INDIRECT DISCHARGE OR DISCHARGE: The introduction of pollutants into the POTW from any nondomestic source.

INDUSTRIAL: Means of or pertaining to industry, manufacturing, commerce, trade, or business, as distinguished from domestic or residential.

INDUSTRIAL DISCHARGE: Any introduction into the POTW of wastewater other than domestic wastewater which either:

(A) Is produced by a source which would be subject to any categorical standards or pretreatment requirements if such source were to be discharged to the POTW, or

(B) Contains any substance or pollutant for which a discharge limitation or prohibition has been established by any categorical standard or pretreatment requirements.

INDUSTRIAL USER: Any one (1) or more of the following:

(A) A source of indirect discharge of pollutants into a POTW from a person other than a POTW user who discharges only domestic wastewater regulated under CWA § 307(b), (c), and (d);

(B) Any nonresidential POTW user of the sewer system which discharges more than the equivalent strength of twenty-five thousand (25,000) gallons per day of domestic wastewater;

(C) Has control over the disposal of a waste as described in subsections (A) and (B) above; or

(D) Has the right of possession and control over any property which produces wastewater as described in subsections (A), (B), or (C) above.

INDUSTRIAL WASTE: The liquid waste from an industrial manufacturing process, trade, or business as distinguished from domestic wastewater.

INDUSTRIAL WASTEWATER DISCHARGE PERMIT: A written authorization issued by the City Manager or Water Resources Department categorized as either Class I or Class II allowing a Class I or Class II industrial user to discharge wastewater into a sanitary sewer owned or operated by the City.

INFLOW: Water other than sewage that enters the POTW (including sewer service connections) from sources such as roof leaders, cellar drains, foundation drains, swimming pools, drains from springs and swampy areas, manhole covers, cross-connections between storm sewers and sanitary sewers, catch basins, cooling towers, stormwaters, surface runoff, street wash waters, or drainage.

INSTANTANEOUS LIMIT: The maximum concentration of a pollutant allowed to be discharged at any time and determined from the analysis of any discrete or composited sample collected, independent of the industrial flow rate and the duration of the sampling event.

INTERFERENCE: A discharge which, alone or in conjunction with a discharge from other sources, both:

(A) Inhibits or disrupts the POTW, its treatment processes or operations, or its sludge processes, use, or disposal; and

(B) Violates any requirement of any environmentally related permit issued by a governmental entity (including an increase in the magnitude or duration of a violation) or prevents sludge use or disposal in compliance with the following statutory provisions and regulations or permits issued thereunder (or more stringent state or local regulations): CWA § 405, the Solid Waste Disposal Act (SWDA) (Including Title II, more commonly referred to as the Resource Conservation and Recovery Act; and including state regulations contained in any state sludge management plan prepared pursuant to Subtitle D of the SWDA), the Clean Air Act, the Toxic Substances Control Act, and the Marine Protection, Research, and Sanctuaries Act.

LATERAL SEWER: A sewer which discharges into a branch or other sewer and has no common sewer tributary to it.

LOCAL LIMIT: A specific discharge limitation developed and enforced by the city upon users to implement the general and specific discharge prohibitions listed in 40 CFR § 403.5(a)(1) and (b). Local limits are pretreatment standards.

MAIN SEWER: A sewer which receives wastewater from one (1) or more branch sewers as tributaries.

MAINTENANCE: Keeping the POTW in a state of repair, including expenditures necessary to maintain the capacity for which such works were designed and constructed.

MEDICAL WASTE: Any solid waste as defined in A.R.S. § 49-701, including isolation wastes, infectious agents, human blood and blood products, pathological wastes, sharps, body parts, contaminated bedding, surgical wastes, potentially contaminated laboratory wastes, and dialysis wastes.

MONTHLY AVERAGE: The sum of all daily discharges measured during a calendar month divided by the number of daily discharges measured during that month.

MULTI-FAMILY RESIDENTIAL: More than one (1) dwelling unit is serviced by a single sewer tap and is connected to the sewer system.

NATURAL OUTLET: Any outlet into a watercourse, ditch, or other body of surface or ground water.

NEW SOURCE: Any building, structure, facility, or installation from which there is or may be a discharge of pollutants, the construction of which commenced after the publication of proposed pretreatment standards under CWA § 307(c), which will be applicable to such source if such standards are thereafter promulgated in accordance with that section, and as further set forth in 40 CFR § 403.3(m).

NON-COMPLIANT: Failing to satisfy the requirements of this chapter.

NONHAZARDOUS LIQUID WASTE (NHLW): Waste hauled from residential septic systems, restaurant grease traps/interceptor or chemical toilets.

NON-SIGNIFICANT INDUSTRIAL USER: Any person or entity which does not meet the definition of a significant industrial user, but is otherwise required by the City through permit, order, or notice to comply with specific provisions of this Code.

NPDES PERMIT: A National Pollutant Discharge Elimination System (NPDES) Permit issued to the City by the EPA or an Arizona Pollutant Discharge Elimination System Permit (AZPDES), issued to the City by the State of Arizona, which imposes standards governing the quality of the treated effluent discharged from the POTW into a navigable water of the United States.

OIL AND GREASE: A measure of the total oil and grease content of a sample as determined by approved EPA methods or any other equivalent method as approved by the Water Resources Director or designee.

OIL AND GREASE (TPH): A measure of the petroleum and mineral oil in total petroleum hydrocarbons of a sample as determined by approved EPA methods or other equivalent test method as approved by the Water Resources Director or designee.

PARAMETER: A fundamental characteristic of wastewater around which treatment is designed, such as flow, BOD, SS, and phosphorus.

PASS-THROUGH: A discharge which exits the POTW into waters of the United States in quantities or concentrations which, alone or in conjunction with a discharge from other sources, is a cause of a violation of any requirement of the POTW's NPDES Permit (including an increase in the magnitude or duration of a violation) or which causes or contributes to a violation of an applicable numeric or narrative water quality standard.

PENALTY POLICY: The policy established by the Water Resources Department to determine and calculate penalties for violations of the pretreatment requirements established in this Code and the Enforcement Response Plan.

PERMITTEE: Any person who owns, operates, processes, or controls an establishment or plant being operated under a valid Industrial Wastewater Discharge Permit to discharge wastewater into the POTW.

PERSON: Any individual, partnership, co-partnership, firm, company, corporation, association, joint stock company, trust, state, municipality, Indian tribe, political subdivision of the state, federal governmental agency, or any other legal entity, including their legal representatives, agents, or assigns.

PH: A measure of the acidity or alkalinity of a solution expressed in standard units.

POLLUTANT: Any dredged spoil, solid waste, incinerator residue, backwash, garbage, explosives, toxic substance, wastewater sludge, munitions, chemical wastes, biological materials, radioactive materials, heat, wrecked or discharged equipment, rock, sand, cellar dirt, untreatable waste and industrial, municipal, and agricultural wastes. This includes any substance for which an effluent limitation is identified in this Code.

POTW USER: Any person, lot, parcel of land, building, or premises that discharges or causes or permits the discharge of wastewater into the POTW.

PRETREATMENT: The reduction of the amount of pollutants, the elimination of pollutants, or the alteration of the nature of pollutant properties in wastewater prior to or in lieu of discharging or otherwise introducing such pollutants into a POTW. The reduction or alteration may be obtained by physical, chemical, or biological processes, process changes, or other means, except that dilution shall not constitute treatment or pretreatment unless allowed by an applicable pretreatment standard.

PRETREATMENT REQUIREMENT: Any substantive or procedural requirement related to pretreatment, other than a pretreatment standard imposed on an industrial user and shall include BMPs related to pretreatment imposed on a user as may have been established pursuant to the laws or regulations of the United States, the State of Arizona, or the City, and conditions of a wastewater discharge permit.

PRETREATMENT STANDARD: The prohibited discharge standards, categorical pretreatment standards, and local limits established pursuant to the laws or regulations of the United States, the State of Arizona, or the City.

PRIVATE SEPTIC TANK SYSTEM: A septic tank or other system that is maintained by the property owner.

PRIVATE SEWER: Any wastewater collection system other than a POTW.

PROCESS WASTEWATER: Any water which, during manufacturing or processing, comes into direct contact with or results from the production or use of any raw material, intermediate product, finished product, by-product, or waste product.

PROHIBITED DISCHARGE STANDARDS: Absolute prohibitions against the discharge of certain substances as set forth in section 8-4-15.

PUBLIC SEWER: A lateral, branch, main, or trunk sewer controlled and maintained by the City.

PUBLICLY OWNED TREATMENT WORKS (POTW): A treatment works as defined by Section 212 of the Act which is owned by the City or another municipality and includes any devices or systems used in the collection, storage, treatment, recycling, and reclamation of sewage or industrial wastes of a liquid nature and any conveyances which convey wastewater to a treatment plant.

REPLACEMENT: Those expenditures made for obtaining and installing equipment, accessories, and/or appurtenances during the useful life of the POTW which are necessary to maintain the capacity and performance of the POTW for which they were designed and constructed.

REPRESENTATIVE SAMPLE: A composite sample obtained by flow proportional sampling techniques. If the Water Resources Department determines that flow proportional sampling is not feasible, the sampling by time proportional composite or composites of grab samples will be allowed according to EPA requirements.

REVENUE: In general, additions to cash or other current assets that do not increase any liability of reserve, nor represent the recovery of an expenditure.

RIGHT-OF-WAY: Land which by deed, conveyance, agreement, easement, dedication, usage or process of law is reserved for or dedicated to the general public for street, highway, alley, public utility, or pedestrian walkway purposes.

SANITARY SEWER: A sewer which carries wastewater and to which storm water, surface water, and groundwater are not intentionally admitted.

SEWER: A pipe or conduit for carrying wastewater.

SIGNIFICANT INDUSTRIAL USER (SIU):

(A) All users subject to categorical pretreatment standards.

(B) All users that:

1. Discharge an average of twenty-five thousand (25,000) gallons per day or more of process wastewater to the POTW (excluding sanitary, noncontact cooling, and boiler blowdown wastewater); or

2. Contribute a process wastestream which makes up five (5) percent or more of the average dry weather hydraulic or organic capacity of the POTW; or

3. Are designated as such by the department on the basis that they have a reasonable potential for adversely affecting the POTW's operation or for violating any pretreatment standard or requirement.

(C) The City may determine that an industrial user subject to categorical pretreatment standards is a nonsignificant industrial user rather than a significant industrial user on a finding that the industrial user never discharges more than one hundred (100) gallons per day (gpd) of total categorical wastewater (excluding sanitary, non-contact cooling and boiler blowdown wastewater, unless specifically included in the pretreatment standard) and the following conditions are met:

1. The industrial user, prior to the city's finding, has consistently complied with all applicable categorical pretreatment standards and requirements;

2. The industrial user annually submits the certification requirement required in 40 CFR § 403.12(q), together with any additional information necessary to support the certification statement; and

3. The industrial user never discharges any untreated concentrated wastewater.

(D) Upon a finding that a user meeting the criteria in subsection (B) of this section has no reasonable potential for adversely affecting the POTW's operation or for violating any pretreatment standard or requirement, the city may at any time, on its own initiative or in response to a petition received from an industrial user, and in accordance with procedures in 40 CFR § 403.8(f)(6), determine that such user should not be considered a significant industrial user.

SIGNIFICANT NON-COMPLIANCE (SNC): A significant industrial user in violation of one or more of the following criteria or any other industrial user in violation of subparagraphs (C), (D), or (H):

(A) Chronic violations of wastewater discharge limits, defined here as those in which sixty-six percent or more of all of the measurements taken for the same pollutant parameter during a six-month period exceed (by any magnitude) a numeric pretreatment standard or requirement, including instantaneous limits, as defined by 40 CFR § 403.3(l);

(B) Technical Review Criteria (TRC) violations, defined here as those in which thirty-three percent or more of all of the measurements taken for the same pollutant parameter during a six-month period equal or exceed the product of the numeric pretreatment standard or requirement including instantaneous limits, as defined by 40 CFR § 403.3(l) multiplied by the applicable TRC (TRC = 1.4 for BOD, TSS, fats, oil, and grease, and 1.2 for all other pollutants except pH);

(C) Any other violation of a pretreatment standard or requirement as defined by 40 CFR § 403.3(l) (daily maximum, long-term average, instantaneous limit, or narrative standard) that the POTW determines has caused, alone or in combination with other discharges, interference or pass through (including endangering the health of POTW personnel or the general public);

(D) Any discharge of a pollutant that has caused imminent endangerment to human health, welfare, or the environment or has resulted in the POTW's exercise of its emergency authority to halt or prevent such a discharge;

(E) Failure to meet, within ninety (90) days after the schedule date, a compliance schedule milestone contained in a permit, local control mechanism, or enforcement order for starting construction, completing construction, or attaining final compliance;

(F) Failure to provide, within forty-five (45) days after the due date, required reports such as baseline monitoring reports, ninety-day compliance reports, periodic self-monitoring reports, and reports on compliance with compliance schedules;

(G) Failure to accurately report noncompliance;

(H) Any other violation or group of violations, which may include a violation of BMPs, which the division determines will adversely affect the operation or implementation of the local pretreatment program.

SLUG LOAD: Slug load or slug discharge means any discharge at a flow rate or concentration which could become a violation of the prohibited discharge standards in this chapter. A slug discharge is any discharge of a non-routine, episodic nature, including but not limited to an accidental spill or a non-customary batch discharge, which has a reasonable potential to cause interference or pass through, or in any other way violate this Chapter, local limits, or POTW's permit conditions.

STANDARD INDUSTRIAL CLASSIFICATION (SIC): A classification pursuant to the "Standard Industrial Classification Manual" issued by the Executive Office of the President-Office of Management and Budget, as it may be revised from time to time.

STORM SEWER: A sewer which carries storm and surface waters and drainage but does not include wastewater containing pollutants.

STORMWATER: Stormwater runoff, snow melt runoff, and surface runoff and drainage.

SUSPENDED SOLIDS (SS): Solids measured in milligrams per liter that either float on the surface of or are in suspension in wastewater or other liquids and which are largely removable by a laboratory filtration device as defined in the most current edition of "Standard Methods for the Examination of Water and Wastewater" published by the American Health Association or the most current edition of "Manual of Methods for Chemical Analysis of Water and Wastes" published by the EPA.

TOTAL SUSPENDED SOLIDS (TSS): The total suspended matter that floats on the surface of or is suspended in water, wastewater, or other liquid and that is removable by filtration.

TRUNK SEWER: A sewer which receives wastewater from many tributary main sewers and serves as an outlet for a large territory.

UPSET: An exceptional incident in which there is unintentional and temporary noncompliance with a technology-based permit effluent limitation because of factors beyond the reasonable control of the permittee, excluding such factors as operational error, improperly designed or inadequate treatment facilities, or improper operation and maintenance or lack thereof.

USER CHARGE: A portion of the sewer fee levied by the City which shall be sufficient to fund the estimated annual operation and maintenance (including replacement) cost of the POTW.

USER CLASS: Any grouping as determined by the City Manager or Water Resources Director of POTW users, including Class I, II, and III industrial users.

WASTEWATER: Treated or untreated liquid or water-carried non-domestic industrial wastes and/or sewage from residential dwellings or commercial, industrial or manufacturing facilities.

WASTEWATER RECLAMATION TREATMENT PLANT OR TREATMENT WORKS: That portion of the POTW which is designed to provide treatment of sewage and wastewater.

WATER RESOURCES DEPARTMENT: The Water Resources Department of the City of Mesa, created by Section 3-3-1 of the Mesa City Code.

WATER RESOURCES DIRECTOR: The Water Resources Director pursuant to Section 3-3-2 of the Mesa City Code or authorized deputy, agent, or representative.

WATERCOURSE: A channel in which a flow of water occurs, either continuously or intermittently.
(Ord. No. 5959, § 2, 8-25-25)

8-4-2: TREATMENT OF POLLUTED WATERS REQUIRED

It shall be unlawful to discharge to any outlet into a ditch a channel in which a flow of water occurs, either continuously or intermittently, or to any body of surface water or groundwater within the City or in any area under the jurisdiction of the City any wastewater or other polluted waters except where suitable treatment has been provided in accordance with the provisions of this Chapter.
(Ord. No. 5959, § 2, 8-25-25)

8-4-3: DISPOSAL OF POLLUTANTS

(A) It shall be unlawful for any trucked or hauled pollutant to be discharged into the POTW unless previously approved by the City Manager.

(B) It shall be unlawful to dispose of any pollutant by means other than those authorized by applicable federal, state, and local requirements.

(Ord. No. 5959, § 2, 8-25-25)

8-4-4: DIGGING UP STREETS WITHOUT A PERMIT; TAMPERING WITH EQUIPMENT PROHIBITED

It shall be unlawful to:

(A) Dig up or cause to be dug up any street or alley in the City for the purpose of connecting to the POTW without first obtaining a permit from the City Engineer;

(B) Having a permit, dig up any portion of any street or alley of the City for the purpose of connecting to the POTW and fail or neglect to place the street or alley in its original condition; or

(C) Maliciously or willfully break, damage, destroy, uncover, deface, or tamper with any structure, appurtenance, or equipment which is a part of the POTW.

(Ord. No. 5959, § 2, 8-25-25)

8-4-5: PRIVATE WASTEWATER SYSTEMS

(A) Except as provided in this Chapter, it shall be unlawful to construct or maintain within the City any privy, privy vault, septic tank, cesspool, or other facility intended or used for the disposal of wastewater.

(B) Where a public sanitary sewer is not available within the City or in any area under the jurisdiction of the City, the building sewer shall be connected to a private wastewater disposal system, complying with the provisions and recommendations of the Arizona Department of Environmental Quality and the Sanitary Code of Maricopa County. Such private wastewater disposal system shall be constructed, maintained, and operated at all times in a sanitary manner.

(Ord. No. 5959, § 2, 8-25-25)

8-4-6: SANITARY SEWERS OUTSIDE CITY

Any POTW user located outside of the City limits who discharges wastewater into a sanitary sewer owned or operated by the City shall be bound by the requirements of this Chapter.

(Ord. No. 5959, § 2, 8-25-25)

8-4-7: SANITARY SEWERS; DESIGN, CONSTRUCTION, AND INSPECTION

(A) The City shall have the authority to approve the design, issue permits, and conduct inspections of sewer facilities that are to be connected to the City's existing sanitary sewer system.

(B) The design and construction of all sanitary sewers under the jurisdiction of the City must conform to the standard sewer design and construction specifications as identified in the Maricopa Association of Governments Specifications, Mesa Standard Details, and the Arizona Department of Environmental Quality Bulletin No. 11.

(C) All sewers to be attached directly or indirectly to the POTW shall be inspected by personnel of the City during construction. The City shall be notified at least forty-eight (48) hours prior to cutting into the POTW. In making a connection to the POTW, no physical alteration shall commence until an inspector is present. No wastewater shall be discharged into the POTW prior to obtaining City approval of sewer construction.

(D) Following satisfactory completion of construction, the City will issue a construction inspection certificate upon request.

(Ord. No. 5959, § 2, 8-25-25)

8-4-8: BUILDING CONNECTIONS; PERMIT, APPROVAL, RECORDS, AND RESPONSIBILITY

(A) No authorized person shall make any connections with or opening into, use, alter, or disturb any public sewer or appurtenance thereof without first obtaining a written permit from the Development Services Department.

(B) Each person making application for a building connection shall obtain a valid plumbing permit from the City as a prerequisite for the approval of the required building connection. All applications for building connections to be constructed by the Development Services Department shall be accompanied by the current fee for such work.

(C) The number, location, manner of connection, and size of all building connections shall be subject to the approval of the Development Services Manager.

(D) The Development Services Department shall keep a record of all building connections made and the purpose for which they are to be used, together with the name of the owner of the property, the owner's agent, or a representative.

(E) The property owner shall be responsible for the cleaning, unstopping, maintenance, and repair of the building connection piping serving the property from the owner's home or building to the public sewer, except as provided in Subsection (F) of this Section.

(F) Where the correction of a stoppage requires the repair or replacement of a damaged or broken section of the building connection and the damaged or broken section is located off-property in a street or alley, the Water Resources Department shall make the repair or replacement.

(Ord. No. 5959, § 2, 8-25-25)

8-4-9: OWNERSHIP OF PUBLIC SEWER LINES AND OTHER EQUIPMENT MAINTAINED BY THE WATER RESOURCES DEPARTMENT

The ownership of all public sewer lines, pumping stations, treatment facilities, and equipment and other appurtenances to the sewer system maintained or accepted for maintenance by the Water Resources Department shall be vested in the City, and in no case shall the owner of any premises have the right to claim any part except where otherwise provided in this Code.

(Ord. No. 5959, § 2, 8-25-25)

8-4-10: SEWER CHARGES SET BY SEPARATE ORDINANCE

(A) The Council shall at least biennially by separate ordinance set the fee to be made for sewer service and use. Such fee shall be apportioned to include not only a user charge, which shall be used exclusively to generate revenues sufficient to pay the total operation and maintenance (including replacement) costs of the treatment works, but also other sewer service charges as desired by the Council. The user charge shall be allocated in such a manner that is proportionate to the cost of providing wastewater service to each POTW user or user class insofar as those costs can reasonably be determined. Further, the user charge shall be based upon the volume and strength, including BOD and SS, of the wastewater discharged.

(B) Charges for monthly sewer service and use shall be imposed as follows:

1. Until February 26, 2003, those residential customers not connected to the POTW but with an active utility account and a usable City sewer main adjoining the premises shall pay, in lieu of the user charge and in addition to the charge levied to offset capital expenses, an amount equal to the user charge as stated on the applicable rate schedule, subject to the refund provisions of paragraph (B)5. hereof.

2. A "usable City sewer main" is defined for purposes of paragraph (B)1 as one that is adjacent to the parcel and which has a service line extended to the property line of the parcel.

3. In situations where a monthly charge is imposed but the person is not connected to the public sewer, a credit shall be given toward the payment of the sewer development fee when a connection is made.

Such credit will be in the sum of the payments previously paid for monthly sewer services, but in no case shall it exceed the amount of the sewer development fee in effect at the time connection to the public sewer is made.

4. After February 26, 2003, monthly charges for sewer service and use shall only be imposed on a parcel at such time as that parcel is connected to the public sewer.

5. A person shall be entitled to a refund of the monthly charges for sewer service paid during the period of time beginning March 1, 2000 and ending February 26, 2003, without interest if:

   (a) The person had an active utility account and a usable City sewer main adjoining the premises;

   (b) The person paid a monthly charge for sewer, but was not connected to the public sewer; and

   (c) Such charges have not been credited against a sewer development fee as allowable under paragraph (B)1 hereof.

   The refund shall in no case exceed the actual amount paid by the person submitting the application for refund. In order to be eligible to receive such refund, the person who paid such charges shall be required to submit an application for such refund to the Water Resources Department within one (1) year after February 26, 2003.

(C) Although the City strongly encourages that persons should connect to the public sewer system when it becomes available to them, persons with existing septic tanks may continue to use them as long as they function in a manner which does not violate Maricopa County health standards. However, at such time as Maricopa County determines that the septic tanks violate the standards, the person shall connect to the public sewer system.

(D) Upon appeal and presentation of satisfactory evidence by any customer, an adjustment of the established sewer rate schedules may be granted provided that such adjustment is proportional among POTW users or user classes and includes, at a minimum, a user charge component.

(E) Excessive revenues collected from a POTW user or user class through the user charge shall be applied to that POTW user or user class when the user charge portion of the sewer fee is established.

(Ord. No. 5959, § 2, 8-25-25)

8-4-11: USER CHARGE FORMULA

In calculating a POTW user or user class sewer fee, the following formula shall be used to determine the user charge portion of the total sewer fee:

USER CHARGE FORMULA: Flow mg × flow rate + BOD (mg/l) × 8.34 × flow mg × BOD rate - 1000 + SS (mg/l) × 8.34 × flow mg × SS rate - 1000 + fixed charges.

WHERE:

FLOW MG = The total volume of flow for the year in millions of gallons.

FLOW RATE = O & M (FLOW) divided by flow mg.

BOD RATE = O & M (BOD) divided by BOD 1,000 lbs.

SS RATE = O & M (SS) divided by SS 1,000 lbs.

FIXED CHARGES = O & M (FIXED) divided by the number of customers.

O & M (FLOW) = The operating and maintenance cost of treating the flow portion of wastewater.

O & M (BOD) = The operating and maintenance cost of treating the BOD portion of wastewater.

O & M (SS) = The operating and maintenance cost of treating the SS portion of wastewater.

O & M (FIXED) = The operating and maintenance cost of processing sewer bills.

BOD 1,000 LBS. = The total amount of BOD in thousands of pounds.

SS 1,000 LBS. = The total amount of SS in thousands of pounds.

NUMBER OF CUSTOMERS = The total number of sewer customers being billed.

BOD (MG/L) = The concentration of biochemical oxygen demand in milligrams per liter of wastewater.

SS (MG/L) = The concentration of SS in milligrams per liter of wastewater.
(Ord. No. 5959, § 2, 8-25-25)

8-4-12: BILLING FOR USER CHARGE

Each POTW user shall be notified on an annual basis, in conjunction with their regular monthly bill, of the portion of their monthly bill that is attributable to the user charge. Such notice shall state that the revenues derived by the user charge are to be used exclusively for the operation and maintenance (including replacement) of the POTW.
(Ord. No. 5959, § 2, 8-25-25)

8-4-13: DISTRIBUTION OF WASTEWATER SYSTEM REVENUES AND UTILIZATION OF FUNDS

Revenues attributable to user charges shall be allocated to the Sewer Use Accounts of the Sewer Enterprise Account of the City of Mesa Utility Fund. Such revenues shall be restricted to paying the expenses incurred in the operation and maintenance (including replacement) of the POTW. Additional revenues derived by the charge for sewer service and use shall be allocated to the Sewer Service Account of the Sewer Enterprise Account of the City's Utility Fund. The Sewer Service Account revenues may be used for any one (1) or more of the following activities:

(A) The expansion or improvement of the sanitary and storm sewer systems operated by the City;

(B) Servicing the debt or retiring sanitary and storm sewer bonds; and

(C) Providing for other pertinent costs as determined by the City Council.
(Ord. No. 5959, § 2, 8-25-25)

8-4-14: WASTEWATER TREATMENT BY-PRODUCTS

All revenue from the sale of treatment-related by-products shall be used to offset the cost of operating and maintaining the POTW. User charges shall be proportionally reduced for all POTW users. Total annual revenues received from the sale of a by-product shall be credited to the works treatment operation and maintenance cost no later than the fiscal year immediately following their receipt.
(Ord. No. 5959, § 2, 8-25-25)

8-4-15: PROHIBITED SUBSTANCES AND DISCHARGE LIMITATIONS

(A) No person shall discharge or cause to be discharged at any entry point into the public sewer system any of the following:

1. Wastewater which could cause interference or pass-through with POTW operations.

2. Unless otherwise approved by the City Manager or Water Resources Director or Water, storm water, surface water, groundwater, roof runoff, subsurface drainage, single-pass cooling water, or condensate that may constitute inflow.

3. Pollutants which create a fire or explosion hazard to the system or POTW. In no case shall pollutants be discharged either:

   (a) With a closed cup flashpoint less than one hundred forty degrees Fahrenheit (140° F) (sixty degrees Centigrade [60° C]); or

   (b) Which would cause an exceedance of ten percent (10%) of the Lower Explosive Limit (LEL) at any point within the POTW for any single reading or more than five percent (5%) for any two (2) consecutive readings.

4. Solid or viscous pollutants, animal fats, oils and grease, petroleum oil, nonbiodegradable cutting oil, or products of mineral oil origin in amounts that will cause any one (1) or more of the following:

   (a) Interference;

   (b) Pass-through; or

   (c) Obstruction to the flow in sewers or other interference or damage with the system or POTW.

5. Any waters containing a toxic, radioactive, poisonous, or other substance in sufficient quantity to injure or interfere with any POTW process, cause corrosive structural damage, constitute a hazard to humans, or create any hazard to the POTW or in the receiving waters of the POTW; or pollutants which result in the presence of toxic gases, vapors, or fumes within the POTW in a quantity that may cause acute worker health and safety problems.

6. Wastewater with a pH less than five (5.0) standard units (SU) or greater than ten and one-half (10.5) SU.

7. Wastewater with a temperature greater than one hundred fifty degrees Fahrenheit (150°F) or heat in amounts which will inhibit biological activity in the POTW resulting in interference; but in no event, heat in such quantities that the temperature at the headworks of the POTW exceeds one hundred four degrees Fahrenheit (104°F) (forty degrees Centigrade [40°C]).

8. Wastewater that has been diluted in any way as a substitute for pretreatment for the purpose of obtaining compliance with any categorical standard or pretreatment requirement imposed by this Chapter except where dilution is expressly authorized by any categorical standard.

9. Wastewater that could cause a violation of any categorical standard or pretreatment requirement.

10. A discharge, other than domestic wastewater, that exhibits a characteristic of a hazardous waste or contains a substance that is listed as a hazardous waste pursuant to either Arizona Administrative Code R18-8-261, as amended, or 40 CFR Part 261, as amended, whichever is applicable, whether or not the discharge is otherwise subject to hazardous waste regulations. The City Manager or Water Resources Director may allow a discharge of such wastes if, upon written request of the affected person, the City Manager or determines that the discharge would not cause interference or pass-through with POTW operations.

11. Wastewater sampled using the following specified sample type which exceeds the limits for the following parameters, expressed in the total form as micrograms per liter (uG/L):

(a) The instantaneous effluent limitation shall be the maximum allowable concentration permitted in a discharge at any time as measured in a grab sample. The instantaneous effluent limitation for the following parameters shall be:

	Substance	**Limitation**	**Sample Type**
(i)	Benzene	35	Grab
(ii)	Chloroform	2,000	Grab

(b) The following parameters shall have a limit of zero and are therefore prohibited:

(i)	4,4' - DDE
(ii)	4,4' - DDT
(iii)	Aldrin
(iv)	BHC - Alpha
(v)	BHC - Beta
(vi)	BHC - Gamma (Lindane)
(vii)	Heptachlor
(viii)	Heptachlor Epoxide
(ix)	Polychlorinated Biphenyl Compounds

(B) In addition to the requirements contained in Subsection (A) of this Section, all Class I industrial users shall not discharge or cause to be discharged at any entry point into the public sewer system any wastewater which exceeds the daily average effluent limitation specified in paragraph 3 of this Subsection. A Class II industrial user also may be subject to one (1) or more of the daily average effluent limitations if the City Manager or Water Resources Director determines in writing that such user is responsible for an industrial discharge which causes or has the reasonable potential to cause harm or damage to worker safety, public safety, or the environment. This written determination shall identify the daily average effluent limitations applicable to the user that are necessary to minimize the potential harm or damage to worker safety, public safety, and the environment.

1. The daily average effluent limitation shall be the maximum allowable concentration permitted in a discharge as measured, where feasible, in a composite sample obtained by flow proportional

sampling techniques. If the City Manager or Water Resources Director determines that flow-proportional composite sampling is not feasible, the City Manager or Water Resources Director may allow or conduct composite sampling by time proportional techniques or by the compositing or averaging of one (1) or more grab samples.

2. Sampling for the daily average effluent limitation shall be conducted using the sample type specified in paragraph 3. of this Subsection.

3. The daily average effluent limitation for the following parameters, expressed in the total form as milligrams per liter (MG/L), shall be:

	SUBSTANCE	LIMITATION	SAMPLE TYPE
(a)	Arsenic	0.13	Composite
(b)	Cadmium	0.047	Composite
(c)	Copper	1.5	Composite
(d)	Cyanide	2.0	Grab
(e)	Lead	0.41	Composite
(f)	Mercury	0.0023	Composite
(g)	Selenium	0.10	Composite
(h)	Silver	1.2	Composite
(i)	Zinc	3.5	Composite

(C) No person shall discharge or cause a discharge into a POTW that violates any limitation or prohibition specified or established by the City Manager or Water Resources Director pursuant to Section 8-4-27(A) of the Mesa City Code.

(D) All affected individual users or class of users shall comply with any best management practice required by the City Manager or Water Resources Director pursuant to Section 8-4-27(A) of the Mesa City Code.

(E) Mass limitations may be imposed on industrial users through industrial wastewater discharge permits where not prohibited by categorical pretreatment standards, and which are using flow equalization to meet applicable federal, state, or City pretreatment standards or requirements, or in other cases where the imposition of mass limitations are appropriate. Equivalent mass limits may be established only if industrial users satisfy all conditions set forth in 40 CFR § 403.6(c)(5)(i)(A) through (c)(5)(i)(E). In such cases, the wastewater discharge permit will contain the mass allocation for each pollutant, any concentration-based categorical standards, maximum flow allowed, and the appropriate monitoring and reporting requirements. Where mass limits have been established, the reports required by Section 8-4-19 shall also indicate the mass of limited pollutants in the user's wastewater. These reports shall also contain the results of sampling and analysis of the discharge, including production and mass of pollutants contained therein which are limited by the applicable pretreatment standards and requirements.

(Ord. No. 5959, § 2, 8-25-25)

8-4-16: INDUSTRIAL USERS IDENTIFIED AS CLASS I, II, OR III

(A) All significant industrial users shall be Class I industrial users under this Chapter.

(B) A Class II industrial user shall be any industrial user that meets all of the following criteria:

1. Is not a significant industrial user;

2. Is determined in writing by the City Manager or Water Resources Director to be responsible for an industrial discharge which causes or has the reasonable potential to cause harm or damage to the POTW, worker safety, public safety, or the environment; and

3. Has discharges which are any one (1) or more of the following:

   (a) Greater than the equivalent strength of twenty-five thousand (25,000) gallons per day of domestic waste as measured by BOD and SS.

   (b) Pollutants in groundwater subject to a remedial action plan that has been approved by an appropriate regulatory agency.

   (c) Any of the substances described in Section 8-4-15 of the Mesa City Code.

   (d) Either domestic wastewater or no discharge at all, but such industrial user does have significant quantities of pollutants which, if discharged, would be regulated by this Chapter.

(C) All industrial users that are not Class I or II under Subsections (A) and (B) of this Section shall be identified as Class III industrial users.

(Ord. No. 5959, § 2, 8-25-25)

8-4-17: GENERAL INDUSTRIAL USER REQUIREMENTS

All Class I, II, and III industrial users shall, unless otherwise noted:

(A) Comply with the categorical standards, pretreatment requirements, and all other requirements imposed by this Chapter upon POTW users.

(B) Comply with the orders of the City Manager or Water Resources Director Water Resources designed to implement the categorical standards, pretreatment requirements, best management practices, and all other requirements imposed by this Chapter.

(C) If a new industrial user, file, prior to the discharge of wastewater to the POTW, a written notice with the City Manager or Water Resources Director which identifies all of the following:

1. Name and address of the existing or prospective industrial users;

2. Business locations served or to be served by the POTW;

3. Nature, concentration, and amounts of any substance present at, or intended to be present at, such business locations which, if discharged to the POTW, could constitute an industrial discharge; and

4. Nature and concentration of all pollutants currently discharged to the POTW from such business locations.

(D) Assist the City Manager or Water Resources Director in updating the industrial user survey which contains the information requested in Subsection (C) of this Section. The City Manager or Water Resources Director may request additional information to determine compliance.

(E) Carry out and maintain an adequate record of all self-inspection and self-monitoring activities necessary for the industrial user to know at all times whether or not such user is introducing any industrial discharge to the POTW.

(F) Assist the City Manager or Water Resources Director to determine the exact nature, concentration, and volume of any pollutant intended for discharge to the POTW. Therefore, upon request, any industrial user shall promptly do any one (1) or more of the following:

1. Allow the examination and copying of all relevant records or documents available to the user.

2. Allow the inspection of all business locations served by the POTW, including all pretreatment equipment, methods, and activities utilized by the user at such locations.

3. Install and maintain at the user's expense convenient and adequate monitoring and/or sampling points needed by the City Manager or Water Resources Director for monitoring and/or sampling purposes.

4. Allow the taking and removal of samples from any wastewater discharged or intended for discharge to the POTW.

5. Provide the City Manager or Water Resources Director with any other information, including chemical analyses of wastewater and architectural or engineering design data, drawings, etc., which is reasonably needed by the City Manager or Water Resources Director for the purpose of determining such user's compliance with the requirements of this Chapter.

(G) Refrain from any discharges until the City Manager or Water Resources Director determines if the industrial user would cause an industrial discharge. Once this determination is made, the City Manager or Water Resources Director will classify the user as a Class I, II, or III industrial user consistent with Section 8-4-16 of the Mesa City Code. The City Manager or Water Resources Director shall maintain and amend as necessary a list of the Class I, II, and III industrial users.

(H) Comply with the demand of the City Manager or Water Resources Director to immediately halt any actual or threatened discharge to the POTW when the City Manager or Water Resources Director has given notice that such actual or threatened discharge either:

1. Presents or may present an imminent or substantial endangerment to the health or welfare of any person or to the environment; or

2. Will cause interference with POTW operations.

(I) Immediately give notice to the City Manager or Water Resources Director of any problem-causing discharge to the POTW. A problem-causing discharge may not have caused an actual limit violation but had a characteristic of the narrative prohibitions of Section 8-4-15 of the Mesa City Code. The discharge also may be an accidental discharge, upset, slug load, limit violation of any categorical standard, pretreatment requirement, or permit condition imposed by this Chapter. Such notification will not relieve the industrial user of liability for any expense, loss, or damage to the sanitary sewer system or for any fines

imposed on the City on account thereof and/or for any enforcement action pursuant to this occurrence. The notice shall be followed within ten (10) working days with a written report that shall include all of the following:

1. Location of the discharge;

2. Known or estimated nature, concentration, and volume of the discharged pollutants;

3. Type of assistance desired from the City;

4. Corrective action undertaken, being undertaken, and/or to be undertaken by the industrial user. Any industrial user causing such a discharge also shall initiate all appropriate corrective action required by the City Manager or Water Resources Director needed to accomplish all of the following:

   (a) Prevent injury to human health or safety or to the environment, the POTW, and/or any other property;

   (b) Promptly repair all or part of any injury or damage caused by such discharge; and

   (c) Ensure that a discharge does not occur again.

(J) Pay all sewer fees charged by the City for the POTW services provided by the City Manager or Water Resources Director pursuant to the requirements of this Chapter. Such service fees will apply equally to all industrial users and will be determined by each user's proportionate share of the POTW operating and maintenance costs. In turn, the proportionate share will be based on such factors as the strength, volume, and flow rate of wastewater discharged to the POTW by each user.

(K) Reimburse the City for all expenses reasonably incurred by the City in insuring such industrial user's compliance with the applicable requirements of this Chapter. A schedule of such costs will be determined by the City Manager or Water Resources Director. Expenses include the costs related to all of the following:

1. Issuing permits;

2. Conducting inspection, surveillance, and monitoring activities;

3. Obtaining laboratory analysis of wastewater samples;

4. Taking enforcement actions against industrial users not in compliance with the requirements of this Chapter; and

5. Carrying out any measure needed for the protection of human health or safety, the environment, the POTW, or any other property in order to correct or mitigate any harm caused by the violation of any categorical standard or pretreatment requirement.

(L) If a significant industrial user, comply with the requirements of Section 8-4-19(G)2. of the Mesa City Code when a limit violation is detected during self-monitoring.

(M) Notify the City Manager or Water Resources Director, the EPA Regional Waste Management Division Director, and state hazardous waste authorities in writing of any discharge into the POTW of a substance

which, if otherwise disposed of, would be a hazardous waste under 40 CFR Part 261. Such notification must include the name of the hazardous waste as set forth in 40 CFR Part 261, the EPA hazardous waste number, and the type of discharge (continuous, batch, or other).

1. If the industrial user discharges more than one hundred kilograms (100 kg) of such waste per calendar month to the POTW, the notification also shall contain the following information to the extent such information is known and readily available to the industrial user:

   (a) An identification of the hazardous constituents contained in the wastes;

   (b) An estimation of the mass and concentration of such constituents in the waste stream discharged during that calendar month; and

   (c) An estimation of the mass of constituents in the waste stream expected to be discharged during the following twelve (12) months

2. Industrial users shall provide the notification no later than one hundred eighty (180) days after the discharge of the listed or characteristic hazardous waste.

3. Any notification under this Subsection need be submitted only once for each hazardous waste discharged. However, notifications of changed discharges shall be submitted under 40 CFR § 403.12(j).

4. The notification requirement in this Subsection does not apply to pollutants already reported under the self-monitoring requirements of 40 CFR § 403.12(b), (d), and (e).

5. Dischargers are exempt from the requirements of this Subsection during a calendar month in which they discharge no more than fifteen kilograms (15 kg) of hazardous wastes, unless the wastes are acute hazardous wastes as specified in 40 CFR §§ 261.30(d) and 261.33(e). Discharge of more than fifteen kilograms (15 kg) of nonacute hazardous wastes in a calendar month or of any quantity of acute hazardous wastes as specified in 40 CFR §§ 261.30(d) and 261.33(e) requires a one-time notification. Subsequent months during which the industrial user discharges more than such quantities of any hazardous waste do not require additional notification.

6. In the case of new regulations promulgated by the E.P.A. under Section 3001 of the Resource Conservation and Recovery Act identifying additional characteristics of hazardous waste or listing any additional substance as a hazardous waste, the industrial user must notify the City Manager or Water Resources Director of the discharge of such substance within ninety (90) days from the effective date of such regulations.

7. In the case of any notification made under this Subsection, the industrial user shall certify that it has a program in place to reduce the volume and toxicity of wastes generated to the degree it has determined to be economically practicable and that it has selected the method of treatment, storage, or disposal currently available which minimizes the present and future threat to human health and the environment.

(N) If a significant industrial user, sign applications for permits, correspondence, and required reports following the requirements in Section 8-4-19(H) of the Mesa City Code.

(O) Promptly notify the City Manager or Water Resources Director in advance of any substantial change in the volume or character of pollutants in their discharge, including the listed or characteristic hazardous wastes for which the industrial user has submitted initial notification under 40 CFR § 403.12(p).

(P) For purposes of record keeping:

1. Maintain records of all information resulting from any monitoring activities required by this Section. Such records shall include all of the following information for all samples:

   (a) The date, exact place, method, and time of sampling and the names of the individuals taking the samples;

   (b) The dates that analyses were performed;

   (c) Who performed the analyses;

   (d) The analytical techniques/methods used; and

   (e) The results of such analyses.

2. Retain for a minimum of three (3) years all records of monitoring activities and results, whether or not such monitoring activities are required by this Section, and shall make such records available for inspection and copying by the City Manager or Water Resources Director. This period of retention shall be extended during the course of any unresolved litigation regarding the industrial user or when requested by the City Manager or Water Resources Director.

(Q) In order that officers, agents, and employees of permittees shall make available to their employees copies of this Chapter together with such other wastewater information and notices which may be furnished by the City from time to time for the purpose of improving and making more effective water pollution control, a notice shall be furnished and permanently posted on the permittee's bulletin board advising officers, agents, and employees who to call in case of an accidental discharge in excess of the limits authorized by the permit.

(R) If a significant industrial user, submit a compliance schedule that contains the information required in Section 8-4-19(F) of the Mesa City Code if found to be out of compliance by the City Manager or Water Resources Director.

(S) Provide protection from accidental discharge of prohibited materials or other wastewater regulated by this Chapter.

(T) Label any possible connection or entry point for a hazardous and/or prohibited substance to the plumbing or drainage system to warn operating personnel against discharge of such substance in violation of this Chapter.

(U) Submit and maintain reports subject to all of the following:

1. The provisions of 18 U.S.C. § 1001 relating to fraud and false statements;

2. The provisions of CWA § 309(c)4 governing false statements, representation, or certification; and

3. The provisions of CWA § 309(c)6 regarding responsible officers.

(V) Implement methods at the industrial user's expense to reduce or control the concentration of pollutants through the use of best management practices or measures used to reduce the amount of pollution entering surface water, air, land, or groundwater. Each industrial user shall keep written records of the methods used, and such records shall be kept on-site for a minimum of three (3) years.

(Ord. No. 5959, § 2, 8-25-25)

8-4-18: CLASS I AND II INDUSTRIAL USER PERMIT REQUIREMENTS

Class I and II industrial users shall do all of the following:

(A) Obtain an Industrial Wastewater Discharge Permit from the City Manager or Water Resources Director. Any application for a permit or an amended permit shall contain the information in the application form or such other information as may be requested by the City Manager or Water Resources Director. The City Manager or Water Resources Director shall issue an Industrial Wastewater Discharge Permit within sixty (60) days after determining that an application for such permit is complete. Such a permit:

1. Will be categorized as Class I or Class II;
2. Will be for a period of time not to exceed five (5) years. A permit may be terminated by revocation by the City Manager or Water Resources Director under Section 8-4-28 of the Mesa City Code or upon voluntary surrender of the permit by the permittee at an earlier date;
3. Is nontransferable by the permittee;
4. May be amended as deemed appropriate by the City Manager or Water Resources Director;
5. Will specifically identify all applicable discharge prohibitions and limitations and monitoring and reporting requirements which the City Manager or Water Resources Director will enforce;
6. For all Class I industrial users, shall include a provision requiring all pretreatment necessary to comply with the categorical standards and pretreatment requirements, and best management practices imposed by this Chapter;
7. May contain requirements for installation and maintenance of inspection and sampling facilities;
8. May require implementation of best management practices to reduce or eliminate the amount of pollutants discharged to the POTW;
9. May contain other conditions and requirements as deemed reasonably necessary by the City Manager or Water Resources Director to meet the following concerns:
    (a) Prevent pass-through or interference;
    (b) Protect the quality of the water body receiving the POTW's effluent;
    (c) Protect worker health and safety;
    (d) Facilitate sludge management and disposal;
    (e) Protect against damage to the POTW; and
    (f) Ensure user compliance with this Chapter.
10. May be appealed by the applicant by filing a petition for review with the City Manager or Water Resources Director within twenty (20) days of receipt of the permit. Such petition shall identify the

permit provisions objected to, specify in detail the reasons for objection, and present the alternative condition, if any, sought to be placed in the permit. During the appeal process, the provisions of the permit that are not objected to shall be in effect, and the provisions that are objected to shall be stayed pending a final decision by the City Manager or Water Resources Director. If the City Manager or Water Resources Director fails to act within thirty (30) days of receipt of the petition for review, the petition shall be deemed to be denied.

(B) Comply fully with all requirements and conditions of any Industrial Wastewater Discharge Permit. Once a permit is issued, no Class I or II industrial user shall do any of the following:

1. Make any new or increased industrial discharge;

2. Make any change in the nature of its industrial discharge if such change will cause any new or increased industrial discharge;

3. Fail to give notice to the City Manager or Water Resources Director not less than ninety (90) days prior to any facility expansion, production increase, or process modifications which results or may result in new or increased discharges or a change in the nature of the discharge; or

4. Fail to give advance notice to the City Manager or Water Resources Director of any planned changes in the permitted facility or activity which may result in noncompliance with permit requirements.

(Ord. No. 5959, § 2, 8-25-25)

8-4-19: SIGNIFICANT INDUSTRIAL USER REPORTING REQUIREMENTS

(A) Significant industrial users not subject to categorical standards shall submit to the City Manager or Water Resources Director at least once every six (6) months (on dates specified by the City Manager or Water Resources Director) a description of the nature, concentration, and flow of the pollutants required to be reported to the City Manager or Water Resources Director. These reports shall be based on sampling and analysis performed in the period covered by the report. This sampling and analysis may be performed by the City Manager or Water Resources Director in lieu of such significant industrial user. Where the City Manager or Water Resources Director collects all the information required for the report, such significant industrial user will not be required to submit the report.

(B) Within one hundred eighty (180) days after the effective date of a categorical standard or one hundred eighty (180) days after the final administrative decision made upon a category determination submission under 40 CFR § 403.6(a)(4), whichever is later, existing industrial users subject to such a categorical standard and currently discharging to or scheduled to discharge to a POTW shall be required to submit to the City Manager or Water Resources Director a report which contains all of the following information:

1. The name and address of the facility, including the name of the owner and operator;

2. A list of any environmental control permits held by or for the facility;

3. A brief description of the nature, average rate of production, and standard industrial classification of the operations carried out by such industrial user. This description should include a schematic process diagram which indicates points of discharge to the POTW from the regulated processes;

4. The measured average daily and maximum daily flow, in gallons per day (verifiable estimates of these flows where justified by cost of feasibility considerations may be allowed by the City Manager or Water Resources Director) from the POTW from both of the following:

   (a) Regulated process streams; and

   (b) Other streams as necessary to allow use of the combined wastestream formula of 40 CFR § 403.6(e), as described in subparagraph 5.(e) of this Subsection;

5. A measurement of pollutants conducted as follows:

   (a) The user shall identify the categorical standards applicable to each regulated process.

   (b) In addition, the user shall submit the results of sampling and analysis identifying the nature and concentration (or mass, where required by the categorical standard or the City Manager or Water Resources Director) of regulated pollutants in the discharge from each regulated process. Both daily maximum and average concentration (or mass, where required) shall be reported. The sample shall be representative of daily operations.

   (c) A minimum of four (4) grab samples shall be used for pH, cyanide, total phenol, oil and grease, sulfide, and volatile organics. For all other pollutants, twenty-four- (24-) hour composite samples shall be obtained through flow-proportional composite sampling techniques where feasible. The City Manager or Water Resources Director may waive flow-proportional composite sampling for any industrial user that demonstrates that flow-proportional sampling is infeasible. In such cases, samples may be obtained through time-proportional composite sampling techniques or through a minimum of four (4) grab samples where the user demonstrates that this will provide a representative sample of the effluent being discharged.

   (d) The user shall take a minimum of one (1) representative sample to compile that data necessary to comply with the requirements of this paragraph.

   (e) Samples shall be taken immediately downstream from pretreatment facilities if such exist or immediately downstream from the regulated process if no pretreatment exists. If other wastewaters are mixed with the regulated wastewater prior to pretreatment, the user should measure the flows and concentrations necessary to allow use of the combined wastestream formula of 40 CFR § 403.6(e) to evaluate compliance with the categorical standards. Where an alternate concentration or mass limit has been calculated in accordance with § 403.6(e), this adjusted limit, along with supporting data, shall be submitted to the City Manager or Water Resources Director.

   (f) Sampling and analysis shall be performed in accordance with the techniques prescribed in 40 CFR Part 136 for the pollutant in question, or where the approval authority determines that the Part 136 sampling and analytical techniques are inappropriate for the pollutant in question, sampling and analysis shall be performed by using validated analytical methods or any other applicable sampling and analytical procedures, including procedures suggested by the City Manager or Water Resources Director or other parties approved by the approval authority.

(g) The baseline report shall indicate the time, date, and place of sampling and methods of analysis and shall certify that such sampling and analysis is representative of normal work cycles and expected pollutant discharges to the POTW.

6. A statement, reviewed by an authorized representative of the industrial user and certified to by a qualified professional, indicating whether categorical standards are being met, and if not, whether additional operations and maintenance (O & M) and/or additional pretreatment is required for the industrial user to meet the categorical standards and pretreatment requirements; and

7. If additional pretreatment and/or O & M will be required to meet the categorical standards, the shortest schedule by which the industrial user will provide such additional pretreatment and/or O & M. The completion date in this schedule shall not be later than the compliance date established for the applicable categorical standard.

(C) At least ninety (90) days prior to commencement of a discharge, new sources and sources that become industrial users subsequent to the promulgation of an applicable categorical standard shall be required to submit to the City Manager or Water Resources Director a report which contains the information listed in paragraphs 1—5 of Subsection (B) of this Section. New sources also shall be required to include in this report information on the method of pretreatment the source intends to use to meet applicable pretreatment standards. New sources shall give estimates of the information requested in paragraphs 4. and 5. of Subsection (B) of this Section.

(D) Within ninety (90) days following the date for final compliance with applicable categorical standards or, in the case of a new source, following commencement of the introduction of wastewater into the POTW, any industrial user subject to categorical standards shall submit to the City Manager or Water Resources Director a report containing the information described in paragraphs 4., 5., and 6. of Subsection (B) of this Section.

(E) Any industrial user subject to a categorical standard after the compliance date of such standard or in the case of a new source, after commencement of the discharge into the POTW, shall submit to the City Manager or Water Resources Director during the months of June and December, unless required more frequently in the categorical standard or by the City Manager or Water Resources Director or approval authority, a report indicating the nature and concentration of pollutants in the effluent which are limited by such categorical standards. In addition, this report shall include a record of measured or estimated average and maximum daily flows for the reporting period for the discharge reported in paragraph 4. of Subsection (B) of this Section, except that the City Manager or Water Resources Director may require more detailed reporting of flows.

(F) The compliance schedule for meeting categorical standards required by paragraph 7 of Subsection (B) of this Section shall be as follows:

1. The compliance schedule shall contain increments of progress, not to exceed nine (9) months, in the form of dates for the commencement and completion of major events leading to the construction and operation of additional pretreatment required for the industrial user to meet the applicable categorical standards. "Major events" include activities such as hiring an engineer, completing preliminary plans, completing final plans, executing a contract for major components, commencing construction, and completing construction.

2. Not later than fourteen (14) days following each date in the compliance schedule and the final date for compliance, the industrial user shall submit a progress report to the City Manager or Water Resources Director, including whether or not it complied with the increment of progress to be met on such date, and if not, the date on which it expects to comply with this increment of progress, the reason for delay, and the steps being taken by the industrial user to return the construction to the schedule established.

(G) Monitoring and analysis to demonstrate continued compliance shall be conducted as follows:

1. The reports required in Subsections (B), (C), (D), and (E) of this Section shall contain the results of sampling and analysis of the discharge, including the flow and the nature and concentration, or production and mass where requested by the City Manager or Water Resources Director, of pollutants contained therein which are limited by the applicable categorical standards. This sampling and analysis may be performed by the City Manager or Water Resources Director in lieu of the industrial user. Where the City Manager or Water Resources Director performs the required sampling and analysis in lieu of the industrial user, the user will not be required to submit the compliance certification required under 40 CFR §§ 403.12(b)6 and 403.12(d). In addition, where the City Manager or Water Resources Director collects all the information required for the report, including flow data, the industrial user will not be required to submit the report.

2. If sampling performed by an industrial user indicates a violation, the user shall notify the City Manager or Water Resources Director within twenty-four (24) hours of becoming aware of the violation. The user shall also repeat the sampling and analysis and submit the results of the repeat analysis to the City Manager or Water Resources Director within thirty (30) days after becoming aware of the violation. However, the industrial user is not required to resample if either:

   (a) The City Manager or Water Resources Director performs sampling of the industrial user at a frequency of at least once per month; or

   (b) The City Manager or Water Resources Director performs sampling of the user between the time when the user performs its initial sampling and the time when the user receives the results of this sampling.

3. The reports required in Subsection (E) of this Section shall be based upon data obtained through appropriate sampling and analysis performed during the period covered by the report, which data is representative of conditions occurring during the reporting period. The City Manager or Water Resources Director shall require that frequency of monitoring necessary to assess and assure compliance by industrial users with applicable categorical standards.

4. All analyses shall be performed in accordance with procedures established by the approval authority pursuant to CWA § 304(h) and contained in 40 CFR Part 136 or with any other test procedures approved by the administrator. Sampling shall be performed in accordance with the techniques approved by the administrator. Where 40 CFR Part 136 does not include sampling or analytical techniques for the pollutants in question or where the administrator determines that the Part 136 sampling and analytical techniques are inappropriate for the pollutant in question, sampling and analyses shall be performed using validated analytical methods or any other sampling and analytical procedures, including procedures suggested by the City Manager or Water Resources Director or other parties approved by the administrator.

5. If an industrial user subject to the reporting requirements in Subsection (E) of this Section monitors any pollutant more frequently than required by the City Manager or Water Resources Director using the procedures prescribed in paragraph 4 of this Subsection, the results of this monitoring shall be included in the report.

(H) The reports required by Subsections (B), (C), (D), and (E) of this Section shall both:

1. Include the certification statement set forth as follows:

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violation."

2. Be signed as follows:

(a) By a responsible corporate officer, if the industrial user submitting the reports required by Subsections (B), (C), (D), and (E) of this Section is a corporation. For purposes of this paragraph, a "responsible corporate officer" means either:

(i) A president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function or any other person who performs similar policy or decision-making functions for the corporation; or

(ii) The manager of one (1) or more manufacturing, production, or operation facilities employing more than two hundred fifty (250) persons or having gross annual sales or expenditures exceeding twenty- five million dollars ($25 million) if authority to sign documents has been assigned or delegated to the manager in accordance with corporate procedures.

(b) By a general partner or proprietor if the industrial user submitting the reports required by Subsections (B), (C), (D), and (E) of this Section is a partnership or sole proprietorship.

(c) By a duly authorized representative of the individual designated in subparagraph (a) or (b) of this paragraph if all of the following criteria are met:

(i) The authorization is made in writing by the individual described in subparagraph (a) or (b);

(ii) The authorization specifies either an individual or a position having responsibility for the overall operation of the facility from which the industrial discharge originates, such as the position of plant manager, operator of a well, or well field superintendent, or a position of equivalent responsibility, or having overall responsibility for environmental matters for the company; and

(iii) The written authorization is submitted to the City Manager or Water Resources Director.

(d) If an authorization under subparagraph (c) of this paragraph is no longer accurate because a different individual or position has responsibility for either the overall operation of the facility or environmental matters for the company, a new authorization satisfying the requirements of subparagraph (c) of this paragraph shall be submitted to the City Manager or Water Resources Director prior to or together with any reports to be signed by an authorized representative.

(Ord. No. 5959, § 2, 8-25-25)

8-4-20: MORE STRINGENT FEDERAL REQUIREMENTS TO CONTROL

Upon the effective date of any categorical standards for a particular industrial subcategory, the federal standard shall immediately supersede these limitations if it is more stringent than limitations imposed under this Chapter. (Ord. No. 5959, § 2, 8-25-25)

8-4-21: PRETREATMENT; MAINTENANCE OF FACILITIES AND BYPASS

(A) Where pretreatment facilities are provided for wastewater, the facilities shall be maintained continuously in satisfactory and effective operation by the owner at the owner's expense. The owner shall keep written records of all cleaning, repair, calibration, and maintenance required under this Subsection. The owner shall keep such records at the facility for a minimum of three (3) years.

(B) All bypasses are prohibited except in the following circumstances:

1. The bypass is unavoidable to prevent loss of life, personal injury, or substantial property damage;
2. No feasible alternatives to the bypass exist; or
3. The purpose of the bypass is maintenance which is essential to assure efficient operation and the bypass will not cause the exceedance of an effluent limitation contained in an NPDES Permit.

(C) If a permittee has prior knowledge of the need for a bypass, the permittee shall submit written notice of such fact to the City Manager or Water Resources Director at least ten (10) days before the date of the bypass. If an unanticipated bypass occurs, the permittee shall notify the City Manager or Water Resources Director within twenty-four (24) hours of receiving knowledge of the bypass and shall submit within five (5) days a written report to the City Manager or Water Resources Director specifying all of the following information:

1. A description of the bypass, including its cause and duration;
2. Whether the bypass has been corrected, and if not, specific plans, including time frames, to correct it; and
3. The steps being taken or to be taken to reduce, eliminate, and prevent a reoccurrence of the bypass.

(Ord. No. 5959, § 2, 8-25-25)

8-4-22: INTERCEPTORS

(A) Interceptors such as grease, oil, or sand shall be provided for laundries, restaurants, service stations, auto repair shops, carwashes, and other facilities when the City Manager or Water Resources Director determines that they are necessary for the proper handling of liquid wastes containing grease or oil in excessive amounts or any flammable wastes, sand, and other harmful ingredients.

(B) All interceptors shall be of a type and capacity approved by the City Manager or Water Resources Director and shall be located as to be readily and easily accessible for cleaning and inspection.

(C) Interceptors such as grease, oil, or sand shall be constructed of impervious materials capable of withstanding abrupt and extreme changes in temperature. They shall be of substantial construction, watertight, and equipped with easily removable covers. When bolted covers are required, they shall be gastight and watertight.

(D) Where installed, interceptors such as grease, oil, or sand shall be maintained by the owner, at the owner's expense, in continuously efficient operation at all times. The owner shall keep written records and documentation of all cleaning, repair, calibration, and maintenance required to demonstrate compliance with this Section. Records shall be kept at the facility for a minimum of three (3) years and shall be made available to the City Manager or Water Resources Director upon his request.

(E) The method for determining the size of traps or interceptors is the drainage fixture unit value. The minimum size for all interceptors is a capacity of five hundred (500) gallons and the maximum size for all interceptors is a capacity of twenty-five hundred (2,500) gallons. Interceptors must be constructed with at least two (2) chambers. Sizing for all traps is a minimum of a fifty (50) gallon per minute, one hundred (100) pound capacity with the flow control valve installed in a manner that provides access at all times. The appropriate size and traps is determined as follows:

(1) *Interceptor Sizing.* The interceptor shall be sized using the drainage fixture-unit value as defined in the following table. Using the drain outlet or trap size, these sizes are converted to discharge rates on the basis that one fixture-unit equals 7.5 gpm.

Fixture Outlet or Trap Size (Inches)	**Drainage Fixture-Unit Value**	**gpm Equivalent**
1¼	1	7.5
1½	2	15.0
2	3	22.0
2½	4	30.0
3	5	37.5
4	6	45.0
Dishwashers	Double Size	

(2) *Calculating Interceptor Size.* The formula to calculate the size of the interceptor is:

a. Determine total fixture-unit value by multiplying fixture type count by drainage value;

b. Total all values;

c. Determine total flow by multiplying total value by flow rate of 3 gpm;

d. Multiply total flow by 12; and

e. Round up to the next nearest size interceptor.

(3) *Requirements for Interceptors.* The interceptor shall be:

a. A minimum of five hundred (500) gallon capacity, two (2) chamber concrete container (fiber glass and/or other type material must be approved by the City Manager or Water Resource Director or Designee);

b. When calculated to have a capacity of seven hundred fifty (750) gallons or more, the interceptor must have three (3) chambers, each with a manway;

c. Constructed with inlet piping with a ninety degree (90°) elbow and minimum of an eighteen (18) inch down spout;

d. Constructed with outlet piping with a tee connection and a threaded cover with a minimum of an eighteen (18) inch down spout;

e. Installed with a two (2) way clean-out within five (5) feet before and five (5) feet after the interceptor; and

f. Constructed with the appropriate traffic rated cover. The cover(s) must not be marked with any wording indicating it is owned by the City of Mesa.

(4) *Grease Trap Installation and Sizing.* Grease traps are allowed only when there are four (4) or fewer than four (4) fixtures used for food preparation. Any facility installing a dishwasher shall install a grease interceptor. For sizing a grease trap, a fixture means the entire unit, e.g., a three (3) compartment sink is considered one unit. Grease traps must be installed as follows:

a. A grease trap shall be installed whenever a three (3) compartment sink is required by Maricopa County;

b. The minimum size grease trap to be installed shall be rated no smaller than fifty (50) gallon-per-minute with a one hundred (100) pound grease capacity;

c. A flow restriction valve shall be installed upstream of the grease trap and vented properly. If placed below floor level the flow restriction valve must be installed in a manner which allows for inspection and maintenance; and

d. Except for domestic sources, users shall not install or replace equipment designed to convert garbage or solid waste into liquefied waste and introduce such waste into the POTW by means of a garbage grinder/disposal. Disposal of garbage and solid waste shall be disposed of as solid waste.

(Ord. No. 5959, § 2, 8-25-25)

8-4-23: CONTROL MANHOLES

When required by the City Manager or Water Resources Director, the owner of any property served by a building sewer carrying any liquid or free-flowing wastewater, excluding uncontaminated water but including cooling water, resulting from any industrial or manufacturing process or from the development, recovery, or processing of natural resources, with or without SS, shall install a suitable control manhole in the building sewer to facilitate observation, measurement, and sampling of the wastes. Such manhole shall be accessible, safely located, and constructed in accordance with plans approved by the City Manager or Water Resources Director. The manhole shall be installed by the owner at the owner's expense.
(Ord. No. 5959, § 2, 8-25-25)

8-4-24: RIGHT OF ENTRY FOR INSPECTION

(A) Any authorized employee of the Water Resources Department shall have free access, upon presentation of credentials and at all reasonable hours, to all commercial or industrial premises connected to the City

sewer system service area for the purpose of assessing applicability and/or compliance with the requirements of this Chapter. For purposes of this Section, "free access" shall be the ability of City personnel to enter POTW user facilities under safe and nonhazardous conditions with a minimum of delay to inspect any and all parts of the user's facility.

(B) Any POTW user or potential user shall allow all actions, including inspection, monitoring, and copying of records, reasonably needed by the City Manager or Water Resources Director to perform the duties required or needed under this Chapter.

(C) Servicemen, industrial wastewater inspectors, sanitary engineers, or other employees of the Water Resources Department whose duty it may be to enter upon commercial or industrial premises to make inspections and collect samples or measure the quantity of wastewater discharged to the City sewer shall be provided with credentials to identify them as authorized representatives for the Water Resources Department.

(D) No person except an authorized employee of the Water Resources Department shall have or exhibit any credentials of the Water Resources Department. It shall be the duty of each employee of the Water Resources Department upon resignation or dismissal to deliver and surrender at the office of the City Manager or Water Resources Director all credentials of the Water Resources Department in the employee's possession.

(Ord. No. 5959, § 2, 8-25-25)

8-4-25: DETERMINATION OF WASTEWATER QUALITY

(A) Testing by direct sampling, utilizing recognized field techniques, equipment, and procedures, will be used for all industrial users. Wastewater characteristics shall be determined by the City Manager or Water Resources Director on the basis of monitored wastewater discharged, a certified statement from the user, or on the best available data as to the characteristics of such discharges.

(B) If it is determined through testing that a significant variation exists between the user's certified data and the discharge characteristics monitored by the City Manager or Water Resources Director, the City may adjust the sewer use charge based on the monitored data from the original date of certification unless written communication has occurred notifying the Water Resources Department of changes in loading and giving specific dates of changes.

(C) Where sampling and gauging of a specific user is not practical for physical, economic, safety, or other reasons, the City Manager or Water Resources Director may designate values for concentrations of the wastewater discharged to the POTW for all users in the same standard industrial classification or subclassification.

(Ord. No. 5959, § 2, 8-25-25)

8-4-26: CONFIDENTIAL INFORMATION

Information and data on a POTW user obtained from inspections, reports, questionnaires, permit applications, permits, and monitoring programs shall be available to the public or other governmental agencies without restriction unless the user specifically requests and is able to demonstrate to the satisfaction of the City that the release of such information would divulge information, processes, or methods of production entitled to protec-

tion as trade secrets of the user. However, all information shall be made available upon written request by governmental agencies for uses related to this Chapter, the NPDES Permit, State Disposal System Permit, and/or the pretreatment programs, including judicial review or enforcement proceedings involving the person furnishing the report. Wastewater constituents and characteristics will not be recognized as confidential information. To claim this trade secret protection, the user must specify at the time of submitting reports or information that part he desires to protect.
(Ord. No. 5959, § 2, 8-25-25)

8-4-27: AUTHORITY OF THE CITY MANAGER OR WATER RESOURCES DIRECTOR TO REGULATE AND ENFORCE POTW USER COMPLIANCE

The City Manager or Water Resources Director is authorized to regulate and enforce POTW user compliance with the requirements of this Chapter. In carrying out this responsibility, the City Manager or Water Resources Director has authority to:

(A) Consistent with applicable state and federal requirements, such as the pretreatment standards:

1. Regulate the volume and flow rate of discharge to the POTW;

2. Establish permissible limits of concentration for various specific substances, materials, waters, or wastes that can be accepted into the POTW;

3. Specify those pollutants, materials, waters, or wastes that are prohibited from entering the POTW. All prohibitions so established shall be placed on file with the City Clerk and will become effective and enforceable on the thirty-first (31st) day after the date of filing;

4. Establish limitations for individual users or class of users for various pollutants, materials, waters, or wastes that can be accepted into the POTW. All limitations so established shall be placed on file with the City Clerk and will become effective and enforceable on the thirty-first (31st) day after the date of filing;

5. Identify those pollutants, materials, waters, or wastes that shall be controlled with best management practices. Pollutants, materials, waters, or wastes to be controlled with best management practices that have been identified by the City Manager or Water Resources Director shall be placed on file with the City Clerk and will become effective and enforceable on the thirty-first (31st) day after the filing;

6. Require individual users or class of users to implement best management practices for any pollutant, materials, water, or waste;

7. Regulate the admission into the public sewers of any wastewater having one (1) or more of the following characteristics:

   (a) A five- (5-) day biochemical oxygen demand greater than three hundred (300) milligrams per litre by weight;

   (b) More than three hundred fifty (350) milligrams per litre by weight SS; or

   (c) An average daily flow of greater than twenty-five thousand (25,000) gallons.

(B) Issue an Industrial Wastewater Discharge Permit pursuant to Section 8-4-18 of the Mesa City Code.

(C) Incorporate the pertinent requirements of this Chapter into every City contract with any POTW user located outside of the municipal jurisdiction of the City. Such contracts may also provide for liquidated damages and, if applicable, specific performance as remedies for breach of contract.

(D) Receive and analyze all self-monitoring reports and notices submitted by industrial users.

(E) Randomly sample and analyze effluent for industrial users at least once a year and conduct those surveillance and inspection activities needed to identify, independently of any information supplied by such users, occasional or continuing noncompliance with any categorical standard or pretreatment requirement.

(F) Investigate instances of noncompliance with any categorical standard or pretreatment requirement when notice of any actual or probable noncompliance has been received by the City Manager or Water Resources Director.

(G) Notify POTW users of noncompliance with categorical standards or pretreatment requirements discovered by the City Manager or Water Resources Director. Such notice shall also contain a demand for any appropriate corrective action which is necessary to meet the applicable requirements of this Chapter. The appropriate level of action shall be based on detailed written procedures developed by the Department.

1. Any POTW user will be allowed an opportunity to respond to an order of the City Manager or Water Resources Director before any enforcement action against such user is initiated unless the discharge is a threat to the public health, safety, or welfare, in which case the City Manager or Water Resources Director may initiate enforcement action without giving notice.

2. A timely and satisfactory response to an order may result in the issuance of a negotiated settlement agreement signed jointly by the user and the City Manager or Water Resources Director indicating a mutually agreeable resolution of the noncompliance action. If such a settlement agreement is reached, the City Manager or Water Resources Director shall provide notice in the largest daily newspaper published in the City of the agreement and a thirty- (30-) day public comment period on the agreement. If no public comments are received on the settlement agreement, the agreement shall become final and effective thirty-one (31) days after the notice publication date. Any public comments received by the City Manager or Water Resources Director shall be responded to in writing and mailed to the commenting party and the affected POTW user. A determination by the City Manager or Water Resources Director that no changes are necessary to the settlement agreement shall result in the agreement becoming final and effective upon the issuance of the City Manager or Water Resources Director's written response. If the City Manager or Water Resources Director determines that public comment warrants any modification to the settlement agreement, then an attempt shall be made to renegotiate the agreement. If a modified settlement agreement is reached, the City Manager or Water Resources Director shall determine whether the modification significantly alters the substance of the initial settlement agreement. The modified settlement agreement shall become final and effective if the City Manager or Water Resources Director determines that no significant alteration occurred. The City Manager or Water Resources Director shall repeat the public notice process described in this paragraph for a modified settlement agreement that has been significantly altered.

(H) Comply with the public participation requirements of 40 CFR Part 25 in connection with the City's enforcement of any categorical standards.

(I) Both:

1. Determine which actual or threatened discharge to the POTW will cause interference with the POTW or may present an imminent or substantial endangerment to the health or welfare of any person and/or to the environment, and

2. Correct or mitigate any injury to the environment, the POTW, or to any other property as a result of any discharge in violation of a categorical standard or pretreatment requirement imposed by this Chapter.

(J) Annually publish in the largest daily newspaper published in the City public notice of all industrial users who at least once during the preceding twelve- (12-) month period were in significant noncompliance with any categorical standard or pretreatment requirement imposed by this Chapter. The notification also shall summarize any enforcement actions taken against such users during the same twelve- (12-) month period.

(K) Notify industrial users of applicable categorical standards and any applicable requirements under CWA §§ 204(b) and 405 and Subtitles C and D of the Resource Conservation and Recovery Act.

(L) Keep on file one (1) copy of all federal statutes and regulations cited by this Chapter in order to allow required users adequate opportunity to be informed of the applicable federal requirements herein incorporated by reference.

(M) Evaluate at least once every two (2) years whether each significant industrial user needs a plan to control slug loads. The results of such activities shall be available to the approval authority upon request. If the City Manager or Water Resources Director decides that a slug control plan is needed, the plan shall contain all of the following elements:

1. Description of discharge practices, including nonroutine batch discharges;

2. Description of stored chemicals;

3. Procedures for immediately notifying the City Manager or Water Resources Director of slug discharges, including any discharge that would violate a prohibition under 40 CFR § 403.5(b), with procedures for follow up written notification within five (5) days. The written report must detail the cause of the discharge and the measures to be taken by the user to prevent similar future occurrences. Such notification will not relieve the user of any expense, loss, damage, or other liability that might be incurred as a result of damage to the POTW, natural resources, or any other damage to person or property; nor will such notification relieve the user of any fines, penalties, or other liability that may be imposed pursuant to this chapter.

4. Procedures to prevent adverse impact from accidental spills, including inspection and maintenance of storage areas, handling and transfer of material, loading and unloading operations, control of plant site run-off, worker training, building of containment structures or equipment, measures for containing toxic organic pollutants (including solvents), and/or measures and equipment for emergency response.

(N) Require both:

1. The development of a compliance schedule by each industrial user for the installation of technology required to meet applicable pretreatment requirements, and

2. The submission of all notices and self-monitoring reports from industrial users as are necessary to assess and assure compliance by industrial users with pretreatment requirements, including the reports required in 40 CFR § 403.12.

(O) If the City Manager or Water Resources Director determines that it will not harm the POTW, approve the discharge of storm water, surface water, groundwater, roof runoff, subsurface drainage, single-pass cooling water, or condensate that may constitute inflow.

(Ord. No. 5959, § 2, 8-25-25)

8-4-28: VIOLATIONS; RESTRICTION OF SEWER SERVICE

(A) Failure to comply with any of the requirements of this Chapter may result in the following actions:

1. The City Manager or Water Resources Director may restrict or otherwise limit allowable discharges.

2. The City Manager or Water Resources Director may suspend or revoke any Industrial Wastewater Discharge Permit issued to a permittee.

3. The City Manager or Water Resources Director may discontinue water and/or sewer service to the premises, and such service shall not be restored until such violations have been discontinued or eliminated and all outstanding charges paid.

   (a) Before discontinuing water and/or sewer service as provided herein, the City Manager or Water Resources Director shall give written notice to the person of the discontinuance and an opportunity to appear before the City Manager or Water Resources Director on any disputed matter relative to the discontinuance of sewer service.

   (b) However, the City Manager or Water Resources Director may abate any actual or threatened discharge which would violate any categorical standard or pretreatment requirement imposed by this Chapter by promptly plugging or disconnecting the sewer service.

   (c) The discontinuance of sewer service shall be accomplished by physically cutting and blocking the building connection. The cost of reconnecting the sewer service will be assessed and shall be paid to the Water Resources Department.

(B) Upon notice of a final determination by the City Manager or Water Resources Director of an assessment owing or order to correct a violation under this Chapter, the responsible party shall tender the fee assessed and correct the violation within ten (10) days of the date ordered. In the event the violation is not corrected or the assessment is not tendered, it is hereby declared to be, and is, a public nuisance which may be abated by injunctive relief in the Superior Court or by other order of a court of competent jurisdiction. Such action shall be in addition to any other remedy authorized by this Chapter.

(Ord. No. 5959, §§ 2, 3, 8-25-25)

8-4-29: VIOLATIONS; ADMINISTRATIVE PENALTIES

(A) Any person who violates any provision of this Chapter or any order enforcing the provisions of this Chapter may be assessed an administrative penalty by the City Manager in an amount not to exceed twenty-five thousand dollars ($25,000) for each violation. Each day that a violation continues shall constitute a separate violation.

(B) In determining the amount of an administrative penalty, the City Manager shall consider all of the following:

1. The seriousness of the violation;
2. The economic benefit, if any, resulting from the violation;
3. Any history of such violation;
4. Any good faith efforts to comply with the applicable requirements;
5. The economic impact of the penalty on the violator; and
6. Such other factors as justice may require.

(C) The City Manager or Water Resources Director shall provide written notice and an opportunity to be heard to any person assessed an administrative penalty under this Section. Within fifteen (15) days of receipt of the notice, such person shall pay the penalty or file a written request for a hearing with the City Manager. If a hearing is held, the City Manager shall issue a written decision, and such decision shall be final.

(D) The assessment of administrative penalties under this Section shall not limit the availability or imposition of other penalties, remedies, or sanctions under the law or this Chapter.

(Ord. No. 5959, §§ 2, 3, 8-25-25)

8-4-30: VIOLATIONS; CIVIL AND CRIMINAL ACTIONS

The City Manager may request that the City Attorney commence criminal and/or civil action against any POTW user violating any requirement of this Chapter, including an action pursuant to A.R.S. § 49-391 to enforce the collection of administrative penalties assessed under Section 8-429 of the Mesa City Code.

(Ord. No. 5959, §§ 2, 3, 8-25-25)

8-4-31: ENFORCEMENT OF CHAPTER

(A) The requirements of this Chapter are made for the benefit of the POTW users, for the protection of the POTW, and to protect the quality of effluent. Their enforcement shall in no case be willfully ignored by any City official or employee.

(B) Upon written request from any person for an exemption from a requirement contained in this Chapter, the City Manager or Water Resources Director may determine whether the requirement would cause a gross injustice to a particular POTW user and whether it is in the public interest to grant the exemption. The City

Manager or Water Resources Director shall explain in writing to the person seeking the exemption the ultimate determination granting or denying the request. Under no circumstances may an exemption be sought or granted from requirements imposed by applicable state and federal laws.

(Ord. No. 5959, § 2, 8-25-25)

CHAPTER 5
STORM WATER POLLUTION CONTROL

8-5-1: DEFINITIONS

The following terms as used in this Chapter shall mean: (2774, 5062/Reso. 6528)

A.A.C. (ARIZONA ADMINISTRATIVE CODE): Official compilation of rules that govern state agencies, boards and commissions. (5062)

A.R.S. (ARIZONA REVISED STATUTES): Statutory laws in the State of Arizona. (5062)

AZPDES STORM WATER PERMIT: A permit issued by any agency of the State of Arizona having appropriate authority over the Arizona Pollutant Discharge Elimination System which authorizes the discharge of storm water pursuant to the C.W.A. (5062)

BEST MANAGEMENT PRACTICES: Schedules of activities, prohibitions of practices, structural and nonstructural controls, operational and maintenance procedures, and other management practices to prevent or reduce the discharge of pollutants to waters of the United States to the maximum extent practicable. (5062)

CITY: City of Mesa, Arizona. (2774/Reso. 6528)

CITY MANAGER: The City Manager appointed in accordance with Article III of the Mesa City Charter. (2774, 5062/Reso. 6528)

CITY STORM SEWER SYSTEM: Those facilities not part of a publicly owned treatment works within the City by which storm water may be conveyed to waters of the United States, including all roads, streets, catch basins, curbs, gutters, ditches, channels, storm drains, retention or detention basins, and drywells that are owned and operated by the City. (2774, 5062/Reso. 6528)

CIVIL HEARING OFFICER: The Mesa Zoning Administrator within the Development and Sustainability Department or such other person as designated by the City Manager. (5062)

C.F.R. (CODE OF FEDERAL REGULATIONS): Codification of the general and permanent rules and regulations published in the Federal Register by the executive departments and agencies of the federal government of the United States. (2774, 5062/Reso. 6528)

C.W.A. (CLEAN WATER ACT): The Federal Water Pollution Control Act Amendments of 1972 (P.L. 92-500; 86 STAT. 816; 33 United States Code Sections 1251 through 1376), as amended [A.R.S. § 49-201(6)]. (2774, 5062/Reso. 6528)

DISCHARGE OF A POLLUTANT: Any addition of any pollutant or combination of pollutants to waters of the United States from any point source. (5062)

HAZARD: A condition that presents a risk to the public health or the environment. (5062)

IMMINENT HAZARD: A condition that presents an immediate likelihood for causing harm to the public health or the environment. (5062)

NOTICE TO ABATE: A notice issued to a responsible party concerning a violation of this Chapter of the Mesa City Code. (5062)

NPDES STORM WATER PERMIT: A permit issued by any agency of the United States having appropriate authority over the National Pollutant Discharge Elimination System which authorizes the discharge of storm water pursuant to the C.W.A. (2774, 5062/Reso. 6528)

PERSON: Any individual, employee, officer, managing body, trust, firm, joint stock company, consortium, public or private corporation, including a government corporation, partnership, association or state, a political subdivision of this state, a commission, the United States government or any federal facility, interstate body or other entity [A.R.S. § 49-201(27)]. (2774, 5062/Reso. 6528)

PROPERTY: Any building, facility, lot, parcel, real estate, or land or portion of land, whether improved or unimproved, and including adjacent sidewalks and parking strips. (2774, 5062/Reso. 6528)

POINT SOURCE: Any discernible, confined and discrete conveyance, including, but not limited to, any pipe, ditch, channel, tunnel, conduit, well, discrete fissure, container, rolling stock, concentrated animal feeding operation, or vessel or other floating craft from which pollutants are or may be discharged to waters of the United States. Point source does not include return flows from irrigated agriculture. (5062)

POLLUTANT: Any fluids, contaminants, toxic wastes, toxic pollutants, dredged spoil, solid waste, substances and chemicals, pesticides, herbicides, fertilizers and other agricultural chemicals, incinerator residue, sewage, garbage, sewage sludge, munitions, petroleum products, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand, cellar dirt and mining, industrial, municipal and agricultural wastes or any other liquid, solid, gaseous or hazardous substances [A.R.S. § 49-201(29)]. (5062)

POTW (PUBLICLY OWNED TREATMENT WORKS): A treatment works owned by this state or a municipality of this state as defined in Section 502(4) of the Clean Water Act [A.R.S. § 49-255(5)]. (5062)

RELEASE: Any direct or indirect spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, placing, leaching, dumping, or disposing of a pollutant to the City storm sewer system. (2774, 5062/Reso. 6528)

RESPONSIBLE PARTY: A person who knows or has reason to know of the existence of any violation of this Chapter on that person's property or property which that person occupies or controls, in whole or in part, including but not limited to an owner, occupant, lessor, lessee, manager, managing agent, licensee or any person who has legal care or control of the property. (5062)

STORM WATER: Storm water runoff, snow melt runoff, and surface runoff and drainage [A.A.C. R18-9-A901(36)]. (2774, 5062/Reso. 6528)

WATERS OF THE UNITED STATES: All waters as defined in 40 C.F.R. 122.2. (5062)

8-5-2: RELEASES AND CONNECTIONS

(A) Unless expressly permitted or exempted by this Chapter, no person shall release, directly or indirectly, to the City storm sewer system. (2774, 5062/Reso. 6528)

(B) The release of pollutants to the City storm sewer system authorized by any AZPDES or NPDES Storm Water Permit or other AZPDES or NPDES permit which is issued to the person who causes the release is permitted under this Chapter. (2774, 5062/Reso. 6528)

(C) Unless identified by the City Manager or designee under Subsection (D) of this Section, the following are exempt from the prohibition set forth in Subsection (A) of this Section: (2774, 5062/Reso. 6528)

1. Releases composed entirely of storm water. (2774, 5062/Reso. 6528)

2. Releases caused by a person from any of the following activities: (2774, 5062/Reso. 6528)

   (a) Water line flushing and other potable water sources; (2774, 5062/Reso. 6528)

   (b) Lawn watering and landscape irrigation; (2774, 5062/Reso. 6528)

   (c) Irrigation water; (2774/Reso. 6528)

   (d) Diverted stream flows; (2774, 5062/Reso. 6528)

   (e) Rising groundwaters; (2774, 5062/Reso. 6528)

   (f) Uncontaminated groundwater infiltration to separate storm sewers; (2774, 5062/Reso. 6528)

   (g) Uncontaminated pumped groundwater; (2774, 5062/Reso. 6528)

   (h) Foundation and footing drains; (2774/Reso. 6528)

   (i) Water from crawl space pumps; (2774/Reso. 6528)

   (j) Air conditioning condensation; (2774, 5062/Reso. 6528)

   (k) Springs; (2774, 5062/Reso. 6528)

   (l) Individual residential car washing; (2774/Reso. 6528)

   (m) Flows from riparian habitats and wetlands; (2774, 5062/Reso. 6528)

   (n) Flows resulting from firefighting activities; or (2774, 5062/Reso. 6528)

   (o) Street wash water; (5062)

(D) No person shall cause a release, directly or indirectly, to the City storm sewer system which is exempted under Subsection (C) of this Section if the City Manager or designee identifies and provides written notice to the person that the release from such person has the potential to result in a discharge of pollutants to waters of the United States. (2774, 5062/Reso. 6528)

(E) No person shall release any pollutant, directly or indirectly, to the City storm sewer system where such release would result in or contribute to a violation of any AZPDES or NPDES Storm Water Permit issued to the City, either separately considered or when combined with other releases. Liability for any such release shall be the responsibility of the person causing or responsible for the release, and the person shall defend, indemnify, and hold harmless the City in all administrative or judicial enforcement actions relating to such release. (2774, 5062/Reso. 6528)

(F) No person shall establish, use, maintain, or continue any direct or indirect connection to the City's storm sewer system which has the potential to result in a violation of this Section. This prohibition is retroactive and shall apply to connections made in the past, regardless of whether they were made under a permit or other authorization or whether they were permissible under the law or practices applicable or prevailing at the time of the connection. (2774/Reso. 6528)

8-5-3: REDUCTION OF POLLUTANTS IN STORM WATER

(A) All persons owning or operating facilities or engaged in activities which will or may reasonably be expected to result in the release of pollutants to the City storm sewer system, either directly or indirectly, shall undertake appropriate best management practices to minimize the release of such pollutants to the maximum extent practicable. (2774, 5062, 5144/Reso. 6528)

(B) No person shall throw, deposit, leave, maintain, keep, or permit to be thrown, deposited, left, maintained, or kept, except in appropriate containers or in lawfully established dumping grounds, any refuse, rubbish, garbage, or other discarded or abandoned objects, articles, and accumulations into or upon any component of the City storm sewer system or upon any public property. Additionally, no person shall do the same upon any private property in such a manner that could reasonably result in the release of pollutants to the City storm sewer system. (2774, 5062/Reso. 6528)

(C) Persons owning or operating a parking lot, storage or loading area, or similar property which is exposed to rainfall shall maintain those properties in a manner so that any release from such properties does not cause or contribute to a violation of Section 8-5-2. (2774, 5062/Reso. 6528)

(D) Any person performing construction activities shall undertake appropriate best management practices to minimize the release of pollutants and sediment to the maximum extent practicable. Such best management practices shall include the requirements imposed by both of the following: (2774, 5062/Reso. 6528)

1. This Chapter; and (2774, 5062/Reso. 6528)

2. For construction operations at City projects or occurring in the City of Mesa public right-of-way that are required to comply with and AZPDES or NPDES Storm Water Permit, that certain document known as the Drainage Design Manual for Maricopa County, Erosion Control dated November 28, 2012, a public record of the City of Mesa together with the following appendices thereto: (2774, 5062, 5144/Reso. 6528)

   Appendix A Construction General Permit (5144)

   Appendix B Forms (5144)

   Appendix C Links and References (5144)

   Appendix D Glossary (5144)

   Appendix E Bibliography (5144)

   Are hereby referred to, adopted, and made a part hereof as if fully set forth in this Section, with the following changes in and amendments to said document: (5144)

   (a) Section 5 Best Management Practices; EC-2: Mulching Emulsified asphalt is not permitted as a mulching option on City properties or for City projects. (5144)

   (b) Section 5 Best Management Practices; EC-3 Protection of Trees and Vegetation in Construction Areas Where plans provide for the preservation of trees and other vegetation, these areas shall be delineated (i.e. staked, flagged, or fenced) to prevent damage from construction equipment and other forms of access. (5144)

   (c) Section 5 Best Management Practices; EC-5 Stabilized Construction Entrance Course aggregate pad dimensions must be a minimum of thirty feet in width, three inches in depth,

and fifty feet in length or the length of the longest haul truck, whichever is greater. Instead of a course aggregate pad, construction site entrance stabilization may also include a paved surface one hundred feet in length and twenty feet in width or a grizzly or rumble grate consisting of raised dividers a minimum of three inches tall, six inches apart, and twenty feet in length. (5144)

(d) Section 5 Best Management Practices; SPC-2 Sand Bag Barrier Sand bags may not be used for the purposes of inlet protection. Where sand bags are used for other purposes, they shall be delineated (i.e. staked and flagged) to keep construction equipment from damaging these structures. Sand bags must be inspected on at least a weekly basis to ensure they have not ruptured and the sand has become a stormwater pollutant. (5144)

(e) Section 5 Best Management Practices; SPC-5 Silt Fence For projects greater than five acres requirements regarding perimeter control of the construction activity as provided in any applicable stormwater permit shall be met through the use of silt fences excepting those areas of high flow, construction site entrances, areas where perimeter control are impracticable (i.e. projects in the public right-of-way); and areas where all stormwater flows are directed to an on-site temporary sediment basin or sediment trap. (5144)

(f) Section 5 Best Management Practices; SPC-6 Re-Vegetation Where plans provide for re-vegetation, installation of such vegetation shall take place as soon as practicable and these areas shall be delineated (i.e. staked, flagged, or fenced) to prevent damage from construction equipment and other forms of access. (5144)

(g) Section 5 Best Management Practices; SPC-7 Storm Drain Inlet Protection To prevent flooding issues, storm drain inlet protection should only be used when sufficient construction site perimeter control is not possible (e.g. utility installations in public roadways or other public right-of-way areas). City of Mesa personnel may remove any storm drain inlet protection device where flood conditions may exist. It is the responsibility of the operator in charge of day-to-day operations to replace or re-install these devices after the threat of flooding has subsided. (5144)

Course gravel and cinder block configurations and sand bags are not to be used to protect storm drains. When installing any storm drain inlet protection that is installed above grade traffic control devices must be placed at the end of both sides of the installation to prevent damage from public and construction traffic, all traffic control devices must be installed in accordance with temporary traffic control requirements as provided in Title 10, Chapter 10 of the Mesa City Code. (5144)

(E) Persons having the potential to cause a release of pollutants to the City storm sewer system and who are required to submit a notice of intent to comply with an AZPDES or NPDES Storm Water Permit shall provide a copy of any approval or statement of authorization from the permitting agency to the City Manager or designee. Where a waiver is available, a copy of that waiver must then be provided in lieu of the approval or statement of authorization. The City will not issue a construction permit nor will verbal authorization be given to proceed with initial grading and drainage operations until the approval or statement of authorization from the permitting agency has been submitted to the City. (2774, 5062, 5144/Reso. 6528)

8-5-4: AUTHORITY TO INSPECT

(A) The Mesa Development and Sustainability Department or such other City division or department as the City Manager may designate is hereby authorized to make inspections for violations of this Chapter in the normal course of job duties or in response to a citizen complaint that an alleged violation of the provisions of this Chapter may exist or when there is a reason to believe that a violation of this Chapter has been or is being committed. (5062)

(B) In order to determine compliance with this Chapter, private property may be entered with the consent of the owner or occupant or as authorized by a court of competent jurisdiction. (5062)

8-5-5: COMMENCEMENT OF AN ACTION

(A) The City Manager or designee is authorized to commence and enforcement action under this Chapter by issuing a notice of abatement under this Chapter or a citation for civil sanctions under this Chapter, or both. They may also seek the issuance of a compliant by the Mesa City Prosecutor for criminal prosecution of habitual offenders as defined in this Chapter. (5062)

(B) Nothing in this Section shall preclude City employees from seeking voluntary compliance with the provisions of this Chapter or from enforcing this Chapter through notices of violation, warnings, or other informal devices designed to achieve compliance in the most efficient and effective manner under the circumstances. (5062)

8-5-6: REMEDIES NOT EXCLUSIVE

Violations of this Chapter are in addition to any other violation established by law, and this Chapter shall not be interpreted as limiting the penalties, actions or abatement procedures which may be taken by the City or other persons under other laws, ordinances, or rules. (5062)

8-5-7: DEFENDANTS AND RESPONSIBLE PARTIES

Any responsible party who causes, permits, facilitates, aids, or abets any violation of this Chapter or who fails to perform any act or duty required pursuant to this Chapter, is subject to the enforcement provisions of this Chapter. Responsible parties may be individually and jointly responsible for the violations, the prescribed civil or criminal sanctions, for abatement of the violation and for any associated costs and fees. (5062)

8-5-8: CIVIL VIOLATIONS AND CITATION

(A) A civil action for violations of this Chapter may be commenced by issuance of a citation. (5062)

(B) The citation will be substantially in the form established by the City Manager or designee. The citation shall advise the responsible party of the violation(s) committed, either by written description of the violations or by designation of the City Code section that was violated. The citation shall direct the responsible party to pay the civil sanction and all applicable fees in accordance with Section 8-5-9 of this Chapter within the time period specified on the citation or to appear before the Civil Hearing Officer within the time period specified on the citation and admit or deny the allegations contained in the citation.

The Civil Hearing Officer may permit amendments to the citation if substantial rights of the responsible party are not thereby prejudiced. The citation shall be served pursuant to the Arizona Rules of Civil Procedure. (5062)

(C) The responsible party shall, within the time period specified on the citation or within 10 calendar days of the issuance of the citation, whichever is greater, either pay the civil sanction and the fees, or appear in person, through an attorney or by e-mail with the clerk of the Civil Hearing Officer and admit or deny the allegations contained in the citation. (5062)

1. If the responsible party timely pays the civil sanction and the fees, either in person or by mailing payment to the City, the allegations in the citation shall be deemed admitted and such person shall be deemed responsible for having committed the offense(s) described in the citation. If the responsible party appears in person, through an attorney or by e-mail and admits the allegations, the Civil Hearing Officer shall enter judgment against the responsible party in the amount of the civil sanction, plus any applicable fees designated in Section 8-5-9; or, (5062)

2. If the responsible party appears in person, through an attorney or by e-mail and denies the allegations contained in the citation, the clerk of the Civil Hearing Office shall set the matter for hearing. (5062)

(D) If a person served with a citation fails to pay the civil sanction and the fees or to file on or before the time directed on the citation or at the time set for hearing by the Civil Hearing Officer, the allegations in the complaint shall be deemed admitted, and the Civil Hearing Officer shall enter a finding of responsible and a judgment for the City and impose the appropriate sanctions and fees. (5062)

(E) All proceedings before the Civil Hearing Officer shall be informal and without a jury, except that testimony shall be given under oath or affirmation. The technical rules of evidence do not apply, except for statutory provisions relating to privileged communications. If the allegations in the citation are denied, the City is required to prove violations of this Chapter by a preponderance of the evidence. No prehearing discovery shall be permitted, except under extraordinary circumstances as determined by the Civil Hearing Officer. The Civil Hearing Officer is authorized to make such orders as may be necessary or appropriate to fairly and efficiently determine the truth and decide the case at hand. An appeal from final judgments of the Civil Hearing Officer may be taken pursuant to the Arizona rules of civil procedure for special actions. (5062)

(F) Any person aggrieved by a decision of the Civil Hearing Officer, at any time within 30 calendar days after a final judgment has been rendered, may file a complaint of special action in Superior Court to review the Civil Hearing Officer's decision. Filing the complaint does not stay proceedings on the decision sought to be reviewed, but the court may, on application, grant a stay and on final hearing, affirm or reverse, in whole or in part, or modify the decision reviewed. (5062)

8-5-9: CIVIL PENALTIES

(A) Any responsible party who is found responsible for a civil violation of this Chapter, whether by admission, default, or after a hearing, shall pay a civil sanction of not less than $150 or more than $1,500. A second finding of responsibility within 36 months of the commission of a prior violation of this Chapter shall result in an enhanced civil sanction of not less than $250 or more than $2,500. A third finding of responsibility within 36 months of the commission of a prior violation of this Chapter shall result in an

enhanced civil sanction of not less than $500 or more than $2,500. In addition to the civil sanction, the responsible party shall pay the applicable fees and charges set forth in the City's Development and Sustainability Department (Code Compliance) Schedule of Fees and Charges, and may be ordered to pay any other applicable fees and charges. (5062)

(B) After entering a judgment of responsible and setting a civil sanction and fees as specified in Section 8-5-9(A), the Civil Hearing Officer may order a compliance hearing and set a date for such hearing. Upon presentation of evidence and/or testimony by the City inspector at the compliance hearing that the violation(s) specified in the complaint has been abated, the Civil Hearing Officer may reduce all or a portion of the civil sanction commensurate with the cost borne by the defendant to achieve compliance, or the Civil Hearing Officer may vacate the previous judgment and dismiss the citation(s). If, a minimum of 7 calendar days before a scheduled compliance hearing, the Civil Hearing Officer receives both of the following items, then the Civil Hearing Officer may issue written orders commensurate with the authority given in this Section, to reduce civil sanctions and/or vacate the related judgment without holding the scheduled compliance hearing: (5062)

1. Written and notarized confirmation from the City inspector that the violation has been successfully abated, and (5062)

2. A written and notarized statement from the defendant describing the actions taken and the itemized costs borne to abate the violation. (5062)

If either item has not been received by the Civil Hearing Officer 7 calendar days before, then the compliance hearing shall take place as previously scheduled. (5062)

(C) The 36 month provision of paragraph (A) of this Section shall be calculated by the dates the violations were committed. The responsible party shall receive the enhanced sanction upon a finding of responsibility for any violation of this Chapter that was committed within 36 months of the commission of another violation for which the responsible party was convicted or was otherwise found responsible, irrespective of the order in which the violations occurred or whether the prior violation was civil or criminal. (5062)

(D) Each day in which a violation of this Chapter continues or the failure to perform any act or duty required by this Chapter or by the Civil Hearing Officer continues shall constitute a separate civil offense. (5062)

8-5-10: RESERVED

8-5-11: HABITUAL OFFENDER

(A) A person who commits a violation of this Chapter after previously having been found responsible for committing civil violations of this Chapter on 3 separate dates and within a 36 month period, whether by admission, by payment of the fine, by default, or by judgment after hearing, shall be guilty of a Class 1 criminal misdemeanor. The Mesa City Prosecutor is authorized to file a Class 1 criminal misdemeanor complaint in the Mesa City Court against habitual offenders. For purposes of calculating the 36 month period under this paragraph, the dates of the commission of the offenses are the determining factor. (5062)

(B) Upon conviction of a violation of this Section, the court may impose a sentence authorized by the laws of the State of Arizona for a Class 1 misdemeanor, including incarceration not to exceed 6 months in jail or a fine not to exceed $2,500, exclusive of penalty assessments prescribed by law, or both. The court shall

order a person who has been convicted of a violation of this Section to pay a fine of not less than $500 for each count upon which a conviction has been obtained and be placed on probation for up to 36 months. The court may reduce such fines to $250 for each count upon which a conviction has been obtained provided all violations have been abated and the site is in compliance with all sections of this Chapter within 90 days of sentencing. (5062)

(C) Every action or proceeding under this Section shall be commenced and prosecuted in accordance with the laws of the State of Arizona relating to criminal misdemeanors and the Arizona Rules of Criminal Procedure. (5062)

8-5-12: FAILURE TO PROVIDE EVIDENCE OF IDENTITY

A person who fails or refuses to provide evidence of his identity to a duly authorized agent of the City upon request, when such agent has reasonable cause to believe the person has committed a violation of this Chapter, is guilty of a misdemeanor. Evidence of identity under this Section shall consist of a person's full name, residence address, and date of birth. (5062)

8-5-13: ABATEMENT

(A) In addition to or in lieu of filing a civil citation or criminal complaint, the City may serve a notice to abate any violation of this Chapter. (5062)

(B) The notice to abate shall set forth the following information: (5062)

1. The responsible party has 30 calendar days from service of the notice to abate or correct the violation. (5062)
2. Identification of the property in violation by street address, if known, and if unknown, then by legal description of the property or by Maricopa County book, map, and parcel number. (5062)
3. Statement of the violation in sufficient detail to allow a reasonable person to identify and correct the violation(s). (5062)
4. Reinspection date and time. (5062)
5. Name, business address, and business phone number of the City inspector who issued the notice to abate. (5062)
6. A warning stating that if the violations are not corrected within the 30 calendar day period, the City may abate the problem itself or by private contractor, assess the responsible party for the cost of such abatement, and record a lien on the property for the assessment. (5062)
7. Hearing procedures. (5062)
8. Statement indicating that the 30 calendar day notice set forth in this Section shall not apply to emergency abatements pursuant to this Chapter. (5062)

(C) If the responsible party or other person served a notice to abate by the City pursuant to this Chapter fails to comply with such notice; the City may correct or abate the conditions subject to the notice if those conditions constitute a hazard. If the City corrects or abates those conditions, the City Manager or designee may prepare a verified statement as to the actual cost of correcting or abating the violation,

including costs of inspection and other City-incurred costs associated with abating the violation. The statement shall be served pursuant to the Arizona Rules of Civil Procedure. That statement shall further set forth the following: (5062)

1. That the statement of costs is an assessment upon the lots and tracts of land from which the City corrected or abated the violation. (5062)
2. That the party has 15 calendar days from the date of delivery or mailing of the statement to pay. (5062)
3. In the event payment is not received in 15 calendar days, the City will place a lien on the property in the amount of the assessment. (5062)
4. Appeal procedures. (5062)

(D) The notice to abate and the statement of abatement costs shall be served to the responsible party pursuant to the Arizona Rules of Civil Procedure. (5062)

8-5-14: REQUEST FOR ABATEMENT HEARING

The responsible party receiving a notice to abate under this Chapter or a statement of costs incurred by the City in abating a hazard may appeal by requesting in writing a hearing and by serving such a request to the Development and Sustainability Department within 15 calendar days of service of the notice to abate or the statement of costs. The hearing shall be held before the Civil Hearing Officer as soon as practicable after the filing of the request. An appeal from final judgments of the Civil Hearing Officer may be taken pursuant to the Arizona Rules of Civil Procedure for special actions. If no written and timely request for hearing is made under this Section to the Development and Sustainability Department, then the notice of abatement or statement of costs is final and binding. (5062)

8-5-15: RECORDING AN ABATEMENT VIOLATION

The notice to abate and statement of costs shall run with the land. The City, at its sole option, may record a notice to abate or statement of costs with the Maricopa County Recorder and thereby cause compliance by a person thereafter acquiring such property. When the property is brought into compliance, a satisfaction of notice to abate shall be filed with the Maricopa County Recorder. (5062)

8-5-16: EMERGENCY ABATEMENT

(A) If a situation presents an imminent hazard to life or public safety, the City may issue a notice to abate directing the responsible party to immediately take such action as is appropriate to correct or abate the emergency described in the notice. In addition, the City may act immediately to correct or abate the emergency itself or may commence an action in Superior Court to enjoin the responsible party to abate the imminent hazard. In the event the City is unable to contact the responsible party despite reasonable efforts to do so, it in no way affects the City's right under this Section to correct or abet the emergency itself. (5062)

(B) The City may recover its costs incurred in abating an imminent hazard under this Section in the same manner as provided for in Section 8-5-13(C). The responsible party may appeal the City's emergency abatement action under this Section or the City's statement of costs for an emergency abatement in the same manner as provided for in Section 8-5-14. (5062)

8-5-17: SUSPENSION OF CONSTRUCTION PERMIT OR LICENSE

Any construction permit or license issued by the City which authorizes work resulting in an alleged violation of Section 8-5-2 or Section 8-5-3 of this Chapter may be suspended pending abatement of said violation or final resolution of a civil hearing of the matter. (5062)

CHAPTER 6
PUBLIC NUISANCES, PROPERTY MAINTENANCE, NEIGHBORHOOD PRESERVATION AND ANIMAL REGULATIONS*

ARTICLE I PURPOSE, APPLICABILITY, DEFINITIONS, AND PROHIBITIONS

8-6-1: PURPOSE AND APPLICABILITY

(A) The purpose of this Chapter is to promote the health, safety and welfare of the citizens of Mesa, Arizona by: (5124)

1. Setting minimum standards necessary for the maintenance of improved lots and parcels, buildings, fences or walls, structures, and vacant or unimproved properties in order to safeguard against potential hazards, and reduce occurrences of blight and other influences considered to cause deteriorating conditions, unattractive neighborhoods, and potential loss of property value. (5124)
2. Setting minimum standards for the proper location, control, and care required for the keeping of large animals and livestock within the City's corporate limits. (5124)
3. Providing standards for inspecting the interiors of properties being rented and occupied, based on criteria consistent with and specified by the Arizona Revised Statutes. (5124)

(B) This Chapter shall apply to all land within the City of Mesa without regard to the use or occupancy or the date of acquisition, alteration, or improvement of such land. (5124)

(C) The Code Compliance Administrator or designee shall interpret this Chapter to the public, city departments, and other branches of government subject to the general and specific policies established by the City Council. (5124)

(D) Appeals of the interpretations of this Chapter shall be filed within 30 days of the date of the decision and shall be reviewed by the Board of Adjustment except when the requirement references the Building or Fire Codes or Regulations. (5124)

(Ord. No. 5524, § 1, 8-26-19)

8-6-2: DEFINITIONS

The following words, terms, and phrases, when used in this Chapter, shall have the meanings ascribed to them in this Section, except where the context clearly indicates a different meaning: (5124)

***Editor's note—**Ord. No. 5124 amended Chapter 6 in its entirety to read as herein set out. Former Chapter 6 derived from 3478, 4764, 4765, 4845, 4945, 5030.

ABANDONED OR INOPERABLE VEHICLE: A vehicle physically incapable of its intended operation as evidenced by:

(A) A condition of being partially or wholly dismantled, discarded, wrecked, on blocks or similar devices, stripped, or scrapped; or (5124)

(B) The presence of a deflated tire or tires or from which a wheel or tire has been removed; or (5124)

(C) Being inoperable due to mechanical failure or mechanical disassembly or other reasons which may be evidenced by the lack of a valid license plate lawfully affixed to the vehicle, or by the presence of an expired license plate affixed to the vehicle. (5124)

ACCESSIBLE: Capable of being removed or exposed without damaging the building structure or finish or not permanently closed in by the structure or finish of the building. (5124)

ACCESSIBLE, READILY (READILY ACCESSIBLE): Capable of being reached quickly for inspections without requiring inspectors to climb over or remove obstacles or to use portable ladders or similar tools. (5124)

AUTHORIZED PRIVATE RECEPTACLE: A litter storage and collection receptacle as required and authorized in this Code. (5124)

BIRD FOOD: Grain, seeds, birdseed, breadcrumbs, nuts, dried fruit, food intended for other animals, food scrapes, or garbage not properly disposed of or contained.

BLIGHT: Unsightly, unsafe, or unsanitary conditions including, but not limited to, the accumulation of litter or debris; buildings or structures exhibiting holes, breaks, rot, crumbling, cracking, peeling or rusting materials; general damage to the integrity of the construction of a building or structure; landscaping that exhibits uncontrolled growth or lack of maintenance characterized by bare dirt areas, untended damage to plant and landscape materials, or the continued presence of dead or decaying plants; and any similar conditions of disrepair and deterioration regardless of the condition of other properties in the vicinity or neighborhood.

BUILDING: Any structure used or intended for supporting or sheltering any use or occupancy. (5124)

BUILDING, ENCLOSED: A building with a perimeter composed of rigid walls and a roof. (5124)

BUILDING REGULATIONS: Includes all construction codes in force at the time a building was constructed, altered, remodeled, repaired or enlarged. Including Building Code, Plumbing Code, Mechanical Code, Electrical Code, Residential Construction Code, Energy Conservation Code, Fuel Gas Code, Fire Code with reference to Title 7 for fire and existing building construction codes (such as, but not limited to, those set forth in Title IV, Mesa City Code) and includes any property maintenance codes, neighborhood preservation codes, anti-blight codes (such as, but not limited to, those set forth in this title) or other similar codes, however denominated. (5124)

CITY INSPECTOR: A City of Mesa staff member authorized by the City Manager or his designee to conduct inspections, investigate complaints and file civil actions with the Mesa Civil Hearing Office on matters related to enforcement of the Mesa City Code, and as provided by the Mesa City Code.

CIVIL HEARING OFFICER: The individual designated by the City Manager or his designee to conduct hearings and make rulings on code compliance cases.

COMMERCIAL VEHICLE: Any vehicle having a Gross Vehicle Weight Rating (GVWR) exceeding 13,000 pounds and is intended to be used primarily for commercial purposes in the conduct of a business, rather than for private family or individual use. (5124)

DETERIORATION OR DISREPAIR: A decline of the general condition or appearance of a building, structure, or parts thereof characterized by holes, breaks, rot, crumbling, cracking, peeling, rusting, or any other evidence of physical decay, damage, neglect, or lack of maintenance. (5124)

DRIVEWAY, LEGAL: That area that aligns with the City designated and approved driveway depression in the curb of the public or private street. Where a roll curb or no curb exists and there is no driveway clearly designated, the legal driveway is the area that aligns with the observed designated access to parking for the structure such as a carport or garage. On properties with roll curbs or no curb and with no clearly designated parking area for the structure, the legal driveway shall be as observed and commonly used by the owner of the property, as may be designated by private recorded easements or other methods of ingress and egress, and shall at no time violate the provisions of this Code. (5124)

EUTROPHIC: Waters rich in phosphates, nitrates, and organic nutrients that promote a proliferation of plant life, especially algae. (5124)

FENCE, SCREEN WALL, AND/OR RETAINING WALL: Freestanding, self-supporting structures constructed of durable wood, chain link, metal, masonry, or other standard fencing materials designed to provide privacy, security, screening, or bank retention between grade separations. (5124)

GARAGE SALE: The occasional and/or temporary sale of used or second hand tangible personal property from a residential location. This activity may also be known as a yard sale, carport sale, estate sale or similar type of quasi-commercial indoor or outdoor activity that takes place on residential premises. It shall be considered a commercial use when the garage sale activity takes place on a continuous basis, and/or the activity includes the sale of first hand merchandise manufactured off-premises. (5124)

GARBAGE: An accumulation of spoiled, decaying or discarded animal or vegetable material resulting from the handling, preparation, cooking, or consumption of food for humans or animals, as well as other organic waste material subject to rapid decomposition. (5124)

GRAFFITI: An inscription or drawing carved or drawn on a stationary structure or object so as to be discernible from the public right-of-way and which degrades the beauty and appearance of property. (5124)

GRASS: Barnyard grass, Bermuda grass, bluegrass, brome grasses, crab grass, foxtail, Johnson grass, ragweed, rye grass, St. Augustine, wild oats, or hybrids thereof. (5124)

HAZARD: A condition that presents a risk to the public safety, health or the environment. (5124)

IMMINENT HAZARD: A condition that presents an immediate likelihood for causing harm to the public safety, health, or the environment. (5124)

IMPROVED DUSTPROOF PARKING SURFACE: Concrete, asphalt, "chip seal," crushed rock or aggregate that is a minimum of 3 inches thick. All crushed rock or aggregate must be contained by a permanent border. (5124)

IMPROVED PROPERTY: Land on which buildings or other structures are located. (5124)

INCONGRUOUS MATERIALS, COLORS, AND FINISHES: Exterior surfaces that are not matching, and are inconsistent, incompatible, and discordant with the adjacent exterior surfaces. (5124)

INFESTATION: The presence of biological vectors, including insects, rodents, or other pests identified as carriers of pathogenic bacteria, virus, fungus or similar infectious biological hazards. (5124)

JUNK: Items that are of little or no economic value as the items may exist in their present condition, other than value as salvage, and that are not confined within an industrial area in compliance with the Mesa Zoning Ordinance, such as an accumulation of the following materials: discarded or scrapped furniture; glass, metal, paper, or machinery parts; inoperable machinery or appliances; building material wastes; litter; or discarded or empty containers. Junk shall also include all types of solid waste described in Chapter 3 of Title 8 of the Mesa City Code. (5124)

LAND: All lots, or parcels within the official boundaries of City of Mesa, whether improved or unimproved. (5124)

LANDSCAPED YARD, IMPROVED: Area with planted, configured and maintained landscaping material, such as trees, shrubs, turf, rock, gravel or stone, vegetative ground cover, natural desert landscape, artificial turf, mulch, decorative natural and structural features (walls, fences, hedges, trellises, fountains, sculptures), and bedding material, that serve an aesthetic or functional purpose. (5124)

LIVESTOCK: Domestic animals, such as cattle or horses, raised for home use or for profit. (5124)

NOTICE TO ABATE: A notice issued to a responsible party concerning a violation of the Mesa City Code. (5124)

OCCUPANT: The person occupying or having custody of a structure or premises as a lessee or otherwise. (5124)

OWNER: The person, corporation, limited liability company, partnership, limited partnership, trust or real estate investment trust shown on the lawfully recorded title to the property. (5124, 5274)

PERSON: A human being, enterprise, corporation, association, partnership, firm, limited liability company, limited partnership, trust or real estate investment trust. (5124, 5274)

PIGEON: Means any bird of the family columbidae, including rock doves, pigeons, and doves but excluding domesticated pigeons used for homing, racing, or show, or that are pets fed in a cage.

PLANT GROWTH: Vegetation, whether living or dead, such as grass, weeds, vines, bushes, cactus, or trees. (5124)

POLLUTED: A condition that exists in water and is characterized by bacterial growth, algae, insect infestation, the remains of litter, debris, garbage, or any other foreign matter which, because of its nature or location, constitutes an unhealthy, unsafe, or unsightly condition. (5124)

PUBLIC PLACE: Any street, sidewalk, boulevard, alley, right-of-way, or other public way and any public park, square, space, ground, or building. (5124)

RECREATIONAL VEHICLE: A vehicle built on a single chassis, 400 square feet or less in size; designed to be self-propelled or permanently towed by any vehicle and is primarily designed as temporary living quarters for recreational camping or seasonal use.

RESIDENTIAL RENTAL PROPERTY: Property that is used solely as leased or rented property for residential purposes. If the property is a space rental mobile home park or a recreational vehicle park, "residential rental

property" includes the rental space that is leased or rented by the owner of that rental space but does not include the mobile home or recreational vehicle that serves as the actual dwelling if the dwelling is owned and occupied by the tenant of the rental space and not by the owner of the rental space. The term also includes any property defined as a residential rental dwelling unit by state law. (5124)

RESPONSIBLE PARTY: A person who knows or has reason to know of the existence of any violation of this Chapter on property owned by that person, or on property that person occupies or controls, in whole or in part, including but not limited to an owner, occupant, lessor, lessee, manager, managing agent, licensee or any person who has legal care or control of the property or right-of-way appurtenant and adjacent to such property.

RIGHT-OF-WAY: An area of land which by deed, conveyance, agreement, easement, dedication, usage or process of law is reserved or dedicated to the city for public purposes including, but not limited to, street, highway, alley, public utility, pedestrian walkway, bikeway, or drainage.

SERVICE: Methods of delivering official notice to a responsible party of an alleged civil violation of the Mesa City Code, as specified by the latest edition of the Arizona Rules of Civil Procedure and/or the Mesa City Code. (5124)

SLUM PROPERTY: Residential rental property that has deteriorated or is in a state of disrepair and that manifests 1 or more of the following conditions that are a danger to the health or safety of the public: (5124)

(A) Structurally unsound exterior surfaces, roof, walls, doors, floors, stairwells, porches, or railings. (5124)

(B) Lack of potable water, adequate sanitation facilities, adequate water, or waste pipe connections. (5124)

(C) Hazardous electrical systems or gas connections. (5124)

(D) Lack of safe, rapid egress. (5124)

(E) Accumulation of human or animal waste, medical or biological waste, hazardous, gaseous or combustible materials, dangerous or corrosive liquids, flammable or explosive materials, or drug paraphernalia. (5124)

(F) Any other condition recognized as a basis for slum property designation by the Arizona Revised Statutes. (5124)

STORED: Parking, leaving, locating, keeping, maintaining, depositing, remaining, or being physically present on private property. (5124)

STREET OR HIGHWAY: The entire width between the boundary lines of every way publicly owned or maintained space when any part thereof is open to the use of the public for purposes of vehicular traffic. (5124)

UTILITY TRAILER: A vehicle without motive power designed for carrying property and for being drawn by a motor vehicle. (5124)

VEHICLE: Every device by which any person or property is or may be transported or drawn upon a street or highway, excepting devices moved by human power or used exclusively upon stationary rails or tracks. (5124)

WATERCRAFT: Any craft or vehicle specifically designed for use on water, such as a boat, canoe, jet ski, pontoon, or similar-type vehicle. (5124)

WEEDS: Bull thistle, cocklebur, foxtail, horseweed, lambs quarters, London rocket, mallow, milkweed, pigweed, mustards, prickly lettuce, ragweed, Russian thistle, shepardspurse, sowthistle, white horsenettle, willow weed, and

those types of plant growth defined as noxious weeds in A.R.S. § 3-201 regardless of whether a particular property owner or occupant who is the subject of enforcement action under this Code regards the growth as desirable. (5124)

YARD: An open space on the perimeter of the same lot or parcel of land that is unoccupied and unobstructed from the ground upward, except by structures or other items otherwise permitted as encroachments, as may be specified by Title 11. Yards may be described as front, side or rear based on the definitions found in this Chapter and Chapter 87 of Title 11, and shall not include courtyards or other open space found principally towards the lot interior. (5124)

YARD, FRONT: A yard extending across the full width of the lot or parcel of land between the most forward plane of the building fronting the street and the street. On single residence corner lots the front yard shall be the narrower frontage of the lot or the frontage with the primary entrance. For any other corner lots, all land between the portion of the building closest to the street, and the street shall be considered a front yard for the purposes of this Chapter of the City Code. (5124)

YARD, SIDE: A yard extending from the front plane of the building to the rear plane of the building, and then extending away from the building to the closest side property line. (5124)
(Ord. No. 5524, § 2, 8-26-19)

8-6-3: PUBLIC NUISANCES PROHIBITED

The following acts, omissions, conditions, and things in or upon any land or structure in the City constitute public nuisances, the existence of which are hereby prohibited and declared to be unlawful: (5124)

(A) The responsible party of any property shall not cause or allow any abandoned, inoperable or unregistered vehicle, or parts of a vehicle thereof, to be parked or stored outside or under a carport or other roof area not enclosed by walls, doors or windows of any building on any lot for longer than 10 days, unless in complete conformance with the following terms: (5124)

1. When an unregistered vehicle is operable and visible from the right-of-way, it shall be placed under a carport or other roof area of any building; (5124)

2. In the RS-6 and RS-7 zoning districts, a maximum of 3 inoperable or unregistered vehicles may be stored on a single lot. Such vehicles shall be stored within the side or rear yards and shall be screened by a 6' high opaque fence; (5124)

3. In the RS-9, RS-15 and RS-35 zoning districts, a maximum of 5 inoperable or unregistered vehicles may be stored on a single lot. Such vehicles shall be stored within the side or rear yards and shall be screened by a 6' high opaque fence; (5124)

4. In the RS-43 and RS-90 zoning districts, a maximum of 7 inoperable or unregistered vehicles may be stored on a single lot. Such vehicles shall be stored within the side or rear yards and shall be screened by a 6' high opaque fence; (5124)

5. Vehicles stored on the premises of a business enterprise operated in a lawful place and manner in accordance with the provisions of the Mesa City Code where the storage of the vehicle is necessary to the operation of the business enterprise. (5124)

(B) The responsible party of any property shall not cause or allow the deposit, storage, or maintenance of any garbage or junk, or an accumulation of materials such as: vehicle parts, appliances, indoor furniture, boxes, crates, packing cases, mattresses, bedding, lumber, scrap iron, tin, and other metals, unless stored safely in compliance with all applicable ordinances and regulations, and within a lawful, enclosed building or structure, or screened by a lawful fence or within a trash receptacle in such a manner as to not be visible from beyond the lot boundaries, except as authorized for collection under Title 8, Chapter 3 of this Code. (5124)

(C) The responsible party of any property or place of business within the city shall keep the right-of-way, grounds, stables, alleys, streets and sidewalks appurtenant and adjacent to such property or place of business free of garbage, junk, obstructions, and weeds or grass; provided, however, this Section shall not prohibit the temporary storage of such matters in authorized receptacles for collection consistent with Chapter 3 of Title 8 of the Mesa City Code.

(D) The responsible party of any property shall not allow or permit trees, shrubs, or plants on land adjacent to sidewalks or public places fronting or bordering their property to grow in a manner that impedes, obstructs, or interferes with the passage on any street, sidewalk, alley or other passageway within the City or that limits the visibility of any traffic control device or signal. Vegetation must be trimmed a minimum of 8 feet over the sidewalk and 14 feet over the street or alley. (5124)

(E) The responsible party of any property within the City shall not allow plant material to remain on a property that is dead, diseased, dying or so dry as to be readily flammable or combustible that may constitute a fire hazard or other threat to the public health or safety. (5124)

(F) The responsible party of any property shall not deposit, sweep, or permit the drainage of any garbage, junk, liquid, obstruction, or other material which is offensive to sight or smell or impedes passage or is detrimental to public health, into any public right-of-way, public place in the City, public utility easement (PUE) or public utility and facilities easement (PUFE). (5124)

(G) The responsible party of any property shall not permit:

1. Any swimming pool or other body of water on the property to stagnate and therefore become eutrophic, polluted, or offensive to the senses and unsafe, or (5124)

2. The ponding of water to become stagnant so as to cause a hazardous or unhealthy condition, facilitate the breeding of insects, or oversaturate the soil in a manner that may cause damage to foundation walls. (5124)

3. Revision, blockage or disruption of storm water drainage patterns otherwise designed to flow into an on-site retention basin or storm water drain, such that storm water may be diverted to neighboring sites, and/or may cause local flooding to occur. (5124)

(H) The responsible party of any property, building or structure within the City shall not permit graffiti on the building, structure, trailer, dumpster or any other object located on the property to remain, and shall be required to eradicate graffiti should it occur. (5124)

(I) The responsible party of any property shall not:

1. Erect or maintain, or allow anyone to erect or maintain, any electric fence; (5124)

2. Attach or allow anyone to attach to any fence such items as glass, nails, metal objects, or other materials in such a manner that is likely to injure any person who comes in contact with such object; or (5124)

3. Erect or maintain, nor allow anyone to erect or maintain, barbed wire or razor wire: (5124)

   a. Exception: No more than 3 strands of barbed wire or 1 coil of razor wire may be used when such wire is a minimum of 6 feet and 2 inches above the ground and such wire is placed at the top of an otherwise lawful fence enclosing a municipal, institutional, commercial or industrial building, structure or property. (5124)

   b. Exception: Barbed wire fencing may be primarily used for agricultural or livestock purposes only when a property is larger than 1 acre. This exception does not extend to the use of razor wire or similar products. (5124)

   c. Where allowed, barbed wire or razor wire shall only extend up from the top of the fence either parallel to the fence alignment or towards the interior of the enclosed space, and not outwards beyond the property or enclosed space. (5124)

(J) It shall be unlawful for any responsible party of any property to allow on vacant or undeveloped property, as may be evidenced by a lack of an improved dust-proof surface, the lack of a residence or an office or other enclosed building, or the lack of lawfully installed electric or water related utility improvements on the property: (5124)

1. To store a vehicle or boat, or (5124)

2. To display any vehicle or boat for sale, rent, or lease or, (5124)

3. To allow or permit such storage or displays of vehicles or boats to occur. (5124)

(K) The responsible party of any property shall maintain, repair, replace or complete improvements to the exposed exterior surfaces of all buildings or structures including but not limited to exterior windows, doors, canopies, metal awnings, roofs, exhaust ducts, chimneys, painted surfaces, window screening, fences, screen walls, retaining walls, foundations, cooling devices, outdoor stairs, porches, and railings as visible from any rights-of-way so that such exterior surfaces do not exhibit deterioration or disrepair, damage or blight. The responsible party shall not allow the maintenance, repair, replacement, completion or use of materials, colors, or finishes that are incongruous with the predominant materials, colors, or finishes of such exposed exterior surface unless such incongruous materials, colors, or finishes are less than 20 contiguous square feet, or less than 10 percent of the area of any exposed individual plane surface unbroken by corners or angles. This Section is not intended to regulate signs as defined by Section 11-41-5 of the Mesa City Code, art, murals, architectural styles or color patterns and schemes as permitted or authorized in other titles of this Code. (5124)

(L) No person or responsible party shall allow or permit any person to park any commercial vehicle on any undeveloped private property or property without an improved dustproof surface except when such parking is necessarily required while actually carrying out a lawful commercial purpose. The vehicle owner, the vehicle operator, and any responsible party for the land shall be jointly and severally liable for violation of this paragraph. (5124)

(M) No person shall attach or cause to be attached any sign to any public utility structure, traffic control device, streetlight standard, or similar structure in the public right-of-way or erect any portable/temporary sign in the public right-of-way excepting those signs erected by a public utility, government agency or as otherwise permitted by the City Code. (5124)

(N) The responsible party of vacant, abandoned, partially destroyed or partially constructed buildings shall secure such building against unauthorized entry at all times. (5124)

(O) The responsible party of a parcel of land within the city, including alleys and frontage areas under their responsibility, shall not allow thereon weeds or grass which occupy more than 10 percent or 50 square feet, in total area of a developed parcel to attain a predominant height in excess of 9 inches, or more than 10 percent of the area of an undeveloped parcel to attain a predominant height in excess of 12 inches. This provision shall not apply to:

1. Single residence rear yards not visible from the adjacent right-of-way; or
2. Parcels of land in which livestock graze; or
3. Parcels of land used to raise feed crops.

(P) No responsible party shall permit or cause the escape or flow of water into or upon a public street or alley from any source in such quantity as to cause flooding, to impede vehicular or pedestrian traffic, to create a hazardous condition to such traffic, to cause damage to the public streets or alleys, or to cause a condition which constitutes a public nuisance or a threat to the public health and safety. (5124)

(Q) The responsible party of any property within the City shall not allow any person to place or allow to be placed any rubbish, trash, filth or debris upon any private or public property or property, right-of-way, sidewalk or public places, appurtenant or adjacent to the property, they have the responsibility to maintain.

(R) No person shall offer to sell, or plant any male mulberry tree (morus alba) or olive tree (olea europea) in the City unless it is one of the nonpollinating varieties of such trees. The City shall maintain a current list of nonpollinating varieties, which shall be available for public review and shall be based on industry standard for nonpollinating varieties, applicable horticultural and scientific research and data, review and evaluation by qualified experts, and other appropriate information. (5124)

(S) No responsible party shall maintain or display any sign regulated under the Mesa City Code, Title 11 Article 5, that is damaged or deteriorated to a condition constituting a visual blight. Visual blight shall include conditions detectable from beyond the lot boundaries such as chipping, peeling, fading, or rusting surfaces; the presence of cracks, holes, buckles, warps, or splinters in any sign component; and defective bulbs, fluorescent tubes, or neon or other inert gas light segments. (5124)

(T) It shall be unlawful to park any motor vehicle within the front or side yard of a single-residence use unless such parking is on an improved, dustproof parking surface. Such parking within the front yard of a single-residence use shall be on or contiguous to a legal driveway and such parking shall not exceed a maximum of 50 percent of the front yard area. (5124)

(U) It shall be unlawful to store any watercraft, utility trailer, or any nonvehicle-mounted camper shell or truck camper in the front yard or in front of the front plane of the nearest adjacent enclosed building on the same

lot or parcel as such watercraft, utility trailer or nonvehicle-mounted camper. All watercraft trailers, utility trailers, nonvehicle-mounted campers and truck campers visible to the public rights-of-way must be operable, have inflated tires and be kept free of weeds and debris. (See Figure 8-6-3.A) (5124)

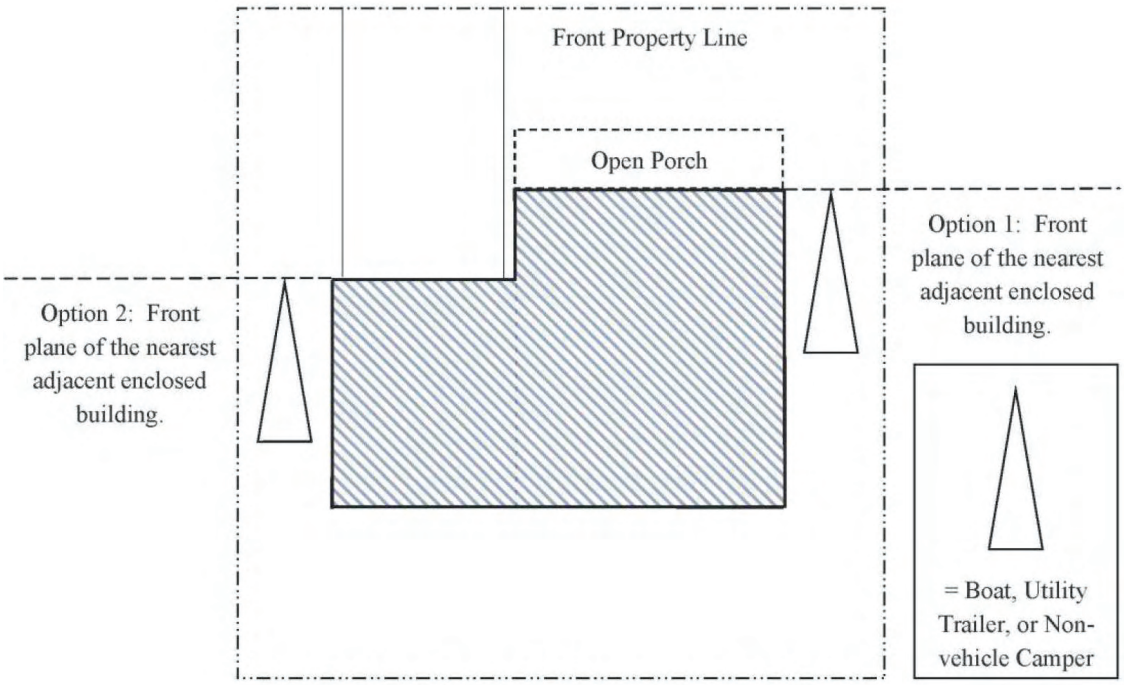

Figure 8-6-3. A Watercraft, Utility Trailer or Non-Vehicle Camper Shell or Truck Camper Storage

(5124)

(V) The responsible party of improved property within the City shall maintain all buildings, additions, appendages, accessory structures or other structures and exposed exterior surfaces such as, but not limited to, exterior windows, doors, canopies, metal awnings, roofs, exhaust ducts, chimneys, painted surfaces, window screening, fences, screen walls, retaining walls, foundations, cooling devices, outdoor stairs, porches and railings, in a structurally sound condition that does not constitute a hazard and is impervious to moisture and weather elements. (5124)

(W) The responsible party of any property shall maintain:

1. All improved landscaped yards visible from the adjacent rights-of-way so as not to exhibit deterioration, disrepair, or blight constituting more than 20 contiguous square feet, or more than 10 percent of the area; and (5124)

2. All improved ground surfaces, such as but not limited to, private streets, drives, paving, concrete and asphalt so as not to exhibit deterioration, disrepair, or blight constituting an accumulation of pot holes, large surface cracks, or peeling, chipping away or disintegrating surface material. (5124)

(X) No responsible party shall permit the conducting of garage sales from any property in excess of 4 events per calendar year with no more than 3 consecutive days for any given event. (5124)

(Y) The responsible party of any property within the City shall display the City designated address on the residence or property of sufficient size to be clearly visible from the right-of-way. Numbers shall be placed in a position to be clearly visible from the street or road fronting the property. These numbers shall contrast with their background and shall not be obstructed by trees, shrubs or anything that would tend to hide or obscure the numbers.

(Z) The responsible party of any property within the City shall not allow parking of a recreational vehicle or watercraft on a driveway or public street in a residential area except for the purposes of loading, unloading or cleaning for a period not to exceed 48 hours subject to the parking and traffic regulations of the City of Mesa and provided the vehicle is not parked so as to create a traffic hazard or obstruct traffic visibility.

(AA) The responsible party of any property within the City shall not cause or allow the storage of more than one (1) recreational vehicle, which exceeds 6 feet in height as measured from grade and is visible from the public street, on a residential parcel. The recreational vehicle shall be stored within the side or rear yards and be screened by a 6-foot high opaque fence.

(AB) No person shall knowingly provide bird food to pigeons on any private or public property, except the feeding of birds using practices or devices designed or intended to prevent pigeons from obtaining the bird food.

The provisions of this Section may be applied cumulatively or separately for purposes of enforcement. (5124)

(Ord. No. 5524, § 3, 8-26-19)

ARTICLE II INSPECTIONS

8-6-4: AUTHORITY TO INSPECT

(A) The Mesa Development Services Department or such other City division or department as the City Manager may designate is hereby authorized to make inspections for violations of this Chapter in the normal course of job duties or in response to a citizen complaint that an alleged violation of the provisions of this Chapter may exist or when there is a reason to believe that a violation of this Chapter has been or is being committed. The City may also conduct inspections of individual residential rental property in accordance with state law. (5124)

(B) In order to determine compliance with this Chapter, private property may be entered with the consent of the owner or occupant or as authorized by a court of competent jurisdiction. (5124)

(Ord. No. 5524, § 4, 8-26-19)

ARTICLE III ENFORCEMENT

8-6-5: COMMENCEMENT OF AN ACTION

(A) The City Manager or designee is authorized to commence an enforcement action under this Chapter by issuing a notice of abatement under this Article or a citation for civil sanctions under this Article, or both. They may also seek the issuance of a complaint by the Mesa City Prosecutor for criminal prosecution of habitual offenders as defined in this Article. (5124, 5480)

(B) Nothing in this Section shall preclude City employees from seeking voluntary compliance with the provisions of this Chapter or from enforcing this Chapter through notices of violation, warnings, or other informal devices designed to achieve compliance in the most efficient and effective manner under the circumstances. (5124, 5480)

8-6-6: REMEDIES NOT EXCLUSIVE

Violations of this Chapter are in addition to any other violation established by law, and this Chapter shall not be interpreted as limiting the penalties, actions, or abatement procedures which may be taken by the City or other persons under other laws, ordinances, or rules. (5124, 5480)

8-6-7: DEFENDANTS AND RESPONSIBLE PARTIES

Any responsible party who causes, permits, facilitates, aids, or abets any violation of this Chapter or who fails to perform any act or duty required pursuant to this Chapter is subject to the enforcement provisions of this Chapter. Responsible parties may be individually and jointly responsible for the violations, the prescribed civil or criminal sanctions, for abatement of the violation and for any associated costs and fees. (5124, 5480)

8-6-8: CIVIL VIOLATIONS AND CITATION

(A) A civil action for violations of this Chapter may be commenced by issuance of a citation. (5124, 5480)

(B) The citation will be substantially in the form established by the City Manager or designee. The citation shall advise the responsible party of the violation(s) committed, either by written description of the violations or by designation of the City Code section that was violated. The citation shall direct the responsible party to pay the civil sanction and all applicable fees in accordance with Section 8-6-9 of this Chapter within the time period specified on the citation or to appear before the Civil Hearing Officer within the time period specified on the citation and admit or deny the allegations contained in the citation. The Civil Hearing Officer may permit amendments to the citation if substantial rights of the responsible party are not thereby prejudiced. The citation shall be served in accordance with Section 8-6-8(H). However, in a violation involving Section 8-6-3(L) of the Mesa City Code, a citation may be served upon the owner or owners of the vehicle, the registered owner or owners of the vehicle, or the operator or person who parked or placed the vehicle where the violation occurred by attaching a copy of the citation to the vehicle. (5124, 5480)

(C) The responsible party shall, within the time period specified on the citation or within 10 calendar days of the issuance of the citation, whichever is greater, either pay the civil sanction and the fees, or appear in person, or through an attorney or by email to the designated clerk of the Civil Hearing Office and admit or deny the allegations contained in the citation. (5124, 5480)

1. If the responsible party timely pays the civil sanction and the fees, either in person or by mailing payment to the City, the allegations in the citation shall be deemed admitted and such person shall be deemed responsible for having committed the offense(s) described in the citation. If the responsible party appears in person, through an attorney or by email and admits the allegations, the Civil Hearing Officer shall enter judgment against the responsible party in the amount of the civil sanction, plus any applicable fees designated in Section 8-6-9; or (5124, 5480)

2. If the responsible party appears in person, through an attorney or by email and denies the allegations contained in the citation, the matter shall be set for a hearing. (5124, 5480)

(D) If a person served with a citation fails to pay the civil sanction and the fees or to file on or before the time directed on the citation or appear at the time set for hearing, the allegations in the complaint shall be deemed admitted, and the Civil Hearing Officer shall enter a finding of responsible and a judgment for the City and impose the appropriate sanctions and fees. (5124, 5480)

(E) All proceedings before the Civil Hearing Officer shall be informal and without a jury, except that testimony shall be given under oath or affirmation. The technical rules of evidence do not apply, except for statutory provisions relating to privileged communications. If the allegations in the citation are denied, the City is required to prove violations of this Chapter by a preponderance of the evidence. No prehearing discovery shall be permitted, except under extraordinary circumstances as determined by the Civil Hearing Officer. The Civil Hearing Officer is authorized to make such orders as may be necessary or appropriate to fairly and efficiently determine the truth and decide the case at hand. (5124, 5480)

(F) Any person aggrieved by a decision of the Civil Hearing Officer, at any time within 30 calendar days after a final judgment has been rendered, may file a complaint of special action in Superior Court to review the Civil Hearing Officer's decision. Filing the complaint does not stay proceedings on the decision sought to be reviewed, but the court may, on application, grant a stay and on final hearing, affirm or reverse, in whole or in part, or modify the decision reviewed. (5124, 5480)

(G) Any civil judgment issued pursuant to this Article shall constitute a lien against the real property of the responsible party that may be perfected by recording a copy of the judgment with the Maricopa County Recorder. Any judgment issued pursuant to this Article may be collected as any other civil judgment. (5124, 5480)

(H) Citations issued under this Chapter shall be served in compliance with A.R.S. § 9-500.21 as follows: (5480)

1. First, by personal service as described in the procedures set forth Arizona Rules of Civil Procedure, Rule 4.1 by: (5480)

   a. A Code Compliance Officer; or

   b. A City of Mesa sworn police officer; or

   c. The City Manager or designee.

2. If the citation cannot be personally served, the citation shall be served as follows: (5480)

   a. By certified or registered mail, return receipt requested; or

   b. By publication, in the same manner prescribed by the Arizona Rules of Civil Procedure. Before the date of the first publication, the citation shall be mailed, by certified or registered mail, return receipt requested, or by any other mail or delivery service that allows the sender to track the progress and confirm the delivery of the citation.

8-6-9: CIVIL PENALTIES

(A) Any responsible party who is found responsible for a civil violation of this Chapter, whether by admission, default, or after a hearing, shall pay a civil sanction of not less than $250 or more than $1,500. A second

finding of responsibility within 36 months of the commission of a prior violation of this Chapter shall result in an enhanced civil sanction of not less than $350 or more than $2,500. A third finding of responsibility within 36 months of the commission of a prior violation of this Chapter shall result in an enhanced civil sanction of not less than $500 or more than $2,500. In addition to the civil sanction, the responsible party shall pay the applicable fees and charges set forth in the City's Development Services (Code Compliance) Schedule of Fees and Charges and may be ordered to pay any other applicable fees and charges. (5124, 5480)

(B) Under unusual or extraordinary circumstances, and for good cause, the Civil Hearing Officer shall have the discretion to reduce or eliminate any portion of the civil sanctions specified in this Section, and/or to make any other judgments or orders deemed by the Civil Hearing Officer to be in the best interests of the City of Mesa, which will result in the furtherance of these regulations and effectuate the abatement or cessation of any violation of this Chapter. (5124, 5480)

(C) After entering a judgment of responsible and setting a civil sanction and fees as specified in Section 8-6-9 (A), the Civil Hearing Officer may order a compliance hearing and set a date for such hearing. Upon presentation of evidence and/or testimony by the City Inspector at the compliance hearing that the violation(s) specified in the complaint has been abated, the Civil Hearing Officer may reduce all or a portion of the civil sanction commensurate with the cost borne by the defendant to achieve compliance, or the Civil Hearing Officer may vacate the previous judgment and dismiss the citation(s). If, a minimum of 7 calendar days before a scheduled compliance hearing, the Civil Hearing Officer receives both of the following items, then the Civil Hearing Officer may issue written orders commensurate with the authority given in this Section, to reduce civil sanctions and/or vacate the related judgment without holding the scheduled compliance hearing: (5124, 5480)

1. A written and notarized confirmation from the City Inspector that the violation has been successfully abated; and (5124, 5480)

2. A written and notarized statement from the defendant describing the actions taken and the itemized costs borne to abate the violation. (5124, 5480)

If either item has not been received by the designated Clerk of the Civil Hearing Office seven (7) calendar days before, then the compliance hearing shall take place as previously scheduled. (5124, 5480)

(D) The 36 month provision of paragraph (A) of this Section shall be calculated by the dates the violations were committed. The responsible party shall receive the enhanced sanction upon a finding of responsibility for any violation of this Chapter that was committed within 36 months of the commission of another violation for which the responsible party was convicted or was otherwise found responsible, irrespective of the order in which the violations occurred or whether the prior violation was civil or criminal. (5124, 5480)

(E) Each day in which a violation of this Chapter continues or the failure to perform any act or duty required by this Chapter or by the Civil Hearing Officer continues shall constitute a separate civil offense. (5124, 5480)

(Ord. No. 5524, § 5, 8-26-19)

8-6-10: RESERVED

8-6-11: HABITUAL OFFENDER

(A) A person who commits a violation of this Chapter after previously having been found responsible for committing civil violations of this Chapter on 3 separate dates and within a 36 month period, whether by admission, by payment of the fine, by default, or by judgment after hearing, shall be guilty of a class 1 criminal misdemeanor. The Mesa City Prosecutor is authorized to file a class 1 criminal misdemeanor complaint in the Mesa City Court (Court) against habitual offenders. For purposes of calculating the 36 month period under this paragraph, the dates of the commission of the offenses are the determining factor. (5124, 5480)

(B) Upon conviction of a violation of this Section, the Court may impose a sentence authorized by the laws of the State of Arizona for a class 1 misdemeanor, including incarceration not to exceed 6 months in jail or a fine not to exceed $2,500, exclusive of penalty assessments prescribed by law, or both. The Court shall order a person who has been convicted of a violation of this Section to pay a fine of not less than $500 for each count upon which a conviction has been obtained and be placed on probation for up to 36 months. The Court may reduce such fines to $250 for each count upon which a conviction has been obtained provided all violations have been abated and the site is in compliance with all Sections of this Chapter within 90 days of sentencing. (5124, 5480)

(C) Every action or proceeding under this Section shall be commenced and prosecuted in accordance with the laws of the State of Arizona relating to criminal misdemeanors and the Arizona Rules of Criminal Procedure. (5124, 5480)

8-6-12: FAILURE TO PROVIDE EVIDENCE OF IDENTITY

A person who fails or refuses to provide evidence of his identity to a duly authorized agent of the City upon request, when such agent has reasonable cause to believe the person has committed a violation of this Chapter, is guilty of a misdemeanor. Evidence of identity under this Section shall consist of a person's full name, residence address, and date of birth. (5124, 5480)

8-6-13: ABATEMENT

(A) In addition to or in lieu of filing a civil citation or criminal complaint, the City may serve a Notice to Abate any violation of this Chapter in accordance with Section 8-6-8(H). (5124, 5480)

(B) The Notice to Abate shall set forth the following information, (except in the case of an imminent hazard): (5124, 5480)

1. The responsible party has 30 calendar days from the service of the Notice to Abate or correct the violation. (5124, 5480)

2. Identification of the property in violation by street address, if known, and if unknown, then by legal description of the property or by Maricopa County book, map, and parcel number. (5124, 5480)

3. Statement of the violation in sufficient detail to allow a reasonable person to identify and correct the violation(s). (5124, 5480)

4. Reinspection date and time. (5124, 5480)

5. Name, business address, and business phone number of the City inspector who issued the Notice to Abate. (5124, 5480)

6. A statement indicating that if the violations are not corrected within the 30 calendar day period, the City may abate the problem itself or by private contractor, assess the owner for the cost of such abatement, and record a lien on the property for the assessment. (5124, 5480)

7. Hearing procedures. (5124, 5480)

8. Statement indicating that the 30 calendar day notice set forth in this Section shall not apply to emergency abatements pursuant to this Chapter. (5124, 5480)

9. The notice to abate shall be served in accordance with Section 8-6-8 (H).

(C) If the responsible party served a Notice to Abate by the City pursuant to this Chapter fails to comply with such notice; the City may correct or abate the conditions subject to the notice if those conditions constitute a hazard. If the City corrects or abates those conditions, the City Manager or designee may prepare a verified statement as to the actual cost of correcting or abating the violation, including costs of inspection and other City-incurred costs associated with abating the violation. The statement shall be served in accordance with Section 8-6-8(H) to the responsible party upon which the Notice to Abate or order was served. That statement shall further set forth the following: (5124, 5480)

1. That the statement of costs is an assessment upon the lots and tracts of land from which the City corrected or abated the violation. (5124, 5480)

2. That the party has 15 calendar days from the date of delivery or mailing of the statement to pay the assessment. (5124, 5480)

3. In the event payment is not received in 15 calendar days, the City will place a lien on the property in the amount of the assessment. (5124, 5480)

4. Appeal procedures. (5124, 5480)

(D) The Notice to Abate and the statement of abatement costs shall be served in accordance with Section 8-6-8(H) to the responsible party. Service is deemed effective and complete on the date it is received by the responsible party. (5124, 5480)

(Ord. No. 5524, § 6, 8-26-19)

8-6-14: REQUEST FOR ABATEMENT HEARING

The responsible party receiving a Notice to Abate under this Chapter or a statement of costs incurred by the City in abating a hazard may appeal by requesting in writing a hearing and by serving such a request to the Development Services Department within 15 calendar days of service of the Notice to Abate or the statement of costs. The hearing shall be held before the Civil Hearing Officer as soon as practicable after the filing of the request. An appeal from final judgments of the Civil Hearing Officer may be taken pursuant to the Arizona Rules of Civil Procedure for special actions. If no written and timely request for hearing is made under this Section to the Development Services Department, then the Notice of Abatement or statement of costs is final and binding. (5124, 5480)

8-6-15: RECORDING AN ABATEMENT VIOLATION

The Notice to Abate and statement of costs shall run with the land. The City, at its sole option, may record a Notice to Abate or statement of costs with the Maricopa County Recorder and thereby cause compliance by a person thereafter acquiring such property. When the property is brought into compliance, a satisfaction of Notice to Abate shall be filed with the Maricopa County Recorder. (5124, 5480)

8-6-16: EMERGENCY ABATEMENT

(A) If a situation presents an imminent hazard, the City may issue a Notice to Abate directing the responsible party to immediately take such action as is appropriate to correct or abate the emergency described in the notice. In addition, the City may act immediately to correct or abate the emergency itself or may commence an action in Superior Court to enjoin the responsible party to abate the imminent hazard. In the event the City is unable to contact the responsible party despite reasonable efforts to do so, it in no way affects the City's right under this Section to correct or abate the emergency itself. (5124, 5480)

(B) The City may recover its costs incurred in abating an imminent hazard under this Section in the same manner as provided for in Section 8-6-13(C). The responsible party may appeal the City's emergency abatement action under this Section or the City's statement of costs for an emergency abatement in the same manner as provided for in Section 8-6-14. (5124, 5480)

8-6-17: SUSPENSION OF CONSTRUCTION PERMIT OR LICENSE

Any construction permit or license issued by the City which authorizes work resulting in an alleged violation of Article I of this Chapter may be suspended pending abatement of said violation or final resolution of a civil hearing of the matter. (5124, 5480)

8-6-18: SLUM PROPERTY

(A) Slum property designation: (5124, 5480)

1. The City Manager, or designee, is authorized to designate residential rental property as a slum property consistent with and pursuant to the provisions of A.R.S. Title 33, Chapter 17, Article 1. (5124, 5480)

2. Notice of slum property designation shall be provided to all owners and lien holders of the affected property. Such notice shall inform of the designation, the reason or reasons for the designation, and the procedure to appeal the designation. The effective date and manner of service shall be as described in Section 8-6-8(H). (5124, 5480)

3. The City may record the notice of slum property designation with the County Recorder. A recorded notice shall run with the land. Failure to record a notice shall not affect the validity of the notice as to persons who receive the notice. (5124, 5480)

(B) Assessment and liens: (5124, 5480)

1. The City Manager, or designee, is authorized to impose civil penalties, assessments and liens pursuant to the provisions of A.R.S. Title 33, Chapter 17, Article 1. (5124, 5480)

2. Notice of a civil penalty, assessment or lien shall be provided to all owners and lien holders of the affected property. Such notice shall inform of the amount of the assessment or lien, the reason for the assessment or lien, and the procedure to appeal the assessment or lien. The effective date and manner of service shall be as described in Section 8-6-8(H). (5124, 5480)

3. The City may record an assessment or lien with the County Recorder or the Department of Transportation, if the lien is for a rental mobile home or a recreational vehicle not owned by a landlord. A recorded assessment shall run with the land. Failure to record an assessment or lien shall not affect the validity of the assessment or lien as to persons who have notice thereof. The City shall release the assessment or lien upon receipt of payment. (5124, 5480)

4. In the event that it is necessary to enforce an assessment or lien by sale, the sale shall be made from a judgment of foreclosure and order of sale. The City shall have the right to enforce an assessment or lien in the Superior Court, at any time after recording, but failure to enforce an assessment or lien shall not affect its validity. The recorded assessment or lien shall be prima facie evidence of the truth of all matters recited therein, and of the regularity of all proceedings prior to the recording. Prior assessments or liens for the purposes provided for in this ordinance shall not be a bar to subsequent assessments or liens, and any number of liens or assessments on the same property may be enforced in the same action. (5124, 5480)

(C) Appeals: (5124)

1. Appeals from designations as a slum property or assessments by the City Manager or designee as set forth in Section 8-6-18(A) and (B) shall be submitted to the office of the Zoning Administrator in the manner set forth in Section 11-77-4 of the Mesa City Code. Said appeals shall be in writing and shall contain: (5124, 5480)

   (a) A heading in the words: "Before the Zoning Administrator . . . " (5124, 5480)

   (b) A caption reading: "Appeal of . . . ," giving the names of all appellants participating in the appeal. (5124, 5480)

   (c) A brief statement setting forth the legal interest of each of the appellants in the building or land involved in the notice and order. (5124, 5480)

(d) A brief statement in ordinary and concise language of the specific order or action protested, together with any material facts claimed to support the contentions of the appellant. (5124, 5480)

(e) A brief statement in ordinary and concise language of the relief sought and the reasons why it is claimed the protested order or action should be reversed, modified, or otherwise set aside. (5124, 5480)

(f) The signatures of all parties named as appellants and their official mailing addresses. (5124, 5480)

(g) The verification (by declaration under penalty of perjury) of at least one appellant as to the truth of the matters stated in the appeal. (5124, 5480)

2. All applications shall be accompanied by a fee in accordance with the Development Services Fee Schedule. (5124, 5480)

3. The appeal shall be filed within 30 calendar days from the date of the service of such order or action of the designation of a slum. (5124, 5480)

4. Appeals to decisions of the Zoning Administrator may be filed with the Board of Adjustment in accordance with Section 11-77-4 of the Mesa City Code. (5124, 5480)

8-6-19: INDIVIDUAL RESIDENTIAL RENTAL INSPECTION

(A) The City may conduct interior inspections of individual residential rental property if an exterior inspection of the property reveals or if the property is found to have any of the following: (5124)

1. Conditions that materially affect the health and safety of the occupants (as defined in Section B). (5124)

2. A significant level of crime associated with the property. (5124)

3. A documented history of violations of building regulations. (5124)

4. The responsible party repeatedly fails to comply with code enforcement requirements imposed by the City. (5124)

5. There is probable cause that the property is not in compliance with building regulations. (5124)

6. A complaint is received from, or consent for the inspection is given by, the responsible party. (5124)

(B) For the purposes of this Article, a condition that materially affects the health and safety of the occupants of a residential rental property includes any of the following conditions: (5124)

1. Inadequate sanitation, ventilation or space requirements, including the following: (5124)

(a) Lack of adequate water closets, lavatories, bathtubs or showers. (5124)

(b) Lack of a required kitchen sink or a kitchen sink that complies with building regulations. (5124)

(c) Lack of hot and cold running water to plumbing fixtures. (5124)

(d) Lack of adequate heating and cooling. (5124)

(e) Lack of or improper operation of required ventilating equipment or broken or missing windows or doors that create a hazardous condition or a potential attraction to trespassers. (5124)

(f) Lack of minimum amounts of natural light and ventilation as required by building regulations. (5124)

(g) Inadequate room and space dimensions as required by building regulations. (5124)

(h) Lack of required adequate electricity and lighting as required by building regulations. (5124)

(i) Infestation of insects, vermin or rodents. (5124)

(j) Lack of connection to a sewage disposal system as required by building regulations. (5124)

(k) Lack of adequate garbage and rubbish storage and removal facilities. (5124)

2. Structural hazards, including the following: (5124)

(a) Significantly deteriorated or inadequate foundations or foundation areas that are not provided with adequate drainage. (5124)

(b) Flooring or floor supports of insufficient size to carry imposed loads with safety. (5124)

(c) Members of walls, partitions or other vertical supports that split, lean, list or buckle due to defective material or deterioration. (5124)

(d) Members of ceilings, roofs, ceiling and roof supports or other horizontal members that significantly sag, split or buckle due to defective material or deterioration. (5124)

(e) Fireplaces or chimneys that list, bulge or settle due to defective material or deterioration or that are of insufficient size or strength to carry imposed loads with safety. (5124)

3. Hazardous wiring that does not conform with building regulations or that has not been maintained in good condition , or both, and that is not being used in a safe manner. (5124)

4. Hazardous plumbing that does not conform with building regulations or that has not been maintained in good condition, or both, and that is not free of cross-connections and backflow between fixtures. (5124)

5. Hazardous mechanical equipment including vents that do not conform with building regulations or that have not been maintained in good and safe condition, or both, and that are not working properly. (5124)

6. Faulty weather protection that may include: (5124)

(a) Significantly deteriorated, crumbling or loose plaster. (5124)

(b) Deteriorated or ineffective waterproofing of exterior walls, roof, foundations or floors, including broken windows or doors. (5124)

(c) Defective or lack of weather protection for exterior wall coverings, including lack of paint, or weathering due to lack of paint or other approved protective covering. (5124)

(d) Broken, rotted, split or buckled exterior wall coverings or roof coverings. (5124)

7. Fire hazards or inadequate fire protection, including: (5124)

   (a) Any building or portion of a building or any device, apparatus, equipment, combustible waste or vegetation that is not in compliance with building and fire codes and regulations and that is in such a condition as to cause a fire or explosion or to provide a ready fuel to augment the spread and intensity of a fire or explosion arising from any cause. (5124)

   (b) Any building or portion of a building that is not provided with fire-resistive construction or fire extinguishing systems or equipment required by building and fire codes and regulations, except those buildings or portions of buildings that conformed with all applicable building and fire codes and regulations in effect at the time of construction and that have fire-resistive integrity and fire extinguishing systems or equipment that has been adequately maintained and improved in relation to any increase in occupant load, alteration or addition, or any change in occupancy. (5124)

   (c) Lack of adequate fire detection systems as required by building and fire codes and regulations. (5124)

8. Faulty materials or construction that is not specifically allowed or approved by building and fire codes and regulations or that has not been adequately maintained in good and safe condition. (5124)

9. Hazardous or unsanitary premises, including those premises on which an accumulation of weeds, vegetation, refuse, dead organic matter, debris, garbage, offal, rodent harborages, stagnant water, combustible materials and similar materials or conditions that constitute fire, health or safety hazards. (5124)

10. Inadequate maintenance, including any building or portion of a building that is determined to be an unsafe building in accordance with building and fire codes and regulations. (5124)

11. Unhealthy conditions, including any condition defined in building regulations that results in the failure to maintain minimum standards of sanitation, health or safety or that renders air, food or drink that is detrimental to health. (5124)

12. Inadequate exit facilities, including: (5124)

   (a) All buildings or portions of a building that are not provided with exit facilities as required by building and fire codes and regulations; or (5124)

   (b) Exit facilities that have not been adequately maintained; or (5124)

   (c) Exit facilities that have not increased in relation to any increase in occupant load, alteration or addition, or any change in occupancy. (5124)

13. Improper occupancy, including all buildings or portions of a building that are occupied for living, sleeping, cooking or dining purposes and that were not designed and permitted to be used for such occupancies, or that are occupied in excess of the maximum occupancy load allowed by any applicable provision of building, fire and zoning codes and regulations or state law. (5124)

(C) Before entry into the interior of a residential rental property, the City shall obtain consent of the owner, managing agent, or occupant or obtain a warrant for entry. (5124)

(D) Interior inspections performed under this Section shall be limited to items that can be easily viewed and shall not include hidden hazards, not accessible or readily accessible, that may be in the interior of the construction of the dwelling unit (e.g., inside of walls or ceilings or under floors). (5124)

(E) No owner shall allow or permit a condition that materially affects the health and safety of the occupants of a residential rental property. (5274)

(F) This section does not limit the authority of the City to:

1. Perform an exterior inspection of any property in the City at any time. (5124)

2. Upon receipt of a complaint or consent from the owner or occupant perform an interior inspection of any property in the City's jurisdiction. (5124)

3. Perform interior, exterior or construction job site inspections of new construction before issuance of a Certificate of Occupancy. (5124)

4. Perform interior or exterior inspections of illegal construction that occurred without a required building permit. (5124)

5. Perform an interior inspection of any property during an emergency or natural disaster. (5124)

6. Perform any other inspection authorized by other provisions of the Mesa City Code. (5124)

8-6-20: RESERVED

ARTICLE IV LIVESTOCK AND LARGE ANIMAL REGULATIONS

8-6-21: FOWL, RODENT, AND LIVESTOCK RESTRICTIONS

It shall be a violation of this article for any person to keep fowl, rodents, or livestock within the city, other than listed in this chapter and permission is hereby given to any such person to keep and maintain the same, but only in the manner and upon the conditions set forth in this chapter. Such permission may be withdrawn by a court of competent jurisdiction in the even a person is charged as a habitual offender in accordance with 8-6-11 and found guilty of any offense listed in Article IV of this Title. Except for Sections 8-6-25 through 8-6-30, this chapter does not apply to the keeping and maintenance of domestic dogs and cats. (4845, 4968)

(A) Except as specified in Section 11-3-2, 11-3-3, and 11-4-3 of this Code, no more than a total of ten (10) rodents or fowl or a combination of rodents and fowl shall be kept upon the first one-half (½) acre or less; for each additional ten (10) head of rodents or fowl, an additional one-half (½) acre of land is required. For areas larger than two and one-half (2½) acres, the number of such rodents and fowl shall not be limited. (4845)

(B) Except as specified in Sections 11-3-2, 11-3-3, and 11-4-3 of this Code, it shall be a violation of this article to keep livestock or any similar large animal regulated by this chapter within the City on any property less than thirty-five thousand (35,000) square feet. (4845, 4968)

(C) The maximum number of livestock and similar large animals allowed on a property at any one time shall be based on a calculation of animal points as specified below: (4968)

1. Animal points shall be assessed based upon the entire area of land held by the owner as a parcel or as abutting and contiguous parcels, and by the relative location of the parcels within the Lehi Sub-Area Plan as adopted by Resolution 8655 on January 23, 2006. (4968)

   (a) Parcels located within the corporate limits of Mesa, but outside of the Lehi Sub-Area and without a livestock license, as described in Section 8-6-32, shall be assessed animal points based upon Table 8.6-A, below: (4968)

TABLE 8.6-A:

PROPERTY SIZE	ANIMAL POINTS
35,000 SQ. FT.—43,560 SQ. FT.	TWO (2) ANIMAL POINTS
FOR EVERY ADDITIONAL 10,890 SQ. FT. (¼ ACRE)	ONE (1) ADDITIONAL ANIMAL POINT

(4968)

   (b) Parcels located within the Lehi Sub-Area and owners outside of the Lehi Sub-Area with an approved livestock license pursuant to Section 8-6-32, shall be assessed animal points based upon Table 8.6-B.

TABLE 8.6-B:

PROPERTY SIZE	ANIMAL POINTS
35,000 SQ. FT.—43,560 SQ. FT.	FOUR (4) ANIMAL POINTS
FOR EVERY ADDITIONAL 5,445 SQ. FT. (⅛ ACRE)	ONE (1) ADDITIONAL ANIMAL POINT

(4968)

2. Animal points shall be assigned to the animals present on a property, as set forth below in Table 8.6-C:

TABLE 8.6-C:

ANIMAL TYPE	ANIMAL POINTS
FULL-SIZED EQUINES (HORSES OR SIMILAR)	ONE (1) ANIMAL POINT PER HEAD
FULL-SIZED BOVINES (CATTLE, OXEN, BISON OR SIMILAR)	ONE (1) ANIMAL POINT PER HEAD
SHEEP	ONE-HALF (0.5) OF AN ANIMAL POINT PER HEAD
GOATS	ONE-HALF (0.5) OF AN ANIMAL POINT PER HEAD
MINIATURE EQUINES OR BOVINES (MINIATURE HORSES OR CATTLE OR SIMILAR)	ONE-HALF (0.5) OF AN ANIMAL POINT PER HEAD

ANIMAL TYPE	ANIMAL POINTS
LARGE FLIGHTLESS BIRDS (OSTRICHES, RHEAS, EMUS OR SIMILAR)	THREE-QUARTERS (0.75) OF AN ANIMAL POINT PER HEAD
CAMELIDS (LLAMAS, ALPACAS OR SIMILAR)	THREE-QUARTERS (0.75) OF AN ANIMAL POINT PER HEAD

(4968)

3. Unless the owner obtains a Special Use Permit issued by the City pursuant to Title 11 of the Mesa City Code, it shall be a violation of this article for any owner to have present on the owner's property any combination of listed animals that, in the aggregate, have a total sum of animal points assigned under paragraph (C)(2) that exceeds the total sum of animal points assessed for the owner's property under paragraphs (C)(1) or (C)(2), as may be applicable. (4968)

(D) Paragraphs (A), (B) and (C) of this Section shall not apply to any lot or parcel which is reduced in size as a result of an acquisition by gift, purchase, or condemnation of a portion of the lot or parcel for right-of-way by a governmental entity, provided the size of the parcel was in excess of 35,000 square feet prior to the size reduction or the parcel is not reduced by more than twenty percent (20%) of the size that existed prior to the right-of-way acquisition. (4845, 4968)

(E) Exceptions shall be allowed to paragraphs (B) and (C) regarding animals raised by students participating in an affiliated State of Arizona sponsored or nationally chartered agricultural education program, such as FFA or 4-H. The maximum number of exceptions permitted for parcels of less than one-acre (43,560 square feet) is one. The maximum number of exceptions permitted for parcels greater than one acre is four. (4968)

(F) An exception to paragraphs (B) and (C) shall permit infant animal(s) of less than one (1) year in age to remain with its mother. In the event an infant is separated from its mother, this exception no longer applies. (4968)

(G) It shall be a violation of this article to keep any animal regulated by this chapter in an enclosure within a distance of less than forty feet (40') from another person's lawfully erected permanent residence, dining, or sleeping quarters that was constructed before the construction of such animal enclosure. (4845, 4968)

(H) It shall be a violation of this article for any animal regulated by this chapter to be cooped, stabled, or confined in any building within seventy-five feet (75') from another person's lawfully erected permanent residence, dining, or sleeping quarters that was constructed before the construction of such animal enclosure. (4845, 4968)

(I) All animals regulated by this Chapter shall be kept in suitable enclosures and shall not be permitted to run at large. (4845, 4968)

(J) The provisions of this Section shall not apply to registered homing (racing) pigeons, fancy pigeons, or show pigeons. (4845, 4968)

(K) It shall be a violation of this article for any swine (pigs, hogs or similar) to be kept within the corporate limits of the City, except as follows: (4845, 4968)

1. Swine kept by a student that is participating in an affiliated State of Arizona sponsored or nationally chartered agricultural education program, such as FFA or 4-H. No more than one (1) swine may be kept per participating student. (4968)

2. Vietnamese Pot-belly Pigs or similar miniature varieties of swine that, at full maturity, stand less than twenty-one (21) inches at the withers and weigh less than two-hundred (200) pounds may be kept on any lot as a personal pet such as a cat or dog, provided no more than two (2) such pigs are kept on one (1) parcel of land. (4968)

(L) Miniature equines, miniature bovines, miniature sheep, and miniature goats, which at full maturity meet the national miniature animal standards, may be kept on any lot as person pets such as a cat or dog, provided no more than two (2) such miniature equine, miniature bovines, miniature sheep, or miniature goats, or combination thereof, are kept on one (1) parcel of land. The maximum number of miniature equines, miniature bovines, miniature sheep or miniature goats that may be kept on lots in excess of 35,000 square feet shall be based on paragraphs (B) and (C) of this section. (4968)

(M) Apiaries shall be limited to locations within agricultural and/or rural areas of the City, zoned AG or R1-43. (4845, 4968)

8-6-22: PREMISES TO BE SANITARY; INSPECTION OF PREMISES

The premises upon which fowl, rodents, cattle, horses, mules, sheep, or goats are kept shall always be sanitary and subject to inspection and regulations by the City Manager or designee. (4845, 4968)

8-6-23: SANITARY REGULATIONS FOR THE KEEPING OF FOWL AND RODENTS

(A) The droppings of chickens or other fowl or rodents must be removed from the enclosure as frequently as necessary to prevent the breeding of flies, but in no case less than a minimum of twice weekly. (4845, 4968)

(B) Adequate fly-tight containers approved by the City Manager or designee for the storage of fowl or rodent excreta must be provided and shall always be kept sanitary in a manner to prevent the breeding of flies. (4845, 4968)

(C) Water and feed troughs must be provided, and shall always be kept sanitary to prevent the breeding of flies, mosquitoes or other vectors. (4845, 4968)

(D) Feeding vegetable or meat waste or garbage shall be exclusively in containers that shall be kept sanitary in a manner to prevent the breeding of flies, mosquitoes or other vectors, and on an impervious platform. (4845, 4968)

8-6-24: SANITARY REGULATIONS FOR THE KEEPING OF LIVESTOCK

(A) Manure shall be removed from stalls, paddocks, arenas, corrals and other livestock keeping areas on a regular basis, and at a minimum of no less than once a week. Manure run-off which discharges onto adjacent property, onto city streets or into flood control channels is prohibited, and allowing such to occur, intentionally or negligently, shall be in violation of this article. (4845, 4968)

(B) Adequate containers approved by the City Manager or designee must be provided for the storage of manure in a manner to prevent the breeding of flies and shall be kept sanitary unless it is completely removed from the premises at least twice weekly. All such containers shall be equipped with working lids to minimize water accumulating within the container. (4845, 4968)

(C) Mound storage of animal droppings or manure will be permitted only on an impervious slab with adequate provisions to prevent the breeding of flies or migration of the fly larvae (maggots) into the surrounding soil. Each installation of the latter type must be approved by the City Manager or designee. (4845, 4968)

(D) Drinking troughs or tanks must be maintained in a manner to prevent the breeding of flies, mosquitoes or other vectors, and shall be provided with adequate overflow drainage to prevent saturation of the surrounding soil. (4845, 4968)

(E) Feeding shall require adequate containers or feed troughs of size, kind, and number to eliminate scatter and unsanitary surroundings. Such containers shall always be kept sanitary. It is a violation of this article to feed at random upon the surface of the ground. (4845, 4968)

(F) Spillage and leftovers from animal feedings, including grains, hay, and vegetable foods, etc., must be either removed or otherwise disposed of in such manner as to prevent fly propagation or the creation of odors. (4845)

8-6-25: CONDITIONS UNDER WHICH FLIES BREED PROHIBITED

No owner, tenant, or occupant of any premises within the City shall suffer, permit, or have upon such premises any cesspool, vault, pit, or like place; animal manure; garbage; trash; litter; rags; or any other thing in which flies may breed or multiply, unless the same shall be protected as to prevent the attraction, breeding, and multiplying of flies. (4845)

8-6-26: OFFENSIVE OR NOXIOUS GASES OR ODORS PROHIBITED

Every owner, tenant, or occupant of any premises within the City in or upon which are kept any animals governed by the requirements of this chapter shall at all times keep and maintain such premises so covered, enclosed, protected, cleaned, drained, and disinfected that no offensive or noxious gases or odors may or shall arise therefrom, and any such premises which are not at all times kept and maintained so covered, closed, protected, cleaned, drained, and disinfected as to prevent any and all offensive noxious gases and odors arising therefrom or which are allowed or suffered to become a breeding place for flies and insects or to become offensive or noxious to the residents in the immediate neighborhood are hereby declared to be nuisances and subject to summary abatement. (4845, 4968)

8-6-27: OBSTRUCTING OFFICERS

It shall be a violation of this article for any person to resist, delay, or obstruct any public officer in the discharge or attempt to discharge of any duty of his office. (4845, 4968)

8-6-28: UNSANITARY PREMISES UNLAWFUL

It shall be a violation of this article for any person to permit any premises, building, yard, pasture, enclosure, or place owned, leased, or occupied by him to become unsanitary or to permit the same to become offensive to sight or smell. (4845, 4968)

8-6-29: NUISANCES; ABATEMENT

The causing of, producing, bringing about, making, leaving, or permitting of any condition or conditions implicitly or expressly prohibited by or forbidden or declared a violation of this article by this Chapter shall constitute a nuisance, and such nuisance may be abated as provided for by the laws of the City at the cost and expense of any person chargeable therewith. The costs of abating any such nuisance may be recovered by civil action in a court of competent jurisdiction. (4845, 4968)

8-6-30: FECAL MATTER

Any person owning, possessing, harboring, or having the care, charge, control, or custody of any dog, or other animal governed by this Chapter, shall immediately remove and thereafter dispose of any fecal matter deposited by the dog, or other animal governed by this Chapter, on public or private property unless the owner of the property has given prior approval to use said property for this purpose. This Section shall not apply to disabled individuals who, due to their disability, are unable to comply. (4845, 4968)

8-6-31: NONHUMAN PRIMATES

It shall be a violation of this article for any person to possess, keep, harbor, control, or maintain a nonhuman primate within the corporate limits except in the manner and upon the conditions herein set forth: (4968)

(A) Any person possessing, keeping, harboring, controlling, or maintaining a nonhuman primate must comply with all federal and state laws and the rules of the Arizona Administrative Code - Title 12, Chapter 4 entitled Wildlife Rules. (4845)

(B) Three is the maximum number of nonhuman primates allowed per residence. (4845)

(C) If a nonhuman primate is kept outside of the owner's residence, the following restrictions apply:

1. All nonhuman primates must be kept in an enclosure which has a secured top, sides, and bottom. (4845)

2. The enclosure must be kept securely locked with a device that cannot be opened by the nonhuman primate. (4845)

3. All enclosures, coops, stalls, hutches, or structures used to house any nonhuman primate must be at least seventy-five feet (75') from any neighbor's residence. (4845)

(D) All nonhuman primates shall be contained within the confines of the owner's private property with the following exceptions:

1. When in transport to or from a licensed veterinarian;

2. Transport into or out of Arizona for lawful purposes. (4845)

(E) Anytime a nonhuman primate is removed from the owner's residence or lawful enclosure, it must be securely restrained by a leash, chain, rope, or cord of not more than six feet (6') in length and of sufficient strength to control the primate; or the primate must be securely contained in an animal carrier of sufficient size and strength. (4845)

(F) The owner shall be responsible for compliance with all other City Code sections pertaining to unsanitary premises, breeding of flies, noise, et cetera, found elsewhere within the City Code. (4845)

8-6-32: LIVESTOCK LICENSE

(A) Any person desiring to obtain a livestock license shall apply to the licensing office. On a form established by the City Manager or designee, the application shall include, but not limited to, the following: (4968)

1. Full legal name and current residence address of the applicant; (4968)

2. The address for which the livestock license shall apply and its lot size; (4968)

3. Documentation that the land referenced in (2) above is owned by the applicant (such documentation may be satisfied by a copy of the deed, a property tax bill, or other document showing legal ownership); (4968)

4. A list of other properties within the city limits owned by applicant and for which a livestock license is currently issued or had been issued within the previous five (5) years; and (4968)

5. An acknowledgement that, as the owner, the applicant shall remain in compliance with all applicable livestock ordinances and Code sections, that the owner understands that the City may inspect the property for which the license pertains, and that the license is revocable as permitted under this section. (4968)

6. An acknowledgement that the owner agrees to manage and maintain the animal(s) in a humane and healthful manner that is consistent with the recommended practices adopted for the animal by the FFA or similar nationally recognized organization related to the care and management of animals. (4968)

(B) Each application shall be accompanied by the fee required in accordance with the current Schedule of Fees and Charges, as adopted by resolution by the City Council. The license shall be issued if no citation for an applicable livestock ordinance has been issued in connection with the licensed property within the last twelve (12) months. The licensing office is authorized to obtain necessary information to update the original license application and to determine whether the license should be issued. (4968)

(C) Within twelve (12) months of the issue date for the previously effective license, all licensees under this Chapter wishing to remain licensed shall apply for renewal of the license on a form established by the City Manager or designee. The renewal form must be submitted with the applicable renewal license fee. The licensing office is authorized to obtain necessary information to update the original license application and to determine whether the license should be renewed. The license shall be renewed if the original applicant (or an inter vivos trust of the applicant) continues to be the legal owner of the licensed property; and no citation for an applicable livestock ordinance has been issued in connection with the licensed property within the previous twelve (12) months. (4968)

(D) The licensee shall apply for renewal of their license within thirty (30) calendar days of the renewal deadline. Failure to renew the license within forty five (45) calendar days of the renewal deadline shall cause the license to become null and void. Licensees who fail to apply to renew their license yet who wish to keep animal counts assessed under Table 8.6-B as opposed to Table 8.6-A for their properties must file a new application for license. (4968)

(E) All fees under this Section are nonrefundable and are not prorated. (4968)

(F) No livestock license shall be issued or renewed if the applicant(s) have been prosecuted as a habitual offender in accordance with Article III of this Title and found guilty of any offense listed in Article IV of this Title within the previous thirty-six (36) months. (4968)

(G) All license applicants and all licensees under this Section shall permit representatives of the City Manager or designees or any city, county, state, or federal department, division, or agency that enforces codes, regulations, or statutes relating to human health, safety, welfare, or structural safety inspect the licensed property to ensure compliance with the applicable law. (4968)

(H) Livestock licenses are not transferable to other persons or entities. Upon the sale or transfer of the licensed property, the license shall become null and void. A new application may be made by any subsequent owner, if desired. (4968)

(I) It shall be the duty and responsibility of the City Manager or designee to administer the provisions of this Chapter. Pursuant to this duty, the City Manager or designee shall issue, renew, deny, suspend, or revoke licenses in accordance with this Chapter. Any party aggrieved by a decision of the City Manager or designee under this Section shall appeal within ten (10) calendar days after being sent by registered or certified mail notice of such decision. As to such mailed notice, the City Manager or designee shall send the notice to the applicant's address as shown by the license application. The appeal shall be in writing, shall state the grounds for the appeal, and shall be sent to the licensing office. The licensing office or designee shall schedule a hearing within thirty (30) calendar days of receipt of the appeal and render a decision within sixty (60) calendar days of the hearing. (4968)

(J) A livestock license or application may be denied, revoked, suspended, or denied renewal upon any one or more of the following grounds: (4968)

1. The licensee has violated any of the provisions of this Chapter and such violation has remained uncured or was not cured within thirty (30) calendar days; (4968)

2. The licensee is not the owner of the property to be licensed; (4968)

3. The licensee has had a prior livestock license revoked or renewal denied due to failure to timely cure a violation of this Chapter or due to the frequency of citations; or (4968)

4. The licensee has demonstrated a failure to cure, in a timely manner, prior violations of this Chapter under the application of the animal points assessed under Table 8.6-A, or has had frequent violations that do not justify raising the animal count under Table 8.6-B for the applicant. (4968)

(K) The licensee may not apply for a livestock license within twelve (12) months from the denial, suspension or revocation of any such license. (4968)

8-6-33: DEFINITIONS

As used in Article IV, unless the context otherwise indicates, the following terms shall have the meanings herein ascribed to them: (4968)

ANIMAL: Any mammal, bird, reptile or amphibian. (4968)

AT LARGE: On or off premises of owner and not under control of owner or other persons acting for the owner. (4968)

ENCLOSURE: Any fencing, corral, or barrier of sufficient strength and height to prevent an animal from escaping its primary confines. (4968)

ENFORCEMENT AGENT: That person or persons designated by the City who is responsible for the enforcement of this Chapter and any regulations promulgated thereunder. (4968)

FECAL MATTER: Solid animal droppings including excreta, feces and manure. (4968)

FOWL: Any domesticated bird including but not limited to chickens, ducks, geese, guineas, peacocks, pheasants, and turkeys. (4968)

IMPOUND: The act of taking or receiving into custody by the enforcement agent any dog or other animal for the purpose of confinement in an authorized pound or appropriate facility in accordance with the provisions of this Chapter. (4968)

LARGE ANIMAL: Terrestrial animals commonly considered too large to be kept indoors within a human household. The term includes domestic and working animals, but does not include small animals such as dogs, cats, rodents, birds, or fish kept as pets. (4968)

LIVESTOCK: Domestic animals, such as bovines including cattle, oxen, bison, etc., camelids including llamas, alpacas, etc., equines including horses, donkeys, burros, mules, ponies, etc., goats, sheep, swine, or ratites including ostriches, rheas, emus cassowaries, kiwis, etc., raised for home use or for profit. (4968)

NONHUMAN PRIMATE: Any mammal of the order primate not including man; including all monkeys and apes. (4968)

OWNER: Any person or legal entity having a possessory property right in an animal or land or who harbors, cares for, exercises control over, or knowingly permits any animal to remain on premises occupied by them. (4968)

PERSON: Any corporation, company, partnership, firm, association, organization, joint venture, business trust, proprietor, agent, or society as well as a natural person. (4968)

PIGEON: Any domesticated bird of the family Columbidae including fancy, show, and homing (racing) pigeons. (4968)

POUND: Any establishment authorized for the confinement, maintenance, safekeeping, and control of dogs and other animals that come into custody of the enforcement agend in the performance of official duties. (4968)

RODENT: Any herbivorous mammal including rabbits, hares or lagomorphs. (4968)

VECTOR: Any insect or other organism that can transmit a pathogenic fungus, virus, bacterium, etc. (4968)

VETERINARIAN: Unless otherwise indicated, veterinarian means licensed to practice in this state or any veterinarian employed in this state by a governmental agency. (4968)

8-6-34: VIOLATIONS AND CITATIONS

Any violations and/or citations issued under this article shall be in accordance with and pursuant to Article III of this Title. (4968)

8-6-35: CIVIL PENALTIES

The penalty for a violation or violations of this Article shall be in accordance with and pursuant to Article III of this Title. (4968)

CHAPTER 9

ACCUMULATIONS OF LITTER PROHIBITED (Repealed)‡

CHAPTER 10

MUNICIPAL WATER SYSTEM**

8-10-1: PURPOSE AND INTENT

(A) The City Council of the City of Mesa has determined that it is in the best interests of the City to establish certain terms, conditions, limitations and other requirements regarding City water utility service considering, among other factors, the City's General Plan, Designation of Assured Water Supply (as recognized by the Arizona Department of Water Resources), water resource portfolio, current hydrologic conditions, Water Master Plan, and Zoning Ordinance.

(B) The City Council also desires to promote water conservation and implement certain measures that will provide for a sustainable water supply for existing and future Customers and other water users across the City due to the finite availability of water resources and their susceptibility to drought and other limiting conditions.

(Ord. No. 5863, § 1, 7-8-24)

***Editor's note**—Ord. No. 1628 repealed Chapter 7.

†**Editor's note**—Ord. No. 2568 repealed Chapter 8. Former chapter derived from Ord. No. 185.

‡**Editor's note**—Ord. No. 2568 repealed Chapter 9. Former chapter derived from Ord. Nos. 592, 610, 627, 1768, 2143.

****Editor's note**—Ord. No. 5863, § 1, adopted July 8, 2024, repealed the former Art. 10, §§ 8-10-1—8-10-11, and enacted a new Art. 10 as set out herein. The former Art. 10 pertained to similar subject matter and derived from Ord. No. 5515, § 2(Exh. A), 7-8-19.

8-10-2: DEFINITIONS

For purposes of this Chapter:

ALLOWANCE: The amount of System water available in excess of the Demand Ceiling based on conveyance of Long Term Storage Credits to the City, compliance with an approved MLM Permit (or Sustainable Service Agreement), and all other requirements of this Chapter.

APPLICANT: A Person that owns property and applies for Development Entitlements or otherwise requests water utility service.

BODY OF WATER: Shall have the same meaning as set forth in A.R.S. § 45-131(1) (2022).

CITY: The City of Mesa, an Arizona Municipal Corporation and political subdivision of the State of Arizona.

CUSTOMER: The Person that owns or controls property which is connected to and receives service from the System.

DEMAND CEILING: The maximum metered amount of water in acre feet (325800 gallons) available to Customers in a rolling twelve (12) month period pursuant to Section 8-10-9.

DEPARTMENT: The City of Mesa Water Resources Department, or any successor identified by the City, which is responsible for enforcing the requirements of this Chapter.

DEVELOPMENT ENTITLEMENTS: Approvals by the City under applicable Mesa City Code provisions, including but not limited to Title 9 Chapters 6 and 8, for development, construction and/or installation of improvements on specified property.

DIRECTOR: The Director of the Department or designee.

DISTRIBUTION MAIN: Potable water mains located within right-of-way, or a qualifying public utility easement acceptable to the Department, and suitable for customer connection, as determined by the Department and generally smaller than 16 inches in diameter.

FRONTAGE: The entire length of that portion of a parcel of property that abuts a qualifying private street, public utility easement, or public Right-of-Way.

KGAL: One thousand gallons.

LAKE PERMIT: A permit authorizing the filling of an artificial body of water or use of water at a Turf-Related Facility.

LONG TERM STORAGE CREDITS: Long Term Storage Credits as defined in A.R.S. § 45-802.01 created at a Storage Facility in the East Salt River Valley Subbasin of the Phoenix Active Management Area, as defined by the Arizona Department of Water Resources.

MLM CUSTOMER: Persons who have a valid MLM Permit or Sustainable Service Agreement or qualifying Legacy Customers.

MLM PERMIT or PERMIT: A required written authorization issued by the Department in accordance with Section 8-10-9.

OUTSIDE USER: Any Applicant desiring or Customer receiving service at property located outside the municipal boundaries of the City.

OVER-SEEDING: Seeding a variety of cool weather grass such as ryegrass, bluegrass, or bentgrass into an existing perennial warm weather variety of grass such as bermudagrass.

PERSON: Any individual, partnership, firm, company, corporation, association, limited liability company, joint stock company, trust, estate, governmental entity, or any other legal entity, or its legal representatives, agents or assigns. This definition includes all federal, state, and local governmental entities.

PUBLIC UTILITY FACILITIES EASEMENT OR PUBLIC UTILITY EASEMENT: Land granted or dedicated to the City for utility related uses and improvements and associated appurtenances and facilities, as applicable.

RATE SCHEDULE: A schedule of rates, fees, charges, and customer classifications, adopted and made effective by Ordinance by the City.

RIGHT-OF-WAY: Land which by deed, conveyance, agreement, easement, dedication, usage or process of law is reserved for or dedicated to the City for street, highway, alley, public utility, or pedestrian walkway purposes.

SUSTAINABLE SERVICE AGREEMENT: A written agreement between the City and an MLM Customer expressly setting forth provisions and limitations regarding water demand and consumption, including a Demand Ceiling, applicable Allowance, and provisions regarding the transfer of Long Term Storage Credits to the City by the Customer.

SYSTEM: Municipal water transmission and distribution mains, pumps, treatment plants and other facilities used or useful in the provision of potable water utility service by City, (where available from City in its sole and absolute discretion).

TERMS AND CONDITIONS: The Terms and Conditions for the Sale of Utilities, as adopted and amended from time to time by the City by Ordinance.

TRANSMISSION MAIN: Potable water mains located within right-of-way not suitable for customer connection and generally larger than 12 inches in diameter.

TURF-RELATED FACILITY: A facility that applies water to ten (10) or more acres of landscaping. Turf-related Facility includes, but is not limited to, golf courses, parks and recreational facilities, school grounds, churches and cemeteries.

WATER MASTER PLAN: The master plan report, as may be periodically updated, that provides the City's comprehensive plans regarding water demands, water resources, and water production and distribution infrastructure based on factors such as development goals, land uses to be encouraged by the City's provision of water utility service, and the criteria to be considered by City staff, boards, and City Council Committees related to Water and the System, particularly as they relate to MLM Customers.

WATER SHORTAGE MANAGEMENT PLAN: The conditions, limitations, restrictions and other measures taken by the City in the event of a reduction in the availability of water supplies or transmission, treatment or distribution capacity, as set forth in Section 8-10-6.

STAGE ONE SHORTAGE: The first stage of the Water Shortage Management Plan, consisting of voluntary measures to be taken when a prolonged reduction in surface water supplies or available capacity can be predicted in advance, with a goal reduction of approximately five percent of water demand.

STAGE TWO SHORTAGE: The second stage of the Water Shortage Management Plan, consisting of the Stage One voluntary measures, plus additional limitations, restrictions and reductions, to be taken when approximately twenty percent of the City's Central Arizona Project and exchange water supplies are affected, or when approximately fifty percent of SRP stored and developed supplies are affected, with a goal reduction of approximately ten percent of water demand.

STAGE THREE SHORTAGE: The third stage of the Water Shortage Management Plan, consisting of the Stage One and Two measures, plus additional limitations, restrictions and reductions, to be taken when approximately forty percent of the City's Central Arizona Project water and exchange supplies are affected, or when more than fifty percent of SRP stored and developed supplies are affected, with a goal reduction of approximately fifteen percent of water demand.

STAGE FOUR SHORTAGE: The fourth stage of the Water Shortage Management Plan, consisting of the measures from Stages One through Three, plus additional limitations, restrictions and reductions, to be taken when the City's available surface water and other supplies or capacity are anticipated to be insufficient to satisfy projected demand, with a goal reduction of twenty percent or more of water demand.

(Ord. No. 5863, § 1, 7-8-24)

8-10-3: GENERAL PROVISIONS

(A) All Applicants, Customers and Persons receiving or using City service from the System are subject to, must comply with, and are deemed to have consented to, this Chapter 10 of Title 8 of the Mesa City Code, as well as the Terms and Conditions and the provisions of applicable Rate Schedules, as well as to such conditions of pressure and supply as the City may provide from time to time through the System and at the property and location served.

(B) All Customers and Persons receiving and using water service further take and use such service subject to and are deemed to agree to hold the City and the Department harmless from, any damages, losses or claims of any kind arising from low or high water pressure, fluctuations of pressure, interruptions of service, and shortage or insufficiency of supply.

(C) All System connections must be made, and all meters must be set, by the City on the various Distribution Mains. All repairs on mains, meters, service laterals to the meter, check valves and fire hydrants must also be made by the Department or as approved by the Director. Service must be obtained from Distribution Mains located within right-of-way or a public utility easement acceptable to the Department within the applicable pressure zone. Service is not available from transmission mains.

(D) The drilling of new domestic exempt wells as defined in A.R.S. § 45-402 within the municipal boundaries of the City is prohibited without the express advance written permission of the Director. Existing wells, and replacement wells drilled in accordance with the Arizona Groundwater Management Act for such existing wells are exempt from the provisions of this Section.

(E) The City has no obligation to provide new service to Outside User Applicants, nor to provide a larger meter to existing Outside Users.

(F) The City may require a written agreement as a condition precedent to service:

1. Pursuant to the provisions of an adopted Rate Schedule or this Chapter;

2. In connection with System extension or installation of other System facilities; or

3. When the Department, in its discretion, requires such an agreement due to special, unusual or exceptional circumstances of service as determined by the Director.

(G) No Person shall willfully or negligently permit or cause the escape or flow of water in such quantity as to cause flooding, impede vehicular or pedestrian traffic, create a hazardous condition to traffic, or cause damage to city rights-of-way through failure or neglect to properly operate or maintain any irrigation or landscape watering customer lines and equipment for any period of time after such escape of water should have been discovered and corrected through the exercise of reasonable diligence.

(Ord. No. 5863, § 1, 7-8-24)

8-10-4: MINIMUM REQUIREMENTS FOR POTABLE WATER SERVICE

(A) In addition to any other applicable requirements of the Mesa City Code and the Terms and Conditions, all Applicants and property for which service is desired shall, as a minimum requirement of receiving service, extend as a portion of the System a minimum of an eight inch Distribution Main (or such size as is determined by the Director) adjacent to and along the entire Frontage of the parcel (if not existing), and along all Frontages of the property if multiple Frontages occur. In addition, Applicants must extend and loop the transmission mains as necessary under the Water Master Plan. All transmission and Distribution Main extensions must comply with applicable Engineering standards. The Director may modify or reduce the requirement that a Distribution Main be extended for the entire Frontage of a parcel if such extension is not needed to provide service to customers beyond the property.

(B) All extensions of the System, however provided for, shall become the property of the City under control of the City. Title to any System facilities constructed by others shall be tendered to the City prior to City providing service through such facilities. The City's approval and acceptance of any extension facilities shall be within the City's sole discretion, and subject to demonstration of construction in accordance with applicable Engineering standards.

(C) The Customer will provide at no cost to the City Right-of-Way, a Public Utility Facilities Easement, or a Public Utility Easement, all in a form acceptable to the City, as needed for the purpose of constructing, maintaining and operating the System, and for the service laterals and other facilities required on the Customer's property up to the point of delivery, which is generally the outlet side of metering equipment.

(D) As a condition of receiving service, all Customers grant a license to the City over Customer's property for the purposes of meter reading, connection and disconnection of service as well as operating, maintaining and replacing the System.

(E) The City may require that a Customer provide, at the Customer's own expense, suitable equipment (including on-site storage) as necessary to reasonably limit fluctuations in flow and pressure caused by the Customer's equipment or operations where, in the sole judgment of the City, such intermittent or fluctuating use of water may result in either impairment of service to other Customers or damage to the System.

(Ord. No. 5863, § 1, 7-8-24)

8-10-5: RATES

The Rate Schedules for water service are those approved and adopted by ordinance of the City. If there are multiple available optional Rate Schedules or provisions therein, the Applicant shall designate the schedule or provisions, or City may designate until the Applicant makes such designation. The City is not required to notify existing Customers of available optional rates or provisions. Should a Customer elect to change to another available optional Rate Schedule or provision, the change will become effective for the billing cycle commencing after the customer has requested the change. Where optional Rate Schedules or provisions are available, only one change requested by the Customer will be allowed in any twelve (12) month period unless approved by the Director.

(Ord. No. 5863, § 1, 7-8-24)

8-10-6: SERVICE, DISRUPTIONS, AND LIMITATION OF LIABILITY

(A) The City will, considering the existing circumstances and conditions and without undue preference or obligation to any Customer, make reasonable efforts to provide satisfactory service and to avoid unreasonable interruptions of service. It cannot, and does not warrant or guarantee a continuous or sufficient supply or freedom from fluctuation, intermittency or interruption. Service may at any time be suspended or interrupted due to emergencies or for the purpose of performing maintenance, making repairs, extending or replacing the System, or other necessary work, and also pursuant to the Water Shortage Management Plan and the provisions of this Chapter. The Department will endeavor to provide notice of outages where reasonable and practicable.

(B) The City does not warrant nor guarantee its ability to provide continuous or uninterrupted utility service; nor does the City warrant or guarantee any level of supply sufficiency. If service is delayed, interrupted, suspended, discontinued, irregular, fluctuating, intermittent, reduced or otherwise limited or defective the City shall not be liable for damages, losses or claims of any kind arising therefrom.

(C) Customers who have any machinery, material, process or plant which requires a constant supply or flow or pressure of water shall at the Customer's own expense install upon their property such water storage pumps, tanks and other facilities as will prevent any damage in case service may, for any reason, be interrupted, fluctuating, intermittent or discontinued.

(D) The City will make reasonable efforts to reestablish service when service interruptions occur, considering in all cases the customer's needs and capacity, the existing facts, circumstances and conditions including

but not limited to System condition and physical availability of water supplies, and considering impacts to other customers. The restoration of service will be performed by the Department in the manner which, in the opinion of the Department, will result in the greatest public benefit.

(E) The City, without notice or liability, may suspend or interrupt service to any Customer or Customers in the event of an emergency or disaster threatening the integrity or operation of its System if, in its sole judgment, such action will prevent or alleviate the emergency condition. In such a case, the Department may apportion its available supply of water among its Customers in the manner that appears equitable and of the greatest public benefit under conditions then prevailing and with due consideration for public health, safety, and welfare.

(F) The City will also make reasonable efforts to complete the installation of new System mains and facilities within a reasonable time period, also considering the Customer's needs and capacity required, the existing circumstances and conditions, and its obligations to other Customers, but shall not be liable for any delays in completion of such installation.

(Ord. No. 5863, § 1, 7-8-24)

8-10-7: LAKE AND TURF RESTRICTIONS

(A) It shall be unlawful for any Person or entity to fill a Body of Water or to apply water for landscaping watering purposes on a Turf-related Facility without first obtaining a Lake Permit from the City, the Arizona Department of Water Resources as required by A.R.S. § 45-132, and this Section.

1. Any Person or entity desiring to fill a Body of Water and any Person or entity desiring to apply water for landscape watering purposes on a Turf-related Facility within the water service area of the City as defined in A.R.S. § 45-402(31) shall, before filling the Lake or before applying the water, make application to the City through the Department for a Lake Permit.

2. The City Council may schedule a hearing on the application for a Lake Permit for filling of a Body of Water or for applying water for landscape watering purposes on a Turf-related Facility at any regular or special meeting of the City Council. The City Council may issue a Lake Permit for the filling of a Body of Water or for applying water for landscape watering purposes on a Turf-related Facility if it is satisfied that all of the following conditions are met:

   a. The Lake or Turf-related Facility is to be filled exclusively with any one (1), or a combination of, the following:

      (i) Effluent;

      (ii) Storm water runoff that is not subject to appropriation under A.R.S. § 45-141;

      (iii) Water withdrawn pursuant to a poor-quality permit issued under A.R.S. § 45-516; and

      (iv) Groundwater withdrawn pursuant to a Type 1 or Type 2 Non-Irrigation Certificate of Grandfathered Right issued by the Arizona Department of Water Resources.

   b. Measures will be taken to minimize evaporation loss of water from the Lake by minimizing the surface area or from a Turf-related Facility by utilizing low-water-consuming turf and plants.

c. The Lake, when full, shall contain no less than five (5) acre feet of water per acre of surface area with an average depth of five feet (5').

d. The development or facility in which the Lake or the Turf-related Facility is located will implement an effective indoor and outdoor water conservation program.

e. The development or facility with which the Lake or the Turf-related Facility is associated will generate an economic impact for the City sufficient to justify the water used.

3. The City shall monitor the use of water by appropriate metering, pursuant to any Lake Permit issued under this Section, and the Department shall terminate the Lake Permit upon making a finding that any of the conditions for issuance no longer apply.

(B) Where an existing Body of Water is filled with water from the City's water supply or an existing Turf-related Facility is supplied with water from the City, the City may, in its sole and absolute discretion, supply effluent.

(C) If the City has reason to believe that a Person is violating or has violated any provision of this Section or a Lake Permit issued hereunder, the City may, in addition to terminating service and referring suspected violations of this Section to the Arizona Department of Water Resources, commence a civil action and apply for a temporary restraining order or preliminary or permanent injunction from the Superior Court according to the Arizona Rules of Civil Procedure. A decision to seek injunctive relief shall not preclude other forms of relief or enforcement against the violator.

(D) This Section shall not apply to a Body of Water filled or a Turf-related Facility in existence (or for which on-site physical construction commenced or for which extensive design was prepared) prior to September 18, 2004, unless the size of such Lake or Facility was subsequently increased. This Section also shall not apply to a Body of Water or Turf-related Facility located in recreational facilities that are open to the public and owned or operated by the United States, the State, the City, or a flood control district or multi-county water conservation district.

(E) All Bodies of Water and Turf-related Facilities shall be subject to any restrictions, reductions, prohibitions, limitations and other measures adopted by resolution of the City Council (or emergency declaration of the Mayor under A.R.S. Title 26, Chapter 2 Article 1 Section 311, or Mesa City Code Title 1 Chapter 14) as part of a stage two, three or four shortage.

(Ord. No. 5863, § 1, 7-8-24)

8-10-8: WATER SHORTAGE MANAGEMENT PLAN

(A) In the event of a reduction or limitation in the availability of water supplies or transmission, treatment, distribution capacity, or other System issue that requires a reduction in demand for water, City water service shall be subject to the restrictions, reductions, prohibitions, limitations and other measures set forth in this Section, regardless of where located. Shortages may be declared in four stages, depending on the severity of localized and/or regional reductions and other limitations in water resource availability or System capacity due to conditions such as but not limited to, reductions in the supply of Central Arizona Project and Salt/Verde water, limitations on the availability of suitable groundwater, and loss or closure of

transmission capacity by either the Salt River Project or Central Arizona Water Conservation District. The City may also adopt by resolution supplements which set forth the considerations for declaration of each Stage, and additional plans of action to be taken by the City consistent with this Section.

(B) The City intends to subject similarly situated customers to the restriction and reduction of use of water in a substantially equitable, reasonable and effective manner given the existing circumstances, unless otherwise expressly provided herein. The City may give priority to customers located within the City's municipal boundaries over Outside Users.

(C) Stage One Shortage. The City Manager has the authority to declare a Stage One shortage, when limitations in the available supplies, capacity, or System require a reduction of up to five percent in demand. Upon such a declaration the informational conservation measures set forth in the supplemental Water Shortage Management Plan adopted by resolution shall be implemented, and voluntary water conservation measures shall be encouraged.

(D) Stage Two, Three and Four Shortages. Stages Two, Three and Four shortages will be adopted by resolution of the City Council, or by emergency declaration by the Mayor under A.R.S. Title 26, Chapter 2 Article 1 Section 311, or Mesa City Code Title 1 Chapter 14. If a Stage Two, Three or Four Shortage is adopted or declared, the following cumulative water use restrictions, reductions, prohibitions, limitations, and other measures shall apply to all Customers and Persons for as long as the shortage remains in effect:

1. Stage Two shortage (targeted demand reduction of ten percent) requirements are:

    a. All landscape watering limited to between the hours of 9:00 p.m.—5:00 a.m. when water from the System is used as the source.

    b. Use of water in decorative outdoor water features and outdoor misting systems is prohibited.

    c. Vehicle washing is allowed only at commercial facilities or with pail and hose with a shut off nozzle.

2. Stage Three shortage (targeted demand reduction of fifteen percent) requirements are:

    a. All use restrictions, reductions, prohibitions, limitations, and other measures under Stage Two.

    b. Landscape watering is further restricted to once per week, on a schedule determined by the Department.

    c. No Person shall allow the waste of water for any period of time after such waste of water should have been discovered and corrected.

    d. Use of water for construction or other dust control measures prohibited between the hours of 2:00 p.m.—5:00 p.m.

    e. Vehicle washing is allowed only at commercial facilities.

    f. Restaurants to serve water only upon request of customer.

    g. Large commercial and industrial customers, and all customers with a meter sized 4" or larger (or the equivalent in multiple meters), shall develop and implement (if not already in practice) a conservation and compliance plan considering measures such as the incorpora-

tion and use of the latest commercially available conservation technology consistent with reasonable economic return, and provide annual reports to the Department on the implementation thereof.

h. Over-Seeding prohibited.

3. Stage Four shortage (targeted demand reduction of twenty percent or more) requirements are:

a. All use restrictions, reductions, prohibitions, limitations, and other measures under Stages Two and Three.

b. Landscape watering is further restricted to every other week, on a schedule determined by the Department.

c. Residential swimming pools must be covered during day when not in use or drained.

d. Sale of sod prohibited within municipal limits.

e. Sale of all construction water by the Department prohibited.

f. Hotel linen washing once per guest stay, towel replacement on request.

g. Dealership vehicle washing one day per week, schedule determined by the City.

h. All residential customer-uses over 7 KGAL/monthly billing cycle subject to 20% billing surcharge.

Water hauling station subject to 20% billing surcharge.

j. All commercial, industrial and multi-unit customer uses over 65 KGAL/monthly billing cycle subject to 25% billing surcharge.

k. All dedicated landscape service subject to a 30% billing surcharge.

Water shall be available to all Customers based on the average of the previous three years water usage. For Customers with less than three years of consumption history, availability will be based on existing City water use averages for the customer class. Customers eligible for a waiver under A.R.S. § 9-463.06 (whether such moratorium has been declared or not) pursuant to an existing written development agreement with the City shall be permitted to develop the project and establish three years of reasonable water usage history consistent with such development agreement. Limitations under this Section may be enforced by the City through the use of water flow restrictors, service shutoff, meter sizing, or other means as determined by the Department.

l. Additional restrictions, reductions, prohibitions, limitations, and other measures as approved by the City Council.

m. Moratorium under A.R.S. § 9-463.06 may be declared.

(E) When the availability of service is so restricted under a Stage Four shortage that reduction on a proportionate basis for customer classes based on prior usage will not maintain the integrity of the System or service, the Department, in coordination with an emergency declaration of the Mayor, shall develop procedures to curtail service to different customer classes, giving service priority based on the public convenience and necessity and where health, safety and welfare would be adversely affected. Curtailment of service shall start with dedicated landscaping uses.

(F) The City will provide six months-notice prior to the declaration of a Stage 3 shortage, and one-year notice prior to the declaration of a Stage 4 shortage, unless made by emergency declaration of the Mayor, in which case as much notice as practicable under the circumstances will be provided. Notice of Stage 3 and 4 shortages shall be provided to all customers in their monthly utility bills and posted on the City's web site. Upon declaration of a Stage 1 or Stage 2 shortage, the City Manager or designee will determine how the public will be notified as detailed in the supplemental Water Shortage Management Plan adopted by Resolution.

(G) Limited exceptions to the water use restrictions, reductions and limitations under this Section may be granted after application in writing provided to the Department and heard by the City Council or City Council Committee designated to hear such requests. Exceptions must be based upon a showing of good cause and special circumstances such as health, safety and welfare needs or other undue hardship.

(Ord. No. 5863, § 1, 7-8-24)

8-10-9: DEMAND CEILING COMPLIANCE AND MULTIPLE OR LARGE METER CUSTOMER WATER PERMITS

(A) Water Demand Ceiling. Except as otherwise provided in this Section, Customers are subject to an annual limit of 330 acre-feet of water in a rolling twelve (12) month period on metered deliveries. Meters used solely for residential use and hospitals (NAICS Code 622) are excluded from this requirement except the Demand Ceiling applies to and includes all landscaping meters.

(B) Demand Ceiling Applicability.

1. All Customers (including Legacy Customers and Established Legacy Customers) shall limit their metered water use to the applicable Demand Ceiling.

2. All Customers with an MLM Permit shall remain in compliance with all Permit conditions at all times.

3. All Customers with a Sustainable Service Agreement shall remain in compliance with all Agreement terms at all times.

(C) MLM Permit.

1. In order to exceed the Demand Ceiling limits, Applicants and Customers must request and obtain a Multiple or Large Meter Permit ("MLM Permit") which is a written authorization issued by the Department for the permitted Customer to exceed the Demand Ceiling.

2. Applicants and existing Customers that request a meter four (4) inches or larger or the equivalent in multiple meters must also obtain an MLM Permit. Meters used solely for residential use and hospitals (NAICS Code 622) are excluded from this requirement except that this requirement applies to all landscape meters.

3. Any Customer requesting service with special, unusual or exceptional characteristics, including but not limited to peak momentary, hourly, daily or monthly demand, all as determined by the Department, must also obtain an MLM Permit.

(D) Sustainable Water Service Application.

1. Customers shall apply for an MLM Permit by submitting a completed Sustainable Water Service Application on the Department approved form, stamped by a Registered Professional Engineer, to the Department.

   a. For undeveloped property, Applicants must submit a Sustainable Water Service Application at the time the Applicant submits for any Development Entitlements.

   b. Existing Customers must submit a Sustainable Water Service Application prior to exceeding the applicable Demand Ceiling Limits or upon request of the Department.

2. The Customer or Applicant will provide on the Sustainable Water Service Application, the name and address of the facility including the name of the operator, owner, and SIC/NAICS codes, phasing of development and construction, water demand growth, the approximate number and size of the structures to be served, a reasonable description of the nature and type of water uses proposed on the property to include types of equipment and processes, a list of any environmental control permits held by or for the facility, a reasonable estimate of the projected average and peak hourly, daily, monthly, and annual water demand, and other information as requested by the Department. The Application will include an acknowledgment by the Applicant that the property is subject to the Demand Ceiling Limits and compliance with this Chapter.

(E) MLM Permit Issuance and Terms.

1. If after reviewing the Sustainable Service Application, the Department determines the System, in combination with any improvements to be provided by the Applicant or Customer, is sufficient for the projected demands, the Department may provide a Permit authorizing MLM Customer status and where applicable setting forth an Allowance.

2. All Sustainable Service Applications not resulting in issuance of an MLM Permit within sixty (60) days shall be deemed denied, unless the Applicant requests and the Department grants a reasonable extension based on the totality of the circumstances as determined by the Department.

3. The MLM Permit may contain or authorize:

   a. The Demand Ceiling.

   b. An Allowance amount.

   c. Placement of multiple or large meters (4 inches or larger or the equivalent in multiple meters).

   d. A statement that compliance with the Permit does not relieve the MLM Permittee of responsibility for compliance with all applicable federal and state requirements.

   e. Other conditions as the Department deems appropriate to ensure compliance with this Chapter, and state and federal laws rules, and regulations.

4. MLM Customers with a permitted Allowance must, at the Customer's sole cost and expense, secure and transfer a sufficient amount of Long-Term Storage Credits to the City through the Arizona Department of Water Resources to meet all metered Allowance amounts in excess of the applicable Demand Ceiling. MLM Customers must complete the transfer of Long-Term Storage Credits to

the City within ninety (90) calendar days of the issuance of an MLM Permit by the Department. The amount of the transferred Long-Term Storage Credits must be sufficient to cover the full amount of the authorized Allowance for a period of not less than three (3) years. After the initial transfer upon Permit issuance, MLM Customers must thereafter maintain a balance with the City of at least three (3) years of Long Term Storage Credits, or the Allowance shall be recalculated in each year by dividing the remaining available Long Term Storage Credits by three.

(F) Sustainable Service Agreement. Customers with an Allowance may at the discretion of the Department be required to enter into a Sustainable Service Agreement.

(G) Legacy Customers.

1. A Legacy Customer is a Customer existing as of the Effective Date of Ordinance No. 5863 with a historic demand above (or within ten percent of) 330 acre feet of water annually, but less than or equal to 550 acre-feet of water annually, and without a Sustainable Service Agreement.

2. The Demand Ceiling for Legacy Customers is 550 acre-feet. Legacy Customers are further limited to their existing meter size.

3. Legacy Customers shall limit metered deliveries to the Legacy Customer's Demand Ceiling and may be issued a MLM Permit by the Department.

4. Legacy Customers must submit a Sustainable Water Service Application and obtain and comply with an MLM Permit with an Allowance prior to exceeding the Legacy Customer's Demand Ceiling. Legacy Customers must also submit a Sustainable Water Service Application upon the request of the Department.

(H) Established Legacy Customers.

1. An Established Legacy Customer is a Customer existing as of the Effective Date of Ordinance No. 5863 with a historic demand above 550 acre-feet of water annually and with at least one year during the last five of historic consumption in excess of that amount, and without a Sustainable Service Agreement.

2. The Demand Ceiling for Established Legacy Customers is up to 850 acre-feet. For an Established Legacy Customer with a historic demand above 900 acre-feet of water annually for the year prior to the Effective Date of Ordinance No. 5863 the Demand Ceiling is 950 acre-feet. The Department shall issue an MLM Permit setting forth the applicable Demand Ceiling for each Established Legacy Customer. Established Legacy Customers are further limited to their existing meter sizes in the absence of a Permit or Sustainable Service Agreement.

3. Established Legacy Customers shall limit metered deliveries to the Established Legacy Customer's Demand Ceiling.

4. Established Legacy Customers must submit a Sustainable Water Service Application and obtain and comply with an MLM Permit with an Allowance prior to exceeding the Established Legacy Customer's Demand Ceiling. Established Legacy Customers must also submit a Sustainable Water Service Application upon the request of the Department.

(I) Compliance.

1. All Customers must comply with the applicable Demand Ceiling, Allowance, or Sustainable Service Agreement, as applicable. Water deliveries of five percent (5%) or more over the applicable Demand Ceiling, Allowance, or Sustainable Service Agreement amounts shall constitute a violation. Penalties for violation shall be as follows:

   a. First exceedance (one or more days in any month): Written notice and penalty as provided in Section 8-10-10(A).

   b. Second exceedance (one or more days in a second month within three years of a first exceedance): Penalty as provided in Section 8-10-10(B).

   c. Third and subsequent exceedances (one day in a third month within three years of a second exceedance): Penalty as provided in Section 8-10-10(C), and each day of exceedance constitutes a separate violation of this Section 8-10-9(I)(1)(c).

2. In addition to all other remedies under this Chapter, water deliveries to an MLM Customer in any period that exceed the Demand Ceiling, Allowance, or Sustainable Service Agreement amounts as applicable over the same period shall be billed under the applicable General Commercial Water Service Rate Schedule.

3. In addition to all other remedies under this Chapter and the MLM Permit, the Department may also revoke a Permit for good cause shown including, but not limited to, the following reasons:

   (i) Failure to provide prior notification of significant changes to water demands;

   (ii) Misrepresentation of or failure to fully disclose all relevant facts in the Sustainable Service Application;

   (iii) Falsifying any required reports;

   (iv) Tampering with metering equipment;

   (v) Refusing to allow the Department timely access to the facility premises and records;

   (vi) Violations of any effluent limitation, pretreatment standards or requirements or any terms of the wastewater discharge permit or this article;

   (vii) Failure to pay fines; or

   (viii) Failure to timely pay water and wastewater rates, fees and charges.

(Ord. No. 5863, § 1, 7-8-24)

8-10-10: PENALTY AND REMEDY CLAUSE

Any person who violates any of the provisions of this Chapter of the Mesa City Code as amended shall, in addition to any other penalties set forth in this Chapter, be subject to penalties and fines as follows:

(A) For a first violation of any provision of this Chapter, the Department shall issue a written notice of first violation delivered by certified mail to the Customer's billing address, along with educational materials on water conservation, including a copy of the relevant provisions of this Chapter. The Department may also

impose a fine of up to five hundred dollars ($500.00). The fine shall be added to the Customer's account. The City may give a Person in violation a reasonable time period to correct the violation, not to exceed sixty (60) days.

(B) For a second violation of any provision of this Chapter, the City shall issue a written notice of second violation delivered by certified mail to the Customer's billing address requiring correction of the violation within thirty (30) days and imposing a fine of up to seven hundred fifty dollars ($750.00). The fine shall be added to the customer's account. Failure to pay any portion of a customer account, including any fines imposed pursuant to this section, shall subject the account to termination of service in accordance with the provisions of the Terms and Conditions. In addition, for a violation of the Demand Ceiling or Water Allowance, the City may take measures to limit or reduce demand for service, including, but not limited to, elimination of redundant metering, reduction in meter size, reduction in meter count, and implementation of valving or other measures which limit flow.

(C) For a third or subsequent violation of this Chapter, the City shall issue a civil code violation and impose a fine pursuant to Title 1 Chapter 27 of the Mesa City Code. A civil action may be commenced, by issuance of a complaint in the manner set forth in Section 1-27-2. The complaint shall direct the Person to appear, at the time and place stated, before the Mesa City Court or a Hearing Officer appointed as provided in Section 1-27-8. The complaint shall be served and administered in accordance with Sections 1-27-3 and 1-27-7.

(D) On behalf of the City and with the concurrence of the City Attorney and City Manager, the Department may enter into negotiated settlements, assurances of compliance, or other similar documents establishing an agreement with any person responsible for noncompliance. Such documents shall include specific action to be taken by the person to correct the noncompliance within a time period specified by the document and may include recovery of penalties. The City may bring an action in superior court to enforce any breach of a negotiated settlement agreement, which may include but is not limited to, recovery of the then current cost of securing an acre-foot by acre-foot replacement supply of Phoenix Active Management Area Long Term Storage Credits equaling the exceedance.

(E) All hearings before the Mesa City Court or a Civil Hearing Officer shall be in accordance with Section 1-27-7 and Title 1, Chapter 27. Hearings shall be informal, except that testimony shall be given under oath or affirmation. The technical rules of evidence shall not apply, except for statutory provisions relating to privileged communications. The City shall have the burden of proving all violations charged by a preponderance of the evidence. No preheating discovery shall be permitted except under extraordinary circumstances as determined by the Court or Civil Hearing Officer.

(F) Upon an admission of the allegations of the complaint or a finding of violation in favor of the City by the Mesa City Court or Civil Hearing Officer, the Court or Hearing Officer shall enter a finding of responsibility and judgment against the Person for civil sanctions in the amount of two thousand and five hundred dollars ($2,500.00) for each violation of this Chapter, and each day of violation continued, shall be a separate offense. Failure to pay any portion of a fine imposed shall subject the customer account to termination of service.

(G) An appeal from a final judgment of the Court or Civil Hearing Officer may be taken in accordance with Title 1, Chapter 27 of this Mesa City Code and pursuant to the Arizona Rules of Procedure for Special Actions.

(H) In addition to civil sanctions and any fine imposed, the City may also terminate service for a second or subsequent violation of this Chapter. The City shall not restore service until the Director has determined that the water user has provided reasonable assurances that future violations of this Chapter by such user will not occur. In addition, the Director may require a security deposit.

(I) Violations of this Chapter and penalties and remedies as set forth herein are in addition to any other violation or remedy established by law, and this Chapter shall not be interpreted as limiting the penalties, actions, or abatement procedures that may be taken by the City or other Persons under the laws, ordinances, or rules.

(Ord. No. 5863, § 1, 7-8-24)

8-10-11: CIVIL AND CRIMINAL ACTIONS: HABITUAL VIOLATIONS

(A) The City Manager may request that the City Attorney commence civil action against any Person violating any requirement of this Chapter.

(B) Any Person who violates a provision in this Chapter after previously having been found responsible for committing three (3) or more civil violations, whether by admission, payment of a fine, default, or judgment after hearing, shall be guilty of a criminal misdemeanor. The Mesa City Prosecutor is authorized to file a criminal misdemeanor complaint, in the Mesa City Court, against habitual offenders who violate this Chapter.

(Ord. No. 5863, § 1, 7-8-24)

8-10-12: LIMITATION

Nothing in this Chapter, including the authorization of an Allowance by Permit or a Sustainable Service Agreement, guarantees a particular level of water delivery or service, conveys any rights to the ownership of water, or creates a reservation of a specific quantity of water to any Permittee, Customer, or Person. The Allowance is used for determining compliance by MLM Customers with MLM Permit requirements. All service remains subject to the provisions of this Title 8, Chapter 10 and other Sections of the City Code, the Terms and Conditions, and payment of applicable rates, fees, and charges, all as amended and in effect from time to time.

(Ord. No. 5863, § 1, 7-8-24)

8-10-13: CAPACITY FEE

(A) This Section is enacted pursuant to Arizona Revised Statutes §§ 9-511 and 9-511.01.

(B) The intent of this Section is that new customers bear a proportionate share of adding necessary capacity to the City's water and wastewater systems.

(C) The City will assess water and wastewater capacity fees for new or upsized water connections by meter size in the amounts in Table 1.

(D) Any person who obtains a building permit is required to pay the water and wastewater capacity fee upon requesting a connection to the City's water or wastewater systems.

(E) Any person who requests a new or upsized water meter connection is required to pay the water and wastewater capacity fee before the City installs the new or upsized meter connection.

(F) The capacity fees received under this section will be placed in a Capacity Fee Fund, a separate and distinct fund.

(G) The monies in the Capacity Fee Fund shall be used only to fund water and wastewater capital improvement projects and debt service for such capital improvement projects.

(H) The capacity fees received under this section are not to be included in "gross revenues" under Mesa City Code 3-3-4(D)(3) and are not subject to the General Fund Transfer authorized in Mesa City Code, Title 3, Chapter 3.

(I) If the City has removed water meters on unused property, the water and wastewater capacity fee will be assessed based on the upsized water connection from the prior meter removed by the City.

(J) New water meters installed for irrigation purposes only are exempt from payment of the wastewater capacity fee.

(K) If a water or wastewater customer pays a capacity fee for a meter size, or has an existing meter, and later requests a larger meter size, the City will only assess the Customer the increase fee amount from the original size meter to the larger size meter.

Table 1 - Water and Wastewater Capacity Fees

Meter Size (Inches)	Max Continuous Flow (Gallons per Minute)	Multiplier	Water	Wastewater	Total
0.75	30	1.00	$7,719	$1,809	$9,528
1	50	1.67	$12,864	$3,015	$15,880
1.5	100	3.33	$25,729	$6,030	$31,759
2	160	5.33	$41,166	$9,649	$50,814
3	320	10.67	$82,331	$19,297	$101,629
4	800	26.67	$205,829	$48,243	$254,072
6	1,500	50.00	$385,929	$90,456	$476,385
8	3,500	116.67	$900,501	$211,065	$1,111,566
10	5,500	183.33	$1,415,072	$331,673	$1,746,746

CHAPTER 1
RIGHT-OF-WAY MANAGEMENT*

9-1-1: DEFINITION OF TERMS

CITY ENGINEER: The director of the City's Engineering Department and his or her designee. (5369)

DEVELOPMENT AND SUSTAINABILITY DIRECTOR: The director of the City's Development and Sustainability Department and his or her designee. (5369)

EASEMENT, PUBLIC: An area of land over which the City of Mesa coordinates the locations of public or private improvements, underground or overhead, furnished for the use of the public; including electricity, gas, steam, communication, telecommunications, data transmission, cable TV, water, storm drainage, sewage, sidewalks, landscaping, traffic signals, streetlights, flood control, etc. owned and operated by any person, firm, corporation, municipal department, or board duly authorized by state or municipal regulations. (3078, 3309)

ENGINEERING PLANS: Plans, profiles, cross sections, and other required details for the construction of public or private improvements within the right-of-way or public easements, prepared by a person, firm, company, corporation, public entity, or board in compliance with the code and rules of the Arizona State Board of Technical Registration, unless exempted thereunder; and conforming with (i) the public or private improvement standards of design and construction developed by the City Engineer; or (ii) standards developed by the person, firm, company, corporation, public entity, or board that the City Engineer accepts as substantially equivalent to the City Engineer's standards in protecting the public health, safety, and welfare; or (iii) in the case of a political subdivision of the State of Arizona, standards of design and construction developed and approved by such political subdivision and filed with the City Engineer. (3309, 3766, 5369)

MESA PROJECTS: Public improvement projects for which the City of Mesa is the general contracting agency. (3309)

NEW PAVEMENT: Paving material applied in or near the right-of-way to construct a new street, highway, alley, road or bikeway where no such material previously existed. (5369)

PAVEMENT RECONSTRUCTION: Rebuilding a portion of the street by removing all the pavement material and re-paving. (5369)

PAVEMENT RENOVATION: A major rehabilitation of street pavement, which includes mill and overlay, cold in place recycle, hot in place recycle, fractured aggregate surface treatment, cape seal, and stress absorbing membrane interlayer or other similar roadway improvement that physically modifies the surface of the roadway. (5369)

PAVEMENT RESTORATION FEE: The fee required by the City when a permittee cuts into, excavates, opens, bores, trenches, potholes, damages, or disturbs pavement in the right-of-way. (5369)

PERMIT CHARGES: Fees assessed at the time of issuance of a right-of-way permit that are intended to cover costs incurred by the City for permit processing, plan review services, materials testing and inspections. Refer to latest schedule of fees and charges. (4570, 5369)

***Editor's note—**Chapter 1 derives from Ord. Nos. 298, 327, 1487, 3078, 4570, 5369.

PERMITTEE: The governmental entity, person, or business entity that has received a right-of-way permit pursuant to this section or engaged in construction or maintenance in the right-of-way. (5369)

RIGHT-OF-WAY: An area of land which by deed, conveyance, agreement, easement, dedication, usage or process of law is reserved or dedicated to the City for public purposes including, but not limited to, street, highway, alley, public utility, pedestrian walkway, bikeway, or drainage. Within public right-of-way, the City of Mesa coordinates the locations of public or private improvements, underground or overhead; including electricity, gas, steam, communication, telecommunications, data transmission, cable TV, water, storm drainage, sewage, sidewalks, landscaping, traffic signals, streetlights, flood control, pedestrian, roadway purposes, etc. owned and operated by any person, firm, company, corporation, municipal department, or board duly authorized by federal, state, or municipal regulations. (3078, 3309, 4570, 5369)

RIGHT-OF-WAY IMPROVEMENT STANDARDS: A set of regulations setting forth the details, specifications, instructions, and procedures to be followed in the planning, design, installation, and construction of public or private improvements within the right-of-way or within easements; formulated by the City Engineer, the County Health Department, the Maricopa Association of Governments, and other City departments. (3309, 3766, 5369)

RIGHT-OF-WAY PERMIT: An official document issued by the City authorizing performance of a specified activity or work within the right-of-way and public easements of the City of Mesa by a person, contractor, company, firm, or corporation duly qualified under the statutes and rules of the Arizona Registrar of Contractors, unless exempted thereunder. A Right-of-Way Permit may also authorize specified activity or work involving City utilities or facilities outside the corporate limits when issued in conjunction with the appropriate permit required for specified activity or work within another jurisdiction. (3078, 3309, 3766, 5369)

STREET MAINTENANCE: Application of slurry and fog seals to street pavement. (5369)

9-1-2: RIGHT-OF-WAY PERMITS

(A) It shall be unlawful for any person, firm, company, corporation, business entity, public entity or board to grade, pave, fill, or level any street or alley within the right-of-way or public easements of the City of Mesa or to construct, alter, or repair therein any pavement, sidewalk, crosswalk, curb, driveway, gutters, landscaping, sewers, water mains, or other structures or to make therein any excavation or in any manner disturb or obstruct the same or perform any other activity or work without first obtaining a Right-of-Way Permit. (298, 1487, 3078, 3309, 3766, 5369)

(B) A person, firm, company, corporation, business entity, public entity or board seeking a Right-of-Way Permit shall apply for said permit by submitting an application and engineering plans to the Development and Sustainability Director. The City Engineer shall review the application and plans, and approve the issuance of a Right-of-Way Permit if the application and plans meet the requirements of this Chapter and the right-of-way improvement standards. (3309, 3766, 5369)

(C) All construction and maintenance activities in the right-of-way and public easements shall be subject to the inspection of the City Engineer. (5369)

(D) All improvements, construction and maintenance activities in the right-of-way and public easements shall be in accordance with the terms and conditions of a Right-of-Way Permit and in compliance with right-of-way improvement standards. (5369)

(E) While work is being done in the right-of-way and public easements, permittee shall provide to the City, upon demand, proof of the Right-of-Way Permit that authorizes the work, including a description of the work and construction limits. (5369)

(F) A Right-of-Way Permit may be revoked by the City Engineer under any of the following circumstances: (5369)

1. When the right-of-way or a public easement, or any portion thereof, occupied and used by the permittee is needed in connection with the construction of a Mesa project, upon reasonable notice from the City Engineer, unless a City license, franchise or agreement provides otherwise. (5369)

2. If the permittee does not comply with the terms and conditions of the Right-of-Way Permit or performs work that is not in compliance with right-of-way improvement standards. (5369)

3. If the City Engineer finds that a delay in completion of work authorized by a Right-of-Way Permit is due to lack of diligence on the part of the permittee, the City may revoke the permit and restore the right-of-way or the area of the public easement to its former condition unless such restoration, relocation, or removal is completed by the permittee. The City will give the permittee fifteen (15) days' written notice before restoring the right-of-way or public easement area. However, if the City Engineer determines that the circumstances warrant an extension, the City may extend this time period. The permittee shall reimburse the City for all documented costs and expenses incurred by the City in connection with locating and removing the work, and restoring the right-of-way or the public easement area. (5369)

(G) Permittee shall participate as a member of the Arizona Location Service, as set forth in A.R.S. § 40-360.21, et seq. A copy of each permittee's agreement or proof of participation shall be submitted to the City Engineer. (5369)

(H) Permittee shall prepare and maintain accurate record drawings of its facilities in the right-of-way and in public easements, and shall furnish such record drawings to the City upon request, subject to all applicable statutes for the protection from disclosure of critical utility infrastructure information. If accurate record drawings of a permittee's facilities are not provided to the City, and the City incurs costs or expenses locating the permittee's facilities in connection with the construction of a Mesa project, the permittee shall reimburse the City for documented costs associated with locating and potholing permittee's facilities. (5369)

9-1-3: NOTIFICATION

Right-of-Way Permits shall require that the person, firm, company, corporation, public entity, or board to whom the same is issued shall give the Engineering Department twenty-four (24) hours' notice of the commencement of such activity or work authorized by said Right-of-Way Permit and shall carry on such activity or work to the satisfaction and subject to the approval of the City Engineer. The permittee shall diligently prosecute the same to completion, shall leave the right-of-way or public easements in a good and safe condition, and shall at all times keep signal lights, barricades, or other safety devices functioning properly to prevent injury to persons and property, and such person, firm, company, corporation, public entity, or board shall comply with such additional reasonable provisions and conditions as may be prescribed by the City Engineer. (298, 3078, 3309, 3766, 5369)

9-1-4: PLAN REVIEW AND INSPECTION CHARGES

A Right-of-Way Permit shall not be issued under the provisions of this Chapter until the applicant has paid all applicable fees and charges as established in the most recent City of Mesa Schedule of Fees and Charges. The Development and Sustainability Director and the City Engineer are authorized to enter into agreements with the United States, the State of Arizona, political subdivisions of the State of Arizona, and agencies thereof, establishing offsets or credits for fees or charges applied by both agencies. (298, 1487, 3078, 3241, 3309, 3766, 4570, 5369)

9-1-5: RELOCATION, JOINT LOCATION

(A) If a public or private improvement has been installed in a public easement in accordance with the requirements of this Chapter and the City of Mesa subsequently requires relocation of said public or private improvement to accommodate a Mesa project, the City shall reimburse the owner of the public or private improvement for documented relocation costs; unless an existing City license, franchise, or agreement provides otherwise. (298, 3078, 3309)

(B) As part of the coordination of public or private improvements and as a condition of obtaining a Right-of-Way Permit for activity or work within the Right-of-Way and all easements, the City may require joint location of all underground and overhead public or private improvements when said joint location is not otherwise prohibited by applicable safety or design standards. (3309, 5369)

9-1-6: PAVEMENT RESTORATION FEES, PAVEMENT CUT RESTRICTIONS

(A) Pavement Restoration Fees. A permittee shall pay a pavement restoration fee in connection with any Right-of-Way Permit to cut into, excavate, open, bore trench or disturb street pavement within a period of five (5) years after the City's acceptance of street construction that includes new pavement, pavement renovation or pavement reconstruction at the location for which the Right-of-Way Permit is being sought. The amount of the pavement restoration fee shall be as established in the City's fee schedule. The pavement restoration fee shall be paid before a Right-of-Way Permit is issued unless the permittee has a written agreement with the City that allows for payment of the pavement restoration fee after the pavement cut is made. The pavement restoration fee will be in addition to, and will not be offset by, all license and franchise fees, expenses and taxes. (5369)

(B) Pavement Cut Restrictions. The City Engineer shall not approve a Right-of-Way Permit to cut into, excavate, open, bore, trench, or disturb street pavement for a period of two (2) years after the City's acceptance of street construction that includes new pavement, pavement renovation, pavement reconstruction, or street maintenance at the location for which the permit is being sought. The City Engineer may authorize an exception to this pavement cut restriction under any one of the following conditions: (5369)

1. A verifiable emergency exists that endangers life or property; (5369)
2. There is an interruption of essential utility service; (5369)
3. Utility or other service for buildings is required where no other feasible means of providing such service exists; or (5369)
4. A pavement cut is required by city, county, state or federal regulation. (5369)

(C) Between one (1) year and two (2) years after acceptance, if the City Engineer determines, upon reviewing evidence submitted by the permittee, that the cost to mill and overlay/inlay is substantially less than the cost of alternate routing for permittee's facilities the permittee may choose to cut the pavement and perform a mill and overlay/inlay as described in Subsection (E) below. (5369)

(D) If the City Engineer authorizes a pavement cut pursuant to an exception set forth in Subsection (B) the permittee shall: (5369)

1. Pay the pavement restoration fee established by the City Council in the City's fee schedule; and (5369)

2. Repair the pavement, after making the permitted cut, to meet right-of-way improvement standards. (5369)

(E) If the City issues a street cut permit within one (1) year of construction, reconstruction or renovation of pavement, permittee shall renovate such street by mill and overlay/inlay, for a minimum of the full width of all lanes impacted by the cut(s) (outside lane includes to the curb) and for arterial streets extending a minimum length of fifty (50) feet in both directions from the area of the cut(s) and for collector and residential streets extending a minimum length of twenty-five (25) feet both directions from the area of the cut(s), all as more specifically directed by the City Engineer/designee. Provided, however, for one pothole smaller than two (2) square feet, the requirement to renovate the street by mill and overlay/inlay shall not apply. (5369)

9-1-7: AUTHORITY TO INSPECT

The City Engineer is hereby authorized and directed to conduct inspections and testing for violations of this Chapter. (5369)

9-1-8: STOP WORK ORDERS

If the City Engineer determines that work in the right-of-way or a public easement is being conducted in a manner that is contrary to the provisions of this Chapter or presents a public health or safety threat, the City Engineer is authorized to issue a Stop Work Order. (5369)

(A) Issuance. The Stop Work Order shall be in writing and shall be given to the permittee, owner's agent, or the person doing the work. Upon issuance of a Stop Work Order, the cited work shall immediately cease and the permittee shall make the work area safe. The Stop Work Order shall state the reason for the order, and the conditions under which the cited work will be permitted to resume. (5369)

(B) Unlawful Continuance. Any person who continues any work after having been served with a Stop Work Order, except such wok as that person is directed to perform to remove a violation or a condition that threatens the public health or safety, shall be subject to penalties pursuant to this Chapter. (5369)

9-1-9: UNAUTHORIZED WORK

Unauthorized work in the right-of-way or a public easement does not exempt a person from the requirements of this Chapter. Any person who commences work before obtaining the necessary Right-of-Way Permit shall be subject to a separate unauthorized construction fee as adopted in the City's Schedule of Fees and Charges. (5369)

9-1-10: APPEALS

Any decision made by any City official in connection with the enforcement of this Chapter may be appealed by submitting an appeal to the City Clerk within thirty (30) calendar days after the determination for which the appeal is being filed. All appeals must include a written Notice of Appeal that contains an explanation of why the appellant believes that the determination was in error. (5369)

The appeal will be heard by the City's Right-of-Way Manager, who shall render a decision within three (3) business days of the submission of the appeal. The decision of the Right-of-Way Manager may then be appealed to the City Manager or his designee, who shall render a decision within five (5) business days of receiving the appeal. The determination of the City Manager, or his designee, may be appealed to the City Council committee that is designated by the City to hear such appeals. The determination of the City Council committee shall be final. (5369)

9-1-11: PENALTIES

(A) Notice of Violation. The City Engineer is authorized to issue a Notice of Violation for unauthorized work, a violation of the provisions of this Chapter, or for the violation of a permit issued pursuant to the provisions of this Chapter. (5369)

(B) Penalty Clause. Any person, firm, or corporation violating any provision of this Chapter and any amendment to it shall be guilty of a Class 1 misdemeanor, punishable by a fine not to exceed two thousand five hundred dollars ($2,500.00) or by imprisonment in the city jail for a period not to exceed six (6) months, or by both such fine and imprisonment; and each day of violation continued shall be a separate offense, punishable as described. (4570, 5369)

(C) Remedies not Exclusive. Penalties under this Chapter are in addition to any other penalties established by law, and this Chapter shall not be interpreted as limiting the remedies, actions, or abatement procedures that may be taken by the City. (5369)

CHAPTER 2
OBSTRUCTION OF STREETS

9-2-1: OBSTRUCTING PROHIBITED

It shall be unlawful for any person to cause or permit any street, alley, or right-of-way within the City to become obstructed or encumbered by placing or leaving thereon any personal property of any kind or character or any trash or rubbish. (575)

9-2-2: EXCEPTIONS

The provisions of Section 9-2-1 shall not prohibit the use of such streets, alleys, and rights-of-way for pedestrian or vehicular traffic or for necessary moving or conveying of personal property or trash or rubbish on, over, and across such streets, alleys, and rights-of-way or the encumbering or obstructing of same after having obtained a permit for the construction, alteration, or repair of any portion of such public street, alley, or right-of-way from the Development Services Manager. (575, 4570)

9-2-3: ENCROACHMENTS

(A) Prohibited Except Under Permit. It shall be unlawful for any person, firm or corporation to cause or to maintain any encumbrance or obstruction of public right-of-way by encroachment therein with any foundation, wall, fence, post, or other structure or any cohesive ground-surfacing material without having first obtained a written Right-of-Way Encroachment Permit to do so from the City Engineer. Such permit may be issued upon a finding by the City Engineer that the encroachment requested and specified by the applicant will not impair necessary public use or impair access to public facilities located therein and that such encroachment is not otherwise prohibited by the Mesa City Code. (1900)

(B) Terms of Permit. Encroachments into the public right-of-way for which a permit has been issued shall not exceed the terms, conditions, period of time, or extent specified by the permit, and the permit may be revoked at any time by the City Engineer. The City Engineer shall not issue such permit until the applicant shall have executed and delivered to the City an undertaking to hold the City harmless of and from any liability of any nature resulting from any such encumbrance or obstruction being located within the right-of-way and releasing the City from any liability for any obligation to maintain the encroachment or for any damage thereto. The applicant for a permit shall also agree in writing to remove same and restore the premises to the original condition without compensation and upon request by the City Engineer. (1900)

9-2-4: EXCEPTIONS TO ENCROACHMENTS

The following encroachments are exempt from the terms of Section 9-2-3: (1900)

(A) Authorized traffic-control structures and signs. (1900)

(B) Vehicle driveway surfacing properly aligned with curb openings provided for the purpose. (1900)

(C) Pedestrian walkway surfacing less than five feet (5') wide perpendicular to public right-of-way. (1900)

9-2-5: PENALTIES

Any person, firm, or corporation violating any provision of this chapter and any amendment to it shall be guilty of a Class 1 Misdemeanor, punishable by a fine not to exceed two thousand five hundred dollars ($2,500.00) or by imprisonment in the City jail for a period not to exceed six (6) months, or by both such fine and imprisonment; and each day of violation continued shall be a separate offense, punishable as described. (4570)

CHAPTER 3
RESERVED*

CHAPTER 4
PARADE REGULATIONS

9-4-1: PERMIT REQUIRED

No person shall engage in, participate in, aid, form, or start any parade utilizing any portion of any public street or public park within the City limits of the City unless a Parade Permit shall have been obtained from the Chief of Police. The word parade shall mean any organized procession, march, public walk, or promenade for display and shall include distance running and bicycle races and similar activities. (624, 1420)

***Editor's note**—Memo of June 11, 1986 repealed Chapter 3.

Exceptions. This Chapter shall not apply to: (624, 1420)

(A) Funeral processions. (624, 1420)

(B) Students going to and from school classes or participating in any educational activities, provided such conduct is under the immediate direction and supervision of the proper school authorities; and (624, 1420)

(C) A governmental agency acting within the scope of its functions. (624, 1420)

9-4-2: APPLICATION

A person seeking issuance of a Parade Permit shall file an application with the Chief of Police on forms provided by him. (624, 1420, 1434)

(A) Filing Period. An application for a Parade Permit shall be filed with the Chief of Police not less than thirty (30) days before the date on which it is proposed to conduct the parade. (624, 1420, 1434)

(B) Contents. The application for a Parade Permit shall set forth the following information: (624, 1420, 1434)

1. The name, address, and telephone number of the person seeking to conduct such parade; (624, 1420, 1434)
2. If the parade is proposed to be conducted for, on behalf of, or by an organization, the name, address, and telephone number of the headquarters of the organization; (624, 1420, 1434)
3. The name, address, and telephone number of the person who will be the parade chairman and who will be responsible for its conduct; (624, 1420, 1434)
4. The date when the parade is to be conducted; (624, 1420, 1434)
5. The route to be traveled, the starting point, and the termination point; (624, 1420, 1434)
6. The approximate number of persons who, and animals and vehicles which, will constitute such parade, the type of animals, and the description of the vehicles; (624, 1420, 1434)
7. The hours when such parade will start and terminate; (624, 1420, 1434)
8. A statement as to whether the parade will occupy all or only a portion of the width of the streets proposed to be traversed; (624, 1420, 1434)
9. The location by streets of any assembly areas for such parade; (624, 1420, 1434)
10. The time in which units of the parade will begin to assemble at any such assembly area or areas; (624, 1420, 1434)
11. The interval of space to be maintained between units of such parade; (624, 1420, 1434)
12. If the parade is designated to be held by and on behalf of or for any person other than the applicant, the applicant for such permit shall file with the Chief of Police a communication in writing from the person proposing to hold the parade authorizing the applicant to apply for the permit on his behalf; (624, 1420, 1434)
13. Any additional information which the Chief of Police shall find reasonably necessary to a fair determination as to whether a permit should be issued; (624, 1420, 1434)

14. The applicant shall procure such public liability and property damage insurance as shall protect the applicant and the City from all claims for bodily injury, including accidental death, as well as for property damage arising from the holding of the parade. The coverage shall be in an amount of not less than one million dollars ($1,000,000.00) and the applicant shall attach a Certificate of Insurance naming the City as an additional insured to the application. (1420, 1434)

15. The applicant shall execute a hold harmless form to be provided by the Mesa Police Department and attach the form to the application. The hold harmless form shall provide that the applicant agrees to indemnify the City and hold it harmless against any and all losses and liabilities for personal injury, death, or property damage arising out of, or as a consequence of, the parade and any and all expenses related to claims or lawsuits resulting from the above, including court costs and attorney fees, excepting for such losses, liabilities, claims, or lawsuits arising out of acts or omissions to act on the part of any officer, agent, or employee of the City. (1420, 1434)

(C) Late Applications. The Chief of Police, where good cause is shown therefor, shall have the authority to consider and approve or disapprove any application hereunder which is filed less than thirty (30) days before the date such parade is proposed to be conducted. (624, 1420, 1434)

9-4-3: PARADE ROUTE

All parades shall be held on routes designated by the Chief of Police. (624, 1420)

9-4-4: STANDARDS FOR ISSUANCE

The Chief of Police shall issue a permit as provided for hereunder when, from a consideration of the application and from such other information as may otherwise be obtained, he finds that: (624)

(A) The conduct of the parade will not substantially interrupt the safe and orderly movement of other traffic contiguous to its route; (624)

(B) The conduct of the parade will not require the diversion of so great a number of the police officers of the City to properly police the line of movement and the areas contiguous thereto as to prevent normal police protection to the City; (624)

(C) The conduct of such parade will not require the diversion of so great a number of ambulances as to prevent normal ambulance service to portions of the City other than that to be occupied by the proposed line of march and areas contiguous thereto; (624)

(D) The concentration of persons, animals, and vehicles at assembly points of the parade will not unduly interfere with proper fire and police protection of, or ambulance service to, areas contiguous to such assembly areas; (624)

(E) The conduct of such parade will not interfere with the movement of firefighting equipment en route to a fire; (624)

(F) The conduct of the parade is not reasonably likely to cause injury to persons or property, to provoke disorderly conduct, or to create a disturbance; (624)

(G) The parade is scheduled to move from its point of origin to its point of termination expeditiously and without unreasonable delays en route; (624)

(H) The parade is not to be held for the sole purpose of advertising any product, goods, or event and is not designed to be held purely for private profit. (624)

9-4-5: NOTICE OF REJECTION

The Chief of Police shall act upon the application for a Parade Permit within five (5) days after the filing thereof. If the Chief of Police disapproves the application, he shall mail to the applicant within five (5) days after the date upon which the application was filed a notice of his action stating the reasons for his denial of the permit. (624)

9-4-6: APPEAL PROCEDURE

Any person aggrieved shall have the right to appeal the denial of a parade permit to the Council. The appeal shall be taken within five (5) days after notice, and the Council shall act upon the appeal at its next regular meeting. (624, 1420)

9-4-7: NOTICE TO OTHER OFFICIALS

Immediately upon the issuance of a Parade Permit, the Chief of Police shall send a copy thereof to the following: (624, 1420)

Mayor, City Manager (624, 1420)

Fire Department (624, 1420)

Traffic Engineering (1420)

Development Services Department (624, 1420, 3766)

City Clerk (1420)

Arizona Highway Department, if State highway is involved. (1420)

9-4-8: CONTENTS OF PERMIT

Each Parade Permit shall state the following information: (624)

(A) Starting time; (624)

(B) Minimum speed; (624)

(C) Maximum speed; (624)

(D) Maximum interval of space to be maintained between the units in the parade; (624)

(E) The portions of the streets to be traversed that may be occupied by the parade; (624)

(F) The maximum length of the parade in miles or fraction thereof; (624)

(G) Such other information as the Chief of Police shall find necessary to the enforcement of this Chapter. (624)

9-4-9: DUTIES OF PERMITTEE

A permittee hereunder shall comply with all permit directions and conditions and with all applicable laws and ordinances. (624)

Possession of Permit. The Parade Chairman or other person heading or leading such activity shall carry the parade permit upon his person during the conduct of the parade. (624)

9-4-10: PUBLIC CONDUCT DURING PARADE

(A) Interference. No person shall unreasonably hamper, obstruct, impede, or interfere with any parade or parade assembly or with any person, vehicle, or animal participating or used in a parade. (624)

(B) Driving Through Parades. No driver of a vehicle shall drive between the vehicles or persons comprising a parade when such vehicle or parade is in motion and is conspicuously designated as a parade. (624)

(C) Parking on Parade Route. The Chief of Police shall have the authority, when reasonably necessary, to prohibit or restrict the parking of vehicles along a street, or part thereof, constituting a part of the route of a parade. The Chief of Police shall post signs to such effect, and it shall be unlawful for any person to park or leave unattached any vehicle in violation thereof. No person shall be liable for parking on a street unposted in violation of this Chapter. (624)

9-4-11: REVOCATION OF PERMIT

The Chief of Police shall have the authority to revoke a Parade Permit issued hereunder upon application of the standards for issuance as herein set forth. (624)

CHAPTER 5
PRIMARY VEHICULAR ALLEY ACCESS

9-5-1: ALLEY WIDTH

Alleys that are provided to serve multiple-residence, commercial, or industrial property shall be twenty-four feet (24') in width when such alley is to be used as primary vehicular access to such property. If existing alley dedication is less than twenty-four feet (24'), then additional property shall be dedicated to provide the full twenty-four-foot (24') alley width prior to usage thereof as primary vehicular access to such property. Such alleys shall be paved and improved in accordance with the applicable standards therefore established by the Engineering Department of the City. (708)

9-5-2: WHEN WALL OR FENCE REQUIRED

Wherever a multiple-residential area abuts a single-family residential area, a solid wall or fence shall be required separating all multiple-residential parking areas from the single-family residential yards. A solid wall or fence shall be placed on the side of the alley opposite the parking area unless prior authorization is obtained from the City Engineer to place such solid wall or fence on the side of the alley adjacent to the parking area. (708, 4570)

9-5-3: ENTRANCE INTO ALLEYS BY FORWARD MOTION ONLY; EXCEPTIONS

All entrances into alleys which provide primary vehicular access to the property described in Section 9-5-1 hereof shall be by forward motion only, excepting under the following circumstances: (708)

(A) If a multiple-residence parking area has less than six (6) spaces, by special permit issued by the City Engineer, motor vehicles from these parking areas may be permitted to back into a public alley, provided that when required by the City Engineer, an approved guardrail shall be installed as a condition to granting such permit. (708)

(B) In a subdivision of multiple-residence lots backing up to each other and where a twenty-four-foot (24') improved alley is provided for primary vehicular access, motor vehicles from parking areas of six (6) or less cars may back directly into such alley without providing for the vehicles to enter the alley in a forward motion. (708)

(C) As authorized by adoption of modifications pursuant to Sections 9-6-7 and 9-8-4, and filed concurrently with an Application for Rezoning to PC District. (4771)

9-5-4: HARDSHIP CASES

The minimum requirements hereinabove set forth in this Chapter may be waived or modified by the Development Services Manager upon recommendation by the City Engineer in any case where existing physical conditions would cause impossibility of performance, extreme hardship, or unreasonable expense. (708, 4570)

9-5-5: PENALTIES

Any person, firm, or corporation violating any provision of this chapter and any amendment to it shall be guilty of a Class 1 Misdemeanor, punishable by a fine not to exceed two thousand five hundred dollars ($2,500.00) or by imprisonment in the City jail for a period not to exceed six (6) months, or by both such fine and imprisonment; and each day of violation continued shall be a separate offense, punishable as described. (4570)

CHAPTER 6
LAND DIVISION REGULATIONS*

9-6-1: PURPOSE AND APPLICABILITY

A. **Purpose.** The purpose of these regulations is to provide for the orderly growth and harmonious development of the City of Mesa by:

1. Ensuring adequate traffic circulation through coordinated street systems with relation to major thoroughfares, adjoining subdivisions, and public facilities, including provisions for bicycle and pedestrian ways;

2. Achieving individual lots of reasonable utility;

3. Securing adequate provisions for water supply, drainage, wastewater collection/treatment, and other health requirements;

4. Ensuring consideration for adequate sites for schools, recreation areas, and other public facilities;

***Editor's note**—Ord. No. 5949, §§ 1, 2, adopted July 1, 2025, repealed the former Ch. 6, §§ 9-6-1—9-6-9, and enacted a new Ch. 6 as set out herein. The former Ch. 6 pertained to subdivision regulations and derived from Ord. 2474/Reso. 2870; 3105, 3324/Reso. 7038; Reso. 10116; 3693, 3766, 3868, 3911, 4076, Ord. 4233, 4294, 4497, 4513, 4570, 4766, 4894, 5108, 5236, 5251, 5257, 5376, 5395, 5538, 5826, 6188.

5. Ensure that proposed land development provides all infrastructure and easements to support that development and future development that relies on such infrastructure and easements;

6. Promoting the accurate conveyance of land through legal descriptions; and

7. Providing logical procedures for the achievement of this purpose.

B. **Applicability.** The requirements of this Chapter apply to all divisions of improved or unimproved land for the purpose of financing, sale, or lease, whether immediate or future, with the following exceptions:

1. The sale or exchange of parcels of land to or between adjoining property owners if such sale or exchange does not create additional lots.

2. The creation of parcels or leases solely for the purpose of oil, gas, or minerals extraction or exploration, which does not involve the sale or lease of land for permanent residential, commercial, or industrial development.

3. Leasing of apartments, offices, stores, or similar space within an apartment building, commercial building, industrial building, Recreational Vehicle Park, or Manufactured Home Park.

4. The combination of parcels of land, the boundaries of which were created by metes and bounds descriptions.

5. Creation or realignment of an easement.

C. **Types of Land Division.**

1. ***Minor Land Divisions.***

a. Land Split.

b. Minor Plat.

2. ***Major Land Divisions.***

a. Preliminary Plat.

b. Final Plat.

c. Map of Dedication.

(Ord. No. 5949, § 1B., 7-1-25)

9-6-2: PLATTING PROCEDURES AND PROCESSES

A. **Minor Land Division Process.** The Minor Land Division process applies to Minor Plats and Land Splits.

1. ***Applications.***

a. *Pre-Submittal Conference.*

i. A Pre-Submittal Conference is required prior to submitting an application for a Minor Plat.

ii. A Pre-submittal Conference is not required prior to submitting an application for a Land Split.

b. Complete applications shall be submitted and applicable fees paid to the Development Services Department in accordance with the Minor Land Division application guidelines.

c. The Planning Director may require additional information and supporting materials needed to evaluate and reach a decision on an application. The Planning Director may also waive specific submittal requirements if they determine the information is not needed to complete a review or make a decision.

d. The applicant is responsible for the accuracy and completeness of all information submitted to the City. The Planning Director may deny an application if the application is incomplete, the request does not comply with City Code requirements, or the applicant made erroneous, false, or misleading statements in the application or to City staff during the application process.

2. ***Zoning Compliance.***

a. Minor Plats and Land Splits must comply with all applicable Zoning Ordinance requirements.

b. If a rezoning is required for the Minor Plat or Land Split to comply with the Zoning Ordinance, the rezoning must be approved prior to approval of the Minor Plat or Land Split.

3. ***Limitations.***

a. *Minor Plat Limitation.* No more than 10 lots, tracts, or parcels of land may be created using a Minor Plat from the original tract/parcel.

b. *Land Split Limitations.* A property with boundaries established by a recorded plat may be divided into no more than two (2) lots, tracts, or parcels of land. Any further division shall require a Major Land Division.

c. Minor Land Divisions shall not be used to circumvent or avoid Preliminary Plat or Final Plat procedures and requirements.

d. If it is determined by the Planning Director, that the intent or effect of an application is to circumvent or avoid Preliminary Plat or Final Plat procedures, the application will be denied, and the applicant will be required to submit a Preliminary Plat application.

4. ***Dedication and Acknowledgment.***

a. Where rights-of-way or easements are required to be dedicated, the dedication shall be made:

i. On the recorded Minor Plat; or

ii. By a separate recorded instrument; and

iii. In either case, prior to the issuance of a building permit or right-of-way permit, whichever occurs first.

b. *Dedication Statement.*

i. The Minor Plat or separately recorded instrument must include a dedication statement granting all streets, alleys, drainage retention basins and drainage ways, pedestrian/bicycle ways, and easements for public use, including sanitation, utilities,

fire, and other emergency-related vehicles, executed by the person holding title of record, by persons holding titles as vendees under land contract, by spouse of said parties, lienholders, and all other parties having an interest in the property.

ii. If any of the dedicated land is mortgaged, the mortgagee shall also sign the Minor Plat or separately recorded instrument.

iii. The dedication statement shall include a written location by section, township, and range of the tract.

iv. If the Minor Plat contains private streets, the public easement shall include the right to install and maintain utilities in the private street, including refuse collections, fire, and other emergency services.

c. *Acknowledgment of Dedication.* Execution of dedication shall be acknowledged and certified by a notary public.

d. *Public Improvements.*

i. The recordation of a Minor Plat, Land Split map, or separately recorded instrument does not constitute acceptance by the City of any public improvement.

ii. The process for acceptance of public improvements shall be established by the City Engineer.

5. ***Approval.*** If a Minor Plat or Land Split complies with all objectives and requirements of this Chapter and other applicable City Codes, the Planning Director shall approve the request and stamp a notation of approval on the copy retained in the permanent file.

6. ***Required Certifications.***

a. *Registered Land Surveyor.* All Minor Plats and Land Splits must contain the seal of a registered land surveyor, certifying that the Minor Plat or Land Split is correct and accurate, and the monuments described in it have either been set or located as described.

b. *City Engineer.* All Minor Plats are required to be certified by the City Engineer. The City Engineer has no obligation to certify a Minor Plat unless the requirements of this subsection are met:

i. For areas within the City's limits, the City Engineer will certify a Minor Plat only upon finding the applicant has:

(1) Obtained a written commitment of water service for the land division from the City or a private water company designated as having an assured water supply pursuant to A.R.S. § 45-576; and

(2) Complies with all City engineering standards and requirements.

ii. For areas outside the City's established domestic water service area, the City Engineer will certify a Minor Plat only upon finding the applicant has:

(1) Obtained a certificate of assured water supply from the Director of the Arizona Department of Water Resources (ADWR) pursuant to A.R.S. § 45-576; and

(2) Indicated the ADWR Permit Number which certifies that the land division lies within the domestic water service area of a specific, identified water service provider.

7. ***Recordation.***

a. All Minor Plats and Land Splits must be recorded in the Maricopa County Recorder's Office.

b. A Land Split shall not be recorded until the Planning Director's certificate of approval is transcribed on the document.

c. A Minor Plat shall not be recorded until all the following are met:

i. The Planning Director's certificate of approval has been transcribed on the plat;

ii. The City Engineer has certified that all the property has written commitment of water service from the City, a private water company, or a certificate of assured water supply from ADWR, as applicable;

iii. All lots have been staked by a registered land surveyor;

iv. Engineering Plans are approved by the City Engineer;

v. A Survey Closure Report is provided to the Development Services Department.

8. **Preliminary Plat Process.**

1. ***Applications.***

a. *Pre-Submittal Conference.* A Pre-Submittal Conference is required prior to submitting an application for a Preliminary Plat.

b. Completed applications must be submitted and applicable fees paid to the Development Services Department in accordance with the Preliminary Plat application guidelines.

c. The Planning Director may require additional information and supporting materials needed to evaluate and reach a decision on an application. The Planning Director may also waive specific submittal requirements if they determine the information is not needed to complete a review or make a decision.

d. The applicant is responsible for the accuracy and completeness of all information submitted to the City. The Planning Director may deny an application if the application is incomplete, the request does not comply with City Code requirements, or the applicant made erroneous, false, or misleading statements in the application or to City staff during the application process.

2. ***Zoning.***

a. Preliminary Plats must comply with all applicable Zoning Ordinance requirements.

b. If a rezoning is required for the Preliminary Plat to comply with the Zoning Ordinance, the rezoning must be approved prior to or concurrent with approval of the Preliminary Plat.

3. ***Sanitary Sewer and Water Supply.*** Prior to Preliminary Plat approval, the applicant must review preliminary design concepts with the City Engineering Department.

4. ***Approval.*** The Planning Director may take the following actions on a Preliminary Plat.

   a. If the Preliminary Plat complies with all objectives and requirements of this Chapter and other applicable City Codes, the Planning Director shall approve the request and stamp a notation of approval on the copy retained in the permanent file.

   b. If the Preliminary Plat only requires minor revision, the Planning Director may approve the Preliminary Plat with conditions identifying the minor revisions required prior to Final Plat submittal.

   c. If the Preliminary Plat requires major revisions, the plat must be revised to address the deficiencies and resubmitted for review and approval.

5. ***Terms of Preliminary Plat Approval.***

   a. *Expiration.*

      i. A Preliminary Plat is valid for a period of two (2) years from the date of Planning Director approval.

      ii. If the Preliminary Plat expires prior to approval of a Final Plat, a new Preliminary Plat application must be submitted for review and accompanied by the required fee.

   b. *Extension of Approval.*

      i. Preliminary Plat approval may be extended by a period of two (2) years by the Planning Director upon a formal request from the applicant.

      ii. A total of two (2) extensions may be requested.

      iii. A request for extension of Preliminary Plat approval must be submitted by the applicant prior to the approval expiration date.

   c. *Significance of Preliminary Plat Approval.*

      i. Preliminary Plat approval constitutes authorization for the applicant to proceed with preparation of the Final Plat, engineering plans, and specifications for public improvements.

      ii. Approval of the Preliminary Plat does not assure approval of the Final Plat or continuation of the existing zoning, and does not constitute authorization to record the plat.

      iii. Preliminary Plat approval does not constitute approval to clear, grade, remove trees, or perform other land or construction activity.

C. **Final Plat Process.** The Final Plat shall substantially conform to the approved Preliminary Plat and shall comply with all appropriate City standards, codes, specifications, and requirements.

1. ***Applications.***

   a. *Pre-Submittal Conference.* A Pre-Submittal Conference is not required prior to submitting an application for a Final Plat.

   b. Complete applications shall be submitted and applicable fees paid to the Development Services Department in accordance with the Final Plat application guidelines.

c. The Planning Director may require additional information and supporting materials needed to evaluate and reach a decision on an application. The Planning Director may also waive specific submittal requirements if they determine the information is not needed to complete a review or make a decision.

d. The applicant is responsible for the accuracy and completeness of all information submitted to the City. The Planning Director may deny an application if the application is incomplete, the request does not comply with City Code requirements, or the applicant made erroneous, false, or misleading statements in the application or to City staff during the application process.

2. ***Zoning.***

a. Final Plats must comply with all applicable Zoning Ordinance requirements.

b. If a rezoning is required for the Final Plat to comply with the Zoning Ordinance, the rezoning must be approved prior to or concurrent with approval of the Final Plat.

3. ***Preliminary Plat Conformance.*** The Final Plat shall substantially conform to the approved Preliminary Plat.

a. Substantial conformance means that the overall layout, number of lots, circulation patterns, access points, open space, and general design intent remain consistent with the Preliminary Plat.

b. Any changes that increase the number of lots, alters street circulation or access, reduces open space, or otherwise affects the intent or conditions of the original approval may be determined by the Planning Director to not be in substantial conformance.

c. If the Final Plat is found not to be in substantial conformance with the Preliminary Plat, revisions to the Preliminary Plat and reapproval shall be required before the Final Plat can proceed.

4. ***Dedication and Acknowledgment.***

a. Where rights-of-way or easements are required to be dedicated, the dedication shall be made: (i) prior to the issuance of a building permit or right-of-way permit, and (ii) pursuant to the recording of a Final Plat.

b. *Dedication Statement.*

i. The Final Plat must include a dedication statement granting all streets, alleys, drainage retention basins and drainage ways, pedestrian/bicycle ways, and easements for public use, including sanitation, utilities, fire, and other emergency-related vehicles, executed by the person holding title of record, by persons holding titles as vendees under land contract, by spouse of said parties, lienholders, and all other parties having an interest in the property.

ii. If any of the dedicated land is mortgaged, the mortgagee shall also sign the Final Plat.

iii. The dedication statement shall include a written location by section, township, and range of the tract.

iv. If the Final Plat contains private streets, the public easement shall include the right to install and maintain utilities in the private street, including refuse collections, fire, and other emergency services.

c. *Acknowledgment of Dedication.* Execution of dedication shall be acknowledged and certified by a notary public.

d. *Public Improvements.*

i. The recordation of the Final Plat does not constitute acceptance by the City of any public improvement.

ii. The process for acceptance of public improvements shall be established by the City Engineer.

5. ***Final Plat Approval.*** If the Final Plat complies with all objectives and requirements of this Chapter and other applicable City Codes, the Planning Director shall approve the Final Plat.

6. ***Required Certifications.***

a. *Registered Land Surveyor.* All Final Plats must contain the seal of a registered land surveyor, certifying that the Final Plat is correct and accurate and that the monuments described in it have either been set or located as described.

b. *City Engineer.* All Final Plats are required to be certified by the City Engineer. The City Engineer has no obligation to certify a Final Plat unless the requirements of this subsection are met:

i. For areas within the City's limits, the City Engineer will certify a Final Plat only upon finding that the applicant has:

(1) Obtained a written commitment of water service for the property from the City or a private water company designated as having an assured water supply pursuant to A.R.S. § 45-576; and

(2) Complies with all engineering standards and requirements.

ii. For areas outside the City's established domestic water service area, the City Engineer will certify a Final Plat only upon finding that the applicant has:

(1) Obtained a certificate of assured water supply from the Director of the Arizona Department of Water Resources (ADWR) pursuant to A.R.S. § 45-576.

(2) Indicated the ADWR File Number which certifies that the property lies within the domestic water service area of a specific, identified water service provider.

7. ***Recordation.***

a. All Final Plats must be recorded in the Maricopa County Recorder's Office.

b. The Final Plat shall not be recorded until all the following are met:

i. The Planning Director's certificate of approval has been transcribed on the plat.

ii. The City Engineer has certified that all the property has written commitment of water service from the City, a private water company, or a certificate of assured water supply from ADWR, as applicable.

iii. All lots have been staked by a registered land surveyor.

iv. Engineering Plans are approved by the City Engineer.

v. A Survey Closure Report is provided to the Development Services Department.

D. **Map of Dedication.**

1. Maps of Dedication must comply with the Final Plat process.

2. A Preliminary Plat is not required for a Map of Dedication.

E. **Amendments to Previously Approved Plats.**

1. ***Applicability.***

a. A change to a recorded plat may be made through the Replat or Affidavit of Change/ Correction process.

b. These procedures do not authorize the abandonment of public roadways or easements. The abandonment of public roadways and easements requires conformance with all applicable statutes, rules, regulations, ordinances, plans and policies.

2. ***Applications.***

a. *Pre-Submittal Conference.* A Pre-Submittal Conference is required prior to submitting an application to change a recorded plat.

b. Complete applications shall be submitted and applicable fees paid to the Development Services Department in accordance with the Replat or Affidavit of Change/Correction application guidelines.

c. The Planning Director may require additional information and supporting materials needed to evaluate and reach a decision on an application. The Planning Director may also waive specific submittal requirements if they determine the information is not needed to complete a review or make a decision.

d. The applicant is responsible for the accuracy and completeness of all information submitted to the City. The Planning Director may deny an application if the application is incomplete, the request does not comply with the City Code, or the applicant made erroneous, false, or misleading statements in the application or to City staff during the application process.

3. ***Replat.*** Replats shall be processed in accordance with Final Plat procedures, except that the requirement for a Preliminary Plat may be waived by the Planning Director if the Replat substantially conforms with the previously approved Preliminary Plat.

4. ***Affidavit of Change/Correction.***

a. *Limitations.* An Affidavit of Change/Correction may only be used when three (3) or fewer minor changes are proposed. These changes may include lot line adjustments, lot combinations, bearing or distance changes, or minor corrections such as language of dedication, notes, or legal description.

b. *Registered Land Surveyor.* All Affidavits of Change/Correction must contain the seal of a registered land surveyor, Whenever possible, the Affidavit of Change/Correction should be prepared by the original surveyor responsible for the plat being amended or corrected.

c. *Affidavit of Change/Correction Approval.* If the Planning Director determines that an Affidavit of Change/Correction complies with all objectives and requirements of this Chapter and other applicable City Codes, the Planning Director shall approve the Affidavit of Change/Correction.

d. *Recordation.* Following the Planning Director's approval, an Affidavit of Change/Correction must be recorded in the Maricopa County Recorder's Office.

F. **Modifications to Development Standards.**

1. ***General Requirements.*** The City Manager may eliminate, reduce, defer, or approve alternatives to the requirements or specifications in this Chapter if all the following are true:

a. The City Manager determines that special conditions related to the impact the proposed development will have on the City's need for land division improvements exist, such as special conditions involving topography, land ownership, adjacent development, or parcel configuration.

b. The City Manager determines that the elimination, reduction, deferral, or alternative to the requirements or specifications of this Chapter meets all of the following:

i. Is consistent with the intent of these regulations.

ii. Results in improvements that meet the City's needs.

iii. Does not constitute a grant of special privilege.

iv. Is not contrary to the public interest.

2. ***Dedication of Right-of-Way for Land Splits.*** The City Manager may eliminate, reduce or approve alternatives to the requirements or specifications for dedicating rights-of-way for land splits if all the following are true:

a. The City Manager determines that extraordinary conditions related to the impact the proposed development will have on the City's need for the dedication of right-of-way exist, such as special conditions involving topography, land ownership, adjacent development, or parcel configuration.

b. The City Manager determines that the requirement or specification for dedicating right-of-way for land splits will substantially impair land uses existing on the subject property or the ability to develop the subject property.

3. ***Agreements.*** To ensure compliance with any elimination, modification, deferral, or alternative, the City Manager may require certain provisions, such as protective covenants, bonds, and/or development agreements, and may require the provisions to be recorded against the property.

4. ***In-Lieu Payment.*** When the deferral of right-of-way improvements is authorized by the City Manager the owner and/or developer shall remit to the City a payment in lieu of causing the actual design, installation, or construction of those certain right-of-way improvements.

   a. The in-lieu payment shall be based upon a cost estimate prepared by a professionally registered civil engineer and approved by the City.

   b. The in-lieu payment cost estimate shall include all design costs, labor and materials costs, plus 20% for future contingency costs.

   c. All in-lieu payments shall be remitted to the City as a condition of and in conjunction with the issuance of any on-site construction permits and/or off-site rights-of-way permits associated with the development project.

   d. The obligation to construct right-of-way improvements or make an in-lieu payment prior to the issuance of permits, including the determination of the amount of the in-lieu payment required, may be deferred to a future date if the following criteria are met:

      i. The developer/owner provides financial assurances acceptable to the City Engineer and the City Attorney;

      ii. The developer/owner and the City enter into a development agreement that provides adequate financial assurance for the future construction of the improvements; and

      iii. The City Manager finds that such deferral meets all of the following criteria:

         (1) The development is non-residential;

         (2) The property is zoned as a commercial or industrial district;

         (3) The deferred right-of-way improvements are not included in this City's Capital Improvement Plan for construction within five (5) years of the deferral; and

         (4) The deferral is in the best interest of the City.

(Ord. No. 5949, § 1B., 7-1-25)

9-6-3: COMPLIANCE WITH APPLICABLE LAWS AND REGULATIONS

All land divisions shall comply with the following:

A. All applicable federal, state, county, and local laws, ordinances, rules, and regulations, including Title 9, Public Ways and Property and Title 11, Zoning Ordinance of the City Code.

B. The Mesa General Plan.

C. Mesa's Engineering and Design Standards Manual.

D. Where the tract, parcel, or lot proposed for division includes all or part of a site designated for a park, school, flood control facility, or other public use identified in any adopted City Plan, that portion of the property shall:

1. Be dedicated to the City; or

2. Reserved for future acquisition within a specified timeframe.

3. An agreement shall be established between the applicant and the appropriate public agency specifying the timing, method, and cost of such acquisition.

4. City Plan means a comprehensive planning document adopted by the City Council.

(Ord. No. 5949, § 1B., 7-1-25)

9-6-4: DESIGN PRINCIPLES AND STANDARDS

A. **Land Suitability.**

1. Land that is subject to periodic flooding, cannot be properly drained, or other land the Planning Director determines is unsuitable for residential use may not be divided.

2. In making a determination on the suitability of land, the Planning Director may consider steep topography, unusual soil conditions, drainage problems, special lot width or depth, or area standards.

3. The Planning Director may approve division of unsuitable land upon receipt of evidence from the Maricopa County Flood Control District, Maricopa County Health Department, or the City Engineer that the construction of specific improvements will render the land suitable. Construction is prohibited until the specific improvements plan(s) are approved.

B. **Block Design.**

1. ***Block Length.*** Maximum block length is 1,320 feet, measured along the street centerline between intersecting street centerlines. Exceptions may be granted by the Planning Director for developments where the average lot size is one-half acre or larger, or where site conditions justify longer block lengths.

2. ***Block Arrangement.*** Blocks shall be of sufficient width to accommodate two (2) rows of lots, each meeting the minimum lot depth and width requirements of the Zoning Ordinance. Where lots back onto a collector or arterial street, freeway, natural feature, land division boundary, or where lots face a loop road or cul-de-sac, the Planning Director may approve a block with a single row of lots.

C. **Lot Design.**

1. All land divisions shall result in the creation of lots which are capable of being lawfully built upon.

2. Lot width, depth, and area, and building setbacks shall comply with the minimum requirements of the City Code, including the Zoning Ordinance, and shall be appropriate for the character of development envisioned for the property in the General Plan. Additionally, lot dimensions shall be suitable for the type and extent of public improvements required to serve the property. In general, urban densities must be developed with corresponding urban street and utility improvements.

3. Where steep topography, unusual soil conditions, drainage problems, abrupt changes in land use, or heavy traffic on adjacent streets exist, the applicant may propose lot widths, depths, and areas that exceed the minimum requirements of the zoning district.

4. No land division shall create lots which are unsuitable for improvement due to size, shape, steepness of terrain, location of water courses, problems of sewage, driveway grades, or other natural physical conditions, unless the parcel or tract is preserved as open space.

5. Property required for private utility or public purposes may be divided if it does not conform to lot requirements.

6. Side lot lines shall be substantially aligned at right angles or radial to street lines.

7. Individual lots on curvilinear streets shall have straight rear lot lines, unless otherwise approved by the Planning Director. Curvilinear rear lot lines with a minimum radius of 800 feet may be permitted.

8. Corner residential lots shall be designed to accommodate increased setback requirements of the Zoning Ordinance.

9. The street-side, rear corner of corner lots adjacent to key lots shall be angled to provide a 10-foot by 10-foot cutoff. A key lot is an interior lot, adjoining the rear lot line of a corner lot.

10. Single residential lots extending through the block and having frontage on two (2) parallel local streets are not permitted.

11. Backing of residential lots onto collector streets shall be prohibited unless the Planning Director determines it is necessary to provide for separation of residential development from the collector street or where expressly permitted in accordance with the City Code.

D. **Easements.**

1. The width, location, and purpose of all easements shall be shown on all plats.

2. Utility easements shall be located to the front of lots where practicable.

3. For lots facing on curvilinear streets, utility easements shall consist of a curved line parallel to the front property line and a series of straight-line segments or a curved line parallel to the rear property lines as may be required to complete an existing easement system.

4. Where a stream or drainage course abuts or crosses a tract, lot, or parcel of land, dedication of a drainage easement with sufficient width to permit widening, deepening, relocating, protecting, or maintaining of the water course is required.

5. Land within a major drainage, flood, or transmission easement shall not be counted towards the minimum required lot area unless the lot exceeds one-half acre in area.

E. **Streets.** All public and private streets and alleys shall comply with the City of Mesa Standard Details and Specifications, the Engineering and Design Standards Manual, and the following standards:

1. ***Street Frontage.*** Every lot shall have frontage on a dedicated public street unless the lot is a unit in a condominium subdivision, or the lot has been approved to have frontage on a private street. Street frontage is defined as the linear distance that a lot, parcel, or development site abuts a public or private street, measured along the property line that directly borders the street right-of-way.

2. ***Coordination of Streets.***

   a. Collector and local streets shall connect with surrounding streets where necessary to allow access for emergency vehicles and movement of traffic.

   b. Connections will not be permitted where the effect would be to encourage the use of such streets by cut-through traffic.

   c. When connections to surrounding streets are required by the City, public right-of-way shall be dedicated to the City and streets developed to paved, existing rights-of-way.

   d. The City may require temporary turn-arounds to be constructed between development phases. Temporary turn-arounds shall comply with the Engineering and Design Standards Manual.

   e. *Pedestrian/Bicycle Ways.*

      i. Sidewalk widths up to 12 feet may be required for access to schools, playgrounds, shopping centers, community facilities, or along street corridors for pedestrian/bicycle enhancements.

      ii. Pedestrian/bicycle ways may also be used for utility and drainage purposes and must be noted on the plat and approved by the Engineering Department.

3. ***Street Design.***

   a. Streets shall be arranged in relation to existing topography to produce lots of maximum utility, streets of reasonable gradient, and to facilitate adequate drainage.

   b. Where a proposed land division abuts or contains an existing or proposed arterial street, freeway, or expressway, the City may require frontage streets or reverse frontage with nonaccess easements along the arterial street or highway. The City may place additional requirements on these land divisions to protect residential properties from the nuisance and hazard of high-volume traffic and to preserve the traffic function of the arterial route, freeway, or expressway.

   c. Where a land division abuts or contains a railroad right-of-way, limited access highway, irrigation canal, or is adjacent to a commercial or industrial land use, the City may require a street to provide appropriate access and use of the intervening land. The required distance and design shall take into account factors such as approach grades, drainage, bridges, or future grade separations.

   d. *Half-streets.*

      i. Half-streets are prohibited except where required to provide right-of-way to complete an existing street pattern.

      ii. Where a half-street is necessary, additional right-of-way and street improvements may be required.

      iii. Where a platted half-street is adjacent to a proposed land division, the remaining half-street must be platted within the proposed land division.

   e. All street intersections shall be designed to meet minimum sight distance visibility requirements per the Engineering and Design Standards Manual.

4. ***Private Streets.***

a. Private streets shall conform to the same design standards as public streets.

b. Where site conditions necessitate unique design solutions, modifications may be approved by the City Engineer and City Traffic Engineer.

c. Where private streets are approved, the plat, deed restrictions, and the homeowners' association by-laws shall contain statements that the streets:

i. Are declared private;

ii. Are subject to a public utility and facilities easement (PUFE) authorizing access to said utility; and

iii. Will remain the permanent responsibility of the homeowners' association.

5. ***Street Naming.***

a. Established public street names shall be assigned to new streets that share a common alignment with existing streets within Mesa's corporate limits in accordance with the City's Address and Street Name Assignment Policy.

b. New street names should not duplicate, in whole or in part, or be confused with existing names. New street names are subject to final approval by the City.

c. *Private Streets.*

i. Private streets shall be assigned names in accordance with the City of Mesa Address and Street Name Assignment Policy.

ii. Private drives and aisles in Manufactured Home and Recreational Vehicle Subdivisions, or townhome or condominium subdivisions shall not be named or numbered.

(1) The subdivision will receive a single master address based on the public street on which it fronts.

(2) Lots, buildings, and dwelling units within the subdivision will be assigned lot numbers, unit numbers, and building numbers by the City staff for mail delivery, emergency, or other service needs.

(Ord. No. 5949, § 1B., 7-1-25)

9-6-5: PUBLIC IMPROVEMENTS

The City Engineer is delegated authority to develop and apply engineering standards, specifications, and procedures for the design and construction of public improvements in alignment with the objectives of this Section that are necessary or appropriate to protect the public health, safety, and welfare.

A. **Responsibility.**

1. The developer is responsible for construction of all utility systems needed as a direct result of the development, such as wastewater, water, electric, phone, cable, gas, irrigation, and refuse.

2. The extent of public improvements required for a land division will be in accordance with City standards.

3. ***Oversize of Required Public Improvements.***

a. The developer may be required to oversize public improvements to ensure that the City of Mesa's public improvement standards for transportation, utility service, and infrastructure are maintained.

b. If requested the City may participate in the increased costs of oversize improvements through a "City Share" agreement, where applicable.

c. The City's commitment to participate in increased costs for improvements for oversized improvements will be formalized in a development agreement and recorded with the Maricopa County Recorder's Officer.

B. **Engineering Plans.**

1. A complete set of engineering plans for construction of all required improvements shall be prepared by an engineer registered in Arizona in conjunction with the Final Plat or Minor Plat.

2. No plat will be recorded until the engineering plans are approved by the City.

C. **Required Improvements.**

1. ***Streets and Alleys.***

a. All streets and alleys within a land division, including perimeter streets and alleys or half-streets and partial alleys, shall be paved and include concrete curbs installed to lines, grades, and dimensions approved by the City Engineer and in conformance with City standards.

b. Dead-end streets serving more than four (4) lots shall have a graded and surfaced turn-around.

c. When improvement of a collector or arterial street is required, the City will pay for such extra width paving as may be deemed appropriate by the City.

2. ***Sidewalks.*** Concrete sidewalks shall be constructed along both sides of all streets within the land division and along one side of perimeter streets to a width and to lines and grades approved by the City Engineer and in conformance with City standards.

3. ***Water and Sewer Lines and Services.***

a. Every lot within a development shall be served by a water supply system and sewer disposal system that will accommodate the reasonable needs of the principal use or development and that complies with all applicable health regulations.

b. Water and sewer lines shall be installed to lines and grades, and of such sizes and lengths as approved by the City Engineer and in conformance with City standards.

c. Water and sewer service lines shall be installed for each lot at locations approved by the City prior to paving the street and alleys.

d. Service stubs to platted lots and tracts for underground utilities shall be placed at such length and size so no disturbance of street and utility improvements is necessary when future service connections are made.

e. Where it is necessary to extend a water or sewer main from an existing adequate main, the developer will be required to pay the full cost of the line extension.

i. The City may participate in the oversize cost that may formalized in an agreement that may include a development agreement.

ii. The City may enter into a "Utility Buy-in Program, Private Line Agreement" with the developer. A private line agreement requires subsequent users to pay a share of the cost of the line extension when they take service from the line extension, if the subsequent user takes service during the term of the agreement.

4. ***Fire Hydrants.*** Fire hydrants shall be installed within and along perimeter streets, at locations and to lines and grades approved by the City Engineer and Fire Department and in conformance with City standards.

5. ***Gas.*** Gas service may be furnished according to current available supplies as determined by the City or other franchised supplier for that area.

6. ***Irrigation Lines and Ditches.*** All irrigation and other ditches within the land division or within perimeter half-streets, alleys, or easements shall be titled or abandoned in accordance with plans and specifications approved by the City Engineer and/or the respective irrigation district.

7. ***Storm Water Retention.***

a. The subdivider shall make provisions for the retention and subsequent bleed off of all storm water in accordance with plans approved by the City Engineer and in conformance with City standards.

i. The plans shall show the type, extent, location, and capacity of existing and proposed drainage and retention.

ii. Complete hydrology and hydraulic design computations shall accompany the plans and be approved prior to the recordation of the Final Plat or Minor Plat.

b. *Retention Basins.*

i. Public retention basins are encouraged to provide additional land area (up to 25% of the basin size) above the minimum land area calculated to retain their specified volume of water to help ensure that public basins provide usable "flat" areas for recreational purposes. The design, amount, and location of the additional area provided should be considered in the initial design of the project. The need for additional open space and the design of the basin will be reviewed by City staff on a project-by-project basis to help ensure adequate recreational facilities are provided to serve the needs of the future residents of the proposed land division.

ii. Multiple small retention basins are not permitted for either public or private developments unless approved by the City Engineer and in conformance with City standards.

iii. Upon completion of an approved maintenance period for a public retention basin that will be maintained by the City, the developer shall provide, at no cost to the City, a clear title to the public retention basin.

iv. Once constructed by the developer and approved by the City, the retention facilities shall not be modified unless such modification is approved by the City Engineer.

8. ***Streetlights.*** Streetlights shall be installed along all streets within the land division and along all perimeter streets developed in conjunction with the land division.

a. Streetlights shall be LED (Light Emitting Diode) and must be installed by the developer in accordance with plans approved by the City and in conformance with the City Engineering and Design Standards Manual and Streetlight Technical Manual.

b. Streetlight illumination levels shall comply with the streetlight lumen level and City Engineering and Design Standards Manual and Streetlight Technical Manual. The streetlight lumen level is the standard lumen lighting levels of a streetlight required by Roadway Lighting ANSI/IES RP-8. LED lights shall have a correlated color temperature (degrees Kelvin) rating as specified in the City Engineering and Design Standards Manual and Streetlight Technical Manual.

c. *Adaptive Lighting.* Adaptive lighting consists of lighting with the ability to automatically adjust light level and spectral content based on environmental conditions in order to optimize space, human, and building performance. Public streetlights may utilize adaptive lighting and may be dimmed in accordance with City Engineering and Design Standards, which shall allow street light power levels to be reduced as follows:

i. To as low as 25% of maximum power level on arterial streets in lighting Zone 1, as identified in the Street Light Master Plan, a copy of which is on file with the City Transportation Department.

ii. As low as 45% of maximum power level on all other areas of, and streets within, the City.

d. *Mesa Proving Grounds (Eastmark).* To allow flexibility in lighting design to create a variety of unique neighborhoods and environments across the Mesa Proving Grounds Project, streetlighting on public local streets within the Mesa Proving Grounds, located in the area north of Williams Field Road, west of Signal Butte Road, south of Elliot Road and east of Ellsworth Road, shall be provided as specified below:

i. In land use groups V-Village and D-District where continuous sidewalk and landscape/hardscape lighting are provided, and in land use groups OS-Open Space, CS Civic Space, E-Estate, R-Retreat and in service lanes irrespective of sidewalk and landscape/hardscape lighting, streetlighting shall be provided at locations specified below to the light level required by the City of Mesa Engineering and Design Standards:

(1) At all public street intersections and all locations where private commercial driveways with heavy nighttime use, as determined by the City Traffic Engineer, multi-family driveways serving 20 or more units, or service lanes intersect a public street.

(2) At all marked and unmarked pedestrian crosswalks.

(3) At all marked and unmarked pedestrian, bicycle, equestrian or multi-use pathway crossings.

(4) At the end of a cul-de-sac or hammerhead.

(5) At all driveway entrances to schools or civic buildings.

(6) Continuously along streets where adjacent major nighttime gathering locations are brightly lit and there is no fence or other physical barrier between the street and the outdoor facility that limits pedestrian access to specific crossing points, as determined by the City Traffic Engineer.

(7) At other locations specified by the City based on roadway design characteristics, land use, or anticipated public use.

(8) In service lanes, additional privately owned and maintained lighting shall be provided as specified at the Development Unit Plan level.

ii. In all other land use groups continuous streetlighting shall be provided in accordance with the City of Mesa Engineering and Design Standards.

e. *Morrison Ranch.* In order to provide for creation of a unique neighborhood environment based on the agricultural heritage of the southeast valley and to provide consistency throughout a 2,000-acre master planned community on the former Morrison Ranch properties, streetlighting on public local streets within the area south of Guadalupe Road, north of the power line easement approximately one-half (½) mile south of Guadalupe Road, west of Sossaman Road, and east of the East Maricopa Floodway shall be provided as specified below:

i. A minimum of one (1) streetlight shall be placed at each intersection and at the end of each cul-de-sac that is more than 200 feet long.

ii. A minimum of one (1) streetlight shall be placed at each marked and unmarked pedestrian crosswalk, and at each marked and unmarked pedestrian, bicycle, equestrian or multi-use pathway crossing unless such crosswalk or pathway crossing will be lighted by a streetlight at an intersection pursuant to Subsection (e)(i) above.

iii. On street sections longer than 400 feet, streetlights shall be placed at a maximum spacing of one (1) per every 400 feet.

iv. Streetlights may consist of decorative poles and decorative post top mounted fixtures as approved by the Transportation Department Director, with a typical mounting height of approximately 16 feet, but in no case lower than 16 feet or higher than 25 feet.

v. Continuous lighting along sections of streets adjacent to school sites, public parks, or activity centers shall be provided in accordance with the City of Mesa Engineering and Design Standards.

f. *Pacific Proving Ground North (Cadence).* In order to provide for creation of a unique neighborhood environment based on early American neighborhood character throughout the 484-acre Pacific Proving Ground North development, streetlighting on public local streets within the area south of Ray Road, and east of Ellsworth Road shall be provided as specified below:

i. All local public street intersections shall be illuminated per the City standards.

ii. One (1) light shall be installed at each elbow intersection.

iii. Lights shall be installed at all marked or un-marked pedestrian, bicycle, equestrian or multi-use pathway street crossings (crosswalks) to meet City light level standards.

iv. One (1) light shall be installed at all public driveway entrances to schools.

v. Continuous lighting along sections of streets adjacent to school sites, parks, or activity centers shall be provided in accordance the City of Mesa engineering and design standards.

vi. One (1) light shall be installed at the end of each cul-de-sac that is longer than 200 feet as measured from the centerline of the intersection at the beginning of the cul-de-sac to the face of curb at the farthest point of the cul-de-sac.

vii. Streetlights may be decorative, post top style fixtures, as approved by the Transportation Department Director to meet the theme of the community. Light source shall be LED.

viii. Streetlights will have an approximate 15-foot to 25-foot mounting height.

g. *Mulberry.* In order to provide for creation of a unique neighborhood environment based on early American neighborhood character throughout the 172.5-acre Mulberry Development located north of Guadalupe Road and west of Signal Butte Road, street lighting on public local streets within phases one, two, three and four of Mulberry shall be provided as specified below:

i. All local public street intersections shall be illuminated per the City standards.

ii. One (1) light shall be installed at each elbow intersection.

iii. Lights shall be installed at all marked or un-marked pedestrian, bicycle, equestrian or multi-use pathway street crossings (crosswalks) to meet city light level standards.

iv. One (1) light shall be installed at all public driveway entrances to schools.

v. Continuous lighting along sections of streets adjacent to school sites, parks, or activity centers shall be provided in accordance with the City of Mesa engineering and design standards.

vi. One (1) light shall be installed at the end of each cul-de-sac that is longer than 200 feet as measured from the centerline of the intersection at the beginning of the cul-de-sac to the face of curb at the farthest point of the cul-de-sac.

9. ***Traffic Control Devices.***

a. Traffic control devices shall be provided or existing control devices shall be modified in conjunction with the development in accordance with designs approved by the Development Services Department Director, where required in accordance with the Mesa Transportation Department and City Traffic Engineer.

b. The Transportation Department may defer the installation of required traffic control devices. When the installation of required traffic control devices is deferred:

i. The developer shall pay the City an in-lieu payment for the deferral of the actual design, installation, and/or construction of the devices.

ii. This in-lieu payment shall be based upon a cost estimate prepared by a professionally registered engineer and approved by the City of Mesa.

iii. The in-lieu payment cost estimate shall include all design costs, labor and materials costs, plus 20% for future contingency costs.

iv. All in-lieu payments shall be remitted to the City of Mesa as a condition of and in conjunction with the issuance of any on-site construction permits and/or off-site rights-of-way permits associated with the development.

10. ***Street Name Signs.*** Street name signs shall be placed in all street intersections. The developer shall install signposts and signs per Mesa Standard Details with designs approved by the City Traffic Engineer.

11. ***Survey Monuments.***

a. Survey monuments conforming to City standards, as established in the City of Mesa Engineering and Design Standards Manual, shall be installed at all corners, angle points, and points of curves and at all street intersections for streets within and around the perimeter of the land division and at such other locations as may be required by the City Engineer.

b. Re-established section and quarter section monuments shall be as prescribed in A.R.S. § 33-103 and a corner record filed with the Maricopa County Recorder per A.R.S. § 33-106.

c. After all improvements are installed, the developer's registered land surveyor shall verify and reset, if necessary, the location of all monuments. The registered land surveyor shall also record with the Maricopa County Recorder a record of survey, per Arizona Land Boundary minimum standards as adopted by the Arizona Board of Technical Registration in 2002, that shows the location and type of all monuments set or found with complete dimensions of all lots, tracts and parcels established. In the case of a recorded subdivision plat, no new parcels will be created without obtaining approval from the City. A copy of the recorded record of survey shall be submitted to the City prior to the issuance of any certificates of occupancy.

12. ***Parkway Landscaping.*** Landscaping located in the public right-of-way between the street paving and the right-of-way limit line.

a. Parkway areas along arterial streets and other streets, as deemed necessary by the City Engineer, shall be landscaped in accordance with approved plans and standards set by the City Engineer.

b. A statement shall be contained in both the deed restrictions and the owners' association by-laws that all landscaping, including that within the public right-of-way adjacent to the site, shall remain the responsibility of the owners' association to maintain in perpetuity.

13. ***Underground Utilities.***

a. Electric lines and communication lines shall be constructed underground as required by the Arizona Corporation Commission.

b. City ordinance also requires video services to utilize a common trench for undergrounding their facilities in new developments, and the developer must provide backfill under the same conditions as are extended to other trench users (e.g., electric, telephone, and communications).

D. **Construction and Inspection.**

1. All improvements and construction of improvements in the public right-of-way or in public easements shall be reviewed, inspected, and approved by the City Engineer.

a. Construction shall not commence until a permit is issued for such construction.

b. Work shall not be discontinued or suspended unless first approved by the City Engineer. Work will not be resumed prior to notification and approval of the Engineering Department.

2. All underground utilities to be installed in streets and alleys shall be constructed, inspected, and approved prior to the surfacing of such streets and alleys.

3. ***Construction Certification.***

a. Upon completion of development, the developer's engineer shall provide as-built certification to the City Engineering Inspector that all required improvements in dedicated City rights-of-way or public utility easements were constructed according to approved plans and conform to the City's Engineering and Design Standards Manual.

b. The developer's engineer or surveyor shall certify the as-built volume of all retention facilities.

c. All certifications shall be signed by the engineer or surveyor and stamped with a professional seal.

(Ord. No. 5949, § 1B., 7-1-25)

9-6-6: DESERT UPLANDS DEVELOPMENT STANDARDS

A. **Purpose and Intent.** The purpose of these standards is to minimize hillside disturbance and encourage preservation of the natural character and aesthetic value of the desert within the Desert Uplands Area by allowing the flexibility necessary to produce unique, environmentally sensitive projects. It is the intent of these standards to encourage development of land divisions with a distinctive southwest desert design theme. The requirements of this Section apply only to the Desert Uplands Area as depicted in Figure 1.

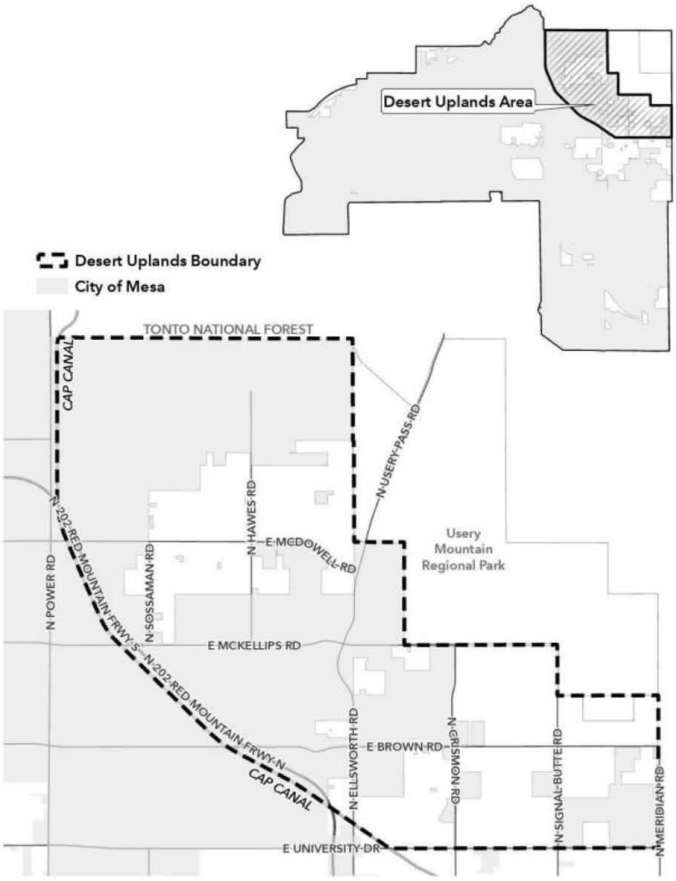

FIGURE 1: DESERT UPLANDS AREA MAP

B. **Applicability.**

1. Current City design standards may not be applicable to desert preservation-oriented development.

2. Due to the anticipated vehicular and pedestrian volumes normally associated with higher residential densities, developments within the RS-15 zone and higher-density residential and nonresidential uses shall generally comply with present City of Mesa ordinance requirements.

3. Standard City requirements for land division design, stormwater retention, right-of-way, pavement width, and street design shall apply except in the following areas where alternatives may be permitted to maintain the natural desert character of the area.

4. PADs and nonresidential developments will be reviewed at the time of zoning approval or building permit application review for compliance with applicable Desert Uplands Standards and for a southwestern design theme.

5. In lower-density residential areas (RS-35 and lower), development standards similar to those for suburban areas may be approved.

6. Prior to any development, a grading permit shall be obtained in accordance with the Mesa City Code.

C. **Local Streets.**

1. Local street standards may be modified to encourage better adjustment to the topography of the area.

2. Existing significant topographical features, such as washes, hillsides, boulders, and rock outcroppings, and established stands of native vegetation which cannot be revegetated may warrant the approval of alternative engineering designs. Modifications will be considered on an individual basis, with approval by the Mesa Planning Director, City Engineer, and City Traffic Engineer.

D. **Requirements and Design Alternatives.** The following are requirements and design alternatives for street construction in the Desert Uplands Area:

1. ***Local Residential Streets - Public.*** Table 9-6-6.D.1 below specifies the local residential public street standards for each residential zoning district.

Table 9-6-6.D.1: Local Residential Streets - Public

DIST.	LOT SIZE SF	R.O.W.	CL TO BC	PARK-ING	CURB	SIDEWALK	WATER MAIN	STREETLIGHT
RS-6 to RS-9	6,000+ to 9,000+	53'	17.5'	Both Sides	2' Roll	5' Width, Detached 5'*	1' Behind Curb	4' Behind Curb
RS-15	15,000+	47'	14.5'	One Side Only	2' Roll	5' Width, Detached 5'*	1' Behind Curb	4' Behind Curb
RS-35	35,000+	43'	12.5'	None	2' Roll	5' Width, Attached	1' Behind Curb	6' Behind Curb
RS-43 to RS-90	43,560+	30'	12.0'	None	3' Ribbon	None	1' Behind Curb	None

*Landscaping shall consist of trees with limited canopies and shrubs selected from the Preferred Desert Uplands Plant List in accordance with Table 9-6-6.D.5 of this Section. Fifty percent (50%) of the trees are to be 24-inch box (new or salvage), within the five (5) foot landscape strip between the curb and sidewalk.

**Certain streets may have a reduced or no streetlighting requirement pursuant to Section 9-6-6(F).

2. Homeowners' associations shall be responsible for maintenance of landscaping between the curb and sidewalk. To avoid damage to landscaping, the covenants, conditions, and restrictions are to require garbage/recycling barrels to be placed in the street adjacent to the curb, not in the landscaped area.

3. Where topographical conditions warrant, cul-de-sac lengths in excess of 400 feet may be approved by the City Engineer if an improved turning radius of 55 feet is provided to facilitate the turning radius of emergency vehicles. In such situations, however, the Fire Department may require installation of individual protection systems where appropriate. Cul-de-sacs should be designed to serve 12 to 14 homes maximum, regardless of length.

4. ***Radius and Speed Limits.***

a. With approval of the City Traffic Engineer and City Engineer, the minimum centerline radius may be reduced to 200 feet and the minimum curve length reduced to 75 feet with a 25-mile-per-hour (mph) street design.

b. Local street intersections may vary from 90° on short street segments, at cul-de-sacs, or at the termination of streets where the traffic speeds and volumes are lower. At "tee" intersections, the intersection tangent length may be reduced to 150 feet minimum.

c. For 25 mph streets terminating at the "tee" intersection, the center line radius shall be no less than a 200-foot radius.

d. For 30 mph streets terminating at the "tee" intersection, the center line radius shall be not less than a 300-foot center line radius.

5. ***Landscaping.***

a. Landscape medians are recommended at subdivision entrances and adjacent to open spaces.

b. Landscape islands are recommended within cul-de-sacs.

c. Landscape plans for the medians and islands shall utilize plants salvaged from the site or selected from the Preferred Desert Uplands Plant List Table 9-6-6.D.5.

d. Medians and islands cannot obstruct access to lots, impair visibility at sight triangles, or obstruct drainage, and are to be located pursuant to Fire Department and Development Services Department access requirements.

e. Boulders and trees, including large-diameter trees, may be placed in large-width median islands as design elements if berming is provided for protection (see Figure 2).

f. Integral colored concrete and alternative sidewalk and pavement materials are encouraged subject to City review and approval.

g. Homeowners' associations are to own the medians and islands, and be responsible for landscape, special concrete, and pavement section maintenance.

Pinus	All Pines
Tamarisk	Salt Cedar
Thevetia Species	Thevetia
NOTE: Protected Native Plants: The Arizona Department of Agriculture Plants Services Division has formulated a policy concerning protected native plants. A permit is required for the removal and transportation of protected native plants. All protected native plants shall be tagged by the Arizona Department of Agriculture.	

6. ***Street Grades.***

   a. Maximum street grades may be increased, provided adequate visibility and access for fire protection and refuse collection vehicles is maintained.

   b. Local street grades should not exceed 15%, and streets exceeding 12% should have a maximum length of 400 feet and must include vertical curve design considerations as detailed in the Engineering and Design Standards.

7. ***Exceptions require approval of the Traffic Engineer and City Engineer Restored Areas.***

   a. Where scarring occurs as a result of street or utility construction, revegetation and restoration shall be required of the subdivider.

   b. Restored areas shall be graded and landscaped to blend with the natural vegetation and terrain and stabilized to control erosion.

   c. Landscape plans for the areas to be restored shall utilize plants salvaged from the site or selected from the Preferred Desert Uplands Plant List Table 9-6-6.D.5.

   d. The plants shall be of the same species mix, and equivalent in size and density to the surrounding undisturbed area.

   e. Landscaping and stabilization shall occur concurrently with construction.

8. ***Grade Changes.***

   a. Grade changes that require retaining walls may be used only with the approval of the City Engineer.

   b. Where approved for use, vertical retaining walls shall have a maximum height of five (5) feet. For grade changes of more than five (5) feet, the use of multiple walls in a series of terraces is required (see Figure 3).

c. Each terrace shall have a four (4) foot minimum width and shall be landscaped (see Figure 3).

d. There shall be a four (4) foot landscaped strip between the top terrace and any freestanding enclosure wall used (see Figure 3).

e. The finished surfaces of retaining walls shall blend into the natural setting by such means as texturing and the use of earth tone coloring.

f. The use of native stone as a veneer is also possible.

9. ***Slopes 60° or less.***

a. Mortar-free stone retaining walls using irregularly shaped native boulders may be used, subject to structural and slope stability design considerations (see Figure 3).

b. Landscaping of the slope shall be provided to produce a more natural appearance (see Figure 3).

c. Modifications to these standards may be considered on an individual basis where unusual topographical conditions, parcel configurations, or other relevant factors are present.

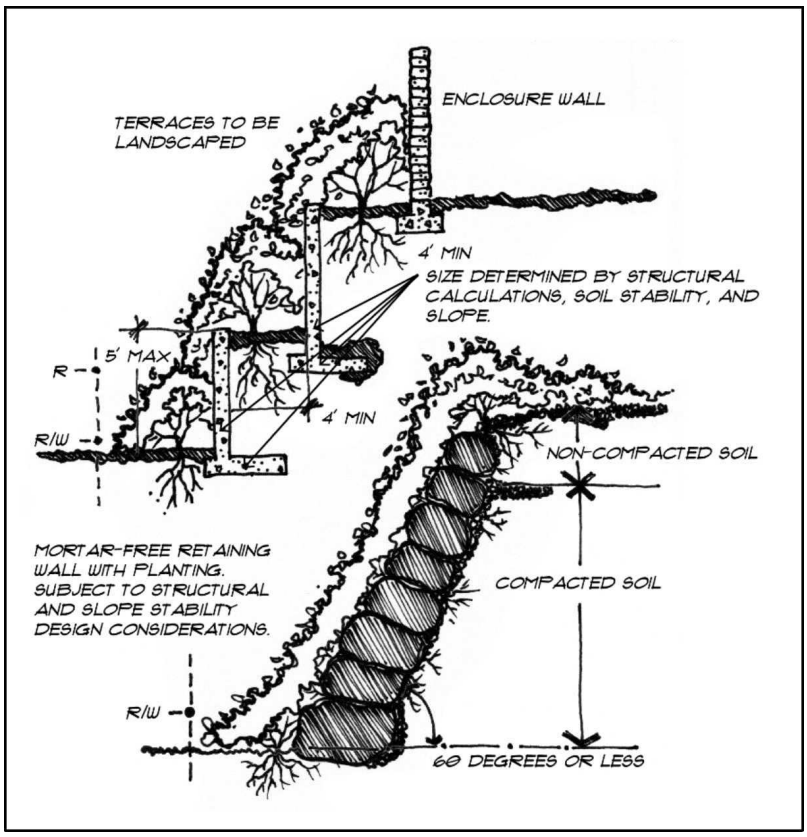

FIGURE 3: RETAINING WALL DESIGN

10. ***Excess Excavation Material.*** All excess excavated material shall be removed or incorporated as an integral part of the site development so that a natural look is maintained.

11. ***Low-Density Development Standards: One (1) Dwelling Unit Per Acre (RS-35) or Less.***

    a. Where drainageways cross streets, culverts shall be installed to convey 10-year frequency storm flows under the pavement, with higher-volume storm flows being allowed to flow over the pavement in dip sections (see Figure 4).

    b. For washes with low flows, deletion of the culvert may be permitted where a concrete dip section is provided when approved by the City Engineer (see Figure 4).

    c. With approval of the City Engineer, the use of three (3) foot to five (5) foot roadside drainage swales with appropriate erosion protection to provide a natural appearance will be permitted.

    d. The use of integral colored concrete for ribbon curbing is encouraged.

FIGURE 4: DRAINAGEWAY CROSSING - CULVERT AND DIP SECTION

E. **Collector Street - Public.**

1. Where no lot/home access is provided along a collector street, and the area served by the collector is not so large as to require a wider street, the collector street may be as follows: 80-foot right-of-way, 34-foot face-of-curb to face-of-curb, and six (6) foot sidewalks detached a minimum of nine (9) feet.

2. At intersections with major streets and adjacent to school sites, parks, or activity centers, the face-of-curb width shall be increased to a minimum width of 46 feet to accommodate additional/separate turn lanes. Requirements for additional street width are to be determined by the City Traffic Engineer.

F. **Streetlights.**

1. Full cutoff streetlight fixtures shall be required in the Desert Uplands Area.

2. Streetlighting in the Desert Uplands Area shall comply with the requirements and provisions of Section 9-6-5(C)(8), except as specified in Subsection (F) of this Section.

   a. Streetlights shall not be installed in medians except as may be approved by the Transportation Department Director after considering potential light pollution impacts on adjacent residential property.

   b. Mounting height shall be 35 feet to 40 feet.

3. On collector streets, as permitted under Subsection (E), street lighting shall use poles with a 30-foot or 35-foot maximum mounting height and an average 0.37 foot-candlelight level with a six-to-one (6:1) average-to-minimum ratio.

4. Lighting along the 46-foot-wide sections of these streets adjacent to school sites, parks, or activity centers shall comply with City standard illumination and spacing requirements for collector streets.

5. Streetlights on local streets shall be placed at all intersections and at the end of culs-de-sac that are more than 200 feet long except as specified in Subsection (F)(9) and Subsection (F)(10).

6. On straight sections of roadway, spacing between streetlights may not exceed 400 feet. However, other factors must also be evaluated; e.g., horizontal, and vertical alignment.

7. Topographical conditions may require additional lighting. Mounting height on local streets shall be 25 feet with a fixture that emits between 2,900 and 4,000 lumens.

8. Pull box spacing for streetlighting shall not exceed 200 feet.

9. ***Lighting.*** For the area north of the Hermosa Vista Drive alignment and east of Hawes Road and west of Usery Mountain Regional Park along public streets (inclusive of Hawes Road, but exclusive of the Hermosa Vista Drive alignment and Ellsworth Road), the following lighting standards apply:

   a. *Public Streetlights.* No street lights on public streets are required.

   b. *Subdivision Lighting.*

      i. The developer shall provide an area light fixture and pole at each entrance to a multi-unit subdivision.

      ii. The area light fixture and pole shall be installed outside of the City right-of-way or public utilities and facilities easement and shall be installed adjacent to the edge of the driveway approach.

      iii. The light pole shall be no less than eight (8) feet in height and no greater than 16 feet in height with a fixture that emits between 2,900 and 4,000 lumens and shall meet all applicable City standards.

iv. The area light fixture and pole shall be owned, operated and maintained by the owners of the property where the area light is installed. The City shall not be deemed to own, operate, maintain, or otherwise be responsible for such area light fixtures and poles.

10. Streetlighting on public collector and local streets located in the area north of McLellan Road, west of Ellsworth Road/92nd Street alignment, south of McKellips Road and east of a north/south line one-quarter (¼) mile west of Hawes Road, and for the area north of McKellips Road, west of Ellsworth Road/92nd Street alignment, south of Hermosa Vista Drive, and east of Hawes Road, shall be provided at locations specified below to the light level required by City standards as set forth in the City of Mesa Engineering and Design Standards:

a. At all public street intersections and all locations where private driveways intersect a public street.

b. At all marked and unmarked pedestrian crosswalks.

c. At all pedestrian crossing points adjacent to parks or other activity centers.

d. At all pedestrian, bike, equestrian, or joint use pathway crossings where pathway lighting is provided.

e. At locations adjacent to parks or other outdoor activity centers continuous streetlighting shall be provided where such locations provide lighting for nighttime use and there is no fence or other physical barrier between the street and park or outdoor facility that limits pedestrian access to specific crossing points.

f. At the end of a cul-de-sac.

G. **On-Site Street Name Signs (Public Streets).**

1. Street name signs and posts shall be standard (green reflectorized sign with white reflectorized lettering and a steel pole) unless the applicant receives approval of a modification from the City Traffic Engineer.

2. Any approval of nonstandard street signpost materials shall be conditional upon the development's homeowners' association assuming responsibility for the installation, future maintenance, and liability relating to the signs.

3. Nonstandard street name signposts which are installed and maintained by a homeowners' association shall have reflective letters and background.

H. **Walls and Fences.**

1. Perimeter subdivision walls shall be designed to reflect a southwestern design theme and be constructed to reflect changes in the topography (see Figure 5).

2. Perimeter subdivision walls shall be designed and constructed in a height and style which preserves desert vistas and environment to the extent possible. Perimeter walls along arterial or collector streets should not extend over 250 linear feet without a one (1) foot vertical or three (3) foot horizontal variation. Walls shall include clear ground-level openings no smaller than 18 inches high to permit wildlife passage.

3. The height of walls shall be measured from the original grade.

4. Walls or fences on individual lots which are visible from the street shall be designed to match the character and appearance of the home (see Figure 5).

5. The use of chain link as a permanent fencing material is prohibited in the Desert Uplands Area.

6. ***Low-Density Development Standards: One (1) Dwelling Unit Per Acre (RS-35) or Less.***

   a. As a means of preserving the natural desert character, views, wildlife corridors, and habitat, developers of low-density residential developments are encouraged to only utilize entry features and not utilize subdivision perimeter walls.

   b. In larger-lot developments, the developer shall confine fencing to the residential private activity areas on each lot, with the balance of the lot to remain open and unwalled (see Figure 5).

   c. Walls on individual lots shall be designed to match the character and appearance of the home (see Figure 5).

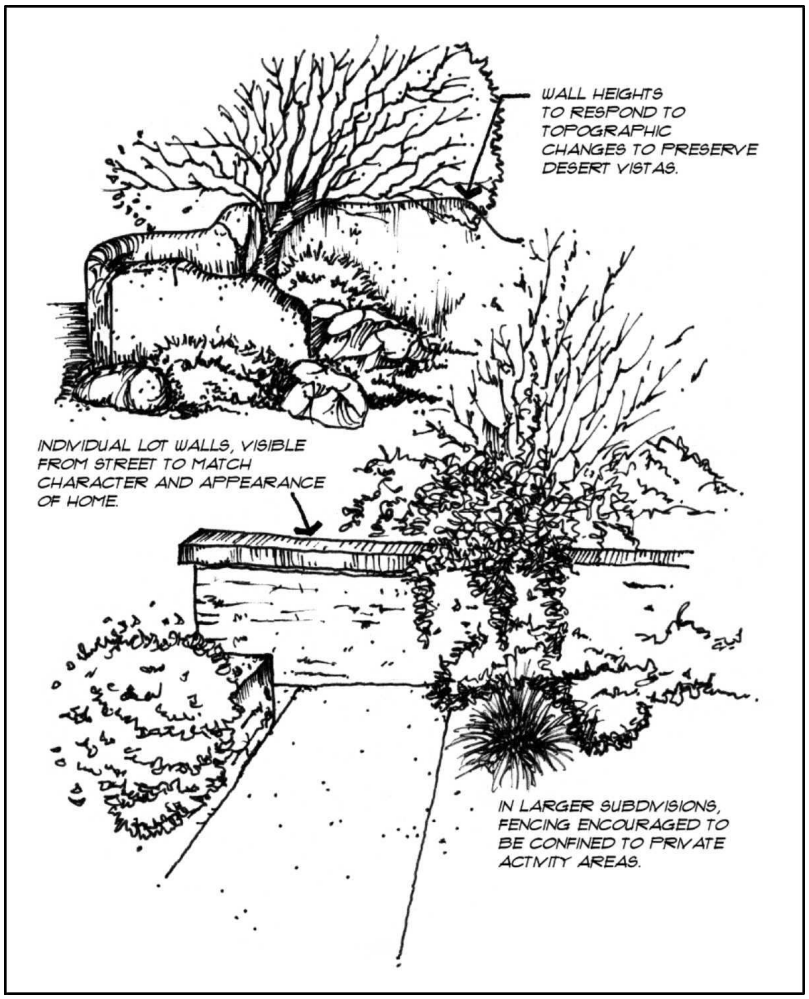

FIGURE 5: DESERT UPLANDS AREA PERIMETER WALLS

I. **Native Plant Preservation.** The Desert Uplands Area is an Upper Sonoran Desert community with unique plants, washes, and landforms which create its own identity and character. To preserve and maintain its unique character, proposed developments shall either retain desert landscaping or revegetate desert landscaping according to the following standards:

1. ***Retained Desert Landscaping.*** Natural, undisturbed open spaces, common areas, and washes which should be subject to no grading and no additional plant materials, except where stabilization of washes is needed to accommodate flows.

2. ***Revegetated Desert Landscaping.*** Reconstructed desert landscaping, including both retained and revegetated plant materials, shall be in accordance with the Preferred Desert Uplands Plant List in accordance with Table 9-6-6.D.5 of this Section, and are to be of the same species mix, and equivalent in size and density to the surrounding undisturbed area.

3. ***Plant Material.*** A minimum of 50% of the plant material used for common area, parkway, and median landscaping shall be selected from the Preferred Desert Uplands Plant List, and the

remainder selected from the Acceptable Desert Uplands Plant list. Developers are encouraged to select at least 90% of the plant material used for common area, parkway, and median landscaping from the Preferred Desert Uplands Plant List.

4. ***Turf.*** The use of turf is discouraged to retain the desert character and conserve water resources.

5. ***Front and Rear Private Yards/Gardens.*** Plant materials for front and rear private yards/gardens are left to the choice of the individual homeowners and their homeowners' association. Homeowners are encouraged to use plants from the Preferred Desert Uplands Plant List.

6. ***Cactus Substitution.*** Retained or transplanted cactus and ocotillo may be substituted to achieve up to 50% of the required number of trees to be planted in the street right-of-way.

7. ***Thorny Plants, Cactus, and Ocotillo.*** Thorny plants, cactus, and ocotillo shall:

   a. Maintain a minimum setback of seven (7) feet from sidewalks and/or vehicular roadways. Such plants will be allowed in a curbed median island, provided a minimum of three (3) feet is maintained from curbs as a clear zone (measured from the nearest part of the plant) (see Figures 2 and 6); and

   b. Have a minimum of three (3) buffer shrubs in front of such plants (pedestrian/street side) (see Figures 2 and 6). Examples of buffer shrubs are creosote, chuparosa, fairy duster, and desert lavender.

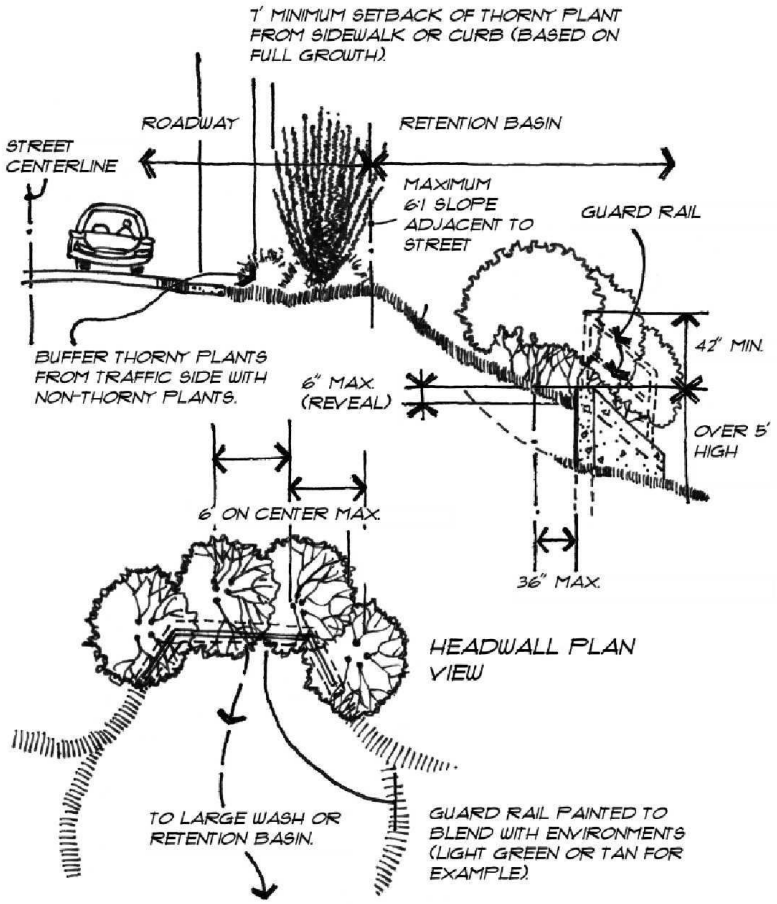

FIGURE 6: THORNY PLANT BUFFERING REQUIREMENTS

8. ***Re-established Vegetation.*** Vegetation shall be re-established by the developer on all graded areas and exposed cut and fill slopes. Desert grasses, shrubs, trees, and cacti from the Preferred Desert Uplands Plant List shall be used to prevent erosion and permit natural revegetation.

9. ***Landscaping Maintenance.***

   a. *Healthy Trees and Cacti to be Preserved.* Existing healthy trees (4" caliper and larger) and all healthy cacti shall be preserved in place where possible. When retention of trees and cacti is not possible due to lot sizes, location, or fire mitigation, removal and replanting on other areas of the site is required.

   b. *Dead or Dying Vegetation.*

      i. Dead or dying vegetation shall be removed and cleared from the site to reduce potential fire fuel and maintain a safe and healthy ecosystem.

ii. Transplanted native plants that die within one (1) year are to be replaced within 30 days of removal. Replacements are to be indigenous plant material selected from the Preferred Desert Uplands Plant List. A bubbler or emitter irrigation system shall be extended to new or transplanted plants.

iii. Vegetation that is required by an approved landscape plan shall be replaced within 30 days of removal by a species identified on the Desert Uplands Plant List.

c. *Vertical and Horizontal Separation Between Vegetation.* Vegetation should be pruned to maintain a five (5) foot clearance under tree canopies, and, where feasible, a 10-foot spacing between trees and shrubs.

d. *Invasive Species.* Regular inspections should be conducted, and any identified invasive plant species should be promptly removed to prevent their spread and maintain the health of native vegetation.

J. **Low-Density Lot Development Standards: One (1) Dwelling Unit Per Acre (RS-35) or Less.**

1. ***Building Envelope Requirements.*** All improvements shall be located within a building envelope, occupying not more than 50% of the total lot area. The building envelope is the specified area on a lot within which all areas of disturbance, including structures, driveways, walkways, patios, pools, walls, construction work access, grading, slopes, and riprap are located.

a. *Protective Fencing.*

i. A building envelope protective fencing permit shall be obtained prior to any plant removal or disturbance activities.

ii. The building envelope protective fencing shall be installed on the disturbance line as identified on the approved plans.

iii. The building envelope fence line shall be established and staked by an Arizona registered engineer or land surveyor.

iv. The fencing is to display appropriate warning signs posted every 100 linear feet in English and Spanish, indicating "Protected Area - Do Not Remove Fence."

v. A zoning inspection is required to ensure compliance with the fencing permit and shall occur prior to the issuance of the building/grading permit for the lot.

vi. The fencing and signage shall be maintained in place throughout the grading/construction process and shall only be removed after a final inspection is approved.

vii. Failure to maintain the fencing as permitted may result in stop work orders or other penalties as provided in this Chapter and Title 4 of this Code.

viii. The Planning Director may authorize the partial or total removal of the temporary fence to facilitate final grading, revegetation, and installation of site flat work or hardscape.

b. *Work Access Areas.*

i. To accommodate the redirection of existing drainage/washes around structures and to provide area for sufficient work access during construction, the maximum disturbed area may be increased, subject to plan approval, to 60% of the total lot area.

ii. All disturbed areas beyond the 50% building envelope shall be enclosed within the protective fencing during construction and shall be fully revegetated using plant material salvaged from the same lot, which, if necessary, may be supplemented with plants from the Preferred Desert Uplands Plant List.

iii. The revegetation plan shall provide plant materials designed to blend with or exceed the existing surrounding plant densities.

c. *Minimum Setback.* There shall be a minimum 10-foot setback from any property line for the building envelope that shall remain undisturbed except for the allowed driveway, utility trenching, approved drainage improvements, and approved work access area.

d. *Driveway Exception.* The area of a single-access driveway extending beyond the first 30 feet of lot depth may be excluded from the building envelope disturbance calculation provided that the driveway is a maximum width of 16 feet, that all disturbance associated with the construction of the driveway is minimized to the greatest extent possible, and that all disturbed area resulting from the driveway construction is fully revegetated using plant material salvaged from the same lot or supplemented with plants from the Preferred Desert Uplands Plant List.

e. *Utility Exception.* The area for utility trenching may be excluded from the building envelope disturbance calculation provided that disturbance associated with the installation of utilities is minimized to the greatest extent possible, that all disturbance as a result of the trenching is fully revegetated using plant material salvaged from the same lot or supplemented with plants from the Preferred Desert Uplands Plant List, and that the utility trench is located adjacent to or under the driveway or at alternative locations as approved by the Planning Director.

f. *Limitation on Driveway and Utility Exceptions.* The building envelope exclusions relating to driveways and utility trenches are limited to a combined, maximum exclusion of 10% of the total lot area.

g. *Compliance.* Occupancy or other utilization of any structure shall not commence until all requirements of the Desert Uplands Development Standards and the requirements of Title 4 of this Code have been fulfilled and a final inspection has been completed.

2. ***Building Envelopes with Natural Area Open Space Preservation.*** Variations to the building envelopes may be approved as part of an approved Planned Area Development (PAD) that preserves Natural Area Open Space (NAOS) in compliance with the following requirements:

a. *Intent.* This Subsection is intended to allow variations to the building envelope requirements in Section 9-6-6(J)(1) with the approval of a PAD when NAOS is preserved in common tract and on-lot areas.

b. *NAOS Location.* The location of NAOS on a Preliminary Plat or Minor Plat shall be based on the following considerations:

i. Preservation of natural washes;

ii. Preservation of significant features and vegetation, including rock outcroppings and significant concentrations of native vegetation in relation to the surrounding development project;

iii. Continuity of open space within the development project and with adjacent developments;

iv. Continuity of on-lot open spaces on adjoining lots; and

v. Provision for unimpeded wildlife access and movement between open space areas.

c. *NAOS Design.*

i. NAOS shall be designed to preserve environmental features with consideration of the surrounding environment in order to connect with existing or planned open space of adjacent lots or common areas so that continuous areas of meaningful NAOS are formed.

ii. The minimum contiguous area for NAOS shall be 4,000 square feet with a minimum horizontal dimension of 30 feet, except along roadways, where the minimum shall be 20 feet.

iii. NAOS shall be undisturbed areas or a combination of undisturbed and revegetated areas.

iv. Land Divisions designed with a combination of undisturbed NAOS and revegetated open space shall have at least 70% of the required NAOS as undisturbed NAOS.

v. This minimum applies to both common tract and on-lot NAOS. Revegetated areas shall not exceed 30% of the NAOS.

vi. The 50% building envelope limitation, Section 9-6-6(J)(1), may be increased in direct proportion to the percentage of NAOS preserved within common tracts controlled by a homeowners' association, land trust, or similar entity; or located on-lot within designated easements, as indicated in Table 11-6-6.J.2.

d. NAOS shall be identified on Land Splits, Minor Plats, Preliminary Plats, and Final Plats.

e. The driveway and utility trench exceptions specified in Section 9-6-6(J)(1)(d) and (e) are not permitted if increased building envelopes are approved as part of a Planned Area Development with NAOS.

f. The work access area exception specified in Section 9-6-6(J)(1)(b) is permitted as part of a Planned Area Development with NAOS.

Table 11-6-6.J.2: NAOS and Building Envelope Modifications

NAOS Preserved In The Subdivision	Maximum Building Envelope Per Lot
0—10%	50—60%
10—25%	60—75%
25—35%	75—85%
35—49%	85—99%
50% and above	100% subject to envelopes or easements that may be required to preserve environmental features

Table 11-6-6.J.2: NAOS and Building Envelope Modifications	
NAOS Preserved In The Subdivision	**Maximum Building Envelope Per Lot**
Example 1: If 25% of the overall land division were preserved as NAOS, then building envelopes could be increased by 25% to a maximum of 75% per lot.	
Example 2: If 32% of the overall land division were preserved as NAOS, then building envelopes could be increased by 32% to a maximum of 82% per lot.	

3. If any part of the approved building pad is to be built above natural mean grade, the applicant shall provide a pad height certification statement that is prepared, stamped, and signed by an Arizona registered engineer or land surveyor. The pad certification statement shall be submitted prior to the approval of the footing inspection.

4. Easements for NAOS, open space, or drainage shall be provided for those lot areas with slopes of 15% or greater or natural area washes that carry significant drainage as determined by the City Engineer.

5. Where easements are provided, the balance of the lot or the "buildable area" must have a usable shape and size and provide adequate street access.

K. **Building Height/Density.**

1. Densities shall be determined by the underlying zoning district.

2. Building height shall be limited to two (2) stories or 30 feet, whichever is the less; or the maximum height permitted by the underlying zoning district.

3. Building height for flat roof buildings shall be measured as the vertical distance from the natural mean ground elevation of the lot to the top of the parapet. Building heights for all other roofs shall be measured as the vertical distance from the natural mean ground elevation of the lot to the mean height between the plate line and the ridge, excluding embellishment.

4. All buildings shall be located below the ridge line (see Figure 7).

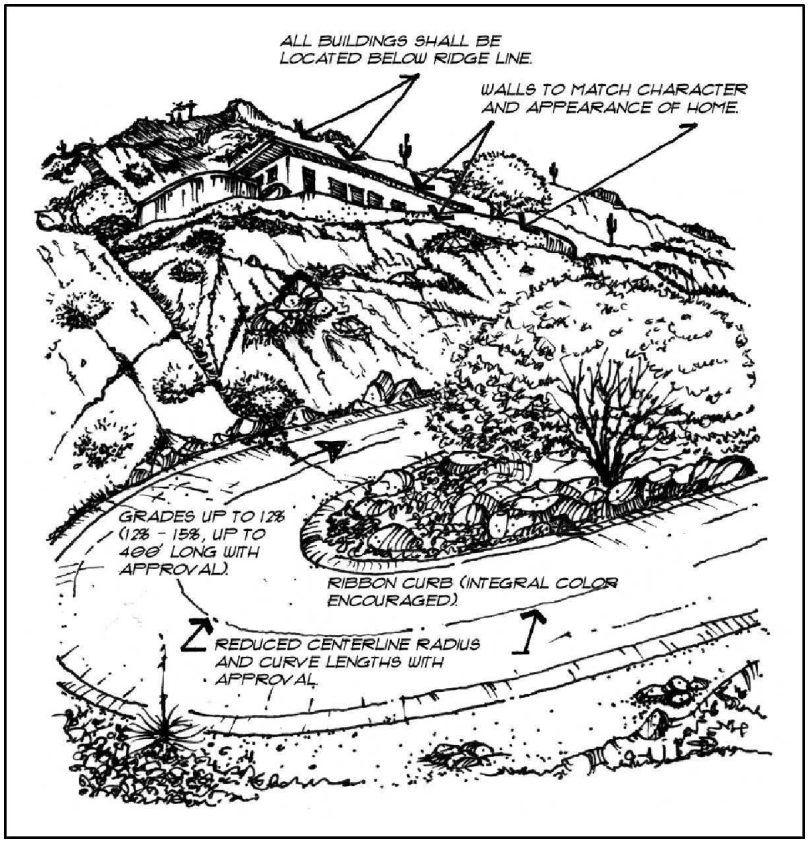

FIGURE 7: RIDGE LINE RESTRICTIONS - CURVE RADII AND LENGTH, STREET GRADES

L. **Fifteen Percent (15%) Slope/Open Space.**

1. Slopes of 15% or greater shall remain in undeveloped NAOS.
2. The open space within the lots, common open space areas with slopes of 15% or greater, or natural area washes that carry significant drainage as determined by the City Engineer shall be identified and secured by an open space and/or drainage easement and be maintained by the lot owner or homeowners' association.
3. Preserved natural washes, undisturbed NAOS, and sensitive areas as identified in approved Land Splits, Minor Plats, Preliminary Plats, Final Plats, and construction drawings are required to be fenced prior to and during construction. Fencing is to be installed and inspected prior to any site preparation, grading, plant removal, or construction. Fencing is to display signage indicating, "Protected Area - No Access."
4. Ridge lines shall remain as undeveloped NAOS.

M. **Washes/Drainage.**

1. Retained washes and new drainage channels shall maintain a "natural" desert character. Requirements include landscaping with native rock and plant materials, use of integral colored alternative material, contouring and preservation of existing natural features (see Figure 8).

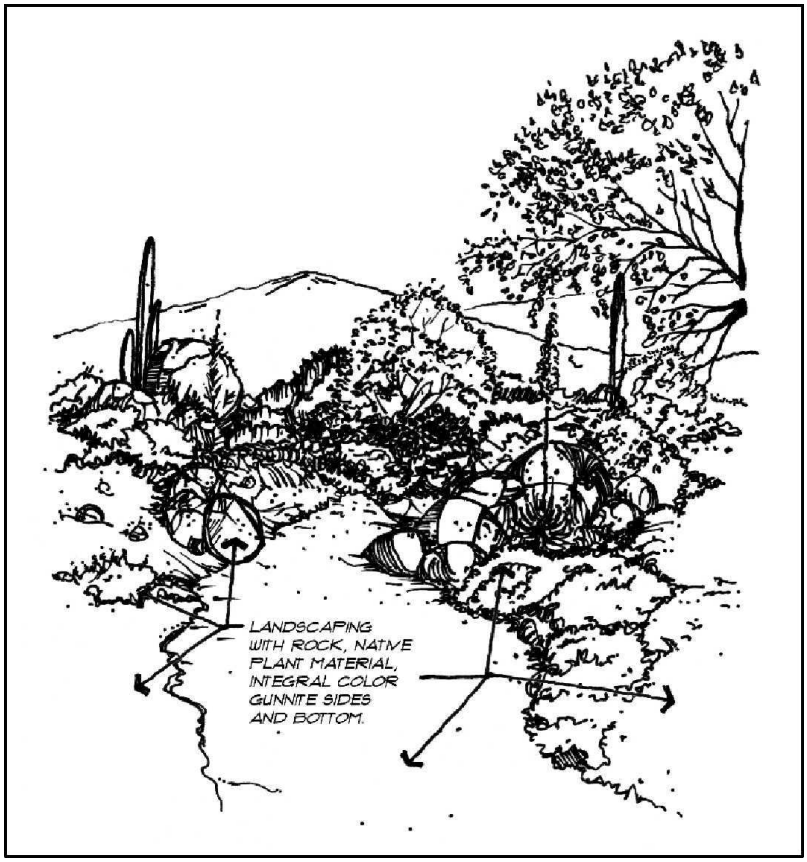

FIGURE 8: NATURAL DESERT CHARACTER FOR DRAINAGE CHANNELS

2. Man-made channels and existing natural washes conveying flows from adjacent properties shall remain separate from retention basins storing on-site drainage.

3. To preserve riparian zones, undisturbed areas shall extend, as determined by the City, beyond the banks of significant washes, including those regulated by the U.S. Army Corps of Engineers under Section 404 of the Clean Water Act.

4. Natural drainage patterns shall be maintained onto and off development sites, as determined by the City Engineer, in such a manner that existing vegetation along natural washes continues to receive runoff water. Water collection structures and retention basins shall be installed so that water from significant storm events flows into the same offsite downstream flow paths that existed prior to development, as determined by the City Engineer.

5. Storm water retention basin design layouts shall be incorporated with the overall site landscaping plan including amenities, access, and plantings. Landscaping shall be provided in all areas of the basin (slope, top, and bottom). A transitional area shall be introduced between the top of the retention basin slope and the edge of sidewalks, street curbs, parking spaces, driveways, or parking

screen walls. A variety of side slopes and contouring shall be utilized, and radii shall be varied between top and bottom of slope for a smooth transition. Incorporate major horizontal and/or vertical slope changes every 100 feet of linear slope length.

6. Where retention basins occur along arterial streets, berms shall be along 50% of the basin frontage. Berms shall be four-to-one (4:1) (horizontal-to-vertical) maximum slope, and no more than two (2) feet above adjacent street grade.

7. With approval of the City Engineer, basin side slopes which are adjacent to streets (public or private) and pedestrian walkways, may be steeper than a six-to-one (6:1) slope if a five (5) foot transition area, no steeper than a six-to-one (6:1) slope, is provided. Side slopes over five (5) feet away from the street/walkway may be permitted as steep as four-to-one (4:1).

8. Vertical walls will be considered subject to aesthetic and engineering review and may be used for up to 25% of the perimeter of the basin. Walls retaining over two (2) feet of soil require structural design. Walls with over two (2) feet of drop-off require railing. Walls retaining water require waterproof design.

9. Storm water retention basins shall be landscaped/revegetated with existing or salvage vegetation and native plant materials selected from the Preferred Desert Uplands Plant List in accordance with this Section.

10. Random-sized rock (six [6] inches and larger) may be utilized to create a natural-appearing desert wash within the basin bottom. Basins are encouraged to provide up to 25% more land area than the minimum area necessary to retain their specified volume of water in order to allow for the creation of peninsulas, more "natural" contouring, and the placement of boulders and rock outcroppings.

11. Native materials shall be utilized in the construction of headwalls, flow-retardant structures and devices, culverts, and drainage channel bottoms in the Desert Uplands Area. Headwall designs are required to blend in color, surface treatment, and shape with surrounding landscaping (see Figure 9). Headwalls shall be flared or sloped to follow the contours of the basin or channel.

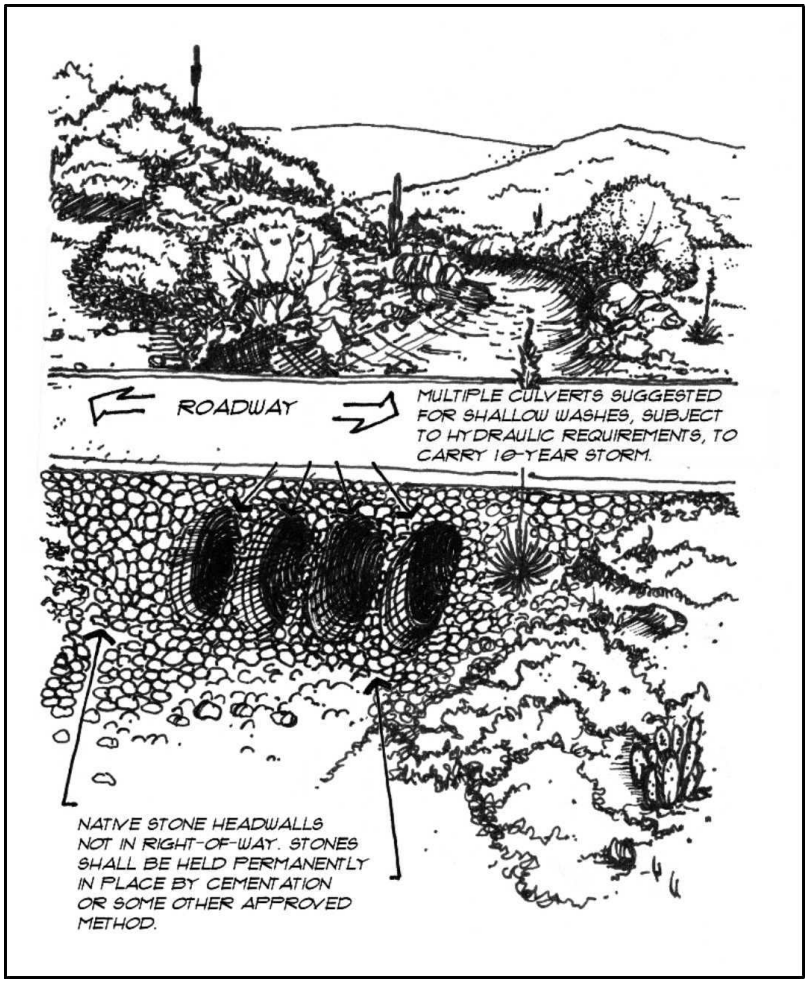

FIGURE 9: MULTIPLE CULVERTS FOR LARGER DRAINAGEWAYS

12. Safety rails shall utilize alternative designs such as wrought iron to match theme walls, boulders, and pilasters and shall be a minimum 42 inches high. Inlet/outlet grates or gates utilizing alternative designs are required on 24 inch and larger diameter pipes.

13. ***Low-Density Development Standards: One (1) Dwelling Unit Per Acre (RS-35) or Less.***

    a. Non-turfed drainage swales are encouraged in the Desert Uplands Area.

    b. Erosion protection of drainage swales will be encouraged through the use of native rocks and native plant materials. Where runoff velocities necessitate additional erosion protection, the use of integral colored gunite or alternative material may be approved by the City Engineer.

(Ord. No. 5949, § 1B., 7-1-25)

9-6-7: APPEALS OF DISCRETIONARY DECISIONS

A. **Appealable Decisions.** Discretionary decisions of the Planning Director, Development Services Director, or their designees may be appealed to the Hearing Officer by the developer or owner of the property proposed for development that is affected by the discretionary decision. Appeals are limited to discretionary decisions involving one (1) or more of the following:

1. Any requirement that exceeds or is in addition to the minimum development requirements as defined in this Chapter.

2. Any requirement not specified in the Mesa City Code or other legislative act of the City of Mesa.

3. Any requirement resulting from a discretionary act of an administrative official of the City of Mesa.

B. **Appeal Deadline.** The appeal shall be submitted within 30 days of the discretionary decision. The appellant shall submit a notice of appeal to the Development Services Department using the form provided by the City for such appeals.

C. **No Fee.** No fee is required for filing an appeal under this Section.

D. **Appeal Transmittal.** The Planning Director or Development Services Director shall transmit to the Hearing Officer all documents and records that form the basis of the discretionary decision being appealed.

E. **Hearing Scheduled.** The Hearing Officer shall schedule a time for the appeal to be heard, which shall be no later than 30 days from receipt of the appeal.

F. **Hearing Notice.** The appellant shall be given at least 10 days prior notice of the date and time set for the hearing.

G. **Hearing Officer Decision.**

1. The Hearing Officer shall decide the appeal within five (5) working days from the date the appeal hearing concludes.

2. For determination of the appeal, it shall be the responsibility of the City to establish that there is a nexus between the requirement and a legitimate governmental interest and that the requirement is roughly proportional to the impact of the proposed use, improvement, or development. If more than a single parcel is involved, this requirement applies to the entire property that is subject to the approval.

3. If the appeal is upheld, the Hearing Officer shall modify or delete the requirement. If the appeal is denied, the appellant may at any time within 30 days of the decision of the Hearing Officer file a complaint for a trial de novo in the Superior Court on the facts and the law regarding the issues of the requirement.

(Ord. No. 5949, § 1B., 7-1-25)

9-6-8: PENALTIES AND CIVIL HEARING PROCESS

A. **Criminal Penalty.** The following acts are unlawful and any person who commits any of the following acts will be charged with a Class 1 misdemeanor:

1. Recording or attempting to record a Plat, Land Split, or Affidavit of Change/Correction with the Maricopa County Recorder that does not have all required approvals from the City.

2. Developing or attempting to develop land contrary to or in violation of any provision of this Chapter or any condition or stipulation designated on an approval issued pursuant to this Chapter.

B. **Civil Penalty and Civil Hearing Process.** A violation of any provision of this Chapter, other than the acts designated as unlawful, is a civil code offense which may be adjudicated and enforced by the following civil hearing process:

1. A person issued a civil penalty pursuant to this Chapter may appeal the civil penalty by requesting a hearing within 10 days of issuance of the civil penalty. The appeal must be in writing, state the grounds for the appeal, and be sent to the Development Services Director. The failure of an appeal to meet the requirements of this Section will entitle the Development Services Director to deny the appeal without further review.

2. If an appeal meets the requirements of this Section, the Development Services Director will schedule a hearing with the Hearing Officer.

3. All proceedings before the Hearing Officer will be informal and without a jury, except that testimony must be given under oath or affirmation. The technical rules of evidence do not apply, except for statutory provisions relating to privileged communications. Prehearing discovery will not be permitted, unless the Hearing Officer determines good cause exists otherwise. The Hearing Officer is authorized to make such orders as may be necessary or appropriate to fairly and efficiently determine the truth and decide the appeal.

4. If either party to the appeal is aggrieved by the decision of the Hearing Officer, the aggrieved party may file a complaint of special action in an Arizona Superior Court with the proper jurisdiction to review the Hearing Officer's decision within 30 days after a final decision of the Hearing Officer has been rendered. Failure to bring the action within 30 days will constitute a waiver of any right to judicial review of the Hearing Officer's decision.

C. **Separate Offense.** Each day a violation of any provision of this Chapter continues will be a separate offense.

(Ord. No. 5949, §§ 1B., 2, 7-1-25)

9-6-9: DEFINITIONS

The definitions in this Section 9-6-9 apply only to Title 9 of the City Code unless expressly stated.

AFFIDAVIT OF CHANGE/CORRECTION: A document to effect a minor change or correction to a recorded plat such as lot line adjustments, lot combinations, bearing or distance changes, minor corrections to language of dedication, notes, or legal description.

ALLEY: A public or private right-of-way used to provide secondary vehicular access to abutting properties.

APPLICANT: An individual, firm, corporation, partnership, association, syndicate, trust, or other legal entity who submits an application to the City for review or approval under the provisions of Title 9 of the City Code.

A.R.S.: The Arizona Revised Statutes, as amended and supplemented.

BERM: A mound of soil, either natural or man-made.

BLOCK: A piece or parcel of land or group of lots entirely surrounded by public or private streets, streams, railroads, parks, or a combination thereof.

CHANNEL: The bed and banks of a natural or man- made stream which convey the constant or intermittent flow of the stream.

CITY ENGINEER: The person designated by the City as its City Engineer, or their designee.

CITY MANAGER: The person designated by the City as its City Manager, or their designee.

COMMON OPEN SPACE: Land within or related to a development, not individually owned or dedicated for public use, which is designed and intended for the common use or enjoyment of the residents of the development. It may include complementary structures and improvements.

DEDICATION: the transfer of private property to the city for public use.

DENSITY: The number of dwelling units per unit of land area.

DESERT UPLANDS AREA: The area of Mesa, Arizona that is bounded by the Central Arizona Project Canal on the west, Meridian Road and Usery Mountain Regional Park on the east, University Drive on the south, and the Tonto National Forest boundary on the north.

DEVELOPER: An individual, firm, corporation, partnership, association, syndicate, trust, or other legal entity that initiates and carries out the division, construction, or improvement of land, including the installation of infrastructure, buildings, or other site improvements, whether for personal use or for sale, lease, or other disposition.

DRAINAGE, ONE HUNDRED- (100-) YEAR STORM (PEAK DISCHARGE): Local drainage resulting from a storm which has a 1% chance of occurring annually, based upon a "design storm" within a defined area. A design storm is a rainfall event of specific frequency and duration which produces the design flow.

For the purpose of this definition, local drainage is water that accumulates as a result of local storms and flows over land not included in a delineated floodplain, including sheet flow and such flow as may be concentrated in local drainage systems, with or without defined channels, but excluding delineated floodplains.

EASEMENT RELATED DEFINITIONS:

EASEMENT: A grant by the owner of any parcel of land to a public agency, a corporation, or persons for specific uses and purposes and so designated and recorded.

EASEMENT, DRAINAGE: An area designed and used for conveyance or retention of runoff in which nothing can be placed which will impede, divert, or cause the runoff to have an adverse effect on adjoining property.

PUBLIC UTILITY AND FACILITIES EASEMENT: An easement for overhead and underground utility facilities provided, including water, storm drainage, sewage, electricity and communication, owned and operated by any person, firm, corporation, municipal department, or board duly authorized by state or municipal regulations

ELECTRIC SERVICE AREA: The area of Mesa, Arizona that receives electric utility service from the City of Mesa, commonly referred to as the City of Mesa Electric Service Area.

ENGINEERING PLANS: Plans, profiles, cross sections, and other required details for the construction of public improvements, prepared by a civil engineer registered in the State of Arizona, in accordance with the approved preliminary plat and in compliance with standards of design and construction approved by the City Engineering Department.

ENGINEERING AND DESIGN STANDARDS MANUAL: Requirements formulated by the City Engineer and available from the Engineering and Development Services Departments for the planning and design of public improvements.

EXCEPTION: Any parcel of land within the boundaries of the subdivision which is not owned by the subdivider.

EXPOSED FILL: All of the face of a fill slope resulting from development, from the toe to the top of the fill, whether the surface treatment is retaining wall, rip-rap, natural vegetation, or other treatment.

FILL: The deposit of soil, rock, or other material placed by man.

FLOOD RELATED DEFINITIONS:

FLOOD: A general and temporary overflow of water onto normally dry land areas.

FLOOD, REGULATORY: The 100-year flood as determined by criteria established by the City Engineering Department.

FLOOD, FIFTY- (50-) YEAR: A flood that has a 2% chance of occurring annually, based upon the criteria established by the City Engineering Department.

FLOOD, ONE HUNDRED- (100-) YEAR: A flood that has a 1% chance of occurring annually, based upon the criteria established by the City Engineering Department.

FLOODPLAIN, DELINEATED: That area delineated and mapped as a floodplain, as approved by the Planning & Zoning Board and as shown on the National Flood Insurance Program, flood insurance rate maps, and floodway maps.

FLOODPLAIN, REGULATORY: That portion of the natural water course that would be inundated by the regulatory flood and in which land use is regulated by the Floodplain Regulations.

FULL CUTOFF STREETLIGHT FIXTURE: Streetlight fixtures where no light is emitted by the fixture above an angle of 90 degrees above nadir (no light emitted above the horizontal).

GENERAL PLAN: A comprehensive plan, or parts thereof, providing for the future growth and improvement of the City of Mesa, including the general location and coordination of streets and highways, schools and recreation areas, public building sites, and other physical development, including general land use patterns.

GRADE: The vertical difference (in feet) between two (2) points on the ground divided by the length of horizontal distance (in feet) between the same two (2) points, multiplied by 100. (Example: 2'/100 = .02 × 100 = 2% grade.)

GRADING: Any excavating, filling, or combination thereof, including the conditions resulting from any excavation or fill, involving changes to the natural drainage pattern.

GUNITE: Concrete or mortar conveyed through a hose and pneumatically projected at a high velocity onto a surface.

HEARING OFFICER: The City staff person responsible for hearing appeals under this Chapter, or other such individual contracted with the City to hear appeals under this Chapter.

HIGHWAY: Includes any expressway, freeway, or parkway.

IRRIGATION FACILITIES: Includes canals, laterals, ditches, conduits, pipes, gates, pumps, and allied equipment necessary for the supply, delivery, and drainage of irrigation water and the construction, operation, and maintenance of such.

LAND DIVISION RELATED DEFINITIONS:

LAND DIVISION: The act or process of dividing a parcel, lot, or tract of land into two or more parts for the purpose of sale, lease, transfer of ownership, or development, whether immediate or future. A land division may include the subdivision of land into lots or parcels, the creation of easements that affect property boundaries, or the adjustment of existing lot lines.

LAND DIVISION, MINOR: The land division process for Minor Plats and Land Splits.

LAND DIVISION, MAJOR: The land division process for Preliminary Plats, Final Plats, and Maps of Dedication.

LAND SPLIT: The division of improved or unimproved land whose area is 2.5 acres or less into two (2) or three (3) tracts or parcels of land for the purpose of sale or lease.

LED: Light Emitting Diode.

LOOP ROAD: A local or minor collector street that begins and ends on the same roadway or within the same development, forming a continuous loop. A loop road provides internal circulation while limiting through traffic. It may connect to the same or different points on a perimeter street but does not function as a through- arterial.

LOT RELATED DEFINITIONS:

LOT: A piece or parcel of land separated from other pieces or parcels by description, as in a subdivision, or on a record survey map or by metes and bounds for purposes of sale, lease, or separate use.

LOT COMBINATION. The merger of two (2) or more adjacent lots, tracts, or parcels of land into s single, unified lot, tract, or parcel for the purpose of development, sale, or lease.

LOT, CORNER: A lot or parcel of land situated at the intersection of two (2) or more parkways, highways or streets, which parkways, highways or streets have an angle of intersection measured within said lot or parcel of land of not more than 135 degrees.

LOT LENGTH:

A. If the side property lines are parallel, the length of the lot shall be determined to be the average length of the two (2) sides.

B. If the side property lines are not parallel, then a line bisecting the angle formed by the two (2) sides between the front and the rear lot lines shall be determined to be the lot length.

LOT LINE ADJUSTMENT. Process by which land is taken from one (1) parcel and added to an adjacent parcel without creating a new lot.

LOT LINE, FRONT: A line separating the front yard from the parkway, highway or street upon which the yard fronts; or, in the case of a flag lot where the front yard is oriented toward an adjoining lot, the line separating such front yard from the adjoining lot.

LOT LINE, REAR: A lot line which is opposite and most distant from the front lot line. For a triangular shaped lot, the rear lot line shall mean a line ten (10) feet to the length within the lot, which is parallel to the front lot line, or parallel to the chord of a curved front lot line, and the maximum distance from the front lot line.

LOT LINE, SIDE: Any lot boundary line which is not a front lot line or a rear lot line.

LOT LINES: Those lines, either straight or curved, that define the front, rear, and sides of a lot, parcel, or tract of land.

LOT WIDTH: The width of a lot shall be:

A. If the side property lines are parallel, the distance between these side lines.

B. If the side property lines are not parallel, the width of the lot shall be the length of a line at right angles to the axis of the lot at a distance equal to the required front or rear building setback line, whichever is the lesser. The axis of a lot shall be a line generally perpendicular to the fronting street which divides the lot into two (2) equal parts.

MAP OF DEDICATION: A legal document that sets the location and gives the dimensions of rights-of-way and easements. Used to dedicate land to the City of Mesa or to grant an easement to the city for roadway, drainage, flood control, wet or dry utilities, emergency or service vehicle access, other public uses or the granting of an easement for a utility line.

NATURAL AREA OPEN SPACE (NAOS): Within the Desert Uplands Area, that open space which consists of undisturbed natural area open space and revegetated open space. NAOS shall contain no more than thirty percent (30%) revegetated open space. NAOS shall be located within common tracts controlled by the homeowners' association, land trust, or similar entity created to preserve the NAOS; or may be located on- lot within designated easements. NAOS shall be identified on the subdivision plat and restricted as necessary to preclude future development. Trails or paths for nonmotorized use, such as hiking, equestrian, or mountain biking are permitted.

OPEN SPACE: The area or areas of a lot or parcel intended to provide light and air, and designed for either scenic or recreational purposes, excluding buildings, parking, driveways and other vehicular surfaces.

OWNER: The person or persons holding title by deed to land, holding title as vendees under land contract, or holding any other title of record.

PARK: An area dedicated to recreational use and generally characterized by its natural, historic, and landscape features. It is used for both passive and active forms of recreation and is designed to serve the residents and visitors of a neighborhood, community, or city.

PEAK: A point of maximum elevation on a major or minor hill as indicated by the USGS topographic maps.

PEDESTRIAN/BICYCLE WAY: A public way dedicated entirely through a block from street to street and/or providing access to a school, park, recreation area, shopping center, etc. and which excludes vehicles or other motorized transportation.

PLANNED AREA DEVELOPMENT (PAD): A zoning overlay and development process that allows for flexibility in the application of zoning standards—such as setbacks, height, and lot size—in order to accommodate innovative design, mixed-use development, and coordinated master planning of larger or more complex sites.

PLANNING DIRECTOR: The person designated by the City as its Planning Director, or their designee.

PLANNING & ZONING BOARD: The Planning and Zoning Board of the City of Mesa.

PLAT RELATED DEFINITIONS:

PLAT: A map of a land division.

PLAT, AMENDED: See Replat.

PLAT, MINOR: The division of land that creates ten (10) or fewer lots, tracts, or parcels of land.

PLAT, PRELIMINARY: A preliminary map, including supporting data, indicating a proposed land division, prepared in accordance with these regulations.

PLAT, FINAL: A final map of all or part of a land division providing substantial conformance to an approved preliminary plat, prepared by a registered land surveyor in accordance with these regulations.

PLAT, RECORDED: A plat bearing all of the certificates of approval required by and duly recorded in the Maricopa County Recorder's Office.

PLAT, REPLAT: An amendment to a recorded plat to: modify the number or location of lots, tracts, or easements; adjust lot lines; change roadway alignments; or provide for modifications to dedicated easements, rights-of-way, or tracts.

PRE-SUBMITTAL CONFERENCE: A meeting between the applicant and City staff held prior to the formal submission of a development application. The purpose of the conference is to review preliminary project concepts, identify applicable regulations, procedures, and submittal requirements, and provide initial feedback to help ensure a complete and efficient application review process.

PUBLIC IMPROVEMENT STANDARDS: A set of regulations setting forth the details, specifications, instructions, and procedures to be followed in the planning, design, and construction of certain public improvements in the City of Mesa, formulated by the City Engineer, the County Health Department, and other City departments.

RECREATIONAL VEHICLE PARK: An approved residential development, designed in accordance with the zoning ordinance, that is owned by one entity as shown in the records of the Planning Division in which individual spaces are provided for parking of one recreational vehicle per space for temporary portable housing purposes, whether or not a charge is made for such accommodation.

RECREATIONAL VEHICLE SUBDIVISION: An approved residential subdivision, as shown in the records of the Maricopa County Recorder's office, in which individual ownership of a recreational vehicle lot is permitted, that is designed in accordance with the Zoning Ordinance and approved in accordance with planned area development and subdivision regulations.

RETAINING WALL: A wall or terraced combination of walls used solely to retain more than 18 inches of earth, but not to support or to provide footing for a structure.

RETENTION BASIN: A water collection facility designed to collect storm water runoff and release it at a controlled rate after the storm. A retention basin and park may be joined to serve both recreational needs and as a water collection facility.

REVEGETATED OPEN SPACE: Within the Desert Uplands Area, open space disturbed either before or during development that has been revegetated in the following manner: revegetated with plants from the preferred Desert Uplands plant list; revegetated with plants that are the same species mix as the adjacent undisturbed area; and revegetated with plants that are at least equal in size and sufficient in number to be at least the same density as the adjacent undisturbed area. The developer should create provisions for maintaining healthy plants until they are established and shall replace any revegetated plants that die within one (1) year of planting. Subdivision improvements such as storm water retention and detention basins, drainage structures, and utility corridors, may be included in this category if revegetated in the approved manner. Excluded from the revegetated open space are those areas revegetated for the utility exception Section 9-6- 5(J)1(e), driveway exception Section 9-6-5(J)1(d), and the work access areas Section 9-6-5(J)1(b).

REVERSE FRONTAGE: A lot having frontage on two (2) nonintersecting streets. The front of the lot shall be considered facing the interior street.

RIDGE: The defined topographical line connecting a series of major and minor hills, peaks, or mountains.

RIDGE LINE: A ground line located at the highest elevation of the ridge running parallel to the long axis of the ridge.

RIGHT-OF-WAY (ROW): An area of land which by deed, conveyance, agreement, easement, dedication, usage or process of law is reserved or dedicated to the City for purposes, including streets, highways, alleys, public utilities, pedestrian walkways, bikeways, or drainage. Within rights-of-way, the City of Mesa coordinates the locations of public or private improvements, underground or overhead; including electricity, gas, steam, communication, telecommunications, data transmission, cable TV, water, storm drainage, sewage, sidewalks, landscaping, traffic signals, streetlights, flood control, pedestrian, roadway purposes, etc. owned and operated by any person, firm, company, corporation, municipal department, or board duly authorized by federal, state or municipal regulations.

RIGHT-OF-WAY IMPROVEMENTS: Construction in the public right-of-way or in easements, including streets, alleys, medians, bicycle lanes, curbs and gutters, stormwater facilities, water and sewer lines and services, fire hydrants, gas lines and services, sidewalks, driveways, streetlights, traffic control devices, street name signs, landscaping, underground and overhead utilities as required by the City Engineer. Right-of-way improvements do not include right-of-way land dedications.

SLOPE: See Grade.

STORM WATER RETENTION: Provision for storage of storm water runoff during and after a flood or storm and the controlled release of such runoff after a flood or storm.

STREET RELATED DEFINITIONS:

STREET: Any public street, avenue, boulevard, road, lane, parkway, place, viaduct, easement for access, or other way which is an existing state, county, or municipal roadway; or a street or way shown in a plat heretofore approved pursuant to law or approved by official action; or a street or way in a plat duly filed and recorded in the County Recorder's Office. A street includes the land between the right-of-way lines, whether improved or unimproved, and may be comprised of pavement shoulders, curbs, gutter, sidewalks, parking areas, and landscape areas.

STREET, ARTERIAL: A general term including section line and major streets and state or county highways providing a system for citywide through traffic movement.

STREET, COLLECTOR: Provides the traffic movement within neighborhoods of the City, between major streets and local streets, and for direct access to abutting property.

STREET, CUL-DE-SAC: A short local street permanently terminated in a vehicular turnaround; provides direct access to a limited number of adjacent properties.

STREET, LOCAL: Provides for direct access to residential, commercial, industrial, or other abutting land; primarily for local traffic movements with connections to collector and/or major streets.

STREETLIGHT LUMEN LEVEL: Standard lumen lighting levels of a streetlight required by Roadway Lighting ANSI/IES RP-8.

SUBDIVIDER: An individual, firm, corporation, partnership, association, syndicate, trust, or other legal entity that files the application and initiates the division of land pursuant to these regulation. The subdivider is not required to be the owner of the property as defined by this Ordinance.

SUBDIVISION: Improved or unimproved land or lands divided or proposed to be divided for the purpose of financing, sale, or lease, whether immediate or future, into four (4) or more lots, tracts, or parcels of land; or if a new street is involved, any such property which is divided into two (2) or more lots, tracts, or parcels of land; or any such property, the boundaries of which have been fixed by a recorded plat, which is divided into more than two (2) parts.

Subdivision also includes any condominium, cooperative, community apartment, townhouse, or similar project containing four (4) or more parcels, in which an undivided interest in the land is coupled with the right of exclusive occupancy of any unit located thereon; however, plats of such projects need not show the buildings or the manner in which the buildings or airspace above the property shown on the plat are to be divided.

SURVEY CLOSURE REPORT: A technical report prepared and certified by a registered land surveyor that verifies the accuracy and completeness of a legal description by confirming that all boundary segments mathematically close to form a single, contiguous parcel.

SURVEY MONUMENT: A physical marker established by a land surveyor to accurately identify a point on the ground that corresponds to a legal boundary, property corner, control point, or other survey reference.

TRANSPORTATION DIRECTOR: The person designated by the City as its Transportation Director, or their designee.

UNDISTURBED NATURAL AREA OPEN SPACE: Within the Desert Uplands Area, that open space that is completely undisturbed from its original natural state by any residential development on the site. Any preexisting

damage within such areas, such as old jeep roads, off-road vehicle trails, or dumping sites, shall be restored with plants from the preferred desert uplands plant list that are the same species mix, that are at least equal in size, and that are sufficient in number to be the same density as the adjacent undisturbed area. Natural features, such as washes, significant rock outcroppings, and concentrations of native vegetation, shall be maintained in their natural state. Trails or paths for nonmotorized use, such as hiking, equestrian, or mountain biking, are permitted. Undisturbed natural areas shall constitute a minimum of seventy percent (70%) of the required natural area open space. This minimum applies to both common tract and on-lot natural area open space.
(Ord. No. 5949, § 1B., 7-1-25)

CHAPTER 7

COMMUNITY ANTENNA TELEVISION SYSTEMS*

9-7-1: PURPOSE

The purposes of this Chapter are to comply with the requirements of Arizona Revised Statutes Title 9, Chapter 13, to set forth regulations for the application by video service providers for uniform video services licenses for the provision of video service and other authorized services in the city, to provide for issuance of uniform video services licenses in accordance with law, to provide for imposition of non-discriminatory license fees, and to otherwise carry out the mandates of Arizona Revised Statutes Title 9, Chapter 13.
(Ord. No. 5542, § 1, 12-9-19)

9-7-2: DEFINITIONS

The definitions set forth in A.R.S. Section 9-1401 shall apply to this Chapter.
(Ord. No. 5542, § 1, 12-9-19)

9-7-3: UNLAWFUL ACTS; VIOLATION

A. It is unlawful for any video service provider to construct, operate, or maintain a video service network within the boundaries of the City without a valid local license issued in compliance with this Chapter.

B. It is unlawful for any person to make any unauthorized connections, whether physically, electrically, acoustically, inductively or otherwise, with any part of a licensed video service network within the City for the purpose of enabling himself or herself or others to receive any video service without the permission of the video service provider to whom a local license has been issued.

C. It shall be unlawful for any person, without the consent of a licensee, to willfully tamper with, remove or damage any equipment associated with a video service network of a video service provider.

D. A violation of any part of this Chapter by any person or a video service provider shall be punishable as a Class 1 Misdemeanor.

(Ord. No. 5542, § 1, 12-9-19)

9-7-4: APPLICATION AND ISSUANCE

A. Prior to the commencement of any construction or expansion of a video service network or the provision of any video service, a video service provider shall file with the City Clerk an application and an affidavit in a form provided by the City Clerk. The application shall include the following:

1. The name of the video service provider, its type of entity and its jurisdiction of formation.

2. The address and telephone number of the video service provider's principal place of business.

***Editor's note—**Ord. No. 5542, § 1, adopted December 9, 2019, repealed the former Ch. 7, §§ 9-7-1—9-7-24, and enacted a new Ch. 7 as set out herein. The former Ch. 7 pertained to similar subject matter and derived from Ord. Nos. 972, 1220, 1947, 2273, 2466, 4110.

3. The name and address of the video service provider's principal executive officers or general partners and any persons authorized to represent the video service provider before the local government.

4. If the video service provider is not an incumbent cable operator, the date on which the provider expects to provide video services in the area identified under Paragraph 5 of this Section.

5. An exact description of the service area to be served, as identified by a geographic information system digital boundary that meets or exceeds National Map accuracy standards.

6. A requirement that the video service provider pay the license fees required under this chapter and all other lawful fees and charges imposed by the City.

7. A requirement that the video service provider file in a timely manner with the Federal Communications Commission all forms required by that agency before offering video service in the service area, including the forms required by 47 Code of Federal Regulations Section 76.1801.

8. A requirement that the video service provider agrees to comply with and be subject to all valid and enforceable federal and state laws.

9. A requirement that the video service provider agrees to comply with all generally applicable, nondiscriminatory City laws, including highway use, mapping, insurance, performance bonds, security fund, indemnification or similar requirements that apply to the use and occupation of any highway and that conform to Arizona Revised Statutes, Title 9, Chapter 13.

10. A requirement that the video service provider comply with the public, education and government programming requirements of Arizona Revised Statutes, Title 9, Chapter 13.

11. A requirement that the video service provider comply with all customer service rules of the Federal Communications Commission under 47 Code of Federal Regulations Section 76.309(c) applicable to cable operators.

12. A requirement that the video service provider comply with the consumer privacy requirements of 47 United States Code Section 551 applicable to cable operators.

13. A grant of authority by the city to provide video service in the service area as described under Paragraph 5 of this Section.

14. A grant of authority by city to use and occupy the highways in the delivery of the video service, subject to the laws of this State and the police powers of the City.

15. The term of the uniform video service license.

16. A requirement that the parties to the agreement are subject to and must comply with Arizona Revised Statutes, Title 9, Chapter 13.

C. The application shall be accompanied by an affidavit signed by one of the principal executive officers or general partners of the applicant that the information set forth in the application are true and accurate.

D. The application and affidavit shall be submitted to the City Clerk, who shall forward the application and affidavit to the Right-of-Way Manager for review.

E. If the Right-of-Way Manager determines that the application and affidavit are incomplete or otherwise deficient, written notice shall be given to the applicant not later than fifteen days after the date of filing of the application and affidavit. The written notice shall:

1. Explain the incompleteness or deficiency in detail.

2. Specify the information or other items that are necessary for property completion of the application and affidavit.

F. The uniform video services licenses shall be issued within thirty days from the date a complete application was filed with the City Clerk. The term of a uniform video services license shall not exceed ten years.

G. If written notice of an incomplete or deficient application and affidavit is not given within fifteen days after the date of filing, or if the uniform video services licenses is not issued within thirty days from the date a complete application has been submitted, application and affidavit shall be deemed complete and issued to the applicant.

H. No fees shall be charged for filing or processing an application, affidavit, notice or other document related to the related to the issuance of the uniform video services licenses.

I. Amendments to a uniform video services license to add service areas shall be processed in the same manner as the original uniform video services licenses.

J. The term of a uniform video services license may be extended by the holder of a video service license filing with the City Clerk a notice to extend the term for a specified period not to exceed ten years. The notice shall be filed at least one month before the end of the term of the uniform video services license.

K. A uniform video service license does not authorize the use of or attachment by a video service provider to a utility or other pole owned by the City or other person. Any such use or attachment must first be approved in a separate contract with the City.

(Ord. No. 5542, § 1, 12-9-19)

9-7-5: AUTHORITY GRANTED

A. A uniform video services license granted by the City shall authorize the video service provider to:

1. Provide video service in the City in the service area designated in the application and affidavit during the term of the uniform video services license.

2. Construct and operate a video service network in the highways in each service area, in compliance with the uniform video services license and City laws.

3. Operate and maintain facilities installed in the highways in the service area pursuant to A.R.S. § 9-506, Subsections (I) and (J), A.R.S. Section 9-584, and Arizona Revised Statutes Title 9, Chapter 5, Article 8.

(Ord. No. 5542, § 1, 12-9-19)

9-7-6: UNDERGROUNDING OF FACILITIES

A. A video service provider shall not erect new poles for overhead facilities, and a video service provider's new cable, wires and other equipment shall be placed underground. If, at a future date, city requires for all or

any portion of the City, that all utilities (except 69kv power lines or larger) be placed underground, then such requirements shall also apply to video service providers. The City shall not be responsible for any costs incurred by the video service provider in placing the video service provider's facilities underground.

B. In all new developments, all transmission and distribution facilities shall be installed underground. Where a developer provides a trench for undergrounding in a new development, the developer must allow the video service provider to utilize this trench and provide backfill under the same conditions as are extended to other trench users. Cable television shall utilize common or joint trench with telephone and/or utilities for undergrounding where a developer provides a trench for undergrounding by negotiating a joint trench agreement with those entities.

C. Developers and video service providers shall place all cable and appurtenances underground. Existing technology may preclude the placing of some appurtenances underground; any such appurtenances placed above ground shall be located so as to be as unobtrusive as possible, consistent with City Engineering and Design Standards. As new technology and economic feasibility allow, appurtenances associated with future lines shall be placed underground.

(Ord. No. 5542, § 1, 12-9-19)

9-7-7: LIMITATIONS OF LICENSE

A. A uniform video services license granted under this Chapter shall be nonexclusive.

B. Any privilege claimed under a uniform video services license by the video service provider in any highway shall be subordinate to any lawful occupancy or use thereof by the City and shall be subordinate to any prior easements, prior licenses to use the highways, and any other private property rights that may be superior to the uniform video services license issued.

C. A video service provider shall be subject to all requirements of the City's rules, regulations and specifications, whether existing or hereafter enacted or established pursuant to the City's police powers and taxing authority, and also shall comply with all applicable state and federal laws and regulations, whether existing or hereafter enacted or established.

D. The granting of uniform video services license shall not relieve the video service provider of any obligation involved in obtaining pole space from any department of the City, utility company, or from others lawfully maintaining poles in highway.

E. The granting of a uniform video services license does not relieve licensee of compliance with City Code provisions governing construction, work, or use of the highways. There is hereby reserved to the City the power to amend any section of the City Code related to construction in highways pursuant to its police powers.

(Ord. No. 5542, § 1, 12-9-19)

9-7-8: OBLIGATIONS UPON EXPIRATION

A video service provider may terminate a uniform video service license by filing a written notice of termination with the City Clerk. Such notice shall be filed at least ninety days before termination of service. The notice shall also be sent to all subscribers within the affected service area at least ninety (90) days prior to termination of service.

(Ord. No. 5542, § 1, 12-9-19)

9-7-9: CONSTRUCTION IN THE HIGHWAYS

A. Video service providers and their subcontractors shall comply with: (i) the requirements of this Chapter and Title, Chapter 1 of the Mesa City Code; (ii) construction standards of the Federal Communications Commission (FCC) Rules and Regulations, Part 76 Subpart K (Technical Standards), as amended from time to time; and (iii) detailed standards and plans submitted by the video service provider as part of any application or permit submitted to the City.

B. Video service providers shall at their expense, protect, support, disconnect, relocate, or remove any of their property when required by the City by reason of traffic conditions; public safety; street or alley vacation; freeway or street construction or repair; change or establish of street grade; installation of sewers, drains, water pipes, power lines, signal lines, transportation facilities tracks, or any other type of structure or improvements performed as part of a city improvement project. The City may disconnect, remove or relocate any of a video service provider's facilities, which have not been disconnected, removed or relocated within a reasonable period of time after a request from the city and the video service provider shall reimburse the city for its actual cost in disconnecting, removing, or relocating the video service provider's facilities, except where otherwise prohibited by state or federal law, the entire cost of the installation, construction, operation, or removal of such facilities shall be borne by the video service provider.

(Ord. No. 5542, § 1, 12-9-19)

9-7-10: SYSTEM CONSTRUCTION AND MAINTENANCE

A. A video service provider proceeding with reconstruction of an existing video service network shall establish and file with the Right-of-Way Manager a construction plan, including maps showing construction locations, and a timetable for buildout and activation of cable lines.

B. All cable, equipment, and connections in, over, under, and upon the streets and public ways in the City, wherever situated or located, shall at all times be maintained in a safe and suitable condition and in good order and repair.

C. Any and all streets and public ways which are disturbed or damaged during the construction, operation, maintenance, or reconstruction shall be promptly repaired by the video service provider at its expense and to their original condition, or as otherwise specified by permit or City Engineering and Design Standards.

D. In the event a video service provider neglects or fails to cause any work or other act required by law to be properly completed in, on, over, or under any street or other public place within any time prescribed therefor or upon notice given when no time is prescribed, the City Engineer may cause such work or other activity to be completed in whole or in part to his or her satisfaction, and upon so doing, shall submit to video service provider an itemized statement of the cost thereof. The video service provider shall, upon thirty (30) days after receipt of such statement, pay to the City the entire amount thereof.

E. A video service provider shall arrange its lines, cables, and other appurtenances, on both public and private property, in such a manner as to cause no unreasonable physical interference with the use of the public or private property by any person. In the event of such physical interference, the Right-of-Way Manager may require the removal of video service provider's lines, cables, and appurtenances.

F. A video service provider or its designated contractors or subcontractors, when constructing or installing cable equipment of any kind in public right-of-way and/or easements on private property, shall fully and completely restore any and all such property to its original condition.

G. A video service provider shall construct, install, and maintain its video service network in an orderly and workmanlike manner. The safety of the general public, the video service provider's employees, the employees of utilities, and all other property affected by the such construction shall be the primary objective whenever or wherever a video service provider operates or locates equipment.

(Ord. No. 5542, § 1, 12-9-19)

9-7-11: REVOCATION FOR NON-USE OF UNIFORM VIDEO SERVICE LICENSE

A video service provider shall provide video service to at least one subscriber within each service area authorized by a uniform video service license within twenty-four months after the date the uniform video service license is issued. If the video service provider fails to comply with this section, the City may revoke the uniform video service license.

(Ord. No. 5542, § 1, 12-9-19)

9-7-12: REPORTS

A video service provider shall file all reports required by and in compliance with A.R.S. § 9-1432. The reports shall be filed with the City Clerk. All such reports shall be confidential pursuant to A.R.S. § 9-1432 unless the video service provider has consented in writing to the disclosure.

(Ord. No. 5542, § 1, 12-9-19)

9-7-13: LICENSE FEE ON GROSS REVENUE; TRANSACTION PRIVILEGE TAXES

A. A video service provider shall pay to the City a license fee as a percentage of gross revenues for the use of the highways to provide video service within its service area. The license fee shall be paid quarterly on or before the twentieth day of the month following the quarter end, and becomes delinquent on the last business day of that month. If such payment is not made by the next to the last business day of the following month, the City will impose interest at a rate of one and one-half percent per month commencing from the date payment should have been made, unless the payment is subject to a bona fide dispute, and continuing until the payment is made. Fractions of a month shall be considered to constitute a full month for the purpose of computing interest. Any offset of fees and costs against the license fee and transactional privilege taxes permitted under state or federal law shall be itemized with each quarterly payment.

B. The total of the rates of the license fee and the transaction privilege taxes imposed shall be five percent of gross revenues, and such license fee shall be imposed equally and uniformly on all video service providers and holdover cable operators.

C. Except as otherwise provided by federal law, if a video service provider offers video service bundled with other services that are not video service for a single discounted price, all of the following apply:

1. The method that the video service provider uses to determine gross revenue subject to license fees by allocating the single discounted price among the bundle of video service and nonvideo services shall be reasonable and supported by the video service provider's books and records.

2. For the purpose of meeting the video service provider's burden of proof, the video service provider shall use an objective and verifiable method of calculating the license fee using the books and records that the video service provider kept in the regular course of business for other purposes, including nontax purposes.

3. A video service provider may not use bundled offerings as a means to evade paying license fees.

(Ord. No. 5542, § 1, 12-9-19)

9-7-14: PUBLIC, EDUCATIONAL, AND GOVERNMENTAL ACCESS PROGRAMMING

A. If permissible under state and federal law, all video service providers shall provide at no initial or recurring charge the basic service tier of video service to one outlet and one receiving device at each building occupied by the City that is not more than two hundred feet from the nearest technically and commercially feasible point of connection on the video service network. The City shall designate the building in writing to the video service provider.

B. A video service provider shall provide channel capacity to transmit programming over which the video service provider exercises no editorial control except as authorized by 47 United States Code Section 531I. At the City's election, the channel capacity shall be limited to one of the following:

1. Not more than two channels of public, educational or governmental access programming in the basic service tier of the video service network and not more than two channels of noncommercial governmental programming, at least one of which may be programmed by the Federal Government, in the digital programming tier of the video service network; or

2. Not more than two lines of access programming with each line of programming carried on up to two standard definition channels and two switched digital high-definition channels.

C. Unless specifically preempted by state or federal law, none of the annual fair market value of any channel capacity provided pursuant to paragraph b above may be offset against the license fee set forth in Section 9-7-13.

D. A video service provider shall regularly display an unobtrusive logo or other suitable identifier of the video service provider on public, educational of governmental access channels.

E. A video service provider shall pay all costs and expenses to provide, maintain and operate facilities and equipment of the video service network, including facilities and equipment for signal carriage, processing, reformatting and interconnection for all of the following: (i) to connect the video service network or cable system, as it may be relocated from time to time, to transmit programming to and from existing locations of public, educational or governmental access facilities and to allow monitoring of access programming at the facilities, and (ii) to transmit public, educational and governmental access channels to subscribers with the same prevailing quality, functionality and identification as other channels.

(Ord. No. 5542, § 1, 12-9-19)

9-7-15: INDEMNIFICATION

A. Disclaimer of liability: The City shall not at any time be required to pay from its own funds for injury or damage occurring to any person or property from any cause whatsoever arising out of a video service provider's construction, reconstruction, maintenance, repair, use, operation, condition or dismantling of its video service network or delivery of service.

B. Except where the City and any of its associated, affiliated, allied and subsidiary entities, now existing or hereinafter created, and their respective officers, boards, commissions, employees, agents, attorneys, and contractors (hereinafter referred to as "indemnitees") are solely and grossly negligent, a video service provider shall, at its sole cost and expense, indemnify, defend and hold harmless from and against:

1. Any and all liabilities, obligations, damages, penalties, claims, liens, costs, charges, losses and expenses (including, without limitation, reasonable fees and expenses of attorneys, expert witnesses and consultants), which may be imposed upon, incurred by or be asserted against the indemnitees by reason of: Any act or omission of the video service provider, its personnel, employees, agents, contractors or subcontractors, resulting in economic harm, personal injury, bodily injury, sickness, disease or death to any person or damage to, loss of or destruction of tangible or intangible property, libel, slander, invasion of privacy and unauthorized use of any trademark, trade name, copyright, patent, service mark or any other right of any person, firm or corporation, which may arise in whole or in part out of or be in any way connected with the video service provider's construction, reconstruction, installation, operation, maintenance or condition of the video service network and any other facilities authorized by or permitted under a video service license (including those arising in whole or in part from any matter contained in or resulting from the transmission of programming over the video service network, but excluding any programming provided by indemnitees which is transmitted over the video service network); the provision of video services or other services authorized by or permitted due to the issuance of a video service license; the release of hazardous substances, or; the failure to comply with any federal, state or local statute, ordinance or regulation.

2. Any and all liabilities, obligations, damages, penalties, claims, liens, costs, charges, losses and expenses (including, without limitation, reasonable fees and expenses of attorneys, expert witnesses and other consultants), which are imposed upon, incurred by or asserted against the indemnitees by reason of any claim or lien arising in whole or in part out of work, labor, materials or supplies provided or supplied to a video service provider, its contractors or subcontractors, for the installation, construction, reconstruction, operation or maintenance of a video services network (and any other facilities authorized by or permitted due to the issuance of a video services license) or the provision of video services (or other services authorized by or permitted due to the issuance of a video service license).

3. Any and all liabilities, obligations, damages, penalties, claims, liens, costs, charges, losses and expenses (including, without limitation, reasonable fees and expenses of attorneys, expert witnesses and consultants), which may be imposed upon, incurred by or be asserted against the indemnitees by reason of any financing or securities offering by a video service provider or its affiliates for violations of the common law or any laws, statutes, or regulations of the State of Arizona or the United States, including those of the federal securities and exchange commission.

C. Assumption of Risk: A video service providers shall undertake and assume for its officers, agents, contractors and subcontractors and employees, all risk of dangerous conditions, if any, on or about any city-owned or controlled property or the public highways, and a video service provider shall indemnify and hold harmless the indemnitees against and from any claim asserted or liability imposed upon the indemnitees for personal injury or property damage to any person (other than from indemnitees' sole and

gross negligence) arising in whole or in part out of a video service provider's installation, operation, maintenance or condition of a video services network or other facilities or a video service provider's failure to comply with any federal, state or local statute, ordinance or regulation.

D. Defense of Indemnitees: In the event any action or proceeding shall be brought against the indemnitees by reason of any matter for which a video service provider must indemnify the indemnitees pursuant to this Section, a video service provider shall, upon notice from any of the indemnitees, at the video service provider's sole cost and expense, resist and defend the same with legal counsel selected by the video service provider and consented to by the City, such consent not to be unreasonably withheld; provided, however, that a video service provider shall not admit liability in any such matter on behalf of the indemnitees without their written consent and provided further that indemnitees shall not admit liability for, nor enter into any compromise or settlement of, any claim for which they are indemnified hereunder, without the prior written consent of the video service provider.

E. Notice, Cooperation and Expenses: The indemnitees shall give a video service provider prompt notice of the making of any claim or the commencement of any action, suit or other proceeding covered by the provisions of this Section. Nothing herein shall be deemed to prevent the indemnitees at their own expense from cooperating with a video service provider and participating in the defense of any litigation by its own counsel.

(Ord. No. 5542, § 1, 12-9-19)

9-7-16: INSURANCE

A. During the term of any video services license, the video service provider shall maintain, or cause to be maintained, in full force and effect and at its sole cost and expense, the following types and limits of insurance:

1. Worker's Compensation Insurance meeting Arizona Statutory Requirements and Employer's Liability Insurance with minimum limits of two million dollars ($2,000,000) for each accident.

2. Comprehensive Commercial General Liability Insurance with minimum limits of ten million dollars ($10,000,000) as the combined single limit for each occurrence of bodily injury, personal injury and property damage. The policy shall include coverage for: Products and completed operations liability; contractor's liability; and coverage for property damage from perils of explosion, collapse or damage to underground utilities, commonly known as XCU Coverage.

3. Pollution legal liability insurance (which provides coverage for sudden and accidental environmental contamination) with minimum limits of five million dollars ($5,000,000) and providing coverage for claims discovered within three (3) years after the term of the policy.

4. Broadcasters liability coverage for loss or damage arising out of publications or utterances in the course of or related to advertising, broadcasting, telecasting or other communication activities conducted by or on behalf of the video service provider with minimum limits of ten million dollars ($10,000,000) as the combined single limit for each occurrence.

5. Automobile liability insurance covering all owned, hired, and non-owned vehicles in use by the video service provider, its employees and agents, with personal protection insurance and property

protection insurance to comply with the provisions of the Arizona No-Fault Insurance Law, with minimum limits of two million dollars ($2,000,000) as the combined single limit for each occurrence for bodily injury and property damage.

B. All insurance policies other than those for Worker's Compensation and Pollution Legal Liability Insurance shall be written on an occurrence, and not on a claims made basis. The coverage amounts set forth above may be met by a combination of underlying (primary) and umbrella policies so long as in combination the limits equal or exceed those stated. All policies of insurance shall contain a waiver of subrogation clause.

C. All policies, except for worker's compensation policies, shall name "The City of Mesa, a Municipal Corporation of the State of Arizona and all associated, affiliated, allied and subsidiary entities of Mesa, now existing or hereafter created, and their respective officers, boards, commissions, councils, employees, agents and contractors, as their respective interests may appear" as additional insureds (herein referred to as the "additional insureds") and shall include cross liability coverage. Additionally, all insurance policies shall be written with a zero-dollar deductible (no deductible).

D. Certificates of insurance for each insurance policy required to be obtained by a video service provider in compliance with this Section, along with written evidence of payment of required premiums, shall be filed and maintained with the City annually during the term a video services license. a video service provider shall immediately advise the city of any claim or litigation that may result in liability to the City.

E. All insurance shall be affected under valid and enforceable policies, insured by insurers licensed to do business by the State of Arizona or surplus line carriers on the State of Arizona Insurance Director's approved list of companies qualified to do business in the State of Arizona. All insurance carriers and surplus line carriers shall be rated A- or better by A.M. Best Company. Should the rating of an insurance carrier or surplus carrier fall below that set forth in the preceding sentence then a video services provider shall either immediately obtain policies from carriers complying with the preceding rating or the City may obtain at the video service provider's expense policies from carriers meeting the preceding rating requirement.

F. A video service provider shall either require that each and every one of its contractors and their subcontractors carry, in full force and effect, Workers' Compensation, Comprehensive General Liability and Automobile Liability Insurance which complies with this Section, or the video service provider may provide such coverages for any or all of its contractors or subcontractors (such as by adding them to its own policies).

G. As between the city and/or additional insureds on the one hand, and a video service provider on the other hand, if more than one policy of insurance does or may apply to a given claim or matter, then the policy maintained by the video service provider pursuant to the applicable video services license shall be deemed the primary policy, and that policy shall contain a provision that states that it is the primary policy as opposed to any other policy of insurance that may apply to the City and/or additional insureds on any given claim or matter. The term "policy of insurance" as applied to the city/additional insureds shall include any self-insurance program, self-insured retention or deductible or risk pooling program, or an indemnification, defense or other similar program purchased or maintained by the City/additional insureds.

(Ord. No. 5542, § 1, 12-9-19)

9-7-17: MISCELLANEOUS

A. The city shall notify in a timely manner each video service provider with a uniform video services license in the City of changes to the boundaries of the City.

B. Subscribers may submit complaints about video service to the Arizona Attorney General, the Federal Communications Commission, or any other authority provided by law.

C. Audits, including audits of bundled services, of a video services provider's books and records shall be conducted in compliance with A.R.S. § 9-1445.

D. Except as otherwise provided by law or federal regulation, a uniform video service license is fully transferable to any person whether the transfer arises through merger, sale, assignment, restructuring, change of control or other type of transaction. A transfer does not include an assignment of a uniform video service license for the purpose of securing indebtedness. A transfer may include less than all service areas associated with a uniform video service license. The video service provider shall file with the city clerk written notice of the transfer of the uniform video service license. On the filing of notice under this subsection the transferee becomes the holder of the uniform video service license.

E. A uniform video services license is subject to and shall be governed by all applicable provisions of federal, state and local law. Notwithstanding any other provisions of the uniform video services license to the contrary, the uniform video services license shall at all times comply with all laws and regulations of the state and federal government or any administrative agencies thereof; provided, however, if any such state or federal law or regulations shall require the licensee to perform any service, or shall permit the licensee to perform any service, or shall prohibit the licensee from performing any service, in conflict with the terms of the license or this Chapter, then as soon as possible following knowledge thereof, the licensee shall notify the City Attorney of the point of conflict believed to exist between such regulation or law and this Chapter or the license.

F. Enforcement of this Chapter shall be in compliance with A.R.S. § 9-1451.

(Ord. No. 5542, § 1, 12-9-19)

CHAPTER 8
OFF-SITE IMPROVEMENT REGULATIONS

9-8-1: PURPOSE AND INTENT

The purpose of these regulations is to provide for the orderly growth and harmonious development of the City of Mesa; to insure that proper off-site facilities are constructed in conjunction with the development of unsubdivided land for commercial, industrial, and multiple-residential uses, and single residential uses not in a subdivision, where no subdivision of land is required; to provide for public dedication of such rights-of-way as streets or easements as are reasonably required by or related to the effect of the proposed use; to secure adequate provisions for water supply, drainage, sanitary sewerage, and other health requirements as part of the development. In its interpretation and application, the provisions of these regulations are intended to provide a common ground of understanding and equitable working relationship between public and private interests to the end that both independent and mutual objectives can be achieved in the development of land where no subdivision is required. (1095, 4570)

9-8-2: DEFINITIONS

COUNCIL: The City Council of the City of Mesa. (1095)

DEVELOPER: A developer shall be deemed to be the individual, firm, corporation, partnership, association, syndication, trust, or other legal entity that initiates the development of land for commercial, industrial, multifamily purposes or single residential uses not in a subdivision in accordance with the provisions of this Ordinance; and said developer need not be the owner of the property as defined by this Chapter. (1095, 4570)

EASEMENT: A grant by the owner of the use of a strip of land by the public, a corporation, or persons for specific uses and purposes, and so designated. (1095)

EASEMENT, PUBLIC UTILITY (PUE): An easement for overhead and underground utility facilities provided for the use of the public, including water, storm drainage, sewage, electricity and communication, etc., owned and operated by any person, firm, corporation, municipal department, or board duly authorized by state or municipal regulations. Utility or utilities as used herein may also refer to such persons, firms, corporations, departments, or boards. (4570)

EASEMENT, PUBLIC UTILITY AND FACILITIES (PUFE): An easement for the installation of facilities, underground or overhead, furnished for the use of the public, including electricity, gas, steam, communication, water, storm drainage, sewage, sidewalks, landscaping, traffic control devices, street lights, flood control, etc., owned and operated by any person, firm, corporation, municipal department, or board duly authorized by state or municipal regulations. Utility or utilities as used herein may also refer to such persons, firms, corporations, departments or boards. (4570)

ENGINEERING PLANS: Plans, profiles, cross sections, and other required details for the construction of public improvements, prepared by a civil engineer registered in the State of Arizona in accordance with the approved preliminary plat and in compliance with City of Mesa standards of design and construction approved by the City Engineering Division. (1095, 4570)

IRRIGATION FACILITIES: Includes canals, laterals, ditches, conduits, gates, pumps, and allied equipment necessary for the supply, delivery, and drainage of irrigation water and the construction, operation, and maintenance of such. (1095)

OWNER: The person or persons holding title by deed to land or holding title as vendees under land contract or holding any other title of record. (1095)

PUBLIC IMPROVEMENT STANDARDS: A set of regulations setting forth the details, specifications, and instructions to be followed in the planning, design, and construction of certain public improvements in the City of Mesa, formulated by the City Engineer, the County Health Department, and other City departments. (1095)

RIGHT-OF-WAY IMPROVEMENTS: Construction in the public right-of-way and public easements, including, but not limited to: Streets, alleys, medians, bicycle lanes, curbs and gutters, stormwater facilities, water and sewer lines and services, fire hydrants, gas lines and services, sidewalks, driveways, streetlights, traffic control devices, street name signs, landscaping, underground and overhead utilities as required by the City Engineer. Right-of-way improvements do not include right-of-way land dedications. (4570)

RIGHT-OF-WAY, PUBLIC: An area of land which by deed, conveyance, agreement, easement, dedication, usage or process of law is reserved or dedicated to the City for public purposes including, but not limited to: Street,

highway, alley, public utility, pedestrian walkway, bikeway, or drainage. Within public rights-of-way, the City of Mesa coordinates the locations of public or private improvements, underground or overhead; including electricity, gas, steam, communication, telecommunications, data transmission, cable TV, water, storm drainage, sewage, sidewalks, landscaping, traffic signals, streetlights, flood control, pedestrian, roadway purposes, etc. owned and operated by any person, firm, company, corporation, municipal department, or board duly authorized by federal, state or municipal regulations. (1095, 4570)

STREET: Any street, avenue, boulevard, road, lane, parkway, place, viaduct, easement for access, or other way which is an existing state, county, or municipal roadway, or which is dedicated as such by the owner, or a street or way in a plat duly filed and recorded in the County Recorder's office. A street includes land between the right-of-way lines, whether improved or unimproved, and may comprise pavement, shoulders, curbs, gutters, sidewalks, parking areas, and landscape areas. (1095, 4570)

ALLEY: A public service way used to provide secondary vehicular access to properties otherwise abutting upon a street. (1095)

ARTERIAL STREET: A general term including freeways, expressways, and major arterial streets and interstate, state, or county highways having regional continuity. (1095)

COLLECTOR STREET: Provides the traffic movement within neighborhoods of the City and between major streets and local streets and for direct access to abutting property. (1095)

LOCAL STREET: Provides for direct access to residential, commercial, industrial, or other abutting land or for local traffic movements and connects to collector and/or major streets. (1095)

UTILITIES: Installations or facilities, underground or overhead, furnishing for the use of the public electricity, gas, steam, communication, water, drainage, sewage disposal, or flood control, owned and operated by any person, firm, corporation, City of Mesa department, or board duly authorized by state or City of Mesa regulations. Utility or utilities as used herein may also refer to such persons, firms, corporations, departments, or boards as sense requires. (1095)

9-8-3: STREET AND UTILITY IMPROVEMENT REQUIREMENTS

(A) Purpose. It is the purpose of this Section to establish in outline the minimum acceptable standards for improvement of public streets and utilities, and dedication of rights-of-way where required, to define the responsibility of the developer in the planning, constructing, and financing of public improvements and to establish procedures for review and approval of engineering plans. (1095, 3105, 4570)

All improvements required in streets, alleys, or easements which are required as a condition of site plan approval shall be the responsibility of the developer. (1095)

The City Engineer is authorized to develop and apply such engineering standards, specifications, and procedures for the design and construction of improvements as are consistent with the objectives of this section and necessary or appropriate to protect the public health, safety, and welfare. (4570)

(B) Applicability. The standards and requirements of this Section shall apply to all commercial, industrial, and multiple-residential developments, and single residential developments where no subdivision of land is required, as follows: (3105, 4570)

1. Any new construction on undeveloped or vacant parcels; or (3105)

2. Total removal and reconstruction of existing buildings and structures; or (3105)

3. A one hundred percent (100%) or more increase in the total aggregate area of existing building and structures. (3105, 4570)

4. Buildings and structures existing at the time of annexation by the City. (4834)

(C) Responsibility for Improvements — New Development. All requirements required under Section 9-8-3(B)1 shall be the responsibility of the developer. (4570)

(D) Responsibility for Improvements — Existing Development. The requirements of Section 9-8-3(B)2 and 3 apply to parcels and shall be the responsibility of the developer as follows:

1. For parcels that have not previously provided R-O-W improvements in accordance with the standards at the time of development or annexation, or paid in-lieu fees for such improvements, the developer is responsible for all improvements. (4570, 4834)

2. For parcels fronting on other than arterial streets, that have previously provided R-O-W improvements in accordance with the standards at the time of development or annexation, or paid in-lieu fees for such improvements, the developer is not responsible for additional improvement requirements. (4570, 4834)

3. For parcels fronting on arterial streets, that have previously provided R-O-W improvements in accordance with the standards at the time of development or annexation, or paid in-lieu fees for such improvements, the developer is not responsible for arterial street widening improvements when such improvements are not identified on the City's currently adopted Transportation Plan. (4570, 4834)

4. For parcels fronting on arterial streets, that have previously provided R-O-W improvements in accordance with the standards at the time of development or annexation, or paid in-lieu fees for such improvements, the developer is responsible for fifty percent (50%) of the costs of the arterial street widening requirements calculated in accordance with City policy as approved by the City Engineer when such street widening improvements are identified on the City's currently adopted Transportation Plan but are not a part of the City's five (5) year Capital Improvement Plan. (4570, 4834)

5. For parcels fronting arterial streets, that have previously provided R-O-W improvements in accordance with the standards at the time of development or annexation, or paid in-lieu fees for such improvements, the developer is responsible for all of the costs of the arterial street widening requirements calculated in accordance with City policy as approved by the City Engineer when such street widening improvements are identified on the City's currently adopted Transportation Plan and are a part of the City's five (5) year Capital Improvement Plan. (4570, 4834)

The developer's responsibility for right-of-way improvements as determined in this section may be fulfilled by constructing the required right-of-way improvements in accordance with all City requirements and standards or by paying an in-lieu payment in accordance with Section 9-8-4(C), as approved by the City Engineer. (4570)

(E) Engineering Plans. (1095, 3105, 4570)

1. It shall be the responsibility of the developer to have prepared by a civil engineer, registered in the State of Arizona, a complete set of engineering plans, satisfactory to the City Engineer, for construction of required improvements. Such plans shall be prepared and submitted to the City of Mesa Building Safety Director together with the on-site construction plans. (1095, 4570)

2. Engineering plans shall be approved by the City Engineer prior to the issuance of a building permit by the City Building Safety Director. (1095, 4570)

(F) Dedication of Rights-of-Way. The dedication of rights-of-way in accordance with Section 9-6-2 and the table contained in this Section shall be made prior to the issuance of a building permit, or rights-of-way permit, or pursuant to the recording of a subdivision plat or land split document. (1095, 3105, 4570)

RIGHTS-OF-WAY DEDICATION TABLE

Street Classification	**Local**	**Collector**	**Major Collector**	**Local Industrial**	**Arterial**
R/W Dedication	50' Full Street	80' Full Street	110' Full Street	80' Full Street	*130' Full Street
	25' Half Street	40' Half Street	55' Half Street	40' Half Street	*65' Half Street

* Footnote: Additional right-of-way width required at arterial-to-arterial intersections. See Section 11-13-2 (J).

Refer to Sections 9-8-4 and 9-8-5 for modifications and appeals to these requirements.

(G) Construction and Inspection. (1095, 3105, 4570)

1. All improvements in the public right-of-way shall be constructed under the inspection and approval of the City Engineer. Construction shall not be commenced until a permit has been issued for such construction, and if work has been discontinued for any reason, it shall not be restarted prior to notifying the City Engineer. (1095, 4570)

2. All underground utilities to be installed in streets and alleys shall be constructed prior to the surfacing of such streets and alleys. Service stubs for underground utilities shall be placed in such length and size as not to necessitate disturbance of street improvements when service connections are made. (1095)

(H) Required Right-of-Way Improvements. (1095, 3105, 4570, 5395)

1. Streets. All streets contiguous to the developing land shall be paved and concrete curbs and gutters installed to lines, grades, and dimensions approved by the City Engineer and in conformance with City standards. The streets shall be improved to the centerline thereof. When improvement of a major collector or arterial street is required, the City will pay for such extra width paving as may be deemed appropriate by the City. (1095)

2. Alleys. All alleys adjacent to the developing land shall be surfaced with granite or ABC to grades and dimensions approved by the City Engineer and in conformance with City standards, except that alleys to be used for primary vehicular access as defined under Section 9-5-1 of the City Code

shall be improved as required by Section 9-5-1 of the City Code. Alleys to be used for delivery of goods and materials to commercial and industrial buildings shall be considered to be used for primary vehicular access. (1095)

3. Sidewalks. Concrete sidewalks shall be constructed along the entire length of the street adjacent to the land under development to a width and to lines and grades approved by the City Engineer and in conformance with City standards. (1095)

4. Water and Sewer Lines. Water and sewer lines shall be installed in all streets adjacent to the land under development to lines and grades and of such sizes as approved by the City Engineer and in conformance with City standards. Water and sewer service lines of sizes and at locations approved by the City Engineer and in conformance with City standards shall be installed prior to paving the streets and improving the alleys. Where it is necessary to extend a water or sewer main from an existing main of adequate size to the development, the developer will be required to pay the full cost of the line extension. If requested, the City may participate in the oversize improvement cost in a "City-share" agreement where applicable, and may also enter into a private line agreement with the developer to provide for equitable and proportionate recovery of the actual extension costs in excess of any City-share and those costs attributable to the developer's property. If the City enters into a private line agreement, subsequent developers must pay a proportionate and equitable share of the cost, by frontage or acreage, of the line extension at such time as they develop benefitted property, whether or not the benefitted property takes service from the line extension. The City is authorized to adopt policies, procedures, and methods for City-share and cost share, and all City-share and private line agreements shall be subject to compliance therewith.

5. Fire Hydrants. Fire hydrants shall be installed along adjacent streets at locations and to lines and grades approved by the City Engineer and in conformance with City standards. (1095)

6. Irrigation Lines and Ditches. All S.R.P. and R.W.C.D. irrigation ditches located in the streets, alleys, or public easements adjacent to the land being developed shall be piped or abandoned in accordance with plans and specifications prepared by the respective irrigation district and as approved by the City Engineer. All private irrigation ditches in the streets, alleys, or public easements adjacent to the land being developed shall be piped or abandoned to lines and grades as approved by the City Engineer and in conformance with City standards. (1095, 4570)

7. Storm Drainage. (1095, 1896)

   (a) The developer shall make provisions to retain within the boundaries of his development the runoff generated by development of the site in accordance with plans approved by the City Engineer and in conformance with City standards. The plans shall show the method, location, and capacity of retention to be provided. The plans shall also show the runoff calculations, surface, grades, and methods of draining the retention facility. A one hundred- (100-) year, two- (2-) hour storm will be used as a minimum basis for the design of drainage facilities. (1095, 1896, 2776)

   (b) In lieu of retaining runoff within the boundaries of the development, a common retention facility may be established for two (2) or more developments. This shall be done in accordance with plans approved by the City Engineer and in conformance with City standards. (1095, 1896)

(c) Retention facilities shall be of the type and size approved by the City Engineer. (Multiple, small retention areas shall not normally be acceptable.) (1896)

(d) At the time of completion of development, the developer's engineer shall provide as-built certification to the City Engineer that the drainage and retention facilities were constructed in accordance with the approved plans and conform to City standards. Said certification shall be signed by the engineer and stamped with his professional seal. (1896)

(e) Once constructed and approved by the City, the drainage and retention facilities may not be modified unless modification is approved by the City Engineer. (1896)

8. Streetlights. Streetlights shall be installed in accordance with Section 9-6-4(D)10. of City Code and per City Engineering and Design Standards. (1095, 1647, 1772, 3766)

9. Traffic Control Devices. Traffic control devices shall be provided or existing control devices shall be modified in conjunction with the development in accordance with designs approved by the Development Services Department, where required in accordance with the Mesa Transportation Division. The Transportation Division may defer the installation of required traffic control devices. (4570)

When the installation of required traffic control devices is deferred, the owner/developer shall pay the City a payment in-lieu of causing the actual design, installation, and/or construction of the devices. This in-lieu payment shall be based upon a cost estimate prepared by a professionally registered civil engineer and approved by the City of Mesa. The in-lieu payment cost estimate shall include all design costs, labor and materials costs, plus twenty percent (20%) for future contingency costs. All in-lieu payments shall be remitted to the City of Mesa as a condition of and in conjunction with the issuance of any on-site construction permits and/or off-site rights-of-way permits associated with the development project. (4570)

10. Street Name Signs. Street name signs shall be placed in all street intersections. The developer shall install signposts and signs per Mesa Standard Details with designs approved by the City Traffic Engineer. (1095, 4570, 5395)

11. Survey Monuments. Survey monuments conforming to City standards shall be installed at all corners, angle-points, points of curves, and at all street intersections adjacent to the land under development and at such other locations as may be required by the City Engineer. After all improvements have been installed, a registered land surveyor or registered civil engineer shall check the locations of the monuments and mark the brass cap. (1095, 4570, 5395)

(I) Oversize of Required Public Improvements. The developer may be required to oversize certain public street and utility improvements for the purpose of ensuring that the City of Mesa's public improvement standards for transportation, utility service, and infrastructure are maintained. The City of Mesa may participate in the increased costs of oversize improvements when approved by the Development Services Manager. The City's commitment to participate in these increased costs may be formalized in a development agreement limited to those improvements specifically identified as oversize and executed by the developer and the Development Services Manager. (2907, 3105, 3766, 4570)

(Ord. No. 5538, § 12, 12-2-19; Ord. No. 5826, § 2, 12-4-23)

9-8-4: MODIFICATIONS

(A) Where an individualized assessment reveals the existence of special conditions involving topography, land ownership, adjacent development, parcel configuration, or other factors relating to the impact the development will have on the City's need for off-site improvements associated with the proposed development, the City Manager or designee may reduce, defer, or approve alternatives to the requirements and specifications contained in this Chapter based upon a finding that such conditions or factors exist and that the requirements will substantially impair existing uses or the ability for development. (3105, 3766, 4606, 4771)

[The next page is T9:137]

(B) Where an individualized assessment reveals the existence of extraordinary conditions involving topography, land ownership, adjacent development, parcel configuration, or other factors, relating to the impact the development will have on the City's need for the dedication of rights-of-way, the City Manager or designee may eliminate, reduce, defer or approve alternatives to the dedication of rights-of-way requirements contained in this chapter upon finding that such conditions or factors exist and that the requirements will substantially impair existing uses or the ability for development. (4570, 4606, 4771, 4777)

(C) With the approval of, or amendment to, a rezoning to PC District, the City Council may approve modifications to the requirements and specifications required by this Chapter if the City Engineer or City Traffic Engineer recommends approval of the modification. The City Engineer or City Traffic Engineer, in consultation with the Planning Director, may recommend the elimination, reduction, or approval of alternatives to the requirements and specification required by this Chapter. If the City Engineer or City Traffic Engineer recommends approval of such a modification, the recommendation, which may be subject to conditions or stipulations, shall be forwarded to the City Council with the PC district. City Council may approve the modification as recommended. The City Engineer's or City Traffic Engineer's recommendation shall be based upon a finding that the modification:

1. Is consistent with the intent of these regulations; (4771)

2. Will result in an equivalent level of service for health, safety and welfare to the General public; (4771)

3. Will result in improvements that are adequate and meet the City's needs; (4771)

4. Furthers the purposes of the PC District; and (4771)

5. Is not contrary to the public interest. (4771)

(D) To ensure compliance with any elimination, modification, deferral, or alternative, the City Manager or designee may require certain provisions such as protective covenants, bonds, and development agreements. Such provisions may be recorded against the property being developed. (3105, 3766, 4570, 4771, 4777)

1. When the deferral of certain right-of-way improvement requirements is authorized by the City Manager or designee for a specific development project, the owner and/or developer shall remit to the City of Mesa a payment in lieu of causing the actual design, installation, and/or construction of said required public improvements. This in-lieu payment shall be based upon a cost estimate prepared by a professionally registered civil engineer and approved by the City of Mesa. The in-lieu payment cost estimate shall include all design costs, labor and materials costs, plus twenty percent (20%) for future contingency costs. All in-lieu payments shall be remitted to the City of Mesa as a condition of and in conjunction with the issuance of any on-site construction permits and/or off-site rights-of-way permits associated with the development project. (3882, 4570, 4771)

2. The obligation to construct right-of-way improvements or make an in-lieu payment prior to the issuance of permits, including the determination of the amount of the in-lieu payment required, may be deferred to a future date if the developer provides financial assurances acceptable to the City Engineer and the City Attorney, the developer and City enter into a development agreement

that provides adequate financial assurance for the future construction of the improvements and/or the future payment of an in-lieu amount, and the City Manager or designee finds that such deferral meets all of the following criteria:

(a) The development is non-residential; and (4777)

(b) The property is zoned as a commercial or industrial district; and (4777)

(c) The deferred right-of-way improvements are not included in this City's Capital Improvement Plan for construction within five (5) years of the deferral; and (4777)

(d) The deferral is in the best interest of the City of Mesa. (4777)

Editor's note—Ord. No. 3105 amended § 9-8-4 to read as herein set out. Former § 9-8-4 derived from Ord. Nos. 1095, 1656.

9-8-5: APPEALS

(A) Discretionary decisions of the Development Services Manager may be appealed to the Hearing Office, who shall be appointed by the City Manager, when such decisions involve one (1) or more of the following: (3105, 3766)

1. Any requirement that exceeds or is in addition to the minimum development requirements as defined in this Chapter. (3105)

2. Any requirement not specified in the Mesa City Code or other legislative act of the City of Mesa. (3105)

3. Any requirement resulting from a discretionary act of an administrative official of the City of Mesa. (3105)

(B) Appeals to the Hearing Officer may be submitted by the developer or owner of the property proposed for development which is affected by a discretionary decision of the Development Services Manager. The appeal shall be submitted within thirty (30) days of such decision by filing with the Development Services Manager a notice of appeal on a form provided therefor. No fee is required for this appeal. The Development Services Manager shall transmit to the Hearing Officer all the papers constituting the records upon which the decision appealed from was taken. (3105, 3766)

(C) The Hearing Officer shall schedule a time for the appeal to be heard, which shall be no later than thirty (30) days from receipt of the appeal. The appellant shall be given at least ten (10) days' prior notice of the date and time set for the hearing. The Hearing Officer shall decide the appeal within five (5) working days from the date the appeal hearing concludes. (3105)

(D) For determination of the appeal, it shall be the responsibility of the City to establish that there is a nexus between the requirement and a legitimate governmental interest and that the requirement is roughly proportional to the impact of the proposed use, improvement, or development. If more than a single parcel is involved, this requirement applies to the entire property that is subject to the approval. (3105)

(E) If the appeal is upheld, the Hearing Officer shall modify or delete the requirement. If the appeal is denied, the appellant may at any time within thirty (30) days of the decision of the Hearing Officer file a complaint for a trial de novo in the Superior Court on the facts and the law regarding the issues of the requirement. (3105)

9-8-6: PENALTIES

(A) It is unlawful to develop land contrary to or in violation of any provisions of this Chapter or of any provision designated as a condition of approval either by the plan review process or through an amendment, variance, or appeal by an office, board, commission, or the City Council as established by this Chapter. (3105)

(B) Any person, firm, or corporation violating any provision of this Chapter and any amendments to it shall be guilty of a Class 1 misdemeanor, punishable by a fine not to exceed two thousand five hundred dollars ($2,500.00) or by imprisonment in the City jail for a period not to exceed six (6) months, or by both such fine and imprisonment; and each day of violation continued shall be a separate offense, punishable as described. (3105)

CHAPTER 9
FALCON FIELD AIRPORT*

9-9-1: DEFINITIONS

AIRPORT: The Falcon Field Airport. (1246)

CITY: The City of Mesa. (1246)

COUNCIL: The City Council, City of Mesa. (1246)

DIRECTOR: The Neighborhood Services Manager, Neighborhood Services Department, City of Mesa, or his designee. (1246, 3168, 3766)

FIELD AREA: That area on the landing area side of the terminal building, including passenger ramp, aircraft parking areas, shops, hangars, gasoline storage areas, runways, taxiways, perimeter roads, and all areas separated from roadways, sidewalks, buildings, and highways by means of fencing, no trespassing signs, or lack of evidence of provisions of proper facilities for convenient, safe, and easy entrance into and around subject land sections and areas or any other specific areas designated by the Director as field areas. (1246)

PUBLIC AREA: That area including the various concessions, rest rooms, terminal building lobby section used for public access, roadways, sidewalks, and parking lots. Office areas and approaches thereto are not public areas. (1246)

9-9-2: GENERAL RULES AND REGULATIONS

(A) The Director may issue such rules, regulations, orders, and instructions as are necessary in the administration of this Chapter. He may post signs at the airport which state or apply such rules, regulations, orders, or instructions. Each person on the airport shall comply with these orders, regulations, and signs. Each member of the staff of the Director, as a representative of the Director, is empowered to require compliance with the provisions of this Chapter and all orders and regulations issued by the Director. (1246)

***Cross reference**—See Title 6, Chapter 3 for Aircraft Regulations.

(B) The airport shall be conducted as a public air facility for the promotion and accommodation of civil aviation and associated activities. (1246)

(C) The airport shall be open for public use at such hours and subject to such restrictions as may be determined by the City Council. (1246)

(D) The privilege of using the airport and its facilities shall be conditioned on the assumption by the user thereof of full responsibility and risk for such use, and by accepting the use of the airport and its facilities, the user thereof releases and agrees to hold the City and its officers and employees harmless and indemnify them from any liability or loss resulting from such use. The owners and operators of all aircraft based at the airport shall comply with all of the applicable provisions of A.R.S. Title 28, Chapter 12. (1246)

9-9-3: AIRCRAFT OPERATIONS

(A) No person shall conduct any aircraft operation to, on, from, or over the airport except in conformity with all Federal Aviation Administration regulations; the applicable provisions of Title 28, Chapter 12, Arizona Revised Statutes; this Section; and rules and regulations established by the Director. (1246)

(B) No person shall take off or land an aircraft on the airport except on a hard surface area unless otherwise authorized by the Director. (1246)

(C) All aircraft traffic shall conform to the established traffic pattern as approved by the Director and posted at the airport. (1246)

(D) No person shall park or loiter an aircraft on any runway or taxiway at the airport. (1246)

(E) No person shall park or store an aircraft at the airport except in areas designated by the Director. (1246)

(F) Preventive maintenance work, as defined in Title 14, Part 43, Appendix A(c), Code of Federal Regulations, may be performed at the airport tie-down areas by the owner or operator of the aircraft. Aircraft owners who possess current mechanic ratings such as A & P and A & I may do additional work in the tie-down areas subject to approval of the Director. All other aircraft maintenance, rebuilding, and alterations shall be performed only in areas designated by the Director. (1246)

(G) No person shall conduct experimental flight or ground demonstrations on the airport without prior permission of the Director. (1246)

(H) No person shall take any aircraft from the landing area or hangars or operate such aircraft while under the influence of intoxicating liquor or a dangerous drug. (1246)

(I) No person shall board or disembark from any aircraft on a runway or in the takeoff or landing area except in an emergency or with prior approval of the Director. (1246)

(J) Persons parking transient aircraft shall register their aircraft with the Director or his representative as soon as possible after landing at the airport. (1246)

(K) All owners and operators who desire to base their aircraft at the airport shall register their aircraft with the Director or his representative prior to beginning operations. Any change in ownership of the aircraft shall be reported immediately. (1246)

(L) No person shall leave an aircraft unattended unless it is properly tied down or placed in a hangar. (1246)

(M) No engine in an aircraft shall be started or run without a competent person at the engine controls and unless blocks have been placed in front of the wheels or the aircraft has adequate parking brakes. No aircraft engine shall be operated in such manner as to endanger life or property. (1246)

(N) No aircraft shall be operated in or taxied into or out of a hangar. (1246)

(O) If the Director believes the conditions at the airport or any portion thereof are unfavorable for aircraft operations, he may close the airport or such portions thereof, using applicable FAA procedures as appropriate. (1246)

(P) No aircraft capable of movement on the ground shall be operated on the airport unless it is equipped with wheels and wheel brakes except with permission of the Director. (1246)

(Q) No aircraft shall be permitted to remain on any part of the landing or takeoff areas for the purpose of repairs. (1246)

(R) All aircraft shall be taxied at slow and reasonable speeds and shall not be taxied onto a runway without first stopping and waiting for any approaching aircraft preparing to land. (1246)

(S) No person shall, without the owner's permission, interfere or tamper with an aircraft parked or stored at the airport. (1246)

(T) No person shall move an aircraft on the airport in a negligent or reckless manner. (1246)

(U) No person shall start or taxi any aircraft on the airport in a place where the air or exhaust blast is likely to cause injuries to persons or property. If the aircraft cannot be taxied without violating this Subsection, the operator must have it towed to the desirable destination. (1246)

(V) No person shall move a rotocraft at a place on the airport while its rotors are turning unless there is a clear area of at least fifty feet (50') from the outer tip of each rotor. (1246)

9-9-4: AIRCRAFT ACCIDENT PROCEDURES

(A) Persons involved in aircraft accidents occurring at the airport shall make a full report thereof to the Director or his representative within twenty-four (24) hours after such accident. (1246)

(B) Any person damaging property on the airport by means of contact with aircraft shall report such damage to the airport office immediately and shall be fully responsible to the City for costs of repairs. (1246)

(C) Every pilot and aircraft owner shall be responsible for the prompt removal of his disabled aircraft or parts thereof as directed by the Director or his representative, subject to accident investigation requirements. (1246)

9-9-5: MOTOR VEHICLE REGULATIONS

(A) No motor vehicle shall be operated on the airport if it is so constructed, equipped, or located as to endanger persons or property. (1246)

(B) Each operator of a motor vehicle involved in an accident between that vehicle and an aircraft or in any other motor vehicle accident on the airport that results in personal injury or in total property damage of more than fifty dollars ($50.00), shall make a full report thereof to the Director as soon as possible after the accident. The report must include the name and address of the person reporting. (1246)

(C) No person shall operate any motor vehicle on the airport in violation of this Chapter or rules promulgated and posted by the Director or the laws of the State of Arizona. (1246)

(D) No person shall operate a motor vehicle on the airport in a negligent or reckless manner or in excess of posted speed limits. (1246)

(E) No motor vehicle shall be permitted on taxiways, runways, or operational areas, except authorized maintenance or service vehicles, without prior permission of the Director. (1246)

(F) No person shall operate a vehicle on, to, or across a runway except when authorized by the Director or his representative. (1246)

(G) Operators of motor vehicles on the field area shall yield the right-of-way to taxiing aircraft. (1246)

(H) All motor vehicles on the field area shall pass to the rear of aircraft whose engines are running. (1246)

(I) When backing gasoline tenders, the driver shall remain in the vehicle and shall not stand on the running board or fender. Gasoline tenders shall at no time be so positioned as to prevent their rapid removal. (1246)

(J) Except as authorized by the Director, no person shall clean or make any repairs to motor vehicles anywhere on the airport other than designated shop areas except those minor repairs necessary to remove such motor vehicle to a proper location. (1246)

(K) Parking. (1246)

1. No person shall park or stand a motor vehicle on the airport except in an area specifically designated therefor. (1246)
2. No person shall park a motor vehicle in any posted area on the airport for a period longer than that prescribed by the City. (1246)
3. No person shall park a vehicle in a restricted or reserved area on the airport unless he displays, in the manner prescribed by the Director, a parking permit issued by the Director for that area. (1246)
4. No person shall double-park a motor vehicle on any road on the airport. (1246)
5. No person shall abandon a motor vehicle on the airport. (1246)
6. No person shall leave a motor vehicle standing unattended or parked on the airport with a key in the ignition switch, the motor running, a key in the door lock, or an open door. (1246)
7. No person shall park or stand a motor vehicle at any place on the airport in violation of any sign posted by the Director. (1246)
8. No person shall park or stand a motor vehicle within fifteen feet (15') of a fire hydrant on the airport or park in such manner as to block any fire gate or entrance. (1246)
9. No person shall park a motor vehicle in any marked space in such manner as to occupy more than one (1) space. (1246)

10. No person shall park a motor vehicle in individual storage hangars or aircraft shelters unless permitted by the owner or lessee of said structure. (1246)

11. The Director or his agent may remove, at the owner's expense, any motor vehicle which is parked on the airport in violation of this Chapter. The vehicle shall be subject to a lien for the cost of removal. (1246)

Cross reference—See Section 10-4-8 for Speed Limits.

9-9-6: TAXICABS

(A) No person shall operate a vehicle that is carrying passengers for hire from the airport unless he is the holder of a contract authorizing same by the City Council. (1246)

(B) Except for discharging passengers, no person shall park on the airport a vehicle used for the purpose of carrying passengers for hire unless he is the holder of a contract authorizing same by the City Council. (1246)

(C) No person shall, on the airport, solicit or invite any person to ride in a vehicle used for the purpose of carrying passengers for hire, either by driving slowly past a loading entrance to an airport building or by any other act or utterance calculated to induce that person to engage the vehicle, unless said taxicab operator is the holder of a contract authorizing same by the City Council. (1246)

9-9-7: RULES OF CONDUCT

(A) No person shall commit any act or nuisance on the airport. (1246)

(B) No person shall dispose of garbage, papers, refuse, or other such material on the airport except in receptacles provided for that purpose. (1246)

(C) No person shall destroy, injure, deface, or disturb any building, sign, equipment, marker or other structure, tree, flower, lawn, or other public property on the airport. (1246)

(D) No person shall alter, make additions to, or erect any building or sign or make any excavations on the airport without the permission of the Director, subject to lease provisions. (1246)

(E) No person shall willfully abandon any personal property on the airport. (1246)

(F) No person may ride horseback on the airport without permission of the Director. (1246)

(G) No person shall hunt, pursue, trap, catch, injure, or kill any bird or animal on the airport without authorization of the Director. (1246)

(H) No person, except peace officers, an authorized post officer, air carrier, airport employee, or a member of an armed force of the United States on official duty, shall carry any weapon, explosive, or inflammable material on or about his person, openly or concealed, on the airport without the written permission of the Director. This Section shall not apply to persons carrying firearms in cases, broken down or unloaded, when said firearms are being transported by air. For the purpose of this Section, a weapon includes all those listed in Section 13-3101, Arizona Revised Statutes. (1246)

(I) No person shall solicit fares, alms, or funds for any purpose on the airport without permission of the Director. (1246)

(J) No person shall post, distribute, or display signs, advertisements, circulars, or other printed or written matter in the public area of the airport without permission of the Director. (1246)

(K) No person may enter the airport with a dog or other domestic animal unless the animal is kept restrained by a leash or is confined so as to be completely under control. (1246)

(L) No person shall loiter or loaf on any part of the airport. (1246)

(M) No unauthorized person shall enter any restricted area posted as being closed to the public. (1246)

(N) No person shall use a rest room other than in a clean and sanitary manner. (1246)

(O) No person shall drink alcoholic beverages in the terminal building lobby. (1246)

9-9-8: COMMERCIAL PHOTOGRAPHY

(A) Except as hereinafter provided, no person shall take a still, motion, or sound picture on the airport for commercial purpose without the permission of the Director. (1246)

(B) The Director may allow any of the following to take pictures on the airport for commercial purposes: (1246)

1. Professional photographers and motion picture cameramen photographing events on the airport as representatives of news concerns or bona fide news publications. (1246)

2. Professional photographers and motion picture cameramen photographing events at the airport, for nonprofit exhibit, to stimulate interest in air commerce or travel, or for nonprofit educational purposes. (1246)

3. Professional photographers photographing scenes on the airport for general artistic purposes. (1246)

9-9-9: USE OF ROADS AND WALKS

(A) No person shall travel on the airport except on a road, walk, or other place provided for the kind of travel he is doing. (1246)

(B) No person shall occupy or place an object on the road or walk on the airport in a manner that hinders or obstructs its proper use. (1246)

(C) No person shall walk in a picket line as a picket or take part in a labor or other public demonstration on any part of the airport except in a place specifically assigned by the Director for picket lines or other public demonstrations. (1246)

9-9-10: USE OF GATE POSITIONS

(A) No person shall use an aircraft gate position on the airport unless he has been authorized to use it. (1246)

(B) Except in an emergency, no person shall emplane or deplane passengers on the airport on an area that has not been established for that purpose by the Director. (1246)

(C) No person shall park an aircraft which is carrying explosives or inflammable material, nor shall he load or unload such items on or from such aircraft, other than in areas designated by the Director. (1246)

(D) No person may repair an aircraft while it is parked at the gate position, except for minor adjustments. (1246)

9-9-11: FIRE HAZARDS AND FUELING OPERATIONS

(A) Fuel Delivery and Dispensing. No person shall transport or deliver aviation fuels, oils, or lubricants on the airport or dispense fuels into aircraft unless he is the holder of a valid permit with the City authorizing such activity. (1246)

(B) Cleaning Fluids. No person shall use a flammable volatile liquid having a flash point of less than one hundred degrees (100°) Fahrenheit to clean an aircraft, aircraft engine, propeller, or appliance in an aircraft hangar or similar type building or within fifty feet (50') of another aircraft, building, or hangar. (1246)

(C) Open-Flame Operations. No open flame, flame-producing device, or other source of ignition shall be permitted in any hangar or similar-type building except in locations approved by the Director. (1246)

(D) Smoking. No person shall smoke on any apron or ramp, in any hangar or shop, in any aircraft, or in any other place on the airport where smoking is specifically prohibited by the Director. (1246)

(E) Storage. (1246)

1. No person shall store or stock material or equipment on the airport in a manner that constitutes a fire hazard. (1246)

2. No person shall store any combustible materials, flammable liquids, or other hazardous materials in an aircraft hangar or other building on the airport except in locations and containers approved by the Mesa Fire Department. (1246)

3. Each lessee of a hangar on the airport shall provide suitable metal receptacles for storing waste, rags, and other rubbish and shall remove all rubbish from its premises each week. (1246)

(F) Apron Surface Areas and Floor Surface. (1246)

1. Each person to whom space on the airport is leased, assigned, or made available for use shall keep the space free and clear of oil, grease, or other foreign materials that could cause a fire hazard or a slippery or otherwise unsafe condition. (1246)

2. No person shall use any material (such as oil absorbents or similar material) that creates an eye hazard when picked up, swirled, or blown about by the blast from an aircraft engine in any passenger loading area or other public area. (1246)

(G) Doping. (1246)

1. No person shall conduct a doping process on the airport except in a properly designed fire-resistive and ventilated room or building in which all lights, wiring, heating, ventilating equipment, switches, outlets, and fixtures are approved for use in such hazardous areas and in which all exit facilities are approved and maintained for such use or except in an open area as designated by the Director. (1246)

2. No person shall enter or work in a dope room while doping processes are being conducted unless he is wearing sparkproof shoes. (1246)

(H) Fueling Operations. (1246)

1. No person shall fuel or defuel an aircraft on the airport while: (1246)

   (a) Its engine is running or is being warmed by applying external heat; (1246)

   (b) It is in a hangar or enclosed space; (1246)

   (c) Passengers are in the aircraft, unless a passenger loading ramp is in place at the cabin door, the door is open, and a cabin attendant is at or near the door. A "No Smoking" sign shall be displayed in the cabin and the rule enforced. (1246)

2. No person shall start the engine of an aircraft on the airport if there is any gasoline or other volatile flammable liquid on the ground beneath it of sufficient quantity to constitute a hazard. (1246)

3. No person shall operate a radio transmitter or receiver or switch electrical appliances on or off in an aircraft on the airport while it is being fueled or defueled. (1246)

4. During the fueling of an aircraft on the airport, the dispensing apparatus and the aircraft shall both be grounded in accordance with orders and instructions of the Director. (1246)

5. Each person engaged in fueling or defueling on the airport shall exercise care to prevent the overflow of fuel and shall have readily accessible and adequate fire extinguishers. (1246)

6. During the fueling or defueling of an aircraft on the airport, no person shall, within fifty feet (50') of that aircraft, smoke or use any material that is likely to cause a spark or be a source of ignition. (1246)

7. Each hose, funnel, or appurtenance used in fueling or defueling an aircraft on the airport shall be maintained in a safe, sound, and nonleaking condition and must be properly grounded to prevent ignition of volatile liquids. (1246)

(I) Mesa Fire Code. All persons shall comply with the provisions of the Mesa Fire Code found in Title 7, Chapter 2 of the Mesa City Code. (1246)

(J) Inspections. The City Fire Chief or his duly authorized representatives shall inspect monthly or as often as may be necessary all buildings and premises for the purpose of ascertaining and causing to be corrected any conditions which would reasonably tend to cause fire or contribute to its spread or endanger life or property from fire. All orders, notices, or recommendations of the City Fire Chief shall be complied with by all persons without delay. (1246)

9-9-12: OBLIGATION OF TENANTS

(A) Use of Premises. No lessee of airport property shall knowingly allow that property to be used or occupied for any purpose prohibited by this Chapter. (1246)

(B) Trash Containers. (1246)

1. No tenant, lessee, concessionaire, or agent of any of them doing business on the airport shall keep uncovered trash containers on a sidewalk or road or in a public area of the airport. (1246)

2. No person shall operate an uncovered vehicle to haul trash on the airport. (1246)

3. No person shall operate a vehicle for hauling trash, dirt, or any other material on the airport unless it is built to prevent its contents from dropping, sifting, leaking, or otherwise escaping. (1246)

4. No person shall spill dirt or any other material from a vehicle operated on the airport. (1246)

(C) Bulletin Boards. Each lessee of a hangar or other operational area specified by the Director on the airport shall maintain a bulletin board in a conspicuous place in his hangar or area. He shall post on that board current workmens' compensation notices, a list of competent physicians, a list of his liability insurance carriers, a copy of this Chapter, and a copy of each pertinent order or instruction issued under this Chapter. (1246)

(D) Storage of Equipment. No tenant or lessee of a hangar, shop facility, or other operational area specified by the Director on the airport shall store or stack equipment or material in a manner to be a hazard to persons or property. (1246)

(E) Fire Apparatus. Each tenant or lessee of a hangar, shop facility, or other operational area specified by the Director on the airport shall supply and maintain adequate and readily accessible fire extinguishers, approved by Underwriters' Laboratories for the hazard involved, as the Director considers necessary. (1246)

(F) Right of Inspection. The Director or his authorized representative shall have the right at all reasonable times to inspect all areas under lease to or occupied by tenants. (1246)

9-9-13: COMMERCIAL OPERATIONS

(A) Policy. As the operator and proprietor of the airport, on behalf of the citizens of the City, it is the policy and intent of the City Council: (1246)

1. To operate the airport in a businesslike manner with as little cost as possible to the taxpayer through the imposition of fair and reasonable rentals, fees, and charges. (1246)

2. To provide for both private and commercial aviation at the airport to the extent practicable within physical, economical, and environmental constraint. (1246)

3. To provide for the full range of on-base aeronautical support through private enterprise consistent with the need for the service and the availability of space and physical facilities. (1246)

4. To protect airport patrons and users from unsafe and inadequate aeronautical service and to maintain and preserve all airport facilities in a safe, secure, and orderly condition. (1246)

5. To promote fair competition and not to expose those who have lawfully undertaken to provide commodities and services at the airport to irresponsible, unethical, or unauthorized competition. (1246)

6. To permit and provide adequate facilities for owners of general aviation aircraft to work on and service their own aircraft within such limits as may be imposed by this Section or airport regulation for purposes of safety, preservation of airport facilities, and protection of the public interest. (1246)

7. To promote the utility, educational, and recreational aspects of general aviation. (1246)

(B) Prohibition. No person shall engage in any business or commercial activity on the airport without a lease approved by the City Council or a sublease from a duly authorized master lessee. For the purpose of this

Section, a "person" means any individual or group of individuals, including a company, partnership, corporation, or other association. This prohibition shall apply to persons who use the airport as a base for conducting their activity but whose office or other place of business is not situated on the airport. This prohibition does not apply to: (1246)

1. Aircraft operations in which the flight originates and terminates elsewhere and the Falcon Field Airport is utilized as a temporary stopping place for such purposes as landings, refueling, or other aeronautical service or the embarking or debarking of passengers, except in the case of charter or air taxi airlines. (1246)

2. Company- or corporate-owned aircraft where personnel or products are transported free of charge, the trip being merely incidental to the company's principal business and not, in itself, a major enterprise for profit. (1246)

3. Casual or isolated transactions such as sales by the owner. (1246)

(C) Definition. For the purpose of this Section, a "business or commercial activity" includes the following types of activities when done for hire, compensation, or reward: (1246)

1. Retail sales of any goods, wares, merchandise, or services. (1246)

2. Pilot training and flight instruction. (1246)

3. Sale, rental, or charter of aircraft. (1246)

4. Air carrier and air taxi operations. (1246)

5. Sale of aviation petroleum products. (1246)

6. Sale or service of aircraft parts, avionics, instruments, or other aircraft equipment. (1246)

7. Repair, maintenance, rebuilding, alteration, or exchange of aircraft and aircraft engines, components, or other parts. (1246)

8. Flying clubs. (1246)

9-9-14: RATES AND CHARGES

A schedule of rates and charges for use of the airport and its facilities shall be established by the City Council, and each person or organization subject to said rates and charges shall promptly pay the amounts due. A copy of such schedule shall be posted in the office of the Director. (1246)

9-9-15: VIOLATIONS OF THIS CHAPTER

(A) Any person who shall violate any of the provisions of Title 9, Chapter 9 of the Mesa City Code shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine not to exceed two thousand five hundred dollars ($2,500.00) or by imprisonment in the City jail for a period not to exceed six (6) months, or by both such fine and imprisonment. (1501, 2466)

(B) In addition to the penalties set forth in the above paragraph, violations of this Chapter or of any rule, regulation, order, or instruction issued by the Director may result in withdrawal of permission by the Director to use the airport. (1501)

CHAPTER 10
DISPOSITION OF UNNECESSARY ROADWAY AND EASEMENTS

9-10-1: DISPOSITION OF ROADWAYS

Pursuant to the provisions of Title 28, Chapter 20, Article 8, of the Arizona Revised Statutes, the City Council may dispose of unnecessary public roadways, upon application being made to the Real Estate Services offices on forms prepared by that office and upon paying the application fee as set forth in the schedule of fees and the purchase price for the value of the land.
(Ord. No. 5938, § 2, 4-21-25)

9-10-2: EXTINGUISHMENT OF RIGHT-OF-WAY EASEMENTS

Pursuant to the provisions of Title 28, Chapter 20, Article 8 of the Arizona Revised Statutes, the City Council may extinguish right-of-way easements no longer needed by the City upon application being made to the Real Estate Services offices on forms prepared by that office and upon paying an application fee as set forth in the schedule of fees.
(Ord. No. 5938, § 2, 4-21-25)

9-10-3: RESERVATION OF EASEMENTS

In the event there are existing public utility lines in any unneeded public roadway that is to be abandoned or if in the sole discretion of the City it is probable that there will be a need for a public utility easement, the City shall retain an easement or easements for such purposes and of such size as the City may determine. (1843)

9-10-4: LEGAL DESCRIPTION

A legal description of the unnecessary public roadway to be abandoned or unnecessary easements to be extinguished shall accompany the application. (1843)

9-10-5: APPLICATION FEE NOT TO BE REFUNDED

In the event the City Council denies the application for vacation of a public roadway or any portion thereof or extinguishment of an easement or any portion therefore, no portion of the application fee shall be refunded to the applicant. (1843)

CHAPTER 11
FLOODPLAIN REGULATIONS*

9-11-1: PURPOSE AND STATUTORY AUTHORITY

In accordance with A.R.S. Title 48, Chapter 21, Article 1, the City of Mesa elects not to assume the responsibility of Floodplain Management from the Flood Control District of Maricopa County as provided for in A.R.S. §§ 48-3609, 48-3610; and development within areas designated as Flood Hazard Zones located within city limits

***Editor's note—**Ord. No. 4455 amended Chapter 11 to read as herein set out. Former Chapter 11 derived from Ord. Nos. 2396, 2466, 2597, 2906, 3405.

shall be subject to such rules and regulations as may be established by the State and the Flood Control District of Maricopa County in conformance with the National Flood Insurance Program requirements and the provisions of A.R.S. Title 48, Chapter 21, Article 1 and conformance to such rules and regulations shall be in addition to any other applicable Mesa code requirements. (4961, 5298)

9-11-2: FLOODPLAIN ADMINISTRATOR

The City Engineer is appointed and designated as the Floodplain Administrator for the City of Mesa and will serve as the community point of contact on National Flood Insurance Program issues for County, State and Federal officials. The Floodplain Administrator will be responsible for (1) coordinating with County Flood Control District staff regarding floodplain management and (2) verifying that the community's participation in the National Flood Insurance Program is maintained and remains in good standing through adoption and enforcement of these regulations. (4455, 4961, 5298)

The Floodplain Administrator shall also be, at a minimum, responsible for the following:

1. Keep and maintain current flood insurance studies and flood insurance rate map(s) applicable to the community. (5298)
2. Keep and maintain copies of the most current version of the "Floodplain Regulations for Maricopa County" at the office of the Mesa City Clerk. (5298)
3. Keep and maintain elevation certificates (or acceptable records of lowest flood elevations) for all structures within the Special Flood Hazard areas; and (5298)
4. Repeal or modify all existing local ordinances that conflict with these regulations. (5298)

Duties of the Floodplain Administrator shall also include: (4455, 4961, 5298)

(A) Establishment of procedures to ensure that all requests for permits for floodplain development will be promptly forwarded to the Flood Control District of Maricopa County and that no permits will be issued by any agent of the City until a valid Floodplain Use Permit is obtained by the applicant. (4961)

(B) Delineating and assisting the Federal Insurance Administrator, at his request, in delineating the limits of the areas having special flood hazards on available local maps of sufficient scale to identify the location of building sites. (4961)

(C) Providing such information to the Federal Insurance Administrator as he may request concerning present uses and occupancy of the floodplain areas within city limits. (4961)

(D) Cooperation with federal, state and local agencies and private firms which undertake to study, survey, map and identify floodplain areas, and cooperate with neighboring communities with respect to management of adjoining floodplain areas in order to prevent aggravation of any existing hazards. (4961)

(E) Submission of reports and information, as needed, to the Federal Insurance Administrator on floodplain management. (4961)

9-11-3: ELEVATION CERTIFICATE

No Certificate of Occupancy, Certificate of Completion, or Temporary Certificate of Occupancy shall be issued by the City until the applicant provides to the City an approved finished construction Elevation Certificate approved by the Flood Control District of Maricopa County.
(Ord. No. 4961; Ord. No. 5572, § 1, 6-1-20)

9-11-4: FLOODPLAIN MANAGEMENT REGULATIONS

That certain public document entitled "Floodplain Management Regulations for Maricopa County" dated and amended on January 17, 2018, and all subsequent amendments and revisions, a copy of which shall be kept on file in the Office of the City Clerk, is hereby adopted by reference as the legal basis for implementing floodplain management in the City of Mesa.
(Ord. No. 4455; Ord. No. 4961; Ord. No. 5298; Ord. No. 5572, § 2, 6-1-20)

9-11-5: SPECIAL FLOOD HAZARD AREAS

Those certain public documents entitled "Flood Insurance Study for Maricopa County, Arizona, and Incorporated Areas" dated September 18, 2020 with accompanying "Flood Insurance Rate Maps" dated September 18, 2020, and all subsequent amendments and revisions to each, copies of which shall be kept on file in the Office of the City Clerk, are hereby adopted by reference and are referred to herein as the "Flood Study" and "Rate Maps." The Flood Study and Rate Maps are the basis for establishing the Special Flood Hazard Areas for floodplain management in the City of Mesa. The Special Flood Hazard Areas documented in the Flood Study and Rate Maps are the minimum area of applicability of the Floodplain Management Regulations. These Special Flood Hazard Areas may be changed and supplemented by amendments to the Flood Study and Rate Maps and by studies for other areas as allowed in the Floodplain Management Regulations.
(Ord. No. 4961; Ord. No. 5298; Ord. No. 5572, § 3, 6-1-20)

9-11-6: VIOLATIONS AND PENALTIES

It shall be a violation of this Chapter to develop land contrary to or in violation of any provision of this Chapter, to violate any provision or requirement of this Chapter, or to fail to comply with the Floodplain Management Regulations. (4961)

(A) A person who violates this Chapter is guilty of a Class 2 Misdemeanor. (4961)

(B) In addition to the penalties set forth in the above paragraph, if the Floodplain Administrator determines that there has been a violation of this Chapter, the Building Safety Director is authorized to issue a stop work order, or to withhold, suspend or revoke a Certificate of Occupancy, Certificate of Completion, or Temporary Certificate of Occupancy issued under the provision of Title 4 of the Mesa City Code. (4961, 5298)

(C) A violation of this Chapter shall also be deemed to be a violation of A.R.S. Title 48, Chapter 21, Article 1 and is subject to penalties described in A.R.S. § 48-3615; and the City shall be entitled to seek injunctive and all other applicable legal and equitable remedies as provided by law for any development that diverts, retards or obstructs the flow of waters in a watercourse or Special Flood Hazard Area without the written authorization of the Flood Control District of Maricopa County. (4961)

(D) Nothing in this Chapter precludes any private or public right of action by any person or entity damaged by another's unauthorized diversion, retardation or obstruction of a watercourse. (4961)

9-11-7: WARNING AND DISCLAIMER OF LIABILITY

The degree of flood protection required by this Chapter and applicable state and county regulations is considered reasonable for regulatory purposes. Flood heights may be increased by man-made or natural causes. This section does not imply that land outside the areas of Special Flood Hazard or uses permitted within such areas will be free from flooding or flood damages. This Chapter shall not create liability on the part of the City or any officer or employee thereof. (4961)

CHAPTER 12
CUSTOMER RESPONSIBILITIES IN THE MESA PUBLIC LIBRARY (Repealed)*

CHAPTER 13
FOREIGN TRADE ZONE

9-13-1: PURPOSE

The purpose of this Chapter is to promote economic development through the creation of a foreign trade zone ("FTZ"). (3404)

9-13-2: DEFINITIONS

Unless the context requires otherwise, the following words and phrases shall have the following meanings: (3404)

(A) **ACT:** The Foreign Trade Zones Act of June 18, 1934, as amended (Pub. L. 73-397, 48 Stat. 998 - 1003 (19 U.S.C. 81A-8IU)). (3404, 5194)

(B) **BOARD:** The Foreign Trade Zones Board ("FTZB") created by the Act to carry out the provisions thereof. The FTZB consists of the Secretary of the Department of Commerce (Chairman) and the Secretary of the Treasury, or their designated alternates. (15 CFR § 400.2[D]). (3404, 5194)

(C) **FOREIGN TRADE ZONES (FTZ or Zone):** Restricted-access sites in or near ports of entry that are licensed by the Foreign Trade Zones Board and operated under the supervision of U.S. Customs & Border Protection. To the extent Zones are "activated" under U.S. Customs and Border Protection (CBP) procedures in 19 CFR Part 146, and only for the purposes specified in the Act (19 U.S.C. 81C), Zones are treated for purposes of the Tariff Laws and Customs Entry Procedures as being outside the customs territory of the United States. Under Zone Procedures, foreign and domestic merchandise may be

***Editor's note—**Ord. No. 3803 repealed Chapter 12. Formerly, such chapter derived from Ord. No. 3038.

admitted into Zones for operations such as storage, exhibition, assembly, manufacture and processing, without being subject to formal Customs Entry Procedures and payment of duties, unless and until the foreign merchandise enters customs territory for domestic consumption. (3404, 5194)

(D) **GRANTEE:** The grantee of Foreign Trade Zone No. 221 is the City of Mesa, Arizona, an organization to which the privilege of establishing, operating, and maintaining a foreign trade zone has been granted by Order 883 and Order 1538 of the Foreign Trade Zones Board. (3404, 5194)

(E) **PORT DIRECTOR, U.S. CUSTOMS:** The Port Director of U.S. Customs & Border Protection (CBP) located in Phoenix, Arizona, or representative. (3404, 5194)

(F) **SUBZONE:** A site (or group of sites) established for a specific use. (3404, 5194)

(G) **ZONE OPERATOR:** The City of Mesa or an organization, corporation, partnership, or person that operates within FTZ No. 221 under the terms of an agreement with the City of Mesa, with concurrence of U.S. Customs & Border Protection. (3404, 5194)

(H) **ZONE PARTICIPANT:** A current or prospective zone operator, zone user, or property owner. (5194)

(I) **ZONE SCHEDULE:** The grantee's rules, regulations and policies for the zone including all rates or charges assessed by or on behalf of the grantee and information regarding any operator which has an agreement with the grantee to offer services to the public, including the operator's rates or charges for all zone-specific services offered. The zone schedule may be updated from time to time by the City of Mesa Economic Development Department. (5194)

(J) **ZONE SITE (SITE):** The physical location of a zone or subzone. (5194)

(K) **ZONE USER:** A party using a zone under agreement with a zone operator. (3404, 5194)

9-13-3: CREATION OF FOREIGN TRADE ZONE

FTZ No. 221 was granted by the Foreign Trade Zones Board to the City of Mesa, Arizona on April 25, 1997 (Board Order #883). FTZ No. 221 was reorganized and expanded on January 7, 2008 (Board Order #1538). (5194)

The City may assist those businesses that request trade assistance outside of the FTZ No. 221 boundaries through modification of the general purpose zone boundaries (major or minor) or through sponsorship of a subzone. (3404, 5194)

9-13-4: APPLICATION for FOREIGN TRADE ZONE

(A) Requests for an activation, expansion or subzone must be made to the City of Mesa Office of Economic Development. (5194)

(B) Agreements to operate within a zone site must be entered into with City of Mesa and approved by the City Council. (3404, 5194)

(C) All applicable fees shall be received by the City prior to granting authorization to establish or operate in a Mesa-approved general-purpose zone or subzone site. (3404, 5194)

(D) Arizona offers a property tax benefit for activated zone sites under A.R.S. 42-12006. Approval of a zone site by the FTZB does not, in and of itself, convey the Arizona property tax benefit to any zone participant (operator, user or property owner). The City of Mesa will not sponsor any zone site seeking property tax reclassification without a written explanation of the tax impact and the necessary concurrence or non-objection letter from the applicable local taxing authority. (5194)

9-13-5: ACTIVATION AND DEACTIVATION

(A) The Port Director of U.S. Customs & Border Protection, with concurrence from the grantee, may approve activation of all or a portion of a zone site based on a written activation application submitted to the Customs Port Director by a proposed zone operator pursuant to 19 CFR Part 146. (3404, 5194)

(B) An activated zone operator may file a request with the Customs Port Director to deactivate all or a portion of an existing activated general purpose zone or subzone and shall thereafter cease to admit merchandise into the zone site in zone status. Final action and disposition of the zone merchandise must be made with the concurrence of the Port Director. (3404, 5194)

9-13-6: FEE SCHEDULE

(A) The following list of fees is adopted: (3404, 5194)

1. Application Fee: (3404, 5194)

Boundary Modification	$1,000.00
Expansion Application	$5,000.00
Subzone Application	$5,000.00

Fees are payable within ten (10) days after City of Mesa Council approval of application and prior to submission of application to the Foreign Trade Zones Board. Balance due within ten (10) days after filing of application with Foreign Trade Zones Board. (3404, 5194)

2. Activation Fee: (3404, 5194)

The City of Mesa charges a fee to cover the costs of reviewing and processing the necessary grantee documentation for FTZ activation applications to CBP. (5194)

Activation Fee	$1,000.00

The activation fee is due within ten (10) days after execution of an operating agreement and prior to issuance of grantee's activation concurrence letter. (3404, 5194)

3. Annual Fee: (3404, 5194)

The City of Mesa charges an annual fee that is due at the end of each calendar year. (5194)

Property Owners (non-activated site)	No Fee Charged
General-Purpose Zone Operators	$5,000.00
Subzone Operators	$5,000.00

9-13-7: PROCEDURES

(A) Agreements. All zone operators and property owners must enter into an agreement with the City of Mesa, the zone grantee. Zone users who are not also zone operators must enter into a user agreement with a zone operator. If there is a conflict between an agreement between the City of Mesa and an operator and the zone schedule, the agreement will prevail. If there is a conflict between a user agreement and the zone schedule, the zone schedule will prevail unless the City of Mesa agrees in writing to such terms. (3404, 5194)

(B) Independent Contractor Status. Zone grantee, zone operator, zone user and zone property owner are not and shall not be considered as joint ventures, partners, or agents of each other, and neither shall have the power to bind or obligate the other except as set forth in any written agreements. Zone grantee, zone operator, zone user and zone property owner agree not to represent to anyone that they are agents of one another or have any authority to act on behalf of one another except as set forth in any written agreements. (3404, 5194)

(C) Exemption from Grantee Liability. The City of Mesa will not undertake detailed operational oversight of or direction to zone participants. Pursuant to CFR § 400.46 grantee liability, as may be amended from time to time, the City of Mesa shall not be liable for violations of any laws by zone participants. (5194)

(D) No Grantee Warranties. The City makes no warranties or representations regarding the benefits that may or may not be realized through participation in the FTZ program by property owners, zone operators or zone users. (5194)

(E) For Foreign Trade Zones Board annual reporting purposes, the zone year is a calendar year. For U.S. Customs & Border Protection annual reconciliation purposes, each zone operator may choose its own operating zone year. Each zone operator shall provide an annual report to the City of Mesa each calendar year or at such other time as set forth in the zone schedule or operator agreement. (5194)

9-13-8: APPEALS

Any determination made by any official of the City charged with the administration of any part of this Chapter may be appealed to the City Manager, or his designee. All appeals must include a written notice of appeal that contains an explanation of why the appellant feels that the determination was in error. The notice of appeal must be filed with the Office of Economic Development within thirty (30) days of the determination for which the appeal is being filed. The determination of the City Manager, or his designee, shall be final. (5194)

9-13-9: PENALTY

(A) Violations of this Chapter are civil under the City of Mesa authority and may also be subject to a federal action under the provisions and regulations of U.S. Customs & Border Protection and the Foreign Trade Zones Board. Violations can result in the loss of foreign trade zone privileges other remedies including merchandise seizure, fines, penalties and criminal sanctions may be applicable as provided by laws and regulations. (3404, 5194)

(B) Termination-Conviction/Abandonment. Foreign trade zone privileges may be terminated if:

1. Zone participant shall be convicted under any law of a felony as defined by such law; (5194)

2. If the Foreign Trade Zones Board or U.S. Customs & Border Protection suspends or terminates zone participant or the activated status of the zone; (5194)

3. If the zone participant voluntarily abandons, deserts, or vacates the premises or discontinues its operations; (5194)

4. If zone participant fails to immediately provide all records and reports required to be prepared or maintained by zone participant under applicable law or regulation to zone grantee, the Foreign Trade Zones Board, and U.S. Customs & Border Protection upon request of one of those entities. (3404, 5194)

5. If zone participant violates or fails to comply with any of the provisions or requirements of this Title 9 Chapter 13 of the Mesa City Code, the zone schedule, or its operator agreement with the City of Mesa. (5194)

CHAPTER 14

TELECOMMUNICATIONS SERVICE

9-14-1: DEFINITIONS:

In this Chapter, unless the context otherwise requires: (3602)

CABLE SERVICES and **CABLE SYSTEM** shall have the same meaning as defined in Chapter 7, Title 9, Mesa City Code. (3602)

CITY means the City of Mesa, Maricopa County, Arizona. (3602)

COMMERCIAL MOBILE RADIO SERVICE means two-way voice commercial mobile radio service as defined by the Federal Communications Commission in 47 United States Code Section 157. (3602)

FACILITIES means the plant, equipment, and property, including but not limited to poles, wires, pipe, conduits, pedestals, antenna, and other appurtenances placed in, on, or under highways and not owned by the City in the provision of telecommunications services. (3602)

PUBLIC HIGHWAY or **HIGHWAY** means all roads, streets, and alleys and all of the dedicated public rights-of-way and public utility easements of the City. (3602)

TELECOMMUNICATIONS means the transmission, between or among points specified by the user of information of the user's choosing, without change in the form or content of the information as sent and received. The term does not include commercial mobile radio services, pay phone services, interstate services, or cable services. (3602)

TELECOMMUNICATIONS CORPORATION means any public service corporation to the extent that it provides telecommunications services in this State. (3602)

TELECOMMUNICATIONS SERVICES means the offering of telecommunications for a fee directly to the public, or to such users to be effectively available directly to the public, regardless of the facilities used. (3602)

9-14-2: LICENSE REQUIRED

(A) No telecommunications corporation shall install, maintain, construct, or operate telecommunications facilities in any public highway in the City, or provide telecommunications service by means of such facilities unless a license to provide telecommunications services has first been granted by the City under this Chapter. (3602)

(B) Notwithstanding Subsection (A), any telecommunications corporation that was providing telecommunications service within the State of Arizona as of October 31, 1997 pursuant to a grant made to it or its lawful predecessors prior to the effective date of the Arizona Constitution, may continue to provide telecommunications services pursuant to that State grant, until the State grant is lawfully repealed, revoked, or amended, and need not obtain any further authorization from the City to provide telecommunications services; provided, however, that such entity must in all other respects comply with the requirements applicable to telecommunications corporations, as provided in Title 9, Chapter, 5, Article 7, Arizona Revised Statutes. (3602)

(C) Nothing in this Chapter shall be deemed to affect the terms or conditions of any franchise, license, or permit issued by the City prior to October 31, 1997, or to release any party from its obligations thereunder. Those franchises, licenses, or permits shall remain fully enforceable in accordance with their terms. The City Manager, with the consent of the City Council, may enter into agreements with franchise holders, licensees, or permittees to modify or terminate an existing franchise, license, or agreement. (3602)

(D) A license to any telecommunications corporation to use the highways to install, maintain, construct, or operate telecommunications facilities, or to provide telecommunications services under this Chapter shall not authorize the use of the highways to provide any other service; nor shall the issuance of the same invalidate any franchise, license, or permit that authorizes the use of the highways for such other service; nor shall the fact that an entity holds a franchise, license, or permit to make any other use of the highway or to provide any other service authorize installation, maintenance, construction, or operation of telecommunications facilities in any highway in the City, or permit such entity to provide telecommunications services by means of such facilities without obtaining a license hereunder. (3602)

(E) Any license granted shall not be exclusive. (3602)

9-14-3: LICENSE PROPOSAL

(A) A telecommunications corporation desiring a license to occupy the streets and other highways of the City to provide telecommunications service shall file a proposal with the Development Services Manager in the form prescribed by such Manager, and shall pay a fee determined by the Development Services Manager. The amount of the fee shall be reasonably related to the cost directly incurred by the City relating to the granting or administration of the license and can be appealed to the City Manager. (3602,3766)

(B) Each application shall, at a minimum, (1) show where the facilities the applicant will use will be located, or contain such other information as the City may deem necessary in order to ensure that the applicant will comply with the requirements for use of the highways; (2) identify the applicant, its name, current address, and telephone number; (3) contain a description of the services to be provided; and (4) set out a description of any agreement with any other entity that would permit such entity to use the facilities. (3602)

(C) Upon receiving an application for a license that satisfies the conditions of Section (B), the City shall promptly offer a telecommunications license to the applicant for its review, and may inquire into matters relevant to the issuance of the license. If the applicant agrees to the terms and conditions of the offered license, the applicant's request shall be approved. Notwithstanding the foregoing, the City need not issue or renew a license if the applicant has previously had a license or permit revoked, or for any other reason permitted under Arizona law. (3602)

(D) As a condition of issuing or renewing a license to use the public highways to provide telecommunications services, the City may require that: (3602)

1. The applicant show that it has received a Certificate of Public Convenience and Necessity from the Arizona Corporation Commission; (3602)

2. The applicant agrees to comply with the highway use requirements that the City may establish from time to time; (3602)

3. The applicant agrees to provide and maintain accurate maps showing the location of all the facilities it will use in the highways within the City, and to comply with such other mapping requirements as the City may establish from time to time. (3602)

4. The applicant obtains the insurance, and provides proof of insurance, as required by the City; posts the performance bonds and security fund required by the City; agrees to fully indemnify the City, its Mayor and Councilmembers, officers, agents, boards, and commissions, in a form satisfactory to the City; and agrees that it shall have no recourse against the City for monetary damages as a result of any damage that may result from the City's exercise of its rights under the license, or applicable provisions of law. (3602)

5. The applicant agrees to comply with and be bound by the administrative and enforcement provisions as may be prescribed from time to time by the City which may include: (3602)

   (a) Provisions covering assignment; (3602)

   (b) The right to inspect records to determine compliance by the licensee; (3602)

   (c) Provisions for renewal; (3602)

   (d) Fees and charges contemplated by A.R.S. § 9-582(C) may be charged by the City as allowed by law. (3602)

(E) Any license granted by the City pursuant to this Chapter shall commence upon adoption of the license and acceptance of the license by the provider. The license shall be for a term of five (5) years, and subject to the conditions and restrictions provided in the instrument and this Chapter. (3602)

(F) Every licensee shall be subject to the City's exercise of such police, regulatory, and other powers as the City now has or may later obtain, and a license may not waive the application of the same, and must be exercised in strict conformity therewith. Every license shall be subject to revocation if the licensee fails to comply with the terms and conditions of the license or applicable law. Provided, however, that a license shall not be revoked unless the licensee is given written notice of the defect in performance and fails to cure the defect within sixty (60) days of the notice, except where the City finds that the defect in performance is due

to intentional misconduct, or is a violation of criminal law, or is part of a pattern of violations where the licensee has already had notice and opportunity to cure. A hearing shall be held before a license is revoked or not renewed if the licensee requests a hearing. (3602)

(G) The issuance of a license by the City is not a representation or warranty that such license is a legally sufficient substitute for a franchise and is not a representation or warranty that a franchise is not required. (3602)

TITLE 10 TRAFFIC

CHAPTER 1 BICYCLES, SCOOTERS, SHARED ACTIVE TRANSPORTATION VEHICLES, AND SKATEBOARDS

10-1-1: DEFINITIONS
10-1-2: REGISTRATION OF NON SATVS
10-1-3: FEES
10-1-4: RENTAL AGENCIES OR OPERATOR
10-1-5: LICENSING OF SHARED ACTIVE TRANSPORTATION VEHICLES
10-1-6: APPLICATION OF TRAFFIC LAWS
10-1-7: OBEDIENCE TO TRAFFIC-CONTROL DEVICES
10-1-8: RIDING ON RIGHT OF WAY, ROADWAYS AND BICYCLE PATHS
10-1-9: SPEED, EXCEPTIONS
10-1-10: EMERGING FROM ALLEY OR DRIVEWAY
10-1-11: CLINGING TO VEHICLES
10-1-12: CARRYING ARTICLES AND PASSENGERS
10-1-13: PARKING
10-1-14: RIDING ON SIDEWALKS, EXCEPTIONS
10-1-15: LAMPS AND OTHER EQUIPMENT
10-1-16: CITY BUILDING AND PARK RESTRICTIONS, EXCEPTIONS
10-1-17: MOTORIZED SKATEBOARDS
10-1-18: SHARED ACTIVE TRANSPORTATION VEHICLES
10-1-19: PARENT OR GUARDIAN LIABILITY
10-1-20: AGE
10-1-21: RECKLESS RIDING; PENALTY
10-1-22: REFUSING TO PROVIDE TRUTHFUL NAME AND DATE OF BIRTH WHEN LAWFULLY DETAINED; PENALTY
10-1-23: CIVIL PENALTY

CHAPTER 2 PARKING METERS (REPEALED)

CHAPTER 3 TRAFFIC

10-3-1: DEFINITIONS
10-3-2: DUTY OF POLICE DEPARTMENT
10-3-3: RECORDS OF TRAFFIC VIOLATIONS
10-3-4: TRAFFIC ACCIDENT STUDIES
10-3-5: TRAFFIC ACCIDENT REPORTS
10-3-6: POLICE DEPARTMENT TO SUBMIT ANNUAL TRAFFIC SAFETY REPORT
10-3-7: DUTIES OF OFFICERS OF POLICE AND FIRE DEPARTMENTS
10-3-8: OBEDIENCE TO TRAFFIC REGULATIONS
10-3-9: PERSONS PROPELLING PUSH CARTS OR RIDING ANIMALS TO OBEY TRAFFIC REGULATIONS
10-3-10: COASTERS, ROLLER SKATES, AND SIMILAR DEVICES
10-3-11: PUBLIC EMPLOYEES TO OBEY TRAFFIC REGULATIONS
10-3-12: EXEMPTIONS TO AUTHORIZED EMERGENCY OR SERVICE VEHICLES
10-3-13: TRAFFIC-CONTROL DEVICES
10-3-14: TURNING MOVEMENTS
10-3-15: PROHIBITING TURNS FROM DRIVEWAYS

10-3-16: ONE-WAY STREETS, ALLEYS, AND DRIVEWAYS
10-3-17: SPECIAL STOPS REQUIRED
10-3-18: MISCELLANEOUS RULES
10-3-19: PEDESTRIAN'S RIGHTS AND DUTIES
10-3-20: METHOD OF PARKING
10-3-21: STOPPING, STANDING, OR PARKING PROHIBITED IN SPECIFIED PLACES
10-3-22: COMMERCIAL VEHICLE PARKING TIME RESTRICTED
10-3-22.1: PARKING OF SPECIFIED VEHICLES RESTRICTED
10-3-23: STOPPING FOR LOADING OR UNLOADING ONLY
10-3-24: STOPPING, STANDING, OR PARKING RESTRICTED OR PROHIBITED ON CERTAIN STREETS
10-3-25: PARKING VIOLATIONS; LIABILITY AND ENFORCEMENT
10-3-26: WHEN VEHICLES MAY BE IMPOUNDED
10-3-27: EXCESS LOADS; CIVIL SANCTIONS AND PENALTIES FOR VIOLATION

CHAPTER 4 SPEED LIMITS

10-4-1: SPEEDS OF 55 MILES PER HOUR PERMITTED ON CERTAIN STREETS
10-4-2: SPEEDS OF 50 MILES PER HOUR PERMITTED ON CERTAIN STREETS
10-4-3: SPEEDS OF 45 MILES PER HOUR PERMITTED ON CERTAIN STREETS
10-4-4: SPEEDS OF 40 MILES PER HOUR PERMITTED ON CERTAIN STREETS
10-4-5: SPEEDS OF 35 MILES PER HOUR PERMITTED ON CERTAIN STREETS
10-4-6: SPEEDS OF 30 MILES PER HOUR PERMITTED ON CERTAIN STREETS
10-4-7: SPEEDS OF 25 MILES PER HOUR PERMITTED ON CERTAIN STREETS
10-4-7.1: SPEEDS OF 15 MILES PER HOUR PERMITTED IN ALLEYS
10-4-7.2: SPEEDS OF 15 MILES PER HOUR PERMITTED ON CERTAIN STREETS (REPEALED)
10-4-8: FALCON FIELD RESTRICTIONS
10-4-9: EMERGENCY, CONSTRUCTION OR CONTINGENT SPEED LIMITS
10-4-10: PENALTY FOR EXCEEDING THE MAXIMUM SPEED LIMIT
10-4-11: SPEEDS OF 35 MILES PER HOUR PERMITTED ON CERTAIN STREETS DURING CERTAIN HOURS

CHAPTER 5 PARKING LOTS AND GARAGES

10-5-1: PARKING RESTRICTED OR PROHIBITED
10-5-2: VIOLATIONS
10-5-3: SIGNS OR MARKINGS REQUIRED FOR ENFORCEMENT
10-5-4: RENTAL; LEASES AND PERMITS; ADMINISTRATION
10-5-5: AUTHORITY TO IMPOUND VEHICLES
10-5-6: AUTHORITY TO ATTACH A RESTRAINING DEVICE

CHAPTER 6 OFF-STREET PARKING AREAS (REPEALED)

CHAPTER 7 CIVIL TRAFFIC VIOLATIONS

10-7-1: CIVIL TRAFFIC VIOLATIONS
10-7-2: AUTHORITY TO DETAIN PERSONS TO SERVE TRAFFIC COMPLAINT
10-7-3: HEARING OFFICERS (REPEALED)
10-7-4: HABITUAL OFFENDERS

CHAPTER 8 PENALTY FOR REFUSAL TO FURNISH INFORMATION OR SIGN CIVIL TRAFFIC CITATION

10-8-1: REFUSAL TO FURNISH INFORMATION OR SIGN CITATION
10-8-2: PENALTY

CHAPTER 9 PRIVATE PARKING AREAS

10-9-1: PARKING IN PRIVATE PARKING AREAS
10-9-2: CONSENT AND NOTICE TO POLICE AND RELEASE OF VEHICLE

CHAPTER 10 TEMPORARY TRAFFIC CONTROL MANUAL

10-10-1: TEMPORARY TRAFFIC CONTROL MANUAL
10-10-2: AUTHORITY TO APPROVE OR DENY RESTRICTIONS AND ISSUE PERMITS
10-10-3: VIOLATIONS AND ENFORCEMENT

CHAPTER 1

BICYCLES, SCOOTERS, SHARED ACTIVE TRANSPORTATION VEHICLES, AND SKATEBOARDS*

10-1-1: DEFINITIONS

BICYCLE means any two- (2-) wheeled vehicle having a tandem arrangement of the wheels and having cranks, levers, or pedals for its propulsion by the feet.

BUSINESS LICENSING ADMINISTRATOR means the Business Licensing and Revenue Collections Administrator of the City or his/her designee.

ELECTRIC BICYCLE means the same as defined in Arizona Revised Statute Section 28-101.

ELECTRIC MINIATURE SCOOTER means the same as defined in Arizona Revised Statute Section 28-101.

ELECTRIC STANDUP SCOOTER means the same as defined in Arizona Revised Statute Section 28-101.

LICENSING OFFICE means the Division of the City's Business Services Department under the supervision of the City's Business Licensing and Revenue Collections Administrator.

MOTORIZED SKATEBOARD means the same as stated in Arizona Revised Statute Section 28-101.

OPERATOR means the entity or person renting and staging shared active transportation vehicles in the right-of-way pursuant to a license authorized by this Chapter.

OWNER means any person or entity who holds legal title to a bicycle, electric bicycle, electric standup scooter, electric miniature scooter, SATV, motorized skateboard, skateboard; or if the bicycle, electric bicycle, electric standup scooter, electric miniature scooter, SATV, motorized skateboard, skateboard is the subject of a lease or an agreement for the conditional sale thereof, with the right of purchase upon performance of the conditions stated in the agreement and with an immediate right of possession vested in the conditional vendee or lessee; or if a mortgagor of a bicycle, electric bicycle, electric standup scooter, electric miniature scooter, SATV, motorized skateboard, skateboard is entitled to possession, then such lessee, conditional vendee, or mortgagor shall be deemed the owner.

RESIDENTIAL STREET means a street with a posted speed limit of 25 mph or less.

RIDER means any person riding a bicycle, electric bicycle, electric standup scooter, electric miniature scooter, SATV, motorized skateboard, and skateboard on the sidewalk and/or in the right-of-way.

RIGHT-OF-WAY or **ROW** means a public roadway, highway, street, sidewalk, alley or utility easement. Right-of-way does not include a Federal Interstate Highway, a state highway or state route under the jurisdiction of the Arizona Department of Transportation, county-owned highway, a private easement, property that is owned by a special taxing district, or a utility easement.

***Editor's note—**Ord. No. 5533, adopted October 7, 2019, amended Chapter 1 in its entirety to read as herein set out. Former Chapter 1, §§ 10-1-1—10-1-21, pertained to bicycles and skateboards, and derived from Ords. 227, 357, 860, 1286, 1665, 1771, 1968, 2547, 3688, 3847, 5024.

SHARED ACTIVE TRANSPORTATION VEHICLE or **SATV** means a commercially-rented coaster, electric standup scooter, electric miniature scooter, bicycle, electric bicycle, or any other mobile vehicle, excluding motor vehicles, with a self-containing locking mechanism that does not require locking to a bicycle rack, docking system or other structure.

SKATEBOARD means a platform mounted on wheels that is propelled by human power.

SKATEBOARDING means the act of using a skateboard.

TERMS AND CONDITIONS means the shared active transportation vehicle terms and conditions that govern the use of shared active transportation vehicles as may be amended from time to time.
(Ord. No. 5533, 10-7-19)

10-1-2: REGISTRATION OF NON SATVS

Within 30 days of acquiring ownership, every owner of a bicycle, electric bicycle, electric standup scooter, or electric miniature scooter before the same shall be operated on any of the public thoroughfares of the municipality, and every purchaser of a bicycle, electric bicycle, electric standup scooter, or electric miniature scooter obtained from a City auction, shall apply for the registration thereof. Registration shall be accomplished through utilization of the Mesa Police Department's Bicycle Registration Program. This Section does not apply to a SATV.
(Ord. No. 5533, 10-7-19)

10-1-3: FEES

No fees shall be required for the registration of bicycles, electric bicycle, electric standup scooters, or electric miniature scooters.
(Ord. No. 5533, 10-7-19)

10-1-4: RENTAL AGENCIES OR OPERATOR

A rental agency or operator shall not rent or offer any bicycle, electric bicycle, electric standup scooter, or electric miniature scooter, for rent unless it is equipped with lamps and/or other equipment required in this Chapter. This Section does apply to a SATV.
(Ord. No. 5533, 10-7-19)

10-1-5: LICENSING OF SHARED ACTIVE TRANSPORTATION VEHICLES

(A) No shared active transportation vehicle shall be staged or deployed in the City right-of-way without a license required by this Chapter.

(B) The Business Licensing Administrator will issue, renew, deny, or revoke a shared active transportation vehicle license in accordance with this chapter and the terms and conditions and administer the provisions of the terms and conditions.

(C) All operators in the City must first obtain a license from the Business Licensing Administrator as provided in this Chapter before staging of any shared active transportation vehicle.

(D) A license issued pursuant to this Chapter shall be governed by this Chapter and the terms and conditions.
(Ord. No. 5533, 10-7-19)

10-1-6: APPLICATION OF TRAFFIC LAWS

Every person riding a bicycle, electric bicycle, electric standup scooter, electric miniature scooter, motorized skateboard, or SATV, upon a roadway in the City shall be granted all of the rights and shall be subject to all of the duties applicable to the driver of a vehicle by the laws of this State declaring rules of the road applicable to vehicles or by the traffic laws of this City applicable to the driver of a vehicle except as to special regulations herein and except as to those provisions of law which by their nature can have no application.
(Ord. No. 5533, 10-7-19)

10-1-7: OBEDIENCE TO TRAFFIC-CONTROL DEVICES

(A) Any person operating or riding on a bicycle, electric bicycle, electric standup scooter, electric miniature scooter, motorized skateboard, or SATV shall obey the instructions of official traffic-control signals, signs, and other control devices applicable to vehicles unless otherwise directed by a Police officer.

(B) Whenever authorized signs are erected indicating that no right or left or U turn is permitted, no person operating a bicycle, electric bicycle, electric standup scooter, electric miniature scooter, motorized skateboard, or SATV shall disobey the direction of any such sign, except where such person dismounts to make such turn, in which event such person shall then obey the regulations applicable to pedestrians.

(Ord. No. 5533, 10-7-19)

10-1-8: RIDING ON RIGHT OF WAY, ROADWAYS AND BICYCLE PATHS

(A) Every person driving, riding, or operating a bicycle, electric bicycle, electric standup scooter, electric miniature scooter, motorized skateboard, or SATV upon a right of way or bicycle path shall ride as near to the right-hand side of the right of way or bicycle path as practicable, exercising due care when passing a standing vehicle or one proceeding in the same direction.

(B) Persons driving, riding, or operating a bicycle, electric bicycle, electric standup scooter, electric miniature scooter, motorized skateboard, or SATV upon a right of way or bicycle path shall not ride more than two (2) abreast except on paths or parts of the right of way set aside for the exclusive use of bicycles.

(C) A person under the age of eighteen (18) years old driving, riding or operating a bicycle, electric bicycle, electric standup scooter, electric miniature scooter, or SATV upon a right of way or bicycle path shall at all times wear a protective helmet on their head in an appropriate and safely secured manner.

(Ord. No. 5533, 10-7-19; Ord. No. 5995, § 1, 1-12-26)

10-1-9: SPEED, EXCEPTIONS

(A) No person shall drive, ride, or operate an electric bicycle upon a right of way in excess of the posted speed limit or at a speed greater than is reasonable and prudent under the circumstances then existing.

(B) No person shall drive, ride, or operate a class 1 electric bicycle, class 2 electric bicycle, electric standup scooter, or electric miniature scooter in a park at a speed greater than five miles per hour.

(C) No person shall drive, ride, or operate an electric bicycle, electric standup scooter, electric miniature scooter, motorized skateboard, or SATV that is not an electric bicycle at a speed greater than fifteen miles per hour upon a shared use path.

(Ord. No. 5533, 10-7-19; Ord. No. 5995, § 2, 1-12-26)

10-1-10: EMERGING FROM ALLEY OR DRIVEWAY

The operator of a bicycle, electric bicycle, electric standup scooter, electric miniature scooter, motorized skateboard, or SATV emerging from an alley, driveway, or building shall, upon approaching a sidewalk or the sidewalk area extending across any alleyway, yield the right-of-way to all pedestrians approaching on said sidewalk or sidewalk area and upon entering the roadway, shall yield the right-of-way to all vehicles approaching on said roadway.
(Ord. No. 5533, 10-7-19)

10-1-11: CLINGING TO VEHICLES

No person riding upon any bicycle, electric bicycle, electric standup scooter, electric miniature scooter, motorized skateboard, or SATV shall attach the same or himself to any vehicle upon a roadway.
(Ord. No. 5533, 10-7-19)

10-1-12: CARRYING ARTICLES AND PASSENGERS

(A) No person operating a bicycle, electric bicycle, electric standup scooter, electric miniature scooter, motorized skateboard, or SATV shall carry any package, bundle, or article which prevents the rider from keeping at least one (1) hand upon the handlebars.

(B) No person operating a bicycle, electric bicycle, electric standup scooter, electric miniature scooter, motorized skateboard, or SATV shall allow passengers when the bicycle, electric bicycle, electric standup scooter, electric miniature scooter, motorized skateboard, or SATV is in operation or motion.

(Ord. No. 5533, 10-7-19)

10-1-13: PARKING

No person shall park a bicycle, electric bicycle, electric standup scooter, electric miniature scooter, motorized skateboard, or SATV upon a street other than upon the sidewalk against a building or at the curb in such manner as to afford the least obstruction to pedestrian traffic.
(Ord. No. 5533, 10-7-19)

10-1-14: RIDING ON SIDEWALKS, EXCEPTIONS

(A) No person shall operate an electric bicycle upon a sidewalk except a person may drive, ride, or operate a class 1 electric bicycle, class 2 electric bicycle, electric standup scooter, or electric miniature scooter in a safe manner upon a sidewalk within a park.

(B) When signs are erected giving notice thereof, no person shall ride a bicycle, electric standup scooter, electric miniature scooter, skateboard, motorized skateboard, or SATV upon a sidewalk within a Pedestrian Overlay Area (POA). The City Traffic Engineer is authorized to erect signs on any sidewalk within a POA prohibiting the driving, riding, or operating of bicycles, electric bicycles, electric standup scooters, electric miniature scooters, skateboards, motorized skateboards, scooters, or SATVS thereon by any person. The boundaries of the POA are the east side of Country Club Drive to the west side of Centennial Way, the south of 1st Street to the north side of 1st Avenue. The centerline of the aforementioned streets shall be construed to be the boundaries.

(Ord. No. 5533, 10-7-19; Ord. No. 5995, § 3, 1-12-26)

10-1-15: LAMPS AND OTHER EQUIPMENT

(A) Every bicycle, electric bicycle, electric standup scooter, electric miniature scooter, motorized skateboard, or SATV when in use at nighttime, shall be equipped with a lamp on the front which shall emit a white light visible from a distance of at least five hundred feet (500') to the front and with a red reflector on the rear of a type which shall be visible from all distances from fifty feet (50') to three hundred feet (300') to the rear when directly in front of lawful upper beams of head lamps on a motor vehicle. A lamp emitting a red light visible from a distance of five hundred feet (500') to the rear may be used in addition to the red reflector.

(B) No bicycle, electric bicycle, electric standup scooter, electric miniature scooter, motorized skateboard, or SATV shall be equipped with nor shall any person use upon a bicycle, electric bicycle, electric standup scooter, electric miniature scooter, motorized skateboard, or SATV any siren or whistle.

Every bicycle, electric bicycle, electric standup scooter, electric miniature scooter, motorized skateboard, or SATV shall be equipped with a brake which will enable the operator to make the braked wheel skid on dry, level, clean pavement.
(Ord. No. 5533, 10-7-19)

10-1-16: CITY BUILDING AND PARK RESTRICTIONS, EXCEPTIONS

(A) Every bicycle, electric bicycle, electric standup scooter, electric miniature scooter, motorized skateboard, or SATV when in use at nighttime, shall be equipped with a lamp on the front which shall emit a white light visible from a distance of at least five hundred feet (500') to the front and with a red reflector on the rear of a type which shall be visible from all distances from fifty feet (50') to three hundred feet (300') to the rear when directly in front of lawful upper beams of head lamps on a motor vehicle. A lamp emitting a red light visible from a distance of five hundred feet (500') to the rear may be used in addition to the red reflector.

(B) No person shall operate an electric bicycle, electric standup scooter, electric miniature scooter, or motorized skateboard in any City parking structure or City park except a person may drive, ride, or operate a class 1 electric bicycle, class 2 electric bicycle, electric standup scooter, or electric miniature scooter in a park or shared-use path, or a public roadway or trail within a park or shared-use path, as defined and in conformance with Title 6, Chapter 10 of the public park regulations of the Mesa City Code and this Traffic Code.

(C) A person under the age of eighteen (18) years old driving, riding or operating a bicycle, class 1 electric bicycle, class 2 electric bicycle, electric standup scooter, or electric miniature scooter in a park or shared-use path, or a public roadway or trail within a park or shared-use path, shall at all times wear a protective helmet on their head in an appropriate and safely secured manner.
(Ord. No. 5533, 10-7-19; Ord. No. 5995, § 4, 1-12-26)

10-1-17: MOTORIZED SKATEBOARDS

(A) General Operating Restrictions:

1. No person operating a motorized skateboard shall transport extra fuel in a separate container or alter the fuel reservoir from the original manufacturer's design. This includes the prohibition of physically attaching fuel packs or containers to the operator's person.

2. No person shall operate a motorized skateboard in a manner causing excessive, unnecessary, or offensive noise which disturbs the peace and quiet of any neighborhood or which causes discomfort or annoyance to a reasonable person of normal sensitivity.

(B) Required Safety Equipment: A person under the age of eighteen (18) years' operating a motorized skateboard on a roadway shall at all times wear a protective helmet on his or her head in an appropriate and safely secured manner. The helmet shall meet minimum standards of testing and safety inspection as approved by the bicycle industry.

(Ord. No. 5533, 10-7-19)

10-1-18: SHARED ACTIVE TRANSPORTATION VEHICLES

(A) No operator shall stage any shared active transportation vehicle on City-owned property or in the row without an approved license. Any shared active transportation vehicle placed on City-owned property or in the row without a license may be impounded pursuant to the terms and conditions.

(B) License Application. An operator must submit an application and provide information as required by and in compliance with the terms and conditions to the business licensing office.

(C) License Renewal, Termination and Revocation.

(1) A license may be renewed pursuant to the terms and conditions. The completed renewal application must be submitted by the operator no later than forty-five (45) calendar days prior to the expiration of the license along with the applicable renewal fee set forth in the schedule of fees and charges. The licensing office is authorized to obtain necessary information to update the original license application and to determine whether the license should be renewed in accordance with the requirements of this Chapter and the terms and conditions.

(2) If an operator fails to submit a complete renewal application at least forty-five (45) calendar days prior to the expiration of the term of the license, the license will expire at the end of the term of the license. Unless otherwise prohibited by this Chapter, an operator will still be eligible to apply for a new license.

(3) Any party aggrieved by a decision of the Business Licensing Administrator may appeal the decision to the Transportation Department Director. The appeal must be in writing and state the grounds for the appeal. The appeal must be filed with the City Clerk within ten (10) days of the date of the decision being appealed. The failure of an appeal to meet the requirements of this Section will entitle the Business Services Director to deny the appeal without further review.

(Ord. No. 5533, 10-7-19)

10-1-19: PARENT OR GUARDIAN LIABILITY

The parent of any minor or the guardian having custody or control of any minor shall not authorize or knowingly permit the minor to violate any of the provisions of this Chapter. If a fine is imposed upon a minor who is found to be in violation of this Chapter, the parents or legal guardian having custody or control of the minor shall be jointly and severally liable with the minor for payment of the fine whether or not the parents or guardian knew of, or anticipated, a violation of this Ordinance.

(Ord. No. 5533, 10-7-19)

10-1-20: AGE

No one under the age of 16 shall operate an electric bicycle, electric standup scooter, electric miniature scooter, or SATV on any public right-of-way. This is a secondary offense.
(Ord. No. 5533, 10-7-19)

10-1-21: RECKLESS RIDING; PENALTY

(A) It is unlawful for a person to ride or operate a bicycle, electric bicycle, motorized skateboard, electric standup scooter, or an electric miniature scooter with reckless disregard for the safety of persons or property.

(B) Each violation of this Section is a Class Two Misdemeanor.
(Ord. No. 5533, 10-7-19)

10-1-22: REFUSING TO PROVIDE TRUTHFUL NAME AND DATE OF BIRTH WHEN LAWFULLY DETAINED; PENALTY

(A) It is unlawful for a person, after being advised that the person's refusal to answer is unlawful, to fail or refuse to state the person's true full name and date of birth on request of a peace officer who has lawfully detained the person based on reasonable suspicion that the person has committed a violation of this Chapter a person detained under this Section shall state the person's true full name and date of birth but shall not be compelled to answer any other inquiry of a peace officer.

(B) Each violation of this Section is a Class Two Misdemeanor.
(Ord. No. 5533, 10-7-19)

10-1-23: CIVIL PENALTY

Except as provided in Sections 10-1-21 and 10-1-22, a violation of any provision of this Chapter of the Mesa City Code shall be a civil traffic offense punishable by a fine not to exceed three hundred dollars ($300.00).
(Ord. No. 5533, 10-7-19)

CHAPTER 2
PARKING METERS*

CHAPTER 3
TRAFFIC

10-3-1: DEFINITIONS

The following words and phrases, when used in this Chapter, shall for the purpose of this Chapter have the meanings respectively ascribed to them in this Section. Whenever any words and phrases used herein are not defined herein but are defined in the State laws regulating the operation of vehicles, any such definition therein shall be deemed to apply to such words and phrases used herein: (Reso. 990)

***Editor's note—**Ord. No. 5024 repealed Chapter 2.

ALLEYS: Lanes or passageways for use in unloading merchandise, Fire Department convenience, and generally as a means of reaching the rear end of lots or buildings, and not in any way to be considered a thoroughfare. (Reso. 990)

AUTHORIZED EMERGENCY VEHICLE: Vehicles of the Fire Department, Police vehicles, and such ambulances and emergency vehicles of City of Mesa departments or public service corporations as are designed or authorized by the State Highway Commission. (Reso. 990)

BICYCLE: Every device propelled by human power upon which any person may ride, having two (2) tandem wheels, either of which is over sixteen inches (16") in diameter, and including any device generally recognized as a bicycle though equipped with two (2) front or two (2) rear wheels. (380, Reso. 990)

BUSINESS DISTRICT: The territory contiguous to and including a roadway when within any six hundred feet (600') along such roadway there are buildings in use for business or industrial purposes, including but not limited to, hotels, banks or office buildings, railroad stations, and public buildings which occupy at least three hundred feet (300') of frontage on one (1) side or three hundred feet (300') collectively on both sides of the roadway. (Reso. 990)

CITY TRANSPORTATION FACILITY: Any City street, sidewalk, bicycle lane, equestrian, bicycle, pedestrian or multi-use path, special use trail, alley, highway, transit stop or station, or similar public way. (5050)

CROSSWALK: (Reso. 990)

(A) That part of a roadway at an intersection included within the connections of the lateral lines of the sidewalks on opposite sides of the highways measured from the curbs, or in the absence of curbs, from the edges of the traversable roadway. (Reso. 990)

(B) Any portion of a roadway at an intersection or elsewhere distinctly indicated for pedestrian crossing by lines or other markings on the surface. (Reso. 990)

CURB LOADING ZONE: A space adjacent to a curb reserved for the exclusive use of vehicles during the loading or unloading of passengers or materials. (Reso. 990)

DRIVER: Every person who drives or is in actual physical control of a vehicle. (Reso. 990)

FREIGHT CURB LOADING ZONE: A space adjacent to a curb for the exclusive use of vehicles during the loading or unloading of freight (or passengers). (Reso. 990)

INTERSECTIONS: (Reso. 990)

(A) The area embraced with the prolongation or connection of the lateral curb lines or if none, then the lateral boundary lines of the roadways of two (2) highways which join one another at or approximately at right angles or the area within which vehicles traveling upon different highways joining at any other angle may come in conflict. (Reso. 990)

(B) Where a highway includes two (2) roadways thirty feet (30') or more apart, then every crossing of each roadway of such dividing highway by an intersecting highway shall be regarded as a separated intersection. In the event such intersecting highway also includes two (2) roadways thirty feet (30') or more apart, then every crossing of two (2) roadways of such highways shall be regarded as a separate intersection. (Reso. 990)

LANED ROADWAY: A roadway which is divided into two (2) or more clearly marked lanes for vehicular traffic. (Reso. 990)

LIMITED-ACCESS HIGHWAY: Every highway, street, or roadway in respect to which owners or occupants of abutting property of lands and other persons have no legal right of access to or from the same, except at such points only and in such manner as may be determined by the public authority having jurisdiction over such highway, street, or roadway. (Reso. 990)

MOTOR VEHICLE: Every vehicle which is self-propelled. (Reso. 990)

MOTORCYCLE: Every motor vehicle having a saddle for the use of the rider and designed to travel on not more than three (3) wheels in contact with the ground, but excluding a tractor. (Reso. 990, 1074)

OFFICIAL TRAFFIC-CONTROL DEVICES: All signs, signals, markings, and devices not inconsistent with this Chapter placed or erected by authority of a public body or official having jurisdiction for the purpose of regulating, warning, and guiding traffic. (Reso. 990)

PARK: When prohibited, means the standing of a vehicle, whether occupied or not, other than temporarily for the purpose of and while actually engaged in loading or unloading. (Reso. 990)

PASSENGER CURB LOADING ZONE: A place adjacent to a curb reserved for the exclusive use of vehicles during the loading or unloading of passengers. (Reso. 990)

PEDESTRIAN: Any person afoot. (Reso. 990)

POLICE OFFICER: Every officer of the City of Mesa Police Department or any officer authorized to direct or regulate traffic or to make arrests for violations of traffic regulations. (Reso. 990)

PRIVATE ROAD OR DRIVEWAY: Every way or place in private ownership and used for vehicular travel by the owner and those having express or implied permission from the owner but not by other persons. (Reso. 990)

RAILROAD: A carrier of persons or property upon cars, other than street cars, operated upon stationary rails. (Reso. 990)

RAILROAD TRAIN: A steam engine, electric, or other motor, with or without cars coupled thereto, operated upon rails, except street cars. (Reso. 990)

RESIDENCE DISTRICT: The territory contiguous to and including a highway and comprising a business district when the property on such highway for a distance of three hundred feet (300') or more is in the main improved with dwellings or dwellings and buildings in use for business. (Reso. 990)

RIGHT-OF-WAY: The privilege of the immediate use of the roadway. (Reso. 990)

ROADWAY: That portion of a street or highway improved, designed, or ordinarily used for vehicular travel. In the event a highway includes two (2) or more separate roadways, the term "roadway" as used herein shall refer to any such roadway separately but not to all such roadways collectively. (Reso. 990)

SAFETY ZONE: The area or space officially set apart within a roadway for the exclusive use of pedestrians and which is protected or is so marked or indicated by adequate signs as to be plainly visible at all times while set apart as a safety zone. (Reso. 990)

SERVICE VEHICLE: A licensed vehicle used in the construction, operation or maintenance of a municipal, utility or other similar facility or infrastructure, or in the provision of service for a municipal, utility or other similar service. (5050)

SIDEWALK: That portion of a street between the curb lines or the lateral lines of a roadway and the adjacent property lines intended for the use of pedestrians. (Reso. 990)

STOP: When required, means complete cessation of movement. (Reso. 990)

STOP, STOPPING, OR STANDING: When prohibited, means any stopping or standing of a vehicle, whether occupied or not, except when necessary to avoid conflict with other traffic or in compliance with the directions of a police officer or traffic-control signal or sign. (Reso. 990)

STREET OR HIGHWAY: The entire width between the boundary lines of every way publicly maintained when any part thereof is open to the use of the public for purposes of vehicular travel. (Reso. 990)

THROUGH ROADWAY: Every street or highway or portion thereof at the entrances to which vehicular traffic from intersecting streets or highways is required by law to stop before entering or crossing the same and when stop signs are erected as provided in this act. (Reso. 990)

TRAFFIC: Pedestrians, ridden or herded animals, vehicles, and other conveyances, either singly or together, while using any street for purpose of travel. (Reso. 990)

TRAFFIC-CONTROL SIGNAL: Any device, whether manually, electrically, or mechanically operated, by which traffic is alternately directed to stop and to proceed. (Reso. 990)

TRAFFIC DIVISION: The traffic division of the Police Department of the City or in the event a traffic division is not established, then said term whenever used herein shall be deemed to refer to the Police Department of the City. (Reso. 990)

VEHICLE: Every device in, upon, or by which any person or property is or may be transported or drawn upon a highway, except devices moved by human power or used exclusively upon stationary rails or tracks. (Reso. 990)

10-3-2: DUTY OF POLICE DEPARTMENT

It shall be the duty of the Police Department to enforce the street traffic regulations of the City and all of the State vehicle laws applicable to street traffic in the City, to make arrests for State of Arizona criminal traffic violations, to investigate accidents and to assist in developing ways and means to improve traffic conditions, and to carry out all duties specially imposed upon said Department by this Chapter. (Reso. 990, 1771)

10-3-3: RECORDS OF TRAFFIC VIOLATIONS

The Police Department shall keep a record of all violations of the traffic laws of the City or of the State vehicle laws of which any person has been charged, together with a record of the final disposition of all such alleged offenses. Such record shall be so maintained as to show all types of violations and the total of each. Said record shall accumulate during at least a five- (5-) year period, and from that time on, the record shall be maintained complete for at least the most recent five- (5-) year period. All forms for records of violations and notices of violations shall be serially numbered. For each month and year, a written report shall be kept available to the public showing the disposal of all such forms. All records and reports shall be public records. (Reso. 990)

10-3-4: TRAFFIC ACCIDENT STUDIES

Whenever the accidents at any particular location become numerous, the City Traffic Engineer shall conduct studies of such accidents and determine remedial measures. (Reso. 990, 1074, 1771, 3766, 5024)

10-3-5: TRAFFIC ACCIDENT REPORTS

(A) The Police Department shall maintain a suitable system of filing traffic accident reports. Accident reports or cards referring to them shall be filed alphabetically by location. (Reso. 990)

(B) The Police Department shall receive and properly file all accident reports made to it under State law or under any law of the City, but all such accident reports made by drivers shall be for the confidential use of the Police Department and no such report shall be admissible in any civil or criminal proceeding other than upon request of any person making such report or upon request of the court having jurisdiction to prove a compliance with the laws requiring the making of any such report. (Reso. 990)

10-3-6: POLICE DEPARTMENT TO SUBMIT ANNUAL TRAFFIC SAFETY REPORT

The Police Department shall annually prepare a traffic report which shall be filed with the City Clerk. Such report shall contain information on traffic matters in the City as follows: (Reso. 990, 1771)

(A) The number of traffic accidents, the number of persons killed, the number of persons injured, and other pertinent traffic accident data. (Reso. 990, 1771)

(B) The number of traffic accidents investigated and other pertinent data on the safety activities of the Police. (Reso. 990, 1771)

(C) The plans and recommendations of the division for future traffic safety activities. (Reso. 990, 1771)

10-3-7: DUTIES OF OFFICERS OF POLICE AND FIRE DEPARTMENTS

(A) It shall be the duty of the officers of the Police Department or such officers as are assigned by the Chief of Police to enforce all street traffic laws of the City and all of the State vehicle laws applicable to street traffic. (Reso. 990, 1771)

(B) Officers of the Police Department or such officers as are assigned by the Chief of Police are hereby authorized to direct all traffic by voice, hand, or signal, provided that in the event of a fire or other emergency or to expedite traffic or to safeguard pedestrians, officers of the Police Department may direct traffic as conditions may require. (Reso. 990, 1771)

(C) Officers of the Fire Department, when at the scene of a fire, may direct or assist the Police in directing traffic thereat or in the immediate vicinity. (Reso. 990, 1771)

10-3-8: OBEDIENCE TO TRAFFIC REGULATIONS

No person shall do any act forbidden or fail to perform any act required herein. (Reso. 990, 1771)

10-3-9: PERSONS PROPELLING PUSH CARTS OR RIDING ANIMALS TO OBEY TRAFFIC REGULATIONS

Every person propelling any pushcart or driving any animal-drawn vehicle or riding an animal upon a roadway shall be subject to the provisions of this Chapter applicable to the driver of any vehicle, except those provisions which by their very own nature can have no application. (Reso. 990, 1771)

10-3-10: COASTERS, ROLLER SKATES, AND SIMILAR DEVICES

No person upon roller skates or riding any coaster, toy vehicle, or similar device shall go upon any roadway except while crossing a street on a crosswalk, and when crossing, such person shall be granted all of the rights and shall be subject to all of the duties applicable to pedestrians. (Reso. 990, 1771)

10-3-11: PUBLIC EMPLOYEES TO OBEY TRAFFIC REGULATIONS

The provisions of this Chapter shall apply to the driver of any vehicle owned by or used in the service of the United States Government, County, or Municipality, and no such driver shall violate any of the provisions of this Chapter, except as otherwise permitted by State Statute. (Reso. 990, 1771)

10-3-12: EXEMPTIONS TO AUTHORIZED EMERGENCY OR SERVICE VEHICLES

(A) The provisions of this Chapter regulating the operation, parking, and standing of vehicles shall apply to authorized emergency vehicles, as defined in this Chapter, except as follows: (Reso. 990, 1771, 5050)

1. A driver, when operating any such vehicle in an emergency, except when otherwise directed by a Police officer, may: (Reso. 990, 1771, 5050)

   (a) Park or stand notwithstanding the provisions of this Chapter. (Reso. 990, 1771, 5050)

   (b) Proceed past a red or stop signal or stop sign but only after slowing down as may be necessary for safe operation. (Reso. 990, 1771, 5050)

   (c) Exceed the speed limits so long as he does not endanger life or property. (Reso. 990, 1771, 5050)

   (d) Disregard regulations governing direction of movement or turning in specified directions so long as he does not endanger life or property. (Reso. 990, 1771, 5050)

2. The exemptions granted in Subsection (A)(1) of this Section in reference to the movement of an authorized emergency vehicle shall apply when the driver of said vehicle displays at least one (1) lighted lamp exhibiting a red or red-and-blue light or lens visible under normal atmospheric conditions from a distance of five hundred feet (500') to the front of the vehicle, other than a Police vehicle when operated as an authorized emergency vehicle and when the driver is giving audible signal by siren, exhaust whistle, or bell. An authorized emergency vehicle operated as a Police vehicle need not be equipped with or display the red or red-and-blue light or lens visible from in front of the vehicle. (Reso. 990, 1771, 5050)

(B) The provisions of this Chapter regulating the parking and standing of vehicles shall apply to authorized service vehicles except as follows: (5050)

1. A driver, when operating any such vehicle and engaged in official duties, except when otherwise directed by a police officer, may park or stand notwithstanding the provisions of this Chapter. (5050)

2. The exemption granted in Subsection (B)(1) of this Section shall apply when such parking or standing is to carry out official duties, does not endanger life or property, and temporary traffic control measures as required by applicable City regulations are in place. (5050)

10-3-13: TRAFFIC-CONTROL DEVICES

(A) Authority to Install Traffic-Control Devices. The City Traffic Engineer shall place and maintain traffic-control devices, signs, and signals when and as required under the traffic regulations of the City of Mesa to make effective the provisions of said regulations and may place and maintain such additional traffic-control devices as he may deem necessary to regulate traffic under the traffic laws of the City or under State law or to guide or warn traffic. (Reso. 990, 1286, 1440, 1771, 3766, 5024)

(B) Specifications for Traffic-Control Devices. All traffic-control signs, signals, and devices shall conform to the approved specifications. All signs and signals required hereunder for a particular purpose shall so far

as practicable be uniform as to type and location throughout the City. All traffic-control devices so erected and not inconsistent with the provisions of this Chapter shall be official traffic-control devices. (Reso. 990, 1286, 1771)

(C) Obedience to Traffic-Control Devices. The driver of any vehicle shall obey the instructions of any official traffic-control device applicable thereto placed in accordance with the traffic regulations of the City, unless otherwise directed by a Police officer, subject to the exceptions granted the driver of an authorized emergency vehicle. (Reso. 990, 1286, 1771)

(D) When Traffic-Control Devices are Required for Enforcement Purposes. No provisions of this Chapter for which signs are required shall be enforced against an alleged violator if at the time and place of the alleged violation an official sign is not in proper position and sufficiently legible to be seen by an ordinarily observant person. Whenever a particular Section does not state that signs are required, such Section shall be effective even though no signs are erected or in place. (Reso. 990, 1286, 1771)

(E) Traffic-Control Signal Legend. Whenever traffic is controlled by traffic-control signals exhibiting different colored lights successively one (1) at a time, the following colors only shall be used, and said terms and lights shall indicate and apply to drivers of vehicles and pedestrians as follows: (Reso. 990, 1286, 1336, 1771)

1. Circular Green. Vehicular traffic facing the signal may proceed straight through or turn right or left unless a sign, pavement marking, or arrow signal prohibits any particular movement. But vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited. (Reso. 990, 1286, 1336, 1771)

   Pedestrians facing the signal may proceed across the roadway within any marked or unmarked crosswalk. (Reso. 990, 1286, 1336, 1771)

2. Circular Yellow. Vehicular traffic facing the signal is thereby warned that the red signal will be exhibited immediately thereafter and such vehicular traffic shall not enter the intersection when the red signal is exhibited. (Reso. 990, 1286, 1336, 1771)

   No pedestrian facing the signal shall enter the roadway until the green is shown, unless authorized to do so by a pedestrian "walk" or a symbolic "walking man" signal. (Reso. 990, 1286, 1336, 1771)

3. Circular Red. Vehicular traffic facing the signal shall stop before entering the crosswalk on the near side of the intersection, or if none, then before entering the intersection, and shall remain standing until green is shown alone. (Reso. 990, 1286, 1336, 1771)

   No pedestrian facing such signal shall enter the roadway until the green is shown alone, unless authorized so to do by a pedestrian "walk" or a symbolic "walking man" signal. (Reso. 990, 1286, 1336, 1771)

   The driver of a vehicle which is stopped as close as practicable at the entrance to the crosswalk on the near side of an intersection, or if there is no crosswalk, then at the entrance to the intersection in obedience to a red signal, may make a right turn but shall yield the right-of-way to the pedestrian and other traffic proceeding as directed by the signal, excepting at such intersections as shall, by an appropriate sign, indicate that no right turn can be made against the red signal. (1286, 1336, 1771)

4. Green, Yellow, and Red Arrows. (1286, 1336, 1771)

   (a) Green Arrow. Vehicular traffic facing a green arrow signal, shown alone or in combination with another indication, may cautiously enter the intersection only to make the movement indicated by such arrow or such other movement as is permitted by other indications shown at the same time. Such vehicular traffic shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection. (1286, 1336, 1771)

   (b) Yellow Arrow. Vehicular traffic facing the signal is thereby warned that the related green arrow movement is being terminated or that a red indication will be exhibited immediately thereafter when vehicular traffic may not enter the intersection. (1286, 1336, 1771)

   (c) Red Arrow. Vehicular traffic facing a steady red arrow signal shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection, or if none, then before entering the intersection, and will remain standing until an indication to proceed is shown. (1286, 1336, 1771)

   (d) Flashing Yellow Arrow. Vehicular traffic facing a flashing yellow arrow signal, shown alone or in combination with another indication, may cautiously enter the intersection only to make the movement indicated by such arrow or such other movement as is permitted by other indications shown at the same time. Such vehicular traffic shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection. (5306)

(F) Traffic-Control Signal at a Place Other Than an Intersection. In the event an official traffic-control signal is erected and maintained at a place other than an intersection, the provisions of this Chapter shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of any such signs or marking, the stop shall be made at the signal. (1286, 1771)

(G) Pedestrian "Walk" and "Don't Walk" or Symbolic "Walking Man" and "Hand" Signals. Whenever special pedestrian-control signals exhibiting the words "Walk" or "Don't Walk" or the symbolic "Walking Man" and "Hand" signals are in place, such signals shall indicate as follows: (Reso. 990, 1286, 1336, 1771)

1. "Walk" or Symbolic "Walking Man." Pedestrians facing such signal may proceed across the roadway in the direction of the signal and shall be given the right-of-way by the driver of all vehicles. (Reso. 990, 1286, 1336, 1771)

2. "Don't Walk" or Symbolic "Hand." No pedestrian shall start to cross the roadway in the direction of such signal, but any pedestrian who has partially completed his crossing on the "Walk" or symbolic "walking man" signal shall proceed to a sidewalk or safety zone while the "Don't Walk" or symbolic "Hand" signal is showing. (Reso. 990, 1286, 1336, 1771)

(H) Flashing Signals. Whenever flashing red or yellow signals are used, they shall require obedience by vehicular traffic as follows: (Reso. 990, 1286, 1771)

1. Flashing Red (Stop Signal). When a red lens is illuminated with rapid intermittent flashes, drivers of vehicles shall stop before entering the nearest crosswalk at an intersection or at a limit line when marked, or if none, then before entering the intersection, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign. (Reso. 990, 1286, 1771)

2. Flashing Yellow (Caution Signal). When a yellow lens is illuminated with rapid intermittent flashes, drivers of vehicles may proceed through the intersection or past such signal only with caution. (Reso. 990, 1286, 1771)

(I) Display of Unauthorized Signs, Signals, or Markers. No person shall place, maintain, or display upon or in view of any highway any unauthorized sign, signal, marking or device which purports to be or is an imitation of or resembles an official traffic-control device or railroad sign or signal or which attempts to direct the movement of traffic or which hides from view or interferes with the effectiveness of any official traffic-control device or any railroad sign or signal, and no person shall place or maintain nor shall any public authority permit upon any highway any traffic sign or signal bearing thereon any commercial advertising. This shall not be deemed to prohibit the erection upon private property adjacent to the highways of signs giving useful directional information and of a type that cannot be mistaken for official signs. (Reso. 990, 1286, 1771)

Every such prohibited sign, signal, or marking is hereby declared to be a public nuisance, and the authority having jurisdiction over the highway is hereby empowered to remove the same or cause it to be removed without notice. (Reso. 990, 1286, 1771)

(J) Interference With Official Traffic-Control Devices or Railroad Signs or Signals. No person shall without lawful authority attempt to or in fact alter, deface, injure, knock down, or remove any official traffic-control signal device or any railroad sign or any inscription, shield, or insignia thereon or any part thereof. (Reso. 990, 1286, 1771)

(K) Authority to Close Streets for Block Parties. The City Traffic Engineer or his designee is hereby authorized to grant temporary street closures for block parties. (Reso. 990, 1074, 1286, 1440, 1771, 3766, Ord. 4577, 5024)

(L) City Traffic Engineer to Designate Crosswalks, Establish Safety Zones, and Mark Traffic Lanes. The City Traffic Engineer is hereby authorized: (Reso. 990, 1074, 1286, 1440, 1771, 3766, 5024)

1. To designate and maintain, by appropriate devices, marks, or lines upon the surface of the roadway, crosswalks at intersections where in his opinion there is particular danger to pedestrians crossing the roadway and at such other places as he may deem necessary. (Reso. 990, 1074, 1286, 1440, 1771)

2. To establish safety zones of such kind and character and at such places as he may deem necessary for the protection of pedestrians. (Reso. 990, 1074, 1286, 1440, 1771)

3. To mark lanes for traffic on street pavements at such places as he may deem advisable, consistent with the traffic laws of the City. (Reso. 990, 1074, 1286, 1440, 1771)

(M) Authority to Install Yield Right-of-Way Signs. The City Traffic Engineer shall place and maintain yield right-of-way signs when and as required under the traffic regulations of the City and may place and maintain such additional yield right-of-way signs as he may deem necessary to regulate traffic under the traffic laws of the City or under State law or to guide or warn traffic. After the erection of such yield right-of-way signs, the driver of a vehicle about to enter or cross a highway or street from another highway or street shall, whenever a yield right-of-way sign is posted at the intersection thereof, yield the right-of-way to all closely approaching vehicles on the highway or street said driver is about to enter. (1074, 1286, 1440, 1771, 3766, 5024)

(N) Experimental Traffic Control. The City Traffic Engineer, with the approval of the City Manager is authorized to test traffic-control devices under actual conditions of traffic. This testing shall consist of conducting research and tests on current devices and traffic control devices not presently included in the Manual on Uniform Traffic Control Devices. (1440, 1771, 3766, 5024)

(O) Authority to Install Restricted Entry Signs. Where necessary to preserve the public safety and welfare, the City Traffic Engineer is authorized to post signs restricting entry to a street, alley, driveway, or portion thereof. When authorized signs are erected indicating that entry is restricted, the directions of such sign shall be obeyed. (1771, 2294, 3766, 5024, 5053)

10-3-14: TURNING MOVEMENTS

(A) Required Position and Method of Turning at Intersections. The driver of a vehicle intending to turn at an intersection shall do as follows: (Reso. 990, 1771)

1. Both the approach for a right turn and a right turn shall be made as close as practical to the right-hand curb or edge of the roadway. (Reso. 990, 1771)

2. Approach for a left turn shall be made in that portion of the right half of the roadway nearest the centerline thereof, and after entering the intersection, the left turn shall be made so as to leave the intersection to the right of the centerline of the roadway being entered. (Reso. 990, 1771)

3. Approach for a left turn from a two-way street into a one-way street shall be made in that portion of the right half of the roadway nearest the centerline thereof and by passing to the right of such centerline where it enters the intersection. A left turn from a one-way street into a two-way street shall be made by passing to the right of the centerline of the street being entered upon leaving the intersection. (Reso. 990, 1771)

4. Where both streets or roadways are one-way, both the approach for a left turn and a left turn shall be made as close as practicable to the left-hand curb or edge of the roadway. (Reso. 990, 1771)

(B) Authority to Place and Obedience to Turning Markers. (Reso. 990, 1074, 1771, 5024)

1. The City Traffic Engineer is authorized to place markers, buttons, or signs within or adjacent to intersections indicating the course to be traveled by vehicles turning at such intersections, and such course to be traveled as so indicated may conform to or be other than as prescribed by law. (Reso. 990, 1074, 1771, 3766, 5024)

2. When authorized markers, buttons, or other indications are placed within an intersection indicating the course to be traveled by vehicles turning thereat, no driver of a vehicle shall disobey the directions of such indications. (Reso. 990, 1074, 1771)

(C) Authority to Place Restricted Turn Signs. The City Traffic Engineer is hereby authorized to determine those intersections at which drivers of vehicles shall not make a right, left, or U turn and shall place proper signs at such intersections. The making of such turns may be prohibited between certain hours of any day and permitted at other hours, in which event the same shall be plainly indicated on the signs or they may be removed when such turns are permitted. (Reso. 990, 1074, 1771, 3766, 5024)

(D) Obedience to No Turn Signs. Whenever authorized signs are erected indicating that no right, left, or U turn is permitted, no driver of a vehicle shall disobey the directions of any such sign. (Reso. 990, 1771)

(E) Limitations on Turning Around. The driver of any vehicle shall not turn such vehicle so as to proceed in the opposite direction upon any street in a business district and shall not upon any other street so turn a vehicle unless such movement can be made in safety and without interfering with other traffic. (Reso. 990, 1771)

10-3-15: PROHIBITING TURNS FROM DRIVEWAYS

(A) Authority to Place Signs Prohibiting Turns from Driveways. The City Traffic Engineer is authorized to determine those driveways from which left, right or all turns onto streets shall be prohibited at all times, prohibited during specific hours, or prohibited at other certain times, and shall place proper signs at such driveways. (1074, 1771, 3766, 4926, 5024)

(B) Obedience to No Turns Signs at Driveways. When authorized signs are erected indicating that left, right, or all turns are prohibited, no driver of a vehicle shall disobey the directions of any such sign. (1771, 5024)

10-3-16: ONE-WAY STREETS, ALLEYS, AND DRIVEWAYS

(A) Authority to Sign One-Way Streets, Alleys, and Driveways. The City Traffic Engineer shall determine those streets, alleys, or driveways that shall be designated as one-way, and shall place and maintain signs giving notice thereof, and no such regulations shall be effective unless such signs are in place. Signs indicating the direction of lawful traffic movement shall be placed at every intersection where movement or traffic in the opposite direction is prohibited. (Reso. 990, 1074, 1440, 1771, 3766, 5024)

10-3-17: SPECIAL STOPS REQUIRED

(A) Authority to Designate Through Streets. The City Traffic Engineer shall determine those streets to be designated as through streets, and place and maintain a traffic-control device on each and every street intersecting such through street or intersecting that portion thereof designated as such, except where two through streets intersect, in which case the City Traffic Engineer shall determine on which street traffic-control devices shall be placed. When signs are erected giving notice thereof, drivers of vehicles shall stop at every intersection before entering any of the streets or parts of streets so designated and indicated by a traffic-control device. (Reso. 990, 1771, 5024)

(B) Intersections Where Stop Required. The City Traffic Engineer is hereby authorized to determine and designate intersections where a particular hazard exists upon other than through streets and to determine whether vehicles shall stop at one (1) or more entrances to any such stop intersection, and shall erect a traffic-control device at every such place where a stop is required. (Reso. 990, 1074, 1440, 1771, 3766, 5024)

(C) Stop Signs. If the traffic-control device is a stop sign, every such stop sign erected pursuant to this Chapter shall bear the word "Stop" in letters not less than six inches (6") in height and such sign shall be reflectorized. Every such stop sign shall be located as near as practical to the stop line. (Reso. 990, 1074, 1771, 5024)

(D) Vehicles to Stop at Traffic-Control Devices. When traffic-control devices are erected as herein provided at or near the entrance to any intersection, every driver of a vehicle shall stop such vehicle at a clearly marked stop line, but if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the intersection, except when directed to

proceed by a Police officer or traffic-control signal. No driver shall drive upon or through any private property such as an oil station, vacant lot, or similar property to avoid obedience to any regulations regarding this Section. (Reso. 990, 1771, 5024)

(E) Emerging From Alley or Private Driveway. The driver of a vehicle emerging from an alley, driveway, or building shall stop such vehicle immediately prior to driving onto a sidewalk or onto the sidewalk area extending across any alleyway, yielding the right-of-way to any pedestrian as may be necessary to avoid collision, and upon entering the roadway shall yield the right-of-way to all vehicles approaching on said roadway. (Reso. 990, 1771, 5024)

(F) Stop When Traffic Obstructed. No driver shall enter an intersection or a marked crosswalk unless there is sufficient space on the other side of the intersection or crosswalk to accommodate the vehicle he is operating without obstructing the passage of other vehicles or pedestrians, notwithstanding any traffic-control signal indication to proceed. (Reso. 990, 1771, 5024)

(G) Obedience to Signal Indicating Approach of Railroad Train. Whenever any person driving a vehicle approaches a railroad grade crossing under any of the circumstances stated in this Section, the driver of such vehicle shall stop within fifty feet (50') but not less than fifteen feet (15') from the nearest rail of such railroad and shall not proceed until he can do so safely. The foregoing requirements shall apply when: (Reso. 990, 1771, 5024)

1. A clearly visible electric or mechanical signal device gives warning of the immediate approach of a railroad train. (Reso. 990, 1771)

2. A crossing gate is lowered or when a flagman gives or continues to give a signal of the approach of a railroad train. (Reso. 990, 1771)

3. A railroad train approaching within approximately one thousand five hundred feet (1,500') of the highway crossing emits a signal audible from such distance and such railroad train, by reason of its speed or nearness to such crossing, is an immediate hazard. (Reso. 990, 1771)

4. An approaching railroad train is plainly visible and is in hazardous proximity to such crossing. (Reso. 990, 1771)

No person shall drive any vehicle through, around, or under any crossing gate or barrier at a railroad grade crossing while such gate or barrier is closed or is being opened or closed. (Reso. 990, 1771)

10-3-18: MISCELLANEOUS RULES

(A) Following Fire Apparatus Prohibited. The driver of any vehicle other than one on official business shall not follow any fire apparatus traveling in response to a fire alarm closer than five hundred feet (500') or drive into or park such vehicle within the block where fire apparatus has stopped in answer to a fire alarm. (Reso. 990, 1771)

(B) Crossing Fire Hose. No vehicle shall be driven over any unprotected hose of a Fire Department when laid down on any street or private driveway to be used at any fire or alarm of fire without the consent of the Fire Department in command. (Reso. 990, 1771)

(C) Driving Through Funeral or Other Procession. No driver of a vehicle shall drive between the vehicles comprising a funeral or other authorized procession while they are in motion and when such vehicles are conspicuously designated as required in this Chapter. This provision shall not apply at intersections where traffic is controlled by traffic-control signals or Police officers. (Reso. 990, 1771)

(D) Drivers in a Procession. Each driver in a funeral or other procession shall drive as near to the right- hand edge of the roadway as practical and shall follow the vehicle ahead as close as is practical and safe. (Reso. 990, 1771)

(E) Funeral Processions to be Identified. A funeral procession composed of a procession of vehicles shall be identified as such by the display upon the outside of each vehicle of a pennant or other identifying insignia or by such other method as may be determined and designated by the Chief of Police. (Reso. 990, 1771)

(F) When Permits Required for Parades and Processions. No procession or parade, except funeral processions, shall be held without first securing a permit from the Chief of Police, and all such requests for permits shall state the time, place of formation, proposed line of march, destination, and other regulations as the Chief of Police may set forth therein. (Reso. 990, 1771)

(G) Driving on Sidewalk. A person shall not drive a vehicle on a sidewalk area except on a permanent or duly authorized temporary driveway. A person driving an authorized service vehicle engaged in official duties may drive within a sidewalk area at a location other than a driveway. (Reso. 990, 1771, 5050)

(H) Limitations on Backing. The driver of a vehicle shall not back the same unless such movement can be made with reasonable safety and without interfering with other traffic. (Reso. 990, 1771)

(I) Riding on Motorcycles. A person operating a motorcycle or motor scooter shall not ride other than upon the permanent and regular seat attached thereto or carry any other person other than upon a firmly attached seat to the rear or side of the operator. (Reso. 990, 1771)

(J) Clinging to Moving Vehicles. Any person riding upon any bicycle, motorcycle, coaster, sled, roller skates, or any toy vehicles shall not attach the same or himself to any moving vehicle upon any roadway. (Reso. 990, 1771)

(K) Restricted Access. No person shall drive a vehicle onto or from any limited access roadway except at such entrances and exits as are established by public authority. (372, Reso. 990, 1771)

(L) Railroad Trains Not to Block Streets. An engineer, conductor, or other employee or officer of a railroad company who permits a locomotive or cars to be or remain upon the crossing of a public highway over such railway so as to obstruct travel over the crossing for a period exceeding fifteen (15) minutes, except in cases of unavoidable accident, is guilty of a misdemeanor. (745, Reso. 990, 1771)

(M) Regulations for House-moving Vehicles. No driver of a vehicle involved in moving a house or other building shall drive or operate said vehicle on any street or public way within the limits of the City without first securing a permit from the City Manager or designee and all requests for permits shall state the time, the proposed route, and destination of the vehicle. No such house-moving vehicle so involved shall be driven or operated on any street or public way within the City without having in attendance a suitable escort and without having the vehicles marked plainly with the legend "wide load" both in the front and in the rear. The permit to be issued by the City Manager or designee shall be prominently displayed on the house or building being moved, and no permit shall be issued without a fee of two dollars ($2.00) first

being paid by the applicant to the City Manager or designee. In the event that it becomes necessary for any department of the City to move any utility lines, traffic signals, street lights or other City facilities to permit the passage of said house or building, then the applicant for a building permit shall pay to the City the actual cost of time and materials used in moving such utilities, traffic signals, street lights or other City facilities. In the event any damage is done to any City utility lines, traffic signals, streetlights, pavement, or other City facilities in connection with any such moving project, the applicant for such permit shall likewise pay to the City the cost of the time and materials for repairing any such City installation. (372, 1771, 5024)

(N) Driving Upon Certain Real Property. No person may operate a motor vehicle upon real property situated in the City other than on a street or highway; provided, that this Subsection shall not be deemed to prohibit the operation of a motor vehicle upon real property under the following circumstances: (1771)

1. Operation of licensed or unlicensed motor vehicles by the property owner, his immediate family, lessee, or invitee which does not violate other applicable laws; (1771)

2. Lawn and garden maintenance equipment; (1771)

3. Motor vehicles customary and incidental to farming or ranching activities when the operation of such vehicles is conducted on property properly zoned and used for such activities; (1771)

4. Temporary construction motor vehicles whose activities are reasonably necessary for the development, repair, or maintenance of property; (1771)

5. Governmental vehicles when reasonably operated to perform a governmental function; (1771)

6. Vehicles of an electric power, natural gas, telephone, or other utility company when reasonably operated to facilitate the delivery of utility services. (1771)

(O) Commercial Vehicles Restricted On Certain Streets. (2256, 5024)

1. When authorized signs are erected, commercial vehicles having a manufacturer's rating of one and one-half (1½) tons or more or any commercial vehicle having a length of twenty-two feet (22') or more, inclusive of front and rear bumpers, or a commercial vehicle coupled to a trailer or semi-trailer having a length of twenty-two feet (22') or more, inclusive of the front and rear bumpers, may not operate on those portions of streets so posted except for the delivery and pickup of merchandise, materials, or equipment going to or from a specific location requiring travel on streets so posted. The commercial vehicle must use the shortest and most direct route on such streets. (2256)

2. Signs prohibiting commercial vehicle traffic may be posted at specific locations where deemed necessary to preserve the public peace and welfare by the City Traffic Engineer. (2256, 3766, 5024)

(P) Preferential Lanes. (3490, 5024)

The City Traffic Engineer is hereby authorized to designate preferential lanes by posting signs restricting the use of traffic lanes to certain classes of vehicles or movements. The restricted use of the lanes may be full or part time. Whenever authorized signs are erected indicating a preferential use, no driver shall operate other classes of vehicles or make other movements within that lane. (3490, 3766, 5024)

(Q) Maximum Allowable Vehicle Weight on Certain Streets (5258)

1. The City Traffic Engineer is hereby authorized to determine and designate gross vehicle weight limits on portions of streets where such limits are necessary to preserve the public peace and welfare or to protect public assets from damage by vehicles above a specified weight. (5258)

2. Whenever authorized signs are erected indicating a gross vehicle weight limit, no driver shall operate a vehicle exceeding the indicated gross weight, except as indicated below. (5258)

3. Unless the authorized signs state "No Exceptions," a driver may operate a vehicle exceeding the indicated gross weight for the delivery and pickup of merchandise, materials, or equipment going to or from a specific location requiring travel on streets so posted. Such drivers must use the shortest and most direct route on such streets. (5258)

4. Unless otherwise posted, the gross weight limit does not apply to: (5258)

   (a) Public transportation and school buses (5258)

   (b) Public and private emergency vehicles (5258)

   (c) Public and private utility company vehicles going to or from a specific location requiring travel on streets so posted (5258)

   (d) City vehicles or any other vehicle used in providing services including but not limited to contract services and waste collection at locations requiring travel on streets so posted. (5258)

10-3-19: PEDESTRIAN'S RIGHTS AND DUTIES

(A) Pedestrians Subject to Traffic-Control Signals. Pedestrians shall be subject to traffic-control signals as heretofore declared in this Chapter, but at all other places, pedestrians shall be granted those rights and be subject to the restrictions stated herein. (Reso. 990, 1771)

(B) Pedestrian's Right-Of-Way in Crosswalks. When traffic-control signals are not in place or in operation, the driver of a vehicle shall yield the right-of-way, slowing down or stopping if need be to so yield to a pedestrian crossing the roadway within a crosswalk when the pedestrian is approaching so closely from the opposite half of the roadway as to be in danger, but no pedestrian shall suddenly leave a curb or other place of safety and walk or run into the path of a vehicle which is so close that it is impossible for the driver to yield. A pedestrian's right-of-way in a crosswalk is modified under the condition and as stated hereinafter. (Reso. 990, 1771)

Whenever any vehicle is stopped at a marked crosswalk or at any unmarked crosswalk at an intersection to permit a pedestrian to cross the roadway, the driver of any other vehicle approaching from the rear shall not overtake and pass such stopped vehicle. (Reso. 990, 1771)

(C) Pedestrians to Use Right Half of Crosswalk. Pedestrians shall move, whenever practicable, upon the right half of crosswalks. (Reso. 990, 1771)

(D) Crossing at Right Angles. No pedestrian shall cross a roadway at any place other than by a route at right angles to the curb or by the shortest route to the opposite curb except in a crosswalk. (Reso. 990, 1771)

(E) When Pedestrian Shall Yield. (Reso. 990, 1771)

1. Every pedestrian crossing a roadway at any point other than within a marked crosswalk or within an unmarked crosswalk at an intersection shall yield the right-of-way to all vehicles upon the roadway. (Reso. 990, 1771)

2. Any pedestrian crossing a roadway at a point where a pedestrian tunnel or overhead pedestrian crossing has been provided shall yield the right-of-way to all vehicles upon the roadway. (Reso. 990, 1771)

3. The foregoing rules in this Section have no application under the conditions stated hereinafter when pedestrians are prohibited from crossing at certain designated places. (Reso. 990, 1771)

(F) Prohibited Crossing. Between adjacent intersections at which traffic-control signals are in operation, pedestrians shall not cross at any place except in a crosswalk, and no pedestrian shall cross a roadway other than in a crosswalk in any business district. (Reso. 990, 1771)

(G) Pedestrians Walking Along Roadways. (Reso. 990, 1771)

1. Where sidewalks are provided, it shall be unlawful for any pedestrian to walk along and upon an adjacent roadway. (Reso. 990, 1771)

2. Where sidewalks are not provided, any pedestrian walking along and upon a highway shall, when practicable, walk only on the left side of the roadway or its shoulder facing traffic which may approach from the opposite direction. (Reso. 990, 1771)

3. No person shall stand in a roadway for the purpose of soliciting a ride from the driver of any vehicle. (Reso. 990, 1771)

(H) Drivers to Exercise Due Care. Notwithstanding the foregoing provisions of this Chapter, every driver of a vehicle shall exercise due care to avoid colliding with any pedestrian upon any roadway and shall give warning by sounding the horn when necessary and shall exercise proper precaution upon observing any child or any confused or incapacitated person upon a roadway. (Reso. 990, 1771)

(I) Pedestrians Soliciting/Distributing. It shall be unlawful for any person to enter upon or remain on any median or traveled portion of any street or highway to solicit an occupant of a vehicle for employment, business, or contributions; or for distribution of advertisements, merchandise, or other property; or to offer any services. (3271)

10-3-20: METHOD OF PARKING

(A) Standing or Parking Close to Curb. No person shall stand or park a vehicle in a roadway other than parallel with the edge of the roadway headed in the direction of lawful traffic movement and with the right-hand wheels of the vehicle within eighteen inches (18") of the curb or edge of the roadway except as otherwise provided herein. (Reso. 990, 1771)

(B) Signs or Markings Indicating Angle Parking. The City Traffic Engineer shall determine upon what streets angle parking shall be permitted and shall mark or sign such streets. (Reso. 990, 1286, 1440, 1771, 3766, 5024)

Angle parking shall not be indicated or permitted at any place where passing traffic would thereby be caused or required to drive upon the left side of the street. (Reso. 990, 1286, 1440, 1771)

(C) Obedience to Angle-Parking Signs or Markings. Upon those streets which have been signed or marked by the City Traffic Engineer for angle parking, no person shall park or stand a vehicle other than at the angle to the curb or edge of the roadway indicated by such signs or markings. (Reso. 990, 1286, 1440, 1771, 3766, 5024)

(D) Permit for Loading or Unloading at an Angle to the Curb. The Chief of Police is authorized to issue special permits to permit the backing of a vehicle to the curb for the purpose of loading or unloading merchandise or materials subject to the terms and conditions of such permit. Such permits may be issued either to the owner or lessee of real property or to the owner of the vehicle and shall grant to such person the privilege as therein stated and authorized herein, and it shall be unlawful for any permittee or other person to violate any of the special terms or conditions of any such permit. (Reso. 990, 1771)

(E) Lights on Parked Vehicles. (Reso. 990, 1771)

1. Whenever a vehicle is lawfully parked at nighttime upon any street within a business or residence district, no lights need be displayed upon such parked vehicle. (Reso. 990, 1771)

2. Whenever a vehicle is parked upon a street or highway outside of a business or residence district during the hours between one-half (½) hour after sunset and one-half (½) hour before sunrise, such vehicle shall be equipped with one (1) or more lamps which shall exhibit a white light on the roadway side visible from a distance of five hundred feet (500') to the front of the vehicle and a red light visible from a distance of five hundred feet (500') to the rear. (Reso. 990, 1771)

3. Any lighted headlamps upon a parked vehicle shall be depressed or dimmed. (Reso. 990, 1771)

(F) Backing Into a Parking Space. Vehicles parked on any street, highway, or roadway or in any publicly or privately owned parking lot or garage being operated or managed by the City or being operated or managed by a private person or entity pursuant to a lease, contract, or other agreement with the City shall not be parked with the rear of the vehicle backed or otherwise placed in the front portion of the parking space. If a parking space in a lot or garage is marked or designated so that two (2) vehicles can be parked end to end in two (2) separate spaces, a vehicle parked therein shall be parked with the rear of the vehicle at the end of the space which is adjacent to the aisle or open area upon which a vehicle may be driven. (1771, 2189)

(G) Reparking Within Three Hundred Feet (300'). If a vehicle has been parked in an area on any street or in any public or private lot or in any public or private garage where parking is limited or restricted to a specified period of time by official signs posted at that location, it is prohibited and a violation of this Section for the said vehicle to be reparked for a period of twenty-four (24) hours within three hundred feet (300') of the location where the said vehicle was first parked. (1771, 2189)

10-3-21: STOPPING, STANDING, OR PARKING PROHIBITED IN SPECIFIED PLACES

(A) The City Traffic Engineer is hereby authorized to determine the locations of parking prohibitions on public streets and alleys and shall have the authority to place and maintain curb markings and/or appropriate signs indicating these prohibitions and the days and hours during which these prohibitions are applicable. (4811)

1. This authority includes but is not limited to the authority to:

(a) Place, maintain or remove traffic signs, curb painting, or other permanent or temporary parking control devices. (4811)

(b) Establish zones where only certain types of motor vehicles may park, for example motorcycles, recreational vehicles and compact vehicles. (4811)

(c) Establish zones where parking is prohibited at certain times on certain days. (4811)

2. The City Traffic Engineer shall consider the following circumstances when determining the location of parking prohibitions:

(a) Traffic safety concerns such as sight distances and obstructions for drivers approaching or exiting driveways, side streets and intersections. (4811)

(b) Alleviation of traffic congestion caused by circumstances such as streets that are too narrow to accommodate parking and two directions of through traffic, striping pattern that does not allow space for parking, or streets with exclusive bike lanes adjacent to curbs. (4811)

(c) Significant burdens to public safety caused by situations such as solid waste receptacles that are blocked by parked vehicles; parking patterns that facilitate criminal activities such as vandalism or lewd activities; and heavy parking volume that disrupts the quiet enjoyment of residents located near assembly activities such as schools, parks, churches, and businesses. (4811)

(B) Stopping, Standing, or Parking Prohibited; Whether or Not Official Signs are Posted or Markings in Place. No person may stop, stand, or park a vehicle, except when necessary to avoid conflict with the traffic or in compliance with law or the directions of a Police officer or a traffic-control device, in any of the following places: (Ord 4811/Reso. 990, 1286, 1440, 1771)

1. On a sidewalk. (Reso. 990, 1286, 1440, 1771)

2. In front of a public or private driveway. (Reso. 990, 1286, 1440, 1771)

3. Within an intersection. (Reso. 990, 1286, 1440, 1771)

4. Within fifteen feet (15') of a fire hydrant. (Reso. 990, 1286, 1440, 1771)

5. On a crosswalk. (Reso. 990, 1286, 1440, 1771)

6. Within twenty feet (20') of a crosswalk at an intersection, unless the City Traffic Engineer has indicated a different length by signs or markings. (Ord 4811/Reso. 990, 1286, 1440, 1771, 3766)

7. Within thirty feet (30') upon the approach to any flashing beacon, stop sign, or traffic-control signal located at the side of the roadway. (Reso. 990, 1286, 1440, 1771)

8. Between a safety zone and the adjacent curb or within thirty feet (30') of points on the curb immediately opposite the ends of a safety zone, unless the City Traffic Engineer has indicated a different length by signs and markings. (Ord 4811/Reso. 990, 1286, 1440, 1771, 3766)

9. Within fifty feet (50') of the nearest rail of a railroad crossing. (Reso. 990, 1286, 1440, 1771)

10. Within twenty feet (20') of the driveway entrance to any fire station and on the side of a street opposite the entrance to any fire station within seventy-five feet (75') of said entrance when properly sign-posted. (Reso. 990, 1286, 1440, 1771)

11. Alongside or opposite any street excavation or obstruction when stopping, standing, or parking would obstruct traffic. (Reso. 990, 1286, 1440, 1771)

12. On the roadway side of any vehicle stopped or parked at the edge or curb of a street. (Reso. 990, 1286, 1440, 1771)

13. Upon any bridge or other elevated structure upon a highway or within a highway tunnel. (Reso. 990, 1286, 1440, 1771)

14. At any place where the curb is painted red. (1771, 2888)

15. In that area between a curb and a sidewalk. (1996, 2888)

16. In any unpaved portion of the public right-of-way behind and adjacent to the curb. (2014, 2888)

17. Upon any street or highway for a period in excess of seventy-two (72) consecutive hours. (2032, 2888)

(C) Moving Vehicle. No person shall move a vehicle not lawfully under his control into any such prohibited area or away from a curb such distance as is unlawful. (Ord. 4811/Reso. 990, 1771)

(D) Parking Not to Obstruct Traffic. No person may park any vehicle upon a street, other than an alley, in such a manner or under such conditions as to leave available less than ten feet (10') of the width of the roadway for free movement of vehicular traffic. (Ord. 4811/Reso. 990, 1771)

(E) Parking in Alleys. No operator may park a vehicle within an alley except for the loading or unloading of materials and not then unless such loading or unloading can be accomplished without blocking the alley to the free movement of vehicular traffic. (Ord. 4811/Reso. 990, 1771)

(F) Deleted. (3770)

(G) Parking for Certain Purposes Prohibited. No person may park a vehicle upon any roadway for the principal purpose of: (Ord. 4811/Reso. 990, 1771)

1. Displaying such vehicle for sale. (Reso. 990, 1771)

2. Washing, greasing, or repairing such vehicle except repairs necessitated by any emergency. (Reso. 990, 1771)

3. Displaying advertising. (Reso. 990, 1771)

4. Displaying commercial exhibits. (Reso. 990, 1771)

(H) Parking Adjacent to Schools. The City Traffic Engineer is hereby authorized to erect signs indicating no parking upon that side of any street adjacent to any school property when such parking would, in his opinion, interfere with traffic or create a hazardous situation. (Ord. 4811/Reso. 990, 1286, 1440, 1771, 3766)

When official signs are erected indicating no parking upon that side of the street adjacent to any school property, no person may park a vehicle in any such designated place. (Ord. 4811/Reso. 990, 1286, 1440, 1771)

(I) Standing or Parking on One-Way Streets. The City Traffic Engineer is authorized to erect signs upon the left-hand side of any one-way street to prohibit the standing or parking of vehicles, and when such signs are in place, no person shall stand or park a vehicle upon such left-hand side in violation of any such sign. (Ord. 4811/Reso. 990, 1286, 1440, 1771, 3766)

(J) Standing or Parking on One-Way Roadways. In the event a highway includes two (2) or more separate roadways and traffic is restricted to one direction upon such roadway, no person may stand or park a vehicle upon the left-hand side of such one-way roadway unless signs are erected to permit such standing or parking. The City Traffic Engineer is authorized to determine when standing or parking may be permitted upon the left-hand side of any such one-way roadway and to erect signs giving notice thereof. (Ord. 4811/Reso. 990, 1286, 1440, 1771, 3766)

(K) No Stopping, Standing, or Parking Near Hazardous or Congested Places. The City Traffic Engineer is hereby authorized to determine and designate by proper signs places in which the stopping, standing, or parking of vehicles would create an especially hazardous condition or would cause unusual delay to traffic. When official signs are erected at hazardous or congested places authorized herein, no person may stop, stand, or park a vehicle in any such designated place. (Ord. 4811/Reso. 990, 1286, 1440, 1771, 3766)

(L) Parking Prohibited in Spaces Reserved for the Physically Disabled. (1705, 1771, 1889, 4811)

1. Except as provided in paragraph 3 of this Subsection, no person may stop, stand, or park any motor vehicle within any parking place designated and marked pursuant to the provisions of A.R.S. Title 28, Chapter 3, Article 14, unless the motor vehicle is transporting a person who has been issued a valid placard or international symbol of access special plates and either: (1705, 1771, 1889, 3770)

   (a) The motor vehicle displays the valid permanently disabled or temporarily disabled removable windshield placard or (1705, 1771, 1889, 3770)

   (b) The motor vehicle displays international symbol of access special plates that are currently registered to the vehicle. (1705, 1771, 1889, 3770)

2. If a Police officer, or a duly authorized agent employed by the City, finds a motor vehicle in violation of this Section, such person shall issue a complaint to the operator or other person in charge of the motor vehicle for a civil traffic violation. The court shall impose the minimum civil sanction of fifty dollars ($50.00) plus the penalty assessments prescribed by statute on a person who violates any provision of this Subsection. (1705, 1889, 2434)

3. Any person who is chauffeuring a physically disabled person shall be allowed, without a distinguishing insignia placard or number plates bearing the international wheelchair symbol, to park momentarily in any such parking space for the purpose of loading or unloading such disabled person, and no complaint shall be issued to the driver for such momentary parking. (1889)

4. Parking spaces marked in the manner provided in A.R.S. Title 28, Chapter 3, Article 14, may be designated on privately owned property. The designation of such parking spaces as provided herein shall authorize Police officers and other duly authorized agents to enforce the provisions of this Subsection (K) and shall constitute a waiver of any objection by the owner or person in possession of such property to the enforcement of this Subsection. (1889, 3770)

5. The Court or Civil Traffic Hearing Officer may dismiss citations under this subparagraph (K) at the arraignment if the person cited satisfies both of the following conditions: (3770)

   (a) Declares and affirms that the vehicle was being used on the date the citation was issued to transport a person who was eligible to be issued a valid placard or international symbol of access special plates; and (3770)

(b) Presents a valid placard indicating that the person is permanently or temporarily disabled that was issued pursuant to State law or in accordance with the laws of a nonresident's jurisdiction, or provides proof of current registration for the vehicle that includes the international symbol of access special plates. (3770)

(M) No Stopping, Standing, or Parking Near School Crosswalks. The City Traffic Engineer is authorized to erect signs prohibiting stopping, standing, or parking between the fifteen (15) mile per hour speed limit signs of an official school crosswalk while the speed limit signs are in place. Such signs shall state that the prohibition against stopping, standing, or parking is in effect only during specified hours on school days. When such signs are in place, no person may stop, stand, or park a vehicle in any such designated place during the prohibited hours. (2061, 3770, 4811)

(N) Obstructing a Fire Lane. The required width of access roadways shall not be obstructed in any manner. No person shall stop, stand, or park any vehicle within a fire lane, whether on public or private property, provided that appropriate signs and other markings, as approved by the Fire Chief, shall be erected and maintained in order for this regulation to be effective. (3530, 4811)

(O) On-street decal parking shall be permitted in the business districts located in the area bounded by the University Drive centerline to the south, the Mesa Drive centerline to the west, the Broadway Road centerline to the north, and the Country Club Drive centerline to the east. This area shall be referred to as the decal area. The City Traffic Engineer may designate certain streets or locations in the decal area for parking of vehicles only with approved parking decals. (4492, 4811)

1. Parking may be restricted in the decal area during certain hours or weekends and holidays if signs are posted specifying the hours or days that a decal is required. (4492)

2. The City Traffic Engineer, or city retained parking contractor is authorized to issue parking decals for parking in the decal area. (4492, 4811)

3. The definition of a business district shall be as defined in section 10-3-1 of the City of Mesa's Municipal Code. (4492)

10-3-22: COMMERCIAL VEHICLE PARKING TIME RESTRICTED

No person may park any commercial vehicle having a gross vehicle weight rating (GVWR) exceeding thirteen thousand (13,000) pounds or having dual rear wheels exceeding seventeen inches (17") in diameter or park any commercial vehicle having the length of twenty-two feet (22') or more, inclusive of the front and rear bumpers, or park a commercial vehicle coupled to a trailer or semi-trailer having the length of twenty-two feet (22') or more, inclusive of front and rear bumpers, in any residential area of the City or on any street, alley, or other public right-of-way at any time for a period of time longer than two (2) hours except when such parking is necessarily required while actually carrying out a lawful commercial purpose. For the purposes of this Section, "residential area" shall mean any area in the City zoned for residential purposes. (750, 1771, 2123, 2901)

10-3-22.1: PARKING OF SPECIFIED VEHICLES RESTRICTED

Trailers or semi-trailers designed or intended to be drawn behind a motor vehicle shall not be parked upon a street, alley, or other public right-of-way for a period of time longer than two (2) hours, except commercial vehicles may

be parked for a longer period of time only when such parking is necessarily required while actually carrying out a lawful commercial purpose. The provisions of this Section shall not apply to recreational vehicles defined in Chapter 34 of Title 11 of the Mesa City Code. (2901)

10-3-23: STOPPING FOR LOADING OR UNLOADING ONLY

(A) City Traffic Engineer to Designate Curb Loading Zones. The City Traffic Engineer is hereby authorized to determine the location of passenger and freight curb loading zones and shall place and maintain curb markings and/or appropriate signs indicating the same and stating the hours during which the provisions of this Section are applicable. (Ord. 4811/Reso. 990, 1074, 1440, 1771, 3766)

(B) Standing in Passenger Curb Loading Zone. No person may stop, stand, or park a vehicle for any purpose or period of time other than for the expeditious loading or unloading of passengers in any place marked as a passenger curb loading zone during hours when the regulations applicable to such curb loading zone are effective and then only for a period of time not to exceed three (3) minutes. (Ord. 4811/Reso. 990, 1771)

(C) Standing in Freight Curb Loading Zone. No person may stop, stand, or park a vehicle for any purpose or length of time other than for the expeditious unloading and delivery or pickup and loading of materials in any place marked as a freight curb loading zone during hours when the provisions applicable to such zone are in effect. In no case shall the stop for loading and unloading for materials exceed twenty (20) minutes. (Ord. 4811/Reso. 990, 1771)

(D) City Traffic Engineer to Designate Public Carrier Stands. The City Traffic Engineer, is hereby authorized and required to establish bus stops and taxicab stands and stands for other passenger common carrier motor vehicles in such public streets in such places and in such number as he shall determine to be of the greatest benefit and convenience to the public, and every such bus stop, taxicab stand, or other stand shall be designated by appropriate signs. (Ord. 4811/Reso. 990, 1074, 1440, 1771, 3766)

(E) Parking of Buses and Taxicabs Regulated. The driver of a bus or taxicab may not park upon any street in any business district at any place other than at a bus stop or taxicab stand respectively, except that this provision shall not prevent the driver of any such vehicle from temporarily stopping in accordance with other stopping or parking regulations at any place for the purpose of and while actually engaged in loading or unloading passengers. (Ord. 4811/Reso. 990, 1771)

(F) Restricted Use of Bus and Taxicab Stands. No person shall stand, stop, or park a vehicle other than a bus in a bus stop or other than a taxicab in a taxicab stand when any such stop or stand has been officially designated and appropriately signed, except that the driver of a passenger vehicle may temporarily stop therein for the purpose of and while engaged in loading and unloading passengers when such stopping does not interfere with any bus or taxicab waiting to enter or about to enter the same. (Ord. 4811/Reso. 990, 1771)

(G) City Traffic Engineer to Designate School Bus Loading Zones. The City Traffic Engineer, is authorized and required to establish school bus loading zones in such public streets, in such places, and in such number as he shall determine to be of the greatest benefit and convenience to the public, and every school bus loading zone shall be designated by appropriate signs. (2164, 3766, 4811)

(H) Restricted Use of School Bus Loading Zones. No person shall stand, stop, or park a vehicle, other than a school bus, in a school bus loading zone when such zone has been officially designated and appropriately

signed, except that the driver of a passenger vehicle may temporarily stop therein for the purpose of and while engaged in loading and unloading passengers when such stopping does not interfere with any school bus waiting to enter or about to enter said loading zone. (2164, 4811)

10-3-24: STOPPING, STANDING, OR PARKING RESTRICTED OR PROHIBITED ON CERTAIN STREETS

(A) Application. The provisions of this Chapter prohibiting the standing or parking of a vehicle shall apply at all times or at those times herein specified or as indicated on official signs except when it is necessary to stop a vehicle to avoid conflict with other traffic or in compliance with the directions of a Police officer or official traffic-control device. (Reso. 990, 1771)

(B) Violation of Laws of City. No person may allow, permit, or suffer any vehicle registered in his name to stand or park in any street in the City in violation of any of the laws of the City regulating the standing or parking of vehicles. (Reso. 990, 1771)

(C) Regulations Not Exclusive. The provisions of this Chapter imposing a time limit on parking shall not relieve any person from the duty to observe the other and more restrictive provisions prohibiting or limiting the stopping, standing, or parking of vehicles in specified places or at specified times. (Reso. 990, 1771)

(D) Parking Prohibited at Certain Times on Certain Streets. The City Traffic Engineer may determine locations where stopping, standing or parking is prohibited at all times or at certain times and/or on certain days. (Ord. 4811/Reso. 990, 1771)

1. In accordance with the rules and regulations herein contained and when signs are erected giving notice thereof, or the curb is painted red under direction of the City Traffic Engineer, no person may at any time stop, stand or park a vehicle upon a portion of any street or alley so designated. (4811)

2. In accordance with the rules and regulations herein contained and when, under the direction of the City Traffic Engineer, signs are erected giving notice that parking is prohibited at certain times and/or on certain days, no person may stop, stand or park a vehicle upon a portion of any street or alley so designated during the specified times and/or days. (4811)

3. The City Traffic Engineer shall keep a record of all locations where the City Traffic Engineer, Transportation Advisory Board or City Council establishes permanent stopping, standing or parking prohibitions. The City Traffic Engineer shall also keep a record of any temporary stopping, standing or parking prohibitions established where the restrictions are expected to remain longer than 90 days. (4811)

(E) Parking Time Limited on Certain Streets. When signs are erected giving notice thereof, parking of a vehicle is limited to a period of time no longer than two (2) hours between the hours of eight (8:00) A.M. and five (5:00) P.M. of any day, except Saturdays, Sundays, and City holidays, upon any of the streets or parts of streets within the City. (Reso. 990, 1771, 2188)

(F) Parking Signs Required. Whenever by this or any other laws or regulations of the City any parking time limit is imposed or parking is prohibited on designated streets, it shall be the duty of the City Traffic

Engineer to erect appropriate signs giving notice thereof, and no such regulations shall be effective unless said signs are erected and in place at the time of any alleged offense. (Ord. 4811/Reso. 990, 1286, 1771, 3766)

(G) Stopping, standing, or parking at all times on any street is prohibited if official signs are erected and in place giving notice thereof that stopping, standing, or parking is prohibited. (2888)

10-3-25: PARKING VIOLATIONS; LIABILITY AND ENFORCEMENT

(A) Parking a Civil Traffic Violation; Definition. Violation of any City ordinance or provision of this Code which regulates the time, place, or method of parking is a civil traffic violation. "Parking" means the standing of a vehicle, whether occupied or not. (2188)

(B) Parking Violations; Persons Liable. (2188)

1. It is unlawful for a vehicle to be parked in violation of any City ordinance or provision of this Code regulating the time, place, or method of parking. Violations of any City ordinance or provision of this Code regulating the time, place, or method of parking which are continuous in nature shall constitute a separate and distinct violation for each full hour thereof. (2188)

2. Whenever a vehicle is parked in violation of a City ordinance or provision of this Code regulating the time, place, or method of parking, the owner or owners of the vehicle, the registered owner or owners of the vehicle, and the person who parked or placed the vehicle where the violation occurred shall be jointly and individually liable for the violation and for the civil sanction prescribed herein. (2188)

3. A vehicle parked in contrary to or inconsistent with any City ordinance or provision of this Code regulating the time, place, or method of parking which provides that "no person" may stop, stand, or park a vehicle at a designated location or contrary to any limitations, restrictions, or other provision regulating the time, place, or method of parking is deemed to be parked in violation of said ordinance or provision of this Code. (2188)

4. Whenever a motor vehicle is parked upon the public right-of-way or other property in violation of this Code and the vehicle has previously been the subject of five (5) or more violations of the parking provisions of the Code within a twelve- (12-) month period but the civil sanctions prescribed under the Mesa City Code for those violations have not been satisfied, then the vehicle shall be deemed to constitute a public nuisance and the owner of the vehicle consents to immobilization, towing, and impoundment of the vehicle pursuant to Title 10 of the Mesa City Code. A possessory lien is hereby created and attached to such vehicle for the payment, in cash or its equivalent, of all current and accumulated parking tickets and for reasonable costs associated with immobilization, towing, and impoundment. (2434)

(C) Parking Notice; Issuance. (2188)

1. In an action involving unlawful parking, a copy of the notice need not be personally served upon the owner or operator of the vehicle but may be served by attaching a copy to the vehicle. These notices may be issued by a municipally hired police parking monitor or authorized private contractor approved by the Chief of Police. (2188, 4693)

2. The notice shall include the date, time, and location of the violation; the state license number of the vehicle unlawfully parked; reference to the City ordinance or Code provision violated; and notice that within seven (7) calendar days from the day on which the notice was issued the sanction for the violation must be paid and received by the City or a request made and received by the City for a hearing to contest the alleged violation. (1771, 2188, 4444)

3. The notice, or copy thereof, shall constitute prima facie evidence of the parking infraction. (3770)

(D) Response to Parking Notice. (2188)

1. Within seven (7) calendar days from the day on which the notice was issued, the person or persons liable for the parking violation shall respond to the notice by one of the following methods: (2188, 4444)

(a) By appearing in person, by representation, by deposit in a City collection box, or by mail to the City within said seven (7) calendar day period, admitting responsibility for the violation and paying the civil sanction prescribed for the violation. (2188, 4444)

(b) By contacting the City in person, by representation, by telephone, by mail, or by deposit in a City collection box within said seven (7) calendar day period and requesting a hearing to contest the alleged violation. (2188, 4444)

(c) By appearing in person at the City Court and requesting an initial appearance before a Hearing Officer to explain the circumstances of the alleged violation. The Hearing Officer at the initial appearance may accept the defendant's explanation and dismiss the notice of violation or shall inform the defendant that the civil sanction must be paid or a request must be made for a civil traffic hearing to contest the alleged violation. (2188)

(d) A request for a hearing or payment of the civil sanction will be considered received by the City if it is actually delivered to the City Court, deposited in a City collection box, or postmarked within seven (7) calendar days after the date the notice of violation was issued. A request for a hearing made by telephone will be considered received the day it is made if it is received by a City Court employee between the hours of eight (8:00) A.M. and five (5:00) P.M. of any day, except on Saturday, Sunday, or a City holiday. (2188, 4444)

(E) Schedule of Sanctions. The sanctions listed in the following schedule are the minimum sanctions that may be imposed for violations of the Sections of the Mesa City Code listed therein. Any vehicle parked in violation of a City ordinance or other provision of this Code other than those in the following schedule shall cause the person or persons liable for the violation to be assessed a minimum sanction of fifteen dollars ($15.00). (2188, 2434, 2573, 4444)

Section	Description	Sanction
10-3-21(B)1	Sidewalk Parking	$26.00
10-3-21(B)2	Blocking Driveway	$26.00
10-3-21(B)3	Intersection Parking	$26.00
10-3-21(B)4	Fire Hydrant	$26.00
10-3-21(B)5	Crosswalk Parking	$26.00
10-3-21(B)10	Fire Station Exit	$26.00

Section	Description	Sanction
10-3-21(B)12	Double Parking	$26.00
10-3-21(B)14	Red Curb	$26.00
10-3-21(E)	Alley Parking	$26.00
10-3-21(G)1	Vehicle for Sale; Parking Prohibited	$26.00
10-3-21(G)2	Repairing Vehicle; Parking Prohibited	$26.00
10-3-21(L)	Physically Disabled	$55.00
10-3-21(N)	Fire Lane	$26.00
10-5-1(B)2	Lots and Garages; Improper Placement or Display of Permit or Decal	$26.00
10-5-1(C)	Parking Oversize Vehicle in Compact Car Area	$26.00
11-17-6	Recreational Vehicle Parking	$26.00

(2188, 2434, 2573, 3530, 4444, 5024)

(F) Failure to Respond to a Notice; Increased Sanction for Failure to Make a Timely Response. (Reso. 990, 1771, 2188)

1. If the person or persons liable for a parking violation fail to respond by one of the methods prescribed in Subsection (D) within seven (7) calendar days from the day the notice was issued, the sanction for the violation shall automatically be increased to twice the minimum sanction. If the sanction is not paid within thirty (30) days after the date of the violation and the person or persons liable for the violation have failed to make a timely response pursuant to Subsection (D), the sanction shall be increased automatically to four (4) times the minimum sanction which is due and payable at that time. (2188, 4444)

2. The list of violations and sanctions provided for in Subsection (E) are the minimum sanctions that may be imposed when the defendant responds to the notice in a timely manner. The civil sanctions prescribed herein shall not be suspended or reduced except as provided herein. (2188)

3. A City Magistrate or a civil traffic Hearing Officer may suspend the payment of an increased sanction or late penalty for the failure to respond to a parking notice; however, a City Magistrate or civil traffic Hearing Officer cannot suspend the payment of the minimum sanction as provided in the schedule in Subsection (E). (2188)

(G) Civil Traffic Complaints; Hearings. (2188)

1. If a defendant has made a timely request for a hearing pursuant to Subsection (D)1(b) or (D)1(c) or has failed to timely respond to the notice and has not paid the civil sanction as required by Subsection (D)1(a), a civil traffic complaint and summons will be issued by the City Court unless the City Prosecutor determines that a complaint shall not be requested. (2188)

2. Failure to respond to a civil traffic complaint and summons will result in a default judgment for the amount of the civil sanction. (2188)

3. A civil traffic hearing for a parking violation may be heard by a civil traffic Hearing Officer pursuant to applicable State statutes and the Arizona Supreme Court Rules of Procedure in Civil Traffic Violation Cases. The Hearing Officer may make such orders as may be necessary and proper to dispose of such cases. (2188)

(H) Judgments; Collection. The City may contract with a private person or entity for the collection of civil judgments in parking cases. (2188)

(I) Courtesy Citations. Courtesy citations may be given for time violation and parking without a required permit/decal at the discretion of the authorized private contractor, parking enforcement officer or a Police Officer. No fine or sanction will be incurred for a courtesy citation. No more than two (2) courtesy citations may be given to the same person or vehicle within a period of seven (7) days. A third violation will result in the issuance of a parking notice of a violation. (2188, 2573, 4693)

(J) Time calculation. If the seventh (7th) calendar day as set forth herein is a Saturday, Sunday or Legal Holiday, then payment shall be due on the next day that is not a Saturday, Sunday, or Legal Holiday. (4444)

10-3-26: WHEN VEHICLES MAY BE IMPOUNDED

(A) Authority to Impound Vehicles. Members of the Police Department are hereby authorized to remove any vehicle from any street, highway, or publicly or privately owned property, parking lot, or garage being operated or managed by the City or being operated or managed by a private person or entity pursuant to a contract, lease, or agreement with the City or duly posted private property as defined in paragraph 5 of this Subsection (A) to the nearest garage or towing company lot designated or maintained by the Police Department or otherwise maintained by the City under the circumstances hereinafter enumerated: (Reso. 990, 1074, 1142, 1669, 1771, 1849, 1974, 2122, 2188, 2434)

1. When any vehicle is left unattended upon any bridge, viaduct, or causeway or in any tube or tunnel where such vehicle constitutes an obstruction to traffic. (Reso. 990, 1074, 1142, 1669, 1771, 1849, 1974, 2122, 2188)

2. When a vehicle upon a street or highway is so disabled as to constitute an obstruction to traffic and the person in charge of the vehicle is by reason of physical injury incapacitated to such an extent as to be unable to provide for its custody or removal. (Reso. 990, 1074, 1142, 1669, 1771, 1849, 1974, 2122, 2188)

3. When any vehicle is left unattended upon a street in an unlawful manner and is so parked as to constitute a definite hazard or obstruction to the normal movement of traffic or is parked in front of a public or private driveway. (Reso. 990, 1074, 1142, 1669, 1771, 1849, 1974, 2122, 2188)

4. When any vehicle is left parked upon a street for a period in excess of forty-eight (48) hours. For the purposes of this paragraph the words "left parked" shall mean being left upon a street for a period of time in excess of forty-eight (48) hours without the vehicle having been moved at least three hundred feet (300'). (Reso. 990, 1142, 1669, 1771, 1849, 1974, 2122, 2188)

5. When any vehicle is advertised or offered for sale from a vacant property or unauthorized vehicle sales lot without the express written permission of the property owner when such property has been duly posted by the City to prohibit the parking or sale of such vehicles. Any property owner within the City may make application to the City Manager or designee to authorize the City to post signs indicating that the advertising, offering for sale, or sale of any vehicle is prohibited on the applicant's property and further authorizing the City to act as the agent of the property owner to gain compliance with the provisions of this Section. Such application shall be made on a form prescribed by the City Manager or designee. The City Manager or designee shall thereupon cause

the applicant's property to be posted with an appropriate sign or signs stating that the advertising, offering for sale, or sale of any vehicle is prohibited thereon. When such property has been so posted, it shall be the duly posted private property. (1142, 1669, 1771, 1849, 1974, 2122, 2188, 5024)

6. When a vehicle is parked in a fire lane in violation of the provisions of Section 7-2-2(M) of the Mesa City Code. (1849, 1974, 2122, 2188)

7. When a vehicle is parked, stopped, or standing in violation of any provision contained in Title X, Chapters 2, 3, or 5 of this Code or when signs are erected giving notice that vehicles parked in violation of the parking restrictions may be towed at the owner's expense. (1974, 2122, 2188)

(B) Unoccupied Vehicle Violating Laws Declared Nuisance. Any unoccupied vehicle of any kind or description found under the circumstances enumerated in paragraph numbers 1 through 7, inclusive, of Subsection (A) of this Section is hereby declared to be a nuisance and a menace to the safe and proper regulation of traffic. Such vehicle shall be taken in charge by any Police officer and removed from the street, public parking lot or garage, private parking lot or garage, or duly posted private property and kept in custody upon the direction of the Chief of Police. Such vehicle may be recovered by the owner when he has furnished evidence of his identity and ownership and signed a receipt. The owner of such vehicle shall be liable for all towing and storage charges in connection with the removal and storage thereof. The payment of such removal and storage charges shall not release the owner or driver of such vehicle from any other penalty imposed for violation of the traffic laws of the City. (1142, 1669, 1771, 1849, 1974, 2188)

(C) Notice of Removal to Owner. Whenever an officer removes a vehicle from a street, public parking lot or garage, private parking lot or garage, or duly posted private property as authorized in this Section and the officer knows or is able to ascertain from the registration records in the vehicle the name and address of the owner thereof, such officer shall immediately give or cause to be given notice in writing to such owner of the fact of such removal and the reasons therefor and of the place to which such vehicle has been removed. In the event any such vehicle is stored in a public garage, a copy of such notice shall be given to the proprietor of such garage. (Reso. 990, 1142, 1669, 1974, 2188)

(D) Unidentifiable Vehicles. Whenever an officer removes a vehicle from a street, public parking lot or garage, private parking lot or garage, or duly posted private property under this Section and does not know and is not able to ascertain the name of the owner or for any reason is unable to give notice to the owner as hereinbefore provided, and in the event the vehicle is not returned to the owner within a period of three (3) days, then and in that event the officer shall immediately send or cause to be sent a written report of such removal by mail to the Motor Vehicle Department, whose duty it is to register motor vehicles, and shall file a copy of such notice with the proprietor of any public garage in which the vehicle may be stored. Such notice shall include a complete description of the vehicle, the date, time, and place from which removed, the reasons for such removal, and the name of the garage or place where the vehicle is stored. (Reso. 990, 1142, 1669, 1974, 2188)

(E) Thirty-Day Impoundment. Pursuant to A.R.S. § 28-3511, a vehicle shall be immobilized or impounded for thirty (30) days for the following reasons:

1. The driver's driving privilege is revoked for any reason; (4659)

2. The driver's driving privilege is suspended; (4659)

3. The driver has never been issued a driver license or permit and does not produce evidence of a driver license by another jurisdiction; or (4659)

4. A Peace Officer has probable cause to arrest the driver for a violation of ARS §§ 4-244, 28-1382, or 28-1383. (4659)

(F) Thirty-Day Impoundment Fee Pursuant to ARS § 28-3513. (4659)

1. If a vehicle is properly impounded, a $150.00 administrative fee will be charged, relating to the removal, immobilization, impoundment, storage or release of a vehicle. The administrative charge is in addition to any other immobilization, impoundment, or storage charges. (4659)

2. The administrative fee will be waived upon proof that the vehicle is stolen and the theft was reported. (4659)

3. If the theft was reported, the operator of the vehicle at the time of immobilization or impoundment is responsible for all towing, immobilization, and storage charges. (4659)

10-3-27: EXCESS LOADS; CIVIL SANCTIONS AND PENALTIES FOR VIOLATION

(A) Single Axle Load Limit and Gross Weight of Vehicles and Loads. The gross weight imposed by the wheels of any one axle of a motor vehicle and the total gross vehicle weight of any motor vehicle operated upon any City street shall not exceed the weights set forth in A.R.S. §§ 28-1008, 28-1009, and 28-1009.01, and the provisions of said Sections, together with the tables and formulas set forth therein, are incorporated herein by reference and made a part hereof as though fully set forth herein. (1910)

(B) Violation; Classification; Prima Facie Evidence. (1910)

1. A person who violates any of the provisions of this Section is subject to a civil sanction except as otherwise set forth herein. (1910)

2. A second violation of this Section within six (6) months of a judgment for a first violation is a Class 2 misdemeanor. A second conviction as a misdemeanor for violation of Subsection (A) of this Section within one (1) year is a Class 1 misdemeanor. In addition to any term of imprisonment which may be imposed for a second or subsequent violation, the Court shall fine a person the amount which is set forth in the following table: (1910)

If the Excess Weight is:	**The Minimum Fine or Civil Sanction is:**		
	Sanction	**Class 2**	**Class 1**
1,001 to 1,250 Pounds	$50.00	$75.00	$100.00
1,251 to 1,500	$100.00	$150.00	$200.00
1,501 to 2,000	$150.00	$225.00	$300.00
2,001 to 2,500	$200.00	$300.00	$400.00
2,501 to 3,000			$500.00
3,001 to 3,500			$600.00
3,501 to 4,000			$700.00
4,001 to 4,500			$800.00
4,501 to 4,750			$900.00
4,751 and Over			$1,000.00

3. Notwithstanding any of the provisions of Subsection 2 of this Section, a conviction for a violation of this Section in which the excess weight is over two thousand five hundred one pounds (2,501) or greater is a Class 1 misdemeanor. (1910)

4. If the officer finds that the person has violated only the axle weight limitation and not the total weight limitation, the officer shall request a driver to reload the vehicle to comply with the axle weight limitation. If the driver does not comply with the request of the officer to reload, the driver is subject to a civil sanction. (1910)

5. A weight certificate or other document evidencing the receipt of goods for shipment issued by a person engaged in the business of transporting or forwarding goods stating the gross weight of the vehicle with a load which is in excess of the prescribed maximum weight set forth in this Section is prima facie evidence that the weight of a vehicle and load is unlawful. (1910)

6. If the commodity being carried is sold by weight, a weight certificate or other document evidencing the receipt of goods for shipment issued by a person engaged in the business of transporting or forwarding goods stating the gross weight of the vehicle with a load which is not in excess of the prescribed maximum weight limitation permitted by this Section is prima facie evidence that the weight of a vehicle and load is lawful. (1910)

CHAPTER 4
SPEED LIMITS

10-4-1: SPEEDS OF 55 MILES PER HOUR PERMITTED ON CERTAIN STREETS

A person shall not exceed a speed of fifty-five (55) miles per hour on the following portions of the following streets: (990, 1771, 2002, 4594)
(Repealed by 4594)

10-4-2: SPEEDS OF 50 MILES PER HOUR PERMITTED ON CERTAIN STREETS

A person shall not exceed a speed of fifty (50) miles per hour on the following portions of the following streets: (990, 1771, 4594, 5140)

Ellsworth Road	From Elliot Road to the south City limits; (5140)

10-4-3: SPEEDS OF 45 MILES PER HOUR PERMITTED ON CERTAIN STREETS

A person shall not exceed a speed of forty-five (45) miles per hour on the following portions of the following streets: (990, 1771, 5140)

Alma School Road	From Baseline Road south to the City limits; (3221)
	From 8th Street to the north City limits; (3456)
Baseline Road	From the west City limits to the east City limits; (3131, 3903)
Broadway Road, East	From South Gilbert Road to the east City limits;
Broadway Road, West	From Mulberry to the west City limits;
Brown Road	From Stapley Drive to the east City limits; (3784)

Center, North	From Brown Road to McKellips Road;
Country Club Drive	From Brown Road to the north City limits;
Crismon Road	From north City limits to Elliot Road; (2689, 3639, 3784, 5432)
Dobson Road, South	From Baseline Road to the south City limits; (3221)
Elliot Road	From the west City limits to the east City limits; (3784, 4477)
Ellsworth Road	From north City limits to Elliot Road; (4017, 4068, 4594, 5140)
Germann Road	From the west city limits to the east city limits; (4918)
Gilbert Road	From the west leg of Lockwood Street to the south City limits; (4004)
Greenfield Road	From the north City limits to the south City limits; (3538, 4066)
Guadalupe	From the west City limits to a point six hundred twenty feet (620') east of Signal Butte Road; (3784)
Hawes Road	From Loop 202/Santan Freeway to Ray Road; (5009)
Higley Road	From Thomas Road to the south City limits; (2330, 4017, 4066)
Lindsay Road	From the north City limits to the south City limits; (3784)
Main Street	From Gilbert Road to the east City limits; (3221, 4823)
McDowell Road	From 26th Street to the east City limits; (4004, 4017)
McKellips Road	From the west City limits to the east City limits; (4017)
Mesa Drive, North	From East Brown Road to East McKellips Road;
Mountain Road	From Pecos Road to Williams Field Road; (2565)
	From Mesquite Street to Ray Road; (5177)
Pecos Road	From the west City limits to Mountain Road; (2565, 4279, 4882)
Power Road	From the Superstition Freeway (U.S. 60) to the north City limits; (3784, 4017)
	From Baseline Road to the south City limits; (5013)
Ray Road	From Power Road to East City Limits; (5424)
Recker Road	From Adobe Street to the Red Mountain Freeway; (Loop 202) (3816, 4456)
Signal Butte Road	From Broadway Road to south City limits; (2689, 3585, 4886, 5128, 5307)
Sossaman Road	From Elliot Road to the north City limits; (3221, 4594)
	From a point two thousand eight hundred feet (2,800') north of Pecos Road to the south City limits; (4279, 5350)

(Ord. No. 5507, § 4, 5-20-19; Ord. No. 5563, § 1, 4-20-20; Ord. No. 5726, § 1, 9-12-22; Ord. No. 5850, § 1, 5-20-24)

10-4-7: SPEEDS OF 25 MILES PER HOUR PERMITTED ON CERTAIN STREETS

A person shall not exceed a speed of twenty-five (25) miles per hour on any public street within the City limits, except within the areas of those certain streets designated in Section 10-4-1 through Section 10-4-6 inclusive. (1771)

10-4-7.1: SPEEDS OF 15 MILES PER HOUR PERMITTED IN ALLEYS

A person shall not exceed a speed of fifteen (15) miles per hour on any public alley within the City limits. (2330)

10-4-7.2: SPEEDS OF 15 MILES PER HOUR PERMITTED ON CERTAIN STREETS (Repealed)

Editor's note—Ord. No. 2865 repealed § 10-4-7.2.

10-4-8: FALCON FIELD RESTRICTIONS

A person shall not exceed a speed of twenty-five (25) miles per hour on any roadway in Falcon Field, except where otherwise posted. (1771)

10-4-9: EMERGENCY, CONSTRUCTION OR CONTINGENT SPEED LIMITS

The City Traffic Engineer is authorized to fix speed limits less than the designated speed limits in this Chapter when construction conditions, congested traffic, or other conditions require such reduced speed limits for public safety. Such reduced speed limits shall become effective when signs are erected giving notice thereof, and such reduced speed limits shall remain in effect until the signs are removed. (840, 3766, 5258)

10-4-10: PENALTY FOR EXCEEDING THE MAXIMUM SPEED LIMIT

The provisions of A.R.S. §§ 28-701.02 and 28-702.01 shall be applicable in all instances when a person exceeds the maximum speed limit set forth in either of those Sections. (1771)

10-4-11: SPEEDS OF 35 MILES PER HOUR PERMITTED ON CERTAIN STREETS DURING CERTAIN HOURS

The City Traffic Engineer is hereby authorized to fix speed limits and to reduce the speed limit to thirty-five (35) miles per hour on streets immediately adjacent to any elementary, junior high, or high school property for

portions of the day when children are on their way to or from school. After consultation with school officials, the City Traffic Engineer or his designee will determine the length along each street where the reduced speed limit will be in effect and the effective hours of the reduced speed limit. The City Traffic Engineer or his designee shall cause signs to be erected giving notice of the times and specified location of the reduced speed limit. (2257, 3639, 3713, 3766, 3784, 5258)

CHAPTER 5
PARKING LOTS AND GARAGES

10-5-1: PARKING RESTRICTED OR PROHIBITED

(A) Installation of and Obedience to Signs and Markings. In a publicly or privately owned parking lot or garage being operated or managed by the City or being operated or managed by a private person or entity pursuant to a lease, contract, or other agreement with the City, the City Traffic Engineer may have signs or markings installed that prohibit, limit, restrict, or regulate the time, place, or method of parking. When such signs or markings are in place, a vehicle shall not be parked in violation of the prohibition, limitation, restriction, method of parking, or regulation designated by said signs or markings. It shall be unlawful to park any vehicle in any parking lot or garage described above except within a parking stall as designated by official markings. It shall be unlawful to park any vehicle in any parking lot or garage described in this Section in such a position that it shall not be within the space designated by official lines or markings. (1073, 1771, 2189, 4882)

(B) In any publicly or privately owned parking lot or garage being operated or managed by the City or being operated or managed by a private person or entity pursuant to a lease, contract, or other agreement with the City, all or certain portions of said lots or garages may be designated for parking of vehicles with permits or decals. Parking may be permitted in said lots, garages, or portions thereof during certain hours or on weekends and holidays if signs are posted which specify the hours or days that a permit or decal is required. Vehicles without a permit or decal may be parked in said lots or garages at any other time. (2189, 4882)

1. Parking in the above-described lots, garages, or portions thereof is prohibited during the hours or days that a permit or decal is required by official signs posted therein, except for vehicles that are displaying a current and valid permit or decal. A permit or decal is invalid if it is expired or has been cancelled because of a contract violation, such as nonpayment of the monthly rent or lease fee. (2189, 3833)

2. Vehicles parked in the above-described lots, garages, or portions thereof shall have a properly displayed permit or decal in the left rear lower corner of the rear window or other conspicuous location as approved by the City and in accordance with the provisions of this Section. A properly displayed permit or decal must be visible from the rear of the vehicle. (2189, 3833)

(C) Compact Car Parking. In any publicly or privately owned parking lot or garage being operated or managed by the City or being operated or managed by a private person or entity pursuant to a lease, contract, or other agreement with the City, certain portions of said lots or garages may have parking spaces which are designated for compact cars. Vehicles which exceed fifteen feet (15') in length shall not be parked in areas designated for compact cars. (2189, 4882)

(D) Parking of motor vehicles is prohibited in the field area of Falcon Field Airport as defined in Title 9, Chapter 9, except for motor vehicles parked thereon pursuant to authority expressly granted by the Airport Director under Title 9, Chapter 9 of the Mesa City Code. (2434, 3833, 4882)

(E) In all publicly or privately owned parking lots or garages that are operated or managed by the City or by a private person or entity pursuant to an agreement with the City, persons shall use the lots and garages

only for the parking of vehicles or for other uses expressly approved in advance by the City. It shall be unlawful for any person using such property for unauthorized purposes to refuse or fail to leave such property upon being requested to do so by the owner, operator, or agent thereof. (2584, 4882)

(F) The City Manager or his designee may cause any publicly or privately owned parking lot or garage being operated or managed by the City or being operated or managed by a private person or entity pursuant to a lease, contract, or other agreement with the City, to be reserved to accommodate event parking, i.e., for concerts, plays, athletics, and other events. A fee may be assessed for the use of these lot(s) and/or garage(s) for daily parking. A fee may be assessed for the use of these lot(s) and/or garage(s) for event parking. The fees for daily parking and event parking shall be as approved by City Council Resolution. The City Manager or his designee shall determine if the event parking fee should be assessed for specific events. The City Council may authorize the City Manager to enter into licenses, leases, or other agreements that modify or waive daily and event parking fees. (4394, 4882, 4908)

10-5-2: VIOLATIONS

When signs or markings are in place giving notice thereof, it is unlawful and a violation of this Section for a vehicle to be parked in any location designated in Section 10-5-1 of this Chapter unless the vehicle is parked consistent with and in accordance with all restrictions, limitations, times, hours, days, manner, and other requirements in this Chapter and in compliance with any City ordinance or provision of this Code which regulates the time, place, or method of parking. Any violation of this Chapter is a civil traffic violation and shall be enforced by the Police Chief of the City pursuant to the provisions of Section 10-3-25 of the Mesa City Code. (2189, 3833, 4882)

10-5-3: SIGNS OR MARKINGS REQUIRED FOR ENFORCEMENT

The City Traffic Engineer may install appropriate signs or markings giving notice of parking restrictions, prohibitions, and method of parking in this Chapter and violations shall not be enforced unless appropriate signs or markings are installed and in place at the time of the violation. (2189, 3766, 4882)

10-5-4: RENTAL; LEASES AND PERMITS; ADMINISTRATION

(A) The City may contract with a private person or entity for the management of privately owned and public parking lots and garages. (2189)

(B) The City or a private person or entity acting pursuant to a contract with the City may manage or lease publicly and privately owned parking lots and may enter into agreements whereby parking rights or privileges in privately owned lots or garages and public lots or garages are rented or leased to individuals. (2189)

(C) The City or a private person or entity acting pursuant to a contract with the City shall issue permits or decals showing the lot or garages rented or leased and shall provide for appropriate display of the permits or decals. Permits or decals shall be issued only for vehicles for which the rent or lease has been paid. (2189)

10-5-5: AUTHORITY TO IMPOUND VEHICLES

Vehicles parked in violation of this Chapter may be impounded pursuant to the provisions of Section 10-3-26 of the Mesa City Code. (1771, 2189)

10-5-6: AUTHORITY TO ATTACH A RESTRAINING DEVICE

(A) Members of the Police Department are hereby authorized to attach a restraining device (boot) to any vehicle parked in violation of any provision of this Chapter where the vehicle is deemed to constitute a public nuisance under Title 10 of the Mesa City Code. (2189, 2434)

(B) Whenever a restraining device is used under this Section, a notice shall be conspicuously attached to the vehicle indicating that the vehicle has been immobilized for failure to satisfy outstanding sanctions for five (5) or more prior parking violations; that release from such immobilization may be obtained at a designated place; that unless arrangements are made for release of the vehicle within seventy-two (72) hours, the vehicle shall be deemed abandoned under, and shall be disposed of pursuant to, A.R.S. Title 28, Chapter 8, Article 5; and that any person who tampers with, defaces, removes, or attempts to remove a restraining device without Police Department permission is subject to criminal prosecution. Reasonable charges may be assessed for removing the restraining device from the vehicle and for towing and impounding the vehicle. (2434)

(C) It shall be a misdemeanor for any person to tamper with, deface, remove, or attempt to remove a restraining device that has been attached to a vehicle pursuant to this Section without Police Department authority. (2434)

(D) The owner or driver of a vehicle immobilized under this Section shall be entitled, upon request, to a hearing in the Mesa City Court to contest the immobilization. Such request for a hearing shall be made in writing to the Clerk of the Mesa City Court within seventy-two (72) hours of the immobilization. If a timely request for a hearing is made under this Subsection, a hearing shall be held within forty-eight (48) hours of the receipt of the request unless the owner or driver of the immobilized vehicle requests or agrees to a hearing at a later time. (2434)

(E) Whenever the owner or driver of a vehicle immobilized under this Section requests a hearing before the Mesa City Court to contest the immobilization, the owner or driver may obtain the immediate release of the vehicle pending the hearing by depositing with the City the sum of two hundred dollars ($200.00) in cash or its equivalent or by posting a secured appearance bond or other form of security in the amount of, or having a value of, two hundred dollars ($200.00). The secured appearance bond or other form of security shall reflect the undertaking by the owner, driver, or surety, to bind himself or themselves to pay the full amount of the bond to the City of Mesa or otherwise to forfeit their security if the owner or driver fails to appear before the City Court to contest the immobilization. (2434)

(F) The person who parked or placed a vehicle in violation of Title 10 of the Mesa City Code, the owner or owners of the vehicle, and the registered owner or owners of the vehicle are individually and jointly responsible for the violations, the prescribed civil sanctions, and for payment of any applicable immobilization, towing, or impoundment charges. (2434)

(G) Vehicles immobilized or impounded under this Section shall promptly be released upon payment, in cash or its equivalent, of all current and accumulated sanctions and payment of all charges associated with immobilization and impoundment of the vehicle. (2189, 2434)

(H) Whenever a vehicle is towed and impounded under this Section as an abandoned vehicle, notice shall be provided in accordance with A.R.S. Title 28, Chapter 8, Article 5. (2434)

CHAPTER 6
OFF-STREET PARKING AREAS (Repealed)*

CHAPTER 7
CIVIL TRAFFIC VIOLATIONS

10-7-1: CIVIL TRAFFIC VIOLATIONS

Any violation of or failure or refusal to do or perform any act required by Chapters 1 through 7 of Title 10 of the Mesa City Code constitutes a civil traffic violation except as otherwise provided. Civil traffic violations are subject to the provisions of A.R.S. Title 28, Chapter 6, Articles 20 and 21, and amendments thereto. (1771)

10-7-2: AUTHORITY TO DETAIN PERSONS TO SERVE TRAFFIC COMPLAINT

Any Police officer or duly authorized agent of the City may stop and detain a person as is reasonably necessary to investigate an actual or suspected violation of this Title and to serve a copy of the traffic complaint for any alleged civil or criminal violation of this Title. (1771)

10-7-3: HEARING OFFICERS (Repealed)†

10-7-4: HABITUAL OFFENDERS

(A) Any person who commits a civil traffic violation of this Title 10 of the Mesa City Code after previously having been found responsible for three (3) or more civil traffic violations of Title 10 of the Mesa City Code within a twenty-four- (24-) month period, whether by default or by judgment after hearing, and who has not paid the civil sanctions required by the Court for those offenses (underlying offenses) shall be guilty of a misdemeanor. For purposes of calculating the twenty-four- (24-) month period under this paragraph, the dates of the commission of the offenses are the determining factor. (2434, 3117)

(B) The Mesa City Prosecutor is authorized to file a criminal misdemeanor complaint in the Mesa City Court against habitual offenders who violate this Section. (3117)

(C) The payment of the civil sanctions due on an underlying offense, when such payments are made after the issuance of a summons and complaint on a charge of being a habitual offender, shall not be a defense to the habitual offender charge. (3117)

(D) Upon conviction of a violation of this Section, the Court may impose a sentence of incarceration not to exceed six (6) months in jail or a fine not to exceed two thousand five hundred dollars ($2,500.00), exclusive of penalty assessments prescribed by law, or both. The Court shall order a person who has been convicted of a violation of this Section to pay a fine of not less than two hundred fifty dollars ($250.00) for each count upon which a conviction has been obtained. A judge shall not grant probation to or suspend any part or all of the imposition or execution of any sentence required by this Subsection except on the condition that the person pay the mandatory minimum fines as provided for in this Subsection. (2434, 2466, 3117)

***Editor's note—**Ord. No. 2189 repealed Chapter 6.

†Editor's note—Ord. No. 4027 repealed § 10-7-3. Formerly, such section derived from Ord. No. 1771.

(E) Every action or proceeding under this Section shall be commenced and prosecuted in accordance with the laws of the State of Arizona relating to criminal misdemeanors and the Arizona Rules of Criminal Procedure. (2434, 3117)

CHAPTER 8
PENALTY FOR REFUSAL TO FURNISH INFORMATION OR SIGN CIVIL TRAFFIC CITATION

10-8-1: REFUSAL TO FURNISH INFORMATION OR SIGN CITATION

Any person who fails to furnish the citing officer or their designate their full name and date of birth required for completion of a civil traffic citation or who, after request by the citing officer, refuses to sign a civil traffic citation shall be guilty of a misdemeanor.
(Ord. No. 1771; Ord. No. 5620, § 1, 5-3-21)

10-8-2: PENALTY

Any person who shall violate any of the provisions of Section 10-8-1 of the Mesa City Code shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine not to exceed two thousand five hundred dollars ($2,500.00) or by imprisonment in the City jail for a period not to exceed six (6) months, or by both such fine and imprisonment. (1771, 2466)

CHAPTER 9
PRIVATE PARKING AREAS

10-9-1: PARKING IN PRIVATE PARKING AREAS

(A) No person shall park a vehicle in any private parking area without the express or implied consent of the owner or the agent of the owner of such property. (1862)

(B) The owner or the agent of the owner of any private parking area shall be deemed to have given consent to unrestricted parking by the general public in such parking area unless such parking area is posted with signs as prescribed by this Section which are clearly visible and readable from any point within the parking area and at each entrance thereto. The signs shall contain the following information: (1862)

1. Restrictions on parking. (1862)
2. That violator's vehicle will be towed away at violator's expense. (1862)
3. Telephone number of Mesa Police Department. (1862)
4. Each sign shall state "Mesa City Code, Title 10, Chapter 9." (1862)

10-9-2: CONSENT AND NOTICE TO POLICE AND RELEASE OF VEHICLE

(A) No person shall tow or transport a vehicle from a private parking area without the permission of the owner or operator of the vehicle, unless requested to do so by a law enforcement agency or upon a written towing order signed by the real property owner or his agent specifying the vehicle to be towed. The signed towing request must be in the possession of the person towing or transporting the vehicle. (1862)

(B) No person shall hold or attempt to hold any vehicle towed from a private parking area without the consent of the vehicle owner or operator as security for accrued towing and/or storage fees. A vehicle owner or agent of a vehicle owner may recover the towed vehicle from the tow driver or tow company upon providing reliable identification such as a driver's license or other evidence of name and address of the registered owner or driver for assistance in billing and collection of towing and/or storage charges. (This Subsection shall not apply to vehicles deemed to constitute a public nuisance pursuant to Mesa City Code Section 10-3-25[B]4.) (2576)

(C) Any person towing or transporting any vehicle from any private parking area without the express permission of the vehicle owner or operator shall notify the City of Mesa Police Department immediately upon the taking of such action and provide the following information: (1862, 2576)

1. Name and address of the owner of the vehicle, if known. (1862, 2576)
2. The vehicle license number and description. (1862, 2576)
3. Reason the vehicle was moved without the permission of the owner or operator. (1862, 2576)
4. Location from which the vehicle was taken. (2576)
5. Location to which the vehicle was taken. (1862, 2576)
6. Name, address, and telephone number of the person or company that towed or transported the vehicle. (1862, 2576)

(D) Penalty. Any person who violates or fails to comply with any of the provisions of Section 10-9-2 of the Mesa City Code shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine not to exceed two thousand five hundred dollars ($2,500.00) or by imprisonment for a period not to exceed six (6) months, or by both such fine and imprisonment. (1862, 2576)

CHAPTER 10
TEMPORARY TRAFFIC CONTROL MANUAL

10-10-1: TEMPORARY TRAFFIC CONTROL MANUAL

(A) City Temporary Traffic Control Manual. The City Traffic Engineer shall develop, publish, and revise from time to time as needed, a manual on procedures and practices necessary to establish temporary control measures to be used in conjunction with partial and full restrictions of all City streets, sidewalks, bicycle lanes, equestrian, bicycle, pedestrian or multi-use paths, special use trails, alleys, highways, transit stops or other facilities, hereinafter referred to as "City transportation facilities," to be used in conjunction with any work, construction, maintenance, or other use of City rights-of-way or easements. Such City Temporary Traffic Control Manual may consist of a manual or manuals, in whole or in part, developed and published by other cities, states or the federal government, along with modifications, amendments, or a supplement specific to the City of Mesa. The City Temporary Traffic Control Manual shall be adopted by City Council resolution. (5053/Reso. 9892, 5415)

1. Clarifications and Corrections. The City Traffic Engineer is authorized to publish clarifications and corrections to the City Temporary Traffic Control Manual as needed to provide clarification,

additional explanation or illustration of any provision of the City Temporary Traffic Control Manual, or to correct typographical or other similar errors. Such clarifications and corrections shall be in writing and filed with the City Clerk. (5068, 5415)

(B) The City Traffic Engineer or designee, is authorized to approve or disapprove barricading utilized on any City transportation facility, and to take those actions necessary, in his professional judgment and in accordance with the City Temporary Traffic Control Manual, to promote, preserve and protect public health, safety and welfare on such City transportation facilities with respect to barricading and temporary traffic control. (5053/Reso. 9892, 5415)

(C) It is unlawful for any person to restrict any portion of a City transportation facility, City right-of-way or easement in a manner that is not in compliance with the City Temporary Traffic Control Manual unless approved by the City Traffic Engineer or designee. (5053/Reso. 9892, 5415)

10-10-2: AUTHORITY TO APPROVE OR DENY RESTRICTIONS AND ISSUE PERMITS

(A) Authority to approve or deny restrictions. The City Traffic Engineer or a designee shall have the authority to approve or deny all partial and full restrictions of City transportation facilities in conjunction with any work, construction, maintenance, or other use of City rights-of-way or easements to promote, preserve or protect public health, safety and welfare by minimizing impact on the traveling public and gaining compliance with temporary traffic control standards with respect to such restrictions. (5053/Reso. 9892)

(B) City Traffic Engineer to establish procedures, rules and issue permits. The City Traffic Engineer shall develop, publish and revise from time to time as needed, procedures and rules, hereinafter referred to as the rules, for applying for permission to restrict any portion of a City transportation facility, City right-of -way, or easement, and is authorized to issue or cause to be issued a Temporary Traffic Control Permit for all such requests that are approved. The rules may include blanket exceptions for certain types of work or specific types of restrictions for which a Temporary Traffic Control Permit is not necessary. Each Temporary Traffic Control Permit shall include general and special conditions as determined necessary by the City Traffic Engineer or designee for the permit holder's temporary use of the right-of-way to promote, preserve or protect public health, safety and welfare by minimizing impact on the traveling public and gaining compliance with temporary traffic control standards with respect to such restrictions. (5053/Reso. 9892)

(C) Permit required. No person shall restrict any portion of any City transportation facility, City right-of-way or easement without first obtaining a valid Temporary Traffic Control Permit from the Transportation Department unless otherwise provided for in the rules. (5053/Reso. 9892)

(D) Temporary Traffic Control Permit Modification, Suspension or Revocation. The City Traffic Engineer or designee may modify any condition of a permit, or suspend or revoke such Temporary Traffic Control Permit at any time when necessary, in his sole discretion, to promote, preserve or protect public health, safety and welfare. Such permit may also be suspended or revoked if the permit holder fails to follow the Temporary Traffic Control Manual, applicable laws, or any general or special conditions of the permit. (5053/Reso. 9892, 5415)

(E) Fees. Temporary traffic control fees must be paid at the time of issuance of a Right-of-Way or non-City Utility Permit, and renewal fees, if any, must be paid in advance according to the Schedule of Fees and Charges and the rules except as provided in Subsection (F) below. (5053/Reso. 9892)

(F) Fees not Required. Temporary traffic control fees are not required for restrictions for neighborhood block parties, for restrictions in connection with activities conducted by City employees in the course of their City duties, or activities being carried out by others under direct contract to the City or under subcontract to another who is under direct contract to the City, or in any instance where the City Manager or his designee determines that it is in the City's best interest to waive temporary traffic control fees. (5053/Reso. 9892)

10-10-3: VIOLATIONS AND ENFORCEMENT

(A) The City Traffic Engineer or designee, is authorized to enforce the provisions of this Chapter as follows:

1. Seeking voluntary compliance through information and education; (5053/Reso. 9892)
2. Issuing corrective action or violation notices and warnings; (5053/Reso. 9892)
3. Other informal means designed to achieve compliance in the most efficient and effective manner; (5053/Reso. 9892)
4. In cooperation with the Engineering Department, issuing stop work notices; (5053/Reso. 9892)
5. Suspending or revoking Temporary Traffic Control Permits; (5053/Reso. 9892)
6. In cooperation with the Development Services Division, placing a hold on issuance of new Right-of-Way and/or Temporary Traffic Control Permits for the same company or individual; (5053/Reso. 9892)
7. Issuing a civil citation for civil sanctions under this Chapter; (5053/Reso. 9892)

(B) Remedies not Exclusive. Violations of this Chapter are in addition to any other violation established by law, and this Section shall not be interpreted as limiting the penalties, actions or abatement procedures which may be taken by the City or other persons under the law, ordinances, or rules. (5053/Reso. 9892)

(C) Responsible Parties:

1. Any person or his agent who causes, permits, facilitates, aids or abets any violation of this Chapter, or who fails to perform any act or duty required pursuant to this Section, is subject to the enforcement provisions of this Chapter. The person and his agent may be found to be individually responsible for the violations, the prescribed civil sanctions, and the abatement of the violations. (5053/Reso. 9892)
2. Any person, firm, or agency conducting work in the public right-of-way or easement is responsible for assuring that all related activities comply with the provisions of this Chapter. Contracting with another person, firm or agency (subcontractor) for temporary traffic control services does not relieve the person, firm or agency conducting the work of the obligation to comply with the provisions of this Chapter. (5053/Reso. 9892)

(D) Civil violations and procedure:

1. Violation of any portion of this Chapter shall be a civil offense and shall be commenced and adjudicated pursuant to the Arizona Rules of Procedure in civil traffic and civil boating violation cases. Violations will be filed with the Mesa Municipal Court. (5053/Reso. 9892, 5068)

2. Complaints for violations of this Chapter may be issued by Transportation Department employees working under the authority of the City Traffic Engineer or designee, and shall be in a form substantially similar to the Arizona Traffic Ticket and Complaint as approved by the City Traffic Engineer or designee. (5053/Reso. 9892, 5068)

(E) Penalties. Upon a finding or admission of responsibility, a violator is subject to the following sanctions: (5068)

1. Any act, error, or omission within the right-of-way that creates an imminent risk of death or injury; Civil Sanction: $1,500.00 (5068)

2. Restricting the right-of-way or easement without a required Temporary Traffic Control Permit; Civil Sanction: $1,000.00 (5068)

3. Restricting traffic during peak traffic hours as described in the Temporary Traffic Control Manual without authorization; Civil Sanction: $1,000.00 (5068, 5415)

4. Failing to correct or cure a violation of the Temporary Traffic Control Manual within the time period stated on the Notice of Violation; Civil Sanction: $1,000.00 (5068, 5415)

5. Restricting the right-of-way at an intersection with traffic signals without any work being conducted for which the restriction is necessary for a period of one continuous hour unless otherwise approved; Civil Sanction: $1,000.00 (5068)

6. Improperly closing a sidewalk or closing a sidewalk without first obtaining a required Traffic Control Permit; Civil Sanction: $500.00 (5068)

7. Failing to comply with the conditions, restrictions, limits, times, or location of a Temporary Traffic Control Permit; Civil Sanction: $500.00 (5068)

8. Failing to install advance warning signs or failing to install advance warning signs that comply with the Temporary Traffic Control Manual; Civil Sanction: $500.00 (5068, 5415)

9. Failing to install traffic barricades or channelizing devices or failing to install traffic barricades or channelizing devices that comply with the Temporary Traffic Control Manual; Civil Sanction: $500.00 (5068, 5415)

10. Failing to remove an advance warning sign leaving the sign facing traffic after the traffic restriction has been removed; Civil Sanction: $250.00 (5068)

11. Failing to remove traffic control devices from the right-of-way within twenty-four hours after expiration of the Temporary Traffic Control Permit; Civil Sanction: $250.00 (5068)

12. Failing to install and maintain traffic control devices that meet the quality requirements described in the Temporary Traffic Control Manual; Civil Sanction: $250.00 (5068, 5415)

13. Rendering a bus stop inaccessible without relocating it or making other approved accommodations; Civil Sanction: $250.00 (5068)

14. Failure to comply with any other provision of the Temporary Traffic Control Manual or this Chapter whether or not a Temporary Traffic Control Permit is required; Civil Sanction: $250.00 (5068, 5415)

TITLE 11 ZONING ORDINANCE*

ARTICLE 1 INTRODUCTORY PROVISIONS

CHAPTER 1 INTRODUCTORY PROVISIONS

11-1-1: TITLE AND AUTHORITY
11-1-2: PURPOSE
11-1-3: STRUCTURE OF ZONING REGULATIONS
11-1-4: GENERAL RULES FOR APPLICABILITY OF ZONING REGULATIONS
11-1-5: CONSISTENCY WITH THE GENERAL PLAN
11-1-6: EFFECT ON PREVIOUSLY APPROVED PROJECTS AND PROJECTS IN PROGRESS
11-1-7: SEVERABILITY

CHAPTER 2 RULES FOR THE CONSTRUCTION OF LANGUAGE AND INTERPRETATION

11-2-1: PURPOSE
11-2-2: RULES FOR CONSTRUCTION OF LANGUAGE
11-2-3: RULES FOR MEASUREMENT
11-2-4: RULES OF INTERPRETATION

CHAPTER 3 DESIGNATION OF ZONING DISTRICTS, ZONING MAP, AND BOUNDARIES

11-3-1: DISTRICTS ESTABLISHED
11-3-2: OFFICIAL ZONING MAP AND DISTRICT BOUNDARIES

ARTICLE 2 BASE ZONES

CHAPTER 4 AGRICULTURAL DISTRICT

11-4-1: PURPOSE
11-4-2: LAND USE REGULATIONS
11-4-3: DEVELOPMENT STANDARDS
11-4-4: SUPPLEMENTAL REGULATIONS
11-4-5: AGRICULTURE-BASED ENTERTAINMENT
11-4-6: REVIEW OF PLANS

CHAPTER 5 RESIDENTIAL DISTRICTS

11-5-1: PURPOSE
11-5-2: LAND USE REGULATIONS
11-5-3: DEVELOPMENT STANDARDS FOR THE RS AND RSL DISTRICT
11-5-4: SITE PLANNING AND DESIGN STANDARDS FOR THE RS AND RSL DISTRICTS
11-5-5: DEVELOPMENT STANDARDS FOR THE RM DISTRICT
11-5-6: SITE PLANNING AND DESIGN STANDARDS FOR THE RM DISTRICTS
11-5-7: ALTERNATIVE COMPLIANCE
11-5-8: RESERVED
11-5-9: RESERVED

***Editor's note**—Previously, Title 11 derived from Ord. No. 5051, 7-7-11; Ord. No. 5099, 6-14-12; Ord. No. 5201, 2-10-14; Ord. No. 5206, 3-3-14.

CHAPTER 6 COMMERCIAL AND MIXED-USE DISTRICTS

11-6-1: PURPOSE
11-6-2: LAND USE REGULATIONS
11-6-3: DEVELOPMENT STANDARDS FOR THE COMMERCIAL AND MIXED-USE DISTRICTS
11-6-4: SITE PLANNING AND DESIGN STANDARDS FOR THE COMMERCIAL AND MIXED-USE DISTRICTS
11-6-5: ALTERNATIVE COMPLIANCE

CHAPTER 7 EMPLOYMENT DISTRICTS

11-7-1: PURPOSE
11-7-2: LAND USE REGULATIONS
11-7-3: DEVELOPMENT STANDARDS FOR THE EMPLOYMENT DISTRICTS
11-7-4: SITE PLANNING AND DESIGN STANDARDS FOR THE EMPLOYMENT DISTRICTS
11-7-5: ALTERNATIVE COMPLIANCE

CHAPTER 8 DOWNTOWN DISTRICTS

11-8-1: PURPOSE
11-8-2: LAND USE REGULATIONS
11-8-3: DEVELOPMENT STANDARDS FOR THE DOWNTOWN RESIDENCE DISTRICTS
11-8-4: SITE PLANNING AND DESIGN STANDARDS FOR THE DOWNTOWN RESIDENCE DISTRICTS
11-8-5: DEVELOPMENT STANDARDS FOR THE DOWNTOWN BUSINESS AND DOWNTOWN CORE DISTRICTS
11-8-6: SITE PLANNING AND DESIGN STANDARDS FOR THE DOWNTOWN BUSINESS AND DOWNTOWN CORE DISTRICTS
11-8-7: ALTERNATIVE COMPLIANCE

CHAPTER 10 PUBLIC AND SEMI-PUBLIC DISTRICT

11-10-1: PURPOSE
11-10-2: LAND USE REGULATIONS
11-10-3: DEVELOPMENT STANDARDS
11-10-4: REVIEW OF PLANS

CHAPTER 11 PLANNED COMMUNITY DISTRICT

11-11-1: PURPOSE AND INTENT
11-11-2: LAND USE AND DEVELOPMENT REGULATIONS
11-11-3: APPLICATION REQUIREMENTS
11-11-4: COMMUNITY PLAN REQUIRED
11-11-5: REVIEW AND CONSIDERATION OF DEVELOPMENT UNIT PLANS
11-11-6: DEVELOPMENT PLAN REVIEW
11-11-7: DEVELOPMENT PLAN EXPIRATIONS AND EXTENSIONS
11-11-8: AMENDMENTS TO AN APPROVED PC DISTRICT
11-11-9: ADMINISTRATIVE DECISION APPEALS
11-11-10: SUPPLEMENTARY PROVISIONS

CHAPTER 12 ID - INFILL DEVELOPMENT DISTRICTS

11-12-1: PURPOSE
11-12-2: APPLICABILITY
11-12-3: LAND USE REGULATIONS
11-12-4: DEVELOPMENT STANDARDS
11-12-5: INFILL INCENTIVE PLAN (IIP)
11-12-6: REVIEW OF ID DISTRICT AND INFILL INCENTIVE PLAN

CHAPTER 13 (RESERVED FOR FUTURE USE)

CHAPTER 14 EMPLOYMENT OPPORTUNITY DISTRICT

11-14-1: PURPOSE
11-14-2: APPLICABILITY AND AUTHORITY
11-14-3: LAND USE REGULATIONS AND DEVELOPMENT STANDARDS
11-14-4: APPLICATION REQUIREMENTS
11-14-5: EO DEVELOPMENT PLAN CONTENTS
11-14-6: DEVELOPMENT PLAN REVIEW
11-14-7: AMENDMENTS TO AN APPROVED EO DISTRICT
11-14-8: ADMINISTRATIVE NOTICING, PROCESS, AND APPEALS

CHAPTER 15 LEISURE AND RECREATION (LR) DISTRICT SECTIONS

11-15-1: PURPOSE
11-15-2: LAND USE REGULATIONS
11-15-3: REVIEW OF PLANS

CHAPTERS 16—18 (RESERVED FOR FUTURE USE)

ARTICLE 3 OVERLAY ZONES

CHAPTER 19 AIRFIELD OVERLAY DISTRICT

11-19-1: PURPOSE AND INTENT
11-19-2: RUNWAY PROTECTION ZONES AND AIRPORT OVERFLIGHT AREAS
11-19-3: DEFINITIONS SPECIFIC TO AIRFIELD OVERLAY DISTRICTS
11-19-4: LAND USE REGULATIONS
11-19-5: SUPPLEMENTARY PROVISIONS

CHAPTER 20 AGE-SPECIFIC OVERLAY DISTRICT

11-20-1: PURPOSE
11-20-2: LAND USE REGULATIONS
11-20-3: SUPPLEMENTAL REGULATIONS

CHAPTER 21 BONUS INTENSITY ZONE OVERLAY DISTRICT

11-21-1: PURPOSE
11-21-2: LAND USE REGULATIONS
11-21-3: DEVELOPMENT STANDARDS

11-21-4: SUPPLEMENTAL REGULATIONS
11-21-5: REVIEW OF PLANS

CHAPTER 22 PLANNED AREA DEVELOPMENT OVERLAY DISTRICT

11-22-1: PURPOSE
11-22-2: LAND USE REGULATIONS
11-22-3: DEVELOPMENT STANDARDS
11-22-4: SUPPLEMENTAL REGULATIONS
11-22-5: REVIEW OF PLANS

CHAPTER 23 HISTORIC AND LANDMARK OVERLAY DISTRICTS

11-23-1: PURPOSE
11-23-2: MESA HISTORIC PROPERTY REGISTER
11-23-3: APPLICATION FOR HD OR HL
11-23-4: CRITERIA FOR HISTORIC DISTRICTS AND LANDMARKS
11-23-5: LAND USE REGULATIONS
11-23-6: BUILDING PERMITS

CHAPTER 24 DOWNTOWN EVENTS (DE) OVERLAY ZONING DISTRICT

11-24-1: PURPOSE AND INTENT
11-24-2: DESCRIPTION OF OVERLAY DISTRICT BOUNDARIES
11-24-3: PERMITTED ACTIVITIES
11-24-4: SPECIAL EVENT LICENSE REQUIRED

CHAPTER 25 BILLBOARD OVERLAY DISTRICT

11-25-1: PURPOSE AND INTENT
11-25-2: LAND USE REGULATIONS
11-25-3: ELIGIBILITY REQUIREMENTS
11-25-4: DEVELOPMENT STANDARDS FOR BILLBOARDS
11-25-5: BILLBOARD APPLICATION, PERMITS, AND MAINTENANCE
11-25-6: DEVELOPMENT AGREEMENT OR INTERGOVERNMENTAL AGREEMENT

CHAPTERS 26—29 (RESERVED FOR FUTURE USE)

ARTICLE 4 DEVELOPMENT REGULATIONS

CHAPTER 30 GENERAL SITE DEVELOPMENT STANDARDS

11-30-1: PURPOSE AND APPLICABILITY
11-30-2: BUILDING PROJECTIONS INTO SETBACKS
11-30-3: EXCEPTIONS TO HEIGHT LIMITS
11-30-4: FENCES AND FREESTANDING WALLS
11-30-5: LIGHTING AND ILLUMINATION
11-30-6: LOTS AND LAND DIVISIONS
11-30-7: OUTDOOR STORAGE
11-30-8: PEDESTRIAN CONNECTIONS
11-30-9: SCREENING

11-30-10: SETBACKS AT INTERSECTIONS
11-30-11: SWIMMING POOLS
11-30-12: TRASH AND REFUSE COLLECTION AREAS
11-30-13: TRUCK DOCKS, LOADING AND SERVICE AREAS
11-30-14: VISIBILITY AT INTERSECTIONS
11-30-15: SOLAR PANELS AND OTHER ALTERNATIVE ENERGY PRODUCTION FACILITIES
11-30-16: PORTABLE STORAGE CONTAINERS (PSC)
11-30-17: DETACHED ACCESSORY BUILDINGS OR STRUCTURES

CHAPTER 31 STANDARDS FOR SPECIFIC USES AND ACTIVITIES

11-31-1: PURPOSE AND APPLICABILITY
11-31-2: ACCESSORY USES
11-31-3: ACCESSORY DWELLING UNIT
11-31-4: ANIMAL KEEPING (AG AND ACCESSORY TO RESIDENTIAL USES)
11-31-5: AUTOMOBILE RENTALS; AUTOMOBILE/VEHICLE SALES AND LEASING
11-31-6: AUTOMOBILE/VEHICLE REPAIR, MAJOR AND MINOR
11-31-7: AUTOMOBILE/VEHICLE WASHING
11-31-8: BED AND BREAKFAST INNS
11-31-9: COMMERCIAL USES IN ANY RESIDENTIAL DISTRICTS
11-31-10: COMMUNITY GARDENS
11-31-11: CONVENIENCE MARKETS
11-31-12: CORRECTIONAL TRANSITIONAL HOUSING FACILITIES (CTHF)
11-31-13: LARGE DAY CARE GROUP HOMES
11-31-14: COMMUNITY RESIDENCES
11-31-15: HOSPITALS AND CLINICS
11-31-16: LARGE COMMERCIAL DEVELOPMENT
11-31-17: LIVE/WORK UNITS
11-31-18: DRIVE-THRU AND PICK-UP WINDOW FACILITIES
11-31-19: OUTDOOR EATING AREAS
11-31-20: OUTDOOR DISPLAY
11-31-21: PAWN SHOPS
11-31-22: PLACES OF WORSHIP
11-31-23: RECYCLING COLLECTION AND PROCESSING FACILITIES
11-31-24: SCHOOLS
11-31-25: SERVICE STATIONS
11-31-26: SOCIAL SERVICE FACILITIES
11-31-27: SPECIAL EVENTS
11-31-28: ASSISTED LIVING CENTERS, NURSING AND CONVALESCENT HOMES
11-31-29: TEMPORARY PARKING LOTS
11-31-30: TEMPORARY USES
11-31-31: RESIDENTIAL USES IN COMMERCIAL DISTRICTS
11-31-32: SUPERIOR DESIGN
11-31-33: HOME OCCUPATIONS
11-31-34: MARIJUANA FACILITIES
11-31-35: RECREATIONAL VEHICLE STORAGE IN RESIDENTIAL ZONING DISTRICTS
11-31-36: DATA CENTERS
11-31-37: BATTERY ENERGY STORAGE SYSTEM (BESS) AND BESS FACILITIES
11-31-38: MIDDLE HOUSING
11-31-39: COMPREHENSIVE YOUTH RESIDENCE

CHAPTER 32 ON-SITE PARKING, LOADING, AND CIRCULATION

11-32-1: PURPOSE AND APPLICABILITY
11-32-2: GENERAL REGULATIONS AND STANDARDS
11-32-3: PARKING SPACES REQUIRED
11-32-4: PARKING AREA DESIGN
11-32-5: SHARED PARKING
11-32-6: PARKING REDUCTIONS
11-32-7: ALTERNATIVE COMPLIANCE WITH MINIMUM PARKING REQUIREMENTS
11-32-8: BICYCLE AND MOTORCYCLE PARKING

CHAPTER 33 LANDSCAPING

11-33-1: PURPOSE AND APPLICABILITY
11-33-2: GENERAL REQUIREMENTS
11-33-3: PERIMETER LANDSCAPING
11-33-4: INTERIOR PARKING LOT LANDSCAPING
11-33-5: FOUNDATION BASE
11-33-6: RETENTION BASINS
11-33-7: ALTERNATIVE LANDSCAPE PLAN

CHAPTER 34 MANUFACTURED HOME/RECREATIONAL VEHICLE REGULATIONS

11-34-1: PURPOSE AND INTENT
11-34-2: PERMITTED USES
11-34-3: ZONING, AREA, DENSITY, YARD, RECREATIONAL, AND PARKING REGULATIONS
11-34-4: DEVELOPMENT REQUIREMENTS
11-34-5: GENERAL PROVISIONS

CHAPTER 35 ANTENNAS AND WIRELESS COMMUNICATIONS FACILITIES

11-35-1: PURPOSE
11-35-2: APPLICABILITY; EXCEPTIONS
11-35-3: GENERAL REQUIREMENTS
11-35-4: APPLICATION REQUIREMENTS
11-35-5: LOCATION, DESIGN, AND OPERATION REQUIREMENTS
11-35-6: REVIEW AND APPROVAL PROCEDURES
11-35-7: CESSATION OF OPERATIONS

CHAPTER 36 NONCONFORMING AND PROCEDURALLY CONFORMING

11-36-1: PURPOSE AND APPLICABILITY
11-36-2: DEFINITIONS
11-36-3: LEGAL NONCONFORMING USES AND LEGAL PROCEDURALLY CONFORMING USES
11-36-4: LEGAL NONCONFORMING STRUCTURES AND LEGAL PROCEDURALLY CONFORMING STRUCTURES
11-36-5: LEGAL NONCONFORMING SITES

CHAPTERS 37—40 (RESERVED FOR FUTURE USE)

ARTICLE 5 SIGN ORDINANCE

CHAPTER 41 INTRODUCTORY AND GENERAL PROVISIONS

11-41-1: FINDINGS AND PURPOSE
11-41-2: APPLICABILITY
11-41-3: GENERAL REQUIREMENTS
11-41-4: REPEAL AND SEVERABILITY
11-41-5: CONSENT OF THE PROPERTY OWNER REQUIRED
11-41-6: NONCOMMERCIAL MESSAGE SUBSTITUTIONS ALLOWED
11-41-7: STANDARDS OF MEASUREMENT
11-41-8: SIGHT VISIBILITY TRIANGLES
11-41-9: RESPONSIBLE PARTY

CHAPTER 42 PORTABLE SIGNS

11-42-1: PURPOSE AND GENERAL PROVISIONS
11-42-2: PORTABLE SIGN ALLOWANCES BY ZONING DISTRICT FOR DEVELOPED PROPERTY
11-42-3: CLASSIFICATIONS AND DESCRIPTIONS
11-42-4: PORTABLE SIGNS FOR UNDEVELOPED PROPERTY
11-42-5: NON-RESIDENTIAL USES IN RESIDENTIAL ZONING DISTRICTS
11-42-6: FABRIC SIGNS
11-42-7: VEHICLE SIGNS

CHAPTER 43 PERMANENT SIGNS

11-43-1: PURPOSE AND INTENT
11-43-2: DESIGN STANDARDS FOR PERMANENT SIGNS AND SIGN STRUCTURES
11-43-3: PERMANENT SIGN ALLOWANCES BY ZONING DISTRICT
11-43-4: DRIVE-THRU AND DRIVEWAY SIGNS
11-43-5: ELECTRONIC MESSAGE PANELS
11-43-6: FLAGPOLES AND FLAGS
11-43-7: FREEWAY LANDMARK MONUMENTS (FLM)
11-43-8: MURALS
11-43-9: STATUES, SCULPTURES AND THREE-DIMENSIONAL FIGURES
11-43-10: SUBDIVISION ENTRY SIGNS
11-43-11: WINDOW SIGNS

CHAPTER 44 HISTORIC SIGNS

11-44-1: HISTORIC SIGNS

CHAPTER 45 PROHIBITED SIGNS

11-45-1: PROHIBITED SIGNS

CHAPTER 46 USE PERMITS, VARIANCES, AND INTERPRETATIONS

11-46-1: ADMINISTRATIVE USE PERMITS, SPECIAL USE PERMITS, COUNCIL USE PERMITS, AND VARIANCES
11-46-2: INTERPRETATIONS

CHAPTER 87 DEFINITIONS

ARTICLE 1
INTRODUCTORY PROVISIONS

CHAPTER 1 INTRODUCTORY PROVISIONS*

11-1-1: TITLE AND AUTHORITY

Title 11 of the City Code shall be known and cited as the "City of Mesa Zoning Ordinance," "Zoning Ordinance of the City of Mesa," "Zoning Ordinance", or "this Ordinance". Whenever reference is made to any portion of the ordinance set out in this Title 11, or of any other law or ordinance, the reference applies to all amendments and additions to this Title made hereafter.
(Ord. No. 3746, 2-22-00)

11-1-2: PURPOSE

The purpose of this Ordinance is to implement the City's General Plan and to protect and promote the public health, safety, peace, comfort, convenience, prosperity and general welfare. More specifically, this Ordinance is intended to:

A. Provide a guide for the physical development of the City in a manner that progressively achieves the arrangement of land uses depicted in the General Plan, consistent with the goals and policies of the General Plan.

B. Promote combinations and mixtures of harmonious land uses, limit the effects of incompatible land uses, and do so in a manner that reduces transportation requirements, promotes livability, and raises the quality of life for residents, guests, students, workers, business owners, tourists and other visitors.

C. Foster a harmonious, convenient and workable relationship among land uses and ensure compatible infill development, consistent with the General Plan.

D. Support economic development and job creation.

E. Provide for the diverse housing needs of all economic segments of the community.

F. Promote high quality architecture and design.

G. Promote the stability of existing land uses that conform to the General Plan, protecting them from inharmonious influences and harmful intrusions.

H. Promote a safe and efficient traffic circulation system; foster the provision of adequate off-street parking and off-street loading facilities, bicycle facilities and pedestrian amenities, and support a multi-modal transportation system. Encourage improved connectivity between residential, commercial, educational, employment and recreational uses.

I. Facilitate the appropriate location of community facilities, institutions and parks and recreational areas.

J. Protect and enhance real property values.

***Editor's note—**Previously, Chapter 1 derived from Ord. No. 4842, 5-19-08; Ord. No. 4843, 5-19-08; Ord. No. 4913, 2-17-09; Ord. No. 5025, 2-7-11.

K. Promote environmental quality and encourage development patterns that meet the following sustainability goals: improve air quality; improve energy conservation and renewable energy production; integrate land use and mobility; allow housing diversity; improve community health and safety; increase water conservation; and mitigate stormwater pollution.

L. Provide diverse settings, with a wide-range of employment, housing and commercial options and a variety of intensities of land uses.

M. Provide development options that are designed in an aesthetically pleasing manner, incorporate public spaces in manners that are integral to projects, and provide effective transitions between abutting parcels appropriate to the context of the circumstance.

N. Safeguard and enhance the appearance of the City.

O. Define duties and powers of administrative bodies and officers responsible for implementation of this Ordinance.

11-1-3: STRUCTURE OF ZONING REGULATIONS

A. **Organization of Regulations.** This Ordinance consists of eight articles:

Article 1: Introductory Provisions

Article 2: Base Zones

Article 3: Overlay Zones

Article 4: Development Regulations

Article 5: Sign Regulations

Article 6: Form-Based Development Regulations

Article 7: Administration and Permits

Article 8: General Terms

B. **Types of Regulations.** Four types of zoning regulations control the use and development of property in the City:

1. ***Land Use Regulations.*** These regulations specify land uses permitted, conditionally permitted or specifically prohibited in each zone, and include special requirements, if any, applicable to specific uses. Land use regulations for base zones are in Article 2 of this Ordinance and in Article 3 for overlay zone regulations. Certain regulations, applicable in some or all of the districts, and performance standards that govern special uses, are in Article 4. When used in conjunction with an adopted regulating plan, use standards related to specific building forms located within specified transects are found in Article 6.

2. ***Development Regulations.*** These regulations control the height, bulk, density, intensity, location and appearance of structures on development sites. Development regulations for base zones are in Article 2 of this Ordinance. The regulations for overlay zones are in Article 3. Certain development regulations, applicable to some or all zones are in Article 4. These include regulations for specific uses, development and site regulations, performance standards, parking, sign, antennas and

wireless telecommunications and nonconforming uses. Sign regulations are found in Article 5. Certain other development regulations principally oriented on building form and building placement (also known as Form-Based Code) are found in Article 6.

3. ***Administrative Regulations.*** These regulations contain detailed procedures for the administration of this Ordinance, and include responsibilities of the planning agency, common procedures, processes and standards for discretionary entitlement applications and other permits. Administrative regulations are found in Article 7.

4. ***General Terms and Use Classifications.*** Article 8 provides a list of use classifications and a list of terms and definitions used in this Ordinance.

(Ord. No. 4006, 8-5-02)

11-1-4: GENERAL RULES FOR APPLICABILITY OF ZONING REGULATIONS

A. **Applicability to Property.** This Ordinance shall apply, to the extent permitted by law, to all property within the City of Mesa, including all uses, structures and land owned by any private person, firm, corporation or organization, or local, state or federal agencies. Any governmental agency shall be exempt from the provisions of this Ordinance only to the extent that such property may not be lawfully regulated by the City of Mesa.

B. **Compliance with Regulations.** No land shall be used, and no structure shall be constructed, occupied, enlarged, altered, demolished or moved in any zoning district, except in accordance with the provisions of this Ordinance.

C. **Provisions Interpreted as Minimum Requirements.** In interpreting and applying the provisions of Title 11, the applicant shall meet or exceed the minimum requirements for the promotion of the public health, safety, comfort, convenience and general welfare.

D. **Relation to Other Regulations.** The regulations of this Ordinance and requirements or conditions imposed pursuant to this Ordinance shall not supersede any other regulations or requirements adopted or imposed by the State of Arizona, or any federal agency that has jurisdiction by law over uses and development authorized by this Ordinance. All uses and development authorized by this Ordinance shall comply with all other such regulations and requirements. Where conflict occurs between the provisions of the Ordinance and any other City Ordinance, chapter, resolution, guideline or regulation, the more restrictive provisions shall control, unless otherwise specified.

E. **Relation to Private Agreements.** The provisions of this Ordinance shall apply regardless of any private agreements in the event that the provisions of this Ordinance are more restrictive. Otherwise, this Ordinance shall not interfere with, affect or annul any recorded easement, covenant, or other private agreement now in effect, unless a Development Agreement has been authorized by the City Council and executed by recording the Development Agreement with the County Recorder's Office, pursuant to ARS 9-500.05.

11-1-5: CONSISTENCY WITH THE GENERAL PLAN

Each application for a Special Use Permit, Council Use Permit, Development Plan, Development Plan Modification or request to modify the zoning classification of a parcel of land shall be reviewed and evaluated for

consistency with the City of Mesa General Plan. With regard to requests to modify the zoning classification of specific parcels of land, where there is a conflict between this Ordinance and the General Plan, the General Plan shall prevail.
(Ord. No. 3943, 11-5-01; Ord. No. 5996, § 4, 3-9-26)

11-1-6: EFFECT ON PREVIOUSLY APPROVED PROJECTS AND PROJECTS IN PROGRESS

Upon the effective date of this Ordinance, the following requirements shall apply to all properties:

A. **Violations Continue.** Any violation of the Zoning Ordinance previously in effect will continue to be a violation under this Ordinance and shall be subject to penalties and enforcement under Title 11, Chapter 79 unless the use, development, construction or other activity complies with the provisions of this Ordinance.

B. **Projects with Land Use Approvals or Building Permits.**

1. ***Development Plans, Site Plans or Design Review Approved Prior to Effective Date of This Ordinance.***

a. A project which has received Development Plan, Site Plan, or Design Review approval prior to the effective date of this Ordinance may file an application for a building permit in compliance with the approved Development Plan, Site Plan, or Design Review Plans and conditions of approval, even if the project does not comply with the provisions of the Zoning Ordinance.

b. Development Plans, Site Plans, and Design Reviews approved prior to the effective date of this Ordinance are subject to the expiration and extension provisions of Section 11-67-9 of the Zoning Ordinance.

c. Requests to modify Development Plans, Site Plans, or Design Review Plans approved prior to the effective date of this Ordinance shall comply with the current Zoning Ordinance in effect.

2. ***Preliminary Plat Approved Prior to Effective Date of This Ordinance.***

a. Preliminary plat approved prior to the effective date of this Ordinance constitutes authorization for the applicant to proceed with preparation of the final plat, engineering plans, and specifications for public improvements even if the subdivision does not fully comply with the provisions of the Zoning Ordinance.

b. Preliminary plat approved prior to the effective date of this Ordinance is subject to the expiration and extension provisions of Section 9-6-2(B)(5) of Title 9 of the City Code.

3. ***Conditional Use Permit Approved Prior to Effective Date of This Ordinance, No Development Plan Review.***

a. A project which has received a Conditional Use Permit (including Special Use Permits or Council Use Permits) prior to the effective date of this Ordinance may file an application for a building permit, even if the project does not fully comply with the provisions of the Zoning Ordinance.

b. A Conditional Use Permit approved prior to the effective date of this Ordinance is subject to the expiration and extension provisions of Section 11-67-9 of the Zoning Ordinance.

4. ***Conditional Use Permit Approved Prior to Effective Date of This Ordinance, Development Plan Review, Site Plan Review, or Design Review Required.***

   a. A project which has an approved Conditional Use Permit (including Special Use Permits or Council Use Permits) may file an application for Development Plan Review even if the use does not fully comply with the land use regulations of the Zoning Ordinance. However, the Development Plan Review Application must comply with all other provisions of the Zoning Ordinance.

   b. A Conditional Use Permit approved prior to the effective date of this Ordinance is subject to the expiration and extension provisions of Section 11-67-9 of the Zoning Ordinance except as provided in Subsection 11-1-6(C) below.

   c. If an associated Development Plan is approved before the expiration of the Conditional Use Permit, the Conditional Use Permit shall remain valid for the duration of the effective period of the Associated Development Plan, Site Plan, or Design Review.

5. ***Building Permit Application Filed Prior to Effective Date of This Ordinance.***

   a. Any building, structure, or sign for which a completed building permit application is filed prior to the effective date of this Ordinance may be issued a building permit and may be constructed in compliance with the building permit and other applicable approvals, permits and conditions, even if such building, structure or sign does not fully comply with the Zoning Ordinance.

   b. If construction has not commenced in compliance with the applicable permit terms, the Building Official may grant an extension pursuant to the provisions of the Building Code.

   c. If the building, structure, or sign has not been completed before the building permit or any extension of the permit expires, then the building, structure, or sign shall be constructed, completed or occupied only in compliance with the Zoning Ordinance.

6. ***Building Permit Issued Prior to Effective Date of This Ordinance.***

   a. Any building, structure, or sign for which a lawful building permit is issued prior to the effective date of this Ordinance may be completed in conformance with the permit and other applicable permits and conditions, even if such building, structure or sign does not fully comply with the Zoning Ordinance.

   b. If construction has not commenced in compliance with the applicable permit terms, the Building Official may grant an extension pursuant to the provisions of the Building Code.

   c. If the building, structure, or sign has not been completed in conformance with the building permit and any extension thereof, then the building, structure, or sign shall be constructed, completed or occupied only in compliance with the Zoning Ordinance.

C. **Land Use Applications Filed Prior to the Effective Date of This Ordinance.**

1. Land use applications, including modifications to previously approved applications, filed prior to the effective date of this Ordinance may be approved under the provisions of the Zoning Ordinance in place prior to the effective date of this Ordinance, if deemed complete, meaning that:

   a. A pre-submittal conference was held, if required;

b. All required application materials were submitted; and

c. All required fees were paid.

2. Applicants may elect to develop under the provisions of this Ordinance, but in that case shall comply with all provisions of this Ordinance.

D. **Partially Constructed Project.**

1. If a project has a valid building permit and construction has started but halted prior to completion, and a Certificate of Occupancy has not been issued, the project shall, within three (3) years from the effective date of this Ordinance, resume work and complete all remaining elements in accordance with the approved plan and building permit(s).

2. In the event the project is not restarted, or actively under construction before the three-year period specified lapses, the project shall have the option to be brought entirely into compliance with requirements of this Ordinance, or to apply for and be subject to all conditions and requirements of an approved Substantial Compliance Improvement Permit (SCIP), as specified in Chapter 73 of this Ordinance.

E. **Development of Projects Located within an Existing PC District, or within a PAD, DMP or BIZ Overlay Zoning Districts.** A lot or parcel located within the Planned Community (PC) District, or within overlay districts such as Planned Area Development (PAD), Development Master Plan (DMP), under the zoning ordinance in effect prior to September 3, 2011, or Bonus Intensity Zone (BIZ), subject to a preliminary development plan, standards and/or with conditions of approval, and adopted prior to the effective date of the Zoning Code, shall be developed in accordance with the approved preliminary development plan, standards, and/or conditions of approval. The development standards and requirements of this Ordinance shall apply if not specifically modified by the adopted plan submitted, associated or conditioned with the ordinance adopting the PAD/BIZ/DMP overlay zoning district or the PC District. This provision is not intended to limit minor modifications to approved plans approved by the Planning Director.

F. **Planning Applications Filed After the Effective Date of This Ordinance.** All applications for rezoning, design review, use permits, and preliminary subdivision plats filed after the effective date of this Ordinance, including modifications and amendments, shall conform to the provisions of this Ordinance.

(Ord. No. 3430, 1-20-98; Ord. No. 3817, 2-22-00; Ord. No. 3943, 11-5-01; Ord. No. 4005, 8-5-02; Ord. No. 4006, 8-5-02; Ord. No. 4084, 6-30-03; Ord. No. 4101, 9-22-03; Ord. No. 4262, 8-16-04; Ord. No. 4467, 10-24-05; Ord. No. 4681, 4-2-07; Ord. No. 4770, 10-15-07; Ord. No. 5996, § 3, 3-9-26)

11-1-7: SEVERABILITY

If any section, subsection, paragraph, sentence, clause or phrase of this Ordinance is for any reason held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this Ordinance. The City of Mesa hereby declares that it would have passed this Ordinance, and each section, subsection, sentence, clause and phrase thereof, regardless of the fact that any or one or more sections, subsections, sentences, clauses or phrases be declared invalid or unconstitutional.

CHAPTER 2 RULES FOR THE CONSTRUCTION OF LANGUAGE AND INTERPRETATION*

11-2-1: PURPOSE

The purpose of this Chapter is to provide precision in the interpretation of the planning and zoning regulations. The meaning and construction of words and phrases defined in this Chapter apply throughout the Ordinance, except where the context indicates a different meaning. Rules for measurement of height, floor area, sign area, setbacks and other development standards also are established. Finally, this Chapter prescribes rules and procedures for interpretation of regulations, where there may be uncertainty in deciding on a particular application of a provision of the Ordinance.
(Ord. No. 4770, 10-15-07)

11-2-2: RULES FOR CONSTRUCTION OF LANGUAGE

In interpreting the various provisions of the Ordinance, the following rules of construction shall apply:

A. The particular controls the general.

B. Unless the context clearly indicates the contrary, the following conjunctions shall be interpreted as follows:

1. "And" indicates that all connected words or provisions shall apply.
2. "And/or" indicates that the connected words or provisions may apply singly or in any combination.
3. "Or" indicates that the connected words or provisions may apply singly or in any combination.
4. "Either . . . or" indicates that the connected words or provisions shall apply singly but not in combination.

C. In case of conflict between the text and a diagram or graphic, the text controls.

D. All references to departments, committees, commissions, boards, or other public agencies are to those of the City of Mesa, unless otherwise indicated.

E. All references to public officials are to those of the City of Mesa, and include designated deputies of such officials, unless otherwise indicated.

F. All references to days are to calendar days, unless otherwise indicated. If a deadline falls on a weekend or holiday, or a day when the city offices are closed, it shall be extended to the next working day. The end of a time period shall be the close of business on the last day of the period.

G. All references to "section," "chapter," or "article" shall refer to this zoning ordinance unless another meaning is clear from the context of the reference.

H. The words "shall," "will," "must," and "is to" are always mandatory and not discretionary. The words "should" and "may" are permissive.

I. The present tense includes the past and future tenses, and the future tense includes the past.

J. The singular number includes the plural, and the plural, the singular.

***Editor's note—**Previously, Chapter 2 derived from Ord. No. 5032, 3-21-11; Ord. No. 5123, 9-24-12; Ord. No. 5447, 7-9-18.

K. Sections and section headings contained herein shall not be deemed to govern, limit, modify, or in any manner affect the scope, meaning, or intent of any section.

11-2-3: RULES FOR MEASUREMENT

The purpose of this Section is to explain how various measurements referred to in this Ordinance are to be calculated.

A. **Applicant's Responsibility.** For all calculations, the applicant shall be responsible for supplying drawings illustrating the measurements that apply to a project. These drawings shall be drawn to scale and of sufficient detail to allow easy verification upon inspection by the Planning Director or designee.

B. **Fractions.** Whenever the result of a required arithmetical calculation, using a stated mathematical formula or ratio, contains a fraction of a whole number, fractions of ½ or greater shall be rounded up to the nearest whole number and fractions of less than ½ shall be rounded down to the nearest whole number. This rule shall be superseded when an alternate rule for rounding is specified by the same chapter of this Ordinance that describes the requirement.

C. **Measuring Distances.**

1. ***Measurements are Shortest Distance.*** When measuring a required distance, such as the minimum distance between a structure and a lot line, the measurement is made at the closest or shortest distance between the two objects.

2. ***Distances are Measured Horizontally.*** When determining distances for setbacks and structure dimensions, all distances are measured along a horizontal plane from the appropriate line, edge of building, structure, storage area, parking area, or other object. These distances are not measured by following the topography or slope of the land.

3. ***Measurements Involving a Structure.*** Measurements involving a structure, such as required yards, separations between buildings, or distances between structures, are made to the closest support wall, post or column of the structure. Structures or portions of structures that are entirely underground are not included in measuring required distances.

4. ***Measurement of Vehicle Stacking or Travel Areas.*** Measurement of a minimum travel distance for vehicles, such as garage entrance setbacks and stacking lane distances, are measured down the center of the vehicle travel area. For example, curving driveways and travel lanes are measured along the center arc of the driveway or traffic lane.

5. ***Measurement From an Intersection.*** Measurements involving a distance from an intersection are measured in a straight line from all points along the lot line of the subject property to the nearest edge of right-of-way.

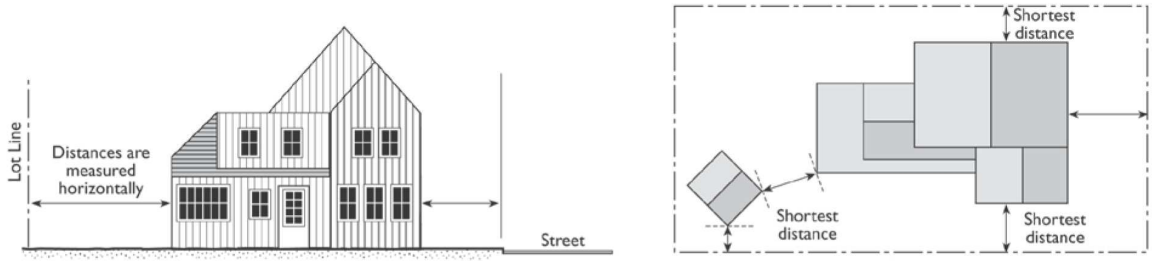

FIGURE 11-2-3.C: MEASURING DISTANCES

D. **Measuring Radius.** When a specified land use is required to be located a minimum distance from another land use, the minimum distance is measured in a straight line from all points along the lot line of the subject project. In the event the lot line is curved, the separation radius shall also curve in a similar manner to maintain the specified minimum radius distance. The starting point for the measurement shall be the closest point on the outermost property line for the lot or development site of the protected use, including multiple parcel development sites acting as a campus, or sharing parking, access aisles and other appurtenant shared facilities, such as group development sites. The distance shall be measured to the outside nearest wall of the building intended to house the proposed use.

E. **Measuring Height.**

1. ***Measuring Building Height.*** Building height is measured from the average level of the highest and lowest point of that portion of the lot covered by the building to the mean point between the plate line (where the vertical wall attaches to the roof) and the highest point of the roof ridge, or to the top of a parapet wall or flat roof.

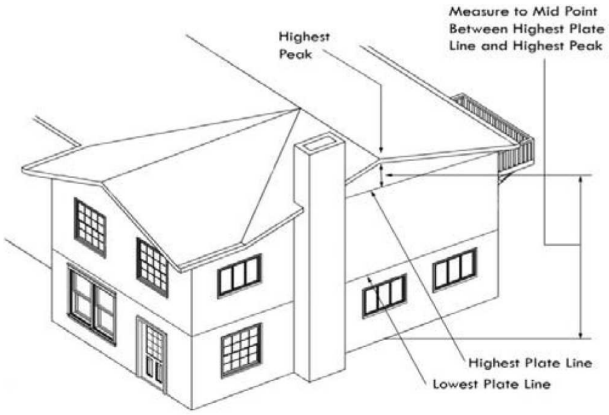

FIGURE 11-2-3.E.1: MEASURING HEIGHT GABLE OR HIP ROOF

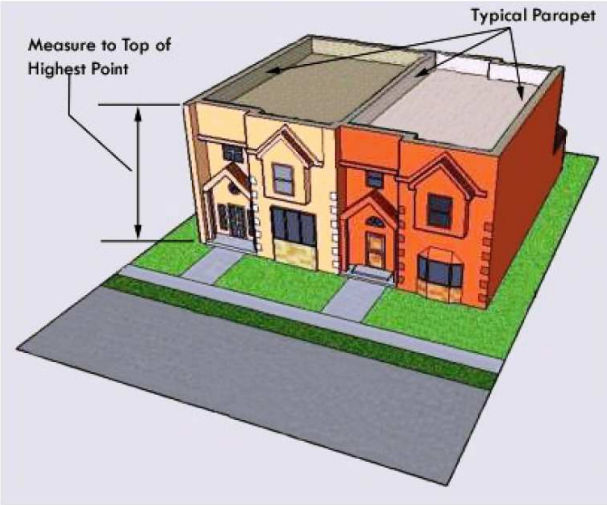

FIGURE 11-2-3.E.2: MEASURING HEIGHT FLAT ROOF WITH PARAPET

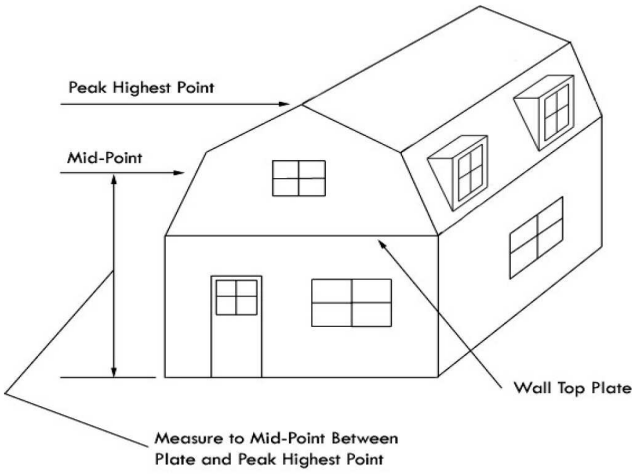

FIGURE 11-2-3.E.3: MEASURING HEIGHT MANSARD or GAMBREL ROOF

2. ***Measuring Height of Other Structures.*** The height of other structures such as fences is the vertical distance from the ground level immediately under the structure to the top of the structure. Special measurement provisions are also provided below:

   a. *Measuring the Height of Fences on Retaining Walls.* The height of a fence that is on top of a retaining wall is measured from the ground level on the highest side of the fence and wall.

   b. *Measuring the Height of Decks.* Deck height is determined by measuring from the ground to the top of the floor of the deck.

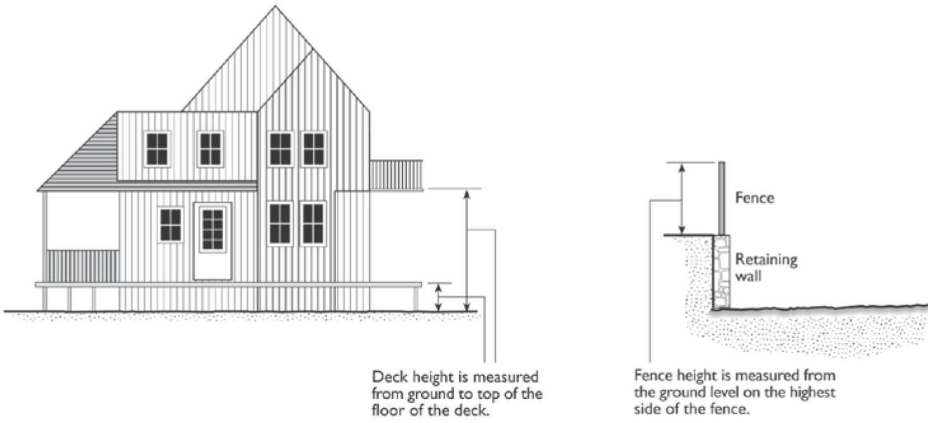

FIGURE 11-2-3.E.4: MEASURING HEIGHT DECKS AND FENCES ON RETAINING WALLS

F. **Measuring Lot Width and Depth.**

1. ***Lot Width.*** The horizontal distance between the side property lines of a lot, measured along the required front setback.

2. ***Lot Depth.*** The distance measured from the midpoint of the front property line to the midpoint of the rear property line, or to the rear most point of the lot where there is no rear lot line.

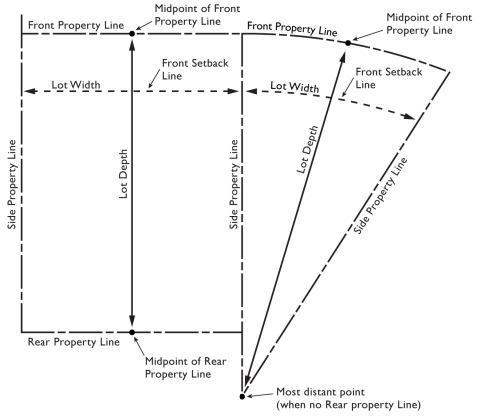

FIGURE 11-2-3.F: MEASURING LOT WIDTH AND DEPTH

G. **Determining Average Slope.** The average slope of a parcel is calculated using the following formula: S = 100(I) (L)/A, where:

1. S = Average slope (in percent).

2. I = Contour interval (in feet).

3. L = Total length of all contour lines on the parcel (in feet).

4. A = Area of subject parcel (in square feet).

H. **Determining Floor Area.**

1. ***Gross Floor Area.*** As defined in Chapter 87, includes the floor area of garages, carports, basements, mezzanines, interior balconies, and all upper stories or levels.

2. ***Floor Area (Habitable Floor Area, Net Floor Area).*** As defined in Chapter 87, includes space in a building for purposes including living, working, sleeping, sanitation, eating, cooking, conditioned storage, recreation, or any combination of the above. Space used only for unconditioned storage or parking is not habitable space.

I. **Determining Floor Area Ratio.** The Floor Area Ratio (FAR) is the ratio of the floor area of all principal and accessory buildings on a lot to the lot area. To calculate FAR, floor area is divided by lot area, and typically expressed as a decimal. For example, if the floor area of all buildings on a lot totals 20,000 square feet, and the lot area is 10,000 square feet, the FAR is expressed as 2.0.

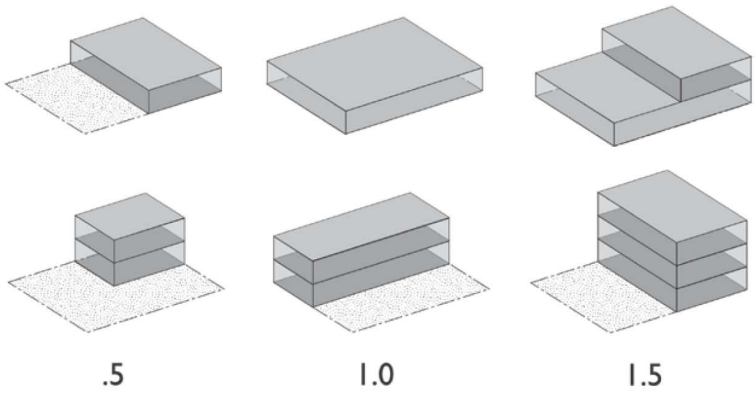

Figure 11-2-3.1: Determining Floor Area Ratio

J. **Determining Building Coverage.** Building coverage is the ratio of the total footprint area of all structures on a lot to the net lot area, typically expressed as a percentage. The total footprint of all principal and accessory structures, including garages, carports, covered patios, and roofed porches, is used to calculate building coverage; except the calculation excludes the following areas:

1. Decks, patio slabs, landings, balconies and stairways (less than 6-feet in height), when unenclosed, unroofed, and/or uncovered;

2. Eaves and roof overhangs projecting up to two-and-a-half feet from a building wall;

3. Trellises and similar structures that do not have solid roofs;

4. Swimming pools and hot tubs that are not enclosed in roofed structures or decks; and

5. One small, non-habitable accessory structure under 120 square feet and under seven feet high. All other accessory structures are included in building coverage.

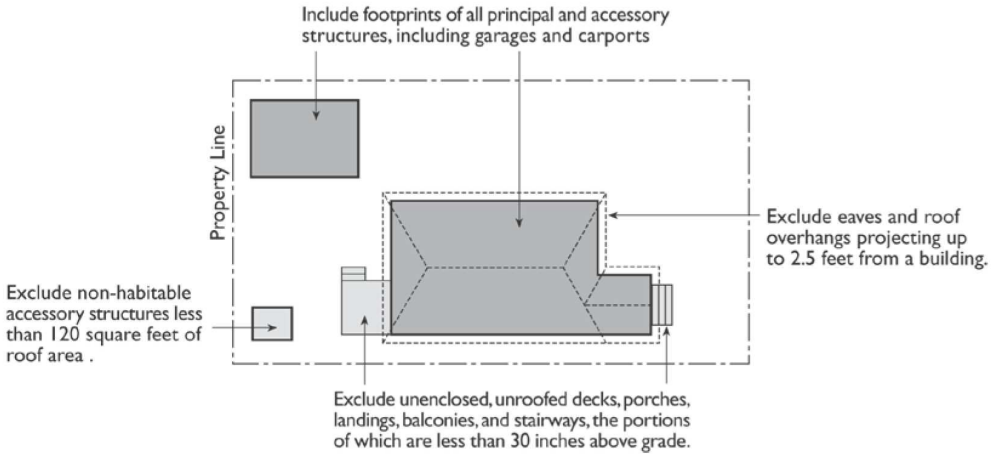

FIGURE 11-2-3.J: DETERMINING BUILDING COVERAGE

K. **Determining Lot Frontage.**

1. ***Corner Lot.*** The front of a lot is the narrowest dimension of the lot with street frontage.

2. ***Through Lot (Double Frontage Lot).*** The front yard borders the street primarily used as frontage by neighboring lots. If both street fronts of the through lot are adjacent to lots that also front onto the same street, both street fronts of the though lot shall be considered as required front yards for the purpose of determining building setbacks and fence height requirements.

L. **Determining Setbacks.** A setback shall be measured perpendicular to a property line except as follows:

1. ***Lots or Parcels Abutting Planned Street Expansions.*** If a lot or parcel abuts an existing or proposed street for which the existing right-of-way is narrower than the right-of-way ultimately required for the street as determined by the City Council through the latest adopted transportation and/or street plan, the required setback shall be established from the future right-of-way rather than the property line.

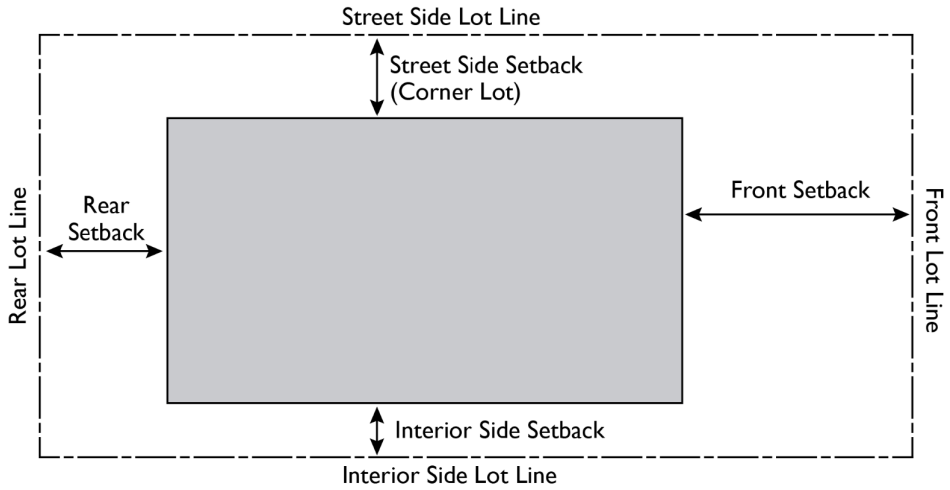

FIGURE 11-2-3.L: DETERMINING SETBACKS

2. ***Lots or Parcels Abutting an Alley.***

   a. If a side property line abuts an alley, the setback shall be considered an interior side setback.

   b. No part of an alley right-of-way may be considered a part of the required setback when a lot or parcel abuts an alley, except for rear setback in RS Districts as specified in Chapter 5 of the Zoning Ordinance.

M. **Measuring Signs.** The height of signs is measured in the same method as the height of other structures. Calculation of sign area is described in Article 5, Signs.

(Ord. No. 5592, § 1, 12-1-20; Ord. No. 5593, § 1, 12-1-20; Res. No. 12269, § 1, 9-23-24; Ord. No. 5883, § 3, 10-7-24; Ord. No. 5996, § 4, 3-9-26)

11-2-4: RULES OF INTERPRETATION

The Zoning Administrator shall interpret any provision or any method of measurement not expressly identified in this Chapter, and provide clarification and determination of these rules and their application to a specific site. The Zoning Administrator shall maintain a record of these interpretations.

The Particular Controls the General

Whenever a general provision in a rule shall be in conflict with a particular provision in the same or another rule, the two shall be construed, if possible, so that effect may be given to both. If the conflict between the two provisions is irreconcilable, the particular provisions shall prevail and shall be construed as an exception to the general provision, unless the general provision shall be promulgated later and it shall be the manifest intention of the Supreme Court that such general provision shall prevail.

(Ord. No. 5447, 6-4-18)

CHAPTER 3 DESIGNATION OF ZONING DISTRICTS, ZONING MAP, AND BOUNDARIES*

11-3-1: DISTRICTS ESTABLISHED

The City shall be classified into districts or zones. The designation and regulation of which are set forth in this Ordinance.

A. **Base Zones.** Base zones into which the City is divided are established as follows:

Short Name/ Map Symbol	Full Name
AG	Agricultural
RS-6, 7, 9, 15, 35, 43, and 90	Residential Single Dwelling Districts 6, 7, 9, 15, 35, 43, and 90
RSL-2.5, 3, and 4	Residential Small Lot Single Dwelling Districts 2.5, 3, and 4
RM-2, 3, 4, and 5	Residential Multiple Dwelling Districts 2, 3, 4, and 5
NC	Neighborhood Commercial
LC	Limited Commercial
GC	General Commercial
OC	Office Commercial
MX	Mixed Use
LI	Light Industrial
GI	General Industrial
HI	Heavy Industrial
PEP	Planned Employment Park
DR 1, 2, and 3	Downtown Residence Districts 1, 2, and 3
DB 1 and 2	Downtown Business Districts 1 and 2
DC	Downtown Core
LR	Leisure and Recreation
PS	Public and Semi-Public
PC	Planned Community
ID 1 and 2	Infill Development Districts 1 and 2
T3N	Transect 3: Neighborhood
T4N, T4NF, T4MS	Transect 4: Neighborhood, Neighborhood Flex, and Main Street
T5N, T5MSF, T5MS	Transect 5: Neighborhood, Main Street Flex and Main Street
T6MS	Transect 6: Main Street

B. **Overlay Zones.** Overlay zones, one (1) or more of which may be combined with one (1) or more base districts, are established as follows:

Short Name/ Map Symbol	Full Name
AF	Airfield

***Editor's note—**Previously, Chapter 3 derived from Ord. No. 3746, 2-22-00; Ord. No. 4262, 8-16-04.

Short Name/ Map Symbol	Full Name
AS	Age-Specific
BIZ	Bonus Intensity Zone
PAD	Planned Area Development
HD	Historic District
HL	Historic Landmark
DE	Downtown Event
BO	Billboard Overlay District

C. **References to Classes of Base Districts.** Throughout the Ordinance, base zoning districts may be referred to as a group or in a singular manner through the use of the associated words listed as "Synonymous Terms" in the table below, based on the context of how the phrase is used.

Base Zoning District Groups	Associated Synonymous Terms
Residential Groups	
RS, Residential Single-Dwelling; RM, Residential Multiple-Dwelling; RSL, Residential Small Lot Single-Dwelling; DR, Downtown Residential	R-Zone; R-District; Residential Zone; or Residential District
Commercial Groups	
NC, Neighborhood Commercial; LC, Limited Commercial; GC, General Commercial; OC, Office Commercial	C-Zone; C-District; Commercial Zone; or Commercial District
Mixed Use Groups	
MX, Mixed Use; DB, Downtown Business; DC, Downtown Core PC, Planned Community	Mixed-District; Mixed-Zone
Industrial or Employment Groups	
LI, Light Industrial; GI, General Industrial; HI, Heavy Industrial; and PEP, Planned Employment Park; EO, Employment Opportunity	I-Zone; I-District; Industrial Zone; Industrial District; Employment District; or Employment Zone
Downtown Groups	
DR, Downtown Residential; DB, Downtown Business; DC, Downtown Core	Downtown District; Downtown Zone
Form-Based Code or Transect Groups	
T3N, T4N, T4NF, T4MS, T5N, T5MSF, T5MS, T6MS	Transects
Infill District Groups	

Base Zoning District Groups	Associated Synonymous Terms
ID, Infill Development	ID-Zone; ID District
Public and Semi-Public Groups	
PS, Public and Semi-Public, LR, Leisure and Recreation	PS District; LR District

(Ord. No. 5544, § 1, 12-9-19; Ord. No. 5554, § 2, 2-10-20; Ord. No. 5996, § 4, 3-9-26)

11-3-2: OFFICIAL ZONING MAP AND DISTRICT BOUNDARIES

The boundaries of the zones established by this Ordinance are not included in this Ordinance but are shown on the Official Zoning Map maintained by the City. The Official Zoning Map, together with all legends, symbols, notations, references, zoning district boundaries, map symbols, and other information on the maps, has been adopted by the City Council and are hereby incorporated into this Ordinance by reference, together with any amendments previously or hereafter adopted, as though they were fully included here.

A. **Uncertainty of Boundaries.** Where uncertainty exists as to the boundaries of any district shown on the Official Zoning Map, the following rules shall apply:

1. Boundaries indicated as approximately following property or land parcel lines, street or alley rights-of-way, city limits, or extraterritorial boundary lines shall be construed as following such lines, limits or boundaries.

2. In the case of un-subdivided property or where a district boundary divides a lot and no dimensions are indicated, the following shall apply:

   a. *Lots Greater than One Acre.* The location of such boundary shall be determined by the use of the scale appearing on the Official Zoning Map.

   b. *Lots Less than One Acre.* The lot shall be deemed to be included within the zone which is the more restrictive.

3. In the case of any remaining uncertainty, the Zoning Administrator shall determine the location of boundaries.

4. Where any public street or alley is officially vacated or abandoned, the land underlying the street or alley will be added to abutting lots as required by state law. The regulations that applied to the abutting parcel or parcels before the vacation or abandonment shall apply to the entire new larger parcel or parcels that result from such vacation or abandonment.

5. Where any private right-of-way or easement of any railroad, railway, transportation or public utility company is vacated or abandoned the land underlying the right-of-way or easement shall be added to abutting lots as required by state law. If the abandoned or vacated property is unclassified, the property shall be automatically classified as being in the same zone of the abutting land to which it is added.

B. **Conditions.** Conditions imposed by special ordinance in conjunction with amendments to the Zoning Map are referenced by separate files maintained in the Planning Division and are made a part of the Zoning Map.

(Ord. No. 4467, 10-24-05)

[The next page is T11:61]

ARTICLE 2
BASE ZONES

CHAPTER 4 AGRICULTURAL DISTRICT*

11-4-1: PURPOSE

The purpose of the Agricultural (AG) District is to protect and preserve agricultural lands and related activities in their present character. The intent of this district is to protect agricultural lands from incompatible land uses and urban encroachment. This district encourages the use of land for local food production. This district may also be used as a means to limit premature development, or to assure development of property takes place when suitable infrastructure and adopted plans are in place to support development of the area in a manner consistent with the applicable General Plan designation.

11-4-2: LAND USE REGULATIONS

In Table 11-4-2, the land use regulations for each Agricultural zoning district are established by letter designations as follows:

- "P" designates use classifications permitted in the Agriculture District.
- "SUP" designates use classifications permitted on approval of a Special Use Permits.
- "CUP" designates use classifications permitted on approval of a Council Use Permits.
- "(x)" a number in parentheses refers to a limitation following the table.
- "TUP" designates use classifications permitted on approval of a Temporary Use Permit.

Use classifications not listed are prohibited. The "Additional Use Regulations" column includes specific limitations applicable to the use classification or refers to regulations located elsewhere in this Ordinance.

Table 11-4-2: Agricultural District		
Proposed Use	**AG**	**Additional Use Regulations**
1. The following agricultural uses are permitted by right (subject to the standards of this chapter): aviaries and apiaries; plant nurseries and greenhouses; poultry, bird, and egg farms; commercial breeding, training, and grazing of horses, cattle, sheep, goats, ostriches and other livestock. Dairies and feedlots require a Special Use Permit. 2. Use not permitted when the property is subject to the AOA 1 overflight area, see Section 11-19-2, Runway Protection Zones and Airport Overflight Areas. 3. Use not permitted when the property is subject to the AOA 2 overflight area, see Section 11-19-2, Runway Protection Zones and Airport Overlay Areas. 4. Use permitted with the approval of a (CUP) Council Use Permits when the property is subject to the AOA 2 overflight area, see Section 11-19-2, Runway Protection Zones and Airport Overflight Areas. 5. Refer to Section 11-31-37(B)(2) for conditions under which a BESS may qualify as an Accessory Use.		

(Ord. No. 5249, 10-6-14; Ord. No. 5632, § 1, 7-8-21; Ord. No. 5759, § 1, 12-8-22; Ord. No. 5814, § 1(Exh. 1), 10-16-23; Ord. No. 5976, § 1, 1-12-26)

11-4-3: DEVELOPMENT STANDARDS

Table 11-4-3 prescribes the Development Standards for the AG district.

Table 11-4-3: Development Standards - Agricultural District	
Standard	**AG**
Lot and Density Standards	
Minimum Lot Area	10 acres
Minimum Lot Width (ft.)	400
Maximum Density (dwelling units/acre)	0.1
Building Form and Location	
Maximum Height (ft.)	30
Maximum Number of Stories	2
Minimum Yards (ft.)	
Front	30
Interior Side: Minimum each side	60
Interior Side: Minimum aggregate of 2 sides	120
Street Side	30
Rear	60
Maximum Building Coverage	15%
Supplemental Standards	
Accessory Buildings (Barns, Sheds, Ramadas)	Section 11-30-17: Detached Accessory Buildings
Fences and Walls	Sections 11-4-4(A), 11-5-7 (D), and 11-30-4, Fences and Freestanding Walls
Landscaping	Chapter 33, Landscaping
Lot Splits and Subdivisions	Section 11-30-6, Lots and Subdivisions; and Title 9, Chapter 6, Subdivision Regulations
Off-Street Parking and Loading	Chapter 32, On-Site Parking, Loading, and Circulation
Projections above Height Limits	Section 11-30-3, Exceptions to Height Limits
Projections into Required Yards	Section 11-4-4(D) Building Projections into Required Yards
Screening	Section 11-30-9, Screening
Solar Panels	Section 11-30-15, Solar Panels and Other Energy Production Facilities
Visibility at Intersections	Section 11-30-14, Visibility at Intersections

(Ord. No. 4754, 9-4-07)

11-4-4: SUPPLEMENTAL REGULATIONS

A. **Fences and Freestanding Walls.**

1. "Corral fences" for the keeping of livestock are permitted consistent with the standards provided in Section 11-30-4(A)(2), Corral Fences.

2. In addition, all fences, freestanding walls, and corral fences shall meet the standards of Section 11-30-4, Fences and Freestanding Walls and Section 11-30-14, Visibility of Intersections.

B. **Animal Keeping.** Animal-keeping is subject to the following standards in the AG District:

1. ***Aviaries and Apiaries.***

a. Buildings or hives for apiaries may not be closer than 75 feet to any neighboring residence.

b. Pens and structures for aviaries may not be closer than 40 feet to any neighboring residence.

2. ***Poultry, Bird, and Egg Farms.*** Poultry, bird, and egg farms are subject to the following standards:

a. Pens, buildings, and enclosures other than open pasture may not be located closer than 200 feet to any residential, commercial, or employment district.

3. ***Livestock*.** Commercial breeding, raising, training, and grazing of horses, cattle, sheep, goats, ostriches, and other livestock is subject to the following standards:

a. Sites must be at least 10 acres in area.

b. Notwithstanding any other provision of this Ordinance, the number of livestock shall be limited to no more than the maximum number permitted by Title 8, Chapter 6, Article 4(IV) of the Mesa City Code, unless a Special Use Permit is approved by the Zoning Administrator acting as a Hearing Officer, or by the Board of Adjustment.

c. Pens, corrals, and similar structures may not be closer than 40 feet to any neighboring residence.

d. Barns, stables and similar buildings used to house animals, not including shade structures open at minimum on 3 sides, may not be closer than 75 feet to any neighboring residence.

4. With regard to items 1 through 3 of this subsection B, in the event that an animal pen, corral or other structure is located outside of the required separation distance when constructed, and subsequent construction is placed closer than the required separation specified, the item constructed first does not have to move its location unless it is expanded, enlarged, or moved.

C. **Plant Nurseries and Garden Centers.** Plant Nurseries and Garden Centers oriented principally towards retail trade require approval of a Special Use Permit and are subject to the following standards:

1. With or without a garden center, plant nurseries that cater principally towards retail trade shall be located on sites with direct frontage on a street designated by the Mesa General Plan as an arterial or as a mid-section collector.

2. Total floor area for all buildings, except greenhouses used to raise or display plants, shall not exceed 10,000 square feet.

3. Items displayed outdoors are limited to plants, soils, gravel, soil amendments and fertilizer.

4. Development standards shall comply with requirements of the GC-A district, see Table 11-6-3 B.

D. **Building Projections into Required Yards.** Building projections of a single residence may extend into required yards, subject to the following standards:

1. No projection may extend into a public utility easement or closer than 2 feet to an interior lot line.

2. Awnings, eaves, overhangs, or basement window wells may encroach up to 3 feet into any required yard.

3. Vestibules, bay windows, nooks, chimneys, or similar wall projections with or without footings may encroach not more than 3 feet into any required front or rear yard and not more than 2 feet into any required side yard, provided the aggregate width of all such projections adjacent to any yard does not exceed 1/3 of the length of the building wall.

4. Staircases may encroach:

   a. Up to 3 feet into any required front yard;

   b. Up to 10 feet into any required rear yard; and

   c. Up to 2 feet into any side.

5. Attached open porches, open patios, open carports or open balconies may encroach up to 10 feet into a required rear yard. Such open structures may include window screens, knee walls, and other partial enclosures as specified in the Building Code for patio covers.

(Ord. No. 5544, § 2, 12-9-19)

11-4-5: AGRICULTURE-BASED ENTERTAINMENT

Agriculture-based entertainment and educational related activities, such as corn mazes, facility tours, petting zoos and farm animal exhibits, are permitted as an accessory use in the AG district subject to review and approval of a Special Use Permits in accordance with Chapter 70, Conditional Use Permits. Evaluation of the Special Use Permit shall be based on a review of the following items to assure the entertainment and educational related activities remain compatible with and not detrimental to surrounding land uses:

A. **Development Plan.** A finding that an acceptable Development Plan has been submitted for review and consideration. Such Development Plan shall adequately address issues relating to vehicle access, traffic circulation, and pedestrian safety.

B. **Parking.** Parking, which shall be dustproof, and provided at a minimum ratio of 1 space per 1,000 square feet of designated entertainment area.

C. **Accessory Use.** The entertainment and educational activities shall remain as an accessory activity, and the primary uses for the site shall remain agricultural related activities as permitted under Section 11-4-2.

D. **Applicable Policies.** The use is found to be in compliance with the General Plan, and with applicable Sub Area Plans, Neighborhood Plans and other recognized development plans or policies, and will be compatible with surrounding uses; and

E. **Operational Plan.** A finding that an acceptable operational plan in narrative form has been submitted for review and consideration, which includes, but is not limited to, descriptions of acceptable measures to ensure ongoing compatibility with adjacent uses. Such policies shall include, but are not limited to measures that control: dust, vectors, litter, noise and light. The Operational Plan shall also include the name and telephone number of the manager or person responsible for the operation of the facility; and complaint response procedures, including investigation, remedial action, and follow-up.

(Ord. No. 4262, 8-16-04; Ord. No. 5996, § 4, 3-9-26)

11-4-6: REVIEW OF PLANS

Administrative Use Permits, Special Use Permits, and Council Use Permits shall follow the standards established in Chapter 70 of this Ordinance. All other uses and development shall comply with the review procedures, standards and criteria established in Article 7, Administration.
(Ord. No. 4262, 8-16-04)

CHAPTER 5 RESIDENTIAL DISTRICTS

11-5-1: PURPOSE

A. **General Purpose of Residential Districts.** The purposes of the residential districts are to:

1. Provide for the orderly, well-planned, and balanced growth of residential neighborhoods.
2. Provide for a variety of housing types in a range of densities.
3. Promote the development of residential neighborhoods with well-designed transportation links to educational, employment, commercial and recreational destinations, and which encourage multiple methods of transportation, including walking, biking, and the use of public transit.
4. Establish design standards to help create distinct and attractive residential neighborhoods, upgrade the quality of multi-family housing, and ensure that new residential development is well integrated with surrounding neighborhoods.
5. Provide for appropriate public and quasi-public uses such as parks, playgrounds, religious facilities, and day care centers where they are compatible with and preserve and/or improve the quality of life in residential neighborhoods.
6. Provide development patterns that encourage energy conservation and provide opportunities for renewable energy production.

B. **Specific Purposes of Each District.**

1. ***RS Single Residence.*** To provide areas for detached single residence housing at densities of up to 7 units per net acre. Designators (-90, -43, -35, -15, -9, -7 and -6) are used to denote the minimum lot size in thousands of square feet. This district also provides for community residences, assisted living homes, day care group homes, park and recreation facilities, and civic and institutional uses such as churches and places for religious assemblies that are appropriate in a residential environment. Non-residential uses of a strictly limited scale under the specific conditions listed may also be allowed.
2. ***RSL Small Lot Single Residence.*** To provide areas for small-lot single dwelling development at densities of up to 17 units per net acre, subject to development standards to ensure land use compatibility. Designators (-4.5, -4.0, -3.0 and -2.5) are used to denote the minimum average lot size in thousands of square feet. This district also allows for community residences, assisted living homes, family day care, park and recreation facilities, and civic and institutional uses.
3. ***RM Multiple Residence.*** To provide areas for a variety of housing types at densities of up to 43 units per gross acre. Designators (-2, -3, -4, and -5) are used to denote variations in the maximum allowed

development intensity (See Table 11-5-5). Appropriate types of dwelling units include small-lot single residences, townhouses, cluster housing, and multiple residence housing. This district also provides for community residences, assisted living facilities, residential home-based day care, boarding house manufactured home parks and subdivisions, recreational vehicle parks and subdivisions, park and recreation facilities, limited and small-scale residential support (including limited scale mixed-use commercial) activities, and civic and institutional uses such as churches and places for religious assembly that are appropriate in a residential environment.

(Ord. No. 5541, § 2, 12-9-19; Ord. No. 5632, § 2, 7-8-21)

11-5-2: LAND USE REGULATIONS

In Table 11-5-2, the land use regulations for each Residential Zoning District are established by letter designations as follows:

- "P" designates use classifications permitted in the Residential District.
- "SUP" designates use classifications permitted on approval of a Special Use Permits.
- "CUP" designates use classifications permitted on approval of a Council Use Permits.
- "TUP" designates use classifications permitted on approval of a Temporary Use Permits.
- "(x)" a number in parentheses refers to a limitation following the table.

Use classifications not listed are prohibited. The "Additional Use Regulations" column includes specific limitations applicable to the use classification or refers to regulations located elsewhere in this Ordinance.

1. Permitted in the RM-4 District.
2. Only permitted or conditionally permitted in the RM-4 District; prohibited in the other RM sub-designations.
3. Boarding stables are permitted in the RS-43 and RS-90 Districts with approval of a SUP on sites of 10 acres or more. Other Large-Scale Commercial Recreation uses are not permitted.
4. Comprehensive Youth Residence permitted in RS-90 District with approval of a SUP.
5. Stands are permitted for the sale of agricultural or horticultural products produced on the premises in the RS-35, RS-43 and RS-90 zoning districts with approval of a Special Use Permit. Farm stands are prohibited in the remaining RS sub-designations.
6. Refer to Section 11-31-37(B)(2) for conditions under which a BESS may qualify as an Accessory Use.
7. Plant Nurseries may be located in the RS-43 and RS-90 Districts with approval of a Special Use Permits. Criteria include that specified for the AG District, Sec Section 11-4-4(C). Plant Nurseries are prohibited in the remaining RS sub-designations.
8. Day Care Centers permitted only as an accessory activity when provided as an amenity by homeowner's association (HOA) for the principal benefit of residents of that same HOA.
9. Not permitted in RM-5 District.
10. Permitted only with approval of a Special Use Permits, and if the location is coterminous to an intersection of an arterial street with a local or collector street, and the aggregate maximum Gross Floor Area is less than 2,000 square feet in Floor Area, exclusive of any residential uses.
11. Permitted only with approval of a Special Use Permits, and if the location is coterminous to an intersection of an arterial street with a local or collector street, and the aggregate maximum Gross Floor Area is less than 1,500 square feet in Floor Area, exclusive of any residential uses. No drive-thru facilities or pick-up window facilities permitted.
12. Detached Single Residence is not permitted in RM-5 District.
13. Use not permitted when the property is subject to the AOA 1 Overflight Area, see Section 11-19-2, Runway Protection Zones and Airport Overflight Areas.
14. Use not permitted when the property is subject to the AOA 2 Overflight Area, see Section 11-19-2, Runway Protection Zones and Airport Overflight Areas.
15. Use permitted with approval of a (CUP) Council Use Permits when the property is subject to the AOA 1 Overflight Area, see Section 11-19-2, Runway Protection Zones and Airport Overflight Areas.

Table 11-5-2: Residential Districts				
Proposed Use	**RS**	**RSL**	**RM**	**Additional Use Regulations**
16. Use permitted with the approval of a (CUP) Council Use Permits when the property is subject to the AOA 2 Overflight Area, see Section 11-19-2, Runway Protection Zones and Airport Overflight Areas.				
17. Special Use Permit options for expanded Home Occupations are allowed only in the RS-90 and RS-43 Districts.				
18. Reserved.				
19. Reserved.				
20. Also requires previous establishment of a PAD Overlay District.				
21. Temporary use of Portable Storage Containers during construction and for loading and unloading is permitted in accordance with Section 11-30-16.				
22. Permanent use of Portable Storage Containers is limited to RS-43 and RS-90 zoning districts in accordance with Section 11-30-16.				
23. Use only permitted when owned and operated by the City of Mesa.

11-5-3: DEVELOPMENT STANDARDS FOR THE RS AND RSL DISTRICT

A. **Zoning District Standards.** Tables 11-5-3.A.1 and 11-5-3.A.2 prescribe the development standards for the RS and RSL Districts. The "Additional Standards" column lists additional standards that apply in some or all districts. Section numbers in this column refer to other sections of the Zoning Ordinance, while individual letters refer to subsections that directly follow the table.

Table 11-5-3.A.1: Development Standards - RS Residential Single Dwelling Districts								
Standard	**RS-90**	**RS-43**	**RS-35**	**RS-15**	**RS-9**	**RS-7**	**RS-6**	**Additional Standards**
Lot and Density Standards								
Minimum Lot Area (sq. ft.)	90,000	43,560	35,000	15,000	9,000	7,000	6,000	
Minimum Lot Width: Interior Lot (ft.)	150	130	130	110	75	65	55	Section 11-5-3(A)(1), Additional Lot Width and Depth
Minimum Lot Depth (ft.)	150	150	150	120	100	94	90	
Minimum Lot Depth abutting Arterial Street (ft.)	150	150	150	120	110	104	100	
Maximum Density								
Conventional Subdivisions (units/gross acre)	Based on compliance with minimum lot size requirements, and with off-site improvement and right-of-way requirements specified in MCC Title 9.							
Planned Area Development (PAD) Overlay District (units/net acre)	0.48	1.0	1.24	2.9	4.84	6.22	7.26	
Maximum Lot Coverage (% of lot)	40%	40%	50%	50%	60%	60%	60%	
Building Form and Location								
Maximum Height (ft.)	30	30	30	30	30	30	30	
Minimum Setbacks (ft.)								
Front: Enclosed Livable Areas, Porches, Side Entry Garages, and Porte Cocheres	22	22	22	22	15	10	10	
Front and Street-Facing Side: Garages and Carports	30	30	30	30	25	20	20	
Interior Side: Minimum either side	20	10	10	7	7	5	5	Section 11-5-3(A)(3), Zero-Lot-Line Developments
Interior Side: Minimum Aggregate of 2 sides	40	30	30	20	17	15	15	Section 11-5-3(A)(3), Zero-Lot-Line Developments

Table 11-5-3.A.1: Development Standards - RS Residential Single Dwelling Districts								
Standard	**RS-90**	**RS-43**	**RS-35**	**RS-15**	**RS-9**	**RS-7**	**RS-6**	**Additional Standards**
Street-Facing Side	30	20	10	10	10	10	10	
Rear	30	30	30	30	25	20	20	Section 11-5-3(A)(2), Additional Standards for Rear Setbacks
Rear: Abutting Arterial Street	30	30	30	30	30	30	30	
Maximum Building Coverage (% of lot)	25	25	35	40	45	45	50	Section 11-31-38, Middle Housing

Table 11-5-3.A.2: Development Standards - RSL Residential Small Lot Single Dwelling Districts					
Standard	**RSL-4.5**	**RSL-4.0**	**RSL-3.0**	**RSL-2.5**	**Additional Standards**
Lot Standards					
Minimum Average Lot Area of Subdivision (sq. ft.)	4,500	4,000	3,000	2,500	
Minimum Individual Lot Area (sq. ft.)	4,000	3,600	2,925	2,400	
Minimum Lot Width: Interior Lot (ft.)	50	45	45	40	Section 11-5-3(A)(1), Additional Lot Width and Depth
Minimum Lot Width: Corner Lot (ft.)	55	50	50	45	
Minimum Lot Depth (ft.)	80	80	65	60	
Maximum Lot Coverage (% of lot)	70%	75%	80%	80%	
Building Form and Location					
Maximum Height (ft.)	30	30	30	30	Section 11-5-3(A)(5), Third Story Structures
Minimum Setbacks (ft.)					
Front: Building Wall	15	15	15	14	
Front: Garage	18	18	18	18	
Front: Porch	9	9	8	8	
Street-Facing Side	8	8	8	8	
Interior Side: Minimum Each Side	4.5	4	4	3	Section 11-5-3(A)(3), Zero-Lot-Line Developments
Interior Side: Minimum Aggregate of 2 sides	10	9	8	6	
Rear	15	12	10	10	
Rear or Side: Garage, Accessed by Alley or Common Drive Shared by 3 or More Lots (Measured to Construction Centerline of Alley or Drive)	13	13	13	13	
Minimum Useable Open Space Per Unit (sq. ft.)	400	400	400	400	Section 11-5-3(A)(6), RSL Open Space Requirements

1. ***Additional Lot Width and Depth.***

   a. *At Local or Collector Street Intersections.*

      i. Additional lot width equivalent to 10% of the standard lot width for the zoning district shall be provided on lots located at the intersection of:

         (1) Two (2) local streets; or

         (2) A local street and collector street.

      ii. Street-facing side lot lines separated from street right-of-way by a dedicated tract of land with a width of 10 or more feet are excluded from this requirement.

   b. *At Arterial and Collector or Arterial and Local Street Intersections.*

      i. Additional lot width equivalent to 15% of the standard lot width for the zoning district shall be provided on corner lots located at the intersection of:

         (1) Two (2) collector streets;

(2) Two (2) arterial streets; or

(3) A collector and arterial street.

ii. Street-facing side lot lines separated from street right-of-way by a dedicated tract of land with a width of 15 or more feet are excluded from this requirement.

c. *Lots With Two (2) or More Intersection Corners.* For lots that have more than one (1) corner adjacent to an intersection, the additional lot width required will be based on the highest classified intersection.

d. *Lot Depth Adjacent to Arterial Street.* Where the rear lot line of a lot in the RS-7 or RS-6 District directly abuts the right-of-way of an arterial street:

i. The minimum lot depth shall be increased by an additional 10 feet; except:

ii. Rear lot lines separated from arterial street right-of-way by a dedicated tract of land with a depth of 10 or more feet are excluded from this requirement.

2. ***Additional Standards for Rear Setbacks.***

a. *Rear Setback Adjacent to Arterial Street.* A rear setback adjacent to an arterial street shall be at least 30 feet in depth. This requirement shall not apply if the residential lot is separated from the arterial street by a landscape tract, stormwater retention basin, or privately owned and maintained recreation open space that is at least 10 feet in depth.

b. *Rear Setback Adjacent to Alley or Canal.* When a rear lot line abuts an alley or canal right-of-way at least 16 feet in depth, the rear setback may be measured from the centerline of that alley or canal right-of-way, provided the resulting reduction does not exceed 10 feet.

3. ***Zero-Lot-Line Developments.*** Zero-lot-line developments are permitted in the RS-6, RS-7, and RSL Districts as follows. Use benefit easements shall not be used to establish, satisfy, or replace any required setback or access provision for zero-lot-line developments.

a. In zero-lot-line developments, no interior side setback is required on one (1) side of a lot if the opposite side setback is at least equal to or greater than the minimum aggregate setback stated in Table 11-5-3.A.1 or Table 11-5-3.A.2, or 10 feet, whichever is greater.

b. Where a zero-side setback is used, the abutting property must be held under the same ownership at the time of initial construction, or the owner of the property abutting the zero-side setback must sign an agreement that permanently grants consent in writing to such zero setback.

c. Owners of zero-lot-line developments must provide permanent access and maintenance easement providing the owner of the zero-lot-line structure with access to the adjacent lot to maintain the structure. A copy of the easement shall be provided to the City prior to recording the document in the Maricopa County Recorder's Office.

4. ***Limitation on Paving of Street-Facing Setbacks.***

a. *RS Districts.* No more than 50% of any required front or street-facing side setback may be covered with a paved surface.

b. *RSL Districts.* No more than 80% of any required front or street-facing side setback may be covered with a paved surface.

5. ***Third Story Structures in RSL Districts.*** A Single Residence dwelling unit in an RSL Zoning District may have a third story subject to the following:

   a. The third story is located inside a roof that is pitched at a vertical to horizontal ratio of at least 1 to 3 (1:3). The third story may include dormers that are not more than 15 feet in depth or width and located wholly below the ridge of the roof. The roofs of dormers shall have a minimum slope of 1 to 6 (1:6); or

   b. The horizontal area of the third story (measured from exterior walls) does not exceed 60% of the footprint of the building, and the third story is set back a minimum of eight (8) feet from the front exterior wall(s) of lower stories, or set back at least five (5) feet from the front exterior wall and five (5) feet on at least one (1) side exterior wall of lower stories.

6. ***RSL Open Space Requirements.*** The open space requirement in the RSL Districts may be satisfied in one (1) of the following ways:

   a. *Private Open Space Option.* A minimum of 400 square feet of open space is provided on each lot. The following criteria apply to the provision of private open space:

      i. The open space may be contained in one (1) or multiple areas. No single space shall be smaller than 80 square feet.

      ii. To count toward the required open space, the open space must have a minimum depth of at least six (6) feet as an upper story balcony, eight (8) feet as a porch or patio and 10 feet as a courtyard or lawn area.

      iii. Items such as covered porches or patios, open on two (2) sides; or designated courtyards with two (2) sides defined by a knee wall of not more than three (3) feet in height may be considered as open space when located in front and street-side facing setbacks, provided the minimum dimension of the open space in any direction is:

         (1) Ten (10) feet in the RSL-4.5, 4.0, and 3.0 Districts; and

         (2) Eight (8) feet in the RSL-2.5 District.

   b. *Combined Private and Common Open Space Option.* A development may satisfy open space requirements through a combination of private open space on each lot and common open space areas, subject to the following:

      i. For properties zoned RSL 4.5 or 4.0, the open space requirement may be met by providing at least 350 square feet of private open space on each lot and providing common open space areas to serve the development at the rate of 100 square feet per lot.

      ii. For properties zoned RSL-3.0 or 2.5, the open space requirement may be met by providing at least 280 square feet of private open space on each lot and providing common open space areas to serve the development at a rate of 120 square feet per lot.

      iii. Minimum open space dimension standards provided in Subsection (6)(a) above, apply to the size and location of the on-lot open space.

iv. To qualify as common open space, all of the following standards must be met:

(1) The area shall have a minimum of two (2) pedestrian access points and shall not be enclosed or otherwise restricted from use by the residents of the subdivision;

(2) The common area must be at least 0.25 acres in size with a minimum usable width of at least 75 feet in any direction;

(3) The open space must be at least 50% open to the sky. At least 75% of open space areas that are open to the sky and not otherwise used as active recreation facilities shall be landscaped and maintained with live plant materials;

(4) Open space areas shall be improved with facilities that provide for active and/or passive recreation, such as benches, paths, playground equipment, ball courts, picnic tables, and barbecue facilities; and

(5) At least 75% of the required open space shall be located within 1,320 feet of the geometric center of the development site, measured to the nearest edge of the open space.

7. ***Encroachments.*** Building projections may extend into required setbacks, subject to the following standards:

a. No projection may extend into a public utility easement or closer than three (3) feet to an interior lot line.

b. Awnings, eaves, overhangs, or basement window wells may encroach up to three (3) feet into any required setback.

c. Vestibules, bay windows, nooks, chimneys, or similar wall projections with or without footings may encroach not more than three (3) feet into any required front or rear setback and not more than two (2) feet into any required side setback, provided the aggregate width of all such projections adjacent to any yard does not exceed one-third (⅓) of the length of the building wall.

d. Staircases may encroach up to three (3) feet into any required front setback, and up to 10 feet into any required rear setback.

e. Attached open porches, open patios, open carports or open balconies may encroach into a required rear setback, but shall be no closer than 15 feet to a rear property line, except in the RS-6 and RS-7 Districts, where these structures may encroach to within 10 feet of the rear property line. Such open structures may include window screens, knee walls, and other partial enclosures as specified in the Mesa Building Code for patio covers.

f. In RS Districts only, enclosed livable rooms may encroach up to 10 feet into a required rear setback for up to one-half (½) the width of the building, provided a minimum of 10 feet remains between the building face and the rear property line.

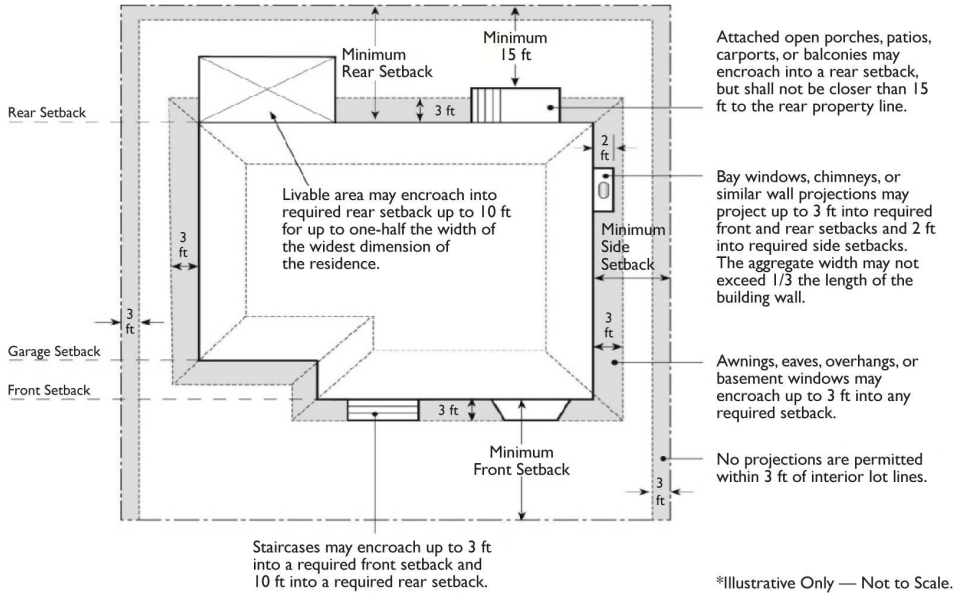

FIGURE 11-5-3.A(1): BUILDING PROJECTION

(Ord. No. 5593, §§ 3, 4, 12-1-20; Ord. No. 5858, § 1, 7-1-24; Ord. No. 5989, § 2, 12-8-25; Ord. No. 5996, § 1, 3-9-26)

11-5-4: SITE PLANNING AND DESIGN STANDARDS FOR THE RS AND RSL DISTRICTS

A. **Neighborhood Character and Image.** Residential subdivisions of five (5) acres or more shall comply with the following requirements:

1. ***Connectivity.*** Residential subdivisions shall provide vehicular, pedestrian and bicycle connectivity to adjacent schools, parks, places of work or services, and abutting residential developments.

   a. All development shall be designed in accordance with the City of Mesa Standard Details and Specifications, Engineering Design Standards Manual, Land Division Regulations, and transportation facilities identified by the City's Transportation Plan.

   b. The street or roadway pattern shall be designed with regard to topography and existing natural features.

   c. Streets stubbed or platted to the boundary of previously approved Development Plans shall be incorporated and continued, to provide for logical, orderly, and convenient movement from one neighborhood to the next.

   d. Sidewalks, trails, and greenbelts shall be utilized to provide pedestrian/bicycle connections between neighboring subdivisions and major activity areas.

2. ***Entryway Monumentation Feature.*** Provide at least one (1) entryway monumentation feature at two (2) neighborhood access points where a street intersects an arterial or collector street. Each entryway monumentation feature shall include at least three (3) of the following:

   a. Monument signage.

b. Specialty pavement delineating the primary entryway, such as stamped asphalt, brick, stone, pavers, or colored concrete. Specialty pavement within the public right-of-way shall be approved by the City Transportation Department.

c. Enhanced perimeter wall details, such as but not limited to, decorative panels, lighting, architectural tower or arch feature, or a decorative gate.

d. Enhanced landscape treatment with a defined landscaped area of at least 200 square feet that includes a minimum of three (3) trees with a minimum 36-inch box size and decorative shrubs, perennials, ornamental grasses, or specimen plants. At least 60% of this landscaped area must contain live plant material.

e. Public art elements, such as but not limited to, sculptural features or thematic elements that reflect neighborhood history, culture, or surrounding natural features.

f. Landscaped median or entry island.

g. Monument or gateway lighting features, such as but not limited to, uplighting, halo lighting, or illuminated columns.

h. Neighborhood identity markers, such as but not limited to, branded poles, pylons, or similar vertical elements.

i. Decorative landscape wall or seat wall integrated with planting, in lieu of a perimeter wall.

j. Water feature.

k. Additional entryway monumentation feature approved by the Planning Director.

3. ***Architectural Variation.*** Developments shall provide architectural variety through the use of distinct building elevations, exterior materials, roof lines, garage placement, and building placement. Such variation in buildings shall not consist solely of combinations of the same building features.

a. For developments containing three (3) to nine (9) lots, there shall be at least two (2) different types of building elevations.

b. For projects containing 10 to 39 lots, there shall be at least three (3) different building elevations.

c. An additional building elevation shall be provided for each additional 40 lots.

d. No two (2) of the same building elevation with the same floor plan shall be located next to each other or across the street from one another.

B. **Massing and Scale.** Buildings shall contain varied massing and architectural elements and techniques shall be utilized to reduce the apparent massing and scale of buildings, provide shading, and define different uses and activities in the house.

1. ***Façade Articulation.***

a. *Front Façade.* The front façade of buildings shall have at least one (1) change in building plane, excluding the garage.

b. *Two-story Dwellings on Corner Lots.* No second-story street-facing wall shall run in a continuous plane of more than 20 feet without a window, or without a projection, offset, or recess of the building wall at least one (1) foot in depth.

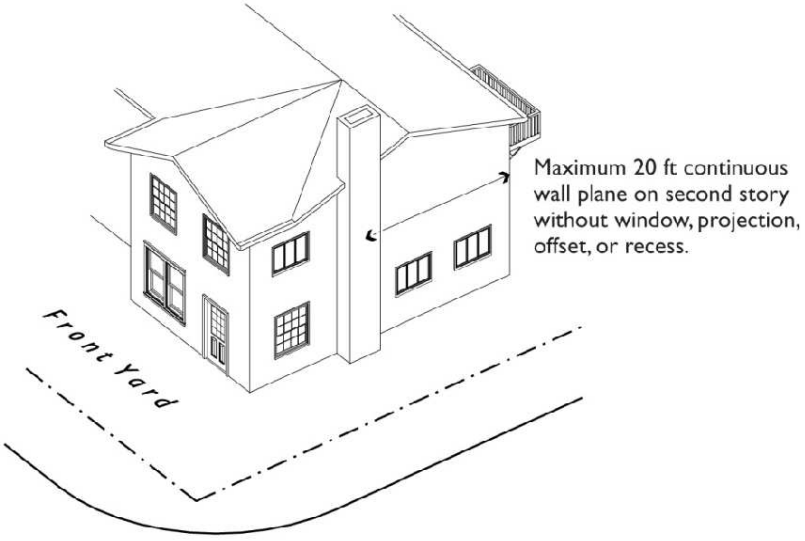

FIGURE 11-5-4.B(1): TWO-STORY DWELLINGS ON CORNER LOT

C. **Primary Entrances.** Primary entrances shall consist of either a covered front porch or portico, awning, recess, or stoop as specified below.

1. ***Covered Front Porch.*** A covered front porch with a minimum depth of six (6) feet and a minimum length of eight (8) feet.

a. *Measuring Front Porch Depth.*

i. The required porch depth shall be measured from the building façade to outside of the support post;

ii. The total clear furniture area shall be a minimum of four (4) feet by six (6) feet.

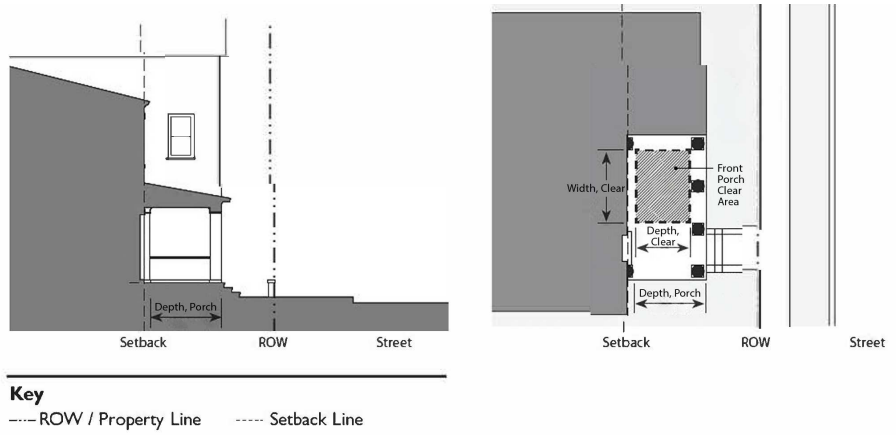

FIGURE 11-5-4.C(1): COVERED FRONT PORCH MEASUREMENTS

2. ***Portico, Awning, Recess, or Stoop.*** A portico, awning, recess, or stoop measuring at least four (4) by four (4) feet which is well defined by a gabled entry, distinct change in roof line or columns, or has some other significant architectural distinction.

D. **Garage Frontage and Location.** To prevent residential streetscapes from being dominated by protruding garage doors, and to allow the active, visually interesting features of a house to be dominant, the following standards shall apply:

1. ***Front Loaded Garages.*** Where a garage door is parallel to the front property line of the lot, the following shall apply:

a. *Lots Greater Than or Equal to 50 Feet Wide.*

i. The aggregate width of garage doors shall not exceed 50% of the aggregate width of the front building elevation;

ii. The garage shall be located at least three (3) feet behind the primary wall facing the street; and

iii. A covered front porch, patio, or porte-cochere whose aggregate width is 20% of the aggregate width of the front building elevation may be considered the primary wall facing the street.

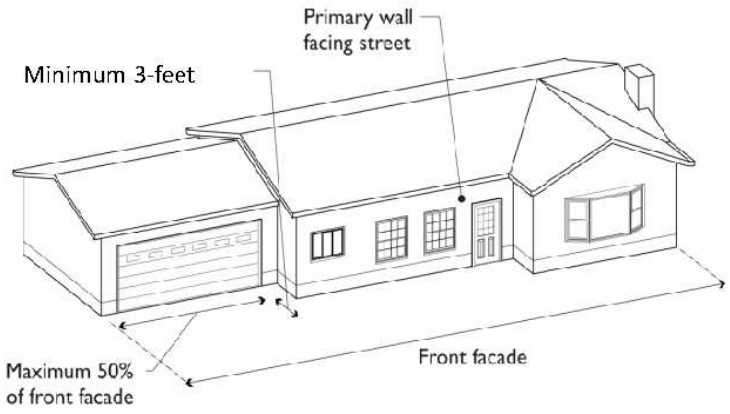

FIGURE 11-5-4.D(1): GARAGE FRONTAGE AND LOCATION

b. *Lots Less Than 50 Feet Wide.*

i. The aggregate width of garage doors shall not exceed 60% of the aggregate width of the front building elevation; and

ii. The garage shall be located at least three (3) feet behind the primary wall or covered front porch (at least eight (8) feet wide and six (6) feet deep) facing the street.

2. ***Side Loaded Garages.*** Where garages are oriented with side entry doors, the street-facing façade shall incorporate windows and architectural detailing to maintain the appearance of habitable living space.

3. ***Garages With Three (3) or More Doors.*** Garages with three (3) or more doors, or designed to accommodate three (3) or more non-tandem parked cars, are permitted only on lots 75 feet wide or greater, and at least one (1) garage front must be separated from the remaining garage fronts by at least two (2) feet. This requirement does not apply to the following:

a. Side or rear loaded garages in which the garage doors are oriented parallel to or within 10 degrees of parallel to the front property line, or oriented perpendicular to an alley located adjacent to the rear property line.

b. Garages set a distance of 1.5 times the minimum front setback for garages and carports, based on the requirement for each zoning district, from the front property line, as specified by Table 11-5-3A.1 and Table 11-5-3.A.2.

E. **Driveways—Maximum Number and Width.**

1. ***Lots Less Than 75 feet Wide.***

a. A maximum of one (1) driveway up to 20 feet wide is permitted.

b. One (1) additional driveway up to 10 feet wide is permitted, if it leads to an interior side setback that is at least 12 feet in width.

2. ***Lots Greater Than or Equal to 75 Feet Wide.***

   a. A maximum of one (1) driveway up to 30 feet wide is permitted; or

   b. One (1), 20-foot driveway and one (1) additional 10-foot driveway if it leads to an interior side setback that is at least 12 feet in width.

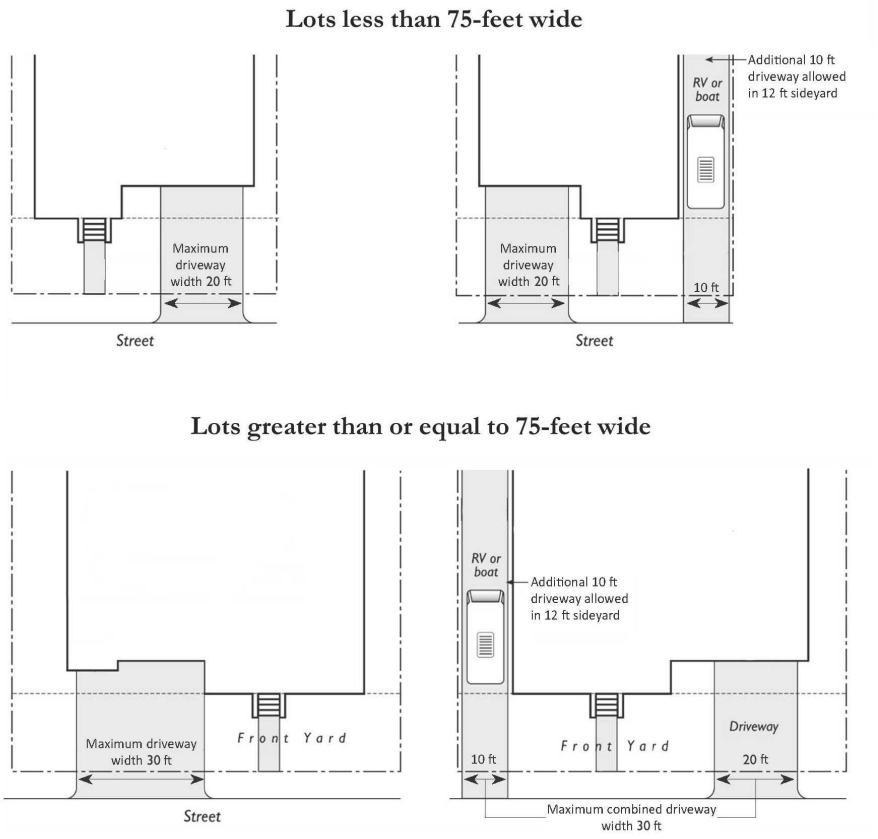

FIGURE 11-5-4.E(1): DRIVEWAYS

F. **Windows.**

1. On front facades, windows shall either:

   a. Contain window trim on at least two (2) sides that is at least two (2) inches in depth; or

   b. Be recessed at least four (4) inches from the outside plane of the surrounding exterior wall.

2. On buildings that are two (2) stories or greater in height, all façades facing a street, alley, open space, or park shall provide windows on the upper-stories that constitute at least 10% of the façades area.

G. **Materials.** Buildings and structures shall be constructed of durable, high-quality materials appropriate for the Arizona climate.

1. ***Primary Exterior Building Materials.*** Primary exterior building materials are brick, stone, integrally tinted and textured masonry block, precast concrete, siding, natural and synthetic wood, natural and synthetic stone, stucco and synthetic stucco, or other material approved by the Planning Director.

2. ***Minimum Use of Primary Materials.***

a. *Publicly Visible Façades.* Building façades facing a street, alley, open space, or park shall contain at least two (2) kinds of primary exterior building materials.

b. The use of any one (1) material shall not exceed 85% of each façade.

c. *Primary Material Calculation.* Primary building material coverage shall be calculated by measuring the area of each façade, excluding fenestration, pedestrian and vehicular openings, and other elements that are not part of the vertical façade plane. The percentage of each primary building material shall be calculated by dividing the area covered by that material by the resulting façade area.

3. ***Architectural Metals.*** Architectural metals, such as bronze, brass, copper, aluminum, metal-composite material (MCM), and steel shall not cover more than 15% of a building façade.

4. ***Change in Materials.***

a. Where material changes are horizontal (i.e., different materials side by side) the transition between materials shall occur at a change in wall plane, preferably at inside corners or where architectural elements intersect (e.g., pilasters, bays, projections), and shall not occur mid-field on a flat wall surface, except where brick or stone veneer is used as wainscoting, it shall be wrapped a minimum of two (2) feet around side walls.

b. Where material changes are vertical (i.e., different materials stacked one above another), the transition between materials shall include a belt course, trim band, sill, cap, frame, or similar element to separate the two (2) materials.

H. **Factory-Built Buildings.** Factory-built buildings designed, manufactured and approved for residential purposes as dwelling units and attached to permanent foundations are permitted in all Residential Districts, if such buildings are installed in conformance with all applicable provisions of the Mesa City Code including applicable development standards.

(Ord. No. 5996, § 1, 3-9-26)

11-5-5: DEVELOPMENT STANDARDS FOR THE RM DISTRICT

A. **Zoning District Standards.** Table 11-5-5 prescribes the development standards for the RM Districts. Section numbers in this column refer to other sections of the Zoning Ordinance, while individual letters refer to subsections that directly follow the table.

Table 11-5-5: Development Standards - RM Residential Multiple Dwelling Districts					
Standard	**RM-2**	**RM-3**	**RM-4**	**RM-5**	**Additional Standards**
Minimum Lot Area (sq. ft.)	7,200	6,000	6,000	6,000	

Table 11-5-5: Development Standards - RM Residential Multiple Dwelling Districts					
Standard	**RM-2**	**RM-3**	**RM-4**	**RM-5**	**Additional Standards**
Minimum Lot Width (ft.)					
Single Residence - Detached	36	30	25	—	
Single Residence - Attached	36	25	25	25	
Multiple Residence	60	60	60	60	
Minimum Lot Depth (ft.)					
Single Residence- Attached or Multiple Residence	94	94	94	65	
Single Residence -Detached	94	94	75	75	
Maximum Density (dwelling units/net acre)	15	20	30	43	
Minimum Lot Area per Dwelling Unit (sq. ft.)	2,904	2,183	1,452	1,000	
Maximum Height (ft.)	30	40	40	50	
Maximum Lot Coverage (% of lot)	70%	70%	70%	80%	
Minimum Setbacks: 2 or More Units Per Lot (ft.)					
Front and Street-Facing Side	Varies by street classification identified in the Mesa Transportation Plan: 6-lane arterial: 30 ft. 4-lane arterial: 20 ft. Collector: 25 ft. Local Street: 20 ft. Freeways: 30 ft.				Setbacks shall be landscaped according to standards in Chapter 33, Landscaping.
Interior Side and Rear: 3 or More Units Per Lot	Single Story: 20 ft. Multiple Story: 15 ft. per story			Single Story: 15 ft. Multiple Story: Additional 10 ft. per story	Section 11-5-5(B)(1), Additional Setback Adjacent to RS District Section 11-5-5(B)(2), Setbacks Adjacent to a Canal
Interior Side: 2 Units Per Lot	10	10	10	10	
Interior Side: Single Residence - Attached (ft.)	5	5	5	5	Section 11-5-5(B)(2), Setbacks Adjacent to a Canal
Rear	15	15	15	15	Section 11-5-5(B)(1), Additional Setback Adjacent to RS District Section 11-5-5(B)(2), Setbacks Adjacent to a Canal
Minimum Setbacks: 1 Unit Per Lot (ft.)					
Front and Street-Facing Side	Varies by street classification identified in the Mesa Transportation Plan: 6-lane arterial: 30 ft. 4-lane arterial: 20 ft. Collector: 25 ft. Local Street: 20 ft. Freeways: 30 ft.				Setbacks shall be landscaped according to standards in Chapter 33, Landscaping.
Interior Side: Single Residence - Detached (ft.)	5	5	5	N/A	Section 11-5-5(B)(2), Setbacks Adjacent to a Canal
Interior Side: Single Residence - Attached (ft.)	10	10	10	10	Section 11-5-5(B)(2), Setbacks Adjacent to a Canal Section 11-5-3(B)(3), Zero Setback for Attached Single Residences
Rear	15	15	15	Single Residence- Attached: 15	Section 11-5-5(B)(2), Setbacks Adjacent to a Canal
One-story Building	25	25	25	15	Section 11-5-5(B)(5), Additional Building Separation Requirements
Two-story Building	30	30	30	20	

Table 11-5-5: Development Standards - RM Residential Multiple Dwelling Districts					
Standard	**RM-2**	**RM-3**	**RM-4**	**RM-5**	**Additional Standards**
Three-story Building	35	35	35	25	Section 11-5-5(B)(5), Additional Building Separation Requirements
Detached Covered Parking Canopies and Buildings	20	20	20	20	
Maximum Building Coverage (% of lot)	45	50	55	65	Section 11-5-5(B)(5), Additional Building Separation Requirements
Minimum Open Space (sq. ft./unit)	200	175	150	120	Section 11-5-5(B)(6), Standards for Required Open Space

B. **Additional Standards.**

1. ***Additional Setback Adjacent to RS District.*** Where a lot located in an RM District is adjacent to the RS District, the following shall apply:

   a. A single-story building on the RM-zoned lot shall be setback from the RS District property line at least 25 feet.

   b. Multiple story buildings shall be setback a minimum of 15 feet of setback for each story (i.e., two-story buildings must be setback at least 30 feet; three-story buildings must be setback, 45 feet), except in the RM-5 District, in which the minimum setback is limited to 25 feet from a RS District, with no additional setback per story.

   c. At least 20 feet of the depth of such setbacks must be landscaped consistent with the standards of Chapter 33, Landscaping, and shall remain free from parking, driveways, and encroachment by any structures that are not part of the landscaping design.

   d. On lots of five (5) acres or more, at least 25 feet of the depth of such setbacks must be landscaped and free from parking or encroachments.

2. ***Setback Adjacent to Canal.*** A setback of at least 15 feet shall be maintained along property lines that abut a canal.

3. ***Zero Setback for Attached Single Residences.*** Attached Single Residence structures may have zero-setback on both sides of the structure.

   a. The minimum interior side setback shall be 10 feet on the end units.

   b. Any portion of the building not placed on a zero-setback line shall maintain a minimum of 10-foot building setback.

   c. Where a zero-side setback is used, the abutting property must be held under the same ownership at the time of initial construction, or the owners of the abutting property must sign an agreement that grants consent in writing to such zero setback. Additionally, owners of zero-lot-line developments must provide a maintenance easement providing the owner of the zero-lot-line structure with access to the zero side to maintain the structure. A copy of the easement shall be provided to the City and recorded in the Maricopa County Recorder's Office prior to recording a plat.

4. ***Limitation on Paving of Street-Facing Setbacks.*** No more than 50% of any required front or street-facing side setback may be covered with a paved surface.

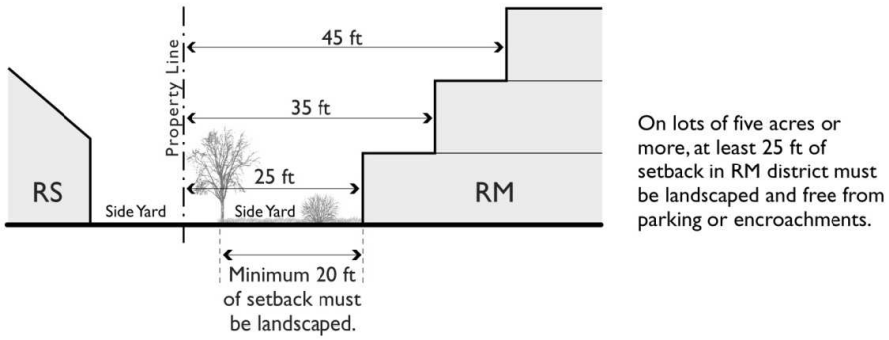

FIGURE 11-5-5.B(1): SETBACK ADJACENT TO RS DISTRICT

5. ***Additional Building Separation Requirements.*** Buildings shall be arranged in a manner that addresses privacy issues for individual units and allows sufficient separation so that daylight and air is available for each residential unit.

   a. *Non-Parallel Buildings.* For non-parallel buildings, the minimum building separation requirement shall be calculated by determining the open area that would be required between any two (2) buildings if they were parallel and met the minimum requirement; then ensuring that the same or greater total open area is available between the two (2) buildings. At no time shall any points of the buildings be closer than 10 feet.

   b. *Ground Floor Separation.* Ground floor building separation distance may be reduced up to 20% if the upper floor steps back an equal distance. For example, if the required building separation between two (2), three (3) story buildings is 35 feet, the ground floor units may be separated by 28 feet provided the upper stories are stepped back so that the building separation for upper stories is no less than 42 feet.

6. ***Standards for Required Open Space.*** Provide residents with both private and public outdoor space that may be used for social, recreational, aesthetic, and economic purposes.

   a. *Proportion of Private and Common Open Space.* Open space may be provided in any combination of private and common open space, as long as studio and one (1) bedroom units have at least 60 square feet of private open space, two (2) bedroom units have at least 100 square feet of private open space and three (3) bedroom or more have at least 120 square feet of private open space.

   b. *Surfacing.* Surfaces provided for outdoor activities shall allow convenient use for outdoor activities. Such surface may be any combination of lawn, garden, brick, flagstone, wood planking, concrete, or other serviceable, dust-free surface.

   c. *Slope.* The slope of required open space areas shall not exceed 10%.

   d. *Exclusive Dedication.* Off-street parking and loading areas, driveways, and service areas shall not be counted as usable open space.

7. ***Additional Standards for Private Open Space.***

a. *Accessibility and Location.* Private open space shall be accessible to only one (1) living unit by a doorway to a habitable room or hallway. Multiple spaces may be provided for individual living units to meet the aggregate open space requirement, provided at least one (1) private open space meets the minimum dimensions below:

i. Private open space located at the ground level (e.g., yards, decks, patios) shall have no dimension less than 10 feet.

ii. Above-ground private open space (e.g., balconies) shall be a minimum of 60 square feet and shall not be less than eight (8) feet wide or less than six (6) feet deep.

b. *Openness.* Open space shall be at least 50% covered and shall have at least one (1) exterior side that is open and unobstructed between three (3) and eight (8) feet above its floor level.

8. ***Additional Standards for Common Open Space.***

a. *Accessibility.* Common open space shall be located no more than 400 feet from the main entrance of any dwelling unit it is intended to serve, as measured along accessible pedestrian routes.

b. *Location.* Common open space shall be located within the same development as the units served. It may not be located within the required front or street-facing side setback. Up to 20% of common open space may be located on the roof of a building.

c. *Minimum Dimensions.* Common open space shall have no dimension less than 15 feet.

d. *Openness.* Common open space shall be unroofed and unobstructed, except for facilities that enhance its usability, such as armadas or playground shade structures, and except that up to 25% of ground-level common open space may be covered by a balcony projecting from a higher story.

e. *Amenities.* Common open space shall include amenities for the everyday use and enjoyment of residents of the development.

i. *Amenities Required.* Multiple Residence and Single Residence-attached developments containing five (5) or more dwelling units shall provide amenities from Table 11-5-5.B.2 to meet the minimum point value specified in Table 11-5-5.B.1, unless an alternative amenity is approved in accordance with Subsection (iii) below.

Table 11-5-5.B.1: Multiple Residence and Single Residence-Attached Amenity Minimums

Number of Dwelling Units	Minimum Points Required
5—19 dwelling units	1
20—50 dwelling units	2
51—100 dwelling units	3
101—150 dwelling units	4
151—250 dwelling units	5
>250 dwelling units	6

ii. *Amenity Types.* Table 11-5-5.B.2 below lists amenity types, the minimum standard (where applicable), and the point value. A proposed amenity may be counted only once toward the required minimum point total, except that regulation-sized sports courts of different types may each be counted separately.

Table 11-5-5.B.2: Amenity Types

Amenity Type	Minimum Standard	Points
Fenced dog park/pet run area	500—1,000 sq. ft.	1
	>1,000 sq. ft	2
Ramada with barbeque and seating area	Min. 200 sq. ft.	1
Putting green		1
Fire pit with seating area		1
Regulation-size sports court (e.g., tennis court, racquetball court, pickleball court, basketball court, etc.)	Regulation size	2
Jacuzzi	Min. 6-person capacity	2
Covered pavilion with seating area	Min. 600 sq. ft.	2
Community garden	Min. 25 ft. in any direction	2
Swimming pool	500—1,000 sq. ft.	2
	>1,000 sq. ft.	3
Outdoor fitness area	Min. 3 stations	2
Tot lot	1,000—2,500 sq. ft., 2 distinct play features	2
	>2,500 sq. ft., 3 distinct play features	3
Rooftop deck/terrace with seating and weather protection	Min. 1,500 sq. ft.	3
Indoor recreational facility (e.g., fitness center, game room, movie theater, etc.)	Min. 1,500 sq. ft.	3

iii. *Alternative Amenities.* Additional amenities not listed above may be approved by the Planning Director. Upon approval, the Planning Director shall assign a point value based on the amenity's comparability in function, scale, and resident benefit to those listed in Table 11-5-5.B.2.

9. ***Encroachments.*** To facilitate the use of architectural features, building projections may extend into required setbacks, subject to the following standards:

a. Entry porches, balconies and patios may encroach no more than 10 feet into a required street side setback, 20 feet or greater in depth (measured from property line to building).

b. No projection may extend into a public utility easement or closer than two (2) feet to an interior lot line.

c. Awnings, eaves, overhangs, or basement window wells may encroach up to three (3) feet into any required setback.

d. Vestibules, bay windows, nooks, chimneys, or similar wall projections with or without footings may encroach no more than three (3) feet into any required front or rear setback and no more than two (2) feet into any required side setback, provided the aggregate width of all such projections does not exceed one-third (⅓) of the length of the building wall.

e. Staircases may encroach up to three (3) feet into any required front setback, and up to 10 feet into any required rear setback.

(Ord. No. 5541, § 2, 12-9-19; Ord. No. 5593, § 5, 12-1-20; Res. No. 12269, § 3, 9-23-24; Ord. No. 5883, § 3, 10-7-24; Ord. No. 5928, §§ 1, 2, 2-3-25; Ord. No. 5996, § 1, 3-9-26)

11-5-6: SITE PLANNING AND DESIGN STANDARDS FOR THE RM DISTRICTS

A. **Character and Image.**

1. ***Entryway Monumentation Feature.*** Provide at least one (1) entryway monumentation feature at the primary entryway into a development. The primary entryway shall be the entrance accessing the street with the highest functional classification. Where multiple entrances access streets of the same highest functional classification, the Planning Director shall determine which entrance shall be the primary entryway for the purposes of this section. The entryway monumentation feature shall include at least three (3) of the following:

   a. Monument signage.

   b. Specialty pavement delineating the primary entryway, such as stamped asphalt, brick, stone, pavers, or colored concrete. Specialty pavement within the public right-of-way shall be approved by the City Transportation Department.

   c. Enhanced perimeter wall details, such as but not limited to, decorative panels, lighting, architectural tower or arch feature, or a decorative gate.

   d. Enhanced landscape treatment with a defined landscaped area of at least 200 square feet that includes a minimum of three (3) trees with a minimum 36-inch box size and decorative shrubs, perennials, ornamental grasses, or specimen plants. At least 60% of this landscaped area must contain live plant material.

   e. Public art elements, such as but not limited to, a sculptural features or thematic elements that reflect neighborhood history, culture, or surrounding natural features.

   f. Landscaped median or entry island.

   g. Monument or gateway lighting features, such as but not limited to, uplighting, halo lighting, illuminated columns.

   h. Neighborhood identity markers, such as but not limited to, branded poles, pylons, or similar vertical elements.

   i. Decorative landscape wall or seat wall integrated with planting, in lieu of a perimeter wall.

   j. Water feature.

   k. Additional entryway monumentation feature approved by the Planning Director.

2. ***Architectural Variation.*** Where adjacent to existing multiple residence dwellings, unique massing and architectural design shall be provided to avoid the appearance of large contiguous developments.

B. **Massing and Scale.** Buildings shall contain varied massing and architectural elements and techniques shall be utilized to reduce the apparent massing and scale of buildings, provide shading, and define different uses and activities in the building.

1. ***Façade Articulation.*** Exterior building walls shall be subdivided and proportioned to human scale, using projections, overhangs and recesses in order to add architectural interest and variety and to avoid long, uninterrupted wall planes.

a. *Publicly Visible Façades.* All street-facing and publicly visible façades shall have at least one (1) horizontal projection or recess of at least four (4) feet in depth, or two (2) projections or recesses of at least 2.5 feet in depth, for every 25 horizontal feet of wall.

b. *Two or More Story Buildings.* If located on a building with two (2) or more stories, the articulated elements must be greater than one (1) story in height and may be grouped rather than evenly spaced in 25-foot modules so long as the total amount of articulation meets or exceeds that which would be required if no grouping occurred.

c. Building entrances, front porches, and projections such as stoops, bays, overhangs, fireplaces, and trellises count towards this requirement.

2. ***Varied Roof Form.*** Roof forms shall be integrated into the building design and varied within a development through the use of offsets; changes in slope, angle, or direction; and elements such as dormers, towers, or parapets.

3. ***Roof Articulation.*** Roof articulation is required to provide architectural interest at the skyline and accentuate appropriate building elements.

a. No more than two (2) side-by-side units may be covered by one (1) unarticulated roof.

b. Flat roofs in excess of 100 feet shall provide vertical modulation of two (2) or one-tenth ($^1/_{10}$) of the wall height, whichever is greater.

4. ***Balconies, Bay Windows, and Other Projections or Recesses.*** Buildings shall incorporate balconies, bay windows, entry porches or other projections and recesses across 30% of the length per floor of the façade.

a. *Windows.* Windows shall either:

i. Contain window trim on at least two (2) sides of all windows that is at least two (2) inches in depth; or

ii. Be recessed at least four (4) inches from the outside plane of the surrounding exterior wall.

b. *Balconies.* Balconies shall be at least four (4) feet wide and three (3) feet deep if not used to meet private open space requirements.

5. ***Façade Detailing and Materials.*** Each side of a building that is visible from a public right-of-way, private street, parking lot, or common open space shall be designed with a complementary level of detailing and quality of materials.

C. **Materials.** Buildings and structures shall be constructed of durable, high-quality materials appropriate for the Arizona climate

1. ***Primary Exterior Building Materials.***

a. Primary exterior building materials are brick, stone, integrally tinted and textured masonry block, precast concrete, siding, synthetic wood, natural and synthetic stone, stucco and synthetic stucco, or other material approved by the Planning Director.

b. Variations in the color, finish, or texture of a material (e.g., form-board concrete, smooth stucco vs sand stucco, etc.) shall not be considered separate or distinct materials for the purpose of meeting the material requirements of this section.

c. Glazing may be considered as a primary exterior building material only when it is installed as an architectural glazing system (e.g., curtainwall, structural glass wall) and comprises more than 30% of an individual building façade. Standard window systems, storefront glazing, and other non-architectural fenestration shall not qualify as a primary exterior building material for the purposes of this requirement.

2. ***Minimum Use of Primary Materials.***

a. Each building façade shall incorporate at least two (2) different primary exterior materials.

b. Primary exterior materials shall cover no less than 75% of each building façade.

c. Each primary building material used to satisfy Subsection (2)(a) above shall cover at least 25% of that façade.

d. *Primary Material Calculation.*

i. Primary building material coverage shall be calculated by measuring the area of each façade, excluding non-architectural fenestration, storefront systems, pedestrian and vehicular openings, mechanical equipment, and signage.

ii. The percentage of each primary building material shall be calculated by dividing the area covered by that material by the resulting façade area.

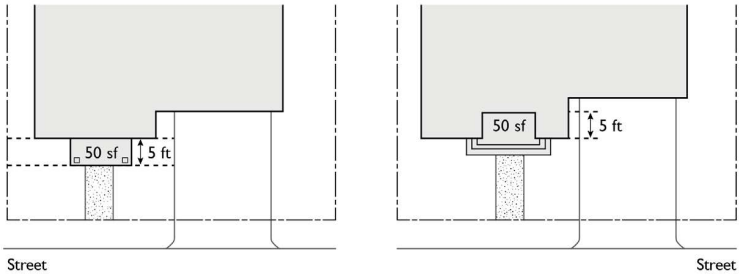
3. ***Architectural Metals.*** Architectural metals, such as bronze, brass, copper, aluminum, metal-composite material (MCM), and steel shall not cover more than 25% of a building façade.

4. ***Change in Materials.***

a. Where material changes are horizontal (i.e., different materials side by side) the transition between materials shall occur at a change in wall plane, preferably at inside corners or where architectural elements intersect (e.g., pilasters, bays, projections), and shall not occur mid-field on a flat wall surface.

b. Where material changes are vertical (i.e., different materials stacked one above another), the transition between materials shall include a belt course, trim band, sill, cap, frame, or similar element to separate the two (2) materials.

D. **Building Entrances.** Primary building entrances shall be clearly defined, shaded, and inviting. The architectural details of building entrances shall be integrated with the overall building design in terms of materials, scale, proportion, and design elements and are appropriately scaled for people.



1. ***Dwelling Unit Access.***

a. *Ground Floor Access.* Exterior entrances to units shall be in the form of individual or shared entrances at the ground floor of the building.

b. *Upper Story Access.* Individual entrances for units above the ground floor shall be provided via an interior corridor.

2. ***Orientation.*** All units located along public rights-of-way shall have the primary entrance to the building, or individual unit entrances, facing this right-of-way. Exceptions to this requirement may be approved for projects where multiple-residence housing is located on four (4) or six (6) lane streets carrying high traffic volumes. In such cases, the project may be oriented around courtyards or open space.

3. ***Projection or Recess.*** Building entrances and individual exterior unit entrances shall have a roofed projection (such as a porch) or recess with a minimum depth of at least five (5) feet and minimum horizontal area of 50 square feet.

Required minimum roof projection or recess of 5 feet and horizontal area of 50 square feet at building entrances.

FIGURE 11-5-6.D(1): BUILDING ENTRANCE PROJECTION OR RECESS

E. **Access, Circulation, and Parking.** The parking and circulation system within each development shall accommodate the movement of vehicles, bicycles, pedestrians and transit, throughout the proposed development and to and from surrounding areas, safely and conveniently, and shall contribute to the attractiveness of the development.

1. ***Directness and Continuity.*** Walkways within the site shall be located and aligned to provide continuous connection between buildings, and various site amenities such as play areas, club houses, pools, mailboxes, etc. Walkways shall not be located and aligned solely based on the outline of a parking lot configuration that does not provide such direct pedestrian access.

2. ***Off-site Access.***

   a. Walkways shall provide direct connections to trails, parks, schools, transit stops or other public amenities adjacent to the development.

   b. Drive aisles leading to main entrances shall have walkways on both sides of the drive aisle.

3. ***Parking Area Design.***

   a. Parking areas shall be located to the side or rear of buildings, except visitor parking may be located between a building and the adjacent street.

   b. The total frontage of parking areas visible from the street, including visitor parking, shall not exceed 30% of the lot frontage.

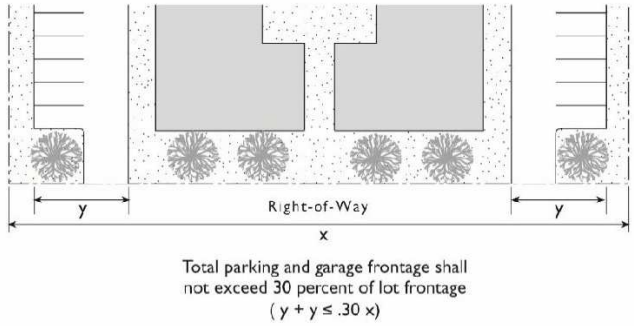


FIGURE 11-5-6.E(1): PARKING AND GARAGE FRONTAGE LIMITATION

4. ***Location of Parking Spaces.***

   a. *Tenant Parking.* Required parking spaces shall be arranged to provide at least one (1) parking space per unit within 200 feet of the dwelling units they are intended to serve.

   b. *Guest Parking.* Guest parking spaces shall be distributed proportionally to the dwelling unit locations that they are intended to serve.

5. ***Attached Garages.***

   a. In one (1) story buildings that include livable floor area, walls containing garage doors shall be set back a minimum of three (3) feet from the front façade of the building.

   b. In multi-story buildings that include livable floor area, garage doors located below upper-story living space shall be recessed at least three (3) feet from the upper story facade.

   c. When multiple garage doors are located within one (1) building, the maximum number of garage doors adjacent to one another shall be limited to three (3), unless there is a break in the building façade between garage doors consisting of a projected building entrance or a recess at least six (6) feet wide and three (3) feet deep.

6. ***Detached Garages.***

   a. Detached garages shall use exterior materials, colors, roof forms, roof materials, and architectural details that are the same as the principal buildings on the lot or within the development.

   b. Perimeter garages that face public right-of-way or private property shall be designed in accordance with Subsections B and C above.

(Ord. No. 5996, § 1, 3-9-26)

Editor's note—Ord. No. 5996, § 1, adopted March 9, 2026, repealed the former § 11-5-6, and enacted a new § 11-5-6 as set out herein. The former § 11-5-6 pertained to site planning and design standards for the RM districts and derived from Ord. No. 5541, § 2, 12-9-19; Ord. No. 5928, §§ 3, 4, 2-3-25.

11-5-7: ALTERNATIVE COMPLIANCE

A. **Purpose and Applicability.**

1. ***Purpose.*** Alternative Compliance may be used to satisfy the Site Planning and Design Standards in Section 11-5-4 and Section 11-5-6 when conditions may exist where strict compliance is impractical or impossible, or when alternative approaches achieve equivalent or superior design outcomes through innovative site planning, architectural solutions, or other means.

2. ***Applicability.*** Alternative Compliance may be requested for any application subject to the Site Planning and Design Standards of Section 11-5-4 and Section 11-5-6. It may not be used to alter development standards or requirements of other sections of this Zoning Ordinance, and it shall not result in an increase in intensity or lot coverage.

B. **Application.** Requests for Alternative Compliance may be accepted for any application to which Site Planning and Design Standards apply. A written request must be provided in conjunction with the applicable land use application describing the following:

1. The code section(s) and development standard(s) for which Alternative Compliance is being requested;

2. The proposed alternative or offset(s), including any numeric modification(s) from the development standard;

3. An explanation on how the proposal meets the intent of the applicable development standard(s), the applicable General Plan Placetype, and any other applicable Sub-area Plan;

4. An explanation on how the alternative is equivalent or superior to the required development standard, or how the proposed offset(s) produce superior design; and

5. A statement of how the proposal meets the approval criteria in Subsection C below.

C. **Approval Criteria.** The review authority may approve Alternative Compliance only upon finding that the request meets all of the following:

1. The alternative does not create adverse impacts on safety, access, visibility, glare, privacy, noise, drainage, heat island effect, and does not reduce pedestrian comfort or accessibility.

2. The proposed alternative or tradeoff is the minimum necessary to achieve the intent while maintaining overall compliance with all other applicable standards.

3. The proposal either:

   a. Provides equivalent or superior quality and functionality; or

   b. Provides offsetting public benefits (e.g., improved streetscape, enhanced shade/canopy, open space, sustainability features).

(Ord. No. 5996, § 1, 3-9-26)

11-5-8: RESERVED

Editor's note—Ord. No. 5996, § 1, adopted March 9, 2026, repealed § 11-5-8, which pertained to comprehensive youth residence and derived from Ord. No. 5541, § 2, 12-9-19.

11-5-9: RESERVED

Editor's note—Ord. No. 5996, § 2, adopted March 9, 2026, repealed § 11-5-9, which pertained to review of plans and derived from Ord. No. 5541, § 2, 12-9-19.

CHAPTER 6 COMMERCIAL AND MIXED-USE DISTRICTS*

11-6-1: PURPOSE

A. **General Purposes of Commercial and Mixed-Use Districts.** The purposes of the Commercial and Mixed-Use Districts are to:

1. Provide for the orderly, well-planned, and balanced growth of commercial areas.

2. Plan for and allow office and commercial development to expand the variety of goods and services to meet the needs of Mesa residents and those living within Mesa's market area.

3. Allow mixed-use commercial/residential development, where consistent with the General Plan, to promote less reliance on automobiles for mobility and result in a reduction in vehicle miles traveled.

4. Establish development standards that improve the visual quality of commercial and mixed-use development and create a unified, distinctive, and attractive character along commercial streets.

5. Contribute to the pedestrian environment with standards that promote ground-floor visibility, orientation of buildings to the street, shaded connectivity, opportunities for community interaction, and pedestrian access across parking lots and between commercial centers and adjacent land uses.

6. Integrate new development into existing or planned context, as appropriate, address transitions, and provide appropriate buffers between commercial and residential uses.

7. Encourage improvements, such as architectural features and landscaping to mitigate air and storm water pollution and reduce the effects of the urban heat island.

***Editor's note—**Ord. No. 5996, § 1, adopted March 9, 2026, repealed the former Ch. 6, §§ 11-6-1—11-6-6, and enacted a new Ch. 6 as set out herein. The former Ch. 6 pertained to similar subject matter. See Code Comparative Table for complete history.

8. Encourage commercial and mixed-use developments to include improvements, such as landscaping, to mitigate air and storm water pollution, to provide shade to reduce the effects of the urban heat island, and to consider solar orientation to take full advantage of sun angles and reduce potential energy consumption.

B. **Specific Purposes of Each District.**

1. ***Neighborhood Commercial (NC).*** To provide areas for locally oriented retail and service uses that serve the surrounding residential trade area within a ½ to two (2) mile radius. Typical uses include, but are not limited to retail stores, grocery stores and anchored shopping centers, drug stores, restaurants and cafes, gas stations, and convenience stores. Other compatible uses include small-scale medical and professional offices, personal services, as well as public and semi-public uses. Large commercial development buildings are not appropriate in the Neighborhood Commercial District.

2. ***Limited Commercial (LC).*** To provide areas for indoor retail, entertainment, and service-oriented businesses that serve the surrounding residential trade area within a one (1) to 10-mile radius. Typical uses include, but are not limited to, grocery stores and additional large commercial developments, anchored tenant shopping centers with additional drug stores, fast-food restaurants, hardware and building supply stores, gas stations with convenience stores, and restaurants and cafes. Other typical uses include, but are not limited to, those anchors and large commercial developments that are typically located within a regional mall, retail outlet, or power center. Other compatible uses include medical and professional offices, as well as public and semi-public uses.

3. ***General Commercial (GC).*** To provide indoor retail, limited outdoor display and related service-oriented businesses that serve a large surrounding residential trade area within a four (4) to five (5) mile radius. This district accommodates a wide range of commercial uses, such as lodging, restaurants, convenience services, entertainment uses, offices, and public and semi-public uses. The district also accommodates low intensity employment uses such as light assembly, custom manufacturing, mini-storage, and research and development.

4. ***Office Commercial (OC).*** To provide areas for small-scale medical and professional offices intended to serve the community and remain compatible with adjacent residential areas.

5. ***Mixed-Use (MX).*** To provide areas for a variety of purposes including employment centers, retail and service commercial uses, medical and professional offices, and residential uses at densities of 15 to 25 units per acre. Residential densities in excess of 25 dwelling units per acre may be appropriate in selected locations.

(Ord. No. 5996, § 1, 3-9-26)

11-6-2: LAND USE REGULATIONS

In Table 11-6-2, which follows, the land use regulations for each Commercial and Mixed-Use zoning district are established by letter designations as follows:

- "P" designates use classifications permitted in Commercial Districts.
- "SUP" designates use classifications permitted on approval of a Special Use Permit.

- "CUP" designates use classifications permitted on approval of a Council Use Permit.
- "TUP" designates use classifications permitted on approval of a Temporary Use Permit.
- "(x)" a number in parentheses refers to limitation following the table.
- "—" designates a prohibited use.

All activities shall be conducted entirely within an enclosed building with no outside storage or display, unless otherwise specified. Use classifications not listed are prohibited. The "Additional Use Regulations" column includes specific limitations applicable to the use classification or refers to regulations located elsewhere in this Ordinance.

Notes:

1. Refer to Section 11-31-36(C)(2) for conditions under which a Data Center may qualify as an accessory use.
2. Permitted if occupying less than 5,000 square feet; greater floor area requires approval of an SUP.
3. A CUP is required for plasma centers and substance abuse detoxification and treatment centers; other Clinics are permitted by right.
4. Must be confined to completely enclosed, sound-attenuated facilities.
5. Permitted if located within an office building or other commercial building and occupying no more than 1,500 square feet.
6. Permitted if floor area is no more than 5,000 square feet. Special Use Permit required if floor area is greater than 5,000 square feet.
7. All activities must be conducted entirely within an enclosed building, with no outside storage or display.
8. No individual retail store may exceed an area of 10,000 square feet. No group commercial development shall exceed an aggregate area of 50,000 square feet.
9. May not include Drive-Thru Facilities or Pick-Up Window Facilities.
10. Must be at least 1,200 feet from any use in the same classification, and at least 1,200 feet from any school.
11. Accessory Outdoor Retail Display, limited to display of landscape and building materials only, requires approval of an SUP.
12. SUP is required only if accessory fuel sales are present, otherwise use permitted by right.
13. Accessory fuel sales are not permitted in OC or MX Districts.
14. Maximum size for one store is 10,000 square feet.
15. Refer to Section 11-31-37(B)(2) for conditions under which a BESS may qualify as an accessory use.
16. Attached Single Residences shall have a minimum density of 15 dwelling units per acre in MX zones.
17. Use permitted with approval of an Adaptive Reuse Permit.
18. Accessory crematories allowed in the LC District with approval of a SUP; accessory crematories not permitted in the MX District.
19. Use not permitted when the property is subject to the AOA 1 Overflight Area, see Section 11-19-2, Runway Protection Zones and Airport Overflight Areas.
20. Use not permitted when the property is subject to the AOA 2 Overflight Area, see Section 11-19-2, Runway Protection Zones and Airport Overflight Areas.
21. Use permitted with approval of a CUP when the property is subject to the AOA 1 Overflight Area. See Section 11-19-2, Runway Protection Zones and Airport Overflight Areas.
22. Use permitted with the approval of a CUP when the property is subject to the AOA 2 Overflight Area, See Section 11-19-2, Runway Protection Zones and Airport Overflight Areas.
23. Home Occupations permitted as ancillary activity where and when a residence use is authorized.
24. Heliports in Commercial Districts shall be set a minimum of 2 full stories above the natural grade, unless associated with a hospital.
25. Subject to approval by the City Council and the State Racing Commission of a Tele-track Betting Establishment Permit per AAC R19-2-401 and following.
26. Permitted only when accessory to an Eating or Drinking Establishment.
27. Permitted only if all activities pertaining to the manufacturing or processing of the products are conducted entirely within an enclosed building. Accessory Outdoor Storage permitted only if confined to the rear one-half of the lot.
28. Temporary use of Portable Storage Containers during construction is permitted in accordance with Section 11-30-16.

Table 11-6-2: Commercial Districts						
Proposed Use	**NC**	**LC**	**GC**	**OC**	**MX**	**Additional Use Regulations**
29. Temporary or periodic commercial storage is permitted with a SUP in accordance with Section 11-30-16.						
30. Permitted if an existing non-conforming residential use is located on the lot.						
31. All loading and unloading of goods whether for delivery, storage, sale or otherwise shall occur within truck dock, loading, and service areas.						

(Ord. No. 5996, § 1, 3-9-26)

11-6-3: DEVELOPMENT STANDARDS FOR THE COMMERCIAL AND MIXED-USE DISTRICTS

A. **Zoning District Standards.** Table 11-6-3(A) prescribes the development standards for the commercial districts. The "Additional Standards" column lists additional standards that apply in some or all commercial districts. Section numbers in this column refer to other sections of the Zoning Ordinance, while individual letters refer to subsections that directly follow the table.

Table 11-6-3.A: Development Standards - Commercial Districts						
Standard	**NC**	**LC**	**GC**	**OC**	**MX**	**Additional Standards**
Lot and Density Standards						
Minimum Lot Area (sq. ft.)	5,000	10,000	5,000	10,000	5,000	
Minimum Lot Width (ft.)	50	100	50	100	50	
Minimum Lot Depth (ft.)	100	100	100	100	100	
Maximum Lot Coverage (% of lot)	80%	80%	80%	80%	80%	
Building Form and Location						
Maximum Height (ft.)	30	30	30	30	30	
Minimum Setback Along Property Lines or Building and Parking Areas (ft.)						
Front and Street-Facing Side:	Varies by street classification identified in the Mesa Transportation Plan: Arterial Street: 15 ft. Collector Street: 15 ft. Local Street: 20 ft. Freeways: 30 ft. for buildings; 15 ft. for parking structures/fields					Setbacks shall be landscaped according to Ch. 33, Landscaping.

(Ord. No. 5996, § 1, 3-9-26)

11-6-4: SITE PLANNING AND DESIGN STANDARDS FOR THE COMMERCIAL AND MIXED-USE DISTRICTS

A. **Character and Image.**

1. ***Shared Characteristics.***

a. In multiple building developments, each individual building shall include predominant characteristics shared by each building so that the buildings within the development appear to be part of a cohesive, planned area, yet are not monotonous in design.

b. Compatibility shall be achieved through techniques such as, the replication of roof lines, the use of similar proportions in building mass and outdoor spaces, similar relationships to the street, similar window and door patterns, or the use of building materials that have color shades and textures that are similar to or complimentary to those existing on, or in the immediate area of, the subject property.

2. ***No Established Theme or Stand-alone Development.*** Where there is no established or consistent neighborhood or area character or unifying theme, or where the existing character is not desirable to continue, because it does not reflect a design theme consistent with the development standards as described in this Chapter, the proposed development shall be designed to establish character and a sense of place through the strategic use of architectural elements, building form, materials, landscaping, lighting, etc. which creates a cohesive theme or style for future developments and buildings within the area to follow.

3. ***Corporate Architecture.*** Where the proposed architecture of a building or structure is the result of a franchise style, prototypical or franchise architectural design, including materials and color, shall be modified if necessary to meet these development standards and set a standard, or contribute to a high-level of quality for future developments and buildings within the area.

4. ***Pad Developments.*** Freestanding pad development site design shall be complementary to the surrounding center in terms of building scale, materials, colors, and other architectural details.

B. **Massing and Scale.** The design of buildings shall avoid the appearance of a single, large, dominant building mass by using design techniques that include stepping back portions of the building facade, breaking up the mass into smaller elements and/or using material changes.

1. ***Wall Articulation.*** Exterior building walls shall be subdivided and proportioned to human scale, using projections, overhangs and recesses in order to add architectural interest and variety and to avoid long interrupted wall planes.

a. *Publicly Visible Façades.* Street-facing and other publicly visible façades (including those visible from parking lots, open space, or adjoining private properties), shall provide articulation for every 50 linear feet of wall length as follows:

i. One (1) horizontal projection or recess of at least four (4) feet in depth; or

ii. Two (2) horizontal projections or recesses, at least 2.5 feet in depth each.

b. *Non-publicly Visible Façades.* Side or rear façades that are not publicly visible shall provide articulation for every 50 linear feet of wall length by any combination of the following:

i. One (1) horizontal projection or recess of at least four (4) feet in depth, or two (2) horizontal projections or recesses, at least 2.5 feet in depth each;

ii. Change in color accompanied by a distinct change in texture, pattern, or coursing;

iii. Windows or fenestration (false windows and door openings) defined by frames, sills, or lintels;

iv. Trellises with climbing plants; or

v. Projecting fins or louvres extending at least six (6) inches from the wall plane.

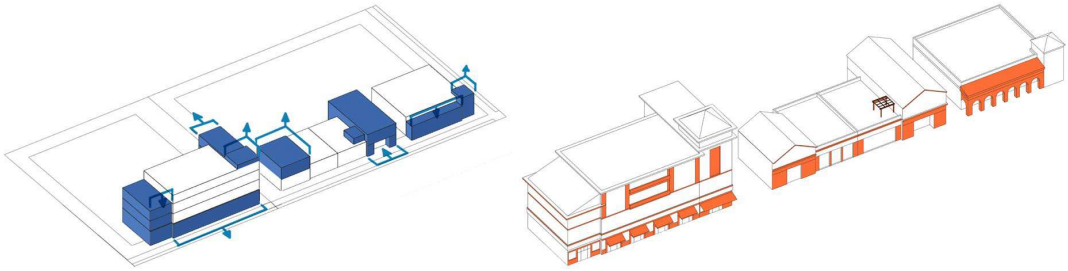
c. *Building Projections into Setbacks.* Appropriate separation shall be maintained between buildings on adjacent properties to allow for light, air, and circulation while recognizing the need to allow minor projections that improve the effectiveness of environmental or aesthetic features.

i. Awnings, eaves, overhangs, and light shelves may encroach up to three (3) feet into any required yard but shall not be closer than two (2) feet to any property line.

ii. Building projections shall be no closer than 15 feet to any property line adjacent to sites located in the RS and RSL Districts.

2. ***Roof Articulation.*** Roof articulation is required to provide architectural interest at the skyline and accentuate appropriate building elements.

a. *Varied Roof Form or Height.* Roof forms shall be integrated into the building design and vary over different parts of the building. Each building shall provide at least two (2) changes in height or roof form, achieved through changes in pitch, plane, and orientation.



b. *Flat Roofs.* Flat roofs or façades with a horizontal eave, fascia, or parapet, in excess of one hundred feet in length, shall provide vertical modulation that is the greater of either:

i. Two (2) feet; or

ii. One-tenth (1/10) the height of the supporting wall height, not to exceed one-third (⅓) of the wall height.

c. *Parapet Detailing.* All parapets must have detailing such as cornices, moldings, trim, or variations in brick coursing.

d. *Height Transitions in Multi-Building Developments.* Multiple building developments shall be configured to locate the tallest and largest structures within the core of the site and provide a gradual decrease in building height and mass towards adjacent residential land uses.

Building form and facades shall provide visual variety and relief to avoid a large-scale, bulky or box-like appearance.

FIGURE 11-6-4.B(1): MASSING & SCALE

C. **Materials.** Buildings and structures shall be constructed of durable, high-quality materials appropriate for Mesa's climate.

1. ***Primary Exterior Building Materials.***

a. Primary exterior building materials are brick, stone, integrally tinted and textured masonry block, precast concrete, synthetic wood, natural and synthetic stone, stucco and synthetic stucco, or other material approved by the Planning Director.

b. Variations in the color, finish, or texture of a material (e.g. form-board concrete, smooth stucco vs sand stucco, etc.) shall not be considered separate or different materials for the purpose of meeting the material requirements of this section.

c. Glazing may be considered a primary exterior building material only when it is installed as an architectural glazing system (e.g., curtainwall, structural glass wall) and comprises more than 30% of an individual building façade. Standard window systems, storefront glazing, and other non-architectural fenestration shall not qualify as a primary building material for the purposes of this requirement.

2. ***Minimum Use of Primary Materials.***

a. *Publicly Visible Façades.*

i. Each publicly visible building façade (including those visible from parking lots, open space, or adjoining private properties) shall incorporate at least two (2) different primary building materials.

ii. Primary exterior materials shall cover no less than 75% of each building façade.

iii. Each primary building material used to satisfy Subsection (2)(a)(i) above shall cover at least 25% of that façade.

b. *Non-publicly Visible Façades.* Side or rear façades that are not publicly visible shall incorporate a primary building material(s) on at least 50% of the façade.

c. *Primary Material Calculation.* Primary building material coverage shall be calculated by measuring the area of each façade, excluding non-architectural fenestration, storefront systems, pedestrian and vehicular openings, mechanical equipment, and signage. The percentage of each primary building material shall be calculated by dividing the area covered by that material by the resulting façade area.

3. ***Architectural Metals.*** Architectural metals, such as bronze, brass, copper, aluminum, metal-composite material (MCM), and steel shall not cover more than 25% of a building façade. Pre-engineered metal buildings are not allowed in the commercial and mixed-use districts.

4. ***Change in Materials.***

a. Where material changes are horizontal (i.e., different materials side by side) the transition between materials shall occur at a change in wall plane, preferably at inside corners or where architectural elements intersect (e.g., pilasters, bays, projections), and shall not occur mid-field on a flat wall surface.

b. Where material changes are vertical (i.e., different materials stacked one above another), the transition between materials shall include a belt course, trim band, sill, cap, frame, or similar element to separate the two (2) materials.

5. ***Roof Materials.*** All visible pitched roofs shall consist of metal seam, clay tile, concrete tile, or a similar grade of roofing material.

D. **Base and Top Treatments.** All façades shall have:

1. A recognizable "base" consisting of (but not limited to):

a. Thicker walls, ledges or sills;

b. Integrally textured materials such as stone or other masonry;

c. Integrally colored and patterned materials such as smooth finished stone or tile; or

d. Lighter or darker colored materials, mullions or panels; or planters.

2. A recognizable "top" consisting of (but not limited to):

a. Cornice treatments, other than just colored "stripes" or "bands," with integrally textured materials such as stone or other masonry or differently colored materials;

b. Sloping roof with overhangs and brackets; or

c. Stepped parapets.

E. **All Sided Architecture.** Architectural detailing shall be applied to all sides of a building. While detailing may vary based on orientation and context; all façades visible from a street, parking lot, or open space shall incorporate a level of architectural quality, materials, articulation, and detailing equivalent to the primary façade.

F. **Colors.**

1. Buildings larger than 10,000 square feet shall use two (2) exterior colors on every façade that is publicly visible.

2. Predominant façade colors shall be low reflectance, subtle, neutral or earth tone colors.

3. The use of high-intensity colors as the predominant building color, such as black or fluorescent colors, are prohibited.

4. Building trim and accent areas may feature brighter colors. Accent colors shall cover no more than five percent (5%) of street-facing façades.

5. Changes in building color shall occur at the inside corners where wall planes change, or be separated by a façade element or architectural detail.

G. **Building Entrances.** Primary building entrances shall be clearly defined, shaded, and inviting. The architectural details of building entrances shall be integrated with the overall building design in terms of materials, scale, proportion, and design elements and are appropriately scaled for people.

1. ***Entry Definition.*** Entries shall have a roofed projection or recess with a minimum depth of five (5) feet and minimum horizontal area of 50 square feet.

2. ***Orientation.*** Primary entries shall face the street or primary pedestrian areas.

H. **Access, Circulation, and Parking.**

1. ***Parking Area Design.*** Parking areas shall be located to the side or rear of buildings; except for Large Commercial Developments which sure subject to the requirements of Section 11-31-16 of the Zoning Ordinance.

2. ***Location of Parking Spaces.*** In commercial and mixed-use projects, a minimum of 50% of the required parking spaces shall be located within 300 feet of the building served.

3. ***Screening of Parking Areas.*** Parking areas located between a building and street shall be screened with a 2.5- to 3.5-foot-high berm or screening wall.

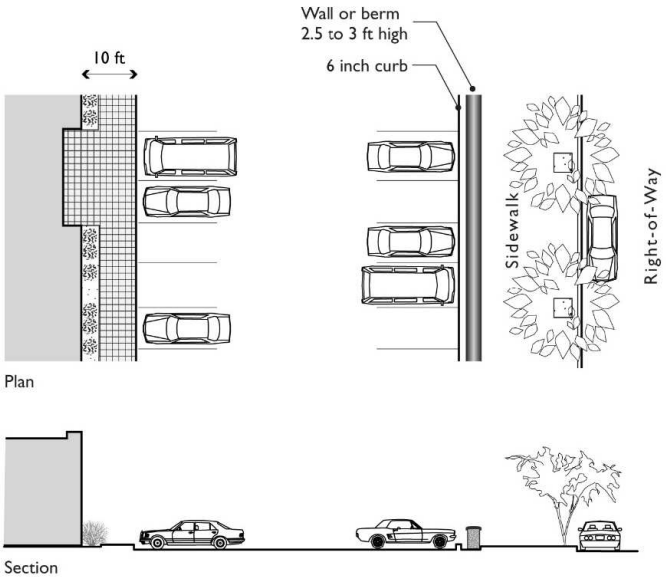


FIGURE 11-6-4.H(1): SCREENING OF PARKING AREA

(Ord. No. 5996, § 1, 3-9-26)

11-6-5: ALTERNATIVE COMPLIANCE

A. **Purpose and Applicability.**

1. ***Purpose.*** Alternative Compliance may be used to satisfy the Site Planning and Design Standards in Section 11-6-4 when conditions may exist where strict compliance is impractical or impossible or when alternative approaches achieve equivalent or superior design outcomes through innovative site planning, architectural solutions, or other means.

2. ***Applicability.*** Alternative Compliance may be requested for any application subject to the Site Planning and Design Standards of Section 11-6-4. It may not be used to alter development standards or requirements of other sections of this Zoning Ordinance, and it shall not result in an increase in intensity or lot coverage.

B. **Application.** Requests for Alternative Compliance may be accepted for any application to which Site Planning and Design Standards apply. A written request must be provided in conjunction with the applicable land use application describing the following:

1. The code section(s) and development standard(s) for which Alternative Compliance is being requested;

2. The proposed alternative or offset(s), including any numeric modification(s) from the development standard;

3. An explanation on how the proposal meets the intent of the applicable development standard(s), the applicable General Plan Placetype, and any other applicable Sub-area Plan;

4. An explanation on how the alternative is equivalent or superior to the required development standard, or how the proposed offset(s) produce superior design; and

5. A statement of how the proposal meets the approval criteria in Subsection C below.

C. **Approval Criteria.** The review authority may approve Alternative Compliance only upon finding that the request meets all of the following:

1. The alternative does not create adverse impacts on safety, access, visibility, glare, privacy, noise, drainage, heat island effect, and does not reduce pedestrian comfort or accessibility.

2. The proposed alternative or tradeoff is the minimum necessary to achieve the intent while maintaining overall compliance with all other applicable standards.

3. The proposal either:

a. Provides equivalent or superior quality and functionality; or

b. Provides offsetting public benefits (e.g., improved streetscape, enhanced shade/canopy, open space, sustainability features).

(Ord. No. 5996, § 1, 3-9-26)

CHAPTER 7 EMPLOYMENT DISTRICTS*

11-7-1: PURPOSE

A. **General Purpose of Employment Districts.** The purposes of the Employment Districts are to:

1. Designate land for industrial, office, and research and development uses to provide a range of employment opportunities in Mesa.

2. Provide for the appropriate location of businesses that may have the potential to generate off-site impacts, while providing compatibility in use and form.

3. Provide appropriate buffers between employment and residential uses to preserve both employment feasibility and residential quality.

4. Provide diverse options for types of employment-oriented areas, ranging from landscaped sites in campus-like settings, to mixed-use commercial and industrial areas, to industrial-only areas, to sites that are still well designed, but convey a minimalist or utilitarian approach, the entire range of which may contribute to providing the appropriate context for a successful business environment.

***Editor's note**—Ord. No. 5996, § 1, adopted March 9, 2026, repealed the former Ch. 7, §§ 11-7-1—11-7-4, and enacted a new Ch. 7 as set out herein. The former Ch. 7 pertained to similar subject matter. See Code Comparative Table for complete history.

B. **Specific Purposes of Each District.**

1. ***Planned Employment Park (PEP).*** To provide areas where professional and medical office parks, research and development facilities, and light manufacturing in a campus setting with ancillary restaurants, retail and other supportive establishments.

2. ***Light Industrial (LI).*** To provide areas for limited manufacturing and processing, wholesaling, research, warehousing, and distribution activities take place within enclosed buildings, with restricted accessory outdoor storage as needed to support the primary uses. Light Industrial areas can be used to buffer General Industrial uses from other less intense uses. This district also provides for a full range of commercial activities, generally on a limited scale, including high-impact commercial uses, outdoor display and outdoor sale. Individual developments include well-designed buildings on sites that may or may not have campus-like settings, and areas visible to the general public include well-designed landscape areas.

3. ***General Industrial (GI).*** To provide areas for manufacturing, processing, assembly, research, wholesale, and storage, and similar activities that require separation from residential uses due to noise, vibration, use of hazardous materials, or other characteristics. These activities principally take place indoors, but may also include some outdoor activities. This district also permits a full range of commercial activities.

4. ***Heavy Industrial (HI).*** To provide areas that are set aside principally for manufacturing, assembly, wholesaling, distribution and storage activities, with limited amounts of moderately scaled commercial activities provided only to the extent necessary to support industrial related activities. HI activities may take place indoors or outdoors. Land uses in this district include those activities that may adversely affect surrounding uses because of the aftereffects of the manufacturing, assembly and/or production process.

(Ord. No. 5996, § 1, 3-9-26)

11-7-2: LAND USE REGULATIONS

In Table 11-7-2, which follows, the land use regulations for each Employment Zoning District are established by letter designations as follows:

- "P" designates use classifications permitted.
- "TUP" designates use classifications permitted on approval of a Temporary Use Permit.
- "SUP" designates use classifications permitted on approval of a Special Use Permit.
- "CUP" designates use classifications permitted on approval of a Council Use Permit.
- "(x)" a number in parentheses refers to limitation following the table.

"SE" designates use classifications that are not allowed by right but are permitted if approved through a particular review procedure.

- "—" designates a prohibited use.

Use classifications not listed are prohibited. The "Additional Use Regulations" column includes specific limitations applicable to the use classification or refers to regulations located elsewhere in this Ordinance.

2. Permitted if floor area is no more than 10,000 square feet.					
3. Use permitted with approval of an Adaptive Reuse Permit.					
4. Permitted if all activities pertaining to the manufacturing or processing of the products are conducted entirely within an enclosed building, with no outside storage or display.					
5. Permitted only if all activities pertaining to the manufacturing or processing of the products are conducted entirely within an enclosed building. Accessory outdoor storage permitted only if confined to the rear one-half of the lot.					
6. Permitted if floor area is no more than 1,500 square feet. SUP required if greater than 1,500 square feet.					
7. Granting of a SUP is required if Accessory Fuel Sales are present.					
8. Permitted only if floor area is no more than 50,000 square feet.					
9. Permitted only in the rear half of a lot and if fully screened by a minimum 8-foot high masonry screen wall composed of masonry blocks utilizing varying colors and textures arranged in an attractive design.					
10. Use not permitted when the property is subject to the AOA 1 overflight area. See Section 11-19-2, Runway Protection Zones and Airport Overflight Area.					
11. Use not permitted when the property is subject to the AOA 2 overflight area. See Section 11-19-2, Runway Protection Zones and Airport Overflight Areas.					
12. Use permitted with the approval of a CUP when the property is subject to the AOA 1 overflight area. See Section 11-19-2, Runway Protection Zones and Airport Overflight Areas.					
13. Use permitted with the approval of a CUP when the property is subject to the AOA 2 overflight area. See Section 11-19-2, Runway Protection Zones and Airport Overflight Areas.					
14. Heliports in Employment Districts shall be set a minimum of 2 full stories above the natural grade, unless associated with a hospital.					
15. Subject to approval by the City Council and the State Racing Commission of a Tele-track Betting Establishment Permit per AAC R19-2-401 and following.					
16. Permitted only when accessory to an Eating or Drinking Establishment.					
17. Temporary or periodic use of portable storage containers is permitted with a SUP in accordance with Section 11-30-16.					
18. Permitted if an existing non-conforming residential use is located on the lot.					
19. May be permitted only if specifically authorized by City Council at the time of approval of a Planned Area Development Overlay (PAD) District.					
20. Refer to Section 11-31-36(C)(2) for conditions under which a Data Center may qualify as an accessory use.					
21. Refer to Section 11-31-37(B)(2) for conditions under which a BESS may qualify as an accessory use.					
22. All loading and unloading of goods whether for delivery, storage, sale or otherwise shall occur within truck docks, loading, and service areas.					

(Ord. No. 5996, § 1, 3-9-26)

11-7-3: DEVELOPMENT STANDARDS FOR THE EMPLOYMENT DISTRICTS

A. **Zoning District Standards.** Table 11-7-3 prescribes the development standards for the Employment Districts. The "Additional Standards" column lists additional standards that apply in some or all Employment Districts. Section numbers in this column refer to other sections of the Zoning Ordinance, while individual letters refer to subsections that directly follow the table.

Table 11-7-3: Development Standards - Employment Districts					
Standard	**PEP**	**LI**	**GI**	**HI**	**Additional Standards**
Lot and Density Standards					
Minimum Site Area (acre)	2.5	1.0	1.0	1.0	
Minimum Lot Width (ft.)	100	100	100	100	
Minimum Lot Depth (ft.)	100	100	100	100	
Maximum Lot Coverage (% of lot)	90%	90%	90%	90%	
Building Form and Location					
Maximum Height (ft.)	40	40	50	50	

Table 11-7-3: Development Standards - Employment Districts					
Standard	**PEP**	**LI**	**GI**	**HI**	**Additional Standards**
Minimum Setback (ft.)					
Front and Street-Facing Side	Varies by street classification identified in the Mesa Transportation Plan: Arterial Street: 15 ft. Collector Street: 20 ft. Local Street: 20 ft. Freeways: 30 ft. for buildings; 15 ft. for parking structures/fields				Setbacks shall be landscaped according to Ch. 33, Landscaping
Interior Side and Rear: Adjacent to AG, DR, RS, RSL or RM Districts	1 ft. of setback for each foot of building height with minimum 20 ft. setback.				
Interior Side and Rear: Adjacent to Employment Districts	15 ft.	15 ft.	15 ft.	15 ft.	
Minimum Separation between Buildings on Same Lot (ft.)					
Building height up to 20 ft.	25	N/A	N/A	N/A	
Building height between 20 and 40 ft.	30	N/A	N/A	N/A	
Building height over 40 ft.	35	N/A	N/A	N/A	

(Ord. No. 5996, § 1, 3-9-26)

11-7-4: SITE PLANNING AND DESIGN STANDARDS FOR THE EMPLOYMENT DISTRICTS

A. **Character and Image.**

1. ***Shared Characteristics.***

   a. In multiple building developments, each individual building shall include predominant characteristics shared by each building so that the buildings within the development appear to be part of a cohesive, planned area, yet are not monotonous in design.

   b. Compatibility shall be achieved through techniques such as, the replication of roof lines, the use of similar proportions in building mass and outdoor spaces, similar relationships to the street, similar window and door patterns, or the use of building materials that have color shades and textures that are similar to or complimentary to those existing on, or in the immediate area of, the subject property.

2. ***No Established Theme or Stand-alone Development.*** Where there is no established or consistent neighborhood or area character or unifying theme, or where the existing character is not desirable to continue, because it does not reflect a design theme consistent with the development standards as described in this Chapter, the proposed development shall be designed to establish character and a sense of place through the strategic use of architectural elements, building form, materials, landscaping, lighting etc. which creates a cohesive theme or style for future developments and buildings within the area to follow.

3. ***Corporate Architecture.*** Where the proposed architecture of a building or structure is the result of a franchise style, prototypical or franchise architectural design, including materials and color, shall be modified if necessary to meet these development standards and set a standard, or contribute to a high-level of quality for future developments and buildings within the area.

B. **Employee and Visitor Amenities.** Development within the Employment District shall provide common open space and amenities for the useful enjoyment of employees and visitors to the site. Common open space shall be located adjacent to buildings and be furnished with eating areas, site furniture (such as benches, tables, waste receptacles, planters), or other amenities.

1. Buildings 30,000 square feet or larger, shall provide common open space at a rate of 1% per building gross floor area (GFA). A collection of smaller buildings linked by common walls is considered one (1) building.

2. Multiple areas of common open space are encouraged; however, the minimum size of any one (1) common open space shall be 300 square feet with a minimum dimension of 15 feet in any direction.

3. At least 50% of common open space must be open to the sky.

4. At least 75% of the open space area must be landscaped and maintain live plant material if the area is not otherwise used as active recreation facilities.

C. **Massing and Scale.** Buildings shall contain varied massing and architectural elements and techniques shall be utilized to reduce the apparent massing and scale of buildings, provide shading, and define different uses and activities in the buildings.

1. ***Façade Articulation.*** Exterior building walls shall be subdivided and proportioned to human scale, using projections, overhangs and recesses in order to add architectural interest and variety and to avoid long, uninterrupted wall planes.

a. *Publicly Visible Façades.* Street-facing and publicly visible façades (viewed from right-of-way or private property), shall have at least one (1) horizontal projection or recess of at least four (4) feet in depth, or two (2) projections or recesses of at least 2.5 feet in depth, for every 50 horizontal feet of wall.

b. *Non-publicly Visible Façades.* For side or rear walls not publicly visible from right-of-way or private property, articulation may be provided by any combination of the following for every 50 horizontal feet of wall:

i. One (1) horizontal projection or recess of at least four (4) feet in depth, or two (2) projections or recesses of at least 2.5 feet in depth;

ii. Change in color accompanied by a distinct change in texture, pattern, or coursing;

iii. Windows or fenestration (false windows and door openings) defined by frames, sills, or lintels;

iv. Trellises with climbing plants; or

v. Projecting fins or louvres extending at least four (4) inches from the wall plane.

2. ***Building Projections into Setbacks.*** Appropriate separation shall be maintained between buildings on adjacent properties to allow for light, air, and circulation while recognizing the need to allow minor projections that improve the effectiveness of environmental or aesthetic features.

a. Awnings, eaves, overhangs, light shelves and basement window wells may encroach up to three (3) feet into any required setback, but shall not be closer than two (2) feet to any property line.

b. Building projections shall be no closer than 15 feet to any property line adjacent to sites located in the RS and RSL Districts.

3. ***Roof Articulation.*** Roof articulation is required to provide architectural interest at the skyline and accentuate appropriate building elements.

a. *Varied Roof Form or Height.* Roof forms shall be integrated into the building design and vary over different parts of the building. Each building shall provide at least two (2) changes in height or roof form, achieved through changes in pitch, plane, and orientation.

b. *Flat Roofs.* Flat roofs or façades with a horizontal eave, fascia, or parapet, in excess of 100 feet in length, shall provide vertical modulation that is the greater of either:

i. Two (2) feet; or

ii. One-tenth (1/10) the height of the supporting wall height, not to exceed one-third (⅓) of the wall height.

c. *Parapet Detailing.* All parapets must have details such as cornices, moldings, trim, or variations in brick coursing.

d. *Height Transitions in Multi-Building Developments.* Multiple building developments shall be configured to locate the tallest and largest structures within the core of the site and provide a gradual decrease in building height and mass towards adjacent residential land uses.

D. **Materials.** Buildings and structures shall be constructed of durable, high-quality materials appropriate for the Arizona climate.

1. ***Primary Exterior Building Materials.***

a. Primary exterior building materials are brick, stone, integrally tinted and textured masonry block, precast concrete, synthetic wood, natural and synthetic stone, stucco and synthetic stucco, or other material approved by the Planning Director.

b. Variations in the color, finish, or texture of a material (e.g. form-board concrete, smooth stucco vs sand stucco, etc.) shall not be considered separate or distinct materials for the purpose of meeting the material requirements of this section.

c. Glazing may be considered as a primary exterior building material only when it is installed as an architectural glazing system (e.g., curtainwall, structural glass wall) and comprises more than 30% of an individual building façade. Standard window systems, storefront glazing, and other non-architectural fenestration shall not qualify as a primary building material for the purposes of this requirement.

2. ***Minimum Use of Primary Materials.***

a. *Publicly Visible Façades.*

i. Each publicly visible building façades shall incorporate at least two (2) different primary exterior building materials.

ii. Primary exterior materials shall cover no less than 75% of each building façade.

iii. Each primary building material used to satisfy Subsection (2)(a)(i) above shall cover at least 25% of that façade.

b. *Non-publicly Visible Façades.* For side or rear walls not publicly visible from rights-of-way or private property, primary exterior materials shall cover no less than 50% of each building façade.

c. *Primary Material Calculation.* Primary building material coverage shall be calculated by measuring the area of each façade, excluding non-architectural fenestration, storefront systems, pedestrian and vehicular openings, mechanical equipment, and signage. The percentage of each primary building material shall be calculated by dividing the area covered by that material by the resulting façade area.

3. ***Architectural Metals.*** Architectural metals, such as bronze, brass, copper, aluminum, metal-composite material (MCM), and steel shall not cover more than 25% of a building façade.

4. ***Change in Materials.***

a. Where material changes are horizontal (i.e., different materials side by side) the transition between materials shall occur at a change in wall plane, preferably at inside corners or where architectural elements intersect (e.g., pilasters, bays, projections), and shall not occur mid-field on a flat wall surface.

b. Where material changes are vertical (i.e., different materials stacked one above another), the transition between materials shall include a belt course, trim band, sill, cap, frame, or similar element to separate the two (2) materials.

5. ***Roof Materials.*** All visible pitched roofs shall consist of metal seam, clay tile, concrete tile, or a similar grade of roofing material.

E. **All Sided Architecture.** Architectural detailing shall be applied to all sides of a building. While detailing may vary based on orientation and context, all façades visible from a street, parking lot, or open space shall incorporate a level of architectural quality, materials, articulation, and detailing equivalent to the primary façade.

F. **Colors.**

1. Buildings larger than 10,000 square feet shall use at least two (2) exterior colors on every façade that is publicly visible.

2. Changes in building color shall occur at the inside corners where wall planes change, or be separated by a façade element or architectural detail.

G. **Building Entrances.** Primary building entrances shall be clearly defined, shaded, and inviting. The architectural details of building entrances shall be integrated with the overall building design in terms of materials, scale, proportion, and design elements and are appropriately scaled for people.

1. ***Entry Definition.*** Entries shall have a roofed projection or recess with a minimum depth of five (5) feet and minimum horizontal area of 50 square feet.

2. **Orientation.** Primary entries shall face the street or primary pedestrian areas.

H. **Access, Circulation, and Parking.**

1. ***Parking Area Design.***

a. Parking areas, including areas used for the parking and storage of commercial trucks and trailers, shall be located to the side or rear of buildings, except;

b. A maximum of two (2) rows of required off-street parking may be located between the building and adjacent street.

2. ***Location of Parking Spaces.*** A minimum 25% of the required parking spaces shall be provided within 200 feet of the building served, with the balance of the required parking within 400 feet.

(Ord. No. 5996, § 1, 3-9-26)

11-7-5: ALTERNATIVE COMPLIANCE

A. **Purpose and Applicability.**

1. ***Purpose.*** Alternative Compliance may be used to satisfy the Site Planning and Design Standards in Section 11-7-4 when conditions may exist where strict compliance is impractical or impossible, or when alternative approaches achieve equivalent or superior design outcomes through innovative site planning, architectural solutions, or other means.

2. ***Applicability.*** Alternative Compliance may be requested for any application subject to the Site Planning and Design Standards of Section 11-7-4. It may not be used to alter development standards or requirements of other sections of this Zoning Ordinance, and it shall not result in an increase in intensity or lot coverage.

B. **Application.** Requests for Alternative Compliance may be accepted for any application to which Site Planning and Design Standards apply. A written request must be provided in conjunction with the applicable land use application describing the following:

1. The code section(s) and development standard(s) for which Alternative Compliance is being requested;

2. The proposed alternative or offset(s), including any numeric modification(s) from the development standard;

3. An explanation on how the proposal meets the intent of the applicable development standard(s), the applicable General Plan Placetype, and any other applicable Sub-area Plan;

4. An explanation on how the alternative is equivalent or superior to the required development standard, or how the proposed offset(s) produce superior design; and

5. A statement of how the proposal meets the approval criteria in Subsection C below.

C. **Approval Criteria.** The review authority may approve Alternative Compliance only upon finding that the request meets all of the following:

1. The alternative does not create adverse impacts on safety, access, visibility, glare, privacy, noise, drainage, heat island effect, and does not reduce pedestrian comfort or accessibility.

2. The proposed alternative or tradeoff is the minimum necessary to achieve the intent while maintaining overall compliance with all other applicable standards.

3. The proposal either:

   a. Provides equivalent or superior quality and functionality; or

   b. Provides offsetting public benefits (e.g., improved streetscape, enhanced shade/canopy, open space, sustainability features).

(Ord. No. 5996, § 1, 3-9-26)

CHAPTER 8 DOWNTOWN DISTRICTS*

11-8-1: PURPOSE

A. **General Purposes.** The Downtown Districts are intended to promote the development and redevelopment of land within the Downtown Area to ensure the future growth and vitality of the original square mile and adjacent areas. The regulations of this Chapter are also intended to promote sustainable development patterns and encourage the development of high-intensity land uses where appropriate and where such uses add to the visual image and sense of place of Mesa's Downtown.

B. **Specific Purposes of Each District.**

1. ***Downtown Residence Districts (DR-1, DR-2, DR-3).*** In order to maintain a viable downtown area, stable residential neighborhoods must be protected and enhanced. The purpose of the DR Districts is to protect existing residential uses and to encourage the redevelopment of blighted or under-utilized sites for new residential usage. It is also the purpose of these districts to encourage pedestrian linkages between residential neighborhoods and the business, cultural and entertainment core of Downtown. It is the intent of the DR Districts to retain a real and perceived sense of neighborhood in urban-oriented residential areas by excluding most non-residential uses. It is also the intent of these districts to enhance the quality of residential neighborhoods through establishing compatible architectural and site design elements and regulating residential densities. The numerical designators -1, -2, and -3 are applied to the DR Districts to represent different development intensities.

2. ***Downtown Business District 1 (DB-1).*** The purpose of the DB-1 District is to provide for general retailing, services, and medium-density residential uses. It is the intent of this district to allow multiple residences, professional offices, and commercial uses as a major component of the Downtown Area.

3. ***Downtown Business District 2 (DB-2).*** The purpose of the DB-2 District is to provide for a combination of intensive commercial, light manufacturing, and related uses. The intent of the district is to provide a suitable location for those commercial and manufacturing uses which may require arterial street or railway access.

***Editor's note—**Ord. No. 5996, § 1, adopted March 9, 2026, repealed §§ 11-8-1—11-8-9, which pertained to similar subject matter. See Code Comparative Table for complete history.

4. ***Downtown Core District (DC).*** The purpose of the Downtown Core District is to encourage the highest intensity of land uses to be developed, redeveloped and maintained within the Downtown. It is also the purpose of the DC District to provide incentives for the development or redevelopment of under-utilized and bypassed properties within Downtown and to promote the development of a vital, vibrant activity area. The regulations for the DC District are intended to ensure that higher-intensity land uses are appropriate for the fulfillment of the purpose of the Downtown Core District as a vibrant focal point for the city. At the same time, the Downtown Core District is created to serve residents, businesses, employees and visitors and to ensure that the visual image of the core of the Mesa Downtown will be maintained and enhanced.

(Ord. No. 5996, § 1, 3-9-26)

11-8-2: LAND USE REGULATIONS

In Table 11-8-2, which follows, the land use regulations for each Downtown District are established by letter designations as follows:

- "P" designates use classifications permitted in downtown districts.
- "TUP" designates use classifications permitted on approval of a Temporary Use Permit
- "SUP" designates use classifications permitted on approval of a Special Use Permit.
- "CUP" designates use classifications permitted on approval of a Council Use Permit.
- "(x)" a number in parentheses refers to limitation following the table.
- "—" designates a prohibited use.

Use classifications not listed are prohibited. The "Additional Use Regulations" column includes specific limitations applicable to the use classification or refers to regulations located elsewhere in this Ordinance.

Temporary Outdoor Sales	—	TUP (15)	TUP (15)	TUP (15)	TUP (15)	TUP (15)	
Notes:							
1. Multiple Residence permitted at a minimum density of 20 units/acre in an exclusive multiple residence project. No minimum density when part of a mixed-use project.							
2. Permitted if occupying less than 5,000 square feet; greater floor area requires approval of an SUP.							
3. A CUP is required for plasma centers and substance abuse detoxification and treatment centers; other Clinics are permitted by right.							
4. Must be confined to completely enclosed, sound-attenuated facilities.							
5. Permitted if all activities pertaining to commercial recreation are conducted entirely within an enclosed building.							
6. Permitted if floor area is no more than 1,500 square feet.							
7. Structured parking garages are permitted. A CUP is required for surface (open) parking lots.							
8. Must be at least 1,200 feet from any use in the same classification, and at least 1,200 feet from any school.							
9. Home Occupations permitted where and when a residence is authorized.							
10. Eligible sites are limited to locations designated as Class 1 Historic Buildings based on the City of Mesa Historical Survey, 1984.							
11. Eligible sites limited to lots with frontage on an arterial street as designated in the Mesa Transportation Plan.							
12. Eligible sites limited to ancillary use to a Hotel or Motel.							
13. Use is Permitted as an accessory use only. Permitted only in the rear half of a lot and if fully screened by a minimum 8-foot-high masonry screen wall composed of masonry blocks utilizing varying colors and textures arranged in an attractive design.							
14. Facility may be as large as 6,000 square feet in the DB-2 District, subject to approval of a Special Use Permit.							
15. Only permitted in conjunction with non-residential uses.							
16. Permitted if an existing non-conforming residential use is located on the lot.							
17. Refer to Section 11-31-37(B)(2) for conditions under which a BESS may qualify as an accessory use.							

(Ord. No. 5996, § 1, 3-9-26)

11-8-3: DEVELOPMENT STANDARDS FOR THE DOWNTOWN RESIDENCE DISTRICTS

Table 11-8-3.A prescribes the development standards for the DR Districts. The "Additional Standards" column lists additional standards that apply in some or all districts. Section numbers in this column refer to other sections of the Zoning Ordinance, while individual letters refer to subsections that directly follow the table.

Table 11-8-3.A: Development Standards - DR Downtown Residence Districts				
Standard	**DR-1**	**DR-2**	**DR-3**	**Additional Standards**
Lot and Density Standards				
Minimum Lot Area (sq. ft.)				
1 dwelling unit	6,000	6,000	6,000	

Table 11-8-3.A: Development Standards - DR Downtown Residence Districts				
Standard	**DR-1**	**DR-2**	**DR-3**	**Additional Standards**
2 dwelling units	NA	11,000	7,000	
3 dwelling units	NA	15,000	11,000	
4 or more units in DR-2	NA	18,000	NA	
4 dwelling units in DR-3	NA	NA	15,000	
5 or more dwelling units	NA	NA	18,000	
Maximum Density (dwelling units/net acre)	NA	12	40	
Building Form and Location				
Maximum Height (ft.)	30	30	40	
Minimum Setback (ft.)				
Front	15	15	10	Section 11-8-3(A), Transitional Standards
Interior Side: 1-story building	5	1-2 units: 5 ft. 3+ units: 15 ft.	10	
Interior side: 2-story building	5	1 unit: 5 ft. 2 units: 10 ft. 3+ units: 15 ft.	15	
Interior side: 3-story building	20	20	20	
Street Side	10	10	10	
Rear: 1-story building	15	15	10	
Rear: 2-story building	20	20	20	
Rear: 3-story building	20	20	20	
Parking Spaces	20	20	20	
Minimum Open Space (sq. ft./dwelling unit)	Single Residence-detached: 400	Single Residence-detached and attached: 400 Multiple Residence: 200	Single Residence-detached and attached: 400 Multiple Residence: 200	Section 11-8-3(B), Multiple Residence and Single Residence-Attached Open Space Requirements

A. **Transitional Standards.** For a residential structure in the DR-3 District that is adjacent to the DR-1 District or the DR-2 District, the following shall apply:

1. ***Front Yard Setback.*** The required front yard setback shall be the same as that in the DR-1 and DR-2 Districts, i.e. 15 feet. This 15-foot front yard setback shall be required for the first 40 feet of lot street frontage adjacent to the DR-1 or DR-2 District.

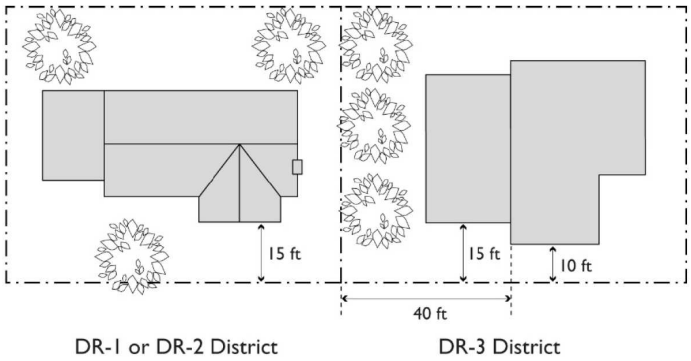

FIGURE 11-8-3.A(1): TRANSITION TO RESIDENTIAL STRUCTURE IN DR-3 DISTRICT

2. ***Roof Profile.***

a. *Height.* The height of new residential structures in the DR-3 District shall be no more than 10 feet greater than the height of the existing residential structure in the DR-1 or DR-2 Districts.

b. *Roof Form.* The roof of the new residential structures in the DR-3 District shall have the same form (i.e. gable, gambrel, hip, mansard, parapet, pitched, and shed) as the adjacent existing residential structure in the DR-1 or DR-2 Districts.

FIGURE 11-8-3.A(2): TRANSITION TO RESIDENTIAL STRUCTURE ROOF PROFILE

B. **Multiple Residence and Single Residence-Attached Open Space Requirements.** Multiple Residence developments in the DR-2 and DR-3 Districts shall have a minimum of 200 square feet of open space for each dwelling unit. The required front and side setbacks shall not count towards this requirement.

1. ***Proportion of Private and Common Open Space.*** Required open space shall be provided in one (1) of the following ways:

a. At least 200 square feet of private open space or patio area attached to the individual unit;

b. A private balcony or deck of at least 60 square feet in area adjacent to the individual dwelling unit and the remainder of the open space (140 square feet per unit) provided in a usable common open space; or

c. If no individual private open space is provided adjacent to a dwelling unit, 300 square feet of common open space per dwelling unit shall be provided.

2. ***Surfacing.*** Surfaces provided for outdoor activities shall allow convenient use for outdoor activities. Such surface may be any combination of lawn, garden, brick, flagstone, wood planking, concrete, or other serviceable, dust-free surface.

3. ***Slope.*** The slope of required open space areas shall not exceed 10%.

4. ***Exclusive Dedication.*** Off-street parking and loading areas, driveways, and service areas shall not be counted as usable open space.

a. *Amenities.* Common open space shall include amenities for the everyday use and enjoyment of residents of the development.

i. *Amenities Required.* Multiple Residence and Single Residence-attached developments containing five (5) or more dwelling units shall provide amenities from Table 11-8-3.B.2 to meet the minimum point value specified in Table 11-8-3.B.1, unless an alternative amenity is approved in accordance with Subsection (iii) below.

Table 11-8-3.B.1: Multiple Residence and Single Residence-Attached Amenity Minimums

Number of Dwelling Units	Minimum Points Required
5—19 dwelling units	1
20—50 dwelling units	2
51—100 dwelling units	3
101—150 dwelling units	4
151—250 dwelling units	5
>250 dwelling units	6

ii. *Amenity Types.* Table 11-8-3.B.2 below lists amenity types, the minimum standard (where applicable), and the point value. A proposed amenity may be counted only once toward the required minimum point total, except that regulation-sized sports courts of different types may each be counted separately.

Table 11-8-3.B.2: Amenity Types

Amenity Type	Minimum Standard	Points
Fenced dog park/pet run area	500—1,000 sq. ft.	1
	>1,000 sq. ft	2
Ramada with bbq and seating area	Min. 200 sq. ft.	1
Putting Green		1
Fire pit with seating area		1
Regulation-size sports court (e.g., tennis court, racquetball court, pickleball court, basketball court, etc.)	Regulation size	2

Table 11-8-3.B.2: Amenity Types		
Amenity Type	**Minimum Standard**	**Points**
Jacuzzi	Min. 6-person capacity	2
Covered pavilion with seating area	Min. 600 sq. ft.	2
Community garden	Min. 25 ft. in any direction	2
Swimming pool	500—1,000 sq. ft.	2
	>1,000 sq. ft.	3
Outdoor fitness area	Min. 3 stations	2
Tot lot	1,000—2,500 sq. ft., 2 distinct play features	2
	>2,500 sq. ft., 3 distinct play features	3
Rooftop deck/terrace with seating and weather protection	Min. 1,500 sq. ft.	3
Indoor recreational facility (e.g., fitness center, game room, movie theater, etc.)	Min. 1,500 sq. ft.	3

iii. *Alternative Amenities.* Additional amenities not listed above may be approved by the Planning Director. Upon approval, the Planning Director shall assign a point value based on the amenity's comparability in function, scale, and resident benefit to those listed in Table 11-8-3.B.2.

C. **Multiple Residence Screening.** Whenever a new Multiple Residence is constructed, or floor area is added to an existing Single Residence to convert it to a Multiple Residence use, a privacy wall shall be constructed along the property lines separating the Multiple Residence use, its parking areas, and driveways from any adjacent existing Single Residence.

1. ***Exception.*** Conversion of an existing Single Residence to a Multiple Residence use, without increasing floor area does not invoke the screening requirement.

2. ***Wall Design.***

a. *Materials.* The privacy wall shall be of masonry construction with stucco, mortar wash, or other finish to match that of the main building.

b. *Height.* The privacy wall shall be six (6) feet in height.

c. *Location.* The privacy wall shall extend along interior side lot lines to the front setback of the main building or to the front setback of the existing adjacent residence, whichever is closer to the street right-of-way, but shall not extend into the front setback without being reduced in height to a maximum of three (3) feet.

d. *Fences and Freestanding Walls Standards.* All other standards of Section 11-30-4 shall apply.

D. **Encroachments.** Building projections may extend into required setbacks, subject to the following standards:

1. No projection may extend into a public utility easement or closer than two (2) feet to an interior lot line.

2. Awnings, eaves, overhangs, or basement window wells may encroach up to three (3) feet into any required setback.

3. Vestibules, bay windows, nooks, chimneys, or similar wall projections with or without footings may encroach not more than three (3) feet into any required front or rear setback and not more than two (2) feet into any required side setback, provided the aggregate width of all such projections adjacent to any yard does not exceed one-third (⅓) of the length of the building wall.

4. Staircases may encroach up to three (3) feet into any required front setback, and up to 10 feet into any required rear setback.

5. Attached open porches, open patios, open carports or open balconies may encroach into a required rear setback, but shall be no closer than 10 feet to a rear property line. Such open structures may include window screens, knee walls, and other partial enclosures as specified in the Mesa Building Code for patio covers.

6. On single-story structures, enclosed livable rooms may encroach up to 10 feet into a required rear setback for up to one-half (½) the width of the building, provided a minimum of 10 feet remains between the building face and the rear property line.

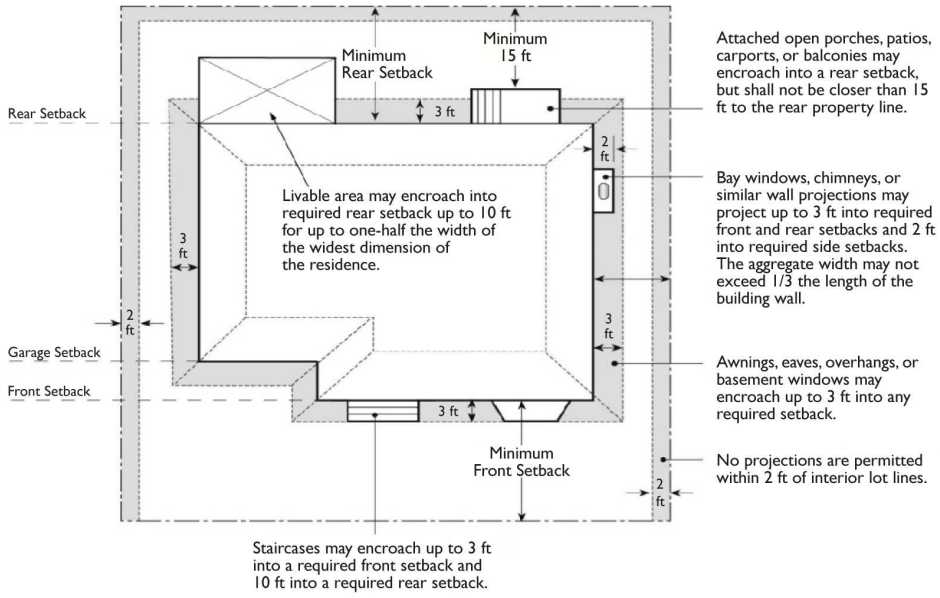

FIGURE 11-8-3.D(1): BUILDING PROJECTION

(Ord. No. 5996, § 1, 3-9-26)

11-8-4: SITE PLANNING AND DESIGN STANDARDS FOR THE DOWNTOWN RESIDENCE DISTRICTS

A. **Massing and Scale.** Buildings shall contain varied massing and architectural elements and techniques shall be utilized to reduce the apparent massing and scale of buildings, provide shading, and define different uses and activities in the building.

1. ***Façade Articulation.*** Exterior building walls shall be subdivided and proportioned to human scale, using projections, overhangs and recesses in order to add architectural interest and variety and to avoid long, uninterrupted wall planes.

a. *Single Residence Projects.*

i. *Front Façade.* The front façade of buildings shall have at least one (1) change in building plane, excluding the garage.

ii. *Two-story Dwellings on Corner Lots.* No second-story street-facing wall shall run in a continuous plane of more than 20 feet without a window, or without a projection, offset, or recess of the building wall at least one (1) foot in depth.

b. *Multiple Residence Projects.*

i. *Publicly Visible Façades.* All street-facing and publicly visible façades (including those visible from parking lots, open space, or adjoining private properties), shall provide articulation for every 25 linear feet of wall length as follows:

(1) One (1) horizontal projection or recess of at least four (4) feet in depth; or

(2) Two (2) horizontal projections or recesses, at least 2.5 feet in depth each.

ii. *Two or More Story Buildings.* If located on a building with two (2) or more stories, the articulated elements must be greater than one (1) story in height and may be grouped rather than evenly spaced in 25-foot modules so long as the total amount of articulation meets or exceeds that which would be required if no grouping occurred.

iii. Building entrances, front porches, and projections such as stoops, bays, overhangs, fireplaces (if projecting horizontally from the wall), and trellises count towards this requirement.

2. ***Varied Roof Form.*** In Multiple Residence projects roof forms shall be integrated into the building design and varied within a development through the use of offsets; changes in slope, angle, or direction; and elements such as dormers, towers, or parapets.

3. ***Roof Articulation.*** In Multiple Residence projects roof articulation is required to provide architectural interest at the skyline and accentuate appropriate building elements.

a. No more than two (2) side-by-side units may be covered by one (1) unarticulated roof.

b. Flat roofs in excess of 100 feet shall provide vertical modulation of two (2) or one-tenth ($^1/_{10}$) of the wall height, whichever is greater.

4. ***Balconies, Bay Windows, and Other Projections or Recesses.*** Multiple Residence buildings shall incorporate balconies, bay windows, entry porches or other projections and recesses across 30% of the length per floor of the façade.

a. *Windows.* Windows shall either:

i. Contain window trim on at least two (2) sides of all windows that is at least two (2) inches in depth; or

ii. Be recessed at least four (4) inches from the outside plane of the surrounding exterior wall.

b. *Balconies.* Balconies shall be at least four (4) feet wide and three (3) feet deep if not used to meet private open space requirements.

B. **Windows.** On buildings that are two (2) stories or greater in height, all façades facing a street, alley, open space, or park shall provide windows on the upper-stories that constitute at least 10% of the façades area and the windows shall either:

1. Contain window trim on at least two (2) sides of all windows that is at least two (2) inches in depth; or

2. Be recessed at least four (4) inches from the outside plane of the surrounding exterior wall.

C. **Primary Entrances.** Primary building entrances shall be clearly defined, shaded, and inviting. The architectural details of building entrances shall be integrated with the overall building design in terms of materials, scale, proportion, and design elements and are appropriately scaled for people.

1. ***Single Residence Projects.*** Single Residences shall provide either a covered front porch or portico, awning, recess, or stoop as specified below.

a. *Covered Front Porch.* A covered front porch with a minimum depth of six (6) feet and a minimum length of eight (8) feet.

i. *Measuring Front Porch Depth.*

(1) The required porch depth shall be measured from the building façade to outside of the support post;

ii. The total clear furniture area shall be a minimum of four (4) feet by six (6) feet.

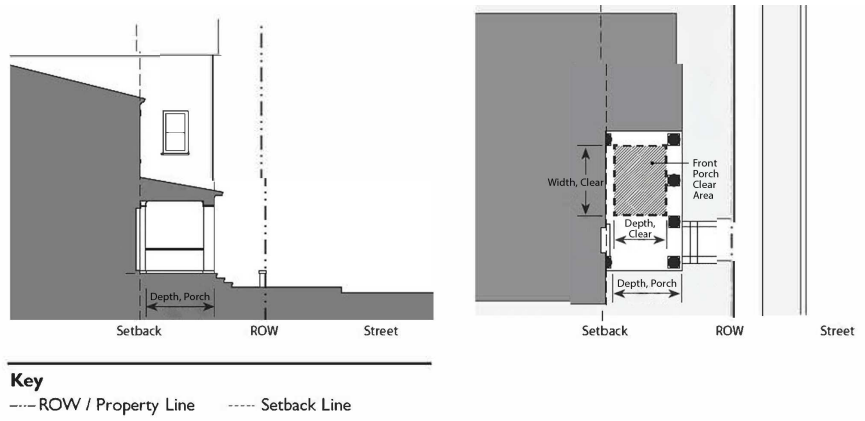

FIGURE 11-8-4.C(1): COVERED FRONT PORCH MEASUREMENTS

b. *Portico, Awning, Recess, or Stoop.* A portico, awning, recess, or stoop measuring at least four (4) by four (4) feet which is well defined by a gabled entry, distinct change in roof line or columns, or has some other significant architectural distinction.

2. ***Multiple Residence Projects.***

a. *Ground Floor Access.* Exterior entrances to units shall be in the form of individual or shared entrances at the ground floor of the building.

b. *Upper Story Access.* Individual entrances for units above the ground floor shall be provided via an interior corridor.

c. *Orientation.* All units located along public rights-of-way shall have the primary entrance to the building, or individual unit entrances, facing this right-of-way. Exceptions to this requirement may be approved for projects where multiple-residence housing is located on four (4) or six (6) lane streets carrying high traffic volumes. In such cases, the project may be oriented around internal courtyards or open space.

d. *Projection or Recess.* Building entrances and individual exterior unit entrances shall have a roofed projection (such as a porch) or recess with a minimum depth of at least five (5) feet and minimum horizontal area of 50 square feet.

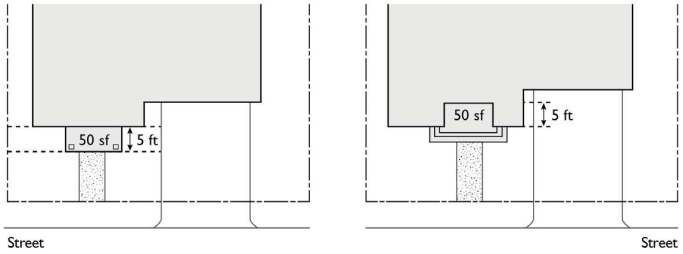

FIGURE 11-8-4.C(2): BUILDING ENTRANCE PROJECTION OR RECESS

D. **Materials.** Buildings and structures shall be constructed of durable, high-quality materials appropriate for the Arizona climate.

1. ***Primary Exterior Building Materials.***

a. Primary exterior building materials are brick, stone, integrally tinted and textured masonry block, precast concrete, siding, natural and synthetic wood, natural and synthetic stone, stucco and synthetic stucco, or other material approved by the Planning Director.

b. Variations in the color, finish, or texture of a material (e.g. form-board concrete, smooth stucco vs sand stucco, etc.) shall not be considered separate or different materials for the purpose of meeting the material requirements of this section.

c. Glazing may be considered as a primary exterior building material only when it is installed as an architectural glazing system (e.g., curtainwall, structural glass wall) and comprises more than 30% of an individual building façade. Standard window systems, storefront glazing, and other non-architectural fenestration shall not qualify as a primary building material for the purposes of this requirement.

2. ***Minimum Use of Primary Materials.***

a. *Single Residence Projects.*

i. *Publicly Visible Façades.* Building façades facing a street, alley, open space, or park shall contain at least two (2) kinds of primary exterior building materials.

ii. The use of any one (1) material shall not exceed 85% of each façade.

b. *Multiple Residence Projects.*

i. Each building façade shall incorporate at least two (2) different primary exterior materials.

ii. Primary exterior materials shall cover no less than 75% of each building façade.

iii. Each primary building material used to satisfy Subsection (2)(b)(i) above shall cover at least 25% of that façade.

c. *Primary Material Calculation.* Primary building material coverage shall be calculated by measuring the area of each façade, excluding non-architectural fenestration, storefront systems, pedestrian and vehicular openings, mechanical equipment, and signage. The percentage of each primary building material shall be calculated by dividing the area covered by that material by the resulting façade area.

3. ***Architectural Metals.*** Architectural metals, such as bronze, brass, copper, aluminum, metal-composite material (MCM), and steel shall not cover more than 15% of a building façade in a Single Residence project and no more than 25% in a Multiple Residence project.

4. ***Wainscoting.*** Where brick or stone veneer is used on a Single Residence as wainscoting, it shall be wrapped a minimum of two (2) feet around side walls.

5. ***Change in Materials.***

a. Where material changes are horizontal (i.e., different materials side by side) the transition between materials shall occur at a change in wall plane, preferably at inside corners or where architectural elements intersect (e.g., pilasters, bays, projections), and shall not occur mid-field on a flat wall surface; except where brick or stone veneer is used as wainscoting, it shall be wrapped a minimum of two (2) feet around side walls.

b. Where material changes are vertical (i.e., different materials stacked one above another), the transition between materials shall include a belt course, trim band, sill, cap, frame, or similar element to separate the two (2) materials.

E. **All Sided Architecture.** Architectural detailing shall be applied to all sides of a building. While detailing may vary based on orientation and context; all façades visible from a street, parking lot, or open space shall incorporate a level of architectural quality, materials, articulation, and detailing equivalent to the primary façade.

F. **Factory-Built Buildings.** Factory-built buildings designed, manufactured and approved for residential purposes as dwelling units and attached to permanent foundations are permitted in all Downtown Residential Districts, if such buildings are installed in conformance with all applicable provisions of the Mesa City Code including applicable development standards.

G. **Single Residence Projects - Access, Circulation, and Parking.**

1. ***Garage Requirement.*** In the DR-1 and DR-2 Districts, required parking spaces shall be provided within a garage, and may not be located with a carport, when the parking spaces are located in the front half of the lot.

2. ***Garage Frontage and Location.*** To prevent residential streetscapes from being dominated by protruding garage doors, and to allow the active, visually interesting features of a house to be dominant, the following standards shall apply:

a. *Front Loaded Garages.* Where a garage door is parallel to the front property line of the lot the following shall apply:

i. The aggregate width of garage doors shall not exceed 50% of the aggregate width of the front building elevation; and

ii. The garage shall be located at least three (3) feet behind the primary wall facing the street. A covered front porch, patio, or porte-cochere whose aggregate width is 20% of the aggregate width of the front building elevation may be considered the primary wall facing the street.

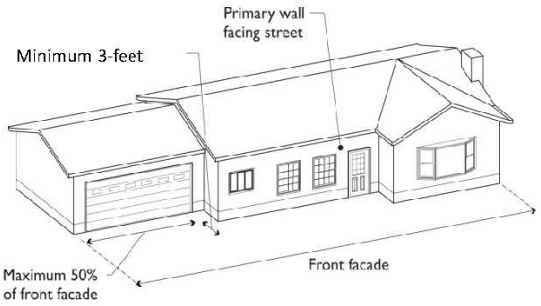

FIGURE 11-8-4.G(1): GARAGE FRONTAGE AND LOCATION

b. *Side Loaded Garages.* Where garages are oriented with side entry doors, the street-facing façade shall incorporate windows and architectural detailing to maintain the appearance of habitable living space.

c. *Garages With Three (3) or More Doors.* Garages with three (3) or more doors, or designed to accommodate three (3) or more non-tandem parked cars, are permitted only on lots 75 feet wide or greater, and at least one (1) garage front must be separated from the remaining garage fronts by at least two (2) feet. This requirement does not apply to the following:

i. Side or rear loaded garages in which the garage doors are oriented parallel to or within 10 degrees of parallel to the front property line, or oriented perpendicular to an alley located adjacent to the rear property line.

ii. Garages set a distance of 1.5 times the minimum front setback for garages and carports, based on the requirement for each zoning district, from the front property line, as specified by Table 11-8-4.

3. ***Driveways—Maximum Number and Width.***

a. *Lots Less Than 75 feet Wide.*

i. A maximum of one (1) driveway up to 20 feet wide is permitted.

ii. One (1) additional driveway up to 10 feet wide is permitted, if it leads to an interior side yard at least 12 feet wide and the combined paved areas do not exceed 50% of the area of the front yard.

b. *Lots Greater Than or Equal to 75 Feet Wide.*

i. A maximum of one (1) driveway up to 30 feet wide is permitted; or

ii. One (1), 20-foot driveway and one (1) additional 10-foot driveway if it leads to an interior side yard that is at least 12 feet in width and the combined paved areas do not exceed 50% of the area of the front yard.

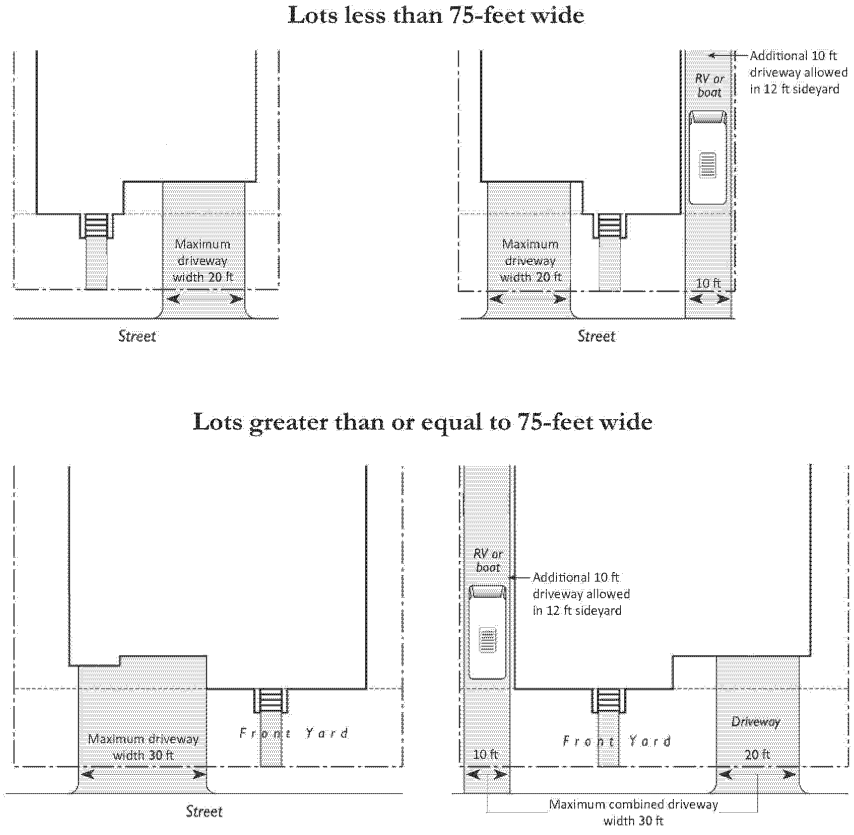

FIGURE 11-8-4.G(2): DRIVEWAYS

H. **Multiple Residence Developments - Access, Circulation, and Parking.** The parking and circulation system within each development shall accommodate the movement of vehicles, bicycles, pedestrians and transit, throughout the proposed development and to and from surrounding areas, safely and conveniently, and shall contribute to the attractiveness of the development.

1. ***Directness and Continuity.*** Walkways within the site shall be located and aligned to provide continuous connection between buildings, and various site amenities such as play areas, club houses, pools, mailboxes, etc. Walkways shall not be located and aligned solely based on the outline of a parking lot configuration that does not provide such direct pedestrian access.

2. ***Off-site Access.***

   a. Walkways shall provide direct connections to trails, parks, schools, transit stops or other public amenities adjacent to the development.

   b. Drive aisles leading to main entrances shall have walkways on both sides of the drive aisle.

3. ***Parking Area Design.***

   a. Parking areas shall be located to the side or rear of buildings, except visitor parking may be located between a building and the adjacent street.

b. The total frontage of parking areas visible from the street, including visitor parking, shall not exceed 30% of the lot frontage.

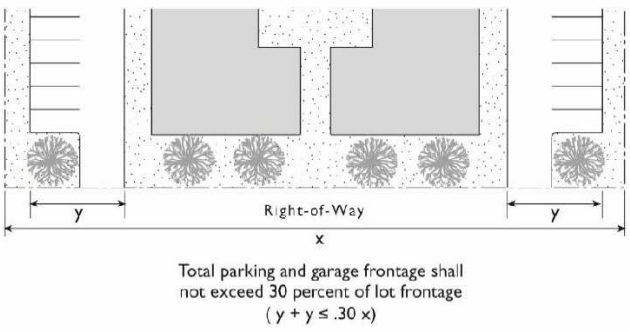

FIGURE 11-8-4.H(1): PARKING AND GARAGE FRONTAGE LIMITATION

4. ***Location of Parking Spaces.***

a. *Tenant Parking.* Required parking spaces shall be arranged to provide at least one (1) parking space per unit within 200 feet of the dwelling units they are intended to serve

b. *Guest Parking.* Guest parking spaces shall be distributed proportionally to the dwelling unit locations that they are intended to serve.

5. ***Attached Garages.***

a. In one (1) story buildings that include livable floor area, walls containing garage doors shall be set back a minimum of three (3) feet from the front façade of the building.

b. In multi-story buildings that include livable floor area, garage doors located below upper-story living space shall be recessed at least three (3) feet from the upper story facade.

c. When multiple garage doors are located within one (1) building, the maximum number of garage doors adjacent to one another shall be limited to three (3), unless there is a break in the building façade between garage doors consisting of a projected building entrance or a recess at least six (6) feet wide and three (3) feet deep.

6. ***Detached Garages.***

a. Detached garages shall use exterior materials, colors, roof forms, roof materials, and architectural details that are the same as the principal buildings on the lot or within the development.

b. Perimeter garages that face public right-of-way or private property shall be designed in accordance with Subsections A, C, D, and E above.

(Ord. No. 5996, § 1, 3-9-26)

11-8-5: DEVELOPMENT STANDARDS FOR THE DOWNTOWN BUSINESS AND DOWNTOWN CORE DISTRICTS

Table 11-8-5 prescribes the development standards for the Downtown Business and Downtown Core Districts. The "Additional Standards" column lists additional standards that apply in some or all districts. Section numbers in this column refer to other sections of the Zoning Ordinance, while individual letters refer to subsections that directly follow the table.

Table 11-8-5: Development Regulations - DB Downtown Business and DC Downtown Core Districts				
Standard	**DB-1**	**DB-2**	**DC**	**Additional Standards**
Building Form and Location for Non-Residential Development				
Maximum Height (ft.)	50	40	60	
Minimum Setback (ft.) - Non-residential buildings				
Front and Street-Facing Side	15	15	10	May be reduced to 10 feet when located on an arterial street and not adjacent to residential.
Interior Side: Not Adjacent to Residential Development	0	0	0	
Interior Side: Adjacent to Residential Development	10	10	10	Section 11-8-5(A), Building Height Step-Back Adjacent to Single Residence Uses and/or Districts
Rear: Not Adjacent to Residential	0	0	0	
Rear: Adjacent to Residential	10	10	10	
Building Form and Location for Residential Development				
Maximum Density (dwelling units/net acre)	40	40	40	
Minimum Setbacks (ft.)				
Front and Street-Facing Side	Varies by street classification identified in the Mesa Transportation Plan: Arterial Street: 15 ft. Collector Street: 10 ft. Local Street: 10 ft.			Setbacks shall be landscaped according to standards in Chapter 33, Landscaping.
Interior Side	10	5	5	
Rear	20	10	10	
Minimum Open Space (sq. ft./dwelling unit)	200	200	200	Section 11-8-3(B), Multiple Residence and Single Residence-Attached Open Space Requirements

A. **Building Height Step-Back Adjacent to Single Residence Uses and/or Districts.**

1. When a building is adjacent to a Single Residence zoning district or use, the maximum building height at the required setback shall be 30 feet.

2. The building height may increase by one (1) foot for every additional foot of setback, beyond the required minimum, up to the maximum permitted building height.

3. ***Multiple Building Developments.*** Developments with multiple buildings shall be configured to locate the tallest and largest structures within the core of the site or adjacent to an arterial street and provide a gradual decrease in building height and mass towards adjacent residential land uses.

(Ord. No. 5996, § 1, 3-9-26)

11-8-6: SITE PLANNING AND DESIGN STANDARDS FOR THE DOWNTOWN BUSINESS AND DOWNTOWN CORE DISTRICTS

A. **Character and Image.**

1. ***Shared Characteristics.***

a. In multiple building developments, each individual building shall include predominant characteristics shared by each building so that the buildings within the development appear to be part of a cohesive, planned area, yet are not monotonous in design.

b. Compatibility shall be achieved through techniques such as, the replication of roof lines, the use of similar proportions in building mass and outdoor spaces, similar relationships to the street, similar window and door patterns, or the use of building materials that have color shades and textures that are similar to or complimentary to those existing on, or in the immediate area of, the subject property.

2. ***No Established Theme or Stand-alone Development.*** Where there is no established or consistent neighborhood or area character or unifying theme, or where the existing character is not desirable to continue, because it does not reflect a design theme consistent with the development standards as described in this Chapter, the proposed development shall be designed to establish character and a sense of place through the strategic use of architectural elements, building form, materials, landscaping, lighting, etc. which creates a cohesive theme or style for future developments and buildings within the area to follow.

3. ***Corporate Architecture.*** Where the proposed architecture of a building or structure is the result of a franchise style, prototypical or franchise architectural design, including materials and color, shall be modified if necessary to meet these development standards and set a standard, or contribute to a high-level of quality for future developments and buildings within the area.

4. ***Pad Developments.*** Freestanding pad development site design shall be complementary to the surrounding center in terms of building scale, materials, colors, and other architectural details.

B. **Massing and Scale.** The design of buildings shall avoid the appearance of a single, large, dominant building mass by using design techniques that include stepping back portions of the building facade, breaking up the mass into smaller elements and/or using material changes.

1. ***Wall Articulation.*** Exterior building walls shall be subdivided and proportioned to human scale, using projections, overhangs and recesses in order to add architectural interest and variety and to avoid long interrupted wall planes.

a. *Publicly Visible Façades.* All street-facing and publicly visible façades (including those visible from parking lots, open space, or adjoining private properties), shall provide articulation for every 50 linear feet of wall length as follows:

i. One (1) horizontal projection or recess of at least four (4) feet in depth; or

ii. Two (2) horizontal projections or recesses, at least 2.5 feet in depth each.

b. *Non-publicly Visible Façades.* For side or rear walls, not publicly visible from rights-of-way or private property, articulation may be provided by any combination of the following for every 50 horizontal feet of wall:

i. One (1) horizontal projection or recess of at least four (4) feet in depth, or two (2) projections or recesses of at least 2.5 feet in depth;

ii. Change in color accompanied by a distinct change in texture, pattern, or coursing;

iii. Windows or fenestration (false windows and door openings) defined by frames, sills, or lintels;

iv. Trellises with climbing plants; or

v. Projecting fins or louvres extending at least four (4) inches from the wall plane.

c. *Building Projections into Setbacks.* Appropriate separation shall be maintained between buildings on adjacent properties to allow for light, air, and circulation while recognizing the need to allow minor projections that improve the effectiveness of environmental or aesthetic features.

i. Awnings, eaves, overhangs, and light shelves may encroach up to three (3) feet into any required yard but shall not be closer than two (2) feet to any property line.

ii. Building projections shall be no closer than 15 feet to any property line adjacent to sites located in the RS and RSL Districts.

3. ***Roof Articulation.*** Roof articulation is required to provide architectural interest at the skyline and accentuate appropriate building elements.

a. *Varied Roof Form or Height.* Roof forms shall be integrated into the building design and vary over different parts of the building. Each building shall provide at least two (2) changes in height or roof form, achieved through changes in pitch, plane, and orientation.

b. *Flat Roofs.* Flat roofs or façades with a horizontal eave, fascia, or parapet, in excess of one hundred feet in length, shall provide vertical modulation that is the greater of either:

i. Two (2) feet; or

ii. One-tenth ($^1/_{10}$) the height of the supporting wall height, not to exceed one-third (⅓) of the wall height.

c. *Parapet Detailing.* All parapets must have detailing such as cornices, moldings, trim, or variations in brick coursing.

d. *Height Transitions in Multi-Building Developments.* Multiple building developments shall be configured to locate the tallest and largest structures within the core of the site and provide a gradual decrease in building height and mass towards adjacent residential land uses.

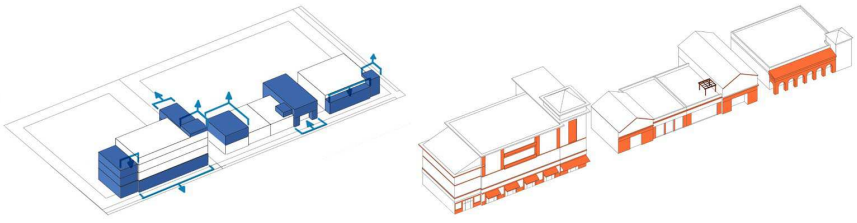

FIGURE 11-8-6.B(1): MASSING & SCALE

C. **Materials.** Buildings and structures shall be constructed of durable, high-quality materials appropriate for Mesa's climate.

1. ***Primary Exterior Building Materials.***

   a. Primary exterior building materials are brick, stone, integrally tinted and textured masonry block, precast concrete, synthetic wood, natural and synthetic stone, stucco and synthetic stucco, or other material approved by the Planning Director.

   b. Variations in the color, finish, or texture of a material (e.g. form-board concrete, smooth stucco vs sand stucco, etc.) shall not be considered separate or distinct materials for the purpose of meeting the material requirements of this section.

2. ***Minimum Use of Primary Materials.***

   a. *Publicly Visible Façades.*

      i. Each publicly visible building façades shall incorporate at least two (2) different primary building materials.

      ii. Primary exterior materials shall cover no less than 75% of each building façade.

      iii. Each primary building material used to satisfy Subsection (2)(a)(i) above shall cover at least 25% of that façade.

   b. *Non-publicly Visible Façades.* Side or rear façades that are not publicly visible shall incorporate a primary building material(s) on at least 50% of the façade.

3. ***Architectural Metals.*** Architectural metals, such as bronze, brass, copper, aluminum, metal-composite material (MCM), and steel shall not cover more than 25% of a building façade. Pre-engineered metal buildings are not allowed in the commercial and mixed-use districts.

4. ***Change in Materials.***

   a. Where material changes are horizontal (i.e., different materials side by side) the transition between materials shall occur at a change in wall plane, preferably at inside corners or where architectural elements intersect (e.g., pilasters, bays, projections) and shall not occur mid-field on a flat wall surface.

b. Where material changes are vertical (i.e., different materials stacked one above another), the transition between materials shall include a belt course, trim band, sill, cap, frame, or similar element to separate the two (2) materials.

5. ***Roof Materials.*** All visible pitched roofs shall consist of metal seam, clay tile, concrete tile, or a similar grade of roofing material.

D. **Base and Top Treatments.** All façades shall have:

1. A recognizable "base" consisting of (but not limited to):

a. Thicker walls, ledges or sills;

b. Integrally textured materials such as stone or other masonry;

c. Integrally colored and patterned materials such as smooth finished stone or tile; or

d. Lighter or darker colored materials, mullions or panels; or planters.

2. A recognizable "top" consisting of (but not limited to):

a. Cornice treatments, other than just colored "stripes" or "bands," with integrally textured materials such as stone or other masonry or differently colored materials;

b. Sloping roof with overhangs and brackets; or

c. Stepped parapets.

E. **All Sided Architecture.** Architectural detailing shall be applied to all sides of a building. While detailing may vary based on orientation and context; all façades visible from a street or open space shall incorporate a level of architectural quality, materials, articulation, and detailing equivalent to the primary façade.

F. **Colors.**

1. Buildings larger than 10,000 square feet shall use two (2) exterior colors on every façade that is publicly visible.

2. Predominant façade colors shall be low reflectance, subtle, neutral or earth tone colors.

3. The use of high-intensity colors as the predominant building color, such as black or fluorescent colors, are prohibited.

4. Building trim and accent areas may feature brighter colors. Accent colors shall cover no more than five percent (5%) of street-facing façades.

5. Changes in building color shall occur at the inside corners where wall planes change, or be separated by a façade element or architectural detail.

G. **Building Entrances.** Primary building entrances shall be clearly defined, shaded, and inviting. The architectural details of building entrances shall be integrated with the overall building design in terms of materials, scale, proportion, and design elements and are appropriately scaled for people.

1. ***Entry Definition.*** Entries shall have a roofed projection or recess with a minimum depth of five (5) feet and minimum horizontal area of 50 square feet.

2. ***Orientation.*** Primary entries shall face the street or primary pedestrian areas.

H. **Access, Circulation, and Parking.**

1. ***Parking Area Design.***

a. *Location.* Parking areas shall be located to the side or rear of buildings; except for Large Commercial Developments which are subject to the requirements of Section 11-31-16 of the Zoning Ordinance.

b. *Interconnectivity.* In the DB-1 and DB-2 Districts, parking areas shall be interconnected to allow vehicular access between parcels and to avoid numerous driveway cuts along street rights-of-way.

2. ***Location of Parking Spaces.*** In commercial and mixed-use projects, a minimum of 50% of the required parking spaces shall be located within 300 feet of the building served.

3. ***Screening and Separation of Parking Areas.*** Parking areas located between a building and street shall be screened with a screening wall or berms at least 2.5 feet high and no more than 3.5 feet high. In addition, parking areas shall be separated from on-site buildings by a distance of at least 10 feet. This separation shall be landscaped and may include a pedestrian walkway.

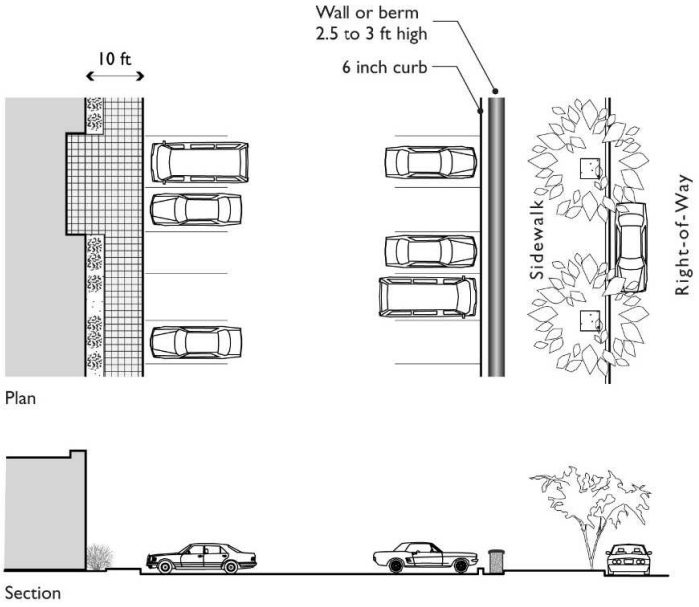

FIGURE 11-8-6.H(1): SCREENING AND SEPARATION OF PARKING AREA

(Ord. No. 5996, § 1, 3-9-26)

11-8-7: ALTERNATIVE COMPLIANCE

A. **Purpose and Applicability.**

1. ***Purpose.*** Alternative Compliance may be used to satisfy the Site Planning and Design Standards in Section 11-8-4 and Section 11-8-6 when conditions may exist where strict compliance is impractical or impossible, or when alternative approaches achieve equivalent or superior design outcomes through innovative site planning, architectural solutions, or other means.

2. ***Applicability.*** Alternative Compliance may be requested for any application subject to the Site Planning and Design Standards of Section 11-8-4 and Section 11-8-6. It may not be used to alter development standards or requirements of other sections of this Zoning Ordinance, and it shall not result in an increase in intensity or lot coverage.

B. **Application.** Requests for Alternative Compliance may be accepted for any application to which Site Planning and Design Standards apply. A written request must be provided in conjunction with the applicable land use application describing the following:

1. The code section(s) and development standard(s) for which Alternative Compliance is being requested;

2. The proposed alternative or offset(s), including any numeric modification(s) from the development standard;

3. An explanation on how the proposal meets the intent of the applicable development standard(s), the applicable General Plan Placetype, and any other applicable Sub-area Plan;

4. An explanation on how the alternative is equivalent or superior to the required development standard, or how the proposed offset(s) produce superior design; and

5. A statement of how the proposal meets the approval criteria in Subsection C below.

C. **Approval Criteria.** The review authority may approve Alternative Compliance only upon finding that the request meets all of the following:

1. The alternative does not create adverse impacts on safety, access, visibility, glare, privacy, noise, drainage, heat island effect, and does not reduce pedestrian comfort or accessibility.

2. The proposed alternative or tradeoff is the minimum necessary to achieve the intent while maintaining overall compliance with all other applicable standards.

3. The proposal either:

a. Provides equivalent or superior quality and functionality; or

b. Provides offsetting public benefits (e.g., improved streetscape, enhanced shade/canopy, open space, sustainability features).

(Ord. No. 5996, § 1, 3-9-26)

CHAPTER 9 (RESERVED FOR FUTURE USE)*

CHAPTER 10 PUBLIC AND SEMI-PUBLIC DISTRICT†

11-10-1: PURPOSE

The purpose of the Public and Semi-Public (PS) District is to accommodate large-scale governmental, public utility, recreational, and educational facilities. It is the intent of this district to:

A. Recognize those uses that are provided by public entities for public usage and convenience;

***Editor's note—**Previously, Chapter 9 derived from Ord. No. 4262, 8-16-04.
†Editor's note—Previously, Chapter 10 derived from Ord. No. 4262, 8-16-04.

B. Ensure high quality development;

C. Encourage the use of sustainable development practices; and,

D. Insure compatibility with surrounding uses.

11-10-2: LAND USE REGULATIONS

Facilities owned, leased, or operated by city, county, state, or federal governments or agencies thereof or school districts are considered permitted in this district. In addition, Table 11-10-2, which follows, specifies additional land use regulations for each Public and Semi-Public zoning district, established by letter designations as follows:

- "P" designates use classifications permitted in public and semi-public districts.
- "TUP" designates use classifications permitted on approval of a Temporary Use Permit
- "SUP" designates use classifications permitted on approval of a Special Use Permit.
- "CUP" designates use classifications permitted on approval of a Council Use Permit.
- "(x)" a number in parentheses refers to limitation following the table.

Use classifications not listed are prohibited. The "Additional Use Regulations" column includes specific limitations applicable to the use classification or refers to regulations located elsewhere in this Ordinance.

1. Heliports require a CUP unless considered an accessory use when a part of a hospital or clinic.		
2. Use not permitted when the property is subject to the AOA 1 overflight area, see Section 11-19-2, Runway Protection Zones and Airport Overflight Areas.		
3. Use not permitted when the property is subject to the AOA 2 overflight area, see Section 11-19-2, Runway Protection Zones and Airport Overflight Areas		
4. Use permitted with the approval of a CUP when the property is subject to the AOA 1 overflight area, See Section 11-19-2, Runway Protection Zones and Airport Overflight Areas		
5. Use permitted with the approval of a CUP when the property is subject to the AOA 2 overflight area, See Section 11-19-2, Runway Protection Zones and Airport Overflight Areas.		
6. Permitted if an existing non-conforming residential use is located on the lot.		
7. Refer to Section 11-31-37(B)(2) for conditions under which a BESS may qualify as an Accessory Use.		

(Ord. No. 5759, § 1, 12-8-22; Res. No. 12269, § 9, 9-23-24; Ord. No. 5883, § 3, 10-7-24; Ord. No. 5976, § 3, 1-12-26)

11-10-3: DEVELOPMENT STANDARDS

Table 11-10-3 and the subsection that follows it prescribe the development standards for the PS District.

Table 11-10-3: Development Standards - PS Public and Semi-Public District	
Site Standards	
Minimum Site Area (sq. ft.)	None
Building Form and Location	
Maximum Height (ft.)	30 ft. within 60 ft. of RS, RSL, and DR-1 60 ft. all others
Minimum Front and Street-Facing Side Setback	Varies by classification of adjacent street: 6-lane arterial: 30 ft. 4-lane arterial: 20 ft. Collector: 20 ft. Local Street: 20 ft. Freeways: 30 ft. for buildings; 15 ft. for parking areas and structures Next to MX or DC: Same as adjacent district
Minimum Interior Side and Rear Setback: Adjacent to RS District	Sites smaller than 5 acres: 20 ft. Sites 5 acres or larger: 25 ft.
Minimum Interior Side and Rear Setback: Adjacent to RM District	Single-story building: 20 ft. Two or more stories: 15 ft. per story
Minimum Interior Side and Rear Setback: Adjacent to Non-residential District	Single-story building: 15 ft. Two or more stories: 15 ft. per story
Minimum Separation between Buildings on Same Lot (ft.)	One-story building: 25 ft. Two-story building: 30 ft. Three or more story building: 35 ft.

A. **Buffer Yards.** A six (6) foot tall screen wall is required wherever a lot located in the PS District abuts a RS, RSL, or DR District at the time of development. In addition, if a lot in the PS District abuts a lot in an RS, RSL, or DR-1 District at the time of development, a landscape buffer of at least 15 feet wide shall be provided on the PS-zoned lot.

(Ord. No. 5814, § 1(Exh. 1), 10-16-23; Ord. No. 5996, § 4, 3-9-26)

11-10-4: REVIEW OF PLANS

Permit and review procedures shall follow the standards established in Article 7, Administration.

CHAPTER 11 PLANNED COMMUNITY DISTRICT

11-11-1: PURPOSE AND INTENT

The purposes of the Planned Community (PC) District are to:

A. Accommodate large-scale, unified and comprehensively planned developments that encourage and promote innovative and sustainable residential and non-residential land uses;

B. Allow flexibility for innovative and high quality development while meeting the goals of the Mesa General Plan and establishing planning and development control parameters tailored to the opportunities and constraints of the property;

C. Conserve scarce energy resources, using technologies, materials and designs that are sustainable;

D. Provide for creative and high quality design and materials, for buildings and landscape, to accomplish efficient, aesthetic, sustainable, and desirable development that highlights special features of the geography, topography, size, or shape of a particular property and that include exceptional public amenities and facilities;

E. Provide environmental improvements that mitigate air and storm water pollution. Provide shade and reduce the effects of the urban heat island;

F. Ensure that areas designated as neighborhood centers, urban centers or regional centers in the Mesa General Plan contain an appropriate variety and mix of employment, office, retail, medical, educational, community service, tourism, entertainment, open space, recreational, and residential uses to provide center(s) with a sense of place within the community;

G. Ensure that residential neighborhoods utilize a variety of housing types and densities that contain parks and schools that are located within convenient walking or bicycling distance from all homes, and neighborhood village centers with shops, restaurants, service uses, schools, and other civic uses that provide each neighborhood an individual identity and foster community interaction;

H. Ensure that demands on streets, utilities and other public infrastructure do not exceed the capacity of existing or planned facilities, and ensure that the development will accommodate new and future technologies for utilities and other public infrastructure;

I. Provide reasonable assurances to the City and land developer that the proposed development may be planned and carried out in one or more phases over an extended period, in accord with an approved Community Plan; and

J. Provide for cohesive development patterns that integrate well with surrounding development; and encourage a variety of transportation options.

(Ord. No. 5928, § 15, 2-3-25)

11-11-2: LAND USE AND DEVELOPMENT REGULATIONS

A. **General Plan and Zoning.** PC Districts may be established within areas designated mixed residential, urban residential, neighborhood center, urban center, or regional center in the Mesa General Plan. The PC District and adopted Community Plan are the zoning for the property. The adopted Community Plan also is the principal reference for implementation and review of future development within the boundary of the overall site. All development that takes place within the boundaries of a PC District shall be governed by and built in accordance with the adopted Community Plan or approved amendments to the Community Plan.

B. **Minimum Area.** The minimum area required for a PC District is 160 contiguous acres.

C. **Permitted Uses and Land Use Groups.** The permitted and conditional land uses for a PC District shall be listed in, and established by, an adopted Community Plan. As part of the Community Plan, the uses shall be individually listed for each development unit, and the uses shall be grouped into land use groups. A land use group may be subdivided into sub-land use groups. Such groups may be based in whole or in part on existing Mesa Base Zoning Districts or may be new categories. In addition to listing all permitted uses in the land use groups and any sub-land use groups, the Community Plan shall have a narrative describing the intent and purpose for each.

1. ***The Community Plan.*** The Community Plan may establish any land use as a conditional use that requires review and approval of Council Use Permit, Special Use Permit, or Administrative Use Permits in accordance with Chapter 70 of this Title.

2. ***Land Use Budget.*** In the Community Plan, the land use groups and any sub-land use groups shall be designated for each development unit, and have a minimum and maximum range (the land use budget) for each designated land use group and/or the budget may be specific to sub-land use groups or individual land uses. The land use budget shall be expressed in the following manner:

    a. Dwelling units (DU) shall be used as the measure to express the number of residences.

    b. The density of a residential project, expressed as a ratio of the number of dwelling units per acre (DU /AC), shall be the measure of the intensity of a Residential Land Use.

    c. Gross Floor Area (GFA) shall be the measure used to express the amount of mixed and non-residential land use.

    d. Floor Area Ratio (FAR) shall be the measure used to express the intensity of development for all mixed and non-residential land uses.

    e. The approved Community Plan may include additional measures for the land use budget.

f. The amounts (e.g. DU, GFA) and intensities (e.g. DU /AC, FAR), expressed in minimum and maximum ranges, for each land use group (and any sub-land use groups or specific land uses) for the development units, in aggregate, shall not exceed the total adopted for the Community Plan.

3. ***Development Unit Land Use Plan.*** With the approval of each development unit there shall be a Development Unit Plan that shall identify:

a. The general location for the land use group and any sub-land use group (and may identify general locations for specific uses).

b. The approximate amount of acreage for such group (or specific use).

c. The intensity of development proposed at each location.

4. ***Development Plan.*** With the approval of each Development Plan the permitted uses shall be specified on the Development Plan by reference to sub-land use group(s) or specific uses. Permitted uses at a specific site shall be limited to those specified on the approved Development Plan; all other uses are prohibited.

D. **Development Standards.** The Community Plan shall specify General Development Standards, as defined in Chapter 87, for the PC District.

1. ***Application of the General Development Standards.*** The General Development Standards shall apply to each development unit, site plan, and all development in the PC District.

2. ***Zoning Ordinance Standards as Default Standards.*** Site plans and improvements to individual lots or sites shall conform with the standards set forth in the Zoning Ordinance (the Zoning Ordinance Standards) for the district or use most nearly approximating the proposed uses, where applicable, and intensities of use unless the approved General Development Standards for the adopted Community Plan include a specific standard.

a. *Modifications to Default Standards.* The Community Plan may establish a process that authorizes the Zoning Administrator to grant minor modifications to an applicable Zoning Ordinance Standard and/or General Development Standards.

b. *Criteria for Modifications to Default Standards.* The Zoning Administrator shall use, at a minimum, the following criteria when evaluating all requests for minor modifications to Zoning Ordinance Standards and/or General Development Standards:

i. The minor modification is consistent with the application of design requirements designated in the Community Plan; and

ii. The minor modification is consistent with the implementation of the Community Plan and the Development Unit Plan; and

iii. The minor modification will result in a project design that meets or exceeds the design goals and guidelines as expressed by the Community Plan; and

iv. The minor modification results in a building of superior architectural design, as determined by building form and massing, use of materials and colors, and relationship of the building to the building site; and

v. The minor modification is in accord with the Mesa Building Code and adopted Engineering Division requirements, as may be applicable.

E. **Standards not in the Zoning Ordinance.** Modifications to development standards not established within the Zoning Ordinance shall be in accordance with procedures and processes established in the Mesa City Code. With the application of the PC District, certain modifications may be sought in accordance with 9-5-3(C), 9-6-7(C), and 9-8-4(C).

(Ord. No. 5996, § 4, 3-9-26)

11-11-3: APPLICATION REQUIREMENTS

A. **Pre-Submittal Conference.** A pre-submittal conference with the City Planning Director and Engineer, or their designees, is required prior to submittal of an application for PC District zoning. The applicant shall provide a description of the boundary of the proposed PC District, a conceptual land use summary and budget, proposed development units, project narrative, proposed General Development Standards, and any proposed modifications that may be sought in accordance with sections 9-5-3(C), 9-6-7(C), and 9-8-4(C).

B. **Application and Submittal Requirements.** In addition to the requirements for rezoning amendments as described in Chapter 76 of this Title, each application for rezoning to the PC District shall be accompanied by the following information. Submittals that fail to include all of the items listed in the below subsections shall not be scheduled for consideration.

1. An application form, available in the Planning Division office, and payment of required fees.

2. A map showing the ownership of the property within the proposed PC District, and a current Title report for the property.

3. The name(s) and current address(s) of the applicant, owner, and developer.

   a. If the applicant, owner or developer is a corporation, the names and current addresses of the principal officers and members of its board of directors shall be submitted in addition to the information required above.

   b. If the applicant, owner or developer is a partnership, the names and current addresses of the general and managing partners shall be submitted in addition to the information required above.

   c. A material change in any of the information regarding the identity of the applicant, owner or developer or in any address thereof shall be filed with the City within 30 days of the change.

4. A legal description with dimensions and bearings of the proposed PC District boundary.

5. A narrative describing and explaining how the proposed PC District and Community Plan complies with and meets the purpose, intent, and requirements of the Mesa General Plan and the PC District. This narrative shall be separate from the Community Plan.

6. Development Schedule shall be submitted as part of the Community Plan that includes the following:

   a. The timeframe in which construction or development is expected to begin and the estimated duration of time required for completion of all development including public infrastructure improvements necessary to serve the Community;

   b. Anticipated phasing, including phasing of infrastructure improvements, if the project will not be developed as one unit, including a plan for the interim use, maintenance and management of the undeveloped phase or phases;

   c. The anticipated completion of development for each development unit; and

   d. Anticipated initiation and completion dates for each phase or development unit, in no greater than three-year increments.

7. A Community Plan, which shall include all the minimum required elements listed in Section 11-11-4.

C. **Evaluation.** The Planning & Zoning Board and City Council shall consider at a minimum the following goals and objectives when evaluating the proposed Community Plan. The proposed Community Plan should:

1. Conform to applicable policies, land use map designations, and land use definitions of the Mesa General Plan;

2. Conform to the purposes and intents of the PC District as listed in Section 11-11-1;

3. Provide the following when the PC District is located on a site designated as a mixed residential, urban residential, neighborhood center, urban center, or regional center placetype on the Mesa General Plan placetype map:

   a. A mix of land uses in a wide variety of building forms which creates a complete community environment; and

   b. An appropriate mix of non-residential uses, including commercial, employment (such as office and industrial), and public/semi-public, in addition to multiple forms of residential uses; and

   c. One or more areas designated as villages or urban cores that will serve and complement surrounding residential development.

4. Provide a combination of land uses that are arranged and designed in such a manner as to be well integrated with other land uses, the immediate surrounding area, the planned thoroughfare system, and other public facilities such as water and sewer systems, parks, schools, transit routes and utilities.

5. Include adequate provisions and sites for schools, playgrounds, parks, trails, and other recreational facilities that are adequate to serve the anticipated population and interconnected with other public open spaces and recreational resources within the city.

6. Adequately, reasonably, and conveniently integrate into existing and planned streets, transit systems, and public services, utilities, and public facilities and will not result in a reduction in service levels to adjacent properties.

7. Promote development that is appropriate to and well integrated with its environmental setting, including existing vegetation, soils, geology, topography, and drainage patterns.

8. Preserve, where possible, any significant historical, cultural, and archaeological features of the site.

9. Provide superior design and environmental sustainability in comparison with development reviewed under other base zoning district regulations.

10. Provide a level of detail that adequately describes the relative quality and design themes of the built environment of the project, both at completion and during the phased implementation of the Community Plan.

11. Be compatible with, and not detrimental to, adjacent properties or the surrounding neighborhood(s).

D. **Conditions.** The City Council may place conditions on its approval of a PC District, Community Plan, and/or modifications to either a PC District or a Community Plan. Such conditions of approval may include, but are not limited to: conditions to ensure implementation of the Community Plan in accordance with the Mesa General Plan, and other applicable plans and policies adopted by the City; conditions to achieve the purposes and intents described in Section 11-11-1; and, conditions requiring additional or different approval processes for development units, design guidelines, development plans, and/or areas within the PC District.

(Ord. No. 5928, §§ 15—17, 2-3-25; Ord. No. 5996, § 4, 3-9-26)

11-11-4: COMMUNITY PLAN REQUIRED

A. **Contents.** A Community Plan shall be submitted concurrently with the application for the PC District, and shall include the following:

1. ***Community Plan Map.*** A map, which may consist of multiple sheets, drawn to a suitable scale and that includes the following elements:

a. The boundary with dimensions and bearings of the proposed PC District.

b. Division of the entire site into separate land development increments, referred to as Development Units. The size and number of Development Units shall be sufficient to provide understanding of the pattern, phasing and intensity of development authorized by the Community Plan.

c. The approximate location of proposed freeways, parkways, arterial streets, and streets which provide connectivity between development units and other major transportation and transit corridors.

d. Major drainage elements within the proposed PC District and vicinity.

e. Existing and proposed utility corridors.

f. Any major trails and/or bikeways, including their proposed connections to conceptual trail locations identified in the Mesa General Plan or other applicable plans adopted by the city.

g. Location of any known significant historical, cultural, and archaeological features of the site.

2. ***Land Use Regulations.*** Permitted land uses, land use groups, and any sub- land use groups, as described in Section 11-11-2(C), and a Land Use budget, as described in Section 11-11-2(C)(1).

3. ***Master Developer.*** The Community Plan shall identify a Master Developer or other entity that shall be designated to ensure all future development requests are in compliance with the land use budget and in compliance with the provisions of the Community Plan.

4. ***Community Facilities Element.*** A narrative describing the estimated need for community facilities, including public schools, parks, open space, fire stations, police substations and other similar community facilities, by type and land area.

5. ***Infrastructure Element.*** Major street system and transportation plan, and Utilities and storm water drainage master plans.

6. ***General Development Standards.*** Defined in Chapter 87 of this Title.

7. ***Design Guidelines.*** Community Plan Design Guidelines for the development of the property, including illustrations of proposed architectural, urban design, streetscape, and landscape concepts, thematic design elements such as architectural materials, building colors and landscape plants, and any proposed variation from Chapter 30, General Site Development Standards. The Community Plan Design Guidelines may describe broadly based design or architectural themes and concepts, sufficient to convey an idea and general pattern of development. With the application of the Development Units and Development Unit Design Guidelines shall be submitted that are consistent with, and provide further detail to, the Community Plan Design Guidelines.

8. ***Supplemental Reports.*** Each Community Plan shall be accompanied by the following supplemental reports, as determined by the Planning Director and City Engineer at the time of the Pre-Submittal Conference.

   a. Traffic impact analysis, soils engineering report, geology report, and/or drainage report.

   b. Additional information as necessary to facilitate understanding, review and action on the application by the Planning & Zoning Board and the City Council.

9. ***Requirements and Administration for Future Development Unit Plans.*** Consistent with, and in addition to the requirements in this Chapter, the Community Plan shall set forth additional elements for the Development Unit Plans, additional submittal and process requirements for Development Unit Plans and amendments thereto, and additional criteria for reviewing Development Unit Plans. Such additional requirements shall include, but are not limited to, the process and public body or position that reviews, and may approve, future Development Unit Plans. Such additional elements and criteria shall include, but are not limited to, criteria and requirements to ensure that future development plans will facilitate development compatible with adjacent properties and surrounding neighborhoods, will facilitate the implementation of the Community Plan, will facilitate appropriate transitions between differing developments, and will not overburden the

transportation system, utility infrastructure or community facilities. If a Development Unit Plan Application is filed prior to the approval of the Community Plan, such a Development Unit Plans may be approved by City Council with the approval of the Community Plan.

10. ***Requirements and Administration for Future Development Plans.*** Consistent with, and in addition to the requirements of this Chapter, the Community Plan shall set forth additional elements required of Development Plan Review, additional submittal and process requirements for a Development Plan, Development Plan Modification, and additional criteria for review or modification of Development Plans. Such additional requirements shall include, but are not limited to, specifying how Development Plan Review requirements will be administered within a development unit, and set forth the review and approval process for Development Plan Review. Such additional elements and criteria shall include, but are not limited to, criteria and requirements to ensure that Development Plans will facilitate development compatible with adjacent properties and surrounding neighborhoods, will facilitate the implementation of the Community Plan, will facilitate appropriate transitions between differing developments, and will not overburden the transportation system, utility infrastructure or community facilities.

B. **Review of PC District and Community Plans.** The PC District and Community Plan shall be reviewed, and a recommendation to City Council shall be made, by the Planning & Zoning Board. The Community Plan Design Guidelines shall also be reviewed, and a recommendation to City Council shall be made, by the Planning & Zoning Board. The PC District and Community Plan shall be reviewed, and are subject to approval by City Council. These processes shall be in accordance with the requirements of this Chapter 76 of this Title.

(Ord. No. 5928, § 18, 2-3-25; Ord. No. 5996, § 4, 3-9-26)

11-11-5: REVIEW AND CONSIDERATION OF DEVELOPMENT UNIT PLANS

A. **Pre-Submittal Conference.** A Pre-Submittal Conference with the City Planning Director and Engineer, or their designee, is required prior to submittal of a Development Unit Plan Application.

B. **Consideration of Request.** Development Unit Plans shall be reviewed, and are subject to approval, in accordance with the requirements and process established by the adopted Community Plan. The Development Unit Plans include, but are not limited to, Development Unit Design Guidelines and a Development Unit Land Use Plan.

C. **Development Unit Design Guidelines.** Development Unit Design Guidelines shall be submitted that are consistent with, and provide further detail to, the Community Plan Design Guidelines. The Development Unit Guidelines shall include design themes, additional standards and concepts unique to the development unit, and shall be of sufficient detail to ensure cohesive, integrated, high-quality design. All development plans and development shall conform to, and be consistent with, the approved Development Unit Design Guidelines.

D. **Development Unit Land Use Plan.** A Development Unit Land Use Plan, as described in Section 11-11-2(C)(3), shall be of sufficient detail to ensure the compatibility of future development in the unit and compatibility with properties surrounding the unit, to ensure appropriate transitions between differing developments, to ensure that development will not overburden the transportation system, utility infra-

structure or community facilities, and to facilitate the implementation of the Community Plan. All development plans and development shall conform to, and be consistent with, the approved Development Unit Land Use Plan.

E. **Review of Development Unit Plans.** Applications for Development Unit Plans within an adopted PC District shall only be approved if the application and supporting materials are consistent with the approved Community Plan, as well as any conditions or modifications of the Community Plan that were imposed by the City Council. In addition to the requirements and criteria established in this Chapter and Community Plan to evaluate development units. Development Unit Plans shall be consistent with the approved Community Plan as follows:

1. The land use budget for a development unit shall remain identical to, or within the range established by the approved Community Plan budget for that development unit.

2. Development Unit Plans shall be consistent with any major or minor amendments of the Community Plan.

3. All other relevant policies and guidelines as outlined in the Community Plan shall remain as adopted.

(Ord. No. 5996, § 4, 3-9-26)

11-11-6: DEVELOPMENT PLAN REVIEW

A. **Pre-Submittal Conference.** A Pre-Submittal Conference with the City Planning Director and Engineer, or their designee, is required prior to submittal of a Development Plan application.

B. **Development Plan Approval Required.** All non-single residence development within a PC District shall require an approved Development Plan. All single residence developments shall meet this requirement through the subdivision process as required by Chapter 6, of Title 9 of the Mesa City Code. For all development requiring an approved Development Plan, no building permit shall be issued for such sites until there is an approved Development Plan.

C. **Development Plan Review.** All sites shall be reviewed, and be subject to approval, by the Planning Director and his/her designees, unless otherwise designated by the adopted Community Plan.

D. **Review and Conditions.** Development Plans shall be reviewed for consistency with the requirements of this Chapter, the Community Plan and Development Unit Plans. Unless otherwise specified in the Community Plan, conditions may be imposed on the approval of any Development Plan as may be deemed necessary to ensure that the site is designed in a way to facilitate compatibility with adjacent property and to ensure that the development will be in accordance with the Community Plan, the General Development Standards, Community Plan Design Guidelines, Development Unit Design Guidelines, and the Land Use Budget. The Community Plan may establish additional criteria for such conditions. Consistent with this Chapter and any additional criteria established in the Community Plan such conditions may include:

1. Revised building setbacks;

2. Revised landscaping;

3. Revised on-site parking and loading spaces;

4. Height and area limitations on structures;
5. Limited Vehicular access;
6. Placement and/or installation of walls, fences, and screening devices;
7. Installation of noise attenuating construction; and
8. Off-site improvements in public rights-of-way adjacent to the subject property.

E. **Required Information.** All applications for Development Plan Review for development within an approved PC District shall include drawings (drawn to scale) and other supporting materials and documents, as determined by the Community Plan. Additional materials and plans may be requested, as needed, by the Planning Director to determine the full compatibility of the project to neighboring development.

F. **Land Use Budget Update.** The Master Developer shall review all Development Plans prior to submittal to ensure compliance with the land use budget. All Development Plans shall be submitted with a chart, approved by the Master Developer, updating the land use budgets for the Community Plan and the applicable Development Unit Plan.

G. **Permitted Uses.** The permitted uses shall be limited to those identified on the Development Plan as described in Section 11-11-2(C)(4).

H. **Appeal of a Development Plan Review Decision Made by a City Board or the Planning Director.** The applicant, any owner of property within 750 feet of the boundaries of the Development Plan Review case or the City Manager (or his designee) may appeal a Development Plan Review decision. The appeal shall be made in writing, specifying the grounds for the appeal, within 15 business days of the decision. An appeal from a decision by a City board shall be forwarded to the City Council for review and consideration. An appeal from a decision by the Planning Director shall be forwarded to the Planning and Zoning Board (unless specified otherwise in the Community Plan for review and consideration). It shall be the responsibility of the applicant to complete all citizen participation requirements. The appellate body shall rehear the request, and shall have the ability to affirm, reverse or modify the previous decision.

(Ord. No. 5996, § 4, 3-9-26)

11-11-7: DEVELOPMENT PLAN EXPIRATIONS AND EXTENSIONS

The expiration and extension of Development Plan approvals follow any procedures set forth in the applicable Community Plan, or, if not addressed in the applicable Community Plan, the common procedures for approvals and extensions in Section 11-67-9 of the Zoning Ordinance.

(Ord. No. 5996, §§ 3, 4, 3-9-26)

11-11-8: AMENDMENTS TO AN APPROVED PC DISTRICT

A. **Initiation.** Amendments to a Community Plan may be requested by the Master Developer or an owner of property located within a PC District. Amendments requested by a property owner shall provide documentation that notice of such request has been provided to the Master Developer.

B. **Limitation of Affected Area.** Amendments to the approved Community Plan may be limited to one or more development units and any proposed change will not extend to, or affect, another development unit unless specifically included in the area to be affected by the proposed amendment.

C. **Land Use Budget Transfer.** A Community Plan may establish the process and criteria for permitting an unused portion of a development units' land use budget to be transferred to another development unit. To allow such transfers, the Community Plan must establish criteria to categorize transfers as major amendments or minor amendments. Such criteria shall be consistent with the requirements of this Chapter.

D. **Major Amendments.** The Planning Director shall determine if the proposed amendment constitutes a major or minor amendment. If the Planning Director determines an amendment to be major, the amendment request shall be processed as an amendment to the PC District and Community Plan. An amendment will be deemed major if it involves any one of the following:

1. A change in the overall PC District boundary.
2. A change to the permitted uses in the PC District or any development unit.
3. A change to the General Development Standards.
4. An increase in the total number of approved dwelling units, floor area ratio (FAR) or gross floor area (GFA) for the overall PC District.
5. A significant change to the boundary or gross area of a development unit from that approved in the PC District, as determined by the Planning Director. A 10 percent increase or decrease to the gross area of a development unit as approved in the PC District shall automatically be determined a significant change.
6. Any change to the land use budget for the PC District. Any change to the land use budget for a particular development unit, except if the change is a result of an approved Land Use Budget Transfer.
7. Any change in land use intensity that is likely to negatively impact or burden public facilities, transportation systems, major street systems, and utilities infrastructure as determined by the appropriate department head.
8. Any proposed change to the Community Plan that substantively alters one or more components or required elements of the PC District or Community Plan as determined by the Planning Division.

E. **Minor Amendments.** Amendments not meeting one or more of the criteria listed in above subsections shall be considered minor. If the Planning Division determines the amendment to be minor, the Planning Director may administratively act on the amendment and attach stipulations or conditions of approval thereto.

F. **Notice.** Unless otherwise provided for in the Community Plan, notice of the proposed minor amendment shall be mailed, or otherwise made as determined by the Planning Director, to each owner of property as last disclosed by county assessor records, situated wholly or partly within 750 feet of the affected development unit(s) to which the amendment relates. For purposes of giving mailed notice, if required, the Planning Division shall require the applicant to prepare the letters, and stamp and address the envelopes of all affected property owners as determined above. The fully prepared letters will then be submitted to Planning Division staff, who will place the envelopes in the mail.

G. **Written Protest.** If written protest to any minor amendment is received from any notified property owner within 15 days of the notification mailing date and such protest cannot be resolved, then the minor amendment shall be reclassified as a major amendment. No additional application shall be required, however, all provisions governing major amendments shall then apply.

H. **Planning Director Decision.** If written protest is not received as described above, the Planning Director shall render a decision on the minor amendment request. The Planning Director's decision shall be final unless appealed under section 11-11-9. The Planning Director or assigned designee shall send copies of the decision to the applicant, interested parties of record and members of the Planning & Zoning Board.

11-11-9: ADMINISTRATIVE DECISION APPEALS

A. **Appeal to Planning and Zoning Board.** An action or decision by the Planning Director on minor amendments may be appealed by the applicant, or by an owner of property located within 750 feet of the area affected by the minor amendment. The appeal shall be filed within 15 days from the date of the Planning Director's decision.

1. Appeals shall be made in writing and submitted to the Planning Director, and

2. Appeals shall include: the specific items being appealed, the conclusion the appellant believes should occur and why the initial decision should be changed. The Planning Division will submit a report and any background material regarding the appeal to the Planning & Zoning Board. The applicant associated with the action being appealed shall be informed by the Planning Division of the date, time and location of the appeal hearing.

3. The applicant shall notify adjacent property owners of the Planning and Zoning Board meeting in the same manner as described in Section 11-11-8.

4. The Planning and Zoning Board's decision on the appeal will be sent to the applicant and interested parties of record. The decision of the Planning and Zoning Board will be final, unless the applicant or an owner of property within 750 feet of the area affected by the minor amendment initiates an appeal to the City Council in accordance with Sub-section (B) of this section.

B. **Appeal to Council.** The applicant or an owner of property located within 750 feet of the area affected by the minor amendment or any action or decision involving a development unit plan or an appeal of a minor amendment to a Community Plan.

1. The appeal shall be filed within 15 days of the board's decision.

2. Appeals shall be made in writing and submitted to the Planning Director, and shall include: the specific items being appealed, the conclusion the appellant believes should occur, and why the initial decision should be changed.

3. City Council's review on appeal is de novo. The City Council may consider any information before it when hearing an appeal under this section. City Council may remand the matter for further proceedings or may affirm, reverse, or modify the decision.

11-11-10: SUPPLEMENTARY PROVISIONS

A. For the PC District, Community Plan, Development Unit Plan, Development Plan Review, and amendment thereto, notice and citizen participation shall be in accordance with Article 7, Administration this Ordinance, except an adopted Community Plan may modify these notice and citizen participation requirements for approvals and amendments that the Community Plan establishes are to be subject to approval by the Planning Director or designee.

B. The owner(s) of property located in the PC District shall notify all prospective purchasers of the existence of the PC District and the Community Plan. Upon approval of the PC District, the owner(s) shall record a notice in the County Recorder's Office that provides notice to purchasers that the property is subject to the PC District and a Community Plan and that the development and use of the property is subject to other property owner's use of the Land Use Budget in the development unit.

C. Prior to or with the approval of a PC District, there shall be a Development Agreement that includes Development Unit Phasing Schedule, Infrastructure Phasing Plan, and other terms to ensure that the future development fulfills the purposes of this Chapter and the Community Plan.

(Ord. No. 5996, § 4, 3-9-26)

CHAPTER 12 ID - INFILL DEVELOPMENT DISTRICTS*

11-12-1: PURPOSE

A. **General Purpose.** The purpose of the Infill Development (ID) Districts is to promote and facilitate the development and redevelopment of by-passed, underutilized, or abandoned properties. This district provides for the establishment of specific land uses, development standards, alternative fees and streamlined review processes as incentives to stimulate re-investment and development of these properties in a manner that will contribute to the creation of a high quality context for employment opportunities and improve the overall economic viability of that area of the city. The ID Districts may be used when other tools available in the Zoning Ordinance will not work to address the needs of the properties involved. It is the intent of this district to:

1. Encourage flexibility in the development, redevelopment, investment and reinvestment of by-passed, underutilized and/or abandoned properties that meet the criteria below for establishment of this district through the use of Infill Incentive Plans.

2. Encourage the use of innovative approaches to development that utilize sustainable development practices and incorporate environmental performance standards.

3. Where an urban form is anticipated or desired, encourage a mix of uses in close proximity of each other to promote pedestrian activity and reduce vehicle miles traveled. This goal includes consideration of off-site activities.

4. Facilitate the development, redevelopment, and use of properties in Mesa where the public infrastructure is in place.

***Editor's note**—Previously, Chapter 12 derived from Ord. No. 4262, 8-16-04.

B. **Specific Purposes of Each District.** There are two Infill Development districts:

1. ***ID-1.*** The ID-1 District is for use with small sites of less than 5 acres that need relief from only a few development standards in order to develop or redevelop.

2. ***ID-2.*** The ID-2 District is for use with sites of 2.5 acres or more that would benefit from a more comprehensive modification of standard development requirements in order to develop or redevelop.

11-12-2: APPLICABILITY

An ID District may be established for any area where the City Council finds that the property meets the definition of "by-passed parcel" as defined in this Ordinance, without regard to lot size. The Council must also find that the area within the district meets at least 3 of the following requirements:

A. There is a high percentage of vacant older or dilapidated buildings or structures;

B. There is a high percentage of vacant or underused parcels of property, obsolete or inappropriate lot or parcel sizes, buildings designed for obsolete land uses, or environmentally contaminated sites;

C. There is a high percentage of buildings or other places where nuisances exist or occur;

D. There is an absence of development and investment activity compared to other areas in the City;

E. There is a high occurrence of crime; or,

F. There is a continuing decline in population.

11-12-3: LAND USE REGULATIONS

A. **ID-1 Districts.** Land use regulations will be established for a given ID-1 district by referencing a base zoning district established in this Ordinance in the Infill Incentive Plan (IIP) and in the ordinance adopting the zoning designation. The uses allowed in that referenced district will be allowed on the property following approval of the rezoning. Example, the adopting ordinance would state that the uses permitted would be the same as the LC, Limited Commercial District.

B. **ID-2 Districts.** The land uses permitted in a given ID-2 district will be established uniquely for that district based on the Infill Incentive Plan (IIP) approved by City Council with the adoption of the ID district. The requirements for the IIP are described in Section 11-12-5.

11-12-4: DEVELOPMENT STANDARDS

A. **ID-1 Districts.** The General Development Standards established in this Ordinance and the specific development standards for the base zoning district are required, unless specifically modified by the City Council with the approval of the ID-1 district.

B. **ID-2 Districts.** The General Development Standards and specific development standards for property zoned ID-2 shall be established through the review and approval of an IIP as described in Section 11-12-5.

C. **Standards not in the Zoning Ordinance.** Modifications to development standards not established within the Zoning Ordinance shall be in accordance with procedures and processes established in the Mesa City Code (MCC). With the application of the ID District, certain modifications may be sought in accordance with MCC Sections 9-5-3(C), 9-6-7(C), and 9-8-4(C).

(Ord. No. 4262, 8-16-04)

11-12-5: INFILL INCENTIVE PLAN (IIP)

The request for an ID shall be accompanied with an Infill Incentive Plan (IIP). The IIP shall be reviewed and approved as the regulating document for property development within the ID. The adopted IIP will establish objectives, land uses, development standards, and incentives for the specific infill district. The IIP shall be submitted concurrently with the application for the ID, and shall include the following:

A. **IIP Map.** A map, which may consist of multiple sheets, drawn to a suitable scale and that includes the following elements:

1. Required map elements for ID-1 and ID-2.

   a. Boundary of the proposed ID District.

   b. The approximate location of existing and proposed transit and bus routes, bike lanes, freeways, parkways, arterial streets, and streets which provide connectivity between ID District area other major transportation and transit corridors.

   c. Existing site improvements, including adjacent street improvements.

   d. Requested deviations from General Development Standards and other development standards not established by the Zoning Ordinance, pursuant to Section 11-12-4.

2. Additional required map elements for ID-2.

   a. Major drainage elements within the proposed ID-2 District and vicinity.

   b. Existing and proposed utility corridors.

   c. Any major trails and/or bikeways, including their proposed connections to conceptual trail locations identified in the Mesa General Plan or other applicable plans adopted by the city.

   d. Location of any known significant historical, cultural, and archaeological features of the site.

B. **Statement of Need.** The statement of need shall describe the existing conditions of the area proposed for inclusion in the ID and address the items listed in Section 11-12-2 that establish the reasons for use of this district.

C. **Development Goals.** The IIP shall contain a description of the goals to be accomplished through the adoption and implementation of the ID. This description may be written and/or graphic and include a description of the final developments envisioned for the property that will meet the intent of this zoning district.

D. **Development Regulations.** The IIP shall list permitted General Development Standards and land use options, which may be assigned to specific parcels. Multiple development and land use options may be assigned and described as available alternatives.

1. ID-1 applications shall state the zoning district or districts, as listed in Section 11-3-1(A) Base Zones, being used to establish the uses permitted on the property. If more than one district is utilized, then the boundaries of each district shall be delineated on the IIP Map. The development standards associated with the designated district(s) shall govern development on the site unless deviations are requested as part of the application and approved with the adoption of the ID. The application must also include any requests for modification of development standards contained in, or authorized by Title 9 of the Mesa City Code.

2. ID-2 applications shall submit either of the following:

a. A list of base district(s), as described in subsection 1., above; or

b. A specific land use plan including allowed land uses and activities that may or may not necessarily correspond to specific base zoning districts. If this option is chosen, the adopted IIP shall govern allowed land use activities for the project site.

E. **General Development Standards.** The IIP may, but is not required to include deviations to Chapter 30, General Development Standards, as defined in Chapter 87, Definitions of this Title. In the event the IIP does not specify deviations to General Development Standards, the IIP shall specify how and when General Development Standards apply to specific sites.

F. **Design Guidelines.** The IIP may, but is not required to include IIP Design Guidelines for the development of property, including illustrations of proposed architectural, urban design, streetscape, and landscape concepts, thematic design elements such as architectural materials, building colors and landscape plants, and any proposed variation from the Design Standards or guidelines contained in this ordinance. The IIP Design Guidelines may describe broadly based design or architectural themes and concepts, sufficient to convey an idea and general pattern of development. In the event an IIP does not include Design Standards or guidelines specific to that Infill District, then the requirements of the declared base district and Article 4, Chapters 30 through 33 of this Ordinance shall apply.

G. **Review and Development Procedures.** The adoption of the ID-2 District allows for the specification of review procedures for future rezoning, site planning, design review and/or construction permit review and approval as well as waivers from other City ordinances and/or fees. If modifications are not included in the approved IIP, standard City procedures will apply. Options include:

1. ***Zoning Procedures.*** Procedures for expedited zoning or rezoning of a site, if desired.

2. ***Scheduled Timeframes.*** Customized or expedited building plan review and permitting schedule, if desired.

3. ***Waivers.*** A provision for waivers of certain municipal fees for development activities as long as the waivers are not funded by other development fees, if desired.

H. **Additional Information/Requirements.** Additional information that may be required by the City as part of the IIP for the ID-2 District are:

1. ***Infrastructure Element.*** An infrastructure element, which includes plans for incorporating transportation, stormwater drainage and utility options may be required by the City Engineer and City Traffic Engineer to evaluate current conditions and consider requested modifications.

2. ***Supplemental Reports.*** Each IIP shall be accompanied by the following supplemental reports, as determined by the Planning Director, City Engineer and City Traffic Engineer at the time of the Pre-Submittal Conference.

   a. Applicability Analysis: a narrative explaining how the area within the ID District complies with the Applicability Criteria specified in Section 11-12-2.

   b. Additional information as necessary to facilitate understanding, review and action on the application by the City Council and administration of the implementation of the IIP by the Development and Sustainability Department.

3. ***Neighborhood Compatibility.*** The IIP shall include criteria and requirements to ensure that future development plans; will facilitate development compatible with adjacent properties and surrounding neighborhoods, will facilitate the implementation of the IIP, will facilitate appropriate transitions between differing developments, and will not overburden the transportation system, utility infrastructure or community facilities.

(Ord. No. 4262, 8-16-04; Ord. No. 5928, § 19, 2-3-25; Ord. No. 5996, § 4, 3-9-26)

11-12-6: REVIEW OF ID DISTRICT AND INFILL INCENTIVE PLAN

A. The City Council may approve an application for an ID after review and holding public hearing in accordance with ARS § 9-499.10 and the requirements of Article 7 of this Ordinance. The required IIP shall be reviewed concurrently with this application. In addition to the Planning & Zoning Board, the Council, at its discretion, may request that Design Review Board or any other citizen advisory board or committee identified by Council, review and make recommendations on any or all parts of the application for compliance with the applicability and evaluation criteria, and the general appropriateness of the IIP.

B. Evaluation: the Planning & Zoning Board and City Council shall consider at a minimum the following goals and objectives when evaluating the proposed ID District and IIP. The proposed IIP shall:

1. Conform to applicable policies, land use map designations, and land use definitions of the Mesa General Plan.

2. Conform to the purposes and intents of the ID District as listed in Section 11-12-1.

3. Address the concerns outlined in the statement of need in support of the ID district.

4. Provide a land use, or a combination of land uses that are arranged and designed in such a manner as to be well integrated with other land uses, the immediate surrounding area, the planned thoroughfare system, and other public facilities such as water and sewer systems, parks, schools, transit routes and utilities.

5. Adequately, reasonably, and conveniently integrate into existing and planned streets, transit systems, and public services, utilities, and public facilities.

6. Promote development that is appropriate to and well integrated with its environmental setting, including existing vegetation, soils, geology, topography, and drainage patterns.

7. Justify any deviations from Standard Development Requirements based upon the overall quality of the plan provided, the need to address specific concerns outlined in the Statement of Need, and the need to address other conditions that may affect the viability of reasonably developing the property in a manner consistent with stated objectives of the Mesa General Plan.

8. Provide superior design and environmental sustainability in comparison with development reviewed under other base zoning district regulations.

9. Be compatible with, and not detrimental to, adjacent properties or the surrounding neighborhood(s).

(Ord. No. 4262, 8-16-04)

CHAPTER 13 (RESERVED FOR FUTURE USE)*

CHAPTER 14 EMPLOYMENT OPPORTUNITY DISTRICT†

11-14-1: PURPOSE

The purpose of the Employment Opportunity District (EO District) is to:

A. Facilitate entitlements for the development of projects aligned with City Council adopted plans and policies, particularly those projects that attract industries providing significant employment opportunity;

B. Accommodate large-scale, unified and planned employment developments that encourage and promote innovative and sustainable land uses;

C. Allow flexibility that accommodates market changes while providing incentives for high-quality development that is consistent with the goals of both the Mesa General Plan and any applicable sub-area plans;

D. Establish planning and development criteria tailored to the opportunities and constraints of the property;

E. Encourage creative and high-quality design, and establish standards leading to an efficient, aesthetic, sustainable, and desirable development; and

F. Allow flexibility that promotes unified, mixed-use development on land and improvements owned by political subdivisions of the State of Arizona.

(Ord. No. 5962, § 1, 9-22-25)

***Editor's note—**Previously, Chapter 13 derived from Ord. No. 4005, 8-5-02; Ord. No. 4006, 8-5-02; Ord. No. 4084, 6-30-03; Ord. No. 4101, 9-22-03; Ord. No. 4134, 1-5-04; Ord. No. 4395, 5-16-05; Ord. No. 4532, 4-3-06; Ord. No. 4681, 4-2-07; Ord. No. 4769, 10-15-07; Ord. No. 5025, 2-7-11.

†Editor's note—Ord. No. 5962, § 1, adopted September 22, 2025, repealed the former Ch. 14, §§ 11-14-1—11-14-10, and enacted a new Ch. 14 as set out herein. The former Ch. 14 pertained to similar subject matter and derived from Ord. No. 4262, 8-16-04; Ord. No. 4770, 10-15-07.

11-14-2: APPLICABILITY AND AUTHORITY

A. **Applicability to Qualified Political Subdivisions of the State of Arizona.** This Chapter contains requirements, standards, exceptions, and exemptions specific to political subdivisions of the State of Arizona that own all the land and all the improvements on the land that is within the area to be designated as an EO District (referred to in this Chapter as a "Qualified Political Subdivision"). If a political subdivision of the State of Arizona does not own all the land and all the improvements on the land that is within the area to be designated as an EO District, the political subdivision cannot utilize the provisions in this Chapter that are for Qualified Political Subdivisions.

B. **Eligibility.** An EO District shall only be established for an area when the City Council finds that the property meets the following requirements:

1. ***General Plan.*** EO Districts may be established within areas designated in the Mesa General Plan as Regional Center or Regional Employment Center, or any combination thereof.

2. ***Minimum Area.*** The minimum area required to establish an EO District is 160 contiguous acres, except:

   a. *Qualified Political Subdivisions.* The minimum area required to establish an EO District is 140 contiguous acres.

   b. *Adding Land to an Approved EO District.*

      i. After an EO District is approved, additional contiguous land may be added to the EO District following the procedures in this Chapter.

      ii. There shall be no minimum area required for additional land to be added to an approved EO District.

      iii. Execution of a development agreement, intergovernmental agreement, or similar agreement, or an amendment to an existing agreement may be required to add additional land to an approved EO District.

C. **Designation of Employment Opportunity District and Optional Use of a Floating Zone.** City Council's approval of an EO District shall either:

1. Apply immediately as the zoning district on a property; or

2. Create a floating zone over the property that:

   a. Retains the existing non-EO zoning district as the active zoning district until a property owner opts-in to the EO District.

   b. All requirements of the existing non-EO zoning district remain in effect until a property owner opts-in to the EO District.

   c. The property owner may be required to execute a development agreement, intergovernmental agreement, intergovernmental development agreement, or similar agreement, or amend such agreement prior to opting-in to the EO District.

3. An EO District for a Qualified Political Subdivision cannot be created as a floating zone over the property and shall apply immediately as the zoning district on the property.

D. **Opt-In Procedures.**

1. When an EO District is approved by City Council as a floating zone, a property owner may opt-in to the EO District and EO Development Plan as follows:

   a. The property owner must sign before a notary public the City's Employment Opportunity Development Plan Opt-In Form ("Opt-In Form") and submit the signed and notarized Opt-In form to the City.

   b. The property owner must comply with all conditions of approval of the EO District.

   c. A signed development agreement, intergovernmental agreement, intergovernmental development agreement, or similar agreement, or an amendment to such agreement, if required by the City, must be submitted to the City.

2. The Opt-In Form shall state, at a minimum:

   a. The EO District standards are in effect for the identified parcels(s) as of the signature date of the Opt-In Form;

   b. The requirements of the previous zoning district are no longer applicable for the identified parcel(s); and

   c. Any future development on the identified parcel(s) shall conform with the standards of the applicable EO Development Plan.

3. The City of Mesa Planning Division shall maintain an official record of the Opt-In Forms and shall update the Official Zoning Map of the City to reflect the agreed change to the zoning district.

E. **Effect Before and After Opt-In to an EO District.**

1. ***Compliance with Existing Zoning Until Opt-In.*** When an EO District is approved as a floating zone, the development and use of the property shall remain in compliance with the existing non-EO zoning district until a property owner opts-in to the EO District pursuant to the opt-in procedures in this Chapter.

2. ***Compliance After Opting-In.*** Once the Opt-In Form is signed and notarized, in no case may any subsequent development for the parcel(s) included in the EO District:

   a. Be based upon the standards of the former non-EO zoning district; or

   b. Be developed using standards of the former, non-EO zoning district combined with the EO District or EO Development Plan at the same time.

3. ***Effects on Existing Development and Land Uses After Opt-In to an EO District.***

   a. *Complies with EO Development Plan.* Existing development and land uses that comply with all applicable requirements of the approved EO Development Plan may continue to operate and shall only be altered or replaced in compliance with the requirements of the applicable EO Development Plan.

   b. *Non-compliance with EO Development Plan.* Any existing development or land use that was lawfully built in conformance with the Zoning Ordinance requirements that does not

comply with the requirements of the approved EO Development Plan shall be considered legal nonconforming and may continue to operate in compliance with the City's regulations for nonconformities to the Zoning Ordinance (Chapter 36).

F. **Other Agreements.** If the Zoning Administrator, in consultation with the City Attorney's Office, determines there is a conflict between the requirements of the approved EO District, EO Development Plan, or applicable standards approved by City Council as part of any other agreement, the more restrictive requirements shall apply.

(Ord. No. 5962, § 1, 9-22-25)

11-14-3: LAND USE REGULATIONS AND DEVELOPMENT STANDARDS

A. **Zoning.**

1. Once the EO District becomes effective on a property, either directly by City Council action, or through the opt-in procedures in this Chapter, the approved EO District and EO Development Plan are the zoning for the property.

2. The approved EO Development Plan shall be the principal reference for implementation and review of future development within the boundary of the overall site.

3. All development that takes place within the boundaries of an EO District shall be governed by and built in accordance with the approved EO Development Plan and approved amendments, and any development agreement, intergovernmental agreement, intergovernmental development agreement, or similar agreement that was executed as a condition of the EO District.

B. **Land Uses.** The permitted, conditional, and prohibited land uses for an EO District shall be listed in, and established by, an approved EO Development Plan.

1. Permitted, conditional, and prohibited land uses may be based in whole or in part on the land use classification descriptions in the Zoning Ordinance or based on land use classification descriptions or Land Use Groups (LUGs) established in an EO Development Plan.

   a. The EO Development Plan may establish land uses are not listed in the Zoning Ordinance.

   b. If a proposed land use is not listed in an approved EO Development Plan, it is prohibited unless the Zoning Administrator determines the proposed land use is within or equivalent to a permitted land use in the approved EO Development Plan as identified in Section 11-86-1: Purpose and Applicability.

2. ***Land Uses for Qualified Political Subdivisions.*** In addition to Section 11-14-3(A) and 11-14-3(B), an EO Development Plan for a Qualified Political Subdivision may, with the approval of both an EO Development Plan and an intergovernmental agreement, intergovernmental development agreement, or similar agreement, establish:

   a. Categories of land uses, development activities, projects, and sites.

   b. Exemptions from the regulations in the Zoning Ordinance, the EO Development Plan, or both, that are based on the category of land use, development activity, project, or site.

      i. Any exemption shall be expressly set forth in the EO Development Plan; and

ii. Exemptions shall be subject to further regulation in, and compliance with, an intergovernmental agreement, intergovernmental development agreement, or other similar agreement.

c. Flexibility in defining minor and major adjustments to permitted, prohibited, and restricted land uses, and an administrative review and approval process for such requests.

C. **General Development Standards.** The EO Development Plan shall expressly set forth the General Development Standards (as defined in Chapter 87 of the Zoning Ordinance) for the EO District.

1. ***Application of the General Development Standards.*** General Development Standards, including those amended by the EO Development Plan, shall apply to all development in the EO District.

2. ***Zoning Ordinance Standards as Default Standards.***

a. A default standard base zoning district shall be selected as part of the EO Development Plan.

b. Any General Development Standards not specified within the approved EO Development Plan shall conform with the standards set forth in the Zoning Ordinance.

3. ***Adjustments to the General Development Standards in an approved EO Development Plan.*** A request for an adjustment to any General Development Standard in an approved EO Development Plan for a specific project or site will be reviewed and processed as follows:

a. *Minor Adjustments.*

i. The Planning Director may administratively evaluate requests for minor adjustments to the General Development Standards for a specific development project or site and may grant the minor adjustment if it complies with the criteria in this section.

ii. A minor adjustment is an adjustment that is less than 20% of the required number, dimension, or measurement, as determined by the Planning Director.

iii. The Planning Director shall use, at a minimum, the following criteria when evaluating a request for a minor adjustment:

(1) The minor adjustment is consistent with the application of design requirements designated in the approved EO Development Plan;

(2) The minor adjustment is consistent with the implementation of the EO Development Plan;

(3) The minor adjustment will result in a project design that meets or exceeds the design goals and guidelines in the approved EO Development Plan;

(4) The minor adjustment will result in a building of equivalent quality and architectural design, as determined by building form and massing, use of materials and colors, relationship of the development project to the project context, and relationship of the building to the building site; and

(5) The minor adjustment is in accordance with the Mesa Building Code (Title 4 of the Mesa City Code), adopted Engineering Division requirements, and associated requirements of the City of Mesa, as may be applicable.

b. *Major Adjustments.*

i. A major adjustment is an adjustment that is either 20% or greater than the required number, dimension, or measurement or an adjustment that the Planning Director determines does not meet the criteria for a minor adjustment in this section.

ii. A request for a major adjustment to the General Development Standards for a specific development project or site will be reviewed and processed as per Chapter 67 of the Zoning Ordinance.

4. ***Flexibility in the Review Process for Adjustments to General Development Standards.***

a. An EO Development Plan may establish administrative processes and review criteria for approving requests for adjustments to the General Development Standards that may be different than the requirements in this section and may include different processes and review criteria for adjustments based on the category of land use, development activity, project, or site.

b. The process must be expressly set forth in the EO Development Plan and may be subject to further regulation in, and compliance with, a development agreement, intergovernmental agreement, intergovernmental development agreement, or other similar agreement.

5. ***Compliance Required with FAA Requirements.*** In addition to the requirements in Section 11-14-3(C), any General Development Standards or review process and review criteria for adjustments to General Development Standards are subject to the following:

a. Any modification to a height requirement must comply with Federal Aviation Administration (FAA) Code of Federal Regulations (CFR) Title 14 Part 77.

b. Any modification must comply with all requirements and standards in Chapter 19, Airfield Overlay District, of the Zoning Ordinance.

c. Any other requirements that are set forth in a development agreement, intergovernmental agreement, intergovernmental development agreement, or similar agreement and compliance with such agreement.

(Ord. No. 5962, § 1, 9-22-25)

11-14-4: APPLICATION REQUIREMENTS

A. **Pre-Submittal Conference.**

1. A Pre-Submittal Conference that includes the Planning Director, or their designee(s), is required prior to submittal of an application for EO District zoning.

2. The applicant shall provide: a description of the boundary of the proposed EO District; a project narrative with proposed Land Use Groups ("LUGs"); and proposed General Development Standards.

B. **Application and Submittal Requirements.**

1. In addition to the requirements for rezoning amendments in Chapter 76 of the Zoning Ordinance, applications for the EO District shall be accompanied by all the following information:

a. A complete application and payment of required fees.

b. A map showing the ownership of the property within the proposed EO District, as listed in the records of the Maricopa County Assessor's Office.

c. A general description of the proposed EO District boundary including bordering streets and canals.

d. A project narrative describing and explaining how the proposed EO District and associated EO Development Plan comply with the purpose, intent, and requirements of both the Mesa General Plan and the EO District. This narrative shall be separate from the EO Development Plan.

e. An EO Development Plan, which shall include all the minimum required elements listed in Section 11-14-5.

2. A submittal that fails to include all the information in Subsection (B)(1) above shall be considered incomplete and will not be scheduled for consideration.

C. **Evaluation.** The Planning and Zoning Board and City Council shall consider, at a minimum, the following goals and objectives when evaluating a proposed EO Development Plan. The proposed EO Development Plan shall:

1. Conform to applicable policies, land use map designations, and land use definitions of the Mesa General Plan, any Sub-area plans, and/or strategic plans and policies of the City Council;

2. Conform to the purpose of the EO District as required in this Chapter;

3. Provide a combination of land uses that are designed to be integrated with other land uses in the immediate surrounding area, the planned thoroughfare system, and other public facilities such as water and sewer systems, parks, schools, transit routes, and utilities;

4. Promote development that creates concentrated areas of employment; and

5. Provide a level of detail adequately describing high-quality development and design themes that will implement the built environment described by the EO Development Plan.

D. **Conditions.** In approving an EO District, the City Council may place conditions for its approval, and the approval of the associated EO Development Plan. Such conditions of approval may include, but are not limited to:

1. Conditions to ensure implementation of the EO Development Plan in accordance with the Mesa General Plan, and other applicable plans and policies adopted by the City;

2. Conditions to achieve the purpose of this Chapter;

3. Conditions requiring additional or different approval processes for Development Plans within the EO District; and

4. Conditions requiring execution of a development agreement, intergovernmental agreement, intergovernmental development agreement or similar agreement, or an amendment to an existing agreement.

E. **Intergovernmental Agreement for Qualified Political Subdivisions.**

1. In addition to the conditions above, a Qualified Political Subdivision that is applying for an EO District will be required to enter into an intergovernmental agreement, intergovernmental development agreement, or similar agreement concurrently with the EO Development Plan and the execution of such agreement(s) will be a condition of approval for the EO District.

2. After an EO District is approved, if a Qualified Political Subdivision wishes to add additional land to the approved EO District or make major modifications to an approved EO Development Plan, in addition to the conditions above, the Qualified Political Subdivision will be required to enter into an intergovernmental agreement, intergovernmental development agreement, or similar agreement, or amend an existing agreement, concurrently with the amendment to the EO Development Plan and the execution of such agreement(s) will be a condition of approval for the EO District.

(Ord. No. 5962, § 1, 9-22-25; Ord. No. 5996, § 4, 3-9-26)

11-14-5: EO DEVELOPMENT PLAN CONTENTS

An EO Development Plan shall be submitted concurrently with the application for the EO District, and shall include, at a minimum, the following:

A. **EO Development Plan Map.** A map, which may consist of multiple sheets, drawn to a suitable scale, which includes the following elements:

1. The boundary of the proposed EO District.

2. The approximate location of proposed freeways, parkways, arterial and other streets, and other transportation facilities which provide connectivity to surrounding development.

3. An EO Development Plan may consist of one (1) or more LUGs. The EO Development Plan Map shall include approximate locations of differing LUGs, if used.

B. **Development Goals.**

1. The EO Development Plan shall contain a list of goals and objectives, and a narrative explanation of these goals, that are to be accomplished through approval and implementation of the EO Development Plan.

2. This description may include graphic and photographic examples and shall include descriptions of the anticipated types of development envisioned for the property that will meet the intent of the zoning district and associated economic development benefits.

C. **Land Use Regulations.** The EO Development Plan shall contain permitted, conditional, and prohibited land uses, as described in Section 11-14-3.

D. **General Development Standards.** The EO Development Plan shall expressly set forth the General Development Standards as required in Section 11-14-3.

E. **Design Guidelines and Standards.** The EO Development Plan shall contain design standards and guidelines for the development of the property. The guidelines must include the following items as applicable:

1. Broadly based design or architectural themes and concepts, sufficient to convey an idea and general pattern of development.

2. Written standards and guidelines for proposed architectural, urban design, streetscape, and landscape concepts, thematic design elements such as architectural materials, building colors and landscape plants.

3. Any proposed variation from Chapter 30, General Site Development Standards.

4. The guidelines may include supplementary narrative and/or graphic formats.

F. **Sign Regulations.**

1. The EO Development Plan shall specify temporary and permanent sign requirements, using one (1) or a combination of the following:

a. Providing sign allowances for LUGs by citing requirements of identified default base zoning districts, or by citing sections of the Mesa Sign Ordinance; or

b. Identifying specific sign allowances for permanent signs that differ from standard allowances for identified base zoning districts; or

c. Specifying that a Comprehensive Sign Plan shall be required for developments governed by that specific EO Development Plan. The requirement for a Comprehensive Sign Plan may apply to all development sites governed by the EO Development Plan or may be limited to a few selected development sites.

2. ***Sign Regulations for Qualified Political Subdivisions.*** Qualified Political Subdivisions are subject to the Mesa Sign Ordinance (including without limitation Billboards and Freeway Landmark Monuments regulations) and the sign regulations above, unless exempt under Arizona law.

G. **Site Specific Requirements Based on Location.** An EO Development Plan shall include any measures necessary to address compatibility with surrounding properties and provide for appropriate transitions.

H. **EO Development Plan Requirements for Qualified Political Subdivisions.** To evaluate the land use regulations and General Development Standards being proposed by a political subdivision of the State of Arizona, the Planning Director may eliminate, modify, or expand the minimum EO Development Plan content requirements, and the Qualified Political Subdivision shall provide such information that the Planning Director deems necessary to review its application.

(Ord. No. 5962, § 1, 9-22-25)

11-14-6: DEVELOPMENT PLAN REVIEW

A. **Pre-Submittal Conference.**

1. A Pre-Submittal Conference with the Planning Director and City Engineer, or their designee(s), is required prior to submittal of a development plan application; except

2. A Pre-Submittal Conference may be waived for Qualified Political Subdivisions if expressly set forth in the approved EO Development Plan.

B. **Development Plan Approval Required.**

1. All development within an EO District shall require Development Plan Review approval from the City of Mesa; except

2. The requirement for Development Plan Review may be waived for Qualified Political Subdivisions if expressly set forth in the approved EO Development Plan and the intergovernmental agreement, intergovernmental development agreement, or similar agreement for the EO District.

C. **Required Information.** Unless exempt from Development Plan Review, development applications within an approved EO District shall include:

1. Identification of the proposed range of land use classifications, or, when used, the LUGs specified for the development site by the EO Development Plan;

2. Drawings (drawn to scale), including a development plan, landscape plan, and building elevations;

3. Other supporting materials and documents, as determined by the EO Development Plan; and

4. Additional materials and plans may be requested by the Planning Director to determine full compliance with the EO Development Plan, and compatibility of the project to neighboring development.

D. **Land Use Boundaries Set by Development Plan Review.**

1. When distinct, multiple LUGs are used in an EO Development Plan, the development plan approved for a specific location or land parcel will set boundaries and shall designate which LUG applies.

2. All future use and development of that site shall conform to the requirements of that specified LUG unless a different LUG is otherwise approved by the Planning Director as a part of a subsequent Development Plan Review application.

E. **Development Plan Review Process.**

1. Unless exempt under an approved EO Development Plan, development plans shall be reviewed and approved by the Planning Director or designee(s), through the administrative process unless a site within the EO Development Plan area is otherwise designated for review by public hearing by the approved EO Development Plan.

2. ***Exemptions for Qualified Political Subdivisions.***

a. A Qualified Political Subdivision may identify in the EO Development Plan and the intergovernmental agreement, intergovernmental development agreement, or similar agreement for the EO District, the categories of land uses, development activities, projects, and sites that are exempt from the City's Development Plan Review and approval process and which development plans are subject to the Qualified Political Subdivision's review and approval processes (including Development Plan Modification and renewal processes), and development plan expiration timeframes.

b. Any exemption must be expressly set forth in the EO Development Plan and is subject to further regulation in, and compliance with, an intergovernmental agreement, intergovernmental development agreement, or similar agreement.

F. **Review and Conditions.**

1. Development plans shall be reviewed for consistency with the requirements of the EO District and the approved EO Development Plan.

2. Conditions may be imposed on the approval of any development plan as may be deemed necessary by the Planning Director to ensure that the site is designed in a way to facilitate compatibility with adjacent property, and to ensure that the development will be built in accordance with the approved EO Development Plan.

3. The EO Development Plan may establish additional criteria for such conditions. Consistent with this Chapter and any additional criteria established in the EO Development Plan, such conditions may include:

   a. Revised building setbacks;

   b. Revised landscaping;

   c. Revised on-site parking and loading spaces;

   d. Height and area limitations on structures;

   e. Limited vehicular access;

   f. Placement and/or installation of walls, fences and screening devices;

   g. Installation of noise attenuating devices or construction;

   h. Off-site improvements in public rights-of-way adjacent to the subject property; and

   i. Placement of all detached signs.

G. **Expiration and Renewal of Development Plan Approvals.**

1. ***Expiration.*** The approval of a development plan located within an approved EO District shall expire five (5) years following the date of the approval, unless a building permit has been issued and construction diligently pursued.

2. ***Extension.***

   a. Development plan approval may be extended once for a period of not more than one (1) additional year by the Planning Director.

   b. Application for an extension shall be made in writing not more than 60 days before and not more than 30 days after the expiration of the original approval.

   c. The Planning Director may extend a development plan approval if the development plan and any minor revisions approved since the initial adoption of the Development Plan Review remain consistent with the purpose and intent of this Chapter, and the applicable EO Development Plan.

3. ***New Application.*** If the approval of a development plan expires and an extension to the approval is not, or cannot, be granted, a new application for Development Plan Review shall be required.

(Ord. No. 5962, § 1, 9-22-25; Ord. No. 5996, § 4, 3-9-26)

11-14-7: AMENDMENTS TO AN APPROVED EO DISTRICT

A. **Amendments.** The Planning Director shall determine if a proposed amendment to an approved EO District (including an amendment to an EO District for a Qualified Political Subdivision) constitutes a major or minor amendment.

1. ***Major Amendments.***

a. If the Planning Director determines an amendment to be major, the amendment request shall be processed as an amendment to the EO District and EO Development Plan, which shall require review and approval by both the Planning and Zoning Board and the City Council in accordance with the requirements of Chapter 67 of the Zoning Ordinance.

b. An amendment will be deemed major if it involves a change or modification to any of the following:

i. The overall EO District boundary;

ii. The permitted, conditional, or restricted land uses in the EO District as listed in the EO Development Plan;

iii. The General Development Standards not deemed as minor by the Planning Director; or

iv. Any change to the EO Development Plan that substantively alters one (1) or more components or required elements of the EO District or EO Development Plan as determined by the Planning Director.

2. ***Minor Amendments.*** Amendments not meeting the criteria listed in Subsection A(1)(b), above, shall be considered minor. If the Planning Director determines the amendment to be minor, the Planning Director may administratively act on the amendment and attach stipulations or conditions of approval thereto.

(Ord. No. 5962, § 1, 9-22-25)

11-14-8: ADMINISTRATIVE NOTICING, PROCESS, AND APPEALS

A. **Administrative Actions.** The following requests shall be reviewed on an administrative basis:

1. Development Plan Reviews unless a site within the EO Development Plan area is otherwise designated for review by public hearing by the approved EO Development Plan;

2. Development Plan Modifications;

3. Minor Adjustments to General Development Standards; and

4. Minor Amendments to the EO Development Plan.

B. **Notice of Administrative Action Requests.**

1. Letters delivered by first-class mail shall be sent to owners of those properties located within 750 feet of the exterior boundaries of the property that is the subject of the administrative action.

2. The notice letters shall be mailed a maximum of five (5) working days after the application for administrative action is received.

3. The notice letter shall:

   a. Provide a brief narrative summary of the requested action.

   b. Provide copies of any graphic plans and drawings submitted by the applicant in support of the requested action.

   c. Provide the following information in order that the recipient of the notice letter may communicate with the applicant and the Mesa Planning Division staff planner assigned to manage the request:

      i. Telephone numbers;

      ii. E-mail addresses; and

      iii. Street addresses.

   d. Provide an explanation that the intended recipient of the notice letter, or their assigned representative, may:

      i. Express interest in, and be notified of, the decision made on request.

      ii. Provide comments expressing support or concern regarding the request and list the basis for the support or concern.

   e. Specify that the recipient has ten (10) days from the postmark on the notice letter to submit comments on the proposed request to the Mesa Planning Division.

C. **Administrative Decision Process.**

1. The Planning Director or Zoning Administrator, as applicable, shall review the application and make a decision, which may include conditions of approval.

2. Notice of the decision shall be sent to the applicant and those owners of properties within 750 feet of the exterior boundaries of the application site that have expressed written interest in being notified of the decision by the filing date described in Subsection B, above.

3. Included with the decision notice, there shall be a statement of the ability to file an appeal of the decision, a description of the appeal process, and a deadline by which to file an appeal.

D. **Appeals to the Planning and Zoning Board.**

1. A Planning Director action or decision on a development plan, Development Plan Modification, minor EO Development Plan amendment, or minor General Development Standards adjustment may be appealed by the applicant, or by an owner of property located within 750 feet of the property that is the subject of the Planning Director's decision.

2. A written notice of appeal shall set forth the information required in Section 11-77-4(B) and shall be filed within 15 calendar days from the date of the Planning Director's decision and shall be heard by the Planning and Zoning Board.

E. **Appeals to the Board of Adjustments.** A decision by the Zoning Administrator in determining an equivalent land use may be appealed by the applicant, or by a property owner located within 750 feet of the property

that is the subject of the Zoning Administrator's decision. A written notice of appeal shall set forth the information required in Section 11-77-4(B) and the appeal shall be filed within 15 calendar days from the date of the Zoning Administrator's decision and shall be heard by the Board of Adjustment.

F. **Evaluation of Administrative Action Appeals.** An appeal of an administrative decision shall be evaluated based on the same criteria used by the Planning Director or Zoning Administrator when making the decision that is the subject of the appeal.

G. **Notice of Appeals.**

1. Notice of any appeal shall be sent to the property owner of the project, and any property owner filing the appeal.

2. Notice of appeals to the Planning and Zoning Board shall be in the same manner as described in Section 11-67-5(A)(1).

3. Notice of appeals to the Board of Adjustment shall be in the same manner as described in Section 11-67-5(A)(2).

H. **Further Appeals.** Any further appeals of the decision of the Planning and Zoning Board or the decision of the Board of Adjustment shall be in accordance with Section 11-67-12 and Chapter 77 of this Ordinance.

(Ord. No. 5962, § 1, 9-22-25; Ord. No. 5996, § 4, 3-9-26)

CHAPTER 15 LEISURE AND RECREATION (LR) DISTRICT SECTIONS

11-15-1: PURPOSE

The purpose of the Leisure and Recreation (LR) District is to allow public and private parks as a specific base zoning district. The district provides for a variety of recreation-related facilities and uses for residents and visitors of the City.

(Ord. No. 5554, § 3, 2-10-20)

11-15-2: LAND USE REGULATIONS

In Table 11-15-2, the land use regulations for each Leisure and Recreation Zoning District are established by letter designations as follows:

* "P" designates use classifications permitted in the Leisure and Recreation District.

* "SUP" designates use classifications permitted on approval of a special use permit.

* "CUP" designates use classifications permitted on approval of a council use permit.

* "(X)" a number in parentheses refers to a limitation following the table.

Use classifications not listed are prohibited. The "additional use regulations" column includes specific limitations applicable to the use classification or refers to regulations located elsewhere in this Ordinance.

(Ord. No. 5554, § 3, 2-10-20; Ord. No. 5759, § 1, 12-8-22)

11-15-3: REVIEW OF PLANS

Administrative use permits, special use permits, and council use permits shall follow the standards established in Chapter 70 of this Ordinance. All other uses and development shall comply with the review procedures, standards and criteria established in Article 7, Administration.
(Ord. No. 5554, § 3, 2-10-20)

ARTICLE 3

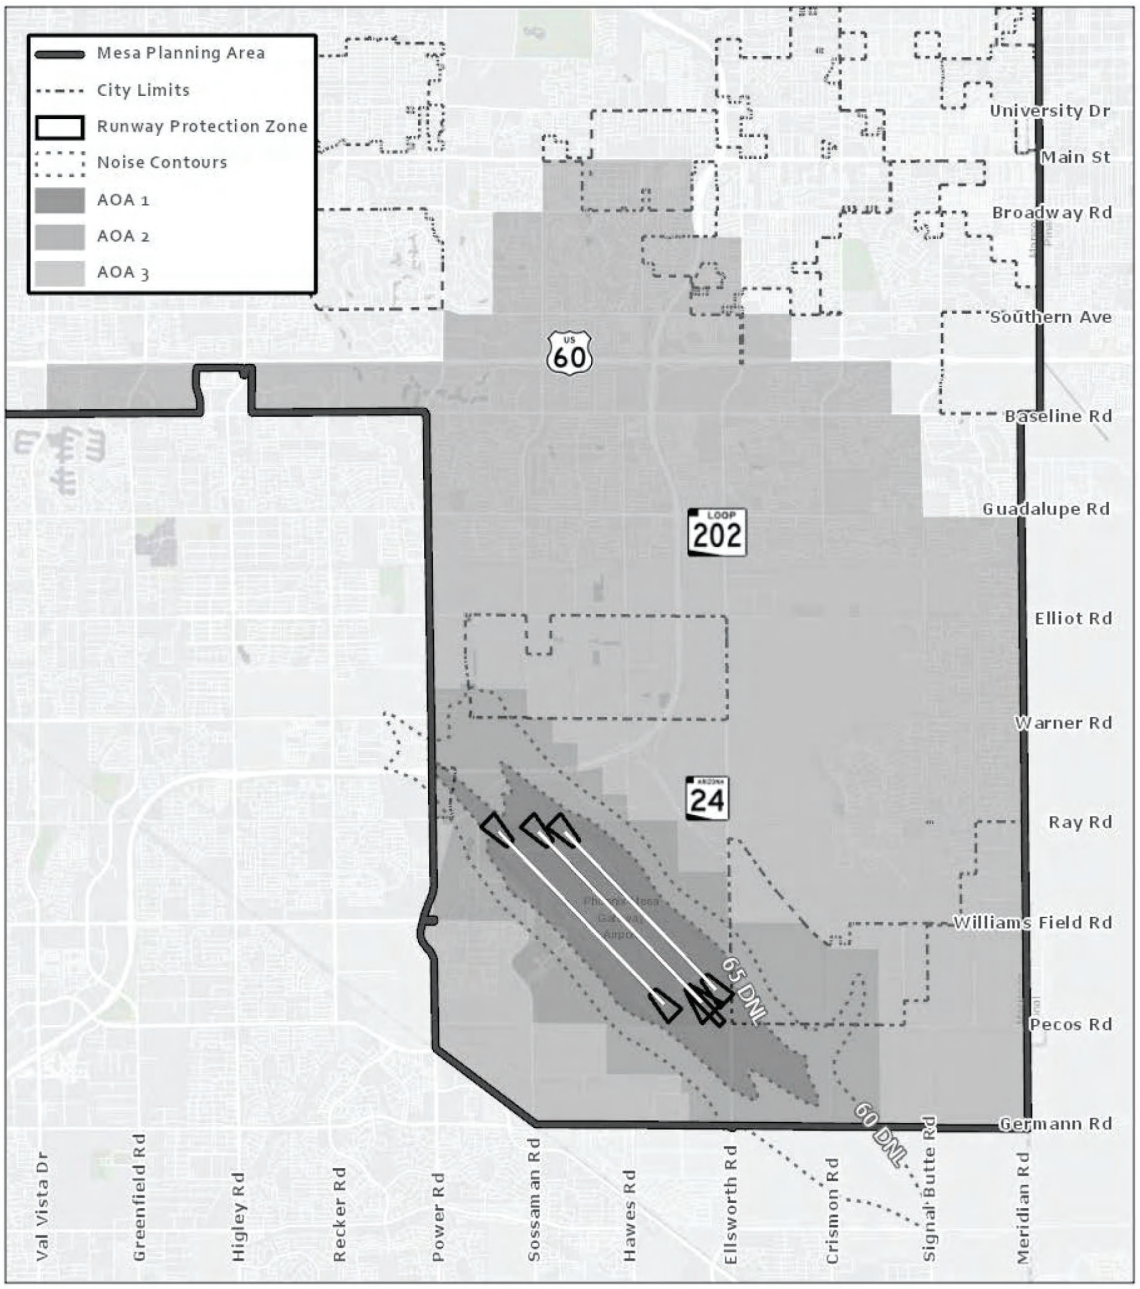
OVERLAY ZONES

CHAPTER 19 AIRFIELD OVERLAY DISTRICT

11-19-1: PURPOSE AND INTENT

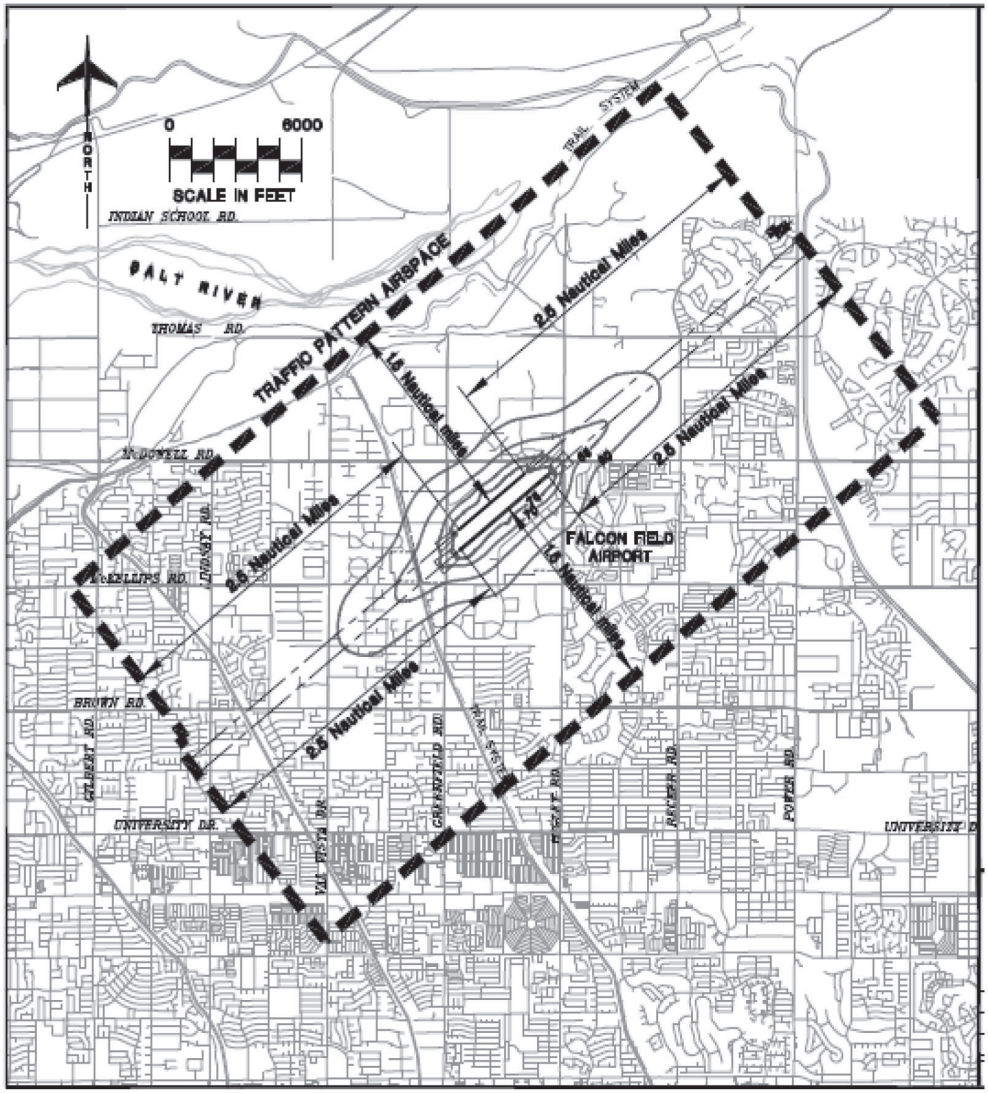
The purpose of the Airfield (AF) Overlay District is to recognize the effects and hazards associated with the operation of aircraft in designated areas and the effect of aircraft operation on nearby areas. This district is intended to promote the public health and safety in the vicinity of aircraft operation areas by establishing Runway Protection Zones and Overflight Areas and designating permitted land uses, public notification and noise attenuation requirements within these areas to minimize exposure to the hazards, high noise levels, and overflight activity generated by aircraft operations and encourage future development compatible with and supportive of the continued operation of airports and other approved aircraft operation areas. Implementation of this district assists in achieving compliance with CFP 14 Part 77 with regards to the safe, efficient use, and preservation of navigable air space.
(Ord. No. 5446, 6-4-18)

11-19-2: RUNWAY PROTECTION ZONES AND AIRPORT OVERFLIGHT AREAS



A. **Establishment of Runway Protection Zones and Airport Overflight Areas.** The Runway Protection Zones and Airport Overflight Areas described below are established as shown on Map AF-1 or AF-2: Airport Overflight. Within the Airfield Overlay District there are four sub-areas:

1. Runway Protection Zones (RPZ)



2. Airport Overflight Area One (AOA 1)

3. Airport Overflight Area Two (AOA 2)

4. Airport Overflight Area Three (AOA 3)

MAP AF-1: AIRFIELD OVERLAY - PHOENIX-MESA GATEWAY AIRPORT

MAP AF-2: AIRFIELD OVERLAY - MESA-FALCON FIELD AIRPORT

B. **Uncertainty of Boundaries.** Where uncertainty exists as to the boundaries of the Runway Protection Zones and Airport Overflight Areas shown on map AF-1 or AF-2, the following rules shall apply:

1. Boundaries shall be scaled from the nearest physical feature shown on the map, such as roads and canals;

2. Boundaries on the map shall be scaled from the nearest lot line; or

3. Distances not specifically indicated on either map AF-1 or Map AF-2 shall be determined by a scaled measurement on the map.

C. Where physical features on the ground differ from the information shown on Maps AF-1 or AF-2, or when there arises a question as to how or where a parcel of property is zoned or in which Runway Protection Zone or Overflight Area the property is located and such questions cannot be resolved by the application of the above rules, the property shall be considered to be classified as the more restrictive Runway Protection Zone or Airport Overflight Area.

D. Where a parcel of land lies within more than one (1) Runway Protection Zone or Airport Overflight Area, the Runway Protection Zone or Airport Overflight Area within which each portion of the property is located shall apply individually to each portion of the development.

(Ord. No. 5446, 6-4-18)

11-19-3: DEFINITIONS SPECIFIC TO AIRFIELD OVERLAY DISTRICTS

Aircraft: Any contrivance, now known or hereafter invented, for use or designed for navigation of or flight in the air, including helicopters, fixed-wing aircraft and gliders, and lighter-than-air vehicles, such as hot-air balloons, blimps and dirigibles.

Airport: The Phoenix - Mesa Gateway Airport owned and operated by the Phoenix- Gateway Airport Authority, or Falcon Field Airport, owned and operated by the City of Mesa, as may be applicable. Airports (plural) refers to both places.

Airport Overflight Area: The areas described in technical studies of airport operation order Federal Aviation Administration (FAA) procedures. The entire Airport Overflight Area consists of 3 Airport Overflight sub-areas: Area One, Area Two and Area Three.

Airport Overflight Area One (AOA 1): The area within the 65 DNL contour.

Airport Overflight Area Two (AOA 2): The area between the 60 and 65 DNL noise contours, as "squared off" by addition of an additional one-half mile for ease of application.

Airport Overflight Area Three (AOA 3): The area outside the 60 DNL contour area as defined by Airport Overflight Area Two, which extends to the balance of the Airport Overflight Area.

Airport hazard: Any structure or object of natural growth, use of land, or other item classified by the FAA as an obstruction to the airspace required for the flight of aircraft arriving at, or departing from, the Airport.

Avigation easement: An easement granted for aviation purposes over and across a property which acknowledges the property will be subject to aircraft overflights and which holds the City, the public and either of the Airports harmless from any damages caused by noise, vibration, fumes, dust, fuel, fuel particles, or other effects that may be caused by aircraft landing, departing or operating at or near either of the Airports, not including the physical impact of aircraft or parts thereof.

DNL (Day-Night Level): The 24-hour average sound level in A-weighted decibels, obtained after the addition of 10 decibels (dB) to sound levels for the periods between 10:00 P.M. and 7:00 A.M. as averaged over a span of 1 year. It is the Federal Aviation Administration (FAA) standard metric for determining the cumulative exposure of individuals to noise.

Decibel (dB): A standard measure of sound intensity, sound power or sound pressure equal to 20 times the common logarithm of the ratio of the pressure produced by the sound wave to a reference pressure, usually 0.0002 microbar.

Noise Level Reduction (NLR): The reduction of outside noise transmitted inside a structure achieved through the incorporation of noise attenuation into the design and construction of the structure.

Noise sensitive uses: Those activities considered to be adversely affected by high noise levels including, but not limited to: single residence or multiple residence housing, hotels, motels, hospitals, nursing homes, places of worship, libraries, public and private schools, standalone day care centers, and places of public assembly.

Runway: A defined area on an airport prepared for landing and takeoff of aircraft along its length. The runway includes any proposed runway or runway extension as shown on the most current Phoenix - Mesa Gateway Airport Layout Plan, Falcon Field Airport Layout Plan, or any other Council approved airport planning document.
(Ord. No. 5446, 6-4-18)

11-19-4: LAND USE REGULATIONS

A. **Runway Protection Zones (RPZ).** In order to minimize public exposure to accident hazard and crash potential as generated by aircraft operations, no building shall be located within any portion of a runway protection zone as defined and designated by this Code. However, such onsite improvements as vehicle parking, storm water retention, landscaping, and yard setbacks, as otherwise required by this Code or other city regulation, may be permitted within the designated runway protection zones. No element of any landscaping shall be allowed to penetrate any runway protection zone slope or other approach surface.

B. **Airport Overflight Areas One and Two (AOA 1, AOA 2).** Use limitations are imposed for the AOA 1 and AOA 2 Overflight Areas as shown in the district Land Use Regulation Tables, See Tables 11-4-2, 11-5-2, 11-6-2, 11-7-2, and 11-10-2.

C. **Airport Overflight Area Three (AOA 3).** For areas within the AOA 3 Overflight Area, there are no use limitations beyond those in the base district.

11-19-5: SUPPLEMENTARY PROVISIONS

A. **Avigation Easement.** The owners of any property, including mortgagees, other lien holders and easement holders, located within the Airfield Overlay District shall execute an avigation easement prior to or concurrently with the recordation of any subdivision final plat, or issuance of any building permit, whichever occurs first. The easement shall be in a form approved by the Mesa Planning Director and City Attorney. This easement shall hold the City, the public and the associated Airport harmless from any damages caused by noise, vibration, fumes, dust, fuel, fuel particles, or any other effects that may be caused by aircraft landing, departing or operating at or near a designated Airport, not including the physical impact of aircraft or parts thereof.

B. **Notification of Buyers.** No person shall sell or offer for sale any property located within the Airfield Overlay District unless the prospective buyer has been notified of the fact that the property is located within the Airfield Overlay District.

C. **Disclosure.** The following notice shall be provided in accordance with paragraphs one (1) and (2) below for all single and multiple residence housing and other noise sensitive uses. "This property, due to its proximity to a designated Airport, will experience aircraft overflights, which is expected to generate noise levels that may be of concern to some individuals. The mix of aviation activities and types of aircraft expected to be

located at the airport now and in the future may include: scheduled and unscheduled commercial charters, commercial air carriers and commercial air cargo operations, all of which are expected to use large commercial aircraft, corporate and executive jets, helicopters, general aviation aircraft, aviation flight training schools using training aircraft and high performance military jets. The size of aircraft and frequency of use of such aircraft may change over time depending on market and technology changes."

1. ***Final Subdivision Plats and Public Reports.*** For all areas within an AF overlay district, final subdivision plats and public reports filed with the Arizona Department of Real Estate shall provide notice that discloses the location of the Airport and the potential for aircraft overflights and objectionable aircraft noise and shall include, at minimum, the disclosure in Subsection C above.

2. ***Real Estate and Similar Sales and Leasing Offices.*** Sales and leasing offices shall provide notice to all prospective buyers and lessees stating that the project is located within an Overflight Area. Such notice shall consist of a sign at least 4-foot × 4-foot installed at the entrance to the sales office or leasing office at each project. The sign shall be installed prior to commencement of sales or leases and shall not be removed until the sales office is permanently closed or leasing office no longer leases units in the project. The sign shall state the disclosure in Subsection C above letters of at least 2" in height.

D. **Noise Level Reduction.** A building permit shall not be issued for any structure requiring a Certificate of Occupancy or designed for habitation, within the Airfield Overlay District, until the plans and specifications accompanying the application for the building permit have been certified by a registered Professional Engineer or registered Professional Architect in the State of Arizona as demonstrating that indoor noise levels attributable to airport operations shall not exceed 45 db for all portions of a structure where the public is received, office areas, public assembly rooms, sleeping areas, noise-sensitive areas and other areas where the ambient noise level is expected to be low. Plazas, courtyards, outside displays, covered/partially enclosed work areas, storage areas, loading bays, and similar areas are excluded.

E. **Provisions.** Notwithstanding any other provisions of this Chapter and in compliance with CFR 14 Part 77, no use may be made within any area affected by this Chapter in such a manner as to obstruct navigable airspace, interfere with navigational signals, impair radio communication between the Air Traffic Control Tower and aircraft, impair visibility in the vicinity of the Airport, create bird strike hazards, or otherwise materially endanger or interfere with the landing, takeoff, operation or movement of aircraft.

(Ord. No. 4059, 4-7-03; Ord. No. 4105, 9-22-03; Ord. No. 4157, 2-17-04; Ord. No. 4193, 5-17-04; Ord. No. 5446, 6-4-18)

CHAPTER 20 AGE-SPECIFIC OVERLAY DISTRICT

11-20-1: PURPOSE

The purpose of the Age-Specific (AS) Overlay District is to provide a residential environment conducive to the lifestyle and particular needs of senior citizens and retirees. This district is intended to be utilized for existing and proposed planned residential developments developed, advertised, and sold under certain age-specific conditions that contain facilities and services specifically designed to meet the physical and social needs of older persons.

11-20-2: LAND USE REGULATIONS

A. The Age-Specific Overlay District is to be used in conjunction with an underlying residential zoning district, thereby permitting the same uses as the underlying base zoning district.

1. Each dwelling unit, if occupied, shall be occupied by at least one (1) person not less than 55 years of age. Unless a person of not less than 55 years of age also occupies the residence, no person less than 55 years of age shall reside in any dwelling unit for a period of time exceeding 90 days, unless except pursuant to an Administrative Use Permit issued in accordance with Chapter 70, Conditional Use Permits. Evaluation and Issuance of the Administrative Use Permit shall be based on the following criteria:

a. The residence has been occupied by some person of not less than 55 years of age within the last 12 months.

b. The person that is less than 55 years of age is a spouse or blood relative related to the previous occupant mentioned in (a), above, or listed as a recipient of the estate or trust of the previous occupant.

2. Administrative Use Permits are subject to the expiration, extension, modification, and appeal provisions of Chapter 67, Common Procedures and Chapter 77, Appeals.

(Ord. No. 5996, § 3, 3-9-26)

11-20-3: SUPPLEMENTAL REGULATIONS

A. An application for Age-Specific overlay zoning may be approved by the City Council only after submission of the following materials:

1. A petition signed by 100 percent of the owners of property within the proposed district; or

2. Documentation that all of the property within the proposed district has been, and will continue to be, developed, advertised, and sold or rented under specific age restrictions; and

3. Documentation of the existence and availability of facilities and services designed to meet the physical and social needs of older persons.

B. Age-Specific overlay zoning district may be established only on parcels of 40 or more contiguous acres.

CHAPTER 21 BONUS INTENSITY ZONE OVERLAY DISTRICT

11-21-1: PURPOSE

The purpose of the Bonus Intensity Zone (BIZ) Overlay District is to provide for variation from the application of residential densities and other development standards to allow greater intensity of development and encourage unique, innovative developments of superior quality. It must be demonstrated that the resulting development will

further the goals and objectives of the General Plan, Specific Plans, and Council policies and will provide significant social or economic benefits to the City. This overlay district applies more frequently to individual projects which may consist of one or more buildings. Moreover, the purposes of this district are to:

A. Encourage unique, innovative development of superior quality that utilizes sustainable development practices and promotes pedestrian activity.

B. Allow for the establishment of unique land use regulations and development standards to achieve the goals of the General Plan for the area.

C. Promote development patterns that encourage conservation of natural resources and provide opportunities for renewable energy production.

11-21-2: LAND USE REGULATIONS

The BIZ overlay-zoning district is used in conjunction with an underlying zoning district, thereby permitting the same uses as the underlying base zoning district, except those land uses that may be excluded by the City Council. Before the City Council excludes a land use from a base zoning district, a development agreement that also excludes those specified land uses shall be adopted previous to or concurrently with the adoption of the overlay district.

11-21-3: DEVELOPMENT STANDARDS

A. Unless specifically modified by the City Council, the specified development standards are based upon the requirements of the underlying base zoning district; including but not limited to minimum lot area, maximum density, maximum building height, minimum setbacks, and maximum lot coverage for each underlying zoning district.

B. The City Council may approve modifications to the underlying district standards proportionate to number of items and degree of compliance provided by projects that comply either with a combination of Items 1 and 2, below; or with a combination of 1 and 3, below. Projects with few modifications need comply with a lower percentage of criteria. Projects with a higher number and greater deviation from adopted standards shall comply with a higher percentage of criteria.

1. Provide distinctive, superior quality designs. (See Section 11-31-32, Superior Design)

2. Address environmental performance standards outlined below:

a. Site selection criteria. Sites shall meet one or more of the following criteria.

i. Redevelop and rehabilitate economically distressed properties (particularly greyfield sites), damaged sites or environmentally contaminated 'brownfield' sites.

ii. Utilize areas with existing utility and transportation infrastructure and existing community services. This criterion is preferred for higher density and higher intensity development, when feasible.

iii. Utilize locations within ½ mile of a planned light rail line or ¼ mile from an existing or planned bus stop. This criterion is preferred for higher density and higher intensity development, when feasible

b. Site design criteria. Designing the site to facilitate alternative modes of transportation and to reduce onsite environmental impacts.

i. Provide safe and secure storage for bicycles. For commercial, employment or institutional projects, bicycle storage areas shall be within 200 yards of the building entrance, and shall have a designated and convenient pedestrian access route connecting the storage area to the building. For residential projects, safe and secure bicycle storage areas shall be provided on-site for a minimum 15% of the residents.

ii. Include priority location parking for low-emission vehicles in parking areas.

iii. Provide priority location parking spaces for carpool or vanpool vehicles.

iv. Provide the number of parking spaces designed to serve a development site consistent with the number of spaces required to meet the minimum parking ratio. Parking spaces over the minimum number is discouraged.

v. For greenfield sites, protect or restore natural areas on site with native vegetation to encourage biodiversity and for enjoyment by people. For previously developed sites, restore areas with native or adapted vegetation to encourage biodiversity and for enjoyment by people. The size of the space should be appropriate for the size of the site and the activity level or use of the site.

vi. Design the project to be energy efficient including, but not limited to, designed to reduce summer heat gain, reduce winter heat loss, utilize day lighting strategies and provide the opportunity for occupants to take advantage of renewable energy. The design also mitigates the effects of solar exposure for users and pedestrians. For purposes of this criterion, buildings that have efficient HVAC systems, incorporate passive solar heating, cooling and day lighting strategies within an efficient building envelope, as recommended by the Department of Energy's Energy Efficiency and Renewable Energy (EERE) section, including buildings designed to earn the EPA ENERGY STAR or designed to meet LEED™ Silver or equivalent third-party criteria are considered to be energy efficient and no higher standard shall be used

c. Provide documented evidence that the building(s) will meet or exceed nationally recognized environmental performance standards. For purposes of this criterion, buildings that are designed to earn LEED™ Silver, Green Globes, and/or equivalent third-party criteria, and no higher standard shall be required. Avoid sites considered inappropriate, such as prime farmland, land identified as habitat for endangered species, and wetlands or riparian areas associated with wildlife.

d. Utilize areas with existing utility and transportation infrastructure and existing community services. This criterion is preferred for higher density and higher intensity development, when feasible.

e. Redevelop and rehabilitate economically distressed properties (particularly greyfield sites), damaged sites or environmentally contaminated 'brownfield' sites.

f. Utilize locations within ½ mile of a planned light rail line or ¼ mile from an existing or planned bus stop. This criterion is preferred for higher density and higher intensity development, when feasible.

3. Provide documented evidence that the building(s) will meet or exceed nationally recognized environmental performance standards. For purposes of this criterion, buildings that are designed to earn Green Globes, LEED™ Silver, or to be in compliance with the International Green Construction Code and/or equivalent third-party criteria, are considered to be energy efficient and no higher standard shall be required.

11-21-4: SUPPLEMENTAL REGULATIONS

A. Land developed under this Chapter may consist of building(s) on individual or multiple lots.

B. Common open space shall be an essential element of the plan. Open areas should provide an efficient, aesthetic, and desirable usage.

C. Every structure containing residential, commercial, or industrial units shall have access to a public street. The access shall occur either directly to an abutting public right-of-way, or by use of a recorded access easement, or by utilizing a court, walkway, or other common area. If a common area is used, it shall be owned and maintained in common by a property owner's association organized through private covenants, conditions and restrictions attached to the deed.

11-21-5: REVIEW OF PLANS

A. **Application.** Requests for BIZ overlays shall follow the same procedures specified for zoning amendments in Article 7, Administration of this Ordinance.

B. **Modifications to Plans.** Changes to the approved development plan shall be reviewed and approved in accord with Chapter 67 Common Procedures.

C. **Building Permits and Regulations.**

1. An approved development may be built in phases upon approval of a phasing plan. Any phasing plan must provide, at a minimum, that the construction and provision of all necessary elements associated with that phase, including parking, drainage, common open spaces, and public and recreational facilities, which are shown on the approved development plan, are constructed prior to or contemporaneously with the construction of buildings for that phase. If the City Manager or designee determines that the rate of building construction does not conform to the approved phasing plan, he shall notify the developer that no new building permits shall be issued until the developer obtains approval of a supplemental Phasing Plan designed to restore compliance with the previously approved Phasing Plan. In the alternative, the developer may submit a proposed revision to the Phasing Plan for Planning Director review and possible approval. Failure to comply with the terms of this Section in a timely manner following notification shall result in all building construction being halted and all existing building permits shall be suspended until a supplemental or revised Phasing Plan is approved by the Planning Director.

2. When the project has been completed, the use of the land and the construction, modification, or alteration of any buildings or structures within the development shall remain in conformance with the development plan, except that any minor extension, alteration, or modification of existing

buildings or structures may be authorized by the Zoning Administrator or Board of Adjustment in accordance with Article 7, Administration of this Ordinance if they are consistent with the purpose and intent of the approved development plan.

(Ord. No. 5996, § 4, 3-9-26)

CHAPTER 22 PLANNED AREA DEVELOPMENT OVERLAY DISTRICT*

11-22-1: PURPOSE

The purpose of the Planned Area Development Overlay (PAD) District is to permit flexibility in the application of zoning regulations by allowing modifications to land use regulations and development standards in order to:

A. Support innovative, high-quality, cohesive development.

B. Facilitate creative land planning that results in superior design outcomes that may not be achievable under conventional zoning regulations.

C. Elevate the overall quality of development by fostering design excellence and promoting sustainable, livable, and well-connected communities.

Because the PAD Overlay District may be tailored to an individual proposed development, relative to land use regulations and development standards, each PAD Overlay District may differ considerably from another. However, developments within a PAD Overlay District should exemplify:

A. Thoughtful building, site, and land use planning that creates a unique sense of place and enhances the image and character of the area.

B. Well designed, accessible, and integrated open space, amenities, and/or recreational facilities of a scale that is proportionate to the use.

C. High-quality architectural and site design that retains functional relevance, aesthetic appeal, and structural integrity over time.

D. A balanced mix of land uses that are compatible with each other and surrounding development.

(Ord. No. 5957, § 3, 7-8-25)

11-22-2: LAND USE REGULATIONS

The PAD overlay district shall be used in combination with one (1) or more underlying zoning districts and may modify land use regulations as follows:

A. Permit and prohibit the same land uses and activities as the underlying base zoning district(s).

B. Permit additional land uses not otherwise permitted in the underlying base zoning district(s), as determined by the City Council.

***Editor's note—**Ord. No. 5957, § 3, adopted July 8, 2025, repealed the former Ch. 22, §§ 11-22-1—11-22-3, and enacted a new Ch. 22 as set out herein. The former Ch. 22 pertained to similar subject matter and derived from Ord. No. 5544, § 4, 12-9-19.

C. Restrict or prohibit specific land uses to ensure compatibility with surrounding areas and community objectives, as determined by the City Council. To restrict or prohibit land uses in the PAD Overlay District, a development agreement that restricts or prohibits those specified land uses shall be adopted previous to or concurrently with, the adoption of the PAD Overlay District.

(Ord. No. 5957, § 3, 7-8-25)

11-22-3: DEVELOPMENT STANDARDS

A. **Minimum Site Area.** The minimum site area for a PAD shall be five (5) acres. Residential and mixed-use applications for sites that are smaller than five (5) acres may be considered in the event the project includes a minimum of 20 dwelling units.

B. **Compliance with Development Standards.** The general development standards established in this Ordinance and the specific development standards for each underlying base zoning district are required, unless specifically modified by the City Council with the approval of the PAD Overlay District.

C. **Standards for Specific Uses.**

1. When a PAD Overlay District is used to permit a land use that is not otherwise permitted in the underlying base zoning district, the land use shall comply with the applicable development standards set forth in Title 11, Chapter 31: Standards for Specific Uses and Activities; and

2. If no specific development standards exist in Title 11, Chapter 31 for the proposed land use, the City may require additional development standards with the approval of the PAD Overlay District as necessary to ensure compatibility with surrounding uses and to mitigate any potential adverse impacts.

(Ord. No. 5957, § 3, 7-8-25)

11-22-4: SUPPLEMENTAL REGULATIONS

A. The submitted plan shall list permitted development and land use options, which may be assigned to specific parcels. Multiple development and land use options may be assigned and described as available alternatives. Land developed under this Chapter may consist of multiple parcels or may have common building sites.

B. Common open space shall be an essential and major element of the plan. Open areas should provide an efficient, aesthetic, and desirable usage.

C. Every structure shall have access to a public street, directly across either a coterminous property line; or using recorded access easements; or using a court, walkway or other common area owned and maintained as common ground.

11-22-5: REVIEW OF PLANS

A. **Application.** Requests for PAD overlays shall follow the same procedures specified for zoning amendments in Chapter 76, Zoning Ordinance: Amendments to Map and Text, of this Ordinance. In addition, applications requesting PAD overlays shall include a planning document(s) that incorporates the following items:

1. Graphic depictions of the following, as may be applicable:
    a. Land use plan, drawn to scale, including:
        i. Dimensions and acreage of overall project site;
        ii. Dimensions and acreage of each underlying zoning district;
        iii. Dimensions and acreage of each unit or stage of development; and,
        iv. Locations of properties proposed for conceptual and specific review.
    b. Site Plan(s), drawn to scale, including typical lot sizes and building placement for residential development (Site Plans not required for conceptual requests).
    c. Elevation(s) of proposed building(s), drawn to scale (Elevations not required for conceptual requests).
    d. Locations of commonly owned, property, including open space and recreational amenities.
    e. Locations of all proposed streets alignments and subdivisions of land.
2. Narrative description(s) and explanation(s) of the following:
    a. Compliance of the proposed project with the requirements of the Mesa General Plan, and the Purpose statements of the PAD Overlay District (Section 11-22-1).
    b. Development standards for the project, including how proposed deviations from base zoning district development standards and general development standards are of equal or superior quality.
    c. Phasing plans, if the project consists of multiple units or stages of development.
    d. Specific and/or conceptual land uses, as applicable.

e. Properties and amenities to be held in common ownership, including open space and recreational amenities.

f. Intensity of development expressed as a ratio (specific plan) or as a range (conceptual plan).

g. Description of design themes and character.

h. Incorporation of sustainable development practices.

B. **Conceptual and Specific Plans.** Applications for PAD Overlay may specify the project is proposed for conceptual and/or specific approval.

1. Requests for Conceptual Plan approval permits submittal of generalized plans describing land uses and development themes, and ranges of intensity of development described as ratios of activity, such as floor area ratio or dwelling units per acre. Approved Conceptual Plans require review and approval of a Specific Plan prior to development.

2. Requests for Specific Plan approval requires submittal of detailed drawings of the proposed development, including site plans, landscape plans and building elevations, depicting the project as it is anticipated to be constructed on the specific location. Specific Plans may be approved by the Planning & Zoning Board in the event a Conceptual Plan has been approved by the City Council, and the submitted Specific Plan indicates the land use is consistent with the range of intensity and other applicable descriptions of development documented on the approved Conceptual Plan or conditions of approval.

3. The initial submittal for rezoning for the PAD overlay may include both specific plan areas and conceptual plan areas.

C. **Modifications to Plans.** Changes to the approved development plan shall be reviewed and processed in accordance with the provisions in Chapter 67 Common Procedures, of this Ordinance.

D. **Phased Development.** An approved development may be built in phases as part of the project's plan, if the construction and provision of all necessary elements, including parking, drainage, common open spaces, and public and recreational facilities, which are shown on the approved plan, proceed at a rate commensurate with the construction of buildings. If the Development and Sustainability Department Director determines that the rate of building construction is not commensurate with the construction of the aforementioned necessary elements, the Planning Director or designee shall notify the developer that no permits for building construction will be issued until the rate of construction conforms accordingly. Failure to comply with the terms of this Section in a timely manner following notification shall result in all building construction being halted until compliance is restored.

E. **Conformance with Approved Plan - Modification after Initial Construction.** When the project has been completed, the use of the land and the construction, modification, or alteration of any buildings or structures within the development shall remain in conformance with the approved development plan except that any minor extension, alteration, or modification of existing buildings or structures may be reviewed and approved by the Zoning Administrator Hearing Officer or Board of Adjustment in accordance with Chapter 67 Common Procedures, of this Ordinance if the request is found to be consistent with the purpose and intent of the approved development plan.

(Ord. No. 5544, § 5, 12-9-19)

CHAPTER 23 HISTORIC AND LANDMARK OVERLAY DISTRICTS

11-23-1: PURPOSE

The specific purposes of this Chapter are to:

A. Recognize that the form and character of the City of Mesa are reflected in its cultural, historical, and architectural heritage;

B. Preserve the unique cultural heritage, to encourage and facilitate public knowledge and appreciation of the past, to foster civic and neighborhood pride, and to encourage public participation in identifying and preserving historical and architectural resources;

C. Enhance property values, protect and enhance the City's attraction to tourists and visitors, stimulate business and industry, and identify and resolve possible conflicts between the preservation of cultural and historic resources and alternative land uses;

D. Stabilize neighborhoods through preservation of historic and cultural resources and maintenance of the existing built environment; and

E. Preserve the diverse architectural styles, patterns of development, and design preferences that reflect phases of the City's history, and encourage complementary contemporary design and construction.

11-23-2: MESA HISTORIC PROPERTY REGISTER

A. The Mesa Historic Property Register is hereby established for the purpose of listing the landmarks, historic properties, and historic districts, as designated under the provisions of this Chapter and listed on the National Register of Historic Places. This register, as may be amended from time to time, shall serve as the official record of all such designations and shall be maintained by the Historic Preservation Officer (HPO) and available for public reference at the Office of Historic Preservation.

B. Supplemental to the historic property register shall be the list of properties classified as historically eligible and archaeologically sensitive. This list, as may be amended from time to time, shall be maintained by the Historic Preservation Officer, and available for public reference at the Office of Historic Preservation.

11-23-3: APPLICATION FOR HD OR HL

Requests for Historic District (HD) or Historic Landmark (HL) overlays shall follow the same procedures specified for zoning amendments in Chapter 74 and Chapter 76 of this Ordinance. In addition, requests for HD or HL overlays shall also be reviewed by the Historic Preservation Board and a recommendation considered prior to the request being reviewed by the Planning & Zoning Board.

11-23-4: CRITERIA FOR HISTORIC DISTRICTS AND LANDMARKS

A. **Historic District (HD) Criteria.**

1. ***Required Minimum Area.*** An HD overlay district shall have either:

a. Seven or more properties, whether or not separated by a street; or

b. At least four or more adjacent and adjoining lots or parcels with at least 300 feet of consecutive street frontage.

2. ***Required Historical Elements.*** An HD overlay district may be established only if at least one (1) of the following exists:

a. The area meets the criteria for historic districts adopted by the State of Arizona through the State Historic Preservation Office;

b. The area substantially meets the criteria for the listing of districts to the National Register of Historic Places adopted by the United States Secretary of the Interior, copies of which shall be on file in the Office of Historic Preservation and made available there for public inspection; or

c. Both of the following are found:

i. The area possesses a significant concentration, linkage, or continuity of sites, buildings, structures, or objects which are united by past events of 50 or more years ago, or aesthetically by plan or physical development of 50 or more years ago; and

ii. The area is worthy of preservation and protection for aesthetic interest or value, educational potential, or significance in the history of Mesa.

B. **Historic Landmark (HL) Overlay District Criteria.** A building, structure, or object within or without an HP overlay district in the City may be designated as an "Historic Landmark" only if it displays exceptional historic, visual, or architectural significance and at least one of the following exists:

1. It meets the criteria for historic sites adopted by the State of Arizona through the State Historic Preservation Office;

2. Any part of it is 50 or more years old; or

3. It substantially meets the following criteria for individual listing in the National Register of Historic Places adopted by the Secretary of the Interior, copies of which shall be on file in the Office of Historic Preservation:

a. Value as a significant reminder of the cultural, historical, architectural or archaeological heritage of the city, state, or nation.

b. Location is the site of a significant local, state or national event.

c. Identified with a person or persons who significantly contributed to the development of the city, state, or nation.

d. Identified as the work of a master builder, designer, or architect whose individual work has influenced the development of the city, state, or nation.

e. Value as a building is recognized for the quality of its architecture, and it retains sufficient elements showing its architectural significance.

f. Distinguishing characteristics of an architectural style valuable for the study of a period.

11-23-5: LAND USE REGULATIONS

The HD and HL overlay districts are to be used in conjunction with an underlying zoning district, thereby permitting the same uses as the underlying base zoning district, including those uses that may be specified by the City Council.

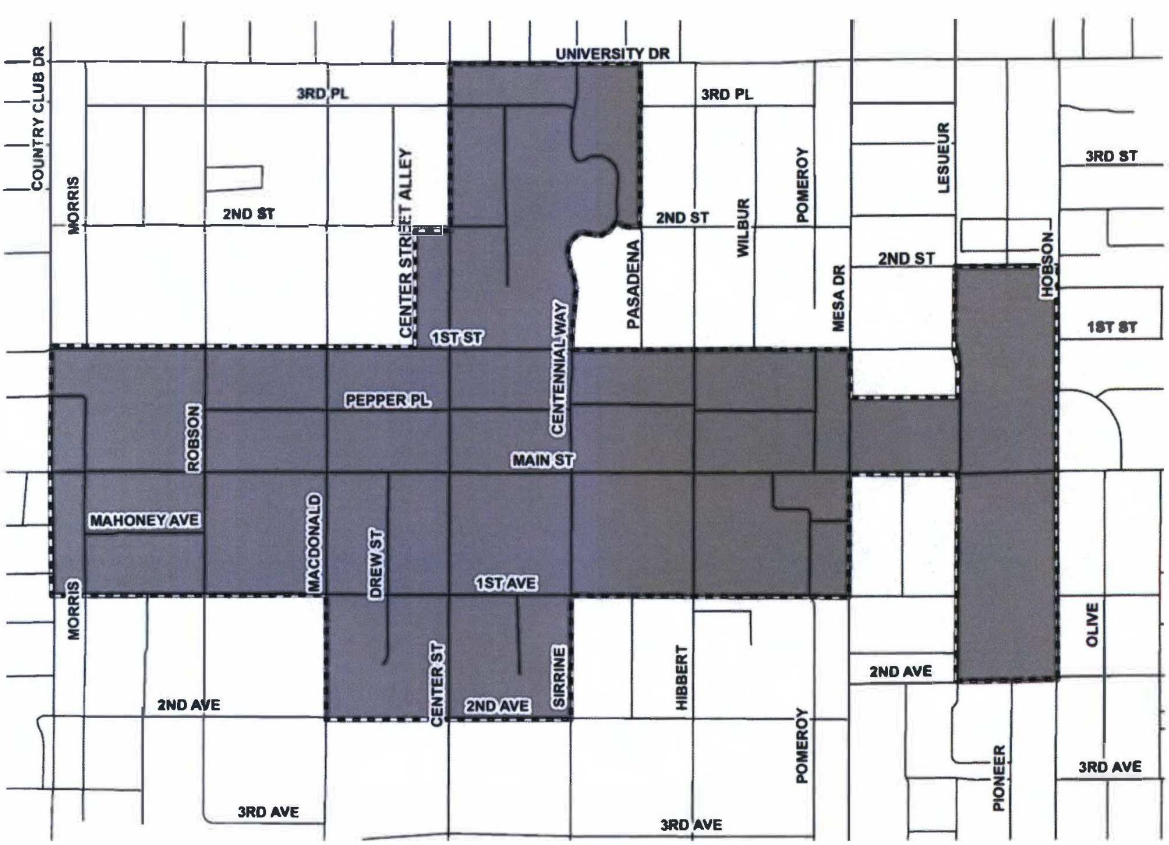
11-23-6: BUILDING PERMITS

Prior to issuance of a building permit for the construction, alteration, rehabilitation, or maintenance of a structure, building, sign, or other object within a designated historic district or historic landmark, the Building Official shall first refer such application to the Historic Preservation Officer for review and approval of a Certificate of Appropriateness as specified in Section 11-74-3. No building permit shall be issued without such Certificate and an issued permit must be in conformance with the requirements specified in the Certificate of Appropriateness.

CHAPTER 24 DOWNTOWN EVENTS (DE) OVERLAY ZONING DISTRICT*

11-24-1: PURPOSE AND INTENT

The purpose of this Chapter is to recognize that temporary events of a civic and commercial nature foster and encourage a sense of community. Special events and other temporary activities, such as carnivals, rodeos, festivals, parades and other temporary activities encourage the gathering of citizens of the community for community, civic, recreational, commercial and promotional reasons, when held in the downtown area, benefit the citizens and visitors of Mesa.
(Ord. No. 5862, § 1, 7-8-24)



11-24-2: DESCRIPTION OF OVERLAY DISTRICT BOUNDARIES

This overlay district shall be the area as shown on Map 11-24-2, and the boundaries of which may be described as:

By a line beginning at the intersection of the west right-of-way line of Country Club Drive and the north right-of-way line of 1st Street; then extending east along the north right-of-way line of 1st Street to the west right-of-way line of Center Street Alley; then extending north along the west right-of-way line of Center Street Alley to the north right-of-way line of 2nd Street; then extending east along the north right-of-way line of 2nd Street to the west right-of-way line of Center Street; then extending north along the west right-of-way line of Center Street to south right-of-way line of University Drive; then extending east along the south right-of-way line of University Drive to the east right-of-way line of Pasadena; then extending south along the east right-of-way line of Pasadena to the south right-of-way line of 2nd Street; then extending west along the south right-of-way line of 2nd Street to the east right-of-way line of Centennial Way; then extending south along the east right-of-way line of Centennial Way to the north right-of-way line of 1st Street; then extending east along the north right-of-way line of 1st Street to the east right-of-way line of Mesa Drive; then extending south along the east right-of-way line of Mesa Drive to approximately 440 feet north of Main Street; then extending east to the west right-of-way line of Lesueur; then extending north along the west right-of-way line of Lesueur to the north right-of-way line of 2nd Street; then extending east along the north right-of-way line of 2nd Street to the east

***Editor's note—**Previously, Chapter 24 derived from Ord. No. 5123, 9-24-12.

right-of-way line of Hobson; then extending south along the east right-of-way line of Hobson to the south right-of-way line of 2nd Avenue; then extending west along the south right-of-way line of 2nd Avenue to the west right-of-way line of Lesueur; then extending north along the west right-of-way line of Lesueur to the south right-of-way line of Main Street; then extending west along the south right-of-way line of Main Street to the east right-of-way line of Mesa Drive; then extending south along the east right-of-way line of Mesa Drive to the south right-of-way line of 1st Avenue; the extending west along the south right-of-way line of 1st Avenue to the east right-of-way line of Sirrine; then extending south along the east right-of-way line of Sirrine to the south right-of-way line of 2nd Avenue; then extending west along the south right-of-way line of 2nd Avenue to the west right-of-way line of MacDonald; then extending north along the west right-of-way line of MacDonald to the south right-of-way line of 1st Avenue; and then extending west along the south right-of-way line of 1st Avenue to the west right-of-way line of Country Club Drive; then extending north along the west right-of-way line of Country Club Drive and ending at the intersection of the west right-of-way line of Country Club Drive and the north right-of-way line of 1st Street.

MAP 11-24-2

(Ord. No. 5862, § 2, 7-8-24)

11-24-3: PERMITTED ACTIVITIES

A. The number of Special Events, as that term is defined in Chapter 87, held within the Downtown Events Overlay District shall not be limited by the number of events during a calendar year.

B. Each individual Special Event held within the Downtown Event Overlay District shall be limited to a maximum of 4 consecutive days, unless it is a City-sponsored special event, a City-supported special event, or a temporary use permit or a Special Use Permit is approved in accordance with Chapter 70 of this Ordinance.

(Ord. No. 5759, § 2, 12-8-22; Ord. No. 5862, § 3, 7-8-24)

11-24-4: SPECIAL EVENT LICENSE REQUIRED

Special events held within the Downtown Event Overlay District shall require approval of a Special Event License, pursuant to Section 11-31-27 of this Ordinance, and in accordance with Title 5, Chapter 1 of the Mesa City Code.

CHAPTER 25 BILLBOARD OVERLAY DISTRICT

11-25-1: PURPOSE AND INTENT

The purpose of the Billboard Overlay District is to encourage the development or redevelopment of large or underutilized sites near a Freeway while conserving and promoting public health, safety, and general welfare. The Billboard Overlay District promotes an aesthetically pleasing environment while minimizing distractions for motorists through regulations limiting the location, number, size, and height of Billboards, and requiring spacing, illumination, maintenance, and other development standards for Billboards.
(Ord. No. 5847, § 1, 3-4-24)

11-25-2: LAND USE REGULATIONS

A. The Billboard Overlay District shall only be used in conjunction with the Infill Development District-2 (ID-2), Public and Semi-Public District (PS), or Mixed-Use District (MX).

B. The Billboard Overlay District allows Billboards in accordance with this Chapter and permits the same land uses as the underlying base zoning district, except those land uses that may be excluded by the City Council through a development agreement.
(Ord. No. 5847, § 1, 3-4-24)

11-25-3: ELIGIBILITY REQUIREMENTS

To be eligible for a Billboard Overlay District, a site must meet the requirements of this Section.

A. **Minimum Site Area.**

1. The site must be at least fifty (50) acres in size.

2. This requirement may be met by one parcel of land fifty (50) acres or more in size, or a combination of adjoining parcels of land under the same ownership, that are not separated by a right-of-way dedicated to the City, that are collectively fifty (50) acres or more in size.

B. **Minimum Freeway Frontage.** The site must have a minimum of 1,500 feet of frontage along a Freeway.
(Ord. No. 5847, § 1, 3-4-24)

11-25-4: DEVELOPMENT STANDARDS FOR BILLBOARDS

A. **General Development Standards.**

1. Billboards are required to comply with A.R.S. Title 28, Chapter 23, Article 1, and the development standards established in this Chapter.

2. No deviations from the development standards identified in this Chapter are permitted unless the deviation is more restrictive.

3. For all other land uses on the site, compliance with the specific development standards for the underlying base zoning district is required and cannot be modified through the Billboard Overlay District.

B. **Setback Requirements.** Setbacks for Billboards must adhere to the standards of the underlying base zoning district except for setbacks from the Freeway, in which the following setbacks shall apply:

1. ***Minimum Setback from Freeway.*** The minimum setback to a Freeway right-of-way is zero (0) feet, distance measured from the nearest edge of the Billboard face to the nearest edge of the Freeway right-of-way.

2. ***Maximum Setback from Freeway.*** A Billboard must be located within 250 feet of a Freeway right-of-way, distance measured from the furthest edge of the Billboard face to the nearest edge of the Freeway right-of-way.

3. ***Encroachment into Right-of-Way Prohibited.*** No portion of a Billboard shall overhang or encroach into the right-of-way.

C. **Spacing Requirements.**

1. ***Billboards or Freeway Landmark Monuments.*** No portion of a Billboard may be placed within 1,000 feet of another Billboard or Freeway Landmark Monument, including Billboards and Freeway Landmark Monuments located in neighboring jurisdictions, distance measured from the nearest edge of the Billboard face to the nearest edge of the nearest Billboard face or Freeway Landmark Monument face.

2. ***Residential Zoning District or Residential Use.*** No portion of a Billboard may be placed within 500 feet of a Residential Zoning District (RS, RSL, or RM) or residential use unless:

A. The residential use is part of a mixed-use development; or

B. A line-of-sight study or balloon test is conducted and demonstrates the Billboard will not be visible to or from any residential use that is not part of a mixed-use development or residential zoning district within 500 feet.

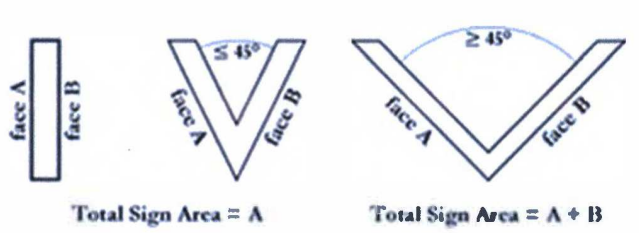
C. In no case may any portion of the Billboard be placed within 400 feet of a residential use that is not part of a mixed-use development or a residential zoning district.

D. **Number and Size Requirements.**

1. ***Maximum Number.*** No more than two (2) Billboards are permitted within a Billboard Overlay District.

2. ***Billboard Sign Area.***

a. *Maximum Sign Area.* The maximum sign area of a Billboard is limited to 672 square feet per sign face.



b. *Sign Area Dimensions.* The maximum vertical dimension of a Billboard's sign face is fourteen (14) feet and the maximum horizontal dimension of a Billboard's sign face is forty-eight (48) feet.

c. *Back-to-Back.* Back-to-Back are permitted with the maximum sign area allowed for each face as shown on Figure 11-25-4.C.2.

d. *"V" Shaped Billboards.*

i. A Billboard may be "V" shaped, provided the interior angle between the two sign faces is forty-five (45) degrees or less.

ii. If the angle between the two (2) sign faces is greater than forty- five (45) degrees, the sign area is the sum of the areas of the two (2) sign faces as shown on Figure 11-25-4.C.2.

e. *Embellishments.* A Billboard's maximum sign area may be exceeded by up to 20% by a Billboard embellishment.

f. *Standards of Measurement for Billboards and Embellishments.* Billboards and embellishments shall be measured by the smallest square, rectangle, triangle, circle or combination of the smallest square, rectangle, triangle, or circle that will encompass the entire Billboard or the entire embellishment, excluding base or apron supports, pylons, and other structural parts.

3. ***Billboard Height.***

a. The maximum height of a Billboard, including any supporting structures, attachments, and embellishments, shall not exceed 60 feet.

b. Height measurement.

i. If the natural grade at the base of a Billboard is higher than, or at the same grade as the Freeway, the Billboard height shall be measured as the vertical distance from the average elevation of the natural grade within a 50-foot radius from all sides of the Billboard base to the highest point of the Billboard.

ii. If natural grade at the base of a Billboard is lower than the grade of the Freeway or has been reduced to provide a storm water retention basin, the height of the Billboard shall be measured from the Freeway elevation to the highest point of the Billboard.

E. **Auditory Effects.** Auditory effects, including music, are prohibited as part of any Billboard.

F. **Electronic Billboard Requirements.** Electronic Billboards must comply with the following:

1. ***Copy Change.*** Copy must not change more than once every eight (8) seconds.

2. ***Message Animation.***

a. Animation, video, flashing, blinking, or moving lights are prohibited.

b. In the transition between copy, there must not be any sense of movement from one message to the next.

3. ***Malfunction.*** An electronic Billboard must contain a default design mechanism that freezes copy in one (1) position if a malfunction occurs.

G. **Lighting Controls.**

1. ***Electronic Billboards.***

a. *Evening Illumination.* Illumination of electronic Billboards must not exceed 300 nits in full white mode in evening hours (from sunset until 11:00 p.m.).

b. *Automatic Dimming.* Electronic message panels must include automatic lighting control technology to dim, control, and vary the intensity of the display based on ambient light conditions (e.g. daytime, nighttime, partial shade, or cloudy conditions) through a photo-electric sensor that detects ambient light levels and automatically adjusts the display intensity to ensure compliance with the maximum nit levels in this Section.

2. ***Nighttime Illumination.*** All electronic and non-electronic Billboard illumination must be extinguished in nighttime hours (from 11:00 p.m. until sunrise), except for amber alerts and emergency messaging.

(Ord. No. 5847, § 1, 3-4-24; Ord. No. 5889, §§ 1, 2, 11-4-24)

11-25-5: BILLBOARD APPLICATION, PERMITS, AND MAINTENANCE

A. **Application Requirements.** The requirements and procedures for submission and consideration of an application for a Billboard permit are provided in Chapter 67, Common Procedures, and must include:

1. Graphic depictions of the Billboard, in plan and elevation views, including:

a. A description of the Billboard type and materials used for the Billboard and Billboard structure.

b. Dimensions of the Billboard defining the proposed Billboard sign area including copy.

c. Dimensions of the Billboard structure.

2. A site plan depicting, at a minimum:

a. The Billboard location.

b. The Billboard's distance from all property lines.

c. The Billboard's distance from structures on the site.

B. **Building Permit.** A Billboard is required to obtain a permit and comply with all requirements of Title 4, Chapter 1 of the Mesa City Code including the requirements relating to permits, inspections, fees, and penalties.

C. **Maintenance.** All Billboards must be maintained according to this Section.

1. It is unlawful for a Billboard to remain in a damaged or deteriorated condition that constitutes a danger or hazard to public safety or a visual blight.

2. All Billboards must be maintained to the following standards of structural repair and visual appearance:

   a. All structural and nonstructural components must be positioned and secured in accordance with approved plans for the Billboard;

   b. Any deteriorated, damaged, or weakened components must be promptly repaired or replaced;

   c. All copy and painted surfaces of a Billboard must be free of chipping, peeling, rusting or other oxidation of metals, and fading of colors;

   d. Billboards must be maintained in working order; and

   e. If a permit is required per Title 4 of the Mesa City Code for any Billboard maintenance or repair activities, the permit must be obtained prior to commencing work and all work must be done in accordance with permit requirements.

(Ord. No. 5847, § 1, 3-4-24)

11-25-6: DEVELOPMENT AGREEMENT OR INTERGOVERNMENTAL AGREEMENT

A. A development agreement or intergovernmental agreement is required in conjunction with a Billboard Overlay District.

B. The agreement must be approved prior to or concurrently with the approval of the Billboard Overlay District.

C. The development agreement or intergovernmental agreement may include, but is not limited to:

   1. Requirements that Billboards, or permission for Billboards to, display public service announcements, public announcements, event announcements, or other announcements.

   2. Removal of an existing Freeway Landmark Monument on the site.

   3. Requirements, standards, or limitations for Billboards which may be established as conditions of approval for the Billboard Overlay District.

(Ord. No. 5847, § 1, 3-4-24)

CHAPTERS 26—29 (RESERVED FOR FUTURE USE)

[The next page is T11:251]

ARTICLE 4
DEVELOPMENT REGULATIONS

CHAPTER 30 GENERAL SITE DEVELOPMENT STANDARDS

11-30-1: PURPOSE AND APPLICABILITY

A. **General Purposes of the Site Development Standards.** The purposes of this Chapter are to:

1. Prescribe development and site regulations that establish a framework for diverse, comfortable, safe and sustainable neighborhoods;

2. Enhance existing community character and encourage transitions to more mixed- use community centers characterized by attractive urban design, high quality architecture, vibrant public spaces, and pedestrian amenities where appropriate;

3. Encourage orderly, well-planned development of individual sites;

4. Encourage development that fits seamlessly into attractive, viable neighborhoods and improves areas that are in transition;

5. Ensure appropriately designed and maintained site features that incorporate Community Policing Through Environmental Design (CPTED) principles and allow natural surveillance;

6. Ensure development functions efficiently and screens unsightly and utilitarian elements and uses from public view;

7. Contribute to the pedestrian environment by prescribing a safe, shaded network of walkways that connect destinations on-site to destinations on the public street, and to adjacent development.

B. **Applicability.** The standards apply, except where specifically stated, to development in all districts. These standards shall be used in conjunction with the standards for each zoning district located in Article 2, Base Zoning District Regulations and Article 3, Overlay District Regulations. When a conflict exists, the standards specific to a zoning district, or approved by a plan as part of an applicable overlay district, shall override these regulations.

11-30-2: BUILDING PROJECTIONS INTO SETBACKS

In all districts, awnings, eaves, overhangs, light shelves and basement window wells may encroach not more than 3 feet into any required yard, but shall not be closer than 2 feet to any property line. Additional standards for building projections into setbacks for the agricultural and residential districts are located in Sections 11-4-3, Agricultural District - Development Standards, 11-5-4, Residential Districts - Development Standards for the RSL District and 11-5-5, Residential Districts - Development Standards for the RM District, respectively.

11-30-3: EXCEPTIONS TO HEIGHT LIMITS

A. **Allowed Projections above Height Limits.** The structures listed in Table 11-30-3 may exceed the maximum permitted Building Height for the district in which they are located, subject to the limitations stated in the table below, and further if no portion of a structure in excess of the Building Height limit may be used for sleeping quarters or advertising.

Table 11-30-3: Allowed Projections Above Height Limits		
Structures Allowed Above the Height Limit	**Maximum Coverage, Location Restrictions**	**Maximum Vertical Projection Above the Height Limit (ft)**
Skylights	No limitation.	10
Solar panels, and other energy production facilities located on a rooftop	No limitation.	20% of base height limit
Chimneys	10% of roof area	20% of base height limit up to 10
Decorative features such as spires, bell Towers, domes, cupolas, pediments, obelisks, and monuments	No limitation	No limitation
Rooftop open space features such as sunshade and windscreen devices, open trellises, enclosed space for use by residents, and Landscaping	25% of roof area	20% of base height limit up to 12
Elevator and stair Towers (for multi-family and non-residential buildings only)	NA	12
Mechanical penthouses	60% of roof area	10
Flagpoles	N/A	DC District: 40 ft total height. Other districts: No limit except AF Overlay Districts which require a SUP when exceeding maximum base district height standard.
Distribution and transmission Towers, lines, and poles Water tanks, Windmills, Radio Towers, Airway beacons Industrial structures where the manufacturing process requires a greater height, located in the GI and HI Districts	20% of the area of the lot, or 20% of the roof area of all on-site structures, whichever is less; no limit if a primary use permitted in the district	10 as an accessory structure; none as a primary use
Building-mounted telecommunications facilities, Antennas, and microwave equipment	Subject to provisions of Chapter 35, Antennas and Wireless Communication Facilities. A Special Use Permit is required for commercial communication Towers that exceed the maximum permitted height of the district in which they are located.	

B. **Airfield Overlay District.** Notwithstanding any other provisions of this section, there shall be no exceptions to the specified height limits within the AF Airfield Overlay Districts, unless authorized by the approval of a Special Use Permit in accordance with Chapter 70, Conditional Use Permits.

(Ord. No. 5996, §§ 2, 4, 3-9-26)

11-30-4: FENCES AND FREESTANDING WALLS

Design Objective: Fences and walls should be an integral design component of the project that identify public areas; direct movement of visitors, define areas intended for private use and allow natural surveillance.

Fences, freestanding walls, and similar structures shall comply with the standards of this section.

A. **AG, RS, RSL, RM, and DR Districts.**

1. ***Maximum Height.***

a. *Front Yards.* No opaque or non-transparent fence or freestanding wall within or along the exterior boundary of the required Front Yard shall exceed a height of 3.5 feet. Fences or freestanding walls over 3.5 feet high are allowed in front yards, provided the fence or freestanding wall does not exceed a maximum height of 4.5 feet, and the topmost 1.5 feet is visually transparent and not opaque.

b. *Side and Rear Yards.* No fence or freestanding wall within or along the exterior boundary of the required side or Rear Yards shall exceed a height of 6 feet.

2. ***Corral Fences.*** Corral fences are only allowed for the keeping of livestock and similar large animals. Corral fences are permitted in the Agricultural, RS-90 and RS-43 districts subject to conformance with the following standards:

   a. *Materials.* Corral fences shall be constructed of masonry, wrought iron, pipe-rail, or similar material, but shall not be of solid construction or made of metal wire, such as chain-link or barbed wire;

   b. *Transparency.* Corral fences shall maintain a minimum transparency of 66 percent of the exterior surface of the fence to keep visibility into the property and allow the transfer of light and air; and

   c. *Maximum Height.* Corral fences shall not exceed six (6) feet in height.

3. ***Building Area.*** When located in the buildable area, the maximum height for fences and freestanding walls is the maximum height allowable in the applicable district.

4. ***Decorative Features.*** One entry gateway, trellis, or other entry structure is permitted in the required front or Street-facing Side Yard of each lot, provided the maximum height or width of the structure does not exceed 10 feet in either direction. Such decorative feature shall not have any solid obstruction that exceeds 2 feet in diameter between the height of 3 and 10 feet.

5. ***DR Districts.*** Whenever a new multiple residence project is constructed or an existing Single Residence is converted to a multiple residence use, a privacy wall shall be constructed along the property lines separating the multiple residence use, its parking areas and driveways from any existing Single Residence. The privacy wall shall be of masonry construction with stucco, mortar wash or other finish to match that of the main building and shall be 6 feet in height. The privacy wall shall extend along interior side Lot Lines to the front-yard setback of the main building or to the front-yard setback of the existing adjacent residence, whichever is closer to the Street Right-Of-Way, but shall not extend past said setback into the Front Yard without being reduced in height to a maximum of 3.5 feet.

6. ***Materials.***

   a. *Acceptable Materials.* Walls and fences shall be constructed of high-quality, durable materials such as stucco finish, masonry or concrete block, brick, decorative cap block, wrought iron, or other similar high-quality material.

   b. *Prohibited Materials.* The use of chain-link, barbed wire, razor wire, embedded glass shards, ultra barrier, electrified and other hazardous fencing is prohibited, except for the use of barbed wire fencing used for livestock enclosures.

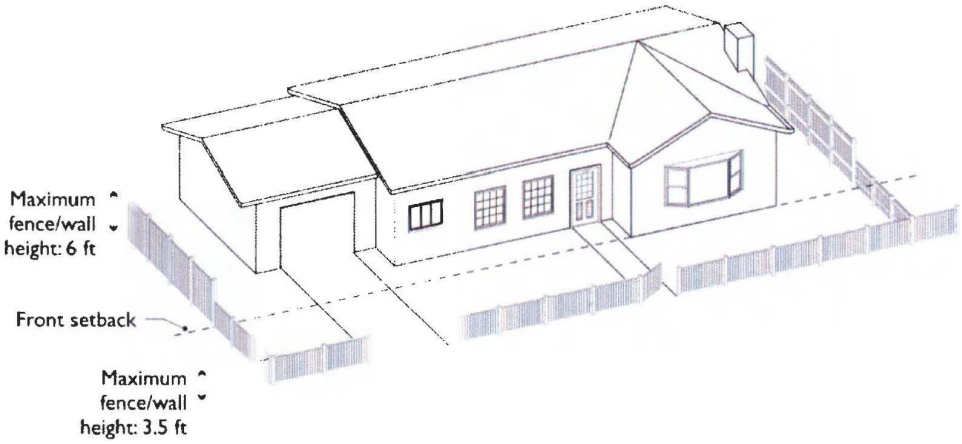


FIGURE 11-30-4.A: FENCES

B. **All Other Zoning Districts.**

1. ***Maximum Height.***

a. *Front Yards and Required Street Side Yards.* No fence or freestanding wall within or along the exterior boundary of the required Front Yard shall exceed a height of 3.5-feet.

b. *Rear Yards and Interior Side Yards.* No fence or freestanding wall within or along the exterior boundary of the required interior side or Rear Yards shall exceed a height of 8-feet.

c. *Building Area.* When located in the buildable area, the maximum height for fences and freestanding walls is the maximum height allowable in the applicable district.

2. ***Fence Materials in Commercial and Employment Districts.***

a. *Materials.* Walls and fences shall be constructed of high-quality materials, such as tinted, textured blocks; brick; stone; or ornamental metal; and shall complement the design of an overall development and its surroundings.

i. Chain link may only be used when not visible from public view.

ii. Wood fencing is not allowed, except wood may be used in conjunction with metal frames for gates used in conjunction with required Screening walls.

iii. The use of barbed wire, razor wire, embedded glass shards, ultra barrier, electrified and other hazardous fencing is prohibited in Street-facing yards or where adjacent to any public Right-of-Way.

C. **Visibility at Intersections.** Notwithstanding any other provisions of this Section, fences and walls shall comply with the standards of Section 11-30-14, Visibility at Intersections.

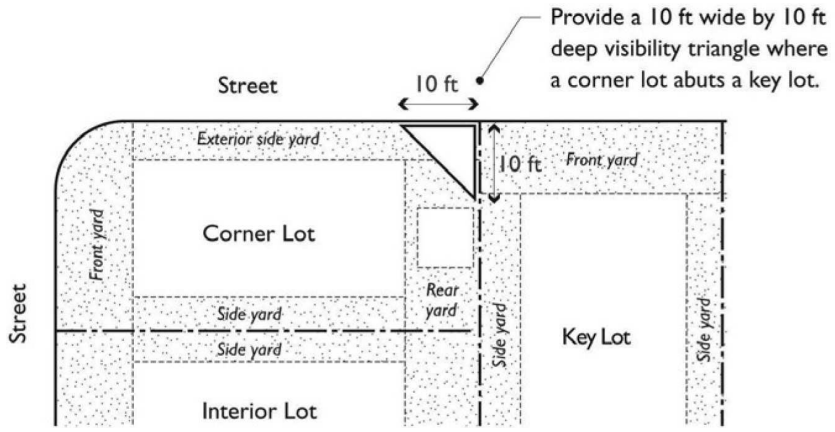

FIGURE 11-30-4.D CORNER LOT ABUTTING A KEY LOT

D. **Corner Lots Abutting a Key Lot.** In the event the rear property line of a Corner Lot abuts a side property line of an adjoining Key Lot, a 10-foot deep by 10-foot wide visibility triangle shall be maintained over the Corner Lot, starting at the intersection of the rear and Street side property lines of the Corner Lot. See diagram above, 11-30-4D.

E. **Fence and Wall Articulation.** The maximum length of continuous, unbroken, and uninterrupted fence or wall plane adjacent to right-of-way or private streets functioning as public roads shall be 150 feet. Articulation shall be provided through the use of columns, posts, varied height, protrusions and recesses in the horizontal plane.

1. Post and columns shall protrude a minimum of six (6) inches from the adjacent plane.

2. Protrusions and recesses in the horizontal plane, and variations in height shall be a minimum 18 inches.

(Ord. No. 5544, §§ 6—8, 12-9-19; Ord. No. 5996, § 4, 3-9-26)

11-30-5: LIGHTING AND ILLUMINATION

The objective of this Section is to promote well designed lighting that can enhance the design of a building or site by highlighting interesting architectural details, calling attention to interesting textures and colors, and focusing attention to primary site features. Such lighting should be controlled to minimize adverse impacts to abutting residential uses.

A. **Applicability:** The requirements of this Section shall apply to all projects except Single Residence Dwellings and Middle Housing.

B. **Parking Lot Illumination:**

1. ***Location.*** Light poles shall be located only within the parking area or, where permitted, the outdoor storage area, and shall not encroach into required perimeter landscape areas.

2. ***Light Pole Heights.***

   a. Maximum light pole height shall be 15 feet when within 50 feet of the perimeter of the development and adjacent to a residential use or zoning district.

   b. When adjacent to any other use, the maximum height shall be 20 feet within 50 feet of the perimeter.

   c. The maximum height shall be 25 feet everywhere else on the site.

3. ***Light Shields.*** House side shields shall be provided on all light standards adjacent to residential development.

4. ***Building Mounted Lights.*** Building mounted lights shall maintain the same heights as specified in subsection C., below.

5. ***Lighting and Electric Code.*** For additional standards refer to the Mesa Lighting and Electrical Code; Title 4, Chapter 4 of the Mesa City Code.

C. **Maximum Height of Lighting Fixtures.**

1. Lighting fixtures, including freestanding light poles as well as building-mounted lights, shall not exceed the maximum heights specified in Table 11-30-5 below.

Table 11-30-5: Maximum Height of Lighting Fixtures

District	Maximum Height (ft.) - Detached	Maximum Height (ft.) - Attached
Residential Districts	15	Not to exceed the peak elevation of the immediately adjacent sloped roof, parapet, or building elevation to which the fixture is attached
DC and DB Districts	20	
All other Non-Residential Districts	Within 50 feet of any street frontage: 20 ft. Within 50 feet of a Residential District: 15 ft. Any other location: 25 ft.	

2. Exceptions to the maximum height of lighting fixtures may be approved by the Zoning Administrator, after a review of a photometric study. Such exceptions may include requirements for use light control devices, such as fully shielded or full cut-off fixtures, to reduce glare and light-spillage onto abutting properties.

D. **Exposed Exterior Building Illumination.** Exposed neon, argon, led or krypton tubing; exposed incandescent lighting; or other exposed artificial lighting used to outline or accent a structure or portion thereof is permitted subject to the following:

1. ***Placement.***

   a. Exposed lighting shall be mounted within 12 inches of a permanent architectural element (e.g., parapet or cornice line, canopy/awning edge, pilaster/column, entry surround) and shall not be freestanding on blank wall areas.

   b. Exposed lighting shall not be placed above the roof or parapet, or on rooftop equipment or on top of fences.

2. ***Quantity.*** A maximum of two (2) horizontal runs (e.g. along parapet or canopy edges) and one (1) vertical run (e.g. along corners or entry surrounds) is permitted on each façade.

3. ***Color.*** One (1) static color or hue is permitted per building.

4. ***Advertising|Signage Prohibited.*** Tubing shall not form letters, numbers, symbols, logos, product shapes, or trademark color patterns, and shall not be attached to or integrated with any sign face.

5. ***Motion and Effects Prohibited.*** Flashing, blinking, pulsing, chasing, and strobing effects are prohibited.

6. ***Full Functionality Required for Use.*** If any component or segment of the lighting system is nonfunctional, all exposed lighting on the building shall remain off until the entire lighting system is fully repaired.

(Res. No. 12269, §§ 10, 11, 9-23-24; Ord. No. 5883, § 3, 10-7-24; Ord. No. 5996, § 4, 3-9-26)

11-30-6: LOTS AND LAND DIVISIONS

Design Objectives: To promote orderly growth and harmonious development by ensuring land divisions result in lots, tracts, or parcels of land of adequate size and configuration that are compatible with the intent of the zoning district. Land divisions should create parcels that are suitable for their intended use, contribute to cohesive neighborhood patterns, support safe and convenient access, and uphold the long-term viability of public infrastructure and services.

A. **Legal Nonconforming Lot or Parcel.** Any lot or parcel of land recorded in the Maricopa County Recorder's Office and lawfully created prior to the effective date of this Ordinance, and that has an area, width, depth, or street frontage less than the minimum required by the zoning district in which it is located, shall be considered a legal lot and may be used as a building site. All other applicable regulations for the zoning district in which the lot is located shall continue to apply.

B. **Lot Dimension Requirements.** No lot, tract, or parcel of land shall be divided in a manner which results in an area, width, depth, or open space less than the minimum required by the zoning district in which it is located, except:

1. For the purposes of providing public rights-of-way or for conveying a portion of a lot, tract, or parcel of land to a public governing authority for a publicly beneficial use through a land purchase, dedication, or gift; or

2. If modifications to the area, width, depth, or open space have been approved by the City Council or Board of Adjustment.

C. **Individual Yard and Open Space Requirements.** No yard or other open space required around any building designed to comply with the provisions of this Ordinance shall again be used as a yard or other open space for another lot or parcel.

D. **Permitted Number of Dwelling Units.** No lot shall be divided in a way that results in a lot containing more dwelling units than permitted by the zoning district in which the lot is located.

E. **Land Split.** The division of land into two (2) or three (3) tracts or parcels shall require approval of a Land Split in accordance with Title 9 Chapter 6 of the Mesa City Code.

1. When dividing developed land, required separation distances established by the Building Code, as well as open space requirements set forth in this Ordinance, must be maintained.

2. All resulting tracts or parcels shall also comply with all applicable regulations of the zoning district in which they are located.

F. **Buildings Crossing Lot Lines.** Where two (2) or more lots are used as a building site and where buildings cross lot lines, the entire area shall be considered one (1) lot, except that the front of the parcel shall be determined to be the front of the individual lots as originally platted or recorded.

G. **Street Frontage Required.** Every lot shall have frontage on a dedicated public street or private street unless the lot is a unit in a condominium subdivision.

H. **Future Right-of-Way.** Where future width lines for rights-of-way have been established, all required yards and setbacks shall be measured from the future width lines.

I. **Zoning Ordinance and Plat Conflicts.** Where a conflict exists between yards or setbacks required by this Ordinance and yards or setbacks specified on a plat, the requirements of this Ordinance shall control, except when a modification to such yard or setback was approved by City Council or the Board of Adjustment

(Ord. No. 5949, § 3, 7-1-25)

11-30-7: OUTDOOR STORAGE

The objective of this section is to maintain an attractive environment for the community, adjacent businesses and residents while allowing open storage of goods, materials, machines, equipment, and vehicles or parts when necessary for business purposes in specific locations.

A. **Applicability:** Open storage of goods, materials, machines, equipment, and vehicles or parts outside of a building (considered collectively as a general activity) for more than 24 hours shall conform to the standards of this Section. The regulations of this Section do not apply to temporary storage of construction materials reasonably required for construction work on the premises pursuant to a valid building permit.

B. **Permitted Locations.** Table 11-30-7 states the districts where outdoor storage is permitted and prohibited.

Table 11-30-7: Outdoor Storage Regulations by District and Location	
Base Districts	**Permissibility of Outdoor Storage**
Neighborhood Commercial (NC), Limited Commercial (LC), Mixed Use (MX), and Downtown Business (DB)	All storage shall be within an enclosed building except as specified for accessory outdoor display.
Planned Employment Park (PEP)	All storage shall be within an enclosed building.

Table 11-30-7: Outdoor Storage Regulations by District and Location	
Base Districts	**Permissibility of Outdoor Storage**
General Commercial (GC), and Light Industrial (LI)	Not permitted in front or street-facing side setbacks. Permitted in interior side and rear setbacks, within the rear one-half of the lot, subject to the standards of this Section.
General Industrial (GI)	Not permitted in front or street-facing side setbacks or in front of the primary building(s).
Heavy Industrial (HI)	Permitted anywhere on a lot or parcel, subject to the standards of this Section.
Agricultural (AG), Single Residence (RS), Small Lot Single Residence (RSL), Downtown Residence (DR), and Multiple Residence (RM)	Any individual tool or piece of equipment that is higher than four (4) feet and in which the added aggregate measurements of the length, width, and depth (length plus width plus depth) exceeds 15 lineal feet, based on the extreme perimeter measurements, shall be placed or stored within an enclosed building. (1, 2, 3)
1. Equipment specifically designed and used for agriculture (as defined in Section 11-86-7 of this Title), Utility Trailers and Watercraft (as defined in Section 8-6-2 of the Mesa City Code), Recreational Vehicles (as defined in Chapter 87 of this Title), and other motorized vehicles eligible for licensing by the State of Arizona for travel on public thoroughfares are excluded from this requirement.	
2. Recreational Vehicle parking requirements are provided in Section 11-34-5(B) of this Title.	
3. Requirements for parking and storage of Watercraft and Utility Trailers are provided in Section 8-6-3 of the Mesa City Code.	

C. **Screening and Setbacks.** Outdoor Storage areas visible from public and private streets shall be screened by a wall.

1. ***Screening Walls.*** Screening walls shall be at least eight (8) feet in height. If located on a street facing front or side setback, the wall shall be placed to meet required front and street-side setbacks.

2. ***Materials.*** Screen wall materials shall be opaque and durable and shall incorporate elements of the building design e.g. shape, color, texture, and material.

3. ***Landscaping.*** Landscaping is not required within screened storage areas. All other required landscaped areas shall conform to Chapter 33: Landscaping.

4. ***Setback.*** A setback shall be provided for material stored outdoors at the ratio of 1:1 from all lot lines equal to total height of stored material above the required eight (8) foot screen wall.

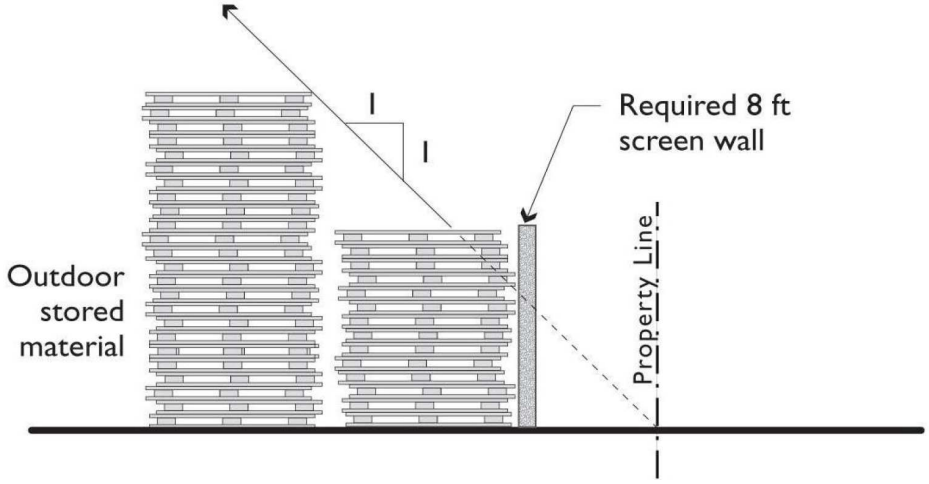

FIGURE 11-30-7.C(1)

(Ord. No. 5759, § 1, 12-8-22; Ord. No. 5814, § 2, 10-16-23; Res. No. 12269, § 12, 9-23-24; Ord. No. 5883, § 3, 10-7-24; Ord. No. 5996, § 4, 3-9-26)

11-30-8: PEDESTRIAN CONNECTIONS

Pedestrian walkways shall be provided in office, employment, commercial, mixed-use, and multiple residence developments. These walkways shall be designed to serve internal pedestrian circulation needs, and shall connect to public sidewalks and transit stops. Pedestrian access must be provided according to the following standards:

A. **Off-Site Connections.**

1. ***Connection to Public Sidewalk.*** An on-site walkway shall connect the main entry of each building or each primary entry to a public sidewalk on each street frontage of the site.

   a. On at least one (1) street frontage, such walkway shall be provided along the shortest practical distance between the main building entry and sidewalk, generally no more than 125% of the straight-line distance.

   b. The distance may increase up to 50% of the total straight-line distance in the event the route is designed to take account of afternoon shade patterns from buildings or similar shading devices.

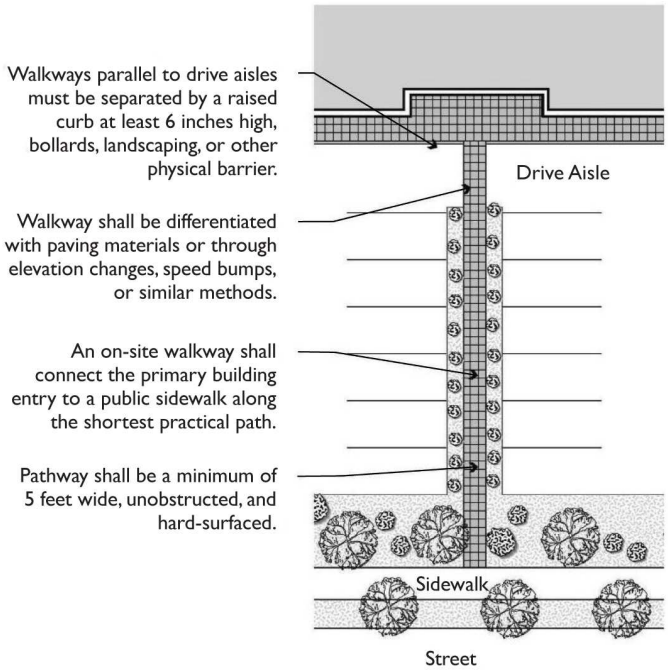

FIGURE 11-30-8.A(1): PEDESTRIAN ACCESS THROUGH PARKING AREA

2. ***Connection to Transit Stops.*** When transit facilities are located directly adjacent to development; the development shall provide pedestrian connections to the transit facilities.

B. **Internal Connections.** A system of pedestrian walkways shall connect all buildings on a site to each other, to on-site automobile and bicycle parking areas, and to any on-site recreational or open space areas or pedestrian amenities.

C. **Materials and Width.** Pedestrian walkways shall be paved with a hard, durable surface and shall provide a minimum clear width of at least five (5) feet (unobstructed from encroachments).

D. **Separation.** Where a pedestrian walkway is parallel and adjacent to an auto travel lane, it must be raised and separated from the auto travel lane by a raised curb at least 6 inches high, decorative bollards, or other physical barrier.

E. **Shade.**

1. ***Shade at Entries.*** At primary entries, pedestrian walkways shall be provided with weather protection such as canopies, awnings, arcades and trellises.

2. ***Shade Over Pedestrian Walkways.*** A minimum of 50% of the required pedestrian walkways surface area shall be shaded either by structures or tree canopy.

3. ***Measuring Shade.*** Shade coverage shall be measured at 3:00 p.m. on the summer solstice and verified through a shadow study. For the purpose of shade calculations, tree canopies shall be evaluated based on their projected growth five (5) years after planting.

(Ord. No. 5996, § 4, 3-9-26)

11-30-9: SCREENING

A. **Screening of Mechanical Equipment.** Except the AG, RS, DR-1 and RSL Districts, all exterior mechanical equipment, whether on a roof, on the side of a structure, or on the ground, shall be screened from public view, public right-of-way, parking areas, and on-site pedestrian walkways and amenities. Exterior mechanical equipment to be screened includes, but is not limited to heating, ventilation, air conditioning, refrigeration equipment, plumbing lines, ductwork, downspouts, transformers, satellite dishes, smoke exhaust fans, backflow preventers, utility meters, service entry section and similar utility devices.

1. ***Screening Design.***

   a. Screening shall be architecturally integrated into the main structure with regard to materials, color, shape, and size to appear as an integral part of the building or structure.

   b. Screening materials shall be opaque and durable. The use of wood, expanded metal lath, and chain-link is prohibited.

   c. When screening with plants, evergreen types of vegetation shall be planted and maintained. Plant material sizes and types shall be selected installed and maintained so that at the time of building occupancy, and continuously afterwards, such plants effectively screen their respective equipment.

2. ***Roof-Mounted Equipment (Non-Solar Equipment).***

   a. Roof-mounted equipment screening shall be constructed as an encompassing monolithic unit, rather than as several individual screens. Multiple equipment screens, or "hats," surrounding individual elements are prohibited.

   b. The height of the screening element shall equal or exceed the height of the structure's tallest piece of installed equipment.

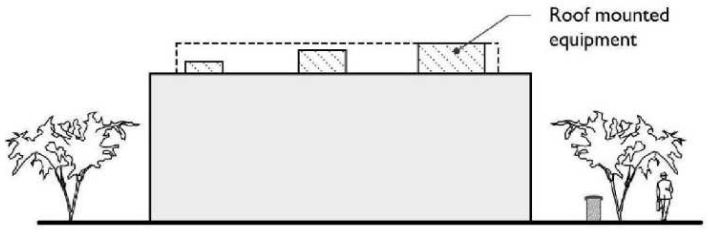

FIGURE 11-30-9.A(1): SCREENING OF ROOF-MOUNTED EQUIPMENT

3. ***Roof-Mounted Solar Equipment.***

   a. Solar equipment placed on flat roofs shall be screened a minimum of 60% of the height of the equipment.

   b. Roof-mounted equipment laying flat on a sloped roof, without additional structures elevating the panels from collectors, do not require any additional screening device.

4. ***Ground-Mounted Equipment.***

   a. Ground-mounted equipment shall be screened to a height of at least 12 inches above the tallest piece of equipment.

   b. Screening devices shall consist of decorative walls and/or berms (2:1 maximum slope) with supplemental plant materials including trees, shrubs, and ground covers.

   c. Vegetative materials may be substituted for up to 50% of the screening devices when used in conjunction with screen walls that are three (3) feet in height or lower.

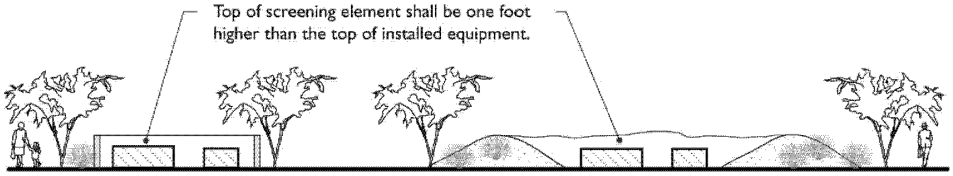

FIGURE 11-30-9.A(2): SCREENING OF GROUND-MOUNTED EQUIPMENT

5. ***Wall Equipment.***

   a. Screening devices for wall-mounted equipment, including but not limited to electrical meters, electrical distribution cabinets, Service Entry Section (SES), fire sprinkler equipment and similar valves shall incorporate elements of the building design, e.g. shape, color, texture, and material.

   b. Vegetative materials may be substituted for up to 50% of the screening devices when used in conjunction with screen walls that are three (3) feet in height or lower.

6. ***Exceptions.*** Exceptions to the screening requirements may be approved by the Zoning Administrator when it can be demonstrated that the mechanical equipment will not be visible from public view.

B. **Truck Docks, Loading, and Service Areas.** Truck docks, loading, delivery and service bays shall be screened according to the standards of Section 11-30-13.

C. **Roof Access Ladders and Fire Sprinkler Risers.** Roof-access ladders and fire sprinkler risers shall be located within the interior of the structure.

D. **Outdoor Storage.** Screening for outdoor storage shall be according to the standards of Section 11-30-7, Outdoor Storage.

E. **Automated Car Wash and Auto Service Bays.**

1. ***Adjacent to Residential or Mixed-use Development.*** When within 200 feet of a residential or mixed-use development without an intervening street, the following standards shall apply:

   a. *Located Within 100 feet of a Residential or Mixed-Use Development.* When located within 100 feet of an adjacent residential or mixed-use development bay doors and openings shall be oriented away from the residential or mixed-use.

b. *Located Between 100 to 200 Feet of Residential or Mixed-Use Development.* When located between 100 feet and 200 feet of an adjacent residential or mixed-use development bay doors and openings shall be screened by an intervening building or an eight (8) foot tall screen wall.

c. *Located More Than 200 Feet From a Residential or Mixed-Use Development.* When located more than 200 feet from an adjacent residential or mixed-use development, bay doors and openings shall be screened by an intervening building or a six (6) foot opaque wall.

2. ***Screening from Adjacent Streets.*** Bay door as and openings shall be screened from adjacent streets by one (1) of the following methods:

a. *Intervening Buildings.* Bay doors and openings shall be screened from adjacent streets through the use of intervening buildings such that the bays doors are not visible from the street(s).

b. *Setback 200 feet or Greater.* Bay doors and openings are setback from the street a distance of 200 feet or greater.

c. *Orient Perpendicular to the Street.* Buildings shall be oriented so that the bay doors and openings are perpendicular to the centerline axis of the abutting street. For corner lots, the bay doors shall be oriented perpendicular to the street with the highest functional classification identified in the Mesa Transportation Plan. In the event that the functional street classifications are equivalent, the orientation creating the smallest noise impact on adjacent residential development shall be used.

d. *Setback Less Than 200 Feet to the Street.* Bay doors and openings that are less than 200 feet from an adjacent street and the bay doors and openings are less than perpendicular to a street, screening shall be provided by a minimum six (6) foot high opaque wall.

3. ***Landscape Screening.*** Large-canopy trees and shrubs shall be used to provide screening to the bay doors when the bays are visible from the adjacent street.

4. ***Noise Reduction.*** Air compressors and similar devices shall be housed in enclosed rooms designed to attenuate sound a minimum of 25 db.

G. **Parking Areas.** Parking areas and drive aisles shall be screened from street(s) with masonry wall, berm or combination of walls/berms and densely planted landscaping or "vertical wire trellis panels". No more than 40% of the screening shall be accomplished with dense landscaping.

1. Screen walls shall vary in height from 32 to 40 inches and shall be offset or staggered by at least 24 inches at intervals of no more than 50 feet.

2. The screening device shall vary in height from 12 to 18 inches when lawful display of automobiles, trucks, Recreational Vehicles, Manufactured Homes, boats, motorcycles, and utility trailers is adjacent to public streets.

3. Screen walls shall be constructed of high-quality, durable materials such as stucco finish, textured block, brick, stone, decorative cap block, or other similar high-quality material and shall include a decorative cap or top finish as well as edge detail at wall ends.

4. Berms shall be contoured and covered with a combination of vegetative and inert ground cover. If a contoured screening berm is installed, 24-inch box trees may be substituted for required 36-inch box trees.

5. Screen wall and/or berm height shall be measured from the finish grade of the parking lot.

6. When using a screen wall there shall be a landscaped setback of at least five (5) feet between the screen wall and the edge of the parking area.

7. A setback of at least 10 feet shall be provided between the screen wall and the right-of-way.

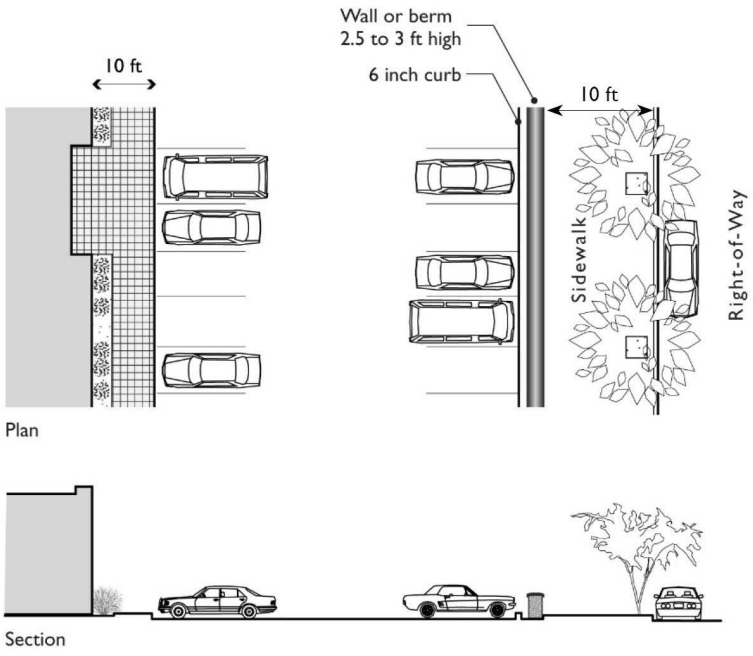

FIGURE 11-30-9.G(1): SCREENING AND SEPARATION OF PARKING AREA

H. **Common Property Lines.** A screening wall six (6) feet in height shall be provided on the interior lot lines of any lot that contains any commercial use, industrial use, public or semi-public use (except Cemetery or Public Park and Recreation Facility), or transportation, communication and utilities use, as described in Chapter 86, Descriptions of Use Classifications and Use Types, and abuts a residential district or residential use. Such screening wall shall be provided at the time of new construction or expansion of buildings, or changes from one use classification to another non-residential use classification.

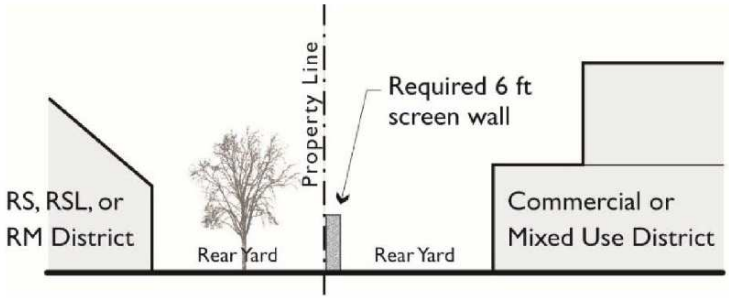

FIGURE 11-30-9.I: SCREENING ALONG RESIDENTIAL DISTRICT BOUNDARIES

1. ***Location.*** Screening walls shall follow the lot line of the lot to be screened, or shall be so arranged within the boundaries of the lot so as to substantially hide from adjoining lots the building, facility, or activity required to screened.

2. ***Materials.*** Industrial uses must provide a solid screening wall of stucco, decorative block, or concrete panel. Screening walls for other uses may be constructed of stucco, decorative block, concrete panel, or other substantially equivalent material. Chain-link fencing is prohibited.

3. ***Berms.*** A landscaped earth berm may be used in combination with, or in lieu of, the above types of screening walls.

4. ***Relationship to Fence and Wall Height Limits.*** If the minimum height required for screening walls exceeds the maximum permitted height of fences and freestanding walls for the zoning district, then an alternative screening solution shall be provided for review and approval by the Planning Director that meets the intent of the screening requirement.

5. ***Exception.*** In locations where commercial and multiple residence properties share a common interior property line the requirements for screening can be waived, except for loading and service areas, if the waiver of the screening will facilitate a more integrated design and development allowing greater pedestrian connection between the uses.

(Ord. No. 5928, § 20, 2-3-25; Ord. No. 5996, § 4, 3-9-26)

11-30-10: SETBACKS AT INTERSECTIONS

A. **Minimum Setback.** Corner treatments such as attractive plantings, pedestrian paving, lighting, monument signage and/or Street furniture shall be provided within setbacks from the intersection. All parking areas, and drive aisles shall be setback from Street intersections according to the standards in Table 11-30-10.

Table 11-30-10: Minimum Setbacks from Intersections

Intersections	Minimum Corner Setback (radius in feet)	
	DR, DB, DC, RM-5 Districts	All other non-residential districts
Arterial with Arterial	No radius is required for any of the above listed zoning districts so that the setback becomes an intersection of the street side setbacks with a build-to line where required.	Minimum 50' radius
Arterial with Collector		Minimum 25' radius
Collector with Collector		Minimum 25' radius

B. **Landscaping.** Corner setbacks shall be landscaped according to the standards of Chapter 33, Landscaping.

(Ord. No. 5996, § 4, 3-9-26)

11-30-11: SWIMMING POOLS

Swimming pools and other bodies of water located in any zoning district must be developed in compliance with the following standards:

A. A swimming pool shall not be located in the required Front Yard or a Side Yard required for vehicle access, required landscaped areas or closer than 4 feet from the water's edge to any Lot Line.

B. Contained bodies of water either above or below ground level with the container being 18 inches or more in depth at any point or wider than 8 feet at any point, shall conform to the location and fencing requirements for swimming pools.

C. Swimming pools shall be secured from unauthorized access by an enclosure as provided in Title 4, Chapters 2 (Mesa Building Code) or 3 (Mesa Residential Code), as applicable, of the Mesa City Code.

11-30-12: TRASH AND REFUSE COLLECTION AREAS

A. **General Applicability Requirements and Alternatives.**

1. ***General Applicability Requirements.*** Solid waste and recycling-container enclosures are required for new dwelling groups consisting of four (4) or more dwelling units and for all commercial or industrial developments in which the aggregate gross floor area exceeds 10,000 square feet. Designs must meet Mesa Standard Details.

2. ***Alternatives.*** Alternatives to standard requirements may be considered by the Planning Director and Solid Waste Management Director.

B. **Location.** All enclosures shall comply with all applicable Building and Fire Codes and shall meet the following requirements.

1. The solid waste and recycling storage area shall not be located within any required front setback, street side setback, any required parking and landscaped areas, or any other area required by the Mesa City Code to be constructed and maintained unencumbered according to fire and other applicable building and public safety codes.

2. Solid waste and recycling areas shall be consolidated to minimize the number of collection sites and located so as to reasonably equalize the distance from the building spaces they serve.

3. Solid waste and recycling storage areas shall be located so that the trucks and equipment used by the City of Mesa solid waste and recycling collector(s) have sufficient maneuvering areas.

C. **Materials, Construction, and Design.**

1. ***Screening Required.*** Solid waste and recycling storage areas shall be fully screened from public streets and parking areas.

2. ***Minimum Height of Screening.*** Solid waste and recycling storage areas located outside or on the exterior of any building shall be screened to a minimum height of six (6) feet.

3. ***Enclosure Material.*** Enclosure material shall be solid masonry or concrete tilt-up with decorated exterior-surface finish compatible to the main structure(s).

4. ***Gate Material.*** Gate material shall be opaque, decorative, and constructed of solid, heavy-gauge metal.

5. ***Access to Enclosure from Residential Projects.*** Each solid waste and recycling enclosure serving a residential project shall be designed to allow walk-in access without having to open the main enclosure gate.

6. ***Protection for Enclosures.*** Concrete curbs or equivalent shall protect enclosures from adjacent vehicle parking and travel ways.

7. ***Landscaping.***

   a. When feasible, the perimeter of the solid waste and recycling enclosure shall be planted with drought resistant landscaping, including a combination of shrubs and/or climbing evergreen vines.

   b. Trees shall not be planted within ten (10) feet of the enclosure.

8. ***Lighting.*** All trash collection areas shall be well lit with a minimum one (1) foot candle.

(Ord. No. 5996, § 4, 3-9-26)

11-30-13: TRUCK DOCKS, LOADING AND SERVICE AREAS

All loading and unloading of goods whether for delivery, storage, sale, or otherwise shall occur within truck docks, loading, and service areas. Truck docks, loading, and service areas shall be located and screened as follows:

A. **Minimum Distance from Residential District.** Truck docks, loading, and service areas are not permitted within 50 feet of the boundary of any residential district or use.

B. **Location on Lot.** In all districts except the GI, and HI Districts, truck docks, loading areas and service areas must be located at the rear or side of buildings, rather than facing a Street.

C. **Screening.** Truck docks, loading areas, and service areas located in any zoning district shall be screened from any adjacent residential districts or uses. Docks, loading and service areas in any district except the GI and HI Districts shall be screened from public view. Screening shall consist of a solid masonry wall at least eight (8) feet in height or opaque automated gates.

D. **Commercial Loading and Unloading.** In the Downtown Business, Downtown Core, or Form Based Code Districts, the loading and unloading of commercial vehicles shall occur within 300 feet of the site being served.

(Ord. No. 5996, § 4, 3-9-26)

11-30-14: VISIBILITY AT INTERSECTIONS

Notwithstanding any other provisions of this Section, no fence, wall, shrubbery, sign or other obstruction to vision between a height of three (3) feet and eight (8) feet above the centerline grades of the intersecting streets shall be erected, placed, planted, allowed to grow or maintained within the triangular yard space formed by the

intersecting center lines and a line joining points on such center lines 80 feet from the point of intersection. Where a conflict occurs between this requirement and the Land Division Regulations, the more restrictive provision shall apply.
(Ord. No. 5996, § 4, 3-9-26)

11-30-15: SOLAR PANELS AND OTHER ALTERNATIVE ENERGY PRODUCTION FACILITIES

A. **Solar Panels.** The following standards are applicable solar panels used for the primary purpose of providing energy for the immediate site or development:

1. ***Attached solar panels.*** In all zoning districts, solar panels attached to sloped roofs shall be located entirely on the roof. Solar panels located behind parapets on flat roofs shall comply with Table 11-30-3: Allowed Projections Above Height Limits.

2. ***Detached, freestanding solar panels.*** Detached or freestanding solar panel structures are permitted only in Single Residence districts and shall comply with all location, maximum height and maximum roof area requirements of Detached Accessory Structures, Section 11-5-7(B).

B. **Solar Farms and Alternative Energy Production Facilities.** Design Objective: Reduce the impact of large energy production utilities.

Solar farms and other alternative energy production facilities shall be permitted in accordance with the requirements of Article 2 and the following:

1. ***Setbacks and Landscaping.*** In all districts where permitted, provide the setbacks and Landscaping required for that district.

2. ***Screening.*** Solar panels and equipment used for solar farms and/or alternative energy production facilities shall be screened from the public view of the street right-of-way by walls and fences that are the height of the panels and equipment or at least 8 feet in height, whichever is less.

11-30-16: PORTABLE STORAGE CONTAINERS (PSC)

Portable Storage Containers are permitted only in accordance with the following requirements:

A. **Minimum Standard.** The construction of the PSC shall conform to requirements set by the International Standards Organization for portable shipping containers, ISO 6346.

B. **Temporary Use during Construction.** PSCs are permitted as a temporary storage device for use during construction, remodeling, or redevelopment of permanent on-site buildings and facilities:

1. When either of the following occurs:

a. In all Agriculture (AG), multiple residence (RM), all commercial and all industrial zoning districts, and for non-residential uses in Mixed Use (MX) and all Transect districts, if no building permit is required for the type of construction taking place, the temporary use of the PSC is subject to the issuance of an Administrative Use Permit by the Development Services Division in accordance with requirements of Chapter 70 of this Zoning Ordinance.

b. In all zoning districts, when a building permit is required for the type of construction taking place, the temporary use of use of the PSC may be authorized in conjunction with the issuance of a building permit in accordance with Title 4 of the Mesa City Code.

2. Applications for a building permit or Administrative Use Permit, as applicable (Item 1, above), shall include a plan which specifies the number, size, and location of the storage containers.

3. The temporary use of PSCs is limited to the lesser of the following time periods:

a. When authorized in conjunction with the issuance of a building permit, the temporary use shall be limited to the time in which the construction, remodeling, or redevelopment of permanent on-site buildings and facilities is actively taking place; or

b. When authorized with the issuance of an Administrative Use Permit, the temporary use shall be limited to 6-months, or until such time as the construction, remodeling, or redevelopment activity is completed, whichever occurs first. If the construction, remodeling, or redevelopment activity remains active and extends beyond 6-months, then the use permit may be renewed, but no more than 2 times.

4. The PSC shall be removed within 7-days of the completion of:

a. The construction, remodeling, or redevelopment activities;

b. The construction activities authorized by the construction permit; or

c. The expiration of the use permit.

5. In all Single Residence (RS) and Single Residence-Small Lot (RSL) districts, PSCs used during construction with the issuance of a building permit shall be limited to no more than one PSC per residential lot.

6. PSCs shall not be located in retention basins, drive aisles, fire lanes, loading zones, or any other location that may cause hazardous conditions, or constitute a threat to public safety.

C. **Temporary or Periodic Commercial Storage.** In the LC and GC commercial districts, and in the PEP and LI industrial districts, PSCs may be used as a periodic, intermittent, or isochronal use for a temporary period of time and accessory to a primary permitted use, subject to the approval of a special use permit in accordance with Chapters 67 and 70 of this Zoning Ordinance. In addition to specifying and limiting the number, size, location, and duration of the storage containers, the special use permit may require additional measures to ensure compatibility with adjacent land uses, such as increased setbacks, screen walls, Landscaping, exterior materials and color.

D. **Permanent Storage in Industrial Districts.** In those industrial districts for which outdoor storage is expressly allowed (i.e., LI, GI and HI Districts), PSCs may be used for permanent outdoor storage, subject to:

1. All requirements for the placement of outdoor storage specified for the applicable zoning district;

2. Compliance with all requirements of Section 11-30-7 with regard to placement and Screening of outdoor storage; and

3. Placement of the PSC in a manner such that it is not located in landscape areas, designated open space, retention basins, drive aisles, fire lanes, required parking spaces, loading zones, or any other location that may cause hazardous conditions, or constitute a threat to public safety.

E. **Permanent Storage in Downtown Business District 2.** In the DB-2 district, a PSC shall only be used for outdoor storage, subject to:

1. Approval of a Special Use Permit in accordance with Chapters 67 and 70 of this Zoning Ordinance;

2. Compliance with all requirements for the placement of outdoor storage specified by Section 11-30-7 with regard to placement and Screening of outdoor storage; and

3. Placement of the PSC in a manner such that it is not located in landscape areas, designated open space, retention basins, drive aisles, fire lanes, required parking spaces, loading zones or any other location that may cause hazardous conditions, or constitute a threat to public safety.

F. **Temporary Use in Residential Districts for Loading and Unloading of Household Goods.** In residential districts (RS, RSL and RM), Downtown Residence (DR-1, DR-2 and DR-3), and residential uses in all Transect districts (T3N, T4N, T4NF, T4MS, T5N, T5MSF, and T6MS), the temporary placement of a portable storage container on a residential lot for the purpose of loading and unloading household contents is only permitted for a period of time not exceeding seven (7) days in a calendar year.

G. **Permanent Use in Single Residence and Agriculture Districts.** The permanent use of PSCs is permitted only in the RS-43, RS-90 and AG Zoning Districts, and only in accordance with the following requirements:

1. The placement, floor area, and size of the portable storage containers shall be in conformance with the same requirements specified for detached Accessory Buildings in Section 11-30-17.

2. A building permit is required before installation, with a field inspection following installation.

3. The PSC shall be placed upon an elevated pad that is a minimum of 4-inches above average natural grade of the ground within a 4-foot radius of the exterior walls of the PSC.

4. One or more of the following aesthetic treatments to the exterior physical appearance of the PSC are required. At minimum:

a. A veneer of a durable building material similar to and congruous in appearance with the primary dwelling shall be attached to the PSC; or

b. Landscaping of sufficient density is installed and maintained so as to block the visibility of the PSC from across property lines of all directly abutting properties, or from across a Right-of-Way from a property that would otherwise directly abut the site. This Landscaping Screening may be through the use of a hedge or other Landscaping growing adjacent or on the PSC. If this alternative is used, the PSC shall be painted a color considered compatible with the color of the associated primary residence; or,

c. A combination of partial veneer treatments, compatible paint colors, and/or landscape treatments that result in the appearance of the PSC being aesthetically congruous with the primary residence, and undiscernible from a detached Accessory Building of standard construction.

5. Openings created for placement of doors and/or windows in the PSC are only permitted if no cuts or structural alterations are made to the primary structural frame of the PSC.

(Ord. No. 5249, 10-6-14)

11-30-17: DETACHED ACCESSORY BUILDINGS OR STRUCTURES

The purpose of this Section is to aid in the comfort, convenience, and enjoyment of a lot or parcel by providing standards for the allowance and placement of detached Accessory Buildings or Structures that place reasonable limitations to minimize impacts on access to light, air, and spacing relative to adjacent lots and parcels.

A. **General Requirements.** Detached Accessory Buildings or Structures located on lots or parcels in Agricultural (AG), Single Residence (RS), Small Lot Single Residence (RSL), Downtown Residential (DR), and Multiple Residence (RM) districts are permitted subject to the following provisions:

1. The Primary Building shall be under construction or fully constructed on a lot or Parcel of Land prior to initiating construction of a detached Accessory Building or Structure;

2. Detached Accessory Buildings or Structures shall not be constructed or used for dwelling purposes, except as an Accessory Dwelling Unit as provided in Section 11-31-3 of this Title;

3. Detached Accessory Buildings or Structures shall adhere to the maximum building coverage and maximum Lot Coverage requirements of the underlying zoning district;

4. The combined gross floor area of all detached accessory buildings or structures, shall not exceed 100% of the gross floor area of the primary building, unless approved by a Special Use Permit; and

5. No detached Accessory Building or Structure shall encroach into any recorded Easement.

B. **Building Height and Location.**

1. ***Detached Accessory Buildings or Structure: Less than or equal to 200 Square Feet.*** Detached Accessory Buildings or Structures 200 square feet or less in gross floor area shall comply with all of the following requirements:

a. May be located within the required rear, side, or Street Side Yards.

b. Shall not be located in the required Front Yard or between the front of the Primary Building and the Street.

c. On Corner Lots or parcels abutting a Key Lot, detached Accessory Buildings or Structures shall not be located closer to the Street than the Primary Building on the adjacent Key Lot.

d. Shall not be located closer than six (6) feet to the Primary Building.

e. Shall not exceed eight (8) feet in height at the peak of the roof unless the detached Accessory Building or Structure complies with the height and location requirements in Subsection (B)(2)(d) or Subsection (B)(2)(e) below.

f. No portion of the Accessory Building or Structure shall overhang the property line or cause water to shed or drain from the roof of the Accessory Building or Structure onto a neighboring property.

2. ***Detached Accessory Buildings or Structures: Greater than 200 Square Feet.*** Detached Accessory Buildings or Structures greater than 200 square feet in gross floor area shall comply with all of the following requirements:

   a. Shall not be located in the required Front Yard or between the Primary Building and the Street.

   b. Shall not be located closer than six (6) feet to the Primary Building.

   c. On Corner Lots or parcels abutting a Key Lot, detached Accessory Buildings or Structures shall not be located closer to the Street than the Primary Building on the adjacent Key Lot.

   d. Shall not exceed the maximum Building Height of the underlying zoning district, or the height of the Primary Building as measured at the peak of the roof, whichever is less, unless approved by a Special Use Permit.

   e. In addition to the height maximum in Subsection (d), the below requirements must be met for the detached Accessory Building or Structure, as applicable. If the height of the Accessory Building or Structure is:

      i. Equal to or less than 15 feet in height at the peak of the roof, the detached Accessory Building or Structure may be located within the rear, side, or Street Side Yards but shall not be located closer than five (5) feet from the side, Street-side, and rear property lines.

      ii. Over 15 feet in height at the peak of the roof, the detached Accessory Building or Structure shall not be located within any rear, side, or Street Side Yard, and shall adhere to the setback requirements of the underlying zoning district.

   f. No portion of the Accessory Building or Structure shall overhang the property line or cause water to shed or drain from the roof of the Accessory Building or Structure onto a neighboring property.

(Ord. No. 5814, § 3, 10-16-23; Ord. No. 5883, § 1, 10-7-24; Ord. No. 5950, § 1, 7-8-25)

CHAPTER 31 STANDARDS FOR SPECIFIC USES AND ACTIVITIES*

11-31-1: PURPOSE AND APPLICABILITY

The purpose of this Chapter is to establish standards for specific uses and activities that are permitted or conditionally permitted in multiple zones. For each zoning district, uses and activities that are permitted or conditionally permitted shall comply with the regulations and standards of this Chapter, as well as any applicable standard found in each zoning district.

11-31-2: ACCESSORY USES

An Accessory Use shall be secondary to a primary use and shall be allowed only in conjunction with a Principal Use or building to which it relates, in any zoning district. Accessory use regulations are found in the use regulations tables in Article 2 and 3 of this Zoning Ordinance and are subject to the regulations of the primary use and specific standards found in this Chapter.

***Editor's note—**Previously, Chapter 31 derived from Ord. No. 5233, 6-2-14.

11-31-3: ACCESSORY DWELLING UNIT

The purpose of this Chapter is to provide opportunities for Accessory Dwelling Units (ADUs) while minimizing impacts to surrounding uses and properties.

A. **Applicability.**

1. One (1) attached ADU and one (1) detached ADU are permitted per lot or parcel in any of the following zoning districts where a Single Residence is allowed: Agricultural, Residential, Commercial and Mixed Use, and Downtown.

2. Any lot or parcel containing an existing Single Residence is permitted one (1) attached ADU and one (1) detached ADU regardless of the zoning district.

3. One (1) additional detached ADU is permitted on a lot or parcel that is one (1) acre or more in size on a lot or parcel that meets the requirements in Subsection (A)(1) or (A)(2) above if at least one (1) of the ADUs is used as a restricted-affordable dwelling unit, which is defined as a dwelling unit that either, through a private deed restriction or a Development Agreement with the City, is rented to households earning up to eighty percent (80%) of the area median income.

B. **General Requirements.**

1. There are no minimum lot size requirements to establish an ADU.

2. An ADU shall have a separate and independent entrance from the primary residence and may not have an internal connection to the primary residence.

3. An ADU may contain either a partial kitchen or full kitchen, but no more than one (1) kitchen per ADU is allowed.

4. An ADU in a Historic District shall comply with Chapter 74 of the Zoning Ordinance.

5. An ADU shall comply with all applicable building code requirements for residential dwellings.

6. Manufactured Homes, Recreational Vehicles (RV), and trailers shall not be used as an ADU.

C. **Unit Size.** The interior habitable area of an ADU shall not exceed 75% of the primary residence's interior habitable area, or 1,000 square feet, whichever is less.

D. **Setbacks.**

1. ***New Structures - Attached or Detached.***

a. A minimum side and rear setback of five (5) feet shall be provided for all side and rear setbacks.

b. Front and secondary front (street side) setbacks shall comply with the primary residence setback requirements for the underlying zoning district.

c. Any uninhabitable space (e.g., a garage, unconditioned storage room, workshop, and similar areas) attached to an ADU shall comply with the following:

i. *For Attached ADUs.* Uninhabitable space attached to the attached ADU shall comply with the setback requirements for the underlying zoning district.

ii. *For Detached ADUs.* Uninhabitable space attached to the detached ADU shall comply with the setback requirements for detached accessory buildings or structures in Section 11-30-17 of this Ordinance.

2. ***Existing Detached Accessory Building or Structure Conversion.***

a. *Conforming Detached Accessory Building or Structure.*

i. An existing Detached Accessory Building or Structure that complies with the setback requirements in Section 11-30-17 (Detached Accessory Buildings or Structures) but does not comply with the setback requirements in Subsection (D)(1) above may be converted to an ADU without requiring additional setbacks.

ii. Any expansion or addition to accommodate an ADU shall comply with the setback requirements of Subsection (D)(1) above.

b. *Legal Non-Conforming Detached Accessory Building or Structure.*

i. An existing Detached Accessory Building or Structure that does not comply with the setback requirements in Section 11-30-17 (Detached Accessory Buildings or Structures) or the setback requirements in Subsection (D)(1) above, may be converted to an ADU without requiring additional setbacks.

ii. An expansion or addition to accommodate an ADU may be constructed in compliance with Subsection (D)(1) above, or in line with the existing non-conforming setback, provided it does not further increase the existing non-conformity.

3. ***Primary Residence.***

a. *Primary Residence Renovation.* A primary residence may be internally renovated to include an ADU and shall not require additional setbacks. Any expansion or addition to the primary residence to accommodate an ADU is subject to the following:

i. *Ground Floor Addition.* Any ground floor addition constructed to accommodate an ADU shall comply with the setback requirements outlined in Subsection (D)(1) above.

ii. *Second-Story Addition.* Any second-story addition constructed to accommodate an ADU shall comply with the setback requirements for the primary residence.

b. *Legal Non-Conforming Structures.*

i. A primary residence that does not conform to the required setbacks for the underlying zoning district or the setback requirements in Subsection (D)(1) above, may be internally renovated to accommodate an ADU without requiring additional setbacks.

ii. An expansion or addition to accommodate an ADU may be constructed in compliance with Subsection (D)(1) above, or in line with the existing non-conforming setback, provided it does not further increase the existing non-conformity.

E. **Lot Coverage and Building Coverage.** An ADU shall comply with all lot coverage and building coverage requirements of the underlying zoning district.

F. **Height.**

1. The height of an attached or detached ADU shall comply with the primary residence height requirements for the underlying zoning district.

2. Any uninhabitable space (e.g., a garage, unconditioned storage room, workshop, and similar areas) attached to a detached ADU shall comply with the height requirements for detached accessory buildings or structures in Section 11-30-17 of this Ordinance.

G. **Parking.**

1. No additional parking spaces are required for an ADU.

2. If a garage or carport is converted to an ADU, covered parking for the primary residence is not required to be replaced elsewhere on the lot or parcel.

H. **Utilities.**

1. An ADU shall be provided with water, sewer, and electric utilities.

2. An ADU shall be served by the same water, sewer, and electric utility provider as the primary residence.

3. An ADU may not be built on top of a current or planned Public Utility Easement of any kind unless the property owner receives written consent from any utilities currently using the Public Utility Easement or that may use the Public Utility Easement in the future.

(Ord. No. 5814, § 4, 10-16-23; Ord. No. 5883, § 2, 10-7-24; Ord. No. 5950, § 2, 7-8-25; Ord. No. 5996, § 4, 3-9-26)

11-31-4: ANIMAL KEEPING (AG AND ACCESSORY TO RESIDENTIAL USES)

Keeping animals in AG and residential zones is allowed, subject to compliance with Title 8 Article 4.

A Special Use Permit may be approved for the keeping of livestock in excess of the number permitted in Section 8-6-21 of the Mesa City Code, or for the keeping of livestock on a parcel less than 35,000 square feet, as specified in Section 8-6-21 of the Mesa City Code, only upon a finding by the Zoning Administrator acting as a hearing officer/Board of Adjustment that all three of the following are present:

A. The applicant has demonstrated that the number of livestock proposed is consistent with the number historically kept on the property.

B. The keeping of livestock is for private use and enjoyment and does not constitute a commercial use, unless otherwise authorized in this Chapter.

C. The keeping of livestock will be in accordance with all other provisions of Title 8 Article 4, of the Mesa City Code, including proper sanitation and placement of barns, pens, and corrals.

11-31-5: AUTOMOBILE RENTALS; AUTOMOBILE/VEHICLE SALES AND LEASING

Automobile Rental, and Automobile/Vehicle Sales and Leasing, each as described in Section 11- 86-4, shall be located, developed, and operated in compliance with the land use regulations in Article 2 and the following standards:

A. **Landscaping.** In addition to perimeter and foundation base Landscaping requirements, Landscaping shall comprise a minimum of 10 percent of the site area.

B. **Vehicle Display.** A maximum of 30 percent of the Street side landscape area may be used for vehicle display. A minimum 12-foot wide planter strip shall separate vehicle display areas from Sidewalks along the Streets. Vehicle display encroachments wider that 30-feet shall be separated by a minimum distance of 30-feet between similar vehicle displays that encroaches into the Street side landscape area (illustration needed).

C. **Vehicle Loading and Unloading.** Vehicle loading and unloading shall occur on-site.

D. **Vehicle Display Platforms.**

1. Elevated platforms or other structures or devices used for the display of vehicles associated with an approved vehicle sales or rental facility are permitted, provided such platforms, structures, or devices:
    a. Shall only be located in areas currently approved or authorized for vehicle display; and
    b. Shall not project into or over required landscape areas, drive aisles, or fire lanes; and
    c. Shall not be located closer to the public Street than the existing, at-grade vehicle display area; and
    d. Shall not exceed four feet (4') in height as measured from the mean finished grade of the display surface.
2. Only one (1) vehicle shall be displayed on each platform, structure, or device.
3. The number of display platforms, structures, or devices shall not exceed a ratio of one (1) per 100 feet of lineal street frontage of the at-grade display area (exclusive of driveways).
4. The Planning Director may approve modifications or variations to the above provisions when such platforms, structures, or devices comply with all of the following:
    a. Constitute a design component, or incorporate architectural features, associated with the Primary Buildings or structures on the development site; and
    b. Serve only to enhance the visibility of vehicles, and do not display or portray an advertising message, or commercial signage; and
    c. Will not impede or obstruct the visibility of traffic maneuvering on the development site or traveling upon the public-street; and
    d. Incorporate increased setbacks, enhanced landscaping, or other screening measures to effectively mitigate the impact of the platforms.

(Ord. No. 5996, § 4, 3-9-26)

11-31-6: AUTOMOBILE/VEHICLE REPAIR, MAJOR AND MINOR

Major Automobile/Vehicle Repair, and Minor Automobile/Vehicle Service and Repair, each as described in Section 11-86-4, shall be located, developed, and operated in compliance with the land use regulations in Article 2 and the following standards:

A. **Minimum Lot Size.** 1 acre, unless part of a larger group commercial center.

B. **Screening.** Car service and storage areas shall be screened per Sections 11-30-9(F), Auto Service Bays and 11-30-9(H), Parking Areas.

C. **Litter.** No used or discarded automotive parts or equipment or disabled, junked, or wrecked vehicles may be stored outside of the main building.

D. **Noise.** All body and fender work, or similar noise-generating activity, shall be enclosed in masonry or similar building with sound attenuating measures incorporated into the building design and construction to absorb noise to comply with Title 6, Chapter 12 of the Mesa City Code. Bay openings shall be oriented so as to minimize the effects of sound emanating from the auto repair building towards residential uses, towards outdoor restaurant seating and outdoor reception areas. Compressors shall be located within separately enclosed, sound attenuated rooms.

11-31-7: AUTOMOBILE/VEHICLE WASHING

Automobile Washing, as described in Section 11-86-4, shall be located, developed, and operated in compliance with the land use regulations in Article 2 and the following standards:

A. **Location.** Automobile/Vehicle Washing, as a primary use, is only allowed on sites with at least one (1) frontage on an arterial street.

B. **Setbacks.** No building or structure shall be located within 20 feet of any interior lot line abutting a Residential Zoning District.

C. **Drive-up Aisles and Required Queuing Area.**

1. Drive-up aisles shall be at least 12 feet wide;

2. If adjacent to a street, the drive-up aisle shall be screened as specified in Section 11-30-9(F), Automated Car Washes and Auto Service Bays.

3. The drive-up aisle shall provide queuing space, with no encroachment into required landscape areas or building setbacks, for at minimum:

a. Four (4) vehicles per pull-through rack for each automatic wash bay.

b. Three (3) vehicles per bay for self-serve, coin-operated and/or hand wash facilities.

D. **Landscaping.** When Automobile/Vehicle Washing, is the primary use on a site, in addition to perimeter, parking lot, and foundation base landscaping requirements, landscaping shall comprise a minimum of 10% of the site area.

E. **Litter.** One (1) permanent, non-combustible trash receptacle per wash bay is required.

F. **Noise.**

1. Sound attenuating measures shall be incorporated into the building design and construction to absorb noise such that the sound level readings at the street and at interior property lines are no more than 55 decibels.

2. Mechanical equipment for centralized vacuum equipment shall be housed in an enclosed room.

G. **Additional Special Use Permit Criteria.** When a Special Use Permit is required, the approving body shall find that the project complies with all of the following:

1. The number of automobile related activities within 600 feet of an intersection of arterial streets shall not exceed two (2), including Automobile/Vehicle Washing, Automobile Service Stations, Automobile Sales or Rental Lots, or Automobile/Vehicle Repair.

2. Canopies and fuel dispensing equipment are oriented away from the street, either to the side or to the rear of the building.

3. Compliance with all development standards for the applicable zoning district.

4. The project complies with the General Plan and any other applicable Plans and/or policies.

5. Evidence that the project is designed to:

   a. Provide paved parking and on-site circulation in a manner that minimizes impacts on adjacent sites;

   b. Minimize dust, fugitive light, glare, noise, offensive smells, and traffic impacts on neighboring residential sites.

6. A Plan of Operation has been submitted, which includes, but is not limited to, acceptable evidence of compliance with all zoning, building, and fire safety regulations.

7. A "Good Neighbor Policy" in narrative form has been submitted, which includes, but is not limited to, descriptions of acceptable measures to ensure ongoing compatibility with adjacent uses, including sound attenuation, lighting control measures, and vehicular access and traffic control. Such policies shall include, but are not limited to:

   a. The name and telephone number of the position, manager or person responsible for the operation of the facility;

   b. Complaint response procedures, including investigation, remedial action, and follow-up; and

   c. Litter control measures.

8. Evidence that the building or site is in, or will be brought into substantial conformance with all current City Development Standards, including, but not limited to, landscaping, parking, screen walls, signage, and project-specific design guidelines.

(Ord. No. 5996, § 4, 3-9-26)

11-31-8: BED AND BREAKFAST INNS

Bed and Breakfast Inns, as described in Section 11-86-4, shall be located, developed and operated in compliance with the land use regulations in Article 2 and the following standards:

A. **Location of Parking:** All parking shall be located behind the Front Yard building setback for the zoning district, and be designed to facilitate the exiting of vehicles in a forward motion from the site onto the adjacent Street. Parking for sites located in RM districts shall not encroach into any required side and Rear Yards, nor any required landscape areas.

B. **Additional Requirements for Sites located in RS and DR Districts.** In addition, sites located within the RS and DR districts shall comply with the following:

1. ***Minimum lot area.*** When located in Single Residence (RS) districts, the minimum lot area shall be 15,000 square feet or greater.

2. ***On-site resident.*** When located in Single Residence (RS) or Downtown Residence (DR) districts, the operation of the facility shall include an on-site resident owner or manager.

3. ***Outdoor facilities.*** In addition to compliance with all building setback requirements for the zoning district, all unenclosed outdoor buildings open on 1 or more sides, miscellaneous structures, decks and swimming pools shall maintain a minimum separation of 20-feet from abutting Single Residence lots.

4. ***Signage.*** The site shall be limited to 1 attached sign that is no greater than 4 square feet. Any verbiage on the sign shall be limited to the name of the facility and the address. Use of an internally illuminated sign is prohibited.

C. **Special Use Permit Criteria.** Review of the Special Use Permit required for Bed and Breakfast Inns located in RS districts shall be based on the following:

1. ***Historic Sites.*** Preference may be given to sites located within Approved Historic or Historic Landmark Overlay Districts, without the site being located in close proximity to an arterial Street, as stated in 2, below.

2. ***Proximity to Arterial Streets.*** Sites should be located within a traveling distance on public Streets of 300-feet from a major arterial Street, and should have no more than 1 turning movement on a public Street before accessing the public Street leading to the arterial Street.

3. ***Facility-Lot Area Balance.*** The size and number of on-site improvements should be balanced against the size of the lot in order to maintain the appearance of the site as being compatible with the context and character of the surrounding neighborhood. Factors to consider in reviewing this balance include:

a. Providing facilities needed to minimize impacts on adjacent properties at a scale limited to that needed to achieve the intended result; and

b. Restricting non-residential structures; and

c. Providing adequate Screening (by structure, Screening wall and/or vegetation) of the view of parking spaces from the adjacent Street(s).

11-31-9: COMMERCIAL USES IN ANY RESIDENTIAL DISTRICTS

Any Special Use Permit request for a commercial land use classifications in a residence district shall be reviewed in accordance with the following criteria:

A. **Applicable Policies.** The use is found to be in compliance with the General Plan, and with applicable Sub-Area Plans, Neighborhood Plans and other recognized development plans or policies, and will be compatible with surrounding uses; and

1. ***Development Plan.*** A finding that an acceptable Development Plan has been submitted for review and consideration.

2. ***Operational Plan.*** A finding that an acceptable operational plan in narrative form has been submitted for review and consideration, which includes, but is not limited to, descriptions of acceptable measures to ensure ongoing compatibility with adjacent uses, Such policies shall include, but are not limited to, the name and telephone number of the manager or person responsible for the operation of the facility; complaint response procedures, including investigation, remedial action, and follow-up; and litter control measures; and

3. ***Addresses Adverse Impacts.*** Evidence that acceptable documentation is present demonstrating that the building or site proposed for the use shall adequately provide paved parking and on-site circulation in a manner that minimizes impacts on adjacent sites; and existing or proposed improvements to the site shall minimize dust, fugitive light, glare, noise, offensive smells and traffic impacts on neighboring residential sites.

(Ord. No. 5996, § 4, 3-9-26)

11-31-10: COMMUNITY GARDENS

Community Gardens, as described in Section 11-86-3 shall be located, developed, and operated in compliance with the land use regulations in Article 2 and the following standards:

A. **Type and Size Restrictions.** Community gardens shall be limited in type and size by zoning district as follows:

1. ***Agricultural.*** Gardens may be divided into individual plots or farmed collectively. There is no maximum size for individual plots or for the aggregate garden area.

2. ***RS-35, RS-43, and RS-90.*** Gardens may be divided into individual plots or farmed collectively. Individual plots may be of any size, the maximum size of the aggregate garden area is limited to one (1) acre.

3. ***All Other Districts.*** Garden areas may only be developed as individual garden plots. The individual garden plots may be no larger than 400 square feet and the maximum size of the aggregate garden area is limited to ½ acre.

B. **Setbacks.** Site features, such as raised planting beds and storage sheds, are not allowed in the required setback. Plantings are allowed in required yards provided they comply with site visibility triangles of Section 11-30-14, Visibility at Intersections.

C. **Storage Buildings.** Storage Buildings shall conform to the following standards:

1. ***Maximum area:*** 200 square feet;

2. ***Maximum height:*** 10 feet:

3. ***Location:*** within the buildable area and placed in the rear one-half of the lot;

4. ***Number:*** One (1) storage shed per site for gardens one (1) acre or less; maximum 2 storage sheds for sites larger than one (1) acre.

D. **Lighting.** Overhead lighting is prohibited.

E. **Parking.** No more than 2 vehicles shall be permitted onsite, excluding those parked within an enclosed structure. Parking spaces shall be paved with an approved dust proof material.

F. **Maintenance.** The site shall be kept clear of weeds, debris and waste in conformance with Mesa City Code, Section 8-6-3. All composting shall be done in a screened area or within a container. All tools and equipment shall be stored or screened from view when not in use.

G. **Fences.** Fences, including trellises, are allowed in required yards subject to the standards governing fence location, maintenance, height and design of Section 11-30-4, Fences and Freestanding Walls. Exception: chain link fence material may be used in the Community Garden.

11-31-11: CONVENIENCE MARKETS

Convenience Markets, as described in Section 11-86-4, shall be located, developed, and operated in compliance with the land use regulations in Article 2 and the following standards:

A. **Maximum Building Size.** 5,000 square feet.

B. **Setbacks.** No building or structure shall be located within 20 feet of an interior Lot Line abutting a residential zoning district.

C. **Litter.** One permanent, non-flammable trash receptacle shall be installed in the parking area adjacent to the entrance/exit of the market.

11-31-12: CORRECTIONAL TRANSITIONAL HOUSING FACILITIES (CTHF)

Correctional Transitional Housing Facility (CTHF), as described in Section 11-86-2, shall be located, developed, and operated in compliance with the land use regulations in Article 2 and the following standards:

A. **Location.**

1. ***Separation from Dissimilar Uses.***

a. A minimum distance of 500 feet from any residential zoning district.

b. A minimum distance of 1,200 feet from any of the following:

i. A public or private school building with kindergarten programs or any of grades one (1) through 12, and any recreational area adjacent to such school; and

ii. A public park; and

iii. Any existing community residence or assisted living facility.

2. ***Separation from Similar Uses.*** A minimum distance of 5,280 feet from any other CTHF.

B. **Criteria for Review of Council Use Permit.** The review of the Council Use Permit shall include a review and determination regarding the following items:

1. The use is found to be in compliance with the General Plan and other recognized development plans or policies, and will be compatible with surrounding uses; and

2. A finding that a plan of operation has been submitted, which includes, but is not limited to, acceptable evidence of compliance with all zoning, building, and fire safety regulations; and

3. A finding that a "good neighbor policy" in narrative form has been submitted, which includes, but is not limited to, descriptions of acceptable measures to ensure ongoing compatibility with adjacent uses. Such policies shall include, but are not limited to, the name and telephone number of the manager or person responsible for the operation of the facility; complaint response procedures, including investigation, remedial action, and follow-up; and litter control measures; and

4. Evidence that acceptable documentation is present demonstrating that the building or site proposed for the use is in, or will be brought into, substantial conformance with all current City Development Standards, including, but not limited to, landscaping, parking, screen walls, signage, and design guidelines.

C. **Registration and Renewal.** To register with the City, a correctional transitional housing facility requires a council use permit to operate. the applicant must submit to the City an application for a council use permit in accordance with section 11-67, and provide evidence demonstrating compliance with this section. Registration of a correctional transitional housing facility is valid for one (1) year and must be renewed annually on or before the expiration date of the registration.

D. **General Operations.** Correctional transitional housing facilities shall submit an operational plan demonstrating:

1. Compliance with all zoning, building, and fire safety regulations including, but not limited to, evidence demonstrating that the building and the proposed site will be brought into substantial conformance with all current city development standards, including, but not limited to, landscaping, parking, screen walls, signage, and design guidelines;

2. Compliance with state laws and regulations;

3. Provisions of on-site supervision, by qualified staff, for all hours during which residents are on the premises; and

4. Security measures that are sufficient to protect the safety of residents and other citizens in the vicinity of the facility.

(Ord. No. 5631, § 1, 7-8-21)

11-31-13: LARGE DAY CARE GROUP HOMES

Large Day Care Group Home, as described in Section 11-86-2, shall be located, developed, and operated in compliance with the Land Use Regulations in Article 2 and the following standards:

A. The location of the home is registered with the Planning Division and evidence of certification by the Arizona Department of Health Services is provided to the City;

B. No identification is visible from a public street by signage, graphics, display, or other visual means;

C. The building complies with all applicable building and fire safety regulations;

D. A 6-foot-high solid (opaque) fence or wall is provided between all outdoor play areas and adjacent properties, except within the required front yard, in which fencing requirements shall comply with in the requirements of Section 11-30-4, Fences and Freestanding Walls; and

E. A separation between large day care group homes of 600 feet or by the presence of significant intervening physical features between an existing large day care group home and the proposed large day care group home, such as arterial streets, canals, parks, or similar buffering features or developments.

11-31-14: COMMUNITY RESIDENCES

A community residence (family and transitional) shall be located, developed and operated in compliance with the land use regulations in Article 2 and the following standards:

A. **General Requirements.**

1. ***Spacing Requirements.*** A minimum distance of 1,200 feet from the closest existing community residence, assisted living home, or assisted living center, as measured under Section 11-2-3(D), unless separated by a significant intervening natural or manmade feature such as, but not limited to, a canal, municipal open space of at least ten (10) acres (e.g., park, golf course, etc.), a railroad, or a highway, that is approved by the Zoning Administrator.

2. **Occupancy.** Five (5) up to a maximum of ten (10) individuals (not including staff).

3. ***Licensure and Certification.*** A community residence must obtain one (1) or more of the following:

(a) License or certification from the State of Arizona required to operate the proposed community residence; or

(b) Certification by the Arizona Recovery Housing Association if not required to be licensed by the State of Arizona; or

(c) A "Permanent" Oxford House Charter.

B. **Community Residences Requiring a Conditional Use Permit.** In certain zoning districts community residences are not allowed by right but require the approval of a conditional use permit. A conditional use permit shall be granted only if the governing body finds that the applicant has demonstrated that all of the following criteria are met:

1. The proposed use will be compatible with the residential uses allowed as of right in the zoning district;

2. The proposed use in combination with any existing community residences, assisted living homes, and assisted living centers will not result in a clustering of such uses or alter the residential character of the surrounding neighborhood by creating or intensifying an institutional atmosphere; and

3. The proposed use will not interfere with normalization and community integration of the residents of any existing community residences, assisted living homes, or assisted living centers, and that the

presence of other existing community residences, assisted living homes, or assisted living centers will not interfere with normalization and community integration of the residents of the proposed use;

4. The applicant has submitted a "good neighbor policy" in narrative form that includes:

   (a) A description of acceptable measures to ensure ongoing compatibility with adjacent uses;

   (b) The name and telephone number of the manager or person responsible for the operation of the facility;

   (c) Complaint response procedures including investigation, remedial action, and follow-up procedures; and

   (d) The proposed use complies with all other development standards in this Chapter.

C. **Registration, Renewal, and Revocation.** A community residence must register with the City and renew its registration as set forth below:

1. ***Registration Process for Community Residences That Do Not Require a Conditional Use Permit.*** An applicant for a community residence that does not require a conditional use permit to operate and is not requesting a reasonable accommodation under Section 11-31-14(D), must register with the City by submitting the City's registration application according to Chapter 67, Common Procedures. If the use complies with all City requirements, the applicant will receive provisional registration approval from the planning division. To obtain final registration, the applicant must provide evidence of the required license or certification within 120 days from the date the provisional registration was approved.

2. ***Registration Process For a Community Residence That Requires a Conditional Use Permit or is Requesting a Reasonable Accommodation.*** A community residence that requires a conditional use permit to operate or that requests a reasonable accommodation to the standards in Section 11-31-14(a), must register with the city by submitting the City's application for a conditional use permit according to Chapter 67, Common Procedures, and by providing evidence of compliance with all City requirements. The request will be reviewed by the applicable governing body. approval of the conditional use permit grants the applicant provisional registration. To obtain final registration, the applicant must provide evidence of the required license or certification within 120 days from the date the provisional registration was approved; except registration for a community residence that is granted a reasonable accommodation to the license and certification requirement is considered final and no other action is required.

3. ***Registration Renewal.*** Registration of a community residence is valid for one (1) year and must be renewed annually on or before the expiration date of the registration. To renew a registration, the operator of a community residence shall submit to City an application for renewal and evidence of a current state license, certification or Oxford House Charter.

4. ***Revocation.*** The registration and conditional use permit obtained by a community residence may be revoked as set forth in this section:

   (a) *Facilities Without a Conditional Use Permit.* In the event the license, certification or Oxford House Charter for a community residence is denied or revoked, the City of Mesa registra-

tion will automatically terminate after 15 calendar days of the date of the City's written notification to the applicant; and the community residence must cease operation 45 calendar days from the date of the City's written notification.

(b) *Facilities With a Conditional Use Permit.* A community residence that requires a conditional use permit to operate or that has applied for or received a special use permit for a reasonable accommodation and whose license, certification, or oxford house charter required in Section 11-31-14(a)(3) is denied or revoked, the City of Mesa registration shall automatically terminate, and the conditional use permit is subject to the revocation process in Chapter 70. If the conditional use permit is revoked, the community residence must cease operation within 45 calendar days from the date the conditional use permit is revoked.

D. **Reasonable Accommodation.** A community residence that does not meet the spacing, occupancy or licensure requirements may request a reasonable accommodation through the special use permit process. The accommodation being sought must be reasonable and necessary to afford individual(s) with disabilities an equal opportunity to use and enjoy housing that is the subject of the request. The process to apply for a special use permit are provided in Chapter 67, Common Procedures, except a citizen participation plan and report is not required.

1. ***Accommodation to Spacing Requirements.*** A special use permit to the spacing requirements shall be granted only if the governing body finds that the applicant has demonstrated that the proposed use meets all of the following criteria:

(a) The proposed use will not interfere with the community integration of the residents of any existing community residences, assisted living homes, or assisted living centers, or their ability to interact with neighbors without disabilities; and the presence of other community residences, assisted living homes, or assisted living centers will not interfere with the community integration and interaction of the residents of the proposed use;

(b) The proposed use in combination with any existing community residences, assisted living homes, or assisted living centers will not alter the residential character of the surrounding neighborhood by creating or intensifying an institutional atmosphere or by creating or intensifying a de facto social service district by clustering or concentrating community residences, assisted living homes, or assisted living centers; and

(c) The proposed use complies with all other development standards in this Chapter.

2. ***Accommodation to Licensure Requirements.*** When the state, Arizona Recovery Housing Association or Oxford House does not offer a license, certification, or charter for the type of community residence and the population it will serve, the community residence may request a special use permit. the special use permit shall be granted only if the governing body finds that the applicant has demonstrated that all of the following criteria are met:

(a) The proposed use will operate in a manner effectively similar to a licensed or certified community residence;

(b) Staff will be adequately trained under standards typically required by the state or Oxford House for a community residence;

(c) The proposed use will have operating rules and practices that will protect residents from abuse, exploitation, fraud, theft, insufficient support, use of illegal drugs or alcohol, and misuse of prescription medications;

(d) The proposed use will emulate a family and will operate to achieve community integration; and

(e) The proposed use otherwise complies with all other development standards in this Chapter.

3. ***Accommodation to Occupancy Limits.*** A community residence that wants to house more than ten (10) people may request a special use permit. A special use permit shall be granted only if the governing body finds that the applicant has demonstrated that the proposed community residence meets all of the following criteria:

(a) The number of residents over ten (10) is needed for therapeutic viability of the proposed community residence;

(b) The number of residents in the proposed community residence will emulate and operate as a family rather than a boarding house, skilled nursing facility, short-term rental, treatment center, social service facility or other nonresidential uses; and will not interfere with the community integration of the occupants of any existing community residences, assisted living homes, or assisted living centers;

(c) The primary function of the proposed community residence is residential where any treatment is merely incidental to the residential use of the property;

(d) The proposed community residence has sufficient parking for the requested number of occupants so as not to impact the adjacent properties; and

(e) The proposed use complies with all other standards in this Chapter.

(Ord. No. 5632, § 7, 7-8-21; Ord. No. 5858, § 3, 7-1-24)

Editor's note—Ord. No. 5632, § 7, adopted July 8, 2021, repealed the former section 11-31-14, and enacted a new section 11-31-14 as set out herein. The former section 11-31-14 pertained to group homes for the handicapped.

11-31-15: HOSPITALS AND CLINICS

Hospitals and Clinics, as described in Section 11-86-3 shall be located, developed, and operated in compliance with the land use regulations in Article 2 and the following standards:

A. **Patient Entrances:** Patient entrances shall:

1. Be clearly distinctive from the remainder of the building, and be readily visible from the public street;

2. Be identified by directional signage in conformance with requirements of Article 5;

3. Include an extended foundation base to provide a patient drop-off area of a minimum 900 sq. ft., extending a minimum 20-feet measured perpendicular from the patient entrance door "See FIGURE 11-31-15.A & 11-31-15.B"; and

4. Pedestrian connections within parking areas, to other buildings on site, and to the public street and transit shall follow the requirements of Section 11-30-8, Pedestrian Connections and Section 11-32-4(G)3, Pedestrian Access.

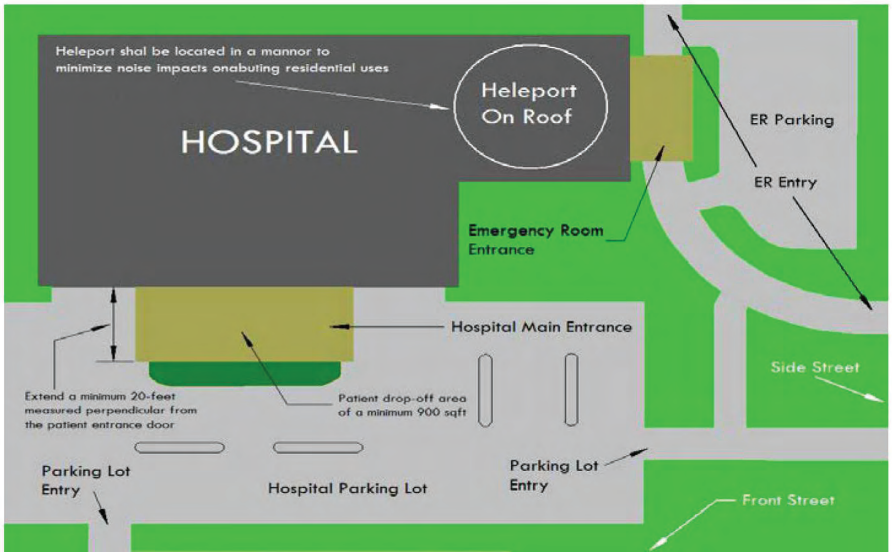

FIGURE 11-31-15.A: HOSPITALS AND CLINICS

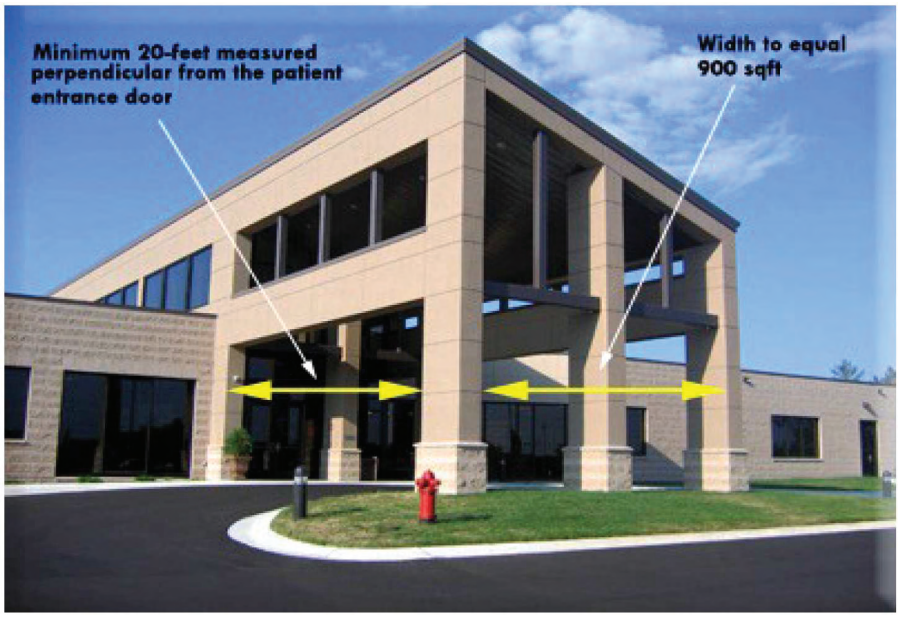

FIGURE 11-31-15.B: PATIENT ENTRANCES

B. **Emergency Room Access.** Emergency room access shall be separate and distinct from the patient entrance(s), with directional signage in conformance with the requirements of Article 5. Vehicle access drives leading to the Emergency Room shall be direct from the street and separated from parking lanes and spaces by intervening buildings, extruded curbs and landscape islands. "See FIGURE 11-31-15.C and 11-31-15.D"

FIGURE 11-31-15.C.1: EMERGENCY ROOM ACCESS

FIGURE 11-31-15.D: EMERGENCY ROOM ACCESS

C. **Storage of Liquid Chemicals and Bulk Materials.** Liquid oxygen and other similar materials stored outdoors and in bulk shall be screened from ground-level view by the building, screen wall, or screen walls in combination with landscape materials. If landscape materials are used, the mature height of the plant according to ANA standards may be taken into consideration, provided the size of the tree at planting is a minimum of 36-inch box.

D. **Heliports.** "See Figure 11-31-15.A" Heliports associated with a hospital are permitted, and shall be located in a manner to minimize noise impacts on abutting residential uses, according to the following preferences:

1. First Preference: Ground on side of building opposite any abutting residential areas.
2. Second Preference: Roof level of building less than the highest point on side of building away from residential areas.
3. Third Preference: Roof at top of building.

11-31-16: LARGE COMMERCIAL DEVELOPMENT

Large Commercial Development, as described in Section 11-86-4, shall be located, developed and operated in compliance with the land use regulations in Article 2, and the following standards:

A. **Chapter 6 Standards Apply.** In addition to the requirements below, Large Commercial Development shall comply with all requirements of Section 11-6-3 (Development Standards) and Section 11-6-4 (Site Planning and Design Standards).

B. **Customer Entrances.** All building entries designed for general public and customer access to the building shall be clearly distinguishable from the remainder of the building and incorporate one (1) or more of the following design elements:

1. The façade shall be articulated at least 10 feet horizontally and four (4) feet vertically for the full height of the entry feature;
2. The entryway shall contain a minimum 75% glazing;
3. The entryway shall be defined by a distinct change in building material;
4. The entryway shall include a distinct change in roof form (e.g., curvilinear versus flat parapet, tower feature, angled versus flat, etc.); or
5. Other architectural features as approved by the Planning Director.

C. **Entryway Monumentation Feature.** Each large commercial development shall provide at least one (1) entryway monumentation feature at a primary driveway serving an arterial or collector street. The entryway monumentation feature shall consist of:

1. A landscaped median measuring at least seven (7) feet in width;
2. A landscaped roundabout;
3. An architectural gateway (e.g., paired columns with overhead element); or
4. Other feature(s) approved by the Planning Director.

D. **Entryway Plazas.** An entryway plaza shall be provided at the entry to each anchor tenant building.

1. ***Minimum size.*** The entryway plaza shall have a minimum area of 900 square feet and extend at least 20 feet, perpendicular from the public entrance.
2. ***Design Elements.*** The entryway plaza shall include decorative paving, seating areas, raised planters, or trees.

E. **Open Space.** Open space shall be provided as follows:

1. ***Minimum area.***

a. Five (5) square feet per 1,000 square feet of building gross floor area shall be provided for open space.

b. Each area designated as open space shall be no less than 200 square feet in area.

c. Required sidewalks shall not be included in the open space calculation.

2. ***Location.***

a. Required open space shall be visible from a public street, or from on-site areas normally frequented by customers.

b. Required open space shall be accessible during business hours.

c. Entryway plazas and areas designated for customers to wait for rideshare services may be combined with required open space.

3. ***Shade.***

a. *Required.* At least 50% of the required open space shall be shaded by trees, shade structures, or other permanent elements integrated into the site design.

b. *Measuring Shade.* Shade coverage shall be measured at 3:00 p.m. on the summer solstice and verified through a shadow study. For the purpose of shade calculations, tree canopies shall be evaluated based on their projected growth five (5) years after planting.

4. ***Amenities.*** Required open space shall include amenities, in addition to required shade elements. amenities may include seating areas; water and cooling features (e.g., drinking fountains, splash pads, etc.); play, fitness, and recreation equipment; mobility stations (e.g., bike repair station, micromobility docks, wayfinding kiosks/maps); pop-up/activation space (e.g. performance stage, stubs outs for electric, water, etc.); public art; or other amenities as determined by the Planning Director to provide equivalent functional or recreational value.

F. **Criteria for Review of Council Use Permit.** When a Council Use Permit is required, City Council shall find the project complies with all of the following:

1. The project complies with the General Plan and any other applicable Plans and/or policies.

2. A Plan of Operation has been submitted, which includes, but is not limited to, acceptable evidence of compliance with all zoning, building, and fire safety regulations.

3. A "Good Neighbor Policy" in narrative form has been submitted, which includes, but is not limited to, descriptions of acceptable measures to ensure ongoing compatibility with adjacent uses, including sound attenuation, lighting control measures, and vehicular access and traffic control. Such policies shall include, but are not limited to:

a. The name and telephone number of the position, manager or person responsible for the operation of the facility;

b. Complaint response procedures, including investigation, remedial action, and follow-up; and

c. Litter control measures.

4. Evidence that the building or site is in, or will be brought into substantial conformance with all current City Development Standards, including, but not limited to, landscaping, parking, screen walls, signage, and project-specific design guidelines.

5. Evidence that the project is designed to:

a. Provide paved parking and on-site circulation in a manner that minimizes impacts on adjacent sites; and

b. Minimize dust, fugitive light, glare, noise, offensive smells, and traffic impacts on neighboring residential sites.

(Ord. No. 5544, § 10, 12-9-19; Ord. No. 5928, § 21, 2-3-25; Ord. No. 5996, § 4, 3-9-26)

11-31-17: LIVE/WORK UNITS

Live-Work Units, as described in Section 11-86-4, shall be located, developed, and operated in compliance with the land use regulations in Article 2 and the following standards:

A. **Establishment.** Live/Work Units may be established through new construction or through the conversion of existing commercial or industrial buildings that were designed, constructed and received an occupancy permit for such non-residential uses. See Figure 11-31-17.A.

B. **Allowable Uses.** Work activities in Live/Work Units are limited to uses as permitted in the base zoning district in which the Live/Work Units are located.

C. **Sale or Rental of Portions of Unit Prohibited.** No portion of a Live/Work Unit may be separately rented or sold as a commercial space for a person or persons not living on the premises, or as a residential space for a person or persons not working on the premises.

D. **Floor Area Distribution.** At least 30 percent of the net floor area of a Live/Work Unit must be designated for work activities. An applicant shall submit a floor plan of all proposed units to the Planning Division to demonstrate compliance with this regulation.

E. **Outdoor Living Area.** Common or private on-site open space shall be provided for the use of occupants at a rate of at least 150 square feet per Live/Work Unit. This space may be attached to individual units or located on the roof or adjoining the building in a Rear Yard.

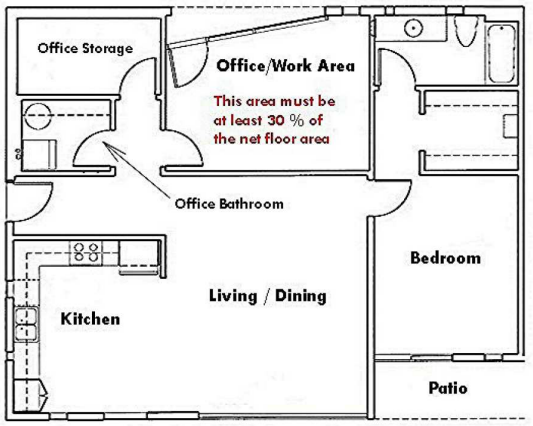

FIGURE 11-31-17.A: LIVE/WORK

11-31-18: DRIVE-THRU AND PICK-UP WINDOW FACILITIES

Drive-thru Facilities, Pick-up Window Facilities, and Drive-up ATM/Teller Windows as described in Section 11-86-4, shall be located, developed, and operated in compliance with the land use regulations in Article 2 and the following standards:

A. **Purpose.** The purpose of this Section is to mitigate potential impacts of Drive-thru Facilities, Pick-up Window Facilities, and Drive-up ATM/Teller Windows, including but not limited to, visual, traffic, and noise impacts, and to ensure that these facilities are developed to enhance the city's urban form.

B. **General Requirements.**

1. A drive-thru lane, pick-up lane, or drive lane serving a Drive-up ATM/Teller Window must be physically separated from non-drive-thru traffic areas or nonpick-up traffic areas with a minimum five (5) foot wide raised landscape median. See Figure 11-31-18.A.

2. A minimum two (2) foot wide foundation base must be provided along any exterior building wall that is adjacent to a drive-thru lane, pick-up lane, or drive lane serving a Drive-up ATM/Teller Window. See Figure 11-31-18.A.

3. Awnings or architecturally integrated weather protection structures must be provided over drive-thru windows and pick-up windows. Such awning or weather protection structure must be architecturally integrated in proportion, color, material, and texture to the building it serves.

C. **Onsite Circulation and Stacking Study.**

1. An Onsite Circulation and Stacking Study is required with every application for a new Drive-thru Facility.

2. Pick-up Window Facilities and Drive-up ATM/Teller Windows are exempt from this requirement.

3. The Onsite Circulation and Stacking Study shall include the following:

   a. Description of onsite operations including:

      i. Business hours of operation.

      ii. The method by which a customer order is placed and processed.

      iii. Peak demand hours.

      iv. The time required to serve a typical customer.

      v. A description of how sound from external operations will be attenuated from neighboring properties.

   b. Description of onsite traffic activity, including:

      i. Arrival rates of customers.

      ii. Anticipated vehicular stacking required.

      iii. An onsite circulation plan showing points of entry to the site, stacking locations and distances, and anticipated patterns of onsite circulation.

      iv. A mitigation plan describing how backup stacking will be addressed so that vehicles are not blocking internal drives or backing up onto roadways.

      v. An evaluation of uses within 1,200 feet of the proposed development identifying cumulative traffic impacts and mitigation efforts to ensure that vehicles are not blocking internal drives or backing up onto roadways.

   c. Other information deemed necessary by the Planning Director or their designee to review the proposal including additional information to determine whether the proposal has appropriate traffic circulation, and stacking.

D. **Stacking Requirements.**

1. ***Drive-thru Facilities and Pick-Up Window Facilities.*** Drive-thru Facilities and Pick-up Window Facilities must conform to the following stacking requirements: A minimum 50-foot-long distance must be provided between the entrance of a drive-thru lane or pick-up lane and a Street access driveway or cross access drive aisle. Distance measured from the entrance of the drive-thru lane or pick-up lane to the right-of-way, property line or edge of Street access driveway or cross access drive aisle. See Figure 11-31-18.A.

2. ***Additional Drive-thru Facility Requirements.*** In addition to the stacking requirement in Subsection (1) above, Drive-thru Facilities must conform to the following stacking requirements:

   a. A minimum 100-foot-long stacking distance must be provided between the drive-thru window and order-placing speaker. Distance measured from the leading edge of the drive-thru window along the centerline of the drive-thru lane to the far edge of the order placing speaker. See Figure 11- 31-18.A.

   b. A minimum 40-foot-long stacking distance must be provided between the order-placing box and the entry to a drive-thru lane. Distance measured from the leading edge of the order-placing box along the centerline of the drive-thru lane to the entrance of the drive-thru lane. See Figure 11-31-18.A.

3. ***Additional Pick-up Window Facility Requirements.*** In addition to the stacking requirements in Subsection (1) above, Pick-up Window Facilities must conform to the following stacking requirements: A minimum 100-foot-long stacking distance must be provided between the pick-up window and the entrance of the pick-up lane. Distance measured from the leading edge of the pick-up window along the centerline of the pick-up lane to the entrance of the pick-up lane.

4. ***Drive-Up ATM/Teller Window Requirements.*** A minimum 40-foot-long stacking distance must be provided for each Drive-up ATM/Teller Window. Distance measured from the leading edge of the ATM/Teller window along the centerline of the stacking lane to the entry of the stacking area.

5. ***Modifications to Stacking Requirements.*** Modifications to the stacking requirements found in this Section may be approved through the Development Plan Review process if the Planning Director or their designee determines, based on the Onsite Circulation and Stacking Study, that the proposed modifications to the stacking requirements are sufficient to meet the demands of the development, including the traffic circulation, and stacking demands.

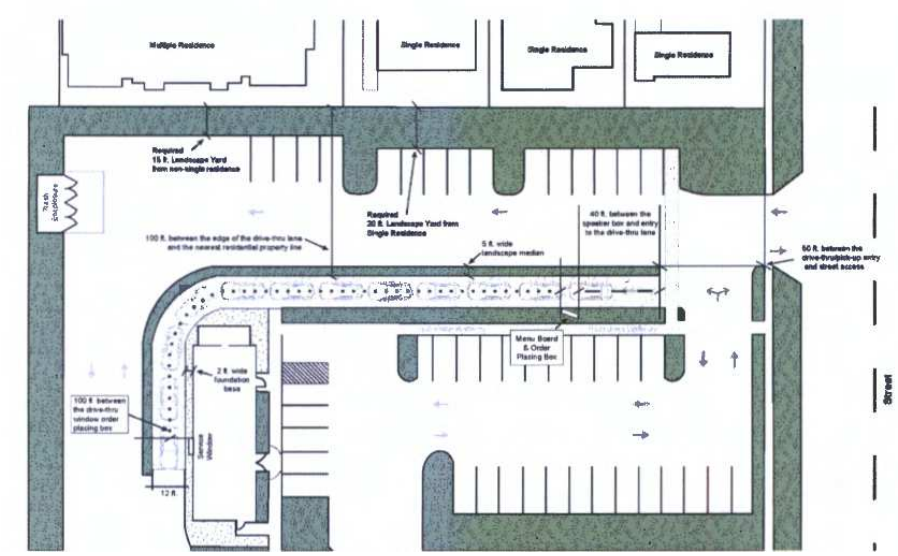

FIGURE 11-31-18.A DRIVE-THRU AND PICK-UP FACILITIES

E. **Screening/Buffering Requirements.** Drive-thru Facilities, Pick-up Window Facilities, and Drive-up ATM/Teller Windows shall conform to the following Screening requirements:

1. A drive-thru lane or pick-up lane is not permitted to be located parallel to arterial roadways. Where physical site conditions prevent a non-parallel configuration, the drive-thru lane or pick up lane must conform to the required Landscaping per Table 11-33-3.A.4 and provide either:

   a. A 40-inch-high screen wall adjacent to the arterial roadway that extends the entire length of the drive-thru lane or pick-up lane, along with two (2) additional trees per 25 feet of linear Street frontage, and two (2) additional shrubs per 25 feet of linear Street frontage; or

   b. An architecturally integrated awning, canopy, or trellis system that covers and screens the entire drive-thru lane or pick-up lane from the Street, one (1) additional tree per 25 feet of linear Street frontage, and two (2) additional shrubs per 25 feet of linear Street frontage.

2. ***Separation from Residential Uses and Residential Districts.***

a. A 100-foot distance must be provided between the drive-thru lane or pickup lane and any residential use or property zoned with a Residential District (i.e., RS, RSL, RM).

b. The Planning Director, or their designee, may approve a distance less than 100 feet if a sound study submitted by the applicant demonstrates that the drive-thru noise level at the property line will not exceed 60 dB.

c. If the ambient noise level exceeds 60 dB, the noise study must demonstrate that the Drive-thru Facility will not increase the existing noise level.

d. Distance shall be measured from the far edge of the drive-thru lane to the property line containing the residential use or property zoned with a Residential District.

F. **Employee Protection Requirements.** Drive-thru Facilities whose operations include employees who take orders outside of the eating establishment must provide a raised two (2) foot wide pedestrian path and an architecturally compatible shade structure along the area in which employees are staged and take orders.

(Ord. No. 5544, § 11, 12-9-19; Ord. No. 5813, § 2, 10-16-23; Ord. No. 5996, § 4, 3-9-26)

11-31-19: OUTDOOR EATING AREAS

Outdoor Eating Areas in conjunction with an Eating and Drinking Establishment, as described in Section 11-86-4, shall be located, developed, and operated in compliance with the land use regulations in Article 2 and the following standards:

A. **Downtown Core and Form Based Code Transect Districts.**

1. ***Location.*** Within the Downtown Core District (DC) and Form Based Code Transect Districts, an Outdoor Eating Area is permitted only in the following locations:

a. Within the buildable area of the lot; or

b. Within the right-of-way, on a public sidewalk, provided a minimum six (6) foot wide contiguous portion of the public sidewalk remains unobstructed for pedestrian use. Review and approval of an encroachment permit by the City Engineer is required for any Outdoor Eating Area located on a public sidewalk.

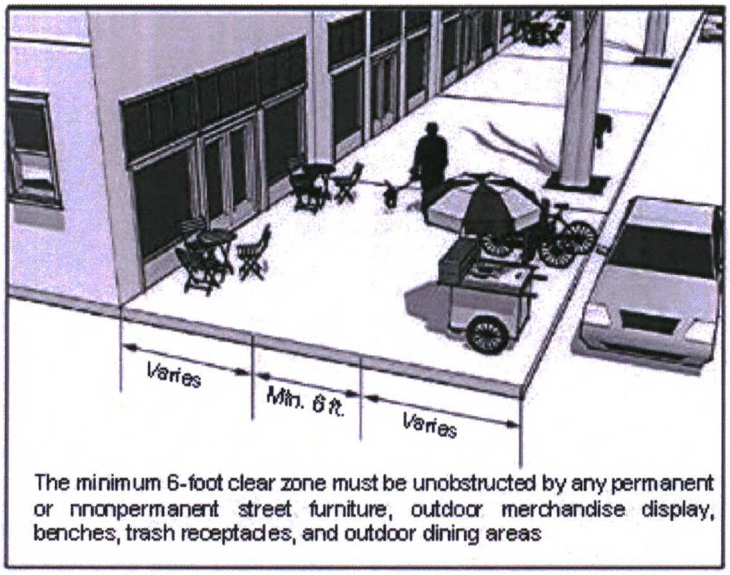

FIGURE 11-31-19.A.1: OUTDOOR EATING ALL OTHER ZONING DISTRICTS

B. **All other Zoning Districts.**

1. ***Locations.*** In all other zoning districts in which an outdoor eating area is permitted, an outdoor eating area is permitted only in the following location:

   a. Within the buildable area of the lot; or

   b. The outdoor eating area may encroach up to one-half the depth of a Street-side landscape yard and may encroach into the required foundation base area as long as a minimum five (5) foot contiguous pedestrian walkway remains unobstructed for pedestrian use.

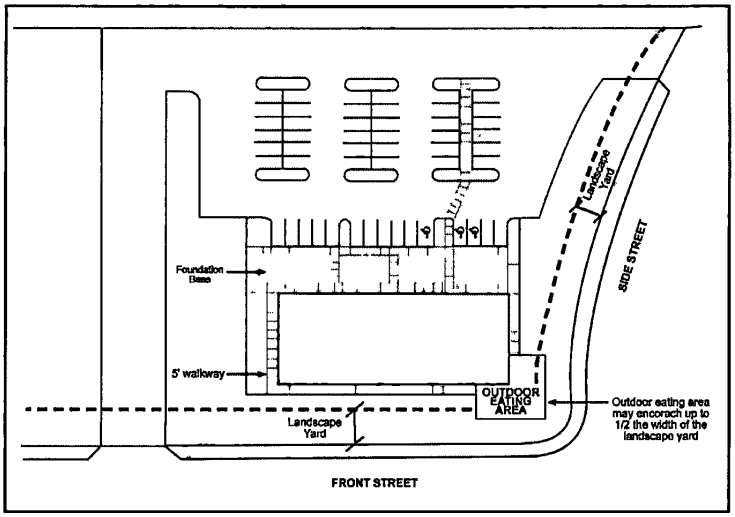

FIGURE 11-31-19.A.2: OUTDOOR EATING AREAS

C. **Outdoor eating area barriers.** Barriers are meant to demarcate the section provided for an outdoor eating area, for both temporary and permanent outdoor eating areas. Barriers, such as but not limited to, fencing, decorative planters, or other architectural enclosures of the outdoor eating area, must comply with the following standards.

1. ***Applicability.*** Barriers must be provided at the following outdoor eating areas:

   a. Outdoor eating areas with more than four (4) tables or more than eight (8) seats unless approved through an encroachment permit.

   b. Outdoor eating areas with alcohol service.

2. ***Barrier height.*** An outdoor eating area barrier within the right-of-way or within the required front setback may have a maximum height of 42 inches.

3. ***Design.*** Outdoor eating area barriers shall consist of durable, high-quality materials, shall compliment the architecture of the building which they serve, and adhere to any design guidelines established for the area in which the eating and drinking establishment is located.

4. ***Prohibited barriers.*** Outdoor eating area barriers may not be constructed with chain link fencing, chicken wire, cyclone fencing, sway ropes, fabric, or canvas.

D. **Fixtures.** Fixtures, such as but not limited to, furniture, awnings, umbrellas, planters, heaters, lighting fixtures, enclosure legs or supports, may be used in conjunction with an outdoor eating area and must comply with the following standards:

1. ***Location.*** Fixtures shall not be located or project beyond the outdoor eating area barrier, if present. Fixtures shall not encroach into the pedestrian walkway.

2. ***Overhead fixtures.*** Permanent, attached shade structures must be adequately secured and shall comply with the provisions of the Mesa Building Code, Title 4 of the Mesa City Code.

3. ***Refuse storage area.*** Trash receptacles and enclosures must comply with Section 11-30-12 and may not be located within the right-of-way unless approved through an encorachment permit.

E. **Signage.** Signs associated with outdoor eating areas must comply with the Mesa Sign Ordinance and may not be located within the right-of-way in accordance with Section 11-45-1: Prohibited Signs.

(Ord. No. 5758, § 2, 12-8-22; Ord. No. 5996, § 4, 3-9-26)

11-31-20: OUTDOOR DISPLAY

Outdoor display, as described in Chapter 87, shall be located, developed, and operated in compliance with the land use regulations in Article 2 and the following standards:

A. An outdoor display is permitted only in conjunction with a lawfully established primary business.

B. An outdoor display shall only contain goods sold by the primary business.

C. **Location.** An outdoor display shall be located adjacent to the front facade of the primary business.

1. ***Multi-tenant building.*** When located outside of a multitenant building, an outdoor display shall not extend beyond the tenant frontage of the primary business.

2. ***Downtown Core.*** When located within the Downtown Core (DC) Zoning District, an outdoor display may be located within the right-of-way, on a public Sidewalk, provided a minimum six (6) foot wide contiguous portion of the public Sidewalk remains unobstructed for pedestrian use.

3. An outdoor display may not be located within landscape areas, parking lots, drive-aisles, loading zones, or fire lanes.

D. **Hours of Operation.** Outdoor displays may only operate during the hours of operation of the primary business. All structures, signs, equipment, and displays associated with an outdoor display must be stored indoors at all times when the primary business is closed to the public, unless the outdoor display is permitted as a permanent location on an approved Development Plan.

(Ord. No. 5759, § 3, 12-8-22; Ord. No. 5996, § 4, 3-9-26)

Editor's note—Ord. No. 5759, § 3, adopted December 8, 2022, repealed the former § 11-31-20, and enacted a new § 11-31-20 as set out herein. The former § 11-31-20 pertained to outdoor retail sales.

11-31-21: PAWN SHOPS

Pawn Shops, as described in Section 11-86-4, shall be located, developed, and operated in compliance with the land use regulations in Article 2 and the following standards:

A. **License required.** A pawn broker license issued pursuant to Title 5, Chapter 7 of the Mesa City Code is required, or evidence of current and/or future compliance with all requirements of Mesa City Code Title 5, Chapter 7 pertaining to the issuance of a pawn broker's license.

B. **Location.**

1. Minimum distance from another pawn shop: 1,200 feet. Minimum distance from a public or private school: 1,200 feet.

2. Exceptions to the 1,200 foot separation requirement may be approved by the City Council upon a finding that there are significant intervening physical features, such as arterial Street, canals, parks, or similar buffering features or developments, between a proposed pawn shop and an existing pawn shop or Public or Private School.

C. **Criteria for Review of Council Use Permit.** The review of the Council Use Permit shall include a review and determination regarding the following items:

1. The use is found to be in compliance with the General Plan and other recognized development plans or policies, and will be compatible with surrounding uses; and

2. A finding that a plan of operation has been submitted, which includes, but is not limited to, acceptable evidence of compliance with all zoning, building, and fire safety regulations; and

3. A finding that a "good neighbor policy" in narrative form has been submitted, which includes, but is not limited to, descriptions of acceptable measures to ensure ongoing compatibility with adjacent uses. Such policies shall include, but are not limited to, the name and telephone number of the manager or person responsible for the operation of the facility; complaint response procedures, including investigation, remedial action, and follow-up; and litter control measures; and

4. Evidence that acceptable documentation is present demonstrating that the building or site proposed for the use is in, or will be brought into, substantial conformance with all current City Development Standards, including, but not limited to, Landscaping, parking, screen walls, signage, and design guidelines.

5. Evidence that acceptable documentation is present demonstrating that the building or site proposed for the use shall adequately provide paved parking and on-site circulation in a manner that minimizes impacts on adjacent sites; and existing or proposed improvements to the site shall minimize dust, fugitive light, glare, noise, offensive smells and traffic impacts on neighboring residential sites.

11-31-22: PLACES OF WORSHIP

Places of Worship, as described in Section 11-86-4, shall be located, developed, and operated in compliance with the land use regulations in Article 2 and the following standards:

A. **Accessory Uses.** Accessory uses customarily found in conjunction with Places of Worship, including parish houses, parsonages, rectories, seminaries, classrooms, and convents, are permitted, provided that such accessory uses are located on the same lot or contiguous lot with the religious facility.

B. **Athletic Facilities and Day Care Centers.** Athletic facilities and day care centers in conjunction with Places of Worship require approval of a Special Use Permit.

C. **Residential Districts.** Places of Worship located in residence districts shall:

1. Locate buildings within the required setbacks for the building setbacks specified for that zoning district; and

2. Comply with development and design standards for the LC District.

D. **Building Setback, Building Height, Parking, Landscaping and Screening Standards.** Places of worship shall comply with each of the following:

1. The building setback and building height requirements established by the zoning district for which the Places of Worship is located; unless modified as a building height exception pursuant to Section 11-30-3.

2. Landscaping and screening requirements as specified for a LC development, pursuant to Section 11-30-9 and Chapter 33.

3. All parking requirements specified in Chapter 32.

(Ord. No. 5996, § 4, 3-9-26)

11-31-23: RECYCLING COLLECTION AND PROCESSING FACILITIES

A. **Recycling Collection Facilities**, as described in Section 11-86-5 shall be located pursuant to the requirements of Article 2, and developed and operated in compliance with the following standards:

1. ***Location.*** The facility must be established in conjunction with an existing commercial use or community service facility and not obstruct pedestrian or vehicular circulation.

2. ***Minimum Distance*** from an R (RS, RSL or RM) Zones shall be 100 feet.

3. ***Maximum Size:***

   a. Small Indoor Collection Facility shall occupy no more than 1000 square feet of space.

   b. Reverse Vending Machines shall occupy no more than 350 square feet of space

4. ***Power-Driven Equipment.*** Power-driven processing equipment, except for reverse vending machines, is not permitted.

5. ***Storage Container.*** All recyclable material must be stored in containers. Materials may not be left outside of containers. Containers shall be stored within an enclosed building, when required by the zoning district. For reverse vending machines, such containers shall be stored within the machine.

6. ***Maintenance.*** Facilities must be maintained free of litter and any other undesirable materials, and mobile facilities for which truck or containers are removed at the end of the collection day, must be swept at the end of the collection day.

7. ***Required Container Information.*** Containers shall be clearly marked to identify the type of materials that may be deposited; the facility shall be clearly marked to identify the name and telephone number of the facility operator and the hours of operation, and display a notice stating that no material shall be left outside of the building or reverse recycling machine.

8. ***Reduction of Parking.*** Occupation of parking spaces by a reverse vending facility and by the attendant (if present) may not reduce available parking spaces below the minimum number required for the site.

B. **Recycling Processing Facilities** shall be located pursuant to the requirements of Article 2, and developed and operated in compliance with the following standards:

1. ***Operation—Fence, Wall or Enclosed Building Required.*** All operations and storage, including all equipment used in conducting such use, other than parking, shall be conducted within an enclosed building or within an area enclosed by a solid wall or solid fence.

2. ***Specifications for Walls and Fences.***

a. All fences and walls shall be of a uniform height, and shall be a minimum of eight feet and shall not exceed 15 feet in height. Where fences or walls exceed a height of 10 feet and are located on street or highway frontages, they shall be set back at least three feet from the lot line. The area between the fence and the lot line shall be fully landscaped according to the specifications described in this section.

b. All fences and walls open to view from any street or highway or any area in a residential, agricultural or commercial zone shall be constructed of the following materials:

i. Metallic panels, at least .024 inches thick, painted with a "baked on" enamel or similar permanent finish;

ii. Masonry;

iii. Other materials comparable to the foregoing if approved by the Director.

c. Other required fences may be constructed of material other than as specified above.

d. All fences and walls shall be constructed in workmanlike manner and shall consist solely of new materials unless the Director approves the substitution of used materials where, in his opinion, such used materials will provide the equivalent in service, appearance and useful life.

e. All fences and walls, excluding masonry and approved permanent-finish panels, shall be painted a uniform, neutral color, excluding black, which blends with the surrounding terrain, and improvements shall be maintained in a neat, orderly condition at all times. Such fence or wall shall contain no painted signs or posters except as approved by the Director.

f. *Modifications, When Authorized.* The Director may modify fences or walls not exposed to view from any street or highway or any area in a residential, agricultural or commercial zone:

i. Where an adjoining lot is located within a GI zone, and is developed with an automobile dismantling yard, junk and salvage yard, scrap metal processing yard, or other open storage use displaying similar characteristics; or

ii. Where substantial fences, walls or buildings on abutting properties serve to enclose such yard as well or better than the required wall or fence. Should the use, fence, wall or building providing justification for such modification be removed, a new wall or fence shall be provided in compliance with this section within six months from the date of such removal.

C. **Paving of Yards.** All areas of the yard open to vehicular passage shall be paved with an asphalt surfacing or an oil and aggregate mixture to prevent emission of dust or tracking of mud onto public rights-of-way; provided, however, the Director may approve other paving materials which provide, in his opinion, the equivalent in service and useful life.

D. **Storage Limitations.**

1. Salvage or junk shall not be placed or allowed to remain outside of the enclosed yard area, but may be stored above the height of the fence or wall, provided such storage is not within 10 feet of an exterior Lot Line.

2. Where the land upon which the yard is located is in a GI zone, and such storage above said fence or wall is not within 500 feet of any different zoning district other than a GI zone, the 10-foot setback shall not apply.

11-31-24: SCHOOLS

Schools, as that term is defined in Section 11-86-3 shall be located, developed, and operated in compliance with the land use regulations in Article 2 and the following standards:

A. **Accessory Uses.** Accessory uses customarily found in conjunction with schools, including classrooms, dormitories, stadiums, and auditoriums are permitted provided such Accessory Uses are located on the same lot or contiguous lot with the school.

B. **Building Setback, Building Height, Parking, Landscaping and Screening Standards.** Schools shall:

1. Comply with the building setback and building height requirements established by the zoning district for which the School is located; unless modified as a building height exception pursuant to Section 11-30-3;

2. Comply with landscaping and screening requirements as specified for a LC development, pursuant to Section 11-30-9 and Chapter 33; and

3. Comply with all parking requirements specified in Chapter 32.

(Ord. No. 5996, § 4, 3-9-26)

11-31-25: SERVICE STATIONS

Service Stations, as described in Section 11-86-4, shall be located, developed, and operated in compliance with the land use regulations in Article 2 and the following standards:

A. **Location.** Maximum number of service stations permitted at an arterial intersection is total of 2.

B. **Minimum Frontage.** 100 feet on each Street.

C. **Pump Canopy.** Pump islands shall be covered by a canopy that matches or complements the design of the main structure.

D. **Landscaping.** Landscaping shall comprise a minimum 10 percent of the site area, exclusive of required setbacks, and include an irrigation system that is permanent, below-grade, and activated by automatic timing controls.

E. **Fencing.** Masonry only.

F. **Lighting.** All exterior light sources, including canopy, perimeter, and flood, shall be stationary, and shielded or recessed within the roof canopy to ensure that all light is directed away from adjacent properties and public rights-of-way. No lens of any lighting fixture may extend below the shielding device. Lighting shall not be of a high intensity so as to cause a traffic hazard, be used as an advertising element, or adversely affect adjacent properties.

G. **Litter.** A minimum of 1 permanent, non-flammable trash receptacle shall be installed at each pump island.

H. **Criteria for Review of Special Use Permit.** When a Special Use Permit is required, the approving body shall find that the project conforms to all of the following:

1. The project complies with the General Plan and any other applicable Plans and/or policies.

2. A Plan of Operation has been submitted, which includes, but is not limited to, acceptable evidence of compliance with all zoning, building, and fire safety regulations.

3. A "Good Neighbor Policy" in narrative form has been submitted, which includes, but is not limited to, descriptions of acceptable measures to ensure ongoing compatibility with adjacent uses, including sound attenuation, lighting control measures, and vehicular access and traffic control. Such policies shall include, but are not limited to:

   a. The name and telephone number of the position, manager or person responsible for the operation of the facility;

   b. Complaint response procedures, including investigation, remedial action, and follow-up; and

   c. Litter control measures.

4. Evidence that the building or site is in, or will be brought into substantial conformance with all current City Development Standards, including, but not limited to, landscaping, parking, screen walls, signage, and project-specific design guidelines.

5. Evidence that the project is designed to:

   a. Provide paved parking and on-site circulation in a manner that minimizes impacts on adjacent sites; and

   b. Minimize dust, fugitive light, glare, noise, offensive smells, and traffic impacts on neighboring residential sites.

(Ord. No. 5996, § 4, 3-9-26)

11-31-26: SOCIAL SERVICE FACILITIES

Social Service Facilities, as described in Section 11-86-3 shall be located, developed, and operated in compliance with the land use regulations in Article 2 and the following standards:

A. **Location.** Social Service Facilities are not allowed on Main Street, within the designated Town Center Redevelopment Area.

B. **Minimum Standards.** All Social Service Facilities shall provide: adequate and accessible sanitary facilities, including lavatories, rest rooms and refuse containers; sufficient patron seating facilities for dining, whether indoor or outdoor; effective Screening devices such as Landscaping and masonry fences in conjunction with outdoor activity areas; a plan of operation, including but not limited to, patron access requirements, hours of operation, measures used to control potential client congregation on the site during non-operating hours, security measures, litter control, and noise attenuation. Further, evidence of compliance with all Building and Fire Safety regulations and any other measures determined by the City Council to be necessary and appropriate to ensure compatibility of the proposed use or uses with the surrounding area shall be provided with permit applications.

C. **Applicable Guidelines.** All Social Service Facilities are subject to the Social Service Facilities Guidelines adopted by the City.

D. **Criteria for Review of Council Use Permit.** When required, the review of the Council Use Permit shall include a review and determination regarding the following items:

1. The use is found to be in compliance with the General Plan, Sub Area Plans and other recognized development plans or policies, including the Social Service Facility Guidelines and will be compatible with surrounding uses; and

2. A finding that a plan of operation has been submitted, which includes, but is not limited to, acceptable evidence of compliance with all zoning, building, and fire safety regulations; and

3. A finding that a "good neighbor policy" in narrative form has been submitted, which includes, but is not limited to, descriptions of acceptable measures to ensure ongoing compatibility with adjacent uses. Such policies shall include, but are not limited to, the name and telephone number of the manager or person responsible for the operation of the facility; complaint response procedures, including investigation, remedial action, and follow-up; and litter control measures; and

4. Evidence that acceptable documentation is present demonstrating that the building or site proposed for the use is in, or will be brought into, substantial conformance with all current City Development Standards, including, but not limited to, Landscaping, parking, screen walls, signage, and design guidelines.

11-31-27: SPECIAL EVENTS

A. Special events as defined in Chapter 87 of this Title are permitted in all zoning districts, provided that:

1. The event is licensed in accordance with the provisions of Title 5 of the Mesa City Code;

2. The duration of the event does not exceed the time period specified in the special event license or a maximum of 4 consecutive days, whichever is less;

3. No more than 4 events are conducted on the same premises during the calendar year;

4. The site of the event is adequately served by utilities and sanitary facilities; and

5. The event will not present a safety hazard or public disturbance and will not cause substantial adverse impacts on surrounding properties or land uses by creating excessive noise, glare, heat, dust, odors, or pollutants as determined by the Director and Fire Marshal.

B. Special events shall be conducted only on a lot that has an approved dust proof parking surface with permanent driveway access. Decomposed granite or Aggregate Base Course (ABC) gravel surfacing may be substituted for paving subject to approval by the Director and Fire Marshal.

C. Facilities, structures, and utilities shall be installed and maintained in conformance with all applicable building, fire, traffic, and zoning regulations.

D. The maximums specified in subsections A(2) and (3) of this Section may be exceeded:

1. ***Outside of the Downtown Events Overlay District.*** Only as authorized by approval of a Temporary Use Permit or Special Use Permit in accordance with Article 7 of this Ordinance.

2. ***Within the Downtown Events Overlay District.*** Without limit to the number of events that may occur in a calendar year. Individual events that exceed the maximum of four (4) days per event shall require a Special Use Permit in accordance with Article 7 of this Ordinance.

(Ord. No. 5759, § 4, 12-8-22)

11-31-28: ASSISTED LIVING CENTERS, NURSING AND CONVALESCENT HOMES

Assisted living centers and nursing and convalescent homes as defined in Section 11-86-2, shall be located, developed, and operated in compliance with the land use regulations in Article 2 and the following standards:

A. **General Requirements**

1. ***Distance from a Major Intersection.*** The Assisted Living Center or nursing and convalescent home must be located a minimum distance of 600 feet from the following intersections, as measured in accordance with the rules of measurement in Section 11-2-3(C):

a. Highway and arterial Street;

b. Highway and collector Street;

c. Arterial Street and arterial Street; or

d. Arterial Street and collector Street.

2. ***Separation from Similar Uses.*** The Assisted Living Center or nursing and convalescent homes must be separated a minimum distance of 1,200 feet from the closest Assisted Living Center, nursing and convalescent home, or community residence as measured in accordance with Section 11-2-3(C), unless separated by a significant intervening natural or manmade feature, such as a municipal open space of at least ten (10) acres in size (e.g. park, golf course, etc.), a railroad, or a highway, that is approved by the zoning administrator.

3. ***Licensure.*** The assisted living facility or nursing and convalescent home must obtain the license the State of Arizona requires to operate the proposed use. A copy of the state issued license must be submitted with the applicant's registration application or within 30 days from the date the license for the proposed use is issued.

4. ***Registration.*** The Assisted Living Center or nursing and convalescent home must register with the City as set forth in this section.

a. Registration process for Assisted Living Centers and nursing and convalescent homes that do not require a conditional use permit. To register with the City, when the Assisted Living Center or nursing and convalescent home does not require a

council use permit to operate, the applicant must submit the City's registration application in accordance with Section 11-67 and provide evidence demonstrating compliance with this section. If the facility complies with all City requirements, the applicant will receive provisional registration approval from the planning division. To obtain final registration, the applicant must provide to City a copy of the state issued license required in Section 11-31-28(a)(3) above within 30 days from the date of issuance.

b. Assisted living center and nursing and convalescent homes that require a council use permit. To register with the City, when the Assisted Living Center or nursing and convalescent home requires a council use permit to operate, the applicant must submit the City's application for a council use permit in accordance with Section 11-67 and provide evidence demonstrating compliance with this section. The request for a conditional use permit will be reviewed by the applicable governing body. Approval of the conditional use permit grants the applicant provisional registration approval. To obtain final registration approval, the applicant must provide to City a copy of the state issued license required in Section 11-31-28(a)(3) above within 30 days from the date of issuance.

5. The Assisted Living Center or nursing and convalescent home must comply with all applicable federal, state, county, and local requirements for the location and operation of the facility.

6. The Assisted Living Center or nursing and convalescent home must provide adequate access for emergency vehicles.

B. **Council Use Permit Criteria.** When a proposed Assisted Living Center or nursing and convalescent home is required to obtain a council use permit, the council use permit will only be granted if the governing body finds that the use conforms to the criteria in Section 11-70-6 of the Mesa Zoning Ordinance and all of the following criteria:

1. The proposed use in combination with any existing assisted living facilities, nursing and convalescent homes or group homes for the handicapped will not alter the character of the area by creating or intensifying an institutional atmosphere or by creating or intensifying a de facto social service district by clustering assisted living facilities, nursing and convalescent homes or group homes for the handicapped in a particular area; and

2. The proposed use in combination with other existing assisted living facilities, nursing and convalescent homes, group homes for the handicapped and other land uses that typically generate higher calls for service to the fire department, will not overburden or have an adverse impact on the city's fire department or the fire district where the proposed use will be located; and

3. Whether the location and operational characteristics of the proposed use will have an adverse impact on vehicular traffic and other public facilities and services.

(Ord. No. 5592, § 5, 12-1-20; Ord. No. 5632, § 3, 7-8-21)

11-31-29: TEMPORARY PARKING LOTS

A. Stadiums, performing arts centers, competitive aquatics facilities, and similar public event facilities, with a required parking count of at least 300 spaces, are permitted to utilize temporary or overflow parking lots in DB-1, DB-2 and DC districts, subject to the issuance of a Special Use Permit, in accordance with Article 7 of this Ordinance.

B. A Special Use Permit may be approved for a Temporary Parking Lot that:

1. Has an approved dust-proofed surface;

2. Is screened from an adjacent residential use by an opaque fence or similar feature at least 6 feet in height;

3. Has lighting that is fully screened to prevent light spillover onto adjacent properties, if lighting is provided on the temporary parking lot;

4. Is located within 1,200 feet of the public facility being served. The 1,200 feet shall be measured directly from the nearest edge of the property lines between the proposed temporary parking lot and the public event facility;

5. Is in conformance with City Council policies; and

6. Is compatible with, and not detrimental to, adjacent properties or the neighborhood in general.

C. Conditions of approval may be stipulated by the Zoning Administrator or Board of Adjustment to ensure compatibility with adjacent land uses.

11-31-30: TEMPORARY USES

A. **Temporary outdoor sales.** Temporary outdoor sales, as described in Section 11-86-9, requires approval of a Temporary Use Permit in compliance with Section 11-70-4 and must be located, developed, and operated in compliance with the land use requirements in Article 2 and subject to the requirements in this section.

1. ***Placement in the Downtown Core and Form Based Code Transect Districts.*** Temporary outdoor sales, including associated temporary displays and structures, may occur within the right-of-way, on a public Sidewalk, provided a minimum six (6) foot wide contiguous portion of the public Sidewalk remains unobstructed for pedestrian use.

2. ***Placement in all other Zoning Districts.*** Temporary outdoor sales, including associated temporary displays and structures, may not occur within or encroach into driveways, landscape areas, parking spaces required for the primary use, within right-of-way, or within 25 feet of a Street.

3. ***Temporary structures.*** A temporary structure such as a tent, pop-up, umbrella or covering, measuring over 400 square feet requires the issuance of a building permit and approval by the Fire Marshal.

4. ***Signs.*** All signs associated with a temporary outdoor sale must comply with Title 11, Article 5: Sign Ordinance and must be removed upon cessation of the temporary use or upon expiration of the Temporary Use Permit, whichever occurs first.

5. ***Hours of operation.*** A temporary outdoor sale may only operate between 9:00 a.m. and 10:00 p.m. all temporary structures, signs, equipment, and display of merchandise associated with the temporary outdoor sale must be removed from the site or otherwise stored in enclosed buildings at all times when the temporary outdoor sale is closed to the public.

6. ***Discontinuance of use.*** All temporary structures, equipment, temporary signs, and display of merchandise associated with the temporary outdoor sale must be removed from the site upon cessation of the temporary use or upon expiration of the Temporary Use Permit, whichever occurs first.

7. ***Site restoration.*** The site must be restored to the same condition it was prior to commencement of the temporary outdoor sale, including but not limited to, the removal of all debris, litter, and other evidence of the temporary outdoor sale, within 72 hours of cessation of the temporary outdoor sale or upon expiration of the Temporary Use Permit, whichever occurs first.

B. **Temporary outdoor entertainment.** Temporary outdoor entertainment, as described in Section 11-86-9, requires approval of a Temporary Use Permit in compliance with Section 11-70-4 and must be located, developed, and operated in compliance with the land use requirements in Article 2 and subject to the requirements in this section.

1. ***Placement.***

a. *Minimum lot area.* A temporary outdoor entertainment may only be located on a site that is a minimum of five (5) acres in size.

b. *Setback from residential uses.* All areas, structures, and operational items associated with a temporary outdoor entertainment, such as but not limited to, parking areas, storage areas and structures, stands, stages, tents, restroom facilities, trash receptacles and enclosures, and lighting, must be located at least 250 feet from all residential uses except for residential uses which are a part of an approved mixed-use development.

2. ***Duration.*** A temporary outdoor entertainment is permitted to operate for up to twenty-one (21) consecutive days. An additional three (3) days is allowed before and after the event for set-up and take-down.

3. ***Hours of operation.*** A temporary outdoor entertainment may only operate between 9:00 a.m. and 11:00 p.m.

4. ***Signs.*** All signs associated with a temporary outdoor entertainment must comply with Title 11, Article 5: Sign Ordinance and must be removed upon cessation of the temporary use or upon expiration of the Temporary Use Permit, whichever occurs first.

5. ***Site restoration.*** The site must be restored to the same condition it was prior to commencement of the temporary outdoor entertainment, including but not limited to, the removal of all debris, litter, and other evidence of the temporary outdoor entertainment, within 72 hours of cessation of the temporary outdoor entertainment or upon expiration of the Temporary Use Permit, whichever occurs first.

(Ord. No. 5759, § 5, 12-8-22)

Editor's note—Ord. No. 5759, § 5, adopted December 8, 2022, repealed the former § 11-31-30, and enacted a new § 11-31-30 as set out herein. The former § 11-31-30 pertained to temporary uses: swap meets and farmer's markets.

11-31-31: RESIDENTIAL USES IN COMMERCIAL DISTRICTS

A. Residential uses are permitted in the NC, LC, GC, and MX Districts as provided in Section 11-6-2, if located, developed and operated in compliance with the following standards:

1. ***Commercial Floor Area Requirements.***

a. Projects with only single-Story buildings. A project that contains only single-Story (1-Story) buildings may include residential if a minimum of 60 percent of the gross floor area (GFA) of all the buildings for the project is reserved for commercial uses.

b. Projects with multiple-Story buildings or a mixture of single-Story (1-Story) and multiple-Story buildings. A project that contains multiple-Story buildings or a mixture of single-Story and multiple-Story buildings may include residential if:

i. A minimum of 60 percent of the gross floor area (GFA) of all the buildings for the project is reserved for commercial uses; and

ii. A minimum of 65 percent of the ground floor of each multi-Story building is reserved for commercial uses.

2. ***Maximum Density.*** Maximum residential density shall be no more than 15 Dwelling Units per acre in the NC district, and no more than 25 Dwelling Units per acre in the LC and GC districts.

B. Live-work units are permitted in the NC, LC and GC districts, subject to approval of a Special Use Permit. A maximum of one (1) live-work unit is permitted per parcel.

C. Caretakers' residences are permitted in the NC, LC, GC, and OC districts, subject to approval of a Special Use Permit. A maximum of one (1) caretakers' residence is permitted per parcel.

D. Projects that comply with the residential density maximums specified in Table 11-6-3.A, and the commercial floor area requirements in Section 11-31-31(A)(1) above require Development Plan Review, as described in Chapter 69.

E. **Modifications to Development Standards.**

1. ***Maximum Density.*** Projects that exceed the residential density maximums specified in Section 11-31-31(A)(2) above require approval of a Council Use Permit (even if the development complies with the commercial floor area requirements in Section 11-31-31(A)(1)).

2. ***Commercial Floor Area Requirements.*** Modification to the commercial floor area requirements in Section 11-31-31(A)(1) above require approval of a council use permit.

F. **Criteria for Review of Council Use Permit.** When required, the review of the Council Use Permit shall include a review and determination regarding the following items:

1. The use is found to be in compliance with the General Plan, Sub-Area Plans and other recognized development plans or policies, and will be compatible with surrounding uses; and

2. A finding that a plan of operation has been submitted, which includes, but is not limited to, acceptable evidence of compliance with all zoning, building, and fire safety regulations; and

3. A finding that a "good neighbor policy" in narrative form has been submitted, which includes, but is not limited to, descriptions of acceptable measures to ensure ongoing compatibility with adjacent uses; including measures to assure that commercial activity will remain as a viable activity on this site; and

4. Evidence that acceptable documentation is present demonstrating that the building or site proposed for the use is in, or will be brought into, substantial conformance with all current City development standards, including, but not limited to, Landscaping, parking, screen walls, signage, and design guidelines; and

5. The overall project conforms to the intent and character of the zoning district and is part of a well integrated mixed-use project.

(Ord. No. 5593, § 9, 12-1-20; Ord. No. 5996, § 4, 3-9-26)

11-31-32: SUPERIOR DESIGN

For a project to reflect Superior Design it will incorporate all of the following elements:

A. **Holistic Approach to Project Design.** Varied, high-quality, regionally-appropriate building materials, used in distinctive building forms, building massing and detailing that result in a note-worthy example of holistic site design, architecture, Landscaping and signage; and

B. **Responsive Approach to Site and Sub-Area Context.** Architectural and landscape architecture details and features that reflect the character defined in Sub-Area Plans or the General Plan's placetype urban design characteristics, that are harmonious with adjacent development patterns, integrate with the physical conditions of the immediate site, and create a unique sense of place; and

C. **Sustainable Design.** Site design, architecture and Landscaping features that address the local climate to reduce summer sun penetration and provide summer sun shade protection for pedestrians, promote energy and water conservation, promote the preservation or creation of Open Space, provide for and encourage the use of multiple modes of transportation, utilize existing infrastructure, and create the opportunity for social interaction; and

D. **Exceeds Standards.** Provision of details and features that exceed the criteria and standards specified in Sections 11-5-3, 11-5-5, 11-6-43, 11-6-4 (AS applicable), 11-7-3, 11-8-5, 11-8-6 and Chapters 30 through 34, where applicable; and

E. **Great Public Spaces.** Details and features that create attractive, comfortable environments for pedestrians; ensure safe, useful and well integrated open or public spaces; and include high quality amenities.

(Ord. No. 5544, § 12, 12-9-19; Ord. No. 5928, § 22, 2-3-25)

11-31-33: HOME OCCUPATIONS

Home Occupations, as described in Chapter 87, shall be located, developed, and operated in compliance with the Land Use Regulations in Article 2, and the following standards:

A. In all Residential, Commercial, Mixed-use, and Downtown Districts, the following standards apply. Noncompliance with any provision of this section is a violation of this ordinance.

1. Non-resident employees are prohibited from working at a Home Occupation site unless, the property is zoned AG, RS-90, or RS-43 and approved by a Special Use Permit as required by Subsection (B) below.

2. Exterior storage and exterior display of materials, goods, and equipment is prohibited at a Home Occupation site.

3. A Home Occupation site may not be used for day-long or long-term parking of vehicles associated with or used by non-resident employees or clients, whether for personal or business use.

4. Any short-term parking needed for employees or clients shall be located either on the Home Occupation site or on the street immediately in front of the residence.

5. There shall be no exterior indication of a nonresidential use at a Home Occupation site, except that one (1) non-illuminated, static sign, no larger than three (3) square feet in area, either attached to the building or placed in a window, is allowed.

B. In the AG, RS-90 and RS-43 Districts, approval of a Special Use Permit is required to permit the following:

1. Up to two (2) non-resident employees.

2. One (1) additional on-site, independently accessed parking space for each non-resident employee. The parking space(s) shall be located on a dust-proof surface, and shall be in addition to the required minimum parking for the residence.

(Ord. No. 5950, § 3, 7-8-25)

11-31-34: MARIJUANA FACILITIES

Medical marijuana dispensaries, dual licensee facilities, marijuana cultivation facilities, and marijuana infusion facilities, each as defined in the zoning ordinance, are permitted subject to the regulations in this section. Recreational marijuana establishments are only permitted when operated as a dual licensee facility.

A. **General Requirements.** A medical marijuana dispensary, dual licensee facility, marijuana cultivation facility, and marijuana infusion facility is permitted only in the LI and GI districts, provided that evidence has been demonstrated of compliance with all of the following:

1. ***Spacing requirements for medical marijuana dispensaries and dual licensee facilities.*** Each medical marijuana dispensary and each dual licensee facility shall be separated from the following uses as follows:

(a) A minimum distance of 5,280 feet from the nearest registered medical marijuana dispensary or dual licensee facility, including any medical marijuana dispensary, dual licensee facility or marijuana establishment located in neighboring jurisdictions, except as provided in Subsections 11-31-34(A)(1)(a)(i) and 11-31-34(A)(1)(a)(iii).

(i) Qualified Marijuana Facility. An existing marijuana facility may be located a minimum distance of 1,000 feet from the nearest registered medical marijuana dispensary or dual licensee facility if the existing marijuana facility is:

1. Located on or relocates to a large industrial development;
2. Setback from a major roadway by at least 300 feet; and
3. Separated from the nearest registered medical marijuana dispensary or dual licensee facility by the major roadway.

(ii) The distance in Subsection 11-31-34(A)(1)(a)(i) is measured from the support wall, post or column of the existing marijuana facility along the Street to the nearest support wall, post or column of the nearest registered medical marijuana dispensary or dual licensee facility.

(iii) Relocation Eligible Marijuana Facility. A relocation eligible marijuana facility is permitted a one-time relocation if the new location compared to the location on the effective date of Ordinance No. 5845 results in greater separation and Setbacks (an increase in distance) between: (1) the relocation eligible marijuana facility and the nearest qualified marijuana facility, (2) the relocation eligible marijuana facility and the nearest Right-Of-Way, and (3) the relocation eligible marijuana facility and the nearest intersection of public Streets. Other than the exception stated in the prior sentence, the relocation eligible marijuana facility must comply with all requirements of the zoning ordinance.

(iv) The following definitions apply to Subsection 11-31-34(A)(1)(a):

"Existing Marijuana Facility" means a medical marijuana dispensary or dual licensee facility that prior to the effective date of Ordinance No. 5845 had registered with the City and was operating within the corporate boundaries of the City as evidenced by a certificate of occupancy issued by the City.

"Large Industrial Development" means a single Parcel of Land zoned LI or GI that is at least 80-acres in size, or a Parcel of Land zoned LI or GI that in combination with adjoining parcels of land zoned LI or GI that are not separated by a Right-Of-Way dedicated to the City are collectively at least 80-acres in size.

"Major Roadway" means a highway, six lane arterial roadway, or a roadway identified as a future six lane arterial in the Mesa 2040 Transportation Plan, as may be amended from time to time.

"Qualified Marijuana Facility" means an existing marijuana facility that meets the requirements for the exception to the minimum distance in Subsection 11-31-34(A)(1)(a)(i).

"Registered Medical Marijuana Dispensary or Dual Licensee Facility" means and includes both: (1) a medical marijuana dispensary or dual licensee facility that is registered or had registered with the City and is currently operating within the corporate boundaries of the City as evidenced by a certificate of occupancy issued by the City, and (2) a medical marijuana dispensary, dual licensee facility, or marijuana establishment that is currently operating in a neighboring jurisdiction.

"Relocation Eligible Marijuana Facility" means an existing marijuana facility that, on the effective date of Ordinance No. 5845, is located less than 5,280 feet from the nearest qualified marijuana facility.

(b) A minimum distance of 2,400 feet from:

(i) A community residence;

(ii) A correctional transitional housing facility; and

(iii) A social service facility.

(c) A minimum distance of 1,200 feet from the following land uses, unless separated by a canal, railroad track, or highway (when separated by a canal, railroad track, or highway, the distance is measured from the support wall, post or column of the medical marijuana dispensary or dual licensee facility along the Street to the Lot Line of the subject land use.):

(i) A church located in the RS, RM, DR, T3N, T4N, or T5N Districts;

(ii) A library;

(iii) A school; and

(iv) A public park located in the LI or GI districts.

(d) A minimum distance of 500 feet from the following land uses, unless separated by a canal, railroad track, or highway (when separated by a canal, railroad track, or highway, the

distance is measured from the support wall, post or column of the medical marijuana dispensary or dual licensee facility along the Street to the Lot Line of the subject land use.):

(i) A day care center and pre-school;

(ii) A public park located in all Zoning Districts except LI or GI; and

(iii) A privately owned Open Space and recreation area as designated on the applicable plan of development approved by the City that is maintained by a homeowner's association.

2. ***Spacing Requirements for Marijuana Cultivation and Infusion Facilities.*** Each marijuana cultivation facility and each marijuana infusion facility shall be separated from the following uses as follows:

(a) A minimum distance of 2,400 feet from the nearest medical marijuana dispensary, dual licensee facility, off-site cultivation facility or off-site marijuana infusion facility. This spacing requirement does not apply to a marijuana cultivation facility or marijuana infusion facility and the specific medical marijuana dispensary or dual licensee facility it serves.

(b) A minimum distance of 1,200 feet from any of the following land uses, unless separated by a canal, railroad track, or highway (when separated by a canal, railroad track or highway, the distance is measured from the support wall, post or column of the marijuana cultivation or marijuana infusion facility along the Street to the Lot Line of the subject land use.):

(i) A church located in the RS, RM, DR, T3N, T4N, or T5N Districts;

(ii) A library;

(iii) A school; and

(iv) A public park located in the LI or GI Districts.

(c) A minimum distance of 500 feet from any of the following land uses, unless separated by a canal, railroad track, or highway (when separated by a canal, railroad track or highway, the distance is measured from the support wall, post or column of the marijuana cultivation or marijuana infusion facility along the Street to the Lot Line of the subject land use.):

(i) A day care center and pre-school;

(ii) A public park located in all Zoning Districts except LI or GI; and

(iii) A privately owned Open Space and recreation area, as designated on the applicable plan of development approved by the City, that is maintained by a homeowner's association.

3. ***State Registration and Approval to Operate.*** Each medical marijuana dispensary and each dual licensee facility must obtain a valid dispensary registration certificate and an approval to operate (ATO) in accordance with state law.

4. ***City Registration.*** Each medical marijuana dispensary, dual licensee facility, marijuana cultivation facility, and marijuana infusion facility must register with the planning division in accordance with Chapter 67 and the process set forth in this section.

(a) The following information shall be provided to the planning division in order to register with the City:

(i) A complete application filed with the office of the planning division.

(ii) Name, mailing address, telephone number, and e-mail address of the individual, non-profit organization, or business entity operating the facility. If a non-profit organization or business entity registers the facility, contact information for the individual responsible for managing the facility shall also be provided.

(iii) A written narrative describing how the location and the proposed improvements comply with the requirements of this Ordinance including but not limited to the spacing requirements.

(iv) If applicable, the name(s) and location(s) of any off-site Marijuana Cultivation Facility or Marijuana Infusion Facility, or both, associated with the Marijuana Dispensary or Dual Licensee Facility, and its operations.

(v) Written acknowledgement that the marijuana facility has complied with all state security requirements including applicable administrative codes and record keeping.

(vi) A Medical Marijuana Dispensary must provide a copy of its current ADHS dispensary registration certificate and ATO. A Dual Licensee Facility must provide a copy of its current ADHS dispensary registration certificate, license, and ATO.

(vii) Any other information deemed necessary by the City to process the registration request.

(b) Registration Non-Transferable. A Medical Marijuana Dispensary or a Dual Licensee Facility may not transfer or assign its City registration.

5. ***Registration Renewal.*** City registration is valid for one (1) year from the date of approval of the City registration and must be renewed annually on or before the expiration date of the registration. To renew the City's registration, a complete application for renewal and evidence of current state registration certificate, license, and ATO, as applicable, must be provided.

6. ***Revocation.*** The Zoning Administrator may revoke the City's registration upon finding:

(a) The applicant made or provided false or misleading information or statements or both to City staff during the application process; the application contains false or misleading information; or the fees required by the schedule of fees and charges have not been paid; or

(b) The required ADHS dispensary registration certificate or ATO is denied or revoked.

(c) In the event that a Marijuana Facility's City registration is revoked, the Zoning Administrator will provide written notice to the applicant. The City of Mesa registration will automatically terminate 15 calendar days after written notification was provided to the applicant; and the Marijuana Facility must cease operation 45 calendar days from the date of the City's written notification.

B. **Development Standards.** Each Medical Marijuana Dispensary, Dual Licensee Facility, Marijuana Cultivation Facility, and Marijuana Infusion Facility shall be housed in a permanent building and shall comply with the following development standards:

1. ***Facility Size.***

a. *Medical Marijuana Dispensaries and Dual Licensee Facilities.* The maximum floor area of an individual Medical Marijuana Dispensary or an individual Dual Licensee Facility is 5,000 square feet.

b. *Marijuana Cultivation Facilities.* The maximum floor area of an individual cultivation facility is 25,000 square feet.

c. *Marijuana Infusion Facilities.* The maximum floor area of an individual infusion facility is 10,000 square feet, of which no more than 2,500 square feet shall be used for storage of marijuana related product or marijuana related materials used in the production of product.

d. *Combined Facilities.* A Medical Marijuana Dispensary and a Dual Licensee Facility may operate a Marijuana Cultivation Facility, Marijuana Infusion Facility, or both, at a single location, provided the maximum floor area for each facility does not exceed the maximum floor area specified for each individual facility above.

2. ***Marijuana Facility Use Restrictions.*** Marijuana facilities may not include:

a. A drive-through window;

b. Outdoor seating;

c. Outdoor vending machines; or

d. Temporary, portable, or self-powered mobile facilities.

3. ***Hours of Operation.*** A Medical Marijuana Dispensary and a Dual Licensee Facility shall only be open to the public between 8:00 a.m. and 9:00 p.m. of the same calendar day.

4. Medical Marijuana Dispensaries and Dual Licensee Facilities shall remain in compliance with all applicable state laws and regulations.

(Ord. No. 5388, 6-26-17; Ord. No. 5437, 5-7-18; Ord. No. 5633, § 1, 7-8-21; Ord. No. 5845, § 1, 2-5-24; Ord. No. 5947, § 3, 7-1-25)

11-31-35: RECREATIONAL VEHICLE STORAGE IN RESIDENTIAL ZONING DISTRICTS

Recreational Vehicle Storage Lots that have been developed as part of a residential neighborhood and historically been used solely to serve the needs of that residential community may be allowed to expand the use in the RS district and provide storage service to people outside of the adjacent neighborhood, subject to approval of a Special Use Permit, in accordance with Chapter 70 of this zoning ordinance.

A. The review of the special use permit shall be based upon the following items:

1. The applicant has demonstrated that the storage of Recreational Vehicles has historically taken place on this site, and that the continued use of this lot for open air storage of Recreational Vehicles is consistent with this historical usage.

2. Screening of the storage lot is achieved through either: 1) a combination of a minimum 6-foot high masonry wall and 15-foot wide landscape buffer with trees planted at 20-foot on center; or 2) a minimum 8-foot high, fully grouted masonry wall.

3. The site may be accessed directly from an arterial or collector Street.

4. Landscaping along Street frontages complies with Landscaping requirements for the LC Zoning District where adjacent to arterial Streets, and at minimum substantially complies with LC Zoning District Landscaping requirements where adjacent to Streets not classified as a collector or arterial Street.

B. Signs associated with this activity:

1. All signs facing Single Residence land uses shall remain non-illuminated.

2. The maximum area of any individual sign shall be 32 square feet.

3. The maximum height of any detached sign shall be no higher than 8-feet.

4. The number of signs shall not exceed two per Street front in which direct vehicular access to the Storage Lot is available.

11-31-36: DATA CENTERS

A. **Applicability.**

1. ***Data Center as an Accessory Use.*** A Data Center that meets all of the criteria (a through c below) may be considered an accessory use and is not subject to the requirements of this Section 11-31-36. Accessory use criteria:

a. The Data Center exclusively serves the enterprise functions of the on-site property owner or tenant.

b. The Data Center does not lease data storage or processing services to third parties.

c. The Data Center occupies no more than 10% of the total gross floor area of all buildings on the site.

2. ***Data Center as a Principal Use.*** Data Center, as defined in Section 11-86-5, is prohibited in every zoning district, except that a Data Center may be permitted in the Planned Area Development (PAD) Overlay District that is used in combination with the General Industrial (GI) or Heavy Industrial (HI) base zoning district only if the Data Center is specifically permitted by the City Council with the approval of the rezoning to the subject PAD Overlay District. Additionally, all Data Centers as a principal use shall be located, developed, and operated in compliance with the Land Use Regulations in Article 2 and the following standards.

B. **Purpose.** The purpose of this Section is to:

1. Promote public health, safety, and general welfare by ensuring that potential adverse impacts from Data Centers and their associated mechanical equipment, including impacts on the availability, capacity, and distribution of utility services, including water, wastewater, gas, and electricity are mitigated; and

2. Minimize the physical, environmental, and visual impacts of Data Centers and their associated mechanical equipment on surrounding areas by promoting high-quality design and ensuring compatibility with adjacent land uses and the community.

C. **Permitted Zoning Districts.**

1. ***PAD Overlay District Required.*** A Data Center may be permitted within a PAD Overlay District when applied in combination with the General Industrial (GI) or Heavy Industrial (HI) base zoning districts, but only if specifically authorized by the City Council as part of the PAD Overlay District approval.

2. ***Data Center as an Accessory Use.*** A Data Center may be permitted as an accessory use in the Commercial and Employment zoning districts without requiring a PAD Overlay District and is not subject to the requirements of this Section 11-31-36.

D. **Relation to Other Regulations.** Where a conflict occurs between the provisions of this Section and any other City Code, ordinance, resolution, or regulation, the more restrictive provision shall control.

E. **Application Requirements.** In addition to the application requirements of Section 11-67-2 and application guides posted on the Development Services website, all development applications for a Data Center shall include all the following:

1. ***Project Narrative.*** A project narrative that describes how the Data Center is consistent with the General Plan, any other applicable City plan or policies, and is compatible with surrounding uses.

2. ***Operational Plan.*** An operational plan that provides evidence of compliance with all zoning, building, and fire safety regulations.

3. ***Good Neighbor Policy.*** A good neighbor policy describing all the following:

a. The measures that will be taken to ensure ongoing compatibility with adjacent uses including sound attenuation, lighting control measures, vehicular access and traffic control, and litter control measures.

b. Complaint response procedures, including the name and telephone number of the person responsible for the operation of the facility; and procedures for investigation, remedial action, and follow-up.

4. ***Water Consumption and Thermal Management Report.*** A water consumption and thermal management report which describes all the following:

a. *Cooling System.* The proposed cooling system for the Data Center and whether the Data Center will be water-cooled or air-cooled.

b. *Water Usage.*

i. The estimated amount of total water in acre feet that will be used by the proposed project and associated land use for a calendar year, along with a monthly breakdown of projected water demand for each month within that year.

ii. The estimated amount of water in million gallons per day that will be used by the proposed project during a typical 24-hour operational period under normal conditions, including anticipated usage patterns.

iii. The estimated amount of water in million gallons per day to be used by the proposed project in a 24-hour period on its highest water consumption day.

iv. The estimated highest instantaneous flow rate in million gallons per day that will be used by the project along with the minimum, average, and maximum durations and frequencies of these flow conditions.

v. Indicate high consumption operational flexibility. Identify if high water demands can be aligned with the City's low-demand periods.

vi. The number of the proposed water meters and the size of each water meter for the proposed project.

vii. Proof that the applicant or property owner submitted a complete Sustainable Water Service Application to the City's Water Resources Department.

5. ***Wastewater Report.*** Proof that the applicant or property owner submitted a complete Industrial User Survey, or its equivalent under City Code Title 8, Chapter 4 (Sanitary Sewer Regulations) to the City's Water Resources Department.

6. ***Electric and Natural Gas (Energy) Service Report.*** If located in the City's service area for electric or natural gas utility services:

a. The estimated annual and monthly demand for electric and natural gas utility services.

b. An assessment of future energy needs for the proposed project.

7. ***Initial Sound Study.*** An initial sound study performed by a third-party acoustical consultant which documents all the following:

a. The baseline sound levels on the project site.

b. The baseline sound levels measured at the property line of the nearest residential zoning district, residential use, or other sensitive uses as reasonably determined by the Planning Director.

8. ***Citizen Participation.*** In addition to the Citizen Participation requirements of Section 11-67-3, all the following Citizen Participation measures are required:

a. *Neighborhood Meeting.*

i. The applicant shall hold a minimum of two (2) neighborhood meetings with residents to describe the project, including the project design, proposed sound-mitigation, lighting control measures, vehicular access and traffic control, and litter control measures.

ii. A representative of the developer or owner with decision-making authority on the design of the Data Center shall attend the neighborhood meetings.

b. *Neighborhood Meeting Notification.*

i. *Mailed Notice.* The applicant shall notify all property owners and homeowners' associations within a half-mile radius of the exterior boundary of the property that is the subject of the application, based on the last assessment.

ii. *Notice Timeframe.* Written notice shall be provided by first class mail a minimum of 15-days prior to each neighborhood meeting.

c. *Site Posting.*

i. The applicant shall post a sign on the proposed Data Center site at least 15-days before each neighborhood meeting.

ii. The sign shall be located along an arterial street or other high-visibility location as reasonably determined by the Planning Director.

iii. The sign shall include all the following content and shall be reviewed and approved by the Planning Director before installation:

(1) The applicant name and contact information.

(2) A brief description of the Data Center project.

(3) The date, time, and location of the neighborhood meeting.

(4) The applicant shall remove the sign after the neighborhood meeting(s), but not sooner.

F. **Development Standards.**

1. ***Modifications and Deviations Not Permitted.*** The development standards contained within this Section and the development standards contained within Chapter 7 of the Zoning Ordinance, when applied to a Data Center, may not be modified through a Planned Area Development (PAD) Overlay, Bonus Intensity Zone (BIZ) Overlay, Alternative Compliance, or Special Use Permit (SUP), except for the maximum building height specified in Subsection (3) below.

2. ***Separation from Residential Zoning Districts and Residential Uses.*** A Data Center and all associated mechanical equipment, including but not limited to battery storage, power generation, cooling, ventilating, or other equipment that supports the Data Center, shall be located at least 400 feet from the property line of the nearest residential zoning district, residential use, or other sensitive use as reasonably determined by the Planning Director.

3. ***Height.*** The maximum height of a Data Center, including all associated equipment, is 60 feet.

4. ***Building Placement and Design.*** In addition to the development standards contained within Chapter 7 of the Zoning Ordinance, a Data Center shall adhere to all the following standards:

a. *Quality Development Design Guidelines.* Be designed in compliance with Chapter 5 of the City's Quality Development Design Guidelines.

b. *Orientation.* The Data Center's primary (front) façade shall be oriented towards adjacent arterial roadways and intersections.

c. *Building Design Based on Sound Study.*

i. Based on the results of the initial sound study, the Data Center shall be designed and built to incorporate sound mitigation methods sufficient to prevent the sound levels emanating from the Data Center (as determined by a third-party acoustical consultant) from exceeding the ambient noise levels at the property line of the nearest residential zoning district, residential use, or other sensitive use as determined by the Planning Director that were observed in the baseline study.

ii. Design specifications for such sound mitigation shall be provided to the City and incorporated into the building design before building permit approval.

5. ***Architectural Design.*** In addition to the requirements of Chapter 7 of the Zoning Ordinance, a Data Center shall adhere to all the following standards:

   a. *Quality Development Design Guidelines.* Be designed in compliance with Chapter 5 of the City's Quality Development Design Guidelines.

   b. *All Side Architecture.* Architectural detailing on façades may vary depending on visibility and orientation. However, all façades that are publicly visible—whether from the street, neighboring properties, or public vantage points—shall have architectural detailing equivalent to the primary façade.

   c. *Multi-planar Façades.* In addition to the Site Planning and Design Standards of Chapter 7, a Data Center shall include multi-planar façades every 150 feet which are offset a minimum three (3) feet vertically and horizontally from the main building façade.

   d. *Glazing Requirements.* A Data Center building shall incorporate windows or glass panels on a minimum of 40% of the front façade and 15% on all other façades.

   e. *Architectural Features.* Architectural features shall be integrated into the design of Data Center buildings to create visual interest and establish a cohesive architectural identity—particularly at entryways and areas of public interface. All buildings shall incorporate at least five (5) of the following architectural features:

      i. *Overhangs.* Overhangs shall project a minimum three (3) feet from the building façade.

      ii. *Canopies.* Canopies shall extend a minimum four (4) feet from the building façade.

      iii. *Arcades.* Arcades shall provide a clear depth of six (6) feet and a minimum height of 10 feet.

      iv. *Window Shrouds.* Window shrouds shall project a minimum of six (6) inches around the entire window frame.

      v. *Raised Corniced Parapets Over Primary Entrances.* Raised corniced parapets shall extend a minimum of 18 inches above the adjacent roofline and six (6) inches horizontally from the wall.

      vi. *Tower Elements.* Tower elements shall be either one (1) story taller than the adjacent massing.

      vii. *Frameless Corner Glass.* Each glass wall shall be a minimum eight (8) feet wide, with a seamless corner radius or joint.

      viii. *Flying Roof Forms.* Roofs elements shall have a slope of at least 15 degrees and project a minimum four (4) feet beyond the main wall.

      ix. *Murals.* Murals shall encompass an area of 50 square feet.

      x. *Decorative Architectural Grilles, Laser-Cut Metal Screens, or Louvres.* Decorative architectural grilles, laser-cut metal screens, or louvres shall be a minimum four (4) feet wide or 12 square feet in area.

xi. *Architectural Lighting.* Architectural lighting shall illuminate at least 25% of the primary façade length or highlight a minimum of three (3) distinct architectural components.

xii. Other architectural feature approved by the Planning Director.

6. ***Truck Docks, Loading, and Service Areas.***

a. Truck docks, loading, and service areas shall not face or be visible from public rights-of-way or residential uses.

b. When possible, buildings should be used to screen truck docks, loading, and service areas.

c. Where building locations do not offer screening or in the case of phased development plans, truck docks, loading, and service areas shall be fully screened by a solid masonry wall at least eight (8) feet in height.

7. ***Fences and Freestanding Walls.*** In addition to the development standards of Section 11-30-4, Data Centers shall adhere to all the following standards:

a. *Architectural Compatibility.* Walls and fences shall be designed to complement the architectural style of the Data Center and surrounding development.

b. *Articulation.* Walls and fences shall be articulated every 40 feet through the use of either of the following:

i. A column that is offset a minimum eight (8) inches from the horizontal plane of the wall or fence and extends a minimum eight (8) inches above the main body of the wall or fence.

ii. A landscape pocket which is three (3) feet deep by five (5) feet wide.

c. *Decorative Cap.* All wall or fence columns shall have a decorative cap.

d. *Prohibited Materials.*

i. The use of barbed wire, razor wire, embedded glass shards, or ultra barrier is prohibited.

ii. The use of chain link or electrified fencing may only be used for internal security purposes and shall be fully screened from public view.

8. ***Mechanical Equipment.*** Mechanical equipment, including but not limited to battery storage, power generation, cooling, ventilating, or other equipment that supports the Data Center, shall adhere to all the following standards:

a. *Screening.* Be screened to reduce visual and noise impact using one (1) or more of the following methods:

i. Integrated into the building architecture and screened by a wall that appears as a natural extension of the building.

ii. With a solid masonry wall at least eight (8) feet in height or tall enough to fully screen the tallest piece of equipment.

b. *Location.* Be located away from primary entrances, public-facing façades, residential uses or zoning districts, private or public roadways, and when possible, at the rear or side of the building.

c. *Architectural Consistency.*

i. Screening elements shall be designed as a seamless extension of the Data Center's architecture, avoiding exposed industrial-looking enclosures.

ii. Screening elements shall use materials and colors that match the primary Data Center building.

9. ***Substation Screening.***

a. *Height.*

i. Substations, whether private or public, shall be screened to a height at least one (1) foot above the tallest piece of ground-mounted equipment.

ii. If the required screen wall exceeds 10 feet in height, vertical articulation is permitted, provided that:

(1) A line-of-sight study demonstrates that the tallest piece of groundmounted equipment is fully screened from public viewpoints at multiple angles; and

(2) The vertical modulation does not exceed 15% of the wall's total height.

b. *Enclosure Design.* Substations, whether private or public, shall be screened using walls, fencing, berming, landscaping, or other alternative methods.

i. *Screen Walls 10 Feet in Height or Shorter.* Substation screen walls that are 10 feet in height or shorter shall comply with the development standards in Section 11-31-16(F)(7) and Section 11-30-4 for Fences and Freestanding Walls, and be designed to match any proposed publicly facing wall within the development.

ii. *Screen Walls Greater than 10 Feet in Height.* Substation screen walls greater than 10 feet in height shall:

(1) Consist of a 10-foot solid masonry wall that uses materials and finishes that match any proposed publicly facing wall within the development; and

(2) A decorative louvered, slated, or perforated upper screen, no more than 75% opaque, mounted above the masonry wall.

10. ***Utilities.***

a. The Data Center shall bear the full cost of undergrounding any adjacent or on-site electrical infrastructure that would otherwise be provided via overhead distribution and/or transmission as deemed necessary by the City of Mesa Development Services Department in its sole discretion and approved by the applicable utility.

b. When the Data Center is located within the City's electric or natural gas service territories, the City may require a Data Center to source and transmit its own electric or natural gas commodity to a point of the City's electric or natural gas system as determined in the City's sole discretion.

c. The Data Center may be subject to other requirements from the applicable energy utility when located outside of the City's electric or natural gas service territories.

G. **Operational Requirements.**

1. ***Modifications and Deviations Not Permitted.*** The operational standards contained within this Section may not be modified through a Planned Area Development (PAD) Overlay, Bonus Intensity Zone (BIZ) Overlay, Alternative Compliance, Special Use Permit (SUP), Variance or otherwise.

2. ***Sound Study at Certificate of Occupancy or Certificate of Completion Stage.***

   a. Within 30 days of the issuance of a certificate of occupancy or certificate of completion, whichever occurs first, the Data Center operator shall conduct a sound study performed by a third-party acoustical consultant.

   b. The study shall document noise levels emanating from the Data Center measured at the property line of the nearest residential zoning district, residential use, or other sensitive uses as reasonably determined by the Planning Director, during peak routine operation of the Data Center mechanical equipment.

3. ***Annual Sound Study Required.***

   a. The Data Center operator shall perform an annual sound study during peak routine operation of the Data Center mechanical equipment for five (5) years after completion of the initial post-construction sound study.

   b. The study shall document noise levels emanating from the Data Center as measured at the property line of the nearest residential zoning district, residential use, or other sensitive uses as reasonably determined by the Planning Director.

   c. The Data Center operator shall provide the results of the sound study to the City within 30 days of the anniversary of the date on which the certificate of occupancy or certificate of completion was issued by the City.

4. ***Backup Generators.*** If the Data Center operator intends to use backup power generators on the parcel, the operator shall maintain a public website announcing the times when the generators will be in operation.

   a. Any routine operation of the backup generators, including for testing purposes, shall be announced on the website at least 24 hours in advance.

   b. The operator shall also notify the City of Mesa Public Information Office at least 24 hours in advance of a test.

   c. Unless the generators are supplying backup electrical supply during a power outage or an electric utility demand response event, backup generators may only operate between the hours of 9:00 a.m. and 5:00 p.m., Monday through Friday, excluding holidays.

   d. Upon request by City staff, the Data Center operator shall provide the address of the website and QR code where the notices required by this Section are published.

e. Any generating systems that are capable of operating in parallel with the City of Mesa's electric utility or in an islanded manner within the City of Mesa's electric utility will be subject to a generator interconnection process and interconnection study. In all instances, the Data Center operator shall be responsible for all interconnection costs and costs of distribution system protection related to the operation of the generating system.

(Ord. No. 5957, § 3, 7-8-25)

11-31-37: BATTERY ENERGY STORAGE SYSTEM (BESS) AND BESS FACILITIES

All BESS and BESS Facilities shall be located, developed, and operated in compliance with the Land Use Regulations in Article 2 and the following standards and all requirements related to BESS and BESS Facilities in both Title 4 - Building Regulations and Title 7 - Fire Regulations of the Mesa City Code.

A. **Purpose.** The purpose of this Section is to identify regulations for the installation and use of BESS and BESS Facilities to:

1. Promote public health, safety, and general welfare of residents and property by ensuring that potential adverse impacts from BESS and BESS Facilities are addressed and mitigated; and

2. Provide specific requirements for siting, construction, operation, and decommissioning of BESS and BESS Facilities; and

3. Minimize the potential physical, environmental, and visual impacts of BESS and BESS Facilities on surrounding areas by ensuring compatibility with surrounding land uses and the community.

B. **Applicability.**

1. ***BESS Facilities - Principal Use.***

a. A BESS Facility, as defined in Section 11-86-5, that has a nameplate capacity equal to or greater than 5,000 kilowatts (5 megawatt) is a principal use and is prohibited in every zoning district, except that such BESS Facility may be permitted in the Planned Area Development (PAD) Overlay District that is used in combination with the General Industrial (GI) or Heavy Industrial (HI) base zoning district only if such BESS Facility is specifically permitted by the City Council with the approval of the rezoning to the subject PAD Overlay District.

b. Additionally, all BESS Facilities as a principal use shall be located, developed, and operated in compliance with the Land Use Regulations in Article 2 and the standards of this Section 11-31-37.

2. ***BESS - Accessory Uses.***

a. A BESS, as defined in Section 11-86-5, that is determined by the Planning Director to be an accessory use is not subject to this Section 11-31-37.

b. To be determined an accessory use, a BESS shall, at a minimum, meet all of the following criteria:

i. The BESS has a nameplate capacity less than 5,000 kilowatts (5 megawatt).

ii. The BESS exclusively serves the enterprise functions of the on-site property owner or tenant.

C. **Permitted Zoning Districts.**

1. ***Principal Use - PAD Overlay District Required.*** All BESS Facilities, that are a principal use as defined in Subsection (B)(1) above, are prohibited in every zoning district, except that a BESS Facility as a principal use may be permitted in the Planned Area Development (PAD) Overlay District that is used in combination with the General Industrial (GI) or Heavy Industrial (HI) base zoning district only if the BESS Facility is specifically permitted by the City Council with the approval of the rezoning to the subject PAD Overlay District.

2. ***Accessory Use - PAD Overlay District Not Required.*** A BESS, that is an accessory use as defined in Subsection (B)(2) above, may be permitted as an accessory use as set forth in the Land Use Regulations in Article 2 or, for PC Districts, ID Districts, and EO Districts, as set forth in the adopted plan without requiring a PAD Overlay District.

D. **Relation to Other Regulations.** Where a conflict occurs between the provisions of this Section and any other City Code, ordinance, resolution, or regulation, the more restrictive provision shall control.

E. **Application Requirements.** In addition to the application requirements of Section 11-67-2 and application guides posted on the Development Services Department website, all applications for a BESS Facility shall follow all applicable requirements of the Mesa City Code and shall include all of the following:

1. ***Project Narrative.*** A project narrative that includes all of the following:

a. A description of how the BESS Facility is consistent with the General Plan and any other applicable City plan or policies, and is compatible with surrounding land uses and the community.

b. Nameplate capacity.

c. All proposed phasing or augmentation plans.

2. ***Operational Plan.*** An operational plan that includes all of the following:

a. *Compliance Statement.* A compliance statement that evidences compliance with all applicable zoning, building, and fire safety regulations, and federal, state, and local environmental laws.

b. *Preliminary Emergency Response Plan.* A preliminary emergency response plan describing the procedures for safe shutdown, de-energizing, or isolation of equipment and systems under emergency conditions to reduce the risk of fire, electric shock, and personal injuries, and for safe start-up following cessation of emergency conditions.

c. *Preliminary Decommissioning Plan.* A preliminary decommissioning plan describing the anticipated life of the BESS Facility, the steps required for the complete physical removal of BESS components, and the method for removal and disposal of all solid and hazardous waste.

3. ***Good Neighbor Policy.*** A good neighbor policy describing all of the following:

   a. The measures that will be taken to ensure ongoing compatibility with surrounding uses, including, but not limited to, safety measures and emergency response, sound attenuation, lighting control measures, vehicular access and traffic control, and litter control measures.

   b. Complaint response procedures, including, but not limited to, the name and telephone number of the person responsible for the operation of the BESS Facility; and procedures for emergency response, investigation, remedial action, and follow-up.

4. ***Initial Sound Study.*** An initial sound study performed by a third-party acoustical consultant, which documents each of the following:

   a. The baseline sound levels on the project site.

   b. The baseline sound levels measured at the property line of the nearest residential zoning district, residential use, church, park, school, or other sensitive uses as reasonably determined by the Planning Director.

   c. If access to the property line of the nearest residential zoning district, residential use, church, park, school, or other sensitive use cannot be obtained from the property owner, the Planning Director may allow the use of sound modeling to estimate the noise levels.

5. ***Citizen Participation.*** In addition to the Citizen Participation requirements of Section 11-67-3, all the following Citizen Participation measures are required:

   a. *Neighborhood Meeting.*

      i. The applicant shall hold a minimum of two (2) neighborhood meetings with residents to describe the project, including, but not limited to, the project design, proposed safety measures, emergency response, sound-mitigation, lighting control measures, vehicular access and traffic control, and litter control measures.

      ii. Representatives of the developer or owner with both the expertise in the potential safety concerns and the decision-making authority on the design of the BESS Facility shall attend the neighborhood meetings.

   b. *Neighborhood Meeting Notification.*

      i. *Mailed Notice.* The applicant shall notify all property owners and homeowners' associations within a half-mile radius of the exterior boundary of the property that is the subject of the application, based on the last assessment.

      ii. *Notice Timeframe.* Written notice shall be provided by first class mail a minimum of 15 days before each neighborhood meeting.

   c. *Site Posting.*

      i. The applicant shall post a sign on the property that is the subject of the application a minimum of 15 days before each neighborhood meeting.

      ii. The sign shall be located along an arterial street or other high- visibility location as reasonably determined by the Planning Director.

iii. The sign shall include all the following content and shall be reviewed and approved by the Planning Director before installation:

(1) The applicant name and contact information.

(2) A brief description of the BESS Facility project.

(3) The date, time, and location of the neighborhood meetings.

iv. The applicant shall remove the sign after the neighborhood meetings, but not sooner.

F. **Development Standards - BESS Facilities.**

1. ***Modifications and Deviations Not Permitted.*** The development standards contained within this Section and the development standards contained within Chapter 7 of this Ordinance, when applied to a BESS Facility, may not be modified through a Planned Area Development (PAD) Overlay, Bonus Intensity Zone (BIZ) Overlay, Alternative Compliance, or Special Use Permit (SUP).

2. ***Separation Requirements.*** A BESS Facility and all associated mechanical equipment, including but not limited to power generation, cooling, ventilating, or other equipment that supports the BESS Facility, shall be separated from the following zoning districts, uses, and buildings as follows:

a. *Residential Zoning Districts and Uses.* A minimum distance of 1,000 feet from the nearest point of the BESS Facility site screening wall to the nearest point of the property line of the nearest residential zoning district (except property owned by a utility provider) or residential use.

b. *Church, Park, School, or Other Sensitive Use.* A minimum distance of 400 feet from the nearest point of the BESS Facility site screening wall to the nearest point of the property line of the nearest church, park, school, or other sensitive use as reasonably determined by the Planning Director.

c. *Commercial and Industrial Buildings.* A minimum distance of 150 feet from the nearest point of the BESS Facility site screening wall to the nearest support wall, post, or column of the nearest commercial or industrial building.

3. ***BESS Spacing.*** The spacing of BESS within a BESS Facility shall be designed to comply with all requirements of Title 7 — Fire Regulations of the Mesa City Code as it relates to internal setbacks and clear zones around all structures.

4. ***Fire Access Drives and Drive Aisles.*** Each BESS within a BESS Facility shall be provided fire access to emergency response personnel via a fire access drive meeting all of the following requirements:

a. All drive aisles shall be paved in accordance with Section 11-32-2(C) of this Ordinance.

b. All fire access drives and drive aisles shall be designed to comply with all requirements of Title 7 — Fire Regulations of the Mesa City Code.

5. ***Portable Storage Containers.*** The use of all Portable Storage Containers (PSC) shall be subject to requirements of Section 11-30-16.

6. ***Site Screening.*** A BESS Facility shall be fully screened with an opaque wall or fence and shall meet all of the following standards:

   a. *Substations.* Substations are not subject to these requirements and are regulated by the screening requirements of Section (F)(7) below.

   b. *Height.* The height of the wall or fence shall be one (1) foot above the tallest piece of equipment.

   c. *Permitted Materials.*

      i. Walls and fences shall be constructed of high-quality materials, such as tinted, textured blocks; brick; stone; or ornamental metal.

      ii. The use of chain link or electrified fencing may only be used for internal security purposes and shall be fully screened from streetfacing yards, residential zoning districts, and residential use-facing yards, and fully screened where adjacent to any public right-of-way.

   d. *Prohibited Materials.*

      i. Wood fencing is not allowed, except that wood may be used in conjunction with metal frames for gates used in conjunction with required screening walls.

      ii. The use of barbed wire, razor wire, embedded glass shards, ultra barrier, electrified, or other hazardous screening is prohibited.

   e. *Articulation.* Walls and fences shall be articulated every 40 feet using either of the following:

      i. A column that is offset a minimum of eight (8) inches from the horizontal plane of the wall or fence and extends a minimum of eight (8) inches above the main body of the wall or fence.

      ii. A landscape pocket which is a minimum of three (3) feet deep by five (5) feet wide.

   f. *Decorative Cap.* All wall or fence columns shall have a decorative cap.

7. ***Substation Screening.*** All substations and related equipment, whether private or public, shall meet all of the following standards:

   a. *Height.*

      i. The substation and related equipment shall be fully screened to a height of at least one (1) foot above the tallest piece of groundmounted equipment (e.g., buspar, transformer, etc.).

      ii. If the required screen wall exceeds 10 feet in height, vertical articulation is permitted, provided that:

      A line-of-sight study demonstrates that the tallest piece of groundmounted equipment is fully screened from public viewpoints at multiple angles; and

      (1) The vertical modulation does not exceed 15% of the wall's total height.

b. *Enclosure Design When Adjacent to Public Right-of-Way.* Substations that are adjacent to a public right-of-way shall be screened using walls, or alternative methods.

i. *Screen Walls 10 Feet in Height or Shorter.* Substation screen walls that are 10 feet in height or shorter shall comply with the development standards in Subsection 11-31-37(F)(6) and Section 11-30-4 for Fences and Freestanding Walls, and be designed to match any proposed publicly facing wall on the project site.

ii. *Screen Walls Greater than 10 Feet in Height.* Substation screen walls greater than 10 feet in height shall:

(1) Consist of a 10-foot solid masonry wall that uses materials and finishes that match any proposed publicly facing wall within the development; and

(2) A decorative louvered, slated, or perforated upper screen, no more than 75% opaque, mounted above the masonry wall.

c. *Enclosure Design When Located Internal to the Site.* Substations that are located internal to the project site shall be screened using walls, fencing, or other alternative methods.

i. Screen walls and fences shall be a maximum of 10 feet in height with a decorative louvered, slated, or perforated upper screen, no more than 75% opaque, mounted above the masonry wall; or

ii. The enclosure may be a fully decorative louvered, slated, or perforated screen, no more than 75% opaque.

8. ***Utilities.***

a. The BESS Facility shall bear the full cost of undergrounding any adjacent or on-site electrical infrastructure that would otherwise be provided via overhead distribution and/or transmission as deemed necessary by the Development Services Department in its sole discretion and approved by the applicable utility provider.

b. The BESS Facility may be subject to other requirements from the applicable utility provider when located outside of the City's electric or natural gas service territories.

G. **Operational Requirements.**

1. ***Ongoing Sound Studies.***

a. *Sound Study at Certificate of Occupancy or Certificate of Completion Stage.*

i. Within 30 days of the issuance of a certificate of occupancy or certificate of completion, whichever occurs first, the operator shall conduct a sound study performed by a third-party acoustical consultant.

ii. The study shall document noise levels emanating from the BESS Facility, during peak routine operation measured at the property line of the nearest residential zoning district, residential use, church, park, school, or other sensitive use as reasonably determined by the Planning Director.

iii. If access to the property line of the nearest residential zoning district, residential use, church, park, school, or other sensitive use cannot be obtained from the property owner, the Planning Director may allow the use of sound modeling to estimate the noise levels.

iv. If the noise levels exceed the baseline sound levels identified in the initial sound study, a mitigation plan shall be submitted with the sound study outlining the measures that will be taken to reduce the noise levels to the levels documented in the initial sound study.

v. All mitigation measures identified in the sound study shall be implemented, and proof provided to the City, within 60 days of submitting the sound study.

b. *Annual Sound Study Required.*

i. The operator shall perform an annual sound study during peak routine operation for five (5) years after completion of the Sound Study at Certificate of Occupancy or Certificate of Completion Stage as identified in (a) above.

ii. The study shall document noise levels emanating from the BESS Facility as measured at the property line of the nearest residential zoning district, residential use, church, park, school, or other sensitive use as reasonably determined by the Planning Director.

iii. If access to the property line of the nearest residential zoning district, residential use, church, park, school, or other sensitive use cannot be obtained from the property owner, the Planning Director may allow the use of sound modeling to estimate the noise levels.

iv. The operator shall provide the results of the sound study to the City within 30 days of the anniversary of the date on which the certificate of occupancy or certificate of completion was issued by the City.

v. If the noise levels exceed the baseline sound levels identified in the initial sound study, a mitigation plan shall be submitted with the sound study outlining the measures that will be taken to reduce the noise levels to the levels documented in the initial sound study.

vi. All mitigation measures identified in the sound study shall be implemented, and proof provided to the City, within 60 days of submitting the sound study.

2. ***Augmentation.*** All long-term augmentation needs shall be accounted for in the original approval through an approved site plan, and phasing plan.

a. *Permitted Augmentation.* Augmentation of a BESS or BESS Facility is permitted and does not require a modification to original entitlements if it complies with the approved site plan and phasing plan.

b. *Approval Required.*

i. Augmentation that requires modification to the approved site plan or phasing plan shall follow the procedures in Chapter 69 of this Ordinance; except

ii. Augmentations that increase the nameplate capacity of the BESS or BESS Facility shall require City Council approval.

3. ***Ownership or Operator Changes.***

a. If the owner or operator of a BESS Facility changes or the owner of the property changes, the new owner or operator of the BESS Facility or property shall notify the Development Services Department within 30 days of the change.

b. Project approvals will remain in effect; however, the successor owner or operator assumes all obligations of the project, site plan approval, and permitting approvals, and all required documentation (e.g., Good Neighbor Policy, Decommissioning Plan etc.) shall be updated with the new owner or operator information.

(Ord. No. 5976, § 7, 1-12-26)

11-31-38: MIDDLE HOUSING

A. **Eligibility.** A Middle Housing project is permitted:

1. On a lot or parcel of land zoned for Single Residence use within one (1) mile of the downtown area; or

2. In a new Single Residence development greater than 10 contiguous acres provided that:

a. Middle Housing occupies no more than 20% of the developments total net area; and

b. Middle Housing occupies no more than 20% of the lots within the development.

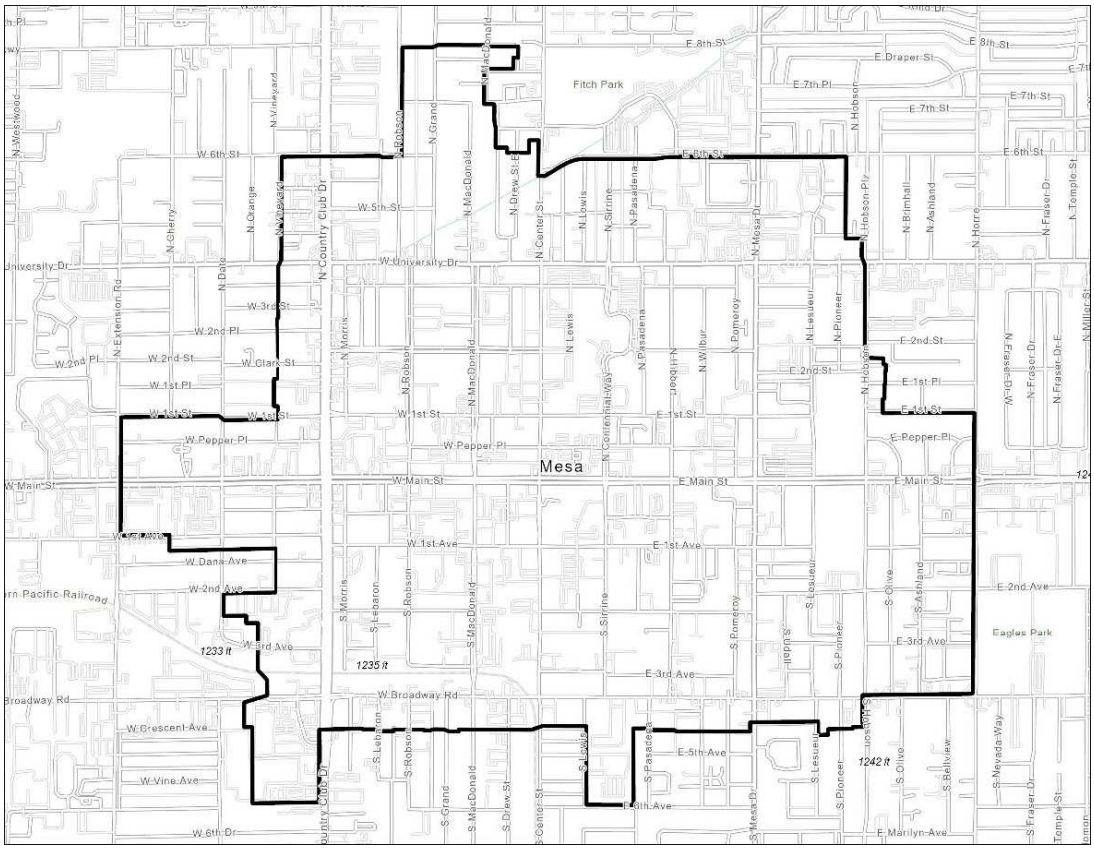

FIGURE 11-31-38.A.1: DOWNTOWN MESA

B. **Development Standards.** All proposed Middle Housing projects shall comply with the development standards of the underlying base zoning district, except:

1. Maximum building coverage may exceed the underlying base zoning district standard but shall not exceed 50% of the lot or parcel of land; and

2. Maximum lot coverage may exceed the maximum building coverage by 10% but shall not exceed 60% of the lot or parcel of land.

C. **Application.**

1. ***Projects Within One (1) Mile of the Downtown Area.*** An applicant seeking to develop a Middle Housing project within one (1) mile of the downtown area shall submit with their required building permit the following:

   a. A Middle Housing application that confirms eligibility with Subsection (A)(1) above; and

   b. A plot plan demonstrating full compliance with all applicable development standards.

2. ***New Single Residence Development.*** An applicant proposing Middle Housing within a new Single Residence development shall submit the following with a Zoning application—or, if no rezoning is required, with a Land Division application:

   a. A Middle Housing application that confirms eligibility with Subsection (A)(2) above; and

   b. A site plan demonstrating full compliance with all applicable development standards.

3. ***Projects Within Historic District or Historic Landmark Overlay Districts.*** An applicant seeking to develop a Middle Housing project within a Historic District (HD) or Historic Landmark (HL) Overlay District must:

   a. Submit a Middle Housing application in accordance with either Subsection (C)(1) or (C)(2) above; and

   b. Comply with all procedures and standards for HD and HL Overlay Districts set forth in Title 11, Chapter 74.

(Ord. No. 5989, § 4, 12-8-25)

11-31-39: COMPREHENSIVE YOUTH RESIDENCE

A. **General Requirements.** Comprehensive Youth Residences are allowed in the RS-90 District upon approval of a Special Use Permit, provided all of the following items are present:

1. The site contains at least 20 contiguous acres;

2. The facility is licensed by the State of Arizona;

3. The number of beds provided by the facility exceeds 25;

4. The facility provides on-site counseling, education, and recreation catering specifically to the resident population; and

5. All applicable setbacks and building height requirements for the RS-90 District are maintained.

B. **Accessory Uses.**

1. ***Permitted Accessory Uses.*** Comprehensive Youth Residences may include the following accessory uses, which relate to and support the operation of the Comprehensive Youth Residences:

   a. An on-site retail store(s);

   b. Offices;

   c. Indoor or outdoor recreation facilities, including equestrian facilities; and

   d. Detached staff residences, including manufactured housing.

2. ***Limitations to On-Site Retail and Office Uses.*** If provided, accessory retail and accessory office uses, in aggregate, shall not exceed 10% of the total gross floor area of all buildings on site.

3. ***Temporary or Seasonal Staff Quarters.*** Spaces with utility connections may be provided for recreational vehicles for use by temporary or seasonal volunteers as temporary quarters, provided:

   a. No recreational vehicle park models are used;

b. No space is used for longer than six (6) months out of a 12-month calendar year by an individual or family; and

c. No recreational vehicle accessory structures, as defined in Chapter 87, are constructed.

(Ord. No. 5996, § 5, 3-9-26)

CHAPTER 32 ON-SITE PARKING, LOADING, AND CIRCULATION

11-32-1: PURPOSE AND APPLICABILITY

A. **Purpose.** The purpose of this Chapter is to provide standards for parking and loading facilities to accommodate the various land uses permitted by this Ordinance. It is the intent of this Chapter to require the minimum number of on-site parking and loading spaces with maneuvering areas, driveways, and surface materials for the efficient movement of vehicular traffic, and to provide flexibility in meeting these requirements for sites with special needs. Additional purposes of this Chapter include:

1. Ensuring the provision of safe and convenient places to park personal transportation vehicles, including automobiles, bicycles and motorcycles,
2. Providing paved surfaces and alternative dust control measures to control and reduce the amount of dust and PM-10 particulates released to the atmosphere,
3. Limiting the area of land consumed by parking through allowances for reductions to the number of required parking spaces and allowances for sharing of parking spaces among multiple uses where appropriate,
4. Minimizing conflicts between pedestrian and vehicular circulation,
5. Reducing the scale of paved surfaces and shading these surfaces, to reduce heat gain that contributes to the urban heat island effect, and
6. Encourage sustainable development by promoting the use of alternative modes of transportation, walking and bicycling through recalibrating parking regulations for mixed use and transit-oriented developments.

B. **Applicability.** The parking and loading requirements of this Chapter apply to all development in the City. They may be modified pursuant to the provisions for certain base districts and overlay districts.

1. ***Additions to Existing Buildings and Changes in Use.*** When a change in use, expansion of a use, or expansion of Gross Floor Area creates an increase of 5% or more in the number of required off-Street parking or loading spaces, based on the initially approved and constructed facility or development, off-Street parking and loading shall be provided according to the provisions of this Chapter. The additional parking shall be required only for such addition, enlargement, or change in use and not for the entire building or site. A change in occupancy is not considered a change in use for the purpose of this paragraph unless the new occupancy is in a different land use classification, based on the descriptions found in Chapter 86, than the former occupant.

2. ***Alterations that Increase Number of Dwelling Units.*** If an alteration to an existing building increases the number of residential Dwelling Units on the site, off-Street parking to serve the new Dwelling Units shall be provided according to the provisions of this Chapter. This requirement does not apply to an Accessory Dwelling Unit.

3. ***When Required.*** Off-Street parking and loading facilities required by this Chapter shall be constructed or installed prior to the issuance of a Certificate of Occupancy for the uses that they serve.

(Res. No. 12269, § 13, 9-23-24; Ord. No. 5883, § 3, 10-7-24)

11-32-2: GENERAL REGULATIONS AND STANDARDS

A. **Location.** All required parking and loading spaces and maneuvering areas shall be located on the lot upon which the use served is located, except that parking spaces may also be located upon a contiguous lot incorporated into the development site. Parking spaces and maneuvering areas shall not be located within the required front yard in any Single Residence District or in any required front or corner Side Yard or landscaped area in any other Zoning District, except driveways that directly and immediately allow a vehicle to access the site from a street or abutting property.

B. **Commercial Vehicles.** No commercial vehicle having a gross vehicle weight rating (GVWR) exceeding 13,000 pounds and is intended to be used primarily for commercial purposes rather than private or individual use shall be parked overnight or stored on any residential lot.

C. **Standards.** The following standards apply to required onsite parking and loading spaces, maneuvering areas, and access:

1. Required parking and loading spaces, maneuvering areas, and driveways shall be paved with asphalt, concrete, paving stone, or masonry to a sufficient thickness to withstand repeated vehicular traffic, except in Single Residence and Agricultural uses. The Zoning Administrator, in collaboration with the City Engineer, may establish alternative standards for porous surface paving.

2. Required parking spaces shall be permanently marked and shall be accessible from a Street or alley by a driveway or aisle such that all vehicles shall approach the Street or alley in forward motion, except in Single Residence and Agricultural uses. See Section 11-32-4(G).

3. Failure by the owner of the site to maintain the parking surface and markings according to the industry standards and schedules shall be considered a violation of this Ordinance.

D. **Compact Parking.** On a site with at least 10 required parking spaces, up to 20 percent of the total required parking spaces may be compact spaces, provided that the following standards are met:

1. Where covered parking is required all covered parking spaces shall be standard size;

2. All compact spaces are to be designated with a sign or pavement marking; and

3. Compact spaces shall be distributed throughout the parking area, with no more than 9 compact spaces in a single cluster. Each cluster of up to 9 spaces shall be separated by a minimum radius of at least 60-feet from the next cluster of compact parking spaces.

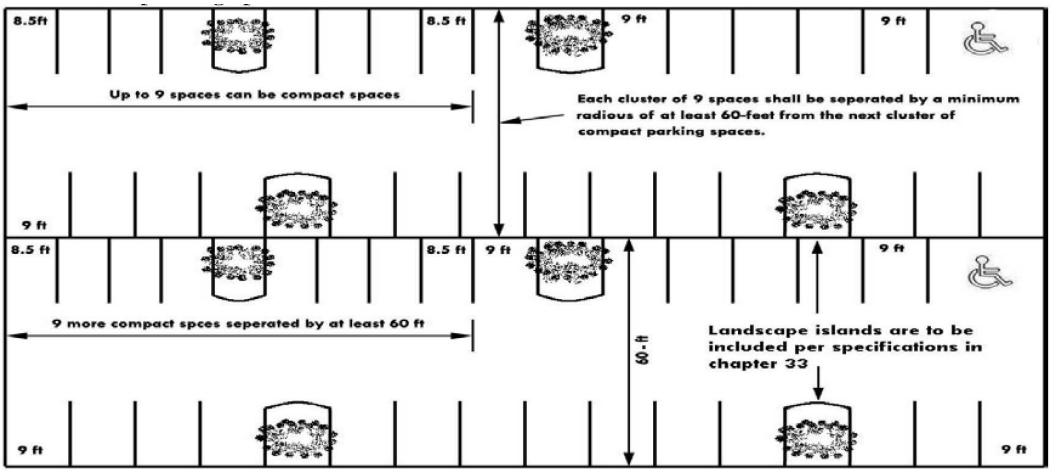

FIGURE 11-32-2.D: COMPACT PARKING SPACES

E. **Accessible Parking.** Accessible parking spaces shall be provided and maintained pursuant to Section 4-2-1(G) of the Mesa City Code pertaining to the Arizonans with Disabilities Act of 1992.

F. **Structured Parking.** The exterior elevations of any multi-level parking structure must be designed so as to screen or conceal parked cars from view from public streets and open space on the first and second floors of the structure. The floors of structured parking garages must be screened or concealed by one (1) or more of the following methods:

1. ***Ground-Floor Commercial.*** The garage's ground-level Street frontage (except for driveways and pedestrian entrances) for the designated front of the structure shall be improved with retail sales, food and beverage sales, eating and drinking establishments, personal services, or similar pedestrian-oriented uses.

2. ***Landscaping.*** Landscaping shall be provided in the form of perimeter planters within openings of the structure, and/or the incorporation of hanging baskets, flower boxes, or planting trellises.

3. ***Setback.*** A parking structure that does not incorporate ground-floor retail or other commercial use or is not otherwise screened or concealed at street frontages on the first and second levels, must provide a densely planted landscaped yard that is a minimum of 10 feet in depth, or the required setback for the district in which it is located, whichever is greater.

4. ***Combination of Opaque Screen Walls and Open Decorative Panels.*** A combination of opaque screening devices and decorative panels may be used to screen parking within above ground structures. Opaque screen walls shall not be higher than 3'-6" relative to the abutting floor height, and shall not exceed 45 percent of the aggregate surface area of the exterior wall. Decorative panels or other devices with opacity of at least 40% shall be used to screen the remainder. The decorative panels shall be constructed of durable materials, such as iron, steel, copper, aluminum, formed concrete, glass block, brick or other textured masonry.

5. ***Design Review Board Review of Alternative Architectural Structure.*** The Design Review Board may approve parking garage structures that incorporate attractive architectural forms and detailing that have interest equal to an occupied structure.

G. **Recreational Vehicle (RV) Parking.** See Section 11-34-5(B) regarding temporary parking requirements for recreational vehicles.

H. **Size of Parking Spaces and Maneuvering Aisles.** Parking spaces and maneuvering aisles shall be provided to meet the minimum dimensions required by this subsection. Screening walls, roof support posts, columns, or other structural members shall not intrude into the required dimensions for parking spaces.

1. ***Standard Parking Spaces.*** The minimum basic dimension for standard parking spaces is 9 feet by 18 feet. Table 11-32-2-H-1 provides the dimensions of spaces (stalls) and aisles according to the angle of parking spaces.

Table 11-32-2-H-1: Standard Parking Space and Aisle Dimensions

Angle of Parking	Stall Width	Curb Length Per Stall	Stall Depth	One-Way Aisle Width	Two-Way Aisle Width
Parallel	9'0"	22'0"	9'0"	12'	20'
30°	9'0"	18'0"	17'4"	11'	20'
40°	9'0"	14'0"	19'2"	12'	22'
45°	9'0"	12'9"	19'10"	13'	24'
50°	9'0"	11'9"	20'5"	15'	24'
60°	9'0"	10'5"	21'0"	18'	24'
70°	9'0"	9'8"	21'0"	19'	24'
90°	9'0"	9'0"	18'0"	24'	24'

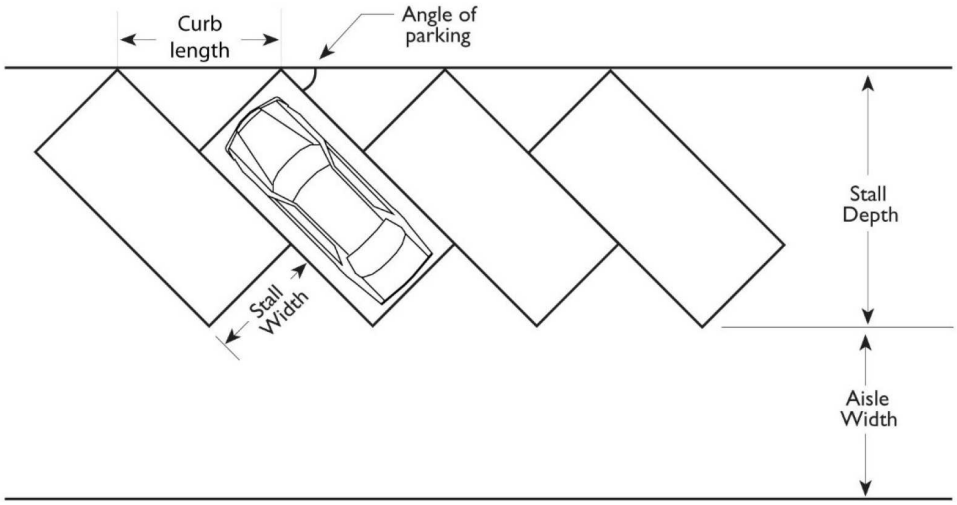

FIGURE 11-32-2.H.1: PARKING SPACES AND AISLES

2. ***Compact Parking Spaces.*** The minimum basic dimension for compact parking stalls shall be 8 feet by 16 feet. Table 11-32-2.H.2 provides the dimensions of spaces and aisles according to angle of parking spaces. See Table 11-32-2.H.2.

Table 11-32-2.H.2: Parking Area and Space Dimensions - Compact Spaces

Angle of Parking	Stall Width	Curb Length Per Stall	Stall Depth	One-Way Aisle Width	Two-Way Aisle Width
Parallel	9'0"	22'0"	9'0"	11'	20'
30°	9'0"	18'0"	14'11"	11'	20'
40°	9'0"	14'0"	16'5"	11'	22'
45°	9'0"	12'9"	17'0"	11'	24'
50°	9'0"	11'9"	17'5"	13'	24'
60°	9'0"	10'5"	17'10"	16'	24'
70°	9'0"	9'8"	17'9"	16'	24'
90°	9'0"	9'0"	16'0"	21'	24'

3. ***Loading Spaces.*** If loading spaces are provided they shall be a minimum 10 feet by 30 feet.

I. **Size of Parking Spaces for Motorcycles, Scooters, and Golf Carts.** Motorcycle and scooter parking spaces shall have a minimum dimension of 5 feet by 9 feet. Golf cart parking spaces shall have a minimum dimension of 5 feet by 10 feet.

J. **Drive Aisle without Associated Parking Spaces.** One-way drive aisles that do not provide access to parking or loading spaces shall be at least 12-feet wide. 2-way drive aisles that do not provide access to parking or loading spaces shall be at least 20-feet wide.

11-32-3: PARKING SPACES REQUIRED

A. The following chart specifies the minimum parking spaces required for each permitted use (For exceptions, see Sections 11-32-5, 11-32-6, and 11-32-7):

Table 11-32-3.A: Required Parking Spaces By Use		
Use	**Minimum Standard**	
Residential		
Single Residence, Detached or Attached, including Manufactured Home Subdivisions	2 spaces per dwelling which may be in tandem with Zoning Administrator approval but no parking space is required for an Accessory Dwelling Unit	
Multiple Residence (Typical)	See sub categories, below	
Apartments, Multiple Residence condominiums, and mixed-use residential, townhomes, patio homes and similar Multiple Residence buildings: development site located within ¼ mile radius (1320-feet) of bus rapid transit or light rail station, regardless of bedroom count	9 or fewer total units	1.4 spaces per Dwelling Unit
	10 — 25 total units	1.3 spaces per Dwelling Unit
	26 or more total units	1.2 spaces per Dwelling Unit
Apartments, Multiple Residence condominiums, mixed-use residential, townhomes, patio homes, and similar Multiple Residence buildings: development site not located within ¼ mile radius (1320-feet) of bus rapid transit or light rail station, regardless of bedroom count	2.1 spaces per Dwelling Unit	
Middle Housing	1 space per Dwelling Unit	
Boarding House and Assisted Living Center	1.2 spaces per Dwelling Unit for development with distinguishable Dwelling Units 1.0 space for each room plus 2 additional spaces for development with congregate dining and no distinguishable separate Dwelling Units	
Family Community Residence, Transitional Community Residence, and Assisted Living Home	Same as Single Residence	
Live-Work Units	2.1 spaces per unit	
Residential Care, General (Nursing Home, Hospice)	1.0 space per room or Dwelling Unit plus 2 additional spaces	
RV Parks	1 full-sized space for each RV space, plus 1 guest parking space per 10 (or fraction thereof) RV spaces for the overall development	
RV Subdivisions	1 full-sized space and 1 golf cart space for each lot; plus 1 full-sized guest parking space per 10 (or fraction thereof) Dwelling Units for the overall development	
Manufactured Home Parks	2 full-sized space for each lot (may include tandem spaces); plus 1 guest parking space per 10 (or fraction thereof) Dwelling Units for the overall development	
Public Assembly and Schools		
Theaters, auditoriums, assembly halls, places of worship, clubs, lodges and fraternal buildings, funeral homes, community centers, libraries	1 space per 75 square feet used for public assembly	
Museums	1 space per 250 square feet used for public assembly plus Accessory Uses	
Stadiums	1 space per 5 seats plus 1 space per 300 square feet for Accessory Uses	
School, kindergarten through 9th grade	1 space per 75 feet for public assembly space, such as auditoriums and theaters, and 1 space per 600 square feet for all other areas	
High schools, academies, colleges, universities, trade or vocational schools	1 space per 200 square feet	
Health Care		
Medical/Dental Offices and outpatient clinics	1 space per 200 square feet	
Hospitals, hospices, skilled nursing, and Nursing and Convalescent Homes	1 space per 400 square feet	
Day care centers	1 space per 375 square feet	
Group Commercial Developments		
Shell buildings (no specified use)	1 space per 275 square feet	
Independent Commercial Buildings and Uses		
Data Center	1 space per 5,000 square feet for the first 200,000 square feet and 1 space per 10,000 square feet thereafter	
General offices, retail, and services	1 space per 375 square feet	

Table 11-32-3.A: Required Parking Spaces By Use	
Use	**Minimum Standard**
General auto repair, Garages, service stations, car washes, and drive-through lubrication shops	1 space per 375 square feet, including service bays, wash tunnels, and retail areas
Hotels and Motels	1 space per room or suite of rooms with individual exits plus ancillary use requirements
Eating and Drinking Establishments (no drive through window)	1 space per 75 square feet for indoor area, and 1 space per 200 square feet for outdoor seating area
Eating Establishments (with drive-through window and associated queuing drive aisle)	1 space per 100 square feet for indoor area, and 1 space per 200 square feet for outdoor seating area
Outdoor sales and service areas (car lots, plant nurseries, building supplies, etc.)	1 space per 375 square feet of sales and service building, but not less than 4 spaces per use
Temporary Outdoor Uses	
Swap Meets (See Section 11-20-29)	1 space per 300 square feet of designated vendor area
Farmer's Markets (See Section 11-20-29)	1 space per 400 square feet of designated vendor area
Recreation	
Bowling centers	5 spaces per lane plus ancillary use requirements
Golf driving range	1 space per tee plus ancillary use requirements
Miniature golf, amusement parks, batting ranges, and water slides	1 space per 500 square feet of outdoor recreations area plus ancillary use requirements
Health space and clubs, gyms, and tennis, handball, and racquetball courts and clubs	1 space per 100 square feet, excluding courts, plus 2 spaces per court
Skating rinks and dance halls	1 space per 75 square feet used for recreational activities plus ancillary use requirements
Group Industrial Buildings and Uses	
Shell buildings (no specified use)	75% at 1 space per 500 square feet plus 25% at 1 space per 375 square feet
Independent Industrial Buildings and Uses	
Mini-Storage (dead storage only)	4 spaces plus 2 for manager's quarters; Drive aisles between buildings shall maintain minimum distance of 24 feet
Warehousing and Storage, excluding Mini-storage	1 space per 900 square feet
Industrial	1 space per 600 square feet
Airport Buildings and Uses	
Aircraft Hangars	2 per aircraft, plus ancillary use requirements
Public Facilities and Uses	
Fire stations	1 space per bed, plus 1 space per 75 square feet for Community Room
Police Substations	1 space per 300 square feet, plus 1 space per 75 square feet for Community Room, plus ancillary use requirements

B. **Basis of Calculation.** The on-site parking requirements specified in this section are based on gross floor area unless otherwise stated.

1. In the case of mixed uses, the total requirements for off-street parking spaces shall be the sum of the requirements of the various uses computed separately as specified in this Section, and the off-street parking space for one use shall not be considered as providing the required off-street parking for any other use, unless a Shared Parking Plan has been approved in accordance with the requirements of Section 11-32-5.

2. In case of fractional results in calculating parking requirements from the chart above, the required number shall be rounded up to the nearest whole number.

C. **Maximum Parking Spaces.** The number of parking spaces provided by any development in surface parking lots shall not exceed 125% of the minimum required spaces in Table 11-32-3(A), except as follows:

1. Office developments may provide higher parking ratio not to exceed 8 spaces per 1,000 square feet GFA when office development includes the following:

   a. A minimum of 60,000 square feet.

   b. The minimum density ratio of employees per gross floor area shall be 1 employee per 200 square feet.

2. Parking within the building footprint of a structure (e.g., rooftop parking, below grade parking, multi-level parking structure).

3. When a change in use to an existing development causes a lower parking requirement.

4. Parking spaces managed for shared parking.

5. An administrative use permit is required to provide more surface parking than the maximum standard and additional landscape is required in compliance with Section 11-33-4, Interior Parking Lot Landscaping.

6. Phased projects do not need to comply with the maximum parking space requirement until the final phase is constructed.

D. **Covered Spaces.** Covered parking spaces shall be provided as follows:

1. Single Residences shall provide a minimum of two (2) covered parking spaces per unit, except no additional parking space is required for an Accessory Dwelling Unit.

2. Multiple-Residence projects shall provide a minimum of one (1) covered parking space per unit.

3. Office-use developments requiring a minimum of 10 parking spaces or more shall provide a minimum of one (1) covered parking space per office or suite plus one (1) additional space.

4. Covered spaces may be counted concurrently with the minimum aggregate parking space requirements for the development.

E. **Minimum Number.** Unless otherwise specifically stated in this Ordinance, all uses, except Single Residences, shall provide at least 4 on-site parking spaces.

F. **Credit for On-Street Spaces.** On-street parking spaces located immediately adjacent to the frontage of properties in the EO, MX, DB, and DC Districts may be counted toward required off-street parking for non-residential uses. One (1) on-street parking space may be substituted for each required off-street space. These provisions only apply to street frontages where on-street parking is allowed and provided. The parking space credit shall be determined at the time of Development Plan approval.

G. **Uses not Specified.** The parking requirement for any use not listed in Table 11-32-3(A) shall be determined by the Zoning Administrator based upon the requirements for the most similar comparable use, the

particular characteristics of the proposed use, and any other relevant data regarding parking demand. In order to make this determination, the Zoning Administrator may require the applicant to submit a parking demand study or other information, at the applicant's cost.

(Ord. No. 5281, 5-4-15; Ord. No. 5633, § 1, 7-8-21; Res. No. 12269, §§ 14, 15, 9-23-24; Ord. No. 5883, § 3, 11-7-24; Ord. No. 5957, § 5, 7-8-25; Ord. No. 5989, § 5, 12-8-25; Ord. No. 5996, §§ 2, 4, 3-9-26)

11-32-4: PARKING AREA DESIGN

A. **Setback of Cross Drive Aisles.** Parking spaces along main drive aisles connecting directly to a Street and drive aisles that cross such main drive aisles shall be set back at least 50 ft from the property line abutting the Street.

B. **Parallel Parking Spaces Abutting Wall or Fence.** Each parallel parking space adjoining a wall, fence, column, or other obstruction higher than 0.5 feet shall be increased by 2 feet on each obstructed side, provided that the increase may be reduced by 0.25 feet for each one foot of unobstructed distance from the edge of a required aisle, measured parallel to the depth of the parking space. See Figure 11-32-4.A.

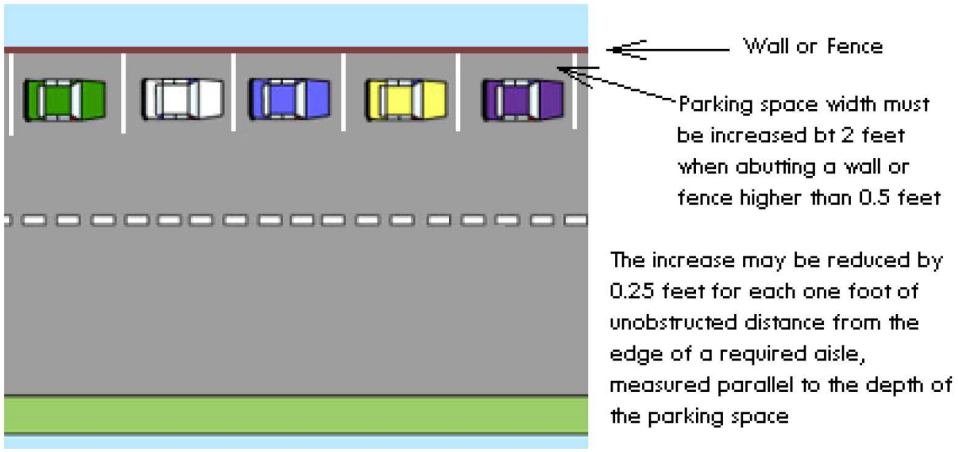

FIGURE 11-32-4.A: PARALLEL PARKING SPACES ABUTTING WALL OR FENCE

C. **Optional Double-Line Striping.** Each parking space shall measure at least 9 feet from center to center, with double stripes 2 feet apart.

D. **Long-Term Parking.** In parking areas, or portions of parking areas, restricted to employee use rather than customer or visitor use, and in which a vehicle is not normally moved during the period of an employee's work shift, the width of parking spaces may be reduced to 8.5 feet for standard and compact spaces.

E. **Minimum Dimensions for Residential Carports.** Each single-car carport shall measure at least 10 feet wide by 20 feet long. Each double carport shall measure at least 18 feet wide by 20 feet long. The width of the carport is to be measured from inside face of support to inside face of opposite support. The carport roof shall cover the entire 20-foot length of the space.

F. **Minimum Dimensions for Residential Enclosed Garages.** Enclosed Garages serving residential uses shall be constructed to meet the following minimum inside dimensions.

1. A single-car garage shall be at least 10 feet wide and 22 feet long.
2. A double-car garage shall be at least 20 feet wide and 22 feet long.
3. A garage for tandem parking shall be at least 10 feet wide and 44 feet long.

G. **Circulation and Safety.**

1. ***Internal Vehicular Circulation.***

a. Visibility shall be assured for pedestrians, bicyclists, and motorists entering individual parking spaces, circulating within a parking facility, and entering or leaving a parking facility.

b. Internal circulation shall be designed to facilitate the safe movement of vehicles without posing a danger to pedestrians or impeding the function of the parking area.

c. Parking lots that accommodate 10 or more vehicles must maintain continuous circulation patterns, with no dead ends, and safe access to public streets.

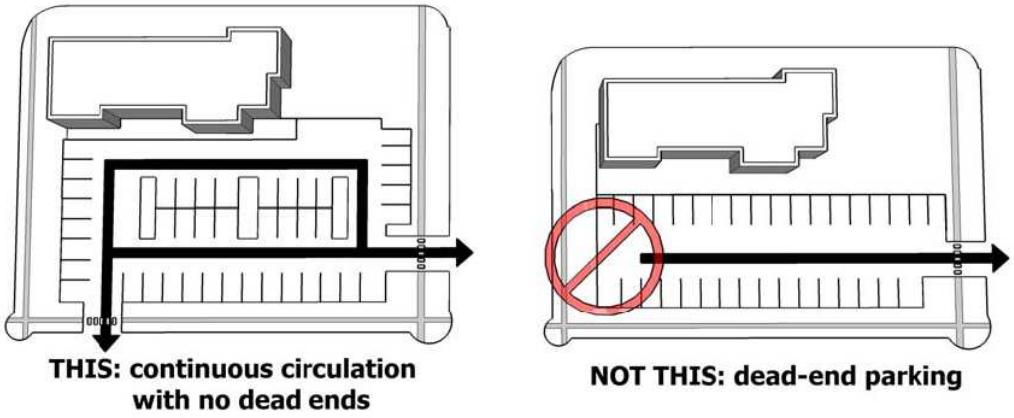

FIGURE 11-32-4.G(1): VEHICULAR CIRCULATION DESIGN

d. Off-street parking and loading areas shall be provided with sufficient maneuvering room so that all vehicles can enter and exit from a public street by forward motion only. This regulation does not apply to parking areas serving Single-Family Residences served by individual driveways. The maneuvering of vehicles necessary to enter or exit loading areas shall not occur on City streets.

e. Parking lots shall be designed so that solid waste, emergency, and other public service vehicles can provide service without backing up more than 50 feet or making other dangerous or hazardous turning movements.

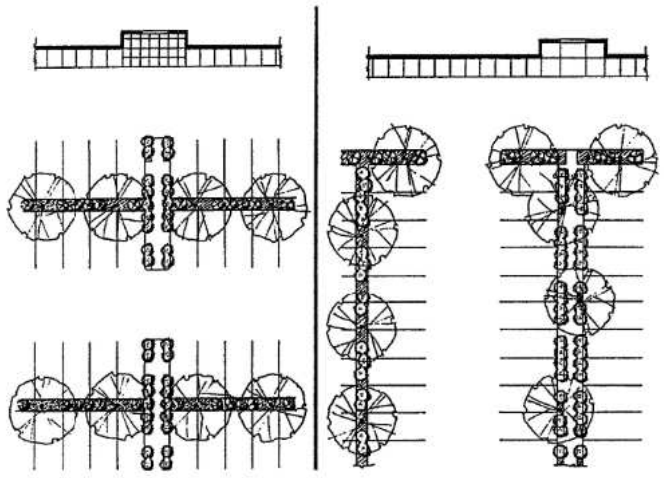
2. ***Parking Lot Layout.***

a. No more than 200 parking spaces shall be located together in one (1) group or cluster.

b. Parking lot clusters shall be separated from other groups or clusters by a 15-foot wide landscaped feature, cross aisles, retention basins, or similar features.

c. Drive aisle intersections shall be perpendicular to each other.

d. Separate vehicular and pedestrian circulation systems shall be provided.



3. ***Pedestrian Access.***

a. Pedestrian walkways shall be at least five (5) feet in width and paved with a hard surface.

b. Parking lots containing more than 200 parking spaces shall provide pedestrian walkways through the parking field.

c. For parking rows perpendicular to the principal building façade, pedestrian walkways shall be located between two (2) rows of parking spaces at a minimum of one (1) pedestrian walkway every 200 feet.

d. For parking rows parallel to the principal building façade, pedestrian walkways shall be provided through the parking rows at a minimum of one (1) pedestrian walkway every 21 parking spaces, and such walkways shall be located in conjunction with required landscape islands.

Parking Rows **Parallel** To The Principal Building Facade

Parking Rows **Perpendicular** To The Principle Building Facade

FIGURE 11-32-4.G(2): PARKING ROW ORIENTATION

e. Where a pedestrian walkway crosses a vehicle lane, the pedestrian walkway shall be raised a minimum of three (3) inches above the vehicle lane and made distinct by use of textured paving, pavement markings, or contrasting color.

f. Where a pedestrian walkway is parallel and adjacent to an auto travel lane, it shall be raised and separated from the auto travel lane by a raised curb at least six (6) inches high.

H. **Electric Vehicle Charging Stations.** If spaces for electric cars are provided, allowed compact parking spaces can be increased by 1% for every 2 electric car charging stations; up to a maximum of 25-percent of the total minimum required.

I. **Additional Requirements.** For additional design requirements related to parking, See Chapter 33 (Landscaping), as well as Sections 11-30-5 (Lighting and Illumination), Section 11-30-8 (Pedestrian Connections), 11-30-9 (Screening), 11-30-12 (Trash and Refuse Collection Areas), and 11-30-13 (Truck Docks, Loading, and Service Areas).

J. **Alternative Parking Area Designs.** Where an applicant can demonstrate to the satisfaction of the approval authority that variations on the dimensions otherwise required by this Section are warranted in order to achieve to environmental design and sustainable building objectives (i.e. certification under the LEEDTM Green Building Rating System or an equivalent), a specific parking area design may be approved.

(Ord. No. 5996, § 4, 3-9-26)

11-32-5: SHARED PARKING

A. **Description.** Shared parking represents an arrangement in which 2 or more nonresidential uses, or a mixed-use residential development, with different peak parking periods (hours of operation) use the same off-Street parking spaces to meet their off-Street parking requirements.

B. **Authorization and Criteria.**

1. ***Permit Requirement.*** An administrative use permit may be approved, allowing shared parking arrangements for nonresidential uses with different hours of operation in accordance with the requirements of Section 11-70-3.

2. ***Criteria for Approval.*** Up to 100% of the parking required for one use may be supplied by the off-Street parking spaces provided for another use if the Zoning Administrator determines:

   a. That the various activities will have peak parking demands at different periods of the day or week; and,

   b. Based on competent evidence provided by the applicant, that there is no substantial conflict in the principal operating hours of the uses for which the sharing of parking is proposed.

3. ***Application Requirements.*** A request for approval of a shared parking arrangement must be accompanied by such information determined by the Zoning Administrator to be necessary to evaluate the peak parking demand characteristics or difference in hours and/or days of operation, including, but not limited to, a description of the uses and their operational characteristics, a Development Plan including a description of pedestrian access, and a parking study prepared by a licensed professional traffic engineer or equivalent qualified professional which justifies the reduction in parking requested.

4. ***Location of Shared Parking Facility.*** A facility or land use activity for which shared parking is proposed must be located within 660 feet of the shared parking, measured from the entrance of the use to the nearest parking space within the shared parking lot. A Shared Parking Facility greater than 660 feet from the location of the activity served may be reviewed and approved through a Special Use Permit, pursuant to Chapter 70.

5. ***Agreement.*** An agreement providing for the shared use of parking areas, executed by the parties involved, must be filed with the Zoning Administrator in approved form, and then recorded with the Office of the Maricopa County Recorder. Shared parking privileges will continue in effect only as long as the agreement, binding on all parties, remains in force. Agreements must guarantee long-term availability of the parking, commensurate with the use served by the parking. If a shared parking agreement lapses or is no longer valid, then parking must be provided as otherwise required by this Chapter.

(Ord. No. 5996, § 4, 3-9-26)

11-32-6: PARKING REDUCTIONS

Required parking for any use may be reduced through approval of a special use permit, pursuant to Chapter 70, unless specified otherwise, and the following:

A. **Criteria for Approval.** A special use permit for reduced parking shall only be issued if the following criteria are found to be true:

1. Special conditions—including but not limited to the nature of the proposed operation; proximity to frequent transit service; transportation characteristics of persons residing, working, or visiting the site—exist that will reduce parking demand at the site;

2. The use will adequately be served by the proposed parking; and

3. Parking demand generated by the project will not exceed the capacity of or have a detrimental impact on the supply of on-Street parking in the surrounding area.

B. **Parking Demand Study.** In order to evaluate a proposed project's compliance with the above criteria, the Zoning Administrator may require submittal of a parking demand study that substantiates the basis for granting a reduced number of spaces and includes any of the following information:

1. Total square footage of all uses within existing and proposed development and the square footage devoted to each type of use.

2. A survey of existing on-Street and off-Street parking within 300 feet of the project site.

3. Standard parking requirements for the use, based on Table 11-32-3(A).

4. Estimated parking demand for the use, using any available existing parking generation studies from the Institute for Transportation Engineers (ITE) or other professionally recognized, and/or accredited sources. If appropriate parking demand studies are not available, the City may require the applicant to conduct a parking demand survey of a development similar to the proposed.

5. Comparison of proposed parking supply with parking requirements.

6. A shared parking analysis, as appropriate.

7. A description any other characteristics of the site or measures being undertaken that could result in reduced parking demand, including staggered work shifts, telecommuting, shuttles to transit stations, or similar programs.

8. Other information as required by the City.

C. **Optional Transit Reduction.**

1. Except residence uses, the following reductions may be factored directly when determining the minimum number of parking spaces required for a development, and do not require an Special Use Permit to be approved by the Zoning Administrator:

   a. The minimum number of parking spaces may be reduced by up to 10% for sites in which the closest portion of the requested parcel is no more than a ¼ of a mile (1320-linear feet) radius from a light rail station or bus rapid transit stop.

   b. The minimum number of parking spaces may be reduced by up to 5 percent for sites in which the closest portion of the requested parcel is no more than a ½ of a mile (2640 linear feet) radius from a light rail station or bus rapid transit stop.

   c. The distances specified shall be measured in a straight line from the nearest property line of the development site to the nearest pay kiosk, shade canopy, or transit stop sign post, whichever is closest.

2. Additional reductions to the minimum number of parking spaces may be requested through the Special Use Permit process described in Paragraph A of this Section.

11-32-7: ALTERNATIVE COMPLIANCE WITH MINIMUM PARKING REQUIREMENTS

A. **Authorized Alternatives.** The Zoning Administrator may approve an alternative parking plan for the following:

1. Off-site parking (See C, below);

2. Valet parking (See D, below);

3. High-capacity transit access (See E, below);

4. Residents with special needs (See F, below); and

5. Community building(s) for residential developments (See G, below).

B. **Administrative Use Permit Required.** Applicants seeking approval of an alternative parking plan must secure approval of an Administrative Use Permit, pursuant to Chapter 70.

C. **Off-Site Parking.** The Zoning Administrator may permit all or a portion of the required off-street parking spaces to be located on a remote and separate lot from the lot on which the principal use is located, subject to the standards of this Section.

1. ***Location.***

   a. No off-site parking space may be located more than 1,000 feet from the primary entrance of the use served, measured along the shortest legal, practical walking route.

   b. This distance limitation may be waived by the Zoning Administrator if van or shuttle service will be operated between the off-site parking areas and the principal use.

2. ***Availability.*** The applicant shall demonstrate through a parking analysis that one of the following criteria is met.

   a. The existing number of parking spaces on the remote lot meets the minimum parking requirements for the uses onsite, as well as the minimum requirements for the portion of the use proposed to be accommodated off-site; or

   b. A parking demand study demonstrates that the remote lot has vacancy to accommodate the existing uses and the portion of the use proposed to be accommodated off-site.

3. ***Off-Site Parking Agreement.***

   a. An agreement providing for long-term use of off-site parking shall be executed by the parties involved, recorded with the County Recorder's office, submitted to the Planning Division.

   b. Off-site parking privileges will continue in effect only as long as the agreement, binding on all parties, remains in force. If an off-site parking agreement lapses or is no longer valid, then parking must be provided as otherwise required by this Chapter.

D. **Valet Parking.**

1. Valet parking may be authorized as a means of satisfying up to 100% of otherwise required off-street parking spaces.

2. In order to approve an alternative parking plan for valet parking the Zoning Administrator must determine that the proposal satisfies the requirements for off-site parking (see C, above).

E. **High-Capacity Transit Access.** The Zoning Administrator may approve up to a 33% reduction in required parking for uses located within 1,320-feet (¼ mile) of a high-capacity transit service stop, such as BRT or light rail with 30-minute or more frequent service during the hours of 7:00 a.m. to 9:00 a.m. and 5:00 p.m. to 7:00 p.m.

F. **Residents with Special Needs.**

1. If a developer can demonstrate that a Multiple Residence or group residential housing project (e.g., Assisted Living Center, skilled nursing facility, etc.) is designed for residents with special needs, such as senior citizens or handicapped individuals, and will not generate a need for as much parking as such a project designed for a general market, the Zoning Administrator may approve up to a 33% reduction in the number of required parking spaces.

2. Upon conversion of a Multiple Residence or group housing project to a general market apartment or condominium complex, parking must be provided consistent with the requirements of Table 11-32-3(A).

G. **Community Building(s) for Residential Developments.**

1. The Zoning Administrator may approve up to 50% of required full-size parking spaces required for a community building to be substituted with golf-cart spaces, motorcycle/scooter spaces, or bicycle parking if the community building is used for the common benefit of residents within residential development.

2. Only 50% of the substituted spaces may be substituted with bicycle parking.

(Ord. No. 5996, § 4, 3-9-26)

11-32-8: BICYCLE AND MOTORCYCLE PARKING

A. **Bicycle Parking.**

1. ***Spaces Required.***

a. Bicycle parking is required for multi-unit residential buildings and nonresidential development. Unless otherwise expressly stated, buildings and uses subject to bicycle parking requirements must provide at least 3 bicycle parking spaces or at least 1 bicycle space per 10 on-site vehicle parking spaces actually provided, whichever is greater. After the first 50 bicycle parking spaces are provided, the required number of additional bicycle parking spaces is 1 space per 20 vehicle parking spaces.

b. The requirements of subsection a and b, above, notwithstanding, the following minimum bicycle parking requirements apply to colleges, universities, schools and libraries:

i. Elementary and junior high school: 1 bicycle parking space per 1000 square feet;

ii. High school: 1 bicycle parking space per 1500 square feet;

iii. Colleges and universities: 1 bicycle parking space per 5 vehicle parking spaces provided; and

iv. Libraries: 1 bicycle space per 5 vehicle parking spaces provided.

2. ***Design and Location.***

a. *General.* Required bicycle parking spaces must:

i. Consist of racks or lockers anchored so that they cannot be easily removed and of solid construction, resistant to rust, corrosion, hammers, and saws;

ii. Allow both the bicycle frame and the wheels to be locked using a standard U-lock;

iii. Be designed so as not to cause damage to the bicycle;

iv. Facilitate easy locking without interference from or to adjacent bicycles and maintain a separation of at least 24 inches from the nearest wall; and

v. Be located in close proximity to entrances and other high activity areas, highly visible, active, well-lighted areas without interfering with pedestrian movements.

b. *Size.* Required bicycle parking spaces for nonresidential uses must have minimum dimensions of 2 feet in width by 6 feet in length, with a minimum overhead vertical clearance of 7 feet.

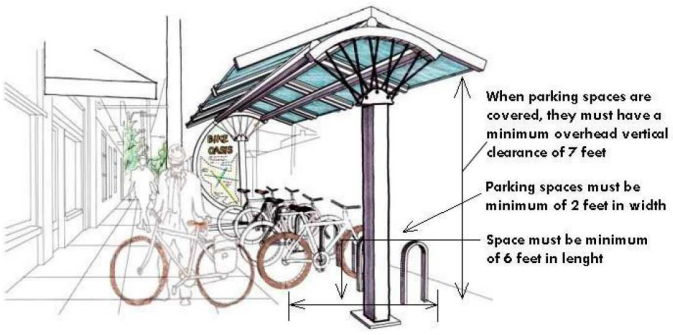


FIGURE 11-32-8.A: BICYCLE PARKING SPACES

c. *Location.* Required bicycle parking may be located indoors or outdoors. Such spaces must be located out of the ROW unless an encroachment agreement is approved. If required bicycle parking facilities are not visible from the abutting Street or the building's main entrance, signs must be posted indicating their location.

B. **Motorcycle and Scooter Parking.** For any nonresidential use providing 50 or more off- Street spaces, a maximum of 2 required off-Street parking spaces per 50 vehicle spaces may be reduced in size or otherwise redesigned to accommodate parking for motorcycles and scooters. When provided, motorcycle and scooter parking must be identified by a sign. Motorcycle and scooter parking shall be counted concurrently as part of the minimum number of vehicle spaces required for the development.

CHAPTER 33 LANDSCAPING

11-33-1: PURPOSE AND APPLICABILITY

A. **Purpose.** This Chapter establishes standards for Landscaping. The purpose of the Landscaping standards are to:

1. Improve the appearance of the community by requiring aesthetically pleasing Landscaping on public and private sites:
2. Soften the appearance of urban development;
3. Ensure appropriately designed and maintained Landscaping elements that allow natural surveillance;
4. Generate and preserve community identity to reinforce a sense of place that is unique to various neighborhoods throughout the City;
5. Encourage the use of native or adapted plant species and demonstrate appropriate design and maintenance techniques; and
6. Provide environmental improvements such as mitigating air and storm water pollution, providing shade and reducing the effects of the urban heat island.

B. **Applicability.** The regulations of this Chapter shall apply to both new and existing development as outlined below:

1. ***Proposed Developments.*** The standards of this Chapter apply to all new development, redevelopment, and site improvements requiring a development plan, site plan, or building permit unless specified as exempt below.

2. ***Existing Properties.*** The standards of this Chapter shall apply to existing properties when:

   a. There is a change in land use that results in increased parking, loading and service areas, or open space requirements;

   b. A new building or addition increases the gross floor area by more than 10%; or

   c. There are site modifications, including but not limited to, alterations to parking layout, driveways, or other site circulation elements that impact existing landscaped areas.

C. **Exempt Projects.** The requirements of this Chapter do not apply to the following types of development or activity:

1. Additions to existing buildings that increase the total gross floor area by less than 10%;

2. The establishment of an accessory use or structure on the same lot as an existing primary use, provided that there is no increase in total gross floor area or outdoor area utilized for the use; and

3. A change in occupancy of a building that does not result in a change in land use classification or an increase in parking, landscaping, or site improvement requirements under this Ordinance.

(Ord. No. 5544, § 13, 12-9-19; Ord. No. 5996, § 4, 3-9-26)

11-33-2: GENERAL REQUIREMENTS

A. **Landscaped Areas.** Required landscaped areas shall be maintained free from encroachment by any use, structure, vehicle, or feature not a part of the landscaping design, except as specified in Chapter 33.

1. Where turf abuts decomposed granite or similar inorganic landscape material, a hardscape edging material such as brick or concrete curb/mow-strip shall be provided.

2. Electric vehicle charging stations may be placed in parking lot landscape islands. If necessary, shrubs and ground cover may be eliminated to accommodate the charging equipment.

B. **Tree Size.** Required trees shall be the minimum size specified below:

1. A minimum of 25% of the total required trees shall be 36-inch or larger box trees.

2. A minimum of 50% of the total required trees shall be 24-inch box trees.

3. No trees shall be smaller than 15-gallon size.

C. **Shrub Size.**

1. Required shrubs shall have a minimum mature growth height of 18 inches.

2. At least 50% of required shrubs shall be a minimum of five (5) gallons in size upon installation, but in no case shall any shrub be less than one (1)-gallon size.

D. **Open Space.** Fifty percent (50%) of all required open space shall contain live plant material.

1. To ensure that landscape materials are measured as accurately and equitably, the guidelines in Table 11-33-2-E shall be used to determine what portion of a lot or right-of-way is landscaped with live plant materials other than turf and provides the square footage credit for various types of plants.

2. Ground cover may be of two (2) types:

a. Vegetative ground cover consisting of living plant materials generally characterized by primary horizontal growth, as well as secondary vertical growth, generally not exceeding 18 inches in height; and

b. Inert ground cover consisting of gravel, decomposed granite, crushed rock, desert tree mulch or other approved materials. The use of "desert cobble" that looks like the desert floor, consisting of natural desert covers and seed mix, is encouraged.

Table 11-33-2-E: Vegetation Credit Table

Type of Plant Material	Credit in Square Feet
Evergreen Tree (at least 25 ft. tall at maturity)[1]	100
Shade Tree	50
Ornamental Tree	25
Large Shrub (more than 8 ft. tall at maturity)	50
Medium Shrub (4-8 ft. tall at maturity)	25
Small Shrub (less than 4 ft. tall at maturity)	10
Columnar Deciduous or Evergreen Tree	25
Columnar Evergreen Shrub (less than 8 ft. tall at maturity)	10
Evergreen Ground Cover	25
Perennial Plant and Ground Cover, Bulb/Tuber and Ornamental Grass[2]	5
Non-Ornamental Grass or Turf	1
1. Dwarf trees or tree varieties with a mature width of less than 10 feet shall count as 25 square feet.	
2. Large ornamental grass, over 4 feet tall at maturity, shall count as 10 square feet.	

E. **Irrigation Systems.** Required irrigation systems shall be underground automatic watering systems, unless the lot is served by functioning flood irrigation.

F. **Paving and Hardscape Materials.** Paving and ground treatment shall be an integral part of site and landscape design.

G. **Selection of Plant Materials.** The physical characteristics of the species and variety of plants selected, at maturity, shall correspond closely with the design objectives listed for each of the respective landscape requirements, including the following:

1. ***Screening.*** Trees and shrubs used for screening shall be non-deciduous or have dense foliage and a broad canopy to ensure year-round coverage.

2. ***Thorny Trees and Shrubs.***

   a. Trees and shrubs with thorns, spines, and sharp points should not be placed within seven (7) feet of sidewalks and/or vehicular roadways and should not be placed within three (3) feet of median island curbing.

   b. Exceptions may be made for plants placed in controlled locations, such as plazas and outdoor seating, clearly designed as being away from access aisles, connecting routes or through pathways.

3. ***Shading Requirements.*** Trees designated to meet shading requirements shall provide at least 50% of the required shading within four (4) years and the full shading within eight (8) years.

4. ***Species Diversity.*** Development sites shall include a variety of plant species for each plant type (tree, shrub, accent, vegetative ground cover, etc.) to promote landscape resilience and visual interest.

   a. The total number of species required and the maximum percentage of any one (1) species permitted on a site is provided in Table 11-33-2.G.4 below.

   b. Cultivars, varieties, and hybrids of a single species shall be considered the same species for the purpose of this calculation.

Table 11-33-2.G.4: Species Diversity Requirements By Plant Type

Total Number of Plants (Per Plant Type) on Landscape Plan	Min. Number of Species Required	Max. Percentage of Any One (1) Species
1-4 plants	1 specie	100%
5-10 plants	2 species	60%
11-15 plants	3 species	45%
16-75 plants	5 species	40%
76-100 plants	8 species	25%
500-1,000 plants	10 species	30%
1,000+ plants	15 species	15%

H. **Maintenance of Landscaping.**

1. ***Irrigation System Required.*** An irrigation system shall be provided to all landscaped areas containing living plant materials, unless otherwise approved.

2. ***Dead or Dying Landscape Material.*** In the event a plant specified as required on an approved landscape plan dies or is removed, the property owner and or occupant or lessee are jointly responsible and shall replace the plant with one of a similar species with a similar size as specified in the approved landscape plan.

3. ***Plant Material Maintenance.***

   a. Landscape Plans shall designate plant material to be kept in either a natural state (minimal pruning) or a formal state (regularly trimmed and pruned to a sculpted appearance). Plant materials shall be maintained as designated.

   b. Property owners shall maintain landscaping in accordance with the best management practices of the landscaping industry. Pollarding of trees and similar practices of over pruning are discouraged.

4. Lack of maintenance as above described, shall constitute a violation of this Ordinance. The property owner and/or occupant or lessee shall be held jointly and severally liable for any infraction of the requirements set forth in this Chapter.

I. **Installation of Landscaping.** Landscaping shall be installed with adequate precautions to ensure survival, as shown on the approved development plan or landscape plan, prior to the issuance of a Certificate of Occupancy for the building or use.

J. **Perimeter Landscaping.** Required landscaped areas adjacent to the property lines of the site shall be installed with the first phase of construction when adjacent to residential districts.

K. **Undeveloped Parcel within a Group Commercial, Industrial, or Office Project.** Extruded concrete curbing and a five (5) foot-wide landscape area along the undeveloped edge(s) shall be provided, unless otherwise approved.

L. **Substantial Conformance.** Landscaping installation shall be in substantial conformance with the approved plans. Alteration in the design or installation without appropriate plan amendment approval is subject to the withholding of final inspection approval.

M. **Curbing.** Where wheel stops are required to prevent vehicular intrusion, poured-in-place continuous concrete curbing or decorative bollards shall be installed.

N. **Parking.** When a parking space abuts a landscape island or planter, a poured-in-place continuous concrete wheel stop or curbing shall be provided.

O. **Right-of-Way.** Landscaping of adjacent undeveloped right-of-way is required in addition to the minimum on-site requirements. Right-of-way landscaping shall be limited to non-vegetative ground cover and low-water-use plants, including those drought-tolerant plants listed by the Arizona Department of Water Resources for the Phoenix Active Management Area. The Planning Division will maintain a list of such plants.

(Ord. No. 5544, § 14, 12-9-19; Ord. No. 5814, § 5, 10-16-23; Ord. No. 5996, § 4, 3-9-26)

11-33-3: PERIMETER LANDSCAPING

A. **Streets.**

1. ***Allowable Uses.*** Landscape yards shall be exclusively maintained as landscaped areas with plant materials and may include monument signs, parking screen walls, and retention basins.

2. ***Basis for Calculation.*** Plant materials shall be calculated based on a linear module of 25 feet. Trees and shrubs may be clustered.

3. ***Numbers of Plants Required.*** Plants shall be installed according the street classifications in Table 11-33-3.A.3.

Table 11-33-3.A.3: Required Number of Plants by Street Type

Street Right-of-Way	Min. Required Plants
Arterial Streets (110—130 feet) Note: MX Districts shown in subsection 5. below	1 Tree and 6 Shrubs per 25 Linear Feet of Street Frontage (4 trees and 24 shrubs per 100 feet)

Table 11-33-3.A.3: Required Number of Plants by Street Type	
Street Right-of-Way	**Min. Required Plants**
Collector Streets (90—110 feet)	1 Tree and 6 Shrubs per 25 Linear Feet of Street Frontage (4 trees and 24 shrubs per 100 feet)
Collector Streets (60—80 feet)	1 Tree and 6 Shrubs per 25 Linear Feet of Street Frontage (4 trees and 24 shrubs per 100 feet)
Public or Private Local Streets (Less than 60 feet)	1 Tree and 4 Shrubs per 25 Linear Feet of Street Frontage (4 trees and 16 shrubs per 100 feet)
All fractional amounts shall be rounded up to the next whole number (Example 2.15 trees rounds up to 3 trees).	

5. ***DC and MX Districts.*** All new development shall provide shade with canopy trees, shade structures, or building overhangs for at least 50% of sidewalk along street frontages.

6. ***Substitutions.***

a. *Tree Size Substitutions.* Substitutions to the minimum tree size requirements may be made according to the following table.

Table 11-33-3.A.6.a: Tree Substitutions		
Tree to be placed on site	**15-gallon tree equivalent**	**24-inch box tree equivalent**
24-inch box tree	2 trees	-
36-inch box tree	3 trees	2 trees
48-inch box tree	4 trees	3 trees
60-inch or larger box tree	-	4 trees

b. *Saguaros Substitution.*

i. Saguaros may be substituted for 10% of the total required trees along streets and driveways according to Table 11-33-2.A.6.B.

ii. A higher percentage, up to a maximum 30% of the total number of required trees, may be approved by the Zoning Administrator within the defined boundaries of the Desert Uplands Area.

Table 11-33-2.A.6.b: Substitute Saguaro Heights	
Required Tree Size	**Substitute Saguaro Heights (in Feet)**
15 gallon	6
24-inch box	10
36-inch box	15

c. *Ocotillo Substitutions.*

i. Ocotillo plants may be substituted for 10% of the total required trees along streets and driveways, at a ratio of two ocotillo plants for each required tree.

ii. A higher percentage, up to a maximum 30% of the total number of required trees, may be approved by the Zoning Administrator within the defined boundaries of the Desert Uplands Area.

B. **Required Landscape Yards.** Landscaping should provide a visual buffer, screen view of objectionable uses, provide a transition between adjacent development, shade paved and unpaved surfaces, and screen nighttime light from adjacent property.

1. ***Landscaping for Non-Single Residence Uses adjacent to Single Residence Uses or Districts.***

a. *Width.*

i. Sites less than five (5) acres adjacent to an RS or RSL district, must provide a minimum 20-foot landscape yard.

ii. Sites five (5) acres or more adjacent to an RS or RSL district must provide a minimum 25-foot landscape yard.

b. *Ground Treatment.*

i. The entire landscape yard shall be either covered with decomposed granite, "desert varnish or cobble", desert tree mulch and/or turf or as approved.

ii. Landscape yards shall remain free from parking, driveways, and encroachment by any structures that are not part of the landscaping design.

c. *Number of Plants.*

1. *Screening.* Landscape yards not visible from public parking/drive aisles and adjacent to loading, service and unsightly areas shall have a minimum of five (5) non-deciduous trees per 100 linear feet of adjacent property line (1 tree per 20 linear feet) or shall have continuous tree canopy between 6 feet—20 feet in height at maturity, 50 percent canopy within five (5) years, 70 percent canopy within seven (7) years and 100 percent within 10 years.

ii. *Areas visible from public parking or drive aisles.* A minimum of four (4) non-deciduous trees and 20 shrubs per 100 linear feet of adjacent property line shall be provided.

iii. *Transition Areas.* A planted transition between visible areas and loading/service areas shall be provided.

d. *Size of Plants.* Required trees shall be at least 24-inch box size.

e. *Wall.* Refer to Section 11-30-9 (Screening) for standards regarding Screening design of exterior walls and equipment.

2. ***Landscaping for Non-Single Residence Uses Adjacent to Other Non-Single Residence uses or districts.***

a. *Width.*

i. *Group C-O-I Development.* Properties that are part of group commercial, office, industrial development, as defined in Chapter 87, must provide a seven (7) foot wide perimeter landscape yard except where a cross-access drive aisle occurs within the required landscape yard.

ii. *Non-Group C-O-I Development.* Properties that are not part of a Group C-O-I Development, as defined in Chapter 87, must provide a 15-foot landscape yard except where a cross-access drive aisle occurs within the required landscape yard.

b. *Ground Treatment.* The entire landscaped yard shall be either covered with decomposed granite, "desert varnish or cobble", desert tree mulch and/or turf as approved. Supplemental shrubs and ground covers including accents, flowers, and vines shall provide 50 percent vegetative ground coverage.

c. *Number of Plants.* A minimum of three (3) non-deciduous trees and 20 shrubs per 100 linear feet of adjacent property line shall be provided. In the event of fractional results, the resulting number will be rounded to the next highest whole number. Shrubbery and ground covers are not necessary if the area is not visible from public parking and drive aisles.

d. *Size of Plants.* A minimum of 50 percent of the required trees shall be at least 24-inch box size. The balance of the required trees shall be at least 15-gallon-size trees.

i. *Exception.* Trees within LI, GI and HI Districts may be 15-gallon-size throughout.

e. *Plant types.* In areas with no pedestrian activity, appropriate low water use desert trees shall be planted.

(Ord. No. 5544, § 15, 12-9-19; Ord. No. 5593, § 10, 12-1-20; Ord. No. 5814, § 6, 10-16-23; Ord. No. 5996, § 4, 3-9-26)

11-33-4: INTERIOR PARKING LOT LANDSCAPING

A. **Applicability.** The interior parking lot Landscaping standards of this section apply to all off-Street parking lots containing 10 or more parking spaces. They do not apply to vehicle/equipment storage lots or vehicle and equipment sales lots. In addition, refer to Chapter 32 for additional parking lot standards.

B. **Landscape Islands.**

1. Parking lot landscape islands shall be installed at each end of a row of stalls and in between for maximum 8 contiguous parking spaces.

2. Landscape islands shall be a minimum of eight feet wide and 15 feet in length for single-row and 30 feet in length for double-row parking. All measurements are to face of curb.

3. Radius curbing shall be provided along drive aisles with a minimum 4 foot radius.

4. For rows of more than 16 parking spaces, landscape islands shall be staggered.

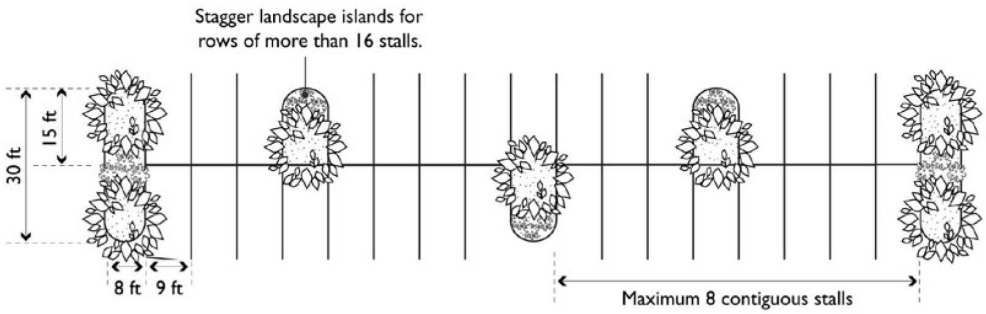

FIGURE 11-33-4.B.4: INTERIOR PARKING LOT LANDSCAPE ISLANDS

5. The maximum length of a covered parking canopy shall be 15 parking stalls in a row. Landscape islands may be eliminated when a conflict with the covered parking canopy occurs.

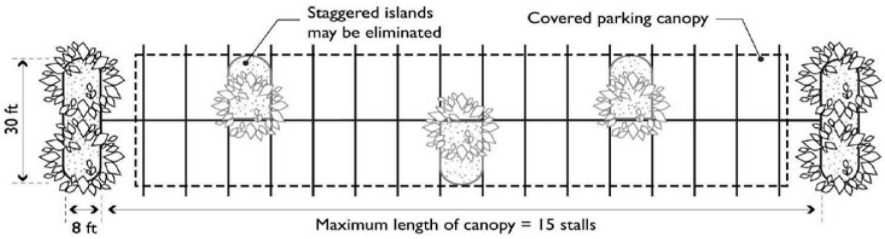

FIGURE 11-33-4.B.5: INTERIOR PARKING LOT COVERED PARKING CANOPY

6. When parking canopies are adjacent to each other in a single row, the total length of each canopy shall not exceed 15 parking stalls and the adjoining canopies shall be separated by at least a 24-foot-wide landscape island as depicted in the following illustration.

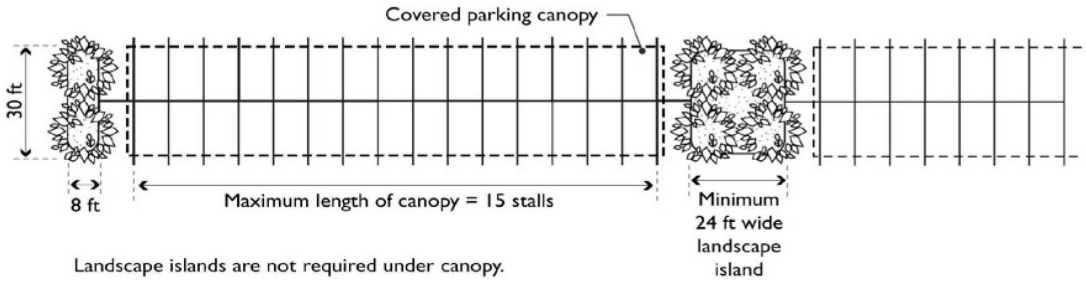

FIGURE 11-33-4.B.6: INTERIOR PARKING LOT COVERED PARKING CANOPY

7. For parking lots containing more than 200 spaces, one 8-foot-by-15-foot staggered landscape island may be replaced with 2 landscape islands of at least 25 square feet clear landscape area each. Each landscape island/ planter shall contain at least 1 tree and 3 shrubs. These landscape islands/ planters may be designed in any combination of shape and size provided the minimum clear landscape area dimension is 5 feet.

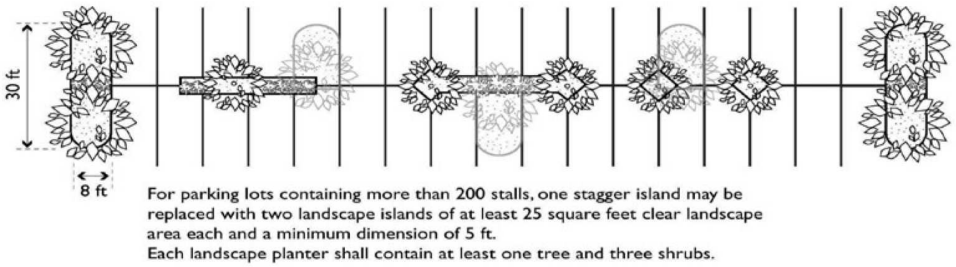

FIGURE 11-33-4.B.7: INTERIOR PARKING LOT LANDSCAPE ISLANDS

C. **Medians.** Where divider medians occur adjacent to head-in parking, allow for vehicle overhang and shall be as follows:

1. ***Single-Row Parking.*** Minimum 7-foot landscape area measured from face of curb to face of curb is required. The required median width does not include a Sidewalk.

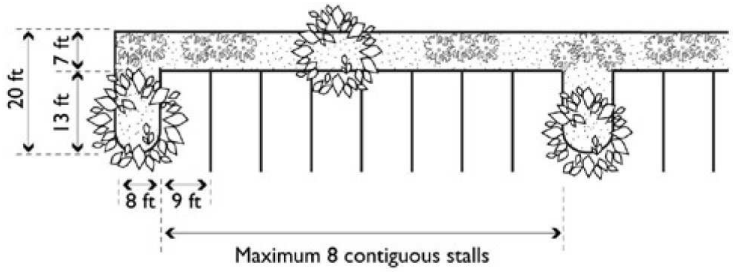

FIGURE 11-33-4.C.1: INTERIOR PARKING LOT LANDSCAPE ISLANDS

2. ***Double-Row Parking.*** Minimum 8-foot landscape area measured from face of curb to face of curb. Required median width does not include Sidewalk.

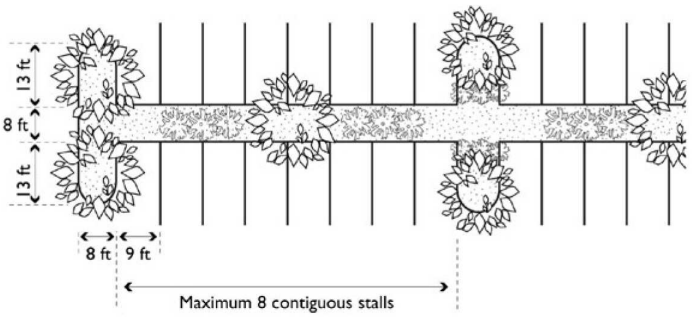

FIGURE 11-33-4.C.2: INTERIOR PARKING LOT MEDIAN DOUBLE ROW PARKING

3. ***Medians with Sidewalks.*** When a Sidewalk is located within median, shade trees should be placed so that at least 25 percent of the Sidewalk is shaded, at noon.

D. **Plant Materials.**

1. ***Number of Plants.***

a. Parking lot landscape islands. One shade tree and three shrubs shall be provided for every 15-foot parking island.

b. Parking lot divider medians. In addition to the above requirements, minimum 1 shade tree and 6 shrubs shall be provided for every 8 parking spaces.

2. ***Size of Plants.*** A minimum 10 percent of the required trees for parking lot interior Landscaping shall be 36-inch box. The balance of the required trees shall be at least 24-inch box. Substitution based on plant size is not permissible for trees planted within the interior of a parking lot.

3. ***Ground Treatment.*** All landscape planting areas that are not dedicated to trees or shrubs shall be decomposed granite and/or turf or as approved.

11-33-5: FOUNDATION BASE

All buildings shall provide a foundation base of plant materials such as trees, shrubs, ground covers, and/or accent plants and hardscape such as decorative pavement adjacent to the exterior walls. Pedestrian areas and building entrance plazas should be shaded with trees and shade structures.

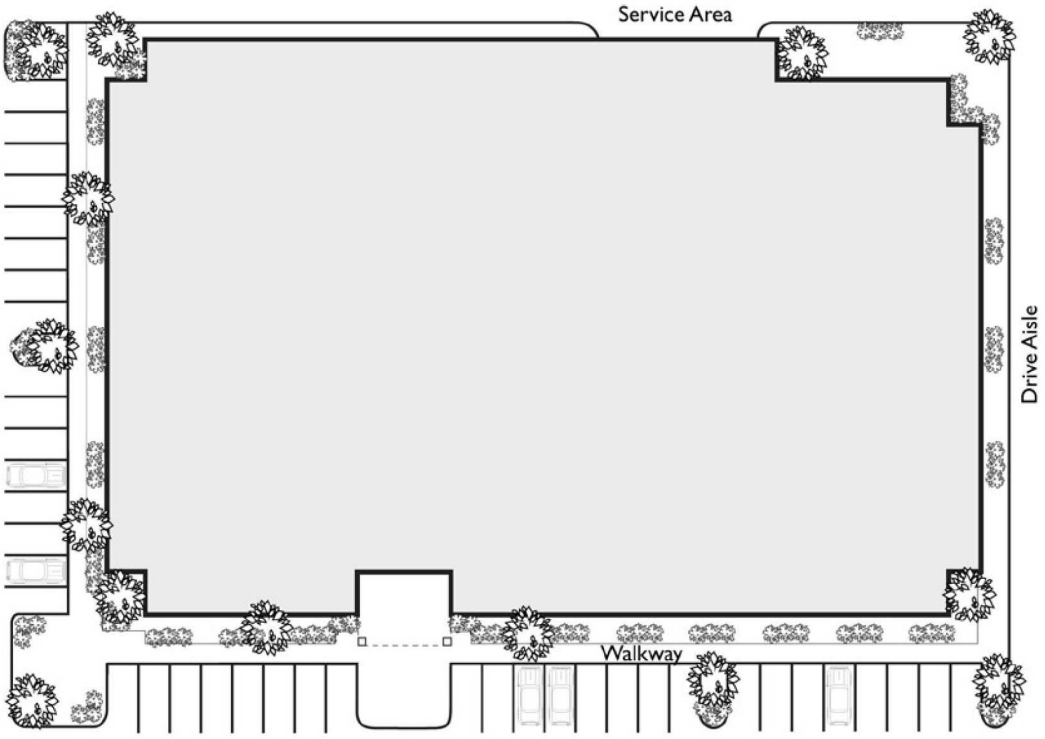

FIGURE 11-33-5: FOUNDATION BASE

A. **Foundation Base along Exterior Walls.**

1. ***Exterior Walls with a Public Entrance.*** A 12-foot-wide foundation base shall be provided, measured from face of building to face of curb along the entire length of the exterior wall. For Buildings with corner entries, both adjacent walls require a 12-foot-wide foundation base.

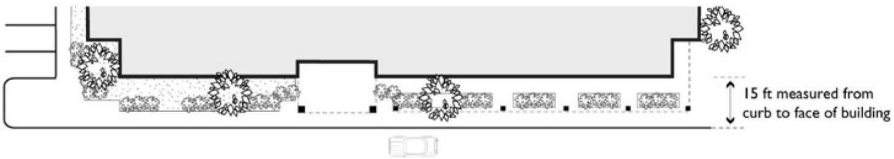

FIGURE 11-33-5.A.1: FOUNDATION BASE AT EXTERIOR WALL WITH PUBLIC ENTRANCE

a. For buildings larger than 10,000 square feet with parking spaces that abut the foundation base, additional foundation base width is required as follows:

i. *Typical Building Entrances.* An additional foundation base shall be provided at the entrance to create an entry plaza area. The plaza area shall have a minimum width and depth of 20 feet, and a minimum area of 900 square feet.

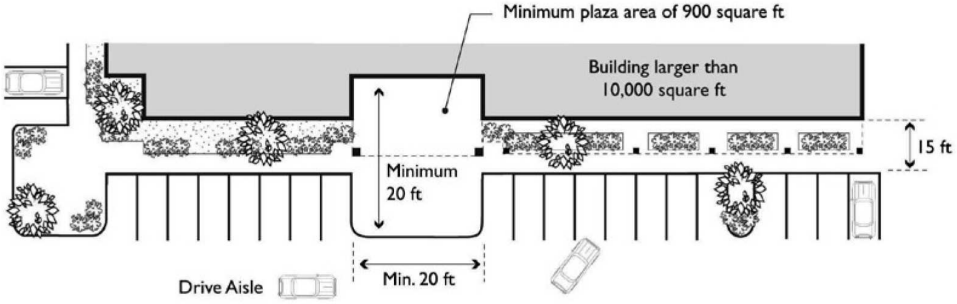

FIGURE 11-33-5.A.1.A: FOUNDATION BASE AT BUILDING ENTRANCE

ii. *Buildings with Corner Entrances.* A foundation base shall be provided to ensure an area equivalent to 900 square feet.

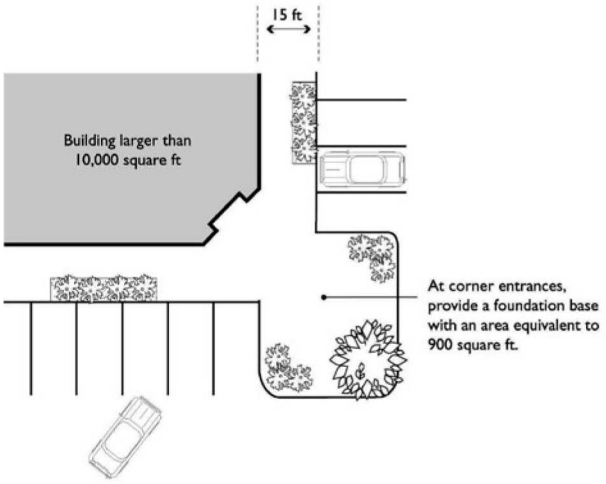

FIGURE 11-33-5.A.1.B: FOUNDATION BASE WITH CORNER ENTRANCE

b. *Medical Buildings Less Than 10,000 Square Feet.* A 13-foot-wide patient drop-off area shall be provided with at least one 5-foot-wide accessible Sidewalk.

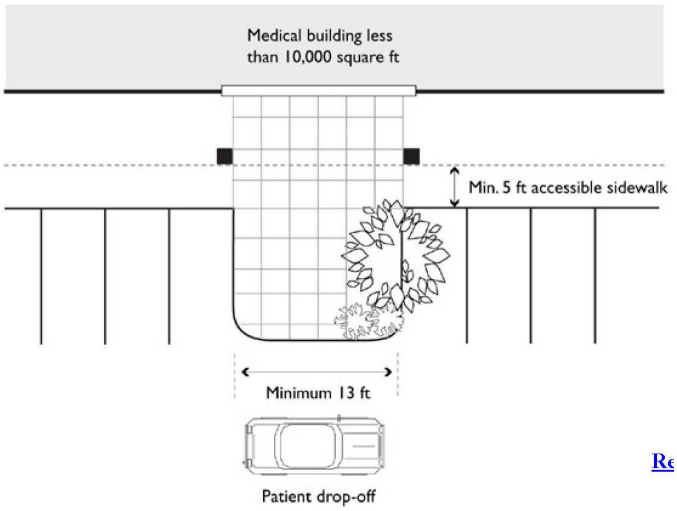

FIGURE 11-33-5.A.1.C: FOUNDATION BASE AT MEDICAL BUILDINGS

2. ***Exterior Walls without a Public Entrance.***

a. A minimum 10-foot-wide foundation base shall be provided, measured from face of building to face of curb along the entire length of the exterior wall adjacent to parking stalls.

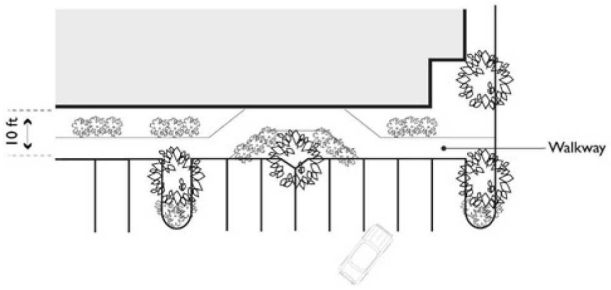

FIGURE 11-33-5.A.2.A: FOUNDATION BASE EXTERIOR WALL WITHOUT A PUBLIC ENTRANCE

b. A minimum 5-foot-wide foundation base shall be provided, measured from face of building to face of curb along the entire length of the exterior wall adjacent to drive aisles as illustrated.

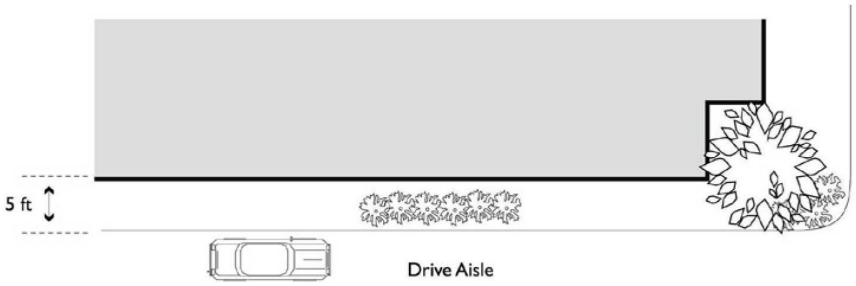

FIGURE 11-33-5.A.2.B: FOUNDATION BASE AT EXTERIOR WALL WITHOUT A PUBLIC ENTRANCE

3. ***Averaging Depth of Foundation Base.*** The designated depth of the foundation base may be less than the minimum required depth (as specified above), provided:

   a. That for each location in which the depth is less, a corresponding location along the same foundation base exceeds the minimum depth by the same amount; (for example, if 15 feet is the minimum required depth of a foundation base, the foundation base may be reduced to 10 feet at one (1) point provided that an equal portion of the same foundation base depth extends to 20 feet in depth) and;

   b. In all cases involving principally pedestrian access points into a building, the foundation base shall be no less than 5 feet in depth.

   c. The foundation base area remains equivalent to or more than the amount of foundation base area that would be provided if the edge of the foundation base remained parallel to the building elevation.

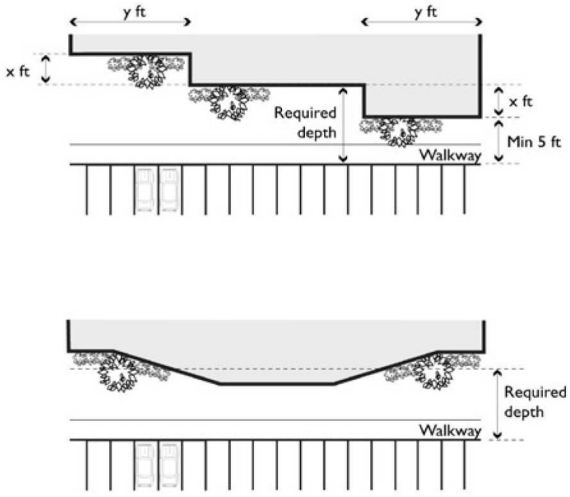

FIGURE 11-33-5.A.3: AVERAGING FOUNDATION BASE

B. **Landscape Area in Foundation Base.**

1. ***Number of Trees.*** A minimum one (1) tree per 50 linear feet or less of exterior wall length of a building shall be provided. Trees in a parking lot and within 30 feet of the building may be counted toward this requirement. Any calculation resulting in a percentage of a whole tree shall be rounded up to the nearest whole.

2. ***Size of Trees.*** A minimum 10 percent of the required trees in foundation base shall be at least 36-inch box size. The balance of the required trees shall be 24- inch box size. Substitution of landscape plants based on plant size is not permissible for trees planted within a required foundation base.

3. ***Plant Material within Foundation Base.***

   a. Exterior Walls Visible From Public Parking or Right-of-Way with Public Entrances. A landscape area shall be provided equal in length to 33 percent (minimum) of adjacent exterior wall.

   b. Exterior Walls Visible From Public Parking or Right-of-Way without Public Entrances. A landscape area shall be provided equal in length to 25 percent (minimum) of adjacent exterior wall.

   c. Exterior Walls Not Visible From Public Parking or Right-of-Way without Public Entrances. A landscape area shall be provided equal in length to 10% (minimum) of adjacent exterior wall.

4. Trees shall be in planters that are at least five (5) feet wide. other plant material shall be in planters that are at least three (3) feet wide.

5. If the foundation base contains expansive soils (as determined by a certified engineer) the plant material shall be placed away from the building.

C. **Setback for Raised Planter Boxes.** Raised planter boxes shall be 5 feet minimum from drive aisles and parking stalls.

D. **Setback for Columns in Foundation Base.** Columns shall be 5 feet minimum from drive aisles and parking stalls.

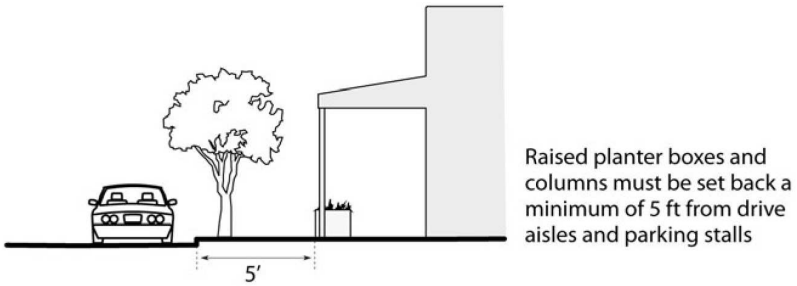

FIGURE 11-33-5.D: SETBACKS FOR RAISED PLANTER BOXES AND COLUMNS

E. **Exceptions.**

1. ***Loading and Service Areas.*** A foundation base is not required along exterior walls at overhead doors.

2. ***Foundation Base Adjacent to Drive-Thru Lanes.*** Provide 2-foot-wide foundation base along exterior wall, except at window.

(Ord. No. 5996, § 4, 3-9-26)

11-33-6: RETENTION BASINS

A. In both residential and nonresidential developments, the basin design shall be incorporated with the overall site plan by providing access, landscape, amenities.

B. Retention basin layout shall be irregular in shape, contoured and designed as an integral part of the Landscaping theme, and shall not take on the appearance of a ditch. The depth of water in retention basins shall not exceed 3 feet 6 inches.

C. A 3-foot transition area shall be provided where the retention basin side exceeds 6-to-1 slope measured horizontal to vertical and basin is adjacent to Right-Of-Way and Sidewalks. Transition area shall be less than 6-to-1 slope. A maximum 4-to-1 slope allowed in other locations.

D. Retaining walls shall not exceed 25 percent of the basin perimeter (measured at the high waterline). The maximum height of retaining walls is 18 inches.

E. Retention basins along public Streets that incorporate retaining walls shall utilize catch basins and pipes to collect and direct water to the bottom of the basins. Where retention basins occur along arterial Streets, berms shall be provided along 33 % of basin frontage. Berms are to be 4-to-1 (horizontal-to-vertical) maximum slope, 2 feet high. Within public Right-Of-Way maximum slope is 6 to 1. Berming shall not obstruct run-off from Streets into the retention basin.

F. Retention basin design shall provide consolidated basins. Multiple, small retention areas are not acceptable unless basins are interconnected and designed per the City of Mesa Engineering Manual.

G. Landscaping shall be provided in all areas of the retention basin (slope, top, and bottom).

11-33-7: ALTERNATIVE LANDSCAPE PLAN

An applicant who can demonstrate that the intent of this Chapter can be exceeded, in whole or in part, may submit an Alternative Landscape Plan (ALP) prepared in accordance with the following principles and design criteria. The ALP shall include a narrative that clearly details the modifications being requested and explains how they enhance the landscape design principles listed below.

A. **Design Principles.** In order to qualify for consideration, an ALP shall demonstrate compliance with at least 6 of the following principles:

1. ***Innovative Design.*** Innovative use of plant materials and design techniques in response to unique characteristics of the site.

2. ***Native Vegetation.*** Preservation or incorporation of existing native vegetation.

3. ***Plant Variety.*** Use of a variety of plant material, including plants of color, form, and texture, in excess of the minimum requirements.

4. ***Naturalistic Design.*** Incorporation of naturalistic design principles, such as variations in topography, meandering or curvilinear plantings, and grouping of dominant plant materials (trees, large shrubs) in a manner consistent with native vegetation. Bio-swales are encouraged adjacent to all paved areas.

5. ***Compatibility with Surrounding Uses.*** A greater degree of compatibility with surrounding uses than a standard landscape plan would offer. The number of trees required should depend on the type of tree planted, not some set number. There cannot be a trade off in the number of trees due to the size of the tree at initial planting because what is needed is the ultimate Screening.

6. ***Water Efficiency.*** Use of water-efficient irrigation systems, such as rain water harvesting that allows paved surfaces to drain to adjacent bio-swales and spread rain water more evenly throughout the site, and xeriscaping at appropriate locations.

7. ***Storm Water Management.*** Use of bio-swales with plant material and desert varnish clean storm water before it percolates into the ground.

8. ***Site-Specific Attributes.*** The design incorporates specific environmental attributes such as soil, hydrology, and vegetative communities unique to the site, and which are compatible with environmental features on adjacent properties. Additional design attributes may include incorporation of Landscaping selections for the consistency of the Streetscape in character areas.

9. ***Tree Substitution.*** Substitution resulting in fewer, larger, and more mature trees to replace the required numbers of smaller varieties when placed in perimeter areas at the inverse of the ratios stated in Table 11-33-3.A. (Example: One 60-inch box tree may substitute for four 15-gallon trees when approved by the Zoning Administrator through the use of an ALP.

10. ***Plant Viability and Longevity.*** The landscape plan takes into account the effect of plants on the surrounding activities over the lifetime of the land use, and attempts to promote the viability and long term maturation of plants. It does this by:

    a. Accounting for microclimates and the specific context of the plant's location in choosing of plant varieties.

    b. The use of advanced installation techniques, such a structured soils and Silva cells, to promote the permeability of air and water into the root zone of the plant, and to resist compaction of the soils.

    c. Accounting for the effects that plants may have on a site as the plants mature into adult forms, providing shade while limiting potential restrictions on visibility of the site from adjacent Streets; including consideration of visibility of signs, vehicle traffic sight angles, and the type and context of the specific land use.

11. ***Overhead Utility Line Easements.*** For those portions of sites impacted by the presence of overhead utility lines, the landscape plan:

    a. Uses plants from an approved list suggested by the Arizona Community Tree Council for placement near utility lines (a copy of which shall be kept on file in the Planning Division office), or

b. Makes other design considerations to meet the intent of the landscape requirements while reducing potential interference of mature plants limbs growing up into vertical space occupied by suspended utility cables.

B. **Allowable Modifications.** The following standards may be modified by an ALP:

1. ***General Requirements.***

a. Allowed percentage of palm tree and saguaro substitution.

b. Ground treatment materials.

c. Irrigation type and coverage.

d. Landscape buffer along undeveloped edges.

e. Right-of-way Landscaping and plant types.

2. ***Perimeter Landscaping.***

a. Minimum percent of vegetative ground coverage.

b. Minimum size of plant materials.

c. Substituting smaller trees with larger, more mature varieties.

3. ***Interior Parking Lot Landscaping.***

a. Length and width of required landscape islands.

b. Size and number of plants on landscaped islands.

4. ***Foundation Base.***

a. Width of foundation base.

b. Size of entry plaza area.

C. **Review, Approval and Required Findings.** An ALP shall be reviewed and evaluated as follows:

1. An application for an ALP may be submitted:

a. In conjunction with any request, including rezoning, Development Plan Review or modification, Council Use Permit, Special Use Permit, variance, or building permit applications.

b. As a separate application for Administrative Use Permit in accordance with Section 11-70-3, following approval of any processes mentioned in C.1.a, above.

2. An ALP may be approved upon finding that:

a. There are unique characteristics of the property, site design, or use that warrant special consideration to modify or deviate from the requirements of this Section and that these characteristics are not self-created.

b. The ALP meets or exceeds the minimum requirements of this section, while recognizing the unusual site design or use restraints on the property.

c. Approval of an ALP will provide for both increased consistency and compatibility with adjacent properties.

d. The ALP conforms to the allowable modifications listed in subsection B, above, and no exceptions to the limitations on the standards that may be modified are requested.

(Ord. No. 5996, § 4, 3-9-26)

CHAPTER 34 MANUFACTURED HOME/RECREATIONAL VEHICLE REGULATIONS

11-34-1: PURPOSE AND INTENT

A. **Purpose.** This Chapter is to provide for Manufactured Home and Recreational Vehicle Parks and Subdivisions which are suitably developed for the placement and occupancy of Manufactured Homes or Recreational Vehicles for residential purposes on rented, leased, or owned spaces with the necessary Accessory Uses and amenities.

B. **Intent.** These regulations are intended to enable the development of unique, well-planned projects incorporating a variety of manufactured and vehicle-based housing for permanent or seasonal occupancy. It is also the intent of this Chapter to provide adequate regulations to preserve the residential character of the development and to prohibit inappropriate and incompatible land uses.

11-34-2: PERMITTED USES

A. **Permitted Uses in Recreational Vehicle Parks and Subdivisions:**

1. ***Recreational Vehicle Parks.***

   a. One (1) Recreational Vehicle or one (1) Recreational Vehicle Park Model is permitted on each approved space.

   b. Manufactured Homes and Dwelling Units of conventional construction are prohibited, except as permitted for Recreational Vehicle accessory structures per Section 11-34-2(12).

2. ***Recreational Vehicle Subdivisions.***

   a. One (1) Recreational Vehicle or one (1) Recreational Vehicle Park Model is permitted on each approved lot; or

   b. One (1) Dwelling Unit of conventional construction is permitted on each approved lot, subject to the following:

      i. Compliance with Title 4, Building Regulations;

      ii. Compliance with Title 9, Chapter 6, Subdivision Regulations; and

      iii. Compliance with the required yard setbacks outlined in Section 11-34-3, unless modified with a Planned Area Development Overlay.

   c. Accessory Dwelling Units shall be permitted in accordance with Section 11-31-3: Accessory Dwelling Unit.

   d. Manufactured Homes are prohibited, except as permitted per Section 11-34-2(A)(12).

3. Recreational Vehicle Accessory Structures, as defined in Chapter 87, Definitions are permitted if the accessory structure:

   a. Is no more than one (1) story;

b. Is no greater in size than 100% of the floor area of the Recreational Vehicle or Recreational Vehicle Park Model;

c. Is removed within 60 days of removal of the Recreational Vehicle or Recreational Vehicle Park Model;

d. Conforms to Title 4, Building Regulations; and

e. Conforms to all other applicable development standards, including required yard setbacks and parking requirements.

4. Storage Buildings. Storage Buildings, attached or detached, subject to:

a. A maximum area of 120 square feet;

b. A maximum height that shall not exceed the height of the Recreational Vehicle or Recreational Vehicle Park Model; and

c. Is located within the buildable area unless placed in the rear quarter of the space or lot and separated from the Recreational Vehicle or Recreational Vehicle Park Model by at least six (6) feet.

5. Manager's office and residence, which may be of conventional construction.

6. Recreation and social centers, which may be used for dancing, crafts, hobbies, games, childcare, meetings, banquets, theatrical performances, movie viewing, and similar entertainment uses which are intended and used primarily as a resident amenity. Such facility may be of conventional construction.

7. Outdoor recreation facilities such as parks, swimming pools, ramadas, playground equipment, shuffleboard and tennis courts, putting greens, and similar recreational uses intended for use by the residents of the park or Subdivision.

8. Common-use laundry facilities, maintenance buildings, and security guard houses, which may be of conventional construction.

9. Designated areas for boat and Recreational Vehicle or Recreational Vehicle Park Model storage which are used solely by the residents of the park or Subdivision.

10. Recreation center parking lots and guest parking areas.

11. Accessory Retail Activities, as defined in Chapter 87, Definitions provided:

a. All proprietors and vendors shall possess valid business licenses and permits as required by the Mesa City Code; and

b. All signs, flyers, and advertising that describe or relate to accessory retail activities shall not be visible from beyond the boundaries of the Recreational Vehicle Park or Subdivision; and

c. Such activities shall not exceed more than one (1) every seven (7) days; and

d. Each separate activity shall not exceed more than four (4) consecutive hours.

12. Manufactured Homes allowed with Special Use Permit.

a. Manufactured Homes may be used only in the RM-2-PAD, RM-4, and RM-4-PAD Zoning Districts subject to the approval of a Special Use Permit, in accordance with the provisions contained in Chapter 70, provided the area of the RV Park or RV Subdivision is 10 acres or greater.

b. The minimum area may include an abutting Manufactured Home Park or Subdivision which shares common development improvements, such as reciprocal access, circulation lanes, and recreation areas.

c. The Special Use Permit shall only be approved upon a finding that the Recreational Vehicle Park or Subdivision is in substantial compliance with all of the following:

i. The minimum area and minimum width of lots or spaces for Recreational Vehicle Park or Subdivision, as applicable; and

ii. The minimum setbacks, and parking for Recreational Vehicle Parks or Subdivisions, as applicable; and

iii. A minimum ratio of 100 square feet of open space or recreation area for each lot or space. Designated open space or recreation area in excess of the minimum required for an abutting Manufactured Home Park or Subdivision used to meet the minimum area requirement above may be included to satisfy the open or recreation space requirement. In the event that insufficient open space or recreation area exists upon initial approval, a phasing plan may be submitted and approved that will provide, over the course of time, the minimum open space or recreation area needed to comply with the specified ratio. Such a phasing plan shall show installation of all required additional open space or recreation area before installation of a Manufactured Home within the Recreational Vehicle Park or Subdivision that exceeds a threshold level of 66% of the lots or spaces within the Recreational Vehicle Park or Subdivision that contains Manufactured Homes; and

iv. Perimeter Landscaping and perimeter Screening walls.

d. The development requirements pertaining to the park or Subdivision contained in this Subsection may be modified through approval of the Special Use Permit, provided the modifications will substantially comply with the intent of these provisions, as evidenced by lot or space size, lot or space area, or open space and recreation areas in excess of the minimum required. Such modification may not exceed a deviation of more than 10% below the required minimum. In no instance, shall the minimum separation between units be less than six (6) feet.

e. A Manufactured Home Accessory Structure, as defined in Chapter 87, is permitted when a Special Use Permit for a Manufactured Home is approved provided that it is developed in accordance with the development standards for a Manufactured Home Accessory Structure.

B. **Permitted Uses in Manufactured Home Parks:**

1. One (1) Manufactured Home is permitted on each approved space.

2. Dwelling units of conventional construction are prohibited.

3. Manufactured Home Accessory Structures as defined in Chapter 87, Definitions, are permitted if the accessory structure:

   a. Is no more than one (1) Story;

   b. Is directly accessible through an internal opening to the Manufactured Home;

   c. Is no greater in size than 100% of the floor area of the Manufactured Home;

   d. Is removed within 60 days of removal of the Manufactured Home; and

   e. Conforms to Title 4, Building Regulations; and

   f. Conforms to all other applicable development standards, including setbacks and parking requirements.

4. Storage Buildings. Storage Buildings, attached or detached, are subject to:

   a. A maximum area of 150 square feet;

   b. A maximum height of 10 feet;

   c. Location within the buildable area unless placed in the rear quarter of the space and separated from the Manufactured Home by at least six (6) feet.

5. Manager's office and residence, which may be of conventional construction.

6. Recreation and social centers, which may be used for dancing, crafts, hobbies, games, childcare, meetings, banquets, theatrical performances, movie viewing, and similar entertainment uses which are intended and used primarily as a resident amenity. Such facility may be of conventional construction.

7. Outdoor recreation facilities such as parks, swimming pools, ramadas, playground equipment, shuffleboard and tennis courts, putting greens, and similar recreational uses intended for use by the residents of the park.

8. Common-use laundry facilities, maintenance buildings, and security guard houses, which may be of conventional construction.

9. Designated areas for boat and Recreational Vehicle storage which are used solely by the residents of the park.

10. Recreation center parking lots and guest parking areas.

11. Accessory Retail Activities, provided:

   a. All proprietors and vendors shall possess valid business licenses and permits as required by the Mesa City Code; and

   b. All signs, flyers, and advertising that describe or relate to accessory retail activities shall not be visible from beyond the boundaries of the Manufactured Home Park; and

   c. Such activities shall not exceed more than one every seven (7) days; and

   d. Each separate activity shall not exceed more than four (4) consecutive hours.

C. **Permitted Uses in Manufactured Home Subdivisions:**

1. One (1) Manufactured Home is permitted on each approved lot; or
2. One (1) Dwelling Unit of conventional construction is permitted on each approved lot, subject to the following:
    a. Compliance with Title 4, Building Regulations;
    b. Compliance with Title 9, Chapter 6, Subdivision Regulations; and
    c. Compliance with the required yard setbacks outlined in Section 11-34-3, unless modified with a Planned Area Development Overlay.
3. Accessory Dwelling Units shall be permitted in accordance with Section 11-31-3: Accessory Dwelling Unit.
4. No Recreational Vehicle or Recreational Vehicle Park Model shall be permitted on a Manufactured Home lot for living purposes.
5. Manufactured Home Accessory Structures as defined in Chapter 87, Definitions, are permitted if the Accessory Structure:
    a. Is no more than one (1) story;
    b. Is no greater in size than 100% of the floor area of the Manufactured Home;
    c. Is removed within 60 days of removal of the Manufactured Home;
    d. Conforms to Title 4, Building Regulations; and
    e. Conforms to all other applicable development standards, including setbacks and parking requirements.
6. Detached Accessory Buildings in accordance with Section 11-30-17: Detached Accessory Buildings.
7. Recreation and social centers, which may be used for dancing, crafts, hobbies, games, childcare, meetings, banquets, theatrical performances, movie viewing, and similar entertainment uses which are intended and used primarily as a resident amenity. Such facility may be of conventional construction.
8. Outdoor recreation facilities such as parks, swimming pools, ramadas, playground equipment, shuffleboard and tennis courts, putting greens, and similar recreational uses intended for use by the residents of the Subdivision.
9. Common-use laundry facilities, maintenance buildings, and security guard houses, which may be of conventional construction.
10. Designated areas for boat and Recreational Vehicle storage which are used solely by the residents of the Subdivision.
11. Recreation center parking lots and guest parking areas.

(Res. No. 12269, § 16, 9-23-24; Ord. No. 5883, § 3, 10-7-24; Ord. No. 5943, § 1, 6-2-25; Ord. No. 5996, § 4, 3-9-26)

11-34-3: ZONING, AREA, DENSITY, YARD, RECREATIONAL, AND PARKING REGULATIONS

Table 11-34-3, below, specifies the required zoning, minimum area, maximum densities, minimum yard setback, minimum recreational area, and minimum parking regulation for all parks and Subdivisions.

TABLE 11-34-3: DEVELOPMENT STANDARDS FOR RV AND MANUFACTURED HOME PARKS AND SUBDIVISIONS

Standard	Type of Development				
	Recreational Vehicle Park	Recreational Vehicle Subdivision	Manufactured Home Park	Manufactured Home Subdivision	
Required Zoning	RM-4	RM-4-PAD RM-4-PAD	RM-4, RSL	RS-6 - PAD	
Alternative Zoning for Infill Sites	—	—	—	ID-1, ID-2 (8)	
Minimum Area	10 Acres	10 Acres	10 Acres	10 Acres (8)	
Maximum Density (3)	22 spaces per net acre	15 spaces per net acre	10 spaces per net acre	7.26 spaces per net acre	
Maximum Lot Coverage	—	80%	—	80%	
Maximum Height-Conventional Construction	N/A	1 Story	N/A	1 Story	
Minimum Space/Lot Size					
Area Sq. Ft.	1,200	1,750 (2,000 avg.)	3,000	6,000	
Width (ft)	34 (7)	35	40	60	
Depth (ft)	40	50	60	94	
Required Yard Setbacks (5)					
Front (ft)	5	7	5	Front (Enclosed Livable Areas. Porches/Porte Cocheres)	10
				Garages/Carports - front and Side Yards	20 from the entry of carport/Garage.
Side Min./Total (ft.)	3/6	5/10	5/10	5/15 (2)	
Rear (ft)	3	5	10	15

Minimum Recreation Area (sq. ft.) (4)	75 per RV Space	150 per RV Lot	100 per M. H. Space	150 per M.H. Lot	
Minimum Paved Parking (1)	1 per RV Space	1 per RV Lot	2 per M. H. Space	2 per M. H. Lot	
Minimum Visitor Parking	1 per 10 RV Spaces	1 per 10 RV Lots	1 per 5 M. H. Spaces	1 per 5 M. H. Lots	

Table 11-34-3 Footnotes

1. Minimum space size 9' x 18': may be tandem but may not be located in the required Front Yard Setback.
2. Minimum of 10' on one side for vehicle access and/or l 0' on Street side of Corner Lot or space.
3. Net acre means after deduction of existing and/or proposed Rights-Of-Way.
4. Public or private Streets, Vehicle Storage areas and exterior boundary Landscaping shall not be located in this area.
5. Required yard setbacks are measured from any portion of the unit or accessory structures to the space lease line or Lot Line.
6. Setbacks are measured from required screen walls.
7. Minimum width of 28' for spaces not designated for park trailers or Manufactured Homes.
8. Manufactured Home Subdivisions may be approved for use as part of an infill site when approved in conjunction with an ID-1 or ID-2 Zoning District, as per Chapter 12 of this Title. When the ID-1 or ID-2 zoning is used to authorize a Manufactured Home Subdivision, the project site may be less than 10 acres.

(Ord. No. 5943, §§ 2, 3, 6-2-25; Ord. No. 5996, § 4, 3-9-26)

11-34-4: DEVELOPMENT REQUIREMENTS

A. **Requirements for Recreational Vehicle Parks and Subdivisions.**

1. A minimum of 5% of the required recreational area shall be enclosed within a recreation hall or building. Public or private Streets, Vehicle Storage areas, and exterior boundary Landscaping areas shall not be included when calculating required recreational area.

2. Landscaping shall be provided in accordance with the default landscape requirements of Chapter 33, Landscaping, for a project located in a RM, Multiple Residence District.

3. A 6 foot high masonry screen wall shall be required along all park and Subdivision boundaries. Such wall shall be placed on the interior side of the required landscape strip.

4. Access to lots or spaces shall be from the interior of the park or Subdivision.

5. Private Streets shall be paved to a minimum width of 28 feet including required Sidewalks when flush with the surface of the paving.

6. Concrete Sidewalks at least 2 feet in width shall be provided on each side of interior private Streets.

7. Required parking spaces shall be paved with either 2 inches of asphalt or 4 inches of concrete.

B. **Requirements for Manufactured Home Parks and Subdivisions.**

1. All room additions shall be structurally independent of the Manufactured Home itself but may be attached to the Manufactured Home by weather stripping.

2. Landscaping on the perimeter of the site shall be provided in accordance with the default landscape requirements of Chapter 6, Commercial and Mixed Use Districts, and Chapter 33, Landscaping, for a project located in a RM, Multiple Residence District, unless a different character designator is approved by City Council for the site.

3. A 6 foot high masonry screen wall shall be required along all park and Subdivision boundaries. Such wall shall be placed on the interior side of the required landscape strip.

4. Access to lots or spaces shall be from the interior of the park or Subdivision.

5. Private Streets shall be paved to a minimum width of 32 feet including required Sidewalks when flush with the surface of the paving.

6. Concrete Sidewalks at least 2 feet in width shall be provided on each side of interior private Streets.

7. Required parking spaces shall be paved with either 2 inches of asphalt or 4 inches of concrete.

C. **Additional Requirements for Manufactured Home Parks.** A minimum of 10% of the required recreational area shall be enclosed within a recreation hall or building. Public or private Streets, Vehicle Storage areas, and exterior boundary Landscaping areas shall not be included when calculating required recreational area.

(Ord. No. 5996, § 4, 3-9-26)

11-34-5: GENERAL PROVISIONS

A. **Locations Outside of Parks and Subdivisions.**

1. Permitted uses for Manufactured Homes or Recreational Vehicles outside of a park or subdivision are limited to the following:

a. As a sales office for Manufactured Home or Recreational Vehicle sales.

b. With approval of a Special Use Permit pursuant to Chapter 70 - Conditional Use Permits, as quarters for a night watchman or caretaker, provided no person other than the night watchman or caretaker shall occupy the unit.

c. As a construction field office for use by contractors while a permanent building is under construction.

d. As a temporary place of business for the owner or lessee during the course of construction of a new building on the site, or during remodeling of an existing building or tenant space.

e. As a temporary sales office for the sale of homes in a conventional subdivision.

f. As staff residences for Comprehensive Youth Residences as defined by Chapter 87, Definitions, limited to Manufactured Homes only, and subject to the approval of a Special Use Permit in accordance with Section 11-31-39, Comprehensive Youth Residence, and Chapter 70 Conditional Use Permits.

2. Prior to the use of a Manufactured Home or Recreational Vehicle for Items 1.c, 1.d, and 1.e (above) enumerated in this Section, an Administrative Use Permit shall be obtained, and the Administrative Use Permit shall be nontransferable from one owner or lessee to another.

a. Except Item 1.d (above), the Administrative Use Permit shall expire on December 31 of each year, unless earlier revoked.

b. An Administrative Use Permit issued for Item 1.d (above) shall be valid for the duration that a building permit associated with the construction activity remains active. In the event that no building permit is required, then the Administrative Use Permit shall remain valid for a maximum of six (6) months, and may be renewed once if the applicant can demonstrate to the Zoning Administrator that the remodeling activity remains on-going and active.

c. In no case shall an Administrative Use Permit issued for a purpose listed in this Section be transferred from one (1) owner or lessee to another.

B. **Temporary Parking.** Manufactured homes and Recreational Vehicles shall not be parked, stored, or occupied on any property which is not part of an approved Manufactured Home or Recreational Vehicle Park, Subdivision, sales, or storage lot or approved under this Chapter. Temporary Parking of a Manufactured Home or Recreational Vehicle outside of an approved Manufactured Home Park, Manufactured Home Subdivision, Recreational Vehicle Park or Recreational Vehicle Subdivision is limited to the following:

1. Emergency parking of a Manufactured Home, Recreational Vehicle, or Recreational Vehicle Park Model for a period of no longer than one (1) hour is permitted on any public thoroughfare subject to the provisions of the parking and traffic regulations of the City of Mesa.

2. The temporary parking of a Recreational Vehicle on a public Street in a residential area for the purposes of loading, unloading, or cleaning for a period of time not to exceed 48 hours shall also be permitted subject to the parking and traffic regulations of the City of Mesa and provided the vehicle is not parked so as to create a traffic hazard or obstruct traffic visibility.

3. On-site parking or storage of a Recreational Vehicle in accordance with the following, provided such Recreational Vehicle is not used for living quarters or commercial purposes:

   a. Within an enclosed Accessory Building or Garage in all zoning districts.

   b. Where Outdoor Storage is otherwise allowed in the Commercial and Industrial Districts.

   c. On residential lots containing less than 5 Dwelling Units:

      i. For Lots of a minimum 15,000 sq. ft. or greater, anywhere within the buildable area behind the front line of the Dwelling Unit; or anywhere within the Rear Yard; or in the Side Yard behind the front line of the Dwelling Unit provided such Recreational Vehicle does not exceed 40-ft. in length exclusive of tongue.

      ii. For Lots less than a minimum 15,000 sq. ft. or greater, anywhere within the buildable area behind the front line of the Dwelling Unit; or anywhere within the Rear Yard; or in the Side Yard behind the front line of the Dwelling Unit provided such Recreational Vehicle does not exceed 30 ft. in length exclusive of tongue.

      iii. A Recreational Vehicle parked in the Side Yard which exceeds 6 feet in height as measured from grade and is visible from a public Street shall be screened from such public Street by a 6 ft. high opaque fence.

   d. On residential lots containing 5 or more Dwelling Units: only on an approved parking space; or within an approved, designated storage area.

4. The temporary parking of a Recreational Vehicle in the Front Yard on a residential lot for the purposes of loading, unloading, or cleaning shall be permitted for a period of time not to exceed 72 hours provided the Recreational Vehicle is not used for living quarters or business purposes. While temporarily located as provided herein, the Recreational Vehicle shall not be parked so as to obstruct traffic visibility.

C. **Conversion.** The conversion of an existing Manufactured Home or Recreational Vehicle Park to another residential use shall be subject to approval set forth in the amendment requirements established in Chapter 67 Common Procedures. When an existing Manufactured Home or Recreational Vehicle Park is converted to another residential use, the area so converted shall be zoned to limit the number of Dwelling Units per area that can be constructed thereon to a density compatible with existing residential development in the surrounding area.

D. **Permits.**

1. It shall be unlawful for any person to install a Manufactured Home, park trailer, Recreational Vehicle awning, Recreational Vehicle patio enclosure, Manufactured Home room addition, or any electrical, plumbing, or mechanical component without first obtaining a permit or permits from the Building Official or his designee as specified in Mesa Administrative Code, Title 4, Chapter 1 of the Mesa City Code.

2. No person shall install any park trailer or Recreational Vehicle awning or construct any Recreational Vehicle patio enclosure without approval of the property owner, the owner's agent, or other authorized representative.

(Ord. No. 5943, § 4, 6-2-25; Ord. No. 5996, § 3, 3-9-26)

CHAPTER 35 ANTENNAS AND WIRELESS COMMUNICATIONS FACILITIES

11-35-1: PURPOSE

The purpose of this Chapter is to provide a comprehensive set of requirements and standards for the development, siting, installation, and operation of wireless communications Antennas and related facilities. These regulations are intended to protect and promote public safety, community welfare, and the aesthetic quality of the city consistent with the goals, objectives, and policies of the General Plan while providing for managed development of wireless telecommunications infrastructure, consistent with the Federal Telecommunications Act of 1996 and related requirements in State law. The specific objectives of this Chapter are to:

A. Establish regulations and guidelines for the governance of Wireless Telecommunications Facilities that recognize the unique land use distribution, topography, and aesthetics of the community while preserving the rights of wireless telecommunications providers;

B. Protect residential areas and land uses from visual blight, safety impacts associated with attractive nuisance, and degradation of residential character;

C. Promote the location of Towers in non-residential areas and minimize the total number of Towers throughout the community;

D. Establish the joint use of new and existing Tower sites as a primary option instead of construction of single-use Towers;

E. Locate Towers and Antennas in areas where the overall impact on the community is minimal, now and in the future; to configure them in a way that minimizes the adverse visual impact of the Towers and Antennas through careful aesthetic design, siting, landscape Screening, and innovative camouflaging techniques;

F. Enhance the ability of providers of wireless telecommunications services to construct necessary infrastructure to provide such services to the community quickly, effectively and efficiently;

G. Avoid potential damage to adjacent properties from Tower failure through careful siting of Tower structures;

H. Create and preserve telecommunication facilities that will serve as an important and effective part of the City's emergency response network;

I. Promote fair and effective wireless communication services and ensure that a broad range of competitive wireless services with high quality telecommunications infrastructure are available to serve the community; and,

J. Establish preferred locations and design preferences for the siting of telecommunications infrastructure.

11-35-2: APPLICABILITY; EXCEPTIONS

The regulations in this Chapter apply to all antennas and wireless communications facilities on property, other than the public right-of-way, with the following exceptions:

A. **Amateur Radio Antennas.** Amateur radio antennas that do not exceed 75 feet in height when fully extended, are owned and operated by a federally-licensed amateur radio station operator who resides on the same property, and comply with the following requirements:

1. Not located in the area between the front of a building and the front lot line or side street lot line or any required parking or loading area;

2. Not exceeding a height of 10 feet within in a required side setback or required rear setback, or in any parking or loading area; and,

3. Not more than one (1) antenna structure on a lot may exceed a height of 30 feet.

B. **Broadcast Antennas.** Direct broadcast, one-way multipoint distribution services, and television broadcast antennas that are one (1) meter (39 inches) or less in diameter or diagonal measurement and are not located in the area between the front of a building and the front lot line, in a required side setback or required rear setback, or in any parking or loading area; and do not extend above the maximum permitted height of the zoning district.

C. **Receive-only Antennas for Residential Uses in Any District and Non-Residential Uses in Residential Districts.** A single ground or building-mounted receive-only radio or television antenna that does not exceed the maximum height permitted in the district where it is located and is for the sole use of a resident who resides on the same property, including any mast, or a receive-only radio or television satellite dish antenna, subject to the following restrictions:

1. ***Satellite Dish One (1) Meter or Less.*** A satellite dish one (1) meter or less in diameter is allowed if it is not located in a required front setback or any other setback abutting a street and is not closer to the front lot line than the front line of the primary dwelling or other principal building subject to the following requirements, unless the Zoning Administrator approves an exception as provided for in Chapter 66:

a. Maximum height of 10 feet within a required side or rear setback;

b. Maximum height of 75 feet within the buildable area of the lot; and,

c. Not more than one (1) such structure per lot shall exceed a height of 30 feet.

2. ***Satellite Dish Greater than One (1) Meter.*** A satellite dish greater than one (1) meter in diameter is allowed if it is not located within a required front setback or side setback abutting a street, and is screened from view from any public right-of-way and adjoining property.

D. **Receive-only Antennas Non-Residential Districts.** A single ground or building-mounted receive-only radio or television antenna that does not exceed the maximum height permitted in the district where it is located

and is for the sole use of a legally established business or other non-residential occupant of the same property, including any mast, or a receive-only radio or television satellite dish antenna, subject to the following restrictions:

1. ***Satellite Dish Two (2) Meters or Less.*** A satellite dish that does not exceed two (2) meters in diameter is permitted anywhere on a lot in a Mixed Use, Commercial or Industrial District so long as the location does not reduce required parking, diminish pedestrian or vehicular access, or require removal of landscaping maintained as a condition of project approval. If more than one (1) satellite dish of two (2) meters or less is used for the same tenant, the dishes shall be screened from public view by a parapet or screening wall.

2. ***Satellite Dish Greater than Two (2) Meters.*** A satellite dish greater than two (2) meters in diameter is permitted provided that it is not located within a required front setback or side setback abutting a street and is screened from view from any public right-of-way and adjoining property.

E. **Pre-existing Towers.** Any Tower or antenna for which a permit has been properly issued that was lawfully erected prior to the effective date of this Ordinance shall not be required to meet the requirements of this Ordinance unless there has been a cessation of operations for 6 months. These Towers and Antennas shall be referred to in this Ordinance as "pre-existing" Towers or Antennas and are allowed to continue as they presently exist, but will be considered lawful nonconforming legal uses subject to the Chapter 36, Non-Conforming Uses, Structures, and Lots. Maintenance, reasonable repairs and alterations to existing Towers and Antennas are permitted if they do not enlarge or extend the Tower structure or equipment enclosures or change the number, type, dimensions, power rating, or frequency range of the antenna or Antennas. New facilities and all other alterations, modifications, and additions shall comply with the requirements of this Chapter.

F. **Exemptions.**

1. Any antenna or wireless communications facility that has been established pursuant to a permit issued by the Federal Communications Commission (FCC) when such permit or the FCC rules and regulations specifically provide that the antenna or facility is exempt from local regulation.

2. Any wireless communications facility or Antenna Structure that is designed and used exclusively for public safety purposes.

(Ord. No. 5996, § 4, 3-9-26)

11-35-3: GENERAL REQUIREMENTS

A. **Federal or State Requirements.** All Towers and Antennas must meet or exceed current standards and regulations of the FCC, the Federal Aviation Administration (FAA), and any other agency of the State or Federal government with the authority to regulate Towers and Antennas. If such standards and regulations are changed, then the owners of the Towers and Antennas governed by this Chapter shall bring such Towers and Antennas into compliance with such revised standards and regulations within 6 months of the effective date of such standards and regulations, unless a different compliance schedule is mandated by the controlling State or Federal agency. Failure to bring Towers and Antennas into compliance with such revised standards and regulations shall constitute grounds for the removal of the Tower or antenna at the owner's expense.

B. **Building Codes and Safety Standards.** To ensure the structural integrity of Towers, the owner of a Tower shall ensure that it is maintained in compliance with standards contained in applicable State or local building codes and the applicable standards for Towers that are published by the Electronic Industries Association, as amended from time to time.

11-35-4: APPLICATION REQUIREMENTS

In addition to meeting the standard application submittal requirements for zoning clearances specified in Chapter 68, Zoning Clearance, or for Special Use Permit specified in Chapter 67, Common Procedures, and Chapter 70, Conditional Use Permits, applications for wireless communications facilities shall include the following:

A. **Pre-application Meeting Required.** A pre-application conference with the City Zoning Administrator, or their designees, is required prior to submittal of an application for wireless telecommunications facility, or proposed modifications to existing facilities. A minimum of one week before the meeting, the applicant shall provide a description of the location of the facility, a conceptual summary of the project, and a draft sketch of the site plan and elevation of the project. At the pre-application meeting, the Zoning Administrator or designee shall provide a list of submittal requirements for that project, based on the requirements of this Ordinance, the land use activities occurring at this site and in the immediate proximity of the site, suggestions for increasing the compatibility of the facility with the existing or planned activities taking place on surrounding properties, and increasing the aesthetic quality of the facility

B. **Map and Inventory of Existing Sites.** Each applicant for an antenna or Antenna Structure shall provide to the Planning Division an inventory of the service provider's existing facilities that are either within the jurisdiction of the City or within one-quarter mile of the City's border, including a map showing the location of the provider's existing facilities that serve customers in Mesa and adjacent areas and the specific site that is the subject of the application. The inventory shall provide specific information about the location, height, power rating, frequency range, and design of each facility or Tower structure. The Planning Division may share such information with other applicants applying for administrative approvals or use permits under this Chapter or other organizations seeking to locate Antennas within the jurisdiction of the City; provided, however, that the Planning Division is not, by sharing such information, in any way representing or warranting that such sites are available or suitable.

C. **Description of Proposed Facility.** Each applicant shall provide:

1. A site plan, plans, and elevations drawn to scale that identify all Antennas by type (e.g. microcell; ground- building- or roof-mounted, etc.) and all related equipment. Elevations shall include all structures or locations on which facilities are proposed to be located.

2. A description of the proposed approach for Screening or camouflaging all facilities from public view including plans for installation and maintenance of Landscaping, sample exterior materials and colors, and an explanation of the measures by which the proposed facility will be camouflaged or rendered not readily visible. If any part of the proposed facility would be readily visible, the application shall explain why it not possible to further reduce its visual impact. Any representation that the use of state of the art design techniques and technology is not feasible shall be supported by technical and financial analysis.

3. If any part of the facility will be readily visible from the public right-of-way or from surrounding properties, a visual impact analysis of the proposed wireless communications facility, including scaled elevation diagrams within the context of buildings on and adjacent to the site of the facility, before and after photo simulations, and a map depicting from where the photos were taken. The Zoning Administrator may require the submission of photo overlays, scaled models, renderings, or mockups to document the effectiveness of techniques proposed to minimize visibility of the facility.

4. When an applicant proposes anything other than the most favored siting and design approach based on the preferences and priorities established in Section 11-35-5(A) and (B), the application must include technical information demonstrating that a higher ranked option is not technically feasible in light of the provider's service objectives.

5. If a new ground-mounted facility or a tower is proposed, the application must include an explanation as to why co-location or other facility types are not feasible to meet the provider's service objectives.

D. **Compliance Verification.** Each applicant shall provide:

1. Copies of, or a sworn statement by an authorized representative of the applicant, that applicant holds all applicable licenses or other approvals required by the Federal Communications Commission (FCC) and any other agency of the Federal or State government with authority to regulate telecommunications facilities that are required in order for the applicant to construct the proposed facility.

2. Documentation of, or a sworn statement by an authorized representative of the applicant, that applicant is in compliance with all conditions imposed in conjunction with such licenses or approvals, a description of the number, type, power rating, frequency range, and dimensions of antennas, equipment cabinets, and related wireless communications facilities proposed to be installed, and engineering calculations demonstrating that the proposed facility will comply with all applicable FCC requirements and standards.

E. **Peer Review.** The application shall include sufficient information for an approved radio frequency specialist or electrical engineer specializing in Electromagnetic Field (EMF) or Radio Frequency Radiation (RFR) studies (hereinafter, "an approved specialist") retained by the City to provide peer review of the information submitted in response to subdivisions C and D of this Section.

1. The application shall also include an agreement to pay the reasonable actual cost and a reasonable administrative fee for hiring an approved specialist to provide peer review.

2. Any proprietary information disclosed to the City or its specialist in confidence is not intended to be included in a public record and shall remain confidential and not be disclosed to any third party without the express consent of the applicant unless such disclosure is required by law. The City and/or its specialist shall return all proprietary information to the applicant and not retain any copies of such information once its decision is final. Notwithstanding the above, information provided to the City may be subject to public disclosure under the Arizona public records law.

F. **Financial Assurances.** Prior to obtaining a building permit to erect or install the proposed facility, the applicant shall either secure a bond or provide financial assurances, in a form acceptable to the City Manager, for the removal of the facility in the event that its use is abandoned or the approval is otherwise terminated.

G. **Other Information.** The Zoning Administrator may request additional information when it is deemed necessary to process the application in compliance with the requirements of this Chapter. This may include, but is not limited to,

1. Information concerning noise that might be generated by equipment associated with a wireless telecommunication facility, such as air conditioning equipment,

2. Photographs of the existing circumstances and context found at the proposed facility to assess what if any conditions may be needed to assure compatibility with surrounding land uses.

3. Additional photographic simulations from site angles specified by the Zoning Administrator.

4. General information about potential alternative sites considered in addition to the proposed location.

H. **Site Plan Review Required.** Any application proposing the placement of communications equipment on or within architectural forms added to existing structures and which may involve a height exception that requires review by the Planning & Zoning Board shall be made in accordance with the procedures in Chapter 69, Site Plan Review, of this Ordinance.

11-35-5: LOCATION, DESIGN, AND OPERATION REQUIREMENTS

The following requirements apply to all wireless communications facilities that are not exempt from regulation under this Chapter unless the decision-making authority approves a Special Use Permit pursuant to Chapter 70, Conditional Use Permits.

A. **Location Preferences.** The preferred locations for wireless communication facilities are in the following order:

1. On existing non-residential structures such as buildings, communication towers, or utility facilities located more than 300 feet from a residential zone, without modification to the structures.

2. On existing signal, power, light or similar kinds of permanent poles located more than 300 feet from a residential zone.

3. Co-located with existing wireless telecommunication facilities that conform to the requirements of this Ordinance.

4. Limited, General and Heavy Industrial Districts sites more than 300-feet from a residential zone.

5. Camouflaged, stealth, or building-mounted facilities in Limited and General Commercial Districts or in Planned Employment Park Districts.

6. Camouflaged, stealth or building-mounted facilities on non-residential structures, including mono-poles, in any Agricultural or Residential District.

B. **Design Preferences.** The preferred design approaches for new wireless communication facilities are in the following order:

1. Building or structure mounted antennas designed and sited to be completely concealed from view or not readily visible because of integration into design of non-residential buildings or structures erected and approved for use other than as wireless telecommunications support. Examples of antennas completely integrated into the structure include existing parapet replacements, bell towers, steeples, clock towers and cupolas.

2. Building or structure mounted antennas set back from roof edge, concealed and not visible from the public right-of-way or from surrounding residential properties or minor faux-structural alterations. Examples include faux penthouses and parapet additions.

3. Building or structure mounted antennas below roof-line (façade mount, pole mount) visible from public right-of-way but artistically integrated into the existing structure and painted to match existing structure.

4. Freestanding camouflaged structures visible from public right-of-way and from surrounding residential properties. Examples include steeples, sculptures and clock towers.

5. Building or structure mounted antennas above the roof-line visible from public right-of-way or from surrounding residential properties behind frequency- transparent panels.

6. Freestanding stealth tree, such as monopalm.

7. Freestanding monopoles or other antenna towers.

C. **Location of Facilities.** Wireless telecommunication facilities shall be located where the existing topography, vegetation, buildings or other structures provide the greatest amount of screening and in compliance with the following requirements.

1. No new facility shall be sited on or above a ridgeline.

2. Within Residential and Mixed Use Districts, no new freestanding antenna structure, including towers, lattice towers, and monopoles, shall be located within 1,000 feet of another freestanding facility unless mounting on a building or co-location on an existing pole or tower is not feasible and techniques have been used to camouflage, screen, or otherwise minimize the visual impact of the facility to the extent feasible.

3. Within Commercial and Employment Districts, new freestanding antenna structures, including towers, lattice towers, and monopoles, may be located within 1,000 feet of another freestanding facility, provided a stealth or camouflaged design is used.

4. Ground-mounted wireless telecommunication facilities shall be located in close proximity to existing above-ground utilities, such as permanent electrical towers, light poles, trees of comparable heights, and in areas where they will not detract from the appearance of the City.

5. Facilities may only be located on a property zoned for a residential or agriculture use if the antennas, antenna structures, and all related equipment can be sited to comply with the setback and

separation requirements of this Chapter. Exceptions of up to 30% of the setback and up to 75% of the separation requirements may be considered as part of a Special Use Permit request when the application includes stealth or camouflaged facilities.

D. **Height of Facilities.** The height limitations for each zoning district applicable to buildings and structures shall apply to all towers and antennas that are not exempt from regulation except as provided in this Chapter. The height of building-mounted antennas shall include the height of that portion of the building on which the antenna is mounted. In determining the height of portable "crank-up" or similar towers whose height is adjustable, the height of the tower shall be the maximum height to which it is capable of being raised.

1. Roof-mounted or facade-mounted antennas proposed on an existing building, or on a tower, pole or other structure shall not extend or project more than 15 feet above the existing height of the building or structure.

2. Antenna support equipment for stand-alone facilities (not attached to a building) shall be screened by a minimum 6-foot high masonry wall unless placed within a fully enclosed building. When placed in a building, the building design shall be no taller than one (1) story or 15 feet in height with elevations designed and constructed in a manner compatible with building designs typically found in the area.

3. Antenna support equipment that is roof mounted shall meet the screening requirements specified in Section 11-30-9 of this Ordinance.

E. **Required Separation and Setbacks.** Antenna structures and antennas that are not exempt from regulation under this Chapter shall be setback from property lines and separated from other antenna structures in compliance with the following requirements.

1. Antenna structures other than alternative antenna structures must be set back from any property in residential use a distance equal to the twice the height of the structure. Alternative antenna structures shall be setback from residential uses a distance equal to the height of the structure plus one (1)-foot.

2. Antenna structures, including alternative antenna structures, must be set back from public right-of-way a distance equal to the height of the structure plus one foot.

3. In Non-Residential Districts, all free-standing antenna structures, except for alternative tower structures, must be at least 1,000 foot feet from another free-standing antenna structure, unless appropriate camouflage or stealth techniques have been used to minimize the visual impact of the facility to the extent feasible and mounting on a building or co-location on an existing facility is not feasible.

4. All wireless communications facilities and related equipment shall comply with the required building setbacks for the zoning district in which the facility is located. However, in no instance shall the facility (including antennae and equipment) be located closer than 5 feet to any property line. Exception: Antenna support equipment that is not placed within enclosed buildings provided the surrounding security wall complies with the maximum fence height requirements as found in Section 11-30-4, Fences and Freestanding Walls.

F. **Design Standards.** Antennas, antenna support structures, and related equipment shall be located, designed and screened to blend with the existing natural or built surroundings and existing supporting structures.

1. Facilities that are not camouflage or stealth shall close mount all panel antennas.

2. Stealth or camouflaged facilities shall not have antenna mounts that extend beyond the outside edge of the materials used to provide the stealth or camouflage design.

3. When freestanding, non-stealth tower elements are used, antennas and support structures, where utilized, shall be monopole type.

4. Monopole support structures shall not exceed 4 feet in diameter unless technical evidence is provided showing that a larger diameter is necessary to attain the proposed tower height and that the proposed tower height is necessary.

5. Wireless telecommunications facility support structures and antennas shall be a non-glossy color and/or exterior finish so as to minimize visual impacts from surrounding properties. Example: galvanized steel for freestanding, non-stealth facilities; fiberglass artificial bark cladding for stealth tree-like facilities.

6. All facilities shall be designed and located to minimize their visibility to the greatest extent feasible. All wireless telecommunications facilities proposed for locations where they would be readily visible from the public right-of-way or from the habitable living areas of residential units within 100 feet shall incorporate appropriate techniques to disguise the facility and/or blend into the surrounding environment, to the extent feasible. Facilities shall be compatible in scale and integrated architecturally with the design of surrounding buildings or the natural setting.

7. No telecommunications antenna or ancillary support equipment shall be located within a front or corner side setback except for facilities that are completely placed within sub-grade vaults no higher than the maximum height of a fence within a street or front setback, pursuant to Section 11-30-4, Fences and Freestanding Walls.

8. Support structures and site areas for wireless telecommunications antenna shall be designed and of adequate size to allow at least one additional wireless service provider to co-locate on the structure. Stealth facilities are exempted from this requirement.

9. Towers shall not be artificially lighted unless required by the FAA or other applicable government authority. All objects affecting navigable airspace must comply with Federal Aviation Regulation Section 77 and must be in conformance with the current restrictions for land within one mile of a runway.

10. All proposed fencing shall be constructed of masonry, and provide decorative texture, color and design in a manner compatible with the adjacent buildings and properties within the surrounding area and shall be designed to limit graffiti.

11. Within the Desert Uplands area, as defined on page 33 in Section 9-6-5(A) of the Mesa City Code, Desert Uplands design standards shall apply, including compatibility of stealth and camouflage facilities with the list of approved landscape plant materials.

G. **Required Signs.** A permanent, weather-proof identification sign, approximately 16 inches by 32 inches in size, must be placed on the gate of the fence surrounding the facility or, if there is no fence, on the facility

itself. The sign must identify the facility operator(s), provide the operator's address, and specify a 24-hour telephone number for reaching the operator or an agent authorized to provide 24/7 response to emergency situations.

H. **Required Landscaping.** Sites with antennas, antenna support structures, and related equipment shall be landscaped with a buffer of plant materials that effectively screens views of the base of support structures and equipment facilities from adjacent residential property or from any public right-of-way, path or trail.

1. The standard buffer shall consist of a continuous landscaped strip with a minimum radius of 4 feet around the perimeter of the installation.

2. Existing mature tree growth and natural land forms on the site shall be preserved to the maximum extent possible. In some cases, towers sited on large lots, natural vegetation around the property perimeter may serve as a sufficient buffer.

3. Street trees and other landscaping may be required for telecommunications facilities proposed on lots lacking street frontage landscaping.

4. As determined by the context of the site and design preference proposed, additional landscaping, such secondary plantings of trees similar in appearance to the stealth design of the telecommunications facility, may be conditioned as part of the approval to mitigate the visual impact of the facility.

I. **Operation and Maintenance Standards.** All wireless communications facilities shall at all times comply with the following operation and maintenance standards.

1. Wireless telecommunications facilities and related equipment, including lighting, fences, shields, cabinets, and poles, shall be maintained in good repair, free from trash, debris, litter, graffiti and other forms of vandalism, and any damage from any cause shall be repaired as soon as reasonably possible so as to minimize occurrences of dangerous conditions or visual blight. Graffiti shall be removed from any facility or equipment as soon as practicable, and in no instance more than 48 hours from the time of notification by the City.

2. The owner or operator of a facility shall be responsible for maintaining landscaping in accordance with the approved landscape plan and for replacing any damaged or dead trees, foliage, or other landscaping elements shown on the approved plan. Amendments or modifications to the landscape plan shall be submitted to the Zoning Administrator for approval.

3. Each facility shall be operated in a manner that will minimize noise impacts to surrounding residents and persons using nearby parks, trails, and similar recreation areas.

a. Except for emergency repairs, testing and maintenance activities that will be audible beyond the property line shall only occur between the hours of 7:00 a.m. and 7:00 p.m. on Monday through Friday, excluding holidays.

b. All air conditioning units and any other equipment that may emit noise that would be audible from beyond the property line shall be enclosed or equipped with noise attenuation devices to the extent necessary to ensure compliance with applicable noise limitations in Title 6, Chapter 12 of the Mesa City Code.

c. Backup generators shall only be operated during periods of power outages or for testing. Any testing of the backup generators should occur during daylight hours.

d. For the protection of emergency response personnel, each telecommunications facility shall have an on-site emergency "kill switch" to de-energize all RF-related circuitry and components at the site. For collocation facilities, a single "kill switch" shall be installed that will de-energize all carriers at the facility in the event of an emergency.

11-35-6: REVIEW AND APPROVAL PROCEDURES

A. The following wireless communication facilities are permitted by right with a Zoning Certificate issued under the provisions of Chapter 68, Zoning Clearance, if they comply with all applicable requirements of Section 11-35-5. All other facilities that are not exempt from regulation require approval of a Special Use Permit by the Zoning Administrator or Board of Adjustment, pursuant to Chapter 70, Conditional Use Permits and this Section:

1. The following facilities when located on a property in non-residential use in any Commercial or Industrial District:

a. Any microcell facility.

b. Any antenna that is mounted on any existing building or other structure when the overall height of the antenna and its supporting tower, pole or mast does not exceed the maximum height of zoning district in which it is located, or when attached to existing street light, or utility poles.

c. Any camouflaged facility designed and built to appear as an architectural element of an existing building, or as an architectural structure designed to be consistent with the approved design theme for the development site, provided:

i. All materials and design elements used in the camouflaged design are compatible with the approved materials, colors and design of the buildings and structures used for the development site;

ii. The overall height of the camouflaged facility is no higher than twice the maximum height permitted for the zoning district;

iii. The facility is a minimum distance of twice the proposed height of the facility from a Residential Zoning District.

2. The following facilities when located on a property in non-residential use in any Industrial District:

a. Any free standing antenna structure and its supporting tower, pole, or mast that complies with all applicable setback ordinances, provided:

i. The overall height of the antenna and its supporting structure does not exceed a height of 70-feet; and

ii. The location of the facility is a minimum of 300-feet from a residence.

b. Freestanding Stealth facilities provided the overall height of the facility (not including stealth related masking features for antennas and antenna mounts) and its supporting structure does not exceed and height of 70- feet.

3. The following facilities when located on a property in any zoning district:

   a. Any building mounted facility, including roof mounts and wall mounts, provided any additional height required for the facility is less than 15- feet above the height of the existing building.

   b. Any co-located facilities mounted on existing freestanding poles or towers, provided:

      i. Any additional height required for the facility is less than 15-feet above the initial approved height of the pole or tower;

      ii. The existing number of communication providers with facilities on the pole does not exceed 3. Co-location of a fourth provider shall require approval of a Special Use Permit.

4. Undergrounding Required. All wires and/or cables necessary for operation of an antenna shall be placed underground or attached flush with the surface of the building or the structure of the antenna.

B. All requests for Special Use Permit, height exceptions, or Zoning Clearance review shall follow the procedures set forth in Article 7, Administration, and the following requirements:

1. Any application that proposes construction of a new antenna structure or alternative tower structure or placement of a new antenna on an existing structure of any type shall require a pre-application meeting with Planning Division staff. This meeting is intended to provide significant preliminary information on the project, discuss development alternatives, and determine the appropriate review procedure.

2. Any application that proposes construction of a new antenna structure or alternative tower structure or involves the placement of any type of communications equipment on or within an architectural form that requires an exception to a height limit shall require review by the Planning & Zoning Board.

C. The Zoning Administrator may approve the following modifications to existing structures provided the modification is consistent with the requirements of this Chapter and any applicable conditions of approval of a Special Use Permit.

1. The use of a single tower by multiple carriers unless conditions of the Special Use Permit specify otherwise.

2. An increase in the height of an existing antenna support structures that does not exceed 10 feet, provided, the increase in height is used to facilitate the co- location of another communications provider on the same structure and does not exceed the maximum height set forth in other applicable City requirements for a tower on that site.

3. An application for building-mounted equipment provided the request is consistent with the requirements of this Chapter and other applicable City requirements and will not increase the height of an existing structure by more than 15 feet.

D. Approval of a Special Use Permit by the Zoning Administrator acting as a Hearing Officer or Board of Adjustment is required for the following:

1. Any proposal for a new, freestanding communications facility or to increase the height of an existing antenna support structure greater than 15-feet in any agricultural or residential district;

2. Any application for a building or roof-mounted structure that would exceed the height of the existing structure by more than 15 feet, except applications as listed in Paragraph A, above; and

3. Any application that proposes an exception to any applicable requirement in Section 11-35-5.

E. In addition to any other findings that this Ordinance requires, in order to approve any Special Use Permit for a facility subject to regulation by this Chapter, the decision-making authority must find, based on substantial information in the record including, where required, technical analysis by an approved radio frequency engineers, calculations by a State-licensed structural engineer, or other evidence that:

1. The proposed telecommunication facility will comply with all applicable state and federal standards and requirements;

2. The proposed project is consistent with the general requirements of this Chapter and any specific requirements applicable to the proposed facility;

3. The proposed antenna or related facility, operating alone and in conjunction with other telecommunications facilities, will comply with all applicable state and federal standards and requirements; and either:

a. Will not be readily visible; or

b. Will be readily visible, but it is not feasible to incorporate additional measures that would make the facility not readily visible.

4. The facility, if it is not a microcell or co-located, is necessary to prevent or fill a significant gap in coverage or capacity shortfall in the applicant's service area, and is the least intrusive feasible means of doing so;

5. If the proposed facility is a satellite dish or parabolic antenna exceeding 39 inches in diameter, that a smaller or less intrusive antenna cannot feasibly accomplish the provider's technical objectives and that the facility will not be readily visible;

6. If a new antenna support structure is proposed or the applicant proposes to extend the height of an existing tower, that the applicant has made good faith and reasonable efforts to locate a telecommunication facility on a support structure other than a new monopole or lattice tower or to accomplish co-location and that no existing tower or structure in the vicinity can accommodate the applicant's proposed antenna;

7. If a modification of height, separation, setback, landscaping or other requirements of Section 11-35-5 is proposed, that the proposed modification is consistent with the purposes of this Chapter and will be the least intrusive feasible means of meeting the service provider's objectives;

8. If the proposed location is in a Residential district that the location is necessary for the provision of personal wireless services to Mesa residents and businesses, or their owners, customers, guests, or invitees, or other persons traveling in or about the City based on substantial evidence that siting the

facility outside of a Residential district is infeasible and without the proposed facility, the operator will be unable to provide personal wireless services to its customers in the proposed coverage area, or unable to provide the capacity necessary to meet call volumes

9. If the proposed location is readily visible from the habitable area of a dwelling unit within 300 feet or from a public right-of-way, public park, or other public recreation or cultural facility, that:

   a. It is not feasible to provide the service at another location or to incorporate additional measures such as a decrease in height, increase in the number of number of facilities, increase in setback, change in design, relocation relative to other structures or natural features, that would further reduce its visibility; and

   b. The proposed telecommunication facility provides an important link in applicant's service area build-out and is necessary to meet its service needs to City residents.

F. The Zoning Administrator Hearing Officer or Board of Adjustment may waive or modify requirements of this Chapter upon advice of the City Attorney that denial of the application would have the effect of prohibiting the provision of telecommunications services, unreasonably discriminating among service providers, or constituting any other violation of State or Federal Law. The applicant shall have the burden of proving that the denial or requirement for compliance would violate applicable Federal or State Law.

11-35-7: CESSATION OF OPERATIONS

A. The service provider shall notify the Zoning Administrator of the intent to vacate a site at least 30 days prior to the vacation. The permit for any antenna or tower that is not operated for a continuous period of 12 months shall be deemed lapsed and the site will be considered abandoned unless:

   1. The Zoning Administrator has determined that the same operator resumed operation within 6 months of the notice; or

   2. The Planning Division has received an application to transfer the permit to another service provider.

B. No later than 90 days from the date the use is discontinued, the owner of the abandoned antenna or tower or the owner of the property on which the facilities are sited shall remove all equipment and improvements associated with the use and shall restore the site to its original condition as shown on the plans submitted with the original approved application or as required by the Zoning Administrator. The provider or owner may use any bond or other assurances provided by the operator under Section 11-35-4(E) to do so. The owner or his agent shall provide written verification of the removal of the wireless communications facility within 30 days of the date the removal is completed.

C. If the antenna or tower is not removed within the time limits stipulated in subsections A and B, the site shall be deemed to be a nuisance and Zoning Administrator may cause the antenna or tower to be removed at the owners' expense or by calling any bond or other financial assurance provided to the City under Section 11-35-4(E) to pay for removal. If there are 2 or more service providers using a single tower, then the abandonment period shall not begin until all service providers have ceased using the tower.

The requirement for removal of equipment in compliance with this Section shall be included as a provision in any lease of private property for wireless communication facilities.

CHAPTER 36
NONCONFORMING AND PROCEDURALLY CONFORMING*

11-36-1: PURPOSE AND APPLICABILITY

A. **Purpose.** This Chapter establishes provisions for the regulation of land uses, lots or parcels, structures, and sites that were lawfully established prior to the adoption or amendment of the Zoning Ordinance, or annexation into the City, but which would now be prohibited, restricted, or regulated differently under the requirements of the Zoning Ordinance or the Zoning Map and therefore do not comply with some or all of the requirements of the Zoning Ordinance.

B. **Applicability.**

1. ***Approved Modifications.*** Where a variance or modification has been granted that results in a development standard or feature that does not conform to the requirements of the Zoning Ordinance, the development standard or feature shall be deemed conforming, and this Chapter shall not apply.

2. ***Illegal Nonconformities.*** Land uses, lots or parcels, structures, and sites that were not lawfully established in compliance with the Zoning Ordinance or requirements of the applicable county or municipality, if established prior to annexation, are illegal nonconformities and are ineligible for the nonconforming provisions of this Chapter. Illegal nonconformities are subject to enforcement actions, up to and including removal and termination.

(Ord. No. 5963, § 1, 10-6-25)

11-36-2: DEFINITIONS

A. **Legal Nonconforming Use.** A land use that prior to the effective date of the Zoning Ordinance, subsequent amendment to the Zoning Ordinance, or annexation, was lawfully established—meaning it complied with all applicable requirements of the Zoning Ordinance, or requirements of the county or municipality in which it was located, in effect at the time it was approved—but does not comply with all current applicable Zoning Ordinance requirements. *Legal Nonconforming Use does include Legal Procedurally Conforming Use.*

B. **Legal Procedurally Conforming Use.** A land use that meets one of the following criteria:

1. A building permit was issued for the land use prior to the issuance of a written interpretation by the Zoning Administrator in which the land use was determined to not be within any classification or use in the Zoning Ordinance and therefore prohibited in every zoning district, or

2. An ordinance was adopted that amends the Zoning Ordinance regulations applicable to a certain land use and contains a section titled "Legal Procedurally Conforming Use" that specifically provides how that certain land use will be, or will remain, a Legal Procedurally Conforming Use.

C. **Legal Nonconforming Lot or Parcel.** A lot or parcel recorded prior to the effective date of the Zoning Ordinance, subsequent amendment to the Zoning Ordinance, or annexation, that was lawfully established—

***Editor's note—**Ord. No. 5963, § 1, adopted October 6, 2025, repealed the former Ch. 36, §§ 11-36-1—11-36-7, and enacted a new Ch. 36 as set out herein. The former Ch. 36 pertained to nonconforming uses, structures, and lots.

meaning it complied with all applicable dimensional standards in the Zoning Ordinance, or requirements of the county or municipality in which it was located, in effect at the time it was recorded—but does not comply with all current applicable dimensional standards in the Zoning Ordinance.

D. **Legal Nonconforming Structure.** A structure that prior to the effective date of the Zoning Ordinance, subsequent amendment to the Zoning Ordinance, or annexation, was lawfully constructed—meaning it complied with all requirements of the Zoning Ordinance, or requirements of the county or municipality in which it was located, in effect at the time it was constructed—but does not comply with all current applicable development standards in the Zoning Ordinance. *Legal Nonconforming Structure does not include Legal Procedurally Conforming Structure.*

E. **Legal Procedurally Conforming Structure.** A structure that meets one of the following criteria:

1. A building permit was issued for the structure prior to the issuance of a written interpretation by the Zoning Administrator in which the land use that the structure is occupied by or devoted to was determined to not be within any classification or use in the Zoning Ordinance and therefore prohibited in every zoning district, or
2. An ordinance was adopted that amends the Zoning Ordinance regulations applicable to a certain land use and contains a section titled "Legal Procedurally Conforming Structure" that specifically provides how a structure occupied by or devoted to that certain land use will be, or will remain, a Legal Procedurally Conforming Structure.

F. **Legal Nonconforming Site.** A lot or parcel containing site improvements (such as but not limited to landscaping, parking, drive aisles, fencing, or screening) that prior to the effective date of the Zoning Ordinance, subsequent amendment to the Zoning Ordinance, or annexation, were lawfully constructed—meaning the site improvements complied with all requirements of the Zoning Ordinance, or requirements of the county or municipality in which the lot or parcel was located, in effect at the time the site improvements on the lot or parcel were constructed—but the site improvements do not comply with all current applicable development standards in the Zoning Ordinance.

(Ord. No. 5963, § 1, 10-6-25)

11-36-3: LEGAL NONCONFORMING USES AND LEGAL PROCEDURALLY CONFORMING USES

A. **Right to Continue a Legal Nonconforming Use or Legal Procedurally Conforming Use.**

1. ***Right to Continue.*** A Legal Nonconforming Use or Legal Procedurally Conforming Use may continue to operate within the structure(s), area(s), or spaces(s) which it occupied when lawfully established, subject to the provisions of this Section.
2. ***Change of Ownership, Tenancy, or Management.*** Changes of ownership, tenancy, or management of a lot, parcel, or structure occupied by or devoted to an existing Legal Nonconforming Use or Legal Procedurally Conforming Use shall not affect its right to continue.
3. ***Discontinued Legal Nonconforming Use or Legal Procedurally Conforming Use.*** If a Legal Nonconforming Use or Legal Procedurally Conforming use is discontinued for a period of one (1) year or more, the right to operate such use shall terminate. Any subsequent use of the lot, parcel, or structure shall comply with all applicable requirements of the Zoning Ordinance.
    a. *Determination of Discontinued Use.* The Zoning Administrator shall determine whether the use was discontinued for a period of one (1) year or more resulting in the termination of the right to operate such use.

b. *Burden of Proof.* It shall be the burden of the owner/operator of the use to provide evidence of continual operation of the use, such as a valid business license, monthly business receipts, or tax returns showing business activity during the time period in question.

B. **Limitations on Legal Nonconforming Uses and Legal Procedurally Conforming Uses.**

1. ***Expansion to Other Structures, Areas, Lots or Parcels.*** A Legal Nonconforming Use or Legal Procedurally Conforming Use shall not be expanded to any other structure, area, lot, or parcel that it did not occupy when lawfully established; except an existing Single Residence use may construct an Accessory Dwelling Unit to the extent allowed by, and in compliance with Section 11-31-3 of the Zoning Ordinance.

2. ***Expansion Within a Conforming Structure.*** A Legal Nonconforming Use or Legal Procedurally Conforming Use may expand within the conforming structure it occupied when lawfully established, subject to the land use regulations in Article 2 for the base zoning district in which it is located.

3. ***Expansion Within a Legal Nonconforming Structure.*** A Legal Nonconforming Use or Legal Procedurally Conforming Use shall not be expanded within a Legal Nonconforming Structure; except an existing Single Residence use may construct an Accessory Dwelling Unit to the extent allowed by, and in compliance with Section 11-31-3 of the Zoning Ordinance.

(Ord. No. 5963, § 1, 10-6-25)

11-36-4: LEGAL NONCONFORMING STRUCTURES AND LEGAL PROCEDURALLY CONFORMING STRUCTURES

A. **Right to Maintain a Legal Nonconforming Structure or Legal Procedurally Conforming Structure.** Maintenance of Legal Nonconforming Structures or Legal Procedurally Conforming Structures is permitted provided that the maintenance does not enlarge or extend, the structure, except as allowed by Section 11-36-4(B)(3).

B. **Limitations on Legal Nonconforming Structures and Legal Procedurally Conforming Structures.**

1. ***Structural Repairs or Alterations to Legal Nonconforming Structures.*** Structural repairs or alterations to a Legal Nonconforming Structure are only permitted when the Building Official determines:

a. The structural repair or alteration is immediately necessary to protect public health and safety of the occupants of the structure, or occupants of adjacent property; and

b. The cost of the structural repair or alteration does not exceed 50% of the cost to reconstruct the entire structure, exclusive of the foundation.

2. ***Structural Repairs or Alterations to Legal Procedurally Conforming Structures.*** Structural repairs or alterations to a Legal Procedurally Conforming Structure are only permitted if the structural repair or alteration does not enlarge or extend the structure, except as allowed by Section 11-36-4(B)(3).

3. ***Expansions or Enlargements of Legal Nonconforming Structures and Legal Procedurally Conforming Structures.*** A Legal Nonconforming Structure or Legal Procedurally Conforming Structure shall not be expanded or enlarged except as follows:

   a. *Expansions or Enlargements Required to Meet Law.* Legal Nonconforming Structures or Legal Procedurally Conforming Structures may be expanded or enlarged when necessary to meet federal, state, or City requirements, including development standards for the zoning district in which the structure is located.

   b. *Expansions or Enlargements into Nonconforming Yards.* Legal Nonconforming Structures or Legal Procedurally Conforming Structures that are located within required yards may be expanded or enlarged only if the expansion or enlargement does not:

      i. Further reduce an existing nonconforming yard;

      ii. Further reduce a nonconforming lot coverage or floor area ratio requirement; or

      iii. Increase the required number of off-street parking spaces, unless additional parking is provided per current parking standards.

   c. *Expansions or Enlargements of Legal Nonconforming Structures or Legal Procedurally Conforming Structures Containing a Single Residence or Duplex Use.* Expansions or enlargements of a Legal Nonconforming Structure or Legal Procedurally Conforming Structure that contain a Single Residence or Duplex Use may be permitted only if the expansion or enlargement:

      i. Does not increase the gross floor area by more than 75%;

      ii. Does not increase the number of dwelling units on the lot or parcel; and

      iii. Conforms to all applicable requirements of the Zoning Ordinance.

C. **Reconstruction and Restoration of Legal Nonconforming Structures and Legal Procedurally Conforming Structures.**

1. ***Reconstruction and Restoration of Legal Nonconforming Structures.*** A Legal Nonconforming Structure that is damaged or partially destroyed may be reconstructed and restored as follows:

   a. *Reconstructed and Restored to its Previous Condition.* A Legal Nonconforming Structure may be reconstructed and restored to its previous condition, without needing to comply with the Zoning Ordinance, only if:

      i. The reconstructed and restored portions of the structure do not exceed the size, extent, or configuration that existed immediately prior to the damage or destruction;

      ii. The cost of reconstruction and restoration does not exceed 50% of the cost to reconstruct the entire structure, exclusive of the foundation; and

      iii. The use that occupied the structure immediately prior to the damage or destruction is reestablished in the reconstructed or restored structure.

b. *Limits to Reconstruction and Restoration of Legal Nonconforming Structures.* If the cost of reconstruction and restoration of a Legal Nonconforming Structure exceeds 50% of the cost to reconstruct the entire structure, exclusive of the foundation, the following shall apply:

i. The reconstruction and restoration of the structure shall comply with all requirements of the Zoning Ordinance, unless the Zoning Administrator approves an Administrative Use Permit that:

(1) Permits the structure to be reconstructed or restored to a lesser size, extent, or configuration than existed immediately prior to the damage or destruction; and

(2) Requires the use that occupied the structure immediately prior to the damage or destruction to be reestablished in the reconstructed or restored structure.

ii. In no instance may the structure be reconstructed or restored if the cost to reconstruct or restore the structure exceeds 75% of the cost to reconstruct the entire structure, exclusive of the foundation.

2. ***Reconstruction and Restoration of Legal Procedurally Conforming Structures.*** A Legal Procedurally Conforming Structure that is damaged or destroyed (whether wholly or partially) may be reconstructed and restored to its previous condition, without needing to comply with the Zoning Ordinance, only if:

a. The reconstructed and restored portions of the structure do not exceed the size, extent, and configuration that existed immediately prior to the damage or destruction; and

b. The use that occupied the structure immediately prior to the damage or destruction is reestablished in the reconstructed or restored structure.

(Ord. No. 5963, § 1, 10-6-25)

11-36-5: LEGAL NONCONFORMING SITES

A. **Right to Maintain.** Maintenance of Legal Nonconforming Sites is permitted provided that the maintenance does not enlarge, extend, or reconfigure the site, except as allowed in Subsection B below.

B. **Alterations and Enlargements to Legal Nonconforming Sites.** Alterations or enlargements to a Legal Nonconforming Site may be permitted only if they do not expand a Legal Nonconforming Use or Legal Procedurally Conforming Use, except as allowed by Section 11-36-3(B), and they meet at least one (1) of the below:

1. The alterations or enlargements comply with all applicable requirements of the Zoning Ordinance; or

2. The alterations or enlargements are necessary to meet federal, state, or City requirements.

(Ord. No. 5963, § 1, 10-6-25)

CHAPTERS 37—40 (RESERVED FOR FUTURE USE)

[The next page is T11:401]

ARTICLE 5

SIGN ORDINANCE

CHAPTER 41 INTRODUCTORY AND GENERAL PROVISIONS*

11-41-1: FINDINGS AND PURPOSE

A. **Findings.** Signs can obstruct views, distract motorists, obstruct pedestrians or vehicular traffic flow, create a safety hazard, create aesthetic blight and visual clutter, and pose other problems that legitimately call for regulation.

B. **Purpose.** The purpose of this Sign Ordinance is to regulate the size, illumination, movement or appearance of movement, materials, location, height, and condition of all signs, as defined herein, and to allow and to promote sign communication in a manner that:

1. Preserves and protects public health, safety, and welfare within the City of Mesa;

2. Assure the use of a variety of sign forms designed to be sensitive to the context of the location, as a reasonable method of visual communication between groups and individuals;

3. Enhances the flow of traffic and the convenience, ease, and enjoyment of travel within the City of Mesa;

4. Restricts circumstances that might otherwise result in injury or damage because of distractions, or obstructions of vision attributable to sign placement or size, or to the illumination of signs that may become a source of undo glare, distraction, or light pollution;

5. Avoids visual clutter that may contribute to traffic accidents or is potentially harmful to vehicular traffic or pedestrian safety;

6. Promotes the aesthetic and environmental values of the community by providing for signs that do not impair property values, business opportunities, community appearance, or the attractiveness of the City as a place to visit, live, work, and shop;

7. Allows signs that are appropriate in scale to the zoning district in which they are located;

8. Provides for signs as an effective channel of communication, while ensuring that sign forms are aesthetically designed and proportioned in relation to adjacent structures on the same lot or development site, and that are compatible with their surroundings; and

9. Promotes the effectiveness of signs by preventing their overconcentration, improper placement, deterioration, and excessive size and number.

10. Supports and enhances commerce within the City.

***Editor's note**—Previously, Chapter 41 derived from Ord. No. 5457, 7-9-18.

11-41-2: APPLICABILITY

A. **Subject of this Sign Ordinance.** All signs are subject to the provisions of this Sign Ordinance as it pertains to:

1. The allowance of signs (principally the number, form, material, size, and structure of signs);
2. The review and consideration of sign plans and permits;
3. The entitlement and issuance of permits;
4. The location and placement of signs on all buildings, structures, and land;
5. The integration of the design of signs with associated building architecture; and
6. The maintenance of signs.

B. **The provisions of this Sign Ordinance do not apply to the following:**

1. Address numbers as required by the Mesa Fire Code;
2. Government Signs;
3. Traffic Control Signs, Markings, and Devices;
4. Signs authorized by Arizona Revised Statutes;
5. Public Transportation Signs; and
6. Signs specified as mandatory by any provision of the Mesa City Code.

C. **Most Restrictive Provision Applies.** Except when otherwise authorized by an approved Council Use Permit, Special Use Permit, Administrative Use Permit, or Variance, the most restrictive provision shall prevail in cases in which two or more provisions of this Sign Ordinance appear to conflict.

D. **Controlling Document.** This Sign Ordinance is not intended to repeal, abrogate, annul, or in any way impair or interfere with other City provisions, allowances, or ordinances, except those specifically repealed by this Sign Ordinance. Where this Sign Ordinance imposes a greater restriction on a sign than is imposed or required by other Mesa City Codes, provisions, allowances, ordinance, the provisions of this Sign Ordinance control.

E. **Definitions Used.** Definitions for specific terms used in this Sign Ordinance are principally found in Chapter 50 of this Sign Ordinance. Additional definitions are also provided in Chapters 86 and 87 of the Zoning Ordinance, and in the Mesa City Code. Definitions not included in this Sign Ordinance, the Zoning Ordinance, or the Mesa City Code are as defined in a widely circulated dictionary commonly considered to be accurate and noteworthy.

F. **Effect on Previously Approved Sign Permits and Comprehensive Sign Plans.** All sign permits and comprehensive sign plans approved after January 1st, 1987, and in effect prior to the effective date of this Sign Ordinance, shall remain in effect. Signs authorized by such comprehensive sign plans shall be developed in accordance with the standards specified by that adopted sign plan, and any applicable conditions or stipulations associated with the approval of that sign plan. The development standards and requirements

of this Sign Ordinance apply if not specifically modified by the applicable adopted sign plan. The Zoning Administrator may approve minor modifications to approved plans, regarding specific design, height, number, or sign area, that do not exceed the maximums allowed by this Sign Ordinance.

11-41-3: GENERAL REQUIREMENTS

All signs shall conform to the following requirements:

A. **Building Regulations.** All signs, including portable signs and electric signs, shall conform to the requirements of the Mesa Building Code, Title 4 of the Mesa City Code.

B. **Illumination.**

1. The light source, direct or indirect, for a sign(s) is oriented or shielded so the light source is not directly visible from any adjacent residential use, or from a public thoroughfare.

2. Direct illumination by incandescent sources shall:

   a. Incorporate a dimming and/or a screening device when using bulbs rated at greater than eleven (11) watts, or equivalent measurement; and

   b. Not exceed a rating of forty (40) watts, or equivalent measurement, for any individual bulb.

3. No illuminated sign is placed or constructed on a vacant or undeveloped lot, or parcel.

4. The following types of illumination are prohibited:

   a. Flashing, blinking or rotating lights;

   b. Metal halide lighting;

   c. High or low-pressure sodium light bulbs; and

   d. Mercury vapor light sources.

5. Within the Desert Uplands Area (see Section 9-6-5 of the Mesa City Code for map), illuminated signs shall not exceed a 0.4-foot candle or equivalent light level.

6. The illumination of any sign shall conform to the requirements of the Mesa Lighting and Electrical Code, Title 4 of the Mesa City Code.

7. Outline illumination of buildings using a non-shielded or exposed illumination (neon, argon, LED or similar) source shall comply with Section 11-30-5-D of the Zoning Ordinance for Exposed Building Illumination.

C. **Sound or Odor.** No sign shall emit a sound or odor.

D. **Prohibited Placement and Locations of Signs.**

1. Within, on, or projecting over the right-of-way, unless it is in the Downtown Pedestrian Area defined in Chapter 50.

2. On public property.

3. Placed in a manner that interferes with pedestrian movement or obstructs ADA access.

4. Placed in a manner that obstruct the visibility of any authorized traffic sign, traffic signal, or another traffic control device.

5. Affixed to fuel tanks, storage containers, or solid waste receptacles; except signs related to the manufacturer's or installer's identification, warning signs, and placards, and information otherwise required by law.

6. Tacked, painted, burned, cut, pasted, or otherwise affixed to trees, shrubs, posts, fences, ladders, benches, or similar supports if visible from across the property boundary or from the right-of-way.

7. Placed in a manner that prevents ingress or egress from any window or door, or other exit-way required by the Mesa Building Code, and amendments, or by the Mesa Fire Code.

8. Covers the architectural features of a building, such as dormers, insignias, pilasters, soffits, transoms, trims, columns, or similar architectural elements or devices.

9. Placed on the roof of a building or extends higher than the highest point of the portion of the building to which the sign is attached.

10. Attached to a standpipe, gutter, drain, or fire escape, or placed in a manner that impairs roof access.

11. Located contrary to the standards of horizontal and vertical clearance from electrical wires and conductors found in the Mesa Lighting and Illumination Code, and the National Electrical Code Safety Standards.

E. **Signs for Nonconforming Uses.** New signs for a nonconforming use are permitted in accordance with permitted signage for the zoning district in which the nonconforming use is located. Existing signs must be maintained consistent with the requirements of Section 11-49-1.

11-41-4: REPEAL AND SEVERABILITY

A. If any section, subsection, paragraph, sentence, clause or phrase of this Sign Ordinance is for any reason held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this Sign Ordinance. The City of Mesa hereby declares that it would have passed this Sign Ordinance, and each section, subsection, sentence, clause and phrase thereof, regardless of the fact that any or one or more sections, subsections, sentences, clauses or phrases be declared invalid or unconstitutional.

B. **Effects on Previous Proceedings.** Nothing contained in this Sign Ordinance affect rights and duties that matured, penalties that were incurred, and proceedings that begun before its effective date, notwithstanding the provisions of subsection (A) of this Section.

11-41-5: CONSENT OF THE PROPERTY OWNER REQUIRED

No person shall construct, place, display, or maintain any sign without the written consent of the property owner, the property owner's agent, or an authorized representative.

11-41-6: NONCOMMERCIAL MESSAGE SUBSTITUTIONS ALLOWED

Notwithstanding any other provision of this Sign Ordinance to the contrary, any noncommercial message may be substituted for the message placed on any sign permitted by this Sign Ordinance.

11-41-7: STANDARDS OF MEASUREMENT

A. **Sign Area Measurement.** Sign area for all sign types is measured as follows:

1. Sign copy is measured as a minimum area contained within the sum of one (1) or two (2) smallest tangent rectangle(s) or other standard regular geometric shapes (e.g.: circle, triangle, regular ellipse, regular rhombus or regular parallelogram), or combination of rectangles or standard regular geometric shapes (e.g.: rectangle and circle, two (2) triangles, or a circle and a rhombus) that will enclose both the sign copy and the background, as shown in Figure 11-41-7-A. When two (2) shapes are used, the shapes must include at least one (1) point of common tangency between the two (2) shapes.

2. The background portion of a sign is included in the sign area measurement when the surface of a building or background panel to which the sign copy is mounted, affixed, painted, or textured, is clearly distinct when compared to the color, texture, or materials used on the building or mounting structure.

3. A sign as individual letters, logos, or similar graphics painted or mounted directly on a wall, fascia, mansard, or parapet of a building or surface of another structure are measured based on the calculation described in Section 11-41-7-B that encloses the entire proposed sign in total, as shown in Figure 11-41-7-B.

4. Sign copy mounted, affixed, or painted on a distinct illuminated surface or illuminated element of a building or structure is measured as the entire illuminated surface or illuminated element that contains sign copy, as shown in Figure 11-41-7-A.

5. Window sign area is computed by calculating each windowpane or panel. A group of windowpanes or panels is considered one (1) window if the windowpanes or panels are adjoined or are not separated by more than six (6) inches. The area for each building face and window is separate. The building face includes any doors or walls with varying wall planes.

6. A multi-face sign, as shown in Figure 11-41-7-D, is measured as follows:

   a. Two (2) face sign:

      i. If the interior angle between the two sign faces is forty-five (45) degrees or less, the sign area is one (1) sign face only. If the angle between the two (2) sign faces is greater than forty-five (45) degrees, the sign area is the sum of the areas of the two (2) sign faces.

      ii. If the faces of the signs at the closest point are separated by a horizontal distance of two (2) feet or more, even when placed on the same sign support structure, the sign area is the sum of the areas of the two (2) sign faces.

   b. Three (3) or more face sign:

      i. The sign area is fifty percent (50%) of the sum of the areas of all vertical sign faces.

   c. Sign sculpture, statue, or three-dimensional figure:

      i. Spherical, free-form, sculptural, or other non-planar sign area is measured as fifty percent (50%) of the sum of the areas using only the four (4) vertical sides of the smallest four (4) vertical sided polyhedron that encompasses the sign structure (six

(6) total sides when counting top and bottom), as shown in Figure 11-41-7-D. No more than four-vertical flat polyhedron faces are used to calculate the sign area for a non-planar sign.

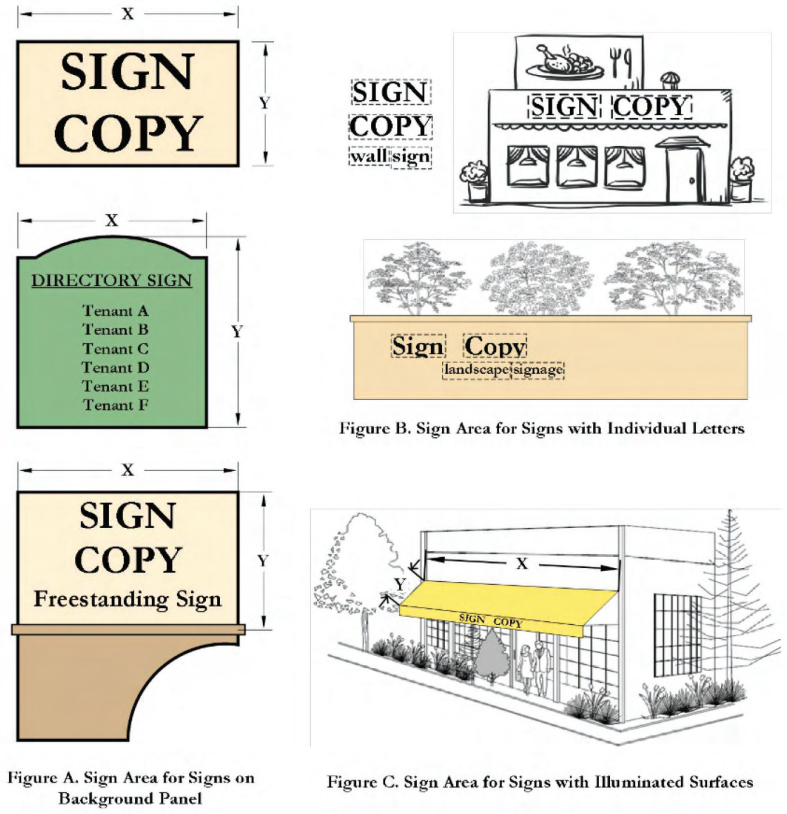

Figure A. Sign Area for Signs on Background Panel

Figure B. Sign Area for Signs with Individual Letters

Figure C. Sign Area for Signs with Illuminated Surfaces

FIGURES 11-41-7-A THROUGH C

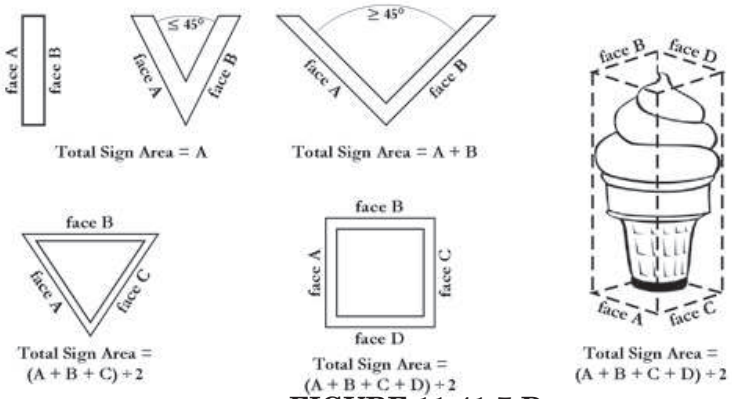

FIGURE 11-41-7-D

B. **Sign Height Measurement.** Sign height is measured as follows:

1. ***Freestanding Signs.*** Sign height is measured as the vertical distance from the average elevation of the finished grade within an eight (8) foot radius from all sides of the sign at the base of a sign to the top of the sign, exclusive of any filling, berms, mounds, or landscaping solely for the purpose of locating the sign, excluding decorative embellishments as defined in Section 11-50-2, and authorized in Section 11-43-3.

   a. If natural grade at the base of a sign is higher than the grade of the adjacent road, and the grade has not been artificially raised by fill or other means to a height above the adjacent road, then sign height is measured from the base of the sign at natural grade, as shown in Figure 11-41-7-E.

   b. If natural grade at the base of a sign is lower than the grade of an adjacent road, or has been reduced to provide a storm water retention basin, then the height of the sign is measured from the top of curb elevation, as shown in Figure 11-41-7-F.

   c. Consideration of natural grade does not include the use of berms or increases in building construction pads, grading of the site, importing of sand, gravel, or other similar means to artificially increase the natural grade level of a site.

2. ***Building Mounted Signs.*** The height of wall, fascia, mansard, parapet, or other building mounted signs is the vertical distance measured from the base of the wall on which the sign is located to the top of the sign, as shown in Figure 11-41-7-G.

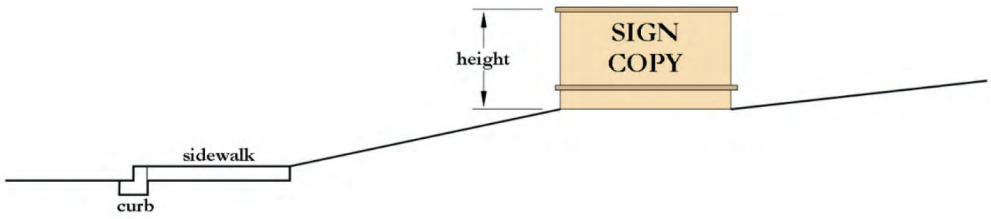

FIGURE E. FREESTANDING SIGN HEIGHT - SIGNS HIGHER THAN THE GRADE OF AN ADJACENT ROAD

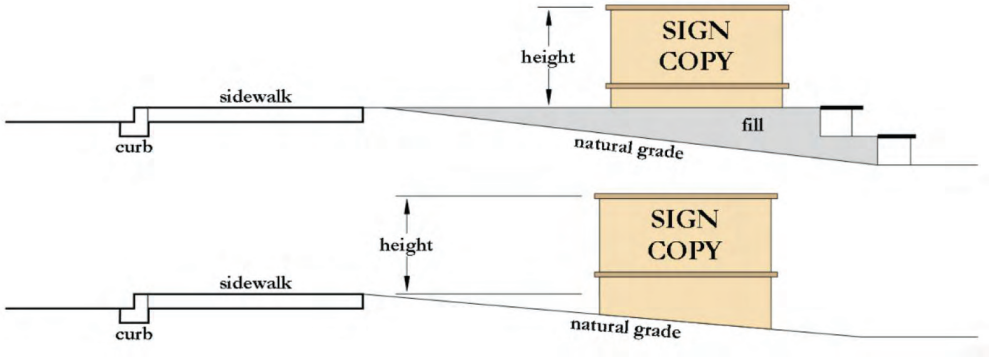

FIGURE F. FREESTANDING SIGN HEIGHT - SIGNS LOWER THAN THE GRADE OF AN ADJACENT ROAD

FIGURES 11-41-7-E and 11-41-7-F

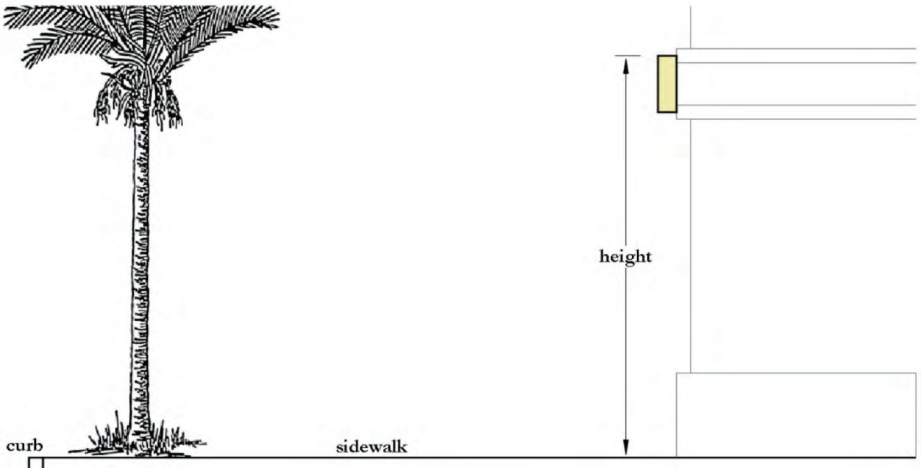

FIGURE 11-41-7-G

C. **Sign Illumination Measurement.** The illuminance of an electronic message panel shall be measured with an illuminance meter set to measure foot-candles accurate to two (2) decimals. Illuminance shall be measured with the unit turned off, and again with the unit turned on displaying a white image for a full color-capable electronic message panel, or a solid message for a single-color electronic message panel. Both measurements shall be taken perpendicular to the face of the electronic message panel at a distance determined by the total square footage of the electronic message panel as provided in Table 11-41-7-C below.

Table 11-41-7-C: Measurement Distance Based on Sign Area

Sign Area	Measurement Distance	Sign Area	Measurement Distance	Sign Area	Measurement Distance	Sign Area	Measurement Distance
5	22 feet	35	59 feet	65	81 feet	95	97 feet
10	32 feet	40	63 feet	70	84 feet	100	100 feet
15	39 feet	45	67 feet	75	87 feet	105	102 feet

Table 11-41-7-C: Measurement Distance Based on Sign Area							
Sign Area	**Measurement Distance**	**Sign Area**	**Measurement Distance**	**Sign Area**	**Measurement Distance**	**Sign Area**	**Measurement Distance**
5	22 feet	35	59 feet	65	81 feet	95	97 feet
10	32 feet	40	63 feet	70	84 feet	100	100 feet
15	39 feet	45	67 feet	75	87 feet	105	102 feet
20	45 feet	50	71 feet	80	89 feet	110	104 feet
25	50 feet	55	74 feet	85	92 feet	115	107 feet
30	55 feet	60	77 feet	90	95 feet	120	110 feet

(Ord. No. 5256, 11-3-14)

11-41-8: SIGHT VISIBILITY TRIANGLES

No sign shall interfere with visibility at street intersections or driveways as provided in the City of Mesa Engineering and Design Standards Section 211 - Sight Distance and Visibility Guidelines.

A. **Permanent Signs.** No permanent sign is allowed above the height of three (3) feet.

B. **Portable Signs.** Portable signs are allowed in the sight visibility triangle, only as follows:

1. The portable sign does not exceed three (3) feet in height.

2. In the RS, RSL, and DR-1 districts or T3N transect, one (1) portable sign exceeding three (3) feet high is allowed within fifteen (15) feet of the edge of pavement or face of curb, as may be applicable, of any streets, roads or highways providing two (2) or less vehicular traffic lanes.

11-41-9: RESPONSIBLE PARTY

A. **Posting Sign.** The person, group, or organization directing the posting, installation, or erection of a sign is responsible for assuring the compliance of the sign with the requirements of this Sign Ordinance. This includes the removal, maintenance, replacement, or alteration of the sign, as may be applicable.

B. **Owner or Occupant.** If the person directing the posting, installation, or erection of the sign does not remove, maintain, replace, or alter the sign in accordance with the requirements of this Sign Ordinance, then the property owner or occupant of the building, where the sign is posted, is responsible for either replacing the sign with a sign that complies with this Sign Ordinance or removing the sign.

CHAPTER 42 PORTABLE SIGNS*

11-42-1: PURPOSE AND GENERAL PROVISIONS

Purpose. The City finds that an overconcentration of portable signs is a distraction to motorists, interferes with the visibility of the traveling public, and creates aesthetic blight and visual clutter. In addition to Section 11-41-1, the purpose of this Chapter is to:

A. Identify and provide for a variety of portable sign types;

***Editor's note—**Previously, Chapter 42 derived from Ord. No. 5457, 7-9-18.

B. Provide for the appropriate size and number of portable signs in a manner consistent with the design and aesthetic standards of the City of Mesa urban design characteristics as specified in the Mesa General Plan; and

C. Assure that opportunities for portable signs do not create visual clutter or in an over-concentration of portable signs that result in a distraction to motorists or interfere with the visibility of the traveling public.

(Ord. No. 5928, § 23, 2-3-25)

11-42-2: PORTABLE SIGN ALLOWANCES BY ZONING DISTRICT FOR DEVELOPED PROPERTY

A. Allowances for the size, number, and height of portable signs for a lot or parcel are determined by the zoning district and lot size as provided in the Tables in this Section. The Tables in this Section are used to calculate the maximum number, size, and height of signs that may be used on a property. The types of portable signs allowed are provided in Table 11-42-3. The portable sign must conform to the standards provided in both Sections 11-42-2 and 11-42-3, the more restrictive standards apply.

B. Example: A property owner wants to display portable signs at a three (3) acre shopping center in the LC zoning district. The shopping center is located at a street intersection. Using Table 11-42-2-E, the center is allowed two (2) portable signs per street front. The property has two street fronts; therefore, the property owner is allowed to display up to four (4) portable signs. The maximum individual portable sign area is twelve (12) square feet and the total portable sign area allowance for the property is twenty-four (24) square feet With this allowance, use the information in Table 11-42-3 to select the portable sign type(s) for the property, as illustrated by the examples in Table 11-42-2-B.

Table 11-42-2-B: Portable Sign Allowance Examples

Example: 3 Signs	Example: 4 Signs	Example: 2 Signs
1 detached rigid, 8 sq. ft. 1 detached rigid, 6 sq. ft. 1 fabric wall banner, 10 sq. ft.	4 detached rigid, 6 sq. ft. ea.	1 attached rigid, 10 sq. ft. 1 detached rigid, 10 sq. ft.
Total Sign Area Used: 24 sq. ft.	Total Sign Area Used: 24 sq. ft.	Total Sign Area Used: 20 sq. ft.

C. **Agriculture and Single-Residence.** The allowances for the size, number, and height of portable signs per lot or parcel in AG, RS, RSL, DR-1, and T3N are provided below in Table 11-42-2-C.

Table 11-42-2-C: Portable Sign Allowances Per Lot or Parcel

Lot Size	Max. Aggregate Sign Area	Max. Individual Sign Area	Max. Number of Signs Per Street Front	Max. Height	Minimum Separation
1-Acre or Less	12 sq. ft.	6 sq. ft.	1	6-feet	—
1-Acre or More	24 sq. ft.	8 sq. ft.	2	6-feet	50-feet

D. **Multi-Residence, Office, and Light Commercial.** The allowances for the size, number, and height of portable signs per lot or parcel in RM, DR-2, DR-3, OC, NC, DB-1, and T4N are provided below in Table 11-42-2-D.

Table 11-42-2-D: Portable Sign Allowances Per Lot or Parcel (1)(2)

Lot Size	Max. Aggregate Sign Area	Max. Individual Sign Area	Max. Number of Signs Per Street Front	Max. Height	Minimum Separation
1-Acre or Less	12 sq. ft.	12 sq. ft.	1	6-feet	—

Table 11-42-2-D: Portable Sign Allowances Per Lot or Parcel (1)(2)					
Lot Size	**Max. Aggregate Sign Area**	**Max. Individual Sign Area**	**Max. Number of Signs Per Street Front**	**Max. Height**	**Minimum Separation**
More Than 1-Acre and Less Than 5-Acres	24 sq. ft.	12 sq. ft.	2	6-feet	30-feet
5-Acres or More	48 sq. ft.	12 sq. ft.	3, plus 1 per each additional 5-acres, Max: 4	6-feet	50-feet

(1) Portable sign types are limited to the size and height provided in Table 11-42-3.

(2) Air activated and balloon sign maximum heights are provided in Table 11-42-3. Sign area of balloons are not counted against the maximum aggregate sign area. See section 11-42-6 for additional requirements for fabric signs.

E. **Commercial and Industrial.** The allowances for the size, number, and height of portable signs per lot or parcel in LC, GC, DB-2, PEP, LI, GI, HI, and EO are provided in Table 11-42-2-E.

Table 11-42-2-E: Portable Sign Allowances Per Lot or Parcel (1)(2)					
Lot Size	**Max. Aggregate Sign Area**	**Max. Individual Sign Area**	**Max. Number of Signs Per Street Front**	**Max. Height**	**Minimum Separation**
2-Acres or Less	12 sq. ft.	12 sq. ft.	1	8-feet	—
More Than 2-Acres and Less Than 5-Acres	24 sq. ft.	12 sq. ft.	2	8-feet	50-feet
5-Acres or More	32 sq. ft., plus an additional 12 sq. ft. per each additional 5-acres	12 sq. ft.	3, plus 1 per each additional 5-acres	8-feet	75-feet

(1) Portable sign types are limited to the size and height provided in Table 11-42-3.

(2) Air activated and balloon sign maximum heights are provided in Table 11-42-3. Sign area of balloons are not counted against the maximum aggregate sign area. See section 11-42-6 for additional requirements for fabric signs.

F. **Neighborhood and Main Street Transects.** The allowances for the size, number, and height of portable signs for each building in the T4NF, T4MS, T5N, and T5MSF are provided in Table 11-42-2-F.

Table 11-42-2-F: Portable Sign Allowances Per Building (1)							
		Max. Individual Sign Area					
Width of Building	**Max. Aggregate Sign Area**	**Rigid**	**Semi-Rigid**	**Wall and Detached Banners (2)**	**Max. Number of Signs per Street Front**	**Max. Height**	**Minimum Separation**
30 Feet or Less	8 sq. ft.	8 sq. ft.	8 sq. ft.	8 sq. ft.	1	6-feet	10-feet
More Than 30 Feet and Less Than 61 Feet	16 sq. ft.	8 sq. ft.	8 sq. ft.	12 sq. ft.	2	6-feet	20-feet
More Than 60 Feet and Less Than 91 Feet	24 sq. ft.	8 sq. ft.	8 sq. ft.	16 sq. ft.	3	6-feet	20-feet
91 Feet or More	32 sq. ft.	8 sq. ft.	8 sq. ft.	24 sq. ft.	4	6-feet	25-feet

(1) Portable sign types are limited to the size and height provided in Table 11-42-3.

(2) See section 11-42-6 for additional requirements for fabric signs.

G. **Mixed-Use and Urban.** The allowances for the size, number, and height of portable signs for each building in the MX, DC, T5MS, and T6MS, Districts are provided in Table 11-42-2-G.

Table 11-42-2-G: Portable Sign Allowances Per Building (1)						
Width of Building	Max. Aggregate Sign Area	Max. Individual Sign Area		Max. Number of Signs, per Street Front	Max. Height	Minimum Separation
		Rigid	Wall Banner (2)			
30 Feet or Less	8 sq. ft.	8 sq. ft.	8 sq. ft.	1	6-feet	10-feet
More Than 30 and Less Than 61 Feet	16 sq. ft.	8 sq. ft.	12 sq. ft.	2	6-feet	20-feet
More Than 60 and Less Than 91 Feet	24 sq. ft.	8 sq. ft.	16 sq. ft.	3	6-feet	20-feet
91 Feet or More	32 sq. ft.	8 sq. ft.	24 sq. ft.	4	6-feet	25-feet

(1) Portable sign types are limited to the size and height provided in Table 11-42-3.

(2) See section 11-42-6 for additional requirements for wall banners.

H. **Downtown Pedestrian Area.**

1. The Downtown Pedestrian Area (DPA) is an intense pedestrian area with buildings built to the property line, thus requiring some allowance for signage in or over the right-of-way. The sign requirements and allowances have been adjusted for the downtown to meet the unique needs of this area.

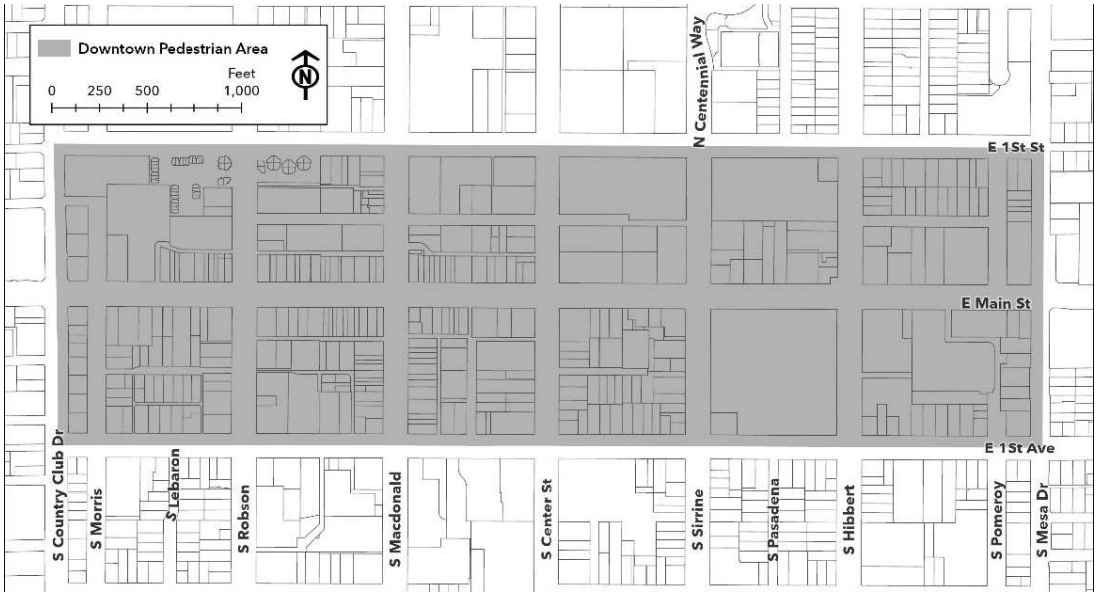

FIGURE 11-42-2.H.1: DOWNTOWN PEDESTRIAN AREA

2. A business owner within the DPA, can display portable signs within the right-of-way subject to all of the following conditions:

a. Annually apply for and obtain an Administrative Use Permit (AUP) from the City of Mesa Planning Director or designee. The AUP is valid for one (1) year from the date of issuance.

b. A renewal application for the AUP must be submitted prior to the expiration date of the current AUP. The Planning Director shall renew the AUP provided that, on the date of

application, the business owner is in compliance with all provisions of the Sign Ordinance and further provided that, on the date of application, the use of portable signs within the DPA is still an allowed use under the Sign Ordinance.

c. The application and renewal of the AUP requires submission of a Certificate of Insurance which complies with the City's current insurance requirements.

d. Obtain an encroachment permit from the City Engineer.

e. The portable sign does not interfere with pedestrian movement or obstruct ADA access. A minimum access width of five (5) feet is maintained along all sidewalks and building entrances accessible to the public.

f. The portable sign does not encroach into required off-street parking areas, and does not create site visibility conflicts or other traffic hazards.

g. The portable sign is only displayed during the operating hours of the business and is removed during non-business hours.

h. The portable sign is maintained in good condition throughout the term of the AUP.

(Ord. No. 5996, §§ 3, 4, 3-9-26)

11-42-3: CLASSIFICATIONS AND DESCRIPTIONS

A. **Permitted Portable Sign Types.** The portable signs as defined in Chapter 50 and described in Table 11-42-3 are permitted in accordance with the requirements set forth in this Sign Ordinance. The Table identifies the specific types of portable signs permitted in a zoning district and establishes the maximum size and height. The height(s) and size(s) in Table 11-42-3 do not increase the sign allowance established in Tables 11-42-2; the more restrictive standards from Tables 11-42-2-C through G and Table 11-42-3 apply.

Table 11-42-3: Portable Sign Types						
Description	**Sign Type/Maximums**	**Illustrative Examples**	**Permitted Zoning**			
Rigid: A sign made of durable, non-pliant material such as wood, sheet metal, plastic, or other lightweight rigid material	**A-frame or T-frame:** A light weight portable sign resting atop the ground without penetrating the ground. Max. Size: 8 sq. ft. Max. Height: 4 ft.		AG	RS	RSL	RM

☐ **Not Allowed**						
☐ **Allowed**						

Note: Portable sign allowances for properties in ID-1, ID-2, or PC districts are permitted as provided in the plan approved for that development or as allowed in the base zoning district.

11-42-4: PORTABLE SIGNS FOR UNDEVELOPED PROPERTY

A. **Allowance for Undeveloped Lots or Parcels.** Any lot or parcel that is vacant, devoid of any development, or that is currently under construction, may utilize the portable sign allowance provided in this Section.

Table 11-42-4-A: Portable Signs for Undeveloped Property			
Property Size	**Maximum Individual Sign Area**	**Maximum Number of Signs Allowed**	**Maximum Sign Height**
1-acre or less	32 sq. ft.	1 per street frontage	8-feet
More than 1-acre	32 sq. ft.	2 per street frontage	8-feet

B. **Prompt Removal.** Detached signs authorized under this Section shall be removed from a vacant lot or parcel within one (1) week after the issuance of a Certificate of Occupancy or equivalent.

11-42-5: NON-RESIDENTIAL USES IN RESIDENTIAL ZONING DISTRICTS

In the AG, RS, and RSL zoning districts, non-residential land use classifications as defined in Sections 11-86-3, 11-86-4, 11-86-5, and 11-86-6 may use portable signs in accordance with Section 11-42-2-D.

11-42-6: FABRIC SIGNS

In zoning districts where allowed per Table 11-42-3, each multi-residence development, or each occupancy in a non-residential development may display one (1) fabric sign, on property that is developed, if an Administrative Use Permit is approved. The fabric sign may be displayed for a maximum of thirty (30) days per calendar year. The days do not need to be consecutive, and may be divided into several separate periods provided the number of days, in aggregate, does not exceed thirty (30) per calendar year, with each calendar year beginning on January 1st. Additionally, each occupancy in a non-residential development is permitted additional fabric signs if a Temporary Use Permit (TUP) is approved authorizing a temporary use on the property. The display of the fabric sign is only allowed during the time-period the TUP is valid.

A. **Wall Banners.** In addition to the requirements in this Section, 11-42-2, and 11-42-3, wall banners shall comply with the following:

1. All corners of the banner must be fastened securely to the building, wall, or fence in a manner that prevents high winds from removing or separating the banner from the building, wall, or fence or causes the banner to flap;

2. Provide vents to ensure the banner withstands the wind; and

3. Provide a minimum clearance of eight (8) feet above grade when placed above an area open for the common or general use of the public.

B. **Detached Banners.** In addition to the requirements in this Section, 11-42-2, and 11-42-3, detached banners must be secured to the ground in a manner that prevents high winds from removing the banner.

C. **Air Activated and Balloons.** In addition to the requirements in this Section, 11-42-2, and 11-42-3, air activated and balloons shall comply with the following:

1. Secured to the ground in a manner that prevents high winds from removing the air activated or balloon sign; and

2. Located at least fifty (50) feet from the right-of-way.

11-42-7: VEHICLE SIGNS

Vehicle signs are allowed if the following conditions are satisfied:

A. The vehicle complies with Section 8-6-3(A) of the Mesa City Code;

B. The vehicle is parked in an authorized location and in a lawful manner that is not distinct or different from the pre-determined parking area design; and

C. During periods of inactivity exceeding two (2) days, the vehicle is parked in a manner so that the sign is not visible from the right-of-way, or if this is not possible, is parked as far from the right-of-way as possible.

CHAPTER 43 PERMANENT SIGNS*

11-43-1: PURPOSE AND INTENT

In addition to the items listed in Section 11-41-1, the purpose and intent of regulating signs used as permanent fixtures includes:

A. Keeping the scale of permanent signs proportionate in height, size, number, and illumination to the intensity and context of land use in the vicinity of the sign, including the specific location of the sign;

B. Utilizing shapes, details, materials, and illumination on permanent sign devices and structures in a manner that furthers, enhances, and reinforces the architectural design theme of the related development; and

C. Maintaining and enhancing the aesthetic character of permanent signs based upon the context in which they are located.

11-43-2: DESIGN STANDARDS FOR PERMANENT SIGNS AND SIGN STRUCTURES

A. **Architectural Compatibility.** Permanent signs and sign structures shall:

1. Be designed to be attractive and artistic;

2. Incorporate design features associated with the buildings or structures, and should constitute an architectural component of the overall development that is compatible with, and not incongruous to, the architectural style and character of the development of the property associated with the sign; and

3. Utilize materials and design themes consistent with the architectural design theme of the development, as expressed by the building architecture, landscaping, and overall site development.

B. **Attached Permanent Signs.**

1. ***Design Standards.*** Attached permanent signs must comply with the following design standards:

a. A sign shall be mounted so that the attachment device is not visible or discernible and shall consist of the following:

i. Individual letters such as pan channel or other durable material or

ii. An architecturally designed cabinet that is irregular and freeform in shape.

***Editor's note**—Previously, Chapter 43 derived from Ord. No. 5457, 7-9-18.

b. A sign attached to a single tenant building shall not exceed more than fifty-percent (50%) of the width of the building elevation upon which the attached sign is placed.

c. A sign attached to a single tenant space of a multiple tenant building, as determined by the issuance of a separate Certificate of Occupancy for the specific tenant space, shall not exceed more than seventy-five percent (75%) of the width of the front of the occupancy upon which the attached sign is placed.

d. Placed on the elevation of the same tenant space for which the Certificate of Occupancy is issued.

e. Opaque backgrounds shall be provided on internally illuminated signs so that only the sign copy is illuminated.

f. A wall mounted sign shall be placed below parapet or eave.

g. Roof signs are not permitted.

h. Signs are permitted on a false mansard roof, awning, or canopy. Signs placed in these locations shall comply with the following:

i. Installed in a manner where angle iron supports, guy wires, braces, or secondary supports, are not visible.

ii. Appear to be an architectural or integral part of the roof.

iii. All parts of the sign are below the highest portion of the building or roof where the sign is attached.

2. Design Guidelines:

a. Letters attached or anchored to the face of an exposed standard raceway should be architecturally designed and integrated into the building.

b. If non-standard raceways are used the following design guidelines shall be followed:

i. As a background where the raceway is not discernable. Raceway is designed as splash cabinet following the shape of the letters where the area of the cabinet is included in the total attached sign area as provided in the example shown in Figure 11-43-2-B-2-b-i;

FIGURE 11-43-2-B-2-b-i

ii. Integrated and a part of the design that acts as a backdrop where the area of the raceway is included in the total attached sign area as provided in the example shown in Figure 11-43-2-B-2-b-ii; or

FIGURE 11-43-2-B-2-b-ii

iii. Integrated into the design where letters are mounted to the top of the raceway cabinet as provided in the examples shown in Figures 11-43-2-B-2-b-iii.

FIGURE 11-43-2-B-2-b-iii

c. Raceways shall either:

i. Be finished to match the color of the building adjacent to the raceway and design elements of the building or

ii. When a raceway is provided as an architectural enhancement to the building elevation, the raceway must be in a contrasting color and material.

C. **Detached Permanent and Freestanding Signs.** Detached permanent and freestanding signs must complement design features associated with the buildings or structures, and constitute an architectural component of the overall development.

1. ***Design Standards.*** Detached permanent and freestanding signs must comply with the following design standards:

a. The sign structure must consist of metal, masonry, or a similar durable construction material using one (1) of the following styles:

i. A single base where the width of the base is a minimum of seventy-five percent (75%) of the width of the sign copy, or

ii. A base consisting of two (2) or more posts or columns in which the width of all posts or columns, in aggregate, is a minimum of thirty-three percent (33%) of the width of the sign copy.

b. An internally illuminated sign shall comply with the requirements of Section 11-41-3-B, and shall provide either:

i. An opaque background so only the sign copy is illuminated; or

ii. A translucent background of no more than fifty-percent (50%) opacity.

c. No detached permanent sign is allowed within seventy-five (75) feet of any other detached permanent sign on the same parcel or Group C-O-I Development site.

d. For streets or roads with three (3) or more traffic lanes, a sign is not allowed within fifteen (15) feet of the face of curb or edge of pavement, when no curb exists.

e. If a sign is placed at the street intersection of a corner parcel and is visible from both streets or both frontages, the sign may not exceed the maximum height and area allowed for the longer street frontage. The area of the sign is deducted from the total aggregate sign height, sign area, and number of signs permissible on the corner parcel.

2. Design Guidelines:

a. The sign copy should not exceed a horizontal-to-vertical ratio of two to one (2:1).

b. A sign may consist of more than one (1) sign panel provided all sign panels are attached to one (1) common integrated sign structure. When multiple sign panels are used, the area of the sign is calculated as one (1) aggregate sign area of all panels used.

c. Embellishment should complement the primary design elements or unique architectural features of the buildings or structures.

d. Embellishment added to a sign structure may extend above the allowable height, up to a maximum extension of twenty-percent (20%) of the permitted height of the sign.

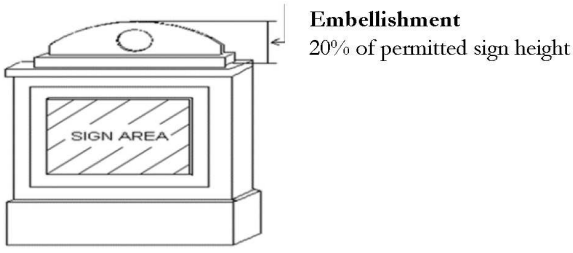

FIGURE 11-43-2-C-2-d

11-43-3: PERMANENT SIGN ALLOWANCES BY ZONING DISTRICT

The following Tables include the sign allowances for attached and detached permanent signs by zoning district. The "Additional Requirements" column lists additional standards that apply. Individual number(s) placed in parentheses [ex: (1)] refer to footnotes appearing immediately below or following the Table.

A. Attached and detached permanent sign allowances in AG, RS, RSL, DR-1, T3N, and T4N are provided in Table 11-43-3-A.

Table 11-43-3-A: Attached and Detached Sign Allowances

Zoning	Max. Number of Permitted Signs	Max. Area Per Sign (1)	Max. Height	Additional Requirements
AG	1 sign per street front, attached or detached	6 sq. ft.	10-feet attached 4-feet detached	Non-illuminated

Table 11-43-3-A: Attached and Detached Sign Allowances				
Zoning	**Max. Number of Permitted Signs**	**Max. Area Per Sign (1)**	**Max. Height**	**Additional Requirements**
RS, RSL, DR-1, T3N, T4N	1 sign per lot or parcel, attached or detached	4 sq. ft.	10-feet attached 4-feet detached	Non-illuminated

(1) A lot or parcel allowed to operate a non-residential land use is allowed to increase the maximum area of each permitted sign to thirty-two (32) sq. ft. with a maximum height of eight (8) feet if detached, or below the top of the parapet or eave, if wall mounted (no roof signs). Increased sign allowance under this provision does not apply to Home Occupations as authorized by Section 11-31-33 in the Zoning Ordinance.

B. Attached and detached permanent sign allowances for RM, DR-2, DR-3, T4NF, and T5N are provided in Table 11-43-3-B.

Table 11-43-3-B: Attached and Detached Sign Allowances per Development			
Max. Number of Permitted Signs (1)	**Sign Area Calculation**	**Max. Height**	**Additional Requirements**
2 signs per street front, attached or detached	1 sq. ft. of sign area per 5-lineal feet of street frontage up to a max. of 32 sq. ft.	8-feet detached	Illumination is allowed if the sign is adjacent to an arterial or collector street. (2)

(1) A non-residential use in T4NF is allowed one (1) additional attached sign on a street and one (1) additional attached sign on an alley frontage, not to exceed thirty-two (32) sq. ft.

(2) Street classification is based on the Mesa Transportation Plan.

C. The following two (2) Tables provide the attached and detached permanent sign allowances for OC. The maximum aggregate sign allowance for all signage (attached and detached) is thirty-two (32) sq. ft.

Table 11-43-3-C-1: Attached Sign Allowances per Occupancy			
Occupancy	**Max. Number of Permitted Signs**	**Sign Area Calculation**	**Min. Individual Sign Area (2)**
Single-Occupant Building	2 attached signs	1 sq. ft. of sign area per front foot of building occupancy (1)	24 sq. ft.
Multiple-Occupant Building	1 attached sign per occupancy	1 sq. ft. of sign area per front foot of building occupancy (1)	20 sq. ft.

(1) The sign area applies only to occupancies with an exterior wall. When there is more than one (1) exterior wall, the longest wall can be used to calculate the maximum sign allowance.

(2) Each occupant with an exterior wall is allowed this minimum individual sign area regardless of the front foot of the building occupancy.

Table 11-43-3-C-2: Detached Sign Allowances per Development		
Max. Number of Permitted Signs	**Sign Area Calculation**	**Max. Height**
1 detached sign per street	1 sq. ft. of sign area per 5-lineal feet of street frontage	8-feet

D. The following four (4) Tables provide the attached and detached permanent sign allowances in NC, LC, GC, PS, PEP, LI, GI, and HI.

1. The standard allowances for attached signs per occupancy are provided in Table 11-43-3-D-1.

Table 11-43-3-D-1: Standard Attached Sign Allowances Per Occupancy			
Front Foot of Building Occupancy (1)	**Max. Number of Permitted Signs**	**Max. Aggregate Sign Area Calculation**	**Max. Area Per Sign**
80-feet or Less (2)	2 signs	2 sq. ft. of sign area per front foot of building occupancy	160 sq. ft.
81 to 199-feet	3 signs	160 sq. ft. is allowed	160 sq. ft.
200 to 249-feet	4 signs	80% of lineal front foot of occupancy,	160 sq. ft.

Table 11-43-3-D-1: Standard Attached Sign Allowances Per Occupancy			
Front Foot of Building Occupancy (1)	**Max. Number of Permitted Signs**	**Max. Aggregate Sign Area Calculation**	**Max. Area Per Sign**
250-feet or More	5 signs, plus one additional sign for every additional 50-feet of occupancy up to a max. of 7 signs	80% of lineal front foot of occupancy up to a max. of 500 sq. ft.	160 sq. ft.

(1) If an occupancy(s) has more than one exterior wall, the longest wall is used to calculate the sign allowance.

(2) Each occupant is allowed a minimum of twenty-four (24) sq. ft. of sign area regardless of front foot of building occupancy.

2. In lieu of the standard attached sign allowances in Table 11-43-3-D-1, a single occupant pad building under 5,000 sq. ft. of gross floor area may use the attached sign allowance in Table 11-43-3-D-2.

Table 11-43-3-D-2: Optional Attached Sign Allowances for Single Occupant Pad Buildings Under 5,000 sq. ft. of Gross Floor Area		
Max. Number of Permitted Signs	**Max. Aggregate Sign Area Calculation (1)(2)**	**Max. Area Per Sign**
4 signs	2 sq. ft. of sign area per lineal foot of the widest building elevation up to a max. of 160 sq. ft.	80 sq. ft.

(1) Sign shall not exceed more than 50% of the width of the building elevation.

(2) A single-occupant pad building is allowed a minimum of 24 sq. ft. of sign area regardless of the widest building elevation.

3. The standard allowances for detached signs per development are provided in Table 11-43-3-D-3.

Table 11-43-3-D-3: Standard Detached Sign Allowances per Development			
Max. Number/Height	**Max. Aggregate Sign Area Calculation**	**Max. Height**	**Max. Area Per Sign**
One (1) Sign: 1-foot of sign height per 10 lineal feet of street frontage **Multiple Signs:** 1-foot of sign height per 20 lineal feet of street frontage	1 sq. ft. of sign area per lineal foot of street frontage	12-feet	80 sq. ft.

4. In lieu of the standard detached sign allowances in Table 11-43-D-3, commercial use developments with a minimum of three (3) separate occupants and more than four-hundred (400) feet of frontage along a single street frontage may use the detached sign allowance in Table 11-43-3-D-4 for one (1) sign within the development.

Table 11-43-3-D-4: Optional Detached Sign Allowance for Commercial Use Development with 3 Separate Occupants and more than 400-feet of Frontage		
Max. Number/Height	**Max. Area Per Sign**	**Reference**
The 120-sq. ft. max. sign can be up to 14-feet in height and all other detached signs shall not exceed 8-feet in height	One (1) sign at a max. of 120-sq. ft. and all other detached signs shall not exceed 50 sq. ft.	Use Table 11-43-3-D-3 to determine max. allowances for all detached signs in the development

E. Attached and detached sign allowances in DB-1, DB-2, and DC (outside of the Downtown Pedestrian Area [DPA]) are provided in Table 11-43-3-E. In addition to the requirements in this Chapter, a sign in this Sub-section has the following additional requirements:

1. Attached signs must use individual letters. An attached cabinet sign is not permitted.

2. Neon signs are permitted provided the neon is complementary and harmonious with the primary color(s), style, and architecture of the building or development.

3. A comprehensive sign plan is required for sign(s) located on the upper story of a building when the building exceeds two (2) stories in height.

Table 11-43-3-E: Attached and Detached Sign Allowances per Development			
Sign Type	**Sign Area Calculation**	**Max. Number of Permitted Signs**	**Max. Height/Placement**
Attached	**General Allowance** 2 sq. ft. of sign area per front foot of building occupancy up to a max. of 120 sq. ft. All occupants allowed a min. of 32 sq. ft. (1, 2)	1 per street and 1 per alley frontage	Below parapet
	Additional Allowance Window: 30% of window	—	—
	Additional Allowance Awning: 1 sq. ft. of sign area per linear foot of awning up to a max. of 50% of awning	1 per street frontage	A min. of 8-feet above the sidewalk
Detached	1 sq. ft. of sign area per linear foot of street frontage up to a max. of 32 sq. ft.	1 per street frontage	5-feet (3)

(1) A sign attached to a single tenant building shall not exceed more than fifty percent (50%) of the width of the building elevation upon which the attached sign is placed. A sign attached to a single tenant space of a multi-tenant building, as determined by the issuance of a separate Certificate of Occupancy for the specific tenant space, shall not exceed more than seventy-five percent (75%) of the width of the front of the occupancy upon which the attached sign is placed.

(2) An attached sign is allowed on the occupant's building only.

(3) The sign copy horizontal-to-vertical ratio cannot exceed two to one (2:1).

F. Attached permanent sign allowances in DC (in the DPA), T4MS, T5MSF, T5MS, and T6MS are provided in Table 11-43-3-F.

Table 11-43-3-F: Attached Permanent Sign Allowances per Development					
Sign Type	**Max. Number of Permitted Signs**	**Sign Area Calculation, Street Frontage**	**Sign Area Calculation, Alley Frontage**	**Max. Sign Length**	**Placement**
Wall Sign (Single-Occupancy) (1, 4, 5, 7)	1 per street frontage and 1 per alley frontage	1 sq. ft. of sign area per linear foot of street frontage up to a max of 40 sq. ft.	½ sq. ft. of sign area per linear foot of alley frontage up to a max of 20 sq. ft.	50% of building	No higher than 4-feet below top of building or 25-feet from grade, whichever is less
Wall Sign (Multi-Occupancy) (1, 4, 5, 7)	1 per street frontage and 1 per alley frontage	1 sq. ft. of sign area per linear foot of street frontage up to a max of 30 sq. ft.	½ sq. ft. of sign area per linear foot of alley frontage up to a max of 15 sq. ft.	50% of building	No higher than 4-feet below top of building or 25-feet from grade, whichever is less
Awning Sign (3, 5)	1 per street frontage and 1 per alley frontage	1 sq. ft. of sign area per linear foot of awning	1 sq. ft. of sign area per linear foot of awning	50% of awning	—
Blade Sign (7)	1 per street frontage	Max. of 60% of the face of the blade	—	60% of the depth of the blade	No higher than 1-foot below the top of the blade
Hanging Sign (Parallel to Street) (6, 7)	1 per street frontage and 1 per alley frontage	10 sq. ft.	8 sq. ft.	10-feet	No higher than ceiling of the canopy and no lower than 8-feet from grade
Hanging Sign (Perpendicular to Building) (6, 7)	1 per street frontage and 1 per alley frontage	6 sq. ft.	4 sq. ft.	6-feet	Top no higher than 14-feet and bottom no lower than 8-feet from grade
Marquee Sign (7, 10)	1 per street frontage	Max. of 60% of the face of the marquee	—	60% of the length of the marquee	Below the top of the marquee
Outdoor Display Case	1	4 sq. ft.	—	—	—
Projecting Sign (1, 7, 8, 9, 11)	1 per street frontage and 1 per alley frontage	1 sq. ft. of sign area per linear foot of street frontage up to a max of 36 sq. ft.	½ sq. ft. of sign area per linear foot of alley frontage up to a max of 12 sq. ft.	—	Min. of 8-feet above pedestrian sidewalk, 14-feet above vehicular drive
Window Sign (2)	1	Max. 30% of window	—	—	—

(1) Must use individual letters. An attached cabinet sign is not permitted.

(2) A window sign is only allowed on the first and second story of the building.

(3) An awning sign is only allowed on the ground floor of the building. Two-story architectural entry elements may include an awning sign over the entry.

(4) A wall-mounted sign is allowed on the colonnade in lieu of a wall-mounted sign on the building.

(5) A comprehensive sign plan is required for a sign(s) located on the upper story of a building when the building exceeds two (2) stories.

(6) Cannot be illuminated.

(7) A neon sign is permitted provided the neon is complementary and harmonious with the primary color(s), style, and architecture of the building or development.

(8) A projecting sign mounted at the corner of the building must be installed at a forty-five-degree (45°) angle. A Projecting sign mounted on a wall parallel to the street must be mounted at a ninety-degree (90°) angle. A projecting sign must maintain a twelve (12) feet minimum separation from any other projecting sign.

(9) A projecting sign is permitted in lieu of a wall-mounted sign. A projecting sign cannot be placed on the colonnade.

(10) Exposed bulbs are allowed when the bulbs are an integral component of the design of a marquee.

(11) A projecting sign shall not extend more than four (4) feet from the face of the building and no more than two (2) feet above the parapet.

G. **ID District.** Attached and detached permanent sign allowances for properties in the ID District are permitted as follows:

1. Signs in the ID-1 District are permitted as provided in the base zoning district, unless specified otherwise in the adopted infill incentive plan, or by an adopted comprehensive sign plan approved in accordance with Section 11-45-3.

2. Signs in the ID-2 District are permitted as provided in the adopted infill incentive plan, or by an adopted comprehensive sign plan approved in accordance with Section 11-45-3.

H. **PC District.** Attached and detached permanent sign allowances for properties in the PC District shall be as specified in the community plan, or by an adopted comprehensive sign plan approved in accordance with Section 11-45-3.

I. **EO District.** Attached and detached permanent sign allowances for properties in the EO District shall be as specified in the specific EO District Development Plan, or by an adopted comprehensive sign plan approved in accordance with Section 11-45-3.

(Ord. No. 5996, § 4, 3-9-26)

11-43-4: DRIVE-THRU AND DRIVEWAY SIGNS

Driveway and Drive-Thru Lane Signs. Driveway and drive-thru lane signs do not count against the detached permanent sign allowance.

11-43-5: ELECTRONIC MESSAGE PANELS

Permanent signs may use electronic message panels, when the panel is not considered animated, and in compliance with the following requirements, as may be applicable:

A. **Standards for Message Display.** Each message is displayed for a minimum period of eight (8) seconds with no movement or motion. As defined below, message change is permitted through fade, dissolve, travel, or scrolling modes not to exceed two (2) seconds in transition.

1. ***Fade:*** A sign where static messages are changed by means of varying light intensity, where the first message gradually reduces intensity to the point of not being legible and the subsequent message gradually increases intensity to the point of legibility.

2. ***Dissolve:*** A sign where static messages are changed by means of varying light intensity or pattern, where the first message gradually appears to dissipate and lose legibility simultaneous to the gradual appearance and legibility of the subsequent message.

3. ***Travel:*** A sign where the message is changed by the apparent horizontal movement of the letters or graphic elements of the message.

4. ***Scrolling:*** A sign where the message is changed by the apparent vertical movement of the letters or graphic elements of the message.

B. **Lighting Controls Required.** The electronic message panel shall include automatic lighting control technology, such as the use of photocells, to control and vary the intensity of lighting depending on the amount of ambient light present (e.g. daytime, nighttime, partial shade or cloudy conditions).

1. ***Nighttime Illumination Limit.*** The intensity of the lighting from dusk until dawn shall not exceed a 0.3 foot-candle difference between the off and solid message measurements using the illumination measure provided in Section 11-41-7-C.

2. The electronic message panel shall not be illuminated between 11:00 p.m. and sunrise if the following conditions exist:

   a. The sign is located in or within one-hundred fifty (150) feet of Single Residence (RS), Downtown Residential 1 and 2 (DR-1 and DR-2), Multiple Residence (RM), or Small Lot Residence (RSL) zoning districts, or in a T3 Neighborhood (T3N); and

   b. There is no intervening building or other permanent structure that completely screens the electronic message panel from the residential site.

3. ***Certification.*** Prior to the issuance of a sign permit for an electronic message panel, the applicant shall provide a written certification from the owner of the sign attesting that said owner has read

and understands the provisions of this Section, Section 11-41-3-B, and 11-41-7-C, and agrees to abide by said Section, and agrees to cooperate with City of Mesa staff with regards to any nighttime testing that may be necessary should the 0.3 foot-candle limitation be at question.

C. **Wall Signs.** An electronic message panel may be used as a wall sign.

11-43-6: FLAGPOLES AND FLAGS

Flagpoles and flags shall comply with the following standards:

A. **Flagpoles.**

1. No more than three (3) flagpoles are allowed on an individual lot or parcel, or within a Group C-O-I Development. This limitation applies to model home offices in single residence subdivisions, multiple tenant non-residential developments, and similar multi-user sites. A flagpole may be wall-mounted or in-ground.

2. An in-ground flagpole may require a building permit as required by Title 4 of the Mesa City Code to ensure the flagpole is structurally sound and complies with all requirements of the Zoning Ordinance.

3. The minimum setback for in-ground flagpoles shall equal one-half (½) the setback required for a principal building as set forth by the zoning district in which it is located.

4. The height of wall-mounted and in-ground flagpoles is regulated by Section 11-30-3, Exceptions to Height Limits in the Zoning Ordinance.

B. **Flags.**

1. A sign permit is not required to display a flag.

2. The length of each flag, which is the longer side of a flag that is perpendicular to the flagpole, shall not exceed one-third (1/3) of the in-ground flagpole height on which the flag is attached. When attached to a wall-mounted flagpole, the length of the flag shall not exceed one-third (1/3) of the maximum height allowed by the zoning district in which the flag is displayed.

3. Unless otherwise required or authorized by state law, no more than two (2) flags are allowed on a flagpole, from a flag bracket, or on a flag stanchion.

4. Flags may be externally illuminated in compliance with the provisions of the Mesa Building Code.

11-43-7: FREEWAY LANDMARK MONUMENTS (FLM)

A. **Purpose and Intent.** The purpose and intent of this Section is to:

1. Promote the effectiveness of individual Freeway Landmark Monuments by preventing the over concentration, improper placement, deterioration, excessive size, and excessive number.

2. Regulate advertising distractions that may contribute to traffic accidents, thereby protecting travelers from injury or damage due to distraction or obstruction of vision, and enhancing the flow of traffic, visual environment, and the convenience, ease, and enjoyment of travel along Mesa's freeways.

3. Assure that public benefits derived from expenditures of public funds for the improvement and beautification of freeways and other public structures and spaces are protected by exercising reasonable control over the character and design of large sign structures.

B. **Applicability.** The provisions of this Section prevail if conflicts occur with other portions of the Sign Ordinance and govern Freeway Landmark Monuments, regardless of which provisions imposes a greater restriction.

C. **Eligibility Requirements.** To be eligible for a Freeway Landmark Monument, a development site must meet the following requirements:

1. ***Zoning Districts.*** The development site must be zoned Limited Commercial (LC), General Commercial (GC), Planned Employment Park (PEP), Light Industrial (LI), or General Industrial (GI). If the development site is zoned Planned Community (PC) or Infill District-2 (ID-2), a Freeway Landmark Monument may be permitted in conjunction with a commercial or industrial use, if specified as permitted in the approved Community Plan or Infill Plan.

2. ***Minimum Site Area.***

a. The development site must be at least thirty (30) contiguous acres in size.

b. This requirement may be met by one parcel of land thirty (30) acres or more in size, or a combination of adjoining parcels of land that are not separated by a right-of-way dedicated to the City, that are collectively thirty (30) acres or more in size.

3. ***Frontage.*** The development site must have frontage on a freeway and an intersecting arterial street.

D. **Authorization.** Freeway Landmark Monuments require the following recommendations and approvals:

1. Recommendation by the Design Review Board;

2. Recommendation by the Planning and Zoning Board;

3. Approval and issuance of a Council Use Permit in accordance with Section 11-70-6 of the Zoning Ordinance and the standards contained within this Section; and

4. Issuance of a sign permit in accordance with Title 11, Chapter 47 of the Zoning Ordinance.

E. **General Development Standards.** Freeway Landmark Monuments are required to comply with A.R.S. Title 28, Chapter 23, Article 1, and the development standards established in this Section.

F. **Number, Sign Area, and Height Requirements.**

1. ***Maximum Number.***

a. Eligible development sites are allowed a maximum of one (1) Freeway Landmark Monument, except as set forth in Subsection (b) below.

b. Eligible development sites with more than 2,000 linear feet of freeway frontage and that are 60 contiguous acres or more in size are allowed a maximum of two (2) Freeway Landmark Monuments.

2. ***Sign Area.***

a. The maximum sign area of a Freeway Landmark Monument is determined by the following ratio: maximum one (1) square foot of total sign area per two (2) lineal feet of freeway or arterial frontage, whichever is greater.

b. In no instance may the maximum sign area exceed 750 square feet.

3. ***Maximum Height.***

a. The maximum height of a Freeway Landmark Monument, including any support structures, attachments, and embellishments, shall not exceed sixty (60) feet, unless a modification to the maximum height is granted as set forth in Section 11-43-7(J)(l) and Subsection c. below.

b. **Height Measurement.**

i. If the natural grade at the base of a Freeway Landmark Monument is higher than, or at the same grade as the freeway, the Freeway Landmark Monument height shall be measured as a vertical distance from the average elevation of the natural grade within a 50-foot radius from all sides of the Freeway Landmark Monument base to the highest point of the Freeway Landmark Monument.

ii. If natural grade at the base of the Freeway Landmark Monument is lower than the grade of the freeway or has been reduced to provide a storm water retention basin, the heigh of the Freeway Landmark Monument shall be measured from the freeway elevation to the highest point of the Freeway Landmark Monument.

c. **Height Exception.** A modification to the maximum height limit may be granted per Section 11-43-7(J)(1), if the following are demonstrated:

i. A 60-foot-tall sign is not visible from a vehicle approaching on the same side of the freeway within a sufficient distance to permit vehicles to safely exit the freeway;

ii. The proposed sign is no higher than reasonably necessary for the topmost portion of the sign (including sign embellishment) to be visible from a vehicle approaching on the same side of the freeway and located within sufficient distance to permit vehicles to safely exit the freeway; and

iii. Visibility of sign area assigned to tenant(s) may not be used as the basis to justify additional sign height.

d. If a height modification is granted, the maximum height of a Freeway Landmark Monument may be increased but shall not exceed ninety (90) feet.

G. **Spacing Requirements.**

1. ***Freeway Landmark Monuments.***

a. No portion of a Freeway Landmark Monument may be placed within 2,000 feet of another Freeway Landmark Monument distance measured from the nearest edge of the Freeway Landmark Monument face to the nearest edge of the nearest Freeway Landmark Monument face on the same side of the freeway.

b. No more than three (3) Freeway Landmark Monuments are permitted on one (1) side of the freeway within one (1) lineal mile of freeway frontage.

2. ***Billboards.*** No portion of a Freeway Landmark Monument may be placed within 1,000 feet of a Billboard, including Billboards located on adjacent properties or in neighboring jurisdictions, the distance measured from the nearest edge of the Freeway Landmark Monument face to the nearest edge of the nearest Billboard face.

3. ***Residential Zoning District or Residential Use.***

a. No portion of a Freeway Landmark Monument may be placed within 500 feet of a Residential Zoning District (RS, RSL, or RM) or residential use unless:

i. The residential use is part of a mixed-use development; or

ii. A line-of-sight study or balloon test is conducted and demonstrates the Freeway Landmark Monument will not be visible to or from any Residential Zoning District or residential use within 500 feet.

b. In no case may any portion of the Freeway Landmark Monument be placed within 400 feet of a residential use that is not part of a mixed-use development or a Residential Zoning District.

4. ***Setback Requirements.*** Setbacks for Freeway Landmark Monuments must adhere to the standards of the underlying base zoning district except for setbacks from the freeway, in which the following setbacks shall apply:

a. *Minimum Setback from Freeway.* The minimum setback to a freeway right-of-way is zero (0) feet, distance measured from the nearest edge of the Freeway Landmark Monument face to the nearest edge of the freeway right-of-way.

b. *Maximum Setback from Freeway.* A Freeway Landmark Monument must be located within 250 feet of a freeway right-of-way, distance measured from the furthest edge of the Freeway Landmark Monument face to the nearest edge of the freeway right-of-way.

c. *Encroachment into Right-of-Way Prohibited.* No portion of a Freeway Landmark Monument shall overhang or encroach into the right-of-way.

H. **Design Standards.**

1. ***Architectural Compatibility.*** Freeway Landmark Monuments must complement the development site's primary architecture by incorporating design elements from the development site, such as, materials, form, texture, color, and finish.

2. ***Materials.*** Freeway Landmark Monuments shall be constructed with low maintenance, architectural-grade surfacing materials such as metal, masonry, ceramic tile, glass or stucco.

3. ***Project Identification.*** The project or destination name should be clearly visible and located towards the topmost visible portion of the Freeway Landmark Monument or located vertically along the side of the Freeway Landmark Monument.

4. ***Lighting Controls.***

a. *Exposed Lighting.* A Freeway Landmark Monument, or portion thereof, may be outlined by exposed neon, argon or krypton tubing, exposed incandescent lighting, or other exposed artificial lighting provided that the subject exposed lighting complies with all of the following:

i. It constitutes a design component of the overall Freeway Landmark Monument architecture;

ii. Is integrated into the primary physical elements of the Freeway Landmark Monument and is harmonious with the architectural style of the structure;

iii. Serves only the purpose of embellishing the nighttime architecture of the Freeway Landmark Monument, and does not portray an advertising message;

iv. Is compatible with the land use and architecture of adjacent developments; and

v. Complies with Section 11-41-3(B) of the Zoning Ordinance regarding signage illumination and the National Electrical Code, as evidenced by submittal of complete design plans and specifications.

b. *Internal illumination.*

i. Internally illuminated signs shall have opaque backgrounds so that only the sign copy is illuminated.

ii. Where a background is integral to the design of a corporate image or registered trademark, the background is to be colored to mute the amount of illumination.

c. *Nighttime Illumination.*

i. Nighttime illumination is limited to the sign copy or sign message.

ii. Illumination must be extinguished in nighttime hours (from 11:00 p.m. until sunrise).

d. *Maintenance.* If any component of the lighting becomes nonfunctional, none of the lighting system may be illuminated until the entire lighting system is repaired and is functioning as intended.

I. **Electronic Message Display.**

1. ***Copy Change.*** Copy may not change more than once every eight (8) seconds.

2. ***Message Animation Prohibited.***

a. Animation, video, flashing, blinking, or moving lights are prohibited.

b. In the transition between copy, there shall not be any sense of movement from one message to the next. No continuous, traveling or scrolling displays are allowed.

3. ***Electronic Message Display Lighting Controls.***

a. *Automatic Dimming.* Electronic message displays must include automatic lighting control technology to dim, control, and vary the intensity of the display based on ambient light conditions (e.g. evening and nighttime) through a photoelectric sensor that detects ambient light levels and automatically adjusts the display intensity to ensure compliance with the maximum nit levels in this Section 11-437(1).

b. *Evening Illumination.* The intensity of the electronic message display lighting shall not exceed 300 nits in full white mode in evening hours (from sunset until 11:00 p.m.).

c. *Nighttime Illumination.* Illumination of electronic message displays must be extinguished in nighttime hours (from 11:00 p.m. until sunrise).

d. *Certification.* The applicant must provide written certification from the sign manufacturer that the sign's light intensity has been factory pre-set not to exceed the limits specified above, and the intensity level is protected from end-user manipulation by password-protected software or other method.

J. **Modifications to Development Standards.** City Council may approve modifications or alternatives to the development standards in this Section upon finding:

1. ***Site Characteristics.*** The development site contains unique or unusual physical conditions, such as topography, proportion, sire, or relation the freeway that would limit or restrict visibility; or

2. ***Design.***

a. The proposed or existing development exhibits unique characteristics of land use, architectural style, development site location, physical scale, historical interest or other distinguishing feature that represents a clear variation from conventional development; and

b. Such modifications or alternatives are consistent with the intent of these Freeway Landmark Monument provisions and will result in conditions that are commensurate with or superior to the development standards contained in this Section.

K. **Maintenance.**

1. All Freeway Landmark Monuments must be maintained according to this Section 11-43-7(K).

2. It is unlawful for a Freeway Landmark Monument to remain in a damaged or deteriorated condition that constitutes a danger or hazard to public safety or a visual blight.

3. All Freeway Landmark Monuments must be maintained to the following standards of structural repair and visual appearance:

a. All structural and nonstructural components must be positioned and secured in accordance with approved plans for the Freeway Landmark Monument;

b. Any deteriorated, damaged, or weakened components must be promptly repaired or replaced;

c. All copy and painted surfaces of a Freeway Landmark Monument must be free of chipping, peeling, rusting or other oxidation of metals, and fading of colors;

d. Freeway Landmark Monuments must be maintained in working order; and

e. If a permit is required per Title 4 of the Mesa City Code for any Freeway Landmark Monument maintenance or repair activities, the permit must be obtained prior to commencing work and all work must be done in accordance with permit requirements.

(Ord. No. 5886, § 1, 11-18-24)

11-43-8: MURALS

Any portion of a mural that contains sign copy that is more than two (2) inches in height and is of sufficient size that it is readable or identifiable from beyond the lot boundary or within fifty (50) feet of the sign, whichever is greater, is counted against the maximum allowed sign area.

11-43-9: STATUES, SCULPTURES AND THREE-DIMENSIONAL FIGURES

A. **Permitted.** Signs that include statues, sculptures, or other three-dimensional figures are permitted in all Multiple Residence, Commercial, and Industrial Districts and Transects.

B. **Sign Allowance.** Fifty percent (50%) of the area of the statue, sculpture, or three-dimensional figure shall be deducted from the total allowable sign area for that tenant, development or parcel (as applicable) if it meets the following criteria:

1. The figure is either:
    a. Attached to the building and placed within one-hundred (100) feet from the nearest right-of-way; or
    b. Detached from the building and placed within one-hundred (100) feet from the nearest right-of-way; and,
2. The vertical height of the figure is more than twelve (12) feet; and,
3. The longest horizontal distance of the figure is more than ten (10) feet.

Statues, Sculptures and Three-Dimensional Figures that do not meet the criteria above will not be deducted from the total allowable sign area for that tenant, development or parcel.

11-43-10: SUBDIVISION ENTRY SIGNS

A. **Allowance.** A subdivision may display permanent signs subject to all of the following:

1. No more than two (2) entries to the subdivision may display a sign. Each entry is limited to either:
    a. Two (2) wall-mounted, single face signs; one (1) on each side of an entry; or
    b. One (1) double-faced monument sign placed on one (1) side of an entry and oriented so the long axis is perpendicular to the intersecting street.
2. Each sign shall not exceed twenty (20) square-feet of sign area.
3. Signs shall consist of low-maintenance materials; such as metal or ceramic tile.
4. Signs shall be located on private property, and not within the right-of-way.

B. **Illumination of Subdivision Entry Signs.**

1. **Source of illumination.** Subdivision entry signs may only utilize indirect lighting, such as halo illumination, or downcast exterior illumination in compliance with Section 4-1-4 of the Mesa City Code.
2. Upcast exterior illumination and interior illumination through a translucent panel are prohibited.

11-43-11: WINDOW SIGNS

Window signs are allowed and regulated as follows:

A. In zoning districts and transects as provided in Tables 11-43-3-E and 11-43-3-F.

B. In all other zoning districts:

1. Window signs may cover up to twenty-five percent (25%) of the area of the window and shall not be counted towards the maximum attached allowable sign area.

CHAPTER 44 HISTORIC SIGNS*

11-44-1: HISTORIC SIGNS

A. **Purpose and Intent.** This Section provides standards and procedures for the preservation and maintenance of a sign designated as historic. The intent of this Section is to recognize the historic character of Mesa's older commercial areas through the preservation of historic signs.

B. **Eligibility.** A sign is designated historic if it meets the following criteria:

1. The sign has been in continuous existence, at its present location, for not less than fifty (50) years and the appearance of the sign has remained substantially the same during this time-period;

2. The sign is of exemplary technology, craftsmanship, and design for the period in which it was constructed;

3. The sign uses historic sign materials from the time-period of the signs construction, and has retained those materials;

4. The sign uses some form of exposed neon lighting, electrified glass tubes, bulbs that contain rarefied neon, or another means of illumination for the time-period in which the sign was established; and

5. The sign is unique in that it demonstrates extraordinary aesthetic quality, creativity, or innovation.

C. **Application Requirements.** Only the sign owner may initiate a request for historic sign designation. The sign owner must apply, to the office of the Planning Division, in accordance with the application procedures in Chapter 67 of the Zoning Ordinance except that a Citizen Participation Plan is not required. In addition to the requirements in Chapter 67, the application must include the following:

1. A project narrative that includes:

a. The original construction date and location of the sign;

b. Statements and evidence of the height, size, location, materials and design of the sign, such as photographs, original drawings, approved permits, site plans, or other materials; and

c. Any other document(s) necessary to show the sign meets the eligibility requirements in Sub-section B.

***Editor's note—**Previously, Chapter 44 derived from Ord. No. 5457, 7-9-18.

2. A restoration and maintenance plan demonstrating:

   a. The sign is in operational order, or if the sign is not in operational order, identify the steps and the time frame necessary to make the sign operational within one-hundred and eighty (180) days. Include a list of any parts and materials that need to be replaced;

   b. The sign is structurally sound, or if the sign is not structurally sound, outline the steps and the time frame necessary to make the sign structurally sound. Explain the process that will be used to ensure the sign maintains its historic character; and

   c. Historic materials are available to continue maintenance of the sign and structure in its historic character.

D. **Review Procedures.** The Historic Preservation Officer (HPO) determines whether an application is complete. When an application is determined complete, a hearing is scheduled before the Hearing Preservation Board. The Historic Preservation Board will conduct a public hearing and render a decision. The Historic Preservation Board may approve the designation of a historic sign if the sign satisfies the review criteria in Sub-section E. The Historic Preservation Board may impose reasonable conditions to achieve the review criteria in Sub-section E, including but not limited to a statement of the character defining elements that must be maintained.

E. **Review Criteria.** When determining whether a sign is historic, the Historic Preservation Board must find that the sign(s) satisfies the following criteria:

1. The sign has been at its present location for not less than fifty (50) years.

2. The sign uses exemplary technology, craftsmanship, or design for the time-period in which it was constructed.

3. The sign uses historic materials for the time-period it was constructed and the availability of materials to maintain the historic character of the sign.

4. If the sign is not operational, the ability to restore the sign within one-hundred eighty (180) days.

5. If the sign uses exposed neon lighting, electrified glass tubes, bulbs that contain rarefied neon, or another means of illumination, it shall be from the time-period in which it was constructed.

6. The sign has a unique design that demonstrates aesthetic quality, creativity, or innovation.

F. **Public Notice.** Notice of the public hearing of the Historic Preservation Board shall be mailed at least fifteen (15) days before the scheduled hearing date by first class mail to all owners of property located within three-hundred (300) feet of the exterior boundary of the property that contains the proposed historic sign, based on the last assessment. The contents of the notice shall comply with 11-67-5-C of the Zoning Ordinance.

G. **Revocation of Historic Sign Designation.** The Historic Preservation Officer may revoke a historic sign designation if the sign is not maintained, modified, or repaired consistent with the Historic Preservation Board's findings and conditions of approval. A sign owner may appeal the Historic Preservation Officer's decision to the Historic Preservation Board, as provided in Chapter 77 of the Zoning Ordinance.

H. **Restoration, Maintenance and Repair.** The owner of a historic sign must restore, maintain, and repair the sign in accordance with this Section.

1. ***Restoration.*** Approval of a historic sign is subject to the sign being operational and restored consistent with the conditions approved by the Historic Preservation Board within one-hundred and eighty (180) days of the Board's approval. If a sign is not restored consistent with the conditions approved by the Board or is not operational within one-hundred and eighty (180) days of the Board's approval, the historic sign designation is automatically revoked. The owner of the historic sign can appeal this decision to the Historic Preservation Board as provided in Chapter 77.

2. ***Maintenance.*** Ordinary maintenance and repair of the historic sign is permitted, provided the maintenance does not change the material or design of the sign or alter the sign's character defining elements as per the Historic Preservation Board's approval.

3. ***Repair.*** If a historic sign is damaged or partially destroyed, the historic sign must either be removed, or restored or rebuilt consistent with the character defining elements of the Historic Preservation Board's approval.

4. ***Modifications.*** The Historic Preservation Officer may approve modifications to a historic sign that are consistent with the original findings and conditions approved by the Historic Preservation Board. The owner of the historic sign can appeal the Historic Preservation Office's decision to the Historic Preservation Board as provided in Chapter 77.

I. **Demolition Permits.** Prior to demolition of a designated historic sign, the consideration of a demolition permit, in accordance with the provisions in Sections 11-74-4-B-1, 11-74-4-B-2, and 11-74-4-C of the Zoning Ordinance, is required.

J. **Effect of Designation.** When a sign is designated as a historic sign and restored to its historic function and appearance:

1. The sign is exempt from the height and size requirements of this Sign Ordinance;

2. The sign is considered legal, conforming and the property on which the sign is located may redevelop without having to bring the historic sign into conformance with this Sign Ordinance; and,

3. The amount of sign area contained in the historic sign does not count toward the sign area or height allowed on the property.

CHAPTER 45 PROHIBITED SIGNS*

11-45-1: PROHIBITED SIGNS

A. The following signs are prohibited:

1. Discontinued Signs

2. Pennants, streamers, and whirligigs

***Editor's note—**Previously, Chapter 45 derived from Ord. No. 5457, 7-9-18.

3. Portable Message Center Signs.
4. Reflective Signs.
5. Animated Signs.
6. Signs that employ intermittent or flashing illumination, stereopticon, motion picture, rotation or other movement, visible moving parts, or any device creating the optical illusion of motion.
7. Signs that emit sound or odor.
8. The use of strobe lights or similar intermittent light devices, separately, or as part of a sign or to illuminate a sign.
9. Any sign which is structurally unsafe, unsafely installed, or otherwise hazardous to physical safety.
10. Signs not authorized by the property owner.

B. The following signs and conditions are prohibited:

1. Signs that are located within the right-of-way, other than signs governed by Sections 11-43-3-E and 11-43-3-F.
2. Signs that do not comply with the location, size, or use restrictions of this Sign Ordinance.
3. Signs placed so as to prevent or inhibit free ingress to or egress from any door, window, entry, exit, fire escape, building or site required by the Mesa Building Code, or by the Mesa Fire Code.
4. Signs attached to any public utility pole or structure, streetlight, tree, fence, fire hydrant, bridge, curb, sidewalk, park bench, bus bay, or other location on public property.
5. Signs placed in a location which obstructs the view of any traffic sign, signal, or other traffic-control sign, or of a vehicle operator entering, exiting, or traveling upon the right-of-way.
6. Signs that by way of shape, color, or position are confused with any authorized traffic-control or public directional sign.
7. Signs not maintained pursuant to Chapter 49.

C. The installation, construction, or display of any prohibited sign is unlawful and a violation of this Sign Ordinance.

(Ord. No. 5847, § 2, 3-4-24)

CHAPTER 46 USE PERMITS, VARIANCES, AND INTERPRETATIONS*

11-46-1: ADMINISTRATIVE USE PERMITS, SPECIAL USE PERMITS, COUNCIL USE PERMITS, AND VARIANCES

A. **Administrative Use Permits, Special Use Permits, and Council Use Permits.** If an Administrative Use Permit (AUP), Special Use Permit (SUP), or Council Use Permit (CUP) is required by this Sign Ordinance, an applicant shall apply with the office of the Planning Division. The application is processed in accordance with Chapter 67 and reviewed in accordance with Chapter 70 of the Zoning Ordinance.

***Editor's note—**Previously, Chapter 46 derived from Ord. No. 5457, 7-9-18.

B. **Variances.** An applicant requesting a variance from the provisions of this Sign Ordinance shall apply to the office of the Planning Division. The request is processed in accordance with Chapter 67 and reviewed in accordance with Chapter 80 of the Zoning Ordinance and ARS 9-462.06.

11-46-2: INTERPRETATIONS

A. **Authorization.** A person requesting an interpretation of the provision(s) of this Sign Ordinance shall make the request to the Zoning Administrator as provided in Section 11-66-7 of the Zoning Ordinance.

B. **Limits of interpretations.** An interpretation may not change the basic term(s) and provision(s) of this Sign Ordinance.

C. **Considerations required in making interpretation.** All interpretations of this Sign Ordinance are exercised with consideration of all policies, purposes, and guidelines established by the Mesa City Council, the intent set forth herein in this Sign Ordinance, and in a manner that is consistent with the First Amendment guarantee of free speech.

11-46-3: COMPREHENSIVE SIGN PLANS

A. **Authorization.** The Board of Adjustment may approve a Comprehensive Sign Plan for a proposed or existing development or building in conjunction with the granting of a Special Use Permit in accordance with Chapters 67 and 70 of the Zoning Ordinance.

B. **Purpose and Intent.** The purpose of a Comprehensive Sign Plan is to provide for the establishment of signage criteria that are tailored to a specific development or location, and which may vary from specific Sign Ordinance provisions. The intent is to provide for flexible sign criteria that promote superior design through architectural integration of the site, buildings, and signs. This does not allow for sign types that are not permitted within a zoning district.

C. **Minimum Required Elements of Comprehensive Sign Plan.** A Comprehensive Sign Plan shall include the location, size, height, construction material, color, type of illumination, and orientation of all proposed permanent and portable signs, and any other document(s) necessary to determine if the plan meets the review criteria.

D. **Review Criteria.** The Zoning Administrator Hearing Officer or the Board of Adjustment may approve a Comprehensive Sign Plan containing elements which exceed the permitted height, area, and number of signs specified in this Sign Ordinance if the Comprehensive Sign Plan conforms to the required findings in 11-70-5 of the Zoning Ordinance and upon a finding that:

1. The development site contains unique or unusual physical conditions, such as topography, proportion, size, or relation to a public street that would limit or restrict normal sign visibility; or

2. The proposed or existing development exhibits unique characteristics of land use, architectural style, site location, physical scale, historical interest, or other distinguishing features that represent a clear variation from conventional development; or

3. The proposed signage incorporates special design features such as lighting, materials and craftsmanship, murals, or statuaries that reinforce or are integrated with the building architecture.

E. **Sign Permit Required.** A sign permit is required for the construction and placement of individual signs contained in an approved Comprehensive Sign Plan.

F. **Comprehensive Sign Plan Expiration and Extensions.** The expiration and extension of Comprehensive Sign Plan approvals follows the common procedures for approvals and extensions in Section 11-67-9 of the Zoning Ordinance.

(Ord. No. 5996, § 3, 3-9-26)

CHAPTER 47 SIGN PERMITS*

11-47-1: SIGN PERMITS, INSPECTIONS, FEES, AND PENALTIES

A sign requiring a permit shall be erected, constructed, or relocated in compliance with all requirements of Title 4, Chapter 1 of the Mesa City Code including the requirements relating to permits, inspections, fees, and penalties.

11-47-2: SIGNS AND ACTIONS NOT REQUIRING A SIGN PERMIT

A. A sign permit is not required for the following signs or defined actions if such sign or action complies with the provisions of this Sign Ordinance. (Note: An electric permit is still required for any exterior electric signs.)

1. A change in sign face with no structural or electrical changes or alterations;
2. All signs six (6) square feet or less in area and not otherwise prohibited by Chapter 45 of this Sign Ordinance;
3. Unilluminated portable signs thirty-two (32) square feet or less in area, and specifically listed as permitted by Chapter 42 of this Sign Ordinance;
4. Standard sign maintenance, as defined in Section 11-50-1;
5. Relocation of a sign when required as an action of the City or another governmental agency;
6. Window Sign;
7. Flag; or
8. Vehicle Sign.

B. All other signs or actions require a sign permit.

11-47-3: SIGN PERMIT APPLICATION REQUIREMENTS

Application Requirements. An applicant must apply for a sign permit in compliance with Sections 4-1-4 of the Mesa City Code. In addition to the requirements in Section 4-1-4, the application must include:

A. All required fees;

B. Graphic depictions of the sign, in plan and elevation views, including:

1. A description of the sign type and materials used for the sign and sign structure;

***Editor's note—**Previously, Chapter 47 derived from Ord. No. 5457, 7-9-18.

2. Dimensions of the sign or sign panel defining the proposed sign area including sign copy;

3. Dimensions of the sign structure; and

4. Sign location.

C. Construction specifications, including structural calculations;

D. Specifications and designs for electrical components and wiring (if applicable);

E. The method of attachment if the sign is attached to a building or similar structure;

F. Design of structural members for attached signs; and

G. Scale drawings depicting the following:

1. Location(s) and distance(s) of the leading edge of the sign (attached or detached) that is closest to:

a. The adjacent property line(s) that is not coterminous with a right-of-way line;

b. The future width line of the closest adjacent street; and

c. The right-of-way; and

2. The zoning for the parcel where the proposed sign(s) are located and the zoning for all abutting parcels.

H. Demonstrated conformance with the conditions of any approved use permit.

I. Demonstrate there are no unauthorized signs on the property by providing current photographs of the entire property.

11-47-4: GENERAL PROVISIONS

A. **Public or Private Nuisance.** A sign permit issued by the City does not constitute permission or authorization to maintain a public or private nuisance, and does not constitute a defense in any action to abate a nuisance.

B. **Sites Displaying Existing Prohibited Signs.** The City will not issue a sign permit for new or additional signs if a site currently displays an unlawful or prohibited sign(s). The City may issue a sign permit provided the term of the permit specifies the modification or removal of all unlawful or prohibited signs on the property.

C. **Conformance with Approved Plans.** A sign for which a sign permit is issued shall be constructed, installed, maintained, or displayed in complete conformance with all terms, requirements, and stipulations specified by the approved plans and sign permit, including visual appearance requirements as specified in Section 11-43-3.

11-47-5: REQUIRED INSPECTIONS

A sign which requires a sign permit is subject to the following inspections, unless waived by the Building Official or designee:

A. Footing inspections on all detached signs, including situations where square footage or panels are added to existing detached signs.

B. Electric inspections on all electrical signs, prior to placement.

C. Final inspection which includes structural members, height, design, materials, and area.

D. Any other inspections required by Title 4 of the Mesa City Code.

11-47-6: SIGN PERMIT REQUIRED FOR COMPREHENSIVE SIGN PLAN

A sign permit is required for a sign(s) authorized by an approved Special Use Permit for a Comprehensive Sign Plan. The applicant must submit a sign permit application prior to the expiration of the Special Use Permit.

11-47-7: SIGNS PLACED WITHIN FUTURE WIDTH LINE OF RIGHT-OF-WAY

A. A sign permit for a sign(s) proposed within the future width line of right-of-way as specified in Section 11-2-3-L of the Zoning Ordinance, and not within the right-of-way, is allowed if authorized by:

1. An approved variance, or

2. As a replacement sign in accordance with Section 11-47-2-A-5 of this Sign Ordinance.

B. The sign owner must enter into the City's sign agreement. The sign agreement requires approval by the Planning Director. The City, upon receipt of an executed sign agreement, will issue a sign permit. The sign owner is responsible for the cost of relocating the sign(s), at the owners' expense, to an authorized location outside of the right-of-way when the right-of-way is widened or when required by the City in conjunction with a public improvement.

C. The sign owner must submit a Certificate of Insurance that complies with the City's current insurance requirements.

11-47-8: APPEAL OF DENIAL OR REFUSAL TO ISSUE A SIGN PERMIT

When the Building Official or designee, in consultation with the Zoning Administrator, refuses to issue a sign permit on the grounds of violation of this Sign Ordinance, the applicant or the owner of property owner may appeal the decision to the Board of Adjustment in accordance with Section 11-77-3 of the Zoning Ordinance. When the Building Official or designee refuses to issue a sign permit on the grounds of violation of the Building or Electrical Code, The applicant or the owner of the property may appeal such decision to the Building Board of Appeals in accordance with Title 4 of the Mesa City Code.

11-47-9: REVOCATION AND EXPIRATION OF A SIGN PERMIT

A. Pursuant to Title 4 of the Mesa City Code, the Building Official or designee may suspend or revoke a sign permit.

B. A sign permit expires if work under the sign permit is not commenced within one-hundred eighty (180) days of the issuance of the sign permit. The Building Official or designee may extend the sign permit if an applicant submits a request in writing demonstrating justifiable cause.

CHAPTER 48 LEGAL NONCONFORMING SIGNS*

11-48-1: MAINTENANCE, ALTERATION, OR REMOVAL OF LEGAL NONCONFORMING SIGNS

A. A legal nonconforming sign shall be maintained and may continue only in the manner and to the extent that it existed at the time of adoption of this Sign Ordinance, amendment to this Sign Ordinance, or extension of boundaries because of annexation into the Mesa corporate limits.

B. A legal nonconforming sign structure shall not be re-erected, relocated, or replaced unless it is brought into compliance with the requirements of this Sign Ordinance. If property is rezoned at the request or initiation of the property owner, including the opt-in process, the City, as a condition of the zoning, may require any nonconforming sign or sign structure be removed or brought into conformance with the provisions of this Sign Ordinance.

C. Any legal nonconforming sign shall be removed or rebuilt in full conformity to the terms of this Sign Ordinance if it is damaged or allowed to deteriorate to such an extent that the cost of repair or restoration is fifty-percent (50%) or more of the cost of reconstruction of the sign. In the event the sign is considered prohibited or discontinued, the sign shall be removed.

D. Existing detached signs located within the future width line of a street, as specified in Section 11-2-3-L, are not subject to the limits and conditions specified in Section 11-48-1-A through C provided the signs are in compliance with all other applicable provisions of this Sign Ordinance.

11-48-2: LEGAL NONCONFORMING SIGNS ON A SEVERED PARCEL

A. Notwithstanding any other provision of this Chapter, legal nonconforming signs that are located on a parcel of property which is severed from a larger parcel of property and acquired by a public entity for public use by condemnation, purchase, or dedication, may be relocated on the remainder parcel without extinguishing the legal nonconforming status of that sign if the nonconforming sign:

1. Is not increased in area or height;

2. Remains structurally unchanged except for reasonable repairs or alterations;

3. Is placed in the same relative position on the remaining property that it occupied prior to the relocation; and

4. Is relocated in a manner to comply with all applicable safety requirements.

B. After relocation, pursuant to this Sub-section, the legal nonconforming sign is subject to all provisions of this Sign Ordinance.

***Editor's note—**Previously, Chapter 48 derived from Ord. No. 5457, 7-9-18.

CHAPTER 49 MAINTENANCE, REMOVAL, DISPOSAL, VIOLATIONS, AND ENFORCEMENT*

11-49-1: MAINTENANCE

A. **General Provisions.** All conforming and legal nonconforming signs and sign structures, shall be maintained according to this Chapter. It is unlawful for a sign or sign structure to remain in a damaged, deteriorated condition that constitutes a danger or hazard to public safety or a visual blight. All signs shall be maintained to the following standards of structural repair and visual appearance:

1. All structural and nonstructural components are positioned and secured in accordance with approved plans for the sign;
2. Any deteriorated, damaged, or weakened components are promptly repaired or replaced;
3. All sign copy and painted surfaces of a sign are free of chipping, peeling, rusting or other oxidation of metals, and fading of colors, as detectable from beyond the lot boundary or within fifty (50) feet of the sign, whichever is less;
4. Components composed of plastic, acrylic, and other artificial or non-organic material compositions are free of cracks, holes, buckling, or any other condition affecting the strength and stability of the component, as detectable from beyond the lot boundary or within fifty (50) feet of the sign, whichever is less; and
5. Electrical signs are maintained in working order. Minimum maintenance requirements for electrical signs and electrical systems include but are not limited to: prompt removal and replacement of all defective bulbs, fluorescent tubes, neon or other inert gas light segments, damaged or deteriorated electrical wiring and diodes, and malfunctioning control devices and related circuitry.

B. If a permit is required per Title 4 of the City Code for any sign or sign structure maintenance or repair activities, the permit must be obtained prior to commencing work.

11-49-2: DETERIORATED SIGNS

A. A sign that is damaged or deteriorated:

1. Constitute a danger or hazard to public safety, and
2. A sign is considered visual blight, particularly when the following conditions are present:
   a. The sign is not repaired shortly after being damaged, and remains damaged;
   b. A sign continues to deteriorate, generally because of lack of basic maintenance or repair; or
   c. A sign cannot fully function or operate as designed, generally because of a lack of basic maintenance or repair.

B. A sign that remains damaged, deteriorated, or shows evidence of a lack of basic maintenance is prohibited.

C. Evidence of lack of basic maintenance shall include, but is not limited to:

1. Peeling, faded or deteriorating paint;
2. Cracked damaged, rusting or missing parts, posts or sign cabinets;

***Editor's note—**Previously, Chapter 49 derived from Ord. No. 5457, 7-9-18.

3. Incomplete, uneven or partial illumination (applicable to signs intended as illuminated), including non-functional light sources;

4. Faded, cracked, or damaged sign panels;

5. Any condition affecting the strength and stability of the component;

6. Electric signs no longer in working order, including: defective bulbs, tubes, neon light segments, damaged or deteriorating electrical wiring, and malfunctioning control devices and related circuitry.

11-49-3: PENALTIES FOR LACK OF SIGN MAINTENANCE

It is a violation of this Sign Ordinance for the owner of a sign to fail to maintain, repair or replace defective, malfunctioning, or broken parts of the sign, as described in this Chapter.

11-49-4: REMOVAL OF SIGNS

A. **Declaration of a Public Nuisance.** A sign is a public nuisance when in violation of the requirements of the Mesa City Code.

B. **Notice.** Before removing or bringing action to require the removal of any illegal, prohibited, or nonconforming sign, except for those signs in Sub-section D below, the City Manager or designee shall provide notice to the owner of the sign or the owner of the premises on which the sign is located. The notice shall state the reasons for removal, listing the deficiencies or defects in the sign with reasonable definiteness, and the penalties. The notice shall include what repairs or maintenance, if any, will make the sign conform to the requirements of the City Code. The notice shall specify that the sign must be removed or made to conform with the requirements of the Mesa City Code within the time-period identified in this Chapter. Service of notice shall be by any of the following methods:

1. By first class mail, postage prepaid, addressed to the owner, occupant, agent, manager, or responsible person at the last known address. Service by mail is deemed complete upon deposit in the U.S. mail;

2. By certified or registered mail;

3. Hand delivery to the record owner, occupant, agent, manager, or responsible person of the premises where the violation occurred, or to the person responsible for the violation;

4. By publication; or

5. By serving the owner, occupant, agent, manager, or responsible person in the same manner as provided by the Arizona Rules of Civil Procedure.

C. **Notice Period.** The notice period for permanent signs is twenty-eight (28) days and the notice period for portable signs is three (3) days. If the owner or lessee of the premises where the sign is located has not complied with this Chapter by the end of the notice period, the City Manager or designee may pursue enforcement as authorized in Section 11-49-5 of this Sign Ordinance.

D. **Notice Not Required.** The City Manager or designee is not required to provide written notice before removing or bringing action to require the removal of the following:

1. A sign that is placed within the right-of-way in violation of this Sign Ordinance;
2. A Prohibited or illegal sign placed on public property;
3. A sign that creates an immediate threat to public safety; and
4. A sign that is dangerous or defective.

E. **Removal of Signs.** The City Manager, or designee, is authorized to remove any sign posted in violation of this Sign Ordinance that are not removed or replaced by the owner or other responsible party when required in accordance with the provisions of this Sign Ordinance. The City may also file a civil complaint against the person who posted the sign to recover the costs of removing the sign.

F. **Disposal of Signs.** A sign removed in accordance with this Chapter may be impounded as evidence, or disposed of as abandoned property, unless claimed by the owner within thirty (30) days. Any sign removed by the City Manager or designee, pursuant with the provisions of this Sign Ordinance, shall become the property of the City and may be disposed in any manner deemed appropriate by the City. The cost of removal of the sign by the City is considered a debt owed to the City by the owner of the sign and the owner of the property, and is recoverable in an appropriate court action by the City, or by assessment against the property in accordance with Chapter 79 of the Zoning Ordinance. The cost of abatement or removal shall include any and all incidental expenses incurred by the City in connection with the sign abatement or removal.

11-49-5: VIOLATIONS

A. It is unlawful and constitutes a public nuisance for any person, firm, or corporation to construct, place, install, alter, change, maintain, or use any sign contrary to or in violation of any provision:

1. Of this Sign Ordinance;
2. Designated as a condition of approval of a land use action required by the Zoning Ordinance; or
3. Designated as a condition of approval for a sign or building permit.

B. The installation, construction, or display of any illegal or prohibited sign is unlawful and a violation of this Sign Ordinance.

11-49-6: ENFORCEMENT

Enforcement of the provisions of this Sign Ordinance shall be pursuant to the provisions contained in Chapter 79 of the Zoning Ordinance.

CHAPTER 50 DEFINITIONS OF TERMS USED IN THE SIGN ORDINANCE*

11-50-1: GENERAL PROVISIONS RELATED TO DEFINITIONS

This Chapter lists definitions of terms used primarily in chapters and sections of this Sign Ordinance (Article 5 of the Mesa Zoning Ordinance), but may be applicable as the context demands for other related portions of the

***Editor's note—**Previously, Chapter 50 derived from Ord. No. 5457, 7-9-18.

Zoning Ordinance and Mesa City Code. The terms are listed in alphabetical order. The photographs and illustrations used in this Chapter are intended to provide generalized examples and illustrate broad concepts, and are not to be used as exclusive or limited examples, or considered regulatory in nature. If a conflict exists between what is illustrated by the drawing or photograph, and the narrative text description in the definition, then the narrative text description is considered the controlling definition.

11-50-2: DEFINITIONS: A THROUGH C

Abandoned Sign: See Discontinued Sign.

Advertising For Hire Sign: As defined in Chapter 87 - Definitions.

Awning Sign: A sign that is a part of or attached to an awning.

Billboard: As defined in Chapter 87 - Definitions.

Blade Sign: A sign attached to a thin or narrow architectural feature of a building façade that projects from the building façade, typically at a ninety-degree (90°) angle.

Cabinet Sign: An internally illuminated sign in which a removable sign face, usually with translucent sign graphics, is enclosed within a single case, and the source of illumination is not visible. A cabinet sign may be multi-faced.

Canopy Sign: See Awning Sign.

Copy: The letters, numerals, figures, symbols, illustrations, logos, and graphic characters used to make up the sign message.
(Ord. No. 5847, § 3, 3-4-24)

11-50-3: DEFINITIONS: D THROUGH F

Discontinued Sign: A sign or sign structure located on a property that has been vacant or unoccupied for a consecutive period of one-hundred eighty (180) days or more, regardless of whether the owner intends to abandon the sign.

Downtown Pedestrian Area: The Downtown Pedestrian Area (DPA) is designated, as depicted in Figure 11-50-3-A below, as the east side of Country Club Drive to the west side of Mesa Drive, the south side of 1st Street to the north side of 1st Avenue. The centerline of the streets shall be construed to be the boundaries. This area is characterized as the most intensely developed governmental, cultural, and business core.

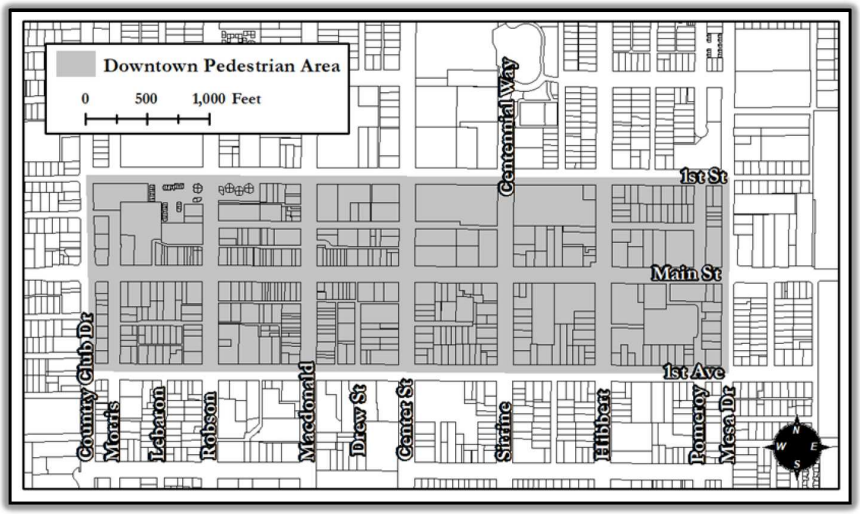

FIGURE 11-50-3-A: DOWNTOWN PEDESTRIAN AREA

Drive-thru Sign: A detached permanent sign not exceeding thirty-two (32) square feet in area and eight (8) feet in height located within five (5) feet of a drive-thru lane where the sign copy is designed to be readable only by the occupants of a vehicle in the drive-thru lane and the sign copy is not readable across a property line unless the property line is shared between parcels within the same Group C-O-I Development.

Driveway Sign: A detached permanent sign not exceeding three (3) square feet in area and three (3) feet in height located within five (5) feet of a driveway or drive aisle and within twenty (20) feet from a future width line of the adjacent public street.

Electric Sign: Any sign containing electrical wiring which is attached or intended to be attached to an electrical energy source, does not include signs illuminated by an exterior light source that is not an integral part of the sign.

Electronic Message Panel: A sign that is capable of displaying copy that is electronically or mechanically changed by remote or automatic means.

Embellishment: Structural or decorative elements of a sign incorporating representations of the significant architectural features of the associated building or development; does not include the portion of the sign structure counted as the sign area.

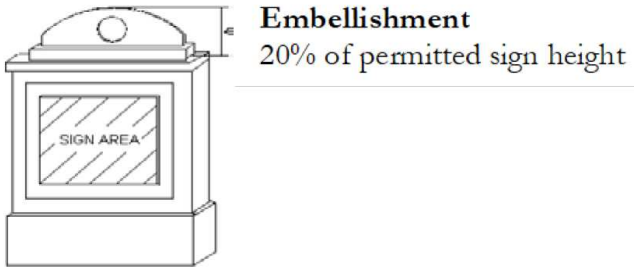

FIGURE 11-50-3-B: EMBELLISHMENT

Flashing Illumination: Illumination in which the artificial source of light is intermittent in intensity and/or color.

Freestanding Sign: Same as Permanent Sign, Detached.

Freeway Landmark Monument: A sign structure which exceeds sixteen (16) feet in height or one-hundred twenty (120) square feet in area, and is intended to be visible from an adjacent designated state or federal freeway.

Front Foot: The maximum lineal dimension of an exterior wall, excluding canopies and projections, measured on a straight-line parallel to a fronting street. For purposes of this definition, all pad buildings and pad occupancies within a Group C-O-I Development, located on a corner parcel, are defined as having exterior walls fronting on both streets.

11-50-4: DEFINITIONS: G THROUGH K

Government Sign: Any sign, posting, or notice constructed, posted, installed, maintained or required by a city, county, federal, or state governmental agency in carrying out its responsibility to protect the public health, safety, and welfare, including but not limited to, emergency and warning signs necessary for public safety or civil defense; posting of legal notices; official traffic, fire, and police signs, signals, and devices; traffic signs, traffic control devices, or streets signs erected and maintained by an authorized public agency; signs showing the location of public facilities; signs for government sponsored events; signs placed by the government on buildings of historical significance; and government speech pursuant to case law. Government signs are allowed in every zoning district and are not governed by this Sign Ordinance.

Grade: The top of curb or edge of pavement where no curb exists.

Hanging Sign: A sign suspended from, and located entirely under a covered porch, covered walkway, or an awning.

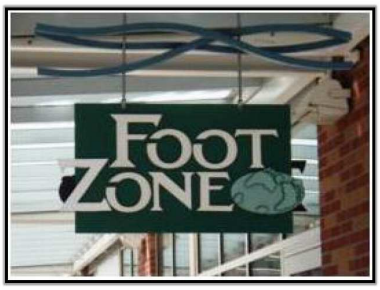

FIGURE 11-50-4-A: HANGING SIGN: PERPENDICULAR TO THE BUILDING

FIGURE 11-50-4-B: HANGING SIGN: PARALLEL TO THE STREET

Height: The vertical distance to the top of a sign, excluding embellishment, measured from the nearest curb, sidewalk, or street grade.

11-50-5: DEFINITIONS: L THROUGH N

Legal Nonconforming Sign: Any permanent sign which is not permitted by this Sign Ordinance, but which, when first constructed, was legally permitted by the City or the political subdivision then having jurisdiction and regulation over the construction of the sign.

Maintenance: The repair or replacement in-kind of individual sign components including paper, fabric, or plastic copy panels; electrical wiring and bulbs; or paint, stucco, or other exterior finishes. Shall not include the replacement of metal or wood cabinets, structural faces, supporting structural members, primary uprights, posts and poles, or the sign in its entirety.

Monument Sign: A detached permanent sign mounted or incorporated into a solid, self-supporting base.

Mural: A painted work of visual art or pictorial representation applied to or incorporated into a structure or wall, with the exception of a window, that can be viewed from public places, alleys, rights-of-way. A painted work of visual art or pictorial representation applied to or incorporated into a window is a window sign.
(Ord. No. 5593, § 11, 12-1-20)

11-50-6: DEFINITIONS: O THROUGH R

Off-site Sign: As defined in Chapter 87 - Definitions.

Outdoor Display Case: A sign consisting of a lockable metal or wood framed cabinet with a transparent window or windows, mounted onto a building wall or freestanding support.

Permanent Sign, Attached: A sign made of durable material permanently anchored to a building or wall.

Permanent Sign, Detached: A sign which is intended to and is constructed in a manner that is permanent, on its own foundation and structural supports, and is detached from any supporting elements of a building. Sign structures are constructed of materials, such as brick, stone, metal, concrete, carved wood that is treated for durability when exposed to the weather, or related materials considered durable and of architectural quality.

Pole Sign: A permanent detached sign supported by one (1) or more uncovered or exposed uprights, supports, or braces.

Portable Message Center Sign: A portable sign larger than eight (8) square feet mounted, painted, placed on, attached or affixed to a trailer or resting atop the ground without penetrating the surface.

FIGURE 11-50-6-A to C: EXAMPLES OF PORTABLE MESSAGE CENTER SIGNS

Portable Sign: A sign constructed of fabric, canvas, vinyl, cardboard, foam-core, plywood, sheet metal, plastic, or other light weight material that is neither permanently installed in the ground nor permanently affixed to a building or structure. Portable signs include signs resting atop the ground, or affixed to the ground by a temporary anchoring system such as, but not limited to, stakes or ballast or footing for large portable signs. This definition includes a-frame, t-frame, attached rigid, detached rigid, yard, detached banner, and wall banner sign.

FIGURE 11-450-6-D through I: EXAMPLES OF PORTABLE SIGNS

Projecting Sign: A sign attached to a building or structure in such a manner that its face is not parallel to the building or structure to which it is attached.

FIGURE 11-50-6-J through N: EXAMPLES OF PROJECTING SIGNS

Public Transportation Sign: A sign installed as part of a City transit program that is located at a bus or transit stop, bus or transit shelter facility, bike share station, bus or bike kiosk, or other bus, transit or bike structure.

Roof Sign: A sign placed on a flat or sloped roof.
(Ord. No. 5847, § 4, 3-4-24)

11-50-7: DEFINITIONS: S THROUGH V

Sign: Any identification, description, illustration, symbol, or device which is designed to identify, announce, direct, or inform, which is affixed or painted directly or indirectly upon a building, vehicle, structure, or land that is visible from:

1. Beyond the property boundaries except within a Group C-O-I Development; or
2. Beyond the perimeter boundaries of a Group C-O-I Development; or
3. The right-of-way.

Sign Structure: The supports, uprights, braces and framework of a sign.

Vehicle Sign: A sign mounted, painted, placed on, attached or affixed to a trailer, watercraft, truck, automobile, or other form of motor vehicle. The term shall not include a symbol, mark, or other medium of identity that is intrinsic, inherent, or otherwise belonging to the vehicle by nature of its manufacture, or a license plate frame, bumper sticker, spare tire cover, or similar appurtenance.

11-50-8: DEFINITIONS: W THROUGH Z

Wall Sign: A permanent or portable sign mounted flat against or painted on the wall of a building or structure with the exposed face of the sign in a plan parallel to the face of the wall. This does not include window signs.

Window Sign: A sign that is applied to, placed on, affixed to, or painted on a window; or suspended or placed in front of or thirty-six (36) inches behind a window so that it is visible from the exterior of the building or structure.

CHAPTER 51 BILLBOARDS

11-51-1: BILLBOARDS

A. Billboards, including Off-Site Signs, and Advertising for Hire Signs, are prohibited in all zoning districts except that Billboards, including Off-Site Signs, and Advertising for Hire Signs, are permitted in an approved Billboard Overlay District in compliance with Chapter 25 of the Zoning Ordinance.

B. Billboards, including Off-Site Signs, and Advertising for Hire Signs, are governed by and must comply with Chapter 25 - Billboard Overlay District.

(Ord. No. 5847, § 5, 3-4-24)

CHAPTERS 52—55 (RESERVED FOR FUTURE USE)

[The next page is T11:501]

ARTICLE 6
FORM-BASED CODE

CHAPTER 56 FORM-BASED CODE OVERVIEW*

11-56-1: PURPOSE

The purpose of the Form-Based Code is to implement the community's vision for a vibrant, walkable, mixed-use urban environment in downtown Mesa and surrounding areas. The standards outlined in the following chapters are intended to:

A. Preserve and enhance community character.

B. Encourage appropriately-scaled infill and development.

C. Reinforce a pattern of walkable neighborhoods and retrofit those that are not walkable.

D. Support a diverse range of housing options at appropriate locations along the Transect.

E. Foster and sustain small local businesses.

F. Establish a framework of well-designed streets that are safe and accessible for pedestrians and cyclists.
(Ord. No. 5948, § 1, 7-1-25)

11-56-2: AUTHORITY AND APPLICABILITY

A. The Form-Based Code (FBC) replaces the zoning regulations for parcels designated with a Transect Zone.

1. ***Area of Initial Application.*** In its initial application, the FBC was applied to the Downtown and Pioneer/Temple Neighborhoods as a floating zone, as shown on Map 11-56-2.A.1 below. The rezoning to a designated transect zone is made effective through completion of the opt-in process (Subsections C and D, below).

2. ***Areas of Future Use.*** FBC and transect zones may be established in other areas of the City as set forth in Chapter 63: Smart Growth Community Plans (SGCP).

3. ***Relationship of FBC to Zoning Ordinance.*** This FBC is a subpart of the Zoning Ordinance. All provisions of the Zoning Ordinance apply within the areas mapped with Transect Zones unless otherwise provided in Article 6: Form-Based Code.

4. ***Applicability of Non-Transect Development Standards.*** The FBC shall be considered in combination with any applicable standards in Article 3: Overlay Districts and Chapter 31 of Article 3: Standards for Specific Uses. Requirements referenced in Chapter 30: General Site Development Standards may be applicable when directly referenced as part of a requirement of Article 6: Form-Based Code.

***Editor's note—**Ord. No. 5948, § 1, adopted July 1, 2025, repealed the former Ch. 56, §§ 11-56-1—11-56-7, and enacted a new Ch. 56 as set out herein. The former Ch. 56 pertained to similar subject matter and derived from Ord. No. 5514, § 1, 7-8-19.

MAP 11-5602.A.1: DOWNTOWN AND PIONEER/TEMPLE NEIGHBORHOODS REGULATING PLAN

B. **Designation of Transect Zones, Status of Existing Zoning Districts, and Optional Use of Floating Zone.** When adopting a regulating plan, the City Council may change the existing zoning district to a transect zone or retain the existing zoning district until such time as a property owner chooses to opt-in to the transect zone (floating zone).

1. When a floating zone is adopted, if the existing zoning district is retained, a property owner may continue to apply the standards of the non-transect zone to the entire parcel (see Subsection D, below) or, may choose to designate the entire parcel as, and apply the standards of a transect zone, pursuant to the Opt-in Procedures in this Section.

2. In no case may a parcel be developed using a mixed set of standards from both transect and non-transect zones at the same time, unless a transect requirement makes reference to a non-transect standard.

C. **Opt-In Procedures.** To opt-in, a property owner shall sign before a notary public a "Form-Based Code Opt-In" form prepared by the Zoning Administrator and approved by the City Attorney's Office.

1. Such form shall state that the Transect Zone standards are in effect for the identified parcel(s) as of the signature date of the Opt-in Form.

2. The requirements of the previous zoning district are no longer applicable for that site.

3. Any future development shall conform with the standards of the FBC.

D. **Other Agreements.** If conflicts occur between the requirements of this FBC and applicable standards adopted by City Council as part of any other agreement, the more restrictive requirements shall apply.

(Ord. No. 5948, § 1, 7-1-25)

11-56-3: EFFECT ON EXISTING DEVELOPMENT AND LAND USES AFTER OPT-IN TO FBC

A. **Complies with FBC.** Existing development and land uses that comply with all applicable requirements of Article 6: Form-Based Code of this Title may continue to operate and shall only be altered or replaced in compliance with Article 6: Form-Based Code.

B. **Non-compliance with FBC.** Any development or land use that was lawfully built in conformance with non-Transect Zone requirements (the Zoning Ordinance), and does not comply with the requirements effective for the applicable Transect Zone, shall be considered as legal, but nonconforming, and may continue to operate in compliance with the City's regulations for nonconformities in the Zoning Ordinance (see Zoning Ordinance Chapter 36: Nonconforming Uses, Structures and Lots). Sites that are non-conforming relative to site development standards may redevelop or expand only in conformance with the following:

1. Existing structures may stay in place without modification or demolition, except as necessary to accommodate redevelopment or expansion.

2. When the expansion of an existing development amounts to an increase of 20% or less of the existing floor area, up to a maximum of 1,000 square feet, then such expansion may proceed in accordance with any conditions attached to the Zoning Clearance by the Planning Director.

3. When expansion of an existing development amounts to a 21% or greater increase of the existing floor area, or the total floor area exceeds 1,000 square feet, then such expansion may only proceed

in accordance with an approved Substantial Conformance Improvement Permit (SCIP), as per Chapter 73 of this Ordinance. Said SCIP application shall be reviewed prior to issuance of a Zoning Clearance.

(Ord. No. 5948, § 1, 7-1-25)

11-56-4: PERMIT PROCESSING, REZONING AND ADMINISTRATION

A. **Processing and Procedures.** The standards, permits, procedures, and other requirements of this Code shall be administered and enforced per Zoning Ordinance requirements, unless specifically stated otherwise in this FBC.

B. **Text Amendments.** Text amendments to this FBC, or to adopted regulating plans, shall be processed in accordance with the procedures and standards found in Chapter 76: Amendments to Zoning Map.

C. **Rezoning of Parcels within Adopted Regulating Plans.**

1. ***Parcels within Adopted Regulating Plans - Rezone from One Transect Zone to Another Transect Zone.*** Amendments to the floating zone (Transect Zones) as shown on Map 11-56-2.A.1 shall be processed in accordance with the procedures and standards in Chapter 76: Amendments to Map.

2. ***Properties Outside of Adopted FBC Mapped Area(s) - Rezone from a Non-Transect Zone to a Transect Zone.***

a. Requests for Transect Zones outside of areas with adopted regulating plans shall include all Smart Growth Community Plan (Chapter 63) requirements when an application includes a request for a regulating plan and the project involves:

i. Parcels of ten (10) acres or greater; or

ii. Parcels designated by City Council as a redevelopment site.

b. Requests for Transect Zones on parcels other than those described by Subsection C(2)(a), above:

i. Parcels or project sites abutting and/or coterminous with an existing regulating plan may request rezoning to a Transect Zone in conformance with Chapter 76: Amendments to Zoning Map in the Zoning Ordinance. Such rezoning to a Transect Zone shall be a natural extension of the standards adopted in the abutting and/or coterminous regulating plan and include the updating of that regulating plan to include the area being rezoned.

ii. Other parcels may request rezoning to a Transect Zone only by determination of the Planning Director that a successful application will result in more complete conformance with goals and objectives as found in the Mesa General Plan, applicable sub-area plans, and other adopted Council policies, than the use of non-Transect Zones and requirements.

D. **Conditional Use Permit Procedures.** Uses or activities of the FBC requiring an Administrative Use Permit, Council Use Permit, Special Use Permit, or Temporary Use Permit shall be processed according to the requirements of Chapter 70: Conditional Use Permits.

E. **Zoning Clearance - Review Process for FBC Compliant Projects.**

1. ***Zoning Clearance Required Before Application for Building Permit.*** Prior to submitting a building permit, an application for a Zoning Clearance shall be filed with the Development Services Department, who shall then review the project for compliance with the requirements of FBC.

   a. *Fee Payment.* Payment of a fee for this service shall be in accordance with the adopted Planning Division fee schedule.

   b. *Planning Director Referral.* The Planning Director may refer an application to the Design Review Board if, in the Planning Director's judgement, the project meets one (1) or more of the following criteria or otherwise warrants public review:

      i. The project has unusual site constraints, infrastructure demands, or design complexities; or

      ii. The project represents a major public or private investment with significant potential community or economic impact.

2. ***Zoning Clearance Issuance.*** Zoning Clearance is issued after the Planning Director, or designee, determines the project complies with the minimum requirements of the FBC and Design Review, if applicable. Zoning Clearance allows an application to be filed for a construction or a building permit in accordance with Title 4 of the Mesa City Code. Concurrent review of applications for building permit and FBC Zoning Clearance may be requested and allowed upon agreement by both the Planning Director and Building Official.

3. ***Zoning Clearance Modification.*** Any modification to an issued Zoning Clearance shall be reviewed according to the review process in Subsection (1) above.

F. **Variances.** In the event that an applicant believes special circumstances applicable to a property, a variance may be requested in accordance with provisions set forth in Chapter 80: Variances.

G. **Administrative Modifications to Form-Based Code Standards.**

1. ***Purpose and Intent.*** The purpose of this section is to provide an administrative process to allow minor administrative modifications to specific standards of Article 6: Form-Based Code (FBC). The intent of this section is to allow relief when the application of specific FBC standards creates practical difficulties developing the property and to allow flexibility in order to create high quality development while maintaining the intent of the FBC which focuses on physical form rather than the separation of uses as an organizing principle.

2. ***Process for Requesting Administrative Modification.*** An applicant may only apply for an administrative modification under this section concurrently with an application for Zoning Clearance, Administrative Use Permit, Special Use Permit, or Council Use Permit. An administrative modification may be requested for a single building or for a specified area. An application for an administrative modification must include a narrative that specifically identifies and describes the administrative modification sought.

3. ***Eligible Modifications.*** An administrative modification is limited to and must comply with the following limitations and requirements:

   a. No more than a 10% increase to the maximum build-to line.

b. No more than a 10% reduction of a required side and/or rear setback if adjacent to public right-of-way or public open space.

c. No more than a 10% reduction to the required façade within the façade zone.

d. No more than a 20% reduction to the ground floor and upper floor ceiling heights for building types with 12 or less units.

e. A reduction in the required ground floor building transparency if the project is located outside of the Downtown Pedestrian Area (DPA). Any reduction in the required ground floor building transparency shall include pedestrian scale design, building articulations and fenestrations, and superior façade materials such as brick, stone, architectural precast concrete, etc.

f. No more than 10% increase or reduction of any other exterior design feature not specifically stated above.

4. ***Administrative Decision Process and Review Criteria.*** An administrative modification can be approved as submitted, approved with conditions or modifications, or denied. The basis for approval or denial will be included in the written decision. An administrative modification shall only be granted if the Planning Director determines that the requested modification strictly complies with Subsection (3) of this Section and conforms to all of the following findings:

a. Conforms to the purpose and intent of the City's General Plan and Zoning Ordinance.

b. Conforms to the intent of the Transect Zone for the proposed development.

c. Does not change the intended building types and form within a Transect Zone.

d. Results in a superior building design standard including pedestrian scale design.

e. Is necessary for the proposed development.

5. ***Administrative Modification Request Referral.*** The Planning Director may refer a request for an administrative modification to the Design Review Board for review and recommendation. If referred to the Design Review Board, the applicant shall address the recommendations of the Design Review Board. The Planning Director shall have the final authority to approve the request for administrative modifications. Any request for a modification other than those listed above is considered major and shall follow the processes established in the Zoning Ordinance.

6. ***Appeals.***

a. *Process.* The applicant, the property owner, or any other person aggrieved by a decision may appeal the Planning Director's decision to the Planning and Zoning Board in accordance with Section 11 -77 of the Zoning Ordinance. If the Planning Director refers the request to the Design Review Board, an applicant or property owner may appeal the Design Review Board decision to City Council in accordance with Chapter 77: Appeals of the Zoning Ordinance.

b. *Evaluation of Administrative Modification Appeals.* Appeals of an administrative modification decision are reviewed using the same standards and criteria required for the decision.

(Ord. No. 5948, § 1, 7-1-25; Ord. No. 5996, §§ 3, 4, 3-9-26)

CHAPTER 57 RESERVED*

CHAPTER 58 BUILDING FORM STANDARDS†

This Chapter provides regulatory standards for land use and building form within the Transect Zones.
(Ord. No. 5948, § 1, 7-1-25)

11-58-2: APPLICABILITY

A. The standards within this Chapter shall apply to all proposed development within Transect Zones.

B. For Nonconforming Uses, Structures, and Lots, See Chapter 36 (Nonconforming Uses, Structures, and Lots).

(Ord. No. 5948, § 1, 7-1-25)

11-58-3: LAND USE REGULATIONS

Table 11-58-3.A provides the land use regulations for all Transect Zones.

- "P" designates permitted uses.
- "AUP" designates use classifications permitted on approval of an Administrative Use Permit.
- "SUP" designates use classifications permitted on approval of a Special Use Permit.
- "CUP" designates use classifications permitted on approval of an Council Use Permit.
- "TUP" designates use classifications permitted on approval of a Temporary Use Permit.
- "(x)" a number in parenthesis refers to limitation following the table.
- "-" designates a prohibited use.

Separate requirements exist for ground floor uses, uses on upper floor(s), and uses behind an allowed ground floor use.

Table 11-58-3.A: Composite Use Table									
Land Use[1]	**Specific Use Regulations**	**T3N**	**T4N**	**T4NF**	**T4MS**	**T5N**	**T5MSF**	**T5MS**	**T6MS**
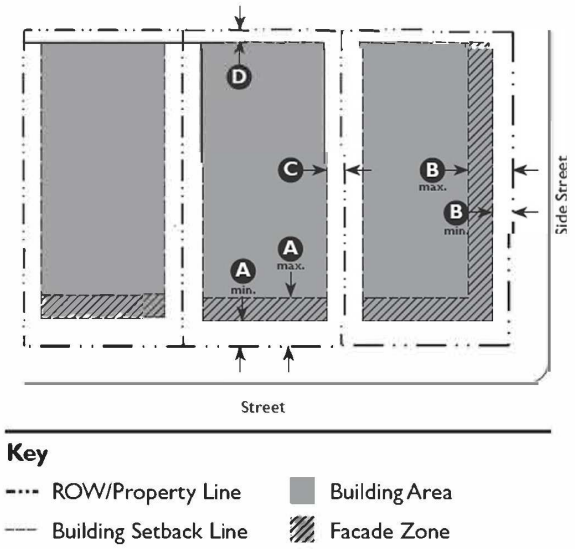
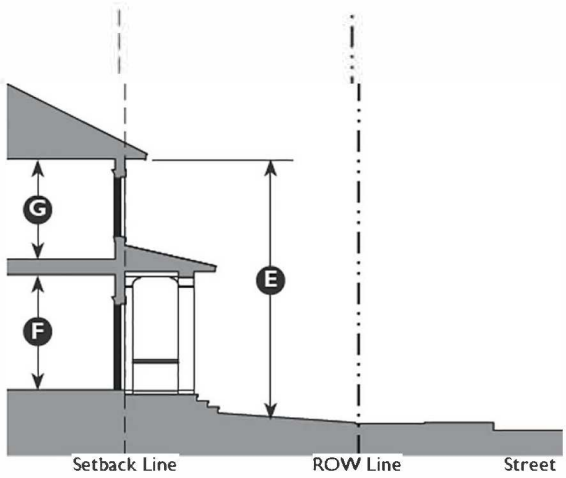
[2] Allowed only on upper floor(s) or behind an allowed ground floor use.									
[3] Allowed only within a Level 1 Historic Structure, as identified in the City of Mesa Historical Survey, 1984, through issuance of a Special Use Permit.									
[4] Not allowed on the ground floor unless behind an allowed ground floor use, except the use may occupy up to 50% of the ground floor if: 1) The development site is 5 acres or more; 2) The building where the ground floor use is located is greater than 100,000 square feet and has more than 200 linear feet of frontage on a front street; 3) The ground floor space is designed and will be constructed to an assembly occupancy class (as that term is defined in the Mesa Building Code); 4) The design of the project encourages transition of the ground floorspace to active commercial uses in the future by complying with FBC building form and private frontage standards for commercial uses; 5) The building design, site design, and amenities of the project are unique and conform to the intent and purpose of the FBC.									
[5] Interior or exterior commercial storage is not permitted on the home occupations site.									
[6] Conditional Use Permit review shall evaluate the compatibility of the proposed building frontage type with adjacent buildings.									

(Ord. No. 5948, § 1, 7-1-25)

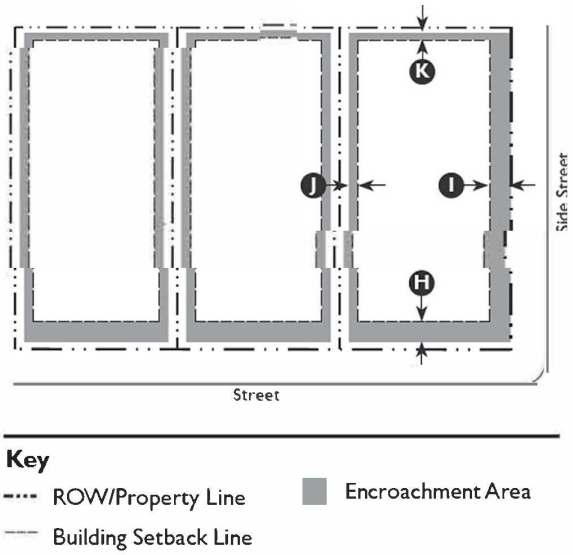
11-58-4: T3 NEIGHBORHOOD (T3N) STANDARDS



A. Zone Intent and Description



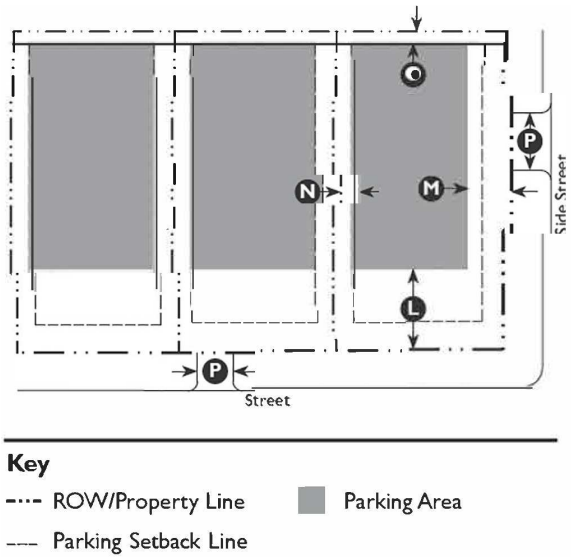
To provide a walkable predominantly single-family neighborhood that integrates appropriate multifamily housing types such as duplexes, mansion apartments, and bungalow courts within walking distance to transit and commercial areas.



B. Building Types

Allowed Building Types	Carriage House Single Unit House, Village Single Unit House, Cottage Bungalow Court Duplex Mansion Apartment	See Chapter 59: Building Type Standards for descriptions and regulations

C. Building Placement		
		
Setbacks (Distance from Property Line/ROW)		
Main Building		
Front	15' min.[1, 2], 25' max.[2]	A
Side Street	10' min.; 20' max.	B
Side	5' min.[3]	C
Rear	30' min.	D
Accessory Structure		
Front	15' min.[4]	
Side Street	10' min.	
Side	5' min.[3]	
Rear	5' min.	
Accessory Dwelling Unit[5]		See Section 11-31-3: Accessory Dwelling Unit
Façade within Façade Zone		
Front	50% min.	
Side Street	50% min.	
Miscellaneous		
Only one Main Building and one Accessory Structure may be built on each lot.		
D. Building Form		

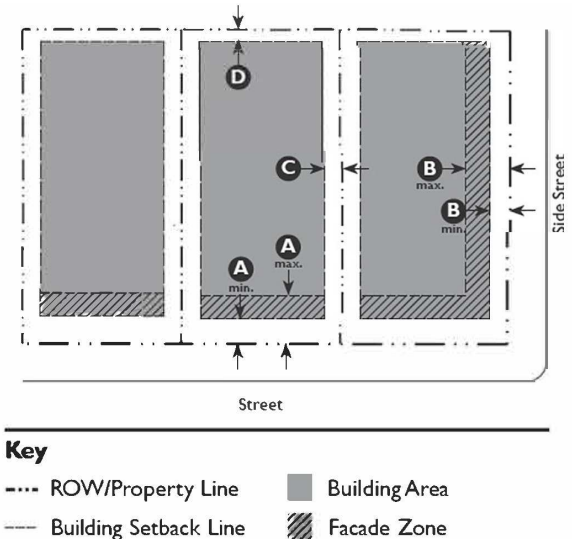


Height		
Main Building	2 Stories max.	E
Ground Floor Ceiling	10' min. clear	F
Upper Floor(s) Ceiling	9' min. clear	G
Accessory Structure	1½ stories max.	
Accessory Dwelling Unit		See Section 11-31-3: Accessory Dwelling Unit
Footprint		
Per Building Type Standards (see Chapter 59).		
E. Encroachments		

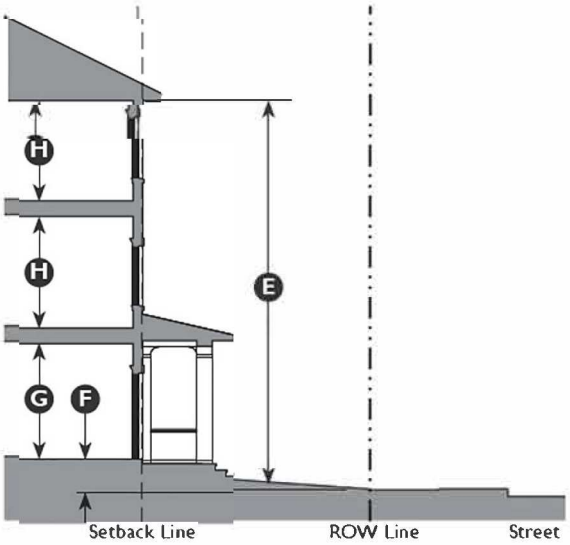
Allowed Encroachments

Front	10' max.[6]	H
Side Street	10' max.[6]	I
Side	2'-6" max.[6]	J
Rear	2'-6" max.[6]	K
Miscellaneous		
See Chapter 60: Private Frontage Standards for additional encroachment standards specific to frontage types		
F. Private Frontage Types		
Allowed Private Frontage Types	Common Yard Porch, Engaged Porch, Projecting Stoop	See Chapter 60: Private Frontage Standard for private frontage type descriptions and regulations
G. Parking		

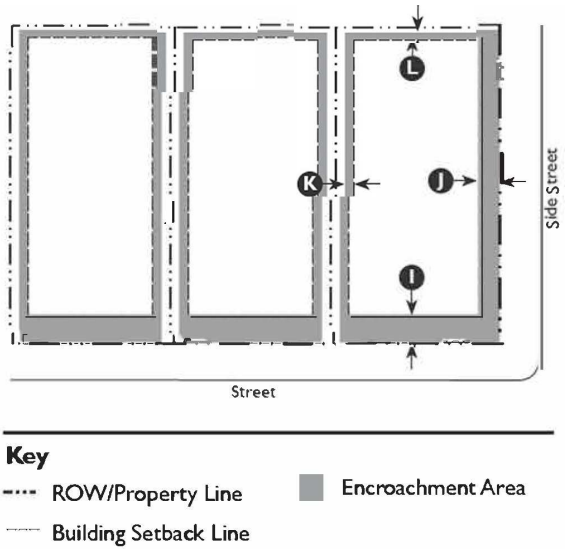
Required Spaces		
Residential Uses	1 space per unit min.[7]	
Location (Distance from Property Line/ROW)		
Front Setback	20' min.[8]	L
Side Street Setback	15' min.[8]	M
Side Setback	5' min.	N
Rear Setback	5' min.	O



Parking Access Drive		
Width	12' max.	Ⓟ
Footnotes:		
1. Where existing adjacent buildings are located closer to the street than the regulated front setback, a new building may be aligned with the façade of the front most immediately adjacent property.		
2. For parcels within a designated historic district, the minimum and maximum front setbacks are determined by the setbacks of the existing buildings along the block.		
3. No side setback required along the common property line between townhouse and/or duplex building types or for accessory structures when in conjunction with a townhouse or duplex building type.		
4. Accessory Structures may not be placed in front of the main building regardless of the minimum setback.		
5. Only allowed in conjunction with Single-Unit House, Village: Single-Unit, Cottage, and Duplex Building Types.		
6. Encroachments are not allowed within a street or public alley, or across a property line.		
7. No additional parking is required for Accessory Dwelling Units.		
8. Parking must be placed at least five (5) feet behind the building's façade.		

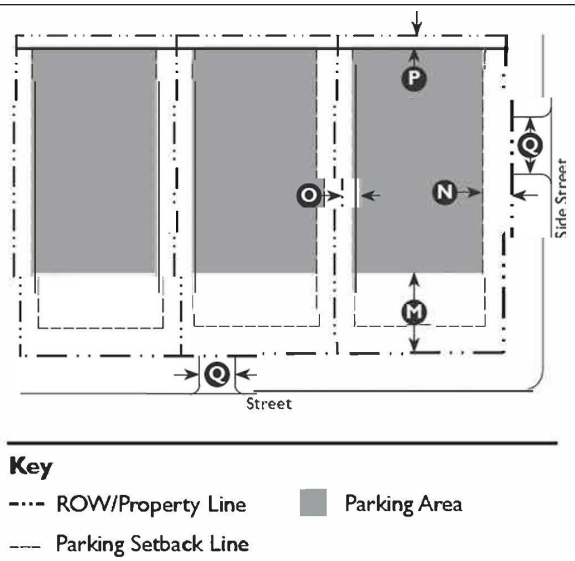


(Ord. No. 5948, § 1, 7-1-25)



11-58-5: T4 NEIGHBORHOOD (T4N) STANDARDS

A. Zone Intent and Description
To provide high quality, medium-density residential building types such as townhouses, small courtyard housing, mansion apartments, duplexes, or fourplexes, all within walking distance to transit and commercial areas.



B. Building Types

Allowed Building Types[1]:	Carriage House Single-Unit House, Village Single-Unit House, Cottage Bungalow Court Duplex Townhouse Mansion Apartment Apartment House Courtyard Building Mid-Rise Main Street Mixed-Use	See Chapter 59: Building Type Standards for descriptions and regulations
C. Building Placement		
		
Setbacks (Distance from Property Line/ROW)		
Main Building		
Front	10' min.; 15' max.[1]	A
Side Street	5' min.; 10' max.	B
Side	5' min.[2]	C
Rear	5' min.	D
Accessory Structure		
Front	10' min.[3]	
Side Street	5' min.	
Side	5' min.[2]	
Rear	5' min.	

Accessory Dwelling Unit[4]		See Section 11-31-3: Accessory Dwelling Unit

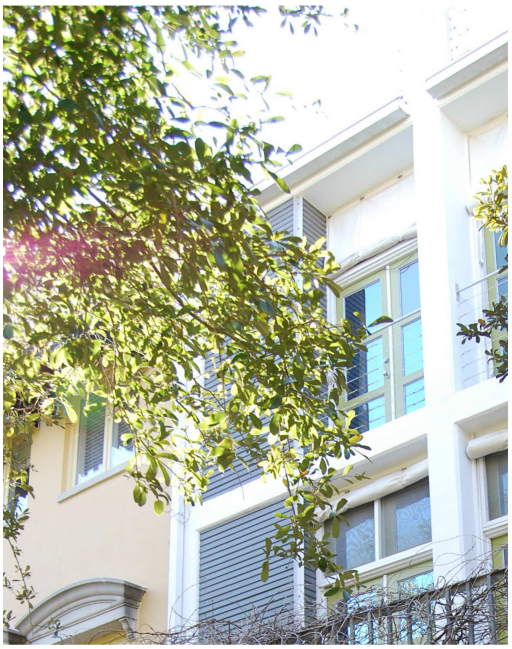
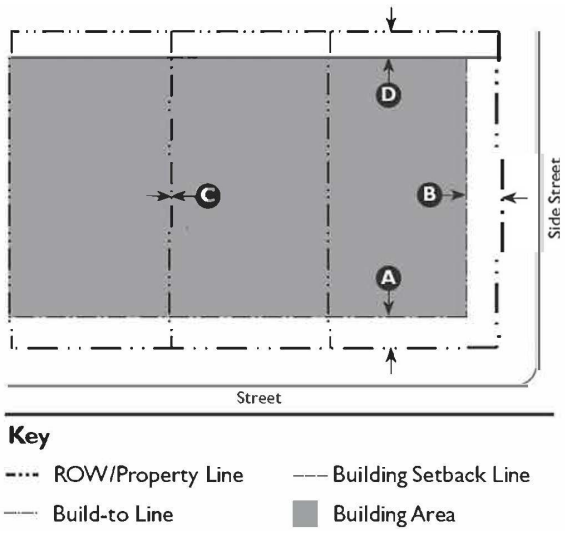
F. Private Frontage Types		
Allowed Private Frontage Types	Porch, Engaged Porch, Projecting Stoop Forecourt Dooryard	See Chapter 60: Private Frontage Standards for private frontage type descriptions and regulations
G. Parking		

Required Spaces		
Residential Uses	1/1,000 sf min.[7]	
Location (Distance from Property Line/ROW)		
Front Setback	15' min.[8]	M
Side Street Setback	10' min.	N
Side Setback	5' min.	O
Rear Setback	5' min.	P
Parking Access Drive		
Width	12' min.[9]	Q

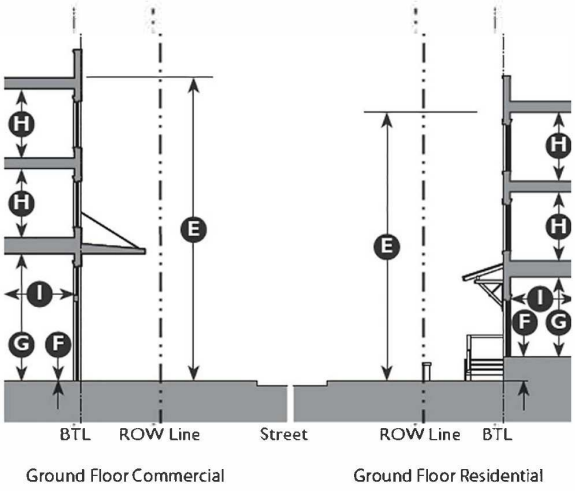


Footnotes:

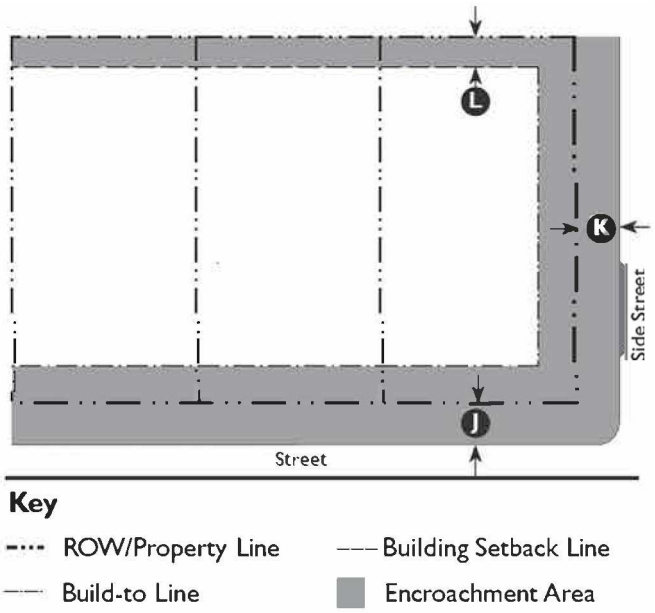


1. Where existing adjacent buildings are in front of the regulated BTL, the building may be set to align with the façade of the front most immediately adjacent property.
2. No side setback required along the common property line between townhouse and/or duplex building types or for accessory structures when in conjunction with a townhouse or duplex building type.
3. Only allowed in conjunction with Carriage House and Single-Unit House, Single-Unit House, Village, and Cottage Building Types.
4. Accessory Structures may not be placed in front of the main building regardless of the minimum setback.
5. Five (5) stories maximum permitted for buildings with more than 25% affordable or senior housing or for LEED Gold (or equivalent) certified buildings.
6. Encroachments are not allowed within a street, public alley, or across a property line.
7. No parking spaces required for the first 2,000 sf of residential use, affordable housing units, senior housing units, or Accessory Dwelling Units.

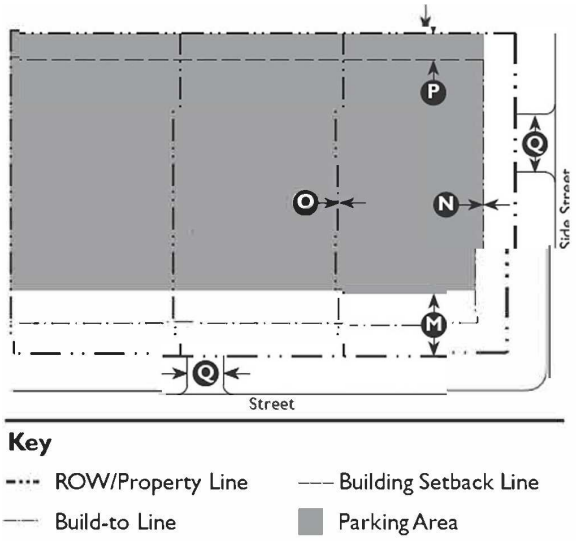
8. Parking must be placed at least five (5) feet behind the building's façade.
9. Maximum parking access drive width to be determined by Solid Waste and Fire access requirements.



(Ord. No. 5948, § 1, 7-1-25)



11-58-6: T4 NEIGHBORHOOD FLEX (T4NF) STANDARDS



A. Zone Intent and Description		
To provide flexible areas that can accommodate smaller, neighborhood-serving commercial uses in a main street form while allowing for interim uses such as live/work and ground floor residential until the commercial corridor matures.		
		
B. Building Types		
Allowed Building Types	Carriage House Single-Unit House, Cottage Bungalow Court Duplex Townhouse Mansion Apartment Apartment House Courtyard Building Mid-Rise Main Street Mixed Use	See Chapter 59: Building Type Standards for descriptions and regulations
C. Building Placement		

Build-to Lines (Distance from Property Line/ROW)		
Front	0' min.; 15' max.[1, 2]	A
Side Street	0' min.; 15' max.	B
Build-to Lines Defined by a Building		
Front, Lots <50' wide	100%[3]	
Front, Lots ≥50' wide	75% min.[3, 4]	
Side Street	50% min.[3, 4]	
Building Façade at Front BTL	75% min.	
Setbacks (Distance from Property Line/ROW)		
Main Building		
Side	0' min.	C
Rear		D

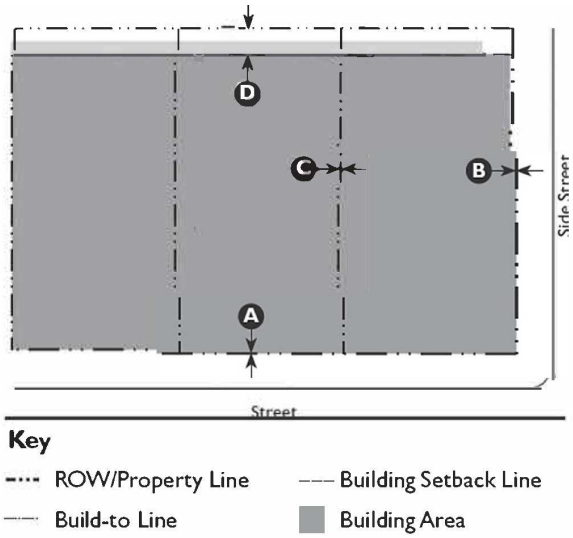
Commercial	6" max.	
Ground Floor Ceiling		G
Residential Commercial	10' min. clear[7] 14' min. clear	
Upper Floor(s) Ceiling	9' min. clear	H
Accessory Dwelling Unit		See Section 11-31-3: Accessory Dwelling Unit
Footprint		
Per Building Type Standards (see Chapter 59).		
Depth, Ground-Floor Space		I
Residential Commercial	20' min. 15' min.	
Distance Between Entries		

Ground Floor	100' max.	
Miscellaneous		
Upper Floors shall have a primary entrance along the front.		
Loading docks, overhead doors, and other service entries may not be located on street-facing façades.		
E. Encroachments		
		
Allowed Encroachments		
Front	14' max.[8]	J
Side Street	14' max.[8]	K
Rear	5' max.[8]	L
Miscellaneous		
See Chapter 60: Private Frontage Standards for additional encroachment standards specific to frontage types		
F. Private Frontage Types		
Allowed Frontage Types	Porch, Projecting Porch, Engaged Stoop Forecourt Dooryard Shopfront Gallery Arcade	See Chapter 60: Private Frontage Standards for descriptions and regulations
G. Parking		

Required Spaces		
Residential Uses	1/1,000 sf min.[9, 11]	
Retail and Service Uses	2/1,000 sf min.[10, 11, 12]	
Location (Distance from Property Line/ROW)		
Front Setback	5' min.[13]	M
Side Street Setback	0' min. from BTL	N
Side Setback	0' min.	O
Rear Setback		P
Adjacent to T5N, T4N or T3N	5' min.	
Adjacent to all other Transect Zones	0' min.	
Adjacent to Alley	0'	
Parking Access Drive		
Width	12' min.[14]	Q
Miscellaneous		
All garages shall be screened from the front and the street by habitable space.		
Footnotes:		
1. Where existing adjacent buildings are in front of the regulated BTL, the building may be set to align with the façade of the front most immediately adjacent property.		
2. The exact location of the BTL, within the range listed above shall be established by the first building along each block frontage to receive Planning Division approval. All subsequent buildings along that block frontage shall match the first building's BTL.		

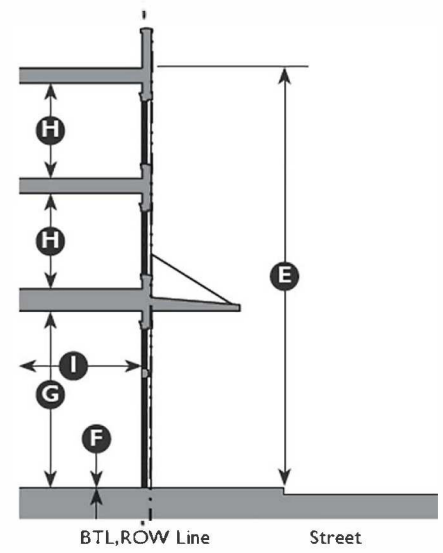
3. Entire BTL shall be defined by a building or a 24" to 42" high hedge, fence or stucco or masonry wall, except for entry ways, driveways, and walkways.
4. On corner lots, the BTL must be defined by a building for the first 30' from the corner.
5. Only allowed in conjunction with Single-Unit House, Village; Single-Unit, Cottage, and Duplex Building Types.
6. Five (5) stories maximum permitted for buildings with more than 25% affordable or senior housing or for LEED Gold (or equivalent) certified buildings. Within 20' of the rear property line, buildings may not be more than a half-story taller than the allowed height of adjacent buildings.
7. A 14' ground floor ceiling height is required for both residential and commercial uses in Mid-rise and Main Street Mixed Use Building Types.
8. Encroachments only allowed within the ROW and public alleys within the Downtown Pedestrian Area. Encroachments must have a minimum 14' clear height and approval of an encroachment permit.
9. No parking spaces required for the first 2,000 sf of residential use, for affordable housing units, senior housing units, or Accessory Dwelling Units.
10. No parking spaces required for ground floor, non-residential uses less than 5,000 sf.
11. Shared parking may be used to meet parking requirements through a recorded parking agreement.
12. Off-site parking within 1,200' may be used to meet parking requirements for non-residential uses.
13. Parking must be placed at least five (5) feet behind the building's façade.
14. Maximum parking access drive width to be determined by Solid Waste and Fire access requirements.

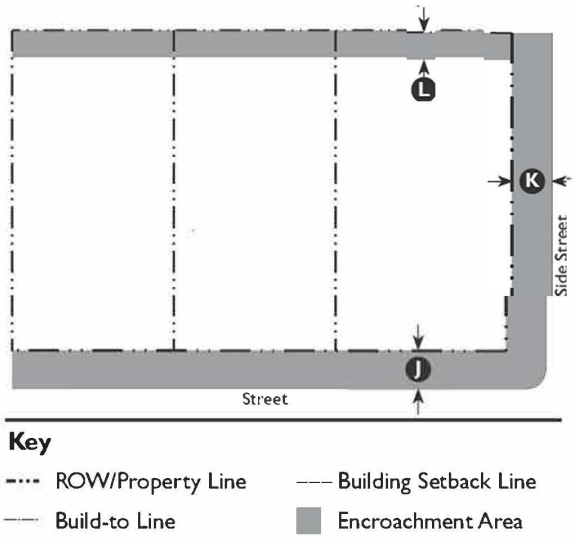
(Ord. No. 5948, § 1, 7-1-25)



11-58-7: T4 MAIN STREET (T4MS) STANDARDS

A. Zone Intent and Description
To integrate vibrant main-street commercial and retail environments into neighborhoods, providing access to daily amenities within walking distance, creating opportunities for transit stops and serving as a focal point for the neighborhood.





B. Building Types		
Allowed Building Types:	Main Street Mixed Use Mid-Rise	See Chapter 59: Building Type Standards for descriptions and regulations

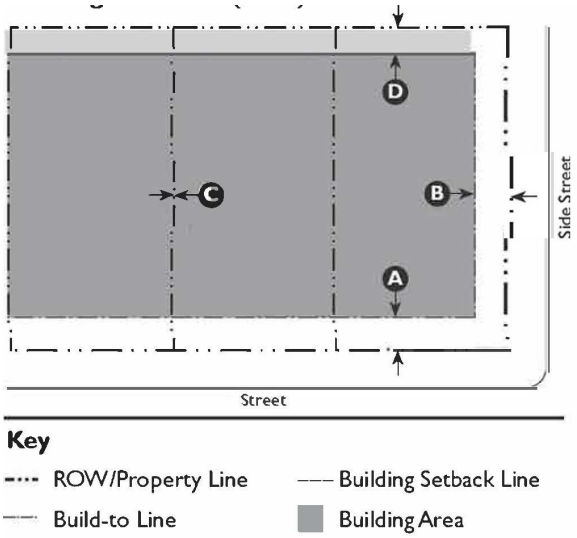
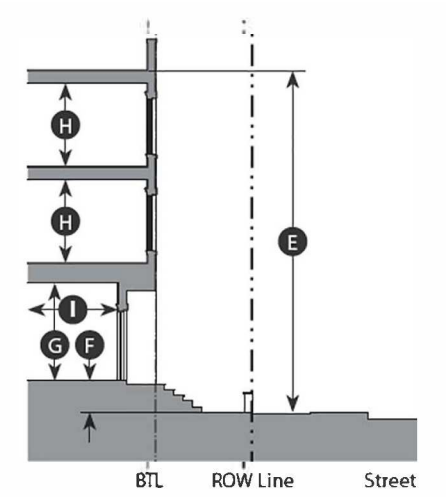
1. Entire BTL shall be defined by a building or a 24" to 42" high stucco or masonry wall, except for entryways, driveways, and walkways.		

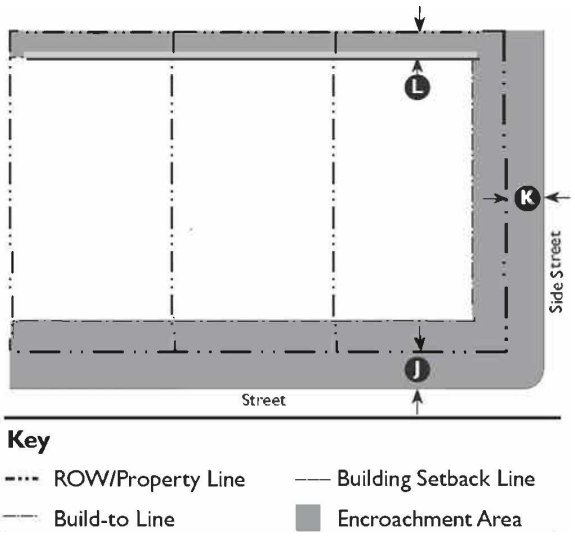


2. On corner lots, the BTL must be defined by a building for the first 30' from the corner.
3. No side setback required along the common property line between townhouse and/or duplex building types or for accessory structures when in conjunction with a townhouse or duplex building type.
4. Only allowed in conjunction with the Duplex Building Type.
5. Six (6) stories maximum permitted for buildings with more than 25% affordable or senior housing or for LEED Gold (or equivalent) certified buildings.
6. Within 20' of the rear property line, buildings may not be more than a half-story taller than the allowed height of adjacent buildings.
7. Encroachments only allowed within the ROW and public alleys within the Downtown Pedestrian Area. Encroachments must have a minimum 14' clear height and approval of an encroachment permit.
8. No parking spaces required for the first 2,000 sf of residential use, for affordable housing units, senior housing units, or Accessory Dwelling Units.
9. Shared parking may be used to meet parking requirements through a recorded parking agreement.
10. No parking spaces required for ground floor, non-residential uses less than 5,000 sf.
11. Off-site parking within 1,200' may be used to meet parking requirements for non-residential uses.
12. Maximum parking access drive width to be determined by Solid Waste and Fire access requirements.



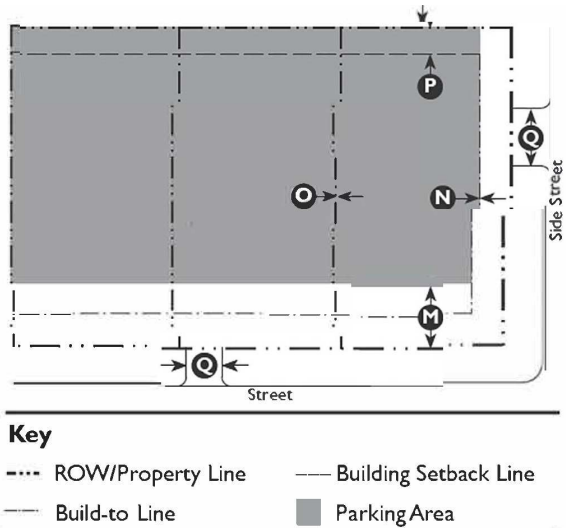
(Ord. No. 5948, § 1, 7-1-25)

11-58-8: T5 NEIGHBORHOOD (T5N) STANDARDS



A. Zone Intent and Description
To provide a medium- to high-density residential building types such as apartment houses, courtyard buildings, and mid-rise buildings that transition from lower-density surrounding residential neighborhoods to the higher-density mixed-use neighborhoods.

B. Building Types



Allowed Building Types	Apartment House Courtyard Building Bungalow Cour Mid-Rise	See Chapter 59: Building Type Standards for descriptions and regulations
C. Building Placement		
		
Build-to Lines (Distance from Property Line/ROW)		
Front	0' min.; 15' max.[1, 2]	A
Side Street	0' min.; 15' max.	B
Build-to Lines Defined by a Building

2. 155' maximum for buildings with more than 25% affordable or senior housing. No maximum for LEED (or equivalent) certified buildings.
3. Encroachments only allowed within the ROW and public alleys within the Downtown Pedestrian Area. Encroachments must have a minimum 14' clear height and approval of an encroachment permit.
4. Off-site parking within 600' may be used to meet parking requirements for residential uses.
5. Shared parking may be used to meet parking requirements through a recorded parking agreement.
6. Off-site parking within 1,200' may be used to meet parking requirements for non-residential uses.
7. No parking spaces required for ground floor uses less than 5,000 sf.
8. Maximum parking access drive width to be determined by Solid Waste and Fire access requirements.

(Ord. No. 5948, § 1, 7-1-25)

11-58-12: ADDITIONAL STANDARDS FOR ALL TRANSECT ZONES

A. **Open Space Standards for All Transect Zones.** The Civic Space Standards set forth in Chapter 62: Civic Space Standards provide the regulations for civic and open space within the FBC Transect Zones.

B. **Landscape Standards.**

1. See Chapter 33: Landscaping for landscaping standards on private lots within the FBC Transect Zones.

2. Unbuilt areas on private lots, such as front yards and rear yards, should remain pervious and be landscaped in order to encourage soft edges and transitions between the public and private realms, reduce the heat island effect, and aid in compliance with the stormwater quality standards, to the maximum extent possible.

3. Landscape treatments shall be limited to low-water-use plants, including those drought-tolerant plants listed by the Arizona Department of Water Resources for the Phoenix Active Management Area.

C. **Lighting Standards.**

1. All lighting shall comply with the standards found in the Mesa Lighting and Electrical Code, Title 4, Chapter 4 of the Mesa City Code.

2. All lighting shall comply with Section 11-30-5 of this Zoning Code.

3. All Outdoor lighting for sport courts/fields requires a Special Use Permit (SUP).

D. **Parking Requirements.**

1. ***Vehicle Parking.*** On-street parking spaces adjacent to the lot or parcel may be counted toward the minimum required off-street parking, subject to the following conditions:

a. Only legal, parallel or angled head-in parking spaces along the lot frontage may be counted.

b. The space must be located entirely along the frontage of the subject property.

c. Spaces shall not be located within 30 feet of an intersection or 25 feet of a driveway.

d. Spaces must remain public parking spaces and may not be designated for the development.

2. ***Bicycle Parking.***

a. *Required Spaces.* Bicycle parking shall be provided at a minimum ratio of one (1) bicycle space for every 10 vehicular spaces with a maximum requirement of 20 bicycle spaces.

b. *Design and Location.* Required bicycle parking spaces must:

i. Be located in close proximity to entrances and other high activity areas that are highly visible, active, and well-lighted, without interfering with pedestrian movements or located within a building.

ii. Consist of anchored racks or lockers that cannot be easily removed, be of solid construction, and be resistant to rust, corrosion, hammers, and saws.

iii. Be designed so as not to cause damage to the bicycle.

iv. Allow both the bicycle frame and the wheels to be locked using a standard U-lock.

v. Maintain a separation of at least 24 inches from the nearest wall.

c. *Credit.* For every 10 publicly accessible bicycle parking spaces provided, the required commercial parking spaces may be reduced by one (1) space with a maximum reduction of 15% of the required vehicular parking spaces.

E. **Parking Space Design.**

1. All parking spaces must be accessible from a public right-of-way.

2. Except for designated accessible parking spaces, no parking spaces shall be required to be individually accessible.

3. Tandem, stacking, and valet parking may be used to meet parking requirements.

4. Parking spaces may be directly accessed from an accessible alley.

5. On lots adjacent to an alley, all drives shall be accessed only from the alley.

6. On corner lots, all drives shall be accessed only from the alley or side street.

7. Shared drives are encouraged between adjacent lots to minimize curb cuts along the street.

8. Off-street parking spaces do not have to be covered.

9. Vehicles parked off-street may not encroach on a sidewalk.

10. Underground parking may be placed up to the right-of-way or property line.

11. Underground parking shall not be visible to pedestrians from a public way.

12. Parking spaces shall be designed according to the dimensions in Section 11-32-2(H): Size of Parking Spaces and Maneuvering Aisles.

13. If park-lifts or mechanically-ventilated garages are used next to residential uses, the noise and vibration of the mechanical systems shall be mitigated.

14. All surface parking areas along a street or civic space that are not behind buildings shall be screened by a 3'6" tall minimum hedge, fence, or wall in character with the building at the ROW.

15. All exposed structured parking shall be architecturally incorporated into the façade composition.

16. On corner lots less than 100 feet wide, a maximum length of 60 feet of parking podium or garage is allowed along a side street.

17. The minimum number of parking spaces required for buildings within ¼ mile of transit stop or transit station may be reduced by 20%.

18. Temporary parking lots that will be replaced by a permanent building or structure are not subject to the parking location regulations in the Building Form Standards, but shall comply with all landscaping requirements.

19. At least 10% of the area of an off-street parking with more than 30 spaces shall be reserved for landscaping.

19. All off-street parking lots with 10 or more surface parking spaces shall meet the landscaping requirements of Section 11-33-4: Interior Parking Lot Landscaping.

(Ord. No. 5948, § 1, 7-1-25)

CHAPTER 59 BUILDING TYPE STANDARDS

11-59-1: PURPOSE

This Chapter outlines the development standards for Building Types and supplement the regulations for each permitted Transect Zone and the City of Mesa's Quality Development Design Guidelines. The names of the Building Types do not limit uses within a building. For example, a single-unit house may have non-residential uses within it, such as a cafe or an office.
(Ord. No. 5948, § 1, 7-1-25)

11-59-2: APPLICABILITY

The standards within this Chater shall apply to all proposed development within Transect Zones and shall be considered along with the standards for the applicable Transect Zone in Chapter 58: Building Form Standards and Chapter 60: Private Frontage Standards.
(Ord. No. 5948, § 1, 7-1-25)

11-59-3: CARRIAGE HOUSE

A. Description

Carriage House: A secondary structure, typically located at the rear of a lot, which provides habitable or occupiable space for an Accessory Dwelling Unit, detached garage, storage, home office, or small commercial/ service use. Carriage houses play an important role in supporting affordable housing and nurturing small businesses in walkable neighborhoods, contributing to both community livability and economic vitality.

One- and a half-story carriage house connected to main house by a breezeway.

T# not allowed

C. Lot Requirements.

Allowed on lots when accompanying the following building types: Single-Unit House, Village; Single-Unit House, Cottage; Duplex, Townhouse; and Mansion Apartment		
D. Number of Units.		
Accessory Structure	1 max.	
Accessory Dwelling Unit		See Section 11-31-3: Accessory Dwelling Unit
E. Building Size, massing, and height		
		
Main Body		
Height		See Chapter 58: Building Form Standards
Width	36' max.[1, 2]	Ⓐ
Depth	30' max.[1, 2]	Ⓑ
Separation from main building	6' min.[3]	Ⓒ
F. Frontage Requirements.		
Allowed Private Frontages[4]	Stoop	See Chapter 60: Private Frontage Standards for private frontage type descriptions and regulations
Entrance Locations	Side street, alley, or internal to the lot[5]	
G. Vehicle Access and Parking.		
Parking may be accessed from the alley, side street, or front.		
Parking may be accessed from the front only when there is no adjacent alley or side street.		
All parking spaces provided shall be separate from the principal building and may be enclosed, covered, or open.		
H. Private Open Space.		

The private open space requirements shall be determined by the main building on the lot.
No additional private open space is required for a Carriage House.
Footnotes:
1. Carriage Houses shall not have a larger footprint than the main building on the lot.
2. Standards do not apply to Accessory Dwelling Units.
3. Carriage House may be connected to the main building by uninhabitable space such as a breezeway.
4. Carriage Houses are not required to have a Frontage Type.
5. The main entrance may not be through a garage.

(Ord. No. 5948, § 1, 7-1-25)

11-59-4: SINGLE-UNIT HOUSE, VILLAGE

A. Description
Single-Unit House, Village: This Building Type is a medium-sized detached structure on a medium-sized lot that incorporates one (1) unit. It is typically located within a primarily single residence residential neighborhood in a walkable urban setting, potentially near a neighborhood main street.

11-59-5: SINGLE-UNIT HOUSE, COTTAGE

A. Description

Single-Unit House, Cottage: This Building Type is a small detached structure on a small lot that incorporates one (1) unit. It is typically located within a primarily single residence neighborhood in a walkable urban setting, potentially near a neighborhood main street. This Building Type enables appropriately-scaled, well-designed higher densities and is important for providing a broad choice of housing types and promoting walkability.

2. Required street setbacks and driveways shall not be included in the private open space area calculation.		

(Ord. No. 5948, § 1, 7-1-25)

11-59-6: BUNGALOW COURT

A. Description

Bungalow Court: This Building Type consists of a series of small, detached structures, which provide multiple units arranged to define a shared court that is typically perpendicular to the street and defined on three (3) sides by buildings. The shared court takes the place of a private rear and becomes an important community-enhancing element of this Building Type. A Bungalow Court is appropriately scaled to fit within primarily single residence or medium-density neighborhoods. It enables appropriately scaled, well-designed higher densities and is important for providing a broad choice of housing types and promoting walkability.

11-59-7: DUPLEX

A. Description

Duplex: This Building Type is a small-to-medium-sized structure that consists of two (2) side-by-side or stacked dwelling units, both facing the street, and sharing one (1) common party wall. A Duplex has the appearance of a medium to large single residence home and is appropriately scaled to fit within primarily single residence neighborhoods or medium-density neighborhoods. It enables appropriately-scaled, well-designed higher densities and is important for providing a broad choice of housing types and promoting walkability.

(Ord. No. 5948, § 1, 7-1-25)

11-59-8: TOWNHOUSE

A. Description

Townhouse: This Building Type is a small-to-medium-sized attached structure that consists of one (1) or three (3) or more dwelling units placed side-by-side. A Townhouse is typically located within medium-density neighborhoods or in a location that transitions from a primarily single residence neighborhood into a neighborhood main street. This type enables appropriately-scaled, well-designed higher densities and is important for providing a broad choice of housing types and promoting walkability. Syn: **Rowhouse**

Individual stoops and dormers help to break down the overall massing of this row of townhouses.

(Ord. No. 5948, § 1, 7-1-25)

11-59-11: COURTYARD BUILDING

A. Description

Courtyard Building: This Building Type is a grouping of small structures or an individual medium-to-large-sized structure that is oriented around a shared courtyard or series of courtyards. The units consist of multiple side-by-side and/or stacked dwelling units primarily accessed directly from a courtyard. A Courtyard Building is primarily applicable for medium-density neighborhoods but is also appropriately scaled to fit in sparingly within primarily single-residence neighborhoods. It enables appropriately-scaled, well-designed higher densities and is important for providing a broad choice of housing types and promoting walkability.

Footnotes:		
1. Height must also comply with Building Form Standards.		
2. Each unit may have an individual entry.		
3. Passages through buildings (zaguans) and between buildings should be provided to connect multiple courtyards.		
4. Buildings must define a minimum of two (2) courtyard edges. Courtyard edges not defined by building should be defined by a six (6) foot stucco or masonry wall.		

(Ord. No. 5948, § 1, 7-1-25)

11-59-12: MAIN STREET MIXED-USE

A. Description

Main Street Mixed-Use: This Building Type is a small-to-medium-sized structure, typically attached, intended to provide a vertical mix of uses with ground-floor commercial, service, or retail uses and upper-floor commercial, service, or residential uses. Smaller versions of this Building Type include live/work units. This Building Type makes up the primary component of a neighborhood main street and portions of a downtown main street, therefore being a key component to providing walkability.

(Ord. No. 5948, § 1, 7-1-25)

CHAPTER 60 PRIVATE FRONTAGE STANDARDS

11-60-1: PURPOSE

This Chapter sets forth the standards applicable to the development of private frontages. Private frontages are the components of a building that provide an important transition and interface between the public realm (street and sidewalk) and the private realm (yard or building). These standards supplement the standards for each Transect Zone that the frontage types are allowed within.
(Ord. No. 5948, § 1, 7-1-25)

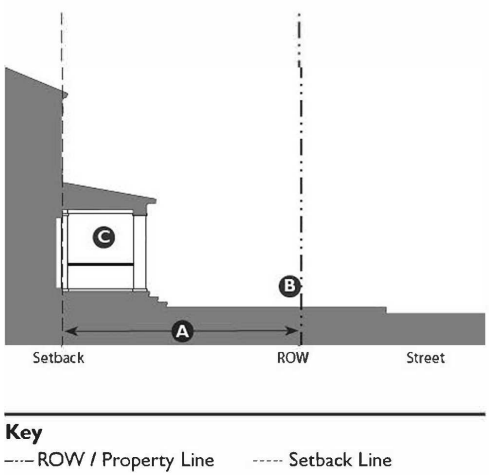
11-60-2: APPLICABILITY

The standards within this Chapter shall apply to all proposed development within Transect Zones and shall be considered in combination with the standards for the applicable zone in Chapter 58: Building Form Standards and Chapter 59: Building Type Standards.
(Ord. No. 5948, § 1, 7-1-25)

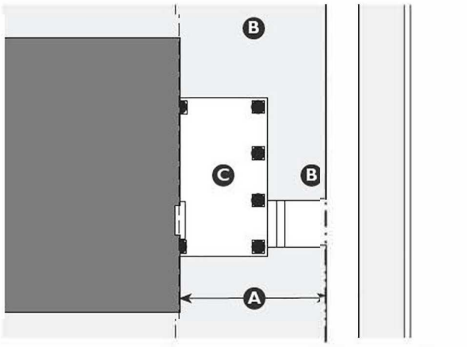
11-60-3: COMMON YARD

A. Description

Common Yard: The building's main façade features a spacious, landscaped setback from the right-of-way, providing a buffer from traffic. The front yard is unfenced, creating a visually seamless connection with adjacent yards and contributing to a cohesive streetscape.



An example of a common yard

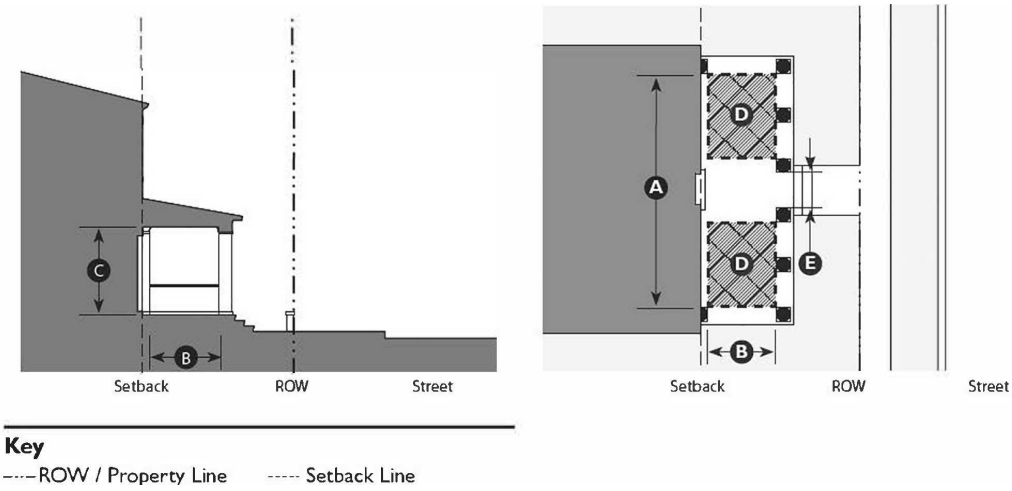


The front yards of these houses form a continuous common yard.

(All photos are illustrative, not regulatory)

B. Size

Depth	20' min.	A



C. Miscellaneous

Fences are not permitted in front yards including fences on side property lines	B

Common Yard Frontages may only be used in conjunction with another allowed private frontage type, such as porch.	C

(Ord. No. 5948, § 1, 7-1-25)

11-60-4: PORCH: PROJECTING

A. Description		
Porch, projecting: The building's main façade features a modest setback from the right-of-way, creating a small front yard that may be defined by a fence or hedge to define the street edge. The projecting porch is open on three (3) sides, with all habitable space located behind the setback line.		
 *A wrap-around projecting porch*	 *Projecting porch integrated into the overall massing*	
(All photos are illustrative, not regulatory)		
B. Size		
		
Width, clear	10' min.[1]	A
Depth, clear	8' min.[1]	B
Height, clear	8' min.	C
Height, top of covering	2 stories max.	

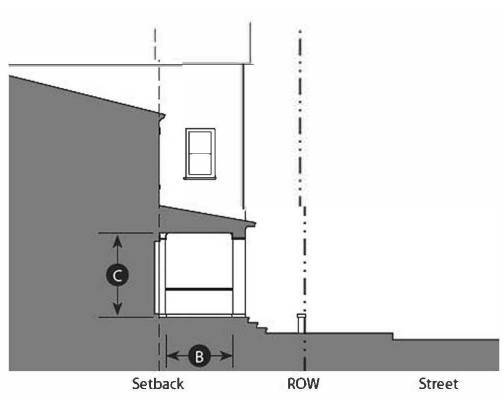
Furniture area, clear	4' × 6' min.	D
Path of travel	3' wide min.	E
Footnotes:		
1. A Projecting Porch must have a roof that covers the entire porch.		

(Ord. No. 5948, § 1, 7-1-25)

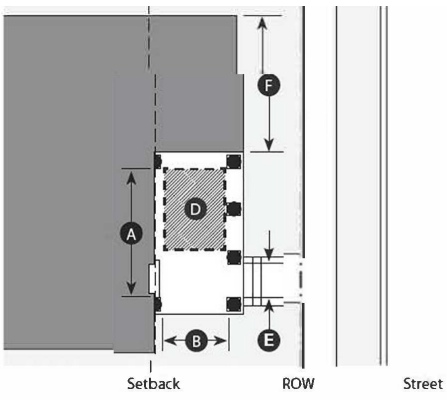
11-60-5: PORCH: ENGAGED

A. Description

Porch, engaged: The building's main façade features a modest setback from the right-of-way, creating a small front yard, often defined by a fence or hedge to clearly define the street edge. The engaged porch is attached to the building on two (2) sides, while the remaining two (2) sides are open.



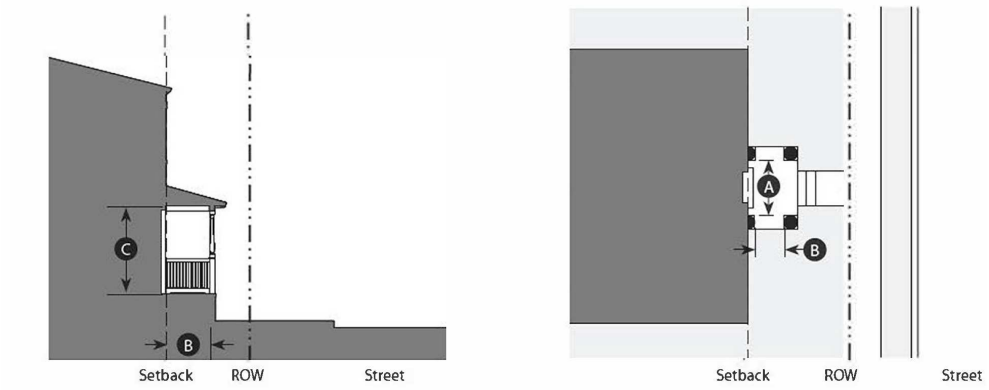
Engaged porch as an attached element.



An example of an engaged porch

(All photos are illustrative, not regulatory)

B. Size



Width, clear	10' min.[1]	A
Depth, clear	8' min.[1]	B

Height, clear	8' min.	Ⓒ
Height, top of covering	2 stories max.	
Furniture area, clear	4' × 6' min.	Ⓓ
Path of travel	3' wide min.	Ⓔ
C. Encroachments		
Up to ⅔ of the building façade may project beyond the setback line into the encroachment area for this frontage type.		
Footnotes:		
1. An Engaged Porch must have a roof that covers the entire porch.		

(Ord. No. 5948, § 1, 7-1-25)

11-60-6: STOOP

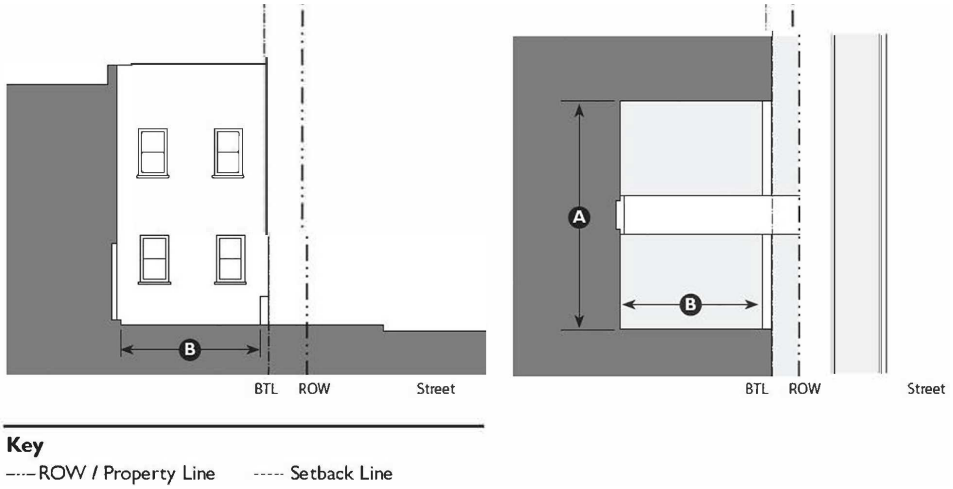
A. Description
Stoop: The building's main façade is located near the right-of-way, with an elevated stoop that engages the sidewalk. The stoop is raised above the sidewalk to ensure privacy within the building. Stairs from the stoop may lead directly to the sidewalk or may be perpendicular to the sidewalk. Stoops are appropriate for residential uses with small setbacks.
 *These stoops on townhouses with slightly recessed entries and a minimum setback allow the steps to engage the street.*  *This stoop on single-family dwelling with a medium setback engages the street.*
(All photos are illustrative, not regulatory)
B. Size

Width, clear	5' min.; 8' max.	A
Depth, clear	5' min.; 8' max.	B
Height, clear	8' min.	C
Height, top of covering	1 story max.	
Depth of recessed entries	6' max.	
C. Miscellaneous		
Stairs may be perpendicular or parallel to the building façade.		
Ramps shall be parallel to façade or along the side of the building.		
The entry door shall be covered or recessed to provide shelter from the elements.		
All doors must face the street.		

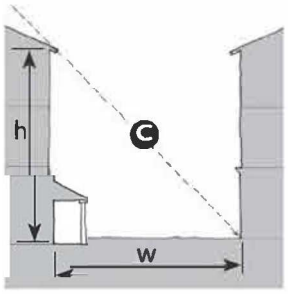
(Ord. No. 5948, § 1, 7-1-25)

11-60-7: FORECOURT

A. Description
Forecourt: The building's main façade is at or near the right-of-way, with a small portion of the façade set back to create a small courtyard. This area can serve as an entry court, a shared garden space for apartment buildings, or as an additional shopping or restaurant seating area.



This residential forecourt provides prominent entry yard and breaks down the overall massing along the street.



This commercial forecourt provides an outdoor dining area along a vibrant commercial street. The ROW is defined by a low wall as required by this code.

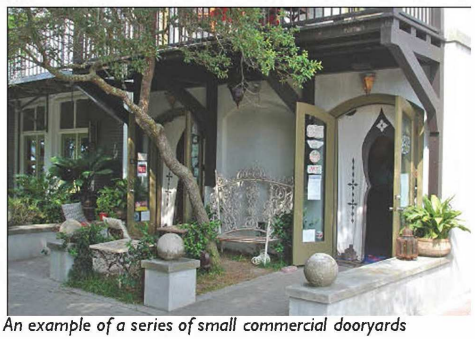
(All photos are illustrative, not regulatory)

B. Size

Width, clear	12' min.	A
Depth, clear	12' min.	B

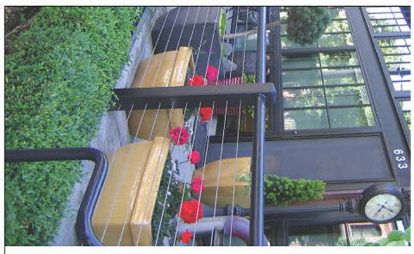
Ratio, Height to Width	2:1 max.	C

C. Miscellaneous



Within Neighborhood and Flex zones, a Forecourt cannot be used on parcels with more than one (1) adjacent parcel using a Forecourt.
Within Main Street zones, a Forecourt cannot be used on a parcel if an adjacent parcel has a Forecourt.
The proportions and orientation of these spaces should be carefully considered for solar orientation and user comfort.

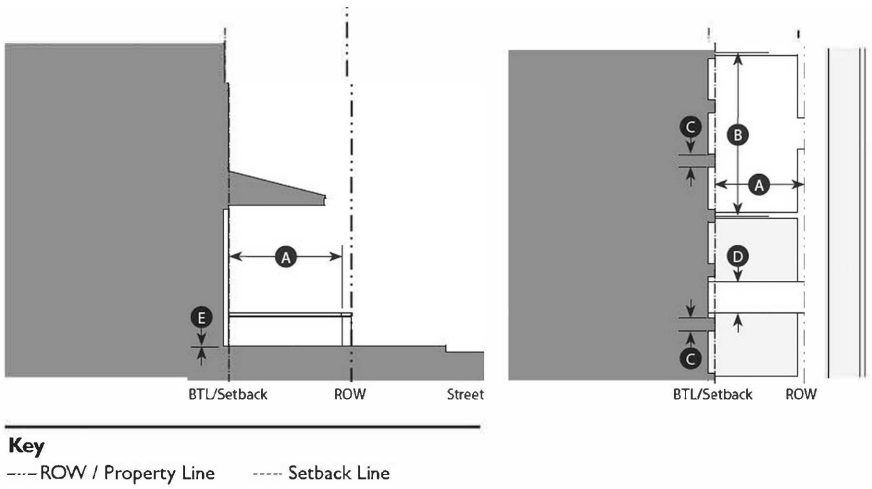
(Ord. No. 5948, § 1, 7-1-25)



11-60-8: DOORYARD

A. Description

Dooryard: The transition from the public to private realm is defined by a low wall or hedge placed just behind the right-of-way with the main building façade setback a small distance, creating a small dooryard. The dooryard may be raised, sunken, or at grade, and is intended for ground floor residential in flex zones, live/work, and small commercial uses ≤2,500 sf.

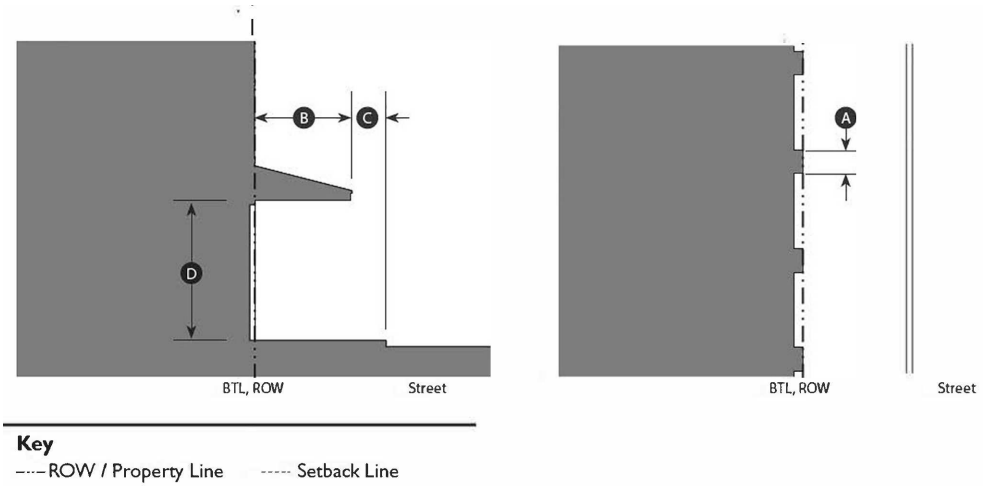


An example of a series of small commercial dooryards

An example of a series of residential dooryards. Each dooryard has its own steps with railings providing separation between the dooryards of adjacent units.

(All photos are illustrative, not regulatory)

B. Size



Depth, clear	8' min.	Ⓐ
Length	50' max.	Ⓑ

Distance between glazing	4' max.[1]	Ⓒ
Ground floor transparency	50% min.[2, 3]	
Depth of recessed entries	5' max.	
Path of travel	3' wide min.	Ⓓ
Finish level above sidewalk	3'-6' max.	Ⓔ
Finish level below sidewalk	6' max.	
C. Miscellaneous		
For Live/Work and Commercial Uses, these standards are to be used in conjunction with those for the Shopfront Frontage Type. In case of conflict between them, the Dooryard standards shall prevail.		
Low walls (12"-36") used as seating are encourage.		
Shall not be used for circulation for more than one (1) ground floor entry.		
Footnotes:		
1. May be increased if located outside of the Downtown Pedestrian Area, and superior building design standards are utilized including building wall articulation and changes in materials and colors, as reviewed with the Zoning Clearance.		
2. For live/work and commercial uses only.		
3. Minimum 40% if located outside the Downtown Pedestrian Area and superior, pedestrian-scale building design, with changes in color, material and texture is utilized, as reviewed with the Zoning Clearance.		

(Ord. No. 5948, § 1, 7-1-25)

11-60-9: SHOPFRONT

A. Description
Shopfront: The building's main façade is at or near the right-of-way with an at-grade entrance directly accessible from the public right-of-way. Designed primarily for retail use, it features substantial glazing at the sidewalk level and may include an awning that extends over the sidewalk. Shopfronts may be used in conjunction with other frontage types. Syn: **Retail Frontage, Awning**.
 *An example of a shopfront with a chamfered corner entry*  *An example of a shopfront with a recessed doorway*
(All photos are illustrative, not regulatory)
B. Size

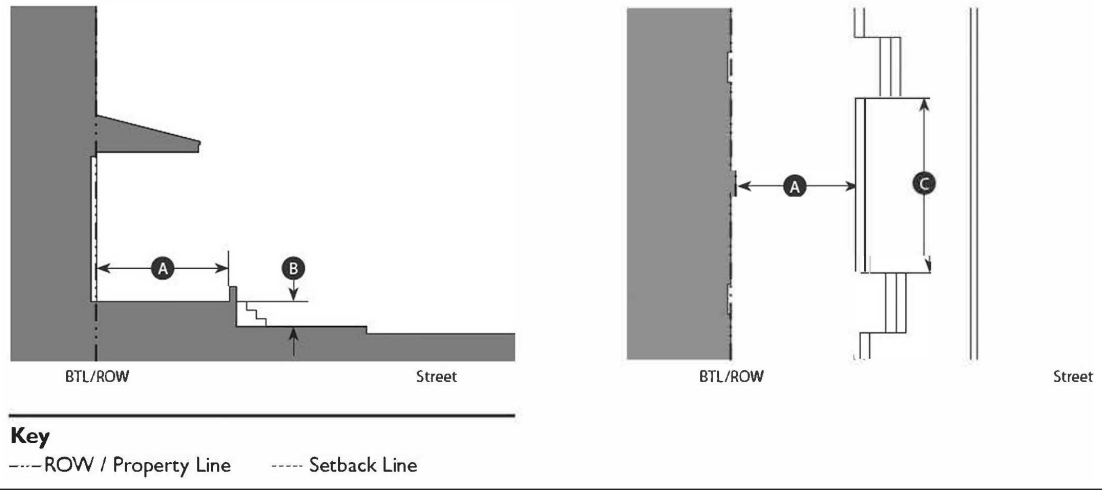
Distance between glazing	2' max.[1]	A
Ground floor transparency	75% min.[2]	
Depth of recessed entries	5' max.	
C. Awning		
Depth	4' min.	B
Setback from curb	2' min.	C
Height, clear	8' min.	D
D. Miscellaneous		
Residential windows shall not be uses.		
Operable awnings are encouraged.		
Open-ended awnings encourage.		
Rounded and hooped awnings are discourage.		
Shopfronts with accordion-style doors/windows or other operable windows that allow the space to open to the street are encouraged.		
Footnotes:		
1. May be increased if located outside of the Downtown Pedestrian Area, and superior building design standards are utilized including building wall articulation and changes in materials and colors, as reviewed with the Zoning Clearance.		
2. May be reduced to 50% if located outside the Downtown Pedestrian Area and results in superior building wall articulation and design, with further reduction to 40% if pedestrian-scale design is utilized, with changes in color, material and texture, as reviewed with the Zoning Clearance.		

(Ord. No. 5948, § 1, 7-1-25)

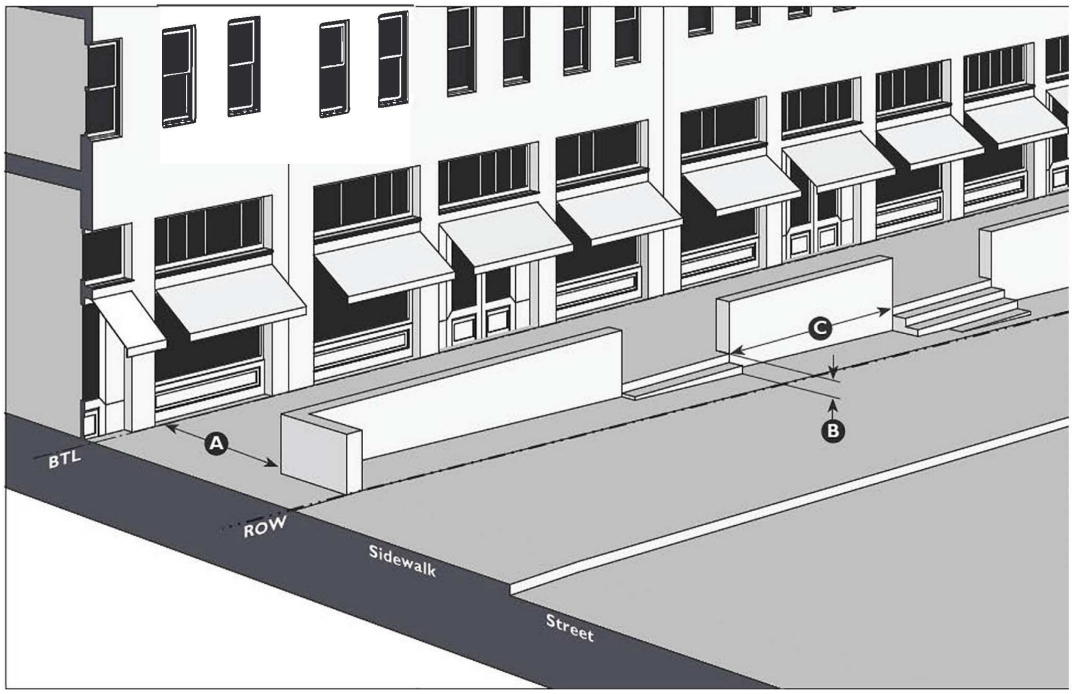
11-60-10: TERRACE

A. Description

Terrace: The building's main façade is at or near the right-of-way, with an elevated terrace providing public circulation along the façade. This design allows for at-grade access while allowing grade changes. Frequent steps leading up to the terrace are essential to avoid blank walls and ensure accessibility. Terraces may be used in historic industrial areas to mimic historic loading docks.



An example of a terrace used to accommodate a change in grade. The low walls are used to provide seating.



An example of a terrace in a historic industrial district

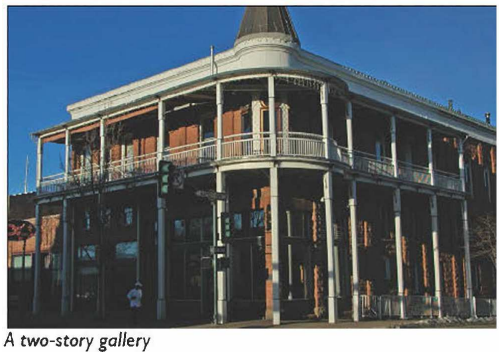
(All photos are illustrative, not regulatory)

B. Size

A terrace accommodating a grade change along a series of shopfronts

Depth, clear	8' min.	A
Finish level above sidewalk	3'6" max.	B
Length of terrace	150' max.	
Distance between stairs	50' max.	C

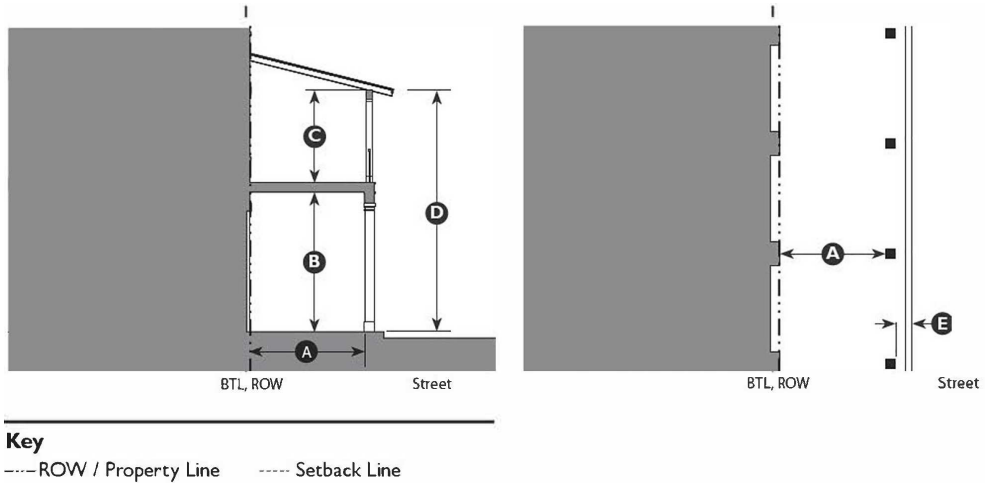
C. Miscellaneous
These standards are to be used in conjunction with those for the Shopfront Frontage Type. In case of conflict between them, the Terrace standards shall prevail.
Low walls used as seating are encouraged.



(Ord. No. 5948, § 1, 7-1-25)

11-60-11: GALLERY

A. Description
Gallery: The building's main façade is at the right-of-way, and the gallery element extends over the sidewalk. Designed for buildings with ground-floor commercial uses, the gallery can be one (1) or two (2) stories high. The gallery provides primary circulation along the building frontage, projecting far enough from the building to provide both protection and adequate space for pedestrians.



A one-story gallery with second floor access

A two-story gallery

(All photos are illustrative, not regulatory)

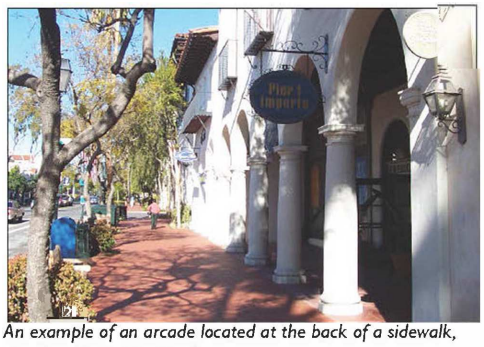
B. Size

Depth, clear	8' min.[1]	A
Ground floor height, clear	11' min.	B
Upper floor height, clear	9' min.	C
Height, top of covering	3 stories max.	D
Setback from curb	3' min.[2]	E

C. Miscellaneous

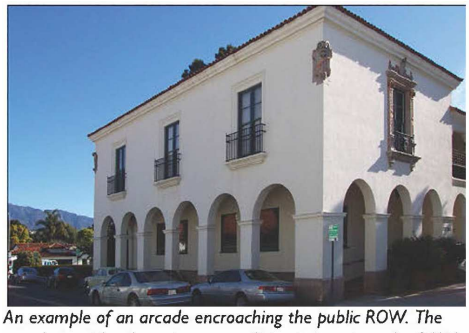
These standards are to be used in conjunction with those for the Shopfront Frontage Type. In case of conflict between them, the Terrace standards shall prevail.

Upper-story galleries facing the street must not be used to meet primary circulation requirements.



Footnotes:

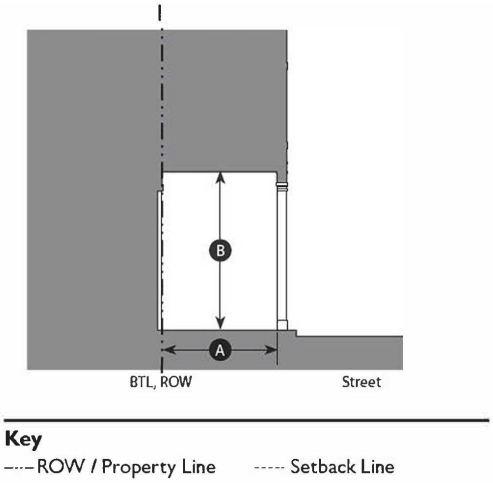
1. Galleries must have a consistent depth along a frontage.
2. Galleries must project over a sidewalk.



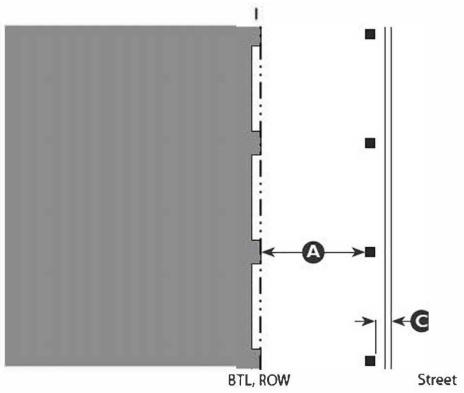
(Ord. No. 5948, § 1, 7-1-25)

11-60-12: ARCADE

A. Description
Arcade: A covered walkway with habitable space above, and often extending over, the right-of-way. The arcade serves as the primary circulation space along the frontage, projecting sufficiently from the building to provide protection and facilitate pedestrian movement. This design is typically used for buildings with ground floor commercial uses and is commonly found along public courtyards and paseos.



An example of an arcade located at the back of a sidewalk, abutting the public ROW



An example of an arcade encroaching the public ROW. The arcade provides the only means of circulation along the ROW.

(All photos are illustrative, not regulatory)

B. Size

Depth, clear	12' min.[1]	A
Ground floor height, clear	14' min. clear	B
Setback from edge of curb	3' min.	C

C. Miscellaneous
These standards are to be used in conjunction with those for the Shopfront Frontage Type. In case of conflict between them, the Terrace standards shall prevail.

Arcades with more than two (2) floors of habitable space above the colonnade may not encroach into the right-of-way and must be located so that it abuts the right-of-way.
Footnote:
1. Arcades must have a consistent depth along a frontage.

(Ord. No. 5948, § 1, 7-1-25)

CHAPTER 61 THOROUGHFARE STANDARDS

11-61-1: PURPOSE

A. The intent of this Chapter is to provide a catalog of pre-approved thoroughfare assemblies and components that are appropriate to use within transect zones. These components can be combined to form thoroughfares that can be used in developments. The standards in this Chapter are intended to help minimize the amount of back-and-forth with the Planning Department, City Traffic Engineer, Fire Department, Solid Waste Management, and City Engineer.

B. Application of thoroughfares will balance the needs of pedestrians with vehicles. To make a more pedestrian-friendly environment, design speeds will generally be lower and traffic congestion will generally be higher when compared to thoroughfares in other parts of the City.

11-61-2: APPLICABILITY

A. This Chapter describes thoroughfare assemblies, formulas, and components and assemblies approved for the development of thoroughfares in transect zones. It supplements the "Engineering Standards." Where these standards conflict with the "Engineering Standards", the standards of this Chapter shall prevail.

B. These thoroughfare standards are applicable for the transformation of existing thoroughfares and the creation of new thoroughfares in any areas within the transect zones.

C. The placement and use of thoroughfare assemblies is subject to review through the development of a Street Regulating Plan per Chapter 63 (Smart Growth Community Plans) Section 11-63-6 (Thoroughfares).

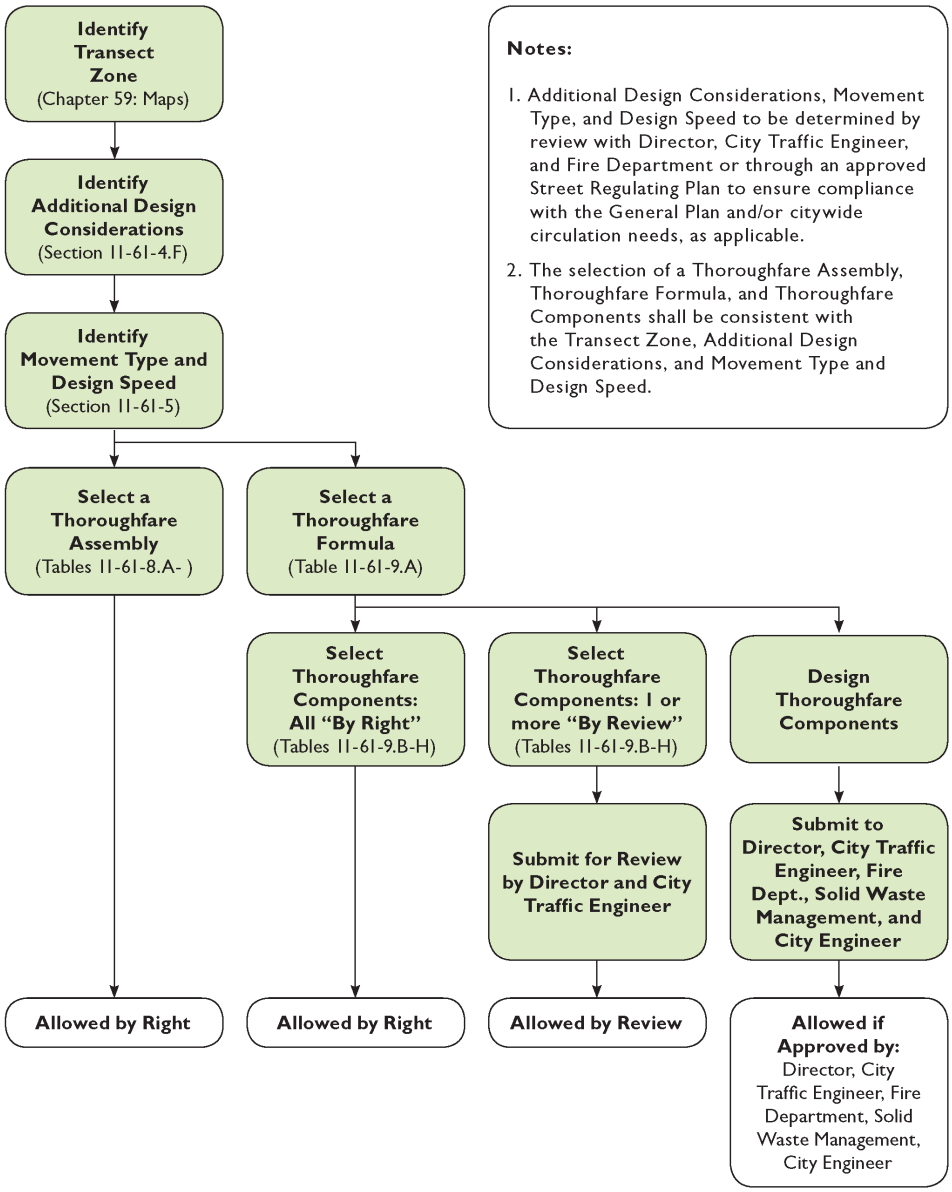
D. Additional thoroughfare assemblies can be integrated into this Chapter as they are approved by the City.

11-61-3: ALLOWED THOROUGHFARES

Allowed throughfares shall follow the process diagram in Table 11-61-3.A (Allowed Thoroughfare Process Diagram) and are allowed by right or with the specified approvals as follows:

A. Predefined thoroughfare assemblies found in Section 11-61-8 (Thoroughfare Assemblies) are allowed by right.

B. Thoroughfares that meet the standards found in Table 11-61-9.A (Thoroughfare Formulas) and use only the predefined components in Tables 11-61-9.B-H are allowed By Right or By Review as follows (Thoroughfares allowed By Review are allowed if approved by the Director and City Traffic Engineer.):



1. If all of the selected predefined components are allowed By Right, the thoroughfare is allowed By Right.

2. If one or more of the selected predefined components is allowed By Review, the thoroughfare is allowed By Review.

C. Thoroughfares that meet the standards found in Table 11-61-9.A (Thoroughfare Formulas) but do not use only the predefined components in Tables 11-61-9.B-H are allowed if approved by the Director, City Traffic Engineer, Fire Department, Solid Waste Management, and City Engineer.

D. Thoroughfares that do not meet the standards in items A-C above are not allowed in any Transect zones.

Table 11-61-3.A: Allowed Thoroughfare Process Diagram

11-61-4: THOROUGHFARE DESIGN

A. Thoroughfares are intended for use by vehicular and pedestrian traffic and to provide access to lots and open spaces.

B. Thoroughfares shall generally consist of vehicular lanes and public frontages.

C. Thoroughfares shall be designed in context with the urban form and general intention of the transect zones through which they pass.

1. Within the more urban transect zones (T3 through T6) pedestrian comfort shall be a primary consideration of the thoroughfare design. Design conflict between vehicular and pedestrian movement generally shall be decided in favor of the pedestrian.

2. Within the most rural transect zones (T1 and T2) pedestrian comfort shall be a secondary consideration of the thoroughfare design. Design conflict between vehicular and pedestrian movement generally shall be decided in favor of the vehicle.

D. The requirements for pedestrian and bicyclist safety, comfort and access shall establish thoroughfare movement type and design speed. The movement type and design speed shall be the primary consideration used to determine the dimensions of each thoroughfare element, such as vehicular lanes and turning (curb) radii.

E. Thoroughfares shall be designed to accommodate the types of vehicles expected to use each thoroughfare on a daily basis. Occasionally, large vehicles are expected on all thoroughfares. All thoroughfares shall allow these vehicles to safely pass without major difficulty. It is expected that large vehicles may encroach on the opposing lane when making turning movements.

F. Additional Design Considerations. Other factors that may need to be considered in the selection of an appropriate thoroughfare type in transect zones include the following:

1. Topography. Thoroughfares that traverse steep slopes may need to incorporate additional design consideration for such elements as drainage facilities, additional width for bicycle lanes on the uphill side of the thoroughfare, etc.

2. Parking. The provision of parking on site or on the thoroughfare may need to be considered in the selection of the appropriate thoroughfare type.

3. Truck Access. Thoroughfares that provide access to high volumes of large trucks may need additional design considerations to mitigate potential negative effects on walkability.

4. Bus Service. Thoroughfares that will serve as public transit or school bus routes may need additional design considerations, including, but not limited to, the location of bus stops.

5. Fire/Emergency Access. Additional design considerations may be needed to accommodate Fire/ Emergency Access, including, but not limited to, the location of rolled curbs and bulb-outs to accommodate fire truck outriggers.

G. All lane dimensions shall be measured to the face of the curb. Where no curb and gutter is provided, the lane dimension shall be to the edge of the pavement. For Yield movement types, lane dimensions assume two-way traffic and are for a single lane accommodating two-way traffic.

H. Shared lanes with sharrow markings on the travel lanes or a bicycle boulevard, a road shared by bicycles and vehicles, are allowed and may be required on streets with a design speed of 25 mph or less. Bike Lanes may also be required to provide continuity between neighborhoods or based on traffic volumes. See Table 11-61-9.B (Bicycle Facilities Standards) for minimum dimensions.

11-61-5: MOVEMENT TYPES AND DESIGN SPEED

Movement types are intended to assist in the selection of the appropriate thoroughfare design for the necessary level of pedestrian and bicyclist safety and comfort at any given location. Design speed is the primary determinant of movement type. A list of approved movement types (along with their assigned lane widths and curb radii) is provided for each transect zone in Tables 11-61-9.A-D.

Following is a list of movement types:

A. Yield. Drivers must proceed slowly, with extreme care, and must yield to approaching traffic when vehicles are parked on both sides of the thoroughfare creating essentially one through lane. A Yield Thoroughfare is the functional equivalent of traffic calming. In addition to Yield movement use on normal thoroughfares, this movement is used for Alleys and Rear Lanes. For these applications, the primary purpose is access to rear loaded driveways/access for residential and commercial property. The 12' travel lane for Rear Lanes can be configured for one-way or two-way operation. When used for two way travel, parking is required on both sides of street in order to facilitate the Yield Movement Type and drivers exiting garages or driveways will have to yield to those vehicles occupying the lane therefore the number of properties connected to the Rear Lane should be considered. Parking in Alleys and Rear Lanes should only occur in driveways or parking structures to allow access for trash collection, service trucks and emergency access. Design speed is less than 20 mph.

B. Slow. Drivers can proceed carefully with an occasional stop to allow a pedestrian to cross or another car to park. The character of the thoroughfare should make drivers uncomfortable exceeding the design speed due to the presence of parked cars, sense of enclosure from buildings and street trees, tight turning radii, and other design elements. Design speed is 20-25 mph.

C. Low. Drivers can generally expect to travel without delay at the appropriate design speed. Thoroughfare design supports safe pedestrian movement at the higher design speed. This movement type is appropriate for thoroughfares designed to traverse longer distances or connect to higher intensity locations. Design speed is 30-35 mph.

D. Suburban. This is a conventional thoroughfare design in which drivers can expect a separation of modes, (i.e., bike lanes, walking paths and roads) allowing automobiles to travel unimpeded by pedestrians or walkability concerns. This movement type is rarely used in T3 through T6 transect zones, but may be needed when a thoroughfare crosses through T1 or T2 transect zones. Design speed may be above 35 mph.

The design criteria for Yield, Slow, and Low Thoroughfares shall be commensurate with local thoroughfares. Design speeds higher than 35 mph shall not be used in areas intended to support moderate or high levels of pedestrian or bicycle activity due to concerns with safety and comfort.

11-61-6: INTERSECTIONS

A. Street design of narrow streets and compact intersections requires designers to pay close attention to the operational needs of transit, fire and rescue, waste collection and delivery trucks. For this reason, early coordination with transit, fire and rescue, waste collection and other stakeholder groups is essential.

B. More regular encroachment of turning vehicles into opposing lanes will occur at compact intersections. Therefore, frequency of access, traffic volumes and the speeds on intersecting streets at those intersections must be considered when designing intersections. For fire and rescue, determination of the importance of that street for community access should be determined, e.g. primary or secondary access.

C. The designer should use turning templates or software to evaluate intersections to ensure adequate operation of vehicles can occur. Location of on street parking around intersections should be evaluated during this analysis to identify potential conflicts between turning vehicles and on street parking. Bike lanes and on-street parking will increase the effective curb return radius, when curb extensions are not employed, by providing more room for the wheel tracking of turning vehicles.

11-61-7: PUBLIC FRONTAGES

A. **General to All Transect Zones**

1. The public frontage contributes to the character of the transect zone, and includes the types of sidewalk, curb, planter, and street trees.

2. Public frontages shall be designed and allocated within transect zones as shown in Tables 11-61-9.E-F

3. Within the public frontages, the prescribed types of public planting and public lighting shall be as shown in Tables 11-61-9.E-H. The spacing of the public planting may be adjusted with the approval of the Director to accommodate specific site conditions.

B. **Specific To Transect Zones T1, T2, T3**

1. The public frontage shall include trees of various species, naturalistically clustered, as well as understory.

2. The introduced landscape shall consist primarily of native species requiring minimal irrigation, fertilization and maintenance. Lawn shall be permitted only with approval by the Director.

C. **Specific To Transect Zones T4, T5, T6**

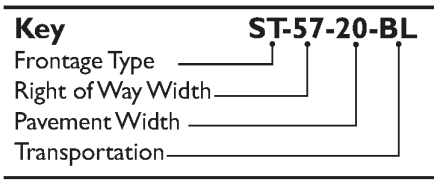
1. The introduced landscape shall consist primarily of durable species tolerant of soil compaction.

2. Above ground utility facilities shall be placed to minimize the impact on pedestrians.

D. **Specific To Transect Zones T4**

1. The public frontage shall include trees planted in a regularly-spaced allee pattern of single or alternated species with shade canopies of a height that, at maturity, clears at least one Story.

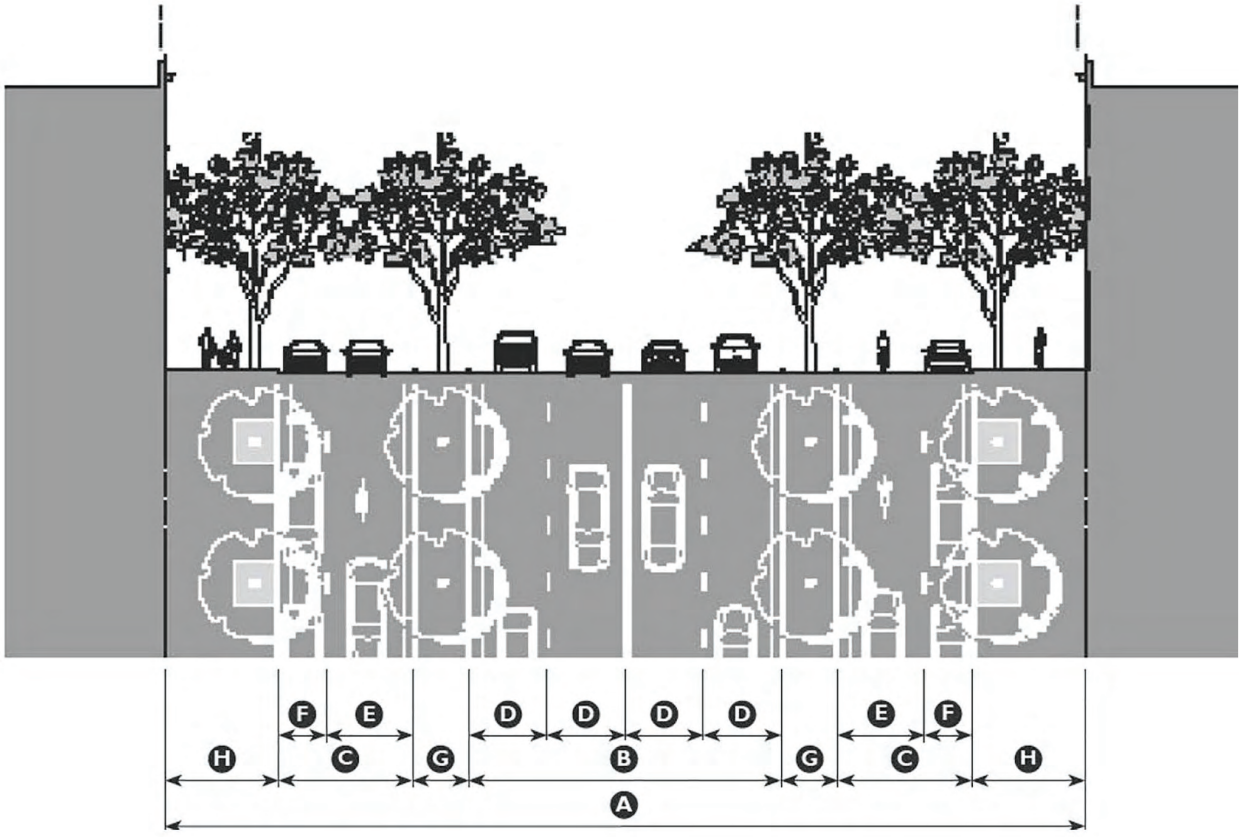
E. **Specific To Transect Zones T5, T6**



1. The public frontage shall include trees planted in a regularly-spaced allee pattern of single species with shade canopies of a height that, at maturity, clears at least one Story. At retail frontages, the spacing of the trees may be irregular, to avoid visually obscuring the shopfronts.

2. Streets with a Right-of-Way width of 40 feet or less shall be exempt from the tree requirement.

11-61-8: THOROUGHFARE ASSEMBLIES



A. This section provides thoroughfare assemblies that have been approved by the City for use in transect zones.

B. The tables in this section are added into the City of Mesa Engineering and Design Standards.

Highway:	HW
Boulevard:	BV
Avenue:	AV
Commercial Street:	CS
Drive:	DR
Street:	ST
Road:	RD
Rear Alley:	RA
Rear Lane:	RL

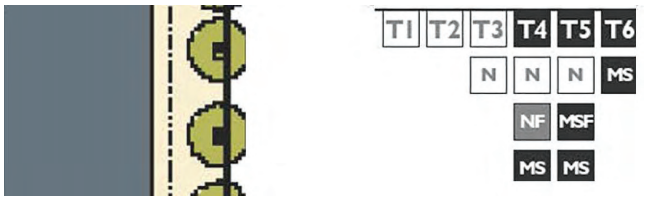
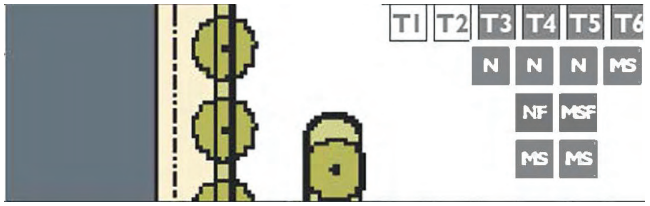
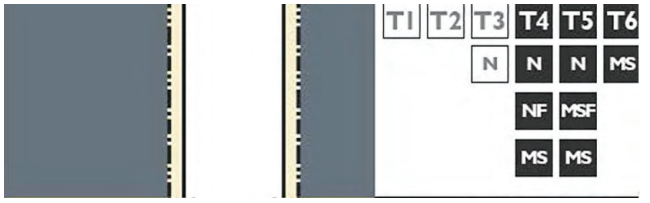
Movement Type	Speed	Curb Radius[1]
Yield	<20 mph	5'—10'
Slow	20—25 mph	10'—15'
Low	30—35 mph	15'—20'

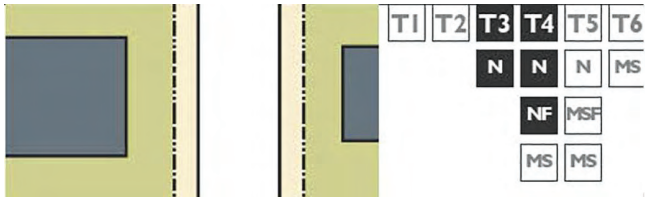
[1] This table provides the allowed curb radius range by movement type and speed. The dimensions above require the provision of an effective curb radius and/or mountable curbs that meet the needs of fire and emergency access. All intersections shall be designed to meet the requirements in 11-61-6 (Intersections)

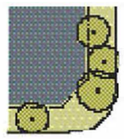
Table 11-61-9.E: Public Frontage Types		
The public frontage is the area between the curb of the vehicular lanes and the Property Line/ROW. Dimensions are provided in Table F (Public Frontage Standards).		
Public Frontage Type		Transect Zone
(HW) For Highway. The For Highway Frontage has bicycle trails, no parking and open swales. The landscaping consists of the natural condition or multiple species arrayed in naturalistic clusters. Buildings are buffered by distance or berms.		
(RD) For Road. The For Road Frontage has open swales, a walking path or bicycle trail along one or both sides, and yield parking. The landscaping consists of multiple species arrayed in naturalistic clusters.		
(ST) For Street. The For Street Frontage has raised curbs drained by inlets and sidewalks separated from the vehicular lanes by individual or continuous planters. The landscaping consists of street trees of a single or alternating species aligned in a regularly spaced allee.		
(DR) For Drive. The For Drive Frontage has raised curbs drained by inlets and a wide sidewalk or paved path along one side, related to a Civic Space. It is separated from the vehicular lanes by individual or continuous planters. The landscaping consists of street trees of a single or alternating species aligned in a regularly spaced allee.		
(AV) For Avenue. The Avenue Frontage has raised curbs drained by inlets and wide sidewalks separated from the vehicular lanes by a narrow continuous planter with parking on both sides. The landscaping consists of a single tree species aligned in a regularly spaced allee.		

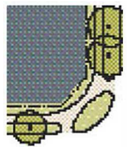


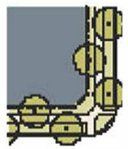


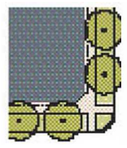


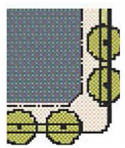


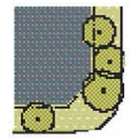


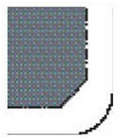


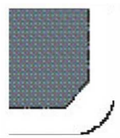


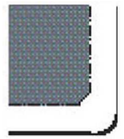


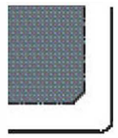


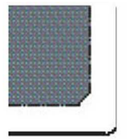


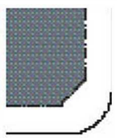


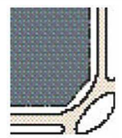


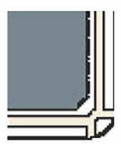


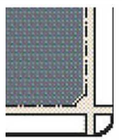


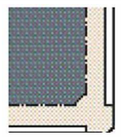


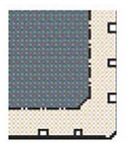


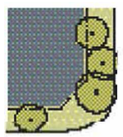


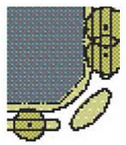


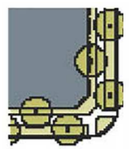


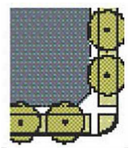


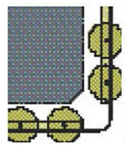


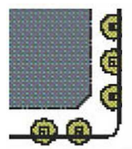












(CS) For Commercial Street or Avenue. The For Commercial Street or Avenue Frontage has raised curbs drained by inlets and very wide sidewalks along both sides separated from the vehicular lanes by separate tree wells with grates. The landscaping consists of a single tree species aligned with regular spacing where possible.	
(BV) For Boulevard. The Boulevard Frontage has slip roads on both sides. It consists of raised curbs drained by inlets and sidewalks along both sides, separated from the vehicular lanes by planters. The landscaping consists of double rows of a single tree species aligned in a regularly spaced allee.	
(RA) For Rear Alley. The Rear Alley Frontage is located to the rear of lots. It consists of a paved surface and ribbon curb at the edges adjacent to property lines or buildings. Alleys are typically not landscaped.	
(RL) For Rear Lane. The Rear Lane Frontage is located to the rear of lots. It consists of a paved surface and compacted gravel or similar material placed on the outer edges. Lanes are typically not landscaped.

CHAPTER 62 CIVIC SPACE STANDARDS

11-62-1: PURPOSE

The purpose of this Chapter is to provide a set of civic space types and their associated standards to use within the transect zones.

11-62-2: APPLICABILITY

The standards established in this Chapter shall apply to all proposed development within the transect zones, and shall be considered in combination with the standards found within the other Chapters in Article 6 (Form-Based Zoning).

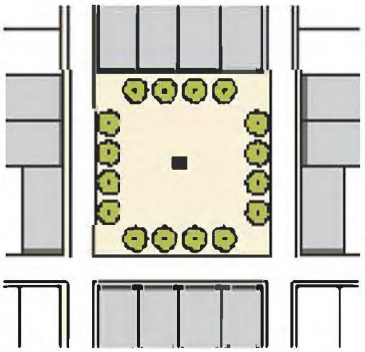
11-62-3: CIVIC SPACES

A. The standards established in this Chapter provide the transect zones with a diverse palette of parks and other publicly accessible civic spaces, publicly or privately owned, that are essential components of walkable urban environments.

B. There are 11 different civic space types defined in Table A (Civic Space Type Standards). Two of the civic space types, Playgrounds and Community Gardens, may be incorporated into any of the other nine types or may stand alone.

C. In Table A (Civic Space Type Standards), the illustration and description of each civic space type are illustrative in nature and not regulatory.

D. The service area, size, frontage and disposition of elements standards of each civic space types are regulatory.



1. ***Service Area.*** Describes how the civic space relates to the City as a whole and the area that will be served by the civic space.

2. ***Size.*** The overall range of allowed sizes of the civic space.

3. ***Frontage.*** The relationship along property lines of a civic space to adjacent buildings or lots.

a. The front of the lots attached to or across a thoroughfare from a civic spaces should face on to the civic space to the maximum extent possible.

b. Building. Lots that are attached to or across a thoroughfare from civic spaces listed as having an "Building" frontage shall have the front of the lot facing on to the civic space for a minimum of three quarters of the civic space perimeter.

Left: Diagram illustrates lot configuration meeting minimum requirements for a civic space with a "Building" frontage. Three quarters of the building lots along the civic space, either attached to or across a thoroughfare from, have the front of the lot facing onto the civic space.

c. Independent. Lots that are attached to or across a thoroughfare from civic spaces listed as having an "Independent" may have the front, side street, or rear of the lot facing on to the civic space.

4. ***Disposition of Elements.*** The placement of objects within the civic space.

a. *Natural.* Civic spaces with natural character are designed in a natural manner with no formal arrangement of elements.

b. *Formal.* Civic spaces with a formal character have a more rigid layout that follows geometric forms and has trees and other elements arranged in formal patterns.

c. *Informal.* Civic spaces with an informal character have a mix of Formal and Natural characteristics.

E. **Typical Facilities.** A list of the typical facilities found within the civic space. This list is not intended to be a complete list of facilities allowed nor is it intended that every civic space would contain each of the facilities listed. Facilities larger than indicated gross square footage (gsf) require review and approval by the Director and Parks Director.

F. The civic spaces specified in Table A (Civic Space Type Standards) are allowed By Right or By Review in the designated transect zones. (Civic Space allowed By Review are allowed if approved by the Director and Parks Director.)

11-62-4: ADDITIONAL STANDARDS

A. **Accessory Structure Standards.** All accessory structures within parks and open spaces, including, but not limited to, restrooms, open-air pavilions, gazebos, picnic shelters and outdoor theaters, shall not be subject to the physical requirements of the Building Form Standards in Chapter 58 (Building Form Standards). They shall be designed and furnished to be consistent with the character of the transect zone in which they are located. Such consistency may require accessory structures to maintain building setbacks, frontage, massing, disposition and character similar to adjacent development as determined by the Director.

B. **Lighting Standards.**

1. All lighting shall comply with the standards found in the Mesa Lighting and Electrical Code, Title 4, Chapter 4 of the Mesa City Code.

2. All lighting shall comply with § 11-30-5 of this Zoning Code.

3. All athletic field/sport court lighting shall be Dark Sky Compliant and shall require a Special Use Permit (SUP).

CHAPTER 63 SMART GROWTH COMMUNITY PLANS

11-63-1: PURPOSE

The purpose of this Chapter is to provide standards for the application of Form-Based Code standards to reinforce walkable urban neighborhoods or create new walkable urban neighborhoods within the City of Mesa. This application will start with the downtown Main Street area to reinforce the implementation of light rail and to put a proper regulatory framework in place to encourage transit-oriented development (TOD).

Smart Growth Community Plans (SGCP) are intended to create and reinforce walkable urban environments with a mix of housing, civic, retail and service choices within a compact, walkable, and transit-oriented or transit-ready environment.

This Chapter shall be used to achieve the following goals and objectives:

A. Improve the built environment and human habitat.

B. Promote development patterns that support safe, effective, and multi-modal transportation options, including auto, pedestrian, bicycle, and transit, and therefore minimize vehicle traffic by providing for a mixture of land uses, walkability, and compact community form.

C. Provide neighborhoods with a variety of housing types to serve the needs of a diverse population.

D. Remove barriers and provide incentives for walkable urban projects.

E. Promote the greater health benefits of a pedestrian-oriented environment.

F. Reinforce the character and quality of downtown and adjacent neighborhoods.

G. Reduce sprawling, auto-dependent development.

H. Protect and enhance real property values.

I. Reinforce a unique identity for Mesa that builds upon the local context, climate, and history.

11-63-2: APPLICABILITY

A. The owner(s) of a parcel, or abutting parcels, consisting of 10 acres or more of contiguous lots within an area subject to the Smart Growth Overlay may apply to prepare an Infill SGCP. In consultation with the Planning Office, an Infill SGCP must assign transect zones, civic zones, thoroughfares, special districts and/or special requirements as provided in this Chapter, with appropriate transitions to abutting areas.

B. For a site less than 10 acres or any area designated by the City Council for redevelopment, an Infill SGCP may be approved if the Director determines that:

1. The goals and objectives of this Chapter can be achieved with the smaller site; or

2. The project will provide an appropriate and logical extension of an existing transect zone or zones or existing walkable urban environment.

C. The owner of a parcel, or abutting parcels, consisting of 30 acres or more of contiguous lots, whether inside or outside an area subject to the Smart Growth Overlay, may initiate the preparation of a New Smart Growth Community Plan. The plan shall connect and blend with the scale and character of the surrounding urbanism.

D. In the event that any of the standards in this Chapter conflict with other standards in this Code the standards in this Chapter override.

11-63-3: SMART GROWTH COMMUNITY PLAN REQUIREMENTS

Each SGCP shall:

A. Be structured with pedestrian sheds to determine the scale and center. See Section 11-63-4 (Pedestrian Sheds).

B. Allocate Transect Zones as per Section 11-63-5 (Transect Zones) and Table 11-63-5.A.

C. Lay out a thoroughfare network according to standards in Section 11-63-6 (Thoroughfares).

D. Allocate civic spaces and civic buildings according to the standards in Section 11-63-7 (Civic Buildings and Civic Spaces).

E. Provide Neighborhood Centers/Main Streets to meet the standards in Section 11-63-8 (Neighborhood Centers/Main Streets).

F. Provide a mix of building types to meet the standards in Section 11-63-9 (Mix of Building Types).

G. Provide a mix of lot sizes to meet the standards in Section 11-63-10 (Mix of Lot Types) and Table 11-63-10.A.

H. Have all lots facing a vehicular thoroughfare, except that 20% of the lots within each Transect Zone may face a pedestrian passage or a courtyard.

I. Connect and blend with the scale and character of the surrounding walkable urbanism.

J. The SGCP shall be calibrated to suit specific topographical, environmental, site layout, and design constraints unique to the site or its location within the City, yet each SGCP will be consistent in terms of structure and content based on the provisions of this Chapter.

K. In addition to the requirements of this Section, the SGCP should promote the Mesa General Plan, or other applicable plans adopted by the city. This can be measured by the achievement of LEED certification (Leadership in Energy and Environmental Design) by the US Green Building Council, or equivalent, for all residential and mixed-use buildings. Also, LEED-ND certification (Leadership in Energy and Environmental Design for Neighborhood Development) for the SGCP should be pursued.

(Ord. No. 5928, § 24, 2-3-25)

11-63-4: PEDESTRIAN SHEDS

Pedestrian sheds are useful in planning as they provide an understanding of how far a typical pedestrian might be willing to walk. They are based on the understanding that most people are willing to walk up to five minutes before they will choose to drive and up to ten minutes to a major destination or transit stop. SGCPs use pedestrian sheds to define the boundaries and the relationship of development patterns to create walkable environments.

A. Pedestrian Sheds shall be centered on a Neighborhood Center or a Main Street.

B. **Types of Pedestrian Sheds.**

1. ***Standard Pedestrian Shed.*** A pedestrian shed that is based on a one-quarter mile (1320 feet) radius around a node. Standard pedestrian sheds are useful in planning neighborhoods. See diagram on the following page.

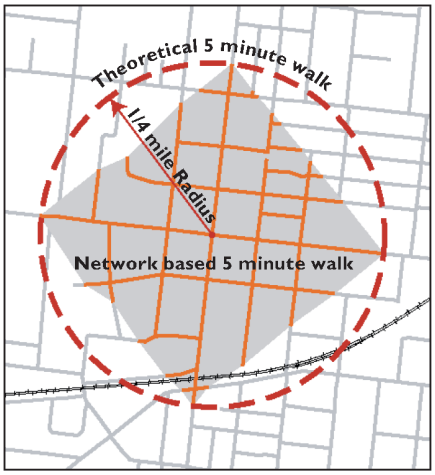
2. ***Linear Pedestrian Shed.*** A pedestrian shed that is based on a one-quarter mile (1320 feet) radius around a series of block lengths. Linear pedestrian sheds are useful in planning neighborhood main streets or neighborhoods with multiple nodes. See diagram on the following page.

3. ***Long Pedestrian Shed.*** A pedestrian shed that is based on a one-half mile (2640 feet) radius around a series of block lengths. Long pedestrian sheds are useful in planning major destinations and downtowns. See diagram on the following page.

C. **Maximum Size of Pedestrian Shed.**

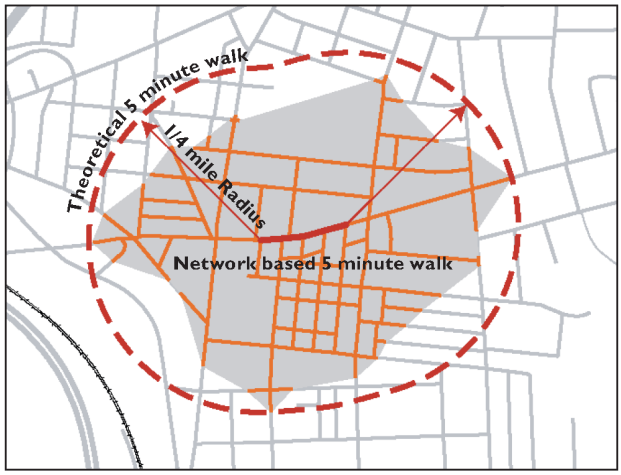
1. Individual standard pedestrian sheds shall be no more than 160 acres.

2. Linear pedestrian sheds shall be no more than 200 acres. The site or any plan may be smaller than its associated pedestrian shed.



3. Long pedestrian sheds shall be no more than 510 acres.

D. Remnants of the site outside the pedestrian sheds shall meet the following requirements:



1. Remnant areas outside of a pedestrian shed shall be assigned transect zones, civic spaces, or special districts; and

2. If the remnant areas assigned as T3, T4, and T5 transect zones exceed 35 acres, an additional pedestrian shed shall be created to encompass these remnant areas.

E. The pedestrian shed shall be mapped on the regulating plan.

Standard Pedestrian Shed

Linear Pedestrian Shed

Long Pedestrian Shed

11-63-5: TRANSECT ZONES

A. **General.**

1. Transect Zones established in Chapter 58 (Building Form Standards) shall be used for the regulating plan.

2. **Modifications to Transect Zone Standards After Smart Growth Community Plan Approval.**

a. *Administrative Modifications.* An Applicant may request administrative modifications to the Transect Zone standards in accordance with Section 11-56-3(G) of this Ordinance.

b. *City Council approved modifications.* Any modification to a Transect Zone standard that does not qualify as an administrative modification shall be processed as an amendment to the approved Smart Growth Community Plan and is subject to City Council approval.

B. **Allocation of Transect Zones.**

1. Any portion of a development site within one-quarter mile of a major transit stop may be considered transit-oriented development (TOD). Any sites outside this radius shall be considered a traditional neighborhood development (TND).

2. Community plans for complete new neighborhoods and smaller infill sites over 10 acres shall assign and map transect zones to each pedestrian shed according to the percentages allocated in the table on the following page.

3. For sites 10 acres or less, the Director shall determine the appropriate mix of Transect Zones and the location of the center of the pedestrian shed for the area to determine if a main street is needed on the site based on existing conditions. For these sites, property owners shall submit a letter of intent to apply a regulating plan to their site to the Director, and a Pre-Application Meeting shall be held prior to Preliminary Review. Following this meeting and the further review of the project area, the Director shall make this determination.

a. The criteria for determining the appropriate mix of Transect Zones are as follows:

(1) Proximity to existing or future transit stops;

(2) Scale and uses adjacent to site;

(3) Existing zoning and entitlement of property;

(4) Size of the site;

(5) Site constraints and opportunities;

(6) Ability of site to create a complete walkable neighborhood; and/or

(7) Role of this site in Smart Growth strategy for the larger city based on sector mapping or macro scale analysis.

4. Any TOD frontage along main streets shall have a T4 or T5 Main Street zone designation.

5. The Director may approve a variance for up to 15% for the transect zone allocation within Table 11-63-5.A (Required Allocation Mix of Transect Zones) as long as the proposed regulating plan meets the objectives of this Chapter.

Table 11-63-5.A Required Allocation Mix of Transect Zones

Transect Zone	Percentage of Land Assign to Zone	
	Minimum	Maximum
Traditional Neighborhood Development between 10 - 30 acres		
T3 Neighborhood	no min.	30% max.
T4 Neighborhood (T4N)	25% min.	70% max.

T4 Neighborhood Flex (T4NF)	10% min.	50% max.
T4 Main Street (T4MS)	10% min.	30% max.
T5 Neighborhood (T5N)	no min.	35% max.[1, 2]
T5 Main Street Flex (T5MSF)	no min.	25% max.[1]
T5 Main Street (T5MS)	no min.	15% max.[1]
T6 Main Street (T6MS)	NA	NA
Traditional Neighborhood Development greater than or equal to 30 acres		
T3 Neighborhood	10% min.	30% max.
T4 Neighborhood (T4N)	25% min.	70% max.
T4 Neighborhood Flex (T4NF)	10% min.	50% max.
T4 Main Street (T4MS)	10% min.	30% max.
T5 Neighborhood (T5N)	no min.	30% max.[2]
T5 Main Street Flex (T5MSF)	no min.	30% max.
T5 Main Street (T5MS)	no min.	20% max.
T6 Main Street (T6MS)	NA	NA
Transit Oriented Development		
T3 Neighborhood	NA	NA
T4 Neighborhood (T4N)	no min.	20% max.[3]
T4 Neighborhood Flex (T4NF)	no min.	15% max.
T4 Main Street (T4MS)	no min.	30% max.
T5 Neighborhood (T5N)	no min.	80% max.[4]
T5 Main Street Flex (T5MSF)	10% min.	75% max.
T5 Main Street (T5MS)	10% min.[5]	30% max.[6]
T6 Main Street (T6MS)	NA	NA
End Notes:		
[1] Allocation of Transect Zone requires Director approval		
[2] Allocation of T5N requires the allocation of T5MSF or T5MS		
[3] Should primarily be used to transition TOD into an adjacent single-residence neighborhood if it abuts one.		
[4] With Director approval may be as high as 100% if the site is not along a major corridor and is not adjacent or backing onto single-residence parcels.		
[5] With Director approval may be as low as 0% if the site is not along a major corridor.		
[6] With Director approval may be up to 100% if the site is adjacent to the main street.		

(Ord. No. 5948, § 2, 7-1-25)

11-63-6: THOROUGHFARES

Thoroughfares define the public streets that refine pedestrian sheds into walkable environments. Care should be taken in the layout and sizing of thoroughfares, as wide thoroughfares and a lack of connectivity reduce the pedestrian friendliness of the area.

A. **Design.**

1. Thoroughfares shall be designed per Chapter 61 (Thoroughfare Standards).

2. The thoroughfare network shall be mapped on a Street Regulating Plan that shall:

   a. Indicate the layout of thoroughfares and the block network according to the standards established in Subsections 11-63-6.B (Block Size) and 11-63-6.C (Connectivity); and

   b. Be reviewed and approved by the Director, City Traffic Engineer, and Fire Department.

3. Thoroughfares that pass from one transect zone to another shall adjust their public frontages to match the character of the transect zone. For example a thoroughfare that goes from an urban transect zone with retail shops may change in character from wide sidewalks with trees in tree grates to a narrower sidewalk with a planting strip as the thoroughfare transitions to a less urban transect zone composed of various residential building types.

B. **Block Size.** Individual block faces and the total block perimeter shall follow the standards established in the table below. If a block contains multiple transect zones, the most intense transect zone shall be used to establish the requirements for block size.

Table 11-63-6.A Block Size		
Transect Zone	**Block**	
	Face Length	**Perimeter Length**
T3	900 ft. max.	2,400 ft. max.
T4	600 ft. max.	2,000 ft. max.
T5	600 ft. max.	1,800 ft. max.

C. **Connectivity.**

1. ***Interconnected Thoroughfares.*** Proposed thoroughfares shall be interconnected and shall connect with adjacent thoroughfares external to the site to provide multiple routes for pedestrian and vehicle trips from, to, and within the site.

2. Thoroughfares shall terminate/connect to other thoroughfares. Thoroughfares shall not terminate on alleys and lanes.

3. ***Thoroughfare Extensions and Thoroughfare Stubs.***

   a. Where a plan adjoins non-subdivided land, thoroughfares shall be extended to the adjacent non-subdivided land, as prescribed by the maximum block length requirements to provide access to the non-subdivided land in the event of its future subdivision.

   b. Where a plan adjoins developed or entitled parcels, thoroughfares shall connect to existing or entitled thoroughfare right-of-ways and stubs.

4. ***Dead-End Thoroughfares and Cul-de-Sacs.***

   a. Thoroughfares shall not include dead-end thoroughfares or cul-de-sacs except where through-streets cannot be provided because of an environmental feature requiring protection and/or preservation (e.g., a creek channel).

   b. The length of dead-end thoroughfares shall not exceed 300 feet, as measured from the center of the closest intersection to the center of the cul-de-sac bulb, and these thoroughfares shall provide a suitable turn-around designed to the satisfaction of the Director.

11-63-7: CIVIC BUILDINGS AND CIVIC SPACES

Civic buildings and civic spaces provide important gathering places for communities and access to outdoor activities. The civic buildings and civic spaces should be carefully located within the pedestrian shed and accessible to all. The following standards shall be met for providing and locating civic buildings and civic spaces.

A. **General.**

1. SGCPs shall designate civic spaces and civic buildings on a Regulating Plan.

2. The design of civic spaces shall meet the standards set forth in Chapter 62 (Civic Space Types).

3. Civic buildings and the associated civic spaces shall cover less than 20% of a pedestrian shed. To request that civic buildings and the associated civic spaces cover 20% or more of a pedestrian shed, the applicant may apply for a special exception to create a special district.

B. **Civic Space Allocation.**

1. Projects shall set aside a minimum of five percent of the project area as civic space. This number shall be calculated after street right-of-way are subtracted from the project area. The following are exceptions:

a. For sites less than four acres, no civic spaces beyond the playground requirements of Subsection 3 are required.

b. For sites less than eight acres and within 1,500 feet of an existing public park of at least one acre, no civic spaces beyond the playground requirements of Subsection 3 are required.

2. For sites greater than ten acres, the required amount of civic space shall be distributed throughout the neighborhood as multiple smaller civic spaces.

3. Each residential lot shall be within 1,500 feet of an existing or proposed publicly accessible playground or tot lot.

C. **Civic Building Allocation.**

1. Sites greater than four acres or providing 100 units or more shall provide an indoor public meeting space that is a minimum of 30 feet by 30 feet and a maximum of 10,000 square feet. This may be a freestanding building or integrated within another building. This requirement may be waived for Infill SGPS if an existing public meeting space is located within 1,500 feet of the site.

2. Schools that are integrated into the regulating plan shall be located near the designated center of the pedestrian shed.

3. If a pool and a pool building are integrated into the plan, the space allocated for the pool use (building and grounds) may count for 1.25 times the actual space toward the required civic space.

11-63-8: NEIGHBORHOOD CENTERS/MAIN STREETS WITHIN NEW SMART GROWTH COMMUNITY PLANS

A. **General.**

1. Neighborhood centers/main streets shall be located near the center of each pedestrian shed within a New SGCP.

2. Lots designated as part of a neighborhood centers/main streets within New SGCPs shall have a minimum depth of 130 feet; lots less than 130 feet may be approved by the Director.

3. Main streets shall be located as follows:

a. Along a thoroughfare that will have development consistent with a Main Street Transect Zone on both sides or one side if the other side is a civic space/civic use; and

b. Along a primary through-thoroughfare that connects to other existing or planned main streets or neighborhood centers; or

c. Perpendicular to and directly engaging a primary through-thoroughfare.

4. Neighborhood centers shall include one or more civic spaces that contain one or more civic buildings and/or uses. Limited retail or service uses may also be incorporated within the civic space or buildings.

B. **Allocation.** A main street within a New SGCP shall have a minimum of 400 linear feet of frontage as measured from the edge of lots.

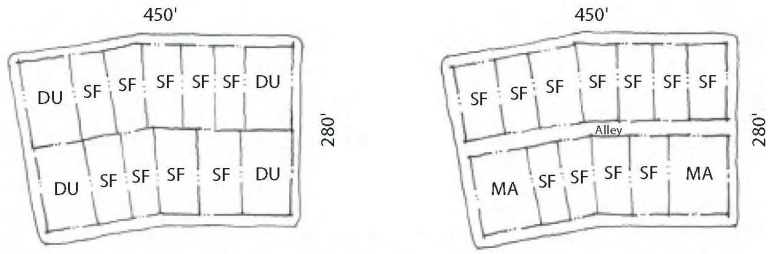
C. **Phasing.** A minimum of one lot designated as part of a main street shall be included and built during the first phase of a project.

11-63-9: MIX OF BUILDING TYPES WITHIN NEW SMART GROWTH COMMUNITY PLANS

A mix of building types introduces variety into the character of SGCPs.

A. In T3 Neighborhood Zones, a minimum of five percent of buildings shall be multi-residence/unit building types.

B. In the T4 Neighborhood Zones, a minimum residential mix of three building types shall be required.



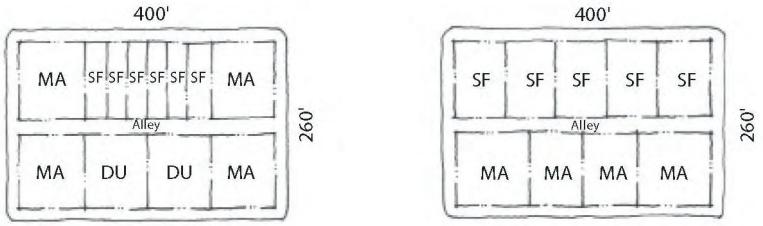
C. No single building type may represent more than 60 percent of the total number of buildings, except in T5.

D. Blocks shall provide a diversity of residential and mixed-use building types in a manner that fulfills the intent of each Transect Zone as they are described in Chapter 2.20 and the following formulas. In the event that blocks are composed of more than one Transect Zone, the minimum mixing requirements of the most intense Transect Zone shall apply across the block.

1. Blocks within the T3N Transect Zone are intended to be primarily composed of single-residence/unit and duplex building types, while accommodating limited multi-residence building types that are compatible with single-residence/unit form.

a. Blocks within the T3N Transect Zone shall provide a minimum of two building types per block.

b. At least 50% of the residential units on block shall be located within single-residence/unit and/or duplex building types.

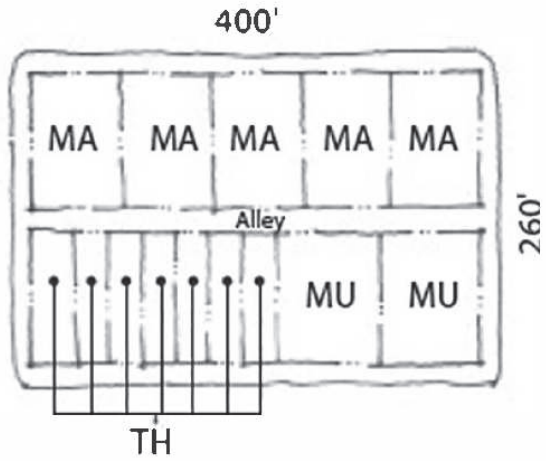


***Above**: Diagrams illustrates two typical building type distributions in the T3N Zone District. Left: Block with nine single-residence building types (SF) and four duplexes (DU), one at each block corner; no alley is required for access. Right: Block with eleven single-residence building types and two mansion apartments (MA) placed at two respective corners; an alley is provided for access. In both cases, at least 50% of the residential units on the block are within single-residence and/or duplex building types.*

2. Blocks within the T4N Transect Zone are intended to provide a mix of single-residence/unit, duplex and multi-residence/unit types.

   a. Blocks within the T4N Transect Zone shall provide a minimum of two building types per block.

   b. No block may be entirely composed of single-residence/unit and/or duplex building types.



***Above**: Diagrams illustrates two typical building type distributions in the T4N Transect Zone. Left: Block with six small-lot single-residence/unit building types (SF), four mansion apartment buildings (MA) and two duplexes (DU) Right: Block with 5 single-residence/unit building types (SF) and four mansion apartments (MA).*

3. Blocks within the T4NF or T5MSF Transect Zone are intended to provide the greatest diversity of building types.

   a. Blocks within the T4NF or T5MSF Transect Zone shall provide a minimum of three distinct building types per block.

   b. No more than 50% of the residential units on a block shall be located within single-residence/unit or duplex building types.

Above: Diagram illustrates typical building type distributions in the T4NF or T5MSF Transect Zone. Block includes five mansion apartment buildings (MA), seven townhome buildings (TH), and two main street mixed-use buildings (MU)

11-63-10: MIX OF LOT SIZES

A mix of lot sizes introduces variety into the character of Smart Growth Community Plans.

A. A mix of lot sizes shall be provided within pedestrian sheds and blocks as established in the table below.

Table 11-63-10.A Mix of Lot Sizes		
Transect Zone	**Minimum Number of Lot Sizes**	
	Pedestrian Shed	**Block**
T3	3	2
T4	2	2
T5	No minimum	No minimum

B. Lot shall vary by a minimum of 5 feet in width.

11-63-11: INCENTIVES

To encourage the use of the SGCPs Chapter, the City Council shall grant the following incentives, to the extent authorized by State law:

A. With an application for a Infill SGCP, separate review of a conceptual plat is no longer necessary, as it will be combined with the review for the Infill SGCP.

B. An application for a preliminary plat and regulating plan with its associated Form-Based Code may be considered together. This has the advantage of reducing the amount of time required for project review and reduces otherwise applicable fees.

C. A request for rezoning may occur concurrent with the request for a General Plan amendment to the Traditional Neighborhood or Mixed Use land use designation.

D. Following approval of the SGCP, all applications for Development Plan Review shall be reviewed and processed through the Director.

(Ord. No. 5996, § 4, 3-9-26)

11-63-12: SPECIAL REQUIREMENTS

A SGCP may designate any of the following special requirements:

A. A differentiation of the thoroughfares as A-grid and B-grid. The review of Use Permits for buildings along the A-grid shall prioritize uses supportive of pedestrian activity. Buildings along the B-grid may be more readily considered for Use Permits allowing automobile-oriented standards. The frontages assigned to the B-grid shall not exceed 30% of the total length of frontages within a pedestrian shed.

B. Designations for mandatory and/or recommended terminated vista locations, requiring or advising that the building be provided with architectural articulation of a type and character that responds visually to the location, as approved by the Director.

C. A designation for cross block passages, requiring that a minimum 8-foot-wide pedestrian access be reserved between buildings.

D. A designation for Buildings of Value, requiring that such buildings and structures may be altered or demolished only in accordance with Municipal Preservation Standards and Protocols.

E. A designation for coordinated frontage, requiring that the standards in Table 11-61-9.E (Public Frontage Types), Table 11-61-9.F (Public Frontage Standards), and Chapter 11-60 (Private Frontage Standards) be coordinated as a single, coherent landscape and paving design.

F. May designate one of the following mandatory retail frontage types:

1. ***Shopfront.*** Designations for mandatory and/or recommended Shopfront Frontage, requiring or advising that a building provide a Shopfront Frontage at sidewalk level along the entire length of its private frontage. See Section 11-60-10 (Shopfront Frontage) for standards.

2. ***Gallery.*** Designations for mandatory and/or recommended Gallery Frontage, requiring or advising that a building provide a permanent cover over the sidewalk, either cantilevered or supported by columns. See Section 11-60-12 (Gallery Frontage) for standards.

3. ***Arcade.*** Designations for mandatory and/or recommended Arcade Frontage, requiring or advising that a building overlap the sidewalk such that the first floor façade is a colonnade. See Section 11-60-13 (Arcade Frontage) for standards.

G. A designation of required Architectural Styles. The designation of required architectural styles requires the submittal of Architectural Guidelines or Pattern Book as part of a Final Development Plan.

11-63-13: APPLICATIONS AND PROCESSING

A. **Submittal Requirements.** Submittal requirements for each step in the approvals process can be found in the City of Mesa's SGCP submittal requirements handout.

B. **Pre-Submittal Meetings.** Pre-submittal meetings allow potential applicants to review preliminary development proposals with the Director before substantial commitments of time and money have been made. During the pre-submittal phase the Director shall review submitted materials for compliance with the Form-Based Code and make recommendations to the applicant with regards to improvements that can increase compliance with the Code and ensure that future development processes are streamlined. The Director may forward review of relevant items to a Technical Advisory Committee as necessary to provide additional input and recommendations.

C. **Preliminary Development Plans.** Preliminary development plans provide a public process for the evaluation and review of initial land development. These development plans enable detailed master planning for neighborhoods in a manner that assures that compliance with the intent and standards of the Code, while maintaining some degree of flexibility regarding the future build out of these areas. Such development plans will require the organization of streets, development blocks, and publicly accessible open spaces.

1. The following information is required in order to demonstrate preliminary development plan compliance:
    a. A refined building form regulating plan that identifies pedestrian sheds and clarifies the location, size, and disposition of the transect areas;
    b. A refined streets and circulation regulating plan that clarifies the location of all primary streets and the type and location of all secondary streets, alleys, and other publicly accessible right-of-ways;
    c. A refined parks and open space regulating plan that identifies the types, sizes, and locations of all parks and open spaces;
    d. Existing conditions, indicating natural resources, topography, and site constraints.
    e. Utility locations and setbacks.
2. Approval of preliminary development plan is granted by the Planning and Zoning Board. Appeals may be forwarded to the City Council.
3. Modifications to preliminary development plans may be made through the final development plan process, provided that such modifications maintain substantial compliance with this Code and the refined regulating plans, and/or are within the bounds of a Minor Adjustment.
4. Any modifications to existing zoning require approval by City Council.

D. **Final Development Plans.** Final development plans provide a process for detailed administrative review and evaluation of development proposals to ensure compliance with the requirements of this Code. Final development plans may be prepared for all or portions of a preliminary subdivision plan area.

Final development plans shall demonstrate compliance with preliminary development plans. Minor deviations may be characterized as Minor Adjustments. Final development plans that do not demonstrate substantial compliance will require an amendment to an existing preliminary development plan, with additional approvals by the Planning and Zoning Board.

1. The following information, in addition to the information required to demonstrate preliminary plan compliance, is required to demonstrate final development plan compliance:

    a. Neighborhood block development plans, including the following:

        (1) Lot lines and dimensions;

        (2) Individual lot layouts illustrating buildable areas as per transect zones, setbacks, and encroachment;

        (3) Identification of allowed building types;

        (4) Preliminary landscape and lighting plans for all civic spaces and public right-of-ways.

        (5) Preliminary grading plans showing modifications to existing conditions; and

        (6) Detailed utility locations, sizes and setbacks.

    b. Architectural Guidelines or Pattern Book, if required

2. Preliminary and final development plans may be processed simultaneously.

Smart Growth Community Plan:
Submittal Requirements

Preliminary Development Plan Submittal Requirements

1. Regulating plan(s) indicating the location of:
   a. Pedestrian sheds;
   b. Transect zones, assigned to the block level;
   c. Thoroughfares;
   d. Civic Buildings and Civic Spaces;
   e. Any special requirements, including, but not limited to:
      (1) A-grid and B-grid thoroughfare designations;
      (2) Mandatory or recommended terminal vista locations;
      (3) Mandatory or recommended pedestrian passages/pathways; and/or
      (4) Designation of Buildings of Value.
2. For each pedestrian shed, a table indicating the following:
   a. Allocation of transect zones and civic spaces.
3. Environmental and resource mapping of existing conditions, including but not limited to:
   a. Floodplains;
   b. Steep slope areas;
   c. Rock outcrops; and/or
   d. Significant natural and heritage resources within a quarter mile of the site.
4. Description of intended architectural character

Final Development Plan Submittal Requirements

1. Illustrative plan indicating:
   a. Conceptual building footprints; and
   b. Conceptual civic space designs.
2. Regulating plan(s) indicating the location of:
   a. Pedestrian sheds;
   b. Transect zones, assigned to the parcel level;
   c. Thoroughfares;
   d. Civic Buildings and Civic Spaces; and
   e. Any special requirements, including, but not limited to:
      (1) A-grid and B-grid thoroughfare designations;
      (2) Mandatory or recommended terminal vista locations;
      (3) Mandatory or recommended pedestrian passages/pathways;
      (4) Designation of Buildings of Value;
      (5) Designated coordinated frontages;
      (6) Mandatory or recommended retail frontages;
      (7) Mandatory or recommended gallery frontages; and/or
      (8) Mandatory or recommended Architectural Styles.
3. For each pedestrian shed, a table indicating the following:
   a. Allocation of transect zones and civic spaces;
   b. Percentage of non-residential uses; and
   c. Densities found within each transect zone.
4. Environmental and resource mapping of existing conditions and proposed alterations to, including but not limited to:
   a. Floodplains;
   b. Steep slope areas;
   c. Rock outcrops;
   d. Significant natural and heritage resources within a quarter mile of the site; and/or
   e. Single trees or tree clusters that should be preserved.
5. Architectural Guidelines or Pattern Book, if required, including but not limited to:
   a. Building materials and colors;
   b. Details on openings such as doors and windows;
   c. Roof details; and
   d. Fence/Street Screen details.
6. Description of the plan to meet the Environmental Planning and Conservation goals of the Mesa General Plan. This can be measured through the achievement of certification by LEED, or equivalent.

CHAPTER 64 DEFINITIONS

11-64-1: PURPOSE

This Chapter provides the definitions of Land Uses and Specialized Terms and Phrases used in the Form-Based Code.

11-64-2: APPLICABILITY

A. The definitions in this Chapter shall apply to all proposed development within transect zones.

B. In the event of conflict between the definitions found in this Chapter and the definitions found within the Zoning Code outside of Article 6 (Form-Based Development Regulations) these definitions shall prevail for all proposed development within transect zones.

11-64-3: DEFINITIONS OF SPECIALIZED TERMS AND PHRASES

A. **Definitions.**

Accessory Structure. A structure that is physically detached from, secondary and incidental to, and commonly associated with a primary structure and/or use on the same site. The use of the Accessory Structure must not change the character of the use for the site.

This definition includes, but is not limited to, the following detached accessory structures that are associated with a residential use property:

Garages (covered or enclosed) for the storage of automobiles (including incidental personal restoration and repair), personal recreational vehicles and other personal property; guest houses, studios, workshops, greenhouses (noncommercial), enclosed cabanas and pool houses, storage sheds, outdoor saunas, and other similar enclosed structures.

This definition also includes, but is not limited to, the following detached accessory structures normally associated with a nonresidential use property:

Garages (covered or enclosed) for the storage of automobiles and work related vehicles and equipment (including incidental restoration and repair), storage structures, workshops, studios, other similar enclosed or unenclosed structures.

A permitted Accessory Structure is not permitted by right to have an Accessory/Secondary Unit. This use is regulated separately as "Dwelling, Accessory/Secondary Unit."

Accessory Use. A use customarily incidental to, related and clearly subordinate to a principal use established on the same lot or parcel of land, which accessory use does not alter said principal use nor serve property other than the lot or parcel of land on which the principal use is located. "Appurtenant use" means the same as accessory use.

Adjoining. 2 or more lots or parcels of land sharing a common boundary line, or 2 or more objects in contact with each other. Lots or parcels of land which touch at corners only shall not be deemed adjoining. "Abut" or "abutting" and "contiguous" means the same as adjoining.

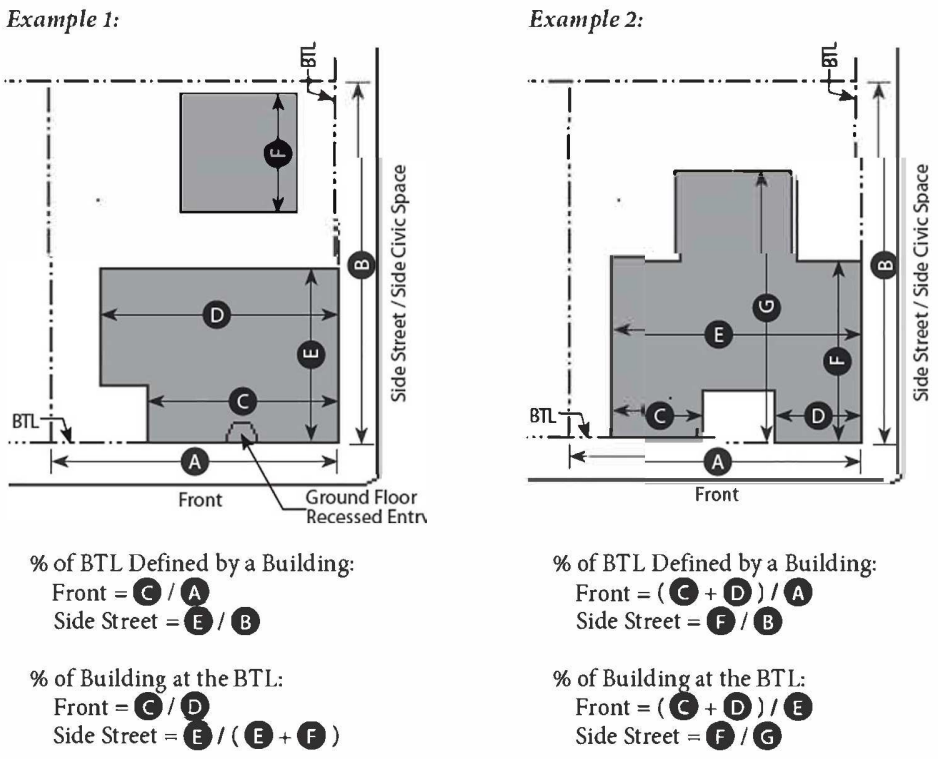
Administrative Use Permit (AUP). An AUP is a discretionary use permit issued by the Zoning Administrator for uses that are generally permitted within a district and usually are of low impact to the

community and environment. Conditions of approval, mandatory review periods, and expiration periods may be required at the discretion of the Zoning Administrator. In granting conditional approval, the Zoning Administrator may impose requirements and conditions with respect to location, sitting, construction, maintenance, operation, duration, and overall development as deemed reasonable and necessary for the protection of adjacent properties and the public interest. If an Administrative Permit is denied by the Zoning Administrator, it may be appealed in accordance with Chapter 77 of the Zoning Ordinance.

Alcoholic Beverage Sales. The retail sale of beer, wine, and/or spirits for on-site or off-site consumption, either as part of another retail use, or as a primary business activity.

Ancillary Structure/Ancillary Building. See "Accessory Structure."

Apartment House. A Building Type. See Chapter 59 (Building Type Standards) for a description of and regulations for this building type.



Arcade. A Private Frontage Type. See Chapter 60 (Private Frontage Standards) for a description of and regulations for this private frontage.

Architectural Features. Exterior building elements intended to provide ornamentation to the building massing, including, but not limited to: eaves, cornices, bay windows, window and door surrounds, light fixtures, canopies, and balconies.

B. **Definitions.**

Building Type. The structure defined by the combination of configuration, disposition, and function. See Chapter 59 (Building Type Standards) for a description of and regulations for allowed building types.

Build-to Line (BTL). A line parallel to a property line or right-of-way where a building façade must be placed. The BTL may appear graphically on the regulating plan or be stated as a maximum setback dimension from the property line or right-of-way. Examples 1 and 2 below depict how to calculate the percent of BTL Defined by a Building and percent of Building at the BTL as may be required in the Building Form Standards. Minor deviations from the BTL are allowed for Architectural Features, recessed entries, and recessed balconies. These minor deviations do not count against the calculations of percent of BTL Defined by a building or percent of Building at the BTL.

Bungalow Court. A Building Type. See Chapter 59 (Building Type Standards) for a description of and regulations for this building type.

C. **Definitions.**

Carriage House. A Building Type. See Chapter 59 (Building Type Standards) for a description of and regulations for this building type.

Ceiling Height. See Measurements.

Civic. A term defining not-for-profit organizations, dedicated to arts, culture, education, religious activities, recreation, government, transit, and public parking facilities.

Civic Building. A structure operated by governmental or not-for-profit organizations and limited to civic and related uses.

Commercial. A term defining workplace, office and retail uses collectively.

Common Yard. See Chapter 60 (Private Frontage Standards) for a description of and regulations for this private frontage.

Common Courtyard. A Private Frontage Type. An entry court, forecourt or courtyard shared by multiple residential units or commercial spaces.

Community Garden. A Civic Space Type. See Chapter 62 (Civic Space Standards) for a description of and regulations for this Civic Space Type.

Community Park. A Civic Space Type. See Chapter 62 (Civic Space Standards) for a description of and regulations for this Civic Space Type.

Corner Element. A prominent architectural element, such as a tower, corner bay window (chamfered or round) or significant façade articulation, designed to accent the corner of a building and typically used to terminate a view or mark an important entrance.

Council Use Permit (CUP). A CUP is a discretionary permit issued by the City Council after review and recommendation by the Planning and Zoning Board. Council Use Permits will be reviewed in accordance with Section 11-70-6 of the Zoning Ordinance.

Courtyard Building. A Building Type. See Chapter 59 (Building Type Standards) for a description of and regulations for this building type.

D. **Definitions.**

Depth, Ground-floor Commercial Space. See Measurements.

Development. Any man-made change to improved or unimproved real estate, including but not limited to the division of a parcel of land into 2 or more parcels; the construction, reconstruction, conversion, structural alteration, relocation, or enlargement of any structure; any mining, excavation, landfill or land disturbance; and any use or extension of the use of land.

Director. The Planning Director of the City of Mesa, or his or her duly appointed representative.

Dooryard. A Private Frontage Type. See Chapter 60 (Private Frontage Standards) for a description of and regulations for this private frontage.

Duplex. A Building Type. See Chapter 59 (Building Type Standards) for a description of and regulations for this building type.

Dwelling, Dwelling Unit, or Housing Unit. A room or suite of rooms, including permanent provisions for living, sleeping, eating, sanitation, and cooking, and designed or occupied as separate living quarters.

Accessory Dwelling Unit. An attached or detached self-contained living unit that is on the same lot or parcel as a single-family dwelling of greater square footage than the accessory dwelling unit, that includes its own sleeping and sanitation facilities and that may include its own kitchen.

Single-Unit Residence. A primary dwelling unit designed for occupancy by one household, and located on a separate lot from any other unit (except accessory living quarters, where permitted).

Multiple-Unit Residence. Two or more primary dwelling units on a single lot. Types of multiple residence dwellings include, but are not limited to duplexes, garden apartments, and multi-story apartment buildings.

E. **Definitions.**

Encroachment. Any architectural feature, structure or structural element, such as a gallery, fence, door-yard, garden wall, porch, stoop, balcony, bay window, terrace or deck, that breaks the plane of a vertical or horizontal regulatory limit extending into a setback, beyond the build-to-line, into the public frontage, or above a height limit.

F. **Definitions.**

Façade. The vertical surface of a building.

Façade Zone. The area between the minimum and maximum setback lines.

Street Façade. The vertical surface of a building located at the Build-to Line.

Flex Space. Space designed to accommodate an evolution of use over time in response to an evolving market demand. Typically designed to accommodate future commercial uses, while accommodating less intense short term uses such as residential or live/work, until the full commercial demand has been established.

Floor Finish Level. See Measurements.

Forecourt. A Private Frontage Type. See Chapter 60 (Private Frontage Standards) for a description of and regulations for this private frontage.

Formally Disposed. Composed in a regular, classical, and symmetrical manner.

Front. The primary frontage(s) of a lot, determined as follows:

For lots with frontages along multiple thoroughfares, the frontage along the thoroughfare with the most pedestrian activity, as determined by the Director, will always be treated as a Front. At key gateways, as identified by the Director, corner lots may be required to have multiple frontages along thoroughfares treated as Fronts. All other frontages along thoroughfares may be considered to be Side Street Frontages.

For lots with frontages along a thoroughfare and a civic space, the Front may be the frontage along either the thoroughfare or the civic space, or both frontages may be treated as Fronts, with the following exception: the frontage along certain Civic Spaces may be required to be a Front, as per the Civic Space Standards (see Chapter 62).

For lots with a single frontage along a thoroughfare or a Civic Space, but not both, that frontage is the Front.

Frontages along Alleys, Service Drives, and Parking Drives may never be a Front.

Frontage. The portion of a lot or parcel of land which borders on a thoroughfare or other public right-of-way or civic space.

Frontage, Private. The area between the property line or right-of-way and the building façade, which may be coterminous. See Chapter 60 (Private Frontage Types) for a description of and regulations for allowed Private Frontage Types.

Frontage, Public. The area between the curb of the vehicular lanes and the frontage line. See Table 11-61-9.E (Public Frontage Types) for a description of and regulations for allowed Public Frontage Types.

Frontage Line. The property lines of a lot along a thoroughfare or other public way, or a civic space.

G. **Definitions.**

Gallery. A Private Frontage Type. See Chapter 60 (Private Frontage Standards) for a description of and regulations for this private frontage.

Greenway. A Civic Space Type. See Chapter 62 (Civic Space Standards) for a description of and regulations for this Civic Space Type.

H. **Definitions.**

Hardscape. Part of a building's grounds consisting of elements such as plazas, retaining walls and sidewalks, made with materials such as but not limited to, concrete and sidewalk pavers.

Height. See Measurements.

High-Rise. A Building Type. See Chapter 59 (Building Type Standards) for a description of and regulations for this building type.

I. **Definitions.**

Infill/Redevelopment. The development of vacant land that was bypassed by earlier waves of development and is now largely surrounded by developed land or land that previously developed, then cleared.

J. **Definitions.**

No specialized terms beginning with the letter J are defined at this time.

K. **Definitions.**

No specialized terms beginning with the letter K are defined at this time.

L. **Definitions.**

Landscaping. The planting, configuration and maintenance of trees, ground cover, shrubbery and other plant material, decorative natural and structural features (walls, fences, hedges, trellises, fountains, sculptures), earth patterning and bedding materials, and other similar site improvements that serve an aesthetic or functional purpose.

Landscaped Area. The area within a parcel containing landscaping, excluding building footprints, paved driveways, parking areas, decks, patios, walkways and undisturbed natural areas. Water features are included in the landscaped area.

Liner Building. An occupiable structure specifically designed to mask a parking lot or a parking structure from a frontage.

Live/Work Unit. An integrated housing unit and working space occupied and utilized by a single household in a structure that has been designed or structurally modified to accommodate joint residential occupancy and work activity, and which includes complete kitchen space and sanitary facilities in compliance with the Building Code; and Working space reserved for and regularly used by one or more occupants of the unit.

M. **Definitions.**

Main Street Mixed-Use. A Building Type. See Chapter 59 (Building Type Standards) for a description of and regulations for this building type.

Mansion Apartment. A Building Type. See Chapter 59 (Building Type Standards) for a description of and regulations for this building type.

Measurements.

Depth, Ground-floor Commercial Space. The depth of the ground floor space available to a commercial tenant. Service cores (stairs and elevators), double height lobbies, trash rooms, and other building elements may encroach upon the required depth up to 50% of the required depth for a maximum of 25% of the width of the tenant space.

Ceiling Height. Height from finished floor to finished ceiling of primary rooms, not including secondary rooms such as bathrooms, closets, utility rooms, and storage spaces.

Floor Finish Level. Height difference between public walk adjacent to the front and the floor. Regulations for ground floor finish level for ground floor residential uses do not apply to ground floor lobbies and common areas in multi-unit buildings.

Ground Floor Transparency. The percentage of the area, measured from floor to ceiling, of the ground floor wall along the frontage that is constructed with transparent materials. Includes the transparent glazing of storefronts, windows, transoms, and doors.

Height. A limit to the vertical extent of a building that is measured in number of stories. Where maximum height is measured in feet, the measurement is taken to the eave of a sloped roof or the base of a parapet wall. Height limits do not apply to masts, belfries, clock towers, chimney flues, water tanks, elevator bulkheads, and similar structures that do not occupy greater than ten percent (10%) of the roof, which may be of any height approved by the Planning Director.

Upper Floor Ceiling Height. Height from finished floor to finished ceiling of primary rooms on the upper floors not including secondary rooms such as bathrooms, closets, utility rooms, and storage spaces.

Mid-Rise. A Building Type. See Chapter 59 (Building Type Standards) for a description of and regulations for this building type.

Mixed-use. Multiple functions vertically superimposed within the same building or horizontally superimposed across the same development site or same general area through adjacency.

Mixed-Use Project. A development that combines both commercial and residential uses on the same site.

N. **Definitions.**

Naturally Disposed. A preservation of the existing natural condition or a composition of elements arranged as they would appear in nature, with irregular shapes, patterns, rhythms, and asymmetry.

Neighborhood Green. A Civic Space Type. See Chapter 62 (Civic Space Standards) for a description of and regulations for this Civic Space Type.

Neighborhood Square. A Civic Space Type. See Chapter 62 (Civic Space Standards) for a description of and regulations for this Civic Space Type.

O. **Definitions.**

Open Space. The area or areas of a lot or parcel intended to provide light and air, and designed for either scenic and/or recreational purposes, excluding buildings, parking, driveways and other vehicular surfaces.

Common Open Space. An open space intended for the shared, common use of the occupants of a development.

Private Open Space. An open space intended for the exclusive use of the occupants of a dwelling unit.

P. **Definitions.**

Parking Access Drive. An accessway within a public right-of-way that provides vehicular access between a street or alley and the on-site parking.

Paseo. A pedestrian alley located and designed to reduce the required walking distance within a neighborhood.

Pedestrian Shed. An area centered on a major destination. Its size is limited by an average distance that may be traversed at an easy walking pace in a given amount of time from its center to its edge. Specific Pedestrian sheds are established through a regulating plan. See Section 11-63-4 (Pedestrian Sheds).

Permitted Use. Any use allowed in a Transect Zone without a requirement for approval of a discretionary use permit, but subject to any restrictions applicable to that transect.

Playground. A Civic Space Type. See Chapter 62 (Civic Space Standards) for a description of and regulations for this Civic Space Type.

Plaza. A Civic Space Type. See Chapter 62 (Civic Space Standards) for a description of and regulations for this Civic Space Type.

Pocket Plaza. A Civic Space Type. See Chapter 62 (Civic Space Standards) for a description of and regulations for this Civic Space Type.

Pocket Park. A Civic Space Type. See Chapter 62 (Civic Space Standards) for a description of and regulations for this Civic Space Type.

Porch, Projecting or Engaged. A Private Frontage Type. See Chapter 60 (Private Frontage Standards) for a description of and regulations for this private frontage.

Prohibited Uses. Uses not listed in Table 11-58-3.A "Composite Use Table" are specifically prohibited unless an interpretation of the Zoning Administrator determines that a use is consistent pursuant to the Code.

Q. **Definitions.**

No specialized terms beginning with the letter Q are defined at this time.

R. **Definitions.**

Regional Park. A Civic Space Type. See Chapter 62 (Civic Space Standards) for a description of and regulations for this Civic Space Type.

Residential. Enclosed space with a minimum 400 gross square feet used primarily for human habitation.

S. **Definitions.**

Setback. The area between a property line and a building or structure which must be kept clear or open.

Shared Parking. Any parking spaces assigned to more than one use, where persons utilizing the spaces are unlikely to need the spaces at the same time of day.

Shopfront. A Private Frontage Type. See Chapter 60 (Private Frontage Standards) for a description of and regulations for this private frontage.

Single-Unit House, Cottage or Village. A Building Type. See Chapter 59 (Building Type Standards) for a description of and regulations for this building type.

Special Use Permit (SUP). A SUP is a discretionary permit issued by the Zoning Administrator or Board of Adjustment. Special Use Permits will be reviewed in accordance with Section 11-70-5 of the Zoning Ordinance.

Sport Complex. A Civic Space Type. See Chapter 62 (Civic Space Standards) for a description of and regulations for this Civic Space Type.

Stoop. A Private Frontage Type. See Chapter 60 (Private Frontage Standards) for a description of and regulations for this private frontage.

Storefront. The portion of a frontage that is composed of the display window and/or entrance and its components including windows, doors, transoms and sill pane that is inserted into various frontage types, such as a shopfront or gallery, to accommodate retail.

Story. A habitable floor level within a building, typically 8' to 14' high from floor to ceiling. The number of stories is measured from the sidewalk of the primary street.

Story, Half. A conditioned space that rests primarily underneath the slope of the roof, usually having dormer windows and occupying about half the area of the floor or floors below.

Structure. Anything constructed or erected, which requires a fixed location on the ground, or is attached to something having a fixed location on the ground. For the purposes of this Code, the term "structure" includes "buildings," and tents, but does not include swimming pools.

Structured Garage. (syn. Structured Parking). A Parking facility in or under a multi-story building.

Substantial Conformance. Substantial conformance shall mean physical improvements to the existing development site which constitute the greatest degree of compliance with this Ordinance that can be attained without causing or creating any of the following conditions:

1. The demolition or reconstruction of existing buildings or other significant structures (except signs); or
2. The cessation of the existing conforming use, or the preclusion of any other lawful, permitted use.
3. The creation of new non-conforming conditions.

T. **Definitions.**

Terrace. A Private Frontage Type. See Chapter 60 (Private Frontage Standards) for a description of and regulations for this private frontage.

Temporary Parking Lots. Parking lots that are not permanent and are only intended to fulfill a short-term need and will ultimately be replaced by a permanent building or structure.

Townhouse. A Building Type. See Chapter 59 (Building Type Standards) for a description of and regulations for this building type.

Transect. A geographical cross-section of a region used to reveal a sequence of environments. For human environments, this cross section can be used to identify a set of habitats that vary by their level and intensity of urban character, a continuum that ranges from rural to urban. Transects form the basis for organizing the components of the built world, including building, lot, land use, street, and all of the other physical elements of the human habitat.

Transect Zone. Transect Zones are administratively similar to the land use zones in conventional codes, except that in addition to the usual building use, density, height, and setback requirements, other elements of the intended habitat are integrated, including those of the private lot and building and the enfronting public streetscape. The elements are determined by their location on the Transect scale.

Transit Station. A lot, or structure used for the purpose of parking, loading, unloading of passengers from light-rail, train, or bus transportation. May include parking facilities and other commercial amenities to service transit.

Transit Stop. Locations designated by the transit authority in which patrons may access or exit from regularly scheduled BRT or bus service.

Transparency, Ground-floor. See Measurements.

U. **Definitions.**

No specialized terms beginning with the letter U are defined at this time.

V. **Definitions.**

No specialized terms beginning with the letter V are defined at this time.

W. **Definitions.**

No specialized terms beginning with the letter W are defined at this time.

X. **Definitions.**

No specialized terms beginning with the letter X are defined at this time.

Y. **Definitions.**

No specialized terms beginning with the letter Y are defined at this time.

Z. **Definitions.**

No specialized terms beginning with the letter Z are defined at this time.

(Ord. No. 5948, §§ 3, 4, 7-1-25)

11-64-4: DEFINITIONS OF LAND USES

A. **Definitions.**

Alcohol Beverage Sales. The retail sale of beer, wine, and/or spirits in sealed containers for on-site or off-site consumption, either as part of another retail use, or as a primary business activity.

Animal Day Care. Facilities in which owners of small animals, principally dogs and cats, may contract with the operator for the keeping of pets for short, temporary periods, usually 1 day or less, but occasionally up to a week or so while the pet owner(s) are unable to care for the animals.

ATM. An automated teller machine (computerized, self-service machine used by banking customers for financial transactions, including deposits, withdrawals and fund transfers, without face-to-face contact with financial institution personnel), located outdoors at a bank, or in another location. Does not include drive-up ATM's.

B. **Definitions.**

Bank, Financial Services. Financial institutions providing retail banking services. This classification includes only those institutions engaged in the on-site circulation of money, including credit unions, but excluding non-chartered financial institutions and check-cashing stores as a primary use. (See also, "ATM")

Boarding House. A residential dwelling for five (5) or more unrelated individuals in which the owner(s) provides lodging for compensation. A boarding house is occupied by individuals where rent is charged separately for the individual rooms or partitioned areas and may or may not be equipped with kitchen facilities and congregate dining facilities. The term includes similar congregate living arrangements but does not include community residences, hotels, motels, residential inns or bed and breakfasts.

Business Support Service. Establishments that primarily provide goods and services to other businesses on a fee or contract basis, including printing and copying, blueprint services, advertising and mailing, equipment rental and leasing, office security, custodial services, photo finishing, and model building.

C. **Definitions.**

Civic Space. See Chapter 11-62 (Civic Space Types).

Commercial Recreation Facility. Provision of participant or spectator recreation to the general public, excluding public park and recreation facilities.

Small Indoor. This classification includes small, indoor facilities less than or equal to 3,000, such as billiard parlors, bowling centers, card rooms, dance halls, poolrooms, amusement arcades, and similar activities as interpreted by the Zoning Administrator. This classification may include restaurants, snack bars, and other incidental food and beverage services to patrons.

Medium Indoor. This classification includes small, indoor facilities greater than 3,000 sf but less than 10,000 sf, such as billiard parlors, bowling centers, card rooms, dance halls, amusement arcades, and similar activities as interpreted by the Zoning Administrator. This classification may include restaurants, snack bars, and other incidental food and beverage services to patrons.

Large, Indoor. This classification includes large indoor facilities of 10,000 square feet or larger in building area, including ice or roller skating rinks; swimming or wave pools; miniature golf courses; archery or indoor shooting ranges, and similar activities as interpreted by the Zoning Administrator. This classification may include restaurants, snack bars, and other incidental food and beverage services to patrons.

Outdoor. This classification includes large generally outdoor facilities such as amusement and theme parks, sports stadiums and arenas, racetracks, amphitheaters, driving ranges, golf courses (daily fee), riding stables, campgrounds, and similar activities as interpreted by the Zoning Administrator. This classification may include restaurants, snack bars, and other incidental food and beverage services to patrons.

Community Residence. A community residence is a residential living arrangement for five to ten individuals with disabilities, excluding staff, living as a family in a single dwelling unit who are in need of the mutual support furnished by other residents of the community residence as well as the support services, if any, provided by the staff of the community residence. Residents may be self-governing or supervised by a sponsoring entity or its staff, which provides habilitative or rehabilitative services related to the residents' disabilities. A community residence seeks to emulate a biological family to foster normalization of its residents and integrate them into the surrounding community. Its primary purpose is to provide shelter in a family-like environment. Medical treatment is incidental as in any home. Supportive interrelationships between residents are an essential component. Community residence includes sober living homes and assisted living homes but does not include any other group living arrangement for unrelated individuals who are not disabled nor any shelter, rooming house, boarding house or transient occupancy.

Family Community Residence. A community residence is a relatively permanent living arrangement with no limit on the length of tenancy as determined in practice or by the rules, charter, or other governing documents of the community residence. The minimum length of tenancy is typically a year or longer.

Transitional Community Residence. A community residence that provides a relatively temporary living arrangement with a limit on length of tenancy less than a year that is measured in weeks or months, as determined either in practice or by the rules, charter, or other governing document of the community residence.

D. **Definitions.**

Day Care Centers. Establishments providing non-medical care for persons on a less than 24-hour basis other than Day Care Homes. This classification includes nursery schools, preschools, and day care facilities for children or adults, and any other day care facility licensed by the State of Arizona.

Day Care Home. A facility, the primary use of which is a residence, in which care of individuals is regularly provided for compensation for periods of less than 24 hours per day.

Small Day Care Home. Home day care for 5 or less people full-time or part-time.

Large Day Care Home. Home day care for more than 5 people full-time and part-time but no more than 10 people full-time and part-time.

Dwelling, Dwelling Unit, or Housing Unit. A room or suite of rooms, including permanent provisions for living, sleeping, eating, sanitation, and cooking, and designed or occupied as separate living quarters.

Accessory Dwelling Unit. An attached or detached self-contained living unit that is on the same lot or parcel as a single-family dwelling of greater square footage than the accessory dwelling unit, that includes its own sleeping and sanitation facilities and that may include its own kitchen.

Single-Unit Residence. A primary dwelling unit designed for occupancy by one household, and located on a separate lot from any other unit (except accessory living quarters, where permitted).

Multiple-Unit Residence. Two or more primary dwelling units on a single lot. Types of multiple residence dwellings include duplexes, garden apartments, and multi-story apartment buildings.

E. **Definitions.**

Eating and Drinking Establishments. Businesses primarily engaged in serving prepared food and/or beverages for consumption on or off the premises. Includes, but is not limited to the following sub-categories:

Bars/Clubs/Lounges. Businesses serving beverages for consumption on the premises as a primary use including on-sale service of alcohol including beer, wine, or mixed drinks, and businesses for which food sales are less than 30 percent of gross revenue.

Restaurants, Bar and Grill. Restaurants providing food and beverage services to patrons who order and are served while seated and pay after eating. Takeout service may be provided, food sales are at least 30 percent but less than 40 percent of gross sales revenue.

With Outdoor Seating Areas. Provision of outdoor dining facilities on the same property or in the adjacent public right-of-way.

F. **Definitions.**

Family. An individual or two (2) or more individuals related by blood, marriage or adoption, or a group of no more than four (4) unrelated individuals, living together as a single housekeeping unit. A family includes a couple in a domestic relationship and biological, adopted, and foster children of either partner. The term family includes unrelated persons with developmental disabilities (as defined in A.R.S. § 36-581) living together in compliance with A.R.S. § 36-582.

Farmer's Market. Periodic outdoor sales activities involving the display and sale of fresh produce and locally produced food and beverage items, including baked goods, jams, jellies, and similar food products. The display and sale of hand-crafted artisan items may be considered as an accessory activity, provided the principal activity remains the sale of the food- or produce-related items.

G. **Definitions.**

General Retail. Stores and shops intended to serve the City as convenience shopping or destination retail. The retail sale or rental of merchandise not specifically listed under another use classification. This classification includes grocery stores, neighborhood markets, department stores, clothing stores, furniture stores, pet supply stores, small hardware stores, and businesses retailing the following goods: toys, hobby materials, handcrafted items, jewelry, cameras, photographic supplies and services (including portraiture and retail photo processing), medical supplies and equipment, pharmacies, electronic equipment, records, sporting goods, kitchen utensils, hardware, appliances, antiques, art galleries, art supplies and services, paint and wallpaper, carpeting and floor covering, office supplies, bicycles, video rental, and new automotive parts and accessories (excluding vehicle service and installation). Retail sales may be combined with other services such as office machine, computer, electronics, and similar small-item repairs. This classification includes secondhand and wholesale stores, but does not include pawn shops.

On-Site Production. The assembly, fabrication, and conversion of materials into products for sale as an accessory use to a permitted General Retail activity. Such uses include, but are not limited to: artisan/craft products such as jewelry, pottery and other ceramics, small glass and metal art; tailoring of clothing; small, handmade custom furniture; musical instruments; toys; and other similar uses as interpreted by the Zoning Administrator.

H. **Definitions.**

Health/Fitness Facility. A fitness center, gymnasium, health and athletic club, which may include any of the following:

Exercise machines, weight facilities, group exercise rooms, sauna, spa or hot tub facilities, indoor tennis, handball, racquetball, and other indoor sports activities, indoor or outdoor pools.

Home Occupation. Residential premises used for the transaction of business or the supply of professional services. Home occupation shall be limited to the following: agent, architect, artist, broker, consultant, draftsman, dressmaker, engineer, interior designer, lawyer, notary public, teacher, and other similar occupations, as determined by the Zoning Administrator. The total gross area of the home occupation use shall not exceed 25 percent of the gross square footage of the residential unit. The home occupation use shall not disrupt the generally residential character of the neighborhood.

I. **Definitions.**

No land uses beginning with the letter I are defined at this time.

J. **Definitions.**

No land uses beginning with the letter J are defined at this time.

K. **Definitions**

Kennel. Facilities for keeping, boarding, training, breeding or maintaining for commercial purposes, four (4) or more dogs, cats, or other household pets not owned by the kennel owner or operator. This classification excludes pet shops and animal hospitals that provide 24-hour accommodation of animals receiving medical or grooming services.

L. **Definitions.**

Library, Museum. Public or quasi-public facilities, examples of which include: aquariums, arboretums, art galleries and exhibitions, historic buildings and exhibits, libraries, museums, and planetariums. May also include accessory retail uses such as a gift/book shop, restaurant, etc.

Lodging:

Bed & Breakfast Inn (B&B). Establishments providing not more than 5 guest rooms for lodging on a less than weekly basis typically in a converted single-residence or multi-residence dwelling, with incidental eating and drinking service provided from a single kitchen for lodgers and residents only.

Hostel. A facility for residence of under twenty-nine (29) days that provides simple dormitory or sleeping rooms and common rooms for cooking, meeting, recreational, and educational use; that is chartered or approved by the International Hostel Federation or its national or regional affiliates, or similar organizations; and that is supervised by resident house-parents or managers.

Hotel/Motel. Establishments with guest rooms or suites, with or without kitchen facilities, rented to the general public for transient lodging. These establishments may provide additional accessory services, such as conference and meeting rooms, restaurants, or bars available to guest and general public. Also includes accessory guest facilities such as swimming pools, tennis courts, indoor

athletic facilities, accessory retail uses, etc. This classification includes motels, extended-stay hotels, and tourist courts, but does not include rooming houses, boarding houses, or private residential clubs. The lengths of stays for the majority of guests at these facilities are for 30 days or less.

Inn/Lodge. A building used for temporary accommodation that includes the business of renting out no fewer than have (5) and no greater than twenty (20) guest rooms, where payment for occupancy is on a daily or weekly basis. The Inn/Lodge may include common lobby, indoor recreation, living and dining areas.

M. **Definitions.**

Medical Services:

Hospitals. Institutions providing medical and surgical care to the sick or injured, including operating facilities and beds for patients to stay overnight. These establishments may include nursing facilities, extended care facilities, physical therapy, gift shops, retail pharmacies, employee housing, temporary housing for patient families, cafeterias or restaurants, and related uses operated primarily for the benefit of patients, staff, and visitors.

Medical/Dental Clinic. Facilities with five or more licensed practitioners and/or medical specialist, other than hospitals, where patients are admitted for examinations and treatment on either a "walk-in" or "appointment" basis. Patients are treated on an outpatient basis and are not admitted for overnight treatment or observation. This classification includes emergency medical services offered exclusively on an out-patient basis, such as urgent care centers.

Medical/Dental Office. Offices where medical and dental services are provided by no more than four licensed primary practitioners (e.g. physicians, dentists, chiropractors, optometrists, and similar medical professionals). This classification also includes physical therapy, massage therapy, and counseling services related to medical conditions.

Meeting Facility, Public or Private. A facility for public or private meetings, including: Community centers, civic and private auditoriums, reception centers halls, union halls, meeting halls for clubs and other membership organizations, etc. Also includes functionally related internal facilities such as kitchens, multi-purpose rooms, and storage. Does not include conference and meeting rooms, accessory and incidental to another primary use, and which are typically used only by on-site employees and clients, and occupy less floor area on the site than the offices they support. Cinemas, performing arts theaters, indoor commercial sports assembly or other commercial entertainment and related on-site facilities such as day care centers and schools are separately defined and regulated.

N. **Definitions.**

Non-charted Financial Institution. A business, other than a state or federally chartered bank, credit union, mortgage lender or savings and loan association, that offers check cashing services and loans for payment of a percentage fee. Specifically included are check cashing businesses that charge a percentage fee for cashing a check or negotiable instrument, and payday loan businesses that make loans upon assignment of wages received. Excluded are retail uses in which a minimum of 70 percent of the floor area of the store is devoted to the display or sale of merchandise.

O. **Definitions.**

Office, Professional, administrative. Offices of firms or organizations providing professional, executive, management, administrative or design services, such as accounting, architectural, computer software design, engineering, graphic design, interior design, investment, and legal offices.

P. **Definitions.**

Parking Facility, Public or Commercial. Parking lots or structures operated by the City, or a private entity, providing parking either for free or for a fee. Does not include towing impound and storage facilities.

Pawn Shops. A business in which a principal business activity involves advancing money on the security of pledged goods or purchasing tangible personal property on the condition that it may be redeemed or repurchased by the seller for a fixed or variable price within a fixed or variable period of time.

Personal Services. Provision of recurrently needed services of a personal nature. This classification includes barber and beauty shops, seamstresses, tailors, dry cleaning agents (excluding large-scale bulk cleaning plants), shoe repair shops, self-service laundries, photocopying and photo finishing services, and travel agencies.

Place of Worship. A facility for religious worship and incidental religious education and offices, and may include private schools (Grades: Kindergarten through 12) for primary or secondary education, as defined in this section. This classification includes churches, temples, and other facilities used primarily for religious services or activities.

Public Safety Facility. Facilities providing public-safety and emergency services, including police and fire protection and emergency medical services, with incidental storage, and maintenance facilities.

Q. **Definitions.**

No land uses beginning with the letter Q are defined at this time.

R. **Definitions.**

Recycling - small collection facility. A center, occupying an area of 350 square feet or less, where the public may donate, redeem or sell recyclable materials. Includes reverse vending machines.

S. **Definitions.**

Schools, Public or Private.

K-12. Facilities for primary or secondary education, including public schools, charter schools, and private institutions having curricula of general academic education consistent with the academic requirements of the State of Arizona, including kindergarten, elementary, junior high school, and high school, including accessory facilities traditionally associated with schools, such as athletic stadia, cafeterias and libraries.

Colleges or Universities, Public or Private. A post-secondary institution of higher learning that grants associate and/or bachelor's degrees, and may also have research facilities and/or professional schools that grant master and/or doctoral degrees. This classification includes community colleges that grant associate degrees, and/or certificates of completion in business or technical fields.

Commercial Trade Schools, Public or Private. Schools established to provide teaching of clerical, managerial, or artistic skills, such as accounting, data processing, or computer repair. This classification excludes schools offering training in industrial trades, such as welding or metal fabrication and establishments providing training for activities that are not otherwise allowed in the zoning district.

Does not include pre-schools and child day care facilities (see "Day Care"). See also the definition of "Studio: Art, Dance, Martial Arts, Music, etc." for smaller-scale facilities offering specialized instruction

Skilled Nursing Facility. A health care institution other than a hospital, assisted living facility or nursing and convalescent home which provides resident beds or dwelling units, supervisory care services, personal care service, directed care services or health-related services for persons on a temporary basis. Skilled nursing facilities do not emulate a family and normalization and community integration are not among their core goals. This classification does not include community residences, assisted living homes, assisted living centers, or social service facilities.

Social Service Facility. A facility where the primary purpose is to provide either: 1) On-site food, clothing, shelter, employment or other related services, such as counseling for employment, or other services for individuals with limited ability for self care; or 2) Alcohol, drug, or substance abuse or other treatment or medical programs or services, such as detoxification, where shelter is incidental and of limited duration. The term includes homeless shelters, charity dining facilities, rescue missions, day labor hiring centers, substance abuse and detoxification center, and similar facilities, but does not include care facilities such as community residences, group foster homes, correctional transitional housing facilities, nursing and convalescent homes, or assisted living facilities.

Stealth Wireless Telecommunications Facility. Any commercial wireless communications facility that is designed to blend into the surrounding environment by means of screening, concealment, or camouflage. The antenna and supporting antenna equipment are either not readily visible beyond the property on which they are located, or, if visible, appear to be part of the existing landscape or environment rather than identifiable as a wireless communications facility.

Studio - Art, Dance, Martial Arts, Music, etc. Small-scale facilities, that provide instructional space for groups of students. Examples of these facilities include: Individual and group instruction and training in the arts; production rehearsal; photography, and the processing of photographs produced only by users of the studio facilities; martial arts training studios; gymnastics instruction, and aerobics and gymnastics studios with no other fitness facilities or equipment. Also includes production studios for individual musicians, painters, sculptors, photographers, and other artists.

T. **Definitions.**

Tattoo and Body Piercing Parlors. Establishments whose principal business activity is one (1) or more of the following: 1) using ink or other substances that result in the permanent coloration of the skin through the use of needles or other instruments designed to contact or puncture the skin; or 2) creation of an opening in the body of a person for the purpose of inserting jewelry or other decoration. Exception: Piercing earlobes as an accessory or subordinate activity when done at a shop or store selling jewelry as primary activity.

Theater, Cinema or Performing Arts. An indoor facility for group entertainment, other than sporting events. Examples of these facilities include: Civic theaters, facilities for "live" theater and concerts, and movie theaters.

Temporary Event Parking. Parking areas intended for overflow parking for stadiums, performing arts centers, competitive aquatic facilities, and similar public event facilities and located within 600 feet of the public facility being served.

U. **Definitions.**

No land uses beginning with the letter U are defined at this time.

V. **Definitions.**

Veterinary Services. Medical care for small and large animals on a commercial basis. This classification allows 24-hour accommodation of animals receiving medical or grooming services but does not include kennels. This classification includes animal hospitals and clinics providing services such as medical examinations, diagnosis, and procedures; dispensing of medications for animals; providing surgical procedures, and space for supervised recuperation from medical and surgical procedures.

W. **Definitions.**

No land uses beginning with the letter W are defined at this time.

X. **Definitions.**

No land uses beginning with the letter X are defined at this time.

Y. **Definitions.**

No land uses beginning with the letter Y are defined at this time.

Z. **Definitions.**

No land uses beginning with the letter Z are defined at this time.

(Ord. No. 5632, § 4, 7-8-21; Ord. No. 5948, § 5, 7-1-25)

ARTICLE 7
ADMINISTRATION

CHAPTER 66 PLANNING AGENCY*

11-66-1: PURPOSE

This Chapter identifies the bodies, officials, and administrators with designated responsibilities under various parts and chapters of the Zoning Ordinance. Subsequent chapters of this article provide detailed information regarding various procedures, applications, and permits including zoning, and General Plan text and map amendments, fees, and enforcement. When carrying out their assigned duties and responsibilities, all bodies, administrators, and officials shall interpret and apply the provisions of this Ordinance as minimum requirements adopted to implement the policies and achieve the objectives of the General Plan and Zoning Ordinance.

11-66-2: PLANNING AND ZONING BOARD

A. **Establishment and Organization of the Planning and Zoning Board.** The Planning and Zoning Board is established by Section 406 of the Mesa City Charter and Section 2-1-1 of the Mesa City Code. The Board's organization and duties are described in Title 2 - Boards and Commissions, Chapter 1, Planning and Zoning Board, of the Mesa City Code.

1. ***Board Membership.*** The Planning and Zoning Board shall be composed of seven (7) regular members and three (3) alternates appointed by the City Council.

2. ***Qualifications of Members.***

a. *Regular Board Members.* The composition of the regular Board members shall include:

i. Two (2) design professionals (e.g., architect, landscape architect, engineer, urban planner, interior designer or similar design-related profession);

ii. One (1) contractor or developer; and

iii. Four (4) citizens selected at-large from the community.

b. *Alternate Board Members.* At least one (1) alternate to the Planning and Zoning Board shall be a design professional (e.g., architect, landscape architect, engineer, urban planner, interior designer or similar design-related profession).

B. **Meetings.**

1. Meetings of the Board shall be open to the public and the minutes of its proceedings, showing the votes of each member and records of its examinations and other official actions shall be kept and filed in the Planning Division Office as a public record. The Secretary of the Board shall be the Planning Director, or a member of the Planning Division staff as designated by the Planning Director.

2. At least four (4) members shall be present to conduct a meeting. No matter shall be considered unless there are at least four (4) members present who are eligible and qualified to vote on the matter.

***Editor's note—**Previously, Chapter 66 derived from Ord. No. 5472, 11-6-18.

3. The concurring vote of a majority of the Board members present shall be necessary to pass a motion.

4. A chair and vice-chair shall be elected annually from among its regular members.

5. The Chair, or in the Chair's absence the Vice Chair, shall lead the meeting, maintain order, and be the final decision maker for all meeting management questions.

C. **Authority and Duties of the Planning and Zoning Board.** In addition to the powers and duties established in Title 2 - Boards and Commissions, Planning and Zoning Board of the Mesa City Code, the Planning and Zoning Board shall:

1. ***Hear and Make Recommendations.*** The Planning and Zoning Board shall hear and make recommendations to City Council on the following:

a. *Zoning Map, Zoning Ordinance, and General Plan Amendments.* Amendments to the Zoning Map, Zoning Ordinance, or amendments to the General Plan.

b. *Council Use Permits.* Requests for a Council Use Permit.

c. *PC District Matters.* Matters specified in an adopted Planned Community Plan for a PC District for action by City Council or amendments to a Planned Community Plan.

d. *Joint Public/Private Projects.* Joint public/private projects in designated redevelopment areas.

e. *Redevelopment Plans and Adopted Plans.* Proposed redevelopment plans or amendments to adopted plans.

f. *Redevelopment Actions.* Proposed redevelopment actions to the Council which are consistent with adopted plans and stated redevelopment goals.

g. *Design of Buildings, Structures, Landscaping, and Open Space.* Issues concerning exterior design of buildings, structures, landscaping, and open space.

h. *Directed by City Council.* Other matters as directed by the City Council.

2. ***Hear and Take Action On.*** The Planning and Zoning Board shall hear and take action on the following:

a. *Special Use Permits.* Special Use Permits (SUP) when requested in conjunction with another request requiring action or recommendation by the Planning and Zoning Board, as authorized by this Subsection C.

i. Any Planning and Zoning Board approval of an SUP that requires the associated request to be approved by the City Council shall be conditioned upon Council approval of the associated request.

ii. In the event the City Council denies the associated request, the SUP shall also be considered denied.

b. *Development Plan Review.* Development Plan Reviews as specified in Chapter 69: Development Plan Review.

c. *PC District Matters.* Matters specified in an adopted Community Plan for a PC District.

d. *Planning Director Appeals.* Appeals of the Planning Director, or designee's, decision on Development Plan Review requests.

e. *Conditioned Matters.* Matters specified by conditions of approval or stipulations on the property, whether adopted by ordinance, resolution, or otherwise; requiring Planning and Zoning Board approval.

f. *Board Business.* Rules for the conduct of Planning and Zoning Board business.

(Ord. No. 5949, § 4, 7-1-25; Ord. No. 5997, § 2, 1-26-26)

11-66-3: BOARD OF ADJUSTMENT

A. **Establishment and Organization of the Board of Adjustment.** A Board of Adjustment is hereby established pursuant to A.R.S. § 9-462.06 and Section 409 of the City Charter. The Board shall elect a chair and vice-chair, annually, who shall have power to administer oaths and to take evidence.

B. **Meetings.**

1. Meetings of the Board shall be open to the public and the minutes of its proceedings, showing the votes of each member and records of its examinations and other official actions, shall be kept and filed in the Planning Division as a public record. The Secretary of the Board shall be the Zoning Administrator, or a member of the Planning Division staff as designated by the Planning Director.

2. No Variance, Special Use Permit, Substantial Conformance Improvement Permit, Development Incentive Permit, or appeal of an interpretation of the Zoning Ordinance or other provision of the City Code shall be acted upon until a public hearing has been held.

3. Not less than 4 members of the Board shall be present to conduct a hearing. No matter shall be considered unless there are at least 4 members present who are eligible and qualified to vote on the matter.

4. The concurring vote of 4 members of the Board shall be necessary to reverse any order or decision of the Zoning Administrator or to decide in favor of the applicant on any matter upon which it is required to pass or to effect any variation from the terms and conditions of this Zoning Ordinance or of the City Code within the jurisdiction of the Board as authorized by the City Council.

5. The Chair, or in the Chair's absence the Vice Chair, shall lead the meeting, maintain order, and be the final decision maker for all meeting management questions.

C. **Authority and Duties of the Board of Adjustment.**

1. The Board of Adjustment shall:

a. Hear and decide appeals in which it is alleged there is an error in an order, requirement, or decision made by the Zoning Administrator in the enforcement of the provisions of this Ordinance or other sections of the City Code within the jurisdiction of the Zoning Administrator.

b. Hear and decide appeals from the action of the Zoning Administrator, acting in either an administrative role or the Hearing Officer role, in the interpretation of the provisions of this ordinance.

c. Hear and decide appeals from the action of the Zoning Administrator as the Hearing Officer in the granting or denying of variances, the issuance of Special Use Permits, Substantial Conformance Improvement Permits (SCIPs) or Development Incentive Permits (DIPs).

d. Hear and decide the issuance of Special Use Permits (SUPs), Substantial Conformance Improvement Permits (SCIPs) or Development Incentive Permits (DIPs), required by the City Code.

e. Authorize variances from the terms of this zoning ordinance pursuant to the provisions of A.R.S. § 9-462.06.

f. Hear and decide all matters referred to the Board by the Zoning Administrator.

g. Take any and all actions referred to the Board by the City Council, or as specified by A.R.S. § 9-462.06; or Section 409 of the City Charter.

2. The Board shall prescribe in connection with any Special Use Permit, Development Incentive Permit, Substantial Conformance Improvement Permit, interpretation, or variance, such conditions as the Board may deem necessary in order to fully carry out the provisions and intent of this Zoning Ordinance.

3. The Board of Adjustment shall not make any changes in the uses permitted in any zoning classification or zoning district, or make any changes in the terms of the Zoning Ordinance; provided that the restriction in this paragraph shall not affect the authority to grant variances.

4. The Board of Adjustment may adopt rules for the conduct of its business.

11-66-4: HISTORIC PRESERVATION BOARD

A. **Establishment and Organization of the Historic Preservation Board.** Historic Preservation Board is established and organized as established in Title 2 - Boards and Commissions, in the Mesa City Code. The duties of the Historic Preservation Board shall be in conformance with those established in Title 2 - Boards and Commissions, in the Mesa City Code.

B. **Meetings.**

1. Meetings of the Board are open to the public and the minutes of its proceedings are kept and filed in the office of the Historic Preservation Officer as a public record. The Secretary of the Board is the Historic Preservation Officer or his/her designee.

2. At least 4 members of the Board shall be present to conduct a meeting. No matter shall be considered unless there are at least 4 members present who are eligible and qualified to vote on the matter and an affirmative vote of a majority of the quorum present and voting shall be required to pass a motion.

3. The Board shall meet at least 4 times per calendar year.

4. The Chair, or in the Chair's absence the Vice Chair, shall lead the meeting, maintain order, and be the final decision maker for all meeting management questions.

C. **Authority and Duties of the Historic Preservation Board.** The Historic Preservation Board shall have the powers and duties described in Title 2 - Boards and Commissions, in the Mesa City Code.

1. Hear and/or make recommendations on other matters as directed by the City Council.

2. The Board may adopt rules for the conduct of its business.

11-66-5: PLANNING HEARING OFFICER

A. **Establishment of the Planning Hearing Officer.** The Planning Hearing Officer is hereby established in the Mesa Planning Division. The Planning Hearing Officer shall be appointed by the City Manager on the basis of training and experience regarding the conduct of hearings, knowledge of the General Plan and knowledge of the Zoning Ordinance.

B. **Authority and Duties of the Planning Hearing Officer.** When referred by the Planning Director, the Planning Hearing Officer shall:

1. Recommend action to the City Council on requests for amendments to the Zoning Map, on requests for Council Use Permit, Subdivision Plat Approvals, Applications for Development Plan Review and Development Plan Modifications, when such requests are determined by the Planning Director as appropriate to be heard by the Planning Hearing Officer pursuant to the Planning Hearing Officer guidelines.

2. Hear and take action on requests for Development Plan Reviews and Development Plan Modifications when not otherwise conditioned for review and approval by City Council, or the request does not involve the need to amend a condition of approval as stated in the adopting ordinance.

3. Consider and decide preliminary plats as part of the platting procedures and requirements described in the Subdivision Regulations, Title 9, Chapter 6, of the Mesa City Code.

4. Hear, make recommendations and/or decide matters relating to a PC District, as specified in Chapter 11 of this Ordinance, and the applicable Community Plan as adopted by City Council and including all approved amendments to the Community Plan.

5. Hear and make recommendations on other matters as directed by the City Manager or City Council.

(Ord. No. 5996, § 4, 3-9-26)

11-66-6: DESIGN REVIEW BOARD

A. **Establishment and Organization of the Design Review Board.** The Design Review Board is established by Title 2 - Boards and Commissions, Design Review Board of the Mesa City Code.

1. ***Qualification of Members.*** The composition of the Board shall include:

a. Two (2) licensed architects;

b. Two (2) other design professionals (e.g., architect, landscape architect, engineer, urban planner, interior designer or similar design-related profession);

c. One (1) contractor or developer; and

d. Two (2) citizens selected at-large from the community.

2. ***Rules of Conduct.*** The Board shall adopt rules for the conduct of its business. The Board may, in such rules, delegate certain responsibilities and/or tasks to be performed by a subcommittee or subcommittees of the Board.

B. **Meetings.**

1. Meetings of the Board are open to the public and the minutes of its proceedings are kept and filed in the Planning Division office as a public record. The Secretary of the Board is the Planning Director or a member of the Planning Division staff designated by the Planning Director.

2. At least four (4) members of the Board shall be present to conduct a meeting and an affirmative vote of a majority of the quorum present and voting shall be required to pass a motion.

3. The concurring vote of four (4) of the Board members present is necessary to pass a motion to approve an appeal of a decision of the Planning Director.

4. The Chair, or in the Chair's absence the Vice Chair, shall lead the meeting, maintain order, and be the final decision maker for all meeting management questions.

5. The Board shall meet as needed.

C. **Authority and Duties of the Design Review Board.** In addition to the powers and duties established in Title 2 - Boards and Commissions, Design Review Board of the Mesa City Code, the Design Review Board shall:

1. ***Hear and Make Recommendations.*** The Design Review Board shall hear and make recommendations on the following:

a. *Alternative Compliance.* Requests for Alternative Compliance to the Site Planning and Design Standards of Chapters 5, 6, 7, and 8 of this Ordinance.

b. *Municipal Projects.* Municipal projects of the City of Mesa, including all fire stations, libraries, parking lots with over 50 spaces, and any municipal building or project of the City of Mesa that meets the applicability for Development Plan Review in Chapter 69 of this Ordinance.

c. *PC District Matters.* Matters specified in an adopted Planned Community Plan for a PC District.

d. *Planning Director Referral.* Projects referred by the Planning Director.

e. *Directed by City Council.* Other matters as directed by the City Council.

2. ***Hear and Take Action On.*** The Design Review Board shall hear and take action on the following:

a. *Planning Director Appeals.* Appeals of the Planning Director, or designee's, decision on Alternative Compliance requests.

b. *Conditioned Matters.* Matters specified by conditions of approval or stipulations on the property, whether adopted by ordinance, resolution, or otherwise; requiring Design Review Board approval.

(Ord. No. 5997, § 3, 1-26-26)

11-66-7: ZONING ADMINISTRATOR

A. **Establishment of the Office of the Zoning Administrator.** The office of Zoning Administrator is hereby established in the Mesa Development Services Department. The Zoning Administrator shall be designated by the Development Services Department Manager and serves under the direction of the Planning Director.

B. **Authority and Duties of the Zoning Administrator.** The Zoning Administrator is the city official established pursuant to A.R.S. § 9-462.05 and charged with responsibility for enforcement of the Zoning Ordinance. In addition, the Zoning Administrator acts in either an administrative role or as a Hearing Officer and shall have the following duties and authorities:

1. Zoning Administrator in Administrative Role:

   a. Accomplish all administrative actions required by this Ordinance, including the giving of notice, scheduling of hearings, preparation of reports, and receiving and processing appeals.

   b. Interpret the Zoning Ordinance to the public, City Departments and other branches of government, and subject to general and specific policies established by the City Council. The Zoning Administrator may determine which requests for interpretations may be decided through an administrative process or reviewed and decided through a public hearing process as described in Item 2, below.

   c. Undertake preliminary discussions with, and provide advice to, applicants requesting assistance.

   d. Serve as Secretary to the Board of Adjustment, or delegate such duties to qualified parties.

   e. Make recommendations on changes and improvements in Ordinance regulations and procedures.

   f. Determine the location of any district boundary shown on the Zoning Map adopted as part of this ordinance when such location is in dispute.

   g. Review, consider and decide exceptions and alternative plans or alternative standards as authorized by this ordinance, based strictly upon the limitations and criteria specified for that exception, alternative standard or alternative plan.

   h. Review, consider and decide Zoning Permits, Administrative Use Permits, and Temporary Use Permits as authorized by this ordinance, based strictly upon the limitations and criteria specified for Zoning Permits, Administrative Use Permits, and Temporary Use Permits.

   i. Interpret any provisions of this ordinance.

   j. Make decisions on other sections of the City Code which are within the jurisdiction of the Zoning Administrator.

   k. Refer any matter within the Zoning Administrator's authority to the Board of Adjustment.

2. As a Hearing Officer conduct public hearings to:

   a. Interpret any provisions of this Ordinance when the Zoning Administrator, acting in administrative role, refers an interpretation to the Hearing Officer.

b. Hear and decide Special Use Permits, Development Incentive Permits, and Substantial Conformance Improvement Permits as required by the City Code.

c. Authorize variances from the terms of this Zoning Ordinance pursuant to the provisions of A.R.S. § 9-462.06.

d. Prescribe in connection with any Special Use Permit, Development Incentive Permit, Substantial Conformance Improvement Permit, or any Variance such conditions as deemed necessary in order to fully carry out the provisions and intent of this Ordinance.

e. Refer any matter within the Zoning Administrator Hearing Officer's authority to the Board of Adjustment.

C. **Limits to Authority and Duties.** The Zoning Administrator shall not make any changes in the uses permitted in any zoning classification or zoning district, or make any change in the terms of the Zoning Ordinance; provided that the restriction in this paragraph shall not affect the authority to grant variances.

11-66-8: DOWNTOWN DEVELOPMENT COMMITTEE

A. **The Downtown Development Committee.** The Downtown Development Committee has been decommissioned by deletion of Section 2-20-1 of the Mesa City Code pursuant to Ordinance 4960, dated December 7, 2009.

B. **Modifications.** All decided applications for which a condition of approval requires a future revision or modification of that decision to be reviewed by the Downtown Development Committee for either recommendation or decision shall instead be reviewed by the Planning & Zoning Board or Design Review Board, as determined by the Planning Director. The determination shall be based on the type of modification or revision requested.

CHAPTER 67 COMMON PROCEDURES*

11-67-1: PURPOSE

This chapter establishes procedures that are common to the application and processing of all permits and approvals provided for in the Zoning Ordinance, unless superseded by specific requirement of this Ordinance or State law.

11-67-2: APPLICATIONS, SUPPORTING MATERIALS AND FEES

A. **Applicants.** The following persons may file an application:

1. The owner of the subject property; or

2. An agent representing the owner, duly authorized to do so in writing by the owner.

B. **Applications.** Applications required by this ordinance shall be filed with the office of the Planning Division and include all of the following:

1. An application, provided by the City.

***Editor's note**—Previously, Chapter 67 derived from Ord. No. 5472, 11-6-18.

2. The required documents and information in a form acceptable to the Planning Division.

3. Additional materials, as required. The Zoning Administrator may require the submission of supporting materials as part of the application, including but not limited to, statements, photographs, plans, drawings, renderings, models, material samples and other items necessary to describe existing conditions and the proposed project.

4. The required fee.

C. **Pre-application or Pre-submittal Conference Required.**

1. A pre-application or pre-submittal conference is required before filing the following land use applications:

a. Adaptive Reuse Permit;

b. Affidavit of change/correction;

c. Annexation;

d. Council Use Permit;

e. Development Incentive Permit;

f. Development Plan Review;

g. General Plan Amendment;

h. Rezone;

i. Special Use Permit;

j. Substantial Conformance Improvement Permit; or

k. Variance.

2. This preliminary description shall include, at minimum, a site plan and project narrative; both of sufficient scope and detail so as to allow a basic review of location, land area, land use, land use intensity, traffic generation and adjacent streets, stormwater drainage, utility service, and previous case history.

3. The Planning Director or a Planning Division staff member designated by the Planning Director shall return comments to the applicant based on this preliminary review in writing, and orally at a subsequent conference between the applicant, Planning Division staff, and staff members of other city departments submitting comments.

4. The need for the conference and fee may be waived by the Planning Director if it is determined sufficient information already exists regarding the request and case site.

D. **Payment, Waiver and Refund of Application Fees.**

1. ***Schedule of Fees.*** The City shall establish fees for all application types. Payment of the fee is required in order for an application to be complete. No application shall be processed without payment of the applicable fee unless a fee waiver or deferral has been approved by the Development Services Department Director.

2. ***Fee Waiver or Deferral.*** No fee shall be required when the applicant is the City, or if it is waived or deferred by the Development Services Department Director based upon a finding of unique financial hardship or in unique circumstances where it would be unreasonable to impose the normal fee, or to impose such fee at the usual time.

3. ***Refund of Fees.*** Once an application is filed with the Planning Division, no part of any application fee shall be refundable, unless the Development Services Department Director determines such a refund is justified on the basis of unique financial hardship and factual circumstances. No refund shall be made for any application that has been denied.

(Ord. No. 5996, § 4, 3-9-26)

11-67-3: CITIZEN PARTICIPATION

A. **Citizen Participation Plan.** Every application that requires a public hearing in accordance with this Chapter shall be accompanied by a Citizen Participation Plan designed to provide effective, early and continuous public participation that includes at least the following:

1. A contact list or method for notifying adjacent landowners and other potentially affected citizens of the proposed action, that shall include, but is not limited to:

   a. Property owners within the maximum public hearing notice area required for that type of application,

   b. Residents, registered neighborhoods, and homeowners associations that may be impacted as a result of the application, and other neighborhood entities identified by the City,

   c. Interested parties which have requested that they be placed on a contact list for this application, and

   d. Interested parties that have been identified by the City.

2. A general description of how interested persons and those on the contact list may obtain information and updates on the project, such as newsletters, mailings, and meetings.

3. A general description of how interested persons, including those on the contact list, will be provided an opportunity to discuss the proposal with the applicant, such as neighborhood meetings, phone contacts, or door-to-door visits.

4. The applicant's proposed schedule for implementation of the Citizen Participation Plan.

5. How the applicant plans to keep the City informed on the status of the implementation of its Citizen Participation Plan, such as providing staff copies of notices prior to meetings with citizens, and contact lists used to notify interested parties.

B. **Citizen Participation Report.** The requirements in this section apply in addition to any notice provisions required elsewhere in this Zoning Ordinance, or by Arizona Revised Statutes (ARS).

1. Applicants shall provide a written Citizen Participation Report on the results of implementing their Citizen Participation Plan at least 10 City business days prior to the first scheduled public hearing. The Citizen Participation Report shall include the following information:

   a. A summary of neighborhood meetings, if held, including when and where they were held, number in attendance (copies of sign-in sheets), and results achieved at the meeting(s);

b. A summary of citizen concerns, issues and problems expressed during the citizen participation process, and how these have been addressed through changes or stipulations to the project; and

c. Copies of comment letters, petitions, and other pertinent information received from residents and other interested parties.

2. City of Mesa staff may apply the Citizen Participation Guidelines, Resolution 7283 (adopted November 2, 1998) as needed to meet the requirements of this section.

3. Failure to comply with the citizen participation provisions of this section, or a determination that such efforts were insufficient to provide adequate opportunities for citizen participation, may result in postponement, rescheduling or denial of an application.

11-67-4: REVIEW OF APPLICATIONS

A. **Determination of Administratively Complete Applications.** The Planning Director, or a member of the Planning Division staff designated by the Planning Director, shall determine whether an application is administratively complete.

1. ***Administrative Completeness Review.*** Except for residential zoning applications discussed in Section 11-67-(4)(A)(2) below, a determination of completeness will occur as follows:

a. *Administratively Incomplete Application.* If an application is incomplete, notification to the applicant shall be sent listing any additional forms, information, and/or fees that are necessary to complete the application.

b. *Administratively Complete Application.* When an application is determined to be complete, a notation on the application shall make a record of that date. If required, a public hearing shall be scheduled and the applicant shall be notified of the date and time.

2. ***Residential Zoning Application Administrative Completeness Review.*** This section only applies to applications that meet the definition of a residential zoning application in Chapter 87 of the zoning ordinance.

a. *Administrative Completeness Review Time Frame.* For each residential zoning application, the City shall determine if the application is administratively complete within 30 calendar days after receiving the application.

b. *Administratively Incomplete Applications.* If it is determined the application is administratively incomplete:

i. The City shall provide the applicant with a written notice that includes a comprehensive list of the specific deficiencies within 30 calendar days of receiving the application.

ii. Upon issuance of the written notice, the administrative completeness review time frame and overall time frame, as defined in A.R.S. § 41-1072, are suspended from the date the notice is issued until the City receives the resubmitted application.

iii. The City shall have 15 calendar days to determine if the resubmitted application and determine whether every deficiency has been resolved for administrative completeness.

B. **Approval or Denial of Residential Zoning Applications.** After determining a residential zoning application is complete:

1. The decision-making body shall approve or deny the application within 180 calendar days of the application being determined administratively complete.

2. The City may extend the time frame to approve or deny the application beyond 180 calendar days as follows:

a. For extenuating circumstances the planning director may grant a one-time extension of no more than 30 calendar days; or

b. At the request of the applicant the Planning Director may grant extensions in 30 calendar day increments.

C. **Exceptions.** The provisions within this section related to residential zoning applications do not apply to:

1. Land that is designated as a district of historical significance pursuant to A.R.S. 9-462.01(A)(10);

2. An area that is designated as historic on the National Register of Historic Places; or

3. A lot or parcel that is currently zoned with a planned area development (PAD) overlay.

D. **Annexation Procedures.** Annexations shall be considered by City Council in accordance with the procedures specified in Chapter 78.

E. **Additional Fee for Planning Hearing Officer.** When an application is determined by the Planning Director as appropriate to be heard by the Planning Hearing Officer pursuant to the Planning Hearing Officer guidelines, the applicant may elect to have the matter placed before the Planning Hearing Officer by submitting the additional fee as specified in a schedule adopted by resolution by the City Council.

F. **Conditions Requiring Mandatory Supermajority Vote by City Council.** In the event the City Council is asked to decide upon any proposed Rezoning Amendment, Council Use Permit, Development Unit Plan, Development Plan Review or Development Plan Modification, amendments to such proposals, or appeals of any such proposals, and upon evidence that all conditions described in subsections 1. and 2. below, have been satisfied, then the proposal shall become effective only by favorable vote of three-fourths (¾) of all members of the City Council. If any members of the City Council are unable to vote on such a question because of a conflict of interest, then the required number of votes for passage of the question shall be three-fourths (¾) of the remaining membership of the City Council, provided that such required number of votes shall in no event be less than a majority of the full membership of the Council. For the purposes of this section, the required number of votes shall be rounded to the nearest whole number.

1. A written protest, signed by the property owners opposing the proposal is filed by the owners of 20% or more of the area and number of lots, tracts, and condominium units within the zoning area, as defined in A.R.S. § 9-462.04.

2. Signed written protests must be filed in the office of the City Clerk by no later than 12:00 noon the Monday of the week prior to the City Council meeting at which the proposal is scheduled to be considered, unless City offices are closed on that Monday because of a local, State or national holiday, then the protest must be filed by 12:00 noon the next business day.

G. **Inactive and Expired Applications.**

1. ***Inactive Application.*** An application shall be deemed inactive if the City does not receive the required resubmittal within 12 months of review comments being provided to the applicant. the required resubmittal may include any or all of the following:

   a. Written responses to each review comment from the applicant or the applicant's authorized representative;

   b. Revised plans, drawings, reports, or documents; and

   c. Payment of required fees.

2. ***Courtesy Notice of Inactivity.*** If a resubmittal has not been received within nine (9) months of City review comments being issued, the City may send a written notice to the applicant at the last address or email on file stating that the application will be closed if the required action is not taken within three (3) months of the notice date.

3. ***Expired and Withdrawn Application.*** If the required resubmittal is not received within 12 months after the City issues review comments requesting revisions, the application shall be deemed expired and withdrawn, and processing shall cease.

4. ***New Application Required.*** Any further reviews will require a new application, payment of applicable fees, and compliance with all ordinances, standards, and fees in effect at the time of refiling.

(Ord. No. 5405, 8-28-17; Ord. No. 5905, § 1, 12-9-24; Ord. No. 5996, § 4, 3-9-26)

11-67-5: PUBLIC NOTICE

A. **Notice of Public Hearing.**

1. ***City Council, Planning and Zoning Board, and Planning Hearing Officer.*** Any applications to the City Council, Planning and Zoning Board or the Planning Hearing Officer shall:

   a. Provide the same notice of Public Hearing as required by A.R.S. § 9-462.04; and

   b. Post the subject property no less than 15 days prior to the first scheduled hearing; and

   c. Provide additional notice by first class mail a minimum of 15-days prior to the first scheduled hearing date to all owners of property located within 500-feet of the exterior boundary of the property that is the subject of the application, based on the last assessment.

2. ***Board of Adjustment and Zoning Administrator.*** Any applications to the Board of Adjustment or Zoning Administrator acting as the Hearing Officer shall provide:

   a. The same notice of Public Hearing as required by A.R.S. § 9-462.06(F); and

b. Additional notice by first class mail a minimum of 15 days prior to the scheduled hearing date to all owners of property located within the following distances of the exterior boundary of the property that is the subject of the application, based on the last assessment:

i. For any single residence, duplex, or single lot RV or manufactured home: 150 feet.

ii. For any other request: 500 feet.

3. ***Design Review Board.*** Any application to the Design Review Board shall send notice by first class mail a minimum of 15 days prior to the scheduled meeting or work session date to all owners of property located within 500 feet of the exterior boundary of the property that is the subject of the application, based on the last assessment.

B. **Administrative Development Plan.** Each initial development plan or minor development plan modification that is eligible for administrative approval shall:

1. Provide notice by first class mail, to all owners of property located within 500 feet of the exterior boundary of the property that is the subject of the application, based on the last assessment. Notice must be within 15 days after the date the planning division determines the application is complete (i.e., eligible for administrative approval).

2. The public has 10 days from the postmark on the notice to submit comments on the proposed request to the Planning Division.

C. **Contents of Public Notice.** Any public notice shall include the following information:

1. A general description of the proposed project or action and the location of the real property, if any, that is the subject of the application;

2. The date, time, location, and purpose of the public hearing or the date of action when no public hearing is required;

3. The identity of the hearing body or officer;

4. The names of the applicant or the owner of the property that is the subject of the application; and

5. In addition to the items listed above, mailed notice shall include the following:

a. A copy of the proposed plans;

b. A statement that any interested person or authorized agent may appear, and be heard at a public hearing, if a public hearing is required; and

c. A statement describing how to submit written comments.

6. It shall be the responsibility of the applicant to maintain the posting once erected until after the last hearing.

D. Notwithstanding the notice requirements of this section, the failure of any person or entity to receive notice shall not constitute grounds for any court to invalidate the actions of the City of Mesa for which the notice was given.

(Ord. No. 5591, § 1, 12-1-20; Ord. No. 5996, § 3, 3-9-26)

11-67-6: CONDUCT OF PUBLIC HEARINGS

A public hearing held pursuant to this Ordinance shall comply with the following procedures:

A. **Public Hearing Testimony.** Any person may appear at a public hearing and submit oral or written evidence, either individually or as a representative of a person or an organization. Each person who appears at a public hearing shall be identified, state their name and address, and, if appearing on behalf of a person or organization, state the name and mailing address of the person or organization being represented. The presiding officer may establish time limits for individual testimony and may require that individuals with shared concerns select one or more spokespersons to present testimony on behalf of those individuals.

B. **Continuance of Public Hearing.** The body conducting the public hearing may, by motion, continue the public hearing to a fixed date, time and place or may continue the item to an undetermined date and provide notice of the continued hearing as set forth in Section 11-67-5.

C. **Investigations.** The body conducting the hearing may cause such investigations to be made as it deems necessary and in the public interest on any matter to be heard by it. Such investigation may be made by a committee of one or more members of the body conducting the hearing or by members of its staff or its agents or employees. The facts established by such investigation shall be submitted to the body conducting the hearing either in writing, to be filed with the records of the matter, or in testimony before the body, and may be considered by the body in making its decision.

D. **Record of Hearing.** The body conducting the hearing shall cause a written summary of all pertinent testimony heard at such public hearing, together with a record of the names and addresses of all persons testifying, to be prepared and filed with the papers relating to such matter.

11-67-7: RECORDS OF ACTIONS TAKEN

Unless otherwise specified in this Ordinance, the minutes of the meeting where a decision is made shall be the official record of any action taken or decision made to approve, approve with conditions, modify, revoke or deny any discretionary permit or discretionary approval (e.g., Development Plan Review, Certificate of Appropriateness) under this Ordinance.

A. **Date of Action.** The responsible body shall decide to approve, modify, revoke, or deny any discretionary permit or discretionary approval following the close of the public hearing, or if no public hearing is required, at a public meeting within the time period required by this Ordinance. The date of action shall be the date of the meeting where a motion or other action is approved.

B. **Notice of Action.** After the Zoning Administrator or other responsible body takes any action to approve, modify, or deny an application that is subject to appeal under the terms of this Ordinance, Notice of Action shall be sent to the Applicant. The Notice shall describe the action taken, including any applicable conditions, and shall list any required findings that were the basis for the decision. The Notice shall be mailed within seven calendar days from the date of taking the action, to the Applicant at the address (including electronic addresses) stated in the application and to any other person or entity who has filed a written request of such notification.

C. **Findings.** Findings shall be required for any action of the Zoning Administrator acting as a Hearing Officer and for the Board of Adjustment, as required by A.R.S. § 9-462.06 or this Ordinance, and shall be

based upon personal observations, consideration of the application, plans, testimony, reports, and other materials that constitute the administrative record and shall be stated in writing in the resolution by or meeting minutes of the decision-making authority. The findings shall be set forth in the notice that the City issues following an appealable decision by the Zoning Administrator or other responsible body and in the minutes of the meeting or other record where the decision making authority documents its decision.

(Ord. No. 5996, § 3, 3-9-26)

11-67-8: EFFECTIVE DATES

A. **Approvals Subject to Appeal.** A final decision on an application for any discretionary approval subject to appeal (e.g., a use permit, variance, or development plan approval) shall become effective after the expiration of the appeal period following the date of action, unless an appeal is filed. In accordance with paragraph B, below, no building permit or business license shall be issued until the day following the expiration of the appeal period, unless the applicant signs a waiver explaining that they understand and accept the risk of proceeding before the appeal period ends.

B. **Exercising Approval at Risk.** An approved variance or Special Use Permit or an interpretation favorable to the applicant may be exercised at the applicant's sole risk, and a construction permit (if required) may be issued subsequent to the approval by the Zoning Administrator or Board of Adjustment. However, if an appeal of the decision is filed in accordance with the provisions of this Ordinance that reverses in whole or in part or modifies the decision and that causes any construction or use commenced as a result of exercising the decision to be in conflict with the appellate body's decision, then such construction permit may be revoked in accordance with the appellate body's decision and any such construction or use may constitute a violation of this Ordinance and may be subject to removal or cessation by the applicant, property owner, or his agent.

(Ord. No. 5996, § 3, 3-9-26)

11-67-9: EXPIRATIONS AND EXTENSIONS

A. **Expirations.**

1. The Planning and Zoning Board, Planning Director, Hearing Officer, Zoning Administrator acting as a Hearing Officer, Board of Adjustment, or City Council, in the granting of any Conditional Use Permit, (also referred to as discretionary approval), or Conditional Use Permit modification, for which the body has authority, may specify the time within which the proposed use must be undertaken and actively and continuously pursued. The approving authority may impose upon the Conditional Use Permit a term of such period of time as is found to be consistent with the purposes of the use and necessary to safeguard the public safety, health, and welfare. If no time period is otherwise specified, any Conditional Use Permit granted under this Zoning Ordinance may be declared expired and of no further force and effect if it is not exercised or extended within five (5) years of its issuance. The Conditional Use Permit is considered exercised by completion of one (1) of the following:

   a. A valid City business license, if required, has been issued, and the permitted use has commenced on the property.

   b. A building permit for the construction of a building, structure, or sign is issued.

2. Approved Variances may be declared expired and of no further force and effect if it is not exercised or extended within five (5) years of the date of approval. The Variance is considered exercised when a valid city building permit, if required, is issued.

3. An approved Development Plan, Initial Site Plan, Major Site Plan Modification, or Design Review expires and is no longer in effect if it is not exercised or extended within five (5) years of the date of approval. A Minor Development Plan Modification, Minor Site Plan Modification is effective for a period of five (5) years from the date the Initial Development Plan, or Initial Site Plan associated with the Minor Development Plan Modification or Minor Site Plan Modification was approved. An approved Initial Development Plan, Initial Site Plan, Site Plan Modification or Design Review is considered exercised by completion of one (1) of the following:

   a. A valid city business license, if required, has been issued, and the permitted use has commenced on the property.

   b. A valid city building permit, if required, has been issued.

B. **Extensions.** The original approving body may approve a one (1) year extension of any permit or approval granted under this Ordinance, provided that a complete application and the required fee are submitted no later than 90 days after the expiration date.

(Ord. No. 5591, § 2, 12-1-20; Ord. No. 5996, § 3, 3-9-26)

11-67-10: MODIFICATIONS TO APPROVED PLANS

For those sections of this Ordinance that provide a modification or amendment process, such as Chapter 69: Development Plan Review and Chapter 76: Amendments to Zoning Map, this section does not apply. This section only applies if this Ordinance does not provide a modification or amendment process. This section sets forth the criteria for minor and major modifications. It also provides the review and approval process for minor modifications.

A. **Minor Modifications.** A modification is considered minor if it does not materially alter the approved plan or other approval, will not intensify any potentially detrimental effects of the project and is consistent with the original findings and all conditions of approval approved by the Planning Director or designee, the Board of Adjustment, Design Review Board, Planning Hearing Officer, Planning & Zoning Board, or City Council. The Planning Director, in the Planning Director's discretion, determines if a modification is minor. A modification that is not determined minor by the Planning Director is a major modification subject to subsection B. below.

   1. **Review Process for Minor Modifications.** Minor modifications are reviewed administratively by the Planning Director or the Planning Director's designee. The Planning Director or designee may take action on, or impose conditions upon, the modification to protect adjacent properties, preserve neighborhood character, mitigate adverse environmental impacts or other public health and safety reasons. The Planning Director, in the Planning Director's discretion, may require a minor modification go through the public hearing process for review and consideration by the appropriate decision-making body as required by this Ordinance.

B. **Major Modifications.** A modification is considered major if it changes, eliminates or affects a condition of approval (whether adopted by resolution, ordinance or otherwise) such as a change to a discretionary

permit, approved plan, or building plan or materially alters a previous approval or plan. Additionally, any modification not determined minor by the planning director is a major modification. This section does not provide the review and approval process for major modifications. A modification that is determined major will require the submission of a new application to start the process from the beginning and must follow the applicable review and approval process set forth in this Ordinance and have the request approved by the appropriate decision-making body.

(Ord. No. 5591, § 3, 12-1-20; Ord. No. 5996, § 3, 3-9-26)

11-67-11: REVOCATION OF PERMITS APPROVED THROUGH A PUBLIC HEARING PROCESS

Any Council Use Permit (CUP), Special Use Permit (SUP), Development Incentive Permit (DIP), or Substantial Conformance Improvement Permit (SCIP) granted under this Chapter may be revoked if any of the conditions or terms of such permit are violated or if any law or ordinance is violated in connection therewith.

A. **Initiation of Proceeding.**

1. The City Council, by its own action, or following a recommendation from the Planning & Zoning Board or Zoning Administrator, may initiate revocation proceedings regarding Council Use Permits.

2. The Board of Adjustment, following a recommendation from the Zoning Administrator, may initiate revocation proceedings for Special Use Permits, DIPs and SCIPs.

B. **Public Notice.** Notice that the possible revocation of the permit has been scheduled for hearing shall be made pursuant to the requirements of Section 11-67-5, Notice of Public Hearing.

C. **Public Hearing.** The public hearing regarding the revocation of a permit shall be conducted in the same manner as was used for the approval of the use permit, pursuant to Chapter 70.

D. **Required Finding for Revocation.** The City Council, or Board of Adjustment, as applicable, may revoke a permit if it makes any of the following findings:

1. That approval was obtained by means of fraud or misrepresentation of a material fact;

2. That the permittee or holder of the permit has failed to initiate construction or undertake the use in question within a 1 year period following the effective date of the permit or variance;

3. That the use in question has ceased to exist or has been suspended for one year or more;

4. That there is or has been a violation of or failure to observe the terms or conditions of the permit or the use has been conducted in violation of the provisions of this Ordinance, law or regulation; or

5. That the use to which the permit or applies has been conducted in a manner detrimental to the public safety, health and welfare, or so as to be a nuisance.

11-67-12: APPEALS

A final decision is subject to appeal according to the standards in Chapter 77 - Appeals. Table 11-67-12 summarizes the appeal process for each body issuing a final decision.

Table 11-67-12: Appeal Bodies	
Initial Decision-Maker	**Appeal Body**
Historic Preservation Officer	Historic Preservation Board
Zoning Administrator	Board of Adjustment
Zoning Administrator Hearing Officer	Board of Adjustment
Board of Adjustment	Superior Court, per A.R.S. § 9-462.06.K
Planning Director, Development Plan Review	Planning and Zoning Board
Planning Director, Alternative Compliance	Design Review Board
Historic Preservation Board	City Council
Planning and Zoning Board	City Council
Design Review Board	City Council
Planning Hearing Officer	City Council
City Council	Superior Court, where applicable under state law

(Ord. No. 5997, § 4, 1-26-26)

CHAPTER 68 ZONING CLEARANCE

11-68-1: PURPOSE

This Chapter establishes procedures for conducting zoning clearance to ensure that each new or expanded use or structure complies with the applicable requirements of this Ordinance. Having made such determination, the City shall establish a record of the Zoning Clearance that document the initial establishment of a use, or the construction of a structure, which is allowed as a matter of right.

11-68-2: APPLICABILITY

Zoning clearance is required for buildings or structures erected, constructed, altered, repaired or moved, which require a building permit, the use of vacant land, changes in the use of land or building, or for substantial expansions in the use of land or building.

11-68-3: REVIEW AND DECISION

A. **Determination.** The Zoning Administrator shall determine whether the Zoning Ordinance allows the proposed uses or structures by right. A Zoning Certificate shall be issued if the Zoning Administrator determines that the proposed use or building is allowed as a matter of right by the Zoning Ordinance, and conforms to all the applicable development and use standards. An approved Zoning Certificate may include attachments of other written or graphic information, including but not limited to, statements, numeric data, site plans, floor plans and building elevations and sections, as a record of the proposal's conformity with the applicable regulations of this Chapter.

B. **Exceptions.** No Zoning Certificate shall be required for the continuation of lawful uses and structures approved or permitted prior to the adoption of this ordinance, uses and structures that are not subject to any building or zoning regulations, or other uses or buildings already subject to Council Use Permit, Special Use Permit, variances or other discretionary approvals in the district in which they are located.

11-68-4: APPEALS

The applicant or any other aggrieved party may appeal a determination of zoning conformance pursuant to the provisions of Chapter 77, Appeals.

CHAPTER 69 DEVELOPMENT PLAN REVIEW*

11-69-1: PURPOSE

This Chapter establishes objectives, standards, and procedures for reviewing development plans, including but not limited to site plans, building elevations, landscape plans, preliminary grading and drainage plans, materials and color samples, and photometric plans. The specific purpose of the Development Plan Review process is to:

A. Ensure proposed development complies with the provisions of this Ordinance.

B. Eliminate or minimize potential land use conflicts and provide effective transitions between abutting parcels appropriate to site context.

C. Mitigate adverse impacts on surrounding developments or land uses that may result from proposed projects.

D. Ensure high-quality design that contributes to an attractive built environment and incorporates public spaces integral to the project.

E. Promote safe and efficient traffic circulation; provide adequate off-street parking, loading areas, bicycle facilities, and pedestrian amenities; and support a multi-modal transportation system that improves connectivity between residential, commercial, educational, employment, and recreational uses.

F. Implement the goals, objectives, and policies of the General Plan, sub-area plans, and other City Council adopted policies.

(Ord. No. 5996, § 1, 3-9-26)

11-69-2: APPLICABILITY

The following development proposals are subject to Development Plan Review:

A. A project that includes Multiple Residences, three (3) or more attached Single Residences, or more than two (2) dwelling units per lot. Development Plan Review is not required for projects with one (1) detached Single Residence, an Accessory Dwelling Unit, or projects eligible as Middle Housing.

B. Projects that include mixed-use, commercial, or industrial uses with frontage on an arterial or collector street, or that are part of a larger development or center with such frontage.

C. Mixed-use, commercial, or industrial projects that have more than 20,000 square feet of gross floor area.

D. Modifications to existing commercial or industrial development with frontage on an arterial street, or that are part of a larger development or center with arterial frontage.

***Editor's note—**Ord. No. 5996, § 1, adopted March 9, 2026, repealed the former Ch. 69, §§ 11-69-1—11-69-9, and enacted a new Ch. 69 as set out herein. The former Ch. 69 pertained to Site Plan Review. See Code Comparative Table for complete history.

E. Parking garages.

F. Municipal projects, including fire stations, libraries, parking lots with more than 50 spaces, and any other City of Mesa building or project meeting the criteria in this section.

G. Developments establishing project-specific design guidelines and standards.

H. Projects located on property where the ordinance approving the zoning, rezoning, or Council Use Permit is conditioned upon Site Plan Review, Design Review, or Development Plan Review.

I. Any other projects identified in this Ordinance as requiring Development Plan Review.
(Ord. No. 5996, § 1, 3-9-26)

11-69-3: APPLICATION REQUIREMENTS

Applications for Development Plan Review shall be filed with the Planning Division in accordance with Chapter 67, Common Procedures, including applicable citizen participation and public notice requirements.
(Ord. No. 5996, § 1, 3-9-26)

11-69-4: INITIAL DEVELOPMENT PLAN REVIEW

Projects that require Development Plan Review under Section 11-69-2 that are located on property without an approved Development Plan, site plan, and/or design review, or where such approvals have expired, shall obtain approval of an Initial Development Plan. A Development Plan that does not qualify for review as an Initial Development Plan will be reviewed as a Development Plan Modification under Section 11-69-5.

A. ***Administrative Review.*** An Initial Development Plan may be approved administratively if the Planning Director or Planning Director's designee determines it to be eligible based on the criteria of this section.

1. ***Eligibility Criteria.*** An Initial Development Plan is eligible for administrative approval if it meets all of the following:

a. Complies with all applicable requirements of this Ordinance.

b. Does not require a rezone, Planned Area Development Overlay (PAD), Council Use Permit (CUP), Bonus Intensity Overlay Zone (BIZ), or Special Use Permit (SUP).

c. Does not require an Ordinance Condition Modification under Chapter 76.

2. ***Design Review Board Recommendation Required.***

a. Development Plans requesting Alternative Compliance shall be reviewed by and receive a recommendation from the Design Review Board prior to Planning Director action.

b. Applicants may request a Design Review Board work session for review and recommendation prior to Planning Director action.

3. ***Referral of an Administrative Review.*** The Planning Director may refer any application to the Planning and Zoning Board or Design Review Board if, in the Planning Director's judgment, the project meets one (1) or more of the following criteria or otherwise warrants public review:

a. The project has unusual site constraints, infrastructure demands, or design complexities;

b. The project represents a major public or private investment with significant potential community or economic impact; or

c. The project does not comply with applicable Sub-area Plans or Neighborhood Area Plans.

B. **Planning & Zoning Board Action Required.** The Planning and Zoning Board shall hear and take action on the following:

1. Initial Development Plans associated solely with a Special Use Permit; or

2. Initial Development Plans that are eligible for administrative review but referred to the Planning and Zoning Board by the Planning Director.

C. **City Council Action Required.** The following Initial Development Plans require Planning and Zoning Board recommendation and City Council action.

1. Initial Development Plans associated with a Rezone, Planned Area Development Overlay (PAD), Council Use Permit (CUP), or Bonus Intensity Overlay Zone (BIZ).

2. Initial Development Plans that require an Ordinance Condition Modification under Chapter 76.

3. Initial Development Plans that are not eligible for administrative review and not subject to approval by the Planning and Zoning Board.

4. The City Council shall use the review criteria set forth in Section 11-69-5 to evaluate the Initial Development Plan and may take action on, or impose conditions upon, the Initial Development Plan, as set forth in Section 11-69-6.

(Ord. No. 5996, § 1, 3-9-26)

11-69-5: DEVELOPMENT PLAN MODIFICATION

Changes to an approved Development Plan, site plan, or Design Review are classified either as an Administrative or Legislative Development Plan Modification and reviewed by the applicable approving authority as set forth in this section.

A. **Administrative Development Plan Modifications.** Development Plan Modifications that do not meet the criteria for a Legislative Development Modification per Subsection B below, may be administratively approved by the Planning Director or the Planning Director's designee.

B. **Legislative Development Plan Modifications.** A Development Plan Modification is a legislative action that requires City Council approval through the rezoning process if any of the following occur:

1. ***Rezoning or Overlay Request.*** The proposed modification involves:

a. A change to a base zoning district; or

b. A request for or a change to an overlay district.

2. ***Development Plan Condition Modification.*** An Ordinance Condition Modification, as described in Chapter 76, is required for the proposed modification when all of the following criteria are met:

a. A Development Plan Condition is included in the approving ordinance (e.g., compliance with the final site plan, compliance with the final development plan, or compliance with the basic development as shown); and

b. The proposed modification changes the previously approved Development Plan or site plan and results in at least one (1) of the following:

i. Increases or decreases the total gross floor area of all buildings on the site greater than 10%; or

ii. Increases in the residential density above the density approved by the ordinance; or

iii. Includes the addition of a drive-thru lane; or

iv. Increases traffic generation by 15% or more, as determined by a traffic impact study or traffic impact analysis; and

c. The proposed modification includes a Change of Use as defined in Chapter 87.

3. ***Other Ordinance Condition Modifications.*** For proposed modifications that require changes to ordinance conditions, other than a Development Plan Condition, an Ordinance Condition Modification shall be required as determined under Chapter 76.

(Ord. No. 5996, § 1, 3-9-26)

11-69-6: REVIEW CRITERIA

When reviewing a development plan, the reviewing body shall determine whether the project satisfies all of the following:

A. The project is consistent with and conforms to the adopted General Plan (except that no analysis of the use if it is permitted in the zoning district on the property);

B. The project complies with all applicable development standards of this Ordinance;

C. The project complies with all project specific design guidelines or standards adopted and applicable to the site; and

D. The project is consistent with all conditions of approval imposed on the property whether by ordinance, resolution or otherwise.

(Ord. No. 5996, § 1, 3-9-26)

11-69-7: CONDITIONS OF APPROVAL

A. **Approval Authority.** The Planning Director or Planning Director's designee, Planning and Zoning Board, and City Council, as the applicable approval authority, may approve, modify, approve with conditions, or deny an Initial Development Plan or Development Plan Modification. Conditions of approval may include, but are not limited to, any combination of the following:

1. Adjustments to the height, area, or setback of buildings;

2. Changes to building materials, colors, articulation, or architectural detailing;

3. Modifications to landscaping, open space, or amenities;

4. Limitation or modification to vehicular access;

5. Addition or modifications of walls, fences, or screening devices;

6. Noise attenuation measures;

7. Compliance with the final development plan, final site plan, basic development plan; or

8. Any other restriction or requirement necessary to protect adjacent properties, preserve neighborhood character, or mitigate adverse impacts.

(Ord. No. 5996, § 1, 3-9-26)

CHAPTER 70 CONDITIONAL USE PERMITS

11-70-1: PURPOSE

This Chapter describes the process and general requirements applicable to those uses for which a Conditional Use Permit is required. These uses require special consideration to ensure that they can be designed, located, and operated in a manner that will not interfere with the use and enjoyment of surrounding properties. The purpose of the conditional use permit application process is to evaluate possible adverse impacts and to minimize them, where possible, through the imposition of specific conditions of approval. If adverse impacts cannot be appropriately resolved, the use is not appropriate in that location or configuration.

11-70-2: BURDEN OF PROOF

The applicant has the burden of proving that the application meets the Ordinance requirements for granting of any use permit. No structure, facility, or use approved by conditional use permit may be modified, enlarged or expanded, without obtaining an approved modification to the Conditional Use Permit. The application for modification shall be processed as a new conditional use permit application under this Ordinance. The issuance of a Conditional Use Permit may require that the existing development site be brought into substantial conformance with the terms of the Mesa City Code in effect on the date the use permit is approved, including but not limited to: landscaping, screening, parking, and storm water retention.

11-70-3: ADMINISTRATIVE USE PERMIT

A. **Administrative Use Permit (AUP).** An AUP is a discretionary written authorization issued through the Planning Director upon a finding that the activity or use conforms with the intent of this Ordinance and any required findings. An AUP may be limited by a specific period of time.

B. **Uses and Activities Subject to an Administrative Use Permit.** Uses and activities requiring an AUP are identified in this Ordinance, including but not limited to, Article 2, Base Zones, Article 4, Development Regulations, Article 5, Sign Ordinance, and Article 6, Form-Based Code.

C. **Permit Application and Procedures.** The procedures for requesting an AUP are provided in Chapter 67, Common Procedures, except a citizen participation plan and report is not required.

D. **Required Findings.** An AUP shall be granted only if the Planning Director determines that the project, as submitted or modified, conforms to all of the following criteria:

1. The proposed project will advance the goals and objectives of, and is consistent with, the purposes and policies of the General Plan and any other applicable City plan or policies;

2. The location, size, design, and operating characteristics of the proposed project are consistent with the purposes of the district where it is located and conforms with the General Plan and with any other applicable City plans or policies;

3. The proposed project will not be injurious or detrimental to the adjacent or surrounding properties in the area, nor will the proposed project or improvements be injurious or detrimental to the neighborhood or to the general welfare of the City; and

4. Adequate public services, public facilities and public infrastructure are available to serve the proposed project.

(Ord. No. 5631, § 2, 7-8-21)

11-70-4: TEMPORARY USE PERMIT

A temporary use permit is a discretionary authorization for certain uses that are intended to be of limited duration and will not permanently alter the character or physical conditions of the site where they occur. All temporary uses must comply with the requirements in Section 11-31-30 for temporary uses, as applicable, and all the requirements below:

A. **Uses subject to Temporary Use Permits.** Uses requiring a temporary use permit are established in the use tables in Chapters 4 through 15 and Chapter 56. Uses requiring a temporary use permit will also require a Special Event License in accordance with Title 5 of the Mesa City Code.

B. **Permit application and procedures.** In addition to the applicable requirements and procedures provided in Chapter 67, Common Procedures, the following specific procedures apply:

1. A completed application for a Temporary Use Permit must be submitted at least 45 days before the use is intended to begin.

2. The application must include all information required in the official process guide and application packet for temporary use permits made available by the Development Services Department. The Zoning Administrator or designee may require additional information as necessary, based on the nature of the proposed temporary use.

3. Written property owner permission is required for all temporary uses.

4. Each occurrence of a temporary use requires a separate completed application and approval of a temporary use permit.

C. **Required findings.** A Temporary Use Permit shall only be granted if the Zoning Administrator determines that the proposed temporary use, as submitted or modified, conforms to all of the following criteria:

1. The proposed use will not permanently alter the site on which it is located;

2. The proposed use will not unreasonably affect or have a negative impact on adjacent properties, their owners and occupants, or the surrounding neighborhood, and will not in any other way constitute a nuisance or be detrimental to the health, safety, peace, comfort, or general welfare of persons residing or working in the area of such use or the general welfare of the City;

3. The proposed use is consistent with land uses permitted by the Zoning District within which the site is located, and land uses consistent with the general plan land use designation of the site;

4. The proposed use complies with all development standards applicable to the Zoning District in which the use is located unless specifically stated otherwise in Section 11-31-30: Temporary Uses; and

5. The proposed site, if undeveloped, contains sufficient land area to allow the temporary use to occur, including sufficient room for parking, traffic movements, and structures associated with the temporary use.

D. **Permit duration, extensions and revocation.**

1. ***Duration.*** A Temporary Use Permit must not exceed the duration established for the use, and if no duration is established for the use, the duration of the temporary use permit will be limited to 90 days per calendar year.

2. ***Occurrence.*** No more than three (3) temporary uses may occur on one property per calendar year.

3. ***Extensions.*** The Zoning Administrator may extend a temporary use permit as follows:

a. One time for a maximum of 30 additional calendar days per calendar year.

b. Any extension beyond the extension granted by the Zoning Administrator as set forth above must be processed as a Special Use Permit and approved by the Board of Adjustment.

c. When considering an extension of a Temporary Use Permit, the Zoning Administrator, or Board of Adjustment, may impose reasonable conditions deemed necessary to achieve the findings for a Temporary Use Permit listed above. The conditions may include but need not be limited to: regulation of vehicular ingress and egress and traffic circulation; regulation of dust control surfaces; regulation of lighting; regulation of hours of operation; submission of final plans to ensure compliance with conditions of approval, and such other conditions as the Zoning Administrator or Board of Adjustment may deem appropriate.

4. ***Revocation.*** The Zoning Administrator may revoke a Temporary Use Permit at any time, if the use no longer satisfies the criteria required by Section 11-70-4(C) or poses a threat to public health, safety, or welfare.

(Ord. No. 5759, § 10, 12-8-22)

11-70-5: SPECIAL USE PERMIT

A. **Special Use Permit (SUP).** A SUP is a discretionary permit issued by the Zoning Administrator or Board of Adjustment.

B. **Uses Subject to Special Use Permits.** Uses requiring a SUP are established in the use tables in Chapters 4 through 11.

C. **Permit Requirements.** Permit requirements for some uses requiring a SUP are provided in Chapter 31, Standards for Specific Uses and Activities.

D. **Permit Application and Procedures.** The procedures for review and consideration of a SUP are as provided in the Chapter 67, Common Procedures, except a citizen participation plan and report is not required.

E. **Required Findings.** A SUP shall only be granted if the approving body determines that the project as submitted or modified conforms to all of the following criteria. It if is determined that it is not possible to make all of the required findings, the application shall be denied. The specific basis for denial shall be established in the record.

1. Approval of the proposed project will advance the goals and objectives of and is consistent with the policies of the General Plan and any other applicable City plan and/or policies;

2. The location, size, design, and operating characteristics of the proposed project are consistent with the purposes of the district where it is located and conform with the General Plan and with any other applicable City plan or policies;

3. The proposed project will not be injurious or detrimental to the adjacent or surrounding properties in the area, nor will the proposed project or improvements be injurious or detrimental to the neighborhood or to the general welfare of the City; and

4. Adequate public services, public facilities and public infrastructure are available to serve the proposed project.

F. **Revocation of Special Use Permits.** A Special Use Permit granted pursuant to this Chapter may be suspended, revoked, or modified by the Zoning Administrator, after holding a public hearing to determine whether any condition, stipulation, or term of the approval of the Use Permit has been violated. At least 30-days' notice shall be public hearing, and all of the noticing and hearing requirements of Chapter 67 shall apply.

11-70-6: COUNCIL USE PERMITS

A. **Council Use Permits (CUP).** A CUP is a discretionary permit issued by the City Council after review and recommendation by the Planning & Zoning Board.

B. **Uses Subject to Council Use Permits.** Uses requiring a CUP are established in the use tables in Chapters 4 through 11.

C. **Permit Application and Procedures.** The procedures for review and consideration of a CUP are as provided in the Chapter 67, Common Procedures.

D. **Review Criteria.** A CUP shall only be granted if the approving body determines that the project as submitted or modified conforms to all of the following criteria. It if is determined that it is not possible to meet all of the review criteria, the application shall be denied. The specific basis for denial shall be established in the record.

1. Approval of the proposed project will advance the goals and objectives of and is consistent with the policies of the General Plan and any other applicable City plan and/or policies:

2. The location, size, design, and operating characteristics of the proposed project are consistent with the purposes of the district where it is located and conform with the General Plan and with any other applicable City plan or policies;

3. The proposed project will not be injurious or detrimental to the adjacent or surrounding properties in the area of the proposed project or improvements in the neighborhood or to the general welfare of the City; and

4. Adequate public services, public facilities and public infrastructure are available to serve the proposed project.

E. **Revocation of Council Use Permits.** Any CUP granted under this Chapter may be revoked if any of the conditions or terms of such permit are violated or if any law or ordinance is violated in connection therewith.

1. ***Initiation of Proceeding.*** The City Council, by its own action, or following a recommendation from the Planning & Zoning Board or Zoning Administrator, may initiate revocation proceedings.

2. ***Public Notice.*** Notice that the possible revocation of the Council Use Permit has been scheduled for hearing before the City Council shall be made pursuant to the requirements of Section 11-67-5, Notice of Public Hearing.

3. ***Public Hearing.*** The public hearing regarding the revocation of a use permit or variance shall be conducted pursuant to requirements of Section 11-67-6, Conduct of Public Hearings.

4. ***Decision of the City Council.*** The City Council may revoke the Council Use Permit if it makes any of the following findings:

a. That approval was obtained by means of fraud or misrepresentation of a material fact;

b. That the permittee or holder of the permit has failed to initiate construction or undertake the use in question within a 1 year period following the effective date of the permit or variance;

c. That the use in question has ceased to exist or has been suspended for 1 year or more;

d. That there is or has been a violation of or failure to observe the terms or conditions of the permit or variance, or the use has been conducted in violation of the provisions of this Ordinance, law or regulation; or

e. That the use to which the permit or variance applies has been conducted in a manner detrimental to the public safety, health and welfare, or so as to be a nuisance.

11-70-7: APPEALS; EXPIRATION AND EXTENSION; MODIFICATION

Conditional Use Permits are subject to the expiration, extension, modification, and appeal provisions of Chapter 67, Common Procedures and Chapter 77, Appeals.
(Ord. No. 5996, § 3, 3-9-26)

CHAPTER 71 RESERVED*

11-71-1—11-71-8: RESERVED

***Editor's note—**Ord. No. 5996, § 1, adopted March 9, 2026, repealed §§ 11-71-1—11-71-8, which pertained to Design Review. See Code Comparative Table for complete history.

CHAPTER 72 DEVELOPMENT INCENTIVE PERMITS

11-72-1: PURPOSE AND APPLICABILITY

This chapter is intended to provide incentives for the development of smaller tracts of land that would have difficulty meeting current development standards, having been bypassed by previous developments, and where land assembly either is not available, or is available only to a limited extent. Development Incentive Permits (DIPs) may be approved to allow incentives for the development of parcels that meet the following criteria:

A. **Area.**

1. Total area of the parcel does not exceed 2.5 net acres, and the parcel has been in its current configuration for more than 10 years; or

2. Total area of the site does not exceed 5 net acres and was created by the assembly of 2 or more individual, contiguous parcels.

B. **Utilities.** The parcel is served by, or has direct access to, existing utility distribution facilities.

C. **Surrounding Development.** The parcel is surrounded by properties within a 1,200 foot radius in which:

1. The total developable land area is not more than 25 percent vacant; and

2. Greater than 50 percent of the total numbers of lots or parcels have been developed 15 or more years ago.

11-72-2: INCENTIVES

Development incentives that may be granted by the DIP shall be limited to modifications to building setbacks, landscaping design, onsite parking, building height, right of way dedication, and other site development provisions contained in this Ordinance.

11-72-3: REQUIRED FINDINGS

A DIP shall not be granted unless the Zoning Administrator, acting at the Hearing Officer, or Board of Adjustment shall find upon sufficient evidence:

A. The proposed development is consistent with the General Plan, any other applicable Council adopted plans and/policies, and the permitted uses as specified in this Ordinance;

B. The incentives do not allow development that is more intense than the surrounding neighborhood; commensurate with existing development within a 1200 foot radius of the by-passed property; and,

C. The architectural elements, construction and landscape materials, and other site improvements of the proposed development meet the intent of the Design Standards of this Ordinance.

11-72-4: CONDITIONS OF APPROVAL

After the conclusion of the hearing, the Board of Adjustment or Zoning Administrator Hearing Officer may approve, modify, approve with conditions or deny the proposed Development Incentive Permits. The Board or Hearing Officer may condition any approval, and such conditions may include, but are not limited to: review by the Design Review Board; conditions to assure implementation of the submitted plan in accordance with the

Mesa General Plan, and other applicable policies and plans adopted by the City; conditions to achieve the purpose and intent of the requested zoning district; and conditions to achieve reasonable compatibility with the proposed use and adjacent land uses.

11-72-5: APPEALS; EXPIRATION AND EXTENSIONS; MODIFICATIONS

DIPs are subject to the expiration, extension, modification, and appeal provisions of Chapter 67, Common Procedures and Chapter 77, Appeals.
(Ord. No. 5996, § 3, 3-9-26)

CHAPTER 73 SUBSTANTIAL CONFORMANCE IMPROVEMENT PERMITS (SCIP)

11-73-1: PURPOSE AND APPLICABILITY

The purpose of this chapter is to establish a review process by which improvement standards required by this Ordinance can be incrementally installed on non-conforming sites when such sites are enlarged; buildings are replaced, extended or have additions constructed; or other site modification developed. The intent is to recognize existing site constraints, and work proportionately with the degree of improvement being sought by the applicant to also improve the property based upon the development standards adopted by the Ordinance, and therefore bring non-conforming developments into substantial compliance with this Ordinance through approval of a Substantial Conformance Improvement Permit (SCIP).

11-73-2: ALLOWED MODIFICATIONS

The only development requirements that may be modified in a SCIP are building setbacks, landscaping design, on-site parking, building height, right of way dedication, and other site development provisions, contained in this Ordinance.

11-73-3: REQUIRED FINDINGS

A SCIP shall not be granted unless the Zoning Administrator, acting as a Hearing Officer, or Board of Adjustment shall find upon sufficient evidence that:

A. The entire development site will be brought into substantial conformance. Substantial conformance shall mean physical improvements to the existing development site which constitute the greatest degree of compliance with this Ordinance that can be attained without causing or creating any of the following conditions:

   1. The demolition or reconstruction of existing buildings or other significant structures (except signs); or

   2. The cessation of the existing conforming use, or the preclusion of any other lawful, permitted use.

   3. The creation of new non-conforming conditions.

B. The improvements authorized by the SCIP will result in a development that is compatible with, and not detrimental to, adjacent properties or neighborhoods.

11-73-4: CONDITIONS OF APPROVAL

After the conclusion of the hearing, the Board of Adjustment or Zoning Administrator Hearing Officer may approve, modify, approve with conditions or disapprove the proposed Substantial Conformance Improvement Permit. The Board or Hearing Officer may condition any approval, and such conditions may include, but are not limited to: review by the Design Review Board; conditions to assure implementation of the submitted plan in accordance with the Mesa General Plan, and other applicable policies and plans adopted by the City; conditions to achieve the purpose and intent of the requested zoning district; and conditions to achieve reasonable compatibility with the proposed use and adjacent land uses.

11-73-5: APPEALS; EXPIRATION AND EXTENSIONS; MODIFICATIONS

SCIPs are subject to the expiration, extension, modification, and appeal provisions of Chapter 67, Common Procedures and Chapter 77, Appeals.
(Ord. No. 5996, § 3, 3-9-26)

CHAPTER 74 HISTORIC DISTRICT AND HISTORIC LANDMARK PROCEDURES*

11-74-1: PURPOSE

This Chapter establishes uniform procedures for the designation and regulation of Historic Landmarks and historic preservation overlay districts in order to preserve and maintain such landmarks and districts, consistent with the General Plan and State Law.

11-74-2: DESIGNATION OF HISTORIC PRESERVATION DISTRICTS AND HISTORIC LANDMARKS

Upon compliance with the minimum criteria established in Section 11-23-4, Criteria for Historic Districts (HD) and Landmarks (HL), for the establishment of an HD or HL Overlay District, an application for such overlay may be made following the requirements for a zoning amendment as set forth in Chapter 76, Amendments to Zoning Map.

A. **Eligible Applications.** In addition to the requirements of Chapter 76 and the payment of the fee as specified in the fee schedule adopted by the City Council, the application must include the following items:

1. An application for the HD Overlay District must include a petition with signatures of a minimum of 50% plus one (1) of the number of owners within the boundaries of the proposed Historic District, and who also control at least 50% of the property area to be included in the Historic District.

2. An application for the HL Overlay District must include either:

   a. A petition with signatures of a minimum of 50% plus one of the owners within the boundaries of the Historic Landmark, and who also control 50% of the property area to be included in the proposed Historic Landmark; or,

   b. A petition of at least 50 qualified electors residing within the City of Mesa.

***Editor's note**—Previously, Chapter 74 derived from Ord. No. 5472, 11-6-18.

B. **Review of Application.** When an application is deemed complete, the Historic Preservation Officer (HPO) shall proceed with the review process specified in this Ordinance. A hearing shall be scheduled before the Historic Preservation Board (HPB) within 30 days of the application being deemed complete. Following review and recommendation by the Historic Preservation Board the application shall be reviewed by the Planning & Zoning Board at their next available meeting. Following review and recommendation by the Planning & Zoning Board the application will be presented to the City Council at its next available meeting.

C. **Posted Notice.** Notice of the public meeting of the Historic Preservation Board shall be posted on the property in question at least 15 days in advance of the said meeting. A notice of the time and place and purpose of the meeting shall be published at least one (1) time in the local newspaper of the City, not less than 15 days prior to the hearing. It shall not be the responsibility of the City to maintain the posting once erected.

D. **Minutes.** Minutes of the meeting will be kept and findings of the Historic Preservation Board forwarded to the Planning & Zoning Board. Copies of the minutes will be kept with the permanent record of the application.

E. **Council Authority to Remove Property from a Proposed Designation.** The City Council shall not include any property within a proposed Historic District or a proposed Historic Landmark when the owner has objected in writing or at a public hearing to such a designation, and may remove any property from a proposed designation if the owner of record has not responded to a request for comments on the proposed rezoning and designation as a Historic District or Historic Landmark. The City intends that these designations be voluntary and acceptable to affected property owners.

F. **Procedure to Remove Property from Adopted District.** The procedure to remove the Historic Preservation Zoning District or Historic Landmark Zoning District designation shall be the same procedure specified by this Ordinance to establish a Historic District or Historic Landmark overlay.

11-74-3: CERTIFICATES OF APPROPRIATENESS

A. **Certificate of Appropriateness Required.** Activities, such as, but not limited to, changes to or installation of items listed below to be performed on or in connection with any building, structure, site, included in an HD or HL Overlay District shall require a Certificate of Appropriateness.

1. Additions
2. Awnings or canopies
3. Carports; garages
4. Decks
5. Doors, door frames
6. Driveways
7. Exterior walls; fencing
8. Fire escapes, exterior stairs, exterior elevators, and ramps for the handicapped

9. Painting of historically unpainted surfaces including wood, stone, brick, terra cotta, concrete and marble

10. Parapet walls

11. Pool & Pool Cages

12. Porch and balcony railings or decorative detailing

13. Roofs; skylights

14. Screen windows and doors; windows and window frames

15. Siding

16. Signs

B. **Submittal Requirements for a Certificate of Appropriateness.** Alteration, new construction, and rehabilitation, to an existing structure involving items listed in Subsection A of Section 11-74-3 on a site located within a proposed or approved HD or HL Overlay District shall require submittal to the Historic Preservation Officer (HPO) of the following items:

1. An application, on such form(s) and accompanied by such fee(s) as may be adopted. Applications may be obtained in the Office of Historic Preservation.

2. Photographs of the existing property;

3. Drawings, to approximate scale, of the site plan, floor plan(s) and elevations of the proposed work, indicating materials and color scheme;

4. If signage is part of the proposed work, drawings, to approximate scale, showing size and location of proposed signage, type of lettering to be used, and indication of color and type of illumination, if any; and

5. Any other information that the HPO may reasonably deem necessary to review the proposed work.

C. **Review Procedures.** The following procedures will be used for review of applications for Certificate of Appropriateness:

1. Within 10 City Business days of receiving the application for a Certificate of Appropriateness, the Historic Preservation Officer shall determine whether approval may be given for a building or a demolition permit, or shall provide written findings as to why the clearance was not approved. The decision of the Historic Preservation Officer shall be based upon compliance of the request with the United States Secretary of the Interior's "Standards for Rehabilitation" appearing 36 CFR Part 68. Additional guidelines, as proposed by the Historic Preservation Board and approved by the City Council, may also be used by the Historic Preservation Officer, provided the guidelines are not inconsistent with the Secretary's Standards.

2. The Certificate of Appropriateness shall be effective from the time of issuance by the Historic Preservation Officer or the Historic Preservation Board until the expiration of the building permit obtained for the specified improvements. A Certificate of Appropriateness is effective for 2 years unless there is an active building permit.

D. **Ordinary Maintenance and Repair.**

1. Ordinary maintenance and repair of any exterior architectural feature of a designated Historic Landmark or a site within a HD or HL overlay zone shall be permitted, provided the maintenance does not change the material, design, or alter the features that contribute to the distinctive character and general appearance of the landmark or site.

2. A Certificate of Appropriateness shall not be required for ordinary maintenance and repair, in-kind replacement of materials or painting historic materials, which are currently painted (i.e. wood, brick, stone or stucco).

11-74-4: DEMOLITION PERMITS

A. **Proposed Districts or Landmarks.** For a period of 6 months from the date of application for a proposed HD or HL designation, demolition of structures and sites within an area shall not proceed except in conformance with the following:

1. An application for demolition must be submitted to the HPO.

2. The HPO shall consider the request and either approve or deny the request within 20 city business days.

3. If the building or structure is less than 40 years old and meets one (1) of the following circumstances the HPO shall approve the demolition:

a. The building or structure is determined not to contain historic or architectural significance; or,

b. The building or structure is determined not to essentially contribute to the historic features of the area.

4. If the building or structure is 40 years old or greater and/or the HPO finds that the conditions of #3 above are not met, the request for demolition shall be considered following the requirements of Subsection (B) below.

5. If the HD or HL overlay district is not approved by the City Council within 6 months of the application filing date, the HPO shall then approve the request for demolition.

B. **Approved Districts or Landmarks.** On properties with an approved HD or HL overlay district, a request for demolition shall be granted only if either of the following exists:

1. The Building Official, in conjunction with the HPO and the City Manager, determines that the building or structure is currently an imminent hazard to the public safety and repairs and/or renovation would be impractical; or,

2. The HPB determines that both of the following are found:

a. The building or structure is of minimal historic significance because of its location, conditions, modifications, or other factors; and,

b. Demolition of the building or structure would be inconsequential to the preservation of historic properties in the vicinity.

C. **Actions Subsequent to Denial of a Request for Demolition.** In the event a request for a demolition permit is denied for either a proposed or an existing district, issuance of a demolition permit by the Building Official will be delayed 180 from the effective date of the denial by the HPO. During the 180 day period the applicant may appeal the decision of the HPO to the HPB. In addition, the HPO, the HPB, and the applicant shall meet to attempt to negotiate and develop an agreement and/or plan to preserve the building or structure. The agreement and/or plan may include public and private financial assistance, consideration of alternative land uses and/or zoning districts, expansions or additions to the building or structure within its historical context, adaptive reuse of the site, or public or private purchase of the property. If no plan and/or agreement is achieved, a clearance to issue a demolition permit will be forwarded to the Building Official at the applicant's request any time after the prescribed 180 days are passed.

11-74-5: APPEALS

A. **Appeals from the HPO.** Decisions of the HPO with regards to interpretation of Overlay District Design Guidelines, Certificate of Appropriateness, and demolition requests may be appealed to the HPB. Appeals are subject to the appeal provisions of Chapter 77, Appeals and Section 11-67-12.

B. **Appeals from the HPB.** Decisions of the HPB are subject to the appeal provisions of Chapter 77, Appeals, and Section 11-67-12.

CHAPTER 75 AMENDMENTS TO GENERAL PLAN

11-75-1: PURPOSE AND APPLICABILITY

This Chapter establishes procedures for making changes to the General Plan as provided for in State Law when there are compelling reasons to do so as a result of changes in conditions or circumstances unforeseen at the time of adoption or last amendment of the General Plan. These circumstances include, but are not limited to, changes in State or Federal law and problems and opportunities that were unanticipated at the time of adoption or last amendment. This amendment process is not intended to relieve particular hardships nor to confer special privileges or rights upon any person, but only to make adjustments necessary in light of changed conditions or changes in public policy. In addition to the requirements of this Chapter, all General Plan amendments shall conform to the requirements of A.R.S. § 9-461.06 (Adoption and Amendment of General Plan).

11-75-2: INITIATION OF AMENDMENTS

Application for amendment of the Mesa General Plan designation applicable to a piece of property shall be made in the office of the Planning Division on an application form provided by the City. The application shall be accompanied by payment of the applicable fee. Pursuant to A.R.S. § 9-461.06, the City has adopted criteria for determining whether a proposed amendment is a "major amendment", in which case such amendments shall be presented at a public hearing held within twelve months after the proposal is made.
(Ord. No. 5928, § 25, 2-3-25)

11-75-3: PUBLIC NOTICE, HEARING AND REVIEW PROCEDURES

Any notice, public hearings and action regarding any amendment to the Mesa General Plan shall be in conformance with the requirements of A.R.S. § 9-461.06, including:

A. **Public Notice.** In addition to the procedures set forth in Chapter 67, Common Procedures, Public Notice of hearings by the Planning & Zoning Board and the City Council for General Plan amendments shall be given as required in A.R.S. § 9-461.06.

B. **Planning and Zoning Board: Public Hearing and Action.**

1. ***Public Hearing.*** All General Plan amendments shall be subject to two public hearings by the Planning & Zoning Board in conformance with the requirements of A.R.S. § 9-461.06, and which shall be conducted in conformance with the provisions of Chapter 67, Common Procedures.

2. ***Action.*** After the conclusion of the second hearing, the Planning & Zoning Board will forward a recommendation regarding the proposed General Plan amendment to the City Council for its consideration.

C. **City Council: Public Hearing and Action.**

1. ***Hearing.*** The City Council shall conduct a public hearing in conformance with the provisions of A.R.S. § 9-461.06 and Chapter 67, Common Procedures.

2. ***Action.*** After the conclusion of the hearing, the City Council may approve, modify, or disapprove the proposed amendment. Active applications may only be amended in compliance with Council adopted policy.

CHAPTER 76 AMENDMENTS TO ZONING MAP

11-76-1: PURPOSE AND APPLICABILITY

The purpose of this Chapter is to establish procedures, consistent with applicable state requirements, for making changes to the Official Zoning Map or a rezoning.
(Ord. No. 5996, § 1, 3-9-26)

11-76-2: INITIATION OF AMENDMENTS

An application to amend the Mesa Zoning Map or a rezoning shall be filed with the Planning Division on the application form provided by the City and shall be accompanied by the applicable fee.
(Ord. No. 5996, § 1, 3-9-26)

11-76-3: ORDINANCE CONDITION MODIFICATION

A. **Purpose and Applicability.** Because City Council sets land use policies that establish or modify zoning classifications that result in rezonings, amend the Mesa Zoning Map, or modify Council-adopted development plans, any alterations to those decisions, including conditions of approval or stipulations, require a rezoning and City Council approval. This Section:

1. Applies to plans, conditions of approval, and stipulations that were:

a. Adopted or approved by the City Council acting in its legislative capacity in conjunction with a zoning ordinance, rezoning, zoning amendment, or Council-adopted development plan; or

b. Incorporated into an adopted zoning ordinance or rezoning approval by reference.

2. Does not apply to plans, conditions of approval, or stipulations that were approved administratively by City staff or by a reviewing body acting in a non-legislative capacity.

B. **Ordinance Condition Modification.**

1. An Ordinance Condition Modification applies to conditions of approval that City Council adopted as part of an ordinance that established or modified a zoning classification(s), amendment to the Zoning Map, or Council-adopted development plan.

2. An Ordinance Condition Modification includes changes that:

   a. Add a new requirement, restriction, limitation, or obligation;

   b. Remove or modify existing requirement, restriction, limitation, or obligation; or

   c. Remove or modify a condition of approval adopted by ordinance or as part of a legislative act.

3. ***Rezoning Required.***

   a. An Ordinance Condition Modification is a legislative act that requires approval through the rezoning process, and is processed, noticed, heard, and decided through the public hearing procedures set forth in this Chapter.

   b. Development Plan Modifications, except those set forth in Section 11-76-3(B)(4), shall be deemed to comply with a Development Plan Condition.

4. ***Exception for Certain Development Plan Modifications.*** A proposed Development Plan Modification requires an Ordinance Condition Modification as identified in Chapter 11-69-5: Development Plan Modifications.

(Ord. No. 5996, § 1, 3-9-26)

11-76-4: PUBLIC NOTICE, HEARING AND REVIEW PROCEDURES

Public notice of hearings by the Planning and Zoning Board and the City Council for Zoning Map Amendments and zoning ordinance amendments shall be provided as specified in Chapter 67, Common Procedures and shall conform to the requirements of Sections 9-462.03 and 9-462.04 of Arizona Revised Statutes. A Citizen Participation Plan must be submitted, implemented, and documented in the Citizen Participation Report required by Section 11-67-3, Citizen Participation.
(Ord. No. 5996, § 1, 3-9-26)

11-76-5: PUBLIC HEARING

All Zoning Map Amendments and zoning ordinance amendments shall be subject to a minimum of one (1) public hearing by the Planning and Zoning Board and to one (1) public hearing by the City Council prior to adoption.
(Ord. No. 5996, § 1, 3-9-26)

11-76-6: PLANNING AND ZONING BOARD ACTION

A. **Hearing.** The Planning and Zoning Board shall conduct a public hearing in conformance with the provisions of Chapter 67 (Common Procedures).

B. **Action.** After the conclusion of the hearing, the Planning and Zoning Board may recommend approval, approval with conditions, or denial to City Council.

(Ord. No. 5996, § 1, 3-9-26)

11-76-7: CITY COUNCIL ACTION

A. **Hearing.** The City Council shall conduct a public hearing in conformance with the provisions of Chapter 67 (Common Procedures).

B. **Action.** After the conclusion of the hearing, the City Council may approve, modify, approve with conditions, or deny the proposed Zoning Map Amendment or zoning ordinance amendment.

C. **Conditions.** Conditions of approval may include, but are not limited to:

1. Future Development Plan Review;
2. Conditions to ensure implementation of the submitted plan in accordance with the Mesa General Plan, and other applicable policies and plans adopted by the City;
3. Conditions to achieve the purpose and intent of the requested zoning district;
4. Conditions to achieve reasonable compatibility with the proposed use and adjacent land uses;
5. Conditions permitted by Section 11-69-7; and
6. Additional or different approval processes than those normally required by this Ordinance.

(Ord. No. 5996, § 1, 3-9-26)

CHAPTER 77 APPEALS*

11-77-1: PURPOSE AND APPLICABILITY

This Chapter establishes uniform procedures for appeals of final decisions by the Historic Preservation Officer, Planning Director, Zoning Administrator, Zoning Administrator Hearing Officer, Board of Adjustment, Planning and Zoning Board, Planning Hearing Officer, Design Review Board, and the Historic Preservation Board.

***Editor's note**—Previously, Chapter 77 derived from Ord. No. 5472, 11-6-18.

11-77-2: RIGHTS OF APPEAL

Appeals may be filed by the applicant, by the owner of property, or by any other person aggrieved by a decision that may be appealed under the provisions of this Ordinance.

11-77-3: TIME LIMITS

Unless otherwise specified in State or federal law, all appeals except of Board of Adjustment decisions shall be filed in writing within 15 calendar days after the date of the action being appealed. Appeals of Board of Adjustment decisions shall be filed within 30 calendar days of the Board rendering its decision. Calendar days are inclusive of all business days, non-business days, weekends and holidays. In the event the time limit for appeals ends on a non-business day, holiday or weekend, the time limit shall be extended to the close of business of the next business day.

11-77-4: PROCEDURES

A. **Proceedings Stayed by Appeal.** The timely filing of an appeal may stay all City-related proceedings in the matter appealed including, but not limited to, the issuance of demolition permits, building permits, and business licenses. Proceedings in which an appeal has been filed to County, State or Federal Courts or jurisdictions may only be stayed by action from those jurisdictions.

B. **Filing of Appeals.**

1. ***Appeals of Specified Decisions.*** All decisions of the Historic Preservation Officer, Planning Director, Zoning Administrator acting in an administrative or Hearing Officer role, Planning and Zoning Board, Planning Hearing Officer, Design Review Board, and Historic Preservation Board may be appealed to the appropriate body as specified in Chapter 67 by filing a written notice of appeal. The notice of appeal shall set forth, in concise language, the following:

    a. Date of appeal;

    b. Name of person filing the appeal (appellant) and any individual representing appellant;

    c. Address to which notices shall be sent;

    d. Contact information such as telephone number and/or e-mail address of appellant or representative to be contacted regarding the appeal;

    e. Action or decision being appealed and the date of such action or decision;

    f. Description of requested outcome if the appeal is granted;

    g. Grounds for appeal; and,

    h. Address and case number involved.

2. ***Appeals of Board of Adjustment Decisions.*** Any person aggrieved by the decision of the Board of Adjustment, or officer or department of the City of Mesa affected by a decision of the Board may, at any time within 30 days after the Board has rendered its decision, file a complaint of special action in Superior Court to review the Board's decision. Filing the complaint does not stay proceedings on the decision sought to be reviewed, but the court may, on application, grant a stay, and on final hearing, may affirm or reverse, in whole or in part, or modify the decision reviewed.

C. **Public Notice.** Notice of an appeal heard by the City Council, Planning and Zoning Board, Board of Adjustment, or Design Review Board, shall be:

1. Provided in the same manner required in Chapter 67, for the appropriate hearing body, and

2. Provided to all persons who spoke on the matter at any prior hearings on the same matter, if such persons provided their names and addresses at the time they spoke at the prior hearing.

D. **Appeals to the Board of Adjustment.**

1. Appeals to the Board shall be made in conformance with A.R.S. § 9-462.06.

2. ***Board of Adjustment Action.*** The Board of Adjustment shall conduct a public hearing de novo, and shall review all relevant information, including but not limited to the application, plans, related project materials that were the subject of the original decision, any additional materials as may be presented at the appeal hearing, and any written correspondence submitted after the appeal has been filed, information observed by a site visit if made, and may take one of the following actions:

   a. Make a decision; or

   b. Remand the matter to the Zoning Administrator to cure a deficiency in the record or proceedings.

3. ***Board of Adjustment Decision.*** The Board of Adjustment may approve, approve with conditions, or deny an appeal, and may prescribe reasonable conditions in connection with its decision as may be necessary in order to fully carry out the purpose and intent of the provisions of this Zoning Ordinance.

E. **Appeals to the Design Review Board.**

1. ***Design Review Board Action.*** The Design Review Board shall conduct a public meeting and review the appeal, the record, including the application, plans, related project materials that were the subject of the original decision, any additional materials as may be presented at the meeting, and any written correspondence submitted after the appeal has been filed, and may take one of the following actions:

   a. Make a decision; or

   b. Remand the matter to the Planning Director to cure a deficiency in the record or proceedings.

2. ***Design Review Board Decision.*** The Design Review Board may approve, approve with conditions, or deny an appeal, and may prescribe reasonable conditions in connection with its decision as may be necessary in order to fully carry out the purpose and intent of the provisions of this Zoning Ordinance.

F. **Appeals to the Planning and Zoning Board.**

1. ***Planning and Zoning Board Action.*** The Planning and Zoning Board shall conduct a public hearing, and review the appeal, the record, including the application, plans, related project materials that

were the subject of the original decision, any additional materials as may be presented at the appeal hearing, and any written correspondence submitted after the appeal has been filed, and may take one of the following actions:

a. Make a decision; or

b. Remand the matter to the Planning Director to cure a deficiency in the record or proceedings.

2. ***Planning and Zoning Board Decision.*** The Planning and Zoning Board may approve, approve with conditions, or deny an appeal, and may prescribe reasonable conditions in connection with its decision as may be necessary in order to fully carry out the purpose and intent of the provisions of this Zoning Ordinance.

G. **Appeals to the Historic Preservation Board.**

1. ***Historic Preservation Board Action.*** The Historic Preservation Board shall conduct a public meeting and review the appeal, the record, including the application, plans, related project materials that were the subject of the original decision, any additional materials as may be presented at the appeal hearing, and any written correspondence submitted after the appeal has been filed, and may take one of the following actions:

a. Make a decision; or

b. Remand the matter to the Historic Preservation Officer to cure a deficiency in the record or proceedings.

2. ***Historic Preservation Board Decision.*** The Historic Preservation Board may approve, approve with conditions, or deny an appeal, and may prescribe reasonable conditions in connection with its decision as may be necessary in order to fully carry out the purpose and intent of the provisions of this Zoning Ordinance.

H. **Appeals to the City Council.** The City Council shall review the appeal, the record, and any written correspondence submitted after the appeal has been filed, and at the Council's discretion, review any additional materials that may be presented at the meeting. After the review, the Council may take one of the following actions:

1. Conduct a public hearing, after which it may affirm, reverse, or modify the previous decision; or

2. Remand the matter to the Planning and Zoning Board, Planning Hearing Officer, Design Review Board, or Historic Preservation Board (as deemed appropriate) for additional review and consideration, or to cure a deficiency in the record or proceedings.

11-77-5: STANDARDS OF REVIEW

When reviewing any decision on appeal, the same standards and criteria shall apply as were required for the original decision.

CHAPTER 78 ANNEXATIONS

11-78-1: PURPOSE

This Chapter establishes uniform procedures for annexation of property not within the City limits and subsequent zoning of that property.

11-78-2: INITIATION OF ANNEXATIONS

Applications for annexation shall be made in the office of the Planning Division on a form provided by the city and shall be accompanied by the required fee.

11-78-3: PROCEDURES

A. **Process.**

1. Requests for annexation by any owner of property located outside the City limits shall be made in the Planning Division in accordance with Section 11-67-3, Application Forms, Supporting Materials and Fees.

2. Upon compliance with State statutes and City regulations and processes, annexation applications shall be forwarded to the City Council for the public hearing required by A.R.S. § 9-471.A.3 prior to release of the annexation petition.

3. If the City Council accepts the request for annexation, official annexation petitions shall be prepared by staff to be circulated by the requesting property owners following the public hearing for the release of the petition.

4. When all provisions of A.R.S. § 9-471 et seq. have been complied with, the City Council shall hold the required public hearings to consider an ordinance authorizing annexation of the property into the City.

B. **Zoning of Annexed Properties.** Areas under consideration for annexation may be zoned at the time of annexation or within 6 months after the annexation to City zoning districts comparable to, but not greater in intensity than the County zoning applicable to the property immediately preceding annexation. In the event that City zoning is not established with annexation, the area shall be considered to be zoned as shown on the Official Maricopa County Geographic Information Systems (GIS) Portal Zoning Map of the Maricopa County Planning and Zoning Commission until City zoning is applied to the property.

C. **Construction and Building Permits.**

1. Maricopa County Building Permits validly issued pursuant to County requirements not more than 60 days prior to the effective date of annexation, shall be accepted by the Building Official as valid permits for a period of 60 days after the effective date of annexation. If construction has not commenced on or before the 60th day after the effective date of annexation, a City building permit shall be required.

2. For buildings under construction with a valid building permit issued by Maricopa County prior to the effective date of an annexation ordinance, a City building permit shall not be required, but the

Building Official shall require that buildings constructed under such County building permit shall be structurally safe and shall conform to pertinent County zoning regulations in effect at the time the County permit was issued.

11-78-4: EXISTING USES AND STRUCTURES

A. Any use or activity conducted contrary to County zoning regulations at the effective date of annexation and not constituting a legal non-conforming use under the County zoning regulations shall not be considered a legal non-conforming use by the City.

B. Any use or activity conducted in conformance with County zoning regulations at the effective date of annexation and not in conformance with this Ordinance shall be considered a legal non-conforming use by the City.

C. Any use, activity or structure that is existing at the effective date of annexation, under a Maricopa County Use Permit with a time limit imposed, may continue for the remainder of the time limit. Any extension of this time limit requires City approval of a Conditional Use Permit pursuant to Chapter 70, Conditional Use Permits, of this Ordinance. The type of Conditional Use Permit required shall be determined according to the regulations for the City zoning district where the use is located. If, after the expiration of the Maricopa County Use Permit, no Conditional Use Permit is specified or approved for that activity, then the property shall require rezoning to a conforming zoning district permitting the activity, or the activity may continue only as a legal nonconforming use, subject to the requirements of Chapter 36, Nonconforming Uses, Structures, and Lots.

D. Any legal lot or parcel of land duly recorded in the Maricopa County Recorder's Office prior to the effective date of this Ordinance and having an area, width, depth, or street frontage less than that required in the Zoning District regulations in which such lot or parcel is situated, shall be deemed to be a lot and may be used as a building site, provided that all other regulations for the City of Mesa Zoning District shall apply.

E. Building setbacks established by Maricopa County overlay zoning or Special Use Permit, for residential developments including manufactured home parks and subdivisions, shall be enforced. Conventional residential developments without county overlay zoning or Special Use Permit shall have setbacks as specified in this Zoning Ordinance.

CHAPTER 79 ENFORCEMENT

11-79-1: PURPOSE

This Chapter establishes the responsibilities of various departments, officials and public employees of the City to enforce the requirements of this Title and sets forth the procedures the City will use to identify, abate, remove, and enjoin those uses, structures, or buildings that are deemed to be in violation of this Ordinance.

11-79-2: COMMENCEMENT OF AN ACTION

A. The City Manager or designee is authorized to commence an enforcement action under this Ordinance by issuing a citation for civil sanctions under this Chapter. They may also seek the issuance of a complaint by the Mesa City Prosecutor for criminal prosecution of habitual offenders as defined in this Chapter.

B. Nothing in this Section shall preclude City employees from seeking voluntary compliance with the provisions of this Ordinance, or from enforcing this Ordinance through notices of violations, warnings or through other informal devices designed to achieve compliance in the most efficient and effective manner under the circumstances.

C. Violations of this Ordinance are in addition to any other violation established by law, and this Ordinance shall not be interpreted as limiting the penalties, actions, or abatement procedures which may be taken by the City or other persons under other laws, ordinances, or rules.

D. Any owner or occupant who causes, permits, facilitates, aids, or abets any violation of this Ordinance, or who fails to perform any act or duty required pursuant to this Ordinance, is subject to the enforcement provisions of this Ordinance. The owner, occupant, or responsible party may be individually and jointly responsible for the violations, the prescribed civil or criminal sanctions, and for abating the violations and for any associated costs and fees.

11-79-3: CIVIL VIOLATIONS AND CITATION

A. A civil action for violations of this Ordinance may be commenced by issuance of a citation.

B. The citation will be substantially in the form established by the City Manager or Designee. It shall advise the responsible party of the violation(s) committed, either by written description of the violations or by designation of the City Code Section that was violated. The Civil Hearing Officer may permit amendments to the citation if substantial rights of the responsible party are not thereby prejudiced. The citation shall direct the responsible party to pay the civil sanction and all applicable fees as specified in Section 11-79-4 within the time period specified on the citation. The citation shall be served by personal service, or by serving the citation pursuant to A.R.S. § 9-500.21.

C. The responsible party shall, within the time period specified on the citation, either pay the fine or appear in person or through an authorized representative before the Clerk of the Civil Hearing Officer and admit or deny the allegations contained in the citation. If the responsible party timely pays the fine and fees, either in person or by mailing payment to the City, the allegations in the citation shall be deemed admitted and such person shall be deemed responsible for having committed the offense(s) described in the citation. If the responsible party appears and admits the allegations, the Civil Hearing Officer shall enter judgment against the responsible party in the amount of the fine assessed. If the responsible party appears and denies the allegations contained in the citation, the Civil Hearing Officer shall set the matter for hearing.

D. The responsible party shall, within 10 days of the issuance of the citation, either pay the civil sanction and the fees, or appear in person or through an attorney before the Civil Hearing Officer and admit or deny the allegations contained in the citation. If the responsible party pays the civil sanction and the fees, either in person or by mailing payment to the City, the allegations in the citation shall be deemed admitted and such person shall be deemed responsible for having committed the offense(s) described in the citation. If the responsible party appears and admits the allegations, the Civil Hearing Officer shall enter judgment

against the responsible party in the amount of the civil sanction, plus any applicable fees designated in Section 11-79-4. If the responsible party appears and denies the allegations contained in the citation, the Civil Hearing Officer shall set the matter for hearing.

E. If a person served with a citation fails to pay the fine and to appear on or before the time directed to appear or at the time set for hearing by the Civil Hearing Officer, the allegations in the complaint shall be deemed admitted and the Civil Hearing Officer shall enter a finding of responsible and a judgment for the City and impose the appropriate sanction.

F. All proceedings before the Civil Hearing Officer shall be informal and without a jury, except that testimony shall be given under oath or affirmation. The technical rules of evidence do not apply, except for statutory provisions relating to privileged communications. If the allegations in the citation are denied, the City is required to prove violations of this Ordinance by a preponderance of the evidence. No pre-hearing discovery shall be permitted except under extraordinary circumstances, as determined by the Civil Hearing Officer. The Civil Hearing Officer is authorized to make such orders as may be necessary or appropriate to fairly and efficiently determine the truth and decide the case at hand.

G. If, after hearing all evidence the Civil Hearing Officer determines the responsible party is responsible for the alleged violation, and after entering a judgment of responsible and setting a civil sanction as specified in section 11-79-4(A), the Civil Hearing Officer may order a compliance hearing and set a date for such hearing. Upon presentation of evidence and testimony by the Code Compliance Officer at the compliance hearing that the violation(s) specified in the complaint has been abated, the Civil Hearing Officer may reduce all or a portion of the civil sanction commensurate with the cost borne by the defendant to achieve compliance or the Civil Hearing Officer may vacate the previous judgment and dismiss the citation(s).

H. An appeal from final judgments of the Civil Hearing Officer may be taken pursuant to the Arizona Rules of Procedure for Special Actions.

I. Any civil fine or judgment for civil sanctions taken pursuant to this Article shall constitute a lien against the real property of the responsible party that may be perfected by recording a copy of the judgment with the Maricopa County Recorder. Any judgment for civil fines or penalties pursuant to this Chapter may be collected as any other civil judgment.

11-79-4: CIVIL PENALTIES

A. Any owner, occupant or responsible party who is found responsible for a civil violation of this Ordinance, whether by admission, default, or after a hearing, shall pay a civil sanction of not less than $150 or more than $1,500, per citation. A second finding of responsibility within 24 months of the commission of a prior violation of this Chapter shall result in a civil sanction of not less than $250 or more than $2,500. A third finding of responsibility within 36 months of the commission of a prior violation of this Chapter shall result in a civil sanction of not less than $500 or more than $2,500. In addition to the civil sanction, the responsible party shall pay the applicable fees and charges set forth in the City's Development and Sustainability Department (Code Compliance) Schedule of Fees and Charges, and may be ordered to pay any other applicable fees and charges.

B. The 36 month provision of subsection (A) of this Section shall be calculated by the dates the violations were committed. The owner, occupant, or responsible party shall receive the enhanced sanction upon a

finding of responsibility for any violation of this Chapter that was committed within 36 months of the commission of another violation for which the owner or responsible party was convicted or was otherwise found responsible, irrespective of the order in which the violations occurred or whether the prior violation was civil or criminal.

C. Each day in which a violation of this Ordinance continues, or the failure to perform any act or duty required by this Ordinance or by the Civil Hearing Officer continues, shall constitute a separate civil offense.

11-79-5: HABITUAL OFFENDER

A. A person who commits a violation of this Ordinance after previously having been found responsible for committing 3 or more civil violations of this Ordinance within a 24 month period — whether by admission, by payment of the fine, by default, or by judgment after hearing — shall be guilty of a class 1 criminal misdemeanor. The Mesa City Prosecutor is authorized to file a criminal class 1 complaint in the Mesa City Court against habitual offenders. For purposes of calculating the 24-month period under this paragraph, the dates of the commission of the offenses are the determining factor.

B. Upon conviction of a violation of this Subsection, the Court may impose a sentence or incarceration not to exceed 6 months in jail; or a fine not to exceed $2,500, exclusive of penalty assessments prescribed by law; or both. The Court shall order a person who has been convicted of a violation of this Section to pay a fine of not less than $500 for each count upon which a conviction has been obtained. A judge shall not grant probation to or suspend any part or all of the imposition or execution of a sentence required by this Subsection except on the condition that the person pay the mandatory minimum fines as provided in this Subsection.

C. Every action or proceeding under this Section shall be commenced and prosecuted in accordance with the laws of the State of Arizona relating to criminal misdemeanors and the Arizona Rules of Criminal Procedure.

11-79-6: FAILURE TO PROVIDE EVIDENCE OF IDENTITY

A person who fails or refuses to provide evidence of his or her identity to a duly authorized agent of the City upon request, when such agent has reasonable cause to believe the person has committed a violation of this Ordinance, is guilty of a misdemeanor. Evidence of identity under this Section shall consist of a person's full name, residence address, and date of birth.

CHAPTER 80 VARIANCES

11-80-1: PURPOSE AND APPLICABILITY

Variances are authorized as set forth in Arizona Revised Statutes A.R.S. § 9-462.06 and as set forth in this Ordinance.

11-80-2: PROCEDURES

Applications for variances shall be submitted, reviewed, and heard in accordance with the procedures described in Chapter 67.

11-80-3: REQUIRED FINDINGS

A variance shall not be granted unless the Zoning Administrator, when acting as a Hearing Officer, or Board of Adjustment shall find upon sufficient evidence make a determination:

A. There are special circumstances applicable to the property, including its size, shape, topography, location, or surroundings, and

B. That such special circumstances are pre-existing, and not created by the property owner or appellant; and

C. The strict application of the zoning ordinance will deprive such property of privileges enjoyed by other property of the same classification in the same zoning district; and

D. Any variance granted will assure that the adjustment authorized shall not constitute a grant of special privileges inconsistent with the limitations upon other properties in the vicinity and zone in which such property is located.

11-80-4: USE VARIANCES PROHIBITED

No variance shall be granted to permit a use not otherwise permitted in the applicable zoning district.

11-80-5: CONDITIONS OF APPROVAL

In approving a variance, the Zoning Administrator, acting as a Hearing Officer, or Board of Adjustment may impose reasonable conditions necessary to insure that the variance shall not constitute a grant of special privilege inconsistent with the limitations upon other properties in the vicinity and the zoning district in which the subject property is located, including but not limited to the following:

A. Ensure that the project conforms in all significant respects with the General Plan and with any other applicable plans or policies adopted by the City;

B. Achieve the general purposes of this Ordinance and the specific purposes of the zoning district in which the site is located;

C. Protect the public health, safety, and general welfare; or

D. Ensure operation and maintenance of the use in a manner compatible with existing and potential uses in the surrounding area.

11-80-6: APPEALS; EXPIRATION AND EXTENSIONS; MODIFICATIONS

Variances are subject to the expiration, extension, modification, and appeal provisions of Chapter 67, Common Procedures and Chapter 77, Appeals.
(Ord. No. 5996, § 3, 3-9-26)

CHAPTER 81 ADAPTIVE REUSE PERMIT

11-81-1: PURPOSE

The purpose of the Adaptive Reuse Permit is to promote and facilitate the development and redevelopment of underutilized or abandoned buildings in accordance with A.R.S. § 9-462.10.

It is in the public interest to maximize efficiency of public services, infrastructure, and facilities as a means to achieve focused growth and provide a cost-effective method of municipal service delivery. The intent of the adaptive reuse permit is to:

A. Provide relief from certain development standards as incentives to stimulate re-investment and reuse of existing buildings.

B. Reduce, simplify, or eliminate the processes otherwise required to modify existing buildings, structures, and sites.

C. Permit flexibility in the use of buildings to expand their economic options.

(Ord. No. 5904, § 5, 12-9-24; Ord. No. 5946, § 1, 7-1-25)

11-81-2: APPLICABILITY

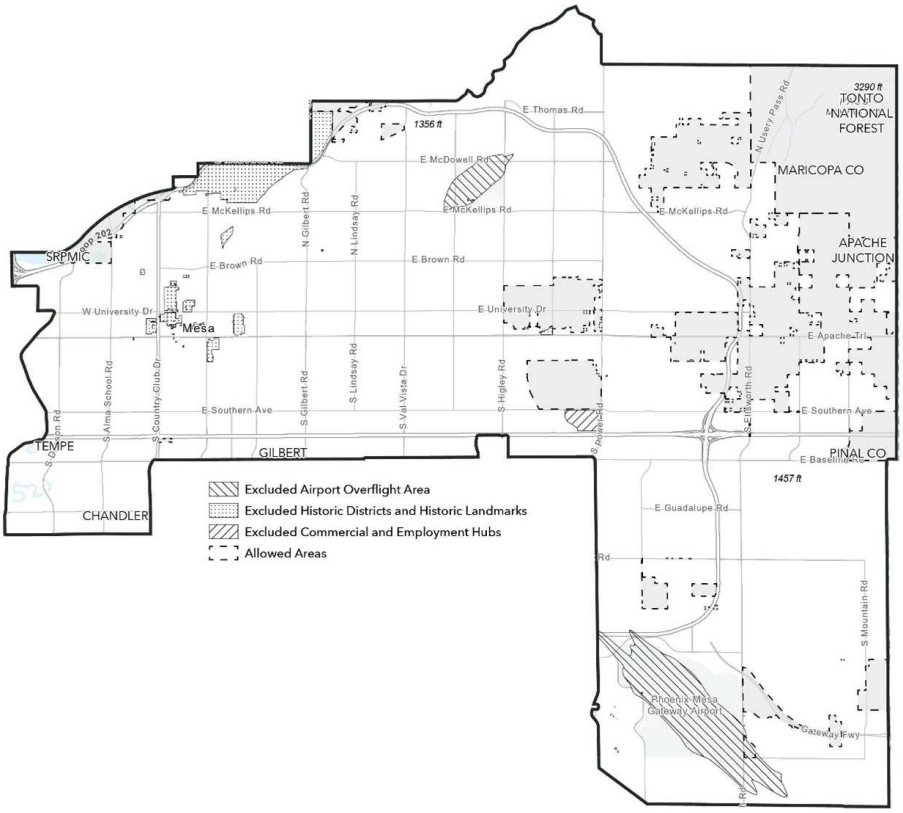
A. **Multiple Residence Reuse.**

1. All or part of an existing building located on an existing commercial, office, or mixed-use parcel, as defined in Chapter 87 of this Ordinance, that meets the eligibility requirements in Section 11-81-3 below may receive an adaptive reuse permit for the building to be reused to provide for multiple residence reuse.

2. Allows for the partial or complete demolition or renovation of an existing building.

B. **Adaptive Reuse.**

1. All or a part of an existing building located on an existing commercial, office, or mixed-use parcel, as defined in Chapter 87 of this Ordinance that meets the eligibility requirements in Section 11-81-3 below may receive an Adaptive Reuse Permit for the building to be reused for adaptive reuse.



2. Allows for the partial, but not the complete, demolition of an existing building.

(Ord. No. 5904, § 5, 12-9-24; Ord. No. 5946, § 1, 7-1-25)

11-81-3: ELIGIBILITY

To qualify for an Adaptive Reuse Permit, a parcel must meet all of the following criteria:

A. **Location.** The parcel must be located within an allowed area identified in Map 11-81-3.A below.

MAP 11-81-3.A

B. **Parcel Size.** The parcel or parcels of land must be at least one (1) acre but no more than 20 acres in size.

C. **Building Condition and Vacancy.** The parcel must contain a building in a state of disrepair or have at least 50% vacancy in the total leasable square footage.

D. **Affordable Housing.** Ten percent (10%) or more of the total dwelling units must be set aside for moderate-income housing, low-income housing, or any combination thereof, for a period of at least 20 years from the issuance of an initial certificate of occupancy for the building. For the purpose of calculating the 10%, the required number of dwelling units will be rounded up to the next whole number.

(Ord. No. 5904, § 5, 12-9-24; Ord. No. 5946, § 1, 7-1-25)

11-81-4: APPLICATION CAP, TRACKING, AND REPORTING

A. **Application Cap.** No more than 457 existing commercial, office, or mixed-use parcels may be redeveloped for multiple residence reuse or adaptive reuse through an adaptive reuse permit.

B. **Tracking.** The City shall track the number of parcels redeveloped pursuant to this Chapter and shall stop accepting Adaptive Reuse Permit applications when the total number of the following equals 457 parcels:

1. The number of parcels redeveloped using an Adaptive Reuse Permit; plus

2. The number of parcels with approved Adaptive Reuse Permits that have not yet completed construction; plus

3. The number of parcels with pending Adaptive Reuse Permit applications.

C. **Affordable Housing Requirements and Reporting.**

1. ***Restrictions or Guarantees.*** In order to ensure compliance with A.R.S. § 9-462.10, as a condition of final approval of an Adaptive Reuse Permit, the applicant shall provide to the City a deed restriction, restrictive covenant, or other restriction or guarantee that may be approved by the City, ensuring that 10% of the housing units shall be reserved for moderate-income housing, low-income housing, or any combination thereof for a period of at least 20 years from the issuance of a certificate of occupancy.

2. ***Annual report.*** To ensure continued compliance with A.R.S. § 9-462.10, for a period of twenty years, the property owner of a parcel with an Adaptive Reuse Permit shall annually provide the City with a report demonstrating that 10% of the units are reserved for moderate-income housing, low-income housing, or a combination thereof.

3. ***Redevelopment.*** In the event an Adaptive Reuse Permit building is approved for redevelopment to a different use through the City's normal processes and procedures, the requirements in this Subsection (C) shall no longer be applicable and the City shall, upon request of the property owner, acknowledge release of the restriction or guarantee required in Subsection (C)(1).

(Ord. No. 5904, § 5, 12-9-24; Ord. No. 5946, § 1, 7-1-25)

11-81-5: LAND USE REGULATIONS

Multiple residence reuse and adaptive reuse do not have to comply with Section 11-31-31 (Residential Uses in Commercial Districts) and are not subject to any public hearing.
(Ord. No. 5904, § 5, 12-9-24; Ord. No. 5946, § 1, 7-1-25)

11-81-6: DEVELOPMENT STANDARDS FOR AN ADAPTIVE REUSE PERMIT

A. **Multiple Residence Reuse Development Standards.**

1. ***Determining Applicable Development Standards.***

a. Development standards for multiple residence reuses shall be based on the development standards for the zoning district with the greatest density in the City of Mesa within one (1) mile of the parcel being redeveloped that is either a multiple residence base zoning district or a zoning district that allows residential development.

b. If there are no multiple residence base zoning districts or zoning districts that allow residential development in the City of Mesa within one (1) mile of the parcel being redeveloped, the development standards for multiple residence reuses shall be based on the development standards for either the geographically closest zoning district in the City of Mesa with the greatest density that is either a multiple residence base zoning district or allows residential development.

c. A multiple residence reuse project constructed pursuant to this chapter cannot be used to determine the development standards applicable to a subsequent multiple residence reuse.

2. ***Specific Height Restrictions.***

a. Except as allowed by Subsection (C) below, the maximum building height for a multiple residence reuse building shall not exceed five stories; and

b. Portions of multiple residence projects, located within 100 feet of a single residence use or zoning district are limited to two (2) stories in height.

B. **Adaptive Reuse Development Standards.** The development standards for adaptive reuses shall be based on the development standards for the underlying zoning district in accordance with Article 2 and Article 4 of this Ordinance.

C. **Non-Conforming Structures—Multiple Residence Reuse and Adaptive Reuse.**

1. ***Non-conforming Building Height.*** Existing buildings that exceed the maximum building height permitted by the underlying zoning district for multiple residence use and that receive an adaptive reuse permit may remain at their existing height may be expanded to the maximum allowable density for the proposed multiple residential use.

2. ***Non-conforming Yards.*** Existing buildings with a yard setback less than the minimum required yard for the proposed multiple residential use may remain in their current location unless easements are located within the setback areas.

(Ord. No. 5904, § 5, 12-9-24; Ord. No. 5946, § 1, 7-1-25)

11-81-7: APPEALS; EXPIRATION AND EXTENSIONS; MODIFICATIONS

A. **Appeals.** Adaptive Reuse Permits are subject to the appeal provisions of Chapter 77, Appeals, in this Ordinance.

B. **Expiration and Extensions.** An Adaptive Reuse Permit is not subject to the expiration and extension requirements of Section 11-67-9 of this Ordinance.

C. **Modifications to an Approved Adaptive Reuse Permit.** Proposed modifications to an approved Adaptive Reuse Permit, including change of use or modifications to approved plans, shall be submitted to the Planning Division for review to ensure conformance with the eligibility criteria in this Chapter and required processes.

(Ord. No. 5904, § 5, 12-9-24; Ord. No. 5946, § 1, 7-1-25; Ord. No. 5996, § 3, 3-9-26)

CHAPTERS 82—85 (RESERVED FOR FUTURE USE)

[The next page is T11:799]

ARTICLE 8
LAND USE CLASSIFICATIONS AND DEFINITIONS

CHAPTER 86 USE TYPES

11-86-1: PURPOSE AND APPLICABILITY

A. Use classifications describe one (1) or more uses of land having similar characteristics, but do not list every use or activity that may appropriately be within the classification.

B. If a proposed use or activity is not explicitly listed in this Chapter, the Zoning Administrator has the authority to:

1. Determine whether the proposed use or activity is within or equivalent to a use specifically listed in this Chapter; or

2. Not within or equivalent to any use specifically listed in this Chapter.

C. When making its determination, the Zoning Administrator may consider among other things whether the characteristics and impact are similar to, and substantially compatible with, a use specifically listed in this Chapter (e.g., scale, function, noise, traffic); any incompatibilities or greater impacts; how the proposed use functions within the building; future reuse or redevelopment of the building; and industry terms or definitions in other Chapters of the Zoning Ordinance.

D. If the Zoning Administrator determines a proposed use or activity is within or equivalent to a use listed in this Chapter the proposed use or activity will be treated in the same manner as the use it is deemed to be within or equivalent to, and the same requirements for the use under the applicable zoning district will apply such as Land Use Regulations, Development Regulations including Standards for Specific Uses and Activities, and Administrative Regulations.

E. If the Zoning Administrator determines that a proposed use is not within or equivalent to a use listed in this Chapter the proposed use is not allowed unless otherwise permitted in an approved plan as set forth in Article 2 or an approved Overlay Zone as set forth in Article 3.

(Ord. No. 5962, § 2, 9-22-25)

11-86-2: RESIDENTIAL USE CLASSIFICATIONS

Assisted Living Center: An Assisted Living Facility that provides resident rooms or dwelling units to 11 or more residents.

Assisted Living Facility: A residential care institution, including adult foster care, that is licensed by the State of Arizona to provide supervisory care services, personal care services or directed care services on a continuing basis.

Assisted Living Home: An Assisted Living Facility that provides resident rooms for five (5) to ten (10) residents.

Boarding House. A residential dwelling for five (5) or more unrelated individuals in which the owner(s) provides lodging for compensation. A boarding house is occupied by individuals where rent is charged separately for the

individual rooms or partitioned areas and may or may not be equipped with kitchen facilities and congregate dining facilities. The term shall include similar congregate living arrangements but does not include community residences, hotels, motels, residential inns or bed and breakfasts.

Community Residence. A community residence is a residential living arrangement for five to ten individuals with disabilities, excluding staff, living as a family in a single dwelling unit who are in need of the mutual support furnished by other residents of the community residence as well as the support services, if any, provided by the staff of the community residence. Residents may be self-governing or supervised by a sponsoring entity or its staff, which provides habilitative or rehabilitative services related to the residents' disabilities. A community residence seeks to emulate a biological family to foster normalization of its residents and integrate them into the surrounding community. Its primary purpose is to provide shelter in a family-like environment. Medical treatment is incidental as in any home. Supportive interrelationships between residents are an essential component. Community residence includes sober living homes and assisted living homes but does not include any other group living arrangement for unrelated individuals who are not disabled nor any shelter, rooming house, boarding house or transient occupancy.

Family Community Residence. A community residence is a relatively permanent living arrangement with no limit on the length of tenancy as determined in practice or by the rules, charter, or other governing documents of the community residence. The minimum length of tenancy is typically a year or longer.

Transitional Community Residence. A community residence that provides a relatively temporary living arrangement with a limit on length of tenancy less than a year that is measured in weeks or months, as determined either in practice or by the rules, charter, or other governing document of the community residence.

Comprehensive Youth Residence. A dwelling or dwellings maintained by an organization for the purpose of caring for ten (10) or more minor children, separated from their parents or legal guardians, through the use of on-site resident staff. Such staff are not related to the minor children by blood, marriage or adoption, and the children are not considered legal wards of the staff. The facility shall be licensed by the State of Arizona.

Correctional Transitional Housing Facility (CTHF). A supervised residential center where individuals who are completing a sentence, reside for a defined period of time for counseling, job placement assistance, and similar services that assist in transitioning from institutional to community living. A CTHF is not exempt from the tax imposed under Mesa City Code § 5-10-445. The term shall include any boarding house, dormitory, or apartment building or other dwelling when developed, promoted, advertised, or operated as a CTHF, but shall not include community residences, or any facility providing counseling or other services to individuals who do not reside on the premises. The maximum number of residents is limited to 30.

Day Care Group Home. A facility, the primary use of which is a residence, in which care of children through the age of 12 years is regularly provided for compensation for periods of less than 24 hours per day.

Small Day Care Group Home. Home daycare for less than 5 children full- or part-time.

Large Day Care Group Home. Home day care for not less than 5 children full-time and part-time but no more than 10 children full-time and part-time.

Group Foster Home. A home licensed by the State of Arizona as a group foster home that is maintained by an individual or individuals having the care or control of five (5) to ten (10) minor children who are not: (1) related to such individuals or to each other by blood, marriage, or adoption; or (2) legal wards of such individuals.

Home Occupations: An ancillary use in any Residence or Mixed-Use district which:

A. Is clearly incidental to a residence use;

B. Is subordinate to the purpose of the residence use;

C. Contributes to the comfort, convenience, or necessity of occupants in the residence use;

D. Is located on the same lot or parcel as the residence use served;

E. Includes swimming lessons, babysitting, and fine arts instruction, each for 5 or fewer persons;

F. Includes door-to-door and telephone solicitation;

G. Includes uses and activities that can be conducted entirely indoors without negatively impacting the residential character of the neighborhood or health, safety, and welfare of neighbors; and

H. Excludes on-site exchange of sold or bartered goods (exceptions made for occasional and infrequent exchanges), on-site vehicle repair as a commercial use, commercial warehousing or storage - indoor or outdoor, non-resident employees working in the home, or manufacturing of products using hazardous materials or equipment not typically found in household settings.

Manufactured Home Park. An approved residential development as shown in the records of the Planning Division in which individual spaces are provided for the placement of a Manufactured Home for dwelling unit purposes, whether or not a charge is made for such accommodation.

Manufactured Home Subdivision. A residential subdivision as shown in the records of the Maricopa County Recorder's Office, designed and approved in accordance with planned area development and subdivision regulations, in which individual ownership of a lot is permitted for the placement of a Manufactured Home for dwelling unit purposes.

Middle Housing: Duplexes, Triplexes, Fourplexes, and Townhouses that are compatible in scale, form and character with single residence dwelling units and that contain two or more attached, detached, stacked or clustered homes.

Multiple Residence. Two or more primary dwelling units on a single lot. Types of Multiple Residence dwellings include duplexes, garden apartments, and multi-story apartment buildings. Each dwelling unit is designed for occupancy by one family.

Recreational Vehicle Park. An approved residential development as shown in the records of the Planning Division in which individual spaces are provided for parking of 1 Recreational Vehicle per space for temporary portable housing purposes, whether or not a charge is made for such accommodation.

Recreational Vehicle Subdivision. A residential subdivision as shown in the records of the Maricopa County Recorder's Office, designed and approved in accordance with planned area development and subdivision regulations, in which individual ownership of a lot is permitted for the placement of a Recreational Vehicle for temporary portable housing purposes.

Single Residence. A dwelling unit designed for occupancy by one family and located on a separate lot or parcel from any other unit (except Accessory Dwelling Units, where permitted). This classification includes individual manufactured housing units and individual Recreational Vehicles when used as residences in RV Parks and Subdivisions. A Single Residence may also be referred to as a "Primary Residence" (see Chapter 87 of this Title).

Detached. A Single Residence dwelling unit that is not attached to any other dwelling unit (except accessory living quarters, where permitted).

Attached. A Single Residence dwelling unit, located singly on a lot or parcel, but attached through common vertical walls to one or more dwellings on abutting lots or parcels.

Accessory Dwelling Unit (ADU). An attached or detached self-contained living unit that is on the same lot or parcel as a Single-Family dwelling of greater square footage than the Accessory Dwelling Unit, that includes its own sleeping and sanitation facilities and kitchen area.

Skilled Nursing Facility. A health care institution other than a Hospital, Assisted Living Facility or Nursing and Convalescent Home which provides resident beds or dwelling units, supervisory care services, personal care service, directed care services or health-related services for persons on a temporary basis. Skilled Nursing Facilities do not emulate a family and normalization and community integration are not among their core goals. This classification does not include Community Residences, Assisted Living Homes, Assisted Living Centers, or Social Service Facilities.
(Ord. No. 5592, § 6, 12-1-20; Ord. No. 5632, § 5, 7-8-21; Ord. No. 5814, § 7, 10-16-23; Res. No. 12269, § 17, 9-23-24; Ord. No. 5883, § 3, 10-7-24; Ord. No. 5989, § 6, 12-8-25; Ord. No. 5996, § 4, 3-9-26)

11-86-3: PUBLIC AND SEMI-PUBLIC USE CLASSIFICATIONS

Cemeteries. Land dedicated to burial of the dead, including mausoleums, crypts, and accessory sales, and maintenance facilities, but not including Funeral Parlors, Mortuaries or Crematories.

Clubs and Lodges. Meeting, recreational, or social facilities of a private or nonprofit organization primarily for use by members or guests. This classification includes union halls and social clubs.

Colleges and Trade Schools, Public or Private. Post-secondary educational institutions providing curricula of a general, religious or professional nature, typically granting recognized certification of professional training and/or accredited degrees, including Conference Centers and academic retreats associated with such institutions. This classification includes business and computer schools, management training, technical and Trade Schools, but excludes personal instructional services, such as music lessons. Incidental training or instruction done in conjunction with an on-site business use permitted as a primary activity in the zoning district shall not be considered a business or Trade School.

Colleges or Universities. Public or Private. A post-secondary institution of higher learning that grants associate and/or bachelor's degrees, and may also have research facilities and/or professional schools that grant master and/or doctoral degrees. This classification includes community colleges that grant associate degrees, and/or certificates of completion in business or technical fields.

Commercial Trade Schools. Public or Private. Schools established to provide teaching of clerical, managerial, or artistic skills, such as accounting, data processing, or computer repair. This classification excludes establishments providing training for activities that are not otherwise allowed in the zoning district.

Industrial Trade Schools. Public or Private. Schools offering training in industrial trades, such as welding or metal fabrication.

Community Center. Any noncommercial facility established primarily for the benefit and service of the population of the community in which it is located. Examples include youth centers and senior centers. This classification excludes community facilities operated in conjunction with an approved residential or commercial use that are not generally available to the public.

Community Garden. Area of land managed and maintained by a group of individuals to grow and harvest food crops and/or non-food, ornamental crops, such as flowers, for personal or group use, consumption or donation. The area may be divided into separate plots for cultivation by one or more individuals or may be farmed collectively by members of the group and may include common areas maintained and used by group members.

Cultural Institutions. Public or non-profit institutions engaged primarily in the display or preservation of objects of interest in the arts or sciences that are open to the public on a regular basis. This classification includes performing arts centers for theater, dance, and events; libraries; museums; historical sites; aquariums; art galleries; and zoos and botanical gardens.

Day Care Centers. Establishments providing non-medical care for persons on a less than 24-hour basis other than Day Care Group Homes. This classification includes nursery schools, preschools, and day care facilities for children or adults, and any other day care facility licensed by the State of Arizona.

Government Offices. Administrative, clerical, or public contact offices of a government agency, including postal facilities, together with incidental storage and maintenance of vehicles. This classification excludes equipment service centers and similar facilities that primarily provide maintenance and repair services and storage facilities for vehicles and equipment (See Public Maintenance Facilities).

Hospitals and Clinics. Facilities providing medical, surgical, psychiatric, or emergency medical services to sick or injured persons. This classification includes facilities for inpatient or outpatient treatment, including substance-abuse programs as well as training, research, and administrative services for patients and employees.

Clinics. Facilities other than hospitals where patients are admitted for examinations and treatment by one (1) or more physicians, on either a "walk-in" or "appointment" basis. Patients are treated on an outpatient basis and are not admitted for overnight treatment or observation. This classification includes emergency medical services offered exclusively on an out-patient basis, such as urgent care centers, as well as licensed facilities offering substance abuse treatment, blood banks and plasma centers.

Hospitals. Institutions providing medical and surgical care to the sick or injured, including operating facilities and beds for patients to stay overnight. These establishments may include nursing facilities, extended care facilities, physical therapy, gift shops, retail pharmacies, employee housing, temporary housing for patient families, cafeterias or restaurants, and related uses operated primarily for the benefit of patients, staff, and visitors.

Nursing and Convalescent Homes. Establishment that provide 24-hour medical, convalescent or chronic care to individuals who, by reason of advanced age, chronic illness or infirmity, are unable to care for themselves, and is licensed as a skilled nursing facility by the State of Arizona, including but not limited to, rest homes and convalescent hospitals, but not Residential Care, Hospitals, or Clinics.

Parks and Recreation Facilities, Public. Parks, playgrounds, recreation facilities, trails, wildlife preserves, and related open spaces, all of which are noncommercial. This classification also includes playing fields, courts, gymnasiums, swimming pools, picnic facilities, tennis courts, and golf courses, botanical gardens, as well as related food concessions or community centers within the facilities.

Places of Worship. A facility for religious worship and incidental religious education and offices, and may include private schools (Grades: Kindergarten through 12) for primary or secondary education, as defined in this section. This classification includes churches, temples, and other facilities used primarily for religious services or activities.

Public Safety Facilities. Facilities providing public-safety and emergency services, including police and fire protection and emergency medical services, with incidental storage, and maintenance facilities.

Public Maintenance Facilities. Facilities providing maintenance and repair services for vehicles and equipment and materials storage areas. This classification includes equipment service centers, and similar public facilities.

Schools, Public or Private. Facilities for primary or secondary education, including public schools, charter schools, and private institutions having curricula of general academic education consistent with the academic requirements of the State of Arizona, including kindergarten, elementary, junior high school, and high school, including accessory facilities traditionally associated with schools, such as athletic stadia, cafeterias and libraries.

Social Service Facility. A facility where the primary purpose is to provide either: 1) on-site food, clothing, shelter, employment or other related services, such as counseling for employment, or other services for individuals with limited ability for self care; or 2) alcohol, drug, or substance abuse or other treatment or medical programs or services, such as detoxification, where shelter is incidental and of limited duration. The term includes homeless

shelters, charity dining facilities, rescue missions, day labor hiring centers, substance abuse and detoxification center, and similar facilities, but does not include care facilities such as community residence, group foster home, correctional transitional housing facilities, nursing and convalescent homes, or assisted living facilities.
(Ord. No. 5814, § 8, 10-16-23)

11-86-4: COMMERCIAL USE CLASSIFICATIONS

Animal Sales and Services:

Small Animal Day Care. Facilities in which owners of small animals, principally dogs and cats, may contract with the operator for the keeping of pets for short, temporary periods, usually 1 day or less, but occasionally up to a week or so while the pet owner(s) are unable to care for the animals.

Boarding Stables. Facilities in which equines are kept for sale or hire to the general public. Breeding, boarding, or training of equines may also be conducted.

Kennels. Facilities for keeping, boarding, training, breeding or maintaining for commercial purposes, 4 or more dogs, cats, or other household pets not owned by the kennel owner or operator. This classification excludes pet shops and animal hospitals that provide 24-hour accommodation of animals receiving medical or grooming services.

Pet Stores. Retail sales of animals and/or services, including grooming, for animals on a commercial basis. This classification excludes dog walking and similar pet care services not carried out at a fixed location, and excludes pet supply stores that do not sell animals or provide on-site animal services.

Veterinary Services. Medical care for small and large animals on a commercial basis. This classification allows 24-hour accommodation of animals receiving medical or grooming services but does not include kennels. This classification includes animal hospitals and clinics providing services such as medical examinations, diagnosis, and procedures; dispensing of medications for animals; providing surgical procedures, and space for supervised recuperation from medical and surgical procedures.

Artists' Studios. Work space for artists and artisans, including individuals practicing one of the fine arts or performing arts, or skilled in an applied art or craft. There must be incidental retail sales of items produced on the premises. This category may also include incidental instruction.

Automobile/Vehicle Sales and Services:

Accessory Automobile Rentals. Rental and/or parking of automobiles or light-duty sport utility vehicles as an accessory use to a motel, hotel or resort, or an individual tenant space in a Group C-O-I Development with a limited number of on-site parking spaces available to the rental office. Incidental maintenance of vehicles takes place off site at another facility.

Automobile Rentals. Rental of automobiles, including storage and incidental maintenance.

Automobile/Vehicle Sales and Leasing. Sales or leasing of automobiles, motorcycles, trucks, and motor homes, including storage and incidental maintenance.

Automobile/Vehicle Repair, Major. Repair of automobiles, trucks, motorcycles, motor homes, and recreational vehicles, including the sale, installation, and servicing of related equipment and parts, generally on an overnight basis. This classification includes auto repair shops, body and fender shops, transmission shops, but excludes vehicle dismantling or salvaging and tire re-treading or recapping.

Automobile/Vehicle Service and Repair, Minor. The service and repair of automobiles, light-duty trucks, and motorcycles, including the sale, installation, and servicing of related equipment and parts. This classification includes quick-service oil, tune-up, wheel and brake shops, muffler shops, auto glass services, and tire sales and installation, where repairs are made or service provided in enclosed bays and no vehicles are stored overnight. This classification excludes establishments providing engine repair, body and fender work, vehicle painting, or towing. It also excludes repair of heavy trucks or construction vehicles.

Automobile/Vehicle Washing. Washing, waxing, vacuuming, or cleaning of automobiles or similar light vehicles, including automatic, self-serve and hand washing facilities.

Large Vehicle and Equipment Sales, Service, and Rental. Sales, servicing, rental, fueling, and washing of large trucks, trailers, tractors, and other equipment used for personal, construction, agricultural, or landscape gardening activities. Includes large vehicle operation training facilities. Sales of new or used automobiles or trucks are excluded from this classification.

Service Station. Establishments primarily engaged in retailing automotive fuels or retailing these fuels in combination with activities, such as providing repair services; selling automotive oils, replacement parts, and accessories; and/or providing food services.

Towing and Impound. Establishments primarily engaged in towing light or heavy motor vehicles, both local and long distance. These establishments may provide incidental services, such as vehicle storage and emergency road repair services (For automobile/dismantling, See Salvage and Wrecking).

Banks and Financial Institutions. Financial institutions providing retail banking services. This classification includes only those institutions engaged in the on-site circulation of money, including credit unions and businesses offering check-cashing facilities, but excluding non-chartered financial institutions.

With Drive-Through Facilities. Establishments providing banking services to patrons remaining in automobiles.

Banquet and Conference Centers. Facilities that are rented for short-term events such as weddings, receptions, banquets, and conferences, as a principal business activity (not accessory to another use such as a Place of Worship or Community Center).

Bed and Breakfast Inns. Establishments providing not more than 5 guest rooms for lodging on a less than weekly basis typically in a converted single-residence or multi-residence dwelling, with incidental eating and drinking service provided from a single kitchen for lodgers and residents only.

Boat and recreational vehicle storage: The parking, keeping or placing of boats, recreational vehicles, and associated equipment, such as but not limited to, utility trailers, jet skis, snow mobiles, and all terrain vehicles.

Building Materials and Services. Retailing, wholesaling, or rental of building supplies or equipment. This classification includes lumber yards, tool and equipment sales or rental establishments, and includes establishments devoted principally to taxable retail sales to individuals for their own use. This definition does not include hardware stores less than 10,000 square feet in floor area (See Retail Sales) or Contractors' Yards.

Business Services. Establishments that primarily provide goods and services to other businesses on a fee or contract basis, including printing and copying, blueprint services, advertising and mailing, equipment rental and leasing, office security, custodial services, photo finishing, and model building.

Commercial Entertainment. Provision of spectator entertainment to the general public including live and motion picture theaters and concert halls. This category excludes cabarets, nightclubs, and similar establishments providing entertainment incidental to food or beverage sales.

Commercial Recreation. Provision of participant or spectator recreation to the general public, excluding public park and recreation facilities.

Small-Scale. This classification includes small, generally indoor facilities, that occupy less than 50,000 square feet of building area, such as billiard parlors, bowling centers, card rooms, dance studios, exercise studios, health clubs, yoga studios, dance halls, small tennis club facilities, poolrooms, and amusement arcades. This classification may include restaurants, snack bars, and other incidental food and beverage services to patrons.

Large-Scale. This classification includes large, generally outdoor facilities such as amusement and theme parks, sports stadiums and arenas, racetracks, amphitheaters, driving ranges, golf courses (daily fee), as well as indoor facilities with more than 50,000 square feet in building area, including fitness centers, gymnasiums, handball, racquetball, or large tennis club facilities; ice or roller skating rinks; swimming or wave pools; miniature golf courses; archery or indoor shooting ranges; riding stables; campgrounds; stables, etc. This classification may include restaurants, snack bars, and other incidental food and beverage services to patrons.

Drive-Up ATM/Teller Window. Banking and financial institutions that provide a driveway approach for automobiles to serve patrons remaining in an automobile, including stand-alone automated teller machines, automated teller machines attached to a building or structure, and service windows on a building or structure.

Drive-Thru Facilities. Establishments providing goods, food, or beverage through a window to patrons remaining in an automobile, where an order menu board is present, and orders are placed on site via an order menu box or via an employee taking orders from patrons remaining in an automobile.

Eating and Drinking Establishments. Businesses primarily engaged in serving prepared food and/or beverages for consumption on or off the premises.

Bars/Clubs/Lounges. Businesses serving beverages for consumption on the premises as a primary use including on-sale service of alcohol including beer, wine, or mixed drinks, and businesses that do not meet the definition of Full Service or Limited Service Restaurants.

Coffee Shops/Cafes. Establishments that primarily serve nonalcoholic beverages, such as coffee, juices, or sodas for consumption on or near the premises, or a specialty snack, such as ice cream, frozen yogurt, cookies or popcorn.

Restaurants, Bar and Grill. Restaurants providing food and beverage services to patrons who order and are served while seated and pay after eating. Takeout service may be provided, but a minimum of 30 percent of gross sales revenue must be from serving food to be classified as a Bar and Grill Restaurant.

Restaurants, Full Service. Restaurants providing food and beverage services to patrons who order and are served while seated and pay after eating. Takeout service may be provided, but a minimum of 40 percent of gross sales revenue must be from serving food to be classified as a Full Service Restaurant.

Restaurants, Limited Service. Establishments where food and beverages may be consumed on the premises, taken out, or delivered, but where no table service is provided. This classification includes cafeterias,

fast-food restaurants, carryout sandwich shops, limited service pizza parlors and delivery shops, self-service restaurants, snack bars and takeout restaurants. A minimum of 40 percent of gross sales revenue must be from serving food to be classified as a Limited Service Restaurant.

With Outdoor Eating Areas. Provision of outdoor dining facilities on the same property or in the adjacent right-of-way.

Farmer's Markets. Periodic outdoor sales activities involving the display and sale of fresh produce and locally produced food and beverage items, including baked goods, jams, jellies, and similar food products. The display and sale of hand-crafted artisan items may be considered as an accessory activity, provided the principal activity remains the sale of the food- or produce-related items.

Food and Beverage Sales. Retail sales of food and beverages for off-site preparation and consumption. Typical uses include food markets, groceries, and retail bakeries.

Convenience Market. Retail establishments that sell a limited line of groceries, prepackaged food items, tobacco, magazines, and other household goods, primarily for off-premises consumption and typically found in establishments with long or late hours of operation and a relatively small building of less than 5,000 square feet. This classification includes small retail stores located on the same parcel as or operated in conjunction with a service station.

General Market. Retail markets of food and grocery items for offsite preparation and consumption. Typical uses include supermarkets and specialty food stores, such as bakeries, candy, nuts and confectionary stores, meat or produce markets, vitamins and health food stores, cheese stores and delicatessens.

Funeral Parlors and Mortuaries. An establishment primarily engaged in the provision of services involving the care, preparation, or disposition of the human dead and conducting memorial services. Typical uses include a crematory, columbarium, mausoleum, or mortuary.

Hotels and Motels. Establishments offering lodging to transient patrons. These establishments may provide additional accessory services, such as conference and meeting rooms, restaurants, bars, or recreation facilities available to guests and the general public. This classification includes motor lodges, motels, hostels, extended-stay hotels, and tourist courts, but does not include rooming houses, boarding houses, or private residential clubs. The lengths of stays for the majority of guests at these facilities are for 30 days or less.

Laboratories. Establishments providing medical, dental or optical laboratory services or establishments providing photographic, analytical, research and development or testing services.

Large Commercial Development. Commercial buildings over 25,000 square feet or commercial centers with four (4) or more buildings whose combined gross floor area exceeds 25,000 square feet.

Light Fleet-Based Services. Passenger transportation services, local delivery services, medical transport, and other businesses that rely on fleets of 3 or more vehicles with rated capacities less than 10,000 lbs. This classification includes parking, dispatching, and offices for taxicab and limousine operations, ambulance services, non-emergency medical transport, local messenger and document delivery services, home cleaning services, and similar businesses. This classification does not include towing operations (See Automobile/Vehicle Sales and Service, Towing and Impound) or taxi or delivery services with 2 or fewer fleet vehicles on-site (See Business Services).

Live/Work Unit. A commercial or industrial unit with incidental residential accommodations that includes adequate working space reserved for office, commercial or industrial use and regularly used for such purpose by 1 or more persons residing in the unit and a cooking space and sanitary facilities in conformance with applicable building standards. Up to 67 percent of the gross floor area may be reserved for and primarily used as living space.

Maintenance and Repair Services. The on-site maintenance or repair of office machines, household appliances, furniture, and similar items. This classification excludes maintenance and repair of vehicles or boats (See Automotive Sales and Services) and personal apparel (See Personal Services).

Non-chartered Financial Institution. A business, other than a state or federally chartered bank, credit union, mortgage lender or savings and loan association, that offers check cashing services and loans for payment of a percentage fee. Specifically included are check cashing businesses that charge a percentage fee for cashing a check or negotiable instrument, and payday loan businesses that make loans upon assignment of wages received. Excluded are retail uses in which a minimum of 70 percent of the floor area of the store is devoted to the display or sale of merchandise.

Off-Track Betting Establishment. A facility in which simulcasting of horse or dog racing events held away from the facility are shown for the purpose of pari-mutuel wagering. Operated as an accessory use to an Eating and Drinking Establishment as defined by this Chapter, and authorized by issuance of an Off-site Teletrack Wagering Permit in accordance with ARS 5-112, and AAD R19-2-401 and following.

Offices:

> **Business and Professional.** Offices of firms or organizations providing professional, executive, management, administrative or design services, such as accounting, architectural, computer software design, engineering, graphic design, interior design, investment, and legal offices.
>
> **Medical and Dental.** Offices where medical and dental services are provided by physicians, dentists, chiropractors, optometrists, and similar medical professionals. This classification also includes physical therapy, massage therapy, and counseling services related to medical conditions.

Parking, Commercial. Surface lots and structures offering parking to the public for a fee when such use is not incidental to another activity.

Personal Services. Provision of recurrently needed services of a personal nature. This classification includes barber and beauty shops, seamstresses, tailors, dry cleaning agents (excluding large-scale bulk cleaning plants), shoe repair shops, self-service laundries, photocopying and photo finishing services, and travel agencies.

Pick-Up Window Facilities. Establishments providing goods, food, or beverage through a window to patrons remaining in an automobile, where orders are placed by patrons before reaching the establishment, and where no order menu board, order menu box, or employee taking orders from patrons remaining in an automobile are present. An establishment which uses parking spaces designated for pick up orders rather than a window are not included in this definition.

Plant Nurseries and Garden Centers. Establishments primarily engaged in retailing nursery and garden products - such as trees, shrubs, plants, seeds, bulbs, and sod - that are predominantly grown elsewhere. These establishments may sell a limited amount of a product they grow themselves. This classification includes wholesale and retail nurseries offering plants for sale.

Retail Sales:

General. The retail sale or rental of merchandise not specifically listed under another use classification. This classification includes department stores, clothing stores, furniture stores, pet supply stores, small hardware stores (with 25,000 square feet or less of floor area), and businesses retailing the following goods: toys, hobby materials, handcrafted items, jewelry, cameras, photographic supplies and services (including portraiture and retail photo processing), medical supplies and equipment, pharmacies, electronic equipment, records, sporting goods, kitchen utensils, hardware, appliances, antiques, art galleries, art supplies and services, paint and wallpaper, carpeting and floor covering, office supplies, bicycles, video rental, and new automotive parts and accessories (excluding vehicle service and installation). Retail sales may be combined with other services such as office machine, computer, electronics, and similar small-item repairs. This classification includes secondhand and wholesale stores.

Pawn Shops. A business in which a principal business activity involves advancing money on the security of pledged goods or purchasing tangible personal property on the condition that it may be redeemed or repurchased by the seller for a fixed or variable price within a fixed or variable period of time.

Swap Meets and Flea Markets. Occasional or periodic commercial activities held in an open area where: 1) groups of sellers rent space to display, barter or sell goods to the public; and/or 2) one or more sellers bring goods for auction to the public. A swap meet is composed of semi-enclosed or outdoor stalls, stands or spaces, and is distinguished from a farmer's market or craft fair in that the principal items sold, displayed or bartered at a swap meet are not fresh produce items, art items or handicrafts.

Tattoo and Body Piercing Parlors. Establishments whose principal business activity is one (1) or more of the following: 1) using ink or other substances that result in the permanent coloration of the skin through the use of needles or other instruments designed to contact or puncture the skin; or 2) creation of an opening in the body of a person for the purpose of inserting jewelry or other decoration. Exception: Piercing earlobes as an accessory or subordinate activity when done at a shop or store selling jewelry as primary activity.
(Ord. No. 5544, § 17, 12-9-19; Ord. No. 5593, § 12, 12-1-20; Ord. No. 5758, § 3, 12-8-22; Ord. No. 5813, § 3, 10-16-23)

11-86-5: EMPLOYMENT AND INDUSTRIAL USE CLASSIFICATIONS

Airport and Aircraft Facilities:

Aircraft Refueling Stations. Any facility used for storing flammable liquids, combustible liquids, liquefied flammable gas, or flammable gas, and/or the location of equipment used for dispensing such fuels into the tanks of aircraft, or storing transportable equipment that delivers such fuels to be dispensed where the aircraft is parked.

Aircraft Light Maintenance. The replacement of a pre-manufactured part, or repair of any part of an existing aircraft, including incidental painting and body work, conducted entirely within an enclosed building.

Airport Transit Station. A facility designed to facilitate the transfer of passengers to, from or between transit-oriented transportation systems at an Airport.

Airport-related Long Term Parking Lot. Commercial or non-commercial parking lots at Airports intended for the storage of the personal vehicles of Airport passengers or Airport employees for periods of time longer than 24-hours.

Heliports. An area designed for take-off and landing of helicopters, and including support buildings intended to support and facilitate this function.

Battery Energy Storage System (BESS). Electrochemical devices that charge or collect energy from the grid or a generation facility, store that energy, and then discharge that energy at a later time to provide electricity or other grid services. A BESS includes battery cells; thermal, battery, and energy management systems; inverters; and related control and safety components.

Battery Energy Storage System Facility (BESS Facility). The physical site and all associated infrastructure and mechanical equipment necessary for the installation, operation, and maintenance of the BESS, including, but not limited to, enclosures; electrical, power generation, cooling, and ventilating equipment; access roads; substations; interconnection facilities; and supporting structures.

Cement Plants. A facility for the refinement or mixing of Portland cement, asphalt cement and cement-related products, including concrete, asphalt millings, and concrete batch plants.

Data Center. A facility, or portion of a facility, whose principal use is to store and manage computer systems, servers, networking equipment, and components related to digital data operations. This includes related infrastructure, office space, and staff areas necessary to support digital data operations. For purposes of this definition, digital data operations include the storage, processing, and distribution of digital information and may encompass activities related to artificial intelligence, block-chain technology, cryptocurrency mining, computational modeling, weather modeling, genome sequencing, and other computationally intensive applications.

Handicraft/Custom Manufacturing. Manufacture of crafts, art, sculpture, stained glass, jewelry, apparel, furniture, cabinet making, and similar items using hand tools and small mechanical devices.

Hazardous Waste Facility. All contiguous land and structures, other appurtenance, and improvements on the sites used for the treatment, transfer, storage, disposal or recycling of hazardous waste management units, or combinations of these units.

Incineration of Garbage or Organic Matter. Burning to ashes of carbon-based refuse or waste that is derived from materials produced during the life-cycle of plants or animals. Organic matter includes paper, wood, food and plastic, as well as the waste products of these and similar materials.

Light Assembly/Cabinetry. Putting together, fabricating, or making minor modifications to pre-manufactured items or pre-cut lumber as a last step for items intended to be sold as finished products. Includes assembling cabinets, furniture making and welding of pre-made parts, but excludes metal extrusion, sawmills, and manufacturing.

Manufacturing, General. Manufacturing of products from extracted or raw materials or recycled or secondary materials, or bulk storage and handling of such products and materials. This classification includes operations such as biomass energy conversion; food and beverage processing; textile mills; production apparel manufacturing; photographic processing plants; leather and allied product manufacturing; wood product manufacturing; paper manufacturing; chemical manufacturing; plastics and rubber products manufacturing; nonmetallic mineral

product manufacturing; primary metal manufacturing; fabricated metal product manufacturing; recycling materials processing facilities in which post-consumer materials are sorted, condensed, baled, or transformed; and automotive, ship, aircraft, and heavy equipment manufacturing.

Manufacturing, Limited. Establishments engaged in light industrial activities taking place primarily within enclosed buildings and producing minimal impacts on nearby properties. This classification includes operations such as manufacturing finished parts or products primarily from previously prepared materials; commercial laundries and dry cleaning plants; Mobile Home manufacturing; monument works; printing, engraving and publishing; computer and electronic product manufacturing; furniture and related product manufacturing; and industrial services.

Marijuana Cultivation Facility. A building, structure or premises used for the growing or storage of medical marijuana (cannabis spp.) and registered with the Arizona Department of Health Services (DHS) as related to a dispensary.

Marijuana: Dual Licensee Facility. An entity licensed by the Arizona Department of Health Services (ADHS) to operate both a medical marijuana dispensary and a marijuana establishment. The retail of recreational marijuana and medical marijuana must occur at the same location. Recreational marijuana sales may only occur in conjunction with medical marijuana sales regardless of the license held.

Marijuana Establishment. An entity licensed by the Arizona Department of Health Services to operate all of the following:

A. A single retail location at which the licensee may sell marijuana and marijuana products to consumers, cultivate marijuana and manufacture marijuana products.

B. A single off-site cultivation location at which the licensee may cultivate marijuana, process marijuana and manufacture marijuana products, but from which marijuana and marijuana products may not be transferred or sold to consumers.

C. A single off-site location at which the licensee may manufacture marijuana products and package and store marijuana and marijuana products, but from which marijuana and marijuana products may not be transferred or sold to consumers.

Marijuana Infusion Facility. A facility that incorporates medical marijuana (cannabis spp.) by the means of cooking, blending, or incorporation into consumable, edible or transdermal goods.

Meat Slaughterhouse or Packing Plant. A facility for the slaughtering and processing of animals and the refining of their by-products.

Medical Marijuana Dispensary. An entity registered, certified and authorized by ADHS as a "Nonprofit medical marijuana dispensary" that acquires, possesses, cultivates, manufactures, delivers, transfers, transports, supplies, sells or dispenses marijuana or related supplies and educational materials to cardholders.

Metal Refining, Casting or Extrusion. An industrial facility engaged in the production of metal parts or components by use of dies, casts or other similar methods.

Metal Smelting, Industrial. An industrial facility engaged in the production of metal parts and components from metal ore or molten metal products.

Oil Refinery/Petroleum Distillation. Oil related industrial activities involving the processing or manufacture of substances; such as tar, asphalt, asphalt felt, fuels, lubricating oils and greases, paving blocks made of asphalt, creosoted lumber and wood products, other compositions of tar and asphalt with other materials, and roofing cements and coatings.

Recycling Facility. A center for the collection and/or processing of recyclable materials.

Small Collection Facility. A center where the public may donate, redeem or sell recyclable materials, which may include the following, where allowed by the applicable zoning district:

a. Reverse Vending Machines;

b. Small indoor collection facilities which occupy an area of 1,000 square feet or less;

Large Collection Facility. Large collection facilities that occupy an area of more than 1,000 square feet and/or include permanent structures.

Processing Facility. A structure or enclosed space used for the collection and processing of recyclable materials for shipment, or to an end-user's specifications, by such means as baling, briquetting, cleaning, compacting, crushing, flattening, grinding, mechanical sorting, re-manufacturing and shredding. Processing facilities include the following types:

a. A light Processing Facility occupies an area of under 45,000 square feet of collection, processing and storage area, and averages two outbound truck shipments each day. Light processing facilities are limited to baling, briquetting, compacting, crushing, grinding, shredding and sorting of source separated recyclable materials. A light Processing Facility shall not shred, compact, or bale ferrous metals other than food and beverage containers; and

b. A heavy Processing Facility is any Processing Facility other than a light Processing Facility.

Research and Development. Establishments primarily engaged in scientific research, and the design, development, engineering, and testing of high-technology electronic, industrial or scientific products in advance of product manufacturing. The production of products, plans, or designs may be part of this classification when the primary purpose of such production is research, development, or evaluation, rather than sale. Typical uses include biotechnology firms, electronic research firms, or pharmaceutical research laboratories.

Salvage and Wrecking. Storage and dismantling of vehicles and equipment for sale of parts, as well as their collection, storage, exchange or sale of goods including, but not limited to, used building materials, used containers or steel drums, used tires, and similar or related articles or property.

Tanneries. An industrial activity whose principal business is the conversion of rawhides into leather by use of chemical or other methods.

Warehousing and Storage. Storage and distribution facilities with limited sales to the public on-site or restricted direct public access.

Contractor's Yards. Outdoor storage of construction materials or equipment.

Indoor Warehousing and Storage. Storage within an enclosed building of commercial goods prior to their distribution to wholesale and retail outlets and the storage of industrial equipment, products and

materials including but not limited to automobiles, feed, and lumber. Also includes cold storage, draying or freight, moving and storage, and warehouses. This classification excludes Data Centers, the storage of hazardous chemical, mineral, and explosive materials.

Outdoor Storage. Storage of vehicles or commercial goods (other than construction materials) in open lots.

Mini-Storage. Facilities offering storage for individual use. An on-site residence may be present for use by the site manager and family.

Wholesale. Establishments engaged in the distribution and sale of items for resale by retail stores, or bulk sale of goods to other professional business, industrial, or institutional users. Such activities are characterized through sales of items in large or gross quantities and not as individual items, and such establishments are typically not open to the general public for the purpose of offering items for individual sale or consumption of goods.
(Ord. No. 5633, § 1, 7-8-21; Ord. No. 5957, § 6, 7-8-25; Ord. No. 5976, § 8, 1-12-26)

11-86-6: TRANSPORTATION, COMMUNICATIONS, AND UTILITIES USE CLASSIFICATIONS

Airports. Facilities for the takeoff and landing of airplanes, including runways, aircraft storage buildings, public terminal buildings and parking, and support activities such as Airport operations and air traffic control.

Heliports. Facilities for the takeoff and landing of helicopters, as a primary use. Heliports typically contain one or more helipads and may have limited facilities, such as fuel, lighting, a windsock, or even hangars.

Communication Facilities:

Antenna and Transmission Towers. Broadcasting and other communication services accomplished through electronic or telephonic mechanisms, as well as structures designed to support one (1) or more reception/transmission systems. Examples of Transmission Towers include, but shall not be limited to, radio towers, television towers, telephone exchange/microwave relay towers, and cellular telephone transmission/personal communications systems towers.

Facilities within Buildings. Includes radio, television, or recording studios; telephone switching centers; excludes Antennae and Transmission Towers.

Freight/Truck Terminals and Warehouses. Facilities for local or worldwide freight, courier, local messenger, and postal services by truck or rail.

Solar Farms. A facility in which the principal activity is the production or conversion of energy from sunlight in the form of electricity or heat for distribution to uses, activities or facilities outside of the immediate location or vicinity.

Transportation Passenger Terminals. Facilities for passenger transportation operations. This classification includes rail stations, bus terminals, and scenic and sightseeing facilities, but does not include Airports or Heliports.

Utilities, Major. Generating plants, electric substations, solid waste collection, including transfer stations and materials recovery (recycling processing) facilities, solid waste treatment and disposal, water or wastewater treatment plants, and similar facilities of public agencies or public utilities.

Utilities, Minor. Facilities necessary to support established uses involving only minor structures, such as electrical distribution lines, electric vehicle charging stations, reverse vending machines and underground water and sewer lines.

11-86-7: AGRICULTURAL AND EXTRACTIVE USE CLASSIFICATIONS

Agriculture: Farming, including plowing, tillage, cropping and installation of best management practices, seeding, cultivating, or harvesting for the production of food and fiber products (except commercial logging and timber harvesting).

Crop and Animal Raising. The raising of tree, vine, field, forage, and other plant crops intended to provide food or fibers, as well as keeping, grazing, or feeding of animals for animal products, animal increase, or value increase, and dairying as an accessory use on farms with dairy cattle. The classification excludes wholesale or retail nurseries (See Plant Nurseries and Garden Centers).

Mining and Quarrying. The extraction of nonmetallic minerals, including dredging and sand and gravel pit operations. This classification includes surface mining operations.

11-86-8: MIXED-USE CLASSIFICATIONS

Mixed-Use Development: The development of a parcel(s) of land, building(s) or structure(s) with more than one (1) type of land use, such as residential, office, retail, public, or entertainment, where the different land uses on the parcel or parcels form a cohesive development with shared vehicular and pedestrian access and parking areas between the parcels, different land uses or both.

Horizontal Mixed-Use: A project that includes two (2) or more attached or detached single-story buildings with a combination of land uses (e.g., residential and commercial).

Vertical Mixed-Use: A project that includes one or more attached or detached multiple-story buildings containing both non-residential and residential dwelling units which are functionally integrated by the use of shared vehicular and pedestrian access and parking areas.
(Ord. No. 5593, § 13, 12-1-20)

11-86-9: TEMPORARY USE CLASSIFICATIONS

Temporary Outdoor Entertainment. A temporary use, occurring outside or in a temporary structure that provides entertainment or amusement through performance, attraction, or experiential exhibit, including but not limited to, concerts, haunted houses, corn mazes, circuses, carnivals, or similar uses.

Temporary Outdoor Sales. A temporary use involving the temporary, occasional, or periodic display and sale of goods held outdoors, or in semi-enclosed or outdoor stalls, or in temporary structures, including but not limited to, Flea Markets, Swap Meets, Farmers Markets, parking lot sales, art fairs, pop-up markets, Christmas tree lots, pumpkin lots, and firework stands. Temporary outdoor sales exclude garage and yard sales held at a private residence, sales not held at a stationary location, and mobile food vending.
(Ord. No. 5759, § 11, 12-8-22)

CHAPTER 87 DEFINITIONS

Accessory Building or Structure: A detached subordinate building or structure that is customarily incidental to the primary building and on the same lot or parcel of land with the primary building.

Accessory Structure, Manufactured Home: A subordinate building or structure that is customarily incidental to the main building and on the same lot or parcel of land with the main building for living purposes, garages, carports, ramadas, awnings, patios or similar floor area related definitions.

Accessory Use: A use customarily incidental to, related and clearly subordinate to a principal use established on the same lot or parcel of land, which accessory use does not alter said principal use nor serve property other than the lot or parcel of land on which the principal use is located. "Appurtenant use" means the same as accessory use.

Adaptive Reuse: Conversion of an existing building from the use for which it was constructed to multiple residence use by maintaining some or all of the building elements.

Adaptive Reuse Permit: Permit issued for an existing commercial, office, or mixed-use parcel for an existing building to be redeveloped as a multiple residence reuse or adaptive reuse.

Adjoining: Two or more lots or parcels of land sharing a common boundary line, or 2 or more objects in contact with each other. Lots or parcels of land which touch at corners only shall not be deemed adjoining. "Abut" or "abutting" and "contiguous" means the same as adjoining.

Adult: A person who is 18 years of age or older.

Advertising For Hire Sign: A sign on which display space is made available to a person in exchange for rent, fee, or other consideration; does not include the owner of the sign, operator of the sign or the occupant of a parcel who rents tenant space on the same parcel or group C-O-I development as the sign.

Aggrieved Person: Any person who has concerns with or believes they will be negatively affected by a decision.

AIRPORT-RELATED DEFINITIONS: See Section 11-19-3, Definitions Specific to Airfield Overlay Districts.

Alley: A public right-of-way used to provide secondary vehicular access to properties which abut it.

Alteration: Any addition or modification that changes the exterior architectural appearance or materials of a structure or object. Alteration includes changes in exterior surfaces, changes in materials, additions, remodels, demolitions, and relocation of buildings or structures, but excludes ordinary maintenance and repairs.

ANA Standards. Standardized plant nursery trade definitions of plant size, including container size, trunk caliper, plant height and canopy radius for trees and shrubs as determined by the Arizona Nurseryman's Association.

Apartment, One-Bedroom: A dwelling unit in an apartment house that contains a maximum of 3 habitable rooms, 1 of which shall be a kitchen.

Apartment, Two or More Bedroom: A dwelling unit in an apartment house that contains more than 3 habitable rooms, 1 of which shall be a kitchen.

Apartment House: A building, or a portion of a building, designed or used for occupancy by 3 or more families living independently of each other, and containing 3 or more dwelling units.

Area, Net: A portion of a lot, or parcel of land which is:

1. Not included as a proposed public or private facility such as an alley, highway or street, or other necessary public site within a proposed development project;
2. Subject to an easement where the owner of the underlying land has the right to use the entire surface except that portion where the owner of the easement may place utility poles or minor utility structures.

Arterial Street: See street, arterial.

Assisted Living Center: An assisted living facility that provides resident rooms or dwelling units to 11 or more residents.

Assisted Living Facility: A residential care institution, including adult foster care, that is licensed by the State of Arizona to provide supervisory care services, personal care services or directed care services on a continuing basis.

Assisted Living Home: An assisted living facility that provides resident rooms to 10 or fewer residents.

Automobile Display Space: Any permanently maintained space so located and arranged as to permit the display of a motor vehicle, including passenger vehicles, automobiles, trucks, motorcycles, scooters and self-propelled off-road equipment.

Automobile Parking Space, Compact: Any permanently maintained space, having a width of not less than 8 feet and a length of not less than 16 feet, so located and arranged as to permit direct access to and from the parking space without crossing an adjacent parking space, and the storage of a passenger automobile of compact size.

Automobile Parking Space, Standard: Any permanently maintained space, having a width of not less than 9 feet and a length of not less than 18 feet, so located and arranged as to permit direct access to and from the parking space without crossing an adjacent parking space, and the storage of a passenger automobile of standard size.

Automobile Storage Space: Any permanently maintained space so located and arranged as to permit the storage of a passenger automobile of standard size, without regard to how the parking space is accessed.

BATTERY ENERGY STORAGE SYSTEM (BESS) RELATED DEFINITIONS

Augmentation: The process of adding new components to, modifying existing components, or replacing components of, an existing BESS facility.

Nameplate Capacity: The maximum amount of energy that a BESS or BESS Facility can supply or store under specific conditions. It is also referred to as rated capacity or peak capacity, and is expressed in megawatts (MW) or kilowatts (KW) for power. The associated energy capacity, sometimes referred to as nameplate energy capacity, represents the total amount of energy the system can store or deliver over time, expressed in megawatt-hours (MWH) or kilowatt-hours (KWH).

Bay Door or Bay Entry: Openings into a building wider than 6-feet, and designed for use principally by a vehicle to access a building, typically for vehicle parking, storage, repair or maintenance, or to access a building such as a warehouse or factory.

Bicycle Parking, Long-Term: Bicycle parking, designed to serve employees, students, residents, commuters, and others who generally stay at a site for four hours or longer.

Bicycle Parking, Short-Term: Bicycle parking designed to serve shoppers, customers, messengers, guests, and other visitors to a site who generally stay for a period of less than 4 hours.

Billboard: A permanent off-site sign or a portable off-site sign more than thirty-two (32) square feet or an advertising for hire sign.

Body Piercing: The creation of an opening in the human body for the purpose of inserting jewelry or other decoration, including the piercing of an ear, lip, tongue, nose, or eyebrow. "Body piercing" does not include piercing an ear with a disposable, single-use stud or solid needle that is applied using a mechanical device to force the needle or stud through the ear.

Buffer: To promote separation and compatibility between land uses of different intensities. The term buffer may also be used to describe the methods used to promote compatibility, such as a landscape buffer.

BUILDING RELATED DEFINITIONS:

Building: Any structure having a roof supported by columns or by walls and intended for the shelter, housing or enclosure of persons, animals, or property of any kind.

Building Addition: An extension or increase in floor area, height, or volume of an existing building. To qualify as an addition, the new construction must share a common wall with the existing building, with the point of attachment measuring at least 20% of the length of the common wall to which it is attached.

Building, Enclosed: A building composed of rigid walls on all sides, and a roof.

Building Height: The vertical distance from the natural mean ground elevation of the lot to the top of the parapet of a flat roof or the mean height between the plate line and the ridge of mansard, gable, hip, shed, or similar roof, excluding embellishment.

Building, Pre-Engineered Metal: An enclosed structure with siding consisting of large, modular metal panels, often available in standardized kit form from a manufacturer and assembled on-site.

Build-To Line: The maximum distance a building or other structure may be placed from an adjacent property line or future width right-of-way line.

By-Passed Parcel: Any lot or parcel which meets all of the following:

1. Does not exceed 2.5 net acres, and has been in its current configuration for more than 10 years or does not exceed 5 net acres and was created by the assembly of individual, contiguous parcels, each not more than 2.5 acres in area; and
2. Is served by, or has direct access to, existing utility distribution facilities; and
3. Is surrounded by properties within a 1,200-foot radius in which:
    a. The total developable land area is not more than 25% vacant; and
    b. Greater than 50% of the total number of lots or parcels have been developed 15 or more years ago.

Caretaker: A person residing on the premises of an employer and who is receiving meaningful compensation to assume the primary responsibility for the necessary repair, maintenance, supervision or security of the real or personal property of the employer which is located on the same or contiguous lots or parcels of land.

Carport: An accessory structure that is roofed but permanently open on at least 2 sides and maintained for the storage of motor vehicles.

Centerline: The centerline established by the city engineer for any proposed or dedicated public way.

Change in Use(s) or Change of Use(s): A change from one defined land use to another defined land use in Chapter 86, no matter if they are under the same broader Land Use Classification (such as "Residential Use Classifications" or "Commercial Use Classifications"), or a change from a defined land use to a land use not defined in Chapter 86.

Chapter: A chapter set out in this Ordinance, unless another ordinance or statute is mentioned.

Charitable Organization: Any benevolent, philanthropic, patriotic, not-for-profit, or eleemosynary group, association or corporation, or such organization purporting to be such, which solicits and collects funds for charitable purposes.

Child: A person under 18 years of age.

City Charter: The Mesa City Charter.

Commercial Vehicle: Any vehicle currently registered as such with the state Department of Motor Vehicles or equivalent out-of-state or federal agency and is used primarily in the conduct of a business as opposed to private family or individual use.

Condition of Use: A development standard determined to be necessary to permit harmonious classification of a use as listed in a zone and therefore a prerequisite to place, or for application to place, such use as classified.

Corral Fence: A structure consisting of vertical posts with horizontal connectors, so constructed that 66 percent or more of the vertical surface is open. Corral fences do not include chain link fences.

Cross-Access: A driveway or drive aisle which connects two (2) or more adjacent parcels without using a roadway.

Density: The number of dwelling units per unit of land area.

Density Bonus: A density increase over the otherwise maximum allowable residential density provided in this Ordinance.

Desert Cobble: Refers to a process that re-creates the look of the rugged desert floor by salvaging and redistributing the top four inches of native soil and native "Desert Pavement" cobble. The desert cobble textures allow the establishment of plant communities by providing a protected place to take root.

Desert Uplands Area: Area described by Section 9-6-5(A) of the Mesa City Code, and generally bounded by the West line of the Central Arizona Project (CAP) Canal on the West, Tonto National Forest on the North, Pinal County on the East, and University Drive on the South.

Development: Any manmade change to improved or unimproved real estate, including but not limited to the division of a parcel of land into 2 or more parcels; the construction, reconstruction, conversion, structural alteration, relocation, or enlargement of any structure; any mining, excavation, landfill or land disturbance; and any use or extension of the use of land.

Development Plan Condition: An ordinance condition of approval requiring compliance with an approved Development Plan or Site Plan.

Development Plan Review: The process by which the City evaluates proposed site and building development for compliance with the Zoning Ordinance, adopted design guidelines, and other applicable City policies. The Development Plan Review process consolidates and replaces prior processes, including Site Plan Review and Design Review.

Disability. (1) A physical or mental impairment that substantially limits one or more of an individual's major life activities or impairs an individual's ability to live independently; (2) having a record of such an impairment; or (3) being regarded as having such an impairment. A person with a disability does not include an individual who is currently using alcohol or illegal drugs (as defined in Section 102 of the Controlled Substances Act (21 United States Code 802)), or using legal drugs to which they are addicted nor individuals who constitute a direct threat to the health and safety of others. Disability and direct threat will be interpreted consistent with the Americans with Disabilities Act (42 United States Code 12101, et seq.), as amended, and the Federal Fair Housing Act (42 United States Code 3601—3619).

Domestic Animal: An animal which is commonly maintained in residence with man.

Dripline: A vertical line extending from the outermost portion of a tree canopy to the ground. Potential dripline is based on the average tree canopy diameter, as determined by the Arizona Nurseryman's Association.

Driveway: An access way that provides vehicular access between a street or alley and the on-site parking or loading facilities.

Duplex: Two (2) dwelling units on the same lot or parcel that are designed for residential occupancy by not more than two (2) families living independently from each other, each with separate sleeping, cooking, and sanitary facilities. Unless otherwise provided, a Duplex consists of two (2) attached units (side-by-side or stacked). For the purposes of middle housing, the dwelling units may be attached, detached, or semi-detached.

Dwelling Unit: A room or suite of rooms including permanent provisions for living, sleeping, eating, sanitation, and cooking, and designed or occupied as separate living quarters.

Easement: A portion of land created by grant or agreement for specific purpose; an easement is the right, privilege or interest which one party has in the land of another.

Effective Date: The date on which a permit or other approval becomes enforceable or otherwise takes effective, rather than the date it was signed or circulated.

Emergency: A sudden unexpected occurrence demanding immediate action to prevent or mitigate loss or damage to life, health, property or essential public services.

Equipment Cabinet or Enclosure: A cabinet or structure used to house equipment associated with any utility.

Existing Commercial, Office, or Mixed-Use Parcel: A parcel of land that is zoned as a Commercial or Mixed-Use District as of the effective date of this ordinance.

Façade: The exterior elevation of a building extending vertically from the grade to the top of a parapet wall or eave, and horizontally across the entire width of the building elevation.

Factory-Built Building: Any building, including a dwelling unit or habitable room thereof, which is either wholly or in substantial part manufactured at an off-site location to be assembled on site, except that it does not include a manufactured home, recreational vehicle or mobile home. All factory built buildings shall be consistent with all requirements of the Arizona Department of Housing for factory built buildings.

Family. An individual or two (2) or more individuals related by blood, marriage or adoption, or a group of no more than four (4) unrelated individuals, living together as a single housekeeping unit. A family includes a couple in a domestic relationship and biological, adopted, and foster children of either partner. The term family includes unrelated persons with developmental disabilities (as defined in A.R.S. § 36-581) living together in compliance with A.R.S. § 36-582.

Feasible: Capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, social and technological factors.

Fence: An artificially-constructed barrier of any material or combination of materials erected to enclose or screen an area of land.

FLOOR AREA RELATED DEFINITIONS:

Floor Area, Gross (GFA): The sum of the gross horizontal area of each floor of a building or structure, measured from the exterior face of an exterior wall of a freestanding structure, or from the center of common walls of attached buildings, including carports, garages, basements, mezzanines, interior balconies, and all upper stories or levels.

Floor Area (Net Floor Area, Habitable Floor Area): Space in a building used for purposes including living, working, sleeping, sanitation, eating, cooking, conditioned storage, recreation, or any combination of the above. Space used only for unconditioned storage or parking is not habitable space.

Floor Area Ratio (FAR): The numerical value obtained through dividing the aboveground gross floor area of a building or buildings located on a lot or parcel of land by the total area of such lot or parcel of land.

Foundation Base: The area adjacent to the exterior walls of a building containing hardscape, (entry plazas, covered walkways, sidewalks), ground cover, or landscaping.

Fourplex: Four (4) dwelling units on the same lot or parcel that are designed for residential occupancy by not more than four (4) families living independently from each other, each with separate sleeping, cooking, and sanitary facilities. Unless otherwise provided, a fourplex consists of four (4) attached units (side-by-side or stacked). For the purposes of middle housing, the dwelling units may be attached, detached, or semi-detached.

Frontage, Building: The exterior building wall of a ground floor business establishment oriented toward a public street, highway or parkway.

Frontage, Street or Highway: That portion of a lot or parcel of land which borders a public street, highway or parkway.

Front Parking Area: The parking area located in front of a building's primary façade. Determined by drawing a line from the front corners of the building to the front property corners.

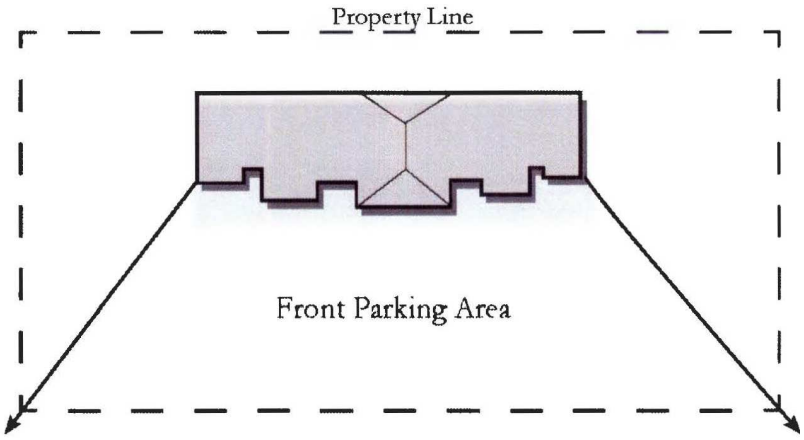


FIGURE 11-87-1.A: FRONT PARKING AREA

Future Width Right-of-Way Line: The planned maximum width of a public freeway, road, or street, determined by the City Traffic Engineer for local, collector and arterial streets, as determined by the applicable Transportation, Freeway or Major Street Plan adopted by the City, Maricopa County, and/or the State of Arizona for arterial streets and freeways.

Garage: A building or portion of a building that is enclosed and roofed and designed for the parking of motor vehicles.

General Development Standards: Design standards, parking requirements and other zoning related Development Standards specified in:

A. A Community Plan and adopted with a particular Planned Community (PC) District, as specified in Chapter 11,

B. An Infill Incentive Plan and adopted with a particular Infill Development (ID) District, as specified in Chapter 12, or

C. An EO development plan and adopted with a particular Economic Opportunity (EO) District, as specified in Chapter 14.

These standards would include the type of standards and requirements specifically associated with land uses listed in Article 2, or generally applicable as found in Article 4, and/or Article 5. The term includes building setbacks, maximum building heights, parking stall sizes, parking ratios, minimum building separation requirements, landscape setbacks, landscape planting ratios attached and detached permanent signs, and other similar requirements. The term does not include permitted land uses, prohibited land uses, and uses requiring a conditional use permit. As a general rule, dimensional General Development Standards include requirements which are characterized by minimum or maximum physical characteristics that can be measured as floor area, width, length, depth or height.

General Plan: The General Plan of the City of Mesa, and all elements thereof.

General Plan Amendment: A modification to the text, maps, goals, policies, or other components of the City's adopted General Plan that changes the community's long-range vision for growth, land use, housing, transportation, public facilities, or other elements required by state law.

Glare: The effect produced by a light source within the visual field that is sufficiently brighter than the level to which the eyes are adapted, such as to cause annoyance, discomfort or loss of visual performance and ability.

Good Neighbor Policy: A written statement submitted by the property owner, applicant, or operator that outlines the measures to be implemented to ensure ongoing compatibility between the proposed use and surrounding properties. The good neighbor policy shall identify procedures for preventing and responding to community concerns, including noise, traffic, lighting, maintenance, and other potential nuisances. It shall also include contact information for a designated on-site representative responsible for addressing complaints, describe methods for communicating with nearby property owners or neighborhood associations, and establish protocols for documenting and resolving issues.

GRADE-RELATED DEFINITIONS:

Grade, Below: Location of any facility or part of a facility located underground or beneath ground level.

Grade, Existing: The elevation of a lot or parcel prior to approved demolition, excavation, fill, construction or modification.

Grade, Finished: The final elevation of the lot or parcel, paved or unpaved, when all construction and landscaping are complete. Grade refers to finished grade unless otherwise stated.

Grade, Finished Floor: The elevation of the ground floor of the building.

Grade, Natural: The elevation of a lot or parcel unaffected by construction techniques such as fill, excavation, landscaping or berming. Mean natural grade refers to the elevation midway between the highest and lowest elevations on the lot or parcel.

Group C-O-I Development: A commercial, office, or industrial master planned development containing three (3) or more businesses which share facilities such as driveways, parking, and pedestrian walkways and which is designed to provide a single area in which the public can obtain varied products and services.

Habitable (Area, Living Area or Space): See "net floor area."

Hardscape: Part of a building's grounds consisting of structures, such as plazas, retaining walls and sidewalks, made with materials such as but not limited to, concrete and sidewalk pavers.

Hazardous Materials: Includes any substance characterized as flammable solids, corrosive liquids, radioactive materials, oxidizing material, highly toxic materials, poisonous gases, reactive materials, unstable materials, hypergolic materials and pyrophoric materials and any substance or mixture of substances which is an irritant, a strong sensitizer or which generates pressure through exposure to heat, decomposition or other means.

Height of Building or Structure: See "building height."

Home Occupations: A business or professional activity conducted on the same lot or parcel as a residential dwelling unit, which is clearly incidental and secondary to the primary function as a residential dwelling unit. The business or professional activity must not negatively impact the residential character of the neighborhood or the health, safety, and welfare of neighbors.

Permitted home occupations may include but are not limited to: Artist studios, personal services, therapy, consulting, law office, real estate, insurance, professional office, professional design services, music and fine arts instruction, swim lessons, and small-scale E-Commerce that service five (5) or fewer individuals at a time.

Home occupations exclude the on-site exchange of sold or bartered goods (exceptions made for occasional and infrequent exchanges), vehicle repair commercial warehousing or storage - indoor or outdoor, or manufacturing of products using hazardous materials or equipment not typically found in household settings.

Illegal Use: Any use of land or building that does not have the currently required permits and/or was originally constructed and/or established without permits required for the use at the time it was brought into existence.

Initial Site Plan: A site plan for a property, or a portion thereof, that does not have a previously approved site plan, or the approved site plan has expired.

Kitchen: Any room or space used, or intended or designed to be used for cooking or the preparation of food.

Kitchen Area: A space within a building or dwelling unit designed or used for the preparation and cleanup of food that includes a sink.

Large Vehicle: Any vehicle with a gross vehicle weight rating (GVWR) exceeding 13,000 pounds and intended to be used primarily for commercial purposes rather than use as for private or personal individual trips.

Lamp: Any source created to produce optical radiation (i.e. "light"), often called a bulb or tube.

Land Use Group (LUG): A category, grouping or association of land uses and activities, arranged as permitted, conditional, and prohibited land uses, when used in association with an EO or PC Ddistrict as a part of an adopted EO Development Plan (for EO Districts) or community plan (for PC Districts). In each case, the permitted and conditional land use activities shall be individually listed and grouped, together into specified categories (LUGS), assigned a name or title, and generally described with purpose and intent statements related to how the category or grouping of land uses relates back to the implementation and administration of the adopted EO Development Plan or community plan, as may be applicable. Further, each LUG may also provide specific standards associated with the land use and development of the assigned parcels. Such groups may be based in whole or in part on existing Mesa base zoning districts or may be new categories.

Landscape Yard: An area intended to provide buffering between land uses of different intensities through the use of setbacks, landscaping, berms, fences, walls or a combination thereof.

Landscaping: The planting, configuration and maintenance of trees, ground cover, shrubbery and other plant material, decorative natural and structural features (walls, fences, hedges, trellises, fountains, sculptures), earth patterning and bedding materials, and other similar site improvements that serve an aesthetic or functional purpose.

Light Shelf: An exterior architectural element that allows reflective daylight to penetrate deep into a building.

Lighting, Exterior: Any equipment or fixture located or used to provide illumination of outdoor areas, objects or activities.

Lighting Fixture: Light fixtures include but are not limited to the lamp, pole, post, ballast, reflector, lens diffuser, shielding, electrical wiring, and other necessary or auxiliary components.

Lighting System: All exterior man-made lighting sources, associated infrastructure and controls on a site.

Light Trespass: Unwanted light that falls on neighboring properties or public rights-of-way. Light trespass also includes glare or distraction for observers away from the area for which the light is intended.

LOT-RELATED DEFINITIONS:

Lot, Corner: A lot or parcel of land situated at the intersection of 2 or more parkways, highways or streets, which parkways, highways or streets have an angle of intersection measured within said lot or parcel of land of not more than 135 degrees.

Lot, Coverage: The area of a lot that is covered with impervious surfaces, such as buildings, patios or decks with roofs, carports, tennis courts, parking lots or any other type of structure. Swimming pools, exclusive of decking, are not considered impervious surfaces for the purposes of calculation.

Lot, Flag: A lot or parcel of land taking access by a strip, owner of which lot or parcel of land has fee-simple title to said strip extending from the main portion of the lot or parcel of land to the adjoining parkway, highway or street.

Lot, Interior: A lot or parcel of land other than a corner or flag lot.

Lot, Key: An interior lot adjoining the rear lot line of a corner lot.

Lot Line: A boundary line of a lot or of a parcel of land.

Lot Line, Front: A line separating the front yard from the parkway, highway or street upon which the yard fronts; or, in the case of a flag lot where the front yard is oriented toward an adjoining lot, the line separating such front yard from the adjoining lot.

Lot Line, Rear: A lot line which is opposite and most distant from the front lot line. For a triangular shaped lot, the rear lot line shall mean a line 10 feet to the length within the lot which is parallel to the front lot line, or parallel to the chord of a curved front lot line, and the maximum distance from the front lot line.

Lot Line, Side: Any lot boundary line which is not a front lot line or a rear lot line.

Lot, Through: A lot having frontage on 2 parallel or approximately parallel parkways, highways and/or streets.

Low-Income Housing: Housing for a person or persons whose household income does not exceed 80% of the area median income.

Maintenance and Repair: The repair or replacement of individual building components or paint, stucco or other exterior finishes that restores the character, scope, size or design of a structure to its previously existing, authorized, and undamaged condition. This definition shall not include replacement of primary structural elements or complete replacement of the building or structure.

MANUFACTURED HOME (MH) RELATED DEFINITIONS:

Accessory Retail Activity: An intermittent or periodic commercial event held at a recreation or social hall and characterized by the sale or barter of merchandise to residents of the Recreational Vehicle Park, Manufactured Home Park, or Recreation Vehicle Subdivision specifically associated with said recreation or social hall.

Accessory Structure, Manufactured Home: A one (1) story habitable room, storage building, garage, carport, ramada, and awning. Patios and similar structures which may include window screens, knee walls, and other partial enclosures as specified in the Mesa Building Code (MBC), Chapter 4-2.

Manufactured Home: A residential dwelling unit certified as a manufactured home pursuant to the Federal Manufactured Housing Construction and Safety Standards Act of 1974 and the Arizona Office of Manufactured Housing Statutes, A.R.S. § 41-4001-4010, and regulations. This term does not include conventionally built dwelling units, factory built dwelling units, Mobile Homes, Recreational Vehicle Park Models, or Recreational Vehicles.

Manufactured Home Lot: A parcel of land within an approved Manufactured Home Subdivision as shown in the records of the Maricopa County Recorder's Office.

Manufactured Home Park: An approved residential development, owned by one (1) entity, in which individual manufactured home spaces are provided whether or not a charge is made for such accommodation.

Manufactured Home Subdivision: An approved residential subdivision, as shown in the records of the Maricopa County Recorder's Office, that is designed in accordance with subdivision regulations, in which individual manufactured home lots are platted.

Manufacturing: The process of creating a finished product by fabrication or from raw materials, especially by means of a larger scale industrial operation.

MARIJUANA RELATED DEFINITIONS

Marijuana. All parts of the plant of the genus cannabis, whether growing or not, as well as the seeds from the plant, the resin extracted from any part of the plant, and every compound, manufacture, salt, derivative, mixture, or preparation of the plant or its seeds or resin.

A. Includes cannabis as defined in A.R.S. § 13-3401.

B. Does not include industrial hemp, the fiber produced from the stalks of the plant of the genus cannabis, oil or cake made from the seeds of the plant, sterilized seeds of the plant that are incapable of germination, or the weight of any other ingredient combined with marijuana to prepare topical or oral administrations, food, drink or other products.

Marijuana Concentrate. Resin extracted from any part of a plant of the genus cannabis and every compound, manufacture, salt, derivative, mixture or preparation of that resin or tetrahydrocannabinol. Marijuana concentrate does not include industrial hemp or the weight of any other ingredient combined with cannabis to prepare topical or oral administrations, food, drink or other products.

Marijuana Cultivation. To propagate, breed, grow, prepare, and package marijuana.

Marijuana Establishment. An entity licensed by the Arizona Department of Health Services to operate all of the following:

A. A single retail location at which the licensee may sell marijuana and marijuana products to consumers, cultivate marijuana and manufacture marijuana products.

B. A single off-site cultivation location at which the licensee may cultivate marijuana, process marijuana and manufacture marijuana products, but from which marijuana and marijuana products may not be transferred or sold to consumers.

C. A single off-site location at which the licensee may manufacture marijuana products and package and store marijuana and marijuana products, but from which marijuana and marijuana products may not be transferred or sold to consumers.

Marijuana Manufacturing. To compound, blend, extract, infuse or otherwise make or prepare a marijuana product.

Marijuana Processing. To harvest, dry, cure, trim or separate parts of the marijuana plant.

Marijuana Products. Marijuana concentrate and products that are composed of marijuana and other ingredients and that are intended for consumption, including edible products, ointments, and tinctures.

Massage and Massage Services: Should include any method of pressure on or friction against, or stroking, kneading, rubbing, tapping, pounding, manipulation, or stimulating the external parts of the body, with or without the aid of any mechanical or electrical apparatus or appliances, with or without supplementary aids such as rubbing alcohol, liniments, antiseptics, oils, powders, creams, lotions, ointments, or other similar preparations.

Massing: The volumetric design or three-dimensional form of a building or structure.

Minerals: Any naturally occurring chemical element or compound, or groups of elements and compounds, formed from inorganic processes and organic substances, including, but not limited to, coal, peat and bituminous rock, but excluding geothermal resources, natural gas and petroleum.

Moderate-Income Housing: Housing for a person or persons whose household income does not exceed 120% of the area median income.

Multiple Residence Reuse: Conversion of an existing building from the use for which it was constructed to a "multi-family residential development" as that term is defined in A.R.S. § 9-462.10(H).

New Application: A "new application" or the phrase "subject to a new application" means the proposed development, modification to an approved permit, plan or approval, or other request or approval sought requires the applicant to start the process from the beginning in accordance with the applicable review and approval processes, and subject to approval by the appropriate decision-making body, as required by this Ordinance. By way of example, a request to modify an approved variance would require an application for a new variance for review and approval by the Board of Adjustment.

Occupancy, Change in: The discontinuance of an existing use and the substitution therefore of a use of a different occupancy category as defined in the International Building Code.

Occupant: The person occupying or having custody of a structure or premises as a lessee or other.

Occupant Load: The total number of persons that may occupy a building or structure, or portion thereof, at any one time as provided by the Building Code.

Occupiable Space: See "habitable (area, living area or space)."

Off-Site Sign: A sign portraying information or directing attention to a business, activity, commodity, service, product, or entertainment which is not conducted, sold, or offered on the premises upon which the sign is located. Does not include portable signs thirty-two (32) square feet or less.

On-Site: Located on the lot that is the subject of discussion.

Open Space: The area or areas of a lot or parcel intended to provide light and air, and is designed for either scenic or recreational purposes, excluding buildings, parking, driveways and other vehicular surfaces.

Open Space, Common: An open space intended for the shared, common use of the occupants of a development.

Open Space, Private: An open space intended for the exclusive use of the occupants of a dwelling unit.

Ordinance: An ordinance of the City of Mesa.

Outdoor Display: The outdoor display or outdoor sale of goods which is conducted not entirely within a structure or enclosed area and is directly related to a business establishment with a permanent structure on the same parcel of property upon which the outdoor display is located. The business establishment with a permanent structure on the same parcel as the outdoor display is referred to as the "primary business".

Outside Storage: The storage of goods, equipment or materials outside of a building for any purpose other than outside display.

Owner: The person indicated on the records of the Maricopa County Assessor, or other official body, as the owner of record of the property in question.

Parcel of Land: A contiguous quantity of land, owned by or recorded as the property of a person.

Parking Lots or Parking Buildings: Readily accessible areas within structures or surface parking areas, inclusive of aisles, driveways, ramps and columns, maintained exclusively for the parking of vehicles, not including areas for the parking or storage of commercial vehicles.

Pedestrian Oriented Use: A land use intended to encourage walking customers and which, generally, does not limit the number of customers by required appointments or otherwise excluding the general public. A pedestrian-oriented use may suggest or require appointments for services when primarily for the convenience of the customer, such as reservations for restaurants, beauticians or opticians to avoid being turned away due to unavailability. Where feasible the pedestrian oriented use shall have external entrances directly accessible from public sidewalk space. At a minimum, the business shall be of those generally considered to be open typical business hours that can range from 4—10 hours a day, and 4—7 days a week.

Permit: Any special use permit, council use permit, temporary use permit, license, certificate, approval, or other entitlement for development and/or use of property as required by any public agency.

Permitted Use: Any use allowed in a zoning district without a requirement for approval of a discretionary use permit, but subject to any restrictions applicable to that zoning district.

Person: Any individual, firm, co-partnership, joint adventure, association, social club, fraternal organization, corporation, estate, trust, business trust, receiver, syndicate, this and any other city, county, municipality, district or other political subdivision, or any other group or combination acting as a unit.

Plan of Operation: A written statement submitted by the property owner, applicant, or operator that describes how a land use or development will function on a day-to-day basis. The plan of operation shall include, as applicable, information regarding hours of operation, staffing levels, number and type of employees, business activities conducted on site, service and delivery schedules, anticipated customer volume, noise and lighting control measures, maintenance procedures, security provisions, and other operational characteristics necessary to evaluate the potential impacts of the proposed use on surrounding properties and public facilities.

Plan Specific: The development standard described, such as a setback, landscaping plant ratio, parking ratio or a maximum building height requirement, is set by description noted graphically by the plans that have been approved/adopted during the entitlement review process required for that project.

Plasma Center: Any facility used in the collection, storage, or distribution of liquid blood plasma.

Porch: Structure or appendage of a building adjacent to a building entrance, typically covered and/or elevated from adjacent grade, and open with no walls on at least one (1) side.

Portable Sign: A freestanding sign not permanently affixed, anchored or secured to a permanent foundation.

Portable Storage Containers (PSC): A device in the shape of a rectangular solid; constructed of metal, consisting of four vertical walls, a floor and a ceiling and in which at least one vertical end is designed as door (typically either as a side-hinged door, or as an overhead bay door). The dimensions of a PSC shall not exceed 102-inches (8-foot, 6-inches) in height and 96-inches (8-feet) in width. Lengths may vary in increments of 10-feet (10-feet, 20-feet . . .) but may not exceed nominal 40-feet in length. PSCs include devices initially designed to facilitate the shipping of containerized cargo and constructed entirely of steel in a manner consistent with ISO 6346, and are being reused to facilitate secure storage, and/or temporary offices or studios, but not habitable space as defined in the Mesa Building Code.

Primary Building: A building in which the main or dominant use of the lot or parcel is conducted.

Primary Residence: A Single Residence as defined in Chapter 86, Section 11-86-2.

Principal Use: A primary or dominant use established, or proposed to be established, on a lot or parcel of land.

Private Street: See "street, private."

Project: Any proposal for a new or changed use or for new construction, alteration, or enlargement of any structure that is subject to the provisions of this Title.

Public Street: See "street, public."

RECREATIONAL VEHICLE (RV) RELATED DEFINITIONS:

Accessory Retail Activity: An intermittent or periodic commercial event, held at a recreation or social hall and characterized by the sale or barter of merchandise to residents of the Recreational Vehicle Park, Manufactured Home Park, or recreation vehicle subdivision specifically associated with said recreation or social hall.

Accessory Structure, Recreational Vehicle: A subordinate building or structure that is customarily incidental to a Recreational Vehicle or Recreational Vehicle Park Model and is located on the same lot or parcel of land as the Recreational Vehicle or Recreational Vehicle Park Model, which is used for living purposes, garages, carports, ramadas, awnings, patios or similar.

Recreational Vehicle (RV): A vehicular portable structure, which can be towed, hauled or driven, primarily designed as temporary living accommodation for recreational, camping, and travel use and not designed for permanent residential or commercial purposes that: (1) contains its own motive power; (2) is drawn by another vehicle; or (3) is mounted on another vehicle. This term does not include conventionally built dwelling units, factory built dwelling units, or manufactured homes.

Recreational Vehicle Lot: A parcel of land within an approved Recreational Vehicle subdivision, as shown in the records of the Maricopa County Recorder's Office.

Recreational Vehicle (RV) Park: An approved residential development, owned by one (1) entity, in which individual recreational vehicle spaces are provided whether or not a charge is made for such accommodation.

Recreational Vehicle (RV), Park Model: A recreational vehicle built on a single chassis, mounted on wheels, which has a gross trailer area not exceeding four hundred (400) square feet in the set-up mode, and is certified by the manufacturer as complying with the ANSI A119.5 standards for recreational park trailer. This term does not include conventionally built dwelling units, factory built dwelling units, or manufactured homes.

Recreational Vehicle Space: A site within an approved recreational vehicle park which is shown in the records of the planning division and which is designed and intended for the accommodation of one (1) recreational vehicle.

Recreational Vehicle (RV) Subdivision: An approved residential subdivision, as shown in the records of the Maricopa County Recorder's Office, that is designed in accordance with subdivision regulations, in which individual recreational lots are platted.

Renovation, Exterior Façade: A resurfacing of an existing building frontage.

Residential Care Institution: A health care institution other than a hospital or a nursing care institution which provides resident beds or dwelling units, supervisory care services, personal care service, directed care services or health-related services for persons who do not need inpatient nursing care.

Residential Zoning Application: A rezoning application to change a property from any zoning district to a residential zoning district or use; or an application that removes or modifies any regulation or condition of approval for a residential zoned property or use previously imposed by ordinance.

Responsible Party: A person who knows or has reason to know of the existence of any violation of this chapter on that person's property or property which that person occupies or controls, in whole or in part, including but not limited to an owner, occupant, lessor, lessee, manager, managing agent, licensee or any person who has legal care or control of the property.

Rezoning (Zoning Map Amendment): An amendment to the Official Zoning Map that changes the base Zoning District of one (1) or more parcels of land, adds or removes an overlay zoning district to one (1) or more parcels, or imposes, removes, or modifies any regulation or condition of approval that requires an Ordinance Condition Modification.

Roof Area: That portion of a lot or parcel covered by the roof structure of all buildings, excluding the eves and overhangs, but including covered porches, patios and carports.

Roof Profile: shape or form of the roof above residential dwelling units, such as gable, gambrel, hip, mansard, parapet, pitched and shed.

Room, Habitable: An enclosing subdivision in a building commonly used for sleeping, living, cooking or dining purposes, excluding closets, pantries, bath or toilet rooms, service rooms, connecting corridors, laundries, unfinished attics, foyers, storage space, cellars, utility rooms, and similar spaces.

Screening: A wall, fence, hedge, informal planting, or berm, provided for the purpose of buffering a building or activity from neighboring areas or from the street.

Section: A section of the ordinance codified in this Title 11, unless some other ordinance or statute is mentioned.

SETBACK-RELATED DEFINITIONS:

Setback: The minimum distance between a property line and the nearest point of a building or structure, measured perpendicular from the property line, unless otherwise specified in this Title, that must be kept unobstructed from the ground to sky except for permitted projections.

Setback, Front: The minimum distance between a front property line and the nearest point of a building or structure, measured perpendicular from the front property line, unless otherwise specified in this Title, that must be kept unobstructed from the ground to sky except for permitted projections.

Setback, Interior Side: The minimum distance between an interior side property line (a side property line that does not abut a street) and the nearest point of a building or structure, measured perpendicular from the interior side property line, unless otherwise specified in this Title, that must be kept unobstructed from the ground to sky except for permitted projections.

Setback, Rear: The minimum distance between a rear property line and the nearest point of a building or structure, measured perpendicular from the rear property line, unless otherwise specified in this Title, that must be kept unobstructed from the ground to sky except for permitted projections.

Setback, Street-Facing: The minimum distance between a street-facing property line (a side property line that abuts a private or public street) and the nearest point of a building or structure, measured perpendicular from the street-facing property line, unless otherwise specified in this Title, that must be kept unobstructed from the ground to sky except for permitted projections.

Sidewalk: A paved, surfaced, or leveled area used as a pedestrian walkway.

Single Housekeeping Unit. A person or group of persons jointly occupying a single dwelling unit that: (1) has access to and the joint use of all common areas such as the kitchen and eating areas of the dwelling unit; (2) shares household activities and responsibilities, such as meals, chores, or expenses; and (3) has no limits on length of tenancy, except for those imposed by a lease or rental agreement.

Site Plan Review: The process in which the City reviews a site plan which includes both an initial site plan and a site plan modification. In certain contexts, the term clearly applies only to initial site plan reviews and in other context only to site plan modifications.

Solid Fill: Any inorganic, noncombustible materials, insoluble in water, such as soil, rock, sand or gravel that can be used for grading land or filling depressions.

Special Event: A temporary activity that is conducted on property that is not specifically zoned, authorized, or otherwise approved for such use and which complies with all the following:

A. The activity is intended for purposes of entertainment, education, commercial promotion, or cultural, religious, ethnic, or political expression.

B. The activity occurs outside or in a temporary structure.

C. Special event includes parades, sporting events, circuses, fairs, carnivals, festivals, religious revivals, political rallies, vehicle shows and displays, and similar recognized temporary activities.

D. Special event does not include wedding and funeral ceremonies, elections, garage or yard sales held at a private residence, or charity car washes.

Special Event, City-Sponsored: A special event produced and funded by the City.

Special event, City-supported: A Special Event initiated by an outside or community group and supported by the City, in the City's sole discretion and based on available City resources.

Stand: A structure for the display and sale of products with no space for customers within the structure itself.

Story: Is that portion of a building included between the upper surface of any floor and the upper surface of the floor next above, except that the topmost story shall be that portion of a building included between the upper surface of the topmost floor and the roof above. "Story" includes a basement, but not a cellar.

Temporary Use Permit (TUP). A TUP is a discretionary permit issued by the Zoning Administrator in accordance with Sections 11-31-30 and 11-70-4 of the Zoning Ordinance for a temporary use that is conducted on property specifically zoned, authorized, or otherwise approved for such use.

STREET-RELATED DEFINITIONS:

Highway: Includes any expressway, freeway, or parkway.

Freeway: A restricted access highway.

Parkway: A road having park-like landscaping features, and may or may not have a central landscaped median, with a right-of-way width of not less than 80 feet.

Right-of-Way: A strip of land intended to be used as a road, railroad, electric transmission line, oil or gas pipeline, water line, sanitary storm sewer or other similar use.

Road: An open way used for the passage of vehicles, and includes alleys, streets and highways.

Street: Any public street, avenue, boulevard, road, lane, parkway, place, viaduct, easement for access, or other way which is an existing state, county, or municipal roadway; or a street or way shown in a plat heretofore approved pursuant to law or approved by official action; or a street or way in a plat duly filed and recorded in the County Recorder's Office. A street includes the land between the right-of-way lines, whether improved or unimproved, and may be comprised of pavement shoulders, curbs, gutter, sidewalks, parking areas, and landscape areas.

Street, Arterial: A general term including section line and major streets and state or county highways providing a system for citywide through traffic movement.

Street, Collector: Provides the traffic movement within neighborhoods of the City, between major streets and local streets, and for direct access to abutting property.

Street, Cul-de-Sac: A short local street permanently terminated in a vehicular turnaround; provides direct access to a limited number of adjacent properties.

Street, Frontage: The linear distance that a lot, parcel, or development site abuts a public or private street, measured along the property line that directly borders the street right-of-way.

Street, Half: Any street improved to a width of less than 34 feet or with concrete curb and sidewalk on only one (1) side of said street.

Street, Local: Provides for direct access to residential, commercial, industrial, or other abutting land; primarily for local traffic movements with connections to collector and/or major streets.

Street, Private: Real property recorded as improved roadway for pedestrian and motor vehicle traffic, constructed and maintained by private parties.

Street, Public: Real property dedicated for, and recorded as, public right-of-way for pedestrian and motor vehicle traffic, having a minimum width of 30 feet. The term shall not include public right-of-way designated for limited access freeways or public alleys.

STRUCTURE RELATED DEFINITIONS:

Structural Alteration: Any change of the supporting members of a building, such as bearing walls, columns, beams or girders, floor joists, ceiling joists, or roof rafters.

Structure: Anything constructed or erected which requires a fixed location on the ground, or is attached to something having a fixed location on the ground.

Structure, Attached: A structure that is connected to another structure and dependent on a division wall(s) or common wall(s) for structural support or enclosure. (SYN: detached building)

Structure, Detached: A structure which is physically separated from and not dependent on another structure for structural support or enclosure. (SYN: detached building)

Structure, Semi-Detached: A structure that is connected to another structure but is not dependent on a division wall(s) or common wall(s) for structural support or enclosure.

Suite, Guest: A combination of 2 or more guest rooms.

Swimming Pool: A contained body of water used for bathing or swimming purposes either above or below ground level with the container being 18 or more inches in depth at any point, and/or wider than 8 feet at any point measured on the long axis.

Tandem Parking. The placement of parking spaces one behind the other, or "end-to-end", such that the second space furthest from the access drive is accessed only by crossing the first space nearest the access drive.

Tattooing: To insert pigment under the surface of the human skin by pricking with a needle or otherwise to produce an indelible mark or figure visible through the skin.

TELECOMMUNICATIONS RELATED DEFINITIONS:

Alternative Tower Structure: Artificial trees, clock towers, bell steeples, light poles and similar alternative-design mounting structures that camouflage or conceal the presence of antennas or towers.

Antenna: Any system of poles, panels, rods, reflecting discs, wires or similar devices used for the transmission or reception of electromagnetic signals, including but not limited to radio waves and microwaves. An antenna does not include the support structure the antenna(s) is mounted upon.

Antenna, Amateur Radio: A ground-, building-, or tower-mounted antenna operated by a federally licensed amateur radio operator as part of the Amateur Radio Service and as designated by the Federal Communications Commission (FCC).

Antenna, Building- or Structure-Mounted: Antenna mounted to the side of a building, or structure that transmits or receives electromagnetic signals.

Antenna, Direct Broadcast Satellite Service (DBS): An antenna, usually a small home receiving dish, designed to receive direct broadcast from a satellite.

Antenna, Ground-Mounted: Any antenna that is not mounted on a pole, a structure, or the roof or wall of a building.

Antenna, Multipoint Distribution Services (MDS): An antenna designed to receive video programming services via multi-point distribution services, including multipoint, multichannel distribution services, instructional television fixed services, and local multipoint distribution services.

Antenna, Roof-Mounted: An antenna directly attached or affixed to the roof of an existing structure.

Antenna, Satellite: Any antenna used to receive and/or transmit radio or television signals from orbiting communications satellites.

Antenna, Satellite Earth Station: An antenna designed to receive and/or transmit radio frequency signals directly to and/or from a satellite.

Antenna, Television Broadcast Service (TVBS): An antenna designed to receive only television broadcast signals.

Antenna Structure: An antenna array and its associated support structure, such as a mast or tower (not including a suspended simple wire antenna), that is used for the purpose of transmitting and/or receiving electromagnetic signals, including but not limited to radio waves and microwaves.

Antenna Structure, Freestanding: An antenna structure or mast that is not attached to any part of a building, fence, or other such structure. Freestanding antenna structures include communications towers, wooden utility poles, and concrete and steel monopoles. If the total height of the structure, including the antenna, is at least 17 feet high, it shall be treated as a monopole.

Antenna Structure, Monopole: An antenna structure, often tubular in shape, usually made of metal, reinforced concrete, or wood and which is at least 17 feet in height. A monopole may also be an alternative tower structure that is designed to replicate a tree or other natural feature.

Communication Equipment Building: A building housing operating electrical and mechanical equipment necessary for the conducting of a public utility communications business, with or without personnel.

Co-location: The location of two or more wireless communications facilities owned or used by more than one public or private entity on a single support structure or otherwise sharing a common location. Co-location shall also include the location of wireless communications facilities with other facilities such as buildings, water tanks, light standards, and other utility facilities and structures.

Distributed Antenna System (DAS): A system of small antennas installed on existing infrastructure such as telephone poles and streetlights throughout an area, which are interconnected by fiber optic cable to a central hub location, and are generally designed to support multiple wireless carriers.

Microcell Facility: A wireless communication facility serving a single carrier and consisting of an antenna no larger than 4 feet in height or, if tubular, no more than 6 feet long and 4 inches in diameter comprised of a networked set of antennas that are connected with each other and to a wireless service source, such that a one (1) or more high-power antennas that serve a given area are replaced by a group of lower-power antennas to serve the same geographic area.

Readily Visible: An object that can be identified as a wireless telecommunications facility when viewed with the naked eye.

Related Equipment: All equipment ancillary to the transmission and reception of voice and data via radio frequencies. Such equipment may include, but is not limited to, cable, conduit, and connectors.

Service Provider: Any authorized provider of wireless communications services.

Stealth Facility: Any commercial wireless communications facility that is designed to blend into the surrounding environment by means of screening, concealment, or camouflage. The antenna and supporting antenna equipment are either not readily visible beyond the property on which they are located, or, if visible, appear to be part of the existing landscape or environment rather than identifiable as a wireless communications facility. Stealth

Technically Feasible: In light of technical feasibility, radio signal transmitting and receiving requirements, aesthetics, electromagnetic fields, costs, landowner permission, facility owner permission, and all necessary approvals under this Chapter.

Tower: Means any structure that is designed or constructed primarily for the purpose of supporting one or more antennas, including self-supporting lattice towers, guyed towers, or monopole towers. The term includes, but is not limited to, radio and television Transmission Towers, microwave towers, common-carrier towers, cellular telephone towers, alternative tower structures and the like.

Townhouse: Two (2) or more attached dwelling units constructed in a row (side-by-side), each with separate sleeping, cooking, and sanitary facilities, each sharing at least one (1) common wall with an adjacent unit, and each served by its own exterior entrance. no dwelling unit may be stacked (located above or below another).

Triplex: Three (3) dwelling units on the same lot or parcel that are designed for residential occupancy by not more than three (3) families living independently from each other, each with separate sleeping, cooking, and sanitary facilities. Unless otherwise provided, a triplex consists of three (3) attached units (side-by-side or stacked). For the purposes of middle housing, the dwelling units may be attached, detached, or semi-detached.

Wireless Communications Facility: Personal wireless service facilities as defined by the federal Telecommunications Act of 1996 including, but not limited to, facilities that transmit and/or receive electromagnetic signals for cellular radio telephone service, personal communications services, enhanced specialized mobile services, paging systems, and related technologies. Such facilities include antennas, microwave dishes, parabolic antennas, and all other types of equipment used in the transmission or reception of such signals; telecommunication towers or similar structures supporting said equipment; associated equipment cabinets and/or buildings; and all other accessory development used for the provision of personal wireless services. These facilities do not include radio and television broadcast towers and government-operated public safety networks.

TRANSIT RELATED DEFINITIONS:

Bus-Rapid Transit (BRT): The use of regularly scheduled passenger bus service along a major transportation corridor, typically arterial streets, with limited stops or stations typically occurring at intersecting in proximity to arterial and/or collector streets.

Light-Rail: The use of regularly scheduled passenger service utilizing trains on fixed-rail along a major transportation corridor, typically arterial streets, with limited stops or stations typically occurring at street intersections in proximity to arterial and/or collector streets.

Station: The stopping place in a transportation system designed or intended to be used for the receiving or discharging of passengers and cargo, but shall not provide for the storage of the conveyance vehicle and shall not include any appurtenant facilities other than a shelter and ticketing facilities for passengers. Stations include train stations, bus stations, and similar transit stations.

Stop: Locations designated by the transit authority in which patrons may access or exit from regularly scheduled light rail, BRT or bus service.

Terminal: Means any facility designed or intended to be used for the receiving or discharging of passengers or cargo and providing for the temporary or permanent storage of the conveyance vehicle. Terminals include train terminals, Airports, bus terminals, Freight Terminals, harbor terminals, or any combination of the above commonly referred to as multipurpose terminals.

Theater: An enclosed building used for public assembly and/or entertainment, including sports events, theatrical performances, concerts and recitals, circuses, stock shows and conventions. "Theater" includes auditoriums.

Transparent or Non-Opaque: Any surface, screen, window, wall, or other structural element through which objects can be clearly seen by the human eye.

Use: Includes construction, establishment, maintenance, alteration, moving onto, enlargement and occupation. Wherever this title prohibits the "use" of any premises for any purposes, such premises and any building, structure or improvement on such premises shall not be used, occupied, altered or improved for such purpose, and no building, structure or improvement on such premises shall be erected, constructed, established, maintained, allowed to remain, altered, moved onto or enlarged which is designed, arranged or intended to be occupied or used for such purpose.

Visible: Capable of being seen (whether or not legible) by a person of normal height and visual acuity.

Warehousing: A business in which goods and/or merchandise are stored as a principle activity, including shipping or distribution activities.

Wheel Stop: A physical barrier sufficient in size to prevent the movement of automobiles or other vehicles over or past such barrier.

Wild Animal: Any wild, exotic, dangerous or nondomestic animal, including but not limited to mammals, fowl, fish or reptiles.

YARD-RELATED DEFINITIONS:

Yard: The open space between a property line and the nearest point of the principal building.

Yard, Front: The space between the front property line and the front façade of the building. On corner lots, the Front Yard shall be located across the narrower frontage of the lot.

Yard, Interior Side: The space between the interior side property line and the building.

Yard, Rear: The space between the rear property line and the rear façade of the building.

Yard, Street-Facing Side: The space between the street-facing side setback and the building. On corner lots, the Street-Facing Side Yard shall be located across the wider frontage of the lot.

Zone or Zoning District: A specifically delineated geographic area in the city within which regulations and requirements uniformly govern the use, placement, spacing, and size of land and buildings.

(Ord. No. 5514, § 2, 7-8-19; Ord. No. 5544, § 18, 12-9-19; Ord. No. 5591, § 5, 12-1-20; Ord. No. 5592, § 6, 12-1-20; Ord. No. 5632, § 6, 7-8-21; Ord. No. 5633, § 1, 7-8-21; Ord. No. 5759, § 12, 12-8-22; Ord. No. 5814, § 9, 10-16-23; Ord. No. 5847, § 6, 3-4-24; Ord. No. 5862, § 4, 7-8-24; Res. No. 12269, § 20, 9-23-24; Ord. No. 5883, § 3, 10-7-24; Ord. No. 5904, § 4, 12-9-24; Ord. No. 5905, § 2, 12-9-24; Ord. No. 5943, § 5, 6-2-25; Ord. No. 5946, § 2, 7-1-25; Ord. No. 5949, § 5, 7-1-25; Ord. No. 5950, § 4, 7-8-25; Ord. No. 5989, § 7, 12-8-25; Ord. No. 5976, § 9, 1-12-26; Ord. No. 5996, § 4, 3-9-26)

TITLE 12 TRANSIT

CHAPTER 1 GENERAL REGULATIONS RELATING TO PUBLIC TRANSIT VEHICLES

12-1-1: DEFINITIONS
12-1-2: POWERS AND DUTIES OF ENFORCEMENT AGENTS
12-1-3: SPECIFIED UNLAWFUL ACTIVITIES
12-1-4: USE RESTRICTIONS
12-1-5: CIVIL VIOLATIONS/PROCEDURE
12-1-6: PENALTIES

CHAPTER 1
GENERAL REGULATIONS RELATING TO PUBLIC TRANSIT VEHICLES

12-1-1: DEFINITIONS

For purposes of this section, unless the context otherwise requires:

FARE: Compensation paid for a light rail, bus boarding or other transit vehicle ticket from a vending machine or other source. (4889)

FARE INSPECTOR: A person authorized to enforce this section. (4889)

GUIDEWAY: An area where light rail vehicles will operate and includes the light rail track, overhead catenary system and the entire area extending seven (7) feet out from the track centerline, or within the prolonged curb lines adjoining the light rail tracks. (4889)

IDENTIFICATION: Any government issued document that contains a photograph, date of birth and physical description, including but not limited to, height, weight, eye color, sex, origin and hair color of the person presenting the identification. (4889)

METRO: The light rail transit system operated by Valley Metro Rail, Inc. (4889)

PAID ZONE: The inside of a transit vehicle, light rail station platform or other areas as designated by appropriate signage or markings. (4889)

PASSENGER: Any person occupying, riding or using any transit vehicle, boarding or alighting from such a vehicle, or waiting within a designated paid zone waiting area at a light rail station. (4889)

PROOF OF FARE PAYMENT: A valid METRO pass or transit fare media valid for the time and day of use. (4889)

TRANSIT COMPLAINT: A complaint whereby the passenger is charged with violating this Chapter. (4889)

TRANSIT ENFORCEMENT AIDE: An employee of the police department or an employee of a private entity which has entered into a contract with either the city, police department or a transit provider on behalf of the City. (4889)

TRANSIT VEHICLE: A light rail train, public bus, trolley or shuttle or Valley Metro vehicle used to transport passengers. (4889)

VALLEY METRO: Motor buses and facilities operated by Phoenix Public Transit Department, City of Tempe, City of Mesa or other local jurisdictions that operate bus transit service as part of Valley Metro, private contractors, and the Regional Public Transportation Authority. (4889)

12-1-2: POWERS AND DUTIES OF ENFORCEMENT AGENTS

(A) A police officer or a transit enforcement aide is authorized to enforce the provisions of this Chapter. (4889)

(B) The presentment of any citation to the violator shall be considered sufficient and appropriate service. (4889)

(C) Nothing in this Chapter is intended to limit the authority of the City or its police officers from enforcing concurrently, or in the alternative, other remedies applicable at law, including those related to the crimes of theft of services and/or trespass. (4889)

(D) A person who refuses to provide proof of fare payment when required, or otherwise violates any lawful regulation of this Chapter, may be removed from the transit vehicle by a fare inspector at any transit facility or usual stopping place. (4889)

12-1-3: SPECIFIED UNLAWFUL ACTIVITIES

(A) Fare violations

1. It is unlawful for any person to:

   (a) Occupy or ride in any transit vehicle that requires a fare without payment of the applicable fare;

   (b) Fail to exhibit proof of fare payment upon request of a fare inspector when occupying or disembarking from a transit vehicle;

   (c) Refuse to disembark a transit vehicle or transit facility upon demand of a fare inspector;

   (d) Fail to provide his or her true name and address or identification to a fare inspector when being served with a transit complaint, or;

   (e) Fail to exhibit proof of fare payment upon request of a fare inspector while waiting in a designated paid zone waiting area. (4889)

(B) Conduct violations

1. It is unlawful for any person to:

   (a) Transport any item that blocks the aisle or the areas of the transit vehicle reserved for passengers in wheelchairs or who use mobility aids;

   (b) Possess an open container of or consume an alcoholic beverage in a transit vehicle or on transit property;

   (c) Carry onto or aboard a transit vehicle or transit property any flammable or explosive substance or hazardous materials;

   (d) Hang onto or attach his or her body in any manner to any exterior part of a transit vehicle or touch a moving transit vehicle;

   (e) Walk between coupled light-rail vehicles;

   (f) Enter upon, occupy or remain upon the guideway except as necessary to board or alight a transit vehicle unless authorized by a valid permit;

   (g) Throw an object at or from any transit vehicle or at any person or thing on or in any transit vehicle, or on transit property;

   (h) Travel in any mode, including but not limited to, motor vehicle, pedestrian, bicycle, equestrian, roller skate, rollerblade, upon or across any guideway, or light rail station platform, except within a marked crosswalk at a signalized intersection;

(i) Place any object on any portion of the guideway;

(j) Interfere with the operation of a transit vehicle, transit facility or ticket vending machine;

(k) Interfere with the ingress or egress of any passenger on transit vehicle or transit property;

(l) Use tobacco products, or carry any lighted or smoldering substance, in any form, aboard a transit vehicle or within any space where posted signage prohibits smoking;

(m) Operate a sound-emitting device, unless the only sound produced by such item is emitted by a personal-listening attachment (earphone or headphone) audible only to the person carrying the device producing the sound, except a peace officer, firefighter, transit employee, or emergency response professional, in the course of employment;

(n) Light a flashlight, scope light, laser light or object that projects a flashing light or beams of light while inside a transit vehicle or towards a transit vehicle, except in an emergency;

(o) Place feet on or lie down on the seat of a transit vehicle or place any article on the seat which would leave grease, oil, paint, dirt or any other substance on the seat;

(p) Expectorate, defecate, urinate or litter in or upon a transit vehicle, transit property or transit facility;

(q) Light or detonate sparklers, firecrackers or other types of pyrotechnic devices in or upon a transit vehicle, transit property or transit facility;

(r) Injure, mutilate, deface, alter, change, displace, remove or destroy any sign, notice or advertisement on or in any transit vehicle or transit property;

(s) Disobey the instructions of any traffic signal, security notice, sign or marker unless otherwise directed by a fare inspector, peace officer or authorized transit representative;

(t) Recklessly damage, deface, mutilate or tamper with transit property so as to impair its function or value;

(u) Post signs, notices or drawings or inscribe a message, slogan, sign, mark or symbol on transit property without written permission from the transit company, or;

(v) Remain at a transit station or stop for more than one hour. (4889)

(C) Transport of animals

1. No person shall transport animals in a transit vehicle unless:

(a) The animal is a guide or service animal, including a service animal in training, that has been specially trained to assist persons with disabilities and is on a leash, or;

(b) The animal is in a completely enclosed and secured cage or carrying case that is small enough to fit on the passenger's lap, and the animal does not otherwise endanger or disturb the comfort or health of other passengers. (4889)

(D) Parking and boarding

1. A driver shall not park a vehicle in the area designated for vehicle parking unless the person complies with posted parking regulations. (4889)

2. If intending to pick up or drop off a transit passenger, a driver shall park in the area designated for vehicle parking or briefly stop his or her vehicle in areas designated for passenger loading or unloading, while remaining with the vehicle, and then remove the vehicle from the station without delay after the transit passenger is dropped off or picked up. (4889)

3. No person shall stop or park a vehicle at a transit parking facility in such manner that the vehicle blocks access to a marked pedestrian walkway, designated traffic lane, parking space, fire lane, boarding zone or guideway. (4889)

(E) Use restriction violation

1. A person shall not ride a transit vehicle in violation of a court order or finding that the person is prohibited from riding a transit vehicle. (4889)

12-1-4: USE RESTRICTIONS

(A) Any person adjudicated responsible of violating any provision of this Chapter resulting in a fine is prohibited from riding a Metro transit vehicle until the sanction is fully paid. (4889)

(B) Any person adjudicated responsible for violating any provision of this Chapter more than two (2) times within a 24 month period is prohibited from riding a Metro transit vehicle for ninety (90) calendar days. (4889)

(C) Any person who poses a serious continuing risk to the public or transit property may be immediately removed from a Metro transit vehicle and the person will be prohibited from using Metro transit vehicles for a period not to exceed ninety (90) calendar days. (4889)

(D) Any person guilty of assaulting a fare inspector or employee acting in the scope of his employment will be prohibited from using a Metro transit vehicle for a minimum of one year. (4889)

12-1-5: CIVIL VIOLATIONS/PROCEDURE

(A) Violation of this Chapter shall be a civil offense and shall be adjudicated pursuant to the Civil Traffic Violations. (4889)

12-1-6: PENALTIES

(A) Violations of this Chapter shall be a civil offense. Upon a finding or admission of responsibility, a violator is subject to a sanction of not less than $50 but not more than $500, plus surcharges, costs and fees as set by law. (4889)

(B) In addition to any fines imposed by this Chapter, a City Magistrate or a Civil Hearing Officer may issue an order prohibiting a person from riding a transit vehicle for a specified period of time. (4889)

CODE COMPARATIVE TABLE

LEGISLATION

This is a chronological listing of the ordinances of the City used in this Code. Repealed or superseded laws at the time of the Republication and any omitted materials are not reflected in the table.
