payable to the control authority, in a sum not to exceed a value determined by the control authority to be necessary to achieve consistent compliance.

(2) *Liability insurance.* The control authority may decline to issue or reissue a wastewater discharge permit to any user who has failed to comply with any provision of this division, a previous wastewater discharge permit, or order issued hereunder, or any other pretreatment standard or requirement, unless the user first submits proof that it has obtained financial assurances sufficient to restore or repair damage to the POTW caused by its discharge.

(3) *Water supply severance.* Whenever a user has violated or continues to violate any provision of this division, a wastewater discharge permit, or order issued hereunder, or any other pretreatment standard or requirement, water service to the user may be terminated. Service will only recommence, at the user's expense, after it has satisfactorily demonstrated its ability to comply.

(4) *Public nuisances.* A violation of any provision of this division, a wastewater discharge permit, or order issued hereunder, or any other pretreatment standard or requirement is hereby declared a public nuisance and shall be corrected or abated as directed by the control authority. Any person(s) creating a public nuisance shall be subject to the provisions of the City Code governing such nuisances, including reimbursing the control authority for any costs incurred in removing, abating, or remedying said nuisance, which shall include, but is not limited to, industrial waste solids accumulation wastewater odors, vapors, and/or objectionable color(s) of the sanitary and/or storm sewer.

(Ord. No. 81771, § 2(App. I), 3-2-95; Ord. No. 85765, § 1, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04)

Sec. 34-484. Fees.

It is the purpose of this section to provide for the recovery of costs from users of the control authority wastewater disposal system for the implementation and continued operation of the pretreatment program established herein. All industrial users shall pay the following fees, as appropriate, and in accordance with the current fee schedule, within thirty (30) days of billing:

(a) A permit application fee;

(b) A permit fee;

(c) Sampling fee;

(d) Analysis fee;

(e) Environmental assessment;

(f) Other fees as the control authority may deem necessary to carry out the requirements contained herein, such as, but not limited to emergency response fees, special sampling fees, monitoring equipment reset fees, etc. These fees relate solely to the matters covered by this division and are separate from all other fees, fines, and penalties chargeable by the control authority or any other agency.

The special services charges outlined in Schedule E, industrial waste fee schedule, relating to industrial waste permits and services shall be lawful rates charged by the system effective January 1, 2025. The Schedule E charges shall be adjusted on January 1 of each year thereafter by the percentage difference (greater than zero (0)) between the Consumer Price Index for All Urban Consumers (CPI-U) as it is calculated by the United States Bureau of Labor Statistics at the end of the month of July prior to the next year and as it was calculated at the end of the month of July one (1) year earlier, and subsequently rounded to the nearest dollar. SAWS will periodically perform a cost of service analysis to ensure that the fees charged do not exceed the cost of providing the services.

(Ord. No. 81771, § 2(App. I), 3-2-95; Ord. No. 85765, § 1, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04; Ord. No. 2007-12-13-1345, § 2(Att. B), 12-13-07; Ord. No. 2011-12-08-1004, § 2(Exh. IV), 11-5-24)

Secs. 34-485—34-510. Reserved.

DIVISION 4. LIQUID WASTE TRANSPORTATION AND DISPOSAL REGULATIONS

Sec. 34-511. Definitions.

For the purpose of this division, the following words and phrases shall have the meanings respectively described to them by this section unless the context requires otherwise.

CEO. The chief executive officer of the San Antonio Water System.

City. The City of San Antonio, Texas as represented by the official acts of the city council and council designated representatives.

Commercial vehicle wash. A business enterprise in a fixed location at which vehicle washing (conveyorized, self service, or roll-over/automatic) is offered to the public for a fee, and which utilizes wastewater pretreatment (i.e. grit trap(s)) to process wastewater prior to discharge into the public sanitary sewer collection system.

Department. The San Antonio water system, resource protection and compliance department.

Director. The director of the resource protection and compliance department or his or her designated representative or agent.

Discharge. The unpermitted disposal, deposit, injection, dumping, spilling, leaking or placing of any liquid waste including but not limited to solid or semi-solid grease trap waste, grit trap waste, and/or septic tank waste into or on any land, water, sanitary or storm sewer facilities so as to cause such waste or any constituent thereof to adversely enter the environment, or be adversely emitted into the air or into any water including ground waters.

Disposal site. A permitted facility or part of a permitted facility, including collection sewers and sludge handling facilities at which liquid wastes is approved to be collected, transported, treated, and intentionally disposed of by conveyance to receiving waters and/or lands. These types of facilities must be classified as either a publicly owned treatment work (POTW), or as a type I (landfill) or type V (other, i.e. liquid processing), type VI (experimental facilities) or type VII (land application for beneficial use) Municipal Solid Waste Facility as defined under 40 CFR part 257 and TAC, Part IX, Chapter 330, Subchapter D, Section 330.41.

Disposal site operator. A person, firm, corporation, municipal corporation, or utility permitted or registered by the appropriate state and/or federal regulatory agencies to engage in receiving, storing, transferring, processing and/or ultimately disposing of liquid waste, including but not limited to, grease trap waste, grit trap waste, and septage.

Division. The San Antonio Water System Resource Compliance Division.

Generator. A person who causes, creates, generates, stores or otherwise produces liquid waste, including but not limited to grease trap waste, grit trap waste and septage as a byproduct of some domestic or non-domestic activity.

Grease trap. A receptacle utilized by commercial or industrial generators of liquid waste to intercept, collect and restrict the passage of organic, inorganic, greasy or fatty liquid, semiliquid, and/or solid wastes into both public and private sanitary sewers to which the receptacle is directly or indirectly connected.

Grease trap waste. Any organic, inorganic, greasy or fatty liquid, semi-liq-

uid, and/or solid wastes into both public and private sanitary sewers to which the receptacle is directly or indirectly connected.

Grease trap waste. Any organic, inorganic, greasy or fatty liquid, semi-liquid, and/or solid wastes collected by and ultimately removed from a grease trap for proper disposal.

Grit trap. A receptacle utilized by commercial or industrial generators of liquid waste to intercept, collect and restrict the passage of petroleum-based oil and grease wastes and inorganic or other solids into both private and public sanitary sewers to which the receptacle is directly or indirectly connected. This definition shall include waste oil recovery traps and sumps that are designed to recover waste oils and intercept the passage of oils and solids generated from a commercial operation into the sanitary sewer system.

Grit trap waste. Oil and grease wastes, and inorganic solids generated by commercial, industrial, automotive or heavy machinery repair and/or washing facilities that are collected by and ultimately removed from a grit trap for disposal. This definition shall include wastes removed from a waste oil recovery trap, excluding oils recovered for recycling.

Hazardous waste. A solid waste, or combination of solid wastes, which, because of its quantity, concentration, or physical, chemical, or infectious characteristic may: (a) cause, or significantly contribute to an increase in mortality or an increase in serious irreversible, or incapacitating reversible illness; or (b) pose a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported, or disposed of, or otherwise managed or (c) is identified, classified or listed as a hazardous waste as defined by 40 CFR Part 261.3.

Liquid waste. Water-borne solids and liquids containing dissolved or suspended waste materials, including but not limited to, septage and wastes from grease traps and grit traps.

Manager. The person responsible for conducting, supervising, managing or representing the business activities of a generator or transporter.

Manifest. The written, multi-part documentation required to be in the possession of the transporter enabling disposal of hauled grit trap waste, grease trap waste, and septage at a permitted or registered disposal site as provided for in section 34-516 of this division.

Manifest system. A record keeping and accounting system consisting of a multi-paged manifest booklet and other forms used to document specific data regarding the point of generation, transportation, volume and disposal of grit trap waste, grease trap waste, and septage.

Mobile processing vehicle. A liquid waste transportation vehicle which is designed to separate water from the liquid waste while the vehicle is in transit.

Mobile waste generator. The owner or operator of a vehicle on which liquid waste is generated and stored in a holding tank. Examples include recreational vehicles and tour buses.

Permit. The formal written control document issued by the San Antonio Water System to a transporter which entitles such transporter to collect, transport and dispose of grease trap waste, grit trap waste and septage at a permitted or registered treatment storage, or disposal site or facility, and regulates said activities.

Permittee. A person issued a permit under this division.

Person. An individual, corporation (including a government corporation), organization, state or federal governmental subdivision or agency, political subdivision of a state, interstate agency or body, business, trust, partnership, association, firm, company, joint stock company, commission, or any other legal entity.

Regional agent boundary. The geographic area within which the San Antonio Water System is the designated responsible governmental agency to construct, operate, and maintain regional sanitary sewerage systems pursuant to the authority of Texas Water Quality Board Order No. 72-0120-11 passed and approved on January 20, 1972, as may be amended.

Sanitary sewer. A system of pipes, conduit, and treatment facilities owned and/or operated by the

San Antonio Water System which collect, transport, and treat sanitary sewage, and to which storm, surface, and ground waters are not intentionally or normally admitted.

SAWS. The City of San Antonio, acting by and through the San Antonio Water System permit, Ordinance No. 77784 as amended.

Septage. Liquid wastes and sludges containing sufficient liquid content, normally more than eighty-five (85) percent, to permit flow by gravity or minimal pumping, which is removed from a portable toilet, chemical toilet, septic tank (as used herein), or cesspool. Septage does not include non-domestic wastes from commercial or industrial establishments.

Shall. The word "shall" whenever used in this article, will be interpreted in its mandatory sense; "may" is permissive.

Tank. A receptacle device or structure designed to contain an accumulation of liquid waste including but not limited to grease trap waste, grit trap waste, and septage which is constructed of materials (e.g., concrete, steel, alloy, fiberglass, plastic, etc.) manufactured to provide appropriate structural support for the containment.

TCEQ. Texas commission on environmental quality.

Transporter. A person who utilizes a vehicle to transport liquid waste which is:

(a) Disposed of within the regional agent boundary; or

(b) Transferred within the regional agent boundary for the purpose of disposal; or

(c) Collected from a generator or wastehauler within the regional agent boundary.

Transfer station. A fixed facility used for transferring liquid waste from collection vehicles to long haul vehicles (one transportation unit to another transportation unit), which must be registered or permitted through TCEQ.

Trip ticket. A coupon purchased from the control authority for the disposal of septic or portable/chemical toilet waste at the authorized the control authority disposal facility.

Vehicle. A mobile receptacle or device in which or by which liquid waste may be transported upon a public street or highway.

Vehicle wash grit drying facility. A facility constructed and maintained at a commercial vehicle wash that is designed to dry grit trap wastes from commercial vehicle wash facilities and which has registered with the city's water system's resource compliance division to perform such activity.
(Ord. No. 80574, § 14, 8-4-94; Ord. No. 85765, § 2, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04)

Sec. 34-512. Liquid waste transportation.

(1) *General.* Any person using the streets and/or rights-of-way of the city to transport liquid waste must exercise reasonable, prudent and sufficient care when undertaking such activity in order to preserve the health, safety and general welfare of the community. In order to engage in such activity the transporter must obtain all necessary documents, and comply with all procedures required by local, state and federal regulations.

(2) *Spills.* In the event of a spill during collection or transport, the transporter shall immediately telephone the San Antonio Water System, Resource Compliance Division, at the telephone number listed in their permit. Notifications made pursuant to this section shall, at a minimum, provide the following:

(a) The time the discharge occurred;

(b) The location of the discharge;

(c) The type of waste discharged (including its concentration, volume, known dangerous characteristics, etc.);

(d) Any corrective actions including diking, if any, taken by the transporter;

(e) Any other conditions, factors or circumstances that would indicate any need for expeditious, specialized or unique response to the discharge.

The transporter shall take any and all action as may be required by local, state, or federal officials having jurisdiction so that the discharge will not present a public health or environmental

hazard. Such action may include diking, vacuuming, flushing, applying chemical agents or otherwise neutralizing the discharge.

(3) *Responsibilities.* Failure to promptly and properly notify the appropriate jurisdictional authorities of a spill and take such action as required by said authorities shall constitute a violation of this division.
(Ord. No. 80574, § 14, 8-4-94; Ord. No. 85765, § 2, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04)

Sec. 34-513. Permit requirements.

(1) *General.* A person shall be in violation of this division if he operates or causes the operation of a vehicle on the city streets or public rights-of-way for the purpose of collecting, transporting, or disposing of grease trap waste, grit trap waste, septage, or other liquid wastes without first obtaining a liquid waste transportation permit from the director or his or her designated representative. For the purposes of this section, each instance of transporting, collecting, or disposal of such wastes without a permit shall be considered a separate violation.

(2) *Permit application.* In addition to complying with the proper registration procedures established by the state, a person intending to engage in the activity of transporting grit trap waste, grease trap waste or septage must first submit a permit application to the city water system, resource compliance division and therein supply the department with the following information and documentation:

(a) Name, business and mailing address(es), and telephone number of the applicant transporter.

(b) The trade name under which the applicant transports or intends to transport liquid waste.

(c) The number and type of vehicles and their tank volumes the applicant shall operate together with a general physical description or manufacturer's trade description of each vehicle; the registration number assigned to the company by the state; and a photocopy of the driver's license of all vehicle operators under the employ of the applicant.

(d) The period of time the applicant has been engaged in the activity of transporting grit trap waste, grease trap waste, and septage, and the daily hours of operation of his intended transportation activity.

(e) A statement setting out any record of criminal convictions against the applicant, or anyone under his employ, resulting from the unlawful operation of a vehicle used to transport liquid waste, including grease trap waste, grit trap waste, and septage.

(f) Documentation evidencing that the applicant has obtained the necessary insurance required under this division.

(g) Any other requested relevant information which bears a reasonable relationship to the regulation of permittees under this division and is necessary to evaluate the permit application.

(3) *Investigation of information set out in application.* The staff of the control authority may conduct an investigation to determine the accuracy of information supplied by the applicant prior to the issuance of a permit. Supplying false information to the department shall be grounds for refusal to grant a permit or revocation of a permit if already issued. The transporter shall update information contained in the application, in writing, to reflect any changes in the information required by the initial application prior to making these operational changes.

(4) *Insurance requirements.*

(a) Prior to the issuance of a permit, the applicant must file with the city water system, evidence (certificate of insurance) of a policy of automobile liability insurance and thereafter keep same in full force and effect with an insurance company authorized to do business in the state. The policy shall insure the public against any loss or damage that may result to any person or property from the operation of a defective vehicle or negli-

gence of the owner or any person driving or otherwise operating such vehicle, and the vehicle insurance provisions of such policy shall provide a minimum amount of coverage in the policy as to each and every transporter vehicle to be not less than one million dollars ($1,000,000.00) for bodily injury or death of any one person, for bodily injury or death in any one accident, for the damage to, or destruction of, property in any one accident. Coverage is to include the pollution liability endorsement with limits not less than one million dollars ($1,000,000.00). Such coverage shall be endorsed to cover the upset, overturn, and remediation of the load in transport.

(b) The certificate of insurance required by this subsection shall contain a provision requiring that the city water system be provided with thirty (30) days advance notice, in writing, of cancellation or material change in the policy. In the event of cancellation or material change in the transporter's policy, the permit shall be suspended until such time as the transporter can again secure appropriate coverage.

(5) *Vehicle inspection.* Prior to the issuance of a permit, the department shall require the applicant to submit, for inspection by the department, each vehicle which will be utilized to transport grit trap waste, grease trap waste, and/or septage. The department or its agents shall determine if the transport vehicle is constructed and equipped in accordance with section 34-514 of this division and the tanks, valves, and hoses on the vehicle are in good repair, prior to permit issuance. In addition to the initial department inspection prior to the issuance of a permit, designated employees of the department are hereby authorized to reinspect the vehicles periodically in order to observe that the vehicles are generally maintained in good repair so as not to constitute a public health hazard under the provisions of this division. These inspections may take place at any reasonable and safe location during normal business operation hours and are in no way meant to satisfy the otherwise legally mandated inspection of motor vehicle requirements of any department or agency of the state. All transport vehicles shall have a valid DPS inspection sticker properly displayed, as well as the transportation registration stickers issued by TCEQ and the control authority.

(6) *Issuance of permit.* Upon satisfying the requirements set out in section 34-513 herein, the department shall issue a permit to the applicant. The permit shall be valid for a one year period with such period terminating on December 31st of the year of issuance or reissuance. The requirements set out in sections 34-513 herein must be satisfied prior to the reissuance of a permit. Any violations of this division by a permit holder during a permit period shall constitute sufficient grounds for refusal, by the director, to reissue a permit. All permits issued hereunder shall be subject to the following terms and conditions:

(a) The city water system specifically excludes and prohibits the transporting, discharge, or disposal of hazardous wastes in vehicles permitted hereunder to carry liquid waste. Transporters carrying hazardous waste from, within or through, the regional agent boundary must first obtain the special applicable TCEQ or EPA permit(s) and use the appropriate hazardous waste transportation and disposal manifest system.

(b) Prior to the operation of any vehicle regulated by this division, each permitted transporter shall permanently mark such vehicle with specific information. All marking shall be in a color clearly contrasting with the background, in two-inch letters or larger, so as to be clearly visible at a distance of fifty (50) feet. The following information shall be place on both sides of each permitted vehicle, unless otherwise noted:

1. Company name;
2. Telephone number;
3. TCEQ authorization sticker (motorized units only);
4. TCEQ assigned registration number;

5. The Control Authority assigned permit number on both sides and on the rear of the vehicle.

   SAWS# _____

   The blank space shall contain the city water system's assigned permit number, unique to a particular vehicle;

6. SAWS authorization sticker.

The permitted transporter shall keep the TCEQ resgistration (including any amendments) and the SAWS permit in the vehicle at all times. Failure to do so will constitute a violation of this division.

(c) A permit issued under this division is non-transferable, and may be revoked by the control authority for violations by the permittee of the term(s) of the permit or of this division.

(Ord. No. 80574, § 14, 8-4-94; Ord. No. 85765, § 2, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04)

Sec. 34-514. Liquid waste vehicle specifications and maintenance requirements.

All liquid waste transportation vehicles utilizing the city streets and public rights-of-way to transport grit trap waste, grease trap waste and septage must at all operational times conform to the following vehicle specifications and maintenance requirements. Each instance of failure to do so shall constitute a separate violation of this division.

(1) *Vehicle specifications.*

(a) The vehicle must be equipped with tank(s) that is (are) firmly, securely and permanently attached to the primary structure of the vehicle in such a manner as to assure that the tank(s) will not loosen or dislodge during the transport of liquid wastes. Vehicles with portable or removable tank(s) or other containers temporarily attached or affixed to vehicles are prohibited, unless otherwise approved by the director.

(b) All piping, valves, and connectors shall be permanently attached to the tank(s) and/or vehicle.

(c) The tank(s) must be liquid tight.

(d) The tank(s) must be constructed so that every interior and exterior portion can be thoroughly cleaned.

(e) All piping, valves, and connections shall be accessible and easy to clean.

(f) The inlet, or the opening of the tank(s) shall be constructed and located so that collected waste shall not spill during filling, transfer or transport.

(g) Outlet connections shall be constructed so that no liquid waste shall discharge, leak, run or spill out from the tank(s).

(h) Outlets are to be of a design and type suitable for the liquid waste to be safely removed and be capable of controlling outflow without discharge, spillage, spray, or flooding of immediate surroundings while in use.

(i) Pumps, valves, cylinders, diaphragms and other appurtenances shall be of a design and type suitable for the liquid waste to be safely loaded, transported and removed, be capable of operation without discharge, spillage, spray or leakage, and be easily disassembled for cleaning.

(j) All vehicles used to transport liquid waste shall have sight gauges maintained in a manner which can be used to determine whether or not a vehicle is loaded and the approximate capacity. Gauges are not required to read in gallons or liters, but shall show what percentage of the tank capacity is filled.

(k) All vehicles used to transport liquid wastes shall prominently mark all discharge valves and ports. All discharge ports shall be visible and readily accessible. The position of the vacuum pump, i.e. pulling a vac-

uum into the tank or pumping air into the tank, must also be clearly labeled.

(2) *Maintenance requirements.* A liquid waste transporter shall:

(a) Maintain hoses, tanks, valves, pumps, cylinders, diaphragms, pipes, connections, and other appurtenances on a vehicle in good operation and repair and free from leaks.

(b) Provide a safety plug or cap for each inlet and outlet tank valve.

(c) Cause the vehicle exterior to be clean, vector free and relatively odor free at the beginning of each working day and provide for intermittent wash downs of vehicle exterior and wash outs of tank interiors as necessary to maintain the above conditions at all times.

(d) The permittee shall remove the control authority authorization sticker, and the control authority permit number from the vehicle when it is no longer permitted to collect, transport or dispose of liquid waste or when the vehicle ownership changes.

(Ord. No. 80574, § 14, 8-4-94; Ord. No. 85765, § 2, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04)

Sec. 34-515. Responsibilities of liquid waste transporters.

All liquid waste transporters shall conform to the following terms and conditions in collecting, transporting, and disposing of liquid waste. Any liquid waste transporter failing to comply with the responsibilities and requirements set forth below shall be in violation of this division. Each instance of non-compliance shall constitute a separate violation.

(1) *Determine nature of material.* Prior to accepting a load of liquid waste for transportation, a liquid waste transporter shall, to the best of his ability, determine the volume, nature and classification of the material to be transported and that his/her permit, vehicle and equipment are sufficient to legally and properly accept, transport, and dispose of the load without discharge, spillage, leakage of the material, or release of malodorous fumes. Upon delivery of the waste to the disposal site, the transporter shall inform the disposal site operator of the content of the waste. At the discretion of the department or the disposal site operator, the liquid waste presented for disposal may be sampled and tested prior to disposal to verify the classification, quality, concentration, character or volume of the liquid waste. The control authority cost for conducting any positive, confirming test resulting in verification of unpermitted transport or prohibited discharge shall be paid by the permittee.

(2) *Interceptor evacuation.* A liquid waste hauler shall completely evacuate all grease or grit traps and other interceptors during servicing. Further, the discharge of liquid, semi-solids, or solids back into an interceptor after servicing is strictly prohibited. Mobile processing vehicles shall not discharge separated water back into the interceptor or into the wastewater collection system.

(3) *Mixing of different types of waste.* A liquid waste transporter shall not mix incompatible wastes in the same tank load. Incompatible wastes are wastes which have different processing, storage or disposal requirements. Transporters may mix wastes with different characteristics provided the facility to which the waste is being transported is authorized to store, process or dispose of such mixed wastes.

(4) *Storage of liquid wastes.* The storage of liquid wastes in unpermitted temporary storage tanks by liquid waste transporters is prohibited. Transporters may store liquid waste in a permitted vehicle for up to four (4) days.

(5) *Utilize appropriate disposal sites.* All liquid waste transporters shall deposit wastes at a facility designated by or acceptable to the generator where the owner or opera-

tor of the disposal facility agrees to receive the wastes and the facility has written authorization by permit or registration issued by TCEQ to receive the wastes.

(6) *Utilization of manifest system by transporters of grease trap waste, grit trap waste, and septage.* all liquid waste transporters holding a the control authority permit for transporting grease trap waste, grit trap waste, or septage shall utilize the manifest system set out in section 34-516 herein. It is the responsibility of the permittee to assure that all manifests are completely and accurately filled out in a timely manner, except that liquid waste transporters will not be held accountable for the waste generator signature portion of the manifest. Generators who fail to sign a liquid waste manifest will be considered in violation of this division.

(7) Person who engage in the secondary transportation of waste (meaning receiving waste from other vehicles and transporting the waste to a disposal site) or any person choosing to transfer waste from one transport vehicle into another transport vehicle shall transfer the waste only at a registered or permitted type V transfer station. Emergency transfers may occur with prior approval from the director or his designee.

(8) Liquid waste transporters may accept commercial vehicle grit trap waste for transportation to a registered vehicle wash grit drying facility. This facility may either be located onsite or it may be located within fifty (50) miles of the interceptor if the offsite facility is owned by the same generator. The transporter shall follow the manifest procedures found in section 34-516 anytime the liquid waste is shipped from a commercial vehicle wash interceptor location to an offsite vehicle wash drying facility. The registered vehicle wash grit drying facility should be indicated on the manifest as the disposal site. A liquid waste transporter shall verify that the vehicle wash grit drying facility is registered prior to accepting or discharging commercial vehicle wash grit trap waste. Verification shall be accomplished by reviewing a copy of the registration issued by the control authority. Disposal of commercial vehicle wash grit trap wastes within the regional agent boundary at a drying facility that is not registered by the control authority will be a violation of this division.

(Ord. No. 80574, § 14, 8-4-94; Ord. No. 85765, § 2, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04)

Sec. 34-516. Manifest system.

A manifest system consisting of manifest booklets shall be used by all transporters holding the control authority permits to transport grease trap waste, grit trap waste, and septage. Each manifest shall thoroughly document the following information:

(a) The interceptor capacity, time and date of service, the quantity and type of liquid waste being transported;

(b) The generator's name, address, telephone number and signature at the time of receipt of liquid wastes by the transporter;

(c) The transporter's corporate, business or trade name, address and telephone number;

(d) The transport vehicle operator's name with signature;

(e) The transporter's permit number issued by the city water system;

(f) The registration number assigned to the transporter's vehicle by the state;

(g) The disposal site name, address, permit or registration number assigned by the state, the time and date of disposal; and

(h) The signature of the disposal site operator.

(1) *Manifest booklets.*

(a) Manifest booklets shall be purchased from the city water system in accordance with the fee schedules currently in effect. Manifest booklets shall be marked as appropriate for use

with a specific liquid waste transportation vehicle. A transporter must complete one manifest for each generator interceptor serviced, with the exception of chemical/portable toilet companies servicing their own units. Chemical/portable toilet companies servicing their own units which may be located at various locations shall be required to complete one manifest for each vehicle load transported. Each individual carbonless, print-trace manifest shall consist of five parts:

1. The white original of the manifest shall be signed by the transporter and generator at the time of the liquid waste collection.
2. The yellow copy shall be given to the generator once signed by both the transporter and generator.
3. The white original of the manifest shall be signed by the disposal site operator at the time of disposal and the pink copy maintained by the disposal site operator.
4. The green copy of the manifest shall be maintained by the transporter.
5. The goldenrod copy shall be returned to the generator within fifteen (15) days upon completion of the above steps.

It shall be the responsibility of the liquid waste transporter to return the goldenrod copy to the generator within fifteen (15) days of disposal.

Any transfer, processing or other disposal facility which ships liquid waste from their site to another disposal facility, must also follow this manifesting procedure. The waste to be shipped must be remanifested onto a new manifest, with the transfer, processing or disposal facility's location listed as the generator in the waste producer section of the manifest.

(b) The director may make administrative modifications to the manifest form used. Each manifest booklet shall contain twenty-five (25) manifests serially numbered. The department shall keep a record of the manifest serial numbers purchased by the liquid waste transporter. The department may issue more than one manifest booklet to any transporter, at the department's discretion, based on volume of business, number of trucks, etc. Additional manifest booklets may be purchased only after previously issued and completed manifest booklets have been properly returned to the department.

(c) In the event that a manifest booklet is lost or stolen, the permittee shall submit a sworn and notarized affidavit stating the circumstances surrounding the loss of the booklet, the probable contents of the wastes transported and disposed of, and efforts made to locate the booklet. After reasonable investigation by the department indicates no fraudulent or wrongful acts by the permittee, the department shall not unreasonably deny continued purchase of manifest booklets. Excessive instances of lost manifest books will be a violation of this division. More than three (3) lost books in one (1) permit year will be considered excessive.

(2) *Unlawful use of manifests.* Falsification of any information required in a manifest shall be grounds for imme-

diate suspension or revocation of the control authority liquid waste transportation permit and each instance of falsification shall be considered a separate violation of this division. The physical transfer of manifests by a permit holder to anyone other than the permittee's transportation vehicle operators or the department is prohibited. Purchase and/or resale of manifests from any source other than the department is prohibited. Each instance of purchase, transfer, or resale of manifests shall constitute a separate violation of this division.

(3) *Maintenance of manifest records.* All permittees shall maintain all transporter manifest copies for a period of five (5) years. All generators shall maintain generator manifest copies for a period of five (5) years. All disposal site operators shall maintain all disposal site manifest copies for a period of five (5) years. The department shall maintain all department manifest copies for a period of five (5) years. Should any pending administrative law proceeding or litigation mandate that such records be preserved for more than five (5) years, affected persons shall adhere to the dictates of those proceedings.

(4) *Manifest discrepancies.* A facility which receives waste must note any significant discrepancies on each copy of the manifest ticket. Manifest discrepancies are differences between the quantity or type of waste designated on the manifest, and the quantity or type of waste a facility actually received. Significant discrepancies in type are obvious differences which can be discovered by inspection or waste analysis. Significant discrepancies in quantity are:

(a) For bulk weight, variations greater than ten (10) percent in weight; and

(b) For liquids, any variation greater than fifteen (15) percent in gallons.

Upon discovering a significant discrepancy, the transporter must attempt to reconcile the discrepancy with the waste generator or owner or operator of the receiving facility (e.g., with telephone conversations). If the discrepancy is not resolved within fifteen (15) days after discovery, the transporter must immediately submit to the control authority a letter describing the discrepancy and attempts to reconcile it, and a copy of the trip ticket(s).

(5) *Notification of unpermitted transporter.* A disposal facility located within the regional agent boundary which receives liquid waste from a transporter who cannot produce a the control authority issued liquid waste transportation permit and a control authority authorization sticker shall notify the control authority within three (3) days of receiving the waste.

(Ord. No. 80574, § 14, 8-4-94; Ord. No. 85765, § 2, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04)

Sec. 34-517. Disposal site procedures.

All liquid waste transporters permitted hereunder shall follow the procedures required by the appropriate city, state, or federal authority when disposing of liquid waste in a registered or permitted disposal site under the jurisdiction of such authority. Additionally, the following procedures must be followed by liquid waste haulers holding control authority permits when disposing of septage at one of the control authority approved liquid waste disposal sites. The control authority's disposal facilities do not accept grease trap or grit trap wastes.

(1) *Disposal site entry/exit.* Control authority permit holders shall exercise caution when entering and exiting disposal sites and shall obey all traffic control regulations and especially speed limit signs and direction signs.

(2) *Disposal procedures.* A control authority permit holder shall not dispose of waste at the disposal site until authorized disposal personnel have done the following:

(a) Inspected the permit holder's permit and the control authority authorization sticker to see if they are still valid;

(b) Verified that the manifest being presented by the permittee's employee is appropriate for both the classification of waste being transported and the vehicle tank capacity being used;

(c) Signed the manifest and received the disposal site operator's copy of same; and

(d) Verified and collected the appropriate volume of trip tickets required for disposal.

A liquid waste transporter who fails to follow these procedures shall be in violation of this division.
(Ord. No. 80574, § 14, 8-4-94; Ord. No. 85765, § 2, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04)

Sec. 34-518. Responsibilities of generator and disposal site operator.

The liquid waste generators and disposal site operators shall have the following responsibilities, and failure to perform such responsibilities shall constitute a violation of this division:

(1) *Generators.*

(a) It shall be the responsibility of every generator of liquid waste to:

1. Know or ascertain the contents, characteristics and classifications of wastes generated.

2. Have liquid waste removed from his premises by a transporter holding the proper control authority, city, state, and/or federal permits or registrations required to collect and transport such waste.

3. Make a determination that the waste to be hauled under this division is non-hazardous, as required.

(b) A generator of hazardous waste, or liquid waste in combination with hazardous waste, shall only have such waste removed from his premises by a transporter holding the applicable state or federal permit or registration to transport said wastes.

(c) A generator of grease trap waste or grit trap waste shall have traps serviced as frequently as necessary to prevent bypass or overflow, and to ensure proper operation of the trap. Such generators shall, at a minimum, have grease traps and grit traps serviced quarterly or as approved by the control authority in accordance with all other provisions of this division.

(d) A generator of grit trap waste, grease trap waste or septage shall sign the manifest presented by the liquid waste transporter holding a control authority permit at the time of service and shall keep the generator manifest copies for a period of five (5) years. The records, both the generator copy (yellow) and the generator - final copy (goldenrod) shall be maintained at the location where the interceptor is located, unless a written request to store the records at a different location is submitted to the control authority for approval and the control authority approval is granted. Appropriate department personnel may inspect such receipts during normal business hours.

(e) A generator shall, in addition to the requirements above, be responsible for performing the following:

1. Install or provide a collection point for grit trap waste, grease

trap waste, or septage of a size and type specified by the appropriate city, state, or federal authority, if any such specification exists. This facility may be the same (with possible modifications or adaptations) required by the control authority pursuant to the San Antonio City Code, chapter 34, article V, division 3, as may be amended.

2. Continuously maintain the collection point in an accessible, clean, safe and proper operational condition.

3. Monitor the transporter's evacuation and cleaning of the waste interceptors.

4. Report discharges, spills or accidents involving the collection point which pose a threat to the public health or potential damage to the environment involving the collection point to the department immediately.

5. Recover all accidental spills and discharges immediately and have such waste disposed of by a transporter holding a valid permit, license or registration from the appropriate city, state, or federal authority.

(f) Generators are prohibited from placing any agent, including but not limited to emulsifiers, surface active agents, enzymes, degreasers or any type of product that will liquefy grease trap wastes, directly into a grease trap or into any drain that leads to the grease trap.

(2) *Mobile waste generators.* Liquid waste generated by bus companies, recreational vehicles or other mobile sources must be disposed into the sanitary sewer system via a cleanout designed for this purpose or at an appropriate disposal facility. It shall be considered a violation of chapter 34, article VI, division 5, section 34-702(a)(6) to allow liquid waste to discharge into a street, storm drainage system, water course or stream or other unapproved location.

(3) *Disposal site operators.* Liquid waste disposal site operators which accept liquid waste from a transporter permitted by the control authority shall comply with the terms of this division and receive waste from a transporter holding a control authority permit issued hereunder according to the requirements of the permit and this division. Every disposal site operator shall maintain the operator's copy of a manifest from a control authority liquid waste transporter permit for a period of five (5) years. The disposal site operator shall submit copies of all liquid waste manifests to the control authority on a monthly basis, by the 15th day of each month.

(4) *Commercial vehicle wash facilities.* A commercial vehicle wash facility which uses a registered vehicle wash grit drying facility shall comply with the following requirements:

(a) The commercial vehicle wash owner/operator must use a permitted liquid waste transporter to collect and dispose of commercial vehicle wash grit trap waste if public right-of-way will be used for the transportation and/or disposal of such waste while in liquid form (prior to drying).

(b) The commercial vehicle wash owner/operator must clean out each grit trap quarterly, at a minimum, or more often as needed to prevent illegal discharge of pollutants into the sanitary sewer collection system and to ensure proper operation of the grit trap(s) as a pretreatment device. Owners of facilities performing onsite self-servicing of grit traps must document the date the trap was cleaned, the approximate quantity of waste removed for drying,

the date the dried grit was sent offsite for final disposal, and the final disposal location. A control authority liquid waste transportation manifest is not required for onsite transfers, as long as the self-serving record are maintained. The commercial vehicle wash owner shall submit this information to the control authority annually by December 31 of each year.

(c) If the vehicle wash grit drying facility is located onsite and public right-of-way is not used for transferring the waste from the interceptor to the drying facility, the waste must be transferred in a manner that prevents spillage. In the event grit is spilled during the transfer, the spill must be cleaned up immediately. Grit may not be placed into a stormwater collection system.

(5) *Vehicle wash grit drying facilities.* Vehicle wash grit drying facilities shall comply with the following requirements:

(a) The submittal of a letter requesting a registration number and describing the vehicle wash grit drying facility, signed by the owner of the facility, shall be submitted to the control authority. This letter should individually list the addresses of each commercial vehicle facility that will dry its wastes at the drying facility. The control authority will issue a registration number to each drying facility.

(b) The vehicle wash grit drying facility, at a minimum, shall be constructed in a manner that is liquid tight and which ensures that all drainage from the facility, if any, is returned to the onsite sanitary sewer collection system at a point upstream from the grit trap. The drying facility must be enclosed or protected in a manner to prevent intrusion or infiltration of stormwater. Public access to the drying facility must be restricted.

(c) When commercial vehicle wash grit trap wastes are received from an offsite commercial vehicle wash facility, the drying facility must complete the disposal plant operator section of the manifest. The drying facility shall maintain the pink copy of the manifest in accordance with sections 34-516.3 and 34-518.3 and shall submit copies of all liquid waste manifests to the control authority on a monthly basis, by the 15th of each month. The drying facility may only accept wastes from commercial vehicle wash facilities owned by the same company.

(d) Commercial vehicle wash grit trap waste is considered appropriately dried when it passes TCEQ's paint filter test. Once the waste is appropriately dried, it is no longer considered liquid waste for the purpose of this division.

(e) The control authority may revoke a drying facility's registration for failure to comply with the applicable provisions of this division. In the event that the control authority revokes a facility's drying registration, the facility must maintain any onsite grit traps in accordance with this division.

(Ord. No. 80574, § 14, 8-4-94; Ord. No. 85765, § 2, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04; Ord. No. 2019-02-14-0123, § 1(Att. I), 2-14-19)

Sec. 34-519. Suspension of permit.

The director may suspend or revoke permit upon a finding by the department that a permittee, or an agent or employee of the permittee has violated any of the terms or conditions of the permit or of this division and that the number or severity of the violations justify the suspension of the permit.

(Ord. No. 80574, § 14, 8-4-94; Ord. No. 85765, § 2, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04)

Sec. 34-520. Enforcement.

(1) *Notice of alleged violations.* Whenever the director believes that any person or permittee has violated or is violating this division and/or the liquid waste transportation permit, the director or his designated representative may serve (either personally or by registered or certified mail) upon such person or permittee a written notice stating the nature of the alleged violation. The recipient of an alleged violation notice must respond in writing to the director or his designated representative within fifteen (15) working days from the receipt of such notice.

Should the recipient of an alleged violation notice fail to respond in writing to the director within the initial fifteen (15) working day response period, as outlined in section 34-520, the recipient person or permittee shall be deemed to have admitted to responsibility for the violation.

(2) *Response by person or permittee to notice of alleged violation.* The person or permittee responding to receipt of an alleged violation notice shall file written response, as required by section 34-520, in the most applicable of the following forms:

(a) Should the person or permittee admit his or her responsibility for the alleged violation, the person or permittee must submit a letter report to the director which:

1. If the nature of the violation of either the permit or this division involves a discharge or disposal of liquid waste that is prohibited herein, contain information regarding the time, date, location, cause, source, quantity, quality and concentration of the discharge or disposal and the corrective measures actually taken by the person or permittee to recover or neutralize the discharge, self-reporting notices submitted to any state, federal or other agencies having jurisdiction, and actions to be taken by the person or permittee to prevent any similar recurrent discharges or disposal.
2. If the nature of the violation of either the permit or this division involves an administrative or procedural non-compliance, the letter report shall contain information regarding corrective measures and time schedules the person or permittee has adopted to assure expeditious and continued compliance.

(b) Should the person or permittee deny his or her responsibility for the alleged violation, the person or permittee must submit a letter report to the director explaining why responsibility is being contested.

(3) *Legal action.* Despite any other provisions contained in this division, the environmental counsel for the control authority is hereby authorized to seek legal and/or equitable remedies against any person or corporation believed by the department to be violating or have violated this division, the provisions of a liquid waste transportation permit, and/or federal or state laws governing water quality, industrial wastewater pretreatment, and hazardous or non-hazardous liquid waste transportation over which the control authority has enforcement authority. A legal proceeding prosecuted under this division does not constitute a waiver by the city water system of any right the city may have to join in a legal action originating from an alternative source of law.

The city water system may commence such actions for appropriate legal and/or equitable relief in courts having proper jurisdiction and may seek civil penalties and any other legal or equitable relief available under common law, Chapter 54 of the Texas Local Government Code, or any other applicable local, state, or federal code or statute.

(4) *Penalties.*

(a) *Criminal.* A conviction for violation of this division shall constitute a class C misdemeanor. A person convicted of a violation of this division shall be fined a minimum amount of not less than two hundred dollars ($200.00) per violation and a maximum amount of not more than two thousand dollars ($2,000.00)

per violation. Each violation of a particular section of this division shall constitute a separate offense, and each day an offense continues shall be considered a new violation for purposes of enforcing this division. A culpable mental state is not required to prove an offense under this division. The president/CEO of the city water system is hereby authorized to designate qualified city water system personnel to serve notices of violations of this section and take all necessary action to file a complaint with the municipal prosecutor's office.

(b) *Civil.* A civil penalty in an amount not to exceed five thousand dollars ($5,000.00) per violation of this division may be imposed. Each violation of a particular section of this division shall constitute a separate offense, and each day such an offense continues shall be considered a new violation for purposes of enforcing this division. A culpable mental state is not required to prove an offense under this ordinance.

(Ord. No. 80574, § 14, 8-4-94; Ord. No. 85765, § 2, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04)

Sec. 34-521. Fees.

All liquid waste transporters shall pay the following fees, as appropriate, and in accordance with the current fee schedule:

(1) A permit fee for each vehicle to be permitted;

(2) A fee for each reinspection required for a vehicle to qualify for an annual liquid waste hauling permit;

(3) A sampling fee;

(4) An analysis fee;

(5) A disposal site fee for disposing of septic or chemical toilet wastes at a control authority disposal facility;

(6) A manifest booklet fee;

(7) A disposal site holiday access fee (transporters must give two (2) weeks' notice to SAWS to schedule access when fee is paid);

(8) A disposal site weekend access fee (transporters must give two (2) weeks' notice to SAWS to schedule access when fee is paid);

(9) Other fees as the control authority may deem necessary to carry out the requirements contained herein, such as, but not limited to emergency response fees or special sampling fees. These fees relate solely to the matters covered by this division and are separate from all other fees, fines and penalties chargeable by the control authority or any other agency.

The special service charges outlined in Schedule F, liquid waste hauler fee schedule, relating to liquid waste hauler permits shall be lawful rates charged by the system effective January 1, 2025. The Schedule F charges shall be adjusted on January 1 of each year thereafter by the percentage difference (greater than zero (0)) between the Consumer Price Index for All Urban Consumers (CPI-U) as it is calculated by the United States Bureau of Labor Statistics at the end of the month of July prior to the next year and as it was calculated at the end of the month of July one (1) year earlier, and subsequently rounded to the nearest dollar. SAWS will periodically perform a cost of service analysis to ensure that the fees charged do not exceed the cost of providing the services.

(Ord. No. 85765, § 2, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04; Ord. No. 2007-12-13-1345, § 2(Att. B), 12-13-07; Ord. No. 2011-12-08-1004, § 2(Exh. L), 12-8-11; Ord. No. 2015-11-19-0956, § 4(Att. III), 11-19-15, Res. No. 16-302, Att. IV; Ord. No. 2017-12-07-0928, § 3(Att. II), 12-7-17; Res. No. 18-262, 11-13-18; Res. No. 19-280, 7(Att. V), 11-5-19; Ord. No. 2022-11-10-0867, § 2(Att. II), 11-10-22; Res. No. 2023-198, 10-3-23; Res. No. 2024-227, § 7(Att. IV), 11-5-24)

Sec. 34-522. Severability.

If any word, phrase, clause, paragraph, part or provision of this division or its subsections or the

application thereof to any person or circumstance shall be held to be invalid or unconstitutional, the remainder of that subsection and of this division shall nevertheless be valid, and the city council hereby declares that the subsection would have been enacted without such invalid, or unconstitutional word, phrase, clause, paragraph, part or provision.
(Ord. No. 80574, § 14, 8-4-94; Ord. No. 85765, § 2, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04)

Sec. 34-523. Right of revision.

The city reserves the right to amend this division at any time to establish more stringent specific limitations or requirements on disposal to the regional wastewater transportation and treatment system if deemed necessary by the city to protect the collection, treatment operations and processes or to cure or prevent an effluent quality problem in potential landfill leachates, treated wastewater and/or resulting sludges. The city reserves the right to amend this division to comply with the general objectives and purposes presented in Article V, Division 3, Industrial Waste and Pretreatment.
(Ord. No. 80574, § 14, 8-4-94; Ord. No. 85765, § 2, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04)

Sec. 34-524. Conflict.

All other divisions and parts of other divisions directly conflicting with any part of this division are hereby repealed only to the extent of such direct conflict.
(Ord. No. 80574, § 14, 8-4-94; Ord. No. 85765, § 2, 3-20-97; Ord. No. 99480, § 1(Exh. 1), 7-22-04)

DIVISION 5. FATS, OILS AND GREASE

Sec. 34-525. General provisions.

(a) *Purpose.* The purpose of this division is to aid in the prevention of sanitary sewer blockages and obstructions caused by the accumulation of fats, oils and grease that are discharged into the sanitary sewer system.

(b) *Application.* This division shall apply to all food service establishments (FSEs) and food processing establishments (FPEs) that are located within the corporate limits of the city, or that are within the extraterritorial jurisdiction of the city and to all FSEs and FPEs that receive sanitary sewer service from the San Antonio Water System (SAWS) or that discharge any liquids or solids into the publicly owned treatment works (POTW).

(c) *Definitions.* As used anywhere in this division, the following terms are defined to mean:

City: The City of San Antonio, a Texas home rule municipality.

City Code: The City of San Antonio, Texas Code of Ordinances.

Commercial establishment: Any location where a person manufactures, packages, prepares, provides, serves, or makes available any meals, or food for sale, for monetary compensation, or for non-monetary consideration.

Fats, oils, or *grease:* Any animal, vegetable, or mineral fats, oils, or greases and any organic polar compounds derived from animal and/or plant sources that contain multiple carbon chain triglyceride molecules.

FPE or *FPEs:* A food processing establishment or establishments, which are any commercial establishments in which food for human consumption is manufactured or packaged.

FSE or *FSEs:* A food service establishment or establishments, which are any commercial establishments that prepare, provide, serve, or make available for human consumption meals, or any food.

Interceptor: A device for collecting, containing, or removing food wastes or fats, oils, or grease from a waste stream before entering the POTW.

Person: An individual, partnership, joint venture, firm, company, corporation, association, joint stock company, governmental entity, trust, estate, sole proprietorship, or legal entity of any kind or character.

POTW: The publicly owned treatment works that is comprised of the sanitary sewer system, including treatment plant and collection infrastructure, operated by SAWS.

SAWS: The San Antonio Water System, an agency of the city, created by City Ordinance No. 75686, passed April 30, 1992.
(Ord. No. 2011-05-12-0378, § 1(Exh. A), 5-12-11; Ord. No. 2011-12-08-1004, § 2(Exh. L), 12-8-11; Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14; Ord. No. 2015-11-19-0956, § 4(Att. III), 11-19-15)

Sec. 34-526. Interceptors.

(a) *Pretreatment required.* Waste pretreatment that complies with this section is required before an FSE or FPE may discharge fats, oils, or grease into the POTW.

(b) *Interceptor required.* Each FSE and FPE shall discharge all waste from sinks, dishwashers, drains, and any other fixtures or sources through which fats, oils, or grease may be discharged into the POTW into a properly maintained and functioning interceptor that complies with the requirements of chapter 10 of the City Code and the International Plumbing Code and appendices as amended that are adopted by the city in that chapter.

(c) *Existing facilities.* Existing FSEs and FPEs that are not equipped with an interceptor that complies with the requirements of chapter 10 of the City Code and the International Plumbing Code and appendices as amended that are adopted by the City in that chapter shall install such an interceptor not later than one hundred eighty (180) days after the effective date of the ordinance from which this division derives.

(d) *New facilities.* New FSEs and FPEs shall be equipped with an interceptor that complies with the requirements of chapter 10 of the City Code and the International Plumbing Code and appendices as amended that are adopted by the city in that chapter prior to commencement of any discharge into the POTW.
(Ord. No. 2011-05-12-0378, § 1(Exh. A), 5-12-11; Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-527. Maintenance.

(a) *General requirements.* Each interceptor shall be continuously maintained in effective operational condition by and at the expense of the FSE or FPE that is required by this division to utilize or install the interceptor.

(b) *Frequency.* Each FSE and FPE that is required by this division to utilize or install an interceptor shall evacuate accumulated solids, fats, oils, grease and all other material(s) from each interceptor at a frequency not less often than every ninety (90) days and within two (2) working days whenever twenty-five (25) percent or more of the wetted height of the interceptor, measured from the bottom of the device to the invert of the outlet pipe, contains floating materials, sediment, fats, oils, or grease.

(1) FSEs or FPEs that conduct operations for less than one hundred twenty (120) days in a calendar year may submit a written request to SAWS to be permitted to evacuate interceptors as required by subsection 34-527(b) at a frequency less often than every ninety (90) days. The FSE or FPE submitting the request shall comply with subsection 34-527(b) unless SAWS provides written approval of a different frequency for the evacuation of the interceptors that are the subject of the request. Any revised frequency approved by SAWS for the evacuation of an interceptor shall not affect the requirement that an FSE or FPE shall evacuate an interceptor within two (2) working days whenever twenty-five (25) percent or more of an interceptor contains materials as required by subsection 34-527(b).

(2) Reserved.

(c) *Interceptor pumping and evacuation.*

(1) For each interceptor that has a capacity greater than one hundred (100) gallons, FSEs and FPEs shall use a liquid waste hauler that is permitted by SAWS to collect, transport and dispose of liquid waste pursuant to chapter 34, article V, division 4 of the City Code, to evacuate an interceptor. FSEs and FPEs shall

cause the wastes in an interceptor to be completely evacuated by a waste hauler at the time of each interceptor evacuation that is required by this division. Interceptor waste shall be disposed of only at a facility that is authorized and permitted by applicable law to receive such waste for disposal.

(2) For each interceptor that has a capacity less than or equal to one hundred (100) gallons, FSEs and FPEs may use a liquid waste hauler that is permitted by SAWS to collect, transport and dispose of liquid waste pursuant to chapter 34, article V, division 4 of the City Code, to evacuate an interceptor. FSEs and FPEs shall cause the wastes in an interceptor to be completely evacuated at the time of each interceptor evacuation that is required by this division. Interceptor waste shall be disposed of only at a facility that is authorized and permitted by applicable law to receive such waste for disposal.

(d) *Interceptor inspection.* Not less frequently than once per calendar year, each FSE and FPE shall cause a licensed plumber or other qualified professional approved by SAWS to inspect each interceptor. After evacuation of the interceptor, the licensed plumber or other qualified professional approved by SAWS shall make a visual observation of and shall photograph all inlet and outlet fittings, internal baffles, walls, floor and all other internal structures. Each FSE and FPE shall cause the licensed plumber or other qualified professional approved by SAWS conducting the inspection to provide a written report of the inspection to the FSE or FPE that includes the photographs that are required by this section and that provides the name, address and telephone number of the licensed plumber or other qualified professional approved by SAWS conducting the inspection, the date of the inspection, and a description of any defects observed during the inspection. All defects shall be corrected by each FSE or FPE within ninety (90) days of each inspection.
(Ord. No. 2011-05-12-0378, § 1(Exh. A), 5-12-11)

Sec. 34-528. Record keeping.

(a) For each interceptor that has a capacity greater than one hundred (100) gallons, each FSE and FPE shall maintain all records that document each inspection, repair, cleaning, evacuation, service, or pumping of each interceptor as required in section 34-516.

(b) For each interceptor that has a capacity less than or equal to one hundred (100) gallons, each FSE and FPE shall maintain all records that document each inspection, repair, cleaning, evacuation, service, or pumping of each interceptor as required by section 34-516, if a liquid waste hauler that is permitted by SAWS to collect, transport and dispose of liquid waste is used to evacuate an interceptor. If a permitted liquid waste hauler is not used to evacuate an interceptor, then each FSE and FPE shall maintain a cleaning log that lists the location and type of each interceptor, the date and time of each interceptor evacuation, the quantity of material removed from the interceptor, the location where the material removed from the interceptor was disposed of, and the signature of the employee performing the evacuation of the interceptor.

(c) All records required by this division shall be maintained by each FSE and FPE for a period of five (5) years after the date of the event that is the subject of the record. All such records shall be available for inspection on the premises of the FSE or FPE where the interceptor that is the subject of the record is located, unless a written request to store the records at a different location is submitted to SAWS and SAWS approves the request.
(Ord. No. 2011-05-12-0378, § 1(Exh. A), 5-12-11)

Sec. 34-529. Prohibitions.

(a) *Prohibited discharge to an interceptor.* Discharge into an interceptor of sanitary waste, solvents, emulsifiers, enzymes, chemicals, products, or bacteria that digest, liquefy, dissolve, or emulsify fats, oils, or grease is prohibited.

(b) *Removed interceptor waste.* Liquids removed from an interceptor that has a capacity equal to or less than one hundred (100) gallons may be returned to an interceptor that complies with the

requirements of this division. Grease, solids, or any matter other than liquids removed from an interceptor that has a capacity equal to or less than one hundred (100) gallons shall not be returned to an interceptor and shall not be disposed of in any private sanitary sewer line or any portion of the POTW and must be disposed of in a facility that is authorized by law to receive such wastes. Liquids removed from an interceptor that has a capacity equal to or less than one hundred (100) gallons that are not returned to an interceptor shall not be disposed of in any private sanitary sewer line or any portion of the POTW and must be disposed of in a facility that is authorized by law to receive such wastes. Grease, solids, liquids, or any other matter removed from an interceptor that has a capacity greater than one hundred (100) gallons shall not be returned to any interceptor, or disposed of in any private sanitary sewer line, any portion of the POTW, or any location other than a facility that is authorized by law to receive such wastes.

(c) *No bypass.* No liquid or solid waste that contains fats, oils, or grease may be discharged directly into the POTW. All liquids and solids that contain fats, oils, or grease that may be discharged by a FSE or a FPE into the POTW must be discharged into an interceptor before any such discharges enter the POTW. Should an interceptor require repair, upon written request to and the receipt of written approval from SAWS a bypass of the interceptor shall be permitted for the duration of the repair, but in no event for more than eighteen (18) consecutive hours. Each FSE or FPE shall create a written record that describes the repairs made to the interceptor, the date and time of the commencement of any interceptor repairs and of any bypass during the repairs, and the date and time of the termination of the repairs and of the bypass.
(Ord. No. 2011-05-12-0378, § 1(Exh. A), 5-12-11; Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-530. Fees.

(a) In order to recover the costs for the implementation of this division, each SAWS account associated with each FSE and each FPE shall be assessed a fee of eighteen dollars ($18.00) per month.

(b) This fee shall be effective January 1, 2024. This fee shall be adjusted on January 1 of each year thereafter by the percentage difference (greater than zero (0)) between the Consumer Price Index for All Urban Consumers (CPI-U) as it is calculated by the United States Bureau of Labor Statistics at the end of the month of July prior to the next year and as it was calculated at the end of the month of July one (1) year earlier, and subsequently rounded to the nearest dollar. SAWS will periodically perform a cost of service analysis to ensure that the fees charged do not exceed the cost of providing the services.
(Ord. No. 2011-12-08-1004, § 2(Exh. L), 12-8-11; Ord. No. 2015-11-19-0956, § 4(Att. III), 11-19-15, Res. No. 16-302, Att. IV; Ord. No. 2017-12-07-0928, § 3(Att. II), 12-7-17; Res. No. 18-262, 11-13-18; Res. No. 19-280, 7(Att. V), 11-5-19; Ord. No. 2022-11-10-0867, § 2(Att. II), 11-10-22; Res. No. 2023-198, 10-3-23)

Sec. 34-531. Enforcement.

(a) The failure to perform any action that is required by this division or the performance of any action that is prohibited by this division shall constitute a violation of this division.

(b) System-wide enforcement. The following enforcement provisions apply throughout the SAWS service area and to all FSEs and FPEs that receive sanitary sewer service from SAWS or that discharge into the POTW.

(1) *Access to premises.* Employees of SAWS, or its authorized agents shall have the authority to enter the property of a FSE or FPE to conduct inspections of all or any part of the premises, to inspect and copy documents that a FSE or FPE is required by this division to generate or maintain, to make photographic documentation and to perform any other action, or to obtain any other information related to compliance with this division. Each FSE and FPE shall allow access to its property and facilities for any of such purposes.

(2) *Notice of violation.* Should SAWS give written notice of a violation of this division to a FSE or FPE and the violation is

not completely remedied within ninety (90) days after the date of the notice, then in that event SAWS may terminate water and/or sewer service to the location where the violation occurred upon the approval of a resolution by the SAWS board of trustees authorizing such termination.

(3) *Additional enforcement remedies.* In addition to any other remedies provided in this division, SAWS may, at any time, pursue any other legal and/or equitable remedy to require compliance with this division.

(c) Enforcement within the city. The following enforcement provisions apply within the corporate limits of the city and within the extraterritorial jurisdiction of the city.

(1) *Access to premises.* Employees of the city, SAWS, or their authorized agents shall have the authority to enter the property of a FSE or FPE to conduct inspections of all or any part of the premises, to inspect and copy documents that a FSE or FPE is required by this division to generate or maintain, to make photographic documentation and to perform any other action, or to obtain any other information related to compliance with this division. Each FSE and FPE shall allow access to its property and facilities for any of such purposes.

(2) *Notice of violation.* Should SAWS give written notice of a violation of this division to a FSE or FPE and the violation is not completely remedied within ninety (90) days after the date of the notice, then in that event SAWS may terminate water and/or sewer service to the location where the violation occurred upon the approval of a resolution by the SAWS board of trustees authorizing such termination.

(3) *Criminal penalty.* A conviction for a violation of any provision of this division shall constitute a class C misdemeanor. A person convicted of a violation of any provision of this division shall be fined an amount of not less than two hundred dollars ($200.00) per violation and a maximum of not more than two thousand dollars ($2,000.00) per violation. Each violation of this division shall constitute a separate offense, and each day a violation continues shall be considered a new offense. A culpable mental state is not required to prove an offense under this division.

(4) *Civil penalty.* A civil penalty may be imposed upon a person for each violation of any provision of this division in an amount not to exceed five thousand dollars ($5,000.00) per violation. Each violation of any provision of this division shall constitute a separate violation, and each day a violation continues shall be considered a new violation.

(5) *Additional enforcement remedies.* In addition to any other remedies provided in this division, the city or SAWS may, at any time, pursue any other legal and/or equitable remedy to require compliance with this division.

(d) Authorization to enforce. SAWS is authorized to take any action authorized by this division and to pursue enforcement against any person violating this division. The grant of authority set out in this section does not in any way diminish the authority of the office of the city attorney to take any action necessary to enforce the terms of this division, to prosecute violations of this division, and to defend the legality of this division, if challenged.
(Ord. No. 2011-05-12-0378, § 1(Exh. A), 5-12-11; Ord. No. 2011-12-08-1004, § 2(Exh. L), 12-8-11)

Secs. 34-532—34-550. Reserved.

ARTICLE VI. WATER QUALITY CONTROL AND POLLUTION PREVENTION

DIVISION 1. GENERALLY

Secs. 34-551—34-565. Reserved.

DIVISION 2. WELLS*

Sec. 34-566. Powers and duties of the SAWS board.

(a) The San Antonio Water System (SAWS) Board shall have the following powers:

(1) To make or have made examinations of all wells, privately owned or otherwise, within the limits of the City of San Antonio or within SAWS service area, or as a requirement to obtain a utility service agreement;

(2) To sample or have sampled water from any well and make or have made analyses or tests of such water from any well located within the City of San Antonio, the City of San Antonio extra-territorial jurisdiction (ETJ), SAWS service area, or as a condition to obtaining a utility service agreement and to require a well owner to obtain a well log if no such log is available;

(3) To go upon the land and property of the owner of a well for any purpose allowed in this division;

(4) To require the owner to furnish all available information when requested concerning a well, including, in the case of new wells, complete logs of the well showing depth to and depth through all geologic formations encountered. This requirement includes at least one (1) borehole per geothermal system;

(5) To supervise the construction, repair, and plugging of wells and the operation of such wells. The SAWS Board or its duly authorized agent shall keep a register of all wells within the limits of the City of San Antonio, City of San Antonio ETJ or within SAWS service area. This register shall, at a minimum, show for each well the name of the owner, exact location, date of construction, depth and diameter, the purpose for which the well was constructed, and, if applicable, date of plugging.

(b) It shall be a violation of this division for any person to refuse or otherwise fail to comply with any requirement of this division, or with any order of the SAWS board made in conformity with and under the authority of this division.
(Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-566.5. Definitions.

Abandoned well means any water supply well that is no longer in use, is not properly maintained and operated, or is in such a state of disrepair that using it to obtain water is impractical or a health or environmental hazard.

City means the City of San Antonio a Texas home rule city.

Contaminating well means a well that allows the detrimental alteration of the naturally occurring physical, thermal, chemical, or biological quality of groundwater.

Defective well means a well that is structurally compromised, either at the ground surface or in the subsurface that would potentially allow the entrance of surface water into the well or the mixing of waters within the wellbore that is not permitted by applicable regulations.

Geothermal borehole means a borehole drilled or bored into the earth into which piping is inserted for use in a geothermal system.

Geothermal system means a geothermal system uses the Earth's thermal properties in conjunction with electricity to provide greater efficiency in the heating and cooling of buildings.

TCEQ means the Texas Commission on Environmental Quality.
(Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

*__Editor's note—__Ord. No. 2014-06-19-0472, § 1(Exh. A), adopted June 19, 2014, amended division 2 in its entirety to read as herein set out. Formerly, division 2 pertained to similar subject matter, and derived from Ord. No. 80574, § 15, adopted August 4, 1994; Ord. No. 86747, § 1, adopted October 2, 1997; Ord. No. 2007-12-13-1345, § 2(Att. B), adopted December 13, 2007, and Ord. No. 2011-12-08-1004, § 2(Exh. L), adopted December 8, 2011.

Sec. 34-567. Permit for drilling new well required.

(a) It shall be unlawful for anyone to drill, maintain, or otherwise construct or have constructed, any new water well, or any other artificial excavation to explore for or produce groundwater, or geothermal borehole for the purpose of a earth-coupled heat exchange system, within the City of San Antonio or SAWS service area, without first applying for and securing a well drilling permit from the SAWS Resource Protection and Compliance (RPC) Department. This section shall not apply to: (1) monitoring wells and test wells with a depth of less than fifty (50) feet; (2) blast holes in quarries and mines; and (3) wells or excavations for the exploration or production of oil, gas, or minerals, unless, without regard to the original purpose, the well is used as a source of water.

(b) All drilling or construction of water wells, and injection wells for the purpose of an earth-coupled heat exchange system, shall be done in strict compliance with the terms of the well drilling permit, the SAWS Water Well Permitting Procedures, International Ground Source Heat Pump Association (IGSHPA) and 30 Texas Administrative Code (TAC), Chapter 331.

(c) In addition to the requirements of paragraphs (a) and (b) of this section, any water well which will penetrate the Edwards Aquifer shall be drilled and maintained in strict compliance with 30 TAC, Chapter 213 et seq., as amended. This paragraph does not apply to borehole loops for the purpose of an earth-coupled heat exchange system.

(d) To preserve the water quality of the Edwards Aquifer, the construction of any bore hole, injection well for the purpose of an earth-coupled heat exchange system, or water well for the purpose of an earth-coupled heat exchange system located over the Edwards Aquifer Recharge Zone and Transition Zone shall be prohibited.

(e) An open system, geothermal well that draws water from an aquifer that is circulated through a heat exchange system or geothermal wells which inject water into an aquifer, or to a surface water body, will not be permitted within the limits of the City of San Antonio, City of San Antonio ETJ, or within SAWS service area.
(Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-568. Permit for repair or plugging of existing well required.

It shall be unlawful for any person to reconstruct, repair, correct, or plug a well or injection well for the purpose of an earth-coupled heat exchange system, or to engage upon such work, within the City of San Antonio, San Antonio ETJ, or the SAWS service area, or to employ anyone else to engage in such work, without first applying for and securing a permit from the SAWS RPC Department.
(Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-569. Application for permit—Information required.

Every application for a permit for the drilling, construction, repair, or plugging of a well or the construction of an injection well for the purpose of an earth-coupled heat exchange system, shall be considered incomplete unless all information requested by the SAWS application form has been provided. The SAWS RPC Department shall maintain and update permit application terms to request all information necessary to carry out the intent of this division and to assure protection of the ground water aquifers by detecting and preventing the drilling or use of wells in a manner that may cause damage to or waste of water in an aquifer.
(Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-570. Inspection before issuance of permit.

It shall be the duty of the SAWS RPC Department to consider every permit application submitted under this division, to inspect the property where any well will be drilled, sunk, dug, or bored, and to refuse issuance of a permit when:

(a) The location or manner of construction of the proposed well does not meet with the SAWS RPC Department's approval of

drainage and other sanitary conditions, or does not meet applicable State well construction requirements; or

(b) The proposed well would be located on property to which water service is currently available from SAWS or any other water purveyor; or

(c) Water service from existing SAWS water mains or service lines, or from any other water purveyor, could be established to the property on which the proposed well is located at a cost equal to or less than the cost of drilling the well as required by the RPC Department; or

(d) The intended use of the water to be produced by the proposed well could be accomplished using reuse water, and reuse water service is available to the property or could be made available at a cost equal to or less than the cost of drilling the proposed well.

(e) Subsection (b), (c) and (d) of this section do not apply to injection wells for the purpose of an earth-coupled heat exchange system.

(Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-571. Execution of permit.

All permits shall be executed in triplicate, one (1) copy to be delivered to the applicant and two (2) copies to be retained in the SAWS Resource Protection and Compliance Department. A permit is valid for six (6) months from the date of issuance of the permit.

(Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-572. Permit fees.

The fees to be paid to SAWS for the permits required by this article shall be as follows:

Permit for closure or repair of existing well	$666.00
Permit for drilling new well	666.00
Permit for the construction of a geothermal heat exchange system	666.00

The fee schedule may be amended, as needed, when a change in the amount of fees is required to adequately recover the costs reasonably related to the performance of these functions for which the fee is charged. The fee amounts are effective January 1, 2025. The fee amount shall be adjusted on January 1 of each year thereafter by the percentage difference (greater than zero (0)) between the Consumer Price Index for All Urban Consumers (CPI-U) as it is calculated by the United States Bureau of Labor Statistics at the end of the month of July prior to the next year and as it was calculated at the end of the month of July one (1) year earlier, and subsequently rounded to the nearest dollar. SAWS will periodically perform a cost of service analysis to ensure that the fee charged does not exceed the cost of providing the service.

(Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14; Ord. No. 2017-12-07-0928, § 4(Att. III), 12-7-17; Ord. No. 2022-11-10-0867, § 2(Att. II), 11-10-22; Res. No. 2023-198, 10-3-23; Res. No. 2024-227, § 7(Att. IV), 11-5-24)

Sec. 34-573. Nuisance of defective or contaminating wells, abatement.

(a) Any defective or contaminating well, as described herein, is hereby found to be a threat to the water supply of the City of San Antonio, a potential source of disease, injurious to the public health, and is hereby declared a nuisance.

(b) For the purpose of this division a contaminating well is considered to be any well or other opening which penetrates the underground water supply and which in any way pollutes or contaminates any other well or the city's water supply.

(c) For the purpose of this division a defective well is considered to be: any well, whether dug or drilled, which for any reason does not completely prevent, or which has the potential to allow, the mixing of water or other liquid from above and below the source of the city's water supply (the ground water aquifers) with the water in the source of the city's water supply; or any water well that was constructed without a permit and associated inspections.

(d) The City of San Antonio, acting through the SAWS Board, pursuant to said § 217.042 or § 401.002 of the Texas Local Government Code Ann. (Vernon's 1994), and § 342.001 of the Texas Health & Safety Code Ann. (Vernon's 1994), may require the abatement of such nuisance. The SAWS RPC Department may, on its own initiative or upon information or complaint from any source, make an examination of any well suspected of being defective. If such examination indicates in the opinion of the SAWS RPC Department Water Quality Division that the well is a contaminating or defective well or that the water from such well is unsafe for human consumption, then the director, or his authorized representative of the SAWS RPC Department shall issue an order or written instructions to the owner or his agent in charge of such well or the property upon which it is situated to plug this well in such a manner as prescribed by the SAWS Board and in compliance with TNRCC regulations and SAWS Water Well Permitting Procedures. In the event that a surface or subsurface release of contaminants occurs within the immediate area of a well, the owner of that well shall allow SAWS to conduct an inspection, or to conduct monitoring activity of that well. If that well is later found to be contaminated, SAWS may direct the owner to plug and abandon that well. (Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-574. Abandoned wells.

(a) For the purpose of this division a well is considered to be an abandoned well if it has not been used for a period of six (6) consecutive months or longer. A well is considered to be in use in the following cases:

(i) A non-deteriorated, non-defective or non-contaminating well which contains the casing, pump and pump column in good condition, and which is connected to an active electrical or other power source; or

(ii) A non-deteriorated, non-defective or non-contaminating well which has been properly capped, and for which a variance has been granted by the SAWS RPC Department.

(b) It is hereby declared that an abandoned well, as defined in subsection (a) above, has the potential to pollute the water supply or be otherwise injurious to the public health, and, pursuant to Tex. Loc. Govt. Code Ann. §§ 217.042 and 401.002 (Vernon's 1994), is hereby declared a nuisance, for which the City of San Antonio, acting through the SAWS Board, pursuant to the Code, may require the abatement of such nuisance.

(c) The owner, operator, or agent in charge of an abandoned well shall notify the SAWS RPC Department of that condition. Every abandoned well shall be plugged in accordance with all applicable TCEQ regulations and SAWS Water Well Permitting Procedures and with such materials and in such manner as in the judgment of the Director of the SAWS RPC Department will prevent the pollution and contamination of the City of San Antonio's water supply or of any other well within the limits of the city of the SAWS service area.

(d) Whenever SAWS shall receive notice from any source of the existence of an abandoned well which has not been plugged and filled in accordance with the provisions of this division, the SAWS RPC Department shall notify the owner, operator, or agent in charge of such well or of the property upon which it is situated that such well is abandoned and shall order such person to fill and plug the well in accordance with this division of the Code.

(e) The SAWS RPC Department may require any owner of a capped well to take any action necessary or to provide any information or materials necessary to establish that such a capped well is not defective, contaminating, or deteriorated.
(Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-575. Failure to abate nuisance, remedies.

Should the owner, operator, or agent in charge responsible for the contaminating, defective, or

[This page intentionally left blank.]

abandoned well which has been declared a nuisance, or for the property on which it is situated, fail to abate such nuisance within the prescribed time from the date of issuance of notice of nuisance or order issued pursuant to sections 34-573 or 34-574 hereof, or if, after exercising reasonable diligence, the SAWS Board is unable to locate the owner, operator, or agent in charge, the City of San Antonio, acting through the SAWS Board, pursuant to the Health and Safety Code §§ 342.001 et seq., shall have the right to go on the property upon which the well is situated and abate such nuisance in the manner provided, and the owner thereof shall be liable to the City of San Antonio for the cost of such work and shall pay such cost upon demand, and the City of San Antonio, acting through the SAWS Board, shall have the right to file a lien on the property to secure payment of the costs of such work.
(Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-576. Variance and appeal. (a)

(a) A person who has properly applied for and has been denied a permit by the SAWS RPC Department under sections 34-567 through 34-570 hereof may request a variance from the application of this division. All requests for variances shall be made in writing to the SAWS RPC Department and shall include:

(i) The subject of the requested variance, and

(ii) The justification for granting a variance.

(b) The party requesting a variance has the burden of demonstrating that sufficient evidence exists for the granting of a variance to these rules, and the SAWS RPC Department shall consider and provide a written response to all such variances.

(c) If a variance is granted for the construction of a water well, the water well shall be constructed by a state-licensed driller and according to the methods outlined in the SAWS Water Wells Permitting Procedures. This construction shall occur under the authority of the permit to drill issued by the SAWS Board and under the inspections associated with the permit.

(d) Any variance granted under this section shall have a term of three (3) years from the date of issuance, and any activity which would otherwise be prohibited by this division except for the existence of a variance may not continue after the expiration of the applicable variance.

(e) Any person who properly requests a variance pursuant to this section which is denied by decision of the SAWS RPC Department, may appeal such denial to the president and CEO of SAWS by filing a request for appeal within ten (10) days from the date notice of denial is received. The president and CEO may require additional information from or request a meeting with the person making the appeal, and the decision of the president and CEO on the issuance of a variance or permit under this division shall be considered final.
(Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-577. Criminal penalty.

(a) The president/CEO of the San Antonio Water System is hereby authorized to designate qualified San Antonio Water System personnel to serve notices of violations of this section and take all necessary action to file a complaint with the municipal prosecutor's office.

(b) A conviction for violation of this division shall constitute a Class C misdemeanor. A person convicted of a violation of this division shall be fined a minimum amount of not less than two hundred dollars ($200.00) per violation and a maximum amount of not more than two thousand dollars ($2,000.00) per violation. Each violation of a particular section of this division shall constitute a separate offense, and each day an offense continues shall be considered a new violation for purposes of enforcing this division. A culpable mental state is not required to prove an offense under this ordinance.
(Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-578. Civil penalty.

A civil penalty in an amount not to exceed one thousand dollars ($1,000.00) per violation of this division may be imposed. Each violation of a particular section of this division shall constitute a separate offense, and each day such an offense

continues shall be considered a new violation for purposes of enforcing this division. A culpable mental state is not required to prove an offense under this division.
(Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-579. Additional enforcement remedies.

In addition to any other remedies provided by this division, the City of San Antonio and SAWS may, at any time, seek legal and/or equitable remedies or file criminal charges against any person, corporation or other entity believed to be in violation of this division. In furtherance thereof, SAWS is authorized and instructed to commence any action, in law or in equity, including the filing of criminal charges for the purpose of enforcing this division.
(Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-580. Conflict.

No provision of this division is intended nor shall any part or portion hereof be construed so as to conflict with the Texas Water Code, any regulations adopted by the TCEQ, or any other Charter Code provision or ordinance pertaining to reuse or conservation.
(Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-581. Severability.

If any provision of this division or the application thereof to any person or circumstance shall be held to be void or invalid for any reason, the remainder of this division and the application of such provision to other persons and circumstances shall nevertheless be valid, and the city council hereby declares that this division would have been enacted without such invalid provision.
(Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Secs. 34-582—34-590. Reserved.

DIVISION 3. WATERCOURSES*

Sec. 34-591. Condemnation of obstruction and encroachments by city.

The city council may at any time condemn and remove any obstructing banks and deposits along the San Antonio River, San Pedro Creek, or any other watercourse as may be deemed expedient for the public safety.
(Code 1950, § 48-1; Code 1959, § 41-51; Ord. No. 80574, § 8, 8-4-94)

Sec. 34-592. Removal of obstruction and encroachments by city, lien.

The city council may remove or cause to be removed at any time, any and all encroachments and obstructions on streams and watercourses and, where the obstructions attach to the adjoining property, shall assess all costs and expenses of such removal against such property with eight (8) percent per annum interest from the date of expenditure until collection is made. Such costs, expenses and interest shall be a lien upon the property, and collected as other taxes on real estate are collected.
(Code 1950, 48-2; Code 1959, § 41-52; Ord. No. 80574, § 8, 8-4-94)

Sec. 34-593. Removal of growths or encroachments by property owners.

Whenever any fillings, pilings, dams, fences, rocks, posts or walls placed, or trees grown on the banks of the San Antonio River, San Pedro Creek or other watercourses are declared by the city council to be obstructions to the necessary flow of the river or creek at high water, the same shall be removed by the person owning the property to which such obstructions attach within thirty (30) days after official notice is given of such action by the council.
(Code 1950, § 48-4; Code 1959, § 41-53; Ord. No. 80574, § 8, 8-4-94)

*__Note—__See the editor's note to Art. II, Div. 4 of this chapter.

Sec. 34-594. Seining and netting in San Antonio River.

It shall be unlawful for any person to seine or net anywhere in the San Antonio River within the city for the purpose of catching any kind of fish, large or small. The word fish in this connection is being used in its most comprehensive sense.
(Code 1950, § 48-10; Code 1959, § 41-54; Ord. No. 35358, § 6, 4-27-67; Ord. No. 80574, § 8, 8-4-94)

Secs. 34-595—34-605. Reserved.

DIVISION 4. WATER QUALITY CONTROL

Secs. 34-606—34-700. Reserved.

DIVISION 5. PROHIBITED DISCHARGES INTO THE MUNICIPAL SEPARATE STORM SEWER SYSTEM

Subdivision A. General MS4 Protections

Sec. 34-701. Definitions.

The following terms shall have the following meanings for the purpose of this division:

(a) *The San Antonio Municipal Separate Storm Sewer System (MS4).* The system of conveyances, including but not limited to, roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, creeks, streams, tributaries, man-made channels, or storm drains, which:

(1) Provide collection or conveyance of stormwater, rain water, flood water, or other surface water; and

(2) Are located on public property; and

(3) Are not designed and intended to be part of the collection system of a sanitary sewer system utilized by a publicly owned treatment works (POTW) as defined in Title 40 C.F.R. 122.2.

(b) *Brush cuttings, clippings.* All herbaceous materials, including lawn trimmings and leaves.

(c) *Household hazardous waste.* Waste from materials utilized for residential or housekeeping purposes containing regulated substances which either singularly or by its interaction with other wastes or by its accumulation in the MS4 becomes injurious or potentially injurious to human, plant, or animal life, or property. For purposes of this division household hazardous wastes include but are not limited to paint, paint thinners, paint solvents, beaches, and drain cleaners.

(d) *Pesticide.* Any substance or mixture of substances intended for preventing, destroying, repelling, or mitigating any pest, and/or any substance or mixture of substances intended for use as a plant regulator, defoliant, or desiccant.

(e) *Rubbish.* Inorganic solid waste including paper, rags, cartons, wood, excelsior, furniture, rubber, plastics, glass, crockery, tin and aluminum cans, metal furniture, and other like materials.
(Ord. No. 80574, § 16, 8-4-94)

Sec. 34-702. Prohibited discharges into the MS4.

(a) It shall be a violation of this division for any person to deposit, throw, drain, discharge, cause or allow to be deposited, thrown, drained or discharged, or otherwise cause to be injected into the MS4, or any storm sewer manhole, catch basin, private drain, ditch, street, gutter, creek, stream, tributary, or any other drainage device which con-

[This page intentionally left blank.]

nects with or drains into the MS4, any of the following described materials or substances within the corporate limits of the City of San Antonio:

(1) Any acid waste materials;

(2) Any alkaline waste materials;

(3) Any water or waste containing free-floating, or insoluble oil;

(4) Any gasoline, naphtha, fuel oil, mineral oil or other flammable or explosive liquid, solid or gas;

(5) Any noxious, malodorous, poisonous, or reactive substance which, either singularly or by interaction with other substances, or by its accumulation in the MS4 becomes injurious or potentially injurious to human, plant or animal life, or property;

(6) Any domestic wastewater or industrial wastewater as defined in Article V, Division 3 of this chapter;

(7) Any soil, soil material, sediment, rock, gravel or other similar materials in such quantities that reduce the capacity or cause an obstruction of the MS4; or

(8) Any paint, paint rinse water, waste from vacuum and carpet cleaning, sharps, needles or medical waste, automotive fluids (such as motor oil, antifreeze or gear oil), wastewater from food trucks, grease trap waste or grit trap wastes from carwashes.

(b) It shall be a defense to prosecution under this section that such person was authorized to commit any act under a valid permit from the Texas Commission on Environmental Quality or the United States Environmental Protection Agency, which would otherwise constitute a violation at the time of commission.

Commentary: It is the intent of this division to prohibit indiscriminate discharging to the MS4; such indiscriminate discharging includes dumping or releasing of any accumulations of process materials, washing or cleaning materials or other wastes into the MS4. It is also the intent to eliminate improper storage or handling of dangerous, hazardous, or otherwise harmful materials in such a manner as to cause or allow their discharge into the MS4. However, these regulations are not intended to prohibit discharge of non-contaminated and non-polluting water, such as fire hydrant flushing, runoff from fire fighting, non-chlorinated swimming pool or hot tub drainage, uncontaminated pumped groundwater, discharges from potable water sources, non-contact cooling waters, ventilation and air conditioning condensation water that POTWs require to be discharged to separate storm sewers rather than to sanitary sewers, etc.

(Ord. No. 80574, § 16, 8-4-94; Ord. No. 2019-02-14-0123, § 1(Att. I), 2-14-19)

Sec. 34-703. Placing brush cuttings, clippings, and/or rubbish into the MS4.

(a) It shall be a violation of this division for any person to deposit, discard or dump, or cause or allow to be deposited, discarded or dumped any brush cuttings, clippings, or rubbish within the MS4.

(b) It shall be a violation of this division for any person to place or cause or allow to be placed or dropped, brush cuttings, clippings, and/or rubbish within any street in the corporate limits of the city in such a manner that the same may be washed by the flow of water into the MS4.

Commentary: It is the intent of this section to restrict placement of rubbish, brush, lawn clippings or leaves, etc. into the MS4. It is also the intent to require that during certain seasons when leaves are shed that these materials are removed properly and prevented from collecting in mass quantities in the streets or MS4. It is recognized that from time to time during certain seasons or during normal yard maintenance, leaves, clippings, etc. will fall into the streets.

(Ord. No. 80574, § 16, 8-4-94)

Sec. 34-704. Placing household hazardous wastes into the MS4.

(a) It shall be a violation of this division for any person to place, or cause or allow to be placed, a household hazardous waste within the MS4.

(b) It shall be a violation of this division for any person to place, or cause or allow to be placed, a household hazardous waste within any street in the corporate limits of the city in such a manner that the same may be washed by the flow of water into the MS4.

Commentary: The intent of this ordinance is to prohibit those conducting household activities such as cleaning, renovating, painting, auto repair, and other similar activities which utilize household hazardous wastes from discarding such

wastes into the MS4, or from performing any activity that would result in the contamination of the MS4 with such household hazardous wastes.
(Ord. No. 80574, § 16, 8-4-94)

Sec. 34-705. Prohibiting the improper use of pesticides in order to keep them from entering the MS4.

(a) It shall be a violation of this division for any person to cause or allow a pesticide to enter into the MS4.

(b) It shall be a violation of this division for any person to utilize a pesticide in a manner inconsistent with the proper usage set out in the labelling for such pesticide in accordance with the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA).

(c) It shall be a violation of this division for any person to utilize a pesticide which is not properly labelled in accordance with FIFRA.

(d) It shall be a defense to prosecution under this section that the person accused of such violation utilized a pesticide in accordance with the requirements of FIFRA in a manner consistent with its labelling. The term "labelling" pursuant to Section 136 of FIFRA means all labels and all other written, printed or graphic matter:

(1) Accompanying the pesticide or device at any time; or

(2) To which reference is made on the label or in literature accompanying the pesticide or device except to current official publications of the Environmental Protection Agency, the United States Departments of Agriculture and Interior, the Department of Health and Human Services, state experiment stations, state agricultural colleges, and other federal or state institutions or agencies authorized by law to conduct research in the field of pesticides.

Commentary: It is recognized that excess pesticides will migrate into the MS4 even under normal and proper usage. It is the intent of this ordinance to restrict the usage of those chemicals to the manner deemed appropriate by their manufacturer and consistent with FIFRA.
(Ord. No. 80574, § 16, 8-4-94)

Sec. 34-706. Authority to enforce outside the city limits.

(a) Pursuant to the authority granted under Section 401.002 V.T.C.A. Local Government Code, a prohibited act or discharge identified in sections 34-702 through 34-705 hereof shall be enforceable outside the city limits if the prohibited act or discharge:

(1) Causes or contributes to the pollution of a stream, drain or tributary which provides a source of recharge water for the Edwards Aquifer; or

(2) Causes harm to, pollutes, or is in any way contrary to the protection of any watershed which drains into the MS4.

(b) It shall be a defense to prosecution under this section that a person was authorized to commit the prohibited discharges set out in section 34-702 herein, under a valid permit from the Texas Natural Resource Conservation Commission or the United States Environmental Protection Agency.
(Ord. No. 80574, § 16, 8-4-94)

Sec. 34-707. Authority to enforce outside the city limits, but within the ETJ.

(a) Committing a prohibited act or discharge, as set out in sections 34-702 through 34-705 herein, outside the corporate limits of the City of San Antonio, but within the ETJ is found to be contrary to the public health and welfare and is hereby deemed and declared to be a nuisance pursuant to Section 217.042 of the Local Government Code.

(b) It shall be a defense to prosecution under this section that a person was authorized to commit the prohibited discharges set out in sections 34-702 through 34-705 herein under a valid permit from the Texas Natural Resource Conservation Commission or the United States Environmental Protection Agency.
(Ord. No. 80574, § 16, 8-4-94; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Sec. 34-708. Criminal penalty.

(a) A conviction for violation of this division shall constitute a class C misdemeanor. A person convicted of a violation of this division shall be fined a minimum amount of not less than two hundred dollars ($200.00) per violation and a maximum amount of not more than two thousand dollars ($2,000.00) per violation. Each violation of a particular section of this division shall constitute a separate offense, and each day an offense continues shall be considered a new violation for purposes of enforcing this division. A culpable mental state is not required to prove an offense under this ordinance.

(b) The president/CEO of SAWS is hereby authorized to designate qualified SAWS personnel to serve notices of violations of this section and to take all necessary actions to file a complaint with the municipal prosecutor's office.
(Ord. No. 80574, § 16, 8-4-94)

Sec. 34-709. Civil penalty.

A civil penalty in an amount not to exceed five thousand dollars ($5,000.00) per violation of this division may be imposed. Each violation of a particular section of this division shall constitute a separate offense, and each day such an offense continues shall be considered a new violation for purposes of enforcing this division.
(Ord. No. 80574, § 16, 8-4-94)

Sec. 34-710. Additional enforcement remedies.

(a) In addition to any other remedies provided by this division, the City of San Antonio and SAWS may, at any time, seek legal and/or equitable remedies or may file charges against any person, corporation, or other entity believed to be in violation of this division. In furtherance thereof, the SAWS legal department is hereby authorized and instructed to commence any action, in law or in equity, including the filing of charges for the purpose of enforcing this division.

(b) The use of negotiated civil settlements or other methods of alternative dispute resolution to reach a civil settlement is hereby authorized; provided that the civil penalty imposed by any such agreement or settlement is of a sufficient amount in relation to the violations to which they provide a sanction.
(Ord. No. 80574, § 16, 8-4-94)

Sec. 34-711. Conflict.

No provision of this division is intended to, nor shall any part or portion hereof be construed, so as to conflict with the Texas Water Code.
(Ord. No. 80574, § 16, 8-4-94)

Sec. 34-712. Severability.

If any provision of this division or the application thereof to any person or circumstance shall be held to be void or invalid for any reason, the remainder of this division and the application of such provision to other persons and circumstances shall nevertheless be valid, and the city council hereby declares that this division would have been enacted without such invalid provision.
(Ord. No. 80574, § 16, 8-4-94)

Secs. 34-713—34-800. Reserved.

Subdivision B. Stormwater Compliance for Construction Activity

Sec. 34-801. Statement of purpose.

The intent of the ordinance from which this subdivision derives, creating subdivision B, is to satisfy conditions imposed by the City's Texas Pollutant Discharge Elimination System (TPDES) Permit issued by the Texas Commission on Environmental Quality (TCEQ).

All construction addressed by the ordinance from which this subdivision derives is intended to conform to best management practices. Applicable best management practices (BMP) are presently outlined in the Texas Commission on Environmental Quality (TCEQ) Technical Guidance on Best Management Practices, June 1999, Document No. RG-348 (Revised July 2005). The TCEQ guidance may be updated by the agency or revised by the city for integration into the city's

technical guidance manual for local construction activity. Choice of techniques is at the option of the responsible party.
(Ord. No. 94002, § 1, 5-24-01; Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14; Ord. No. 2019-02-14-0123, § 1(Att. I), 2-14-19)

Sec. 34-802. Definitions.

When used in this subdivision B, the following terms shall have the following meanings:

Best management practices (BMP): A technique or series of structural and non-structural techniques and practices which, when used in an erosion control plan or considered as part of a construction site's housekeeping efforts, are proven to be effective in controlling construction-related runoff, erosion, sedimentation, and associated pollutants. Applicable BMP's can be found in TCEQ approved BMP Guidance manuals.

Construction activity: Clearing, grading or filling of land, dozing or mechanical removal of trees which dozing or mechanical removal disturbs the soil, excavation for installation of utility lines, streets, drainage facilities, and site preparation for housing and commercial development, as well as on-going construction activities which produce waste products. Land being modified by either excavation or fill of material upon an existing mantle of soils is considered a construction activity and subject to the terms of this Ordinance unless otherwise permitted under a Multi-sector Industrial Storm Water Permit. Prior to any modification to an existing mantle soil grade the owner of the property must meet city requirements for grading and drainage applicable to property modifications.

Director of public works: The director of public works of the City of San Antonio, including his/her designees.

EPA: The United States Environmental Protection Agency.

Erosion: The wearing away of the ground surface as a result of the movement of wind, water and/or ice.

Extraterritorial jurisdiction (ETJ): The unincorporated area contiguous to corporate boundaries of the city where the city has regulatory control as determined by State law and the Texas Local Government Code, which may be amended from time to time.

Final inspection: Occurs after responsible party meets definition of final stabilization and files a Notice of Termination (NOT) form, if required by state or federal law, at which time SAWS will conduct a final inspection to verify both compliance with final stabilization and removal of the temporary BMP's from the site has occurred. Final inspections will be required at both small construction sites and large construction sites. Secondary operators are required to complete site notices and complete a NOT form as required under the TPDES permit.

Final stabilization: Reference to standards in the TCEQ TPDES general permit for storm water discharges for construction activities concerning development acreage that:

(1) Where state or federally regulated development acreage is concerned, all soil disturbing activities at the site have been completed, and a uniform perennial vegetative cover, with a density of seventy (70) percent of the native background vegetative cover for the area has been established on all unpaved areas and areas not covered by permanent structures or equivalent permanent stabilization measures have been employed; and

(2) Where local, individual lots associated with residential or commercial construction are concerned, by either: (a) the responsible party complying with cover requirements guided by federal or state standards recited above, or (b) the responsible party establishing temporary stabilization including perimeter controls and informing the home buyer or commercial purchaser in writing of the need for and benefits of final stabilization.

Grade: The vertical location of the ground surface.

Grading: Any land disturbance or land fill, or combination thereof including land development, fill material sites or demolition sites.

Improved: Altered by man-made conditions.

Land disturbance/land-disturbing activities: Any moving or-removing or filling by manual or mechanical means of the soil mantle or top six (6) inches of soil, whichever is shallower, including but not limited to excavations. Any planned disturbance of an existing land grade (fill or excavation) is considered a land disturbing activity. Prior to any modifications to existing mantle soil grade, the owner of the property must meet City requirements for grading and drainage on property modifications.

Land fill: Any human activity involving the disposition of soil, earth, or other earthen or aggregate materials.

Municipal separate storm sewer system (MS4): All natural and man-made collection and conduit facilities within the corporate limits of the city and within applicable limits of its extraterritorial jurisdiction, and for which MS4 protection the City of San Antonio has been issued a Texas Pollutant Discharge Elimination System (TPDES) Permit by TCEQ, which collection and conduit facilities constitute a system of conveyances, including but not limited to, roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, creeks, streams, tributaries, man-made channels, or storm drains, which provide collection or conveyance of storm water, rain water, flood water, or other surface water, and may be located on public property, drainage easements, or other property, and are not designated and intended to be part of the collection system of a sanitary sewer system utilized by a publicly owned treatment works (POTW) as defined by federal regulation at 40 CFR 122.2.

NOI: Notice of intent filed by a responsible party with EPA or TCEQ. This NOI is required under state regulation for certain construction activity. The NOI is part of the state general permit process for construction activity concerning projects or runoff deemed to potentially impact waters of the State of Texas and of the United States of America.

NOT: Notice of termination. The notice required by the EPA or TCEQ for permitted projects within the jurisdiction of either agency, which notice verifies "final stabilization" of the site has been achieved, as described above; EPA form 3510-7 terminating coverage under the TPDES general permit or corresponding TCEQ form for the TPDES Texas Pollutant Discharge Elimination System general permit.

NPDES: National Pollutant Discharge Elimination System.

Ordinance: This ordinance in its entirety, pertaining to new subdivision B, under article VI, division 5, chapter 34, Code of Ordinances of the City of San Antonio.

Person: Any individual, partnership, co-partnership, firm, company, corporation, association, joint stock company, trust, estate, governmental entity, or any other legal entity, or the legal representatives, agents, or assigns thereof.

Pollutant: Any substance introduced into the environment that adversely affects a resource. Pollutant includes, but is not limited to, soil, soil material, sediment, human waste, other wastes and debris generated at construction sites.

Responsible party: Any person or legal entity, individual or corporate, including an owner, operator, contractor, or subcontractor, any or all of whom may be engaged in, consent to, or actually perform a construction project or construction activity.

SAWS: The San Antonio Water System, a municipally owned utility, a co-permittee to the city's MS4 Permit and one of the city's enforcement and compliance arms for water quality, pollution control and prevention.

Sediment: Earth material deposited by water or wind.

Site: The location of construction activity, subject of this subdivision B, being within the corporate limits of the city and, outside such limits, but within the ETJ.

Soil and/or soil material: Naturally occurring superficial deposits of earth mantle overlaying bedrock or clay; any naturally occurring surface deposit of sand, gravel, silt, clay, or any mixture thereof.

Storm water: Storm water runoff, snow melt runoff, and surface runoff and drainage, as per TPDES Permit Construction General Permit No.TXR1500000.

SWPPP: Storm Water Pollution Prevention Plan: The state or federally required plan for identifying and implementing appropriate measures to reduce pollutants in storm water discharges into the city's municipal separate storm water sewer systems (MS4), which pollutants include eroded sediments. Protective measures include, but are not limited to, natural and man-made collection components, good housekeeping for site maintenance, and other common sense actions, all frequently referred to as best management practices (BMP).

TCEQ: Texas Commission on Environmental Quality.

Unimproved: Natural conditions, unaltered.

Water Pollution Abatement Plan (WPAP): The State required plan that is described in 30 Texas Administrative Code, chapter 213 for identifying and implementing appropriate measures to reduce pollutants in Storm Water Discharges into identified sensitive areas of the Edwards Aquifer. The TCEQ TPDES Construction General Permit TXR150000, page 12, Item 5 " Discharge to the Edwards Aquifer Recharge Zone" identifies the requirement of protective measures of the Edwards Aquifer.
(Ord. No. 94002, § 1, 5-24-01; Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14; Ord. No. 2019-02-14-0123, § 1(Att. I), 2-14-19; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Sec. 34-803. Applicability of Subdivision B entitled "Storm Water Compliance for Construction Activity," and declaration of nuisance for violation.

Within the corporate limits of the city and within applicable limits of the city's extraterritorial jurisdiction (ETJ), no person shall perform construction activity that violates provisions of this subdivision. Construction activity in violation of this subdivision is hereby declared unlawful.

Violations committed within the corporate limits and within five thousand (5,000) feet outside the city's corporate limits shall also constitute public nuisance, as further provided below at section 34-809, Violations of any provision of this subdivision within the city's corporate limits shall be deemed a criminal Class C misdemeanor. Violations of any provision of this subdivision within the city's corporate limits or any part of the applicable ETJ shall be further subject to a civil enforcement option, more particularly described in section 34-808 (b) below.

Some of the requirements of this subdivision may be generally characterized as good housekeeping protocols, those expected to be employed by a reasonably prudent contractor, operator, owner, or other person having responsibilities for various activities on a construction site. Where state or federal permits require the site operator, owner, or other responsible party, to make a storm water pollution prevention plan (SWPPP), such plans must be readily available on the site for city inspection.
(Ord. No. 94002, § 1, 5-24-01; Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-804. General prohibition against construction pollution of the municipal separate storm sewer; measurable volumes for violation; required TCEQ TPDES permit; SWPPP and WPAP (as applicable).

(a) It is unlawful for any person to engage in construction activity which activity results in a measurable volume of sediment, soils, soils material, or pollutants entering the city's municipal separate storm sewer system (MS4).

(b) "Measurable volume" of sediment, soil, soil material, or pollutant, for purposes of determining a violation, shall be such volume as is capable of being truly and correctly depicted in a photograph, motion picture, or video recording of the sediment, soil, soil material, or pollutant in question.

(c) Nothing in this section shall diminish or change the general prohibitions against MS4 pollution found in section 34-702, subdivision A,

Division 5, of this chapter 34, Prohibited discharges into the municipal separate storm sewer system. SAWS shall continue to exercise all enforcement powers set out in this chapter 34, and to gather such evidence as may include, but not be limited to, samples and analysis appropriate to enforcement of chapter 34 provisions.

(d) The responsible party shall use best management practices (BMP) to prevent sediment, soils, soils materials, and pollutants from entering the city's MS4.

(e) It is unlawful for any person to engage in construction activity without employing BMP necessary to protect the city's MS4 from run-off or other media capable of transporting sediment, soil, soil material, and pollutants into the city's MS4.

(f) The responsible party shall post at the main entrance of the site all operator notices including without limitation, such as notice of construction, construction site notice, contact information and WPAP notice of construction (as examples).

(g) Portions of the Edwards Aquifer Recharge Zone and Edwards Aquifer Contributing Zone within the city extraterritorial jurisdiction shall be considered inclusive in this section.

(h) The operator shall have available and maintain on the construction site a copy of the SWPPP and where applicable, the WPAP.

(i) It is unlawful for any person to engage in construction activity without a complete SWPPP (as defined in TCEQ TXR 150000 or WPAP (as applicable) available on the construction site
(Ord. No. 94002, § 1, 5-24-01; Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-805. Additional federal and state requirements generally applicable to responsible parties associated with TPDES Regulated Projects: proper custody of federal or state storm water pollution prevention plans (SWPPP); applicable to parties required to provide TPDES notice of intent (NOI) or Small Construction Site Notice (CSN) to EPA or TCEQ and San Antonio Water System (SAWS); requirement to post TPDES Notices at site; requirement to make SWPPP available to city inspector; copy of Notice of Termination (NOT) or small construction site or large construction site secondary operator completed site notices required by TCEQ or SAWS.

(a) Concerning projects for which the EPA or TCEQ or the City have permitting authority, the responsible party shall post at the site, as required by federal or state regulations, a true and correct copy of the NOI, Permit Number, large construction site notice or small construction site notice. A copy of the NOI, Permit number, large construction site notice or small construction site notice and the WPAP Notice of construction shall also be sent to SAWS resource protection and compliance department at the same time it is sent to EPA or TCEQ when applicable.

(b) The responsible party shall have available for city inspection, on site, the storm water pollution prevention plan (SWPPP) imposed by EPA or TCEQ, when the site in question is subject to such plans imposed by federal or state law.

(c) The responsible party shall make the SWPPP available to the city inspector, on reasonable request made during normal working hours.

(d) Failure, refusal, or inability to provide such plan for inspection, when the plan is required under state or federal law, constitutes a violation of this subdivision.

(e) It shall be unlawful for any person to engage in construction activity in violation of the elements of an applicable SWPPP and applicable WPAP.

(f) The responsible party shall provide SAWS a true and correct copy of any notice of termination (NOT), small construction site completed site notice or large construction site secondary operator completed site notice necessary to close out a project regulated by EPA or TCEQ. This copy shall be sent to SAWS, to the attention of SAWS resource protection and compliance department, at the time it is sent to EPA or TCEQ.

(g) Where permanent improvements have been constructed, the final inspection shall verify whether or not the "final stabilization" criteria have been met.

(h) Where no permanent improvements are planned, temporary BMPs shall continue to be maintained until site has reached final stabilization.

(i) A site shall continue to be regulated and maintain an open, active permit until final stabilization is achieved; and, where applicable to state and federally regulated sites, until a "notice of termination" (NOT) or small construction site completed site notice or large construction site secondary operator completed site notice has been filed. A copy of the NOT, if applicable, will also be filed with the SAWS as described above at subsection (t).

(k) Where the site has met final stabilization requirements, but the controls or measures implemented thereafter fail, each discharge of construction related contamination by the responsible party shall constitute a violation of this subdivision B.

(l) Removal of temporary BMPs shall be required after the site achieves final stabilization.

(m) The responsible party shall have available for City inspection on the construction site, a true copy of an approved master plan of development.

(n) The responsible party shall have available on the construction site the water pollution abatement plan (WPAP) and WPAP approval notice imposed by TCEQ when the site in question is subject to such plans required by TCEQ in 30 Texas Administrative Code, Chapter 213.

(o) The responsible party shall have available for city inspection all records and documents required by the EPA or TCEQ SWPPP and TCEQ WPAP (as applicable).

(p) All SWPPP documents shall be designed and signed by a licensed professional engineer (Texas) with competence in this area as required by Texas Engineering Practice Act, Section 137, or a Certified Professional in Erosion and Sedimentation Control (CPESC).

(q) To assure continued effective compliance with best management practice methodology on the construction/development site, an engineer or CPESC, Certified Erosion, Sediment and Storm Water Inspector (CESSWI) or Certified Inspector of Sediment and Erosion Control (CISEC) shall conduct ongoing inspections of all erosion/sedimentation controls and direct the person or firm responsible for maintenance to make any repairs or modifications necessary within forty-eight (48) hours of the initial notification.
(Ord. No. 94002, § 1, 5-24-01; Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14; Ord. No. 2019-02-14-0123, § 1(Att. I), 2-14-19)

Sec. 34-806. Best management practices (BMP) guidelines; compliance with this subdivision should not be relied upon by the regulated community to automatically effect compliance with what may be more stringent federal or state regulations pertaining to EPA/TCEQ permitted construction sites; explanation of federal jurisdiction.

(a) BMP applications recommended to responsible parties are those techniques described in TCEQ's "Technical Guidance on Best Management Practices," document no. RG-348, Revised

July 2005, as such document may be updated and revised, or when available, the city's technical guidance manual for construction activity.

(b) Responsible parties are advised that the city's recognition of BMP and other good housekeeping protocols are not necessarily synonymous with federal standards directly associated with EPA's construction general permit for other construction sites regulated under federal law or the TCEQ's construction general permit. Some sites will be federally regulated construction sites while most construction sites will be permitted by the State of Texas under guidelines similar to those of EPA. Responsible parties whose projects of scale fall within state or federal parameters are responsible to EPA or TCEQ to fulfill requirements that may differ from or may be more stringent than the provisions of this article applying to local, individual construction sites of a scale not regulated by state or federal authorities.

(c) In contrast, the purpose of this subdivision and its requirements for BMP are to satisfy the city's own state permit which specifically requires the city to adopt a construction site regulation. Consequently, the intent of this subdivision is to protect MS4 from pollutants generated from local construction sites. Federal and state jurisdiction to support this directive is found in the conduit of urban runoff traversing the San Antonio area into rivers, streams, and especially bays regulated as "waters of the United States of America" and "waters of the State of Texas". Hence, storm water generated in the area of San Antonio may enter into and impact state and federal waters.

(Ord. No. 94002, § 1, 5-24-01; Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14; Ord. No. 2019-02-14-0123, § 1(Att. I), 2-14-19)

Editor's note—Ord. No. 2019-02-14-0123, § 1(Att. I), adopted Feb. 14, 2019, amended § 34-806 and in so doing changed the title of said section from "Best management practices (BMP) guidelines; compliance with this subdivision should not be relied upon by the regulated community to automatically effect compliance with what may be more stringent federal or state regulations pertaining to EPA/TNRCC TCEQ permitted construction sites; explanation of federal jurisdiction" to "Best management practices (BMP) guidelines; compliance with this subdivision should not be relied upon by the regulated community to automatically effect compliance with what may be more stringent federal or state regulations pertaining to EPA/TCEQ permitted construction sites; explanation of federal jurisdiction," as set out herein.

Sec. 34-807. Enforcement procedures.

(a) The director of public works may designate additional field enforcement staff to supplement SAWS resource protection and compliance department staff, here designated and referred to above and hereafter as city inspectors (inspectors).

(b) Upon observation of an alleged violation or condition an inspector believes constitutes a violation of this subdivision, the inspector shall issue a field correction notice (FCN) to a responsible party. The field correction notice shall be personally delivered to a responsible party, if such person is available on site; or, in the absence of such person, shall be posted at the construction site and mailed by U.S. Mail or by electronic e-mail. Field correction notices shall afford two (2) 24-hour periods to correct the violation alleged. The first 24-hour period should be used to remediate and remove the offending material, if any, from the city's MS4, or obtain and post permit documents and/or provide a copy of a complete SWPPP and WPAP (as applicable). A second 24-hour grace period shall follow immediately to allow the responsible party to appropriately install or repair corrective BMP which was lacking or failed to protect city property.

(c) If the violation is cured within forty-eight (48) hours, as described above, no further city action is required.

(d) If correction is not made timely, the inspector may issue a stop work order.

(e) If a stop work order is not honored at the site and/or corrective action is not timely accomplished to protect the city's MS4, citations may be issued or civil injunctive remedies with appropriate penalties may be pursued.

(f) Additional or cumulative enforcement action may be taken as the seriousness of the alleged pollutant encroachment in the MS4 may warrant.

(g) Additional compliance time may be afforded, if within the judgment and discretion of the inspector, municipal obligations to environmental health and safety and municipal stormwater compliance obligations to enforcement agencies are not compromised.

(h) Upon observation of an alleged violation or condition an inspector believes constitutes a violation of a water pollution abatement plan within the Edwards Aquifer Recharge Zone, the inspector shall have the authority to issue a field correction notice (FCN) to a responsible party. Delivery of the FCN shall be in accordance with the process as identified in paragraph (b) of this section. The field correction notice shall require immediate correction of the violation alleged or within 24 hours of observation of alleged violation as specified and documented by the inspector on the FCN. If correction is not made timely, the inspector may issue a Stop Work Order.
(Ord. No. 94002, § 1, 5-24-01; Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-808. Criminal and civil enforcement.

(a) A penalty is hereby established whereby any person who shall violate any provision of this subdivision shall be deemed to be guilty of a misdemeanor and shall upon conviction be fined a minimum amount of not less than two hundred dollars ($200.00) per violation and a maximum amount of not more than two thousand dollars ($2,000.00) per violation. Each day of violation shall constitute a separate offense for purposes of the enforcement of this subdivision.

(b) The city attorney has authority to pursue all legal, equitable, and criminal remedies appropriate to enforce all provisions of this subdivision, including, but not limited to, authority under the Texas Local Government Code, chapter 54, providing for injunctive relief and court imposed civil penalties up to five thousand dollars ($5,000.00) a day for violation of ordinances relating to discharge of a pollutant into a storm sewer system controlled by a municipality.

(c) Upon the written direction of the director of public works, advising of an alleged violation of any section of this subdivision, the city attorney, pursuant to subsection (d) above, is authorized to petition any court of competent jurisdiction for an injunction to enjoin the continuance of such violation and to secure any and all civil penalties within the jurisdiction of the appropriate court. This remedy shall be cumulative of and to all other enforcement remedies available to the city.

(d) The authority set out above shall in no way diminish the authority and responsibility of the city attorney to diligently prosecute violations of this subdivision through the municipal prosecutor's office.

(e) The SAWS is a co-permittee, under the federal permit, and a contractual enforcement arm of the city. In consultation with the city attorney, SAWS legal officers may exercise all or specific enforcement options enumerated in this subdivision B on behalf of the city.
(Ord. No. 94002, § 1, 5-24-01; Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-809. Declaration of nuisance within applicable limits of the city's ETJ; city's authority to enforce within the ETJ.

Under authority of the Texas Local Government Code, section 217.042(a), (b), noncompliance with provisions of this subdivision B, or violation of its provisions, is here declared a nuisance and by authority of the enabling statute such declaration of nuisance extends to and shall be applicable within both the corporate limits of the city and outside the city limits but within the ETJ. Accordingly, summary abatement authority rests in the city's enforcement officials when imminent threat to the public health, safety, or welfare may arise.
(Ord. No. 94002, § 1, 5-24-01; Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Secs. 34-810—34-849. Reserved.

*Subdivision C. Storm Water Compliance for Industrial and Commercial Activities**

Sec. 34-850. General provisions.

(1) *Purpose.* This subdivision sets forth requirements for all facilities discharging to the San Antonio Municipal Separate Storm Sewer System (MS4) and those facilities required maintain a Texas Pollutant Discharge Elimination System (TPDES) Multi-Sector General Permit (MSGP) for Industrial Storm Water Discharges.

(2) *Administration.* Pursuant to the TPDES Permit No. WQ0004284000 issued to the City of San Antonio, San Antonio Water System (SAWS) and the Texas Department of Transportation requiring the establishment of an Industrial and High Risk Runoff Program SAWS shall have responsibility for administering, implementing, and enforcing the Industrial Inspection Program as outlined in the San Antonio Storm Water Management Plan and established by this subdivision.

(3) *Objectives:* The objective of this subdivision is to prevent the introduction of pollutants to the maximum extent practicable into the MS4 from industrial and/or commercial facilities, including but not limited to those regulated categories that must maintain a TPDES discharge permit. All facilities that discharge storm water defined as being "associated with industrial activity" under provisions of Section 402 of the Clean Water Act and Chapter 26 of the Texas Water Code that discharge directly to waters of the state, the United States, or through a municipal separate storm sewer system are required to obtain either a MSGP or obtain a conditional No Exposure Exclusion (NEC) from permit requirements from the TCEQ.
(Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-851. MSGP permit required.

The following facilities are required to obtain MSGP permit coverage and provide a copy to SAWS:

(a) Those facilities operating under the Industrial Sectors of the MSGP, and

(b) SAWS may require that an industrial or commercial facility not specifically referenced by the North American Industry Classification System to comply with SWP3 requirements of the MSGP in order to control to the maximum extent practicable the discharge of pollutants of concern into the MS4.

(Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-852. Conditional no exposure certification.

Facilities regulated under the industrial activities described by one or more sectors of the MSGP may be excluded from permit requirements if there is no exposure of industrial materials or activities to precipitation or runoff. To qualify for this conditional exclusion from permit requirements, the operator must apply to the TCEQ for the NEC permit exclusion and provide certification that those regulated industrial activities and materials mobilized by storm water are isolated from storm water and storm water runoff by storm resistant shelters (as defined in the MSGP). Facilities that qualify for this exclusion shall provide a copy of the NEC to SAWS upon request. Facilities that operate under a conditional NEC exclusion are subject to inspection to verify compliance. Facilities that previously qualified for a NEC and have made changes in their industrial process resulting in exposure must obtain a MSGP to discharge storm water associated with industrial activities.
(Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-853. Storm water pollution prevention plan requirements.

(1) SWP3 Components. Each facility requiring a MSGP Permit shall develop and implement a Storm Water Pollution Prevention Plan (SWP3) prior to submitting a Notice of Intent to the TCEQ for MSGP permit coverage. The SWP3

*__Editor's note—__Ord. No. 2014-06-19-0472, § 1(Exh. A), adopted June 19, 2014, enacted provisions intended for use as article VI, division 5, subdivision C, §§ 34-750—34-756. To preserve the sequential numbering of this Code, and at the discretion of the editor, said provisions have been redesignated as article VI, division 5, subdivision C, §§ 34-850—34-856.

must be maintained onsite or made readily available for review by SAWS upon request. The SWP3 shall include all elements identified in the MSGP language and continuously meet the criteria including any SWP3 updates and Best Management Practices (BMPs) maintenance as necessary to control discharge of pollutants. The SWP3 shall be developed to identify actual and potential sources of pollution that may reasonably be expected to affect the quality of storm water discharges from the facility. The SWP3 shall establish BMPs and any necessary structural control necessary to reduce or eliminate pollutants from the facility's storm water discharge. The SWP3 shall describe how such practices are appropriate for the facility and how each will effectively prevent or lessen pollution.

(2) Sampling criteria. Each regulated facility shall take the appropriate samples at the frequency prescribed in the current MSGP. These storm water samples include but are not limited to: effluent limitations for hazardous metals, benchmark sampling and any sector specific sampling required under the MSGP.

(3) Industrial and/or commercial facilities determined to potentially contribute pollutant loading to the MS4 may be required to perform additional monitoring as outlined by the TCEQ Municipal TPDES Permit to validate improvements to the BMPs and changes in the SWP3. This additional sampling can include, but is not limited to:

- Any pollutant limited in an existing TPDES permit for the facility
- Oil and Grease (O/G)
- Chemical Oxygen Demand (COD)
- pH
- Biochemical Oxygen Demand (BOD5)
- Total Suspended Solids (TSS)
- Phosphorus (P)
- Total Kjeldahl Nitrogen (TKN)
- Nitrate plus Nitrite Nitrogen
- Ammonia-nitrogen
- Temperature
- Total Organic Carbon (TOC)
- E. Coli and Fecal Coliform

(4) The SWP3 and monitoring data must be submitted to SAWS upon request.
(Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-854. Inspection and entry.

SAWS shall have the right to inspect the facilities of any industrial user to ascertain whether the purposes of this subdivision are being met and all applicable requirements are being fulfilled. Industrial users and their employees shall allow SAWS representatives displaying proper identification ready access to the premises at all reasonable times for the purpose of: inspecting industrial operations and processes, examination and reproduction of business records pertinent to storm water quality, including hazardous and non-hazardous waste manifests and where applicable, making photographic documentation and obtaining other information necessary to ascertain whether the information submitted is current, and to assess compliance by permittees with storm water permit requirements. Failure to allow access or impeding an investigation will be considered a violation of this subdivision. In the event SAWS reasonably believes discharges from a property into the MS4 may cause an imminent and substantial threat to human health or the environment, an inspection may take place at any time without notice to the owner of the property or a representative on-site.
(Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-855. Falsifying information.

(1) It is a violation of this subdivision to knowingly make any false statement, representation or certification in any application, record, report, plan, or other document filed or required to be maintained pursuant to this subdivision or pursuant to any condition or provision of an industrial storm water discharge permit.

(2) It is a violation of this subdivision to tamper with, interfere with the operation of, or knowingly render inoperable any monitoring, sampling or surveillance devices or to improperly impede an inspection procedure required or

authorized under this subdivision and/or any industrial discharge permit. In addition to any civil or criminal liability that may be imposed for a violation of this subdivision, a person who damages equipment used or necessary for monitoring compliance with an industrial discharge permit and/or this subdivision, shall also be liable for the cost associated with replacing or repairing such equipment.
(Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

Sec. 34-856. Enforcement and penalties.

(1) *Violations.* The commission of any act that is prohibited by this subdivision or the failure to perform any act that is required by this subdivision is a violation of this subdivision. SAWS may require that a compliance meeting be held prior to implementing legal action to enforce the provisions of this subdivision; however, such a meeting shall not be a bar against or a prerequisite for taking any enforcement action.

(2) *Penalties for violations.*

(a) *Criminal.* A conviction for a violation of this subdivision shall constitute a Class C misdemeanor. A person convicted of a violation of this subdivision shall be fined a minimum amount of not less than two hundred dollars ($200.00) per violation and a maximum amount of not more than two thousand dollars ($2,000.00) per violation.

Each violation of this subdivision shall constitute a separate offense, and each day an offense continues shall be considered a new violation for purposes of enforcing this subdivision.

(b) *Civil.* A civil penalty in an amount not to exceed five thousand dollars ($5,000.00) per violation of this subdivision may be imposed. Each violation of this subdivision shall constitute a separate violation, and each day such violation continues shall be considered a new violation for purposes of enforcing this subdivision, and calculating the amount of civil penalties.

(3) *Additional remedies.* In addition to the penalties for violations that may be imposed pursuant to this subdivision, SAWS may commence actions for any other legal and/or equitable relief or for the imposition of civil penalties authorized by any applicable law, statute, ordinance, or regulation.
(Ord. No. 2014-06-19-0472, § 1(Exh. A), 6-19-14)

DIVISION 6. AQUIFER RECHARGE ZONE AND WATERSHED PROTECTION

Subdivision A. General

Sec. 34-901. Statement of purpose.

The City of San Antonio adopts a goal of nondegradation which maintains or improves the quality of water entering the Edwards Aquifer. Pollution prevention will be assured by requiring best management practices and development criteria for point and non-point sources, including an emphasis on passive measures, supplemented by the use of structural controls, where appropriate. Land uses which could adversely affect the water supply are prohibited, thereby preventing the risk of contaminants entering the water reservoir, and posing a risk to the public health. The City of San Antonio hereby adopts this policy of nondegradation to insure the preservation of a clean and safe drinking water supply, and has found, as a matter of legislative determination, that the implementation of the regulations contained in this Division will significantly move toward accomplishing this goal.
(Ord. No. 81491, § 1(App. I), 1-12-95)

Sec. 34-902. Administration.

The San Antonio Water System (SAWS) shall be responsible for the administration of this division. The administrative official for the purpose of this division shall be the president/CEO of SAWS, and his vice-presidents and department directors insofar as they may be charged by the president/CEO and/or the provisions of this division with duties and responsibilities with reference thereto. Specifically, but without limitation, the resource protection and compliance

department of the San Antonio Water System shall ordinarily administer and enforce the provisions of this Division as directed by the president/CEO. The planning department, public works department, and other appropriate departments of the City of San Antonio, and the San Antonio Water System shall coordinate respective activities and cooperate to provide efficient and effective administration and enforcement of this division.
(Ord. No. 81491, § 1(App. I), 1-12-95; Ord. No. 2006-02-16-0241, § 5, 2-16-06)

Sec. 34-903. Compliance and violations.

(a) *Compliance.* All development located within the area defined as the Edwards Aquifer Recharge Zone over which the City of San Antonio may exercise its jurisdiction, including such areas: within the corporate limits of the city, within the extraterritorial jurisdiction of the city where applicable, and outside the territorial limits of the city and within Bexar County, as allowed by law, must comply with the provisions of this division.

(b) *Violations.* Any act or omission contrary to the requirements or directives of this division, or any breach of any duty imposed by this division shall constitute a violation hereof.
(Ord. No. 81491, § 1(App. I), 1-12-95)

Sec. 34-904. Abrogation and greater restrictions.

This division is not intended to repeal, abrogate, or impair any existing easements, covenants, or deed restrictions. However, where the language of this division conflicts with language used elsewhere in this code, that which imposes the more stringent restrictions shall prevail.
(Ord. No. 81491, § 1(App. I), 1-12-95)

Secs. 34-905, 34-906. Reserved

Sec. 34-907. Interpretation.

In the interpretation and application of this division, all provisions contained herein shall be:

(a) Considered as minimum requirements;

(b) Liberally construed in favor of the governing body; and

(c) Deemed neither to limit nor repeal any other powers granted under state law.

(Ord. No. 81491, § 1(App. I), 1-12-95)

Sec. 34-908. Definitions.

For the purpose of this division, the following terms shall be defined by meaning given each, as follows:

Affiant: The person, as that term is defined herein, which assumes financial and legal responsibility for the maintenance, operation, and effectiveness of structural controls, and the performance of required monitoring of surface water, related to a development for which an affidavit is, filed pursuant to section 34-911 of this division.

Best management practices (BMP): An effective integration of stormwater management systems, with appropriate combinations of landscape conservation, enhancement, structural controls, impervious cover, schedules of activities, prohibitions of practices, maintenance procedures and other management practices which provide an optimum way to convey, store and release runoff, so as to reduce peak discharge, remove pollutants, and enhance the environment.

Center line: The center line of the waterway refers to existing topographically defined channels. If not readily discernible, the center line shall be determined by, the "low flow line" whenever possible; otherwise by the center line of the two-year floodplain.

Commercial development: Any lot, parcel, or tract, not to be used as single or multi-family residential, recreational, open space or agricultural.

Degradation: Pollution of a representative sample of water which unreasonably reduces the quality of such water. The quality of a representative sample of water is unreasonably reduced when such water is rendered harmful, detrimental, or injurious to humans, animal life, vegetation, or property or the public health, safety, or welfare,

or impairs the usefulness or the public enjoyment of the water for any lawful or reasonable purpose.

Detention: The temporary storage of storm runoff, which is used to control the peak discharge rates, and which provides gravity settling of pollutants.

Detention time: The amount of time a parcel of water actually is present in a stormwater basin. Theoretical detention time for a runoff event is the average time a parcel of water resides in the basin over the period of release from the BMP.

Development: Buildings, roads and other structures; construction; and excavation, dredging, grading, filling and clearing or removing vegetation associated with residential, recreational, commercial, industrial or institutional construction.

Edwards Aquifer Recharge Zone (EARZ): Generally, that area where the stratigraphic units constituting the Edwards Aquifer crop out, and including the outcrops of other formations in proximity to the Edwards Aquifer, where caves, sinkholes, faults, fractures, or other permeable features would create a potential for recharge of surface waters into the Edwards Aquifer. The recharge zone is identified as that area designated as such on official maps located in the offices of the Texas Natural Resource Conservation Commission (TNRCC).

Filtration basin: Filtration basins are secondary treatment structures that follow sedimentation basins and release storm water runoff through a filter media to remove additional pollutants.

First flush: At least the first one-half inch of runoff from a storm event which flushes off and contains a disproportionately large loading of the accumulated pollutants from impervious and non-impervious surfaces.

Floodplain buffer zone: Lands and waters as defined in section 34-913.

[This page intentionally left blank.]

Floodplain preservation area: Lands and waters as established in section 34-912(a).

Ground water: Any water percolating below the surface of the ground.

Impervious cover: Roads, parking areas, buildings, pools, patios, sheds, driveways, private sidewalks, and other impermeable construction covering the natural land surface; this shall include, but not [be] limited to, all streets and pavement within the subdivision. "Percent impervious cover" is calculated as the area of impervious cover within a lot, tract, or parcel or within the total site being developed, divided by the total area within the perimeter of such lot, tract, parcel or development. Vegetated water quality basins, vegetated swales, other vegetated conveyances for overland drainage, and public sidewalks shall not be calculated as impervious cover.

Intermediate floodplain: Any channel, creek, stream, branch, or watercourse for surface water drainage that drains an area greater than three hundred twenty (320) acres but less than six hundred forty (640) acres.

Major floodplain: Any channel, creek, stream, branch, or watercourse for surface water drainage that drains six hundred forty (640) acres or more.

Minor floodplain: Any channel, creek, stream, branch, or watercourse for surface water drainage that drains an area greater than one hundred (100) acres but less than three hundred twenty (320) acres.

Non-degradation. The proper use of BMP's and pollution prevention criteria in activity so as to prevent degradation as defined herein.

Overland flow: Stormwater runoff that is not confined by any natural or manmade channel such as a creek, drainage ditch, storm sewer, or the like.

Peak-shaving: Controlling post-development peak discharge rates to pre-development levels by providing temporary detention in a BMP.

Person: Any natural person, corporation, partnership, joint venture, association (including home owner's or neighborhood associations), trust, or any other entity recognized by law.

Pollutants: Any element, chemical, compound, organism or material which alters the chemical, physical, biological, and or radiological integrity of water.

Pollution: The alteration of the physical, thermal, chemical or biological quality of, or the contamination of, any water.

Project: Project shall have the meaning contained in chapter 35 of this Code.

Resource protection and compliance department: The department within the San Antonio Water System (SAWS) designated to apply the provisions of this section.

Sedimentation basins: Sedimentation basins remove pollutants by creating conditions under which suspended solids can settle out of the water column.

Streamflow: Water flowing in a natural channel, above ground.

Structural controls: A range of pollution prevention best management practices ranging from vegetated buffers to on-site runoff detention and treatment facilities.

Swale: A natural depression or wide shallow ditch used to temporarily store, route, or filter runoff.

(Ord. No. 81491, § 1(App. I), 1-12-95; Ord. No. 2006-02-16-0241, § 2, 2-16-06; Ord. No. 2014-08-14-0581, §§ 3, 9, 8-14-14)

Cross reference—Definitions and rules of construction generally, § 1-2.

Subdivision B. Violations and Enforcement

Sec. 34-909. Violations, defenses and enforcement.

(A) *Violations.* In addition to the violations identified in Subdivision A of this division, the following described individual acts or omissions shall constitute separate and actionable violations of this division:

(a) It shall be a violation of this Division for any person to recklessly, negligently, know-

ingly, or intentionally commit any act or allow any condition to exist which causes degradation of surface water which:

(1) Is discharged from any development; and

(2) Flows over an area within the EARZ.

Commentary: It is not the intent of this division to place an unreasonable burden on any landowner or to require any person to treat degraded surface water which originates entirely outside their property. Also, these regulations are not intended to prohibit non-polluting discharges from fire hydrant flushing, fire fighting, uncontaminated groundwater, or potable water sources.

(B) *Enforcement.*

(a) *Granting of enforcement authority to SAWS.*

(1) The president/CEO of SAWS is hereby granted the authority to designate qualified SAWS personnel to enforce this division in the manner and to the extent allowed by law.

(2) The president/CEO is specifically granted, the authority to designate qualified SAWS personnel to file notices of violations of this division and to take all necessary actions to file complaints with the Municipal Prosecutor's Office of the City of San Antonio, or other prosecuting authority for violations of this division.

(b) *Notice of violation and response.* Pursuant to the responsibility established in Subsection (a) of this section and section 34-902, above, whenever the resource protection and compliance department, believes that any person has violated or is violating any provision of this division, the resource protection and compliance department may serve (either personally or by registered or certified mail) upon such person a written notice stating the nature of the alleged violation. The recipient of a violation notice issued under this Section must respond to the notice in writing to the resource protection and compliance department within fifteen (15) working days from the receipt of such notice. Should the recipient of a violation notice fail to respond in writing to the resource protection and compliance department within the initial fifteen (15) working day response period as required by this section, the recipient of the notice shall be deemed to have admitted responsibility for the violation.

(c) *Requirements of response to notice of violation.* The response to a violation notice shall be in writing, and shall, at a minimum, include the following information:

(1) A statement as to which of the violation(s) are being admitted by the respondent;

(2) A statement as to which of the violation(s) are being contested by the respondent; and,

(3) The grounds on which the respondent denies responsibility for each contested violation.

(d) *Grant of authority to pursue legal remedies.* The SAWS legal department is hereby granted the authority to seek legal and/or equitable remedies for violations of this division, including the filing of criminal charges. For the purpose of enforcing this division the SAWS's Environmental Counsel shall represent the City of San Antonio in civil enforcement actions, by and through the San Antonio Water System, and is hereby authorized to seek legal and/or equitable remedies against any person which is reasonably believed to be violating or have violated this division. A legal proceeding prosecuted under this division does not constitute a waiver by the San Antonio Water System of any right the City of San Antonio may have to join in a legal action originating from an alternative source of law. The San Antonio Water System may commence such actions for appropriate legal and/or equitable relief in courts having proper jurisdiction and may seek civil penalties and any other legal or equitable relief available under common law, Chapter 54 of the Texas Local Government Code, or any other applicable local, state, or federal code or statute.

(e) *Penalties.*

(1) *Criminal.* A conviction for violation of this division shall constitute a class C misdemeanor. A person convicted of a violation of this division shall be fined a minimum amount of not less than two hundred dollars ($200.00) per violation and a maximum amount of not more than two thousand dollars ($2,000.00) per violation. Each violation of a particular section of this division shall constitute a separate. offense, and each day an offense continues shall be considered a new violation for purposes of enforcing this division.

(2) *Civil.* A civil penalty in an amount not to exceed one thousand dollars ($1,000.00) per violation of this division may be imposed. However, a civil penalty in an amount not to exceed five thousand dollars ($5,000.00) per violation may be imposed for violations which cause pollution of waters flowing into a channel, stream or other conveyance which drains into or is a part of the stormwater sewer system owned or controlled by the City of San Antonio. Each violation of a particular section of this division shall constitute a separate offense, and each day such an offense continues shall be considered a new violation for purposes of assessing civil penalties and enforcing this division.

(f) *Authority of city attorney to enforce.* The grant of the authority set out in this section shall in no way diminish the authority and responsibility of the office of the city attorney to insure that this division is properly and diligently enforced, to prosecute violations of this division, and to defend the legality of this division if challenged.

(Ord. No. 81491, § 1(App. I), 1-12-95; Ord. No. 2006-02-16-0241, § 5, 2-16-06; Ord. No. 2014-08-14-0581, § 9, 8-14-14)

Subdivision C. Letter of Certification

Sec. 34-910. Letter of certification required.

No development shall be undertaken in connection with any project on any land, tract, parcel, or lot which is within the boundaries of the Edwards Aquifer Recharge Zone and which is subject to regulation by this division unless and until a letter of certification is issued by the resource protection and compliance department of the San Antonio Water System to the owner or developer of such property. A letter of certification issued under this division shall expire if progress towards completion of the project has not been demonstrated within three (3) years from the date the letter of certification was issued.

(Ord. No. 81491, § 1(App. I), 1-12-95; Ord. No. 2006-02-16-0241, § 2, 2-16-06; Ord. No. 2014-08-14-0581, § 3, 8-14-14)

Sec. 34-911. Application for letter of certification; contents.

Application for a letter of certification required under section 34-910 shall be submitted to the resource protection and compliance department and shall be accompanied by a site development plan. The application and site development plan shall contain the following information unless the resource protection and compliance department determines that, due to the scope and nature of the proposed development, some of the information is unnecessary:

(a) The date, scale, north point, and key plan showing the location of the tract on which the development is to take place.

(b) The existing boundary lines, and acreage of the tract on which the development is to take place, and the common boundary lines and names of the owners of adjacent properties.

(c) Identification of all Floodplain Preservation Areas, floodplain buffer zones, significant recharge features and buffer zones, and all such other areas with restrictions as required by this article.

(d) A detailed erosion/sedimentation control plan and construction sequencing plan required by section 34-975.

(e) A detailed drainage plan and street layout that comply with the requirements of this division.

(f) Engineering drawings showing compliance with the applicable requirements of this division for control strategies on development.

(g) A report, site plan, and other relevant information addressing the Best Management Practices as required by sections 34-965 through 34-975.

(h) A topographic map, drawn to a scale of one hundred (100) feet to one inch, or in an appropriate scale. The map should display, according to the best information available, topographic information and features (including, but not limited to, faults and fractures along waterways and sinkholes), and the floodplain preservation areas.

(i) The location, type of use, and total percentage of proposed and existing impervious cover on the site, in conformance with this division.

(i) Location of all temporary and permanent runoff detention basins, constructed and altered waterways and other physical facilities to be installed to comply with the terms of this division.

(k) An affidavit from the appropriate affiant showing accepting legal and financial responsibility for structural controls, maintenance cost, monitoring, and remediation.

(l) Final plans for underground utility installation shall be submitted with the site development plan and shall show minimum construction corridor widths.

(m) Location of all monitoring stations, sample points or other significant devices used in measuring or assuring water quality.

(n) Any baseline data from surface water samples required to be taken or maintained under regulations established by the San Antonio Water System.

(o) A maintenance plan which provides the proposed schedule and details of maintenance which will be performed to ensure the proper operation and effectiveness of all control structures.

(p) Special notes or attachments as may be required by other sections of this division.

The site plan required by this section shall be sealed by a registered engineer and by a registered landscape architect with regard to elements of the plan within their respective disciplines. In the event a site plan is amended by an applicant, the above requirements, (a) through (p) on the original plan, must be updated to the extent they are affected by the amendment.
(Ord. No. 81491, § 1(App. I), 1-12-95; Ord. No. 2006-02-16-0241, § 5, 2-16-06)

Subdivision D. Pollution Prevention Criteria

Sec. 34-912. Floodplain preservation area.

(a) *Floodplain preservation area definition.*

(1) Minor, intermediate and major floodplain shall be designated for any channel, creek, stream, branch, or watercourse within the Edwards Aquifer Recharge Zone having a watershed greater than one hundred (100) acres. Minor, intermediate and major floodplain shall be defined as follows:

Floodplain	*Drainage Area (acres)*
Minor	100—320
Intermediate	320—640
Major	over 640

(2) The floodplain delineation shall be based on a 100-year frequency, a channel in its unaltered state, and shall assume conditions consistent with the City of San Antonio floodplain regulations contained in Chapter 35 of this Code. Where such floodplains are not designated on maps of the City of San Antonio, mapping showing

such floodplain features shall be submitted as an element of the requirements of section 34-911 hereof.

(b) *Allowable activities in floodplain preservation areas:* The floodplain preservation area shall remain free of all construction activity, development, and alterations except for the following:

(1) Arterial, collector and residential street crossings only as provided below:

a. A major floodplain may be crossed by arterial streets that are identified on the City of San Antonio Major Thoroughfare Plan as approved by city council; provided however, that the arterial street is constructed in accordance with standards provided for in section 34-965.

b. An intermediate floodplain may be crossed by arterial and collector streets, provided, however, that the arterial or collector streets are constructed in accordance with standards provided for in section 34-965.

c. A minor floodplain may be crossed by arterial, collector, or local residential streets, provided, however, that such streets are constructed in accordance with standards provided for in section 34-965.

(2) Utilities as provided by subsection (c) below.

(3) Fences that do not obstruct flood flows.

(4) Public and private parks and open space, with development in the parks and open space limited to trails and facilities (other than stables and corrals for animals) for hiking, jogging, non-motorized biking, and nature walks.

(5) Water quality or flood control systems with minimum disruption.

(6) Where a floodplain has been altered by a manmade activity such as a highway, railroad etc. then the floodplain can be remediated to its natural limits.

(7) Public projects that are for the public benefit such as projects to enhance recharge, provide flood prevention, and other capital improvements are exempt from these requirements.

(c) *Permitted utility/construction.*

(1) All underground utilities, other than wastewater, shall be located outside the floodplain preservation area, except for crossings (which should incorporate shared trenching where practical), and shall comply with the provisions of Chapter 35 of this Code (UDC).

(2) At the time of site development plan review, the director of the resource protection and compliance department shall make a report to the director of wastewater management on any significant environmental impact, with an emphasis on protecting potential recharge, and possible alternatives related to wastewater line locations in the floodplain preservation area. Construction within the ordinary high water mark is discouraged unless approved by the San Antonio Water System upon consideration of reports by the resource protection and compliance department.

(Ord. No. 81491, § 1(App. I), 1-12-95; Ord. No. 2006-02-16-0241, § 5, 2-16-06)

Sec. 34-913. Floodplain buffer zone.

(a) Floodplain buffer zones (FBZ) shall be established parallel to all floodplain preservation areas. The outer perimeter of each FBZ shall extend outward from the outer boundaries of the floodplain preservation area, based on the appropriate slope, in accordance with the following table:

% Slope	0-2.5	>2.5-5.0	>5.0-7.5	>7.5-10.0	>10.0-12.5	>12.5

Buffer Width (ft)	60	70	80	90	100	100

The appropriate slope will be determined by taking the average slope of the first fifty (50) feet of buffer width from the floodplain preservation area. In no case shall the length over which the average is determined exceed three hundred (300) feet; and, in no event shall the buffer zone exceed the extent of the watershed.

(b) No impervious cover will be allowed in the buffer zones except as outlined in subsection (c) below.

(c) Construction activities in the buffer zones shall be restricted to the activities allowed in section 34-912.
(Ord. No. 81491, § 1(App. I), 1-12-95)

Sec. 34-914. Drainage area.

(a) The floodplain preservation area shall be extended to the EARZ drainage area in the Extra-Territorial Jurisdiction (ETJ). This floodplain preservation area will be applied to creeks with watersheds greater than three hundred (300) acres and the allowable activities will be as described in section 34-912(b) Allowable Activities in Floodplain Preservation Area.

(b) The floodplain buffer zone shall be required adjacent to the floodplain preservation area using the buffer width formula established in this division. The maximum impervious cover in the drainage area buffer zone shall be ten (10) percent. This requirement is considered to be more flexible in the drainage area than in the recharge zone.

% Slope	0-2.5	>2.5-5.0	>5.0-7.5	>7.5-10.0	>10.0-12.5	>12.5
Buffer Width (ft)	60	70	80	90	100	100

(c) The regulations contained in this section shall not apply to any activity allowed by a floodplain development permit issued before the effective date of this division, or for which application was made before the effective date of this division.
(Ord. No. 81491, § 1(App. I), 1-12-95)

Secs. 34-915—34-919. Reserved.

Sec. 34-920. Recharge feature protection and buffer zone.

Within the Edwards Aquifer Recharge Zone, the applicant shall identify potential recharge features on the development plan which provide a conduit from the earth's surface to subsurface water.

(a) *Significant recharge features.*

(1) Sealing of significant recharge features shall be prohibited.

(b) *Significant recharge feature buffer zone.*

(1) A buffer area will be placed surrounding "significant" recharge matures which will be maintained in a natural condition. The width of the buffer area shall be based on the requirements of section 34-913, based on measurements from the outer perimeter of the recharge feature, according to the following chart:

(2) "Significant" features are those defined as "high concern features" by present TNRCC regulations.

(c) *Additional recharge feature protection.* SAWS shall require the identification of significant recharge features and shall prescribe protective measures deemed rea-

sonable and necessary to eliminate the entry of pollutants into subsurface water though such recharge features. Whether on or off-site, protective measures include but are not limited to: 1) additional buffer zones covered with grass or other appropriate vegetation, 2) installation of diversion methods or structures outside the buffer zone, 3) termination of the point source activity which creates the pollution hazard, and 4) removal of substances and objects from the recharge feature. The protective measures prescribed together with the date by which such measures must be completed shall be set forth in writing and sent to the landowner(s) involved by certified mail, return receipt requested. The landowner shall take the corrective and protective actions prescribed by SAWS.

(Ord. No. 81491, § 1(App. I), 1-12-95)

Secs. 34-921—34-924. Reserved.

Sec. 34-925. Pollution prevention criteria.

For the purpose of regulating activities within the areas regulated by this division, while acknowledging and respecting the interests of property owners, projects in the area affected by this division shall be classified according to the following three (3) categories:

Category 1: A project for which an application for a permit, as defined in Chapter 245, Texas Local Government Code, has been filed, before the effective date of this division.

Category 2: A project located on property within the corporate limits of the city, that is not in category 1;

Category 3: A project located on property within the Edwards Aquifer Recharge Zone which is within the extraterritorial jurisdiction of the city, and which does not meet the requirements of category 1 or category 2, above.

(Ord. No. 81491, § 1(App. I), 1-12-95; Ord. No. 2006-02-16-0241, § 2, 2-16-06; Ord. No. 2014-08-14-0581, § 3, 8-14-14)

Sec. 34-926. Pollution prevention criteria in Category 1.

(a) Unless otherwise specified in this division, the development criteria and regulations of the city which were in effect at the time the original application for the permit was filed pursuant to, and as defined by Chapter 245, Texas Local Government Code, shall govern the development of a project that is classified as category 1 because of the filing of said application.

(b) A project which satisfies the category 1 requirements of section 34-925 because it was the subject of an application submitted or permit issued before the effective date of this division, will be automatically placed in its appropriate category after the application or permit expires pursuant to the laws in effect at the time the application was submitted or the permit was issued.

(c) To the extent allowed by law, if a project classified as category 1 is substantially altered, then the category 1 status of such project, or portion thereof, shall be lost, unless such project is classified category 1 by reason of another valid permit, and the project shall be appropriately classified pursuant to section 34-925.

In applying this provision "substantially altered" shall be considered as any action done through the initiative of the property owner or the property owner's agent provided however that "substantially altered" does not include those actions classified as minor amendments in section 35-412 and section 35-715 of chapter 35.

(d) A developer may voluntarily go to category 2 or 3 as appropriate, with the ability to transfer platting fees to the new category 2 or 3 project.

(e) If a project is classified as category 1 under section 34-925, then the San Antonio Water System shall, when commenting to the Texas Commission on Environmental Quality regarding an application for a water pollution abatement plan (WPAP), recommend that the WPAP include, at a minimum, the elements contained in section 34-911.

(Ord. No. 81491, § 1(App. I), 1-12-95; Ord. No. 2006-02-16-0241, § 2, 2-16-06; Ord. No. 2014-08-14-0581, § 3, 8-14-14)

Secs. 34-927—34-929. Reserved.

Sec. 34-930. Pollution prevention criteria in Category 2.

The following criteria and restrictions shall apply to all regulated activity on a project that is classified as category 2 by section 34-925 of this division:

(a) *Single-family residential.* The projected impervious cover for all single-family residential development of a category 2 project shall not exceed a maximum of thirty (30) percent gross impervious cover.

(b) *Multi-family residential.* The projected impervious cover for multifamily residential development of a category 2 project shall not exceed a maximum of fifty (50) percent gross impervious cover.

(c) *Commercial.* The projected impervious cover for commercial development of a category 2 project shall not exceed a maximum of sixty-five (65) percent gross impervious cover.

(d) *Special conditions.* Development activities regulated by this section shall be subject to the following special conditions:

(1) Within a multi-use project, impervious cover limits may be exceeded in a given area if compensated for in another area which is within the same overall project and which is dedicated on a simultaneous basis.

(2) The allowable impervious cover in this section does not override requirements for significant recharge feature protection buffer zones or floodplain preservation areas and buffer zones.

(3) Additional control strategies as described in Subdivision E are required on all multi-family and commercial development.

(4) Non-Structural Best Management Practices as described in Subdivision E are required for all single-family developments

(5) Must be designed to prevent degradation.

(e) *Monitoring.* Monitoring of runoff for pollutant concentrations and loadings shall be required, according to standards established by. the SAWS pursuant to its stormwater program and/or NPDES permit process, including but not limited to, baseline assessments, appropriate pollution prevention design, performance inspections, and nondegradation requirements. The monitoring methods, protocol and expense will be determined by SAWS at the time of permit review and approval. Expenses for monitoring will be the responsibility of the affiant.

(f) *Major intersection nodes (node).* For the purpose of this section a node shall mean a rectangular area centered on a major intersection, and having boundaries based on a linear distance from the outer limits of the rights-of-way (ROW) of the intersecting streets, roads, of highways (nodal distance). The length and width of the node is equal to the ultimate rights-of-way width of the street plus the nodal distance on each side of the street ROW, as determined by the resource protection and compliance department and the City of San Antonio. Percentages of impervious cover in Major Intersection Nodes may exceed the limits imposed elsewhere in this division, but shall be limited as follows:

Type of Intersection	*Nodal Distance*	*Commercial Impervious Coverage*
Hwy-Hwy Intersection	2500′	80% Maximum
Hwy-Arterial Intersection	1000′	75% Maximum

(Ord. No. 2006-02-16-0241, § 2, 2-16-06; Ord. No. 2014-08-14-0581, §§ 3, 9, 8-14-14)

Secs. 34-931—34-934. Reserved.

Sec. 34-935. Pollution prevention criteria in Category 3.

The following criteria and restrictions shall apply to all regulated activity on a project that is classified as category 3 by section 34-925:

(a) *Single-family residential.* The projected impervious cover for all single-family residential development of Category 3 property shall not exceed a maximum of fifteen (15) percent gross impervious cover, or the maximum impervious cover specified in accordance with subsection (d) of this section.

(b) *Multi-family residential.* The projected impervious cover for multi-family residential development of Category 3 property shall not exceed a maximum of fifteen (15) percent gross impervious cover, or the maximum impervious cover specified in accordance with subsection (d) of this section.

(c) *Commercial.* The projected impervious cover for commercial development of Category 3 property shall not exceed a maximum of fifteen (15) percent gross impervious cover, or the maximum impervious cover specified in accordance with subsection (d) of this section.

(d) *Additional impervious cover.* The maximum impervious cover requirements of subsection (a), (b), and (c) above shall apply unless the property owner or his agent provides clear and convincing evidence, which at a minimum shall consist of engineering documents submitted under the seal of a registered engineer, that the proposed impervious cover in excess of is fifteen (15) percent gross will not cause degradation as defined herein.

(e) *Multi-use project.* Within a multi-use project, impervious cover limits may be exceeded in a given area if compensated for in another area of the overall project if dedicated on a simultaneous basis.

(Ord. No. 81491, § 1(App. I), 1-12-95; Ord. No. 2006-02-16-0241, § 2, 2-16-06; Ord. No. 2014-08-14-0581, § 3, 8-14-14)

Secs. 34-936—34-944. Reserved.

Sec. 34-945. Multi-category developments.

Impervious cover allowances for development identified in sections 34-925 through 34-935 above, shall be prorated according to the categories within those areas when multi-category development is proposed.

(Ord. No. 81491, § 1(App. I), 1-12-95)

Secs. 34-946—34-959. Reserved.

Subdivision E. Additional Control Strategies

Sec. 34-960. Detention, sedimentation and filtration for water quality control.

(a) All multi-family and commercial developments of land with projected impervious cover exceeding fifteen (15) percent shall comply with the provisions of this division.

(b) All multi-family and commercial development shall install detention, sedimentation and filtration basins in accordance with technical guidelines acceptable to SAWS, and which include at least the following design and control features:

(1) At a minimum, the water quality basins and drainage into the basins shall be designed to capture and isolate at least the first one-half (½) inch of runoff. All subsequent runoff in excess of the design capacity of the basins shall bypass the basins and remain segregated from the contained runoff waters including those waters in a peak shaving basin if required.

(2) Input to and release from water quality basins shall utilize vegetated swales and/or overland flow dispersion measures where possible.

(c) No infiltration trenches will be allowed on the Edwards Aquifer recharge zone.

(Ord. No. 81491, § 1(App. I), 1-12-95)

Secs. 34-961—34-964. Reserved.

Sec. 34-965. Street improvements.

(a) All roadway projects with anticipated, or actual Average Daily Traffic (ADT) volumes in excess of one thousand five hundred (1,500) vehicles per day shall be required to design, construct, operate, and maintain sedimentation and filtration basins to capture and treat the first flush runoff from the roadway. In addition, all roadway projects with anticipated or actual ADT volumes in excess of thirty thousand (30,000) vehicles per day shall be required to design, construct, operate, and maintain hazardous materials traps (HMT's) that will capture, contain and isolate a hazardous spill on the roadway facility. The minimum volume of the HMT's shall be ten thousand (10,000) gallons and they shall contain a self-draining outlet and an emergency cut off to contain any spilled materials.

(b) All bridge structures with ADT in excess of one thousand five hundred (1,500) vehicles per day shall be prohibited from discharging directly to the floodplain preservation area from the roadway surface. These bridges shall be designed to transport the stormwater off the bridge structure and into a sedimentation pond, filtration pond, or equivalent system as approved by SAWS as long as it provides equal water quality protection.

(c) Street maintenance projects that do not increase the impervious cover to beyond that of the original street shall be exempt from the provisions of this section.
(Ord. No. 81491, § 1(App. I), 1-12-95)

Secs. 34-966—34-969. Reserved.

Sec. 34-970. Best Management Practices (BMP's).

All development plans for single-family residential development of Category 2 or 3 projects, as identified in section 34-925, which are submitted to the resource protection and compliance department, as required by this division, shall contain sufficient planned BMP features to allow for the proper conveyance, storage and release of runoff, to adequately reduce peak stormwater discharge, and remove pollutants in a manner and to a degree which is acceptable to the resource protection and compliance department. BMP's are features which provide effective integration of stormwater management systems, with appropriate combinations of landscape conservation, enhancement, structural controls, schedules of activities, prohibitions of practices, maintenance procedures and other management practices which provide an optimum way to convey, store, treat and release runoff, so as to reduce peak discharge, remove pollutants, and enhance the environment. All development plans submitted shall, at a minimum, incorporate all of the following BMP's:

(a) *Vegetative buffer zones.* Buffer zones are vegetated strips of land used for temporary or permanent water quality benefits. Buffer zones are used to decrease the velocity of storm water runoff, which in turn helps to prevent soil erosion. The buffer zone can be an area of vegetation that is left undisturbed during construction, or it can be newly planted. Buffer zones may be used in addition to or as a substitute to other control strategies described in this section. If vegetative buffer zones are used they shall be designed and reviewed in accordance with the standards established by the San Antonio Water System.

(b) *Water conservation.* As part of the requirements for development, the applicant shall submit a water conservation plan. Water conservation provides an alternative approach to the twin problems of increasing demand for water in a community and finding new water sources. The water conservation plan shall include as a minimum the following:

(1) Identity of all water users;

(2) Monitoring program to identify and repair leaks in water pipes;

(3) Required installation of water efficient plumbing fixtures;

(4) Description of a water efficient landscape program;

(c) *Integrated pest management programs.* A pesticide and fertilizer management plan shall be submitted that provides general

information regarding proper use, storage, and disposal of pesticide and fertilizers that are commonly available. In addition, the plan shall provide information regarding what types of pesticides and fertilizers are most likely to be used for the various types of development. The plan shall also delineate which types of pesticides and fertilizers should be avoided.

(Ord. No. 81491, § 1(App. I), 1-12-95; Ord. No. 2006-02-16-0241, § 2, 2-16-06; Ord. No. 2014-08-14-0581, §§ 3, 9, 8-14-14)

Secs. 34-971—34-974. Reserved.

Sec. 34-975. Construction sequencing and erosion controls.

(a) A comprehensive and detailed erosion and, sedimentation control plan and report shall be submitted with the application. The report shall specify maintenance of controls. All items noted in the erosion control and construction sequencing plans shall also be included in the final construction plans.

(1) The report shall include the following items:

a. Construction sequencing as it relates to placement, maintenance, removal of temporary erosion controls, and restoration measures. The sequencing plan schedules these items in the overall scheme of development.

b. A list of such erosion controls and maintenance thereof.

c. Slope stabilization techniques to be employed.

d. Restoration plans including vegetative types.

(2) The erosion control and construction sequencing plan shall include the following items:

a. Location of temporary erosion controls with maintenance note. The plan shall show the physical details of the controls.

b. A construction sequencing list, including the timing of the use of various controls in relation to steps in the construction.

c. Restoration techniques and acceptability note.

(b) The development shall comply with the erosion control and restoration measures guidelines as identified by the San Antonio Water System.

(c) The clearing of land shall conform to the following criteria:

(1) No clear or rough-cutting shall be permitted prior to the issuance of a letter of certification by the resource protection and compliance department. Limited clearing and rough-cutting for soil testing and surveying is allowed.

(2) No clearing or rough-cutting for purposes other than paragraph (1) above and construction of temporary erosion and sedimentation controls as per approved plans shall be permitted until these controls are in place.

(3) Clearing for the temporary storage of spoil or construction equipment, or for the permanent disposal of fill material or spoils, shall be so designated on the site plan.

(4) Vegetation within any floodplain preservation or buffer, or significant recharge buffer area should not be disturbed except for purposes consistent with development activity permitted by section 34-912.

(5) If an applicant does not comply fully with the approved construction sequencing and erosion control plan, the resource protection and compliance department shall notify him in writing that the city may correct and revegetate the, disturbed area at his expense, unless he does so within sixty (60) days after the date on the notice, or unless applicant provides erosion and sedimentation controls and the continuing maintenance thereof acceptable to the resource protection and compliance department.

(6) The requirements of this division shall not apply to ordinary vegetation management specifically regulated elsewhere by this code. This subsection is not intended to provide a defense for or waiver of any other requirements of this code, including but not limited to those contained in Article V of Chapter 14.

(Ord. No. 81491, § 1(App. I), 1-12-95; Ord. No. 2006-02-16-0241, § 5, 2-16-06)

Secs. 34-976—34-979. Reserved.

Subdivision F. Variance and Appeal

Sec. 34-980. Variance procedure.

(a) *Variances.* Variances to the terms and requirements of Subdivisions A, C, D, or E, of this division may be granted by the San Antonio Water System where a literal enforcement of the provisions of this division will result in an unnecessary hardship. No variance may be granted unless:

(i) Such variance will not be contrary to public interest;

(ii) Such variance will not substantially or permanently injure the appropriate use of adjacent land which is regulated by this Division;

(iii) Such variance will be in harmony with the spirit and purpose of this division;

(iv) The plight of the owner of the property for which the variance is sought is due to unique circumstances existing on the property, and the unique circumstances were not created by the owner of the property and are not merely financial, and are not due to or the result of general conditions of the category or geographical area in which the property is classified or located;

(v) The variance will not substantially weaken the general purposes of this division or the regulations herein established for the regulated area of the recharge zone;

(vi) The variance will not cause unreasonable disruption to the natural terrain;

(vii) The variance granted is limited in scope of relief to only that which is necessary to relieve the hardship condition.

(b) *Request for variance.* A person who feels they qualify for a variance, under the conditions outlined in subsection (a) above, from the literal application of this division to their property may request a variance from such application of one or more of the provisions of this division. All requests for variances shall be made in writing to the resource protection and compliance department of the San Antonio Water System and shall include:

(i) The subject of the requested variance, and

(ii) The justification for granting a variance.

(c) *Burden.* The party requesting a variance has the burden of demonstrating that sufficient evidence exists for the granting of a variance to application of this division, and the resource protection and compliance department shall consider and provide a written response to all such requests for variances within twenty (20) working days from the date a valid request for variance is received. The resource protection and compliance department shall serve its response by certified mail, return receipt requested, or by hand delivery.

(d) *If granted.* If a variance is granted as requested, or with modification, the recipient of the variance may develop their property according to all applicable provisions of this division to the extent such provisions have not been waived or modified by the variance, and according to the applicable provisions contained in Chapter 35 of this Code.

(e) *Term.* If a variance granted under this section shall have a term from the date of issuance, then any activity which would otherwise be prohibited by this division, except for the existence of such a variance, shall not be allowed to continue after the expiration of the specified term.

(f) *Appeal.* Any person who properly requests a variance pursuant to this section, and objects to the decision of the resource protection and compliance department which denies all or part of the relief requested may appeal such denial to the

president/CEO of SAWS by filing a request for appeal within ten (10) working days from the date notice of denial is received by the requesting party. All such appeals shall be made in writing to the office of the president/CEO of the San Antonio Water System and shall include, all pertinent information which the person requesting the appeal wishes to be considered. The president/CEO may require additional information from, or request a meeting with the person making the appeal. The written decision of the president/CEO, or authorized designee, on the appeal shall be rendered within fifteen (15) working days from the date the appeal is received by the president/CEO, and shall be delivered to the appealing party by certified mail, return receipt requested, or by hand delivery. If the president/CEO, or authorized designee fails to render an opinion on the appeal within the fifteen (15) working day period, the relief requested in the appeal shall be considered to have been wholly denied.

(g) *City council.* If the president/CEO of SAWS denies all or part of the relief requested in an appeal, the aggrieved party may make a final appeal to the San Antonio City Council by filing a notice of final appeal with the office of the city clerk for the City of San Antonio no later than the tenth day following the party's receipt of the written decision of the president/CEO from which the final appeal is brought, or the expiration of the fifteen-day period if no decision is rendered. A true and correct copy of the notice of final appeal must also be filed with the office of the president/CEO of SAWS which, upon receipt of such notice, shall immediately transfer copies off all documents and information relevant to the appeal to the office of the city clerk. The city clerk shall schedule the hearing of the final appeal at the earliest regularly scheduled meeting of the city council which will allow compliance with the requirements of the Texas Open Meetings Act. The decision of the city council on the relief requested in a notice of final appeal from the application of this division shall be considered final.
(Ord. No. 81491, § 1(App. I), 1-12-95; Ord. No. 2006-02-16-0241, § 5, 2-16-06)

Sec. 34-981—34-999. Reserved.

DIVISION 7. UNDERGROUND STORAGE TANK MANAGEMENT PROGRAM

Subdivision A. General Provisions

Sec. 34-1000. Purpose.

The city council of the City of San Antonio has adopted a policy that the installation of underground storage tanks and related systems (UST) within the Edwards Recharge Zone District (ERZD), as defined by Section 35-3102 of this Code, is inappropriate, and that the use of USTs within the Edwards Transition Zone shall only be allowed conditionally. Because there are UST sites which were installed before city council banned USTs in the ERZD, it is important that a monitoring and enforcement program be put in place to ensure the maintenance of each such existing UST system and to monitor compliance with rules and regulations which are designed to protect the public health, safety, and welfare. The regulations contained in this division provide a monitoring and enforcement program governing USTs within the ERZD and the Edwards Transition Zone. These regulations are the result of recommendations made by the Mayor's Water Quality Task Force for the purpose of protecting the water quality of the Edwards Aquifer and protecting the environment and are intended to be administered by the resource protection and compliance department of the San Antonio Water System.
(Ord. No. 83200, § 1, 11-16-95; Ord. No. 2006-02-16-0241, § 5, 2-16-06)

Sec. 34-1001. Applicability.

(a) The regulations contained in this division shall apply to all new and existing "Underground Storage Tanks" and "Underground Storage Tank Systems" (USTs), as defined by Section 35-1041 of this Code, which are located within the ERZD or the Edwards Transition Zone and are within the jurisdiction of the City of San Antonio, and which store and/or convey hazardous materials, flammable liquids or combustible liquids, as those terms are defined in the City of San Antonio Uniform Fire Code. The owner and operator of all such

UST facilities are subject to and shall comply with the requirements of this division. This division is intended to provide guidelines for owners/operators of such UST systems and to provide a UST management plan in accordance with the recommendations established by the city council in Ordinance No. 81147.

(b) These regulations provide minimum specifications and guidelines to monitor and ensure compliance with existing city, state and federal regulations and future rules, regulations and ordinances consistent with nationally recognized good practices for safeguarding life, property and the environment by protecting the public water supply from contamination caused by sudden or gradual releases of hazardous materials from USTs.
(Ord. No. 83200, § 1(App. I), 11-16-95)

Secs. 34-1002—34-1005. Reserved.

Subdivision B. Underground Storage Tank System Permitting

Sec. 34-1006. Permit required.

The operator of a facility which utilizes one or more USTs subject to regulation by this division is required to obtain a permit for operation of the UST system. Permit application forms are available from and shall be submitted to the resource protection and compliance department. Failure to provide information as requested in the application shall be grounds for refusal by the resource protection and compliance department to issue the permit. If the facility operator is not responsible for the UST, then the operator shall notify the resource protection and compliance department of the identity of the individual(s) responsible for the UST. Operation without a permit of a facility regulated by this division shall constitute a violation of this division.
(Ord. No. 83200, § 1(App. I), 11-16-95; Ord. No. 2006-02-16-0241, § 5, 2-16-06)

Sec. 34-1007. Information required.

The following information, at a minimum, shall be required as part of the permit application process and shall be received by the resource protection and compliance department prior to the issuance of a permit:

(a) General information regarding the identity of the applicant and facility, including:

1. The name and address of the applicant and facility;
2. The applicant's business phone number;
3. The name of the operator(s) of the facility;
4. The name, address, title and phone number of person responsible for compliance and each primary emergency response person;
5. Whether the facility is located on the Recharge Zone or Transition Zone;
6. Proof of insurance as required by 40 CFR 280.93.

(b) Facility maps or site plans for each regulated facility which identify the following:

1. Location of all underground hazardous materials storage and dispensing locations;
2. Routes of access to each regulated facility;
3. Emergency equipment related to each facility;
4. Location of stormwater runoff abatement facilities, if any.

(c) Regulated substance inventory sheet which provides the following:

1. Name of each regulated substance stored;
2. Capacity of each UST;
3. Material safety data sheet (MSDS);
4. Installation date(s) of each UST(s).

(d) Monitoring and testing plan as defined by Section 34-1020 of this division.

(e) All other information related to compliance with this division.

(Ord. No. 83200, § 1(App. I), 11-16-95; Ord. No. 2006-02-16-0241, § 5, 2-16-06)

Sec. 34-1008. Permit procedures.

(a) Any facility regulated by this division shall submit a completed permit application in accordance with section 34-1006 and section 34-1007 of this division. The application shall be signed by the operator and/or UST owner; and the signed application, together with the appropriate fee as set forth in the ERZD and Edwards Transition Zone UST Fees Schedule set forth in subsection e) of this section 34-108 shall be submitted to the resource protection and compliance department. The fee amounts listed in the ERZD and Edwards Transition Zone UST Fees Schedule are effective January 1, 2025. The fee amounts shall be adjusted on January 1 of each year thereafter by the percentage difference (greater than zero (0)) between the Consumer Price Index for All Urban Consumers (CPI-U) as it is calculated by the United States Bureau of Labor Statistics at the end of the month of July prior to the next year and as it was calculated at the end of the month of July one (1) year earlier, and subsequently rounded to the nearest dollar. SAWS will periodically perform a cost of service analysis to ensure that the fees charged do not exceed the cost of providing the services.

(b) After a complete and signed application has been received and the appropriate fee collected, the applicant's monitoring plan will be reviewed, and compliance with the regulations of this division will be verified by an on-site inspection by a staff member of the resource protection and compliance department. The initial inspection will be considered the first annual inspection for the purpose of administering this division.

(c) Upon receipt of all required information, approval of the monitoring plan, and the return of a favorable inspection report by the staff inspector, the resource protection and compliance department will issue a permit to the applicant. Each permit shall be valid for a period of three (3) years from the date it is issued.

(d) In the event a deficiency in the monitoring plan is found to exist, or in the event the facility is found to be non-compliant with the requirements of this division during the application process and initial inspection, the applicant will be notified in writing and may correct any deficiencies in the application or the monitoring plan or at the regulated facility within thirty (30) days from the date of notification. If the corrections cannot be made within the 30-day period, the applicant may request an extension in writing from the resource protection and compliance department. An extension of up to sixty (60) days may be granted upon a showing of good cause. Upon the earlier of notification by the applicant or expiration of the period for corrections, the application will be re-evaluated. If the required corrections have not been made at the time of the application is re-evaluated, the application will be denied.

(e) ERZD and Edwards Transition Zone UST fees schedule.

(1)	Initial registration fee (per site)	$390.00
(2)	Annual inspection fee (per site)	266.00
(3)	Follow-up inspection fee (per site, per occurrence, if prior inspection fails)	213.00
(4)	Third year renewal fee (per tank):	
	Tank sizes:	
	0—4,999 gallons	$931.00
	5,000—10,000 gallons	1,153.00
	Greater than 10,000 gallons	1,330.00

(Ord. No. 83200, § 1(App. I), 11-16-95; Ord. No. 2006-02-16-0241, § 5, 2-16-06; Ord. No. 2017-12-07-0928, § 3(Att. II), 12-7-17; Res. No. 18-262, 11-13-18; Res. No. 19-280, 7(Att. V), 11-5-19; Ord. No. 2022-11-10-0867, § 2(Att. II), 11-10-22; Res. No. 2023-198, 10-3-23; Res. No. 2024-227, § 7(Att. IV), 11-5-24)

Sec. 34-1009. Inspections by San Antonio Water System.

Inspections performed by the resource protection and compliance department personnel will be conducted during normal business hours. Every business applying for a permit will be inspected as prescribed in Section 34-1008 prior to issuance of a permit and at least annually thereafter. San Antonio Water System personnel shall have the right, upon reasonable notice, to enter any facility regulated by this division for the purpose of performing periodic inspections and for the purpose of enforcing the requirements of this division.
(Ord. No. 83200, § 1(App. I), 11-16-95; Ord. No. 2006-02-16-0241, § 5, 2-16-06)

Sec. 34-1010. Permit renewal.

It is the responsibility of each permittee to apply for renewal for a permit issued under this division not later than thirty (30) days before the existing permit expires. The application for renewal shall be accompanied by payment of the appropriate renewal fee as provided in the ERZD and Edwards Transition Zone UST Fees Schedule. Failure to apply for renewal within the 30-day period shall be considered a violation of this division. The resource protection and compliance department shall provide the permittee with notice of expiration of a permit at least forty-five (45) days prior to its expiration.
(Ord. No. 83200, § 1(App. I), 11-16-95; Ord. No. 2006-02-16-0241, § 5, 2-16-06; Ord. No. 2017-12-07-0928, § 4(Att. III), 12-7-17)

Sec. 34-1011. Permit transfers.

The transfer of a permit issued under this division will require the completion of a permit transfer form. Permit transfer forms shall be available from the resource protection and compliance department and shall be signed by both the seller and the buyer of the regulated facility. The transfer of a permit will result in the transfer of the original identification number and the issuance of a new permit. Permit transfer forms shall be submitted not later than thirty (30) days after transfer of ownership or operation of the business. All permit transfers are subject to the approval of the San Antonio Water System. Failure to submit a permit transfer form as required by this section shall constitute a violation of this division.
(Ord. No. 83200, § 1(App. I), 11-16-95; Ord. No. 2006-02-16-0241, § 5, 2-16-06)

Sec. 34-1012. Amendments.

(a) In the event of a change in operations at a facility which does not transfer ownership or control of the facility, but which substantially affects information required in the permit application, the permittee shall amend or supplement the original permit application within thirty (30) days of the change in operations.

(b) An amendment is not required in situations where quantities or storage locations of regulated materials are temporarily modified for less than forty-five (45) days, unless the modification will affect the fire department's ability to safely respond to an emergency at the facility or unless the San Antonio Water System determines that the modification may severely increase the potential for pollution of the Edwards Aquifer.

(c) Amendments or supplements to the permit application shall describe the reason for the amendment or supplementation of existing data, explain the addition or modification to each facility and provide any additional information as requested by the resource protection and compliance department.

(d) The resource protection and compliance department shall inspect each amendment or supplement to evaluate its compliance with the requirements of this division and shall notify the permittee of whether the amendment or supplement is approved within ten (10) days from the date of submission. In the event an amendment is not approved, the permittee may correct any deficiencies in the amendment or supplement and resubmit the same as corrected. Until an amendment or supplement is approved by the resource protection and compliance department the permittee will be required to comply with the most recent application and monitoring plan which has been approved.
(Ord. No. 83200, § 1(App. I), 11-16-95; Ord. No. 2006-02-16-0241, § 5, 2-16-06)

Sec. 34-1013. Maintenance of records.

Review by the resource protection and compliance department of records held by the permittee shall be allowed at the time of inspection or as otherwise requested at the regulated facility

[This page intentionally left blank.]

or forms and shall be clearly and conspicuously marked "Confidential" by the permittee or applicant. All confidential information will be protected by the San Antonio Water System Legal Department from disclosure in accordance with the Texas Public Information Act and this Code.
(Ord. No. 83200, § 1(App. I), 11-16-95)

Sec. 34-1015. Fee waiver.

(a) In the event an owner or operator of a facility regulated by this division is unable to pay the permit fee required by this division, the owner or operator may apply to the resource protection and compliance department for a fee waiver.

(b) The manager of the resource protection and compliance department may grant an application for fee waiver and reduce, modify, or waive the requirement for the payment of the permit fee only upon a showing by the applicant that payment of the fee would result in a severe hardship to the applicant's livelihood and that the applicant's income is insufficient to provide the applicant with the means for payment.

(c) Each application for a waiver of fees shall, at a minimum, include an affidavit by the applicant of inability to pay, complete copies of the applicant's federal income tax statements for the two (2) years preceding the filing of the application, and a current balance sheet and financial statement of the applicant's regulated business.

(d) The manager of the resource protection and compliance department shall provide the applicant with a written decision on the application for fee waiver within five (5) working days from the date the complete application for waiver is received.
(Ord. No. 83200, § 1(App. I), 11-16-95; Ord. No. 2006-02-16-0241, § 5, 2-16-06)

Secs. 34-1016—34-1019. Reserved.

Subdivision C. Monitoring and Testing Requirements

Sec. 34-1020. Monitoring plan requirements.

(a) The owner or operator of each facility regulated by this division shall submit to the resource protection and compliance department an inventory of the equipment which makes up the UST system and a plan for monitoring the integrity of the UST system and surrounding site (monitoring plan). The monitoring plan shall be sufficient to ensure that each UST system operates in a safe manner according to all federal, state, and local regulations, and to ensure the UST system will not pose a present or future threat to the water quality of the Edwards Aquifer or affect the public health, safety or the environment.

(b) Each monitoring plan shall provide the method and frequency of monitoring and an inventory of the monitoring equipment which will be installed and maintained (see Section 34-1007(d)(1)). This inventory shall include, at a minimum, the following information for each of the following categories:

1. UNDERGROUND STORAGE TANKS
   - (a) Number
   - (b) Size
   - (c) Material constructed from
   - (d) Number of layers
   - (e) Manufacturer and model type if applicable
2. PIPING

(a) Primary Piping
   - (i) Material constructed from
   - (ii) Diameter
   - (iii) Manufacturer

(b) Secondary Piping
   - (i) Material constructed from
   - (ii) Diameter
   - (iii) Manufacturer

3. OVERFILL PREVENTION MANHOLE
   - (a) Manufacturer and model type
   - (b) Capacity
4. OVERFILL PREVENTION DEVICE
   - (a) Manufacturer and model type
5. SUBMERSIBLE PUMP
   - (a) Manufacturer and Model Type

6. LEAK DETECTOR FOR PIPING SYSTEM
   (a) Manufacturer and model type
7. SHEAR VALVE
   (a) Manufacturer and model type
8. ELECTRONIC LEAK DETECTION SYSTEM
   (a) Automatic Tank Gauging
      (i) Manufacturer and model type
      (ii) Whether continuous tank testing and pipe testing used
   (b) Interstitial Monitor
      (i) Manufacturer and model type
      (ii) Liquid or vapor
10. MONITORING WELLS
   (a) Number of wells
   (b) Vapor monitoring in wells
   (c) Groundwater monitoring in wells
11. EXCAVATION LINER
   (a) Manufacturer and type
   (b) Material constructed from
   (c) Thickness (mil)
   (d) Permeability
12. VAULT
   (a) Manufacturer and type
   (b) Material constructed from
   (c) Sealant
   (d) Whether Pre-Stressed
13. ANY OTHER EQUIPMENT WHICH OPERATES AS PART OF THE SYSTEM
14. THIRD-PARTY CERTIFICATIONS FOR EQUIPMENT, as applicable.

(c) The monitoring plan shall incorporate sufficient requirements to ensure that the UST system is in good operating condition and that all protective measures are functioning properly. Each monitoring plan should describe everything done by the owner or operator to ensure that no leaks or spills of regulated materials occur at the facility, and how a leak or spill would be detected if it should occur.

(d) If any of the information contained in a monitoring plan becomes outdated, the owner or operator shall update the plan pursuant to Section 34-1010 of this division and shall be required only to follow the procedures described in the most recent version of the approved monitoring plan.

(e) Each monitoring plan shall provide a description of storage and dispensing systems in sufficient detail to show that the proposed monitoring and/or testing methods are appropriate and shall describe the methods and materials use in construction of the UST tanks and piping, type of backfill, any manifolding of tanks or lines, type of delivery system (e.g., suction or submerged pump, metered or non-metered), vapor recovery systems, and any other pertinent information.

(f) Each monitoring plan shall clearly indicate the monitoring method which will be used (e.g., tank system testing, monitoring wells) and the policies, including responsibilities and frequency of inspecting monitoring equipment, to ensure the plan is followed.

(g) Identification and explanation of the inventory control systems of regulated substances shall be provided as a part of the monitoring plan. All inventory control methods used shall meet 40 CFR 280.43, which requires product inventory control to be conducted monthly to detect a release of at least 1.0 percent of flow-through plus one hundred thirty (130) gallons on a monthly basis. A blank copy of the inventory record forms used should be submitted with a description of how and when reconciliations are performed.

(h) Each monitoring plan shall include policies which allow the permittee or its designee to demonstrate, when inspected, that inventory volume measurements were recorded each day, that product dispensing was metered and recorded within the local standards for meter calibration or an accuracy of six (6) cubic inches for every five (5) gallons of product withdrawn, and that the water level in the bottom of the tank was measured to the nearest one-eighth of an inch at least once a month.

(i) If applicable, the leaking petroleum storage tank site number shall be listed in the monitoring plan and an indication given whether a closure letter has been issued for the site or if the site is still being remediated.

(j) A maintenance plan for structural and Best Management Practices which has been used to abate stormwater runoff shall be incorporated into the monitoring plan. Maintenance should be performed as outlined in the Texas Natural Resource Conservation Commission (TNRCC) document, "The Edwards Aquifer Technical Guidance Manual."
(Ord. No. 83200, § 1(App. I), 11-16-95; Ord. No. 2006-02-16-0241, § 5, 2-16-06)

Sec. 34-1021. UST testing requirements.

(a) Each permittee shall perform precision testing of UST systems regulated by this division on a periodic basis as required by subsection (b) of this section unless the permitted facility is exempt from such testing pursuant to Section 34-1022 of this division.

(b) Each regulated facility shall perform precision tank testing of each permitted UST on a periodic basis according to the age and condition of each UST and the requirements of 30 TAC Chapter 334, Underground and Aboveground Storage Tanks.

(c) Each permittee shall provide as part of the monitoring plan the name and address of the tank testing company which will be used to perform required testing, the type of test that will be performed, and the date and times when the tests will be performed. The precision tank test shall be performed on each tank by a competent, trained independent agent, who has filed a statement of operation procedures and qualifications, including third-party certifications as applicable, with the resource protection and compliance department.

(d) For the purpose of complying with this division, a "precision tank test" is defined as a tank test which can measure leak rates of at least 0.10 gallon per hour (g.p.h.), can accurately correct measurements for tank wall deflections due to the increased hydrostatic pressure in the tank, can accurately correct measurements for changes in the specific volume of the liquid due to temperature gradients, and can detect any changes in temperature during the tank test, as identified in the National Fire Protection Association National Fire Codes, Section 329, entitled "Recommended Practices."

(e) Each UST tested pursuant to this division shall be tested using an approved underfill method and each test shall exceed a minimum of one hour in duration. Each tank which fails a tank test shall be immediately taken out of service until proper repairs or replacement have been completed. The resource protection and compliance department shall be notified immediately of any failed tank test.

(f) Each precision tank test shall also detect leaks in the product piping in the system. Piping shall be tested using a precision test method capable of detecting both pressure and volume changes during the test.

(g) Release detection methods for piping should meet or exceed all requirements of 40 CFR 280.40, 280.41, and 280.44 or equivalent TNRCC requirements as provided in 30 TAC 334. The test method shall also be capable of performing the required operational test of all mechanical line leak detectors. The test method operator shall have an up to date validation document for test method. The line leak detector used in each test shall be capable of detecting a ±0.010 g.p.h. release from pressurized piping at one and one half times operating pressure or a ±0.025 g.p.h. release from suction piping at a minimum test pressure of 5 p.s.i.g. Additionally, the line leak detector shall be capable of determining a bleed back for each line test as a quality control function. Bleed back test tolerance is that defined by the line test equipment manufacturer. Hydrostatic tests of suction and pressurized piping shall exceed a minimum of one hour duration. Line leak detector operators shall have a valid certification from the manufacturer for operation of the line leak detector equipment.

(h) Failure to perform UST testing as required by this section, or use of a UST system which has failed a tank or piping test before repair and reinspection shall constitute a violation of this division.
(Ord. No. 83200, § 1(App. I), 11-16-95; Ord. No. 2006-02-16-0241, § 5, 2-16-06)

Sec. 34-1022. Tank observation and leak detection systems.

As allowed under federal, state, and local regulations, tank observation wells may be used as an alterative to precision tank testing for leak detection in existing facilities (see API Bulletin 1635). Where tank observation well systems are used in lieu of precision tank testing, the detection limits of the leak detection system, the number, location and depth of the proposed tank observation wells and the depth of the water table at the sites, the water table gradient flow direction, surrounding soil permeability information, and the type and local characteristics of geologic material the wells are placed in, shall be submitted to the resource protection and compliance department as part of the monitoring plan and are subject to approval by the resource protection and compliance department.
(Ord. No. 83200, § 1(App. I), 11-16-95; Ord. No. 2006-02-16-0241, § 5, 2-16-06)

Sec. 34-1023. Test results.

The results of any UST system tests, even if inconclusive. shall be properly recorded by the permittee. The permittee shall notify the resource protection and compliance department within twenty (20) working days after the date of each test. If a UST system fails a test, the permittee shall notify the resource protection and compliance department by telephone (currently (210)704-7303 or (210)704-7800) within three (3) hours and in writing within three (3) days after the test results are received by the permittee. Failure to provide notification as required by this section shall constitute a violation of this division.
(Ord. No. 83200, § 1(App. I), 11-16-95; Ord. No. 2006-02-16-0241, § 5, 2-16-06)

Sec. 34-1024. Alternate testing methods.

For existing facilities, leak detection monitoring by alternate methods (e.g., tracer analyses, surface geophysical methods such as ground penetrating radar, electromagnetic induction, resistivity, magnetometers and X-ray fluorescence) may be permitted only on specific approval in each instance by the City of San Antonio Fire Department, and written proof of such approval shall be provided prior to testing to the resource protection and compliance department as a part of the monitoring plan.
(Ord. No. 83200, § 1(App. I), 11-16-95; Ord. No. 2006-02-16-0241, § 5, 2-16-06)

Sec. 34-1025. Overfill and overspill prevention devices.

Each UST system subject to regulation by this division shall have overfill and overspill prevention devices that meet all federal, state, and local fire code regulations. The overfill prevention device shall be able to shut off fuel delivery at ninety-five (95) percent capacity. The overspill prevention device shall be able to capture three (3) to five (5) gallons of the stored regulated material in the case of a spill during the materials transfer.
(Ord. No. 83200, § 1(App. I), 11-16-95)

Sec. 34-1026. Single-wall UST removal.

Any single-walled USTs which are located on the ERZD or the Edwards Transition Zone shall be removed and upgraded as required by Section 35-3106 of this Code. Failure to remove and upgrade a single-wall tank which is subject to regulation by this division shall constitute a violation of this division and shall subject the violating permittee to enforcement by the resource protection and compliance department.
(Ord. No. 83200, § 1(App. I), 11-16-95; Ord. No. 2006-02-16-0241, § 5, 2-16-06)

Sec. 34-1027. Insurance requirements.

In accordance with 40 CFR 280.90 owners and operators of petroleum USTs shall be able to demonstrate financial responsibility for taking corrective action and for compensating third parties for bodily injury and property damage caused

by accidental releases arising from the operation of petroleum storage tanks. The federal regulations describe various methods by which such financial responsibility may be achieved. Documentation showing compliance with these requirements shall be submitted as part of the requirements for the permit and shall be demonstrated at each annual inspection.
(Ord. No. 83200, § 1(App. I), 11-16-95)

Secs. 34-1028—34-1029. Reserved.

Subdivision D. Violations and Enforcement

Sec. 34-1030. Failure to perform.

Failure by a permittee or the permittee's employee or agent to perform any act identified in the permittee's monitoring program as submitted to and approved by the resource protection and compliance department shall constitute a violation of this division.
(Ord. No. 83200, § 1(App. I), 11-16-95; Ord. No. 2006-02-16-0241, § 5, 2-16-06)

Sec. 34-1031. Enforcement.

(a) [*Authority.*] The San Antonio Water System Legal Department is hereby granted the authority to seek legal and/or equitable remedies for violations of this division, including the filing of criminal charges. For the purpose of enforcing this division the San Antonio Water System's Environmental Counsel shall represent the City of San Antonio in civil enforcement actions, by and through the San Antonio Water System, and is hereby authorized to seek legal and/or equitable remedies against any person or entity which is reasonably believed to be violating or to have violated this division. A legal proceeding pursued under this division does not constitute a waiver by the San Antonio Water System of any right the City of San Antonio may have to join in a legal action originating from an alterative source of law. The San Antonio Water System may commence such actions for appropriate legal and/or equitable relief in courts having proper jurisdiction and may seek civil penalties and any other legal or equitable relief available under common law, Chapter 54 of the Texas Local Government Code, under Section 26.124 of the Texas Water Code, or any other applicable local, state, or federal code or statute.

(b) *Penalties.*

(1) *Criminal.* A conviction for violation of this division shall constitute a "Class C" misdemeanor. A person convicted of a violation of this division shall be fined not less than two hundred dollars ($200.00) nor more than two thousand dollars ($2,000.00) per violation. Each violation of a particular section of this division shall constitute a separate offense, and each day an offense continues shall be considered a new violation for purposes of enforcing this division.

(2) *Civil.* A civil penalty in an amount not to exceed one thousand dollars ($1,000.00) per violation of this division may be imposed. However, a civil penalty in an amount not to exceed five thousand dollars ($5,000.00) per violation may be imposed for violations which cause pollution of waters flowing into a channel, stream or other conveyance which drains into or is a part of the stormwater sewer system owned or controlled by the City of San Antonio. Each violation of a particular section of this division shall constitute a separate offense, and each day such an offense continues shall be considered a new violation for purposes of assessing civil penalties and otherwise enforcing this division. All civil penalties collected by reason of enforcing this division shall be deposited in the Water Quality and Environmental Education and Enforcement Account as established by Article I, Division 8 of this chapter.

(c) *Authority of city attorney to enforce.* The grant of the authority set out in this section shall in no way diminish the authority and responsibility of the office of the city attorney to ensure that this division is properly and diligently enforced, to prosecute violations of this division, and to defend the legality of this division if challenged.
(Ord. No. 83200, § 1(App. I), 11-16-95)

Secs. 34-1032—34-1039. Reserved.

Subdivision E. Variance Procedure

Sec. 34-1040. Variance procedure.

(a) [*Generally.*] Variance from one or more of terms and requirements of this division, other than the fee requirements, may be granted by the San Antonio Water System resource protection and compliance Department, where a literal enforcement of the provisions of this division will result in an unnecessary hardship. Any variance granted shall be limited in scope of relief to that which is necessary to relieve the hardship condition. No variance may be granted unless:

(1) Such variance will not be contrary to public interest;

(2) Such variance will not substantially increase the potential for pollution of the public water supply;

(3) Such variance will be in harmony with the spirit and purpose of this division;

(4) The plight of the applicant for variance is due to unique circumstances, and the unique circumstances were not created by the owner/operator of the UST system, are not merely financial, and are not due to or the result of general conditions affecting each member of the regulated community;

(5) The variance will not substantially weaken the general purposes of this division or the regulations herein established for the regulated area of the recharge zone; and

(6) The variance will not cause a conflict with a more stringent state or federal regulation, or with any provision of Chapter 35 of this Code.

(b) *Request for variance.* All requests for variance shall be made in writing to the resource protection and compliance department and shall include the subject of the requested variance and a justification for granting the variance.

(c) *Burden.* The party requesting a variance to application of this division has the burden of demonstrating that sufficient cause exists for the granting of the variance, and the resource protection and compliance department shall consider and provide a written response to the request for variance within twenty (20) working days from the date a valid request for variance is received. The resource protection and compliance department shall serve its response by certified mail, return receipt requested, or by hand delivery.

(d) *If granted.* If a variance is granted, whether as requested or with modification, the recipient of the variance shall be subject to all applicable provisions of this division to the extent such provisions have not been specifically waived or modified by the variance.

(e) *Term.* A variance granted under this section shall have a term of three (3) years from the date of issuance. Any activity which would otherwise be prohibited by this division but for the existence of the variance shall not be allowed to continue after the expiration of the specified term.

(f) *Appeal.* Any person who has properly requested a variance pursuant to this section and subsequently objects to a decision of the resource protection and compliance department denying all or part of the relief requested, may appeal such denial by filing a request for appeal, in writing, with the president/CEO of the San Antonio Water System, within ten (10) working days from the date the requesting party receives the notice of denial. The request for appeal shall include all pertinent information which the person requesting the appeal wishes to be considered. The president/CEO may require additional information from, or request a meeting with, the person making the appeal. The written decision of the president/CEO or his designee on the appeal shall be rendered within fifteen (15) working days from the date the appeal is received by the president/CEO, and shall be delivered to the appealing party by certified mail, return receipt requested, or by hand delivery. If the president/CEO, or his designee fails to render an opinion on the appeal within the fifteen-day period, the relief requested in the appeal shall be considered to have been wholly denied. The decision of the president/CEO on the issuance of a variance shall be considered final.

(Ord. No. 83200, § 1(App. I), 11-16-95; Ord. No. 2006-02-16-0241, § 5, 2-16-06)

Secs. 34-1041—34-1074. Reserved.

DIVISION 8. BACKFLOW PREVENTION

Sec. 34-1075. General provisions.

(a) *Purpose.* The purpose of this division is to prevent the contamination of water delivered by public water systems by requiring the maintenance, repair, inspection and testing of backflow prevention assemblies.

(b) *Application.* This division shall apply within the corporate limits of the city and within the extraterritorial jurisdiction of the city.

(c) *Definitions.* As used anywhere in this division, the following terms are defined to mean:

Backflow means the reversal of the flow of water or mixtures of water and other liquids, gases, or other substances into the distribution pipes of a public water system.

Backflow prevention assembly means an assembly that, when properly installed between the SAWS water supply system and the terminus or point of ultimate use, will prevent backflow. Examples of such assemblies include but are not limited to, reduced pressure backflow assemblies, double-check valve assemblies, pressure vacuum breakers, and spill resistant vacuum breakers.

Backflow prevention assembly tester (BPAT) means an individual licensed in accordance with the Texas Commission on Environmental Quality rules and registered by SAWS to test backflow prevention assemblies.

Backflow program administrator means a third party who assists SAWS with managing the backflow assemblies, backflow prevention assembly test and maintenance reports (T&M reports), and associated records.

City means the City of San Antonio, a Texas home rule municipality.

Cross-connection means any actual or potential connection or structural arrangement between a public or consumer's potable water system and any other source or system through which it is possible to introduce into any part of the potable system any used water, industrial fluid, gas, or substance other than the intended potable water with which the system is supplied. Bypass arrangements, jumper connections, removable sections, swivel or change-over devices and other temporary or permanent devices through which or because of which backflow can occur are considered to be cross-connections.

Customer means the SAWS account owner or person responsible for the backflow assembly. If there is no SAWS open account, the owner, occupant, manager, or other person in control of the property or premises or the person responsible for the maintenance of the property determined to be the source of a violation of this division shall be considered the customer.

Person means an individual, partnership, joint venture, firm, company, corporation, association, joint stock company, governmental entity, trust, estate, sole proprietorship, or legal entity of any kind or character.

Public water system means a system for the provision of water to the public as defined in Title 30 of the Texas Administrative Code, Section 290.38.

SAWS means the San Antonio Water System, a public water system and an agency of the city, created by City Ordinance No. 75686, passed April 30, 1992.

T&M Report means TCEQ approved Backflow Test and Maintenance report prepared by the BPAT tester.
(Ord. No. 2011-06-23-0575, § 2, 6-23-11; Ord. No. 2019-02-14-0123, § 1(Att. I), 2-14-19; Ord. No. 2024-11-07-0875, § 1(Exh. A), 11-7-24)

Sec. 34-1076. Backflow prevention assemblies.

(a) *Cross connections are prohibited.* A customer is prohibited from maintaining a backflow prevention assembly, plumbing fixture, equipment, or any other assembly that permits backflow, or failing to install a backflow prevention assembly that is required by the City Code.

(b) Each customer shall cause backflow prevention assemblies to be installed in compliance with the provisions of chapter 10 of the City

Code, and the international plumbing code and appendices as amended that are adopted by the city in that chapter.

(c) *Customer responsibility.* The customer is responsible for all listed backflow requirements, including maintaining, submitting proof of the annual inspection, and all requirements set out in this division as long as there is a water connection to the SAWS system, whether active or inactive. The customer is further responsible for the portion of any privately owned potable water system lying between the service connection (the terminal end of the connection from the public water system or downstream end of the meter) and the point of use by the customer. This includes but is not limited to, all pipes, conduits, tanks, receptacles, fixtures, equipment, and appurtenances used to produce, convey, store, or utilize potable water.

(Ord. No. 2011-06-23-0575, § 2, 6-23-11; Ord. No. 2019-02-14-0123, § 1(Att. I), 2-14-19; Ord. No. 2024-11-07-0875, § 1(Exh. A), 11-7-24)

Editor's note—Ord. No. 2019-02-14-0123, § 1(Att. I), adopted Feb. 14, 2019, amended § 34-1076, and in so doing changed the title of said section from "Backflow prevention devices" to "Backflow prevention assemblies," as set out herein.

Sec. 34-1077. Inspection and testing.

(a) Each customer is responsible for the maintenance and repair of each backflow prevention assembly that is located on the customer's property.

(b) Each customer shall have each backflow prevention assembly located on a customer's property inspected and tested annually by a BPAT and shall also be tested immediately after installation, relocation, repair or work performed upstream of the assembly. However, more frequent testing may be required if notice is provided by the SAWS to the customer. The BPAT performing the inspection and testing shall complete a report of each inspection and testing on a form approved by the public water system that provides water to the property where the backflow prevention assembly is located.

(c) Each customer shall repair or replace a backflow prevention assembly that fails a test before returning the backflow prevention assembly to service. If an assembly fails a backflow prevention assembly test, the BPAT tester shall immediately notify the customer and submit a failed backflow T&M report to the system, via the approved submission process. The assembly shall be replaced or repaired within the period set by SAWS or within five (5) calendar days from the date of assembly failure whichever date is sooner. In the event of assembly failure, water service shall not be connected or restored until the assembly has been repaired or replaced and passes a retest unless written authorization is given by SAWS that water service is authorized to be connected or restored at an earlier date.

(d) Each customer or the customer's representative shall deliver the annual T&M report that is required to be performed by this section to the designated backflow program administrator for the public water system that provides water to the property where the backflow prevention assembly is located before the end of the designated month assigned by SAWS, based on the last T&M report submitted to SAWS. If a T&M report has not previously been submitted, SAWS will assign submission months throughout a twelve-month cycle.

(e) A T&M report must be completed by a BPAT for each assembly tested. The signed and dated form must be submitted to the public water system that provides water to the property where the backflow prevention assembly is located within ten (10) days after the completed test. Only SAWS or an approved TCEQ backflow prevention assembly test and maintenance forms will be accepted. T&M reports must be submitted in the format designated by SAWS. The submission of the T&M forms may include the submission through a designated backflow program administrator. SAWS or its designated backflow program administrator will determine how the T&M forms submission shall be done, which includes but is not limited to electronic submission. All TCEQ requirements for submission must be followed by the T&M submitter. All test and maintenance reports shall be retained by the owner of the property where the backflow prevention assembly is located for at least three (3) years after the date of any such test.

(Ord. No. 2011-06-23-0575, § 2, 6-23-11; Ord. No. 2019-02-14-0123, § 1(Att. I), 2-14-19; Ord. No. 2024-11-07-0875, § 1(Exh. A), 11-7-24)

Sec. 34-1078. Fees.

(a) To recover the costs for the implementation of this division, each customer shall pay the applicable fee for existing backflow and maintenance report that is provided in section 10-83 of the City Code, for each backflow prevention assembly for which an annual inspection is required by this division to the public water system providing water to the location of each backflow prevention assembly. The fee shall be delivered to the public water system with the report of annual inspection and testing that is required by this division. Subject to city council approval, the governing body of each public water system is authorized to amend the amount of the fee charged to recover the costs reasonably related to the performance of the functions for which the fee is charged. The fee may be waived if the report prepared by the state licensed backflow assembly tester that is required by this division is submitted online through the San Antonio Water System electronic submission program.

(b) If a customer fails to submit or deliver the annual report of backflow testing and inspection as set out in subsection 34-1077(d), the public water system may assess a cost recovery fee to the customer upon notice of the violation. The cost recovery fee shall be assessed as follows:

1—3 Assemblies - $85.00

4—9 Assemblies - $117.00

>9 Assemblies - $179.00

Failure to pay the cost recovery fee in a timely manner shall subject the customer to suspension of service, and/or bar the reconnection or resumption of service until such time as the fee is paid.

(c) The fee amounts are effective January 1, 2025. The fee amount shall be adjusted on January 1 of each year thereafter by the percentage difference (greater than zero (0)) between the Consumer Price Index for All Urban Consumers (CPI-U) as it is calculated by the United States Bureau of Labor Statistics at the end of the month of July prior to the next year and as it was calculated at the end of the month of July one (1) year earlier, and subsequently rounded to the nearest dollar. SAWS will periodically perform a cost of service analysis to ensure that the fee charged does not exceed the cost of providing the service.

(Ord. No. 2011-06-23-0575, § 2, 6-23-11; Ord. No. 2019-02-14-0123, § 1(Att. I), 2-14-19; Ord. No. 2022-11-10-0867, § 2(Att. II), 11-10-22; Res. No. 2023-198, 10-3-23; Ord. No. 2024-11-07-0875, § 1(Exh. A), 11-7-24; Res. No. 2024-227, § 7(Att. IV), 11-5-24)

Sec. 34-1079. Emergency suspension.

(a) The chief executive officer of a public water system may suspend water service and disconnect service to a customer if the chief executive officer determines that contamination or pollution due to backflow presents an imminent threat to the public water system, presents an imminent danger to public health or safety, or threatens to interfere with the operation of the public water system.

(b) A person notified of the suspension of the person's service by a public water system pursuant to this section shall immediately stop the use of the public water system's water. If a person fails to immediately suspend use of the public water system's water, the public water system may take the actions it determines are necessary to prevent contamination or pollution, or to minimize damage to the public water system.

(c) The authority granted in this section is in addition to the authority granted to SAWS in section 34-1081 of this division.

(Ord. No. 2011-06-23-0575, § 2, 6-23-11; Ord. No. 2024-11-07-0875, § 1(Exh. A), 11-7-24)

Sec. 34-1080. Access to property.

A public water system, through its employees or authorized agents, may enter property that receives water service from the public water system to inspect backflow prevention assemblies. The customer shall make all necessary arrangements, at its sole expense, to remove security barriers or other obstacles to allow access by public water system personnel without delay.

Failure to provide access for the inspection of backflow prevention assemblies shall be considered a violation of this division.
(Ord. No. 2011-06-23-0575, § 2, 6-23-11; Ord. No. 2019-02-14-0123, § 1(Att. I), 2-14-19; Ord. No. 2024-11-07-0875, § 1(Exh. A), 11-7-24)

Sec. 34-1081. Enforcement.

(a) The failure to perform any action that is required by this division, or the performance of any action that is prohibited by this division shall constitute a violation of this division.

(b) *Criminal penalty.* A conviction for a violation of any provision of this division shall constitute a class C misdemeanor. A person convicted of a violation of any provision of this division shall be fined an amount of not less than two hundred dollars ($200.00) per violation and a maximum of not more than two thousand dollars ($2,000.00) per violation. Each violation of this division shall constitute a separate offense, and each day a violation continues shall be considered a new offense. A culpable mental state is not required to prove an offense under this division.

(c) *Civil penalty.* A civil penalty may be imposed for each violation of any provision of this division in an amount not to exceed five thousand dollars ($5,000.00) per violation. Each violation of any provision of this division shall constitute a separate violation, and each day a violation continues shall be considered a new violation.

(d) *Authorization to enforce.* SAWS is authorized to take any action authorized by this division against any person committing a violation of this division within SAWS service area. The grant of authority set out in this section does not in any way diminish the authority of the office of the city attorney to take any action necessary to enforce the terms of this division, to prosecute violations of this division, and to defend the legality of this division, if challenged.

(e) *Additional enforcement remedies.* In addition to any other remedies provided in this division, the city, or SAWS for violations of this division that occur within its service area may, at any time, pursue any other legal and/or equitable remedy to require compliance with this division.

(f) SAWS shall provide written notice of a violation of this division to a customer and if the violation is not completely remedied within ninety (90) days after the date of the notice, then in that event SAWS may terminate water and/or sewer service to the location where the violation occurred in accordance with the procedures set out herein.
(Ord. No. 2011-06-23-0575, § 2, 6-23-11; Ord. No. 2022-11-10-0867, § 2(Att. II), 11-10-22; Ord. No. 2024-11-07-0875, § 1(Exh. A), 11-7-24)

Secs. 34-1082—34-1100. Reserved.

ARTICLE VII. DRAINAGE UTILITY*

DIVISION 1. CREATION OF A DRAINAGE UTILITY

Sec. 34-1101. Establishment of drainage utility, calculation of drainage charges; service area; exemptions, and dedication of assets.

(a) The provisions of the Texas Local Government Code, Chapter 402, Subchapter C (currently codified at Chapter 552, Subchapter C, entitled, "Municipal Drainage Utility Systems Act") were adopted with Ordinance No. 86711 (September 25, 1997) to create the City of San Antonio Drainage Utility (herein after "drainage utility"). Accordingly, the city council hereby adopts the Municipal Drainage Utility Systems Act, as currently codified; declares the drainage of the City of San Antonio to be a public utility; and dedicates to the drainage utility all city owned property, real and personal, facilities, materials and supplies constituting the city's drainage system as currently constituted and as may be acquired in the future, to be used for the purpose of the drainage utility.

*__Editor's note—__Ord. No. 2015-09-10-0761, § 7(Exh. D), adopted September 10, 2015, amended article VII in its entirety to read as herein set out. Formerly, article VII pertained to similar subject matter, and derived from Ord. No. 86711, § 1, adopted September 25, 1997.

(b) The service area for the drainage utility shall include all real property within the city limits of the City of San Antonio as now existing and all which may be annexed hereafter from time to time.

(c) The following property shall be exempt from the provisions of this article:

(1) Real property with proper construction and maintenance of a wholly sufficient and privately owned drainage system;

(2) Real property held and maintained in its natural state, until such time that the property is developed and all of the public infrastructure constructed has been accepted by the city;

(3) A subdivided lot, until a structure or improvement has been built on the lot and a certificate of occupancy has been issued by the city;

(4) Real property owned by the State of Texas;

(5) Real property owned by public or private institutions of higher education; and

(6) Real property owned by the City of San Antonio constituting the drainage system, including public streets, rights-of-way, facilities, and infrastructure that provide drainage service.

All other real property within the drainage utility service area shall be subject to this article, including but not limited to, religious organization properties, railroad yards, cemetery properties, county properties, federal properties, city properties other than noted in subsection (c)(6) above, and school district properties. School district properties shall be subject to the current rate structure for a five-year period, through December 31, 2020. Drainage utility charges for the properties that make up Joint Base San Antonio shall be subject to the current rate structure for two (2) years, through December 31, 2017, or until the federal government appropriates funds for the payment of drainage utility charges.
(Ord. No. 2015-09-10-0761, § 7(Exh. D), 9-10-15)

Sec. 34-1102. No effect on land owner obligations under city ordinances; no waiver of immunity.

(a) The establishment of the drainage utility by the city does not relieve private land owners, developers, other individuals and entities from their responsibility for complying with the obligations of other ordinances of the city or laws of the state that relate to floodplain and storm water management.

(b) The establishment of the drainage utility does not imply or warrant that a benefitted property will be free from flooding, storm water pollution, or stream erosion. The city makes no representation that all drainage problems will be remedied. This article does not create additional duties on the part of the city or create new liability or remedies for any flooding, stream erosion, deterioration of water quality, or other damages. Nothing in this article shall be deemed to waive the city's immunity under law or reduce the need or necessity for flood insurance.
(Ord. No. 2015-09-10-0761, § 7(Exh. D), 9-10-15)

Sec. 34-1103. Other laws.

To the extent this article conflicts with any other provisions in the City Code, the provisions shall be harmonized when possible; however, this article shall control and supersede any other provision regarding the drainage utility.
(Ord. No. 2015-09-10-0761, § 7(Exh. D), 9-10-15)

Secs. 34-1104—34-1110. Reserved.

DIVISION 2. ADMINISTRATION OF DRAINAGE UTILITY

Sec. 34-1111. Definitions.

Terms defined herein are specific to this article and shall not be construed as conflicting with similar terms in other parts of the City Code. Terms not otherwise defined herein shall be given the definitions contained in Chapter 552, Subchapter C of the Texas Local Government Code.

The Act shall mean the Municipal Drainage Utility Systems Act, codified in the Texas Local Government Code, Title 13 (Water and Utilities), Chapter 552 (Municipal Utilities), Subchapter C (Municipal Drainage Utility Systems).

Administrative charges shall mean miscellaneous fees, other than drainage utility charges, established by the city council to recover the actual cost associated with providing optional services to users.

Assistant director shall mean the assistant director of the department overseeing the drainage utility.

Benefitted property shall mean an improved lot or tract within the drainage service area to which drainage service is provided and that is subject to the assessment of drainage utility charges.

Cost of service shall mean the costs of providing drainage service to all benefitted properties, which shall be the total of:

(1) Prorated cost of the acquisition, whether by eminent domain or otherwise, of land, rights-of-way, options to purchase land, easements, and interests in land relating to structures, equipment, and facilities used in draining the benefitted properties;

(2) Prorated cost of the acquisition, construction, repair, and maintenance of structures, equipment, and facilities used in draining the benefitted properties;

(3) Prorated cost of architectural, engineering, legal, and related services, plans and specifications, studies, surveys, estimates of cost and of revenue, and all other expenses necessary or incident to planning, providing, or determining the feasibility and practicability of structures, equipment, and facilities used in draining the benefitted properties;

(4) Prorated cost of all machinery, equipment, furniture, and facilities necessary or incident to the provision and operation of draining the benefitted properties;

(5) Prorated cost of funding and financing charges and interest arising from construction projects and the start-up cost of a drainage facility used in draining the benefitted properties;

(6) Prorated cost of debt service and reserve requirements of structures, equipment, and facilities provided by revenue bonds or other drainage revenue-pledge securities or obligations issued by the city;

(7) Administrative costs of operating and maintaining the drainage utility; and

(8) Other costs as appropriate that are incident or related to the provision and operation of draining the benefitted properties.

Customer. See the definition of *User*.

Department shall mean the city's transportation and capital improvements department.

Director shall mean the director of the department.

Drainage shall mean bridges, catch basins, channels, conduits, creeks, culverts, detention ponds, water quality ponds, ditches, draws, flumes, pipes, pumps, sloughs, treatment works, and appurtenances to those items, whether natural or artificial, or using force or gravity, that are used to draw off surface water from land, carry the water away, collect, store, or treat the water, or divert the water into natural or artificial watercourses.

Drainage utility shall mean the City of San Antonio Drainage Utility established by Ordinance No. 86711 adopted on September 25, 1997.

Drainage utility charges shall mean the service fees imposed on users and set out in a rate schedule to recover the cost of the service of furnishing drainage service for all benefitted properties, including any interest and penalties; and amounts made in contribution to funding of future drainage system construction by the city.

Drainage system shall mean all real and personal property owned or controlled in whole or in part by the city and dedicated to the drainage utility for the purpose of providing

drainage service to benefitted properties, including any future additions, extensions, and improvements thereto and replacement thereof.

Facilities shall mean the real, personal, or mixed property that is used in providing drainage service and included in the drainage system.

Impervious area or *impervious cover.* See City of San Antonio Unified Development Code, Appendix A—Definitions and Rules of Interpretation (roads, parking areas, buildings, pools, patios, sheds, driveways, private sidewalks, and other impermeable construction covering the natural land surface).

Improved lot or tract shall mean a lot or tract that has a structure or other improvement on it that causes an impervious area or surface.

Non-residential properties shall mean all benefitted properties within the service area, other than residential properties.

Owner shall mean the owner of record of benefitted property.

Public utility shall mean drainage service that is provided by the drainage utility to the users of benefitted properties within the service area and that is based on:

(1) An established schedule of rates;

(2) Use of the police power to implement the service; and

(3) Nondiscriminatory, reasonable, and equitable terms consistent with the Act.

Residential properties shall mean all benefitted properties within the service area used for single-family home, duplex, triplex, quadplex properties, or mobile home land use.

Service area shall mean the city limits of the City of San Antonio, Texas as may be amended from time-to-time.

User or *customer* shall mean the person or entity that owns or occupies a benefitted property and who is responsible for paying the drainage utility charges.

Wholly sufficient and privately owned drainage system shall mean on-site drainage retention facilities designed to keep runoff from an improved lot or tract from discharging into any natural or manmade waterway or drainage infrastructure including public streets, storm drains, culverts, drainage easements, or storm water ponds that are part of the drainage system; for storms of magnitude up to and including the one-percent-annual chance (100-year) storm event, 24-hour duration, captured runoff must be removed from the retention system within seventy-two (72) hours of the rainfall event without discharging into the drainage system.

(Ord. No. 2015-09-10-0761, § 7(Exh. D), 9-10-15; Ord. No. 2016-09-29-0737, § 2, 9-26-16)

Sec. 34-1112. Drainage utility fund.

A separate fund has been created, known as the storm water operating fund, for the purpose of segregating, identifying, and controlling all revenues and expenses attributable to the drainage utility. All drainage utility charges shall be deposited as collected and received into this fund and shall be used exclusively for drainage cost of service. Such utility revenues may be used for the operation, planning, engineering, inspection, construction, repair, maintenance, improvement, reconstruction, administration, debt issuance cost and debt service, and other reasonable and customary expenses associated with the operation of a utility system. It shall not be necessary that the expenditures from the drainage utility fund for any authorized purpose specifically relate to or benefit any particular benefited property from which the revenues were collected.

(Ord. No. 2015-09-10-0761, § 7(Exh. D), 9-10-15)

Sec. 34-1113. Administration of drainage utility.

The director or his designee shall be responsible for the administration and operation of the drainage utility, including, but not limited to, recommending regulations and procedures necessary for the administration of the drainage utility charges which shall be authorized by the city council, the resolution of challenges to the assessment of impervious area to benefitted property, the resolution of billing disputes, the development and implementation of maintenance and facility improvement programs, the provision of

appropriate utility training to personnel, and the implementation of a state and federal regulatory compliance program. The director shall keep an accurate record of all benefitted properties to which services and facilities of the drainage utility are made available.
(Ord. No. 2015-09-10-0761, § 7(Exh. D), 9-10-15)

Sec. 34-1114. Drainage utility charges.

(a) The drainage utility charge is hereby imposed upon each benefitted property within the service area. Drainage utility charges shall become effective on January 1, 2016. Thereafter, drainage utility charges shall be billed to benefitted properties on a monthly basis for the duration of the drainage utility.

(b) For purposes of imposing drainage utility charges, all benefitted properties within the service area are classified into the following customer categories:

(1) Residential properties, and

(2) Non-residential properties.

(c) The impervious area value shall be determined by conducting an inventory of all improved lots in the service area and identifying the impervious area for each improved lot. The impervious area value shall be used in establishing drainage utility charges for residential properties based on the amount of impervious area identified in the rate tiers in subsection (d), and for non-residential properties based on the methodology described in subsection (e). The director or his designee shall be responsible for determining the impervious area of benefitted property based on reliable data, including the appraisal roll, geographic information system technology, aerial photography, or other reliable means for determining impervious area. The director may require additional information from the owner, user, tenant, manager or developer to make the determination. The assessment of impervious area to benefitted properties may be revised by the director based on the addition of structures or improvements to properties identified through the city's building permit process.

(d) Residential properties shall be assigned a rate category and assessed a drainage utility charge based on impervious area as provided in the following table:

Residential Rate Category	*Impervious Area in Square Feet*	*Monthly Fee*
Tier 1	≤ 2,750	$3.75
Tier 2	> 2,750—4,220	$4.94
Tier 3	> 4,220	$10.45

(e) Non-residential properties shall be assigned a rate category and assessed a drainage utility charge determined by a base fee and impervious fee in accordance with the values provided in subsections (e)(1) and (2):

(1) *Base fee* shall mean a flat monthly fee assessed among all non-residential benefitted properties as determined by Bexar County Appraisal District property records. The FY 2020 amount is calculated at sixty-seven dollars and thirty cents ($67.30).

(2) *Impervious fee* shall mean a monthly fee assessed on all non-residential benefitted properties on a per square foot basis and prorated based on the percentage of impervious area within the benefitted property.

Non-Residential Rate Category	*Percent Impervious Area*	*Monthly Fee per 1,000 Square Feet*
Tier 1	≤ 20%	$0.31
Tier 2	> 20%—40%	$0.45
Tier 3	> 40%—65%	$0.58
Tier 4	> 65%	$0.73

(f) The city council may adjust the value and rate tiers in subsections (d) and (e) at any time based upon the recommendation of the director that the cost of service for the drainage utility warrants an adjustment in rates.

(g) No drainage utility charge credit shall be given for the installation of drainage facilities required by the City Code or state law. However, a credit of up to thirty (30) percent off the impervious fee portion of the monthly drainage utility charges shall be available to customers of non-residential properties that voluntarily implement low impact development water quality management practices in compliance with technical criteria adopted by the city.

(h) Pervious pavements and other pervious surfaces in compliance with technical criteria adopted by the city shall not be included in the impervious area calculation. Rail ballast areas shall be considered as thirty (30) percent impervious based on industry standard runoff coefficients. Linear railroad track right-of-way systems outside of railroad yards intended to convey storm water throughout the drainage utility area and that provide drainage service to benefitted properties shall not be included in the impervious area calculation.
(Ord. No. 2015-09-10-0761, § 7(Exh. D), 9-10-15; Ord. No. 2016-09-29-0737, § 3, 9-26-16; Ord. No. 2017-09-14-0656, § 2(Att. C), 9-14-17; Ord. No. 2018-09-13-0713, § 1(Att. H.2), 9-13-18; Ord. No. 2019-09-12-0694A, § 1(Att. N), 9-12-19)

Sec. 34-1115. Billing, payments, and penalties.

(a) Billing statements for the drainage utility charges shall be rendered by the city for all benefitted properties within the drainage service area. Bills shall be payable when rendered and shall be considered received by the customer, whether actually received or not, when deposited in the United States mail, postage prepaid, addressed to the customer. Bills shall be rendered monthly for the previous month's service.

(b) The director shall establish the "impervious area" for each benefitted property in the drainage utility's service area based on the methodology and database of benefitted properties produced by the drainage utility fee comprehensive study and make appropriate updates to maintain the integrity of the database.

(c) The director shall determine the appropriate storm water drainage charges for each benefitted property based on the impervious area assessment.

(d) The director shall assume that each drainage utility account in the service area serves one or more users of a benefitted property, and shall assess the monthly drainage utility charge to the person responsible for payment of the drainage utility account. The director shall calculate the drainage utility charges for all users. If there is more than one user of a non-residential property, then the drainage utility charges shall be assessed to the owner of the non-residential property, unless instructed by the owner of the non-residential property, in writing, to bill users on a prorated basis.

(e) Bills are due and payable on the date specified thereon and if full payment is not made by the date specified, the bill shall become delinquent.

(f) The director shall continue the relation with SAWS as billing agent, and/or engage other service providers as appropriate, to ensure all benefitted properties within the drainage utility service area are billed for storm water drainage charges. Drainage utility charges shall be billed by SAWS, or other designated billing agents, following their standard billing processes, and may be subjected to penalties, interest, and other terms.

(g) Any charge due hereunder which is not paid when due will subject the user to discontinuance of all utility services provided by the city and may be recovered in an action at law or in equity by the city including fixture of a lien against the property, as allowed by law.

(h) The city shall have access, at all reasonable times, to any benefited property served by the drainage utility for necessary inspection, repair of infrastructure or enforcement of this article.

(i) The storm water drainage charges for school district benefitted properties within the drainage utility's service area shall remain at current rates for the period starting at 12:01 a.m. on January 1, 2016 and ending at 11:59 p.m. on December 31, 2020. This is consistent with Resolution No. 2015-04-02-0021R, passed by the city council on April 2, 2015.

(j) The director shall decide billing complaints that are not satisfactorily addressed under SAWS billing dispute procedures found in chapter 34, article I, divisions 3 to 7.
(Ord. No. 2015-09-10-0761, § 7(Exh. D), 9-10-15)

Sec. 34-1116. Appeal of impervious area assignment.

(a) A user may appeal the impervious area assigned to the user's benefitted property by submitting the request to the assistant director or his designee on a prescribed form. If the appeal results in a reassignment of impervious area to the benefitted property, the user will be entitled to a recalculation of drainage utility charges which may result in a rate adjustment.

(b) The following procedures shall apply to all appeals of impervious area assignments:

(1) The user shall have the burden of proof.

(2) The director shall develop a prescribed form for users to appeal the amount of impervious area assigned to a benefitted property. The appeal shall be submitted to the assistant director or his designee following the procedure outlined below.

(3) Any appeal of impervious area assignment shall be in writing and set forth in detail the grounds upon which relief is sought.

(4) Appeals of impervious area assignments will be reviewed by the assistant director or his designee within twenty (20) business days from the date of receipt on the prescribed form. Following the twenty (20) day review period, the assistant director may request additional information necessary to make a determination as prescribed in subsection (b)(6). Any adjustment to drainage utility charges resulting from such an appeal shall be prospective, but may be made retroactive for no more than three (3) billing periods prior to the receipt of the appeal.

(5) The user requesting a reassignment of impervious area may be required, at the user's cost, to provide supplemental information to the assistant director, including, but not limited to, survey data certified by a Texas Registered Professional Land Surveyor (R.P.L.S.), design data certified by a Registered Professional Engineer (P.E.) licensed to practice in the State of Texas, or other documentation of impervious area. Failure to provide requested information may result in the denial of the appeal.

(6) The assistant director's resolution of the appeal shall be provided to the user, in writing, within ten (10) business days following review of the initial request as described in subsection (b)(4). If the user is successful in the appeal, the assistant director shall order the reassignment of impervious area to the benefitted property consistent with the resolution of the appeal. The assistant director shall also order the recalculation of drainage utility charges which may result in a rate adjustment. If the recalculation results in a rate adjustment it will be granted effective the next billing period.

(c) If the assistant director denies the request to reassign impervious area to the benefitted property, the user may, within ten (10) business days from the date of notification, appeal the decision to the director. The appeal shall be in writing, contain a succinct and clear statement of the user's argument and suggested remedy, and be filed with the director's office. The director shall have fifteen (15) business days from the date the appeal is received to review the appeal, make a determination, and notify the user.

(d) Before imposing a lien for delinquent drainage utility charges, the city shall send notice to the owner of the benefitted property stating the amount of the charges owed, and of the owner's right to appeal the placement of the lien by producing evidence the delinquent charges are not rightfully owed, by providing such within ten (10) business days from the date of notification to the director. The director shall not file the lien if the owner shows that the drainage utility charge made the basis of the lien is not owed. When a person pays all of the charges, a lien filed pursuant to this article, shall be released. The paying party shall be responsible for the filing costs of the release.

(Ord. No. 2015-09-10-0761, § 7(Exh. D), 9-10-15)

Sec. 34-1117. Credit application.

(a) A user of a non-residential benefited property may submit a request for credit as identified in subsections 34-1114(g) and (h) to the assistant director.

(b) A user of a non-residential benefited property may submit a request for credit if the user controls multiple contiguous parcels and can prove single ownership, purpose, and use, and the user has been assessed individual base fees as described in subsection 34-1114(e)(1) for each of the properties.

(c) The following procedures shall apply to all credit applications:

(1) The user shall have the burden of proof.

(2) The director shall develop a prescribed form for users to apply for credit to a non-residential benefitted property. The application shall be submitted to the assistant director or his designee following the procedure outlined below.

(3) Any credit application shall be in writing and set forth in detail the grounds upon which relief is sought.

(4) Credit requests will be reviewed by the assistant director or his designee within twenty (20) business days from the date of receipt on the prescribed form. Following the twenty (20) day review period, the assistant director may request additional information necessary to make a determination as prescribed in subsection (c)(6). Any adjustment to drainage utility charges resulting from the credit request shall be prospective.

(5) The user requesting credit may be required, at the user's cost, to provide supplemental information to the assistant director, including, but not limited to, survey data certified by a Texas Registered Professional Land Surveyor (R.P.L.S.), design data certified by a Registered Professional Engineer (P.E.) licensed to practice in the State of Texas, or other documentation to supplement the credit request. Failure to provide requested information may result in the denial of the request.

(6) The assistant director's resolution of the credit request shall be provided to the user, in writing, within ten (10) business days following review of the initial request as described in subsection (c)(4). If the user is successful in the credit request, the assistant director shall order the recalculation of drainage utility charges which may result in a rate adjustment. If the recalculation results in a rate adjustment it will be granted effective the next billing period.

(d) If the assistant director denies the credit request to the benefitted property, the user may, within ten (10) business days from the date of notification, appeal the decision to the director. The appeal shall be in writing, contain a succinct and clear statement of the user's argument and suggested remedy, and be filed with the director's office. The director shall have fifteen (15) business days from the date the appeal is received to review the appeal, make a determination, and notify the user.

(e) As part of the credit application, the user must commit in a written agreement to provide long-term maintenance of any credited system in accordance with a user prepared operations and maintenance plan, which will be on file with the city. Annual inspection and certification of the credited system shall be required by the user and made available to the city. Failure to adequately maintain the system will result in the removal of the credit amount. Credit applications must be renewed with property ownership changes.

(Ord. No. 2015-09-10-0761, § 7(Exh. D), 9-10-15)

Secs. 34-1118—34-1140. Reserved.

ARTICLE VIII. RECYCLED WATER SERVICE AND RATES*

DIVISION 1. GENERALLY

Sec. 34-1141. Purpose of recycled water program.

The purpose of the SAWS' recycled water program is the replacement of Edwards Aquifer

*__Editor's note—__Ord. No. 87597, § 1, adopted March 26, 1998, added provisions intended for use as Art. VII. Inasmuch as there were already provisions so designated, the provisions have been redesignated as Art. VIII at the discretion of the editor.

water usage with recycled water for non-potable uses of water thereby making the Edwards Aquifer water available for other uses. A fundamental goal of the program is the acquisition by SAWS of Edwards Aquifer water withdrawal rights from customers who are Edwards Aquifer water withdrawal rights owners. SAWS seeks to acquire such Edwards Aquifer withdrawal rights by exchange for a contractual commitment to deliver equivalent quantities of recycled water that unlike Edwards Aquifer water is not subject to reduction during drought periods.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1142. Contracting for purchase of recycled water.

SAWS and customers desiring to purchase recycled water from SAWS shall be required to enter into a written recycled water contract setting forth, the terms and conditions upon which such transaction will be consummated. The recycled water contracts shall comply with the provisions of this article VIII, as well as any other applicable laws, rules and regulations.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1143. Authorized uses of recycled water.

Recycled water shall be used exclusively for commercial, industrial, irrigation, landscape maintenance, streamflow enhancement and other specific uses described in the recycled water contract between SAWS and a customer. Recycled water use shall be in compliance, where applicable, with 30 Texas Administrative Code, Chapter 210, et seq.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1144. Prohibited uses of recycled water.

Recycled water shall not be used for drinking, food preparation, domestic purposes or any type of human consumption. A violation of this section may be cause for the immediate termination of a recycled water contract between SAWS and a customer.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1145. Prohibited sales of recycled water.

It shall be unlawful for any person to sell recycled water to any other person for any purpose other than an authorized purpose described in section 34-1143.
(Ord. No. 87597, § 1, 3-26-98)

Secs. 34-1146—34-1160. Reserved.

DIVISION 2. QUALITY

Sec. 34-1161. Generally.

(a) All recycled water supplied, treated, transmitted and distributed by SAWS shall be in compliance with the parameters established by TNRCC for Type I usage under 30 Texas Administrative Code, Chapter 210 et seq. The minimum recycled water quality will be as follows:

BOD_5 or $CBOD_5$	5 mg/L
Turbidity	3 NTU
Fecal Coliform	20 CFU/100 ml*
Fecal Coliform	75 CFU/100 ml**

* Geometric mean (the n^{th} root, usually the positive n^{th} root, of a product of n factors)
** Single grab sample (not to exceed).

(b) SAWS shall provide periodic recycled water quality data to all recycled water customers. Specific recycled water quality issues and specific treatment requirements unique to any customer may be addressed by SAWS and the individual customers in recycled water contracts.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1162. Supplying below standard recycled water to another.

It shall be unlawful for any person to supply any other person with recycled water which does not comply with the recycled water standards described in section 34-1161.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1163. Analyses of recycled water required.

At a minimum, every official or other person responsible for any recycled water supply, who

furnishes recycled water for any authorized recycled water use, shall have at least one (1) sanitary analysis of a representative sample of recycled water from the distribution system made twice weekly and shall retain records for a minimum of three (3) years.
(Ord. No. 87597, § 1, 3-26-98)

Secs. 34-1164—34-1180. Reserved.

DIVISION 3. SYSTEM

Sec. 34-1181. Definitions.

Conversion benefit shall mean the sum of money paid by SAWS to, or cost incurred by SAWS specifically to the benefit of:

(1) An existing customer of SAWS who contracts to purchase recycled water thereby reducing the existing customer's utilization of Edwards Aquifer water; and

(2) Any customer who exchanges with SAWS all or part of the customer's Edwards Aquifer water withdrawal rights for recycled water from SAWS.

Distribution main shall mean a recycled water main offsite to a customer which is constructed at the expense of the recycled water customer and which connects one (1) or more customers with a SAWS transmission main. Distribution mains terminate at (1) the point of connection with a customer's recycled water meter, and (2) the point of connection with SAWS' transmission mains. All distribution mains (including the recycled water meter connecting to a customer's onsite recycled water main) accepted by SAWS become the property of SAWS at the time the distribution main is accepted.

Edwards exchange customer shall mean a customer who exchanges Edwards Aquifer water withdrawal rights for a like volume of recycled water and who filed a request for recycled water service with SAWS. An Edwards exchange customer can only exchange Edwards Aquifer water withdrawal rights which have been recognized by the Edwards Aquifer Authority, either pursuant to (1) interim authorization, (2) an initial regular permit, or (3) a regular permit, under 31 Texas Administrative Code, Chapter 705 et seq. An Edwards exchange customer may exchange all or a portion of its permitted Edwards Aquifer water withdrawal rights. A transfer of permitted Edwards Aquifer water withdrawal rights from an Edwards exchange customer to SAWS must be approved by the Edwards Aquifer Authority pursuant to 31 Texas Administrative Code, Chapter 705, Subchapter H or such future regulations as the state or Edwards Aquifer Authority may promulgate. In order to qualify for Edwards exchange customer status, the transfer of Edwards Aquifer water withdrawal rights to SAWS must be perpetual and unconditional. An Edwards exchange customer will only be provided recycled water in an amount which is equal to the Edwards Aquifer water withdrawal right which is transferred to SAWS. An Edwards exchange customer is not required to exchange the entirety of its Edwards Aquifer water withdrawal right, only that portion the Edwards exchange customer wishes to exchange for recycled water.

Existing customer shall mean a potable water customer of SAWS on June 30, 1997, who filed a request for recycled water service with SAWS.

Onsite recycled water mains shall mean any recycled water transport or distribution lines on the customer's side of the recycled water meter. Onsite recycled water mains are built by the customer and subject to permitting, SAWS and 30 Texas Administrative Code, Chapter 210 et seq. minimum standards and inspection as set out in the SAWS water recycling standards.

Transmission main shall mean a recycled water main including pumping and monitoring facilities built at the expense of SAWS.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1182. Extension policy.

SAWS will design and construct all recycled water transmission mains, recycled water treatment facilities, and recycled water pumping facilities SAWS determines are necessary and appropriate for providing recycled water to SAWS' recycled water customers. Recycled water shall be sold to customers whose water purchase

volumes and/or decreases in Edwards Aquifer water withdrawals volumes due to recycled water purchases make it practicable and beneficial, in SAWS' opinion, to provide recycled water to the customer.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1183. SAWS not obligated to proceed.

(a) In no event shall SAWS be obligated to proceed with the construction, maintenance or operation of the recycled water system, or any part thereof, unless there are sufficient funds available, or if in the opinion of the board of trustees of SAWS, the main extension or recycled water operation is not in the public interest.

(b) The decision of the chief executive officer of SAWS, or his designee, shall be final in the determination of line size, approval of plans and specifications, the decision to enter into a recycled water contract with a customer and the availability of funds for construction and/or reimbursement for construction of oversize lines.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1184. Specifications for service connections.

The specifications for recycled water service connections shall conform to the standards set by SAWS.

Sec. 34-1185. Cross connections with potable water mains prohibited.

(a) It shall be unlawful for any person to make or to maintain any cross connection or to allow any cross connection to exist at any place under the control of any person.

(b) The term "cross connection," as used in this section, is any mechanical union or any hydraulic union which, under any condition, might pass recycled water into the potable water supply system. Any switchover system potentially allowing use of potable water as a temporary substitute for recycled water if recycled water is not available shall be built to ensure that recycled water does not back flow into the potable water system.

(c) To ensure the complete separation of a customer's onsite potable water system from the lines supplying recycled water, SAWS will require an inspection of the customer's onsite potable water system by the local plumbing inspection department having jurisdiction prior to supplying recycled water. Facilities located outside incorporated city limits and not having access to municipal plumbing inspections, shall have the inspection conducted by a state licensed water protection specialist or a TNRCC approved customer service inspector. The SAWS backflow prevention section shall be notified of and participate in the inspections. The inspections will involve procedures to be established by SAWS. The inspections and any recommended piping modifications shall be completed prior to commencement of the recycled water service. A reinspection shall be conducted every three (3) years or as deemed necessary by the local plumbing inspection department and/or SAWS.
(Ord. No. 87597, § 1, 3-26-98)

Secs. 34-1186—34-1200. Reserved.

DIVISION 4. RECYCLED WATER MAIN CONSTRUCTION

Sec. 34-1201. Distribution mains.

(a) In the event a recycled water customer desires the extension of distribution mains to provide the customer with recycled water service, the customer shall bear all costs of extending the distribution main from the transmission main to the customer's property line. The size of such distribution mains are to be determined by SAWS, in its discretion, based on the customer's expected recycled water purchases.

(b) SAWS shall review and approve the location of all recycled water distribution mains, as well as the plans and specifications for recycled water distribution mains and associated improvements including without limitation, pumps, monitoring devices and storage facilities. All construction of distribution mains shall be

performed by the customer or a contractor selected by the customer, provided, however, that the customer or contractor shall furnish a performance bond, executed by a corporate security authorized to do business in the state and maintaining an agent in Bexar County upon whom service of citation may be had. Such performance bond shall be in an amount equal to the total construction cost under the contract. The bond shall be in favor of SAWS and the customer and shall assure (1) completion of all construction required under the contract in full conformity with the plans and specifications approved by SAWS; (2) maintenance of such construction for a period of at least ninety (90) days after acceptance of construction by SAWS; and (3) payment in full by contractor of all subcontractors and materialmen providing labor and/or material in connection with the construction of the distribution main. All construction work on the distribution main shall be subject to inspection by city and SAWS officials and representatives. In no event shall any portion of any distribution main installed in an excavation be covered over unless and until it has been inspected and approved by SAWS.

(c) Upon completion of construction of a recycled water distribution main and receipt of evidence acceptable to SAWS that all costs and fees for construction of the distribution main have been paid in full and all liens released, SAWS shall issue a written certificate of acceptance of the specific distribution main by SAWS, whereupon the distribution main covered by the acceptance certificate shall be the property of SAWS.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1202. Distribution main oversizing.

SAWS may require that a distribution main being constructed by a recycled water customer be increased in diameter to a diameter larger than reasonably necessary to provide adequate recycled water service to a customer's property as a condition of approving the customer's plans and specifications for the distribution main. SAWS shall, upon completion of a distribution main constructed by a customer which meets SAWS' required sizing, reimburse the customer the reasonable incremental cost of the construction of the larger mains. The customer's responsibility for a share of the total cost of the oversized main will be limited to the greater of the scheduled charge for a six-inch main or prorated share of the total cost of the oversize main. Cost sharing for distribution mains shall be based on the following examples:

Example 1:

Required recycled water size main, 8 inches	Flow capacity, 848 GPM
Oversize recycled main constructed, 16 inches	Flow capacity, 3,393 GPM
Length of main constructed=	1,980 feet
Cost per linear foot=	$ 33.33/foot
Total main construction cost=	66,003.00

Prorated customer share of main cost:
$\frac{848}{3393} = 0.2499$

0.2499 x $66,003.00 = $16,494.00

Customer pays cost of six-inch main or prorated cost of $16,494.00, whichever is greater.

Example 2:

Required recycled water size main, 16 inches	Flow capacity, 3,393 GPM
Oversize recycled main constructed, 20 inches	Flow capacity, 5,729 GPM
Length of main constructed=	2,013 feet
Cost per linear foot=	$ 49.76/foot
Total main construction cost=	$104,655.00

Prorated customer share of main cost:
$\frac{3393}{5729} = 0.5922$

0.5922 x $104,655.00 = $61,976.00

Customer pays prorated cost of $61,976.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1203. Oversize distribution main—Construction.

Any distribution main construction by a customer which includes oversizing of a distribution main at the request of SAWS and for which oversizing the customer is to be reimbursed by SAWS shall be advertised for bids in the manner generally required for SAWS construction. All qualified bids submitted shall be publicly opened

and let in the same manner as other SAWS construction contracts are bid and let. The construction contract shall be between the customer and contractor. Prior to commencement of the work under the contract for construction of an oversize distribution main, the contractor must have supplied SAWS with:

(1) A copy of the fully-executed construction contract for the distribution main. The contract shall provide that SAWS is a beneficiary of the contract with rights to enforce such contract and that all warranties of the contractor under the contract also extend to SAWS once SAWS has accepted the distribution main. The contractor shall agree that SAWS may enforce any guaranty of contractor's work without joinder of the contractor;

(2) An original executed copy of the payment and performance bond naming SAWS as an additional insured;

(3) A sales tax certificate; and

(4) Evidence that all insurance requested by SAWS is in place and where required evidence that SAWS is an additional insured. The minimum insurance requirements shall be the same as those required by SAWS from general contractors for a similar size project.

(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1204. Same—Payment.

Any oversize reimbursement computed pursuant to section 34-1202 above shall be paid by SAWS to the customer who constructed and paid for the oversize distribution main, unless the customer and SAWS have previously agreed in writing to the payment of the oversize reimbursement in the manner set forth in section 34-1205 below. The payment shall be made within thirty (30) days of the final acceptance of the oversize distribution main by SAWS.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1205. Same—Deferred reimbursement of costs by credit application.

SAWS and a customer may agree in writing at any time before SAWS' acceptance of oversize work by SAWS that the oversize reimbursement will be paid by SAWS to the customer by SAWS, allowing the customer to apply the oversize reimbursement on a dollar-for-dollar basis as a credit against twenty (20) percent of the customer's recycled water bill each month until the oversize reimbursement credits are fully utilized.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1206. Same—Third party use.

If a customer wishes to connect to a distribution line oversized at SAWS' expense, then SAWS, as a condition of allowing the customer to acquire recycled water from the oversize distribution main, shall require the customer to pay SAWS a prorata share of the distribution main's oversize costs based on a ratio of available oversize flow capacity and the contracted monthly purchases or expected monthly purchases of the customer.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1207. Same—Requirements for reimbursement.

In no event shall a customer be entitled to receive oversize distribution main credit reimbursements unless the customer has complied with all conditions and obligations of the customer's recycled water contract and all applicable laws. SAWS shall provide customers with the form of the certification required from the customer before SAWS will accept the oversize distribution main.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1208. Distribution main constructed by SAWS.

SAWS may, at its discretion, construct distribution mains at its cost and expense where SAWS determines that such extensions are beneficial to the growth of the recycled water system and are practical in light of projected revenue, expected acquisition of Edwards Aquifer water withdrawal rights and/or impact of Edwards Aquifer water pumping reductions that will result from the availability of the distribution main. In said event, SAWS may charge recycled water customers their prorata share of the distribution main built at SAWS' expense. The customer's prorata

share shall be based on the total capacity of the distribution main to the capacity to be used by the customer's system, but in no event less than the volume contracted for by the customer in relationship to the capacity of the main. If a customer oversizes its system for future expansion, the customer's share of the distribution main cost will be based on the projected volumes of recycled water to be purchased by the customer. (Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1209. Where mains may be located.

All recycled water mains and other recycled water infrastructure which are owned by SAWS shall be constructed in or located:

(1) On SAWS, city, county or state-owned property, including any public street or alley or any platted or publicly owned drainage facility;

(2) Within the boundaries of any SAWS, city, county or state-owned creek or river bed; or

(3) Within a platted or otherwise dedicated easement or right-of-way which has been granted to SAWS, the city, the county or the state and recorded in the real property records of the county in which the land is located.

(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1210. Public property requirement.

Where SAWS, as part of its recycled water transportation and distribution system, requires pumps, treatment facilities, storage, testing sites or other facilities, all such facilities including all access roads to them, shall be located on public land or within an easement properly granted SAWS for such purpose as evidenced by a written instrument recorded in the real property records of the county in which it is located. (Ord. No. 87597, § 1, 3-26-98)

Secs. 34-1211—34-1230. Reserved.

DIVISION 5. CONSTRUCTION PERMITS AND INSPECTION

Sec. 34-1231. Private construction permit required.

(a) Before any customer shall apply for a permit for connection to the SAWS recycled water system, the customer must have completed application to SAWS and obtained a permit from SAWS to connect to the recycled water system. At the time of application the customer/applicant shall have completed the following:

(1) *Fees.* Pay to SAWS the fees specified in the SAWS recycled water specifications. The application fee is non-refundable and is not applied to recycled or other water purchases.

(2) *Drawings and specifications.* Whenever in the opinion of SAWS, drawings and specifications are required to show definitely the nature and character of the construction for which the application is made, the customer shall furnish such drawings (to scale) and specifications for the customer construction to SAWS for review and approval. Such drawings and specifications shall detail all proposed construction from the SAWS recycled water meter to the place of use of the recycled water.

(3) *Plan review.* SAWS shall review the data submitted by the customer/applicant within thirty (30) working days of actual receipt. If SAWS, in its discretion, determines that the application (including the plans and specifications) does not conform with the requirements of this article, SAWS shall note, in writing, all objections on the application and/or plans or on an attachment thereto and shall return the submitted plans and specifications with the basis for the rejection to the customer/applicant. The customer/applicant shall have thirty (30) days from the date the application was returned to the customer/applicant to submit the plans to modify and resubmit the plans and application based on SAWS' com-

ments. SAWS and the customer/applicant may continue the review procedure for one (1) property up to three (3) submissions to SAWS without payment of added fees. Thereafter a resubmitted application fee as specified in the SAWS recycled water specifications shall be required.

(4) *Recycled water contract.* The customer/applicant and SAWS shall have executed a contract for the purchase of recycled water by the customer/applicant from SAWS.

(b) Upon the approval of an application, a permit to proceed with the construction work shall be issued. Any work done by a customer/applicant before the permit to proceed with construction is performed at the customer/applicant's expense and risk that the permit will not be issued. A construction permit issued under this article shall be valid for six (6) months from the later of (1) the date of issue of the permit, or (2) if the permit issued contains a notation that SAWS provided mains to which the customer/applicant's work is to be connected are not then available, six (6) months after SAWS notifies the customer/applicant that SAWS provided mains for services of the customer/applicant are ready and available for connection to customer/applicant's work. If work is begun within the six-month period, SAWS may extend the permit for an additional six (6) months on such terms as SAWS deems appropriate.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1232. Installation and inspection.

(a) *Construction requests.* All privately-constructed mains shall be installed in strict compliance with the construction requirements of the SAWS recycled water specifications set forth in the SAWS recycled water specifications.

(b) *Inspection.* After installation, but prior to covering, all privately-constructed mains shall be inspected by SAWS to ensure that all construction is in accordance with SAWS recycled water specifications. It is the duty of the customer to provide reasonable notice to SAWS when a main is or will be ready for inspection.

(c) *Reinspection.* If the SAWS inspector finds that the main is not in accordance with SAWS recycled water specifications, then the customer shall make the necessary corrections and the work shall be submitted for reinspection. The work shall be available for reinspection within ten (10) days of the date the customer or its representative is notified of the revisions required. For each reinspection the applicant shall pay a reinspection fee as specified in SAWS recycled water specifications.

(d) *Certification.* Upon satisfactory completion and inspection of a main, SAWS shall issue a certificate of construction conformity. The issuance of such certificate shall evidence SAWS' acceptance of the distribution main and appurtenant improvements on SAWS' side of the recycled water meter as the property of SAWS. Such certificate is solely for the benefit of the customer and SAWS and shall not be relied upon by any third party.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1233. Unaccepted work.

(a) *Nonconforming work.* Any work determined by SAWS or a local plumbing inspection department for onsite work, in their sole discretion, to be inferior in quality and not in conformance with the approved plans and specifications shall be replaced or corrected immediately. If the work is not corrected within ten (10) days (or such longer period as SAWS may have agreed to in writing, but not more than sixty (60) days), then the permit shall be revoked and no further permits shall be issued to the customer until the rejected work fully complies with all applicable requirements and is accepted by SAWS.

(b) *Revocation of permit.* SAWS or a local plumbing inspection department for onsite work, may revoke a permit in the event there have been any false statements or misrepresentations as to any material fact in connection with an application or plans on which the permit approval was based, or if unaccepted work is not corrected within the sixty-day cure period.
(Ord. No. 87597, § 1, 3-26-98)

Secs. 34-1234—34-1250. Reserved.

DIVISION 6. ONSITE IMPROVEMENTS

Sec. 34-1251. Inspection.

All onsite recycled water distribution piping within the city shall be installed by a licensed and bonded plumbing contractor. A permit and inspection by the city building inspections department shall be required. All piping and installation shall be in accordance and comply with Section 603 and Appendix J of the adopted Uniform Plumbing Code (UPC) or other adopted standards.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1252. Conversion benefit—Existing customers.

(a) If a SAWS existing customer contracts to purchase recycled water from SAWS in lieu of using Edwards Aquifer water, then the existing customer may be entitled to financial assistance for the cost of infrastructure improvements determined by SAWS to be necessary and appropriate for converting to recycled water.

(b) The financial assistance shall be extended only to the extent available and will initially be made available only to existing customers and Edwards exchange customers. If additional funds for financial assistance remain available after existing customers and Edwards exchange customers have had an opportunity to utilize financial assistance, financial assistance may be made available, at the discretion of SAWS, to other customers.

(c) SAWS will credit the existing customer a one-time conversion benefit for approved onsite and/or distribution main recycled water system improvements equal to the sum of nine hundred dollars ($900.00) per acre foot of water per year that the existing customer contracts with SAWS to take. The conversion benefit shall be computed utilizing the average acre feet of water the existing customer contracts to purchase during the initial five (5) years of the recycled water purchase contract, not to exceed the customer's peak historic use, as the multiplier of the nine-hundred-dollar figure.

(d) The conversion benefit may be used only by an existing customer to pay for the existing customer's offsite and onsite improvements for use of recycled water, including but not limited to distribution mains; meters and appurtenances thereto; connection of the recycled water system from the meter to the common distribution points of recycled water on the existing customer's property; retrofit of irrigation and other water systems to take water from the separate recycled water source rather than from the existing Edwards water source; costs of modifying equipment to use the recycled water (e.g., pressure adjustments); storage facilities for recycled water to be stored onsite for use during peak demand periods when there is determined by SAWS to be a benefit to the entire recycled water system from such storage; and switchover equipment allowing the existing customer to switch from the recycled water source to a substitute water source should recycled water not be available. The conversion benefit shall be used to pay first for the cost of a distribution main to be built at the existing customer's expense and secondly, to the extent of any conversion benefit remaining, for the cost of the existing customer's onsite improvements. Conversion benefit may be used to pay for both design and construction costs.

(e) SAWS may approve use of the conversion benefit funds for specialized recycled water equipment based on existing customer's needs. Such additional authorized uses for the funds may include onsite testing facilities for recycled water quality or water quality improvement facilities. Conversion benefit funds may be used only for construction and equipping such specialized recycled water facilities, but specifically not to reimburse the existing customer's operating and maintenance costs for the water quality and/or recycled water monitoring procedures.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1253. Same—Edwards exchange customers.

An Edwards exchange customer may be entitled to receive a conversion benefit payment, because of its transfer of Edwards Aquifer water withdrawal rights to SAWS, in addition to any conversion benefit the Edwards exchange

customer might qualify for as an existing customer for SAWS potable water. An Edwards exchange customer's additional conversion benefit may be computed by multiplying nine hundred dollars ($900.00) by the number of acre feet of Edwards Aquifer water withdrawal rights the owner has transferred to SAWS. In addition to the permitted use of conversion benefits set out in this article, the Edwards exchange customer may use the conversion benefit payment to cap or plug closed wells and to construct onsite transportation facilities from the recycled water main to the points of use of the recycled water.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1254. Same—Payment.

A conversion benefit shall be credited when all of the following have occurred:

(1) The existing customer or Edwards exchange customer has executed a recycled water contract with SAWS specifying the volume of recycled water anticipated to be purchased each year for not less than five (5) years;

(2) The existing customer or Edwards exchange customer agrees to pay all costs associated with recycled water service not covered by SAWS;

(3) The existing customer or Edwards exchange customer has prepared and submitted to SAWS a water conservation plan which is to be implemented within one (1) year;

(4) The existing customer or Edwards exchange customer has completed all onsite and offsite retrofitting which is to be paid for by conversion benefit funds, as well as any other onsite work reasonably necessary to begin use of the recycled water in accordance with the approved recycled water plan within six (6) months; and

(5) The Edwards exchange customer has completed the transfer of Edwards Aquifer water withdrawal rights which establish its Edwards exchange customers status and such transfer has been fully approved by the Edwards Aquifer Authority pursuant to 31 Texas Administrative Code, Chapter 705, Subchapter H.

(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1255. Same—Refund.

If a customer fails to perform all conditions for payment of a conversion benefit and such breach continues uncured for sixty (60) days after written notice of the breach by SAWS, then SAWS may require the immediate refund of the conversion benefit, which sum shall be payable to SAWS on demand.
(Ord. No. 87597, § 1, 3-26-98)

Secs. 34-1256—34-1270. Reserved.

DIVISION 7. SERVICE

Sec. 34-1271. Priority for certain new recycled water customers.

SAWS will prioritize its provision of recycled water service, where possible, to potential new customers as follows:

(1) First priority shall be given to potential customers who are U.S. military installations and potential customers located in the areas of former U.S. military installations;

(2) Second priority shall be given to potential customers located in economic enterprise zones or associated with economic development projects targeted by SAWS, the city or Bexar County;

(3) Third priority shall be given to potential customers who are Edwards exchange customers;

(4) Fourth priority shall be given to potential customers who are current SAWS potable water customers and who will be replacing the use of potable water for non-potable with recycled water for such purposes; and

(5) Fifth priority shall be given to all remaining potential customers.

(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1272. Delivery of recycled water.

Specific conditions relating to the delivery point, delivery quantities and pressure, metering requirements and maintenance responsibilities will be set forth for each recycled water customer in the recycled contract for such customer.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1273. Quantity of recycled water delivered.

The quantity and rate of delivery of recycled water to be purchased by any customer shall be set forth in the recycled water contract between SAWS and such customer.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1274. Quality of recycled water delivered.

If any time the recycled water available from SAWS fails to meet the requirements of 30 Texas Administrative Code, Chapter 210 et seq., SAWS shall, upon the request of the customer, provide the customer substitute water of at least comparable quality in a quantity equal to the quantity of contracted recycled water that SAWS is unable to provide, at rates not to exceed the rate for recycled water then applicable.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1275. Reliability of recycled water service.

SAWS will provide recycled water on a regular basis in such quantities set forth in the recycled water contract between SAWS and each customer. Recycled water service may be interrupted in the event of recycled water main or pipeline breaks or repairs, recycled water main or pipeline construction or upgrades, or due to acts of God or other extraordinary circumstances. In the event of any interruption in recycled water service, SAWS shall provide substitute water of comparable quality to each affected customer at rates not to exceed the rate for recycled water then applicable. Except as specified in this article, SAWS shall not be liable for an interruption in recycled water service.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1276. SAWS' duty to supply substitute water.

If after a customer has performed all of its obligations under its contract to purchase the recycled water, including construction of a distribution main and onsite improvements, SAWS is unable to provide the quantity of contracted recycled water for any reason, SAWS shall, upon request of the customer, provide the customer substitute water of at least comparable quality in a quantity equal to the quantity of contracted recycled water that SAWS is unable to provide, at rates not to exceed the rate for recycled water then applicable.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1277. Interruption in service to Edwards exchange customers.

(a) If SAWS is unable to provide recycled water in compliance with the terms of an Edwards exchange customer's recycled water contract, or substitute water of at least comparable quality in a quantity equal to the quantity of contracted recycled water that SAWS is unable to provide, an Edwards exchange customer may, at the Edwards exchange customer's cost and expense, withdraw and utilize Edwards Aquifer water under the Edwards Aquifer water withdrawal right which has been transferred to SAWS in an amount equal to the lesser of:

(1) The Edwards exchange customer's actual onsite beneficial use without waste, as that term is defined under Edwards Aquifer Authority regulations set forth at 31 Texas Administrative Code 703.1(B); or

(2) The quantity specified in the Edwards exchange customer's recycled water contract with SAWS.

(b) The right to the Edwards exchange customer to utilize a portion of SAWS Edwards Aquifer water withdrawal right after an interruption of service is expressly conditioned on no objection to the procedure being made by the Edwards Aquifer Authority. It shall be the joint duty of the Edwards Aquifer exchange customer who utilizes a portion of the SAWS Edwards

Aquifer water withdrawal right pursuant to this section and of SAWS to notify the Edwards Aquifer Authority of the Edwards exchange customer's intention to do so.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1278. Exemption from reduction measures.

The quantity of recycled water which SAWS agrees to provide pursuant to any recycled water contract between SAWS and a recycled water customer shall be exempt from compliance with the specific water use reduction measures set forth in article IV, division 4 of this chapter (the Drought Management, Water Conservation and Reuse Plan), but not from other provisions in this chapter. In the event a recycled water customer purchases recycled water from SAWS in excess of the contracted amount, SAWS, as it determines to be necessary, may reduce such customer's purchase of the recycled water in excess of the contracted amount.
(Ord. No. 87597, § 1, 3-26-98; Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Sec. 34-1279. Disconnection for noncompliance.

It shall be the duty of SAWS to disconnect the recycled water service from any place where provisions of 30 Texas Administrative Code, Chapter 210 et seq. or of this article or of the recycled water contract in question are violated.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1280. Unlawful connection with recycled water main.

It shall be unlawful for any person who is not a party to a valid recycled water contract to bore or drill into any recycled water main or make attachments to or connections with any recycled water service pipe.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1281. Unlawful taking of recycled water.

It shall be unlawful for any person who is not a party to a valid recycled water contract to make an attachment to any recycled water main, service line or branches thereof or to otherwise take recycled water therefrom.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1282. Maintenance of recycled water service pipes.

All persons using recycled water furnished by SAWS shall keep their recycled water service system in good repair, so as to prevent leakage. Maintenance is the owner's responsibility. All customer onsite transportation, holding and distribution facilities for recycled water shall comply with the standards of 30 Texas Administrative Code, Chapter 210 et seq.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1283. Damage to recycled water system.

It shall be unlawful for any person, in any way, to intentionally or carelessly break, deface or in any manner damage or destroy any recycled water main, service line or branch thereof or any hydrant, meter, standpipe or other property belonging to the city, SAWS or others, and used in connection with the collection, treatment, metering, storage, supply, transmission and distribution of recycled water.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1284. Title to recycled water service apparatus.

Title to all recycled water meters, curb-cocks and appurtenances that are attached through service lines or branches thereof to the recycled water mains of the SAWS recycled water system, including the meter and enclosing curb-cock boxes, shall be vested in the city for the singular use and benefit of the SAWS board of trustees. No person other than a duly authorized agent or representative of the board of trustees of SAWS shall open the meter or curb-cock or appurtenances thereto. SAWS shall maintain, repair and replace all meters, curb-cocks and appurtenances in connection therewith at its cost and expense.
(Ord. No. 87597, § 1, 3-26-98)

Secs. 34-1285—34-1300. Reserved.

DIVISION 8. RATES AND CHARGES

Sec. 34-1301. Establishment of rates.

The rates and charges for recycled water service which will be applied to all recycled water consumption beginning on or about January 1, 2025 as appropriate, are set out in Schedule F to this chapter and shall be the lawful rates for recycled water service to be charged by the system.
(Ord. No. 87597, § 1, 3-26-98; Ord. No. 90733, § 1, 10-21-99; Ord. No. 96658, § 1(Att. 1), 10-31-02; Ord. No. 2015-11-19-0956, § 4(Att. I), 11-19-15, Res. No. 16-302, Att. III; Ord. No. 2017-12-07-0928, § 1(Att. I), 12-7-17; Res. No. 19-280, 5(Att. III), 11-5-19; Ord. No. 2022-11-10-0868, § 1, 2(Att. 1, 2), 11-10-22; Res. No. 2023-198, 10-3-23; Res. No. 2024-227, § 5(Att. II), 11-4-24)

Sec. 34-1302. Credits for retrofit costs.

To the extent existing customers and Edwards exchange customers incur approved retrofit costs as described in the SAWS recycled water specifications, such existing customers and Edwards exchange customers shall be entitled to a credit against their recycled water bill. To the extent the existing customers are seasonal users of recycled water, the credit received pursuant to this section for retrofit costs shall be annualized and applied against recycled water during the months the water is used.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1303. Discount rates for recycled water utilized in certain operations.

(a) The purpose of this provision is to allow an alternate method of establishing a recycled water rate for customers who utilize recycled water in certain operations. To qualify for this method a customer/applicant must file with SAWS a report by a registered professional engineer detailing the increased volume of recycled water used in the customer/applicant's specific operation compared with the volume of potable water used in the customer/applicant's specific operation as a result of a lesser water quality of recycled water that will be utilized for the specific operation and including a proposed monthly flow recommendation. If the report is acceptable to SAWS, at its discretion, the rate for recycled water provided to the applicant/customer for operations will be discounted to reflect the increased usage so that the total cost to the customer/applicant will be the same as if the customer/applicant utilized an amount of recycled water equal to its prior use of non-recycled water in the customer/applicant to specific operation.

(b) The SAWS flat rate sewer program set forth in section 34-226.2 of this chapter may also be available to cooling tower customers. The flat rate sewer program provides for an alternate method of establishing a sewer charge for users. A flat rate sewer account may be established for any recycled water user upon determination by the SAWS customer service department that the costs to administer the account would not exceed the projected annual savings to the user.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1304. Remedies for breach.

In the event of breach of a recycled water contract by any customer, specifically including but not limited to failure to pay SAWS, SAWS may impose each of the charges described in subsections 34-1232(a)—(f), inclusive, against a customer for each account of SAWS serving the customer. Fees shall be assessed against each customer on a service by service basis.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1305. Calculation of quantity of recycled water delivered.

The amount of recycled water received by a customer shall be based on monthly meter readings performed by SAWS.
(Ord. No. 87597, § 1, 3-26-98)

Secs. 34-1306—34-1320. Reserved.

DIVISION 9. ENFORCEMENT

Sec. 34-1321. Authority.

SAWS' legal department is hereby granted the authority to seek legal and/or equitable remedies

for violations of this division, including the filing of criminal charges. For the purpose of enforcing this division the SAWS' environmental counsel shall represent the city in civil enforcement actions, by and through SAWS, and is hereby authorized to seek legal and/or equitable remedies against any person or entity which is reasonably believed to be violating or to have violated this division. A legal proceeding pursued under this division does not constitute a waiver by SAWS of any right the city may have to join in a legal action originating from an alternative source of law. SAWS may commence such actions for appropriate legal and/or equitable relief in courts having proper jurisdiction and may seek civil penalties and any other legal or equitable relief available under common law, V.T.C.A., Local Government Code ch. 54, under V.T.C.A., Water Code § 26.124, or any other applicable local, state, or federal code or statute.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1322. Penalties.

(a) *Criminal.* A conviction for violation of this division shall constitute a class C misdemeanor. A person convicted of a violation of this division shall be fined not less than two hundred dollars ($200.00) nor more than two thousand dollars ($2,000.00) per violation. Each violation of a particular section of this division shall constitute a separate offense, and each day an offense continues shall be considered a new violation for purposes of enforcing this division.

(b) *Civil.* A civil penalty in an amount not to exceed one thousand dollars ($1,000.00) per violation of this division may be imposed. Each violation of a particular section of this division shall constitute a separate offense, and each day such an offense continues shall be considered a new violation for purposes of assessing civil penalties and otherwise enforcing this division. All civil penalties collected by reason of enforcing this division shall be deposited in the water quality and environmental education and enforcement account as established by article I, division 8 of this chapter.
(Ord. No. 87597, § 1, 3-26-98)

Sec. 34-1323. Authority of city attorney to enforce.

The grant of the authority set out in this section shall in no way diminish the authority and responsibility of the office of the city attorney to ensure that this division is properly and diligently enforced, to prosecute violations of this division, and to defend the legality of this division if challenged.
(Ord. No. 87597, § 1, 3-26-98)

Secs. 34-1324—34-1340. Reserved.

ARTICLE IX. WATER SUPPLY FEE*

Sec. 34-1341. Assessment of water supply fee.

The assessment of a water supply fee to all San Antonio Water System ("system" or SAWS) customers is hereby authorized effective December 1, 2000. Such fee shall apply to all water customers, all types of water usage, and all water supply contracts including but not limited to military installations. The system shall show such fee as a separate line item on each customer bill. In the event there is no recorded usage by the customer during the month, no fee will be reflected on the bill.
(Ord. No. 92753, § 1, 10-19-00; Ord. No. 2024-11-07-0874, § 1(Exh. A), 11-7-24)

Sec. 34-1342. Definitions.

Projected water consumption. The total amount of water demand projected to be required to meet the needs of all the customers of the San Antonio water system for a given year.

Water management plan. The fifty-year water resource plan used to ensure long-term water security for SAWS customers. The plan was first developed in 1998 and has been periodically updated. SAWS intends to update the plan approximately every five (5) years.

***Editor's note—**Ord. No. 92753, adopted October 19, 2000, set out provisions intended for use as §§ 34-1201—34-1207. Inasmuch as there were already provisions so designated, the provisions of Ord. No. 92753 have been renumbered as §§ 34-1341—34-1349 at the discretion of the editor.

Water supply fee. The line item fee to system customers derived by dividing the annual water supply development costs by the projected annual consumption.

Water supply development costs. Such costs include the following:

Land acquisition and construction, including debt service, and the operation and maintenance of water supply development projects;

Land acquisition and construction, including debt service, and the operation and maintenance of recycling facilities capable of converting wastewater effluent into water suitable for municipal, industrial, and agricultural uses;

Land acquisition and construction, including debt service, and the operation and maintenance of infrastructure for the integration of new water supplies into the delivery system;

Land acquisition and construction, including debt service, operation and maintenance of aquifer recharge enhancement and other aquifer optimization projects;

Acquisition of new water supplies and water rights including land acquisition and permits;

Water supply development, including consultants' feasibility studies and reports, water quality protection and treatment, aquifer recharge initiatives and aquifer optimization studies, investigations, legal fees, court costs and other costs related to the development of water supplies;

Administrative costs, including overhead and that portion of the system's administrative costs applicable to the activities enumerated in this definition.

The above notwithstanding, no costs will be included which are not in conformance with the current or past water management plans.
(Ord. No. 92753, § 1, 10-19-00; Ord. No. 101683, § 1(Att. I), 11-17-05; Ord. No. 2024-11-07-0874, § 1(Exh. A), 11-7-24)

Sec. 34-1343. Water supply fee.

A water supply fee is assessed to all system customers based upon their respective monthly consumption. The water supply fee shall be based on the annual water supply development costs.
(Ord. No. 92753, § 1, 10-19-00; Ord. No. 101683, § 1(Att. I), 11-17-05)

Sec. 34-1344. Reserved.

Editor's note—Ord. No. 101683, § 1(Att. I), adopted November 17, 2005, repealed § 34-1344 in its entirety, which pertained to the maximum fee established for calendar years 2001—2005, and derived from Ord. No. 92753, § 1, adopted October 19, 2000.

Sec. 34-1345. Water supply fee schedule.

The water supply fee schedule shall remain in effect as set out in Schedule E until the System's Board of Trustees and Council of the City of San Antonio determine that an additional adjustment is necessary to most effectively meet the water supply development needs of system customers.
(Ord. No. 92753, § 1, 10-19-00; Ord. No. 101683, § 1(Att. I), 11-17-05; Ord. No. 2015-11-19-0956, § 4(Att. I), 11-19-15, Res. No. 16-302, Att. III; Ord. No. 2017-12-07-0928, § 1(Att. I), 12-7-17; Res. No. 19-280, 5(Att. III), 11-5-19; Ord. No. 2022-11-10-0867, § 2(Att. II), 11-10-22; Ord. No. 2024-11-07-0874, § 1(Exh. A), 11-7-24)

Sec. 34-1346. Water supply fee calculation.

For purposes of calculating the water supply fee for residential customers, the volume of water for domestic service will be combined with the volume of water for irrigation service. For general class customers, the water supply fee will be applied to the volume of water for domestic service and to the volume of water for irrigation service.
(Ord. No. 92753, § 1, 10-19-00)

Sec. 34-1347. Reserved.

Editor's note—Ord. No. 101683, § 1(Att. I), adopted November 17, 2005, repealed § 34-1347 in its entirety, which pertained to the multi-year financial plan and derived from Ord. No. 92753, § 1, adopted October 19, 2000.

Sec. 34-1348. Reserved.

Editor's note—Ord. No. 2024-11-07-0874, § 1(Exh. A), adopted November 7, 2024, repealed § 34-1348, which pertained to reaffirmation of the adoption of the fifty-year water resource pan and derived from Ord. No. 92753, § 1, 10-19-00.

Sec. 34-1349. Accountability procedures.

(a) The system shall submit the following information to the city council in an annual report within one hundred twenty (120) days after calendar year end or incorporate the information into an annual public document such as the Annual Comprehensive Financial Report. The report shall include:

(1) The capacity of water supplies purchased or developed by source with commentary on new supplies acquired since the prior report;

(2) Volume of water distributed annually by source;

(3) Sources and Uses of the water supply fee funds;

(4) Operating and maintenance expenditures by supply and capital funded by the water supply fee;

(5) A schedule of water supply funds available at the end of the year; and

(6) Any other information deemed necessary by the city council or the city's supervisor of public utilities.

(b) The system shall submit its annual budget to the city council for review and consultation in accordance with the requirements of Section 32, Management of the System, Subsection Q, of City Ordinance No. 75686. In addition, the system shall submit its proposed budget to the city's supervisor of public utilities at the same time it is submitted to the system's board of trustees.

(c) In accordance with section 32.U of City Ordinance No. 75686, the system shall submit the second annual update, in addition to subsection (a)(1) above, on the capacity of water supplies purchased or developed as of June 30 to the supervisor of public utilities.

(d) The system shall make all reports submitted pursuant to this section publicly available.

(e) The system shall brief the city council on the water management plan and/or water supply fee at any time as requested by city council.

(f) The system shall periodically inform its customers on the overall progress of the water supply projects.
(Ord. No. 92752, § 7, 10-19-00; Ord. No. 92753, § 1, 10-19-00; Ord. No. 101683, § 1(Att. I), 11-17-05; Ord. No. 2024-11-07-0874, § 1(Exh. A), 11-7-24)

Sec. 34-1350. Reserved.

ARTICLE X. STATE-IMPOSED TCEQ FEE

Sec. 34-1351. Definitions.

For the purpose of this article, the following terms, phrases, words, and their derivations shall have the meaning in this section:

Customer means a residential, general, and wholesale account billed for water or wastewater service, including individual apartment units. Connections for irrigation only accounts and recycled water only accounts shall not be considered a customer for the state-imposed TCEQ fee.

Fees assessed by TCEQ means the fees, charges, and rates assessed by TCEQ that are recovered through the state-imposed TCEQ fee, which shall be considered part of the gross revenues of the system including any water and wastewater fees, charges, and rates charged to the system by TCEQ and authorized and assessed by TCEQ, including fees assessed in 30 TAC § 290.51, fees for services to drinking water system; and fees assessed by TCEQ in 30 TAC § 21.3, fee assessment, for water quality fees; which may be amended from time to time by the TCEQ. Fines and penalties assessed to the system by TCEQ shall be excluded from recovery through the pass-through state-imposed TCEQ fee.

System means the San Antonio Water System.

TCEQ means the Texas Commission on Environmental Quality.
(Ord. No. 2009-12-10-1027, § 5(Exh. A), 12-10-09)

Sec. 34-1352. Assessment of the state-imposed TCEQ fee and annual fee adjustment.

(a) The fees assessed by TCEQ, as defined above, shall be used to calculate the pass-through state-imposed TCEQ fee charged to all water and wastewater customers of the system. Such state-imposed TCEQ fee is hereby authorized and shall become effective for billings on or about January 1, 2010. The monthly pass-through is subject to change based on the adjustment formula set out herein. The state-imposed TCEQ fee shall be applied in full to all accounts billed, regardless of the length of service the account was in effect. The system is delegated the authority to administratively adjust such state-imposed TCEQ fee on an annual basis, on or about January 1 of each year in accordance with the formula set out herein in subsection (b), and following consultation with the city's supervisor of public utilities. The system is directed to show such pass-through fee, state-imposed TCEQ fee, as a separate line item on each customer bill.

(b) An adjustment will be made to the state-imposed TCEQ fee annually, beginning on or about January 1, 2010, based on the following formula:

(1) Water customers. The projected annual fees assessed by TCEQ for water services for the 12-month period beginning in January minus the amount of the state-imposed TCEQ fee over-recovery or plus the amount of under-recovery from the cumulative state-imposed TCEQ fee collections for water services, divided by the projected average monthly water customers multiplied by twelve (12), yields the state-imposed TCEQ fee on a dollars-per-account-per-month basis for water customers.

(2) Wastewater customers. The projected annual fees assessed by TCEQ for wastewater services for the 12-month period beginning in January minus the amount of the state-imposed TCEQ fee over-recovery or plus the amount of under-recovery from the cumulative State-imposed TCEQ fee collections for wastewater services, divided by the projected average monthly wastewater customers multiplied by twelve (12), yields the state-Imposed TCEQ fee on a dollars-per-account-per-month basis for wastewater customers.

(3) Customers with both water and wastewater service will have the state-imposed TCEQ fee calculated for each component, water and wastewater, of the state-imposed TCEQ fee.

Water customers:

Projected annual fees assessed by TCEQ for water service PLUS	under-recovery or minus over-recovery from cumulative collections for water fees assessed by TCEQ		Adjusted TCEQ fee for water customers on a dollars-per-customer-per-month basis, for the 12-month period beginning on or about January 1st of each year
(divided by)		=	
Projected average monthly water customers × 12			

Wastewater customers:

Projected annual fees assessed by TCEQ for wastewater service PLUS	under-recovery or minus over-recovery from cumulative collections for wastewater fees assessed by TCEQ		Adjusted TCEQ fee for wastewater customers on a dollars-per-customer-per-month basis, for the 12-month period beginning on or about January 1st of each year
(divided by)		=	
Projected average monthly wastewater customers × 12			

(Ord. No. 2009-12-10-1027, § 5(Exh. A), 12-10-09)

EDWARDS AQUIFER AUTHORITY ("EAA") PERMIT FEE ADJUSTMENT

The following shall be applicable to the listed water service customer classes and water usage:

Residential water service (inside city limits)

Residential water service (outside city limits)

General water service (inside city limits)

General water service (outside city limits)

Wholesale water service (inside city limits)

Wholesale water service (outside city limits)

Private fire protection water service (applicable only to metered water usage)

An adjustment will be made to the Edwards Aquifer Authority Permit fee annually, beginning January 1, 1998, based on the following formula: The annual permit fee billed by the Edwards Aquifer Authority for the twelve-month period beginning in January plus the amount of the over-recovery or under-recovery from the prior twelve-month permit fee collections, divided by the project annual water usage, yields the permit fee on a dollars-per-gallon basis.

$$\frac{\textit{Permit fee billed by EAA PLUS } \textit{Over-recovery/under-recovery from prior 12-month permit fee collections}}{\text{Project annual water usage}} = \textit{Adjusted permit fee on a dollars-per-gallon basis of consumption, for the 12-month period beginning in the month of January}$$

(Ord. No. 87042, § 3, 12-1-97; Ord. No. 87043, §§ 1, 2, 12-1-97; Ord. No. 90733, § 1, 10-21-99; Ord. No. 92752, § 1, 10-19-00; Ord. No. 2007-02-08-0149, § 1(Exh. A), 2-8-07)

RATE SCHEDULE D
Effective 12:01 a.m., March 15, 2003

ECONOMIC DEVELOPMENT CUSTOMER WATER SERVICE RATES

Pursuant to the terms of a contract executed in 2003 between SAWS and an economic development customer, an economic development customer may be charged a water service rate of not less than One and No/100 Dollars ($1.00) per thousand gallons of water for a period not to exceed seven (7) years. For any contract executed between SAWS and an economic development customer in subsequent years, an economic development customer may be charged a water service rate calculated using the monthly volume charge payable for General Water Service under Rate Schedule B, as it currently exists or is hereafter amended, less a discount not to exceed fourteen (14%) for a period not to exceed seven (7) years. Economic development customer rates may apply:

(1) For an existing customer, the discount may be applied only to the increase of potable water utilized by the new or expanded facilities qualifying the existing customer as an economic development customer.

(2) For a new customer, the discount may be applied to all potable water delivered to the new facilities qualifying the new customer as an economic development customer.

Water delivered to an economic development customer shall only be consumed or used by the economic development customer to whom it is delivered at the new or expanded facilities qualifying the customer as an economic development customer. Use at another location, or the resale or transfer of such water is prohibited.

WAIVER OF CERTAIN FEES AND COSTS

Notwithstanding any other provisions of the City of San Antonio Code of Ordinances, SAWS' Regulations for Water Service, or SAWS' Utility Service Regulations, pursuant to the terms of a contract between SAWS and an economic development customer, SAWS may agree to waive all or any part of any potable water or wastewater impact fees otherwise payable by an economic development customer to SAWS, provided that:

(1) For an existing customer, only impact fees that are attributable to the new or expanded facilities qualifying the existing customer as an economic development customer may be waived.

(2) For a new customer, only impact fees that are attributable to the new facilities qualifying the new customer as an economic development customer may be waived.

Notwithstanding any other provisions of the City of San Antonio Code of Ordinances, SAWS' Regulations for Water Service, or SAWS' Utility Service Regulations, SAWS may, pursuant to the terms of a contract between an economic development customer and SAWS, agree to waive all or any part of any permit, application fee, or meter charge otherwise payable by an economic development customer to SAWS, and agree to extend, at no or at a reduced cost to an economic development customer, all potable water and wastewater infrastructure from SAWS' existing potable water and sanitary sewer system to and/or into the property owned by an economic development customer on which new or expanded facilities are to be located, provided that:

(1) For an existing customer, SAWS may agree to extend potable water and wastewater infrastructure at no or at a reduced cost to an existing customer only to the new or expanded facilities qualifying the existing customer as an economic development customer.

(2) For a new customer, SAWS may agree to extend potable water and wastewater infrastructure at no or at a reduced cost to an economic development customer only to the new facilities qualifying the new customer as an economic development customer.

COMPLIANCE

The rates and waivers provided in this schedule are subject to the execution of a contact between

a customer and SAWS that requires a customer to obtain economic development customer status. The rates and waivers provided in this schedule will immediately terminate if a customer does not perform all obligations necessary to obtain economic development customer status within six (6) years from the date of the execution of a contract with SAWS, or if an economic development customer fails to maintain its status as an economic development customer. Should a person or entity no longer be an economic development customer, such person or entity will pay all rates, fees and costs payable by a General Water Service customer.
(Ord. No. 97264, § 2(Att. 2), 2-27-03)

SCHEDULE 1 PRETERMINATION ADMINISTRATIVE NOTICE AND HEARING PROCEDURES

1. First bill sent, indicating current charges.

2. Second bill sent, indicating previous balance, with additional paragraph: "Pay Total Amount Prior To Due Date To Avoid Notice of Pretermination Hearing, Service Charges and Additional Deposit."

3. Final Notice sent setting out instructions for obtaining a Pretermination Administrative Hearing before Customer Review Officer. Customer may request a hearing, if such request is made within 10 days from the date of mailing or by the date set out on the Final Notice, whichever is later. Customer Review Officer must be knowledgeable in customer's rights to due process with respect to utility termination. The Customer Review Officer must not have participated in the billing or collection process.

4. Upon receipt of the Final Notice, a customer may request a hearing in person, by telephone or by mail. The Customer Review Officer shall note the date and time of request, if the request is made by phone or in person, in the customer's file. If the request is by mail, the written request shall be placed in the customer's file.

    a. If the request is made in person, a System representative shall give the customer a Pretermination Hearing and Notice Procedure Form, setting out the date for hearing and have the customer receipt for it.

    b. If the request for hearing is by telephone, a System representative shall advise the customer of the time and date of the hearing and note the time and date of the conversation on the file copy. The System representative shall set the hearing date far enough in advance to allow follow-up notice by mail.

    c. If request for hearing is made by mail, a System representative shall follow procedures similar to item b, above.

5. Notice of Pretermination Hearing Date Sent (in English and Spanish). The System shall mail it or personally deliver it to the customer, whichever is necessary to give at least three days advance notice of the hearing, and include a Pretermination Hearing and Notice Procedure Form. The Hearing Form is a check-list and work sheet which outlines the purpose of the hearing and procedures. It shall contain blank spaces for the name of customer, persons present, etc., and have spaces for the decision of the Customer Review Officer, including reasons for the decision and the evidence relied upon. Samples of typical evidence would be as follows:

    a. The Meter Reader's data sheet for the period.

    b. The System's first, second and final statements.

    c. The memorandum of reports on checks for water leaks.

    d. Memorandum of meter test.

    e. Any statements made by the customer which show that the water was actually used such as, "I had a leaky faucet, I had a leaky toilet, I had a leak in my sprinkler system," or any other similar statement.

    f. Similar evidence and statements in cases where the Customer Review Officer finds that the cut-off is not justified. Such factual evidence would be memoranda that the meter check showed that it was faulty, memoranda that the customer was billed twice, substantial proof by the customer that he really was on vacation and memoranda that there were no leaks in his system on investigation.

6. Hearing is held. An interpreter shall be made available for a hearing, if necessary. If possible, a decision shall be made at the hearing, and a copy of the hearing form containing that decision shall be given to the customer with receipt acknowledged. If the decision is not made then, the customer shall be notified by mail. Service shall not be terminated for 96 hours from date of delivery in person or date of mailing to afford opportunity for the customer to pursue legal remedies.
7. Notice to Customer of Decision. Print this notice in English and Spanish and mail it to customer if decision is not delivered to customer at the hearing. The date of that mailing shall be noted in the file.
8. System personnel shall terminate service not earlier than 96 hours from date customer learns of decision.

(Ord. No. 80330, 6-16-94)

SCHEDULE 2 FLAT RATE SEWER PROGRAM PROCEDURE

1. *Scope.* The purpose of this program is to allow an alternate method of establishing a sewer charge in accordance with Chapter 34, Article III, Division 4, Section 34-226, of the San Antonio City Code and is intended for General Customers.

2. *General Requirements.* The Flat Rate Program is available upon request to any general user who uses water in their daily activities which is not discharged into the sewer system. The Program provides that a flat rate sewer account may be established for any general user upon determination by Customer Service that the costs to administer the account would not exceed the projected annual savings to the general user. The flat rate sewer account will be maintained until such time as Customer Service may determine that the costs to administer the account exceed the annual savings to the user.

The program depends on the cooperation of customers to keep the System informed of any changes, defects or required repairs. The System will generally allow a 30-day period for correction of any problem. However, it is the customer's responsibility to ensure that the meters are functioning properly and that all requirements in submitting reports are met.

The System reserves the right to conduct periodic "unannounced" site inspections.

The three (3) acceptable options for businesses wishing to choose an alternate method of establishing a sewer charge are:

a. installation of separate "internal" water meter(s) for the purpose of measuring water uses which is not discharged into the sewer system,

b. submission of an engineering report once every two (2) years, or as required by the System outlining water consumption and its uses,

c. installation of a wastewater metering device which will measure the amount of wastewater being discharged into the sewer system.

3. *Separate "Internal" Water Meter(s)—Specific Requirements.* Separate internal water meter(s) may be installed for the purpose of measuring water consumption due to the use of a well or to measure a reduction of sewer flow due to the use of water in a production process, cooling tower, sprinkler system, etc. The number of submeters installed will be approved according to the specific type of business.

a. *Meter Requirements.*

(1) *Meter Case.* The main case shall be solid with removable top or bottom design and shall be constructed so that the main case (including meter spuds) will withstand internal pressure and external stress to eliminate distortion, cracking and breaking, which will cause leakage, damage to other components, or interfere with the proper operation of the meter in general.

The serial number of the meter shall be imprinted on the outer case as well as on the register box cover.

(2) *Meter Registers.* The meter register shall be a "sealed register" type with straight reading indicator, a minimum of six numbered wheels (dials), and shall indicate reading in gallons or cubic feet.

As used in these specifications, the term "sealed register" shall mean a register that is tamper resistant, factory-sealed, non-shop-repairable, hermetically sealed against fogging, moisture and corrosion, and mechanically disconnected from the measuring components.

The lens shall be of high strength, heat tested glass to minimize breakage.

The register shall be secured to the meter case with a tamper-proof locking device provided and installed by the System.

b. *Submittal of Initial Application.* Prior to the establishment of a flat rate account,

an application must be submitted to Customer Service requesting preliminary approval to establish a flat rate account.

c. *Submittal of Monthly Readings.* The customer's monthly meter readings, read in conjunction with the water purveyor's monthly readings of the main water meter, shall be submitted within ten (10) days of the meter readings; customer shall submit only actual meter readings, and not conversions of readings to volume. Once the System has compiled six (6) consecutive months of acceptable meter readings, an average monthly usage will be determined. This average will be used to calculate the customer's sewer charge. The System will implement this new monthly average and adjust the previous six (6) months, which will result in a retroactive debit or credit to the customer's sewer bill. This same billing basis will be applied to the next six (6) months. This procedure of analyzing 6 months of meter reading data will continue until the System is advised of a change in the customer's operations that will affect the basis of calculating the customer's sewer charge.

In the event the monthly meter readings are not submitted in a timely manner as set out herein or an unacceptable meter reading is submitted, the customer will be granted 30 days to explain the reasons, submit corrected readings or make any repairs or replacements of the meter(s). Should the customer fail to respond within the 30 day period, the customer may be removed from the Flat Rate Program, and the System's regular sewer charge will apply thereafter.

4. *Engineering Reports—Specific Requirements.* When a flat rate basis is determined by a report submitted by a Registered Professional Engineer the recommendations of this report will be reviewed and evaluated. If the recommendations are accepted then an acceptance letter will be mailed to the customer. Adjustments will be made retroactive to the date that the engineering report is dated provided it is in this office in a timely manner. The engineering report should include the following information:

- The water purveyor account number(s) affected.
- Type of business.
- Number of employees.
- Number of operational days per month.
- Number of operational hours per day.
- Any pertinent data relating to the business.

A flow study should be conducted using one of the two available methods for measuring flows. These alternate methods are as follows:

a. If the intent of the engineering report is to obtain a credit for the amount of water used for irrigation, then all irrigation should cease for a period of 14 days while daily incoming meter readings are gathered. The readings should be averaged, then annualized and compared to the previous 12 months of water consumption to arrive at a recommended flat rate percentage.

b. If the intent of the engineering report is to receive credit for cooling tower, evaporative loss, or other non-sewer creating functions, a 14 day wastewater flow metering should be conducted to measure the amount of wastewater being discharged. This amount should be compiled on a daily basis over the 14 days, then annualized and compared to the previous 12 months of water consumption to arrive at a recommended flat rate percentage.

c. Assumptions for determining discharged flow for a cooling tower can be calculated by using cooling tower specifications. Also, process water can be calculated based on the number of products produced, etc. This information must be very detailed, annualized and compared to the actual water consumption for the preceding 12 months.

5. *Wastewater Metering—Specific Requirements.* A flat rate account may also be established through the use of a permanent wastewater metering device.

a. *Submittal of Initial Application.* Prior to the establishment of a flat rate account, an application must be submitted to Customer Service requesting preliminary approval to establish a flat rate account.

b. *Submittal of Monthly Readings.* The customer's monthly meter readings, read in conjunction with the water purveyor's monthly readings of the main water meter shall be submitted within ten (10) days of the meter readings; customer shall submit only actual meter readings, and not conversions of readings to volume. Once the System has compiled six (6) consecutive months of acceptable meter readings, an average monthly usage will be determined. This average will be used to calculate the customer's sewer charge. The System will implement this new monthly average and adjust the previous six (6) months, which will result in a retroactive debit or credit to the customer's sewer bill. This same billing basis will be applied to the next six (6) months. This procedure of analyzing six (6) months of meter reading data will continue until the System is advised of a change in the customer's operations that will affect the basis of calculating the customer's sewer charge.

In the event the monthly meter readings are not submitted in a timely manner as set out herein or an unacceptable meter reading is submitted, the customer will be granted 30 days to explain the reasons, submit corrected readings or make any repairs or replacements of the meter(s). Should the customer fail to respond within the 30 day period, the customer may be removed from the Flat Rate Program, and the System's regular sewer charge will apply thereafter.

6. *Private Water Well(s)—Specific Requirements.* A flat rate sewer billing account, established for the purpose of setting the amount of the monthly sewer billing based on the amount of the well(s) water consumption, shall require the following:

a. *Submittal of Initial Application.* Prior to the establishment of the account, an application must be submitted to Customer Service requesting preliminary approval to base the amount of the monthly sewer charge on the monthly meter consumption of the well(s).

b. *Submittal of Monthly Readings.* The customer's monthly meter readings, read in conjunction with the water purveyor's monthly readings of the main water meter shall be submitted within ten (10) days of the meter readings; customer shall submit only actual meter readings and not conversions of readings to volume. Once the System has compiled six (6) consecutive months of acceptable meter readings, an average monthly usage will be determined. This average will be used to calculate the sewer charge. The System will implement this new monthly average and adjust the previous six (6) months, which will result in a retroactive debit or credit to the sewer bill. This same billing basis will be applied to the next six (6) months. This procedure of analyzing 6 months of meter reading data will continue until the System is advised of a change in the operations that will affect the basis of calculating the sewer charge.

In the event the monthly meter readings are not submitted in a timely manner as set out herein or an unacceptable meter reading is submitted, the customer will be granted 30 days to explain the reasons, submit corrected readings or make any repairs or replacements of the meter(s). Should the customer fail to respond within the 30 day period, the customer may be removed from the Flat Rate Program, and the System's regular sewer charge will apply thereafter.

(Ord. No. 80330, 6-16-94)

SCHEDULE 3 CUSTOMER SERVICE APPEALS COMMITTEE

A. *Scope.* The policy establishes the procedures to be followed by the San Antonio Water System Customer Service Appeals Committee in the processing of appeals from a decision to terminate service rendered by the Customer Review Officer, as well as for customer disputes concerning high bills, adjustments due to leakage or other matters covered in Sections 34-4.01 and 34-4.03 of the City Code.

The committee will consist of three (3) members appointed by the Board for a two (2) year term, with members able to be removed by the Board. These members shall be customers of SAWS and shall not include any SAWS employees.

The committee is responsible for providing and scheduling a hearing whereby both Customer Service personnel and the customer can discuss the merits of the action under appeal. Hearings will be scheduled within fifteen (15) working days of the receipt of the appeal request. Two (2) committee members shall constitute a quorum for the purpose of conducting any hearing.

Meetings will be scheduled and conducted according to the Open Meetings Act. The conduct and testimony of the hearings shall be recorded and kept with the certified agenda and minutes of the committee meetings as a permanent record.

B. *Appeals.* All appeals must be requested in writing by the customer. The following information, at a minimum, must be included in the appeal:

1. Name of customer;
2. Service address and/or account number;
3. Name of representative;
4. Customer's home and work telephone numbers;
5. Nature of appeal and resolution desired; and
6. Customer's signature.

If an appeal is from a decision to terminate rendered by the Customer Review Officer, the customer shall have ten (10) working days from receipt of notice of such decision to request an appeal.

C. *Representation.* Customers may represent themselves or may be represented by an attorney or other person of their choosing.

D. *Hearings.* This committee shall conduct hearings to consider all information necessary to assist them in deciding on a fair and equitable recommendation to the president/CEO.

E. *Postponements.* Postponements, if needed, must be requested in writing and received by the customer service director two (2) full working days prior to the scheduled hearing. The first request for a postponement shall usually be approved. A subsequent request for a postponement shall require justification and is subject to being denied. Postponements must be rescheduled no later than five (5) working days from the previously scheduled hearing.

F. *Failure to Appear.* Failure to appear at a scheduled hearing shall subject a customer/representative to forfeit the right to such hearing and the customer/representative shall be required to make an original application in order to be heard. A customer/representative shall be allowed to make only two original applications for appeal on the same subject during any twelve (12) month period.

G. *Recommendation to the president/CEO.* At the conclusion of each hearing, the Customer Service Appeals Committee shall announce its recommendation and the reasons for said recommendation to all parties. The secretary of the committee shall transcribe the recommendation and all justification to be forwarded to the president/CEO. The decision of the president/CEO will be final.
(Ord. No. 80330, 6-16-94)

SCHEDULE "A"
CHILLED WATER SERVICE RATE SCHEDULE FOR DOWNTOWN AREA
SAN ANTONIO WATER SYSTEM
San Antonio, Texas
Effective January 1, 2023

Billings for chilled water service shall be produced on a monthly basis and shall consist of both a capacity charge and a commodity charge as follows.

CAPACITY CHARGE

The capacity charge for 2023 shall be $22.67 per ton hour of demand. For each year thereafter, effective on January 1 of each year from 2024 through 2027, respectively, the maximum allowable capacity charge amount per ton hour to be assessed shall be in accordance with the table below.

As of January 1 of each of the following years:	*Maximum Allowable Capacity Charge per ton hour to be assessed:*	*Maximum Allowable Capacity Charge Annual Increase Percentage*
2024	$25.39	12.0%
2025	$27.93	10.0%
2026	$30.16	8.0%
2027	$32.57	8.0%

The demand shall be the largest number of tons of cooling demanded in any of the twelve months ending with the month next preceding the month in which the bill is dated or the connected load specified in the contract with the customer, whichever is the greater of the two. The demand for the Alamodome, which is an event driven facility with occasional peaks in demand during off peak hours and long periods of low demand, shall be defined in a service agreement between the City of San Antonio and the San Antonio Water System to account for its unique and unpredictable demands on the chilled water system.

COMMODITY CHARGE

A commodity charge will be applied to the monthly metered consumption. The commodity charge will provide for the pass-through of the utility costs, including water and energy costs. No commodity charge shall be made if the metered use of the customer is zero (0) during the month.

The commodity charge will be computed as follows; all utility costs of the previous month will be recovered through an allocation to the consumption of the billing period. In addition, the payment to the city's general fund will be added where applicable.

Utility costs + Payment to general fund = Commodity charge consumption

CAPITAL COST RECOVERY FEE

In addition to any rates or fees adopted by the City Council that are related to the provision of chilled water services within the Downtown system, the SAWS Board of Trustees shall have the discretion to add a fee for the recovery of the capital costs related to the construction of main extensions and installation of heat exchangers to serve new customers. The addition of this Capital Cost Recovery Fee shall be negotiated and agreed to by SAWS and the new customer based on the total cost, including interest, to design, construct and install the capital improvements that are necessary to provide chilled water services to the new customer. An amortization schedule to recover these capital improvement costs shall have a maximum term of twenty (20) years. This Capital Cost Recovery Fee shall not include any infrastructure, fixtures, chattel or appurtenances that will be owned, operated or maintained by the new customer or the owner of the subject property. The SAWS Board of Trustees shall have the discretion to decide whether it will participate in the construction of a main extension and installation of heat exchangers on a case-by-case basis.

DELTA T ADJUSTMENT CHARGE

Delta T is defined as the difference in temperature between a customer's point of delivery and point of return and is an overall measure of system efficiency. This Delta T adjustment charge is applied to the Commodity Charge and represents the added or avoided energy costs. It provides a fee for a customer with

low/poor Delta T or an incentive to those with high/good Delta T. A customer Delta T of 12 to 15 degrees will result in no Delta T adjustment. The Delta T adjustment to the Commodity Charge shall be calculated as the Commodity Charge multiplied by 6 percent for each degree (rounded to the nearest degree), in Fahrenheit, when the average return temperature is something other than 12 to 15 degrees. The Delta T adjustment will apply to the Commodity Charge for the months of April, May, June, July, August and September only. No Delta T adjustment shall be assessed until the later of January 1, 2024 or 12 months of establishing service, to allow a customer to optimize their water side system improvements.

CAPACITY CHARGE RAMP UP SCHEDULE

Beginning on the Operation Date (which may occur during construction), a new customer and SAWS may agree to the following schedule for phasing-in the Capacity Charge up to the Contract Capacity. Should the initial date the customer opens their building to the public (Opening Date) occur prior to the final month of the phase-in period below, the phase-in of the Capacity Charge shall no longer apply and billing for the Capacity Charge will begin in accordance with 100% of contracted capacity. Schedule included below:

- Month 1 (Operation Date): 10% of the Contract Capacity (or actual usage if more than 10%).
- Month 2: 20% of the Contract Capacity (or actual usage if more than 20%).
- Month 3: 30% of the Contract Capacity (or actual usage if more than 30%).
- Month 4: 40% of the Contract Capacity (or actual usage if more than 40%).
- Month 5: 50% of the Contract Capacity (or actual usage if more than 50%).
- Month 6: 60% of the Contract Capacity (or actual usage if more than 60%).
- Month 7: 70% of the Contract Capacity (or actual usage if more than 70%).
- Month 8: 80% of the Contract Capacity (or actual usage if more than 80%).
- Month 9: 90% of the Contract Capacity (or actual usage if more than 90%).
- Month 10: 100% of the Contract Capacity.

ADJUSTMENT FOR PAYMENT TO THE CITY GENERAL FUND

The City of San Antonio may change the percentage for payment to the city general fund pursuant to City Ordinance No. 75686, which is currently established at 4.0% of gross revenues. At that time, the commodity charge will be revised to include the new percentage of payment to the City of San Antonio.

DEFINITIONS

A ton is defined as 12,000 Btu's per hour.

An hour is defined as 60 consecutive minutes.

Gross Revenue is defined in City Ordinance No. 75686.

(Ord. No. 96794, § 1(Att. 1), 11-21-02; Ord. No. 2014-04-17-0262, 4-17-14; Ord. No. 2021-12-02-0910, § 1(Att. A), 12-2-21; Ord. No. 2022-11-10-0869, §§ 1—3(Att. I), 11-10-22)

Editor's note—Ord. No. 2022-11-10-0869, §§ 1—3(Att. I), adopted Nov. 10, 2022, renumbered Schedule A as Schedule B, and Schedule B as Schedule A, as set out therein. The former Schedule A pertained to chilled water service rate schedule for Port San Antonio. The historical notation has been retained with the amended provisions for reference purposes.

SCHEDULE "B"
RESERVED

Editor's note—Ord. No. 2021-12-02-0910, § 2(Att. B), adopted Dec. 2, 2021, repealed Schedule B, which pertained to Steam Service Rate Schedule for KellyUSA and derived from Ord. No. 96793, § 1(Att. 1), adopted Nov. 21, 2002; Ord. No. 100588, § 1(Att. I), adopted Mar. 24, 2005.

SCHEDULE "B"
CHILLED WATER SERVICE RATE SCHEDULE FOR PORT SAN ANTONIO
SAN ANTONIO WATER SYSTEM
San Antonio, Texas
Effective January 1, 2023

Billings for chilled water service shall be produced on a monthly basis and shall consist of both a capacity charge and a commodity charge as follows.

CAPACITY CHARGE

The capacity charge for 2023 shall be $25.28 per ton hour of demand. For each year thereafter, effective on January 1 of each year from 2024 through 2027, respectively, the maximum allowable capacity charge amount per ton hour to be assessed shall be in accordance with the table below.

As of January 1 of each of the following years:	*Maximum Allowable Capacity Charge per ton hour to be assessed:*	*Maximum Allowable Capacity Charge Annual Increase Percentage*
2024	$28.31	12.0%
2025	$31.14	10.0%
2026	$33.63	8.0%
2027	$36.32	8.0%

The demand shall be the largest number of tons of cooling demanded in any of the twelve months ending with the month next preceding the month in which the bill is dated or the demand amount specified in the contract or agreement with the customer, whichever is the greater of the two.

COMMODITY CHARGE

A commodity charge will be applied to the monthly metered consumption. The commodity charge will provide for the pass-through of the Utility Costs, including water and energy costs. No commodity charge shall be made if the metered use of the customer is zero (0) during the month.

The commodity charge will be computed as follows: all utility costs of the previous month will be recovered through an allocation to the consumption of the billing period. In addition, the Payment to the City's General Fund will be added where applicable.

Utility Costs + Payment to General Fund = Commodity Charge Consumption

CAPITAL COST RECOVERY FEE

In addition to any rates or fees adopted by the City Council that are related to the provision of chilled water services within the Port San Antonio system, the SAWS Board of Trustees shall have the discretion to add a fee for the recovery of the capital costs related to the construction of main extensions and installation of heat exchangers to serve new customers. The addition of this Capital Cost Recovery Fee shall be negotiated and agreed to by SAWS and the new customer based on the total cost, including interest, to design, construct and install the capital improvements that are necessary to provide chilled water services to the new customer. An amortization schedule to recover these capital improvement costs shall have a maximum term of twenty (20) years. This Capital Cost Recovery Fee shall not include any infrastructure, fixtures, chattel or appurtenances that will be owned, operated or maintained by the new customer or the owner of the subject property. The SAWS Board of Trustees shall have the discretion to decide whether it will participate in the construction of a main extension and installation of heat exchangers on a case-by-case basis.

DELTA T ADJUSTMENT CHARGE

Delta T is defined as the difference in temperature between a customer's point of delivery and point of return and is an overall measure of system efficiency. This Delta T adjustment charge is applied to the Commodity Charge and represents the added or avoided energy costs. It provides a fee for a customer with low/poor Delta T or an incentive to those with high/good Delta T. A customer Delta T of 12 to 15 degrees will result in no Delta T adjustment. The Delta T adjustment to the Commodity Charge shall be calculated as the Commodity Charge multiplied by 6 percent for each degree (rounded to the nearest whole degree), in Fahrenheit,

when the average return temperature is something other than 12 to 15 degrees. The Delta T adjustment will apply to the Commodity Charge for the months of April, May, June, July, August and September only. No Delta T adjustment shall be assessed until the later of January 1, 2024 or 12 months of establishing service to allow a customer to optimize their water side system improvements.

CAPACITY CHARGE RAMP UP SCHEDULE

Beginning on the Operation Date (which may occur during construction), customer and SAWS may agree to the following schedule for phasing-in the Capacity Charge up to the Contract Capacity. Should the initial date the customer opens their building to the public (Opening Date) occur prior to the final month of the phase-in period below, the phase-in of the Capacity Charge shall no longer apply and billing for the Capacity Charge will begin in accordance with 100% of contracted capacity. Schedule included below:

- Month 1 (Operation Date): 10% of the Contract Capacity (or actual usage if more than 10%).
- Month 2: 20% of the Contract Capacity (or actual usage if more than 20%).
- Month 3: 30% of the Contract Capacity (or actual usage if more than 30%).
- Month 4: 40% of the Contract Capacity (or actual usage if more than 40%).
- Month 5: 50% of the Contract Capacity (or actual usage if more than 50%).
- Month 6: 60% of the Contract Capacity (or actual usage if more than 60%).
- Month 7: 70% of the Contract Capacity (or actual usage if more than 70%).
- Month 8: 80% of the Contract Capacity (or actual usage if more than 80%).
- Month 9: 90% of the Contract Capacity (or actual usage if more than 90%).
- Month 10: 100% of the Contract Capacity.

ADJUSTMENT FOR PAYMENT TO THE CITY GENERAL FUND

The City of San Antonio may change the Percentage for payment to the City General Fund pursuant to City Ordinance No. 75686, which is currently established at 4.0% of Gross Revenues. At that time, the commodity charge will be revised to include the new Percentage of Payment to the City of San Antonio.

DEFINITIONS

A ton is defined as 12,000 Btu's per hour.

An hour is defined as 60 consecutive minutes.

Gross revenue is defined in City Ordinance No. 75686.

(Ord. No. 2021-12-02-0910, § 1(Att. A), 12-2-21; Ord. No. 2022-11-10-0869, §§ 1—3(Att. I), 11-10-22)

Editor's note—Ord. No. 2022-11-10-0869, §§ 1—3(Att. I), adopted Nov. 10, 2022, renumbered Schedule A as Schedule B, and Schedule B as Schedule A, as set out therein. The former Schedule B pertained to chilled water service rate schedule for Downtown Area. The historical notation has been retained with the amended provisions for reference purposes.

SCHEDULE "B"
RESERVED

Editor's note—Ord. No. 2021-12-02-0910, § 2(Att. B), adopted Dec. 2, 2021, repealed Schedule B, which pertained to Steam Service Rate Schedule for Downtown Area and derived from Ord. No. 96794, § 1(Att. 1), adopted Nov. 21, 2002.

SCHEDULE A
RESIDENTIAL CLASS WATER AND SEWER RATE SCHEDULES
SAN ANTONIO WATER SYSTEM

San Antonio, Texas

Effective for Consumption on or about January 1, 2023

Water service charges for all metered residential water connections INSIDE THE CITY LIMITS of San Antonio shall be the sum of the appropriate Water Service Availability Charge and the application of the Water Monthly Volume Charges to metered water usage in every instance of service for each month or fraction thereof and are billed according to the schedule below. Sewer service charges for all metered residential water connections INSIDE THE CITY LIMITS shall be the sum of the appropriate Sewer Service Availability Charge and the application of the Sewer Monthly Volume Charges to average monthly water usage for 90 days during three consecutive billing periods beginning after November 15 and ending on or about March 15 of each year and are billed according to the schedule below. Customers who do not have a record of winter water usage or an interim average will be billed for sewer service assuming 5,985 gallons monthly sewer usage. Customers with no San Antonio Water System water meter will be charged the Sewer Service Availability Charge based on a 5/8" meter size.

SCHEDULE B
GENERAL CLASS WATER AND SEWER RATE SCHEDULES
SAN ANTONIO WATER SYSTEM

San Antonio, Texas

Effective for Consumption on or about January 1, 2023

Water service charges for all metered General Class water connections INSIDE THE CITY LIMITS of San Antonio shall be the sum of the appropriate Water Service Availability Charge and the application of the Water Monthly Volume Charges to metered water usage in every instance of service for each month or fraction thereof and are billed according to the schedule below. For a new general class water customer who does not have a record of prior-year consumption history in order to establish a base use, a default base amount shall be assigned using the average monthly consumption for the prior calendar year for the average apartment, general or industrial account (as applicable) having the same meter size and sub-classification as the customer. A table of average monthly consumptions by general class sub-classification and meter size shall be updated annually by SAWS with actual prior calendar year consumption history information to serve as the source of default base amount assignments. Sewer service charges for all metered General Class water connections INSIDE THE CITY LIMITS shall be the sum of the appropriate Sewer Service Availability Charge and the application of the Sewer Monthly Volume Charges to metered water usage and are billed according to the schedule below. Customers with no San Antonio Water System water meter will be charged the Sewer Service Availability Charge based on a 2" meter size.

NON-COMPLIANCE CHARGE SCHEDULE

(cf. Sec. 34-135.)

In addition to regular charges, the following non-compliance charges shall apply for any violations of Article IV for all water service customers, where relevant, both INSIDE AND OUTSIDE THE CITY LIMITS of San Antonio, in every instance of service for each billing month the violation occurs, and shall be as follows:

Violation Number	*Fee Design - Small Users (less than one million gallons)*	*Fee Design - Large Users (more than one million gallons)*
1st Violation	$137.00	$500.00
2nd Violation	$225.00	$625.00
3rd+ Violation	$500.00	$1,250.00

(Ord. No. 2024-06-20-0480, § 1(Exh. A), 6-20-24)

Sec. 36-15.	Governmental agency cooperation.
Sec. 36-16.	Other applicable laws.
Sec. 36-17.	Severability.

*__Editor's note—__Ord. No. 2010-08-19-0697, § 1, adopted August 19, 2010, amended chapter 36 in its entirety to read as herein set out. Formerly, chapter 36, §§ 36-1—36-17, pertained to similar subject matter and derived from Ord. No. 97895, § 1, adopted August 7, 2003, and Ord. No. 97990, § 1, adopted August 14, 2003.

Sections 3 and 7 of Ord. No. 2010-08-19-0697 state the following: "Section 3. Violations occurring on or after August 19, 2011 shall be punished as provided in the revised Chapter 36 of the City Code of San Antonio, Texas. Violations prior to August 19, 2011 shall be punished under the former applicable Sections which shall remain in effect for that purpose.

Section 7. The Director of the Planning and Development Services Department is hereby authorized to waive permit fees associated with the construction of wholly new outdoor patios on restaurants and bars existing and legally in operation as of the date of passage of this ordinance, in compliance with the proposed smoking ordinance, until August 19, 2011.

Sec. 36-1. Definitions.

The following words and phrases, whenever used in this chapter, shall be construed as defined in this section:

Bar means an establishment that is devoted to the serving of alcoholic beverages for consumption by guests on the premises and in which the serving of food is only incidental to the consumption of those beverages, including but not limited to, taverns, nightclubs, cocktail lounges, and cabarets.

Business means a sole proprietorship, partnership, joint venture, corporation, or other business entity formed for profit-making purposes, including retail establishments where goods or services are sold as well as professional corporations and other entities where legal, medical, dental, engineering, architectural, or other professional services are delivered.

Cigarette vending machine means any self-service device which, upon insertion of coin(s), paper currency, token(s), card(s) or key(s) or any other item(s) dispenses one (1) or more cigarettes, as defined above, provided that the term shall neither be deemed to include any machine that is in storage, in transit or otherwise not set up for use and operation nor be deemed to include any machine that is situated on a train, bus or other public conveyance.

Comedy club means an establishment that is primarily used for live comedic entertainment.

Electronic Smoking Device (ESD) means any product containing or delivering nicotine or any other substance intended for human consumption that can be used by a person in any manner for the purpose of inhaling vapor or aerosol from the product. The term includes any such device, whether manufactured, distributed, marketed, or sold as an e-cigarette, e-cigar, e-pipe, e-hookah, dab rig or vape pen, or under any other product name or descriptor.

Employee means a person who is employed by an employer in consideration for direct or indirect monetary wages or profit, and a person who volunteers his or her services for a non-profit entity.

Employer means a person, business, partnership, association, corporation, including a municipal corporation, trust, or non-profit entity that employs the services of one (1) or more individual persons.

Enclosed area means all space between a floor and ceiling that is enclosed on all sides by solid walls or windows (exclusive of doorways), which extend from the floor to the ceiling.

Health care facility means an office or institution providing care or treatment of diseases, whether physical, mental, or emotional, or other medical, physiological, or psychological conditions, including but not limited to, hospitals, rehabilitation hospitals or other clinics, including weight control clinics, nursing homes, homes for the aging or chronically ill, laboratories, and offices of surgeons, chiropractors, physical therapists, physicians, dentists, and all specialists within these professions. This definition shall include all waiting rooms, hallways, private rooms, semiprivate rooms, and wards within health care facilities.

Park includes neighborhood/community/large urban/natural area and greenways/sports complex parks that are the basic unit of a park system and are recreational and social centers for those living in the nearby service area or from several neighborhoods and possibly may serve a broader community-based recreation need. Parks include areas that preserve unique landscapes and open spaces and include features that emphasize harmony with the natural environment. Parks include areas that accommodate group activities and recreational facilities, consolidated programmed athletic fields, and their associated facilities.

Place of employment means an area under the control of a public or private employer that employees normally frequent during the course of employment, including, but not limited to, work areas, employee lounges, restrooms, conference rooms, meeting rooms, classrooms, employee cafeterias, hallways, and vehicles. A private residence is not a "place of employment" unless it is used as a child care, adult day care, or health care facility.

Private club means an organization, whether incorporated or not, which:

(1) Is the owner, lessee, or occupant of a building or portion thereof used exclusively for club purposes at all times;

(2) Is operated solely for a fraternal purpose but not for pecuniary gain;

(3) Only sells alcoholic beverages incidental to its operation;

(4) Conducts its affairs and management through a board of directors, executive committee, or similar body chosen by the members at an annual meeting;

(5) Has established bylaws or a constitution to govern its activities; and

(6) Has been granted an exemption from the payment of federal income tax as a club under 26 U.S.C. Section 501.

Public place means an enclosed area to which the public is invited or in which the public is permitted, including but not limited to, banks, bars, bingo facilities, educational facilities, gaming facilities, health care facilities, hotels and motels, laundromats, public transportation facilities, reception areas, restaurants, retail food production and marketing establishments, retail service establishments, retail stores, shopping malls, sports arenas, theaters, and waiting rooms. A private residence is not a "public place" unless it is used as a child care, adult day care, or health care facility.

Restaurant means an eating establishment, including but not limited to, coffee shops, cafeterias, sandwich stands, and private and public school cafeterias, which gives or offers for sale food to the public, guests, or employees, as well as kitchens and catering facilities in which food is prepared on the premises for serving elsewhere. The term "restaurant" shall include a bar area within the restaurant.

Retail tobacco store means a retail store utilized primarily for the sale of tobacco products, smoking implements, or smoking accessories for on-premises consumption and in which the sale of other products is merely incidental, which shall include but not be limited to cigar bars and humidors.

Shopping mall means an enclosed public walkway or hall area that serves to connect retail or professional establishments.

Smoking means inhaling, exhaling, burning, or carrying any lighted or heated cigar, cigarette, pipe, hookah, or any other lighted or heated tobacco or plant product intended for inhalation, whether natural or synthetic, including marijuana/cannabis, in any manner or in any form. Smoking includes the use of an electronic smoking device which creates an aerosol or vapor, in any manner or in any form, or the use of any oral smoking device for the purpose of circumventing the prohibition of smoking in this chapter.

Sports arena means sports pavilions, stadiums, gymnasiums, health spas, boxing arenas, swimming pools, roller and ice rinks, bowling alleys, and other similar places where members of the general public assemble to engage in physical exercise, participate in athletic competition, or witness sports or other events.
(Ord. No. 2010-08-19-0697, § 1, 8-19-10; Ord. No. 2024-10-31-0853, § 2, 10-31-24)

Sec. 36-2. Application of chapter to city-owned facilities.

All enclosed facilities, including buildings and vehicles owned, leased, or operated by the city, shall be subject to the provisions of this chapter.
(Ord. No. 2010-08-19-0697, § 1, 8-19-10)

Sec. 36-3. Prohibition of smoking in public places.

Smoking shall be prohibited in all enclosed public places within the city, including but not limited to, the following places:

(1) Aquariums, galleries, libraries, and museums;

(2) Areas available to and customarily used by the general public in businesses and non-profit entities patronized by the public, including but not limited to, professional offices, banks, laundromats, hotels, and motels;

(3) Bars;

(4) Billiard halls;

(5) Bingo facilities;

(6) Comedy clubs;

(7) Convention facilities;

(8) Elevators;

(9) Facilities primarily used for exhibiting a motion picture, stage, drama, lecture, musical recital, or other similar performance;

(10) Gaming facilities;

(11) Health care facilities;

(12) Childcare and adult day care facilities;

(13) Lobbies, hallways, and other common areas in apartment buildings, condominiums, trailer parks, retirement facilities, nursing homes, and other multiple-unit residential facilities;

(14) Polling places;

(15) Public transportation facilities, including buses and taxicabs, and ticket, boarding, and waiting areas of public transit depots;

(16) Restaurants, except for outdoor seating areas designated as smoking in accordance with subsection 36-10(d);

(17) Restrooms, lobbies, reception areas, hallways, and other common-use areas;

(18) Retail stores;

(19) Rooms, chambers, places of meeting or public assembly, including school buildings, under the control of an agency, board, commission, committee or council of the city or a political subdivision of the state when a public meeting is in progress, to the extent the place is subject to the jurisdiction of the city;

(20) Shopping malls; and

(21) Sports arenas, including enclosed areas in outdoor arenas.

(Ord. No. 2010-08-19-0697, § 1, 8-19-10)

Sec. 36-4. Prohibition of smoking in places of employment.

(a) Smoking shall be prohibited in all enclosed areas within places of employment. This includes common work areas, auditoriums, classrooms, conference and meeting rooms, elevators, hallways, medical facilities, cafeterias, employee lounges, stairs, restrooms, and all other enclosed areas.

(b) This prohibition on smoking shall be communicated by employers to all existing employees by effective date of this chapter, and to all prospective employees upon their application for employment.

(Ord. No. 2010-08-19-0697, § 1, 8-19-10)

Sec. 36-5. Distribution, display, and sale of tobacco products; and cigarette machines.

(a) *Definition.* For purposes of this section only, the term "tobacco products" means any product that is made from or derived from tobacco, and is intended for human consumption or is likely to be consumed, whether smoked, heated, chewed, absorbed, dissolved, inhaled or ingested by any other means, including, but not limited to, a cigarette, a cigar, pipe tobacco, chewing tobacco, snuff, snus, or an electronic smoking device or liquids used in electronic smoking devices. "Tobacco product" does not include drugs, devices, or combination products authorized for sale by the U.S. Food and Drug Administration, as those terms are defined in the Federal Food, Drug and Cosmetic Act.

(b) Distribution, display, and sale of tobacco products, or smoking paraphernalia on any public right-of-way, city park or any city-owned building or facility is hereby prohibited.

(c) The sale of tobacco products to persons under twenty-one (21) years of age is prohibited by V.T.C.A., Health and Safety Code Ch. 161.

(d) Each person who sells tobacco products at retail or by vending machine shall post a sign as required by V.T.C.A., Health and Safety Code § 161.084.

(e) *Cigarette vending machines.*

(1) Subject to the defenses provided in subsection (2) below, it shall be unlawful for any business owner, manager and employee in control of cigarette vending machines within the city to intentionally, knowingly, recklessly, or with criminal negligence allow the display or use of any cigarette vending machine upon any property within the city.

(2) It is a defense to prosecution under the provisions of subsection (b) that:

a. The cigarette vending machine is situated in a premise where entry by any person under twenty-one (21) years of age is prohibited by law; or

b. The cigarette vending machine is located in a workplace with the permission of the employer, provided that the employer has no persons under the age of twenty-one (21) years employed at the workplace, and further provided that the cigarette vending machine is situated at a location within the workplace to which persons other than those employed at the workplace are not permitted to have access.

(f) *Penalty.* A violation of any subsection of this section is hereby declared to be a misdemeanor crime, and upon conviction, shall be punishable as set out below:

A violation of subsections (b) or (e) shall be punishable by a fine of not more than two thousand dollars ($2,000.00).
(Ord. No. 2010-08-19-0697, § 1, 8-19-10; Ord. No. 2018-01-11-0001, § 1, 1-11-18; Ord. No. 2024-10-31-0853, § 2, 10-31-24)

Sec. 36-6. Prohibition of smoking/tobacco products in certain outdoor areas.

Smoking shall be prohibited in the following outdoor places:

(1) San Antonio Zoo facilities and grounds;

(2) In all outdoor sports arenas, stadiums, and amphitheaters;

(3) In, and within twenty (20) feet of, all outdoor public transportation stations, platforms, and shelters under the authority of the city;

(4) In all city-owned, public squares, plazas, and parks, as well as the use of any tobacco products as defined in Section 36-5(a). Additionally, the Directors of the Parks and Center City Development Departments, or their successor departments, shall have the authority to designate temporary smoking areas for certain special events by request as deemed appropriate;

(5) Within the public right-of-way and any seating located within the public right-of-way or on other city-owned property along the entire parade route of the Fiesta Battle of Flowers Parade and the Fiesta Flambeau Parade for a period beginning two (2) hours before the start of each parade until one hour after the conclusion of each parade. This prohibition will not apply to private property;

(6) Within the public right-of-way and all seating within the public right-of-way, or on other city-owned property along the entire parade route of the Texas Cavaliers River Parade for a period beginning two (2) hours before the start of the parade until one hour after the conclusion of said parade. This prohibition will not apply to those areas where smoking is permitted under subsection 36-7(3) or to any other private property.

(Ord. No. 2010-08-19-0697, § 1, 8-19-10; Ord. No. 2012-01-19-0031, § 1, 1-19-12; Ord. No. 2015-11-19-0966, § 1, 11-19-15; Ord. No. 2019-04-11-0309, § 1, 4-11-19)

Sec. 36-7. Where smoking not regulated.

Notwithstanding any other provision of this chapter to the contrary, the following areas shall be exempt from the provisions of sections 36-3, 36-4, and 36-6:

(1) Hotel and motel rooms that are rented to guests and are designated as smoking

rooms; provided, however, that not more than twenty-five (25) percent of rooms rented to guests in a hotel or motel may be so designated;

(2) Outdoor areas except those listed specifically in the provisions in section 36-6;

(3) Outdoor seating areas of restaurants designated as smoking areas in accordance with subsection 36-10(d);

(4) Private clubs in existence as of the effective date of this chapter, and as defined in section 36-1, including Veterans of Foreign War (VFW) posts;

(5) Private residences, except when used as a child care, adult day care, or health care facility;

(6) Retail tobacco stores; provided, however, that smoke from these places does not infiltrate into areas where smoking is prohibited under the provisions of this chapter; and

(7) Tobacco product manufacturing facilities.

(Ord. No. 2010-08-19-0697, § 1, 8-19-10)

Sec. 36-8. Persons under age of eighteen (18) years in smoking area.

Notwithstanding any other provision of this chapter, persons under the age of eighteen (18) years may be admitted in establishments, facilities or other areas that allow smoking in accordance with the provisions of this chapter if such persons are accompanied by their parent or legal guardian.

(Ord. No. 2010-08-19-0697, § 1, 8-19-10)

Sec. 36-9. Declaration of establishment as nonsmoking.

Notwithstanding any other provision of this chapter, an owner, operator, manager, or other person in control of an establishment, facility, or outdoor area may declare that entire establishment, facility, or outdoor area as a nonsmoking place. Smoking shall be prohibited in any place in which a sign conforming to the requirements of subsection 36-10(a) and (b) of this chapter is posted.

(Ord. No. 2010-08-19-0697, § 1, 8-19-10)

Sec. 36-10. Posting of signs.

(a) "No Smoking" signs shall be clearly and conspicuously posted in every public place and place of employment where smoking is prohibited by this chapter, by the owner, operator, manager, or other person in control of that place. The director shall prescribe the content of the "No Smoking" sign required to be posted under this article and have an example sign available on the department's website.

(b) Every public place and place of employment where smoking is prohibited by this chapter shall have posted at every entrance a conspicuous sign clearly stating that smoking is prohibited.

(c) All ashtrays and other smoking paraphernalia shall be removed from any area where smoking is prohibited by this chapter by the owner, operator, manager, or other person having control of the area.

(d) Areas which are exempt from the provisions of sections 36-3 and 36-4 of this chapter shall post a standard sign at each entrance, to be designated by the city informing potential patrons that the area allows smoking, and warning patrons of the negative health effects associated with secondhand smoke, inhaling vapor and aerosol from electronic smoking devices.

(e) The city will provide the signs required under subsection 36-10(d) to the owners or operators required to comply with subsection 36-10(d).

(Ord. No. 2010-08-19-0697, § 1, 8-19-10; Ord. No. 2024-10-31-0853, § 2, 10-31-24)

Sec. 36-11. Retaliation prohibited.

No person or employer shall discharge, refuse to hire, or in any manner retaliate against an employee, applicant for employment, or customer because that employee, applicant, or customer exercises any rights afforded by this chapter or reports or attempts to prosecute a violation of this chapter.

(Ord. No. 2010-08-19-0697, § 1, 8-19-10)

Sec. 36-12. Enforcement.

(a) The San Antonio Metropolitan Health District, in addition to any authority having jurisdiction to enforce city ordinances, shall have authority to enforce the provisions of this chapter.

(b) Any citizen who desires to register a complaint under this chapter may initiate enforcement with the San Antonio Metropolitan Health District

(c) The San Antonio Metropolitan Health District, fire department, or their designees shall, while an establishment is undergoing otherwise mandated inspections, inspect for compliance with this chapter.

(d) An owner, manager, operator, or employee of an establishment regulated by this chapter shall inform persons violating this chapter of the appropriate provisions thereof.

(e) Notwithstanding any other provision of this chapter, an employee or private citizen may bring legal action to enforce this chapter.

(f) In addition to the remedies provided by the provisions of this section, the San Antonio Metropolitan Health District, fire department, or their designees, or any person aggrieved by the failure of the owner, operator, manager, or other person in control of a public place or a place of employment to comply with the provisions of this chapter may apply for injunctive relief to enforce those provisions in any court of competent jurisdiction.
(Ord. No. 2010-08-19-0697, § 1, 8-19-10)

Sec. 36-13. Violations and penalties.

Any person, firm, corporation, agent, employer or employee who intentionally, knowingly, recklessly or with criminal negligence violates any provision of this chapter shall, upon conviction, be fined an amount not more than two hundred dollars ($200.00); provided, however, that in the event a defendant has previously been convicted under this chapter, such defendant shall be fined an amount not more than five hundred dollars ($500.00) for a second conviction hereunder, and shall be fined an amount not more than two thousand dollars ($2,000.00) for a third conviction hereunder and for each conviction thereafter. Each day that a violation is committed or permitted to exist shall constitute a separate offense.
(Ord. No. 2010-08-19-0697, § 1, 8-19-10)

Sec. 36-14. Additional fee for restaurants.

A reasonable fee to cover staff costs associated with consultations and inspections may be charged by the city to the owner or operator of a restaurant in order to establish that outdoor seating areas of restaurants designated as smoking areas are so designated in accordance with subsections 36-3(16) and 36-10 of this chapter.
(Ord. No. 2010-08-19-0697, § 1, 8-19-10; Ord. No. 2024-10-31-0853, § 2, 10-31-24)

Sec. 36-15. Governmental agency cooperation.

The city manager shall annually request other governmental and educational agencies having facilities within the city to establish local operating procedures in cooperation and compliance with this chapter. This includes urging all federal, state, county and school district agencies to update their existing smoking control regulations to be consistent with the current health findings regarding secondhand smoke and vapors and aerosols from electronic smoking devices.
(Ord. No. 2010-08-19-0697, § 1, 8-19-10; Ord. No. 2024-10-31-0853, § 2, 10-31-24)

Sec. 36-16. Other applicable laws.

This chapter shall not be interpreted or construed to permit smoking where it is otherwise restricted by other applicable laws.
(Ord. No. 2010-08-19-0697, § 1, 8-19-10)

Sec. 36-17. Severability.

It is hereby declared to be the intention of the city council that the sections, paragraphs, sentences, clauses and phrases of this chapter are severable, and if any phrase, clause, sentence, paragraph or section of this chapter shall be declared unconstitutional by the valid judgment or decree of any court of competent jurisdiction, such unconstitutionality shall not affect any of the remaining phrases, clauses, sentences, paragraphs and sections of this chapter, since

the same would have been enacted by the city council without the incorporation in this chapter of any such unconstitutional phrase, clause, sentence, paragraph or section.
(Ord. No. 2010-08-19-0697, § 1, 8-19-10)

App. A.	Right-of-way network node design manual.

*__Editor's note—__Ord. No. 2016-04-07-0240, § 2, adopted April 7, 2016, amended Ch. 37 in its entirety, save and except § 37-23, to read as set out herein. Former Ch. 37, §§ 37-1—37-22, pertained to similar subject matter and derived from Ord. No. 2009-12-10-1025, § 2, adopted Dec. 10, 2009.

[This page intentionally left blank.]

Sec. 37-1. Definitions.

The definitions in this section apply only in this chapter, and not to other chapters of the City Code of San Antonio, Texas:

Applicant means a person requesting a right or privilege governed by this chapter. More than one person may combine as one petitioner, but then each is jointly and severally liable for the obligations of the petitioner.

Application means a written request by a person for rights or privileges under this chapter.

Chief information/technology officer means an assistant director of the information technology services department (ITSD) designated as the city's chief technology officer.

City means the City of San Antonio.

City manager means the city manager of the City of San Antonio or the city manager's designee.

Collocator means any person that installs wireless communications facilities on an existing tower located on city property.

Communications facility means antennas, antenna arrays, antenna facilities, radios, control boxes, cabinets, fiber optic and coaxial cables, conduit, ducts, power sources, ducts, spaces, manholes, vaults, poles, pole lines, fence, repeaters, converters, underground and overhead passageways, and other equipment, structures, plant, other appurtenances or tangible things, or any structure or object of any kind or character not particularly mentioned herein, owned, leased, operated, or licensed by a person located on city property used to provide communications services.

Developable property, as referenced in subsection 37-2(g), means property that is suitable to be developed under the adopted Code of the City of San Antonio and is free of hazards or physical impediments and without disruption of, or significant impact on, natural resource areas or designated open space areas.

Director means the director of the city department responsible for the applicable duty as designated by city ordinance or the city manager.

Encroachment means any physical obstruction or any structure or object of any kind or character placed either in, under, or over any city street, alley or drainage easement in which the city has an interest.

Information technology services department or *ITSD* means the current city department that oversees the city's technology services, wireless antennas, or wireless towers and any future city department that may oversee the city's technology service, wireless antennas, or wireless towers.

Joint use agreement means a written agreement between government entities, including utility agencies, setting forth the terms and conditions for shared use of public property or facilities.

License means an instrument granted to allow the use or occupation of the city's interest in a property for a specific interval of time. Licenses require city council approval.

Micro network node means a network node that is not larger in dimension than twenty-four (24) inches in length, fifteen (15) inches in width, and twelve (12) inches in height, and that has an exterior antenna, if any, not longer than eleven (11) inches.

Network node means equipment at a fixed location that enables wireless communications between user equipment and a communications network. The term includes: equipment associated with wireless communications; a radio transceiver, an antenna, a battery-only backup power supply, and comparable equipment, regardless of technological configuration; and coaxial or fiber-optic cable that is immediately adjacent to and directly associated with a particular collocation. Network node does not include: an electric generator, a pole, or a macro tower.

Network provider means a wireless service provider; or a person that does not provide wireless services and that is not an electric utility but builds or installs on behalf of a wireless service provider: network nodes, node support poles, or any other structure that supports or is capable of supporting a network node.

Permit, as defined in this chapter, means an instrument granting approval for encroachments into city right-of-way or drainage easements. A permit grants no property interest in the real property area subject to the permit.

Person means an individual, corporation, organization, government or governmental subdivision or agency, business trust, estate, trust, partnership, association, and any other legal entity.

Petition means a written request by a petitioner for rights or privileges under this chapter.

Petitioner means a person requesting a right or privilege governed by this chapter. More than one person may combine as one petitioner, but then each is jointly and severally liable for the obligations of the petitioner.

Point of demarcation means the point where the network node terminates and interconnects with transport facilities, whether provided by landline or wireless communications infrastructure.

Pole means a service pole, a municipally owned utility pole, node support pole, or utility pole.

Public right-of-way means any easement or fee over which the public has a right to pass, such as public streets, roads, lanes, paths, alleys, and sidewalks, whether improved or unimproved.

Service pole means a pole, other than a municipally owned utility pole, owned or operated by a municipality and located in a public right-of-way, including: a pole that supports traffic control functions; a structure for signage; a pole that supports lighting, other than a decorative pole; and a pole or similar structure owned or operated by a municipality and supporting only network nodes.

Transport facility means each transmission path physically within a public right-of-way, extending with a physical line from a network node directly to the network, for the purpose of providing backhaul for network nodes.

Utility agency means either or both of the San Antonio Water System and CPS Energy or their successors, for so long as the utility is a municipally owned utility of the City of San Antonio.

(Ord. No. 2016-04-07-0240, § 2, 4-7-16; Ord. No. 2017-08-31-0609, § 1, 8-31-17)

Sec. 37-2. General provisions.

(a) No one may use public rights-of-way or other property in which the city has an interest, whether in fee or easement, in a way governed by this chapter without acquiring rights under the relevant section. Nothing in this chapter requires a permit, license, or other document for utilities and utility agencies to place their facilities in public rights-of-way as otherwise permitted by law.

(b) An instrument granting rights or permission under this chapter, or a recordable memorandum regarding such instrument, shall be recorded in the official public records of real property of the county in which the land is situated unless it is a protected document not subject to public disclosure under federal, state, or local laws. Petitioner must pay the recording cost. A petition may be in letter form and must state the location of the affected city property and the purpose and scope of the proposed use or disposition of the property. The petition must further include such attachments and additional detail as the director may require.

(c) An instrument may not be granted for uses or activities that would substitute for compliance with another chapter of the City Code, including chapter 35 (Unified Development Code). No right granted under this chapter substitutes for compliance with the requirements of another chapter of the City Code. No grant of general right under this chapter substitutes for acquiring a more specific applicable right provided for under this chapter.

(d) Any city official to whom authority is delegated under this chapter may further delegate that authority to subordinates. Authority to bind the city to a contract may not be delegated below the level of director, unless the delegation is made personally by the city manager or a deputy or assistant city manager. All delegations must be in writing. Notwithstanding the foregoing,

the director and assistant director of the department primarily responsible for real estate may sign and bind the city to all contracts, deeds, and other documents and instruments part of real estate transactions approved by council.

(e) Neither permits nor licenses under this chapter create property rights, and no permittee or licensee is entitled to compensation if the city revokes a permit or license.

(f) All construction, excavation, and placement of utilities or other facilities in public rights-of-way are subject to regulation under chapter 29 of the City Code (Streets and Sidewalks).

(g) When fair market value must be determined under this chapter, the following procedures apply:

(1) A director may require that an independent professional appraisal be obtained. The city selects the appraiser and petitioner pays for the appraisal. Except as otherwise stated in a particular section, independent professional appraisals are of the fee simple interest in the affected land, according to its highest and best use.

(2) Alternatively, in cases where the property is not developable as provided under the chapter 35 (Unified Development Code) of the City of San Antonio, a director may rely on an average of the per-square-foot Bexar Appraisal District-assessed land values in the vicinity.

(3) In choosing between requiring a formal appraisal or relying on Bexar Appraisal-assessed values, a director should balance whether the probable cost of a formal appraisal is disproportionate to the probable value of the affected property. Streets and alleys must be appraised not as rights-of-way but as if marketable fee simple title to the affected property were in private hands and the city were condemning it for public-street right-of-way. Appraisals of other strips or oddly configured parcels must not be discounted because of the parcels' configuration.

(4) Independent appraisals should conform to the State of Texas licensing and certification board appraisal standards as well as the Uniform Standards of Professional Appraisal Practice.

(h) Those receiving rights under this chapter must maintain in good repair and condition any structure, covering, or appurtenance and the accompanying structural members extending over,

[This page intentionally left blank.]

under, or on public rights-of-way, drainage, or utility easement, or other city property. No such encroachment may be a nuisance or safety hazard. All such encroachments, when built or renovated, must conform to the latest edition of the International Building Code and other applicable building discipline codes, and installation must be consistent with the city's right-of-way management ordinance.

(i) Grants of rights under this chapter do not relieve petitioner of any other approvals, permits, or licenses that may otherwise be required. No permit or license should be granted under this chapter if the proposed use would impair the primary public purpose of the affected public right-of-way or other city property.

(j) Driveways, bridges, and other ingress and egress-related encroachments over drainage easements need not be licensed or permitted under this chapter but all such matters are subject to review and approval by the flood plain administrator.

(k) Before granting or recommending granting rights under this chapter, the director may canvass some or all interested city departments, utility agencies, and registered neighborhood associations in the vicinity. Based on comments received, the director may impose or recommend imposing special terms as a condition of approval. Sales or conveyances under section 37-12 (Sales or conveyance of surplus real property) require canvassing per that section.

(l) Nothing in this chapter governs use in the ordinary course of business of park and recreation facilities, city cemeteries, airport facilities, community centers, libraries, convention facilities, the Alamodome, or leases or other uses of city-owned or operated office or retail space, parking lots, and garages.

(m) Responsibilities allocated to a city department in this chapter automatically succeed to any other department into which the designated department or the relevant function of that department is reorganized.

(n) Nothing in this chapter impairs an otherwise applicable requirement to seek planning commission approval of a proposed transaction.

(o) Except as may be specifically provided as to a particular fee, all processing and other fees and charges provided for in this chapter are non-refundable.

(p) Nothing in this chapter repeals by implication or otherwise impairs the effect of any part of chapter 6 (Buildings), chapter 29 (Streets and Sidewalks), chapter 32 (Tourist and Trade Center Areas), or chapter 35 (Unified Development Code) of the City Code of San Antonio, Texas.

(q) The city has a lien against property of non-governmental persons granted rights governed by this chapter until the sums owing under this chapter are paid.

(1) The city may assert the lien by recording a lien claim in the real property records of the county in which the property subject to the lien is located.

(2) The property subject to the lien is all property of the person making use of city property any portion of which is within one hundred (100) yards of the unpaid-for use of city property. The lien extends to property beyond the one-hundred-yard limit, but only if it adjoins property within the one-hundred-yard limit.

(3) Lien claims may be signed and acknowledged by the city manager without council action.

(4) The lien may be enforced judicially in any court of competent jurisdiction.

(5) The lien applies only to sums owing for periods after January 1, 2010.

(6) This section does not imply that fees the city otherwise requires to be paid up front may be paid other than up front.

(r) No petitioner seeking rights under this chapter may acquire such rights before paying in full for all previously obtained rights of any type governed by this chapter.

(s) Applicants seeking rights under this chapter are responsible for providing any surveys required in an application prior to the application being scheduled for city council review. Applicants must pay for all costs associated with such surveys.

(t) Upon receipt of a complete application or petition and associated fees, the director shall process an application under this chapter. Applications are valid for one year from date of acceptance by the director.

(u) The director may file a notice of expiration or non-compliance in the official records of the county where property is located if a license, permit or other instrument granting approval under this chapter expires or is terminated and the licensee does not remove any improvements from the licensed area or renew authority for such improvements to remain. Failure to file the notice does not waive any rights to which the city may be entitled.

(v) Any provision of this chapter authorizing an expenditure of funds must be supported and accompanied by:

(1) A prior appropriation approved by city council, and

(2) An unencumbered appropriated balance equal to or exceeding the expenditure.

(Ord. No. 2016-04-07-0240, § 2, 4-7-16)

Sec. 37-3. Permits for encroachments onto public streets, alleys, or drainage easements.

(a) Permits allowing encroachments on public streets, alleys or drainage easements may be administratively approved by the director but are subject to approval of the underlying fee owner as otherwise provided by law. If an encroachment is specifically addressed in another section of this chapter, the more specific section applies. The director may process permit requests and may establish forms and procedures to carry out this section, but all permits must be reviewed and approved by the director, or designee, overseeing public rights-of-way if in a street or alley, or by the city floodplain administrator, or designee, if in a drainage easement. Permits under this section may be issued by the director without specific council action. Sidewalks are included in the eligible area for a permit provided that the sidewalk is within the area of a dedicated public street, alley or other public right-of-way.

(b) Permits shall be issued for a period of ten (10) years, and may be renewed. The director may revoke a permit at any time should the director determine that use under a permit interferes with the city's use of the right-of-way or drainage easement. Permits may be granted only for:

(1) Purposes permissible under V.T.C.A. Transportation Code ch. 316 or any successor statute thereto;

(2) Fire escapes or other safety features; or

(3) Balconies, awnings, or other interconnected walkways between buildings.

Permits may not be issued unless the director finds that:

(1) The improvement or facility will not be located on, extend onto, or intrude on:

a. The roadway, or

b. A part of the sidewalk needed for pedestrian use.

(2) The improvement or facility will not create a hazardous condition or obstruction of vehicular travel, pedestrian travel or drainage on the municipal street;

(3) The improvement will not create private parking within the public right-of-way;

(4) The improvement or facility will not conflict with the Americans with Disabilities Act; and

(5) The design and location of the improvement or facility includes all reasonable planning to minimize potential injury or interference to the public in the use of the permitted area.

(c) Permits are subject to the following limitations:

(1) All permitted encroachments must allow for adequate clearances between the facility or improvement and utility lines.

Clearances from structures to utility lines must comply with the nationally recognized building code adopted by the city and the National Electric Safety Code;

(2) A permit holder must pay the costs to relocate a municipal or public utility facility or improvement in a municipal street associated with the installation of a facility or improvement of the permit holder if requested by the city or a utility agency; and

(3) The city or a utility agency authorized by the municipality may remove, without liability, any part of a facility for which a permit has been issued if there is a public use, public utility use, or need to access the site.

(d) Permits under this section may only be issued by the director without specific council action to:

(1) A person who owns the underlying fee title to the real property;

(2) An entity that holds a lease of the property from or has written permission to use the property from a person who owns the underlying fee title to the real property; or

(3) Adjoining property owners where the city owns the fee underneath the street, alley or drainage area.

(e) Any encroachment obstructing public passage, utility facilities, or other uses of public streets or alleys is ineligible for a permit. A permit may cover as many eligible encroachments as a building has, but a separate permit must be obtained for each building of a project. Where encroachments do not relate to a building, permits cover a radius of two hundred fifty (250) feet. Any encroachment not within a two-hundred fifty-foot radius of a permitted encroachment must obtain a separate permit.

(f) Permits cannot be granted over the objection of the:

(1) Historic preservation officer for areas zoned historic, historic district, river improvement overlay or Mission protection overlay;

(2) The planning director for areas zoned "D" (downtown);

(3) Director assigned oversight of the property where the encroachment will occur; or

(4) The city manager;

except with council approval.

Each permit must be approved as to form by the city attorney's office.

(g) The director may specify the construction, characteristics, quality, and placement of encroachments. The city council may require relocation or removal of an encroachment when appropriate for the efficient use of the public street or alley. The petitioner is responsible for the cost associated with relocation or removal.

(h) Permits need state only:

(1) The city's identity as the issuing authority;

(2) The identity and address of the permittee;

(3) A description of the affected city property;

(4) The scope of the encroachment permitted;

(5) The permit's duration, subject to revocation; and

(6) Any special conditions imposed under subsection 37-3.

Permits must be signed on behalf of both the city and the petitioner and be in recordable form.

(i) Property owners may install and maintain mail boxes conforming to U.S. Postal Service regulations without a permit under this chapter provided that the mail box shall not conflict with the Americans with Disabilities Act, interfere with pedestrian use of the sidewalk, or interfere with city or utility agency use of the right-of-way. Interference is determined at the sole discretion of the director as to city, and applicable local, state and federal laws as to utility agencies.

(j) Permits issued after January 1, 2010, are not effective unless recorded in the real property records of the county in which the encroachment is located.
(Ord. No. 2016-04-07-0240, § 2, 4-7-16)

Sec. 37-4. Joint use agreements and intrajurisdictional agreements.

(a) Petitions for intrajurisdictional agreements or joint use agreements on city-owned property must be submitted to the director. Petitions relating to parks property must be submitted to the parks director, and petitions relating to airport property must be submitted to the airport director. Requests that involve a reservation or creation of property rights upon execution of the document or sale of city property shall require city council approval.

(b) The director may process requests and may establish forms and procedures to carry out this section. Agreements under this section must either be recorded or described in a recorded memorandum of agreement. For the purposes of this section, city property does not include utility easements or public rights-of-way that utility agencies are otherwise permitted by law to use. Nothing in this section alters the rights and obligations of the city and utility agencies in street repairs, widenings, and reroutings.

(c) If city terminates a utility agency's rights under an agreement subject to this section, the utility agency must, at its own expense, find an alternate place for its facilities and remove and relocate the facilities unless otherwise authorized by city council.

(d) As to property in which the city owns only an easement, the petitioner need not pay more than the processing fee for the granting or release of an agreement unless otherwise required in this chapter. A director may, without council action, approve agreements conforming to this section and not impairing the city's rights in the affected area. The agreement may impose limitations on the proposed use to assure city easement rights are not interfered with and is terminable only if the use interferes with city's easement rights. Owners of the fee underlying city easements need not apply for rights under this chapter, provided that in no event may an underlying owner's use of the fee impair or interfere with the city's easement rights.

(e) No agreement under this section grants the right to trespass on or otherwise use property in which persons other than the city have an interest. When the city does not own the fee or another owns an easement that would be affected by the joint use agreement, petitioner must get consent from the owner of all non-city interests as otherwise provided by law, however, utility agencies shall not be required to provide consent from third-party easement holders as a condition for granting the joint use agreement. The city shall have no obligation to obtain consent on behalf of applicants or utility agencies, and said applicants or utility agencies are responsible for obtaining any consent required by law.
(Ord. No. 2016-04-07-0240, § 2, 4-7-16)

Sec. 37-5. Reserved.

Sec. 37-6. Reserved.

Sec. 37-7. Canvassing and responses to canvassing.

(a) When property in which the city has an interest is proposed for sale, for a grant of easement, or for grant of another right that may affect a city department's use of the property the director, in the director's sole discretion, must canvass relevant city departments and utility agencies.

(b) Requests for reservation of utility or other easements must be accompanied by metes and bounds descriptions/surveys.

(c) Applicants under this section are required to comply with all laws, rules, and regulations of general applicability.
(Ord. No. 2016-04-07-0240, § 2, 4-7-16)

Sec. 37-8. Reserved.

Sec. 37-9. Licenses of city property.

(a) Uses of property owned by the city in fee that are subject to this chapter but are not described elsewhere in this chapter must be

licensed. Licenses shall be for a ten-year period unless otherwise approved by city council. Licenses are terminable according to their terms. Petitions for licenses must be submitted to the director. The director may process license requests and may establish forms and procedures conducive to carrying out this section. If a use is specifically addressed in another section of this chapter, the more specific section applies.

(b) The city may collect license fees for uses of public right-of-way or other city property before rights under this section have been granted, even if the uses are now eligible for a permit.

(1) Those using public right-of-way or other city property in a manner subject to this section without a license before September 1998 must pay city a fee equal to fifty (50) percent of the license fee for the unauthorized use prescribed at the time the fee is paid.

(2) For all uses from September 1998 forward, those using such property in a manner subject to this section without a license must pay the fees that were in effect from time to time for rolling ten-year licenses until December 1, 2009. Past-due license fees need not be paid for a period after December 1, 2009, but after that date, past-due permit fees must be paid.

(Ord. No. 2016-04-07-0240, § 2, 4-7-16)

Sec. 37-10. Reserved.

Sec. 37-11. Closure, vacation, and abandonment of public right-of-way.

(a) Petitions for closure, vacation, and abandonment of public streets or alleys must be submitted to the director. The director may process requests and may establish forms and procedures to carry out this section.

(b) Petitioner must demonstrate ownership of each property abutting the right-of-way and must submit at least a category 1B standard land survey with field notes for each abutting-property owner's portion of the affected public rights-of-way. All owners of abutting property must consent to the action under this section. The consent must be in writing. The right-of-way will be presumed to exist by easement.

(c) No fees of any type are owed for city-initiated closures, vacations, or abandonments.

(d) The director shall provide notice of the petition to utility agencies and may require a petitioner to sign and deliver an agreement setting out the applicable closure fee and conditions imposed by city departments and utility agencies.

(e) At least thirty (30) days before the city council takes up a proposed closure, vacation, or abandonment, the director shall cause signs to be placed at or near the public right-of-way to be closed and shall send letters to persons the director reasonably believes to be owners of all tracts within five hundred (500) feet of any portion of the affected right-of-way notifying them of the proposed closure. The signs must state the proposed action, the location and date of city council action, and must remain in place until city council acts on the petition. Signs need not be erected, and letters need not be sent, for undeveloped ("paper") public right-of-way or for slivers not affecting the path of public travel. In determining ownership of tracts, the director need not inquire further than the ownership listings by the Bexar Appraisal District.

(f) Closing, vacating, and abandoning public right-of-way must be approved by ordinance. After city council approval, the director may issue a document indicating release of the right-of-way easement in the street subject to any conditions included in the ordinance.

(g) An applicant petitioning for a street closure assumes all risk of title as to the affected street or alley segment and as to what utility agencies or companies may be using the segment. City need not inquire into these matters.

(Ord. No. 2016-04-07-0240, § 2, 4-7-16)

Sec. 37-12. Sale or conveyance of surplus real property.

(a) Petitions for the sale of all city surplus property must be submitted to the director or assistant director responsible for the disposition

of city real property. The director or assistant director will process requests and may establish forms and procedures to carry out this section.

(b) The director shall establish a process for canvassing a proposed sale or conveyance of city property.

(c) The director may, at the director's discretion, contract with a broker to sell property as provided in V.T.C.A. Local Government Code ch. 253.

(d) Surplus status of real property may finally be determined only by city council, upon the recommendation of the planning commission if applicable, and only city council can authorize sales. All sales of property must conform to law.

(e) A request to canvass a particular city-owned property for designation as surplus for disposition purposes initiated by a department director or assistant director shall not be subject to a processing fee.
(Ord. No. 2016-04-07-0240, § 2, 4-7-16)

Sec. 37-13. Reserved.

Sec. 37-14. Granting and releasing easements.

(a) Petitions for granting or releasing easements must be submitted to the director responsible for oversight of the easement. The director may process requests and may establish forms and procedures to carry out this section.

(b) Any agreement under this section may impose limitations on the proposed use to assure city and utility agency rights are not interfered with. Owners of the fee underlying city easements need not apply for rights under this chapter, provided that in no event may an underlying owner's use of the fee impair or interfere with the city's or utility agency's easement rights.

(c) Prior to granting an easement, the director may require petitioner to demonstrate that the city owns the fee of the property for which an easement is being requested and that no inconsistent rights have previously been granted.

(d) The value of the easement to be granted on city-owned property is presumed to equal the fair market value of the fee, determined according to the requirements of this chapter. Nothing in this chapter requires the city to grant an easement, and if a person wants an easement from the city, the city may negotiate for a higher price than the minimum described above. Petitioners must remove all improvements in easements on city-owned property to the satisfaction of the director prior to recordation of the release instrument. Petitions to release an easement on city-owned property need pay only the processing fee.

(e) If requested by the director, petitioner must sign and deliver an agreement setting out the applicable fee and conditions imposed by city departments and utility agencies.

(f) Easements will not be granted when they would be inconsistent with the city's use or planned use for the affected property and may be granted or released, after acceptance, only with city council authorization.
(Ord. No. 2016-04-07-0240, § 2, 4-7-16)

Sec. 37-15. Rights of entry.

(a) A director may, without council action, issue a right-of-entry agreement to a person for city property in order for such person to conduct surveying, measuring, testing, staging, parking, measuring, photographing, inspecting, ESAs 1 and 2, mowing, general cleanup, and similar activities on city property for which their departments are responsible. A right of entry granted under this section must be for a term of six (6) months or less.

(b) A director also may, without council action, enter into right-of-entry agreements permitting the city to conduct surveying, measuring, testing, staging, parking, photographing, inspecting, ESAs 1 and 2, mowing, cleanup, and similar activities on property the city may wish to acquire or on property the city otherwise needs to enter in conducting its affairs. Directors may process requests and may establish forms and procedures to carry out this section. A director may not pay more than eight hundred fifteen

dollars ($815.00) or give more than eight hundred fifteen dollars ($815.00) in value to get a right of entry without specific council approval.

(c) A director may, without council action, enter into agreements with persons and property owners permitting the city to improve drainage characteristics of land within the city's jurisdiction. Such action may include removing vegetation and contouring the surface.

(d) Agreements authorized by this section must be in writing and in form satisfactory to the city attorney.
(Ord. No. 2016-04-07-0240, § 2, 4-7-16)

Sec. 37-16. Capital project acquisition of interests in real estate.

The city manager, or designee, may, with no further authority than this Code section, acquire interests in real estate on behalf of the city in connection with any capital project approved by city council by adoption of an ordinance. Documents pertaining to the acquisition transaction must be in form satisfactory to the city attorney.
(Ord. No. 2016-04-07-0240, § 2, 4-7-16)

Sec. 37-17. Notices of non-acceptance.

(a) This section does not apply to any public right-of-way dedication to the city, whether by plat or separate instrument.

(b) When the director learns of real property interests deeded or conveyed to the city (a) without the city's consent, or (b) which the city has never accepted, the director must canvass city departments and utility agencies to determine whether a use exists for the property.

(c) If a use exists, the director must seek city council authorization for the acceptance of the property.

(d) If a use does not exist the director may, without city council approval, cause a notice of non-acceptance of the real property to be filed in the appropriate county records. Such notice of non-acceptance shall have the effect of rendering such deed or conveyance void and of no effect. Such notices shall have no effect on plats recorded in the real property records of a county, dedications on which may only be removed through the applicable platting process initiated by the property owner.

(e) A director shall not issue a notice of non-acceptance upon request of a person if such issuance would cause property to become non-compliant with any existing local, state or federal statutes.

(f) If a utility agency identifies a use for the property, the agency must assume responsibility for the property and its maintenance as a condition of the city's acceptance.
(Ord. No. 2016-04-07-0240, § 2, 4-7-16)

Sec. 37-18. Lease and license related matters.

(a) The director may process requests and may establish forms and procedures to carry out this section.

(b) Leases and license agreements must be approved by city council, but nothing in this chapter impairs a delegation of authority outside this chapter. Lease amendments, renewals and extensions must be approved by city council unless the approved lease authorizes otherwise per its terms.

(c) If a lease is approved by city council, the lease and all lease-related documents may be signed by:

(1) The director of a department that is a tenant under the lease; or

(2) The director of the department employing the personnel responsible for lease negotiations.

(d) If budgeted funds are available, a department director may, without further council action, enter into leases, licenses, and similar agreements in which city is tenant or licensee for so long as the agreement is for a temporary use not to exceed a week and the temporary use relates to the mission of the director's department. This does not authorize renewals for succeeding weeks or combining serial, one-week uses for the same premises so that city has a term longer than one

week. The agreements for temporary use must be approved as to form by the city attorney's office.
(Ord. No. 2016-04-07-0240, § 2, 4-7-16)

Sec. 37-19. Reserved.

Sec. 37-20. Releases of lien.

(a) A director of a department responsible for putting a lien on private property may, without council action, release the lien if the amount secured by the lien is paid in full. The director may also release a lien on receipt of a compromised amount if the compromise is otherwise authorized directly by council or by delegation of authority.

(b) The director may, without council action, release liens in favor of the city when advised in writing by the city attorney's office that the liens are invalid according to law.
(Ord. No. 2016-04-07-0240, § 2, 4-7-16)

Sec. 37-21. Information technology installations on city-owned property.

(a) *Use of poles in the right-of-way.*

(1) The installation of network nodes, node support poles, and transport facilities in the public right-of-way shall comply with this section, the design manual in Appendix A of this chapter, chapter 29 of the city Code, and V.T.C.A., Local Government Code ch. 284. The director or designee shall establish forms, processes and procedures for carrying out this section.

(2) City grants applicant the right to use city service poles for the purpose of attaching network node equipment based on the inventory of service poles. Access to individual city service poles will be determined on a case-by-case basis pursuant to the provisions of this chapter, the ROW ordinance, and applicable law.

a. The applicant's right to use and occupy the public rights-of-way and attach to city service poles shall not be exclusive as the city reserves the right to grant a similar use of same to itself or any person or entity at any time.

b. Applicant shall not sub-license to any third parties, or place facilities for the benefit of third parties in city right-of-way or on service poles to which applicant is granted access under this chapter and the ROW ordinance.

(3) Public rights-of-way may be used by applicant in accordance with section 4.10 of the Utility Excavation Criteria Manual ("UECM") for the selection of network node sites and installation of network nodes, micro network nodes, and node support poles. The applicant may include new types of network node equipment that may evolve or be adopted using wireless technologies. Applicant shall, at its expense, comply with all applicable present and future federal, state, and local laws, ordinances, rules and regulations (including, but not limited to, laws and ordinances relating to health, safety, radio frequency emissions, and radiation) in connection with the installation, operation, maintenance, and replacement of network nodes, micro network nodes, and node support poles in the public right-of-way.

(4) Network provider that does not provide wireless services and that is not an electric utility but builds or installs on poles, as defined in V.T.C.A., Local Government Code ch. 284, on behalf of a wireless service provider agrees:

a. Each application submitted to the city shall identify each network provider that is a wireless service provider utilizing the pole.

b. If the network node equipment installed by applicant has the radio frequency range to provide service to two (2) or more network providers that are wireless service providers, the applicant shall submit an application for each wireless service

provider being provided network capacity or otherwise provided service from the pole.

c. Applicant shall not sublicense or in any way provide capacity in the right-of-way to other network providers that are not an electric utility but builds or install infrastructure for wireless service providers. Violation of this subsection shall be considered a material breach of the application and city shall have the right to withdrawal of all previous approvals at the pole.

(5) Nothing in this subsection (a) shall be interpreted to authorize the installation of macro wireless towers and related equipment and facilities, nor the installation on poles of wireless equipment and facilities designed for macro wireless towers.

(6) The use of rights-of-way under this chapter does not include a license to install and operate wires and facilities to provide landline broadband backhaul transmission service, whether provided by a third-party provider, applicant, or a corporate affiliate of applicant. Any entity that provides landline broadband backhaul transmission service must have independent legal authorization to use public rights-of-way outside this chapter.

(7) Not later than the 30th day after the date the city receives an application for a permit for a network node or node support pole, or the tenth day after the date the city receives an application for a permit for a transport facility, the city shall determine whether the application is complete and notify the applicant of that determination. If the city determines that the application is not complete, the city shall specifically identify the missing information. Network node and node support pole applications must list the wireline carrier providing transport facilities to the network node or node support pole being installed even if the network provider is exempt from the monthly transport fee set out in V.T.C.A., Local Government Code ch. 284. The director and the right-of-way manager may designate one or more staff personnel to review and approve network node and node support pole applications, and shall have the authority to develop regulations for the efficient process of such applications.

(8) Upon finding that the network node site application is complete, the city shall approve or deny such network node site application not later than the 60th day after the date the municipality receives the complete application, not later than the 150th day after the date the city receives the complete application for any node support pole, and not later than the 21st day after the date the city receives the complete application for a transport facility. Upon obtaining network node, node support pole, or transport facility approval including right-of-way permit, applicant may proceed to install the network node in coordination with any affected city departments. An application shall be deemed approved if the application is not approved or denied on or before the applicable deadline for approval or denial as prescribed in this section.

(9) Network provider shall not be required to submit an application, obtain a permit, or pay an application fee for routine maintenance that does not require excavation or closing of sidewalks or vehicular lanes in a public right-of-way or for replacing or upgrading a network node or pole with a node or pole that is substantially similar in size or smaller and that does not require excavation or closing of sidewalks or vehicular lanes in a public right-of-way. For purposes of this section a network node or pole is considered to be "substantially similar" if the new or upgraded network node, including the antenna or other equipment element, will not be more than ten

(10) percent larger than the existing node, provided that the increase may not result in the node exceeding the size limitations set out in the design manual and V.T.C.A., Local Government Code ch. 284.

(10) The city shall have the authority at any time to order and require applicant to remove and abate any network node, micro network node, or other structure that is in violation of the City Code of Ordinances. In case applicant, after receipt of written notice and thirty (30) days opportunity to cure, fails or refuses to comply, the city shall have the authority to remove the same at the expense of applicant, all without compensation or liability for damages to applicant.

(11) Prior to conducting planned or routine maintenance on traffic signal system poles, the TCI Department shall provide applicant twenty-four (24) hours advance notice of such maintenance activities. In advance of such maintenance activities, network provider shall temporarily cut-off electricity to its network nodes and micro network nodes for the safety of maintenance personnel. In the event of failure of components of the traffic signal system for whatever reason, including damage resulting from vehicular collisions, weather related events, or malicious attacks, city will respond to restore traffic signal operations through the city's Transportation and Infrastructure Management Call Center (TIMCC) operated by the TCI Department. Should the events that result in damage or failure of the traffic light signal system also affect network nodes, applicant shall have the sole responsibility to repair or replace its network nodes and shall coordinate its own emergency efforts with the TIMCC.

(12) Network providers shall maintain emergency contact information current at all times with the director or designee and the ROW manager.

(13) In the event that applicant's network nodes interfere with the city's traffic signal system, public safety radio system, or other city communications infrastructure, applicant will respond to the city's request to address the source of the interference as soon as practicable, but in no event later than twenty-four (24) hours of receiving notice network provider must address the interference or shut down the network node.

a. The applicant shall provide the director or designee an interference remediation report that includes the following items:

1. *Remediation plan.* Devise a remediation plan to stop the event of interference;

2. *Time frame for execution.* Provide the expected time frame for execution of the remediation plan; and

3. *Additional information.* Include any additional information relevant to the execution of the remediation plan.

b. In the event that interference with city facilities cannot be eliminated, applicant shall shut down the network node, including micro network node, and remove or relocate the node that is the source of the interference.

c. Network provider's duty to remove and relocate its network nodes, including micro network nodes, and node support poles at its expense is not contingent on the availability of an alternative location acceptable for relocation.

(14) City, or its designees, shall have the right to audit, examine or inspect, at the city's election and at city's expense, all of the applicant records at any and all applicant's locations relating to network node, micro network node, and node support pole deployments under this chapter and chapter 29 of the City Code. The audit,

examination, or inspection may be performed by city's designee, which may include internal city auditors or outside representatives engaged by city. Applicant agrees to retain the applicant's records for a minimum of four (4) years, following removal of network nodes, micro network nodes, and node support poles, unless there is an ongoing dispute then, such retention period shall extend until final resolution of the dispute beyond the four (4) year retention period.

(15) Applicant's records shall be made available at the city's designated offices within thirty (30) calendar days of the city's request and shall include any and all information, materials, and digital data of every kind and character generated as a result of installing and operating network nodes, micro network nodes, and node support poles in the right-of-way. Examples of applicant's records include but are not limited to copies of inventory of network node and node support pole sites, network node and node support poles site applications, right-of-way permit numbers, CPS Energy Attachment Permits, payment records for annual right-of-way rate and application fees, equipment invoices, subcontractor invoices, engineering documents, vendor contracts, network diagrams, internal network reports, and other documents related to installation of network nodes, micro network nodes, and node support poles in city right-of-way. The applicant bears the cost of producing, but not reproducing any and all requested business records

(16) The indemnification provisions of V.T.C.A., Local Government Code §§ 283.057(a) and (b) shall apply to a network provider accessing the public right-of-way under this chapter and chapter 29 of this Code.

(b) *Fiber optic licenses.*

(1) Petitions to install fiber optic cable, conduit, and related communications facilities on city right-of-way or other city property must be submitted to the director. The director may process requests and may establish forms and procedures to carry out this section. This section does not apply to a certificated telecommunications provider licensed by the Texas Public Utility Commission that is providing local exchange telephone service within the city and does not include public right-of-way that is a drainage easement unless the city also owns the underlying fee interest.

(2) Fiber optic licenses have ten-year terms.

(3) The annual consideration amount for use of public right-of-way for the purpose of installing aerial and/or subterranean fiber optic and related communications facilities is based on the fair market value of the right-of-way used by the petitioner. The licensed area must be as wide as the petitioner will reasonably need to maintain the licensed facilities but not more than twenty (20) feet. Notwithstanding subsection 37-2(i), the director in his discretion may utilize internal staff or engage an independent professional consultant to conduct an appraisal of the right-of-way subject to the license, based on the appraised values of adjoining properties as assessed by the Bexar County Appraisal District. The petitioner will be responsible for paying the right-of-way appraisal separate from the processing fee. The director will determine the fair market value on a per-linear-foot basis of the right-of-way area associated with the petitioner's network footprint. An annual escalation factor of four (4) percent will be applied to the consideration amount for year one in order to derive the consideration amount for years two (2) to ten (10) of the license term. At the discretion of the director, the city may negotiate a discount off the total licensing fee in exchange for in-kind contributions of equivalent value.

(4) The licensing fee will authorize the petitioner to install fiber facilities on city right-of-way, but does not grant authority to use poles or other infrastructure of

the city or utility agencies. The director may require a petitioner to sign and deliver an agreement setting out the applicable license fee and conditions imposed by city departments and utility agencies. When reasonably conducive to the efficient use of the property on which fiber facilities are located, the director may require licensee to relocate the fiber optic facilities, including all related communications facilities, at licensee's expense.

(5) Following termination of the license for any reason, licensee must remove or otherwise dispose of all communications facilities at its own expense within sixty (60) days. Failure to take this action will result in the fiber facilities being considered abandoned and the property of the city.

(c) *Wireless communications towers on city property.*

(1) Petitions for the right to erect a wireless communications tower on city property or collocate antennae facilities on a wireless communications tower must be submitted to the director. The director may process requests and may establish forms and procedures to carry out this section. Wireless communications leases and collocation licenses are for twenty-year terms.

(2) The city may lease space for the erection of wireless communications towers. When erected, wireless communication towers remain personal property and belong to the provider during the existence of the lease. The lease may specify the required height of the wireless communications tower and the required number of antennae array locations. If following termination of a tower lease for any reason, the provider fails to remove the wireless communications tower within sixty (60) days or otherwise dispose of the tower, the tower shall be considered abandoned and shall become the property of the city.

(3) The provider shall reserve space for the installation of one antennae array and related communications facilities on the wireless communications tower for the city's use at no cost to the city for the entire life of the lease. Petitioner's employees and contractors must wear a suitable photo ID badge while on the premises, to be provided by the provider, which includes a nominal one and one-half (1½) inch square personal photo, unique logo and labeling that identifies the provider and the employee or contractor by name and a telephone number where confirmation of employment may be readily confirmed.

(4) Despite the wireless communications tower being the provider's personal property during the term of a lease, the city reserves the right to charge processing fees and the consideration amount to collocators desiring to install antennae facilities on the city tower. If a wireless communications tower was built before adoption of this section, the provider must obtain a tower lease from the city, and any collocator must obtain a collocation license for its antennae facilities.

(5) The petitioner must annually provide the city a list of all wireless communications towers deployed by petitioner on city property, including addresses, location, and GIS coordinates in a form approved by the director.

(6) The city attorney must approve the form of each tower lease and collocation license that does not conform to this section, both of which must be approved by the city council. The director can bind the city to tower leases or collocation licenses without specific city council action, if they conform to this section.

(7) Validation of proper operation. Within forty-five (45) days of commencement of operations, the petitioner shall provide verification by qualified experts that the radio frequency levels comply with FCC regulations.

(8) The annual consideration amount for use of city property for the purpose of installing a wireless communications tower is based on the fair market value of the city property leased by the petitioner, including, but not limited to, uninhabitable enclosed structures, all communications facilities and related city property fenced in and enclosed therein. The director will determine the fair market value on a cubic foot basis (width x length x height) of the city property area associated with the petitioner's lease. The director in his discretion may engage an independent professional consultant to determine the lease rate. An annual escalation factor of four (4) percent will be applied to the consideration amount for year one in order to derive the consideration amount for years two (2) to twenty (20) of the lease term. At the discretion of the director. The city reserves the right to revise its rate structure based on market conditions.

(d) *Communications facilities installed on city property not addressed in subsections (a), (b), and (c).*

(1) Communications facilities installed on city property pursuant to this subsection shall be by agreement negotiated by petitioner and the director.

(2) The annual consideration amount for use of city property is based on the fair market value of the city property used by the petitioner. The agreement may include an annual escalation factor of four (4) percent may be applied to the consideration amount for year one in order to derive the consideration amount for future years covered by the agreement.

(e) *Interference with public safety communications.* Whenever the city has encountered radio frequency interference with its public safety communications equipment, and it believes that such interference has been or is being caused by the wireless communications infrastructure installed by one or more wireless communication providers, the following steps shall be taken:

(1) The city shall provide notification to all wireless communications service providers operating in the city of possible interference with the public safety communications equipment. Upon such notification, the owners shall use their best efforts to cooperate and coordinate with the city and among themselves to investigate and mitigate the interference, if any, utilizing the procedures set forth in the joint wireless industry-public safety "Best Practices Guide," released by the FCC in February 2001, including the "Good Engineering Practices," as may be amended or revised by the FCC from time to time.

(2) If any wireless communications service provider fails to cooperate with the city in complying with the wireless communications service provider's obligations under this section or if the FCC makes a determination of radio frequency interference with the city public safety communications equipment, the wireless communications service provider who fails to cooperate and/or the owner of the wireless communications facilities which caused the interference shall be responsible, upon FCC determination of radio frequency interference, for reimbursing the city for all costs associated with ascertaining and resolving the interference, including but not limited to any engineering studies obtained by the city to determine the source of the interference. For the purposes of this subsection, failure to cooperate shall include failure to initiate any response or action as described in the "Best Practices Guide" within twenty-four (24) hours of the city's notification.

(3) The requirements set out in subsections (1) and (2) of this section (e) also apply to wireless communications infrastructure

installed by network providers, as defined in V.T.C.A., Local Government Code § 284.002.

(Ord. No. 2016-04-07-0240, § 2, 4-7-16; Ord. No. 2017-08-31-0609, § 1, 8-31-17; Ord. No. 2020-04-02-0225, § 1, 4-2-20)

Sec. 37-22. Fee and consideration schedule.

Fees for processing requests are non-refundable. All fees and amounts are due prior to council consideration or final approval by the director as applicable.

The listing of sections is made solely to facilitate cross-referencing within this chapter. If the reference is inaccurate or not comprehensive, it does not affect the validity of the application of the fees and amounts due.

Permit, Document or Action:	*Process Fee:*	*Consideration Amount:*
Communications Facilities - not installed pursuant to 37-21 (b), and (c)	None	By agreement with director; fair market value of area covered
Encroachment Permit - public street, alley or drainage right-of-way *Section 37-3*	$500.00	$500.00
Granting Easement - granting on city property *Section 37-14*	$815.00	Greater of $5,000.00 or fair market value of fee area covered by easement.
Releasing Easement - releasing on city property *Section 37-14*	$815.00	Greater of $5,000.00 or fair market value of fee area covered by easement.
Releasing Easement - releasing on non-city-owned property *Section 37-14*	None	None
Fiber Optic License - use of right-of-way *Section 37-21*	$3,500.00	Fair market value of the total number of square feet of right-of-way x total number of linear feet of right-of-way; paid annually; annual escalation factor of four (4) percent per Section 37-8.

Permit, Document or Action:	*Process Fee:*	*Consideration Amount:*
Joint Use Agreements, Intra-jurisdictional Agreements - granting on city-owned *Section 37-4*	$500.00	Fair market value of area covered
Joint Use Agreements, Intra-jurisdictional Agreements - granting on non-city-owned *Section 37-4*	$500.00	None
Joint Use Agreements, Intra-jurisdictional Agreements - releasing on city-owned *Section 37-4*	$500.00	None
Joint Use Agreements, Intra-jurisdictional Agreements - releasing on non-city-owned *Section 37-4*	$500.00	None
Lease Assignment *Section 37-18*	$1,500.00	None
License Assignment *Section 37-18*	None	None
License - use of city property *Section 37-9*	$815.00	Greater of $8,150.00, or (1) Ten (10) percent a year of the fair market value for surface uses; (2) Seven and one-half (7½) percent a year of the fair market value for air uses; and (3) Five (5) percent a year of the fair market value for sub-surface uses.
Notice of Non-Acceptance *Section 37-17*	None	None

Permit, Document or Action:	*Process Fee:*	*Consideration Amount:*
Notification Letter(s) *Section 37-11*	None	None
Notification Sign(s) - procuring, installing, removing *Section 37-11*	Application specific calculation - Petitioner must pay the cost at least 30 days prior to an item being scheduled for city council consideration	None
Network Node, Node Support Pole, and Transport Facility Fees pursuant to Chapter 284 of the Local Government Code *Section 37-21(a)*	$1,000.00 per new node support pole $500.00 for up to five network nodes in an application; $250.00 per additional network node included in an application	$20.00 per service pole per year $250.00 per network node per year; allows ½ CPI escalation per year after 60-day written notice $28.00 per month for wireline transport facilities, on a per network node basis
Electrical power charge associated with network nodes installed on certain city infrastructure *Section 37—Design Manual Division III, Section c.*		**Tier: Low** **Max wattage/amperage:** 0—480 watts/ 0—4 amps **Annual fee:** $356.00 **Tier: Standard** **Max wattage/amperage:** 481—1,165 watts/ 4.1—10 amps **Annual fee:** $864.00 **Tier: High** **Max wattage/amperage:** above 1,165 watts/ 10+ amps **Annual fee:** $1,778.00
Recording Costs *Section 37-2*	Application specific calculation - Petitioner must pay the cost at least 30 days prior to an item being scheduled for city council consideration	None
Right of Entry - Granted to city *Section 37-15*	None	A director may not pay more than $815.00 or give more than $815.00 in value to get a right of entry without specific council approval.

Permit, Document or Action:	*Process Fee:*	*Consideration Amount:*
Right of Entry - Granted by city *Section 37-15*	Up to $815.00 (cash or equivalent value)	None
Sale of Real Property - conveyance of city property *Section 37-12*	$1,300.00	Per V.T.C.A. Local Government Code or other applicable statute
Street or Alley (closure or restriction) - release of city property *Section 37-11*	$1,300.00	Fair market value of segment to be closed or restricted.
Wireless Communication Tower - use of city property *Section 37-21*	$3,500.00	Fair market value on a cubic feet basis (width x length x height) of leased property; paid annually; annual escalation factor of four (4) percent per subsection 37-21(c).

(Ord. No. 2016-04-07-0240, § 2, 4-7-16; Ord. No. 2017-08-31-0609, § 1, 8-31-17; Ord. No. 2020-04-02-0225, § 1, 4-2-20; Ord. No. 2021-09-16-0682, § 2(Att. E), 9-16-21)

Sec. 37-23. Indemnity of city.

(a) Any permit, license, or agreement accepting rights under this chapter automatically contains the indemnity contained in this section.

(b) These definitions apply to the indemnity provisions of this section:

Indemnified claims mean all loss, cost, liability, or expense, directly or indirectly arising out of acts or omissions of any person other than an indemnitee that give rise to assertions of indemnitee liability under this section, whether or not the person is a party to this agreement. Indemnified claims include attorneys' fees and court costs and include claims arising from property damage and from personal or bodily injury, including death.

Indemnitees mean the City of San Antonio and its elected officials, officers, employees, agents, and other representatives, collectively, against whom an indemnified claim has been asserted.

Indemnitor means petitioner.

(c) Indemnitor must indemnify indemnitees, individually and collectively, from all indemnified claims.

(d) If indemnitor and one or more indemnitees are finally adjudged to be jointly liable for indemnified claim, indemnitor need not further indemnify the so-adjudged indemnitees from liability arising from the indemnitees' adjudicated share of liability. But despite allegations of indemnitee negligence, indemnitor must nevertheless defend all indemnitees until final adjudication. Indemnitor may not recover sums previously spent defending or otherwise indemnifying the indemnitee who has been adjudged to be negligent and must continue to indemnify other indemnitees.

(e) There are no third-party beneficiaries of this indemnity other than the category of people and entities included within the definition of indemnitees.

(f) Indemnitor must promptly advise the city in writing of any indemnified claim and must, at its own cost, investigate and defend the indemni-

fied claim. Whether or not the city is an indemnitee as to a particular indemnified claim, the city may require indemnitor to replace the counsel indemnitor has hired to defend indemnitees. The city may also require indemnitor to hire specific-named counsel for so long as the named counsel's hourly rates do not exceed the usual and customary charges for counsel handling sophisticated and complex litigation in the locale where the suit is pending. No such actions release or impair indemnitor's obligations under this indemnity paragraph, including its obligation to pay for the counsel selected by city. Regardless of who selects the counsel, the counsel's clients are indemnitees, not indemnitor.

(g) In addition to the indemnity required under this section, each indemnitee may, at its own expense, participate in its defense by counsel of its choosing without relieving or impairing indemnitor's obligations under this indemnity paragraph.

(h) Indemnitor may not settle any indemnified claim without the consent of the city, whether or not the city is an indemnitee as to the particular indemnified claim, unless (A) the settlement will be fully funded by indemnitor and (B) the proposed settlement does not contain an admission of liability or wrongdoing by any indemnitee. The city's withholding its consent as allowed in the preceding sentence does not release or impair indemnitor's obligations of this indemnity paragraph. Even if the city is not an indemnitee as to a particular indemnified claim, indemnitor must give city at least twenty (20) days' advance written notice of the details of a proposed settlement before it becomes binding. Any settlement purporting to bind an indemnitee must first be approved by city council.

(i) Nothing in this section waives governmental immunity or other defenses of indemnitees under applicable law.

(j) If, for whatever reason, a court refuses to enforce this indemnity as written, and only in that case, the parties must contribute to any indemnified claim five (5) percent by the indemnitees and ninety-five (95) percent by the indemnitor. Indemnitor need look only to the city for indemnitees' five (5) percent if the city is an indemnified party as to a particular indemnified claim.

(k) This section controls whether or not petitioner's agreement with the city so provides. This section controls even if the agreement provides otherwise, unless an ordinance expressly states that city council intends to override this section as to the particular use by the particular petitioner.

(l) Entities that may not lawfully grant indemnities or may not lawfully be required to do so by the city do not grant the indemnity provided for in this section by accepting rights under this chapter.
(Ord. No. 2009-12-10-1025, § 2, 12-10-09)

Appendix A. Right-of-way network node design manual.

DIVISION I. GENERAL

a. *Applicability.*

The requirements of this design manual ("manual") shall apply to all installations in the right-of-way within the City of San Antonio consisting of equipment associated with network nodes, node support poles, and other poles on which network nodes and associated equipment are installed. The City of San Antonio shall not be responsible to applicants for such installations for the costs of compliance with this manual. The manual, however, is not intended to supersede or conflict with engineering, technical, or operational requirements found in CPS energy's pole attachment license agreements and pole attachment standards.

b. *Sources of authority.*

This manual is adopted pursuant to V.T.C.A., Local Government Code Ch. 284.

c. *Definitions.*

For purposes of this Manual, all terms herein shall be as defined in the City Code of San Antonio, including Chapters 29, 35 and 37, in Texas Local Government Code Chapter 284, or in this Manual.

1. "Antenna" means communications equipment that transmits or receives electromagnetic radio frequency signals used in the provision of wireless services.
2. "COSA" means the City of San Antonio, including all city departments, officers, officials, or employees authorized to act on city's behalf.
3. "CPS" means CPS Energy, the electric and gas municipally owned utility owned by COSA.
4. "Decorative pole" means a streetlight pole specially designed and placed for aesthetic purposes and on which no appurtenances or attachments, other than specially designed informational or directional signage or temporary holiday or special event attachments, have been placed or are permitted to be placed according to nondiscriminatory municipal codes.
5. "Design district" means an area that is zoned, or otherwise designated by municipal code, and for which the city maintains and enforces unique design and aesthetic standards on a uniform and nondiscriminatory basis.
6. "Historic district" means an area that is zoned or otherwise designated as a historic district under municipal, state, or federal law.
7. "HPO" means the City of San Antonio Historic Preservation Officer or their designee.
8. "Municipally owned utility pole" means a utility pole owned or operated by a municipally owned utility, as defined by Section 11.003, Texas Utilities Code, and located in a public right-of-way.
9. "Node support pole" means a pole installed by a network provider for the primary purpose of supporting a network node.
10. "OHP" means the City of San Antonio Office of Historic Preservation.
11. "Permit" means a written authorization for the use of the public right-of-way or collocation on a service pole required from a municipality before a network provider may perform an action or initiate, continue, or complete a project over which the municipality has police power authority.
12. "Pole" means a service pole, municipally owned utility pole, node support pole, or utility pole.
13. "ROW" means public street right-of-way within the jurisdiction of the City of San Antonio.
14. "Service pole" means a pole, other than a municipally owned utility pole, owned or operated by a municipality and located in a public right-of-way, including:
    A. a pole that supports traffic control functions;
    B. a structure for signage;
    C. a pole that supports lighting, other than a decorative pole; and
    D. a pole or similar structure owned or operated by a municipality and supporting only network nodes.
15. "Stealth" or "stealth design" means a method of camouflaging any network node, node support pole, or transport facility, including, but not limited to, supporting electrical or mechanical equipment, which is designed to enhance compatibility with adjacent land uses and be as visually unobtrusive as possible. Stealth design may include a repurposed structure.
16. "TCI" means the City of San Antonio Transportation and Capital Improvements Department.
17. "UDC" means the City of San Antonio Unified Development Code.
18. "UECM" means the Utility Excavation Criteria Manual Fourth Edition, as may be amended by city staff from time to time; available at http://www.sanantonio.gov/TCI/Services/Right-of-Way-and-Permits.

19. "Utility pole" means a pole that provides:

    A. electric distribution with a voltage rating of not more than 34.5 kilovolts; or

    B. services of a telecommunications provider, as defined by Section 51.002, Texas Utilities Code.

20. "Wireless service provider" means a person that provides wireless service to the public.

Unless noted otherwise, where the above definitions conflict with those found in Texas Local Government Code Chapter 284, the latter shall control.

DIVISION II. PROCEDURES

a. All installations of network nodes and related equipment in the City of San Antonio public ROW shall require a permit issued by TCI for the specific equipment and work actually installed and performed. Any said work performed without a permit shall be considered a violation of the San Antonio City Code and all persons or entities committing such violations may be subject to civil and criminal penalties as permitted by law.

b. Where the proposed installation of a network node or related equipment is to be on a Service Pole, applicants shall confirm site eligibility with TCI prior to submitting a permit application. Eligibility determinations shall be based on installation space availability, as well as public safety, technical, and other criteria consistent with applicable law and city policies.

c. To ensure the integrity of the traffic signal system and continued COSA compliance with federal and state laws, and the latest edition of the Texas Manual on Uniform Traffic Control Devices, (available at https://www.txdot.gov/government/enforcement/signage/tmutcd.html), TCI may deny access to Service Poles due to site operational conditions, limited space availability, public safety concerns, future traffic signal system planning, or other operational considerations. Eligibility approval for a particular location shall not be construed as eligibility approval for any other location.

d. Pursuant to Texas Local Government Code Section 284.104, written approval by the Director of TCI shall be required prior to the installation by a network provider of any new node support pole in a public ROW that is in a municipal park or is adjacent to a street or thoroughfare that is not more than fifty (50) feet wide and adjacent to single-family residential lots or other multifamily residences or undeveloped land designated for residential use by zoning or deed restrictions.

e. Pursuant to Texas Local Government Code Section 284.105, written approval by the Director of TCI shall be required prior to the installation by a network provider of any new node support pole in a public ROW that is in a Design District which requires the use of decorative poles, as listed in this Manual. Such approval shall require compliance with all applicable design and aesthetic standards described in this Manual.

f. Where a proposed installation is to be on a property or in a zoning district designated a Design District under this Manual, the applicant shall meet the city department with jurisdiction over the particular district for review of required and proposed installation aesthetics prior to submitting application materials for completeness review. Where a proposed installation is in more than one Design District, the applicant shall meet with OHP.

g. Where a proposed installation is to be on a property that is designated as a Historic Landmark, or is within a Historic, River Improvement Overlay, Viewshed Protection, or Mission Protection Overlay District, such installation shall be subject to review by OHP for compliance with this Manual, the Historic Design Guidelines and/or applicable Overlay District Guidelines, and the UDC, and the following additional procedures shall apply:

1. Prior to submitting a permit application, applicants shall meet with OHP to discuss potential equipment design modifications necessary to achieve compliance.
2. Applicants shall furnish OHP with accurate scaled drawings of all proposed new equipment, showing location relative to existing equipment, existing poles,

and adjacent structures within five hundred (500) feet. Additional submittal materials for OHP review shall be per the instructions of the COSA Historic Preservation Officer.

h. Subject to director approval, applicants proposing service pole re-enforcement or replacement shall provide engineering design drawings and specifications demonstrating the proposed alteration to the pole.

i. The Chief Technology Officer, Right-of-Way Manager, HPO, or their designees may, at their discretion, require applicants make design modifications pursuant to Chapter 284, this or other COSA design manuals, and applicable regulatory or legal requirements. Such requested design modifications shall be a prerequisite to a determination that a permit application is complete.

j. No application review, or application review timeline under Texas Local Government Code Chapter 284, shall commence until an application is deemed complete by the Directors of TCI, ITSD, OHP or their designees.

k. ROW permit applicants shall submit complete structural calculations and drawings to TCI, sealed by a professional engineer licensed in the State of Texas, detailing anchorage, attachment, and support, including an industry standard pole load analysis certifying that the pole will safely support all applicable loads of all the existing and proposed equipment, facilities, and appurtenances.

l. Permit applications shall identify which Design Districts as defined in this Manual, if any, the proposed installation is within.

m. Permit applications shall clearly demonstrate compliance with the following, as applicable:

1. One (1) hour shutoff notice obligation;
2. Non-interference obligation;
3. Quick disconnect at node location;
4. Own power source, conduit, meter, and shutoff accessible by TCI; and,
5. Any applicable backhaul rights/rules.

n. Applications shall be evaluated on a case-by-case basis to ensure consideration of specific structural conditions, load capacities, visual and signal interference, aesthetics, and reservation of space for future COSA infrastructure.

o. Upon completion of installation work, applicants shall:

1. Provide the right-of-way manager with an affidavit of compliance, sealed by a professional engineer licensed in the State of Texas, certifying all work was carried out consistent with the previously submitted and approved calculations and drawings.
2. Upon completion of the installation, including a micro network node installation, applicant shall notify the director or designee, in writing and provide a picture of said installation, city right-of-way permit number if applicable, the GIS coordinates, date of installation, company site ID#, type of pole used for installation, pole owner, and description/type of installation, which will be included in the network node or node support pole site application records. The city will also require the applicant to label the installation with the city right-of-way permit number for easy reference and verification by city personnel.
    A. Network provider shall maintain a current inventory of network node, including micro network node, and node support pole sites. Network provider shall provide to city a copy of the inventory of network node sites on an annual basis. The inventory of network node sites shall include city right-of-way permit number, GIS coordinates, date of installation, company site ID#, type of pole used for installation, pole owner, and description/type of installation for each network node installation. Concerning network node, micro network node, and node support pole sites that become inactive or never activated, the inventory of

sites shall include the same information as active installations in addition to the date the site was deactivated and the date the node or node support pole was removed from the public right-of-way. City shall compare the inventory of sites to its records to identify any discrepancies. The inventory shall include network nodes installed on service poles, municipally owned utility poles and third-party proprietary poles. The annual inventory shall be due not later than September 30 of each year.

B. Any unauthorized network node, including micro network node, or node support pole sites that are identified by the city as a result of comparing the inventory of network node sites to internal records or through any other means may be subject to immediate removal. City shall provide written notice to network provider of any unauthorized site identified by city staff and applicant shall have thirty (30) days thereafter in which to submit a preexisting city right-of-way permit for said site. Failure to produce a city right-of-way permit or notification of installation corresponding with the unauthorized site will result in the imposition of an unauthorized installation charge, which shall be calculated by applying the SB1004 fee formula to the period spanning from the original date of installation of the unauthorized site to the date of the written notice sent by city. The total amount resulting from this calculation shall be assessed an interest rate of twelve (12) percent to constitute the applicable unauthorized installation charge. Thereafter, applicant shall submit a network node site application and applicable annual right-of-way rate for the unauthorized network node site.

DIVISION III. TECHNICAL REQUIREMENTS

a. *General requirements.*

1. In accordance with Texas Local Government Code Section 284.102, a network provider shall construct and maintain network nodes and node support poles described by Texas Local Government Code Section 284.101 in a manner that does not:

   A. obstruct, impede, or hinder the usual travel or public safety on a public right-of-way;

   B. obstruct the legal use of a public right-of-way by other utility providers;

   C. violate nondiscriminatory applicable codes;

   D. violate or conflict with the municipality's publicly disclosed public right-of-way design specifications; or

   E. violate the federal Americans with Disabilities Act of 1990 (42 U.S.C. Section 12101 et seq.).

2. In addition to the foregoing, and in accordance with Texas Local Government Code Section 284.304, network nodes and node support poles described by Texas Local Government Code Section 284.101 shall be constructed and maintained in a manner that does not obstruct, interfere, or conflict with any public safety communication or traffic safety signal frequency.

3. In accordance with Texas Local Government Code Section 284.107, network providers shall comply with the City's nondiscriminatory undergrounding requirements in relation to an installation for which the City has approved a permit application, including municipal ordinances, zoning regulations, state law, private deed restrictions, and other public or private restrictions, that prohibit installing aboveground structures in a public right-of-way without first obtain-

ing zoning or land use approval. This provision may not be interpreted to prohibit a network provider from replacing an existing structure.

b. *Specific requirements.*

In accordance with Texas Local Government Code Section 284.108, the following shall apply to all network node installations in the right of way ('ROW'):

1. All network nodes and related equipment shall be installed in accordance with chapter 29, article IV (COSA Right-of-Way Management Ordinance), and the UECM as applicable.

2. Network providers shall be responsible for ensuring compliance with all applicable federal, state, and other local installation and construction standards and industry best practices, as well as the Americans with Disabilities Act.

3. New node support poles shall be located at least two hundred and fifty (250) feet from any existing pole of any type, unless the director of TCI determines in his sole discretion that the network provider has shown good cause for granting an exception to the distance requirement. Good cause is determined in the director's sole discretion and, in any event must be based on the unavailability or unsuitability of all other feasible locations. Wireless antennas shall maintain a minimum ten (10) foot vertical and horizontal clearance from any electrical conductors including neutral conductors. Additional clearances may be required to ensure that field personnel are not exposed to unsafe radiation levels. Applicants are responsible for confirming applicable clearance requirements with CPS and COSA.

4. Electrical power to network nodes and related equipment shall be wholly separate from electrical power serving COSA equipment including traffic signal devices, street lighting, etc., unless otherwise authorized by the director or designee. In addition, applicants shall be responsible for compliance with applicable CPS meter requirements.

5. All electrical and communication cabling to network nodes and related equipment shall be run in its own conduit path outside of the conduit path used by COSA infrastructure, unless otherwise authorized by the director or designee.

6. In order to permit emergency power shutdowns, an electrical cutoff, accessible by TCI personnel, shall be provided at each network node or related equipment installation.

7. Installation of network nodes and related equipment shall not hinder the intended operation and visibility of all traffic control devices, including, but not limited to, signal faces, signals, detectors, push buttons, etc.

8. The following locations are reserved for COSA infrastructure, and no network nodes or related equipment shall be installed therein, unless otherwise authorized by the director or designee:
   A. any location not on a vertical support pole (i.e., steel mast arm mounted over the roadway, span wire cable between poles, down guy cable systems, etc.)
   B. within ten (10) ft. from the base of the pole (any type of traffic signal pole)
   C. within three (3) ft. below the mast arm on the pole
   D. within five (5) ft. above the mast arm on the pole
   E. within five (5) ft. from the top of the pole

9. When approved pursuant to applicable procedures and reviews, including load analysis, extensions may be mounted to poles to permit installation of a network node or related equipment.

10. Applicants shall be responsible for ensuring that installation of equipment and

approved extensions shall not encroach into areas restricted by CPS surrounding primary, secondary, and neutral wires.

11. All pole excavations, construction activities, and aerial installations on poles in the ROW shall be carried on as to minimize interference with the use of city's public ROWs and with the use of private property, in accordance with all regulations of the City necessary to provide for public health, safety and convenience.
12. Network providers shall not install overhead lines connecting to a network node collocated on a service pole or a node support pole, unless approved by the director for temporary maintenance or repair not to exceed ten (10) days. All lines, including power and transport facilities, connecting to a pole mounted network node, shall be placed in duct or conduit that is buried below ground, provided that a network node attached to a utility pole, a municipally owned utility pole, or a pole not subject to Chapter 284 requirements may connect to aerial transport facilities for which an attachment right has been granted by the utility pole owner.
13. All construction in the ROW shall conform to the latest version of the "City of San Antonio Standard Specifications for Construction" document and associated special provisions, available at on the City of San Antonio's website at http://www.sanantonio.gov/TCI/Current-Vendor-Resources/Standard-Specifications-and-Details, as well as the UECM.
14. Installations with no equipment located on the ground are strongly encouraged. Where ground-mounted equipment is approved as part of a permitted installation, it shall comply with the requirements of this manual.

c. *Electrical power charge associated with network nodes installed on certain city infrastructure.*

1. The city may allow network providers that locate network node equipment on any traffic signal pole to utilize the city's meter and/or electric service account associated with the host traffic signal pole. Network providers shall pay to the city an annual power fee designed to recover the cost of the additional electric energy used by the network node equipment and related infrastructure installed by the provider on any city traffic signal pole. The initial annual power fee shall be paid on the date a network node application is approved by the city and invoiced annually, on October 1 of each year thereafter. The annual power fee shall be adjusted as necessary to ensure the city receives full cost recovery for network node installations on city traffic signal poles. Similarly, the annual power fee may be adjusted prospectively as necessary to reflect any increase in CPS energy rates. The annual power fee shall be based on the projected kilo-watt-hour consumption, as determined by the maximum wattage/amperage capacity of the installed network node equipment as stated on the right-of-way network node permit application, which is subject to verification by CPS energy.

2. Via the annual power fee specified in subsection c.1., above, a network provider shall reimburse the city for its proportionate share of cost for electricity use, based on wattage/amperage tiers as illustrated in section c.3. below. The city retains the right, at any time, to amend the wattage/amperage range for any tier and related annual power fee, including the creation of additional tiers. For any network node location, if the city determines that the network node equipment is using more kilo-watt-hours than the initial tier designation, the city shall designate an alternative tier to the network node as appropriate. The city retains the right to disconnect power to any network node if the annual power fee is not paid. The city retains the right to require a dedicated meter, at the network provider's expense, for any network node installation at any

time if the provider fails to timely pay or repeatedly and significantly underestimates usage.

3. The annual power fee applicable to network node equipment installed on any city traffic signal pole is set out in section 37-22 of the city's municipal Code.

DIVISION IV. GENERAL AESTHETIC REQUIREMENTS

a. *Height limits.*

1. *Maximum pole height.*

In accordance with Texas Local Government Code Section 284.103, no new, modified, or replacement utility pole or node support pole installed in a public right-of-way shall exceed the lesser of:

A. Ten (10) feet in height above the tallest existing utility pole located within 500 linear feet of the new pole in the same public right-of-way; or

B. Fifty-five (55) feet above ground level.

2. *Supplemental height regulations.*

Notwithstanding the height limits in subsection (a), above, all poles and associated equipment shall comply with the height restrictions of the Airport Hazard Overlay District, as found in Section 35-331, Military Airport Overlay Zones, as found in Section 35-344, and Viewshed Protection and Mission Protection Overlay Districts, as found in Sections 35-337 and 35-339.06, of the City Code.

3. *Other height regulations.*

Network providers shall be responsible for complying with all applicable federal regulations, including applicable Federal Aviation Regulations (FAR) such as those codified at 14 CFR, part 77.

b. *Other dimensional limits.*

1. Per Texas Local Government Code Section 284.003, except as provided by Section 284.109 of that Code, a network node to which this chapter applies must conform to the following conditions:

A. each antenna that does not have exposed elements and is attached to an existing structure or pole:

i. must be located inside an enclosure of not more than six cubic feet in volume;

ii. may not exceed a height of three feet above the existing structure or pole; and

iii. may not protrude from the outer circumference of the existing structure or pole by more than two feet;

B. if an antenna has exposed elements and is attached to an existing structure or pole, the antenna and all of the antenna 's exposed elements:

i. must fit within an imaginary enclosure of not more than six cubic feet;

ii. may not exceed a height of three feet above the existing structure or pole; and

iii. may not protrude from the outer circumference of the existing structure or pole by more than two feet;

C. the cumulative size of other wireless equipment associated with the network node attached to an existing structure or pole may not:

i. be more than 28 cubic feet in volume; or

ii. protrude from the outer circumference of the existing structure or pole by more than two feet;

D. ground-based enclosures, separate from the pole, may not be higher than three feet six inches from grade, wider than three feet six inches, or deeper than three feet six inches; and

E. pole-mounted enclosures may not be taller than five feet.

2. The following types of associated ancillary equipment are not included in the calculation of equipment volume under Subsection (A):

A. electric meters;

B. concealment elements;

C. telecommunications demarcation boxes;

D. grounding equipment;

E. power transfer switches;

F. cut-off switches; and

G. vertical cable runs for the connection of power and other services.

3. Equipment attached to node support poles may not protrude from the outer edge of the node support pole by more than two feet.

4. All network node equipment placed on new and existing poles shall be located not less than eight feet above ground level.

5. Equipment attached to a utility pole must be installed in accordance with the National Electric Safety Code and the utility pole owner's construction standards, subject to all other applicable codes, regulations, or laws.

c. *Lighting.*

Network nodes and node support poles shall not be artificially lighted unless required by the FAA, FCC, or other applicable regulatory authority. If required, lighting shall be designed to cause the least disturbance feasible to the surrounding property owners.

d. *Advertising.*

No sign of any type shall be allowed on a network node, node support pole, or any other component of a wireless antenna installation, transport facility, or any associated equipment, other than notices required by law.

e. *Prohibited power sources.*

Solar panels and generators are prohibited as part of any network node, node support pole, or any other component of a network node installation, transport facility, or any associated equipment, in the ROW.

f. *Visual appearance of equipment.*

The installation of all network nodes, node support poles, or other components of a wireless antenna installation, transport facility, or any associated equipment, whether pole-mounted or ground-mounted, shall be of the least visually intrusive type feasible to meet the design performance goals. This shall be achieved by utilization of the dimensionally smallest equipment and equipment enclosures meeting the design specifications for the particular location and function. Additionally, all equipment, conduit, attachment hardware, and other elements installed or modified by a network provider shall be the same color as the pole to which they are attached, or the background against which they are viewed from the ground. Network providers shall minimize the visual obtrusiveness of installations to the greatest extent possible using methods including, but not limited to, integrating the installation with the existing infrastructure components to which they are attached, or utilization of coverings or concealment devices of similar material, color and texture—or the appearance thereof—as the surface against which the installation will be seen or on which it will be installed. Placing conduit and associated wiring inside new network node steel support poles, or of similar material and design support poles, are encouraged and preferred.

g. *New or replacement pole aesthetic requirements.*

1. Unless noted otherwise, all poles shall be of a size, type, and finish per TCI and subject to section 29-139 of the city Code and applicable federal or state standards.

2. In no event shall new node support poles be placed in front of the front façade of primary structures on any single-family residential lot.

3. For purposes of this manual, structures fronting more than one street shall be considered to have a front façade fronting on each such street.

DIVISION V. ADDITIONAL AESTHETIC REQUIREMENTS IN DESIGN DISTRICTS

a. *Applicability.*

1. The requirements of Division IV of this Manual shall apply to network node installations in the ROW within all city parks, as well as in the ROW within, or directly abutting property within, Design Districts as defined herein.

2. For purposes of Texas Local Government Code Chapter 284 and this manual, the following types of districts shall be considered Design Districts with Decorative Poles:

   A. Downtown 'D'

   B. Historic 'H', 'HS', 'HE' or 'HL', including properties within historic districts and individual properties designated as Historic Landmarks

   C. River Improvement Overlay 'RIO'

   D. Neighborhood Conservation 'NCD'

   E. Corridor Improvement Overlay

   F. Viewshed Protection 'VP' and Mission Protection 'MPOD'

   G. Airport/Military Airport Overlay 'AHOD/MAHOD'

   H. Form-Based Zoning District 'FBZD'

   The above list is intended for information purposes only, is not intended to be exhaustive, and is subject to amendment.

3. The Design Districts listed above may be further subdivided by neighborhood, area, or other division. Where specific requirements apply within sub-districts, such requirements may be elaborated in this Manual.

4. Where conflicts exist between this Manual and other district-specific or sub-district-specific Design Manuals, the more stringent requirements shall control.

b. *Design district aesthetic requirements.*

In addition to the design requirements in Division III of this Manual, the following aesthetic requirements shall apply in Design Districts:

1. The installation of new poles is discouraged in Historic Districts, Downtown "D," River Improvement Overlay Districts, Viewshed Protection and Mission Protection Overlay Districts. No new poles are to be reviewed or approved prior to the submission of a documented effort to install network node equipment onto existing poles within the immediate block or a two hundred fifty-foot radius. If installation is found to be infeasible or unproductive to the area's telecommunication network needs, only then may a new pole installation be considered. The historic preservation officer determines if the network provider has shown good cause for granting an exception to the distance requirement. Good cause is determined in the historic preservation officer's sole discretion and, in any event must be based on the unavailability or unsuitability of all other feasible locations.

2. New pole locations should follow the placement pattern of existing pole structures of the immediate block or within a two hundred fifty-foot radius, regarding both the distance between existing poles and the relationship between poles and abutting structures. Typically, appropriate new pole locations include commercial corners or intersections and the corners between properties.

   A. New poles in districts designated as design districts in this manual shall be placed within ten (10) feet of interior lot lines.

   B. In no event shall new node support poles be placed in front of the front façade of primary structures on any

property designated as historic or within one thousand five hundred (1,500) feet of the brass monument viewshed marker in front of a structure designated by the United Nations as a UNESCO World Heritage site.

3. Network nodes, node support poles, and related equipment shall require camouflage or concealment measures to mitigate the impact or improve the aesthetics of the installation, as determined by the historic preservation officer based on the unique circumstances of the design district or impacted property.

   A. New network node poles should match the material, color, and general form of existing poles within the immediate block or two hundred fifty-foot radius. Typically appropriate poles to mimic include wood utility poles, metal streetlight poles, and metal traffic poles. The historic preservation officer maintains the discretion to stipulate a higher quality and more appropriate pole material and design when matching the existing poles is counterproductive to the design district. Public art poles or specially designed poles may also be considered in unique circumstances such as an arts and culture district or corridor.

   B. New node support poles should blend into the streetscape by using existing familiar forms and functions, rather than calling attention with a new distinct design exclusive to network nodes. For instance, a new node support pole may require the installation of a light arm to prevent the installation of a single-use pole, used solely for mounting network node equipment.

   C. Each new, modified, or replacement utility pole or node support pole shall not exceed the lesser of: a) ten (10) feet in height above the tallest existing utility pole located within five hundred (500) linear feet of the new pole in the same public right-of-way; or b) fifty-five (55) feet above ground level. The dimensions of a new pole should be minimized to the greatest extent feasible, while meeting the minimal requirements for concealing equipment inside the pole or withstanding wind or other structural loads by Code.

4. Pole-mounted network node equipment (including, but not limited to, radios, antennas, meters, shrouds, cabinets, and conduit) shall require camouflage or concealment measures, feature a low profile, and be flush mounted to the greatest extent feasible to mitigate the impact or improve the aesthetics of the installation. Typically, appropriate equipment feature simple geometries and concealed conduit, manufactured or painted to match the pole color, and will not feature any branding, messaging, or outstanding utilitarian details.

5. Ground-based enclosures adjacent to a pole, often used for housing meter and disconnect equipment, are strongly discouraged. When concealing within the base of a pole or underground is infeasible, ground-mounted equipment must be integrated into the overall design of an installation, camouflaged or concealed based on site specific conditions, and positioned to mitigate visual or physical obstructions to nearby historic and design features as recommended by the historic preservation officer. In some site specific conditions, ground equipment may be concealed by the use of existing or new streetscape elements, such as recycling bins, park and bus stop benches, bike racks, or planters.

c. *Decorative poles.*

In accordance with Chapter 284, installation or attachment of wireless communications equipment, including antennas, network nodes,

transport facilities, and related equipment is prohibited on all decorative streetlight poles in Design Districts.

(Ord. No. 2017-08-31-0609, § 1, 8-31-17; Ord. No. 2020-04-02-0225, § 1, 4-2-20)

CODE COMPARATIVE TABLE

ORDINANCES

This table gives the location within this Code of those ordinances adopted since the 1959 Code, as supplemented through December 1, 1983, which are included herein. This table contains some ordinances which precede December 1, 1959, but which were never included in the 1959 Code, as supplemented.
