(d) Every platform remitting taxes pursuant to this section shall maintain its records in such a manner and in such detail that will permit the director of finance or his duly authorized agents to readily verify the correctness of any tax or fee due pursuant to this article. In furtherance of this requirement and in accordance with applicable law, the director may perform an audit and examine the books, records, papers, vouchers, accounts and documents of a platform to ensure full compliance with this section.

(b) *Issue eligible short-term rental permits.* The department shall issue permits only to eligible applicants, as determined by the department.

(c) *Inspections.*

(1) The director of the department or a duly authorized representative shall have the power to inspect any short-term rental to determine compliance with this article.

(2) Inspection may occur at any reasonable time, upon the production of proper identification by a representative of the department, whenever the director of the department has a reasonable belief that a dwelling unit or a short-term rental is in violation of any of the provisions of this article, the Comprehensive Zoning Ordinance, or the Building Code as provided in City Code section 26-14 et seq.

(3) Prior to any inspection of an occupied dwelling unit, the department shall present credentials to the owner, operator, or guest and request entry. If the short-term rental is unoccupied, the department shall attempt to locate the owner or operator and request entry. If the department does not obtain timely consent to enter a dwelling unit, it may attempt to secure entry as provided in subsection (4), below.

(4) Warrant for inspection. If the owner or operator of the short-term rental refuses within 72 hours of department's request, admittance to the director of the department or his/her duly authorized representative for the purpose of making an inspection or examination of the premises, the director or his representative may present an affidavit to any judge of the municipal court stating that he has cause to believe that an inspection of the designated premises will reveal designated violations of this article.

(i) The affidavit alleging probable cause shall identify the factual basis for the belief that the short-term rental is not in compliance with this article, or correlating provisions in the Comprehensive Zoning Ordinance.

(ii) Upon receiving the affidavit, the judge may issue a warrant authorizing the director or his representative to search the premises. The scope of the search authorized by the warrant shall be limited to a search for those designated, alleged violations.

(5) An owner may avoid an inspection authorized by this section by voluntarily forfeiting his or her short-term rental owner's permit, in which case the permit shall be deemed revoked. Nothing herein shall limit the authority of a law enforcement body to secure a search warrant in connection with criminal activity at a dwelling unit unrelated to compliance with this article or the authority of the department to conduct lawful inspections of a dwelling unit unrelated to compliance with this article.

(d) *Rescission of permits.* The department is authorized to cancel and rescind a permit issued under this article whenever a permit so issued is in error, was issued on the basis of inaccurate or misleading information, or contravenes this article or the Comprehensive Zoning Ordinance.

(e) *Suspension of permits where life safety issues are present.* The department may suspend a short-term rental owner permit issued under this article whenever the property it corresponds to is the subject of a violation of building code that may endanger the life or safety of persons on the property. This suspension shall end automatically when the director or their designee determines that the violation has been abated.

(f) *Identification of exempt lodging business rentals offered on platforms.* The department shall issue, at no charge to businesses, an identification number to any exempt lodging business that uses a platform to facilitate booking transactions. To obtain this identification number, the exempt lodging business must provide the department with the following information:

The dashboard shall further indicate the number of adjudications per week and the dispensation of any adjudicated violation. In addition, the dashboard shall list all lots subject to the five-year permit revocation contained in section 26-628(f). The public facing dashboard shall be updated on weekly basis.

(k) *Electronic verification system.* The department shall establish an electronic verification system to be used by platforms to verify the legal eligibility of a property for rental before facilitating a booking transaction. The electronic verification system must be able to:

(1) Confirm that the provided address is licensed for short-term rentals or is an exempt lodging business;

(2) Confirm that the party seeking to rent the property through the platform is the licensed owner or operator of the short-term rental or exempt lodging business;

(3) Confirm that the license is current and will not expire before the rental being facilitated will occur;

(4) Provide a unique confirmation code that the verification has occurred; and

Sec. 26-680. Rights of lessees; retaliation prohibited.

(a) Any lessee may report potential violations of this article or sections 26-156 thru 26-230 of the Minimum Property Maintenance Code by contacting the department and requesting an inspection of a rental housing unit to ensure compliance with the standards contained in this article or sections 26-156 thru 26-230 of the Minimum Property Maintenance Code.

(b) Lessees shall have the right to pursue protected activity pursuant to this section without fear of retaliation. For purposes of this section, "protected activity" includes:

(1) Notifying the lessor or the lessor's agent of any violation of any provision of this article or sections 26-156 thru 26-230 of the Minimum Property Maintenance Code;

(2) Requesting corrective action reasonably calculated to redress any violation of this article or sections 26-156 thru 26-230 of the Minimum Property Maintenance Code;

(3) Notifying regulatory authorities or members of the public of any violation of this article or sections 26-156 thru 26-230 of the Minimum Property Maintenance Code; or

(4) Providing testimony in court or administrative proceedings relative to any violation of this article or sections 26-156 thru 26-230 of the Minimum Property Maintenance Code.

(c) Prohibited acts of retaliation include, but are not limited to, unlawful termination of a lease, decreasing services, increasing the rent or fees, bringing or threatening to bring a lawsuit against a lessee for possession, or refusing to renew a lease, where such acts are motivated by the good-faith exercise of protected activity.

(d) There shall be a rebuttable presumption that the lessor has committed a prohibited act of retaliation if (i) a lessor engages in any prohibited acts of retaliation, as described in subsection (c) above, within six months of a lessee, or a lessee's representative, engaging in protected activity, and (ii) there exists probable cause to believe a violation of this section or sections 26-156 thru 26-230 of the Minimum Property Maintenance Code has been committed, as evidenced by a citation or notice of violation issued by the appropriate enforcement agency, photographs, or other evidence."
(M.C.S., Ord. No. 29239, § 1, 11-3-22; M.C.S., Ord. No. 29497, § 1, 6-22-23)

Sec. 26-681. Overcoming rebuttable presumption of retaliation.

(a) A lessor can overcome the rebuttable presumption of retaliation under this Code section for increasing rent or reducing services:

(1) Under an escalation clause in a written lease for utilities, taxes, or insurance;

(2) As part of a pattern of rent increases or for reducing services as part of a pattern of service reductions, for an entire residential building or complex if a lessor can show by a preponderance of evidence that the lessor had sufficient justification for engaging in the conduct that created the presumption and would have engaged in the conduct in the same manner and at the same time whether or not the lessee engaged in the protected conduct described in section 26-680(b);

(3) As part of a rent increase due to the terms of the lessee's or lessor's participation in a program regulated by this state or the federal government involving the receipt of federal funds, lessee assistance, or tax credits; or

(4) By showing that the lessee failed to make reasonable attempts to notify the lessor of the needed repair.

(b) A lessor can overcome the rebuttable presumption of retaliation under this Code section for a dispossessory action or lease or rental agreement termination in accordance with this article based upon one or more of the following circumstances:

(1) The lessee is delinquent in rent when the lessor gives notice to vacate or files a dispossessory action;

(2) The lessee, a member of the lessee's family, or a guest or invitee of the lessee intentionally damages property on the premises or by word or conduct threatens the personal safety of the lessor, the lessor's employees, or another lessee;

(3) The lessee has otherwise breached the lease agreement between the parties, other than by holding over following a notice of lease non-renewal for no cause; or

(4) By showing that the lessee failed to make reasonable attempts to notify the lessor of the needed repair.
(M.C.S., Ord. No. 29239, § 1, 11-3-22)

Sec. 26-682. Anti-displacement fund.

(a) Lessees displaced as a result of enforcement of this article shall be entitled to apply for grants to help subsidize alternate housing from the city's renter anti-displacement fund.

(b) Receipt of a grant from the anti-displacement fund shall be a privilege and not a right, and may be subject to fund availability and such eligibility criteria as the city may impose.

(c) The payment of grants from the anti-displacement fund to subsidize alternate housing for renters displaced as a result of a lessor's failure to comply with the minimal rental standards shall give rise to a legal obligation on the part of the lessor in favor of the city. The foregoing obligation must be satisfied, in full and with interest at the judicial rate, before a lessor may secure or renew a certificate of compliance. (M.C.S., Ord. No. 29239, § 1, 11-3-22)

Administering agency means the agency or department designated by the Mayor to administer the benchmarking program consistent with the provisions of this article.

Benchmark means to input and submit the total energy consumption of a property for a calendar year, and other descriptive information for such property as required by the benchmarking tool. Total energy consumption does not include separately metered uses not integral to building operations, such as broadcast antennas and electric vehicle charging stations.

Condominium means a property that combines separate ownership of individual units with common ownership of other elements such as common areas.

Covered property means one or more buildings on a tax parcel that measure 20,000 or more gross square feet in total combined floor area except for property owned by the state or federal government.

Energy means electricity, natural gas, steam, or other product sold by a utility to a customer of a property, or renewable on-site electricity generation, for purposes of providing heating, cooling, lighting, water heating, or for powering or fueling other end-uses captured by ENERGY STAR Portfolio Manager.

(M.C.S., Ord. No. 30396, § 1, 7-10-25)

Sec. 26-684. Benchmarking required.

(a) *Benchmarking required.* On or before May 31 each year, the owner of a covered property shall benchmark energy use for such property and submit to the administering agency, in electronic format through U.S. EPA ENERGY STAR Portfolio Manager, or as established by the administering agency, the total energy consumed by the covered property and any other descriptive information for the property as required by the administering agency, for the prior calendar year. The owner of the covered property shall ensure the accuracy of the data submitted in accordance with this section and shall amend any submission upon learning of the inaccuracy.

(b) *Multitenant property benchmarking.* If a covered property has more than one tenant, the owner shall comply with this section using whole building utility data. If whole building utility data is not available, the owner may enter data using another method that captures energy use for the covered property, including but not limited to, compiling data from individual tenants or from a master meter. The owner shall make all reasonable efforts to obtain and ensure submission of all information required to comply with this section. If the owner is unable to obtain data from all tenants, the owner shall still provide a benchmarking submission containing all available information. No provision of this article shall require any person to interfere with any tenant's quiet enjoyment of premises they have leased. No provision of this article amends, abrogates, or limits any right granted to tenants by any other article of this Code or by the laws of the State of Louisiana.

(c) *Vacating nonresidential tenant.* At the completion of a nonresidential tenant's occupancy of a covered property, the owner shall request the tenant's energy use for any period of occupancy relevant to the owner's obligation to benchmark, but only if whole building utility data is not available.

(d) *Transfer of ownership.* The owner of a covered property shall transfer to the new owner all benchmarking data not yet reported pursuant to this section upon transfer of ownership of the property.

(e) *Maintenance of benchmarking records*. The owner of a covered property shall maintain such records as established by the administering agency, which shall include, but need to be limited to, the energy bills and reports or forms received from tenants or utilities. Such records shall be preserved for a period of at least three years and, at the request of the administering agency, shall be made available for inspection and audit by the administering agency. Such records may be kept in electronic form.

(f) *Exemptions.* The administering agency may exempt the owner of a covered property from submission of the benchmarking data as required by this section, upon request of the owner, under the following circumstances:

(1) The covered property does not have a certificate of occupancy or temporary certificate of occupancy, and did not have either a certificate of occupancy or temporary certificate of occupancy at any point during the calendar year being benchmarked;

(2) The city issued a full demolition permit for the covered property during the previous calendar year, if demolition work has commenced, some energy-related systems have been compromised, and a certificate of occupancy will not be issued before May 31;

(3) The covered property does not receive utility services;

(4) The covered property qualifies as having a financial hardship, meaning that the property is (i) controlled by a court

appointed receiver; (ii) owned by a financial institution by borrower default; (iii) acquired by deed in lieu of foreclosure; or (iv) has a senior mortgage subject to a notice of default; or

(5) The covered property is used primarily for manufacturing or other industrial purposes such that the majority of energy used is process energy, generally defined as energy used in the actual manufacturing, production, or processing of a good, commodity, or other material and does not include energy used for heating, cooling, ventilation, domestic hot water, cooking, lighting, office equipment, data centers, or other plug loads.

The administering agency may only grant an exemption if the owner provides documentation reasonably necessary to substantiate the request or otherwise assist the administering agency in its review. Any exemption granted shall be limited to the benchmarking submission date for which the request was made and does not extend to past or future submittals.
(M.C.S., Ord. No. 30396, § 1, 7-10-25)

Sec. 26-685. Identification of covered properties, courtesy notice required.

(a) *List of covered properties.* The administering agency shall identify and compile a list of all covered properties required to comply with this chapter. The administering agency shall publish the list in a downloadable comma-separated values or similar spreadsheet format on the city's website, and shall ensure that the list is maintained and updated, at least annually.

(b) *Courtesy notice to owners.* Between January 1 and March 1 of each year, the administering agency shall provide the owner of a covered property a courtesy notice in writing of the requirements of this chapter. Failure of the administering agency to provide such courtesy notification shall not relieve the owner of any obligation required by this article.
(M.C.S., Ord. No. 30396, § 1, 7-10-25)

Sec. 26-686. Sharing and analysis of benchmarking information.

No later than December 1 of each year, the administering agency shall publish on the city's website a report for the prior calendar year on benchmarking of all covered properties, including an assessment of compliance rates, an assessment of accuracy and issues affecting accuracy, summary energy consumption statistics, and trends observed, and an assessment of changes across the portfolio over time. In conjunction with the report's publication, the administering agency shall publish on the city's website for each covered property, for the prior calendar year, the information generated by the benchmarking tool. The published data shall include, but need not be limited to the following: (i) address; (ii) primary use type; (iii) gross floor area; (iv) site energy use intensity; (v) total annual greenhouse gas emissions; and (vi) whether the owner complied with the requirements of this article.
(M.C.S., Ord. No. 30396, § 1, 7-10-25)

Sec. 26-687. Enforcement and penalties.

(a) Failure of an owner of a covered property to comply with any provision of this article shall be in violation and subject to penalties in accordance with chapter 6.

(b) The penalty for each violation of this article adjudicated in accordance with chapter 6 shall not exceed the monetary limit established by section 6-37.

(c) Each day that the owner of a covered property fails to comply with this article shall constitute a separate and distinct violation.

(d) Penalties shall be assessed according to the following schedule:

(1) The penalty for the first violation shall be no less than the maximum established by section 6-37.

(2) The penalty for subsequent violations after the first violation shall be $60.00 per violation.

(3) The combined penalty amount for all violations shall not exceed $3,000.00.

(e) Penalties shall be waived during the first year that a covered property is subject to the requirements of this article.

(f) The owner of a covered property found in violation of this article may appeal this determination pursuant to chapter 6.

Sec. 27-1. Purpose.

(a) The purpose of this chapter is to encourage alarm system users and alarm businesses to assume increased responsibility for maintaining the mechanical reliability and the proper use of alarm systems, to reduce unnecessary police emergency response to false alarms, and thereby to protect the emergency response capability of the city from misuse.

(b) This chapter governs burglary and/or robbery alarm systems, provides for fines for excessive false alarms, provides for discontinuation of police response to excessive false alarms, provides for punishment of violations and establishes a system of administration.
(M.C.S., Ord. No. 18,230, § 1, 5-15-97)

Sec. 27-2. Definitions.

The following words, terms and phrases, when used in this chapter, shall have the meanings respectively ascribed to them, unless the context clearly indicates a different meaning:

Activation means making the alarm system operational for purposes other than testing, which may result in a police department or other law enforcement agency response to that site.

Alarm administrator means a person or persons designated by the superintendent of the police department to administer, control and review alarm dispatch requests; and coordinate false alarm notification letters, enforcement, and fines, including any individual or organization contracted by the police department for these purposes.

Alarm business means the business by an individual, partnership, corporation, or other entity of selling, leasing, maintaining, servicing, repairing, altering, replacing, moving or installing any alarm system or causing to be sold, leased, maintained, serviced, repaired, altered, replaced, moved, or installed any alarm system in or on any building, structure or facility.

Alarm site means each location requiring an individual alarm system. An alarm site is determined by each separate and distinct municipal address.

Alarm system means any single device or assembly of equipment designed to signal the occurrence of an illegal or unauthorized entry or other illegal activity requiring immediate attention and to which law enforcement is requested to respond, but does not include motor vehicle or boat alarms, fire alarms, domestic violence alarms, or alarms designed to elicit a medical response.

Alarm system monitoring company means any individual, partnership, corporation, or other entity that engages in the business of monitoring property, burglary, robbery, or panic alarms, and of reporting any activation of such alarms to the police department.

Alarm system user or *user* means the person, firm, partnership, association, corporation, company or other entity which owns, leases, controls or occupies any building, structure or facility wherein an alarm system is maintained. For alarm systems in apartment complexes or multiuse commercial buildings, if an alarm system is installed or maintained by an individual tenant, then the tenant is responsible for false alarm dispatches emitted from the alarm system. However, if the alarm system is furnished by the owner or property manager as an amenity, then the owner or property manager of the building is responsible for false alarm dispatches emitted from alarm systems in all units collectively.

Days means business days.

False alarm means an alarm signal, eliciting a response by police when a situation requiring such response does not exist, including but not limited to, the activation or transmission of any alarm signal caused by human error, mechanical or electronic malfunction, negligence of the alarm system user or user's agent or employee, whether or not the exact cause of the alarm activation is determined, or any other activation or transmission of any alarm signal where no actual police emergency exists. Severe weather, power outages, transmission line malfunctions, acts of God, malicious acts of persons not under the control of the alarm system user, or any other cause clearly beyond the control of the alarm system user may be considered in determining if an alarm activation was false and whether any occurrence, fine,

warning, or other action will be taken against the alarm system user as provided for by this section.

Holdup or *panic alarm* means any system, device, or mechanism, activated by human action on or near the premises to alert others that a robbery or other crime is in progress, or that the user is in need of immediate assistance of aid in order to avoid injury or bodily harm.

Local alarm means an alarm system which when activated causes an audible or visual signaling device to be activated only on the premises upon which the system is installed and which is intended to be heard or seen by others outside of the protected premises.

No response means police officers will not be dispatched to investigate a report of an alarm signal.

(M.C.S., Ord. No. 18,230, § 1, 5-15-97; M.C.S., Ord. No. 20317, § 1, 8-16-01; M.C.S., Ord. No. 26459, § 1, 6-18-15)

Cross reference—Definitions and rules of construction, § 1-2.

Sec. 27-3. Alarm system monitoring company requirements.

(a) Alarm system monitoring companies operating in New Orleans shall obtain and maintain all required state and city licenses.

(b) Alarm system monitoring companies engaging in business activities in New Orleans shall annually register with the alarm administrator. No fee for this registration is required, and the alarm administrator shall provide this registration form by December 1st.

(c) When the alarm administrator reports a false alarm at an alarm system user's premises, the alarm system monitoring company shall work cooperatively with the alarm administrator to determine the cause thereof and to prevent reoccurrences. If there is reason to believe that an alarm system is not being used or maintained in a manner that ensures proper operation or such system is not suppressing false alarms, the alarm administrator may require one or more conferences with an alarm system user and/or alarm system monitoring company or designee to review the circumstances of each false alarm.

(d) The alarm system monitoring company shall maintain a verification process to prevent false alarms from resulting in unnecessary police dispatches. A verification process is an independent method of determining that a signal from an automatic alarm system reflects the real need for immediate police assistance or investigation. The means of verification for all alarms produced by an alarm system, excluding holdup or panic alarms, shall include one or more of the following:

(1) An attempt by the alarm system monitoring company, or its representative, to make audio contact with the alarm site and/or alarm user, by telephone or similar means, whether or not actual contact with a person is made, to determine whether an alarm signal is valid before requesting law enforcement dispatch, in an attempt to avoid unnecessary alarm dispatch requests. For the purpose of this ordinance, audio verification by telephone or similar means shall require, at a minimum, that a second call or other audio verification attempt be made to a different number if the first attempt fails to reach an alarm user who can properly identify themselves to determine whether an alarm signal is valid before requesting law enforcement dispatch;

(2) The installation of a video system that provides the alarm system monitoring company with the ability to ascertain that activity is occurring which warrants police assistance or investigations;

(3) An independent confirmation that a signal reflects a need for police assistance or investigation either by the alarm system user, a person at or near the premises, or an alternative response agency, made before dispatching police; or

(4) An alternative system that the superintendent of police certifies has met the verification intent of this section through alternative means.

(e) Alarm system monitoring companies must maintain, for a period of at least one year following request for police dispatch to an alarm site, records relating to such request. Records must

include the name, address and phone number of the alarm system user, the alarm system zone(s) or point(s) activated, the date and time of request for police dispatch, and evidence that an attempt to verify was made prior to request for police dispatch. The alarm administrator may request and is entitled to receive from the alarm system monitoring company or designee copies of such records for individual alarm systems users.

(f) Alarm system monitoring companies shall report alarm signals to the 9-1-1 operator through the call system designated by the alarm administrator. The alarm system monitoring company shall provide the state license code assigned to the alarm company by the state fire marshal's office.

(g) The police department will accept cancellations for dispatch at any time prior to the arrival of police at the alarm site. For false alarm enforcement purposes, any dispatch request canceled prior to the arrival of the police on a burglar alarm site will not be counted as a false alarm.

(h) The provisions of this section do not apply to persons engaged solely in the manufacture, installation, repair, or sale of alarm systems or their components who do not provide alarm monitoring services for any location.

The failure of an alarm system monitoring company to comply with any of the above requirements shall be a violation of this section. Each company that violates this section shall be liable for a fine of $250.00 for each violation. Furthermore, violation of this section may result in the suspension or revocation of any permit or license issued to the alarm system monitoring company responsible for violating the section.
(M.C.S., Ord. No. 18,230, § 1, 5-15-97; M.C.S., Ord. No. 26459, § 1, 6-18-15)

Sec. 27-4. Alarm system operation and maintenance.

An alarm system user shall:

(1) Register annually with the alarm administrator. No fee for this registration is required, and the alarm administrator shall provide this registration form no later than 30 days prior to the end of the calendar year.

(2) Maintain the premises containing an alarm system in a manner that ensures proper operation of the alarm system.

(3) Make every reasonable effort to respond or cause a contact person(s) to respond to the alarm system's location within a reasonable period of time when notified by the alarm administrator or the police department to deactivate a malfunctioning alarm system, to provide access to the premises, or to provide security for the premises.

(4) Not manually activate an alarm for any reason other than the occurrence of an event for which the alarm system was intended to be activated.

(5) Instruct all personnel who are authorized to place the system or device into operation of the appropriate method of its operation.

(6) Ninety days after adoption of this ordinance, all new and upgraded alarms shall meet industry standards of technology.

(M.C.S., Ord. No. 18,230, § 1, 5-15-97; M.C.S., Ord. No. 20317, § 1, 8-16-01; M.C.S., Ord. No. 26459, § 1, 6-18-15)

Sec. 27-5. Alarm business requirements.

(a) *Licensing requirements.* All alarm businesses engaged in business in the city shall be required to possess a state license under the "Alarm Industry Licensing Act," R.S. 40:1662.1 through 40:1662.17.

(b) *License copy to be maintained by the police department.* All alarm businesses engaged in business in the city shall file a copy of such valid state certificate attached to the alarm company registration form with the alarm administrator.

(c) *Alarm business registration with the police department.* All alarm businesses engaged in business in the city shall annually register with the alarm administrator. No fee for this registration is required, and the alarm administrator shall

provide this registration form no later than 30 days prior to the end of the calendar year. This registration shall include information regarding the following:

(1) The proper business or trade name, address and telephone number of the alarm business.

(2) All other names, addresses and phone numbers under which the company or corporation conducts business.

(3) If an unincorporated association, the name of the owner and responsible associates.

(4) If a corporation, the names and positions of officers in the corporation.

(5) If a corporation, the name and address of the registered agent.

(6) A statement that the alarm business will maintain a 24-hour emergency service, seven days a week, including holidays.

(d) *Exemptions.* The provisions of this section do not apply to persons engaged solely in the manufacture or sale of alarm systems or their components from a fixed location who do not install, maintain, service, or plan an alarm system for any location. The provisions of this section further do not apply to persons engaged in the repair of alarm systems or their components from a fixed location, and who do not, either personally or through another, visit the structure in which or on which the alarm system is installed.

(e) *Penalties for no license.* No person or company shall engage in an alarm business in the city without holding a current and valid license issued by the state fire marshall as provided by state law. The individual limits of the class of the license as to the skill level and type of work that may be performed by the company, are applicable in the city. Prosecution for any violation of applicable state law shall be furthered by the police department.

(f) *Cooperation with police department.* When the alarm administrator reports a false alarm at an alarm system user's premises, the alarm business should work cooperatively with the alarm system user and the alarm administrator to determine the cause thereof and to prevent reoccurrences. If there is reason to believe that an alarm system is not being used or maintained in a manner that ensures proper operation or such system is not suppressing false alarms, the alarm administrator may require one or more conferences with an alarm system user, and/or the alarm business, and/or alarm system monitoring company responsible for the repair of the alarm system to review the circumstances of each false alarm.

(g) *Instructions and training to be provided.* Every alarm business leasing or furnishing to any alarm system user an alarm system which is installed on the premises on or after the effective date of this section shall furnish the alarm system user with written instructions to enable the user to properly operate the alarm system at any time.

(h) *Compliance with installation and equipment requirements.* Every alarm business leasing or installing an alarm system which is installed on the premises on or after the effective date of this section shall comply with the alarm system installation and equipment requirements as specified under section 27-5 of this chapter.

(i) *Alarm registration and user identification letter requirements.* The alarm business is responsible for the completion and submission of the registration of any new installation and/or conversion-takeover of any existing system. The alarm business shall forward to the police department a completed alarm user identification letter including certification of the date of installation, conversion, of takeover of the alarm system. This form shall be submitted within ten days of the install, conversion, or takeover of the alarm system.

(j) *Penalties for noncompliance.* The failure of an alarm business that engages in business activities in the city to comply with any of the above requirements shall be a violation of this section, subject to prosecution in municipal court and such alarm business shall be fined, upon conviction, not less than $100.00 nor more than $250.00 within any 30-day period for each violation.
(M.C.S., Ord. No. 18,230, § 1, 5-15-97; M.C.S., § 1, 8-16-01)

Sec. 27-6. Penalty for false alarms.

(a) No person shall activate any holdup or panic alarm for the purpose of summoning police except in the event of an unauthorized entry, robbery or other crime being committed or attempted on the premises or in the event the person needs immediate assistance in order to avoid injury or bodily harm. The unnecessary dispatching of police for holdup or panic alarms will be counted against the alarm site as a false alarm.

(b) The sending of a false alarm constitutes a violation of this section. Administrative warnings, fines, and/or suspension of a police response may be assessed/imposed upon an alarm system user by the alarm administrator for excessive false alarms during a calendar year as follows:

(1) For the first false alarm, no fine will be assessed.

(2) For the second false alarm, the alarm system user will be liable for a fine of $75.00.

(3) For the third false alarm, the alarm system user will be liable for a fine of $150.00.

(4) For the fourth false alarm, the alarm system user will be liable for a fine of $150.00 and a notice of suspension will be issued ("No response" by police).

It shall be the responsibility of the police department or the superintendent's designee to collect such fines.

(c) At the end of the calendar year, the false alarm count will revert to zero, provided all charges, fees, and fines have been paid.

(d) Upon receipt of the first false alarm report, the alarm administrator shall send a notification of false alarm and alarm user identification letter by regular mail to the owner or occupant of the alarm site as well as the alarm system monitoring company. The alarm system user shall be accountable for accurately completing the requested identification information and returning same to the alarm administrator. Failure to return the alarm user identification letter within 15 days after the false alarm report notification shall cause the alarm administrator to send a suspension notification letter by certified mail to the owner or occupant of the alarm site, notifying the recipient that the police will not respond to any future alarms at the alarm site.

(e) After the second false alarm, the alarm administrator shall send notification to the alarm system user by regular mail and a copy by regular mail to the alarm system monitoring company, which shall contain the following information:

(1) That the second false alarm has occurred and that if two more false alarms occur within the calendar year, police officers will not respond to any subsequent alarms without the approval of the superintendent through the alarm administrator.

(2) That the alarm system user has the right to contest the finding of a false alarm or apply for reinstatement, and that such appeal may only be filed by following the procedures outlined in section 27-7.

(3) The assessment of the $75.00 fine to the alarm system user.

(f) After the third false alarm within a calendar year, the alarm administrator shall send notification to the alarm system user by regular mail and a copy by regular mail to the alarm system monitoring company, which shall contain the following information:

(1) That the third false alarm has occurred and that if one more false alarm occurs within the calendar year, police officers will not respond to any subsequent alarms without the approval of the superintendent through the alarm administrator.

(2) That the alarm system user has the right to contest the finding of a false alarm or apply for reinstatement, and that such appeal may only be filed by following the procedures outlined in section 27-7.

(3) The assessment of the $150.00 fine to the alarm system user.

(g) After the fourth false alarm within a calendar year or if an alarm system user has failed to submit the alarm user identification letter within 15 days of receipt of the first false alarm report notification, there will be no police response to

subsequent alarms without the approval of the superintendent through the alarm administrator. The alarm administrator shall send a "notice of suspension of police response" to:

(1) The commander of the police department communications division so that the computer aided dispatch address file history can be recorded.

(2) The alarm system user by certified mail and for the fourth false alarm within the calendar year, a fine of $150.00 shall also be imposed on the alarm system user.

(3) The alarm system monitoring company by certified mail.

The suspension of police response to an alarm site shall begin 15 days after the date of receipt of the notice of suspension of police response to the alarm system user unless a written appeal of the suspension has been made to the superintendent through the alarm administrator.

(h) If an assessed fine has not been paid within 30 days of the day the notice of fine was mailed by the alarm administrator and there is no appeal pending on the finding of the false alarm, the alarm administrator shall send a second notice of false alarm and fine by certified mail along with a notice of late fee of $25.00. If payment is not received within ten days of the day such notice was received, the alarm system user shall be in violation of this section and liable for a fine of $100.00 and such delinquent payment may result in "no response" to the alarm system user's alarm. In the case of no response, a "notice of suspension of police response" shall be sent by the alarm administrator to the alarm system user and alarm system monitoring company by certified mail.

(i) The police department is authorized by this section to use discretion in deciding whether to direct police units to an alarm site where a suspension of police response has been implemented and there has been a report made that police assistance or investigation is needed. The police department is also authorized to use discretion in responding to alarm sites serviced by alarm monitoring companies that have a record of persistently violating the requirements of section 27-3, as evidenced by repeated violations of these requirements over a period of six months or more.

(j) It shall be a violation of this section for an alarm system user or alarm monitoring company to cause or allow notification to the police department from an alarm site which has a suspended police response status. Alarm systems under suspension must be prevented from causing notification to the police department by an alarm system monitoring company, unless the monitoring company is reporting a crime that has been verified as a result of a video feed or citizen report. For each false alarm reported while under suspension, the alarm system user is liable for a fine of $200.00 and the alarm monitoring company for a fine of $200.00.

(k) Fines assessed under this section shall not be applicable to alarm systems installed upon premises occupied by the United States Government, by the State of Louisiana, or by the City of New Orleans.

(l) The city may create and implement an alarm user awareness class and may request the area alarm companies to assist in developing and implementing the class. The alarm user awareness class, shall, at a minimum, inform alarm users of the problems created by false alarms and instruct alarm users on ways to help reduce false alarms. The alarm administrator may grant the option of attending a class in lieu of paying one assessed fine, not to exceed $75.00. The alarm administrator shall also have discretion to waive one $75.00 fine if the alarm user presents verification by the alarm monitoring company or designee of additional training and equipment check. A credit shall be granted for the alarm user awareness class or documented training and equipment check, but not both, in a calendar year.
(M.C.S., Ord. No. 18,230, § 1, 5-15-97; M.C.S., Ord. No. 26459, § 1, 6-18-15)

Sec. 27-7. Appeals and reinstatement.

(a) An alarm system user who wants to appeal a false alarm determination by the alarm administrator, fines, suspension of police response, or an alarm system user's request for reinstatement, may file such appeal with the superintendent through the alarm administrator. Alarm users

shall appeal in writing with the form provided by the alarm administrator. Appeals can request either an in-person hearing or a mail hearing. Only in-person hearings will be granted for cases that involve the appeal of a suspension of police response. Appeals will be heard by the alarm administrator's designee. The alarm system user must submit a request for appeal hearing in writing within 15 days of the user having received the contested notification. Failure to appeal the determination in the required time period results in a conclusive presumption of the validity of the alarm administrator's determination. If an in-person hearing is requested, written notice of the time and place of the hearing shall be served on the alarm system user by the alarm administrator by regular mail, which date shall not be more than 20 days after the filing of the request for hearing. The alarm system user shall have the right to present to the alarm administrator written and oral evidence. The alarm administrator shall consider the evidence offered and issue written findings waiving, expunging or entering penalties provided by this chapter on an alarm system user's record as appropriate.

(b) To appeal a notice of no response, the alarm system user may request an appeal hearing as specified above. At this hearing, the alarm system user must present evidence to the alarm administrator that the alarm system user has taken corrective action, including but not limited to, repairing, modifying, or installing alarm equipment that will serve to prevent future false alarms at that site. Written documentation shall be required. Such correction may also include mandatory user false alarm reduction training through a recognized class. Upon receipt of this documentation and payment of the $100.00 fine, the alarm administrator shall reinstate the police response status and inform the alarm monitoring company of this action. The false alarm count will return to zero for that calendar year upon installation of a new alarm system or upon correction or modification of an existing alarm system.

(c) Reinstatement shall be denied unless the alarm administrator determines that the action taken will substantially reduce the likelihood of false alarms. The alarm administrator shall give notice by certified mail to the alarm system user and alarm monitoring company that police response will be suspended and notify the alarm system user as to what is necessary in order to have the response status reinstated.

(d) An alarm system monitoring company that receives a fine under sections 27-3, 27-4, or 27-5 may file an appeal of the fine with the superintendent through the alarm administrator. Appeals can request either an in-person hearing or a mail hearing. The appellant must submit a request for appeal in writing within 15 days of the company receiving a fine. Failure to appeal the determination in the required time period results in a conclusive presumption of the validity of the alarm administrator's determination. If an in-person hearing is requested, written notice of the time and place of the hearing shall be served on the company by the alarm administrator by regular mail, which date shall not be more than 20 days after the filing of the request for hearing. The company shall have the right to present to the alarm administrator written and/or oral evidence. The alarm administrator shall consider the evidence offered and issue written findings waiving, expunging or entering penalties provided by this chapter on the company's record as appropriate.

(M.C.S., Ord. No. 18,230, § 1, 5-15-97; M.C.S., Ord. No. 26459, § 1, 6-18-15)

Sec. 27-8. No liability of city.

The city assumes no liability for any defects in the operation of any alarm system or transmission of signals, for any failure or neglect of any person associated with the installation, operation or maintenance of an alarm system, for any failure or neglect of any alarm system user, for the transmission or receipt of alarm signals or any failure or neglect to respond upon receipt of an alarm from any source. In the event that the city finds it necessary to suspend police response, the city shall have no liability for such action. The city shall not be liable to the alarm system monitoring company or the alarm system user for discretionary deployment of police resources. No special duty other than that owed to the general public shall be created by virtue of this section or as a result of the transmission to or receipt of alarm signals by the police department.

(M.C.S., Ord. No. 18,230, § 1, 5-15-97; M.C.S., Ord. No. 20317, § 1, 8-16-01; M.C.S., Ord. No. 26459, § 1, 6-18-15)

Sec. 27-9. Annual report.

The alarm administrator shall conduct an annual evaluation and analysis of the effectiveness of this chapter. An annual report shall be generated by March 1st of each year for the city council. This report shall identify system improvements as warranted. At a minimum, the report shall provide the number of calls for service for burglar alarms, identify compliance with this ordinance among both alarm system users and alarm system monitoring companies, and the number of incidents that were in fact a result of the commission of a crime (attempted or otherwise).
(M.C.S., Ord. No. 18,230, § 1, 5-15-97; M.C.S., Ord. No. 26459, § 1, 6-18-15)

In the event of conflict between the terms and conditions of any Franchise and the terms and conditions on which the City can grant a Franchise as set forth in the City Charter, the City Charter shall, without exception, control.

The Franchise shall be subject to the Charter and general ordinance provisions of the City. Nothing in the Franchise shall be deemed to waive the requirements of the various codes and ordinances of the Grantor regarding permits, fees to be paid, manner of construction, or the zoning and land use regulations.

(b) *Occupation of Rights-of-Way.* For the purpose of operating and maintaining a Wireline Telecommunications System in the City, a Grantee may occupy, install, maintain and/or repair such Equipment and Plant as is necessary and appurtenant to the operation of a Telecommunications System on public property and Rights-of-Way within the City. The Grantor shall be deemed to have consented if the Grantor has not acted within 120 days after receipt of Grantee's request for approval unless Grantor and Grantee agree to an additional period of time for Grantor's review. The granting of such consent shall not render unnecessary any subsequent consent. For the purpose of determining whether it will consent to such change, transfer, or assignment of the Franchise, the Grantor may inquire into the qualifications of the prospective holder of the Franchise, including, but not limited to proof of such Person's compliance with the insurance and Security Fund requirements of this Act, and Grantee shall assist the Grantor in any such inquiry.

(f) *Lease of Facilities.* The Grantee is not authorized to license or Lease to any Person the right to occupy or use the public Rights-of-Way or Grantee's facilities located on the Rights-of-Way for the conduct of any private business unless such Person has obtained a Franchise or other appropriate authorization from the City for such occupancy. Grantee shall immediately notify Grantor when Grantee Leases or allows any occupancy of its facilities by any Person. To the extent that any Right-of-Way or Public Property is occupied by a Distributed Antenna System, no Wireless Service Provider granted access to the Grantee's Hub shall be required to obtain a separate Franchise or other authorization from the City. Grantee shall advise Grantor in writing of the name, address and telephone number of each Wireless Service Provider granted access to Grantee's Hub within ten days of the grant of such access.

Prior to construction in areas not specified in the Franchise Application, Grantee shall notify the Director of the planned construction and obtain necessary permits from the City. Upon receipt of all necessary permits, Grantee shall notify the Director that it has obtained all necessary permits, and shall request that the Director approve an amendment to the route maps included in the Franchise Application. The Director shall determine whether there is sufficient capacity in the Rights-of-Way to accommodate Grantee's proposed expansion. The Director shall have 30 days from the receipt of such request to approve or disapprove the proposed amendment to the route maps. Such approval or disapproval shall be determined in a reasonable manner.

(b) *System Construction Schedule.*

(1) *Initial Service and Expenditures.* The Grantee shall begin construction within six months after acceptance of its Franchise. The Grantee shall complete installation of the Wireline Telecommunications System in accordance with plans submitted by Grantee at the time of Application and approved by Grantor pursuant to Section 30-55(b).

In addition, the Grantee shall provide the Director with evidence whether schedules are being met and the reasons for any delay.

(3) *Failure to Begin or Complete Construction.* Grantee's failure to begin System construction within six months after its acceptance of the Franchise and/or Grantee's failure to complete construction as agreed will be grounds for termination of the Franchise, at the option of the Grantor.

(c) *Penalties for Delay in Construction.* The Grantor may, at its sole discretion, apply penalties in connection with delays in System construction and operation but not limited to:

(1) Reduction in the duration of the Franchise on a month-for-month basis for each month of delay exceeding three months beyond the schedules set forth herein;

(2) Termination of the Franchise for delays exceeding 18 months beyond the schedules set forth herein; and/or

(3) Other remedies or penalties provided by law.

(1) Wireline Telecommunications Systems shall be installed underground at Grantee's cost where existing utilities are already underground. The utility owning the underground facilities shall make a reasonable determination as to whether space is available to accommodate the Wireline Telecommunications System cables or Equipment and Plant. A negative determination shall not relieve the Grantee of the responsibility to underground its Telecommunications System in underground utility areas. Previously installed aerial facilities shall be placed underground in concert, and on a cost-sharing basis, with other utilities when such other utilities may convert from aerial to underground construction.

(2) No Wireline Telecommunications System shall be installed aerially in the "underground area" as stated in Ordinance No. 13,838 C.S. and Ordinance 4001 M.C.S. (Section 146-359 of the City Code).

(3) Whenever technically feasible, underground conduits and ducts shall be installed in the street between the adjacent property line and the curb line.

(4) Whenever technically feasible conduits and ducts for Wireline Telecommunications Systems shall be installed parallel with the curb line and cross the Rights-of-Way perpendicular to the Rights-of-Way centerline.

Grantee shall provide one set of such diskettes and one set of blue or black line "as built" drawings to the Director, and one set of drawings and diskettes to the Director of the Department of Public Works. State plane coordinates shall be shown for benchmarks, curb lines and structures. Drawings shall show horizontal dimensions from the curb line and elevations.

(f) *Construction Codes.* The Grantee shall strictly adhere to all building, safety and zoning codes currently or hereafter in force. The Grantee shall arrange its lines, cables, and other appurtenances so as to cause no unreasonable interference with the use of public property by any person. In the event of such interference, the Grantor may require the removal of the Grantee's lines, cables, and appurtenances from the property in question with costs borne by the Grantee.

(g) *Erection of Additional Poles.* Grantee is prohibited from erecting new poles unless Grantee procures approval for such erection from the appropriate City agency or department in accordance with all applicable rules, regulations and laws, including but not limited to all applicable zoning and land use regulations. If Grantee requires additional poles in an existing aerial utility route, Grantee shall negotiate with the utility company for the installation of the needed poles in accordance with existing statutes and regulations.

(h) *Restoration of Rights-of-Way.*

(1) Whenever the Grantee shall disturb the surface or ground of any Rights-of-Way for any purpose mentioned herein, it shall restore the same to the condition in which it existed prior to the disturbance, and when any opening is made by the Grantee in any hard surface pavement in any Rights-of-Way, the Grantee shall promptly refill the opening and restore the pavement. The Grantor may refill and/or repave, in case of neglect of the Grantee, upon failure of Grantee to refill or repave after 10 days notice. The reasonable cost thereof, including the cost in inspection and supervision, shall be paid by the Grantee. All excavations made by the Grantee in the Rights-of-Way shall be properly safeguarded for the prevention of accidents. The work hereby required shall be done in strict compliance with the rules, regulations and ordinances of the Grantor as now or hereafter provided.

(2) The surface, base, and landscape treatment of any Right-of-Way disturbed by the Grantee in the construction or maintenance of its Wireline Telecommunications System shall be restored in accordance with existing standards of the Grantor in effect at the time of the work. Should the Grantor determine, within two years from the date of such restoration, that such surface, base, or landscape treatment requires additional restoration work to meet existing standards of the Grantor, the Grantee shall perform such additional restoration work at its expense to the reasonable satisfaction of the Grantor.

(i) *Reservation of street rights and nonliability of grantor.* Nothing in the Franchise shall be construed to prevent the Grantor from constructing sewers and drains, grading, paving, repairing and/or altering any street, alley, public highway, or municipal structure, or laying down, repairing or removing water mains or constructing or establishing any other public work. All such work shall be done, insofar as practicable, in such a manner as not to obstruct, injure or prevent the free use and operations of Grantee's telecommunications system. If any such property of the Grantee shall interfere with the construction or repair of any street or public improvement, whether it be construction, repair or removal of a sewer or water main, the improvement of a right-of-way or any other public improvement, all the Grantee's telecommunications system shall be removed or

replaced in such a manner as shall be directed by the Grantor so that the same shall not interfere with such public work of the Grantor, and such removal or replacement shall be at the expense of the Grantee. Grantor shall not be liable to Grantee or third parties for any damage, breakage or repair, or any claims for loss of use, business interruption, claims by users, repair or replacement cost to any third party in connection with the removal of any of Grantee's telecommunication systems. In any event, the Grantor shall not be liable for any damage occurring to the Grantee's system caused by the Grantor, its officers, agents, employees, or independent contractors, in the performance of their duties in connection with public works, nor shall the Grantor be held liable for the interruption of service by actions of the Grantor, its officers, agents, employees, or independent contractors, in the performance of their duties in connection with public works. When reasonably possible, the Grantee shall be consulted prior to any public work affecting its telecommunications system, but the Grantor shall have no liability to the Grantee in the event it does not so consult the Grantee.

(j) *Trimming of Trees.* Tree cutting or trimming on public property shall be performed in accordance with Ordinance No. 365 M.C.S. (Chapter 106 of the City Code).

(k) *Street Vacation or Abandonment.* In the event any Rights-of-Way or portion thereof occupied by the Grantee shall be vacated by the Grantor, or the use thereof discontinued by the Grantee during the term of the Franchise, the Grantee shall remove its facilities therefrom unless specifically permitted to continue the same, and on the removal thereof shall restore, repair or reconstruct the street area where such removal has occurred, and place such street area in such condition as may be required by the Grantor. In the event of the failure, neglect or refusal of the Grantee, after 30 days notice by the Grantor to repair, improve or maintain such street portion, the Grantor may do such work or cause it to be done, and the reasonable cost thereof as determined by the Grantor shall be paid by the Grantee and collection may be made by court action or otherwise.

(l) *Movement of Facilities.* In the event it is necessary temporarily to move or remove any of the Grantee's wires, cables, poles or other facilities placed pursuant to the Franchise, in order lawfully to move a larger object, vehicle, building or other structure over the Rights-of-Way of the Grantor, Grantee upon reasonable notice shall move, at the expense of the person requesting the temporary removal, such of its facilities as may be required to facilitate such movements.

(2) *National Electrical Safety Code.* The Grantee shall use, install, maintain, repair and/or operate its wires, cables, fixtures, and other Equipment and Plant in accordance with the requirements of the National Electrical Safety Code and the requirements of any utility providing pole or conduit space and in such manner that Grantee will not interfere with any installations of the Grantor or any public utility.

(3) *Maintenance.* All of Grantee's lines, equipment, and connections in, over, under, and upon the Rights-of-Way, wherever situated or located, shall at all times be kept and maintained in a safe and suitable condition, and in good order and repair.

(4) *Louisiana One Call.* No Franchise shall be granted hereunder for a Wireline Telecommunications System using underground Equipment and Plant within the Rights-of-Way unless and until the Grantee becomes a member of, participates in, and shares the cost of the Louisiana One Call System, as required in R.S. 40:1749.11 et seq. Written evidence of compliance with this section shall be provided to Grantor

before a Franchise is granted. Compliance with this section must be maintained throughout the term of the Franchise.

Access to the aforementioned records shall not be denied by the Grantee on the basis that such records contain "proprietary" information. To the extent permitted by law, the Grantor shall preserve the confidentiality of information designated by Grantee as proprietary and the auditor conducting the audit on behalf of Grantor shall execute a proprietary agreement, subject to the approval of the Grantor and Grantee, for the protection of proprietary documents made available for review under this Section. In the event such an audit reveals that Grantee has underpaid its Franchise Fees, Grantee shall promptly reimburse the Grantor for such underpayment. In the event that the underpayment is in the amount of five percent or more, Grantee shall promptly reimburse the Grantor for such underpayment as well as Grantor's reasonable costs associated with the conduct of the audit.

(b) *Communications with Regulatory Agencies.* Grantor shall have the right to request and receive copies of all petitions, applications, communications, and reports submitted by the Grantee to the FCC, the Securities and Exchange Commission, or any other Federal or State regulatory commission or agency having jurisdiction in respect to any matters affecting telecommunications installations and operations authorized pursuant to the Franchise. Grantor likewise reserves the right to request and review copies of responses from the regulatory agencies to the Grantee.

(c) *Annual Report.* No later than Grantee shall notify the Department of the end of its fiscal year and within 90 days after the end of Grantee's fiscal year, the Grantee shall present a written report to the Grantor which shall include:

(6) Grantee shall provide a report which identifies each provider which is using Grantee's System for the resale of services, and the extent of such services.

(M.C.S., Ord. No. 17,560, § 1, 6-6-96)

Sec. 30-50. General financial and insurance provisions.

(a) *Existing Franchises Subject to Ordinance of General Application.* For existing Franchises and

permits and privileges which are subject to an Ordinance of General Application, as compensation for the occupancy of Public Property and of the Rights-of-Way of the City for the construction, operation, maintenance, and/or the reconstruction of a Wireline Telecommunications System within the City, the value of such rights and privileges granted by the Franchise, the fact that the Rights-of-Way contain limited and finite capacity, the administration of this Act and the Franchise by the Grantor, the usage and interference with the public's use of Rights-of-Way, the reduction in the useful life of the Rights-of-Way and other costs and obligations undertaken by the Grantor herein, the Grantee shall be subject to all existing provisions of its Franchise, permits and privileges and the Grantee shall pay to the Grantor an annual compensation to be calculated as stated below:

(1) *Long distance and Private Communications Systems.* For Wireline Telecommunications Systems providing Long Distance Network Service or Private Communications Systems, the compensation payable to Grantor shall be based on a fee of $2.60 per year per linear foot of Right-of-Way or other Public Property occupied by Grantee's system, and every five years such compensation shall be increased by the average increase in the Consumer Price Index ("CPI") for the preceding five years. The increase initially shall become effective on the fifth anniversary of the date Grantee's Franchise was accepted pursuant to Section 30-55 of this Act and every five years thereafter;

(2) *All others.* For all other Wireline Telecommunications Systems the compensation payable to the Grantor shall be as follows:

a. For the first year of Grantee's Franchise, Grantee shall pay $2.60 per linear foot for its approved System route;

b. For the second, third and fourth years of Grantee's Franchise, Grantee shall pay five percent of its Gross Receipts from the operation of the System within the City, plus $2.60 per linear foot for any additional approved System route in excess of its original approved System route; and

c. Thereafter, when five percent of Grantee's Gross Receipts from the operation of the System within the City exceeds the minimum fee calculated on a $2.60 per linear foot basis in any year, the compensation payable to Grantor for that year shall be five percent of Grantee's Gross Receipts from the operation of the System within the City. For any year in which five percent of Grantee's Gross Receipts exceeds the linear foot payment, Grantee shall be credited with the amount of the linear foot fee payment to Grantor, and Grantee shall pay to the Grantor the additional amount by which the Gross Receipts payment exceeds the linear foot payment;

(3) It is expressly understood that the compensation terms provided in this Section 30-50(a) shall be applicable to persons with existing franchises, permits and privileges which are subject to an Ordinance of General Application, and shall replace any similarly characterized compensation terms (percentage of gross revenues or per linear foot fees) provided in such existing franchise, permit or privilege. Notwithstanding the foregoing, nothing contained in this Section 30-50(a) shall be deemed to relieve any Person having such existing franchise, permit or privilege of its obligation to pay any and all other forms of compensation contained in its franchise, permit or privilege.

(b) *Future Franchises.*

(1) *Compensation.* All Franchises granted or authorized after the date of this Act shall provide compensation for the occupancy of Rights-of-Way in the following categories:

a. For Private Communications Systems, the compensation payable to Grantor shall be based on a per linear foot of Right-of-Way occupied by Grantee's System.

b. For Wireline Telecommunications Systems providing Long Distance Network Service to a Service Address within

the city, the compensation payable to the grantor shall be an amount per minute for toll calls charged to a service address within the corporate limits of the city or other rate set by the grantor.

c. For all other wireline telecommunications systems (excluding wireline communications systems), the compensation payable to the grantor shall be based on a linear foot measurement or percentage of grantee's gross receipts from the operation of the system within the city.

d. For wireless communications systems, the compensation payable to the grantor shall be a fixed amount per month per cell site located on rights-of-way, plus an amount per year per linear foot of right-of-way occupied by grantee's backhaul network.

e. Where a franchise has been granted to a primary grantee by grantor for the operation of a telecommunications system, and the compensation to be paid for said telecommunications system has been based on a linear-foot measurement, the compensation to grantor for any additional franchise granted with the permission of the primary grantee to a secondary grantee, and involving the use by secondary grantee of all or a portion of the telecommunications system operated by the primary grantee, shall be the lesser of a) $25,000.00 or b) the sum which results from multiplying the total linear footage to be used by secondary grantee times the charge per linear foot paid by the primary grantee. Where the franchise to be granted to secondary grantee involves the use of all or a portion of the telecommunications system of more than one primary grantee, the total compensation to be paid to grantor by secondary grantee shall be the lesser of a) $25,000.00 or b) the sum which results from multiplying the charge per linear foot paid by the respective primary grantees times the combined linear footage from all telecommunications systems to be used by secondary grantee. The term primary grantee, as used herein, shall mean a grantee of a franchise to operate a specific telecommunications system who allows a secondary grantee to acquire or use not more than percent of the total strands of fiber contained in the cable(s) which run along said primary grantee's telecommunications system, or portion thereof. The term secondary grantee, as used herein, shall mean a subsequent grantee who acquires from the primary grantee the right to use not more than ten percent of the total strands of fiber contained within cable(s) running along the primary grantee's telecommunications system, or portion thereof. The provisions of this subsection shall not apply to Wireless Service Providers granted access to the Grantee's Distributed Antenna System for the purpose of providing wireless telecommunications service pursuant to Section 30-46(f) of this Code.

f. Where a Franchise has been granted to a Grantee for the operation of a Distributed Antenna System, the annual compensation payable to Grantor by Grantee for the use and occupancy of Grantor's Right-of-Way or other Public Property shall be $2.60 per linear foot of fiber optic cable in the City's Right-of-Way and/or other Public Property occupied by Grantee's approved Distributed Antenna System route used to connect Grantee's Hub to the Node nearest to Grantee's Hub. Nothing contained in this subsection shall be deemed to relieve the Grantee from per Node rental

payment required by subsection g., the security fund required by subsection (b).

If technologically possible, all accessory equipment used in connection with a Grantee's Distributed Antenna System shall be housed outside of the public right-of-way.

g. Where a Franchise has been granted to a Grantee for the operation of a Distributed Antenna System, Grantee shall pay Grantor as rent for the placement of a remote unit consisting of a distributed, repeater, or microcell antenna system on Grantor's Public Property, including, but not limited to, utility poles, stop signs, other utility structures, and/or public buildings, a rental payment of $70.00 per month for each Node located within the Franchise area granted for the operation of Grantee's Distributed Antenna System. Grantee shall immediately notify the Department of Finance when Grantee adds an additional Node or Nodes and the rent due to Grantor shall be increased retroactively to the date such Node or Nodes were installed. The monthly rental payment required by this Section 30-50(b)(1)(g) shall be in addition to the annual compensation due Grantor for the use and occupancy of Grantor's Right-of-Way or other Public Property pursuant to subsection f.

(2) *Criteria.* In negotiating the specific compensation levels for the categories set forth in this subsection, the parties shall consider the following criteria:

a. The burden(s) created by grantee's occupancy of the rights-of-way;

b. The inconvenience to citizens created by grantee's construction and use of the rights-of-way;

c. The damage caused to the rights-of-way by grantee's construction;

d. The diminution of the useful life of rights-of-way caused by construction on such rights-of-way;

e. Hazard to public safety occasioned by grantee's occupancy of rights-of-way;

f. Costs of monitoring and administering the franchise;

g. The value of the rights-of-way affected by grantee's occupancy;

h. Location of rights-of-way sought to be occupied by grantee in their limited and finite capacity;

i. Rates paid by grantees under existing franchises; and

j. Any and all such other criteria as the grantor deems appropriate.

(c) *Miscellaneous general financial and insurance provisions.*

(1) *Payments.* All payments calculated by the linear foot are due and payable one year in advance and shall be paid annually by January 1 of each year. Payments calculated on all other bases are payable quarterly, within 30 days after the end of the preceding calendar quarter. Payments shall be by check made payable to the city and delivered to the department of finance. If any payment is not received by the due date, grantee shall add to its payment a late penalty in the amount of ten percent of the amount due. Additionally, interest in the amount of ten percent per annum shall accrue on all payments and penalties until paid in full.

(2) *Acceptance of payments.* No acceptance of any payment shall be construed as an accord that the amount paid is in fact the correct amount, nor shall such acceptance of payment be construed as a release of any claim the grantor may have for further or additional sums payable under the provisions of this Act. All amounts paid shall be subject to audit and recomputation by the grantor.

(3) *Further consideration.* As further consideration for the privilege of occupying the rights-of-way, every grantee may be required to provide to grantor the following:

a. Upon request and without charge, reasonable access to and utilization of any conduit and/or duct space in grantee's telecommunication system, for noncommercial purposes. Such requirement shall be determined at the time that grantee's franchise application is considered, and shall depend upon the location of grantee's proposed wireline telecommunications system and grantor's reasonable needs in such location.

b. Dark fibers in every portion of the fiber backbone cable of the wireline telecommunications system installed during the term of the franchise for the grantor's use. Grantee shall also provide feeder cables to such public buildings as are adjacent to grantee's wireline telecommunications system, provided that the grantor constructs, or otherwise provides, an entry link to those buildings for such feeder cable. The number and location of dark fiber to be provided hereunder shall be determined at the time that grantee's franchise application is considered, and shall depend upon the location of grantee's proposed wireline telecommunications system and grantor's reasonable needs in such location.

(i) For purposes of this subsection, "adjacent" shall mean adjoining or abutting a portion of the right-of-way containing grantee's wireline telecommunications system, and "public buildings" shall mean buildings where agencies which perform public functions are located.

(ii) If the initial dark fibers are not functional due to any cause, the grantee shall provide fully operational dark fibers at no cost to the grantor.

(iii) The city may interconnect such dark fibers to any other wireline telecommunications system.

(iv) In lieu of providing all or a portion of the dark fibers, the city may accept other services, facilities, funds, or other financial arrangements similar in value to the provision of dark fibers.

(4) *Nature of franchise fee.* The compensation and other payments to be made pursuant to the franchise are in addition to any and all taxes and fees or charges which the grantee or any affiliated person shall be required to pay to the grantor or to any other governmental authority. Neither the grantee nor any affiliated person shall have or make any claim for any deduction or other credit of all or any part of the amount of compensation or other payments made pursuant to the franchise against any other fees or charges, including ad valorem taxes and/or any taxes which the grantee or any affiliated person is required to pay to the grantor.

(d) *Security fund.*

(1) *Fund deposit.* Within 30 days after the effective date of the franchise, the grantee shall deposit into a bank account, established by the city and maintained on deposit through the term of the franchise, the sum of up to $100,000.00, or, at grantee's option, grantee shall post a performance bond in accordance with the applicable city procedures, in an amount of up to $100,000.00, however, where a Franchise has been granted to a Grantee for the operation of a Distributed Antenna System, the Grantee shall deposit into a bank account, established by the City and maintained on deposit through the term of the Franchise, the sum of $25,000.00, or at Grantee's option, Grantee shall post a performance bond in accordance with

the applicable City procedures, in the amount of $25,000.00, in either case, unless a different amount is specified in the franchise, as security for:

a. The faithful performance by it of all of the provisions of the franchise; and

b. Compliance by grantee with all orders, permits and directions of any agency of the grantor having jurisdiction over grantee's acts or defaults pursuant to this Act; and

c. The payment by the grantee of any claims, liens, fees and/or taxes due the grantor which arise by reason of the construction, operation or maintenance of the system.

The maintenance of such bank account shall be a continuing obligation of grantee until the grantee has satisfied all of its obligations with the grantor that may have arisen from the acceptance of the franchise by the grantee or from its

exercise of any privilege or right granted thereby. Alternatively, the Grantee may provide such other instrument, security, or guaranty which is acceptable to the Grantor. It is the intent of Grantor that the Security Fund be established in an amount or have a value sufficient to effectuate the purposes set forth in subsections a., b., and c. above.

(2) *Failure to Pay.* If the Grantee:

a. Fails to pay to the Grantor any fees due and unpaid; or

b. Fails, after ten days notice, to repay to the Grantor any damages, costs, or expenses which the Grantor shall be compelled to pay by reason of any act or default of the Grantee in connection with the Franchise;

c. Fails to pay the Grantor any fees due as a result of any transactions which have the effect of circumventing payment of such required fees and/or the evasion of any such payment by noncollection or nonreporting of Gross Revenues, bartering, or any other means which evades the actual collection of revenues for business pursued by the Grantee; or

d. Fails, after 30 days notice of such failure, to comply with any provision of the Franchise which the Grantor reasonably determines can be remedied by an expenditure of the Security Fund;

Then the Grantee shall have committed a material violation of the Franchise and in that event the Grantor may immediately withdraw the amount thereof, from the Security Fund. Upon such withdrawal, the Grantor shall notify the Grantee of the amount and date thereof.

(3) *Restoration of Fund.* Within 30 days after notice to Grantee that any amount has been withdrawn by the Grantor from the Security Fund pursuant to this Section, the Grantee shall deposit a sum of money sufficient to restore such Security Fund to the original amount.

(4) *Return upon expiration.* In the event that the Franchise is terminated by reason of default by Grantee, to the extent that such default is for nonpayment of any amount due and payable pursuant to the Franchise, an amount of the Security fund equal to the amount of the nonpayment shall become the property of the Grantor. The Grantee, however, shall be entitled to the return of such Security Fund, or portion thereof, as remains on deposit at the expiration of the term of the Franchise, or upon termination of the Franchise at an earlier date, provided that there is then no outstanding default on the part of the Grantee.

(5) *Rights of Grantor.* The rights reserved to the Grantor with respect to the Security Fund are in addition to all other rights of the Grantor whether reserved by this Act or authorized by law, and no action, proceeding or exercise of a right with respect to such Security Fund shall affect any other right the Grantor may have.

(6) *Construction Bond.* Grantor may require a construction bond from Grantee.

(e) *Damages and Defense.*

(1) *Hold Harmless.* The grantee shall hold the Grantor harmless for all damages and penalties suffered as a result of, or arising out of, the Grantee's negligent use, installation, maintenance, repair and/or operation of the Wireline Telecommunications System authorized whether or not any act or omission complained of is authorized, allowed, or prohibited by the Franchise. This provision is not intended to create liability for the benefit of third parties but is solely for the benefit of the Grantor and the Grantee. In the event any claim is made against the City that falls under this indemnity and a court of competent jurisdiction should adjudge, by final decree, that the Grantor is liable therefor, the Grantee shall indemnify and hold the

Grantor harmless of and from any such judgment or liability, including any court costs, expenses, and attorney fees incurred by the Grantor in defense thereof. Upon commencement of any proceeding at law or in equity against the Grantor relating to or covering any matter covered by this indemnity, where the Grantee has agreed, by accepting the Franchise, to indemnify and hold the Grantor harmless, or to pay such final judgment and costs, as the case may be, the Grantor shall give the Grantee immediate notice of such suit or proceeding. The Grantee shall provide a defense to any such suit or suits, including any appellate proceedings brought in connection therewith, and pay as aforesaid, any final judgment or judgments that may be rendered against the Grantor by reason of such damage suit. Upon failure of the Grantee to comply with the "defense of suit" provisions of this Act, after reasonable notice to it by the Grantor, the Grantor shall have the right to defend the same and in addition to being reimbursed for any such judgment that may be rendered against the Grantor, together with all court costs incurred therein, the Grantee shall reimburse the Grantor for attorney's fees, including those employed by the Grantor in such case or cases, as well as all expenses incurred by the Grantor by reason of undertaking the defense of such suit or suits, whether such suit or suits are successfully defended, settled, compromised, or fully adjudicated against the Grantor.

(2) *Defense Expense.* The Grantee shall pay all expenses incurred by the Grantor in defending itself with regard to all damages and penalties mentioned in subsection (e) above and for all claims against Grantor arising out of the Franchise. These expenses shall include all out-of-pocket expenses, such as attorney fees, and shall also include the reasonable value of any services rendered by any employees of the Grantor. In the event the Grantor is compelled to undertake the defense of any such suit by reason of the Grantee's failure to perform as here and above provided, the Grantor shall have the full right and authority to make or enter into any settlement or compromise of such adjudication as the City Council shall deem in the best interest of the Grantor, this without the prior approval or consent of the Grantee with respect to the terms of such compromise or settlement.

(f) *Liability Insurance and Indemnification.*

(1) Except as provided in Section 30-50(f)(3) below, the Grantee shall maintain, throughout the term of the Franchise, liability insurance naming both the Grantee and the Grantor as insureds with regard to all damages mentioned in subsection (e) above, in the minimum amounts shown below:

a. Workmen's Compensation (if applicable): $100,000.00/$500,000.00/$100,000.00

b. Commercial General Liability: $2,000,000.00 each occurrence; $2,000,000.00 Aggregate

c. Motor Vehicle: $2,000,000.00 CSL (Combined Single Limit)

d. Builder's Risk "All Risk": 100 percent of Contract Amount

(2) Grantee shall, at its own expense, maintain in full force and effect throughout the duration of the Franchise, a liability insurance policy or policies underwritten by a carrier rated by Best's as either A or AA and licensed to do business in the State of Louisiana, and a copy of such policy or policies shall be submitted to Grantor. Such policy or policies shall name the City of New Orleans, including its boards and commissions and its officers, agents and employees, jointly and severally, as named insureds. Such policy or policies shall apply as primary insurance and shall stipulate that no other insurance in effect by the Grantor will be called on to contribute to a loss covered hereunder and shall provide for a waiver of subrogation in favor of the Sewerage & Water Board of New Orleans. Upon the effective date of

the franchise, the grantee shall furnish proof to the grantor that satisfactory insurance policies have been obtained. A copy of the certificate of insurance shall be on file with the department of finance and maintained current at all times. Such policy or policies shall provide 45 days' prior notice to the director if the policy or policies should be canceled or materially changed.

(3) In the event grantee is self-insured, then in lieu of the certificate of insurance required herein, grantee shall provide grantor upon the effective date of the franchise, proof that grantee's self-insurance program is sufficiently liquid to cover all losses in the amount shown in subsection (1) above. Grantee shall immediately notify grantor of any change in its self-insured status and of any change in the ability of grantee to cover the losses specified in subsection (1) above.

(g) *Costs of auditors and consultants.* As necessary aid in the analysis and/or audit of all matters relative to the franchise, the grantor shall be entitled to employ services of an auditor and/or consultant. Any and all costs incurred by the grantor in this regard shall be borne by the grantee if any violations of its franchise or this Act are identified in such audit, analysis or consult, as provided in sections 158-661 and 158-691 of the City Code.
(M.C.S., Ord. No. 17,560, § 1, 6-6-96; M.C.S., Ord. No. 20808, § 1, 8-8-02; M.C.S., Ord. No. 21480, § 1, 4-1-04; M.C.S., Ord. No. 22082, §§ 4—7, 11-17-05)

Sec. 30-51. Rights reserved to grantor.

(a) *Right to purchase the system.* Upon termination by grantor of any franchise granted hereunder for cause, the grantor may elect to acquire ownership of the franchised wireline telecommunications system. In such event, the purchase price shall not include any sum for the value of the franchise, and the equipment and plant shall be valued according to the net book value of initial cost less depreciation and salvage. Additionally, grantor may, in any lawful manner and upon the payment of fair market value lawfully ascertained, purchase, condemn, acquire, take over and hold the equipment and plant of the grantee, in whole or in part, through the exercise of its powers of eminent domain. In such event, the actions of the grantor and the grantee shall be governed by state law.

(b) *Right to require removal of property.* At the expiration or termination of any franchise the grantor shall have the right to require the grantee to remove, at its own expense, all portions of the telecommunications system from all public property and rights-of-way within the city.
(M.C.S., Ord. No. 17,560, § 1, 6-6-96)

Sec. 30-52. Termination and renewal.

(a) *Termination.*

(1) In addition to any rights set out elsewhere in this Act, in particular subsections 30-46(f) and 30-52(g), the grantor reserves the right to seek termination of a franchise pursuant to subsection (a)(3) hereof, and all rights and privileges pertaining thereto, in the event that:

a. *Violation of provisions.* The grantee violates any material provision of the franchise; or

b. *Construction delays.* The grantee's construction schedule is delayed for over 18 months; or

c. *Insolvency.* The grantee becomes insolvent, or is adjudged a bankrupt; or

d. *Fraud.* The grantee is found by grantor to have practiced any fraud or deceit upon the grantor or subscribers.

(2) Upon failure of the grantee to comply with the material terms of the franchise, the grantor may by ordinance terminate the franchise in accordance with the procedures set forth in this section. Upon termination, all rights of the grantee shall immediately be divested without further act upon the part of the grantor. At grantor's option, grantor shall either purchase grantee's equipment and plant in accordance with subsection 30-51(a), or

grantor shall require grantee to remove its equipment and plant from the public property and rights-of-way. If grantor requires removal, the grantee shall forthwith remove its structures or property from the rights-of-way and restore it to such condition as the grantor may require. Upon failure to do so, the grantor may perform the work and collect the cost thereof from the grantee. The cost thereof shall be a lien upon all equipment and plant and property of the grantee. Such lien shall not attach to property of grantee located on poles of other utilities until removal of such property from the pole or poles.

(3) *Procedures for termination.*

a. Upon written recommendation by the director or upon its own motion, the city council shall give written notice to the grantee of the existence of a material violation or failure to comply with the franchise. Grantee shall have a period of 60 days after receipt of such notice from the grantor in which to cease such violation and comply with the terms and provisions hereof. In the event grantee fails to cease such violation or to otherwise comply with the terms hereof, then grantee's franchise is subject to termination under the following provisions. Provided, however, that, if the grantee commences work or other efforts to cure such violations within 30 days after receipt of written notice and shall thereafter prosecute such curative work with reasonable diligence until such curative work is completed, then such violations shall cease to exist, and the franchise will not be terminated. If the curative work is not completed within 90 days of commencement of such work, grantee and the department shall report to grantor with respect to the progress made on such curative work and the anticipated completion date.

b. Termination shall be declared only by a written decision of the city council after an appropriate public proceeding whereby the grantee is afforded the full opportunity to be heard and to respond to any such notice of violation or failure to comply. The grantee shall be provided at least ten days' prior written notice of any public hearing concerning the termination of the franchise and, in addition, ten days notice by publication shall be given of the date, time and place of any public hearing to interested members of the public, which notice shall be paid for by the grantee.

c. The city council, after full public hearing, and upon finding a material violation or failure to comply, may at its discretion terminate the franchise, or impose a lesser penalty than termination of the franchise, including but not limited to a penalty of up to $1,000.00 per day per violation, or excuse the violation or failure to comply upon a showing by the grantee of mitigating circumstances or upon a showing of good cause of such violation or failure to comply as may be determined by the city council.

(b) *Receivership.* The grantor shall have the right to terminate the franchise 120 days after the appointment of a receiver, or trustee, to take over and conduct the business of the grantee, whether in receivership, reorganization, bankruptcy, or other action or proceeding, unless such receivership or trusteeship shall have been vacated prior to the expiration of the 120 days or unless:

(1) *Trustee compliance.* Within 120 days after his/her election or appointment, such receiver or trustee shall have fully complied with all the provisions of the franchise and remedied all defaults thereunder; and

(2) *Agreement to be Bound.* Such receiver or trustee, within such 120 days, shall have executed an agreement, duly approved by the court having jurisdiction in the premises, whereby such receiver or trustee assumes and agrees to be bound by each and every provision of the Franchise.

(c) *Renewal or Extension.* Upon expiration of the initial term of the Franchise, the Grantor may, at its election renew or not renew the Franchise. A Franchise may be renewed by the Grantor, upon application by the Grantee, in accordance with the then existing rules, the New Orleans City Charter, and applicable law. Nothing in this provision shall be construed to require such renewal.
(M.C.S., Ord. No. 17,560, § 1, 6-6-96)

Sec. 30-53. Miscellaneous provisions.

(a) *Compliance with Laws.* The Grantee shall comply with all Federal and State of Louisiana laws, as well as all ordinances, resolutions, rules, and regulations of the Grantor heretofore or hereafter adopted or established during the entire term of the Franchise including but not limited to all zoning and subdivision regulations.

(b) *Severability.* If any provision of this Act is held to be invalid or preempted by Federal or State regulations or laws, such finding or preemption shall not affect the remaining provisions of the Act which can reasonably be given effect, except as provided in subsection (f) below.

(c) *Captions.* The captions to sections throughout this Act are intended solely to facilitate reading and reference to the sections and provisions of this Act. Such captions shall not affect the meaning or interpretation of this ordinance.

(d) *Public Purpose.* All of the provisions of this Act are hereby declared to be for a public purpose and the health, safety, and welfare of the general public, consistent with the maximum permissible exercise of the City's police powers under its Home Rule Charter. Any member of the governing body or city official or employee charged with the enforcement of this Act, acting for the Grantor in the discharge of his or her duties, shall not thereby render himself personally liable; and he or she is hereby relieved from all personal liability for any damage that might accrue to persons or property as a result of any act required or permitted in the discharge of his or her duties.

(e) *Nonenforcement by the Grantor.* The Grantee shall not be relieved of its obligation to comply with any of the provisions of the Franchise by reason of any failure of the Grantor to enforce prompt compliance.

(f) *Subsequent Action by State or Federal Agencies.* Should the State of Louisiana, the LPSC, the FCC, or any other agency of the Federal government subsequently require the Grantee to perform or cease to perform any act which is inconsistent with any provisions of the Franchise, the Grantee shall so notify the Grantor. Upon receipt of such notification, the Grantor, in consultation with the Grantee, shall determine if a material provision of the Franchise is affected. Upon such determination, the Grantor, in consultation with the Grantee, shall have the right to modify or amend any of the sections of the Franchise to such reasonable extent as may be necessary to carry out the full intent and purpose of the Franchise. The Grantor may terminate the Franchise in the event the Grantor determines that substantial and material compliance with the original proposed terms of the Franchise has been frustrated by such State or Federal requirement. In such an event, Grantee's rights are reserved to pursue whatever remedies it may have, and to comply with the duties and obligations which may be imposed upon it by such state or federal law.

(g) *Causes Beyond Reasonable Control.* In the event Grantee's performance of any of the terms, conditions, obligations, or requirements of the Franchise is prevented or impaired due to any cause beyond its reasonable control or not reasonably foreseeable, such inability to perform shall be deemed to be excused and no penalties or sanctions shall be imposed as a result thereof. Such causes beyond Grantee's reasonable control or not reasonably foreseeable shall include, but shall not be limited to, acts of God, civil emergen-

cies and labor unrest or strikes. Grantee shall notify the Director whenever performance is prevented or impaired.

(h) *Nonwaiver of Regulatory Authority.* Nothing in this Act shall be deemed to constitute a waiver or limitation of any powers or supervision, regulation and control of the City Council, as authorized in Section 3-130 of the Home Rule Charter.
(M.C.S., Ord. No. 17,560, § 1, 6-6-96)

Copies of all such documents shall also be filed with the City Council Utilities Regulatory Office.

(c) *Application Fee.* An applicant for a Wireline Telecommunications Systems Franchise shall pay an initial application fee of $500.00. The application fee shall be submitted at the time that all application documents are submitted for the Grantor's review.

(d) *Publication Costs.* The Grantee shall pay the costs of publication of the Telecommunication System Franchise, as such publication is required by law.

The annual franchise fee shall be payable in quarterly installments.

(b) *Nature of franchise fee.* The compensation and other payments to be made pursuant to the franchise are in addition to any and all taxes and fees or charges which the grantee or any affiliated person shall be required to pay to the grantor or to any other governmental authority. Neither the grantee nor any affiliated person shall have or make any claim for any deduction or other credit of all or any part of the amount of compensation or other payments made pursuant to the franchise against any other fees or charges, including ad valorem taxes and/or any taxes which the grantee or any affiliated person is required to pay to the grantor.

(3) Fails, after 60 days' notice of such failure, to comply with any provision of the franchise which the grantor reasonably determines can be remedied by an expenditure of the security fund;

(d) *Security fund.*

a. The faithful performance by it of all of the provisions of the franchise; and

b. Compliance by grantee with all orders, permits and directions of any agency of the grantor having jurisdiction over grantee's acts or defaults pursuant to this Act; and

c. The payment by the grantee of any claims, liens, fees and/or taxes due the grantor which arise by reason of the construction, operation or maintenance of the wireless services; or

d. The failure of grantee to remove the equipment related to the wireless services after expiration or termination of the franchise.

The maintenance of such bank account, performance bond, letter of credit or such other instrument, security or guaranty acceptable to the grantor shall be a continuing obligation of grantee until the grantee has satisfied all of its obligations with the grantor that may have arisen from the acceptance of the franchise by the grantee or from its exercise of any privilege or right granted thereby. It is the intent of grantor that the security fund be established in an amount or have a value sufficient to effectuate the purposes set forth in subsections a., b., and c. above. This provision is not intended to create liability for the benefit of third parties but is solely for the benefit of the city and the grantee.

a. *Grantee shall indemnify.* In the event any claim is made against the city that falls under this indemnity and a court of competent jurisdiction should adjudge, by final decree, that the city is liable therefor, the grantee shall indemnify and hold the city harmless of and from any such judgment or liability, including any court costs, expenses, and attorney fees incurred by the city in defense thereof, to the extent of grantee's indemnity obligation set forth in subsection (1) above.

(1) Except as provided in subsection (3) below, the grantee shall maintain in full force and effect, at its own cost and expense, commercial general liability insurance (CGL) covering CGL on an "occurrence" basis, including products and completed operations, property damage, bodily injury and personal and advertising injury with limits of $1,000,000.00 per occurrence, and $2,000,000.00 in the aggregate.

In addition, the grantee shall obtain worker's compensation coverage for work done under the franchise and as required by the State of Louisiana, with statutory limits, and employer's liability insurance with a limit of $1,000,000.00 per accident for bodily injury or disease, policy limit.

(2) Grantee shall provide the director and the grantor's risk manager with a certificate of insurance including the grantor, the City of New Orleans, its departments, political subdivisions, officers, officials, employees, and volunteers as an additional insured as their interest may appear under this Act on each policy (except workers compensation and employer's liability) and extension or renewal thereof. Grantee shall maintain on file with the director and grantor's risk manager a current certificate of insurance certifying the coverage required. The certificate of insurance shall be subject to the approval as to form by the grantor's risk manager. Upon receipt of notice from its insurer(s), grantee shall provide at least 30 days' prior written notice to grantor of such cancellation of required coverage that is not replaced.

(3) In the event grantee is self-insured as to any required coverage, then in lieu of the certificate of insurance required herein, grantee shall provide grantor upon the effective date of the franchise, proof that grantee's self-insurance program is sufficiently liquid or that grantee or its parent company has sufficient net worth to cover all losses in the amount shown in subsection (1) above. Grantee shall immediately notify grantor of any change in its self-insured status as to any coverage required hereunder, and of any change in the ability of grantee to cover the losses specified in subsection (1) above.

(4) Grantee shall, at its own expense, maintain in full force and effect throughout the duration of the franchise, a liability insurance policy or policies underwritten by a carrier rated by A.M. Best's as A- or better and authorized to do business in the state, and upon prior notice and at reasonable times, a copy of such policy or policies shall be available for review by grantor at the offices of grantee. Such policy or policies, with the exception of workers compensation and employer's liability policy, shall name the city, including its boards and commissions and its officers, agents and employees, jointly and severally, as additional insureds as their interest may appear under this Act. Such policy or policies shall apply as primary insurance and shall stipulate that no other insur-

ance in effect by the city will be called on to contribute to a loss covered hereunder and shall provide for a waiver of subrogation. Upon the effective date of the franchise, the grantee shall furnish proof to the grantor that satisfactory insurance policies have been obtained. A copy of the certificate of insurance shall be on file with the department of safety and permits and maintained current at all times.

(h) *Costs of auditors and consultants.* As necessary to aid in the analysis and/or audit of all matters relative to the franchise, the grantor shall be entitled to employ services of an auditor and/or consultant. Any and all reasonable costs incurred by the grantor in this regard shall be borne by the grantee if any violations of its franchise or this Act are identified in such audit, analysis or consult, as provided in sections 30-65.2(h)(5), 30-65.4(f), and 30-65.13(d).
(M.C.S., Ord. No. 27999, § 1, 3-14-19)

Sec. 30-65. Construction provisions.

(a) *Application to place communications equipment.* Whenever grantee desires to place communications equipment on any utility poles or other city property in the public right-of-way, grantee shall complete an application with the department of safety and permits for permission to attach to specific utility poles or other city property in the public right-of-way. This written request shall also include, but not be limited to, the location of specific utility poles or other city property in the public right-of-way, and the description of equipment to be attached. Upon receipt of request, grantor shall have right to approve locations, and afterwards, to inspect grantee installation of equipment onto city street light poles.

(b) *Coordination with third parties.* The director shall be responsible for identifying and notifying all third-party users of any city-owned utility poles or other city property in the public right-of-way of any proposed new contracts or modifications of existing contracts. Grantee shall coordinate directly with third-party users any work that may be required by the third-party users to accommodate grantee's proposed work. Any costs associated with such modification of third-party user's equipment are the responsibility of grantee.

(c) *Access.* For the term of the franchise, grantee is authorized to use any easements of grantor and public rights-of-way for access to utility poles or other city property in the public right-of-way to which communications equipment is attached pursuant to the franchise so long as such use is not in conflict with grantor's present and future use. The right to access the utility poles or other city property in the public right-of-way granted by the franchise is nonexclusive.

(d) *Installation of new utility poles.* If grantee needs overhead communications equipment in location(s) where the city does not have utility poles, grantee shall complete an application with the department of safety and permits under the franchise for permission to place communications equipment on the new utility poles. Grantor, at its sole discretion and at the expense of grantee, may install utility poles in such location or permit the grantee to install new utility poles, as appropriate. Unless deemed necessary by grantor, grantee will not be required to remove said poles upon expiration of the franchise agreement and they will become the property of the City of New Orleans.

(e) *Approval to place communications equipment.*

(1) After a completed application has been submitted by grantee and has been reviewed and approved by the director and approved by all necessary departments and commissions in areas subject to their jurisdiction, permission to place the communications equipment described in the application on the poles identified in the request shall be granted by the grantor in writing, as expeditiously as feasible, but within 30 days after the receipt of a completed request. The director shall notify an applicant within ten days of confirmed receipt of an initial application to install a small wireless facility as whether the application is

complete. For all other initial applications for wireless facilities, the director shall notify an applicant within 30 days of confirmed receipt as to whether the application is complete. If an application is incomplete, the director will notify the applicant within ten days of receipt of the supplemental submission needed to complete the application as to whether the application is complete.

(2) If, in the judgment of the city, the accommodation of any of grantee's communications equipment necessitates either the rearrangement of city equipment located on a utility pole or the replacement of a utility pole, the director will notify grantee of the necessary changes and the estimated cost of the work required. At director's option, grantor may require grantee to perform the requested work on behalf of the grantor to grantor's specifications. Any services that grantee agrees to provide grantor shall be memorialized in a separate agreement. Alternatively, grantor may perform the work at grantee's sole expense.

Grantee shall reimburse grantor for the total cost of the work including all direct employee wage and benefit costs, cost of materials, and cost of equipment used. Grantor will make reasonable efforts to notify grantee of any extraordinary cost before such costs are incurred. Prior to commencing any work, the director may require grantee to pay a deposit equal to the estimated total cost of the work. Grantor shall not be responsible to grantee for any loss sustained by grantee by reason of the failure of grantor or any third party to perform work contemplated by this section.

(3) After completion of any work required by the grantor to make the utility poles ready for placement of the communications equipment and after receiving written approval to proceed from the director, grantee shall have the right to install, maintain and use communications equipment described in its request, subject to any reasonable technical conditions in the grantor's written approval.

Grantee shall also complete such installation within such reasonable time limit as determined by the director, subject to weather delays, as may be specified in each application and written approval. If the installation is not substantially completed in the specified time limit, then, upon notice by director, the request and approval shall be considered withdrawn and a new request must be submitted for approval.

(4) Nothing in this agreement shall be construed to obligate grantor to grant grantee permission to use any part of the utility poles, provided that such use shall not be denied or delayed in a discriminatory manner.

(f) *Additional attachments.* Grantee shall not have the right to place, nor shall it place, any additional communications equipment in contact with any street light poles without first completing an application for and receiving written permission to do so from grantor as described above. Grantee may modify or rearrange existing attachments without being charged an additional attachment fee; for any new attachments the applicable fee shall be charged.

(g) *Installation and maintenance of attachments.* Grantee shall, at its own sole risk and expense, install and maintain communications equipment on utility poles in safe and good repair and in accordance with the requirements of the grantor and all municipal, state and federal laws, ordinances and regulations.

(h) *Identification of communications equipment.* Grantee shall identify the communications equipment newly installed or serviced at each contact point by means of a marking method mutually agreed upon by the parties. Such identification shall be visible. Grantee shall provide the grantor a 24-hour contact phone number to enable grantor to report any concerns regarding the communications equipment. In the event that grantor reports such concerns to grantee, grantee shall promptly respond to such

call(s) and perform the required repair or correct any adverse impact to grantor's operations caused by such communications equipment at no cost to grantor unless caused by grantor.

(i) *Reservation of rights.* Grantor reserves the right to operate and maintain utility poles to fulfill its service requirements to its residents. Grantor shall not be liable to grantee for any interruption to grantee's service or for any interference with the operation of grantee's equipment arising in any manner except for gross negligence or willful misconduct from the use of utility poles by grantor in accordance with this Act, provided that grantor shall give grantee 15 days (or such additional time as may be reasonably required) advance notice of any non-emergency work which affects grantee's communications equipment.

(j) *Grantorship or vested interest created.* No use of any utility poles under this Act shall create or vest in grantee any ownership interest, tenancy, estate or any other interest in the utility poles and grantee's rights therein shall be and remain a license. Each party shall pay the cost of the installation and maintenance of its own facilities. Nothing in this Act shall be construed to compel grantor to maintain any utility poles for a period longer than demanded by its own service requirements.

(k) *Damage to grantor property.* Grantee shall exercise special precautions to avoid causing damage to utility poles and/or any grantor property. Grantee shall assume responsibility for any loss from such damage caused by grantee. Grantee shall make a report within five days of knowing of the occurrence of any such damage to the director and shall, within 30 days following demand, either repair such damage or reimburse grantor for the total cost incurred in making repairs including all direct employee wage and benefit costs, cost of materials, and cost of equipment used.

(l) *Use of easements.* For the term of each agreement pursuant to this Act, grantee is authorized to use any easements and rights-of-way of grantor for access to utility poles to which communications equipment is attached pursuant to this Act so long as such use is not in conflict with grantor's present and future use, and grantor is able to authorize or suffer legitimately the same.

(m) *Replacement of utility poles.* In the event any utility poles occupied by grantee pursuant to this Act are to be replaced, repaired or altered, grantee shall, at its own sole risk and expense, upon notice from director, relocate or replace its communications equipment or transfer it to replacement utility poles or perform any other work in connection with said equipment that may be required by grantor. If grantee is required to remove any of its small wireless facilities from any utility pole then grantor will specify an alternative utility pole on which grantee will be entitled to relocate its small wireless facilities. To the extent technically feasible, the alternative site proposed will be located in substantially the same area and capable of providing the same level of service as determined by the grantee.

In cases of emergency, grantor may, at grantee's sole expense, relocate, replace or renew the communications equipment, or transfer it to replacement utility poles or perform any other work required to serve the needs of grantor. Grantor shall make commercially reasonable efforts to notify grantee of the relocation of its communications equipment in the event of an emergency, prior to the relocation of that equipment.

(n) *Removal or vacation.* Should grantee remove its communications equipment from any of the city's utility poles, grantee shall, within 30 days after such removal, give notice thereof to the director, specifying the poles vacated and the location thereof, as well as the date of removal. Removal of all communications equipment from any utility poles without its replacement or substitution by grantee within 30 days shall constitute a termination of grantee's right to use such utility poles without making new request therefor.

(o) *Utility pole removal notice.* If grantor desires at any time to remove any utility pole, grantor shall, except in cases of emergency, give grantee notice, in writing, to that effect at least 30 days prior to the date on which it intends to remove such utility pole. If grantee cannot accommodate

the removal of the communications equipment within the 30-day notice period then the parties will either (1) have the grantor remove and store grantee's equipment or (2) shall negotiate and mutually agree upon a longer timeframe for removal of the utility pole and grantee's equipment, on a case by case basis. The removal of the wireless facility shall be at the sole risk and expense of grantee.

If grantor is required by law or ordinance to remove any utility pole or utility poles or for any reason desires that any particular utility be removed without replacement, grantor shall so inform grantee in writing.

If grantor informs grantee of its desire to remove the utility pole, then grantee shall remove the communications equipment from the utility pole before grantor's intended removal date. The removal of the communications equipment shall be at the sole risk and expense of grantee. Grantor shall make a reasonable effort to provide any alternate utility pole or any other facility for the relocation of grantee's communications equipment.

In the event of an emergency, grantor may remove such utility pole and shall in such case immediately notify grantee of the action taken. Grantor shall make commercially reasonable efforts to notify grantee of the removal of its communications equipment, prior to the emergency removal of that equipment.

(p) *Permits required.*

(1) In addition to a franchise as required by this Act, no wireless franchise equipment may be installed, erected, or otherwise placed pursuant to such a franchise without first securing a permit for same from the director of the department of safety and permits. Fees for permitting shall be in accordance with the following schedule:

a. For installation of small wireless facilities on a city-owned asset or co-located upon an asset owned by a public utility or communication provider operating pursuant to a franchise from the City of New Orleans, the non-recurring permit fees required are as follows:

1. In the area bounded by the east bank of the Mississippi River, the rear property line of the properties on the upriver side of Iberville Street, the rear property line of the properties fronting on the Lake Pontchartrain side of North Rampart Street, and the rear property line of properties fronting on the downriver side of Esplanade Avenue: $250.00 per device, plus any additional fees that may be imposed by the terms of the wireless franchise agreement.

2. In all other areas: $100.00 per device, plus any additional fees that may be imposed by the terms of the wireless franchise agreement.

b. For installation of a pole or tower to be erected by the wireless franchisee for the purpose of supporting one or more small wireless facilities on such installation, the non-recurring permit fees required are as follows:

1. In the area bounded by the east bank of the Mississippi River, the rear property line of the properties on the upriver side of Iberville Street, the rear property line of the properties fronting on the Lake Pontchartrain side of North Rampart Street, and the rear property line of properties fronting on the downriver side of Esplanade Avenue: $2,500.00 per pole or tower, plus any additional fees that may be imposed by the terms of the wireless franchise.

2. In all other areas: $1,000.00 per pole or tower, plus any

additional fees that may be imposed by the terms of the wireless franchise.

(q) *Right to inspect.* Grantor shall have the right to inspect each new installation of communications equipment attached to utility poles and to make periodic inspections at the grantor's discretion as conditions may warrant. Such inspections shall not relieve grantee of any responsibility, obligation or liability assumed under this Act.
(M.C.S., Ord. No. 27999, § 1, 3-14-19)

Sec. 30-65.1. Termination and renewal.

(a) *Termination.*

(1) In addition to any rights set out elsewhere in this Act, the grantor reserves the right to seek termination of a franchise pursuant to subsection (a)(3) hereof, and all rights and privileges pertaining thereto, in the event that:

a. *Violation of provisions.* The grantee violates any material provision of the franchise and does not begin curative work within ten days of receipt of written notice and does not work with reasonable diligence to complete such work; or

b. *Construction delays.* The grantee's construction schedule is delayed for over 18 months not for causes beyond reasonable control; or

c. *Insolvency.* The grantee becomes insolvent, or is adjudged a bankrupt; or

d. *Fraud.* The grantee is found by a court of competent jurisdiction to have practiced any fraud or deceit upon the grantor or subscribers.

(2) Upon failure of the grantee to comply with the material terms of the franchise, the grantor may by ordinance terminate the franchise in accordance with the procedures set forth in this section. Upon termination, all rights of the grantee shall immediately be divested without further act upon the part of the grantor. Grantor shall require grantee to remove its equipment and plant from the public property and rights-of-way. If grantor requires removal, the grantee shall forthwith remove its structures or property from the rights-of-way and return to its original condition. Upon failure to do so, the grantor may perform the work and collect the cost thereof from the grantee. The cost thereof shall be a lien upon all equipment and plant and property of the grantee. Such lien shall not attach to property of grantee located on poles of other utilities until removal of such property from the pole or poles.

(3) Procedures for termination.

a. Upon written recommendation by the director or upon its own motion (following expiration of any applicable notice and cure period set forth in subsection (1) above), the city council shall give written notice to the grantee of the existence of a material violation or failure to comply with the franchise. Grantee shall have a period of 30 days after receipt of such notice from the director in which to cease such violation and comply with the terms and provisions hereof. In the event grantee fails to cease such violation or to otherwise comply with the terms hereof, then grantee's franchise is subject to termination under the following provisions provided that, if the grantee commences work or other efforts to cure such violations within ten days after receipt of written notice and shall thereafter prosecute such curative work with reasonable diligence until such curative work is completed, then such violations shall cease to exist, and the franchise will not be terminated. If the curative work is not completed within 90 days of commencement of such work, grantee and the director shall report to

grantor with respect to the progress made on such curative work and the anticipated completion date.

b. Termination shall be declared only by a written decision of the city council after an appropriate public proceeding whereby the grantee is afforded the full opportunity to be heard and to respond to any such notice of violation or failure to comply. The grantee shall be provided advance written notice of date, time, and place of any public hearing concerning the termination of the franchise.

c. The city council, after full public hearing, and upon finding a material violation or failure to comply, may at its discretion terminate the franchise via ordinance, or impose a lesser penalty than termination of the franchise, including but not limited to a penalty of up to $500.00 per day per violation, or excuse the violation or failure to comply upon a showing by the grantee of mitigating circumstances or upon a showing of good cause of such violation or failure to comply as may be determined by the city council.

(b) *Receivership.* The grantor shall have the right to terminate the franchise 120 days after the appointment of a receiver, or trustee, to take over and conduct the business of the grantee, whether in receivership, reorganization, bankruptcy, or other action or proceeding, unless such receivership or trusteeship shall have been vacated prior to the expiration of the 120 days or unless:

(1) *Trustee compliance.* Within 120 days after his/her election or appointment, such receiver or trustee shall have fully complied with all the provisions of the franchise and remedied all defaults thereunder; and

(2) *Agreement to be bound.* Such receiver or trustee, within such 120 days, shall have executed an agreement, duly approved by the court having jurisdiction in the premises, whereby such receiver or trustee assumes and agrees to be bound by each and every provision of the franchise.

(3) *Renewal or extension.* Upon expiration of the initial term of the franchise, the grantor may, at its election renew or not renew the franchise. A franchise may be renewed by the grantor, upon application by the grantee, in accordance with the provisions of this Act, the New Orleans City Charter, and applicable law. Nothing in this provision shall be construed to require such renewal.

(4) Grantee shall have the right to terminate the wireless franchise on 180 days' prior written notice to the grantor. If grantee elects to terminate the franchise pursuant to this provision, grantee will be required to pay franchise fees until all facilities are removed from the public right-of-way.

(M.C.S., Ord. No. 27999, § 1, 3-14-19)

Sec. 30-65.2. Miscellaneous provisions.

(a) *Compliance with laws.* The grantee and grantor shall comply with all federal and state laws, as well as all ordinances, resolutions, rules, and regulations of the city heretofore or hereafter adopted or established during the entire term of the franchise including but not limited to all zoning and subdivision regulations.

(b) *Captions.* The captions to sections throughout this Act are intended solely to facilitate reading and reference to the sections and provisions of this Act. Such captions shall not affect the meaning or interpretation of this Act.

(c) *Public purpose.* All of the provisions of this Act are hereby declared to be for a public purpose and the health, safety, and welfare of the general public, consistent with the maximum permissible exercise of the city's police powers under its Home Rule Charter. Any member of the governing body or city official or employee charged with the enforcement of this Act, acting for the city in the discharge of his or her duties, shall not thereby render himself personally liable; and he or she is hereby relieved from all personal

liability for any damage that might accrue to persons or property as a result of any act required or permitted in the discharge of his or her duties.

(d) *Nonenforcement by the city.* The grantee shall not be relieved of its obligation to comply with any of the provisions of the franchise by reason of any failure of the city to enforce prompt compliance.

(e) *Subsequent action by state or federal agencies.* Should the state, the LPSC, the FCC, or any other agency of the federal government subsequently require the grantee to perform or cease to perform any act which is inconsistent with any provisions of the franchise, the grantee shall so notify the grantor. Upon receipt of such notification, the grantor, in consultation with the grantee, shall determine if a material provision of the franchise is affected. Upon such determination, the parties, in consultation with each other, shall have the right to modify or amend any of the sections of the franchise to such reasonable extent as may be necessary to carry out the full intent and purpose of the franchise.

Should the state, the LPSC, the FCC, or any other agency of the federal government subsequently require the grantor to perform or cease to perform any act which is inconsistent with any provisions of the franchise, the grantor shall so notify the grantee. Upon receipt of such notification, the grantee, in consultation with the grantor, shall determine if a material provision of the franchise is affected. Upon such determination, the parties, in consultation with each other, shall have the right to modify or amend any of the sections of the franchise to such reasonable extent as may be necessary to carry out the full intent and purpose of the franchise.

The grantor may terminate the franchise in the event the grantor and grantee agree that substantial and material compliance with the original proposed terms of the franchise has been frustrated by such state or federal requirement. In such an event, grantee's rights are reserved to pursue whatever remedies it may have, and to comply with the duties and obligations which may be imposed upon it by such state or federal law.

(f) *Causes beyond reasonable control.* In the event grantee's performance of any of the terms, conditions, obligations, or requirements of the franchise is prevented or impaired due to any cause beyond its reasonable control or not reasonably foreseeable, such inability to perform shall be deemed to be excused and no penalties or sanctions shall be imposed as a result thereof. Such causes beyond grantee's reasonable control or not reasonably foreseeable shall include, but shall not be limited to, acts of God, civil emergencies and labor unrest or strikes. Grantee shall notify the director whenever performance is prevented or impaired.

(g) *Nonwaiver of regulatory authority.* Nothing in this Act shall be deemed to constitute a waiver or limitation of any powers or supervision, regulation and control of the city council, as authorized in section 3-130 of the Home Rule Charter.

(h) *Equal opportunity policy.*

(1) *Equal employment opportunity and affirmative action programs.* Grantee shall be an equal opportunity/affirmative action employer adhering to all applicable federal, state or municipal laws and regulations.

(2) *Disadvantaged business enterprise* or DBE participation policy. The grantee shall make reasonable and good faith efforts to attain an overall goal of 35 percent for the utilization of DBEs in its contracting policies for activities occurring within the city.

(3) *Local employment and procurement practices.* Whenever practicable, and to the extent allowed by law, grantee shall make reasonable efforts to obtain all services, personnel, hardware and supplies for the construction, maintenance, and operation of the wireless facilities from businesses located in the city when cost and prices are equal to or lower than sources outside the city.

(4) *Subcontractors.*

a. *City to be informed.* Grantee shall inform the director of all subcontrac-

tors selected by grantee to perform work pursuant to a franchise granted under this Act and any changes thereto. The term "subcontractor" shall not include any lower-tier subcontractors that grantee does not have direct contracts with. Knowledge of a subcontractor by grantor shall not limit or absolve grantee's duties, obligations or warranties under the franchise for any part of the system, and city shall have no liability for any action or inaction by any subcontractor that results in any damage or loss whatsoever to grantee.

b. *Subcontractor relationship.* Nothing contained herein or in any agreement between grantee and a subcontractor or vendor shall create (a) any contractual relationship between city and any subcontractor at any tier, or (b) any third-party beneficiary rights in any subcontractor at any tier. Grantee shall at all times be responsible for the work and conduct of its subcontractors at any tier while performing services pursuant to this Act and shall ensure that its subcontractors comply with all applicable terms and conditions of the franchise. Nothing herein shall negate any rights of grantor based upon a separate agreement with any subcontractors.

c. *Contract requirements.* In addition to the requirements stipulated in section 70-417, all agreements with subcontractors, including agreements between lower-tier subcontractors with grantee, shall include the following:

1. A provision acknowledging that all claims are between the contracting parties and waiving any claim against grantor arising from such contracts.
2. The provisions of subsections 30-64(g) and 30-65.2(i), such policies to name grantor as an additional insured and to conform with the insurance requirements of section 30-64 hereof. Insurance amounts for each subcontractor shall be determined by grantee in its reasonable discretion.
3. The listing of specific contractual provisions herein shall not relieve or limit grantee's obligation under this section above to ensure compliance with the franchise by subcontractors.

(5) *Inspection of book and records.* If grantor has a rational basis for believing that a grantee has failed to comply with subsections (1), (2), (3) and (4), then grantor shall, after reasonable notice, have the right to inspect at any time during normal business hours, all books, records, financial statements and other like materials of the grantee relevant to grantee's compliance with such subsections.

(i) *Limitation of liability.* Grantee's liability to the grantor for damages in connection with this Act shall not exceed the total amount of $1,000,000.00, provided the limitations of liability shall not apply to damages relating to or arising from loss of life, bodily injury, personal injury, damage to property, contamination or adverse effects on the environment or intellectual property infringement. Grantor's liability to the grantee for damages in connection with this Act shall not exceed the total amount of $1,000,000.00, provided the limitations of liability shall not apply to damages relating to or arising from loss of life, bodily injury, personal injury, damage to property, contamination or adverse effects on the environment or intellectual property infringement.

(j) *Intellectual property infringement indemnity.* Grantee will indemnify the grantor and their respective officers, employees, contractors, consultants, members and agents, but not any customers or third parties ("indemnitees"), from losses, costs and damages and defend any suit or proceeding brought against the indemnitees to

the extent that the suit or proceeding is based on a claim that the network operations constitute infringement of any United States patent, mask work, trade secret or copyright and grantee will pay, or grantee will cause the supplier of the infringing network operations to pay, all damages awarded by final judgment (from which no appeal may be taken) against the indemnities, but not any customers or third parties, holding that the network operations do so infringe, on condition that grantee:

(1) Is promptly informed and furnished a copy of each communication, notice or other action relating to the alleged infringement,

(2) Is given authority, information and assistance necessary to defend or settle the suit or proceeding in a manner as grantee may determine, and

(3) Is given sole control of the defense (including the right to select counsel and to require and allow the supplier of the infringing network operations to pay damages and defend as provided herein), and the sole right to compromise and settle the suit or proceeding; provided, however, that no such compromise or settlement shall impose any liability or burden on the grantor without their consent.

(4) If any of the network operations are held to infringe any valid United States patent, mask work, trade secret or copyright as set forth above, and an injunction from a court of competent jurisdiction permanently prohibits the use of the same in the network operations in the wireless services in the city, or if grantee believes infringement is likely, then grantee will

a. Procure the right to use the network operations in the wireless services free of any liability for infringement;

b. Replace or modify the network operations in the wireless services in the city with a non-infringing substitute otherwise complying substantially with the specifications for the wireless services in the city; or

c. Comply with the subsequent sentence. In the event that (i) a court of competent jurisdiction determines that the network operations infringe the above-defined rights of another party, (ii) all right of appeal or stay is exhausted as to such order, and (iii) grantee is unable to replace or modify such infringing network operations in the wireless services in the city or otherwise procure the right to continue using the network operations in the wireless services in the city, then grantee will be entitled to remove the infringing network operations from the wireless services in the city and obtain substitutes that will result in the wireless services in the city performing substantially as required in this Act.

d. In no event will grantee or its suppliers be liable for an infringement that:

i. though it occurs in grantee's wireless service area, did not result from the use of products or services provided by grantee or its affiliates or subcontractors; or

ii. would not have existed but for modification of, or additions to, the network operations by the city or its contractors or agents.

iii. Prior to a final determination that the infringement arose from clauses (i) or (ii) in the preceding sentence, grantee shall remain fully responsible, at its expense, for the defense and indemnification of any infringement claim in accordance with this section: provided, that if it is finally determined that the infringement arose from clauses (i) or

(ii) in the preceding sentences, then grantor will reimburse grantee for its reasonable expenses (including reasonable litigation costs and attorney's fees) incurred therein. The foregoing in this section contains the sole and exclusive liability for grantee's and its suppliers' indemnity against infringement in this section, whether direct or contributory, and is in lieu of all warranties, express, implied or statutory in regard thereto, including, without limitation, the warranty against infringement specified in the Uniform Commercial Code.

(k) *Confidentiality.* Grantor agrees to keep confidential any information provided by grantee to the extent allowed by the Louisiana Public Records Act and other applicable laws.

(l) *Acceptance.*

a. *Filing.* Grantee shall, within 60 days after the approval of a wireless franchise by the city council, file with the clerk of council, with copies filed electronically with the director, the Council Utilities Regulatory Office, and city attorney, a written acceptance of the franchise. Sec. 30-65.3. Grant of city permit.

(a) *Permitting grant.* Unless otherwise provided for in this Act, all new wireless facilities, collocations, or modifications to existing wireless facili-

ties shall require a wireless facilities permit, which shall be approved by the director, provided the following criteria are met:

(1) The proposal is not located in any location described in section 30-65.12, location restrictions;

(2) The proposal would not significantly impair any view from any viewing area; and

(3) The proposal complies with all applicable provisions in this Act without need for an exception pursuant to section 30-65.13, exceptions. Any wireless facility, collocation, or modification that does not meet the above-described criteria will be subject to further scrutiny before approval by the director, as described in the following sections.

(b) *Deployment siting plan.* Applicants seeking approval for wireless facilities (including new facilities and collocations to existing facilities) may elect to submit a deployment siting plan subject to the director's approval. The proposed deployment siting plan is subject to review, modification and/or approval by all of the appropriate city departments and commissions via the department of safety and permits.

(c) *Other permits required.* In addition to any permit that may be required under this section, the applicant must obtain the city council's franchising approval, and must obtain all other required prior permits or other approvals from other city departments, state, or federal agencies. Any permit granted under this section is subject to the conditions and/or requirements of other required prior permits or other approvals from other city departments, state, or federal agencies.

(d) *Eligible applicants.* Only applicants who have been granted the right to enter the public right-of-way pursuant to the city council's City Charter franchising approval shall be eligible for a permit to install or modify a wireless facility in the public right-of-way.

(e) *Speculative equipment prohibited.* The city finds that the practice of "pre-approving" wireless equipment or other improvements that the applicant does not presently intend to install, but may wish to install at some point undetermined future times does not serve the public's best interest. The city shall not approve any equipment or other improvements in connection with a wireless facility permit when the applicant does not actually and presently intend to install such equipment or construct such improvements.

(f) *Non-applicability of Act.* In the event that the director determines that any application submitted for a wireless facilities permit does not meet the criteria of this Act, the director shall refer the application to the applicable city department for review and recommendation for approval, modification, or disapproval, or the applicant may modify its application to meet the criteria of this Act.

(g) *No permits required.* Notwithstanding anything in this Act to the contrary, the city shall not require an application pursuant to section 30-65.4 or permit pursuant to section 30-65(p) for the following: (1) routine maintenance; or (2) the replacement of small wireless facilities with small wireless facilities that are substantially similar, the same size, or smaller.
(M.C.S., Ord. No. 27999, § 1, 3-14-19)

Sec. 30-65.4. Application requirements for city permit.

(a) *Application.* Applicants for permits to install wireless facilities shall submit to the director, with copy to the council utilities regulatory office, written or electronic applications including, an ordinance approved by the city council pursuant to section 3-128 of the Home Rule Charter granting the applicant a franchise with the city, a copy of applicants acceptance of the franchise ordinance as filed with the clerk of council, a description of the proposed installations, services to be provided, a construction schedule of its wireless service areas, GIS maps, and an operations schedule.

(b) *No fiber or cable installation.* No applicant seeking to install a wireless facility shall seek a permit to install fiber or coaxial cable between utility poles or wireless facilities pursuant to a franchise granted under the Wireline Telecom-

munications Act or its successor Code sections under this Act. Applicants shall separately request fiber installation or other cable installations when seeking to install a wireless facility or facilities in the public right-of-way pursuant to a franchise granted under the Wireline Telecommunications Act or its successor Code section; or, alternatively, the applicant may obtain such services from a third party providing such services so long as the third party has a franchise granted under the Wireline Telecommunications Act or its successor Code section or is otherwise authorized by law or agreement with the city.

(c) *Application contents.* The department of safety and permits shall develop a wireless facility application form and make it available to applicants. The wireless facility in the public right-of-way shall require the following information:

(1) The name, address, and telephone number of the applicant, the owner and operator of the proposed facility;

(2) If the applicant is an agent, the applicant shall provide a duly executed letter of authorization from the owner of the proposed facility. If the owner will not directly provide wireless services, the applicant shall provide a duly executed letter of authorization from the person(s) or entity(ies) that will provide those services;

(3) If the facility will be located on or in the property of someone other than the owner of the facility (such as a utility pole, utility cabinet, wireless support structure, vault, or cable conduit) that is not a city-owned asset and is not the property of the applicant, the applicant shall provide a duly executed written authorization from the property owner(s) authorizing the placement of the facility on or in the property owner's property;

(4) A written description of the proposed facility and its purpose;

(5) Detailed engineering plans of the proposed facility and related report prepared by a professional engineer documenting the following:

a. Height, diameter, and design of the facility, including technical engineering specifications, together with a statement that the proposed facility has been designed to be the least visible equipment that is technically feasible within the particular technology the carrier chooses to deploy. A layout plan, section, and elevation of the facility shall be included.

b. A photograph and model name and number of each piece of equipment included.

c. Power output and operating frequency for the proposed antenna.

d. Total anticipated capacity of the structure, indicating the number and types of antennas/nodes and power and frequency ranges, which can be accommodated.

e. Sufficient evidence of the structural integrity of the pole or other supporting structure.

(6) Site plan(s) to scale, specifying and depicting the exact proposed location of the pole, pole diameter, antennas, accessory equipment, landscaped areas, existing utilities, and showing compliance with section 30-65.5, requirements for facilities within the public right-of-way.

(7) Scaled elevation plans of proposed poles, antennas, accessory equipment, and related landscaping and screening.

(8) A statement that the facility will be constructed in accordance with all applicable federal and state regulatory requirements.

(9) If the applicant requests an exception to the requirements of this chapter (in accordance with section 30-65.13, excep-

tions), the applicant shall provide all information and studies necessary for the city to evaluate that request.

(10) Digital maps of the proposed siting/locations of all proposed facilities included in the permit application.

(11) Copies of any documents that the applicant is required to file pursuant to Federal Aviation Administration regulations for the facility.

(12) The city shall have the discretion to require a traffic control plan when the applicant seeks to use large equipment (e.g. crane) for installation of the proposed facility.

(13) A scaled conceptual landscape plan showing existing trees and vegetation and all proposed landscaping, concealment, screening and proposed irrigation with a discussion of how the chosen material at maturity will screen the site.

(d) *Application contents—Modification of existing facility.* The content of the application form for a modification to an existing facility shall be determined by the director, and shall include the requirements listed in section 30-65.4, Application requirements for city permit, unless prohibited by state or federal law.

(e) *Effect of state or federal law change.* In the event a subsequent state or federal law prohibits the collection of any information required by section 30-65.4, application requirements for city permit, the director is authorized to omit, modify or add to that request from the city's application form with the written approval of the city attorney.

(f) *Independent consultant.* The director is authorized to retain on behalf of the city an independent, qualified consultant to review any application for a permit for a wireless facility. The review is intended to be a review of technical aspects of the proposed wireless facility and shall address any or all of the following:

(1) Compliance with applicable radio frequency emission guidelines established by the FCC;

(2) Whether any requested exception is necessary to close a significant gap in coverage and is the least intrusive means of doing so;

(3) The accuracy and completeness of submissions;

(4) The validity of conclusions reached or claims made by applicant;

(5) The viability of alternative sites and alternative designs; and

(6) Any other specific technical issues identified by the consultant or designated by the city.

Before retaining any independent consultant to review any application, the city will timely provide its questions and/or concerns about the specific application to the applicant and the shot clock for review of the application will be tolled until the applicant provides the requested information to the city. If the applicant does not provide satisfactory responses to the city, the city will notify the applicant, in writing, of its decision to retain an independent consultant and will identify the selected independent consultant and the proposed scope of work in the notice. The cost of this review shall be paid by the applicant through a deposit pursuant to a fee schedule resolution adopted after notice and an opportunity for the applicant to provide comment on the reasonableness of the estimated cost. No permit shall be issued to any applicant which has not fully reimbursed the city for the consultant's reasonable and actual cost.

(M.C.S., Ord. No. 27999, § 1, 3-14-19)

Sec. 30-65.5. Requirements for facilities within the public right-of-way.

(a) *Design and development standards.* All wireless facilities that are located within the public right-of-way shall be designed and maintained as to minimize adverse visual, noise, and other impacts on the surrounding community and shall be planned, designed, located, and erected in accordance with the following:

(1) *General guidelines.*

a. The applicant shall employ screening, undergrounding and camouflage

design techniques in the design and placement of wireless facilities in order to ensure that the facility blends in with the surrounding environment or otherwise is concealed in a technically feasible manner to prevent the facility from dominating the surrounding area and to minimize significant view impacts from surrounding properties.

b. Screening shall be designed to be architecturally compatible with surrounding structures using appropriate techniques to camouflage, disguise, and/or blend into the surrounding environment, and may include landscaping, color, and other techniques to minimize the facility's visual impact as well as be compatible with the architectural character of the surrounding buildings or structures in terms of applicable color, size, proportion, style, and quality to the extent technically feasible.

c. Facilities shall be located such that views from a residential structure are not significantly impaired. Facilities shall also be located in a manner that protects public views over city view corridors, as defined in the city's general plan, so that no significant view impairment results in accordance with this Code. This provision shall be applied consistent with local, state and federal law.

(2) *Traffic safety.* All facilities shall be designed and located in such a manner as to avoid adverse impacts on traffic safety.

(3) *Blending methods.* All facilities shall have colors and finishes that blend with the colors and finishes of the surrounding area and structures to the extent technically feasible.

(4) *Equipment.* The applicant shall use the least visible equipment possible. Antenna elements shall be flush mounted, to the extent technically feasible. All antenna mounts shall be designed so as not to preclude possible future collocation by the same or other operators or carriers to the extent technically feasible.

(5) *Poles.*

a. Facilities shall be located consistent with section 30-65.12, location restrictions, unless an exception pursuant to section 30-65.13, exceptions, is granted.

b. Only pole-mounted antennas shall be permitted in the right-of-way. All other telecommunications towers are prohibited.

c. Utility poles. The maximum height of any antenna shall not exceed four feet above the height of an existing utility pole, nor shall any portion of the antenna or equipment mounted on a pole be less than 24 feet above any drivable road surface.

d. Replacement poles. If an applicant proposes to replace a pole in order to accommodate a proposed facility, the pole shall be designed to resemble the appearance and dimensions of existing similar poles near the proposed location, including size, height, color, materials and style to the extent technically feasible. Such poles shall have collocation capabilities to the extent technically feasible.

e. New poles. If an applicant proposes to place a new pole in the right-of-way, the pole shall be designed to resemble the appearance and dimensions of existing similar poles near the proposed location including size, height, color, materials, and style to the extent technically feasible. Such new poles that are not replacement poles shall be located at least 90 feet from any existing pole to the extent feasible. Such new poles shall not adversely impact public view

corridors. Such new poles shall have collocation capabilities to the extent technically feasible.

f. For small wireless facilities, all wireless equipment associated with the facility, whether ground or pole-mounted, exclusive of antennas, shall not exceed 28 cubic feet in volume cumulatively.

g. All cables, including, but not limited to, electrical and utility cables, shall be run within the interior of any hollow pole and shall be camouflaged or hidden to the extent technically feasible. For all poles wherein interior installation is infeasible, conduit and cables attached to the exterior of poles shall be mounted flush thereto and painted or of a color that reasonably matches the pole.

(7) *Space.* Each facility shall be designed to occupy the least amount of space in the right-of-way that is technically feasible.

(8) *Wind loads.* Each facility shall be properly engineered to withstand wind loads as required by local, state, and federal law or any applicable duly adopted or incorporated code. An evaluation of wind load capacity shall include the impact of modification of an existing facility.

(9) *Obstructions.* Each component part of a facility shall be located so as not to cause any physical or visual obstruction to pedestrian or vehicular traffic, incommode the public's use of the right-of-way, or safety hazards to pedestrians and motorists.

(10) *Public facilities.* A facility shall not be located within any portion of the public right-of-way interfering with access to a fire hydrant, fire station, fire escape, water valve, underground vault, valve housing structure, or any other public health or safety facility.

(11) *Screening.* All ground-mounted facilities, pole-mounted equipment, or walls, fences, landscaping or other screening methods shall be installed at least 18 inches from the curb and gutter flow line.

(12) *Accessory equipment.* Not including the electric meter, all accessory equipment shall be pole-mounted or located underground, except as provided below:

a. When above-ground is the only feasible location for a particular type of accessory equipment and will be ground-mounted, such accessory equipment shall be enclosed within a structure, and shall not exceed a height of five feet and a total footprint of 15 square feet, and, where appropriate, equipment shall be fully screened and/or camouflaged, including the use of landscaping, architectural treatment, or acceptable alternate screening. Required electrical meter cabinets shall be screened and/or camouflaged.

b. In locations where homes are only along one side of a street, to the extent technically feasible ground-mounted facilities shall not be installed directly in front of a residence. Such ground-mounted facilities shall be installed along the side of the street with no homes unless an exception is granted. Unless said location is located within the coastal setback or the landslide moratorium area, then such locations shall be referred to the city's geotechnical staff for review and recommendations.

(13) *Landscaping.* Where appropriate, each facility shall be installed so as to maintain and enhance existing landscaping on the site, including trees, foliage and shrubs. Additional landscaping shall be planted, irrigated and maintained by applicant

where such landscaping is deemed necessary by the city to provide screening or to conceal the facility.

(14) *Signage.* No facility shall bear any signs or advertising devices other than certification, warning or other signage required by law or permitted by the city.

(15) *Lighting.*

a. Any required lighting shall be shielded to eliminate, to the maximum extent possible, impacts on the surrounding neighborhoods.

b. Unless otherwise required under FAA or FCC regulations, applicants may install only timed or motion-sensitive light controllers and lights, and must install such lights so as to avoid illumination impacts to adjacent properties to the maximum extent feasible. The city may, in its discretion, exempt an applicant from the foregoing requirement when the applicant demonstrates a substantial public safety need.

(16) *Noise.*

a. At no time shall equipment noise from any facility exceed an exterior noise level of 55 dBA three feet from the source of the noise if the facility is located in the public right-of-way adjacent to a business, commercial, manufacturing, utility or school zone; provided, however, that for any such facility located within 500 feet of any property zoned residential or improved with a residential use, such equipment noise shall not exceed 45 dBA three feet from the sources of the noise.

(17) *Security.* Each facility shall be designed to be resistant to, and minimize opportunities for, unauthorized access, climbing, vandalism, graffiti and other conditions that would result in hazardous situations, visual blight or attractive nuisances. The director may require the provision of warning signs, fencing, anti-climbing devices, or other techniques to prevent unauthorized access and vandalism when, because of their location and/or accessibility, a facility has the potential to become an attractive nuisance. Additionally, no lethal devices or elements shall be installed as a security device.

(18) *Modification.* Consistent with current state and federal laws and if permissible under the same, at the time of modification of a wireless facility, existing equipment shall, to the extent feasible, be replaced with the same equipment or equipment that reduces or does not add to visual, noise and other impacts.

(19) *[Expiration.]* The installation and construction approved by a wireless facility permit shall begin within one year after its approval or it will expire without further action by the city.

(b) *Conditions of approval.* In addition to compliance with the design and development standards outlined in this section, all facilities shall be subject to the following conditions of approval (approval may be by operation of law):

(1) The permittee shall submit an as built drawing within 90 days after installation of the facility. As-builts shall be in an electronic format acceptable to the city which can be linked to the city's GIS.

(2) The permittee shall submit and maintain current at all times basic contact and site information on a form to be supplied by the city. The permittee shall notify the city of any changes to the information submitted within 30 days of any change, including change of the name or legal status of the owner or operator. This information shall include, but is not limited to, the following:

a. Identity, including the name, address and 24-hour local or toll free contact phone number of the permittee, the owner, the operator, and the agent or person responsible for the maintenance of the facility.

b. The legal status of the owner of the wireless facility.

(3) The permittee shall notify the city in writing at least ten days prior to any transfer, sale, or assignment of the permit. The written notice required in this section must include: (1) the transferee's legal name; (2) the transferee's full contact information, including a primary contact person, mailing address, telephone number and email address; and (3) a statement signed by the transferee that the transferee shall accept all permit terms and conditions. The director may require the transferor and/or the transferee to submit any materials or documentation necessary to determine that the proposed transfer complies with the existing permit and all its conditions of approval, if any. Such materials or documentation may include, but shall not be limited to: federal, state and/or local approvals, licenses, certificates or franchise agreements; statements; photographs; site plans and/or as-built drawings. Noncompliance with the permit and all its conditions of approval, if any, or failure to submit the materials required by the director shall be a cause for the city to revoke the applicable permits.

(4) At all times, all required notices and/or signs shall be posted on the site as required by the Federal Communications Commission, any applicable municipal codal laws, and as approved by the city. The location and dimensions of a sign bearing the emergency contact name and telephone number shall be posted pursuant to the approved plans.

(5) Permittee shall pay for and provide a performance bond or other form of security as required in permittee's franchise agreement, which shall be in effect until the facilities are fully and completely removed and the site reasonably returned to its original condition, to cover permittee's obligations under these conditions of approval and this Code. The security instrument coverage shall include, but not be limited to, removal of the facility. Before issuance of any permit, permittee must submit said security instrument.

(6) A condition setting forth the permit expiration date in accordance with section 30-65.11, permit expiration, shall be included in the conditions of approval.

(7) The wireless facility shall be subject to such conditions, changes or limitations as are from time to time deemed necessary by the department of public works for the purpose of: (a) protecting the public health, safety, and welfare; (b) preventing interference with pedestrian and vehicular traffic; and/or (c) preventing damage to the public right-of-way or any adjacent property. The city may modify the permit to reflect such conditions, changes or limitations by following the same notice and public hearing procedures as are applicable to the underlying permit for similarly located facilities, except the permittee shall be given notice by personal service or by registered or certified mail at the last address provided to the city by the permittee.

(8) The permittee shall not transfer the permit to any person prior to the completion of the construction of the facility covered by the permit unless and until the transferee of the permit has submitted the security instrument required by section 30-65.5(b).

(9) The permittee shall not move, alter, temporarily relocate, change, or interfere with any existing structure, improvement or property without the prior consent of the owner of that structure, improvement or property. No structure, improvement or property owned by the city shall be moved to accommodate a wireless facility unless the department of public works determines that such movement will not adversely affect the city or any surrounding businesses or residents, and the permittee pays all costs and expenses related to the relocation of the city's

structure, improvement or property. Prior to commencement of any work pursuant to any permit issued for any facility within the public right-of-way, the permittee shall provide the director with documentation establishing that the permittee has the legal right to use or interfere with any other structure, improvement or property within the public right-of-way to be affected by applicant's facilities.

(10) The permittee shall assume full liability for damage or injury caused to any property or person by the permittee's facility.

(11) The permittee shall repair, at its sole cost and expense, any damage including, but not limited to subsidence, cracking, erosion, collapse, weakening, or loss of lateral support to city streets, sidewalks, walks, curbs, gutters, trees, parkways, street lights, traffic signals, improvements of any kind or nature, or utility lines and systems, underground utility line and systems, or sewer systems and sewer lines that result from any activities performed in connection with the installation and/or maintenance of permittee's wireless facility in the public right-of-way. The permittee shall restore such areas, structures and systems to the condition in which they existed prior to the installation or maintenance that necessitated the repairs. Such time period for correction shall be based on the facts and circumstances, danger to the community and severity of the disrepair. Should the permittee not make said correction within the time period allotted, the city shall cause such repair to be completed at permittee's sole cost and expense.

(12) No facility shall be permitted to be installed in the drip line of any tree in the right-of-way.

(13) Prior to the issuance of any encroachment permit, permittee may be required to enter into a right-of-way agreement with the city in accordance with the city's past practice.

(M.C.S., Ord. No. 27999, § 1, 3-14-19)

Sec. 30-65.6. Findings.

No permit shall be granted for a wireless facility unless all of the following findings are made by the director:

(a) The applicant has provided sufficient evidence supporting the applicant's claim that it has the right to enter the public right-of-way pursuant to a franchise agreement with the city permitting the applicant to use the public right-of-way.

(b) The proposed facility has been designed and located in compliance with all applicable provisions of this chapter.

(c) If applicable, the applicant has demonstrated its inability to locate on existing infrastructure.

(d) All notices required for the proposed installation have been given.

(e) The applicant has demonstrated the proposed installation is designed such that the proposed installation represents the least intrusive means possible.

(M.C.S., Ord. No. 27999, § 1, 3-14-19)

Sec. 30-65.7. Nonexclusive grant.

No permit or approval granted under this Act shall confer any exclusive right, privilege, or franchise to occupy or use the public right-of-way of the city for any purpose whatsoever. Further, no approval shall be construed as any warranty of title.

(M.C.S., Ord. No. 27999, § 1, 3-14-19)

Sec. 30-65.8. Emergency deployment.

A cells on wheels ("COW") shall be permitted for the duration of an emergency declared by the city or at the discretion of the director.

(M.C.S., Ord. No. 27999, § 1, 3-14-19)

Sec. 30-65.9. Operation and maintenance standards.

All wireless facilities must comply at all times with the following operation and maintenance standards:

(a) Unless otherwise provided herein, all necessary repairs and restoration shall be completed by the permittee, owner, operator or any designated maintenance agent within 30 days:

(1) After discovery of the need by the permittee, owner, operator or any designated maintenance agent; or

(2) After permittee, owner, operator or any designated maintenance agent receives notification from the city.

(b) All facilities shall be maintained in good condition, including ensuring the facilities are reasonably free of:

(1) General dirt and grease;

(2) Chipped, faded, peeling, and cracked paint;

(3) Rust and corrosion;

(4) Cracks, dents, and discoloration;

(5) Missing, discolored or damaged artificial foliage or other camouflage;

(6) Graffiti, bills, stickers, advertisements, litter and debris;

(7) Broken and misshapen structural parts; and

(8) Any material damage from any cause.

(c) All trees, foliage or other landscaping elements existing at the facility installation site at the time of installation or approved as part of the installation shall be maintained in good condition at all times, and the permittee, owner and operator of the facility shall be responsible for replacing any damaged, dead or decayed landscaping.

(d) The permittee shall replace its facilities, after obtaining all required permits, if maintenance or repair is not sufficient to return the facility to the condition it was in at the time of installation.

(e) Each facility shall be operated and maintained to comply with all conditions of approval. Each owner or operator of a facility shall routinely inspect each site to ensure compliance with the same and the standards set forth in this chapter.

(M.C.S., Ord. No. 27999, § 1, 3-14-19)

Sec. 30-65.10. No dangerous condition or obstructions allowed.

No person shall install, use or maintain any facility which in whole or in part rests upon, in or over any public right-of-way, when such installation, use or maintenance endangers or is reasonably likely to endanger the safety of persons or property, or when such facility unreasonably interferes with or unreasonably impedes the flow of pedestrian or vehicular traffic including any legally parked or stopped vehicle, the ingress into or egress from any residence or place of business, the use of poles, posts, traffic signs or signals, hydrants, mailboxes, permitted sidewalk dining, permitted street furniture or other objects permitted at or near said location.

(M.C.S., Ord. No. 27999, § 1, 3-14-19)

Sec. 30-65.11. Permit expiration.

A permit for any wireless facility shall be valid for as long as the term of the permittee's respective franchise agreement, unless pursuant to another provision of this Code it lapses sooner or is revoked. At the end of term of the franchise agreement, unless permittee receives a new franchise agreement or the term of the agreement is extended, such permit shall expire.

(M.C.S., Ord. No. 27999, § 1, 3-14-19)

Sec. 30-65.12. Location restrictions.

Locations requiring an exception. Wireless facilities in public rights-of-way of local streets within residential zones are permitted only when an exception has been granted pursuant to section 30-65.13 below.

(M.C.S., Ord. No. 27999, § 1, 3-14-19)

Sec. 30-65.13. Exceptions.

(a) The city recognizes that federal law prohibits a permit denial when it would materially inhibit the provision of wireless services and the applicant proposes the least intrusive means to provide such services. The city council finds that, due to wide variation among wireless facilities, technical service objectives and changed circumstances over time, a limited exemption for proposals in which strict compliance with this Act would materially inhibit wireless services serves the public interest. Therefore, in the event that any applicant asserts that strict compliance with any provision in this Act, as applied to a specific proposed personal wireless services facility, would materially inhibit the provision of wireless services, the director, subject to the approval of the department of public works, may grant a limited exemption from strict compliance subject to the provisions in this section.

(b) Required findings. The director shall not grant any exception unless the applicant demonstrates with clear and convincing evidence all the following:

(1) The proposed wireless facility qualifies as a "personal wireless services facility" as defined in United States Code, Title 47, section 332(7)(ii);

(2) The applicant has provided the city with a clearly defined technical service objective and a clearly defined potential site search area;

(3) The applicant has provided the city with the factual reasons why any alternative location(s) or design(s) that would strictly comply with this Act suggested by the city or otherwise identified in the administrative record are not technically feasible or potentially available; and

(4) The applicant has provided the city with a meaningful explanation of why the proposed location and design deviates is the least noncompliant location and design necessary to reasonably achieve the applicant's technical service objectives.

(c) Scope. The director shall limit its exemption to the extent to which the applicant demonstrates such exemption is necessary to achieve its technical service objectives. The director may adopt conditions of approval as necessary to promote the purposes in this Act and protect the public health, safety and welfare.

(d) Independent consultant. The city shall have the right to hire, at the applicant's expense (subject to the provisions of section 30-65.4(f)), an independent consultant to evaluate issues raised by the exception and to submit recommendations and evidence in response to the application.
(M.C.S., Ord. No. 27999, § 1, 3-14-19)

Sec. 30-65.14. Effect on other ordinances.

Compliance with the provisions of this Act shall not relieve a person from complying with any other applicable provision of this Code. In the event of a conflict between any provision of this Act and other sections of this Code, this Act shall control.
(M.C.S., Ord. No. 27999, § 1, 3-14-19)

Sec. 30-65.15. Nonconforming wireless facilities in the right-of-way.

(a) Nonconforming wireless facilities are those facilities that do not conform to this Act.

(1) Nonconforming wireless facilities shall, within one year from the date such facility becomes nonconforming, be brought into conformity with all requirements of this Act.

(M.C.S., Ord. No. 27999, § 1, 3-14-19)

ARTICLE III. MAYORALTY PERMITS GENERALLY*

Sec. 30-66. Rules and regulations.

The director of the department of finance shall prescribe such other rules and regulations

*__Cross references—__Mayoralty permit required for readers, § 30-1283; mayoralty permit required for street entertainers, § 30-1452; mayoralty permits required for certain peddlers and itinerant vendors, § 110-46; mayoralty permits required for certain transient vendors, § 110-256 et seq.; alcoholic beverage special event permits, § 10-52.

as to the form of the application for permits and their issuance as may be required to carry out the full intent and purpose of this article.
(Code 1956, § 46-4)

Sec. 30-67. Penalties and interest.

All mayoralty permits must be obtained prior to the occasion for which it is issued. If the applicant fails to secure the permit prior to the occasion, the following penalties and interest shall apply:

(1) Mayoralty permits acquired on a regular yearly basis shall become delinquent February 1 of that year. If the regular yearly permit is not obtained by February 1 of that year, there shall be interest added to the fee at the rate of eight percent per annum from the due date until paid. In addition to the interest that may be added, a penalty shall be imposed at the rate of 20 percent of the fee if the failure to obtain such permit is for not more than 30 days and with an additional 20 percent for each additional 30 days or fraction thereof during which the failure continues, not to exceed 60 percent of the amount of the fee.

(2) Mayoralty permits acquired on other than a regular yearly basis shall become delinquent at the start of the occasion. If the permit has not been obtained prior to the occasion, there shall be interest added to the fee at the rate of eight percent per annum from due date until paid. In addition to the interest that may be so added, a penalty shall be imposed at the rate of 50 percent of the fee.

(3) The director of the department of finance may, at his discretion, for good cause, waive, in whole or in part, any of the penalties provided in this section.

(d) *Toilet facilities.* Each food service establishment shall be provided with conveniently located toilet facilities for its employees. These facilities shall consist of a minimum of one commode and one lavatory, properly plumbed, for each 15 employees on the premises at one time. Sec. 30-771. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Hotel or *motel* means an establishment providing a private room for sleeping accommodations for a fee with private bathroom facilities and customary lodging services, as defined in the Comprehensive Zoning Ordinance. Motor courts, tourist courts, motor lodges, and time-share units shall all be considered *hotels* or *motels*, as defined herein, if a charge or maintenance fee is assessed for the use of a room or suite. However, this definition shall not include rooming houses, if the minimum length of stay in the rooming house is 30 days or more, and shall not include transient lodging services licensed as short-term rentals.

Operator of a hotel or motel means the person in whose name the occupational license for the hotel or motel is issued.

Services offered by a hotel or motel means all items necessary for the use of a hotel or motel room required to be purchased in order to use or rent a room. Sec. 30-772. Purpose.

It is hereby found and determined that the tourist and convention industry is a major component of the city's economy and that the hotel and motel industry is an essential component of our tourist and convention industry. It is essential that tourists and persons attending conventions in the city be treated fairly by the management of our hotels and motels and that tourists and organizations holding conventions should have full and complete knowledge of charges which may be assessed for renting hotel or motel rooms and for other services provided by such establishments. Additionally, tourists and organizations holding conventions should be made aware of differences in rates for hotel or motel rooms charged as a result of seasonal or other conditions. The hotel and motel industry must be regulated in order to prevent the appearance of so-called price gouging which may create an ill will on the part of tourists and organizations holding conventions in the city thereby adversely affecting the tourist and convention industry which is so vital to the local economy.

(1) *Category 1:* All parties, except CPNC holders, contracting to provide transportation services within the parish in for-hire vehicles through CPNC companies must be licensed by the department of public works as tour planners. A tour planner license does not give the licensee any right to sell sightseeing tours on a per-capita basis unless the permit holder has been granted by written contract the exclusive right to sell per capita tours to a particular convention or conference group, in which case the license holder is authorized to sell sightseeing tours on a per capita basis only to members of that group to whom the party is granted this exclusive right by contract.

Such person or entity is responsible for maintaining compliance with all regulations of this article. Issuance of a tour planner permit does not convey any legal authorization to obstruct pedestrian or vehicular traffic on the streets, sidewalks, banquettes, or other publicly owned right-of-way. Tour planners holding a license under this category are considered a "tour company" for the purposes of this article.

Such vertical length of pipe shall incorporate a hand-operated fuel shutoff valve which can be opened and closed with a wrench or an attached handle. Any flambeaux constructed or fabricated at any time after December 1, 2013, shall use a fuel shutoff valve that can be operated using only the hand and would not require a wrench or tool to turn the valve. floats and the flambeaux are facing forward and with the reflector to the rear, and which have a fire watch in close proximity for immediate response .

g. *Group supervision.*

i. Each flambeaux group shall be composed of one stick man for every 15 flambeaux carriers.

Sec. 38-59. Maintenance of cemetery tombs and/or spaces more than 50 years old; sale of repaired abandoned cemetery spaces.

(a) The cemeteries division may renovate and repair but not demolish, at its own cost and/or in conjunction with any private, state, or federal grant or fund, titled cemetery spaces within any city cemetery that are more than 50 years old and which have deteriorated, when the record owner or his spouse or heirs, assigns, or successors have neglected to do such repair or renovation within one year after written notice mailed by registered or certified mail to the last known address of the last record owner on the records of the city, the posting of notice on each of such cemetery spaces and /or tombs, and advertising in the official journal of the parish or municipality notifying the owner thereof that such renovation and/or repair will be made, unless the owner thereof objects by written notice to the office of the cemetery authority before the end of the one year period. Upon failing to receive any objections, after due notice has been given, the city may proceed with the repairs or renovations with impunity.

(b) The cemetery superintendent shall require the payment by the record owner, heirs, or assigns of all documented repair and/or renovation costs before any such renovated or repaired interment space and/or tomb may thereafter be used.

(c) The repaired space and/or tomb shall revert to the ownership of the city if the cemetery superintendent has been unable to locate, after diligent efforts, any of the owners or their successors, assigns, or heirs for a period of three years following the repair or renovation, and the city shall take possession of such interment

spaces and/or tombs and sell and convey same subject to rules and regulations as set forth in La. R.S. 8:308(A).

(d) If the city takes ownership of such space and/or tomb and the cemetery space and it is resold by the city, the existing remains shall remain as a servitude burdening the new ownership of the vault.
(M.C.S., Ord. No. 28518, § 1, 10-15-20)

Sec. 38-60. Cemeteries; maintenance of vaults and wall vaults more than 50 years old; reclamation by authority.

(a) The cemeteries division may renovate, repair, and/or maintain vaults, at its own cost and/or in conjunction with any private, state, or federal grant or fund, vaults and/or wall vaults that are more than 50 years old located in city cemeteries, which have deteriorated or are in a ruinous state under the following conditions:

(1) In the event that the cemetery superintendent has no evidence of ownership or interments in the vault and/or wall vault in question, it may immediately make the repairs, renovations, and maintenance and after same have been completed, publish as part of a general notice in the official journal of the parish or municipality a notice notifying all persons that if no one comes forward to the office of the cemetery superintendent with written evidence of ownership of the vault and/or wall vault in question within 60 days of the date of publication then the cemetery authority shall have the right to reclaim the ownership of the vault and/or wall vault in question and resell same.

(2) In the event that there is evidence of an interment or interments in the vault and/or wall vault in question, and the cemetery superintendent has no evidence of ownership, the remains may be immediately removed and temporarily reinterred at another location, and the city shall then have the power to immediately make the renovations, repairs, and maintenance necessary, and the same notice procedure set forth in paragraph (1) shall be followed, except that all persons shall have six months to come forward to the office of the cemetery superintendent and present written evidence of ownership in the vault and/or wall vault in question, and in the event that anyone fails to do so within the time prescribed, then the vault and/or wall vault may be reclaimed by the city and resold. If the vault is resold by the city, the existing remains shall remain as a servitude burdening the new ownership of the vault.

(3) In the event that records of the cemetery superintendent indicate that there is a record owner of the vault and/or wall vault in question, the remains, if any, may be immediately removed and temporarily reinterred at another location, and the cemetery superintendent shall have the right and power to immediately make the necessary renovations, repairs, and maintenance; then the cemetery authority shall attempt to contact the owner by registered or certified mail at his last known address, and also publish as part of a general notice in the official journal of the parish or municipality in question a notice stating that in the event the owner or his heirs, assigns, or successors fail to come forward to the office of the cemetery superintendent within six months of the date of the notice and submit written proof of ownership, then the vault and/or wall vault in question may be reclaimed and resold by the city. If the vault is resold by the city, the existing remains shall remain as a servitude burdening the new ownership of the vault.

(4) In addition to the notifications called for in paragraphs (1), (2), and (3) hereinabove, the cemetery superintendent shall also post a common or general sign or notice in a conspicuous place in the cemetery informing the public of the above so that

claimants may come forward in the manner prescribed herein to assert their rights.

(5) Under no circumstances shall the city be prevented from doing repairs, renovations, and maintenance to vaults and/or wall vaults if same are necessary for the preservation of the section of vaults and/or wall vaults in question and/or the beautification of the cemetery. If it becomes necessary to remove remains therefrom, the cemetery authority shall have this right and power as set forth above, but the remains must be kept separate and returned to their original location after work is complete

(6) After the renovations, repairs, and maintenance have been completed and the prescribed time period has lapsed, and the city has reclaimed the ownership of the vault and/or wall vault in question, then all of the remains removed in accordance with the provisions of this Paragraph, shall be reinterred, and the cemetery superintendent shall retain records, tablets, stones, and other information regarding which vaults and/or wall vaults the remains were removed from and the interments therein, and the names of the deceased persons in question, if they are available.

(7) Under no circumstances shall any of the above be construed in such a fashion as to prevent the city from immediately making repairs, renovations, and/or maintenance of wall vaults in the event that same are deemed necessary for the protection of the health, safety, and welfare of the general public.

(8) If a person comes forward to the cemetery superintendent within the time periods prescribed in paragraphs (1) through (3) hereof with satisfactory written evidence of ownership or title to the vault and/or wall vault in question, the cemetery superintendent may require that they pay their pro rata share, to be reasonably determined by the cemetery superintendent, of all actual costs and expenses of repairs, renovations, and maintenance before the said vault and/or wall vault may thereafter be used by them and their title thereto confirmed. If there is some other impediment or objection to reuse of the vault and/or wall vault in question, they must still pay their pro rata share of all costs as set forth hereinabove to confirm their title to same, otherwise ownership or title may be reclaimed by the city and the space resold. Under no circumstances shall the owner of the vault and/or wall vault in question be able to object to the repairs, renovations, and maintenance done or to be done if it is necessary for the preservation of the section of vaults, and/or wall vaults in question, or the protection of the health, safety, and welfare of the general public.

(M.C.S., Ord. No. 28518, § 1, 10-15-20)

Sec. 54-8. Crime defined.

A crime is that conduct which is prohibited or is made or declared to be unlawful or criminal in this chapter or which may be punishable by fine and/or imprisonment by ordinances of the city.
(Code 1956, § 42-10)
State law reference—Similar provisions, R.S. 14:7.

Sec. 54-9. Criminal conduct.

Criminal conduct consists of:

(1) An act or a failure to act that produces criminal consequences, and which is combined with criminal intent;

(2) A mere act or failure to act that produces criminal consequences, where there is no requirement of criminal intent; or

(3) Criminal negligence that produces criminal consequences.

(Code 1956, § 42-11)
State law reference—Similar provisions, R.S. 14:8.

Sec. 54-10. Criminal consequences.

Criminal consequences are any results defined or prohibited in the various sections of this chapter as necessary to constitute any of the various crimes herein.
(Code 1956, § 42-12)
State law reference—Similar provisions, R.S. 14:9.

Sec. 54-11. Criminal intent.

Criminal intent may be specific or general:

(1) Specific criminal intent is that state of mind which exists when the circumstances indicate that the offender actively desired the prescribed criminal consequences to follow his act or failure to act;

(2) General criminal intent is present whenever there is specific intent, and also when the circumstances indicate that the of-

fender, in the ordinary course of human experience, must have averted to the prescribed criminal consequences as reasonably certain to result from his act or failure to act.

(Code 1956, § 42-13)

State law reference—Similar provisions, R.S. 14:10.

Sec. 54-12. Criminal intent; how expressed.

The definitions of some crimes require a specific criminal intent, while in others no intent is required. Some crimes consist merely of criminal negligence that produces criminal consequences. However, in the absence of qualifying provisions, the terms "intent" and "intentional" have reference to general criminal intent.

(Code 1956, § 42-14)

State law reference—Similar provisions, R.S. 14:11.

Sec. 54-13. Criminal negligence.

Criminal negligence exists when, although neither specific nor general criminal intent is present, there is such disregard of the interest of others that the offender's conduct amounts to a gross deviation below the standard of care expected to be maintained by a reasonably careful man under like circumstances.

(Code 1956, § 42-15)

State law reference—Similar provisions, R.S. 14:12.

Sec. 54-14. Insanity.

If the circumstances indicate that, because of a mental disease or mental defect, the offender was incapable of distinguishing between right and wrong with reference to the conduct in question, the offender shall be exempt from criminal responsibility.

(Code 1956, § 42-16)

State law reference—Similar provisions, R.S. 14:14.

Sec. 54-15. Intoxication.

The fact of an intoxicated or drugged condition of the offender at the time of the commission of the crime is immaterial, except as follows:

(1) Where the production or drugged condition has been involuntary, and the circumstances indicate this condition is the direct cause of the commission of the crime, the offender is exempt from criminal responsibility.

(2) Where the circumstances indicate that an intoxicated or drugged condition has precluded the presence of a specific criminal intent or of special knowledge required in a particular crime, this fact constitutes a defense to a prosecution for that crime.

(Code 1956, § 42-17)

State law reference—Similar provisions, R.S. 14:15.

Sec. 54-16. Mistake of fact.

Unless there is a provision to the contrary in the definition of a crime, reasonable ignorance of fact or mistake of fact, which precludes the presence of a specific criminal intent or of special knowledge required in that crime, is a defense to any prosecution for that crime.

(Code 1956, § 42-18)

State law reference—Similar provisions, R.S. 14:16.

Sec. 54-17. Mistake of law.

Ignorance of the sections of this chapter or any ordinance of the city, punishable by fine and/or imprisonment, is not a defense to any criminal prosecution. However, mistake of law which results in the lack of an intention that consequences which are criminal shall follow, is a defense to a criminal prosecution under the following circumstances:

(1) Where the offender reasonably relied on an act of this city in repealing an existing criminal provision, or in otherwise purporting to make the offender's conduct lawful; or

(2) Where the offender reasonably relied on a final judgment of a competent court of last resort declaring as unconstitutional a provision of this chapter making the conduct which forms the basis of the prosecution criminal.

(Code 1956, § 42-19)

State law reference—Similar provisions, R.S. 14:17.

Sec. 54-18. Justification, general provisions.

The fact that an offender's conduct is justifiable, although otherwise criminal, shall consti-

tute a defense to a prosecution for any crime based on that conduct. This defense of justification can be claimed under the following circumstances:

(1) When the offender's conduct is an authorized and reasonable fulfillment of any duties of public office;

(2) When the offender's conduct is a reasonable accomplishment of an arrest which is lawful under the laws of the state or of ordinances of the city;

(3) When for any reason the offender's conduct is authorized by law;

(4) When the offender's conduct is a reasonable discipline of minors by their parents, tutors or teachers;

(5) When the crime consists of a failure to perform an affirmative duty and the failure to perform is caused by physical impossibility;

(6) When any crime is committed through the compulsion of threats by another of death or great bodily harm, and the offender reasonably believes the person making the threats is present and would immediately carry out the threats if the crime were not committed; or

(7) When the offender's conduct is in defense of persons or of property under any of the circumstances authorized in this chapter.

(Code 1956, § 42-20)

State law reference—Similar provisions, R.S. 14:18.

Sec. 54-19. Use of force or violence in defense.

The use of force or violence upon the person of another is justifiable, when committed for the purpose of preventing a forcible offense against the person, provided that the force or violence used must be reasonable and apparently necessary to prevent such offense.

(Code 1956, § 42-21)

State law reference—Similar provisions, R.S. 14:19.

Sec. 54-20. Aggressor cannot claim self-defense.

A person who is the aggressor cannot claim the right of self-defense unless he withdraws from the conflict in good faith and in such a manner that his adversary knows or should know that he desires to withdraw and discontinue the conflict.

(Code 1956, § 42-22)

State law reference—Similar provisions, R.S. 14:21.

Sec. 54-21. Defense of others.

It is justifiable to use force or violence in the defense of another person when it is reasonably apparent that the person attacked could have justifiably used such means himself, and when it is reasonably believed that such intervention is necessary to protect the other person.

(Code 1956, § 42-23)

State law reference—Similar provisions, R.S. 14:22.

Sec. 54-22. Principals.

All persons concerned in the commission of a crime, whether present or absent, and whether they directly commit the act constituting the offense, aid and abet in its commission, or directly or indirectly counsel or procure another to commit the crime, are principals.

(Code 1956, § 42-24)

State law reference—Similar provisions, R.S. 14:24.

Sec. 54-23. Bail.

(a) Any person detained or imprisoned for the commission of a crime as defined in this chapter shall be entitled to bail at the earliest practical time after such detention or imprisonment.

(b) The judges of the municipal and traffic court shall cause to be published a bail schedule as specified in this subsection and subsections (c) and (d), below. The schedule shall be equally available to booking officers, defendants, and their attorneys and prosecutors. The schedule shall be consistent and in accordance with existing state law.

(c) For all municipal offenses not specified in section (d), the bail schedule shall direct that the defendant shall be released on his or her own

recognizance, without the requirement of posting any financial obligation. Such defendants are to be released from custody immediately after booking. They are to be directed to appear in the municipal and traffic court for their initial appearance hearing on the next business day.

(d) For the municipal offenses specified in this section, the bail schedule shall direct that the defendant is to be detained until the initial appearance hearing, which is to be held no later than 24 hours after the time of booking. The specified offenses are: Sec. 54-96—Battery; Sec. 54-97—Assault; Sec. 54-341—Illegal carrying of weapons; Sec. 54-444—Impersonating a Peace Officer; and Sec. 54-526—Domestic Violence.

(e) At the initial appearance hearing of all defendants, whether appearance is a result of subsection (c) or (d), the court must determine whether there is a substantial risk that the defendant may flee or poses an imminent danger to any other person or the community.

(1) Absent such a finding, the court shall release the defendant on his or her own recognizance.

(2) If there is such a finding:

i. The court shall impose the least restrictive non-financial release conditions, tailored specifically to address the risk of flight or danger to the community, including peace bonds, stay away orders and protective orders. For any person who qualifies for indigent defense, or does not have the present ability to pay, the court may not set a non-financial release condition that requires fees or costs to be paid by the defendant.

ii. Should the court impose a secured financial condition, the court must make an inquiry into the defendant's ability to pay and a finding that the person has the present ability to pay the amount set. If the court does impose a secured financial condition, in no event shall the bond exceed $2,500.00.

(3) The court shall state on the record the basis for any and all bail or release obligations imposed by the court.

(f) No defendant awaiting trial, after the initial appearance hearing, shall be detained only because they do not have enough money to post bond. No defendant may be detained because of failure to abide by a non-financial release condition due to inability to pay. Neither the court nor any agent thereof may impose a financial condition that results in the pretrial detention of any person after the initial appearance hearing, except as provided in section (g) below.

(g) (1) If a person who has been released on recognizance under this ordinance is later arrested and detained for another violation of the New Orleans Municipal Code or on a warrant for failure to appear during the pendency of the earlier charge, the sheriff shall bring that person to the initial appearance hearing to be held on later than 24 hours after arrest.

(2) If the court determines after a hearing that a defendant has willfully failed to appear for a court date in the present proceeding and that all previous attempts at imposing non-financial conditions have failed to ensure the defendant's presence in court, the court may set a financial bail.

(Code 1956, § 42-4; M.C.S., Ord. No. 27232, § 1, 1-12-17; M.C.S., Ord. No. 27565, § 1, 10-26-17)

(b) For the purposes of this section, the term "telephonic alarm system" shall mean any mechanism, equipment or device which is designed to operate automatically through the use of public telephone facilities to transmit a signal, message or warning to another location.

(b) The person makes a statement that indicates an intent to disregard the summons or refuses to sign the summons; or

(a) *Preamble.*

(1) The city council finds and declares that:

a. Pursuant to City Code section 54-503, motor vehicle speed contests and exhibitions of speed conducted on alleys, highways, roadways and streets are illegal. Motor vehicle speed contests and exhibitions of speed are more commonly known as street races or drag races and the incidence of such illegal races has been escalating over the past few years.

b. Street racing threatens the health and safety of the public, interferes with pedestrian and vehicular traffic, damages private property, creates a public nuisance and interferes with the right of private business owners to enjoy the use of their property within the city.

c. Illegal street races occur on a regular basis on various streets within the city. Large numbers of racers and spectators gather on these streets late at night and in the early morning hours, blocking the streets and sidewalks to traffic, forming a racetrack area, placing bets, and otherwise encouraging, aiding and abetting the racing process.

d. Illegal street races may attract large numbers of spectators. The mere presence of spectators at these events fuels the illegal street racing and creates an environment activities can flourish.

(2) This section is adopted to prohibit spectators at illegal street races with the aim of significantly curbing criminal activity. In discouraging spectators, the act of organizing and participating in illegal street races will be discouraged.

Upon a first conviction, or plea of guilty or nolo contendere, the offender shall be fined not more than $500.00 and may be imprisoned for up to 150 days, at the discretion of the court; for the second or subsequent conviction, or plea of guilty or nolo contendere, the offender shall be fined not less than $500.00 and imprisoned for not less than 90 days.

R.S. 40:966(F), which occurred more than two years prior to a violation of this section shall not be considered a predicate conviction for purposes of determining a "first" conviction under this section.

(c) Upon a second conviction of a violation of subsection (a) of this section with regard to marijuana, tetrahydrocannabinol, or chemical derivatives thereof, except as provided in La. R.S. 40:966(F), upon conviction the offender shall be fined not more than $60.00 for each violation.

(d) Upon a third conviction of a violation of subsection (a) of this section with regard to marijuana, tetrahydrocannabinol, or chemical derivatives thereof, except as provided in La. R.S. 40:966(F), upon conviction the offender shall be fined not more the $80.00.

(e) Upon a fourth of subsequent conviction of a violation of subsection (a) of this section with regard to marijuana, tetrahydrocannabinol, or chemical derivatives thereof, except as provided in La. R.S. 40:966(F), upon conviction the offender shall be fined not more than $100.00 for each violation.

(f) Upon conviction for a violation of subsection (a) with regard to synthetic cannabinoids, the offender shall be punished, except as provided for in La. R.S. 40:966(F), as follows:

(1) Upon a first conviction, the offender shall be fined not more than $500.00, confined in the parish jail for not more than six months, or both.

(3) Upon a third or subsequent conviction, the offender shall be fined not more than $1000.00, confined in the parish jail for not more than six months, or both.

(g) This section shall be enforced by use of summons in lieu of custodial arrest, in accordance with section 54-28. Without limiting the mandatory duty imposed by the preceding sentence, an officer shall have the discretion not to issue a

summons for violations of this section if he or she reasonably believes that the issuance thereof would not result in a conviction.

(h) If a defendant upon whom a fine has been imposed under this section alleges indigency, or otherwise fails to pay the imposed fine, the court must first determine whether the defendant has willfully refused to pay or make bona fide efforts to legally acquire resources to pay; if the defendant has not willfully refused to pay and has made bona fide efforts to attempt to pay the fine, the court shall use its discretion to fashion alternative penalties other than imprisonment, including installment payments or community service. Imprisonment, and/or any other alternative penalties that impose restrictive treatment on defendants greater than they otherwise would have received under this section if not for their inability to pay, are prohibited.

(i) In the event that any one or more provisions of this section shall, for any reason, be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality, or unenforceability shall not affect any other provision of this section. Sec. 54-506. Prospective pardon for simple possession of marijuana.

(a) It is the policy of the Council of the City of New Orleans that the arrest, prosecution, and punishment of individuals solely charged with simple possession of marijuana presents greater harm to the health, safety, and welfare of the city than the act of possession itself.

(b) Any violation of section 54-505 occurring on or after September 1, 2021 shall be deemed pardoned immediately upon and by operation of law the issuance of a summons.

(c) Any summons issued solely for a crime pardoned under subsection (b) shall be deemed revoked and automatically void without need for any court appearance by the accused. Upon the issuance of a summons for a crime pardoned under subsection (b), no additional police action shall be required relative to the marijuana charge pardoned hereunder.

(d) A pardon under subsection (b) shall not preclude a police officer from taking all customary incidental investigatory actions that would otherwise be available to an officer with a reasonable suspicion or probable cause to believe that a crime of marijuana possession has occurred or from charging an individual with any other crime for which probable cause exists.

(a) No favorable recommendations shall be made for a certificate of need and necessity and no certificate of need and necessity shall be issued unless the applicant proves in a public hearing, conducted by the director of EMS, that the issuance of a permit to provide ambulance service is necessary due to a specific deficiency or need in the services currently provided, and that the issuance of the permit will improve the quality of ambulance service to the public.

(b) In the event that an applicant prevails in proving such a need by a preponderance of the evidence at a public hearing, any existing ambulance service permit holders will be given notice of any application for a certificate of need and necessity and will have 30 working days from the date of notice to respond in writing with opposition to, objection to or request for modification of the application and to state whether the application, if granted, would negatively affect the ability of any existing ambulance service permit holder to continue providing services.
(M.C.S., Ord. No. 25023, § 1, 9-20-12)

Sec. 62-62. Qualifications for new permit.

In determining whether a permit shall be issued, NOEMS shall give weight and due regard, among other things, to:

(1) The probable performance and quality of the service offered by the applicant measured by, among other things, proof of financial responsibility, the establishment and maintenance of a bona fide office in Orleans Parish from which the service is offered, and the ability of the applicant to provide simultaneous 24-hour emergency and non-emergency response.

Sec. 62-95. Fees for emergency and non-emergency medical services.

(4) All parish permitted ground ambulance providers that bill for services within the parish shall have a patient financial hardship program.

(5) For the period beginning January 1, 2025, fees for emergency medical standby services for special events occurring in Orleans Parish regardless of the permitted provider shall be in accordance with the following resource fee schedule:

Ambulance	$200.00 per hour with two technicians
Sprint Unit	$100.00 per hour with one technician

EMS Supplemental Staff	$75.00 per hour

(6) Special requests for resources not included in this fee schedule shall be charged the same as the most appropriate resource as determined by the director of New Orleans EMS or designee.

(7) Patient treatment and transport fees shall be charged in addition to the resource's hourly standby rate and in accordance with this section.

(8) An additional service charge equal to one hour of the resource's hourly standby rate shall be charged to accommodate mobilization and demobilization travel time.

(9) An additional command staff member shall be required for three or more resources assigned to the same event.

(10) All permitted ambulance providers providing emergency medical standby services shall be required to register an operations plan with New Orleans EMS in the format prescribed by the director of EMS or designee no later than five business days prior to the event start date unless emergent or unforeseen circumstances exist.

(11) A fee of $35.00 shall be charged to the provider for the submission and review of all operations plans for emergency medical standby services within Orleans Parish. All fees collected shall be deposited directly into the general fund of the City of New Orleans to offset personnel expenses incurred in event review and planning. In the case of a series of events occurring at the same location or venue where the director of New Orleans EMS or their designee determines that there is no substantive change in coverage, a single plan review will suffice.

(12) Failure to submit an operations plan shall be considered a violation of this chapter and charged in accordance with section 1-13 of this Code.

(13) Fees for standby services may only be waived by the chief administrative officer or their designee. Copies of such waivers must be received by New Orleans EMS, regardless of the provider of services for the event, no later than ten days prior to the event. It shall be the responsibility of the sponsoring agency to obtain a fee waiver for the event and to provide it to the provider of emergency medical services for inclusion in the operations plan submitted to New Orleans EMS as outlined in this section.

(14) When fees for standby services are waived in accordance with the aforementioned provisions, no provider shall charge standby service rates but may charge individual patients for treatment and transport fees in accordance with this section.

(15) The chief administrative office, the director of New Orleans EMS, or their designee shall have the right to request from any permitted ambulance provider records and receipts related to standby services and fees for special events and for any other related emergency or non-emergency services to monitor compliance with the conditions of this section.

(16) Any person charged with any of the duties imposed by this article who fails to perform such duties shall be guilty of a violation of this article and penalized in accordance with section 1-13 of this Code. All fines collected for violations of this article shall be paid to the general fund. Notice from the city or New Orleans EMS shall be required to hold any person liable for penalties for violations of this section. In addition to the penalties imposed pursuant to section 1-13, the director of New Orleans EMS may revoke a permit or impose other sanctions.
(M.C.S., Ord. No. 25023, § 1, 9-20-12; M.C.S., Ord. No. 30213, § 2, 1-9-25)

Sec. 62-96. Unauthorized responses by ambulances.

(a) No ambulance shall respond to any emergency based only on information obtained from or intercepted by use of a radio communication scanner or similar device unless that ambulance has been specifically requested to respond to such emergency.

(b) If a private provider is flagged down or comes across the scene of a life threatening medical emergency, they are permitted to render appropriate care and stabilization of the sick and injured, but must contact New Orleans EMS to advise of the incident. The communications center will determine if the private provider will transport the patient or if care will be transferred to New Orleans EMS.
(M.C.S., Ord. No. 25023, § 1, 9-20-12)

Sec. 62-97. Ambulance performance standards.

(a) All owners or operators shall ensure that their ambulance response time from receipt of call by dispatcher to rollover emergencies is within 11 minutes 59 seconds or less on a minimum of 70 percent of all such calls received within a monthly reporting period.

(b) No ambulance shall respond to a rollover emergency call originating from New Orleans EMS unless it is an advanced life support ambulance capable of providing advanced life support services and whose crew shall consist of at least one nationally registered paramedic and one nationally registered EMT-basic. The EMT-basic shall serve as driver. Nothing in this provision shall prevent an ambulance provider from utilizing basic life support ambulances on scheduled transports as defined in this chapter.

(c) No owner or operator shall unreasonably refuse to respond to a request for emergency service. An owner or operator shall be deemed in violation of this provision if he is unavailable or refuses to respond on no less than 50 percent of rollover emergencies within a monthly reporting period. Any owner or operator who determines that he cannot meet the standard due to an increase in call volume which renders the provider incapable of handling additional calls, can request to be temporarily removed from the rollover emergency provider list for a period not to exceed 12 hours by notifying NOEMS at the time of such request and at the termination of such need. Any provider who fails to return to the rollover list after the 12-hour period shall be deemed in violation of this chapter and shall be subject to penalty.

(d) NOEMS has the discretion of declaring certain calls non-emergent at the scene of the incident and of designating such calls as BLS level calls. Owners and operators who receive such calls from NOEMS shall have the option of using BLS equipped ambulances for such transports.

(e) On a monthly basis, all private providers shall make available to the Medical Director for New Orleans EMS records related to the rollover calls, with times, for continuing quality assurance purposes to ensure private providers are providing the same standard of care while acting as agents of New Orleans EMS.

(f) Following each rollover emergency, all ambulances shall report times and disposition of the call, including the receiving facility, to the originating agency. For New Orleans EMS, this will mean contacting the Orleans Parish Communications District.
(M.C.S., Ord. No. 25023, § 1, 9-20-12)

Sec. 62-98. Response times.

(a) Response times on rollover emergencies will be calculated from the time of receipt by provider's dispatch center of "Essential Information" until the arrival at the scene of the incident by an ALS equipped unit or Sprint Unit.

(b) Response times will be calculated each calendar month by the provider. Provider will send NOEMS monthly reports of response times by area along with all back-up documentation including the itemized summary of each call that is included on the monthly report.

(c) The itemized summary of each call shall include all available information regarding the time, arrival times, and other pertinent information of each call.

(d) No emergency rollover calls should be excluded from the response time calculation. It shall be the provider's responsibility to ensure that all such calls will be included.

(e) All calls should note any occurrence of events below, considered mitigating factors for response time compliance:

(1) Faulty address—Match data from the 911 computers or incorrect or insufficient information from the caller.

(2) Responses which occur during periods of abnormally severe weather conditions that could reasonably be expected to substantially impair response time performance.

(3) Unusual road conditions and blocked railroad and bridge crossings which could reasonably be expected.

(4) Prank calls.

(5) Excess runs which occur during periods of unusual system overload. Unusual system overload is defined as a period of time during which more than three emergency calls are simultaneously in progress within geographical boundaries of the service area. Excess runs are those responses after the third emergency call during an unusual system overload.

(6) Delayed response due to potentially hazardous scenes or in which access is restricted by public safety personnel.

(7) Responses during a declared local disaster, or in a mutual aid jurisdiction that has requested assistance from the provider.

(8) Any response after the first response in cases of multiple-response incidents (i.e., where more than one ambulance is sent to the same incident).

(M.C.S., Ord. No. 25023, § 1, 9-20-12)

Sec. 62-99. Review of rates and financial information.

(a) Every permitted owner/operator performing services in the City of New Orleans shall submit a schedule of its rates for all services to New Orleans EMS for review at least once per year at such time and in such format as may be designated by New Orleans EMS. New Orleans EMS shall not fix, establish, or revise such rates, unless permitted by ordinance; however, any ambulance service establishing or contracting rates for emergency or non-emergency transportation shall follow the allowable Medicare reimbursement guidelines or rates for the geographical area in which services are to be provided.

(b) Every owner/operator shall permit New Orleans EMS or its auditors reasonable access to its financial records, books, documents, papers, files, or other records which are pertinent to determining compliance with this chapter, during normal business hours upon reasonable notice.
(M.C.S., Ord. No. 25023, § 1, 9-20-12)

Sec. 62-100. Mass casualty or disaster exception.

(1) In the event of a mass casualty incident within Orleans Parish, the Director of New Orleans EMS or his or her designee shall coordinate any medical response deemed appropriate to minimize loss of life and human suffering. A mass casualty incident is an event with critical injuries or deaths exceeding the normal response capability of New Orleans EMS.

(2) In the event of any disaster declared by the mayor, or where additional resources are required, all resources provided in response to such a request will fall under the direction of the City of New Orleans Unified Command, the Deputy Mayor for Public Safety, the Director of New Orleans

EMS, the Incident Commander, or his or her designee. Decisions to suspend provisions of this chapter may only be made by the mayor pursuant to R.S. 29:727(F)(1).

Sec. 66-105. Removal of abandoned or nuisance vehicles; pre-towing notice requirements.

Except as otherwise provided in this article, prior to towing an abandoned or nuisance vehicle the policing authority shall give notice to the registered owner or person entitled to possession of the vehicle by affixing on the windshield or some other conspicuous place on the vehicle printed information indicating that the vehicle will be removed by the city on a specified date, that is at least 48 hours after the notice is affixed, unless the vehicle is moved by the owner or entitled possessor prior to that date.
(M.C.S., Ord. No. 21967, § 1, 6-2-05; M.C.S., Ord. No. 30653, § 1, 5-7-26, eff. 5-31-26)

Sec. 66-106. Exceptions to prior notice requirement; grounds.

The requirement that notice be affixed to an abandoned or nuisance vehicle at least 48 hours prior to removal may, as determined by the policing authority, be omitted in those circumstances where there is a special need for prompt action to eliminate traffic obstructions or to otherwise maintain and protect the public safety and welfare. Such findings shall, in all cases, be entered by the policing authority in the appropriate daily records. Circumstances justifying the removal of vehicles without prior notice include:

(a) *Vehicles abandoned on the streets.* For vehicles left on the public streets and highways, such circumstances include, and the city council hereby determines that immediate removal of such vehicles may be warranted when they are:

(1) Obstructing traffic (Code section 154-878),

(b) *Other abandoned or nuisance vehicles.* With respect to abandoned or nuisance vehicles left on city-owned property other than the streets and highways, and on private property, such vehicles may be removed without giving prior notice only in those circumstances where the policing authority finds a special need for prompt action to protect and maintain the public health, safety and welfare. By way of illustration but not limitation, such circumstances include vehicles blocking or obstructing ingress or egress to businesses and residences, vehicles parked in such a location or manner as to pose a traffic hazard, and vehicles causing damage to public or private property.

In no case will a vehicle be removed by the policing authority from private property without a written request of the owner, occupant or lessee, except in those cases where a vehicle is declared a nuisance vehicle. The policing authority may require any person requesting the removal of an abandoned or nuisance vehicle from private property to indemnify the policing authority against any loss, expense or liability incurred because of the removal, storage, or sale thereof. Any owner, occupant or lessee of a property requesting removal of an abandoned or nuisance vehicle from private property shall be required to pay a $100.00 administrative fee upon written request for removal of said vehicle.

Sec. 66-177. Variances.

(a) The director may grant an individual variance from the limitations prescribed in this article whenever it is found, upon presentation of adequate proof, that compliance with any part of this article:

(1) Will result in an arbitrary and unreasonable taking of property; or

(2) Will not result in a condition injurious to health or safety.

(b) Any variance, or renewal thereof, shall be granted within the requirements of subsection (a) of this section and for time periods and under conditions consistent with the reasons therefore, and within the following limitations:

(1) If the variance is granted on the grounds that compliance with the particular requirement or requirements will necessitate the taking of measures which, because of their extent or cost, must be spread over a considerable period of time, it shall be for a period not to exceed such reasonable time as, in the view of the director, is requisite for the taking of the necessary measures. A variance granted on the grounds specified in this subsection shall contain a time-table for the taking of action in an expeditious manner and shall be conditioned on adherence to the time-table; or

DIVISION 3. REGULATIONS

Sec. 66-201. Noise measurement.

Sound level measurements shall be made with a properly calibrated sound level meter Type 2 or better using the A-weighted network in accordance and conforming with the noise measurement standards, based on the reference sound pressure, promulgated by the American National Standards Institute and Testing Procedures

(b) L_{10} is the A-weighted sound pressure level which is exceeded ten percent of the time in any measurement period. The measurement period

shall not be less than ten minutes when measured at or beyond the property boundary of the receiving land use category (example L_{10} is the sound level that is exceeded a total of one minute in a ten-minute period). In the SHD/VCE, the measurement may be taken at a minimum distance of 7.5 meters (25 feet) from the source being measured within a minimum clearance of three feet from any reflecting surface.

(c) For any source of sound the maximum sound level (L_{max}) shall not be exceeded.

(d) In the case of two-family or multiple-family dwellings the sound level shall be measured within an adjacent intrabuilding dwelling.

(e) When a noise source can be identified and its noise measured in more than one land use category, the limits of the more restrictive use shall apply at the boundary and within the most restrictive land use category. This provision shall not apply to the SHD/VCE.

It shall be unlawful to operate or play in any public right-of-way, public park, playground or recreational area, any musical instruments, radio, television, phonograph, tapeplayer, cassette player, compact disc player, or any sound device, including but not limited to loudspeakers or other devices reproducing or amplifying sound in such a manner, or with such volume, as to exceed an average of 80 decibels measured at a distance of 50 feet from the sound source. The New Orleans police department or the department of health shall order any person or persons in violation of this section to immediately cease creating or causing the creation of noise. If said person or persons fail to obey this order, appropriate action shall be taken pursuant to section 66-137. The readings shall be in succession.

(a) *Definitions.* For purposes of this section the following definitions shall apply:

(1) "Supplier" means a person who has supplied labor or materials to a contractor in the execution of work provided for in a city contract.

(2) "Undisputed amount" means any amount owed by a contractor to a subcontractor or supplier for work performed or materials supplied and for which there is no good-faith defense to payment.

(b) *Prompt payment required.* Any person who contracts with the city or its agencies to provide goods and services and is paid with city funds shall pay all subcontractors or suppliers any undisputed amounts for which the contractor has been paid within 30 days of receiving a progress or final payment from the city encompassing the subcontracted work or supplies. The department administering the contract must respond to a subcontractor or supplier within two business days and notify them of the dispute resolution timeline and process as required under subsection (c).

(c) *Dispute resolution procedure.* Any person who contracts with the city or its agencies to provide goods and services and is paid with city funds shall be deemed to agree to and abide by the dispute resolution procedures set forth in this section to ensure the timely payment of subcontractors or suppliers.

(1) If a contractor intends to not pay a subcontractor or supplier in full within the required 30-day period for any reason,

the contractor shall promptly notify the subcontractor or supplier in writing and state the reason why payment is being withheld, and shall provide a copy of such notice of nonpayment to the department administering the contract.

(2) The subcontractor or supplier may notify in writing the department administering the contract, and the office or supplier diversity if the subcontractor or supplier is a certified disadvantaged business enterprise, if it does not receive payment timely or otherwise disputes the basis for nonpayment reflected in the contractor's notice of nonpayment. The subcontractor's or supplier's notice shall: (i) identify the contractor, the project related to the disputed amount, and the amount in dispute; (ii) provide detailed and itemized supporting documentation substantiating the subcontractor's or supplier's entitlement to payment; and (iii) an explanation for any dispute concerning payment by the contractor, if known.

(3) Within five business days of receipt of written notice from a subcontractor or supplier, the department administering the contract shall contact the contractor in writing to ascertain whether the amount withheld is an undisputed amount. If the contractor fails to respond within five business days, or if the department decides that a part or all of the amount withheld is an undisputed amount, the department shall notify the contractor and subcontractor supplier in writing of its determination of the undisputed amount, and shall instruct the contractor to pay the subcontractor or supplier the undisputed amount within five business days.

(4) If the contractor fails to pay the subcontractor within five business days of receipt of the department's notice of determination of the undisputed amount, the unpaid subcontractor or supplier may notify the department administering the contract in writing of the nonpayment. Within ten business days of receiving notice of nonpayment of the undisputed amount, the department shall conduct a meeting with the contractor and subcontractor or supplier to evaluate the reasons for nonpayment and determine if the contractor is delinquent in payment of an undisputed amount. At the discretion of the department, the meeting may be conducted in-person, telephonically, or virtually. In advance of this meeting, the department shall furnish copies of the bid documents submitted by the contractor and the signed contract to the subcontractor or supplier. The department may require the parties to provide any additional information that the department believes necessary to evaluate the dispute.

(5) At the conclusion of the meeting described in the preceding paragraph, the department administering the contract shall issue a final decision and shall notify the parties and, if the subcontractor or supplier is certified as a disadvantaged business enterprise, the office of supplier diversity, in writing of such decision.

(6) The contractor shall notify the department administering the contract upon payment of any undisputed amount. If the contractor fails to pay all undisputed amounts within ten business days of the department's final decision, the department shall cease payments to the contractor until payment of the undisputed amounts to the subcontractor or supplier is verified. In addition, the department may: (i) suspend work under the contract based on the failure of the contractor to meet its obligations under the contract; (ii) assess liquidated damages in an amount not exceeding $100 per day from the date on which the undisputed payment was initially due pursuant to subsection (b); and (iii) seek to enforce any available payment bond.

(d) *Appeals.* A contractor, a subcontractor, or a supplier may appeal the department's final decision issued pursuant to subsection (c). The process for appeals shall be established by the chief administrative officer.

(e) *Cause of action.* No act, failure to act, or decision by any representative of the city in carrying out the terms of this section shall give rise to a cause of action against the city by a contractor, subcontractor, or supplier.

(f) *City contracting.* Each city contract shall include a provision requiring prompt payment to subcontractors and suppliers in accordance with the terms and dispute resolution procedures of this section.

(g) *Waivers.* Requests to waive any of these provisions shall be approved by the chief administrative officer in writing.

ARTICLE VI. INVESTMENT POLICY

Sec. 70-601. Policy.

It is the policy of the City of New Orleans to invest public funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the entity and conforming to all state and local statutes governing the investment of public funds.
(M.C.S., Ord. No. 18,621, §§ 1, 2, 2-5-98)

Sec. 70-602. Scope.

This investment policy applies to all financial assets of the City of New Orleans. These funds are accounted for in the City of New Orleans' Comprehensive Annual Financial Report.
(M.C.S., Ord. No. 18,621, §§ 1, 2, 2-5-98)

Sec. 70-603. Prudence.

Investments shall be made with judgment and care—under circumstances then prevailing—which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived.

(1) The standard of prudence to be used by investment officials shall be the "prudent person" standard and shall be applied in the context of managing an overall portfolio. Investment officers acting in accordance with written procedures and the investment policy and exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectations are reported in a timely fashion to the director of finance and appropriate action is taken to control and prevent further adverse developments.

(2) The assets of the City of New Orleans shall be held in the name of the City of New Orleans in trust by the fiduciary (fiduciaries) designated by the City of New Orleans.

(M.C.S., Ord. No. 18,621, §§ 1, 2, 2-5-98)

Sec. 70-604. Objectives.

The primary objectives, in priority order, of the City of New Orleans' investment activities shall be:

(1) *Safety.* Safety of principal is the foremost objective of the investment program. Investments of the City of New Orleans shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. The objective will be to mitigate credit risk and interest rate risk.

(2) *Liquidity.* The City of New Orleans' investment portfolio will remain sufficiently liquid to enable the City of New Orleans to meet all operating requirements which might be reasonably anticipated. This is accomplished by structuring the portfolio so that securities mature concurrent with cash needs to meet anticipated demands (static liquidity). Furthermore, since all possible cash demands cannot be anticipated, the portfolio should consist largely of securities with active secondary or resale markets (dynamic liquidity).

(3) *Return on investments.* The City of New Orleans' investment portfolio shall be designed with the objective of attaining a rate of return throughout budgetary and economic cycles, commensurate with the City of New Orleans' investment risk constraints and the cash flow characteristics of the portfolio. Return on investment is of less importance compared to the safety and liquidity objectives described above. The core of investments are limited to relatively low risk securities in anticipation of earning a fair return relative to the risk being assumed. Securities shall not be sold prior to maturity with the following exceptions:

a. A declining credit security could be sold early to minimize loss of principal;

b. A security swap would improve the quality, yield, or target duration in the portfolio; or

c. Liquidity needs of the portfolio require that the security be sold.

(M.C.S., Ord. No. 18,621, §§ 1, 2, 2-5-98)

Sec. 70-605. Delegation of authority.

Authority to manage the City of New Orleans investment program is derived from the Louisiana Revised Statutes, title 33, section 2955. Management responsibility for the investment program is hereby delegated to the director of finance, who shall carry out established written procedures and internal controls for the operation of the investment program consistent with this investment policy. Procedures should include reference to:

(1) Safekeeping;

(2) PSA repurchase agreements;

(3) Delivery versus payment;

(4) Investment accounting;

(5) Wire transfer agreements;

(6) Banking service contracts; and

(7) Collateral/depository agreements.

Such procedures shall include explicit delegation of authority to persons responsible for investment transactions. No person may engage in an investment transaction except as provided under the terms of this policy and the procedures established by the director of finance. The director of finance shall be responsible for all transactions undertaken and shall establish a system of controls to regulate the activities of subordinate officials.

(M.C.S., Ord. No. 18,621, §§ 1, 2, 2-5-98)

Sec. 70-606. Investment committee.

The director of finance shall establish an investment committee consisting of the chief administrative officer or his designated representative, the director of finance, the city treasurer, and the assistant city treasurer. The committee shall meet periodically, but at least annually at the call of the director of finance to determine general investment strategies, monitor portfolio results, ensure the adequacy of maturity restrictions, and perform other duties as may be assigned by the director of finance. Further, the committee will adopt this investment policy and may establish its own rules of procedure to modify, enhance or otherwise change this policy as directed by circumstances then prevailing. The committee shall be responsible for oversight of the relationship between the city and its investment managers and reviewing the investment manager's performance on a regular basis. The director of finance will monitor the investment manager's compliance with city investment policies, communicate any changes in the city's investment policies to the investment managers, and report all transactions to the city's accounting bureau.

(M.C.S., Ord. No. 18,621, §§ 1, 2, 2-5-98)

Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with the proper execution and management of the investment program, or that could impair their ability to make impartial decisions. Employees and officers shall refrain from undertaking personal investment transactions with the same individual with whom business is conducted on behalf of the city.

Brokers/dealers must indicate in each transaction confirmation whether they are acting as a principal (selling securities from their own portfolio) or as an agent (purchasing securities from another broker/dealer).

Sec. 70-608. Authorized financial dealers and institutions.

The director of finance will maintain a list of financial institutions authorized to provide invest-

ment services. In addition, a list will also be maintained of approved security brokers/dealers selected by credit worthiness who are authorized to provide investment services in the State of Louisiana. These may include "primary" dealers or regional dealers that qualify under Securities and Exchange Commission rule 15C3-1 (uniform net capital rule). No public deposit shall be made except in a qualified public depository as established by state laws.

"Structured note" means securities of U.S. government agencies, instrumentalities, or government sponsored enterprises which have been restructured, modified, and/or reissued by private entities.

(M.C.S., Ord. No. 18,621, §§ 1, 2, 2-5-98)

Sec. 70-611. Repurchase agreements.

If repurchase agreements are utilized, a master repurchase agreement must be signed with the bank or dealer. The underlying securities shall consist of U.S. government or government agency securities as enumerated in paragraphs (1), (2), and (3) of this section; provided, however, that:

(1) All repurchase transactions must be governed by written master repurchase agreements;

(3) In the case of repurchase collateral held in book entry form in the Federal Reserve System, all deliveries of securities must be made, for the transfer thereof, through the Federal Reserve book entry system to the account designated by the investment manager for such purpose;

(4) Securities held in certificated form must be delivered to the custodian as directed by the director of finance;

(5) Any collateral employed under this paragraph shall be counted towards the applicable maximum limits set forth in this investment policy for such type of investment, and such collateral shall be valued at market at not less than 102 percent of the maturity value of the agreement and marked-to-the-market as requested by the manager; and

(6) Not more than 25 percent of the account, valued at market, may be invested under this paragraph (investments due to mature in one business day may be excluded from the computation of this percentage).

(M.C.S., Ord. No. 18,621, §§ 1, 2, 2-5-98)

Sec. 70-612. Competitive selection of investment instruments.

It is the city's policy to transact all securities purchases/sales only with approved financial institutions through a formal and competitive process requiring the solicitation and evaluation of at least three bids/offers from qualified financial institutions. At least one of the three required bids/offers must be from a bank which has its principal office located in Orleans Parish. The city will accept the offer which provides:

(1) The highest rate of return within the maturity required; and

(2) Will optimize the investment objectives of the overall portfolio. When selling a security, the city will select the bid which generates the highest sale price. It will be the responsibility of the personnel involved with each purchase/sale to produce and retain written records of each transaction including the name of the financial institution solicited, rate quoted, description of the security, investment selected, and any special considerations that had an impact on the decision.

If the lowest priced security (highest yield) was not selected for purchase, a written explanation describing the rationale will be included in this record.

In making investment decisions, all other things being equal and subject to compliance with any applicable Internal Revenue Code requirements for bond proceeds, investments in financial institutions doing business in the State of Louisiana will be given preference over other investment options.

(M.C.S., Ord. No. 18,621, §§ 1, 2, 2-5-98)

Sec. 70-613. Collateralization.

Security will be required for all deposits. In order to anticipate market changes and provide a level of security for all funds, the collateralization level shall at all times be 102 percent of market value, excluding accrued interest, of principal and accrued interest on deposit. The City of New Orleans chooses to limit collateral to the following:

(1) Direct United States Treasury obligations, the principal and interest of which are fully guaranteed by the government of the United States.

(2) Bonds, debentures, notes or other evidence of indebtedness issued or guaranteed by federal agencies and provided such obligations are backed by the full faith and credit of the United States of America, which obligations include but are not limited to:

a. U.S. Export-Import Bank;

b. Farmers Home Administration;

c. Federal Financing Bank;

d. Federal Housing Administration Debentures;

e. General Services Administration;

(3) Bonds, debentures, notes, or other evidence of indebtedness issued or guaranteed by U.S. government instrumentalities, which are federally sponsored, and such obligations include but are not limited to:

a. Federal Home Loan Bank System;

b. Federal Home Loan Mortgage Corporation;

c. Federal National Mortgage Association;

d. Student Loan Marketing Association; and

e. Resolution Funding Corporation.

Notwithstanding the foregoing list of investments, in no instance shall the city accept as collateral obligations described in items (1), (2), and (3) of this section which are collateralized mortgage obligations that have been stripped into interest only or principal only obligations, inverse floaters, or structured notes. For the purposes of this item, "structured notes" shall mean securities of U.S. government agencies, instrumentalities, or government sponsored enterprises which have been restructured, modified, and/or reissued by private entities.

Collateral will always be held by an independent third party with whom the City of New Orleans has a current custodial agreement. A clearly marked evidence of ownership (safekeeping receipt) must be supplied to the City of New Orleans and retained.
(M.C.S., Ord. No. 18,621, §§ 1, 2, 2-5-98)

Sec. 70-614. Safekeeping and custody.

All security transactions, including collateral for repurchase agreements, entered into by the City of New Orleans shall be conducted on a delivery-versus-payment basis. Securities will be held by a third party custodian designated by the director of finance and evidenced by safekeeping receipts.

The city has selected a custodian bank which is a member of the Federal Reserve System to hold its investments. Delivery of the applicable investment documents (e.g., contracts, securities, and safekeeping receipts) to the city's custodian is required for all investments. For secured transactions such as repurchase agreements, either the title to or a perfected security interest in the securities, along with any necessary transfer documents, must be transferred to the custodian. Such transactions will always use delivery-versus-payment procedures. Safekeeping procedures of the custodian shall be reviewed annually by independent auditors, and a copy of their report shall be supplied to the city for review.
(M.C.S., Ord. No. 18,621, §§ 1, 2, 2-5-98)

Sec. 70-615. Diversification.

The City of New Orleans will diversify its investments by security type and institution. With the exception of U.S. Treasury securities, bank certificates of deposit (as limited by R.S. 39:1242D), and authorized pools, no more than 25 percent of the City of New Orleans' total investment portfolio will be invested in a single security type or with a single financial institution. Diversification as to a specific kind of security and specific issuers as a percent to total portfolio value shall be as follows:

Authorized Investment Instrument	*Percent of Portfolio Allowed*	*Percent of Portfolio per Issuer*	*Percent of Outstanding Securities per Issuer*
A. U.S. Government	100%	100%	100%
B. U.S. Agencies	100%	100%	100%
C. U.S. Instrumentalities	100%	25%	10%
D. Repurchase Agreements	25%	10%	10%

Authorized Investment Instrument	*Percent of Portfolio Allowed*	*Percent of Portfolio per Issuer*	*Percent of Outstanding Securities per Issuer*
E. Certificates of Deposit	100%	100% (R.S. 39:1242D)	100%
F. Money Market Mutual Funds	25%	10%	10%

(M.C.S., Ord. No. 18,621, §§ 1, 2, 2-5-98)

Sec. 70-616. Maximum maturities.

To the extent possible, the City of New Orleans will attempt to match its investments with anticipated cash flow requirements. Unless matched to a specific cash flow, the City of New Orleans will not directly invest in securities maturing more than three years from the date of purchase. However, the City of New Orleans may collateralize its repurchase agreements using longer-dated investments not to exceed ten years to maturity.

Reserve funds may be invested in securities exceeding three years if the maturity of such investments are made to coincide as nearly as practicable with the expected use of the funds.
(M.C.S., Ord. No. 18,621, §§ 1, 2, 2-5-98)

Sec. 70-617. Internal control.

The director of finance is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the city are protected from loss, theft, or misuse. The internal control structure shall be designed to provide reasonable assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management. Accordingly, the director of finance shall establish a process for annual independent review by an external auditor to assure compliance with policies and procedures. The internal controls shall address the following points:

(1) *Control of collusion.* Collusion is a situation where two or more employees are working in conjunction to defraud their employer.

(2) *Separation of transaction authority from accounting and recordkeeping.* By separating the person who authorizes or performs the transaction from the people who record or otherwise account for the transaction, a separation of duties is achieved.

(3) *Custodial safekeeping.* Securities purchased from any bank or dealer including appropriate collateral (as defined by state law) shall be placed with an independent third party for custodian safekeeping.

(4) *Avoidance of physical delivery securities.* Book entry securities are much easier to transfer and account for since actual delivery of a document never takes place. Delivered securities must be properly safeguarded against loss or destruction. The potential for fraud and loss increases with physically delivered securities.

(5) *Clear delegation of authority to subordinate staff members.* Subordinate staff members must have a clear understanding of their authority and responsibilities to avoid improper actions. Clear delegation of authority also preserves the internal control structure that is contingent on the various staff positions and their respective responsibilities.

(6) *Written confirmation or telephone transactions for investments and wire transfers.* Due to the potential for error and improprieties arising from telephone transactions, all telephone transactions should be supported by written communications and approved by the appropriate person. Written communica-

tions may be via fax if on letterhead and the safekeeping institution has a list of authorized signatures.

(7) *Development of a wire transfer agreement with the lead bank or third party custodian.* This agreement should outline the various controls, security provisions, and delineate responsibilities of each party making and receiving wire transfers.

(M.C.S., Ord. No. 18,621, §§ 1, 2, 2-5-98)

Sec. 70-618. Performance standards.

The investment portfolio shall be designed with the objective of obtaining a rate of return throughout budgetary and economic cycles, commensurate with the investment risk constraints and the cash flow needs.

(1) Market yield (benchmarks). The City of New Orleans' investment strategy is active. Given this strategy, the basis used by the director of finance to determine whether market yields are being achieved shall be determined by the investment committee.

(2) The investment portfolio will be managed in accordance with the parameters specified within this policy. The portfolio should obtain a market average rate of return during a market/economic environment of stable interest rates. Portfolio performance should be compared to appropriate benchmarks on a regular basis.

(M.C.S., Ord. No. 18,621, §§ 1, 2, 2-5-98)

Sec. 70-619. Reporting.

The investment project manager and the custodian shall provide to the city monthly, quarterly, and annual investment reports which provide a clear picture of the status of the current investment portfolio. The management report should include comments on the fixed income markets and economic conditions, discussions regarding restrictions on percentage of investment by categories, possible changes in the portfolio structure going forward and thoughts on investment strategies.

Schedules in the reports should include the following:

(1) A listing of individual securities held at the end of the reporting period by authorized investment category;

(2) Average life and final maturity of all investments listed;

(3) Coupon, discount or earnings rate;

(4) Par value, amortized book value and market value;

(5) Percentage of the portfolio represented by each investment category;

(6) Brokerage and third party commission;

(7) Unrealized gains or losses resulting from appreciation or depreciation by listing the cost and market value of securities over one-year duration that are not intended to be held until maturity;

(8) Average weighted yield to maturity of portfolio on entity investments as compared to applicable benchmarks;

(9) Listing of investment by maturity date and by fund; and

(10) The percentage of the total portfolio which each type of investment represents.

(M.C.S., Ord. No. 18,621, §§ 1, 2, 2-5-98)

Sec. 70-620. Arbitrage.

The Internal Revenue Code of 1986, as amended, provides for arbitrage restrictions which the city's investments are subject to. The city will comply with all arbitrage regulations and will remit all excess arbitrage earnings, where appropriate, to the U.S. Treasury within the legal time limits.

(M.C.S., Ord. No. 18,621, §§ 1, 2, 2-5-98)

Sec. 70-621. Investment policy adoption.

In accordance with R.S. 33:2955D, this investment policy shall be adopted by ordinance of the Council of the City of New Orleans. The policy shall be reviewed annually by the investment committee and any modifications made thereto must be approved by the city council.

(M.C.S., Ord. No. 18,621, §§ 1, 2, 2-5-98)

(b) Where more than one such establishment or facility is kept or conducted by the same person, a separate service charge shall be paid for each separate establishment.
(Code 1956, § 24-29)

Sec. 74-154. Amount of service charge.

The service charge shall be based upon the maximum quantity of a hazardous material used, stored, transported, manufactured, generated, or sold at any one time during the preceding year and as shown in the following table:

(Code 1956, § 24-32)

Sec. 74-157. Penalties and interest.

(a) If the service charge due by any person under this article is not paid on or before the date prescribed for its payment, there shall be collected, with such charges, interest at the rate of 12 percent per annum from the delinquent date until paid.

(b) There shall also be collected a penalty of five percent of the service charge for each month or fraction thereof if the fee is delinquent for more than 30 days, not to exceed 25 percent of the service charge on the aggregate and, in the event of suit attorneys' fees, at the rate of ten percent on the aggregate amount of service charge, interest and penalty.

(c) All penalties and interest imposed by this article shall be payable to and recoverable by the director of the department of finance in the same manner as if they were part of the service charge imposed.

Secs. 78-2—78-50. Reserved.

ARTICLE II. FLOOD DAMAGE PREVENTION*

DIVISION 1. FLOODPLAIN REGULATION

Sec. 78-51. Statutory authorization.

The provisions of this article are adopted pursuant to the authority granted through R.S. 38:84 which allows municipalities of the state to adopt such ordinances, rules, and regulations as are necessary to comply with the requirements of the National Flood Insurance Act of 1968, and the regulations adopted pursuant thereto by the Federal Emergency Management Agency (FEMA).
(M.C.S., Ord. No. 26906, § 1, 5-5-16, eff. 6-1-16)

Sec. 78-52. Finding of fact.

(a) The flood hazard areas of Orleans Parish are subject to periodic inundation which may result in loss of life and property, health and safety hazards, disruption of commerce and governmental services, and extraordinary public expenditures for flood protection and relief, all of which adversely affect the public health, safety and general welfare.

(b) These flood losses are created by the cumulative effect of obstructions in floodplains which cause an increase in flood heights and velocities, and by the occupancy of flood hazard areas by uses vulnerable to floods and hazards to other lands because they are inadequately elevated, flood-proofed or otherwise protected from flood damage.
(M.C.S., Ord. No. 26906, § 1, 5-5-16, eff. 6-1-16)

Sec. 78-53. Statement of purpose.

(a) The principal purpose of the regulations in this article is to prescribe minimum requirements for land use and control measures for flood prone areas in the city, as determined by FEMA. These regulations are based upon relevant technical storm data specific to Orleans Parish, as developed by the U.S. Army Corps of Engineers and the National Academy of Sciences. These measures must be applied uniformly throughout the community to all privately and publicly owned land within flood prone areas, based upon standards set forth in these regulations, as prescribed by FEMA.

(b) Official flood maps entitled Digital Flood Insurance Rate Maps (D-FIRM) for Orleans Parish, Louisiana (Community No. 225203, Panel Numbers 22071C0045F, 22071C0075F, 22071C0100F, 22071C0105F, 22071C0110F, 22071C0113F, 22071C0114F, 22071C0115F, 22071C0118F, 22071C0119F, 22071C0120F, 22071C0126F, 22071C0127F, 22071C0128F, 22071C0129F, 22071C0135F, 22071C0136F, 22071C0137F, 22071C0138F, 22071C0139F, 22071C0141F, 22071C0142F. 22071C0143F, 22071C0144F, 22071C0175F, 22071C0200F, 22071C0207F, 22071C0209F, 22071C0217F, 22071C0226F, 22071C0227F, 22071C0228F, 22071C0229F, 22071C0231F, 22071C0232F, 22071C0233F, 22071C0234F, 22071C0236F, 22071C0237F, 22071C0241F, 22071C0242F, 22071C0244F, 22071C0255F, 22071C0260F, 22071C0261F, 22071C0262F, 22071C0263F, 22071C0264F, 22071C0266F, 22071C0268F, 22071C0269F, 22071C0330F, 22071C0360F), dated September 30, 2016, and as may be amended by Letters of Map Amendment or Letters of Map Revision subsequently issued by FEMA, are hereby adopted by the City of New Orleans and are on file with the clerk of council and the department of safety and permits.

Sec. 78-54. Methods of reducing losses.

(a) In order to accomplish its purposes, this article uses the following methods:

(1) Restricts or prohibits uses that are dangerous to health, safety or property in times of flood, or cause excessive increase in flood heights or velocities;

(2) Requires that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction;

(3) Controls the alteration of natural floodplains, stream channels, and natural protective barriers, which are involved in the accommodation of floodwaters;

(4) Controls filling, grading, dredging and other development which may increase flood damage; and

(5) Prevents or regulates the construction of flood barriers which will unnaturally divert floodwaters or which may increase flood hazards to other lands.

(b) The city's participation in the FEMA sponsored Community Rating System (CRS) Program provides incentives for activities that reduce flood losses and support the sale of flood insurance. This program will result in flood premium reductions for city residents. The department of safety and permits is designated as the city's lead agency or CRS coordinator to the program. Part of the program's goal is to actively involve city departments and associated agencies in the development, advertising, and enforcement of any activity that would reduce property damage and residential liability in the event of flooding. Participation in the CRS Program includes annual review and revision of the floodplain management plan for the city, which may include a public hearing process, citywide mail-outs, and other forms of public advertisement. The plan will be made available to the public and interested parties through the city public library system, city planning commission, department of safety and permits, and the office of the clerk of council.
(M.C.S., Ord. No. 26906, § 1, 5-5-16, eff. 6-1-16)

Such a system typically includes hurricane tidal barriers, dams, reservoirs, levees or dikes. These specialized flood-modifying works are those constructed in conformance with sound engineering standards.

(23) *Functionally dependent use* means a use which cannot perform its intended purpose unless it is located or carried out in close proximity to water. The term includes only docking facilities, port facilities that are necessary for the loading and unloading of cargo or passengers, and ship building and ship repair facilities, but does not include long-term storage or related manufacturing facilities.

(29) *Lowest floor* means the lowest floor of the lowest enclosed area (including basement). An unfinished or flood-resistant enclosure, usable solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor;

provided, that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirement of section 60.3 of the NFIP regulations.

(30) *Manufactured home* means a structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when attached to the required utilities. The term *manufactured home* does not include *recreational vehicles*.

(36) *One hundred year (100-year) flood (storm).* See *"base flood"*.

(37) *One percent annual chance flood* means a flood of the magnitude that has a one percent chance of being equaled or exceeded in any given year. Often referred to as the "100-year" flood or base flood, the one percent annual chance flood is the standard most commonly used for floodplain management and regulatory purposes in the United States.

(38) *Program deficiency* means a defect in a community's floodplain management regulations or administrative procedures that impairs effective implementation of those floodplains management regulations or of the standards in section 60.3, 60.4, 60.5, or 60.6 of the NFIP regulations.

(40) *Remedy a violation* means to bring the structure or other development into compliance with state or local floodplain management regulations or, if this is not possible, to reduce the impacts of its noncompliance. Ways that impact may be reduced include protecting the structure or other affected developments from flood damages, implementing the enforcement provisions of the ordinance or otherwise deterring future similar violations, or reducing federal financial exposure with regard to the structure or other development.

(41) *Residential structure* means a building or portion thereof, designed or used exclusively for residential occupancy but not including trailers, hotels, motels or motor lodges.

(43) *Start of construction* for other than new construction or substantial improvements under the Coastal Barrier Resources Act (Pub. L. 97-348), includes substantial improvement and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, placement or other improvement was within 180 days of the permit date. The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for basement, footings, piers or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure.

(46) *Substantial improvement* means any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure before start of construction of the improvement. This term includes structures which have incurred substantial damage, regardless of the actual repair work performed. The term does not, however, include either:

i. Any project for improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions; or,

ii. Any alteration of a historic building provided that the alteration will not preclude the structure's continued designation as a historic structure.

(47) *V zone.* See *Coastal high-hazard area.*

(48) *Variance* is a grant of relief to a person from the requirements of this article when specific enforcement would result in unnecessary hardship. A variance, therefore, permits construction or development in a manner otherwise prohibited by this article. (For full requirements see section 60.6 of the NFIP Regulations.)

(49) *Violation* means the failure of a structure or other development to be fully compliant with the community's floodplain management regulations. A structure or other development without the elevation certificate, other certifications, or other evidence of compliance required in section 60.3(b)(5), (c)(4), (c)(10), (d)(3), (e)(2),

Sec. 78-80. First floor elevation required on permits.

All building permits issued for new construction or substantial improvement must have imprinted upon them the required mean sea level elevation of the lowest floor (including basement) based on the provisions of section 78-81 of this article.

(M.C.S., Ord. No. 26906, § 1, 5-5-16, eff. 6-1-16)

Sec. 78-81. Minimum elevation required.

(a) The lowest floor elevation of new residential and non-residential construction and substantial improvements must, at a minimum, be elevated to one foot above the BFE as determined by the FIRM adopted by this article, or three feet above the highest adjacent curb (in the absence of curbing, three feet above the crown of the highest adjacent roadway), whichever is higher.

(b) In cases where flood-proofing is utilized for non-residential new construction or substantial improvements, proper certificates from a registered professional engineer or licensed architect shall be obtained and maintained by the director. Such structures utilizing flood-proofing measures must be flood-proofed to a minimum of one foot above the requirement established above.

(c) Historic structures within the jurisdiction of the Historic District Landmarks Commission, Central Business District Historic District Landmarks Commission, Vieux Carré Commission, or which are certified as contributing elements of a National Register district, or property that is included in the definition of "historic structure" under the NFIP, shall be permitted to build to either the base flood elevation as determined by the FIRM adopted by this article, or 18 inches above highest adjacent grade, whichever is higher.

Sec. 78-82. Review of permits for construction.

(a) It shall be the responsibility of the director of the department of safety and permits to ensure that:

(1) The lowest-floor elevation of new or substantially improved residential structures be placed at or above the required minimum elevation as established by this article.

(2) The lowest-floor elevation of new or substantially improved non-residential structures be placed either at or above the required minimum elevation as established by this article; or, if below the required minimum elevation, that together with its attendant utility and sanitary facilities, be flood-proofed in accordance with the minimum requirements provided by this article.

(3) New construction or substantial improvements within special flood hazard areas be protected against flood damage, be anchored in accordance with the building code of the City of New Orleans to prevent flotation, collapse, or lateral movement of the structure, utilize construction materials and utility equipment that is

DIVISION 3. WAIVER OF REGULATIONS

Sec. 78-101. Function of the board of building standards and appeals.

The Board of Building Standards and Appeals of the City of New Orleans shall hear petitions for waivers of the regulations of this article or appeals of determinations of the director in the enforcement or administration of this article.

(M.C.S., Ord. No. 26906, § 1, 5-5-16, eff. 6-1-16)

Sec. 78-102. Standards and procedures for waivers and appeals.

(a) Variances:

(1) Variances may be issued for the reconstruction, rehabilitation or restoration of structures listed on the National Register of Historic Places or the State Inventory of Historic Places, without regard to the procedures set forth in the remainder of this ordinance.

(2) Variances may be issued for new construction and substantial improvements to be erected on a lot of one-half acre or less in size contiguous to and surrounded by lots with existing structures constructed below the base flood level, provided the relevant factors in section 78-77 have met the technical justification required for issuing the variance increases.

(3) Upon consideration of the factors noted above and the intent of this article, the BBSA may attach such conditions to the granting of variances as it deems necessary to further the purpose and objectives of this article.

(4) Variances shall not be issued within any designated floodway if any increase in flood levels during the base flood discharge would result.

(5) Variances may be issued for the repair or rehabilitation of historic structures upon a determination that the proposed repair or rehabilitation will not preclude the structure's continued designation as a historic structure and the variance is the minimum necessary to preserve the historic character and design of the structure.

(6) Prerequisites for granting variances:

i. Variances shall only be issued upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.

(7) Variances shall only be issued upon:

i. Showing a good and sufficient cause;

ii. A determination that failure to grant the variance would result in exceptional hardship to the applicant; and,

iii. A determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public, or conflict with existing local laws or ordinances.

(8) Any application to which a variance is granted shall be given written notice that the structure will be permitted to be built with the lowest floor elevation below the base flood elevation, and that the cost of flood insurance will be commensurate with the increased risk resulting from the reduced lowest floor elevation.

(9) Variances may be issued by the BBSA for new construction and substantial improvements and for other development necessary for the conduct of a functionally dependent use provided that:

i. The criteria outlined in this section are met; and,

ii. The structure or other development is protected by methods that

minimize flood damages during the base flood and create no additional threats to public safety.

(b) Appeals:

(1) The BBSA shall hear and render judgment on an appeal only when it is alleged there is an error in any requirement, decision, or determination made by the director in the enforcement or administration of this article.

(c) Any person or persons aggrieved by the decision of the BBSA may appeal such decision to a court of competent jurisdiction.

(d) The director shall maintain a record of all actions involving variances and appeals and shall report both to FEMA upon request.

DIVISION 4. FLOOD HAZARD REDUCTION

Sec. 78-121. General standards.

(a) In all special flood hazard areas, the following provisions are required for all new construction and substantial improvements:

(1) All new construction or substantial improvements shall be designed or modified and adequately anchored to prevent the flotation, collapse, or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy.

(2) All new construction or substantial improvements shall be constructed by methods and practices that minimize flood damage.

(3) All new construction or substantial improvements shall be constructed with materials resistant to flood damage.

(4) All new construction or substantial improvements shall be constructed with electrical, heating, ventilation, plumbing, and air conditioning equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.

(5) New and replacement water supply systems shall be designed to minimize or eliminate the infiltration of floodwaters into the system.

(6) New and replacement sanitary sewerage systems shall be designed to minimize or eliminate the infiltration of floodwaters into the system or discharge from the system into floodwaters.

(7) On-site waste disposal systems shall be located to avoid impairment to them or contamination from them during flooding.
(M.C.S., Ord. No. 26906, § 1, 5-5-16, eff. 6-1-16)

Sec. 78-122. Specific standards.

(a) In all areas within Orleans Parish, the following provisions are required to ensure the required minimum elevation as established by this article are met:

(1) *Residential construction.* New construction and substantial improvement of any residential structure shall have the lowest floor (including basement) elevated to the required minimum elevation as established by this article. A registered professional engineer, architect, or land surveyor shall submit a certification to the director that the standard of this subsection is satisfied prior to issuance of a certificate of occupancy.

(2) *Nonresidential construction.* New construction and substantial improvements of any commercial, industrial or other nonresidential structure shall either have the lowest floor (including basement) elevated to or above the required minimum elevation or, together with attendant utility and sanitary facilities, be designed so that any area below the required minimum elevation of this article is flood-proofed, with walls substantially impermeable to the passage of water and

with structural components having the capability of resisting hydrostatic and hydrodynamic loads and the effect of buoyancy. A registered professional engineer or architect shall develop and/or review structural design, specifications and plans for the construction, and shall certify that the design and methods of construction are in accordance with accepted standards of practice as outlined in this subsection prior to issuance of a certificate of occupancy. A record of such certification which includes the specific elevation (in relation to mean sea level) to which such structures are flood-proofed shall be maintained by the director.

(3) *Enclosure.* New construction and substantial improvements with fully enclosed areas below the lowest floor that are subject to flooding shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or architect or meet or exceed the following minimum criteria:

i. A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided.

ii. The bottom of all openings shall be no higher than one foot above grade.

iii. Openings may be equipped with screens, louvers, valves or other coverings or devices provided that they permit the automatic entry and exit of floodwaters.

(M.C.S., Ord. No. 26906, § 1, 5-5-16, eff. 6-1-16)

Sec. 78-123. Manufactured homes—Compliance with regulations.

(a) The director shall require that the following provisions are complied with in the construction and operation of new manufactured home parks:

(1) Over-the-top ties shall be provided at or near each of the four corners of a manufactured home with two additional ties per side. Frame ties shall be provided at each corner of a manufactured home, with five additional ties per side at intermediate points; provided, however, that a manufactured home less than 50 feet in length shall require but four additional ties per side. All components of the anchoring system for a manufactured home shall be capable of carrying a force of 4,800 pounds. Any additions to a manufactured home shall be similarly anchored.

(2) Should pile foundations be utilized for trailers, the design shall be submitted over the signature of a state-registered civil engineer or a state-registered architect.

(3) These regulations shall apply in all zoning districts where manufactured homes are classified as permitted or conditional uses, or enjoy legal, non-conforming status under the provisions of the comprehensive zoning ordinance of the City of New Orleans.

(b) All manufactured homes to be placed within zone A shall be installed using methods and practices which minimize flood damage. For the purpose of this requirement, manufactured homes must be elevated and anchored to resist flotation, collapse or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. This requirement is in addition to applicable state and local anchoring requirements for resisting wind forces.

(c) All manufactured homes shall be in compliance with section 78-122.

(d) All manufactured homes to be placed or substantially improved within zone AE on the community's FIRM shall be elevated on a permanent foundation such that the elevation of the structural "I" beam is at or above the required minimum elevation as established by this article; and shall be securely anchored to an adequately anchored foundation system in accordance with the provision of this section.
(M.C.S., Ord. No. 26906, § 1, 5-5-16, eff. 6-1-16)

Sec. 78-124. Same—Standards for placement and elevation.

It shall be required in manufactured home parks that stands or lots be elevated on compacted fill or on pilings so that the elevation of the structural "I" beam is at or above the required minimum elevation as established by this article, adequate surface drainage and access for a hauler are provided and that in the instance of elevation on pilings, lots are large enough to permit steps. Piling foundations are to be placed in stable soil no more than ten feet apart, and reinforcement is to be provided for pilings more than six feet above the ground level.
(M.C.S., Ord. No. 26906, § 1, 5-5-16, eff. 6-1-16)

Sec. 78-125. Same—Restricted in coastal high-hazard areas.

Manufactured homes are prohibited in coastal high-hazard areas unless they are currently in existing manufactured home parks.
(M.C.S., Ord. No. 26906, § 1, 5-5-16, eff. 6-1-16)

Sec. 78-126. Same—Adherence to regulations in coastal high-hazard areas.

All manufactured home parks in coastal high-hazard areas must meet construction regulations as described in sections 78-122 through 78-125.
(M.C.S., Ord. No. 26906, § 1, 5-5-16, eff. 6-1-16)

Sec. 78-127. Standards for subdivision proposals.

(a) All proposals for the development of subdivisions, including manufactured home parks, shall be consistent with the provisions of this article.

(b) All proposals for the development of subdivisions, including manufactured home parks, shall meet building permit requirements of division 3 of this article.

(d) All proposals for the development of subdivisions, including manufactured home parks, shall have adequate drainage to reduce exposure to flood hazards.

(e) All proposals for the development of subdivisions, including manufactured home parks, shall have public utilities and facilities such as sewer, gas, electrical and water systems, located and constructed to minimize or eliminate flood damage.
(M.C.S., Ord. No. 26906, § 1, 5-5-16, eff. 6-1-16)

Sec. 78-128. Standards for placement of recreational vehicles in AE, V, and X zones.

(a) All recreational vehicles placed on sites within AE, V or X zones, as determined by the FIRM adopted pursuant to this article, shall either:

(1) Be on the site for fewer than 180 consecutive days.

(2) Be licensed and registered and ready for highway use.

i. A recreational vehicle is ready for highway use if it is on its wheels or jacking system, is attached to the site only by quick disconnect type utilities and security devices, and has no permanently attached additions or appurtenances.

(M.C.S., Ord. No. 26906, § 1, 5-5-16, eff. 6-1-16)

Sec. 78-129. Coastal high-hazard areas.

(a) Located within the special flood hazard areas, established in the FIRMs adopted pursuant to this article, are areas designated as coastal high-hazard areas. These areas have special flood hazards associated with high-

velocity waters from tidal surges and hurricane wave wash; therefore, in addition to meeting all provisions outlined in this article, the following provisions must also apply:

(1) The elevation, in relation to mean sea level, must be obtained measured to the bottom of the lowest horizontal structural member of the lowest floor (excluding pilings and columns) of all new and substantially improved structures, and whether or not such structures contain a basement. The director shall maintain a record of all such information.

(2) All new construction shall be located landward of the reach of mean high tide.

(3) All new construction and substantial improvements shall be elevated on pilings and columns so that:

i. The bottom of the lowest horizontal structural member of the lowest floor (excluding the pilings or columns) is elevated to or above the base flood level;

ii. The pile or column foundation and structure attached thereto is anchored to resist flotation, collapse and lateral movement due to the effects of wind and water loads acting simultaneously on all building components; wind and water loading values shall each have a one percent chance of being equaled or exceeded in any given year 100-year mean recurrence interval;

iii. A registered professional engineer shall develop or review the structural design, specifications and plans for the construction and shall certify that the design and methods of construction to be used are in accordance with accepted standards of practice for meeting the provisions of this paragraph (3).

(4) All new construction and substantial improvements shall have the space below the lowest floor either free of obstruction or constructed with non-supporting breakaway walls, open wood latticework, or insect screening intended to collapse under wind and water loads without causing collapse, displacement or other structural damage to the elevated portion of the building or supporting foundation system.

i. For the purpose of this section, a breakaway wall shall have a design safe loading resistance of not less than ten nor more than 20 pounds per square foot.

ii. Use of breakaway walls which exceed a design safe loading resistance of 20 pounds per square foot (either by design or when so required by local or state codes) may be permitted only if a registered professional engineer certifies that the designs proposed meet the following conditions:

1. Breakaway wall collapse shall result from a water load less than that which would occur during the base flood; and

2. The elevated portion of the building and supporting foundation system shall not be subject to collapse, displacement or other structural damage due to the effects of wind and water loads acting simultaneously on all building components (structural and nonstructural). Maximum wind and water loading values to be used in this determination shall each have not more than one percent chance of being equaled or exceeded in any given year (100-year means recurrence interval).

(5) If breakaway walls are utilized, such enclosed space shall be usable solely for the parking of vehicles, building access or storage. Such space shall not be used for human habitation.

(6) Use of fill for the structural support of buildings is prohibited.

(7) Man-made alteration(s) of sand dunes and mangrove stands, which would increase potential flood damage is prohibited.

Secs. 78-130—78-139. Reserved.

Sec. 78-140. Neighborhood rebuilding equity procedures.

(1) *Equitable distribution of disaster-mitigation resources.* Following declaration of an emergency by city, state or federal governmental officials relative to the aftermath of storm damage or the resulting destruction caused by a natural disaster and all subsequent storm-related effects occurring within the boundaries of Orleans Parish or any affected geographic area contained therein, including any land mass designated as a disaster zone in part or in full, shall be determined eligible for fair and equitable participation and consecutive distribution of funds derived through federal, state or city resources including private external funding donated for city use and made available to the city for the purpose of disaster mitigation, neighborhood reclamation and infrastructure restoration.

The City of New Orleans, being a political subdivision of the State of Louisiana and governed by its Home Rule Charter, shall exercise its authority and fiduciary responsibilities to protect the public interest through furtherance of disaster mitigation, neighborhood reclamation and infrastructure restoration programs and services which affirm equal protection of the rights of all citizens and Orleans Parish residents through equal and unabridged access to disaster assistance.

(2) *Disaster area rebuilding not exclusive or restricted by geographic area or zone.* Equal access to disaster mitigation, neighborhood reclamation and infrastructure restoration programs and services, including rebuilding activities and projects initiated by property owners in disaster-affected areas or disaster zones, shall not be made exclusive or restricted to select, designated or specifically defined geographic areas with damage and shall include all areas within Orleans Parish where damage has been assessed and determined to be within a disaster affected district, zone or neighborhood area or any combination thereof without consideration or predication on post storm population displacement data or any resulting effects of forced or accelerated out-migration due to disaster conditions in scattered or concentrated geographic areas of the city.

Development and implementation of economic target areas to initiate disaster-assistance programs which by construction and effect result in specific exclusion of designated neighborhood populations by household income, median income classification, adjusted income classification or statistical profile ranking from general participation in city initiated disaster mitigation, neighborhood reclamation and infrastructure restoration services shall be prohibited.

(3) *Exclusionary zoning classification prohibited.* Changes in zoning classification or reclassification of disaster-affected residential neighborhood areas shall not exclude redevelopment of existing single-family, two-family and multiunit residential structures and their accessory structures determined to be in zoning compliance with city regulations prior to storm occurrence or constructed prior to any defined changes in land use designation relative to implementation and enforcement of a comprehensive land use master plan.

(a) New zoning designation or reclassifications shall not create or result in forced reductions or forced increases in the number of residential structures by legal restraint to lower- or higher-density configurations and not excluding necessary demolitions to remove disaster-related debris. Neighborhood residential areas and their prior legally authorized zoning status shall be maintained for the purpose of rebuilding and replacement of storm-damaged structures located in designated neighborhood areas or border areas in immediate geographic proximity to zoning designated neighborhood areas where concentrated density includes low-income populations or any affected

economic class considered indigent or where zoning classification if reduced or redefined results in numerical neighborhood housing losses including any zoning action which directly or indirectly causes forced out-migration by change of land use and prevents repopulation in disaster affected areas.

(b) Temporary demographic shift, accelerated natural attrition or any cyclical displacement shall not be considered sufficient cause for neighborhood arameter [parameter] reduction or redrafting of any residential zoning district designations which may result in fragmentation of concentrated local neighborhood areas.

(3) *Equal access to government disaster assistance resources.*

(a) Allocation of all available government resources, including direct services provided by the city singularly or in conjunction with other public or private entities, shall include equal access to government assistance in disaster affected areas based on defined needs and shall be utilized to the greatest extent feasible.
